15

00:01:42,890 --> 00:01:40,609

from the uppermost Tower of my

16

00:01:45,109 --> 00:01:42,900

impregnable Fortress here high in the

17

00:01:47,810 --> 00:01:45,119

Rocky Mountains Big Sky howdy to

18

00:01:51,289 --> 00:01:49,190

how much for being here I truly

19

00:01:53,749 --> 00:01:51,299

appreciate it

20

00:01:56,090 --> 00:01:53,759

always fun visiting with new people and

21

00:01:57,889 --> 00:01:56,100

different shows and getting to talk to

22

00:02:00,230 --> 00:01:57,899

other people with different standpoints

23

00:02:02,530 --> 00:02:00,240

and viewpoints and sharing some

24

00:02:05,630 --> 00:02:02,540

information that's what I'm here for

25

00:02:07,609 --> 00:02:05,640

so tell us about your experiences

26

00:02:09,050 --> 00:02:07,619

because when we first talked back in

27

00:02:11,270 --> 00:02:09,060

November when we were setting this up

28

00:02:14,270 --> 00:02:11,280

you told me about your experiences and

29

00:02:16,430 --> 00:02:14,280

they were amazing like I I was stunned

30

00:02:18,650 --> 00:02:16,440

and I think the audience would love to

31

00:02:20,530 --> 00:02:18,660

hear them

32

00:02:23,089 --> 00:02:20,540

um well

33

00:02:25,610 --> 00:02:23,099

that goes back in an awfully long way I

34

00:02:28,010 --> 00:02:25,620

had my first sighting in 1972 when I was

35

00:02:29,990 --> 00:02:28,020

a 10 year old get out sledding middle of

36

00:02:32,869 --> 00:02:30,000

the winter and I had my second sighting

37

00:02:34,490 --> 00:02:32,879

when uh one of them came and visited my

38

00:02:37,010 --> 00:02:34,500

house actually where I was growing up

39

00:02:39,290 --> 00:02:37,020

and I was 15 years old so I was five

40

00:02:44,030 --> 00:02:39,300

years later 1977.

41

00:02:45,410 --> 00:02:44,040

and um yeah so ever since then after I

42

00:02:46,430 --> 00:02:45,420

had my first sighting I figured if I

43

00:02:48,110 --> 00:02:46,440

just stayed out of the woods I wouldn't

44

00:02:50,330 --> 00:02:48,120

run into one again so that was all good

45

00:02:51,890 --> 00:02:50,340

but then when the show one of them

46

00:02:54,170 --> 00:02:51,900

showed up on the yard five years later

47

00:02:56,630 --> 00:02:54,180

and went oh they're staying out of the

48

00:02:59,390 --> 00:02:56,640

woods thing isn't working so I guess it

49

00:03:00,710 --> 00:02:59,400

behooves me to find out more about what

50

00:03:03,290 --> 00:03:00,720

the heck these things are that are

51  
00:03:04,970 --> 00:03:03,300  
apparently running around the woods here

52  
00:03:07,430 --> 00:03:04,980  
um so and that's more or less when I got

53  
00:03:10,009 --> 00:03:07,440  
started so I'd say the uh even though I

54  
00:03:13,009 --> 00:03:10,019  
had my first sighting five years before

55  
00:03:15,110 --> 00:03:13,019  
it I would say I started doing bigquit

56  
00:03:17,089 --> 00:03:15,120  
research 45 years ago

57  
00:03:18,350 --> 00:03:17,099  
and after you're aware that they're

58  
00:03:20,530 --> 00:03:18,360  
there it doesn't matter if you're going

59  
00:03:22,490 --> 00:03:20,540  
in the woods to do something different

60  
00:03:24,589 --> 00:03:22,500  
whenever you're in the woods you're

61  
00:03:26,089 --> 00:03:24,599  
looking for them or you're you know

62  
00:03:29,809 --> 00:03:26,099  
expecting them to be around or looking

63  
00:03:31,430 --> 00:03:29,819

for signs of them or whatever so

64

00:03:34,430 --> 00:03:31,440

um after it doesn't take you that long

65

00:03:35,750 --> 00:03:34,440

especially if you travel around and go

66

00:03:37,910 --> 00:03:35,760

out in the woods in different states and

67

00:03:39,470 --> 00:03:37,920

stuff to be able to pick up on where

68

00:03:41,210 --> 00:03:39,480

they're liable to be and how to find

69

00:03:43,729 --> 00:03:41,220

signs of them and whatnot

70

00:03:45,410 --> 00:03:43,739

so just you know years and years and

71

00:03:48,110 --> 00:03:45,420

years and years of practice

72

00:03:50,509 --> 00:03:48,120

uh once they realize that you're

73

00:03:52,610 --> 00:03:50,519

actually out uh trying to trying to find

74

00:03:55,130 --> 00:03:52,620

them uh they start researching you

75

00:03:56,869 --> 00:03:55,140

apparently and if they decide they like

76  
00:03:58,430 --> 00:03:56,879  
you then practically anywhere you walk

77  
00:04:01,850 --> 00:03:58,440  
into the woods are liable to show up

78  
00:04:04,850 --> 00:04:01,860  
which is extremely disturbing

79  
00:04:07,190 --> 00:04:04,860  
um but I bet yeah

80  
00:04:08,690 --> 00:04:07,200  
I went for a little nature hike with one

81  
00:04:10,130 --> 00:04:08,700  
of my friends at a little nature area

82  
00:04:12,589 --> 00:04:10,140  
that's right here on the edge of

83  
00:04:14,929 --> 00:04:12,599  
Missoula and what we were actually doing

84  
00:04:16,909 --> 00:04:14,939  
was the river was really low so we could

85  
00:04:18,650 --> 00:04:16,919  
walk across it and there's a whole chain

86  
00:04:19,550 --> 00:04:18,660  
of islands there usually you can't get

87  
00:04:21,590 --> 00:04:19,560  
to them

88  
00:04:22,850 --> 00:04:21,600

so we were going to go walk and canvas

89

00:04:24,110 --> 00:04:22,860

all these different islands and the

90

00:04:25,610 --> 00:04:24,120

first one over there was lots of human

91

00:04:27,830 --> 00:04:25,620

tracks on it people had gotten over

92

00:04:30,590 --> 00:04:27,840

there the second one over there wasn't

93

00:04:31,850 --> 00:04:30,600

any there was Mountain Lion tracks but

94

00:04:33,170 --> 00:04:31,860

there wasn't any human tracks and the

95

00:04:34,850 --> 00:04:33,180

third one over there was really a whole

96

00:04:36,530 --> 00:04:34,860

lot of nothing so you're just walking

97

00:04:38,689 --> 00:04:36,540

around looking at all this stuff and

98

00:04:41,990 --> 00:04:38,699

then when we came back I posted up the

99

00:04:43,610 --> 00:04:42,000

video and I said this is just a nature

100

00:04:45,170 --> 00:04:43,620

hike for Thanksgiving for people that

101  
00:04:46,730 --> 00:04:45,180  
couldn't get out for Thanksgiving here's

102  
00:04:48,409 --> 00:04:46,740  
something to look at and there's no

103  
00:04:49,969 --> 00:04:48,419  
Bigfoot in this video or right away

104  
00:04:52,249 --> 00:04:49,979  
three of my friends that are Bigfoot

105  
00:04:54,469 --> 00:04:52,259  
researchers sent me screen captures and

106  
00:04:56,990 --> 00:04:54,479  
went there's a Bigfoot right here

107  
00:04:58,909 --> 00:04:57,000  
well the more disturbing the more

108  
00:05:01,370 --> 00:04:58,919  
disturbing thing of it is out of this

109  
00:05:03,770 --> 00:05:01,380  
20-minute video they all pick the exact

110  
00:05:05,510 --> 00:05:03,780  
same spot of the video and circled the

111  
00:05:06,710 --> 00:05:05,520  
same place and went there's a Bigfoot

112  
00:05:10,850 --> 00:05:06,720  
right here

113  
00:05:12,530 --> 00:05:10,860

oh geez okay I guess I'm going to agree

114

00:05:14,450 --> 00:05:12,540

with you guys apparently there was a

115

00:05:16,070 --> 00:05:14,460

Bigfoot right there well the Bigfoot

116

00:05:18,830 --> 00:05:16,080

wasn't on the third island over and he

117

00:05:20,270 --> 00:05:18,840

wasn't on the second island over it was

118

00:05:22,550 --> 00:05:20,280

right on the main island whereas all the

119

00:05:24,890 --> 00:05:22,560

walking paths and people prowling around

120

00:05:26,210 --> 00:05:24,900

all the time he was just sitting just

121

00:05:27,830 --> 00:05:26,220

firing up inside the tree line to be

122

00:05:29,870 --> 00:05:27,840

watching us out in the river and that

123

00:05:31,010 --> 00:05:29,880

really blew my mind it's like wow you

124

00:05:32,990 --> 00:05:31,020

should have been on the other side of

125

00:05:34,010 --> 00:05:33,000

the river that people can't get to but

126

00:05:35,990 --> 00:05:34,020

you're right over there on the main

127

00:05:37,870 --> 00:05:36,000

hiking path on the island what the hell

128

00:05:40,249 --> 00:05:37,880

dude

129

00:05:43,249 --> 00:05:40,259

just kind of like keeping an eye on

130

00:05:45,409 --> 00:05:43,259

things basically his territory yeah I

131

00:05:47,210 --> 00:05:45,419

don't know I mean like I I really I've

132

00:05:49,730 --> 00:05:47,220

noticed that with other people that have

133

00:05:51,830 --> 00:05:49,740

had long-term interaction with them that

134

00:05:54,770 --> 00:05:51,840

apparently they like

135

00:05:57,110 --> 00:05:54,780

um that it it's really easy

136

00:05:58,610 --> 00:05:57,120

for these people to have Bigfoot

137

00:06:00,770 --> 00:05:58,620

encounters or find them you know and you

138

00:06:02,450 --> 00:06:00,780

always hear that thing well like seeing

139

00:06:04,129 --> 00:06:02,460

a Bigfoot is like being hit by lightning

140

00:06:05,749 --> 00:06:04,139

you know it's a one in a bazillion

141

00:06:07,310 --> 00:06:05,759

chance that it would ever happen to you

142

00:06:09,350 --> 00:06:07,320

that's true

143

00:06:11,450 --> 00:06:09,360

but when you start going and looking for

144

00:06:13,310 --> 00:06:11,460

them and you actually figure out what

145

00:06:15,409 --> 00:06:13,320

their little Trail markers mean and how

146

00:06:17,150 --> 00:06:15,419

to find them and all that sort of stuff

147

00:06:19,790 --> 00:06:17,160

they start paying attention

148

00:06:22,070 --> 00:06:19,800

if for no other reason then at that

149

00:06:23,809 --> 00:06:22,080

point you're becoming a threat

150

00:06:25,730 --> 00:06:23,819

because you're so good at finding them

151  
00:06:27,710 --> 00:06:25,740  
you can pretty much do it if you want to

152  
00:06:29,390 --> 00:06:27,720  
so then they get really kind of

153  
00:06:30,830 --> 00:06:29,400  
concerned about what your intentions are

154  
00:06:33,469 --> 00:06:30,840  
and I think that's when they really

155  
00:06:34,670 --> 00:06:33,479  
start scoping on you to see you know if

156  
00:06:36,890 --> 00:06:34,680  
you got bad intentions or good

157  
00:06:38,450 --> 00:06:36,900  
intentions or whatever and if they

158  
00:06:40,610 --> 00:06:38,460  
decide that you do have good intentions

159  
00:06:43,490 --> 00:06:40,620  
and they like you well then they still

160  
00:06:47,210 --> 00:06:43,500  
keep an eye on you all the time

161  
00:06:48,590 --> 00:06:47,220  
so yeah I know I I have friends that can

162  
00:06:50,450 --> 00:06:48,600  
do this too they just go into the woods

163  
00:06:52,249 --> 00:06:50,460

and if it's a Bigfoot hotspot or

164

00:06:54,170 --> 00:06:52,259

something I almost guarantee something's

165

00:06:55,790 --> 00:06:54,180

gonna happen but they can go into areas

166

00:06:56,689 --> 00:06:55,800

where really they probably shouldn't be

167

00:06:58,189 --> 00:06:56,699

around

168

00:07:00,230 --> 00:06:58,199

and they'll still catch them on camera

169

00:07:02,749 --> 00:07:00,240

and it's like what how the hell are they

170

00:07:05,510 --> 00:07:02,759

here you know Blaine Tyler talked about

171

00:07:08,629 --> 00:07:05,520

that he was on one side of uh Algonquin

172

00:07:10,670 --> 00:07:08,639

Park and and got a couple pictures of uh

173

00:07:12,170 --> 00:07:10,680

some that were up there and then he

174

00:07:14,749 --> 00:07:12,180

drove way to the far side of the park

175

00:07:16,909 --> 00:07:14,759

many many many many miles away back to

176

00:07:18,830 --> 00:07:16,919

his campsite and the next night they

177

00:07:22,430 --> 00:07:18,840

were there

178

00:07:25,249 --> 00:07:22,440

oh geez just like waiting for him

179

00:07:27,469 --> 00:07:25,259

basically yeah like oh yeah he's over

180

00:07:29,510 --> 00:07:27,479

there camping let's go visit him he came

181

00:07:31,430 --> 00:07:29,520

and visited us you know and Blaine

182

00:07:33,529 --> 00:07:31,440

anybody that doesn't know go check out

183

00:07:36,830 --> 00:07:33,539

Blaine Tyler's Channel that's uh blame

184

00:07:39,770 --> 00:07:36,840

to the Y and Tyler with Y and he's up in

185

00:07:41,629 --> 00:07:39,780

Northeast Ontario and has already gone

186

00:07:43,550 --> 00:07:41,639

past his 10th year anniversary on

187

00:07:45,350 --> 00:07:43,560

YouTube this guy's gotten some of the

188

00:07:48,589 --> 00:07:45,360

most amazing Bigfoot videos and pictures

189

00:07:51,409 --> 00:07:48,599

and experiences and stuff uh and like

190

00:07:54,050 --> 00:07:51,419

nobody down here in the lower 48 seems

191

00:07:55,850 --> 00:07:54,060

to know who he is uh I've had him on my

192

00:07:58,730 --> 00:07:55,860

show a bunch of times amongst other

193

00:08:01,189 --> 00:07:58,740

things he got on video it's probably

194

00:08:03,589 --> 00:08:01,199

of the largest Sasquatch that anybody's

195

00:08:06,589 --> 00:08:03,599

ever caught on video there was a recent

196

00:08:09,350 --> 00:08:06,599

video that uh Fred Ruhl put out on

197

00:08:10,670 --> 00:08:09,360

sub-arctic Alaska Sasquatch and then for

198

00:08:13,490 --> 00:08:10,680

whatever reason he had to take the video

199

00:08:16,189 --> 00:08:13,500

down again but somebody who was out

200

00:08:17,330 --> 00:08:16,199

doing a helicopter survey just on a

201  
00:08:19,129 --> 00:08:17,340  
chunk of land that would have been

202  
00:08:20,869 --> 00:08:19,139  
staked out for Prospectors apparently

203  
00:08:22,610 --> 00:08:20,879  
and this is way up in Alaska so there's

204  
00:08:24,529 --> 00:08:22,620  
no Road you have to fly into the

205  
00:08:25,969 --> 00:08:24,539  
helicopter land in the field check the

206  
00:08:27,890 --> 00:08:25,979  
surveys take blah blah blah while he's

207  
00:08:29,749 --> 00:08:27,900  
doing that he's filming everything and

208  
00:08:32,089 --> 00:08:29,759  
there's this absolutely hurricane big

209  
00:08:33,829 --> 00:08:32,099  
ginormous Bigfoot standing in the

210  
00:08:36,170 --> 00:08:33,839  
background taller than the trees that

211  
00:08:38,269 --> 00:08:36,180  
it's standing in that he catches on

212  
00:08:40,969 --> 00:08:38,279  
video and doesn't even realize it

213  
00:08:42,649 --> 00:08:40,979

well Blaine also same thing when he

214

00:08:45,470 --> 00:08:42,659

caught his he didn't realize that he was

215

00:08:48,590 --> 00:08:45,480

in this Gravel Pit up in uh you know

216

00:08:49,790 --> 00:08:48,600

Northeast Ontario and he knew there was

217

00:08:51,829 --> 00:08:49,800

some some around there he was actually

218

00:08:54,230 --> 00:08:51,839

there documenting their tracks filming

219

00:08:55,730 --> 00:08:54,240

them getting track casts he had evidence

220

00:08:56,990 --> 00:08:55,740

that the little ones were there poking

221

00:08:58,970 --> 00:08:57,000

holes in the ground of sticks or

222

00:09:01,070 --> 00:08:58,980

something and nobody was standing there

223

00:09:02,630 --> 00:09:01,080

filming that he takes his camera and he

224

00:09:05,150 --> 00:09:02,640

brings it up and then he turns it to the

225

00:09:07,610 --> 00:09:05,160

left and does this long pan across the

226

00:09:09,230 --> 00:09:07,620

length of this huge Gravel Pit

227

00:09:10,790 --> 00:09:09,240

well he didn't realize it at the time

228

00:09:12,410 --> 00:09:10,800

because I found it in his video later on

229

00:09:14,269 --> 00:09:12,420

when he brought the camera up there was

230

00:09:16,370 --> 00:09:14,279

a gray nine footer about 60 feet away

231

00:09:18,650 --> 00:09:16,380

from him standing there watching him but

232

00:09:20,210 --> 00:09:18,660

he completely passed and as he brought

233

00:09:21,290 --> 00:09:20,220

the camera across the hillside both of

234

00:09:23,570 --> 00:09:21,300

us think there's more of them on that

235

00:09:25,190 --> 00:09:23,580

Hillside watching them but the camera

236

00:09:27,230 --> 00:09:25,200

the quality of the video is good enough

237

00:09:28,610 --> 00:09:27,240

to be able to pick him out but when he

238

00:09:31,190 --> 00:09:28,620

does pan to the end there's a whole

239

00:09:32,630 --> 00:09:31,200

bunch of uh equipment that's lying down

240

00:09:35,750 --> 00:09:32,640

there in the far end of the gravel pit

241

00:09:38,030 --> 00:09:35,760

and there's this gigantic Shadow next to

242

00:09:40,190 --> 00:09:38,040

this tree and he didn't notice it when

243

00:09:42,710 --> 00:09:40,200

he was filming it but when he he looked

244

00:09:45,530 --> 00:09:42,720

at the video afterwards he went there's

245

00:09:48,350 --> 00:09:45,540

nothing there to cast that shadow

246

00:09:50,290 --> 00:09:48,360

and the light is glinting off the shadow

247

00:09:53,269 --> 00:09:50,300

that's hair

248

00:09:54,530 --> 00:09:53,279

what uh you know so then the next time

249

00:09:56,030 --> 00:09:54,540

you could get a chance to go back there

250

00:09:58,490 --> 00:09:56,040

he went back to the exact exact same

251  
00:10:00,530 --> 00:09:58,500  
spot he was trying to line up where this

252  
00:10:01,790 --> 00:10:00,540  
thing was and how far away it was and

253  
00:10:03,710 --> 00:10:01,800  
then he got scared the second time

254  
00:10:05,750 --> 00:10:03,720  
because he realized it was like twice as

255  
00:10:07,790 --> 00:10:05,760  
far away as he thought it was

256  
00:10:10,009 --> 00:10:07,800  
and the nice thing about it was there

257  
00:10:12,650 --> 00:10:10,019  
was an obvious marker where it was

258  
00:10:14,750 --> 00:10:12,660  
standing there was a big tree that had a

259  
00:10:16,670 --> 00:10:14,760  
y in it at a certain point on the tree

260  
00:10:18,470 --> 00:10:16,680  
and he could see on the video in

261  
00:10:20,570 --> 00:10:18,480  
relation to where the tree was it was

262  
00:10:22,670 --> 00:10:20,580  
standing next to how tall its head was

263  
00:10:24,710 --> 00:10:22,680

so all he had to do really was go to

264

00:10:26,090 --> 00:10:24,720

where that tree was and measure up to

265

00:10:28,790 --> 00:10:26,100

that y in the tree and he'd have a

266

00:10:31,910 --> 00:10:28,800

pretty good guess at the height

267

00:10:34,490 --> 00:10:31,920

that y in the tree is almost 20 feet up

268

00:10:36,590 --> 00:10:34,500

so it had to be at least 17 feet tall

269

00:10:39,170 --> 00:10:36,600

and this wasn't some tall skinny you

270

00:10:41,470 --> 00:10:39,180

know uh giant looking thing this it was

271

00:10:44,630 --> 00:10:41,480

built like the Hulk

272

00:10:47,329 --> 00:10:44,640

and we we talked about that actually in

273

00:10:49,130 --> 00:10:47,339

November you told me how tall Bigfoot

274

00:10:53,150 --> 00:10:49,140

could actually get and I was actually

275

00:10:56,569 --> 00:10:53,160

stunned you said they could get like 20

276

00:10:59,389 --> 00:10:56,579

feet tall yeah actually I'm I'm pretty

277

00:11:02,449 --> 00:10:59,399

stunned too I was talking to uh

278

00:11:03,829 --> 00:11:02,459

Robin McRae uh who's Bigfoot psychic and

279

00:11:06,769 --> 00:11:03,839

she's in touch with one of the groups

280

00:11:08,329 --> 00:11:06,779

that I do interactions with up here and

281

00:11:09,530 --> 00:11:08,339

I was talking about the size of some of

282

00:11:10,970 --> 00:11:09,540

the structures up here because we've

283

00:11:12,530 --> 00:11:10,980

literally found structures that are five

284

00:11:15,470 --> 00:11:12,540

and six stories tall

285

00:11:17,810 --> 00:11:15,480

these aren't twig structures they're

286

00:11:19,130 --> 00:11:17,820

Mega structures and they've got the

287

00:11:21,470 --> 00:11:19,140

building materials up here to do it

288

00:11:23,210 --> 00:11:21,480

because we've got like Lodgepole Pines

289

00:11:24,769 --> 00:11:23,220

so they can make a structure that's five

290

00:11:26,750 --> 00:11:24,779

or six stories tall just by ripping

291

00:11:29,269 --> 00:11:26,760

Lodgepole Pines out and moving those

292

00:11:31,310 --> 00:11:29,279

around but you know most people have no

293

00:11:33,530 --> 00:11:31,320

idea that how much these things weigh I

294

00:11:34,730 --> 00:11:33,540

didn't either until I asked some loggers

295

00:11:37,310 --> 00:11:34,740

actually

296

00:11:40,430 --> 00:11:37,320

um uh Richard Williams found the first

297

00:11:42,829 --> 00:11:40,440

giant X up here that that we found and

298

00:11:44,449 --> 00:11:42,839

that thing was about 50 feet tall and I

299

00:11:46,009 --> 00:11:44,459

asked three different loggers okay that

300

00:11:47,870 --> 00:11:46,019

one of those pine trees that's making

301  
00:11:50,690 --> 00:11:47,880  
that X right there what looks like an ax

302  
00:11:52,430 --> 00:11:50,700  
what does that weigh and they all gave

303  
00:11:55,030 --> 00:11:52,440  
me the same exact estimate about three

304  
00:11:59,650 --> 00:11:57,650  
what can pick up it's a three-ton log

305  
00:12:03,170 --> 00:11:59,660  
and walk around with it

306  
00:12:04,670 --> 00:12:03,180  
exactly exactly and speaking of Robin it

307  
00:12:06,530 --> 00:12:04,680  
looks like she is in the chat tonight

308  
00:12:08,990 --> 00:12:06,540  
cheering you on

309  
00:12:11,090 --> 00:12:09,000  
yeah so anyway the point is to miss this

310  
00:12:13,250 --> 00:12:11,100  
conversation with Robin I'm saying you

311  
00:12:16,490 --> 00:12:13,260  
know these guys have got to be

312  
00:12:17,930 --> 00:12:16,500  
13 14 feet tall like lag size up here in

313  
00:12:19,790 --> 00:12:17,940

order to make structures that big and

314

00:12:20,810 --> 00:12:19,800

she starts laughing and I go what's so

315

00:12:23,870 --> 00:12:20,820

funny and she goes you just got

316

00:12:26,329 --> 00:12:23,880

corrected they said 18 feet I'm like oh

317

00:12:28,250 --> 00:12:26,339

wow okay

318

00:12:30,230 --> 00:12:28,260

it won't surprise me at all considering

319

00:12:33,410 --> 00:12:30,240

some of the stuff we found whoever made

320

00:12:35,329 --> 00:12:33,420

it had to be absolutely gargantuan that

321

00:12:37,190 --> 00:12:35,339

is massive and it's going to bring me to

322

00:12:39,590 --> 00:12:37,200

my next question and I did ask you this

323

00:12:42,050 --> 00:12:39,600

how how come nobody can see them if

324

00:12:44,629 --> 00:12:42,060

they're if they're that tall are they

325

00:12:47,509 --> 00:12:44,639

just that well cloaked are they that you

326

00:12:49,310 --> 00:12:47,519

know by the time they get that gigantic

327

00:12:52,250 --> 00:12:49,320

they're not babies anymore they've been

328

00:12:54,410 --> 00:12:52,260

around a long time and first of all they

329

00:12:56,150 --> 00:12:54,420

know how to avoid us and even being

330

00:12:58,490 --> 00:12:56,160

gigantic look we're not looking for

331

00:13:00,889 --> 00:12:58,500

anything that gigantic all it has to do

332

00:13:02,810 --> 00:13:00,899

is sit still and we won't see it

333

00:13:04,670 --> 00:13:02,820

if it's in the standard trees all they

334

00:13:07,009 --> 00:13:04,680

have to do is stand there and we won't

335

00:13:08,870 --> 00:13:07,019

see it because their their legs look

336

00:13:10,550 --> 00:13:08,880

like tree trunks I've got pictures of

337

00:13:12,769 --> 00:13:10,560

them pulling this trick where they think

338

00:13:14,990 --> 00:13:12,779

we're not noticing them because yeah all

339

00:13:17,030 --> 00:13:15,000

we see is your legs but yeah we can

340

00:13:18,889 --> 00:13:17,040

actually see up to about your navel so

341

00:13:21,470 --> 00:13:18,899

you can see your crotch too those aren't

342

00:13:23,090 --> 00:13:21,480

tree trunks

343

00:13:24,710 --> 00:13:23,100

this is the kind of stuff they do so we

344

00:13:27,050 --> 00:13:24,720

we just don't key in it don't forget

345

00:13:28,610 --> 00:13:27,060

humans are lousy at this kind of thing

346

00:13:31,550 --> 00:13:28,620

yeah we got all kinds of hokey dough

347

00:13:34,629 --> 00:13:31,560

science fictiony special effect the uh

348

00:13:38,269 --> 00:13:34,639

infrared and all that kind of stuff now

349

00:13:39,590 --> 00:13:38,279

but that's very recent and people still

350

00:13:41,509 --> 00:13:39,600

aren't really trying to use much of this

351

00:13:43,009 --> 00:13:41,519

stuff to try and find them and I'm not

352

00:13:43,990 --> 00:13:43,019

entirely convinced that it would work if

353

00:13:47,509 --> 00:13:44,000

they did

354

00:13:51,910 --> 00:13:47,519

uh these guys are just superbly good at

355

00:13:54,350 --> 00:13:51,920

hiding and it it's surprising how little

356

00:13:56,690 --> 00:13:54,360

pattern perception and observational

357

00:13:58,370 --> 00:13:56,700

skills most humans have for complete

358

00:13:59,930 --> 00:13:58,380

daughtering idiots even if we aren't

359

00:14:02,329 --> 00:13:59,940

walking around with a cell phone in our

360

00:14:03,949 --> 00:14:02,339

face playing with it we still don't

361

00:14:06,050 --> 00:14:03,959

notice anything that's going on around

362

00:14:08,090 --> 00:14:06,060

us for the most part we rely almost

363

00:14:10,129 --> 00:14:08,100

exclusively on something to move in

364

00:14:12,530 --> 00:14:10,139

order for us to notice it

365

00:14:14,509 --> 00:14:12,540

right and then beyond that our pattern

366

00:14:16,970 --> 00:14:14,519

recognition for something like a

367

00:14:19,069 --> 00:14:16,980

Sasquatch just completely sucks because

368

00:14:20,629 --> 00:14:19,079

we don't know what to look for have you

369

00:14:22,550 --> 00:14:20,639

seen one before then you don't know what

370

00:14:24,110 --> 00:14:22,560

to look for and they don't all look the

371

00:14:26,449 --> 00:14:24,120

same and they come in all different

372

00:14:28,790 --> 00:14:26,459

colors and they can be in places where

373

00:14:30,889 --> 00:14:28,800

you wouldn't expect them to be and they

374

00:14:32,389 --> 00:14:30,899

don't move they're smart they know if

375

00:14:34,550 --> 00:14:32,399

you're looking at them don't move it's

376

00:14:36,110 --> 00:14:34,560

very rare you can go on to move on

377

00:14:37,970 --> 00:14:36,120

camera we've got it twice in like the

378

00:14:39,050 --> 00:14:37,980

last eight years that I've been doing

379

00:14:41,569 --> 00:14:39,060

this we've got a couple of them to

380

00:14:43,129 --> 00:14:41,579

actually move on camera

381

00:14:45,470 --> 00:14:43,139

and it wasn't a whole lot of movement

382

00:14:47,629 --> 00:14:45,480

one of them duck behind a tree

383

00:14:49,310 --> 00:14:47,639

because you realize the camera was on it

384

00:14:50,930 --> 00:14:49,320

and then we really caught it while we

385

00:14:52,670 --> 00:14:50,940

saw it moved now it just ducked by the

386

00:14:54,290 --> 00:14:52,680

tube we got that on video and even

387

00:14:57,590 --> 00:14:54,300

funnier part is he didn't notice it and

388

00:14:58,730 --> 00:14:57,600

he's zooming back out again it peeks its

389

00:15:05,769 --> 00:14:58,740

head around the tree to see if he's

390

00:15:10,970 --> 00:15:08,810

pulls its head back again and that you

391

00:15:13,550 --> 00:15:10,980

make a good point because I've I've

392

00:15:15,590 --> 00:15:13,560

personally never seen the Bigfoot I've

393

00:15:16,910 --> 00:15:15,600

never seen one so I would know what to

394

00:15:19,069 --> 00:15:16,920

look for

395

00:15:20,269 --> 00:15:19,079

yeah even the pros that are you know the

396

00:15:21,710 --> 00:15:20,279

people that are really good at this

397

00:15:23,629 --> 00:15:21,720

stuff that can actually get pictures and

398

00:15:25,069 --> 00:15:23,639

video of them regularly they've all got

399

00:15:27,350 --> 00:15:25,079

Tricks figured out or they wouldn't be

400

00:15:29,870 --> 00:15:27,360

getting anything and I think also part

401  
00:15:31,430 --> 00:15:29,880  
of it is that they're on good terms the

402  
00:15:33,410 --> 00:15:31,440  
Sasquatch that they're interacting with

403  
00:15:36,350 --> 00:15:33,420  
all the time so really the Sasquatch are

404  
00:15:38,810 --> 00:15:36,360  
bladding them get them on camera

405  
00:15:40,129 --> 00:15:38,820  
is Robin and chat will tell you if they

406  
00:15:42,050 --> 00:15:40,139  
don't want you to have a picture of them

407  
00:15:43,610 --> 00:15:42,060  
you're not going to have it they can

408  
00:15:45,650 --> 00:15:43,620  
make it disappear right off your camera

409  
00:15:47,389 --> 00:15:45,660  
we're doing everything with electronic

410  
00:15:48,949 --> 00:15:47,399  
format now a boy can they screw with

411  
00:15:50,810 --> 00:15:48,959  
that it's one of the reasons that

412  
00:15:53,210 --> 00:15:50,820  
Patterson gimlin film actually appeared

413  
00:15:55,670 --> 00:15:53,220

because they were using a film with a

414

00:15:58,150 --> 00:15:55,680

mechanical camera nothing electronic to

415

00:16:00,889 --> 00:15:58,160

for them to screw with

416

00:16:02,689 --> 00:16:00,899

and nowadays they probably have a field

417

00:16:04,430 --> 00:16:02,699

day because it's all iPhones and

418

00:16:06,050 --> 00:16:04,440

everything else oh yeah it's

419

00:16:07,370 --> 00:16:06,060

ridiculously easy for them to mess with

420

00:16:09,470 --> 00:16:07,380

it how many zillion times have you heard

421

00:16:11,389 --> 00:16:09,480

this from Bigfoot researchers well right

422

00:16:14,090 --> 00:16:11,399

at the climactic moment when whatever it

423

00:16:15,710 --> 00:16:14,100

was took the food from the bowl the game

424

00:16:18,050 --> 00:16:15,720

cam died

425

00:16:20,870 --> 00:16:18,060

or it just didn't get a picture or the

426  
00:16:22,009 --> 00:16:20,880  
batteries died I got my camera up there

427  
00:16:25,610 --> 00:16:22,019  
and I was just getting ready to film

428  
00:16:27,410 --> 00:16:25,620  
something in the and the batteries died

429  
00:16:29,269 --> 00:16:27,420  
it happens all the time they can do this

430  
00:16:30,590 --> 00:16:29,279  
stuff and they can make you think the

431  
00:16:32,509 --> 00:16:30,600  
batteries are dead when they're not I've

432  
00:16:34,550 --> 00:16:32,519  
tried this one time they're messing

433  
00:16:36,769 --> 00:16:34,560  
around with my camera I'm trying to film

434  
00:16:38,449 --> 00:16:36,779  
something all of a sudden indicator

435  
00:16:41,030 --> 00:16:38,459  
light no battery

436  
00:16:44,030 --> 00:16:41,040  
and I'm like that's impossible I've only

437  
00:16:47,810 --> 00:16:44,040  
used this battery for like maybe five or

438  
00:16:49,310 --> 00:16:47,820

six minutes and it was fully charged uh

439

00:16:52,189 --> 00:16:49,320

when I started

440

00:16:53,749 --> 00:16:52,199

now is this so I I pulled out that

441

00:16:56,509 --> 00:16:53,759

little pack that little battery pack on

442

00:16:58,730 --> 00:16:56,519

my camera put it in my pocket pulled out

443

00:17:01,550 --> 00:16:58,740

the other fully charged one I had in my

444

00:17:04,610 --> 00:17:01,560

pocket put it in the camera fired up the

445

00:17:07,549 --> 00:17:04,620

camera red blinky light comes on

446

00:17:09,049 --> 00:17:07,559

no battery okay that's impossible this

447

00:17:09,829 --> 00:17:09,059

battery was discharged and hasn't been

448

00:17:11,929 --> 00:17:09,839

used

449

00:17:13,309 --> 00:17:11,939

so I say out loud you guys quit screwing

450

00:17:15,350 --> 00:17:13,319

around with my camera

451  
00:17:17,630 --> 00:17:15,360  
and I take the battery the other fresh

452  
00:17:20,090 --> 00:17:17,640  
one out and I put in the one that was

453  
00:17:22,309 --> 00:17:20,100  
formerly indicating as dead back into

454  
00:17:24,470 --> 00:17:22,319  
the camera again and guess what red

455  
00:17:26,449 --> 00:17:24,480  
blinky light doesn't come on

456  
00:17:29,450 --> 00:17:26,459  
jeez

457  
00:17:31,130 --> 00:17:29,460  
that's that's something do you think is

458  
00:17:37,730 --> 00:17:31,140  
it like

459  
00:17:39,650 --> 00:17:37,740  
goes tend to drain energy from cameras

460  
00:17:41,390 --> 00:17:39,660  
and such is that what they do or is that

461  
00:17:43,070 --> 00:17:41,400  
something totally different what they do

462  
00:17:44,029 --> 00:17:43,080  
I don't know I don't know exactly how

463  
00:17:45,830 --> 00:17:44,039

they're doing it if they're doing it

464

00:17:47,029 --> 00:17:45,840

with vibration or something Robin would

465

00:17:48,830 --> 00:17:47,039

probably be a better person to answer

466

00:17:49,970 --> 00:17:48,840

that question

467

00:17:52,190 --> 00:17:49,980

um you know they've got multiple

468

00:17:54,049 --> 00:17:52,200

abilities and it's not like they're all

469

00:17:55,310 --> 00:17:54,059

just like Jack of all trades with a bag

470

00:17:58,909 --> 00:17:55,320

of tricks some of them don't really

471

00:18:01,370 --> 00:17:58,919

hardly have any kind of abilities

472

00:18:03,110 --> 00:18:01,380

um and it seems to be it's like a

473

00:18:04,310 --> 00:18:03,120

martial arts school they have certain

474

00:18:05,750 --> 00:18:04,320

tricks that they know but they only

475

00:18:07,070 --> 00:18:05,760

teach it to their students they tell

476

00:18:09,350 --> 00:18:07,080

their students not to teach it to

477

00:18:10,789 --> 00:18:09,360

anybody else so they keep the tricks you

478

00:18:13,130 --> 00:18:10,799

know all in that martial arts school

479

00:18:15,950 --> 00:18:13,140

well some of these Sasquatch units

480

00:18:17,870 --> 00:18:15,960

tribes Clans seem to be the same way

481

00:18:19,130 --> 00:18:17,880

some of them like it seems like the only

482

00:18:21,230 --> 00:18:19,140

thing they know how to do is mind speak

483

00:18:23,870 --> 00:18:21,240

with each other and other ones can do

484

00:18:26,450 --> 00:18:23,880

all kinds of weird things and there's

485

00:18:28,250 --> 00:18:26,460

gradients in between so it's not like

486

00:18:29,510 --> 00:18:28,260

every Sasquatch you run into is going to

487

00:18:31,730 --> 00:18:29,520

be able to do all this kind of weird

488

00:18:33,770 --> 00:18:31,740

mystical stuff but some some of them

489

00:18:36,590 --> 00:18:33,780

absolutely can do all kinds of weird

490

00:18:37,909 --> 00:18:36,600

mystical stuff and older bigger ones are

491

00:18:40,549 --> 00:18:37,919

the ones that have had all that practice

492

00:18:42,590 --> 00:18:40,559

time to get good at doing that kind of

493

00:18:44,570 --> 00:18:42,600

stuff so that may partially answer your

494

00:18:46,850 --> 00:18:44,580

question as to why we don't usually see

495

00:18:48,770 --> 00:18:46,860

the bigger ones because they've gotten

496

00:18:51,529 --> 00:18:48,780

that big by being really good at hiding

497

00:18:53,870 --> 00:18:51,539

and also you know it takes a long time

498

00:18:55,850 --> 00:18:53,880

to get that big so I had lots of times

499

00:18:57,890 --> 00:18:55,860

to practice all of their weird little

500

00:19:00,169 --> 00:18:57,900

hiding and paranormal tricks that

501  
00:19:02,510 --> 00:19:00,179  
they've been working on you know

502  
00:19:06,909 --> 00:19:02,520  
for hundreds of years did they do they

503  
00:19:13,010 --> 00:19:10,010  
they stay exclusively in our realm they

504  
00:19:15,110 --> 00:19:13,020  
you know live like up to about 200. oh

505  
00:19:16,610 --> 00:19:15,120  
wow but the first time they spend time

506  
00:19:18,710 --> 00:19:16,620  
on the others they can go through the

507  
00:19:20,210 --> 00:19:18,720  
veil when they want and if they spend a

508  
00:19:21,169 --> 00:19:20,220  
lot of time basically when they're on

509  
00:19:22,669 --> 00:19:21,179  
the other side of the Bale They Don't

510  
00:19:26,049 --> 00:19:22,679  
Really age

511  
00:19:28,549 --> 00:19:26,059  
so there's some of them that are

512  
00:19:31,789 --> 00:19:28,559  
from what I understand there's one down

513  
00:19:33,470 --> 00:19:31,799

in uh the southern us right now and when

514

00:19:35,750 --> 00:19:33,480

he was a little squatchal at nights and

515

00:19:37,970 --> 00:19:35,760

armor was still running around in Europe

516

00:19:40,070 --> 00:19:37,980

oh wow

517

00:19:42,289 --> 00:19:40,080

wow that's that makes him pretty old

518

00:19:43,789 --> 00:19:42,299

then well and think about this too if

519

00:19:45,350 --> 00:19:43,799

they've been sitting around for hundreds

520

00:19:47,270 --> 00:19:45,360

of years in the woods with not much of

521

00:19:49,730 --> 00:19:47,280

anything to do but twiddle their thumbs

522

00:19:51,169 --> 00:19:49,740

and practiced paranormal abilities how

523

00:19:53,510 --> 00:19:51,179

good do you think they are these

524

00:19:57,049 --> 00:19:53,520

paranormal abilities after a few hundred

525

00:19:59,510 --> 00:19:57,059

years of practice exactly exactly I mean

526

00:20:01,669 --> 00:19:59,520

their masters by

527

00:20:04,190 --> 00:20:01,679

first encounter with one was when you

528

00:20:06,830 --> 00:20:04,200

were five has anyone else in your family

529

00:20:10,130 --> 00:20:06,840

had encounters is this no my first one

530

00:20:11,810 --> 00:20:10,140

is when I was 10 no 72. as far as I know

531

00:20:14,750 --> 00:20:11,820

nobody else in my family has had any

532

00:20:17,029 --> 00:20:14,760

kind of paranormal anything okay so it's

533

00:20:19,010 --> 00:20:17,039

just you who's had these encounters do

534

00:20:22,010 --> 00:20:19,020

you think maybe they singled you out

535

00:20:23,870 --> 00:20:22,020

since very likely that that seems to

536

00:20:25,909 --> 00:20:23,880

come up over and over and over and over

537

00:20:27,890 --> 00:20:25,919

again people that have had long-term

538

00:20:30,049 --> 00:20:27,900

interactions and it a lot of times they

539

00:20:31,549 --> 00:20:30,059

don't even know it until they start

540

00:20:33,049 --> 00:20:31,559

talking to other people that have had

541

00:20:35,210 --> 00:20:33,059

long-term interactions and then they

542

00:20:36,470 --> 00:20:35,220

start realizing well God I've had these

543

00:20:38,330 --> 00:20:36,480

things following me around since I was

544

00:20:39,950 --> 00:20:38,340

like four or five years old and I didn't

545

00:20:41,990 --> 00:20:39,960

even know it I didn't know what I what

546

00:20:43,850 --> 00:20:42,000

was happening I didn't know the signs I

547

00:20:45,110 --> 00:20:43,860

didn't know what a tree structure was I

548

00:20:47,150 --> 00:20:45,120

didn't know that they went whoop whoop

549

00:20:48,590 --> 00:20:47,160

and they made knocking sounds all that

550

00:20:51,190 --> 00:20:48,600

stuff was happening when I was a kid I

551

00:20:54,830 --> 00:20:51,200

didn't know what it was yeah

552

00:20:56,750 --> 00:20:54,840

so and and I think that's interesting

553

00:20:58,130 --> 00:20:56,760

that you know they kind of singled you

554

00:20:59,630 --> 00:20:58,140

out and they've kind of it looks like

555

00:21:02,210 --> 00:20:59,640

they followed you throughout your life

556

00:21:04,310 --> 00:21:02,220

basically because you are in contact

557

00:21:07,070 --> 00:21:04,320

with a clan am I correct

558

00:21:11,150 --> 00:21:07,080

yeah I'm not I'm completely non-psychic

559

00:21:12,710 --> 00:21:11,160

I'm in you know surely physical area on

560

00:21:14,090 --> 00:21:12,720

this one

561

00:21:16,070 --> 00:21:14,100

um so actually that's one of the reasons

562

00:21:19,610 --> 00:21:16,080

I need Robin for to be an intermediary

563

00:21:20,990 --> 00:21:19,620

so that I don't tick them off by doing

564

00:21:23,930 --> 00:21:21,000

something they don't really want me to

565

00:21:25,070 --> 00:21:23,940

do very much and uh you know that's

566

00:21:26,570 --> 00:21:25,080

probably one of the reasons they've been

567

00:21:27,890 --> 00:21:26,580

keeping an eye on me for years because I

568

00:21:30,049 --> 00:21:27,900

am one of those people that's prone to

569

00:21:31,490 --> 00:21:30,059

walk into like super dangerous things

570

00:21:34,210 --> 00:21:31,500

that nobody in their right mind would

571

00:21:38,210 --> 00:21:34,220

think about doing and then you know like

572

00:21:40,730 --> 00:21:38,220

might potentially need rescue so

573

00:21:43,430 --> 00:21:40,740

right just like just like your dog man

574

00:21:45,590 --> 00:21:43,440

encounter that we talked about

575

00:21:47,149 --> 00:21:45,600

oh yeah that was uh well you know I

576  
00:21:49,610 --> 00:21:47,159  
wouldn't even say that I've had a quote

577  
00:21:51,529 --> 00:21:49,620  
unquote encounter

578  
00:21:53,990 --> 00:21:51,539  
um catching them on video just because I

579  
00:21:55,789 --> 00:21:54,000  
walked by 20 feet away from one

580  
00:21:57,710 --> 00:21:55,799  
I didn't see it at the time I caught it

581  
00:21:59,930 --> 00:21:57,720  
on camera and the same thing happened

582  
00:22:01,909 --> 00:21:59,940  
the year previously and I have a video

583  
00:22:04,010 --> 00:22:01,919  
on my channel called uh

584  
00:22:07,250 --> 00:22:04,020  
surrounded by Sasquatch me and Mike

585  
00:22:09,049 --> 00:22:07,260  
walked into uh kill funnel accidentally

586  
00:22:11,570 --> 00:22:09,059  
where there was a really heavily

587  
00:22:13,669 --> 00:22:11,580  
trafficked game Trail and it went right

588  
00:22:15,230 --> 00:22:13,679

into this nice little tight spot between

589

00:22:17,330 --> 00:22:15,240

the trees

590

00:22:18,649 --> 00:22:17,340

then luckily I got the heebie-jeebies

591

00:22:20,330 --> 00:22:18,659

and stopped before I went through there

592

00:22:23,149 --> 00:22:20,340

and waited for Mike to catch up with me

593

00:22:25,850 --> 00:22:23,159

but yeah uh there are tons of them on

594

00:22:27,350 --> 00:22:25,860

both sides and I had just panned around

595

00:22:28,730 --> 00:22:27,360

with my camera because I had the

596

00:22:30,590 --> 00:22:28,740

heebie-jeebies and I was feeling like

597

00:22:31,909 --> 00:22:30,600

well if something kills me I should

598

00:22:34,370 --> 00:22:31,919

probably Pat her out with my camera

599

00:22:36,169 --> 00:22:34,380

maybe if someone finds it at some point

600

00:22:37,669 --> 00:22:36,179

in the future they can look at the video

601  
00:22:38,870 --> 00:22:37,679  
and figure out what it is that just

602  
00:22:41,090 --> 00:22:38,880  
killed me

603  
00:22:42,169 --> 00:22:41,100  
so anyway after Robin and a bunch of

604  
00:22:44,570 --> 00:22:42,179  
other people looked at it myself

605  
00:22:46,490 --> 00:22:44,580  
included and uh credit goes up to Shane

606  
00:22:48,350 --> 00:22:46,500  
one of my research team guys on this

607  
00:22:50,630 --> 00:22:48,360  
because I had already put the video out

608  
00:22:52,070 --> 00:22:50,640  
and it was just it's really fast it's

609  
00:22:54,289 --> 00:22:52,080  
just kind of blurry

610  
00:22:57,049 --> 00:22:54,299  
and he looked at it and he goes Duke I

611  
00:22:59,390 --> 00:22:57,059  
think at 48 45 there's one leaning

612  
00:23:02,149 --> 00:22:59,400  
sideways next to a tree trying to

613  
00:23:03,830 --> 00:23:02,159

pretend to be a tree trunk you know this

614

00:23:05,990 --> 00:23:03,840

guy's on my research team you know you

615

00:23:07,430 --> 00:23:06,000

know he's pretty good so I go okay I'll

616

00:23:09,409 --> 00:23:07,440

go back and I look at it and I look at

617

00:23:11,690 --> 00:23:09,419

it not only is he right there's one

618

00:23:13,850 --> 00:23:11,700

behind the tree that's looking over his

619

00:23:15,470 --> 00:23:13,860

shoulder and he's brown and you can see

620

00:23:17,930 --> 00:23:15,480

the hair on the top of his head and both

621

00:23:20,090 --> 00:23:17,940

of his eyes he's peeking over also

622

00:23:22,669 --> 00:23:20,100

looking at me and I'm like well great

623

00:23:24,169 --> 00:23:22,679

find man you know you didn't just get

624

00:23:26,630 --> 00:23:24,179

one you got two I gotta go back and look

625

00:23:28,669 --> 00:23:26,640

at the rest of this video okay so then I

626

00:23:30,710 --> 00:23:28,679

started looking at it and I got PTSD for

627

00:23:33,649 --> 00:23:30,720

about three days because they were all

628

00:23:35,210 --> 00:23:33,659

over the place in there and the reason I

629

00:23:36,770 --> 00:23:35,220

brought this up is because in addition

630

00:23:39,710 --> 00:23:36,780

to all the Sasquatch that there were

631

00:23:41,810 --> 00:23:39,720

there there was a dog now and he was one

632

00:23:43,250 --> 00:23:41,820

of the most obvious ones there was

633

00:23:44,750 --> 00:23:43,260

actually a little Crook in a tree and he

634

00:23:47,090 --> 00:23:44,760

was sticking his head around it looking

635

00:23:49,130 --> 00:23:47,100

at me so you could see his whole head

636

00:23:50,950 --> 00:23:49,140

you know unless this is a wolf that's

637

00:23:55,549 --> 00:23:50,960

standing seven feet up for some reason

638

00:23:57,110 --> 00:23:55,559

it's probably a dog man yeah exactly and

639

00:23:58,909 --> 00:23:57,120

that's something you don't want to see

640

00:24:01,250 --> 00:23:58,919

if you know like that's something you

641

00:24:02,810 --> 00:24:01,260

don't really want to encounter yeah well

642

00:24:04,250 --> 00:24:02,820

they didn't attack us they let us be

643

00:24:05,330 --> 00:24:04,260

smart and turn around and walk out the

644

00:24:08,029 --> 00:24:05,340

way we came

645

00:24:09,529 --> 00:24:08,039

and uh we've been smart enough to not go

646

00:24:11,990 --> 00:24:09,539

back to that particular spot again

647

00:24:13,909 --> 00:24:12,000

although I've been all around it in

648

00:24:16,250 --> 00:24:13,919

other directions coming in from other

649

00:24:17,870 --> 00:24:16,260

areas so have a pretty good idea of

650

00:24:20,450 --> 00:24:17,880

exactly where it is what's there but

651  
00:24:23,270 --> 00:24:20,460  
yeah that's the game Trail we were

652  
00:24:25,490 --> 00:24:23,280  
following looks like a cow path it's

653  
00:24:26,990 --> 00:24:25,500  
like a foot deep into the ground because

654  
00:24:28,190 --> 00:24:27,000  
of all the moose and the elk and

655  
00:24:30,169 --> 00:24:28,200  
everything that are walking up and down

656  
00:24:32,690 --> 00:24:30,179  
at and that's what caught my attention I

657  
00:24:34,490 --> 00:24:32,700  
was following the set of uh moose tracks

658  
00:24:36,230 --> 00:24:34,500  
that were bigger than my foot you know

659  
00:24:38,090 --> 00:24:36,240  
and I'm filming those and then I get the

660  
00:24:39,490 --> 00:24:38,100  
heebie-jeebies and I'm like eh I'm gonna

661  
00:24:41,810 --> 00:24:39,500  
wait for Mike now

662  
00:24:44,090 --> 00:24:41,820  
this is creeping me out somebody's

663  
00:24:46,010 --> 00:24:44,100

watching me just in case I need somebody

664

00:24:47,510 --> 00:24:46,020

to chip or something trying to get out

665

00:24:48,950 --> 00:24:47,520

of here yeah well it's great to have

666

00:24:50,090 --> 00:24:48,960

another witness with a camera there in

667

00:24:51,409 --> 00:24:50,100

case they start getting attacked you

668

00:24:54,590 --> 00:24:51,419

might film some of it because he's

669

00:24:56,570 --> 00:24:54,600

screaming and running away exactly right

670

00:25:00,289 --> 00:24:56,580

do you want to tell us about your first

671

00:25:01,870 --> 00:25:00,299

encounter with you know the Bigfoot with

672

00:25:05,570 --> 00:25:01,880

this clan

673

00:25:10,370 --> 00:25:05,580

uh which the ones out here yeah

674

00:25:14,450 --> 00:25:12,590

um I started going to the area not

675

00:25:15,649 --> 00:25:14,460

because I had seen a bigfooter even knew

676  
00:25:16,850 --> 00:25:15,659  
there were Bigfoot there I started going

677  
00:25:18,710 --> 00:25:16,860  
to the area because one of my friends

678  
00:25:21,950 --> 00:25:18,720  
from Idaho

679  
00:25:23,870 --> 00:25:21,960  
was there randomly on vacation and he's

680  
00:25:25,789 --> 00:25:23,880  
also a Bigfoot guy and he saw a

681  
00:25:28,010 --> 00:25:25,799  
five-story x structure

682  
00:25:30,890 --> 00:25:28,020  
in which he then waited across the river

683  
00:25:32,930 --> 00:25:30,900  
and went and checked to see if these

684  
00:25:34,130 --> 00:25:32,940  
things were natural or not and no they

685  
00:25:36,110 --> 00:25:34,140  
weren't both of them were full-sized

686  
00:25:39,230 --> 00:25:36,120  
trees all the branches ripped off and

687  
00:25:40,610 --> 00:25:39,240  
moved into place so that really freaked

688  
00:25:43,130 --> 00:25:40,620

him out like this is the biggest

689

00:25:45,230 --> 00:25:43,140

structure I've ever seen oh my God where

690

00:25:47,690 --> 00:25:45,240

is it at oh it's only like 40 miles from

691

00:25:49,789 --> 00:25:47,700

where I live so of course I had to go

692

00:25:51,710 --> 00:25:49,799

there and then went all over the that

693

00:25:53,510 --> 00:25:51,720

the surrounding area and started finding

694

00:25:55,250 --> 00:25:53,520

more and more gigantic structures from

695

00:25:57,169 --> 00:25:55,260

them so we kept going up there and

696

00:25:59,029 --> 00:25:57,179

camping and then we started started uh

697

00:26:02,690 --> 00:25:59,039

finding the tracks and hearing

698

00:26:03,890 --> 00:26:02,700

vocalizations and yada yada yada so this

699

00:26:07,970 --> 00:26:03,900

has just been going on for years and

700

00:26:11,930 --> 00:26:10,010

three four years up there just

701  
00:26:14,269 --> 00:26:11,940  
documenting tree structures and tracks

702  
00:26:17,149 --> 00:26:14,279  
before we ever caught anything on camera

703  
00:26:19,070 --> 00:26:17,159  
that we could go that might maybe be a

704  
00:26:21,950 --> 00:26:19,080  
Bigfoot hiding back there

705  
00:26:24,950 --> 00:26:21,960  
so it took it took them that long to

706  
00:26:26,510 --> 00:26:24,960  
trust you yeah to just get used to us

707  
00:26:28,669 --> 00:26:26,520  
and you know it all depends on who you

708  
00:26:30,350 --> 00:26:28,679  
got there with you too because they they

709  
00:26:32,510 --> 00:26:30,360  
may like certain people and not other

710  
00:26:33,890 --> 00:26:32,520  
people so it's not guaranteed they're

711  
00:26:35,750 --> 00:26:33,900  
going to like everybody on your research

712  
00:26:37,250 --> 00:26:35,760  
team and if you happen to have somebody

713  
00:26:40,190 --> 00:26:37,260

on the research team that you think is

714

00:26:42,710 --> 00:26:40,200

perfectly fine but they don't trust them

715

00:26:44,390 --> 00:26:42,720

they're not coming out and we realized

716

00:26:46,610 --> 00:26:44,400

this was two of the regulars on our team

717

00:26:49,130 --> 00:26:46,620

that would come over uh from another one

718

00:26:51,409 --> 00:26:49,140

of the nearby towns and they'd show up

719

00:26:52,850 --> 00:26:51,419

and they'd be there for a day or two and

720

00:26:54,230 --> 00:26:52,860

not much would happen we'd have lots of

721

00:26:56,450 --> 00:26:54,240

fun walking around the woods and finding

722

00:26:58,370 --> 00:26:56,460

structures and tracks and stuff but not

723

00:27:01,370 --> 00:26:58,380

much activity and as soon as they would

724

00:27:03,529 --> 00:27:01,380

leave it was like Bigfoot Fiesta time

725

00:27:05,510 --> 00:27:03,539

you started here in the wood knocks and

726

00:27:07,070 --> 00:27:05,520

the whoops and they're making racket

727

00:27:08,870 --> 00:27:07,080

across the river from camp and they're

728

00:27:11,570 --> 00:27:08,880

making racket on our side of the river

729

00:27:13,430 --> 00:27:11,580

on the other side of the road and you

730

00:27:15,169 --> 00:27:13,440

know blah blah it's just it was

731

00:27:16,730 --> 00:27:15,179

ridiculous they'd be right up by Camp

732

00:27:18,890 --> 00:27:16,740

you could see their eyes shine in the

733

00:27:20,630 --> 00:27:18,900

woods you know but as long as these

734

00:27:22,690 --> 00:27:20,640

other other two guys were there no they

735

00:27:25,190 --> 00:27:22,700

wouldn't come around

736

00:27:27,230 --> 00:27:25,200

have you ever had have you ever had any

737

00:27:28,909 --> 00:27:27,240

of the the babies or the little ones

738

00:27:32,029 --> 00:27:28,919

come up to you

739

00:27:33,470 --> 00:27:32,039

no but apparently the adults let them do

740

00:27:35,870 --> 00:27:33,480

that because we've caught that on camera

741

00:27:37,310 --> 00:27:35,880

a bunch of times and where they're

742

00:27:39,830 --> 00:27:37,320

apparently letting the little ones come

743

00:27:41,870 --> 00:27:39,840

right up and count coo on me

744

00:27:44,570 --> 00:27:41,880

um Sasquatch at The X video that I have

745

00:27:46,250 --> 00:27:44,580

up I'm trying to line up to do a

746

00:27:48,529 --> 00:27:46,260

comparison shot because I was up there

747

00:27:50,029 --> 00:27:48,539

about a month before and thought that we

748

00:27:52,730 --> 00:27:50,039

got a couple of them on video so I

749

00:27:56,269 --> 00:27:52,740

wanted to go to the exact same spot same

750

00:27:57,230 --> 00:27:56,279

time a day same weather conditions so

751

00:27:58,850 --> 00:27:57,240

that you've got all the lighting and

752

00:28:01,310 --> 00:27:58,860

everything as identical as you can get

753

00:28:03,830 --> 00:28:01,320

it and do comparison video to compare to

754

00:28:06,169 --> 00:28:03,840

the original to see if said objects of

755

00:28:08,630 --> 00:28:06,179

Unknown Origin were still there they're

756

00:28:09,890 --> 00:28:08,640

tree stumps or Shadows or whatever well

757

00:28:12,649 --> 00:28:09,900

as it turned out none of them were there

758

00:28:14,269 --> 00:28:12,659

but as I was in the process of trying to

759

00:28:16,010 --> 00:28:14,279

line up where the spot was and I knew

760

00:28:17,510 --> 00:28:16,020

exactly where it was there's a whole

761

00:28:18,830 --> 00:28:17,520

bunch of Fallen trees that make a

762

00:28:20,810 --> 00:28:18,840

v-shape

763

00:28:22,310 --> 00:28:20,820

and I was right up at the end of it and

764

00:28:23,810 --> 00:28:22,320

I turned around and filmed the opposite

765

00:28:25,909 --> 00:28:23,820

direction so it was really easy to find

766

00:28:27,830 --> 00:28:25,919

again so as I'm walking up to that spot

767

00:28:29,630 --> 00:28:27,840

I've got the camera on already as I'm

768

00:28:31,669 --> 00:28:29,640

walking up to it and I'm narrating while

769

00:28:33,950 --> 00:28:31,679

I'm going back to the spot get some

770

00:28:35,930 --> 00:28:33,960

comparison video and I turn it around

771

00:28:38,510 --> 00:28:35,940

and I start filming a comparison video

772

00:28:41,990 --> 00:28:38,520

well not until afterwards when it comes

773

00:28:43,909 --> 00:28:42,000

out and Christy sci-fi and Robin McRae

774

00:28:45,890 --> 00:28:43,919

and a couple other people took a look at

775

00:28:48,710 --> 00:28:45,900

it went dude they're Bigfoot all over

776

00:28:50,930 --> 00:28:48,720

the place in that video they were in the

777

00:28:52,970 --> 00:28:50,940

wood pile that I was walking toward

778

00:28:55,909 --> 00:28:52,980

there was two of them in the trees

779

00:28:57,529 --> 00:28:55,919

behind it and there was a big adult and

780

00:29:00,289 --> 00:28:57,539

a littler one about 20 feet in the tree

781

00:29:02,330 --> 00:29:00,299

above her about 50 60 feet off in the

782

00:29:04,490 --> 00:29:02,340

background there was three little ones

783

00:29:06,890 --> 00:29:04,500

in that pile of Timber that I was

784

00:29:09,289 --> 00:29:06,900

walking toward and turning around

785

00:29:11,210 --> 00:29:09,299

they're like literally right behind me

786

00:29:12,890 --> 00:29:11,220

so guess what's one of the last things I

787

00:29:14,870 --> 00:29:12,900

get on video right before I turn around

788

00:29:17,149 --> 00:29:14,880

to the camera there's a little one in

789

00:29:19,190 --> 00:29:17,159

between two logs you can see his face

790

00:29:21,169 --> 00:29:19,200

and he's reaching his hand up like like

791

00:29:22,850 --> 00:29:21,179

this he's going to count coo on me as

792

00:29:25,310 --> 00:29:22,860

soon as they turn around dirty little

793

00:29:30,769 --> 00:29:27,529

now do you do you have like

794

00:29:36,110 --> 00:29:32,990

yeah I don't I don't really think that's

795

00:29:38,149 --> 00:29:36,120

a good idea unless you're absolutely

796

00:29:40,430 --> 00:29:38,159

certain you've got a relationship with

797

00:29:42,769 --> 00:29:40,440

them they can misinterpret you giving

798

00:29:44,810 --> 00:29:42,779

them food and some of these Clans are

799

00:29:46,669 --> 00:29:44,820

very primitive and it's like oh human

800

00:29:48,590 --> 00:29:46,679

you recognize that I am much greater

801  
00:29:51,049 --> 00:29:48,600  
than you and you're giving me tribute

802  
00:29:53,090 --> 00:29:51,059  
where's my cheeseburger don't anger me

803  
00:29:54,230 --> 00:29:53,100  
you know they just expect it after a

804  
00:29:57,649 --> 00:29:54,240  
while

805  
00:29:59,389 --> 00:29:57,659  
um I I think it's kind of a bad idea

806  
00:30:01,490 --> 00:29:59,399  
um the only reason that I'm doing it at

807  
00:30:03,950 --> 00:30:01,500  
this point is because they they started

808  
00:30:06,769 --> 00:30:05,510  
um I was going there for four or five

809  
00:30:08,750 --> 00:30:06,779  
years and I absolutely was not leaving

810  
00:30:10,490 --> 00:30:08,760  
them any food or anything and they're

811  
00:30:11,930 --> 00:30:10,500  
always super polite about even though

812  
00:30:14,930 --> 00:30:11,940  
they're sneaking around in Camp all the

813  
00:30:16,430 --> 00:30:14,940

time they would never take any food

814

00:30:19,010 --> 00:30:16,440

um maybe just you know suspicious

815

00:30:20,510 --> 00:30:19,020

circumspect whatever but at some point

816

00:30:22,130 --> 00:30:20,520

they started leaving things and they

817

00:30:23,930 --> 00:30:22,140

were so weird and obvious that I asked

818

00:30:25,250 --> 00:30:23,940

Robin about it and she contacted him and

819

00:30:27,590 --> 00:30:25,260

said yeah they're leaving your presence

820

00:30:29,450 --> 00:30:27,600

and then I started feeling really guilty

821

00:30:31,970 --> 00:30:29,460

because I'm going to visit them they're

822

00:30:33,590 --> 00:30:31,980

putting up with me being there and like

823

00:30:34,850 --> 00:30:33,600

they're giving me presents I'm the one

824

00:30:36,110 --> 00:30:34,860

that should be giving them presents I'm

825

00:30:38,570 --> 00:30:36,120

coming to visit they're putting up with

826

00:30:40,909 --> 00:30:38,580

me so then I had to ask Robin what is it

827

00:30:42,710 --> 00:30:40,919

that they want and she gave me a whole

828

00:30:44,149 --> 00:30:42,720

shopping list as long as my arm and I

829

00:30:46,549 --> 00:30:44,159

got every single thing that they wanted

830

00:30:48,049 --> 00:30:46,559

and brought it up there and then the

831

00:30:50,269 --> 00:30:48,059

next time I went up about a month later

832

00:30:51,649 --> 00:30:50,279

I said well it's a shopping list and it

833

00:30:53,990 --> 00:30:51,659

was way shorter there was hardly

834

00:30:56,630 --> 00:30:54,000

anything on it and then the third time I

835

00:30:58,789 --> 00:30:56,640

went up I asked and it was like uh bring

836

00:31:02,269 --> 00:30:58,799

some apples and

837

00:31:04,850 --> 00:31:02,279

uh more peanut butter okay

838

00:31:06,889 --> 00:31:04,860

so what what was the the first big long

839

00:31:09,230 --> 00:31:06,899

list I think the first big long list is

840

00:31:11,210 --> 00:31:09,240

they wanted to see if the person that

841

00:31:13,370 --> 00:31:11,220

was talking to them was really somebody

842

00:31:15,169 --> 00:31:13,380

that I was talking to

843

00:31:18,110 --> 00:31:15,179

so they gave them this long difficult

844

00:31:19,430 --> 00:31:18,120

list to see how exacting the details

845

00:31:21,409 --> 00:31:19,440

they were getting

846

00:31:23,330 --> 00:31:21,419

were going to me if I was getting the

847

00:31:25,149 --> 00:31:23,340

exact same thing that they were telling

848

00:31:27,950 --> 00:31:25,159

them

849

00:31:29,990 --> 00:31:27,960

yeah exactly that was their little test

850

00:31:31,549 --> 00:31:30,000

oh we know we're talking to this other

851  
00:31:33,769 --> 00:31:31,559  
human but as this other human actually

852  
00:31:36,470 --> 00:31:33,779  
talking to this guy that's coming up

853  
00:31:38,510 --> 00:31:36,480  
here all this well yeah

854  
00:31:41,090 --> 00:31:38,520  
and so then the next thing was that

855  
00:31:42,769 --> 00:31:41,100  
there was two two-way communication so

856  
00:31:44,810 --> 00:31:42,779  
what's the next thing they do well they

857  
00:31:47,510 --> 00:31:44,820  
start making rules now they can actually

858  
00:31:48,590 --> 00:31:47,520  
tell you things they can make rules and

859  
00:31:51,110 --> 00:31:48,600  
there are certain areas we're not

860  
00:31:53,269 --> 00:31:51,120  
supposed to go to and we can't have more

861  
00:31:55,190 --> 00:31:53,279  
than six people there and I'm not

862  
00:31:57,190 --> 00:31:55,200  
supposed to bring any more than one new

863  
00:32:00,669 --> 00:31:57,200

person at a time

864

00:32:03,769 --> 00:32:00,679

and no guns we're like

865

00:32:07,130 --> 00:32:03,779

what do you mean no guns this is Montana

866

00:32:10,430 --> 00:32:07,140

this is the animal attack capital of the

867

00:32:12,409 --> 00:32:10,440

continent even worse in Alaska we've got

868

00:32:14,389 --> 00:32:12,419

Grizzlies we got mountain lions we got

869

00:32:16,070 --> 00:32:14,399

Wolverines we got packs of giant

870

00:32:17,450 --> 00:32:16,080

Timberwolves we've got you know

871

00:32:20,210 --> 00:32:17,460

everything in the universe that wants to

872

00:32:23,690 --> 00:32:20,220

attack you and we've got crazy uh

873

00:32:25,010 --> 00:32:23,700

unabomers yeah so you don't want you

874

00:32:26,870 --> 00:32:25,020

just literally can't walk around

875

00:32:29,810 --> 00:32:26,880

unharmful you know you need some kind of

876

00:32:31,669 --> 00:32:29,820

Defense so basically what we said is uh

877

00:32:33,889 --> 00:32:31,679

well you you know

878

00:32:36,289 --> 00:32:33,899

we have to have at least one gun with us

879

00:32:37,970 --> 00:32:36,299

can we keep one gun in Camp and have it

880

00:32:40,490 --> 00:32:37,980

the vehicle okay they're playing with

881

00:32:41,870 --> 00:32:40,500

that okay now when we're walking around

882

00:32:43,130 --> 00:32:41,880

the woods and we're going to get mugged

883

00:32:45,549 --> 00:32:43,140

by a grizzly

884

00:32:48,889 --> 00:32:45,559

what are we supposed to do

885

00:32:50,630 --> 00:32:48,899

okay so we bargained on that one too and

886

00:32:52,430 --> 00:32:50,640

weapons are fine you can have all the

887

00:32:54,710 --> 00:32:52,440

broadwords and Spears and stuff like

888

00:32:56,690 --> 00:32:54,720

that that you want to carry with you so

889

00:32:59,149 --> 00:32:56,700

that's literally what we do we carry

890

00:33:00,830 --> 00:32:59,159

broadwords disappearances it doesn't

891

00:33:03,710 --> 00:33:00,840

bother them at all but those things work

892

00:33:05,510 --> 00:33:03,720

very very well against common animals uh

893

00:33:06,889 --> 00:33:05,520

as our ancestors have proven for

894

00:33:09,289 --> 00:33:06,899

hundreds of years they work extremely

895

00:33:12,409 --> 00:33:11,090

um but the other thing was like well we

896

00:33:13,730 --> 00:33:12,419

still have you know there could be

897

00:33:15,350 --> 00:33:13,740

issues what if there's some other

898

00:33:17,750 --> 00:33:15,360

dangerous cryptic wandering around your

899

00:33:19,610 --> 00:33:17,760

area what if there's crazy humans with

900

00:33:21,110 --> 00:33:19,620

gun wandering around the area you know

901  
00:33:22,549 --> 00:33:21,120  
yeah broadsword isn't going to work that

902  
00:33:26,810 --> 00:33:22,559  
good against that they got a range

903  
00:33:29,210 --> 00:33:26,820  
weapon so they said okay uh we'll we

904  
00:33:31,909 --> 00:33:29,220  
will keep an eye on you

905  
00:33:34,669 --> 00:33:31,919  
and make sure that you're safe

906  
00:33:36,830 --> 00:33:34,679  
so now I'm in this really really strange

907  
00:33:39,409 --> 00:33:36,840  
position where I'm going up there to do

908  
00:33:42,230 --> 00:33:39,419  
research on rela competence and my

909  
00:33:45,850 --> 00:33:42,240  
security is being provided by those same

910  
00:33:49,789 --> 00:33:48,230  
which is very interesting because while

911  
00:33:51,529 --> 00:33:49,799  
you're trying to study them they're

912  
00:33:53,269 --> 00:33:51,539  
protecting you and they're studying me

913  
00:33:55,070 --> 00:33:53,279

and following me around making sure I

914

00:33:57,190 --> 00:33:55,080

don't walk into a Grizzly or off a cliff

915

00:34:00,950 --> 00:33:57,200

or some sort of stupid thing

916

00:34:02,570 --> 00:34:00,960

I put out a t-shirt on my uh at my

917

00:34:03,950 --> 00:34:02,580

Teespring store World Bigwood Central

918

00:34:06,649 --> 00:34:03,960

hypers in between if you want to go

919

00:34:07,850 --> 00:34:06,659

check it out and it says Sasquatch has

920

00:34:10,669 --> 00:34:07,860

my back

921

00:34:12,829 --> 00:34:10,679

and this is why I put that shirt is

922

00:34:15,409 --> 00:34:12,839

Sasquatch literally has my back and the

923

00:34:16,909 --> 00:34:15,419

picture on the t-shirt is Mr Big he

924

00:34:19,190 --> 00:34:16,919

lives on the mountain right behind me

925

00:34:21,589 --> 00:34:19,200

and he's about 12 feet tall and we got a

926

00:34:23,869 --> 00:34:21,599

picture of him so that's who's on the uh

927

00:34:25,250 --> 00:34:23,879

the T-shirt Sasquatch has my back that's

928

00:34:27,409 --> 00:34:25,260

Mr Big

929

00:34:28,730 --> 00:34:27,419

now have they actually protected you

930

00:34:31,250 --> 00:34:28,740

from anything have they actually

931

00:34:33,950 --> 00:34:31,260

actually they had to they they recently

932

00:34:35,750 --> 00:34:33,960

did have to do that usually that Valley

933

00:34:37,909 --> 00:34:35,760

that they that we go to research him

934

00:34:39,710 --> 00:34:37,919

they've got that under such tight

935

00:34:40,909 --> 00:34:39,720

control you really don't have to worry

936

00:34:42,470 --> 00:34:40,919

about much of anything there really

937

00:34:44,210 --> 00:34:42,480

aren't any predatory animals up there

938

00:34:45,409 --> 00:34:44,220

that's one of the things we noticed

939

00:34:47,389 --> 00:34:45,419

after about the first three years

940

00:34:50,629 --> 00:34:47,399

because we're all over the damn place

941

00:34:53,570 --> 00:34:50,639

and there's no mountain lion and no bear

942

00:34:54,950 --> 00:34:53,580

and no wolves there's no Predators at

943

00:34:56,990 --> 00:34:54,960

all and you're like well this is kind of

944

00:34:59,329 --> 00:34:57,000

peculiar because every prey animal in

945

00:35:00,650 --> 00:34:59,339

the universe is up here you know yeah so

946

00:35:01,910 --> 00:35:00,660

yeah they just don't allow them in their

947

00:35:03,770 --> 00:35:01,920

Valley

948

00:35:05,270 --> 00:35:03,780

um but they do occasionally go through

949

00:35:08,030 --> 00:35:05,280

there and this fall I was up there with

950

00:35:10,849 --> 00:35:08,040

Eric and I talked to Robin before I went

951  
00:35:13,370 --> 00:35:10,859  
up and the clan up there pulled me

952  
00:35:15,890 --> 00:35:13,380  
through her that there was this crazy

953  
00:35:17,569 --> 00:35:15,900  
bear up there and they had chased it out

954  
00:35:19,370 --> 00:35:17,579  
of the valley a couple times a pair was

955  
00:35:20,750 --> 00:35:19,380  
the female because they said there was a

956  
00:35:23,030 --> 00:35:20,760  
little bear with it

957  
00:35:25,430 --> 00:35:23,040  
and uh they could get rid of her and

958  
00:35:27,170 --> 00:35:25,440  
apparently they didn't want to kill her

959  
00:35:28,190 --> 00:35:27,180  
um so again we told him well you know

960  
00:35:29,810 --> 00:35:28,200  
we're going to be up here without any

961  
00:35:31,550 --> 00:35:29,820  
guns so you need to have somebody

962  
00:35:33,109 --> 00:35:31,560  
keeping an eye on us so nothing happens

963  
00:35:35,510 --> 00:35:33,119

you know

964

00:35:37,130 --> 00:35:35,520

so the second night that we were there

965

00:35:38,930 --> 00:35:37,140

and this is peculiar we were up there

966

00:35:42,109 --> 00:35:38,940

for four nights and it was dead still

967

00:35:43,970 --> 00:35:42,119

day and night there was no wind

968

00:35:46,430 --> 00:35:43,980

it's just so strange to be in the woods

969

00:35:48,530 --> 00:35:46,440

for four days and like no wind

970

00:35:50,810 --> 00:35:48,540

and most of the time you weren't hearing

971

00:35:52,550 --> 00:35:50,820

birds or bugs or anything it was just

972

00:35:54,589 --> 00:35:52,560

dead still

973

00:35:57,050 --> 00:35:54,599

and so about an hour after dark the

974

00:35:58,310 --> 00:35:57,060

second night that we're there again dead

975

00:36:00,069 --> 00:35:58,320

still

976

00:36:02,390 --> 00:36:00,079

all of a sudden we hear

977

00:36:04,550 --> 00:36:02,400

Boom and I mean it sounds like the

978

00:36:07,550 --> 00:36:04,560

Incredible Hulk swung a railroad tie and

979

00:36:09,710 --> 00:36:07,560

a four foot three oak tree as hard as he

980

00:36:12,230 --> 00:36:09,720

could it sounded louder than cannon

981

00:36:15,650 --> 00:36:12,240

shots I've heard and it was less than

982

00:36:17,450 --> 00:36:15,660

100 yards away from us and uh the guy

983

00:36:19,910 --> 00:36:17,460

that was with me literally jumped up out

984

00:36:23,210 --> 00:36:19,920

of his chair and went what the bleep and

985

00:36:24,470 --> 00:36:23,220

I went hey guys ready to go don't screw

986

00:36:26,650 --> 00:36:24,480

around and I went I'm not screwing

987

00:36:29,150 --> 00:36:26,660

around I know what made that noise

988

00:36:30,829 --> 00:36:29,160

well I didn't find out until I got back

989

00:36:32,810 --> 00:36:30,839

again that what had happened there is

990

00:36:33,650 --> 00:36:32,820

that one bear was sneaking up on our

991

00:36:35,990 --> 00:36:33,660

camp

992

00:36:38,329 --> 00:36:36,000

and the Sentinel decided he had had

993

00:36:39,890 --> 00:36:38,339

enough of that and uh decided to

994

00:36:42,050 --> 00:36:39,900

frighten the bear away

995

00:36:44,810 --> 00:36:42,060

you know so really loud kablooeey kind of

996

00:36:46,670 --> 00:36:44,820

noise and everything and uh from the

997

00:36:51,109 --> 00:36:46,680

update since then I don't think that

998

00:36:54,530 --> 00:36:52,970

that noise I mean especially in the

999

00:36:56,089 --> 00:36:54,540

middle of the night oh God you don't

1000

00:36:57,589 --> 00:36:56,099

expect I mean it's dead still you

1001

00:36:58,849 --> 00:36:57,599

haven't heard like hardly any noise at

1002

00:37:00,349 --> 00:36:58,859

all for like two days and all of a

1003

00:37:06,370 --> 00:37:00,359

sudden you're something that sounds like

1004

00:37:11,690 --> 00:37:09,890

oh my god well then the next uh I think

1005

00:37:13,370 --> 00:37:11,700

I saw who did it the following day

1006

00:37:15,349 --> 00:37:13,380

because Eric decided to go for a bike

1007

00:37:16,550 --> 00:37:15,359

ride it was about two o'clock in the

1008

00:37:19,190 --> 00:37:16,560

afternoon and I'm just sitting there in

1009

00:37:21,290 --> 00:37:19,200

my camp chair it's nice and warm I'm

1010

00:37:24,050 --> 00:37:21,300

looking at this nice Glade and about 100

1011

00:37:25,970 --> 00:37:24,060

yards across not even 75 yards across

1012

00:37:27,530 --> 00:37:25,980

the Glade there's another Hillside there

1013

00:37:29,990 --> 00:37:27,540

used to be an Old Logging Trail over

1014

00:37:31,250 --> 00:37:30,000

there it's all kind of overgrown now and

1015

00:37:33,290 --> 00:37:31,260

while I'm just looking in that general

1016

00:37:34,910 --> 00:37:33,300

direction Here Comes one of them

1017

00:37:36,410 --> 00:37:34,920

whipping down the trail like I said two

1018

00:37:38,630 --> 00:37:36,420

o'clock in the afternoon broad daylight

1019

00:37:42,230 --> 00:37:38,640

yeah he's behind like one line of trees

1020

00:37:43,670 --> 00:37:42,240

but so what dude you're huge he's tanned

1021

00:37:46,190 --> 00:37:43,680

this is probably the same one that

1022

00:37:48,470 --> 00:37:46,200

tickled Keith Crabtree's feet he's about

1023

00:37:50,750 --> 00:37:48,480

nine feet tall he's doing about 35-40

1024

00:37:52,370 --> 00:37:50,760

miles an hour and he's not bobbing up

1025

00:37:54,170 --> 00:37:52,380

and not down at all and he's not making

1026

00:37:56,930 --> 00:37:54,180

a single sound

1027

00:37:59,510 --> 00:37:56,940

oh geez that was really impressive

1028

00:38:01,430 --> 00:37:59,520

that's the only time I've got to see him

1029

00:38:02,930 --> 00:38:01,440

excuse me actually run like that because

1030

00:38:04,609 --> 00:38:02,940

like I said generally they won't move

1031

00:38:06,950 --> 00:38:04,619

even if you get them on camera then they

1032

00:38:08,990 --> 00:38:06,960

definitely don't they just they give me

1033

00:38:12,290 --> 00:38:09,000

that thing like I'm a stump look at

1034

00:38:17,510 --> 00:38:14,990

so are you okay

1035

00:38:20,450 --> 00:38:17,520

sure the audience

1036

00:38:22,670 --> 00:38:20,460

that wants to know uh why are they so

1037

00:38:24,770 --> 00:38:22,680

much different than the southern Bigfoot

1038

00:38:26,510 --> 00:38:24,780

I'm guessing the Bigfoot in your region

1039

00:38:28,550 --> 00:38:26,520

why are they so much different than the

1040

00:38:30,109 --> 00:38:28,560

southern Bigfoot I don't think they're

1041

00:38:32,030 --> 00:38:30,119

very much different at all there's

1042

00:38:33,530 --> 00:38:32,040

different sub varieties of Bigfoot

1043

00:38:35,930 --> 00:38:33,540

across the continent

1044

00:38:38,390 --> 00:38:35,940

and they are a little bit genetically

1045

00:38:39,770 --> 00:38:38,400

different than the other ones

1046

00:38:41,329 --> 00:38:39,780

um you know this has been proven yet

1047

00:38:43,550 --> 00:38:41,339

we're gonna have to do a lot more uh

1048

00:38:46,250 --> 00:38:43,560

Gathering of DNA samples in comparison

1049

00:38:48,770 --> 00:38:46,260

to do figure all this out but there does

1050

00:38:51,589 --> 00:38:48,780

seem to be distinct excuse me distinct

1051

00:38:54,650 --> 00:38:51,599

sub varieties of skunk Apes down in the

1052

00:38:56,750 --> 00:38:54,660

swappy Southeastern areas are actually

1053

00:38:58,790 --> 00:38:56,760

different than the Sasquatch that you

1054

00:39:00,410 --> 00:38:58,800

would find up in Alaska or something and

1055

00:39:02,270 --> 00:39:00,420

there could be more than one sub-variety

1056

00:39:05,750 --> 00:39:02,280

in Alaska it certainly sounds like it

1057

00:39:07,609 --> 00:39:05,760

between the net neck and the URI ulis

1058

00:39:09,710 --> 00:39:07,619

they don't sound anything like each

1059

00:39:11,930 --> 00:39:09,720

other they're fairly close uh

1060

00:39:13,490 --> 00:39:11,940

geographically

1061

00:39:15,890 --> 00:39:13,500

um so if they weren't

1062

00:39:17,150 --> 00:39:15,900

uh separate sub-varieties or something

1063

00:39:19,910 --> 00:39:17,160

they should have had bread and I'll

1064

00:39:22,970 --> 00:39:19,920

become kind of more homogeneous

1065

00:39:27,170 --> 00:39:25,310

did answer the question

1066

00:39:29,150 --> 00:39:27,180

it sounds like it so my other my

1067

00:39:32,329 --> 00:39:29,160

question is I'm going to ask one on top

1068

00:39:33,950 --> 00:39:32,339

of his question so the different types

1069

00:39:36,290 --> 00:39:33,960

of Bigfoot from different regions

1070

00:39:39,109 --> 00:39:36,300

they're not all from the same gene pool

1071

00:39:40,670 --> 00:39:39,119

then basically they're different they're

1072

00:39:42,290 --> 00:39:40,680

different well yeah they're all from the

1073

00:39:43,970 --> 00:39:42,300

same gene pool just like humans are all

1074

00:39:45,770 --> 00:39:43,980

from the same gene pool but there are

1075

00:39:47,589 --> 00:39:45,780

humans that are you know black and

1076  
00:39:50,450 --> 00:39:47,599  
they're humans that are red and they're

1077  
00:39:53,089 --> 00:39:50,460  
Asians and you know we're we're all

1078  
00:39:54,530 --> 00:39:53,099  
noticeably different you can tell which

1079  
00:39:56,930 --> 00:39:54,540  
genetic pull somebody comes from

1080  
00:39:59,089 --> 00:39:56,940  
generally by looking at them it's you

1081  
00:40:00,290 --> 00:39:59,099  
know if we can tell the difference and

1082  
00:40:01,910 --> 00:40:00,300  
it's the same thing with them they have

1083  
00:40:04,790 --> 00:40:01,920  
a little bit more variation it seems

1084  
00:40:07,250 --> 00:40:04,800  
like a lot of the Southern Sasquatch uh

1085  
00:40:09,770 --> 00:40:07,260  
Bigfoot type creatures now they're don't

1086  
00:40:11,930 --> 00:40:09,780  
tend to get quite as big as the ones up

1087  
00:40:14,270 --> 00:40:11,940  
north here but that could just be

1088  
00:40:16,190 --> 00:40:14,280

biological selection too because you

1089

00:40:18,290 --> 00:40:16,200

know if humans live in a distinct area

1090

00:40:20,390 --> 00:40:18,300

long enough they'll start taking on

1091

00:40:23,510 --> 00:40:20,400

characteristics that are more applicable

1092

00:40:25,010 --> 00:40:23,520

to that environment and specifically in

1093

00:40:27,230 --> 00:40:25,020

the north the same thing holds true

1094

00:40:29,089 --> 00:40:27,240

Within any of the larger animals the

1095

00:40:31,069 --> 00:40:29,099

further north you go the bigger they get

1096

00:40:33,589 --> 00:40:31,079

and that's just because of conservation

1097

00:40:35,150 --> 00:40:33,599

of body heat little skinny animals

1098

00:40:37,010 --> 00:40:35,160

pretty solid they don't make it through

1099

00:40:39,109 --> 00:40:37,020

the winter right

1100

00:40:41,690 --> 00:40:39,119

and a Sasquatch Peak and apex predator

1101

00:40:43,790 --> 00:40:41,700

if it is going to predate on any of

1102

00:40:45,829 --> 00:40:43,800

these other animals it's going to have

1103

00:40:48,710 --> 00:40:45,839

to be big enough to you know ring their

1104

00:40:52,550 --> 00:40:48,720

neck so when your nearest food supply is

1105

00:40:55,069 --> 00:40:52,560

a moose who you better be really big or

1106

00:40:58,490 --> 00:40:55,079

you're not eating and stronger than the

1107

00:41:01,190 --> 00:40:58,500

Moose I mean yeah exactly yes

1108

00:41:03,410 --> 00:41:01,200

so Deepak wants to know how many

1109

00:41:05,930 --> 00:41:03,420

varieties of Bigfoot are out there seems

1110

00:41:08,329 --> 00:41:05,940

to be endless

1111

00:41:10,609 --> 00:41:08,339

not really as many as everybody seems to

1112

00:41:12,170 --> 00:41:10,619

think every local area has a different

1113

00:41:13,730 --> 00:41:12,180

name for their Bigfoot that doesn't mean

1114

00:41:17,150 --> 00:41:13,740

that the Bigfoot's any different there

1115

00:41:18,589 --> 00:41:17,160

than it is in other areas

1116

00:41:21,230 --> 00:41:18,599

um you know I'm not trying to contradict

1117

00:41:23,030 --> 00:41:21,240

myself or anything here but uh Momo is

1118

00:41:24,710 --> 00:41:23,040

Momo any different than the Ohio grass

1119

00:41:27,109 --> 00:41:24,720

man probably not

1120

00:41:28,550 --> 00:41:27,119

they're all just Bigfoot there's some

1121

00:41:30,470 --> 00:41:28,560

Regional variations like I was saying

1122

00:41:32,810 --> 00:41:30,480

like skunk ape is different than an

1123

00:41:34,370 --> 00:41:32,820

Alaskan Sasquatch uh the Pacific

1124

00:41:36,230 --> 00:41:34,380

Northwest Sasquatch that we got over

1125

00:41:38,510 --> 00:41:36,240

here are a little bit different than the

1126  
00:41:40,790 --> 00:41:38,520  
wood boogers or sukulu that they have

1127  
00:41:42,170 --> 00:41:40,800  
down in the Deep South and you can see

1128  
00:41:44,270 --> 00:41:42,180  
the differences too the ones out here

1129  
00:41:46,370 --> 00:41:44,280  
tend to have cone-shaped heads and the

1130  
00:41:48,530 --> 00:41:46,380  
ones down there are more commonly have

1131  
00:41:52,310 --> 00:41:48,540  
the round heads but again that doesn't

1132  
00:41:53,810 --> 00:41:52,320  
hold entirely exclusively 100 all the

1133  
00:41:55,609 --> 00:41:53,820  
time either

1134  
00:41:57,950 --> 00:41:55,619  
mm-hmm

1135  
00:42:01,190 --> 00:41:57,960  
and Vincent wants to know

1136  
00:42:03,829 --> 00:42:01,200  
how many to a clan or a pod

1137  
00:42:05,210 --> 00:42:03,839  
totally varies how many relatives do you

1138  
00:42:07,490 --> 00:42:05,220

have

1139

00:42:09,470 --> 00:42:07,500

what's the carrying capacity of the land

1140

00:42:10,609 --> 00:42:09,480

what's what's the carrying capacity of

1141

00:42:12,589 --> 00:42:10,619

the land where you and all your

1142

00:42:14,150 --> 00:42:12,599

relatives are living

1143

00:42:15,650 --> 00:42:14,160

if there's not enough food there then

1144

00:42:19,370 --> 00:42:15,660

some of your relatives will have to move

1145

00:42:23,150 --> 00:42:21,170

so they could still be part of the same

1146

00:42:24,890 --> 00:42:23,160

pod or Clan but some of them could have

1147

00:42:27,170 --> 00:42:24,900

went others absolutely and they could

1148

00:42:29,270 --> 00:42:27,180

move huge distances too this came up

1149

00:42:33,410 --> 00:42:29,280

with glag who was up from the Pacific

1150

00:42:35,930 --> 00:42:33,420

Northwest here and as it turned out his

1151  
00:42:39,050 --> 00:42:35,940  
grandma which is actually his great aunt

1152  
00:42:40,849 --> 00:42:39,060  
had uh picked up a mate who was from the

1153  
00:42:43,490 --> 00:42:40,859  
south and had been living down there

1154  
00:42:45,290 --> 00:42:43,500  
with him for decades and when Kevin

1155  
00:42:48,650 --> 00:42:45,300  
moved into Arkansas he was in the same

1156  
00:42:51,829 --> 00:42:48,660  
general area she was so she found him I

1157  
00:42:54,109 --> 00:42:51,839  
was glad grandma and the first thing he

1158  
00:42:57,770 --> 00:42:54,119  
said when he saw her is like this female

1159  
00:43:00,589 --> 00:42:57,780  
Bigfoot is gigantic she's like 10 feet

1160  
00:43:02,870 --> 00:43:00,599  
tall and I'm like well yeah and he goes

1161  
00:43:05,089 --> 00:43:02,880  
even the Bales down here don't usually

1162  
00:43:06,589 --> 00:43:05,099  
get that big and I go you think she's

1163  
00:43:08,030 --> 00:43:06,599

from around there and he goes I'm

1164

00:43:10,430 --> 00:43:08,040

starting to think maybe not because

1165

00:43:11,870 --> 00:43:10,440

she's really huge well then it didn't

1166

00:43:14,210 --> 00:43:11,880

take him too much longer to find out

1167

00:43:15,890 --> 00:43:14,220

that yeah she wasn't from down there she

1168

00:43:18,710 --> 00:43:15,900

was from up here in Idaho area

1169

00:43:20,270 --> 00:43:18,720

originally and uh that's why she's so

1170

00:43:22,190 --> 00:43:20,280

much bigger than all the local ones were

1171

00:43:23,750 --> 00:43:22,200

and she was also really old she had the

1172

00:43:25,790 --> 00:43:23,760

grayish white hair and stuff you know

1173

00:43:28,250 --> 00:43:25,800

and she was getting forgetful and

1174

00:43:30,589 --> 00:43:28,260

alzheimer's and forgetting that you're

1175

00:43:32,450 --> 00:43:30,599

not supposed to talk to humans little

1176

00:43:35,990 --> 00:43:32,460

details like that

1177

00:43:37,550 --> 00:43:36,000

oh wow so they they're basically just

1178

00:43:40,130 --> 00:43:37,560

like us in a way

1179

00:43:42,770 --> 00:43:40,140

very very similar I mean saying that

1180

00:43:44,569 --> 00:43:42,780

they're 100 like us not really but

1181

00:43:46,130 --> 00:43:44,579

they're very similar to us they have the

1182

00:43:47,930 --> 00:43:46,140

same kind of feelings they're very smart

1183

00:43:51,589 --> 00:43:47,940

they're more

1184

00:43:54,109 --> 00:43:51,599

intuitive empathic and uh

1185

00:43:55,790 --> 00:43:54,119

that sort of region of the brain used

1186

00:43:58,790 --> 00:43:55,800

than we have we're kind of you know

1187

00:44:01,730 --> 00:43:58,800

Wooden Heads as far as that goes

1188

00:44:03,170 --> 00:44:01,740

um but on the other hand they're you

1189

00:44:05,569 --> 00:44:03,180

know they live very much in a natural

1190

00:44:08,690 --> 00:44:05,579

environment they're not getting their uh

1191

00:44:10,309 --> 00:44:08,700

steak from the local supermarket so a

1192

00:44:12,349 --> 00:44:10,319

lot of the stuff that they do would seem

1193

00:44:13,490 --> 00:44:12,359

to be extremely Savage from our

1194

00:44:16,910 --> 00:44:13,500

standpoint

1195

00:44:19,430 --> 00:44:16,920

hell do we know we're not part of the

1196

00:44:21,050 --> 00:44:19,440

Galactic Federation and I had a guest on

1197

00:44:23,809 --> 00:44:21,060

my show that actually mine speaks with

1198

00:44:26,089 --> 00:44:23,819

him and also is in contact with the

1199

00:44:28,010 --> 00:44:26,099

local there's an alien base under a

1200

00:44:29,390 --> 00:44:28,020

mountain near her and that's how she got

1201

00:44:30,770 --> 00:44:29,400

contact with the Bigfoot to start with

1202

00:44:32,630 --> 00:44:30,780

because she was talking to those guys

1203

00:44:34,430 --> 00:44:32,640

and they put her in contact with the

1204

00:44:36,530 --> 00:44:34,440

Bigfoot because the Bigfoot wanted her

1205

00:44:37,670 --> 00:44:36,540

to do artwork of them of all bizarre

1206

00:44:39,770 --> 00:44:37,680

things

1207

00:44:41,569 --> 00:44:39,780

um to get through the point to the rest

1208

00:44:43,370 --> 00:44:41,579

of us that they're not monsters and

1209

00:44:45,829 --> 00:44:43,380

don't shoot at them so they wanted her

1210

00:44:48,650 --> 00:44:45,839

to do all artwork of the little kids and

1211

00:44:50,630 --> 00:44:48,660

the females who you know like look less

1212

00:44:52,550 --> 00:44:50,640

menacing to us to get it across the dove

1213

00:44:55,730 --> 00:44:52,560

humans quit shooting at them and that's

1214

00:44:57,589 --> 00:44:55,740

part of my main speech at any point is

1215

00:44:59,750 --> 00:44:57,599

these are people

1216

00:45:09,290 --> 00:44:59,760

don't shoot it though you're trying to

1217

00:45:13,550 --> 00:45:11,750

I don't think you should shoot at

1218

00:45:15,349 --> 00:45:13,560

something from what I've also read that

1219

00:45:17,990 --> 00:45:15,359

they do look like I shouldn't shoot at

1220

00:45:20,210 --> 00:45:18,000

something that looks human I mean unless

1221

00:45:22,069 --> 00:45:20,220

you feel unless it's attacking you

1222

00:45:24,170 --> 00:45:22,079

that's probably where I would draw the

1223

00:45:27,050 --> 00:45:24,180

line if you're being attacked and then

1224

00:45:28,130 --> 00:45:27,060

the other thing is too how do we

1225

00:45:29,630 --> 00:45:28,140

um

1226  
00:45:30,950 --> 00:45:29,640  
you know they're just kind of guessing

1227  
00:45:32,210 --> 00:45:30,960  
and feeling their way along with us

1228  
00:45:33,410 --> 00:45:32,220  
interacting with us too because they

1229  
00:45:35,150 --> 00:45:33,420  
don't usually interact with humans

1230  
00:45:38,270 --> 00:45:35,160  
there's very few groups that have a

1231  
00:45:39,650 --> 00:45:38,280  
human they'll interact with at all so if

1232  
00:45:41,210 --> 00:45:39,660  
you know if they're trying to tell you

1233  
00:45:43,210 --> 00:45:41,220  
go away or something and they put their

1234  
00:45:45,470 --> 00:45:43,220  
arms above their head and go like this

1235  
00:45:47,210 --> 00:45:45,480  
does that mean they're attacking you a

1236  
00:45:49,250 --> 00:45:47,220  
lot of humans would would say oh God it

1237  
00:45:50,750 --> 00:45:49,260  
was attacking me how do you know it put

1238  
00:45:51,890 --> 00:45:50,760

it hands above its head and it went like

1239

00:45:54,349 --> 00:45:51,900

this

1240

00:45:55,550 --> 00:45:54,359

yeah well you know it's like Robin McRae

1241

00:45:56,750 --> 00:45:55,560

would tell you if you're in the military

1242

00:45:59,030 --> 00:45:56,760

and you do that it means you're

1243

00:46:01,130 --> 00:45:59,040

surrendering hey that doesn't mean

1244

00:46:02,690 --> 00:46:01,140

you're attacking and sometimes they'll

1245

00:46:04,849 --> 00:46:02,700

Block charge you just because they want

1246

00:46:07,190 --> 00:46:04,859

you they don't want to hurt you but they

1247

00:46:08,569 --> 00:46:07,200

want you to go away and this usually

1248

00:46:11,210 --> 00:46:08,579

applies to people they don't like

1249

00:46:12,589 --> 00:46:11,220

they'll just ramp up the activity higher

1250

00:46:14,950 --> 00:46:12,599

and higher until you finally get the amp

1251  
00:46:17,329 --> 00:46:14,960  
they don't want you in the area go away

1252  
00:46:18,650 --> 00:46:17,339  
and they'll do this sometimes even with

1253  
00:46:20,870 --> 00:46:18,660  
people that they actually do like

1254  
00:46:22,910 --> 00:46:20,880  
because let's say you're too close to

1255  
00:46:24,710 --> 00:46:22,920  
their kids even if they like you you're

1256  
00:46:27,470 --> 00:46:24,720  
too close to the kids they'll still run

1257  
00:46:29,150 --> 00:46:27,480  
you out or you know at the point where

1258  
00:46:30,410 --> 00:46:29,160  
I'm like I'm at where they let the kids

1259  
00:46:32,870 --> 00:46:30,420  
follow me around

1260  
00:46:34,309 --> 00:46:32,880  
God that scares me

1261  
00:46:35,510 --> 00:46:34,319  
um they would still run me up or

1262  
00:46:37,010 --> 00:46:35,520  
something if there was something even

1263  
00:46:38,450 --> 00:46:37,020

more dangerous something really

1264

00:46:40,849 --> 00:46:38,460

dangerous there that they didn't want me

1265

00:46:42,950 --> 00:46:40,859

to run into they might do an aggressive

1266

00:46:45,589 --> 00:46:42,960

type display just you know stand on the

1267

00:46:47,089 --> 00:46:45,599

trail and grow for a second and this

1268

00:46:48,890 --> 00:46:47,099

happened this happened to Kevin down

1269

00:46:51,050 --> 00:46:48,900

south actually he heard

1270

00:46:52,670 --> 00:46:51,060

this Ruckus going on in the woods and it

1271

00:46:54,470 --> 00:46:52,680

sounded like one of his Sasquatch was

1272

00:46:56,270 --> 00:46:54,480

fighting with something else and there

1273

00:46:59,210 --> 00:46:56,280

was just trees getting ripped down and

1274

00:47:01,250 --> 00:46:59,220

roaring and all kinds of Racket and you

1275

00:47:02,750 --> 00:47:01,260

know being a good-hearted soul that he

1276

00:47:04,849 --> 00:47:02,760

is he wanted to come in on the side of

1277

00:47:07,010 --> 00:47:04,859

the Sasquatch so he grabbed his pistol

1278

00:47:09,050 --> 00:47:07,020

and flashlight and ran for the woods and

1279

00:47:11,569 --> 00:47:09,060

when he got to the woods one of the the

1280

00:47:13,190 --> 00:47:11,579

uh the young youngsters juvenile was

1281

00:47:15,050 --> 00:47:13,200

only about eight feet tall it was tasked

1282

00:47:16,849 --> 00:47:15,060

with keeping an eye on Kevin actually

1283

00:47:18,650 --> 00:47:16,859

stood out in front walked right out in

1284

00:47:20,990 --> 00:47:18,660

front of the growled at him

1285

00:47:22,910 --> 00:47:21,000

oh geez and Kev goes you want me to go

1286

00:47:25,790 --> 00:47:22,920

back in the house and he like tried to

1287

00:47:27,170 --> 00:47:25,800

walk around him and he again put himself

1288

00:47:29,390 --> 00:47:27,180

right in front of Kevin and crawled at

1289

00:47:32,690 --> 00:47:29,400

him and Kevin went okay I got it I can't

1290

00:47:34,309 --> 00:47:32,700

help you guys I'll go in the house yeah

1291

00:47:36,230 --> 00:47:34,319

well I mean that would scare me too

1292

00:47:38,750 --> 00:47:36,240

because it's just like a mother bear in

1293

00:47:40,670 --> 00:47:38,760

her Cubs except the mother bear isn't

1294

00:47:43,370 --> 00:47:40,680

going to chase you she's going to tear

1295

00:47:44,450 --> 00:47:43,380

your head off I mean yeah yeah with a

1296

00:47:47,390 --> 00:47:44,460

brother bear that's a completely

1297

00:47:49,569 --> 00:47:47,400

different thing their thought process is

1298

00:47:52,910 --> 00:47:49,579

anything like ours is and it's all about

1299

00:47:55,510 --> 00:47:52,920

defending the baby and you know that

1300

00:47:57,710 --> 00:47:55,520

that's that's sort of they won't really

1301  
00:47:59,089 --> 00:47:57,720  
they won't try and run you off so much

1302  
00:48:01,730 --> 00:47:59,099  
as they'll just Maul you because you're

1303  
00:48:03,530 --> 00:48:01,740  
too close yeah don't don't make that

1304  
00:48:05,510 --> 00:48:03,540  
mistake anybody that is well versed in

1305  
00:48:07,450 --> 00:48:05,520  
Bear Behavior bears are always worth

1306  
00:48:11,690 --> 00:48:07,460  
avoiding

1307  
00:48:13,790 --> 00:48:11,700  
so Nancy Malcolm wants to know would the

1308  
00:48:16,309 --> 00:48:13,800  
very large ones be hybrids of the

1309  
00:48:17,990 --> 00:48:16,319  
Nephilim

1310  
00:48:19,790 --> 00:48:18,000  
we actually think that there's

1311  
00:48:21,770 --> 00:48:19,800  
potentially one of the branches of

1312  
00:48:24,770 --> 00:48:21,780  
Bigfoot out there that are known as the

1313  
00:48:27,710 --> 00:48:24,780

the Iroquois column the stone giants

1314

00:48:29,390 --> 00:48:27,720

uh they're also called the janosqua and

1315

00:48:30,950 --> 00:48:29,400

they have very interesting description

1316

00:48:32,390 --> 00:48:30,960

and traits to them

1317

00:48:33,530 --> 00:48:32,400

and some of the other research we've

1318

00:48:35,809 --> 00:48:33,540

done and we've actually asked the

1319

00:48:37,790 --> 00:48:35,819

Bigfoot themselves about this and what

1320

00:48:41,030 --> 00:48:37,800

it sounds like is that the at some point

1321

00:48:44,089 --> 00:48:41,040

either willingly or unwillingly there

1322

00:48:47,089 --> 00:48:44,099

was some kind of uh uh hybridization

1323

00:48:49,790 --> 00:48:47,099

between the Nephilim Giants and you know

1324

00:48:51,650 --> 00:48:49,800

at least one or more Sasquatch and the

1325

00:48:53,150 --> 00:48:51,660

results of that are probably what they

1326  
00:48:54,290 --> 00:48:53,160  
were calling the janosko or the stone

1327  
00:48:57,950 --> 00:48:54,300  
giants

1328  
00:48:59,690 --> 00:48:57,960  
because they not only were outrageously

1329  
00:49:01,609 --> 00:48:59,700  
huge proportions like your average Stone

1330  
00:49:04,609 --> 00:49:01,619  
Giant they were talking about them being

1331  
00:49:06,349 --> 00:49:04,619  
15 feet tall and that's not average size

1332  
00:49:08,150 --> 00:49:06,359  
for a Bigfoot that's really on the large

1333  
00:49:10,750 --> 00:49:08,160  
size so there was something outside

1334  
00:49:14,150 --> 00:49:10,760  
about them to start with and then also

1335  
00:49:16,309 --> 00:49:14,160  
uh that they had six digits which again

1336  
00:49:18,650 --> 00:49:16,319  
is now full of them and the double rows

1337  
00:49:21,410 --> 00:49:18,660  
of teeth thing but they also had they

1338  
00:49:23,329 --> 00:49:21,420

were hairy like a Bigfoot was and the

1339

00:49:25,430 --> 00:49:23,339

old Legend where the stone giants got

1340

00:49:28,910 --> 00:49:25,440

their Stone coats from is that they

1341

00:49:32,690 --> 00:49:28,920

would rub the the hair on them with like

1342

00:49:34,730 --> 00:49:32,700

uh pitch uh pine tar sap things that

1343

00:49:36,410 --> 00:49:34,740

were really sticky and then they go roll

1344

00:49:38,450 --> 00:49:36,420

around in a pile of gravel and it would

1345

00:49:40,309 --> 00:49:38,460

stick to their hair and they do this

1346

00:49:43,069 --> 00:49:40,319

over and over again until there wasn't

1347

00:49:45,829 --> 00:49:43,079

any open spots on them it was all rock

1348

00:49:47,510 --> 00:49:45,839

and they look like stone giants and if

1349

00:49:49,190 --> 00:49:47,520

you think about the technology that the

1350

00:49:51,530 --> 00:49:49,200

poor natives had to fight against them

1351  
00:49:54,970 --> 00:49:51,540  
they had Spears and bows that were what

1352  
00:49:57,530 --> 00:49:54,980  
either tipped with stone or with uh bone

1353  
00:49:59,270 --> 00:49:57,540  
so it wasn't going through their armor

1354  
00:50:01,550 --> 00:49:59,280  
and it's interesting to note there

1355  
00:50:04,730 --> 00:50:01,560  
hasn't been any reports of the ones with

1356  
00:50:06,650 --> 00:50:04,740  
armor you know with stone armor on them

1357  
00:50:09,470 --> 00:50:06,660  
the reports of those things being around

1358  
00:50:10,849 --> 00:50:09,480  
stopped at mysteriously about the same

1359  
00:50:16,010 --> 00:50:10,859  
time that the Local Natives got

1360  
00:50:19,430 --> 00:50:18,109  
now we have a boom stick it can shoot a

1361  
00:50:22,210 --> 00:50:19,440  
hole through your stone coat it doesn't

1362  
00:50:27,230 --> 00:50:22,220  
work so good anymore huh

1363  
00:50:30,770 --> 00:50:27,240

exactly exactly so Vincent wants to know

1364

00:50:35,089 --> 00:50:33,290

uh if you know the local name of their

1365

00:50:37,490 --> 00:50:35,099

tribe or Clan that's always the best

1366

00:50:39,530 --> 00:50:37,500

thing to call them Forest people is good

1367

00:50:40,790 --> 00:50:39,540

some of them don't like the word Bigfoot

1368

00:50:42,170 --> 00:50:40,800

because it's you know makes it sound

1369

00:50:43,609 --> 00:50:42,180

like they have outside speed which

1370

00:50:45,230 --> 00:50:43,619

really they don't

1371

00:50:47,809 --> 00:50:45,240

as they would point out their feeder

1372

00:50:49,309 --> 00:50:47,819

perfectly in proportion to their bodies

1373

00:50:50,630 --> 00:50:49,319

and if we don't quit calling them that

1374

00:50:54,950 --> 00:50:50,640

they're going to start calling us tiny

1375

00:50:59,150 --> 00:50:57,130

fair enough I guess

1376

00:51:00,589 --> 00:50:59,160

yeah they do have they have original

1377

00:51:03,890 --> 00:51:00,599

names for them like not in the Deep

1378

00:51:05,450 --> 00:51:03,900

South if you call them the uh sukulu uh

1379

00:51:07,010 --> 00:51:05,460

that's the main tribe down there you

1380

00:51:09,710 --> 00:51:07,020

know here in the Pacific Northwest the

1381

00:51:11,690 --> 00:51:09,720

Sasquatch and they don't it doesn't seem

1382

00:51:13,849 --> 00:51:11,700

like you know I was over in Nebraska and

1383

00:51:16,190 --> 00:51:13,859

stuff and over there you know you call

1384

00:51:17,390 --> 00:51:16,200

them Sasquatch that's fine too they know

1385

00:51:18,770 --> 00:51:17,400

what that means so you're you know

1386

00:51:20,750 --> 00:51:18,780

calling in the name of one of the tribes

1387

00:51:23,990 --> 00:51:20,760

it'd be like if somebody if you were

1388

00:51:25,609 --> 00:51:24,000

trying to call a human uh uh Frenchman

1389

00:51:26,750 --> 00:51:25,619

when they were an Englishman well at

1390

00:51:29,290 --> 00:51:26,760

least you're acknowledging they're a

1391

00:51:33,530 --> 00:51:29,300

human Okay close enough

1392

00:51:35,210 --> 00:51:33,540

yeah close enough exactly Robin uh Robin

1393

00:51:37,910 --> 00:51:35,220

McRae said actually said something

1394

00:51:41,150 --> 00:51:37,920

interesting she said they are a human

1395

00:51:43,730 --> 00:51:41,160

hybrid so do you want to explain that a

1396

00:51:45,710 --> 00:51:43,740

little more oh yeah that's the uh for

1397

00:51:49,609 --> 00:51:45,720

more reference on that you can go to the

1398

00:51:52,670 --> 00:51:49,619

uh Ketchum DNA study spearheaded by Dr

1399

00:51:55,250 --> 00:51:52,680

Melba Ketchum and had Dave Pilates and

1400

00:51:58,309 --> 00:51:55,260

practically other Bigfoot luminary on

1401  
00:52:00,290 --> 00:51:58,319  
Earth involved in it uh Robert Kreider

1402  
00:52:03,109 --> 00:52:00,300  
collected samples for it Randy Briston

1403  
00:52:05,329 --> 00:52:03,119  
collected samples for it and over a

1404  
00:52:07,130 --> 00:52:05,339  
hundred samples that they did the

1405  
00:52:09,170 --> 00:52:07,140  
genetic testing and sequencing on had

1406  
00:52:12,710 --> 00:52:09,180  
multiple Labs do it published written

1407  
00:52:16,309 --> 00:52:12,720  
paper on it findings were that the

1408  
00:52:19,490 --> 00:52:16,319  
mitochondrial which is the female DNA

1409  
00:52:22,970 --> 00:52:19,500  
line was human female dating back to

1410  
00:52:25,609 --> 00:52:22,980  
about 12 15 000 years ago and the

1411  
00:52:27,950 --> 00:52:25,619  
nuclear or the the DNA that comes out of

1412  
00:52:33,109 --> 00:52:27,960  
the nucleus of the cell that's the male

1413  
00:52:36,589 --> 00:52:34,670

so that's how we know that they're human

1414

00:52:39,230 --> 00:52:36,599

hybrids at least all the ones that they

1415

00:52:40,790 --> 00:52:39,240

got hair samples from and other tissue

1416

00:52:42,950 --> 00:52:40,800

samples and whatnot that they could test

1417

00:52:44,329 --> 00:52:42,960

all of those from across the continent

1418

00:52:46,010 --> 00:52:44,339

that they could get their hands on all

1419

00:52:47,870 --> 00:52:46,020

came back the same

1420

00:52:50,210 --> 00:52:47,880

so there you go there's the actual

1421

00:52:53,089 --> 00:52:50,220

science no supposition or hypothetical

1422

00:52:56,270 --> 00:52:53,099

anything on that and Dr Melba ketchum's

1423

00:52:58,010 --> 00:52:56,280

uh was immediately attacked by the media

1424

00:53:00,170 --> 00:52:58,020

and also by a lot of the Bigfoot

1425

00:53:01,670 --> 00:53:00,180

Community especially the idiots and the

1426  
00:53:03,290 --> 00:53:01,680  
Bigfoot our big Apes running around the

1427  
00:53:04,910 --> 00:53:03,300  
woods crew that are never going to get

1428  
00:53:07,910 --> 00:53:04,920  
their heads extracted from their asses

1429  
00:53:09,829 --> 00:53:07,920  
apparently uh all I got I got a couple

1430  
00:53:12,290 --> 00:53:09,839  
things to say to them first of all if

1431  
00:53:14,569 --> 00:53:12,300  
you think Bigfoot is just a big dumb

1432  
00:53:16,910 --> 00:53:14,579  
monkey running around the woods you're

1433  
00:53:18,890 --> 00:53:16,920  
really stupid because you can't catch a

1434  
00:53:21,530 --> 00:53:18,900  
big dumb monkey

1435  
00:53:23,089 --> 00:53:21,540  
and the second thing is if Bigfoot was a

1436  
00:53:25,430 --> 00:53:23,099  
big dumb monkey running around the woods

1437  
00:53:26,329 --> 00:53:25,440  
we would have had one in a zoo 150 years

1438  
00:53:27,950 --> 00:53:26,339

ago

1439

00:53:29,809 --> 00:53:27,960

because remember we were hunting the

1440

00:53:31,549 --> 00:53:29,819

biggest animals on Earth

1441

00:53:34,549 --> 00:53:31,559

from a canoe

1442

00:53:37,670 --> 00:53:34,559

with a spear that's a whale before we

1443

00:53:39,650 --> 00:53:37,680

even had gunpowder technology we are the

1444

00:53:41,450 --> 00:53:39,660

best hunters if this was a big dumb

1445

00:53:42,829 --> 00:53:41,460

monkey running around the woods this

1446

00:53:44,510 --> 00:53:42,839

would have been all over with a long

1447

00:53:46,609 --> 00:53:44,520

time ago so you guys are completing

1448

00:53:48,890 --> 00:53:46,619

morons sorry I get mad about that kind

1449

00:53:50,990 --> 00:53:48,900

of thing no you actually make a good

1450

00:53:53,270 --> 00:53:51,000

point because if it was a monkey you

1451

00:53:55,130 --> 00:53:53,280

know it they shouldn't be that hard to

1452

00:53:58,849 --> 00:53:55,140

catch we have we've caught them before

1453

00:54:01,849 --> 00:53:58,859

we have them in zoos yep I mean we we

1454

00:54:04,849 --> 00:54:01,859

know how to obviously trap them or they

1455

00:54:06,589 --> 00:54:04,859

should be much more easier to see

1456

00:54:09,530 --> 00:54:06,599

well and again you know as far as we

1457

00:54:11,210 --> 00:54:09,540

know all the all the known anthropoid

1458

00:54:13,609 --> 00:54:11,220

life forms on Earth although they're

1459

00:54:16,750 --> 00:54:13,619

pretty clever and smart and elusive

1460

00:54:19,490 --> 00:54:16,760

you can still catch one

1461

00:54:21,710 --> 00:54:19,500

so this is clearly this is a hominoid

1462

00:54:24,230 --> 00:54:21,720

too and his uh Robert Kreider would like

1463

00:54:29,030 --> 00:54:24,240

to point out that uh in order for it to

1464

00:54:33,170 --> 00:54:29,040

be in the uh homogeneous like uh Homo

1465

00:54:38,030 --> 00:54:33,180

sapiens neanderthalensis uh denisovan

1466

00:54:40,849 --> 00:54:38,040

Heidelberg answers uh Flores yensus any

1467

00:54:43,730 --> 00:54:40,859

of the homogeneous Homo erectus home on

1468

00:54:46,130 --> 00:54:43,740

the holiday what do we have in common we

1469

00:54:47,470 --> 00:54:46,140

walk on two feet

1470

00:54:50,990 --> 00:54:47,480

okay

1471

00:54:53,450 --> 00:54:51,000

we are bipedal all the Apes the great

1472

00:54:54,890 --> 00:54:53,460

apes aren't they're quadrupeds and they

1473

00:54:56,870 --> 00:54:54,900

don't have feet that are shaped like

1474

00:54:59,270 --> 00:54:56,880

ours their feet are shaped like hands

1475

00:55:01,730 --> 00:54:59,280

because they're bronchiators they travel

1476

00:55:03,470 --> 00:55:01,740

around through the trees are arboreal so

1477

00:55:05,270 --> 00:55:03,480

instead of having two hands and two feet

1478

00:55:07,849 --> 00:55:05,280

they have four hands essentially and

1479

00:55:09,770 --> 00:55:07,859

that's why all the great apes feet look

1480

00:55:11,569 --> 00:55:09,780

and Bigfoot's feet don't look like that

1481

00:55:13,549 --> 00:55:11,579

we have thousands and thousands of

1482

00:55:15,349 --> 00:55:13,559

examples of Bigfoot tracks they look

1483

00:55:18,410 --> 00:55:15,359

like a human track only slightly

1484

00:55:22,309 --> 00:55:18,420

modified to carry the greater weight and

1485

00:55:24,349 --> 00:55:22,319

the way that they actually uh move uh it

1486

00:55:26,270 --> 00:55:24,359

it works a lot better for that which

1487

00:55:29,349 --> 00:55:26,280

again blows holes in idiotic theories

1488

00:55:31,790 --> 00:55:29,359

like you know Bigfoot is uh

1489

00:55:33,349 --> 00:55:31,800

gigantopithecus first of all we don't

1490

00:55:35,809 --> 00:55:33,359

even know what gigantopithecus is all we

1491

00:55:39,470 --> 00:55:35,819

know of gigantopithecus is like two jaw

1492

00:55:41,990 --> 00:55:39,480

bones and uh a handful of molars so

1493

00:55:44,450 --> 00:55:42,000

they're hypothetically reconstructing

1494

00:55:46,549 --> 00:55:44,460

this entire species from some teeth in a

1495

00:55:48,349 --> 00:55:46,559

couple jaw bones that's all we've got

1496

00:55:50,870 --> 00:55:48,359

from that thing so when they tell you it

1497

00:55:53,270 --> 00:55:50,880

was some kind of a giant orangutan that

1498

00:55:54,890 --> 00:55:53,280

was eight feet tall and ate bamboo and

1499

00:55:56,809 --> 00:55:54,900

only lived at a certain altitude on the

1500

00:55:58,490 --> 00:55:56,819

mountains and never posed for careful

1501  
00:56:00,470 --> 00:55:58,500  
shots like that one

1502  
00:56:03,230 --> 00:56:00,480  
uh how the hell do they know any of that

1503  
00:56:05,089 --> 00:56:03,240  
that's pixie dust science and let me

1504  
00:56:07,130 --> 00:56:05,099  
disabuse you of these silly Notions

1505  
00:56:09,230 --> 00:56:07,140  
let's assume for a moment that you're

1506  
00:56:11,930 --> 00:56:09,240  
absolutely correct that an eight foot

1507  
00:56:14,390 --> 00:56:11,940  
tall orangutan like pandya did actually

1508  
00:56:16,010 --> 00:56:14,400  
exist at some point and even looked like

1509  
00:56:17,930 --> 00:56:16,020  
what we're showing on the screen okay

1510  
00:56:19,790 --> 00:56:17,940  
we'll give you that he's from the

1511  
00:56:22,329 --> 00:56:19,800  
orangutan family you know what his feet

1512  
00:56:25,970 --> 00:56:22,339  
look like they look like hands

1513  
00:56:28,670 --> 00:56:25,980

he's not from the homo genus he's not

1514

00:56:31,309 --> 00:56:28,680

Bigfoot that's pretty simple anybody

1515

00:56:32,870 --> 00:56:31,319

that's an actual anatomist should know

1516

00:56:35,569 --> 00:56:32,880

better than to make such ridiculous

1517

00:56:36,890 --> 00:56:35,579

postulations my fingers pointing at a

1518

00:56:39,230 --> 00:56:36,900

certain scientist in North America right

1519

00:56:39,240 --> 00:56:46,069

no and I totally agree with you because

1520

00:56:51,829 --> 00:56:50,270

look like a man-sized foot except yeah

1521

00:56:53,510 --> 00:56:51,839

that is some of the morphological

1522

00:56:55,549 --> 00:56:53,520

Geniuses that have looked at this stuff

1523

00:56:58,609 --> 00:56:55,559

you know like a good example of that is

1524

00:57:01,549 --> 00:56:58,619

Grover Krantz he had the cast of The

1525

00:57:03,890 --> 00:57:01,559

bosberg [h\_\_h] foot track and he took

1526

00:57:05,210 --> 00:57:03,900

the cast and he drew the bones on the

1527

00:57:06,710 --> 00:57:05,220

bottom of it here's where this bone

1528

00:57:09,049 --> 00:57:06,720

would be here's where this bone would be

1529

00:57:10,490 --> 00:57:09,059

and looked at the whole thing and in

1530

00:57:11,930 --> 00:57:10,500

order for somebody to have faked that

1531

00:57:14,930 --> 00:57:11,940

track they would have had to have been

1532

00:57:16,910 --> 00:57:14,940

like a professor level anatomist because

1533

00:57:19,370 --> 00:57:16,920

they didn't just copy a human foot

1534

00:57:21,170 --> 00:57:19,380

everything was displaced just like it

1535

00:57:23,450 --> 00:57:21,180

would have to be if something that was

1536

00:57:27,290 --> 00:57:23,460

800 pounds was walking on this foot

1537

00:57:30,230 --> 00:57:27,300

there you go wow

1538

00:57:32,450 --> 00:57:30,240

that's something that really is

1539

00:57:34,849 --> 00:57:32,460

and that's not the only one uh Blaine

1540

00:57:36,470 --> 00:57:34,859

Tyler who is now making a cast of this

1541

00:57:38,089 --> 00:57:36,480

and uh sending it down to the Nebraska

1542

00:57:40,370 --> 00:57:38,099

Bigfoot Museum so they can have it on

1543

00:57:42,829 --> 00:57:40,380

display he's got a [h\_\_h] footed track

1544

00:57:44,030 --> 00:57:42,839

from up in Ontario too

1545

00:57:47,990 --> 00:57:44,040

wow

1546

00:57:51,470 --> 00:57:49,790

they all not like

1547

00:57:53,750 --> 00:57:51,480

they're very similar but they're not all

1548

00:57:54,890 --> 00:57:53,760

identical as Robin would point out that

1549

00:57:58,030 --> 00:57:54,900

uh

1550

00:58:01,549 --> 00:57:58,040

even the hypothetical mid-tarsal joint

1551  
00:58:03,410 --> 00:58:01,559  
is not 100 homogeneous trait amongst

1552  
00:58:05,630 --> 00:58:03,420  
these different sub varieties

1553  
00:58:07,130 --> 00:58:05,640  
a lot of them do have a metatarsal joint

1554  
00:58:09,589 --> 00:58:07,140  
and other ones just don't

1555  
00:58:11,930 --> 00:58:09,599  
so that's yeah that is not a for sure

1556  
00:58:13,730 --> 00:58:11,940  
way to know and there's other Cryptids

1557  
00:58:16,490 --> 00:58:13,740  
out there that have similar feet too

1558  
00:58:19,309 --> 00:58:16,500  
Mountain giant tracks look a lot like a

1559  
00:58:21,109 --> 00:58:19,319  
human track or a Bigfoot track but they

1560  
00:58:23,510 --> 00:58:21,119  
don't have a hallux

1561  
00:58:25,609 --> 00:58:23,520  
they've only got four toes the four toes

1562  
00:58:28,190 --> 00:58:25,619  
all look the same they're all about the

1563  
00:58:31,210 --> 00:58:28,200

same size really peculiar if you see one

1564

00:58:33,290 --> 00:58:31,220

of those tracks leave the area

1565

00:58:36,530 --> 00:58:33,300

well I want to talk to you about

1566

00:58:39,950 --> 00:58:36,540

Mountain Giants so Nancy Malcolm wants

1567

00:58:40,970 --> 00:58:39,960

to know how well do modern human females

1568

00:58:44,630 --> 00:58:40,980

survive

1569

00:58:46,670 --> 00:58:44,640

has made it to a Bigfoot male having

1570

00:58:48,950 --> 00:58:46,680

babies must be difficult

1571

00:58:51,650 --> 00:58:48,960

yeah absolutely and I think that you

1572

00:58:54,170 --> 00:58:51,660

know what a very few anecdotal accounts

1573

00:58:56,690 --> 00:58:54,180

we heard have heard about that

1574

00:58:58,250 --> 00:58:56,700

um although I guess it is possible

1575

00:59:00,230 --> 00:58:58,260

um it may not work out all that well

1576

00:59:03,170 --> 00:59:00,240

most of the time we have the report of

1577

00:59:04,970 --> 00:59:03,180

seraphine long who was abducted by uh

1578

00:59:06,890 --> 00:59:04,980

Amorous young male Bigfoot needed a

1579

00:59:08,930 --> 00:59:06,900

girlfriend and brought her home to Mommy

1580

00:59:11,750 --> 00:59:08,940

and Daddy they didn't really approve but

1581

00:59:13,730 --> 00:59:11,760

he didn't let her go either and after

1582

00:59:15,289 --> 00:59:13,740

almost a year of living with him she

1583

00:59:17,930 --> 00:59:15,299

finally just she was actually getting

1584

00:59:20,390 --> 00:59:17,940

physically sick because the conditions

1585

00:59:22,670 --> 00:59:20,400

they're in just are not immutable to a

1586

00:59:24,349 --> 00:59:22,680

human surviving it for that long and so

1587

00:59:26,089 --> 00:59:24,359

she finally convinced him to bring her

1588

00:59:28,430 --> 00:59:26,099

back to her own people and drop her off

1589

00:59:30,230 --> 00:59:28,440

and stuff and according to the account a

1590

00:59:36,950 --> 00:59:30,240

week or two after he dropped her off she

1591

00:59:40,970 --> 00:59:39,589

um Nancy again wants to know how okay

1592

00:59:43,190 --> 00:59:40,980

wait I'm gonna have to take that

1593

00:59:46,549 --> 00:59:43,200

question off sorry Nancy wants to know

1594

00:59:50,510 --> 00:59:46,559

do do Bigfoot say the star people are

1595

01:00:01,990 --> 00:59:51,770

uh

1596

01:00:05,390 --> 01:00:02,000

they're made by the Creator by God

1597

01:00:08,450 --> 01:00:05,400

and we also according to them

1598

01:00:10,849 --> 01:00:08,460

are made by the Creator by God

1599

01:00:14,510 --> 01:00:10,859

and that neither of our people came from

1600

01:00:14,520 --> 01:00:18,950

have they got

1601  
01:00:23,930 --> 01:00:21,530  
Nancy also wants to know how long has

1602  
01:00:26,809 --> 01:00:23,940  
Bigfoot been in North America

1603  
01:00:28,609 --> 01:00:26,819  
uh way longer than we've been here

1604  
01:00:30,170 --> 01:00:28,619  
according to what we configure native

1605  
01:00:32,750 --> 01:00:30,180  
Legends and all that sort of good stuff

1606  
01:00:35,150 --> 01:00:32,760  
the uh Sasquatch were here in North

1607  
01:00:36,470 --> 01:00:35,160  
America before either humans or Giants

1608  
01:00:38,210 --> 01:00:36,480  
showed up

1609  
01:00:45,289 --> 01:00:38,220  
they're the old farts or the ancient

1610  
01:00:48,530 --> 01:00:47,150  
you know about

1611  
01:00:51,049 --> 01:00:48,540  
John I know you should avoid them

1612  
01:00:53,870 --> 01:00:51,059  
they're not to be trusted and we still

1613  
01:00:56,450 --> 01:00:53,880

get reports of them from here in Montana

1614

01:00:58,130 --> 01:00:56,460

so Giants are not a dead issue in

1615

01:00:59,450 --> 01:00:58,140

Montana Giants are not just a thing

1616

01:01:01,549 --> 01:00:59,460

where there's bones in the ground maybe

1617

01:01:04,309 --> 01:01:01,559

but there probably are

1618

01:01:06,650 --> 01:01:04,319

people are still seeing them here

1619

01:01:08,630 --> 01:01:06,660

and having weird experiences that would

1620

01:01:11,030 --> 01:01:08,640

make you think maybe a giant was

1621

01:01:12,049 --> 01:01:11,040

involved I could think of like four of

1622

01:01:14,210 --> 01:01:12,059

them right off the top of my head

1623

01:01:16,549 --> 01:01:14,220

they're all recent

1624

01:01:18,589 --> 01:01:16,559

you could you could feel free to tell us

1625

01:01:20,450 --> 01:01:18,599

because we would love to hear them

1626

01:01:21,829 --> 01:01:20,460

now one of the most recent came in on

1627

01:01:23,390 --> 01:01:21,839

somebody else's Channel where somebody

1628

01:01:26,930 --> 01:01:23,400

had written in the story and told them

1629

01:01:28,549 --> 01:01:26,940

and they were um they don't live right

1630

01:01:29,870 --> 01:01:28,559

they live about 15 miles from here and

1631

01:01:32,170 --> 01:01:29,880

they said where they were at was within

1632

01:01:34,849 --> 01:01:32,180

a two-hour Drive of where they live so

1633

01:01:36,829 --> 01:01:34,859

so I've definitely within the radius of

1634

01:01:38,450 --> 01:01:36,839

where this happened but they have a

1635

01:01:40,250 --> 01:01:38,460

favorite trout fishing stream and they

1636

01:01:41,809 --> 01:01:40,260

went to the trout fishing stream it was

1637

01:01:43,010 --> 01:01:41,819

during the summer it was nice and hot it

1638

01:01:45,289 --> 01:01:43,020

was late summer

1639

01:01:47,089 --> 01:01:45,299

and apparently it takes about an hour

1640

01:01:49,309 --> 01:01:47,099

just to hike in from where they Park to

1641

01:01:50,750 --> 01:01:49,319

get to where the stream is and when they

1642

01:01:52,849 --> 01:01:50,760

got there the conditions were kind of

1643

01:01:54,349 --> 01:01:52,859

warmer than they wanted and when the

1644

01:01:56,750 --> 01:01:54,359

water's too warm the trout don't move

1645

01:01:58,549 --> 01:01:56,760

around so he got the notion that if he

1646

01:02:01,250 --> 01:01:58,559

went further Upstream where the water is

1647

01:02:03,289 --> 01:02:01,260

colder he might run into uh some little

1648

01:02:04,670 --> 01:02:03,299

you know deeper areas where there was

1649

01:02:06,530 --> 01:02:04,680

some actually trout moving around and he

1650

01:02:08,809 --> 01:02:06,540

could maybe catch something so he went

1651  
01:02:10,370 --> 01:02:08,819  
about a mile and a half up River where

1652  
01:02:13,190 --> 01:02:10,380  
he had never been before

1653  
01:02:15,410 --> 01:02:13,200  
and he said the further upriver he went

1654  
01:02:17,630 --> 01:02:15,420  
he started getting this really peculiar

1655  
01:02:18,829 --> 01:02:17,640  
feeling first of all like he shouldn't

1656  
01:02:20,809 --> 01:02:18,839  
be there

1657  
01:02:23,630 --> 01:02:20,819  
and secondly the terrain itself just

1658  
01:02:25,130 --> 01:02:23,640  
started looking kind of weird like he

1659  
01:02:27,250 --> 01:02:25,140  
was going back in time and everything

1660  
01:02:29,690 --> 01:02:27,260  
was looking really primitive and

1661  
01:02:30,849 --> 01:02:29,700  
definitely nobody ever comes up here

1662  
01:02:33,890 --> 01:02:30,859  
kind of thing

1663  
01:02:35,390 --> 01:02:33,900

uh so he found this pool that looked

1664

01:02:37,130 --> 01:02:35,400

pretty promising of course he'd never

1665

01:02:38,630 --> 01:02:37,140

been there before and he's got hip

1666

01:02:40,430 --> 01:02:38,640

waders on so you got to be careful when

1667

01:02:42,230 --> 01:02:40,440

you're walking around if you get sucked

1668

01:02:43,870 --> 01:02:42,240

under water or something you'll drown

1669

01:02:46,490 --> 01:02:43,880

because you're nobody there to save you

1670

01:02:49,309 --> 01:02:46,500

uh so he's like made his way about

1671

01:02:51,109 --> 01:02:49,319

halfway across this area and he starts

1672

01:02:52,970 --> 01:02:51,119

here in this racket from the side of the

1673

01:02:55,190 --> 01:02:52,980

river that he just left a little bit

1674

01:02:58,010 --> 01:02:55,200

Upstream from him and he can see these

1675

01:02:59,690 --> 01:02:58,020

50 60 foot trees are shaking like

1676

01:03:02,270 --> 01:02:59,700

something's trying to push its way in

1677

01:03:04,190 --> 01:03:02,280

between the trees this is freaking him

1678

01:03:06,890 --> 01:03:04,200

out a little bit so he's kind of like

1679

01:03:08,750 --> 01:03:06,900

gingerly working his way further across

1680

01:03:11,569 --> 01:03:08,760

the river trying to make sure he doesn't

1681

01:03:13,130 --> 01:03:11,579

get his hip waders filled with water and

1682

01:03:14,750 --> 01:03:13,140

right about then the thing that was

1683

01:03:16,789 --> 01:03:14,760

pushing the trees out of the way walks

1684

01:03:20,990 --> 01:03:16,799

out onto the shoreline and he said it

1685

01:03:22,370 --> 01:03:21,000

was a literal Giant it looked like a

1686

01:03:25,670 --> 01:03:22,380

giant human

1687

01:03:28,789 --> 01:03:25,680

it had uh like seven or eight alkhides

1688

01:03:31,849 --> 01:03:28,799

that had uh tied you know put together

1689

01:03:33,890 --> 01:03:31,859

to make a a garment out of yeah they

1690

01:03:36,349 --> 01:03:33,900

made boots and stuff like that and it

1691

01:03:38,870 --> 01:03:36,359

was just glaring at him and then it

1692

01:03:40,370 --> 01:03:38,880

yelled at him it was so loud he said his

1693

01:03:42,470 --> 01:03:40,380

inside shook

1694

01:03:44,329 --> 01:03:42,480

and he and his voice was incredibly deep

1695

01:03:46,130 --> 01:03:44,339

and he didn't realize until it was like

1696

01:03:49,970 --> 01:03:46,140

halfway through it that it was actually

1697

01:03:55,130 --> 01:03:52,430

wow that really made him poop his pants

1698

01:03:56,630 --> 01:03:55,140

so he decided to get across that River

1699

01:03:58,370 --> 01:03:56,640

as fast as he could even though the

1700

01:04:00,589 --> 01:03:58,380

river was so shallow it really wouldn't

1701

01:04:02,390 --> 01:04:00,599

slow this thing down at all and as he

1702

01:04:04,609 --> 01:04:02,400

was in the process of doing that it

1703

01:04:06,829 --> 01:04:04,619

wrenched what he estimates to be about a

1704

01:04:08,930 --> 01:04:06,839

two-ton Boulder out of the bank where it

1705

01:04:09,710 --> 01:04:08,940

was standing and Chucks the boulder at

1706

01:04:11,690 --> 01:04:09,720

him

1707

01:04:12,950 --> 01:04:11,700

oh geez now at the point where he sees

1708

01:04:14,630 --> 01:04:12,960

it start to do this he doesn't really

1709

01:04:16,609 --> 01:04:14,640

care if if the hip weight is filled with

1710

01:04:18,589 --> 01:04:16,619

water and he drones who cares so he's

1711

01:04:20,990 --> 01:04:18,599

mowing across this River as fast as he

1712

01:04:23,569 --> 01:04:21,000

can the boulder hits the river right

1713

01:04:25,250 --> 01:04:23,579

behind him and between the water

1714

01:04:27,410 --> 01:04:25,260

splashing him and actually the boulder

1715

01:04:29,930 --> 01:04:27,420

hit the bottom and he got hit with

1716

01:04:31,370 --> 01:04:29,940

shrapnel from the rock that broke up and

1717

01:04:33,470 --> 01:04:31,380

he had a bunch of cuts and stuff all

1718

01:04:35,329 --> 01:04:33,480

over him that he had to have taken care

1719

01:04:37,670 --> 01:04:35,339

of when he finally got back again but by

1720

01:04:38,930 --> 01:04:37,680

the time he got out on the embankment he

1721

01:04:41,530 --> 01:04:38,940

looked back to see it was picking up

1722

01:04:44,030 --> 01:04:41,540

another Boulder to Hawk at him

1723

01:04:44,990 --> 01:04:44,040

so he double timed it up into the woods

1724

01:04:46,250 --> 01:04:45,000

where he could at least get the cover

1725

01:04:48,470 --> 01:04:46,260

where he couldn't see him and when he

1726

01:04:50,630 --> 01:04:48,480

got up there he tripped went down on his

1727

01:04:52,789 --> 01:04:50,640

face you know like in everybody's

1728

01:04:55,809 --> 01:04:52,799

favorite Hollywood movie sequence yeah

1729

01:04:58,250 --> 01:04:55,819

this is real life he's like oh my God

1730

01:05:00,349 --> 01:04:58,260

so immediately he jumps up he turns

1731

01:05:01,370 --> 01:05:00,359

around it's not following him he could

1732

01:05:02,750 --> 01:05:01,380

see it on the other side of the river

1733

01:05:05,569 --> 01:05:02,760

it's actually turning around and going

1734

01:05:08,089 --> 01:05:05,579

back into the woods again so he just

1735

01:05:09,890 --> 01:05:08,099

made his way back down forever and you

1736

01:05:11,150 --> 01:05:09,900

know another two and a half hours of

1737

01:05:13,910 --> 01:05:11,160

walking through the woods by himself

1738

01:05:15,410 --> 01:05:13,920

until he got back to his vehicle and

1739

01:05:17,809 --> 01:05:15,420

drove out of there and went yeah I'm

1740

01:05:20,390 --> 01:05:17,819

just never going that far up River again

1741

01:05:22,849 --> 01:05:20,400

that wasn't a good idea I don't blame

1742

01:05:24,770 --> 01:05:22,859

him that's scary I mean yeah he

1743

01:05:28,309 --> 01:05:24,780

literally said the trees it was standing

1744

01:05:29,990 --> 01:05:28,319

in were between 50 and 60 feet tall and

1745

01:05:32,450 --> 01:05:30,000

it looked like it was half as tall as

1746

01:05:33,410 --> 01:05:32,460

the trees were oh my God so I mean

1747

01:05:36,049 --> 01:05:33,420

you're talking about something that's

1748

01:05:37,789 --> 01:05:36,059

probably around 20 feet at least and we

1749

01:05:39,650 --> 01:05:37,799

get these other weird reports too there

1750

01:05:42,170 --> 01:05:39,660

was one where they used to have all

1751

01:05:43,609 --> 01:05:42,180

these uh active nuke silos here in

1752

01:05:47,089 --> 01:05:43,619

Montana at the same time they had all

1753

01:05:48,289 --> 01:05:47,099

the ones and the Dakotas and whatnot and

1754

01:05:49,970 --> 01:05:48,299

even though there are a lot of them are

1755

01:05:52,670 --> 01:05:49,980

decommissioned they still have to upkeep

1756

01:05:55,370 --> 01:05:52,680

them right so they had this one where

1757

01:05:57,289 --> 01:05:55,380

they had a flatbed truck with materials

1758

01:06:00,410 --> 01:05:57,299

on it and they were going to upkeep this

1759

01:06:03,349 --> 01:06:00,420

one silo and they got a call to their

1760

01:06:05,569 --> 01:06:03,359

security guy who made the report on this

1761

01:06:09,109 --> 01:06:05,579

uh that something was going on there

1762

01:06:11,329 --> 01:06:09,119

some trigger uh just been some sensors

1763

01:06:12,530 --> 01:06:11,339

triggered and drive up there and see

1764

01:06:14,510 --> 01:06:12,540

what's going on

1765

01:06:16,309 --> 01:06:14,520

so he drives up there and when he gets

1766

01:06:20,030 --> 01:06:16,319

there first peculiar thing he notices

1767

01:06:22,130 --> 01:06:20,040

that that flatbed uh 18 wheeler it's

1768

01:06:24,770 --> 01:06:22,140

laying on its side

1769

01:06:26,569 --> 01:06:24,780

oh that's not good that that's not a

1770

01:06:28,670 --> 01:06:26,579

good sign yeah then when he gets to

1771

01:06:30,230 --> 01:06:28,680

where the nuke Stylo is the big door on

1772

01:06:32,930 --> 01:06:30,240

the nuke Silo that you know what do they

1773

01:06:34,789 --> 01:06:32,940

weigh like 20 tons it's not on the nuke

1774

01:06:36,170 --> 01:06:34,799

Silo something moved the door out of the

1775

01:06:38,690 --> 01:06:36,180

way

1776

01:06:40,730 --> 01:06:38,700

oh boy and I think he asked he told them

1777

01:06:42,710 --> 01:06:40,740

what was going on and they said well we

1778

01:06:44,270 --> 01:06:42,720

need you to uh take your flashlight and

1779

01:06:45,589 --> 01:06:44,280

climb down inside and make sure

1780

01:06:47,390 --> 01:06:45,599

everything's okay

1781

01:06:49,370 --> 01:06:47,400

so he takes his flashlight he shines it

1782

01:06:53,710 --> 01:06:49,380

over the edge into the darkness and he

1783

01:06:57,410 --> 01:06:53,720

hears this really deep Crow

1784

01:07:00,289 --> 01:06:57,420

oh geez that smells the steak coming up

1785

01:07:02,630 --> 01:07:00,299

from down below and he goes uh nope not

1786

01:07:04,430 --> 01:07:02,640

responding to that having problems with

1787

01:07:07,430 --> 01:07:04,440

my walkie-talkie here right now can't

1788

01:07:08,809 --> 01:07:07,440

understand what you said that he got in

1789

01:07:10,490 --> 01:07:08,819

his vehicle got the hell out of there so

1790

01:07:12,410 --> 01:07:10,500

he doesn't know what happened after that

1791

01:07:15,049 --> 01:07:12,420

but that was the part of it that he saw

1792

01:07:17,690 --> 01:07:15,059

yeah I don't blame him I wouldn't have

1793

01:07:19,730 --> 01:07:17,700

went in there no um actually one of my

1794

01:07:22,910 --> 01:07:19,740

former roommates had this happen he was

1795

01:07:24,410 --> 01:07:22,920

up gold prospecting up at the

1796

01:07:25,789 --> 01:07:24,420

you have a lot of these little access

1797

01:07:27,650 --> 01:07:25,799

roads that go up to the mountains and

1798

01:07:30,470 --> 01:07:27,660

then just kind of dead end and this one

1799

01:07:32,329 --> 01:07:30,480

goes up to kind of the high end of this

1800

01:07:33,890 --> 01:07:32,339

one little creek it's a good spot to

1801  
01:07:36,170 --> 01:07:33,900  
prospect for gold so he's up there with

1802  
01:07:38,569 --> 01:07:36,180  
his metal detector and his pan and he's

1803  
01:07:40,069 --> 01:07:38,579  
up there all day and only one vehicle

1804  
01:07:41,390 --> 01:07:40,079  
comes up the road to the end of it and

1805  
01:07:44,089 --> 01:07:41,400  
turns around and goes back he's up there

1806  
01:07:45,710 --> 01:07:44,099  
by himself all day long so finally you

1807  
01:07:47,089 --> 01:07:45,720  
know it's getting close to dark and he

1808  
01:07:48,890 --> 01:07:47,099  
gets in his vehicle he goes back down

1809  
01:07:52,849 --> 01:07:48,900  
the road and he gets about three miles

1810  
01:07:55,370 --> 01:07:52,859  
down the road and the the road's blocked

1811  
01:07:57,710 --> 01:07:55,380  
there's there's a camper blocking the

1812  
01:07:59,029 --> 01:07:57,720  
road the camper blocking the road is a

1813  
01:08:00,470 --> 01:07:59,039

pickup truck

1814

01:08:06,109 --> 01:08:00,480

dual

1815

01:08:07,730 --> 01:08:06,119

a huge camper on it so about like what

1816

01:08:10,010 --> 01:08:07,740

three and a half tons

1817

01:08:11,809 --> 01:08:10,020

now the interesting thing about this is

1818

01:08:13,370 --> 01:08:11,819

on one side of the road there's a really

1819

01:08:15,349 --> 01:08:13,380

steep embankment on the other side of

1820

01:08:17,510 --> 01:08:15,359

the road there's trees there's about a

1821

01:08:19,610 --> 01:08:17,520

five foot ditch there's trees so there's

1822

01:08:20,870 --> 01:08:19,620

no place to turn around whatsoever you

1823

01:08:24,289 --> 01:08:20,880

have to go up to the end of the rotor he

1824

01:08:26,209 --> 01:08:24,299

was just at in order to turn around so

1825

01:08:27,890 --> 01:08:26,219

the thing that struck him immediately as

1826

01:08:30,650 --> 01:08:27,900

he pulls up is uh

1827

01:08:33,249 --> 01:08:30,660

the truck's upside down

1828

01:08:35,749 --> 01:08:33,259

it's sitting on its roof

1829

01:08:37,729 --> 01:08:35,759

then he notices you know okay maybe they

1830

01:08:39,289 --> 01:08:37,739

tried to like turn it around they drove

1831

01:08:41,030 --> 01:08:39,299

up the embankment or something no

1832

01:08:42,950 --> 01:08:41,040

there's no tire tracks on the embankment

1833

01:08:46,729 --> 01:08:42,960

there's two frantic people standing

1834

01:08:48,950 --> 01:08:46,739

there elderly people and uh the old man

1835

01:08:52,130 --> 01:08:48,960

the old lady and he said what how did

1836

01:08:53,990 --> 01:08:52,140

this happen and they said we don't know

1837

01:08:56,030 --> 01:08:54,000

we had parked on the road and since

1838

01:08:57,410 --> 01:08:56,040

there's no traffic we figured we'd just

1839

01:08:58,849 --> 01:08:57,420

take a quick walk into the woods going

1840

01:09:02,150 --> 01:08:58,859

on the embankment here into the woods

1841

01:09:03,769 --> 01:09:02,160

and about 10 minutes later we heard this

1842

01:09:05,390 --> 01:09:03,779

great huge crash

1843

01:09:08,090 --> 01:09:05,400

and we came running back up to our

1844

01:09:10,849 --> 01:09:08,100

camper and it's upside down

1845

01:09:13,370 --> 01:09:10,859

oh he immediately starts looking for

1846

01:09:14,809 --> 01:09:13,380

suspicious signs of tract and also not

1847

01:09:16,490 --> 01:09:14,819

believing them did they try and actually

1848

01:09:17,990 --> 01:09:16,500

turn this thing around trying to drive

1849

01:09:21,050 --> 01:09:18,000

it up the embankment then it flipped

1850

01:09:23,090 --> 01:09:21,060

over no there isn't even enough room if

1851

01:09:24,829 --> 01:09:23,100

there had been tire tracks for it to

1852

01:09:26,930 --> 01:09:24,839

flip over and the other thing that he

1853

01:09:28,189 --> 01:09:26,940

found extremely disturbing is if this

1854

01:09:30,650 --> 01:09:28,199

thing had flipped over in other words

1855

01:09:31,610 --> 01:09:30,660

have been rolled from upright over to

1856

01:09:33,470 --> 01:09:31,620

the top

1857

01:09:35,630 --> 01:09:33,480

it would have done damage to the camper

1858

01:09:37,669 --> 01:09:35,640

there was no damage on the sides of the

1859

01:09:39,950 --> 01:09:37,679

camper at all it literally looked like

1860

01:09:42,289 --> 01:09:39,960

something picked up this three and a

1861

01:09:46,010 --> 01:09:42,299

half ton camper turned it upside down

1862

01:09:51,289 --> 01:09:49,249

that's odd that really is he managed to

1863

01:09:53,030 --> 01:09:51,299

work his way vehicle uh you know because

1864

01:09:55,430 --> 01:09:53,040

he had a little compact and he could

1865

01:09:56,870 --> 01:09:55,440

squeeze around it far enough to get like

1866

01:09:58,729 --> 01:09:56,880

almost sideways around the embankment

1867

01:10:00,470 --> 01:09:58,739

make it around the vehicle and then he

1868

01:10:02,570 --> 01:10:00,480

gave the old lady a ride into town and

1869

01:10:04,729 --> 01:10:02,580

left the elderly gentleman there

1870

01:10:06,110 --> 01:10:04,739

with their upside down camper the

1871

01:10:07,490 --> 01:10:06,120

objective here was to get them to where

1872

01:10:09,650 --> 01:10:07,500

there was cell phone signals so she

1873

01:10:11,630 --> 01:10:09,660

could get a tow truck out there that

1874

01:10:13,430 --> 01:10:11,640

could somehow figure out how to get this

1875

01:10:14,930 --> 01:10:13,440

thing up right again God I can't imagine

1876

01:10:16,910 --> 01:10:14,940

what kind of a nightmare that must have

1877

01:10:18,650 --> 01:10:16,920

been but again you know it's like what

1878

01:10:20,630 --> 01:10:18,660

can pick up a three and a half ton truck

1879

01:10:24,169 --> 01:10:20,640

turn it upside down

1880

01:10:26,270 --> 01:10:24,179

yeah like it's a like it's a toy car I

1881

01:10:28,490 --> 01:10:26,280

mean exactly and not roll it over but

1882

01:10:33,729 --> 01:10:28,500

literally pick it up and put it upside

1883

01:10:37,970 --> 01:10:36,350

right yeah I wouldn't want to stay there

1884

01:10:41,169 --> 01:10:37,980

I'd have been like you're taking me too

1885

01:10:44,090 --> 01:10:41,179

so I date him

1886

01:10:45,290 --> 01:10:44,100

he he still doesn't want to believe he

1887

01:10:46,729 --> 01:10:45,300

didn't want to believe for a long time

1888

01:10:47,990 --> 01:10:46,739

that there was such a thing as Bigfoot

1889

01:10:49,790 --> 01:10:48,000

because he had never actually seen one

1890

01:10:51,410 --> 01:10:49,800

and he's missed her outdoorsy running

1891

01:10:52,790 --> 01:10:51,420

around the mountains all the time and

1892

01:10:54,649 --> 01:10:52,800

then I started telling the things to

1893

01:10:57,050 --> 01:10:54,659

look for he started getting more and

1894

01:10:58,970 --> 01:10:57,060

more disturbed about it and now he's

1895

01:11:01,610 --> 01:10:58,980

actually seen one so he knows for a fact

1896

01:11:03,470 --> 01:11:01,620

they're real but that was you know it's

1897

01:11:04,790 --> 01:11:03,480

just like you you're ruining all my fun

1898

01:11:06,410 --> 01:11:04,800

in the woods I don't want to go hunting

1899

01:11:07,430 --> 01:11:06,420

and stuff anymore now that I know these

1900

01:11:09,110 --> 01:11:07,440

things are happening they're like well

1901

01:11:11,229 --> 01:11:09,120

they never hurt you before and he's like

1902

01:11:15,490 --> 01:11:11,239

well good point right

1903

01:11:18,350 --> 01:11:15,500

now are giants only in one specific area

1904

01:11:20,570 --> 01:11:18,360

or are they like Bigfoot and they

1905

01:11:23,090 --> 01:11:20,580

they're just in almost everywhere

1906

01:11:25,910 --> 01:11:23,100

unfortunately small pockets of them and

1907

01:11:27,110 --> 01:11:25,920

uh really desolate Wilderness areas we

1908

01:11:29,510 --> 01:11:27,120

already know about the report of the

1909

01:11:32,390 --> 01:11:29,520

giant of Kandahar from Afghanistan 20

1910

01:11:34,850 --> 01:11:32,400

years ago uh that seems to have been a

1911

01:11:37,070 --> 01:11:34,860

real thing and then they periodically

1912

01:11:38,810 --> 01:11:37,080

pop up over here on our continent too

1913

01:11:40,070 --> 01:11:38,820

you know the ones I was just telling you

1914

01:11:41,689 --> 01:11:40,080

guys about that have happened here in

1915

01:11:43,810 --> 01:11:41,699

Montana

1916

01:11:47,149 --> 01:11:43,820

um and then uh

1917

01:11:49,669 --> 01:11:47,159

earlier this year uh What lyrics beneath

1918

01:11:50,750 --> 01:11:49,679

put out a report and you know some of

1919

01:11:52,189 --> 01:11:50,760

these channels are just like yeah

1920

01:11:53,570 --> 01:11:52,199

they're making their stuff up or who

1921

01:11:55,370 --> 01:11:53,580

doesn't really get these reports from or

1922

01:11:56,990 --> 01:11:55,380

whatever you know when he put this

1923

01:11:58,790 --> 01:11:57,000

report out it was interesting to me

1924

01:11:59,750 --> 01:11:58,800

because I had actually gotten the same

1925

01:12:03,709 --> 01:11:59,760

report

1926

01:12:07,189 --> 01:12:03,719

from uh a friend of an eyewitness that

1927

01:12:09,470 --> 01:12:07,199

was actually there the day before and it

1928

01:12:11,630 --> 01:12:09,480

was the same exact report except I had a

1929

01:12:13,910 --> 01:12:11,640

couple more details he didn't have so I

1930

01:12:16,550 --> 01:12:13,920

went oh God this one's probably real you

1931

01:12:19,550 --> 01:12:16,560

know uh and this was about there was a

1932

01:12:20,930 --> 01:12:19,560

park in Colorado that just mysteriously

1933

01:12:22,970 --> 01:12:20,940

got shut down

1934

01:12:25,189 --> 01:12:22,980

the only information got leaked out is

1935

01:12:28,010 --> 01:12:25,199

that at least one Ranger and maybe some

1936

01:12:29,750 --> 01:12:28,020

civilians just got killed and so they

1937

01:12:32,570 --> 01:12:29,760

closed off the whole park they sent it a

1938

01:12:35,149 --> 01:12:32,580

kill team they got rid of what the

1939

01:12:38,090 --> 01:12:35,159

problem was and then about two days

1940

01:12:40,729 --> 01:12:38,100

after this report came I got it I got it

1941

01:12:42,649 --> 01:12:40,739

the next day he did the report on it and

1942

01:12:44,090 --> 01:12:42,659

two days after that that Park was open

1943

01:12:46,550 --> 01:12:44,100

again

1944

01:12:48,470 --> 01:12:46,560

so we were literally getting reports on

1945

01:12:51,770 --> 01:12:48,480

this while was going on and the person

1946

01:12:54,229 --> 01:12:51,780

that reported it to my source said quote

1947

01:12:55,310 --> 01:12:54,239

we have a Kandahar giant incident on our

1948

01:12:58,130 --> 01:12:55,320

hands

1949

01:13:00,770 --> 01:12:58,140

unquote oh wow

1950

01:13:02,990 --> 01:13:00,780

that's bad do you do you think that

1951

01:13:04,910 --> 01:13:03,000

they're part of the missing 4-1-1

1952

01:13:07,310 --> 01:13:04,920

phenomena

1953

01:13:08,810 --> 01:13:07,320

Giants could be part of it absolutely

1954

01:13:10,310 --> 01:13:08,820

well that's part of the problem here

1955

01:13:11,390 --> 01:13:10,320

it's easy to blame Bigfoot because like

1956

01:13:12,649 --> 01:13:11,400

oh that's the only thing that's running

1957

01:13:14,750 --> 01:13:12,659

around the woods we don't know about no

1958

01:13:16,490 --> 01:13:14,760

you're absolutely wrong there's more

1959

01:13:17,870 --> 01:13:16,500

there's more than one kind of Krypton

1960

01:13:20,689 --> 01:13:17,880

running around the woods the bigfooter

1961

01:13:22,729 --> 01:13:20,699

the least dangerous ones that are out

1962

01:13:24,649 --> 01:13:22,739

there the other ones are way way worse

1963

01:13:26,689 --> 01:13:24,659

than them so they're all the prime

1964

01:13:28,310 --> 01:13:26,699

candidates for that kind of stuff and

1965

01:13:29,870 --> 01:13:28,320

then you've got crazy Cults that have

1966

01:13:31,550 --> 01:13:29,880

Supernatural powers that most people

1967

01:13:34,010 --> 01:13:31,560

don't want to think crazy cultists can

1968

01:13:35,510 --> 01:13:34,020

have and you've got the reptilians and

1969

01:13:37,310 --> 01:13:35,520

you got some of the aliens that like to

1970

01:13:40,550 --> 01:13:37,320

abduct humans and do experiments on them

1971

01:13:41,810 --> 01:13:40,560

military abductions uh and then just on

1972

01:13:44,030 --> 01:13:41,820

the Cryptid end you've got Mountain

1973

01:13:46,669 --> 01:13:44,040

Giants you've got gugways you got the

1974

01:13:48,530 --> 01:13:46,679

rake you got all kinds of you know some

1975

01:13:50,510 --> 01:13:48,540

of the dog man are pretty damn dangerous

1976

01:13:51,770 --> 01:13:50,520

too there's some Bigfoot out there that

1977

01:13:55,070 --> 01:13:51,780

are pretty dangerous and don't like

1978

01:13:56,930 --> 01:13:55,080

humans so there's a wide variety of

1979

01:13:58,910 --> 01:13:56,940

different things that could be

1980

01:14:02,090 --> 01:13:58,920

contributing to the missing 401

1981

01:14:03,410 --> 01:14:02,100

phenomenon you know what Dave seems to

1982

01:14:05,570 --> 01:14:03,420

be finding out at this point of course

1983

01:14:07,910 --> 01:14:05,580

we're talking about Dave Pilates is that

1984

01:14:10,310 --> 01:14:07,920

there's commonalities between a lot of

1985

01:14:12,890 --> 01:14:10,320

these reports and the stuff that's being

1986

01:14:15,290 --> 01:14:12,900

reported is happening doesn't really add

1987

01:14:16,970 --> 01:14:15,300

up to one

1988

01:14:18,530 --> 01:14:16,980

you know like doesn't really make sense

1989

01:14:20,990 --> 01:14:18,540

that Bigfoot's doing it or just doesn't

1990

01:14:24,950 --> 01:14:21,000

really make sense that just cultists are

1991

01:14:26,450 --> 01:14:24,960

doing it or you know even more Whimsical

1992

01:14:29,270 --> 01:14:26,460

Supernatural things like the little

1993

01:14:31,250 --> 01:14:29,280

people probably have done quite a few of

1994

01:14:33,110 --> 01:14:31,260

these abductions and they get blamed for

1995

01:14:35,450 --> 01:14:33,120

anything

1996

01:14:37,189 --> 01:14:35,460

now Dave's got this you know Flying

1997

01:14:39,290 --> 01:14:37,199

Saucer angle on it maybe the aliens are

1998

01:14:41,570 --> 01:14:39,300

abducting them well maybe they are

1999

01:14:44,750 --> 01:14:41,580

quit blaming Bigfoot they end up they're

2000

01:14:46,550 --> 01:14:44,760

definitely not doing the majority of it

2001

01:14:49,310 --> 01:14:46,560

there's there's more than one person

2002

01:14:51,470 --> 01:14:49,320

there exactly no I agree with you and we

2003

01:14:54,590 --> 01:14:51,480

had also talked about the Andrew Dawson

2004

01:14:58,729 --> 01:14:54,600

case because I'd asked your opinion on

2005

01:15:01,250 --> 01:14:58,739

that and so for those who don't know

2006

01:15:04,729 --> 01:15:01,260

um there was it was Andrew Dawson was a

2007

01:15:06,890 --> 01:15:04,739

person who had supposedly saw a giant

2008

01:15:08,149 --> 01:15:06,900

and he had put it on social media on

2009

01:15:09,530 --> 01:15:08,159

Tick Tock

2010

01:15:11,870 --> 01:15:09,540

um I think if you look him up on Tick

2011

01:15:16,189 --> 01:15:11,880

Tock you can still see the videos today

2012

01:15:19,010 --> 01:15:16,199

and he saw a giant and then afterwards

2013

01:15:21,590 --> 01:15:19,020

he he started getting different things

2014

01:15:23,450 --> 01:15:21,600

like uh I suppose government agents came

2015

01:15:25,910 --> 01:15:23,460

to his house

2016

01:15:28,250 --> 01:15:25,920

um there was also a video of him saying

2017

01:15:31,130 --> 01:15:28,260

it was a hoax it was a joke and then he

2018

01:15:34,370 --> 01:15:31,140

looks off camera like somebody's telling

2019

01:15:37,669 --> 01:15:34,380

him to do this and then he suddenly dies

2020

01:15:38,930 --> 01:15:37,679

and I think June or July and then there

2021

01:15:41,630 --> 01:15:38,940

was another well there was actually one

2022

01:15:43,430 --> 01:15:41,640

video after that about two weeks or

2023

01:15:45,470 --> 01:15:43,440

something after he did the it's Oaks

2024

01:15:47,090 --> 01:15:45,480

video where he came back on looked super

2025

01:15:49,729 --> 01:15:47,100

nervous when it wasn't a hoax it was all

2026

01:15:52,250 --> 01:15:49,739

the truth yeah and then that was his

2027

01:15:54,590 --> 01:15:52,260

last video and then he died and his

2028

01:15:56,870 --> 01:15:54,600

girlfriend did a video talking about you

2029

01:15:58,910 --> 01:15:56,880

know he was uh very depressed and

2030

01:16:01,010 --> 01:15:58,920

blah blah implying that he committed

2031

01:16:02,570 --> 01:16:01,020

suicide and I know a couple really good

2032

01:16:04,310 --> 01:16:02,580

people the cryptic community that looked

2033

01:16:07,330 --> 01:16:04,320

into this and one of them is Hammers and

2034

01:16:09,950 --> 01:16:07,340

Peter's it's one of the preeminent uh

2035

01:16:12,229 --> 01:16:09,960

archivist uh Cryptid guys up in Canada

2036

01:16:14,570 --> 01:16:12,239

to go check out his channel but he lives

2037

01:16:16,310 --> 01:16:14,580

near where Andrew was so he actually had

2038

01:16:18,709 --> 01:16:16,320

the luxury of being able to drive over

2039

01:16:21,110 --> 01:16:18,719

there and check it out himself boots on

2040

01:16:24,169 --> 01:16:21,120

the ground and uh

2041

01:16:26,930 --> 01:16:24,179

who else uh the Y files just did a video

2042

01:16:29,450 --> 01:16:26,940

on this too and both those guys came to

2043

01:16:31,850 --> 01:16:29,460

pretty much identical conclusion that he

2044

01:16:33,410 --> 01:16:31,860

was actually Faking It uh hammerson

2045

01:16:34,669 --> 01:16:33,420

Peters definitely could point this out

2046

01:16:37,930 --> 01:16:34,679

because he was right there and he went

2047

01:16:40,669 --> 01:16:37,940

look here's the road he was driving down

2048

01:16:43,550 --> 01:16:40,679

where supposedly there's a giant on top

2049

01:16:45,770 --> 01:16:43,560

of it well there is a radio tower that

2050

01:16:47,930 --> 01:16:45,780

you should be able to see from there

2051  
01:16:50,510 --> 01:16:47,940  
now here's the one where he shot the

2052  
01:16:52,729 --> 01:16:50,520  
comparison shot of the same Mountaintop

2053  
01:16:54,470 --> 01:16:52,739  
and said look it's not there but he was

2054  
01:16:56,990 --> 01:16:54,480  
in a different position

2055  
01:16:58,729 --> 01:16:57,000  
looking at it from a different angle and

2056  
01:17:01,189 --> 01:16:58,739  
even though that Tower is there yes you

2057  
01:17:03,709 --> 01:17:01,199  
can't see it from that spot it's over

2058  
01:17:05,689 --> 01:17:03,719  
the curve of the mountain but it's there

2059  
01:17:07,850 --> 01:17:05,699  
and then some of the other stuff that he

2060  
01:17:08,930 --> 01:17:07,860  
did didn't add up at all either

2061  
01:17:10,430 --> 01:17:08,940  
um so they both arrived at the

2062  
01:17:12,649 --> 01:17:10,440  
conclusion that yeah basically he did

2063  
01:17:14,930 --> 01:17:12,659

hoax everybody but here's the weird

2064

01:17:16,550 --> 01:17:14,940

thing though after he died and the

2065

01:17:19,850 --> 01:17:16,560

y-files did a little bit more research

2066

01:17:22,370 --> 01:17:19,860

on this he can find information on all

2067

01:17:23,870 --> 01:17:22,380

this guy's relatives his girlfriends his

2068

01:17:26,149 --> 01:17:23,880

dad I mean he's got a picture of his

2069

01:17:28,010 --> 01:17:26,159

dad's headstone on the video and stuff

2070

01:17:30,169 --> 01:17:28,020

like that yeah but there's no

2071

01:17:32,450 --> 01:17:30,179

information on this guy it doesn't tell

2072

01:17:33,950 --> 01:17:32,460

you what school he went to there's like

2073

01:17:37,990 --> 01:17:33,960

no information

2074

01:17:41,930 --> 01:17:40,669

very strange because you'd figure if he

2075

01:17:44,810 --> 01:17:41,940

actually had relatives there with the

2076

01:17:46,490 --> 01:17:44,820

same name okay he lived there where's

2077

01:17:47,330 --> 01:17:46,500

his records he went to school that would

2078

01:17:49,310 --> 01:17:47,340

know

2079

01:17:50,810 --> 01:17:49,320

what do you mean

2080

01:17:52,250 --> 01:17:50,820

where's all the information on this guy

2081

01:17:54,050 --> 01:17:52,260

you can find information on his whole

2082

01:17:55,669 --> 01:17:54,060

family and girlfriend but suddenly

2083

01:17:58,790 --> 01:17:55,679

there's no information on him

2084

01:18:01,130 --> 01:17:58,800

this is Saudi kind of Bob Lazarish it's

2085

01:18:03,290 --> 01:18:01,140

no it's it's very odd and I know that

2086

01:18:04,430 --> 01:18:03,300

his girlfriend has said that you know

2087

01:18:06,530 --> 01:18:04,440

she wanted privacy and everything

2088

01:18:07,669 --> 01:18:06,540

because they had the child so his name

2089

01:18:10,070 --> 01:18:07,679

should probably be on the birth

2090

01:18:11,330 --> 01:18:10,080

certificate yeah there should be a death

2091

01:18:13,370 --> 01:18:11,340

certificate

2092

01:18:16,970 --> 01:18:13,380

and that's the other thing too I mean if

2093

01:18:18,350 --> 01:18:16,980

he did if he did actually get something

2094

01:18:19,850 --> 01:18:18,360

and they threatened him or whatever and

2095

01:18:21,709 --> 01:18:19,860

killed him you would expect the

2096

01:18:24,229 --> 01:18:21,719

girlfriend to come on and go no it was

2097

01:18:27,470 --> 01:18:24,239

all fake none of this happened uh please

2098

01:18:29,930 --> 01:18:27,480

don't kill me leave me alone

2099

01:18:32,209 --> 01:18:29,940

no but that's so weird that there's like

2100

01:18:34,550 --> 01:18:32,219

nothing about him that is weird yeah if

2101

01:18:35,990 --> 01:18:34,560

you guys want to see that the the uh the

2102

01:18:37,189 --> 01:18:36,000

research that he I can't remember the

2103

01:18:39,590 --> 01:18:37,199

guy's name right now but it's a guy that

2104

01:18:42,410 --> 01:18:39,600

runs a show called The y-files and his

2105

01:18:44,149 --> 01:18:42,420

sidekick is a goldfish that sits in a

2106

01:18:46,030 --> 01:18:44,159

bowl next to him and heckles it's called

2107

01:18:48,649 --> 01:18:46,040

Heckle fish

2108

01:18:50,209 --> 01:18:48,659

sounds like a very interesting show oh

2109

01:18:51,649 --> 01:18:50,219

yeah Heckle fish is great hecklefish

2110

01:18:53,209 --> 01:18:51,659

knows what's really going on he's the

2111

01:18:54,709 --> 01:18:53,219

he's the bumbling host that doesn't

2112

01:18:57,410 --> 01:18:54,719

believe in anything in Heckle fish is

2113

01:18:59,649 --> 01:18:57,420

always going it was lizard people I keep

2114

01:19:02,689 --> 01:18:59,659

telling you

2115

01:19:07,970 --> 01:19:02,699

now have there been any reports of

2116

01:19:15,830 --> 01:19:11,990

yes uh uh yeah the raviano Sanskrit epic

2117

01:19:17,870 --> 01:19:15,840

going back 6 000 plus years there is the

2118

01:19:20,390 --> 01:19:17,880

story of Lord Rama

2119

01:19:21,350 --> 01:19:20,400

and how his Ooty cutie girlfriend got

2120

01:19:24,530 --> 01:19:21,360

stolen

2121

01:19:27,709 --> 01:19:24,540

by the Demon Lord that ruled the nearby

2122

01:19:29,810 --> 01:19:27,719

Island the Demon Lord Lanka the island

2123

01:19:33,290 --> 01:19:29,820

is named after him it's called the Sri

2124

01:19:35,689 --> 01:19:33,300

Lanka anyway Lord Rama did not have

2125

01:19:37,550 --> 01:19:35,699

enough boats to float his army across to

2126

01:19:38,990 --> 01:19:37,560

Sri Lanka and attack this jerk and get

2127

01:19:41,510 --> 01:19:39,000

his girlfriend back

2128

01:19:43,910 --> 01:19:41,520

and he did not have enough vimanas to

2129

01:19:45,350 --> 01:19:43,920

make an Air Force to fly in an army to

2130

01:19:47,570 --> 01:19:45,360

attack this jerk and get his girlfriend

2131

01:19:50,330 --> 01:19:47,580

back again so he was sort of in a

2132

01:19:54,790 --> 01:19:50,340

quandary as to what to do until his

2133

01:19:57,530 --> 01:19:54,800

allies the uh venara

2134

01:20:00,530 --> 01:19:57,540

suggested to him that they would build a

2135

01:20:02,030 --> 01:20:00,540

bridge for him between India and Sri

2136

01:20:04,790 --> 01:20:02,040

Lanka and then he could just March his

2137

01:20:05,930 --> 01:20:04,800

army across it and invade him all to his

2138

01:20:07,370 --> 01:20:05,940

heart's content

2139

01:20:08,990 --> 01:20:07,380

and he went well that sounds like a

2140

01:20:10,790 --> 01:20:09,000

great idea is there enough for you guys

2141

01:20:12,350 --> 01:20:10,800

oh yeah yeah we'll get we'll get our

2142

01:20:14,030 --> 01:20:12,360

buddies from all over the planet to show

2143

01:20:16,669 --> 01:20:14,040

up and help you don't worry about it

2144

01:20:18,410 --> 01:20:16,679

Lord Rama we got you so if you go and

2145

01:20:19,790 --> 01:20:18,420

look at the Sanskrit what are the Menara

2146

01:20:21,530 --> 01:20:19,800

well you know they've got all these

2147

01:20:24,290 --> 01:20:21,540

intricately carved stone temples and

2148

01:20:26,270 --> 01:20:24,300

stuff and go see Praveen mohan's Channel

2149

01:20:28,550 --> 01:20:26,280

he'll show you all that amazing stuff

2150

01:20:30,830 --> 01:20:28,560

you got like three million Subs guys

2151

01:20:33,229 --> 01:20:30,840

absolutely spectacular and he has

2152

01:20:35,030 --> 01:20:33,239

pointed this out in the past too

2153

01:20:36,830 --> 01:20:35,040

what is this Temple of the monkey god

2154

01:20:40,790 --> 01:20:36,840

stuff with all these Menara people on it

2155

01:20:42,890 --> 01:20:40,800

that look like monkeys those are Bigfoot

2156

01:20:44,570 --> 01:20:42,900

and they actually did them wrong in the

2157

01:20:46,070 --> 01:20:44,580

temples and he's pointed this out too

2158

01:20:47,450 --> 01:20:46,080

some of the temples that were made

2159

01:20:48,890 --> 01:20:47,460

within the last thousand years or so

2160

01:20:50,870 --> 01:20:48,900

they did they portrayed them as

2161

01:20:53,030 --> 01:20:50,880

something that looks like half a human

2162

01:20:54,050 --> 01:20:53,040

and half a monkey and it's got a monkey

2163

01:20:56,090 --> 01:20:54,060

tail

2164

01:20:57,470 --> 01:20:56,100

and he said but that's not how they're

2165

01:20:59,689 --> 01:20:57,480

described and I went wait wait wait wait

2166

01:21:02,090 --> 01:20:59,699

and I went and looked it up again and I

2167

01:21:04,550 --> 01:21:02,100

actually found a conversation but with

2168

01:21:06,410 --> 01:21:04,560

two experts on Sanskrit they were

2169

01:21:08,630 --> 01:21:06,420

talking specifically about the banara

2170

01:21:10,669 --> 01:21:08,640

and how that had all been mistranslated

2171

01:21:12,649 --> 01:21:10,679

and yeah it doesn't say anywhere in

2172

01:21:14,689 --> 01:21:12,659

there that they had tails here's the

2173

01:21:18,770 --> 01:21:14,699

description of the venara venara and

2174

01:21:20,950 --> 01:21:18,780

Sanskrit literally means Forest people

2175

01:21:24,290 --> 01:21:20,960

and what do these Wars people look like

2176

01:21:26,870 --> 01:21:24,300

well they don't wear clothes they're

2177

01:21:28,610 --> 01:21:26,880

covered with hair and some of them are

2178

01:21:30,950 --> 01:21:28,620

the size of elephants

2179

01:21:33,050 --> 01:21:30,960

does this sound familiar

2180

01:21:35,990 --> 01:21:33,060

so anyway the banara clearly the

2181

01:21:39,169 --> 01:21:36,000

Sasquatch build this huge Bridge across

2182

01:21:42,229 --> 01:21:39,179

from India to Sri Lanka so that Lord

2183

01:21:43,669 --> 01:21:42,239

Rama can go get his babe back again and

2184

01:21:45,770 --> 01:21:43,679

they go one step further and they say

2185

01:21:47,450 --> 01:21:45,780

hey we hate the Giants can we uh join up

2186

01:21:49,550 --> 01:21:47,460

with your army and Massacre those

2187

01:21:52,970 --> 01:21:49,560

bastards and he's like yeah

2188

01:21:54,890 --> 01:21:52,980

gives a high five so they all they build

2189

01:21:57,410 --> 01:21:54,900

this big bridge and according to the

2190

01:21:59,870 --> 01:21:57,420

Epic uh the bridge was supposed to be

2191

01:22:02,390 --> 01:21:59,880

about half mile wide and about 10 miles

2192

01:22:03,770 --> 01:22:02,400

long and then they all invade and they

2193

01:22:05,950 --> 01:22:03,780

kill all the Giants and they get his

2194

01:22:08,630 --> 01:22:05,960

girlfriend back go back to the mainland

2195

01:22:11,209 --> 01:22:08,640

uh and they all lived happily ever after

2196

01:22:13,669 --> 01:22:11,219

so this is all a great story it's a

2197

01:22:15,649 --> 01:22:13,679

great story except for the fact that

2198

01:22:17,870 --> 01:22:15,659

they were doing some satellite scans on

2199

01:22:19,430 --> 01:22:17,880

the Bay of Bengal and they found what

2200

01:22:21,470 --> 01:22:19,440

looks like an old bridge buried

2201

01:22:24,830 --> 01:22:21,480

underneath that that went from the

2202

01:22:27,530 --> 01:22:24,840

mainland to Sri Lanka in exactly the

2203

01:22:29,810 --> 01:22:27,540

same place that what they called Adams

2204

01:22:31,910 --> 01:22:29,820

Bridge was supposed to be

2205

01:22:33,470 --> 01:22:31,920

so having found this from satellite they

2206

01:22:37,010 --> 01:22:33,480

got extremely curious in the San Diego

2207

01:22:39,050 --> 01:22:37,020

scuba team down to investigate and they

2208

01:22:41,689 --> 01:22:39,060

came back looking perplexed going I

2209

01:22:43,729 --> 01:22:41,699

don't think that's natural then they

2210

01:22:45,530 --> 01:22:43,739

said another scuba survey team down with

2211

01:22:48,290 --> 01:22:45,540

archaeologists it's been about two years

2212

01:22:50,930 --> 01:22:48,300

working on it and filed a report on came

2213

01:22:53,450 --> 01:22:50,940

back saying this thing is constructed

2214

01:22:55,490 --> 01:22:53,460

and it's been here for at least 6 000

2215

01:22:58,250 --> 01:22:55,500

years

2216

01:23:00,770 --> 01:22:58,260

there's your report from over 6 000

2217

01:23:03,050 --> 01:23:00,780

years ago of the Bigfoot invading Sri

2218

01:23:05,590 --> 01:23:03,060

Lanka and killing the living crap out of

2219

01:23:09,530 --> 01:23:05,600

all the Giants there yeah

2220

01:23:12,110 --> 01:23:09,540

wow that is actually a great story

2221

01:23:13,610 --> 01:23:12,120

um so here here's my other question why

2222

01:23:16,729 --> 01:23:13,620

have there not been any bones found

2223

01:23:18,290 --> 01:23:16,739

whether it's Giants or Bigfoot I mean

2224

01:23:19,970 --> 01:23:18,300

you're happy to have to get into the

2225

01:23:21,229 --> 01:23:19,980

hands of the if they fall into the hands

2226

01:23:22,850 --> 01:23:21,239

of the government the government hides

2227

01:23:24,649 --> 01:23:22,860

them we already know what's happening

2228

01:23:26,810 --> 01:23:24,659

with the uh Smithsonian and the giant

2229

01:23:28,790 --> 01:23:26,820

bones because people are routinely

2230

01:23:31,070 --> 01:23:28,800

digging up Mounds with giant bones in

2231

01:23:33,229 --> 01:23:31,080

them reporting the local newspapers it

2232

01:23:34,370 --> 01:23:33,239

was all over the place

2233

01:23:36,290 --> 01:23:34,380

um

2234

01:23:39,649 --> 01:23:36,300

right here

2235

01:23:42,410 --> 01:23:39,659

The Ancient Giants who ruled America and

2236

01:23:44,090 --> 01:23:42,420

a great Smithsonian kabrap

2237

01:23:46,550 --> 01:23:44,100

and that's what's been going on for the

2238

01:23:48,350 --> 01:23:46,560

last over 100 years in the U.S every

2239

01:23:50,450 --> 01:23:48,360

time they dig up these giant skeletons

2240

01:23:52,310 --> 01:23:50,460

and this Smithsonian wasn't Johnny on

2241

01:23:54,229 --> 01:23:52,320

the spot they had the locals

2242

01:23:56,149 --> 01:23:54,239

forensically examine them they took

2243

01:23:58,070 --> 01:23:56,159

pictures they had all kinds of stuff in

2244

01:24:00,470 --> 01:23:58,080

the newspapers and every single story

2245

01:24:02,930 --> 01:24:00,480

ends with a ninja friendly photos from

2246

01:24:05,450 --> 01:24:02,940

the Smithsonian Museum showed up and by

2247

01:24:07,729 --> 01:24:05,460

Joe they hauled their men's wage for

2248

01:24:10,189 --> 01:24:07,739

further analysis and they shoved him

2249

01:24:12,050 --> 01:24:10,199

into some storage facility with a the

2250

01:24:13,850 --> 01:24:12,060

Ark of the Covenant and a box next to

2251  
01:24:15,890 --> 01:24:13,860  
him and forgot about them or they were

2252  
01:24:17,390 --> 01:24:15,900  
dumping them in the Atlantic or shoving

2253  
01:24:19,729 --> 01:24:17,400  
them in incinerators they've been

2254  
01:24:21,530 --> 01:24:19,739  
accused of doing all this stuff but the

2255  
01:24:23,090 --> 01:24:21,540  
uh the fact of the matter that this

2256  
01:24:26,930 --> 01:24:23,100  
stuff did happen

2257  
01:24:29,330 --> 01:24:26,940  
a lot and is still happening and they're

2258  
01:24:32,330 --> 01:24:29,340  
still covering it up there's absolutely

2259  
01:24:34,729 --> 01:24:32,340  
no doubt about it the Powell Doctrine is

2260  
01:24:36,350 --> 01:24:34,739  
still holding Sway in the Smithsonian

2261  
01:24:38,330 --> 01:24:36,360  
Museum

2262  
01:24:40,189 --> 01:24:38,340  
and you know this is a museum that the

2263  
01:24:43,250 --> 01:24:40,199

guy it's named after a guy named

2264

01:24:45,229 --> 01:24:43,260

Smithson Super Rich died without errors

2265

01:24:47,630 --> 01:24:45,239

contributed all of his money to create

2266

01:24:49,970 --> 01:24:47,640

this Museum of Natural History

2267

01:24:51,530 --> 01:24:49,980

which is so accurate that even though

2268

01:24:53,390 --> 01:24:51,540

they have a big thing about him in there

2269

01:24:56,870 --> 01:24:53,400

I mean he's the guy that paid for it

2270

01:24:58,370 --> 01:24:56,880

right they got his death date wrong

2271

01:25:00,470 --> 01:24:58,380

so why are you going to believe anything

2272

01:25:05,570 --> 01:25:00,480

else they tell you

2273

01:25:09,830 --> 01:25:07,370

Giants of what you know of each of them

2274

01:25:12,050 --> 01:25:09,840

to them do they bury their dead is that

2275

01:25:13,790 --> 01:25:12,060

or they just leave them for the Earth

2276

01:25:15,649 --> 01:25:13,800

too some of the master and follow

2277

01:25:17,930 --> 01:25:15,659

Cryptids may just actually eat their dad

2278

01:25:19,910 --> 01:25:17,940

and that's not unheard of like humans or

2279

01:25:21,290 --> 01:25:19,920

cannibals too that's how they got the

2280

01:25:23,149 --> 01:25:21,300

disease crew

2281

01:25:24,470 --> 01:25:23,159

because it's a ritual thing when one of

2282

01:25:26,149 --> 01:25:24,480

your relatives dies you don't want him

2283

01:25:27,709 --> 01:25:26,159

to be completely gone so everybody eats

2284

01:25:30,649 --> 01:25:27,719

part of them so they continue to live on

2285

01:25:33,530 --> 01:25:30,659

in you and unfortunately that's how the

2286

01:25:37,250 --> 01:25:33,540

uh the the human disease of crew which

2287

01:25:39,950 --> 01:25:37,260

is very similar to uh mad cow disease uh

2288

01:25:42,950 --> 01:25:39,960

with a bowline spongiform

2289

01:25:45,169 --> 01:25:42,960

encephalopathy BSE mad cow disease the

2290

01:25:46,610 --> 01:25:45,179

human version of it is curl and it comes

2291

01:25:49,250 --> 01:25:46,620

from cannibalism from eating other

2292

01:25:50,810 --> 01:25:49,260

people's brains and whatnot so you know

2293

01:25:52,430 --> 01:25:50,820

yeah this kind of thing could be going

2294

01:25:53,810 --> 01:25:52,440

on with them too and that would be

2295

01:25:55,490 --> 01:25:53,820

extremely bad if you had all these brain

2296

01:25:58,189 --> 01:25:55,500

damaged cannibal Bigfoot things running

2297

01:26:00,770 --> 01:25:58,199

around but it seems that that's probably

2298

01:26:03,470 --> 01:26:00,780

not what's going on and they do actually

2299

01:26:05,990 --> 01:26:03,480

bury their dead and you know if you're

2300

01:26:07,430 --> 01:26:06,000

burying them good luck because I know

2301  
01:26:08,870 --> 01:26:07,440  
people that have found mounds and stuff

2302  
01:26:11,270 --> 01:26:08,880  
that they're absolutely convinced that

2303  
01:26:13,129 --> 01:26:11,280  
you know Bigfoot may do things could

2304  
01:26:15,490 --> 01:26:13,139  
look at this is the burial mound and

2305  
01:26:17,750 --> 01:26:15,500  
it's 10 feet long

2306  
01:26:19,310 --> 01:26:17,760  
humans don't need a burial mound that

2307  
01:26:23,149 --> 01:26:19,320  
big right

2308  
01:26:26,450 --> 01:26:23,159  
now that one last thing the dogmen have

2309  
01:26:29,090 --> 01:26:26,460  
been seen in cemeteries digging did they

2310  
01:26:32,090 --> 01:26:29,100  
is anything buried there that would draw

2311  
01:26:34,070 --> 01:26:32,100  
them like yeah like half rotted meat

2312  
01:26:35,870 --> 01:26:34,080  
because they're really hungry is is that

2313  
01:26:37,850 --> 01:26:35,880

why they'd probably be there yeah no

2314

01:26:40,970 --> 01:26:37,860

this goes hand in hand with some of the

2315

01:26:44,169 --> 01:26:40,980

old legends from the Middle East about

2316

01:26:46,550 --> 01:26:44,179

uh Goods ghouls

2317

01:26:48,350 --> 01:26:46,560

g-h-o-u-l-schools the goals would lurk

2318

01:26:52,129 --> 01:26:48,360

out of the waste and this is they look a

2319

01:26:55,070 --> 01:26:53,689

um but they're not known to be all that

2320

01:26:56,870 --> 01:26:55,080

dangerous they're kind of cowardly

2321

01:26:59,149 --> 01:26:56,880

they're like a jackal or a coyote or

2322

01:27:00,709 --> 01:26:59,159

something by themselves not to worry

2323

01:27:02,270 --> 01:27:00,719

about but if there's a whole pack of

2324

01:27:04,850 --> 01:27:02,280

they might try and gang up and kill you

2325

01:27:06,110 --> 01:27:04,860

but in general even if they did kill you

2326

01:27:08,209 --> 01:27:06,120

they won't eat you for a while because

2327

01:27:09,530 --> 01:27:08,219

they're like rotting meat so they'll

2328

01:27:10,970 --> 01:27:09,540

they'll leave you lying around until

2329

01:27:13,070 --> 01:27:10,980

you're good and stinky before the entire

2330

01:27:15,649 --> 01:27:13,080

party yeah but these are the kind of

2331

01:27:18,290 --> 01:27:15,659

beings that they have ascribed uh from

2332

01:27:19,790 --> 01:27:18,300

mythology to being the ones that lurk

2333

01:27:21,590 --> 01:27:19,800

around graveyards that dig into the

2334

01:27:24,050 --> 01:27:21,600

graves and eat the bodies and stuff and

2335

01:27:26,090 --> 01:27:24,060

some of these giant ancient necropolises

2336

01:27:27,890 --> 01:27:26,100

you know there was rumors that they

2337

01:27:29,689 --> 01:27:27,900

actually had tunnel systems underneath

2338

01:27:32,510 --> 01:27:29,699

them so they could burrow up from

2339

01:27:33,890 --> 01:27:32,520

underneath the coffin and dig in through

2340

01:27:35,209 --> 01:27:33,900

the bottom and get the corpse that way

2341

01:27:40,629 --> 01:27:35,219

and you'd never know that they had done

2342

01:27:46,189 --> 01:27:43,790

but it's also very disturbing yeah it's

2343

01:27:48,350 --> 01:27:46,199

very disturbing yeah so they don't they

2344

01:27:50,930 --> 01:27:48,360

don't tend to try to bury their dead in

2345

01:27:53,750 --> 01:27:50,940

with ours like in the same

2346

01:27:58,070 --> 01:27:53,760

area like a cemetery they have their

2347

01:27:59,930 --> 01:27:58,080

yeah no no uh we found we think the uh

2348

01:28:02,930 --> 01:27:59,940

one where they had actually buried him

2349

01:28:04,610 --> 01:28:02,940

in a river under a log Jam which again

2350

01:28:06,470 --> 01:28:04,620

is genius because it won't take very

2351  
01:28:07,970 --> 01:28:06,480  
long for the river to wash away all the

2352  
01:28:10,370 --> 01:28:07,980  
remains to get rid of all the evidence

2353  
01:28:11,390 --> 01:28:10,380  
and meanwhile The Log Jam will Pin It

2354  
01:28:13,430 --> 01:28:11,400  
Down

2355  
01:28:15,590 --> 01:28:13,440  
mm-hmm

2356  
01:28:17,090 --> 01:28:15,600  
that's actually very smart that really

2357  
01:28:20,750 --> 01:28:17,100  
is

2358  
01:28:22,790 --> 01:28:20,760  
now did they do it in like groups like a

2359  
01:28:24,709 --> 01:28:22,800  
like a cemetery like we have or they

2360  
01:28:27,649 --> 01:28:24,719  
just no I don't exactly where they lie

2361  
01:28:30,709 --> 01:28:27,659  
well I mean geez I don't know you know

2362  
01:28:32,030 --> 01:28:30,719  
oh okay when I was a kid I found an area

2363  
01:28:36,169 --> 01:28:32,040

that

2364

01:28:38,090 --> 01:28:36,179

was really creepy I didn't like walking

2365

01:28:41,330 --> 01:28:38,100

through it it could be the brightest

2366

01:28:43,490 --> 01:28:41,340

sunniest bird chirpiest Day Ever with uh

2367

01:28:45,350 --> 01:28:43,500

Disney type uh songs going on in the

2368

01:28:46,729 --> 01:28:45,360

background and you come walking into

2369

01:28:49,129 --> 01:28:46,739

this area and it's like you get a wall

2370

01:28:50,750 --> 01:28:49,139

of dread and it stays with you until you

2371

01:28:53,570 --> 01:28:50,760

walk back out the other side of it again

2372

01:28:55,550 --> 01:28:53,580

and that area had

2373

01:28:58,129 --> 01:28:55,560

there was no real underbrush there and

2374

01:29:00,169 --> 01:28:58,139

almost had the aspect of a cemetery

2375

01:29:01,370 --> 01:29:00,179

except there were trees and stuff and

2376

01:29:02,689 --> 01:29:01,380

every so often there was one of these

2377

01:29:05,030 --> 01:29:02,699

gigantic moans like I was just

2378

01:29:09,110 --> 01:29:05,040

describing earlier that were like four

2379

01:29:11,930 --> 01:29:09,120

feet five feet wide ten feet long

2380

01:29:13,370 --> 01:29:11,940

so unless that was some you know my uh

2381

01:29:14,870 --> 01:29:13,380

my dad always said well that might have

2382

01:29:17,149 --> 01:29:14,880

been you know an Indian burial ground

2383

01:29:19,070 --> 01:29:17,159

well yeah it might have been Dad if the

2384

01:29:21,010 --> 01:29:19,080

Indians were 10 feet tall it might have

2385

01:29:23,629 --> 01:29:21,020

been

2386

01:29:26,570 --> 01:29:23,639

I mean you don't know maybe some of them

2387

01:29:27,830 --> 01:29:26,580

were but well there were you know there

2388

01:29:30,350 --> 01:29:27,840

were some of the natives that were

2389

01:29:31,910 --> 01:29:30,360

really extraordinarily tall and that had

2390

01:29:34,250 --> 01:29:31,920

to do with the Giants in North America

2391

01:29:36,050 --> 01:29:34,260

and some of them were actually like the

2392

01:29:37,729 --> 01:29:36,060

more good Giants didn't like their

2393

01:29:39,470 --> 01:29:37,739

relatives they joined with the humans

2394

01:29:41,090 --> 01:29:39,480

and then he had these tribes that had

2395

01:29:43,310 --> 01:29:41,100

like why aren't there so many guys that

2396

01:29:45,110 --> 01:29:43,320

tried that are seven feet tall oh yeah

2397

01:29:47,870 --> 01:29:45,120

we took in some Giants a few Generations

2398

01:29:53,510 --> 01:29:50,169

that I mean that makes sense actually

2399

01:29:55,490 --> 01:29:53,520

because then you have you have the it's

2400

01:29:58,370 --> 01:29:55,500

considered the genetic deformity of

2401  
01:29:59,570 --> 01:29:58,380  
giantism yeah yeah the Giants did get

2402  
01:30:02,030 --> 01:29:59,580  
along with the giants either they had

2403  
01:30:05,149 --> 01:30:02,040  
the reports of the uh

2404  
01:30:08,570 --> 01:30:05,159  
oh God I think it was the Cherokee don't

2405  
01:30:10,070 --> 01:30:08,580  
quote me for sure but thousands of years

2406  
01:30:11,270 --> 01:30:10,080  
ago there was a volcanic eruption here

2407  
01:30:12,709 --> 01:30:11,280  
on the West Coast have messed everything

2408  
01:30:14,570 --> 01:30:12,719  
up really bad and a lot of the West

2409  
01:30:16,370 --> 01:30:14,580  
Coast tribes had to move East to survive

2410  
01:30:18,530 --> 01:30:16,380  
and they were all kind of clumping up

2411  
01:30:20,209 --> 01:30:18,540  
against the Mississippi and there was

2412  
01:30:22,129 --> 01:30:20,219  
already One Tribe there when this other

2413  
01:30:24,050 --> 01:30:22,139

tribe showed up the tribe that was there

2414

01:30:25,370 --> 01:30:24,060

they were all between like seven and

2415

01:30:28,129 --> 01:30:25,380

nine feet tall

2416

01:30:29,530 --> 01:30:28,139

and they wanted to cross the river to go

2417

01:30:31,850 --> 01:30:29,540

to the Eastern side of the Mississippi

2418

01:30:35,090 --> 01:30:31,860

and there was a tribe of what they said

2419

01:30:37,010 --> 01:30:35,100

were like 18-foot Giants over there they

2420

01:30:40,610 --> 01:30:37,020

would let them go across

2421

01:30:43,250 --> 01:30:40,620

and so both of these tribes the smaller

2422

01:30:45,830 --> 01:30:43,260

Giants and this huge tribe of natives

2423

01:30:47,750 --> 01:30:45,840

from the West Coast teamed up went

2424

01:30:49,370 --> 01:30:47,760

across the river whipped all of their

2425

01:30:50,750 --> 01:30:49,380

butts very soundly and chased the

2426  
01:30:53,450 --> 01:30:50,760  
remainder of them down the Mississippi

2427  
01:30:56,149 --> 01:30:53,460  
to the far south and that was the last

2428  
01:30:58,310 --> 01:30:56,159  
they saw them but that might have been

2429  
01:30:59,510 --> 01:30:58,320  
you know like part of the the mound

2430  
01:31:01,550 --> 01:30:59,520  
builder culture all along the

2431  
01:31:04,070 --> 01:31:01,560  
Mississippi there we had what appears

2432  
01:31:06,050 --> 01:31:04,080  
like giants ruling the roost and making

2433  
01:31:08,930 --> 01:31:06,060  
the humans their pitiful slaves do all

2434  
01:31:11,990 --> 01:31:08,940  
the dirty work for them

2435  
01:31:15,350 --> 01:31:12,000  
oh wow I that sounds like it that's

2436  
01:31:16,850 --> 01:31:15,360  
amazing that really is so and we've come

2437  
01:31:18,950 --> 01:31:16,860  
to the end of our show which I

2438  
01:31:22,250 --> 01:31:18,960

appreciate you being here Duke thank you

2439

01:31:23,990 --> 01:31:22,260

so much you're welcome and if thank you

2440

01:31:25,790 --> 01:31:24,000

and I'd love to have you back I really

2441

01:31:27,890 --> 01:31:25,800

would you've been a wonderful guest and

2442

01:31:29,689 --> 01:31:27,900

I do want to thank you again do you want

2443

01:31:31,430 --> 01:31:29,699

to tell everyone how to get a hold of

2444

01:31:34,370 --> 01:31:31,440

you where to find you

2445

01:31:36,770 --> 01:31:34,380

sure you can find my main Outlet over on

2446

01:31:40,550 --> 01:31:36,780

YouTube World Bigfoot radio but I'm also

2447

01:31:44,629 --> 01:31:40,560

on the other platforms a bright Eon a

2448

01:31:45,890 --> 01:31:44,639

bit shoot rubble and odyssey and I just

2449

01:31:47,450 --> 01:31:45,900

checked the other day and right now I

2450

01:31:49,010 --> 01:31:47,460

have the number one Bigfoot channel on

2451

01:31:51,649 --> 01:31:49,020

Rumble

2452

01:31:53,390 --> 01:31:51,659

so that's competitor is Buckeye my next

2453

01:31:54,890 --> 01:31:53,400

competitor in second place is Buckeye

2454

01:31:58,070 --> 01:31:54,900

Bigfoot and I got three three times as

2455

01:32:00,229 --> 01:31:58,080

many Subs as hell and uh so yeah there's

2456

01:32:02,390 --> 01:32:00,239

also additional content on Rumble and

2457

01:32:04,070 --> 01:32:02,400

bit shoot that is not on YouTube because

2458

01:32:06,050 --> 01:32:04,080

YouTube doesn't like some of my content

2459

01:32:07,850 --> 01:32:06,060

so it goes over there where they don't

2460

01:32:09,890 --> 01:32:07,860

ensor me so you guys might want to join

2461

01:32:11,930 --> 01:32:09,900

those platforms just so you can get all

2462

01:32:14,209 --> 01:32:11,940

that cool additional content way too

2463

01:32:16,129 --> 01:32:14,219

cool for YouTube but I also have support

2464

01:32:19,669 --> 01:32:16,139

groups on Facebook I have a world

2465

01:32:21,050 --> 01:32:19,679

Bigfoot uh radio TV support group that

2466

01:32:22,850 --> 01:32:21,060

tells you when shows are coming out

2467

01:32:25,370 --> 01:32:22,860

exclusively and I also have Montana

2468

01:32:26,930 --> 01:32:25,380

Bigfoot project which covers a lot of

2469

01:32:29,149 --> 01:32:26,940

researchers and specifically like

2470

01:32:31,310 --> 01:32:29,159

research going on not only in Montana

2471

01:32:33,229 --> 01:32:31,320

but the Pacific Northwest and then even

2472

01:32:35,090 --> 01:32:33,239

beyond that to different parts of the

2473

01:32:38,450 --> 01:32:35,100

world and if you're if you don't like

2474

01:32:41,030 --> 01:32:38,460

censorship you should be on niwi the

2475

01:32:42,649 --> 01:32:41,040

real social media Network that doesn't

2476

01:32:45,830 --> 01:32:42,659

ensor you

2477

01:32:47,689 --> 01:32:45,840

um and I have the number one and number

2478

01:32:50,149 --> 01:32:47,699

two biggest groups on that platform

2479

01:32:52,189 --> 01:32:50,159

which would be World Bigfoot Central and

2480

01:32:54,189 --> 01:32:52,199

Upper Midwest Bigfoot Central come on

2481

01:32:56,209 --> 01:32:54,199

over join up

2482

01:32:58,610 --> 01:32:56,219

we'll definitely have to check you out

2483

01:33:01,129 --> 01:32:58,620

on those because we loved what we heard

2484

01:33:03,709 --> 01:33:01,139

here so again I do want to thank you

2485

01:33:05,510 --> 01:33:03,719

duke thank you so much you're very very

2486

01:33:07,550 --> 01:33:05,520

welcome and one other thing for anybody

2487

01:33:09,950 --> 01:33:07,560

else that wants to hear me on a regular

2488

01:33:11,750 --> 01:33:09,960

basis uh good friends with Dave Scott

2489

01:33:14,629 --> 01:33:11,760

over at spaced out radio and I do a

2490

01:33:15,890 --> 01:33:14,639

Cryptid report on his show on Tuesdays

2491

01:33:17,810 --> 01:33:15,900

and Thursday nights during the third

2492

01:33:20,149 --> 01:33:17,820

hour so if you want to even get more

2493

01:33:22,189 --> 01:33:20,159

additional Duke content and I tend to

2494

01:33:24,709 --> 01:33:22,199

cover the stuff that just happened like

2495

01:33:26,330 --> 01:33:24,719

Giants and Colorado Park closed that

2496

01:33:27,110 --> 01:33:26,340

story is the kind of stuff I cover over

2497

01:33:31,729 --> 01:33:27,120

there

2498

01:33:33,350 --> 01:33:31,739

all right well again I truly appreciate

2499

01:33:35,270 --> 01:33:33,360

it and you have a good night Duke thank

2500

01:33:37,129 --> 01:33:35,280

2501

01:33:38,890 --> 01:33:37,139

2502

01:33:42,830 --> 01:33:38,900

2503

01:33:45,229 --> 01:33:42,840

2504

01:33:46,910 --> 01:33:45,239

2506

01:33:52,370 --> 01:33:49,380

um next week I am going to have tick

2507

01:33:54,950 --> 01:33:52,380

tock's nurse Hadley on she is a hospice

2508

01:33:58,430 --> 01:33:54,960

nurse who is going to be sharing her

2509

01:34:00,649 --> 01:33:58,440

inspirational stories of being with her

2510

01:34:04,850 --> 01:34:00,659

patients as they see loved ones before

2511

01:34:06,169 --> 01:34:04,860

they cross over as they see pets as they

2512

01:34:09,169 --> 01:34:06,179

just see

2513

01:34:11,030 --> 01:34:09,179

different Spirits in general so it's

2514

01:34:13,610 --> 01:34:11,040

going to be an interesting conversation

2515

01:34:15,590 --> 01:34:13,620

as well as an interesting night

2516

01:34:17,870 --> 01:34:15,600

um Wednesday night I'm not sure if Lon

2517

01:34:20,689 --> 01:34:17,880

is having a report show but Vincent will

2518

01:34:22,790 --> 01:34:20,699

2519

01:34:24,520 --> 01:34:22,800
