

1
00:00:03,669 --> 00:00:02,950
and it hits me oh my gosh this is that

2
00:00:04,789 --> 00:00:03,679
triangle

3
00:00:05,829 --> 00:00:04,799
you know there's explanation for

4
00:00:06,789 --> 00:00:05,839
everything that occurred in the

5
00:00:09,030 --> 00:00:06,799
rendelsham forest

6
00:00:11,270 --> 00:00:09,040
incident that doesn't involve aliens at

7
00:00:14,629 --> 00:00:11,280
all it was completely silent

8
00:00:17,029 --> 00:00:14,639
it comes right over our heads he saw a

9
00:00:18,870 --> 00:00:17,039
classic flying saucer really standing in

10
00:00:19,670 --> 00:00:18,880
the clearing he turned over to my father

11
00:00:20,870 --> 00:00:19,680
and held his hand

12
00:00:23,750 --> 00:00:20,880
and he looked in his eyes and he said

13
00:00:28,830 --> 00:00:26,310

and all of this is during the show

39

00:01:21,590 --> 00:01:19,200

will be featuring a rare guest kobe

47

00:01:43,190 --> 00:01:40,560

landrum i talked about that last week

48

00:01:43,749 --> 00:01:43,200

i do apologize i said that would be this

49

00:01:45,830 --> 00:01:43,759

week's

50

00:01:47,030 --> 00:01:45,840

show but i wanted to save that for our

51

00:01:49,350 --> 00:01:47,040

first live show

52

00:01:50,950 --> 00:01:49,360

but you will not be disappointed by the

53

00:01:53,030 --> 00:01:50,960

guest this week

54

00:01:54,230 --> 00:01:53,040

she's a fascinating woman her name is

55

00:01:57,109 --> 00:01:54,240

nancy talbot

56

00:01:57,749 --> 00:01:57,119

of the blt research team for a little

57

00:02:00,389 --> 00:01:57,759

background

58

00:02:02,630 --> 00:02:00,399

i will read you this blurb the blt

59

00:02:04,069 --> 00:02:02,640

research team's primary focus is crop

60

00:02:06,230 --> 00:02:04,079

circle research

61

00:02:08,309 --> 00:02:06,240

including the discovery scientific

62

00:02:10,790 --> 00:02:08,319

documentation and evaluation

63

00:02:12,630 --> 00:02:10,800

of physical changes induced in plants

64

00:02:16,630 --> 00:02:12,640

soils and other materials that crop

65

00:02:19,190 --> 00:02:16,640

circle sites by energy or energy systems

66

00:02:21,910 --> 00:02:19,200

responsible for creating them and to

67

00:02:23,589 --> 00:02:21,920

determine if possible from these data

68

00:02:27,350 --> 00:02:23,599

the specific nature

69

00:02:29,589 --> 00:02:27,360

and source of these energies secondly

70

00:02:31,270 --> 00:02:29,599

their intent is to publish these

71

00:02:32,790 --> 00:02:31,280

research results in peer-reviewed

72

00:02:34,949 --> 00:02:32,800

scientific journals

73

00:02:35,990 --> 00:02:34,959

and to disseminate this information to

74

00:02:38,790 --> 00:02:36,000

the general public through

75

00:02:39,830 --> 00:02:38,800

lectures mainstream articles and

76

00:02:41,750 --> 00:02:39,840

internet

77

00:02:43,030 --> 00:02:41,760

well with every change there's the bad

78

00:02:45,430 --> 00:02:43,040

side of it too

79

00:02:47,190 --> 00:02:45,440

and now for the sad news michael lauc

80

00:02:48,309 --> 00:02:47,200

who has been recording with us for the

81

00:02:50,390 --> 00:02:48,319

last several months

82

00:02:52,550 --> 00:02:50,400

will no longer be able to join me for

83

00:02:53,509 --> 00:02:52,560

the live show due to his scheduling

84

00:02:55,509 --> 00:02:53,519

conflicts

85

00:02:57,670 --> 00:02:55,519

michael's been a great addition and i

86

00:02:58,790 --> 00:02:57,680

know a lot of you fans are will be very

87

00:03:01,190 --> 00:02:58,800

disappointed

88

00:03:03,110 --> 00:03:01,200

i'm hoping to have him on as a guest and

89

00:03:05,430 --> 00:03:03,120

maybe actually for some pre-recorded

90

00:03:06,949 --> 00:03:05,440

sessions i am happy to say though that i

91

00:03:08,630 --> 00:03:06,959

have sam moronto

92

00:03:10,869 --> 00:03:08,640

who has been on the show several times

93

00:03:12,229 --> 00:03:10,879

joining me sam and i will discuss a

94

00:03:15,350 --> 00:03:12,239

little bit what's going on

95

00:03:16,830 --> 00:03:15,360

lately in the ufo phenomena and he's

96

00:03:17,990 --> 00:03:16,840

also going to help me interview the

97

00:03:21,110 --> 00:03:18,000

guests

98

00:03:23,030 --> 00:03:21,120

so sam how you doing pretty good now you

99

00:03:25,270 --> 00:03:23,040

won't be able to join us next week

100

00:03:26,550 --> 00:03:25,280

live because i already have three guests

101
00:03:28,630 --> 00:03:26,560
and it's just too many for

102
00:03:30,149 --> 00:03:28,640
for one show because well i'll be

103
00:03:30,789 --> 00:03:30,159
talking at the same time and over each

104
00:03:34,390 --> 00:03:30,799
other

105
00:03:36,550 --> 00:03:34,400
but sam for the listener that uh may not

106
00:03:38,550 --> 00:03:36,560
have listened to shows with you can you

107
00:03:40,470 --> 00:03:38,560
say hi and who you are

108
00:03:41,990 --> 00:03:40,480
oh sure most definitely my name's sam

109
00:03:44,309 --> 00:03:42,000
moronto of course as you

110
00:03:46,470 --> 00:03:44,319
got it right some people abuse that and

111
00:03:49,589 --> 00:03:46,480
come up with all sorts of

112
00:03:50,070 --> 00:03:49,599
things but uh you know uh i think i'll

113
00:03:53,190 --> 00:03:50,080

add an

114

00:03:55,110 --> 00:03:53,200

interesting perspective and uh both of

115

00:03:56,070 --> 00:03:55,120

us we may agree on the same page on some

116

00:03:57,429 --> 00:03:56,080

things but we

117

00:04:00,470 --> 00:03:57,439

probably disagree on other and that

118

00:04:02,949 --> 00:04:00,480

really helps adds at a a uh

119

00:04:04,630 --> 00:04:02,959

add something to the mix my background

120

00:04:07,190 --> 00:04:04,640

of course is investigating

121

00:04:08,630 --> 00:04:07,200

and researching the phenomena that found

122

00:04:11,670 --> 00:04:08,640

me before i found

123

00:04:12,390 --> 00:04:11,680

it i had my first sighting in 1959 of an

124

00:04:15,190 --> 00:04:12,400

anomalous

125

00:04:16,990 --> 00:04:15,200

object and uh i gave my first

126

00:04:21,189 --> 00:04:17,000

presentation on the subject

127

00:04:21,710 --> 00:04:21,199

1967. wow i i forgot all about the 1967

128

00:04:24,550 --> 00:04:21,720

one

129

00:04:27,350 --> 00:04:24,560

1967 i gave my first presentation my

130

00:04:28,469 --> 00:04:27,360

father came home in 1964 with a couple

131

00:04:30,629 --> 00:04:28,479

of books

132

00:04:32,469 --> 00:04:30,639

and uh you know the books in the

133

00:04:33,990 --> 00:04:32,479

magazine were from some amateur

134

00:04:36,070 --> 00:04:34,000

astronomers who seen something in the

135

00:04:38,710 --> 00:04:36,080

sky along with my father

136

00:04:39,590 --> 00:04:38,720

and you know that whole little little uh

137

00:04:42,070 --> 00:04:39,600

experience

138

00:04:43,909 --> 00:04:42,080

they gave him a couple of books and a

139

00:04:45,030 --> 00:04:43,919

magazine but they gave me the adventure

140

00:04:47,749 --> 00:04:45,040

of a lifetime

141

00:04:48,150 --> 00:04:47,759

so sam will be talking in a couple weeks

142

00:04:50,469 --> 00:04:48,160

live

143

00:04:51,670 --> 00:04:50,479

on the show and thanks so much it's a

144

00:04:53,270 --> 00:04:51,680

it's going to be a real pleasure we'll

145

00:04:55,110 --> 00:04:53,280

have a lot of fun

146

00:04:57,189 --> 00:04:55,120

music on the show is by kerry lloyd

147

00:05:50,830 --> 00:04:57,199

whitehouse stay tuned for my interview

148

00:05:50,840 --> 00:06:43,430

oh

149

00:06:47,270 --> 00:06:45,909

i'm with nancy talbot in cambridge

150

00:06:49,589 --> 00:06:47,280

massachusetts

151
00:06:50,469 --> 00:06:49,599
thank you for uh meeting up with me

152
00:06:52,629 --> 00:06:50,479
today

153
00:06:54,309 --> 00:06:52,639
that's my delight i'm sorry it took so

154
00:06:56,710 --> 00:06:54,319
long to get together

155
00:06:58,710 --> 00:06:56,720
now i'm gonna say this is part one of

156
00:07:00,390 --> 00:06:58,720
two because today we're gonna talk

157
00:07:02,309 --> 00:07:00,400
mostly about the science

158
00:07:04,070 --> 00:07:02,319
of crop circles can you first of all

159
00:07:05,029 --> 00:07:04,080
just quickly say your background and how

160
00:07:07,430 --> 00:07:05,039
you got into this

161
00:07:09,670 --> 00:07:07,440
the part of my background that's that

162
00:07:11,189 --> 00:07:09,680
has anything to do actually with the blt

163
00:07:13,670 --> 00:07:11,199

research team

164

00:07:15,189 --> 00:07:13,680

which is this group that we formed to

165

00:07:15,990 --> 00:07:15,199

study the crop circles from the

166

00:07:18,629 --> 00:07:16,000

scientific

167

00:07:20,230 --> 00:07:18,639

point of view was that i worked as a

168

00:07:21,350 --> 00:07:20,240

research analyst and a research

169

00:07:23,110 --> 00:07:21,360

assistant

170

00:07:25,830 --> 00:07:23,120

uh first at the university of maryland

171

00:07:28,950 --> 00:07:25,840

years ago and then up here at harvard

172

00:07:32,950 --> 00:07:28,960

once i'd moved to cambridge and so i

173

00:07:34,950 --> 00:07:32,960

am familiar with scientific methodology

174

00:07:36,309 --> 00:07:34,960

and in fact i designed and implemented a

175

00:07:37,909 --> 00:07:36,319

number of studies when i was at harvard

176

00:07:41,110 --> 00:07:37,919

in the department of uh

177

00:07:41,909 --> 00:07:41,120

anthropology so it was not that i was

178

00:07:43,909 --> 00:07:41,919

unfamiliar

179

00:07:45,430 --> 00:07:43,919

with how science proceeds what the

180

00:07:46,950 --> 00:07:45,440

method is

181

00:07:49,830 --> 00:07:46,960

and it's important for people to

182

00:07:53,110 --> 00:07:49,840

remember it is simply it is a method

183

00:07:56,550 --> 00:07:53,120

and it's the most successful method that

184

00:07:59,830 --> 00:07:56,560

mankind has yet devised to understand

185

00:08:01,749 --> 00:07:59,840

our physical reality and and when you're

186

00:08:04,790 --> 00:08:01,759

studying crop circles

187

00:08:07,270 --> 00:08:04,800

people forget that there are

188

00:08:08,869 --> 00:08:07,280

many different ways to approach it my

189

00:08:10,550 --> 00:08:08,879

thought was originally when i first

190

00:08:14,070 --> 00:08:10,560

became aware of them back in

191

00:08:15,990 --> 00:08:14,080

i think 1989 or 90. uh

192

00:08:17,830 --> 00:08:16,000

my immediate thought was oh my goodness

193

00:08:19,589 --> 00:08:17,840

they're physical

194

00:08:21,830 --> 00:08:19,599

you know there's this thing sitting in

195

00:08:23,909 --> 00:08:21,840

the field you've got plants you've got

196

00:08:25,430 --> 00:08:23,919

soils you've got little bugs

197

00:08:27,110 --> 00:08:25,440

you know animals that could live in the

198

00:08:30,230 --> 00:08:27,120

field all of these things

199

00:08:33,430 --> 00:08:30,240

that would give you some way to ins

200

00:08:36,070 --> 00:08:33,440

to utilize the scientific method

201
00:08:37,829 --> 00:08:36,080
in trying to understand what was causing

202
00:08:40,870 --> 00:08:37,839
you know the crop circles

203
00:08:43,350 --> 00:08:40,880
intuitively i felt that they were not

204
00:08:44,389 --> 00:08:43,360
mechanically flattened by people but i

205
00:08:47,350 --> 00:08:44,399
didn't know

206
00:08:48,470 --> 00:08:47,360
and so i went to england as soon as i

207
00:08:50,710 --> 00:08:48,480
could

208
00:08:52,870 --> 00:08:50,720
and got down on my hands and knees and

209
00:08:55,509 --> 00:08:52,880
started looking at the plants

210
00:08:55,990 --> 00:08:55,519
and immediately noticed a few things

211
00:08:59,350 --> 00:08:56,000
which

212
00:09:00,870 --> 00:08:59,360
i realized weren't normal while i was in

213
00:09:04,949 --> 00:09:00,880

england that first time

214

00:09:07,350 --> 00:09:04,959

i heard that there was a biophysicist

215

00:09:10,150 --> 00:09:07,360

here in the states in michigan

216

00:09:12,310 --> 00:09:10,160

a guy named william levingood who had

217

00:09:15,269 --> 00:09:12,320

already contacted pat delgado

218

00:09:16,710 --> 00:09:15,279

one of the very the original you know

219

00:09:19,829 --> 00:09:16,720

british

220

00:09:20,630 --> 00:09:19,839

crop circle investigators and uh was

221

00:09:24,870 --> 00:09:20,640

already

222

00:09:26,949 --> 00:09:24,880

getting some plant samples from pat

223

00:09:28,150 --> 00:09:26,959

taken from some of these british crop

224

00:09:29,910 --> 00:09:28,160

circles

225

00:09:31,829 --> 00:09:29,920

and i was intrigued to know that there

226

00:09:34,550 --> 00:09:31,839

was any scientist

227

00:09:36,230 --> 00:09:34,560

uh any credentialed scientist who was

228

00:09:38,470 --> 00:09:36,240

willing to actually

229

00:09:39,670 --> 00:09:38,480

investigate this sort of thing because

230

00:09:41,829 --> 00:09:39,680

as you know

231

00:09:44,230 --> 00:09:41,839

you know anomalous phenomena they run as

232

00:09:46,230 --> 00:09:44,240

fast as they can in the other direction

233

00:09:47,430 --> 00:09:46,240

so i came back from england immediately

234

00:09:50,070 --> 00:09:47,440

went to michigan

235

00:09:51,829 --> 00:09:50,080

knocked on leavenwood's door in a my

236

00:09:54,150 --> 00:09:51,839

name's nancy

237

00:09:56,070 --> 00:09:54,160

and i heard about you and what i wanted

238

00:09:58,550 --> 00:09:56,080

was not only to meet him

239

00:10:00,230 --> 00:09:58,560

i wanted to see his lab i wanted to see

240

00:10:01,430 --> 00:10:00,240

the methods he i wanted to observe what

241

00:10:03,829 --> 00:10:01,440

he was doing

242

00:10:06,069 --> 00:10:03,839

to see whether or not it was what i

243

00:10:07,829 --> 00:10:06,079

expected it should be

244

00:10:09,430 --> 00:10:07,839

not that i'm any great authority but i

245

00:10:10,230 --> 00:10:09,440

had seen an awful lot of science by this

246

00:10:12,949 --> 00:10:10,240

time

247

00:10:14,389 --> 00:10:12,959

so he invited me in with i think a

248

00:10:16,550 --> 00:10:14,399

little surprise

249

00:10:18,470 --> 00:10:16,560

and did show me his lab and immediately

250

00:10:19,430 --> 00:10:18,480

began showing me exactly what he was

251
00:10:21,990 --> 00:10:19,440
doing

252
00:10:22,870 --> 00:10:22,000
he had started off using the microscope

253
00:10:25,990 --> 00:10:22,880
to examine

254
00:10:27,750 --> 00:10:26,000
the tissues at certain points on the

255
00:10:30,870 --> 00:10:27,760
plant stem

256
00:10:34,710 --> 00:10:30,880
but quickly began to realize that

257
00:10:36,710 --> 00:10:34,720
these very stretched uh cell wall pits

258
00:10:38,150 --> 00:10:36,720
in the tissues at the nodes in

259
00:10:40,949 --> 00:10:38,160
particular

260
00:10:42,470 --> 00:10:40,959
uh were indicative of some sort of

261
00:10:45,670 --> 00:10:42,480
exposure to heat

262
00:10:47,509 --> 00:10:45,680
probably microwave radiation and he very

263
00:10:50,790 --> 00:10:47,519

quickly started to realize that

264

00:10:54,310 --> 00:10:50,800

elongated nodes stretched nodes

265

00:10:56,389 --> 00:10:54,320

uh were being found mostly

266

00:10:58,790 --> 00:10:56,399

in the upper the apical which is the top

267

00:11:00,949 --> 00:10:58,800

node just below the c dead it's the

268

00:11:03,750 --> 00:11:00,959

first node beneath the seat head

269

00:11:05,910 --> 00:11:03,760

and he was finding consistently that

270

00:11:08,550 --> 00:11:05,920

those nodes were

271

00:11:09,910 --> 00:11:08,560

moderately too massively elongated

272

00:11:12,630 --> 00:11:09,920

stretched

273

00:11:14,550 --> 00:11:12,640

as compared to the control samples which

274

00:11:17,030 --> 00:11:14,560

were coming from the same fields but

275

00:11:19,990 --> 00:11:17,040

outside the crop circle you see

276

00:11:21,670 --> 00:11:20,000

i could tell you know from all the data

277

00:11:24,230 --> 00:11:21,680

in his logbooks

278

00:11:25,269 --> 00:11:24,240

that he was taking massive numbers of

279

00:11:27,350 --> 00:11:25,279

measurements

280

00:11:29,190 --> 00:11:27,360

this was not one or two plants it was

281

00:11:32,389 --> 00:11:29,200

hundreds of plants

282

00:11:35,590 --> 00:11:32,399

and i also realized that

283

00:11:37,670 --> 00:11:35,600

he needed he was not old but he was

284

00:11:39,509 --> 00:11:37,680

getting up there in years at this time

285

00:11:40,870 --> 00:11:39,519

that he needed somebody to help organize

286

00:11:43,590 --> 00:11:40,880

the field work

287

00:11:45,030 --> 00:11:43,600

and i had a lot of i had a history of

288

00:11:48,389 --> 00:11:45,040

doing that sort of thing so

289

00:11:50,069 --> 00:11:48,399

i started to organize um people who

290

00:11:51,509 --> 00:11:50,079

would report the crop circles to us all

291

00:11:53,350 --> 00:11:51,519

around the world in all the different

292

00:11:55,990 --> 00:11:53,360

countries where they occur

293

00:11:57,110 --> 00:11:56,000

and set up this elaborate fieldwork

294

00:11:59,509 --> 00:11:57,120

protocol

295

00:12:01,190 --> 00:11:59,519

which all of them were then instructed

296

00:12:04,230 --> 00:12:01,200

as to how to carry out

297

00:12:04,870 --> 00:12:04,240

and so people the idea was that i would

298

00:12:07,430 --> 00:12:04,880

help

299

00:12:09,030 --> 00:12:07,440

gather the samples and i did so in a

300

00:12:11,190 --> 00:12:09,040

very random matter

301
00:12:12,949 --> 00:12:11,200
manner i would choose every fifth or

302
00:12:14,069 --> 00:12:12,959
every third or every tenth or whatever i

303
00:12:16,629 --> 00:12:14,079
heard about

304
00:12:17,750 --> 00:12:16,639
deliberately trying to avoid any sort of

305
00:12:21,110 --> 00:12:17,760
bias

306
00:12:23,350 --> 00:12:21,120
i also utilized professional

307
00:12:25,350 --> 00:12:23,360
agricultural reps i would hire them in

308
00:12:29,110 --> 00:12:25,360
the fields to do this work

309
00:12:32,949 --> 00:12:29,120
truck drivers phds everything in between

310
00:12:35,030 --> 00:12:32,959
again attempting to totally randomize

311
00:12:37,910 --> 00:12:35,040
any attitudes or opinions that the

312
00:12:39,269 --> 00:12:37,920
people taking the samples might have and

313
00:12:40,069 --> 00:12:39,279

then of course they had a protocol they

314

00:12:41,750 --> 00:12:40,079

had to follow

315

00:12:44,150 --> 00:12:41,760

every so many feet they had to take

316

00:12:45,910 --> 00:12:44,160

samples and every so many feet they had

317

00:12:49,110 --> 00:12:45,920

to take controls

318

00:12:51,110 --> 00:12:49,120

or we didn't look at it so the every

319

00:12:52,470 --> 00:12:51,120

effort was made to see to it that every

320

00:12:53,509 --> 00:12:52,480

all the material that came out of the

321

00:12:56,629 --> 00:12:53,519

fields

322

00:12:59,110 --> 00:12:56,639

was properly sampled and properly then

323

00:13:02,870 --> 00:12:59,120

hung up to drive it came from overseas

324

00:13:05,350 --> 00:13:02,880

labeled properly etc and shipped

325

00:13:06,790 --> 00:13:05,360

about just before we started that part

326

00:13:09,829 --> 00:13:06,800

john burke who is the b

327

00:13:10,550 --> 00:13:09,839

in blt uh i'm the t and levin good of

328

00:13:13,110 --> 00:13:10,560

course is the

329

00:13:14,629 --> 00:13:13,120

I uh john burke from new york had

330

00:13:16,790 --> 00:13:14,639

contacted levin good

331

00:13:18,870 --> 00:13:16,800

because he also had become aware of the

332

00:13:20,470 --> 00:13:18,880

circles and he was fascinated

333

00:13:22,310 --> 00:13:20,480

and he had a strong background in

334

00:13:24,470 --> 00:13:22,320

electromagnetic theory

335

00:13:25,430 --> 00:13:24,480

and had some ideas himself about what he

336

00:13:29,190 --> 00:13:25,440

thought might be going

337

00:13:33,190 --> 00:13:29,200

on and so for many years then

338

00:13:37,509 --> 00:13:33,200

10 12 years we sampled

339

00:13:39,430 --> 00:13:37,519

crop circles all over the world i think

340

00:13:40,949 --> 00:13:39,440

during the first 10 years it was maybe

341

00:13:43,269 --> 00:13:40,959

seven or eight different countries now

342

00:13:46,389 --> 00:13:43,279

it's up to about 18.

343

00:13:47,990 --> 00:13:46,399

and during that time we discovered that

344

00:13:51,269 --> 00:13:48,000

not only was this apical

345

00:13:54,230 --> 00:13:51,279

node elongation this top node stretching

346

00:13:56,310 --> 00:13:54,240

absolutely typical prep it was prevalent

347

00:13:57,990 --> 00:13:56,320

in the genuine crop circles

348

00:14:00,150 --> 00:13:58,000

we started to discover other things

349

00:14:02,710 --> 00:14:00,160

expulsion cavities holes blown down

350

00:14:04,150 --> 00:14:02,720

blown out the nodes both of those

351
00:14:06,949 --> 00:14:04,160
changes caused

352
00:14:08,069 --> 00:14:06,959
by exposure of the plants to extremely

353
00:14:12,069 --> 00:14:08,079
brief

354
00:14:13,590 --> 00:14:12,079
but very intense bursts of heat

355
00:14:15,990 --> 00:14:13,600
and the only kind of heat that we could

356
00:14:17,990 --> 00:14:16,000
think of that could do this

357
00:14:19,590 --> 00:14:18,000
because it was what it was doing was was

358
00:14:22,230 --> 00:14:19,600
going to the moisture

359
00:14:23,990 --> 00:14:22,240
inside the plant stem turning that

360
00:14:26,870 --> 00:14:24,000
moisture to steam

361
00:14:28,790 --> 00:14:26,880
the steam in order to escape on the top

362
00:14:30,550 --> 00:14:28,800
of the plant the plants are very elastic

363
00:14:32,790 --> 00:14:30,560

the external fibers are

364

00:14:34,710 --> 00:14:32,800

young they're much more elastic than

365

00:14:37,670 --> 00:14:34,720

farther down the plant stem

366

00:14:38,629 --> 00:14:37,680

and so they they stretch to let the

367

00:14:40,550 --> 00:14:38,639

steam out

368

00:14:42,069 --> 00:14:40,560

that's why we were getting the elongated

369

00:14:44,150 --> 00:14:42,079

nodes at the top

370

00:14:46,150 --> 00:14:44,160

farther down the plant stem the external

371

00:14:48,470 --> 00:14:46,160

fibers are very tough

372

00:14:50,230 --> 00:14:48,480

they don't stretch when the steam builds

373

00:14:52,230 --> 00:14:50,240

up what happens the same thing is when

374

00:14:55,269 --> 00:14:52,240

you stick an egg in your microwave

375

00:14:58,310 --> 00:14:55,279

and leave it on for too long it explodes

376

00:15:00,710 --> 00:14:58,320

uh so we were aware then that whatever

377

00:15:02,870 --> 00:15:00,720

was causing the genuine crop circles

378

00:15:04,389 --> 00:15:02,880

involved at least one of these energies

379

00:15:08,150 --> 00:15:04,399

had to be heat

380

00:15:11,350 --> 00:15:08,160

probably microwaves then we subsequently

381

00:15:14,629 --> 00:15:11,360

11good discovered that there were

382

00:15:18,150 --> 00:15:14,639

growth abnormalities depending on

383

00:15:20,710 --> 00:15:18,160

when the crop circle occurred the age

384

00:15:22,310 --> 00:15:20,720

of the plants at the time the crop

385

00:15:26,230 --> 00:15:22,320

circle occurred

386

00:15:29,590 --> 00:15:26,240

the seeds would show totally different

387

00:15:31,189 --> 00:15:29,600

growth characteristics abnormal growth

388

00:15:33,670 --> 00:15:31,199

characteristics

389

00:15:35,189 --> 00:15:33,680

if the crop circles occur in young

390

00:15:37,990 --> 00:15:35,199

immature plants

391

00:15:38,870 --> 00:15:38,000

where the seed is not fully formed these

392

00:15:40,790 --> 00:15:38,880

seeds will

393

00:15:43,430 --> 00:15:40,800

weigh less they're dehydrated they look

394

00:15:44,230 --> 00:15:43,440

terrible and by and large they will not

395

00:15:45,749 --> 00:15:44,240

germinate

396

00:15:47,749 --> 00:15:45,759

in other words those plants have been

397

00:15:50,949 --> 00:15:47,759

effectively sterilized

398

00:15:53,189 --> 00:15:50,959

wow however when you take

399

00:15:54,790 --> 00:15:53,199

seeds from a formation that occurs in

400

00:15:55,910 --> 00:15:54,800

the end toward the end of the growing

401
00:15:57,990 --> 00:15:55,920
season

402
00:15:59,910 --> 00:15:58,000
in the northern hemisphere this is late

403
00:16:03,189 --> 00:15:59,920
july and august

404
00:16:04,710 --> 00:16:03,199
the seeds again although fully formed

405
00:16:06,470 --> 00:16:04,720
if they've been on a crop circle they'll

406
00:16:07,990 --> 00:16:06,480
be dehydrated they'll be wrinkled the

407
00:16:10,870 --> 00:16:08,000
endosperm is wrinkled they look

408
00:16:12,870 --> 00:16:10,880
they don't look too good but those seeds

409
00:16:15,030 --> 00:16:12,880
consistently grow

410
00:16:16,790 --> 00:16:15,040
their growth rate has changed and they

411
00:16:18,150 --> 00:16:16,800
grow at up to five times the rate of

412
00:16:20,790 --> 00:16:18,160
normal

413
00:16:22,629 --> 00:16:20,800

they do it without water or sunlight for

414

00:16:26,069 --> 00:16:22,639

long periods of time

415

00:16:29,189 --> 00:16:26,079

and they produce greater yield really

416

00:16:33,269 --> 00:16:29,199

it's almost like gmo from aliens it's

417

00:16:35,670 --> 00:16:33,279

like a massive improvement over gmo

418

00:16:36,949 --> 00:16:35,680

because there is absolutely no effect on

419

00:16:39,590 --> 00:16:36,959

the environment

420

00:16:40,710 --> 00:16:39,600

there's no harm to the creatures the

421

00:16:43,910 --> 00:16:40,720

critters

422

00:16:45,590 --> 00:16:43,920

it doesn't pollute anything and

423

00:16:47,189 --> 00:16:45,600

it turns out leavenwood and burke then

424

00:16:49,590 --> 00:16:47,199

spent several years

425

00:16:51,350 --> 00:16:49,600

trying to replicate that effect and they

426
00:16:53,269 --> 00:16:51,360
in fact did

427
00:16:55,189 --> 00:16:53,279
and they built a machine that delivered

428
00:16:58,310 --> 00:16:55,199
these electrical pulses

429
00:17:01,110 --> 00:16:58,320
which levingwood called ion avalanches

430
00:17:02,069 --> 00:17:01,120
very brief pulses of these ion

431
00:17:04,150 --> 00:17:02,079
avalanches

432
00:17:06,230 --> 00:17:04,160
to all different types of seeds took

433
00:17:08,710 --> 00:17:06,240
quite a while to figure out exactly

434
00:17:10,069 --> 00:17:08,720
how intense and how long because all the

435
00:17:12,630 --> 00:17:10,079
seeds required different

436
00:17:13,110 --> 00:17:12,640
degrees in different lengths of time but

437
00:17:14,789 --> 00:17:13,120
they were

438
00:17:16,630 --> 00:17:14,799

able to replicate it they got a patent

439

00:17:19,990 --> 00:17:16,640

they built the machine

440

00:17:23,510 --> 00:17:20,000

and tried like crazy john burke did

441

00:17:26,630 --> 00:17:23,520

to get the seed companies

442

00:17:28,950 --> 00:17:26,640

to take this on board but the seed

443

00:17:30,710 --> 00:17:28,960

companies had already invested

444

00:17:33,270 --> 00:17:30,720

monsanto and things like that had

445

00:17:37,590 --> 00:17:33,280

invested billions of dollars

446

00:17:40,710 --> 00:17:37,600

in in genetic genetic modification

447

00:17:43,909 --> 00:17:40,720

i mean we were getting up to a 35

448

00:17:47,350 --> 00:17:43,919

increase in yield doing nothing

449

00:17:50,390 --> 00:17:47,360

but exposing the seeds to this mir

450

00:17:52,070 --> 00:17:50,400

machine as eleven good call it molecular

451
00:17:54,070 --> 00:17:52,080
impulse response

452
00:17:56,630 --> 00:17:54,080
and for people that want the details

453
00:18:02,230 --> 00:17:56,640
about this the blt website

454
00:18:05,110 --> 00:18:02,240
is just blt.com w www.bltresearch.com

455
00:18:06,630 --> 00:18:05,120
and under plant abnormalities you will

456
00:18:08,710 --> 00:18:06,640
see the patent number

457
00:18:09,909 --> 00:18:08,720
and the reference to the website they

458
00:18:12,549 --> 00:18:09,919
set up

459
00:18:14,150 --> 00:18:12,559
talking about this invention what it did

460
00:18:15,270 --> 00:18:14,160
all the studies done by other

461
00:18:18,630 --> 00:18:15,280
universities

462
00:18:20,470 --> 00:18:18,640
that replicate what their work was

463
00:18:21,830 --> 00:18:20,480

but none of the seed companies not only

464

00:18:23,430 --> 00:18:21,840

were they not interested they didn't

465

00:18:26,630 --> 00:18:23,440

want anybody to know about this

466

00:18:29,270 --> 00:18:26,640

yeah well monsanto's monsters anyway

467

00:18:30,150 --> 00:18:29,280

well this is a very inexpensive machine

468

00:18:31,510 --> 00:18:30,160

to build

469

00:18:32,950 --> 00:18:31,520

the farmers themselves now are

470

00:18:34,310 --> 00:18:32,960

contacting me and some of them are

471

00:18:37,350 --> 00:18:34,320

starting to try to build it

472

00:18:40,150 --> 00:18:37,360

because it is not rocket science and

473

00:18:40,950 --> 00:18:40,160

if in fact there's a co-op down in

474

00:18:43,430 --> 00:18:40,960

indiana now

475

00:18:44,390 --> 00:18:43,440

trying to get this built and it would

476
00:18:46,549 --> 00:18:44,400
release them

477
00:18:47,830 --> 00:18:46,559
from their indebtedness to monsanto

478
00:18:49,750 --> 00:18:47,840
forever

479
00:18:50,950 --> 00:18:49,760
because if they can get the same sort of

480
00:18:53,590 --> 00:18:50,960
increased yield

481
00:18:55,669 --> 00:18:53,600
remember also you don't need fertilizer

482
00:18:57,909 --> 00:18:55,679
you don't need pesticides

483
00:18:59,190 --> 00:18:57,919
the plants are growing so much faster

484
00:19:02,230 --> 00:18:59,200
than the pests

485
00:19:04,230 --> 00:19:02,240
which have evolved to feed on plants

486
00:19:07,029 --> 00:19:04,240
that by the time the pest is evolved the

487
00:19:08,549 --> 00:19:07,039
plant is way past that stage you see

488
00:19:10,150 --> 00:19:08,559

so you don't need any fertilizer you

489

00:19:12,950 --> 00:19:10,160

don't need any pesticides

490

00:19:14,230 --> 00:19:12,960

and you get this increased yield it's a

491

00:19:15,830 --> 00:19:14,240

much better system

492

00:19:17,510 --> 00:19:15,840

but it's simple and it's you're not

493

00:19:19,350 --> 00:19:17,520

going to make a lot of money with it

494

00:19:21,270 --> 00:19:19,360

you would think that it would be real

495

00:19:23,350 --> 00:19:21,280

big money in something like that

496

00:19:24,950 --> 00:19:23,360

why the machine is easy to build it's

497

00:19:25,990 --> 00:19:24,960

inexpensive you simply make them and

498

00:19:27,750 --> 00:19:26,000

sell the machines

499

00:19:29,990 --> 00:19:27,760

no i mean if someone would want to get

500

00:19:31,909 --> 00:19:30,000

an increased yield in all this

501
00:19:33,270 --> 00:19:31,919
in their crops so they buy the machine

502
00:19:36,310 --> 00:19:33,280
doesn't cost much to buy

503
00:19:38,470 --> 00:19:36,320
to build i mean if you're if your only

504
00:19:40,310 --> 00:19:38,480
goal in life is to make money

505
00:19:41,590 --> 00:19:40,320
i'm sure that you could make money from

506
00:19:43,430 --> 00:19:41,600
it but

507
00:19:45,430 --> 00:19:43,440
i'm just looking at the way monsanto

508
00:19:47,029 --> 00:19:45,440
looks at things they saw that they

509
00:19:49,510 --> 00:19:47,039
couldn't they saw they couldn't make

510
00:19:51,110 --> 00:19:49,520
they make the bulk of their income from

511
00:19:53,430 --> 00:19:51,120
the pesticides

512
00:19:54,870 --> 00:19:53,440
from the fertilizers all this other

513
00:19:56,390 --> 00:19:54,880

stuff they sell that you've got to have

514

00:19:59,110 --> 00:19:56,400

if you're going to use monsanto

515

00:20:00,390 --> 00:19:59,120

and all that yeah that's where they make

516

00:20:02,470 --> 00:20:00,400

the bulk of their income

517

00:20:04,470 --> 00:20:02,480

wow and they don't want a machine that

518

00:20:07,430 --> 00:20:04,480

you give one burst to the seeds

519

00:20:09,190 --> 00:20:07,440

takes 10 minutes maybe 15 minutes and

520

00:20:09,990 --> 00:20:09,200

then the seeds do the same damn thing

521

00:20:12,470 --> 00:20:10,000

that their

522

00:20:13,750 --> 00:20:12,480

gmo seeds do i'm surprised i didn't try

523

00:20:16,630 --> 00:20:13,760

to buy the patent now

524

00:20:17,190 --> 00:20:16,640

uh i don't know john was john was not

525

00:20:18,630 --> 00:20:17,200

sure

526
00:20:20,310 --> 00:20:18,640
because that's exactly what it looked

527
00:20:22,149 --> 00:20:20,320
like they were going to try and do

528
00:20:24,070 --> 00:20:22,159
but he did go all over the world with

529
00:20:24,870 --> 00:20:24,080
this and there are many studies that

530
00:20:26,549 --> 00:20:24,880
back it up

531
00:20:28,070 --> 00:20:26,559
back up what leaven good and burke are

532
00:20:29,350 --> 00:20:28,080
saying which i've

533
00:20:31,990 --> 00:20:29,360
you know i've referenced that on the

534
00:20:34,390 --> 00:20:32,000
website on under plan abnormalities

535
00:20:35,590 --> 00:20:34,400
so in addition to that we also started

536
00:20:36,789 --> 00:20:35,600
to discover

537
00:20:39,750 --> 00:20:36,799
there are a number of other plant

538
00:20:41,669 --> 00:20:39,760

changes which clearly

539

00:20:42,950 --> 00:20:41,679
cannot be related to mechanical

540

00:20:45,590 --> 00:20:42,960
flattening

541

00:20:45,990 --> 00:20:45,600
of the plants in crop circles obviously

542

00:20:48,950 --> 00:20:46,000
some

543

00:20:50,230 --> 00:20:48,960
crop circles are mechanically created

544

00:20:50,950 --> 00:20:50,240
can we just talk about that just a

545

00:20:53,029 --> 00:20:50,960
little bit because

546

00:20:55,110 --> 00:20:53,039
it's not worth wasting your listeners

547

00:20:57,350 --> 00:20:55,120
time it's quite clear

548

00:20:59,110 --> 00:20:57,360
that some people do make crop circles

549

00:21:01,350 --> 00:20:59,120
yeah big deal

550

00:21:03,110 --> 00:21:01,360
okay that is not the genuine phenomenon

551

00:21:06,149 --> 00:21:03,120

there is so much evidence

552

00:21:06,950 --> 00:21:06,159

that the public has not heard about the

553

00:21:08,870 --> 00:21:06,960

genuine

554

00:21:10,390 --> 00:21:08,880

yeah you owe it to your public to let

555

00:21:13,110 --> 00:21:10,400

them hear that evidence

556

00:21:14,950 --> 00:21:13,120

sure but let me just say this part can

557

00:21:16,390 --> 00:21:14,960

you yourself when you instantly see a

558

00:21:18,630 --> 00:21:16,400

crop circle tell whether no

559

00:21:19,750 --> 00:21:18,640

nobody can okay so you have that's why

560

00:21:22,310 --> 00:21:19,760

you have the science

561

00:21:24,149 --> 00:21:22,320

you have to go in and examine it

562

00:21:26,390 --> 00:21:24,159

basically the only way i know

563

00:21:27,430 --> 00:21:26,400

to tell the difference between a

564

00:21:29,909 --> 00:21:27,440

man-made

565

00:21:32,470 --> 00:21:29,919

mechanically flattened crop circle and

566

00:21:35,350 --> 00:21:32,480

one that happens in some other way

567

00:21:36,470 --> 00:21:35,360

is by doing the science that's the point

568

00:21:39,029 --> 00:21:36,480

of it yeah

569

00:21:40,230 --> 00:21:39,039

and it's not all that hard to do uh it

570

00:21:42,230 --> 00:21:40,240

does take time

571

00:21:44,230 --> 00:21:42,240

and we're hoping that we keep hoping

572

00:21:46,310 --> 00:21:44,240

that more work because we have there's

573

00:21:48,149 --> 00:21:46,320

additional new work being done

574

00:21:50,310 --> 00:21:48,159

that we can eventually come up with some

575

00:21:52,710 --> 00:21:50,320

indicator that is easy

576
00:21:53,750 --> 00:21:52,720
at this point there are only two visual

577
00:21:56,230 --> 00:21:53,760
signs

578
00:21:58,149 --> 00:21:56,240
that are scientifically backed up these

579
00:21:59,190 --> 00:21:58,159
are published in our three peer-reviewed

580
00:22:01,190 --> 00:21:59,200
papers

581
00:22:02,789 --> 00:22:01,200
and the first is the apical node

582
00:22:05,110 --> 00:22:02,799
elongation

583
00:22:06,950 --> 00:22:05,120
that top node being stretched and the

584
00:22:07,909 --> 00:22:06,960
second is the presence of expulsion

585
00:22:10,390 --> 00:22:07,919
cavities

586
00:22:12,070 --> 00:22:10,400
the holes blown out farther down those

587
00:22:15,190 --> 00:22:12,080
two things you can see with your naked

588
00:22:17,430 --> 00:22:15,200

eyes all of these other things that

589

00:22:19,990 --> 00:22:17,440

there are many other changes require

590

00:22:23,510 --> 00:22:20,000

laboratory work to determine

591

00:22:25,990 --> 00:22:23,520

and so not all genuine crop circles have

592

00:22:27,270 --> 00:22:26,000

expulsion cavities it only happens in

593

00:22:29,590 --> 00:22:27,280

some cases

594

00:22:32,630 --> 00:22:29,600

and it seems to be related to the amount

595

00:22:34,710 --> 00:22:32,640

of moisture inside the plant stem

596

00:22:36,630 --> 00:22:34,720

in other words when they're green

597

00:22:37,750 --> 00:22:36,640

there's much more likely to happen in

598

00:22:41,270 --> 00:22:37,760

young crop

599

00:22:42,390 --> 00:22:41,280

than an old dry crop and it also seems

600

00:22:45,990 --> 00:22:42,400

to have something to do with the

601
00:22:48,789 --> 00:22:46,000
intensity of the microwave component

602
00:22:51,029 --> 00:22:48,799
of this energy system this energy system

603
00:22:52,870 --> 00:22:51,039
is not one energy it's we now we know

604
00:22:54,950 --> 00:22:52,880
it's microwave radiation

605
00:22:57,750 --> 00:22:54,960
or something that's acting just like it

606
00:23:00,950 --> 00:22:57,760
it's also these very unusual electrical

607
00:23:02,710 --> 00:23:00,960
pulses and then we found down quite by

608
00:23:04,310 --> 00:23:02,720
accident as happens all the time you

609
00:23:07,190 --> 00:23:04,320
know in science

610
00:23:08,470 --> 00:23:07,200
that strong magnetic fields are also

611
00:23:11,830 --> 00:23:08,480
involved

612
00:23:14,950 --> 00:23:11,840
we discovered this uh in 1993

613
00:23:18,390 --> 00:23:14,960

with our first recovery of

614

00:23:19,990 --> 00:23:18,400

uh meteoritic well with iron magnetized

615

00:23:22,390 --> 00:23:20,000

iron spheres

616

00:23:24,149 --> 00:23:22,400

which are microscopic you can't see them

617

00:23:25,270 --> 00:23:24,159

but when we do our soil work we

618

00:23:27,430 --> 00:23:25,280

extract them and then under the

619

00:23:28,390 --> 00:23:27,440

microscope you can see them perfect

620

00:23:31,350 --> 00:23:28,400

spheres

621

00:23:33,350 --> 00:23:31,360

magnetized like crazy stick together

622

00:23:35,430 --> 00:23:33,360

like a chain of pearls you know

623

00:23:37,270 --> 00:23:35,440

and they're deposited inside the crop

624

00:23:39,270 --> 00:23:37,280

circles and not outside

625

00:23:41,830 --> 00:23:39,280

i believe you showed images of this at

626

00:23:44,470 --> 00:23:41,840

the conference in north carolina

627

00:23:45,909 --> 00:23:44,480

i probably did i remember seeing that i

628

00:23:49,269 --> 00:23:45,919

probably did yeah

629

00:23:52,710 --> 00:23:49,279

now those three energies are now

630

00:23:55,669 --> 00:23:52,720

established as being involved in the

631

00:23:57,029 --> 00:23:55,679

genuine crop circle creation process

632

00:23:59,029 --> 00:23:57,039

microwave radiation

633

00:24:00,950 --> 00:23:59,039

unusual electrical pulses and strong

634

00:24:04,390 --> 00:24:00,960

magnetic fields

635

00:24:04,870 --> 00:24:04,400

levingood being a physicist immediately

636

00:24:07,909 --> 00:24:04,880

jumps

637

00:24:10,950 --> 00:24:07,919

to well okay what is known

638

00:24:14,630 --> 00:24:10,960

in the science literature at the moment

639

00:24:19,190 --> 00:24:14,640

that has those those uh

640

00:24:22,070 --> 00:24:19,200

characteristics and a plasma

641

00:24:23,110 --> 00:24:22,080

a rotating plasma spiraling plasma

642

00:24:26,710 --> 00:24:23,120

system

643

00:24:28,470 --> 00:24:26,720

in fact emits microwaves

644

00:24:30,870 --> 00:24:28,480

is known to have these highly unusual

645

00:24:34,390 --> 00:24:30,880

electrical pulses associated with it

646

00:24:37,590 --> 00:24:34,400

and is strongly magnetic and so

647

00:24:39,110 --> 00:24:37,600

he began to develop an idea based on his

648

00:24:41,110 --> 00:24:39,120

results

649

00:24:42,710 --> 00:24:41,120

not on some other idea but on the

650

00:24:45,269 --> 00:24:42,720

physical data

651
00:24:48,390 --> 00:24:45,279
that indicated to him that some sort of

652
00:24:50,789 --> 00:24:48,400
a spiraling plasma system

653
00:24:51,830 --> 00:24:50,799
had to be involved in the creation of

654
00:24:55,669 --> 00:24:51,840
the genuine

655
00:24:58,870 --> 00:24:55,679
the real mccoys now we know

656
00:24:59,430 --> 00:24:58,880
that only recently well we've known

657
00:25:02,549 --> 00:24:59,440
about

658
00:25:03,909 --> 00:25:02,559
um well lightning bolts everybody knows

659
00:25:05,510 --> 00:25:03,919
that's a plasma discharge course

660
00:25:07,590 --> 00:25:05,520
everybody knows they exist

661
00:25:08,789 --> 00:25:07,600
the northern lights are a much more

662
00:25:11,990 --> 00:25:08,799
moderate

663
00:25:14,070 --> 00:25:12,000

much lower energy uh plasma discharge

664

00:25:16,870 --> 00:25:14,080

everybody knows that they exist

665

00:25:17,350 --> 00:25:16,880

but science has only recently discovered

666

00:25:19,830 --> 00:25:17,360

what

667

00:25:21,590 --> 00:25:19,840

pilots have known for years something

668

00:25:24,950 --> 00:25:21,600

called blue jets

669

00:25:26,950 --> 00:25:24,960

sprites elves these are all

670

00:25:27,990 --> 00:25:26,960

plasma discharges in the upper

671

00:25:29,990 --> 00:25:28,000

atmosphere

672

00:25:32,789 --> 00:25:30,000

that science didn't know about until

673

00:25:35,590 --> 00:25:32,799

they finally got photographs

674

00:25:36,470 --> 00:25:35,600

after dozens or hundreds perhaps of of

675

00:25:39,269 --> 00:25:36,480

pilots

676
00:25:40,950 --> 00:25:39,279
who fly at that atmosphere level have

677
00:25:42,230 --> 00:25:40,960
been seeing these things for years

678
00:25:43,909 --> 00:25:42,240
would that be anything like the foo

679
00:25:45,269 --> 00:25:43,919
fighters that they talked about no

680
00:25:46,630 --> 00:25:45,279
nothing totally different things it's a

681
00:25:48,789 --> 00:25:46,640
totally different thing

682
00:25:49,750 --> 00:25:48,799
so what leaving good's rationale here

683
00:25:52,789 --> 00:25:49,760
was

684
00:25:55,430 --> 00:25:52,799
that being as as a scientist he

685
00:25:56,630 --> 00:25:55,440
knew very well that sprites and elves

686
00:25:59,830 --> 00:25:56,640
and blue jets

687
00:26:01,909 --> 00:25:59,840
and numerous other electrical phenomena

688
00:26:02,870 --> 00:26:01,919

which had not yet been discovered by

689

00:26:05,510 --> 00:26:02,880

science

690

00:26:07,909 --> 00:26:05,520

did exist because there were starting to

691

00:26:10,310 --> 00:26:07,919

be actual reports made you know

692

00:26:11,269 --> 00:26:10,320

he knew that it was he felt that it was

693

00:26:14,230 --> 00:26:11,279

possible

694

00:26:16,230 --> 00:26:14,240

that some other as yet unknown type of

695

00:26:21,430 --> 00:26:16,240

plasma discharge

696

00:26:24,470 --> 00:26:21,440

could be causing the crop formations

697

00:26:25,510 --> 00:26:24,480

uh it's important here to point out that

698

00:26:28,710 --> 00:26:25,520

he did not mean

699

00:26:30,310 --> 00:26:28,720

a single plasma levin good's concept was

700

00:26:32,870 --> 00:26:30,320

that multiple

701
00:26:33,909 --> 00:26:32,880
interacting plasma systems were

702
00:26:36,549 --> 00:26:33,919
responsible

703
00:26:37,269 --> 00:26:36,559
and that because if you imagine let's

704
00:26:40,310 --> 00:26:37,279
say

705
00:26:41,669 --> 00:26:40,320
a clear plastic beach ball and inside

706
00:26:43,990 --> 00:26:41,679
that beach ball you've got

707
00:26:44,710 --> 00:26:44,000
softballs and tennis balls and rubber

708
00:26:48,070 --> 00:26:44,720
balls

709
00:26:50,390 --> 00:26:48,080
you can imagine

710
00:26:51,110 --> 00:26:50,400
inside this great big clear one and

711
00:26:52,950 --> 00:26:51,120
they're all

712
00:26:55,909 --> 00:26:52,960
electrically charged and interacting

713
00:26:58,310 --> 00:26:55,919

with each other and moving constantly

714

00:26:59,990 --> 00:26:58,320

and you have this entire thing the big

715

00:27:02,310 --> 00:27:00,000

clear beach ball

716

00:27:03,990 --> 00:27:02,320

coming down spiraling as it comes down

717

00:27:07,430 --> 00:27:04,000

towards the earth's surface

718

00:27:07,990 --> 00:27:07,440

with all of these other uh plasma

719

00:27:10,789 --> 00:27:08,000

systems

720

00:27:12,710 --> 00:27:10,799

smaller ones inside of it constantly

721

00:27:15,029 --> 00:27:12,720

interacting and moving relative to

722

00:27:16,549 --> 00:27:15,039

each other when that thing hits the

723

00:27:19,669 --> 00:27:16,559

ground the surface of

724

00:27:22,149 --> 00:27:19,679

the crop you could this could explain a

725

00:27:24,149 --> 00:27:22,159

wide array of the designs

726
00:27:25,590 --> 00:27:24,159
which are actually then reported and

727
00:27:28,389 --> 00:27:25,600
found in the fields

728
00:27:29,990 --> 00:27:28,399
because if it hits at an angle or if the

729
00:27:32,149 --> 00:27:30,000
the tennis ball and the softball have

730
00:27:32,789 --> 00:27:32,159
moved relative to each other inside the

731
00:27:36,149 --> 00:27:32,799
thing

732
00:27:38,389 --> 00:27:36,159
you could get half circle shapes

733
00:27:40,070 --> 00:27:38,399
you could get elongated strings you

734
00:27:42,789 --> 00:27:40,080
could get all sorts of

735
00:27:45,990 --> 00:27:42,799
designs which are very common in the

736
00:27:49,669 --> 00:27:46,000
actual crop circles themselves

737
00:27:51,669 --> 00:27:49,679
now most of the crop circle enthusiasts

738
00:27:53,190 --> 00:27:51,679

are unaware of the sophistication of

739

00:27:55,029 --> 00:27:53,200

this concept

740

00:27:56,549 --> 00:27:55,039

and they don't understand it it's what

741

00:27:58,950 --> 00:27:56,559

it boils down to

742

00:27:59,750 --> 00:27:58,960

and they can't imagine that nature in

743

00:28:02,789 --> 00:27:59,760

fact

744

00:28:05,590 --> 00:28:02,799

can produce completely unguided

745

00:28:07,190 --> 00:28:05,600

incredibly complex design well if you

746

00:28:09,510 --> 00:28:07,200

think for just a second

747

00:28:10,870 --> 00:28:09,520

you know you think about snowflakes or

748

00:28:13,909 --> 00:28:10,880

you think about

749

00:28:17,430 --> 00:28:13,919

nautilus shell

750

00:28:18,789 --> 00:28:17,440

or flowers or any other thing design is

751

00:28:21,830 --> 00:28:18,799

everywhere in nature

752

00:28:25,350 --> 00:28:21,840

naturally extremely sophisticated

753

00:28:27,990 --> 00:28:25,360

very complex and very elegant design

754

00:28:28,470 --> 00:28:28,000

is everywhere you look in nature there's

755

00:28:34,549 --> 00:28:28,480

math

756

00:28:37,590 --> 00:28:34,559

precision in in

757

00:28:39,750 --> 00:28:37,600

how the designs are appear

758

00:28:41,190 --> 00:28:39,760

now we don't notice it very much because

759

00:28:44,630 --> 00:28:41,200

most of us live in cities

760

00:28:46,389 --> 00:28:44,640

anymore and it's just not something that

761

00:28:48,149 --> 00:28:46,399

most people pay much attention to they

762

00:28:49,350 --> 00:28:48,159

see a tree and they don't think anything

763

00:28:50,950 --> 00:28:49,360

they see a flower and they're used to

764

00:28:51,590 --> 00:28:50,960

seeing flowers they see snowflakes and

765

00:28:53,590 --> 00:28:51,600

they don't

766

00:28:54,630 --> 00:28:53,600

but the fact of the matter is that

767

00:28:58,549 --> 00:28:54,640

nature

768

00:29:02,230 --> 00:28:58,559

completely unaided by any other factor

769

00:29:04,710 --> 00:29:02,240

does always produce design

770

00:29:05,590 --> 00:29:04,720

many times it's very complex it's very

771

00:29:07,669 --> 00:29:05,600

intricate

772

00:29:09,909 --> 00:29:07,679

and it also has them as you say a

773

00:29:12,389 --> 00:29:09,919

mathematical component

774

00:29:12,950 --> 00:29:12,399

now there's one other aspect to the

775

00:29:16,149 --> 00:29:12,960

circle

776

00:29:18,470 --> 00:29:16,159

thing which needs to be mentioned

777

00:29:19,990 --> 00:29:18,480

this is a theory that leavengood has

778

00:29:24,830 --> 00:29:20,000

published that we have published

779

00:29:27,510 --> 00:29:24,840

in our three papers uh 1994 1995 and

780

00:29:29,990 --> 00:29:27,520

1999 three different papers

781

00:29:31,269 --> 00:29:30,000

it is only a theory it's an apotheon

782

00:29:34,950 --> 00:29:31,279

hypothesis

783

00:29:38,149 --> 00:29:34,960

based on the data recovered

784

00:29:39,430 --> 00:29:38,159

with levin good's work this doesn't mean

785

00:29:42,549 --> 00:29:39,440

that it's the final

786

00:29:45,029 --> 00:29:42,559

answer it is an intelligent rational

787

00:29:47,669 --> 00:29:45,039

theory based on his findings

788

00:29:49,590 --> 00:29:47,679

it is not necessarily the final answer

789

00:29:51,430 --> 00:29:49,600

and there is another possibility let's

790

00:29:54,149 --> 00:29:51,440

say that levin good is correct

791

00:29:55,190 --> 00:29:54,159

that a plasma or multiple interacting

792

00:29:58,470 --> 00:29:55,200

plasmas

793

00:30:00,310 --> 00:29:58,480

are in fact involved

794

00:30:02,789 --> 00:30:00,320

think just for a minute about well could

795

00:30:04,549 --> 00:30:02,799

they be being generated

796

00:30:06,549 --> 00:30:04,559

perhaps these are not spontaneously

797

00:30:09,750 --> 00:30:06,559

occurring plasma systems

798

00:30:11,990 --> 00:30:09,760

perhaps they are not only generated but

799

00:30:13,430 --> 00:30:12,000

then directed

800

00:30:16,230 --> 00:30:13,440

and then you get to a much bigger

801

00:30:18,549 --> 00:30:16,240

question well okay if that's the case

802

00:30:20,870 --> 00:30:18,559

who's generating them who's directing

803

00:30:23,110 --> 00:30:20,880

them and why

804

00:30:24,389 --> 00:30:23,120

which you know science cannot deal with

805

00:30:26,870 --> 00:30:24,399

that aspect of it

806

00:30:28,070 --> 00:30:26,880

what science can do is tell you what the

807

00:30:30,789 --> 00:30:28,080

physical changes are

808

00:30:33,029 --> 00:30:30,799

what they are consistent with and then

809

00:30:34,830 --> 00:30:33,039

pose some of these larger questions

810

00:30:36,149 --> 00:30:34,840

which get more into the realm of

811

00:30:39,510 --> 00:30:36,159

consciousness

812

00:30:40,470 --> 00:30:39,520

now there is one major study in the crop

813

00:30:42,149 --> 00:30:40,480

circle work

814

00:30:43,909 --> 00:30:42,159

in addition to all of the work that we

815

00:30:46,310 --> 00:30:43,919

accomplished when leavengood and burke

816

00:30:49,350 --> 00:30:46,320

and i worked together

817

00:30:51,110 --> 00:30:49,360

toward the end of that time period

818

00:30:53,269 --> 00:30:51,120

lawrence rockefeller contacted me

819

00:30:55,909 --> 00:30:53,279

because he'd heard about our papers

820

00:30:57,190 --> 00:30:55,919

and he wanted to be brought up to date

821

00:30:59,190 --> 00:30:57,200

and so i went to new york

822

00:31:01,430 --> 00:30:59,200

and gave him an overview of the work

823

00:31:04,789 --> 00:31:01,440

that we had done what we found so far

824

00:31:06,950 --> 00:31:04,799

and he offered to fund another

825

00:31:08,389 --> 00:31:06,960

some more work and i wrote up some

826

00:31:11,269 --> 00:31:08,399

proposals and he picked

827

00:31:11,830 --> 00:31:11,279

one in particular and that is this clay

828

00:31:13,750 --> 00:31:11,840

mineral

829

00:31:15,190 --> 00:31:13,760

x-ray diffraction study that we then

830

00:31:16,870 --> 00:31:15,200

carried out

831

00:31:19,350 --> 00:31:16,880

in this study it's the most

832

00:31:22,310 --> 00:31:19,360

comprehensive and the most complete work

833

00:31:24,470 --> 00:31:22,320

that we have so far that anybody has so

834

00:31:25,590 --> 00:31:24,480

on the scientific aspect of the crop

835

00:31:28,310 --> 00:31:25,600

circles

836

00:31:29,909 --> 00:31:28,320

uh levin good did what he always does in

837

00:31:31,029 --> 00:31:29,919

this particular study he did the plant

838

00:31:34,630 --> 00:31:31,039

work

839

00:31:37,190 --> 00:31:34,640

but i hired totally independently

840

00:31:40,470 --> 00:31:37,200

uh the x-ray diffraction expert who

841

00:31:43,509 --> 00:31:40,480

simply did the x-ray diffraction work

842

00:31:46,389 --> 00:31:43,519

i then hired a statistician uh

843

00:31:48,230 --> 00:31:46,399

who did nothing but the statistics and i

844

00:31:48,710 --> 00:31:48,240

was lucky enough to have the help of

845

00:31:51,669 --> 00:31:48,720

robert

846

00:31:53,509 --> 00:31:51,679

c reynolds jr head of the department of

847

00:31:55,190 --> 00:31:53,519

earth sciences at dartmouth

848

00:31:57,190 --> 00:31:55,200

and the world's leading authority the

849

00:31:59,110 --> 00:31:57,200

acknowledged leading authority

850

00:32:00,789 --> 00:31:59,120

on clay mineralogy and the x-ray

851

00:32:04,950 --> 00:32:00,799

diffraction technique

852

00:32:07,110 --> 00:32:04,960

and he agreed to interpret our results

853

00:32:09,110 --> 00:32:07,120

none of these men except for 11g had

854

00:32:11,990 --> 00:32:09,120

ever even heard of a crop circle

855

00:32:12,870 --> 00:32:12,000

they didn't even know what they were and

856

00:32:15,029 --> 00:32:12,880

none of them knew

857

00:32:17,190 --> 00:32:15,039

each other nor did they know love and

858

00:32:20,630 --> 00:32:17,200

good that's actually good isn't it

859

00:32:23,350 --> 00:32:20,640

so we have here as strong uh

860

00:32:25,110 --> 00:32:23,360

a statement about this there could be no

861

00:32:27,029 --> 00:32:25,120

experimental bias here

862

00:32:28,630 --> 00:32:27,039

because three of the guys involved never

863

00:32:30,789 --> 00:32:28,640

even heard of prop circles

864

00:32:32,149 --> 00:32:30,799

none of the people knew each other and

865

00:32:35,909 --> 00:32:32,159

each person only did

866

00:32:38,149 --> 00:32:35,919

their own work the circle that we

867

00:32:39,110 --> 00:32:38,159

sampled for this particular event for

868

00:32:41,669 --> 00:32:39,120

this study

869

00:32:43,350 --> 00:32:41,679

happened to be in canada and we picked

870

00:32:45,350 --> 00:32:43,360

it because the

871

00:32:46,549 --> 00:32:45,360

soils were of a type that we could work

872

00:32:49,590 --> 00:32:46,559

with easily

873

00:32:53,190 --> 00:32:49,600

i had very competent field personnel

874

00:32:55,509 --> 00:32:53,200

in near this particular place we had uh

875

00:32:57,110 --> 00:32:55,519

a willing farmer which is always very

876

00:32:58,389 --> 00:32:57,120

important

877

00:33:01,190 --> 00:32:58,399

it was close enough so that we could

878

00:33:02,870 --> 00:33:01,200

afford to do it all to get the plants

879

00:33:04,630 --> 00:33:02,880

from europe to do this

880

00:33:06,070 --> 00:33:04,640

would have cost more than our budget you

881

00:33:09,909 --> 00:33:06,080

know allowed

882

00:33:11,029 --> 00:33:09,919

and the results when when dr reynolds of

883

00:33:15,029 --> 00:33:11,039

dartmouth

884

00:33:15,990 --> 00:33:15,039

saw our results he at first was so as

885

00:33:19,110 --> 00:33:16,000

stunned

886

00:33:21,669 --> 00:33:19,120

he said oh no there must be some mistake

887

00:33:23,509 --> 00:33:21,679

this can't possibly be so we have never

888

00:33:24,789 --> 00:33:23,519

seen this sort of change

889

00:33:27,590 --> 00:33:24,799

we were looking at the crystalline

890

00:33:30,230 --> 00:33:27,600

structure of very specific clays

891

00:33:31,350 --> 00:33:30,240

in the surface soils of these crop

892

00:33:33,430 --> 00:33:31,360

circles

893

00:33:35,590 --> 00:33:33,440

the theory was that if heat would affect

894

00:33:37,350 --> 00:33:35,600

the plants it might also affect

895

00:33:38,710 --> 00:33:37,360

some of these clay minerals clay

896

00:33:41,669 --> 00:33:38,720

minerals are known to be

897

00:33:44,070 --> 00:33:41,679

affected by heat readily and so that's

898

00:33:47,029 --> 00:33:44,080

why we had chosen these clay minerals

899

00:33:48,630 --> 00:33:47,039

the normal way that you see a change in

900

00:33:51,509 --> 00:33:48,640

the crystalline structure of these

901
00:33:53,029 --> 00:33:51,519
clays is when you have sedimentary

902
00:33:56,149 --> 00:33:53,039
deposits

903
00:33:58,389 --> 00:33:56,159
and mountains pressing down on them over

904
00:34:00,710 --> 00:33:58,399
hundreds or thousands of years

905
00:34:01,990 --> 00:34:00,720
and it's the pressure from the weight of

906
00:34:04,389 --> 00:34:02,000
the mountain

907
00:34:05,590 --> 00:34:04,399
and the heat from the earth's core in

908
00:34:08,470 --> 00:34:05,600
combination over

909
00:34:10,389 --> 00:34:08,480
long periods of time that causes the

910
00:34:12,149 --> 00:34:10,399
change in the crystalline structure in

911
00:34:14,230 --> 00:34:12,159
nature

912
00:34:16,389 --> 00:34:14,240
it had never been seen in surface soil

913
00:34:18,310 --> 00:34:16,399

before ever wow

914

00:34:19,430 --> 00:34:18,320

and here we had these results that said

915

00:34:21,430 --> 00:34:19,440

it was there

916

00:34:23,270 --> 00:34:21,440

so his first remark to me was no this

917

00:34:25,750 --> 00:34:23,280

can't possibly be

918

00:34:27,190 --> 00:34:25,760

let me see i want to see the mounts he

919

00:34:29,190 --> 00:34:27,200

means the samples

920

00:34:31,510 --> 00:34:29,200

so i had the x-ray diffraction guy send

921

00:34:33,669 --> 00:34:31,520

the mounts to dr reynolds at dartmouth

922

00:34:35,510 --> 00:34:33,679

and he redid the work the xrd work on

923

00:34:37,270 --> 00:34:35,520

his own machine at dartmouth

924

00:34:39,589 --> 00:34:37,280

and he got exactly the same answers we'd

925

00:34:41,669 --> 00:34:39,599

gotten so then he thought well the

926
00:34:45,270 --> 00:34:41,679
statistics can't be right

927
00:34:47,030 --> 00:34:45,280
and so he redid the statistics himself

928
00:34:48,790 --> 00:34:47,040
and got exactly the same result we'd

929
00:34:51,109 --> 00:34:48,800
gotten he then had

930
00:34:52,950 --> 00:34:51,119
several other ideas because he was an

931
00:34:55,430 --> 00:34:52,960
expert in clay mineralogy

932
00:34:57,030 --> 00:34:55,440
as to what might be an answer he asked

933
00:34:58,710 --> 00:34:57,040
us to carry on some few some more

934
00:35:02,470 --> 00:34:58,720
studies which we did

935
00:35:06,150 --> 00:35:02,480
they were all negative and so as a final

936
00:35:08,390 --> 00:35:06,160
upshot what he finally decided was

937
00:35:09,670 --> 00:35:08,400
that we had to be dealing because we did

938
00:35:11,270 --> 00:35:09,680

have a change in the crystalline

939

00:35:13,510 --> 00:35:11,280

structure of these clays

940

00:35:15,030 --> 00:35:13,520

because it had never been seen before in

941

00:35:17,750 --> 00:35:15,040

surface soil

942

00:35:18,630 --> 00:35:17,760

because it would take a geologic

943

00:35:20,150 --> 00:35:18,640

pressure

944

00:35:22,150 --> 00:35:20,160

that's mountains pressing down on

945

00:35:24,630 --> 00:35:22,160

sediments for thousands of years

946

00:35:25,829 --> 00:35:24,640

it would take either that or heat he

947

00:35:28,790 --> 00:35:25,839

said maybe in

948

00:35:30,790 --> 00:35:28,800

the six to 800 degrees celsius range for

949

00:35:33,510 --> 00:35:30,800

a period of hours

950

00:35:35,190 --> 00:35:33,520

to cause this wow well if there had been

951
00:35:37,030 --> 00:35:35,200
geologic pressure

952
00:35:38,550 --> 00:35:37,040
or that kind of heat what would have

953
00:35:40,470 --> 00:35:38,560
happened to the plants

954
00:35:41,589 --> 00:35:40,480
that have been incinerated and fried and

955
00:35:44,710 --> 00:35:41,599
yeah gone

956
00:35:45,990 --> 00:35:44,720
yeah and that was not the case based on

957
00:35:48,470 --> 00:35:46,000
these facts he said

958
00:35:49,510 --> 00:35:48,480
then we must be dealing with an energy

959
00:35:52,550 --> 00:35:49,520
unknown to science

960
00:35:53,190 --> 00:35:52,560
wow and that's exactly what he said and

961
00:35:56,390 --> 00:35:53,200
furthermore

962
00:35:58,470 --> 00:35:56,400
his wife told me he was he was modest in

963
00:35:59,349 --> 00:35:58,480

his comments with me as most academics

964

00:36:02,630 --> 00:35:59,359

are

965

00:36:05,030 --> 00:36:02,640

he's and what he said

966

00:36:06,950 --> 00:36:05,040

but his wife told me that when he first

967

00:36:09,270 --> 00:36:06,960

did the statistics again

968

00:36:11,750 --> 00:36:09,280

and realized that they were correct he

969

00:36:14,630 --> 00:36:11,760

was on the telephone talking to his son

970

00:36:14,950 --> 00:36:14,640

who is apparently also a geologist and

971

00:36:25,990 --> 00:36:14,960

he

972

00:36:29,670 --> 00:36:26,000

i didn't know i

973

00:36:30,630 --> 00:36:29,680

the depth that a person with his

974

00:36:33,190 --> 00:36:30,640

background

975

00:36:34,150 --> 00:36:33,200

of course would recognize now has this

976
00:36:36,710 --> 00:36:34,160
sampled

977
00:36:38,150 --> 00:36:36,720
has this similar sample have been pulled

978
00:36:39,670 --> 00:36:38,160
out of other crop circles

979
00:36:41,430 --> 00:36:39,680
we've never had the money to do the

980
00:36:44,390 --> 00:36:41,440
entire study again

981
00:36:45,270 --> 00:36:44,400
i see that study was 120 000 bucks was

982
00:36:46,950 --> 00:36:45,280
it really wow

983
00:36:49,589 --> 00:36:46,960
one of the times we were going to meet

984
00:36:51,510 --> 00:36:49,599
up um you had to go because it was a

985
00:36:53,349 --> 00:36:51,520
sort of a local crop circle can you talk

986
00:36:54,069 --> 00:36:53,359
about that not sort of it was in

987
00:36:57,430 --> 00:36:54,079
massachusetts

988
00:37:00,069 --> 00:36:57,440

that's local that's unusual

989

00:37:01,030 --> 00:37:00,079

yes it is unusual they don't uh we don't

990

00:37:04,150 --> 00:37:01,040

get very many

991

00:37:06,550 --> 00:37:04,160

of them here on the in the northeast and

992

00:37:08,550 --> 00:37:06,560

i got a call from western massachusetts

993

00:37:11,349 --> 00:37:08,560

that there had been a circle

994

00:37:13,270 --> 00:37:11,359

and so i had to go and and get some

995

00:37:13,829 --> 00:37:13,280

field workers out there and start to get

996

00:37:17,030 --> 00:37:13,839

some

997

00:37:20,870 --> 00:37:17,040

information this particular one

998

00:37:22,310 --> 00:37:20,880

is highly anomalous it is not a standard

999

00:37:24,310 --> 00:37:22,320

crop circle

1000

00:37:25,670 --> 00:37:24,320

although it is it's in corn it's in

1001
00:37:29,109 --> 00:37:25,680
maize

1002
00:37:31,990 --> 00:37:29,119
and it is an ellipse

1003
00:37:34,069 --> 00:37:32,000
with what looks like a cross going

1004
00:37:35,750 --> 00:37:34,079
through it

1005
00:37:37,670 --> 00:37:35,760
pathways off to the left and the right

1006
00:37:41,829 --> 00:37:37,680
and the north and the south you know

1007
00:37:44,069 --> 00:37:41,839
i mean north south east and west and

1008
00:37:46,470 --> 00:37:44,079
in maize i mean this is full grown field

1009
00:37:49,510 --> 00:37:46,480
corn this is 14 foot tall

1010
00:37:51,990 --> 00:37:49,520
corn you don't knock over field corn

1011
00:37:53,829 --> 00:37:52,000
ease any kind of corn easily i mean not

1012
00:37:55,430 --> 00:37:53,839
once it's grown to any height you know

1013
00:37:57,510 --> 00:37:55,440

the stalks are an inch thick they're

1014

00:38:00,069 --> 00:37:57,520

very they're very sturdy

1015

00:38:01,430 --> 00:38:00,079

uh but in this case what's we haven't

1016

00:38:04,470 --> 00:38:01,440

got the work all done yet we're

1017

00:38:07,109 --> 00:38:04,480

still in process it turns out that in

1018

00:38:12,630 --> 00:38:07,119

this case there are eyewitnesses

1019

00:38:15,589 --> 00:38:12,640

to a flying cross ufo

1020

00:38:17,589 --> 00:38:15,599

directly in in that exact area in fact

1021

00:38:18,710 --> 00:38:17,599

precisely over the field one witness

1022

00:38:20,550 --> 00:38:18,720

says

1023

00:38:21,990 --> 00:38:20,560

just before this circle was found it was

1024

00:38:24,470 --> 00:38:22,000

found at harvest

1025

00:38:25,190 --> 00:38:24,480

it's a corn is grown on very flat land

1026

00:38:27,430 --> 00:38:25,200

usually

1027

00:38:28,950 --> 00:38:27,440

and you can't see a crop circle in corn

1028

00:38:30,630 --> 00:38:28,960

if it's if it's been there

1029

00:38:32,630 --> 00:38:30,640

and you simply can't see it just from

1030

00:38:34,390 --> 00:38:32,640

overhead only yeah exactly

1031

00:38:36,230 --> 00:38:34,400

and so they didn't find it the farmer

1032

00:38:38,550 --> 00:38:36,240

found it at harvest

1033

00:38:40,310 --> 00:38:38,560

and then when we started interviewing

1034

00:38:42,150 --> 00:38:40,320

the local people then the people who

1035

00:38:44,230 --> 00:38:42,160

live right near that field

1036

00:38:45,349 --> 00:38:44,240

we discovered one eyewitness to this

1037

00:38:48,390 --> 00:38:45,359

flying cross

1038

00:38:51,270 --> 00:38:48,400

ufo thing directly over the field

1039

00:38:53,510 --> 00:38:51,280

just before the circle was found and

1040

00:38:55,670 --> 00:38:53,520

then we found we found two more now

1041

00:38:57,190 --> 00:38:55,680

and there may be others because we're

1042

00:38:58,550 --> 00:38:57,200

having to do some exhaustive

1043

00:39:01,510 --> 00:38:58,560

interviewing

1044

00:39:04,470 --> 00:39:01,520

with various people out there and from

1045

00:39:06,470 --> 00:39:04,480

looking at the circle itself

1046

00:39:07,910 --> 00:39:06,480

i had the feeling that it may have been

1047

00:39:11,030 --> 00:39:07,920

there for a while

1048

00:39:13,430 --> 00:39:11,040

before it was discovered uh

1049

00:39:14,710 --> 00:39:13,440

and the lay of it was not typical it was

1050

00:39:16,390 --> 00:39:14,720

not like we have seen

1051

00:39:17,750 --> 00:39:16,400

what what we normally see in crop

1052

00:39:21,510 --> 00:39:17,760

circles there have been

1053

00:39:24,230 --> 00:39:21,520

several uh circles in maize in holland

1054

00:39:25,270 --> 00:39:24,240

this summer also and they are

1055

00:39:30,550 --> 00:39:25,280

magnificent

1056

00:39:31,589 --> 00:39:30,560

mean you can't believe this fluffy soft

1057

00:39:36,390 --> 00:39:31,599

lay

1058

00:39:38,630 --> 00:39:36,400

in stuff that is 12 feet 13 14 feet tall

1059

00:39:40,310 --> 00:39:38,640

and yet it swirled around just like

1060

00:39:41,349 --> 00:39:40,320

wheat plants would be or grass or

1061

00:39:43,030 --> 00:39:41,359

whatever

1062

00:39:45,030 --> 00:39:43,040

but this thing in uh western

1063

00:39:48,550 --> 00:39:45,040

massachusetts is not like that

1064

00:39:50,150 --> 00:39:48,560

and it looks to me like from

1065

00:39:51,430 --> 00:39:50,160

various things that i'm hearing that

1066

00:39:53,190 --> 00:39:51,440

this thing is maybe going to end up

1067

00:39:56,390 --> 00:39:53,200

being ufo related

1068

00:39:57,990 --> 00:39:56,400

and there are a number of cases more and

1069

00:40:01,349 --> 00:39:58,000

more cases actually

1070

00:40:05,829 --> 00:40:01,359

that we're beginning to realize

1071

00:40:08,390 --> 00:40:05,839

certainly appear to be the direct result

1072

00:40:09,750 --> 00:40:08,400

of the presence of what for better lack

1073

00:40:10,710 --> 00:40:09,760

of a better term you'd have to call a

1074

00:40:12,230 --> 00:40:10,720

ufo

1075

00:40:14,470 --> 00:40:12,240

i mean something up in the air flying

1076

00:40:16,710 --> 00:40:14,480

that you don't know what it is

1077

00:40:18,470 --> 00:40:16,720

and in a number of these cases these

1078

00:40:21,829 --> 00:40:18,480

things are

1079

00:40:25,430 --> 00:40:21,839

in the same design of the circle

1080

00:40:27,510 --> 00:40:25,440

that has been found on the ground wow um

1081

00:40:29,589 --> 00:40:27,520

and more on that later there's there's

1082

00:40:30,710 --> 00:40:29,599

an awful there's a growing amount of

1083

00:40:34,870 --> 00:40:30,720

evidence

1084

00:40:36,710 --> 00:40:34,880

that suggests that at least some ufos

1085

00:40:38,550 --> 00:40:36,720

because it now i understand it's not

1086

00:40:39,829 --> 00:40:38,560

they're just one kind of ufo

1087

00:40:42,069 --> 00:40:39,839

there are apparently a whole bunch of

1088

00:40:45,829 --> 00:40:42,079

different kinds and it may be

1089

00:40:47,910 --> 00:40:45,839

that some ufos in fact actually make

1090

00:40:49,990 --> 00:40:47,920

some crop circles maybe they're

1091

00:40:52,550 --> 00:40:50,000

generating the plasma systems

1092

00:40:55,190 --> 00:40:52,560

which then impact the crop in particular

1093

00:40:57,670 --> 00:40:55,200

designs i don't know

1094

00:40:59,030 --> 00:40:57,680

there are many many witnesses i myself

1095

00:41:01,430 --> 00:40:59,040

being one

1096

00:41:03,510 --> 00:41:01,440

to crop circles in fact i'm the only

1097

00:41:06,309 --> 00:41:03,520

crop circle researcher

1098

00:41:07,910 --> 00:41:06,319

who has actually seen not just one but

1099

00:41:10,470 --> 00:41:07,920

two crop circles form

1100

00:41:12,069 --> 00:41:10,480

in front of my eyes wow and i thought

1101
00:41:12,870 --> 00:41:12,079
that was really very special i was kind

1102
00:41:16,390 --> 00:41:12,880
of grateful

1103
00:41:18,390 --> 00:41:16,400
can we talk about it sure the first one

1104
00:41:19,190 --> 00:41:18,400
and this kind of gets us into this realm

1105
00:41:21,510 --> 00:41:19,200
of

1106
00:41:22,309 --> 00:41:21,520
the fact that there's more going on

1107
00:41:25,510 --> 00:41:22,319
apparently

1108
00:41:27,510 --> 00:41:25,520
than a simple plasma discharge

1109
00:41:29,349 --> 00:41:27,520
i would not i expect frankly that we

1110
00:41:32,829 --> 00:41:29,359
will eventually understand that whatever

1111
00:41:35,589 --> 00:41:32,839
is doing it is utilizing plasma

1112
00:41:37,270 --> 00:41:35,599
but where that's emanating from

1113
00:41:40,309 --> 00:41:37,280

i think that's a pretty big question at

1114

00:41:42,309 --> 00:41:40,319

this point in 2001

1115

00:41:44,230 --> 00:41:42,319

many many years ago i learned about a

1116

00:41:45,510 --> 00:41:44,240

young man in holland his name is robert

1117

00:41:48,069 --> 00:41:45,520

vandenbroek

1118

00:41:49,190 --> 00:41:48,079

who is the only person that turns out in

1119

00:41:51,990 --> 00:41:49,200

the world

1120

00:41:53,750 --> 00:41:52,000

who has known since he was 14 and he's

1121

00:41:56,870 --> 00:41:53,760

now 33

1122

00:41:58,230 --> 00:41:56,880

every year he knows exactly when and

1123

00:42:01,270 --> 00:41:58,240

exactly where

1124

00:42:03,109 --> 00:42:01,280

in which fields in his area the crop

1125

00:42:04,950 --> 00:42:03,119

circles are going to happen

1126
00:42:07,030 --> 00:42:04,960
and not only that he often knows exactly

1127
00:42:10,470 --> 00:42:07,040
what they're going to look like

1128
00:42:11,349 --> 00:42:10,480
he's witnessed well over 100 circles

1129
00:42:14,470 --> 00:42:11,359
form

1130
00:42:16,390 --> 00:42:14,480
now with his eyes i mean sometimes

1131
00:42:16,710 --> 00:42:16,400
seeing things very seldom seeing things

1132
00:42:19,670 --> 00:42:16,720
he

1133
00:42:21,030 --> 00:42:19,680
actually identifies as ufos much more

1134
00:42:23,510 --> 00:42:21,040
frequently

1135
00:42:24,470 --> 00:42:23,520
seeing what he calls light phenomena

1136
00:42:26,230 --> 00:42:24,480
light balls

1137
00:42:28,150 --> 00:42:26,240
of one type or another different shapes

1138
00:42:31,510 --> 00:42:28,160

different colors different sizes

1139

00:42:32,790 --> 00:42:31,520

but what he calls lights not ufos and

1140

00:42:35,109 --> 00:42:32,800

he's very clear

1141

00:42:36,790 --> 00:42:35,119

but there have been a few and with

1142

00:42:39,910 --> 00:42:36,800

increasing numbers

1143

00:42:43,030 --> 00:42:39,920

that he and not just he now alone

1144

00:42:46,069 --> 00:42:43,040

he and me and some others have seen

1145

00:42:47,589 --> 00:42:46,079

where there seems to be uh what again

1146

00:42:49,589 --> 00:42:47,599

for lack of a better return i had to

1147

00:42:52,870 --> 00:42:49,599

call ufo was involved

1148

00:42:54,150 --> 00:42:52,880

so in 2001 i was with him as i usually

1149

00:42:56,470 --> 00:42:54,160

am in the summer

1150

00:42:57,910 --> 00:42:56,480

and we were doing an experiment for dr

1151

00:42:59,589 --> 00:42:57,920

william roll that year with

1152

00:43:01,510 --> 00:42:59,599

magnetometers

1153

00:43:03,349 --> 00:43:01,520

we were mapping the the fields in which

1154

00:43:05,990 --> 00:43:03,359

the crop circles had occurred

1155

00:43:07,349 --> 00:43:06,000

to see if we could find any geomagnetic

1156

00:43:09,910 --> 00:43:07,359

or electromagnetic

1157

00:43:11,990 --> 00:43:09,920

aberration in those fields that might

1158

00:43:14,150 --> 00:43:12,000

help us explain what was going on

1159

00:43:16,150 --> 00:43:14,160

and we'd worked for weeks dragging this

1160

00:43:17,910 --> 00:43:16,160

equipment all over the place

1161

00:43:20,069 --> 00:43:17,920

and i was i was tired and i was

1162

00:43:21,750 --> 00:43:20,079

disgusted because unless i was standing

1163

00:43:24,870 --> 00:43:21,760

directly underneath

1164

00:43:27,430 --> 00:43:24,880

cross-country electric pylons that's the

1165

00:43:29,190 --> 00:43:27,440

only time i'd get a strange reading

1166

00:43:31,270 --> 00:43:29,200

and on none of these crop circles in

1167

00:43:33,109 --> 00:43:31,280

holland that year and in this huge field

1168

00:43:35,109 --> 00:43:33,119

out behind robert's home

1169

00:43:36,550 --> 00:43:35,119

where circles appear regularly i

1170

00:43:38,870 --> 00:43:36,560

couldn't find a thing

1171

00:43:39,990 --> 00:43:38,880

so i was disgusted and we came in one

1172

00:43:45,030 --> 00:43:40,000

night this is towards the end

1173

00:43:48,309 --> 00:43:45,040

of my stay and i was tired and

1174

00:43:50,150 --> 00:43:48,319

just disgusted and sick and tired of

1175

00:43:51,270 --> 00:43:50,160

studying i mean we worked so hard for so

1176

00:43:53,430 --> 00:43:51,280

many years

1177

00:43:55,030 --> 00:43:53,440

and i robert wanted to go back out in

1178

00:43:56,710 --> 00:43:55,040

the circles and take photos because he

1179

00:43:57,589 --> 00:43:56,720

gets really weird photos out in these

1180

00:43:59,750 --> 00:43:57,599

circles

1181

00:44:01,030 --> 00:43:59,760

and for him it was just fun you know and

1182

00:44:03,750 --> 00:44:01,040

i was so annoyed i

1183

00:44:04,950 --> 00:44:03,760

i just said no i am sick and tired of

1184

00:44:07,030 --> 00:44:04,960

this phenomenon

1185

00:44:08,550 --> 00:44:07,040

it's too hard to study why in the hell

1186

00:44:11,109 --> 00:44:08,560

can it be more direct

1187

00:44:12,550 --> 00:44:11,119

i'm going to go to bed and so i went

1188

00:44:14,630 --> 00:44:12,560

upstairs and i was staying

1189

00:44:16,470 --> 00:44:14,640

in what was robert's bedroom that year

1190

00:44:17,910 --> 00:44:16,480

at the back of the house he was staying

1191

00:44:20,550 --> 00:44:17,920

in one of the other rooms

1192

00:44:22,309 --> 00:44:20,560

and he stayed down in the kitchen now

1193

00:44:25,349 --> 00:44:22,319

both of these rooms face

1194

00:44:25,829 --> 00:44:25,359

this big field that's right outside the

1195

00:44:31,349 --> 00:44:25,839

back

1196

00:44:33,510 --> 00:44:31,359

in the bedroom there's a little balcony

1197

00:44:36,150 --> 00:44:33,520

with door floor to ceiling glass doors

1198

00:44:38,550 --> 00:44:36,160

that open out onto the balcony which i

1199

00:44:40,470 --> 00:44:38,560

had wide open because it was so hot

1200

00:44:42,790 --> 00:44:40,480

and i got into my nightgown and got into

1201
00:44:43,750 --> 00:44:42,800
bed and the bed faces right out these

1202
00:44:45,109 --> 00:44:43,760
windows

1203
00:44:46,870 --> 00:44:45,119
and i was going to read for a little bit

1204
00:44:49,270 --> 00:44:46,880
you know before i'd go to sleep

1205
00:44:51,270 --> 00:44:49,280
and i started to hear some cattle down

1206
00:44:52,230 --> 00:44:51,280
at the end of this little road that he

1207
00:44:54,470 --> 00:44:52,240
lived on

1208
00:44:55,670 --> 00:44:54,480
and they were bawling and cattle don't

1209
00:44:57,430 --> 00:44:55,680
do that in the middle of the night

1210
00:44:59,270 --> 00:44:57,440
unless they're disturbed

1211
00:45:00,470 --> 00:44:59,280
and i know that because i've talked to

1212
00:45:03,109 --> 00:45:00,480
hundreds of

1213
00:45:05,510 --> 00:45:03,119

farmers about the crop circles on their

1214

00:45:07,829 --> 00:45:05,520

properties and they always tell me

1215

00:45:09,430 --> 00:45:07,839

about how the animals are disturbed if a

1216

00:45:11,430 --> 00:45:09,440

crop circle has happened

1217

00:45:13,349 --> 00:45:11,440

so immediately i thought to myself oh

1218

00:45:15,670 --> 00:45:13,359

something's getting ready to happen

1219

00:45:16,790 --> 00:45:15,680

it's not normal for the cattle but i was

1220

00:45:18,630 --> 00:45:16,800

tired

1221

00:45:20,870 --> 00:45:18,640

how the hell was it so i went back to

1222

00:45:23,109 --> 00:45:20,880

reading the cattle shut up

1223

00:45:24,309 --> 00:45:23,119

and i don't know five ten minutes later

1224

00:45:27,109 --> 00:45:24,319

again they started

1225

00:45:27,589 --> 00:45:27,119

this time it was raucous balling and i

1226

00:45:29,990 --> 00:45:27,599

knew

1227

00:45:31,990 --> 00:45:30,000

something was getting ready to happen as

1228

00:45:35,270 --> 00:45:32,000

i started to swing my legs out

1229

00:45:37,349 --> 00:45:35,280

of the bed suddenly a tube of light

1230

00:45:38,470 --> 00:45:37,359

from my vantage point what is that a

1231

00:45:42,230 --> 00:45:38,480

foot and a half

1232

00:45:45,510 --> 00:45:42,240

crashing down

1233

00:45:47,349 --> 00:45:45,520

i mean the force was unbelievable it lit

1234

00:45:48,630 --> 00:45:47,359

up the field i could see a half a mile

1235

00:45:51,589 --> 00:45:48,640

away across that field

1236

00:45:53,270 --> 00:45:51,599

like daylight it lit my room up i wasn't

1237

00:45:54,069 --> 00:45:53,280

sure if maybe it wasn't coming in the

1238

00:45:56,230 --> 00:45:54,079

bedroom

1239

00:45:58,870 --> 00:45:56,240

i mean it scared the dickens out of me

1240

00:46:01,190 --> 00:45:58,880

but bam this thing comes down

1241

00:46:03,109 --> 00:46:01,200

and it only lasted a couple seconds and

1242

00:46:05,270 --> 00:46:03,119

then it was gone

1243

00:46:06,309 --> 00:46:05,280

and i kind of like damn did i really see

1244

00:46:08,550 --> 00:46:06,319

that or

1245

00:46:09,510 --> 00:46:08,560

and before i could really do anything

1246

00:46:12,390 --> 00:46:09,520

another one

1247

00:46:13,510 --> 00:46:12,400

womp comes crashing down and then a

1248

00:46:16,470 --> 00:46:13,520

third one

1249

00:46:16,870 --> 00:46:16,480

all within seconds of each other yeah by

1250

00:46:19,270 --> 00:46:16,880

now

1251

00:46:20,390 --> 00:46:19,280

robert who's in the kitchen he sees the

1252

00:46:22,390 --> 00:46:20,400

first two

1253

00:46:24,630 --> 00:46:22,400

and he's yelling for me because he wants

1254

00:46:26,630 --> 00:46:24,640

to know if i'm seeing him upstairs

1255

00:46:28,390 --> 00:46:26,640

and he was on his way rushing up the

1256

00:46:29,510 --> 00:46:28,400

stairs to get to me so he didn't see the

1257

00:46:31,349 --> 00:46:29,520

third one

1258

00:46:33,750 --> 00:46:31,359

but he gets to my room and the two of us

1259

00:46:35,430 --> 00:46:33,760

are like oh my god did you just you know

1260

00:46:38,150 --> 00:46:35,440

most dramatic thing either one of us had

1261

00:46:39,670 --> 00:46:38,160

ever seen we went running downstairs the

1262

00:46:40,630 --> 00:46:39,680

whole family's awake now because we're

1263

00:46:42,790 --> 00:46:40,640

yelling

1264

00:46:45,030 --> 00:46:42,800

we get to the back door on the first

1265

00:46:48,069 --> 00:46:45,040

floor and i'm afraid to go out

1266

00:46:50,790 --> 00:46:48,079

the force of those tubes of light

1267

00:46:53,190 --> 00:46:50,800

i mean i just thought uh you get fried

1268

00:46:55,190 --> 00:46:53,200

so robert and i looked up in the sky as

1269

00:46:57,829 --> 00:46:55,200

best we dared we couldn't see a thing up

1270

00:46:59,670 --> 00:46:57,839

there perfectly clear normal sky

1271

00:47:02,230 --> 00:46:59,680

he has a little bit more guts than i he

1272

00:47:04,150 --> 00:47:02,240

stepped out he didn't get fried

1273

00:47:06,230 --> 00:47:04,160

so i grabbed a flashlight and we went

1274

00:47:06,710 --> 00:47:06,240

immediately to a fence at the back of

1275

00:47:09,750 --> 00:47:06,720

his

1276

00:47:11,829 --> 00:47:09,760

80-foot long 90-foot long backyard

1277

00:47:13,349 --> 00:47:11,839

and i shone the light over into this

1278

00:47:16,150 --> 00:47:13,359

string bean field

1279

00:47:18,390 --> 00:47:16,160

immediately on the other side and that

1280

00:47:20,309 --> 00:47:18,400

crop circle had formed in the closest

1281

00:47:24,630 --> 00:47:20,319

growing crop that it could

1282

00:47:27,670 --> 00:47:24,640

to my bed and not only had it done that

1283

00:47:28,710 --> 00:47:27,680

it had made a perfect ellipse with the

1284

00:47:33,030 --> 00:47:28,720

capital letter t

1285

00:47:38,230 --> 00:47:35,910

that's what it did now i couldn't

1286

00:47:40,630 --> 00:47:38,240

believe it and when i saw it i just i

1287

00:47:41,510 --> 00:47:40,640

i was staggered and robert turned to me

1288

00:47:44,950 --> 00:47:41,520

at the fence

1289

00:47:47,190 --> 00:47:44,960

and he said that one was for you

1290

00:47:48,870 --> 00:47:47,200

so be careful what you wish for is part

1291

00:47:51,750 --> 00:47:48,880

of the message here i think

1292

00:47:52,950 --> 00:47:51,760

i mean even seeing that with my own eyes

1293

00:47:56,150 --> 00:47:52,960

it was hard for me

1294

00:47:59,430 --> 00:47:56,160

to absorb what i had seen

1295

00:48:01,430 --> 00:47:59,440

yeah yeah robert sees him all the time

1296

00:48:03,589 --> 00:48:01,440

to him it's not such a big deal but for

1297

00:48:06,069 --> 00:48:03,599

me it was utterly stunning

1298

00:48:07,510 --> 00:48:06,079

and there was i mean anybody who even

1299

00:48:09,750 --> 00:48:07,520

vaguely intimates

1300

00:48:11,270 --> 00:48:09,760

that there was a plank or a board

1301
00:48:13,910 --> 00:48:11,280
anywhere in sight

1302
00:48:15,910 --> 00:48:13,920
is nuts we are in southern and rural

1303
00:48:18,549 --> 00:48:15,920
southern holland in a village

1304
00:48:19,990 --> 00:48:18,559
in a huge farm field you know these

1305
00:48:21,829 --> 00:48:20,000
people they're they're workers

1306
00:48:23,750 --> 00:48:21,839
they're farmers they do not have time to

1307
00:48:26,309 --> 00:48:23,760
be fooling around with nonsense

1308
00:48:27,510 --> 00:48:26,319
yeah i mean these were light tubes that

1309
00:48:30,549 --> 00:48:27,520
were perfectly

1310
00:48:33,109 --> 00:48:30,559
cylindrical no variation whatsoever

1311
00:48:33,990 --> 00:48:33,119
with a spiraling something inside of

1312
00:48:36,630 --> 00:48:34,000
them that both robert

1313
00:48:38,150 --> 00:48:36,640

and i could see wow coming straight down

1314

00:48:41,990 --> 00:48:38,160

with the force of

1315

00:48:45,270 --> 00:48:42,000

i it made me think of those 1920 movies

1316

00:48:47,670 --> 00:48:45,280

uh who's charlie chaplin

1317

00:48:49,589 --> 00:48:47,680

and the heroine or somebody would be on

1318

00:48:50,470 --> 00:48:49,599

a train track with their tied down so

1319

00:48:53,109 --> 00:48:50,480

they couldn't move

1320

00:48:55,190 --> 00:48:53,119

and there's a train coming yeah that's

1321

00:48:57,430 --> 00:48:55,200

what it felt like

1322

00:48:59,750 --> 00:48:57,440

to get the hell off those tracks you

1323

00:49:01,510 --> 00:48:59,760

know the force was just

1324

00:49:03,349 --> 00:49:01,520

it's hard to explain and you i don't

1325

00:49:04,069 --> 00:49:03,359

think you really can i've never seen

1326
00:49:06,069 --> 00:49:04,079
anything

1327
00:49:07,990 --> 00:49:06,079
i've seen a lightning strike this was

1328
00:49:09,829 --> 00:49:08,000
not a lightning strike yeah

1329
00:49:12,150 --> 00:49:09,839
i mean this thing was incredible and

1330
00:49:13,990 --> 00:49:12,160
then several years later i was with him

1331
00:49:16,710 --> 00:49:14,000
i mean again in holland out in the

1332
00:49:18,870 --> 00:49:16,720
fields one night and

1333
00:49:20,309 --> 00:49:18,880
we had just been down in one field and

1334
00:49:22,309 --> 00:49:20,319
there was nothing there

1335
00:49:24,710 --> 00:49:22,319
and we walked up on the dike next to the

1336
00:49:26,230 --> 00:49:24,720
field and suddenly grabbed my arm and he

1337
00:49:27,349 --> 00:49:26,240
turned me around he said look look look

1338
00:49:29,670 --> 00:49:27,359

you see that

1339

00:49:31,910 --> 00:49:29,680

and i looked where he was pointing and i

1340

00:49:32,390 --> 00:49:31,920

didn't see the entire thing he saw a

1341

00:49:35,030 --> 00:49:32,400

dark

1342

00:49:35,589 --> 00:49:35,040

spiral no light phenomena this time a

1343

00:49:37,510 --> 00:49:35,599

dark

1344

00:49:39,430 --> 00:49:37,520

spiral going right down into that field

1345

00:49:42,549 --> 00:49:39,440

where we had just been

1346

00:49:44,470 --> 00:49:42,559

i saw a dark movement

1347

00:49:46,069 --> 00:49:44,480

right at the crop surface i didn't see

1348

00:49:47,910 --> 00:49:46,079

the spiral

1349

00:49:49,510 --> 00:49:47,920

now maybe in my eyes i'm older than he

1350

00:49:50,710 --> 00:49:49,520

is you know i don't know maybe i just

1351

00:49:53,430 --> 00:49:50,720

missed the first part

1352

00:49:55,670 --> 00:49:53,440

but we immediately it only took us 10 15

1353

00:49:57,750 --> 00:49:55,680

20 seconds to get into that field

1354

00:49:58,790 --> 00:49:57,760

and as soon as we walked into it you can

1355

00:50:01,349 --> 00:49:58,800

feel it

1356

00:50:02,470 --> 00:50:01,359

because the grass was flattened where it

1357

00:50:05,510 --> 00:50:02,480

hadn't been

1358

00:50:07,349 --> 00:50:05,520

so i have been present in two cases

1359

00:50:08,710 --> 00:50:07,359

where these have formed right in front

1360

00:50:11,270 --> 00:50:08,720

of me with

1361

00:50:13,270 --> 00:50:11,280

nary a plank or a board anywhere in

1362

00:50:16,390 --> 00:50:13,280

sight

1363

00:50:17,349 --> 00:50:16,400

this is part one of part two and briefly

1364

00:50:18,549 --> 00:50:17,359

can you say what we're going to talk

1365

00:50:20,309 --> 00:50:18,559

about next time and it's going to be

1366

00:50:21,750 --> 00:50:20,319

probably a month or two by the time we

1367

00:50:25,589 --> 00:50:21,760

get back together

1368

00:50:27,670 --> 00:50:25,599

yeah the the the science is only part

1369

00:50:28,870 --> 00:50:27,680

of what we know about the crop circles

1370

00:50:31,270 --> 00:50:28,880

there's a lot more

1371

00:50:32,790 --> 00:50:31,280

and in particular i want to talk about

1372

00:50:35,910 --> 00:50:32,800

this young dutchman

1373

00:50:38,870 --> 00:50:35,920

robert vandenbroek and the events

1374

00:50:39,430 --> 00:50:38,880

which go on around him not only the fact

1375

00:50:40,870 --> 00:50:39,440

that he

1376

00:50:42,069 --> 00:50:40,880

is the only person in the world who

1377

00:50:42,950 --> 00:50:42,079

knows when and where they're going to

1378

00:50:46,710 --> 00:50:42,960

happen

1379

00:50:50,390 --> 00:50:46,720

but this huge range of other

1380

00:50:52,549 --> 00:50:50,400

things the appearance of

1381

00:50:55,190 --> 00:50:52,559

i mean poltergeist activity out of body

1382

00:50:58,069 --> 00:50:55,200

experiences ufos et's

1383

00:51:00,630 --> 00:50:58,079

the photographs of people who have died

1384

00:51:02,790 --> 00:51:00,640

his ability to read

1385

00:51:05,109 --> 00:51:02,800

to affect random number generators his

1386

00:51:08,309 --> 00:51:05,119

ability all of these things

1387

00:51:10,390 --> 00:51:08,319

which many people at the moment

1388

00:51:11,349 --> 00:51:10,400

think of as individual separate

1389

00:51:13,109 --> 00:51:11,359

anomalous

1390

00:51:15,589 --> 00:51:13,119

or they even call them paranormal

1391

00:51:18,230 --> 00:51:15,599

phenomena they're not paranormal

1392

00:51:19,030 --> 00:51:18,240

they are anomalous we don't understand

1393

00:51:20,950 --> 00:51:19,040

them

1394

00:51:22,150 --> 00:51:20,960

but the evidence seems to me to be

1395

00:51:25,190 --> 00:51:22,160

indicating

1396

00:51:27,190 --> 00:51:25,200

that they are all various as yet unknown

1397

00:51:29,109 --> 00:51:27,200

aspects of consciousness

1398

00:51:30,390 --> 00:51:29,119

i can't wait to talk about that and you

1399

00:51:31,670 --> 00:51:30,400

showed me some of the pictures just kind

1400

00:51:34,069 --> 00:51:31,680

of blew me away so

1401

00:51:35,670 --> 00:51:34,079

that'll be our next time and nancy it's

1402

00:51:37,510 --> 00:51:35,680

been absolutely fabulous

1403

00:51:39,670 --> 00:51:37,520

thank you so much thank you for having
