

1
00:00:03,169 --> 00:00:02,389
and it hits me oh my gosh this is that

2
00:00:04,249 --> 00:00:03,179
triangle

3
00:00:05,360 --> 00:00:04,259
you know there's explanation for

4
00:00:07,309 --> 00:00:05,370
everything that occurred in the

5
00:00:09,680 --> 00:00:07,319
Rendlesham forest incident that doesn't

6
00:00:13,190 --> 00:00:09,690
involve aliens at all it was completely

7
00:00:16,039 --> 00:00:13,200
silent it comes right over our head it's

8
00:00:17,810 --> 00:00:16,049
someone that's a flying saucer really

9
00:00:19,400 --> 00:00:17,820
standing in the clearing he turned over

10
00:00:20,689 --> 00:00:19,410
to my father and held his hand and he

11
00:00:27,380 --> 00:00:20,699
looked in his eyes and said we're not

12
00:00:28,429 --> 00:00:27,390
alone welcome to podcast UFO for our

13
00:00:30,830 --> 00:00:28,439

live show

14

00:00:33,020 --> 00:00:30,840

we're live every Wednesday at 8 p.m.

15

00:00:35,540 --> 00:00:33,030

Eastern Standard Time on the dark matter

16

00:00:39,229 --> 00:00:35,550

radio network please remember to visit

17

00:00:42,440 --> 00:00:39,239

the website podcast UFO calm for past

18

00:00:44,420 --> 00:00:42,450

episodes blogs and forums during the

19

00:00:46,910 --> 00:00:44,430

show feel free to participate live in

20

00:00:49,040 --> 00:00:46,920

our chat room and don't forget to like

21

00:00:51,020 --> 00:00:49,050

us on our very active Facebook page

22

00:00:53,299 --> 00:00:51,030

hello and welcome to the show on Martin

23

00:00:56,029 --> 00:00:53,309

Willis your host we have John Tobin

24

00:00:57,920 --> 00:00:56,039

coming up with the news and a sec Andy

25

00:01:00,889 --> 00:00:57,930

Fleming will be joining us for part two

26

00:01:02,420 --> 00:01:00,899

on asteroids and just new technology

27

00:01:05,179 --> 00:01:02,430

that's come out that might just save our

28

00:01:09,350 --> 00:01:05,189

behinds when it comes to asteroids our

29

00:01:12,590 --> 00:01:09,360

guest today is Ryan Maliki he is going

30

00:01:13,850 --> 00:01:12,600

to be talking about incident Exeter and

31

00:01:16,820 --> 00:01:13,860

I don't know if you have time to google

32

00:01:18,710 --> 00:01:16,830

that right now but it is really quite a

33

00:01:20,780 --> 00:01:18,720

fascinating case police department

34

00:01:21,980 --> 00:01:20,790

involved in everything he's a researcher

35

00:01:23,840 --> 00:01:21,990

in the state of New Hampshire we're

36

00:01:26,149 --> 00:01:23,850

gonna be talking about other goings on

37

00:01:28,700 --> 00:01:26,159

go to podcast UFO right now if you're

38

00:01:30,649 --> 00:01:28,710

listening live and sign up on our chat

39

00:01:33,499 --> 00:01:30,659

room you can ask the guest today some

40

00:01:34,789 --> 00:01:33,509

questions or just plain interact it's

41

00:01:38,120 --> 00:01:34,799

always a lot of fun on the chat room

42

00:01:40,100 --> 00:01:38,130

that it's a podcast UFO comm one of the

43

00:01:42,620 --> 00:01:40,110

listeners writes me at least once a

44

00:01:44,179 --> 00:01:42,630

month and says for me to announce out

45

00:01:47,389 --> 00:01:44,189

there for someone to get started on a

46

00:01:49,039 --> 00:01:47,399

podcast UFO Wikipedia article now I

47

00:01:51,260 --> 00:01:49,049

don't know if that's what's involved in

48

00:01:53,210 --> 00:01:51,270

that but if you're a listener out there

49

00:01:55,249 --> 00:01:53,220

he's claiming that it's gonna generate a

50

00:01:57,109 --> 00:01:55,259

lot more listeners if someone wants to

51
00:01:58,880 --> 00:01:57,119
go ahead and do that anything for the

52
00:02:01,340 --> 00:01:58,890
show to move it forward I would

53
00:02:03,950 --> 00:02:01,350
appreciate it it's totally up to you if

54
00:02:06,319 --> 00:02:03,960
you have the time and inclination well

55
00:02:07,969 --> 00:02:06,329
that's all I have for right now next

56
00:02:10,910 --> 00:02:07,979
week we have Judy at mausoleum from the

57
00:02:13,280 --> 00:02:10,920
UFO Watchtower on John how you doing

58
00:02:13,880 --> 00:02:13,290
today I am doing fabulous Martin how are

59
00:02:16,880 --> 00:02:13,890
you

60
00:02:18,410 --> 00:02:16,890
great great it's uh we're both up in the

61
00:02:20,540 --> 00:02:18,420
Northeast here so we've been putting up

62
00:02:21,980 --> 00:02:20,550
with ill though this wretched weather

63
00:02:23,810 --> 00:02:21,990

I'm ready for spring I'm sure you are

64

00:02:25,490 --> 00:02:23,820

too I'm absolutely ready for spring we

65

00:02:27,050 --> 00:02:25,500

did have sort of a glimpse of spring

66

00:02:29,390 --> 00:02:27,060

over this past weekend that went by I

67

00:02:32,720 --> 00:02:29,400

said that was nice yeah that's right it

68

00:02:35,120 --> 00:02:32,730

was 47 degrees we had 50 here which is

69

00:02:37,340 --> 00:02:35,130

amazing I had my course my speedo on

70

00:02:39,620 --> 00:02:37,350

when a wandering down the street yeah

71

00:02:41,810 --> 00:02:39,630

you had done one up and in yeah I did

72

00:02:44,570 --> 00:02:41,820

yeah yeah not again or anything but you

73

00:02:46,580 --> 00:02:44,580

know alright so what's up for the news

74

00:02:48,560 --> 00:02:46,590

this week hey you know what's really

75

00:02:52,550 --> 00:02:48,570

cool we've got some great news on some

76
00:02:53,570 --> 00:02:52,560
new UFO shows coming on that it's great

77
00:02:55,370 --> 00:02:53,580
that time of the year where some of the

78
00:02:57,140 --> 00:02:55,380
new shows are coming out and these ones

79
00:02:58,130 --> 00:02:57,150
sound pretty yeah pretty interesting so

80
00:02:59,540 --> 00:02:58,140
let me let me tell you about some of

81
00:03:02,660 --> 00:02:59,550
these now our guests coming up for April

82
00:03:03,890 --> 00:03:02,670
2nd John venturi of Pennsylvania has

83
00:03:06,170 --> 00:03:03,900
landed the lead role in History

84
00:03:07,850 --> 00:03:06,180
Channel's new series hangar 1 the show

85
00:03:10,699 --> 00:03:07,860
will air Fridays at 10:00 p.m. after

86
00:03:12,980 --> 00:03:10,709
ancient aliens Ventre said I got the

87
00:03:15,890 --> 00:03:12,990
Georgio row only without the hair for

88
00:03:18,800 --> 00:03:15,900

obvious reasons the show hangar 1 is

89

00:03:21,050 --> 00:03:18,810

premiering on February 28th so that

90

00:03:22,580 --> 00:03:21,060

looks to be a really interesting show he

91

00:03:25,370 --> 00:03:22,590

was gonna be great guess we look forward

92

00:03:26,509 --> 00:03:25,380

to having him on and and not a heck of a

93

00:03:27,770 --> 00:03:26,519

lot of details on that but there was

94

00:03:30,530 --> 00:03:27,780

some more details and of course the full

95

00:03:33,590 --> 00:03:30,540

length to this story on our show notes

96

00:03:34,940 --> 00:03:33,600

on the your podcast UFO when he says for

97

00:03:36,560 --> 00:03:34,950

obvious reasons if you look at his

98

00:03:38,630 --> 00:03:36,570

picture he's bald yes yes and I can

99

00:03:40,850 --> 00:03:38,640

relate to that I can't pull off the

100

00:03:43,640 --> 00:03:40,860

george yeo role either way but certainly

101
00:03:45,259 --> 00:03:43,650
not for my hair there's another new show

102
00:03:48,140 --> 00:03:45,269
coming out or it's actually already

103
00:03:50,030 --> 00:03:48,150
started i believe just recently this one

104
00:03:51,590 --> 00:03:50,040
deals with abductions invasions and

105
00:03:52,910 --> 00:03:51,600
conspiracy theories about aliens which

106
00:03:54,620 --> 00:03:52,920
surround our world every day from

107
00:03:57,170 --> 00:03:54,630
nightly news to video games to the

108
00:03:59,810 --> 00:03:57,180
latest box office hit delving into the

109
00:04:02,060 --> 00:03:59,820
photoshopping of space the value of

110
00:04:04,759 --> 00:04:02,070
WikiLeaks in the role social media plays

111
00:04:07,040 --> 00:04:04,769
in alien stories alien files are furs a

112
00:04:08,810 --> 00:04:07,050
unique 360-degree at how alien

113
00:04:11,210 --> 00:04:08,820

interaction may have affected our past

114

00:04:12,800 --> 00:04:11,220

and how it will affect our future and

115

00:04:14,479 --> 00:04:12,810

the source code on this story is from

116

00:04:16,610 --> 00:04:14,489

destination America does air on the

117

00:04:18,710 --> 00:04:16,620

destination American network on

118

00:04:19,580 --> 00:04:18,720

Thursdays at 10:00 p.m. it's a half an

119

00:04:21,710 --> 00:04:19,590

hour show

120

00:04:23,150 --> 00:04:21,720

they are currently airing this show so

121

00:04:25,310 --> 00:04:23,160

you can catch them this Thursday

122

00:04:27,500 --> 00:04:25,320

tomorrow night at 10 p.m. on destination

123

00:04:29,090 --> 00:04:27,510

destination America if you want to

124

00:04:30,920 --> 00:04:29,100

go ahead and check that out you one

125

00:04:32,300 --> 00:04:30,930

thing that caught my eye in here now and

126

00:04:34,280 --> 00:04:32,310

I just heard a little follow-up on this

127

00:04:36,050 --> 00:04:34,290

story actually talking about the value

128

00:04:37,550 --> 00:04:36,060

of WikiLeaks they now have the wiki

129

00:04:41,870 --> 00:04:37,560

depends for anyone that has that problem

130

00:04:44,390 --> 00:04:41,880

so it's that's that's good to know

131

00:04:47,560 --> 00:04:44,400

yeah it's valuable information to add to

132

00:04:50,240 --> 00:04:47,570

that yeah I have that problem so anyway

133

00:04:51,680 --> 00:04:50,250

the the Science Channel there's a new

134

00:04:53,570 --> 00:04:51,690

show coming out with a kind of a

135

00:04:55,880 --> 00:04:53,580

familiar name in the UFO world it's

136

00:04:57,710 --> 00:04:55,890

called Close Encounters Science Channel

137

00:04:59,060 --> 00:04:57,720

will explore the countless UFO sightings

138

00:05:01,010 --> 00:04:59,070

which are reported from thousands of

139

00:05:02,240 --> 00:05:01,020

regions around the globe many of these

140

00:05:03,770 --> 00:05:02,250

sightings are documented and

141

00:05:05,630 --> 00:05:03,780

investigated most of them can be

142

00:05:07,300 --> 00:05:05,640

accounted for by weather patterns flight

143

00:05:10,100 --> 00:05:07,310

schedules or extraordinary imagination

144

00:05:12,350 --> 00:05:10,110

but a select few are considered unsolved

145

00:05:13,970 --> 00:05:12,360

extraterrestrial puzzles that police

146

00:05:16,070 --> 00:05:13,980

investigators government officials and

147

00:05:18,800 --> 00:05:16,080

even medical community communities

148

00:05:21,470 --> 00:05:18,810

cannot explain now Close Encounters /

149

00:05:23,270 --> 00:05:21,480

bears on Tuesday March 4th and Friday

150

00:05:25,670 --> 00:05:23,280

March 7th so I assume they'll be doing

151

00:05:29,090 --> 00:05:25,680

two episodes that week at 10:00 and

152

00:05:30,650 --> 00:05:29,100

10:30 p.m. and that is on science

153

00:05:32,600 --> 00:05:30,660

Channel which is a great Channel I think

154

00:05:37,580 --> 00:05:32,610

and again full link to that story can be

155

00:05:40,040 --> 00:05:37,590

found on the show notes now that show in

156

00:05:42,860 --> 00:05:40,050

particular arterian up in Canada and

157

00:05:44,810 --> 00:05:42,870

there was a lot of people raving about

158

00:05:46,700 --> 00:05:44,820

how good it was you know if you look

159

00:05:48,980 --> 00:05:46,710

online you'll see some you know

160

00:05:51,350 --> 00:05:48,990

naysayers but there's always that but

161

00:05:53,270 --> 00:05:51,360

still from what I understand it's a

162

00:05:55,460 --> 00:05:53,280

pretty good show now I do have to say

163

00:05:59,540 --> 00:05:55,470

that Colby Landrum who is a past guest

164

00:06:01,670 --> 00:05:59,550

on our show did somehow watch the that

165

00:06:03,440 --> 00:06:01,680

episode that involved the cash Landrum

166

00:06:06,290 --> 00:06:03,450

case and he was very upset about

167

00:06:08,330 --> 00:06:06,300

something I don't know well you know

168

00:06:09,920 --> 00:06:08,340

what exactly happened but I believe

169

00:06:11,840 --> 00:06:09,930

there was some inaccuracies that really

170

00:06:13,940 --> 00:06:11,850

bothered him so that show in particular

171

00:06:15,590 --> 00:06:13,950

I'm not sure how clear it was but most

172

00:06:17,000 --> 00:06:15,600

of the shows are pretty good from what I

173

00:06:18,710 --> 00:06:17,010

understand yeah they're getting good

174

00:06:20,810 --> 00:06:18,720

feedback I've done a little bit of

175

00:06:22,100 --> 00:06:20,820

research on the net you know just

176

00:06:23,150 --> 00:06:22,110

looking up and see what the initial

177

00:06:25,490 --> 00:06:23,160

feedback was they're getting pretty good

178

00:06:28,340 --> 00:06:25,500

feedback all things considering I think

179

00:06:30,110 --> 00:06:28,350

some of the you know as opposed to a lot

180

00:06:31,610 --> 00:06:30,120

of the new ghost shows coming out some

181

00:06:33,110 --> 00:06:31,620

of these new UFO shows they're really

182

00:06:34,940 --> 00:06:33,120

looks like they're really taking their

183

00:06:38,120 --> 00:06:34,950

time to do it right and not just put you

184

00:06:39,530 --> 00:06:38,130

know put but crap can we say out there

185

00:06:41,239 --> 00:06:39,540

so they give me something for the viewer

186

00:06:43,219 --> 00:06:41,249

to view and

187

00:06:44,389 --> 00:06:43,229

and dull their teeth into there's some

188

00:06:46,579 --> 00:06:44,399

other great news out there now this is a

189

00:06:47,869 --> 00:06:46,589

this next news story is something that I

190

00:06:49,579 --> 00:06:47,879

have thought about quite a bit it kind

191

00:06:50,719 --> 00:06:49,589

of relates to this whole you know when

192

00:06:52,999 --> 00:06:50,729

we're dreaming

193

00:06:55,879 --> 00:06:53,009

are we really dreaming or is the arc or

194

00:06:57,289 --> 00:06:55,889

conscious state the dream goes into that

195

00:06:59,629 --> 00:06:57,299

a little bit is this universe just a

196

00:07:01,789 --> 00:06:59,639

futuristic simulation who knows but it's

197

00:07:03,439 --> 00:07:01,799

certainly fun to think about is the

198

00:07:06,169 --> 00:07:03,449

universe's simulation is the headline

199

00:07:08,449 --> 00:07:06,179

for the New York Times op-ed which was

200

00:07:10,159 --> 00:07:08,459

written by Edward Frenkel a professor of

201
00:07:12,319 --> 00:07:10,169
mathematics at the University of

202
00:07:14,139 --> 00:07:12,329
California Berkeley Frankel discusses

203
00:07:15,589 --> 00:07:14,149
the unique line of thinking about

204
00:07:17,869 --> 00:07:15,599
mathematicians and philosophers

205
00:07:20,119 --> 00:07:17,879
analyzing the history of this abstract

206
00:07:21,979 --> 00:07:20,129
thought as well as the content concept

207
00:07:24,199 --> 00:07:21,989
that everything we know is a hologram

208
00:07:26,809 --> 00:07:24,209
which I find fascinating Marta what do

209
00:07:28,219 --> 00:07:26,819
you think about that yeah well first I

210
00:07:29,629 --> 00:07:28,229
should say that we're stealing this news

211
00:07:31,809 --> 00:07:29,639
from the work that Peggy does on our

212
00:07:35,299 --> 00:07:31,819
Facebook page and yes I've heard this

213
00:07:37,459 --> 00:07:35,309

this idea or theory for a number of

214

00:07:40,909 --> 00:07:37,469

years you know I mean there's so many

215

00:07:43,669 --> 00:07:40,919

baffling things in the universe who's to

216

00:07:45,619 --> 00:07:43,679

say that this isn't as good of an answer

217

00:07:48,319 --> 00:07:45,629

as a lot of the other ones it really is

218

00:07:49,459 --> 00:07:48,329

a it's really a fascinating concept yeah

219

00:07:52,039 --> 00:07:49,469

it is and I've heard a little bit about

220

00:07:53,959 --> 00:07:52,049

this but I'd certainly you know as more

221

00:07:55,249 --> 00:07:53,969

as delve into it you know one of these

222

00:07:56,239 --> 00:07:55,259

it's one of those theories that it's

223

00:07:58,009 --> 00:07:56,249

probably never gonna be able to be

224

00:07:59,779 --> 00:07:58,019

proven but it's certainly worth looking

225

00:08:01,309 --> 00:07:59,789

into you know who would you say what's

226

00:08:02,809 --> 00:08:01,319

real what's not right right

227

00:08:04,369 --> 00:08:02,819

the next story we've got is an

228

00:08:06,109 --> 00:08:04,379

interesting one too because it's kind of

229

00:08:07,609 --> 00:08:06,119

frightening to me when I we all heard

230

00:08:11,539 --> 00:08:07,619

about the everyone's familiar with the

231

00:08:13,429 --> 00:08:11,549

the Russian asteroid that crashed in in

232

00:08:15,409 --> 00:08:13,439

and injured and hurt you know hundreds

233

00:08:16,999 --> 00:08:15,419

of people about a year ago or so well

234

00:08:19,100 --> 00:08:17,009

this one is about a monster asteroid

235

00:08:21,169 --> 00:08:19,110

whizzing past Earth just a year after

236

00:08:23,029 --> 00:08:21,179

that Russian explosion a gigantic

237

00:08:24,529 --> 00:08:23,039

asteroid is was close to earth around a

238

00:08:27,559 --> 00:08:24,539

year after another exploded over Russia

239

00:08:31,039 --> 00:08:27,569

the space rock which measures about 270

240

00:08:32,809 --> 00:08:31,049

meters 880 feet 880 five feet wide

241

00:08:35,659 --> 00:08:32,819

layman's terms that's a Kardashian but

242

00:08:38,659 --> 00:08:35,669

wide race past the planet at about

243

00:08:41,959 --> 00:08:38,669

27,000 miles per hour 3:00 a.m. Central

244

00:08:44,509 --> 00:08:41,969

eats eet time on Tuesday the asteroid

245

00:08:46,879 --> 00:08:44,519

came with about 1.6 million miles of

246

00:08:49,549 --> 00:08:46,889

Earth which doesn't sound that close but

247

00:08:50,749 --> 00:08:49,559

in terms of asteroids and how far they

248

00:08:52,549 --> 00:08:50,759

hung close they normally come to earth

249

00:08:54,780 --> 00:08:52,559

that's pretty close right it is you know

250

00:08:56,880 --> 00:08:54,790

I mean I'm not sure exactly how far

251

00:08:58,920 --> 00:08:56,890

the furthest satellites are but a lot of

252

00:09:01,590 --> 00:08:58,930

these babies go right through the orbits

253

00:09:03,630 --> 00:09:01,600

of the satellites and yeah it's a little

254

00:09:05,580 --> 00:09:03,640

it's a little close and what always gets

255

00:09:08,100 --> 00:09:05,590

me is usually that's on an elliptical

256

00:09:11,340 --> 00:09:08,110

course that's coming back and you know

257

00:09:13,830 --> 00:09:11,350

actually we have Andy Fleming on the

258

00:09:15,750 --> 00:09:13,840

line and he's gonna be giving us a

259

00:09:19,590 --> 00:09:15,760

follow-up that kind of ties in to these

260

00:09:22,440 --> 00:09:19,600

this asteroid this is part two Andy was

261

00:09:28,100 --> 00:09:22,450

on for part one last week on asteroids

262

00:09:30,780 --> 00:09:28,110

and how you doing Andy fine hello John

263

00:09:33,840 --> 00:09:30,790

we're great and we're glad to have you

264

00:09:35,670 --> 00:09:33,850

on so what's uh there's some new ways to

265

00:09:37,140 --> 00:09:35,680

search asteroids right you want to talk

266

00:09:39,450 --> 00:09:37,150

about that if the people who've been

267

00:09:41,730 --> 00:09:39,460

having trouble with the rosters JPL had

268

00:09:45,030 --> 00:09:41,740

come up with something called synthetic

269

00:09:47,550 --> 00:09:45,040

tracking which is a method that set to

270

00:09:50,460 --> 00:09:47,560

revolutionize near-earth asteroid

271

00:09:53,220 --> 00:09:50,470

discovery it's a new technique it's

272

00:09:54,240 --> 00:09:53,230

gonna work a thousand times faster than

273

00:09:59,970 --> 00:09:54,250

ever before

274

00:10:03,840 --> 00:09:59,980

and today's Martin have a guess how many

275

00:10:08,850 --> 00:10:03,850

of these little asteroids have found all

276

00:10:11,250 --> 00:10:08,860

found yes in our history say if they're

277

00:10:14,670 --> 00:10:11,260

very it's only like one or two percent

278

00:10:18,570 --> 00:10:14,680

of all the asteroids and the answer it's

279

00:10:20,880 --> 00:10:18,580

about 10,000 and of these more than a

280

00:10:23,370 --> 00:10:20,890

thousand are bigger than a kilometer in

281

00:10:26,430 --> 00:10:23,380

size they're not the problem the problem

282

00:10:29,670 --> 00:10:26,440

are the smaller ones which probably

283

00:10:32,160 --> 00:10:29,680

number in their millions it's finding

284

00:10:34,080 --> 00:10:32,170

these small ones it's very very

285

00:10:37,890 --> 00:10:34,090

difficult because they are very very

286

00:10:40,800 --> 00:10:37,900

faint yeah now there's a Gary at the Jet

287

00:10:42,840 --> 00:10:40,810

Propulsion Laboratory in Pasadena a

288

00:10:45,600 --> 00:10:42,850

stone called Michael Chou

289

00:10:48,300 --> 00:10:45,610

who've developed a brand-new way to spot

290

00:10:51,450 --> 00:10:48,310

and track these very faint fast-moving

291

00:10:53,670 --> 00:10:51,460

objects which John has just been on

292

00:10:56,940 --> 00:10:53,680

about very frightening because it came

293

00:10:59,520 --> 00:10:56,950

within a fraction of the lunar distance

294

00:11:01,140 --> 00:10:59,530

from here to the moon this particular

295

00:11:03,540 --> 00:11:01,150

one that John was talking about last

296

00:11:05,310 --> 00:11:03,550

week the week before these guys say that

297

00:11:05,759 --> 00:11:05,320

their new technique could increase the

298

00:11:08,309 --> 00:11:05,769

road

299

00:11:10,139 --> 00:11:08,319

discovery by a factor of a thousand so

300

00:11:12,059 --> 00:11:10,149

hopefully fewer and fewer of these

301

00:11:15,210 --> 00:11:12,069

things will be literally coming out of

302

00:11:17,939 --> 00:11:15,220

the blue waters basically technically

303

00:11:20,460 --> 00:11:17,949

instead of taking a single 30 second

304

00:11:22,590 --> 00:11:20,470

exposure which they do now they're going

305

00:11:25,710 --> 00:11:22,600

to take lots of much shorter exposures

306

00:11:28,619 --> 00:11:25,720

and freeze the position of the

307

00:11:30,720 --> 00:11:28,629

near-earth asteroid in those it'll be

308

00:11:33,419 --> 00:11:30,730

the stars that will look dim rather than

309

00:11:36,929 --> 00:11:33,429

the asteroids and the Comets synthetic

310

00:11:41,429 --> 00:11:36,939

tracking and these sequences of images

311

00:11:43,530 --> 00:11:41,439

of the particular small asteroids will

312

00:11:45,929 --> 00:11:43,540

contain about 120 pictures

313

00:11:48,869 --> 00:11:45,939

plumpie I don't very little about

314

00:11:51,689 --> 00:11:48,879

computers but to get them all morph

315

00:11:54,479 --> 00:11:51,699

together or whatever it uses quite a lot

316

00:11:58,109 --> 00:11:54,489

of computational power per said

317

00:12:00,239 --> 00:11:58,119

currently JPL say it's chicken feed for

318

00:12:02,309 --> 00:12:00,249

today's state-of-the-art computers

319

00:12:04,650 --> 00:12:02,319

they've been using it this tech make on

320

00:12:07,739 --> 00:12:04,660

the 200-inch telescope at the Palomar

321

00:12:10,109 --> 00:12:07,749

Observatory in California and by

322

00:12:12,329 --> 00:12:10,119

repeating the process later the same

323

00:12:14,309 --> 00:12:12,339

night that can get a handle on what

324

00:12:17,299 --> 00:12:14,319

you're just talking about the asteroids

325

00:12:19,829 --> 00:12:17,309

all B's and then follow-up observations

326

00:12:23,340 --> 00:12:19,839

on nights after that should pin down

327

00:12:25,530 --> 00:12:23,350

that orbit accurately probably in the

328

00:12:27,720 --> 00:12:25,540

last five years astronomers have

329

00:12:30,600 --> 00:12:27,730

identified near-earth asteroids with the

330

00:12:33,389 --> 00:12:30,610

size of a few tens of meters at a rate

331

00:12:36,059 --> 00:12:33,399

of only thirty a year so you've been

332

00:12:37,499 --> 00:12:36,069

looking at 30 or 40 thousand a year so

333

00:12:39,480 --> 00:12:37,509

we're gonna get a lot of them sourced

334

00:12:41,939 --> 00:12:39,490

the majority of them and the say

335

00:12:45,359 --> 00:12:41,949

apparently showing it's a man with a

336

00:12:47,669 --> 00:12:45,369

five meter telescope synthetic tracking

337

00:12:50,730 --> 00:12:47,679

should spot about 80 of these objects

338

00:12:53,579 --> 00:12:50,740

every night and NASA is actually hoping

339

00:12:56,850 --> 00:12:53,589

to use the results to send a crude

340

00:12:58,819 --> 00:12:56,860

mission to a near-earth asteroid in a

341

00:13:02,659 --> 00:12:58,829

program called the asteroid Grand

342

00:13:08,009 --> 00:13:02,669

Challenge which will in its self

343

00:13:12,419 --> 00:13:08,019

identify yet more potential targets Andy

344

00:13:14,720 --> 00:13:12,429

now does this mean that b612 is no

345

00:13:16,590 --> 00:13:14,730

longer looking into launching that

346

00:13:18,720 --> 00:13:16,600

telescope they're going to do you happen

347

00:13:19,190 --> 00:13:18,730

to know anything about that all I know

348

00:13:23,060 --> 00:13:19,200

is

349

00:13:26,540 --> 00:13:23,070

b612 we're on target to live in the

350

00:13:29,660 --> 00:13:26,550

decade this to me is you know this is a

351

00:13:31,880 --> 00:13:29,670

ground based venture which right by its

352

00:13:34,490 --> 00:13:31,890

very definition has to be a lot lot

353

00:13:36,950 --> 00:13:34,500

cheaper I mean if you can the state of

354

00:13:39,470 --> 00:13:36,960

today's telescopes like the Keck here's

355

00:13:42,440 --> 00:13:39,480

an adaptive optics and some of the other

356

00:13:45,650 --> 00:13:42,450

big ones you know it's getting to the

357

00:13:49,310 --> 00:13:45,660

stage where we can get things we can

358

00:13:51,140 --> 00:13:49,320

remove theoretically and practically the

359

00:13:53,120 --> 00:13:51,150

Earth's atmosphere to stop that

360

00:13:55,550 --> 00:13:53,130

shimmering the glimmering of stars

361

00:13:59,090 --> 00:13:55,560

twinkle twinkle little star and we can

362

00:14:01,250 --> 00:13:59,100

start making Hubble light images from

363

00:14:03,950 --> 00:14:01,260

telescopes on the ground that's a lot

364

00:14:05,540 --> 00:14:03,960

cheaper it's got a lot less risk than

365

00:14:07,790 --> 00:14:05,550

having to launch that you know but

366

00:14:09,890 --> 00:14:07,800

putting a telescope up on the booster

367

00:14:12,850 --> 00:14:09,900

because to start with the failure at

368

00:14:15,980 --> 00:14:12,860

boosters you know you're putting a

369

00:14:19,340 --> 00:14:15,990

multi-million pound machine into orbit

370

00:14:20,960 --> 00:14:19,350

you're lucky if it gets there right so

371

00:14:21,880 --> 00:14:20,970

Andy thanks a lot and we'll be talking

372

00:14:25,010 --> 00:14:21,890

to you next week

373

00:14:28,040 --> 00:14:25,020

lovely to talk to you guys look forward

374

00:14:30,200 --> 00:14:28,050

to speaking to you next week so John we

375

00:14:32,840 --> 00:14:30,210

really are like a sitting target as all

376

00:14:34,820 --> 00:14:32,850

the craters attest to that it's really

377

00:14:37,550 --> 00:14:34,830

frightening you know it's something that

378

00:14:38,840 --> 00:14:37,560

I don't think about that often but is

379

00:14:42,890 --> 00:14:38,850

more and more this stuff is happening

380

00:14:44,840 --> 00:14:42,900

it's I don't know I mean it seems like

381

00:14:46,990 --> 00:14:44,850

there would be better warning systems

382

00:14:48,560 --> 00:14:47,000

when this comes as close in and you you

383

00:14:50,180 --> 00:14:48,570

oftentimes we're hearing about this

384

00:14:52,100 --> 00:14:50,190

stuff either after the fact or what have

385

00:14:53,990 --> 00:14:52,110

you it is pretty frightening you know

386

00:14:56,030 --> 00:14:54,000

I've heard you know people say look if

387

00:14:57,770 --> 00:14:56,040

we really want to survive as a society

388

00:15:00,410 --> 00:14:57,780

then we should be looking into

389

00:15:02,480 --> 00:15:00,420

off-planet you know put our species out

390

00:15:04,550 --> 00:15:02,490

on different planets just you know to

391

00:15:06,860 --> 00:15:04,560

continue you know in case something like

392

00:15:08,330 --> 00:15:06,870

this happens a major asteroid hits and

393

00:15:10,940 --> 00:15:08,340

we're all wiped out like the dinosaurs

394

00:15:12,230 --> 00:15:10,950

yeah it kind of goes hand-in-hand with a

395

00:15:13,850 --> 00:15:12,240

lot of the folks that are doing what

396

00:15:14,990 --> 00:15:13,860

they call doomsday prepping you know

397

00:15:18,470 --> 00:15:15,000

they're they're doing they're planning

398

00:15:21,200 --> 00:15:18,480

for catastrophes and and and things that

399

00:15:22,910 --> 00:15:21,210

we can't control so yeah it does kind of

400

00:15:24,980 --> 00:15:22,920

you know there's something to be said

401
00:15:26,510 --> 00:15:24,990
for that well I think well all we have

402
00:15:28,280 --> 00:15:26,520
to do is really hitch a ride on a UFO

403
00:15:28,970 --> 00:15:28,290
and see where they're going see where

404
00:15:30,770 --> 00:15:28,980
they came from

405
00:15:32,540 --> 00:15:30,780
hey so thanks so much John and we'll be

406
00:15:33,020 --> 00:15:32,550
talking to you next week sounds great

407
00:15:33,890 --> 00:15:33,030
I'm mark

408
00:15:36,860 --> 00:15:33,900
looking forward to it thank you for

409
00:15:39,260 --> 00:15:36,870
having me and we have Ryan Moll a heat

410
00:16:48,580 --> 00:15:39,270
coming right up after the music break

411
00:16:53,270 --> 00:16:51,260
well this is always one of those fears

412
00:16:56,330 --> 00:16:53,280
that you know can happen when you're

413
00:16:58,880 --> 00:16:56,340

doing live radio and Orion if you happen

414

00:17:02,620 --> 00:16:58,890

to be listening you should be calling in

415

00:17:06,880 --> 00:17:02,630

he was supposed to call promptly at 816

416

00:17:09,559 --> 00:17:06,890

its 817 so here I am all alone here and

417

00:17:12,530 --> 00:17:09,569

waiting for Ryan to call which should be

418

00:17:15,079 --> 00:17:12,540

any moment right now and so we have a

419

00:17:17,329 --> 00:17:15,089

lot of people on the message board and I

420

00:17:20,179 --> 00:17:17,339

encourage you to go on the message board

421

00:17:21,949 --> 00:17:20,189

right now and that's at podcast UFO comm

422

00:17:24,110 --> 00:17:21,959

and why don't you throw me a question

423

00:17:26,030 --> 00:17:24,120

why don't you do that so I can at least

424

00:17:28,570 --> 00:17:26,040

talk to out there right now tonight

425

00:17:31,940 --> 00:17:28,580

we're going to be talking about the

426

00:17:33,980 --> 00:17:31,950

Exeter incident here is Ryan now Saved

427

00:17:37,880 --> 00:17:33,990

by the Bell and here he is

428

00:17:39,680 --> 00:17:37,890

Ryan maluhia how are you I'm good good

429

00:17:41,720 --> 00:17:39,690

we were you know I was a little worried

430

00:17:43,640 --> 00:17:41,730

about you here cuz you know the music

431

00:17:46,190 --> 00:17:43,650

ended and there was no Ryan on board oh

432

00:17:48,290 --> 00:17:46,200

I'm sorry actually I did must have been

433

00:17:52,340 --> 00:17:48,300

a delay on my computer I apologize oh

434

00:17:54,170 --> 00:17:52,350

you know that they could be can you get

435

00:17:56,510 --> 00:17:54,180

a little closer to the phone please just

436

00:17:59,650 --> 00:17:56,520

we're here you know from the producer

437

00:18:01,550 --> 00:17:59,660

that you're not not quite loud enough

438

00:18:05,060 --> 00:18:01,560

yeah that sounds good

439

00:18:07,820 --> 00:18:05,070

that sounds good alright so Ryan before

440

00:18:10,910 --> 00:18:07,830

we get talking about today's you know

441

00:18:13,370 --> 00:18:10,920

topic incident Exeter Exeter incident

442

00:18:14,630 --> 00:18:13,380

whatever it's called back in 1965 can

443

00:18:16,400 --> 00:18:14,640

you give the listener a little

444

00:18:18,590 --> 00:18:16,410

background first of all I want to say if

445

00:18:21,800 --> 00:18:18,600

you're listening live please jump over

446

00:18:23,720 --> 00:18:21,810

to podcast UFO comm and get on the

447

00:18:27,500 --> 00:18:23,730

message board and fire some questions

448

00:18:29,750 --> 00:18:27,510

away and so I'd like to know how you got

449

00:18:31,220 --> 00:18:29,760

involved you're kind of a young guy or

450

00:18:34,640 --> 00:18:31,230

you appear to be how did you get

451
00:18:38,090 --> 00:18:34,650
involved in the UFO phenomena and the in

452
00:18:40,460 --> 00:18:38,100
the beginning actually you know I got an

453
00:18:42,680 --> 00:18:40,470
interest my whole life you know growing

454
00:18:48,320 --> 00:18:42,690
up you know kind of a passing interest

455
00:18:49,820 --> 00:18:48,330
and in the winter in 1998-99 I had a UFO

456
00:18:52,250 --> 00:18:49,830
sighting in New Hampshire with two

457
00:18:54,120 --> 00:18:52,260
acquaintances that you know was pretty

458
00:18:56,220 --> 00:18:54,130
compelling and you know got me

459
00:18:58,860 --> 00:18:56,230
the subject so that was you know really

460
00:19:02,160 --> 00:18:58,870
the catalyst for me starting to you know

461
00:19:03,810 --> 00:19:02,170
research UFOs in New England and

462
00:19:05,790 --> 00:19:03,820
specifically New Hampshire so that

463
00:19:08,340 --> 00:19:05,800

that's how I got started I see now did

464

00:19:10,200 --> 00:19:08,350

your friends actually also get kind of

465

00:19:13,560 --> 00:19:10,210

involved in looking into the subject

466

00:19:15,600 --> 00:19:13,570

actually they didn't they you know they

467

00:19:17,850 --> 00:19:15,610

were acquaintances they weren't ultra

468

00:19:19,980 --> 00:19:17,860

close friends of mine and you know it's

469

00:19:22,260 --> 00:19:19,990

something that I've you know followed up

470

00:19:23,910 --> 00:19:22,270

with them over the years but they didn't

471

00:19:25,140 --> 00:19:23,920

kind of have the same reaction as me

472

00:19:27,390 --> 00:19:25,150

uh-huh

473

00:19:30,630 --> 00:19:27,400

now can you just give a real quick

474

00:19:34,170 --> 00:19:30,640

description and of the sighting sure of

475

00:19:37,200 --> 00:19:34,180

my sighting yeah sure we were traveling

476
00:19:40,640 --> 00:19:37,210
on route 13 returning from a trip to New

477
00:19:44,400 --> 00:19:40,650
Hampshire returning to Massachusetts and

478
00:19:47,160 --> 00:19:44,410
basically driving it was late winter it

479
00:19:49,710 --> 00:19:47,170
was you know still laid out but it was

480
00:19:51,240 --> 00:19:49,720
just starting to start getting dark but

481
00:19:54,330 --> 00:19:51,250
the Sun was still out and basically we

482
00:19:57,240 --> 00:19:54,340
were driving down Route 113 sorry route

483
00:20:00,330 --> 00:19:57,250
13 and we basically saw an object in the

484
00:20:02,910 --> 00:20:00,340
sky not too far off of the road above

485
00:20:06,480 --> 00:20:02,920
the treeline which appeared to go down

486
00:20:09,510 --> 00:20:06,490
into the woods it was a you know very

487
00:20:12,510 --> 00:20:09,520
odd looking object pretty hard to

488
00:20:14,460 --> 00:20:12,520

describe and it was just very quick we

489

00:20:17,360 --> 00:20:14,470

saw it go straight down into woods there

490

00:20:19,710 --> 00:20:17,370

was no sound and that was basically it

491

00:20:22,470 --> 00:20:19,720

yeah you know the the one thing that

492

00:20:25,770 --> 00:20:22,480

really threw me when I had my sighting

493

00:20:27,630 --> 00:20:25,780

back in 2006 was the fact that what I

494

00:20:29,880 --> 00:20:27,640

saw had no sound and it was like it just

495

00:20:33,180 --> 00:20:29,890

didn't make any sense you know yeah I

496

00:20:35,850 --> 00:20:33,190

think that's the one thing that until if

497

00:20:38,250 --> 00:20:35,860

you're not into UFOs and you don't hear

498

00:20:39,840 --> 00:20:38,260

other people say that you have no idea

499

00:20:42,920 --> 00:20:39,850

that that's what's going to happen and

500

00:20:45,540 --> 00:20:42,930

it really takes you back you know

501
00:20:48,750 --> 00:20:45,550
you know in ours it was daytime too

502
00:20:51,120 --> 00:20:48,760
which you know having it be still light

503
00:20:53,580 --> 00:20:51,130
out you know and seeing what we saw you

504
00:20:55,080 --> 00:20:53,590
know it was it just you know we we

505
00:20:57,090 --> 00:20:55,090
didn't have the you know the shade of

506
00:20:59,730 --> 00:20:57,100
night the kind of you know and the thing

507
00:21:01,890 --> 00:20:59,740
we saw was in fairly close proximity it

508
00:21:03,270 --> 00:21:01,900
wasn't often the distance in the sky so

509
00:21:06,570 --> 00:21:03,280
it was you know it's pretty compelling

510
00:21:07,500 --> 00:21:06,580
now before we get into incident Exeter

511
00:21:10,260 --> 00:21:07,510
which

512
00:21:12,630 --> 00:21:10,270
saying we're gonna do um I went jumped

513
00:21:17,580 --> 00:21:12,640

on your blog which is New Hampshire UFO

514

00:21:22,020 --> 00:21:17,590

research I believe it is and interesting

515

00:21:24,330 --> 00:21:22,030

and I saw the the photo that you know

516

00:21:27,450 --> 00:21:24,340

I'm in the antiques and Fine Arts and

517

00:21:29,910 --> 00:21:27,460

all that you know for it's a passion of

518

00:21:32,600 --> 00:21:29,920

mine and all that and I really was

519

00:21:36,780 --> 00:21:32,610

intrigued by this cigar-shaped photo

520

00:21:39,990 --> 00:21:36,790

stereopticon view card that was I think

521

00:21:42,180 --> 00:21:40,000

in the 1870s and when I first saw that I

522

00:21:43,740 --> 00:21:42,190

go oh my well that's an early photo and

523

00:21:46,170 --> 00:21:43,750

you know I wondered all about that now

524

00:21:49,080 --> 00:21:46,180

can you you crack that that was uh it

525

00:21:52,010 --> 00:21:49,090

was not a hoax but it was it was not in

526

00:21:55,320 --> 00:21:52,020

the sky it was actually on a frozen

527

00:21:58,380 --> 00:21:55,330

mountain or something was in Washington

528

00:22:02,820 --> 00:21:58,390

it wasn't my Washington yeah so that

529

00:22:05,520 --> 00:22:02,830

case basically what it is is in 2002 a

530

00:22:07,620 --> 00:22:05,530

photo was purchased from eBay by a

531

00:22:10,200 --> 00:22:07,630

gentleman called me and Samuel Sherman

532

00:22:11,910 --> 00:22:10,210

who purchased the photo in question from

533

00:22:14,550 --> 00:22:11,920

eBay

534

00:22:17,370 --> 00:22:14,560

you know alleged that it was a UFO photo

535

00:22:19,140 --> 00:22:17,380

you know did a couple interviews or

536

00:22:21,060 --> 00:22:19,150

there was a few articles about it and

537

00:22:21,480 --> 00:22:21,070

you know just having to be in New

538

00:22:26,370 --> 00:22:21,490

Hampshire

539

00:22:28,800 --> 00:22:26,380

was always intrigued by it so initially

540

00:22:31,920 --> 00:22:28,810

the only version of the photo that was

541

00:22:35,640 --> 00:22:31,930

available was a highly cropped low res

542

00:22:37,710 --> 00:22:35,650

version of the photo so all you could

543

00:22:39,930 --> 00:22:37,720

really see is some white swirling in the

544

00:22:43,080 --> 00:22:39,940

background and then this cigar C shaped

545

00:22:45,570 --> 00:22:43,090

object so that was really in 2002 that

546

00:22:49,230 --> 00:22:45,580

was about all the information you know

547

00:22:51,510 --> 00:22:49,240

that was available but you know it was

548

00:22:52,830 --> 00:22:51,520

something I went to back to from time to

549

00:22:55,710 --> 00:22:52,840

time and there's a number of other

550

00:22:57,000 --> 00:22:55,720

people who have done articles and

551
00:22:58,770 --> 00:22:57,010
written about it and you know I

552
00:23:00,960 --> 00:22:58,780
reference some of those people in my

553
00:23:02,430 --> 00:23:00,970
article because you know if you know I

554
00:23:03,780 --> 00:23:02,440
don't want to take all the credit for it

555
00:23:07,760 --> 00:23:03,790
there's a bunch of different people that

556
00:23:09,990 --> 00:23:07,770
have looked into it and you know I

557
00:23:12,630 --> 00:23:10,000
basically just kept at it but what I

558
00:23:15,960 --> 00:23:12,640
discovered in 2008 was that the New York

559
00:23:19,080 --> 00:23:15,970
Public Library had the full set of these

560
00:23:21,210 --> 00:23:19,090
photos and what had happened was in 1870

561
00:23:24,690 --> 00:23:21,220
there was an expedition to the top of

562
00:23:28,140 --> 00:23:24,700
Washington by the Army Signal Corps and

563
00:23:30,029 --> 00:23:28,150

some scientists and they took two

564

00:23:33,720 --> 00:23:30,039

photographers up to the top of them to

565

00:23:36,510 --> 00:23:33,730

document it and they took a 41 photo

566

00:23:38,510 --> 00:23:36,520

picture set which is where this you know

567

00:23:41,520 --> 00:23:38,520

picture in question came from and so

568

00:23:43,529 --> 00:23:41,530

once I located the actual set of photos

569

00:23:45,000 --> 00:23:43,539

and looked at the photo that had been

570

00:23:47,549 --> 00:23:45,010

knocked cropped and that was in full

571

00:23:49,770 --> 00:23:47,559

resolution it's very clear that it's an

572

00:23:52,380 --> 00:23:49,780

object that's in a pile of snow on the

573

00:23:55,130 --> 00:23:52,390

surface of the mountain and not an

574

00:23:57,899 --> 00:23:55,140

object in the clouds as it was alleged

575

00:23:59,700 --> 00:23:57,909

right and you can't really see that

576

00:24:03,570 --> 00:23:59,710

right off the bat I mean that's that's

577

00:24:06,000 --> 00:24:03,580

pretty tricky so getting back to Exeter

578

00:24:09,330 --> 00:24:06,010

incident I I grew up oh I don't know

579

00:24:12,570 --> 00:24:09,340

maybe ten miles away or 15 miles away

580

00:24:14,880 --> 00:24:12,580

from Exeter and right right not too far

581

00:24:17,490 --> 00:24:14,890

away from Portsmouth New Hampshire and I

582

00:24:20,340 --> 00:24:17,500

vaguely remember hearing about this

583

00:24:23,310 --> 00:24:20,350

cause I was very young but back at that

584

00:24:25,860 --> 00:24:23,320

time back in 1965 I mean I was really

585

00:24:27,770 --> 00:24:25,870

young but back in that time there was a

586

00:24:30,510 --> 00:24:27,780

lot going on in that whole area

587

00:24:31,680 --> 00:24:30,520

everybody was looking for UFOs everybody

588

00:24:34,890 --> 00:24:31,690

was talking about him

589

00:24:37,799 --> 00:24:34,900

and you heard about Betty and Barney

590

00:24:40,680 --> 00:24:37,809

Hill of course and so there was a lot

591

00:24:43,440 --> 00:24:40,690

lot going on so why don't you for the

592

00:24:45,480 --> 00:24:43,450

person that's never heard about incident

593

00:24:46,890 --> 00:24:45,490

Exeter why don't you just start from the

594

00:24:51,630 --> 00:24:46,900

beginning and tell the whole story

595

00:24:54,270 --> 00:24:51,640

sure so it was September 3rd 1965 and

596

00:24:56,730 --> 00:24:54,280

Norman muscarello who was an 18 year old

597

00:25:00,690 --> 00:24:56,740

young man was hit by hitchhiking back

598

00:25:05,580 --> 00:25:00,700

from Amesbury Massachusetts on route 150

599

00:25:07,380 --> 00:25:05,590

to Exeter where he lived at some point

600

00:25:09,840 --> 00:25:07,390

in his journey he was hitchhiking pretty

601
00:25:12,120 --> 00:25:09,850
late at night so at one point he got to

602
00:25:14,039 --> 00:25:12,130
the town called Kensington which

603
00:25:16,950 --> 00:25:14,049
actually the UFO incident actually

604
00:25:19,140 --> 00:25:16,960
happened in Kensington but because it

605
00:25:20,640 --> 00:25:19,150
was so close to Exeter they call it the

606
00:25:23,399 --> 00:25:20,650
incident and Exeter but it actually took

607
00:25:25,799 --> 00:25:23,409
place in Kensington so as Norman was

608
00:25:30,210 --> 00:25:25,809
hiking home and he was walking by a farm

609
00:25:32,279 --> 00:25:30,220
a red glowing object appeared over the

610
00:25:34,980 --> 00:25:32,289
farm and started swooping down at him

611
00:25:37,470 --> 00:25:34,990
and he became frightened Oh

612
00:25:40,440 --> 00:25:37,480
and douve next to a wall to you know

613
00:25:42,510 --> 00:25:40,450

shield himself and then tried to bang on

614

00:25:43,919 --> 00:25:42,520

the door of the farmhouse the people

615

00:25:47,640 --> 00:25:43,929

wouldn't let him in because he was very

616

00:25:49,799 --> 00:25:47,650

frantic and so he was able to then flag

617

00:25:54,120 --> 00:25:49,809

a car down and have them bring him

618

00:25:57,750 --> 00:25:54,130

directly to Exeter police station now at

619

00:26:00,060 --> 00:25:57,760

just about the same time officer Eugene

620

00:26:04,320 --> 00:26:00,070

Bertrand was on patrol and he came upon

621

00:26:06,180 --> 00:26:04,330

a car on route 101 that had two women in

622

00:26:07,919 --> 00:26:06,190

it that were very frightened and that

623

00:26:11,310 --> 00:26:07,929

claimed that a red object had been

624

00:26:12,570 --> 00:26:11,320

swooping down at their car so you know

625

00:26:16,260 --> 00:26:12,580

Norman showed up at the police station

626
00:26:18,690 --> 00:26:16,270
and told scratch : who was the dispatch

627
00:26:21,060 --> 00:26:18,700
his story and then all of a sudden

628
00:26:23,510 --> 00:26:21,070
Eugene Bertrand is calling in you know

629
00:26:25,740 --> 00:26:23,520
with this story about the lady so

630
00:26:27,480 --> 00:26:25,750
because of those reasons I think you

631
00:26:29,280 --> 00:26:27,490
know the cops were you know they gave

632
00:26:31,650 --> 00:26:29,290
they gave it a bit of credence and they

633
00:26:33,360 --> 00:26:31,660
knew Norman and he was kind of known as

634
00:26:36,870 --> 00:26:33,370
a tough no-nonsense kid and he was

635
00:26:38,970 --> 00:26:36,880
pretty shaken up so officer Bertrand

636
00:26:41,970 --> 00:26:38,980
returned to the police station retrieved

637
00:26:44,850 --> 00:26:41,980
Norman they both went back out to the

638
00:26:46,980 --> 00:26:44,860

field where Norman had his sighting and

639

00:26:48,750 --> 00:26:46,990

when they got there they went out into

640

00:26:51,240 --> 00:26:48,760

the middle of field and sure enough the

641

00:26:54,210 --> 00:26:51,250

UFO came up over the trees and was right

642

00:26:57,120 --> 00:26:54,220

over Norman and officer Bertrand right

643

00:26:58,740 --> 00:26:57,130

in the field now officer Bertrand was so

644

00:27:02,520 --> 00:26:58,750

frightened that he dropped it was me and

645

00:27:05,310 --> 00:27:02,530

pulled his gun and but then you know was

646

00:27:07,560 --> 00:27:05,320

worried about radiation because in both

647

00:27:09,810 --> 00:27:07,570

the case when the UFO showed up first

648

00:27:12,600 --> 00:27:09,820

for Norman at the farm and when he went

649

00:27:14,820 --> 00:27:12,610

back with officer Bertrand the whole

650

00:27:18,180 --> 00:27:14,830

field turned red and there was an animal

651
00:27:20,880 --> 00:27:18,190
reaction from the animals of the farm so

652
00:27:23,430 --> 00:27:20,890
officer Bertrand grabbed Norman brought

653
00:27:26,070 --> 00:27:23,440
him back up to the cruiser he called in

654
00:27:28,799 --> 00:27:26,080
saying he saw the UFO as well and

655
00:27:31,860 --> 00:27:28,809
officer David hunt was already and route

656
00:27:33,299 --> 00:27:31,870
to the scene he showed up and then for

657
00:27:35,549 --> 00:27:33,309
the next eight or nine minutes

658
00:27:37,560 --> 00:27:35,559
officer hunt and Bertrand stood there

659
00:27:41,790 --> 00:27:37,570
you know going through every possible

660
00:27:43,470 --> 00:27:41,800
thing that it could be you know and just

661
00:27:45,120 --> 00:27:43,480
not being able to come with any

662
00:27:47,000 --> 00:27:45,130
conventional explanation for what they

663
00:27:51,410 --> 00:27:47,010

were seeing so

664

00:27:53,920 --> 00:27:51,420

that that's the thumbnail on it now

665

00:27:57,470 --> 00:27:53,930

there were other there were other

666

00:28:00,110 --> 00:27:57,480

sightings as well in the area during

667

00:28:02,870 --> 00:28:00,120

this week uh well there was there was a

668

00:28:06,110 --> 00:28:02,880

good amount of sightings leading up to

669

00:28:09,290 --> 00:28:06,120

it and then also that night there was

670

00:28:12,320 --> 00:28:09,300

also another report because when they

671

00:28:14,270 --> 00:28:12,330

finally returned after the officer

672

00:28:15,440 --> 00:28:14,280

Bertrand in Norman having the sighting

673

00:28:17,480 --> 00:28:15,450

when they returned to the police station

674

00:28:21,050 --> 00:28:17,490

they actually had a call patch through

675

00:28:23,900 --> 00:28:21,060

from I believe it was the local operator

676
00:28:25,730 --> 00:28:23,910
that a frantic man called from Hampton

677
00:28:28,760 --> 00:28:25,740
saying that there was some sort of UFO

678
00:28:30,500 --> 00:28:28,770
over his car and the officers actually

679
00:28:32,810 --> 00:28:30,510
went as far as to go to the hospital

680
00:28:35,390 --> 00:28:32,820
either late that night of the next day

681
00:28:38,180 --> 00:28:35,400
to see if you know possibly anybody

682
00:28:39,830 --> 00:28:38,190
there you know had been hurt or you know

683
00:28:43,310 --> 00:28:39,840
had been admitted for anything like that

684
00:28:45,350 --> 00:28:43,320
so you know if if we count all those

685
00:28:47,480 --> 00:28:45,360
that's about five or six people within a

686
00:28:50,690 --> 00:28:47,490
you know a few hours time that night and

687
00:28:52,700 --> 00:28:50,700
there also had been you know a good

688
00:28:55,430 --> 00:28:52,710

amount of sightings at Pease also by the

689

00:28:58,340 --> 00:28:55,440

Coast Guard in that area right where I

690

00:29:01,040 --> 00:28:58,350

lived I could actually see the landing

691

00:29:02,930 --> 00:29:01,050

strip at Pease so it was always there

692

00:29:06,500 --> 00:29:02,940

was always a and I was across the river

693

00:29:08,030 --> 00:29:06,510

and actually main but up on a hill we

694

00:29:10,250 --> 00:29:08,040

had a house up on a hill and could see

695

00:29:11,480 --> 00:29:10,260

right over there and we were always

696

00:29:13,580 --> 00:29:11,490

looking over there to see if we could

697

00:29:15,710 --> 00:29:13,590

see any UFOs because there was always

698

00:29:18,980 --> 00:29:15,720

stories about them over there yeah

699

00:29:22,970 --> 00:29:18,990

Norman must Guerrero Mescalero or have

700

00:29:25,540 --> 00:29:22,980

you see his name is he is he still with

701
00:29:28,370 --> 00:29:25,550
us and does he does he talk about this

702
00:29:33,080 --> 00:29:28,380
unfortunately Norman passed away I

703
00:29:36,560 --> 00:29:33,090
believe it was either 2003 or 2005 he

704
00:29:40,400 --> 00:29:36,570
passed away so he's no longer with us

705
00:29:43,520 --> 00:29:40,410
but his brother is still lives in Exeter

706
00:29:45,160 --> 00:29:43,530
and you know I've met him before he's a

707
00:29:47,930 --> 00:29:45,170
very nice guy and you know he's still

708
00:29:49,940 --> 00:29:47,940
you know we'll talk about it because he

709
00:29:52,340 --> 00:29:49,950
was you know a younger kid at the time

710
00:29:55,190 --> 00:29:52,350
and you know he has pretty vivid

711
00:29:57,200 --> 00:29:55,200
memories of the aftermath you know of of

712
00:29:59,780 --> 00:29:57,210
everything with the press and the

713
00:30:00,710 --> 00:29:59,790

military coming and you know talking to

714

00:30:03,950 --> 00:30:00,720

Norman

715

00:30:07,970 --> 00:30:03,960

mother so Sofia's still around and I

716

00:30:11,320 --> 00:30:07,980

believe that as far as the officers I

717

00:30:15,080 --> 00:30:11,330

believe that they have both passed away

718

00:30:17,510 --> 00:30:15,090

now I remember hearing a when I heard

719

00:30:19,520 --> 00:30:17,520

about the story was long before I

720

00:30:21,560 --> 00:30:19,530

actually ever really got really

721

00:30:23,419 --> 00:30:21,570

interested in UFOs after I had my

722

00:30:26,029 --> 00:30:23,429

sighting so I would say that it was

723

00:30:28,580 --> 00:30:26,039

sometime in high school I either read

724

00:30:31,070 --> 00:30:28,590

something but I remember hearing that

725

00:30:32,899 --> 00:30:31,080

Norman when he went to the police

726

00:30:36,470 --> 00:30:32,909

station they just plain-old didn't

727

00:30:39,560 --> 00:30:36,480

believe him at all and but they saw how

728

00:30:40,970 --> 00:30:39,570

panicked he was and he just wouldn't let

729

00:30:42,590 --> 00:30:40,980

go of it and that's when they finally

730

00:30:45,830 --> 00:30:42,600

you know took some action and and

731

00:30:48,860 --> 00:30:45,840

actually you know investigated a little

732

00:30:51,710 --> 00:30:48,870

bit yeah I think it was a combination of

733

00:30:53,630 --> 00:30:51,720

you know them knowing him as a tough

734

00:30:55,820 --> 00:30:53,640

young guy being so scared and then the

735

00:30:58,669 --> 00:30:55,830

fact that you know this completely

736

00:31:00,799 --> 00:30:58,679

independent report from these two ladies

737

00:31:03,049 --> 00:31:00,809

that officer Bertrand you know the

738

00:31:06,289 --> 00:31:03,059

description fit what Norman had

739

00:31:07,909 --> 00:31:06,299

described so I'm not sure as to how much

740

00:31:09,409 --> 00:31:07,919

they believed them or didn't believe him

741

00:31:11,210 --> 00:31:09,419

at the time I'm sure that they were

742

00:31:12,830 --> 00:31:11,220

probably very skeptical of it but I

743

00:31:14,870 --> 00:31:12,840

think it was because of those two

744

00:31:17,090 --> 00:31:14,880

reasons that they followed up on it

745

00:31:19,279 --> 00:31:17,100

you know you always hear when there's

746

00:31:21,830 --> 00:31:19,289

any type of major internet okay if it's

747

00:31:23,810 --> 00:31:21,840

Roswell or real know some forest or

748

00:31:26,659 --> 00:31:23,820

anything like that you always hear the

749

00:31:29,360 --> 00:31:26,669

skeptics you know their trial on

750

00:31:33,039 --> 00:31:29,370

debunking whatever incident it is in

751
00:31:37,039 --> 00:31:33,049
this one oh my god - when you read The

752
00:31:39,380 --> 00:31:37,049
Skeptical Inquirer explanation when they

753
00:31:43,310 --> 00:31:39,390
say that it was a refueling of a tanker

754
00:31:45,799 --> 00:31:43,320
and that it had lights like that and

755
00:31:48,200 --> 00:31:45,809
that's that's he the blunt explanation

756
00:31:50,000 --> 00:31:48,210
of what they were seeing and then you

757
00:31:51,799 --> 00:31:50,010
hear about the whole story of it and it

758
00:31:52,669 --> 00:31:51,809
doesn't add up at all it doesn't even

759
00:31:55,700 --> 00:31:52,679
come close

760
00:31:58,760 --> 00:31:55,710
I'm glad you brought that up yes you

761
00:32:01,460 --> 00:31:58,770
know I'm familiar with that article and

762
00:32:05,600 --> 00:32:01,470
you know it's it's very troubling

763
00:32:07,909 --> 00:32:05,610

because you know I've read the article

764

00:32:11,000 --> 00:32:07,919

and Joe Nickell and James and the guy

765

00:32:13,220 --> 00:32:11,010

believe wrote it and you know it's just

766

00:32:14,090 --> 00:32:13,230

very clear just having studied this case

767

00:32:17,299 --> 00:32:14,100

for Olmos

768

00:32:19,279 --> 00:32:17,309

fifteen years now when you read you know

769

00:32:21,409 --> 00:32:19,289

their explanation of the case there's

770

00:32:23,539 --> 00:32:21,419

just there's so many holes and that

771

00:32:25,490 --> 00:32:23,549

there's so many things that don't jive

772

00:32:28,820 --> 00:32:25,500

with the documented facts of the case

773

00:32:30,740 --> 00:32:28,830

that you know it is it's very troubling

774

00:32:33,620 --> 00:32:30,750

and you know the first thing that we

775

00:32:36,710 --> 00:32:33,630

have to consider is that Eugene Bertrand

776

00:32:39,560 --> 00:32:36,720

the officer he was a veteran of the

777

00:32:43,760 --> 00:32:39,570

Korean War he had four years refuelling

778

00:32:46,460 --> 00:32:43,770

experience with kc-97 refueling planes

779

00:32:49,490 --> 00:32:46,470

which is what the skeptical inquirer

780

00:32:53,810 --> 00:32:49,500

tried to claim that the officers at

781

00:32:55,789 --> 00:32:53,820

norman you know saw David Hunt was in

782

00:32:58,820 --> 00:32:55,799

the Army Reserve for four years he spent

783

00:33:00,409 --> 00:32:58,830

31 years in law enforcement well after

784

00:33:05,149 --> 00:33:00,419

you know the incident these guys were

785

00:33:07,430 --> 00:33:05,159

both very intelligent veterans who you

786

00:33:09,919 --> 00:33:07,440

know patrolled that area every night and

787

00:33:11,539 --> 00:33:09,929

we're very familiar with the you know

788

00:33:14,360 --> 00:33:11,549

the planes from Pease and all these

789

00:33:18,110 --> 00:33:14,370

different things so for the skeptical

790

00:33:21,799 --> 00:33:18,120

inquirer to suggest that these two

791

00:33:23,210 --> 00:33:21,809

gentleman's and norman who said in plain

792

00:33:26,240 --> 00:33:23,220

english they saw something about a

793

00:33:29,149 --> 00:33:26,250

hundred feet over them that just doesn't

794

00:33:31,190 --> 00:33:29,159

reconcile and then you know in doing

795

00:33:34,450 --> 00:33:31,200

some research into that i did a lot of

796

00:33:37,430 --> 00:33:34,460

research into kc-97 refueling jets and

797

00:33:39,440 --> 00:33:37,440

they can't you know after talking with a

798

00:33:41,779 --> 00:33:39,450

few people that have experienced

799

00:33:44,659 --> 00:33:41,789

refueling they can't refuel at anything

800

00:33:47,720 --> 00:33:44,669

less than 5,000 feet especially over a

801
00:33:50,390 --> 00:33:47,730
you know a you know apartment resident

802
00:33:52,970 --> 00:33:50,400
population so you know i think if you

803
00:33:55,909 --> 00:33:52,980
weigh the the credibility and experience

804
00:33:57,890 --> 00:33:55,919
with aviation of you know officer

805
00:34:00,620 --> 00:33:57,900
bertrand and then you also take into

806
00:34:02,840 --> 00:34:00,630
account that you know these planes can't

807
00:34:04,520 --> 00:34:02,850
be refueling at less than \$5 feet l

808
00:34:08,060 --> 00:34:04,530
think that you know it busts the whole

809
00:34:11,149 --> 00:34:08,070
wide open in what they've suggested and

810
00:34:14,419 --> 00:34:11,159
just to add to that you know when the

811
00:34:16,340 --> 00:34:14,429
incident initially happened the Pentagon

812
00:34:18,470 --> 00:34:16,350
threw everything they could at it it was

813
00:34:21,349 --> 00:34:18,480

stars it was planets it was weather

814

00:34:23,960 --> 00:34:21,359

inversions it was the light from Pete

815

00:34:27,440 --> 00:34:23,970

lights from Pease it was a banner plane

816

00:34:31,430 --> 00:34:27,450

and Raymond Fowler who did the initial

817

00:34:34,220 --> 00:34:31,440

investigation that John G Fuller's book

818

00:34:37,399 --> 00:34:34,230

was based on incident Exeter Raymond did

819

00:34:39,710 --> 00:34:37,409

all the investigation on it and he you

820

00:34:41,619 --> 00:34:39,720

know was very diligent anytime they

821

00:34:43,760 --> 00:34:41,629

would offer up you know an explanation

822

00:34:45,829 --> 00:34:43,770

he checked with the banner playing

823

00:34:48,409 --> 00:34:45,839

company he proved that that wasn't true

824

00:34:51,079 --> 00:34:48,419

you know Raymond Fowler really you know

825

00:34:53,869 --> 00:34:51,089

kept on the Pentagon and Project Blue

826

00:34:55,940 --> 00:34:53,879

Book and anytime they offered up these

827

00:34:59,900 --> 00:34:55,950

explanations you know he tend to shot

828

00:35:01,940 --> 00:34:59,910

them down and then you know there was

829

00:35:04,460 --> 00:35:01,950

talk of it being this refueling mission

830

00:35:07,880 --> 00:35:04,470

operation big blast cocoa but then that

831

00:35:10,940 --> 00:35:07,890

was also proven to be over at 12:35

832

00:35:12,980 --> 00:35:10,950

which would be a full hour before Norman

833

00:35:16,220 --> 00:35:12,990

I'm sorry 1:35 which would have been a

834

00:35:18,829 --> 00:35:16,230

full hour before Norman in officer

835

00:35:20,599 --> 00:35:18,839

Bertrand fighting so I think for those

836

00:35:22,670 --> 00:35:20,609

reasons that I've listed you know I

837

00:35:25,460 --> 00:35:22,680

don't think that the skeptical inquirer

838

00:35:28,880 --> 00:35:25,470

errs explanation you know it's it's

839

00:35:33,170 --> 00:35:28,890

reaching as far as my opinion well at

840

00:35:34,490 --> 00:35:33,180

least I didn't say swamp gas right we

841

00:35:37,670 --> 00:35:34,500

have a couple of questions on the

842

00:35:39,230 --> 00:35:37,680

message board Tony as asking in a

843

00:35:41,990 --> 00:35:39,240

general way was there any hard evidence

844

00:35:44,300 --> 00:35:42,000

collected from the woods or did anyone

845

00:35:47,450 --> 00:35:44,310

try to actually well that's a great

846

00:35:50,300 --> 00:35:47,460

question actually you know there's there

847

00:35:53,960 --> 00:35:50,310

was a lot of talk of possible physical

848

00:35:55,400 --> 00:35:53,970

evidence because as you remember you

849

00:35:57,980 --> 00:35:55,410

know this thing happened over the field

850

00:36:00,620 --> 00:35:57,990

next to the farm now I haven't been able

851
00:36:03,829 --> 00:36:00,630
to get any hard documents proving this

852
00:36:05,390 --> 00:36:03,839
but this is you know this is discussion

853
00:36:07,849 --> 00:36:05,400
that's you know been included and

854
00:36:11,540 --> 00:36:07,859
reports that the military was very

855
00:36:14,870 --> 00:36:11,550
interested in any reaction by the

856
00:36:16,940 --> 00:36:14,880
animals after the facts and there was

857
00:36:20,720 --> 00:36:16,950
talk that they were down there you know

858
00:36:23,750 --> 00:36:20,730
taking a look at the field so there was

859
00:36:26,750 --> 00:36:23,760
talk of you know an examination in the

860
00:36:31,040 --> 00:36:26,760
area and enquiries but there was never

861
00:36:33,470 --> 00:36:31,050
any you know any evidence spoken of if

862
00:36:36,140 --> 00:36:33,480
they did collect it in the public or

863
00:36:39,770 --> 00:36:36,150

anything in the Declassified Blue Book

864

00:36:41,270 --> 00:36:39,780

files so but it's they seemed it seems

865

00:36:43,910 --> 00:36:41,280

like you know the military

866

00:36:46,220 --> 00:36:43,920

was interested in that possibility yeah

867

00:36:48,620 --> 00:36:46,230

now I know the the Air Force actually

868

00:36:51,650 --> 00:36:48,630

they couldn't come up with a explanation

869

00:36:54,170 --> 00:36:51,660

if I'm if I remember right yeah well

870

00:36:57,170 --> 00:36:54,180

initially they tried to it was it was

871

00:37:00,380 --> 00:36:57,180

interesting because they offered an

872

00:37:02,330 --> 00:37:00,390

answer to what it was before they even

873

00:37:04,690 --> 00:37:02,340

had finished their investigation which

874

00:37:08,990 --> 00:37:04,700

Raymond Fowler called them out on and

875

00:37:11,420 --> 00:37:09,000

also the two officers sent two fairly

876

00:37:14,450 --> 00:37:11,430

angry letters to to blue book saying

877

00:37:16,310 --> 00:37:14,460

look you know we know what we saw were

878

00:37:17,570 --> 00:37:16,320

you know intelligent people and we're

879

00:37:19,460 --> 00:37:17,580

getting you know we're getting a lot of

880

00:37:22,970 --> 00:37:19,470

harassment because people are you know

881

00:37:25,010 --> 00:37:22,980

making light of what we saw so initially

882

00:37:28,160 --> 00:37:25,020

they tried to explain it but what ended

883

00:37:32,450 --> 00:37:28,170

up happening was Exeter because of all

884

00:37:34,330 --> 00:37:32,460

these sightings in 1965 and 66 Gerald

885

00:37:36,260 --> 00:37:34,340

Ford actually called one of the

886

00:37:38,180 --> 00:37:36,270

congressional only I believe there's

887

00:37:43,550 --> 00:37:38,190

only two congressional hearings on UFOs

888

00:37:46,220 --> 00:37:43,560

in 1966 and the Exeter case was one of

889

00:37:48,530 --> 00:37:46,230

the highlighted cases and J Allen Hynek

890

00:37:51,470 --> 00:37:48,540

had to admit under oath right right

891

00:37:53,390 --> 00:37:51,480

during the congressional hearing that it

892

00:37:55,130 --> 00:37:53,400

wasn't unknown and that even though they

893

00:37:57,710 --> 00:37:55,140

had tried to prescribe some of these

894

00:38:00,560 --> 00:37:57,720

other explanations that ultimately it

895

00:38:02,150 --> 00:38:00,570

was still an unknown case I see now I'm

896

00:38:03,950 --> 00:38:02,160

going to combine two questions on the

897

00:38:08,000 --> 00:38:03,960

message board and by the way if you're

898

00:38:10,580 --> 00:38:08,010

listening on dark matter radio network

899

00:38:13,130 --> 00:38:10,590

you can jump over to podcast UFO comm

900

00:38:16,450 --> 00:38:13,140

and join the message board if you'd like

901
00:38:19,550 --> 00:38:16,460
to throw a couple of questions that Ryan

902
00:38:21,230 --> 00:38:19,560
let's see Eric is asking or stating here

903
00:38:23,300 --> 00:38:21,240
New England has some great historic

904
00:38:26,090 --> 00:38:23,310
sightings but what about sightings

905
00:38:28,850 --> 00:38:26,100
recently and with that I'm going to add

906
00:38:31,250 --> 00:38:28,860
another question on the bottom if this

907
00:38:32,600 --> 00:38:31,260
is a guest unknown guest that has is

908
00:38:34,850 --> 00:38:32,610
asking have there been any more

909
00:38:39,800 --> 00:38:34,860
sightings since and I'm assuming he

910
00:38:42,350 --> 00:38:39,810
means in the Exeter area okay its first

911
00:38:44,060 --> 00:38:42,360
as far as more recent sightings you know

912
00:38:45,980 --> 00:38:44,070
there's definitely there's you know

913
00:38:49,400 --> 00:38:45,990

always a good amount of sightings up

914

00:38:54,160 --> 00:38:49,410

here you know I do follow those you know

915

00:38:55,940 --> 00:38:54,170

fairly closely as far as anything

916

00:39:01,849 --> 00:38:55,950

significant

917

00:39:04,970 --> 00:39:01,859

happened in New Hampshire as far as UFOs

918

00:39:08,960 --> 00:39:04,980

was probably back in about 2008 I

919

00:39:11,599 --> 00:39:08,970

believe where there was a gentleman that

920

00:39:13,880 --> 00:39:11,609

claimed to have seen a large mothership

921

00:39:17,750 --> 00:39:13,890

type UFO when he was out mowing his lawn

922

00:39:19,460 --> 00:39:17,760

during the day and his his report was

923

00:39:21,859 --> 00:39:19,470

given a bit of credence because

924

00:39:24,680 --> 00:39:21,869

apparently he had a former aviation

925

00:39:26,630 --> 00:39:24,690

military background and you know I guess

926

00:39:28,910 --> 00:39:26,640

he was vetted by the national UFO

927

00:39:30,859 --> 00:39:28,920

Reporting Center or they you know they

928

00:39:32,990 --> 00:39:30,869

didn't reveal who he was at the time but

929

00:39:35,510 --> 00:39:33,000

there was a number of articles about

930

00:39:37,580 --> 00:39:35,520

that and there was also I believe there

931

00:39:40,130 --> 00:39:37,590

was a second sighting within that little

932

00:39:42,920 --> 00:39:40,140

gap so that that's probably as far as 10

933

00:39:46,250 --> 00:39:42,930

to bigger stuff but there's definitely

934

00:39:47,510 --> 00:39:46,260

you know sightings all the time and I'm

935

00:39:49,820 --> 00:39:47,520

sorry what was the second question

936

00:39:52,970 --> 00:39:49,830

basically has there been any sightings

937

00:39:58,130 --> 00:39:52,980

in Exeter itself okay yes I mean that

938

00:40:00,440 --> 00:39:58,140

area has remained an area where things

939

00:40:02,960 --> 00:40:00,450

have been reported over the years you

940

00:40:05,510 --> 00:40:02,970

know even up until you know current

941

00:40:08,680 --> 00:40:05,520

times I'm just you know within that

942

00:40:13,790 --> 00:40:08,690

there was a lot within that cluster of

943

00:40:15,830 --> 00:40:13,800

6566 in the Exeter area but I mean there

944

00:40:18,290 --> 00:40:15,840

have been even some you know as recent

945

00:40:21,530 --> 00:40:18,300

as this year or 2013 you know from

946

00:40:24,470 --> 00:40:21,540

Exeter in the Kensington area so you

947

00:40:27,050 --> 00:40:24,480

know it seems that before and both after

948

00:40:28,460 --> 00:40:27,060

you know that area seems to be one of

949

00:40:31,070 --> 00:40:28,470

New Hampshire's spots where there's been

950

00:40:32,330 --> 00:40:31,080

a lot of stuff sighted yeah well I don't

951
00:40:33,230 --> 00:40:32,340
want to beat a dead horse but I want to

952
00:40:35,770 --> 00:40:33,240
bring something up when we're talking

953
00:40:38,060 --> 00:40:35,780
about something recent and that is some

954
00:40:39,500 --> 00:40:38,070
this is when I say I don't want to beat

955
00:40:41,570 --> 00:40:39,510
a dead horse for people that listen to

956
00:40:46,099 --> 00:40:41,580
the show regularly but I was actually

957
00:40:49,340 --> 00:40:46,109
really in my studio in Maine doing this

958
00:40:53,120 --> 00:40:49,350
show live when in my backyard a neighbor

959
00:40:55,580 --> 00:40:53,130
saw a large triangle and tried to knock

960
00:40:58,640 --> 00:40:55,590
on my door right during the show oh wow

961
00:41:00,140 --> 00:40:58,650
I should know that and I spoke to her

962
00:41:03,770 --> 00:41:00,150
since and you know she doesn't really

963
00:41:05,270 --> 00:41:03,780

want to talk about it now yeah but there

964

00:41:07,730 --> 00:41:05,280

there I think there is a lot in New

965

00:41:09,530 --> 00:41:07,740

England going on and you know there's

966

00:41:10,940 --> 00:41:09,540

I've been out on that very

967

00:41:14,060 --> 00:41:10,950

same Golf Course which is behind my

968

00:41:17,870 --> 00:41:14,070

house and you know I think I saw the

969

00:41:20,090 --> 00:41:17,880

International Space Station I don't know

970

00:41:21,590 --> 00:41:20,100

what it was but it was it was big but

971

00:41:25,100 --> 00:41:21,600

you know it just seems like there's

972

00:41:26,300 --> 00:41:25,110

there's you know big open skies there's

973

00:41:28,580 --> 00:41:26,310

not you can get away from light

974

00:41:30,500 --> 00:41:28,590

pollution fairly easy so you can

975

00:41:32,290 --> 00:41:30,510

actually you know see a lot of a lot of

976

00:41:35,150 --> 00:41:32,300

it if anything's going on you can see it

977

00:41:37,070 --> 00:41:35,160

definitely you know there's you know New

978

00:41:38,900 --> 00:41:37,080

Hampshire that night you can see the

979

00:41:42,020 --> 00:41:38,910

Stars very good you know depending where

980

00:41:44,300 --> 00:41:42,030

you are and you know you know as far as

981

00:41:46,940 --> 00:41:44,310

the White Mountains you know that area

982

00:41:48,440 --> 00:41:46,950

you know the unique thing about that and

983

00:41:51,710 --> 00:41:48,450

other mountainous areas in New Hampshire

984

00:41:54,350 --> 00:41:51,720

is you know you have a situation where

985

00:41:58,190 --> 00:41:54,360

you know you're in kind of valleys

986

00:42:00,650 --> 00:41:58,200

between these mountains so you know that

987

00:42:03,140 --> 00:42:00,660

that's interesting too you know with the

988

00:42:04,340 --> 00:42:03,150

Betty and Barney Hill case you know when

989

00:42:05,990 --> 00:42:04,350

they were having the sighting of this

990

00:42:07,460 --> 00:42:06,000

object that you know a person was up in

991

00:42:09,370 --> 00:42:07,470

the sky and then it was kind of coming

992

00:42:11,720 --> 00:42:09,380

down in between the mountains you know

993

00:42:16,040 --> 00:42:11,730

so yeah definitely

994

00:42:18,950 --> 00:42:16,050

right now let's see Peter Davenport was

995

00:42:21,350 --> 00:42:18,960

on this case pretty strongly and I think

996

00:42:24,200 --> 00:42:21,360

Jerome Clark might have researched it a

997

00:42:27,980 --> 00:42:24,210

bit what Peggy wanted to know why does

998

00:42:30,140 --> 00:42:27,990

this case and interest you um well I

999

00:42:32,720 --> 00:42:30,150

mean the case interested me first and

1000

00:42:35,210 --> 00:42:32,730

foremost because you know after I had my

1001
00:42:37,490 --> 00:42:35,220
sighting when I started looking into you

1002
00:42:39,800 --> 00:42:37,500
know New England cases there were some

1003
00:42:41,930 --> 00:42:39,810
similarities in the characteristics that

1004
00:42:45,500 --> 00:42:41,940
the UFO exhibited that were similar to

1005
00:42:48,380 --> 00:42:45,510
what I saw so I think because it was a

1006
00:42:52,610 --> 00:42:48,390
New Hampshire case there were some

1007
00:42:54,230 --> 00:42:52,620
similarities to what I saw you know that

1008
00:42:56,990 --> 00:42:54,240
was what brought my interest but I think

1009
00:43:00,260 --> 00:42:57,000
you know the Exeter case is a you know a

1010
00:43:02,870 --> 00:43:00,270
very important case because you know

1011
00:43:04,880 --> 00:43:02,880
it's one if you really go over you know

1012
00:43:07,250 --> 00:43:04,890
a lot of these historic Clauses cases

1013
00:43:11,210 --> 00:43:07,260

it's one of the cases that really stands

1014

00:43:14,000 --> 00:43:11,220

the test of time as far as you know the

1015

00:43:15,770 --> 00:43:14,010

the credibility of the witnesses and the

1016

00:43:18,410 --> 00:43:15,780

fact that there was you know multiple

1017

00:43:21,200 --> 00:43:18,420

independent witnesses within that time

1018

00:43:23,069 --> 00:43:21,210

period the fact that the cops were so

1019

00:43:24,900 --> 00:43:23,079

experienced and viewed that

1020

00:43:27,479 --> 00:43:24,910

so you know I think it's a very

1021

00:43:29,279 --> 00:43:27,489

significant case for New Hampshire and I

1022

00:43:31,499 --> 00:43:29,289

think it's a very significant case just

1023

00:43:35,279 --> 00:43:31,509

in ufology you know American mythology

1024

00:43:36,870 --> 00:43:35,289

and I think you know obviously the Betty

1025

00:43:38,729 --> 00:43:36,880

and Barney Hill case is probably the

1026

00:43:40,979 --> 00:43:38,739

most well known New Hampshire UFO case

1027

00:43:43,499 --> 00:43:40,989

and you know that rightfully so I mean

1028

00:43:45,359 --> 00:43:43,509

it's it's a very you know well known

1029

00:43:47,400 --> 00:43:45,369

case and it's had a lot of cultural

1030

00:43:48,989 --> 00:43:47,410

significance but you know the Exeter

1031

00:43:52,219 --> 00:43:48,999

case I would hold it right up there I

1032

00:43:54,809 --> 00:43:52,229

think it's a you know there's a bit more

1033

00:43:56,579 --> 00:43:54,819

you know having the police there during

1034

00:43:58,680 --> 00:43:56,589

the thing having that sort of credible

1035

00:44:00,509 --> 00:43:58,690

witness there helps it a lot so that's

1036

00:44:02,309 --> 00:44:00,519

pretty much what drew me to it that it's

1037

00:44:04,229 --> 00:44:02,319

a very credible case and there's a lot

1038

00:44:07,499 --> 00:44:04,239

of documents and there's a lot of

1039

00:44:09,089 --> 00:44:07,509

materials to go over yeah you know a lot

1040

00:44:11,130 --> 00:44:09,099

of times people say well why do you why

1041

00:44:13,289 --> 00:44:11,140

do we keep talking about the old cases

1042

00:44:16,199 --> 00:44:13,299

but you know something you just said

1043

00:44:18,779 --> 00:44:16,209

they're kind of strikes pretty solid and

1044

00:44:21,390 --> 00:44:18,789

that is you know some of these cases

1045

00:44:23,579 --> 00:44:21,400

just plain stand the test of time and

1046

00:44:26,609 --> 00:44:23,589

you know there there's never an answer

1047

00:44:29,390 --> 00:44:26,619

for it and you know I don't know where

1048

00:44:32,069 --> 00:44:29,400

you can go with something like that but

1049

00:44:35,699 --> 00:44:32,079

one of the things that came to mind had

1050

00:44:38,519 --> 00:44:35,709

anyone claimed any type of an abduction

1051

00:44:39,930 --> 00:44:38,529

or anything like that related to that

1052

00:44:41,759 --> 00:44:39,940

you know how sometimes people come

1053

00:44:43,769 --> 00:44:41,769

forward afterwards and say they had

1054

00:44:46,769 --> 00:44:43,779

missing time or something like that did

1055

00:44:49,289 --> 00:44:46,779

anyone do anything like that um in as

1056

00:44:52,979 --> 00:44:49,299

far as the incident in Exeter not that

1057

00:44:55,769 --> 00:44:52,989

I'm aware of no you know the officers in

1058

00:44:58,019 --> 00:44:55,779

Norman I'm not aware of anything like

1059

00:44:59,670 --> 00:44:58,029

that at all but um you know to what you

1060

00:45:01,589 --> 00:44:59,680

said a second ago about you know the

1061

00:45:03,420 --> 00:45:01,599

people that say why bother you know this

1062

00:45:05,430 --> 00:45:03,430

is something that I hear a lot because I

1063

00:45:08,120 --> 00:45:05,440

tend to focus on more of the historic

1064

00:45:11,459 --> 00:45:08,130

you know I like the older cases myself

1065

00:45:14,009 --> 00:45:11,469

you know people say that a lot and and I

1066

00:45:18,269 --> 00:45:14,019

I don't agree with it because just in my

1067

00:45:20,549 --> 00:45:18,279

experience there's it's a myth that

1068

00:45:23,489 --> 00:45:20,559

there's no new information that can come

1069

00:45:26,670 --> 00:45:23,499

can be gleaned from old data I think

1070

00:45:29,729 --> 00:45:26,680

that's a myth and I also think that you

1071

00:45:31,289 --> 00:45:29,739

know like look at cold-case files I mean

1072

00:45:33,630 --> 00:45:31,299

there's a reason why there's cold-case

1073

00:45:35,519 --> 00:45:33,640

files because putting fresh eyes and

1074

00:45:37,059 --> 00:45:35,529

applying the latest information and

1075

00:45:39,699 --> 00:45:37,069

technology to a mystery

1076

00:45:42,249 --> 00:45:39,709

can often you can often glean new

1077

00:45:44,650 --> 00:45:42,259

information so you know I think for that

1078

00:45:46,689 --> 00:45:44,660

reason I think it's important to go back

1079

00:45:50,499 --> 00:45:46,699

if you have the interest over the old

1080

00:45:51,969 --> 00:45:50,509

cases you know I think I think it's very

1081

00:45:53,829 --> 00:45:51,979

important and I think it's also

1082

00:45:56,769 --> 00:45:53,839

important for people getting into the

1083

00:45:58,599 --> 00:45:56,779

UFO phenomenon to understand the history

1084

00:46:00,909 --> 00:45:58,609

of it if you really want to try and get

1085

00:46:03,519 --> 00:46:00,919

a grasp of you know the phenomenon since

1086

00:46:06,849 --> 00:46:03,529

1947 it's really important that you go

1087

00:46:08,349 --> 00:46:06,859

back to the beginning and learn what has

1088

00:46:10,359 --> 00:46:08,359

happened you know as far as the

1089

00:46:12,339 --> 00:46:10,369

government project Bluebook all of the

1090

00:46:14,079 --> 00:46:12,349

documented things that we can you know

1091

00:46:16,390 --> 00:46:14,089

read documents about and that we know

1092

00:46:18,189 --> 00:46:16,400

you know have happened I think that's

1093

00:46:20,049 --> 00:46:18,199

really important too so I think I think

1094

00:46:23,169 --> 00:46:20,059

the past is very important when it comes

1095

00:46:25,359 --> 00:46:23,179

to this subject I agree 100% with

1096

00:46:27,999 --> 00:46:25,369

everything you just said it makes makes

1097

00:46:31,479 --> 00:46:28,009

total sense to you know I mean you're

1098

00:46:33,009 --> 00:46:31,489

right you know you look at any cold-case

1099

00:46:35,229 --> 00:46:33,019

file and you can actually put that into

1100

00:46:37,419 --> 00:46:35,239

like a murder case you know I mean there

1101

00:46:40,059 --> 00:46:37,429

are always cracking murder cases when

1102

00:46:43,089 --> 00:46:40,069

new technology comes along like you know

1103

00:46:47,529 --> 00:46:43,099

DNA came along and you know and you know

1104

00:46:49,719 --> 00:46:47,539

now we have like someone's just typing

1105

00:46:51,299 --> 00:46:49,729

right now on that on the chatroom has

1106

00:46:53,469 --> 00:46:51,309

anyone tried to get a FOIA request

1107

00:46:55,870 --> 00:46:53,479

regarding the incident and we have for

1108

00:46:58,390 --> 00:46:55,880

you you know sometimes more more things

1109

00:47:00,249 --> 00:46:58,400

can be brought forward through Freedom

1110

00:47:02,349 --> 00:47:00,259

of Information Act you know by

1111

00:47:05,229 --> 00:47:02,359

requesting documents has anyone tried to

1112

00:47:06,009 --> 00:47:05,239

get any papers on that you know that's a

1113

00:47:08,439 --> 00:47:06,019

good question

1114

00:47:12,459 --> 00:47:08,449

um I don't know if they have you know

1115

00:47:15,429 --> 00:47:12,469

the the exeter case you know the project

1116

00:47:19,509 --> 00:47:15,439

Bluebook file is obviously declassified

1117

00:47:20,949 --> 00:47:19,519

that that is out there the the briefing

1118

00:47:25,749 --> 00:47:20,959

document from the congressional hearing

1119

00:47:28,179 --> 00:47:25,759

from 1966 that is out there so there's a

1120

00:47:29,829 --> 00:47:28,189

lot of data out there but I mean that is

1121

00:47:31,269 --> 00:47:29,839

a great idea I mean that that is

1122

00:47:33,370 --> 00:47:31,279

something that maybe somebody should

1123

00:47:34,989 --> 00:47:33,380

look into you know maybe just to make

1124

00:47:38,890 --> 00:47:34,999

sure that there isn't anything maybe

1125

00:47:41,709 --> 00:47:38,900

lingering but you know it's just from

1126

00:47:43,719 --> 00:47:41,719

you know being at it for 14 years I

1127

00:47:45,969 --> 00:47:43,729

think it's a great idea but you know

1128

00:47:50,860 --> 00:47:45,979

it's it's definitely a very detailed

1129

00:47:52,810 --> 00:47:50,870

rich case compared to most cases so

1130

00:47:57,130 --> 00:47:52,820

there's a lot out there to read on it

1131

00:47:59,620 --> 00:47:57,140

right now is there any other case that

1132

00:48:03,460 --> 00:47:59,630

you kind of dove into like you did on

1133

00:48:05,950 --> 00:48:03,470

this one in in the area you know I mean

1134

00:48:08,320 --> 00:48:05,960

I I don't think there's one that I've

1135

00:48:09,670 --> 00:48:08,330

spent quite as much time on I mean I've

1136

00:48:11,710 --> 00:48:09,680

done a you know I've done extensive

1137

00:48:13,660 --> 00:48:11,720

research on you know the Betty and

1138

00:48:15,940 --> 00:48:13,670

Barney Hill case although you know I

1139

00:48:18,460 --> 00:48:15,950

think Kathleen Martin and Stan Freedman

1140

00:48:21,430 --> 00:48:18,470

you know they have that case pretty well

1141

00:48:24,010 --> 00:48:21,440

represented so you know not that I don't

1142

00:48:26,170 --> 00:48:24,020

like discussing the case but I just you

1143

00:48:28,210 --> 00:48:26,180

know I like I'm very fascinated with a

1144

00:48:30,370 --> 00:48:28,220

lot of these cases like Exeter and some

1145

00:48:33,990 --> 00:48:30,380

other cases that aren't well known but

1146

00:48:36,730 --> 00:48:34,000

another case that's very very very

1147

00:48:38,770 --> 00:48:36,740

fascinating there's another you know

1148

00:48:42,490 --> 00:48:38,780

police case from New Hampshire which was

1149

00:48:46,300 --> 00:48:42,500

on October 16 1984 and this is referred

1150

00:48:48,520 --> 00:48:46,310

to as the Zeller incident and basically

1151
00:48:51,580 --> 00:48:48,530
what happened was is the Keene Police

1152
00:48:53,140 --> 00:48:51,590
Department got a phone call saying that

1153
00:48:56,320 --> 00:48:53,150
there was something hovering over the

1154
00:48:58,510 --> 00:48:56,330
city so officer Zeller you know I don't

1155
00:49:00,250 --> 00:48:58,520
think he really believed the report but

1156
00:49:02,530 --> 00:49:00,260
was alright we have to go check it out

1157
00:49:05,500 --> 00:49:02,540
so he got in his car and headed down to

1158
00:49:08,380 --> 00:49:05,510
the area where this object was claimed

1159
00:49:09,670 --> 00:49:08,390
to be hovering over the city so as he

1160
00:49:11,710 --> 00:49:09,680
was driving down the road all of a

1161
00:49:13,720 --> 00:49:11,720
sudden he seen another car veer off the

1162
00:49:16,240 --> 00:49:13,730
road and the people jump out pointing in

1163
00:49:19,390 --> 00:49:16,250

the sky so he looks up there's this

1164

00:49:22,510 --> 00:49:19,400

object so he pulls his cruiser over he's

1165

00:49:24,700 --> 00:49:22,520

observing this object and I guess from

1166

00:49:27,520 --> 00:49:24,710

what I understand a crowd of about close

1167

00:49:31,000 --> 00:49:27,530

to 30 people gathered along with the

1168

00:49:33,130 --> 00:49:31,010

police officer watching this thing so he

1169

00:49:35,560 --> 00:49:33,140

decided he was going to aim his

1170

00:49:37,600 --> 00:49:35,570

spotlight from the cruiser at this

1171

00:49:39,220 --> 00:49:37,610

object which is hovering you know I

1172

00:49:41,740 --> 00:49:39,230

believe it was around on five or six

1173

00:49:43,690 --> 00:49:41,750

hundred feet in the air as soon as he

1174

00:49:47,320 --> 00:49:43,700

aimed his light at this object it

1175

00:49:50,260 --> 00:49:47,330

started floating towards the cruiser and

1176

00:49:52,660 --> 00:49:50,270

descending at the same time apparently

1177

00:49:54,340 --> 00:49:52,670

the people you know around panicked and

1178

00:49:55,840 --> 00:49:54,350

kind of run and were scared and you know

1179

00:49:58,030 --> 00:49:55,850

the cop just kept the light on this

1180

00:50:00,280 --> 00:49:58,040

object and it floated right over him in

1181

00:50:03,910 --> 00:50:00,290

the cop car at about a hundred feet and

1182

00:50:05,770 --> 00:50:03,920

just floated away so that one is another

1183

00:50:07,150 --> 00:50:05,780

you know there's a lot of cases in New

1184

00:50:09,370 --> 00:50:07,160

Hampshire where there's police

1185

00:50:11,710 --> 00:50:09,380

involvement and you know as far as my

1186

00:50:14,200 --> 00:50:11,720

research you know I always like to try

1187

00:50:17,559 --> 00:50:14,210

and focus in on cases that involve the

1188

00:50:19,030 --> 00:50:17,569

police military credible citizens things

1189

00:50:20,349 --> 00:50:19,040

where there's documents things were

1190

00:50:23,260 --> 00:50:20,359

there's things that I can you know

1191

00:50:25,150 --> 00:50:23,270

research and dig into and the zeller

1192

00:50:28,870 --> 00:50:25,160

incident that's another great one where

1193

00:50:31,120 --> 00:50:28,880

it's it's very hard to kind of you know

1194

00:50:32,620 --> 00:50:31,130

explain the doubt that away with just

1195

00:50:35,140 --> 00:50:32,630

you know kind of conventional aircraft

1196

00:50:41,470 --> 00:50:35,150

so I think that sounds like a weather

1197

00:50:44,770 --> 00:50:41,480

balloon to me just kidding yeah yeah

1198

00:50:47,799 --> 00:50:44,780

yeah we have we have oh I don't know

1199

00:50:50,859 --> 00:50:47,809

about I don't know maybe five to seven

1200

00:50:52,630 --> 00:50:50,869

minutes left and do you want to talk

1201
00:50:56,099 --> 00:50:52,640
about any of the stories in your blog or

1202
00:50:58,809 --> 00:50:56,109
would you like to talk some more about

1203
00:51:01,420 --> 00:50:58,819
let me just throw a question at you sure

1204
00:51:03,990 --> 00:51:01,430
um you're you're kind of a young person

1205
00:51:05,920 --> 00:51:04,000
in the field what do you think about

1206
00:51:11,339 --> 00:51:05,930
disclosure do you think that's ever

1207
00:51:13,450 --> 00:51:11,349
going to happen you know it's you know I

1208
00:51:15,819 --> 00:51:13,460
don't know if it's ever going to happen

1209
00:51:18,789 --> 00:51:15,829
but you know I know there's lots of kind

1210
00:51:20,380 --> 00:51:18,799
of viewpoints and theories on it is it

1211
00:51:23,349 --> 00:51:20,390
going to happen how it's going to happen

1212
00:51:27,970 --> 00:51:23,359
and um you know just from studying all

1213
00:51:30,309 --> 00:51:27,980

the declassified documents I have I have

1214

00:51:33,240 --> 00:51:30,319

a hard time believing that you know the

1215

00:51:35,920 --> 00:51:33,250

government's ever going to come out and

1216

00:51:37,930 --> 00:51:35,930

you know just kind of tell us that that

1217

00:51:40,839 --> 00:51:37,940

that's you know that there's aliens or

1218

00:51:43,809 --> 00:51:40,849

UFOs or you know so I mean it's tough

1219

00:51:46,150 --> 00:51:43,819

because I guess with the disclosure were

1220

00:51:50,770 --> 00:51:46,160

alluding to the fact that the government

1221

00:51:52,900 --> 00:51:50,780

knows what UFOs are you know and I don't

1222

00:51:55,359 --> 00:51:52,910

know you know I try and keep a very open

1223

00:51:58,569 --> 00:51:55,369

mind as far as my you know my views on

1224

00:52:01,240 --> 00:51:58,579

UFOs and you know I feel that it's

1225

00:52:04,359 --> 00:52:01,250

important in doing research in this area

1226
00:52:06,339 --> 00:52:04,369
that I'm you know I'm not leaning too

1227
00:52:07,990 --> 00:52:06,349
far to one err you know to being too

1228
00:52:10,420 --> 00:52:08,000
skeptical or being you know too

1229
00:52:13,270 --> 00:52:10,430
accepting of things so I think it's a

1230
00:52:15,370 --> 00:52:13,280
possibility but as far as the government

1231
00:52:17,680 --> 00:52:15,380
doing it I don't think that's probably

1232
00:52:19,690 --> 00:52:17,690
gonna be you know gonna happen

1233
00:52:22,059 --> 00:52:19,700
you know it's funny I ask a lot of the

1234
00:52:25,390 --> 00:52:22,069
guests that I have on the show that

1235
00:52:29,130 --> 00:52:25,400
question and you know pretty much across

1236
00:52:31,150 --> 00:52:29,140
the board the same answer you know

1237
00:52:32,620 --> 00:52:31,160
everyone has more or less the same

1238
00:52:37,749 --> 00:52:32,630

minutes or unless you're asking Stephen

1239

00:52:39,849 --> 00:52:37,759

Bassett yeah I think the more you look

1240

00:52:42,490 --> 00:52:39,859

into the the documents that were once

1241

00:52:44,920 --> 00:52:42,500

classified and you you look at the

1242

00:52:48,220 --> 00:52:44,930

extent that they you know looked into

1243

00:52:51,490 --> 00:52:48,230

things and at certain times how secret

1244

00:52:53,319 --> 00:52:51,500

they were keeping it for me that's the

1245

00:52:54,910 --> 00:52:53,329

big thing that says to me you know I

1246

00:52:57,759 --> 00:52:54,920

don't know that this is something that

1247

00:53:01,230 --> 00:52:57,769

they're gonna you know they're gonna

1248

00:53:02,410 --> 00:53:01,240

come out and just reveal yeah yeah and

1249

00:53:05,549 --> 00:53:02,420

oops

1250

00:53:09,970 --> 00:53:05,559

let's see we have another question here

1251

00:53:14,220 --> 00:53:09,980

I am sorry it just it's funny this chat

1252

00:53:17,769 --> 00:53:14,230

board kind of floats up sometimes and

1253

00:53:18,569 --> 00:53:17,779

you know what it's gone so sorry about

1254

00:53:23,349 --> 00:53:18,579

that

1255

00:53:25,299 --> 00:53:23,359

yep do you attend any conferences do you

1256

00:53:27,549 --> 00:53:25,309

do you ever speak you're very

1257

00:53:31,109 --> 00:53:27,559

well-spoken at this oh thank you very

1258

00:53:33,819 --> 00:53:31,119

much um actually I was um involved with

1259

00:53:36,910 --> 00:53:33,829

helping Dean merchant who was the

1260

00:53:38,950 --> 00:53:36,920

original creator of the Exeter UFO

1261

00:53:41,769 --> 00:53:38,960

festival I'm a you know a colleague and

1262

00:53:43,870 --> 00:53:41,779

a friend of Dean and I did help him you

1263

00:53:45,400 --> 00:53:43,880

know a little bit as far as consulting

1264

00:53:49,589 --> 00:53:45,410

and doing some of the social media for

1265

00:53:53,589 --> 00:53:49,599

Exeter I was slated to speak in 2012 but

1266

00:53:55,059 --> 00:53:53,599

unfortunately I'm sorry 2013 I was

1267

00:53:56,529 --> 00:53:55,069

supposed to speak this past summer but

1268

00:53:59,589 --> 00:53:56,539

they had to cancel the eggs or a

1269

00:54:03,069 --> 00:53:59,599

festival due to a fire at the town hall

1270

00:54:05,410 --> 00:54:03,079

where it was normally held so I hadn't I

1271

00:54:07,990 --> 00:54:05,420

haven't done any speaking on the subject

1272

00:54:11,769 --> 00:54:08,000

I was supposed to do Exeter but that

1273

00:54:14,670 --> 00:54:11,779

could canceled you know I guess it's

1274

00:54:18,160 --> 00:54:14,680

tough because I guess I am a little

1275

00:54:19,990 --> 00:54:18,170

mixed on you know the UFO conferences

1276

00:54:23,380 --> 00:54:20,000

and stuff like that I have kind of mixed

1277

00:54:25,749 --> 00:54:23,390

feelings about them so it I kinda it

1278

00:54:28,240 --> 00:54:25,759

would have to I'd have to take it on an

1279

00:54:30,370 --> 00:54:28,250

individual basis you know like sure

1280

00:54:32,560 --> 00:54:30,380

which one it was where is it

1281

00:54:34,720 --> 00:54:32,570

going to be speaking there because you

1282

00:54:36,520 --> 00:54:34,730

know I think that's the one you know

1283

00:54:40,300 --> 00:54:36,530

there's one of the negatives to those

1284

00:54:46,690 --> 00:54:40,310

things is you know oh they don't always

1285

00:54:49,900 --> 00:54:46,700

focus on evidence and documentation in

1286

00:54:52,810 --> 00:54:49,910

so you know and there's a lot of you

1287

00:54:55,090 --> 00:54:52,820

know family and tchotchkes being sold

1288

00:54:56,380 --> 00:54:55,100

and either there's a whole thing that

1289

00:54:58,570 --> 00:54:56,390

goes with it and there's nothing wrong

1290

00:55:01,990 --> 00:54:58,580

with that but you know unfortunately

1291

00:55:04,810 --> 00:55:02,000

those sort of things tend to marginalize

1292

00:55:06,940 --> 00:55:04,820

the subject to a certain degree so

1293

00:55:09,850 --> 00:55:06,950

absolutely actually I think there is

1294

00:55:11,710 --> 00:55:09,860

something wrong with that yeah I think

1295

00:55:14,740 --> 00:55:11,720

this should be banned from selling any

1296

00:55:17,410 --> 00:55:14,750

of the alien paraphernalia at these

1297

00:55:19,420 --> 00:55:17,420

things it just really makes you know

1298

00:55:21,730 --> 00:55:19,430

what happens is the media comes in there

1299

00:55:24,400 --> 00:55:21,740

and they focus on it they'll focus on

1300

00:55:26,200 --> 00:55:24,410

the guy with the tinfoil hat and make

1301
00:55:28,630 --> 00:55:26,210
mockery of the whole thing and then you

1302
00:55:31,780 --> 00:55:28,640
know the whole cause of the thing just

1303
00:55:34,270 --> 00:55:31,790
goes down down the drain so yeah I

1304
00:55:35,830 --> 00:55:34,280
really wish I wish that wouldn't be

1305
00:55:37,660 --> 00:55:35,840
allowed you know I mean t-shirts

1306
00:55:38,770 --> 00:55:37,670
something like that fine but you know

1307
00:55:40,570 --> 00:55:38,780
when they have those little plastic

1308
00:55:42,130 --> 00:55:40,580
aliens and you know the things you put

1309
00:55:43,900 --> 00:55:42,140
on your refrigerator and stuff like that

1310
00:55:46,960 --> 00:55:43,910
it gets a little carried away

1311
00:55:50,440 --> 00:55:46,970
it does what was great about Exeter is

1312
00:55:52,240 --> 00:55:50,450
at Exeter all of the town local

1313
00:55:54,550 --> 00:55:52,250

businesses wouldn't you know have little

1314

00:55:57,010 --> 00:55:54,560

alien things and would so but at the

1315

00:55:58,870 --> 00:55:57,020

actual event itself there was just the

1316

00:56:00,640 --> 00:55:58,880

speakers and there was a room where the

1317

00:56:03,010 --> 00:56:00,650

speakers could sell their books so you

1318

00:56:04,870 --> 00:56:03,020

know there were still people outside

1319

00:56:07,900 --> 00:56:04,880

with alien costumes and you know there

1320

00:56:10,240 --> 00:56:07,910

was events separate from the lectures

1321

00:56:12,220 --> 00:56:10,250

but that was one of the great things you

1322

00:56:15,430 --> 00:56:12,230

know they kept kind of the fun

1323

00:56:17,350 --> 00:56:15,440

activities in the actual lectures there

1324

00:56:18,610 --> 00:56:17,360

was a little separation from that so it

1325

00:56:22,240 --> 00:56:18,620

wasn't like this you know big

1326
00:56:23,620 --> 00:56:22,250
bombardment of you know alien toys and

1327
00:56:25,930 --> 00:56:23,630
so you know that was one of the things

1328
00:56:28,120 --> 00:56:25,940
that I you know think is good about the

1329
00:56:30,550 --> 00:56:28,130
Exeter you know that they didn't allow

1330
00:56:32,710 --> 00:56:30,560
outside vendors and you know they let

1331
00:56:35,890 --> 00:56:32,720
the local town you know try and get some

1332
00:56:37,690 --> 00:56:35,900
extra income from selling you know alien

1333
00:56:39,010 --> 00:56:37,700
related things if they wanted to so I

1334
00:56:41,590 --> 00:56:39,020
thought I thought that was kind of nice

1335
00:56:43,210 --> 00:56:41,600
about now do you know why that was

1336
00:56:44,499 --> 00:56:43,220
cancelled this year was that just not

1337
00:56:47,019 --> 00:56:44,509
well attended last

1338
00:56:50,799 --> 00:56:47,029

no actually like I mentioned there was

1339

00:56:53,559 --> 00:56:50,809

um it's held a historic Exeter Town Hall

1340

00:56:56,199 --> 00:56:53,569

and it was struck by lightning oh that's

1341

00:56:58,209 --> 00:56:56,209

where that happened yeah initially they

1342

00:57:01,809 --> 00:56:58,219

thought it was the repairs were gonna be

1343

00:57:03,849 --> 00:57:01,819

done in time to still do it but then it

1344

00:57:07,929 --> 00:57:03,859

wasn't and they couldn't find a suitable

1345

00:57:11,259 --> 00:57:07,939

venue so from what I understand now Dean

1346

00:57:13,569 --> 00:57:11,269

who is the creator and the organizer he

1347

00:57:15,339 --> 00:57:13,579

handed over the festival to the Exeter

1348

00:57:18,069 --> 00:57:15,349

Kiwanis last January

1349

00:57:20,229 --> 00:57:18,079

so the Exeter Kiwanis are now at the

1350

00:57:22,029 --> 00:57:20,239

helm so I'm not really sure what's going

1351
00:57:23,799 --> 00:57:22,039
on this year I know they have announced

1352
00:57:26,559 --> 00:57:23,809
that they're going to be doing one in

1353
00:57:28,209 --> 00:57:26,569
2014 but not much else has been

1354
00:57:30,459 --> 00:57:28,219
announced others that they plan on

1355
00:57:32,169 --> 00:57:30,469
having more very good well Ryan we're

1356
00:57:33,489 --> 00:57:32,179
out of time I want to thank you so much

1357
00:57:35,979 --> 00:57:33,499
for being on the show and I like your

1358
00:57:37,479 --> 00:57:35,989
balanced attitude and you know I'm going

1359
00:57:39,489 --> 00:57:37,489
to invite you back someday because I

1360
00:57:40,479 --> 00:57:39,499
thought you did a nice job oh thank you

1361
00:57:41,979 --> 00:57:40,489
so much more than that

1362
00:57:43,929 --> 00:57:41,989
I thought you did a great job too and I

1363
00:57:45,999 --> 00:57:43,939

really enjoyed this very good well

1364

00:57:47,799 --> 00:57:46,009

that's it for the show today if you miss

1365

00:57:49,959 --> 00:57:47,809

any part of this show you can catch it

1366

00:57:52,179 --> 00:57:49,969

as a podcast and a whole bunch of other

1367

00:57:55,389 --> 00:57:52,189

free podcasts on our website which is

1368

00:57:57,129 --> 00:57:55,399

podcast UFO com you can also check out

1369

00:57:59,049 --> 00:57:57,139

our links to the stories and our show

1370

00:58:01,509 --> 00:57:59,059

notes as well as joining in the

1371

00:58:02,949 --> 00:58:01,519

conversation on our forums I want to

1372

00:58:03,639 --> 00:58:02,959

thank everyone for helping out with the

1373

00:58:06,099 --> 00:58:03,649

show today

1374

00:58:08,859 --> 00:58:06,109

Keith Roland for producing dark matter

1375

00:58:11,229 --> 00:58:08,869

radio network John Tobin for joining us

1376

00:58:13,689 --> 00:58:11,239

for the news Andy Fleming for the

1377

00:58:16,299 --> 00:58:13,699

astronomy look Carrie Lloyd Whitehouse

1378

00:58:18,849 --> 00:58:16,309

we have actually sui vac for the break

1379

00:58:20,889 --> 00:58:18,859

music today Peggy's shining for managing

1380

00:58:23,919 --> 00:58:20,899

the Facebook page and remember to like

1381

00:58:27,279 --> 00:58:23,929

us on Facebook for all your the latest

1382

00:58:29,589 --> 00:58:27,289

UFO news you can check us out live right

1383

00:58:31,539 --> 00:58:29,599

here next week at the Dark Matter Radio

1384

00:58:33,369 --> 00:58:31,549

Network and every Wednesday at 8 p.m.

1385

00:58:36,009 --> 00:58:33,379

eastern standard time don't forget to

1386

00:58:39,039 --> 00:58:36,019

jump in the chat room at podcast UFO
