

▶ In December 1950 several sightings of a UFO were reported in Rendlesham Forest. Many think these mysterious events are the most significant UFO incident to have occurred in the UK.

During the evening of 26th December, a resident of Southwold, a village approximately 6 miles to the north west of Rendlesham Forest, reported a mysterious shape like an optical illusion in the sky above his garden. Later that night two United States Air Force personnel at the East Gate RAF Woodbridge spotted unusual lights in the forest, and were given permission to go in and investigate. What they reported was very strange.

It was the time of the 'Cold War' and because of the sensitive military situation of the time, the incident was officially reported to the Military Authorities by the Deputy Base Commander (Assistant Colonel) Charles HGE, USAF.

The forest is now very different. Much of the area was replanted following the great storm of 1962. There is of course no tangible evidence of a UFO. There is, however, some broken glass, splintered wood, however, placed together, form messages and recordings that were taken at the time, an intriguing picture.

Pick up a copy of the trail leaflet, follow the trail, read the story and seek out what you think happened.
