

1
00:00:04,160 --> 00:00:02,389
and it hits me oh my gosh this is that

2
00:00:05,360 --> 00:00:04,170
triangle you know there's explanation

3
00:00:07,309 --> 00:00:05,370
for everything that occurred in the

4
00:00:09,410 --> 00:00:07,319
rendlesham forest incident it doesn't

5
00:00:13,190 --> 00:00:09,420
involve aliens at all it was completely

6
00:00:16,039 --> 00:00:13,200
silent it comes right over our head it's

7
00:00:17,660 --> 00:00:16,049
so a classic flying-saucer really

8
00:00:19,400 --> 00:00:17,670
standing in the clearing he turned over

9
00:00:20,689 --> 00:00:19,410
to my father and held his hand and he

10
00:00:27,380 --> 00:00:20,699
looked in his eyes and said we're not

11
00:00:30,290 --> 00:00:27,390
alone welcome to Podcast UFO for our

we're ready to start with the news we

72

00:03:10,130 --> 00:03:07,800

got a lot going on again and how you do

73

00:03:13,520 --> 00:03:10,140

in alejandro i'm doing pretty good busy

74

00:03:16,160 --> 00:03:13,530

busy busy busy busy busy but doing very

75

00:03:18,560 --> 00:03:16,170

well how about yourself good i got a two

76
00:03:20,630 --> 00:03:18,570
day break from the snow but came back

77
00:03:24,199 --> 00:03:20,640
with vengeance and i can barely see my

78
00:03:26,570 --> 00:03:24,209
house ooh yucky snow luckily there's

79
00:03:27,740 --> 00:03:26,580
none here if you watch the superbowl you

80
00:03:32,180 --> 00:03:27,750
saw the wonderful weather we're having

81
00:03:33,770 --> 00:03:32,190
here in Arizona yeah yeah so I know we

82
00:03:36,770 --> 00:03:33,780
got a lot to cover so let's roll right

83
00:03:38,210 --> 00:03:36,780
into it alright yeah not only is the

84
00:03:40,640 --> 00:03:38,220
conference keeping me super busy but

85
00:03:42,410 --> 00:03:40,650
lots of UFO news a ton of it so of

86
00:03:44,810 --> 00:03:42,420
course a lot of people probably saw that

87
00:03:46,490 --> 00:03:44,820
John Greenwald had to take down those

88
00:03:49,460 --> 00:03:46,500

blue book files that you and I have been

89
00:03:51,380 --> 00:03:49,470
speaking about so often some people have

90
00:03:54,050 --> 00:03:51,390
claimed that junk reblogged stole these

91
00:03:56,330 --> 00:03:54,060
files from fold three not true

92
00:03:58,070 --> 00:03:56,340
whatsoever those people many of them

93
00:03:59,960 --> 00:03:58,080
know the truth are just lying i think

94
00:04:02,449 --> 00:03:59,970
some people have a personal grudge

95
00:04:05,000 --> 00:04:02,459
against John for whatever reason but

96
00:04:06,800 --> 00:04:05,010
regardless what happened is most of

97
00:04:09,320 --> 00:04:06,810
those files did come from a company

98
00:04:11,270 --> 00:04:09,330
called fold three and it was a third

99
00:04:13,970 --> 00:04:11,280
party who downloaded all of those files

100
00:04:15,800 --> 00:04:13,980
and provided them to UFO researchers to

101
00:04:18,740 --> 00:04:15,810
post and John Greenwald was able to turn

102
00:04:21,170 --> 00:04:18,750
them into pdfs and post them but he also

103
00:04:23,510 --> 00:04:21,180
posted his personal files that he had

104
00:04:26,270 --> 00:04:23,520
received a blue book as well however

105
00:04:27,200 --> 00:04:26,280
pulled three came and said due to the

106
00:04:29,450 --> 00:04:27,210
digital copy

107
00:04:32,090 --> 00:04:29,460
eight millennium act we own those and

108
00:04:33,890 --> 00:04:32,100
take them down and it's kind of like a

109
00:04:37,279 --> 00:04:33,900
case of you know John Greenwald doesn't

110
00:04:41,029 --> 00:04:37,289
have the money to pay lawyers to fight

111
00:04:43,430 --> 00:04:41,039
him so he unfortunately for NAT I had to

112
00:04:45,379 --> 00:04:43,440
take those down many many people are

113
00:04:48,620 --> 00:04:45,389

disappointed that bold 3 is claiming

114

00:04:51,230 --> 00:04:48,630

digital copy right over documents that

115

00:04:53,659 --> 00:04:51,240

are open to the public and so this is

116

00:04:56,210 --> 00:04:53,669

really frustrating and I know there are

117

00:04:58,400 --> 00:04:56,220

a lot of people fighting this and I have

118

00:04:59,870 --> 00:04:58,410

a feeling that we have not heard the end

119

00:05:02,499 --> 00:04:59,880

of this and I don't think fold 3 is

120

00:05:05,689 --> 00:05:02,509

going to win a long run on this one yeah

121

00:05:10,339 --> 00:05:05,699

yes I've been getting some you know-

122

00:05:12,680 --> 00:05:10,349

emails about this and contact so yeah

123

00:05:14,330 --> 00:05:12,690

I'm just not even going to talk about it

124

00:05:18,290 --> 00:05:14,340

and just so we'll see what happens oh

125

00:05:20,510 --> 00:05:18,300

you see ya but let's do well let me just

126
00:05:22,339 --> 00:05:20,520
tell you something I've had a couple of

127
00:05:24,529 --> 00:05:22,349
weeks of grief because of we've been

128
00:05:27,379 --> 00:05:24,539
talking about this of yeah but you know

129
00:05:29,779 --> 00:05:27,389
what there's a lot of trollers out there

130
00:05:32,719 --> 00:05:29,789
and you know I've always felt I can't

131
00:05:34,909 --> 00:05:32,729
let these small minority of people stop

132
00:05:37,219 --> 00:05:34,919
me from bringing this information to the

133
00:05:38,930 --> 00:05:37,229
the masses and that thousands of people

134
00:05:40,939 --> 00:05:38,940
who are dying for this information and

135
00:05:44,779 --> 00:05:40,949
love it and no doubt the positive

136
00:05:46,580 --> 00:05:44,789
feedback has by far overwhelmed the

137
00:05:48,200 --> 00:05:46,590
negative feedback that is out there even

138
00:05:51,050 --> 00:05:48,210

though those couple of negative people

139

00:05:53,260 --> 00:05:51,060

are very loud yes you know the one thing

140

00:05:56,209 --> 00:05:53,270

I i do say about this whole situation

141

00:05:58,219 --> 00:05:56,219

and I may have said it before is that I

142

00:06:00,290 --> 00:05:58,229

think it's just going to cause more

143

00:06:02,810 --> 00:06:00,300

people to have more awareness and I it

144

00:06:04,279 --> 00:06:02,820

so I think it's you know I don't good

145

00:06:07,310 --> 00:06:04,289

better and different I think it's good

146

00:06:10,040 --> 00:06:07,320

publicity yeah there's been an abundance

147

00:06:12,649 --> 00:06:10,050

of stories local newspapers running

148

00:06:15,379 --> 00:06:12,659

stories about local UFO cases from those

149

00:06:18,230 --> 00:06:15,389

files so there's a lot of education that

150

00:06:20,779 --> 00:06:18,240

has gone on yeah good stuff so what else

151

00:06:23,899 --> 00:06:20,789

is happening a lot so this is a cool

152

00:06:25,600 --> 00:06:23,909

story this is about a conference a small

153

00:06:29,300 --> 00:06:25,610

gathering that's going to go on in

154

00:06:32,240 --> 00:06:29,310

warminster in the UK and it's a 50th

155

00:06:34,999 --> 00:06:32,250

anniversary of a UFO called the thing

156

00:06:37,430 --> 00:06:35,009

and you know that doesn't sound like a

157

00:06:40,310 --> 00:06:37,440

such an exciting story except for when

158

00:06:43,760 --> 00:06:40,320

you read the details of this story so

159

00:06:47,300 --> 00:06:43,770

it's a really interesting case that

160

00:06:49,430 --> 00:06:47,310

started in christmas day of 1964 when

161

00:06:51,740 --> 00:06:49,440

this housewife was walking to church and

162

00:06:54,230 --> 00:06:51,750

she heard these strange crackling sounds

163

00:06:56,600 --> 00:06:54,240

and stuff like that in the town of four

164

00:06:59,240 --> 00:06:56,610

minster the news ran it and it turned

165

00:07:01,100 --> 00:06:59,250

out other people had heard it there were

166

00:07:03,620 --> 00:07:01,110

several witnesses that heard this thing

167

00:07:06,080 --> 00:07:03,630

and there was a UFO sighting and over

168

00:07:08,510 --> 00:07:06,090

the next few months especially there

169

00:07:11,150 --> 00:07:08,520

were like hundreds and hundreds of UFO

170

00:07:14,480 --> 00:07:11,160

sightings and people hearing this weird

171

00:07:18,260 --> 00:07:14,490

sound in warminster they even dubbed

172

00:07:20,690 --> 00:07:18,270

this this UFO which they believed that

173

00:07:23,630 --> 00:07:20,700

the sounds were coming from the thing

174

00:07:25,490 --> 00:07:23,640

and warminster for years that really up

175

00:07:28,270 --> 00:07:25,500

until this day has been known as a UFO

176

00:07:30,680 --> 00:07:28,280

hot spot because of all of this activity

177

00:07:32,600 --> 00:07:30,690

there's been several documentaries that

178

00:07:35,720 --> 00:07:32,610

have been made on the whole thing and

179

00:07:38,600 --> 00:07:35,730

it's a really really interesting case so

180

00:07:40,010 --> 00:07:38,610

the 50th anniversary actually started

181

00:07:41,810 --> 00:07:40,020

you know pretty much in January because

182

00:07:44,690 --> 00:07:41,820

the story's really came out in January

183

00:07:46,520 --> 00:07:44,700

of 1965 but it's a really cool case that

184

00:07:48,920 --> 00:07:46,530

I wanted to share with you and your

185

00:07:50,450 --> 00:07:48,930

listeners because it's worth taking a

186

00:07:53,240 --> 00:07:50,460

look at and there is an interesting

187

00:07:56,330 --> 00:07:53,250

photograph that someone took of a UFO

188

00:07:59,570 --> 00:07:56,340

during this period of time yes up way

189

00:08:01,820 --> 00:07:59,580

back when I had Kevin Goodman on to talk

190

00:08:05,000 --> 00:08:01,830

about this he's a great guy and don't

191

00:08:07,730 --> 00:08:05,010

bloom unfortunately now that I have the

192

00:08:11,300 --> 00:08:07,740

show and the evening it's just too late

193

00:08:14,450 --> 00:08:11,310

for me to have guests on from you know

194

00:08:17,840 --> 00:08:14,460

the UK and Europe but yeah Kevin Goodman

195

00:08:19,490 --> 00:08:17,850

was a big researcher in that yeah I'll

196

00:08:21,620 --> 00:08:19,500

have to talk to him because that's right

197

00:08:23,420 --> 00:08:21,630

and I talked about him in this story

198

00:08:26,330 --> 00:08:23,430

he's the one who's putting on this

199

00:08:29,030 --> 00:08:26,340

conference actually and I would love to

200

00:08:31,460 --> 00:08:29,040

talk to him and because it is a great

201
00:08:35,620 --> 00:08:31,470
case I really like it i will sell you

202
00:08:40,730 --> 00:08:35,630
his contact information perfect good

203
00:08:43,700 --> 00:08:40,740
yeah a cheap you shyster okay another

204
00:08:45,260 --> 00:08:43,710
really cooling is I love this one we've

205
00:08:47,540 --> 00:08:45,270
talked about this before at the

206
00:08:49,940 --> 00:08:47,550
Buckingham Center for astrobiology it's

207
00:08:53,160 --> 00:08:49,950
this group of astrobiologists at the

208
00:08:55,620 --> 00:08:53,170
universities of Buckingham

209
00:08:57,710 --> 00:08:55,630
Sheffield in England they also work with

210
00:08:59,910 --> 00:08:57,720
the University of Alabama and some other

211
00:09:02,550 --> 00:08:59,920
astrobiologists on this side but these

212
00:09:05,670 --> 00:09:02,560
are some scientists who believe they

213
00:09:08,639 --> 00:09:05,680

have several examples of microbial life

214

00:09:11,250 --> 00:09:08,649

essentially found in meteorites mostly

215

00:09:12,449 --> 00:09:11,260

from Mars so these guys are convinced

216

00:09:15,180 --> 00:09:12,459

they've already found extraterrestrial

217

00:09:17,990 --> 00:09:15,190

life what's interesting is one of them

218

00:09:21,960 --> 00:09:18,000

the team lead has been talked to

219

00:09:24,540 --> 00:09:21,970

astrobiology magazine about this orb

220

00:09:26,009 --> 00:09:24,550

this metallic orb that they found they

221

00:09:27,930 --> 00:09:26,019

sent a balloon up into the stratosphere

222

00:09:30,930 --> 00:09:27,940

and we talked about this a couple months

223

00:09:32,160 --> 00:09:30,940

ago right and this balloon opened up and

224

00:09:34,920 --> 00:09:32,170

grabbed some material from the

225

00:09:36,389 --> 00:09:34,930

stratosphere and closed up and then they

226

00:09:38,340 --> 00:09:36,399

examined it and they found something

227

00:09:40,650 --> 00:09:38,350

called a dragon particle which is they

228

00:09:42,449 --> 00:09:40,660

believe is a microbe from space probably

229

00:09:44,280 --> 00:09:42,459

even something that floats in space kind

230

00:09:46,319 --> 00:09:44,290

of like bacteria floating around in

231

00:09:48,180 --> 00:09:46,329

space you know there have been studies

232

00:09:51,990 --> 00:09:48,190

to show that bacteria can survive in

233

00:09:54,689 --> 00:09:52,000

space so it's possible and this is just

234

00:09:56,850 --> 00:09:54,699

one of the extra-terrestrial evidence

235

00:09:59,610 --> 00:09:56,860

that they feel they have however the

236

00:10:02,850 --> 00:09:59,620

balloon when they examined it had a

237

00:10:05,519 --> 00:10:02,860

little metallic orb the size of a hair

238

00:10:10,790 --> 00:10:05,529

that day that made an impact that they

239

00:10:14,130 --> 00:10:10,800

believed was from space as well it has

240

00:10:17,310 --> 00:10:14,140

biological filament on the outside of it

241

00:10:20,819 --> 00:10:17,320

and on the inside they say it it has a

242

00:10:22,620 --> 00:10:20,829

gooey biological material that is oozing

243

00:10:26,310 --> 00:10:22,630

out of it and you can see this

244

00:10:28,050 --> 00:10:26,320

microscope picture that I've put up

245

00:10:30,810 --> 00:10:28,060

there and you can see this oozing

246

00:10:32,850 --> 00:10:30,820

material coming out of it and they feel

247

00:10:36,569 --> 00:10:32,860

that not only is this further evidence

248

00:10:39,600 --> 00:10:36,579

of life from space but they also feel

249

00:10:42,720 --> 00:10:39,610

that this orb could have been something

250

00:10:45,750 --> 00:10:42,730

called direct panspermia so pants Berg

251
00:10:47,939 --> 00:10:45,760
is something this group kind of one of

252
00:10:49,829 --> 00:10:47,949
the scientists of this group coined the

253
00:10:51,509 --> 00:10:49,839
phrase which is the idea that life is

254
00:10:53,579 --> 00:10:51,519
abundant and it travels on meteorites

255
00:10:55,379 --> 00:10:53,589
and comets and kind of rains down on the

256
00:10:57,900 --> 00:10:55,389
planet and that's how life came here

257
00:11:01,980 --> 00:10:57,910
from elsewhere but directed panspermia

258
00:11:04,290 --> 00:11:01,990
is ek civilizations directly seeding

259
00:11:07,060 --> 00:11:04,300
life on other planets kind of like the

260
00:11:08,650 --> 00:11:07,070
movie Prometheus so they're saying this

261
00:11:10,360 --> 00:11:08,660
could have been sent here to seed life

262
00:11:12,820 --> 00:11:10,370
where viruses or something like that

263
00:11:14,830 --> 00:11:12,830

they admit it would be difficult if not

264

00:11:16,900 --> 00:11:14,840

impossible to prove it but it is a

265

00:11:19,780 --> 00:11:16,910

theory that they're putting out there

266

00:11:22,110 --> 00:11:19,790

but here again this group's believes

267

00:11:25,420 --> 00:11:22,120

they found even more evidence of

268

00:11:28,390 --> 00:11:25,430

extraterrestrial life amazing I you know

269

00:11:30,850 --> 00:11:28,400

just like jason said this is going to be

270

00:11:34,360 --> 00:11:30,860

the year i really i really think it is

271

00:11:37,960 --> 00:11:34,370

yeah it may be the year and you know

272

00:11:40,060 --> 00:11:37,970

what's cool about this too is that even

273

00:11:41,860 --> 00:11:40,070

though they're kind of considered they

274

00:11:45,130 --> 00:11:41,870

are legitimate scientist but they are

275

00:11:48,160 --> 00:11:45,140

considered a little fringe however NASA

276

00:11:49,960 --> 00:11:48,170

is repeating their study NASA is going

277

00:11:52,780 --> 00:11:49,970

to also send a balloon into the

278

00:11:55,210 --> 00:11:52,790

stratosphere to see if it can get

279

00:11:58,780 --> 00:11:55,220

microbes as well well that's real

280

00:12:01,300 --> 00:11:58,790

exciting news mm-hmm now do we have

281

00:12:03,880 --> 00:12:01,310

another story was that is that it no

282

00:12:06,880 --> 00:12:03,890

that's not it buddy speaking of exciting

283

00:12:08,740 --> 00:12:06,890

news there's more now that these are

284

00:12:11,260 --> 00:12:08,750

both Roswell stories this first one is

285

00:12:14,200 --> 00:12:11,270

not as exciting this is really regarding

286

00:12:16,870 --> 00:12:14,210

a video that a Australian New Zealand

287

00:12:19,480 --> 00:12:16,880

magazine called uncensored has released

288

00:12:21,520 --> 00:12:19,490

that they say is they're the first ones

289

00:12:23,470 --> 00:12:21,530

to have this and they've been able to

290

00:12:25,660 --> 00:12:23,480

prove that this video shows a Roswell

291

00:12:29,020 --> 00:12:25,670

alien being collected by the airport

292

00:12:31,300 --> 00:12:29,030

yeah well it's not a new video it's

293

00:12:35,160 --> 00:12:31,310

actually been around for many many years

294

00:12:39,040 --> 00:12:35,170

it's part of the Roswell dissection

295

00:12:42,010 --> 00:12:39,050

autopsy alien video that was out in the

296

00:12:44,530 --> 00:12:42,020

mid 90s that has since been debunked

297

00:12:46,330 --> 00:12:44,540

where the guy raves until he says oh yeah

298

00:12:49,660 --> 00:12:46,340

well that isn't real but I did see a

299

00:12:53,320 --> 00:12:49,670

real video and i made this to look like

300

00:12:54,760 --> 00:12:53,330

the real video it also this clip in

301

00:12:56,800 --> 00:12:54,770

particular which is you know the best

302

00:12:58,750 --> 00:12:56,810

produce clip because there's more actors

303

00:13:00,460 --> 00:12:58,760

kind of running around and and it is a

304

00:13:03,070 --> 00:13:00,470

very well produced little clip that

305

00:13:06,940 --> 00:13:03,080

looks legitimate it was actually also

306

00:13:09,780 --> 00:13:06,950

part of a movie called alien autopsy

307

00:13:12,730 --> 00:13:09,790

where these committee comedians kind of

308

00:13:14,350 --> 00:13:12,740

did a movie that kind of mirrored what

309

00:13:17,440 --> 00:13:14,360

really happened there and what would you

310

00:13:18,620 --> 00:13:17,450

do if you had real alien video kind of

311

00:13:20,600 --> 00:13:18,630

thing

312

00:13:23,030 --> 00:13:20,610

but this so this is just a rehash of

313

00:13:24,980 --> 00:13:23,040

some old stuff these guys for some

314

00:13:27,200 --> 00:13:24,990

reason I guess just for marketing

315

00:13:28,790 --> 00:13:27,210

purposes are saying that it's the first

316

00:13:30,530 --> 00:13:28,800

time it's been out there maybe they

317

00:13:32,180 --> 00:13:30,540

don't know maybe they were told that by

318

00:13:33,380 --> 00:13:32,190

whoever gave it to him but with a little

319

00:13:35,710 --> 00:13:33,390

bit of research they could have found

320

00:13:39,590 --> 00:13:35,720

that this video has been out for a while

321

00:13:42,800 --> 00:13:39,600

however no evidence of Roswell aliens

322

00:13:44,630 --> 00:13:42,810

and photographs of Roswell aliens was

323

00:13:48,320 --> 00:13:44,640

promised to be released by a man named

324

00:13:51,620 --> 00:13:48,330

Tom Carey who in November told American

325

00:13:53,900 --> 00:13:51,630

University in a panel you know with

326

00:13:57,620 --> 00:13:53,910

Leslie Kane and some other UFO

327

00:14:01,250 --> 00:13:57,630

researchers that that he had the smoking

328

00:14:04,130 --> 00:14:01,260

gun he had photos of an alien but he

329

00:14:06,290 --> 00:14:04,140

couldn't show him yet well he has

330

00:14:08,540 --> 00:14:06,300

coupled up with you know his research

331

00:14:10,130 --> 00:14:08,550

partners Don Schmidt but he has

332

00:14:12,980 --> 00:14:10,140

partnered up they have partnered up with

333

00:14:15,290 --> 00:14:12,990

Jaime moose on and Jaime moose on

334

00:14:18,320 --> 00:14:15,300

announced today in an online press

335

00:14:20,180 --> 00:14:18,330

conference that may fifth at the

336

00:14:22,070 --> 00:14:20,190

National auditorium in Mexico City

337

00:14:24,800 --> 00:14:22,080

they're going to release these pictures

338

00:14:26,720 --> 00:14:24,810

and show them to the world and they told

339

00:14:29,210 --> 00:14:26,730

us a lot they showed a lot of pictures

340

00:14:31,370 --> 00:14:29,220

in some videos that they posted on

341

00:14:33,020 --> 00:14:31,380

youtube today as part of this press

342

00:14:35,380 --> 00:14:33,030

conference and gave a lot more

343

00:14:39,040 --> 00:14:35,390

information about these photographs

344

00:14:42,080 --> 00:14:39,050

essentially there was a woman who was

345

00:14:45,530 --> 00:14:42,090

cleaning up a home of this deceased

346

00:14:47,150 --> 00:14:45,540

couple and she found a box of

347

00:14:50,090 --> 00:14:47,160

photographs and they were preparing a

348

00:14:51,410 --> 00:14:50,100

for an estate sale they these were part

349

00:14:53,960 --> 00:14:51,420

of the things they wanted her to throw

350

00:14:56,270 --> 00:14:53,970

away but she decided to keep him this is

351
00:14:58,580 --> 00:14:56,280
the nineteen eighty nine ten years later

352
00:15:00,470 --> 00:14:58,590
she picks up the box and she looks and

353
00:15:03,500 --> 00:15:00,480
she sees pictures at Dwight Eisenhower

354
00:15:05,540 --> 00:15:03,510
Clark Gable's some famous people and she

355
00:15:08,570 --> 00:15:05,550
thinks wow these are really cool well

356
00:15:11,030 --> 00:15:08,580
the bottom of the boxes you know damaged

357
00:15:12,530 --> 00:15:11,040
by water it starts to fall apart she

358
00:15:14,870 --> 00:15:12,540
sees that there are some slides that are

359
00:15:17,510 --> 00:15:14,880
wrapped up carefully opens him up and

360
00:15:20,570 --> 00:15:17,520
there's two slides there that looked

361
00:15:22,670 --> 00:15:20,580
like an alien a friend of the family

362
00:15:25,520 --> 00:15:22,680
said he saw them and he said yeah that

363
00:15:27,350 --> 00:15:25,530

she you know if you look at them most

364

00:15:28,790 --> 00:15:27,360

people say hey hey those are aliens

365

00:15:32,120 --> 00:15:28,800

because they look like what we think

366

00:15:34,820 --> 00:15:32,130

aliens look like missing sigh sect it's

367

00:15:36,680 --> 00:15:34,830

is off of itself but there's been some

368

00:15:41,240 --> 00:15:36,690

analysis to show these pictures do come

369

00:15:44,540 --> 00:15:41,250

from 1947 or around there the sleeve

370

00:15:46,940 --> 00:15:44,550

comes from the time period so they

371

00:15:50,300 --> 00:15:46,950

believe these pictures legitimately were

372

00:15:52,130 --> 00:15:50,310

from that period of time and that's

373

00:15:54,100 --> 00:15:52,140

about really as far as we get with

374

00:15:57,560 --> 00:15:54,110

analysis so they believe them to be

375

00:15:59,000 --> 00:15:57,570

legitimate real aliens and they're

376

00:16:01,490 --> 00:15:59,010

saying they're thinking cuz it's from

377

00:16:03,620 --> 00:16:01,500

1947 these got to be the Roswell aliens

378

00:16:06,980 --> 00:16:03,630

I guess it looks like this thing's

379

00:16:09,980 --> 00:16:06,990

laying on an army cot or an army blanket

380

00:16:12,470 --> 00:16:09,990

but yeah so this pictures will be shown

381

00:16:13,910 --> 00:16:12,480

in May and in my story that I'm still

382

00:16:16,940 --> 00:16:13,920

preparing but we'll have posted

383

00:16:20,810 --> 00:16:16,950

hopefully at you know by the time people

384

00:16:24,650 --> 00:16:20,820

click on the link on your page there's

385

00:16:27,610 --> 00:16:24,660

even pictures of kind of a an animation

386

00:16:31,400 --> 00:16:27,620

of what the alien would have looked like

387

00:16:32,720 --> 00:16:31,410

Wow yes please do make sure you send

388

00:16:36,590 --> 00:16:32,730

that link after you get the story done

389

00:16:38,270 --> 00:16:36,600

will do so do you want to hear about

390

00:16:40,490 --> 00:16:38,280

another story I'm working on by the time

391

00:16:42,380 --> 00:16:40,500

news is still quicker this time next

392

00:16:44,600 --> 00:16:42,390

week comes around it'll be old news all

393

00:16:46,970 --> 00:16:44,610

right sure but yeah I'm just working on

394

00:16:50,300 --> 00:16:46,980

this other video that Steven Greer has

395

00:16:53,540 --> 00:16:50,310

released from C SETI he charges people

396

00:16:55,130 --> 00:16:53,550

25 hundred dollars to go out and he

397

00:16:57,980 --> 00:16:55,140

teaches people how to communicate with

398

00:17:00,520 --> 00:16:57,990

aliens and to call in UFOs they've got a

399

00:17:02,510 --> 00:17:00,530

photograph of what they say is an alien

400

00:17:04,220 --> 00:17:02,520

unfortunately really this thing's looks

401

00:17:07,010 --> 00:17:04,230

like a blob to me I don't see it

402

00:17:09,319 --> 00:17:07,020

whatsoever but they feel that they were

403

00:17:10,579 --> 00:17:09,329

visited by an alien that you know nobody

404

00:17:13,069 --> 00:17:10,589

saw it with their eyes but it was

405

00:17:15,350 --> 00:17:13,079

captured on a camera but this recent

406

00:17:17,720 --> 00:17:15,360

video he just posted like yesterday or

407

00:17:20,179 --> 00:17:17,730

the day before shows he's two bright

408

00:17:24,439 --> 00:17:20,189

objects out over the ocean and they're

409

00:17:26,809 --> 00:17:24,449

at Vero Beach in Florida well just for

410

00:17:28,189 --> 00:17:26,819

people I mean I've heard from someone

411

00:17:31,520 --> 00:17:28,199

else who's a witness who said he saw

412

00:17:34,670 --> 00:17:31,530

some flying discs but to me they looked

413

00:17:38,540 --> 00:17:34,680

like flares because they they appear and

414

00:17:40,400 --> 00:17:38,550

then they fall slowly even to the right

415

00:17:43,670 --> 00:17:40,410

and then they fade out which is exactly

416

00:17:45,529 --> 00:17:43,680

what a flare would do so far the experts

417

00:17:48,379 --> 00:17:45,539

I have spoken with have

418

00:17:49,820 --> 00:17:48,389

agreed with that they've independently I

419

00:17:51,950 --> 00:17:49,830

didn't tell him what I thought it was I

420

00:17:53,930 --> 00:17:51,960

was just like what do you guys think and

421

00:17:55,879 --> 00:17:53,940

Mark Dantonio in particular pointed out

422

00:17:59,450 --> 00:17:55,889

some some good things to show that you

423

00:18:01,759 --> 00:17:59,460

know definitely flares so that's what it

424

00:18:06,009 --> 00:18:01,769

appears to be so when your readers

425

00:18:08,210 --> 00:18:06,019

listeners see those videos they can

426

00:18:10,340 --> 00:18:08,220

determine for themselves but at least

427

00:18:13,580 --> 00:18:10,350

thus far from the experts that's what

428

00:18:16,909 --> 00:18:13,590

I'm hearing well I wonder if it I wonder

429

00:18:18,889 --> 00:18:16,919

if Stephen put the little a Tacoma baby

430

00:18:21,529 --> 00:18:18,899

you know in a little parachute and one

431

00:18:23,719 --> 00:18:21,539

of the flares yeah he was so excited

432

00:18:26,119 --> 00:18:23,729

that and blew it up yeah he might have

433

00:18:29,210 --> 00:18:26,129

done that yeah oh my gosh I didn't even

434

00:18:32,810 --> 00:18:29,220

think of that Hey well that's it finally

435

00:18:35,180 --> 00:18:32,820

right that is finally it my friend a lot

436

00:18:36,889 --> 00:18:35,190

of news and luckily for you I'm busy

437

00:18:39,109 --> 00:18:36,899

with the conference you're getting a lot

438

00:18:41,779 --> 00:18:39,119

of the news even before we have it

439

00:18:43,219 --> 00:18:41,789

posted well great so make sure you send

440

00:18:46,430 --> 00:18:43,229

those links and the listeners out there

441

00:18:48,710 --> 00:18:46,440

you can check out podcast UFO calm and

442

00:18:51,289 --> 00:18:48,720

the show notes and links to all those

443

00:18:52,909 --> 00:18:51,299

stories and videos and all that so thank

444

00:18:55,519 --> 00:18:52,919

you very much Alejandro and we'll be

445

00:18:57,950 --> 00:18:55,529

stay tuned we have a little music break

448

00:20:05,549 --> 00:19:01,440

and then we're coming back with Jesse

449

00:20:11,830 --> 00:20:09,130

welcome to the show Jessie hello are you

450

00:20:14,620 --> 00:20:11,840

doing today I'm doing good thanks so

451

00:20:16,480 --> 00:20:14,630

much for uh for offering via guess we

452

00:20:18,789 --> 00:20:16,490

have a couple things to talk about here

453

00:20:20,680 --> 00:20:18,799

tonight first of all I want to say to

454

00:20:22,780 --> 00:20:20,690

the live listener if you're listening

455

00:20:26,080 --> 00:20:22,790

live please jump over to the chat room

456

00:20:29,500 --> 00:20:26,090

and join in that's at podcast UFO calm

457

00:20:31,180 --> 00:20:29,510

and it's just two clicks to get in Jesse

458

00:20:33,310 --> 00:20:31,190

we're going to be talking about your

459

00:20:36,370 --> 00:20:33,320

your new venture which is I think really

460

00:20:38,440 --> 00:20:36,380

exciting I don't know a lot about flying

461

00:20:41,440 --> 00:20:38,450

cars but I've always been intrigued by

462

00:20:45,010 --> 00:20:41,450

them and I remember watching videos back

463

00:20:46,930 --> 00:20:45,020

in the wanna say this 70s or 60s but

464

00:20:49,030 --> 00:20:46,940

anyway the second hour we're going to be

465

00:20:51,970 --> 00:20:49,040

talking about Roswell your family

466

00:20:55,570 --> 00:20:51,980

connection stuff like that sure so for

467

00:20:57,789 --> 00:20:55,580

someone who has not heard you before can

468

00:21:01,060 --> 00:20:57,799

you just give a real you know short in

469

00:21:03,100 --> 00:21:01,070

the nutshell type of explanation of who

470

00:21:06,010 --> 00:21:03,110

you are your family connection and then

471

00:21:08,500 --> 00:21:06,020

we'll get into your car okay happy to

472

00:21:11,200 --> 00:21:08,510

well I key said my name is Jesse Marcel

473

00:21:14,560 --> 00:21:11,210

actually Jesse Marcel third I am the

474

00:21:16,960 --> 00:21:14,570

grandson of major Marcel who was one of

475

00:21:20,620 --> 00:21:16,970

the lead investigators into the roswell

476

00:21:23,020 --> 00:21:20,630

incident of grew up in Montana or with

477

00:21:25,690 --> 00:21:23,030

my father dr. Marcel who also was part

478

00:21:28,060 --> 00:21:25,700

of the story of course and spent summers

479

00:21:31,320 --> 00:21:28,070

in Louisiana some earlier days that

480

00:21:36,180 --> 00:21:31,330

grandpa's house in Houma Louisiana and

481

00:21:38,799 --> 00:21:36,190

it was through this adventure and the

482

00:21:41,620 --> 00:21:38,809

communications we I learned about

483

00:21:43,390 --> 00:21:41,630

Roswell and was kind of one of the

484

00:21:46,900 --> 00:21:43,400

people that the story was handed down to

485

00:21:51,130 --> 00:21:46,910

go right in a nutshell that that was

486

00:21:53,500 --> 00:21:51,140

really good grief yeah yeah and we had

487

00:21:55,990 --> 00:21:53,510

you on the show a while back and yes and

488

00:21:58,780 --> 00:21:56,000

it was really nice talking and you know

489

00:22:02,020 --> 00:21:58,790

we lost your father last year i should

490

00:22:04,299 --> 00:22:02,030

say hello there yeah so happy we really

491

00:22:07,930 --> 00:22:04,309

miss him yah daett you do he seemed like

492

00:22:09,520 --> 00:22:07,940

such a an awesome man really yeah you

493

00:22:11,770 --> 00:22:09,530

know he was one of those people that I

494

00:22:16,390 --> 00:22:11,780

you know it he added a lot of

495

00:22:18,310 --> 00:22:16,400

credibility to the UF ology and the

496

00:22:21,070 --> 00:22:18,320

this study in the stories behind Roswell

497

00:22:25,000 --> 00:22:21,080

he was a medical doctor colonel in the

498

00:22:27,880 --> 00:22:25,010

military and you know his story of his

499

00:22:31,960 --> 00:22:27,890

experience was never varied from what he

500

00:22:33,820 --> 00:22:31,970

saw as a child was a child and and you

501
00:22:36,510 --> 00:22:33,830
culminate that into a like I said a

502
00:22:40,570 --> 00:22:36,520
medical doctor physician who is an avid

503
00:22:43,180 --> 00:22:40,580
astronomer and physicist also and anyway

504
00:22:46,300 --> 00:22:43,190
yes I was a kind of background yeah yeah

505
00:22:50,500 --> 00:22:46,310
now let's talk about your brainchild

506
00:22:56,230 --> 00:22:50,510
here is it your idea this airborne

507
00:22:59,410 --> 00:22:56,240
motors yeah it's it's a truck driver out

508
00:23:00,910 --> 00:22:59,420
too long as a child my dad would bring

509
00:23:02,530 --> 00:23:00,920
in me and my brother over to summer

510
00:23:04,150 --> 00:23:02,540
called the halter laboratories they were

511
00:23:06,910 --> 00:23:04,160
located in Helena Montana where we grew

512
00:23:08,620 --> 00:23:06,920
up this gentlemen Norman halter he

513
00:23:10,720 --> 00:23:08,630

invented the holter monitor that kind of

514

00:23:12,280 --> 00:23:10,730

thing and happy to be here Jeff holders

515

00:23:13,990 --> 00:23:12,290

gives me was a good friend of the

516

00:23:16,780 --> 00:23:14,000

family's and he had in his laboratory

517

00:23:18,430 --> 00:23:16,790

had it was like four floors one was

518

00:23:21,100 --> 00:23:18,440

nothing but physics one was chemistry

519

00:23:24,220 --> 00:23:21,110

one was biology and one was just kind of

520

00:23:27,670 --> 00:23:24,230

crazy everything put together so I grew

521

00:23:30,580 --> 00:23:27,680

up in this atmosphere of you know

522

00:23:33,550 --> 00:23:30,590

basically studying testing physics all

523

00:23:36,400 --> 00:23:33,560

that kind of thing and my dad really

524

00:23:40,330 --> 00:23:36,410

ingrained with us as kids that it was

525

00:23:41,950 --> 00:23:40,340

important for us to grasp the ideas out

526

00:23:44,520 --> 00:23:41,960

there you know to come to our

527

00:23:46,780 --> 00:23:44,530

conclusions do our own testing etc for

528

00:23:49,090 --> 00:23:46,790

different ideas that we might have and

529

00:23:52,060 --> 00:23:49,100

we had the luxury of that laboratory as

530

00:23:53,980 --> 00:23:52,070

a small example I think on the top floor

531

00:23:57,370 --> 00:23:53,990

he had jars and jars of different

532

00:24:00,430 --> 00:23:57,380

chemicals and one of those was basically

533

00:24:01,870 --> 00:24:00,440

powdered zinc and sulfur and you mix

534

00:24:03,970 --> 00:24:01,880

them together in the right combination

535

00:24:05,650 --> 00:24:03,980

you makes a great rocket fuel so that's

536

00:24:07,030 --> 00:24:05,660

is what we see and my brother started

537

00:24:08,770 --> 00:24:07,040

doing is making the rocket fuels and we

538

00:24:10,810 --> 00:24:08,780

were kids and you know causing trouble

539

00:24:15,670 --> 00:24:10,820

with a little few fires in the garage

540

00:24:17,890 --> 00:24:15,680

that kind of thing anyway going going to

541

00:24:19,630 --> 00:24:17,900

Ethel now in the last few years I just

542

00:24:23,890 --> 00:24:19,640

eat other there's some ideas out there

543

00:24:25,660 --> 00:24:23,900

for flying cars the the real name or the

544

00:24:27,700 --> 00:24:25,670

the true name or more proper name would

545

00:24:29,120 --> 00:24:27,710

be a personal air vehicle I was actually

546

00:24:32,260 --> 00:24:29,130

created by NASA that

547

00:24:36,140 --> 00:24:32,270

terminology anyway in the last 20 years

548

00:24:38,180 --> 00:24:36,150

and what's out there is uh you know more

549

00:24:40,730 --> 00:24:38,190

like go airplanes with folding wings can

550

00:24:42,560 --> 00:24:40,740

be driven on the highway helicopters on

551
00:24:44,570 --> 00:24:42,570
wheels there are a couple of other

552
00:24:46,340 --> 00:24:44,580
attempts out there than going on for

553
00:24:47,810 --> 00:24:46,350
decades really to try to create some

554
00:24:50,150 --> 00:24:47,820
kind of a stable vehicle and they just

555
00:24:52,640 --> 00:24:50,160
haven't had that much luck with it but I

556
00:24:56,540 --> 00:24:52,650
came up with this new concept and that's

557
00:25:00,730 --> 00:24:56,550
where it's based on a gyroscope it's a

558
00:25:04,760 --> 00:25:00,740
flying car that has a hybrid rotor that

559
00:25:06,830 --> 00:25:04,770
create stability creates thrust the the

560
00:25:09,230 --> 00:25:06,840
body of the vehicle actually creates a

561
00:25:11,840 --> 00:25:09,240
magnetic field around the rotor that

562
00:25:14,810 --> 00:25:11,850
creates the nozzle that rotor to spin

563
00:25:16,790 --> 00:25:14,820

basically other than that if you take

564

00:25:20,480 --> 00:25:16,800

that component out of it it's a like a

565

00:25:22,810 --> 00:25:20,490

giant quadcopter so you put those two

566

00:25:26,510 --> 00:25:22,820

elements together and that's what it is

567

00:25:28,130 --> 00:25:26,520

by all the you know I've been working on

568

00:25:30,680 --> 00:25:28,140

it for a while now we've we have 3d

569

00:25:33,440 --> 00:25:30,690

printed modal models got it a prototype

570

00:25:35,210 --> 00:25:33,450

in the computer systems to keep it

571

00:25:36,980 --> 00:25:35,220

stable that kind of thing so that's this

572

00:25:39,050 --> 00:25:36,990

kind of works out right now now isn't

573

00:25:41,120 --> 00:25:39,060

there it seems to me I watched a

574

00:25:43,610 --> 00:25:41,130

documentary I don't know maybe a year or

575

00:25:46,430 --> 00:25:43,620

two ago but a guy that has something

576

00:25:48,890 --> 00:25:46,440

with rotary engines separate four

577

00:25:50,990 --> 00:25:48,900

separate rotary engine oh yeah I with

578

00:25:54,050 --> 00:25:51,000

that yeah very familiar it's been around

579

00:25:56,330 --> 00:25:54,060

for like 30 something years and it

580

00:25:58,460 --> 00:25:56,340

they've you know I don't want to talk

581

00:25:59,660 --> 00:25:58,470

out of out of character optics I'm not

582

00:26:00,860 --> 00:25:59,670

familiar with a project other than what

583

00:26:02,150 --> 00:26:00,870

i've read on the internet and i've

584

00:26:05,120 --> 00:26:02,160

looked at the patents for that kind of

585

00:26:06,890 --> 00:26:05,130

thing to see how it operated it's it's

586

00:26:08,360 --> 00:26:06,900

actually fairly simple it's based on

587

00:26:11,030 --> 00:26:08,370

technology that's been around for

588

00:26:13,910 --> 00:26:11,040

decades and i think they're trying to

589

00:26:15,170 --> 00:26:13,920

evolve it and make it more of a computer

590

00:26:18,320 --> 00:26:15,180

some some kind of computer system to

591

00:26:20,780 --> 00:26:18,330

control the thrust vectoring of those 20

592

00:26:23,600 --> 00:26:20,790

of the turbines to try to make it stable

593

00:26:26,900 --> 00:26:23,610

uh-huh and in the difference with yours

594

00:26:30,170 --> 00:26:26,910

is you have the centrifugal wheel

595

00:26:32,570 --> 00:26:30,180

basically I mean the gyroscope right

596

00:26:34,670 --> 00:26:32,580

it's it's it's a hybridization of

597

00:26:37,760 --> 00:26:34,680

technologies that create a stable

598

00:26:40,130 --> 00:26:37,770

aircraft or a personal our vehicle so it

599

00:26:42,140 --> 00:26:40,140

is different that by using the

600

00:26:42,890 --> 00:26:42,150

technology that I have applied to this

601
00:26:44,090 --> 00:26:42,900
I'm not

602
00:26:46,820 --> 00:26:44,100
means the inventor of this technology

603
00:26:48,680 --> 00:26:46,830
i'm just applying it to this car it

604
00:26:51,130 --> 00:26:48,690
creates something that's very compact

605
00:26:54,890 --> 00:26:51,140
they can fly they can fit your garage

606
00:26:57,860 --> 00:26:54,900
very easy to fly I always go into the

607
00:26:59,690 --> 00:26:57,870
numbers 80 it it could if they basically

608
00:27:01,610 --> 00:26:59,700
could be autonomously controlled you

609
00:27:03,290 --> 00:27:01,620
know from no different in a quad Capri

610
00:27:06,710 --> 00:27:03,300
control from iphone if it's you know a

611
00:27:08,210 --> 00:27:06,720
drone so to speak I'm extremely stable

612
00:27:09,350 --> 00:27:08,220
if you were to fly it yourself and it

613
00:27:10,850 --> 00:27:09,360

was to get out of control you just let

614

00:27:12,500 --> 00:27:10,860

go to ball the controls and it would

615

00:27:16,010 --> 00:27:12,510

immediately right itself into ahead of

616

00:27:19,310 --> 00:27:16,020

us solid hover so the whole idea behind

617

00:27:21,830 --> 00:27:19,320

it is creating the most stable you know

618

00:27:24,830 --> 00:27:21,840

stable vehicle possible that's easy to

619

00:27:26,570 --> 00:27:24,840

fly easy to drive it uses a steering

620

00:27:29,540 --> 00:27:26,580

wheel and pedals it drives just like a

621

00:27:31,370 --> 00:27:29,550

rare car yeah let's step okay how do you

622

00:27:35,330 --> 00:27:31,380

have your pilot's license are you to fly

623

00:27:38,390 --> 00:27:35,340

no I do not uh-huh so this is just

624

00:27:41,120 --> 00:27:38,400

something you have an interest in

625

00:27:44,600 --> 00:27:41,130

somehow or how did your father flew

626

00:27:47,240 --> 00:27:44,610

right he was a helicopter pilot ah he

627

00:27:50,090 --> 00:27:47,250

didn't fly fixed wings but he was a part

628

00:27:52,460 --> 00:27:50,100

of an attack battalion although some of

629

00:27:55,040 --> 00:27:52,470

the some of the processes that we are

630

00:27:57,710 --> 00:27:55,050

using the helicopters used in this but

631

00:27:59,570 --> 00:27:57,720

Mike I used to be a wildland firefighter

632

00:28:01,460 --> 00:27:59,580

and I was part of a hell attack team red

633

00:28:04,370 --> 00:28:01,470

likes the closest I've ever been is

634

00:28:06,710 --> 00:28:04,380

writing and Huey helicopters to go to

635

00:28:08,780 --> 00:28:06,720

the the Front's of different fires

636

00:28:11,710 --> 00:28:08,790

forest fires that kind of thing but I

637

00:28:14,030 --> 00:28:11,720

was an average RC modeler mm-hm and

638

00:28:15,620 --> 00:28:14,040

really became interested in it when the

639

00:28:16,760 --> 00:28:15,630

when we had electric motors and

640

00:28:18,550 --> 00:28:16,770

batteries capable of you know

641

00:28:21,200 --> 00:28:18,560

lightweight lithium-ion kind of things

642

00:28:23,510 --> 00:28:21,210

capable of powering these things and the

643

00:28:25,820 --> 00:28:23,520

same thing about this the typhoon i

644

00:28:28,430 --> 00:28:25,830

called it is it's complete wreck it's

645

00:28:31,070 --> 00:28:28,440

just we just had a question up in the in

646

00:28:32,900 --> 00:28:31,080

the chat room asking that if you yeah so

647

00:28:34,940 --> 00:28:32,910

it's an electric complete electric

648

00:28:37,970 --> 00:28:34,950

there's there's some very large

649

00:28:40,580 --> 00:28:37,980

advantages to being electric one is that

650

00:28:43,040 --> 00:28:40,590

your you create a hundred percent of the

651
00:28:46,250 --> 00:28:43,050
torque available to you the instant the

652
00:28:49,100 --> 00:28:46,260
motor starts turning so you can have a

653
00:28:50,870 --> 00:28:49,110
design of a rotor but to make it as

654
00:28:52,130 --> 00:28:50,880
obviously we want to make it so it

655
00:28:53,900 --> 00:28:52,140
actually fly in and out of your garage

656
00:28:55,820 --> 00:28:53,910
you know you're pulling a driver I take

657
00:28:56,690 --> 00:28:55,830
off need to be it needs to be as quiet

658
00:28:59,100 --> 00:28:56,700
as possible

659
00:29:00,960 --> 00:28:59,110
you can't have something it's going to

660
00:29:04,020 --> 00:29:00,970
be sound like a jet taking off in your

661
00:29:05,730 --> 00:29:04,030
neighborhood you can create an immense

662
00:29:07,799 --> 00:29:05,740
amount of torque instantly through

663
00:29:10,980 --> 00:29:07,809

electric motor the way it is right now

664

00:29:14,160 --> 00:29:10,990

you can buy it by having us basically a

665

00:29:16,440 --> 00:29:14,170

rotor that has steep enough did the

666

00:29:18,000 --> 00:29:16,450

actual fins inside of it create the

667

00:29:19,920 --> 00:29:18,010

thrust it doesn't have a spin as fast

668

00:29:22,320 --> 00:29:19,930

it's like propeller wood to create the

669

00:29:23,640 --> 00:29:22,330

same thrust so you can you can power you

670

00:29:25,080 --> 00:29:23,650

can you can turn something that's going

671

00:29:26,520 --> 00:29:25,090

to take a lot of force because it's

672

00:29:28,290 --> 00:29:26,530

because of a sheer size about 10 feet in

673

00:29:30,260 --> 00:29:28,300

diameter but the way the but with a

674

00:29:33,180 --> 00:29:30,270

torque electricity does it well and

675

00:29:35,310 --> 00:29:33,190

another opponent component of being

676

00:29:36,810 --> 00:29:35,320

electric is that it's fully manageable

677

00:29:39,180 --> 00:29:36,820

you can you can raise and lower the

678

00:29:40,940 --> 00:29:39,190

revolutions per minute the RPMs of the

679

00:29:42,810 --> 00:29:40,950

road or very easily and very

680

00:29:45,630 --> 00:29:42,820

incrementally you know you can you know

681

00:29:47,549 --> 00:29:45,640

by the in series of you know 10 rpms

682

00:29:48,930 --> 00:29:47,559

2030 a thousand thousand ten thousand

683

00:29:50,549 --> 00:29:48,940

twenty that kind of thing but when

684

00:29:53,720 --> 00:29:50,559

you're talking about a gas-powered

685

00:29:56,190 --> 00:29:53,730

turban it's not going to be as nearly

686

00:29:58,740 --> 00:29:56,200

controllable you know when you raise and

687

00:30:00,510 --> 00:29:58,750

lower the rpms and a gas motor you don't

688

00:30:02,730 --> 00:30:00,520

have the kind of flexibility you don't

689

00:30:05,970 --> 00:30:02,740

have the kind of control you would with

690

00:30:08,600 --> 00:30:05,980

an electric motor right hi I know of an

691

00:30:12,419 --> 00:30:08,610

investor you ought to get the word to

692

00:30:15,240 --> 00:30:12,429

how about you on musk yeah it's at ya

693

00:30:17,580 --> 00:30:15,250

with a Tesla XP SpaceX and that kind of

694

00:30:21,060 --> 00:30:17,590

thing you're not the first person to say

695

00:30:23,100 --> 00:30:21,070

that I have a business partner who we do

696

00:30:24,630 --> 00:30:23,110

movies with and he just bought the

697

00:30:26,520 --> 00:30:24,640

latest Tesla D and that kind of thing

698

00:30:29,610 --> 00:30:26,530

and he's a huge Elon Musk fan and that

699

00:30:31,020 --> 00:30:29,620

is that that's a possibility right and

700

00:30:33,510 --> 00:30:31,030

we're we're in the middle of when we

701

00:30:34,560 --> 00:30:33,520

talked a couple weeks ago I was in the

702

00:30:36,930 --> 00:30:34,570

middle of doing an IndieGoGo campaign

703

00:30:38,549 --> 00:30:36,940

you know putting together and massaging

704

00:30:42,210 --> 00:30:38,559

it ready to go out there and sing about

705

00:30:44,520 --> 00:30:42,220

doing a bit of crowdfunding and just

706

00:30:47,790 --> 00:30:44,530

basically to get it from the the

707

00:30:51,390 --> 00:30:47,800

prototype stage into something could be

708

00:30:55,049 --> 00:30:51,400

tested man pilot kind of thing and in

709

00:30:58,169 --> 00:30:55,059

the thrust of that I have some friends

710

00:30:59,669 --> 00:30:58,179

who are they do extreme television for I

711

00:31:02,130 --> 00:30:59,679

want to mention the name but one of the

712

00:31:05,700 --> 00:31:02,140

larger you know power drink companies

713

00:31:09,800 --> 00:31:05,710

and in this meeting they're talking

714

00:31:12,830 --> 00:31:09,810

about the latest series

715

00:31:15,020 --> 00:31:12,840

they like to produce with them late

716

00:31:17,860 --> 00:31:15,030

involves everything from airplanes to

717

00:31:20,300 --> 00:31:17,870

race car get that kind of thing and

718

00:31:21,950 --> 00:31:20,310

somewhere in there I'd sent them over a

719

00:31:24,680 --> 00:31:21,960

little one she the one page dad or she

720

00:31:27,530 --> 00:31:24,690

was a couple of photos on it and the VP

721

00:31:29,510 --> 00:31:27,540

grabbed it looked at it ended the

722

00:31:31,910 --> 00:31:29,520

meeting and now wants to present to the

723

00:31:33,860 --> 00:31:31,920

president of the company because they've

724

00:31:35,960 --> 00:31:33,870

been looking at this and this just that

725

00:31:37,430 --> 00:31:35,970

what I would have created is exactly

726

00:31:39,110 --> 00:31:37,440

what they're looking for so it's kind of

727

00:31:40,550 --> 00:31:39,120

put a kind of an interesting main

728

00:31:43,130 --> 00:31:40,560

interesting position they'd be great if

729

00:31:44,360 --> 00:31:43,140

they want to come along and back it so

730

00:31:46,820 --> 00:31:44,370

we're kind of waiting to see how that

731

00:31:48,230 --> 00:31:46,830

goes I think I know the company in the

732

00:31:51,050 --> 00:31:48,240

re they have a bunch of helicopters

733

00:31:52,670 --> 00:31:51,060

themselves yes they have all the high

734

00:31:55,280 --> 00:31:52,680

technology they're there they they're

735

00:31:57,950 --> 00:31:55,290

very much into any with a all day all

736

00:32:00,380 --> 00:31:57,960

the extreme stuff yeah but it's an

737

00:32:03,800 --> 00:32:00,390

exciting onboarding and everything up

738

00:32:05,840 --> 00:32:03,810

you they went literally from you know

739

00:32:07,580 --> 00:32:05,850

it's a very large company you have all

740

00:32:09,590 --> 00:32:07,590

these layers need to go through and he's

741

00:32:11,960 --> 00:32:09,600

willing to bypass everything and jump

742

00:32:14,570 --> 00:32:11,970

right to the president man so it's so

743

00:32:16,850 --> 00:32:14,580

and then yeah so it's good i'm i'm

744

00:32:18,020 --> 00:32:16,860

actually i pulled back i'm not quite

745

00:32:19,970 --> 00:32:18,030

sure if i'm gonna do the indiegogo

746

00:32:21,800 --> 00:32:19,980

campaign but i think i'm gonna go out l

747

00:32:25,400 --> 00:32:21,810

you know in the middle of a sum in the

748

00:32:27,650 --> 00:32:25,410

paper do paperwork to do basically a

749

00:32:29,690 --> 00:32:27,660

small private offering so i think i'm

750

00:32:31,610 --> 00:32:29,700

going to start there and if this other

751
00:32:33,560 --> 00:32:31,620
company comes along then great that'll

752
00:32:36,320 --> 00:32:33,570
that'll that'll knock that you know

753
00:32:37,460 --> 00:32:36,330
obviously a getting funds for this kind

754
00:32:39,050 --> 00:32:37,470
of thing is one of the difficult early

755
00:32:41,330 --> 00:32:39,060
stage you know early stages you go

756
00:32:43,760 --> 00:32:41,340
through so i would resolve that but at

757
00:32:45,860 --> 00:32:43,770
this point it's full steam ahead so wow

758
00:32:47,120 --> 00:32:45,870
exciting now the one thing that I

759
00:32:49,730 --> 00:32:47,130
thought of when you're talking about

760
00:32:53,960 --> 00:32:49,740
electric it seems to me that the weight

761
00:32:56,060 --> 00:32:53,970
of the batteries would be detrimental to

762
00:32:58,820 --> 00:32:56,070
this is that they might not thinking

763
00:33:00,950 --> 00:32:58,830

correctly you are thinking correctly now

764

00:33:03,920 --> 00:33:00,960

if you look at the I think if you have

765

00:33:06,110 --> 00:33:03,930

that photo i sent you it's basic i call

766

00:33:08,000 --> 00:33:06,120

the typhoon f1's not to trickiest types

767

00:33:11,920 --> 00:33:08,010

have stands for freedom one stands for

768

00:33:14,540 --> 00:33:11,930

one passenger the rotor itself is its

769

00:33:18,110 --> 00:33:14,550

fear it's the large electric motor very

770

00:33:20,120 --> 00:33:18,120

large 10 feet in diameter it's possible

771

00:33:22,400 --> 00:33:20,130

to put it for that rotor to actually

772

00:33:23,360 --> 00:33:22,410

with with the the magnetic fields are

773

00:33:26,270 --> 00:33:23,370

created within the

774

00:33:28,700 --> 00:33:26,280

the actual craft itself and within the

775

00:33:30,760 --> 00:33:28,710

magnetic rotor itself in crepe between

776

00:33:34,130 --> 00:33:30,770

three and four thousand horsepower and

777

00:33:36,020 --> 00:33:34,140

with that you can create an immense the

778

00:33:38,120 --> 00:33:36,030

thrust would be this recipe no problem

779

00:33:39,140 --> 00:33:38,130

even if the batteries weighed thirty

780

00:33:42,230 --> 00:33:39,150

five to forty percent of the entire

781

00:33:43,700 --> 00:33:42,240

vehicle with the occupant now you don't

782

00:33:45,640 --> 00:33:43,710

want to create a vehicle it has to

783

00:33:48,920 --> 00:33:45,650

create that much stress for liftoff so

784

00:33:50,960 --> 00:33:48,930

it's your kind of in a quandary it's

785

00:33:52,790 --> 00:33:50,970

like okay the longer the flight time the

786

00:33:55,760 --> 00:33:52,800

more batteries you have so is it better

787

00:33:58,010 --> 00:33:55,770

to for your test vehicles to maybe have

788

00:34:00,260 --> 00:33:58,020

a shorter flights panels flight time and

789

00:34:01,730 --> 00:34:00,270

have less weight in batteries now we're

790

00:34:03,860 --> 00:34:01,740

looking at fuel cell technology also

791

00:34:05,270 --> 00:34:03,870

then it's it's already out there so

792

00:34:07,160 --> 00:34:05,280

we'll probably be moving to fuel cells

793

00:34:09,379 --> 00:34:07,170

you know as far as you know in the next

794

00:34:11,000 --> 00:34:09,389

24 months when we're actually in

795

00:34:13,790 --> 00:34:11,010

production and we'll probably be more

796

00:34:16,940 --> 00:34:13,800

fuel cell powered and that will relieve

797

00:34:19,760 --> 00:34:16,950

some of that weight issue mm-hmm now I

798

00:34:24,110 --> 00:34:19,770

guess one of the questions that one

799

00:34:27,399 --> 00:34:24,120

would think of is safety how would you

800

00:34:29,510 --> 00:34:27,409

address safety on something like this

801

00:34:31,730 --> 00:34:29,520

what's interesting i'm working at two

802

00:34:33,110 --> 00:34:31,740

folks they're both astronauts and one of

803

00:34:35,210 --> 00:34:33,120

them worked on the Mars Lander in those

804

00:34:36,649 --> 00:34:35,220

projects and what they did they were

805

00:34:37,879 --> 00:34:36,659

within their inner kind they're they're

806

00:34:39,110 --> 00:34:37,889

basically that was one of the you're

807

00:34:42,320 --> 00:34:39,120

talking about as a safety how do we do

808

00:34:45,169 --> 00:34:42,330

this and there is apparently something

809

00:34:46,700 --> 00:34:45,179

similar to an airbag that's on the

810

00:34:49,760 --> 00:34:46,710

bottom these craps when they went out

811

00:34:50,659 --> 00:34:49,770

without that they're working on and that

812

00:34:52,250 --> 00:34:50,669

we're going to apply that same

813

00:34:54,619 --> 00:34:52,260

technology so you almost have a giant

814

00:34:57,260 --> 00:34:54,629

air bag under the bottom of it and a

815

00:35:00,020 --> 00:34:57,270

rocket-propelled shoot so you have two

816

00:35:02,990 --> 00:35:00,030

methods and the another thing is you

817

00:35:05,300 --> 00:35:03,000

know it's this this wouldn't have any

818

00:35:07,010 --> 00:35:05,310

you know you could fly 25,000 feet

819

00:35:10,520 --> 00:35:07,020

there's not that's not an issue but

820

00:35:12,770 --> 00:35:10,530

ideally you going to fly at about 25 35

821

00:35:14,180 --> 00:35:12,780

feet off the ground it's you're not

822

00:35:16,220 --> 00:35:14,190

going to want to fly up into the clouds

823

00:35:18,080 --> 00:35:16,230

like I think it's to make it useful I

824

00:35:19,580 --> 00:35:18,090

guess you could do that but part of the

825

00:35:20,870 --> 00:35:19,590

idea is to make it so that you're not

826

00:35:24,730 --> 00:35:20,880

you know you're basically just flying

827

00:35:26,960 --> 00:35:24,740

over the power lines interesting boy

828

00:35:29,630 --> 00:35:26,970

there's been many times I'm sure a lot

829

00:35:32,270 --> 00:35:29,640

of listeners as well as myself wish we

830

00:35:36,050 --> 00:35:32,280

had one when we're stuck in traffic just

831

00:35:37,220 --> 00:35:36,060

pop right over a bunch of cars now what

832

00:35:40,820 --> 00:35:37,230

has stopped other p

833

00:35:43,790 --> 00:35:40,830

people from succeeding trying to do a

834

00:35:45,590 --> 00:35:43,800

similar thing to what you're doing well

835

00:35:48,080 --> 00:35:45,600

you know nobody has done it the way I've

836

00:35:50,210 --> 00:35:48,090

done it the this the idea of you

837

00:35:51,890 --> 00:35:50,220

actually the craft being a gyroscope

838

00:35:54,590 --> 00:35:51,900

it's the first one out there at least

839

00:35:56,960 --> 00:35:54,600

and we have you know provisional patents

840

00:35:58,670 --> 00:35:56,970

and we have a design patent on now and a

841

00:36:01,640 --> 00:35:58,680

bunch of other things and you go through

842

00:36:03,500 --> 00:36:01,650

and the research it just it really just

843

00:36:06,859 --> 00:36:03,510

hasn't been done this way before for one

844

00:36:08,630 --> 00:36:06,869

thing but even bigger than that we need

845

00:36:11,210 --> 00:36:08,640

current technology to make this work ten

846

00:36:12,920 --> 00:36:11,220

years ago 15 years ago the density or

847

00:36:15,380 --> 00:36:12,930

the energy density and a battery wasn't

848

00:36:17,150 --> 00:36:15,390

great enough that this would even been

849

00:36:18,680 --> 00:36:17,160

possible it would have weighed far too

850

00:36:20,240 --> 00:36:18,690

much I mean you're talking back and you

851

00:36:21,560 --> 00:36:20,250

know lead acid batteries like I think

852

00:36:24,859 --> 00:36:21,570

just really you couldn't you couldn't

853

00:36:26,840 --> 00:36:24,869

get enough energy out of a battery and

854

00:36:28,970 --> 00:36:26,850

put it into the into India in your

855

00:36:31,430 --> 00:36:28,980

system your medical system and make it

856

00:36:33,770 --> 00:36:31,440

work so it's really just technology has

857

00:36:36,500 --> 00:36:33,780

come far enough now that it's possible

858

00:36:39,290 --> 00:36:36,510

now do you have a engineering background

859

00:36:42,260 --> 00:36:39,300

or is this just something you've just

860

00:36:44,060 --> 00:36:42,270

are pursuing in other ways I I was i

861

00:36:46,970 --> 00:36:44,070

when i was in college i went through

862

00:36:48,740 --> 00:36:46,980

aerospace engineering and finance and

863

00:36:50,990 --> 00:36:48,750

economics kind of a strange thing and i

864

00:36:53,330 --> 00:36:51,000

ended up by my day job is always been i

865

00:36:55,700 --> 00:36:53,340

was i was in banking for quite a number

866

00:36:58,160 --> 00:36:55,710

of years and when everything kind of

867

00:37:01,280 --> 00:36:58,170

went went south and banking you know

868

00:37:02,840 --> 00:37:01,290

back in 06 and 07 i decided to go out

869

00:37:05,300 --> 00:37:02,850

and kind of follow up on the family

870

00:37:08,090 --> 00:37:05,310

history wrote a book about Roswell

871

00:37:09,410 --> 00:37:08,100

documentary and i'd go around to his you

872

00:37:12,830 --> 00:37:09,420

know a few speeches here and there and

873

00:37:14,420 --> 00:37:12,840

it's kind of it that was done that was

874

00:37:16,340 --> 00:37:14,430

that was interesting i have i've had a

875

00:37:17,570 --> 00:37:16,350

lot of fun it was it was it you know

876

00:37:19,700 --> 00:37:17,580

I've really had a good experience the

877

00:37:22,370 --> 00:37:19,710

whole thing but in the background has

878

00:37:25,820 --> 00:37:22,380

been this fight to get back into the

879

00:37:28,430 --> 00:37:25,830

arena of aerospace engineering so it's

880

00:37:31,190 --> 00:37:28,440

this has given me the ability to really

881

00:37:35,930 --> 00:37:31,200

go back into that I've always been I

882

00:37:37,820 --> 00:37:35,940

don't call a designer I I the if I could

883

00:37:40,580 --> 00:37:37,830

spin off a little bit here from the car

884

00:37:42,230 --> 00:37:40,590

I actually the car was supposed to be a

885

00:37:45,290 --> 00:37:42,240

test bed for another technology i'm

886

00:37:46,940 --> 00:37:45,300

working on mm-hmm it's a like on this

887

00:37:49,130 --> 00:37:46,950

it's a quadcopter on that has four

888

00:37:50,530 --> 00:37:49,140

corner fans to operate quadcopter other

889

00:37:51,970 --> 00:37:50,540

than they don't provide the update

890

00:37:57,010 --> 00:37:51,980

provide directional control that kind of

891

00:37:58,570 --> 00:37:57,020

thing I've been working with and this is

892

00:38:00,910 --> 00:37:58,580

my old it's it's it's based on

893

00:38:04,450 --> 00:38:00,920

theoretical physics i if the reticle ID

894

00:38:07,980 --> 00:38:04,460

anyway it's being able to observe energy

895

00:38:10,870 --> 00:38:07,990

and a fluid being able to divide

896

00:38:14,410 --> 00:38:10,880

gravimetric forces so you create a bias

897

00:38:15,670 --> 00:38:14,420

driver singular vectored yep it's kind

898

00:38:17,380 --> 00:38:15,680

of fun you call it a nourish inertia

899

00:38:19,300 --> 00:38:17,390

means static but if you can picture a

900

00:38:22,270 --> 00:38:19,310

ball that wants to be bit that wants to

901
00:38:23,530 --> 00:38:22,280
be pull out of your hands and it's not

902
00:38:26,860 --> 00:38:23,540
it's not pushing around the air around

903
00:38:29,260 --> 00:38:26,870
it it's actually internal and I've done

904
00:38:31,150 --> 00:38:29,270
some tests using fluids and it works the

905
00:38:35,170 --> 00:38:31,160
next thing is to step up and create a

906
00:38:38,200 --> 00:38:35,180
mechanized vector motor that could be

907
00:38:41,530 --> 00:38:38,210
used to propel direction so the idea is

908
00:38:43,300 --> 00:38:41,540
actually to apply a non-existent yet as

909
00:38:44,560 --> 00:38:43,310
if yet technology I mean people can be

910
00:38:45,820 --> 00:38:44,570
assured talking about it work out of

911
00:38:48,790 --> 00:38:45,830
some laboratory somewhere in the world I

912
00:38:51,490 --> 00:38:48,800
don't know about of course but the idea

913
00:38:54,190 --> 00:38:51,500

is to create a form of a motor electric

914

00:38:58,360 --> 00:38:54,200

again that creates this vectored force

915

00:39:00,640 --> 00:38:58,370

and like for instance get be used in an

916

00:39:02,650 --> 00:39:00,650

airplane instead of using a jet engine

917

00:39:05,860 --> 00:39:02,660

or propellers or not you're not pushing

918

00:39:08,410 --> 00:39:05,870

air it creates a vectored momentum with

919

00:39:12,310 --> 00:39:08,420

inside the airplane so it would be a

920

00:39:15,750 --> 00:39:12,320

perfectly silent all electric the the

921

00:39:19,360 --> 00:39:15,760

force of great is really there its

922

00:39:21,460 --> 00:39:19,370

asymptotic to infinity it's just kind of

923

00:39:22,780 --> 00:39:21,470

it's just some ideas those ideas have

924

00:39:26,320 --> 00:39:22,790

been with me since I've been in the time

925

00:39:28,270 --> 00:39:26,330

I in my early 20s so like I said making

926

00:39:30,850 --> 00:39:28,280

a long story of this whole thing is I I

927

00:39:33,100 --> 00:39:30,860

wanted to create a stable aircraft that

928

00:39:34,510 --> 00:39:33,110

I could create these motors that are at

929

00:39:37,150 --> 00:39:34,520

least these sources of energy put them

930

00:39:39,850 --> 00:39:37,160

on board and actually use those to push

931

00:39:42,850 --> 00:39:39,860

it around and so the typhoon is nothing

932

00:39:44,230 --> 00:39:42,860

was nothing more than a test bed but it

933

00:39:46,480 --> 00:39:44,240

became more than that when I put it

934

00:39:48,550 --> 00:39:46,490

together I like I said I had a couple of

935

00:39:50,320 --> 00:39:48,560

girl think tank and a couple of more

936

00:39:52,300 --> 00:39:50,330

astronauts really intelligent people

937

00:39:55,270 --> 00:39:52,310

that have kind of added their two cents

938

00:39:58,630 --> 00:39:55,280

in about some of the mechanisms and then

939

00:40:00,430 --> 00:39:58,640

I started raising eyebrows and decided

940

00:40:01,430 --> 00:40:00,440

well let's just go about this thing in a

941

00:40:04,370 --> 00:40:01,440

big way

942

00:40:10,280 --> 00:40:04,380

mm-hmm all right well let's let's talk

943

00:40:11,839 --> 00:40:10,290

about the car okay the typhoon yes yeah

944

00:40:15,290 --> 00:40:11,849

yep all right so i have a typhoon in my

945

00:40:18,559 --> 00:40:15,300

garage and I have it plugged in most

946

00:40:20,599 --> 00:40:18,569

likely so and I'm going to go to work

947

00:40:22,760 --> 00:40:20,609

and I'm going to go through a couple of

948

00:40:25,640 --> 00:40:22,770

cities or whatever so why don't you just

949

00:40:29,870 --> 00:40:25,650

walk me through what you envision on how

950

00:40:32,120 --> 00:40:29,880

this thing would work well the easiest

951
00:40:34,460 --> 00:40:32,130
way to put it is it's I mean it's fully

952
00:40:36,319 --> 00:40:34,470
computer-controlled sorceries the

953
00:40:39,349 --> 00:40:36,329
servomechanisms fly-by-wire those kind

954
00:40:41,870 --> 00:40:39,359
of things so you would step into the voi

955
00:40:45,020 --> 00:40:41,880
she'd unplug it of course step into the

956
00:40:46,910 --> 00:40:45,030
vehicle and then nothing just like the

957
00:40:49,069 --> 00:40:46,920
current cars you have a proximity key

958
00:40:52,819 --> 00:40:49,079
they would initiate the systems on the

959
00:40:55,250 --> 00:40:52,829
car and there would be you would you

960
00:40:56,510 --> 00:40:55,260
would propel it or drive it in your

961
00:40:58,670 --> 00:40:56,520
driveway out of the garage in a dry

962
00:40:59,809 --> 00:40:58,680
weight it does have a very simple system

963
00:41:01,250 --> 00:40:59,819

of wheels you could drive out the

964

00:41:02,990 --> 00:41:01,260

driveway it's not meant to be driven

965

00:41:05,540 --> 00:41:03,000

like down the highway on it but it can

966

00:41:07,339 --> 00:41:05,550

be maneuvered with them and you would

967

00:41:08,720 --> 00:41:07,349

put it would it would you would push a

968

00:41:11,990 --> 00:41:08,730

button it would create an automatic

969

00:41:14,870 --> 00:41:12,000

liftoff sequence so it would measure the

970

00:41:16,460 --> 00:41:14,880

weight of the car it would dip proximity

971

00:41:17,660 --> 00:41:16,470

to proximity detectors would make sure

972

00:41:19,670 --> 00:41:17,670

there's nothing around it they would be

973

00:41:22,309 --> 00:41:19,680

they could possibly be obstructed her or

974

00:41:23,660 --> 00:41:22,319

impacted when this thing took off and so

975

00:41:25,040 --> 00:41:23,670

you push this button once it's figured

976
00:41:27,890 --> 00:41:25,050
out the surroundings it would raise you

977
00:41:31,069 --> 00:41:27,900
to a given altitude of about 30 feet at

978
00:41:32,780 --> 00:41:31,079
that point you would take over and fly

979
00:41:36,530 --> 00:41:32,790
it to wherever you're going to go either

980
00:41:39,920 --> 00:41:36,540
either you could have preset the your

981
00:41:42,260 --> 00:41:39,930
guide path your flight path scuze me or

982
00:41:43,550 --> 00:41:42,270
you would in put it through again

983
00:41:45,829 --> 00:41:43,560
something as simple a steering wheel

984
00:41:48,260 --> 00:41:45,839
once you're 30 feet turn right to go

985
00:41:49,730 --> 00:41:48,270
right left go left yeah there's a gas

986
00:41:52,579 --> 00:41:49,740
pedal to make you a four-door brake

987
00:41:55,160 --> 00:41:52,589
pedal will stop you now in addition to

988
00:41:57,140 --> 00:41:55,170

those there are paddles same thing uses

989

00:41:59,480 --> 00:41:57,150

switch transmissions gears on like in

990

00:42:01,640 --> 00:41:59,490

about her car and on the paddles you

991

00:42:04,309 --> 00:42:01,650

pull the right paddle it'll go up put a

992

00:42:05,059 --> 00:42:04,319

left paddling of it down so obviously

993

00:42:08,260 --> 00:42:05,069

because you're moving in three

994

00:42:11,359 --> 00:42:08,270

dimensions but the whole idea is that

995

00:42:13,550 --> 00:42:11,369

the car without your inputs is the most

996

00:42:15,109 --> 00:42:13,560

stable so whenever you add an input

997

00:42:17,120 --> 00:42:15,119

whenever you make a change in direction

998

00:42:19,309 --> 00:42:17,130

you're actually making it a little less

999

00:42:21,200 --> 00:42:19,319

stable and then when you and when you

1000

00:42:22,430 --> 00:42:21,210

then when you let the car take back the

1001
00:42:24,620 --> 00:42:22,440
control again it comes back you more

1002
00:42:26,420 --> 00:42:24,630
stable so it really what's your that 34

1003
00:42:30,559 --> 00:42:26,430
the altitude you're you're basically

1004
00:42:33,559 --> 00:42:30,569
pointing going mm-hmm and there that

1005
00:42:35,660 --> 00:42:33,569
obviously we're you know a cutting edge

1006
00:42:37,160 --> 00:42:35,670
on the edge there isn't an

1007
00:42:38,690 --> 00:42:37,170
infrastructure built there are no rules

1008
00:42:40,730 --> 00:42:38,700
that kind of thing yet for these things

1009
00:42:43,759 --> 00:42:40,740
so I was going to ask about that there

1010
00:42:44,720 --> 00:42:43,769
they'll come around I mean we're at the

1011
00:42:47,989 --> 00:42:44,730
front of it along with some other people

1012
00:42:50,660 --> 00:42:47,999
so you know the way envision it is

1013
00:42:53,720 --> 00:42:50,670

eventually they'll become more and more

1014

00:42:56,779 --> 00:42:53,730

autonomous preset corridors you can fly

1015

00:42:58,309 --> 00:42:56,789

with him but like if you could think

1016

00:43:00,739 --> 00:42:58,319

about this way okay I'm going to go to

1017

00:43:03,170 --> 00:43:00,749

work this thing I'll plot on my garage I

1018

00:43:05,739 --> 00:43:03,180

push a button 30 feet okay i know where

1019

00:43:08,089 --> 00:43:05,749

i'm going to and you know you could do a

1020

00:43:10,039 --> 00:43:08,099

you know you could have a map show up as

1021

00:43:11,900 --> 00:43:10,049

you don't like tablet type screen in

1022

00:43:13,640 --> 00:43:11,910

front it's going to show you where to go

1023

00:43:15,430 --> 00:43:13,650

and it'll as long as you stand with a

1024

00:43:17,749 --> 00:43:15,440

little green lines on the on the on the

1025

00:43:18,890 --> 00:43:17,759

glass in front a you'll know you're okay

1026

00:43:20,269 --> 00:43:18,900

to get to where you're going into the

1027

00:43:23,690 --> 00:43:20,279

right direction of the right height that

1028

00:43:26,989 --> 00:43:23,700

kind of thing and then a parking garage

1029

00:43:29,839 --> 00:43:26,999

I wouldn't think in the distant future

1030

00:43:31,609 --> 00:43:29,849

when these become more than norm when

1031

00:43:33,829 --> 00:43:31,619

you become here with a certain proximity

1032

00:43:36,410 --> 00:43:33,839

of that parking structure you don't be a

1033

00:43:38,210 --> 00:43:36,420

you know quarter mile a thousand you wit

1034

00:43:40,130 --> 00:43:38,220

or whatever as a predetermined set

1035

00:43:42,019 --> 00:43:40,140

figure it's going to now can take a

1036

00:43:43,489 --> 00:43:42,029

troll a car you're going to let go of it

1037

00:43:45,859 --> 00:43:43,499

and it'll guide your car in it'll it'll

1038

00:43:47,749 --> 00:43:45,869

set you down into space so you won't

1039

00:43:49,400 --> 00:43:47,759

really be the one in control bringing in

1040

00:43:51,259 --> 00:43:49,410

or taking off when there's other you

1041

00:43:55,009 --> 00:43:51,269

know cars or whatever around it all be

1042

00:43:56,299 --> 00:43:55,019

fairly automatic or autonomous now would

1043

00:44:00,049 --> 00:43:56,309

there have to be some type of special

1044

00:44:02,870 --> 00:44:00,059

licensing right now as long as it stays

1045

00:44:04,460 --> 00:44:02,880

under a certain weight no and that was

1046

00:44:05,509 --> 00:44:04,470

part of we were doing now everything

1047

00:44:08,809 --> 00:44:05,519

we're going to be everything we're doing

1048

00:44:10,910 --> 00:44:08,819

and working with the FAA on so that so

1049

00:44:12,739 --> 00:44:10,920

you know the idea is once we surpass I

1050

00:44:14,749 --> 00:44:12,749

think it's like 1500 pounds then it'll

1051

00:44:15,680 --> 00:44:14,759

move us into a different category for

1052

00:44:18,620 --> 00:44:15,690

thats for the base weight of the vehicle

1053

00:44:19,880 --> 00:44:18,630

but there will be a ESO will be working

1054

00:44:22,970 --> 00:44:19,890

hand in hand with them you know

1055

00:44:24,559 --> 00:44:22,980

obviously at some point there's going to

1056

00:44:26,329 --> 00:44:24,569

be some restrictions placed on these

1057

00:44:27,739 --> 00:44:26,339

sort of vehicles and you'll have to go

1058

00:44:28,870 --> 00:44:27,749

through some kind of train school and

1059

00:44:31,210 --> 00:44:28,880

it'll be an addendum to your

1060

00:44:32,589 --> 00:44:31,220

his license to be able to use it like

1061

00:44:34,809 --> 00:44:32,599

said right now it doesn't exist but i

1062

00:44:37,059 --> 00:44:34,819

can't imagine in a new not-too-distant

1063

00:44:39,279 --> 00:44:37,069

future will be a you know some kind of

1064

00:44:40,960 --> 00:44:39,289

manager event like right now the FAA

1065

00:44:44,109 --> 00:44:40,970

will require testing of the vehicle

1066

00:44:45,789 --> 00:44:44,119

under tether don't make you go out and

1067

00:44:47,529 --> 00:44:45,799

prove that the vehicle can do what it

1068

00:44:49,269 --> 00:44:47,539

wants to do once you've proven that then

1069

00:44:50,559 --> 00:44:49,279

you're allowed to untether it that

1070

00:44:52,259 --> 00:44:50,569

nobody's gotten that point of being

1071

00:44:56,380 --> 00:44:52,269

untethered with the exception there's a

1072

00:44:57,430 --> 00:44:56,390

there is a thanks man there isn't one

1073

00:44:58,870 --> 00:44:57,440

out there it's basically an airplane

1074

00:45:02,109 --> 00:44:58,880

with folding wings and they have made it

1075

00:45:04,539 --> 00:45:02,119

past that one of the one of the issues

1076

00:45:06,519 --> 00:45:04,549

is when you deal with an airplane that I

1077

00:45:09,220 --> 00:45:06,529

mean they can fold down to drive on the

1078

00:45:10,960 --> 00:45:09,230

on the road but that means you're still

1079

00:45:13,210 --> 00:45:10,970

taking off at lying in an airport and

1080

00:45:15,069 --> 00:45:13,220

just because of all the the craziness in

1081

00:45:18,009 --> 00:45:15,079

the world it's probably going to be more

1082

00:45:20,319 --> 00:45:18,019

tough or more difficult to fly to an

1083

00:45:22,349 --> 00:45:20,329

airport and drive off or drive on to an

1084

00:45:24,490 --> 00:45:22,359

airport and fly out without a lot of

1085

00:45:26,170 --> 00:45:24,500

checking or a lot of inspections that

1086

00:45:28,509 --> 00:45:26,180

kind of thing and you know who knows

1087

00:45:29,859 --> 00:45:28,519

where that'll go but yeah that is almost

1088

00:45:32,549 --> 00:45:29,869

like to have they'd almost have to

1089

00:45:34,900 --> 00:45:32,559

create separate airports just for those

1090

00:45:37,390 --> 00:45:34,910

exactly just for safety's sake like side

1091

00:45:40,630 --> 00:45:37,400

you know just theorizing but it'll be

1092

00:45:41,980 --> 00:45:40,640

interesting to see I mean it's that the

1093

00:45:43,809 --> 00:45:41,990

world will look completely different the

1094

00:45:47,170 --> 00:45:43,819

next 30 years and when it comes to this

1095

00:45:50,109 --> 00:45:47,180

kind of technology it's there's some

1096

00:45:51,640 --> 00:45:50,119

forecasts that came about saying by 2050

1097

00:45:54,279 --> 00:45:51,650

this technology will be the norm and

1098

00:45:55,599 --> 00:45:54,289

it's and it'll be necessary to navigate

1099

00:45:57,640 --> 00:45:55,609

large city isn't that kind of thing and

1100

00:45:59,559 --> 00:45:57,650

it kind of makes sense you know I'm

1101

00:46:01,870 --> 00:45:59,569

doing it for fun I'm excited by it it's

1102

00:46:03,819 --> 00:46:01,880

it's kind of you you see the pictures of

1103

00:46:06,789 --> 00:46:03,829

car it looks more like a sports car than

1104

00:46:08,680 --> 00:46:06,799

anything else so it I do them and the

1105

00:46:10,599 --> 00:46:08,690

listener can check out right now

1106

00:46:13,299 --> 00:46:10,609

actually if you're listening live on

1107

00:46:15,370 --> 00:46:13,309

podcast UFO calm and the show notes

1108

00:46:17,920 --> 00:46:15,380

right on the front page we have a

1109

00:46:21,609 --> 00:46:17,930

picture of it it's a great looking and

1110

00:46:23,349 --> 00:46:21,619

it that's all your design yes nice yeah

1111

00:46:25,480 --> 00:46:23,359

yeah we start out with you know start

1112

00:46:27,940 --> 00:46:25,490

with sketches then then went to

1113

00:46:29,200 --> 00:46:27,950

SolidWorks and made a 3d model of it

1114

00:46:31,269 --> 00:46:29,210

that's kind of how we started so I

1115

00:46:33,490 --> 00:46:31,279

technologies so wonderful now you can

1116

00:46:34,990 --> 00:46:33,500

get you know from us scratch got a piece

1117

00:46:37,420 --> 00:46:35,000

of paper the holding a model within

1118

00:46:39,579 --> 00:46:37,430

weeks I know it's amazing than 3d

1119

00:46:42,640 --> 00:46:39,589

printer you mentioned that whole thing

1120

00:46:46,780 --> 00:46:42,650

is amazing now you mentioned or

1121

00:46:50,270 --> 00:46:46,790

you know that finances other any other

1122

00:46:55,010 --> 00:46:50,280

blockers or major hurdles that you're

1123

00:46:59,089 --> 00:46:55,020

aware of at this point you know this the

1124

00:47:01,789 --> 00:46:59,099

way I look at it is I can you know it s

1125

00:47:03,710 --> 00:47:01,799

are being a finance term I'll bootstrap

1126

00:47:06,829 --> 00:47:03,720

it I'll find it out of my pocket until

1127

00:47:08,450 --> 00:47:06,839

it's done I you know it so in my mind

1128

00:47:12,650 --> 00:47:08,460

there's nothing's going to stop it from

1129

00:47:15,920 --> 00:47:12,660

being done now past that i am going to

1130

00:47:17,720 --> 00:47:15,930

be looking for some partners to join the

1131

00:47:18,859 --> 00:47:17,730

company to think wow that seems pretty

1132

00:47:21,440 --> 00:47:18,869

cool let's see what we can do with it

1133

00:47:23,990 --> 00:47:21,450

and just just elevate to the point where

1134

00:47:25,460 --> 00:47:24,000

it's not gonna I I won't you know it

1135

00:47:26,960 --> 00:47:25,470

won't take me a couple years to get to

1136

00:47:29,660 --> 00:47:26,970

the point of having this thing ready to

1137

00:47:32,510 --> 00:47:29,670

go and of course you know in there is

1138

00:47:33,859 --> 00:47:32,520

there's I said the other company is

1139

00:47:35,839 --> 00:47:33,869

interested in coming along and endorsing

1140

00:47:37,849 --> 00:47:35,849

so we'll see where it goes but you know

1141

00:47:41,349 --> 00:47:37,859

it's like any new adventure an adventure

1142

00:47:43,539 --> 00:47:41,359

it's you know it's a monetary constraint

1143

00:47:46,579 --> 00:47:43,549

technologies done though I mean that are

1144

00:47:48,589 --> 00:47:46,589

using 3d printing to create the molds to

1145

00:47:49,549 --> 00:47:48,599

lay up carbon fiber to create the panels

1146

00:47:51,230 --> 00:47:49,559

that's what it's the whole thing's

1147

00:47:53,180 --> 00:47:51,240

promised entirely made of carbon fiber

1148

00:47:55,010 --> 00:47:53,190

we already have people ready to lay up

1149

00:47:57,260 --> 00:47:55,020

the everything from the rotor to the

1150

00:47:59,299 --> 00:47:57,270

body panels to everything's you know

1151
00:48:00,530 --> 00:47:59,309
that's pretty much ready to go and like

1152
00:48:03,559 --> 00:48:00,540
so technology's made that a lot easier

1153
00:48:05,210 --> 00:48:03,569
you know they might like 3d model I have

1154
00:48:10,069 --> 00:48:05,220
two can fit your hands we can take those

1155
00:48:11,960 --> 00:48:10,079
same called STL files and and create the

1156
00:48:14,990 --> 00:48:11,970
actual real panels from that so it's

1157
00:48:17,180 --> 00:48:15,000
it's pretty amazing the one thing I you

1158
00:48:18,260 --> 00:48:17,190
know could envision in there may be

1159
00:48:20,990 --> 00:48:18,270
something you've already thought of

1160
00:48:23,480 --> 00:48:21,000
about this is you know collisions with

1161
00:48:25,700 --> 00:48:23,490
other let's just say that these become

1162
00:48:28,039 --> 00:48:25,710
popular these people have them you

1163
00:48:31,670 --> 00:48:28,049

mentioned corridors which sounds like a

1164

00:48:33,680 --> 00:48:31,680

good idea but you know the cross you

1165

00:48:36,710 --> 00:48:33,690

know t-boning someone or something like

1166

00:48:40,370 --> 00:48:36,720

that all that that'd be kind of hard to

1167

00:48:42,349 --> 00:48:40,380

regulate what you know there's you know

1168

00:48:44,750 --> 00:48:42,359

on the level we're talking about it now

1169

00:48:48,289 --> 00:48:44,760

it's easy there are sensors proximity

1170

00:48:50,270 --> 00:48:48,299

detectors that will the computer will

1171

00:48:52,130 --> 00:48:50,280

not let you get within a certain number

1172

00:48:54,829 --> 00:48:52,140

of feet a certain fixed variable create

1173

00:48:56,150 --> 00:48:54,839

of another object say it's 5 feet 10

1174

00:48:58,819 --> 00:48:56,160

feet 100 feet whatever that it

1175

00:48:59,930 --> 00:48:58,829

so it would actually you could steer

1176

00:49:01,370 --> 00:48:59,940

yourself right into the side of a

1177

00:49:03,380 --> 00:49:01,380

building and again that would never let

1178

00:49:04,190 --> 00:49:03,390

you do that or or into another car and

1179

00:49:06,710 --> 00:49:04,200

that kind of thing so it's going to be

1180

00:49:08,240 --> 00:49:06,720

aware needle through avionics something

1181

00:49:11,569 --> 00:49:08,250

similar to an airplane obviously is not

1182

00:49:13,789 --> 00:49:11,579

a control center but the same way i

1183

00:49:15,829 --> 00:49:13,799

think you know some of the larger luxury

1184

00:49:18,230 --> 00:49:15,839

car manufacturers already have you know

1185

00:49:19,220 --> 00:49:18,240

put together these crash avoidance and a

1186

00:49:21,440 --> 00:49:19,230

lot of those is the same kind of

1187

00:49:23,359 --> 00:49:21,450

proximity detection that you can run up

1188

00:49:25,880 --> 00:49:23,369

on a parked car in front of you and when

1189

00:49:27,319 --> 00:49:25,890

it detects you're moving faster than you

1190

00:49:28,849 --> 00:49:27,329

know then this that breaks in a

1191

00:49:30,890 --> 00:49:28,859

meaningful sense to be able to stop you

1192

00:49:34,250 --> 00:49:30,900

it'll slam on the brakes for you so it's

1193

00:49:35,660 --> 00:49:34,260

that same kind of technology I see in

1194

00:49:38,359 --> 00:49:35,670

three dimensions you know they'd rather

1195

00:49:40,039 --> 00:49:38,369

too and what do you envision a speed of

1196

00:49:43,460 --> 00:49:40,049

something like this could could travel

1197

00:49:45,200 --> 00:49:43,470

you know I was never designed for speed

1198

00:49:48,260 --> 00:49:45,210

I mean of course since you're talking

1199

00:49:49,700 --> 00:49:48,270

about being airborne you you have you

1200

00:49:52,490 --> 00:49:49,710

have a little more flexibility that way

1201
00:49:54,109 --> 00:49:52,500
but you know really not the design i

1202
00:49:56,660 --> 00:49:54,119
have right now not much different than a

1203
00:49:58,970 --> 00:49:56,670
car 60 or 80 if you're going to express

1204
00:50:01,130 --> 00:49:58,980
it in miles per hour you know not not

1205
00:50:04,760 --> 00:50:01,140
terrifically fast not that you couldn't

1206
00:50:07,250 --> 00:50:04,770
push it to do that as an example the way

1207
00:50:09,589 --> 00:50:07,260
the car is controlled the the corner

1208
00:50:10,849 --> 00:50:09,599
rotors and it might be hard to envision

1209
00:50:13,970 --> 00:50:10,859
this unless you're seeing a picture of

1210
00:50:17,059 --> 00:50:13,980
it I rotatable in three dimensions so

1211
00:50:19,220 --> 00:50:17,069
you can you can stay look at the car can

1212
00:50:21,019 --> 00:50:19,230
stay level and still Gore again make

1213
00:50:22,609 --> 00:50:21,029

make turns go forward go backwards

1214

00:50:24,859 --> 00:50:22,619

because the the rotors are actually

1215

00:50:26,450 --> 00:50:24,869

changing the direction but in another

1216

00:50:29,240 --> 00:50:26,460

setting with the car you'd be able to

1217

00:50:31,430 --> 00:50:29,250

fix the rotors and then you'd be banking

1218

00:50:34,130 --> 00:50:31,440

through turns and instead of going on a

1219

00:50:35,359 --> 00:50:34,140

level flight the nose would tip down and

1220

00:50:36,859 --> 00:50:35,369

all of a sudden your main rotor it

1221

00:50:38,269 --> 00:50:36,869

spreading on the thrust would also

1222

00:50:41,150 --> 00:50:38,279

prepare it for it would also give you a

1223

00:50:43,010 --> 00:50:41,160

forward thrust and it's those kind of

1224

00:50:45,019 --> 00:50:43,020

things what if you you know if you want

1225

00:50:47,329 --> 00:50:45,029

to get into more of a sporting mode then

1226
00:50:48,920 --> 00:50:47,339
really you know it's something probably

1227
00:50:52,010 --> 00:50:48,930
more similar to a small stuffs not that

1228
00:50:53,990 --> 00:50:52,020
kind of thing mm-hmm it's limitless

1229
00:50:55,549 --> 00:50:54,000
depending on what you a mean you could

1230
00:50:58,910 --> 00:50:55,559
design it to go much faster if that's

1231
00:51:00,740 --> 00:50:58,920
what you wanted to but so I only someone

1232
00:51:02,990 --> 00:51:00,750
on the message board was wondering if

1233
00:51:04,519 --> 00:51:03,000
you have you think that you could do

1234
00:51:07,819 --> 00:51:04,529
stunts with this loop de loops and stuff

1235
00:51:09,300 --> 00:51:07,829
like that yes you could do anything it

1236
00:51:10,770 --> 00:51:09,310
you figure you

1237
00:51:13,080 --> 00:51:10,780
have complete control in three

1238
00:51:14,700 --> 00:51:13,090

dimensions and you can do it statically

1239

00:51:16,500 --> 00:51:14,710

you can do it from a single points it's

1240

00:51:17,460 --> 00:51:16,510

not like an airplane or you know where

1241

00:51:18,960 --> 00:51:17,470

you got to get momentum you got to go

1242

00:51:21,360 --> 00:51:18,970

forward get enough energy as you can do

1243

00:51:23,100 --> 00:51:21,370

a loop or or starting to motor to hang

1244

00:51:25,560 --> 00:51:23,110

out the prop that kind of thing this

1245

00:51:27,750 --> 00:51:25,570

could yes you know you could any of

1246

00:51:31,740 --> 00:51:27,760

those could be possible in a very small

1247

00:51:34,560 --> 00:51:31,750

space actually Wow now I would imagine

1248

00:51:36,510 --> 00:51:34,570

if you had four rotors no matter even if

1249

00:51:38,790 --> 00:51:36,520

you're running off electricity which is

1250

00:51:42,150 --> 00:51:38,800

basically very quiet it would still

1251

00:51:44,880 --> 00:51:42,160

cause quite a bit of noise you know

1252

00:51:47,460 --> 00:51:44,890

because they're the rotors are big

1253

00:51:49,410 --> 00:51:47,470

enough and there they don't have to turn

1254

00:51:51,540 --> 00:51:49,420

so fast so it actually wouldn't be that

1255

00:51:54,660 --> 00:51:51,550

noisy nothing at all compared like a

1256

00:51:56,670 --> 00:51:54,670

ringer airplane in fact it if it went

1257

00:51:59,250 --> 00:51:56,680

overhead say 30 feet off the ground you

1258

00:52:01,050 --> 00:51:59,260

probably couldn't hear it really so be

1259

00:52:03,240 --> 00:52:01,060

nothing like a helicopter anything no

1260

00:52:04,260 --> 00:52:03,250

nothing like that at all and a lot of

1261

00:52:07,200 --> 00:52:04,270

the help the noise made in a helicopter

1262

00:52:09,120 --> 00:52:07,210

the rotors they deleting it the leading

1263

00:52:10,740 --> 00:52:09,130

edge of one rotor will catch an air

1264

00:52:12,390 --> 00:52:10,750

pocket behind the trailing edge and it

1265

00:52:13,530 --> 00:52:12,400

caused that clapping sound kind of going

1266

00:52:15,480 --> 00:52:13,540

through there those guy things here when

1267

00:52:17,340 --> 00:52:15,490

they commit when they slow down just

1268

00:52:18,990 --> 00:52:17,350

because the way this is it's theirs it

1269

00:52:21,630 --> 00:52:19,000

that said the rotor doesn't need to turn

1270

00:52:26,250 --> 00:52:21,640

nearly as fast as a helicopter dose for

1271

00:52:27,780 --> 00:52:26,260

instance and it it relegates it makes a

1272

00:52:29,400 --> 00:52:27,790

lot more quiet and in fact like I said

1273

00:52:30,870 --> 00:52:29,410

it would be it would be I mean you

1274

00:52:33,420 --> 00:52:30,880

definitely be able to hear it if it was

1275

00:52:35,100 --> 00:52:33,430

by you are immediately near vicinity but

1276

00:52:38,160 --> 00:52:35,110

flying overhead you really wouldn't

1277

00:52:40,770 --> 00:52:38,170

notice it now I know I read somewhere

1278

00:52:44,040 --> 00:52:40,780

where you know the helicopter wouldn't

1279

00:52:45,450 --> 00:52:44,050

work until they made the rotor tilt or

1280

00:52:47,880 --> 00:52:45,460

whatever because we catch that air

1281

00:52:50,940 --> 00:52:47,890

pocket and it would crash and you know

1282

00:52:53,160 --> 00:52:50,950

they had a lot of a lot of you know hit

1283

00:52:56,220 --> 00:52:53,170

and miss to get that thing going in the

1284

00:52:57,930 --> 00:52:56,230

beginning yep there was like I said this

1285

00:52:59,940 --> 00:52:57,940

yeah there's that means some of the

1286

00:53:02,250 --> 00:52:59,950

technology in a helicopter what what's

1287

00:53:05,040 --> 00:53:02,260

interesting is you figure like a Huey

1288

00:53:07,350 --> 00:53:05,050

helicopter they're powered by a couple

1289

00:53:11,010 --> 00:53:07,360

of turbines I they put out like about

1290

00:53:14,550 --> 00:53:11,020

700 85 horsepower each and they're you

1291

00:53:16,500 --> 00:53:14,560

know they're quite a like a Huey

1292

00:53:19,800 --> 00:53:16,510

helicopter shop for familiar with a way

1293

00:53:21,019 --> 00:53:19,810

you know quite a bit many times what

1294

00:53:23,509 --> 00:53:21,029

this car does

1295

00:53:25,880 --> 00:53:23,519

but yet because of electricity you can

1296

00:53:27,979 --> 00:53:25,890

create you can create almost as much

1297

00:53:29,149 --> 00:53:27,989

more actually create more horsepower if

1298

00:53:31,009 --> 00:53:29,159

you put it that way we're not bado you

1299

00:53:32,839 --> 00:53:31,019

can convert horsepower wats but if we

1300

00:53:35,179 --> 00:53:32,849

stay at the idea of horsepower you

1301
00:53:37,969 --> 00:53:35,189
create more horsepower with what I've

1302
00:53:40,429 --> 00:53:37,979
done here then in a huey helicopter just

1303
00:53:42,289 --> 00:53:40,439
because of the sheer the way the

1304
00:53:43,819 --> 00:53:42,299
leverage in the motor works the way the

1305
00:53:46,039 --> 00:53:43,829
weights created within the within the

1306
00:53:50,539 --> 00:53:46,049
body of this so if you create a very

1307
00:53:52,669 --> 00:53:50,549
strong motor with with very steeply

1308
00:53:53,839 --> 00:53:52,679
angled thins with inside of a road or

1309
00:53:55,219 --> 00:53:53,849
like so they don't have it they don't

1310
00:53:58,189 --> 00:53:55,229
have to go that fast and create an

1311
00:53:59,390 --> 00:53:58,199
incredible thrust Wow I might have some

1312
00:54:01,699 --> 00:53:59,400
listeners I was just thinking I might

1313
00:54:04,880 --> 00:54:01,709

have some listeners complain that this

1314

00:54:06,439 --> 00:54:04,890

show has nothing to do about UFOs yes I

1315

00:54:09,649 --> 00:54:06,449

could utter I could understand that

1316

00:54:11,149 --> 00:54:09,659

completely so I'm ready for that but for

1317

00:54:13,609 --> 00:54:11,159

the listener we will be talking about

1318

00:54:15,079 --> 00:54:13,619

that in the second hour some more now

1319

00:54:19,489 --> 00:54:15,089

have you figured out what a range would

1320

00:54:22,159 --> 00:54:19,499

be from plug into replug in you know

1321

00:54:25,489 --> 00:54:22,169

it's it's more like you know you should

1322

00:54:27,859 --> 00:54:25,499

be able to run for about an hour so that

1323

00:54:29,539 --> 00:54:27,869

roughly with why I put it an hour see

1324

00:54:30,739 --> 00:54:29,549

you figure ok well if you're going 30

1325

00:54:32,509 --> 00:54:30,749

miles an hour or you should be look

1326

00:54:34,729 --> 00:54:32,519

about 30 miles if you go 60 miles an

1327

00:54:36,739 --> 00:54:34,739

hour about you know about 60 miles you

1328

00:54:38,870 --> 00:54:36,749

know I would say to be safe when we're

1329

00:54:41,329 --> 00:54:38,880

actually testing and we get the g'deon's

1330

00:54:44,749 --> 00:54:41,339

going you know about a 20 mile distance

1331

00:54:46,609 --> 00:54:44,759

I see and then you know and then go from

1332

00:54:48,140 --> 00:54:46,619

there I said we're also at the very

1333

00:54:51,319 --> 00:54:48,150

beginning this thing it could be

1334

00:54:53,569 --> 00:54:51,329

designed like the the you create enough

1335

00:54:55,579 --> 00:54:53,579

thrust to actually have far more you

1336

00:54:57,229 --> 00:54:55,589

know far bigger power supply into them

1337

00:54:58,789 --> 00:54:57,239

that I'm what are you putting into it so

1338

00:55:01,099 --> 00:54:58,799

it's possible to greatly increase that

1339

00:55:02,779 --> 00:55:01,109

but again you know for simplicity for

1340

00:55:05,299 --> 00:55:02,789

safety for testing it's just not going

1341

00:55:07,909 --> 00:55:05,309

to be as far now I would think that

1342

00:55:09,409 --> 00:55:07,919

you'd want to create a miniature

1343

00:55:12,529 --> 00:55:09,419

prototype of this have you thought of

1344

00:55:15,259 --> 00:55:12,539

that you know my I was going to get a 30

1345

00:55:17,870 --> 00:55:15,269

create a 30 present scale thirty percent

1346

00:55:20,089 --> 00:55:17,880

scale model of the whole thing but by

1347

00:55:21,799 --> 00:55:20,099

the time you get that far because of

1348

00:55:22,759 --> 00:55:21,809

again 3d printing that kind of thing I

1349

00:55:25,819 --> 00:55:22,769

mean if you're I'm going to be using the

1350

00:55:28,069 --> 00:55:25,829

same computer the same the same the same

1351
00:55:30,670 --> 00:55:28,079
mechanical ideas in the prototype asur

1352
00:55:33,640 --> 00:55:30,680
the this small-scale version

1353
00:55:35,680 --> 00:55:33,650
as a cost it's there so close to the

1354
00:55:38,200 --> 00:55:35,690
same to build a 30-percent model is to

1355
00:55:39,910 --> 00:55:38,210
build a full-scale model it almost makes

1356
00:55:43,990 --> 00:55:39,920
sense just to build the full-scale model

1357
00:55:45,310 --> 00:55:44,000
yeah I can see that it's like it would

1358
00:55:47,200 --> 00:55:45,320
him in the case like said 10 years ago

1359
00:55:49,060 --> 00:55:47,210
completely would have made sense to make

1360
00:55:51,010 --> 00:55:49,070
a smaller you know proof-of-concept kind

1361
00:55:53,350 --> 00:55:51,020
of thing but now it's just like so the

1362
00:55:54,910 --> 00:55:53,360
differential is so small it is just you

1363
00:55:56,530 --> 00:55:54,920

know it's about thirty percent more to

1364

00:55:58,420 --> 00:55:56,540

get the full the full version of

1365

00:56:00,910 --> 00:55:58,430

something could sit in and fly so we're

1366

00:56:03,190 --> 00:56:00,920

just going to go for it all I think I've

1367

00:56:05,020 --> 00:56:03,200

early car manufacturers for some reason

1368

00:56:07,210 --> 00:56:05,030

when I'm thinking about you know how

1369

00:56:09,150 --> 00:56:07,220

your you're plugging along with this

1370

00:56:12,100 --> 00:56:09,160

idea you know it's kind of in the same

1371

00:56:15,910 --> 00:56:12,110

realm only it's a different you know a

1372

00:56:20,980 --> 00:56:15,920

whole different animal but still would

1373

00:56:24,220 --> 00:56:20,990

you fear any type of say competition you

1374

00:56:26,080 --> 00:56:24,230

know like for instance um Tucker when he

1375

00:56:28,660 --> 00:56:26,090

was building his car he built the

1376

00:56:30,970 --> 00:56:28,670

prototype type of thing same thing and

1377

00:56:33,910 --> 00:56:30,980

you know but he was basically pushed out

1378

00:56:35,290 --> 00:56:33,920

of business so you fear any you think

1379

00:56:38,440 --> 00:56:35,300

there's anything out there that would

1380

00:56:41,520 --> 00:56:38,450

like come at you to stop you from moving

1381

00:56:44,440 --> 00:56:41,530

ahead I mean as far as that goes i mean

1382

00:56:46,780 --> 00:56:44,450

it's almost better because things move

1383

00:56:48,490 --> 00:56:46,790

so fast today it's almost to get your

1384

00:56:50,500 --> 00:56:48,500

it's almost better to get your idea out

1385

00:56:52,780 --> 00:56:50,510

there and take ownership of it in a big

1386

00:56:54,490 --> 00:56:52,790

sense sometimes trying to keep it

1387

00:56:57,070 --> 00:56:54,500

obscure it was only a few people knowing

1388

00:56:59,170 --> 00:56:57,080

about it it opens it i think it almost

1389

00:57:01,090 --> 00:56:59,180

open up the competition more in that

1390

00:57:02,320 --> 00:57:01,100

it's if i get this thing out there so

1391

00:57:04,030 --> 00:57:02,330

it's everywhere I mean of course I've

1392

00:57:05,800 --> 00:57:04,040

covered you know it was a Pence and that

1393

00:57:07,390 --> 00:57:05,810

kind of thing for the for the hell

1394

00:57:08,560 --> 00:57:07,400

detective technologies being applied but

1395

00:57:09,760 --> 00:57:08,570

if somebody else I go out there and they

1396

00:57:12,280 --> 00:57:09,770

say oh that's pretty cool i'm gonna make

1397

00:57:13,780 --> 00:57:12,290

one too it comes down to the point where

1398

00:57:16,450 --> 00:57:13,790

you know and maybe I'm a little

1399

00:57:18,100 --> 00:57:16,460

optimistic that they'd have it be better

1400

00:57:19,930 --> 00:57:18,110

for them to contact me and work together

1401
00:57:21,180 --> 00:57:19,940
on something then it would be to try to

1402
00:57:23,560 --> 00:57:21,190
take it and do something themselves

1403
00:57:25,360 --> 00:57:23,570
mm-hmm just from the legal liability

1404
00:57:27,640 --> 00:57:25,370
sense on the rest of it's like you know

1405
00:57:29,350 --> 00:57:27,650
I'm not it's like I'm not a big greedy

1406
00:57:30,640 --> 00:57:29,360
person i think you know hey if you if

1407
00:57:32,710 --> 00:57:30,650
you if you have something to say well i

1408
00:57:34,810 --> 00:57:32,720
could get that done in you know in two

1409
00:57:36,910 --> 00:57:34,820
months rather than two years let's look

1410
00:57:39,250 --> 00:57:36,920
let's put something together to get you

1411
00:57:41,200 --> 00:57:39,260
know it doesn't have to be a us versus

1412
00:57:43,420 --> 00:57:41,210
them kind of thing conversely are you

1413
00:57:44,190 --> 00:57:43,430

thinking about anyone that's out there

1414

00:57:47,880 --> 00:57:44,200

right now that

1415

00:57:49,560 --> 00:57:47,890

you're thinking about approaching you

1416

00:57:52,109 --> 00:57:49,570

know I have a couple of names of people

1417

00:57:54,450 --> 00:57:52,119

you know part of it you know is

1418

00:57:56,550 --> 00:57:54,460

leveraging my name I must be honest with

1419

00:57:59,849 --> 00:57:56,560

it I I get out there because of because

1420

00:58:01,290 --> 00:57:59,859

my name with Roswell you know I get the

1421

00:58:02,640 --> 00:58:01,300

chance to meet and talk to a lot of very

1422

00:58:04,319 --> 00:58:02,650

interesting people and some of them are

1423

00:58:06,569 --> 00:58:04,329

fairly powerful and wealthy and that

1424

00:58:08,069 --> 00:58:06,579

kind of thing so there is a window of

1425

00:58:10,680 --> 00:58:08,079

opportunity to talk to some of those

1426

00:58:13,680 --> 00:58:10,690

folks so that that is definitely a

1427

00:58:16,620 --> 00:58:13,690

possibility um what I've decided to do

1428

00:58:18,780 --> 00:58:16,630

is like I said I in a financial sense

1429

00:58:21,089 --> 00:58:18,790

I'm gonna try to find some partners

1430

00:58:22,200 --> 00:58:21,099

it'll come along that might end it and

1431

00:58:24,150 --> 00:58:22,210

then look for them to come in at the

1432

00:58:27,030 --> 00:58:24,160

very beginning and give me a little bit

1433

00:58:29,550 --> 00:58:27,040

of time and then you know in and walk in

1434

00:58:31,140 --> 00:58:29,560

because I have a couple of larger people

1435

00:58:33,180 --> 00:58:31,150

like I could definitely sit down and

1436

00:58:35,339 --> 00:58:33,190

talk to but I want to be completely put

1437

00:58:37,710 --> 00:58:35,349

1449

00:59:08,520 --> 00:59:07,180

think i'm actually the third one on

1450

00:59:10,319 --> 00:59:08,530

there something like that but if you

1451

00:59:13,109 --> 00:59:10,329

just like jesse marcel you'll see am i

1452

00:59:16,710 --> 00:59:13,119

smiling face that's what you see ways to

1453

00:59:18,540 --> 00:59:16,720

get to it yeah okay well alright so why

1454

00:59:21,059 --> 00:59:18,550

don't you say goodbye to the first our

1455

00:59:24,300 --> 00:59:21,069

listeners thanks everybody for listening

1456

00:59:26,130 --> 00:59:24,310

I hope I didn't bore you know I think

1457

00:59:27,829 --> 00:59:26,140

it's been fascinating in its the second

1458

00:59:32,069 --> 00:59:27,839

hour we're going to be talking about

1459

00:59:35,040 --> 00:59:32,079

your family Roswell and something I sent

1460

01:00:41,440 --> 00:59:35,050

you a clip of us to see what you thought

1461

01:00:46,640 --> 01:00:44,480

that music was provided by Kerry Lloyd

1462

01:00:49,220 --> 01:00:46,650

White House I think was in he does a lot

1463

01:00:51,500 --> 01:00:49,230

of clips for movies so that was up for

1464

01:00:53,510 --> 01:00:51,510

some movie obviously he gave us the

1465

01:00:56,150 --> 01:00:53,520

rights to use all of this music he's a

1466

01:00:59,269 --> 01:00:56,160

fan of the show lives in Ireland and

1467

01:01:02,000 --> 01:00:59,279

creates music that's what he does for a

1468

01:01:06,250 --> 01:01:02,010

living and so we're back with jesse

1469

01:01:08,769 --> 01:01:06,260

marcel the 3rd and got ya welcome back

1470

01:01:11,240 --> 01:01:08,779

whoops hang on this has happened before

1471

01:01:13,760 --> 01:01:11,250

another thing is starting to play I

1472

01:01:15,740 --> 01:01:13,770

don't know why the same clip wants to

1473

01:01:19,789 --> 01:01:15,750

play every time I guess I'll have to

1474

01:01:22,370 --> 01:01:19,799

play it next time but Jesse so that was

1475

01:01:23,660 --> 01:01:22,380

really fascinating about the the car and

1476

01:01:26,180 --> 01:01:23,670

I wish you all the luck in the world

1477

01:01:30,609 --> 01:01:26,190

would thank you and you know if you get

1478

01:01:32,839 --> 01:01:30,619

the right people involved in that and

1479

01:01:35,029 --> 01:01:32,849

you know I hate to say it but a lot of

1480

01:01:38,089 --> 01:01:35,039

it just boils down to a big pile of cash

1481

01:01:39,890 --> 01:01:38,099

to get something like that yeah moving

1482

01:01:41,450 --> 01:01:39,900

it yep that's its it's like any other

1483

01:01:43,039 --> 01:01:41,460

venture it does take some pile of cash

1484

01:01:45,440 --> 01:01:43,049

but we have a good foundation going I

1485

01:01:47,089 --> 01:01:45,450

mean I'm excited about it i think it's

1486

01:01:49,130 --> 01:01:47,099

it's it's one of those things that yummy

1487

01:01:50,359 --> 01:01:49,140

if you don't take any risks you know i'm

1488

01:01:52,160 --> 01:01:50,369

not going to get anywhere with it i'm

1489

01:01:54,200 --> 01:01:52,170

i'm willing to put it on the line to

1490

01:01:56,900 --> 01:01:54,210

make this thing work so yeah that's um

1491

01:01:59,390 --> 01:01:56,910

that's how all great ideas start you

1492

01:02:00,980 --> 01:01:59,400

know i mean the idea starts the risk is

1493

01:02:02,960 --> 01:02:00,990

there and all the great achievements

1494

01:02:06,319 --> 01:02:02,970

that have been done throughout time or

1495

01:02:09,980 --> 01:02:06,329

all because someone really took the big

1496

01:02:12,140 --> 01:02:09,990

risk yeah so I congratulate you on that

1497

01:02:15,880 --> 01:02:12,150

well thank you not everybody would do

1498

01:02:19,370 --> 01:02:15,890

that that's for sure so let's talk about

1499

01:02:22,329 --> 01:02:19,380

first of all I know you briefly said

1500

01:02:24,920 --> 01:02:22,339

about your family and let us talk about

1501

01:02:27,920 --> 01:02:24,930

Roswell and how that's impacted your

1502

01:02:32,269 --> 01:02:27,930

life and all the way back to your

1503

01:02:33,799 --> 01:02:32,279

grandfather I remember last time we

1504

01:02:35,700 --> 01:02:33,809

spoke you said you used to visit them in

1505

01:02:38,970 --> 01:02:35,710

the South somewhere

1506

01:02:42,480 --> 01:02:38,980

they lived in on a bayou in Houma

1507

01:02:45,359 --> 01:02:42,490

Louisiana a little house that he dealt

1508

01:02:49,140 --> 01:02:45,369

down that way so now when this happened

1509

01:02:51,120 --> 01:02:49,150

when Stanton Friedman got the word at

1510

01:02:54,930 --> 01:02:51,130

the TV station radio station whatever it

1511

01:02:59,010 --> 01:02:54,940

was and someone mentioned that they were

1512

01:03:01,800 --> 01:02:59,020

talking on the radio yeah with your

1513

01:03:03,450 --> 01:03:01,810

grandfather did you were you aware of

1514

01:03:06,180 --> 01:03:03,460

that whole situation when that happened

1515

01:03:07,920 --> 01:03:06,190

or was that before your time a long time

1516

01:03:10,770 --> 01:03:07,930

before my time you know why I shouldn't

1517

01:03:13,829 --> 01:03:10,780

say that it was my grandfather was a

1518

01:03:16,140 --> 01:03:13,839

very avid ham radio operator ham radio

1519

01:03:18,210 --> 01:03:16,150

that's right yeah and some somebody

1520

01:03:21,390 --> 01:03:18,220

somewhere i'm not quite sure who where

1521

01:03:23,280 --> 01:03:21,400

had recognized his name and knew he was

1522

01:03:25,020 --> 01:03:23,290

attached to the 50 ninth you know air

1523

01:03:27,120 --> 01:03:25,030

base that at the time back in 47 of

1524

01:03:29,490 --> 01:03:27,130

course and had brought up said you know

1525

01:03:32,250 --> 01:03:29,500

i heard some rumors that maybe something

1526

01:03:35,099 --> 01:03:32,260

was seen back then and that's what

1527

01:03:36,780 --> 01:03:35,109

started up and then yeah somebody that

1528

01:03:39,270 --> 01:03:36,790

was aware of that conversation took

1529

01:03:41,130 --> 01:03:39,280

place that 80 it hit the papers and then

1530

01:03:42,410 --> 01:03:41,140

i'm stan friedman what became involved

1531

01:03:46,140 --> 01:03:42,420

of course and started doing a lot of

1532

01:03:48,420 --> 01:03:46,150

investigating mm-hmm and that's kind of

1533

01:03:51,240 --> 01:03:48,430

what broke the whole case right open it

1534

01:03:53,520 --> 01:03:51,250

was mean after 30 years it was it was

1535

01:03:55,920 --> 01:03:53,530

standing for agent excuse me Stanton

1536

01:03:58,650 --> 01:03:55,930

Friedman's diligence now there's other

1537

01:04:01,710 --> 01:03:58,660

places my grandfather was actually not a

1538

01:04:04,320 --> 01:04:01,720

big public person he was you know it

1539

01:04:06,780 --> 01:04:04,330

sounds like eight like this when a story

1540

01:04:09,750 --> 01:04:06,790

started coming out ledos the papers one

1541

01:04:11,820 --> 01:04:09,760

interview but who is at the National

1542

01:04:14,550 --> 01:04:11,830

Enquirer wanted to pay for him to give

1543

01:04:15,780 --> 01:04:14,560

him to spill a story with them but he

1544

01:04:17,849 --> 01:04:15,790

kept with Stanton freedom at the

1545

01:04:19,500 --> 01:04:17,859

beginning and kind of give him an

1546

01:04:22,140 --> 01:04:19,510

overview of what would have happened

1547

01:04:24,540 --> 01:04:22,150

back then so now let's talk about when

1548

01:04:28,380 --> 01:04:24,550

he was actually posing for a picture

1549

01:04:30,120 --> 01:04:28,390

with the weather balloon debris yes what

1550

01:04:31,950 --> 01:04:30,130

is he what did he ever this is just

1551
01:04:34,829 --> 01:04:31,960
something I've never heard talked about

1552
01:04:41,640 --> 01:04:34,839
what did he actually say about that

1553
01:04:44,250 --> 01:04:41,650
whole situation just that it was it was

1554
01:04:47,280 --> 01:04:44,260
it was set up his biggest thing was it

1555
01:04:48,560 --> 01:04:47,290
that it had been staged one thing that

1556
01:04:50,780 --> 01:04:48,570
he did say

1557
01:04:52,700 --> 01:04:50,790
and that we've got the photos deeply is

1558
01:04:54,230 --> 01:04:52,710
it he said that he had the stuff in

1559
01:04:55,760 --> 01:04:54,240
there with it was it was part of a Rowan

1560
01:04:57,590 --> 01:04:55,770
target you know would they what they

1561
01:04:59,120 --> 01:04:57,600
were saying it were purported to be but

1562
01:05:02,060 --> 01:04:59,130
he said there were some pieces of real

1563
01:05:03,380 --> 01:05:02,070

debris in there I mixed in with that pic

1564

01:05:05,120 --> 01:05:03,390

yeah mixed in with her there were some

1565

01:05:07,070 --> 01:05:05,130

real pieces and we've gone through I've

1566

01:05:08,780 --> 01:05:07,080

had the which I'd be happy to send you

1567

01:05:11,030 --> 01:05:08,790

if you want a copy I've had them and has

1568

01:05:12,410 --> 01:05:11,040

colorized everything in the world and

1569

01:05:14,540 --> 01:05:12,420

it's kind of it's kind of you know

1570

01:05:16,100 --> 01:05:14,550

there's a bunch of detail you can't get

1571

01:05:18,530 --> 01:05:16,110

from just looking at it on the internet

1572

01:05:19,970 --> 01:05:18,540

that kind of thing but yeah he said that

1573

01:05:22,580 --> 01:05:19,980

there were some of the real pieces in

1574

01:05:24,800 --> 01:05:22,590

the room wow I never heard that now what

1575

01:05:26,240 --> 01:05:24,810

about the actual document that he had in

1576

01:05:29,390 --> 01:05:26,250

his hand that the guy's been trying to

1577

01:05:32,480 --> 01:05:29,400

decipher in San Francisco for several

1578

01:05:35,030 --> 01:05:32,490

years that says bodies or something like

1579

01:05:39,650 --> 01:05:35,040

that on it well you know if I can stay

1580

01:05:42,200 --> 01:05:39,660

on the conservative side he said that he

1581

01:05:44,390 --> 01:05:42,210

wasn't directly involved with that part

1582

01:05:45,890 --> 01:05:44,400

of the story but the people that were

1583

01:05:48,140 --> 01:05:45,900

were completely reputable and he would

1584

01:05:49,910 --> 01:05:48,150

believe what they had to say and then he

1585

01:05:51,260 --> 01:05:49,920

would finish a conversation by winking

1586

01:05:53,240 --> 01:05:51,270

at you and say there's a lot more out

1587

01:05:56,990 --> 01:05:53,250

there than you know that i can tell you

1588

01:06:00,590 --> 01:05:57,000

kind of thing and before this before

1589

01:06:03,170 --> 01:06:00,600

Stanton came along you said it was

1590

01:06:04,820 --> 01:06:03,180

before your time and all that but was

1591

01:06:08,090 --> 01:06:04,830

your grandfather actually talking about

1592

01:06:12,080 --> 01:06:08,100

this to your father yeah within our

1593

01:06:16,850 --> 01:06:12,090

family we talked about it as an is an

1594

01:06:18,380 --> 01:06:16,860

idea my my father when this is when he

1595

01:06:19,820 --> 01:06:18,390

had this experience in this this is one

1596

01:06:24,350 --> 01:06:19,830

of the things that it makes me believe

1597

01:06:26,390 --> 01:06:24,360

in Roswell is that a really smart guy it

1598

01:06:28,400 --> 01:06:26,400

changed his life yeah other than being a

1599

01:06:30,230 --> 01:06:28,410

medical doctor I've been one morning

1600

01:06:32,600 --> 01:06:30,240

when I was a young child he walked out

1601
01:06:33,980 --> 01:06:32,610
the back door with a shovel and started

1602
01:06:36,230 --> 01:06:33,990
digging a hole in the ground that turned

1603
01:06:37,790 --> 01:06:36,240
into a really big observatory there's

1604
01:06:40,040 --> 01:06:37,800
the biggest in Montana he hunt up to

1605
01:06:42,500 --> 01:06:40,050
hand dug the hole pour the concrete did

1606
01:06:44,630 --> 01:06:42,510
even made the made it home and

1607
01:06:46,430 --> 01:06:44,640
everything and then ground the mirror

1608
01:06:48,380 --> 01:06:46,440
did he did everything but his whole

1609
01:06:50,060 --> 01:06:48,390
thing was he wanted to get back to the

1610
01:06:54,230 --> 01:06:50,070
stars he wanted to get back to what he

1611
01:06:57,740 --> 01:06:54,240
saw as a child and it had that kind of

1612
01:06:59,210 --> 01:06:57,750
impact on him that he and and it is

1613
01:07:00,349 --> 01:06:59,220

later life he'd move it you know he'd

1614

01:07:01,940 --> 01:07:00,359

move again then

1615

01:07:04,789 --> 01:07:01,950

and they have built an observatory by

1616

01:07:07,880 --> 01:07:04,799

that house so what happened to him when

1617

01:07:11,089 --> 01:07:07,890

he was 12 or 11 to 12 is what's really

1618

01:07:15,170 --> 01:07:11,099

it carried through his whole life Wow

1619

01:07:17,420 --> 01:07:15,180

now just on the message board the people

1620

01:07:19,220 --> 01:07:17,430

want to see that image that you

1621

01:07:21,499 --> 01:07:19,230

mentioned so make sure make yourself a

1622

01:07:24,079 --> 01:07:21,509

note right now okay so you can send that

1623

01:07:26,120 --> 01:07:24,089

to me now i'll post that upon in our

1624

01:07:29,029 --> 01:07:26,130

show notes as well as on our Facebook

1625

01:07:30,140 --> 01:07:29,039

page I'd be very happy to if you don't

1626
01:07:32,749 --> 01:07:30,150
mind here on the right in the background

1627
01:07:36,470 --> 01:07:32,759
I will no color I have a couple of my

1628
01:07:38,539 --> 01:07:36,480
radio we can do this so i have two

1629
01:07:39,650 --> 01:07:38,549
colorized versions ones he's looking

1630
01:07:41,630 --> 01:07:39,660
left and wayne he's looking right there

1631
01:07:43,400 --> 01:07:41,640
I everybody's seen him before if you're

1632
01:07:45,289 --> 01:07:43,410
in this interest in this guy thing but

1633
01:07:48,140 --> 01:07:45,299
sure i will be happy i'll get both of

1634
01:07:50,269 --> 01:07:48,150
those to you and any other rocket what

1635
01:07:53,450 --> 01:07:50,279
like little interesting things like out

1636
01:07:55,370 --> 01:07:53,460
the window there green trees which is

1637
01:07:56,930 --> 01:07:55,380
kind of interesting and then if you

1638
01:07:59,779 --> 01:07:56,940

actually go to the base those trees

1639

01:08:01,279 --> 01:07:59,789

aren't there I you know for whatever did

1640

01:08:02,930 --> 01:08:01,289

but they when you enhance the picture

1641

01:08:04,279 --> 01:08:02,940

I'm they're definitely there so it there

1642

01:08:05,870 --> 01:08:04,289

are a couple of things that maybe I'll

1643

01:08:08,120 --> 01:08:05,880

learn a little bit out of line and I'm

1644

01:08:10,670 --> 01:08:08,130

not quite you know of the story so I'm

1645

01:08:13,549 --> 01:08:10,680

not quite sure what that means but now

1646

01:08:15,710 --> 01:08:13,559

getting back I want to just go back one

1647

01:08:17,809 --> 01:08:15,720

more time on talking about the document

1648

01:08:19,669 --> 01:08:17,819

that your grandfather was actually

1649

01:08:22,879 --> 01:08:19,679

holding in his hand when he was holding

1650

01:08:26,180 --> 01:08:22,889

the debris did he remember reading that

1651
01:08:28,729 --> 01:08:26,190
threw himself you know I did not have

1652
01:08:32,870 --> 01:08:28,739
the discussion with him yeah we did that

1653
01:08:34,970 --> 01:08:32,880
now if we if we go forward my father was

1654
01:08:37,399 --> 01:08:34,980
greatly excited about that about that

1655
01:08:40,760 --> 01:08:37,409
document he my father thought that was

1656
01:08:43,519 --> 01:08:40,770
very very significant I do I I think it

1657
01:08:45,859 --> 01:08:43,529
is I think it is too in my and

1658
01:08:47,059 --> 01:08:45,869
obviously my you know father and

1659
01:08:50,300 --> 01:08:47,069
grandfather talk to every sunday morning

1660
01:08:51,979 --> 01:08:50,310
for decades and I'm thinking you know I

1661
01:08:55,789 --> 01:08:51,989
was party to that individual

1662
01:08:58,669 --> 01:08:55,799
conversation but but you know I can

1663
01:09:01,010 --> 01:08:58,679

surmise that the two have had the two of

1664

01:09:02,899 --> 01:09:01,020

them had a conversation and I know my

1665

01:09:04,910 --> 01:09:02,909

father believed it I mean he thought it

1666

01:09:06,829 --> 01:09:04,920

was a he thought it was a great fine and

1667

01:09:11,030 --> 01:09:06,839

it made complete sense to him anyway

1668

01:09:13,309 --> 01:09:11,040

mm-hmm now how did they feel about or I

1669

01:09:15,559 --> 01:09:13,319

don't know how long you

1670

01:09:18,019 --> 01:09:15,569

her grandfather was around but how did

1671

01:09:20,539 --> 01:09:18,029

you at least your father feel about when

1672

01:09:22,999 --> 01:09:20,549

the air force came out I think was in 97

1673

01:09:26,240 --> 01:09:23,009

and they came out with another story

1674

01:09:28,519 --> 01:09:26,250

about what Roswell was and you know the

1675

01:09:31,819 --> 01:09:28,529

crash test dummies and you know the

1676
01:09:34,609 --> 01:09:31,829
mogul balloon and and all that well you

1677
01:09:36,829 --> 01:09:34,619
know a couple of facets one you know

1678
01:09:38,839 --> 01:09:36,839
about being the mogul balloon but my

1679
01:09:41,660 --> 01:09:38,849
grandfather went through radar training

1680
01:09:43,579 --> 01:09:41,670
school right before this happened he

1681
01:09:45,050 --> 01:09:43,589
would have been made aware of the the

1682
01:09:49,339 --> 01:09:45,060
Rowan targets and a mogul balloon

1683
01:09:53,149 --> 01:09:49,349
project so you know it just doesn't

1684
01:09:56,689 --> 01:09:53,159
really jive very well my father i would

1685
01:09:58,970 --> 01:09:56,699
say got upset but just this is nonsense

1686
01:10:00,470 --> 01:09:58,980
you know the crash test dummies coming

1687
01:10:02,510 --> 01:10:00,480
out in the 50s and that sort of thing I

1688
01:10:04,700 --> 01:10:02,520

think anyone that's like you know how

1689

01:10:06,169 --> 01:10:04,710

can we be that stupid to miss that many

1690

01:10:08,359 --> 01:10:06,179

years of our life you know that kind of

1691

01:10:11,209 --> 01:10:08,369

thing to say just none of it really fit

1692

01:10:12,709 --> 01:10:11,219

very well it was it was it was very well

1693

01:10:14,479 --> 01:10:12,719

done it wasn't like it was a hundred

1694

01:10:17,030 --> 01:10:14,489

percent either there's parts of their

1695

01:10:19,220 --> 01:10:17,040

factual down in the report 97 but being

1696

01:10:22,310 --> 01:10:19,230

a mogul balloon it didn't fit the bill

1697

01:10:25,520 --> 01:10:22,320

the crash test dummies were not even

1698

01:10:27,740 --> 01:10:25,530

possible mm-hmm but did that get them

1699

01:10:30,260 --> 01:10:27,750

upset you know when when they would come

1700

01:10:32,689 --> 01:10:30,270

out with these type of things the lies I

1701

01:10:36,319 --> 01:10:32,699

think Stanton Friedman says there they

1702

01:10:40,220 --> 01:10:36,329

the Air Force lied four times yes you

1703

01:10:43,580 --> 01:10:40,230

know it the only time I saw my father

1704

01:10:45,229 --> 01:10:43,590

get visibly upset about this is there

1705

01:10:47,300 --> 01:10:45,239

was a point in time in which the Air

1706

01:10:50,839 --> 01:10:47,310

Force denied my grandfather as ever

1707

01:10:53,359 --> 01:10:50,849

being in the military oh and that upset

1708

01:10:54,589 --> 01:10:53,369

my father greatly where they said that

1709

01:10:57,020 --> 01:10:54,599

he has actually never even been in the

1710

01:10:59,330 --> 01:10:57,030

military and to all of us it was like

1711

01:11:02,300 --> 01:10:59,340

you know another nail in the coffin on

1712

01:11:04,040 --> 01:11:02,310

the reality of Roswell why in the women

1713

01:11:06,560 --> 01:11:04,050

and how in the world would you try to

1714

01:11:08,209 --> 01:11:06,570

extinguish somebody's entire record that

1715

01:11:09,859 --> 01:11:08,219

just hang on to John Burroughs I don't

1716

01:11:11,930 --> 01:11:09,869

know if you heard this oh I know I

1717

01:11:14,540 --> 01:11:11,940

didn't yeah are you familiar with who he

1718

01:11:17,240 --> 01:11:14,550

is oh yes yeah so that just happened

1719

01:11:20,740 --> 01:11:17,250

to him that his records were like he was

1720

01:11:25,180 --> 01:11:20,750

never even in the military and that's

1721

01:11:27,180 --> 01:11:25,190

you know I back back at home back with

1722

01:11:28,350 --> 01:11:27,190

his wife Linda Marcy

1723

01:11:29,610 --> 01:11:28,360

well and really should be somebody

1724

01:11:32,670 --> 01:11:29,620

interesting to talk to you about my

1725

01:11:34,439 --> 01:11:32,680

father's widower but she'd probably a

1726

01:11:35,910 --> 01:11:34,449

lot of fun stories but they have some of

1727

01:11:37,709 --> 01:11:35,920

you know there's there's documents out

1728

01:11:39,090 --> 01:11:37,719

there that show my you know my

1729

01:11:41,370 --> 01:11:39,100

grandfather was obviously in the

1730

01:11:44,220 --> 01:11:41,380

military and that kind of thing so so

1731

01:11:46,800 --> 01:11:44,230

I'm not quite sure why it seems to me

1732

01:11:48,390 --> 01:11:46,810

that it you know it's almost like when

1733

01:11:50,100 --> 01:11:48,400

the air force or the military camps on

1734

01:11:52,290 --> 01:11:50,110

studio is never in the military it's

1735

01:11:54,270 --> 01:11:52,300

almost adding fuel to the fire because

1736

01:11:55,410 --> 01:11:54,280

there's enough proof that he was mmm you

1737

01:11:58,050 --> 01:11:55,420

know it's like this release of documents

1738

01:11:59,520 --> 01:11:58,060

just came out what the do you hear in

1739

01:12:01,200 --> 01:11:59,530

your news you're just talking about they

1740

01:12:03,360 --> 01:12:01,210

were talking about the beginning there's

1741

01:12:05,250 --> 01:12:03,370

nothing about Roswell in it you know

1742

01:12:07,080 --> 01:12:05,260

it's like it's like where did where did

1743

01:12:09,060 --> 01:12:07,090

how did they scrub all the documents

1744

01:12:10,410 --> 01:12:09,070

when it comes to Roswell is that kind of

1745

01:12:14,070 --> 01:12:10,420

the beginning before that was even

1746

01:12:16,470 --> 01:12:14,080

wasn't project grunge or whatever was

1747

01:12:18,959 --> 01:12:16,480

called his project sign came on rocks

1748

01:12:21,330 --> 01:12:18,969

that's right sign and grunge so I mean

1749

01:12:22,530 --> 01:12:21,340

that they're there it woulda got without

1750

01:12:23,550 --> 01:12:22,540

you know there should have been so I

1751

01:12:24,840 --> 01:12:23,560

would have thought that have been

1752

01:12:26,700 --> 01:12:24,850

something through the years there was

1753

01:12:28,770 --> 01:12:26,710

this wasn't it wasn't over in 47 but

1754

01:12:30,000 --> 01:12:28,780

there was there's nothing anything in

1755

01:12:31,410 --> 01:12:30,010

there what's it the Russell's I even

1756

01:12:33,150 --> 01:12:31,420

really mentioned and they did their own

1757

01:12:35,189 --> 01:12:33,160

studies I mean it is and it's not like

1758

01:12:36,689 --> 01:12:35,199

it's not public information but to

1759

01:12:38,220 --> 01:12:36,699

saying their public information didn't

1760

01:12:40,590 --> 01:12:38,230

exist in these documents they released

1761

01:12:43,530 --> 01:12:40,600

it just I said it it's kind of a

1762

01:12:45,450 --> 01:12:43,540

head-scratcher right right really but

1763

01:12:49,140 --> 01:12:45,460

maybe maybe not maybe it's just obvious

1764

01:12:50,790 --> 01:12:49,150

you know there's if I go back and just

1765

01:12:54,330 --> 01:12:50,800

the talk off top my head for a few

1766

01:12:55,920 --> 01:12:54,340

minutes about Roswell about if we boil

1767

01:12:58,530 --> 01:12:55,930

it down to the facts the ones that are

1768

01:13:00,959 --> 01:12:58,540

undeniable yeah you know you know one

1769

01:13:02,340 --> 01:13:00,969

did something happen in 47 yes you know

1770

01:13:04,380 --> 01:13:02,350

something out in a farmer's field ever

1771

01:13:05,880 --> 01:13:04,390

seen a ranchers field yes happened did

1772

01:13:07,320 --> 01:13:05,890

my grandfather go out and pick up

1773

01:13:10,740 --> 01:13:07,330

something strange he couldn't figure out

1774

01:13:13,650 --> 01:13:10,750

what it was yes did my father handle it

1775

01:13:15,660 --> 01:13:13,660

yes was it some kind of technology to my

1776

01:13:18,330 --> 01:13:15,670

grandfather at at any point his life

1777

01:13:20,370 --> 01:13:18,340

could ever understand or my father no

1778

01:13:21,479 --> 01:13:20,380

they couldn't figure it out on the basis

1779

01:13:23,670 --> 01:13:21,489

they thought I was extraterrestrial

1780

01:13:25,020 --> 01:13:23,680

because the point that it seemed much

1781

01:13:29,189 --> 01:13:25,030

more advanced than we were capable of

1782

01:13:31,500 --> 01:13:29,199

creating they couldn't understand it did

1783

01:13:32,970 --> 01:13:31,510

it change my grandfather's life yes did

1784

01:13:34,680 --> 01:13:32,980

he changed my father's life yes like

1785

01:13:36,419 --> 01:13:34,690

said he devoted his life to a strong you

1786

01:13:38,490 --> 01:13:36,429

know outside of his medical practice to

1787

01:13:40,459 --> 01:13:38,500

astronomy and looking at the stars and

1788

01:13:43,649 --> 01:13:40,469

physics that kind of thing

1789

01:13:47,159 --> 01:13:43,659

it's just you know if you boil it down

1790

01:13:48,959 --> 01:13:47,169

to the some very basic facts and leave

1791

01:13:50,699 --> 01:13:48,969

everything else is speculation you know

1792

01:13:52,439 --> 01:13:50,709

I've even talked about it's like you

1793

01:13:54,839 --> 01:13:52,449

know for this thing now it would have

1794

01:13:57,569 --> 01:13:54,849

been such a conspiracy for my

1795

01:13:59,219 --> 01:13:57,579

grandfather my father Colonel Blanchard

1796

01:14:01,229 --> 01:13:59,229

everybody together to get together to

1797

01:14:03,479 --> 01:14:01,239

make up the ITO to create this whole

1798

01:14:05,999 --> 01:14:03,489

amazing story there was obviously you

1799

01:14:07,319 --> 01:14:06,009

know it anyway it's just it just it just

1800

01:14:09,479 --> 01:14:07,329

doesn't make sense if you just stay with

1801

01:14:10,889 --> 01:14:09,489

a few very simple facts and I'm saying

1802

01:14:11,999 --> 01:14:10,899

that for as a family member it's easy

1803

01:14:14,549 --> 01:14:12,009

for me to say I'm just because I was

1804

01:14:16,439 --> 01:14:14,559

involved on that level but they're just

1805

01:14:19,559 --> 01:14:16,449

there is if this was an extraterrestrial

1806

01:14:22,049 --> 01:14:19,569

it was a very advanced technology that

1807

01:14:24,109 --> 01:14:22,059

we have we didn't have back then and as

1808

01:14:27,689 --> 01:14:24,119

far as we know so we still have today

1809

01:14:30,809 --> 01:14:27,699

you know I think I I I don't know when I

1810

01:14:34,109 --> 01:14:30,819

talked to Tom carry or Don Schmidt for

1811

01:14:36,089 --> 01:14:34,119

Kevin Randall if I ever asked this

1812

01:14:39,629 --> 01:14:36,099

question but there seems to be some

1813

01:14:43,409 --> 01:14:39,639

confusion about the crash site in the

1814

01:14:45,209 --> 01:14:43,419

additional crash site can you kind of

1815

01:14:50,459 --> 01:14:45,219

like talk about that what you know about

1816

01:14:52,559 --> 01:14:50,469

that yeah when my grandfather he went

1817

01:14:56,189 --> 01:14:52,569

over and looked at the British sheriff's

1818

01:14:57,779 --> 01:14:56,199

office and and when he looked at the

1819

01:14:59,699 --> 01:14:57,789

debris said you already see me when they

1820

01:15:01,949 --> 01:14:59,709

the debris was looked at the Sheriff's

1821

01:15:04,079 --> 01:15:01,959

Office I apologize the sheriff couldn't

1822

01:15:07,849 --> 01:15:04,089

figure out what it was called a military

1823

01:15:10,289 --> 01:15:07,859

base and that's where Colonel blanchard

1824

01:15:12,719 --> 01:15:10,299

had my grandfather go there and take a

1825

01:15:13,979 --> 01:15:12,729

look at what they had and this is this

1826

01:15:17,129 --> 01:15:13,989

materials were brought in by the rancher

1827

01:15:19,109 --> 01:15:17,139

and it's any my graph I was like hi G

1828

01:15:20,519 --> 01:15:19,119

I'm clueless and that's where blood shed

1829

01:15:23,339 --> 01:15:20,529

blood well you know go out and take a

1830

01:15:26,999 --> 01:15:23,349

look he had a disinformation officer

1831

01:15:28,919 --> 01:15:27,009

went out and followed the rancher out to

1832

01:15:30,659 --> 01:15:28,929

his home spent the night and I got barn

1833

01:15:32,429 --> 01:15:30,669

next morning drove out to the site

1834

01:15:35,129 --> 01:15:32,439

that's the crash site that my

1835

01:15:39,179 --> 01:15:35,139

grandfather talks about a three-quarters

1836

01:15:41,189 --> 01:15:39,189

of a mile long looks like a fan of where

1837

01:15:42,359 --> 01:15:41,199

something hit the ground and left you

1838

01:15:45,319 --> 01:15:42,369

know various kinds of debris scattered

1839

01:15:48,179 --> 01:15:45,329

in a kind of like a triangle now a

1840

01:15:49,979 --> 01:15:48,189

number of miles away into the side of a

1841

01:15:53,100 --> 01:15:49,989

mountain side I mountains I'm like a

1842

01:15:56,939 --> 01:15:53,110

hillside there was another crash site

1843

01:15:59,790 --> 01:15:56,949

and this is where you're supposed to be

1844

01:16:03,330 --> 01:15:59,800

some kind of like a capsule that had the

1845

01:16:05,040 --> 01:16:03,340

aliens in it one was out of the craft

1846

01:16:06,990 --> 01:16:05,050

when was still inside the craft and when

1847

01:16:08,280 --> 01:16:07,000

today what didn't make the crash that

1848

01:16:10,649 --> 01:16:08,290

there might be more I'm not questioners

1849

01:16:14,399 --> 01:16:10,659

you know when it gets to that end the

1850

01:16:17,250 --> 01:16:14,409

story fact there were two crash sites

1851
01:16:18,720 --> 01:16:17,260
from my grandfather they would say yes

1852
01:16:20,580 --> 01:16:18,730
there was what I saw there was one that

1853
01:16:25,200 --> 01:16:20,590
the other people he worked with were

1854
01:16:26,609 --> 01:16:25,210
involved with you know as far as you

1855
01:16:28,260 --> 01:16:26,619
know what excited came out as far as

1856
01:16:29,820 --> 01:16:28,270
aliens that kind of thing it was it was

1857
01:16:31,830 --> 01:16:29,830
accepted by my grandfather that there

1858
01:16:33,930 --> 01:16:31,840
were you know was he directly involved

1859
01:16:35,790 --> 01:16:33,940
with that no but he accepted that there

1860
01:16:38,100 --> 01:16:35,800
was because it's because the people he

1861
01:16:39,479 --> 01:16:38,110
worked with on it completely agreed with

1862
01:16:43,439 --> 01:16:39,489
them that there was I'm there there is

1863
01:16:45,240 --> 01:16:43,449

kind of a funny story that and that when

1864

01:16:48,930 --> 01:16:45,250

my grandfather he flew over with some of

1865

01:16:51,180 --> 01:16:48,940

the debris to right and there there's a

1866

01:16:53,370 --> 01:16:51,190

joke about you know the others big box

1867

01:16:55,020 --> 01:16:53,380

all debris in it and something like a

1868

01:16:57,419 --> 01:16:55,030

hand or something fell out of it was

1869

01:16:59,250 --> 01:16:57,429

kicked back in the box it was some kind

1870

01:17:00,840 --> 01:16:59,260

of an alien of some kind but you know it

1871

01:17:05,850 --> 01:17:00,850

might be more story than anything else

1872

01:17:08,820 --> 01:17:05,860

but but mmhmm yeah that the whole thing

1873

01:17:12,140 --> 01:17:08,830

you know that part of it is just all

1874

01:17:15,149 --> 01:17:12,150

puzzling now for it to be I think I

1875

01:17:17,250 --> 01:17:15,159

think Stan Freeman at one time thought

1876

01:17:20,520 --> 01:17:17,260

there were two different vehicles that

1877

01:17:23,040 --> 01:17:20,530

collided other people have talked about

1878

01:17:25,620 --> 01:17:23,050

more or less the pod I've heard that

1879

01:17:27,950 --> 01:17:25,630

explanation you know like the size of a

1880

01:17:33,439 --> 01:17:27,960

Volkswagen Beetle or something like that

1881

01:17:37,500 --> 01:17:33,449

yeah and then there was the college

1882

01:17:40,530 --> 01:17:37,510

geological team that was out there that

1883

01:17:43,050 --> 01:17:40,540

saw the aliens supposedly in the

1884

01:17:45,030 --> 01:17:43,060

deathbed confession in Florida all that

1885

01:17:49,080 --> 01:17:45,040

I mean just yes just going on and on and

1886

01:17:52,620 --> 01:17:49,090

on it just seems like you know when when

1887

01:17:53,850 --> 01:17:52,630

you talk to oh say a skeptic I'm not

1888

01:17:55,740 --> 01:17:53,860

going to say it shrunk or will say a

1889

01:17:57,959 --> 01:17:55,750

skeptic okay sure they have they have

1890

01:18:01,620 --> 01:17:57,969

stories for every single thing you say

1891

01:18:03,419 --> 01:18:01,630

when it comes to this second sight you

1892

01:18:05,850 --> 01:18:03,429

know there's really not much they could

1893

01:18:06,420 --> 01:18:05,860

say because the only explanation they

1894

01:18:09,090 --> 01:18:06,430

have is

1895

01:18:11,900 --> 01:18:09,100

test dummies as far as I know yep that's

1896

01:18:14,220 --> 01:18:11,910

exactly true and what's interesting is

1897

01:18:16,320 --> 01:18:14,230

what I don't know why they even went

1898

01:18:18,420 --> 01:18:16,330

into it as far as saying there because

1899

01:18:20,490 --> 01:18:18,430

it by saying they're crash test dummies

1900

01:18:22,320 --> 01:18:20,500

there was admittedly a second sight

1901

01:18:25,320 --> 01:18:22,330

they're immediately saying that there

1902

01:18:27,750 --> 01:18:25,330

was aliens right it's like so why didn't

1903

01:18:29,820 --> 01:18:27,760

you just not say anything right I know

1904

01:18:31,410 --> 01:18:29,830

and why would you go through the efforts

1905

01:18:34,290 --> 01:18:31,420

of trying to explain something a

1906

01:18:37,560 --> 01:18:34,300

non-event it doesn't why would you go to

1907

01:18:40,500 --> 01:18:37,570

that effort I mean it really the the the

1908

01:18:42,210 --> 01:18:40,510

the plausible deniability of the the

1909

01:18:45,990 --> 01:18:42,220

military has kind of gone away i took

1910

01:18:48,840 --> 01:18:46,000

they again at the time the the the Mogul

1911

01:18:50,850 --> 01:18:48,850

project these balloons were a top secret

1912

01:18:52,050 --> 01:18:50,860

you know the materials that are on top

1913

01:18:54,300 --> 01:18:52,060

secret but they actually their purpose

1914

01:18:56,010 --> 01:18:54,310

was top secret and yet they splashed on

1915

01:18:58,740 --> 01:18:56,020

the front page of newspapers and a radio

1916

01:19:01,290 --> 01:18:58,750

and television because of you know to

1917

01:19:02,970 --> 01:19:01,300

say that roswell the UFO incident never

1918

01:19:04,890 --> 01:19:02,980

happened it's like you know again it's

1919

01:19:06,420 --> 01:19:04,900

not i'm not saying anything that a bee

1920

01:19:08,220 --> 01:19:06,430

doesn't already know but you know it's

1921

01:19:11,850 --> 01:19:08,230

just it just doesn't make any sense and

1922

01:19:15,300 --> 01:19:11,860

it can't make sense hmm yeah yeah now i

1923

01:19:18,930 --> 01:19:15,310

know it makes it even more solid as a

1924

01:19:22,050 --> 01:19:18,940

case in my opinion now did your father

1925

01:19:26,790 --> 01:19:22,060

or grandfather get a lot of ridicule

1926

01:19:30,270 --> 01:19:26,800

about this no you know it from inside

1927

01:19:32,340 --> 01:19:30,280

our family now there were things i can't

1928

01:19:34,260 --> 01:19:32,350

remember the skeptic there was one it

1929

01:19:37,500 --> 01:19:34,270

was really tough on my grandfather and

1930

01:19:39,030 --> 01:19:37,510

father saying that he tried to disagree

1931

01:19:42,360 --> 01:19:39,040

he couldn't discredit the story so we

1932

01:19:44,730 --> 01:19:42,370

try to discredit the people and but his

1933

01:19:47,040 --> 01:19:44,740

methodology you know it is typical if

1934

01:19:49,140 --> 01:19:47,050

you get somebody that's a little bit you

1935

01:19:51,330 --> 01:19:49,150

know I scared her shout or whatever yeah

1936

01:19:54,480 --> 01:19:51,340

I remember these things coming out of my

1937

01:19:58,080 --> 01:19:54,490

father when my father grew up with he

1938

01:20:00,390 --> 01:19:58,090

used to ride motorcycles he was a used

1939

01:20:02,490 --> 01:20:00,400

to climb the Tetons you know he was a

1940

01:20:04,080 --> 01:20:02,500

very outdoors outdoor sportsman very

1941

01:20:06,090 --> 01:20:04,090

extreme I guess you could say and

1942

01:20:07,320 --> 01:20:06,100

they're always both who could some how

1943

01:20:09,090 --> 01:20:07,330

can you trust them it rides a motorcycle

1944

01:20:10,830 --> 01:20:09,100

and that's the kind of stuff that would

1945

01:20:12,540 --> 01:20:10,840

come out so it was just garbage I didn't

1946

01:20:15,360 --> 01:20:12,550

it's like those are the points that

1947

01:20:17,250 --> 01:20:15,370

people can use because really with my

1948

01:20:19,439 --> 01:20:17,260

father and grandfather anyway you know

1949

01:20:21,779 --> 01:20:19,449

they're pretty spotless

1950

01:20:23,729 --> 01:20:21,789

my my grandfather was elevated to occur

1951

01:20:25,799 --> 01:20:23,739

in a lot longer not long after Roswell

1952

01:20:27,839 --> 01:20:25,809

he was involved in the you know baby

1953

01:20:29,339 --> 01:20:27,849

bikini beach and you know the testing of

1954

01:20:32,250 --> 01:20:29,349

nuclear bomb I mean he was still

1955

01:20:35,699 --> 01:20:32,260

involved in everything and it just like

1956

01:20:38,969 --> 01:20:35,709

I said if you add it up just it dick he

1957

01:20:41,339 --> 01:20:38,979

can't make sense other than you know the

1958

01:20:42,930 --> 01:20:41,349

only like like my father would say you

1959

01:20:44,580 --> 01:20:42,940

know ok you know maybe it wasn't

1960

01:20:46,259 --> 01:20:44,590

extraterrestrial but if it wasn't them

1961

01:20:48,719 --> 01:20:46,269

what the heck was it you know it's like

1962

01:20:50,489 --> 01:20:48,729

it's it's it's it's the simplest answer

1963

01:20:52,350 --> 01:20:50,499

actually we just you know sounds kind of

1964

01:20:54,870 --> 01:20:52,360

crazy but it's the only answer that

1965

01:20:55,890 --> 01:20:54,880

really fits you know there's a forgot

1966

01:20:57,419 --> 01:20:55,900

there's a book that came out a little

1967

01:20:59,129 --> 01:20:57,429

while ago saying oh we finally have

1968

01:21:01,290 --> 01:20:59,139

confirmation it was not see it was

1969

01:21:04,410 --> 01:21:01,300

Hitler they cracked me out there for us

1970

01:21:08,939 --> 01:21:04,420

to find it you know it was a woman that

1971

01:21:11,729 --> 01:21:08,949

wrote that yes if that was true why

1972

01:21:14,069 --> 01:21:11,739

would my father and grandfather continue

1973

01:21:16,169 --> 01:21:14,079

on a lie through the end of their lives

1974

01:21:18,239 --> 01:21:16,179

I just even within our family okay you

1975

01:21:20,219 --> 01:21:18,249

know let's just say that every is right

1976

01:21:21,540 --> 01:21:20,229

out there just looking for the spotlight

1977

01:21:23,489 --> 01:21:21,550

we just nowhere even close to being true

1978

01:21:24,509 --> 01:21:23,499

but just saying if that was true what

1979

01:21:26,040 --> 01:21:24,519

you know what do you think they would

1980

01:21:27,750 --> 01:21:26,050

actually it doesn't make sense where

1981

01:21:30,209 --> 01:21:27,760

they lie within their family to their

1982

01:21:32,250 --> 01:21:30,219

kids and their grandkids about this I

1983

01:21:35,370 --> 01:21:32,260

mean it was our family within our

1984

01:21:37,589 --> 01:21:35,380

families never it is the story has never

1985

01:21:40,529 --> 01:21:37,599

changed you know the basics of it have

1986

01:21:43,140 --> 01:21:40,539

never changed and that is like growing

1987

01:21:45,299 --> 01:21:43,150

up I completely and from my grandfather

1988

01:21:47,219 --> 01:21:45,309

and father believe there's life on other

1989

01:21:50,279 --> 01:21:47,229

planets and there's other kids just like

1990

01:21:51,810 --> 01:21:50,289

me doing what I'm doing right now you

1991

01:21:54,540 --> 01:21:51,820

know and when I was child and that there

1992

01:21:58,100 --> 01:21:54,550

and we were never ever ito point in a

1993

01:22:00,270 --> 01:21:58,110

different direction yeah yeah i think

1994

01:22:03,299 --> 01:22:00,280

you know we were talking earlier in the

1995

01:22:04,979 --> 01:22:03,309

news you know microbial life i think at

1996

01:22:07,410 --> 01:22:04,989

least that will be discovered fairly

1997

01:22:11,189 --> 01:22:07,420

soon that it's some extraterrestrial

1998

01:22:13,799 --> 01:22:11,199

life I just you know it's gay it just

1999

01:22:17,129 --> 01:22:13,809

feels like it's getting so close I I do

2000

01:22:20,009 --> 01:22:17,139

too i mean there is ido as skeptical

2001
01:22:22,109 --> 01:22:20,019
evidence on a meteorite from the did you

2002
01:22:24,120 --> 01:22:22,119
know did it something hit Mars and then

2003
01:22:25,620 --> 01:22:24,130
bounce off and end up and hitting the

2004
01:22:28,319 --> 01:22:25,630
earth that it shows some you know

2005
01:22:29,939 --> 01:22:28,329
fossilized microbial life if that was a

2006
01:22:31,259 --> 01:22:29,949
rock that we found on our planet that

2007
01:22:32,100 --> 01:22:31,269
was actually from here that we could

2008
01:22:33,030 --> 01:22:32,110
determine that way and have this

2009
01:22:35,160 --> 01:22:33,040
evidence we

2010
01:22:36,420 --> 01:22:35,170
think it was microbial life we only come

2011
01:22:37,950 --> 01:22:36,430
in a question because we know it wasn't

2012
01:22:39,870 --> 01:22:37,960
it from here was where it's comes to a

2013
01:22:41,910 --> 01:22:39,880

different standard but I have no doubt

2014

01:22:47,400 --> 01:22:41,920

and I don't you know there's water on

2015

01:22:49,680 --> 01:22:47,410

Mars 80 I have no you know there is you

2016

01:22:51,990 --> 01:22:49,690

know form even microbial life even if

2017

01:22:54,420 --> 01:22:52,000

it's now you know been a million years

2018

01:22:56,280 --> 01:22:54,430

or whatever would be there was i have

2019

01:22:57,720 --> 01:22:56,290

i'm really excited you know we're all

2020

01:22:59,790 --> 01:22:57,730

hyped up about some of the moons around

2021

01:23:01,260 --> 01:22:59,800

jupiter that are covered in ice with

2022

01:23:03,300 --> 01:23:01,270

flowing water I mean there's gonna be a

2023

01:23:05,040 --> 01:23:03,310

plane and we're so gonna drop you know

2024

01:23:06,300 --> 01:23:05,050

they land on when a little things drop

2025

01:23:08,220 --> 01:23:06,310

something down I wouldn't be surprised

2026

01:23:10,470 --> 01:23:08,230

at all if someone's coming by and we

2027

01:23:13,020 --> 01:23:10,480

shouldn't be surprised you know there's

2028

01:23:16,110 --> 01:23:13,030

there's some if you look at some of the

2029

01:23:17,820 --> 01:23:16,120

latest ideas behind life you know if you

2030

01:23:20,100 --> 01:23:17,830

take the religious component out of it I

2031

01:23:23,430 --> 01:23:20,110

i I'm a very spiritual person but I'm

2032

01:23:26,520 --> 01:23:23,440

saying there had to be a methodology for

2033

01:23:30,030 --> 01:23:26,530

life to exist and they're looking at the

2034

01:23:32,640 --> 01:23:30,040

way that matter exhales energy can or

2035

01:23:34,710 --> 01:23:32,650

cannot create life and if you look at

2036

01:23:37,080 --> 01:23:34,720

some basic processes that were put into

2037

01:23:39,180 --> 01:23:37,090

motion you can understand where life and

2038

01:23:40,710 --> 01:23:39,190

how life existed our planet and why it

2039

01:23:41,940 --> 01:23:40,720

would exist everywhere there's

2040

01:23:44,160 --> 01:23:41,950

absolutely no reason why it wouldn't

2041

01:23:45,750 --> 01:23:44,170

exist everywhere you know you know the

2042

01:23:47,790 --> 01:23:45,760

odds are completely opposite it's like

2043

01:23:49,860 --> 01:23:47,800

the odds of not having life out there

2044

01:23:52,430 --> 01:23:49,870

are would be ridiculous not the opposite

2045

01:23:55,320 --> 01:23:52,440

way I think eventually it would be like

2046

01:23:57,720 --> 01:23:55,330

when they used to think that everything

2047

01:23:59,520 --> 01:23:57,730

went around the working the earth yeah

2048

01:24:00,780 --> 01:23:59,530

exactly thing orbited the earth that's

2049

01:24:03,480 --> 01:24:00,790

just the way it is I think eventually

2050

01:24:05,760 --> 01:24:03,490

will be just like that like will all say

2051

01:24:07,530 --> 01:24:05,770

oh yes of course is life out there we we

2052

01:24:09,150 --> 01:24:07,540

know there is now you know it's going to

2053

01:24:11,670 --> 01:24:09,160

be just accepted there's not going to be

2054

01:24:14,160 --> 01:24:11,680

like turmoil in the world because of

2055

01:24:15,210 --> 01:24:14,170

that I don't think no I agree yeah it's

2056

01:24:17,070 --> 01:24:15,220

just like they're going to look at us

2057

01:24:18,480 --> 01:24:17,080

like we're Flatlanders like we believed

2058

01:24:20,700 --> 01:24:18,490

the earth was flat at that time maybe

2059

01:24:23,520 --> 01:24:20,710

that you know the 500 years of thousands

2060

01:24:25,710 --> 01:24:23,530

but yeah it is it's going to be in the

2061

01:24:26,940 --> 01:24:25,720

vernacular of our culture that no

2062

01:24:28,050 --> 01:24:26,950

there's life and it you know there's

2063

01:24:30,150 --> 01:24:28,060

gonna be a certain point where

2064

01:24:32,040 --> 01:24:30,160

technologically will probably be you

2065

01:24:34,500 --> 01:24:32,050

know very open about communication and

2066

01:24:37,790 --> 01:24:34,510

that kind of thing and it's going to be

2067

01:24:42,960 --> 01:24:37,800

exciting yeah yeah I can't I can't wait

2068

01:24:45,020 --> 01:24:42,970

now getting back to your grandfather yes

2069

01:24:47,839 --> 01:24:45,030

and Roswell did he ever

2070

01:24:50,419 --> 01:24:47,849

have the opportunity to speak to anybody

2071

01:24:52,040 --> 01:24:50,429

else now i'm not going to say while he

2072

01:24:56,990 --> 01:24:52,050

was in the service but I mean afterwards

2073

01:24:59,060 --> 01:24:57,000

after he retired she he didn't I you

2074

01:25:00,229 --> 01:24:59,070

know up until the earlier late 70s he

2075

01:25:02,390 --> 01:25:00,239

really didn't talk about much of it at

2076

01:25:05,240 --> 01:25:02,400

all publicly anyway no I'm sorry I

2077

01:25:09,529 --> 01:25:05,250

wasn't clear was he ever able to speak

2078

01:25:13,700 --> 01:25:09,539

to any other witnesses that's a very

2079

01:25:16,760 --> 01:25:13,710

good question hmm I you know I I really

2080

01:25:18,589 --> 01:25:16,770

I really I I wish I could answer for ya

2081

01:25:22,250 --> 01:25:18,599

in fact I'm gonna write that one down to

2082

01:25:25,310 --> 01:25:22,260

it and try to find out I I have I have a

2083

01:25:26,870 --> 01:25:25,320

sister and a brother and that are all

2084

01:25:29,569 --> 01:25:26,880

obviously this thing as much as I am and

2085

01:25:31,189 --> 01:25:29,579

and a couple of half sister others

2086

01:25:32,810 --> 01:25:31,199

there's a large part of our family so

2087

01:25:34,490 --> 01:25:32,820

i'll throw it out there and see if any

2088

01:25:37,129 --> 01:25:34,500

of anybody in there ever heard of that I

2089

01:25:41,569 --> 01:25:37,139

I don't recall that question coming up

2090

01:25:44,240 --> 01:25:41,579

quite honestly mm-hmm okay good now

2091

01:25:47,930 --> 01:25:44,250

let's talk about I sent you the link I

2092

01:25:49,910 --> 01:25:47,940

wanted to get your opinion on the slides

2093

01:25:52,790 --> 01:25:49,920

that are I think it's going to be

2094

01:25:54,740 --> 01:25:52,800

something like May 5th ha Meem asan down

2095

01:25:58,399 --> 01:25:54,750

in Mexico City it's time to have a

2096

01:26:00,740 --> 01:25:58,409

conference and he's going to reveal

2097

01:26:04,640 --> 01:26:00,750

these images it's going to try to make a

2098

01:26:07,399 --> 01:26:04,650

big you know big event out of it have

2099

01:26:10,640 --> 01:26:07,409

you thought about this or looked into

2100

01:26:12,200 --> 01:26:10,650

any any of this yeah well I be the fraud

2101

01:26:16,370 --> 01:26:12,210

honestly from the links you sent me I

2102

01:26:19,640 --> 01:26:16,380

look through it the good and the bad of

2103

01:26:21,169 --> 01:26:19,650

it in my opinion is is it you know it is

2104

01:26:25,700 --> 01:26:21,179

exciting they're gonna have a huge event

2105

01:26:27,410 --> 01:26:25,710

to bring it out I'm hoping that this

2106

01:26:29,180 --> 01:26:27,420

information is going to be available to

2107

01:26:31,149 --> 01:26:29,190

everybody you know examination of the

2108

01:26:33,890 --> 01:26:31,159

files the forensics behind them and

2109

01:26:36,169 --> 01:26:33,900

every possible test that can be possibly

2110

01:26:37,959 --> 01:26:36,179

done to try to debunk them and of course

2111

01:26:39,649 --> 01:26:37,969

the end result is that this actually

2112

01:26:41,839 --> 01:26:39,659

truthful that there might be something

2113

01:26:43,129 --> 01:26:41,849

to these I eat it it's not far-fetched

2114

01:26:45,589 --> 01:26:43,139

to think that something like this

2115

01:26:47,979 --> 01:26:45,599

doesn't exist in fact it would surprise

2116

01:26:50,120 --> 01:26:47,989

me that it if it didn't exist somewhere

2117

01:26:51,470 --> 01:26:50,130

and I'm not quite sure with the

2118

01:26:53,209 --> 01:26:51,480

relationship between the people who have

2119

01:26:54,439 --> 01:26:53,219

taken the pictures because my

2120

01:26:55,970 --> 01:26:54,449

grandfather would have never had the

2121

01:26:57,820 --> 01:26:55,980

ability to take these kind of pictures

2122

01:27:00,640 --> 01:26:57,830

and then save them

2123

01:27:02,560 --> 01:27:00,650

so you know however you know I'm not

2124

01:27:04,390 --> 01:27:02,570

quite sure where you know exactly how

2125

01:27:07,090 --> 01:27:04,400

they have originated but you know I

2126

01:27:09,130 --> 01:27:07,100

again I can't imagine at some point

2127

01:27:12,880 --> 01:27:09,140

somewhere someone would have taken a

2128

01:27:15,100 --> 01:27:12,890

picture too I i believe so too it's just

2129

01:27:18,010 --> 01:27:15,110

you know what what happens to them

2130

01:27:20,320 --> 01:27:18,020

afterwards and i'm not sure if you

2131

01:27:22,450 --> 01:27:20,330

listen to the news earlier when we were

2132

01:27:23,740 --> 01:27:22,460

talking about how these were found you

2133

01:27:27,280 --> 01:27:23,750

know separately wrapped carefully

2134

01:27:29,350 --> 01:27:27,290

wrapped yeah it you know it made this is

2135

01:27:31,180 --> 01:27:29,360

the kind of this is the waiver and get

2136

01:27:33,280 --> 01:27:31,190

more information about Roswell is some

2137

01:27:35,170 --> 01:27:33,290

find that just yeah someone kicks a box

2138

01:27:37,450 --> 01:27:35,180

and wow what's this you know it's it's

2139

01:27:41,770 --> 01:27:37,460

one of those things just just happens to

2140

01:27:45,520 --> 01:27:41,780

show up I mean for me I like the concept

2141

01:27:47,770 --> 01:27:45,530

of furthering proof of Roswell from my

2142

01:27:50,260 --> 01:27:47,780

standpoint I'm a hundred percent

2143

01:27:52,270 --> 01:27:50,270

committed to it so it adds fuel to the

2144

01:27:53,350 --> 01:27:52,280

fire for everywhere else of course you

2145

01:27:54,700 --> 01:27:53,360

know it's easier for me to say that I

2146

01:27:56,800 --> 01:27:54,710

believe in Roswell and what happened in

2147

01:27:58,660 --> 01:27:56,810

Roswell so I don't really even need to

2148

01:27:59,860 --> 01:27:58,670

see any more proof but obviously I'd

2149

01:28:02,800 --> 01:27:59,870

like to see more come out of it like

2150

01:28:04,420 --> 01:28:02,810

then maybe this is that that one thing

2151
01:28:07,510 --> 01:28:04,430
that's going to be changing what's

2152
01:28:10,450 --> 01:28:07,520
interesting though is that people in

2153
01:28:11,770 --> 01:28:10,460
general now and obviously people might

2154
01:28:15,070 --> 01:28:11,780
talk to me a little differently than

2155
01:28:17,590 --> 01:28:15,080
somebody else but are very accepting of

2156
01:28:18,700 --> 01:28:17,600
the idea of life on the planet you know

2157
01:28:20,170 --> 01:28:18,710
they've comes from somewhere else for

2158
01:28:22,270 --> 01:28:20,180
the idea that Rose was real or that

2159
01:28:24,220 --> 01:28:22,280
we're even as far as you know

2160
01:28:25,540 --> 01:28:24,230
communicating or where there's a lot

2161
01:28:27,070 --> 01:28:25,550
more going on there were made aware of

2162
01:28:29,920 --> 01:28:27,080
and people are very comfortable of that

2163
01:28:32,620 --> 01:28:29,930

so I it just it would give him more of a

2164

01:28:33,970 --> 01:28:32,630

I don't know hopefully in aha I was

2165

01:28:35,440 --> 01:28:33,980

right moment for a lot of the people

2166

01:28:38,460 --> 01:28:35,450

that are believers that are looking for

2167

01:28:41,500 --> 01:28:38,470

you know a little more proof but mm-hmm

2168

01:28:44,980 --> 01:28:41,510

yeah I mean for them to actually nail

2169

01:28:48,670 --> 01:28:44,990

down where this picture was taken and

2170

01:28:50,020 --> 01:28:48,680

all that and exactly the year you know

2171

01:28:52,660 --> 01:28:50,030

they're trying to make some ties to

2172

01:28:54,460 --> 01:28:52,670

Roswell with it but it makes sense i'm

2173

01:28:56,710 --> 01:28:54,470

nervous theorists there was supposed to

2174

01:28:58,240 --> 01:28:56,720

be some kind of crash in 1942 that I've

2175

01:29:00,700 --> 01:28:58,250

heard about I'm not familiar with

2176

01:29:03,010 --> 01:29:00,710

completely anyway you know sweet

2177

01:29:06,520 --> 01:29:03,020

everything points towards Roswell the

2178

01:29:08,800 --> 01:29:06,530

timing does and what's interesting is

2179

01:29:10,549 --> 01:29:08,810

the the other photos over with it or the

2180

01:29:13,250 --> 01:29:10,559

other slides are with it the

2181

01:29:14,599 --> 01:29:13,260

all seem to indicate you know that if if

2182

01:29:17,179 --> 01:29:14,609

it's a setup they done a very good job

2183

01:29:18,559 --> 01:29:17,189

but I I really in my heart I don't

2184

01:29:22,609 --> 01:29:18,569

believe that I think this is something

2185

01:29:26,149 --> 01:29:22,619

that's real mm-hmm now Don Schmidt told

2186

01:29:29,419 --> 01:29:26,159

me quietly about this i'm going to say

2187

01:29:31,129 --> 01:29:29,429

two years ago okay so this has been you

2188

01:29:33,469 --> 01:29:31,139

know kind of on the back burner I'm just

2189

01:29:36,619 --> 01:29:33,479

wondering why it's taken so long you

2190

01:29:38,839 --> 01:29:36,629

know to to present these and I know Tom

2191

01:29:41,419 --> 01:29:38,849

carry talked about it in november but

2192

01:29:43,699 --> 01:29:41,429

did not it made everyone upset because

2193

01:29:46,099 --> 01:29:43,709

he didn't show the pictures he just said

2194

01:29:47,750 --> 01:29:46,109

they're going to be the smoking gun is

2195

01:29:49,909 --> 01:29:47,760

going to be shown soon or something like

2196

01:29:53,149 --> 01:29:49,919

that the only unfortunate thing about

2197

01:29:55,759 --> 01:29:53,159

that is is that when i'm not quite sure

2198

01:29:59,270 --> 01:29:55,769

why you would do that it's like it what

2199

01:30:00,919 --> 01:29:59,280

it you know what building up there's

2200

01:30:03,079 --> 01:30:00,929

enough speculation about razos all you

2201

01:30:05,540 --> 01:30:03,089

got to try to build a backstory but you

2202

01:30:07,669 --> 01:30:05,550

know I'm it's a little bit limiting when

2203

01:30:10,369 --> 01:30:07,679

you have this I'm not gonna show it to

2204

01:30:13,699 --> 01:30:10,379

you for a while I have to me that's just

2205

01:30:15,529 --> 01:30:13,709

it from my science side it just doesn't

2206

01:30:17,629 --> 01:30:15,539

make a lot of sense why you do that it's

2207

01:30:20,089 --> 01:30:17,639

like this is this is for everybody you

2208

01:30:21,859 --> 01:30:20,099

know let's get this get this out there

2209

01:30:25,399 --> 01:30:21,869

this is possible do it let's see what

2210

01:30:27,290 --> 01:30:25,409

you know I'll have no idea about why you

2211

01:30:29,479 --> 01:30:27,300

would hold things back you know I'd get

2212

01:30:31,609 --> 01:30:29,489

a lot of grief from that yeah I would

2213

01:30:33,109 --> 01:30:31,619

think so it's the same thing as you know

2214

01:30:35,899 --> 01:30:33,119

there's there are some researchers out

2215

01:30:37,609 --> 01:30:35,909

there that work with you know that did

2216

01:30:38,899 --> 01:30:37,619

the original Roswell digs and those kind

2217

01:30:40,159 --> 01:30:38,909

of things they're always out there and

2218

01:30:42,290 --> 01:30:40,169

they're finding little pieces and parts

2219

01:30:43,459 --> 01:30:42,300

and they're doing the best to get them

2220

01:30:46,250 --> 01:30:43,469

get you know some of the things through

2221

01:30:48,529 --> 01:30:46,260

laboratories new tests and their data is

2222

01:30:49,909 --> 01:30:48,539

basically available on the spot they're

2223

01:30:51,949 --> 01:30:49,919

sharing with everybody whatever they

2224

01:30:53,779 --> 01:30:51,959

find they'll make it public as soon as

2225

01:30:55,939 --> 01:30:53,789

it as soon as they have tests out they

2226

01:30:58,369 --> 01:30:55,949

come out it's like and I think you're

2227

01:31:00,009 --> 01:30:58,379

sitting on something it just get kind of

2228

01:31:02,179 --> 01:31:00,019

it calls into question the authenticity

2229

01:31:04,129 --> 01:31:02,189

you know I it doesn't look like this is

2230

01:31:06,290 --> 01:31:04,139

not the authentic by any mean it looks

2231

01:31:09,709 --> 01:31:06,300

like it's authentic to me as an amateur

2232

01:31:10,639 --> 01:31:09,719

anyway but I it it just it's really it's

2233

01:31:12,020 --> 01:31:10,649

one of those things that should be

2234

01:31:15,369 --> 01:31:12,030

brought have been brought out it should

2235

01:31:17,149 --> 01:31:15,379

have been you know openly examinable by

2236

01:31:19,129 --> 01:31:17,159

professionals in every field it might

2237

01:31:20,060 --> 01:31:19,139

have any question or thought about these

2238

01:31:22,130 --> 01:31:20,070

so I

2239

01:31:24,260 --> 01:31:22,140

I'm sure that'll that'll be an eventual

2240

01:31:26,210 --> 01:31:24,270

process but there's there's enough

2241

01:31:28,040 --> 01:31:26,220

there's enough hype and mystery behind

2242

01:31:30,290 --> 01:31:28,050

you apology to start out with adding

2243

01:31:32,360 --> 01:31:30,300

another layers doesn't help you know

2244

01:31:35,000 --> 01:31:32,370

someone on the message board just made a

2245

01:31:37,520 --> 01:31:35,010

very good point and they just punched up

2246

01:31:40,040 --> 01:31:37,530

a bunch of dollar signs and that's yeah

2247

01:31:42,950 --> 01:31:40,050

I think this has happened the way it has

2248

01:31:46,490 --> 01:31:42,960

is because some why else would there be

2249

01:31:50,540 --> 01:31:46,500

a venue with 10,000 possibly people to

2250

01:31:52,190 --> 01:31:50,550

show up at to reveal these it's all well

2251

01:31:56,840 --> 01:31:52,200

I hate to say it but it's most likely

2252

01:31:58,130 --> 01:31:56,850

all about money it is i miss i guess you

2253

01:31:59,660 --> 01:31:58,140

know you build up the hype and you get

2254

01:32:01,310 --> 01:31:59,670

yeah i would think they'll probably pay

2255

01:32:03,500 --> 01:32:01,320

something to get the seats to be the

2256

01:32:05,990 --> 01:32:03,510

first people to see them I suppose so

2257

01:32:10,000 --> 01:32:06,000

that that is and unfortunately that in

2258

01:32:13,100 --> 01:32:10,010

their lies you know I can it may be very

2259

01:32:16,010 --> 01:32:13,110

easy for to this credit if that's your

2260

01:32:18,410 --> 01:32:16,020

purpose it's if you're trying to get

2261

01:32:20,510 --> 01:32:18,420

anyway just it just like I said adds

2262

01:32:22,430 --> 01:32:20,520

adds another level of frustration of

2263

01:32:26,450 --> 01:32:22,440

this whole thing you know it goes when I

2264

01:32:28,970 --> 01:32:26,460

could see just to to look at it and I on

2265

01:32:32,330 --> 01:32:28,980

a different angle here sure is okay so

2266

01:32:35,660 --> 01:32:32,340

this person ran estate sales they found

2267

01:32:37,970 --> 01:32:35,670

they get they found this box of slides

2268

01:32:40,160 --> 01:32:37,980

and pictures didn't look at it for ten

2269

01:32:43,550 --> 01:32:40,170

years starting to look at it found these

2270

01:32:46,130 --> 01:32:43,560

and then I kind of know how those people

2271

01:32:50,620 --> 01:32:46,140

operate because I'm in that I'm in that

2272

01:32:54,140 --> 01:32:50,630

business you know canteen fine art it's

2273

01:32:55,870 --> 01:32:54,150

they're always you know making money on

2274

01:32:58,940 --> 01:32:55,880

things they find that's what they do

2275

01:33:00,680 --> 01:32:58,950

sure I'm sure that mentality kicked in

2276

01:33:03,350 --> 01:33:00,690

right away well how can I make the most

2277

01:33:06,140 --> 01:33:03,360

money I have absolutely no interest in

2278

01:33:08,150 --> 01:33:06,150

UFOs no interest in aliens no interest

2279

01:33:11,330 --> 01:33:08,160

in any of that I have interested to make

2280

01:33:13,940 --> 01:33:11,340

making money and how can i make money

2281

01:33:17,930 --> 01:33:13,950

and where do I start you know I think

2282

01:33:20,540 --> 01:33:17,940

that's probably the true angle of this

2283

01:33:23,420 --> 01:33:20,550

whole situation and you can't really

2284

01:33:25,850 --> 01:33:23,430

blame someone that's on the outside that

2285

01:33:29,480 --> 01:33:25,860

doesn't really care about anything else

2286

01:33:30,740 --> 01:33:29,490

other than hey this is my cash cow you

2287

01:33:33,110 --> 01:33:30,750

know yeah and

2288

01:33:34,720 --> 01:33:33,120

right I mean it probably will approve

2289

01:33:37,100 --> 01:33:34,730

probably will prove out to be very uh

2290

01:33:39,080 --> 01:33:37,110

yeah they'll probably well yeah and

2291

01:33:40,640 --> 01:33:39,090

you're right i mean I i would also

2292

01:33:42,500 --> 01:33:40,650

strike it up to that too it just it's

2293

01:33:44,150 --> 01:33:42,510

it's too bad but it's probably the

2294

01:33:46,280 --> 01:33:44,160

reality that we live in is it you know

2295

01:33:49,460 --> 01:33:46,290

it is it's a it could be a very very

2296

01:33:51,440 --> 01:33:49,470

valuable fine to somebody so yeah yeah

2297

01:33:54,380 --> 01:33:51,450

I'm really hope I'm really hoping

2298

01:33:56,900 --> 01:33:54,390

they'll allow and you know the the

2299

01:33:58,700 --> 01:33:56,910

doubters have the ability to really do

2300

01:34:00,830 --> 01:33:58,710

some screening tests that you know they

2301
01:34:03,080 --> 01:34:00,840
build ability to look at them too and do

2302
01:34:05,630 --> 01:34:03,090
some testing I know that what they've

2303
01:34:09,970 --> 01:34:05,640
done so far is that there they say the

2304
01:34:13,880 --> 01:34:09,980
film the cardboard and all that is is

2305
01:34:16,820 --> 01:34:13,890
right for the age and all that but well

2306
01:34:20,660 --> 01:34:16,830
I'm also in a business where people fake

2307
01:34:24,400 --> 01:34:20,670
a lot of things and you know you can

2308
01:34:28,370 --> 01:34:24,410
very easily find blank documents of

2309
01:34:30,800 --> 01:34:28,380
civil war-era paper it's around you know

2310
01:34:32,920 --> 01:34:30,810
you find a bunch of paper and well you

2311
01:34:35,030 --> 01:34:32,930
can find something from the 1860's and

2312
01:34:37,670 --> 01:34:35,040
all of a sudden it has an Abraham

2313
01:34:40,700 --> 01:34:37,680

Lincoln's signature on these everything

2314

01:34:44,930 --> 01:34:40,710

happened so you know this would have to

2315

01:34:47,330 --> 01:34:44,940

be really studied in my opinion I'm very

2316

01:34:48,980 --> 01:34:47,340

optimistic that it's something fantastic

2317

01:34:51,290 --> 01:34:48,990

but yeah you got you a you have to you

2318

01:34:52,970 --> 01:34:51,300

know it could it could turn up in time

2319

01:34:56,240 --> 01:34:52,980

to be a you know a fake or a fraud but

2320

01:35:00,850 --> 01:34:56,250

time will test it so yeah well also i

2321

01:35:04,610 --> 01:35:00,860

hope they really do you study it very

2322

01:35:06,710 --> 01:35:04,620

seriously because I'm you know really we

2323

01:35:08,750 --> 01:35:06,720

would look absolutely ridiculous if we

2324

01:35:11,960 --> 01:35:08,760

came out with something that was fraud

2325

01:35:13,970 --> 01:35:11,970

again I it does it unfortunately it

2326

01:35:17,480 --> 01:35:13,980

would add fuel to the fire there are in

2327

01:35:19,070 --> 01:35:17,490

the wrong direction like I'm very

2328

01:35:20,240 --> 01:35:19,080

comfortable and believing that there's a

2329

01:35:23,210 --> 01:35:20,250

lot of things are going on out there

2330

01:35:26,450 --> 01:35:23,220

happened out there and that that this

2331

01:35:28,550 --> 01:35:26,460

doesn't this this to me either I don't

2332

01:35:30,680 --> 01:35:28,560

need a smoking gun for proof to believe

2333

01:35:32,330 --> 01:35:30,690

in it but for those people to do around

2334

01:35:34,100 --> 01:35:32,340

the fence this would definitely go back

2335

01:35:36,760 --> 01:35:34,110

to that category again ah just a bunch

2336

01:35:39,260 --> 01:35:36,770

of people trying to you know whatever so

2337

01:35:41,270 --> 01:35:39,270

yeah I hope and pray this turns out to

2338

01:35:43,580 --> 01:35:41,280

be here comes through as at the very

2339

01:35:44,400 --> 01:35:43,590

least it can't be proved that is not

2340

01:35:46,770 --> 01:35:44,410

authentic

2341

01:35:50,310 --> 01:35:46,780

yeah well for a long time the alien

2342

01:35:53,160 --> 01:35:50,320

autopsy film was thought to be you know

2343

01:35:55,620 --> 01:35:53,170

authentic and you know so yeah they've

2344

01:35:57,510 --> 01:35:55,630

already been bit once once or twice by

2345

01:35:59,700 --> 01:35:57,520

things so hopefully this won't be

2346

01:36:01,710 --> 01:35:59,710

another one up on the message board

2347

01:36:04,800 --> 01:36:01,720

someone would like you to comment on

2348

01:36:07,980 --> 01:36:04,810

your own book regarding Roswell what

2349

01:36:10,020 --> 01:36:07,990

information is in your book that was

2350

01:36:14,580 --> 01:36:10,030

omitted from your grandfather's book or

2351

01:36:17,250 --> 01:36:14,590

Stanton Friedman's book mine is just a

2352

01:36:19,560 --> 01:36:17,260

lit I'm willing to like well let's see

2353

01:36:21,090 --> 01:36:19,570

that there was my my grandfather never

2354

01:36:22,320 --> 01:36:21,100

wrote a book we have some notes the book

2355

01:36:25,110 --> 01:36:22,330

you spend together but it never came out

2356

01:36:26,460 --> 01:36:25,120

my father put together a book and I was

2357

01:36:30,450 --> 01:36:26,470

I was with him when he was through that

2358

01:36:34,020 --> 01:36:30,460

process and then he was very which I

2359

01:36:37,410 --> 01:36:34,030

appreciate he yeah it's just the facts

2360

01:36:39,390 --> 01:36:37,420

ma'am you know just very specific not

2361

01:36:41,070 --> 01:36:39,400

going out of the box not allowing for

2362

01:36:44,460 --> 01:36:41,080

contemplation of what things could have

2363

01:36:46,080 --> 01:36:44,470

met my book goes through the events and

2364

01:36:49,440 --> 01:36:46,090

the conspiracies that surrounded

2365

01:36:52,500 --> 01:36:49,450

everything but also and I add in you

2366

01:36:54,330 --> 01:36:52,510

know that when this happened this is how

2367

01:36:56,160 --> 01:36:54,340

our family looked at or talked about it

2368

01:36:58,440 --> 01:36:56,170

so it's kind of an inside look to the

2369

01:37:00,210 --> 01:36:58,450

little elements of these things that

2370

01:37:01,650 --> 01:37:00,220

happened so it's kind of like a little

2371

01:37:04,500 --> 01:37:01,660

bit a little more person a little more

2372

01:37:07,050 --> 01:37:04,510

of an inside it reads more like a you

2373

01:37:09,930 --> 01:37:07,060

know some of these UFO books read more

2374

01:37:12,750 --> 01:37:09,940

like history textbooks and very bland

2375

01:37:14,340 --> 01:37:12,760

this reads I'm hoping a little more

2376

01:37:16,320 --> 01:37:14,350

interesting a little more flavor to it a

2377

01:37:19,080 --> 01:37:16,330

little more fun of a more fun read but

2378

01:37:21,870 --> 01:37:19,090

it because it is a little more there's a

2379

01:37:23,300 --> 01:37:21,880

little more personal yeah I'm gonna have

2380

01:37:26,160 --> 01:37:23,310

to read the book I would like to read it

2381

01:37:27,960 --> 01:37:26,170

let me know drop one of the mail to you

2382

01:37:30,200 --> 01:37:27,970

in fact we have an e-book I can just

2383

01:37:34,880 --> 01:37:30,210

email it to you if you want and so yeah

2384

01:37:39,470 --> 01:37:34,890

now I just had a question it just just

2385

01:37:43,020 --> 01:37:39,480

vaporized from my mind I'm sorry so

2386

01:37:46,440 --> 01:37:43,030

there is one up on the message board

2387

01:37:51,110 --> 01:37:46,450

thankfully do you feel compelled by the

2388

01:37:57,500 --> 01:37:56,070

yes and no I and that's and I haven't

2389

01:37:59,570 --> 01:37:57,510

been in this in us nearly

2390

01:38:02,360 --> 01:37:59,580

long as a lot of folks out there I have

2391

01:38:04,520 --> 01:38:02,370

a you know since you know I've probably

2392

01:38:07,220 --> 01:38:04,530

been really serious about you know being

2393

01:38:09,620 --> 01:38:07,230

more public about this for maybe a 9

2394

01:38:12,290 --> 01:38:09,630

years 10 years something like that but

2395

01:38:15,530 --> 01:38:12,300

there's a certain point at which one can

2396

01:38:18,620 --> 01:38:15,540

get very burnt out mm-hmm and I hate

2397

01:38:20,570 --> 01:38:18,630

this I'll have some speed engagements

2398

01:38:24,260 --> 01:38:20,580

coming up and excited to go to those but

2399

01:38:27,560 --> 01:38:24,270

I'm trying to rein things in a little

2400

01:38:30,290 --> 01:38:27,570

bit too you know more look at things

2401
01:38:33,170 --> 01:38:30,300
through the eyes of a scientist more not

2402
01:38:35,180 --> 01:38:33,180
not be given to so much fancy you know

2403
01:38:37,430 --> 01:38:35,190
like everything's going on to Mars I do

2404
01:38:39,410 --> 01:38:37,440
some some amazing evidence up there

2405
01:38:41,930 --> 01:38:39,420
there's some amazing things going on but

2406
01:38:44,000 --> 01:38:41,940
I like to stick more with what we're

2407
01:38:46,370 --> 01:38:44,010
finding than thinking that well no

2408
01:38:49,100 --> 01:38:46,380
there's a whole you know there's fields

2409
01:38:51,440 --> 01:38:49,110
of blowing green trees on Mars right now

2410
01:38:53,690 --> 01:38:51,450
and it's like you know I'm not saying

2411
01:38:55,820 --> 01:38:53,700
that that's not possible but it's just

2412
01:38:57,140 --> 01:38:55,830
there's no evidence of it and it's kinda

2413
01:38:58,730 --> 01:38:57,150

like so it's because i'm gonna try to

2414

01:39:01,010 --> 01:38:58,740

real things in a little bit about what

2415

01:39:02,900 --> 01:39:01,020

i'm doing and try to get a little bit

2416

01:39:05,450 --> 01:39:02,910

less on the fringe and more towards the

2417

01:39:08,240 --> 01:39:05,460

middle mm-hmm mm-hmm it's that make

2418

01:39:09,680 --> 01:39:08,250

sense it's just I know there's some very

2419

01:39:11,840 --> 01:39:09,690

fascinating stories out there but I'm

2420

01:39:13,610 --> 01:39:11,850

trying to I'm it's someone like

2421

01:39:15,560 --> 01:39:13,620

Roswell's kind of a base that I can leap

2422

01:39:17,540 --> 01:39:15,570

from and try to do some more following

2423

01:39:19,550 --> 01:39:17,550

about it I am lucky enough to be tied to

2424

01:39:23,030 --> 01:39:19,560

some very some brilliant people that

2425

01:39:24,350 --> 01:39:23,040

want to do some work there's there's

2426

01:39:26,390 --> 01:39:24,360

there's a number of crash sites around

2427

01:39:28,880 --> 01:39:26,400

the world we're going to go out and do

2428

01:39:31,580 --> 01:39:28,890

an archaeological dig and and go by the

2429

01:39:33,170 --> 01:39:31,590

book and in work with the government's

2430

01:39:36,290 --> 01:39:33,180

and we're putting that together and that

2431

01:39:38,420 --> 01:39:36,300

and that should be a lot of fun and and

2432

01:39:40,090 --> 01:39:38,430

just bike in Argentina where they

2433

01:39:42,050 --> 01:39:40,100

actually have the debris from a crash or

2434

01:39:44,450 --> 01:39:42,060

invited to go down and take a look at it

2435

01:39:46,790 --> 01:39:44,460

those those kind of things I'm kind of

2436

01:39:49,040 --> 01:39:46,800

given to those points where it to

2437

01:39:50,930 --> 01:39:49,050

investigate those and I realize we're

2438

01:39:54,080 --> 01:39:50,940

kind of going away from the question you

2439

01:39:57,500 --> 01:39:54,090

asked but I might be sticking a little

2440

01:39:59,240 --> 01:39:57,510

bit more towards either future events

2441

01:40:01,070 --> 01:39:59,250

things that are you know sightings that

2442

01:40:03,500 --> 01:40:01,080

are happening up excited for to hear

2443

01:40:05,480 --> 01:40:03,510

about but not so much you know going

2444

01:40:07,750 --> 01:40:05,490

back and try to debunk stuff I'm just

2445

01:40:12,190 --> 01:40:07,760

I'm kind of burnt out on that

2446

01:40:15,220 --> 01:40:12,200

understandably going back to

2447

01:40:18,530 --> 01:40:15,230

what your father described on the

2448

01:40:20,630 --> 01:40:18,540

hieroglyphics on the little beams how

2449

01:40:24,740 --> 01:40:20,640

did your grandfather remember seeing

2450

01:40:26,600 --> 01:40:24,750

those two yes oh yeah they the the the

2451
01:40:29,330 --> 01:40:26,610
story if you haven't heard before least

2452
01:40:31,310 --> 01:40:29,340
I can tell it you anyway they had the

2453
01:40:35,990 --> 01:40:31,320
debris spread across the the the kitchen

2454
01:40:38,240 --> 01:40:36,000
floor and at the other home and my

2455
01:40:40,090 --> 01:40:38,250
grandfather asked my father to see if

2456
01:40:42,530 --> 01:40:40,100
you could make any sense look for wires

2457
01:40:44,720 --> 01:40:42,540
cubes that kind of thing the technology

2458
01:40:47,780 --> 01:40:44,730
to the time and also look to see if any

2459
01:40:49,370 --> 01:40:47,790
species be fit together does it is like

2460
01:40:51,680 --> 01:40:49,380
a big puzzle at least pieces he only had

2461
01:40:53,780 --> 01:40:51,690
a small amount of debris or with him but

2462
01:40:56,120 --> 01:40:53,790
he just IDF can you fit us together and

2463
01:40:58,400 --> 01:40:56,130

and my father looked at it and hit

2464

01:41:00,020 --> 01:40:58,410

through he always said you know I could

2465

01:41:01,700 --> 01:41:00,030

I didn't see anything on there you know

2466

01:41:03,140 --> 01:41:01,710

no tubes no wires nothing like that at

2467

01:41:07,040 --> 01:41:03,150

all couldn't get anything to fit

2468

01:41:08,690 --> 01:41:07,050

together whatsoever the the foil stuff

2469

01:41:10,100 --> 01:41:08,700

was incredibly lightweight he said it

2470

01:41:12,290 --> 01:41:10,110

was kind things and he picked up one of

2471

01:41:15,830 --> 01:41:12,300

the beams and brought it in front it was

2472

01:41:17,480 --> 01:41:15,840

a little like basically a window we're

2473

01:41:18,830 --> 01:41:17,490

thought with a light outside and he's

2474

01:41:21,010 --> 01:41:18,840

looking at it and then he looked at as

2475

01:41:25,880 --> 01:41:21,020

an angle and all Sun at an angle those

2476

01:41:27,920 --> 01:41:25,890

figures appeared and and my grandfather

2477

01:41:30,050 --> 01:41:27,930

told him this is through my father with

2478

01:41:32,090 --> 01:41:30,060

my father crossed passed out of me was

2479

01:41:33,500 --> 01:41:32,100

it my grandpa told him he said you

2480

01:41:37,130 --> 01:41:33,510

probably the first human to look at this

2481

01:41:38,480 --> 01:41:37,140

language and so my father was actually

2482

01:41:41,060 --> 01:41:38,490

want to discover that or look at that

2483

01:41:43,880 --> 01:41:41,070

and it's gone all we've done all that

2484

01:41:47,870 --> 01:41:43,890

that's a great area of fascination my

2485

01:41:49,700 --> 01:41:47,880

sister Denise went online years and

2486

01:41:51,770 --> 01:41:49,710

years ago and found a person as a

2487

01:41:54,470 --> 01:41:51,780

collector of old tape old scotch tape

2488

01:41:56,270 --> 01:41:54,480

because the overriding story is there

2489

01:41:58,430 --> 01:41:56,280

mogul balloons they use Christmas tape

2490

01:42:00,800 --> 01:41:58,440

well she found taped it was produced

2491

01:42:03,830 --> 01:42:00,810

during that era of the Christmas tape

2492

01:42:07,430 --> 01:42:03,840

and it told that there was actually made

2493

01:42:09,170 --> 01:42:07,440

it but it was nothing even close so what

2494

01:42:12,470 --> 01:42:09,180

let's elaborate on that for the person

2495

01:42:13,610 --> 01:42:12,480

who hasn't heard it that they the was it

2496

01:42:15,050 --> 01:42:13,620

the government that were saying that

2497

01:42:16,880 --> 01:42:15,060

there was tape from the mogul balloons

2498

01:42:19,730 --> 01:42:16,890

yeah more Charles more yeah I said that

2499

01:42:22,250 --> 01:42:19,740

it was after wartime that some of the

2500

01:42:24,920 --> 01:42:22,260

resources were scarce so they used a

2501

01:42:25,130 --> 01:42:24,930

christmas tape none of that story where

2502

01:42:27,170 --> 01:42:25,140

they may

2503

01:42:29,060 --> 01:42:27,180

any sense but so we use Christmas State

2504

01:42:30,830 --> 01:42:29,070

create Christmas tape to hold together

2505

01:42:34,130 --> 01:42:30,840

the Robin targets which are basically

2506

01:42:36,830 --> 01:42:34,140

balls with sticks and tin foils all and

2507

01:42:39,140 --> 01:42:36,840

the aces we use Chris tape so with my

2508

01:42:40,520 --> 01:42:39,150

grandfather found in that field was that

2509

01:42:43,040 --> 01:42:40,530

it had been laying there for several

2510

01:42:44,900 --> 01:42:43,050

days and the scotch tape had melted onto

2511

01:42:46,910 --> 01:42:44,910

the bouts with sticks there was heads

2512

01:42:49,670 --> 01:42:46,920

Christmas symbols on it so he thought he

2513

01:42:51,140 --> 01:42:49,680

was seeing some mythical alien symbols

2514

01:42:53,600 --> 01:42:51,150

and in truth there just nothing more

2515

01:42:55,450 --> 01:42:53,610

than holly trees and in you know

2516

01:42:58,820 --> 01:42:55,460

ornamentation that kind of thing that

2517

01:43:01,250 --> 01:42:58,830

that's the more story on the whole thing

2518

01:43:03,080 --> 01:43:01,260

what's interesting is he and we've done

2519

01:43:04,850 --> 01:43:03,090

this to you go back and look through all

2520

01:43:06,530 --> 01:43:04,860

the pictures of all the raw intagra so

2521

01:43:08,660 --> 01:43:06,540

there's a lot of them out there during

2522

01:43:11,060 --> 01:43:08,670

the fact that the company that made them

2523

01:43:13,070 --> 01:43:11,070

it still exists you get all the holes

2524

01:43:14,990 --> 01:43:13,080

historical photos and you can look at

2525

01:43:17,240 --> 01:43:15,000

all every single one of their balloon

2526

01:43:19,520 --> 01:43:17,250

trains for the Rowan targets and not one

2527

01:43:20,780 --> 01:43:19,530

of them has bailed together with scotch

2528

01:43:22,790 --> 01:43:20,790

tape with symbols on them you can get

2529

01:43:24,830 --> 01:43:22,800

for the good detail not not even one of

2530

01:43:28,040 --> 01:43:24,840

them follows their story yeah yeah

2531

01:43:29,720 --> 01:43:28,050

another another lie now one of the

2532

01:43:32,270 --> 01:43:29,730

things that has always intrigued me

2533

01:43:33,980 --> 01:43:32,280

about this whole situation with your

2534

01:43:35,330 --> 01:43:33,990

with your grandfather more than your

2535

01:43:37,130 --> 01:43:35,340

father because your grandfather of them

2536

01:43:39,950 --> 01:43:37,140

and your father was what eight or nine

2537

01:43:44,030 --> 01:43:39,960

years old is I know I like 12 years old

2538

01:43:46,760 --> 01:43:44,040

actually 12 years old so it just seems

2539

01:43:49,400 --> 01:43:46,770

to me that if I brought in a whole bunch

2540

01:43:53,200 --> 01:43:49,410

of debris put it out on a table said I

2541

01:43:55,430 --> 01:43:53,210

think this is extraterrestrial I would

2542

01:43:57,250 --> 01:43:55,440

maybe it's just me but i would

2543

01:44:00,530 --> 01:43:57,260

definitely slide a piece or two

2544

01:44:05,060 --> 01:44:00,540

somewhere where it couldn't be found did

2545

01:44:07,280 --> 01:44:05,070

you ever talk about that there's my

2546

01:44:09,500 --> 01:44:07,290

father his story on it which is it

2547

01:44:12,560 --> 01:44:09,510

through my grandfather i rise just said

2548

01:44:14,420 --> 01:44:12,570

that but is that at the time it was just

2549

01:44:18,380 --> 01:44:14,430

after war time and you did do that kind

2550

01:44:20,330 --> 01:44:18,390

of thing yeah but just for speculation

2551

01:44:22,220 --> 01:44:20,340

purposes and it's I think it's Massoud

2552

01:44:24,050 --> 01:44:22,230

before is the blanches were good friends

2553

01:44:26,600 --> 01:44:24,060

my parents are my grandparents Cuse me

2554

01:44:29,450 --> 01:44:26,610

they played bridge on the weekends well

2555

01:44:30,620 --> 01:44:29,460

later on in that the near the end of 47

2556

01:44:32,510 --> 01:44:30,630

when things had really settled down

2557

01:44:34,850 --> 01:44:32,520

about Roswell no did they incident

2558

01:44:37,100 --> 01:44:34,860

anyway Blanchard actually came over to

2559

01:44:38,660 --> 01:44:37,110

the house with an i-beam

2560

01:44:41,390 --> 01:44:38,670

he and my grandmother looked at it yeah

2561

01:44:46,310 --> 01:44:41,400

and I her disturbs my father and where

2562

01:44:49,010 --> 01:44:46,320

they looked at it and part of the part

2563

01:44:50,859 --> 01:44:49,020

with our it's it's like black didn't we

2564

01:44:53,510 --> 01:44:50,869

don't think he took that home with them

2565

01:44:56,870 --> 01:44:53,520

and if that's the case then where the

2566

01:44:59,379 --> 01:44:56,880

heck is that you mean that it could be

2567

01:45:02,359 --> 01:44:59,389

maybe when they're doing in a state sale

2568

01:45:03,680 --> 01:45:02,369

ya know they're gonna find that box of

2569

01:45:05,660 --> 01:45:03,690

something and what the heck is this out

2570

01:45:08,090 --> 01:45:05,670

there but I you know and there's all

2571

01:45:10,790 --> 01:45:08,100

these stories too and this woman that

2572

01:45:12,350 --> 01:45:10,800

way after they eat oh my grandpa box

2573

01:45:14,090 --> 01:45:12,360

everything up and left you know they say

2574

01:45:15,500 --> 01:45:14,100

he came he was like 11 or 12 o'clock my

2575

01:45:16,520 --> 01:45:15,510

time I got to the house was in middle of

2576

01:45:18,229 --> 01:45:16,530

night when they're looking the materials

2577

01:45:20,930 --> 01:45:18,239

but he boxed it up and head to the base

2578

01:45:24,950 --> 01:45:20,940

and that next morning my grandmother or

2579

01:45:27,200 --> 01:45:24,960

her name is vo my grandmother uh swept

2580

01:45:30,200 --> 01:45:27,210

the pieces that didn't make back in the

2581

01:45:32,000 --> 01:45:30,210

box and out the back door and eventually

2582

01:45:34,340 --> 01:45:32,010

there was a concrete pad port back there

2583

01:45:37,100 --> 01:45:34,350

and there is there's there's been a

2584

01:45:38,959 --> 01:45:37,110

large you know speculation well

2585

01:45:40,790 --> 01:45:38,969

somebody's gonna break that thing up and

2586

01:45:43,189 --> 01:45:40,800

see what's underneath it honestly I

2587

01:45:44,840 --> 01:45:43,199

think that that's a very good idea to

2588

01:45:45,890 --> 01:45:44,850

talk to I'm not quite sure owns it now

2589

01:45:48,379 --> 01:45:45,900

is to say you know they're made or

2590

01:45:50,629 --> 01:45:48,389

something there if there is I mean that

2591

01:45:52,760 --> 01:45:50,639

that I said that's not that's the

2592

01:45:55,729 --> 01:45:52,770

story's been out there for decades but i

2593

01:45:58,370 --> 01:45:55,739

know from mike my grandmother's lips

2594

01:45:59,810 --> 01:45:58,380

that's what happened so there is there

2595

01:46:01,640 --> 01:45:59,820

said some of the fibers should be at the

2596

01:46:03,290 --> 01:46:01,650

shade might they should be there though

2597

01:46:07,370 --> 01:46:03,300

they look at this the question though is

2598

01:46:09,140 --> 01:46:07,380

that was that concrete pad that put down

2599

01:46:10,399 --> 01:46:09,150

before or after that happened and

2600

01:46:15,220 --> 01:46:10,409

they're not quite it up absolute

2601

01:46:17,300 --> 01:46:15,230

positive about that date right though

2602

01:46:21,350 --> 01:46:17,310

yeah someone mentioned that they heard

2603

01:46:23,209 --> 01:46:21,360

stories of soldiers taking pistols from

2604

01:46:27,530 --> 01:46:23,219

the enemies as souvenirs yes they did

2605

01:46:30,169 --> 01:46:27,540

very much so in World War two matter of

2606

01:46:33,229 --> 01:46:30,179

fact there was after they had

2607

01:46:36,140 --> 01:46:33,239

confiscated thousands and thousands of

2608

01:46:38,510 --> 01:46:36,150

samurai swords the UFO I mean the UFO

2609

01:46:40,520 --> 01:46:38,520

lab the American soldiers brought them

2610

01:46:43,700 --> 01:46:40,530

home with them you know lots and lots of

2611

01:46:47,300 --> 01:46:43,710

them after the war that actually had to

2612

01:46:48,740 --> 01:46:47,310

do with the the occupation of Japan and

2613

01:46:51,049 --> 01:46:48,750

rebuilding japan and i think it was

2614

01:46:56,399 --> 01:46:51,059

during that time but yes

2615

01:46:58,349 --> 01:46:56,409

what the person is getting at is they

2616

01:47:02,579 --> 01:46:58,359

still find it unusual that they didn't

2617

01:47:05,479 --> 01:47:02,589

keep anything you know i am but you know

2618

01:47:07,709 --> 01:47:05,489

i understand the time was different and

2619

01:47:11,520 --> 01:47:07,719

you know you really listen to the

2620

01:47:14,339 --> 01:47:11,530

government back then that's being that

2621

01:47:16,739 --> 01:47:14,349

my father my grandfather was also you

2622

01:47:18,719 --> 01:47:16,749

know the head of intelligence for the 50

2623

01:47:19,919 --> 01:47:18,729

night he was also you know the gate keep

2624

01:47:23,009 --> 01:47:19,929

running a lot of what happened in the

2625

01:47:24,119 --> 01:47:23,019

nuclear bombing program and so he was he

2626

01:47:26,459 --> 01:47:24,129

was one of those people would make sure

2627

01:47:29,189 --> 01:47:26,469

everybody kept their mouths shut so it

2628

01:47:31,619 --> 01:47:29,199

was it was you know in there I you know

2629

01:47:33,389 --> 01:47:31,629

it is my father always told it was like

2630

01:47:35,339 --> 01:47:33,399

you know again it just wasn't done back

2631

01:47:38,909 --> 01:47:35,349

there after the war you followed your

2632

01:47:40,919 --> 01:47:38,919

rules and I like from me it's like then

2633

01:47:42,509 --> 01:47:40,929

my grandfather really broke a few rules

2634

01:47:45,299 --> 01:47:42,519

by bringing home to show my grandfather

2635

01:47:48,119 --> 01:47:45,309

and my father excuse me and but you know

2636

01:47:49,649 --> 01:47:48,129

honestly but his explanation was that he

2637

01:47:52,109 --> 01:47:49,659

told my father anyway my father told me

2638

01:47:53,429 --> 01:47:52,119

about was that he knew that when he

2639

01:47:55,949 --> 01:47:53,439

returned to base it was going to be all

2640

01:47:58,319 --> 01:47:55,959

gone right he said this was going to be

2641

01:48:01,349 --> 01:47:58,329

swept up it's gone so he wanted that at

2642

01:48:04,139 --> 01:48:01,359

least have a chance to show up yeah yeah

2643

01:48:07,439 --> 01:48:04,149

it's amazing to think that the evidence

2644

01:48:09,419 --> 01:48:07,449

was right in hand at one time yeah well

2645

01:48:10,560 --> 01:48:09,429

if you if you know if we go back to an

2646

01:48:11,909 --> 01:48:10,570

early part of the conversation and

2647

01:48:13,739 --> 01:48:11,919

that's that was where you were talking

2648

01:48:15,779 --> 01:48:13,749

about was it to crap two craps that hit

2649

01:48:17,129 --> 01:48:15,789

each other was it one that impacted the

2650

01:48:18,869 --> 01:48:17,139

ground and ended up in a different place

2651

01:48:21,509 --> 01:48:18,879

and if you want to go back to the park

2652

01:48:23,489 --> 01:48:21,519

conversation but yeah I mean there was

2653

01:48:24,719 --> 01:48:23,499

talk at my ground and my father I think

2654

01:48:27,629 --> 01:48:24,729

even mentioned this book or my father

2655

01:48:29,279 --> 01:48:27,639

that there were even nuns they were

2656

01:48:32,939 --> 01:48:29,289

pointing out they were seeing a lot of

2657

01:48:35,849 --> 01:48:32,949

these unexplainable aerial anomalies

2658

01:48:37,439 --> 01:48:35,859

flying in and around Roswell many of

2659

01:48:38,669 --> 01:48:37,449

them blue glowing bulbs that kind of

2660

01:48:40,829 --> 01:48:38,679

thing they serve there was a lot of talk

2661

01:48:42,899 --> 01:48:40,839

before before that fateful night my

2662

01:48:44,549 --> 01:48:42,909

father even pointed out as a child he

2663

01:48:46,079 --> 01:48:44,559

one time he poked his head out the back

2664

01:48:48,149 --> 01:48:46,089

door the screen door and looked up and

2665

01:48:50,579 --> 01:48:48,159

saw I was blue light fly up fly over and

2666

01:48:52,259 --> 01:48:50,589

so there was a lot of activity

2667

01:48:54,329 --> 01:48:52,269

unexplained activity and explainable

2668

01:48:58,319 --> 01:48:54,339

activity excuse me in and around the

2669

01:49:00,149 --> 01:48:58,329

area so you know could they could could

2670

01:49:01,939 --> 01:49:00,159

have been two crashes I've heard it all

2671

01:49:04,069 --> 01:49:01,949

you know as far as its

2672

01:49:07,069 --> 01:49:04,079

in a speculum speculation could it have

2673

01:49:09,350 --> 01:49:07,079

been two craps hit I mean for it within

2674

01:49:11,899 --> 01:49:09,360

our side of our family we kind of looked

2675

01:49:13,489 --> 01:49:11,909

at it in the way that these beings

2676

01:49:16,790 --> 01:49:13,499

whatever they were the pile of this

2677

01:49:19,250 --> 01:49:16,800

thing would did not want to have a

2678

01:49:21,020 --> 01:49:19,260

chance of injuring us in any way so

2679

01:49:23,419 --> 01:49:21,030

crashing whatever they had out into an

2680

01:49:25,069 --> 01:49:23,429

empty field somewhere in a very desolate

2681

01:49:27,140 --> 01:49:25,079

area of the United States makes sense

2682

01:49:28,969 --> 01:49:27,150

and we always looked at it that way but

2683

01:49:30,169 --> 01:49:28,979

again you know and no but I don't think

2684

01:49:31,879 --> 01:49:30,179

anybody maybe maybe somebody doesn't

2685

01:49:34,729 --> 01:49:31,889

know but you know past that it's kind of

2686

01:49:36,620 --> 01:49:34,739

speculation that I mean to me it's

2687

01:49:40,580 --> 01:49:36,630

almost like this thing hit the ground

2688

01:49:43,459 --> 01:49:40,590

and and part of a like part of the

2689

01:49:45,410 --> 01:49:43,469

propeller propulsion components are what

2690

01:49:47,209 --> 01:49:45,420

my grandfather saw and the the the

2691

01:49:49,009 --> 01:49:47,219

forward compartment bounced off the

2692

01:49:50,419 --> 01:49:49,019

ground and it was moving you know fast

2693

01:49:53,140 --> 01:49:50,429

enough that it crashed you know miles

2694

01:49:56,029 --> 01:49:53,150

away that it was all she won one craft

2695

01:49:57,709 --> 01:49:56,039

well you know I'm sure you've heard this

2696

01:50:00,290 --> 01:49:57,719

one over and over again because you know

2697

01:50:04,100 --> 01:50:00,300

the skeptics will say oh yeah they fly

2698

01:50:07,790 --> 01:50:04,110

you know interstellar but crash here

2699

01:50:09,500 --> 01:50:07,800

yeah right you know well you know our

2700

01:50:11,330 --> 01:50:09,510

most advanced aircraft some of the most

2701

01:50:14,330 --> 01:50:11,340

specialized military aircraft we have

2702

01:50:17,000 --> 01:50:14,340

you know be on par so so far the best of

2703

01:50:18,799 --> 01:50:17,010

our civilian airplanes they crash yeah

2704

01:50:21,049 --> 01:50:18,809

they crush well I'm not all these I with

2705

01:50:23,390 --> 01:50:21,059

a crash I mean I'm not like I'm not

2706

01:50:25,330 --> 01:50:23,400

doubting you know I mean for instance a

2707

01:50:27,620 --> 01:50:25,340

lot of people speculated that radar

2708

01:50:29,569 --> 01:50:27,630

could possibly interfere with their

2709

01:50:31,969 --> 01:50:29,579

navigation or whatever you know I mean

2710

01:50:34,819 --> 01:50:31,979

they just might come across something

2711

01:50:37,339 --> 01:50:34,829

they just didn't expect well I always

2712

01:50:39,770 --> 01:50:37,349

put it that you know in my mind you know

2713

01:50:41,540 --> 01:50:39,780

thinking that you know okay so here we

2714

01:50:44,330 --> 01:50:41,550

have something that could traverse great

2715

01:50:46,399 --> 01:50:44,340

distances of course you think it'd be

2716

01:50:48,199 --> 01:50:46,409

it'd be a very incredibly to whatever it

2717

01:50:51,350 --> 01:50:48,209

be a strong vehicle everyone described

2718

01:50:52,580 --> 01:50:51,360

that but what if you know it's you know

2719

01:50:54,080 --> 01:50:52,590

kind of science fiction but if it

2720

01:50:57,049 --> 01:50:54,090

creates some kind of feel that protects

2721

01:50:59,419 --> 01:50:57,059

it and if that feels to disturb for some

2722

01:51:01,219 --> 01:50:59,429

reason then you know maybe the aircraft

2723

01:51:04,100 --> 01:51:01,229

itself isn't any stronger than our our

2724

01:51:06,109 --> 01:51:04,110

space vehicles or are our fastest yes

2725

01:51:07,910 --> 01:51:06,119

like I think maybe maybe they're not any

2726

01:51:09,859 --> 01:51:07,920

stronger than those things it's just for

2727

01:51:12,169 --> 01:51:09,869

whatever its protection mechanism was

2728

01:51:13,770 --> 01:51:12,179

down because of some reason and then it

2729

01:51:15,670 --> 01:51:13,780

you know crashed

2730

01:51:17,680 --> 01:51:15,680

now I'm going to ask you kind of a

2731

01:51:20,620 --> 01:51:17,690

unusual question was it has there ever

2732

01:51:22,000 --> 01:51:20,630

been a time in your life and perhaps a

2733

01:51:25,330 --> 01:51:22,010

time in your father's life that you

2734

01:51:33,850 --> 01:51:25,340

aware of that you regretted this whole

2735

01:51:36,610 --> 01:51:33,860

thing happened to your family know for

2736

01:51:41,110 --> 01:51:36,620

myself I can't say that I've ever

2737

01:51:43,120 --> 01:51:41,120

regretted it people usually when people

2738

01:51:46,120 --> 01:51:43,130

hear that you know our family has been

2739

01:51:48,280 --> 01:51:46,130

involved it usually approach with great

2740

01:51:50,080 --> 01:51:48,290

fascination and and then you know

2741

01:51:52,090 --> 01:51:50,090

explain to us what they've seen or their

2742

01:51:55,690 --> 01:51:52,100

family has seen before so it's never

2743

01:51:57,250 --> 01:51:55,700

really been negative my father I really

2744

01:51:59,010 --> 01:51:57,260

up to that point where they said my

2745

01:52:02,110 --> 01:51:59,020

grandfather was never in the military

2746

01:52:04,240 --> 01:52:02,120

that was a very defining moment for my

2747

01:52:05,800 --> 01:52:04,250

father and there could have been a point

2748

01:52:07,240 --> 01:52:05,810

where he was just wanted to throw his

2749

01:52:09,700 --> 01:52:07,250

hands up and say just forget all this

2750

01:52:12,790 --> 01:52:09,710

kind of thing he didn't of course but he

2751

01:52:15,250 --> 01:52:12,800

I'm he was you know very from a person

2752

01:52:17,410 --> 01:52:15,260

who didn't really get upset he was very

2753

01:52:19,270 --> 01:52:17,420

very shaken very very upset about a

2754

01:52:20,980 --> 01:52:19,280

thing I think that would be the only

2755

01:52:22,870 --> 01:52:20,990

time that they're trying to use you know

2756

01:52:24,160 --> 01:52:22,880

Roswell or they say that discredit is

2757

01:52:25,660 --> 01:52:24,170

never in the military that's the reason

2758

01:52:28,510 --> 01:52:25,670

Ra's will never happen etc or whatever

2759

01:52:30,760 --> 01:52:28,520

but just after your grandfather passed

2760

01:52:33,730 --> 01:52:30,770

away yes it was yeah that's even more

2761

01:52:36,010 --> 01:52:33,740

insult yeah it was so he's in a course

2762

01:52:38,140 --> 01:52:36,020

in a heated my my father was a up in the

2763

01:52:41,740 --> 01:52:38,150

military's I was like to brag a little

2764

01:52:44,410 --> 01:52:41,750

bit when he he was the oldest Colonel in

2765

01:52:46,600 --> 01:52:44,420

Iraq at 72 years old and they actually

2766

01:52:48,430 --> 01:52:46,610

offered him a brigadier to become

2767

01:52:49,600 --> 01:52:48,440

Brigadier General if it could if you

2768

01:52:51,220 --> 01:52:49,610

want to stay out there for another year

2769

01:52:54,730 --> 01:52:51,230

but he said he just wanted return to his

2770

01:52:56,380 --> 01:52:54,740

family but so here's a gentleman that

2771

01:52:57,490 --> 01:52:56,390

was very well respected they know and

2772

01:52:59,500 --> 01:52:57,500

that kind of thing in the military but

2773

01:53:01,420 --> 01:52:59,510

he had his moments just there weren't

2774

01:53:03,460 --> 01:53:01,430

very many of them though I mean he

2775

01:53:05,980 --> 01:53:03,470

looked at it as being a very positive

2776

01:53:09,820 --> 01:53:05,990

which we all did it and like I look at

2777

01:53:12,070 --> 01:53:09,830

Roswell in that it happened you know at

2778

01:53:13,930 --> 01:53:12,080

right airfield well you know that some

2779

01:53:16,300 --> 01:53:13,940

of her a lot of the abstracts in our

2780

01:53:18,490 --> 01:53:16,310

NASA program came out of right airfield

2781

01:53:19,660 --> 01:53:18,500

just afterwards they were there when

2782

01:53:21,970 --> 01:53:19,670

this when the material was brought there

2783

01:53:24,190 --> 01:53:21,980

there were medical facilities created

2784

01:53:25,939 --> 01:53:24,200

right after Roswell the debris was

2785

01:53:28,939 --> 01:53:25,949

karate I mean rate after

2786

01:53:32,089 --> 01:53:28,949

and I'm looking at as being a positive

2787

01:53:33,919 --> 01:53:32,099

event in that you know the some of these

2788

01:53:34,819 --> 01:53:33,929

people either heard about it had a

2789

01:53:36,890 --> 01:53:34,829

connection didn't have a connection

2790

01:53:38,299 --> 01:53:36,900

about it but it kind of inspired them

2791

01:53:40,160 --> 01:53:38,309

kind of like it inspired my father to

2792

01:53:42,770 --> 01:53:40,170

look more into the universe for life and

2793

01:53:46,219 --> 01:53:42,780

that might have dictated a path to NASA

2794

01:53:47,810 --> 01:53:46,229

a path to becoming an astronaut so try

2795

01:53:49,250 --> 01:53:47,820

to create a pretty positive because I

2796

01:53:51,410 --> 01:53:49,260

mean there there are naysayers out there

2797

01:53:53,180 --> 01:53:51,420

but you know it's almost like a lot of

2798

01:53:55,790 --> 01:53:53,190

them have their not just not nearly as

2799

01:53:57,589 --> 01:53:55,800

many as there used to be and you know I

2800

01:53:59,930 --> 01:53:57,599

guess I'm fortunate because nobody's

2801
01:54:01,850 --> 01:53:59,940
really you know the biggest thing that's

2802
01:54:03,140 --> 01:54:01,860
ever happened to me is a negative i

2803
01:54:05,270 --> 01:54:03,150
supposed to be something came up to me

2804
01:54:08,000 --> 01:54:05,280
and they were in my face about how Rosa

2805
01:54:10,279 --> 01:54:08,010
was the Nazi thing and then we were all

2806
01:54:12,770 --> 01:54:10,289
wrong but it's like that's good for your

2807
01:54:14,120 --> 01:54:12,780
is such you know good for you yeah I

2808
01:54:16,669 --> 01:54:14,130
know you can't change anyone's mind

2809
01:54:18,830 --> 01:54:16,679
really when they they come up to with

2810
01:54:21,620 --> 01:54:18,840
something like that we just have a

2811
01:54:24,169 --> 01:54:21,630
couple minutes left here and so I just

2812
01:54:26,419 --> 01:54:24,179
want to ask you one more thing did you

2813
01:54:29,989 --> 01:54:26,429

or do you happen to know dr. Edgar

2814

01:54:31,699 --> 01:54:29,999

Mitchell yes you do so and i was

2815

01:54:33,879 --> 01:54:31,709

actually picturing him as one person

2816

01:54:36,080 --> 01:54:33,889

that might be helping you with your car

2817

01:54:38,509 --> 01:54:36,090

you don't have to say yes or no because

2818

01:54:40,489 --> 01:54:38,519

he probably odd that nothing I don't

2819

01:54:42,739 --> 01:54:40,499

need be an interesting and gentlemen to

2820

01:54:43,939 --> 01:54:42,749

talk about night son I haven't my sister

2821

01:54:45,549 --> 01:54:43,949

says has quite a few Raider

2822

01:54:48,469 --> 01:54:45,559

conversations the gentleman I don't but

2823

01:54:50,689 --> 01:54:48,479

it may be who knows I you know how

2824

01:54:53,750 --> 01:54:50,699

things just have a habit of working out

2825

01:54:55,459 --> 01:54:53,760

and not that I'm leaving it up to the

2826

01:54:56,989 --> 01:54:55,469

stars but I think that things are just

2827

01:54:58,699 --> 01:54:56,999

going the right direction right now and

2828

01:55:02,299 --> 01:54:58,709

then the right people becoming it of the

2829

01:55:07,549 --> 01:55:02,309

project mm-hmm so for anyone that missed

2830

01:55:11,629 --> 01:55:07,559

the first hour that that is live he was

2831

01:55:14,899 --> 01:55:11,639

just mentioning now the airborne motors

2832

01:55:16,069 --> 01:55:14,909

and that's airborne motors com you can

2833

01:55:19,939 --> 01:55:16,079

go to that website and check out a

2834

01:55:22,580 --> 01:55:19,949

really really cool car and like you know

2835

01:55:24,169 --> 01:55:22,590

I did encourage if anybody wants to your

2836

01:55:25,759 --> 01:55:24,179

there's a cot there's a little you know

2837

01:55:27,649 --> 01:55:25,769

if you want to get hold me through the

2838

01:55:29,479 --> 01:55:27,659

contact button or through the newsletter

2839

01:55:30,529 --> 01:55:29,489

thing please do I'm happy to chat with

2840

01:55:34,040 --> 01:55:30,539

anybody about it they have an interest

2841

01:55:36,140 --> 01:55:34,050

in it yes and so how can someone reach

2842

01:55:38,239 --> 01:55:36,150

her right on that website right on that

2843

01:55:39,840 --> 01:55:38,249

website and if they'd like to there's

2844

01:55:41,220 --> 01:55:39,850

like so in the footer there's a little

2845

01:55:43,140 --> 01:55:41,230

tact button and there's also a

2846

01:55:44,490 --> 01:55:43,150

newsletter button so either way or

2847

01:55:46,290 --> 01:55:44,500

through Facebook or anything yeah

2848

01:55:47,340 --> 01:55:46,300

whatever you like but that's an S over

2849

01:55:48,690 --> 01:55:47,350

if you if you want to talk about the

2850

01:55:50,100 --> 01:55:48,700

project go ahead and just get hold me

2851

01:55:52,860 --> 01:55:50,110

through there yeah I'm kind of

2852

01:55:56,100 --> 01:55:52,870

fascinated by the electromagnetic aspect

2853

01:55:58,650 --> 01:55:56,110

of it not that we don't have any time we

2854

01:56:00,930 --> 01:55:58,660

only have you know 25 seconds left

2855

01:56:03,540 --> 01:56:00,940

before I could start closing but it

2856

01:56:05,130 --> 01:56:03,550

would be really nice to understand that

2857

01:56:09,240 --> 01:56:05,140

more I mean that sounded awful

2858

01:56:11,790 --> 01:56:09,250

fascinating so anyway thank you so much

2859

01:56:13,910 --> 01:56:11,800

2860

01:56:15,960 --> 01:56:13,920
