

1
00:00:28,689 --> 00:00:26,259
alright I'm here with David Hatcher

2
00:00:31,900 --> 00:00:28,699
Childress at the international UFO

3
00:00:33,459 --> 00:00:31,910
Congress how are you David hi good it's

4
00:00:36,910 --> 00:00:33,469
having a good time here it's really fun

5
00:00:39,490 --> 00:00:36,920
yeah and you're you been kind of swarmed

6
00:00:42,610 --> 00:00:39,500
by fans here it's been interesting so

7
00:00:45,610 --> 00:00:42,620
ancient aliens are you really enjoying

8
00:00:48,969 --> 00:00:45,620
doing that show oh yeah no it's great

9
00:00:50,490 --> 00:00:48,979
doing that show and just the company

10
00:00:53,919 --> 00:00:50,500
that doesn't Prometheus in Los Angeles

11
00:00:58,450 --> 00:00:53,929
does a great show at a good job going

12
00:01:01,450 --> 00:00:58,460
now nine years and there's shooting a 10

13
00:01:04,060 --> 00:01:01,460

season now I think so amazing no I've

14

00:01:07,180 --> 00:01:04,070

said many times on my show that the way

15

00:01:09,760 --> 00:01:07,190

civil civilizations evolve intelligently

16

00:01:11,590 --> 00:01:09,770

possibly and become extinct doesn't

17

00:01:14,499 --> 00:01:11,600

matter someone visits us now or they

18

00:01:17,830 --> 00:01:14,509

visit us five million years ago it could

19

00:01:19,960 --> 00:01:17,840

still happen and what are your what are

20

00:01:24,790 --> 00:01:19,970

your thoughts on that yeah I i mean i

21

00:01:26,499 --> 00:01:24,800

think that the extra trestles probably

22

00:01:30,130 --> 00:01:26,509

been coming here for for thousands of

23

00:01:32,499 --> 00:01:30,140

years and certainly watching our

24

00:01:36,490 --> 00:01:32,509

progress on planet earth and perhaps

25

00:01:38,999 --> 00:01:36,500

guiding us as well and then you have all

26
00:01:41,740 --> 00:01:39,009
these strange structures on the moon and

27
00:01:45,179 --> 00:01:41,750
it seems like the the moon is sort of a

28
00:01:48,429 --> 00:01:45,189
like a special space base of some sort

29
00:01:49,929 --> 00:01:48,439
yeah I I never really looked into that

30
00:01:51,399 --> 00:01:49,939
too much but I understand a lot of

31
00:01:53,649 --> 00:01:51,409
people think there could be something on

32
00:01:55,359 --> 00:01:53,659
the dart of the god dark side of them on

33
00:01:57,819 --> 00:01:55,369
the other side of the moon or some

34
00:02:01,569 --> 00:01:57,829
people claim there's structures have you

35
00:02:03,459 --> 00:02:01,579
really looked into that deeply yeah

36
00:02:05,859 --> 00:02:03,469
actually I did a book back in the 90s

37
00:02:10,719 --> 00:02:05,869
called extraterrestrial archaeology

38
00:02:13,479 --> 00:02:10,729

where I went through as many photos and

39

00:02:16,360 --> 00:02:13,489

drawings and other people's books who

40

00:02:18,580 --> 00:02:16,370

talked about the moon and I came to the

41

00:02:20,110 --> 00:02:18,590

conclusion that yeah there are there are

42

00:02:23,860 --> 00:02:20,120

vehicles on the moon there are

43

00:02:27,130 --> 00:02:23,870

structures on the moon it's it's likely

44

00:02:28,440 --> 00:02:27,140

that things are underground on the moon

45

00:02:33,089 --> 00:02:28,450

as well

46

00:02:36,240 --> 00:02:33,099

and in fact if you watch the movie 2001

47

00:02:38,190 --> 00:02:36,250

a Space Odyssey when they go to the moon

48

00:02:40,830 --> 00:02:38,200

in that movie they also go underground

49

00:02:44,240 --> 00:02:40,840

and all their bases are early

50

00:02:46,559 --> 00:02:44,250

underground there what do you think in

51
00:02:49,259 --> 00:02:46,569
this ten years that you've done the show

52
00:02:53,820 --> 00:02:49,269
are coming up on the tenth year what do

53
00:02:56,070 --> 00:02:53,830
you think is the most compelling i'm

54
00:02:58,410 --> 00:02:56,080
going to say evidence i guess that we

55
00:03:00,059 --> 00:02:58,420
have been visited in the past well

56
00:03:02,699 --> 00:03:00,069
people do ask me that and what's the

57
00:03:05,240 --> 00:03:02,709
best evidence for that I and I tend to

58
00:03:07,530 --> 00:03:05,250
think it is things on the moon and

59
00:03:10,380 --> 00:03:07,540
structures on the moon as for

60
00:03:14,100 --> 00:03:10,390
extraterrestrials we have other

61
00:03:18,740 --> 00:03:14,110
structures like puma punku and and

62
00:03:21,660 --> 00:03:18,750
things like that I'm a believer also in

63
00:03:27,240 --> 00:03:21,670

advanced ancient civilizations such as

64

00:03:31,080 --> 00:03:27,250

Atlantis and even even ancient Egypt I

65

00:03:34,979 --> 00:03:31,090

believe that that they had power tools

66

00:03:38,759 --> 00:03:34,989

and I've written books also on Vimanas

67

00:03:40,110 --> 00:03:38,769

and the Ark of the Covenant so I yeah I

68

00:03:41,670 --> 00:03:40,120

think that there you know there was

69

00:03:46,160 --> 00:03:41,680

aircraft there was electricity in

70

00:03:49,620 --> 00:03:46,170

ancient time so we're power tools and

71

00:03:52,500 --> 00:03:49,630

space bases and things and and so some

72

00:03:54,960 --> 00:03:52,510

of its human in my mind and but other

73

00:03:57,270 --> 00:03:54,970

things are probably extraterrestrials

74

00:03:59,879 --> 00:03:57,280

you know it's really hard for anyone to

75

00:04:01,559 --> 00:03:59,889

wrap their brain around time when it

76

00:04:03,780 --> 00:04:01,569

comes to millions and billions of years

77

00:04:05,819 --> 00:04:03,790

you know when you go back you just can't

78

00:04:07,830 --> 00:04:05,829

even the human brain just can't really

79

00:04:10,490 --> 00:04:07,840

conceive that do you think it's possible

80

00:04:12,690 --> 00:04:10,500

that there could have been some type of

81

00:04:15,089 --> 00:04:12,700

volcanism at one time there could have

82

00:04:17,310 --> 00:04:15,099

been say a civilization of prominent

83

00:04:20,069 --> 00:04:17,320

civilization at one time a long time ago

84

00:04:22,950 --> 00:04:20,079

and perhaps a vulcanization or something

85

00:04:25,170 --> 00:04:22,960

happen a major asteroid maybe even two

86

00:04:26,670 --> 00:04:25,180

billion years ago or something before we

87

00:04:28,110 --> 00:04:26,680

knew anything about life on Earth and

88

00:04:33,000 --> 00:04:28,120

there could have been life before we

89

00:04:35,760 --> 00:04:33,010

know of supposedly yeah biologists say

90

00:04:38,010 --> 00:04:35,770

that really life on Earth couldn't have

91

00:04:40,439 --> 00:04:38,020

really evolved without a moon

92

00:04:45,270 --> 00:04:40,449

and that we need that gravitational pull

93

00:04:49,230 --> 00:04:45,280

of the moon to causing the tides and a

94

00:04:54,390 --> 00:04:49,240

certain oscillation of the planet in a

95

00:04:57,300 --> 00:04:54,400

way so yeah we needed a moon NASA has

96

00:04:59,700 --> 00:04:57,310

even said at one point that the our moon

97

00:05:03,559 --> 00:04:59,710

is actually older than the earth rather

98

00:05:10,800 --> 00:05:03,569

than it being part of the earth or being

99

00:05:14,370 --> 00:05:10,810

say ejected from some you know molten

100

00:05:16,890 --> 00:05:14,380

early Earth but that the moon is

101
00:05:20,189 --> 00:05:16,900
actually perhaps even you know some kind

102
00:05:22,260 --> 00:05:20,199
of an artificial structure that's been

103
00:05:25,379 --> 00:05:22,270
you know put into orbit around our

104
00:05:28,680 --> 00:05:25,389
planet that's interesting never heard

105
00:05:31,200 --> 00:05:28,690
that one that's well just one last

106
00:05:33,659 --> 00:05:31,210
question I can think of right now is can

107
00:05:37,379 --> 00:05:33,669
you kind of describe how the show has

108
00:05:41,249 --> 00:05:37,389
changed your life haha well you know I'm

109
00:05:44,790 --> 00:05:41,259
an author really and a publisher and and

110
00:05:51,200 --> 00:05:44,800
being on the agent alien shows as has

111
00:05:53,670 --> 00:05:51,210
helped my books sell better I think and

112
00:05:56,219 --> 00:05:53,680
now when I go to the airport sometimes

113
00:05:58,490 --> 00:05:56,229

you know people will recognize me and

114

00:06:00,870 --> 00:05:58,500

they'll come up to me and they'll say

115

00:06:04,290 --> 00:06:00,880

aren't you that guy in that ancient

116

00:06:05,670 --> 00:06:04,300

alien show and I'll say yeah and then

117

00:06:09,480 --> 00:06:05,680

the next thing they usually ask me is

118

00:06:12,659 --> 00:06:09,490

what's with that guy's hair anyway yeah

119

00:06:16,320 --> 00:06:12,669

well this has been great and you know I

120

00:06:18,089 --> 00:06:16,330

think the show has captured a lot of

121

00:06:19,290 --> 00:06:18,099

hearts of people because one thing i

122

00:06:21,360 --> 00:06:19,300

mentioned to when we were talking

123

00:06:23,219 --> 00:06:21,370

yesterday is a lot of people i know who

124

00:06:25,920 --> 00:06:23,229

aren't even into UFOs are into ancient

125

00:06:28,469 --> 00:06:25,930

aliens and so it's been really great
