

1
00:00:03,169 --> 00:00:02,389
and it hits me oh my gosh this is that

2
00:00:04,249 --> 00:00:03,179
triangle

3
00:00:05,360 --> 00:00:04,259
you know there's explanation for

4
00:00:08,540 --> 00:00:05,370
everything that occurred in the

5
00:00:11,509 --> 00:00:08,550
Rendlesham forest incident aliens at all

6
00:00:15,259 --> 00:00:11,519
it was completely silent it comes right

7
00:00:17,060 --> 00:00:15,269
over our head it's sort of like flying

8
00:00:18,800 --> 00:00:17,070
saucer really standing in the clearing

9
00:00:20,450 --> 00:00:18,810
he turned over to my father held his

10
00:00:26,960 --> 00:00:20,460
hand and he looked in his eyes and said

11
00:00:28,400 --> 00:00:26,970

27

00:01:15,109 --> 00:01:10,770

as a podcast the full show on the Dark

37

00:01:45,679 --> 00:01:41,009

Matter digital network every Thursday

38

00:01:48,200 --> 00:01:45,689

from 10:00 to midnight and so there we

39

00:01:55,249 --> 00:01:48,210

go we're ready to talk to Alejandro how

40

00:01:56,630 --> 00:01:55,259

was Roswell it was out of this world so

41

00:01:59,330 --> 00:01:56,640

it's the first time I've used it like

42

00:02:01,399 --> 00:01:59,340

that because of course it's annoying the

43

00:02:03,469 --> 00:02:01,409

news uses it all the time in fact it was

44

00:02:06,560 --> 00:02:03,479

kind of funny and he was a nice guy but

45

00:02:08,719 --> 00:02:06,570

there was just one reporter who a few

46

00:02:10,880 --> 00:02:08,729

years ago was talking about our

47

00:02:12,559 --> 00:02:10,890

conference and he's like oh I've already

48

00:02:13,309 --> 00:02:12,569

got you know what I'm gonna say worked

49

00:02:16,130 --> 00:02:13,319

out and I'm

50

00:02:20,030 --> 00:02:16,140

say um you know this event is out of

51
00:02:23,360 --> 00:02:20,040
this world and he looks at us to be like

52
00:02:27,739 --> 00:02:23,370
oh wow that's great and it was it was

53
00:02:29,270 --> 00:02:27,749
really awkward yeah yeah in fact we were

54
00:02:32,199 --> 00:02:29,280
a little disappointed it's like don't

55
00:02:36,679 --> 00:02:32,209
you realize we hear this all the time

56
00:02:37,970 --> 00:02:36,689
yeah well well anyway you took me by

57
00:02:41,629 --> 00:02:37,980
surprise on that one

58
00:02:46,039 --> 00:02:41,639
yeah but Roswell was great a lot of fun

59
00:02:49,729 --> 00:02:46,049
in fact you know there was the there

60
00:02:52,309 --> 00:02:49,739
were the speakers at the Museum and then

61
00:02:55,459 --> 00:02:52,319
there was our group and we were speaking

62
00:02:57,229 --> 00:02:55,469
for the newspaper and we did me in fact

63
00:03:00,470 --> 00:02:57,239

they invited us over for breakfast I

64

00:03:02,959 --> 00:03:00,480

usually speak at the museum but this was

65

00:03:06,500 --> 00:03:02,969

a really unique group at the paper that

66

00:03:08,959 --> 00:03:06,510

I was really excited to be with so the

67

00:03:13,309 --> 00:03:08,969

other speakers were Lee Spiegel who's of

68

00:03:15,890 --> 00:03:13,319

course a good friend but also Colonel

69

00:03:17,449 --> 00:03:15,900

John Alexander I mean he was in the Army

70

00:03:20,599 --> 00:03:17,459

and intelligence

71

00:03:22,879 --> 00:03:20,609

he worked at los alamos and you know

72

00:03:25,729 --> 00:03:22,889

with other friends and intelligence

73

00:03:27,740 --> 00:03:25,739

looked into UFOs and another paranormal

74

00:03:30,129 --> 00:03:27,750

phenomena and then of course there's

75

00:03:34,939 --> 00:03:30,139

Colonel Charles halt who was a witness

76
00:03:36,710 --> 00:03:34,949
highest ranking military UFO and this is

77
00:03:39,740 --> 00:03:36,720
part of one of the most incredible cases

78
00:03:41,719 --> 00:03:39,750
ever and then Nick Pope who worked for

79
00:03:44,300 --> 00:03:41,729
the Ministry of Defense investigating

80
00:03:47,149 --> 00:03:44,310
UFOs so the level of you can't really

81
00:03:49,309 --> 00:03:47,159
beat that level of credibility Keith

82
00:03:51,999 --> 00:03:49,319
Arum who was the guy who made the

83
00:03:55,550 --> 00:03:52,009
Phoenix Internet movie was also there

84
00:03:57,439 --> 00:03:55,560
and so that was fun and so he had a

85
00:04:00,020 --> 00:03:57,449
showing of his movie and and we did a

86
00:04:05,539 --> 00:04:00,030
panel and stuff like that I actually

87
00:04:07,280 --> 00:04:05,549
emceed the event and do we had I felt

88
00:04:10,670 --> 00:04:07,290

some really great conversations it was

89

00:04:15,529 --> 00:04:10,680

it was really fun yeah now it's funny I

90

00:04:17,959 --> 00:04:15,539

I as you know I I am an antique person

91

00:04:21,409 --> 00:04:17,969

appraiser or whatever I had my phone

92

00:04:23,420 --> 00:04:21,419

rang yesterday and I looked at the I saw

93

00:04:26,570 --> 00:04:23,430

the person's name and it said Roswell

94

00:04:27,080 --> 00:04:26,580

New Mexico so he answered it had nothing

95

00:04:30,920 --> 00:04:27,090

to do

96

00:04:32,629 --> 00:04:30,930

with UFOs and Roswell so I did in the

97

00:04:35,659 --> 00:04:32,639

conversation he actually is having me

98

00:04:37,100 --> 00:04:35,669

look at some Asian arts of so in the

99

00:04:40,100 --> 00:04:37,110

conversation I said to him

100

00:04:41,780 --> 00:04:40,110

so Roswell huh what do you think about

101
00:04:44,600 --> 00:04:41,790
that crash you know and all this stuff

102
00:04:46,159 --> 00:04:44,610
and he goes yeah well you know he he was

103
00:04:48,260 --> 00:04:46,169
just into he so yeah we just had this

104
00:04:50,510 --> 00:04:48,270
big event here and he said they rent out

105
00:04:52,700 --> 00:04:50,520
more hotels so than anyone else in the

106
00:04:54,200 --> 00:04:52,710
whole state and any other event no is

107
00:04:56,600 --> 00:04:54,210
that true how many people come to this

108
00:05:00,350 --> 00:04:56,610
event I doubt that's true

109
00:05:05,120 --> 00:05:00,360
the only reason Baja is well Roswell is

110
00:05:06,740 --> 00:05:05,130
small I mean this is a small town there

111
00:05:08,690 --> 00:05:06,750
are a lot of people that come to the

112
00:05:12,219 --> 00:05:08,700
event they estimate in the tens of

113
00:05:15,770 --> 00:05:12,229

thousands but it is just an estimation

114

00:05:17,390 --> 00:05:15,780

and and they do I mean they have more

115

00:05:19,310 --> 00:05:17,400

and more hotels even when I started

116

00:05:21,409 --> 00:05:19,320

going let's say about ten years ago

117

00:05:25,279 --> 00:05:21,419

there's at least five or six more hotels

118

00:05:27,670 --> 00:05:25,289

so there are a lot of hotels this year I

119

00:05:32,840 --> 00:05:27,680

heard that this was kind of the smallest

120

00:05:36,320 --> 00:05:32,850

showing in the last since 1997 which was

121

00:05:38,629 --> 00:05:36,330

a 50th anniversary which was huge but

122

00:05:40,909 --> 00:05:38,639

there was still quite a few people and

123

00:05:43,430 --> 00:05:40,919

the reason why I say I doubt that is

124

00:05:45,440 --> 00:05:43,440

that Albuquerque for instance is a very

125

00:05:49,700 --> 00:05:45,450

it's a pretty big town oh yeah

126

00:05:54,140 --> 00:05:49,710

and so is Santa Fe so Albuquerque is

127

00:05:57,700 --> 00:05:54,150

just on a scale it is very very very

128

00:06:02,000 --> 00:05:57,710

much bigger and they have events such as

129

00:06:04,490 --> 00:06:02,010

the International Balloon Fiesta which

130

00:06:07,700 --> 00:06:04,500

is the largest balloon festival in the

131

00:06:09,680 --> 00:06:07,710

world and there are people that come

132

00:06:12,260 --> 00:06:09,690

from all over I used to go to that I

133

00:06:13,520 --> 00:06:12,270

would try to go every year and it was

134

00:06:16,370 --> 00:06:13,530

absolutely incredible

135

00:06:18,650 --> 00:06:16,380

thousands of hot-air balloons in the air

136

00:06:20,000 --> 00:06:18,660

at the same time it's surreal because

137

00:06:22,040 --> 00:06:20,010

these things are on the ground and

138

00:06:24,800 --> 00:06:22,050

they're huge and then the sky is

139

00:06:28,040 --> 00:06:24,810

littered with them it's incredible but

140

00:06:31,070 --> 00:06:28,050

I'm sure that gets a lot more people oh

141

00:06:34,159 --> 00:06:31,080

yeah yeah then that's right um of course

142

00:06:36,440 --> 00:06:34,169

that would yeah so so events like that

143

00:06:39,140 --> 00:06:36,450

in Santa Fe of course is is also world

144

00:06:40,519 --> 00:06:39,150

renowned and they have festivals as well

145

00:06:47,839 --> 00:06:40,529

so

146

00:06:49,759 --> 00:06:47,849

there that's pretty impressive

147

00:06:52,159 --> 00:06:49,769

probably per capita gets more people

148

00:06:54,949 --> 00:06:52,169

than you know yeah well I know to go

149

00:06:58,369 --> 00:06:54,959

with that yeah yeah so what's happening

150

00:07:00,319 --> 00:06:58,379

for News while you were over there while

151
00:07:04,189 --> 00:07:00,329
I was over there there wasn't a whole

152
00:07:06,139 --> 00:07:04,199
lot of news that I can think of while I

153
00:07:09,109 --> 00:07:06,149
was over there in fact you know I left

154
00:07:12,039 --> 00:07:09,119
the day after we talked right and I've

155
00:07:14,719 --> 00:07:12,049
been back and I'm working on this story

156
00:07:16,549 --> 00:07:14,729
so I've been researching so there hasn't

157
00:07:18,229 --> 00:07:16,559
been a whole lot of news while I was

158
00:07:22,759 --> 00:07:18,239
there though I guess what did I learn

159
00:07:25,519 --> 00:07:22,769
this is kind of interesting Nick Pope

160
00:07:29,179 --> 00:07:25,529
told a story and which was a fun story

161
00:07:32,409 --> 00:07:29,189
about one of his bosses in the Ministry

162
00:07:36,109 --> 00:07:32,419
of Defense who was reviewing a case and

163
00:07:38,899 --> 00:07:36,119

was essentially talking about how this

164

00:07:44,119 --> 00:07:38,909

UFO oh this is really cool actually this

165

00:07:45,769 --> 00:07:44,129

UFO was not this unidentified object

166

00:07:48,019 --> 00:07:45,779

that they were trying to investigate was

167

00:07:51,289 --> 00:07:48,029

not Soviet it was not ours it was not

168

00:07:54,469 --> 00:07:51,299

the United States so who else could it

169

00:07:56,299 --> 00:07:54,479

be and he pointed to the sky and that

170

00:07:59,329 --> 00:07:56,309

just kind of an ending story I hadn't

171

00:08:01,279 --> 00:07:59,339

heard him tell before and him and his

172

00:08:03,559 --> 00:08:01,289

coworker there were just like whoa

173

00:08:06,769 --> 00:08:03,569

that's kind of weird but this is kind of

174

00:08:09,199 --> 00:08:06,779

cool too so John Burroughs actually

175

00:08:12,469 --> 00:08:09,209

showed up really one of the other

176

00:08:14,149 --> 00:08:12,479

Rendlesham witness and he actually ended

177

00:08:17,509 --> 00:08:14,159

up having to do a talk because they had

178

00:08:20,029 --> 00:08:17,519

I think it was a mixup on the schedule

179

00:08:23,449 --> 00:08:20,039

they had least scheduled to do too and

180

00:08:25,789 --> 00:08:23,459

he actually got sick at the end of the

181

00:08:28,039 --> 00:08:25,799

first day so he can do his first one so

182

00:08:30,559 --> 00:08:28,049

John Burroughs went up there and did his

183

00:08:33,649 --> 00:08:30,569

talk was which was great and he talks a

184

00:08:35,869 --> 00:08:33,659

lot about project condign and project

185

00:08:38,839 --> 00:08:35,879

condign was a document that's only come

186

00:08:41,629 --> 00:08:38,849

out in the last few years which was an

187

00:08:44,749 --> 00:08:41,639

investigation that was completed in 2000

188

00:08:47,600 --> 00:08:44,759

by the Ministry of Defense into UFOs so

189

00:08:49,970 --> 00:08:47,610

it was a full-on investigation the

190

00:08:53,210 --> 00:08:49,980

problem is and and this is what John

191

00:08:54,290 --> 00:08:53,220

burrows talks about John burrows did a

192

00:08:56,360 --> 00:08:54,300

lot of great work look

193

00:09:00,380 --> 00:08:56,370

into it and he found that there was some

194

00:09:05,420 --> 00:09:00,390

speculation that perhaps the UFOs are a

195

00:09:07,670 --> 00:09:05,430

plasma natural plasma phenomenon that

196

00:09:09,470 --> 00:09:07,680

causes radiation and that he and his

197

00:09:12,380 --> 00:09:09,480

colleagues may have been affected from

198

00:09:15,829 --> 00:09:12,390

the radiation from this plasma so that's

199

00:09:18,019 --> 00:09:15,839

really interesting but my argument to

200

00:09:20,150 --> 00:09:18,029

Nick was this document is very

201
00:09:24,560 --> 00:09:20,160
speculative I mean they talk a lot about

202
00:09:27,500 --> 00:09:24,570
this natural phenomena of plasma and you

203
00:09:29,900 --> 00:09:27,510
know who asked for this document to

204
00:09:33,290 --> 00:09:29,910
create be created and what did they

205
00:09:36,519 --> 00:09:33,300
think they would be able to find and his

206
00:09:40,310 --> 00:09:36,529
answer was great his answer was that it

207
00:09:42,079 --> 00:09:40,320
was a secret inquiry and they didn't

208
00:09:44,690 --> 00:09:42,089
want anybody to know that they were

209
00:09:47,180 --> 00:09:44,700
looking into UFOs doing the serious

210
00:09:49,670 --> 00:09:47,190
inquiry into UFOs so they couldn't

211
00:09:52,610 --> 00:09:49,680
really ask scientists and the other

212
00:09:55,430 --> 00:09:52,620
experts owe their opinions or ideas

213
00:09:58,699 --> 00:09:55,440

about like this plasma phenomena so they

214

00:10:00,380 --> 00:09:58,709

had to limit their research to existing

215

00:10:04,490 --> 00:10:00,390

documents so that limited what they

216

00:10:06,680 --> 00:10:04,500

could really discover as for who asked

217

00:10:09,290 --> 00:10:06,690

for the document she said it was UFO

218

00:10:11,810 --> 00:10:09,300

believers essentially in the government

219

00:10:16,040 --> 00:10:11,820

I mean we have them John Alexander's one

220

00:10:18,380 --> 00:10:16,050

that was in our military and so there

221

00:10:20,810 --> 00:10:18,390

were a group of believers in several

222

00:10:23,960 --> 00:10:20,820

departments and they felt that what they

223

00:10:27,110 --> 00:10:23,970

wanted to do was analyze the topic to

224

00:10:28,910 --> 00:10:27,120

see if they can glean any technology

225

00:10:31,850 --> 00:10:28,920

that they would be able to use to

226

00:10:34,190 --> 00:10:31,860

develop some sort of great technology

227

00:10:37,550 --> 00:10:34,200

similar to why Bob Bigelow has gotten

228

00:10:41,750 --> 00:10:37,560

into this topic and did his research so

229

00:10:43,550 --> 00:10:41,760

that was kind of interesting to know the

230

00:10:45,590 --> 00:10:43,560

background of that and why it was so

231

00:10:49,490 --> 00:10:45,600

speculative and kind of limited even

232

00:10:52,310 --> 00:10:49,500

though it's a huge document we did you

233

00:10:54,530 --> 00:10:52,320

know there are so many only so many UFOs

234

00:10:56,960 --> 00:10:54,540

that could be explained as something

235

00:10:58,519 --> 00:10:56,970

that was even plasma like you know it's

236

00:11:00,980 --> 00:10:58,529

a good point and that's really the only

237

00:11:03,910 --> 00:11:00,990

thing they offer up our kind of plasmas

238

00:11:06,740 --> 00:11:03,920

or misidentifications they don't really

239

00:11:08,100 --> 00:11:06,750

at least I don't recall them I think

240

00:11:10,949 --> 00:11:08,110

they went into said

241

00:11:13,199 --> 00:11:10,959

think about how it's a possibility Nick

242

00:11:17,160 --> 00:11:13,209

and his talk had some other great quotes

243

00:11:17,610 --> 00:11:17,170

from the document so but yeah you're

244

00:11:20,550 --> 00:11:17,620

right

245

00:11:22,680 --> 00:11:20,560

can this document be found online it can

246

00:11:25,139 --> 00:11:22,690

I believe it can yeah I'm sure that's

247

00:11:31,290 --> 00:11:25,149

how I found it but project condign and

248

00:11:32,850 --> 00:11:31,300

that co n di GN oh okay great

249

00:11:35,519 --> 00:11:32,860

yeah and otherwise I'm working on

250

00:11:39,389 --> 00:11:35,529

something kind of related it is a

251
00:11:41,310 --> 00:11:39,399
document that I'm essentially you know

252
00:11:43,970 --> 00:11:41,320
that interview with Paul Dean that I had

253
00:11:46,790 --> 00:11:43,980
where he talked about UFO reports being

254
00:11:50,490 --> 00:11:46,800
reported to this government or military

255
00:11:53,610 --> 00:11:50,500
system called op rep and in particular

256
00:11:56,819 --> 00:11:53,620
they were a prep three so I'm kind of

257
00:11:58,769 --> 00:11:56,829
doing a history of okay one of the

258
00:12:01,380 --> 00:11:58,779
things we know from Blue Book is that

259
00:12:06,690 --> 00:12:01,390
and we know this from a memo by a

260
00:12:08,790 --> 00:12:06,700
general that the UFO reports that had a

261
00:12:10,590 --> 00:12:08,800
national of where that were of National

262
00:12:12,840 --> 00:12:10,600
Defense interest which would be the most

263
00:12:15,540 --> 00:12:12,850

significant ones we're not going to blue

264

00:12:19,380 --> 00:12:15,550

book at all they were going to what's

265

00:12:22,650 --> 00:12:19,390

called J Knapp 146 protocols or a

266

00:12:25,319 --> 00:12:22,660

centrally reporting system and this

267

00:12:27,600 --> 00:12:25,329

system we know simple we have some

268

00:12:29,310 --> 00:12:27,610

information about I talk about it when

269

00:12:31,949 --> 00:12:29,320

they talk about the Canadian sightings

270

00:12:36,060 --> 00:12:31,959

and stuff and essentially it was called

271

00:12:37,590 --> 00:12:36,070

service merit and it lists you know this

272

00:12:39,810 --> 00:12:37,600

is where you have to report UFO

273

00:12:47,430 --> 00:12:39,820

sightings and and that document was in

274

00:12:50,660 --> 00:12:47,440

existence up until 2011 when Lee Spiegel

275

00:12:53,790 --> 00:12:50,670

wrote a story about it and surprisingly

276

00:12:57,120 --> 00:12:53,800

coincidentally event I with it vanished

277

00:12:58,710 --> 00:12:57,130

so you know this story yeah but John

278

00:13:02,040 --> 00:12:58,720

Greenwald has looked into these files

279

00:13:04,949 --> 00:13:02,050

but Paul Dean has found that and I'm

280

00:13:08,340 --> 00:13:04,959

gonna show this how this is worked is

281

00:13:10,439 --> 00:13:08,350

that Greenwald tried to look for some of

282

00:13:11,670 --> 00:13:10,449

these service reports UFO reports they

283

00:13:13,560 --> 00:13:11,680

told them there weren't any and they

284

00:13:15,930 --> 00:13:13,570

told them they weren't subject to FOIA

285

00:13:19,710 --> 00:13:15,940

yet anyway he did find some on the

286

00:13:20,939 --> 00:13:19,720

Canadian side but as Paul Dean has kind

287

00:13:21,720 --> 00:13:20,949

of demonstrated they probably weren't

288

00:13:24,050 --> 00:13:21,730

using that and

289

00:13:27,000 --> 00:13:24,060

they were using this a prep system and

290

00:13:30,120 --> 00:13:27,010

essentially this is kind of interesting

291

00:13:34,530 --> 00:13:30,130

John Greenwald shows that the document

292

00:13:37,500 --> 00:13:34,540

that replaced in 2011 that service as

293

00:13:40,019 --> 00:13:37,510

essentially a prep is where these days

294

00:13:43,079 --> 00:13:40,029

were that important reports go

295

00:13:44,670 --> 00:13:43,089

and so that's evidence that that's where

296

00:13:47,250 --> 00:13:44,680

they're going however from where do they

297

00:13:49,910 --> 00:13:47,260

go there I don't know and they don't

298

00:13:56,490 --> 00:13:49,920

share those files now is that is that a

299

00:14:04,290 --> 00:13:56,500

US agency it is a u.s. reporting system

300

00:14:07,500 --> 00:14:04,300

that apparently is Jane app is like the

301

00:14:09,360 --> 00:14:07,510

joint Army Navy Air Force reporting

302

00:14:13,759 --> 00:14:09,370

system a yacht reporting system and

303

00:14:16,560 --> 00:14:13,769

these opera seem to also be

304

00:14:21,569 --> 00:14:16,570

multi-departmental and services so it

305

00:14:25,410 --> 00:14:21,579

goes to more than just necessarily you

306

00:14:28,439 --> 00:14:25,420

know one service although as he's also

307

00:14:30,300 --> 00:14:28,449

shown or Paul Dean is shown and I'll

308

00:14:32,819 --> 00:14:30,310

show this there are some particular

309

00:14:35,850 --> 00:14:32,829

codes that can be used so that it stays

310

00:14:40,230 --> 00:14:35,860

within the Navy for instance or it goes

311

00:14:43,410 --> 00:14:40,240

to Navy command but they go to Maj comm

312

00:14:44,990 --> 00:14:43,420

and Maj comms are major commands so

313

00:14:48,870 --> 00:14:45,000

those are kind of like the major

314

00:14:51,030 --> 00:14:48,880

different departments of the different

315

00:14:52,769 --> 00:14:51,040

branches of the service so you'll have a

316

00:14:55,829 --> 00:14:52,779

story on this within the next couple of

317

00:14:57,780 --> 00:14:55,839

days that anyone can interact right I

318

00:14:59,129 --> 00:14:57,790

hope to have that posted by the end of

319

00:15:00,840 --> 00:14:59,139

the day all right

320

00:15:03,900 --> 00:15:00,850

great so all you have to do is go over

321

00:15:06,150 --> 00:15:03,910

to open minds TV and it should be there

322

00:15:08,370 --> 00:15:06,160

by the time you hear this I'll go

323

00:15:10,559 --> 00:15:08,380

thanks so much all right talk to you

324

00:15:12,329 --> 00:15:10,569

next week buddy all ready so hang in

325

00:15:33,250 --> 00:15:12,339

there everyone we'll be right back with

326

00:15:39,759 --> 00:15:36,259

Jeremy how are you I'm doing pretty good

327

00:15:42,230 --> 00:15:39,769

good thank you and welcome to the show

328

00:15:47,389 --> 00:15:42,240

thanks for having me sure

329

00:15:52,569 --> 00:15:47,399

now you're kind of a young guy what when

330

00:15:56,449 --> 00:15:52,579

did you get started in looking into UFOs

331

00:15:58,100 --> 00:15:56,459

I would say Bob I got involved

332

00:16:00,710 --> 00:15:58,110

mainstream I guess you would call it

333

00:16:06,560 --> 00:16:00,720

around 2008 around the time that I

334

00:16:09,130 --> 00:16:06,570

turned of 18 19 years old I originally

335

00:16:11,840 --> 00:16:09,140

found out about the Ely case is actually

336

00:16:15,560 --> 00:16:11,850

looking online at different UFO crash

337

00:16:17,420 --> 00:16:15,570

lists and what was weird about this one

338

00:16:21,440 --> 00:16:17,430

was not only was it fairly close to

339

00:16:24,079 --> 00:16:21,450

where I live but these crashes basically

340

00:16:28,790 --> 00:16:24,089

had no information about them at all on

341

00:16:30,560 --> 00:16:28,800

the Internet so I started looking into

342

00:16:34,000 --> 00:16:30,570

these cases and there's actually a lot

343

00:16:38,510 --> 00:16:34,010

more to it than what the internet says

344

00:16:42,710 --> 00:16:38,520

so when you're researching these earlier

345

00:16:45,860 --> 00:16:42,720

cases how do you first start is it

346

00:16:49,250 --> 00:16:45,870

looking through newspaper articles books

347

00:16:50,120 --> 00:16:49,260

written on the subject how do you how do

348

00:16:52,970 --> 00:16:50,130

you look into it

349

00:16:55,610 --> 00:16:52,980

to begin well I um well with these

350

00:16:56,960 --> 00:16:55,620

specific cases I actually like I said I

351

00:16:59,630 --> 00:16:56,970

looked on a list on the Internet of

352

00:17:03,410 --> 00:16:59,640

supposed UFO crashes and I saw that this

353

00:17:06,199 --> 00:17:03,420

one was well a crashed in the Ely Nevada

354

00:17:08,630 --> 00:17:06,209

area was listed on there I searched the

355

00:17:11,419 --> 00:17:08,640

story on YouTube and there actually was

356

00:17:16,000 --> 00:17:11,429

a shortened news broadcast done by Edie

357

00:17:19,840 --> 00:17:16,010

Pierce over in Reno for a kol o TV and

358

00:17:23,360 --> 00:17:19,850

they listed that the Ely Times newspaper

359

00:17:26,299 --> 00:17:23,370

had covered the story and I contacted

360

00:17:28,410 --> 00:17:26,309

the newspaper and from from then on I

361

00:17:30,300 --> 00:17:28,420

started one thing led to another

362

00:17:33,950 --> 00:17:30,310

and they gave me the names of a couple

363

00:17:37,110 --> 00:17:33,960

witnesses and I went to the Ely area and

364

00:17:39,930 --> 00:17:37,120

I guess the best way to explain it was

365

00:17:43,050 --> 00:17:39,940

because I wasn't with big-time media I

366

00:17:44,640 --> 00:17:43,060

wasn't with there with the TV crew that

367

00:17:46,890 --> 00:17:44,650

people were more willing to talk to me

368

00:17:48,510 --> 00:17:46,900

than they were when the past

369

00:17:52,860 --> 00:17:48,520

investigators have gone through there

370

00:17:54,840 --> 00:17:52,870

and I just managed to talk to the right

371

00:17:58,050 --> 00:17:54,850

people at the right time when I came out

372

00:18:01,380 --> 00:17:58,060

there Julie and then now of course I see

373

00:18:03,990 --> 00:18:01,390

that there's about three or four big UFO

374

00:18:09,450 --> 00:18:04,000

stories in the Ely area ranging from

375

00:18:11,940 --> 00:18:09,460

about a 25 year period Wow so when

376

00:18:15,600 --> 00:18:11,950

people were talking to you would you

377

00:18:19,140 --> 00:18:15,610

also get names of other people to speak

378

00:18:23,250 --> 00:18:19,150

with as you went along oh yeah the Ely

379

00:18:25,290 --> 00:18:23,260

Nevada is a very secluded area it's one

380

00:18:27,300 --> 00:18:25,300

of the largest cities I guess you call

381

00:18:29,430 --> 00:18:27,310

this city I call it a small town in that

382

00:18:32,940 --> 00:18:29,440

area it's about three to four thousand

383

00:18:35,760 --> 00:18:32,950

people and there's no city larger than

384

00:18:38,160 --> 00:18:35,770

50 thousand people for about 200 to 300

385

00:18:40,170 --> 00:18:38,170

miles in any direction you have to go to

386

00:18:42,120 --> 00:18:40,180

either Las Vegas to the south they have

387

00:18:42,870 --> 00:18:42,130

Elko Nevada to the north and then the

388

00:18:46,770 --> 00:18:42,880

Northeast

389

00:18:48,720 --> 00:18:46,780
they have Salt Lake City and the

390

00:18:50,790 --> 00:18:48,730
majority of the residents in Ely Nevada

391

00:18:53,850 --> 00:18:50,800
they don't really talk to outsiders

392

00:18:56,130 --> 00:18:53,860
especially if you're from from the media

393

00:18:59,490 --> 00:18:56,140
like if you're from a TV station or if

394

00:19:01,350 --> 00:18:59,500
you're from I don't know like anywhere

395

00:19:03,720 --> 00:19:01,360
anywhere that's not there basically they

396

00:19:06,150 --> 00:19:03,730
don't really talk to you and I managed

397

00:19:08,130 --> 00:19:06,160
to get in I guess for a lack of words I

398

00:19:10,710 --> 00:19:08,140
managed to get an end with the community

399

00:19:13,220 --> 00:19:10,720
once I started making friends with some

400

00:19:18,510 --> 00:19:13,230
of the people that ran the local museums

401
00:19:21,480 --> 00:19:18,520
mm-hmm Wow so your your your route do

402
00:19:24,690 --> 00:19:21,490
you mind saying your age yeah I'm 26 so

403
00:19:28,290 --> 00:19:24,700
you're 26 and you have a fascination

404
00:19:30,000 --> 00:19:28,300
with this and have you ever had like

405
00:19:33,870 --> 00:19:30,010
someone just you know slam the door on

406
00:19:37,500 --> 00:19:33,880
you so to speak all the time actually

407
00:19:40,170 --> 00:19:37,510
we've had we've had lots of people that

408
00:19:42,120 --> 00:19:40,180
were contacted by the government back in

409
00:19:45,270 --> 00:19:42,130
the 50s 60s and 70s

410
00:19:47,370 --> 00:19:45,280
and for some reason most of them won't

411
00:19:48,480 --> 00:19:47,380
say but some of them have told us and we

412
00:19:50,490 --> 00:19:48,490
could get into that a little bit later

413
00:19:52,200 --> 00:19:50,500

and they were threatened by the

414

00:19:54,090 --> 00:19:52,210

government and they were told that if

415

00:19:55,680 --> 00:19:54,100

they did if they talked about this again

416

00:19:58,740 --> 00:19:55,690

that something bad would happen to them

417

00:20:02,640 --> 00:19:58,750

mm-hmm and I found that out the hard way

418

00:20:06,090 --> 00:20:02,650

in 2014 I actually pressed the issue and

419

00:20:07,440 --> 00:20:06,100

I was visited myself by some entity from

420

00:20:08,970 --> 00:20:07,450

the government that I called them in in

421

00:20:15,029 --> 00:20:08,980

black and we could get into that a

422

00:20:17,279 --> 00:20:15,039

little bit later too but lots of people

423

00:20:19,680 --> 00:20:17,289

lots of I'd say we talked to more people

424

00:20:22,080 --> 00:20:19,690

that are afraid than angry but you do

425

00:20:23,970 --> 00:20:22,090

get the angry people too now when you

426

00:20:25,140 --> 00:20:23,980

yeah we have to remember to talk about

427

00:20:28,320 --> 00:20:25,150

that later because that's really

428

00:20:30,840 --> 00:20:28,330

interesting when you are doing these

429

00:20:34,380 --> 00:20:30,850

investigations do you team up or are you

430

00:20:36,899 --> 00:20:34,390

by yourself solo most of the work is

431

00:20:39,419 --> 00:20:36,909

done by myself but I do have one other

432

00:20:42,630 --> 00:20:39,429

person he's my friend my best friend his

433

00:20:44,220 --> 00:20:42,640

name's actually Nick and he's he'd

434

00:20:46,460 --> 00:20:44,230

actually does ghost hunting with me too

435

00:20:50,880 --> 00:20:46,470

but I pray I go back and forth between

436

00:20:52,860 --> 00:20:50,890

I'd say ghost hunting and UFOs and he's

437

00:20:53,760 --> 00:20:52,870

the main one that does both with me

438

00:20:57,510 --> 00:20:53,770

uh-huh

439

00:20:59,520 --> 00:20:57,520

now just change switching around a

440

00:21:03,870 --> 00:20:59,530

little bit here closer to home for you

441

00:21:08,430 --> 00:21:03,880

I've heard and also a someone that helps

442

00:21:11,460 --> 00:21:08,440

out with the show also lives in Las

443

00:21:14,669 --> 00:21:11,470

Vegas and there are some sightings there

444

00:21:17,940 --> 00:21:14,679

have you yourself ever had a sighting or

445

00:21:22,590 --> 00:21:17,950

have you ever ever investigated sighting

446

00:21:25,020 --> 00:21:22,600

in Las Vegas itself not in Las Vegas

447

00:21:27,480 --> 00:21:25,030

itself but I have gone out to Red Rock

448

00:21:30,419 --> 00:21:27,490

Canyon which is just a little bit I

449

00:21:32,250 --> 00:21:30,429

guess you would call it on the so I'm

450

00:21:34,830 --> 00:21:32,260

trying to think that the directions here

451
00:21:39,120 --> 00:21:34,840
it's on the western side of Las Vegas in

452
00:21:41,270 --> 00:21:39,130
the mountains and one of the strangest

453
00:21:45,840 --> 00:21:41,280
things that I had happened to me I'd say

454
00:21:48,899 --> 00:21:45,850
was probably about 2010 it was me my

455
00:21:50,850 --> 00:21:48,909
brother and our friend Nick and our

456
00:21:52,530 --> 00:21:50,860
other friend Brent we were driving

457
00:21:54,539 --> 00:21:52,540
through Red Rock Canyon actually to

458
00:21:55,830 --> 00:21:54,549
investigate a story that we were

459
00:21:59,130 --> 00:21:55,840
covering

460
00:22:02,700 --> 00:21:59,140
a mass UFO sighting out admits village

461
00:22:04,049 --> 00:22:02,710
of blue diamond and we had gone out

462
00:22:06,840 --> 00:22:04,059
there and we talked to some witnesses

463
00:22:10,350 --> 00:22:06,850

and there was nothing really going on it

464

00:22:13,470 --> 00:22:10,360

was just pitch-black mountains yes put

465

00:22:15,330 --> 00:22:13,480

you a picture with the wilderness and on

466

00:22:19,230 --> 00:22:15,340

the way back to Las Vegas which is about

467

00:22:22,019 --> 00:22:19,240

a 30 minute drive out of town I we went

468

00:22:24,120 --> 00:22:22,029

around this Bend and all of a sudden the

469

00:22:26,820 --> 00:22:24,130

whole entire car lit up the color red

470

00:22:28,560 --> 00:22:26,830

like a fluorescent red color but there

471

00:22:29,820 --> 00:22:28,570

was no other cars on the road besides us

472

00:22:33,960 --> 00:22:29,830

and it was this was in the middle of the

473

00:22:36,419 --> 00:22:33,970

night and there was no explanation for

474

00:22:37,350 --> 00:22:36,429

where this light came from it looked

475

00:22:40,409 --> 00:22:37,360

like it was coming through the

476

00:22:42,029 --> 00:22:40,419

windshield from up above us somewhere or

477

00:22:43,470 --> 00:22:42,039

coming from the mountains somewhere but

478

00:22:44,850 --> 00:22:43,480

there's no town out there just that

479

00:22:46,139 --> 00:22:44,860

small town I was on you had a blue

480

00:22:48,510 --> 00:22:46,149

diamond and that's only about a hundred

481

00:22:50,700 --> 00:22:48,520

people and we had already driven out of

482

00:22:53,789 --> 00:22:50,710

town and had gone deep into the mountain

483

00:22:55,950 --> 00:22:53,799

so that was strange I don't know you

484

00:22:59,430 --> 00:22:55,960

called that UFO phenomenon but I have no

485

00:23:02,310 --> 00:22:59,440

explanation other than something UFO

486

00:23:05,130 --> 00:23:02,320

related to what that could have been hmm

487

00:23:08,639 --> 00:23:05,140

Wow yeah I have a friend who's actually

488

00:23:12,539 --> 00:23:08,649

she was on the home-and-garden network

489

00:23:15,630 --> 00:23:12,549

or something like that but she contacted

490

00:23:17,190 --> 00:23:15,640

me one day and said oh you do a show on

491

00:23:20,190 --> 00:23:17,200

UFOs and then she started to tell me

492

00:23:22,350 --> 00:23:20,200

about her sighting she had and it was

493

00:23:25,590 --> 00:23:22,360

right in Las Vegas itself right in the

494

00:23:28,169 --> 00:23:25,600

city she said she was stepping outside

495

00:23:29,370 --> 00:23:28,179

of her hotel room she said she something

496

00:23:32,100 --> 00:23:29,380

caught her eye and she looked over and

497

00:23:32,940 --> 00:23:32,110

she said it was a huge black triangle

498

00:23:34,560 --> 00:23:32,950

about dusk

499

00:23:36,659 --> 00:23:34,570

it wasn't even she didn't see lights or

500

00:23:39,779 --> 00:23:36,669

anything just the triangle floating

501
00:23:41,430 --> 00:23:39,789
along and I'm just surprised I've never

502
00:23:44,519 --> 00:23:41,440
heard anyone else talk about that

503
00:23:47,190 --> 00:23:44,529
because you know there's so many people

504
00:23:49,529 --> 00:23:47,200
in that city you just oh yeah just think

505
00:23:52,529 --> 00:23:49,539
you'd hear more about triangle sightings

506
00:23:53,909 --> 00:23:52,539
there that all interesting now we have

507
00:23:55,529 --> 00:23:53,919
someone on the message board that just

508
00:23:59,760 --> 00:23:55,539
wants to you to elaborate a little bit

509
00:24:01,860 --> 00:23:59,770
more on the men and black visits so why

510
00:24:04,710 --> 00:24:01,870
don't we just go into that what happened

511
00:24:08,060 --> 00:24:04,720
exactly um yeah I could go into that I

512
00:24:09,900 --> 00:24:08,070
guess the best way to explain it

513
00:24:12,300 --> 00:24:09,910

I've been to the

514

00:24:15,360 --> 00:24:12,310

the area probably about between 10 and

515

00:24:16,710 --> 00:24:15,370

15 times and I also travel around

516

00:24:21,180 --> 00:24:16,720

different states around the country

517

00:24:24,630 --> 00:24:21,190

interviewing witnesses but the main

518

00:24:28,440 --> 00:24:24,640

sighting took place in 2014 but I have

519

00:24:31,260 --> 00:24:28,450

to rewind a little bit to 2008 when I

520

00:24:34,530 --> 00:24:31,270

first start investigating the ely UFO

521

00:24:36,990 --> 00:24:34,540

crash i was looking for information and

522

00:24:39,090 --> 00:24:37,000

I called the hill Air Force Base and I

523

00:24:40,950 --> 00:24:39,100

cut which is in Ogden Utah and I called

524

00:24:46,860 --> 00:24:40,960

Nellis Air Force Base which is in Las

525

00:24:48,510 --> 00:24:46,870

Vegas and I sent in a request I didn't

526

00:24:51,270 --> 00:24:48,520

say I was looking for UFOs at the time

527

00:24:53,490 --> 00:24:51,280

not right off the bat and I got a call

528

00:25:00,810 --> 00:24:53,500

from someone who said that he was a base

529

00:25:02,610 --> 00:25:00,820

historian from Air Force Base and this

530

00:25:05,000 --> 00:25:02,620

guy called me he didn't say his name

531

00:25:07,920 --> 00:25:05,010

which I thought was kind of odd odd and

532

00:25:12,030 --> 00:25:07,930

this man calls and he's he's looking for

533

00:25:14,370 --> 00:25:12,040

me and he says ok well how can I help

534

00:25:16,530 --> 00:25:14,380

you and I said ok well I'm looking for a

535

00:25:19,050 --> 00:25:16,540

Mook I'm doing a story on a strange

536

00:25:20,970 --> 00:25:19,060

aerial crashes that take place in White

537

00:25:24,570 --> 00:25:20,980

Pine County which is where Ealy's at and

538

00:25:27,210 --> 00:25:24,580

the early early 1950s and the guy goes

539

00:25:28,740 --> 00:25:27,220

ok ok and he starts asking for more

540

00:25:31,320 --> 00:25:28,750

information and I tell them ok well I'm

541

00:25:33,510 --> 00:25:31,330

looking for stories that either do or

542

00:25:35,400 --> 00:25:33,520

don't have to do with fatalities but

543

00:25:38,820 --> 00:25:35,410

they are strange and he goes well what

544

00:25:40,830 --> 00:25:38,830

do you mean by strange crashes and I say

545

00:25:42,330 --> 00:25:40,840

well you know something that might have

546

00:25:48,150 --> 00:25:42,340

come from space and you can tell the guy

547

00:25:49,740 --> 00:25:48,160

knew what I was getting at and he you

548

00:25:51,120 --> 00:25:49,750

could tell the guy starts smiling or

549

00:25:53,430 --> 00:25:51,130

he's ready to start laughing and he goes

550

00:25:55,080 --> 00:25:53,440

well those types of crashes are

551
00:25:57,540 --> 00:25:55,090
classified before I could even say

552
00:26:01,320 --> 00:25:57,550
anything about UFOs and finally I told

553
00:26:02,940 --> 00:26:01,330
the guy I was looking for UFOs and he

554
00:26:05,040 --> 00:26:02,950
starts telling giving all of a sudden

555
00:26:06,480 --> 00:26:05,050
his story changes and he says ok well if

556
00:26:10,170 --> 00:26:06,490
you want to if you're looking for

557
00:26:12,090 --> 00:26:10,180
stories like that those those stories

558
00:26:15,720 --> 00:26:12,100
are classified but if you come down to

559
00:26:18,780 --> 00:26:15,730
the base in person we have a logbook

560
00:26:21,090 --> 00:26:18,790
that you're welcome to look at and ice

561
00:26:23,520 --> 00:26:21,100
and I got kind of spooked for the moment

562
00:26:26,400 --> 00:26:23,530
moment and I was telling him ok well

563
00:26:27,630 --> 00:26:26,410

no thanks you've I've already talked to

564

00:26:29,160 --> 00:26:27,640

you long enough you know I'm just gonna

565

00:26:31,260 --> 00:26:29,170

try and get going and the guy kept

566

00:26:35,460 --> 00:26:31,270

trying to have me go down to the base I

567

00:26:36,780 --> 00:26:35,470

don't know why but after the guy found

568

00:26:39,900 --> 00:26:36,790

out that I wasn't gonna go down to the

569

00:26:43,230 --> 00:26:39,910

base his story switched again and he

570

00:26:44,490 --> 00:26:43,240

started asking me about my college Skye

571

00:26:46,500 --> 00:26:44,500

was in college at the time he started

572

00:26:48,000 --> 00:26:46,510

ask me about my college professors and

573

00:26:50,790 --> 00:26:48,010

what I was doing for a living at the

574

00:26:53,520 --> 00:26:50,800

time and just kind of some off-the-wall

575

00:26:54,870 --> 00:26:53,530

questions and I just kind of told the

576

00:26:58,230 --> 00:26:54,880

guy what he wanted to hear I answered

577

00:27:00,090 --> 00:26:58,240

his questions cuz and in that situation

578

00:27:01,800 --> 00:27:00,100

I was like well the military's on the

579

00:27:03,270 --> 00:27:01,810

phone the write down the the base is

580

00:27:07,200 --> 00:27:03,280

literally right down the street I can't

581

00:27:11,160 --> 00:27:07,210

really hang up on this guy so we ended

582

00:27:13,890 --> 00:27:11,170

our conversation and this was our first

583

00:27:15,420 --> 00:27:13,900

or second trip to Ely me and my friend

584

00:27:19,080 --> 00:27:15,430

Nicola were getting ready to go up there

585

00:27:21,810 --> 00:27:19,090

to interviews this woman and she still

586

00:27:23,490 --> 00:27:21,820

lives in the Ely area and we were

587

00:27:26,010 --> 00:27:23,500

supposed to go to Ely I think it was on

588

00:27:29,120 --> 00:27:26,020

a Thursday or a Friday and around Monday

589

00:27:31,770 --> 00:27:29,130

or Tuesday I get a call from this woman

590

00:27:34,620 --> 00:27:31,780

saying oh well thanks for thank you for

591

00:27:36,570 --> 00:27:34,630

doing your interview you guys are really

592

00:27:38,220 --> 00:27:36,580

professional and you guys asked all

593

00:27:39,330 --> 00:27:38,230

kinds of interesting questions and she

594

00:27:42,780 --> 00:27:39,340

starts telling me about this interview

595

00:27:44,700 --> 00:27:42,790

and I'm just sitting there silent

596

00:27:47,640 --> 00:27:44,710

listening to what this woman has to say

597

00:27:49,290 --> 00:27:47,650

and finally when she's done I told her I

598

00:27:51,600 --> 00:27:49,300

was like well that wasn't us where's

599

00:27:54,800 --> 00:27:51,610

we're in Las Vegas we were not supposed

600

00:27:58,710 --> 00:27:54,810

to be there for two more days and she

601
00:28:00,990 --> 00:27:58,720
got really scared and I guess she

602
00:28:03,900 --> 00:28:01,000
thought someone was posing as me and my

603
00:28:06,390 --> 00:28:03,910
friend Nick and whoever it was was

604
00:28:10,050 --> 00:28:06,400
telling her the same information I gave

605
00:28:11,580 --> 00:28:10,060
the base historian on the phone posing

606
00:28:13,490 --> 00:28:11,590
as me talking about my college

607
00:28:16,800 --> 00:28:13,500
professors where I worked

608
00:28:19,380 --> 00:28:16,810
Laer yeah so I don't know who that was

609
00:28:21,150 --> 00:28:19,390
but that had something to do with the

610
00:28:24,390 --> 00:28:21,160
conversation I had with the military

611
00:28:26,850 --> 00:28:24,400
base historian and that was and the

612
00:28:28,200 --> 00:28:26,860
woman got so scared that she hung up the

613
00:28:30,090 --> 00:28:28,210

phone and never talked to us again I

614

00:28:32,910 --> 00:28:30,100

still don't know to this day what her

615

00:28:36,540 --> 00:28:32,920

story was because she won't answer her

616

00:28:37,080 --> 00:28:36,550

phone she won't respond to us but the

617

00:28:42,240 --> 00:28:37,090

mind

618

00:28:44,340 --> 00:28:42,250

is that for some reason early on I found

619

00:28:46,470 --> 00:28:44,350

out that the government or the military

620

00:28:49,380 --> 00:28:46,480

whatever you want to call him they're

621

00:28:52,860 --> 00:28:49,390

still paying attention to this story hmm

622

00:28:58,350 --> 00:28:52,870

all right so how long ago was that that

623

00:29:00,240 --> 00:28:58,360

was about 2009-2010 mm-hmm and things

624

00:29:04,020 --> 00:29:00,250

kind of died down for a little while and

625

00:29:06,360 --> 00:29:04,030

I was on the open minds radio show

626

00:29:09,030 --> 00:29:06,370

actually with alejandro rojas ironically

627

00:29:14,610 --> 00:29:09,040

and i was supposed to take another trip

628

00:29:16,380 --> 00:29:14,620

to Ely this is in 2014 and I guess I

629

00:29:20,400 --> 00:29:16,390

worked the graveyard shift at a casino

630

00:29:23,070 --> 00:29:20,410

here in Las Vegas and I come home from

631

00:29:26,640 --> 00:29:23,080

work anywhere between 10 and 10 o'clock

632

00:29:28,110 --> 00:29:26,650

and noon and on this specific day I was

633

00:29:32,220 --> 00:29:28,120

looking at my blog post from that day

634

00:29:34,620 --> 00:29:32,230

with September 11th 2014 I got home from

635

00:29:38,190 --> 00:29:34,630

work and there was nobody out in the

636

00:29:41,340 --> 00:29:38,200

whole entire neighborhood and I parked

637

00:29:42,840 --> 00:29:41,350

my car in the driveway and I went inside

638

00:29:44,490 --> 00:29:42,850

because I had my girlfriend at the time

639

00:29:46,740 --> 00:29:44,500

I was trying to ask her if she wanted to

640

00:29:48,960 --> 00:29:46,750

go to the grocery store with me saying

641

00:29:53,480 --> 00:29:48,970

of course she didn't want to because

642

00:29:55,950 --> 00:29:53,490

that's just I guess how she was and I

643

00:29:58,530 --> 00:29:55,960

can't him out of the house I looked

644

00:30:01,770 --> 00:29:58,540

around and there was nobody outside and

645

00:30:03,180 --> 00:30:01,780

all of a sudden I I sat in my car opened

646

00:30:04,530 --> 00:30:03,190

the door I sat in the driver's chair and

647

00:30:06,030 --> 00:30:04,540

both of my feet were still hanging out

648

00:30:07,370 --> 00:30:06,040

of the car but I was physically sitting

649

00:30:10,020 --> 00:30:07,380

in the driver's seat

650

00:30:12,600 --> 00:30:10,030

there was a white sedan with blacked-out

651
00:30:15,600 --> 00:30:12,610
windows come screeching around the

652
00:30:17,580 --> 00:30:15,610
corner slams on its brakes almost like

653
00:30:19,380 --> 00:30:17,590
you would see in the movies and it's

654
00:30:21,540 --> 00:30:19,390
blocking me and almost like a like a

655
00:30:23,250 --> 00:30:21,550
t-bone shape but behind the car like I

656
00:30:27,180 --> 00:30:23,260
couldn't noway you call it like I say

657
00:30:29,220 --> 00:30:27,190
play catty and I stood up and the way I

658
00:30:31,920 --> 00:30:29,230
went around the car I walked around the

659
00:30:34,410 --> 00:30:31,930
hood of my car go starting from the

660
00:30:36,150 --> 00:30:34,420
driver's side door walking around the

661
00:30:39,720 --> 00:30:36,160
hood that's coming up coming back up by

662
00:30:41,880 --> 00:30:39,730
the passenger side and as I was coming

663
00:30:43,740 --> 00:30:41,890

around the back side of the car I saw

664

00:30:45,330 --> 00:30:43,750

that there was a white license plate

665

00:30:47,760 --> 00:30:45,340

with silver letters and it said

666

00:30:50,950 --> 00:30:47,770

government or US government official use

667

00:30:54,100 --> 00:30:50,960

only and in my head I remember

668

00:30:55,740 --> 00:30:54,110

I've I really remember myself vividly

669

00:30:59,289 --> 00:30:55,750

thinking oh man this isn't gonna be good

670

00:31:00,880 --> 00:30:59,299

so yeah all of a sudden the guy gets out

671

00:31:03,580 --> 00:31:00,890

of the single man gets out of the

672

00:31:07,720 --> 00:31:03,590

vehicle and he's wearing a military

673

00:31:10,029 --> 00:31:07,730

fatigue almost to look like a soldier

674

00:31:11,649 --> 00:31:10,039

gets out and the first thing he says he

675

00:31:14,230 --> 00:31:11,659

doesn't introduce himself and he doesn't

676
00:31:16,330 --> 00:31:14,240
ask me who I am almost like he knew who

677
00:31:18,370 --> 00:31:16,340
I was and the guy said did you find the

678
00:31:20,769 --> 00:31:18,380
UFO yet this is how we started that

679
00:31:25,240 --> 00:31:20,779
conversation yeah he said did you find

680
00:31:27,460 --> 00:31:25,250
it in the UFO yet and I answered no and

681
00:31:28,779 --> 00:31:27,470
I paused him and I was like not yet

682
00:31:30,880 --> 00:31:28,789
because in my head I'm trying to put

683
00:31:32,710 --> 00:31:30,890
this together as what was going on and

684
00:31:34,720 --> 00:31:32,720
the guy said well I heard that you're

685
00:31:37,960 --> 00:31:34,730
looking for him did you find him

686
00:31:40,180 --> 00:31:37,970
and I got kind of sarcastic at that

687
00:31:41,649 --> 00:31:40,190
point and I told the man that I know I'm

688
00:31:43,419 --> 00:31:41,659

headed to the grocery store at the

689

00:31:47,169 --> 00:31:43,429

moment and I didn't want to talk about

690

00:31:50,139 --> 00:31:47,179

it and there was kind of a pause there

691

00:31:51,669 --> 00:31:50,149

for a minute and the man says he starts

692

00:31:54,909 --> 00:31:51,679

getting back in his car and he says tell

693

00:31:56,440 --> 00:31:54,919

your friend Nick that I said hi and he

694

00:31:58,210 --> 00:31:56,450

gets back in the car and drives about

695

00:32:01,299 --> 00:31:58,220

two or three houses down and stops in

696

00:32:03,940 --> 00:32:01,309

front of our mailbox and I thought this

697

00:32:05,409 --> 00:32:03,950

was kind of bizarre and this all

698

00:32:07,600 --> 00:32:05,419

happened so quickly at the at the point

699

00:32:09,130 --> 00:32:07,610

at that point in time that I didn't

700

00:32:10,750 --> 00:32:09,140

really have any chance ask this man any

701
00:32:14,560 --> 00:32:10,760
questions so he drove a couple houses

702
00:32:16,299 --> 00:32:14,570
down and stopped I get in my car and I

703
00:32:18,010 --> 00:32:16,309
pull out of our neighborhood and he's

704
00:32:20,169 --> 00:32:18,020
books like he's writing something down

705
00:32:25,260 --> 00:32:20,179
on like a notepad or a clipboard in the

706
00:32:28,090 --> 00:32:25,270
driver's seat with the sitting there so

707
00:32:29,980 --> 00:32:28,100
close to my house there's a stop sign

708
00:32:32,590 --> 00:32:29,990
and once you pass through the stop sign

709
00:32:33,820 --> 00:32:32,600
there's a u-haul business and then

710
00:32:36,610 --> 00:32:33,830
there's a bridge you have to go over to

711
00:32:38,350 --> 00:32:36,620
get to the grocery store I got to the

712
00:32:40,149 --> 00:32:38,360
stop sign and there's no cars there at

713
00:32:42,789 --> 00:32:40,159

all and once I passed through the stop

714

00:32:45,460 --> 00:32:42,799

sign I passed the u-haul place a white

715

00:32:47,380 --> 00:32:45,470

SUV with blacked-out windows in the same

716

00:32:50,350 --> 00:32:47,390

coat the same license plate pulls out of

717

00:32:53,169 --> 00:32:50,360

this u-haul business and follows me all

718

00:32:55,539 --> 00:32:53,179

the way to the grocery store and at this

719

00:32:56,799 --> 00:32:55,549

point time I was thinking uh-oh this is

720

00:32:59,019 --> 00:32:56,809

the kind of thing you hear about when

721

00:33:01,029 --> 00:32:59,029

you read these UFO websites or you watch

722

00:33:04,320 --> 00:33:01,039

these documentaries or movies I thought

723

00:33:05,580 --> 00:33:04,330

that someone was gonna either try to

724

00:33:06,690 --> 00:33:05,590

I know if they were gonna try to arrest

725

00:33:10,110 --> 00:33:06,700

me or if they're gonna try to

726

00:33:11,250 --> 00:33:10,120

interrogate me or something so I went in

727

00:33:12,960 --> 00:33:11,260

the grocer I went to the grocery store

728

00:33:14,759 --> 00:33:12,970

and I parked in the handicapped spot in

729

00:33:17,880 --> 00:33:14,769

the front in case someone was gonna

730

00:33:19,680 --> 00:33:17,890

confront me in that SUV and they stopped

731

00:33:23,399 --> 00:33:19,690

they almost went to a stop almost like a

732

00:33:27,799 --> 00:33:23,409

California Sun go down and of course

733

00:33:29,880 --> 00:33:27,809

that's it's a since it's a grocery store

734

00:33:31,200 --> 00:33:29,890

all right you guys they're sorry I said

735

00:33:33,029 --> 00:33:31,210

my microphone wasn't detected for a

736

00:33:36,180 --> 00:33:33,039

second there yeah yeah I keep going yeah

737

00:33:38,490 --> 00:33:36,190

yeah so anyway so since I pulled in the

738

00:33:39,539 --> 00:33:38,500

handicapped spot since it's a grocery

739

00:33:42,120 --> 00:33:39,549

store there's all kinds of people

740

00:33:44,570 --> 00:33:42,130

walking around nobody got out of the SUV

741

00:33:48,840 --> 00:33:44,580

they just kept on going

742

00:33:51,240 --> 00:33:48,850

so things at this point are kind of

743

00:33:52,799 --> 00:33:51,250

building up I don't know who the soldier

744

00:33:56,879 --> 00:33:52,809

was and he said tell your friend Nick

745

00:33:58,620 --> 00:33:56,889

that I said hi first thing I did I will

746

00:34:00,210 --> 00:33:58,630

schuester I called my friend Nick I was

747

00:34:01,860 --> 00:34:00,220

going to tell him some man is gonna come

748

00:34:05,549 --> 00:34:01,870

to your house or some guy is looking for

749

00:34:09,629 --> 00:34:05,559

you in a military outfit well I called

750

00:34:12,389 --> 00:34:09,639

him and he didn't answer his phone

751
00:34:14,639 --> 00:34:12,399
and I called him and I called him and I

752
00:34:16,589 --> 00:34:14,649
didn't hear from Nick for about a year

753
00:34:19,379 --> 00:34:16,599
and Nick was my best friend throughout

754
00:34:21,540 --> 00:34:19,389
all my childhood and it took him about

755
00:34:24,119 --> 00:34:21,550
I'd say I said about a year year and a

756
00:34:27,960 --> 00:34:24,129
half till he came back around but during

757
00:34:31,440 --> 00:34:27,970
that year I found out that the military

758
00:34:33,960 --> 00:34:31,450
or somebody similar to the military like

759
00:34:36,869 --> 00:34:33,970
I would think this man was they came and

760
00:34:39,480 --> 00:34:36,879
visited him before they came to my house

761
00:34:42,500 --> 00:34:39,490
and at that point in time he was trying

762
00:34:45,359 --> 00:34:42,510
to get into the military himself and

763
00:34:47,010 --> 00:34:45,369

they told him that he was never going to

764

00:34:49,710 --> 00:34:47,020

get into the military he was never gonna

765

00:34:52,619 --> 00:34:49,720

be able to graduate college if he

766

00:34:54,599 --> 00:34:52,629

continued looking for the UFOs and they

767

00:34:56,399 --> 00:34:54,609

told him that he would never be able to

768

00:34:59,790 --> 00:34:56,409

get into the military or he basically

769

00:35:01,290 --> 00:34:59,800

never have a career and this scared Nick

770

00:35:02,700 --> 00:35:01,300

they didn't threaten his life or

771

00:35:06,870 --> 00:35:02,710

anything they just threatened his career

772

00:35:09,150 --> 00:35:06,880

I guess in his job in his college but to

773

00:35:10,890 --> 00:35:09,160

this day he still won't tell me what the

774

00:35:12,900 --> 00:35:10,900

person told to him and he still won't

775

00:35:15,359 --> 00:35:12,910

acknowledge that they talked to him the

776

00:35:17,900 --> 00:35:15,369

only reason I know is that some mutual

777

00:35:20,029 --> 00:35:17,910

friends had told me and my brother

778

00:35:21,289 --> 00:35:20,039

that this had happened Nick to this day

779

00:35:21,970 --> 00:35:21,299

he gets really quiet and won't talk

780

00:35:24,650 --> 00:35:21,980

about it

781

00:35:29,750 --> 00:35:24,660

so I don't exactly know what that was

782

00:35:33,529 --> 00:35:29,760

all about why this is stuff you kind of

783

00:35:35,180 --> 00:35:33,539

hear about but I think you're probably

784

00:35:39,380 --> 00:35:35,190

one of the first people I've talked to

785

00:35:41,240 --> 00:35:39,390

this had in an encounter from suppose I

786

00:35:44,240 --> 00:35:41,250

suppose a government official of some

787

00:35:47,359 --> 00:35:44,250

kind about someone that's a concerned

788

00:35:49,940 --> 00:35:47,369

enough about a UFO case that they

789

00:35:53,660 --> 00:35:49,950

actually want you to turn away from it

790

00:35:55,819 --> 00:35:53,670

yeah and this is a historical case yes

791

00:35:57,289 --> 00:35:55,829

this is this the case specifically that

792

00:35:59,890 --> 00:35:57,299

we're talking about there two of them

793

00:36:03,230 --> 00:35:59,900

ones from 1952 the other one is from

794

00:36:05,390 --> 00:36:03,240

1964 and those one of those two is the

795

00:36:07,849 --> 00:36:05,400

one that got the government excited

796

00:36:09,079 --> 00:36:07,859

about what we were looking for and

797

00:36:11,420 --> 00:36:09,089

that's what was causing them to come

798

00:36:14,870 --> 00:36:11,430

over here unbelievable well we're gonna

799

00:36:18,380 --> 00:36:14,880

talk about the July 7th 1952 saucer

800

00:36:20,990 --> 00:36:18,390

collision over northern Utah and our to

801
00:36:24,470 --> 00:36:21,000
and that you know just in a few hours

802
00:36:30,049 --> 00:36:24,480
that's coming up on the 64th anniversary

803
00:36:31,339 --> 00:36:30,059
of that just a couple of hours so one of

804
00:36:35,120 --> 00:36:31,349
the questions that popped up on the

805
00:36:37,609 --> 00:36:35,130
message board was someone want to know

806
00:36:42,289 --> 00:36:37,619
did the person that actually got out of

807
00:36:44,930 --> 00:36:42,299
the white SUV or whatever it was or the

808
00:36:47,390 --> 00:36:44,940
car I guess it was they look peculiar or

809
00:36:49,130 --> 00:36:47,400
was it just a regular person it just

810
00:36:50,599 --> 00:36:49,140
looked like a regular person I didn't

811
00:36:52,370 --> 00:36:50,609
see he didn't have any guns or anything

812
00:36:53,599 --> 00:36:52,380
that I saw he's on him it might have

813
00:36:55,609 --> 00:36:53,609

been in the car but I didn't see any

814

00:37:01,089 --> 00:36:55,619

guns on this person and they're just

815

00:37:05,690 --> 00:37:03,319

something interesting that kind of links

816

00:37:09,049 --> 00:37:05,700

the story together about a year later

817

00:37:10,640 --> 00:37:09,059

which was in August of 2015 I was coming

818

00:37:12,799 --> 00:37:10,650

home from work and I got a call from my

819

00:37:14,660 --> 00:37:12,809

brother saying that there was an white

820

00:37:16,940 --> 00:37:14,670

unmarked cargo van with blacked-out

821

00:37:18,289 --> 00:37:16,950

windows in the government license plate

822

00:37:21,980 --> 00:37:18,299

I was telling you about sitting out

823

00:37:24,980 --> 00:37:21,990

front of our house and people always ask

824

00:37:26,569 --> 00:37:24,990

me okay Jeremy why don't you take a

825

00:37:29,240 --> 00:37:26,579

picture of the man in the uniform or

826

00:37:31,400 --> 00:37:29,250

take a picture of the sedan because of

827

00:37:33,980 --> 00:37:31,410

course I to this day I regret

828

00:37:35,299 --> 00:37:33,990

taking the guys picture and at the time

829

00:37:36,710 --> 00:37:35,309

I was kind of afraid wondering what

830

00:37:38,299 --> 00:37:36,720

would have happened if I did take his

831

00:37:41,210 --> 00:37:38,309

picture out in the open with my camera

832

00:37:42,890 --> 00:37:41,220

phone so I was doing interviews and

833

00:37:44,960 --> 00:37:42,900

people always ask me why didn't take a

834

00:37:47,720 --> 00:37:44,970

picture well this time I came around the

835

00:37:49,249 --> 00:37:47,730

corner coming home from work and when I

836

00:37:51,140 --> 00:37:49,259

came around the corner whoever was

837

00:37:53,870 --> 00:37:51,150

sitting in the cargo van saw me pulling

838

00:37:55,309 --> 00:37:53,880

into the driveway and they started

839

00:37:56,809 --> 00:37:55,319

pulling off like they didn't want me to

840

00:37:58,249 --> 00:37:56,819

see them or they didn't want me to

841

00:38:00,170 --> 00:37:58,259

approach them and as they were driving

842

00:38:02,029 --> 00:38:00,180

off I actually did take a picture of

843

00:38:07,549 --> 00:38:02,039

their vehicle driving away with my

844

00:38:09,769 --> 00:38:07,559

camera phone hmm yeah and I was driving

845

00:38:11,839 --> 00:38:09,779

the car but I sent you the picture and I

846

00:38:13,490 --> 00:38:11,849

have a picture of the vehicle on a

847

00:38:16,460 --> 00:38:13,500

couple different places on the internet

848

00:38:17,420 --> 00:38:16,470

Oh someone wants to know in the message

849

00:38:19,670 --> 00:38:17,430

board by the way if you're listening

850

00:38:22,730 --> 00:38:19,680

live you can jump over to podcast UFO

851
00:38:25,700 --> 00:38:22,740
comm and go into the message board if

852
00:38:28,519 --> 00:38:25,710
you're listening on PSN radio you can

853
00:38:31,069 --> 00:38:28,529
also go into their Skype chat and I will

854
00:38:32,539 --> 00:38:31,079
see a message if it comes up matt has a

855
00:38:36,109 --> 00:38:32,549
question he wanted to know if your

856
00:38:39,380 --> 00:38:36,119
girlfriend was ever confronted or talk

857
00:38:41,029 --> 00:38:39,390
to her or intimidated um not that I know

858
00:38:43,999 --> 00:38:41,039
of because I mean I have a new

859
00:38:45,890 --> 00:38:44,009
girlfriend now but that girlfriend yeah

860
00:38:49,329 --> 00:38:45,900
she don't want to go to the grocery

861
00:38:51,680 --> 00:38:49,339
store so you get rid of her right yeah I

862
00:38:53,210 --> 00:38:51,690
guess she stayed in the house the whole

863
00:38:55,249 --> 00:38:53,220

time I was confronted outside and she

864

00:38:57,890 --> 00:38:55,259

said nobody that she knows of came back

865

00:39:00,890 --> 00:38:57,900

to the house but since I took the

866

00:39:02,539 --> 00:39:00,900

picture of the vehicle I have heard from

867

00:39:05,029 --> 00:39:02,549

my brother at least on one or two other

868

00:39:09,079 --> 00:39:05,039

occasions that the vehicles were outside

869

00:39:10,549 --> 00:39:09,089

the house well there was one time one

870

00:39:12,200 --> 00:39:10,559

time I actually came home from work and

871

00:39:13,759 --> 00:39:12,210

there was someone that was posing as a

872

00:39:16,999 --> 00:39:13,769

they said that they were a realtor

873

00:39:18,740 --> 00:39:17,009

asking about our house and what was kind

874

00:39:20,930 --> 00:39:18,750

of peculiar about it is again we were

875

00:39:22,460 --> 00:39:20,940

getting ready back to Ely and they're

876

00:39:23,990 --> 00:39:22,470

asking us questions about selling our

877

00:39:25,730 --> 00:39:24,000

house and we're renting our house so I

878

00:39:28,640 --> 00:39:25,740

would have no idea about that

879

00:39:30,230 --> 00:39:28,650

and when they were done talking to me

880

00:39:31,700 --> 00:39:30,240

they walked across the street and got in

881

00:39:35,059 --> 00:39:31,710

their car and of course there was a

882

00:39:37,789 --> 00:39:35,069

white sedan a black okay my son's played

883

00:39:39,470 --> 00:39:37,799

again the guy got back in the car that

884

00:39:42,019 --> 00:39:39,480

was that was that kind of freaked me out

885

00:39:43,670 --> 00:39:42,029

because there that person was just

886

00:39:44,930 --> 00:39:43,680

dressed in a suit and tie like a normal

887

00:39:46,460 --> 00:39:44,940

person but

888

00:39:48,130 --> 00:39:46,470

again though they did get in a car with

889

00:39:51,350 --> 00:39:48,140

a strange license plate and the

890

00:39:53,270 --> 00:39:51,360

blacked-out windows you know look well

891

00:39:56,840 --> 00:39:53,280

let's look at this logically or try to

892

00:39:59,510 --> 00:39:56,850

anyway I mean a few times things make

893

00:40:06,320 --> 00:39:59,520

logic when it comes to UFOs but why

894

00:40:09,980 --> 00:40:06,330

would they expend this effort and in

895

00:40:11,450 --> 00:40:09,990

like you know searching you out talking

896

00:40:14,480 --> 00:40:11,460

to you

897

00:40:16,480 --> 00:40:14,490

semi threatening Nick in all this why

898

00:40:19,820 --> 00:40:16,490

would they expend that type of energy

899

00:40:22,550 --> 00:40:19,830

for an old case what why would you what

900

00:40:25,880 --> 00:40:22,560

did you come up with well the best

901
00:40:28,760 --> 00:40:25,890
explanation that I have is I got onto

902
00:40:33,080 --> 00:40:28,770
the case or cases in this in this sense

903
00:40:35,450 --> 00:40:33,090
around 2008 and I know that there was

904
00:40:37,730 --> 00:40:35,460
people before me in the 1970s and the

905
00:40:40,280 --> 00:40:37,740
nineties in the early 2000s that tried

906
00:40:42,500 --> 00:40:40,290
to cover the cases but they couldn't

907
00:40:45,800 --> 00:40:42,510
find any new information out they kind

908
00:40:49,160 --> 00:40:45,810
of reached a bunch of dead ends and this

909
00:40:52,100 --> 00:40:49,170
includes George Knapp like I said had

910
00:40:53,630 --> 00:40:52,110
Eddie Pierce I know there's a group I'm

911
00:40:58,240 --> 00:40:53,640
trying to what they're called the to

912
00:41:03,590 --> 00:41:02,000
willard mcintyre mcintyre i he's

913
00:41:04,940 --> 00:41:03,600

actually the original investigator of

914

00:41:06,860 --> 00:41:04,950

the case and i got in touch with him

915

00:41:09,260 --> 00:41:06,870

I'll get into that in a minute but so

916

00:41:11,270 --> 00:41:09,270

there's a bunch of people tried to get

917

00:41:13,370 --> 00:41:11,280

into this but no one could find any new

918

00:41:15,350 --> 00:41:13,380

information or much information besides

919

00:41:17,090 --> 00:41:15,360

what was on the internet I came along

920

00:41:19,850 --> 00:41:17,100

like I said and I started talking to new

921

00:41:24,560 --> 00:41:19,860

witnesses who those people had never

922

00:41:25,880 --> 00:41:24,570

talked to and I was openly reopening the

923

00:41:27,440 --> 00:41:25,890

case I guess you could say so I was

924

00:41:30,050 --> 00:41:27,450

doing interviews and I was putting ads

925

00:41:33,230 --> 00:41:30,060

out on the newspapers out there you know

926
00:41:34,220 --> 00:41:33,240
that sort of thing well you put some ads

927
00:41:36,950 --> 00:41:34,230
in the newspaper

928
00:41:39,920 --> 00:41:36,960
I put ads in the ely newspaper the las

929
00:41:42,110 --> 00:41:39,930
vegas review-journal i was actually

930
00:41:46,390 --> 00:41:42,120
featured in the ely news pay the Daily

931
00:41:54,320 --> 00:41:49,160
it's really started taking off once I

932
00:41:55,670 --> 00:41:54,330
was contacted by an individual who says

933
00:41:58,640 --> 00:41:55,680
that they were actually loked

934
00:42:01,759 --> 00:41:58,650
that they were actually on on location

935
00:42:03,859 --> 00:42:01,769
when the UFO had crashed and that they

936
00:42:07,059 --> 00:42:03,869
were actually threatened by the

937
00:42:09,950 --> 00:42:07,069
government back in the winter of 1952

938
00:42:11,539 --> 00:42:09,960

and if you'd like I could get started

939

00:42:13,549 --> 00:42:11,549

with that story yeah yeah sure

940

00:42:17,599 --> 00:42:13,559

all right well when you look up to Ely

941

00:42:19,940 --> 00:42:17,609

we type in Ely UFO crash besides the

942

00:42:23,630 --> 00:42:19,950

information that I found the most that

943

00:42:26,059 --> 00:42:23,640

you'll find is a date and it's in the I

944

00:42:28,880 --> 00:42:26,069

think it's August 12th 1952 is what

945

00:42:33,380 --> 00:42:28,890

comes up and you just see that says 16

946

00:42:35,539 --> 00:42:33,390

bodies Ely Nevada well the story goes

947

00:42:37,880 --> 00:42:35,549

this popular story that you see on the

948

00:42:39,769 --> 00:42:37,890

internet goes during the night shift in

949

00:42:42,650 --> 00:42:39,779

the Robinson copper mine which is right

950

00:42:46,220 --> 00:42:42,660

outside of Ely Nevada it's 12 miles away

951
00:42:48,829 --> 00:42:46,230
and the city is called Ruth Ruth Nevada

952
00:42:50,989 --> 00:42:48,839
was built as a company town for this

953
00:42:52,880 --> 00:42:50,999
massive copper mine it's the second or

954
00:42:55,400 --> 00:42:52,890
third biggest copper mine in North

955
00:42:59,529 --> 00:42:55,410
America and it was owned by the

956
00:43:01,519 --> 00:42:59,539
Kennecott corporation at the time so

957
00:43:05,599 --> 00:43:01,529
during the night shift there was a

958
00:43:08,210 --> 00:43:05,609
security guard who told all the locals

959
00:43:10,609 --> 00:43:08,220
that he saw a flaming object crash into

960
00:43:13,269 --> 00:43:10,619
the one of the mining pits in this

961
00:43:15,710 --> 00:43:13,279
copper mine during the night shift and

962
00:43:17,359 --> 00:43:15,720
he doesn't say exactly what this object

963
00:43:21,650 --> 00:43:17,369

looked like he says it was a glowing

964

00:43:23,390 --> 00:43:21,660

flame and he states that he was told

965

00:43:26,029 --> 00:43:23,400

never to talk about this again and he

966

00:43:29,630 --> 00:43:26,039

was sworn to secrecy and he took this

967

00:43:32,150 --> 00:43:29,640

story to his grave that was the first

968

00:43:33,880 --> 00:43:32,160

story that that's when the only stories

969

00:43:36,559 --> 00:43:33,890

actually when I first came to Ely I

970

00:43:38,210 --> 00:43:36,569

started telling the story to different

971

00:43:40,640 --> 00:43:38,220

individuals and they go oh yeah well

972

00:43:42,079 --> 00:43:40,650

you're looking for Pete and I go okay

973

00:43:45,109 --> 00:43:42,089

well okay now I get this guy's name his

974

00:43:48,079 --> 00:43:45,119

name's Pete well I started asking around

975

00:43:52,039 --> 00:43:48,089

about Pete and I said I've run into a

976

00:43:54,380 --> 00:43:52,049

couple other individuals one guy he

977

00:43:56,930 --> 00:43:54,390

actually is the grandson of someone that

978

00:43:58,309 --> 00:43:56,940

worked back then and he says that his

979

00:44:00,680 --> 00:43:58,319

version of the story was that in the

980

00:44:03,650 --> 00:44:00,690

winter of 1952 we didn't have an exact

981

00:44:05,989 --> 00:44:03,660

date he says a glowing object which

982

00:44:08,630 --> 00:44:05,999

wasn't on fire I've asked him he says

983

00:44:10,519 --> 00:44:08,640

this was not on fire came crashing into

984

00:44:12,380 --> 00:44:10,529

the on the edge of one of the mining

985

00:44:13,640 --> 00:44:12,390

pits because

986

00:44:15,170 --> 00:44:13,650

on the internet it sounds like this

987

00:44:18,920 --> 00:44:15,180

thing crashed in one of the pits this

988

00:44:20,420 --> 00:44:18,930

thing according to this this guy store

989

00:44:23,029 --> 00:44:20,430

he says I crash on the edge of one of

990

00:44:24,829 --> 00:44:23,039

the mining pits I'm not sure if you guys

991

00:44:27,950 --> 00:44:24,839

are familiar with mine with the way

992

00:44:30,079 --> 00:44:27,960

mines work and the terminology but the

993

00:44:32,980 --> 00:44:30,089

exact word is the high wall the high

994

00:44:34,970 --> 00:44:32,990

wall is the tallest point in a mine

995

00:44:36,710 --> 00:44:34,980

before you start taking the little

996

00:44:39,890 --> 00:44:36,720

roundabout trails I go down into the

997

00:44:41,599 --> 00:44:39,900

bottom and I don't exactly know where

998

00:44:43,640 --> 00:44:41,609

the security guard claimed he was when

999

00:44:45,650 --> 00:44:43,650

he saw this but this person the new

1000

00:44:47,750 --> 00:44:45,660

person I was mentioning he was actually

1001
00:44:50,930 --> 00:44:47,760
working in the mine in this pit when it

1002
00:44:52,549 --> 00:44:50,940
happened and he says that this thing

1003
00:44:54,730 --> 00:44:52,559
crashed into a snow bank they thought

1004
00:44:56,990 --> 00:44:54,740
that a small plane had crashed and

1005
00:44:59,950 --> 00:44:57,000
whoever was in charge of the mine at the

1006
00:45:02,450 --> 00:44:59,960
time had called emergency services and

1007
00:45:05,809 --> 00:45:02,460
whoever that was I think had called the

1008
00:45:07,279 --> 00:45:05,819
military so this object comes down from

1009
00:45:09,829 --> 00:45:07,289
the sky and it crashes into a snow bank

1010
00:45:13,279 --> 00:45:09,839
he says that the object according to his

1011
00:45:16,460 --> 00:45:13,289
grandfather it wasn't damaged like there

1012
00:45:17,900 --> 00:45:16,470
was no rips in the metal there was no

1013
00:45:20,390 --> 00:45:17,910

broken glass or anything it was just

1014

00:45:25,970 --> 00:45:20,400

kind of sitting there and it was glowing

1015

00:45:27,740 --> 00:45:25,980

and while this thing was glowing I guess

1016

00:45:29,630 --> 00:45:27,750

eventually the police arrived at the

1017

00:45:31,849 --> 00:45:29,640

main entrance of the mine which is right

1018

00:45:33,289 --> 00:45:31,859

on the edge of the town of Ruth like I

1019

00:45:37,160 --> 00:45:33,299

said because Ruth is literally built

1020

00:45:39,049 --> 00:45:37,170

right next to this copper mine and the

1021

00:45:40,910 --> 00:45:39,059

the police got there and they didn't

1022

00:45:42,470 --> 00:45:40,920

want they didn't want the civilians

1023

00:45:44,779 --> 00:45:42,480

seeing this glowing object so they

1024

00:45:47,569 --> 00:45:44,789

started making the miners leave at the

1025

00:45:49,910 --> 00:45:47,579

main entrance of the mine well while the

1026

00:45:52,099 --> 00:45:49,920

people were well the workers and the

1027

00:45:53,990 --> 00:45:52,109

people the civilians are being shuffled

1028

00:45:55,549 --> 00:45:54,000

away from the area the military had

1029

00:45:58,579 --> 00:45:55,559

actually entered the back side of the

1030

00:46:00,170 --> 00:45:58,589

mine and they were actually coming from

1031

00:46:02,329 --> 00:46:00,180

Ely themselves they used to have a

1032

00:46:06,289 --> 00:46:02,339

National Guard unit there up until the

1033

00:46:09,140 --> 00:46:06,299

early 1980s and they were actually

1034

00:46:12,049 --> 00:46:09,150

reinforced eventually by Hill Air Force

1035

00:46:15,380 --> 00:46:12,059

Base in Ogden Utah and they picked this

1036

00:46:18,019 --> 00:46:15,390

object up while the media was eventually

1037

00:46:19,789 --> 00:46:18,029

coming to the area the story that the

1038

00:46:21,200 --> 00:46:19,799

mining people were told was that this

1039

00:46:24,589 --> 00:46:21,210

small plane had crashed and they were

1040

00:46:26,270 --> 00:46:24,599

sticking to that story and that's people

1041

00:46:27,710 --> 00:46:26,280

that are skeptical of this they

1042

00:46:31,820 --> 00:46:27,720

still think to this day that this was a

1043

00:46:34,400 --> 00:46:31,830

small plane that had crashed and the

1044

00:46:36,740 --> 00:46:34,410

military eventually picked up the the

1045

00:46:38,000 --> 00:46:36,750

bulk of the craft and I don't know if

1046

00:46:40,040 --> 00:46:38,010

there was little pieces laying in the

1047

00:46:41,900 --> 00:46:40,050

snow they don't really say but the bulk

1048

00:46:44,390 --> 00:46:41,910

of the craft which is spherical shaped

1049

00:46:47,420 --> 00:46:44,400

and metallic silver silver looking with

1050

00:46:49,460 --> 00:46:47,430

no windows was picked up and put on to a

1051
00:46:53,260 --> 00:46:49,470
flatbed trucks and it was driven out the

1052
00:46:56,360 --> 00:46:53,270
back side of the mine while all the I

1053
00:46:58,250 --> 00:46:56,370
guess you call fuss all the fuss was

1054
00:46:59,870 --> 00:46:58,260
going on at the main entrance they went

1055
00:47:02,750 --> 00:46:59,880
out the back entrance which was not

1056
00:47:04,940 --> 00:47:02,760
known by very many people and they drove

1057
00:47:09,200 --> 00:47:04,950
it to Ogden their Hill Air Force Base in

1058
00:47:11,150 --> 00:47:09,210
Ogden Utah and I guess nowadays you

1059
00:47:13,370 --> 00:47:11,160
wouldn't even know where this UFO crash

1060
00:47:16,430 --> 00:47:13,380
site was unless someone that worked

1061
00:47:18,320 --> 00:47:16,440
there told you where it was and nowadays

1062
00:47:20,630 --> 00:47:18,330
there's not very many people that even

1063
00:47:22,990 --> 00:47:20,640

believe in the story not to mention know

1064

00:47:26,690 --> 00:47:23,000

where this thing supposedly happened

1065

00:47:29,120 --> 00:47:26,700

something interesting though there was a

1066

00:47:29,750 --> 00:47:29,130

project run by the by the US Air Force

1067

00:47:32,690 --> 00:47:29,760

called

1068

00:47:34,790 --> 00:47:32,700

Operation high range operation or

1069

00:47:38,510 --> 00:47:34,800

project high range sorry worded that

1070

00:47:41,510 --> 00:47:38,520

wrong project high range was was started

1071

00:47:43,780 --> 00:47:41,520

in 1955 and the purpose of this project

1072

00:47:46,220 --> 00:47:43,790

was to attract the x-15 rocket plane

1073

00:47:48,290 --> 00:47:46,230

there was three or four different

1074

00:47:50,900 --> 00:47:48,300

locations ranging from Palmdale

1075

00:47:54,290 --> 00:47:50,910

California Gulf at Edwards Air Force

1076

00:47:56,030 --> 00:47:54,300

Base going up to Beatty Nevada going to

1077

00:48:00,410 --> 00:47:56,040

Ely then it goes up to Hill Air Force

1078

00:48:02,300 --> 00:48:00,420

Base so the planes would take off and go

1079

00:48:03,830 --> 00:48:02,310

they they fly really fast through this

1080

00:48:08,090 --> 00:48:03,840

straight line just diagonal line and

1081

00:48:10,760 --> 00:48:08,100

they would track them so the cover story

1082

00:48:11,990 --> 00:48:10,770

was that they built this site on top of

1083

00:48:17,660 --> 00:48:12,000

the mountain originally to attract the

1084

00:48:21,230 --> 00:48:17,670

x-15 rocket plane and in 1979 up until

1085

00:48:24,410 --> 00:48:21,240

1979 the US Air Force ran this site and

1086

00:48:27,080 --> 00:48:24,420

then eventually this site was given over

1087

00:48:29,600 --> 00:48:27,090

to NASA and then NASA ended up running

1088

00:48:33,560 --> 00:48:29,610

it until the 90s and then they claimed

1089

00:48:35,060 --> 00:48:33,570

that they gave up the site well I talked

1090

00:48:37,700 --> 00:48:35,070

to a couple people that had worked at

1091

00:48:39,980 --> 00:48:37,710

the site throughout the 1970s and 80s

1092

00:48:41,810 --> 00:48:39,990

and they said the purpose of the site

1093

00:48:44,260 --> 00:48:41,820

after the x-15 rocket plane was done

1094

00:48:46,910 --> 00:48:44,270

being tested was to track missiles and

1095

00:48:51,859 --> 00:48:46,920

unidentified flying objects like UFOs

1096

00:48:53,780 --> 00:48:51,869

and if you notice there's a couple of

1097

00:48:55,910 --> 00:48:53,790

different UFO crashes around the country

1098

00:48:57,290 --> 00:48:55,920

that I know of at least I know people

1099

00:48:58,970 --> 00:48:57,300

claimed that there was a similar

1100

00:49:00,950 --> 00:48:58,980

tracking station was built close to

1101

00:49:03,290 --> 00:49:00,960

Roswell

1102

00:49:07,490 --> 00:49:03,300

I know Aztec New Mexico there's a

1103

00:49:09,680 --> 00:49:07,500

similar a similar radar tower and then I

1104

00:49:11,810 --> 00:49:09,690

was also talking to Harry drew who did

1105

00:49:13,579 --> 00:49:11,820

the Kingman Nevada Air the Kingman

1106

00:49:16,760 --> 00:49:13,589

Nevada UFO crash and I know they have

1107

00:49:18,290 --> 00:49:16,770

another tracking station similar to that

1108

00:49:22,250 --> 00:49:18,300

was built there years after that

1109

00:49:24,740 --> 00:49:22,260

happened so for some reason one reason

1110

00:49:26,930 --> 00:49:24,750

or another the US military was thinking

1111

00:49:29,150 --> 00:49:26,940

that if a UFO had crashed in an area

1112

00:49:30,740 --> 00:49:29,160

that they would either be back in the

1113

00:49:32,630 --> 00:49:30,750

future at some point in time or that

1114

00:49:41,390 --> 00:49:32,640

there would be other UFO sightings in

1115

00:49:43,400 --> 00:49:41,400

that same exact area so nowadays if you

1116

00:49:44,960 --> 00:49:43,410

the base is now abandoned on top of the

1117

00:49:46,339 --> 00:49:44,970

mountain you could go up there it's and

1118

00:49:48,260 --> 00:49:46,349

there's still science and you could be

1119

00:49:50,450 --> 00:49:48,270

shot for going up there or that you'd be

1120

00:49:53,300 --> 00:49:50,460

arrested on the spot the the old vintage

1121

00:49:55,010 --> 00:49:53,310

signs and I know not that they're not

1122

00:49:56,420 --> 00:49:55,020

that very many people go up to the site

1123

00:49:58,940 --> 00:49:56,430

nowadays but we went up there a couple

1124

00:50:02,870 --> 00:49:58,950

different times the first time we went

1125

00:50:04,609 --> 00:50:02,880

up there we're looking out towards the

1126

00:50:07,430 --> 00:50:04,619

crash site where we were told to look

1127

00:50:08,960 --> 00:50:07,440

and you just looks like a plain patch of

1128

00:50:11,290 --> 00:50:08,970

dirt you can't tell that anything was

1129

00:50:14,990 --> 00:50:11,300

ever happening here but besides the fact

1130

00:50:16,520 --> 00:50:15,000

we got up to the top of the topic

1131

00:50:18,920 --> 00:50:16,530

Kimberly mountain it's called Kimberly

1132

00:50:23,540 --> 00:50:18,930

peak it's kind of it's by the Keystone

1133

00:50:25,070 --> 00:50:23,550

junction by Ruth and Ely the there's a

1134

00:50:26,900 --> 00:50:25,080

like a little guard shack I guess you

1135

00:50:28,190 --> 00:50:26,910

call her like a little shack on top of

1136

00:50:30,109 --> 00:50:28,200

this mountain there's a bunch of old

1137

00:50:34,180 --> 00:50:30,119

radar equipment up there you could tell

1138

00:50:36,620 --> 00:50:34,190

that they were from the 1960s or 80s and

1139

00:50:39,500 --> 00:50:36,630

the door was cracked on this little

1140

00:50:40,940 --> 00:50:39,510

shack this is of course this is of

1141

00:50:42,380 --> 00:50:40,950

course the short version of the story so

1142

00:50:46,220 --> 00:50:42,390

we could get into a little bit

1143

00:50:48,980 --> 00:50:46,230

discussion there was me my brother and

1144

00:50:50,329 --> 00:50:48,990

our friend Nick and we up we were up on

1145

00:50:52,070 --> 00:50:50,339

top of the mountain like I said the door

1146

00:50:53,240 --> 00:50:52,080

was cracked on this on this Shack that

1147

00:50:53,660 --> 00:50:53,250

was on top of the mountain and there was

1148

00:50:56,420 --> 00:50:53,670

no other

1149

00:50:59,390 --> 00:50:56,430

cars up there besides us my friend Nick

1150

00:51:01,670 --> 00:50:59,400

he peers through this crack in the door

1151

00:51:05,319 --> 00:51:01,680

and he gets this really freaked out

1152

00:51:07,609 --> 00:51:05,329

excited look on his face and we kind of

1153

00:51:10,130 --> 00:51:07,619

look at him wondering what he was

1154

00:51:11,960 --> 00:51:10,140

looking at he pops the door open using a

1155

00:51:14,510 --> 00:51:11,970

couple fingers and when the door creaks

1156

00:51:15,980 --> 00:51:14,520

open there was probably about eight or

1157

00:51:18,380 --> 00:51:15,990

ten computers that look like they're

1158

00:51:19,730 --> 00:51:18,390

from the 1980s and they're the kind of

1159

00:51:22,250 --> 00:51:19,740

had the black background with the green

1160

00:51:23,599 --> 00:51:22,260

letters and they were running some kind

1161

00:51:24,890 --> 00:51:23,609

of code it looked like it was like

1162

00:51:27,410 --> 00:51:24,900

scanning for something I know if there

1163

00:51:30,170 --> 00:51:27,420

was weather patterns or what it was but

1164

00:51:31,789 --> 00:51:30,180

I have some news articles from the Ely

1165

00:51:33,740 --> 00:51:31,799

Times newspaper saying that they

1166

00:51:37,280 --> 00:51:33,750

supposedly stopped using the site in

1167

00:51:42,260 --> 00:51:37,290

1992 I think it was and they were still

1168

00:51:43,750 --> 00:51:42,270

using it this was 2012 or so 2010 so I

1169

00:51:46,430 --> 00:51:43,760

don't know what they're doing up there

1170

00:51:48,319 --> 00:51:46,440

but they're still using that site for

1171

00:51:53,630 --> 00:51:48,329

something because like I said we saw the

1172

00:51:56,359 --> 00:51:53,640

computers Wow so you're able to actually

1173

00:51:58,670 --> 00:51:56,369

get that close yeah you could go up

1174

00:52:00,710 --> 00:51:58,680

there usually the shack is locked up and

1175

00:52:02,089 --> 00:52:00,720

there's never there's never been anyone

1176

00:52:08,150 --> 00:52:02,099

up then we've been up there I'd say

1177

00:52:11,720 --> 00:52:08,160

about five times hmm now when you the

1178

00:52:13,910 --> 00:52:11,730

case that you actually were visited on

1179

00:52:16,609 --> 00:52:13,920

was that this case or was that the other

1180

00:52:19,039 --> 00:52:16,619

one we're gonna get into later this one

1181

00:52:20,990 --> 00:52:19,049

was the one where the guy was

1182

00:52:23,930 --> 00:52:21,000

impersonating me my friend Nick was

1183

00:52:27,470 --> 00:52:23,940

about the 1952 mine crashed or I just

1184

00:52:29,120 --> 00:52:27,480

said mm-hmm that one was the first story

1185

00:52:30,859 --> 00:52:29,130

the other two where I got the picture

1186

00:52:33,530 --> 00:52:30,869

and where the guy confronted me was are

1187

00:52:38,420 --> 00:52:33,540

going to be the next one I see uh-huh

1188

00:52:41,660 --> 00:52:38,430

okay so were there any witnesses

1189

00:52:44,870 --> 00:52:41,670

now you mentioned the media was on the

1190

00:52:47,059 --> 00:52:44,880

way out there when when this crash

1191

00:52:49,910 --> 00:52:47,069

happened were there any witnesses that

1192

00:52:53,809 --> 00:52:49,920

have come forward and you said that

1193

00:52:56,930 --> 00:52:53,819

people actually saw this being loaded on

1194

00:53:01,130 --> 00:52:56,940

a flatbed or it was supposedly so where

1195

00:53:04,280 --> 00:53:01,140

did you get that information there's not

1196

00:53:06,079 --> 00:53:04,290

very many witnesses to the 1950 just

1197

00:53:08,000 --> 00:53:06,089

have them come from the mine security

1198

00:53:11,030 --> 00:53:08,010

who had to secure the area

1199

00:53:13,280 --> 00:53:11,040

for the military and the National Guard

1200

00:53:15,110 --> 00:53:13,290

unit got there and a lot of the other

1201
00:53:16,430 --> 00:53:15,120
stories actually come from people that

1202
00:53:19,550 --> 00:53:16,440
had just happened to be out in the

1203
00:53:20,960 --> 00:53:19,560
neighborhood when whatever it was came

1204
00:53:23,870 --> 00:53:20,970
from the sky and crashed into the

1205
00:53:26,120 --> 00:53:23,880
snowbank one of the most popular stories

1206
00:53:28,580 --> 00:53:26,130
comes from a guy named Claude house and

1207
00:53:30,530 --> 00:53:28,590
he said that they're having some kind of

1208
00:53:32,990 --> 00:53:30,540
a dinner party at the time I was told

1209
00:53:35,270 --> 00:53:33,000
and the one of the sheriff's from Ely

1210
00:53:36,830 --> 00:53:35,280
was actually at their house and they

1211
00:53:38,650 --> 00:53:36,840
were all in the front yard and they saw

1212
00:53:43,370 --> 00:53:38,660
that they come down and crash into the

1213
00:53:45,530 --> 00:53:43,380

snowbank and a lot of the stories about

1214

00:53:48,050 --> 00:53:45,540

the object on the truck come from the

1215

00:53:50,150 --> 00:53:48,060

duck water Indian Reservation the duck

1216

00:53:54,050 --> 00:53:50,160

water Indian Reservation is close to

1217

00:53:55,640 --> 00:53:54,060

that Road which is the the back the back

1218

00:53:59,420 --> 00:53:55,650

entrance to the mine where the trucks

1219

00:54:01,400 --> 00:53:59,430

were going to Hill Air Force Base mm-hmm

1220

00:54:02,990 --> 00:54:01,410

people that happen to be out and about

1221

00:54:05,570 --> 00:54:03,000

or that heard all the trucks and the

1222

00:54:07,490 --> 00:54:05,580

commotion I think if you asked me I

1223

00:54:10,610 --> 00:54:07,500

think they were probably woken up by the

1224

00:54:12,440 --> 00:54:10,620

sound of all the trucks in the and the

1225

00:54:14,900 --> 00:54:12,450

military cruising through town at night

1226
00:54:17,390 --> 00:54:14,910
because doc waters a small place and I

1227
00:54:19,220 --> 00:54:17,400
know for a fact people in roofs and

1228
00:54:21,980 --> 00:54:19,230
people in duck waters said that there

1229
00:54:23,290 --> 00:54:21,990
was military police with Pearl the exact

1230
00:54:27,140 --> 00:54:23,300
words I was given were pearl-handled

1231
00:54:29,180 --> 00:54:27,150
sidearms were going from door to door

1232
00:54:30,920 --> 00:54:29,190
for at least two weeks afterwards

1233
00:54:32,810 --> 00:54:30,930
confronting people asking what they had

1234
00:54:35,120 --> 00:54:32,820
seen and if they had seen anything they

1235
00:54:36,770 --> 00:54:35,130
were told not to talk about it so most

1236
00:54:39,550 --> 00:54:36,780
of those types of stories come from the

1237
00:54:42,620 --> 00:54:39,560
Indian Reservation but the actual

1238
00:54:44,360 --> 00:54:42,630

loading onto the flat I bet most of

1239

00:54:46,370 --> 00:54:44,370

those stories come from this mine

1240

00:54:49,790 --> 00:54:46,380

security the actual witnessing of it

1241

00:54:53,030 --> 00:54:49,800

being put onto the trucks okay someone

1242

00:54:56,030 --> 00:54:53,040

asked if these pictures or any pictures

1243

00:54:57,800 --> 00:54:56,040

can be seen online and you have a

1244

00:55:00,410 --> 00:54:57,810

website you can go ahead and give that

1245

00:55:03,230 --> 00:55:00,420

out if you would um the my main website

1246

00:55:05,360 --> 00:55:03,240

the best way to find me is if you click

1247

00:55:08,480 --> 00:55:05,370

on my paranormal teams website which is

1248

00:55:11,930 --> 00:55:08,490

Bigfoot's pad comm and there's links to

1249

00:55:14,690 --> 00:55:11,940

my personal blog in my UFO website that

1250

00:55:17,240 --> 00:55:14,700

talks about the e Lisa that's why the

1251

00:55:18,680 --> 00:55:17,250

best the easiest way to do it yeah okay

1252

00:55:21,680 --> 00:55:18,690

and there are some pictures I know you

1253

00:55:24,230 --> 00:55:21,690

sent me a bunch of them so the

1254

00:55:29,270 --> 00:55:24,240

one that I'd like to talk about before

1255

00:55:31,190 --> 00:55:29,280

we get into the the crash that we're

1256

00:55:34,730 --> 00:55:31,200

definitely going to talk about coming up

1257

00:55:37,310 --> 00:55:34,740

on its 64th anniversary is that let's

1258

00:55:39,890 --> 00:55:37,320

talk about is that the Train is it a

1259

00:55:42,860 --> 00:55:39,900

train wreck or or something like that

1260

00:55:46,030 --> 00:55:42,870

yeah well originally I said I came to

1261

00:55:47,810 --> 00:55:46,040

Ely looking for this 1952 story and

1262

00:55:50,120 --> 00:55:47,820

originally I thought that was the only

1263

00:55:52,850 --> 00:55:50,130

story that existed and I was featured in

1264

00:55:55,190 --> 00:55:52,860

the Ely times newspaper I think it was

1265

00:55:56,690 --> 00:55:55,200

around Halloween time I have the article

1266

00:55:58,610 --> 00:55:56,700

saved I'd have to look at the date but I

1267

00:56:04,190 --> 00:55:58,620

think it was around Halloween time a

1268

00:56:05,690 --> 00:56:04,200

couple years back and the article listed

1269

00:56:06,980 --> 00:56:05,700

my phone number and my email on there

1270

00:56:08,990 --> 00:56:06,990

and it said if you want to if you have

1271

00:56:12,560 --> 00:56:09,000

information give me a call or give me an

1272

00:56:15,350 --> 00:56:12,570

email and I got woken up by some guy an

1273

00:56:18,770 --> 00:56:15,360

old and older an older guy he called me

1274

00:56:22,340 --> 00:56:18,780

saying that in 1962 or 1964 he didn't

1275

00:56:24,170 --> 00:56:22,350

recall at the time he says that he was

1276

00:56:27,530 --> 00:56:24,180

on a he was working for the Nevada

1277

00:56:28,760 --> 00:56:27,540

Northern Railway which it runs from that

1278

00:56:31,790 --> 00:56:28,770

copper mine I was just telling you about

1279

00:56:34,040 --> 00:56:31,800

up to a town called McGill McGill is a

1280

00:56:36,110 --> 00:56:34,050

town where they would smelt the copper

1281

00:56:38,540 --> 00:56:36,120

after they mined it out of the town of

1282

00:56:40,130 --> 00:56:38,550

Ruth and then once they smelted it they

1283

00:56:43,010 --> 00:56:40,140

put it back on the train and bring it up

1284

00:56:46,940 --> 00:56:43,020

to Salt Lake City or some other place up

1285

00:56:48,320 --> 00:56:46,950

north - sounded well anyway so this guy

1286

00:56:50,900 --> 00:56:48,330

was hauling a batch of

1287

00:56:55,100 --> 00:56:50,910

ore copper ore from the Robinson copper

1288

00:56:57,860 --> 00:56:55,110

mine going north and he says they came

1289

00:57:00,020 --> 00:56:57,870

around a bend in the tracks and his

1290

00:57:03,680 --> 00:57:00,030

exact words were that the tracks were

1291

00:57:05,480 --> 00:57:03,690

torn and thrown like pretzels and this

1292

00:57:07,790 --> 00:57:05,490

man who was the brake man on the train

1293

00:57:09,050 --> 00:57:07,800

he hit the brake Hughes or either hit

1294

00:57:12,920 --> 00:57:09,060

the brakes or was told to hit the brakes

1295

00:57:14,840 --> 00:57:12,930

and the train stopped in an area where

1296

00:57:16,760 --> 00:57:14,850

the tracks were destroyed and the l

1297

00:57:20,960 --> 00:57:16,770

guess the train had a partial derailment

1298

00:57:22,370 --> 00:57:20,970

he was saying and when they finally came

1299

00:57:23,720 --> 00:57:22,380

to a halt and they could collect

1300

00:57:26,180 --> 00:57:23,730

themselves they said they looked off to

1301
00:57:28,430 --> 00:57:26,190
their to the side and you could see that

1302
00:57:30,020 --> 00:57:28,440
there was some sort of a skid in the

1303
00:57:32,300 --> 00:57:30,030
ground like something had hit the tracks

1304
00:57:35,450 --> 00:57:32,310
and then bounced off and skidded and

1305
00:57:40,000 --> 00:57:35,460
settled in some some sagebrush and some

1306
00:57:42,590 --> 00:57:40,010
plants at the base of the mountain well

1307
00:57:44,180 --> 00:57:42,600
he says that while they were sitting

1308
00:57:46,370 --> 00:57:44,190
there that there was some female

1309
00:57:49,210 --> 00:57:46,380
ranchers that were in the area and they

1310
00:57:51,440 --> 00:57:49,220
had actually rode up to this craft and

1311
00:57:54,050 --> 00:57:51,450
again it was just similar to the other

1312
00:57:56,540 --> 00:57:54,060
one from 1952 it was miracle

1313
00:57:59,600 --> 00:57:56,550

it was metallic looking with no windows

1314

00:58:02,450 --> 00:57:59,610

but this one had a hole torn in one of

1315

00:58:04,160 --> 00:58:02,460

the sides and he said that there were

1316

00:58:07,190 --> 00:58:04,170

all kinds of debris thrown around the

1317

00:58:08,840 --> 00:58:07,200

debris I was told look like a green it

1318

00:58:11,540 --> 00:58:08,850

looked like a look like glass but I had

1319

00:58:15,310 --> 00:58:11,550

a green metallic tint to it almost like

1320

00:58:17,660 --> 00:58:15,320

like glitters what I was told and I

1321

00:58:19,520 --> 00:58:17,670

guess these female ranchers picked up

1322

00:58:20,780 --> 00:58:19,530

some of this material and they were

1323

00:58:21,800 --> 00:58:20,790

asked some of them actually there was

1324

00:58:25,280 --> 00:58:21,810

three or four of them they actually

1325

00:58:28,490 --> 00:58:25,290

climbed on top of this object were and

1326
00:58:30,110 --> 00:58:28,500
we're examining this and eventually they

1327
00:58:31,970 --> 00:58:30,120
got back on their horses and rode off

1328
00:58:34,940 --> 00:58:31,980
and the military arrived a little bit

1329
00:58:36,800 --> 00:58:34,950
later and the military arrived they

1330
00:58:39,560 --> 00:58:36,810
blocked off they blocked off all the

1331
00:58:40,880 --> 00:58:39,570
roads nearby they picked up all the

1332
00:58:42,410 --> 00:58:40,890
people off the train and brought him

1333
00:58:45,980 --> 00:58:42,420
back to the Ely jail where they

1334
00:58:51,020 --> 00:58:45,990
interrogated these people and once the

1335
00:58:53,090 --> 00:58:51,030
trains crew was out of sight there's the

1336
00:58:55,250 --> 00:58:53,100
story gets kind of weird I guess the

1337
00:58:57,470 --> 00:58:55,260
disc was tipped upside down I call it a

1338
00:58:59,720 --> 00:58:57,480

disc it was tipped upside down like I

1339

00:59:02,300 --> 00:58:59,730

said there was a hole ripped in it I was

1340

00:59:05,020 --> 00:59:02,310

told by one of the men that was part of

1341

00:59:07,960 --> 00:59:05,030

the Nevada ninth National Guard that

1342

00:59:10,850 --> 00:59:07,970

whoever was in charge of their group

1343

00:59:13,190 --> 00:59:10,860

actually walked inside the craft and

1344

00:59:15,350 --> 00:59:13,200

looked around and according to that

1345

00:59:16,940 --> 00:59:15,360

according to the secondhand witness see

1346

00:59:18,700 --> 00:59:16,950

I know if he call him a second head

1347

00:59:21,860 --> 00:59:18,710

witness he was on the side at the time

1348

00:59:25,130 --> 00:59:21,870

but he was he was on guard duty his boss

1349

00:59:27,680 --> 00:59:25,140

or his whoever was in charge was off in

1350

00:59:29,060 --> 00:59:27,690

the craft at the time he said that it

1351

00:59:30,770 --> 00:59:29,070

looked like he was standing on the

1352

00:59:32,480 --> 00:59:30,780

desert floor that you couldn't even tell

1353

00:59:35,240 --> 00:59:32,490

that you were standing inside of a ship

1354

00:59:37,730 --> 00:59:35,250

or a craft if you say if you want to use

1355

00:59:39,770 --> 00:59:37,740

call it that and he said the only thing

1356

00:59:40,970 --> 00:59:39,780

you could tell was the only reason you

1357

00:59:43,040 --> 00:59:40,980

could tell that you were inside a craft

1358

00:59:46,880 --> 00:59:43,050

is that you could see that green glitter

1359

00:59:48,410 --> 00:59:46,890

around you and he said that he was in

1360

00:59:48,980 --> 00:59:48,420

the craft for what he thought was a few

1361

00:59:50,570 --> 00:59:48,990

minutes

1362

00:59:53,240 --> 00:59:50,580

turned out that it was close to an hour

1363

00:59:55,070 --> 00:59:53,250

I guess I don't know he just lost track

1364

00:59:59,140 --> 00:59:55,080

of time where if times slow down while

1365

01:00:01,760 --> 00:59:59,150

he was in there I'm not exactly sure so

1366

01:00:04,930 --> 01:00:01,770

he walks in the craft and looks around

1367

01:00:09,020 --> 01:00:04,940

he walks out and he starts ordering the

1368

01:00:12,440 --> 01:00:09,030

object to be picked up well the story

1369

01:00:14,839 --> 01:00:12,450

goes that this object was so big and was

1370

01:00:16,430 --> 01:00:14,849

caught up in the sagebrush that they had

1371

01:00:19,849 --> 01:00:16,440

to get a crane to pick it up

1372

01:00:22,400 --> 01:00:19,859

well the biggest crane in the county at

1373

01:00:25,190 --> 01:00:22,410

the time was a wrecking crane that was

1374

01:00:27,470 --> 01:00:25,200

for the Nevada Northern Railway and this

1375

01:00:29,870 --> 01:00:27,480

crane was brought on rail like like a

1376

01:00:31,670 --> 01:00:29,880

train but in order to get the crane

1377

01:00:35,750 --> 01:00:31,680

there they had to move the train that

1378

01:00:37,700 --> 01:00:35,760

was filled with or so I went to the

1379

01:00:39,079 --> 01:00:37,710

Nevada Northern Railway Museum on a

1380

01:00:44,780 --> 01:00:39,089

couple different occasions trying to

1381

01:00:48,470 --> 01:00:44,790

find documentation for this and I can't

1382

01:00:50,780 --> 01:00:48,480

find any documentation saying where this

1383

01:00:53,060 --> 01:00:50,790

train win or where this train there's

1384

01:00:54,530 --> 01:00:53,070

proof that the Train came from Ruth but

1385

01:00:58,099 --> 01:00:54,540

there's no documentation saying it

1386

01:00:59,480 --> 01:00:58,109

arrived anywhere so I don't know what

1387

01:01:01,099 --> 01:00:59,490

happened I asked how would you take

1388

01:01:04,970 --> 01:01:01,109

apart a train or how would you go about

1389

01:01:07,070 --> 01:01:04,980

moving in and Sean Pitts who's the who's

1390

01:01:09,410 --> 01:01:07,080

the this historian at the Museum or the

1391

01:01:11,570 --> 01:01:09,420

curator however you want to say that he

1392

01:01:13,820 --> 01:01:11,580

told me that they come off in pieces

1393

01:01:15,620 --> 01:01:13,830

they have the main box I guess the main

1394

01:01:17,870 --> 01:01:15,630

boxcar then they have the undercarriage

1395

01:01:19,609 --> 01:01:17,880

and if you want to get technical you

1396

01:01:25,280 --> 01:01:19,619

could break and break that up into other

1397

01:01:26,570 --> 01:01:25,290

pieces so the best story I could put

1398

01:01:28,250 --> 01:01:26,580

together is that they brought this crane

1399

01:01:30,349 --> 01:01:28,260

down the tracks they picked they

1400

01:01:30,770 --> 01:01:30,359

disassembled the train as quickly as

1401
01:01:33,530 --> 01:01:30,780
they could

1402
01:01:35,780 --> 01:01:33,540
and eventually they picked up the UFO

1403
01:01:40,280 --> 01:01:35,790
and put it on a truck using this crane

1404
01:01:42,890 --> 01:01:40,290
and the story gets more interesting from

1405
01:01:46,120 --> 01:01:42,900
here so they picked up the this UFO they

1406
01:01:50,500 --> 01:01:46,130
put it on the trucks and they drive off

1407
01:01:53,810 --> 01:01:50,510
well I was contacted by an individual

1408
01:01:54,710 --> 01:01:53,820
who used to live on the try think with

1409
01:01:56,480 --> 01:01:54,720
the ranch is called

1410
01:01:58,460 --> 01:01:56,490
Don the Bassett Lake he used to live in

1411
01:02:02,570 --> 01:01:58,470
a place called Bassett lake which is out

1412
01:02:06,320 --> 01:02:02,580
in that general area and he told me that

1413
01:02:08,090 --> 01:02:06,330

back in the 1960s he said he was he was

1414

01:02:10,250 --> 01:02:08,100

a young boy I think he was about seven

1415

01:02:14,990 --> 01:02:10,260

at the time and he was telling me that

1416

01:02:16,250 --> 01:02:15,000

his mom had a similar story this is like

1417

01:02:19,070 --> 01:02:16,260

this is a little bit later after I

1418

01:02:23,060 --> 01:02:19,080

talked to the the guys that were on the

1419

01:02:24,410 --> 01:02:23,070

train that day I was cut this guy called

1420

01:02:28,010 --> 01:02:24,420

me and he said that his mom actually

1421

01:02:29,630 --> 01:02:28,020

rode out on horseback one day and saw

1422

01:02:31,970 --> 01:02:29,640

something similar to what I was looking

1423

01:02:34,160 --> 01:02:31,980

for so again turns out that his mom was

1424

01:02:37,310 --> 01:02:34,170

one of those female ranchers that I had

1425

01:02:39,380 --> 01:02:37,320

mentioned earlier and he brought me out

1426
01:02:42,050 --> 01:02:39,390
to the he told me a general area where

1427
01:02:44,060 --> 01:02:42,060
the crash site was and he said that his

1428
01:02:46,100 --> 01:02:44,070
mom still had pieces of this in a box

1429
01:02:49,490 --> 01:02:46,110
that it was a family heirloom

1430
01:02:51,020 --> 01:02:49,500
and he described the same thing to me

1431
01:02:53,420 --> 01:02:51,030
said it looked like jagged pieces of

1432
01:02:55,640 --> 01:02:53,430
glass with the metallic green glitter

1433
01:02:57,890 --> 01:02:55,650
look to it and I asked the guy if I

1434
01:02:59,330 --> 01:02:57,900
could visit him at the time he's moved

1435
01:03:02,480 --> 01:02:59,340
away now but at the time he was living

1436
01:03:04,460 --> 01:03:02,490
on the ranch and he told me that he'd

1437
01:03:07,040 --> 01:03:04,470
have to ask his mom if I could go check

1438
01:03:10,700 --> 01:03:07,050

out this these pieces of wreckage or

1439

01:03:12,560 --> 01:03:10,710

whatever you want to call it and shortly

1440

01:03:13,970 --> 01:03:12,570

after they moved away and then I never

1441

01:03:15,560 --> 01:03:13,980

heard from him again I tried to contact

1442

01:03:17,330 --> 01:03:15,570

him a few years ago and he said his mom

1443

01:03:19,250 --> 01:03:17,340

was on was not interested in talking to

1444

01:03:22,850 --> 01:03:19,260

me I don't know if she got scared or

1445

01:03:23,800 --> 01:03:22,860

what but there's pieces of it still out

1446

01:03:27,980 --> 01:03:23,810

there

1447

01:03:29,870 --> 01:03:27,990

well I continued continuing on I mean

1448

01:03:33,740 --> 01:03:29,880

just just stop right there just for a

1449

01:03:36,280 --> 01:03:33,750

second that you know if I know people

1450

01:03:40,400 --> 01:03:36,290

have talked about you know finding

1451

01:03:43,550 --> 01:03:40,410

anomalous objects or something you know

1452

01:03:46,220 --> 01:03:43,560

related to a crash and they've tested it

1453

01:03:48,740 --> 01:03:46,230

and they've come back and have said that

1454

01:03:53,180 --> 01:03:48,750

they're you know earth more like earthly

1455

01:03:57,230 --> 01:03:53,190

compound or one of them was no compound

1456

01:04:00,260 --> 01:03:57,240

has been found of the elements put

1457

01:04:01,700 --> 01:04:00,270

together like that so it would be I mean

1458

01:04:04,450 --> 01:04:01,710

you know you think of all the elements

1459

01:04:10,280 --> 01:04:04,460

in the universe you know perhaps we have

1460

01:04:12,680 --> 01:04:10,290

all them here it's possible and so there

1461

01:04:16,039 --> 01:04:12,690

may never be like a smoking gun evidence

1462

01:04:18,559 --> 01:04:16,049

if unless some

1463

01:04:21,620 --> 01:04:18,569

things completely not found on this

1464

01:04:22,069 --> 01:04:21,630

syrup type of thing you know you know

1465

01:04:25,370 --> 01:04:22,079

what I mean

1466

01:04:27,620 --> 01:04:25,380

by the elements yeah yeah but it'd still

1467

01:04:31,910 --> 01:04:27,630

be really interesting to test something

1468

01:04:36,890 --> 01:04:31,920

like that and so is that that's

1469

01:04:46,939 --> 01:04:36,900

basically a dead end on that but can I

1470

01:04:49,099 --> 01:04:46,949

hear yeah yeah can you hear me now all

1471

01:04:57,469 --> 01:04:49,109

right I told that we were supposed to

1472

01:05:05,239 --> 01:04:57,479

look for a specific mile Homer if and

1473

01:05:06,979 --> 01:05:05,249

and son I'm when Deadpool came man okay

1474

01:05:11,839 --> 01:05:06,989

we're having a little bit of a sound

1475

01:05:15,169 --> 01:05:11,849

issue here we can you hear me with yeah

1476

01:05:17,059 --> 01:05:15,179

all right so I have your phone number

1477

01:05:20,359 --> 01:05:17,069

but go ahead and continue let's see if

1478

01:05:24,769 --> 01:05:20,369

it'll it'll straighten itself out okay

1479

01:05:27,589 --> 01:05:24,779

can you hear me I can now yeah yes so um

1480

01:05:30,169 --> 01:05:27,599

we were told we were told to go look for

1481

01:05:32,569 --> 01:05:30,179

a specific mile marker because of the

1482

01:05:35,749 --> 01:05:32,579

railroad the railway was stopped stopped

1483

01:05:37,669 --> 01:05:35,759

being used in the 70s so the train

1484

01:05:39,549 --> 01:05:37,679

tracks are all overgrown and they

1485

01:05:42,109 --> 01:05:39,559

haven't been used in ages so they're

1486

01:05:43,549 --> 01:05:42,119

basically impossible to find where

1487

01:05:44,989 --> 01:05:43,559

something like this happened unless you

1488

01:05:50,029 --> 01:05:44,999

were told where to look by somebody

1489

01:05:53,509 --> 01:05:50,039

especially if you don't live there well

1490

01:05:55,819 --> 01:05:53,519

we were shown by eye informant we were

1491

01:05:57,279 --> 01:05:55,829

told that there was two ranches in the

1492

01:06:00,079 --> 01:05:57,289

area at the time

1493

01:06:01,759 --> 01:06:00,089

two major ranches where these ladies

1494

01:06:04,910 --> 01:06:01,769

would have wrote out from and again the

1495

01:06:07,249 --> 01:06:04,920

guy who called about the pickled glass

1496

01:06:11,419 --> 01:06:07,259

material he told us where they used to

1497

01:06:14,359 --> 01:06:11,429

live and the train tracks run right

1498

01:06:15,679 --> 01:06:14,369

along the edge of this property and we

1499

01:06:19,370 --> 01:06:15,689

were told again that there was a

1500

01:06:21,259 --> 01:06:19,380

mountain so there was like a added SAP

1501
01:06:24,589 --> 01:06:21,269
at the bottom of a mountain so there was

1502
01:06:28,370 --> 01:06:24,599
a mountain there and we walked the

1503
01:06:29,520 --> 01:06:28,380
tracks later we visited multiple times

1504
01:06:31,230 --> 01:06:29,530
but

1505
01:06:33,500 --> 01:06:31,240
we walk the tracks and right where this

1506
01:06:36,990 --> 01:06:33,510
mileage marker was which was on a bend

1507
01:06:40,350 --> 01:06:37,000
there was a portion of like a long strip

1508
01:06:42,200 --> 01:06:40,360
a long strip of soil that was a dark

1509
01:06:46,560 --> 01:06:42,210
yellow copper color

1510
01:06:48,750 --> 01:06:46,570
well the mine has a dump site where they

1511
01:06:52,410 --> 01:06:48,760
dump their mine tailings and their waste

1512
01:06:54,630 --> 01:06:52,420
materials somewhat nearby and this

1513
01:06:57,150 --> 01:06:54,640

specific site that we found next this

1514

01:06:58,950 --> 01:06:57,160

mile marker was not owned by the mine at

1515

01:07:01,230 --> 01:06:58,960

any point in time it was owned by the

1516

01:07:06,450 --> 01:07:01,240

railroad but the railroad was a separate

1517

01:07:08,460 --> 01:07:06,460

entity from the actual mine so this was

1518

01:07:09,900 --> 01:07:08,470

kind of odd because the train tracks it

1519

01:07:11,130 --> 01:07:09,910

goes the train tracks if you picture

1520

01:07:12,780 --> 01:07:11,140

this in your mind on the far right

1521

01:07:16,380 --> 01:07:12,790

there's train tracks which are kind of

1522

01:07:19,140 --> 01:07:16,390

on a raised up platform platform of dirt

1523

01:07:21,300 --> 01:07:19,150

then there's a ditch in the middle on

1524

01:07:23,520 --> 01:07:21,310

the left of the tracks filled with water

1525

01:07:27,060 --> 01:07:23,530

which was used for irrigation and on the

1526

01:07:28,740 --> 01:07:27,070

left side is just farmland and dirt

1527

01:07:32,790 --> 01:07:28,750

roads and farmland on the left

1528

01:07:35,400 --> 01:07:32,800

well this strip of dirt was on the far

1529

01:07:38,580 --> 01:07:35,410

right side on the right side of this

1530

01:07:40,500 --> 01:07:38,590

ditch and it's in like a straight strip

1531

01:07:44,340 --> 01:07:40,510

and you could see that somebody dumped

1532

01:07:46,410 --> 01:07:44,350

that there and off to the side on the

1533

01:07:49,710 --> 01:07:46,420

other side of that ditch there's a very

1534

01:07:53,390 --> 01:07:49,720

large Crescent moon-shaped portion of

1535

01:07:56,100 --> 01:07:53,400

land with more of that copper colored

1536

01:07:56,790 --> 01:07:56,110

soil like someone dumped it there a long

1537

01:08:01,500 --> 01:07:56,800

time ago

1538

01:08:03,810 --> 01:08:01,510

and this started to make sense to us

1539

01:08:05,280 --> 01:08:03,820

because they said that that something

1540

01:08:08,130 --> 01:08:05,290

had come from the sky and hit the tracks

1541

01:08:10,620 --> 01:08:08,140

and it was laying either on someone's

1542

01:08:12,540 --> 01:08:10,630

farm or close to someone's farm and it

1543

01:08:18,059 --> 01:08:12,550

was on a bend in the tracks and it was

1544

01:08:26,160 --> 01:08:18,069

by some place in the vicinity of Ely

1545

01:08:28,110 --> 01:08:26,170

Nevada so a little bit later we went

1546

01:08:30,329 --> 01:08:28,120

back to the Nevada Northern Railway

1547

01:08:33,870 --> 01:08:30,339

Museum and talked to the curator Sean

1548

01:08:36,120 --> 01:08:33,880

Pitts and Sean had told us that he

1549

01:08:37,650 --> 01:08:36,130

didn't believe in this story well I told

1550

01:08:40,410 --> 01:08:37,660

that we found the mile marker that we're

1551
01:08:42,690 --> 01:08:40,420
looking for and we found this portion of

1552
01:08:43,320 --> 01:08:42,700
this long strip of dirt well he looked

1553
01:08:45,330 --> 01:08:43,330
in the record

1554
01:08:46,950 --> 01:08:45,340
and there was no record of the mine or

1555
01:08:48,630 --> 01:08:46,960
that the mine the railroad ever

1556
01:08:53,100 --> 01:08:48,640
repairing those tracks are putting that

1557
01:08:54,360 --> 01:08:53,110
dirt there but what was kind of odd was

1558
01:08:55,980 --> 01:08:54,370
I mentioned that there was a giant

1559
01:08:57,300 --> 01:08:55,990
wrecking crane the biggest one in the

1560
01:09:00,270 --> 01:08:57,310
county at the time was supposedly used

1561
01:09:02,520 --> 01:09:00,280
to pick up the UFO and he told us that

1562
01:09:05,610 --> 01:09:02,530
this racking crane was still on display

1563
01:09:07,500 --> 01:09:05,620

at the Museum as part of their tour and

1564

01:09:11,190 --> 01:09:07,510

we looked at this wrecking crane he said

1565

01:09:12,450 --> 01:09:11,200

I had a 30-foot boom on the crane and it

1566

01:09:13,830 --> 01:09:12,460

would have made sense that they would

1567

01:09:16,410 --> 01:09:13,840

have needed this wrecking crane to pick

1568

01:09:18,390 --> 01:09:16,420

up the UFO because it would had to pick

1569

01:09:19,320 --> 01:09:18,400

it up out of that farmer's field lift it

1570

01:09:23,010 --> 01:09:19,330

over the ditch

1571

01:09:24,450 --> 01:09:23,020

and put it onto a flatbed truck the

1572

01:09:27,560 --> 01:09:24,460

flatbed truck would have been on the

1573

01:09:32,010 --> 01:09:27,570

service road that ran next to the tracks

1574

01:09:33,810 --> 01:09:32,020

so we this was in April we found out we

1575

01:09:35,460 --> 01:09:33,820

found this crash site by the way so we

1576

01:09:37,170 --> 01:09:35,470

have to go back there later this year

1577

01:09:40,320 --> 01:09:37,180

and do some tests on the area and all

1578

01:09:42,300 --> 01:09:40,330

that but we're pretty sure we found the

1579

01:09:44,280 --> 01:09:42,310

area it's right all the clues match up

1580

01:09:46,650 --> 01:09:44,290

and it's where the people said said it

1581

01:09:48,390 --> 01:09:46,660

would be the only thing that's kind of a

1582

01:09:50,480 --> 01:09:48,400

bummer is that a lot of the people are

1583

01:09:56,220 --> 01:09:50,490

not here anymore because again this was

1584

01:09:57,930 --> 01:09:56,230

1962 1962 1964 I think it was June 1964

1585

01:10:03,750 --> 01:09:57,940

but some people will argue differently

1586

01:10:06,120 --> 01:10:03,760

about it and that story was actually

1587

01:10:08,970 --> 01:10:06,130

like a local legend until we started

1588

01:10:11,700 --> 01:10:08,980

looking into this and there's actually

1589

01:10:15,450 --> 01:10:11,710

more evidence to support the 1960s train

1590

01:10:17,070 --> 01:10:15,460

story than the 1952 crash I had

1591

01:10:18,510 --> 01:10:17,080

mentioned earlier I mean there's

1592

01:10:19,860 --> 01:10:18,520

witnesses for both but there's a lot

1593

01:10:21,900 --> 01:10:19,870

more witnesses for the Train story

1594

01:10:23,970 --> 01:10:21,910

because this was a little bit later and

1595

01:10:29,250 --> 01:10:23,980

this was after UFOs when mainstream

1596

01:10:32,490 --> 01:10:29,260

media and all that mm-hmm-hmm so 1952

1597

01:10:37,820 --> 01:10:32,500

getting back to that year was a real big

1598

01:10:41,430 --> 01:10:37,830

year for as far as UFOs go let's see

1599

01:10:42,660 --> 01:10:41,440

Matthew made a good point have you well

1600

01:10:46,050 --> 01:10:42,670

I don't know if you would have the

1601

01:10:48,960 --> 01:10:46,060

equipment for it but has anyone tested

1602

01:10:52,650 --> 01:10:48,970

that crane for or have you thought about

1603

01:10:54,300 --> 01:10:52,660

testing that crane for radiation I

1604

01:10:56,520 --> 01:10:54,310

thought about it because we're gonna get

1605

01:10:57,150 --> 01:10:56,530

Geiger counters and different types of

1606

01:10:59,430 --> 01:10:57,160

equipment

1607

01:11:00,870 --> 01:10:59,440

back out there Shawn Shawn and the guys

1608

01:11:02,970 --> 01:11:00,880

at the Museum are really nice people

1609

01:11:05,190 --> 01:11:02,980

we're hoping to do that but I've never

1610

01:11:07,830 --> 01:11:05,200

asked I know that the museum is owned by

1611

01:11:10,740 --> 01:11:07,840

the state and generally the state won't

1612

01:11:12,630 --> 01:11:10,750

acknowledge UFOs that it won't let you

1613

01:11:15,060 --> 01:11:12,640

do tests and things on equipment for

1614

01:11:16,830 --> 01:11:15,070

things like that because I know like I

1615

01:11:18,300 --> 01:11:16,840

said we do ghost hunting also also they

1616

01:11:22,410 --> 01:11:18,310

won't even let us do that you usually

1617

01:11:24,690 --> 01:11:22,420

that's not even touching their stuff you

1618

01:11:26,550 --> 01:11:24,700

mean like you try to go through the

1619

01:11:28,260 --> 01:11:26,560

trouble of getting permission and you're

1620

01:11:30,180 --> 01:11:28,270

denied is that what it is yeah usually

1621

01:11:31,950 --> 01:11:30,190

if you try to go through like trying to

1622

01:11:34,650 --> 01:11:31,960

either write written permission or call

1623

01:11:36,180 --> 01:11:34,660

around usually people won't let you do

1624

01:11:38,670 --> 01:11:36,190

it if it's run by the state for some

1625

01:11:40,590 --> 01:11:38,680

reason I think cuz Ealy's a small town

1626

01:11:42,810 --> 01:11:40,600

and they know who I am they might let me

1627

01:11:46,260 --> 01:11:42,820

do it but at this point time I haven't

1628

01:11:49,290 --> 01:11:46,270

asked or anything yeah wow that's

1629

01:11:51,300 --> 01:11:49,300

something okay I forgot to mention if

1630

01:11:54,270 --> 01:11:51,310

then once if anyone wants to call in the

1631

01:11:58,140 --> 01:11:54,280

show you're welcome to call and ask our

1632

01:11:59,970 --> 01:11:58,150

guests a question I've had issues with

1633

01:12:02,220 --> 01:11:59,980

the phone a couple of times but I'm

1634

01:12:05,580 --> 01:12:02,230

willing to give it a try if anyone wants

1635

01:12:08,220 --> 01:12:05,590

to dial it's six oh three nine six seven

1636

01:12:10,110 --> 01:12:08,230

four oh three oh if you're also

1637

01:12:13,560 --> 01:12:10,120

listening live you if you're listening

1638

01:12:16,430 --> 01:12:13,570

on PSN radio you can send a message

1639

01:12:20,690 --> 01:12:16,440

through the Skype chat or over at

1640

01:12:28,040 --> 01:12:20,700

podcasts UFO comm pardon me

1641

01:12:33,540 --> 01:12:28,050

so before we get into the July 7th crash

1642

01:12:37,290 --> 01:12:33,550

you actually go into paranormal is there

1643

01:12:40,830 --> 01:12:37,300

a lot going on in in the Las Vegas area

1644

01:12:44,370 --> 01:12:40,840

for paranormal or do you branch out such

1645

01:12:46,680 --> 01:12:44,380

as you did for the UFO crashes um most

1646

01:12:49,500 --> 01:12:46,690

of our if we're gonna do something other

1647

01:12:50,790 --> 01:12:49,510

than UFOs usually Las Vegas is in a very

1648

01:12:53,220 --> 01:12:50,800

good area of this because it's not very

1649

01:12:55,170 --> 01:12:53,230

many old buildings or the people don't

1650

01:12:57,420 --> 01:12:55,180

generally stay here for very long before

1651
01:12:58,980 --> 01:12:57,430
they go on to other places we spend a

1652
01:13:02,870 --> 01:12:58,990
lot of time in northern Nevada and

1653
01:13:05,070 --> 01:13:02,880
California and Arizona generally both

1654
01:13:06,600 --> 01:13:05,080
there's not too many places to do like

1655
01:13:09,310 --> 01:13:06,610
ghost hunting or things like that around

1656
01:13:16,660 --> 01:13:14,860
Wow yeah I can see that and well before

1657
01:13:19,540 --> 01:13:16,670
we move on to that just one last

1658
01:13:24,580 --> 01:13:19,550
question where is do people actually see

1659
01:13:27,010 --> 01:13:24,590
a Bigfoot in like Utah or I'm thinking

1660
01:13:29,470 --> 01:13:27,020
of these wide-open skies and deserts

1661
01:13:32,430 --> 01:13:29,480
like Arizona places like that I mean

1662
01:13:34,810 --> 01:13:32,440
have you ever investigated one of those

1663
01:13:36,370 --> 01:13:34,820

there's something I mean we go to

1664

01:13:38,050 --> 01:13:36,380

Northern California and all that where

1665

01:13:39,700 --> 01:13:38,060

you hear about it all the time the

1666

01:13:41,740 --> 01:13:39,710

popular sightings we go to those places

1667

01:13:42,160 --> 01:13:41,750

but there's something called the sand

1668

01:13:43,870 --> 01:13:42,170

Yeti

1669

01:13:45,910 --> 01:13:43,880

it's supposed to be a bigfoot-type

1670

01:13:49,420 --> 01:13:45,920

creature that lives in the forests of

1671

01:13:51,790 --> 01:13:49,430

Arizona and parts of Southern Nevada and

1672

01:13:54,070 --> 01:13:51,800

I didn't believe in it at first until we

1673

01:13:56,440 --> 01:13:54,080

started actually looking for these

1674

01:14:00,190 --> 01:13:56,450

trying to seek people that had seen

1675

01:14:01,870 --> 01:14:00,200

these creatures and now we have a big

1676

01:14:05,860 --> 01:14:01,880

old stack of sightings mostly from

1677

01:14:10,210 --> 01:14:05,870

Arizona Wow well Arizona is also diverse

1678

01:14:13,150 --> 01:14:10,220

there's places like Flagstaff where you

1679

01:14:16,360 --> 01:14:13,160

know you can get into you know more of

1680

01:14:17,740 --> 01:14:16,370

tree coverage too as well yeah and when

1681

01:14:19,150 --> 01:14:17,750

I say the Sandy I don't mean it's

1682

01:14:22,570 --> 01:14:19,160

walking around in the scrub brush it's

1683

01:14:26,460 --> 01:14:22,580

in the pits in the forest huh all right

1684

01:14:29,080 --> 01:14:26,470

well let's talk about the July 7th crash

1685

01:14:32,310 --> 01:14:29,090

this was though was that one of the

1686

01:14:35,290 --> 01:14:32,320

first ones you really looked into deeply

1687

01:14:38,410 --> 01:14:35,300

well I originally looked for the copper

1688

01:14:40,630 --> 01:14:38,420

mine crash the 1952 one and when I was

1689

01:14:42,880 --> 01:14:40,640

looking at where I got started out

1690

01:14:45,160 --> 01:14:42,890

traveling around the country or and all

1691

01:14:47,800 --> 01:14:45,170

that this actually came up on Project

1692

01:14:49,720 --> 01:14:47,810

Blue Book and then from Project Blue

1693

01:14:53,380 --> 01:14:49,730

Book I found some names and then I went

1694

01:14:56,380 --> 01:14:53,390

on from there wow so you really you

1695

01:14:59,620 --> 01:14:56,390

really go deep into this for

1696

01:15:01,990 --> 01:14:59,630

investigating so listen let's hear the

1697

01:15:04,660 --> 01:15:02,000

details of this particular one all right

1698

01:15:08,610 --> 01:15:04,670

well this one this one for your audience

1699

01:15:11,020 --> 01:15:08,620

you have to pay close attention to the

1700

01:15:12,400 --> 01:15:11,030

bees the end of the story won't make a

1701

01:15:14,500 --> 01:15:12,410

lot of sense and I've been on other

1702

01:15:20,250 --> 01:15:14,510

radio shows where people got kind of

1703

01:15:21,850 --> 01:15:20,260

confused this is actually on July 7th

1704

01:15:25,270 --> 01:15:21,860

1952

1705

01:15:28,000 --> 01:15:25,280

which was what five years to the day the

1706

01:15:32,440 --> 01:15:28,010

Roswell crash happened - yeah it was

1707

01:15:34,410 --> 01:15:32,450

about that it was they some people say

1708

01:15:37,390 --> 01:15:34,420

the seventh some people say the eighth

1709

01:15:40,060 --> 01:15:37,400

the eighth is when the I know is when

1710

01:15:43,390 --> 01:15:40,070

they flew the debris over and you know

1711

01:15:45,010 --> 01:15:43,400

said that it was a weather balloon so I

1712

01:15:50,110 --> 01:15:45,020

think it was somewhere around there but

1713

01:15:52,780 --> 01:15:50,120

I think that max Braswell also thought

1714

01:15:54,880 --> 01:15:52,790

he heard like thunderclap and possibly a

1715

01:15:57,010 --> 01:15:54,890

crash on the six so I don't know if

1716

01:16:00,250 --> 01:15:57,020

anyone knows the exact day that that

1717

01:16:03,310 --> 01:16:00,260

actually happened okay well ironically

1718

01:16:05,130 --> 01:16:03,320

it's close to today's date - yeah right

1719

01:16:08,500 --> 01:16:05,140

yeah

1720

01:16:11,860 --> 01:16:08,510

well the story begins at around 10:30 in

1721

01:16:15,760 --> 01:16:11,870

the morning over Ogden Utah and Salt

1722

01:16:17,680 --> 01:16:15,770

Lake Utah witnesses this was a Sunday

1723

01:16:19,600 --> 01:16:17,690

morning I think it was Sunday or Monday

1724

01:16:21,430 --> 01:16:19,610

morning I think it was a Sunday so

1725

01:16:22,210 --> 01:16:21,440

anyways there's lots of people about on

1726

01:16:25,180 --> 01:16:22,220

a Sunday morning

1727

01:16:28,030 --> 01:16:25,190

they saw something it looked like orange

1728

01:16:30,490 --> 01:16:28,040

fireball with the blue gaseous smoke

1729

01:16:36,160 --> 01:16:30,500

trail or a smoke cloud behind it was

1730

01:16:38,080 --> 01:16:36,170

flying from east to west and this this

1731

01:16:40,750 --> 01:16:38,090

fireball was described as anywhere

1732

01:16:43,720 --> 01:16:40,760

between 4,000 feet and 25,000 feet up in

1733

01:16:45,910 --> 01:16:43,730

the air so the it buried but this object

1734

01:16:48,340 --> 01:16:45,920

was obviously coming down it was at it

1735

01:16:49,510 --> 01:16:48,350

going at an arch or an arc like this

1736

01:16:52,300 --> 01:16:49,520

thing was gonna this thing was gonna

1737

01:16:52,960 --> 01:16:52,310

crash eventually and this was at 10:30

1738

01:16:57,700 --> 01:16:52,970

in the morning

1739

01:16:59,980 --> 01:16:57,710

well Hill Air Force Base was actually

1740

01:17:02,650 --> 01:16:59,990

doing such training mission with a b-26

1741

01:17:05,710 --> 01:17:02,660

bomber which was piloted by a pilot

1742

01:17:08,800 --> 01:17:05,720

named Robert s Cal white and Cal White

1743

01:17:10,120 --> 01:17:08,810

was told to pursue this object once it

1744

01:17:12,910 --> 01:17:10,130

came into view because they weren't sure

1745

01:17:14,470 --> 01:17:12,920

what this thing was so this b-26 bombers

1746

01:17:18,220 --> 01:17:14,480

turns around and is chasing after this

1747

01:17:20,710 --> 01:17:18,230

object meanwhile the Salt Lake City

1748

01:17:23,440 --> 01:17:20,720

Municipal Airport and the airport in

1749

01:17:25,660 --> 01:17:23,450

Ogden Utah were tracking this object

1750

01:17:29,230 --> 01:17:25,670

they thought that there was a plane that

1751

01:17:31,810 --> 01:17:29,240

was going down and the the tower over at

1752

01:17:35,530 --> 01:17:31,820

the Salt Lake Airport said that they saw

1753

01:17:37,930 --> 01:17:35,540

a square object it was a black square

1754

01:17:41,310 --> 01:17:37,940

that was on fire and that's what they

1755

01:17:43,600 --> 01:17:41,320

described and this was coming down and

1756

01:17:47,740 --> 01:17:43,610

meanwhile like I said cowboy is chasing

1757

01:17:49,690 --> 01:17:47,750

this thing and this object they said

1758

01:17:52,720 --> 01:17:49,700

that they could never fully catch up to

1759

01:17:54,430 --> 01:17:52,730

this object that no matter how fast this

1760

01:17:56,410 --> 01:17:54,440

bomber was flying that the object was

1761

01:17:58,090 --> 01:17:56,420

always far ahead of them but they did

1762

01:18:00,040 --> 01:17:58,100

say they managed to fly into this blue

1763

01:18:01,630 --> 01:18:00,050

smoke cloud well when they would find

1764

01:18:03,520 --> 01:18:01,640

this smoke cloud they said the plane

1765

01:18:05,230 --> 01:18:03,530

would start acting strange like it would

1766

01:18:07,390 --> 01:18:05,240

start losing altitude or the engines

1767

01:18:10,330 --> 01:18:07,400

would start sputtering or they would

1768

01:18:14,980 --> 01:18:10,340

start revving almost as if they were

1769

01:18:17,410 --> 01:18:14,990

intentionally trying to do that well the

1770

01:18:19,720 --> 01:18:17,420

Cal White was they got to the smoke

1771

01:18:21,040 --> 01:18:19,730

cloud and meanwhile this object like I

1772

01:18:24,280 --> 01:18:21,050

said it's way off in the distance like

1773

01:18:25,540 --> 01:18:24,290

going hundreds of hundreds of miles an

1774

01:18:28,120 --> 01:18:25,550

hour faster than this plane and

1775

01:18:30,250 --> 01:18:28,130

eventually the object just stops it's on

1776

01:18:33,220 --> 01:18:30,260

fire and it just completely stops and

1777

01:18:35,170 --> 01:18:33,230

this plane is flying trying to catch up

1778

01:18:37,480 --> 01:18:35,180

to it and the plane almost runs into it

1779

01:18:38,890 --> 01:18:37,490

and right as the plane almost runs into

1780

01:18:40,870 --> 01:18:38,900

it this object goes straight down

1781

01:18:43,450 --> 01:18:40,880

towards the ground almost like it's

1782

01:18:46,270 --> 01:18:43,460

gonna plummet into the ground and it

1783

01:18:48,580 --> 01:18:46,280

shoots off into the distance but it goes

1784

01:18:50,740 --> 01:18:48,590

so fast that at the time Cal white

1785

01:18:54,160 --> 01:18:50,750

reported that they saw the object crash

1786

01:18:56,140 --> 01:18:54,170

into the west side of the Salt Lake but

1787

01:18:58,570 --> 01:18:56,150

meanwhile before the object took off

1788

01:19:00,400 --> 01:18:58,580

there was something that they that

1789

01:19:02,230 --> 01:19:00,410

witnesses on the ground and Cal White

1790

01:19:04,750 --> 01:19:02,240

and his crew reported as a flash of

1791

01:19:06,340 --> 01:19:04,760

lightning and this was in the middle of

1792

01:19:07,780 --> 01:19:06,350

the daytime of course at 10:30 in the

1793

01:19:09,070 --> 01:19:07,790

morning they saw what they thought was

1794

01:19:12,660 --> 01:19:09,080

this flash of lightning there was no

1795

01:19:16,180 --> 01:19:12,670

clouds around and this object took off

1796

01:19:17,980 --> 01:19:16,190

well Cal white and the Salt Lake Airport

1797

01:19:20,590 --> 01:19:17,990

like I said said that this thing crashed

1798

01:19:22,900 --> 01:19:20,600

in the west bank of the Salt Lake so

1799

01:19:24,340 --> 01:19:22,910

ground crews were called out from Hill

1800

01:19:25,570 --> 01:19:24,350

Air Force Base and they started

1801
01:19:28,270 --> 01:19:25,580
searching the lake and they started

1802
01:19:32,320 --> 01:19:28,280
searching the side the west side of this

1803
01:19:35,470 --> 01:19:32,330
lake and the object actually didn't

1804
01:19:36,370 --> 01:19:35,480
crash in the lake at all what was

1805
01:19:41,010 --> 01:19:36,380
strange

1806
01:19:43,840 --> 01:19:41,020
I'll have to fast rewind a little bit

1807
01:19:45,820 --> 01:19:43,850
witnesses saw witnesses saw this flash

1808
01:19:47,800 --> 01:19:45,830
of light flash of lightning sorry and

1809
01:19:48,850 --> 01:19:47,810
tongue-tied here they see a flash of

1810
01:19:53,350 --> 01:19:48,860
lightning

1811
01:19:56,919 --> 01:19:53,360
and some witnesses on the ground say

1812
01:20:00,609 --> 01:19:56,929
that they saw a second object coming

1813
01:20:03,040 --> 01:20:00,619

from north to south and they say that

1814

01:20:06,819 --> 01:20:03,050

they saw whatever this object was run

1815

01:20:09,250 --> 01:20:06,829

into the orange object well the object

1816

01:20:12,330 --> 01:20:09,260

that came from north to south witnesses

1817

01:20:16,180 --> 01:20:12,340

say was a green spherical object and

1818

01:20:18,879 --> 01:20:16,190

this green spherical object was reported

1819

01:20:22,689 --> 01:20:18,889

earlier that morning in Great Falls

1820

01:20:24,370 --> 01:20:22,699

Montana and there was a military base up

1821

01:20:26,500 --> 01:20:24,380

there they were saying that they were

1822

01:20:28,479 --> 01:20:26,510

following it and it was doing a circular

1823

01:20:30,640 --> 01:20:28,489

pattern and it was on fire and it was

1824

01:20:32,080 --> 01:20:30,650

smoking I don't know from what but it

1825

01:20:33,939 --> 01:20:32,090

was doing a circular pattern around

1826
01:20:37,569 --> 01:20:33,949
Montana before it went south through

1827
01:20:39,760 --> 01:20:37,579
Idaho and there was an airline that

1828
01:20:42,669 --> 01:20:39,770
reported seeing the flying object flying

1829
01:20:44,640 --> 01:20:42,679
off in the distance faster than their

1830
01:20:48,459 --> 01:20:44,650
plane was flying so there's proof

1831
01:20:50,799 --> 01:20:48,469
there's proof of the north-to-south

1832
01:20:54,910 --> 01:20:50,809
object appearing before the east to west

1833
01:20:56,439 --> 01:20:54,920
object and after they saw this flash of

1834
01:20:58,479 --> 01:20:56,449
lightning and went as far south the

1835
01:21:04,780 --> 01:20:58,489
Cedar City people were reporting seeing

1836
01:21:06,459 --> 01:21:04,790
this flash of lightning by the way the

1837
01:21:10,990 --> 01:21:06,469
next thing the next thing that is

1838
01:21:14,470 --> 01:21:11,000

reported is that around 11:30 on July

1839

01:21:16,839 --> 01:21:14,480

7th 1950 to an hour after the orange

1840

01:21:19,689 --> 01:21:16,849

fireball made an appearance there was a

1841

01:21:22,299 --> 01:21:19,699

fresh forest fire about 30 miles west of

1842

01:21:25,240 --> 01:21:22,309

Wendover Nevada which is where this

1843

01:21:28,689 --> 01:21:25,250

green spherical object ended up crashing

1844

01:21:33,310 --> 01:21:28,699

and Wendover Nevada is kind of far from

1845

01:21:35,919 --> 01:21:33,320

Ogden if you look on a map but this

1846

01:21:38,290 --> 01:21:35,929

whatever this object was it crashed into

1847

01:21:40,390 --> 01:21:38,300

the ground there and there was a

1848

01:21:43,390 --> 01:21:40,400

volunteer firefighter group that came

1849

01:21:46,060 --> 01:21:43,400

from Wendover West Wendover Nevada to go

1850

01:21:49,510 --> 01:21:46,070

investigate this and from what I was

1851
01:21:52,000 --> 01:21:49,520
told the firefighters pulled up on to

1852
01:21:54,069 --> 01:21:52,010
the scene and they said that when they

1853
01:21:55,810 --> 01:21:54,079
were getting out of their truck they

1854
01:21:57,069 --> 01:21:55,820
were prepared for some kind of an

1855
01:21:59,410 --> 01:21:57,079
airplane crash or that they were

1856
01:22:01,359 --> 01:21:59,420
prepared for some kind of chemical fire

1857
01:22:02,140 --> 01:22:01,369
so he said they were getting their hoses

1858
01:22:03,520 --> 01:22:02,150
and all that

1859
01:22:05,800 --> 01:22:03,530
they were heading out towards the

1860
01:22:07,899 --> 01:22:05,810
smoking area well as they were getting

1861
01:22:10,330 --> 01:22:07,909
close to this smoky area they said it

1862
01:22:13,959 --> 01:22:10,340
smelt like a like a chemical fire that

1863
01:22:15,850 --> 01:22:13,969

something was so they could tell us

1864

01:22:17,919 --> 01:22:15,860

something wasn't right and as they were

1865

01:22:19,810 --> 01:22:17,929

walking closer and closer the smell got

1866

01:22:22,209 --> 01:22:19,820

more and more they got stronger and

1867

01:22:23,680 --> 01:22:22,219

stronger until they finally got to the

1868

01:22:26,979 --> 01:22:23,690

point where they could see that there

1869

01:22:28,959 --> 01:22:26,989

was a round glowing spherical object

1870

01:22:31,660 --> 01:22:28,969

that had like a yellow smoke was coming

1871

01:22:33,430 --> 01:22:31,670

out of this crater in the ground and he

1872

01:22:36,669 --> 01:22:33,440

said that this thing was glowing like a

1873

01:22:38,890 --> 01:22:36,679

like I guess like you're frying bacon

1874

01:22:40,360 --> 01:22:38,900

like it was a pan this is the way worded

1875

01:22:42,430 --> 01:22:40,370

it was a pan that was frying bacon his

1876

01:22:45,340 --> 01:22:42,440

thing was hot and it was smoking he said

1877

01:22:47,410 --> 01:22:45,350

it looked that it looked like it was wet

1878

01:22:48,640 --> 01:22:47,420

I don't know what he means why I said

1879

01:22:50,320 --> 01:22:48,650

looked like someone had hosed it off

1880

01:22:52,000 --> 01:22:50,330

with a hose that this thing was wet but

1881

01:22:56,350 --> 01:22:52,010

it was boiling at the same time whatever

1882

01:22:57,939 --> 01:22:56,360

this was and I guess he says that

1883

01:22:59,350 --> 01:22:57,949

eventually the military showed up and

1884

01:23:00,880 --> 01:22:59,360

told him to leave and he says at that

1885

01:23:04,290 --> 01:23:00,890

point in time they don't know what

1886

01:23:06,640 --> 01:23:04,300

happened they don't that that's the only

1887

01:23:08,110 --> 01:23:06,650

the only stories I have from the

1888

01:23:09,370 --> 01:23:08,120

southern crash site because I break it

1889

01:23:12,220 --> 01:23:09,380

down to the southern crash site in the

1890

01:23:13,720 --> 01:23:12,230

northern crash site I like to I like to

1891

01:23:15,880 --> 01:23:13,730

talk about that one first because most

1892

01:23:20,290 --> 01:23:15,890

the more interesting story is the orange

1893

01:23:21,729 --> 01:23:20,300

object so okay like I said so they

1894

01:23:24,340 --> 01:23:21,739

thought this orange object plummeted

1895

01:23:27,580 --> 01:23:24,350

into the ground on the west side of the

1896

01:23:29,770 --> 01:23:27,590

Salt Lake and but in reality it was it

1897

01:23:33,580 --> 01:23:29,780

collided with that green object and it

1898

01:23:39,520 --> 01:23:33,590

took off going towards Nevada and next

1899

01:23:42,640 --> 01:23:39,530

thing you know was I'd say around 10:40

1900

01:23:45,600 --> 01:23:42,650

10:45 in the morning the next thing you

1901

01:23:49,290 --> 01:23:45,610

know there's a report by a man named uh

1902

01:23:53,200 --> 01:23:49,300

let me look real quick look at my notes

1903

01:23:55,240 --> 01:23:53,210

there's a guy named Hobbs and Hobbs he

1904

01:23:57,970 --> 01:23:55,250

was working for the Southern Pacific

1905

01:24:00,010 --> 01:23:57,980

Railroad WS Hobbs he was an assistant

1906

01:24:03,160 --> 01:24:00,020

train master in a town called Montello

1907

01:24:06,520 --> 01:24:03,170

Nevada and he says that they heard a

1908

01:24:08,080 --> 01:24:06,530

heavy explosion around 10:30 to 10:40

1909

01:24:10,270 --> 01:24:08,090

and he saw this said that they saw a

1910

01:24:12,580 --> 01:24:10,280

huge column of smoke and dust hanging in

1911

01:24:15,459 --> 01:24:12,590

the sky and they said that they saw a

1912

01:24:16,000 --> 01:24:15,469

blue and yellow smoke coming out of an

1913

01:24:19,870 --> 01:24:16,010

area known

1914

01:24:21,550 --> 01:24:19,880

as the dairy Valley well something

1915

01:24:24,250 --> 01:24:21,560

interesting to note was that this was a

1916

01:24:26,920 --> 01:24:24,260

hundred and twelve miles west of Ogden

1917

01:24:29,020 --> 01:24:26,930

Utah so this object collided with the

1918

01:24:31,120 --> 01:24:29,030

green object and went a hundred and

1919

01:24:34,350 --> 01:24:31,130

twelve miles and about five ten minutes

1920

01:24:37,180 --> 01:24:34,360

and crashed in Nevada so this thing was

1921

01:24:38,860 --> 01:24:37,190

going at supersonic speeds faster than

1922

01:24:43,440 --> 01:24:38,870

any vehicle or any kind of flying

1923

01:24:47,890 --> 01:24:46,090

anyway so he says that they see the

1924

01:24:49,060 --> 01:24:47,900

smoke cloud in the air for several

1925

01:24:52,330 --> 01:24:49,070

minutes and he says that it slowly

1926

01:24:53,770 --> 01:24:52,340

drifted away and the quick note that I

1927

01:24:55,930 --> 01:24:53,780

would like to make from the ogden stay

1928

01:24:57,490 --> 01:24:55,940

in standard examiner from july 8th is

1929

01:24:59,950 --> 01:24:57,500

that hobbes was interviewed and he said

1930

01:25:02,890 --> 01:24:59,960

that there was no no blasting an area at

1931

01:25:06,790 --> 01:25:02,900

the time so they don't know what caused

1932

01:25:08,710 --> 01:25:06,800

this explosion well on July 8th which is

1933

01:25:12,040 --> 01:25:08,720

the day after a guy named Ralph Gibbs

1934

01:25:13,510 --> 01:25:12,050

who's a soil conservationist him he got

1935

01:25:15,520 --> 01:25:13,520

a group of ranchers together from

1936

01:25:18,070 --> 01:25:15,530

montello to go investigate this area

1937

01:25:20,650 --> 01:25:18,080

where the smoke was coming from and he

1938

01:25:23,410 --> 01:25:20,660

says the next day they found a 600 acre

1939

01:25:26,590 --> 01:25:23,420

tract of burnt land in the dairy valley

1940

01:25:28,900 --> 01:25:26,600

which at that time was 26 miles north of

1941

01:25:30,460 --> 01:25:28,910

the town of Montello nowadays Montello

1942

01:25:33,160 --> 01:25:30,470

is kind of a ghost town no one really

1943

01:25:35,410 --> 01:25:33,170

lives there because a fire decimated a

1944

01:25:40,330 --> 01:25:35,420

big portion of the town shortly after

1945

01:25:42,400 --> 01:25:40,340

this actually but they said that there

1946

01:25:44,650 --> 01:25:42,410

was no evidence of a meteor there was no

1947

01:25:45,970 --> 01:25:44,660

evidence of a fire but I mean they're

1948

01:25:48,010 --> 01:25:45,980

obviously there was burnt land but there

1949

01:25:50,650 --> 01:25:48,020

was no smoldering it look like someone

1950

01:25:51,160 --> 01:25:50,660

had put the fire out was the word I'm

1951

01:25:55,240 --> 01:25:51,170

looking for

1952

01:25:56,710 --> 01:25:55,250

and they said around 1:00 p.m. while

1953

01:26:00,360 --> 01:25:56,720

they were heading out to the crash site

1954

01:26:03,340 --> 01:26:00,370

they said that they saw a b-36 bomber

1955

01:26:06,340 --> 01:26:03,350

with a vapor trail flying from Ogden

1956

01:26:08,350 --> 01:26:06,350

Utah coming towards Nevada because at

1957

01:26:10,840 --> 01:26:08,360

this point in time the newspapers were

1958

01:26:13,360 --> 01:26:10,850

going crazy at the time posting the

1959

01:26:15,520 --> 01:26:13,370

story about a UFO and I think that was

1960

01:26:17,860 --> 01:26:15,530

what their version of trying to come up

1961

01:26:19,660 --> 01:26:17,870

with some kind of a cover like a

1962

01:26:22,210 --> 01:26:19,670

cover-up because they said that there

1963

01:26:23,860 --> 01:26:22,220

was obviously a b-36 bomber and there

1964

01:26:25,750 --> 01:26:23,870

they had a vapor trail coming out the

1965

01:26:27,880 --> 01:26:25,760

back and the military later so that

1966

01:26:29,530 --> 01:26:27,890

that's what people thought they saw when

1967

01:26:32,230 --> 01:26:29,540

they saw this UFO crash

1968

01:26:34,030 --> 01:26:32,240

so kind of kind of a kind of a dumb

1969

01:26:39,370 --> 01:26:34,040

explanation but that's what they said it

1970

01:26:42,250 --> 01:26:39,380

was so you're is this all your own

1971

01:26:47,110 --> 01:26:42,260

thoughts or have you read anyone else's

1972

01:26:49,570 --> 01:26:47,120

ideas on this particular one - has

1973

01:26:51,940 --> 01:26:49,580

anyone else corroborated that they think

1974

01:26:54,390 --> 01:26:51,950

there was a collision and that both

1975

01:26:56,560 --> 01:26:54,400

these vehicles or whatever they were

1976

01:26:59,920 --> 01:26:56,570

crashed from the collision

1977

01:27:02,470 --> 01:26:59,930

oh yeah well one quick note I was gonna

1978

01:27:05,080 --> 01:27:02,480

make is that most most of the cases that

1979

01:27:07,330 --> 01:27:05,090

I told you about besides the 1952 mine

1980

01:27:09,460 --> 01:27:07,340

crash there's really no other

1981

01:27:12,580 --> 01:27:09,470

investigators besides me and the will

1982

01:27:14,800 --> 01:27:12,590

Willard McIntyre but for this specific

1983

01:27:16,300 --> 01:27:14,810

incident there's all kinds of people

1984

01:27:18,370 --> 01:27:16,310

that said that they saw the two object

1985

01:27:19,720 --> 01:27:18,380

hit each other but there's also people

1986

01:27:21,190 --> 01:27:19,730

that said that they didn't see the two

1987

01:27:23,890 --> 01:27:21,200

objects at each other at the same time

1988

01:27:29,980 --> 01:27:23,900

but there's more people that say that it

1989

01:27:31,390 --> 01:27:29,990

hit then didn't I mean I have different

1990

01:27:33,040 --> 01:27:31,400

stories from different people around

1991

01:27:38,320 --> 01:27:33,050

town I could use their names and stuff

1992

01:27:39,610 --> 01:27:38,330

if you need me to but a lot of people

1993

01:27:42,820 --> 01:27:39,620

asked me well how do you know that this

1994

01:27:44,500 --> 01:27:42,830

wasn't a bolide meteor like the one that

1995

01:27:46,270 --> 01:27:44,510

was seen in Russia somewhat recently

1996

01:27:48,040 --> 01:27:46,280

mm-hmm

1997

01:27:49,750 --> 01:27:48,050

there's a couple different people that

1998

01:27:51,640 --> 01:27:49,760

worked at colleges like there's a guy

1999

01:27:53,620 --> 01:27:51,650

named Charles Charles Osmond Webber

2000

01:27:55,650 --> 01:27:53,630

there Charles Osmond he worked at Webber

2001
01:27:58,660 --> 01:27:55,660
College he was an astronomer instructor

2002
01:28:02,260 --> 01:27:58,670
he said that the long trail of smoke in

2003
01:28:03,520 --> 01:28:02,270
orange I guess like the fire he said

2004
01:28:05,740 --> 01:28:03,530
those were characteristics of a

2005
01:28:07,540 --> 01:28:05,750
meteorite but he said meteorites enter

2006
01:28:08,830 --> 01:28:07,550
the atmosphere at a speed at about seven

2007
01:28:11,380 --> 01:28:08,840
miles per second and are usually

2008
01:28:15,310 --> 01:28:11,390
entirely consumed before reaching the

2009
01:28:16,990 --> 01:28:15,320
earth so he didn't think that he didn't

2010
01:28:18,550 --> 01:28:17,000
think at the time that this was a UF

2011
01:28:23,140 --> 01:28:18,560
that this was a meteor he thought that

2012
01:28:24,400 --> 01:28:23,150
this was something else I guess like I

2013
01:28:26,560 --> 01:28:24,410

said then there's the people and the

2014

01:28:28,390 --> 01:28:26,570

Ogden Municipal Airport and the Salt

2015

01:28:32,070 --> 01:28:28,400

Lake Airport they said that they saw the

2016

01:28:35,650 --> 01:28:32,080

object was a square square object right

2017

01:28:37,650 --> 01:28:35,660

and that's about the fourth or fifth UFO

2018

01:28:42,440 --> 01:28:37,660

that I've heard described as a square

2019

01:28:45,710 --> 01:28:42,450

object yeah the one recently was

2020

01:28:49,970 --> 01:28:45,720

like an orange square object from an air

2021

01:28:53,180 --> 01:28:49,980

flight in and actually out I think it is

2022

01:28:55,220 --> 01:28:53,190

in Nevada or Utah out there I don't know

2023

01:29:01,370 --> 01:28:55,230

if you've heard about that case which

2024

01:29:05,620 --> 01:29:01,380

one it all started with a ham radio the

2025

01:29:08,840 --> 01:29:05,630

report that someone heard on their radio

2026

01:29:11,840 --> 01:29:08,850

Jessica I'm sorry Erica Luke's is

2027

01:29:13,760 --> 01:29:11,850

investigating it I'm not sure yeah it's

2028

01:29:17,380 --> 01:29:13,770

interesting but it's one of the square

2029

01:29:19,940 --> 01:29:17,390

ones you do hear about so nothing

2030

01:29:23,360 --> 01:29:19,950

surprised me when it comes to that that

2031

01:29:26,990 --> 01:29:23,370

did sound a little bit like a meteor or

2032

01:29:30,650 --> 01:29:27,000

a fireball which I've seen myself I've

2033

01:29:32,390 --> 01:29:30,660

seen a fireball I don't recall if it had

2034

01:29:35,930 --> 01:29:32,400

a streak behind it or not but it was

2035

01:29:37,940 --> 01:29:35,940

definitely like an orange and it was the

2036

01:29:39,290 --> 01:29:37,950

most that I've had a UFO sighting and

2037

01:29:41,900 --> 01:29:39,300

this thing was the most amazing thing

2038

01:29:44,120 --> 01:29:41,910

I've ever seen it's this big orange ball

2039

01:29:47,900 --> 01:29:44,130

just turning and as it was moving across

2040

01:29:50,180 --> 01:29:47,910

the sky over me really a son that sounds

2041

01:29:54,200 --> 01:29:50,190

cool yeah yeah

2042

01:29:55,820 --> 01:29:54,210

so had anyone looked into actually the

2043

01:29:59,810 --> 01:29:55,830

sites where these things supposedly

2044

01:30:01,100 --> 01:29:59,820

crashed um yeah there's a newspaper let

2045

01:30:03,620 --> 01:30:01,110

me find it real quick there's a

2046

01:30:07,190 --> 01:30:03,630

newspaper story it comes from the Ogden

2047

01:30:09,370 --> 01:30:07,200

standard examiner on July 9 to 1952 they

2048

01:30:11,780 --> 01:30:09,380

actually have pictures of the burnt area

2049

01:30:14,240 --> 01:30:11,790

where this object crash and they

2050

01:30:17,390 --> 01:30:14,250

describe where it was at and how many

2051
01:30:20,210 --> 01:30:17,400
acres it is and they describe the people

2052
01:30:23,120 --> 01:30:20,220
that were there and they go into a lot

2053
01:30:26,810 --> 01:30:23,130
of detail about it the southern site

2054
01:30:30,530 --> 01:30:26,820
they don't have any pictures of it but

2055
01:30:34,010 --> 01:30:30,540
and the July 8th 1952 edition of the

2056
01:30:37,160 --> 01:30:34,020
Ogden standard examiner there is there

2057
01:30:39,110 --> 01:30:37,170
are a couple of professors and witnesses

2058
01:30:42,110 --> 01:30:39,120
that described the green pea fireball

2059
01:30:47,990 --> 01:30:42,120
and they describe what they saw when it

2060
01:30:50,600 --> 01:30:48,000
flew by it says Charles Osmond and they

2061
01:30:52,100 --> 01:30:50,610
say dr. Aaron Thomas they worked at the

2062
01:30:55,010 --> 01:30:52,110
University of Utah at the time as

2063
01:30:56,180 --> 01:30:55,020

professors they says that the green of

2064

01:30:57,500 --> 01:30:56,190

the green pea fireball

2065

01:31:00,800 --> 01:30:57,510

would have had to have been awfully big

2066

01:31:02,810 --> 01:31:00,810

is what they said for it to be a meteor

2067

01:31:04,100 --> 01:31:02,820

at the digest this is before the one

2068

01:31:08,709 --> 01:31:04,110

that happened in Russia recently of

2069

01:31:13,550 --> 01:31:08,719

course right the cella bins

2070

01:31:16,160 --> 01:31:13,560

which was really I think they found

2071

01:31:17,750 --> 01:31:16,170

pieces of that in a lake or at least I

2072

01:31:19,970 --> 01:31:17,760

know they actually did find a lot of

2073

01:31:22,090 --> 01:31:19,980

pieces of that which when that exploded

2074

01:31:24,860 --> 01:31:22,100

that was really something else

2075

01:31:28,600 --> 01:31:24,870

are there other cases as well that

2076

01:31:32,209 --> 01:31:28,610

you've looked into or anything more

2077

01:31:33,860 --> 01:31:32,219

let's see there was up the 1970s we

2078

01:31:37,790 --> 01:31:33,870

wanted to talk about that briefly the

2079

01:31:39,350 --> 01:31:37,800

mass UFO landing yeah oh it's not the

2080

01:31:41,300 --> 01:31:39,360

one you've already know you haven't how

2081

01:31:42,800 --> 01:31:41,310

to cover that one yet but it has to do

2082

01:31:45,530 --> 01:31:42,810

with another copper mine in which i

2083

01:31:48,110 --> 01:31:45,540

think is kind of strange you often hear

2084

01:31:50,570 --> 01:31:48,120

about things going on around copper

2085

01:31:52,400 --> 01:31:50,580

mines it's actually the same copper mine

2086

01:31:57,050 --> 01:31:52,410

that the object supposedly crashed into

2087

01:31:59,990 --> 01:31:57,060

in 1952 okay I got this story again when

2088

01:32:01,100 --> 01:32:00,000

I was featured in the Ely times people

2089

01:32:02,840 --> 01:32:01,110

thought I don't know people thought I

2090

01:32:04,610 --> 01:32:02,850

was looking for this story when I was

2091

01:32:06,110 --> 01:32:04,620

talking about the other story but I

2092

01:32:09,260 --> 01:32:06,120

start getting a lot of miners that

2093

01:32:12,709 --> 01:32:09,270

worked in those 1970s at the Robinson

2094

01:32:17,870 --> 01:32:12,719

copper mine well this event took place

2095

01:32:20,150 --> 01:32:17,880

in the 1970s the early 1970s and I guess

2096

01:32:23,150 --> 01:32:20,160

the best way to word this is this was

2097

01:32:27,100 --> 01:32:23,160

again during the night shift and the

2098

01:32:29,979 --> 01:32:27,110

individual says that well individuals

2099

01:32:32,959 --> 01:32:29,989

they said that during the night shift

2100

01:32:34,970 --> 01:32:32,969

the lights the lights were shutting off

2101
01:32:37,010 --> 01:32:34,980
and on off and on like there was either

2102
01:32:39,170 --> 01:32:37,020
a shortened the lights or that there was

2103
01:32:41,209 --> 01:32:39,180
their generators were going out and he

2104
01:32:43,910 --> 01:32:41,219
said that the lights flash on and on and

2105
01:32:45,410 --> 01:32:43,920
several times and a whoever was in

2106
01:32:46,910 --> 01:32:45,420
charge of the mine at the time I call

2107
01:32:49,220 --> 01:32:46,920
him the foreman because I'm not really

2108
01:32:51,380 --> 01:32:49,230
sure what title they would what title

2109
01:32:54,080 --> 01:32:51,390
that would be they said the mine Foreman

2110
01:32:55,459 --> 01:32:54,090
told all the employees to leave that

2111
01:32:56,689 --> 01:32:55,469
they need to go home because the lights

2112
01:32:59,959 --> 01:32:56,699
weren't working and they couldn't see

2113
01:33:01,760 --> 01:32:59,969

what they were doing so the majority of

2114

01:33:04,010 --> 01:33:01,770

the miners left within a few minutes of

2115

01:33:06,500 --> 01:33:04,020

that and the lights were turning on and

2116

01:33:09,560 --> 01:33:06,510

off meanwhile and he says that the

2117

01:33:11,300 --> 01:33:09,570

lights turned back on and there were

2118

01:33:14,209 --> 01:33:11,310

I guess a couple small groups of miners

2119

01:33:16,010 --> 01:33:14,219

left well the lights shut off again and

2120

01:33:18,050 --> 01:33:16,020

turned back on and they shut off again

2121

01:33:20,479 --> 01:33:18,060

and this time the foreman and a more

2122

01:33:22,160 --> 01:33:20,489

Stern voice getting kind of angry says

2123

01:33:24,290 --> 01:33:22,170

well you guys need to all leave this

2124

01:33:26,540 --> 01:33:24,300

mine you need to get out of here the

2125

01:33:29,479 --> 01:33:26,550

lights are the lights aren't working so

2126
01:33:31,490 --> 01:33:29,489
you need to go home so they thought that

2127
01:33:33,439 --> 01:33:31,500
was kind of strange that why would they

2128
01:33:35,120 --> 01:33:33,449
want him out so bad like why would they

2129
01:33:37,850 --> 01:33:35,130
want him out within minutes like to get

2130
01:33:39,950 --> 01:33:37,860
out get out get out type of thing so I

2131
01:33:42,200 --> 01:33:39,960
guess he said a couple more people left

2132
01:33:45,649 --> 01:33:42,210
and there was only a few stragglers left

2133
01:33:47,479 --> 01:33:45,659
in this mine and I guess there was

2134
01:33:50,240 --> 01:33:47,489
another series of lights flashing on and

2135
01:33:52,580 --> 01:33:50,250
off and this time the foreman approached

2136
01:33:54,109 --> 01:33:52,590
who are the couple groups of people that

2137
01:33:56,089 --> 01:33:54,119
were left he started raising his voice

2138
01:33:59,899 --> 01:33:56,099

and yelling saying you guys need to get

2139

01:34:02,000 --> 01:33:59,909

out of here now that the lights weren't

2140

01:34:03,500 --> 01:34:02,010

working and that they need to get out or

2141

01:34:08,839 --> 01:34:03,510

there were gonna be fired or that their

2142

01:34:11,359 --> 01:34:08,849

jobs are gonna be at stake so off to go

2143

01:34:12,830 --> 01:34:11,369

to an individual person story to tell

2144

01:34:16,220 --> 01:34:12,840

you what he saw and then I'll tell you

2145

01:34:19,850 --> 01:34:16,230

go on from there sure this individual

2146

01:34:21,800 --> 01:34:19,860

person he says that he was one of I

2147

01:34:24,109 --> 01:34:21,810

guess the last couple people there he

2148

01:34:26,510 --> 01:34:24,119

was car pulling and a Jeep Jeep Wrangler

2149

01:34:28,040 --> 01:34:26,520

he said so they were driving down this

2150

01:34:30,709 --> 01:34:28,050

dirt road heading towards the town of

2151
01:34:32,089 --> 01:34:30,719
Ruth and this road kind of wraps around

2152
01:34:33,620 --> 01:34:32,099
the whole edge of the mine and goes

2153
01:34:36,500 --> 01:34:33,630
through like a wooded area before it

2154
01:34:38,300 --> 01:34:36,510
comes out in the city or the town so he

2155
01:34:41,390 --> 01:34:38,310
says they were between the wooded area

2156
01:34:42,950 --> 01:34:41,400
and the mine but they were weren't in

2157
01:34:44,350 --> 01:34:42,960
the actual mine itself he said they

2158
01:34:46,490 --> 01:34:44,360
pulled over to go use the bathroom

2159
01:34:48,169 --> 01:34:46,500
before they went into town because

2160
01:34:50,300 --> 01:34:48,179
they're gonna go gambling or do whatever

2161
01:34:52,970 --> 01:34:50,310
in Ely cuz I told you Ealy's twelve

2162
01:34:54,830 --> 01:34:52,980
miles from Ruth so they were gonna go

2163
01:34:57,229 --> 01:34:54,840

get ready to go to the casino and go

2164

01:35:00,050 --> 01:34:57,239

gamble and he says while they were using

2165

01:35:02,600 --> 01:35:00,060

the bathroom they saw some kind of a

2166

01:35:06,350 --> 01:35:02,610

glowing object come out of an area

2167

01:35:08,870 --> 01:35:06,360

called the duck the duck Creek wildlife

2168

01:35:11,120 --> 01:35:08,880

area which is not to be confused with

2169

01:35:13,729 --> 01:35:11,130

the duck water Indian Reservation the

2170

01:35:16,550 --> 01:35:13,739

duck Creek Wildlife Area is kind of like

2171

01:35:18,950 --> 01:35:16,560

a national park that anyone could go

2172

01:35:20,990 --> 01:35:18,960

visit there even nowadays well the

2173

01:35:23,600 --> 01:35:21,000

object came from that general area it

2174

01:35:25,040 --> 01:35:23,610

flew slowly over the copper

2175

01:35:26,479 --> 01:35:25,050

where they were just at and he said that

2176

01:35:28,490 --> 01:35:26,489

it looked like it was having trouble

2177

01:35:30,590 --> 01:35:28,500

staying in the air and whatever this

2178

01:35:34,250 --> 01:35:30,600

object was slowly landing and it was

2179

01:35:37,790 --> 01:35:34,260

spraying a like a reddish colored oil or

2180

01:35:39,320 --> 01:35:37,800

like a thick liquid of some kind from

2181

01:35:43,310 --> 01:35:39,330

the distance that they saw and it was

2182

01:35:46,220 --> 01:35:43,320

going all over the ground and this

2183

01:35:49,640 --> 01:35:46,230

object landed in the mine and again the

2184

01:35:51,260 --> 01:35:49,650

lights shut off almost as if as if this

2185

01:35:54,260 --> 01:35:51,270

object was making the lights shut on and

2186

01:35:56,840 --> 01:35:54,270

off and I guess within a few minutes the

2187

01:35:58,780 --> 01:35:56,850

exact word the exact word I was given by

2188

01:36:02,060 --> 01:35:58,790

several witnesses within minutes

2189

01:36:03,380 --> 01:36:02,070

military helicopters came flying over

2190

01:36:06,350 --> 01:36:03,390

the mountains like they were teether

2191

01:36:09,410 --> 01:36:06,360

tracking it or this was a man-made UFO

2192

01:36:11,420 --> 01:36:09,420

and I guess they landed in the copper

2193

01:36:12,920 --> 01:36:11,430

mine and I don't know what what they

2194

01:36:14,720 --> 01:36:12,930

were doing but they landed the copper

2195

01:36:17,060 --> 01:36:14,730

mine and the very next day I was told

2196

01:36:21,260 --> 01:36:17,070

the helicopters were seen carrying this

2197

01:36:21,680 --> 01:36:21,270

object off over over the south side of

2198

01:36:25,700 --> 01:36:21,690

Ely

2199

01:36:27,650 --> 01:36:25,710

which means I literally I I guess

2200

01:36:29,420 --> 01:36:27,660

hundreds of people's could have seen

2201

01:36:31,280 --> 01:36:29,430

this thing flying over the city I know a

2202

01:36:34,040 --> 01:36:31,290

few dozen have contacted me there's

2203

01:36:35,930 --> 01:36:34,050

probably more and they had this thing on

2204

01:36:38,570 --> 01:36:35,940

a tarp and they were flying towards

2205

01:36:43,220 --> 01:36:38,580

modern-day area 51 which is towards the

2206

01:36:47,959 --> 01:36:43,230

south but what I think is interesting

2207

01:36:50,330 --> 01:36:47,969

about this was as far as I know this is

2208

01:36:54,410 --> 01:36:50,340

the earliest case that I know where the

2209

01:36:56,300 --> 01:36:54,420

military might have had a man-made UFO

2210

01:37:00,470 --> 01:36:56,310

that was documented and was being

2211

01:37:02,060 --> 01:37:00,480

followed by these helicopters I I think

2212

01:37:03,530 --> 01:37:02,070

the two scenarios that come up in my

2213

01:37:06,740 --> 01:37:03,540

head is this thing was either a man-made

2214

01:37:08,209 --> 01:37:06,750

UFO that was crashing or was starting to

2215

01:37:10,370 --> 01:37:08,219

crash and they need to make an emergency

2216

01:37:13,880 --> 01:37:10,380

landing and of course that was the only

2217

01:37:15,590 --> 01:37:13,890

area and that that was safe to land or I

2218

01:37:18,620 --> 01:37:15,600

think what was happened is it was a real

2219

01:37:20,420 --> 01:37:18,630

UFO and it was crashing and going stuck

2220

01:37:22,790 --> 01:37:20,430

I said it was flying slowly slow enough

2221

01:37:25,550 --> 01:37:22,800

to where they could track it and that's

2222

01:37:27,020 --> 01:37:25,560

when they sent these helicopters I don't

2223

01:37:28,820 --> 01:37:27,030

know where the helicopters came from

2224

01:37:31,850 --> 01:37:28,830

like I said Hill Air Force Base is the

2225

01:37:33,620 --> 01:37:31,860

closest actual military base or it could

2226

01:37:35,520 --> 01:37:33,630

have come from area 51 because that did

2227

01:37:38,790 --> 01:37:35,530

exist at this point in time

2228

01:37:42,330 --> 01:37:38,800

how far away is that military base Ogden

2229

01:37:43,680 --> 01:37:42,340

Utah yeah from that it's 200 miles in a

2230

01:37:46,709 --> 01:37:43,690

car I don't know how long that would

2231

01:37:49,169 --> 01:37:46,719

take flying yeah this sort of rings like

2232

01:37:51,689 --> 01:37:49,179

the a little bit like the cash Landrum

2233

01:37:55,979 --> 01:37:51,699

case which was a 1980

2234

01:37:58,290 --> 01:37:55,989

you know later later but there are some

2235

01:38:00,209 --> 01:37:58,300

similarities and there are more people

2236

01:38:03,660 --> 01:38:00,219

that are thinking that was actually a

2237

01:38:05,339 --> 01:38:03,670

military experiment gone wrong I don't

2238

01:38:08,220 --> 01:38:05,349

know if he looked into that case at all

2239

01:38:09,899 --> 01:38:08,230

or read a part about it yeah and there

2240

01:38:12,419 --> 01:38:09,909

were several helicopters actually

2241

01:38:13,979 --> 01:38:12,429

trailing this thing I think I can't

2242

01:38:18,359 --> 01:38:13,989

remember exactly how many something like

2243

01:38:19,500 --> 01:38:18,369

for that specific witness that didn't

2244

01:38:21,930 --> 01:38:19,510

look like the helicopters weren't a

2245

01:38:23,729 --> 01:38:21,940

really big hurry they were just kind of

2246

01:38:25,290 --> 01:38:23,739

casually flying in that area like they

2247

01:38:26,760 --> 01:38:25,300

knew that it was gonna land in that area

2248

01:38:28,399 --> 01:38:26,770

or that they already knew that it was

2249

01:38:32,580 --> 01:38:28,409

down there

2250

01:38:34,529 --> 01:38:32,590

it's a very you know it could certainly

2251

01:38:36,990 --> 01:38:34,539

happen where you know they are

2252

01:38:39,120 --> 01:38:37,000

experimenting with something military

2253

01:38:40,859 --> 01:38:39,130

that went wrong somehow

2254

01:38:43,620 --> 01:38:40,869

you know people weren't supposed to see

2255

01:38:46,410 --> 01:38:43,630

it I can I could see that happen and how

2256

01:38:49,560 --> 01:38:46,420

far away is that from area 51 um

2257

01:38:51,899 --> 01:38:49,570

area 51 is about an hour and a half hour

2258

01:38:53,879 --> 01:38:51,909

hour and a half okay by flying not too

2259

01:38:56,879 --> 01:38:53,889

far away I'm flying it Whitney would

2260

01:38:58,589 --> 01:38:56,889

take a few minutes right so when when

2261

01:39:02,250 --> 01:38:58,599

the other incidents happened in the 9th

2262

01:39:04,790 --> 01:39:02,260

early 60s in the 50s area 51 basically

2263

01:39:07,439 --> 01:39:04,800

didn't have the capabilities to send out

2264

01:39:09,720 --> 01:39:07,449

vehicles or anything that's something I

2265

01:39:10,709 --> 01:39:09,730

found was thought was interesting about

2266

01:39:12,899 --> 01:39:10,719

the whole thing is they didn't really

2267

01:39:14,609 --> 01:39:12,909

have helicopters well they had early

2268

01:39:16,439 --> 01:39:14,619

helicopters but nothing capable of

2269

01:39:20,790 --> 01:39:16,449

lifting the UFO or anything in the

2270

01:39:23,339 --> 01:39:20,800

earlier cases mm-hmm so a little bit

2271

01:39:25,919 --> 01:39:23,349

about yourself now these things you've

2272

01:39:28,770 --> 01:39:25,929

deep you've looked into deeply and you

2273

01:39:32,339 --> 01:39:28,780

it sounds like you always for all these

2274

01:39:35,580 --> 01:39:32,349

cases that you actually put your name in

2275

01:39:38,100 --> 01:39:35,590

a newspaper with your phone number and

2276

01:39:41,330 --> 01:39:38,110

email address for someone so someone can

2277

01:39:44,459 --> 01:39:41,340

contact you is that exactly what you do

2278

01:39:46,560 --> 01:39:44,469

um I don't start off doing that I mean I

2279

01:39:48,540 --> 01:39:46,570

I do it eventually but it's usually not

2280

01:39:49,320 --> 01:39:48,550

my first way of contacting people

2281

01:39:51,270 --> 01:39:49,330

usually I'll be

2282

01:39:53,460 --> 01:39:51,280

like a witness will call me and I'll ask

2283

01:39:55,110 --> 01:39:53,470

them if they had anyone that was with

2284

01:39:56,430 --> 01:39:55,120

them when it happened or if they know of

2285

01:39:58,980 --> 01:39:56,440

any neighbors or anything

2286

01:40:00,600 --> 01:39:58,990

but if I'd meet if I get to a dead end I

2287

01:40:02,880 --> 01:40:00,610

will put my phone number and all it out

2288

01:40:05,010 --> 01:40:02,890

there and usually somebody will call me

2289

01:40:07,980 --> 01:40:05,020

somebody I haven't talked to before will

2290

01:40:09,780 --> 01:40:07,990

contact me that way right and you know

2291

01:40:13,020 --> 01:40:09,790

some of these are going back to 1952

2292

01:40:15,530 --> 01:40:13,030

it's almost as far back as Roswell a lot

2293

01:40:18,480 --> 01:40:15,540

of these people are gone at this point

2294

01:40:21,000 --> 01:40:18,490

did you get any like secondhand like my

2295

01:40:24,000 --> 01:40:21,010

father said this or my aunt said this

2296

01:40:26,430 --> 01:40:24,010

type of situations um yeah the best way

2297

01:40:29,310 --> 01:40:26,440

the word it is I get I get a lot of

2298

01:40:31,920 --> 01:40:29,320

second and third hand witnesses but I do

2299

01:40:33,990 --> 01:40:31,930

get a couple of firsthand witnesses and

2300

01:40:35,520 --> 01:40:34,000

if the second hand witnesses stories

2301

01:40:38,400 --> 01:40:35,530

closely match the first hand witness

2302

01:40:41,090 --> 01:40:38,410

stories usually I'll I'll throw those in

2303

01:40:44,010 --> 01:40:41,100

there and and investigate those further

2304

01:40:46,110 --> 01:40:44,020

but this did happen so long ago of most

2305

01:40:48,080 --> 01:40:46,120

of these cases that you do have to look

2306

01:40:50,820 --> 01:40:48,090

into the third hand stories and try to

2307

01:40:53,430 --> 01:40:50,830

it's best that you can try to piece it

2308

01:40:55,080 --> 01:40:53,440

together and see if it matches the first

2309

01:40:57,690 --> 01:40:55,090

hand witness yeah

2310

01:40:59,280 --> 01:40:57,700

like the Train story has I'd say about a

2311

01:41:01,440 --> 01:40:59,290

dozen people I've talked to that we're

2312

01:41:03,510 --> 01:41:01,450

actually there and then I'd say there's

2313

01:41:05,640 --> 01:41:03,520

probably about a dozen people who are

2314

01:41:08,190 --> 01:41:05,650

second hand witnesses that I have like

2315

01:41:11,880 --> 01:41:08,200

for instance the guy who was a kid at

2316

01:41:16,740 --> 01:41:11,890

the time but his mom went out there oh I

2317

01:41:18,540 --> 01:41:16,750

see uh-huh and how early you were

2318

01:41:22,710 --> 01:41:18,550

talking about you go all over the

2319

01:41:26,790 --> 01:41:22,720

country mm-hmm so is this is this more

2320

01:41:29,910 --> 01:41:26,800

than a hobby to you I primarily look at

2321

01:41:32,040 --> 01:41:29,920

it as a hobby like oh I like I guess the

2322

01:41:34,350 --> 01:41:32,050

best way to word it is I'll get really

2323

01:41:35,790 --> 01:41:34,360

heavy into the UFO thing for the Ely

2324

01:41:38,070 --> 01:41:35,800

case for a couple months and then I'll

2325

01:41:42,060 --> 01:41:38,080

kind of lay back then I'll get heavy on

2326

01:41:45,030 --> 01:41:42,070

to it again and lay back in April we

2327

01:41:46,470 --> 01:41:45,040

were over in Ely again we actually we

2328

01:41:50,190 --> 01:41:46,480

actually found the crash site to that

2329

01:41:52,230 --> 01:41:50,200

Train story but I think it's ends up

2330

01:41:54,960 --> 01:41:52,240

September so we're supposed to come back

2331

01:41:57,180 --> 01:41:54,970

and can you describe when you say you

2332

01:41:59,339 --> 01:41:57,190

actually found the crash site

2333

01:42:03,089 --> 01:41:59,349

how how you

2334

01:42:05,250 --> 01:42:03,099

who came about that conclusion um yeah

2335

01:42:07,139 --> 01:42:05,260

well we were we were given a couple

2336

01:42:10,409 --> 01:42:07,149

landmarks we were told it was at the

2337

01:42:13,379 --> 01:42:10,419

base of a mountain and that there were

2338

01:42:14,669 --> 01:42:13,389

train tracks farmers field and it would

2339

01:42:16,469 --> 01:42:14,679

have had to have been someplace that was

2340

01:42:18,089 --> 01:42:16,479

hard to get to because the train or the

2341

01:42:20,939 --> 01:42:18,099

crane would have had to have lifted the

2342

01:42:22,649 --> 01:42:20,949

UFO from wherever it was at and we were

2343

01:42:25,109 --> 01:42:22,659

also told to look for a specific mile

2344

01:42:27,089 --> 01:42:25,119

marker next to the tracks because at the

2345

01:42:32,759 --> 01:42:27,099

time the tracks were labeled every one

2346

01:42:35,459 --> 01:42:32,769

or two miles generally we found the we

2347

01:42:37,229 --> 01:42:35,469

found the mile marker well not the mile

2348

01:42:38,669 --> 01:42:37,239

marker it was destroyed with time but we

2349

01:42:42,270 --> 01:42:38,679

found the one before and the one after

2350

01:42:44,219 --> 01:42:42,280

so somewhere in the middle was where we

2351
01:42:45,810 --> 01:42:44,229
started looking and I know that there's

2352
01:42:47,159 --> 01:42:45,820
a couple there's room for error of

2353
01:42:50,009 --> 01:42:47,169
course could happen a little bit before

2354
01:42:53,479 --> 01:42:50,019
a little bit after that but we found

2355
01:42:57,060 --> 01:42:53,489
that strip of copper-colored dirt and

2356
01:42:58,949 --> 01:42:57,070
that dirt would have had to have been

2357
01:43:01,229 --> 01:42:58,959
brought from one of the properties at

2358
01:43:04,520 --> 01:43:01,239
the mine owned and the property that the

2359
01:43:09,029 --> 01:43:04,530
mine owned was I guess across the valley

2360
01:43:11,849 --> 01:43:09,039
took the word at best and the mine would

2361
01:43:13,679 --> 01:43:11,859
have never dumped their mining waste on

2362
01:43:14,729 --> 01:43:13,689
non mining property because they would

2363
01:43:16,649 --> 01:43:14,739

have been would have been an

2364

01:43:17,759 --> 01:43:16,659

environmental disaster if the media got

2365

01:43:19,889 --> 01:43:17,769

ahold of that they would have sued him

2366

01:43:21,389 --> 01:43:19,899

somebody would have sued him especially

2367

01:43:22,709 --> 01:43:21,399

if because those farmers fields are

2368

01:43:23,909 --> 01:43:22,719

right there and you can't they probably

2369

01:43:28,290 --> 01:43:23,919

wouldn't want you dumping mining waste

2370

01:43:30,599 --> 01:43:28,300

in their fields but it's that long strip

2371

01:43:33,270 --> 01:43:30,609

along that certain it's like a it's a

2372

01:43:34,739 --> 01:43:33,280

long strip strip it's on a portion of

2373

01:43:37,500 --> 01:43:34,749

the tracks that's next to that Crescent

2374

01:43:43,259 --> 01:43:37,510

moon-shaped part of the tracks it's on a

2375

01:43:46,020 --> 01:43:43,269

bend they have the ditch with water the

2376

01:43:48,629 --> 01:43:46,030

best well the way where the the two

2377

01:43:51,419 --> 01:43:48,639

oldest ranches in the area are right

2378

01:43:52,679 --> 01:43:51,429

next to that crescent moon shape and

2379

01:43:57,479 --> 01:43:52,689

they're next to that portion of the

2380

01:43:59,759 --> 01:43:57,489

tracks and the man that was living at

2381

01:44:02,939 --> 01:43:59,769

Bassett lake ranch said that in at the

2382

01:44:04,349 --> 01:44:02,949

time he was living on a ranch in that

2383

01:44:09,330 --> 01:44:04,359

area and so would have been one of those

2384

01:44:10,379 --> 01:44:09,340

two ranches he was saying I see so so we

2385

01:44:13,080 --> 01:44:10,389

have a couple of different landmarks

2386

01:44:13,630 --> 01:44:13,090

that matched up to that area and the guy

2387

01:44:15,370 --> 01:44:13,640

that works

2388

01:44:17,680 --> 01:44:15,380

a couple people will be talked to the

2389

01:44:19,870 --> 01:44:17,690

break man and we talked to one of the

2390

01:44:24,310 --> 01:44:19,880

engineers and they actually gave us that

2391

01:44:26,080 --> 01:44:24,320

mile marker and so you said the mile

2392

01:44:27,700 --> 01:44:26,090

markers are gone what did you paste it

2393

01:44:30,790 --> 01:44:27,710

out or something how did you come up

2394

01:44:32,740 --> 01:44:30,800

well with there's the old days they

2395

01:44:34,450 --> 01:44:32,750

would have mile markers every like I

2396

01:44:36,220 --> 01:44:34,460

said one or two miles sometimes a little

2397

01:44:40,150 --> 01:44:36,230

bit further depending on the specific

2398

01:44:41,710 --> 01:44:40,160

railroad when you go when you drive next

2399

01:44:43,240 --> 01:44:41,720

to the tracks along the freeway or if

2400

01:44:46,090 --> 01:44:43,250

you get out and walk the tracks they're

2401
01:44:47,950 --> 01:44:46,100
all destroyed basically most of them you

2402
01:44:50,560 --> 01:44:47,960
just see one every once in a while type

2403
01:44:52,630 --> 01:44:50,570
of thing we got extremely lucky that we

2404
01:44:55,690 --> 01:44:52,640
found the one before and the one after

2405
01:44:59,170 --> 01:44:55,700
what we were looking for Sean Pitts the

2406
01:45:00,460 --> 01:44:59,180
museum administrator or the curator he

2407
01:45:02,860 --> 01:45:00,470
told us that he had worked for the

2408
01:45:04,570 --> 01:45:02,870
museum for 20 years or 25 years and he

2409
01:45:06,460 --> 01:45:04,580
had never ever even seen a picture of

2410
01:45:08,230 --> 01:45:06,470
one in person and when we came back

2411
01:45:10,600 --> 01:45:08,240
saying we found two of them and the ones

2412
01:45:11,980 --> 01:45:10,610
that we were looking for you he looked

2413
01:45:16,000 --> 01:45:11,990

like he's seen a ghost he looked all

2414

01:45:18,850 --> 01:45:16,010

freaked out it was kind of funny now did

2415

01:45:20,530 --> 01:45:18,860

you place oh did you did you walk the

2416

01:45:22,360 --> 01:45:20,540

tracks is that what it was and Fergie

2417

01:45:24,280 --> 01:45:22,370

originally walked the tracks and then

2418

01:45:25,090 --> 01:45:24,290

once we started finding what we thought

2419

01:45:28,600 --> 01:45:25,100

was a hot spot

2420

01:45:30,970 --> 01:45:28,610

we got a four-by-four like a like a

2421

01:45:32,920 --> 01:45:30,980

side-by-side quad but I could fit four

2422

01:45:34,960 --> 01:45:32,930

people in it and me my brother and our

2423

01:45:37,810 --> 01:45:34,970

friend Nick drove out there on a quad

2424

01:45:41,020 --> 01:45:37,820

and that's when we started discovering

2425

01:45:42,310 --> 01:45:41,030

more of these landmarks well but it's

2426

01:45:43,990 --> 01:45:42,320

almost like it's hidden in plain sight

2427

01:45:47,860 --> 01:45:44,000

though because you would think that it

2428

01:45:50,440 --> 01:45:47,870

happened further away from town than

2429

01:45:53,590 --> 01:45:50,450

where it's at mm-hmm

2430

01:45:55,480 --> 01:45:53,600

all right so obviously a lot of people

2431

01:45:58,890 --> 01:45:55,490

know you out there because they contact

2432

01:46:02,050 --> 01:45:58,900

you when it comes to these older

2433

01:46:05,380 --> 01:46:02,060

investigations does anyone ever talk

2434

01:46:07,830 --> 01:46:05,390

about anything newer or things that have

2435

01:46:11,020 --> 01:46:07,840

happened since or anything like that

2436

01:46:12,840 --> 01:46:11,030

they see a lot of UFOs in the area but I

2437

01:46:15,430 --> 01:46:12,850

don't know of any other crashes

2438

01:46:17,590 --> 01:46:15,440

supposedly something I'm looking into I

2439

01:46:19,120 --> 01:46:17,600

want to do on our next trip is we were

2440

01:46:21,460 --> 01:46:19,130

told that there's another tracking

2441

01:46:23,230 --> 01:46:21,470

station that was built within the 2000

2442

01:46:24,940 --> 01:46:23,240

on top of another mountain close to the

2443

01:46:26,980 --> 01:46:24,950

kimberley mountain tracking station I

2444

01:46:27,200 --> 01:46:26,990

don't have much information on it but I

2445

01:46:29,360 --> 01:46:27,210

do

2446

01:46:31,040 --> 01:46:29,370

want to look into that now you're saying

2447

01:46:34,460 --> 01:46:31,050

that you think there's actually some

2448

01:46:36,800 --> 01:46:34,470

type of tie between crashes and the

2449

01:46:39,530 --> 01:46:36,810

tracking stations yeah I know of about

2450

01:46:42,050 --> 01:46:39,540

four or five different UFO crashes where

2451
01:46:46,430 --> 01:46:42,060
they built these tracking stations close

2452
01:46:49,430 --> 01:46:46,440
by I've heard of this before like the

2453
01:46:52,010 --> 01:46:49,440
one out in White Sands the famous UFO

2454
01:46:58,610 --> 01:46:52,020
crashing that looks like a white object

2455
01:47:02,300 --> 01:46:58,620
that crashes is what a video and that's

2456
01:47:06,440 --> 01:47:02,310
supposed to be near tracking or radar

2457
01:47:08,210 --> 01:47:06,450
and there is speculation that it's you

2458
01:47:10,970 --> 01:47:08,220
know if if there is any truth to these

2459
01:47:13,760 --> 01:47:10,980
being extraterrestrial I never like to

2460
01:47:17,050 --> 01:47:13,770
say they are definitely but if there's

2461
01:47:21,800 --> 01:47:17,060
any truth to how something could travel

2462
01:47:23,330 --> 01:47:21,810
for so many light years and get here in

2463
01:47:25,400 --> 01:47:23,340

crash you know that's the thing the

2464

01:47:26,930 --> 01:47:25,410

argument always people say how could

2465

01:47:29,660 --> 01:47:26,940

that possibly happen they'd have the

2466

01:47:32,870 --> 01:47:29,670

advanced technology to get here but then

2467

01:47:35,180 --> 01:47:32,880

their crash ones are here that you know

2468

01:47:38,110 --> 01:47:35,190

it's possible and people have speculated

2469

01:47:41,330 --> 01:47:38,120

that perhaps are not prepared for a

2470

01:47:42,560 --> 01:47:41,340

radar being shot at them and you know

2471

01:47:43,160 --> 01:47:42,570

might affect their equipment or whatever

2472

01:47:45,860 --> 01:47:43,170

it is

2473

01:47:49,940 --> 01:47:45,870

who knows is that what you're thinking

2474

01:47:52,160 --> 01:47:49,950

is that some of your thumbs I think I

2475

01:47:54,710 --> 01:47:52,170

think it has more to do with the

2476

01:47:56,060 --> 01:47:54,720

military from what I was told from the

2477

01:47:59,060 --> 01:47:56,070

people that worked at the kimberley

2478

01:48:00,860 --> 01:47:59,070

tracking station they were from what

2479

01:48:03,230 --> 01:48:00,870

they told me the military was thinking

2480

01:48:05,150 --> 01:48:03,240

that maybe another object would crash in

2481

01:48:07,030 --> 01:48:05,160

the same area or that other objects

2482

01:48:10,310 --> 01:48:07,040

would come to try to either save the

2483

01:48:12,350 --> 01:48:10,320

save the crashed object that was already

2484

01:48:13,700 --> 01:48:12,360

there or to try to I don't know if we

2485

01:48:17,180 --> 01:48:13,710

wanted to say investigate what had

2486

01:48:18,290 --> 01:48:17,190

happened and come back to that area all

2487

01:48:19,730 --> 01:48:18,300

right I don't know if I don't if they

2488

01:48:21,140 --> 01:48:19,740

planned on sending airplanes or

2489

01:48:25,220 --> 01:48:21,150

something to try to shoot down the

2490

01:48:28,550 --> 01:48:25,230

future objects or what but at least with

2491

01:48:31,760 --> 01:48:28,560

I know with Kingman Arizona UFO crash in

2492

01:48:33,680 --> 01:48:31,770

the 1952 eally crash they did build

2493

01:48:37,340 --> 01:48:33,690

radar tracking stations within five

2494

01:48:39,530 --> 01:48:37,350

years of the objects crashing oh you

2495

01:48:40,880 --> 01:48:39,540

mean within five years after yeah within

2496

01:48:43,550 --> 01:48:40,890

five years after

2497

01:48:45,560 --> 01:48:43,560

uh-huh okay something I forgot to cover

2498

01:48:49,550 --> 01:48:45,570

I know you don't have too much longer in

2499

01:48:52,790 --> 01:48:49,560

the show I was contacted by a witness

2500

01:48:55,280 --> 01:48:52,800

who goes on nature walks outside of the

2501
01:48:57,650 --> 01:48:55,290
town of Ruth and she says that she came

2502
01:49:00,050 --> 01:48:57,660
across an area where they had a mining

2503
01:49:03,830 --> 01:49:00,060
waste was dumped I guess back in the I

2504
01:49:06,860 --> 01:49:03,840
guess back in the 70s and she says that

2505
01:49:08,240 --> 01:49:06,870
she looked on local maps and she was

2506
01:49:10,370 --> 01:49:08,250
asking around and there's no no reason

2507
01:49:13,580 --> 01:49:10,380
why there should be mining waste dumped

2508
01:49:17,900 --> 01:49:13,590
again outside the mining area and she

2509
01:49:19,790 --> 01:49:17,910
says that inside all this soil she saw

2510
01:49:23,470 --> 01:49:19,800
what looked like a bunch of dark-colored

2511
01:49:26,060 --> 01:49:23,480
rocks but they look like lava rocks and

2512
01:49:27,710 --> 01:49:26,070
she she ended up giving me these rocks

2513
01:49:30,260 --> 01:49:27,720

and she says so he gave me one of the

2514

01:49:33,110 --> 01:49:30,270

rocks and she says that people that were

2515

01:49:35,300 --> 01:49:33,120

there at the time when this object was

2516

01:49:36,620 --> 01:49:35,310

supposedly spitting out this oil I was

2517

01:49:39,590 --> 01:49:36,630

telling you about in the 70s

2518

01:49:40,940 --> 01:49:39,600

I guess they scooped up all this dirt

2519

01:49:43,280 --> 01:49:40,950

into a pile and they dumped it somewhere

2520

01:49:45,500 --> 01:49:43,290

well I think she found the dump site

2521

01:49:48,650 --> 01:49:45,510

where they dumped this oil and it

2522

01:49:51,050 --> 01:49:48,660

hardened into a rock over time and I

2523

01:49:54,020 --> 01:49:51,060

have one of these rocks I got it looked

2524

01:49:56,000 --> 01:49:54,030

at by about 10 different people ranging

2525

01:49:59,030 --> 01:49:56,010

from people I used to work at the

2526

01:50:01,190 --> 01:49:59,040

smelter for the mine I looked at their

2527

01:50:04,420 --> 01:50:01,200

people that were seniors for the senior

2528

01:50:06,770 --> 01:50:04,430

geologists I some professors at UNLV and

2529

01:50:09,710 --> 01:50:06,780

they do different tests on the rock they

2530

01:50:13,430 --> 01:50:09,720

do scratch tests they do different

2531

01:50:15,230 --> 01:50:13,440

charts they do color tests they chip

2532

01:50:16,700 --> 01:50:15,240

little pieces off of it but no one could

2533

01:50:17,900 --> 01:50:16,710

tell me what it is the only thing they

2534

01:50:22,490 --> 01:50:17,910

could tell me is that it's a type of

2535

01:50:24,980 --> 01:50:22,500

hematite rock but I think that lady was

2536

01:50:27,740 --> 01:50:24,990

onto something like I said because in my

2537

01:50:29,510 --> 01:50:27,750

opinion I think that she might have

2538

01:50:31,760 --> 01:50:29,520

found the area where they dumped this

2539

01:50:34,460 --> 01:50:31,770

soil where this oil was spraying out and

2540

01:50:37,820 --> 01:50:34,470

maybe because it wasn't a classified

2541

01:50:41,150 --> 01:50:37,830

vehicle maybe it was just I guess the

2542

01:50:43,730 --> 01:50:41,160

way to word I worded that wrong maybe it

2543

01:50:47,000 --> 01:50:43,740

was a man-made UFO and because it was

2544

01:50:48,740 --> 01:50:47,010

oil that wasn't anything top-secret

2545

01:50:51,140 --> 01:50:48,750

maybe they just dumped it off to the

2546

01:50:52,700 --> 01:50:51,150

side type of thing or maybe they didn't

2547

01:50:53,760 --> 01:50:52,710

know that that liquid was in there when

2548

01:50:56,070 --> 01:50:53,770

they dumped it

2549

01:50:59,610 --> 01:50:56,080

one of the things going back to the cash

2550

01:51:00,750 --> 01:50:59,620

Landrum case there there was actually

2551
01:51:06,810 --> 01:51:00,760
radiation burns

2552
01:51:09,960 --> 01:51:06,820
in that case thinking arm and Colby who

2553
01:51:12,210 --> 01:51:09,970
we've had on the show Colby Landrum was

2554
01:51:15,780 --> 01:51:12,220
in the car and basically ducked

2555
01:51:19,740 --> 01:51:15,790
underneath the dashboard at the time but

2556
01:51:22,200 --> 01:51:19,750
anyway there was just within a few weeks

2557
01:51:24,780 --> 01:51:22,210
after that happened they dug up the road

2558
01:51:27,480 --> 01:51:24,790
right were the thing it didn't touch

2559
01:51:29,640 --> 01:51:27,490
down but it came down kind of low you

2560
01:51:32,010 --> 01:51:29,650
know when when there was radiation burns

2561
01:51:33,600 --> 01:51:32,020
so they dug up the entire road to get

2562
01:51:35,940 --> 01:51:33,610
rid of it and if that was a military

2563
01:51:38,130 --> 01:51:35,950

craft you'd almost think that if they

2564

01:51:41,760 --> 01:51:38,140

expelled oil or anything that they might

2565

01:51:44,160 --> 01:51:41,770

do something with that have you ever put

2566

01:51:46,770 --> 01:51:44,170

that just out of curiosity have you ever

2567

01:51:50,490 --> 01:51:46,780

had that tested by anyone of science or

2568

01:51:53,010 --> 01:51:50,500

was it just people's opinion I had it

2569

01:51:54,780 --> 01:51:53,020

done I I know it's very expensive to get

2570

01:51:58,380 --> 01:51:54,790

it done in like a laboratory but it's

2571

01:51:59,970 --> 01:51:58,390

mostly mostly tests by people doing all

2572

01:52:01,500 --> 01:51:59,980

kinds of tests that aren't putting it

2573

01:52:05,460 --> 01:52:01,510

into some type of machine that gives you

2574

01:52:07,740 --> 01:52:05,470

that elemental breakdown mm-hmm I know I

2575

01:52:09,360 --> 01:52:07,750

actually got an argument with art Bell

2576

01:52:12,000 --> 01:52:09,370

over it because he wanted me to give the

2577

01:52:13,650 --> 01:52:12,010

rock to him and then I told him well if

2578

01:52:15,840 --> 01:52:13,660

it is something strange I just went on

2579

01:52:19,140 --> 01:52:15,850

the biggest radio show in the country of

2580

01:52:21,900 --> 01:52:19,150

this sort and just and just gave away my

2581

01:52:24,240 --> 01:52:21,910

only cool piece of evidence and then he

2582

01:52:27,540 --> 01:52:24,250

didn't like that and then other than

2583

01:52:29,250 --> 01:52:27,550

that I haven't really heard from anybody

2584

01:52:31,830 --> 01:52:29,260

offering to get it tested or anything

2585

01:52:33,210 --> 01:52:31,840

because I know I think it's five

2586

01:52:34,680 --> 01:52:33,220

thousand dollars at three thousand

2587

01:52:36,660 --> 01:52:34,690

dollars in my friend Nick looked into it

2588

01:52:39,000 --> 01:52:36,670

yeah it's very people don't realize how

2589

01:52:42,120 --> 01:52:39,010

expensive some of those those type of

2590

01:52:45,510 --> 01:52:42,130

tests are and a lot of times people will

2591

01:52:49,620 --> 01:52:45,520

entrust someone because they can get it

2592

01:52:51,150 --> 01:52:49,630

done for free or you know that think

2593

01:52:54,450 --> 01:52:51,160

they're doing something with science and

2594

01:52:57,750 --> 01:52:54,460

they end up for instance ray Stanford

2595

01:53:00,390 --> 01:52:57,760

had something from the Socorro incident

2596

01:53:02,130 --> 01:53:00,400

scraped on a rock and brought it down to

2597

01:53:04,050 --> 01:53:02,140

Goddard and they tested it there and

2598

01:53:06,580 --> 01:53:04,060

sure enough when he got the rock back of

2599

01:53:10,480 --> 01:53:06,590

the all the sample was scraped off gone

2600

01:53:13,390 --> 01:53:10,490

oh geez yes so you wonder who to trust

2601
01:53:15,610 --> 01:53:13,400
when it comes to that that type of

2602
01:53:17,830 --> 01:53:15,620
testing if if you just brought it to a

2603
01:53:20,500 --> 01:53:17,840
place and just didn't even say what it

2604
01:53:22,570 --> 01:53:20,510
was and just said you know if this is an

2605
01:53:23,560 --> 01:53:22,580
unusual Rock can you please test it that

2606
01:53:25,540 --> 01:53:23,570
type of thing that's the only way to

2607
01:53:29,260 --> 01:53:25,550
approach something like that really oh

2608
01:53:32,560 --> 01:53:29,270
yeah yeah all right well we are coming

2609
01:53:36,280 --> 01:53:32,570
up toward the end of the show and if

2610
01:53:38,650 --> 01:53:36,290
there's I don't see any questions up on

2611
01:53:40,990 --> 01:53:38,660
the message board again why don't you

2612
01:53:44,470 --> 01:53:41,000
talk a little bit about your your blog

2613
01:53:47,110 --> 01:53:44,480

site do you do an active blog there um I

2614

01:53:48,910 --> 01:53:47,120

go back and forth I all right a couple

2615

01:53:50,140 --> 01:53:48,920

blog posts here and there for a few

2616

01:53:51,430 --> 01:53:50,150

weeks and I kind of won't go on there

2617

01:53:52,900 --> 01:53:51,440

for a little while when I get busy with

2618

01:53:55,720 --> 01:53:52,910

other things and I'll go back on there I

2619

01:53:57,820 --> 01:53:55,730

go back and forth yeah most of the time

2620

01:53:59,380 --> 01:53:57,830

I write on there if it's if I find

2621

01:54:01,480 --> 01:53:59,390

something new and interesting out about

2622

01:54:03,370 --> 01:54:01,490

the Ely case but like I said we I do

2623

01:54:05,620 --> 01:54:03,380

belong to a paranormal group where we do

2624

01:54:07,990 --> 01:54:05,630

other things also and if we get some

2625

01:54:09,670 --> 01:54:08,000

cool evidence that I think is worth

2626

01:54:13,390 --> 01:54:09,680

sharing sometimes I'll put that on there

2627

01:54:15,190 --> 01:54:13,400

but I've been meaning to update my UFO

2628

01:54:16,450 --> 01:54:15,200

crash website I've been meaning to write

2629

01:54:19,270 --> 01:54:16,460

on my blog again I just haven't really

2630

01:54:23,130 --> 01:54:19,280

gotten around to of it well you sound I

2631

01:54:27,580 --> 01:54:23,140

do you do a lot of things oh yeah we do

2632

01:54:31,810 --> 01:54:27,590

we do treat your cases we do the UFO

2633

01:54:34,480 --> 01:54:31,820

thing we do ghost hunting I do we do

2634

01:54:36,640 --> 01:54:34,490

update our Facebook are you - and we

2635

01:54:40,000 --> 01:54:36,650

have a regular website that we have date

2636

01:54:42,700 --> 01:54:40,010

all the time it's just kind of have lots

2637

01:54:45,910 --> 01:54:42,710

of things to update okay just one last

2638

01:54:48,880 --> 01:54:45,920

thing I wanted because I think it's

2639

01:54:52,660 --> 01:54:48,890

could be kind of humorous you got in an

2640

01:54:54,430 --> 01:54:52,670

argument with art bell on the air yeah I

2641

01:54:56,200 --> 01:54:54,440

think it was like a couple like two or

2642

01:54:58,450 --> 01:54:56,210

three years ago I was asked to go on his

2643

01:55:00,310 --> 01:54:58,460

midnight in the desert show and I was

2644

01:55:02,320 --> 01:55:00,320

talking about the Ely cases at the time

2645

01:55:04,840 --> 01:55:02,330

of course I didn't have as much

2646

01:55:06,940 --> 01:55:04,850

information as I do now but he wanted me

2647

01:55:08,560 --> 01:55:06,950

to give him the precise location of the

2648

01:55:10,330 --> 01:55:08,570

crash site and like I said it's in

2649

01:55:12,760 --> 01:55:10,340

someone's farmer's field nowadays now he

2650

01:55:14,260 --> 01:55:12,770

told him I can't have I can't have

2651

01:55:17,320 --> 01:55:14,270

people walking around in this guy's

2652

01:55:18,700 --> 01:55:17,330

farmer this field and he told me that no

2653

01:55:20,260 --> 01:55:18,710

one would go out there and look in the

2654

01:55:22,830 --> 01:55:20,270

field if I said were the local

2655

01:55:25,270 --> 01:55:22,840

if you said it if you set it on the air

2656

01:55:27,100 --> 01:55:25,280

on the air he said that I said yeah

2657

01:55:28,450 --> 01:55:27,110

right I know for a fact they still go

2658

01:55:31,560 --> 01:55:28,460

out to Roswell into these other

2659

01:55:33,880 --> 01:55:31,570

locations and there's nothing there and

2660

01:55:36,400 --> 01:55:33,890

and he didn't like the fact that I was

2661

01:55:39,010 --> 01:55:36,410

on a cell phone cuz I owe ya producer

2662

01:55:41,260 --> 01:55:39,020

his name was Pete or Paul or something

2663

01:55:42,580 --> 01:55:41,270

like that and he told me it was okay

2664

01:55:45,400 --> 01:55:42,590

that I was using a cell phone at the

2665

01:55:47,050 --> 01:55:45,410

time because I didn't have Skype but I

2666

01:55:49,990 --> 01:55:47,060

didn't have internet at that point in

2667

01:55:51,370 --> 01:55:50,000

time and art bell acted like it was a

2668

01:55:53,020 --> 01:55:51,380

surprise that I was using a cell phone

2669

01:55:54,610 --> 01:55:53,030

so in the middle of me talking he

2670

01:55:58,480 --> 01:55:54,620

literally hung up on me and I haven't

2671

01:56:00,310 --> 01:55:58,490

heard from him since so if you hook me

2672

01:56:03,430 --> 01:56:00,320

up that's like the main interview that

2673

01:56:05,290 --> 01:56:03,440

that appears on that shows up on Google

2674

01:56:07,380 --> 01:56:05,300

and all that which it's kind of a shame

2675

01:56:10,600 --> 01:56:07,390

it's kind of a trap tragic really but

2676

01:56:12,040 --> 01:56:10,610

have you gone back have you gone back

2677

01:56:14,620 --> 01:56:12,050

and actually listened to the interview

2678

01:56:17,070 --> 01:56:14,630

yeah it starts sometimes it makes me mad

2679

01:56:20,050 --> 01:56:17,080

and sometimes I think it's fine

2680

01:56:22,330 --> 01:56:20,060

and what did he do go to open lines

2681

01:56:24,340 --> 01:56:22,340

right after that I don't know because

2682

01:56:27,280 --> 01:56:24,350

after he hung up on me I got so mad at

2683

01:56:28,510 --> 01:56:27,290

the time I didn't I did I tried calling

2684

01:56:30,610 --> 01:56:28,520

him back a couple times he wouldn't

2685

01:56:32,740 --> 01:56:30,620

answer and I told him I would go down

2686

01:56:34,720 --> 01:56:32,750

there in person because he lives close

2687

01:56:37,600 --> 01:56:34,730

to here and he didn't want me to go in

2688

01:56:40,090 --> 01:56:37,610

person either so I don't know what how

2689

01:56:42,460 --> 01:56:40,100

he wanted me to fix the problem oh well

2690

01:56:45,400 --> 01:56:42,470

yeah I think you're the only like this

2691

01:56:49,570 --> 01:56:45,410

second person I think I've heard of this

2692

01:56:51,790 --> 01:56:49,580

yeah well well you survived and you made

2693

01:56:55,720 --> 01:56:51,800

it through tonight and I didn't hang up

2694

01:56:57,610 --> 01:56:55,730

on you and if you can't just so you said

2695

01:57:00,160 --> 01:56:57,620

that you are involved in a couple of

2696

01:57:02,140 --> 01:57:00,170

2697
