

1
00:00:03,169 --> 00:00:02,389
and it hits me oh my gosh this is that

2
00:00:04,249 --> 00:00:03,179
triangle

3
00:00:05,360 --> 00:00:04,259
you know there's explanation for

4
00:00:07,010 --> 00:00:05,370
everything that occurred in the

5
00:00:09,680 --> 00:00:07,020
Rendlesham forest incident didn't

6
00:00:15,350 --> 00:00:09,690
involve aliens at all it was completely

7
00:00:17,180 --> 00:00:15,360
silent it comes right over our head he's

8
00:00:18,800 --> 00:00:17,190
also really standing in the clearing he

9
00:00:20,480 --> 00:00:18,810
turned over to my father and held his

10
00:00:26,960 --> 00:00:20,490
hand and he looked in his eyes and said

11
00:00:28,400 --> 00:00:26,970
we're not alone welcome to podcast UFO

12
00:00:30,830 --> 00:00:28,410
for our live show

13
00:00:33,049 --> 00:00:30,840

we're live every Wednesday at 8 p.m.

14

00:00:35,540 --> 00:00:33,059
Eastern Standard Time on the dark matter

15

00:00:39,229 --> 00:00:35,550
radio network please remember to visit

16

00:00:42,410 --> 00:00:39,239
the website podcast UFO calm for past

17

00:00:44,420 --> 00:00:42,420
episodes blogs and forums during the

18

00:00:46,910 --> 00:00:44,430
show feel free to participate live in

19

00:00:50,360 --> 00:00:46,920
our chat room and don't forget to like

20

00:00:52,010 --> 00:00:50,370
us on our very active Facebook page okay

21

00:00:53,720 --> 00:00:52,020
so we're gonna do the news we're gonna

22

00:00:56,150 --> 00:00:53,730
do it a little bit different I'm stuck

23

00:00:59,000 --> 00:00:56,160
in a hotel room what do they call it

24

00:01:02,840 --> 00:00:59,010
unplugged yes alejandro unplugged how

25

00:01:07,160 --> 00:01:02,850
are you I'm good how are you doing good

26

00:01:08,780 --> 00:01:07,170

so you had a UFO story that you were

27

00:01:12,710 --> 00:01:08,790

telling when nobody was hearing so let's

28

00:01:14,330 --> 00:01:12,720

so let's hear that okay I'm gonna move

29

00:01:16,700 --> 00:01:14,340

to a different one and then go back to

30

00:01:18,980 --> 00:01:16,710

that one okay just to mix it up this is

31

00:01:21,649 --> 00:01:18,990

a new one okay so this is a MUFON

32

00:01:24,800 --> 00:01:21,659

sighting submitted to us by Roger Marsh

33

00:01:27,289 --> 00:01:24,810

so the director of communication for

34

00:01:29,840 --> 00:01:27,299

MUFON who who writes for us about some

35

00:01:33,440 --> 00:01:29,850

of the good stories going on this event

36

00:01:34,490 --> 00:01:33,450

took place on September 10th at 3:45

37

00:01:38,719 --> 00:01:34,500

p.m.

38

00:01:41,719 --> 00:01:38,729

it was a cloudless blue sky when this

39

00:01:43,190 --> 00:01:41,729

gentleman and his wife saw something

40

00:01:46,219 --> 00:01:43,200

weird in the sky they thought it might

41

00:01:49,429 --> 00:01:46,229

be a satellite but it was actually

42

00:01:52,490 --> 00:01:49,439

during the day so he and his wife were

43

00:01:55,520 --> 00:01:52,500

able to get a video camera and a

44

00:01:58,719 --> 00:01:55,530

binoculars or even a telescope to train

45

00:02:02,990 --> 00:01:58,729

on this object and you can hear them

46

00:02:05,539 --> 00:02:03,000

unlike a recent UFO video where the guy

47

00:02:07,429 --> 00:02:05,549

was not being very nice to his friend

48

00:02:09,380 --> 00:02:07,439

this is a nice couple where he's being

49

00:02:11,600 --> 00:02:09,390

really nice he's like alright baby yeah

50

00:02:13,550 --> 00:02:11,610

you're smart you got it together so he's

51

00:02:16,610 --> 00:02:13,560

complimenting her a lot so

52

00:02:19,449 --> 00:02:16,620

so that was nice to hear but the video

53

00:02:21,890 --> 00:02:19,459

does show a white object you can't tell

54

00:02:24,320 --> 00:02:21,900

necessarily what the movement is the

55

00:02:26,990 --> 00:02:24,330

gentleman said it was kind of standing

56

00:02:31,010 --> 00:02:27,000

still but in the video he said it moved

57

00:02:33,470 --> 00:02:31,020

around and they felt it was triangular

58

00:02:38,750 --> 00:02:33,480

in shape in the video it does seem kind

59

00:02:40,850 --> 00:02:38,760

of like it's changing shape and one of

60

00:02:43,790 --> 00:02:40,860

the close-up pictures it does look

61

00:02:47,030 --> 00:02:43,800

triangular so it's possible it was a

62

00:02:47,479 --> 00:02:47,040

grouping of balloons or something like

63

00:02:49,729 --> 00:02:47,489

that

64

00:02:51,410 --> 00:02:49,739

in fact this person said it did seem

65

00:02:54,620 --> 00:02:51,420

like there were multiple colors although

66

00:02:57,080 --> 00:02:54,630

the video you just see white but it's

67

00:03:00,140 --> 00:02:57,090

not completely typical they saw this

68

00:03:03,229 --> 00:03:00,150

moving around and then it moved at an

69

00:03:06,110 --> 00:03:03,239

angle before kind of flying off and it

70

00:03:08,030 --> 00:03:06,120

took about ten minutes for them to to

71

00:03:10,520 --> 00:03:08,040

see this thing and they recorded a

72

00:03:13,910 --> 00:03:10,530

couple minutes here which they submitted

73

00:03:20,300 --> 00:03:13,920

to MUFON and you can see it here in the

74

00:03:22,130 --> 00:03:20,310

video it was being investigated by one

75

00:03:25,610 --> 00:03:22,140

of the MUFON guys chief investigator

76

00:03:28,610 --> 00:03:25,620

Marianne Snyder she was unable to

77

00:03:31,580 --> 00:03:28,620

identify necessarily what it was her

78

00:03:33,940 --> 00:03:31,590

best guess was it was a UAV and I think

79

00:03:37,670 --> 00:03:33,950

that's what she finally chose us to

80

00:03:40,640 --> 00:03:37,680

disposition but she did rule out the ISS

81

00:03:44,270 --> 00:03:40,650

and other satellites but I don't even

82

00:03:48,050 --> 00:03:44,280

know that you can see the ISS during the

83

00:03:51,620 --> 00:03:48,060

day I don't think you can I don't think

84

00:03:54,410 --> 00:03:51,630

so either out it no yeah I mean it's

85

00:03:55,640 --> 00:03:54,420

super bright at night and it's a sight

86

00:03:58,280 --> 00:03:55,650

to see

87

00:03:59,900 --> 00:03:58,290

yes right that's for sure but not during

88

00:04:01,910 --> 00:03:59,910

the day so this was kind of a weird one

89

00:04:03,620 --> 00:04:01,920

so people can check that out at the site

90

00:04:07,490 --> 00:04:03,630

but this is he exciting the one this is

91

00:04:09,530 --> 00:04:07,500

one that that I think is really cool and

92

00:04:15,410 --> 00:04:09,540

did you enjoy it when I told the story

93

00:04:17,000 --> 00:04:15,420

last time Martin no I yeah okay you were

94

00:04:20,840 --> 00:04:17,010

gonna say that's funny I'm just giving

95

00:04:23,050 --> 00:04:20,850

you a hard time yeah yeah no this is a

96

00:04:25,940 --> 00:04:23,060

good one I think this is written by

97

00:04:27,170 --> 00:04:25,950

Philip Mantle's so he just sent this

98

00:04:28,939 --> 00:04:27,180

story in and

99

00:04:31,520 --> 00:04:28,949

was pretty much this season that

100

00:04:33,230 --> 00:04:31,530

reminded him of this whole incident he

101
00:04:38,090 --> 00:04:33,240
sent this in and he says it's his

102
00:04:42,140 --> 00:04:38,100
favorite UFO investigation ever so

103
00:04:46,189 --> 00:04:42,150
pretty cool hmm he says he heard about

104
00:04:51,400 --> 00:04:46,199
this story on Friday the 13th in October

105
00:04:55,640 --> 00:04:51,410
of 1986 ooh and he was doing a Halloween

106
00:04:58,129 --> 00:04:55,650
kind of interview and they somebody

107
00:05:00,020 --> 00:04:58,139
called him and he was actually

108
00:05:01,700 --> 00:05:00,030
investigating with mark Birdsall that's

109
00:05:04,610 --> 00:05:01,710
who his buddy was who actually he

110
00:05:07,100 --> 00:05:04,620
investigated with this her name was mrs.

111
00:05:10,969 --> 00:05:07,110
Westermann and she reported that

112
00:05:13,969 --> 00:05:10,979
actually in the summer of 1979 she had a

113
00:05:16,790 --> 00:05:13,979

very odd experience her and her children

114

00:05:19,010 --> 00:05:16,800

and others there was in total something

115

00:05:22,670 --> 00:05:19,020

like seven or eight witnesses to this

116

00:05:24,800 --> 00:05:22,680

event when she got involved she heard

117

00:05:26,719 --> 00:05:24,810

the kids talking about something some

118

00:05:29,330 --> 00:05:26,729

sort of commotion and she comes out back

119

00:05:32,810 --> 00:05:29,340

and there is this kind of dome-shaped

120

00:05:35,810 --> 00:05:32,820

object in the middle of this big field

121

00:05:37,129 --> 00:05:35,820

behind their homes she didn't know what

122

00:05:39,379 --> 00:05:37,139

was going on it looked like there are

123

00:05:41,960 --> 00:05:39,389

some people in front of it she walked

124

00:05:43,430 --> 00:05:41,970

back to the back fences of the yard to

125

00:05:45,800 --> 00:05:43,440

get a closer look to see what these

126
00:05:48,350 --> 00:05:45,810
people were doing these people then

127
00:05:50,360 --> 00:05:48,360
three individuals look like three men

128
00:05:53,510 --> 00:05:50,370
kind of walked behind the object and

129
00:05:56,749 --> 00:05:53,520
then the object lifted up and shot up

130
00:05:58,939 --> 00:05:56,759
into the sky and it's you know your

131
00:06:02,240 --> 00:05:58,949
typical saucer looking thing so really

132
00:06:05,360 --> 00:06:02,250
strange she's these men were dressed in

133
00:06:07,879 --> 00:06:05,370
outfits that were metallic type of

134
00:06:09,200 --> 00:06:07,889
silver from head to toe and she said

135
00:06:11,779 --> 00:06:09,210
that when they did move there were

136
00:06:14,240 --> 00:06:11,789
creases in it so she could see that much

137
00:06:15,909 --> 00:06:14,250
she thought they were people she assumed

138
00:06:18,469 --> 00:06:15,919

they were just ready to gather people

139

00:06:20,810 --> 00:06:18,479

until this thing lifted up and shot off

140

00:06:22,719 --> 00:06:20,820

and what was strange about it as well is

141

00:06:25,999 --> 00:06:22,729

that you know it did have to at least

142

00:06:29,200 --> 00:06:26,009

negotiate some high-power wire lines

143

00:06:34,879 --> 00:06:29,210

that were in the area above this field

144

00:06:36,379 --> 00:06:34,889

so Phil and Mark then did interviews

145

00:06:37,640 --> 00:06:36,389

with the witnesses including the

146

00:06:39,709 --> 00:06:37,650

children they found out that the

147

00:06:41,239 --> 00:06:39,719

children actually saw this object land

148

00:06:44,539 --> 00:06:41,249

and then saw these

149

00:06:46,369 --> 00:06:44,549

people come from behind it and then you

150

00:06:48,319 --> 00:06:46,379

know when their mom came out they went

151

00:06:50,959 --> 00:06:48,329

back to the other side of it and then

152

00:06:53,989 --> 00:06:50,969

the object took off they felt all of

153

00:06:55,399 --> 00:06:53,999

these people were very credible they've

154

00:06:57,019 --> 00:06:55,409

talked to him throughout the years and

155

00:06:59,329 --> 00:06:57,029

they've maintained their story and it's

156

00:07:01,579 --> 00:06:59,339

something that was a big deal they kind

157

00:07:03,709 --> 00:07:01,589

of described the object as a a Mexican

158

00:07:06,109 --> 00:07:03,719

hat which is not uncommon of a

159

00:07:08,599 --> 00:07:06,119

description for saucer shaped shape

160

00:07:10,219 --> 00:07:08,609

objects we hear that quite a bit

161

00:07:14,979 --> 00:07:10,229

actually sombrero

162

00:07:17,989 --> 00:07:14,989

yeah yeah sombrero so it was really

163

00:07:19,999 --> 00:07:17,999

strange and that is really saying

164

00:07:22,100 --> 00:07:20,009

something that you know Philip mantle

165

00:07:24,109 --> 00:07:22,110

would say this is his strangest case

166

00:07:25,909 --> 00:07:24,119

because you know he's been investigating

167

00:07:29,149 --> 00:07:25,919

for decades he's an expert out there in

168

00:07:30,739 --> 00:07:29,159

the UK he's written several books some

169

00:07:33,649 --> 00:07:30,749

of his latest books have been written

170

00:07:36,919 --> 00:07:33,659

with Paul Stonehill including the last

171

00:07:39,259 --> 00:07:36,929

one Russian uso cases

172

00:07:41,599 --> 00:07:39,269

so Paul stone you know it's actually

173

00:07:44,359 --> 00:07:41,609

going to be at the UFO Congress with

174

00:07:47,569 --> 00:07:44,369

your guests tonight we'll all be there

175

00:07:50,469 --> 00:07:47,579

to talk UFO so Paul Sonjia will be

176

00:07:53,179 --> 00:07:50,479

talking about these Russian cases but

177

00:07:55,669 --> 00:07:53,189

really cool case I was really happy

178

00:07:57,919 --> 00:07:55,679

Philip Mantle's been submitting stories

179

00:08:00,229 --> 00:07:57,929

for us to post in the last few weeks he

180

00:08:03,079 --> 00:08:00,239

he's done this periodically in the past

181

00:08:06,169 --> 00:08:03,089

but now he's doing it more regularly and

182

00:08:07,879 --> 00:08:06,179

so does Paul Stonehill but there's some

183

00:08:11,419 --> 00:08:07,889

really cool cases so this is a good one

184

00:08:13,339 --> 00:08:11,429

that is a good one yeah and I really did

185

00:08:14,149 --> 00:08:13,349

mean that I mean before when you asked

186

00:08:16,249 --> 00:08:14,159

me if I liked it

187

00:08:18,519 --> 00:08:16,259

I was joking this is a really good case

188

00:08:22,489 --> 00:08:18,529

I I could tell because you were hesitant

189

00:08:24,319 --> 00:08:22,499

you know and because you're a nice guy

190

00:08:28,549 --> 00:08:24,329

you don't want to commit to that to the

191

00:08:30,289 --> 00:08:28,559

teasing but I can take it yeah okay I've

192

00:08:33,860 --> 00:08:30,299

gotten too criticized for how much I

193

00:08:38,869 --> 00:08:33,870

give it to you so I know I'm just Lee

194

00:08:41,480 --> 00:08:38,879

though all right hey who wrote the one

195

00:08:43,159 --> 00:08:41,490

of the four words in this the book that

196

00:08:45,980 --> 00:08:43,169

we're talking about tonight and that

197

00:08:49,129 --> 00:08:45,990

book is called fact fiction and flying

198

00:08:52,610 --> 00:08:49,139

saucers by Stanton Friedman and Kathleen

199

00:08:55,100 --> 00:08:52,620

Mardon oh wow if I had written up

200

00:08:58,639 --> 00:08:55,110

forward that would especially to a

201
00:09:00,889 --> 00:08:58,649
from from these two that would be a huge

202
00:09:02,810 --> 00:09:00,899
deal that I would be done that lane of

203
00:09:05,449 --> 00:09:02,820
mine will drop that would be perfect you

204
00:09:07,460 --> 00:09:05,459
wrote a review I shake it yeah right guy

205
00:09:10,009 --> 00:09:07,470
kick it to let write a little review

206
00:09:11,810 --> 00:09:10,019
which I am still extremely flattered I

207
00:09:14,569 --> 00:09:11,820
was so happy that they asked me to do

208
00:09:16,910 --> 00:09:14,579
that because they're two of my favorite

209
00:09:19,100 --> 00:09:16,920
so luckily we've been luckily enough to

210
00:09:20,449 --> 00:09:19,110
have them come to the last few UFO

211
00:09:22,970 --> 00:09:20,459
congress's and this year they're gonna

212
00:09:26,690 --> 00:09:22,980
both be speaking so that'll be really

213
00:09:29,900 --> 00:09:26,700

exciting and the epsilonpu of its so

214

00:09:34,730 --> 00:09:29,910

it's really exciting wonderful well

215

00:09:37,340 --> 00:09:34,740

thanks oh yeah it'll be fun as usual and

216

00:09:41,750 --> 00:09:37,350

it'll be warm instead of the way it is

217

00:09:43,190 --> 00:09:41,760

here you'll be able to go to the pool or

218

00:09:46,880 --> 00:09:43,200

the hot tub I don't know that I've seen

219

00:09:49,519 --> 00:09:46,890

you at the hot tub before those Dan well

220

00:09:51,740 --> 00:09:49,529

I don't know how to swim back well the

221

00:09:54,940 --> 00:09:51,750

hot tubs very shallow so well I don't

222

00:09:57,610 --> 00:09:54,950

try that out this year nice and relaxing

223

00:09:59,810 --> 00:09:57,620

alright darling I'm gonna thanks so much

224

00:10:04,670 --> 00:09:59,820

alright talk to you guys later have a

225

00:10:07,550 --> 00:10:04,680

good show all right take care well Stan

226

00:10:10,670 --> 00:10:07,560

and Kathleen thanks so much for joining

227

00:10:13,519 --> 00:10:10,680

us I was pleased to get your book in the

228

00:10:15,319 --> 00:10:13,529

mail and read through I think I

229

00:10:18,439 --> 00:10:15,329

mentioned to you Cathy that I'm a slow

230

00:10:20,620 --> 00:10:18,449

reader but I got to page like 190

231

00:10:24,530 --> 00:10:20,630

something in the last three weeks so

232

00:10:28,100 --> 00:10:24,540

really really enjoyed enjoyed this book

233

00:10:30,230 --> 00:10:28,110

and would like to talk to you I believe

234

00:10:33,769 --> 00:10:30,240

that everybody that listens to the show

235

00:10:38,060 --> 00:10:33,779

knows who you are but just in a quick

236

00:10:40,819 --> 00:10:38,070

nutshell Kathleen you are the niece of

237

00:10:44,930 --> 00:10:40,829

Betty hill and you've been heavily

238

00:10:47,389 --> 00:10:44,940

involved in abduction research and you

239

00:10:50,720 --> 00:10:47,399

actually represent I forget what it's

240

00:10:52,040 --> 00:10:50,730

called and MUFON can you just tell the

241

00:10:55,460 --> 00:10:52,050

listening audience a little bit about

242

00:10:59,090 --> 00:10:55,470

that yes I'm the director of muffins

243

00:11:03,340 --> 00:10:59,100

experience or research team and we are

244

00:11:07,180 --> 00:11:03,350

the arm of MUFON that speaks to

245

00:11:08,290 --> 00:11:07,190

experiencers in a non-judgmental manner

246

00:11:12,040 --> 00:11:08,300

we

247

00:11:16,120 --> 00:11:12,050

I will participate with field

248

00:11:18,970 --> 00:11:16,130

investigators in doing investigations if

249

00:11:22,960 --> 00:11:18,980

they have an abduction investigation and

250

00:11:25,020 --> 00:11:22,970

want some help from us and we make

251

00:11:27,220 --> 00:11:25,030

reefer girls - ooh

252

00:11:30,190 --> 00:11:27,230

experiencers who are looking for support

253

00:11:33,900 --> 00:11:30,200

groups or for hypnotherapists and we

254

00:11:36,940 --> 00:11:33,910

also do research we have an ongoing

255

00:11:39,360 --> 00:11:36,950

questionnaire it has a hundred and

256

00:11:42,970 --> 00:11:39,370

eighteen questions it's called the

257

00:11:48,850 --> 00:11:42,980

experiencer survey and it's on move

258

00:11:51,070 --> 00:11:48,860

funds main page at MUFON calm now how

259

00:11:56,620 --> 00:11:51,080

many people have partaken so far in this

260

00:12:00,100 --> 00:11:56,630

survey we have about 350 right now we're

261

00:12:02,830 --> 00:12:00,110

looking for 500 and we'll end it at 500

262

00:12:07,330 --> 00:12:02,840

and move on to Phase two of it we have

263

00:12:11,050 --> 00:12:07,340

two two phases someone was asking online

264

00:12:14,110 --> 00:12:11,060

this question comes up quite a bit Cathy

265

00:12:20,500 --> 00:12:14,120

do you happen to know if either Betty or

266

00:12:24,010 --> 00:12:20,510

Barney had Rh negative blood type I know

267

00:12:27,850 --> 00:12:24,020

that Betty had well I think she had Rh

268

00:12:33,880 --> 00:12:27,860

positive I'm not certain about Barney

269

00:12:38,890 --> 00:12:33,890

but my research showed that the majority

270

00:12:39,730 --> 00:12:38,900

of experiencers have Rh positive blood

271

00:12:43,230 --> 00:12:39,740

types

272

00:12:47,110 --> 00:12:43,240

but the Rh negative blood type is

273

00:12:54,430 --> 00:12:47,120

elevated among experiences it's elevated

274

00:12:57,280 --> 00:12:54,440

in like the scale yes yeah that's there

275

00:13:00,610 --> 00:12:57,290

was I know Nick Redfern did a little bit

276

00:13:03,930 --> 00:13:00,620

about that it is pretty interesting so

277

00:13:12,420 --> 00:13:03,940

stand it seems like we don't really need

278

00:13:14,860 --> 00:13:12,430

you to introduce yourself but but anyway

279

00:13:17,440 --> 00:13:14,870

well you've been on so many times on

280

00:13:20,890 --> 00:13:17,450

this plus anytime anyone wants to watch

281

00:13:24,900 --> 00:13:20,900

anything on UFOs there you are you're I

282

00:13:27,370 --> 00:13:24,910

don't know how many films documentaries

283

00:13:28,840 --> 00:13:27,380

Larry King you name it I don't know how

284

00:13:32,560 --> 00:13:28,850

many you've been on I don't know if you

285

00:13:33,910 --> 00:13:32,570

ever counted have you no I haven't you

286

00:13:36,300 --> 00:13:33,920

know after the first couple of hundred

287

00:13:41,530 --> 00:13:36,310

it gets to be I won't say routine but

288

00:13:45,370 --> 00:13:41,540

who's keeping score yeah we'll say it

289

00:13:48,070 --> 00:13:45,380

was four times on Larry King yeah those

290

00:13:51,040 --> 00:13:48,080

are great and I really you know there

291

00:13:55,270 --> 00:13:51,050

was some kind of gnarly skeptics or

292

00:13:57,250 --> 00:13:55,280

debunkers on on those but I recommend if

293

00:13:58,870 --> 00:13:57,260

anyone hasn't seen those you can I think

294

00:14:01,570 --> 00:13:58,880

you can catch most of them on YouTube a

295

00:14:03,820 --> 00:14:01,580

lot of the segments that's what people

296

00:14:05,980 --> 00:14:03,830

tell me I don't know I don't spend a lot

297

00:14:07,930 --> 00:14:05,990

of time with YouTube but apparently I

298

00:14:09,880 --> 00:14:07,940

can find almost anything but somebody

299

00:14:11,890 --> 00:14:09,890

turned up with one lesson gee that

300

00:14:14,530 --> 00:14:11,900

doesn't look familiar what when he was

301

00:14:18,550 --> 00:14:14,540

describing it and I didn't see it I said

302

00:14:20,140 --> 00:14:18,560

what color was my hair black well then I

303

00:14:23,440 --> 00:14:20,150

remembered it was a show that had been

304

00:14:28,510 --> 00:14:23,450

done about 20 years there when I was

305

00:14:32,020 --> 00:14:28,520

younger yeah you know there's a lot of

306

00:14:33,670 --> 00:14:32,030

stuff out there and I don't I really

307

00:14:37,060 --> 00:14:33,680

don't Park myself in front of the tube

308

00:14:39,190 --> 00:14:37,070

to watch what I've been on yeah it's

309

00:14:40,060 --> 00:14:39,200

more fun to do other things yeah

310

00:14:43,600 --> 00:14:40,070

absolutely

311

00:14:49,120 --> 00:14:43,610

so what inspired you to to co-author

312

00:14:52,060 --> 00:14:49,130

this book well either one in bingo okay

313

00:14:56,170 --> 00:14:52,070

I will go well you know this dates all

314

00:14:59,260 --> 00:14:56,180

the way back to 2010 and Stan and I were

315

00:15:01,630 --> 00:14:59,270

talking about what our next book would

316

00:15:03,910 --> 00:15:01,640

be after science was wrong

317

00:15:06,610 --> 00:15:03,920

we thought that we wanted to write

318

00:15:10,260 --> 00:15:06,620

another one and so we started talking

319

00:15:13,120 --> 00:15:10,270

about it and Stan said that he really

320

00:15:16,740 --> 00:15:13,130

wanted to write something about dr.

321

00:15:19,240 --> 00:15:16,750

Donald Menzel the the Harvard

322

00:15:22,570 --> 00:15:19,250

astrophysicists too was such a huge

323

00:15:26,110 --> 00:15:22,580

debunker and I really wanted to include

324

00:15:28,270 --> 00:15:26,120

Philip Glass in the book and go to the

325

00:15:32,440 --> 00:15:28,280

American Philosophical Society

326

00:15:34,450 --> 00:15:32,450

where classes our Kylie collection is

327

00:15:36,820 --> 00:15:34,460

and do a lot

328

00:15:40,150 --> 00:15:36,830

research there which I ended up doing

329

00:15:43,930 --> 00:15:40,160

and so over time we discussed it and

330

00:15:49,570 --> 00:15:43,940

finally after six years of combined

331

00:15:53,230 --> 00:15:49,580

research efforts we have the book well

332

00:15:57,190 --> 00:15:53,240

and I should add that not many books dig

333

00:16:00,220 --> 00:15:57,200

into the reality of the debunker crowd

334

00:16:04,330 --> 00:16:00,230

and the fact that something is fishy

335

00:16:06,760 --> 00:16:04,340

there in other words we have people who

336

00:16:10,450 --> 00:16:06,770

were too smart not to know that they

337

00:16:14,350 --> 00:16:10,460

were being deceptive misleading lying

338

00:16:16,930 --> 00:16:14,360

can I say that I do well and you know

339

00:16:19,480 --> 00:16:16,940

part of our focus was on dr. Edward u

340

00:16:23,380 --> 00:16:19,490

Condon as a physicist I have to say he

341

00:16:25,810 --> 00:16:23,390

was a well-known excellent physicist he

342

00:16:28,480 --> 00:16:25,820

but he directed the Condon study at the

343

00:16:30,640 --> 00:16:28,490

University of Colorado study and came

344

00:16:33,850 --> 00:16:30,650

out with some things that were pretty

345

00:16:36,910 --> 00:16:33,860

darn strange pretty stupid frankly which

346

00:16:38,110 --> 00:16:36,920

bugged me because a physicist I even had

347

00:16:41,560 --> 00:16:38,120

been president the American Physical

348

00:16:42,760 --> 00:16:41,570

Society president of the American

349

00:16:45,940 --> 00:16:42,770

Association for the Advancement of

350

00:16:48,250 --> 00:16:45,950

science you know this is not a dink and

351
00:16:49,810 --> 00:16:48,260
how I could say some of the things Cathy

352
00:16:52,630 --> 00:16:49,820
you probably know it better than I did

353
00:16:54,970 --> 00:16:52,640
that quote about no alien life will be

354
00:16:59,100 --> 00:16:54,980
visiting for 10,000 years or something

355
00:17:03,870 --> 00:16:59,110
like that yeah see it that's what it was

356
00:17:07,840 --> 00:17:03,880
Stan is that we could not expect

357
00:17:10,930 --> 00:17:07,850
intelligent life from elsewhere to visit

358
00:17:13,120 --> 00:17:10,940
our solar system in the next 10,000

359
00:17:17,920 --> 00:17:13,130
years how could someone come up with

360
00:17:19,990 --> 00:17:17,930
that we were curious about I mean there

361
00:17:21,820 --> 00:17:20,000
has to be some kind of explanation for

362
00:17:28,690 --> 00:17:21,830
such a stupid remark from such a smart

363
00:17:30,670 --> 00:17:28,700

guy and class we I had run-ins with him

364

00:17:33,610 --> 00:17:30,680

and there's no question that his

365

00:17:38,110 --> 00:17:33,620

debunking was unscientific irrational

366

00:17:40,390 --> 00:17:38,120

nasty etc and I still haven't found the

367

00:17:43,090 --> 00:17:40,400

smoking gun I wonder if anybody

368

00:17:47,330 --> 00:17:43,100

listening to us happens to know some

369

00:17:49,550 --> 00:17:47,340

inside stuff about why or who phil was

370

00:17:52,100 --> 00:17:49,560

looking for to come up with so many

371

00:17:54,620 --> 00:17:52,110

irrational explanations and to be so

372

00:18:00,140 --> 00:17:54,630

nasty about it I got a kick out of

373

00:18:02,390 --> 00:18:00,150

Donald Trump calling Hillary Clinton but

374

00:18:05,480 --> 00:18:02,400

what is what were the exact words she's

375

00:18:06,950 --> 00:18:05,490

so nasty something like that I think he

376

00:18:09,650 --> 00:18:06,960

was talking about her campaign or

377

00:18:10,400 --> 00:18:09,660

something well I think I know what you

378

00:18:13,790 --> 00:18:10,410

mean

379

00:18:17,810 --> 00:18:13,800

well he said I saw him say it to her

380

00:18:21,350 --> 00:18:17,820

during the debate but the thing is it's

381

00:18:24,890 --> 00:18:21,360

hard to understand why class was so

382

00:18:26,540 --> 00:18:24,900

nasty to a lot of people and so lucky

383

00:18:28,520 --> 00:18:26,550

was a senior avionics editor for

384

00:18:31,910 --> 00:18:28,530

Aviation Week and space technology a

385

00:18:33,800 --> 00:18:31,920

respectable publication and based in

386

00:18:36,590 --> 00:18:33,810

Washington so he was the go-to man

387

00:18:40,280 --> 00:18:36,600

whenever the media needed somebody close

388

00:18:42,100 --> 00:18:40,290

by phil was there but he said so many

389

00:18:47,090 --> 00:18:42,110

things that were so obviously

390

00:18:49,070 --> 00:18:47,100

nonsensical and nasty and you know I

391

00:18:54,650 --> 00:18:49,080

still don't know who he was working for

392

00:18:56,660 --> 00:18:54,660

if besides himself but so one of the

393

00:18:58,130 --> 00:18:56,670

things about the book was we try to

394

00:18:58,610 --> 00:18:58,140

cover ground that other people haven't

395

00:19:03,470 --> 00:18:58,620

covered

396

00:19:06,040 --> 00:19:03,480

hmm I think that's a fair statement in

397

00:19:09,410 --> 00:19:06,050

other words it is not case after case

398

00:19:11,120 --> 00:19:09,420

it's trying to understand some of the

399

00:19:14,000 --> 00:19:11,130

strange things that have happened with

400

00:19:15,890 --> 00:19:14,010

regard to how the media how the

401
00:19:18,380 --> 00:19:15,900
scientific community and others have

402
00:19:19,820 --> 00:19:18,390
dealt with this subject certainly in an

403
00:19:23,930 --> 00:19:19,830
irrational fashion

404
00:19:27,050 --> 00:19:23,940
I mean I'm ashamed as a scientist as a

405
00:19:29,630 --> 00:19:27,060
physicist with some of the things that

406
00:19:32,660 --> 00:19:29,640
these guys have said and with classes

407
00:19:33,320 --> 00:19:32,670
attacks on dr. James E McDonald I knew

408
00:19:36,170 --> 00:19:33,330
Jim

409
00:19:39,740 --> 00:19:36,180
I consider him the number one ufologist

410
00:19:42,620 --> 00:19:39,750
ever and the the dirty tricks that

411
00:19:45,980 --> 00:19:42,630
Christ tried to pull on him were really

412
00:19:48,620 --> 00:19:45,990
something else yeah so these are things

413
00:19:53,840 --> 00:19:48,630

you know you want to know why people who

414

00:19:55,420 --> 00:19:53,850
weren't stupid why they took the

415

00:19:57,590 --> 00:19:55,430
attitudes they did and at least

416

00:19:58,730 --> 00:19:57,600
demonstrate that what they said was

417

00:20:03,560 --> 00:19:58,740
irrational

418

00:20:06,200 --> 00:20:03,570
and and nasty and so we set out to try

419

00:20:08,450 --> 00:20:06,210
to cover some of that ground and in

420

00:20:10,519 --> 00:20:08,460
looking back at the book I think no

421

00:20:13,940 --> 00:20:10,529
other book covers the same ground do you

422

00:20:16,010 --> 00:20:13,950
think so no I don't think so

423

00:20:22,940 --> 00:20:16,020
one of the things I noticed is that the

424

00:20:24,799 --> 00:20:22,950
the chapter on Philip classes though I

425

00:20:27,740 --> 00:20:24,809
think it's the longest one of all them

426

00:20:32,060 --> 00:20:27,750

isn't it as far as like the debunker

427

00:20:35,149 --> 00:20:32,070

personalities yes there's more than one

428

00:20:40,850 --> 00:20:35,159

Philip lasts work yes I did cover a lot

429

00:20:43,940 --> 00:20:40,860

and he had very extensive files in at

430

00:20:47,299 --> 00:20:43,950

his archival collection and I was very

431

00:20:50,389 --> 00:20:47,309

very surprised to learn that he had

432

00:20:53,930 --> 00:20:50,399

close connections close relationships

433

00:20:57,350 --> 00:20:53,940

with people like Donald Menzel with

434

00:20:59,570 --> 00:20:57,360

Edward Condon with Robert Lowe who was

435

00:21:04,549 --> 00:20:59,580

the project coordinator on the Condon

436

00:21:08,180 --> 00:21:04,559

committee and with Hector quintanilla

437

00:21:12,789 --> 00:21:08,190

who was the director of Project Blue

438

00:21:18,740 --> 00:21:12,799

Book from 1963 until 1970 and in

439

00:21:21,289 --> 00:21:18,750

Cantonese autobiography I found a little

440

00:21:24,799 --> 00:21:21,299

paragraph where he thanked Philip Glass

441

00:21:27,710 --> 00:21:24,809

for his help on Project Blue Book he

442

00:21:31,880 --> 00:21:27,720

also thanked Donald medal for his help

443

00:21:35,659 --> 00:21:31,890

so here they were acting as unpaid

444

00:21:38,779 --> 00:21:35,669

advisers on Project Blue Book to debunk

445

00:21:42,620 --> 00:21:38,789

UFOs through deductive reasoning it had

446

00:21:44,690 --> 00:21:42,630

nothing to do with the facts but but

447

00:21:47,419 --> 00:21:44,700

just dispensed with the evidence in

448

00:21:50,870 --> 00:21:47,429

other words right well we did I will say

449

00:21:55,190 --> 00:21:50,880

this we didn't find anything as blatant

450

00:21:58,870 --> 00:21:55,200

as I found about Menzel I mean I had one

451

00:22:01,970 --> 00:21:58,880

run-in with the man he wrote books in

452

00:22:05,000 --> 00:22:01,980

1950s debunking books his first book was

453

00:22:08,060 --> 00:22:05,010

translated into Russian and here he was

454

00:22:10,970 --> 00:22:08,070

a Banda ping after a while head of the

455

00:22:11,869 --> 00:22:10,980

astronomy department at Harvard and how

456

00:22:15,319 --> 00:22:11,879

does one

457

00:22:18,609 --> 00:22:15,329

explain that so my discovery which came

458

00:22:23,659 --> 00:22:18,619

as quite a shock to me he had the

459

00:22:27,829 --> 00:22:23,669

Harvard archives that he told Jack

460

00:22:29,989 --> 00:22:27,839

Kennedy in writing that he had a longer

461

00:22:35,839 --> 00:22:29,999

continuous association with the National

462

00:22:39,289 --> 00:22:35,849

Security Agency of anybody 30 years and

463

00:22:41,269 --> 00:22:39,299

when we are properly cleared to eat each

464

00:22:43,069 --> 00:22:41,279

other I can tell you more

465

00:22:45,769 --> 00:22:43,079

he thought that under Eisenhower the NSA

466

00:22:49,609 --> 00:22:45,779

hadn't been treated properly but who

467

00:22:51,949 --> 00:22:49,619

knew that mental thing and I'm convinced

468

00:22:56,709 --> 00:22:51,959

I was looking for work of looking for

469

00:22:59,449 --> 00:22:56,719

facts about operation majestic 12 and

470

00:23:02,209 --> 00:22:59,459

Mendel was listed and at first thought

471

00:23:04,669 --> 00:23:02,219

was this is kind of a joke how could he

472

00:23:07,309 --> 00:23:04,679

be one of twelve guys who were appointed

473

00:23:12,709 --> 00:23:07,319

by President Truman to really dig into

474

00:23:14,239 --> 00:23:12,719

flying saucers and benzel everybody else

475

00:23:17,779 --> 00:23:14,249

had a clearance it was easy to establish

476

00:23:20,239 --> 00:23:17,789

that a high-level security clearance but

477

00:23:23,299 --> 00:23:20,249

I stumbled that's the way these things

478

00:23:26,089 --> 00:23:23,309

happen I guess across a memo in the

479

00:23:28,759 --> 00:23:26,099

files of dr. Vannevar Bush who was a top

480

00:23:32,089 --> 00:23:28,769

scientist and Roosevelt scientific

481

00:23:32,749 --> 00:23:32,099

adviser and and supposedly a member of

482

00:23:34,579 --> 00:23:32,759

mj-12

483

00:23:37,909 --> 00:23:34,589

he would have to have been because he

484

00:23:40,279 --> 00:23:37,919

was the right guy all right and there

485

00:23:43,339 --> 00:23:40,289

was a letter in his files from a lawyer

486

00:23:47,239 --> 00:23:43,349

thanking him for helping get Donald

487

00:23:50,180 --> 00:23:47,249

Menzel off of charges of disloyalty they

488

00:23:53,180 --> 00:23:50,190

were big hearings held and that shook me

489

00:23:54,799 --> 00:23:53,190

up I called the lawyer you know

490

00:23:58,009 --> 00:23:54,809

wondering what the heck is this all

491

00:23:59,689 --> 00:23:58,019

about and the lawyer said yes there's

492

00:24:04,249 --> 00:23:59,699

about a thousand pages at the Harvard

493

00:24:09,499 --> 00:24:04,259

archives and there was the testimony he

494

00:24:10,729 --> 00:24:09,509

was released so to speak yeah they want

495

00:24:13,549 --> 00:24:10,739

to take away a high-level security

496

00:24:14,599 --> 00:24:13,559

clearance and mom thinking what security

497

00:24:16,819 --> 00:24:14,609

things you don't need a security

498

00:24:20,629 --> 00:24:16,829

clearance and to teach astronomy at

499

00:24:22,309 --> 00:24:20,639

Harvard right and and so that led me to

500

00:24:23,569 --> 00:24:22,319

pursue it I had to get permission for

501
00:24:25,360 --> 00:24:23,579
three different people to look at his

502
00:24:27,460 --> 00:24:25,370
papers at Harvard

503
00:24:29,170 --> 00:24:27,470
and that's where I saw this letter and a

504
00:24:32,440 --> 00:24:29,180
lot of other material he was a

505
00:24:34,000 --> 00:24:32,450
world-class cryptologist and a few years

506
00:24:35,830 --> 00:24:34,010
ago a paper was even published in a

507
00:24:40,090 --> 00:24:35,840
scientific journal the Cryptologic

508
00:24:43,060 --> 00:24:40,100
contributions of Donald Menzel hmm

509
00:24:45,940 --> 00:24:43,070
so that came as a very big surprise and

510
00:24:48,940 --> 00:24:45,950
many people in ufology got mad I mean I

511
00:24:49,900 --> 00:24:48,950
had written a paper you the double life

512
00:24:53,190 --> 00:24:49,910
of Donald Menzel

513
00:24:55,540 --> 00:24:53,200

and you can't he couldn't have been a

514

00:24:58,930 --> 00:24:55,550

member of such a group he was a deep

515

00:25:00,520 --> 00:24:58,940

bunker and none of these people as far

516

00:25:02,440 --> 00:25:00,530

as I can tell have gone to the Harvard

517

00:25:06,010 --> 00:25:02,450

archives so look at the words that he

518

00:25:08,020 --> 00:25:06,020

said the things that he did but so

519

00:25:10,300 --> 00:25:08,030

finding that gave me confidence that

520

00:25:13,570 --> 00:25:10,310

there might be a lot of people who were

521

00:25:17,410 --> 00:25:13,580

doing the devil's work if you will that

522

00:25:22,030 --> 00:25:17,420

we didn't know about and so I came to

523

00:25:24,640 --> 00:25:22,040

appreciate men don't believe it you know

524

00:25:28,350 --> 00:25:24,650

well at least I could see why he was

525

00:25:31,420 --> 00:25:28,360

taking the view he was taking I and

526
00:25:32,800 --> 00:25:31,430
being a member of majestic 12 and of

527
00:25:34,630 --> 00:25:32,810
course there's still people in ufology

528
00:25:37,540 --> 00:25:34,640
who haven't read my book top secret

529
00:25:40,560 --> 00:25:37,550
magic who don't know how strong the case

530
00:25:45,550 --> 00:25:40,570
is for there having been a majestic 12

531
00:25:47,710 --> 00:25:45,560
and so we tried in the book to cover a

532
00:25:52,600 --> 00:25:47,720
lot of these probably to some people

533
00:25:54,310 --> 00:25:52,610
surprising angles like Menzel being

534
00:25:56,020 --> 00:25:54,320
somebody very different from what we

535
00:25:59,740 --> 00:25:56,030
thought it was there I should add that

536
00:26:02,110 --> 00:25:59,750
there are two issues of sky and

537
00:26:03,820 --> 00:26:02,120
telescope which is a very important

538
00:26:07,060 --> 00:26:03,830

magazine for I'll call an amateur

539

00:26:10,720 --> 00:26:07,070

astronomers devoted to Donald Menzel

540

00:26:13,180 --> 00:26:10,730

first on the occasion of his death and

541

00:26:13,510 --> 00:26:13,190

the second on 100th anniversary of his

542

00:26:16,330 --> 00:26:13,520

birth

543

00:26:18,990 --> 00:26:16,340

neither one says anything about all his

544

00:26:22,990 --> 00:26:19,000

post-world War two

545

00:26:24,490 --> 00:26:23,000

highly classified work hmm which tells

546

00:26:26,740 --> 00:26:24,500

you that it was a very well-kept secret

547

00:26:28,420 --> 00:26:26,750

and I mentioned it's only because and

548

00:26:31,300 --> 00:26:28,430

I'm sure Kathy gets this too oh the

549

00:26:32,980 --> 00:26:31,310

government can't keep secrets and those

550

00:26:35,140 --> 00:26:32,990

members of mj-12 they would have all

551
00:26:37,060 --> 00:26:35,150
told their wives what they do well I

552
00:26:37,710 --> 00:26:37,070
will say I had a clearance for fourteen

553
00:26:40,410 --> 00:26:37,720
years

554
00:26:43,260 --> 00:26:40,420
I never told my wife anything classified

555
00:26:47,310 --> 00:26:43,270
ever we against the law

556
00:26:51,050 --> 00:26:47,320
I could lose my job etc it's just the

557
00:26:56,790 --> 00:26:54,180
but mental and that when I asked his

558
00:26:59,940 --> 00:26:56,800
wife I talked to his wife this is after

559
00:27:01,530 --> 00:26:59,950
he's dead of course and she said she

560
00:27:04,860 --> 00:27:01,540
knew nothing about it's classified work

561
00:27:06,750 --> 00:27:04,870
I talked to his secretary who had a

562
00:27:08,820 --> 00:27:06,760
clearance in order to handle his

563
00:27:12,060 --> 00:27:08,830

classified material she knew that he did

564

00:27:14,510 --> 00:27:12,070

classified work but she wasn't very

565

00:27:18,240 --> 00:27:14,520

forthcoming about anything about

566

00:27:21,210 --> 00:27:18,250

anything like that but security is

567

00:27:23,730 --> 00:27:21,220

something because I spent 14 years and I

568

00:27:26,820 --> 00:27:23,740

know a lot about I wrote classified

569

00:27:29,160 --> 00:27:26,830

documents I did one study I never even

570

00:27:32,940 --> 00:27:29,170

was able to keep a copy of my final

571

00:27:36,690 --> 00:27:32,950

report it was too classified and so

572

00:27:39,420 --> 00:27:36,700

restricted I wish I had it is matter

573

00:27:41,510 --> 00:27:39,430

fact but I don't and I I would never

574

00:27:44,660 --> 00:27:41,520

have kept a copy of something like that

575

00:27:48,030 --> 00:27:44,670

you just don't do that sort of thing so

576

00:27:51,900 --> 00:27:48,040

that that has been a big incentive for

577

00:27:55,430 --> 00:27:51,910

me and also I think there's something

578

00:27:59,490 --> 00:27:55,440

I'll mention nobody else really plays up

579

00:28:03,180 --> 00:27:59,500

the role of Air Force general Carrol

580

00:28:05,400 --> 00:28:03,190

Bohlander engineer and he wrote the memo

581

00:28:08,490 --> 00:28:05,410

that resulted in the closure of Project

582

00:28:11,190 --> 00:28:08,500

Blue Book and we didn't see this memo

583

00:28:13,770 --> 00:28:11,200

was written in like 69 we didn't see it

584

00:28:17,910 --> 00:28:13,780

until 1979 I think it was released by

585

00:28:21,300 --> 00:28:17,920

accident frankly but in which he made

586

00:28:22,920 --> 00:28:21,310

the astonishing claim that reports of

587

00:28:27,390 --> 00:28:22,930

UFOs which could affect national

588

00:28:30,300 --> 00:28:27,400

security are not part of the Blue Book

589

00:28:31,560 --> 00:28:30,310

system hmm now one would have thought

590

00:28:37,290 --> 00:28:31,570

that they would have been the main focus

591

00:28:39,690 --> 00:28:37,300

of the blue have seen he also said he

592

00:28:41,520 --> 00:28:39,700

also said that if we close project we'll

593

00:28:43,200 --> 00:28:41,530

look this is into this memo that he

594

00:28:49,320 --> 00:28:43,210

wrote that resulted in the closure of

595

00:28:53,820 --> 00:28:49,330

project movement he also said that the

596

00:28:55,409 --> 00:28:53,830

public will have no place to report UFO

597

00:28:56,009 --> 00:28:55,419

sightings of projects will book is

598

00:28:58,769 --> 00:28:56,019

closed

599

00:29:00,409 --> 00:28:58,779

however as previously noted reports

600

00:29:03,029 --> 00:29:00,419

which could affect national security

601
00:29:05,700 --> 00:29:03,039
will continue to be investigated using

602
00:29:07,350 --> 00:29:05,710
procedures designed for that purpose now

603
00:29:09,389 --> 00:29:07,360
from how many years is the Air Force

604
00:29:11,879 --> 00:29:09,399
been saying there was no security angle

605
00:29:14,009 --> 00:29:11,889
here we haven't been doing anything

606
00:29:16,499 --> 00:29:14,019
about UFOs well maybe it's true ones

607
00:29:17,909 --> 00:29:16,509
done by operation majestic glow but

608
00:29:19,859 --> 00:29:17,919
that's the question if they didn't go to

609
00:29:24,330 --> 00:29:19,869
the Air Force where that did they go

610
00:29:27,840 --> 00:29:24,340
and I think mj-12 majestic 12 provides a

611
00:29:29,700 --> 00:29:27,850
very convenient explanation for that so

612
00:29:34,680 --> 00:29:29,710
we try to weave all this stuff together

613
00:29:37,940 --> 00:29:34,690

in the book yeah a question I have for

614

00:29:40,769 --> 00:29:37,950

youse this is for you Stan and that is

615

00:29:43,859 --> 00:29:40,779

you know I've heard you say a number of

616

00:29:48,299 --> 00:29:43,869

times that you know it's pretty obvious

617

00:29:52,259 --> 00:29:48,309

the government is covering this topic up

618

00:29:53,249 --> 00:29:52,269

basically and I'm like Watergate Yeah

619

00:29:55,619 --> 00:29:53,259

right

620

00:29:59,340 --> 00:29:55,629

but the question I have - what do you

621

00:30:01,619 --> 00:29:59,350

think about what they actually know

622

00:30:03,330 --> 00:30:01,629

about what's going on do you think

623

00:30:04,950 --> 00:30:03,340

they're just as puzzled as the rest of

624

00:30:06,799 --> 00:30:04,960

us or do you think they know something

625

00:30:08,879 --> 00:30:06,809

that we don't know

626

00:30:10,379 --> 00:30:08,889

well I think they're you don't keep

627

00:30:12,659 --> 00:30:10,389

secrets by telling everybody and

628

00:30:15,210 --> 00:30:12,669

hopefully nobody tell us what they know

629

00:30:16,889 --> 00:30:15,220

you tell as few people as possible and

630

00:30:18,899 --> 00:30:16,899

they have to have an appropriate very

631

00:30:20,070 --> 00:30:18,909

high-level security clearance and an

632

00:30:23,399 --> 00:30:20,080

appropriate need-to-know

633

00:30:24,479 --> 00:30:23,409

I think there are some few people in

634

00:30:25,979 --> 00:30:24,489

other words I don't want to say the

635

00:30:28,070 --> 00:30:25,989

government knows this is that there are

636

00:30:30,899 --> 00:30:28,080

some few people within the government

637

00:30:32,789 --> 00:30:30,909

that know the whole story that know what

638

00:30:36,269 --> 00:30:32,799

we've learned from aliens that have been

639

00:30:38,519 --> 00:30:36,279

recovered in crashed saucers that know

640

00:30:41,279 --> 00:30:38,529

what technological secrets we've picked

641

00:30:43,049 --> 00:30:41,289

up along the way that know what kind of

642

00:30:47,549 --> 00:30:43,059

measurements have been made of aircraft

643

00:30:49,859 --> 00:30:47,559

chasing UFOs with instrumentation but

644

00:30:51,899 --> 00:30:49,869

these aren't things that you go telling

645

00:30:55,950 --> 00:30:51,909

everybody that's not how the system

646

00:31:00,539 --> 00:30:55,960

works so I think there's some few people

647

00:31:03,150 --> 00:31:00,549

that know a great deal and I'm tending

648

00:31:05,100 --> 00:31:03,160

to believe the story about Ike have

649

00:31:10,920 --> 00:31:05,110

met with aliens out at Holloman Air

650

00:31:14,550 --> 00:31:10,930

Force Base after Campbell talked to a

651
00:31:15,990 --> 00:31:14,560
crew member of Ike's plane when he had

652
00:31:19,500 --> 00:31:16,000
been when he was president when he was

653
00:31:22,230 --> 00:31:19,510
supposedly playing golf in Georgia and

654
00:31:24,870 --> 00:31:22,240
was flown out to Holloman and he was his

655
00:31:27,450 --> 00:31:24,880
flame is at one end of the field and UFO

656
00:31:31,530 --> 00:31:27,460
was at the other end I tend to believe

657
00:31:34,470 --> 00:31:31,540
that but I have no idea of what went on

658
00:31:38,430 --> 00:31:34,480
what was the agreement you know we got

659
00:31:40,200 --> 00:31:38,440
to see you guys for lunch or we will

660
00:31:43,650 --> 00:31:40,210
agree not to shoot at you if you don't

661
00:31:46,020 --> 00:31:43,660
clobber Iraq I have no idea there's

662
00:31:49,290 --> 00:31:46,030
plenty of room for investigation here

663
00:31:51,840 --> 00:31:49,300

and what I'm hoping one of the reasons

664

00:31:54,030 --> 00:31:51,850

we're doing this book I have sensed I

665

00:31:56,760 --> 00:31:54,040

mean you know I done over 700 lectures

666

00:31:58,920 --> 00:31:56,770

so I get a lot of feedback once figured

667

00:32:03,660 --> 00:31:58,930

I'd answered 60,000 questions and that

668

00:32:08,460 --> 00:32:03,670

was a few years back but the question

669

00:32:13,830 --> 00:32:08,470

comes up then what does it all mean and

670

00:32:15,570 --> 00:32:13,840

I still don't know I'd like to find out

671

00:32:20,850 --> 00:32:15,580

while I'm still alive maybe there's a

672

00:32:24,360 --> 00:32:20,860

way to reach it from the other side yeah

673

00:32:26,060 --> 00:32:24,370

you know so I'll think there are some few

674

00:32:28,980 --> 00:32:26,070

people not only in our own government

675

00:32:30,780 --> 00:32:28,990

but in other governments but it's time

676

00:32:33,240 --> 00:32:30,790

to say the attitude has changed in the

677

00:32:36,210 --> 00:32:33,250

sense that partly because of the Kepler

678

00:32:39,330 --> 00:32:36,220

satellite we know though that their

679

00:32:40,710 --> 00:32:39,340

planet so I'll over the darn place there

680

00:32:42,450 --> 00:32:40,720

wasn't too many here's that you could

681

00:32:44,520 --> 00:32:42,460

get away with saying well I don't know

682

00:32:47,570 --> 00:32:44,530

if there's any other solar system we

683

00:32:50,130 --> 00:32:47,580

don't have any evidence now Frank Drake

684

00:32:51,660 --> 00:32:50,140

sort of to his credit a number of years

685

00:32:54,000 --> 00:32:51,670

ago said there might be as many as

686

00:32:56,310 --> 00:32:54,010

10,000 places in the galaxy that could

687

00:32:58,080 --> 00:32:56,320

be sending us radio signals he didn't

688

00:33:01,950 --> 00:32:58,090

answer the question as to why they would

689

00:33:06,290 --> 00:33:01,960

do that but now it appears that there

690

00:33:08,430 --> 00:33:06,300

are between 1 and 1.6 planets per star

691

00:33:10,440 --> 00:33:08,440

that means that within a hundred

692

00:33:14,580 --> 00:33:10,450

light-years of here which just down the

693

00:33:16,499 --> 00:33:14,590

street so to speak there are 10,000

694

00:33:18,899 --> 00:33:16,509

stars and therefore at least 10 times

695

00:33:20,699 --> 00:33:18,909

employments I'm not saying they all have

696

00:33:22,799 --> 00:33:20,709

life but baseball player to get paid a

697

00:33:25,229 --> 00:33:22,809

lot of money for getting a hit 30% of

698

00:33:27,269 --> 00:33:25,239

the time you know you don't say that

699

00:33:29,189 --> 00:33:27,279

it's terrible because 70% of the time he

700

00:33:30,389 --> 00:33:29,199

didn't get it hit so you don't say that

701
00:33:31,469 --> 00:33:30,399
well since most sightings can be

702
00:33:34,039 --> 00:33:31,479
explained

703
00:33:40,829 --> 00:33:34,049
therefore all can be that's ridiculous

704
00:33:44,339 --> 00:33:40,839
but that many planets I never anymore

705
00:33:48,919 --> 00:33:44,349
here the notion that we're the only ones

706
00:33:51,739 --> 00:33:48,929
around hmm also we know that there are

707
00:33:53,999 --> 00:33:51,749
stars that have other stars close by

708
00:33:58,739 --> 00:33:54,009
we're out in the boonies the next star

709
00:34:00,209 --> 00:33:58,749
is 4.3 light years there are stars in

710
00:34:02,789 --> 00:34:00,219
the case of Betty and Barney Hill the

711
00:34:05,009 --> 00:34:02,799
storm out there the base star seems to

712
00:34:07,079 --> 00:34:05,019
be an eighth of a light year apart

713
00:34:09,720 --> 00:34:07,089

that's more than 30 times closer to each

714

00:34:11,730 --> 00:34:09,730

other I would expect that the

715

00:34:15,119 --> 00:34:11,740

probability of developing interstellar

716

00:34:17,039 --> 00:34:15,129

travel goes up as you have a near

717

00:34:20,329 --> 00:34:17,049

next-door neighbor so to speak as

718

00:34:25,740 --> 00:34:20,339

opposed to somebody across the county

719

00:34:29,099 --> 00:34:25,750

only makes sense so there's changing

720

00:34:32,849 --> 00:34:29,109

attitude and the rhythm Pope has even

721

00:34:35,430 --> 00:34:32,859

talked to her guys that work with the

722

00:34:38,460 --> 00:34:35,440

Pope have said that they would baptize

723

00:34:41,279 --> 00:34:38,470

an alien if they do that they didn't

724

00:34:44,549 --> 00:34:41,289

they didn't laugh so what I'm saying is

725

00:34:47,669 --> 00:34:44,559

the acceptance of the notion of other

726

00:34:50,460 --> 00:34:47,679

life out there if you go back to the

727

00:34:53,460 --> 00:34:50,470

hill experience in 1961 the attitude has

728

00:34:58,109 --> 00:34:53,470

surely changed very great deal since

729

00:35:00,690 --> 00:34:58,119

then yes yes absolutely

730

00:35:03,829 --> 00:35:00,700

Kathy I think there's a far broader

731

00:35:06,299 --> 00:35:03,839

acceptance today than there was then yes

732

00:35:09,089 --> 00:35:06,309

Kathy I have a question here too on the

733

00:35:13,019 --> 00:35:09,099

message board for you but just finishing

734

00:35:15,720 --> 00:35:13,029

that thought stand about the government

735

00:35:19,559 --> 00:35:15,730

or some compartmentalize part of the

736

00:35:21,289 --> 00:35:19,569

government having knowledge how would

737

00:35:26,430 --> 00:35:21,299

you think that would be passed down

738

00:35:27,960 --> 00:35:26,440

generational through like a branch of

739

00:35:30,450 --> 00:35:27,970

the government in other words from

740

00:35:34,500 --> 00:35:30,460

Roswell till now without

741

00:35:38,130 --> 00:35:34,510

escaping leaking or anything secret

742

00:35:42,059 --> 00:35:38,140

secrets are easy to keep two things you

743

00:35:47,670 --> 00:35:42,069

need the appropriate clearance and you

744

00:35:50,069 --> 00:35:47,680

need want here a need-to-know is the

745

00:35:53,099 --> 00:35:50,079

simplest expressions there's probably a

746

00:35:55,410 --> 00:35:53,109

fancier phrase than that and look

747

00:35:57,569 --> 00:35:55,420

marking spent over ten billion dollars

748

00:35:58,940 --> 00:35:57,579

to develop the stealth aircraft in

749

00:36:02,160 --> 00:35:58,950

secret

750

00:36:04,950 --> 00:36:02,170

the corona spy satellite our first one

751
00:36:07,589 --> 00:36:04,960
there were twelve failures in secret we

752
00:36:09,930 --> 00:36:07,599
heard nothing about those for thirty

753
00:36:10,410 --> 00:36:09,940
years it got more the first successful

754
00:36:13,140 --> 00:36:10,420
one

755
00:36:15,779 --> 00:36:13,150
got more data than all the u-2 spy

756
00:36:18,990 --> 00:36:15,789
planes had obtained in the years

757
00:36:21,420 --> 00:36:19,000
preceding it there was no announcement

758
00:36:25,440 --> 00:36:21,430
about the reality of the corona spy

759
00:36:27,210 --> 00:36:25,450
satellite for thirty years a lot of

760
00:36:29,240 --> 00:36:27,220
people to build a satellite and handle

761
00:36:32,250 --> 00:36:29,250
the data and all that sort of thing so

762
00:36:34,109 --> 00:36:32,260
secrets aren't that difficult to keep if

763
00:36:36,210 --> 00:36:34,119

you make an effort to keep them how

764

00:36:38,250 --> 00:36:36,220

sometimes you say hey no sense keeping

765

00:36:40,849 --> 00:36:38,260

that secret anymore everybody knows you

766

00:36:47,089 --> 00:36:40,859

know when the first atom bomb was tested

767

00:36:49,890 --> 00:36:47,099

Trinity site in New Mexico in July of 45

768

00:36:53,150 --> 00:36:49,900

it was seen from a hundred miles away it

769

00:36:54,990 --> 00:36:53,160

was rather a spectacular event and

770

00:36:59,490 --> 00:36:55,000

people were calling the sheriff's

771

00:37:01,559 --> 00:36:59,500

offices and the cover story was put in

772

00:37:04,230 --> 00:37:01,569

the paper an ammunition dump had blown

773

00:37:05,849 --> 00:37:04,240

up and fortunately nobody was injured it

774

00:37:10,519 --> 00:37:05,859

was only after we dropped the two bosses

775

00:37:14,519 --> 00:37:10,529

on Japan but oh yeah you know people saw

776

00:37:16,950 --> 00:37:14,529

the clear explosion first what it seems

777

00:37:19,680 --> 00:37:16,960

to me it would be a really big burden to

778

00:37:23,190 --> 00:37:19,690

carry if you knew that there was life

779

00:37:26,339 --> 00:37:23,200

elsewhere it just seems like would be

780

00:37:30,019 --> 00:37:26,349

such a hard secret to keep it's so

781

00:37:33,150 --> 00:37:30,029

important well wait a minute you just

782

00:37:34,650 --> 00:37:33,160

it's it's important to keep it look at

783

00:37:37,920 --> 00:37:34,660

all the people who worked on a Manhattan

784

00:37:42,029 --> 00:37:37,930

Project the general groves who directed

785

00:37:44,130 --> 00:37:42,039

the project I never told his wife what

786

00:37:47,730 --> 00:37:44,140

he was doing and she didn't find him

787

00:37:52,020 --> 00:37:47,740

kind of funny somebody in his office at

788

00:37:55,650 --> 00:37:52,030

the Pentagon called her August I believe

789

00:37:57,810 --> 00:37:55,660

it was a 6 1945 suggesting she would

790

00:38:02,190 --> 00:37:57,820

luck she ought to listen to the radio

791

00:38:04,050 --> 00:38:02,200

that noon that day and so she did and if

792

00:38:06,570 --> 00:38:04,060

they announced that the first atomic

793

00:38:09,330 --> 00:38:06,580

bomb had been dropped on Hiroshima and

794

00:38:11,280 --> 00:38:09,340

the war would soon be over and she

795

00:38:13,110 --> 00:38:11,290

thought that that was the reason because

796

00:38:14,850 --> 00:38:13,120

that she had a son she in the general

797

00:38:17,400 --> 00:38:14,860

had a son who was due to be sent to the

798

00:38:19,170 --> 00:38:17,410

Pacific to fight over there and she

799

00:38:21,420 --> 00:38:19,180

thought that they were being nice and

800

00:38:22,950 --> 00:38:21,430

they you know it would be nice to know

801
00:38:25,620 --> 00:38:22,960
that your son isn't going to be involved

802
00:38:28,800 --> 00:38:25,630
in a horrible invasion of Japan the last

803
00:38:31,620 --> 00:38:28,810
line of the program said this incredible

804
00:38:33,240 --> 00:38:31,630
program to develop an atomic bomb was

805
00:38:36,210 --> 00:38:33,250
under the direction of General Leslie

806
00:38:37,920 --> 00:38:36,220
groves that's when she found out what

807
00:38:43,230 --> 00:38:37,930
he'd been doing for the previous two

808
00:38:47,510 --> 00:38:43,240
years mind you so yes secrets can be

809
00:38:49,890 --> 00:38:47,520
kept and you know you don't trust people

810
00:38:51,540 --> 00:38:49,900
unless you have a reason they've gone

811
00:38:52,800 --> 00:38:51,550
through a security clearance you checked

812
00:38:59,690 --> 00:38:52,810
on their background you've checked on

813
00:39:02,640 --> 00:38:59,700

your families the record it isn't just a

814

00:39:04,620 --> 00:39:02,650

notation of a pen by somebody saying oh

815

00:39:07,350 --> 00:39:04,630

I think that guy is on this week we can

816

00:39:09,570 --> 00:39:07,360

trust him it's a long difficult

817

00:39:13,200 --> 00:39:09,580

procedure and especially for very highly

818

00:39:16,080 --> 00:39:13,210

classified today I would like to add to

819

00:39:18,540 --> 00:39:16,090

that it is a crime for military

820

00:39:22,680 --> 00:39:18,550

personnel to discuss classified UFO

821

00:39:27,240 --> 00:39:22,690

reports with unauthorized persons and so

822

00:39:31,320 --> 00:39:27,250

if you were to do so you faced a \$10,000

823

00:39:35,850 --> 00:39:31,330

fine and prison term so that's something

824

00:39:43,110 --> 00:39:35,860

that is held over your head as well lots

825

00:39:45,240 --> 00:39:43,120

of pension I've heard yes yeah right so

826

00:39:46,950 --> 00:39:45,250

yeah I can kind of understand it just

827

00:39:48,900 --> 00:39:46,960

seems like it would be such a tough

828

00:39:51,530 --> 00:39:48,910

secret something that important to keep

829

00:39:57,450 --> 00:39:51,540

but you know I have heard for instance

830

00:40:01,170 --> 00:39:57,460

been from fact or faked Ben Hansen

831

00:40:05,460 --> 00:40:01,180

his grandfather basically at the very

832

00:40:09,900 --> 00:40:05,470

end of his life told his his son Ben's

833

00:40:12,660 --> 00:40:09,910

father that we're not alone you know and

834

00:40:16,530 --> 00:40:12,670

it was like a secret he had to get off

835

00:40:21,829 --> 00:40:16,540

his chest at the very end that's when

836

00:40:24,510 --> 00:40:21,839

you hear it read confessions interesting

837

00:40:28,799 --> 00:40:24,520

Kathy I have a question from the message

838

00:40:31,970 --> 00:40:28,809

board for you and since you and Denise

839

00:40:35,099 --> 00:40:31,980

stoner produced the commonality study

840

00:40:40,740 --> 00:40:35,109

have any other intriguing commonalities

841

00:40:43,349 --> 00:40:40,750

been observed in other words he's

842

00:40:45,440 --> 00:40:43,359

discovered more commonalities and we

843

00:40:50,309 --> 00:40:45,450

have we have discovered more

844

00:40:54,780 --> 00:40:50,319

commonalities we have an expanded 118

845

00:40:59,520 --> 00:40:54,790

question study going on at MUFON calm

846

00:41:03,900 --> 00:40:59,530

right now it's the experimenter survey

847

00:41:07,710 --> 00:41:03,910

and just let me throw out one thing that

848

00:41:10,349 --> 00:41:07,720

I was really astounded by and we don't

849

00:41:12,630 --> 00:41:10,359

have all the results in yet so I can't

850

00:41:14,490 --> 00:41:12,640

and not well I couldn't give the

851
00:41:17,700 --> 00:41:14,500
statistics anyway because the study

852
00:41:20,789 --> 00:41:17,710
isn't completed but I was surprised at

853
00:41:24,329 --> 00:41:20,799
the high number of individuals who

854
00:41:27,660 --> 00:41:24,339
reported dead walking which you also

855
00:41:29,549 --> 00:41:27,670
find in paranormal cases but it was

856
00:41:33,510 --> 00:41:29,559
quite a high percentage of individuals

857
00:41:36,750 --> 00:41:33,520
who would be on their beds and they

858
00:41:40,589 --> 00:41:36,760
would feel something invisible walking

859
00:41:44,099 --> 00:41:40,599
around on the bed beside them on top of

860
00:41:47,609 --> 00:41:44,109
them sometimes and so I I thought that

861
00:41:50,520 --> 00:41:47,619
was quite interesting and I'm hoping to

862
00:41:53,190 --> 00:41:50,530
have within the next few months I'm

863
00:41:55,799 --> 00:41:53,200

hoping to have the results of the new

864

00:41:57,990 --> 00:41:55,809

study out but I need everybody's help is

865

00:42:01,530 --> 00:41:58,000

listening if you're an experimenter

866

00:42:05,670 --> 00:42:01,540

please complete the experience or quest

867

00:42:09,700 --> 00:42:05,680

not questionnaire survey where do they

868

00:42:12,930 --> 00:42:09,710

find it Kathy it's at MUFON comm it is

869

00:42:19,420 --> 00:42:12,940

the main page just scroll down to the

870

00:42:22,260 --> 00:42:19,430

ERT experience a research team ok giving

871

00:42:26,920 --> 00:42:22,270

back to the book I wanted to also

872

00:42:28,569 --> 00:42:26,930

congratulate stand for that thousand

873

00:42:31,210 --> 00:42:28,579

dollar check that you got from Phil

874

00:42:36,690 --> 00:42:31,220

class I remember you telling the story

875

00:42:39,430 --> 00:42:36,700

about that I see it published here again

876

00:42:42,400 --> 00:42:39,440

it's a story worth telling because not

877

00:42:45,670 --> 00:42:42,410

everybody knows about it ok

878

00:42:48,880 --> 00:42:45,680

so class who was certainly a nasty noisy

879

00:42:52,540 --> 00:42:48,890

negative Asst when I mentioned majestic

880

00:42:54,849 --> 00:42:52,550

12 one of the documents was a short

881

00:43:00,549 --> 00:42:54,859

document that was found at the National

882

00:43:04,270 --> 00:43:00,559

Archives and he said well obviously it's

883

00:43:07,000 --> 00:43:04,280

a fraud it has the word NSC the initials

884

00:43:11,500 --> 00:43:07,010

NSE on the National Security Council and

885

00:43:14,140 --> 00:43:11,510

it he said look it's done in the large

886

00:43:17,799 --> 00:43:14,150

Planko type at the NSC only used the

887

00:43:20,020 --> 00:43:17,809

small a leap type and here's nine

888

00:43:24,520 --> 00:43:20,030

documents to prove that and I challenge

889

00:43:27,099 --> 00:43:24,530

you me to find any other documents with

890

00:43:29,380 --> 00:43:27,109

the same size and style type and meeting

891

00:43:31,390 --> 00:43:29,390

the rather long list of qualifications

892

00:43:36,910 --> 00:43:31,400

and they're kind of signatures and

893

00:43:38,230 --> 00:43:36,920

sorghum's on and I will pay you showing

894

00:43:42,220 --> 00:43:38,240

that I'm putting my money where my mouth

895

00:43:47,380 --> 00:43:42,230

is I will pay you \$100 each up to a

896

00:43:50,799 --> 00:43:47,390

maximum of ten and you've got 60 days it

897

00:43:52,930 --> 00:43:50,809

was a ridiculous offer but I'll tell you

898

00:43:55,299 --> 00:43:52,940

why in a minute anyway I went to my

899

00:43:56,710 --> 00:43:55,309

files first thing and I got loads of

900

00:43:58,539 --> 00:43:56,720

mature because I've spent a lot of time

901
00:44:02,650 --> 00:43:58,549
at the Eisenhower library and I

902
00:44:04,270 --> 00:44:02,660
immediately found 20 documents with the

903
00:44:06,160 --> 00:44:04,280
large pike that's right but they didn't

904
00:44:07,900 --> 00:44:06,170
mean all this criteria but he allowed

905
00:44:10,359 --> 00:44:07,910
two and thought he was getting away

906
00:44:12,960 --> 00:44:10,369
scot-free well I was planning on going

907
00:44:16,539 --> 00:44:12,970
to the Eisenhower library and so I went

908
00:44:19,329 --> 00:44:16,549
with in the plotted time frame and

909
00:44:22,089 --> 00:44:19,339
picked out 14 that met all his criteria

910
00:44:23,170 --> 00:44:22,099
made copies sent him an invoice for

911
00:44:28,690 --> 00:44:23,180
\$1,000

912
00:44:30,609 --> 00:44:28,700
a limit of 10 unfortunately and I sent

913
00:44:32,589 --> 00:44:30,619

him the invoice and the documents and he

914

00:44:34,690 --> 00:44:32,599

paid me he told I'd told everybody about

915

00:44:37,059 --> 00:44:34,700

challenging me but nobody about paying

916

00:44:42,450 --> 00:44:37,069

me and one of the things that Cathy

917

00:44:44,710 --> 00:44:42,460

found when she visited the archives in

918

00:44:46,450 --> 00:44:44,720

the American Philosophical Society

919

00:44:47,319 --> 00:44:46,460

library which has his papers she

920

00:44:49,030 --> 00:44:47,329

mentioned that before

921

00:44:51,880 --> 00:44:49,040

one of the things that was rather

922

00:44:56,140 --> 00:44:51,890

surprising is there was no Stanton

923

00:44:59,410 --> 00:44:56,150

Friedman file even though he and I of

924

00:45:01,900 --> 00:44:59,420

course wanted for 2014 20 years I wonder

925

00:45:04,660 --> 00:45:01,910

if he really didn't want anybody to know

926

00:45:08,349 --> 00:45:04,670

that he paid me anyway

927

00:45:10,170 --> 00:45:08,359

when I published a copy of the check in

928

00:45:13,930 --> 00:45:10,180

one of my books

929

00:45:18,370 --> 00:45:13,940

he hit the ceiling he threatened to sue

930

00:45:23,740 --> 00:45:18,380

me and for why the game for publishing

931

00:45:26,920 --> 00:45:23,750

that check and I had put a black March

932

00:45:30,339 --> 00:45:26,930

through some of the check information so

933

00:45:32,140 --> 00:45:30,349

nobody couldn't cheat him I guess and so

934

00:45:36,220 --> 00:45:32,150

I wrote him back a letter saying Phil

935

00:45:38,710 --> 00:45:36,230

you sent me a check hi Xerox bid I took

936

00:45:42,609 --> 00:45:38,720

it to the bank they cashed it I can do

937

00:45:45,339 --> 00:45:42,619

whatever I darn please with Xerox and he

938

00:45:48,819 --> 00:45:45,349

didn't say anything more but it's in the

939

00:45:51,880 --> 00:45:48,829

book and when I use it at my lectures I

940

00:45:53,200 --> 00:45:51,890

always can guarantee you that the thing

941

00:45:57,069 --> 00:45:53,210

if you kind of put your money where your

942

00:46:00,430 --> 00:45:57,079

mouth is and so Phil was saying he

943

00:46:02,500 --> 00:46:00,440

always did but until he paid me he

944

00:46:04,390 --> 00:46:02,510

hadn't put any of his money then the

945

00:46:08,500 --> 00:46:04,400

interesting thing I found out the most

946

00:46:11,349 --> 00:46:08,510

shocking thing is that he had never and

947

00:46:13,900 --> 00:46:11,359

this was after he had never been to the

948

00:46:19,059 --> 00:46:13,910

Eisenhower library and here he was

949

00:46:20,920 --> 00:46:19,069

saying they have 250,000 pages of

950

00:46:23,049 --> 00:46:20,930

national security council material there

951
00:46:24,789 --> 00:46:23,059
and he was saying they're all done on

952
00:46:27,130 --> 00:46:24,799
the same typewriter he didn't know how

953
00:46:30,730 --> 00:46:27,140
many there were of course he had nine

954
00:46:32,910 --> 00:46:30,740
that he got by mail this is typical of

955
00:46:36,789 --> 00:46:32,920
the intellectual bankruptcy of the

956
00:46:37,450 --> 00:46:36,799
pseudoscience of anti ufology Cathy's

957
00:46:48,400 --> 00:46:37,460
heard me say

958
00:46:51,250 --> 00:46:48,410
27 whatever but it's still true and one

959
00:46:53,470 --> 00:46:51,260
of my basic rules and Cathy's rule 2 is

960
00:46:57,940 --> 00:46:53,480
have facts in hand before putting mouth

961
00:47:00,190 --> 00:46:57,950
or pen and gear and we really feel that

962
00:47:05,170 --> 00:47:00,200
more people in ufology and in both sides

963
00:47:06,780 --> 00:47:05,180

of the fence would do that do your

964

00:47:12,430 --> 00:47:06,790

homework

965

00:47:16,000 --> 00:47:12,440

yes election there this part on class

966

00:47:19,570 --> 00:47:16,010

and the Travis Walton case is pretty

967

00:47:22,089 --> 00:47:19,580

interesting and and maybe Kathy can talk

968

00:47:25,990 --> 00:47:22,099

a little bit about that and also I

969

00:47:30,220 --> 00:47:26,000

remember speaking to Steve Pierce who

970

00:47:31,780 --> 00:47:30,230

said that he class offered him and maybe

971

00:47:34,000 --> 00:47:31,790

I'm getting this wrong but offered him

972

00:47:41,859 --> 00:47:34,010

\$10,000 if he would say the whole thing

973

00:47:44,280 --> 00:47:41,869

was a lie yes yes I certainly did and I

974

00:47:47,620 --> 00:47:44,290

that's one thing that I was looking for

975

00:47:51,310 --> 00:47:47,630

at the American Philosophical Society

976

00:47:55,420 --> 00:47:51,320

what I found is that class had a very

977

00:47:59,040 --> 00:47:55,430

thick folder of information on the the

978

00:48:04,109 --> 00:47:59,050

Walton case he had corresponded with

979

00:48:08,640 --> 00:48:04,119

everybody made telephone calls and he

980

00:48:11,890 --> 00:48:08,650

would transcribe the way that he

981

00:48:15,670 --> 00:48:11,900

apparently wanted the conversation to

982

00:48:18,690 --> 00:48:15,680

have gone because he was accused over

983

00:48:23,710 --> 00:48:18,700

and over again of lying when he

984

00:48:28,180 --> 00:48:23,720

transcribed what people had said and he

985

00:48:31,950 --> 00:48:28,190

from the day one when he got in on this

986

00:48:36,790 --> 00:48:31,960

investigation was hell-bent on

987

00:48:41,020 --> 00:48:36,800

destroying not only the validity of this

988

00:48:46,210 --> 00:48:41,030

case but the people who were involved in

989

00:48:50,500 --> 00:48:46,220

this case as well and for Travis Walton

990

00:48:51,220 --> 00:48:50,510

22 years old and really in a state of

991

00:48:55,480 --> 00:48:51,230

shock

992

00:49:00,760 --> 00:48:55,490

after he was returned was just ripped to

993

00:49:04,060 --> 00:49:00,770

ribbons by class and you know he was

994

00:49:07,240 --> 00:49:04,070

accused of lying his entire family was

995

00:49:12,760 --> 00:49:07,250

accused of lying they they challenged

996

00:49:16,240 --> 00:49:12,770

class and said look my family and all of

997

00:49:18,990 --> 00:49:16,250

the members of the logging crew everyone

998

00:49:22,420 --> 00:49:19,000

who was there and involved in this case

999

00:49:25,510 --> 00:49:22,430

wants to take lie-detector testing to

1000

00:49:30,190 --> 00:49:25,520

prove that we are telling the truth and

1001

00:49:34,000 --> 00:49:30,200

class agreed to it initially he said

1002

00:49:36,190 --> 00:49:34,010

that he would pay for it and that as

1003

00:49:39,910 --> 00:49:36,200

long as they could find a mutually

1004

00:49:45,300 --> 00:49:39,920

agreeable hypnotist not hypnotist a lie

1005

00:49:51,120 --> 00:49:45,310

detector test polygraph examiner who

1006

00:49:53,800 --> 00:49:51,130

would conduct the lie-detector test so

1007

00:49:56,650 --> 00:49:53,810

they went back and forth there was

1008

00:50:00,010 --> 00:49:56,660

someone who was a very very good

1009

00:50:02,260 --> 00:50:00,020

polygraph examiner but class kept

1010

00:50:05,290 --> 00:50:02,270

finding problems with them well maybe

1011

00:50:06,280 --> 00:50:05,300

that person had too much information

1012

00:50:09,490 --> 00:50:06,290

about UFOs

1013

00:50:14,530 --> 00:50:09,500

maybe that person might believe that

1014

00:50:16,930 --> 00:50:14,540

UFOs were real and then he of course

1015

00:50:19,720 --> 00:50:16,940

class knew a lot about the

1016

00:50:25,900 --> 00:50:19,730

characteristics of polygraph exams and

1017

00:50:30,970 --> 00:50:25,910

that you can persuade the the person who

1018

00:50:33,970 --> 00:50:30,980

is taking the test to do poorly on it if

1019

00:50:36,490 --> 00:50:33,980

you antagonize that person if you are

1020

00:50:41,160 --> 00:50:36,500

there too because what it does is that

1021

00:50:43,780 --> 00:50:41,170

it to tests ones level of emotions and

1022

00:50:45,940 --> 00:50:43,790

not necessarily whether or not you're

1023

00:50:48,700 --> 00:50:45,950

telling the truth so if a person is

1024

00:50:52,359 --> 00:50:48,710

stressed because they're being

1025

00:50:54,790 --> 00:50:52,369

antagonized they could fail the exam but

1026

00:50:59,339 --> 00:50:54,800

what class decided that he wanted to do

1027

00:51:02,620 --> 00:50:59,349

is he wanted to be there and be present

1028

00:51:04,750 --> 00:51:02,630

during the polygraph exam and I think

1029

00:51:07,870 --> 00:51:04,760

that that his reason for

1030

00:51:11,170 --> 00:51:07,880

doing that was that he wanted to

1031

00:51:14,440 --> 00:51:11,180

antagonize those witnesses well he ended

1032

00:51:18,900 --> 00:51:14,450

up not funding it the the deal was that

1033

00:51:22,090 --> 00:51:18,910

he was going to fund it if they failed

1034

00:51:25,420 --> 00:51:22,100

or he was going to find it if they

1035

00:51:27,760 --> 00:51:25,430

passed and they would going to fund it

1036

00:51:30,670 --> 00:51:27,770

if they failed that's the way it went

1037

00:51:34,620 --> 00:51:30,680

and but it never did take place of

1038

00:51:39,820 --> 00:51:34,630

course other polygraph examiner's did

1039

00:51:44,080 --> 00:51:39,830

give exam multiple exams to Travis and

1040

00:51:47,230 --> 00:51:44,090

to Travis's brother and to the what a

1041

00:51:49,690 --> 00:51:47,240

member of my crew who had originally

1042

00:51:51,910 --> 00:51:49,700

taken the test but the results were

1043

00:51:55,000 --> 00:51:51,920

equivocal because he had walked out

1044

00:51:57,910 --> 00:51:55,010

during the exam so they didn't really

1045

00:52:02,680 --> 00:51:57,920

have a result they all took tests after

1046

00:52:07,990 --> 00:52:02,690

that and passed was that Dallas yes that

1047

00:52:12,100 --> 00:52:08,000

was Allen Dallas and so after that other

1048

00:52:15,940 --> 00:52:12,110

things they tried to do well class just

1049

00:52:18,460 --> 00:52:15,950

found out that Travis Walton had a

1050

00:52:22,330 --> 00:52:18,470

puncture wound on the backside of his

1051
00:52:26,200 --> 00:52:22,340
elbow and so immediately he looked for a

1052
00:52:29,590 --> 00:52:26,210
reason for that puncture wound and what

1053
00:52:32,560 --> 00:52:29,600
kind of drugs might he have been and

1054
00:52:38,080 --> 00:52:32,570
injecting to cause him to hallucinate

1055
00:52:40,360 --> 00:52:38,090
this experience and the doctors ended up

1056
00:52:44,050 --> 00:52:40,370
finding out that the puncture wound was

1057
00:52:46,210 --> 00:52:44,060
not over a vein it was a puncture wound

1058
00:52:48,850 --> 00:52:46,220
that looked like it probably had been

1059
00:52:52,990 --> 00:52:48,860
caused by a tree branch or something

1060
00:52:55,870 --> 00:52:53,000
like that but class insisted that oh

1061
00:52:58,210 --> 00:52:55,880
well he just missed the vein and it went

1062
00:53:01,060 --> 00:52:58,220
into the muscle you know it was just

1063
00:53:06,730 --> 00:53:01,070

absolutely ridiculous but it was one

1064

00:53:10,690 --> 00:53:06,740

thing after another class knew the truth

1065

00:53:13,540 --> 00:53:10,700

about a lot of this case from the people

1066

00:53:18,100 --> 00:53:13,550

that he had interviewed he interviewed

1067

00:53:18,430 --> 00:53:18,110

the owner of the factory where Travis

1068

00:53:20,520 --> 00:53:18,440

wall

1069

00:53:23,170 --> 00:53:20,530

and had worked when he was a teenager

1070

00:53:26,740 --> 00:53:23,180

the factory owner liked him

1071

00:53:29,710 --> 00:53:26,750

Travis spent cold nights visiting their

1072

00:53:32,940 --> 00:53:29,720

house sometimes spent the night he was a

1073

00:53:37,870 --> 00:53:32,950

friend of the factory owned her son but

1074

00:53:41,559 --> 00:53:37,880

class turned that all around and twisted

1075

00:53:45,789 --> 00:53:41,569

it to make it look as if Travis was some

1076
00:53:48,819 --> 00:53:45,799
kind of a criminal and it happened over

1077
00:53:52,779 --> 00:53:48,829
and over again and this is not unusual I

1078
00:53:57,520 --> 00:53:52,789
give many many examples in the book of

1079
00:54:00,630 --> 00:53:57,530
not only Travis Walton but in the the

1080
00:54:05,680 --> 00:54:00,640
case of Betty cash and Vickie Landrum

1081
00:54:09,839 --> 00:54:05,690
north of Houston and all fair rod is a

1082
00:54:14,770 --> 00:54:09,849
Maura case as well all of classes

1083
00:54:18,220 --> 00:54:14,780
insidious attempts to discredit these

1084
00:54:23,049 --> 00:54:18,230
individuals and and these attempts were

1085
00:54:25,870 --> 00:54:23,059
dishonest attempts yes someone is trying

1086
00:54:28,000 --> 00:54:25,880
to call into the show for some reason

1087
00:54:30,460 --> 00:54:28,010
the Skype is not working to allow me to

1088
00:54:32,170 --> 00:54:30,470

add them to the call so if you're

1089

00:54:34,720 --> 00:54:32,180

calling and you hear me I'm sorry can't

1090

00:54:37,630 --> 00:54:34,730

can't take take take your call if you'd

1091

00:54:41,140 --> 00:54:37,640

like to ask a question in a chat room

1092

00:54:44,589 --> 00:54:41,150

feel free to jump on podcast UFO comm

1093

00:54:49,299 --> 00:54:44,599

and log in to the chat room and send a

1094

00:54:52,180 --> 00:54:49,309

question in right now or not yeah two or

1095

00:54:55,089 --> 00:54:52,190

three can't add you to that stand

1096

00:54:57,609 --> 00:54:55,099

earlier you said that no one was more

1097

00:54:58,680 --> 00:54:57,619

blatant than Menzel what did you mean by

1098

00:55:05,140 --> 00:54:58,690

that

1099

00:55:07,599 --> 00:55:05,150

well look he wrote three books one of

1100

00:55:12,039 --> 00:55:07,609

the very few scientists three debunking

1101
00:55:14,289 --> 00:55:12,049
books and I always came up with

1102
00:55:17,470 --> 00:55:14,299
explanations that made no sense and as

1103
00:55:19,930 --> 00:55:17,480
we say in the book Cathy well were this

1104
00:55:22,900 --> 00:55:19,940
quite carefully when they met with the

1105
00:55:24,430 --> 00:55:22,910
air force they weren't buying it he said

1106
00:55:28,900 --> 00:55:24,440
he had an explanation for all these

1107
00:55:31,630 --> 00:55:28,910
cases and they had no reason to believe

1108
00:55:33,820 --> 00:55:31,640
him but he came on

1109
00:55:38,110 --> 00:55:33,830
very very strong taking advantage of his

1110
00:55:41,430 --> 00:55:38,120
status at Harvard and it was only after

1111
00:55:43,780 --> 00:55:41,440
I found out about his encounter with

1112
00:55:45,730 --> 00:55:43,790
having his clearance pulled and all this

1113
00:55:48,160 --> 00:55:45,740

stuff that I kind of felt sorry for him

1114

00:55:49,210 --> 00:55:48,170

and then when I found out that he was on

1115

00:55:54,010 --> 00:55:49,220

the inside

1116

00:55:59,800 --> 00:55:54,020

this is mj-12 stuff then I I appreciated

1117

00:56:02,350 --> 00:55:59,810

his work there aren't secrecy is one of

1118

00:56:05,860 --> 00:56:02,360

those things that's important because in

1119

00:56:10,090 --> 00:56:05,870

both directions Burgess Philby in McLean

1120

00:56:13,210 --> 00:56:10,100

for example were three Englishmen who

1121

00:56:14,410 --> 00:56:13,220

unfortunately were Russian spies even

1122

00:56:18,490 --> 00:56:14,420

though they worked in British

1123

00:56:22,210 --> 00:56:18,500

intelligence now that takes a lot of

1124

00:56:25,060 --> 00:56:22,220

double life in a few so nobody knows

1125

00:56:28,750 --> 00:56:25,070

where the information got leaked from

1126

00:56:31,620 --> 00:56:28,760

and stuff like that there are examples

1127

00:56:34,900 --> 00:56:31,630

of people leading a double life but

1128

00:56:39,720 --> 00:56:34,910

Menzel's being one of them was something

1129

00:56:48,670 --> 00:56:43,120

what can I say I started to respect him

1130

00:56:51,130 --> 00:56:48,680

for that and I had one encounter with

1131

00:56:54,300 --> 00:56:51,140

them all it's all very quickly I was

1132

00:56:57,640 --> 00:56:54,310

speaking at Harvard to a group of

1133

00:56:59,590 --> 00:56:57,650

engineering alumni of Harvard and I had

1134

00:57:02,800 --> 00:56:59,600

no idea how much publicity they'd given

1135

00:57:05,950 --> 00:57:02,810

outside their own group so I came on

1136

00:57:09,400 --> 00:57:05,960

campus or earlier in the day and I

1137

00:57:10,420 --> 00:57:09,410

called Mendel to invite him and I told

1138

00:57:12,550 --> 00:57:10,430

them who I was

1139

00:57:15,640 --> 00:57:12,560

oh I know all about you Lisa which came

1140

00:57:18,940 --> 00:57:15,650

as a shock not only because of some work

1141

00:57:21,790 --> 00:57:18,950

that Kathy did that I find out why what

1142

00:57:24,160 --> 00:57:21,800

that meant but he said you can't be a

1143

00:57:28,570 --> 00:57:24,170

scientist and believe in flying saucers

1144

00:57:32,320 --> 00:57:28,580

and I laughed what could I do and he got

1145

00:57:34,270 --> 00:57:32,330

angry and he started to rant and I said

1146

00:57:36,070 --> 00:57:34,280

[h__\h] document so I didn't call argue

1147

00:57:38,710 --> 00:57:36,080

with you I called out of courtesy I'm

1148

00:57:41,620 --> 00:57:38,720

speaking on your campus I have no idea

1149

00:57:43,210 --> 00:57:41,630

what publicity has gone out besides the

1150

00:57:44,530 --> 00:57:43,220

group that I'm speaking to because you

1151
00:57:46,690 --> 00:57:44,540
never know

1152
00:57:48,310 --> 00:57:46,700
I just wanted to make sure you knew that

1153
00:57:51,520 --> 00:57:48,320
I'd be here at eight o'clock at

1154
00:57:57,160 --> 00:57:51,530
such-and-such a hall oh well of course I

1155
00:57:59,530 --> 00:57:57,170
won't attend and that bit didn't impress

1156
00:58:01,540 --> 00:57:59,540
me very well but here's a great

1157
00:58:05,890 --> 00:58:01,550
professor saying he can't be a scientist

1158
00:58:08,440 --> 00:58:05,900
believe in flying saucers so the mental

1159
00:58:11,080 --> 00:58:08,450
stuff was important because he was a

1160
00:58:11,850 --> 00:58:11,090
bellwether for the nasty noisy

1161
00:58:14,410 --> 00:58:11,860
negativeness

1162
00:58:17,200 --> 00:58:14,420
but we know that he was an insider and I

1163
00:58:19,390 --> 00:58:17,210

guarantee you that practically nobody

1164

00:58:22,570 --> 00:58:19,400

knew of his high-level security

1165

00:58:31,120 --> 00:58:22,580

clearance his activities for the FBI the

1166

00:58:33,280 --> 00:58:31,130

CIA the NSA and as the etc he was he

1167

00:58:35,380 --> 00:58:33,290

really did lead a double life

1168

00:58:37,290 --> 00:58:35,390

and he died with nobody knowing about it

1169

00:58:41,020 --> 00:58:37,300

hmm

1170

00:58:44,830 --> 00:58:41,030

and there was an article in the Center

1171

00:58:46,720 --> 00:58:44,840

for UFO studies publication that I wrote

1172

00:58:47,950 --> 00:58:46,730

about the double life of Donald pencil

1173

00:58:49,000 --> 00:58:47,960

and a lot of people were very excited

1174

00:58:52,480 --> 00:58:49,010

with me

1175

00:58:55,900 --> 00:58:52,490

it can't be and one of the things that I

1176

00:58:59,320 --> 00:58:55,910

found interesting was these hearings

1177

00:59:01,630 --> 00:58:59,330

that were held 1950 you know communists

1178

00:59:04,780 --> 00:59:01,640

under on every bed and sometimes two

1179

00:59:06,430 --> 00:59:04,790

under event uh there was nothing in the

1180

00:59:09,580 --> 00:59:06,440

New York Times or The Washington Post

1181

00:59:14,160 --> 00:59:09,590

about that this is when everybody was

1182

00:59:17,230 --> 00:59:14,170

complaining about commies pinkos etc etc

1183

00:59:19,210 --> 00:59:17,240

and I I was surprised that there was

1184

00:59:22,030 --> 00:59:19,220

nothing about that and then I wonder who

1185

00:59:24,490 --> 00:59:22,040

was responsible for that you know

1186

00:59:27,310 --> 00:59:24,500

thought the press had been camped at the

1187

00:59:30,460 --> 00:59:27,320

door but they weren't or if they were

1188

00:59:31,750 --> 00:59:30,470

nobody was printing anything yeah I

1189

00:59:34,870 --> 00:59:31,760

wanted to talk to you and I bought one

1190

00:59:40,570 --> 00:59:34,880

of the chapters in the media the press

1191

00:59:44,620 --> 00:59:40,580

but one thing I was really fascinated to

1192

00:59:47,260 --> 00:59:44,630

read about was the astronomers and UFOs

1193

00:59:50,560 --> 00:59:47,270

how there's claims that no astronomer

1194

00:59:52,990 --> 00:59:50,570

has ever seen a UFO and the point that I

1195

00:59:56,880 --> 00:59:53,000

don't know who wrote this particular

1196

00:59:59,620 --> 00:59:56,890

chapter but the point was that

1197

01:00:02,890 --> 00:59:59,630

astronomers are see

1198

01:00:06,279 --> 01:00:02,900

in a chair very targeted looking at a

1199

01:00:09,069 --> 01:00:06,289

very targeted area while amateur

1200

01:00:12,039 --> 01:00:09,079

astronomers of like the one that used to

1201

01:00:13,809 --> 01:00:12,049

be on this show did see a UFO and a lot

1202

01:00:16,569 --> 01:00:13,819

of them do see UFOs because they're out

1203

01:00:21,130 --> 01:00:16,579

in the open sky never thought of it that

1204

01:00:22,269 --> 01:00:21,140

way but that does make total sense it's

1205

01:00:24,250 --> 01:00:22,279

true and as a matter of fact the

1206

01:00:28,000 --> 01:00:24,260

Allegheny Observatory in Pittsburgh I

1207

01:00:29,859 --> 01:00:28,010

think over umpteen years had one picture

1208

01:00:32,890 --> 01:00:29,869

that might have been an airplane going

1209

01:00:35,200 --> 01:00:32,900

by that field of view of a telescope is

1210

01:00:37,150 --> 01:00:35,210

very very small and people have this

1211

01:00:39,309 --> 01:00:37,160

picture of astronomers waving the

1212

01:00:41,079 --> 01:00:39,319

telescope around to look around and see

1213

01:00:41,890 --> 01:00:41,089

what's there that's not that they do it

1214

01:00:44,349 --> 01:00:41,900

at all

1215

01:00:45,849 --> 01:00:44,359

the instruments aren't designed to be

1216

01:00:49,120 --> 01:00:45,859

done they have to be very specially

1217

01:00:51,339 --> 01:00:49,130

mounted and they have a pre-selected

1218

01:00:53,799 --> 01:00:51,349

target and these days certainly and

1219

01:00:56,200 --> 01:00:53,809

they're computer-controlled so that you

1220

01:00:59,799 --> 01:00:56,210

can get pictures of what you want to get

1221

01:01:02,799 --> 01:00:59,809

pictures of and you could be surrounded

1222

01:01:05,440 --> 01:01:02,809

by aliens and flying saucers and nobody

1223

01:01:07,059 --> 01:01:05,450

would know it you're not gonna see him

1224

01:01:10,089 --> 01:01:07,069

looking through the telescope I mean

1225

01:01:14,230 --> 01:01:10,099

that it's one of those myths you know I

1226

01:01:17,349 --> 01:01:14,240

was up looking at Andromeda through a an

1227

01:01:20,559 --> 01:01:17,359

observatory at a college about five

1228

01:01:22,930 --> 01:01:20,569

years ago and when I was looking up a l

1229

01:01:26,260 --> 01:01:22,940

mean the odds of this happening are so

1230

01:01:28,960 --> 01:01:26,270

slight but a meteor went across the lens

1231

01:01:32,109 --> 01:01:28,970

and it darn near blinded me mm-hmm

1232

01:01:36,910 --> 01:01:32,119

and maybe like jump almost fall off the

1233

01:01:37,299 --> 01:01:36,920

stool everything well you get what l

1234

01:01:39,599 --> 01:01:37,309

mean

1235

01:01:43,569 --> 01:01:39,609

yeah you don't see much of this guy

1236

01:01:46,750 --> 01:01:43,579

right a very tiny tiny little bit now

1237

01:01:48,910 --> 01:01:46,760

one of your chapters chapter 10 a hard

1238

01:01:51,160 --> 01:01:48,920

look at the media the UFO community and

1239

01:01:53,289 --> 01:01:51,170

the trend towards sensationalism can you

1240

01:01:58,870 --> 01:01:53,299

just either one of you one of you take

1241

01:02:01,569 --> 01:01:58,880

that kind of the joke we both can but we

1242

01:02:03,970 --> 01:02:01,579

and we both contributed to that chapter

1243

01:02:09,940 --> 01:02:03,980

as we did to many of the chapters in the

1244

01:02:11,830 --> 01:02:09,950

book but we we covered some of the

1245

01:02:15,250 --> 01:02:11,840

positive aspects

1246

01:02:18,820 --> 01:02:15,260

of the media but also some of the the

1247

01:02:24,370 --> 01:02:18,830

negative things that have happened as

1248

01:02:29,110 --> 01:02:24,380

well and for example one of those was a

1249

01:02:34,600 --> 01:02:29,120

television show that Stanton that

1250

01:02:39,420 --> 01:02:34,610

Stanton did and this was up in Canada

1251

01:02:44,380 --> 01:02:39,430

what was it sir on toasting in Toronto

1252

01:02:49,150 --> 01:02:44,390

yes the Mort Shulman show and it was

1253

01:02:51,610 --> 01:02:49,160

incredible the way more Shulman who was

1254

01:02:55,360 --> 01:02:51,620

actually a medical doctor showed

1255

01:02:59,110 --> 01:02:55,370

incredible disrespect for Stanton and

1256

01:03:01,780 --> 01:02:59,120

asked him questions like have have you

1257

01:03:02,530 --> 01:03:01,790

ever been diagnosed with a psychiatric

1258

01:03:05,140 --> 01:03:02,540

disorder

1259

01:03:08,080 --> 01:03:05,150

have you ever spent time in a mental

1260

01:03:12,790 --> 01:03:08,090

hospital do you have any scientific

1261

01:03:15,460 --> 01:03:12,800

training whatsoever and I and of course

1262

01:03:17,970 --> 01:03:15,470

Stan did a wonderful job defending

1263

01:03:20,080 --> 01:03:17,980

himself and saying of course I've never

1264

01:03:23,860 --> 01:03:20,090

you know I've never been to a

1265

01:03:27,130 --> 01:03:23,870

psychiatrist I've never been he kept his

1266

01:03:32,230 --> 01:03:27,140

cool actually I would I was surprised

1267

01:03:36,580 --> 01:03:32,240

when I saw that Hospital and then he he

1268

01:03:41,050 --> 01:03:36,590

listed his degrees from the University

1269

01:03:45,400 --> 01:03:41,060

of Chicago and all the little industries

1270

01:03:53,770 --> 01:03:45,410

that he had work forces such as GE and

1271

01:03:56,410 --> 01:03:53,780

Aerojet general and and and then the

1272

01:03:59,920 --> 01:03:56,420

scientific organizations that he belongs

1273

01:04:04,210 --> 01:03:59,930

to and sort of what Schulman just ended

1274

01:04:07,060 --> 01:04:04,220

up saying he's a crazy scientist and

1275

01:04:11,590 --> 01:04:07,070

then went on to a man who was not a

1276

01:04:15,070 --> 01:04:11,600

scientist but who was the a college

1277

01:04:19,030 --> 01:04:15,080

professor of philosophy he was a secular

1278

01:04:21,849 --> 01:04:19,040

humanist and one of the founders of what

1279

01:04:25,539 --> 01:04:21,859

we call sick up and

1280

01:04:29,380 --> 01:04:25,549

along with Philip class but Shulman

1281

01:04:31,870 --> 01:04:29,390

treated him as if he were the scientist

1282

01:04:36,969 --> 01:04:31,880

and said now tell us what does the

1283

01:04:40,269 --> 01:04:36,979

scientific community think about this it

1284

01:04:43,420 --> 01:04:40,279

was very very slanted in the way it was

1285

01:04:48,870 --> 01:04:43,430

treated and I do think that Philip class

1286

01:04:52,269 --> 01:04:48,880

was in part responsible for the media's

1287

01:04:56,199 --> 01:04:52,279

interpretation and understanding of all

1288

01:04:59,859 --> 01:04:56,209

of this I when I was looking in classes

1289

01:05:03,029 --> 01:04:59,869

files there were letters from Edward

1290

01:05:07,410 --> 01:05:03,039

Condon and in one of those letters

1291

01:05:09,039 --> 01:05:07,420

Condon had written a recommendation to

1292

01:05:14,859 --> 01:05:09,049

mcgraw-hill

1293

01:05:19,140 --> 01:05:14,869

to fill classes at buss and recommended

1294

01:05:24,459 --> 01:05:19,150

that class should be the go-to guy if

1295

01:05:28,269 --> 01:05:24,469

the media wanted an expert on UFOs and

1296

01:05:32,469 --> 01:05:28,279

he said you know don't listen to the

1297

01:05:35,650 --> 01:05:32,479

FOIA Buhl's of people like Professor

1298

01:05:39,099 --> 01:05:35,660

James McDonald who is probably the the

1299

01:05:45,219 --> 01:05:39,109

greatest scientist ever to have lived

1300

01:05:49,349 --> 01:05:45,229

who studied UFOs and did a fantastic job

1301

01:05:56,099 --> 01:05:49,359

on what he did a an asked a

1302

01:06:01,989 --> 01:05:56,109

meteorological physicist at the Arizona

1303

01:06:05,469 --> 01:06:01,999

University of Arizona in Tucson and Phil

1304

01:06:08,759 --> 01:06:05,479

class window after him viciously it was

1305

01:06:11,410 --> 01:06:08,769

one of the three individuals that class

1306

01:06:16,089 --> 01:06:11,420

spent a lot of time attempting to

1307

01:06:18,999 --> 01:06:16,099

destroy Stan was another one but so that

1308

01:06:22,499 --> 01:06:19,009

was the kind of thing that class did he

1309

01:06:26,289 --> 01:06:22,509

he got in there and he spread his

1310

01:06:28,809 --> 01:06:26,299

disinformation to the American public

1311

01:06:31,209 --> 01:06:28,819

through newspaper articles through

1312

01:06:34,700 --> 01:06:31,219

magazines through television programs

1313

01:06:38,870 --> 01:06:34,710

and through radio programs and letters

1314

01:06:41,120 --> 01:06:38,880

to the FBI you know he wrote he was on a

1315

01:06:45,740 --> 01:06:41,130

letter-writing campaign and he made

1316

01:06:47,780 --> 01:06:45,750

himself sound very official for example

1317

01:06:53,750 --> 01:06:47,790

you might have heard about this before

1318

01:06:56,240 --> 01:06:53,760

but class born the Hertzberg Institute

1319

01:07:00,579 --> 01:06:56,250

of astrophysics at the National Research

1320

01:07:04,579 --> 01:07:00,589

Council in Ottawa Canada that they had a

1321

01:07:09,640 --> 01:07:04,589

ufologist of the snake oil salesman

1322

01:07:13,430 --> 01:07:09,650

variety I read it from California to

1323

01:07:16,190 --> 01:07:13,440

Canada and they ought to beware of him

1324

01:07:20,450 --> 01:07:16,200

and his activities it was quite a long

1325

01:07:25,609 --> 01:07:20,460

letter but it was certainly slanderous

1326

01:07:28,609 --> 01:07:25,619

but stand it hadn't known about it until

1327

01:07:32,990 --> 01:07:28,619

rich Dolan found it when he was up there

1328

01:07:40,220 --> 01:07:33,000

doing research it was he was everywhere

1329

01:07:43,550 --> 01:07:40,230

I'm just amazed that pardon me look what

1330

01:07:47,359 --> 01:07:43,560

he said about Hynek oh absolutely

1331

01:07:52,370 --> 01:07:47,369

that was another one where Hynek had

1332

01:07:56,030 --> 01:07:52,380

written a paper a journal article for

1333

01:07:59,300 --> 01:07:56,040

the FBI law enforcement bulletin and it

1334

01:08:04,550 --> 01:07:59,310

was on UFOs and some of the mistakes

1335

01:08:07,910 --> 01:08:04,560

that people had make the public's

1336

01:08:09,530 --> 01:08:07,920

assumption being wrong and actually it

1337

01:08:12,410 --> 01:08:09,540

was fill class who was giving that

1338

01:08:16,900 --> 01:08:12,420

incorrect information to the public but

1339

01:08:20,630 --> 01:08:16,910

class was very upset about this and he

1340

01:08:24,769 --> 01:08:20,640

called the FBI and he also wrote letters

1341

01:08:28,370 --> 01:08:24,779

to the FBI and the FBI wrote quote in

1342

01:08:31,789 --> 01:08:28,380

strong terms laced with sarcasm class

1343

01:08:34,309 --> 01:08:31,799

said the that Hynek is the spiritual

1344

01:08:37,579 --> 01:08:34,319

leader of the vocal group of believers

1345

01:08:40,430 --> 01:08:37,589

and Coop's who claimed that we are being

1346

01:08:43,670 --> 01:08:40,440

visited by extraterrestrial spaceships

1347

01:08:46,840 --> 01:08:43,680

the FBI has given its endorsement to a

1348

01:08:48,560 --> 01:08:46,850

hoax that act that UFOs are X of

1349

01:08:53,270 --> 01:08:48,570

extraterrestrial origin

1350

01:08:57,080 --> 01:08:53,280

and to a fraud dr. Hynek which really

1351

01:08:59,170 --> 01:08:57,090

didn't set well with the FBI because

1352

01:09:02,750 --> 01:08:59,180

they were very well acquainted with

1353

01:09:07,310 --> 01:09:02,760

Hynek and and knew that he was at the

1354

01:09:09,170 --> 01:09:07,320

top of his field and so they said the

1355

01:09:12,770 --> 01:09:09,180

class was informed that Hynek is a

1356

01:09:16,790 --> 01:09:12,780

highly respected scientist recognized by

1357

01:09:18,950 --> 01:09:16,800

all creditable professionals in his

1358

01:09:21,610 --> 01:09:18,960

field of expertise who was affiliated

1359

01:09:25,370 --> 01:09:21,620

with a you leading university and

1360

01:09:31,310 --> 01:09:25,380

classes answer to that is he won't be

1361

01:09:34,070 --> 01:09:31,320

for long now it's incredible it was it

1362

01:09:38,150 --> 01:09:34,080

really was and and I think that that was

1363

01:09:41,870 --> 01:09:38,160

because class had a little spy up there

1364

01:09:46,330 --> 01:09:41,880

at Northwestern University who is taking

1365

01:09:50,210 --> 01:09:46,340

astronomy classes from Hynek and was

1366

01:09:54,440 --> 01:09:50,220

reporting back to class with anything

1367

01:09:58,160 --> 01:09:54,450

that class might be able to use in order

1368

01:10:03,140 --> 01:09:58,170

to destroy hynek's reputation well the

1369

01:10:05,780 --> 01:10:03,150

FBI stood up for Hynek too and and wrote

1370

01:10:08,060 --> 01:10:05,790

the classes attempts to discredit Hynek

1371

01:10:10,670 --> 01:10:08,070

are totally without foundation

1372

01:10:14,030 --> 01:10:10,680

Hynek could scarcely have any better

1373

01:10:16,310 --> 01:10:14,040

scientific credentials all his writings

1374

01:10:19,060 --> 01:10:16,320

and public statements that were examined

1375

01:10:22,120 --> 01:10:19,070

prior to his publication disclose a

1376

01:10:26,900 --> 01:10:22,130

meticulously objective and scientific

1377

01:10:29,990 --> 01:10:26,910

view of the UFO phenomenon and they had

1378

01:10:32,360 --> 01:10:30,000

no such kind remarks to make about

1379

01:10:35,630 --> 01:10:32,370

philip glass they said that they should

1380

01:10:38,510 --> 01:10:35,640

be circumspect in any further dealings

1381

01:10:40,130 --> 01:10:38,520

with them well that's it for the free

1382

01:10:41,990 --> 01:10:40,140

part of the show thank you for listening

1383

01:10:43,730 --> 01:10:42,000

and if you'd like to listen to the whole
