DARK MATTER DIGITAL NETWORK

**LIVE Every Wednesday • 8–10pm EST**

1  
00:00:07,519 --> 00:00:06,829  
and it hits me oh my gosh this is that

2  
00:00:08,660 --> 00:00:07,529  
triangle

3  
00:00:09,799 --> 00:00:08,670  
you know there's explanation for

4  
00:00:11,720 --> 00:00:09,809  
everything that occurred in the

5  
00:00:14,120 --> 00:00:11,730  
Rendlesham forest incident it doesn't

6  
00:00:17,599 --> 00:00:14,130  
involved aliens at all it was completely

7  
00:00:20,450 --> 00:00:17,609  
silent it comes right over our head it's

8  
00:00:22,040 --> 00:00:20,460  
so a classic flying-saucer really

9  
00:00:23,810 --> 00:00:22,050  
standing in the clearing he turned over

10  
00:00:25,160 --> 00:00:23,820  
to my father and held his hand and he

11  
00:00:25,750 --> 00:00:25,170  
looked in his eyes and said we're not

12  
00:00:29,099 --> 00:00:25,760  
alone

13  
00:00:32,830 --> 00:00:29,109

[Music]

14

00:00:35,260 --> 00:00:32,840

welcome to podcast UFO for our live show

15

00:00:37,450 --> 00:00:35,270

we're live every Wednesday at 8 p.m.

16

00:00:39,970 --> 00:00:37,460

Eastern Standard Time on the dark matter

17

00:00:43,660 --> 00:00:39,980

radio network please remember to visit

18

00:00:46,840 --> 00:00:43,670

the website podcast UFO comm for past

19

00:00:48,850 --> 00:00:46,850

episodes blogs and forums during the

20

00:00:51,340 --> 00:00:48,860

show feel free to participate live in

21

00:00:53,850 --> 00:00:51,350

our chat room and don't forget to Like

22

00:00:56,680 --> 00:00:53,860

us on our very active Facebook page

23

00:00:59,170 --> 00:00:56,690

hello and welcome to the show I'm Martin

24

00:01:01,840 --> 00:00:59,180

will assure hosts and we have an

25

00:01:04,119 --> 00:01:01,850

exciting show this evening we have Don

26

00:01:06,880 --> 00:01:04,129

ledger and he's going to be talking

27

00:01:09,760 --> 00:01:06,890

about shag the shag harbour incident I

28

00:01:12,609 --> 00:01:09,770

think it's one of the most intriguing

29

00:01:15,609 --> 00:01:12,619

cases on record I'm excited to talk

30

00:01:18,630 --> 00:01:15,619

about that before that we have Alejandro

31

00:01:21,609 --> 00:01:18,640

Rojas coming up with the UFO updates and

32

00:01:24,580 --> 00:01:21,619

in just a minute and I want to thank

33

00:01:29,139 --> 00:01:24,590

everyone that supports the show we are

34

00:01:31,330 --> 00:01:29,149

now live on YouTube and if you want to

35

00:01:33,550 --> 00:01:31,340

watch the show that is we are live every

36

00:01:35,740 --> 00:01:33,560

Wednesdays at 8:00 to 10:00 p.m. Eastern

37

00:01:37,420 --> 00:01:35,750

Standard Time if you can't support our

38

00:01:39,490 --> 00:01:37,430

show and you'd select to hear the whole

39

00:01:42,969 --> 00:01:39,500

show you can of course watch it live or

40

00:01:45,999 --> 00:01:42,979

you can also go over to the Dark Matter

41

00:01:48,580 --> 00:01:46,009

digital network and that's Thursday

42

00:01:50,560 --> 00:01:48,590

evenings from 10 to midnight there's

43

00:01:53,200 --> 00:01:50,570

another radio station that plays our

44

00:01:55,319 --> 00:01:53,210

show in full and I will get you that

45

00:01:57,520 --> 00:01:55,329

information I'm not sure of the time or

46

00:02:01,240 --> 00:01:57,530

date but I will get you that information

47

00:02:01,780 --> 00:02:01,250

as well that's it for me Alejandro how

48

00:02:05,620 --> 00:02:01,790

you doing

49

00:02:08,259 --> 00:02:05,630

i mo al and you're going on a little R&R

50

00:02:11,470 --> 00:02:08,269

that's coming up pretty soon yes yes

51  
00:02:16,270 --> 00:02:11,480  
yeah in just a couple weeks very

52  
00:02:18,520 --> 00:02:16,280  
exciting so the week after next so it

53  
00:02:20,500 --> 00:02:18,530  
can't come soon enough and luckily next

54  
00:02:23,580 --> 00:02:20,510  
week is a short one because of Memorial

55  
00:02:26,890 --> 00:02:23,590  
Day but I will be going on a cruise

56  
00:02:31,300 --> 00:02:26,900  
sailing the seven seas actually I'll

57  
00:02:33,250 --> 00:02:31,310  
only be sailing one maybe two actually I

58  
00:02:36,550 --> 00:02:33,260  
kind of I don't know if it's a sea the

59  
00:02:39,940 --> 00:02:36,560  
Gulf I think it is two Sea of Cortez so

60  
00:02:41,740 --> 00:02:39,950  
yeah Wow mm-hmm that's great awesome

61  
00:02:46,390 --> 00:02:41,750  
so I have a kind of an announcement to

62  
00:02:48,729 --> 00:02:46,400  
of everybody is up and the mid-june I'm

63  
00:02:53,290 --> 00:02:48,739

going to be heading overseas again and

64

00:02:56,800 --> 00:02:53,300

this time I'm going for 42 days which is

65

00:02:57,790 --> 00:02:56,810

a long time whoa I know I should be more

66

00:02:59,740 --> 00:02:57,800

excited about it

67

00:03:02,530 --> 00:02:59,750

because I will be going to like Crimea

68

00:03:06,670 --> 00:03:02,540

and places like that but but I think I'm

69

00:03:10,089 --> 00:03:06,680

going to for my own sanity I'm going to

70

00:03:12,699 --> 00:03:10,099

try I might run the show on YouTube

71

00:03:14,410 --> 00:03:12,709

because I don't have a radio schedule

72

00:03:17,440 --> 00:03:14,420

like I used to so I might run the show

73

00:03:20,740 --> 00:03:17,450

on YouTube which would be 1:00 p.m.

74

00:03:22,330 --> 00:03:20,750

Eastern Standard Time uh you know during

75

00:03:23,020 --> 00:03:22,340

the day I don't know how people are

76

00:03:26,380 --> 00:03:23,030

going to like that

77

00:03:29,170 --> 00:03:26,390

but uh hopefully they'll come back but I

78

00:03:31,930 --> 00:03:29,180

think yeah instead of me getting up at

79

00:03:33,729 --> 00:03:31,940

4:30 in the morning or 4 o'clock in the

80

00:03:36,160 --> 00:03:33,739

morning whenever it was I was doing that

81

00:03:40,750 --> 00:03:36,170

last year I might just do the show at 8

82

00:03:43,809 --> 00:03:40,760

o'clock in in Russia which is one

83

00:03:46,930 --> 00:03:43,819

o'clock in the Eastern Standard Time so

84

00:03:48,940 --> 00:03:46,940

that is something it's not in stone

85

00:03:51,550 --> 00:03:48,950

matter of fact you're welcome to email

86

00:03:55,120 --> 00:03:51,560

me at martinet podcast UFO if you have

87

00:03:58,180 --> 00:03:55,130

some negative or positive feedback about

88

00:04:00,069 --> 00:03:58,190

that so you know if you did that I would

89

00:04:03,370 --> 00:04:00,079

probably be able to join like live on

90

00:04:05,259 --> 00:04:03,380

the video oh man that would not be fun

91

00:04:06,430 --> 00:04:05,269

that would be really great because I

92

00:04:08,920 --> 00:04:06,440

know it's really hard for you to do that

93

00:04:12,160 --> 00:04:08,930

no mm-hmm and he can only do it every

94

00:04:14,470 --> 00:04:12,170

once in a while so yeah that would be

95

00:04:17,620 --> 00:04:14,480

awesome that would really yeah yeah I

96

00:04:19,659 --> 00:04:17,630

mean because I you know I'm so busy and

97

00:04:21,159 --> 00:04:19,669

I hate I hate to say that because and I

98

00:04:22,900 --> 00:04:21,169

hate it when are like oh you're really

99

00:04:25,330 --> 00:04:22,910

busy everybody's really busy I don't

100

00:04:28,360 --> 00:04:25,340

mean to to say I'm busier than anybody

101  
00:04:31,000 --> 00:04:28,370  
else we all have busy lives but um that

102  
00:04:33,100 --> 00:04:31,010  
I really have to turn down a lot of

103  
00:04:35,050 --> 00:04:33,110  
shows these days especially in the

104  
00:04:37,420 --> 00:04:35,060  
evening because I've got at like you

105  
00:04:41,379 --> 00:04:37,430  
know make sure I have time for family

106  
00:04:43,089 --> 00:04:41,389  
and stuff and mm-hmm and so that's what

107  
00:04:44,920 --> 00:04:43,099  
makes it hard to do the evening stuff

108  
00:04:47,890 --> 00:04:44,930  
but during the day is a lot better for

109  
00:04:50,219 --> 00:04:47,900  
me so that would be a lot of fun we will

110  
00:04:53,710 --> 00:04:50,229  
stay and touch on that that's for sure

111  
00:04:55,750 --> 00:04:53,720  
mm-hmm so anything going on

112  
00:04:58,600 --> 00:04:55,760  
there are some things going on in New fo

113  
00:04:59,830 --> 00:04:58,610

world some I saw your blog today you

114

00:05:02,800 --> 00:04:59,840

want to talk about that first Kurt

115

00:05:04,810 --> 00:05:02,810

Russell oh I want to talk about that

116

00:05:06,450 --> 00:05:04,820

last now you just like I said you want

117

00:05:08,860 --> 00:05:06,460

to talk about that last Kurt Russell

118

00:05:10,660 --> 00:05:08,870

yeah but now you gave away the big

119

00:05:12,550 --> 00:05:10,670

secret but that's okay people probably

120

00:05:15,280 --> 00:05:12,560

some people know but what I want to talk

121

00:05:17,980 --> 00:05:15,290

about first it actually pertains to your

122

00:05:19,510 --> 00:05:17,990

guest oh because you're talking about

123

00:05:23,170 --> 00:05:19,520

shag harbour and there's some shag

124

00:05:27,010 --> 00:05:23,180

harbour news that's right yeah you ready

125

00:05:30,430 --> 00:05:27,020

for this one ready yeah so shake Harbor

126

00:05:32,590 --> 00:05:30,440

was a famous UFO incident and in fact

127

00:05:35,200 --> 00:05:32,600

the Canadian government has some

128

00:05:37,390 --> 00:05:35,210

information about this on their site

129

00:05:40,930 --> 00:05:37,400

they have the Canadian government has an

130

00:05:42,820 --> 00:05:40,940

official like a UFO website and where

131

00:05:44,790 --> 00:05:42,830

they talk about a lot of UFO stuff and

132

00:05:47,530 --> 00:05:44,800

the Canadian governments you know

133

00:05:49,900 --> 00:05:47,540

researching of UFOs which only lasts a

134

00:05:52,120 --> 00:05:49,910

short period of time really interesting

135

00:05:55,210 --> 00:05:52,130

stuff and so they do have a description

136

00:05:56,800 --> 00:05:55,220

and a file on the Shake Harbor event and

137

00:05:59,110 --> 00:05:56,810

I've got the link and I've got that

138

00:06:01,360 --> 00:05:59,120

information posted here but essentially

139

00:06:05,230 --> 00:06:01,370  
on October 4th 1967

140

00:06:08,860 --> 00:06:05,240  
you know the civilians and some Canadian

141

00:06:12,340 --> 00:06:08,870  
Mounted Police saw this object go into

142

00:06:13,900 --> 00:06:12,350  
shake Harbor and you'll be able to see

143

00:06:15,280 --> 00:06:13,910  
more about that they never figure out

144

00:06:18,930 --> 00:06:15,290  
what the heck it was

145

00:06:20,710 --> 00:06:18,940  
and it's often referred to as Canada's

146

00:06:22,480 --> 00:06:20,720  
Roswell of course you're going to hear a

147

00:06:24,580 --> 00:06:22,490  
lot more about this from from Dawn

148

00:06:28,210 --> 00:06:24,590  
ledger details so he can get into that

149

00:06:30,610 --> 00:06:28,220  
but in order to memorialize the event

150

00:06:33,820 --> 00:06:30,620  
there was a group of people trying to do

151  
00:06:37,060 --> 00:06:33,830  
a 50th anniversary of this event in

152  
00:06:40,180 --> 00:06:37,070  
October you know just prior to October

153  
00:06:42,730 --> 00:06:40,190  
4th when the event took place there are

154  
00:06:46,900 --> 00:06:42,740  
called the shake Harbor a UFO incident

155  
00:06:49,450 --> 00:06:46,910  
Society they were hoping to get a grant

156  
00:06:51,909 --> 00:06:49,460  
from Canada's Department of Communities

157  
00:06:53,770 --> 00:06:51,919  
culture and heritage they were sure they

158  
00:06:56,800 --> 00:06:53,780  
were going to get this grant but they

159  
00:06:58,810 --> 00:06:56,810  
found out recently they were denied so

160  
00:07:01,480 --> 00:06:58,820  
they were really sad a story came out in

161  
00:07:03,219 --> 00:07:01,490  
the local paper and how they were bummed

162  
00:07:04,960 --> 00:07:03,229  
and and you know they're just going to

163  
00:07:07,060 --> 00:07:04,970

have to rethink things they still want

164

00:07:07,299 --> 00:07:07,070

to do something but their budget is to

165

00:07:12,579 --> 00:07:07,309

be

166

00:07:17,619 --> 00:07:12,589

nowhere

167

00:07:20,709 --> 00:07:17,629

luckily a mysterious donor read that

168

00:07:24,969 --> 00:07:20,719

article and decided to donate the money

169

00:07:27,039 --> 00:07:24,979

they need so happily they sent us a

170

00:07:29,259 --> 00:07:27,049

press release I'm sure they sent this to

171

00:07:31,389 --> 00:07:29,269

others but they sent open minds that TV

172

00:07:33,219 --> 00:07:31,399

a press release about this and that

173

00:07:35,589 --> 00:07:33,229

they're happy that things will be

174

00:07:39,339 --> 00:07:35,599

continuing so they got an anonymous

175

00:07:41,850 --> 00:07:39,349

donor and they said this donor is a UFO

176  
00:07:47,499 --> 00:07:41,860  
researcher and this is very mysterious

177  
00:07:50,409 --> 00:07:47,509  
this donor said that they didn't want

178  
00:07:52,689 --> 00:07:50,419  
anybody to know their who their identity

179  
00:07:54,399 --> 00:07:52,699  
was but they did have a public statement

180  
00:07:57,399 --> 00:07:54,409  
to make and wait till you hear this one

181  
00:08:00,339 --> 00:07:57,409  
so this is what the donor says although

182  
00:08:03,519 --> 00:08:00,349  
there is much I can't reveal without

183  
00:08:05,399 --> 00:08:03,529  
further without any hesitation I can say

184  
00:08:08,409 --> 00:08:05,409  
the Canadian government and the

185  
00:08:11,169 --> 00:08:08,419  
international community it answers to

186  
00:08:13,869 --> 00:08:11,179  
appears to be concealing what happened

187  
00:08:14,559 --> 00:08:13,879  
in and around the waters of shake Harbor

188  
00:08:18,429 --> 00:08:14,569

Canada

189

00:08:21,249 --> 00:08:18,439  
on October 4th 1967 people with the

190

00:08:25,239 --> 00:08:21,259  
connections notoriety and finances are

191

00:08:26,589 --> 00:08:25,249  
working hard the challenge how we view

192

00:08:28,989 --> 00:08:26,599  
the world around us

193

00:08:32,850 --> 00:08:28,999  
shake Harbor is one of the smoking guns

194

00:08:34,449 --> 00:08:32,860  
that will be used to achieve this

195

00:08:37,240 --> 00:08:34,459  
excellent Wow

196

00:08:39,490 --> 00:08:37,250  
I'm actually well I actually got an

197

00:08:41,860 --> 00:08:39,500  
email from the vice president of the

198

00:08:44,019 --> 00:08:41,870  
shag harbors and so you probably got the

199

00:08:46,689 --> 00:08:44,029  
press release too then well I got an

200

00:08:49,150 --> 00:08:46,699  
email directly from I guess I'll say his

201  
00:08:53,319 --> 00:08:49,160  
first name Brock yeah that's how I got

202  
00:08:56,379 --> 00:08:53,329  
it yep and basically he saw that I was

203  
00:08:59,049 --> 00:08:56,389  
covering the shag harbour incident with

204  
00:09:02,619 --> 00:08:59,059  
Don and also I did recently with a

205  
00:09:05,619 --> 00:09:02,629  
Jordan Bonaparte so he said hey look

206  
00:09:09,670 --> 00:09:05,629  
you're welcome to come on up to our you

207  
00:09:12,249 --> 00:09:09,680  
know to our conference so um you know

208  
00:09:15,069 --> 00:09:12,259  
what I think I'm going to do it really

209  
00:09:17,350 --> 00:09:15,079  
are you that bar I mean you are I can

210  
00:09:19,960 --> 00:09:17,360  
drive you know it's like though it's

211  
00:09:20,530 --> 00:09:19,970  
like that probably a good day and a half

212  
00:09:23,320 --> 00:09:20,540  
drive

213  
00:09:26,380 --> 00:09:23,330

I mean just to go out in Maine they say

214

00:09:30,010 --> 00:09:26,390

take seven hours gee it's the Canadian

215

00:09:32,470 --> 00:09:30,020

border from Maine it's a big state so so

216

00:09:34,660 --> 00:09:32,480

I'm thinking it's a maybe a day or date

217

00:09:36,490 --> 00:09:34,670

you know maybe a little bit longer than

218

00:09:38,100 --> 00:09:36,500

a day driving you know what darn it I

219

00:09:40,960 --> 00:09:38,110

think I'm gonna do it

220

00:09:43,030 --> 00:09:40,970

yeah that'd be nice maybe do a show or

221

00:09:46,900 --> 00:09:43,040

something from there yeah you're

222

00:09:49,240 --> 00:09:46,910

dedicated yes I said well yeah well cool

223

00:09:50,170 --> 00:09:49,250

do that it'll be really cool they tell

224

00:09:51,940 --> 00:09:50,180

us how it goes

225

00:09:54,910 --> 00:09:51,950

I think I will I think a whale think

226

00:09:55,360 --> 00:09:54,920

well yeah so what else is happening so

227

00:09:58,360 --> 00:09:55,370

what else

228

00:10:01,060 --> 00:09:58,370

another piece of information um that we

229

00:10:03,430 --> 00:10:01,070

received we have just such great friends

230

00:10:08,080 --> 00:10:03,440

all around the world and this one is

231

00:10:11,620 --> 00:10:08,090

from ondre'a's Mueller he is a occasional

232

00:10:15,430 --> 00:10:11,630

contributor from Germany he actually

233

00:10:18,070 --> 00:10:15,440

runs his own web site that covers the

234

00:10:21,970 --> 00:10:18,080

paranormal and what he calls frontier

235

00:10:24,880 --> 00:10:21,980

sciences and called gree we essentially

236

00:10:27,700 --> 00:10:24,890

but he had some exclusive news that

237

00:10:31,630 --> 00:10:27,710

actually has made news and of all places

238

00:10:34,330 --> 00:10:31,640

unfortunately largely the British

239

00:10:36,910 --> 00:10:34,340

tabloids which we do not like because

240

00:10:39,610 --> 00:10:36,920

they usually screw stuff up but Nick

241

00:10:41,500 --> 00:10:39,620

Pope spoke with him he's always working

242

00:10:42,790 --> 00:10:41,510

with these themed tabloids even though

243

00:10:47,350 --> 00:10:42,800

they they blow things out of proportion

244

00:10:49,390 --> 00:10:47,360

but anyway the story was this that

245

00:10:51,640 --> 00:10:49,400

remember those eighteen files so the

246

00:10:54,220 --> 00:10:51,650

British government had released all

247

00:10:56,790 --> 00:10:54,230

their UFO files in batches over many

248

00:10:59,260 --> 00:10:56,800

years the last batch to come out in 2013

249

00:11:01,240 --> 00:10:59,270

well during this period of time they

250

00:11:03,310 --> 00:11:01,250

were releasing these batches john

251  
00:11:05,410 --> 00:11:03,320  
burroughs one of the witnesses of the

252  
00:11:08,470 --> 00:11:05,420  
Rendlesham forest incident a famous UFO

253  
00:11:12,400 --> 00:11:08,480  
sighting that happened at a in britain

254  
00:11:15,390 --> 00:11:12,410  
at a base there that was a US Air Force

255  
00:11:17,470 --> 00:11:15,400  
Base they were leasing that the base and

256  
00:11:19,300 --> 00:11:17,480  
he wanted to find out more information

257  
00:11:21,340 --> 00:11:19,310  
easy he's been researching to find a

258  
00:11:23,170 --> 00:11:21,350  
government documents on on his sighting

259  
00:11:25,570 --> 00:11:23,180  
and he wanted these particular

260  
00:11:27,220 --> 00:11:25,580  
government documents he asked the UK

261  
00:11:28,630 --> 00:11:27,230  
government for them they said well we're

262  
00:11:30,130 --> 00:11:28,640  
releasing the documents you're going to

263  
00:11:32,290 --> 00:11:30,140

have to wait it's going to be in there

264

00:11:34,870 --> 00:11:32,300

well when the last batch came out they

265

00:11:36,940 --> 00:11:34,880

weren't there so he said hey guy

266

00:11:39,040 --> 00:11:36,950

it's um where are these files they have

267

00:11:43,090 --> 00:11:39,050

but but they pretty much stonewalled

268

00:11:45,730 --> 00:11:43,100

them and finally a British citizen had

269

00:11:47,920 --> 00:11:45,740

read a story about Burroughs and trying

270

00:11:49,840 --> 00:11:47,930

to get these files so he asked the UK

271

00:11:52,030 --> 00:11:49,850

government where are these files and the

272

00:11:54,220 --> 00:11:52,040

UK government publicly actually answered

273

00:11:56,560 --> 00:11:54,230

his request and said oh we're sorry I

274

00:11:59,050 --> 00:11:56,570

guess we do have some more UFO files we

275

00:12:01,840 --> 00:11:59,060

didn't release them all and we'll go

276

00:12:03,760 --> 00:12:01,850

those out to you shortly this was in

277

00:12:05,350 --> 00:12:03,770

2014 actually they said it would

278

00:12:07,510 --> 00:12:05,360

probably take nine months to get them

279

00:12:10,270 --> 00:12:07,520

out 2014

280

00:12:12,310 --> 00:12:10,280

they've been delaying ever since so

281

00:12:14,200 --> 00:12:12,320

people keep asking where these files

282

00:12:16,360 --> 00:12:14,210

where these files even the House of

283

00:12:17,980 --> 00:12:16,370

Lords one of the minister said where are

284

00:12:20,680 --> 00:12:17,990

these files when they asked the

285

00:12:22,870 --> 00:12:20,690

Department of the you know Ministry of

286

00:12:24,040 --> 00:12:22,880

Defense they keep saying oh we're going

287

00:12:25,900 --> 00:12:24,050

to release them we're going to release

288

00:12:27,820 --> 00:12:25,910

them well the last date they were

289

00:12:30,280 --> 00:12:27,830

supposed to come out was March this

290

00:12:32,560 --> 00:12:30,290

March they said that will finally have a

291

00:12:37,170 --> 00:12:32,570

mountain March well lo and behold March

292

00:12:41,170 --> 00:12:37,180

comes and goes and there are no files so

293

00:12:42,820 --> 00:12:41,180

Andres Mueller Key pegged the UK

294

00:12:44,020 --> 00:12:42,830

government he said hey guys were these

295

00:12:47,230 --> 00:12:44,030

files he said they're going to be out

296

00:12:49,390 --> 00:12:47,240

March they're not out they responded and

297

00:12:52,270 --> 00:12:49,400

they said due to the upcoming election

298

00:12:53,890 --> 00:12:52,280

here in the UK and the rules relating to

299

00:12:56,170 --> 00:12:53,900

government departments during the

300

00:12:59,290 --> 00:12:56,180

pre-election period the files will not

301  
00:13:01,060 --> 00:12:59,300  
be released until after the election we

302  
00:13:03,520 --> 00:13:01,070  
are working to ensure that the files are

303  
00:13:06,820 --> 00:13:03,530  
ready for release as soon after this

304  
00:13:10,780 --> 00:13:06,830  
period as possible hopefully around the

305  
00:13:13,510 --> 00:13:10,790  
middle of June hmm well you know in a

306  
00:13:17,230 --> 00:13:13,520  
way I know they keep putting it off but

307  
00:13:19,240 --> 00:13:17,240  
in a way I can see that well it'd be

308  
00:13:21,670 --> 00:13:19,250  
kind of exciting if they cause a stir

309  
00:13:24,460 --> 00:13:21,680  
but you know that's got to be the reason

310  
00:13:27,040 --> 00:13:24,470  
they just don't want to deal with any

311  
00:13:32,110 --> 00:13:27,050  
controversies around election time so I

312  
00:13:34,510 --> 00:13:32,120  
can I guess I get that part I cannot

313  
00:13:40,300 --> 00:13:34,520

believe you're making excuses with the

314

00:13:42,580 --> 00:13:40,310

UK's withholding violence well you know

315

00:13:44,170 --> 00:13:42,590

if they stuck to the March thing it

316

00:13:46,030 --> 00:13:44,180

probably would have been just fine right

317

00:13:47,290 --> 00:13:46,040

yeah why could they do it but I mean

318

00:13:51,820 --> 00:13:47,300

it's now been

319

00:13:54,130 --> 00:13:51,830

then I three years yeah we're goodness

320

00:13:57,250 --> 00:13:54,140

sakes if they delay it again they really

321

00:14:00,190 --> 00:13:57,260

have no excuse for it really yeah and

322

00:14:02,500 --> 00:14:00,200

and you know at this point since they've

323

00:14:04,509 --> 00:14:02,510

delayed every single time they were

324

00:14:06,460 --> 00:14:04,519

supposed to come out I mean the

325

00:14:08,290 --> 00:14:06,470

confidence level that they actually will

326

00:14:12,910 --> 00:14:08,300

come out in June at least for me it's

327

00:14:16,090 --> 00:14:12,920

pretty low yet so there's no saying do

328

00:14:20,019 --> 00:14:16,100

they have a similar regulation in

329

00:14:22,030 --> 00:14:20,029

England as they do in the United States

330

00:14:24,490 --> 00:14:22,040

as far as the freedom from Freedom of

331

00:14:27,670 --> 00:14:24,500

Information Act do yeah it is very

332

00:14:29,500 --> 00:14:27,680

similar and Nick Pope has spoken to this

333

00:14:31,420 --> 00:14:29,510

of course Nick Pope worked for the

334

00:14:34,840 --> 00:14:31,430

Ministry of Defense investigating UFOs

335

00:14:37,060 --> 00:14:34,850

for a few years in the 90s and he talks

336

00:14:39,759 --> 00:14:37,070

about how even though they have a voyage

337

00:14:41,230 --> 00:14:39,769

still very easily to hide the documents

338

00:14:42,639 --> 00:14:41,240

they could have been destroyed they

339

00:14:45,190 --> 00:14:42,649

could have been moved somewhere where

340

00:14:49,660 --> 00:14:45,200

nobody knows where they are or they

341

00:14:52,840 --> 00:14:49,670

could be moved to a private corporation

342

00:14:55,060 --> 00:14:52,850

in which those people do not fall under

343

00:14:57,610 --> 00:14:55,070

the Freedom of Information Act there's

344

00:14:59,440 --> 00:14:57,620

nor ours here in the United States so

345

00:15:01,930 --> 00:14:59,450

they would have no obligation to share

346

00:15:04,150 --> 00:15:01,940

those files so there are a number of

347

00:15:08,620 --> 00:15:04,160

scenarios in ways that those files could

348

00:15:10,569 --> 00:15:08,630

be and I swept under the rug and and so

349

00:15:14,170 --> 00:15:10,579

you know he feels that there are other

350

00:15:16,230 --> 00:15:14,180

files out there that may never come to

351

00:15:18,819 --> 00:15:16,240

light yeah well not to go completely

352

00:15:22,540 --> 00:15:18,829

conspiratorial but you know the

353

00:15:26,579 --> 00:15:22,550

government I'm sure does things through

354

00:15:30,910 --> 00:15:26,589

private contractors in order to avoid

355

00:15:33,660 --> 00:15:30,920

any type of congressional I'm talking

356

00:15:37,120 --> 00:15:33,670

about our government congressional

357

00:15:41,010 --> 00:15:37,130

investigations or that could be possible

358

00:15:45,670 --> 00:15:41,020

well it seems that the military at times

359

00:15:49,210 --> 00:15:45,680

and I'm sure other agencies will destroy

360

00:15:54,790 --> 00:15:49,220

files if they're that you know in cinder

361

00:15:56,410 --> 00:15:54,800

airy and cinder airy I don't know if I'm

362

00:15:59,710 --> 00:15:56,420

saying if they're that at you know

363

00:16:00,560 --> 00:15:59,720

revealing of crimes or something really

364

00:16:02,030 --> 00:16:00,570

negative

365

00:16:03,800 --> 00:16:02,040

to which they feel they never should

366

00:16:05,420 --> 00:16:03,810

come to light and maybe they feel that

367

00:16:08,960 --> 00:16:05,430

there's no value to the information

368

00:16:11,210 --> 00:16:08,970

anymore anyway that I think people do

369

00:16:12,980 --> 00:16:11,220

destroy documents probably on a regular

370

00:16:15,140 --> 00:16:12,990

basis I think we've heard of that you

371

00:16:17,090 --> 00:16:15,150

have several times so some of these

372

00:16:19,370 --> 00:16:17,100

documents could be destroyed in fact I

373

00:16:21,020 --> 00:16:19,380

my next year will be with Nick Redfern

374

00:16:22,820 --> 00:16:21,030

and we actually already did the

375

00:16:24,260 --> 00:16:22,830

interview and he and I talked quite a

376

00:16:28,190 --> 00:16:24,270

bit about this when we talked about

377

00:16:32,150 --> 00:16:28,200

Roswell we'll both be speaking out there

378

00:16:33,980 --> 00:16:32,160

and he has a some of your listeners may

379

00:16:35,980 --> 00:16:33,990

know and maybe you'll need to talk to

380

00:16:39,440 --> 00:16:35,990

him at some point about it - he has a

381

00:16:44,030 --> 00:16:39,450

alternative theory when it comes to

382

00:16:45,530 --> 00:16:44,040

Roswell and so yeah it's you know like

383

00:16:47,120 --> 00:16:45,540

those are files that they say they've

384

00:16:47,570 --> 00:16:47,130

lost their been destroyed and they're

385

00:16:53,180 --> 00:16:47,580

gone

386

00:16:56,060 --> 00:16:53,190

so yeah but chase Brandon found a box

387

00:16:58,010 --> 00:16:56,070

that said Roswell on it yeah but I mean

388

00:17:00,560 --> 00:16:58,020

this is the whole problem with the Tres

389

00:17:06,500 --> 00:17:00,570

Brandon thing he found a box in the

390

00:17:09,020 --> 00:17:06,510

CIA's library and apparently and this is

391

00:17:11,000 --> 00:17:09,030

a library any CIA agent can go into and

392

00:17:13,689 --> 00:17:11,010

Langley it's right there I guess in the

393

00:17:17,449 --> 00:17:13,699

lobby lobby you do have to be a CIA

394

00:17:20,360 --> 00:17:17,459

employee to go in there but this box it

395

00:17:22,579 --> 00:17:20,370

apparently just had books and in

396

00:17:24,500 --> 00:17:22,589

particular it was course shows book you

397

00:17:28,940 --> 00:17:24,510

read so it doesn't seem like add

398

00:17:31,880 --> 00:17:28,950

anything secret or just it just had you

399

00:17:34,610 --> 00:17:31,890

know like books and media stuff nothing

400

00:17:36,590 --> 00:17:34,620

that the public could didn't see

401

00:17:39,230 --> 00:17:36,600

although it is interesting that chase

402

00:17:41,450 --> 00:17:39,240

Brandon says the material including you

403

00:17:43,640 --> 00:17:41,460

know the day after Roswell book

404

00:17:46,130 --> 00:17:43,650

convinced him that you know there was

405

00:17:50,780 --> 00:17:46,140

something to the Roswell incident but

406

00:17:53,740 --> 00:17:50,790

yeah it doesn't sound as though you

407

00:17:57,140 --> 00:17:53,750

necessarily read anything that was

408

00:17:58,580 --> 00:17:57,150

top-secret and if he did I mean that

409

00:18:01,190 --> 00:17:58,590

wouldn't be the best place to have it

410

00:18:04,550 --> 00:18:01,200

where any CIA agent can go in there and

411

00:18:09,440 --> 00:18:04,560

say oh look at boots aliens are real not

412

00:18:12,080 --> 00:18:09,450

only that I'm sure that anybody would

413

00:18:13,510 --> 00:18:12,090

realize the fact that if there was a

414

00:18:15,550 --> 00:18:13,520

file box

415

00:18:17,230 --> 00:18:15,560

with Roswell material in and it's not

416

00:18:19,480 --> 00:18:17,240

going to say Roswell on the outside I

417

00:18:23,080 --> 00:18:19,490

would say box number see two three five

418

00:18:25,030 --> 00:18:23,090

seven or some type of code numbers or

419

00:18:26,110 --> 00:18:25,040

something it would well in a library it

420

00:18:27,580 --> 00:18:26,120

might say Braswell

421

00:18:30,340 --> 00:18:27,590

yeah I didn't know was in a library

422

00:18:33,100 --> 00:18:30,350

actually yeah if it was efficient if it

423

00:18:34,210 --> 00:18:33,110

was official you know documentation

424

00:18:37,450 --> 00:18:34,220

you're right

425

00:18:40,150 --> 00:18:37,460

I think it would say box XYZ or box one

426

00:18:43,780 --> 00:18:40,160

two three four five - seventy-five three

427

00:18:46,210 --> 00:18:43,790

you know but since it it's a library it

428

00:18:48,160 --> 00:18:46,220

makes more sense even that it is less

429

00:18:49,720 --> 00:18:48,170

sensitive material because it's just you

430

00:18:51,820 --> 00:18:49,730

know they have it in their Roswell

431

00:18:55,510 --> 00:18:51,830

section they have sections for or

432

00:18:59,110 --> 00:18:55,520

probably everything maybe even a Martin

433

00:19:01,240 --> 00:18:59,120

Willis section well it's similar to I

434

00:19:06,940 --> 00:19:01,250

had mentioned on the show months ago

435

00:19:10,390 --> 00:19:06,950

that you know at an ex-cia agent not a

436

00:19:14,170 --> 00:19:10,400

former a retired CIA agent had you know

437

00:19:17,680 --> 00:19:14,180

magic twelve documents in his in his

438

00:19:19,660 --> 00:19:17,690

footlocker which I've I thought was you

439

00:19:21,820 --> 00:19:19,670

know meant something but it could be

440

00:19:23,920 --> 00:19:21,830

just a curiosity thing you know I never

441

00:19:26,020 --> 00:19:23,930

did get yeah where with his son or

442

00:19:28,570 --> 00:19:26,030

anything on that so I think it's just

443

00:19:33,040 --> 00:19:28,580

something out of curiosity that someone

444

00:19:35,980 --> 00:19:33,050

may have in the topic itself and just

445

00:19:37,750 --> 00:19:35,990

you know collect that as it's probably

446

00:19:40,930 --> 00:19:37,760

fun for them to read through something

447

00:19:43,420 --> 00:19:40,940

like that I agree with you very percent

448

00:19:45,520 --> 00:19:43,430

my friend yeah so we're kind of going

449

00:19:47,410 --> 00:19:45,530

long but we have the big story you plug

450

00:19:48,850 --> 00:19:47,420

that that the beginning of my section

451  
00:19:52,570 --> 00:19:48,860  
here so you want me to go over the Kurt

452  
00:19:56,440 --> 00:19:52,580  
Russell thing go long go long all right

453  
00:19:59,440 --> 00:19:56,450  
and I love this story because yeah it's

454  
00:20:02,320 --> 00:19:59,450  
Kurt Russell uh says he witnessed the

455  
00:20:07,030 --> 00:20:02,330  
Phoenix likes the famous maybe the most

456  
00:20:10,680 --> 00:20:07,040  
famous or at least the the most seen UFO

457  
00:20:13,330 --> 00:20:10,690  
event here in the United States so uh

458  
00:20:15,100 --> 00:20:13,340  
guardians of the galaxy - just came out

459  
00:20:15,790 --> 00:20:15,110  
I just saw it this weekend it's

460  
00:20:17,830 --> 00:20:15,800  
excellent

461  
00:20:20,680 --> 00:20:17,840  
I loved it and Kurt Russell's in it and

462  
00:20:22,450 --> 00:20:20,690  
he is great so they are doing this

463  
00:20:26,410 --> 00:20:22,460

interview for BBC One's

464

00:20:30,820 --> 00:20:26,420

The One Show and

465

00:20:34,990 --> 00:20:30,830

in the UK and it's Chris Pratt and Kurt

466

00:20:36,820 --> 00:20:35,000

Russell and the host opens up this

467

00:20:38,530 --> 00:20:36,830

folder that says top secret and he says

468

00:20:41,110 --> 00:20:38,540

I've gone through the international

469

00:20:43,780 --> 00:20:41,120

files to find an interesting story for

470

00:20:45,910 --> 00:20:43,790

you guys and and I'm I didn't see the

471

00:20:49,060 --> 00:20:45,920

whole thing but I have seen some of it

472

00:20:51,280 --> 00:20:49,070

and apparently they talked about how he

473

00:20:52,660 --> 00:20:51,290

found a UFO story and Chris Pratt said

474

00:20:55,750 --> 00:20:52,670

he doesn't really believe in UFOs or

475

00:20:58,300 --> 00:20:55,760

something and and so he started to read

476  
00:21:00,340 --> 00:20:58,310  
this UFO story the host and he says you

477  
00:21:03,130 --> 00:21:00,350  
know you make guys may be interested

478  
00:21:04,930 --> 00:21:03,140  
that in March of night no he does he

479  
00:21:08,740 --> 00:21:04,940  
didn't even say they ll just said that

480  
00:21:10,750 --> 00:21:08,750  
in Phoenix Arizona there was a pilot

481  
00:21:13,390 --> 00:21:10,760  
that was coming in for a landing he was

482  
00:21:17,230 --> 00:21:13,400  
flying with his son and he saw six

483  
00:21:20,490 --> 00:21:17,240  
lights in the sky and I said these UFOs

484  
00:21:23,110 --> 00:21:20,500  
and upon landing he reported these UFOs

485  
00:21:25,780 --> 00:21:23,120  
the control towers that they didn't

486  
00:21:33,640 --> 00:21:25,790  
catch anything on radar so the host a

487  
00:21:35,610 --> 00:21:33,650  
very you know I says mystery I'm trying

488  
00:21:40,630 --> 00:21:35,620

to bring some excitement to things and

489

00:21:44,500 --> 00:21:40,640

Kurt Russell says yeah the plane number

490

00:21:47,230 --> 00:21:44,510

to that plane was Bravo two tango Sierra

491

00:21:50,440 --> 00:21:47,240

and I know this because I was the pilot

492

00:21:52,810 --> 00:21:50,450

of that plane to which the hosts go oh

493

00:21:56,380 --> 00:21:52,820

my gosh and Chris Pratt makes this funny

494

00:21:58,600 --> 00:21:56,390

face kind of like what and so so Chris

495

00:22:00,700 --> 00:21:58,610

Pratt didn't seem to be in the loop on

496

00:22:03,430 --> 00:22:00,710

this whole thing so Kurt Russell says

497

00:22:06,460 --> 00:22:03,440

yeah I was bringing my son Oliver who is

498

00:22:08,590 --> 00:22:06,470

actually goldie Hawn's son and he's not

499

00:22:11,200 --> 00:22:08,600

married to goldie hawn so it's not even

500

00:22:13,420 --> 00:22:11,210

really his stepson but I guess Oliver

501  
00:22:15,070 --> 00:22:13,430  
considers Kurt Russell his dad because

502  
00:22:19,540 --> 00:22:15,080  
he grew up with him and everything so he

503  
00:22:21,610 --> 00:22:19,550  
called him his son and Oliver Hudson so

504  
00:22:24,880 --> 00:22:21,620  
Kate Hudson's brother so she's a actor

505  
00:22:26,800 --> 00:22:24,890  
as well so he was flying his son to

506  
00:22:29,230 --> 00:22:26,810  
Phoenix to drop him off so he could see

507  
00:22:31,470 --> 00:22:29,240  
his girlfriend they and as they were

508  
00:22:33,970 --> 00:22:31,480  
flying in they see these six lights

509  
00:22:36,550 --> 00:22:33,980  
Oliver says hey Dad what's that you know

510  
00:22:38,320 --> 00:22:36,560  
should we call this in and or are we

511  
00:22:40,480 --> 00:22:38,330  
okay and quick Russell said I don't know

512  
00:22:42,100 --> 00:22:40,490  
that is so he calls into the tower and

513  
00:22:43,840 --> 00:22:42,110

says hey we're coming in for a landing

514

00:22:45,700 --> 00:22:43,850

and we see these lights you would be

515

00:22:49,000 --> 00:22:45,710

concerned and and they said well we're

516

00:22:53,230 --> 00:22:49,010

not catching anything on radar so he

517

00:22:55,450 --> 00:22:53,240

said ok they'll and he does report it as

518

00:22:57,279 --> 00:22:55,460

a UFO because he says you know he didn't

519

00:23:00,419 --> 00:22:57,289

know what they were so he determinate it

520

00:23:03,250 --> 00:23:00,429

was an unidentified so he does report it

521

00:23:06,220 --> 00:23:03,260

but they land he drops off his son he

522

00:23:08,830 --> 00:23:06,230

flies back to LA that's it he nor his

523

00:23:11,919 --> 00:23:08,840

son talked about it at all after that

524

00:23:13,629 --> 00:23:11,929

then one day and he doesn't say when I'm

525

00:23:16,330 --> 00:23:13,639

guessing this is recent because he

526

00:23:17,950 --> 00:23:16,340

hasn't shared this story before but he

527

00:23:19,990 --> 00:23:17,960

says Goldie Hawn was watching a TV show

528

00:23:22,180 --> 00:23:20,000

about UFOs and they were talking about

529

00:23:26,440 --> 00:23:22,190

the Phoenix lights this big incident of

530

00:23:29,950 --> 00:23:26,450

course on March 13th 1997 and they say

531

00:23:33,759 --> 00:23:29,960

that there was a general aviation pilot

532

00:23:36,700 --> 00:23:33,769

who was flying with his son who reported

533

00:23:38,200 --> 00:23:36,710

seeing the lights and that just

534

00:23:39,759 --> 00:23:38,210

triggered something he said he felt like

535

00:23:42,159 --> 00:23:39,769

Richard Dreyfuss that when he was

536

00:23:44,019 --> 00:23:42,169

watching the show he felt like I know

537

00:23:46,149 --> 00:23:44,029

something about this but I don't know

538

00:23:47,320 --> 00:23:46,159

why I know something about this why does

539

00:23:49,149 --> 00:23:47,330

this sound familiar

540

00:23:50,740 --> 00:23:49,159

and when they talked about the pilot he

541

00:23:52,180 --> 00:23:50,750

said it just clicked and said hey I

542

00:23:54,669 --> 00:23:52,190

think that was me

543

00:23:57,610 --> 00:23:54,679

so it went to his flight logs to see and

544

00:24:00,190 --> 00:23:57,620

sure enough the flight was on the same

545

00:24:02,259 --> 00:24:00,200

time it's the Phoenix lights so he says

546

00:24:04,720 --> 00:24:02,269

yeah I saw the Phoenix light it was

547

00:24:07,330 --> 00:24:04,730

unidentified and what's funny is he says

548

00:24:10,840 --> 00:24:07,340

what he thinks it's what he feels is a

549

00:24:14,799 --> 00:24:10,850

weirdest thing about this whole event is

550

00:24:17,110 --> 00:24:14,809

that if he wouldn't have seen the show

551  
00:24:19,029 --> 00:24:17,120  
he would have never thought about it he

552  
00:24:21,190 --> 00:24:19,039  
said you know for some reason it went

553  
00:24:23,560 --> 00:24:21,200  
out of his head that they had seen this

554  
00:24:25,330 --> 00:24:23,570  
UFO and reported it and he hadn't

555  
00:24:26,019 --> 00:24:25,340  
thought anything about it until he saw

556  
00:24:27,879 --> 00:24:26,029  
the show

557  
00:24:30,070 --> 00:24:27,889  
isn't that something I've heard so many

558  
00:24:32,620 --> 00:24:30,080  
times where people have said something

559  
00:24:34,750 --> 00:24:32,630  
similar to that yeah a sighting just

560  
00:24:37,450 --> 00:24:34,760  
they forgot all about it until something

561  
00:24:39,970 --> 00:24:37,460  
jagd their memory mm-hmm yeah they see

562  
00:24:41,440 --> 00:24:39,980  
something really weird and they just

563  
00:24:43,570 --> 00:24:41,450

ignore it they're like wow that's really

564

00:24:45,190 --> 00:24:43,580

weird what the hell is that and then

565

00:24:47,409 --> 00:24:45,200

they go on with their lives and don't

566

00:24:48,760 --> 00:24:47,419

think twice about it now a listener and

567

00:24:50,799 --> 00:24:48,770

of course I want to thank you out there

568

00:24:52,180 --> 00:24:50,809

listen to wherever you were that sent me

569

00:24:54,820 --> 00:24:52,190

that video I think

570

00:24:55,899 --> 00:24:54,830

a few weeks ago but I watched like it

571

00:24:57,549 --> 00:24:55,909

was one of those things where I watched

572

00:24:58,600 --> 00:24:57,559

like really late at night or in the

573

00:25:00,940 --> 00:24:58,610

middle of the night when I couldn't

574

00:25:02,590 --> 00:25:00,950

sleep or something and I forgot all

575

00:25:04,810 --> 00:25:02,600

about that until you brought it up the

576

00:25:06,909 --> 00:25:04,820

other day yeah this is this is great

577

00:25:08,409 --> 00:25:06,919

Kurt Russell so I don't know I really

578

00:25:12,009 --> 00:25:08,419

always liked him a lot he's the cool

579

00:25:14,340 --> 00:25:12,019

actor seems like a really nice guy even

580

00:25:16,539 --> 00:25:14,350

though you don't know him in person but

581

00:25:17,769 --> 00:25:16,549

just the interviews and things I've seen

582

00:25:21,940 --> 00:25:17,779

he just seems like a real down-to-earth

583

00:25:24,639 --> 00:25:21,950

type he does he seems really cool and I

584

00:25:27,269 --> 00:25:24,649

love the story because um you know I'm

585

00:25:29,830 --> 00:25:27,279

really close with my girlfriends uh

586

00:25:30,879 --> 00:25:29,840

daughters especially the the youngest is

587

00:25:34,210 --> 00:25:30,889

graduating tomorrow

588

00:25:36,430 --> 00:25:34,220

from high school and I so I understand I

589

00:25:38,950 --> 00:25:36,440

feel similar and you know it's really

590

00:25:42,039 --> 00:25:38,960

cool and it speaks to Kurt Russell that

591

00:25:45,100 --> 00:25:42,049

um you know the that I guess Kate and

592

00:25:48,430 --> 00:25:45,110

Oliver Hudson regard him as their father

593

00:25:51,100 --> 00:25:48,440

even though he isn't just because he's

594

00:25:53,019 --> 00:25:51,110

been there for them right to help raise

595

00:25:54,669 --> 00:25:53,029

them and everything so and even though

596

00:25:58,119 --> 00:25:54,679

he and Goldie after all of these years

597

00:26:00,460 --> 00:25:58,129

have never gotten married so it's really

598

00:26:03,789 --> 00:26:00,470

cool and he is cool he seems like a cool

599

00:26:06,009 --> 00:26:03,799

guy and a great actor I've always loved

600

00:26:08,950 --> 00:26:06,019

him too and he is really good in

601  
00:26:11,379 --> 00:26:08,960  
guardians of the galaxy to a great movie

602  
00:26:13,840 --> 00:26:11,389  
if you haven't seen it I loved it and I

603  
00:26:15,519 --> 00:26:13,850  
would say I liked the first one but I

604  
00:26:18,730 --> 00:26:15,529  
think I like this one a little more

605  
00:26:21,310 --> 00:26:18,740  
actually really well you know that's so

606  
00:26:24,190 --> 00:26:21,320  
unusual to like this second you know the

607  
00:26:28,389 --> 00:26:24,200  
second in it I know you know yeah

608  
00:26:30,159 --> 00:26:28,399  
exactly and it is unusual but of course

609  
00:26:33,070 --> 00:26:30,169  
even though it's unusual it's it's

610  
00:26:34,240 --> 00:26:33,080  
wonderful when that happens right hey

611  
00:26:36,730 --> 00:26:34,250  
judge you ever

612  
00:26:38,409 --> 00:26:36,740  
this is totally off subject but have you

613  
00:26:40,539 --> 00:26:38,419

ever watched the movie overboard with

614

00:26:41,700 --> 00:26:40,549

them two in it with Goldie Hawn and Kurt

615

00:26:45,369 --> 00:26:41,710

Russell

616

00:26:49,240 --> 00:26:45,379

so funny yes great it's really funny I

617

00:26:51,369 --> 00:26:49,250

mean one of the lines from that really

618

00:26:53,649 --> 00:26:51,379

sticks in my head and I just think it's

619

00:26:55,779 --> 00:26:53,659

so hilarious for some stupid reason

620

00:26:57,789 --> 00:26:55,789

because it's a stupid scene it's when

621

00:27:01,990 --> 00:26:57,799

the little kid like Goldie Hawn they

622

00:27:04,590 --> 00:27:02,000

drive her nuts and you know Kurt Russell

623

00:27:05,680 --> 00:27:04,600

comes home and she's like catatonic and

624

00:27:07,990 --> 00:27:05,690

the

625

00:27:10,690 --> 00:27:08,000

little kid goes I like it when she goes

626

00:27:12,700 --> 00:27:10,700

bah bah bah bah bah bah bah I'd

627

00:27:14,889 --> 00:27:12,710

certainly remember that because I've

628

00:27:15,820 --> 00:27:14,899

watched that movie so many times that's

629

00:27:21,249 --> 00:27:15,830

really funny

630

00:27:24,129 --> 00:27:21,259

yeah I'm pretty good yeah bah bah yeah

631

00:27:26,950 --> 00:27:24,139

really funny yeah some all right well I

632

00:27:30,820 --> 00:27:26,960

know we went extra long 20 some odd

633

00:27:33,759 --> 00:27:30,830

minutes was a half hour but you know I'm

634

00:27:36,369 --> 00:27:33,769

cool with that so good you have a good

635

00:27:38,919 --> 00:27:36,379

one and I'll be talking to you next week

636

00:27:39,700 --> 00:27:38,929

all right you have a great one to talk

637

00:27:42,369 --> 00:27:39,710

to you next week

638

00:27:44,289 --> 00:27:42,379

all right Yvonne hang on for just one

639

00:27:46,600 --> 00:27:44,299

minute after this quick music break and

640

00:27:47,510 --> 00:27:46,610

you'll hear the phone ringing I'm going

641

00:28:05,960 --> 00:27:47,520

to be calling Don ledger

642

00:29:09,400 --> 00:28:29,360

[Music]

643

00:29:15,290 --> 00:29:11,810

hey hold on welcome to the show

644

00:29:18,290 --> 00:29:15,300

this is Martin Willis oh how are you how

645

00:29:20,450 --> 00:29:18,300

you doing mark good good welcome you

646

00:29:25,970 --> 00:29:20,460

were on my show god I think it was back

647

00:29:28,970 --> 00:29:25,980

in 2012 maybe and but all of it was yeah

648

00:29:31,910 --> 00:29:28,980

now there's a lot of talk about there's

649

00:29:33,680 --> 00:29:31,920

a lot of talk about shag harbour lately

650

00:29:36,170 --> 00:29:33,690

just because coming up you know mostly

651  
00:29:41,330 --> 00:29:36,180  
because coming up on the 50th

652  
00:29:44,960 --> 00:29:41,340  
anniversary if you you know and if you

653  
00:29:47,120 --> 00:29:44,970  
could can you for the person there was a

654  
00:29:48,980 --> 00:29:47,130  
summit in our chat room now I do have a

655  
00:29:52,670 --> 00:29:48,990  
bunch of questions for you that came in

656  
00:29:54,560 --> 00:29:52,680  
last week and so I'm going to be asking

657  
00:29:57,380 --> 00:29:54,570  
you about your questions but if you can

658  
00:30:00,400 --> 00:29:57,390  
give like a you know like a 10 or 15

659  
00:30:03,080 --> 00:30:00,410  
minute nutshell of how the whole thing

660  
00:30:04,460 --> 00:30:03,090  
happened and how you got involved in it

661  
00:30:07,100 --> 00:30:04,470  
actually as well I'd like to know that

662  
00:30:11,390 --> 00:30:07,110  
you're you don't live real far away from

663  
00:30:14,090 --> 00:30:11,400

there or do you do you live far away or

664

00:30:15,620 --> 00:30:14,100

three hour three hours okay that's

665

00:30:19,520 --> 00:30:15,630

probably not really that far for up

666

00:30:21,680 --> 00:30:19,530

there right yeah so if you can give kind

667

00:30:26,270 --> 00:30:21,690

of a nutshell of how of what transpired

668

00:30:27,830 --> 00:30:26,280

back on October 4th 1967 and and then

669

00:30:29,210 --> 00:30:27,840

you know further on like I said we have

670

00:30:32,240 --> 00:30:29,220

a couple questions that branch out of

671

00:30:34,520 --> 00:30:32,250

there as well that'll be coming up but

672

00:30:38,600 --> 00:30:34,530

just if you go ahead and and talk about

673

00:30:40,640 --> 00:30:38,610

that I'd be grateful yeah Martin where

674

00:30:44,570 --> 00:30:40,650

you at obviously I'm in the state of

675

00:30:47,060 --> 00:30:44,580

Maine oh you're in Maine well you're

676  
00:30:48,530 --> 00:30:47,070  
across from us not notes oldest you know

677  
00:30:51,080 --> 00:30:48,540  
Maine goes further north to Nova Scotia

678  
00:30:53,180 --> 00:30:51,090  
so do you know I didn't realize that

679  
00:30:55,550 --> 00:30:53,190  
true I think I have to do a lot of

680  
00:30:58,640 --> 00:30:55,560  
driving I plan on getting to shag Harbor

681  
00:31:00,680 --> 00:30:58,650  
with the conference this year and I

682  
00:31:02,990 --> 00:31:00,690  
think I've got a long long drive I

683  
00:31:04,730 --> 00:31:03,000  
haven't mapped it out yet but I think

684  
00:31:06,980 --> 00:31:04,740  
I'd be on there's a ferry goes across

685  
00:31:08,780 --> 00:31:06,990  
but it's pretty well um someone told me

686  
00:31:12,260 --> 00:31:08,790  
the ferry doesn't run anymore but I'll

687  
00:31:12,980 --> 00:31:12,270  
check into that I think they'd think it

688  
00:31:16,149 --> 00:31:12,990

is

689

00:31:22,730 --> 00:31:16,159

yeah all right yeah so let's hear about

690

00:31:24,260 --> 00:31:22,740

what happened back back in 1967 yeah you

691

00:31:29,269 --> 00:31:24,270

want going to right now why not yeah

692

00:31:30,590 --> 00:31:29,279

yeah okay excuse me and I seem to have a

693

00:31:36,560 --> 00:31:30,600

lot of throat-clearing going on here

694

00:31:39,380 --> 00:31:36,570

doing October 4th 1967 and were there

695

00:31:42,799 --> 00:31:39,390

was a portion of that night where there

696

00:31:44,659 --> 00:31:42,809

was quite a few UFO reports and all over

697

00:31:46,039 --> 00:31:44,669

the southwestern part of Nova Scotia if

698

00:31:49,029 --> 00:31:46,049

you look at your map there it sort of

699

00:31:52,519 --> 00:31:49,039

looks like the tail end of a lobster and

700

00:31:55,909 --> 00:31:52,529

with the fins and if you sort of take

701  
00:31:58,789 --> 00:31:55,919  
that back end that enter that area down

702  
00:32:00,110 --> 00:31:58,799  
there was maybe as many as 30 UFO

703  
00:32:02,260 --> 00:32:00,120  
sightings to different people not

704  
00:32:04,370 --> 00:32:02,270  
nothing spectacular you know usually the

705  
00:32:07,490 --> 00:32:04,380  
nocturnal lights lights and sky saw it

706  
00:32:10,610 --> 00:32:07,500  
but um around 11:30 that night that's

707  
00:32:14,000 --> 00:32:10,620  
when Laurie Wickens and Dave Kendrick

708  
00:32:15,799 --> 00:32:14,010  
were there sorry Laurie Wickens and his

709  
00:32:18,080 --> 00:32:15,809  
friends were coming back from Cape Sable

710  
00:32:19,490 --> 00:32:18,090  
Island at a dance over there that's a

711  
00:32:21,710 --> 00:32:19,500  
little island that's got a causeway

712  
00:32:23,870 --> 00:32:21,720  
going over to it's about 30 miles to the

713  
00:32:25,580 --> 00:32:23,880

northeast when they're in the car and

714

00:32:27,409 --> 00:32:25,590

they noticed the string of lights in the

715

00:32:29,870 --> 00:32:27,419

sky on the right hand side the car sort

716

00:32:32,090 --> 00:32:29,880

of traveling along with them but passing

717

00:32:36,230 --> 00:32:32,100

I figured it was up about a thousand

718

00:32:37,850 --> 00:32:36,240

feet or so and finally as they were

719

00:32:39,680 --> 00:32:37,860

getting closer to shag herb the thing

720

00:32:44,510 --> 00:32:39,690

started to curl around around the front

721

00:32:47,930 --> 00:32:44,520

and made a beeline towards the water in

722

00:32:50,299 --> 00:32:47,940

the harbor towards the just past the the

723

00:32:53,080 --> 00:32:50,309

western side of the harbor now they they

724

00:32:56,799 --> 00:32:53,090

just had barely caught up with it and

725

00:32:59,630 --> 00:32:56,809

when it went behind a line of trees and

726

00:33:01,130 --> 00:32:59,640

they they came around to bend over a

727

00:33:05,360 --> 00:33:01,140

little hill there you'd see it yourself

728

00:33:06,980 --> 00:33:05,370

and get down there and it's um it opens

729

00:33:08,919 --> 00:33:06,990

up right onto the water there your raid

730

00:33:12,320 --> 00:33:08,929

on the edge of the Atlantic Ocean saw

731

00:33:15,889 --> 00:33:12,330

this at what used to be called the Irish

732

00:33:17,600 --> 00:33:15,899

moss moss plant and his lost sight of it

733

00:33:19,399 --> 00:33:17,610

but one of the girls in the car thought

734

00:33:20,870 --> 00:33:19,409

she heard a whooshing a bang anyway they

735

00:33:22,760 --> 00:33:20,880

pulled over in a gravel parking lot

736

00:33:24,110 --> 00:33:22,770

right on the water on the edge of the

737

00:33:25,260 --> 00:33:24,120

water and they looked out and they could

738

00:33:28,800 --> 00:33:25,270

see this

739

00:33:32,100 --> 00:33:28,810

Derk our object hints though hence the

740

00:33:35,040 --> 00:33:32,110

title of the book and with a pale yellow

741

00:33:37,680 --> 00:33:35,050

late drifting on the water or under its

742

00:33:39,210 --> 00:33:37,690

own power sort of going away from the

743

00:33:42,420 --> 00:33:39,220

shore at that point it was only about a

744

00:33:45,050 --> 00:33:42,430

hundred feet Oh which wasn't very far so

745

00:33:49,200 --> 00:33:45,060

they they were a bit frightened little

746

00:33:51,660 --> 00:33:49,210

puzzled by this lorry and in a male

747

00:33:55,560 --> 00:33:51,670

friend his thought that maybe this was a

748

00:33:57,150 --> 00:33:55,570

crashed airplane drifting on water so

749

00:34:00,090 --> 00:33:57,160

they got it back in the car not of

750

00:34:02,100 --> 00:34:00,100

course turn it 1967 of course no cell

751  
00:34:03,420 --> 00:34:02,110  
phones or anything like that they went a

752  
00:34:05,250 --> 00:34:03,430  
little further down the road towards

753  
00:34:08,399 --> 00:34:05,260  
woods Harbor which Sony maybe a mile

754  
00:34:09,659 --> 00:34:08,409  
away and stopped at a gas station down

755  
00:34:12,419 --> 00:34:09,669  
there where there was a payphone and

756  
00:34:15,000 --> 00:34:12,429  
they called the RCMP back in Barrington

757  
00:34:16,620 --> 00:34:15,010  
passage was his on going way back up

758  
00:34:17,220 --> 00:34:16,630  
through shag harbour again way up to the

759  
00:34:20,310 --> 00:34:17,230  
Northeast

760  
00:34:22,770 --> 00:34:20,320  
well at least another 15 miles anyway

761  
00:34:24,659 --> 00:34:22,780  
and into Barrington passage and got a

762  
00:34:26,399 --> 00:34:24,669  
hold the detachment there of the RCMP

763  
00:34:30,240 --> 00:34:26,409

Royal Canadian Mounted Police detachment

764

00:34:31,250 --> 00:34:30,250  
and got a hold of corporal Victor

765

00:34:33,510 --> 00:34:31,260  
rebecky

766

00:34:36,419 --> 00:34:33,520  
told him what they thought had happened

767

00:34:39,180 --> 00:34:36,429  
or lorry did anyway lorries about 17

768

00:34:41,639 --> 00:34:39,190  
going on 18 at this time and we're big

769

00:34:43,350 --> 00:34:41,649  
he said don't he knew him have you been

770

00:34:44,760 --> 00:34:43,360  
drinking and a lawyer he said no it was

771

00:34:46,740 --> 00:34:44,770  
kind of ticked off about that

772

00:34:48,120 --> 00:34:46,750  
well I mean drinking he says well you

773

00:34:50,820 --> 00:34:48,130  
know I think it airplanes crashed out

774

00:34:52,740 --> 00:34:50,830  
there so Rebecca's phone started ringing

775

00:34:55,260 --> 00:34:52,750  
and he said look give me the phone

776

00:34:57,600 --> 00:34:55,270

number there are no get back to you he

777

00:34:59,280 --> 00:34:57,610

says my phone's ringing so when he

778

00:35:00,870 --> 00:34:59,290

answered his phone he had about four or

779

00:35:02,130 --> 00:35:00,880

five more calls from people saying they

780

00:35:04,230 --> 00:35:02,140

thought they saw it looked like a

781

00:35:05,460 --> 00:35:04,240

lighter an airplane lighter and it went

782

00:35:09,300 --> 00:35:05,470

down towards the water looked like the

783

00:35:10,800 --> 00:35:09,310

crash in che Harbor and after what the

784

00:35:12,420 --> 00:35:10,810

third call after that he was really

785

00:35:14,370 --> 00:35:12,430

taken as seriously got back to the lorry

786

00:35:16,290 --> 00:35:14,380

and told him to get back in the car and

787

00:35:17,640 --> 00:35:16,300

go back up the Irish moss plant and keep

788

00:35:20,100 --> 00:35:17,650

an eye on this thing until they could

789

00:35:23,340 --> 00:35:20,110

get there so in the meantime another

790

00:35:25,890 --> 00:35:23,350

couple of young fellows there were also

791

00:35:28,890 --> 00:35:25,900

coming back from the same dance and norm

792

00:35:30,690 --> 00:35:28,900

Smith and Dave Kendrick if you have my

793

00:35:31,890 --> 00:35:30,700

book maritime UFO FILES there's a

794

00:35:34,080 --> 00:35:31,900

picture on the front that's Dave

795

00:35:36,000 --> 00:35:34,090

Kendrick now Dave was driving the car

796

00:35:37,290 --> 00:35:36,010

and his friend Normie was on the

797

00:35:38,450 --> 00:35:37,300

right-hand side and they saw basically

798

00:35:41,540 --> 00:35:38,460

the same thing

799

00:35:45,170 --> 00:35:41,550

a little maybe a hair after or just

800

00:35:48,200 --> 00:35:45,180

before it's uncertain and but they

801  
00:35:51,349 --> 00:35:48,210  
didn't go any further than norms

802  
00:35:52,910 --> 00:35:51,359  
misplace which was just in at the edge

803  
00:35:57,410 --> 00:35:52,920  
of Shake Harbor on the opposite side

804  
00:35:59,510 --> 00:35:57,420  
from where the object going in and Dave

805  
00:36:00,980 --> 00:35:59,520  
Kendrick drove home told his mother boat

806  
00:36:04,430 --> 00:36:00,990  
and then went to bed that was the end is

807  
00:36:05,930 --> 00:36:04,440  
his a participation at that during that

808  
00:36:08,720 --> 00:36:05,940  
evening

809  
00:36:10,760 --> 00:36:08,730  
no I'm Smith told his father about it

810  
00:36:13,220 --> 00:36:10,770  
when his uncle lived on the other end of

811  
00:36:17,870 --> 00:36:13,230  
the of this duplex type house that that

812  
00:36:20,630 --> 00:36:17,880  
was there and he went outside to the

813  
00:36:23,359 --> 00:36:20,640

show to him and they saw the police cars

814

00:36:26,300 --> 00:36:23,369

going down two mounted cars going down

815

00:36:28,010 --> 00:36:26,310

heading in towards the direction of

816

00:36:29,510 --> 00:36:28,020

where the object might have gone now so

817

00:36:31,490 --> 00:36:29,520

they figured something was up they go

818

00:36:34,720 --> 00:36:31,500

down and give a hand now I'm preaching

819

00:36:38,180 --> 00:36:34,730

here you know this is routine trim very

820

00:36:40,040 --> 00:36:38,190

african-american yeah and so they ended

821

00:36:41,510 --> 00:36:40,050

up getting down there and when they got

822

00:36:46,099 --> 00:36:41,520

there the Mounties were there three

823

00:36:49,760 --> 00:36:46,109

mounted remounting cars and I probably

824

00:36:51,950 --> 00:36:49,770

about all told maybe 18 to 24 people

825

00:36:53,780 --> 00:36:51,960

seems to be the best estimate I could

826

00:36:55,370 --> 00:36:53,790

get over the years standing around

827

00:36:57,680 --> 00:36:55,380

watching this thing out on the water the

828

00:37:00,530 --> 00:36:57,690

Mounties for watching it Laurie Wickens

829

00:37:03,589 --> 00:37:00,540

and his crew were there Norma's myth

830

00:37:05,089 --> 00:37:03,599

course was there with his uncle and they

831

00:37:07,430 --> 00:37:05,099

saw this thing drifting out on the water

832

00:37:09,290 --> 00:37:07,440

still either under its own speed or

833

00:37:13,760 --> 00:37:09,300

drifting with the tide the tide was

834

00:37:17,000 --> 00:37:13,770

ebbing and so now October night was was

835

00:37:22,430 --> 00:37:17,010

cool but it was a clear night and no

836

00:37:23,630 --> 00:37:22,440

moon so the corporal rebecky decided he

837

00:37:25,760 --> 00:37:23,640

wanted to get a search party together

838

00:37:27,920 --> 00:37:25,770

they'd consider taking a dory oak that

839

00:37:32,329 --> 00:37:27,930

was tied up alongside of the Irish moss

840

00:37:33,740 --> 00:37:32,339

plant but that's a boat and most of the

841

00:37:36,470 --> 00:37:33,750

fishermen around here used to carry them

842

00:37:38,750 --> 00:37:36,480

in on their their larger motor driven

843

00:37:41,060 --> 00:37:38,760

fishing boats as a as a safety item

844

00:37:43,760 --> 00:37:41,070

already just to work off the side but

845

00:37:46,820 --> 00:37:43,770

anyway then they figured well there was

846

00:37:49,520 --> 00:37:46,830

a bit of a law pond maybe they it was a

847

00:37:51,960 --> 00:37:49,530

little too dangerous so rebecky decided

848

00:37:55,320 --> 00:37:51,970

he was going to go to a house just

849

00:37:57,360 --> 00:37:55,330

way up the road and call some of the

850

00:37:58,740 --> 00:37:57,370

fishermen that he knew see if he got one

851  
00:38:02,160 --> 00:37:58,750  
of them to take their boat oh they won't

852  
00:38:06,450 --> 00:38:02,170  
have a see if they could help out just

853  
00:38:08,910 --> 00:38:06,460  
as he was about to leave the the object

854  
00:38:10,800 --> 00:38:08,920  
seemed to sink it looked like it sank

855  
00:38:13,680 --> 00:38:10,810  
and what they had seen out there was

856  
00:38:15,330 --> 00:38:13,690  
this dark Lin shaped object sort of

857  
00:38:17,400 --> 00:38:15,340  
either sitting on the water or slightly

858  
00:38:19,920 --> 00:38:17,410  
above it with again with the pale yellow

859  
00:38:21,690 --> 00:38:19,930  
light on it just glowing everybody

860  
00:38:23,960 --> 00:38:21,700  
there's and all the fishermen have all

861  
00:38:27,210 --> 00:38:23,970  
said no no no there was no there's no

862  
00:38:28,710 --> 00:38:27,220  
there wasn't any buoy or any kind of a

863  
00:38:31,560 --> 00:38:28,720

lighthouse or anything out there that

864

00:38:32,970 --> 00:38:31,570

would give that effect and they you know

865

00:38:36,990 --> 00:38:32,980

they know the water at the back of her

866

00:38:40,230 --> 00:38:37,000

hand there so Rebecca had done the tool

867

00:38:43,350 --> 00:38:40,240

blinds are the - Brian - ones I should

868

00:38:45,390 --> 00:38:43,360

say ron o'brien and one pond

869

00:38:48,030 --> 00:38:45,400

lawn pond was the rookie he was left

870

00:38:52,080 --> 00:38:48,040

there to take a take down testimony from

871

00:38:54,030 --> 00:38:52,090

the other people and ronald ryan and who

872

00:38:55,650 --> 00:38:54,040

had been also sent off to another house

873

00:38:57,540 --> 00:38:55,660

to make a call to the Rescue

874

00:38:59,790 --> 00:38:57,550

Coordination Center in Halifax Cedars

875

00:39:01,670 --> 00:38:59,800

you know it had an airplane crash or

876

00:39:04,230 --> 00:39:01,680

anything there any aircraft were missing

877

00:39:06,210 --> 00:39:04,240

so anyway those two eventually ended up

878

00:39:07,620 --> 00:39:06,220

going back up along with some of the

879

00:39:10,650 --> 00:39:07,630

people from the site and they went to

880

00:39:14,190 --> 00:39:10,660

joined up a two fisherman that Vicki had

881

00:39:16,710 --> 00:39:14,200

scared up down at the government Wharf

882

00:39:18,810 --> 00:39:16,720

in shag harbour and they got on the

883

00:39:23,280 --> 00:39:18,820

boats went up to the Western approach to

884

00:39:25,320 --> 00:39:23,290

where this thing would might be and they

885

00:39:27,600 --> 00:39:25,330

crossed the water it went about a mile

886

00:39:29,730 --> 00:39:27,610

of water to cross between the Western

887

00:39:34,020 --> 00:39:29,740

approach in odor odor Island or bomb

888

00:39:36,090 --> 00:39:34,030

potage Island and trying to find this

889

00:39:39,090 --> 00:39:36,100

thing which of course had already

890

00:39:43,970 --> 00:39:39,100

submerged apparently on the way they ran

891

00:39:47,070 --> 00:39:43,980

across a slick of of the yellow covered

892

00:39:47,880 --> 00:39:47,080

foam look like shaving cream about four

893

00:39:50,040 --> 00:39:47,890

inches thick

894

00:39:51,300 --> 00:39:50,050

now the people in the area and most

895

00:39:53,010 --> 00:39:51,310

people who live around the ocean around

896

00:39:54,990 --> 00:39:53,020

here in Nova Scotia know what sea foam

897

00:39:57,390 --> 00:39:55,000

is to see it all the time when you're at

898

00:39:58,980 --> 00:39:57,400

the edge of the water but they everybody

899

00:40:00,540 --> 00:39:58,990

said now this is an anything like sea

900

00:40:02,100 --> 00:40:00,550

foam little more like shaving cream or

901  
00:40:03,660 --> 00:40:02,110  
whipped cream sitting on the waters go

902  
00:40:05,420 --> 00:40:03,670  
four inches thick and very even and

903  
00:40:08,770 --> 00:40:05,430  
there was a boat

904  
00:40:12,260 --> 00:40:08,780  
a half a mile of it strung up going down

905  
00:40:14,450 --> 00:40:12,270  
down this swath right here the UFO would

906  
00:40:16,760 --> 00:40:14,460  
been and it was it was about 80 feet

907  
00:40:17,960 --> 00:40:16,770  
wide just going by the lengths of the

908  
00:40:20,720 --> 00:40:17,970  
boats and it was booked to boat

909  
00:40:22,160 --> 00:40:20,730  
lengthwise so they cruised around in

910  
00:40:24,170 --> 00:40:22,170  
this stuff they didn't like the idea of

911  
00:40:25,970 --> 00:40:24,180  
being in there and just in the general

912  
00:40:27,349 --> 00:40:25,980  
area looking for survivors because they

913  
00:40:28,970 --> 00:40:27,359

really did think it was an airplane

914

00:40:30,710 --> 00:40:28,980

crash they thought that the phone might

915

00:40:32,569 --> 00:40:30,720

have come from some kind of mixture

916

00:40:39,440 --> 00:40:32,579

gasoline and saltwater they didn't know

917

00:40:41,120 --> 00:40:39,450

what it was in the meantime the Coast

918

00:40:43,220 --> 00:40:41,130

Guard had been well I've been called

919

00:40:45,770 --> 00:40:43,230

over in Clark's Island Clark's Harbor

920

00:40:47,599 --> 00:40:45,780

over in the Cape Sable Island and they

921

00:40:49,190 --> 00:40:47,609

sent a boat over it took about an hour

922

00:40:52,910 --> 00:40:49,200

to get there because 13 miles away

923

00:40:54,980 --> 00:40:52,920

nanoni did about 10 or 11 knots and when

924

00:40:56,809 --> 00:40:54,990

they showed up they asked to talk to Ron

925

00:40:58,819 --> 00:40:56,819

O'Brien who was the on-scene commander

926  
00:41:04,130 --> 00:40:58,829  
now and they told him because he's the

927  
00:41:06,530 --> 00:41:04,140  
one that called the the Coast Guard in

928  
00:41:08,210 --> 00:41:06,540  
the first place over and up in Halifax

929  
00:41:09,770 --> 00:41:08,220  
and they said that there was nothing

930  
00:41:11,839 --> 00:41:09,780  
missing there was no planes missing from

931  
00:41:13,609 --> 00:41:11,849  
up and down the coast down in the East

932  
00:41:16,180 --> 00:41:13,619  
Coast of the United States or in Nova

933  
00:41:18,440 --> 00:41:16,190  
Scotia or up up the east coast of Canada

934  
00:41:20,980 --> 00:41:18,450  
nothing was missing so they were

935  
00:41:23,359 --> 00:41:20,990  
wondering then what are they looking for

936  
00:41:24,890 --> 00:41:23,369  
they searched through the night great up

937  
00:41:27,859 --> 00:41:24,900  
told some some of them two and three

938  
00:41:30,620 --> 00:41:27,869

o'clock in the morning and the first two

939

00:41:31,970 --> 00:41:30,630

oak boats out they decided they better

940

00:41:34,400 --> 00:41:31,980

get some sleep because they hadn't slept

941

00:41:36,890 --> 00:41:34,410

since 3 o'clock in the morning before

942

00:41:38,510 --> 00:41:36,900

and it was pretty late now but by this

943

00:41:40,370 --> 00:41:38,520

time there was about six fishing boats

944

00:41:42,460 --> 00:41:40,380

out there helping oak plus the coast a

945

00:41:45,440 --> 00:41:42,470

Coast Guard Cutter as they called it

946

00:41:46,910 --> 00:41:45,450

lifeboat I'm with Ronnie Newell as the

947

00:41:49,250 --> 00:41:46,920

kit has the skipper on that and they

948

00:41:51,260 --> 00:41:49,260

they continued to search and the search

949

00:41:53,720 --> 00:41:51,270

carried on for you know the next day

950

00:41:55,609 --> 00:41:53,730

anyway as he cruised back and forth by

951  
00:41:57,710 --> 00:41:55,619  
Friday because when this thing happened

952  
00:41:59,720 --> 00:41:57,720  
it was happening at 25 after 11:00 in

953  
00:42:01,760 --> 00:41:59,730  
the evening on the fourth and we quickly

954  
00:42:06,039 --> 00:42:01,770  
went into the fifth on the sixth on

955  
00:42:09,289 --> 00:42:06,049  
Friday the Navy by this time had just

956  
00:42:12,440 --> 00:42:09,299  
has sent down some divers by a

957  
00:42:15,170 --> 00:42:12,450  
helicopter and and on a Deuce and a half

958  
00:42:16,300 --> 00:42:15,180  
which was you know a military vehicle on

959  
00:42:17,980 --> 00:42:16,310  
all their equipment and so on

960  
00:42:19,090 --> 00:42:17,990  
but on some of the boats there and they

961  
00:42:20,740 --> 00:42:19,100  
went out and they Dover in the water

962  
00:42:22,750 --> 00:42:20,750  
starting around one o'clock in the

963  
00:42:24,130 --> 00:42:22,760

afternoon and went to about 6:00 that

964

00:42:25,720 --> 00:42:24,140

night they came out of the water said

965

00:42:27,190 --> 00:42:25,730

they couldn't find anything what are

966

00:42:35,140 --> 00:42:27,200

there is only about 80 feet deep and

967

00:42:36,820 --> 00:42:35,150

pretty clear and the so they wanted and

968

00:42:38,710 --> 00:42:36,830

then again still what's going on here

969

00:42:41,680 --> 00:42:38,720

wonder what were we looking at you know

970

00:42:43,270 --> 00:42:41,690

and they didn't know nobody could say

971

00:42:45,130 --> 00:42:43,280

nobody could tell them what has happened

972

00:42:47,050 --> 00:42:45,140

and of course as we know it went on a

973

00:42:49,930 --> 00:42:47,060

little further after that but this

974

00:42:53,470 --> 00:42:49,940

there's no secret about this portion of

975

00:42:55,750 --> 00:42:53,480

the of the action if you want to call it

976

00:42:58,540 --> 00:42:55,760

that of the event because it was in the

977

00:43:00,850 --> 00:42:58,550

newspapers The Chronicle Herald was a

978

00:43:03,100 --> 00:43:00,860

huge newspaper in eastern Canada

979

00:43:04,780 --> 00:43:03,110

probably still is but it's not as

980

00:43:07,270 --> 00:43:04,790

big as newspapers used to be back in

981

00:43:09,280 --> 00:43:07,280

their day and it had you know 2-inch

982

00:43:12,160 --> 00:43:09,290

banner read headlines saying you know

983

00:43:14,560 --> 00:43:12,170

maybe something you were UFO crash and

984

00:43:18,880 --> 00:43:14,570

shag harbour rcaf Royal Canadian Air

985

00:43:20,290 --> 00:43:18,890

Force at the time so um not much

986

00:43:22,720 --> 00:43:20,300

happened after that the rest of the

987

00:43:24,490 --> 00:43:22,730

story didn't develop until maybe almost

988

00:43:26,260 --> 00:43:24,500

20-some years later when crystal

989

00:43:28,870 --> 00:43:26,270

stumbled on a guy who had a story to

990

00:43:31,630 --> 00:43:28,880

tell and by that time I was involved and

991

00:43:34,030 --> 00:43:31,640

got involved shortly after with Chris

992

00:43:36,010 --> 00:43:34,040

and we started look further into this

993

00:43:38,380 --> 00:43:36,020

case so the rest you know if you read

994

00:43:40,330 --> 00:43:38,390

the book yeah yep so I'll ask you some

995

00:43:43,960 --> 00:43:40,340

questions along the way here

996

00:43:50,710 --> 00:43:43,970

first of all did anyone take samples of

997

00:43:53,710 --> 00:43:50,720

that yellow foam at all no and nobody

998

00:43:55,750 --> 00:43:53,720

had any reason to at the time but there

999

00:43:57,910 --> 00:43:55,760

is a letter one of the letters that said

1000

00:44:00,550 --> 00:43:57,920

it's too ashamed somebody who a margin

1001  
00:44:02,470 --> 00:44:00,560  
note I believe it was saying was ashamed

1002  
00:44:03,880 --> 00:44:02,480  
somebody didn't think to take a control

1003  
00:44:10,600 --> 00:44:03,890  
bucket over the side and take a sample

1004  
00:44:12,460 --> 00:44:10,610  
but norm Smith now if I recall it was

1005  
00:44:14,020 --> 00:44:12,470  
supposed to put his arms over the side

1006  
00:44:15,370 --> 00:44:14,030  
and tried to lift some of the stuff out

1007  
00:44:17,980 --> 00:44:15,380  
of the water wouldn't come up his arms

1008  
00:44:20,710 --> 00:44:17,990  
came up wet Ron O'Brien told me later on

1009  
00:44:21,760 --> 00:44:20,720  
that whoever he didn't know the name of

1010  
00:44:23,850 --> 00:44:21,770  
the fisherman at the time because

1011  
00:44:28,630 --> 00:44:23,860  
there's maybe six or seven on each boat

1012  
00:44:29,400 --> 00:44:28,640  
young fellas he said he said a rub his

1013  
00:44:31,620 --> 00:44:29,410

arm and

1014

00:44:33,390 --> 00:44:31,630

that his arm to see what was on there

1015

00:44:35,070 --> 00:44:33,400

but it just looked like it was wet they

1016

00:44:36,990 --> 00:44:35,080

didn't seem to me any odor anything to

1017

00:44:39,090 --> 00:44:37,000

it although in general there was an odor

1018

00:44:42,720 --> 00:44:39,100

on the water it's sort of like sulfur a

1019

00:44:44,250 --> 00:44:42,730

salty smell Wow yeah well that would

1020

00:44:49,440 --> 00:44:44,260

kind of make sense with the the yellow

1021

00:44:51,540 --> 00:44:49,450

and do you think that when it landed

1022

00:44:56,130 --> 00:44:51,550

like I heard you say around 800 feet out

1023

00:44:57,870 --> 00:44:56,140

do you think that it quickly sort it

1024

00:45:00,750 --> 00:44:57,880

we'll talk about it later where it goes

1025

00:45:03,810 --> 00:45:00,760

up to toward government point up there

1026

00:45:07,110 --> 00:45:03,820

but do you think it come right away

1027

00:45:12,000 --> 00:45:07,120

kind of moved away sort of toward that

1028

00:45:14,220 --> 00:45:12,010

direction or somewhere well in order for

1029

00:45:16,110 --> 00:45:14,230

it to get away from shag Harbor in

1030

00:45:17,190 --> 00:45:16,120

between odor Island and shaker if you

1031

00:45:18,780 --> 00:45:17,200

look because you're almost on the

1032

00:45:20,340 --> 00:45:18,790

shoulder of Nova Scotia which turning

1033

00:45:24,390 --> 00:45:20,350

around to go into the Gulf and aim there

1034

00:45:25,950 --> 00:45:24,400

and it would have had to get out of that

1035

00:45:27,570 --> 00:45:25,960

area and then make a bend to the left

1036

00:45:28,950 --> 00:45:27,580

and go up the coast to get up to

1037

00:45:31,890 --> 00:45:28,960

Shelburne

1038

00:45:33,300 --> 00:45:31,900

like I said you know is by the time the

1039

00:45:34,290 --> 00:45:33,310

Mounties were there and everybody was

1040

00:45:36,030 --> 00:45:34,300

standing there and the thing went

1041

00:45:38,400 --> 00:45:36,040

underwater was consider it was a

1042

00:45:41,580 --> 00:45:38,410

considerably further distance out on the

1043

00:45:44,220 --> 00:45:41,590

water then then when Laurie Wickens

1044

00:45:47,820 --> 00:45:44,230

first in his French first saw it land on

1045

00:45:50,790 --> 00:45:47,830

the water and although people at the

1046

00:45:52,830 --> 00:45:50,800

time thought it was a crash it seems to

1047

00:45:54,540 --> 00:45:52,840

be more apparent at least to me anyway

1048

00:45:56,160 --> 00:45:54,550

that this was some kind of a control

1049

00:45:59,730 --> 00:45:56,170

landing under the water for whatever

1050

00:46:02,190 --> 00:45:59,740

reason right now of what and what part

1051

00:46:05,130 --> 00:46:02,200

of this whole event

1052

00:46:09,090 --> 00:46:05,140

did it change from a possible airplane

1053

00:46:15,480 --> 00:46:13,560

well you know the air force your desk in

1054

00:46:17,670 --> 00:46:15,490

Ottawa that was Squadron Leader vanes

1055

00:46:19,020 --> 00:46:17,680

had taken the first call on this thing

1056

00:46:21,300 --> 00:46:19,030

and lined up the Rescue Coordination

1057

00:46:23,580 --> 00:46:21,310

Center in Halifax and the assets and

1058

00:46:25,560 --> 00:46:23,590

maritime command you know the Navy the

1059

00:46:29,160 --> 00:46:25,570

whole nine yards and got them all put

1060

00:46:32,070 --> 00:46:29,170

together it was actually the Navy

1061

00:46:36,510 --> 00:46:32,080

I'm sorry the Air Force a document that

1062

00:46:39,690 --> 00:46:36,520

has UFO underlined it's a 1-2-3

1063

00:46:43,020 --> 00:46:39,700

underneath marked on the on the document

1064

00:46:46,800 --> 00:46:43,030

and it's squadron leaders name is above

1065

00:46:48,810 --> 00:46:46,810

and then they started calling it the

1066

00:46:52,170 --> 00:46:48,820

dark object and then there was UFO and

1067

00:46:53,760 --> 00:46:52,180

one of one of the documents so nobody in

1068

00:46:55,770 --> 00:46:53,770

the area would have thought probably

1069

00:46:57,570 --> 00:46:55,780

even thought to call it a UFO I don't

1070

00:47:00,660 --> 00:46:57,580

even think they'd really experience much

1071

00:47:01,710 --> 00:47:00,670

in that area before shag Harbor you know

1072

00:47:03,900 --> 00:47:01,720

they might have might have heard about

1073

00:47:05,090 --> 00:47:03,910

it on TV or something that you had time

1074

00:47:07,650 --> 00:47:05,100

but it's not the kind of thing that

1075

00:47:09,840 --> 00:47:07,660

they'd sort of you know get involved

1076  
00:47:11,880 --> 00:47:09,850  
with or know anything about maybe ghost

1077  
00:47:15,390 --> 00:47:11,890  
stories down in that area but not so

1078  
00:47:18,900 --> 00:47:15,400  
much about UFOs right so if it went to

1079  
00:47:21,270 --> 00:47:18,910  
UFO went because the the media made it

1080  
00:47:25,170 --> 00:47:21,280  
that way but first of all it was the was

1081  
00:47:27,810 --> 00:47:25,180  
the air force that brought up the the

1082  
00:47:29,970 --> 00:47:27,820  
idea of a UFO but again it was an

1083  
00:47:31,500 --> 00:47:29,980  
unidentified flying object so it's not

1084  
00:47:35,010 --> 00:47:31,510  
like they're making out anything to be

1085  
00:47:37,350 --> 00:47:35,020  
an alien object although this thing

1086  
00:47:41,760 --> 00:47:37,360  
certainly has all all the stink on it

1087  
00:47:43,140 --> 00:47:41,770  
for an alien object but there there you

1088  
00:47:45,480 --> 00:47:43,150

go that's that's what I have for you

1089

00:47:47,460 --> 00:47:45,490

right now I have my own personal ideas

1090

00:47:50,610 --> 00:47:47,470

or later on maybe but I haven't probably

1091

00:47:52,830 --> 00:47:50,620

developed them yet oh okay yeah yeah I

1092

00:47:55,530 --> 00:47:52,840

know it kind of gives the UFO a bad name

1093

00:47:58,830 --> 00:47:55,540

and that's why a lot of people are using

1094

00:48:00,390 --> 00:47:58,840

UAP because people automatically think

1095

00:48:03,200 --> 00:48:00,400

oh you know you're calling it an alien

1096

00:48:05,250 --> 00:48:03,210

but really the term UFO just means

1097

00:48:07,170 --> 00:48:05,260

unidentified flying object and that's

1098

00:48:11,160 --> 00:48:07,180

really all it does mean

1099

00:48:13,590 --> 00:48:11,170

and I remember Senate however you say

1100

00:48:16,080 --> 00:48:13,600

his name you know took a lot of grief

1101  
00:48:18,440 --> 00:48:16,090  
and he said well it was an unidentified

1102  
00:48:21,570 --> 00:48:18,450  
flying object object that was during the

1103  
00:48:28,560 --> 00:48:21,580  
2008 campaign here in the States

1104  
00:48:32,610 --> 00:48:28,570  
a politician know so one of the things I

1105  
00:48:35,370 --> 00:48:32,620  
thought of is what kind of a myths are

1106  
00:48:38,040 --> 00:48:35,380  
out there that you would like to squash

1107  
00:48:39,690 --> 00:48:38,050  
in other words up other some stories out

1108  
00:48:43,070 --> 00:48:39,700  
there that are untrue that are told

1109  
00:48:51,960 --> 00:48:49,260  
um such as I yeah you know I just I just

1110  
00:48:54,450 --> 00:48:51,970  
wondered if you if you have heard things

1111  
00:48:56,730 --> 00:48:54,460  
over the years that you think that you

1112  
00:48:57,930 --> 00:48:56,740  
know that aren't true that people have

1113  
00:49:00,570 --> 00:48:57,940

and the reason I'm bringing this up

1114

00:49:03,750 --> 00:49:00,580

because that happens with big cases like

1115

00:49:06,420 --> 00:49:03,760

Roswell or Phoenix lights you know

1116

00:49:08,790 --> 00:49:06,430

there's always some side stories that

1117

00:49:11,550 --> 00:49:08,800

are not you know not accurate at all

1118

00:49:12,990 --> 00:49:11,560

that kind of gets spread by Saylt ABLOY

1119

00:49:18,590 --> 00:49:13,000

soar something is there anything like

1120

00:49:21,090 --> 00:49:18,600

that with shag harbour um well I'm

1121

00:49:23,010 --> 00:49:21,100

actually you know I I don't ever

1122

00:49:26,070 --> 00:49:23,020

actually recall seeing anything where it

1123

00:49:28,050 --> 00:49:26,080

was egregiously off the off the mark I

1124

00:49:29,880 --> 00:49:28,060

mean there's been some conjecture around

1125

00:49:32,490 --> 00:49:29,890

you know the very first office

1126

00:49:34,710 --> 00:49:32,500

off-the-cuff remarks by some of the

1127

00:49:37,350 --> 00:49:34,720

people all was some fishermen shooting

1128

00:49:41,700 --> 00:49:37,360

around flares which was nonsense of

1129

00:49:45,870 --> 00:49:41,710

course you know and and one of the other

1130

00:49:47,670 --> 00:49:45,880

ones was a some kind of a sonar buoy or

1131

00:49:50,190 --> 00:49:47,680

something show that came up at one of

1132

00:49:52,530 --> 00:49:50,200

the conferences we head down was

1133

00:49:54,030 --> 00:49:52,540

actually more like a talk we gave down

1134

00:49:56,070 --> 00:49:54,040

and shaker every years ago at the

1135

00:49:58,500 --> 00:49:56,080

elementary school that's right next to

1136

00:49:59,970 --> 00:49:58,510

the water where this occurred and I

1137

00:50:03,090 --> 00:49:59,980

would you know had a gymnasium big

1138

00:50:04,740 --> 00:50:03,100

gymnasium of 300 people here I guess and

1139

00:50:07,410 --> 00:50:04,750

this one guy jumped up and said you know

1140

00:50:10,680 --> 00:50:07,420

he said he'd found a sonar buoy on the

1141

00:50:12,300 --> 00:50:10,690

shore and he thought was that's what

1142

00:50:13,920 --> 00:50:12,310

they'd seen floating in the water well

1143

00:50:15,900 --> 00:50:13,930

you know it strangely enough when I was

1144

00:50:17,250 --> 00:50:15,910

a kid around 13 years old we used to go

1145

00:50:18,990 --> 00:50:17,260

down to the dump

1146

00:50:20,730 --> 00:50:19,000

there was a junkyard that's man's

1147

00:50:22,080 --> 00:50:20,740

junkyard where we used to be able to

1148

00:50:24,390 --> 00:50:22,090

down there and pick up all kinds of odds

1149

00:50:26,940 --> 00:50:24,400

and ends hope you had paid for them but

1150

00:50:29,790 --> 00:50:26,950

what they did have was a because

1151

00:50:31,440 --> 00:50:29,800

hellofax is a military you know Naval

1152

00:50:34,020 --> 00:50:31,450

Base Air Force Base and everything else

1153

00:50:36,690 --> 00:50:34,030

here they used to drop Soniya buoys

1154

00:50:40,380 --> 00:50:36,700

whenever practicing or even tracking

1155

00:50:42,599 --> 00:50:40,390

subs in the ODE on the Atlantic and the

1156

00:50:44,880 --> 00:50:42,609

use once or some of the old ones they

1157

00:50:46,859 --> 00:50:44,890

just get rid of them and we could buy

1158

00:50:48,630 --> 00:50:46,869

them for 75 cents I had four or five of

1159

00:50:51,330 --> 00:50:48,640

them at the time these things are three

1160

00:50:53,250 --> 00:50:51,340

feet long maybe about eight inches in

1161

00:50:55,920 --> 00:50:53,260

diameter with a little tiny little amber

1162

00:50:57,599 --> 00:50:55,930

yellow light on it that was not meant to

1163

00:50:59,160 --> 00:50:57,609

be seen over a great distance it was

1164

00:51:00,810 --> 00:50:59,170

meant to be seen from here you know from

1165

00:51:02,670 --> 00:51:00,820

the aircraft that dropped it just to

1166

00:51:04,500 --> 00:51:02,680

keep track of the thing and then after a

1167

00:51:05,849 --> 00:51:04,510

while the certain little plugs would

1168

00:51:07,760 --> 00:51:05,859

dissolve and the thing would sink to the

1169

00:51:10,970 --> 00:51:07,770

bottom after its usefulness was over

1170

00:51:13,490 --> 00:51:10,980

but I mean there's no way anybody would

1171

00:51:14,840 --> 00:51:13,500

mistake this and you know 18 to 24

1172

00:51:17,000 --> 00:51:14,850

people would stand around including

1173

00:51:18,950 --> 00:51:17,010

three months and look coded this tiny

1174

00:51:21,530 --> 00:51:18,960

little light they could even see from

1175

00:51:23,450 --> 00:51:21,540

you know probably more than 100 feet

1176

00:51:26,750 --> 00:51:23,460

away and claim the devil

1177

00:51:28,250 --> 00:51:26,760

an anomaly you know and certainly wasn't

1178

00:51:29,810 --> 00:51:28,260

what the people see you know the the

1179

00:51:31,600 --> 00:51:29,820

witnesses saw coming down out of the sky

1180

00:51:34,130 --> 00:51:31,610

which was four three and four and five

1181

00:51:39,260 --> 00:51:34,140

sequentially flashing lights in a line

1182

00:51:41,030 --> 00:51:39,270

that's probably the the one that annoyed

1183

00:51:42,620 --> 00:51:41,040

me more than anything but I've never

1184

00:51:44,720 --> 00:51:42,630

really heard anybody come up with any

1185

00:51:47,000 --> 00:51:44,730

kind of an off-the-wall off-the-wall

1186

00:51:48,560 --> 00:51:47,010

story about what actually happened in

1187

00:51:50,360 --> 00:51:48,570

shag harbour you're going to get the

1188

00:51:51,800 --> 00:51:50,370

usual thing well we you know what it was

1189

00:51:54,590 --> 00:51:51,810

it was probably a secret military

1190

00:51:56,390 --> 00:51:54,600

aircraft that's the other one I've been

1191

00:51:59,870 --> 00:51:56,400

a pilot for 34 years but I've been

1192

00:52:02,420 --> 00:51:59,880

a-near and I'm an aviation writer I'm a

1193

00:52:04,490 --> 00:52:02,430

journalist I write about aviation and

1194

00:52:06,170 --> 00:52:04,500

I've been doing that for ten years solid

1195

00:52:08,240 --> 00:52:06,180

I was doing a regular column for ten

1196

00:52:11,570 --> 00:52:08,250

years for Canadian magazine that's

1197

00:52:13,160 --> 00:52:11,580

aviation and a deal and all of that

1198

00:52:15,020 --> 00:52:13,170

you know all kinds of different aircraft

1199

00:52:18,230 --> 00:52:15,030

types of aircraft I know what's up there

1200

00:52:19,910 --> 00:52:18,240

flying and we didn't have we didn't have

1201

00:52:22,100 --> 00:52:19,920

it in the Second World War we didn't

1202

00:52:25,100 --> 00:52:22,110

have it after the Second World War was

1203

00:52:26,780 --> 00:52:25,110

over with Kenneth Arnold and and he had

1204

00:52:28,730 --> 00:52:26,790

you know Roswell in some of these other

1205

00:52:30,050 --> 00:52:28,740

places and we don't know at least of

1206

00:52:32,540 --> 00:52:30,060

course we had some now we have some

1207

00:52:35,270 --> 00:52:32,550

stealth aircraft but I mean there we

1208

00:52:37,610 --> 00:52:35,280

know what they are there's only 19 of

1209

00:52:40,490 --> 00:52:37,620

those stealth bombers two of them

1210

00:52:41,990 --> 00:52:40,500

already crashed and in the old stealth

1211

00:52:43,760 --> 00:52:42,000

fighter well that's a joke anyway those

1212

00:52:47,530 --> 00:52:43,770

things weren't even supersonic for god

1213

00:52:50,300 --> 00:52:47,540

sakes but I mean those kind of

1214

00:52:52,880 --> 00:52:50,310

explanations is giving as a it's their

1215

00:52:56,360 --> 00:52:52,890

their secret military aircraft that's

1216

00:52:58,070 --> 00:52:56,370

what they are well I mean they thought

1217

00:52:59,540 --> 00:52:58,080

that's what they were back at the end of

1218

00:53:01,790 --> 00:52:59,550

the Second World War they thought that's

1219

00:53:03,380 --> 00:53:01,800

what it was during the during the war in

1220

00:53:06,890 --> 00:53:03,390

the first world or the Second World War

1221

00:53:10,850 --> 00:53:06,900

but nothing that was ever ever ever able

1222

00:53:12,410 --> 00:53:10,860

to be proved you know and there just

1223

00:53:14,060 --> 00:53:12,420

wasn't anything around that could match

1224

00:53:15,740 --> 00:53:14,070

what these things could do or the size

1225

00:53:17,420 --> 00:53:15,750

of them in some cases you know even

1226  
00:53:19,190 --> 00:53:17,430  
during the Second World War some of

1227  
00:53:21,450 --> 00:53:19,200  
these objects were recorded as being

1228  
00:53:25,079 --> 00:53:21,460  
eight hundred or thousand feet long

1229  
00:53:28,829 --> 00:53:25,089  
one was a half-mile and in length you

1230  
00:53:30,420 --> 00:53:28,839  
know but um those but unfortunately with

1231  
00:53:32,280 --> 00:53:30,430  
the shaker burr incident I haven't seen

1232  
00:53:35,549 --> 00:53:32,290  
very much I don't think I've seen

1233  
00:53:37,680 --> 00:53:35,559  
anything where they've actually tried to

1234  
00:53:39,000 --> 00:53:37,690  
make up another story surrounding it you

1235  
00:53:43,500 --> 00:53:39,010  
know saying this is what happened you

1236  
00:53:46,549 --> 00:53:43,510  
know never once you you know space as

1237  
00:53:48,660 --> 00:53:46,559  
they call him nowadays species yes

1238  
00:53:51,720 --> 00:53:48,670

crawling around the area even though

1239

00:53:54,329 --> 00:53:51,730

there was a allusion to it but by you

1240

00:53:57,089 --> 00:53:54,339

know some of the witnesses on the other

1241

00:53:58,829 --> 00:53:57,099

end of this thing up at government point

1242

00:54:02,010 --> 00:53:58,839

oh yes yeah I want to talk about that in

1243

00:54:04,859 --> 00:54:02,020

a little bit going back to the yellow

1244

00:54:07,799 --> 00:54:04,869

foam one more time did that make up

1245

00:54:10,530 --> 00:54:07,809

before dissipated was that kind of

1246

00:54:12,750 --> 00:54:10,540

almost like a strip like could that

1247

00:54:16,950 --> 00:54:12,760

possibly have been a trail of the

1248

00:54:19,530 --> 00:54:16,960

direction that the say if it was a USL

1249

00:54:22,849 --> 00:54:19,540

underwater moving could that have been a

1250

00:54:26,760 --> 00:54:22,859

trail of that that could have left

1251

00:54:29,180 --> 00:54:26,770

well that's conjecture now but probably

1252

00:54:31,950 --> 00:54:29,190

pretty good one I you know that's that

1253

00:54:34,620 --> 00:54:31,960

it's it's associated with it because

1254

00:54:36,089 --> 00:54:34,630

nobody knew what it was and nobody knew

1255

00:54:37,589 --> 00:54:36,099

what the other thing was she sort of put

1256

00:54:41,819 --> 00:54:37,599

the two unknowns together and come up

1257

00:54:43,770 --> 00:54:41,829

with a one big unknown and that is

1258

00:54:45,930 --> 00:54:43,780

pretty much to thinking you know that

1259

00:54:47,760 --> 00:54:45,940

whatever this was it was a byproduct of

1260

00:54:49,799 --> 00:54:47,770

what you know this object that had gone

1261

00:54:52,789 --> 00:54:49,809

into onto the water and then went under

1262

00:54:55,799 --> 00:54:52,799

the water and I can't refute it

1263

00:54:57,210 --> 00:54:55,809

considering the fishermen that I talked

1264

00:55:03,930 --> 00:54:57,220

to that were involved well you know

1265

00:55:05,370 --> 00:55:03,940

norms Nathan for one the I'm trying to

1266

00:55:07,470 --> 00:55:05,380

think one of the other guys I talked to

1267

00:55:09,329 --> 00:55:07,480

also saw that you know they thought when

1268

00:55:10,620 --> 00:55:09,339

they went out there but they couldn't

1269

00:55:13,640 --> 00:55:10,630

they didn't know what to make of it they

1270

00:55:16,829 --> 00:55:13,650

said you know just definitely was not

1271

00:55:18,900 --> 00:55:16,839

was not sea foam you know which is

1272

00:55:21,210 --> 00:55:18,910

patchy to begin with and it was it was

1273

00:55:24,120 --> 00:55:21,220

about a half-mile long by about 80 feet

1274

00:55:26,490 --> 00:55:24,130

wide a strip of it and eighty feet is

1275

00:55:28,079 --> 00:55:26,500

not much longer than 60 60 feet wide you

1276

00:55:30,180 --> 00:55:28,089

know and maybe you know just spread out

1277

00:55:31,530 --> 00:55:30,190

a bit or whatever who knows I can't say

1278

00:55:35,250 --> 00:55:31,540

for sure that it came from this thing

1279

00:55:36,900 --> 00:55:35,260

but you know it it sort of has a

1280

00:55:38,430 --> 00:55:36,910

you know all the earmarks had maybe

1281

00:55:40,530 --> 00:55:38,440

being some kind of eye product or

1282

00:55:43,290 --> 00:55:40,540

whatever this thing was or whatever it

1283

00:55:45,720 --> 00:55:43,300

was doing but whatever it was it didn't

1284

00:55:48,600 --> 00:55:45,730

seem to harm anybody it didn't dissipate

1285

00:55:50,460 --> 00:55:48,610

it as you mentioned and and that was the

1286

00:55:52,320 --> 00:55:50,470

end of it it was unfortunately somebody

1287

00:55:55,110 --> 00:55:52,330

didn't try to take a sample of it and

1288

00:55:56,940 --> 00:55:55,120

you know seal it off and then maybe have

1289

00:55:59,880 --> 00:55:56,950

it examined later might have come

1290

00:56:01,890 --> 00:55:59,890

something okay what about you know some

1291

00:56:04,350 --> 00:56:01,900

people well I don't even know if they

1292

00:56:06,260 --> 00:56:04,360

had Chinese lanterns at the time but you

1293

00:56:10,470 --> 00:56:06,270

mentioned that someone mentioned flares

1294

00:56:12,960 --> 00:56:10,480

was that is that an ongoing thing that

1295

00:56:15,840 --> 00:56:12,970

people are actually saying it was or is

1296

00:56:18,090 --> 00:56:15,850

that just what now somebody mentioned it

1297

00:56:19,200 --> 00:56:18,100

at the time and then one of the reports

1298

00:56:22,500 --> 00:56:19,210

said that it might have been some

1299

00:56:25,320 --> 00:56:22,510

fishermen shooting some flares off and

1300

00:56:27,090 --> 00:56:25,330

it just make a nice room you know then

1301  
00:56:29,340 --> 00:56:27,100  
when they wrote on the water not there

1302  
00:56:32,010 --> 00:56:29,350  
was no in the only light was a pale

1303  
00:56:34,110 --> 00:56:32,020  
yellow light on the object as for calm

1304  
00:56:36,090 --> 00:56:34,120  
then driving along highway number three

1305  
00:56:39,540 --> 00:56:36,100  
inland who was shooting Claire's inland

1306  
00:56:40,800 --> 00:56:39,550  
and it just you know I'm familiar with

1307  
00:56:44,160 --> 00:56:40,810  
flares up you know I've been around

1308  
00:56:45,750 --> 00:56:44,170  
those things all my life and okay part

1309  
00:56:46,920 --> 00:56:45,760  
of my family were fishermen to begin

1310  
00:56:50,430 --> 00:56:46,930  
with you know particularly when I was

1311  
00:56:51,750 --> 00:56:50,440  
younger for for one thing if they had

1312  
00:56:54,270 --> 00:56:51,760  
them they'd use them on the boat they

1313  
00:56:55,950 --> 00:56:54,280

were just and this is a weak one but I

1314

00:56:57,390 --> 00:56:55,960

mean they're just going to fire these

1315

00:56:58,710 --> 00:56:57,400

things off for the sake of firing them

1316

00:57:04,110 --> 00:56:58,720

off because we had to pay money right

1317

00:57:06,150 --> 00:57:04,120

and it's there just a flare goes up arcs

1318

00:57:07,800 --> 00:57:06,160

over comes back down burns out on this

1319

00:57:10,860 --> 00:57:07,810

way down that's pretty much what it does

1320

00:57:13,020 --> 00:57:10,870

and they're red you know and there's

1321

00:57:15,120 --> 00:57:13,030

just no relationship to what what the

1322

00:57:17,160 --> 00:57:15,130

witnesses said and not we often find

1323

00:57:21,720 --> 00:57:17,170

that in ufology you know I hate that

1324

00:57:23,730 --> 00:57:21,730

word but there's go that people try to I

1325

00:57:25,920 --> 00:57:23,740

watched one of those programs in

1326  
00:57:28,920 --> 00:57:25,930  
national community and I do opposed to

1327  
00:57:31,110 --> 00:57:28,930  
classified and they had a an astronomer

1328  
00:57:32,610 --> 00:57:31,120  
from Toronto from Toronto York

1329  
00:57:35,550 --> 00:57:32,620  
University I think it was on there

1330  
00:57:38,180 --> 00:57:35,560  
talking about you know what he thought

1331  
00:57:41,100 --> 00:57:38,190  
people were seeing well he had no

1332  
00:57:43,290 --> 00:57:41,110  
conception of what the reports say or

1333  
00:57:45,030 --> 00:57:43,300  
you know what we've dealt with you know

1334  
00:57:46,770 --> 00:57:45,040  
delved into over the years and I'm not

1335  
00:57:48,960 --> 00:57:46,780  
talking about Shea Gerber I'm just

1336  
00:57:50,849 --> 00:57:48,970  
talking in general that you know these

1337  
00:57:54,030 --> 00:57:50,859  
are talking about Venus and Saturn you

1338  
00:57:56,310 --> 00:57:54,040

know and and Jupiter in the moon and all

1339

00:57:59,940 --> 00:57:56,320

this is plain foolishness you know they

1340

00:58:01,650 --> 00:57:59,950

just don't match into what the witness

1341

00:58:03,930 --> 00:58:01,660

is saying and you see that quite often

1342

00:58:06,480 --> 00:58:03,940

and it is quite annoying actually

1343

00:58:08,370 --> 00:58:06,490

and these people are taking this experts

1344

00:58:10,260 --> 00:58:08,380

when they're really not in that area I I

1345

00:58:13,830 --> 00:58:10,270

have talked about that a number of times

1346

00:58:18,290 --> 00:58:13,840

in the show where you know the the story

1347

00:58:23,730 --> 00:58:18,300

that you know the explanation that has

1348

00:58:26,310 --> 00:58:23,740

been produced is so far off from and

1349

00:58:28,830 --> 00:58:26,320

there was another Jordan Bonaparte

1350

00:58:35,130 --> 00:58:28,840

talked about this other major case and

1351

00:58:37,080 --> 00:58:35,140

it was a 1970s where someone said it was

1352

00:58:39,810 --> 00:58:37,090

Venus or something and it has you know

1353

00:58:41,880 --> 00:58:39,820

how could Venus move and turn and have

1354

00:58:45,030 --> 00:58:41,890

flashing lights and you know just so far

1355

00:58:46,920 --> 00:58:45,040

off it's kind of well they they have

1356

00:58:48,450 --> 00:58:46,930

tried to attribute Auto Kinesis to that

1357

00:58:50,849 --> 00:58:48,460

you know the eyeballs one is picked

1358

00:58:52,589 --> 00:58:50,859

fixed on a oh yeah and the night sky and

1359

00:58:54,690 --> 00:58:52,599

on a point of light that your eyeball

1360

00:58:56,490 --> 00:58:54,700

actually twitches around tests know but

1361

00:59:01,320 --> 00:58:56,500

these things we're doing you know well

1362

00:59:05,490 --> 00:59:01,330

yeah now was at the time of shag Harbor

1363

00:59:09,839 --> 00:59:05,500

was there any type of UFO flap in in

1364

00:59:11,339 --> 00:59:09,849

that area at all well that's the one I

1365

00:59:14,790 --> 00:59:11,349

was talking about that no yeah but I

1366

00:59:17,730 --> 00:59:14,800

mean oh I mean you know before and after

1367

00:59:21,900 --> 00:59:17,740

was there other UFO seen before and

1368

00:59:24,359 --> 00:59:21,910

after that that well yeah but no I

1369

00:59:26,370 --> 00:59:24,369

wouldn't say it's a flap you know flaps

1370

00:59:28,020 --> 00:59:26,380

are pretty intense they go on for you

1371

00:59:31,070 --> 00:59:28,030

know a month or two months maybe a whole

1372

00:59:34,200 --> 00:59:31,080

year and we've had them in this area but

1373

00:59:36,160 --> 00:59:34,210

it but they seem to run generally anyway

1374

00:59:39,910 --> 00:59:36,170

and just a

1375

00:59:41,500 --> 00:59:39,920

in saying North America agency you know

1376  
00:59:44,110 --> 00:59:41,510  
a flap and then there might be one over

1377  
00:59:46,150 --> 00:59:44,120  
around New York you know it's strange to

1378  
00:59:47,620 --> 00:59:46,160  
think that one of the things we had to

1379  
00:59:48,880 --> 00:59:47,630  
contend with years ago was after the

1380  
00:59:54,250 --> 00:59:48,890  
movie Close Encounters of the Third Kind

1381  
00:59:56,230 --> 00:59:54,260  
came out years after that the naysayers

1382  
00:59:58,090 --> 00:59:56,240  
would say well you know what that was

1383  
00:59:59,770 --> 00:59:58,100  
all about all these UFOs that people are

1384  
01:00:02,110 --> 00:59:59,780  
saying they saw the movie and now

1385  
01:00:02,950 --> 01:00:02,120  
everybody's seen UFOs but in fact that

1386  
01:00:05,050 --> 01:00:02,960  
was not true

1387  
01:00:07,990 --> 01:00:05,060  
the reports of unidentified flying

1388  
01:00:10,180 --> 01:00:08,000

objects one went down after the movie

1389

01:00:11,380 --> 01:00:10,190

came by thought and you know what more

1390

01:00:12,790 --> 01:00:11,390

people were going to probably outside

1391

01:00:18,250 --> 01:00:12,800

looking at the sky than there were

1392

01:00:20,800 --> 01:00:18,260

before but yet they saw less UFOs in in

1393

01:00:24,900 --> 01:00:20,810

that general time frame than they had

1394

01:00:27,340 --> 01:00:24,910

before so well yeah there goes that one

1395

01:00:30,610 --> 01:00:27,350

here's a question that came into our

1396

01:00:34,330 --> 01:00:30,620

forum do you think shag Harbor incident

1397

01:00:36,820 --> 01:00:34,340

was an actual crash or that the object

1398

01:00:43,360 --> 01:00:36,830

instead landed gently on the water and

1399

01:00:45,340 --> 01:00:43,370

then intentionally submerged I think it

1400

01:00:47,050 --> 01:00:45,350

landed gently on the water and intensely

1401

01:00:49,270 --> 01:00:47,060

submerged I don't know I did it so

1402

01:00:50,950 --> 01:00:49,280

dramatically by coming down the highway

1403

01:00:52,870 --> 01:00:50,960

as it did but maybe it was making an

1404

01:00:55,240 --> 01:00:52,880

approach I don't know I mean we all do

1405

01:00:56,980 --> 01:00:55,250

it with aircraft when we're landing you

1406

01:01:02,850 --> 01:00:56,990

know just come in and land you you make

1407

01:01:07,840 --> 01:01:05,650

evidence right now anyway to say that

1408

01:01:10,480 --> 01:01:07,850

the thing landed gently on the water one

1409

01:01:13,180 --> 01:01:10,490

of our one of them witnesses since

1410

01:01:15,790 --> 01:01:13,190

passed away but he told his daughter on

1411

01:01:17,200 --> 01:01:15,800

his death bed when he was 91 years old

1412

01:01:19,600 --> 01:01:17,210

he was dying to brain cancer or

1413

01:01:22,510 --> 01:01:19,610

something I sorry that was in 1991 he

1414

01:01:25,180 --> 01:01:22,520

was dying to brain cancer but he'd he'd

1415

01:01:26,620 --> 01:01:25,190

he'd alluded to it years before and then

1416

01:01:28,870 --> 01:01:26,630

he came back years later when he was

1417

01:01:31,300 --> 01:01:28,880

dying to say that this thing was what he

1418

01:01:32,890 --> 01:01:31,310

saw he went into a little more detail

1419

01:01:35,740 --> 01:01:32,900

and he actually had pulled up alongside

1420

01:01:39,460 --> 01:01:35,750

the Irish moss plant and he saw two

1421

01:01:41,230 --> 01:01:39,470

moons and he thought no that's how it

1422

01:01:43,540 --> 01:01:41,240

would the other moon come from we got

1423

01:01:45,490 --> 01:01:43,550

outside to have a look and then one moon

1424

01:01:47,500 --> 01:01:45,500

departed you know from the side of the

1425

01:01:48,880 --> 01:01:47,510

other one and went down gently landed on

1426

01:01:51,249 --> 01:01:48,890

the water

1427

01:01:52,959 --> 01:01:51,259

beside him and that was at the Irish

1428

01:01:54,609 --> 01:01:52,969

moss plant and then all of a sudden the

1429

01:01:57,009 --> 01:01:54,619

car component a lot and as he got

1430

01:01:58,870 --> 01:01:57,019

nervous then because he was involved in

1431

01:02:00,699 --> 01:01:58,880

a tryst with a woman down in the woods

1432

01:02:01,749 --> 01:02:00,709

Harbor and he was married with a woman

1433

01:02:03,789 --> 01:02:01,759

that was further away the other

1434

01:02:08,339 --> 01:02:03,799

direction so he didn't want anybody know

1435

01:02:13,959 --> 01:02:08,349

he's in that area and at the same time I

1436

01:02:18,249 --> 01:02:13,969

had been told by one of my friends down

1437

01:02:20,969 --> 01:02:18,259

there I'm trying to remember his first

1438

01:02:23,890 --> 01:02:20,979

name his last name is Shan Doug sorry

1439

01:02:25,599 --> 01:02:23,900

his father had been one of them there is

1440

01:02:27,039 --> 01:02:25,609

a uncle I should say had been one of the

1441

01:02:29,529 --> 01:02:27,049

fishermen who were the first two

1442

01:02:33,459 --> 01:02:29,539

fishermen tope Bradford she and his name

1443

01:02:35,079 --> 01:02:33,469

was and he told me that he had a he'd

1444

01:02:37,269 --> 01:02:35,089

contact me by phone said he had a

1445

01:02:39,729 --> 01:02:37,279

fisherman friend down there who would

1446

01:02:41,709 --> 01:02:39,739

actually seen the thing himself that

1447

01:02:44,079 --> 01:02:41,719

night but he was really a young lady

1448

01:02:45,969 --> 01:02:44,089

friend and he didn't want to mention

1449

01:02:47,680 --> 01:02:45,979

anything about it mentioned to anybody

1450

01:02:49,569 --> 01:02:47,690

were you know for it to really get out

1451

01:02:51,579 --> 01:02:49,579

because he didn't want her to be

1452

01:02:57,579 --> 01:02:51,589

embarrassed they were only like teenager

1453

01:03:00,009 --> 01:02:57,589

you know 17 18 maybe 19 so I said oh

1454

01:03:03,160 --> 01:03:00,019

that's nice to know so anyway again back

1455

01:03:04,569 --> 01:03:03,170

at that same a little school I was

1456

01:03:07,779 --> 01:03:04,579

telling about where we had the show that

1457

01:03:10,089 --> 01:03:07,789

night or the conference this mean Kris

1458

01:03:14,319 --> 01:03:10,099

talking Boccia Gerber

1459

01:03:18,729 --> 01:03:14,329

I bought this aqua boat this far having

1460

01:03:22,539 --> 01:03:18,739

had a this was with this girl when they

1461

01:03:25,359 --> 01:03:22,549

saw this thing land on the water and and

1462

01:03:26,380 --> 01:03:25,369

I said it was he didn't want to mention

1463

01:03:28,120 --> 01:03:26,390

anything because he didn't want to

1464

01:03:30,759 --> 01:03:28,130

embarrass her this woman stands up in

1465

01:03:32,559 --> 01:03:30,769

the audience said well that was me so

1466

01:03:35,109 --> 01:03:32,569

she Oded herself read then and there and

1467

01:03:36,910 --> 01:03:35,119

so I interviewed her and we got her name

1468

01:03:39,189 --> 01:03:36,920

and everything and she said we were

1469

01:03:40,599 --> 01:03:39,199

parked in the car at the end the other

1470

01:03:43,209 --> 01:03:40,609

end of the Irish moss plant where the

1471

01:03:45,160 --> 01:03:43,219

other cars came in between there and and

1472

01:03:46,749 --> 01:03:45,170

dirt bank that's there that's quite high

1473

01:03:49,269 --> 01:03:46,759

it's probably about 20 feet high there

1474

01:03:54,219 --> 01:03:49,279

and we were in there you know in the car

1475

01:03:56,140 --> 01:03:54,229

and all of a sudden this thing light

1476

01:03:57,370 --> 01:03:56,150

came around from behind and we lost

1477

01:04:01,780 --> 01:03:57,380

sight of it then it came down and landed

1478

01:04:07,200 --> 01:04:03,820

she said it was very frightening and of

1479

01:04:09,490 --> 01:04:07,210

course she said we were you know we want

1480

01:04:11,230 --> 01:04:09,500

younger there I don't know I heard a

1481

01:04:13,530 --> 01:04:11,240

plaque blank out for a second

1482

01:04:22,050 --> 01:04:13,540

no I can hear you yeah yeah same time

1483

01:04:24,910 --> 01:04:22,060

okay and they they had to wait and go to

1484

01:04:26,410 --> 01:04:24,920

until it's sort of the busyness died

1485

01:04:28,120 --> 01:04:26,420

down at the other end of the Irish moss

1486

01:04:29,740 --> 01:04:28,130

plant which is only about forty feet

1487

01:04:33,130 --> 01:04:29,750

square of I should say animal two

1488

01:04:34,600 --> 01:04:33,140

stories high and because they and then

1489

01:04:36,070 --> 01:04:34,610

they sort of snuck out and joined the

1490

01:04:37,330 --> 01:04:36,080

crowd after that but they didn't want

1491

01:04:38,740 --> 01:04:37,340

anybody to know what they're up to well

1492

01:04:41,050 --> 01:04:38,750

or the other end of the building there

1493

01:04:42,610 --> 01:04:41,060

and if when everybody else showed up so

1494

01:04:45,610 --> 01:04:42,620

at this at the same time there was

1495

01:04:47,620 --> 01:04:45,620

probably mr. Nickerson that's just a I I

1496

01:04:49,000 --> 01:04:47,630

don't have his first name right now it's

1497

01:04:51,160 --> 01:04:49,010

in the book actually if you look if you

1498

01:04:53,590 --> 01:04:51,170

read the book dark objects names in

1499

01:04:55,210 --> 01:04:53,600

there I was sitting on the opposite side

1500

01:04:56,800 --> 01:04:55,220

of the road these other two were at the

1501

01:04:58,180 --> 01:04:56,810

other end of the Irish moss plant

1502

01:05:00,220 --> 01:04:58,190

probably no more than hundred fifty feet

1503

01:05:02,860 --> 01:05:00,230

away from them in the car and they saw

1504

01:05:06,940 --> 01:05:02,870

the thing come down land on the water so

1505

01:05:08,410 --> 01:05:06,950

I and as for the two lights in the sky I

1506

01:05:09,910 --> 01:05:08,420

already mentioned that there was no moon

1507

01:05:12,730 --> 01:05:09,920

that night the monk the moon said at

1508

01:05:17,590 --> 01:05:12,740

5:30 that evening and this was 11:00

1509

01:05:20,200 --> 01:05:17,600

11:30 or almost 11:30 so um he didn't

1510

01:05:22,270 --> 01:05:20,210

see two moons he saw he saw two

1511

01:05:23,650 --> 01:05:22,280

unidentifieds out there and not he

1512

01:05:25,480 --> 01:05:23,660

didn't know what they were but that's

1513

01:05:27,700 --> 01:05:25,490

pretty much borne out by some of the

1514

01:05:30,130 --> 01:05:27,710

other information I was going on over

1515

01:05:33,430 --> 01:05:30,140

enough Bay of Fundy which is across the

1516

01:05:35,920 --> 01:05:33,440

province maybe 70 miles or so and by

1517

01:05:38,380 --> 01:05:35,930

other fishermen who were hearing seniors

1518

01:05:41,430 --> 01:05:38,390

out on the Bay of Fundy and in an RCMP

1519

01:05:43,750 --> 01:05:41,440

officer with a three game wardens that

1520

01:05:47,650 --> 01:05:43,760

Rover in a clearing in South Maitland

1521

01:05:49,540 --> 01:05:47,660

and um people listening to fishermen on

1522

01:05:52,980 --> 01:05:49,550

the marine radio that they're in their

1523

01:05:57,150 --> 01:05:52,990

cottage down in or in their home down in

1524

01:05:59,380 --> 01:05:57,160

wedge port which is if you look at the

1525

01:06:02,050 --> 01:05:59,390

southwest coast of Nova Scotia you'll

1526

01:06:05,050 --> 01:06:02,060

see a long thin arm sort of sticking

1527

01:06:07,750 --> 01:06:05,060

down on the edge of the edge of the of

1528

01:06:09,250 --> 01:06:07,760

the province and that's a called Digby

1529

01:06:10,390 --> 01:06:09,260

neck and right at the end of that

1530

01:06:13,780 --> 01:06:10,400

there's a little village down there

1531

01:06:15,370 --> 01:06:13,790

called a wedge port and it's um it's a

1532

01:06:16,990 --> 01:06:15,380

fishing village and there was

1533

01:06:19,450 --> 01:06:17,000

no dear that night they're good to hear

1534

01:06:21,640 --> 01:06:19,460

people talking on the on the marine

1535

01:06:24,279 --> 01:06:21,650

radio and they were all abuzz about this

1536

01:06:26,650 --> 01:06:24,289

this object that was buzzing their

1537

01:06:28,839 --> 01:06:26,660

fishing boat out of the water and they a

1538

01:06:31,420 --> 01:06:28,849

fun date so there's a bit of a story in

1539

01:06:36,309 --> 01:06:31,430

there too which is uh in the book it's

1540

01:06:38,980 --> 01:06:36,319

all in there so um and this thing of the

1541

01:06:41,680 --> 01:06:38,990

wood ties in with the same object that

1542

01:06:43,480 --> 01:06:41,690

the mount the other Mountie in the three

1543

01:06:44,559 --> 01:06:43,490

game wardens solve ourself Maitland

1544

01:06:48,730 --> 01:06:44,569

which is over the other side of the

1545

01:06:51,370 --> 01:06:48,740

province and which the game warden of

1546

01:06:52,839 --> 01:06:51,380

the next morning had determined was the

1547

01:06:56,410 --> 01:06:52,849

direction was going that night when he

1548

01:06:58,240 --> 01:06:56,420

checked the the local map seemed to be

1549

01:06:59,920 --> 01:06:58,250

heading over towards the Shea Gerber he

1550

01:07:02,170 --> 01:06:59,930

said would not even realize and that

1551

01:07:03,549 --> 01:07:02,180

anything it happened in J Gerber but the

1552

01:07:05,829 --> 01:07:03,559

Mountie had come over to see him that

1553

01:07:07,329 --> 01:07:05,839

morning told him it well that's strange

1554

01:07:08,890 --> 01:07:07,339

because there was an incident over and

1555

01:07:11,499 --> 01:07:08,900

Shea Garber because he was amounting to

1556

01:07:13,990 --> 01:07:11,509

get the information through their

1557

01:07:15,370 --> 01:07:14,000

network I guess but I mean there was all

1558

01:07:18,339 --> 01:07:15,380

up and down the coast there there was

1559

01:07:20,170 --> 01:07:18,349

incidents there was the flight I don't

1560

01:07:22,599 --> 01:07:20,180

want to tie you up here with this but

1561

01:07:26,620 --> 01:07:22,609

you know there was plate 305 that one I

1562

01:07:29,319 --> 01:07:26,630

think was um was actually a known I

1563

01:07:31,299 --> 01:07:29,329

think we pretty much saw that one after

1564

01:07:33,370 --> 01:07:31,309

flight Air Canada flight 305 saw

1565

01:07:35,470 --> 01:07:33,380

something that night at around seven

1566

01:07:38,079 --> 01:07:35,480

o'clock and evening but that's almost

1567

01:07:39,749 --> 01:07:38,089

four hours before actually was probably

1568

01:07:43,990 --> 01:07:39,759

eight o'clock our time seven o'clock

1569

01:07:47,019 --> 01:07:44,000

Eastern your tongue up over in the New

1570

01:07:48,880 --> 01:07:47,029

Brunswick or maybe sofa there over

1571

01:07:53,769 --> 01:07:48,890

Millinocket down and main well you know

1572

01:07:55,299 --> 01:07:53,779

where that is and uh you know in some of

1573

01:07:56,589 --> 01:07:55,309

them we call it the night of the UFOs in

1574

01:07:58,509 --> 01:07:56,599

the books and there was I think three

1575

01:08:00,249 --> 01:07:58,519

years old probably seven or eight or

1576

01:08:04,059 --> 01:08:00,259

nine cases in there that we included oh

1577

01:08:07,150 --> 01:08:04,069

I had no idea about that part another

1578

01:08:10,660 --> 01:08:07,160

question that came into our forum would

1579

01:08:12,640 --> 01:08:10,670

you say that eyewitness accounts of shag

1580

01:08:17,860 --> 01:08:12,650

harbour incident include reliable

1581

01:08:20,410 --> 01:08:17,870

corroborating testimony yeah I would say

1582

01:08:22,240 --> 01:08:20,420

I mean three of them were the RCMP

1583

01:08:24,459 --> 01:08:22,250

officers I interviewed that myself Chris

1584

01:08:27,640 --> 01:08:24,469

interviewed them and they pretty much

1585

01:08:30,210 --> 01:08:27,650

all had the same story mind you by the

1586

01:08:32,710 --> 01:08:30,220

time we got to them they were

1587

01:08:34,240 --> 01:08:32,720

two of them were retired the other one

1588

01:08:36,490 --> 01:08:34,250

was well actually I think all three were

1589

01:08:38,800 --> 01:08:36,500

at that point it's the Mountie that was

1590

01:08:41,010 --> 01:08:38,810

over in South Maitland that night he was

1591

01:08:43,630 --> 01:08:41,020

still working I mean I contacted him I

1592

01:08:47,110 --> 01:08:43,640

took me about two weeks to track the guy

1593

01:08:48,820 --> 01:08:47,120

down you know you talk to the Mounties

1594

01:08:50,910 --> 01:08:48,830

and you know want to talk to a

1595

01:08:52,840 --> 01:08:50,920

particular amount and they get sort of

1596

01:08:54,490 --> 01:08:52,850

defensive saying you know well you know

1597

01:08:56,320 --> 01:08:54,500

we don't just give up their names and so

1598

01:09:00,850 --> 01:08:56,330

on I tracked them down through a friend

1599

01:09:03,790 --> 01:09:00,860

of mine open in Saskatchewan who is who

1600

01:09:10,150 --> 01:09:03,800

also had an uncle who was involved in

1601

01:09:12,190 --> 01:09:10,160

the in the RCMP s annual newsletter and

1602

01:09:14,080 --> 01:09:12,200

wouldn't had the different people who

1603

01:09:16,210 --> 01:09:14,090

were retired and so on and so forth and

1604

01:09:17,830 --> 01:09:16,220

we was able to track him down there and

1605

01:09:20,590 --> 01:09:17,840

then I tracked him down from there down

1606

01:09:22,660 --> 01:09:20,600

to Nova Scotia and then over to to his

1607

01:09:24,940 --> 01:09:22,670

new job and which was at the hellofax

1608

01:09:26,710 --> 01:09:24,950

International Airport to work on

1609

01:09:29,050 --> 01:09:26,720

security at Halifax international of

1610

01:09:32,950 --> 01:09:29,060

course this is like what at that time

1611

01:09:35,770 --> 01:09:32,960

probably 25 years later now I know I

1612

01:09:37,600 --> 01:09:35,780

heard Chris mentioned that he was I

1613

01:09:40,240 --> 01:09:37,610

believe 12 years old when the incident

1614

01:09:43,210 --> 01:09:40,250

happened and that very night I believe

1615

01:09:45,310 --> 01:09:43,220

he had some type of sighting that may or

1616

01:09:49,660 --> 01:09:45,320

may not been related at that some foggy

1617

01:09:55,090 --> 01:09:49,670

about that but did you know that the

1618

01:09:56,590 --> 01:09:55,100

event happened when it happened oh did I

1619

01:09:59,080 --> 01:09:56,600

know it had that when it happened yeah

1620

01:10:00,640 --> 01:09:59,090

after it happened yeah but then we give

1621

01:10:02,380 --> 01:10:00,650

within a couple of three days I did

1622

01:10:06,190 --> 01:10:02,390

actually I was actually in the area

1623

01:10:07,870 --> 01:10:06,200

myself that night yeah Wow but I didn't

1624

01:10:09,460 --> 01:10:07,880

know I was in the area that night I did

1625

01:10:11,680 --> 01:10:09,470

see something weird myself that night

1626

01:10:14,740 --> 01:10:11,690

but I didn't have any relationship well

1627

01:10:16,540 --> 01:10:14,750

I was it was between Cape Sable Island

1628

01:10:19,750 --> 01:10:16,550

shag harbour I think it's pretty

1629

01:10:21,100 --> 01:10:19,760

coincidental actually but Chris did have

1630

01:10:23,110 --> 01:10:21,110

a sighting that night but it was in

1631

01:10:25,780 --> 01:10:23,120

Halifax over dark but across the harbour

1632

01:10:29,050 --> 01:10:25,790

the ton of City to Dartmouth across the

1633

01:10:30,370 --> 01:10:29,060

harbour and he was 12 years old it mixes

1634

01:10:32,200 --> 01:10:30,380

it up on the back of the book when you

1635

01:10:34,840 --> 01:10:32,210

see it in there it says he who himself

1636

01:10:37,870 --> 01:10:34,850

was a I got to get the book down to get

1637

01:10:40,570 --> 01:10:37,880

it exact but says it was a witness to

1638

01:10:41,590 --> 01:10:40,580

the object he wasn't a witness's his

1639

01:10:43,660 --> 01:10:41,600

grandfather was in

1640

01:10:45,520 --> 01:10:43,670

area that night in contact and load up a

1641

01:10:47,140 --> 01:10:45,530

Chris had his own event then happened

1642

01:10:50,140 --> 01:10:47,150

that night down in Halifax Harbour and

1643

01:10:53,050 --> 01:10:50,150

there was two other people besides

1644

01:10:54,610 --> 01:10:53,060

Chris's saw this object long yellow and

1645

01:10:56,200 --> 01:10:54,620

orange tape ball out on the harbour

1646

01:10:57,160 --> 01:10:56,210

Chris was a little closer than that I

1647

01:10:59,980 --> 01:10:57,170

don't think it was more than a few

1648

01:11:01,630 --> 01:10:59,990

hundred feet from it but I mean that's a

1649

01:11:06,310 --> 01:11:01,640

little story and that's again in the

1650

01:11:08,620 --> 01:11:06,320

book and Chris is uh ten years younger

1651

01:11:11,140 --> 01:11:08,630

than me so I was 22 at the time and I

1652

01:11:13,510 --> 01:11:11,150

was a Salesman and on that Wednesday

1653

01:11:15,070 --> 01:11:13,520

evening I was travelling down I used to

1654

01:11:17,530 --> 01:11:15,080

go late at night so that I wouldn't have

1655

01:11:22,570 --> 01:11:17,540

to pay for an extra hotel room I'd leave

1656

01:11:24,010 --> 01:11:22,580

home and go down and and whatever area I

1657

01:11:26,110 --> 01:11:24,020

was heading to in this particular time I

1658

01:11:29,530 --> 01:11:26,120

was going down to the Yarmouth area and

1659

01:11:31,090 --> 01:11:29,540

and and and like Shelburne in places

1660

01:11:32,770 --> 01:11:31,100

like that that had little music stores I

1661

01:11:35,980 --> 01:11:32,780

used to sell musical instruments and PA

1662

01:11:37,750 --> 01:11:35,990

systems and that sort of thing and so I

1663

01:11:39,250 --> 01:11:37,760

was going down there that night and it

1664

01:11:42,070 --> 01:11:39,260

was about three o'clock in the morning

1665

01:11:46,870 --> 01:11:42,080

on the on it would probably would have

1666

01:11:50,500 --> 01:11:46,880

been Thursday morning now and to go down

1667

01:11:52,540 --> 01:11:50,510

and check out Yarmouth and come back up

1668

01:11:54,430 --> 01:11:52,550

through other little areas like Digby

1669

01:11:56,980 --> 01:11:54,440

and kemple and so on up on the opposite

1670

01:12:00,100 --> 01:11:56,990

shore and make a loop of it and spend

1671

01:12:01,570 --> 01:12:00,110

the two days doing that and I'd pulled

1672

01:12:02,920 --> 01:12:01,580

over the side of the road walked to the

1673

01:12:05,230 --> 01:12:02,930

other side of the road I pulled off a

1674

01:12:06,160 --> 01:12:05,240

little churchyard there then I went to

1675

01:12:08,140 --> 01:12:06,170

the other side of the road very

1676

01:12:10,690 --> 01:12:08,150

respectively it was 3:30 in the morning

1677

01:12:13,330 --> 01:12:10,700

and I've been driving for some time so

1678

01:12:16,690 --> 01:12:13,340

anyway while I'm standing there looking

1679

01:12:18,370 --> 01:12:16,700

across the ditch I see these red lights

1680

01:12:20,500 --> 01:12:18,380

zipping around out over Cape Sable

1681

01:12:22,450 --> 01:12:20,510

Island that didn't make any sense now I

1682

01:12:26,710 --> 01:12:22,460

wasn't a pilot at that point but I've

1683

01:12:30,340 --> 01:12:26,720

always been an airplane enthusiasts

1684

01:12:32,740 --> 01:12:30,350

I'm 22 then I still was an airplane and

1685

01:12:35,320 --> 01:12:32,750

who's just knew a lot about aircraft and

1686

01:12:36,790 --> 01:12:35,330

so on and I saw these things out there

1687

01:12:38,920 --> 01:12:36,800

and I thought now what the heck would

1688

01:12:40,570 --> 01:12:38,930

those be I'm making a guess of course

1689

01:12:43,360 --> 01:12:40,580

that there probably some kind of an

1690

01:12:46,330 --> 01:12:43,370

unidentified flying object but I can't

1691

01:12:48,670 --> 01:12:46,340

disassociate that over Cape Sable Island

1692

01:12:50,920 --> 01:12:48,680

from maybe some kind of or the event

1693

01:12:52,900 --> 01:12:50,930

itself that was up and shake Herber a

1694

01:12:55,030 --> 01:12:52,910

few hours before that which I didn't

1695

01:12:55,540 --> 01:12:55,040

know until I got home that's my wife

1696

01:12:58,450 --> 01:12:55,550

mentioned

1697

01:13:00,069 --> 01:12:58,460

did you see the newt that the headline

1698

01:13:02,310 --> 01:13:00,079

in the newspaper and I said no what

1699

01:13:05,770 --> 01:13:02,320

about it and she said about the UFO

1700

01:13:08,319 --> 01:13:05,780

someplace down where you were and she'd

1701

01:13:11,859 --> 01:13:08,329

forgotten the name by that time the

1702

01:13:13,180 --> 01:13:11,869

newspaper had arrived home on a Saturday

1703

01:13:15,459 --> 01:13:13,190

and I believe the newspaper had already

1704

01:13:16,750 --> 01:13:15,469

gone out in the garbage result if I'd

1705

01:13:18,729 --> 01:13:16,760

have been smart I would have gone okay

1706

01:13:20,530 --> 01:13:18,739

dug it out of there but as it turns out

1707

01:13:22,569 --> 01:13:20,540

I do have the actual newspaper heading

1708

01:13:24,850 --> 01:13:22,579

I'm the real it was clipped off by Ray

1709

01:13:28,359 --> 01:13:24,860

McCloud himself who gave it to me he's

1710

01:13:30,280 --> 01:13:28,369

the guy that wrote the story and but I

1711

01:13:35,560 --> 01:13:30,290

didn't realize so close I could come Wow

1712

01:13:37,979 --> 01:13:35,570

and there's a pretty prominent Nova

1713

01:13:41,470 --> 01:13:37,989

Scotian air would mean anything to the

1714

01:13:42,729 --> 01:13:41,480

two Americans and of course many

1715

01:13:44,890 --> 01:13:42,739

Canadians wouldn't know anything but

1716

01:13:46,720 --> 01:13:44,900

Ouisa turned out he ended up being the

1717

01:13:49,089 --> 01:13:46,730

premier Nova Scotia three years later

1718

01:13:54,879 --> 01:13:49,099

four years later yeah three years later

1719

01:13:56,439 --> 01:13:54,889

and so um he was he was coming back from

1720

01:13:57,910 --> 01:13:56,449

the arm around the old road highway

1721

01:13:59,740 --> 01:13:57,920

number through around the bottom of the

1722

01:14:01,359 --> 01:13:59,750

province it's really helpful to have the

1723

01:14:03,250 --> 01:14:01,369

map of what I'm talking about this stuff

1724

01:14:07,149 --> 01:14:03,260

because it covers a lot of an area down

1725

01:14:08,919 --> 01:14:07,159

there and he saw the conglomeration the

1726

01:14:10,330 --> 01:14:08,929

cars on the side of the road pulled off

1727

01:14:13,149 --> 01:14:10,340

was standing there looking at the thing

1728

01:14:15,069 --> 01:14:13,159

himself out on the water so I didn't

1729

01:14:18,640 --> 01:14:15,079

know this until years later his son was

1730

01:14:20,200 --> 01:14:18,650

a pilot and we became friends over the

1731

01:14:24,129 --> 01:14:20,210

years you know of it down here there's

1732

01:14:25,720 --> 01:14:24,139

not that many of us and so eventually I

1733

01:14:27,069 --> 01:14:25,730

ran across it and he found out had

1734

01:14:29,020 --> 01:14:27,079

written a book about it and he read it

1735

01:14:30,970 --> 01:14:29,030

and he cut back to me and said his dad

1736

01:14:32,200 --> 01:14:30,980

saw the same thing that night with a

1737

01:14:36,280 --> 01:14:32,210

bunch of other people well they were

1738

01:14:39,129 --> 01:14:36,290

standing organoid on the Imperius called

1739

01:14:41,470 --> 01:14:39,139

the sound it's right on the on the mouth

1740

01:14:45,819 --> 01:14:41,480

of the harbor shag harbour entrance on

1741

01:14:50,560 --> 01:14:45,829

the Western approach there and but so

1742

01:14:52,569 --> 01:14:50,570

that surprised me and if he's still he's

1743

01:14:54,160 --> 01:14:52,579

still alive that guy but he's he's in

1744

01:14:56,319 --> 01:14:54,170

his probably in his ninety and I don't

1745

01:14:58,120 --> 01:14:56,329

know whether you want to be up to

1746

01:15:00,600 --> 01:14:58,130

haven't been a pretty prominent

1747

01:15:02,770 --> 01:15:00,610

politician if you hooked if he wanted to

1748

01:15:06,840 --> 01:15:02,780

you know talk about something like that

1749

01:15:13,900 --> 01:15:09,729

anyway um I don't know we got off the

1750

01:15:17,140 --> 01:15:13,910

tractor better that's okay a question I

1751

01:15:19,720 --> 01:15:17,150

thought of as you know I heard Chris say

1752

01:15:23,500 --> 01:15:19,730

that it was a number of years later

1753

01:15:25,780 --> 01:15:23,510

before he something jagd his memory

1754

01:15:28,090 --> 01:15:25,790

jogged his memory and he or something of

1755

01:15:30,040 --> 01:15:28,100

the event and then he started you know

1756

01:15:32,590 --> 01:15:30,050

getting involved in researching it

1757

01:15:37,630 --> 01:15:32,600

thoroughly and then you later joined him

1758

01:15:43,510 --> 01:15:37,640

had anyone before that go deeply into

1759

01:15:47,200 --> 01:15:43,520

research this incident before Chris no

1760

01:15:48,729 --> 01:15:47,210

not that I know and and the thing I

1761

01:15:52,270 --> 01:15:48,739

jogged his memory was the succour

1762

01:15:55,960 --> 01:15:52,280

incident on Southwest ryx yes yeah that

1763

01:15:57,430 --> 01:15:55,970

would have been about 1992 to 93 he saw

1764

01:16:00,550 --> 01:15:57,440

it that night and it just jogged his

1765

01:16:02,200 --> 01:16:00,560

memory about the his grandfather having

1766

01:16:08,050 --> 01:16:02,210

Colin plus his own you know his own

1767

01:16:09,370 --> 01:16:08,060

incident and what and I saw the same

1768

01:16:11,140 --> 01:16:09,380

episode one it remember you remember

1769

01:16:13,990 --> 01:16:11,150

unsolved mysteries honey oh yeah and you

1770

01:16:15,729 --> 01:16:14,000

also go loved it yeah yeah yeah yeah

1771

01:16:17,800 --> 01:16:15,739

yeah it was pretty good I mean they

1772

01:16:19,180 --> 01:16:17,810

eventually the they had unsolved

1773

01:16:20,590 --> 01:16:19,190

mysteries which were usually just

1774

01:16:21,729 --> 01:16:20,600

regular mysteries but they started

1775

01:16:24,190 --> 01:16:21,739

getting every once and while they get a

1776

01:16:28,780 --> 01:16:24,200

good UFO mystery in there something

1777

01:16:32,560 --> 01:16:28,790

Socorro is definitely a good one but the

1778

01:16:34,840 --> 01:16:32,570

yeah so up till then other than interest

1779

01:16:39,190 --> 01:16:34,850

maybe by the odd reporter who you know

1780

01:16:41,560 --> 01:16:39,200

the the National Enquirer which back in

1781

01:16:44,560 --> 01:16:41,570

those days was more of a newspaper than

1782

01:16:47,200 --> 01:16:44,570

a than whatever the hello howdy I would

1783

01:16:49,420 --> 01:16:47,210

equally faith news yeah it's a tabloid

1784

01:16:52,150 --> 01:16:49,430

it was a tabloid then no tabloid touch

1785

01:16:54,220 --> 01:16:52,160

sized newspaper but it you know it's

1786

01:16:55,600 --> 01:16:54,230

just gone over off the wall now and but

1787

01:16:58,330 --> 01:16:55,610

I mean back then they did some pretty

1788

01:17:01,140 --> 01:16:58,340

good stuff and they did report on it did

1789

01:17:04,000 --> 01:17:01,150

a report on it that and they talked to

1790

01:17:05,800 --> 01:17:04,010

Dave Kendrick who really wasn't that

1791

01:17:07,600 --> 01:17:05,810

deeply involved in the in thing you know

1792

01:17:08,830 --> 01:17:07,610

he saw the thing when they were driving

1793

01:17:11,590 --> 01:17:08,840

down the road but then he went home

1794

01:17:12,130 --> 01:17:11,600

after he dropped off Norm Smith and went

1795

01:17:13,690 --> 01:17:12,140

to bed

1796

01:17:14,920 --> 01:17:13,700

told his mother what did they deem this

1797

01:17:16,490 --> 01:17:14,930

weird thing in the sky and then he went

1798

01:17:20,290 --> 01:17:16,500

to bed and that was it for him

1799

01:17:23,900 --> 01:17:20,300

but no not really and there was a small

1800

01:17:25,310 --> 01:17:23,910

what's his first name now the document I

1801

01:17:30,740 --> 01:17:25,320

still have it here somewhere I've got

1802

01:17:34,250 --> 01:17:30,750

all the documents mentioned about seeing

1803

01:17:39,830 --> 01:17:34,260

um not so he tried to get some

1804

01:17:42,650 --> 01:17:39,840

information from you know the Armed

1805

01:17:45,890 --> 01:17:42,660

Forces about he wrote a letter to one of

1806

01:17:48,850 --> 01:17:45,900

the commanders or one of the naval first

1807

01:17:51,920 --> 01:17:48,860

people or maybe your desk in Ottawa and

1808

01:17:55,370 --> 01:17:51,930

and they sent him up you know what they

1809

01:17:57,620 --> 01:17:55,380

had which is basically mentioned in the

1810

01:18:00,080 --> 01:17:57,630

you know who have been a fisherman saw

1811

01:18:02,000 --> 01:18:00,090

something old on the water in the sky

1812

01:18:04,460 --> 01:18:02,010

and then it went on the water and they

1813

01:18:07,280 --> 01:18:04,470

didn't get into any real detail on it

1814

01:18:09,650 --> 01:18:07,290

but if he never took it any further than

1815

01:18:13,400 --> 01:18:09,660

that maybe a three page write-up that

1816

01:18:17,090 --> 01:18:13,410

he'd done and sent it off to I think he

1817

01:18:22,390 --> 01:18:17,100

was with Apple back in the day NICAP or

1818

01:18:27,800 --> 01:18:25,640

the and send it in to them and that was

1819

01:18:30,050 --> 01:18:27,810

the end of it and that's but it still

1820

01:18:32,150 --> 01:18:30,060

it's had survived within their file so

1821

01:18:34,940 --> 01:18:32,160

and I have a copy here somewhere

1822

01:18:37,340 --> 01:18:34,950

something most of that stuff showed up

1823

01:18:40,760 --> 01:18:37,350

in the archives up here in that in the

1824

01:18:43,930 --> 01:18:40,770

National Archives in Ottawa on my after

1825

01:18:48,560 --> 01:18:43,940

Chris had viewed the microfilm himself

1826

01:18:51,530 --> 01:18:48,570

we if this is important if it's

1827

01:18:55,160 --> 01:18:51,540

important to you him and I had both

1828

01:19:01,940 --> 01:18:55,170

applied to become MUFON investigators

1829

01:19:03,620 --> 01:19:01,950

back in the day and so but needed we

1830

01:19:05,060 --> 01:19:03,630

didn't know each other at the time and

1831

01:19:07,190 --> 01:19:05,070

they put us together

1832

01:19:08,720 --> 01:19:07,200

Chris lived in you know in darkness and

1833

01:19:10,310 --> 01:19:08,730

I lived in Dartmouth or hellofax

1834

01:19:14,140 --> 01:19:10,320

time doesn't make any difference that's

1835

01:19:17,360 --> 01:19:14,150

you know like a twin city thing and they

1836

01:19:19,850 --> 01:19:17,370

alerted each of us independently that

1837

01:19:22,280 --> 01:19:19,860

you know the other was any you know was

1838

01:19:24,110 --> 01:19:22,290

there and we should niggath phone

1839

01:19:26,369 --> 01:19:24,120

numbers and we get together so we called

1840

01:19:29,669 --> 01:19:26,379

one and I forget who called who first

1841

01:19:31,589 --> 01:19:29,679

and we had a meeting over my office's by

1842

01:19:35,909 --> 01:19:31,599

that time I was a director of

1843

01:19:39,389 --> 01:19:35,919

legislative television and for the Nova

1844

01:19:41,959 --> 01:19:39,399

Scotia legislature and uh so we got

1845

01:19:44,250 --> 01:19:41,969

together in my offices one Saturday and

1846

01:19:46,949 --> 01:19:44,260

started to hash this thing out that was

1847

01:19:48,839 --> 01:19:46,959

our first meeting and we he brought up

1848

01:19:50,699 --> 01:19:48,849

she egg harbor and then while he was

1849

01:19:52,919 --> 01:19:50,709

talking about that's when I recalled

1850

01:19:55,429 --> 01:19:52,929

what had happened the time I'd forgotten

1851

01:19:58,529 --> 01:19:55,439

the name of the place you know and of it

1852

01:20:00,899 --> 01:19:58,539

so anyway um he sort of dragged me into

1853

01:20:02,669 --> 01:20:00,909

that thing and then after he got really

1854

01:20:04,409 --> 01:20:02,679

interested he said you know one day one

1855

01:20:06,270 --> 01:20:04,419

day well I think that there's a probably

1856

01:20:08,310 --> 01:20:06,280

a book here and I said well he says but

1857

01:20:11,609 --> 01:20:08,320

I find somebody was good with the King's

1858

01:20:13,469 --> 01:20:11,619

English and I said I'm a writer so I

1859

01:20:14,669 --> 01:20:13,479

said I could probably give it a shot see

1860

01:20:20,339 --> 01:20:14,679

what I could do with it and that's how

1861

01:20:22,259 --> 01:20:20,349

that started and we we we started what I

1862

01:20:23,429 --> 01:20:22,269

did then was we interviewed Chris all

1863

01:20:25,259 --> 01:20:23,439

over again because he had the

1864

01:20:27,629 --> 01:20:25,269

information he had from you know gotten

1865

01:20:29,310 --> 01:20:27,639

from the from the archives I went to the

1866

01:20:31,409 --> 01:20:29,320

archives I got the microfilm brought

1867

01:20:33,349 --> 01:20:31,419

down to the library loner system which

1868

01:20:36,750 --> 01:20:33,359

is what we had back in the nineties and

1869

01:20:41,699 --> 01:20:36,760

uh went through all those microfilm

1870

01:20:43,080 --> 01:20:41,709

reels rg7 east energy 77 24 and I'll

1871

01:20:44,699 --> 01:20:43,090

give the other one is I going to mark

1872

01:20:46,500 --> 01:20:44,709

down here somewhere so you know this is

1873

01:20:49,679 --> 01:20:46,510

going back what twenty odd years now

1874

01:20:51,659 --> 01:20:49,689

memories not what it used to be and I

1875

01:20:53,790 --> 01:20:51,669

went through all the microfilm and in

1876

01:20:56,429 --> 01:20:53,800

those days you'd watch it on a microfilm

1877

01:20:58,349 --> 01:20:56,439

viewer and if you wanted to copy

1878

01:21:00,540 --> 01:20:58,359

anything you had it be what you watching

1879

01:21:03,869 --> 01:21:00,550

it on this particular type of microfilm

1880

01:21:05,729 --> 01:21:03,879

vo that also had a copier embedded in it

1881

01:21:08,969 --> 01:21:05,739

so then you for twenty-five cents you

1882

01:21:13,259 --> 01:21:08,979

could copy that particular little frame

1883

01:21:16,139 --> 01:21:13,269

on the microfilm and I spent about \$200

1884

01:21:18,659 --> 01:21:16,149

on importers and that thing over 30 or

1885

01:21:22,259 --> 01:21:18,669

three months down you know copying all

1886

01:21:23,879 --> 01:21:22,269

of these duck nuts and you know going up

1887

01:21:25,649 --> 01:21:23,889

there at lunch hours from work you know

1888

01:21:27,509 --> 01:21:25,659

or if I had a break for a half an hour

1889

01:21:28,919 --> 01:21:27,519

go up there and look at some more they

1890

01:21:32,219 --> 01:21:28,929

kept them for three months for me so I

1891

01:21:35,040 --> 01:21:32,229

could go out from them and I said I've

1892

01:21:37,469 --> 01:21:35,050

been sent off copies of them but there's

1893

01:21:40,160 --> 01:21:37,479

about 500 documents there anyway that I

1894

01:21:41,510 --> 01:21:40,170

not all Moche a gerber this is just UFO

1895

01:21:43,970 --> 01:21:41,520

in general there's quote if I wrote

1896

01:21:48,860 --> 01:21:43,980

another book layer called maritime UFO

1897

01:21:51,080 --> 01:21:48,870

FILES which is about the and by

1898

01:21:52,550 --> 01:21:51,090

Maritimes the Maritime Provinces or Nova

1899

01:21:54,890 --> 01:21:52,560

Scotia Prince Edward Island Prince

1900

01:21:57,410 --> 01:21:54,900

Edward and New Brunswick I should say

1901

01:22:02,000 --> 01:21:57,420

Edward Stanton Friedman lives right

1902

01:22:04,700 --> 01:22:02,010

and so I in Newfoundland Labrador but

1903

01:22:06,470 --> 01:22:04,710

they weren't recognized as the Maritimes

1904

01:22:08,810 --> 01:22:06,480

for some reason back of the day they

1905

01:22:12,020 --> 01:22:08,820

weren't part of Canada until 1949 anyway

1906

01:22:13,280 --> 01:22:12,030

so um but anyway the that's that was the

1907

01:22:14,810 --> 01:22:13,290

four areas and there was quite a few

1908

01:22:16,700 --> 01:22:14,820

American Air Force Base and there was a

1909

01:22:19,010 --> 01:22:16,710

lot of good sightings down here I was

1910

01:22:21,410 --> 01:22:19,020

actually shocked because until I really

1911

01:22:25,220 --> 01:22:21,420

got involved in this I didn't realize

1912

01:22:27,500 --> 01:22:25,230

you know that UFO incidents occurred in

1913

01:22:29,000 --> 01:22:27,510

any worse but these nine states because

1914

01:22:30,770 --> 01:22:29,010

every book I read it was usually about

1915

01:22:33,950 --> 01:22:30,780

the United States or someplace in France

1916

01:22:35,780 --> 01:22:33,960

you know but you know there was an

1917

01:22:38,960 --> 01:22:35,790

incredible amount of UFO reports up here

1918

01:22:42,590 --> 01:22:38,970

over the years right right so let's talk

1919

01:22:45,530 --> 01:22:42,600

about what Chris found out twenty years

1920

01:22:50,570 --> 01:22:45,540

later and that has to do with the

1921

01:22:54,500 --> 01:22:50,580

military base up north I think you said

1922

01:22:59,300 --> 01:22:54,510

Brett not bred in this but up of Cape

1923

01:23:02,870 --> 01:22:59,310

Breton yeah yeah listen it was up in the

1924

01:23:04,790 --> 01:23:02,880

oh yeah I'm just up north right over

1925

01:23:07,610 --> 01:23:04,800

there about 20 it's only about 25 miles

1926

01:23:08,000 --> 01:23:07,620

away at the boast and that's that's what

1927

01:23:10,550 --> 01:23:08,010

I meant

1928

01:23:14,960 --> 01:23:10,560

so that and that's what Chris found out

1929

01:23:17,480 --> 01:23:14,970

about 20 years later right yeah I ran

1930

01:23:19,880 --> 01:23:17,490

across the guy it's one of those things

1931

01:23:24,260 --> 01:23:19,890

were in coincidence if you want to call

1932

01:23:26,360 --> 01:23:24,270

him coincidence a start to happen and

1933

01:23:27,620 --> 01:23:26,370

then in different places you run into

1934

01:23:29,240 --> 01:23:27,630

people at all of a sudden because you

1935

01:23:30,710 --> 01:23:29,250

mentioned something to them they say oh

1936

01:23:32,300 --> 01:23:30,720

yeah I know something like that because

1937

01:23:33,560 --> 01:23:32,310

I was slightly involved with that and so

1938

01:23:42,080 --> 01:23:33,570

on

1939

01:23:45,140 --> 01:23:42,090

name now because he passed away several

1940

01:23:47,900 --> 01:23:45,150

years ago he was a diver attica remember

1941

01:23:50,000 --> 01:23:47,910

that the fleet died of the I mentioned

1942

01:23:52,430 --> 01:23:50,010

that the divers came down from Halifax

1943

01:23:53,310 --> 01:23:52,440

from the this hellofax is a huge naval

1944

01:23:56,280 --> 01:23:53,320

County

1945

01:23:58,020 --> 01:23:56,290

always has been the British were and of

1946

01:23:59,340 --> 01:23:58,030

course our own Navy and then during the

1947

01:24:01,410 --> 01:23:59,350

Second World War and the first world

1948

01:24:04,200 --> 01:24:01,420

wars it was a to make up place for the

1949

01:24:06,510 --> 01:24:04,210

convoys Halifax Harbour place blew up in

1950

01:24:09,540 --> 01:24:06,520

1917 almost wiped out the north end to

1951

01:24:11,190 --> 01:24:09,550

LFX the biggest man-made explosion till

1952

01:24:17,130 --> 01:24:11,200

they dropped the H bomb in Hiroshima

1953

01:24:24,720 --> 01:24:17,140

that anyway M so the in this particular

1954

01:24:27,770 --> 01:24:24,730

instance in here we a little bit of a

1955

01:24:31,590 --> 01:24:27,780

coincidence as well Chris knew a fellow

1956

01:24:33,000 --> 01:24:31,600

who was whose father was a trainer in

1957

01:24:35,880 --> 01:24:33,010

the fleet diving unit they are the

1958

01:24:38,729 --> 01:24:35,890

divers for the Canadian Navy they're

1959

01:24:40,260 --> 01:24:38,739

still there they moved over from the

1960

01:24:43,290 --> 01:24:40,270

Halifax hide over to the Dark Messiah

1961

01:24:47,550 --> 01:24:43,300

but they're still going as they would

1962

01:24:49,410 --> 01:24:47,560

anyway and he said do you suppose you

1963

01:24:51,780 --> 01:24:49,420

could somehow find out who that may be

1964

01:24:53,130 --> 01:24:51,790

the divers were in shag harbour as he

1965

01:24:55,590 --> 01:24:53,140

wanted to find out what they'd seen on

1966

01:25:01,320 --> 01:24:55,600

the bottom and che Gerber if anything

1967

01:25:03,060 --> 01:25:01,330

and so his name was guy fan - jr. was

1968

01:25:05,250 --> 01:25:03,070

the follow that Chris knew and they were

1969

01:25:09,020 --> 01:25:05,260

you know probably about the same age

1970

01:25:11,520 --> 01:25:09,030

anyway and Gough and senior was the

1971

01:25:14,550 --> 01:25:11,530

trainer for the fleet dive in you know

1972

01:25:19,050 --> 01:25:14,560

fleet divers he was a and we're talking

1973

01:25:23,460 --> 01:25:19,060

about scuba diving and so on and um he

1974

01:25:26,820 --> 01:25:23,470

was he has a guy fan junior asked his

1975

01:25:28,410 --> 01:25:26,830

father - senior if he could maybe find

1976

01:25:31,350 --> 01:25:28,420

out who the divers were on that dive

1977

01:25:34,290 --> 01:25:31,360

down che Garber so guy fan senior came

1978

01:25:36,840 --> 01:25:34,300

back with a list of divers and one of

1979

01:25:40,560 --> 01:25:36,850

them was Leo Cano first one that Dave

1980

01:25:44,460 --> 01:25:40,570

Chris attempted to talk to turned out to

1981

01:25:46,140 --> 01:25:44,470

be have um some kind of cancer and he

1982

01:25:48,960 --> 01:25:46,150

was in hospital and was unable to talk

1983

01:25:55,830 --> 01:25:48,970

to him and then the second one Chris

1984

01:25:57,950 --> 01:25:55,840

talked to was Leo Cano and so Chris

1985

01:26:00,210 --> 01:25:57,960

mentioned to him you know both them I

1986

01:26:01,500 --> 01:26:00,220

want to talk to you about what you know

1987

01:26:03,090 --> 01:26:01,510

what you might have saw on the bottom

1988

01:26:04,060 --> 01:26:03,100

that night when you're diving in Shaker

1989

01:26:06,790 --> 01:26:04,070

be looking for that

1990

01:26:08,890 --> 01:26:06,800

UFO that supposedly crashed there and

1991

01:26:10,510 --> 01:26:08,900

he's toasted said to Chris I wasn't

1992

01:26:14,200 --> 01:26:10,520

wasn't anywhere near she ate her BER he

1993

01:26:16,840 --> 01:26:14,210

says we were off off the moats of

1994

01:26:19,870 --> 01:26:16,850

Shelburne Harbor that's where we were

1995

01:26:20,830 --> 01:26:19,880

working on two objects that were on the

1996

01:26:22,360 --> 01:26:20,840

bottom down there

1997

01:26:25,300 --> 01:26:22,370

Chris I don't know that's he said shell

1998

01:26:28,840 --> 01:26:25,310

burns in shake harbors in Shelburne

1999

01:26:30,430 --> 01:26:28,850

County he says yeah I says I know that

2000

01:26:32,560 --> 01:26:30,440

he said but we weren't down to shake her

2001

01:26:34,600 --> 01:26:32,570

bird always he says uh that was another

2002

01:26:36,760 --> 01:26:34,610

thing we were doing our own thing up off

2003

01:26:40,600 --> 01:26:36,770

keep stable her up off of Shelburne

2004

01:26:43,120 --> 01:26:40,610

harbour which is where government point

2005

01:26:45,400 --> 01:26:43,130

is so whether that had anything to do

2006

01:26:49,750 --> 01:26:45,410

with it and I don't know government

2007

01:26:56,290 --> 01:26:49,760

point had was a nobody knew it for years

2008

01:26:58,600 --> 01:26:56,300

until nineteen I think it was 94 no 1986

2009

01:27:00,310 --> 01:26:58,610

I believe was there 87 when there was

2010

01:27:02,860 --> 01:27:00,320

some kind of a scandal at the base there

2011

01:27:05,110 --> 01:27:02,870

by this time it was a Canadian base not

2012

01:27:06,730 --> 01:27:05,120

the American base it used to be what we

2013

01:27:09,190 --> 01:27:06,740

were doing the same thing as they were

2014

01:27:12,580 --> 01:27:09,200

but we were looking after now which was

2015

01:27:15,940 --> 01:27:12,590

were underwater microphone systems came

2016

01:27:18,700 --> 01:27:15,950

ashore from the North Atlantic up over

2017

01:27:20,290 --> 01:27:18,710

and around raid over across you know

2018

01:27:24,730 --> 01:27:20,300

Greenland and Iceland in all those

2019

01:27:26,290 --> 01:27:24,740

places to track ships predominantly

2020

01:27:28,890 --> 01:27:26,300

submarines that they could get them and

2021

01:27:31,420 --> 01:27:28,900

they came ashore it at Shelburne a

2022

01:27:34,690 --> 01:27:31,430

government point nobody knew anything

2023

01:27:36,970 --> 01:27:34,700

about that I've got to actually got to

2024

01:27:39,310 --> 01:27:36,980

follow now that worked there back in the

2025

01:27:42,280 --> 01:27:39,320

day when the shaker burns and it went on

2026

01:27:44,170 --> 01:27:42,290

and he was unfamiliar with the incident

2027

01:27:46,990 --> 01:27:44,180

itself but other weird events that went

2028

01:27:51,190 --> 01:27:47,000

on at the base and he was an American at

2029

01:27:54,700 --> 01:27:51,200

the time it was 1967 68 when they

2030

01:27:58,110 --> 01:27:54,710

actually started to change over from -

2031

01:28:01,680 --> 01:27:58,120

from American servicemen operating the

2032

01:28:04,360 --> 01:28:01,690

equipment there to Canadian servicemen

2033

01:28:05,920 --> 01:28:04,370

up until that time the Canadians were

2034

01:28:07,750 --> 01:28:05,930

because it was thought to be a Canadian

2035

01:28:11,370 --> 01:28:07,760

base it was called CFS Shelburne

2036

01:28:13,720 --> 01:28:11,380

Canadian Forces station Shelburne and

2037

01:28:15,800 --> 01:28:13,730

which was a Dodge you know to protect

2038

01:28:18,740 --> 01:28:15,810

the Americans

2039

01:28:22,550 --> 01:28:18,750

a secret operation area they don't

2040

01:28:24,920 --> 01:28:22,560

anybody know about it and what we what

2041

01:28:26,330 --> 01:28:24,930

we did was we are our people were the

2042

01:28:29,420 --> 01:28:26,340

people that did the guarding of the

2043

01:28:33,110 --> 01:28:29,430

particular base there and they operated

2044

01:28:35,330 --> 01:28:33,120

the systems down there for you know

2045

01:28:37,130 --> 01:28:35,340

keeping people happy you know the food

2046

01:28:44,240 --> 01:28:37,140

system you know cafeteria services that

2047

01:28:50,270 --> 01:28:44,250

sort of thing and but anyway the that

2048

01:28:52,790 --> 01:28:50,280

particular base was probably important

2049

01:28:54,650 --> 01:28:52,800

to it was probably I would imagine

2050

01:28:56,120 --> 01:28:54,660

important to intelligence that nobody

2051  
01:28:58,730 --> 01:28:56,130  
knew that these things are out there and

2052  
01:29:01,490 --> 01:28:58,740  
apparently here off raid offshore maybe

2053  
01:29:03,530 --> 01:29:01,500  
two miles and about again eighty feet of

2054  
01:29:05,570 --> 01:29:03,540  
water but apparently a couple on

2055  
01:29:07,070 --> 01:29:05,580  
identify don't call him unidentified

2056  
01:29:09,650 --> 01:29:07,080  
flying objects at this point but there

2057  
01:29:12,530 --> 01:29:09,660  
are submerged objects unidentified on

2058  
01:29:15,170 --> 01:29:12,540  
the bottom and we apparently had six or

2059  
01:29:17,090 --> 01:29:15,180  
seven ships stationed over top of them

2060  
01:29:22,300 --> 01:29:17,100  
and we had divers going down to observe

2061  
01:29:25,970 --> 01:29:22,310  
what they were doing and that's this was

2062  
01:29:27,650 --> 01:29:25,980  
what Neoga no had stated when he first

2063  
01:29:30,680 --> 01:29:27,660

talked to Chris Chris had an army friend

2064

01:29:32,240 --> 01:29:30,690

of his has since passed away that's the

2065

01:29:33,710 --> 01:29:32,250

trouble with you of all cases they have

2066

01:29:35,870 --> 01:29:33,720

them years ago on same with like with

2067

01:29:38,060 --> 01:29:35,880

Roswell I was like Christine Friedman

2068

01:29:40,430 --> 01:29:38,070

once once said your children it's always

2069

01:29:41,810 --> 01:29:40,440

a race with the Undertaker to catch

2070

01:29:44,270 --> 01:29:41,820

witnesses you know particularly on the

2071

01:29:46,370 --> 01:29:44,280

older cases but fortunately when we were

2072

01:29:52,700 --> 01:29:46,380

going at it was only like 23 or 25 years

2073

01:29:55,700 --> 01:29:52,710

later so um this um he stated that

2074

01:29:58,340 --> 01:29:55,710

they'd they had they had been using

2075

01:30:01,280 --> 01:29:58,350

tanks and so on they went they go down

2076  
01:30:04,340 --> 01:30:01,290  
and they deserve these two objects that

2077  
01:30:06,950 --> 01:30:04,350  
were on the bottom and one appeared

2078  
01:30:14,210 --> 01:30:06,960  
according to me yoga know to be lending

2079  
01:30:19,690 --> 01:30:14,220  
assistance to the other and they there

2080  
01:30:22,970 --> 01:30:21,830  
Chris's what I mean creatures he said

2081  
01:30:25,370 --> 01:30:22,980  
these things that he says there were

2082  
01:30:27,620 --> 01:30:25,380  
creatures there and these things that

2083  
01:30:29,989 --> 01:30:27,630  
were working underwater and that's about

2084  
01:30:33,259 --> 01:30:29,999  
as far as you go with it

2085  
01:30:35,060 --> 01:30:33,269  
the other other witnesses and that were

2086  
01:30:38,629 --> 01:30:35,070  
involved in that turned out to be like a

2087  
01:30:40,819 --> 01:30:38,639  
near craft identifier from the Canadian

2088  
01:30:42,560 --> 01:30:40,829

Air Force who could identify different

2089

01:30:45,290 --> 01:30:42,570

aircraft just by pieces that came from

2090

01:30:48,020 --> 01:30:45,300

and that's not a reach I mean as a as a

2091

01:30:49,909 --> 01:30:48,030

pilot myself certain general aircraft I

2092

01:30:51,830 --> 01:30:49,919

could probably you know like type of

2093

01:30:53,869 --> 01:30:51,840

aircraft I could fly I could probably

2094

01:30:56,149 --> 01:30:53,879

see small pieces and give you a rough

2095

01:30:57,469 --> 01:30:56,159

idea of the size of the aircraft or what

2096

01:30:59,959 --> 01:30:57,479

kind of an aircraft it might have come

2097

01:31:02,089 --> 01:30:59,969

from not military aircraft or anything

2098

01:31:03,799 --> 01:31:02,099

like that but if you got an expert who's

2099

01:31:06,589 --> 01:31:03,809

been working on military aircraft for

2100

01:31:09,379 --> 01:31:06,599

years he even said he was involved in

2101  
01:31:12,139 --> 01:31:09,389  
recovery recovery of the u2 office the

2102  
01:31:16,040 --> 01:31:12,149  
sofa Greenland that had crashed there

2103  
01:31:19,310 --> 01:31:16,050  
and been taken out there in order to

2104  
01:31:21,529 --> 01:31:19,320  
identify it as even in the RCAF as a

2105  
01:31:23,659 --> 01:31:21,539  
thought I mean we knew about them we

2106  
01:31:25,459 --> 01:31:23,669  
knew what was going on with you twos and

2107  
01:31:27,560 --> 01:31:25,469  
so on of course the whole world did

2108  
01:31:29,299 --> 01:31:27,570  
after a certain point after Kerry powers

2109  
01:31:33,049 --> 01:31:29,309  
get shot down in his over Russia at that

2110  
01:31:34,939 --> 01:31:33,059  
time but but this sort of weird stuff

2111  
01:31:39,949 --> 01:31:34,949  
was going on all the time in the

2112  
01:31:42,229 --> 01:31:39,959  
military you know and so um this sort of

2113  
01:31:44,029 --> 01:31:42,239

started to expand I I know you probably

2114

01:31:45,770 --> 01:31:44,039

don't have the time for this Martin but

2115

01:31:53,239 --> 01:31:45,780

I think I'd explain this to you before

2116

01:31:55,040 --> 01:31:53,249

vote them you know there's the I want to

2117

01:31:56,299 --> 01:31:55,050

get him in order now there were I'd just

2118

01:31:59,739 --> 01:31:56,309

mentioned to follow who could identify

2119

01:32:01,909 --> 01:31:59,749

aircraft who was uh taken aboard a

2120

01:32:04,639 --> 01:32:01,919

Canadian ship and kept up there for a

2121

01:32:06,679 --> 01:32:04,649

week below decks he said and I said well

2122

01:32:07,879 --> 01:32:06,689

you know Chris had said well what were

2123

01:32:09,799 --> 01:32:07,889

you doing up there you're in the Air

2124

01:32:12,589 --> 01:32:09,809

Force the Navy said I was there in case

2125

01:32:14,119 --> 01:32:12,599

I identify aircraft parts yeah but he

2126  
01:32:15,679 --> 01:32:14,129  
said I never did find out what it was he

2127  
01:32:17,959 --> 01:32:15,689  
said but I did hear an interesting

2128  
01:32:20,089 --> 01:32:17,969  
conversation one night at the in the

2129  
01:32:22,790 --> 01:32:20,099  
mess you know and the board the ship

2130  
01:32:24,409 --> 01:32:22,800  
more an American officer was chewing out

2131  
01:32:28,669 --> 01:32:24,419  
this Canadian diver for shooting his

2132  
01:32:30,350 --> 01:32:28,679  
mouth off to his other divers and which

2133  
01:32:32,689 --> 01:32:30,360  
was Leo genome because that's the type

2134  
01:32:34,100 --> 01:32:32,699  
of guy who was there and of course that

2135  
01:32:35,929 --> 01:32:34,110  
brought up the point what was an

2136  
01:32:39,379 --> 01:32:35,939  
American officer given order you know

2137  
01:32:42,139 --> 01:32:39,389  
yelling at a Canadian sailor you know

2138  
01:32:43,220 --> 01:32:42,149

and on his own ship you know but that

2139

01:32:44,720 --> 01:32:43,230

that was the second or

2140

01:32:46,760 --> 01:32:44,730

third time that had happened not

2141

01:32:48,910 --> 01:32:46,770

necessarily with with an American

2142

01:32:52,130 --> 01:32:48,920

officer but with an officer Chua Noda a

2143

01:32:53,510 --> 01:32:52,140

reading or you know a crewman on a board

2144

01:32:56,240 --> 01:32:53,520

and aircraft or anything like that for

2145

01:32:57,920 --> 01:32:56,250

talking well you know in a sort of a

2146

01:33:00,440 --> 01:32:57,930

public area which was other military

2147

01:33:02,210 --> 01:33:00,450

people about something they'd seen you

2148

01:33:06,229 --> 01:33:02,220

know to do with this particular incident

2149

01:33:07,700 --> 01:33:06,239

so again it's just too detailed to get

2150

01:33:10,100 --> 01:33:07,710

into and you don't have the time for a

2151  
01:33:15,770 --> 01:33:10,110  
diner here Martin but I thought of that

2152  
01:33:18,320 --> 01:33:15,780  
is in the book so but Leo that was the

2153  
01:33:24,470 --> 01:33:18,330  
first time we talked to Chris talked to

2154  
01:33:26,030 --> 01:33:24,480  
him over the phone and so then he talked

2155  
01:33:27,680 --> 01:33:26,040  
to him again once more but he wanted to

2156  
01:33:31,070 --> 01:33:27,690  
record this so he asked him if he's

2157  
01:33:32,750 --> 01:33:31,080  
already come over and talked on Natalie

2158  
01:33:34,430 --> 01:33:32,760  
only or we said sure and nothing to hide

2159  
01:33:35,810 --> 01:33:34,440  
so he went over there and he had tape

2160  
01:33:39,620 --> 01:33:35,820  
recorder with him he had a friend with

2161  
01:33:41,870 --> 01:33:39,630  
him the military fall I believe the

2162  
01:33:43,760 --> 01:33:41,880  
fellows last name was McDonald I have

2163  
01:33:45,650 --> 01:33:43,770

Mon tape I

2164

01:33:47,750 --> 01:33:45,660

I have McDonald and Chris you know

2165

01:33:50,090 --> 01:33:47,760

talking about on tape in anyway they

2166

01:33:52,270 --> 01:33:50,100

went over to the yoga knows place but

2167

01:33:54,380 --> 01:33:52,280

when they got there Leo was very jumpy

2168

01:33:56,150 --> 01:33:54,390

he said he checked with some of his

2169

01:33:59,330 --> 01:33:56,160

friends at the base and they told keep

2170

01:34:02,030 --> 01:33:59,340

his mouth shut and I shouldn't talk

2171

01:34:03,770 --> 01:34:02,040

about this so Chris sort of kept you

2172

01:34:08,150 --> 01:34:03,780

know in question among and he was

2173

01:34:10,310 --> 01:34:08,160

goading them and then the finally the

2174

01:34:11,840 --> 01:34:10,320

guy Leo told him he said no I took I

2175

01:34:13,610 --> 01:34:11,850

think you better leave you know so Chris

2176

01:34:15,260 --> 01:34:13,620

wouldn't wish it any further he made a

2177

01:34:17,240 --> 01:34:15,270

last attempt to call him up the phone he

2178

01:34:18,470 --> 01:34:17,250

says I've got some recent documents she

2179

01:34:20,720 --> 01:34:18,480

said maybe what you were talking about

2180

01:34:22,220 --> 01:34:20,730

was this that and the other thing Leo

2181

01:34:23,930 --> 01:34:22,230

get all upset and he said no he said

2182

01:34:26,630 --> 01:34:23,940

okay you know he started using dead

2183

01:34:28,400 --> 01:34:26,640

language you know what you what you say

2184

01:34:32,270 --> 01:34:28,410

what you think I know what I saw and it

2185

01:34:34,100 --> 01:34:32,280

wasn't any so and so Russian submarine

2186

01:34:36,620 --> 01:34:34,110

and that sort of thing you know which is

2187

01:34:40,370 --> 01:34:36,630

what there's coverage story was supposed

2188

01:34:42,350 --> 01:34:40,380

to be so we had to leave it at that but

2189

01:34:44,150 --> 01:34:42,360

then again you know there was the follow

2190

01:34:48,110 --> 01:34:44,160

who was a there who could identify

2191

01:34:50,330 --> 01:34:48,120

aircraft he reported that same argument

2192

01:34:51,860 --> 01:34:50,340

that the Leo Cano it had with the

2193

01:34:53,450 --> 01:34:51,870

American officer but keeping his mouth

2194

01:34:55,400 --> 01:34:53,460

shut about what they saw on the bottom

2195

01:34:56,319 --> 01:34:55,410

and Leo at the time it said well we all

2196

01:35:00,910 --> 01:34:56,329

know it's not some

2197

01:35:02,620 --> 01:35:00,920

blah blah blah Russian submarine we know

2198

01:35:03,609 --> 01:35:02,630

we saw down there you know and that sort

2199

01:35:06,700 --> 01:35:03,619

of thing mm-hmm

2200

01:35:10,359 --> 01:35:06,710

then you get the again I'll let you ask

2201  
01:35:12,939 --> 01:35:10,369  
the questions yeah yeah just as someone

2202  
01:35:16,450 --> 01:35:12,949  
had asked in their chat room a little

2203  
01:35:18,879 --> 01:35:16,460  
while earlier his did they give any type

2204  
01:35:23,560 --> 01:35:18,889  
of description of what the so called

2205  
01:35:25,510 --> 01:35:23,570  
beings look like no none at all

2206  
01:35:26,560 --> 01:35:25,520  
nothing just that they just said

2207  
01:35:29,080 --> 01:35:26,570  
creature okay

2208  
01:35:30,729 --> 01:35:29,090  
he said that was Lee all right now there

2209  
01:35:33,220 --> 01:35:30,739  
was another there was other divers they

2210  
01:35:35,530 --> 01:35:33,230  
went down in pairs and there was one

2211  
01:35:37,660 --> 01:35:35,540  
diver who who apparently was supposed to

2212  
01:35:39,729 --> 01:35:37,670  
take pictures and bear in mind when

2213  
01:35:41,410 --> 01:35:39,739

you're in 80 feet of water in the waters

2214

01:35:43,000 --> 01:35:41,420

off Nova Scotia is so full of plankton

2215

01:35:46,149 --> 01:35:43,010

okay that's where the fishing is so good

2216

01:35:49,240 --> 01:35:46,159

that the water did the visibility I was

2217

01:35:50,020 --> 01:35:49,250

a scuba diver myself for years and when

2218

01:35:52,180 --> 01:35:50,030

you're on the bottom

2219

01:35:54,430 --> 01:35:52,190

you're even done you know what to go

2220

01:35:57,250 --> 01:35:54,440

down to the bottom the visibility is not

2221

01:35:58,720 --> 01:35:57,260

much more than about 15 feet so if there

2222

01:36:00,370 --> 01:35:58,730

was another there was two objects on the

2223

01:36:01,780 --> 01:36:00,380

bottom you'd have to be right on top and

2224

01:36:03,729 --> 01:36:01,790

to see both of them at the same time

2225

01:36:05,350 --> 01:36:03,739

because they just sort of disappear into

2226

01:36:10,180 --> 01:36:05,360

the gloom you know just sitting there

2227

01:36:13,060 --> 01:36:10,190

yeah and so so they were apparently

2228

01:36:15,399 --> 01:36:13,070

taking pictures underwater pictures with

2229

01:36:20,500 --> 01:36:15,409

with another fella who since had moved

2230

01:36:22,089 --> 01:36:20,510

to Cornwall Ontario and when we

2231

01:36:24,549 --> 01:36:22,099

attempted to get a hold him Kristin

2232

01:36:26,379 --> 01:36:24,559

tried I tried and neither time which he

2233

01:36:28,390 --> 01:36:26,389

talked he said none look I'm not going

2234

01:36:30,729 --> 01:36:28,400

to talk about those my most out of boat

2235

01:36:33,250 --> 01:36:30,739

and I'm not going to talk about it so

2236

01:36:36,520 --> 01:36:33,260

that was the end of that you can only

2237

01:36:38,229 --> 01:36:36,530

push these things so far and you have a

2238

01:36:41,649 --> 01:36:38,239

## Freedom of Information Act in the United

2239

01:36:43,299 --> 01:36:41,659

States it's much more open to getting

2240

01:36:45,339 --> 01:36:43,309

information than what we have up here in

2241

01:36:46,810 --> 01:36:45,349

Canada when you when you want to get

2242

01:36:49,930 --> 01:36:46,820

information it's called access to

2243

01:36:51,819 --> 01:36:49,940

information and if you can get anybody

2244

01:36:53,410 --> 01:36:51,829

to actually look because they don't have

2245

01:36:54,850 --> 01:36:53,420

a lot of people dedicated to do this

2246

01:36:58,419 --> 01:36:54,860

sort of thing in our government up here

2247

01:37:02,080 --> 01:36:58,429

but just and then normally they'll shut

2248

01:37:03,970 --> 01:37:02,090

you down anyway but in the last year

2249

01:37:07,750 --> 01:37:03,980

apparently there's been some attempts to

2250

01:37:09,840 --> 01:37:07,760

make their our access to information a

2251

01:37:12,540 --> 01:37:09,850

little bit more liberal

2252

01:37:14,280 --> 01:37:12,550

a more informative and put some teeth in

2253

01:37:16,830 --> 01:37:14,290

that you know so that the public

2254

01:37:17,670 --> 01:37:16,840

servants can hide stuff from you know

2255

01:37:19,350 --> 01:37:17,680

people that are trying to get

2256

01:37:22,170 --> 01:37:19,360

information because it's not only us

2257

01:37:23,880 --> 01:37:22,180

it's the media the press the opposition

2258

01:37:29,040 --> 01:37:23,890

parties at the time you know can't get

2259

01:37:30,450 --> 01:37:29,050

information and so on but and there's of

2260

01:37:35,450 --> 01:37:30,460

course two other people involved there

2261

01:37:39,990 --> 01:37:35,460

the the weapons expert and the event

2262

01:37:41,640 --> 01:37:40,000

crewmen officer he was who was a in an

2263

01:37:43,680 --> 01:37:41,650

art what was that called in Argus back

2264

01:37:46,380 --> 01:37:43,690

well that's what they were in Argus a

2265

01:37:47,940 --> 01:37:46,390

four-engine aircraft for maritime

2266

01:37:49,920 --> 01:37:47,950

command that would could track

2267

01:37:52,770 --> 01:37:49,930

submarines use no sonar buoys I was

2268

01:37:54,090 --> 01:37:52,780

telling you about and they were tracking

2269

01:37:57,630 --> 01:37:54,100

these things from he's the one that

2270

01:38:01,500 --> 01:37:57,640

actually opened it up for me and gave me

2271

01:38:02,790 --> 01:38:01,510

the you know the exact story of where

2272

01:38:05,100 --> 01:38:02,800

these things were coming from you know

2273

01:38:08,610 --> 01:38:05,110

the objects and there was apparently two

2274

01:38:11,700 --> 01:38:08,620

of them again coming down from Siberia

2275

01:38:14,280 --> 01:38:11,710

and set off all kinds of alarms at NORAD

2276

01:38:18,690 --> 01:38:14,290

they scrambled aircraft at a North Bay

2277

01:38:22,200 --> 01:38:18,700

Ontario and and Goose Bay Labrador and

2278

01:38:24,600 --> 01:38:22,210

now in those days in 67 it was RCF at

2279

01:38:26,100 --> 01:38:24,610

that point and which was a big deal if

2280

01:38:28,830 --> 01:38:26,110

you're going to scramble north where the

2281

01:38:30,150 --> 01:38:28,840

f-104 snore 'the word there's a good

2282

01:38:31,320 --> 01:38:30,160

chance they weren't coming back because

2283

01:38:34,230 --> 01:38:31,330

they didn't have much of a fuel supply

2284

01:38:35,640 --> 01:38:34,240

and they were coming down and apparently

2285

01:38:37,500 --> 01:38:35,650

about seventy seven hundred miles an

2286

01:38:38,840 --> 01:38:37,510

hour they thought well could be cookin

2287

01:38:40,500 --> 01:38:38,850

Turkana some kind of a nuke on

2288

01:38:42,660 --> 01:38:40,510

intercontinental ballistic missile

2289

01:38:44,010 --> 01:38:42,670

coming over from siberia which would

2290

01:38:46,890 --> 01:38:44,020

have been a good spot from the coming

2291

01:38:50,370 --> 01:38:46,900

from there was Russian and but then they

2292

01:38:52,830 --> 01:38:50,380

stopped somewhere is over northern

2293

01:38:54,660 --> 01:38:52,840

Canada and just stayed for like a couple

2294

01:38:56,580 --> 01:38:54,670

of minutes and that's when they stood

2295

01:38:58,740 --> 01:38:56,590

the aircraft down because they knew very

2296

01:39:01,080 --> 01:38:58,750

well that there's no missile can do that

2297

01:39:02,340 --> 01:39:01,090

and then they proceeded onward about

2298

01:39:06,240 --> 01:39:02,350

forty four hundred miles an hour and

2299

01:39:09,300 --> 01:39:06,250

eventually at least one of them ended up

2300

01:39:12,840 --> 01:39:09,310

in the water at shag harbour from what

2301

01:39:14,640 --> 01:39:12,850

he said they tracked we could never ever

2302

01:39:17,460 --> 01:39:14,650

get that from the nearby bases but

2303

01:39:19,530 --> 01:39:17,470

apparently from this guy that's what he

2304

01:39:21,690 --> 01:39:19,540

told us and of course he was supposed to

2305

01:39:23,320 --> 01:39:21,700

do a show with christen and I was

2306

01:39:25,120 --> 01:39:23,330

eventually in it myself

2307

01:39:28,840 --> 01:39:25,130

sightings I don't remember that was

2308

01:39:32,320 --> 01:39:28,850

another UFO related program down in the

2309

01:39:35,500 --> 01:39:32,330

United States and he was supposed to be

2310

01:39:37,480 --> 01:39:35,510

on the show and on that program on the

2311

01:39:41,190 --> 01:39:37,490

very first episode and called up Chris

2312

01:39:45,340 --> 01:39:41,200

and said he couldn't make he talked at a

2313

01:39:47,200 --> 01:39:45,350

very famous Canadian donut type shop

2314

01:39:51,430 --> 01:39:47,210

here and copy known it which is called

2315

01:39:52,840 --> 01:39:51,440

Tim Hortons and the Metris there he

2316

01:39:55,750 --> 01:39:52,850

showed up on nine o'clock in the evening

2317

01:39:58,180 --> 01:39:55,760

it was in October believe it or not with

2318

01:40:00,280 --> 01:39:58,190

a hat baseball hat and sunglasses on

2319

01:40:02,470 --> 01:40:00,290

they said to Chris he was that he

2320

01:40:04,750 --> 01:40:02,480

couldn't couldn't do the show the next

2321

01:40:07,180 --> 01:40:04,760

day to the interview they posted on

2322

01:40:08,740 --> 01:40:07,190

Christmas so gee that's too bad I was

2323

01:40:09,970 --> 01:40:08,750

really depending on your testimony he

2324

01:40:12,670 --> 01:40:09,980

says I'm sorry I can't do anything about

2325

01:40:14,020 --> 01:40:12,680

it and they part it so remember I

2326

01:40:19,630 --> 01:40:14,030

mentioned when I was writing the book I

2327

01:40:22,240 --> 01:40:19,640

had to get do re-interview a bunch of

2328

01:40:25,240 --> 01:40:22,250

people so I got a hold of this fall who

2329

01:40:27,940 --> 01:40:25,250

incidentally has it visible maybe 400

2330

01:40:29,170 --> 01:40:27,950

feet 400 or 500 feet away from where I

2331

01:40:33,370 --> 01:40:29,180

am at this moment

2332

01:40:34,180 --> 01:40:33,380

and and I contacted him and I he doesn't

2333

01:40:38,230 --> 01:40:34,190

want his name mentioned

2334

01:40:40,090 --> 01:40:38,240

but back then and you know asked him to

2335

01:40:42,790 --> 01:40:40,100

repeat what he'd told Chris and he told

2336

01:40:44,350 --> 01:40:42,800

and then I well I was I just hung up on

2337

01:40:49,360 --> 01:40:44,360

him I thought I should ask him a why he

2338

01:40:51,790 --> 01:40:49,370

backed out and so I called him back on

2339

01:40:53,920 --> 01:40:51,800

that I said can you tell me why you

2340

01:40:55,510 --> 01:40:53,930

backed out that night and it wouldn't do

2341

01:40:59,410 --> 01:40:55,520

the interview for sightings and he said

2342

01:41:00,760 --> 01:40:59,420

oh yeah he says the the he said book six

2343

01:41:03,070 --> 01:41:00,770

o'clock that evening I was sitting down

2344

01:41:05,920 --> 01:41:03,080

had my supper this guy was a contractor

2345

01:41:07,840 --> 01:41:05,930

now pretty big contracting business he

2346

01:41:09,490 --> 01:41:07,850

said the phone rang my wife answered

2347

01:41:11,350 --> 01:41:09,500

said it for you somebody from Ottawa ON

2348

01:41:14,740 --> 01:41:11,360

he's he's you know our Sara nation's

2349

01:41:16,990 --> 01:41:14,750

capital and when you get on the phone

2350

01:41:20,530 --> 01:41:17,000

this guy said I'm a ranking officer in

2351  
01:41:22,600 --> 01:41:20,540  
any Department of National Defense DND

2352  
01:41:25,480 --> 01:41:22,610  
and he said I understand you're doing an

2353  
01:41:29,580 --> 01:41:25,490  
interview tomorrow and I'm ordering you

2354  
01:41:33,220 --> 01:41:29,590  
now telling you now not to do well and

2355  
01:41:34,160 --> 01:41:33,230  
so he said well okay because he's the

2356  
01:41:37,729 --> 01:41:34,170  
next

2357  
01:41:40,340 --> 01:41:37,739  
a crew member and actually an officer

2358  
01:41:42,020 --> 01:41:40,350  
and if they said no that was the way

2359  
01:41:44,540 --> 01:41:42,030  
when he said apparently the guy told

2360  
01:41:47,510 --> 01:41:44,550  
that they he'd signed affidavits when he

2361  
01:41:50,270 --> 01:41:47,520  
left meet the forces of 92 which is five

2362  
01:41:52,250 --> 01:41:50,280  
years after the shake everything that

2363  
01:41:53,720 --> 01:41:52,260

and that they were going to hold them to

2364

01:41:55,100 --> 01:41:53,730

it and you know that he wouldn't

2365

01:41:58,310 --> 01:41:55,110

disclose certain things and this is

2366

01:42:01,610 --> 01:41:58,320

apparently one of them ow so I thought

2367

01:42:03,590 --> 01:42:01,620

well that's pretty good now if I have

2368

01:42:05,030 --> 01:42:03,600

the time if I do have the time I got to

2369

01:42:09,560 --> 01:42:05,040

tell you the other little story that

2370

01:42:11,630 --> 01:42:09,570

backs that up okay is it Ari yeah okay

2371

01:42:19,280 --> 01:42:11,640

so some years later we're talking about

2372

01:42:22,010 --> 01:42:19,290

19 maybe 2001 2002 and a friend of mine

2373

01:42:23,630 --> 01:42:22,020

who was also extra services called me up

2374

01:42:26,450 --> 01:42:23,640

and said here the next services buddy of

2375

01:42:28,570 --> 01:42:26,460

his wanted to talk to me he was he was

2376

01:42:31,880 --> 01:42:28,580

retired as a major in the Canadian Army

2377

01:42:33,560 --> 01:42:31,890

and actually in special ops and so on I

2378

01:42:35,540 --> 01:42:33,570

said yeah sure I'll talk to him so I

2379

01:42:38,450 --> 01:42:35,550

didn't know it was all about we met at a

2380

01:42:39,740 --> 01:42:38,460

military base even though he was retired

2381

01:42:41,930 --> 01:42:39,750

at this point he could still go on the

2382

01:42:43,610 --> 01:42:41,940

base and now and there was a restaurant

2383

01:42:45,650 --> 01:42:43,620

in the plate you know cafeteria in the

2384

01:42:47,090 --> 01:42:45,660

place so we went in we had nice lunch

2385

01:42:49,070 --> 01:42:47,100

and so on and we're talking about he

2386

01:42:50,479 --> 01:42:49,080

wanted to know what I could tell him

2387

01:42:51,830 --> 01:42:50,489

about a certain incident that happened

2388

01:42:55,550 --> 01:42:51,840

to him which I won't get involved what

2389

01:42:59,300 --> 01:42:55,560

and now because you know we spent a good

2390

01:43:01,459 --> 01:42:59,310

hour on that and the fact that he'd been

2391

01:43:04,760 --> 01:43:01,469

in Vietnam during the Vietnam War is a

2392

01:43:06,140 --> 01:43:04,770

Canadian Special Ops soldier which I

2393

01:43:08,450 --> 01:43:06,150

didn't even know we had any of those

2394

01:43:12,050 --> 01:43:08,460

operating back then but apparently we

2395

01:43:17,570 --> 01:43:12,060

did operating a layout of layout into

2396

01:43:19,340 --> 01:43:17,580

Vietnam and so the other fall event had

2397

01:43:20,120 --> 01:43:19,350

invited me to meet with him in the first

2398

01:43:22,459 --> 01:43:20,130

place

2399

01:43:24,500 --> 01:43:22,469

art is his first name I don't think he'd

2400

01:43:28,250 --> 01:43:24,510

mind me giving you a first name who is a

2401

01:43:31,040 --> 01:43:28,260

civil engineer now said Don said now you

2402

01:43:32,660 --> 01:43:31,050

know quite an experienced him and

2403

01:43:34,910 --> 01:43:32,670

cristela's with the shag harbour

2404

01:43:36,380 --> 01:43:34,920

incident and I said yeah we used to have

2405

01:43:38,990 --> 01:43:36,390

a lot of trouble with you guys back on

2406

01:43:40,459 --> 01:43:39,000

the you know on the day well you know we

2407

01:43:43,669 --> 01:43:40,469

probably still do about covering things

2408

01:43:45,439 --> 01:43:43,679

up and so on I said I said one of my he

2409

01:43:46,879 --> 01:43:45,449

says well how so and I mentioned about

2410

01:43:50,169 --> 01:43:46,889

this follow that I was telling

2411

01:43:52,820 --> 01:43:50,179

the Helena Opera electronic intelligence

2412

01:43:56,060 --> 01:43:52,830

officers are okay on a board of Argos as

2413

01:43:58,250 --> 01:43:56,070

you know had mentioned that he would men

2414

01:44:00,379 --> 01:43:58,260  
and took been told not to do an

2415

01:44:03,290 --> 01:44:00,389  
interview about something he'd have been

2416

01:44:06,260 --> 01:44:03,300  
involved with back in 1967 by a ranking

2417

01:44:09,410 --> 01:44:06,270  
officer in Ottawa he says oh yeah I've

2418

01:44:11,419 --> 01:44:09,420  
done that I said what do you mean you've

2419

01:44:13,490 --> 01:44:11,429  
told people not to talk about UFOs he

2420

01:44:16,580 --> 01:44:13,500  
said no no not about UFOs he said but I

2421

01:44:18,290 --> 01:44:16,590  
have been ordered to call somebody who

2422

01:44:20,720 --> 01:44:18,300  
was it had been in the forces or either

2423

01:44:23,390 --> 01:44:20,730  
me press two it was identifying myself

2424

01:44:25,340 --> 01:44:23,400  
as a ranking officer with DND in Ottawa

2425

01:44:28,459 --> 01:44:25,350  
and we're asked were telling you not to

2426

01:44:29,990 --> 01:44:28,469

talk about this and I was floored to be

2427

01:44:31,790 --> 01:44:30,000

honest I mean here I actually had

2428

01:44:34,370 --> 01:44:31,800

cooperation of what this thing this

2429

01:44:35,750 --> 01:44:34,380

other fall had told me you know and it

2430

01:44:37,760 --> 01:44:35,760

doesn't get any clearer than that this

2431

01:44:39,379 --> 01:44:37,770

guy I mean I know who he was you know I

2432

01:44:41,689 --> 01:44:39,389

can't mention his name because he's a

2433

01:44:43,220 --> 01:44:41,699

very well-known person in nova scotia

2434

01:44:45,290 --> 01:44:43,230

and he probably didn't want to have

2435

01:44:46,609 --> 01:44:45,300

because he had his own UFO sighting and

2436

01:44:49,220 --> 01:44:46,619

i don't think he want everybody to talk

2437

01:44:50,870 --> 01:44:49,230

about it beyond me he was just trying to

2438

01:44:52,580 --> 01:44:50,880

wanted me to explain it to him because

2439

01:44:54,560 --> 01:44:52,590

it was the same old story it had this

2440

01:44:56,060 --> 01:44:54,570

event happened to him and it had

2441

01:44:57,770 --> 01:44:56,070

bothered him for years and years and

2442

01:44:59,629 --> 01:44:57,780

years and wanted some answers about it

2443

01:45:02,510 --> 01:44:59,639

while we know that the UNAM war was in

2444

01:45:04,129 --> 01:45:02,520

the 60s at 74 right and that's when this

2445

01:45:06,740 --> 01:45:04,139

has happened to him so this is many

2446

01:45:09,320 --> 01:45:06,750

years he'd been this had been non at him

2447

01:45:11,240 --> 01:45:09,330

so I was happy to be able to tell him

2448

01:45:12,410 --> 01:45:11,250

you know you're in the you're in good

2449

01:45:13,970 --> 01:45:12,420

company because they're know that

2450

01:45:16,910 --> 01:45:13,980

literally thousands people have the same

2451

01:45:18,530 --> 01:45:16,920

problem so anyway I had that cooperation

2452

01:45:20,030 --> 01:45:18,540

I wanted to get that one out it's one of

2453

01:45:21,200 --> 01:45:20,040

my more interesting stories which didn't

2454

01:45:23,060 --> 01:45:21,210

show up in the book because it happened

2455

01:45:27,560 --> 01:45:23,070

long after the book was closed so Wow

2456

01:45:29,870 --> 01:45:27,570

okay good so now I'm sure you heard

2457

01:45:33,979 --> 01:45:29,880

about and I know you're not involved

2458

01:45:38,209 --> 01:45:33,989

with the the society you know the shag

2459

01:45:39,830 --> 01:45:38,219

Harbor incident Society but yeah

2460

01:45:42,410 --> 01:45:39,840

I know that you did hear about the

2461

01:45:44,689 --> 01:45:42,420

funding there was an anonymous donor

2462

01:45:50,419 --> 01:45:44,699

that donated some money to keep it going

2463

01:45:54,260 --> 01:45:50,429

I think is great and the reason that the

2464

01:45:56,510 --> 01:45:54,270

donor had was that it's too important

2465

01:45:58,070 --> 01:45:56,520

the case is too important anything that

2466

01:46:00,109 --> 01:45:58,080

you know something is you know might

2467

01:46:00,750 --> 01:46:00,119

still come out of that do you feel the

2468

01:46:03,299 --> 01:46:00,760

same way

2469

01:46:07,529 --> 01:46:03,309

that something may still come out of

2470

01:46:10,799 --> 01:46:07,539

shag harbour yeah well what are we at

2471

01:46:12,660 --> 01:46:10,809

fifty years now and you know the people

2472

01:46:15,750 --> 01:46:12,670

that were in there you know and their

2473

01:46:17,729 --> 01:46:15,760

twenties enter in their 70s now thirties

2474

01:46:20,879 --> 01:46:17,739

good chance if they were third in their

2475

01:46:23,339 --> 01:46:20,889

30s at that age yeah they're there I

2476

01:46:25,620 --> 01:46:23,349

mean you know they're their days are

2477

01:46:28,200 --> 01:46:25,630

becoming numbered and so on again you

2478

01:46:30,689 --> 01:46:28,210

know on a race with the Undertaker and

2479

01:46:32,729 --> 01:46:30,699

if anybody and it's strangely and

2480

01:46:34,560 --> 01:46:32,739

strangely enough it happens I mean from

2481

01:46:37,109 --> 01:46:34,570

time to time I'll get somebody contacts

2482

01:46:39,299 --> 01:46:37,119

me and say I just read your book or I

2483

01:46:41,310 --> 01:46:39,309

saw the documentary you did on

2484

01:46:43,890 --> 01:46:41,320

such-and-such and I've done how many of

2485

01:46:51,180 --> 01:46:43,900

those now and pretty close to 40 by now

2486

01:46:53,370 --> 01:46:51,190

I think and the and they somebody will

2487

01:46:54,540 --> 01:46:53,380

contact me because you know they saw me

2488

01:46:56,520 --> 01:46:54,550

doing this thing and that's their you

2489

01:46:58,410 --> 01:46:56,530

know I had this happened to me or I had

2490

01:47:00,299 --> 01:46:58,420

that happen to me or something happened

2491

01:47:01,859 --> 01:47:00,309

to my father you know and I've got some

2492

01:47:04,140 --> 01:47:01,869

you know maybe some clippings here or

2493

01:47:05,759 --> 01:47:04,150

something and he doesn't he won't still

2494

01:47:07,229 --> 01:47:05,769

won't talk about it this day that sort

2495

01:47:09,660 --> 01:47:07,239

of thing you know goes on so these

2496

01:47:11,459 --> 01:47:09,670

people do still come out who strangely

2497

01:47:14,729 --> 01:47:11,469

enough had never heard of the I mean

2498

01:47:16,620 --> 01:47:14,739

it's to me it seems odd that everybody

2499

01:47:18,089 --> 01:47:16,630

hasn't heard with shagger words and but

2500

01:47:20,490 --> 01:47:18,099

that's because I've been you know up to

2501

01:47:23,069 --> 01:47:20,500

my neck in it for you know 25 years yeah

2502

01:47:28,919 --> 01:47:23,079

well I guess pretty close to it anyway

2503

01:47:30,180 --> 01:47:28,929

20 odd years and so the if anybody's

2504

01:47:32,549 --> 01:47:30,190

getting anything out there you know we

2505

01:47:34,379 --> 01:47:32,559

want to hear about it now even people I

2506

01:47:36,810 --> 01:47:34,389

was contacted by follow who have been

2507

01:47:39,479 --> 01:47:36,820

training in in Maine and I forget which

2508

01:47:41,549 --> 01:47:39,489

base now was now I can't remember

2509

01:47:43,620 --> 01:47:41,559

you know I've flown over me lots of

2510

01:47:46,379 --> 01:47:43,630

times landed there in Bangor you know

2511

01:47:48,390 --> 01:47:46,389

down yeah down in Augusta or those

2512

01:47:50,640 --> 01:47:48,400

places some I'm trying to think of the

2513

01:47:52,430 --> 01:47:50,650

name of that base where it was it was on

2514

01:47:54,600 --> 01:47:52,440

the East Coast anyway and they'd seen a

2515

01:48:01,049 --> 01:47:54,610

while they were training over there and

2516

01:48:02,220 --> 01:48:01,059

they were using prop-driven aircrafts

2517

01:48:04,470 --> 01:48:02,230

originally trained I think he was

2518

01:48:08,279 --> 01:48:04,480

training with the Coast Guard and they

2519

01:48:12,689 --> 01:48:08,289

had had he recalled that particular time

2520

01:48:14,430 --> 01:48:12,699

base of 1967 and and they had seen odd

2521

01:48:16,410 --> 01:48:14,440

instances of things going on over

2522

01:48:20,689 --> 01:48:16,420

towards egg harbor because we're there

2523

01:48:23,189 --> 01:48:20,699

red you know you're across too big the

2524

01:48:26,580 --> 01:48:23,199

Gulf of Maine there but you're not that

2525

01:48:28,919 --> 01:48:26,590

far away from Nova Scotia it's only you

2526

01:48:31,200 --> 01:48:28,929

know maybe 70 miles across the water if

2527

01:48:33,660 --> 01:48:31,210

that at the very southern southwestern

2528

01:48:36,450 --> 01:48:33,670

tip I could look it up in Google Rihanna

2529

01:48:38,669 --> 01:48:36,460

but I don't think you are but you know

2530

01:48:41,130 --> 01:48:38,679

we're this yeah I mean when I was living

2531

01:48:43,200 --> 01:48:41,140

down and my I had a built a summer home

2532

01:48:46,110 --> 01:48:43,210

long was the winter it was a house down

2533

01:48:49,620 --> 01:48:46,120

there in Meleager Lake in Nova Scotia is

2534

01:48:54,540 --> 01:48:49,630

basically across from on the same

2535

01:48:56,040 --> 01:48:54,550

latitude as cheese I'm trying to

2536

01:49:00,919 --> 01:48:56,050

remember the president's place down

2537

01:49:04,080 --> 01:49:00,929

there it starts with a K not Kennebunk

2538

01:49:06,390 --> 01:49:04,090

yeah a monk yeah yeah it was on the same

2539

01:49:08,490 --> 01:49:06,400

same latitude is that okay I'm not

2540

01:49:10,110 --> 01:49:08,500

saying there was any kind of UFO ins and

2541

01:49:12,209 --> 01:49:10,120

I'm just saying that my my house was on

2542

01:49:17,250 --> 01:49:12,219

the same latitude ketab own gain

2543

01:49:19,410 --> 01:49:17,260

right so but anyway so this particular

2544

01:49:23,280 --> 01:49:19,420

person had called was called up and said

2545

01:49:25,560 --> 01:49:23,290

him and his his radar a guy in the back

2546

01:49:27,150 --> 01:49:25,570

and they were in a they're in a still

2547

01:49:29,340 --> 01:49:27,160

was the property of an aircraft I'm

2548

01:49:31,200 --> 01:49:29,350

tending to think it was a like an

2549

01:49:35,160 --> 01:49:31,210

Avenger or something like that as a

2550

01:49:37,110 --> 01:49:35,170

trainer and had seen weird lights in the

2551

01:49:39,900 --> 01:49:37,120

sky over towards that and that any

2552

01:49:41,790 --> 01:49:39,910

contact me you some years later and he

2553

01:49:45,030 --> 01:49:41,800

gave me a little bit of information I

2554

01:49:46,830 --> 01:49:45,040

want I pushed him to stay in touch

2555

01:49:48,270 --> 01:49:46,840

because I wanted to get some I asked him

2556

01:49:50,040 --> 01:49:48,280

a bunch of questions online and you

2557

01:49:51,150 --> 01:49:50,050

never answered and a lot of times these

2558

01:49:52,290 --> 01:49:51,160

people get frightened off because

2559

01:49:53,330 --> 01:49:52,300

they're afraid their name will come out

2560

01:49:56,370 --> 01:49:53,340

you know and maybe they'll be either

2561

01:49:58,979 --> 01:49:56,380

ridiculed or maybe maybe he was still in

2562

01:50:00,780 --> 01:49:58,989

the forces that you know when this is

2563

01:50:01,979 --> 01:50:00,790

when this is when this happened and so

2564

01:50:03,600 --> 01:50:01,989

you've always got to be careful of that

2565

01:50:07,950 --> 01:50:03,610

I've had that happened so many times to

2566

01:50:09,959 --> 01:50:07,960

me it's not funny but and it's

2567

01:50:12,320 --> 01:50:09,969

unfortunate too because you you get some

2568

01:50:14,160 --> 01:50:12,330

good information sometimes it sticks a

2569

01:50:17,760 --> 01:50:14,170

lot of times it doesn't

2570

01:50:20,310 --> 01:50:17,770

yes now eventually these crafted a

2571

01:50:24,570 --> 01:50:20,320

people did people actually see them come

2572

01:50:26,160 --> 01:50:24,580

out of the water and take off well

2573

01:50:30,189 --> 01:50:26,170

there's an it there's a

2574

01:50:32,860 --> 01:50:30,199

a document by Lachlan Cameron from the

2575

01:50:34,270 --> 01:50:32,870

RCMP that's seven days later down in

2576  
01:50:37,660 --> 01:50:34,280  
woods Harbor you know I mentioned that

2577  
01:50:41,350 --> 01:50:37,670  
before it had it when you're in the

2578  
01:50:43,689 --> 01:50:41,360  
north northern end of woods Harbor

2579  
01:50:46,060 --> 01:50:43,699  
you're practically at you know at the

2580  
01:50:48,939 --> 01:50:46,070  
Irish moss plant I mean it's her talk of

2581  
01:50:52,149 --> 01:50:48,949  
a few hundred feet or so but they were

2582  
01:50:54,070 --> 01:50:52,159  
in there in their home and the TV went a

2583  
01:50:56,379 --> 01:50:54,080  
little wonky I think they were watching

2584  
01:50:57,580 --> 01:50:56,389  
Ed Sullivan or something couldn't mean

2585  
01:50:59,709 --> 01:50:57,590  
head so low because it was Wednesday

2586  
01:51:01,689 --> 01:50:59,719  
night so anyway they were watching a

2587  
01:51:07,090 --> 01:51:01,699  
program a TV back then it was on rabbit

2588  
01:51:09,129 --> 01:51:07,100

ears right 67 and some company had come

2589

01:51:10,750 --> 01:51:09,139

along with their children as well and he

2590

01:51:13,450 --> 01:51:10,760

went outside to try to maybe fix the

2591

01:51:15,100 --> 01:51:13,460

antenna and they watched two objects

2592

01:51:17,050 --> 01:51:15,110

climbing away from the water upwards

2593

01:51:22,030 --> 01:51:17,060

from basically the same area where the

2594

01:51:25,629 --> 01:51:22,040

other ones had gone in off in the sound

2595

01:51:27,129 --> 01:51:25,639

off of a shag harbour and they started

2596

01:51:28,899 --> 01:51:27,139

went up hovered for a little bit and

2597

01:51:30,490 --> 01:51:28,909

turned around and went off over the Gulf

2598

01:51:32,500 --> 01:51:30,500

of Maine over towards the mainland

2599

01:51:33,879 --> 01:51:32,510

United States then wait a minute UFO

2600

01:51:35,530 --> 01:51:33,889

report or something down there that

2601

01:51:37,660 --> 01:51:35,540

night don't know but there is two of

2602

01:51:39,760 --> 01:51:37,670

them there the lights around the room

2603

01:51:41,709 --> 01:51:39,770

you know and so on and so forth so

2604

01:51:43,990 --> 01:51:41,719

whether that had anything to do it's

2605

01:51:45,729 --> 01:51:44,000

pretty odd it was the case and when was

2606

01:51:48,729 --> 01:51:45,739

the same area and it was exactly a week

2607

01:51:51,669 --> 01:51:48,739

later and about nine o'clock 9 to 9:30

2608

01:51:53,410 --> 01:51:51,679

and evening so I think that's the one

2609

01:51:55,629 --> 01:51:53,420

you're referring to it says it's in the

2610

01:51:59,620 --> 01:51:55,639

it's in the RCMP document there which is

2611

01:52:01,930 --> 01:51:59,630

basically a telex uh-huh and was did you

2612

01:52:03,850 --> 01:52:01,940

say earlier that they actually uh there

2613

01:52:05,770 --> 01:52:03,860

was another question that came in that

2614

01:52:10,750 --> 01:52:05,780

said do you think there is sonar

2615

01:52:13,090 --> 01:52:10,760

evidence of these underwater objects

2616

01:52:18,580 --> 01:52:13,100

moving but I did you already address

2617

01:52:19,930 --> 01:52:18,590

that well sort of the sonar buoys they

2618

01:52:23,740 --> 01:52:19,940

were apparently tracking these things

2619

01:52:25,959 --> 01:52:23,750

when they went up in Coast uh you know

2620

01:52:30,100 --> 01:52:25,969

the the Shelburne components the thing

2621

01:52:31,330 --> 01:52:30,110

almost lends me to believe that there

2622

01:52:35,890 --> 01:52:31,340

were people knew there was something

2623

01:52:38,229 --> 01:52:35,900

going on before the the error desk in

2624

01:52:39,010 --> 01:52:38,239

Ottawa which was the RCAF itself anyway

2625

01:52:41,620 --> 01:52:39,020

and on

2626  
01:52:43,180 --> 01:52:41,630  
was going on or maybe they did know at

2627  
01:52:45,490 --> 01:52:43,190  
the time but they had to sort of keep a

2628  
01:52:48,370 --> 01:52:45,500  
public face going at the same time they

2629  
01:52:51,910 --> 01:52:48,380  
had you know the what do they call it

2630  
01:52:54,490 --> 01:52:51,920  
there's a name for that of under-covered

2631  
01:52:56,170 --> 01:52:54,500  
but not exactly that were covert you

2632  
01:52:58,720 --> 01:52:56,180  
know and I won't say it undercover

2633  
01:53:01,200 --> 01:52:58,730  
yeah Oliver yeah exactly good for you

2634  
01:53:06,580 --> 01:53:01,210  
I'm just no not lose all those words and

2635  
01:53:07,960 --> 01:53:06,590  
but anyway you know it it there were so

2636  
01:53:10,300 --> 01:53:07,970  
many little different things going on

2637  
01:53:12,820 --> 01:53:10,310  
that seemed to be really well prepared

2638  
01:53:14,500 --> 01:53:12,830

ahead of time you know that you know

2639

01:53:16,180 --> 01:53:14,510

these things were on them right off the

2640

01:53:19,830 --> 01:53:16,190

but you know they were in the water now

2641

01:53:22,300 --> 01:53:19,840

just just to say this to be fair

2642

01:53:24,910 --> 01:53:22,310

Chris and I can't be a hundred percent

2643

01:53:27,700 --> 01:53:24,920

sure that the dates match up for

2644

01:53:30,010 --> 01:53:27,710

Shelburne and shag harbour but there's

2645

01:53:32,530 --> 01:53:30,020

so many people or not so many but enough

2646

01:53:35,470 --> 01:53:32,540

people saying that it did you know the

2647

01:53:38,350 --> 01:53:35,480

witnesses themselves all put it in to

2648

01:53:40,060 --> 01:53:38,360

the same timeframe of what was going on

2649

01:53:41,260 --> 01:53:40,070

over shag her but they'd referred well

2650

01:53:43,360 --> 01:53:41,270

you know that the other thing was going

2651  
01:53:45,880 --> 01:53:43,370  
on over Jay Garber while this thing was

2652  
01:53:48,100 --> 01:53:45,890  
going on you know and we'd get that kind

2653  
01:53:50,560 --> 01:53:48,110  
of but never anybody can nail it down

2654  
01:53:52,030 --> 01:53:50,570  
for us there is one RCMP document out

2655  
01:53:53,230 --> 01:53:52,040  
there that we call the X Paul because

2656  
01:53:56,880 --> 01:53:53,240  
it's the only one we've ever seen that

2657  
01:54:03,010 --> 01:53:56,890  
actually had an X in the file number and

2658  
01:54:08,260 --> 01:54:03,020  
with Leo Howard mercy who had a DMV MV

2659  
01:54:10,270 --> 01:54:08,270  
Nickerson which was a long liner fishing

2660  
01:54:11,830 --> 01:54:10,280  
boat had a radar and everything on it

2661  
01:54:15,370 --> 01:54:11,840  
and they they had been watching some

2662  
01:54:17,560 --> 01:54:15,380  
objects in the sky and while he was out

2663  
01:54:19,690 --> 01:54:17,570

there he got a call from Coast Guard

2664

01:54:23,650 --> 01:54:19,700

saying the RCMP wanted him to drop into

2665

01:54:28,110 --> 01:54:23,660

their into their detachment in Lunenburg

2666

01:54:35,560 --> 01:54:33,370

and and this document was a testament to

2667

01:54:37,900 --> 01:54:35,570

that we told them what they'd seen in

2668

01:54:40,660 --> 01:54:37,910

the sky how these things had gone again

2669

01:54:45,700 --> 01:54:40,670

on the same night as the shag harbour

2670

01:54:47,740 --> 01:54:45,710

ensign and maybe this is the same thing

2671

01:54:50,370 --> 01:54:47,750

that was going on over a shag harbour or

2672

01:54:52,290 --> 01:54:50,380

in Shelburne

2673

01:54:54,120 --> 01:54:52,300

now Shelburne could mean two things

2674

01:54:58,590 --> 01:54:54,130

either the county of Shelburne or the

2675

01:55:00,570 --> 01:54:58,600

town of Shelburne Shelburne itself had a

2676

01:55:06,810 --> 01:55:00,580

has a pretty nice little Herbert's not

2677

01:55:09,210 --> 01:55:06,820

to Halifax but it was the alternate base

2678

01:55:10,680 --> 01:55:09,220

for none capital ships like destroyers

2679

01:55:12,570 --> 01:55:10,690

and Corvettes and all that sort of thing

2680

01:55:13,590 --> 01:55:12,580

they could they could actually work from

2681

01:55:15,810 --> 01:55:13,600

there because there's railroad

2682

01:55:17,400 --> 01:55:15,820

connecting Halifax to to there the Old

2683

01:55:19,770 --> 01:55:17,410

South Western railroads connected to

2684

01:55:21,960 --> 01:55:19,780

Shelburne and so on at that time in an

2685

01:55:24,000 --> 01:55:21,970

emergency case because as I mentioned to

2686

01:55:26,430 --> 01:55:24,010

you before the north western end of the

2687

01:55:28,050 --> 01:55:26,440

northern section of Halifax was pretty

2688

01:55:31,380 --> 01:55:28,060

much wiped off the map during the

2689

01:55:35,430 --> 01:55:31,390

Halifax Explosion Dorne in 1917 in

2690

01:55:37,230 --> 01:55:35,440

December 6th on December 6 19 before you

2691

01:55:40,170 --> 01:55:37,240

move on how did that was that explosion

2692

01:55:41,360 --> 01:55:40,180

any part of somehow World War one or how

2693

01:55:44,970 --> 01:55:41,370

did that happen

2694

01:55:47,640 --> 01:55:44,980

yeah well what happened there was a I'm

2695

01:55:50,550 --> 01:55:47,650

on Mont Blanc works for two vessels one

2696

01:55:52,380 --> 01:55:50,560

one was loaded with munitions heading

2697

01:55:56,700 --> 01:55:52,390

over like I mentioned Halifax a staging

2698

01:55:58,170 --> 01:55:56,710

area to go to York and during the Second

2699

01:55:59,760 --> 01:55:58,180

World War or during the First World War

2700

01:56:01,590 --> 01:55:59,770

and the Second World War but this is the

2701  
01:56:05,100 --> 01:56:01,600  
first world war we're talking about and

2702  
01:56:07,110 --> 01:56:05,110  
it had benzene gas and all kinds of

2703  
01:56:09,960 --> 01:56:07,120  
stuff on board but there was also as

2704  
01:56:14,010 --> 01:56:09,970  
high-energy explosives and so on in this

2705  
01:56:19,350 --> 01:56:14,020  
thing and it got t-boned by the IMO and

2706  
01:56:20,880 --> 01:56:19,360  
it was on fire and the it was in what's

2707  
01:56:22,770 --> 01:56:20,890  
called the Narrows at the north end of

2708  
01:56:24,780 --> 01:56:22,780  
the harbor which goes into a big basin

2709  
01:56:26,310 --> 01:56:24,790  
Bedford Basin which is where I live

2710  
01:56:28,890 --> 01:56:26,320  
actually live right on the edge of it

2711  
01:56:35,160 --> 01:56:28,900  
here and it's a big round circular area

2712  
01:56:37,260 --> 01:56:35,170  
and in them so they're you know they

2713  
01:56:39,210 --> 01:56:37,270

were putting a cruise together to open

2714

01:56:41,190 --> 01:56:39,220

fight this thing that was a fire off

2715

01:56:43,920 --> 01:56:41,200

both of them were drifting on a fire on

2716

01:56:47,730 --> 01:56:43,930

in the Narrows and then all of a sudden

2717

01:56:49,470 --> 01:56:47,740

the Mont Blanc blew and I mean it was

2718

01:56:52,230 --> 01:56:49,480

like I said it was the biggest man-made

2719

01:56:55,100 --> 01:56:52,240

explosion up until they dropped the air

2720

01:57:03,010 --> 01:57:01,620

they the American nuclear science some

2721

01:57:04,750 --> 01:57:03,020

some of the American nuclear

2722

01:57:08,640 --> 01:57:04,760

science that were building the a-bomb

2723

01:57:12,190 --> 01:57:08,650

had come from Los Alamos up to Halifax

2724

01:57:15,610 --> 01:57:12,200

during the Second World War to to look

2725

01:57:17,500 --> 01:57:15,620

at old pictures of Halifax and the

2726

01:57:19,060 --> 01:57:17,510

explosive effect of this thing going off

2727

01:57:20,620 --> 01:57:19,070

in the harbour because they were trying

2728

01:57:22,660 --> 01:57:20,630

to determine what's the best way to set

2729

01:57:24,070 --> 01:57:22,670

off the a bomber they should do an air

2730

01:57:26,320 --> 01:57:24,080

shot or let it hit the ground or

2731

01:57:27,790 --> 01:57:26,330

whatever and because that was the only

2732

01:57:30,880 --> 01:57:27,800

one they actually had where there was

2733

01:57:33,190 --> 01:57:30,890

evidence of it you know so often

2734

01:57:36,040 --> 01:57:33,200

immediately killed about 1600 people and

2735

01:57:37,870 --> 01:57:36,050

eventually 2,000 people died it blinded

2736

01:57:39,310 --> 01:57:37,880

something like six or seven hundred

2737

01:57:41,760 --> 01:57:39,320

because people were standing in their

2738

01:57:43,840 --> 01:57:41,770

windows and they're in schools and

2739

01:57:45,100 --> 01:57:43,850

buildings office buildings and all this

2740

01:57:47,290 --> 01:57:45,110

sort of thing there's probably I don't

2741

01:57:49,900 --> 01:57:47,300

know fifty seventy thousand people in

2742

01:57:51,640 --> 01:57:49,910

his city Halifax baculum World War one

2743

01:57:54,820 --> 01:57:51,650

when this thing went off but fortunately

2744

01:57:56,530 --> 01:57:54,830

he went off there's it the land goes

2745

01:57:59,230 --> 01:57:56,540

upwards you know into a quite a hill

2746

01:58:01,000 --> 01:57:59,240

there and the Narrows goes just a bit

2747

01:58:03,040 --> 01:58:01,010

around that hill so a lot of the

2748

01:58:05,290 --> 01:58:03,050

explosive power the thing was deflected

2749

01:58:06,970 --> 01:58:05,300

by the hill so it didn't get down right

2750

01:58:09,820 --> 01:58:06,980

into the city it got into the north end

2751

01:58:12,280 --> 01:58:09,830

of the city oh oh it is funny and I

2752

01:58:14,050 --> 01:58:12,290

don't want to seem you you think you'd

2753

01:58:14,850 --> 01:58:14,060

hear a lot about something like that but

2754

01:58:18,910 --> 01:58:14,860

you really don't

2755

01:58:22,240 --> 01:58:18,920

yeah Don we're we're out of time already

2756

01:58:25,150 --> 01:58:22,250

out of time yeah yeah okay so I wanted

2757

01:58:27,130 --> 01:58:25,160

to very want to thank you so much and I

2758

01:58:31,060 --> 01:58:27,140

really look forward to meeting you come

2759

01:58:33,220 --> 01:58:31,070

October yeah okay we will be done I'll

2760

01:58:34,960 --> 01:58:33,230

be now after Axel and I will coordinate

2761

01:58:37,420 --> 01:58:34,970

a new Martin we've talked couplet is

2762

01:58:40,330 --> 01:58:37,430

also good personal yes exactly

2763

01:58:41,830 --> 01:58:40,340

alright you take care now yeah okay are

2764

01:58:45,820 --> 01:58:41,840

you to thank you bye now bye

2765

01:58:47,580 --> 01:58:45,830

thank you okay everyone I'm not sure why

2766

01:58:52,000 --> 01:58:47,590

that music is going but let me stop it

2767

01:58:55,240 --> 01:58:52,010

thanks so much for listening to the show

2768

01:58:57,910 --> 01:58:55,250

this evening and I really appreciate it

2769

01:59:01,530 --> 01:58:57,920

and next week we have been hurl from

2770

01:59:04,300 --> 01:59:01,540

Australia he's going to be on and so

2771

01:59:07,090 --> 01:59:04,310

that will be next week at the same time

2772

01:59:09,520 --> 01:59:07,100

right here and if you were in the chat

2773

01:59:11,620 --> 01:59:09,530

room on YouTube watching a live thank

2774

01:59:14,290 --> 01:59:11,630

you so much and if you support the show

2775

01:59:15,910 --> 01:59:14,300

thank you so much as well

2776

01:59:22,350 --> 01:59:15,920

and all right we'll see you here next
