

Stanton Friedman

1  
00:00:08,870 --> 00:00:07,820  
one and it hits me oh my gosh this is

2  
00:00:09,950 --> 00:00:08,880  
that triangle

3  
00:00:11,089 --> 00:00:09,960  
you know there's explanation for

4  
00:00:12,709 --> 00:00:11,099  
everything that appeared in the

5  
00:00:14,870 --> 00:00:12,719  
Rendlesham forest incident didn't

6  
00:00:17,540 --> 00:00:14,880  
doesn't involvement aliens at all it was

7  
00:00:22,310 --> 00:00:17,550  
completely silent it comes right over

8  
00:00:24,019 --> 00:00:22,320  
our head it's also really standing in

9  
00:00:25,700 --> 00:00:24,029  
the clearing he turned over to my father

10  
00:00:28,790 --> 00:00:25,710  
held his hand and he looked in his eyes

11  
00:00:31,040 --> 00:00:28,800  
and said we're not alone and it hits me

12  
00:00:32,089 --> 00:00:31,050  
oh my gosh this is that triangle

13  
00:00:33,620 --> 00:00:32,099

you know there's explanation for

14

00:00:36,110 --> 00:00:33,630

everything right redeem the Rendlesham

15

00:00:39,020 --> 00:00:36,120

the process is going on here bomb aliens

16

00:00:47,869 --> 00:00:39,030

at all it was completely cyber it comes

17

00:00:49,369 --> 00:00:47,879

right and wrong head hello everyone and

18

00:00:51,560 --> 00:00:49,379

welcome to the show looks like I got a

19

00:00:54,229 --> 00:00:51,570

little bit of editing to do for the

20

00:00:57,529 --> 00:00:54,239

podcast sorry about that

21

00:00:59,479 --> 00:00:57,539

so we had a couple of windows open here

22

00:01:01,700 --> 00:00:59,489

and that's what happened

23

00:01:05,299 --> 00:01:01,710

this is Martyn Willis welcome to podcast

24

00:01:09,500 --> 00:01:05,309

UFO and I'm a live streaming on YouTube

25

00:01:12,020 --> 00:01:09,510

all the way from Russia and my guest

26  
00:01:14,480 --> 00:01:12,030  
today is going to be Stanton Friedman

27  
00:01:16,850 --> 00:01:14,490  
and we're gonna be talking about well

28  
00:01:18,700 --> 00:01:16,860  
the UFO documents on midnight in the

29  
00:01:22,460 --> 00:01:18,710  
desert I want to get his take on that

30  
00:01:23,780 --> 00:01:22,470  
also Alejandro Rojas is coming up here

31  
00:01:26,749 --> 00:01:23,790  
in just a minute we're gonna be talking

32  
00:01:28,760 --> 00:01:26,759  
about he was at Roswell last week and so

33  
00:01:30,859 --> 00:01:28,770  
with Stan Friedman so Stan and I will be

34  
00:01:32,810 --> 00:01:30,869  
talking about that I'm sure Alejandro

35  
00:01:35,690 --> 00:01:32,820  
will be discussing that as well

36  
00:01:38,840 --> 00:01:35,700  
if you support the show I want to thank

37  
00:01:41,990 --> 00:01:38,850  
you very much and it's pretty easy to do

38  
00:01:43,910 --> 00:01:42,000

it a couple dollars over more per month

39

00:01:45,920 --> 00:01:43,920

I was checking today boy we're getting

40

00:01:49,130 --> 00:01:45,930

we get a lot of downloads on our free

41

00:01:51,649 --> 00:01:49,140

show which is great I finally got it so

42

00:01:57,050 --> 00:01:51,659

I can see statistically how many are

43

00:01:58,940 --> 00:01:57,060

being downloaded so yeah if you want to

44

00:02:01,880 --> 00:01:58,950

spend a couple dollars or month or more

45

00:02:03,230 --> 00:02:01,890

you can do that on podcast UFO calm if

46

00:02:04,789 --> 00:02:03,240

you can't do that but you still want to

47

00:02:08,210 --> 00:02:04,799

listen to the whole show all you got to

48

00:02:12,920 --> 00:02:08,220

do is tune in live on youtube or on

49

00:02:14,750 --> 00:02:12,930

podcast UFO calm and also

50

00:02:17,750 --> 00:02:14,760

time is 1:00 to 3:00 p.m. used to

51  
00:02:20,360 --> 00:02:17,760  
standard time if you want to get on a

52  
00:02:23,839 --> 00:02:20,370  
mailing list on the sidebar on podcast

53  
00:02:25,309 --> 00:02:23,849  
UFO comm there is a little email sign if

54  
00:02:26,720 --> 00:02:25,319  
you just pop your email address in there

55  
00:02:29,990 --> 00:02:26,730  
and you'll get a notice for when the

56  
00:02:32,959 --> 00:02:30,000  
shows are coming up once a week and

57  
00:02:35,270 --> 00:02:32,969  
it'll also state the timings and all

58  
00:02:36,920 --> 00:02:35,280  
that and when the everything else shows

59  
00:02:39,800 --> 00:02:36,930  
starts again that notice will be

60  
00:02:43,220 --> 00:02:39,810  
included in that as well I think that's

61  
00:02:43,640 --> 00:02:43,230  
enough talking for me Alejandro how are

62  
00:02:59,780 --> 00:02:43,650  
you

63  
00:03:04,190 --> 00:02:59,790

yes I was in Roswell for the 70th

64

00:03:06,860 --> 00:03:04,200

anniversary shindig of course I've been

65

00:03:09,770 --> 00:03:06,870

out there for the last out during the

66

00:03:14,119 --> 00:03:09,780

event 20 years or no not that long ten

67

00:03:17,270 --> 00:03:14,129

years or so but yeah this was a lot of

68

00:03:19,520 --> 00:03:17,280

fun this was bigger than previously

69

00:03:23,599 --> 00:03:19,530

although it's continuing to do really

70

00:03:25,490 --> 00:03:23,609

well and this being the seventh 70th a

71

00:03:27,050 --> 00:03:25,500

lot more people had shown up so we had

72

00:03:30,770 --> 00:03:27,060

like a lot of people from Arizona

73

00:03:33,500 --> 00:03:30,780

in fact Arizona MUFON had a float in the

74

00:03:35,240 --> 00:03:33,510

parade so that was a lot of fun and the

75

00:03:38,509 --> 00:03:35,250

parade actually was a lot bigger there

76

00:03:41,809 --> 00:03:38,519

were several floats so kg are a race

77

00:03:43,249 --> 00:03:41,819

Hobbs you know rents that the station

78

00:03:45,219 --> 00:03:43,259

that has a bunch of podcasts they were

79

00:03:48,860 --> 00:03:45,229

they had a float and they were also

80

00:03:51,170 --> 00:03:48,870

sponsoring and helping organize the

81

00:03:54,110 --> 00:03:51,180

daily Roswell Records event and the days

82

00:03:56,899 --> 00:03:54,120

the daily Roswell record also had its

83

00:04:00,020 --> 00:03:56,909

own float so this is fun I got to be on

84

00:04:02,839 --> 00:04:00,030

that float with Nick Pope chase Gretzky

85

00:04:04,909 --> 00:04:02,849

or no I'm sorry not Nick it was Richard

86

00:04:06,830 --> 00:04:04,919

Dolan Nick was there speaking he wasn't

87

00:04:07,640 --> 00:04:06,840

on the float but Richard Dolan his

88

00:04:11,030 --> 00:04:07,650

fiancee

89

00:04:14,599 --> 00:04:11,040

Traci chase klutz key myself David

90

00:04:15,949 --> 00:04:14,609

Marlar and his girlfriend and her girls

91

00:04:18,979 --> 00:04:15,959

and then Josh gates

92

00:04:21,860 --> 00:04:18,989

so from the TV show what expedition

93

00:04:23,600 --> 00:04:21,870

unknown home he was on our float too so

94

00:04:25,220 --> 00:04:23,610

that was kind of a lot of fun I posted

95

00:04:28,370 --> 00:04:25,230

some pictures

96

00:04:30,020 --> 00:04:28,380

that so yeah that was a good time and as

97

00:04:31,340 --> 00:04:30,030

far as the talks you know lots of great

98

00:04:34,490 --> 00:04:31,350

interesting stuff

99

00:04:37,220 --> 00:04:34,500

no graham breaking or even new piece of

100

00:04:40,220 --> 00:04:37,230

information I don't think was relayed

101  
00:04:41,480 --> 00:04:40,230  
mostly people at our event at the for

102  
00:04:44,270 --> 00:04:41,490  
the newspaper we're talking about

103  
00:04:46,010 --> 00:04:44,280  
Roswell itself which was kind of a

104  
00:04:48,470 --> 00:04:46,020  
challenge for some of us because we're

105  
00:04:51,640 --> 00:04:48,480  
not experts on Roswell but of course we

106  
00:04:55,390 --> 00:04:51,650  
are familiar with Roswell so we talked

107  
00:04:58,130 --> 00:04:55,400  
about that I talked about some potential

108  
00:05:00,500 --> 00:04:58,140  
evidence that you know some things that

109  
00:05:02,870 --> 00:05:00,510  
need to be analyzed that hopefully I'm a

110  
00:05:05,630 --> 00:05:02,880  
project of that will get those things

111  
00:05:10,310 --> 00:05:05,640  
analyzed but also some of the recent new

112  
00:05:11,630 --> 00:05:10,320  
news that discussed Roswell such as the

113  
00:05:14,600 --> 00:05:11,640

document that you're going to be talking

114

00:05:17,420 --> 00:05:14,610

to Stanton Friedman about and also

115

00:05:21,530 --> 00:05:17,430

another alleged witness who has come

116

00:05:23,660 --> 00:05:21,540

forth and that was in Irena Scott's book

117

00:05:27,290 --> 00:05:23,670

so I've interviewed her not too long ago

118

00:05:29,900 --> 00:05:27,300

but she's got a new book out called UFOs

119

00:05:32,360 --> 00:05:29,910

seventy years of lies misinformation and

120

00:05:36,020 --> 00:05:32,370

government cover-ups she is a PhD

121

00:05:39,320 --> 00:05:36,030

actually and she's been in ethology for

122

00:05:40,670 --> 00:05:39,330

decades yeah as an MUFON and stuff like

123

00:05:43,460 --> 00:05:40,680

that so this book is kind of all about

124

00:05:45,320 --> 00:05:43,470

her research including yeah the

125

00:05:48,620 --> 00:05:45,330

testimony of some guy who says he was

126  
00:05:50,270 --> 00:05:48,630  
part of where I had seen some stuff so I

127  
00:05:51,980 --> 00:05:50,280  
can go over the details and that story

128  
00:05:54,860 --> 00:05:51,990  
to if you like yeah yeah what's here

129  
00:05:57,830 --> 00:05:54,870  
about that okay so this is interesting

130  
00:06:00,980 --> 00:05:57,840  
this guy says he was a police officer a

131  
00:06:04,610 --> 00:06:00,990  
deputy sheriff in fact in Big Springs

132  
00:06:06,230 --> 00:06:04,620  
Texas and he know in the 40 says they

133  
00:06:08,840 --> 00:06:06,240  
were going to pick up a witness in

134  
00:06:11,210 --> 00:06:08,850  
Roswell he was riding with his sheriff

135  
00:06:13,460 --> 00:06:11,220  
well along the way they said they saw

136  
00:06:17,780 --> 00:06:13,470  
some commotion near Roswell off the side

137  
00:06:19,370 --> 00:06:17,790  
of the road so they parked and right off

138  
00:06:22,790 --> 00:06:19,380

the road so they said they were within

139

00:06:25,070 --> 00:06:22,800

12 feet of these Gurney's with bodies on

140

00:06:26,900 --> 00:06:25,080

them that the wind blew and he could see

141

00:06:29,210 --> 00:06:26,910

under the Gurney's and there were aliens

142

00:06:31,970 --> 00:06:29,220

under there he said they're like five

143

00:06:34,460 --> 00:06:31,980

feet tall big heads big eyes like like

144

00:06:38,030 --> 00:06:34,470

we know and then off in the distance

145

00:06:39,300 --> 00:06:38,040

they had like a crane that was picking

146

00:06:45,150 --> 00:06:39,310

up some large

147

00:06:47,130 --> 00:06:45,160

100 foot in diameter a circular object

148

00:06:49,830 --> 00:06:47,140

that seemed to have crashed in the

149

00:06:52,080 --> 00:06:49,840

desert there and they were collecting

150

00:06:54,300 --> 00:06:52,090

all of this so they looked at it for a

151

00:06:56,640 --> 00:06:54,310

while the military guys told them they

152

00:06:58,470 --> 00:06:56,650

couldn't get any closer and eventually

153

00:07:01,470 --> 00:06:58,480

they left and went and picked up their

154

00:07:03,780 --> 00:07:01,480

prisoner so that's a story there are a

155

00:07:05,520 --> 00:07:03,790

couple issues yes I was just gonna ask

156

00:07:09,450 --> 00:07:05,530

you about an issue that I was thinking

157

00:07:11,160 --> 00:07:09,460

go ahead yeah well what's yours mine is

158

00:07:14,100 --> 00:07:11,170

when you have an object that's a hundred

159

00:07:15,540 --> 00:07:14,110

feet across first of all there's no

160

00:07:17,940 --> 00:07:15,550

other mention of anything like that

161

00:07:20,430 --> 00:07:17,950

there's this small like Volkswagen sized

162

00:07:21,630 --> 00:07:20,440

thing mentioned at the second site or

163

00:07:24,660 --> 00:07:21,640

whatever you heard that a number of

164

00:07:28,290 --> 00:07:24,670

times I knew only here scattered debris

165

00:07:30,210 --> 00:07:28,300

and the the first site and then secondly

166

00:07:33,600 --> 00:07:30,220

how on earth would you transport a

167

00:07:38,160 --> 00:07:33,610

hundred you know circular 100-foot

168

00:07:40,410 --> 00:07:38,170

object anywhere you know that just can't

169

00:07:43,970 --> 00:07:40,420

be done or it can't be done easily or

170

00:07:47,400 --> 00:07:43,980

you know covertly in any type of way

171

00:07:49,800 --> 00:07:47,410

yeah so those are all great points yeah

172

00:07:52,200 --> 00:07:49,810

there's a lot of obvious I think glaring

173

00:07:54,810 --> 00:07:52,210

issues also none of the crash heights

174

00:07:57,480 --> 00:07:54,820

were right off the road where people

175

00:07:59,940 --> 00:07:57,490

could see him the military he says

176

00:08:03,420 --> 00:07:59,950

because the witness you can see the

177

00:08:05,160 --> 00:08:03,430

testimony he says the military didn't

178

00:08:07,200 --> 00:08:05,170

bother him didn't tell him hey don't

179

00:08:10,950 --> 00:08:07,210

tell anybody about this or get out of

180

00:08:13,140 --> 00:08:10,960

here and or anything like that so which

181

00:08:15,960 --> 00:08:13,150

is kind of funny they just you know let

182

00:08:17,610 --> 00:08:15,970

him look and they had these bodies you

183

00:08:20,520 --> 00:08:17,620

know ten feet away from the road where

184

00:08:22,980 --> 00:08:20,530

these guys came and parked so that

185

00:08:24,930 --> 00:08:22,990

doesn't fit the location there's also

186

00:08:29,100 --> 00:08:24,940

another problem so chase collects key

187

00:08:31,680 --> 00:08:29,110

was part of this where Irina and Philip

188

00:08:33,180 --> 00:08:31,690

mantle who published the book and also

189

00:08:35,880 --> 00:08:33,190

wrote the story that you can read about

190

00:08:37,440 --> 00:08:35,890

this on open minds went to MUFON said

191

00:08:39,900 --> 00:08:37,450

hey what do you guys think can you help

192

00:08:41,460 --> 00:08:39,910

us do do some research well some of the

193

00:08:43,710 --> 00:08:41,470

MUFON guys did some research and they

194

00:08:46,410 --> 00:08:43,720

found that the guy that he says was

195

00:08:52,350 --> 00:08:46,420

sheriff that he went with was sheriff in

196

00:08:53,110 --> 00:08:52,360

the 30s then he lost his sheriff duties

197

00:08:56,230 --> 00:08:53,120

you know someone else

198

00:08:57,880 --> 00:08:56,240

was elected and then he regained he

199

00:09:01,030 --> 00:08:57,890

won't ran for sheriff again and regain

200

00:09:02,590 --> 00:09:01,040

that position in the 50s but in the 40s

201  
00:09:05,680 --> 00:09:02,600  
this guy wasn't Sheriff

202  
00:09:08,560 --> 00:09:05,690  
so they suspect perhaps this guy is not

203  
00:09:11,200 --> 00:09:08,570  
necessarily lying but he saw something

204  
00:09:14,110 --> 00:09:11,210  
else maybe he saw something else that

205  
00:09:17,380 --> 00:09:14,120  
had crashes in the 50s when he and the

206  
00:09:19,960 --> 00:09:17,390  
sheriff we're driving near Roswell so

207  
00:09:22,660 --> 00:09:19,970  
yeah so there's a lot of problems with

208  
00:09:24,220 --> 00:09:22,670  
this gentleman's testimony yeah but it's

209  
00:09:27,220 --> 00:09:24,230  
something that else has kind of made

210  
00:09:30,030 --> 00:09:27,230  
some news because of course UK tabloids

211  
00:09:34,720 --> 00:09:30,040  
have picked up on the story yeah yeah

212  
00:09:38,640 --> 00:09:34,730  
yes of course they have and I and and

213  
00:09:42,579 --> 00:09:38,650

roll with it absolutely right yeah

214

00:09:44,470 --> 00:09:42,589

anyway that is interesting yeah I don't

215

00:09:46,510 --> 00:09:44,480

know it doesn't sound it doesn't sound

216

00:09:48,760 --> 00:09:46,520

really that good and it's it's it's too

217

00:09:52,870 --> 00:09:48,770

bad and I was wondering you know I was

218

00:09:55,780 --> 00:09:52,880

gonna talk to Stan about Anna if there's

219

00:09:57,760 --> 00:09:55,790

a lot of people that have shown up over

220

00:09:59,800 --> 00:09:57,770

the years at the festival that were

221

00:10:03,730 --> 00:09:59,810

purported witnesses do you happen to

222

00:10:05,680 --> 00:10:03,740

know that I do because almost every year

223

00:10:08,440 --> 00:10:05,690

you know there's some hub and some

224

00:10:11,050 --> 00:10:08,450

secrecy you know did you hear about this

225

00:10:13,870 --> 00:10:11,060

guy or you know I talked to this guy or

226

00:10:17,560 --> 00:10:13,880

that guy and so that that sort of thing

227

00:10:21,460 --> 00:10:17,570

does happen in fact I heard of someone

228

00:10:24,880 --> 00:10:21,470

that supposedly was talking to people at

229

00:10:27,160 --> 00:10:24,890

this event as well so I'm not sure of

230

00:10:29,140 --> 00:10:27,170

any of the details and a lot of times

231

00:10:32,560 --> 00:10:29,150

these things don't pan out but sometimes

232

00:10:34,269 --> 00:10:32,570

they do so we'll see and sometimes these

233

00:10:37,150 --> 00:10:34,279

people go to Stanton so that'll be a

234

00:10:39,640 --> 00:10:37,160

great question to ask him as well

235

00:10:41,290 --> 00:10:39,650

he's probably aware of this story too so

236

00:10:45,310 --> 00:10:41,300

it'd be interesting to see what he

237

00:10:46,960 --> 00:10:45,320

thinks of it and of course the and the

238

00:10:48,280 --> 00:10:46,970

other thing I spoke about is this

239

00:10:50,560 --> 00:10:48,290

document that you're going to talk to

240

00:10:52,630 --> 00:10:50,570

Stan about which many of us feel there

241

00:10:54,130 --> 00:10:52,640

are many problems with so it'll be

242

00:10:57,220 --> 00:10:54,140

interesting to hear what Stanton has to

243

00:10:59,470 --> 00:10:57,230

say yes it will you know I don't know I

244

00:11:01,060 --> 00:10:59,480

know at first he thought it was pretty

245

00:11:03,430 --> 00:11:01,070

good but I think he may have changed his

246

00:11:06,970 --> 00:11:03,440

not mind but actually I have absolutely

247

00:11:09,009 --> 00:11:06,980

no idea what his stand is so I'm taken

248

00:11:11,680 --> 00:11:09,019

you know him on with that open question

249

00:11:13,840 --> 00:11:11,690

we'll see what he says yeah I have a

250

00:11:15,519 --> 00:11:13,850

funny stand story - I don't think I have

251  
00:11:19,150 --> 00:11:15,529  
shared this with you before or on your

252  
00:11:21,220 --> 00:11:19,160  
show so at the Museum so and I was able

253  
00:11:22,900 --> 00:11:21,230  
to go visit Stan and he's always with

254  
00:11:24,939 --> 00:11:22,910  
Kathleen Martin you know someone he's

255  
00:11:28,360 --> 00:11:24,949  
written books with recently and she's

256  
00:11:29,829 --> 00:11:28,370  
also helping him because you know he's

257  
00:11:34,210 --> 00:11:29,839  
getting up there and he needs some help

258  
00:11:36,040 --> 00:11:34,220  
so great both great people but one year

259  
00:11:39,340 --> 00:11:36,050  
and this is about a couple years ago

260  
00:11:41,530 --> 00:11:39,350  
when you go into the museum on the right

261  
00:11:43,600 --> 00:11:41,540  
in between the stands is where all the

262  
00:11:45,879 --> 00:11:43,610  
speakers are and Kathleen and Stan are

263  
00:11:49,329 --> 00:11:45,889

always first there in that first spot

264

00:11:51,850 --> 00:11:49,339

right and one year Stan was sick and he

265

00:11:53,710 --> 00:11:51,860

couldn't make it out there and so just

266

00:11:56,920 --> 00:11:53,720

to make it feel like he was there

267

00:11:59,050 --> 00:11:56,930

Kathleen put a picture of him near the

268

00:12:01,210 --> 00:11:59,060

seat where he would usually sit and she

269

00:12:04,600 --> 00:12:01,220

was selling the books but it was just

270

00:12:06,189 --> 00:12:04,610

hilarious because people would walk up

271

00:12:08,259 --> 00:12:06,199

and you got that impression although I

272

00:12:10,210 --> 00:12:08,269

knew better when I first saw it you walk

273

00:12:12,579 --> 00:12:10,220

up and you see Kathleen and this picture

274

00:12:15,519 --> 00:12:12,589

of Stan everybody thought he had passed

275

00:12:17,170 --> 00:12:15,529

away I don't know for really freaking

276

00:12:19,840 --> 00:12:17,180

out and you know their first reaction is

277

00:12:21,550 --> 00:12:19,850

oh my gosh what happened this is so sad

278

00:12:24,100 --> 00:12:21,560

and Catholic it's like no no no she had

279

00:12:26,199 --> 00:12:24,110

to explain a lot that year oh no he's

280

00:12:28,090 --> 00:12:26,209

fine he's fine yeah yeah I remember that

281

00:12:31,449 --> 00:12:28,100

yeah Wow

282

00:12:31,840 --> 00:12:31,459

so anything else going on ah that's

283

00:12:33,550 --> 00:12:31,850

better

284

00:12:36,460 --> 00:12:33,560

I mean there is some other stuff out

285

00:12:38,710 --> 00:12:36,470

there I just got back you know from ours

286

00:12:41,860 --> 00:12:38,720

as well and then yesterday was a force

287

00:12:44,079 --> 00:12:41,870

so doing some celebration and stuff so I

288

00:12:46,960 --> 00:12:44,089

did upstate date the site yesterday so

289

00:12:50,350 --> 00:12:46,970

Anne while I was gone so you have daily

290

00:12:52,269 --> 00:12:50,360

news headlines from all of this week and

291

00:12:56,490 --> 00:12:52,279

there are some interesting headlines out

292

00:12:58,720 --> 00:12:56,500

there such as now that the UK UFO FILES

293

00:13:00,730 --> 00:12:58,730

people are taking a look at them and

294

00:13:03,550 --> 00:13:00,740

writing some stories about those so

295

00:13:08,259 --> 00:13:03,560

there are a couple interesting stories

296

00:13:10,809 --> 00:13:08,269

like these disc roo from a Cold War spy

297

00:13:13,530 --> 00:13:10,819

plane in the UK that saw some object

298

00:13:17,110 --> 00:13:13,540

that was covered with 20 flashing lights

299

00:13:19,179 --> 00:13:17,120

so that's really interesting so that's a

300

00:13:20,980 --> 00:13:19,189

good story out there but yeah so there's

301

00:13:23,770 --> 00:13:20,990

some interesting headlines

302

00:13:26,890 --> 00:13:23,780

there is a sighting report from Roger

303

00:13:28,810 --> 00:13:26,900

Marsh from South Dakota about a disc

304

00:13:31,090 --> 00:13:28,820

object that a witness says look like it

305

00:13:33,880 --> 00:13:31,100

broke into two pieces or two different

306

00:13:35,920 --> 00:13:33,890

objects and flew away so that's kind of

307

00:13:37,870 --> 00:13:35,930

interesting too but you can see it all

308

00:13:40,960 --> 00:13:37,880

at OpenMind stat TV great

309

00:13:43,120 --> 00:13:40,970

alright alejandro hey thanks so much yep

310

00:13:44,070 --> 00:13:43,130

thank you all right and we'll talk to

311

00:13:46,930 --> 00:13:44,080

you next week

312

00:13:49,840 --> 00:13:46,940

all righty and thanks again for doing

313

00:13:52,240 --> 00:13:49,850

the show live oh my pleasure thanks for

314

00:14:01,280 --> 00:13:52,250

having me all right okay hang anyone

315

00:14:01,290 --> 00:14:38,570

you

316

00:15:17,600 --> 00:14:59,860

[Music]

317

00:15:37,790 --> 00:15:17,610

[Laughter]

318

00:15:37,800 --> 00:15:47,139

[Music]

319

00:15:54,260 --> 00:15:50,030

hello hi Stan how are you welcome back

320

00:15:56,510 --> 00:15:54,270

to the show I'm glad to be on again yes

321

00:16:00,079 --> 00:15:56,520

and you've been you've been doing a lot

322

00:16:02,840 --> 00:16:00,089

of traveling right yeah quite a bit yeah

323

00:16:06,260 --> 00:16:02,850

I just got back from incredibly

324

00:16:08,930 --> 00:16:06,270

successful Roswell festival annual

325

00:16:13,610 --> 00:16:08,940

festivals 70th anniversary of their bras

326

00:16:15,650 --> 00:16:13,620

well incident and best crowd I mean 70

327

00:16:18,160 --> 00:16:15,660

percent over last year for the weekend

328

00:16:21,650 --> 00:16:18,170

over well over 7,000 people

329

00:16:24,430 --> 00:16:21,660

Wow can they accommodate all those

330

00:16:27,170 --> 00:16:24,440

people comfortably they're in that town

331

00:16:29,269 --> 00:16:27,180

well yeah they've built a few new motels

332

00:16:33,560 --> 00:16:29,279

and they weren't all there at once it's

333

00:16:35,960 --> 00:16:33,570

over four-day period but still yeah it's

334

00:16:39,130 --> 00:16:35,970

it's festival time they closed off some

335

00:16:45,319 --> 00:16:39,140

of the streets and yeah and the ball

336

00:16:46,970 --> 00:16:45,329

do you enjoy or is there some no no

337

00:16:52,360 --> 00:16:46,980

that's good to hear there wasn't any

338

00:16:58,970 --> 00:16:52,370

fringy stuff good speakers solid stuff I

339

00:17:00,610 --> 00:16:58,980

thought I saw two tinfoil hats once they

340

00:17:04,220 --> 00:17:00,620

probably did that as a joke I'm sure

341

00:17:06,290 --> 00:17:04,230

yeah yeah yeah so the the tone is

342

00:17:08,179 --> 00:17:06,300

certainly not they've got a new director

343

00:17:12,230 --> 00:17:08,189

at the Museum and he's done a great job

344

00:17:14,120 --> 00:17:12,240

and updating the place and keeping

345

00:17:16,429 --> 00:17:14,130

things running on time and all that sort

346

00:17:18,439 --> 00:17:16,439

of stuff now it was a pleasure I mean

347

00:17:22,220 --> 00:17:18,449

it's I have to take three flights to get

348

00:17:25,370 --> 00:17:22,230

there so it's Detroit oh yeah yeah

349

00:17:27,260 --> 00:17:25,380

that's that's uh oh is it oh my god so

350

00:17:28,460 --> 00:17:27,270

you have to fly three different you have

351

00:17:31,669 --> 00:17:28,470

to have two different lay overs

352

00:17:34,130 --> 00:17:31,679

basically yeah I fly from here to

353

00:17:38,000 --> 00:17:34,140

Montreal in Montreal of Dallas and

354

00:17:40,580 --> 00:17:38,010

Dallas to Roger oh boy yeah yeah well

355

00:17:42,410 --> 00:17:40,590

I'm in Reverse yeah I really wanted to

356

00:17:43,850 --> 00:17:42,420

make it out there I think I told you

357

00:17:46,940 --> 00:17:43,860

earlier just when we chatted for a

358

00:17:48,470 --> 00:17:46,950

second I'm over in Russia but you know

359

00:17:49,220 --> 00:17:48,480

the seventieth would have been a great

360

00:17:50,720 --> 00:17:49,230

one to go to

361

00:17:53,330 --> 00:17:50,730

but I'll get out there one of these

362

00:17:55,640 --> 00:17:53,340

years and you know it should be a lot of

363

00:17:59,390 --> 00:17:55,650

fun catching up you know with a lot of

364

00:18:02,000 --> 00:17:59,400

friends and and it I just have never

365

00:18:04,580 --> 00:18:02,010

even been there you know to the town and

366

00:18:08,659 --> 00:18:04,590

I lived in New Mexico at one time and oh

367

00:18:12,830 --> 00:18:08,669

you did yeah lived in Los Alamos yeah oh

368

00:18:14,870 --> 00:18:12,840

there's a special place well yeah my my

369

00:18:17,870 --> 00:18:14,880

yes bandolier and all the beautiful

370

00:18:19,549 --> 00:18:17,880

parks around there my sister and

371

00:18:21,830 --> 00:18:19,559

brother-in-law he worked at the labs and

372

00:18:24,049 --> 00:18:21,840

I lived there for about four or five

373

00:18:27,440 --> 00:18:24,059

months so yeah it's a beautiful area

374

00:18:29,720 --> 00:18:27,450

very nice if it can stand the altitude

375

00:18:31,370 --> 00:18:29,730

now yeah it really takes it takes you a

376

00:18:35,690 --> 00:18:31,380

couple weeks to get used to that yeah

377

00:18:38,390 --> 00:18:35,700

from what I remember yeah so stand we

378

00:18:39,799 --> 00:18:38,400

had you on I think it was about four or

379

00:18:42,980 --> 00:18:39,809

five months ago something like that I

380

00:18:44,539 --> 00:18:42,990

always loved to have you on and you know

381

00:18:47,450 --> 00:18:44,549

I think you always have a really good

382

00:18:49,789 --> 00:18:47,460

message and one of the things I wanted

383

00:18:52,640 --> 00:18:49,799

to talk to you about was of course

384

00:18:54,049 --> 00:18:52,650

Roswell we can get more into that but

385

00:18:57,110 --> 00:18:54,059

after that I want to talk to you a

386

00:18:59,270 --> 00:18:57,120

little bit about the document that was

387

00:19:01,549 --> 00:18:59,280

you know came out of Heather Wade's

388

00:19:03,890 --> 00:19:01,559

midnight in the desert I know yeah you

389

00:19:05,030 --> 00:19:03,900

had talked about that but first I want

390

00:19:07,720 --> 00:19:05,040

to ask you a little bit more about

391

00:19:11,360 --> 00:19:07,730

Roswell what did you think about the

392

00:19:13,250 --> 00:19:11,370

alleged witness Alejandro and I just

393

00:19:14,720 --> 00:19:13,260

kind of we sort of poked a couple of

394

00:19:16,880 --> 00:19:14,730

holes and some of the things that he

395

00:19:19,789 --> 00:19:16,890

said the new witness that supposedly

396

00:19:22,159 --> 00:19:19,799

came forward and just I don't know what

397

00:19:23,840 --> 00:19:22,169

new witness was that okay this is the

398

00:19:26,060 --> 00:19:23,850

one that said he accompanied the police

399

00:19:29,120 --> 00:19:26,070

officer and saw the crash on the side of

400

00:19:30,500 --> 00:19:29,130

the road so if you hadn't heard about it

401  
00:19:32,780 --> 00:19:30,510  
I thought it was something that might

402  
00:19:35,840 --> 00:19:32,790  
have been circulating this this last at

403  
00:19:37,940 --> 00:19:35,850  
law and I've been tied up I was even

404  
00:19:42,549 --> 00:19:37,950  
offline when I was down in Roswell I was

405  
00:19:46,430 --> 00:19:42,559  
busy all day long and so no I haven't no

406  
00:19:48,200 --> 00:19:46,440  
people better understand I'm my whole

407  
00:19:50,299 --> 00:19:48,210  
goal is to have facts in hand before

408  
00:19:53,360 --> 00:19:50,309  
putting mouth in gear sure yeah like

409  
00:19:56,510 --> 00:19:53,370  
express opinions without having data I

410  
00:19:57,850 --> 00:19:56,520  
did find some data on the new mj-12

411  
00:20:00,760 --> 00:19:57,860  
documents but

412  
00:20:03,289 --> 00:20:00,770  
but and I barely had time to do this

413  
00:20:06,770 --> 00:20:03,299

yeah yeah

414

00:20:10,490 --> 00:20:06,780

but yeah you know digging out facts it's

415

00:20:12,640 --> 00:20:10,500

not as easy as it sounds you know and I

416

00:20:16,010 --> 00:20:12,650

see a lot of people in the field who

417

00:20:18,710 --> 00:20:16,020

accept claims as if they were evidence

418

00:20:21,200 --> 00:20:18,720

but things aren't evidence you need data

419

00:20:23,360 --> 00:20:21,210

I need something solid to basically

420

00:20:25,760 --> 00:20:23,370

claims on not just because oh it's

421

00:20:27,169 --> 00:20:25,770

unlike a great story you know a lot of

422

00:20:29,060 --> 00:20:27,179

great stories out there that doesn't

423

00:20:30,799 --> 00:20:29,070

make them prove and people been writing

424

00:20:34,399 --> 00:20:30,809

science fiction for a long time

425

00:20:35,779 --> 00:20:34,409

yeah and a lot of times Alejandra and I

426

00:20:38,810 --> 00:20:35,789

have brought up and I did with the

427

00:20:41,450 --> 00:20:38,820

guests last week was the fact that the

428

00:20:45,200 --> 00:20:41,460

British tabloids seemed to just run with

429

00:20:48,110 --> 00:20:45,210

about anything that pops up and and I

430

00:20:50,870 --> 00:20:48,120

think you know what happens and a lot of

431

00:20:54,440 --> 00:20:50,880

what happens these days is you know the

432

00:20:57,529 --> 00:20:54,450

myths do become reality to a lot of

433

00:20:59,570 --> 00:20:57,539

people because yeah it's only you know

434

00:21:01,640 --> 00:20:59,580

the surfaces they're only you know like

435

00:21:03,590 --> 00:21:01,650

if you're a person let's just say a

436

00:21:05,330 --> 00:21:03,600

person on the outside will put it that

437

00:21:07,159 --> 00:21:05,340

way someone that doesn't really pay

438

00:21:08,750 --> 00:21:07,169

attention to UFOs and you see a story

439

00:21:11,810 --> 00:21:08,760

you're gonna read the story and see it

440

00:21:13,279 --> 00:21:11,820

in the news and think hmm that might you

441

00:21:15,049 --> 00:21:13,289

know that must be real or you know what

442

00:21:16,430 --> 00:21:15,059

I mean it's it's kind of a shame yeah

443

00:21:17,960 --> 00:21:16,440

they wouldn't have published that if it

444

00:21:23,149 --> 00:21:17,970

wasn't true would they unfortunately

445

00:21:25,730 --> 00:21:23,159

would if they felt like yeah yeah so

446

00:21:28,909 --> 00:21:25,740

there's a lot of that going on that it's

447

00:21:30,560 --> 00:21:28,919

really it's really hard these days

448

00:21:34,669 --> 00:21:30,570

because of that it just seems like

449

00:21:39,620 --> 00:21:34,679

that's it's I want to say it's becoming

450

00:21:42,350 --> 00:21:39,630

more and more watered down you know well

451  
00:21:44,390 --> 00:21:42,360  
here many people have finally recognized

452  
00:21:47,000 --> 00:21:44,400  
the cheese there's a lot of interest in

453  
00:21:51,140 --> 00:21:47,010  
UFOs that's wrong with this story what

454  
00:21:53,810 --> 00:21:51,150  
the hell that's not good enough you know

455  
00:21:56,600 --> 00:21:53,820  
it appeals to people maybe but some

456  
00:21:59,210 --> 00:21:56,610  
people but they believe what they want

457  
00:22:00,890 --> 00:21:59,220  
to believe I suppose and if it sounds

458  
00:22:04,970 --> 00:22:00,900  
like it's coming from an or feet of

459  
00:22:07,730 --> 00:22:04,980  
course source then let's go at that of

460  
00:22:09,919 --> 00:22:07,740  
course you know what can I say

461  
00:22:13,970 --> 00:22:09,929  
I'm a scientist not a science fiction

462  
00:22:16,760 --> 00:22:13,980  
writer yes Stan I'll just let you know

463  
00:22:19,760 --> 00:22:16,770

we do have questions that do come in to

464

00:22:22,100 --> 00:22:19,770

the chat room we also have a couple of

465

00:22:27,500 --> 00:22:22,110

people that have posted some questions

466

00:22:31,010 --> 00:22:27,510

up on the forum which I will get to when

467

00:22:33,530 --> 00:22:31,020

I can someone wanted to know about and I

468

00:22:35,260 --> 00:22:33,540

I'm not familiar talk about facts in

469

00:22:37,730 --> 00:22:35,270

hand I don't have the facts in E in here

470

00:22:41,299 --> 00:22:37,740

although I had him on my show recently

471

00:22:44,180 --> 00:22:41,309

but someone wants to know what you think

472

00:22:47,750 --> 00:22:44,190

about Kevin Randall's change in position

473

00:22:50,960 --> 00:22:47,760

over the years regarding Roswell well

474

00:22:53,120 --> 00:22:50,970

I'm not satisfied that it's legitimate I

475

00:22:55,430 --> 00:22:53,130

mean he has the right to take any

476

00:22:57,440 --> 00:22:55,440

position he feels like but well I

477

00:22:59,030 --> 00:22:57,450

subtract somebody but the other day by

478

00:23:01,070 --> 00:22:59,040

pointing out that Kevin I mean we've

479

00:23:04,310 --> 00:23:01,080

known each other for what 20 or more

480

00:23:07,520 --> 00:23:04,320

years I suppose but and we've disagreed

481

00:23:11,180 --> 00:23:07,530

for a good deal at that time people

482

00:23:13,430 --> 00:23:11,190

forget kevin is a very effective writer

483

00:23:17,150 --> 00:23:13,440

of fiction he's written more than 80

484

00:23:18,950 --> 00:23:17,160

books which is I'm very mostly under

485

00:23:24,610 --> 00:23:18,960

other names now not under his own name

486

00:23:29,870 --> 00:23:24,620

and so his standard is what sounds good

487

00:23:32,180 --> 00:23:29,880

not what is true I mean all fiction

488

00:23:33,140 --> 00:23:32,190

writers I read a lot of fiction I'm not

489

00:23:35,750 --> 00:23:33,150

saying there's anything wrong with

490

00:23:39,500 --> 00:23:35,760

writing fiction but it's not the same as

491

00:23:42,620 --> 00:23:39,510

nonfiction and there are times when

492

00:23:44,630 --> 00:23:42,630

Kevin surprises me for example he

493

00:23:50,030 --> 00:23:44,640

complained in his first objection to

494

00:23:52,220 --> 00:23:50,040

mj-12 that it says Admiral Roscoe hill

495

00:23:54,049 --> 00:23:52,230

encoder well he was only a Rear Admiral

496

00:23:58,820 --> 00:23:54,059

he would never have called himself

497

00:24:01,700 --> 00:23:58,830

Admiral and the fact of the matter is

498

00:24:04,940 --> 00:24:01,710

that all the military officers on mj-12

499

00:24:10,400 --> 00:24:04,950

the generic ranks for use for its

500

00:24:12,950 --> 00:24:10,410

standard practice I general good pastor

501  
00:24:14,030 --> 00:24:12,960  
was Ike staff secretary he was a

502  
00:24:18,890 --> 00:24:14,040  
brigadier general

503  
00:24:20,180 --> 00:24:18,900  
I served know Ike very well and so and

504  
00:24:21,870 --> 00:24:20,190  
when I had meetings at the White House

505  
00:24:24,510 --> 00:24:21,880  
he would write men

506  
00:24:25,680 --> 00:24:24,520  
it's in comments and so forth did you

507  
00:24:32,930 --> 00:24:25,690  
know the president doesn't write

508  
00:24:35,220 --> 00:24:32,940  
summaries of meeting and I writing

509  
00:24:41,130 --> 00:24:35,230  
comments I just lost where I was going

510  
00:24:46,160 --> 00:24:41,140  
with that on anyway at he would list

511  
00:24:50,130 --> 00:24:46,170  
attendees at meetings including general

512  
00:24:53,520 --> 00:24:50,140  
good pastor he'd sign it brigadier

513  
00:24:56,070 --> 00:24:53,530

general good pastor I called two

514

00:24:57,960 --> 00:24:56,080

different archivists and they said its

515

00:25:00,330 --> 00:24:57,970

standard practice and one pointed out

516

00:25:06,150 --> 00:25:00,340

and I checked and he was right that Ike

517

00:25:07,380 --> 00:25:06,160

used generic ranks and you know I have

518

00:25:11,820 --> 00:25:07,390

meetings where there were five different

519

00:25:14,490 --> 00:25:11,830

people given generic ranks by that I

520

00:25:17,910 --> 00:25:14,500

mean general or Admiral as opposed to

521

00:25:19,740 --> 00:25:17,920

Rear Admiral brigadier general Major

522

00:25:23,910 --> 00:25:19,750

General lieutenant general four-star

523

00:25:26,880 --> 00:25:23,920

general general a standard practice now

524

00:25:28,470 --> 00:25:26,890

the reason I bring this up kevin was

525

00:25:28,980 --> 00:25:28,480

associated with the military for many

526  
00:25:32,880 --> 00:25:28,990  
years

527  
00:25:36,150 --> 00:25:32,890  
mmm I give him credit you know he served

528  
00:25:39,510 --> 00:25:36,160  
as a country very well but that was

529  
00:25:41,960 --> 00:25:39,520  
certainly and he even asked me show me

530  
00:25:45,060 --> 00:25:41,970  
something else were rug Hill encoder

531  
00:25:47,310 --> 00:25:45,070  
described himself as an admiral another

532  
00:25:48,750 --> 00:25:47,320  
signature where he signed there is no

533  
00:25:52,080 --> 00:25:48,760  
he'll include her signature on the

534  
00:25:54,770 --> 00:25:52,090  
document so things like that omit

535  
00:25:58,440 --> 00:25:54,780  
bothered me over the years and I once

536  
00:26:03,000 --> 00:25:58,450  
made up a list of 38 false claims that

537  
00:26:05,430 --> 00:26:03,010  
he had made my you know fact after fact

538  
00:26:08,790 --> 00:26:05,440

or fact maybe I should say factoid

539

00:26:13,040 --> 00:26:08,800

whatever it is is a factoid by

540

00:26:19,380 --> 00:26:13,050

definition a fact it isn't a fact I

541

00:26:21,720 --> 00:26:19,390

don't know so I I can't explain Kevin

542

00:26:24,690 --> 00:26:21,730

like I say he's a very successful writer

543

00:26:26,850 --> 00:26:24,700

and I envy him that I haven't written

544

00:26:28,680 --> 00:26:26,860

any fiction my name is only on six books

545

00:26:29,780 --> 00:26:28,690

that people asked me for four words for

546

00:26:35,820 --> 00:26:29,790

their books

547

00:26:37,770 --> 00:26:35,830

the same mm-hmm but we have been at odds

548

00:26:39,980 --> 00:26:37,780

about many aspects of it and we just

549

00:26:42,360 --> 00:26:39,990

seem to have different standards and

550

00:26:44,940 --> 00:26:42,370

well this is another thing he was

551

00:26:48,840 --> 00:26:44,950

touting a frank cathlin as an

552

00:26:51,270 --> 00:26:48,850

outstanding witness and it turns out

553

00:26:53,730 --> 00:26:51,280

that Frank didn't witness anything of

554

00:26:56,760 --> 00:26:53,740

Rosewall I made all kinds of claims

555

00:27:00,060 --> 00:26:56,770

which had no basis in fact and it was

556

00:27:02,220 --> 00:27:00,070

pretty obvious that they didn't so we

557

00:27:05,970 --> 00:27:02,230

have disagreed because we come at the

558

00:27:12,770 --> 00:27:05,980

problem differently mm-hmm

559

00:27:17,160 --> 00:27:12,780

speaking of this whole topic Roswell the

560

00:27:20,040 --> 00:27:17,170

I would consider that you you are the

561

00:27:23,010 --> 00:27:20,050

person that basically uncovered this

562

00:27:25,410 --> 00:27:23,020

forgotten story you know I'm the

563

00:27:27,150 --> 00:27:25,420

original civilian investigator of the

564

00:27:29,130 --> 00:27:27,160

Roswell incident that's how I put it

565

00:27:31,020 --> 00:27:29,140

yeah I notice I said that carefully and

566

00:27:32,190 --> 00:27:31,030

not the original investigator because

567

00:27:34,560 --> 00:27:32,200

the government was doing a lot of

568

00:27:36,210 --> 00:27:34,570

investigating they had a real problem on

569

00:27:39,600 --> 00:27:36,220

their hands what the heck is going on

570

00:27:42,210 --> 00:27:39,610

here but you know I'm from the public's

571

00:27:43,500 --> 00:27:42,220

viewpoint it was a 2-day story right

572

00:27:46,230 --> 00:27:43,510

here today gone tomorrow

573

00:27:49,950 --> 00:27:46,240

oh yeah and it was only when I got

574

00:27:54,600 --> 00:27:49,960

involved in the web 70s and then I had a

575

00:27:58,230 --> 00:27:54,610

false start it's kind of crazy I was

576

00:28:02,850 --> 00:27:58,240

living in California talked to a what he

577

00:28:04,260 --> 00:28:02,860

called Ranger forest ranger and a great

578

00:28:06,600 --> 00:28:04,270

sighting you know those guys are up in

579

00:28:08,790 --> 00:28:06,610

the mountains and so forth and he told

580

00:28:11,450 --> 00:28:08,800

me you really oughta talk to my mom she

581

00:28:14,460 --> 00:28:11,460

had a great say sighting and Albuquerque

582

00:28:17,640 --> 00:28:14,470

okay so I called his mom who was Lydia

583

00:28:22,260 --> 00:28:17,650

sleppy and she worked at a radio station

584

00:28:25,200 --> 00:28:22,270

I had a Roswell affiliate and her

585

00:28:29,100 --> 00:28:25,210

station was called by somebody the guy

586

00:28:31,170 --> 00:28:29,110

in Roswell dictating a story that she

587

00:28:34,020 --> 00:28:31,180

was a secretary basically not in the

588

00:28:35,760 --> 00:28:34,030

journalists and he wanted to put it out

589

00:28:38,070 --> 00:28:35,770

on the wire and the Roswell station

590

00:28:39,840 --> 00:28:38,080

wasn't on the news wire and so he's

591

00:28:41,970 --> 00:28:39,850

dictating the story and and something

592

00:28:43,370 --> 00:28:41,980

happened a bell rang whatever it was and

593

00:28:46,130 --> 00:28:43,380

there was a transmission

594

00:28:47,900 --> 00:28:46,140

continue this transmission right and she

595

00:28:53,300 --> 00:28:47,910

said what should I do and the guy says

596

00:28:54,980 --> 00:28:53,310

stop well I talked to her she told me

597

00:28:57,560 --> 00:28:54,990

her story he gave me some names of some

598

00:28:59,270 --> 00:28:57,570

people this what happened 47 you

599

00:29:02,840 --> 00:28:59,280

understand and I'm talking to her in

600

00:29:04,220 --> 00:29:02,850

about 74 so it's a long time later and I

601  
00:29:06,590 --> 00:29:04,230  
found some of the people but I got

602  
00:29:08,180 --> 00:29:06,600  
nowhere was a dead end I mean oh yeah I

603  
00:29:11,480 --> 00:29:08,190  
was there but I don't remember the

604  
00:29:14,930 --> 00:29:11,490  
details etc etc so okay it's sitting in

605  
00:29:16,310 --> 00:29:14,940  
the background and then like I won't say

606  
00:29:18,410 --> 00:29:16,320  
by accident I was in Baton Rouge

607  
00:29:23,540 --> 00:29:18,420  
Louisiana to give a lecture at Louisiana

608  
00:29:25,520 --> 00:29:23,550  
State University 1978 and the kitchen

609  
00:29:27,950 --> 00:29:25,530  
was the university had taken to me the

610  
00:29:30,740 --> 00:29:27,960  
big meaty to the biggest station in town

611  
00:29:33,800 --> 00:29:30,750  
television station and I was scheduled

612  
00:29:37,790 --> 00:29:33,810  
to do three interviews I guess they were

613  
00:29:39,500 --> 00:29:37,800

shorter news that day I did the first

614

00:29:42,260 --> 00:29:39,510

two and the third reporter was nowhere

615

00:29:43,760 --> 00:29:42,270

to be found and the station manager is

616

00:29:47,150 --> 00:29:43,770

looking at his watch he's giving me

617

00:29:49,880 --> 00:29:47,160

coffee and out of the blue he said

618

00:29:51,140 --> 00:29:49,890

something that was provocative he said

619

00:29:53,960 --> 00:29:51,150

you know the guy you really ought to

620

00:29:55,960 --> 00:29:53,970

talk to is Jesse Marcel really an

621

00:29:58,340 --> 00:29:55,970

investigator that I am I said who's he

622

00:30:00,350 --> 00:29:58,350

he handled wreckage on one of those

623

00:30:03,200 --> 00:30:00,360

saucers you're interested in he was in

624

00:30:04,580 --> 00:30:03,210

the military what you know he wasn't

625

00:30:07,850 --> 00:30:04,590

making a joke and there was nobody

626

00:30:09,470 --> 00:30:07,860

around he was clearly being serious well

627

00:30:11,390 --> 00:30:09,480

what do you know about him he lives in

628

00:30:14,680 --> 00:30:11,400

Houma I didn't know where Houma was I

629

00:30:18,620 --> 00:30:14,690

was there later to talk to Jesse but I

630

00:30:20,360 --> 00:30:18,630

followed up the reporter showed up I did

631

00:30:22,040 --> 00:30:20,370

the interview was busy the rest of the

632

00:30:25,520 --> 00:30:22,050

day the talk went very well that night

633

00:30:27,260 --> 00:30:25,530

big crowd no nasty noisy negative is

634

00:30:29,300 --> 00:30:27,270

given me a hard time or anything like

635

00:30:32,710 --> 00:30:29,310

that so the next morning from the

636

00:30:35,330 --> 00:30:32,720

airport I called information in Houma

637

00:30:36,980 --> 00:30:35,340

now you understand that there are today

638

00:30:38,930 --> 00:30:36,990

people who think that the way you find

639

00:30:40,910 --> 00:30:38,940

phone numbers is go on the Internet yeah

640

00:30:44,330 --> 00:30:40,920

well back then you called information

641

00:30:48,080 --> 00:30:44,340

yeah we're one one yeah yeah and the

642

00:30:50,000 --> 00:30:48,090

nice thing was that oftentimes the the

643

00:30:51,320 --> 00:30:50,010

person you've got lived in the area and

644

00:30:52,970 --> 00:30:51,330

you could say is that a nice part of

645

00:30:54,860 --> 00:30:52,980

town and things like that you could

646

00:30:55,990 --> 00:30:54,870

learn quite a bit that way they're not a

647

00:30:58,710 --> 00:30:56,000

Drupal

648

00:31:01,150 --> 00:30:58,720

so anyway I got a number for Jesse I

649

00:31:04,600 --> 00:31:01,160

explained that I was a nuclear physicist

650

00:31:09,550 --> 00:31:04,610

had been investigating UFOs at that time

651  
00:31:14,500 --> 00:31:09,560  
for 10 years and you know I've been

652  
00:31:15,550 --> 00:31:14,510  
talking to his name was Alan but the guy

653  
00:31:18,190 --> 00:31:15,560  
had a television station

654  
00:31:21,160 --> 00:31:18,200  
oh yeah I know him they were ham radio

655  
00:31:25,240 --> 00:31:21,170  
buddies and I found out later when I

656  
00:31:28,180 --> 00:31:25,250  
asked Jesse what he or I asked allowing

657  
00:31:30,280 --> 00:31:28,190  
what jesse had told them and told them

658  
00:31:32,050 --> 00:31:30,290  
anything when when he asked Jesse just

659  
00:31:34,510 --> 00:31:32,060  
said I can't talk about that what he had

660  
00:31:37,710 --> 00:31:34,520  
done was seen the article in the

661  
00:31:40,750 --> 00:31:37,720  
newspaper the New Orleans times-picayune

662  
00:31:44,500 --> 00:31:40,760  
I think it's called a weird name for a

663  
00:31:46,930 --> 00:31:44,510

newspaper but anyway back then when you

664

00:31:49,960 --> 00:31:46,940

mentioned the GI he normally put what

665

00:31:53,800 --> 00:31:49,970

town his hometown so that's how the two

666

00:31:56,590 --> 00:31:53,810

made contact and so forth so he told me

667

00:31:59,830 --> 00:31:56,600

a story and I was very impressed on has

668

00:32:04,840 --> 00:31:59,840

a no player guy I mean here we have the

669

00:32:07,810 --> 00:32:04,850

the intelligence officer for the only

670

00:32:11,470 --> 00:32:07,820

atomic bombing group in the world

671

00:32:15,190 --> 00:32:11,480

in 1947 now you don't get to be that by

672

00:32:18,480 --> 00:32:15,200

being a dink I mean you know very

673

00:32:20,830 --> 00:32:18,490

important you know it's kind of crazy

674

00:32:22,120 --> 00:32:20,840

once in England I was on a panel and

675

00:32:25,210 --> 00:32:22,130

there was an English astronomer there

676

00:32:28,300 --> 00:32:25,220

why would an alien go to New Mexico

677

00:32:30,070 --> 00:32:28,310

there's nothing there but sand and I

678

00:32:32,800 --> 00:32:30,080

asked him well have you ever been there

679

00:32:34,780 --> 00:32:32,810

well no and then you're not aware that

680

00:32:36,610 --> 00:32:34,790

two of the three nuclear weapons lives

681

00:32:38,650 --> 00:32:36,620

in the United States are in New Mexico

682

00:32:42,010 --> 00:32:38,660

that the first atomic bomb was exploded

683

00:32:43,480 --> 00:32:42,020

at Trinity site in New Mexico that White

684

00:32:45,520 --> 00:32:43,490

Sands Missile Range is where we fired

685

00:32:48,160 --> 00:32:45,530

all our captured German v2 rocket

686

00:32:50,650 --> 00:32:48,170

doesn't wear any of that the reason

687

00:32:52,630 --> 00:32:50,660

you've lit off bombs and fire rockets is

688

00:32:55,930 --> 00:32:52,640

there aren't many people in New Mexico's

689

00:32:58,420 --> 00:32:55,940

a lot of land a lot of sand in need but

690

00:33:00,550 --> 00:32:58,430

you can't do those things testing

691

00:33:02,710 --> 00:33:00,560

nuclear weapons and so forth when there

692

00:33:06,040 --> 00:33:02,720

are a lot of people around you know it's

693

00:33:08,010 --> 00:33:06,050

not very convenient the contrast here to

694

00:33:10,200 --> 00:33:08,020

me I grew up in New Jersey

695

00:33:12,500 --> 00:33:10,210

and now New Jersey has its the most

696

00:33:15,720 --> 00:33:12,510

densely populated of all the states

697

00:33:19,140 --> 00:33:15,730

eight million people in eight thousand

698

00:33:28,200 --> 00:33:21,150

the population density is about 40 times

699

00:33:31,800 --> 00:33:28,210

what it is in New Mexico so it's kind of

700

00:33:39,590 --> 00:33:31,810

crazy New Mexico is a special sort of

701  
00:33:41,790 --> 00:33:39,600  
place and I think that Roswell was a

702  
00:33:45,230 --> 00:33:41,800  
historic event but it also as a

703  
00:33:48,180 --> 00:33:45,240  
challenge misses two years after the war

704  
00:33:50,000 --> 00:33:48,190  
mm-hmm which ended because of an atomic

705  
00:33:52,740 --> 00:33:50,010  
bomb when was the first test and

706  
00:33:54,150 --> 00:33:52,750  
incidentally I for people who think Oh

707  
00:33:58,050 --> 00:33:54,160  
governments wouldn't lie to us would

708  
00:34:01,710 --> 00:33:58,060  
they well first atomic bomb test July

709  
00:34:04,230 --> 00:34:01,720  
16th like it was 1945 was seen from a

710  
00:34:07,430 --> 00:34:04,240  
hundred miles away an awful big

711  
00:34:10,020 --> 00:34:07,440  
explosion and the ships were again

712  
00:34:12,420 --> 00:34:10,030  
telephone calls you know what happened I

713  
00:34:14,340 --> 00:34:12,430

saw this crazy thing 5:30 in the morning

714

00:34:16,770 --> 00:34:14,350

you understand but in New Mexico it's

715

00:34:18,120 --> 00:34:16,780

not uncommon for people to get up early

716

00:34:20,700 --> 00:34:18,130

because it gets pretty conquering the

717

00:34:26,040 --> 00:34:20,710

day you got up over 100 in Roswell every

718

00:34:31,410 --> 00:34:26,050

day last week you know I and they they

719

00:34:34,110 --> 00:34:31,420

put out it I'm just a lie a cover story

720

00:34:36,030 --> 00:34:34,120

that sounds much better

721

00:34:37,650 --> 00:34:36,040

an ammunition dump had blown up and

722

00:34:40,470 --> 00:34:37,660

fortunately nobody was hurt

723

00:34:43,170 --> 00:34:40,480

three weeks later after Hiroshima and

724

00:34:47,430 --> 00:34:43,180

Nagasaki they finally admitted what it

725

00:34:49,710 --> 00:34:47,440

was so government agencies and I don't

726

00:34:52,260 --> 00:34:49,720

blame them for lying it's like they were

727

00:34:54,870 --> 00:34:52,270

very careful not warning the Japanese

728

00:34:56,040 --> 00:34:54,880

about dropping a horrible bomb on them

729

00:34:58,620 --> 00:34:56,050

because they were afraid they'd move

730

00:35:01,650 --> 00:34:58,630

prisoners of war they're perfectly good

731

00:35:04,050 --> 00:35:01,660

reason for not to you know not saying

732

00:35:06,630 --> 00:35:04,060

you watch what we do to you oh sure

733

00:35:08,820 --> 00:35:06,640

we'll put our prisoners there then drop

734

00:35:10,730 --> 00:35:08,830

your bomb you know there were serious

735

00:35:18,950 --> 00:35:10,740

concerns about these things

736

00:35:21,320 --> 00:35:18,960

so anyway the the question of the

737

00:35:24,670 --> 00:35:21,330

meaning is also you know a little

738

00:35:27,440 --> 00:35:24,680

question do these guys mean us harm

739

00:35:28,730 --> 00:35:27,450

mm-hmm what the government didn't know

740

00:35:30,950 --> 00:35:28,740

what they wanted they didn't know where

741

00:35:33,589 --> 00:35:30,960

they were from what they did know is

742

00:35:39,650 --> 00:35:33,599

that they had technology Kenneth Arnold

743

00:35:42,320 --> 00:35:39,660

sighting was June 24th 1947 Raja was

744

00:35:44,839 --> 00:35:42,330

less than two weeks later and there were

745

00:35:47,060 --> 00:35:44,849

about a thousand sightings we now know

746

00:35:50,480 --> 00:35:47,070

and between those two periods of time

747

00:35:54,260 --> 00:35:50,490

where there really don't many yeah we

748

00:35:56,570 --> 00:35:54,270

didn't know it well even today you

749

00:35:59,359 --> 00:35:56,580

realize that you find gets over 500

750

00:36:01,220 --> 00:35:59,369

sighting reports a month mm-hmm and I've

751

00:36:02,599 --> 00:36:01,230

had people say well I haven't heard

752

00:36:04,670 --> 00:36:02,609

anything about any sightings in the last

753

00:36:09,500 --> 00:36:04,680

few months you didn't hear about it but

754

00:36:11,390 --> 00:36:09,510

it was they were there mmm so it was the

755

00:36:14,540 --> 00:36:11,400

government had to decide what do we do

756

00:36:17,270 --> 00:36:14,550

and the thing is okay they recovered

757

00:36:19,640 --> 00:36:17,280

breakage that doesn't take out the darn

758

00:36:21,320 --> 00:36:19,650

thing works does it oh that's nice

759

00:36:22,700 --> 00:36:21,330

looking equipment what does it do what's

760

00:36:27,099 --> 00:36:22,710

it made out of you know how can we

761

00:36:30,829 --> 00:36:27,109

duplicate it etc etc it's not easy and

762

00:36:33,170 --> 00:36:30,839

certainly even today should we put out

763

00:36:37,490 --> 00:36:33,180

on the table what we have learned from

764

00:36:42,170 --> 00:36:37,500

examination of records at Roswell Aztec

765

00:36:45,109 --> 00:36:42,180

and Kecksburg without the Russians and

766

00:36:47,690 --> 00:36:45,119

Chinese putting out what they know be

767

00:36:48,589 --> 00:36:47,700

damn foolish you know because we may

768

00:36:50,030 --> 00:36:48,599

have learned some things that they

769

00:36:53,960 --> 00:36:50,040

haven't learned we'd like to know what

770

00:36:55,579 --> 00:36:53,970

they know there's a overwhelming thing

771

00:36:58,579 --> 00:36:55,589

about a flying saucer

772

00:37:01,490 --> 00:36:58,589

it is potential for military utilization

773

00:37:03,290 --> 00:37:01,500

of that technology think about it the

774

00:37:08,780 --> 00:37:03,300

military budget on planet Earth this

775

00:37:10,550 --> 00:37:08,790

year a trillion dollars I mean you know

776

00:37:12,890 --> 00:37:10,560

it's a sad tale look how many kids died

777

00:37:15,920 --> 00:37:12,900

of starvation last year last week this

778

00:37:19,220 --> 00:37:15,930

month right but I'm saying it's clear

779

00:37:20,640 --> 00:37:19,230

that military applications are of great

780

00:37:24,210 --> 00:37:20,650

significance

781

00:37:27,420 --> 00:37:24,220

to governments and secrecy is of great

782

00:37:28,920 --> 00:37:27,430

significance and don't tell me I have

783

00:37:31,620 --> 00:37:28,930

people tell me all weekend in today's

784

00:37:33,539 --> 00:37:31,630

world with YouTube and the Internet you

785

00:37:36,120 --> 00:37:33,549

can't keep secrets of course you can we

786

00:37:37,529 --> 00:37:36,130

don't publish classified documents on

787

00:37:39,809 --> 00:37:37,539

the Internet

788

00:37:43,319 --> 00:37:39,819

I'm not saying there aren't occasional

789

00:37:46,349 --> 00:37:43,329

slips by people but secrets are easy to

790

00:37:49,049 --> 00:37:46,359

keep need-to-know an appropriate

791

00:37:51,599 --> 00:37:49,059

security level when you put them

792

00:37:53,870 --> 00:37:51,609

together and they scare the hell Donny I

793

00:37:57,150 --> 00:37:53,880

worked under security for 14 years and

794

00:37:58,799 --> 00:37:57,160

one time I was giving a presentation and

795

00:38:01,140 --> 00:37:58,809

my slides weren't ready when they were

796

00:38:03,930 --> 00:38:01,150

supposed to be ready so they made me a

797

00:38:06,839 --> 00:38:03,940

special courier to carry these

798

00:38:09,359 --> 00:38:06,849

classified slides and they sat me down

799

00:38:11,849 --> 00:38:09,369

and stressed you know these doctor these

800

00:38:15,569 --> 00:38:11,859

slides stay with you not in the trunk of

801  
00:38:17,789 --> 00:38:15,579  
a car that you're driving with you and

802  
00:38:19,319 --> 00:38:17,799  
if we need your itinerary because if the

803  
00:38:20,819 --> 00:38:19,329  
plane crashes we're going after the

804  
00:38:26,089 --> 00:38:20,829  
classified material we don't care about

805  
00:38:30,809 --> 00:38:26,099  
you I was glad to get rid of the post

806  
00:38:33,029 --> 00:38:30,819  
but I I get people tell me oh well all

807  
00:38:35,039 --> 00:38:33,039  
those guys the mj-12 people would have

808  
00:38:37,309 --> 00:38:35,049  
told their wives what they were doing no

809  
00:38:39,839 --> 00:38:37,319  
I never told my wife anything classified

810  
00:38:41,220 --> 00:38:39,849  
I'd be breaking the rules and you don't

811  
00:38:42,930 --> 00:38:41,230  
know where the spies are and I can't

812  
00:38:44,160 --> 00:38:42,940  
control what she says she wouldn't know

813  
00:38:48,150 --> 00:38:44,170

it was hurting anybody

814

00:38:49,890 --> 00:38:48,160

you know so security doesn't work when

815

00:38:51,480 --> 00:38:49,900

you turn on YouTube you may see a lot of

816

00:38:54,900 --> 00:38:51,490

interesting stuff and so on it may even

817

00:38:57,420 --> 00:38:54,910

be true but you're not seeing cryolite

818

00:38:59,970 --> 00:38:57,430

stuff and anybody who thinks secrets

819

00:39:03,089 --> 00:38:59,980

can't be get big ones but the first

820

00:39:06,029 --> 00:39:03,099

thing the first spy satellite was the

821

00:39:09,240 --> 00:39:06,039

corona spy satellite Corona is a little

822

00:39:11,910 --> 00:39:09,250

town in New Mexico incident also a

823

00:39:18,000 --> 00:39:11,920

Toyota Corona I drove several of them

824

00:39:20,549 --> 00:39:18,010

but I they that satellite we we knew

825

00:39:23,010 --> 00:39:20,559

that the u2 had a limited life the spy

826

00:39:24,450 --> 00:39:23,020

plane you know because the Russians were

827

00:39:25,740 --> 00:39:24,460

getting better and eventually they did

828

00:39:29,250 --> 00:39:25,750

not gone down

829

00:39:32,490 --> 00:39:29,260

I the corona spots spice at like the

830

00:39:37,020 --> 00:39:32,500

first 12 launches were done in secrecy

831

00:39:39,570 --> 00:39:37,030

in secret and we're failures that's a

832

00:39:41,670 --> 00:39:39,580

lot of money 12 spy satellite launches

833

00:39:44,400 --> 00:39:41,680

this is back in the year early sixties

834

00:39:47,850 --> 00:39:44,410

or late fifties really wonders we give

835

00:39:51,030 --> 00:39:47,860

up really well they didn't run out of

836

00:39:55,500 --> 00:39:51,040

money apparently nobody knows what

837

00:39:57,860 --> 00:39:55,510

you're spendin the 13th satellite got

838

00:40:00,930 --> 00:39:57,870

more data about Soviet military

839

00:40:02,220 --> 00:40:00,940

construction it's pretty hard to know

840

00:40:04,260 --> 00:40:02,230

what's going on over there it's an

841

00:40:06,330 --> 00:40:04,270

awfully good country you know and who

842

00:40:09,270 --> 00:40:06,340

knows what they're doing got more data

843

00:40:12,420 --> 00:40:09,280

than all the u2 flights had preceded it

844

00:40:15,950 --> 00:40:12,430

do you think we'd triumph we trumpeted

845

00:40:19,290 --> 00:40:15,960

you'll pardon the expression that great

846

00:40:21,000 --> 00:40:19,300

breakthrough know that satellite was

847

00:40:22,070 --> 00:40:21,010

classified for 30 years and we didn't

848

00:40:24,420 --> 00:40:22,080

talk about it

849

00:40:26,550 --> 00:40:24,430

Lockheed developed the stealth aircraft

850

00:40:31,410 --> 00:40:26,560

it have costed ten billion dollars over

851

00:40:35,610 --> 00:40:31,420

ten years in secret so and there's a

852

00:40:38,160 --> 00:40:35,620

whole bunch more programs well also what

853

00:40:39,990 --> 00:40:38,170

one of the myths around is that research

854

00:40:43,170 --> 00:40:40,000

is what's done when you work at a

855

00:40:45,810 --> 00:40:43,180

university in academia right well

856

00:40:51,540 --> 00:40:45,820

sometimes but when I was working on

857

00:40:53,430 --> 00:40:51,550

nuclear airplanes in 1958 a General

858

00:40:56,670 --> 00:40:53,440

Electric our budget that here was a

859

00:40:58,440 --> 00:40:56,680

hundred million dollars employed 3400

860

00:41:00,630 --> 00:40:58,450

people 1100 of them more engineers and

861

00:41:03,930 --> 00:41:00,640

scientists there's one six professors

862

00:41:06,570 --> 00:41:03,940

and 20 grad students hmm it's a huge

863

00:41:10,110 --> 00:41:06,580

effort and was great fun until they

864

00:41:12,120 --> 00:41:10,120

cancelled the program you know I worked

865

00:41:13,770 --> 00:41:12,130

on a lot of cancelled programs but well

866

00:41:16,920 --> 00:41:13,780

I'm saying if the public doesn't seem to

867

00:41:19,020 --> 00:41:16,930

have much recognition of how big these

868

00:41:21,180 --> 00:41:19,030

programs can be how expensive they can

869

00:41:23,880 --> 00:41:21,190

be and frankly how productive look the

870

00:41:26,400 --> 00:41:23,890

Manhattan Project you know that five

871

00:41:28,050 --> 00:41:26,410

percent of all the electricity being

872

00:41:31,080 --> 00:41:28,060

produced in the United States in the

873

00:41:33,480 --> 00:41:31,090

last two years of the war went for

874

00:41:36,600 --> 00:41:33,490

pushing separating uranium isotopes

875

00:41:38,310 --> 00:41:36,610

pumping uranium hexafluoride through big

876

00:41:39,800 --> 00:41:38,320

sheets of metal with little holes in it

877

00:41:43,130 --> 00:41:39,810

and u-235 goes through

878

00:41:45,110 --> 00:41:43,140

faster so eventually 5% of all the power

879

00:41:48,140 --> 00:41:45,120

in the United States went into that maze

880

00:41:52,490 --> 00:41:48,150

and see I mean that's a lot of dope

881

00:41:54,860 --> 00:41:52,500

that's and so what I'm saying it we have

882

00:41:58,060 --> 00:41:54,870

many examples of projects that went on

883

00:42:00,170 --> 00:41:58,070

I'm not saying they were all sensible or

884

00:42:02,120 --> 00:42:00,180

appropriate or whatever many programs

885

00:42:03,980 --> 00:42:02,130

might cancel because you went for a

886

00:42:06,860 --> 00:42:03,990

while I'm gonna work what's what's

887

00:42:09,740 --> 00:42:06,870

stopping or somebody else came along

888

00:42:13,280 --> 00:42:09,750

with a better story but it's important

889

00:42:18,380 --> 00:42:13,290

to realize that secrets can be kept and

890

00:42:21,230 --> 00:42:18,390

that there's a need for secrecy oh oh

891

00:42:23,120 --> 00:42:21,240

yeah you know if your buddy knows what

892

00:42:26,060 --> 00:42:23,130

you're if your enemy knows what you're

893

00:42:27,890 --> 00:42:26,070

doing he's in a much better position to

894

00:42:31,460 --> 00:42:27,900

stop you from doing it when the chips

895

00:42:33,860 --> 00:42:31,470

are down mmm you know and that that's

896

00:42:35,990 --> 00:42:33,870

more freedom but this planet is doing a

897

00:42:37,850 --> 00:42:36,000

lot about warfare the United States

898

00:42:41,000 --> 00:42:37,860

spends more than what the next 15

899

00:42:41,780 --> 00:42:41,010

countries together right yeah something

900

00:42:44,600 --> 00:42:41,790

like that

901  
00:42:47,780 --> 00:42:44,610  
so obviously is of a great significance

902  
00:42:48,950 --> 00:42:47,790  
and importance and so organs so people

903  
00:42:51,440 --> 00:42:48,960  
ask me don't you think we are entitled

904  
00:42:52,820 --> 00:42:51,450  
to know everything no I don't think that

905  
00:42:55,760 --> 00:42:52,830  
I think there is a national security

906  
00:42:59,780 --> 00:42:55,770  
aspect which makes me a strange person

907  
00:43:02,150 --> 00:42:59,790  
to some people he's for secrecy as

908  
00:43:04,220 --> 00:43:02,160  
appropriate yes mm-hmm

909  
00:43:07,100 --> 00:43:04,230  
yeah when it actually comes to you know

910  
00:43:07,730 --> 00:43:07,110  
security national security I totally get

911  
00:43:12,850 --> 00:43:07,740  
that

912  
00:43:17,090 --> 00:43:12,860  
going back to Jesse Marcel there's a

913  
00:43:19,390 --> 00:43:17,100

question that I've never heard on the

914

00:43:25,210 --> 00:43:19,400

this on the message board and it says

915

00:43:27,890 --> 00:43:25,220

that did Jesse Marcel likely lie in

916

00:43:30,410 --> 00:43:27,900

interviews with UFO researchers on his

917

00:43:32,800 --> 00:43:30,420

background education and status as a

918

00:43:36,220 --> 00:43:32,810

pilot is that anything you've ever heard

919

00:43:42,410 --> 00:43:36,230

well there are people who make wild

920

00:43:45,490 --> 00:43:42,420

claims the Mega Man example people say

921

00:43:48,500 --> 00:43:45,500

he flew I forget how many miles it was

922

00:43:50,750 --> 00:43:48,510

he didn't say he was flying the airplane

923

00:43:53,000 --> 00:43:50,760

I mean I'm a

924

00:43:57,130 --> 00:43:53,010

frequent flyer i just flown i'm a

925

00:44:00,230 --> 00:43:57,140

million more milder on Air Canada and

926

00:44:04,130 --> 00:44:00,240

Delta that doesn't mean I flew any of

927

00:44:08,960 --> 00:44:04,140

those airplanes but that's you see this

928

00:44:11,090 --> 00:44:08,970

subtle difference again I refer to the

929

00:44:13,040 --> 00:44:11,100

fact that even though we didn't go to

930

00:44:15,380 --> 00:44:13,050

West Point and Colonel Blanchard the

931

00:44:19,510 --> 00:44:15,390

base commander did go to West Point and

932

00:44:21,980 --> 00:44:19,520

general Ramey did Blanchard's boss and

933

00:44:24,859 --> 00:44:21,990

Thomas Jefferson DuBose and was his

934

00:44:26,930 --> 00:44:24,869

adjutant I spoke with him I'm too late

935

00:44:28,280 --> 00:44:26,940

to talk to Blanchard and Ramey they were

936

00:44:36,440 --> 00:44:28,290

dead I don't know how to cross that

937

00:44:42,080 --> 00:44:36,450

barrier some people and so is that your

938

00:44:43,460 --> 00:44:42,090

phone oh not my phone no it's it's uh it

939

00:44:48,290 --> 00:44:43,470

sounds like in the background but we'll

940

00:44:50,000 --> 00:44:48,300

just continue that's okay okay let me

941

00:44:58,410 --> 00:44:50,010

pick that up for just a second sure yeah

942

00:45:03,210 --> 00:45:01,109

we alright somebody trying to sell me

943

00:45:07,109 --> 00:45:03,220

something like yeah yeah yeah the other

944

00:45:12,690 --> 00:45:07,119

line okay yeah I forgot I got two phones

945

00:45:14,460 --> 00:45:12,700

here I don't have one to each year I've

946

00:45:17,279 --> 00:45:14,470

heard of people doing that but I am NOT

947

00:45:19,799 --> 00:45:17,289

able to do that yeah so what I'm saying

948

00:45:22,019 --> 00:45:19,809

is I was I did one of the few

949

00:45:26,130 --> 00:45:22,029

researchers who actually I was in

950

00:45:30,690 --> 00:45:26,140

Jesse's home and beautiful down in Houma

951  
00:45:32,789 --> 00:45:30,700  
Louisiana I was in his son's home Jesse

952  
00:45:36,180 --> 00:45:32,799  
Jr is medical that was a medical doctor

953  
00:45:40,049 --> 00:45:36,190  
died a couple years back was a flight

954  
00:45:43,019 --> 00:45:40,059  
surgeon served we do believe he was

955  
00:45:44,730 --> 00:45:43,029  
called back in at age 68 blastro be a

956  
00:45:47,940 --> 00:45:44,740  
helicopter pilot in the Middle East

957  
00:45:51,180 --> 00:45:47,950  
amazing guy yeah I was in his home in

958  
00:45:55,109 --> 00:45:51,190  
Montana greatest respect for both of

959  
00:45:57,289 --> 00:45:55,119  
them but my point is I people have

960  
00:45:59,849 --> 00:45:57,299  
levelled all kinds of accusations

961  
00:46:03,390 --> 00:45:59,859  
everybody involved with all this I mean

962  
00:46:07,400 --> 00:46:03,400  
one guy called Colonel Blanchard oh he

963  
00:46:12,509 --> 00:46:07,410

was a loose cannon he was a big guy

964

00:46:16,499 --> 00:46:12,519

whiteshirt on but as indication that

965

00:46:20,700 --> 00:46:16,509

that's a hasty judgment he got four more

966

00:46:22,769 --> 00:46:20,710

promotions was a four-star general and

967

00:46:24,660 --> 00:46:22,779

vice chief of staff of the Air Force

968

00:46:27,720 --> 00:46:24,670

when he died of a massive heart attack

969

00:46:29,309 --> 00:46:27,730

at the Pentagon in the mid 60s now each

970

00:46:32,249 --> 00:46:29,319

one of those promotions had to be

971

00:46:37,529 --> 00:46:32,259

approved by Congress and along the way

972

00:46:40,890 --> 00:46:37,539

he oversaw the the Air Corps guys with

973

00:46:43,529 --> 00:46:40,900

the nuclear weapons thousands of nuclear

974

00:46:44,759 --> 00:46:43,539

weapons under his control we're supposed

975

00:46:46,499 --> 00:46:44,769

to believe that the government is so

976

00:46:49,200 --> 00:46:46,509

incompetent that they picked the loose

977

00:46:51,400 --> 00:46:49,210

can and do a job like that I don't

978

00:46:53,859 --> 00:46:51,410

believe it

979

00:46:57,339 --> 00:46:53,869

I did talk to Blanchard's daughter and

980

00:46:58,870 --> 00:46:57,349

two sons infinitely but I so I mean

981

00:47:00,730 --> 00:46:58,880

that's the kind of thing that you hear

982

00:47:01,410 --> 00:47:00,740

it sounds great oh he was just a loose

983

00:47:06,970 --> 00:47:01,420

cannon

984

00:47:12,099 --> 00:47:06,980

really but the evidence doesn't indicate

985

00:47:14,950 --> 00:47:12,109

that and there been charges made about

986

00:47:17,829 --> 00:47:14,960

many of the people involved because it's

987

00:47:21,880 --> 00:47:17,839

easier to to do that than to do your

988

00:47:23,680 --> 00:47:21,890

research you know I get people who never

989

00:47:25,960 --> 00:47:23,690

talk to any of the key people but they

990

00:47:29,319 --> 00:47:25,970

know what the truth is and who don't

991

00:47:32,319 --> 00:47:29,329

I've been to 20 archives and you know

992

00:47:34,539 --> 00:47:32,329

the classic example of that mr. Philip

993

00:47:37,509 --> 00:47:34,549

jet class senior avionics editor for

994

00:47:39,509 --> 00:47:37,519

Aviation Week and space technology he

995

00:47:42,370 --> 00:47:39,519

said every sighting has a prosaic

996

00:47:46,569 --> 00:47:42,380

explanation now one of the mj-12

997

00:47:50,440 --> 00:47:46,579

documents little just a paragraph memo

998

00:47:56,470 --> 00:47:50,450

from Bobby Cutler who was Ike's national

999

00:47:59,460 --> 00:47:56,480

security adviser uh to general Nathan

1000

00:48:02,049 --> 00:47:59,470

twining who was a member of mj-12 and

1001  
00:48:04,599 --> 00:48:02,059  
Phil class says well obviously you

1002  
00:48:07,960 --> 00:48:04,609  
didn't notice that that documents done

1003  
00:48:10,240 --> 00:48:07,970  
in the large pipe type but the National

1004  
00:48:13,420 --> 00:48:10,250  
Security Council says and his see at the

1005  
00:48:15,640 --> 00:48:13,430  
top used only elite type and I got nine

1006  
00:48:19,650 --> 00:48:15,650  
samples to prove it and he says to me in

1007  
00:48:22,269 --> 00:48:19,660  
a letter making much noise about it I

1008  
00:48:24,309 --> 00:48:22,279  
challenge you to find any other genuine

1009  
00:48:27,130 --> 00:48:24,319  
documents not on the same size and style

1010  
00:48:31,630 --> 00:48:27,140  
type and I'll give you \$100 each up to a

1011  
00:48:35,410 --> 00:48:31,640  
maximum of a thousand ten documents and

1012  
00:48:38,410 --> 00:48:35,420  
I looked at my files I found 20 like a

1013  
00:48:40,299 --> 00:48:38,420

type documents very quickly but they

1014

00:48:41,920 --> 00:48:40,309

didn't meet all this criteria at a list

1015

00:48:44,950 --> 00:48:41,930

of things that they're to be true but I

1016

00:48:47,740 --> 00:48:44,960

was going to the Truman library so I dug

1017

00:48:49,690 --> 00:48:47,750

things out or to the Eisenhower library

1018

00:48:53,920 --> 00:48:49,700

sorry I went I go to both on the same

1019

00:48:56,230 --> 00:48:53,930

trip normally and Ivan found 14

1020

00:48:58,240 --> 00:48:56,240

that met all his criteria sent him

1021

00:49:01,750 --> 00:48:58,250

copies in an invoice for a thousand

1022

00:49:03,819 --> 00:49:01,760

dollars and he paid me nice I night and

1023

00:49:07,299 --> 00:49:03,829

he got mannered and hacked when I

1024

00:49:09,880 --> 00:49:07,309

included a copy of his cheque to me in a

1025

00:49:12,579 --> 00:49:09,890

book he was gonna sue me and all that

1026

00:49:16,089 --> 00:49:12,589

stuff and I wrote him filled you sent me

1027

00:49:18,069 --> 00:49:16,099

a cheque izx did the bank cash the

1028

00:49:20,290 --> 00:49:18,079

cheque I can do whatever I darn pleased

1029

00:49:21,940 --> 00:49:20,300

with the Xerox and he shut up but here's

1030

00:49:25,329 --> 00:49:21,950

the kicker I didn't know it until after

1031

00:49:26,859 --> 00:49:25,339

this he had never been to the Eisenhower

1032

00:49:29,799 --> 00:49:26,869

library hmm

1033

00:49:31,569 --> 00:49:29,809

I spent weeks there I mean that's

1034

00:49:35,650 --> 00:49:31,579

typical of the intellectual bankruptcy

1035

00:49:39,760 --> 00:49:35,660

of the pseudoscience of anti ufology and

1036

00:49:42,280 --> 00:49:39,770

it means you have to watch out and my

1037

00:49:46,140 --> 00:49:42,290

latest book with Kathleen Martin fact

1038

00:49:48,549 --> 00:49:46,150

fiction and flying saucers we explore

1039

00:49:50,849 --> 00:49:48,559

especially three people dr. Edward you

1040

00:49:53,260 --> 00:49:50,859

Condon great physicist who headed the

1041

00:49:57,280 --> 00:49:53,270

Condon study at University of Colorado

1042

00:49:58,660 --> 00:49:57,290

and dr. Donald Menzel and Phil Christ

1043

00:50:01,260 --> 00:49:58,670

and trying to figure out why did these

1044

00:50:03,760 --> 00:50:01,270

people say the dumb things they did

1045

00:50:06,640 --> 00:50:03,770

Condon look our physicist he was

1046

00:50:10,000 --> 00:50:06,650

presently American Physical Society at

1047

00:50:12,760 --> 00:50:10,010

an enviable record and yet he was

1048

00:50:14,740 --> 00:50:12,770

ridiculous enough to say we can be sure

1049

00:50:18,520 --> 00:50:14,750

that there won't be alien visitations

1050

00:50:19,900 --> 00:50:18,530

for at least 10,000 years you know who

1051

00:50:22,150 --> 00:50:19,910

can look ten thousand years into the

1052

00:50:24,880 --> 00:50:22,160

hundred years into the future you know

1053

00:50:26,710 --> 00:50:24,890

and why was John oh just on that that

1054

00:50:29,319 --> 00:50:26,720

matter how why would that make a

1055

00:50:33,400 --> 00:50:29,329

difference anyway because you know the

1056

00:50:36,240 --> 00:50:33,410

way you know the species would evolve on

1057

00:50:39,190 --> 00:50:36,250

different planets is anyone's guess

1058

00:50:44,530 --> 00:50:39,200

you're right about that and I don't do

1059

00:50:47,079 --> 00:50:44,540

anything on you know with Mendel at

1060

00:50:49,500 --> 00:50:47,089

least I found the reason here here we

1061

00:50:52,270 --> 00:50:49,510

have a Harvard University professor

1062

00:50:54,760 --> 00:50:52,280

chairman of the astronomy department at

1063

00:50:57,880 --> 00:50:54,770

Harvard now it's pretty darn clear you

1064

00:51:01,120 --> 00:50:57,890

don't need a security clearance and the

1065

00:51:03,470 --> 00:51:01,130

Astronomy Department so why was he broke

1066

00:51:06,050 --> 00:51:03,480

three anti UFO books

1067

00:51:08,780 --> 00:51:06,060

he proceeded class as the leading

1068

00:51:10,670 --> 00:51:08,790

skeptic debunker is a much better word a

1069

00:51:12,160 --> 00:51:10,680

skeptic says I don't know a debugger

1070

00:51:15,470 --> 00:51:12,170

says oh I know there's nothing to that

1071

00:51:17,480 --> 00:51:15,480

anyway it's a long story which is in my

1072

00:51:20,660 --> 00:51:17,490

books but I won't would such as top

1073

00:51:21,800 --> 00:51:20,670

secret magic all about majestico but the

1074

00:51:25,670 --> 00:51:21,810

reason for him

1075

00:51:28,580 --> 00:51:25,680

I found out much to my surprise was that

1076

00:51:30,740 --> 00:51:28,590

it turns out I found a letter from him

1077

00:51:33,650 --> 00:51:30,750

to President Kennedy

1078

00:51:36,109 --> 00:51:33,660

dear jack they knew each other quite

1079

00:51:40,190 --> 00:51:36,119

well and he said there's one area this

1080

00:51:41,750 --> 00:51:40,200

is after Jack's election he would have

1081

00:51:43,670 --> 00:51:41,760

been on the Board of Overseers of

1082

00:51:47,390 --> 00:51:43,680

Harvard and his area of interest was

1083

00:51:50,030 --> 00:51:47,400

astronomy and that's how we dealt with

1084

00:51:52,340 --> 00:51:50,040

there got to know Mendel this before it

1085

00:51:53,570 --> 00:51:52,350

was president and they wouldn't even

1086

00:51:58,370 --> 00:51:53,580

have breakfast together

1087

00:51:59,570 --> 00:51:58,380

I and I found I had your permission with

1088

00:52:01,870 --> 00:51:59,580

three different people to look at his

1089

00:52:04,940 --> 00:52:01,880

papers I saw a letter from an attorney

1090

00:52:06,710 --> 00:52:04,950

to another member of mj-12 thanking him

1091

00:52:09,560 --> 00:52:06,720

for all his help in getting Dom Mendel

1092

00:52:11,510 --> 00:52:09,570

often charges of disloyalty I mean after

1093

00:52:14,599 --> 00:52:11,520

all he led an Eclipse expedition to

1094

00:52:17,240 --> 00:52:14,609

Russia in the mid 30s obviously he's not

1095

00:52:20,510 --> 00:52:17,250

a faithful American what nonsense

1096

00:52:21,920 --> 00:52:20,520

anyway I wound up going to the Harvard

1097

00:52:25,030 --> 00:52:21,930

archives after getting permission from

1098

00:52:30,200 --> 00:52:25,040

three people and there's a letter from

1099

00:52:32,240 --> 00:52:30,210

Menzel to Kennedy saying there's one

1100

00:52:33,920 --> 00:52:32,250

area I may be of assistance to you it's

1101

00:52:38,330 --> 00:52:33,930

with regard to the huge National

1102

00:52:40,460 --> 00:52:38,340

Security Agency NSA ah when we are

1103

00:52:42,859 --> 00:52:40,470

properly cleared to each other I can

1104

00:52:48,290 --> 00:52:42,869

tell you more I've been associated with

1105

00:52:50,420 --> 00:52:48,300

them for 30 years what and he turns out

1106

00:52:53,000 --> 00:52:50,430

he did work for the CIA did all kinds of

1107

00:52:53,390 --> 00:52:53,010

classified work hmm that nobody knew

1108

00:52:58,730 --> 00:52:53,400

about

1109

00:53:02,540 --> 00:52:58,740

because there are two special issues of

1110

00:53:05,030 --> 00:53:02,550

sky and telescope dedicated to Donald

1111

00:53:06,019 --> 00:53:05,040

Menzel the first was on the at the point

1112

00:53:07,489 --> 00:53:06,029

of his death

1113

00:53:09,169 --> 00:53:07,499

and the second was at the hundredth

1114

00:53:11,839 --> 00:53:09,179

anniversary of his birth

1115

00:53:14,749 --> 00:53:11,849

neither one said anything about his post

1116

00:53:17,329 --> 00:53:14,759

World War two work the government that

1117

00:53:18,889 --> 00:53:17,339

was so highly classified so I didn't

1118

00:53:21,289 --> 00:53:18,899

like the man while he was alive I had

1119

00:53:23,929 --> 00:53:21,299

one running with him I was speaking at

1120

00:53:25,999 --> 00:53:23,939

Harvard that evening and I called to

1121

00:53:28,369 --> 00:53:26,009

invite him to my lecture because it was

1122

00:53:31,099 --> 00:53:28,379

to an engineering Alumni Association I

1123

00:53:33,169 --> 00:53:31,109

had no idea how much publicity they had

1124

00:53:36,829 --> 00:53:33,179

done you know other than to their

1125

00:53:39,259 --> 00:53:36,839

members so I called him gave him my name

1126

00:53:40,669 --> 00:53:39,269

oh I know all about you he said honey I

1127

00:53:42,049 --> 00:53:40,679

said oh you read my congressional

1128

00:53:44,659 --> 00:53:42,059

testimony next to yours

1129

00:53:45,709 --> 00:53:44,669

no you can't be a scientist and believe

1130

00:53:51,019 --> 00:53:45,719

in flying saucers

1131

00:53:51,559 --> 00:53:51,029

I laughed of course he got angry dr.

1132

00:53:53,329 --> 00:53:51,569

menville

1133

00:53:55,009 --> 00:53:53,339

I didn't call to argue with you like

1134

00:53:57,319 --> 00:53:55,019

called out of courtesy I'm speaking on

1135

00:53:59,629 --> 00:53:57,329

your campus I'm speaking at 8 o'clock

1136

00:54:01,969 --> 00:53:59,639

and such-and-such Hall and I'd be happy

1137

00:54:04,039 --> 00:54:01,979

to have you there oh well of course I

1138

00:54:09,769 --> 00:54:04,049

won't be there so I told the story that

1139

00:54:12,559 --> 00:54:09,779

night you know and then so I was not an

1140

00:54:15,349 --> 00:54:12,569

admirer of Donald renzo but once I found

1141

00:54:17,689 --> 00:54:15,359

out all his classified activities

1142

00:54:20,179 --> 00:54:17,699

this was after his death nobody knew

1143

00:54:23,119 --> 00:54:20,189

about him during his life

1144

00:54:25,279 --> 00:54:23,129

I developed an appreciation for a kid on

1145

00:54:26,089 --> 00:54:25,289

I could understand him in other words

1146

00:54:27,679 --> 00:54:26,099

mm-hmm

1147

00:54:30,169 --> 00:54:27,689

when you serve in your country you do

1148

00:54:32,389 --> 00:54:30,179

what you're supposed to do and a Kevin

1149

00:54:35,149 --> 00:54:32,399

Randle mentioned that I hadn't found

1150

00:54:38,749 --> 00:54:35,159

anything that mentioned them j12 and his

1151  
00:54:40,309 --> 00:54:38,759  
papers of course not the man who had all

1152  
00:54:43,299 --> 00:54:40,319  
those years of work with classified

1153  
00:54:46,729 --> 00:54:43,309  
materials gonna leave stuff lying around

1154  
00:54:49,459 --> 00:54:46,739  
classified material belongs in a special

1155  
00:54:50,899 --> 00:54:49,469  
safe he had a combination safe that's

1156  
00:54:54,229 --> 00:54:50,909  
fire resistant you know there's all

1157  
00:54:55,819 --> 00:54:54,239  
bunch of rules and so forth and I did

1158  
00:55:01,189 --> 00:54:55,829  
talk to Menzel's secretary and he was

1159  
00:55:03,589 --> 00:55:01,199  
very security-conscious but you know

1160  
00:55:06,499 --> 00:55:03,599  
that that's a terrible yes I did it is

1161  
00:55:09,379 --> 00:55:06,509  
true I did not find anything in writing

1162  
00:55:11,920 --> 00:55:09,389  
from menzel that said yeah I'm a proud

1163  
00:55:14,410 --> 00:55:11,930

member of mj-12

1164

00:55:17,830 --> 00:55:14,420

yeah but I certainly wouldn't have

1165

00:55:19,900 --> 00:55:17,840

expected to right and so that leaves

1166

00:55:23,410 --> 00:55:19,910

Phil crass and we don't know who he was

1167

00:55:25,870 --> 00:55:23,420

working for but I'd say somebody he used

1168

00:55:27,610 --> 00:55:25,880

to say that ain't nobody can show that I

1169

00:55:31,980 --> 00:55:27,620

work for a three-letter agency you know

1170

00:55:35,130 --> 00:55:31,990

CIA NSA what if I had foreign letters

1171

00:55:37,690 --> 00:55:35,140

you got around there's anybody listening

1172

00:55:40,720 --> 00:55:37,700

I'd be happy to hear of any knowledge

1173

00:55:43,050 --> 00:55:40,730

that they have of Phil classical wasn't

1174

00:55:46,870 --> 00:55:43,060

another one it was an excellent writer

1175

00:55:49,150 --> 00:55:46,880

no question about that he just didn't

1176  
00:55:51,580 --> 00:55:49,160  
get his facts straight about UFOs yeah

1177  
00:55:55,930 --> 00:55:51,590  
standard practice I guess he seemed very

1178  
00:55:58,660 --> 00:55:55,940  
angry about the topic you know you're

1179  
00:56:00,550 --> 00:55:58,670  
right and and I don't fully understand

1180  
00:56:04,080 --> 00:56:00,560  
that even complaint about people

1181  
00:56:07,450 --> 00:56:04,090  
suggesting that that somebody was lying

1182  
00:56:11,320 --> 00:56:07,460  
yeah that's the lie to protect security

1183  
00:56:12,880 --> 00:56:11,330  
damn it you tiptoe out the way I put it

1184  
00:56:17,350 --> 00:56:12,890  
is sometimes you have to tiptoe around

1185  
00:56:22,270 --> 00:56:17,360  
the truth okay you know hey it's a

1186  
00:56:25,690 --> 00:56:22,280  
massive effort keeping secret I got a

1187  
00:56:28,350 --> 00:56:25,700  
question here from the forum and it's

1188  
00:56:31,840 --> 00:56:28,360

sort of a little bit of the conspiracy

1189

00:56:34,120 --> 00:56:31,850

angle here about the government and

1190

00:56:37,210 --> 00:56:34,130

cover-ups do you believe the government

1191

00:56:39,130 --> 00:56:37,220

is capable of something as drastic to

1192

00:56:41,020 --> 00:56:39,140

the extent of killing any potential

1193

00:56:45,170 --> 00:56:41,030

whistleblowers in order to keep the et

1194

00:56:48,710 --> 00:56:45,180

secret secret

1195

00:56:49,549 --> 00:56:48,720

I know they threaten our there's alleged

1196

00:56:53,870 --> 00:56:49,559

threats

1197

00:56:56,599 --> 00:56:53,880

I found one guy that it worked at the

1198

00:57:02,569 --> 00:56:56,609

White House and he very quietly said

1199

00:57:08,180 --> 00:57:02,579

that what's the term white that there's

1200

00:57:11,660 --> 00:57:08,190

a turn that indicates wet wet drugs that

1201

00:57:13,250 --> 00:57:11,670

he knew of a case and he hated to admit

1202

00:57:15,140 --> 00:57:13,260

it but he knew of a case in which

1203

00:57:18,079 --> 00:57:15,150

somebody was taken out because he'd been

1204

00:57:20,000 --> 00:57:18,089

sloppy about security all I can tell you

1205

00:57:24,020 --> 00:57:20,010

is repeat that as a second hand story

1206

00:57:25,730 --> 00:57:24,030

but yeah I think so

1207

00:57:28,940 --> 00:57:25,740

there are times you know you have to

1208

00:57:32,510 --> 00:57:28,950

weigh consequences if I do and if I

1209

00:57:35,329 --> 00:57:32,520

don't if your enemy finds out what

1210

00:57:37,160 --> 00:57:35,339

you're doing soon enough to stop you

1211

00:57:42,799 --> 00:57:37,170

from doing it that may mean that

1212

00:57:44,990 --> 00:57:42,809

terminal thing you know and so I I'm not

1213

00:57:46,940 --> 00:57:45,000

saying they're evil I'm saying there are

1214

00:57:49,359 --> 00:57:46,950

rules of the game and sometimes you have

1215

00:57:55,359 --> 00:57:49,369

to do things which aren't very pleasant

1216

00:57:59,569 --> 00:57:55,369

including taking out your own people now

1217

00:58:03,559 --> 00:57:59,579

getting back to Jesse Marcel and you

1218

00:58:04,359 --> 00:58:03,569

interviewing him and all of that what do

1219

00:58:09,440 --> 00:58:04,369

you think

1220

00:58:12,260 --> 00:58:09,450

Roswell would be if Jesse Marcel didn't

1221

00:58:13,940 --> 00:58:12,270

live long enough or never said anything

1222

00:58:17,270 --> 00:58:13,950

do you think eventually it would have

1223

00:58:19,940 --> 00:58:17,280

been exposed that's a very good question

1224

00:58:23,750 --> 00:58:19,950

and I haven't thought about it a lot but

1225

00:58:26,870 --> 00:58:23,760

I on the one hand my pride says oh

1226

00:58:29,380 --> 00:58:26,880

nobody else could have gotten in the

1227

00:58:32,690 --> 00:58:29,390

right place at the right time you know

1228

00:58:36,289 --> 00:58:32,700

on the other hand it wouldn't surprise

1229

00:58:38,750 --> 00:58:36,299

me if somebody else had come forward on

1230

00:58:41,450 --> 00:58:38,760

their dying days you know what I mean an

1231

00:58:43,880 --> 00:58:41,460

act of conscience there are people who

1232

00:58:46,430 --> 00:58:43,890

get fed up with the government you know

1233

00:58:49,309 --> 00:58:46,440

who think that maybe their grandchild

1234

00:58:52,280 --> 00:58:49,319

was entitled to know or something like

1235

00:58:53,980 --> 00:58:52,290

that because there isn't can you think

1236

00:58:56,390 --> 00:58:53,990

of anything more significant than

1237

00:58:57,840 --> 00:58:56,400

recognition that there are other beings

1238

00:59:00,480 --> 00:58:57,850

out there right

1239

00:59:03,330 --> 00:59:00,490

our neighborhood that's that's a very

1240

00:59:05,850 --> 00:59:03,340

big story so I can't say it wouldn't

1241

00:59:09,030 --> 00:59:05,860

have come out but when I look at how

1242

00:59:12,210 --> 00:59:09,040

fortunate the circumstances were I mean

1243

00:59:15,660 --> 00:59:12,220

I I don't think that was ever in Baton

1244

00:59:18,710 --> 00:59:15,670

Rouge Louisiana and certainly not with

1245

00:59:21,180 --> 00:59:18,720

the guy who happened to know just yeah

1246

00:59:23,270 --> 00:59:21,190

yeah the odds of not happening the way

1247

00:59:27,900 --> 00:59:23,280

it did I'm very slim

1248

00:59:30,750 --> 00:59:27,910

yeah and I'm glad it happened I feel

1249

00:59:35,000 --> 00:59:30,760

very fortunate I feel honored

1250

00:59:38,850 --> 00:59:35,010

there is a what do you call it DVD now

1251

00:59:42,260 --> 00:59:38,860

recollections of Roswell that has

1252

00:59:46,440 --> 00:59:42,270

testimony from 23 firsthand witnesses

1253

00:59:51,870 --> 00:59:46,450

who are all dead now except one he's an

1254

00:59:55,290 --> 00:59:51,880

old man a very old man is but an

1255

00:59:57,300 --> 00:59:55,300

enclosed testimony with Jesse so for

1256

01:00:00,240 --> 00:59:57,310

people who think that oh it's all lost

1257

01:00:02,850 --> 01:00:00,250

in history they can actually listen to

1258

01:00:06,210 --> 01:00:02,860

first-hand testimony from people who

1259

01:00:07,590 --> 01:00:06,220

were involved and you know I will be the

1260

01:00:11,190 --> 01:00:07,600

first to admit that sometimes

1261

01:00:14,420 --> 01:00:11,200

investigators get lucky I after talking

1262

01:00:16,620 --> 01:00:14,430

to Jesse I checked editor and publisher

1263

01:00:18,660 --> 01:00:16,630

which is a listing of all the newspapers

1264

01:00:20,820 --> 01:00:18,670

and magazines in the country and I went

1265

01:00:22,650 --> 01:00:20,830

to the library did my homework and I

1266

01:00:26,100 --> 01:00:22,660

looked up Roswell I don't know anything

1267

01:00:28,890 --> 01:00:26,110

about Roswell New Mexico they have a

1268

01:00:31,860 --> 01:00:28,900

newspaper I had to actually Roswell

1269

01:00:35,030 --> 01:00:31,870

Daily Record so I called the newspaper

1270

01:00:38,610 --> 01:00:35,040

ask for the editor from 1947 this is a

1271

01:00:40,890 --> 01:00:38,620

1978 you know

1272

01:00:42,750 --> 01:00:40,900

oh he's long gone what do you need I've

1273

01:00:45,870 --> 01:00:42,760

got some articles here bill Moore and I

1274

01:00:49,140 --> 01:00:45,880

had dug out some articles looking up

1275

01:00:51,090 --> 01:00:49,150

Roswell and stuff and says that the base

1276

01:00:52,890 --> 01:00:51,100

public information officer hidden you

1277

01:00:55,920 --> 01:00:52,900

know the basic been closed in the mid

1278

01:01:00,090 --> 01:00:55,930

sixties that's another story

1279

01:01:04,320 --> 01:01:00,100

guy named Walter how taught because its

1280

01:01:06,480 --> 01:01:04,330

name is spelt four different ways and

1281

01:01:07,980 --> 01:01:06,490

before I could finish this sentence the

1282

01:01:12,100 --> 01:01:07,990

person on the other end says Oh his wife

1283

01:01:17,270 --> 01:01:14,150

Walter was the public information

1284

01:01:19,520 --> 01:01:17,280

officer he was also a fart never

1285

01:01:22,190 --> 01:01:19,530

mentioned by the noisy negative s a

1286

01:01:26,510 --> 01:01:22,200

world war two bombardier with more than

1287

01:01:28,480 --> 01:01:26,520

20 missions over Japan he also was

1288

01:01:31,280 --> 01:01:28,490

chosen to drop the instrument package

1289

01:01:33,920 --> 01:01:31,290

when they exploded that an a-bomb in

1290

01:01:35,360 --> 01:01:33,930

1946 in operation crossroads you pick

1291

01:01:37,460 --> 01:01:35,370

your best guy to do that because you

1292

01:01:40,490 --> 01:01:37,470

don't have made Adam mom's to waste

1293

01:01:43,540 --> 01:01:40,500

backup that and without the instrument

1294

01:01:45,770 --> 01:01:43,550

what good was a test you know so

1295

01:01:48,580 --> 01:01:45,780

sometimes you get lucky is what I'm

1296

01:01:52,820 --> 01:01:48,590

saying Walter I talked to the wife and

1297

01:01:55,700 --> 01:01:52,830

Walters gone so was his wife but he had

1298

01:01:58,510 --> 01:01:55,710

a base yearbook let me have a copy of it

1299

01:02:01,220 --> 01:01:58,520

so it was a great help in finding people

1300

01:02:02,930 --> 01:02:01,230

because you find one guy and they

1301

01:02:04,850 --> 01:02:02,940

mention other people and you dig out

1302

01:02:06,560 --> 01:02:04,860

their names it's a lot of work but

1303

01:02:09,470 --> 01:02:06,570

because we didn't have an internet back

1304

01:02:11,180 --> 01:02:09,480

then but like I say you got to take

1305

01:02:13,580 --> 01:02:11,190

advantage of lucky times when you

1306

01:02:16,940 --> 01:02:13,590

stumble on something and follow up on it

1307

01:02:20,000 --> 01:02:16,950

right makes me wonder too I wonder if

1308

01:02:24,490 --> 01:02:20,010

there's any other Roswell type situation

1309

01:02:28,760 --> 01:02:24,500

that was just swept away and forgotten

1310

01:02:30,830 --> 01:02:28,770

well I think but quite frankly there was

1311

01:02:32,570 --> 01:02:30,840

I can't tell you what it was obviously

1312

01:02:35,870 --> 01:02:32,580

heard and you couldn't say it was

1313

01:02:37,670 --> 01:02:35,880

forgotten but I've had enough experience

1314

01:02:40,100 --> 01:02:37,680

with classified material I'm having

1315

01:02:42,740 --> 01:02:40,110

Hannah clearance for 14 years and

1316

01:02:44,930 --> 01:02:42,750

several different companies so it wasn't

1317

01:02:46,550 --> 01:02:44,940

just one company I worked and I worked

1318

01:02:48,530 --> 01:02:46,560

for the big guys you know General

1319

01:02:50,930 --> 01:02:48,540

Electric General Motors Westinghouse

1320

01:02:53,180 --> 01:02:50,940

McDonnell Douglas astronomic Sargent

1321

01:03:01,640 --> 01:02:53,190

general nucleonic I think I said a

1322

01:03:04,100 --> 01:03:01,650

record for working on so Ill would yeah

1323

01:03:05,450 --> 01:03:04,110

yeah oh you know one of the things I was

1324

01:03:08,000 --> 01:03:05,460

thinking about earlier when you're

1325

01:03:10,580 --> 01:03:08,010

talking about classified in government

1326

01:03:14,120 --> 01:03:10,590

secrets what do you think a lot of

1327

01:03:17,270 --> 01:03:14,130

people say that they think the the

1328

01:03:20,180 --> 01:03:17,280

triangles that they see flying over you

1329

01:03:23,120 --> 01:03:20,190

know without any sound large triangles a

1330

01:03:25,370 --> 01:03:23,130

lot of people are attributing them to

1331

01:03:26,930 --> 01:03:25,380

you know a secret government project and

1332

01:03:30,500 --> 01:03:26,940

I don't know if they are they're not I

1333

01:03:34,460 --> 01:03:30,510

have no idea the question is do you

1334

01:03:40,070 --> 01:03:34,470

think that's a possibility well I think

1335

01:03:43,990 --> 01:03:40,080

it is but I'm wearing you know I get

1336

01:03:49,520 --> 01:03:44,000

people remember in the Phoenix lights I

1337

01:03:53,860 --> 01:03:49,530

I was debating with a military guy and

1338

01:03:56,980 --> 01:03:53,870

at a forum at a college and he was

1339

01:03:59,210 --> 01:03:56,990

acting like well those weren't qualified

1340

01:04:01,670 --> 01:03:59,220

witnesses and we're talking about the

1341

01:04:04,130 --> 01:04:01,680

four women who were together watch this

1342

01:04:07,820 --> 01:04:04,140

big triangular-shaped putting more

1343

01:04:11,450 --> 01:04:07,830

boomerang gulen triangle but and it

1344

01:04:14,510 --> 01:04:11,460

blotted out the stars they said and it

1345

01:04:16,880 --> 01:04:14,520

made no noise and while they weren't

1346

01:04:19,490 --> 01:04:16,890

qualified witnesses now qualified do you

1347

01:04:22,070 --> 01:04:19,500

have to be to say I'm standing outside

1348

01:04:24,170 --> 01:04:22,080

with my friends and look up and here's

1349

01:04:27,890 --> 01:04:24,180

his big old fling coming along and it

1350

01:04:29,480 --> 01:04:27,900

took much time to cross over and didn't

1351  
01:04:30,980 --> 01:04:29,490  
make a sound and we couldn't see the

1352  
01:04:32,990 --> 01:04:30,990  
stars when it was in front of them

1353  
01:04:35,950 --> 01:04:33,000  
people were out to see the comet that

1354  
01:04:38,630 --> 01:04:35,960  
night so there were a lot of people and

1355  
01:04:41,600 --> 01:04:38,640  
how qualified do you have to be what

1356  
01:04:44,090 --> 01:04:41,610  
kind of an approach is that you know

1357  
01:04:47,420 --> 01:04:44,100  
they didn't give you numbers under what

1358  
01:04:49,430 --> 01:04:47,430  
the size of the thing was or the power

1359  
01:04:52,760 --> 01:04:49,440  
level of its engines if it had engines

1360  
01:04:54,470 --> 01:04:52,770  
and so forth but it's crazy you know one

1361  
01:04:57,740 --> 01:04:54,480  
of the things that's analogous to this

1362  
01:05:00,770 --> 01:04:57,750  
is people say eyewitness testimony isn't

1363  
01:05:04,210 --> 01:05:00,780

reliable right well the reason we can

1364

01:05:06,710 --> 01:05:04,220

explain most sightings is that

1365

01:05:09,080 --> 01:05:06,720

eyewitness testimony tends to be

1366

01:05:11,420 --> 01:05:09,090

reliable that the person doesn't know

1367

01:05:13,130 --> 01:05:11,430

that it was Venus he was watching just

1368

01:05:16,730 --> 01:05:13,140

happen to be out late at night and there

1369

01:05:18,950 --> 01:05:16,740

was the brightest thing in the sky but

1370

01:05:20,480 --> 01:05:18,960

we know was Venus because if we look at

1371

01:05:22,310 --> 01:05:20,490

the direction he was pointing and the

1372

01:05:24,410 --> 01:05:22,320

elevation above the horizon you know put

1373

01:05:29,120 --> 01:05:24,420

his arm out and say where he was looking

1374

01:05:30,800 --> 01:05:29,130

because he was a good witness I you know

1375

01:05:33,040 --> 01:05:30,810

you don't expect me to give you a serial

1376

01:05:36,880 --> 01:05:33,050

numbers or the parts inside for goodness

1377

01:05:39,720 --> 01:05:36,890

I remember having a talk with seth

1378

01:05:43,420 --> 01:05:39,730

shostack I know you debated him and uh

1379

01:05:46,270 --> 01:05:43,430

basically he said that he didn't believe

1380

01:05:48,940 --> 01:05:46,280

that well first of all that eyewitness

1381

01:05:50,140 --> 01:05:48,950

testimony doesn't hold up in court that

1382

01:05:52,000 --> 01:05:50,150

was one of the things he said and he

1383

01:05:55,690 --> 01:05:52,010

also said that he didn't think an

1384

01:05:58,660 --> 01:05:55,700

astronaut or a police officer or a pilot

1385

01:06:02,290 --> 01:05:58,670

were any more qualified as a eyewitness

1386

01:06:04,810 --> 01:06:02,300

and anyone else which I totally disagree

1387

01:06:05,020 --> 01:06:04,820

with myself yeah I totally disagree with

1388

01:06:08,410 --> 01:06:05,030

that

1389

01:06:11,890 --> 01:06:08,420

yes actually I like Seth and I noticed

1390

01:06:14,740 --> 01:06:11,900

in his most recent article that he has

1391

01:06:16,780 --> 01:06:14,750

changed his attitude about things you

1392

01:06:19,170 --> 01:06:16,790

know i-i've been fighting a battle with

1393

01:06:21,580 --> 01:06:19,180

the city community for a long time

1394

01:06:23,530 --> 01:06:21,590

that's supposed to stand for search for

1395

01:06:24,850 --> 01:06:23,540

extraterrestrial intelligence and I say

1396

01:06:28,810 --> 01:06:24,860

it stands for silly effort to

1397

01:06:32,800 --> 01:06:28,820

investigate a seat but I see that set

1398

01:06:35,830 --> 01:06:32,810

this back off a bit saying that well

1399

01:06:37,690 --> 01:06:35,840

they wouldn't know we were here until

1400

01:06:39,280 --> 01:06:37,700

fairly recently and from a couple

1401  
01:06:42,460 --> 01:06:39,290  
hundred light-years it wouldn't have had

1402  
01:06:45,820 --> 01:06:42,470  
time to receive a signal from them and

1403  
01:06:49,570 --> 01:06:45,830  
so forth and he's acting as if the only

1404  
01:06:51,820 --> 01:06:49,580  
information a lian's would have about us

1405  
01:06:54,550 --> 01:06:51,830  
or we would have about aliens is what

1406  
01:06:57,250 --> 01:06:54,560  
they would tell us well you know

1407  
01:06:59,170 --> 01:06:57,260  
Columbus didn't send signals smoke

1408  
01:07:03,100 --> 01:06:59,180  
signals to the Indians before he went

1409  
01:07:07,150 --> 01:07:03,110  
across the pond III think that's a false

1410  
01:07:10,540 --> 01:07:07,160  
analogy hmm and I'm glad to see him back

1411  
01:07:12,820 --> 01:07:10,550  
and off a bit I mean let's face it I I

1412  
01:07:16,380 --> 01:07:12,830  
won the debate there was a boat from the

1413  
01:07:20,350 --> 01:07:16,390

audience's on coast-to-coast radio and

1414

01:07:23,110 --> 01:07:20,360

57% said I won 33% said he won and 10%

1415

01:07:26,110 --> 01:07:23,120

said I don't know who won the debate but

1416

01:07:29,320 --> 01:07:26,120

the the SETI and I I did do something

1417

01:07:31,690 --> 01:07:29,330

kind of sneaky we did the debate and we

1418

01:07:35,890 --> 01:07:31,700

each gave three lectures on a cruise

1419

01:07:37,480 --> 01:07:35,900

from England to New York not much doing

1420

01:07:40,620 --> 01:07:37,490

in the North Atlantic in the middle of

1421

01:07:44,580 --> 01:07:43,020

and in the course of my lecture I talked

1422

01:07:47,250 --> 01:07:44,590

about five large-scale scientific

1423

01:07:49,590 --> 01:07:47,260

studies I present slides and what was in

1424

01:07:53,160 --> 01:07:49,600

the studies like Blue Book special

1425

01:07:58,200 --> 01:07:53,170

report 14 or the congressional hearings

1426

01:08:00,270 --> 01:07:58,210

of 1968 lots of data and after each one

1427

01:08:03,810 --> 01:08:00,280

I asked how many here have read this

1428

01:08:06,480 --> 01:08:03,820

this is on board the ship and surfs and

1429

01:08:08,910 --> 01:08:06,490

didn't go up for any of them and that's

1430

01:08:10,470 --> 01:08:08,920

that's typical I rarely get more than a

1431

01:08:15,360 --> 01:08:10,480

couple percent of read any of the major

1432

01:08:17,400 --> 01:08:15,370

sources of data you know look a guy

1433

01:08:19,890 --> 01:08:17,410

interrupted me three times and I was

1434

01:08:23,970 --> 01:08:19,900

speaking to a gulf research labs lecture

1435

01:08:25,770 --> 01:08:23,980

and so I turned to him at the end of the

1436

01:08:26,420 --> 01:08:25,780

lecture and so he could ask the first

1437

01:08:28,920 --> 01:08:26,430

question

1438

01:08:31,500 --> 01:08:28,930

well I'm sure one could come to other

1439

01:08:34,740 --> 01:08:31,510

conclusions and the one you came to he

1440

01:08:36,360 --> 01:08:34,750

said I said well as I recall you hadn't

1441

01:08:40,230 --> 01:08:36,370

read any of those five large-scale

1442

01:08:43,080 --> 01:08:40,240

scientific studies had you well no I

1443

01:08:45,540 --> 01:08:43,090

said well great quietly that that's the

1444

01:08:47,849 --> 01:08:45,550

difference between us isn't it I gave

1445

01:08:49,230 --> 01:08:47,859

you my conclusions I showed you the

1446

01:08:51,660 --> 01:08:49,240

evidence in which I base my conclusions

1447

01:08:55,830 --> 01:08:51,670

I've read them all you've read none of

1448

01:08:57,990 --> 01:08:55,840

them whose opinion is worth more long

1449

01:09:01,320 --> 01:08:58,000

styling yeah in other words I didn't

1450

01:09:03,240 --> 01:09:01,330

yell and shriek and fuss yeah but it's

1451

01:09:04,980 --> 01:09:03,250

pretty obvious if you haven't looked at

1452

01:09:09,030 --> 01:09:04,990

any of the data you're not entitled to a

1453

01:09:11,910 --> 01:09:09,040

quote scientific unquote opinion so you

1454

01:09:13,020 --> 01:09:11,920

know it's one of the hazards but it you

1455

01:09:18,030 --> 01:09:13,030

know was something that bothered me when

1456

01:09:21,840 --> 01:09:18,040

I first started to speak back in 1967

1457

01:09:25,200 --> 01:09:21,850

that's what 50 years of speech Wow

1458

01:09:27,560 --> 01:09:25,210

I was afraid somebody was going to come

1459

01:09:29,970 --> 01:09:27,570

up who would destroy my argument somehow

1460

01:09:31,950 --> 01:09:29,980

you know I didn't know how maybe was an

1461

01:09:34,230 --> 01:09:31,960

insider who knew something that got some

1462

01:09:36,240 --> 01:09:34,240

secret program that made flying saucers

1463

01:09:39,019 --> 01:09:36,250

you know or something like that but I

1464

01:09:40,999 --> 01:09:39,029

gradually lost that fear

1465

01:09:42,650 --> 01:09:41,009

because it just just didn't happen I've

1466

01:09:46,249 --> 01:09:42,660

only had a lemon hecklers and well over

1467

01:09:46,670 --> 01:09:46,259

700 lectures well and two of them were

1468

01:09:48,680 --> 01:09:46,680

drunk

1469

01:09:51,800 --> 01:09:48,690

I just may get that man if you talk

1470

01:09:53,690 --> 01:09:51,810

about sports religion politics etc and

1471

01:09:58,850 --> 01:09:53,700

you know I've been very pleased

1472

01:10:02,480 --> 01:09:58,860

sometimes University of Manitoba in

1473

01:10:03,920 --> 01:10:02,490

Winnipeg somebody at the end of my life

1474

01:10:06,920 --> 01:10:03,930

we had a packed house some people

1475

01:10:08,840 --> 01:10:06,930

sitting in the aisles he said how about

1476

01:10:10,190 --> 01:10:08,850

polling this audience I'd given some

1477

01:10:12,170 --> 01:10:10,200

Gallup poll later

1478

01:10:13,760 --> 01:10:12,180

everybody thinks nobody believes in UFOs

1479

01:10:15,190 --> 01:10:13,770

but that's not true and the greater the

1480

01:10:17,510 --> 01:10:15,200

education and more likely to believe

1481

01:10:22,610 --> 01:10:17,520

anyway he said how about polling this

1482

01:10:24,260 --> 01:10:22,620

audience oh well okay I normally I stick

1483

01:10:25,610 --> 01:10:24,270

my neck out I don't ask my audience to

1484

01:10:28,730 --> 01:10:25,620

well I don't think I wouldn't mind

1485

01:10:31,280 --> 01:10:28,740

everybody clapped so okay well over 90

1486

01:10:35,630 --> 01:10:31,290

percent this is after my lecture now I

1487

01:10:38,020 --> 01:10:35,640

don't know what it would be well over 90

1488

01:10:39,950 --> 01:10:38,030

percent thought some UFOs are

1489

01:10:42,200 --> 01:10:39,960

extraterrestrial spacecraft remember the

1490

01:10:42,830 --> 01:10:42,210

right question is not or all UFOs alien

1491

01:10:45,350 --> 01:10:42,840

spacecraft

1492

01:10:47,210 --> 01:10:45,360

the questions are any you know the

1493

01:10:48,620 --> 01:10:47,220

basketball coach understands yes most

1494

01:10:53,510 --> 01:10:48,630

we've learned southernfry talk give me

1495

01:10:55,250 --> 01:10:53,520

one he'll do yeah yeah I'm interested in

1496

01:10:57,260 --> 01:10:55,260

nuclear fission well most isotopes

1497

01:10:59,480 --> 01:10:57,270

aren't fissionable so what give me the

1498

01:11:01,910 --> 01:10:59,490

one that is we make a lot of effort to

1499

01:11:04,690 --> 01:11:01,920

do that so you kind of focus in the

1500

01:11:07,580 --> 01:11:04,700

right place and nobody would say that

1501

01:11:09,380 --> 01:11:07,590

Babe Ruth was a lousy baseball player

1502

01:11:13,210 --> 01:11:09,390

rake up does that mean know who Babe

1503

01:11:15,740 --> 01:11:13,220

Ruth is these days I think still yes

1504

01:11:17,090 --> 01:11:15,750

well I think so but two-thirds of the

1505

01:11:19,790 --> 01:11:17,100

time he didn't get ahead at least

1506

01:11:23,590 --> 01:11:19,800

two-thirds of the time it's the hits

1507

01:11:26,570 --> 01:11:23,600

that matter not to yeah that's right

1508

01:11:29,030 --> 01:11:26,580

Belinda in the chat room one to know

1509

01:11:31,730 --> 01:11:29,040

during she says during the conferences

1510

01:11:33,620 --> 01:11:31,740

people now I don't know if this is true

1511

01:11:36,169 --> 01:11:33,630

or not I've never heard this but people

1512

01:11:40,660 --> 01:11:36,179

are pushing you to

1513

01:11:43,100 --> 01:11:40,670

change your position on Bob Lazar and

1514

01:11:46,459 --> 01:11:43,110

she wanted to know what you what's your

1515

01:11:48,169 --> 01:11:46,469

reflection was above this well I don't

1516

01:11:52,010 --> 01:11:48,179

know if your audience knows who Bob

1517

01:11:55,010 --> 01:11:52,020

Lazar is I he's a smart guy who made

1518

01:12:00,410 --> 01:11:55,020

claims about 20 years ago it hasn't been

1519

01:12:03,590 --> 01:12:00,420

that long yeah yeah it has that he was

1520

01:12:06,709 --> 01:12:03,600

working on figuring out how flying

1521

01:12:10,760 --> 01:12:06,719

saucers work that he had a master's

1522

01:12:14,950 --> 01:12:10,770

degree in nuclear physics from MIT and a

1523

01:12:18,830 --> 01:12:14,960

master's in electronics from Caltech and

1524

01:12:21,800 --> 01:12:18,840

he was working on figuring out flies how

1525

01:12:25,490 --> 01:12:21,810

flying saucers worked using mysterious

1526

01:12:27,620 --> 01:12:25,500

element 115 you know so people kept

1527

01:12:30,760 --> 01:12:27,630

asking me about it he was on George

1528

01:12:33,470 --> 01:12:30,770

Knapp's show and he's a smart guy

1529

01:12:37,250 --> 01:12:33,480

let's I'm not saying he's an idiot at

1530

01:12:39,740 --> 01:12:37,260

all on things a lawyer because I George

1531

01:12:41,390 --> 01:12:39,750

gave me information on where Bob went to

1532

01:12:44,390 --> 01:12:41,400

high school like all this in high school

1533

01:12:46,910 --> 01:12:44,400

I said I'm getting different information

1534

01:12:49,370 --> 01:12:46,920

about this man and can you tell me

1535

01:12:53,510 --> 01:12:49,380

anything call me back I'll check out his

1536

01:12:57,080 --> 01:12:53,520

records uh okay it got his records

1537

01:12:59,060 --> 01:12:57,090

coming back uh let's see graduated in

1538

01:13:01,070 --> 01:12:59,070

August not with his class there's a

1539

01:13:07,729 --> 01:13:01,080

read a warning sign that usually means

1540

01:13:09,470 --> 01:13:07,739

you're flunked something I said okay did

1541

01:13:11,560 --> 01:13:09,480

he what science course he must have

1542

01:13:13,209 --> 01:13:11,570

taken a lot of science courses chemistry

1543

01:13:17,570 --> 01:13:13,219

what else

1544

01:13:19,520 --> 01:13:17,580

chemistry oh if he went to MIT he had

1545

01:13:21,770 --> 01:13:19,530

Morton in chemistry had more than a

1546

01:13:24,800 --> 01:13:21,780

chemistry course I said well he was

1547

01:13:29,740 --> 01:13:24,810

valedictorian wasn't he she laughed I

1548

01:13:35,000 --> 01:13:29,750

said he wasn't no was in the top ten no

1549

01:13:39,200 --> 01:13:35,010

top 20 no top 15 no she's laughing at

1550

01:13:44,089 --> 01:13:39,210

this time top hundred know he was like

1551

01:13:46,280 --> 01:13:44,099

262 at 365 bottom third so already I

1552

01:13:47,250 --> 01:13:46,290

knew he was in trouble you know you

1553

01:13:49,800 --> 01:13:47,260

can't uh

1554

01:13:52,200 --> 01:13:49,810

there's a personal side to this I was

1555

01:13:54,090 --> 01:13:52,210

accepted at MIT out of high school I was

1556

01:13:56,570 --> 01:13:54,100

valedictorian in my high school class I

1557

01:14:00,770 --> 01:13:56,580

couldn't afford to go the tuition was

1558

01:14:03,420 --> 01:14:00,780

\$900 now it's like 29,000 but you know

1559

01:14:05,700 --> 01:14:03,430

some I was resenting somebody saying

1560

01:14:10,500 --> 01:14:05,710

gone MIT I talked to five different

1561

01:14:12,180 --> 01:14:10,510

people in MIT Inc including the guy who

1562

01:14:14,130 --> 01:14:12,190

should know about whether the

1563

01:14:16,950 --> 01:14:14,140

Registrar's Office and all those people

1564

01:14:19,890 --> 01:14:16,960

about is there any way to erase

1565

01:14:21,990 --> 01:14:19,900

somebody's records because when the

1566

01:14:22,650 --> 01:14:22,000

excuse was well the government erased

1567

01:14:26,730 --> 01:14:22,660

his files

1568

01:14:28,260 --> 01:14:26,740

mhm and he said frankly no you can't

1569

01:14:29,910 --> 01:14:28,270

give out a grade point average without

1570

01:14:31,560 --> 01:14:29,920

permission of the person you're asking

1571

01:14:33,990 --> 01:14:31,570

about you know there are rules for the

1572

01:14:36,780 --> 01:14:34,000

game privacy and all the sort of stuff

1573

01:14:43,950 --> 01:14:36,790

but no there's no way to erase that a

1574

01:14:46,170 --> 01:14:43,960

guy went there so anyway I Bob and I

1575

01:14:48,270 --> 01:14:46,180

also conceded that Bob did work at Los

1576

01:14:52,260 --> 01:14:48,280

Alamos his name was in the phone book

1577

01:14:54,090 --> 01:14:52,270

but some people think if you work to Los

1578

01:14:55,920 --> 01:14:54,100

Alamos you must be a scientist well most

1579

01:14:59,100 --> 01:14:55,930

people work there aren't scientist

1580

01:15:01,470 --> 01:14:59,110

mm-hmm I mean you need support people

1581

01:15:03,600 --> 01:15:01,480

and secretaries and Kooks and guards and

1582

01:15:08,820 --> 01:15:03,610

all kinds of technicians lots of

1583

01:15:11,520 --> 01:15:08,830

technicians my god for them and so you

1584

01:15:14,250 --> 01:15:11,530

know what can I say well Roz is running

1585

01:15:16,470 --> 01:15:14,260

a company called United nuclear right he

1586

01:15:19,110 --> 01:15:16,480

sells scientific equipment and stuff but

1587

01:15:21,270 --> 01:15:19,120

he is not a scientist and you know

1588

01:15:24,210 --> 01:15:21,280

people say well I had a friend of his

1589

01:15:26,370 --> 01:15:24,220

calling a friendly conversation it

1590

01:15:28,170 --> 01:15:26,380

wasn't nasty well what would it take to

1591

01:15:31,140 --> 01:15:28,180

convince you that bob was telling the

1592

01:15:35,340 --> 01:15:31,150

truth I said well I'd like to see copies

1593

01:15:36,930 --> 01:15:35,350

of his diplomas hmm you know stuff like

1594

01:15:39,660 --> 01:15:36,940

that papers that he's written a resume

1595

01:15:41,220 --> 01:15:39,670

that would be nice it was back in the

1596

01:15:45,900 --> 01:15:41,230

times when I always had a respirator to

1597

01:15:47,609 --> 01:15:45,910

hand out stuff and so I I sent him

1598

01:15:50,189 --> 01:15:47,619

copies of my stuff

1599

01:15:51,810 --> 01:15:50,199

eight page resume when you work for a

1600

01:15:54,959 --> 01:15:51,820

lot of companies it's a lot of room you

1601

01:15:57,629 --> 01:15:54,969

know I never got anything from him

1602

01:16:00,689 --> 01:15:57,639

so I was trying to be fair and George

1603

01:16:03,389 --> 01:16:00,699

Knapp and I still get along yeah yeah

1604

01:16:05,489 --> 01:16:03,399

you know another thing I've then someone

1605

01:16:07,259 --> 01:16:05,499

put this up in the chat room and I

1606

01:16:09,810 --> 01:16:07,269

remembered hearing something about this

1607

01:16:14,040 --> 01:16:09,820

that someone asked him what was the

1608

01:16:17,219 --> 01:16:14,050

statue out front of MIT and or was it

1609

01:16:20,689 --> 01:16:17,229

the square or something and he couldn't

1610

01:16:23,969 --> 01:16:20,699

answer that question yeah that's funny

1611

01:16:29,909 --> 01:16:23,979

and you know you should be able to

1612

01:16:31,969 --> 01:16:29,919

establish it one yeah I would think so I

1613

01:16:37,409 --> 01:16:31,979

would think so let's let's talk about

1614

01:16:39,060 --> 01:16:37,419

the document now that was oh yeah given

1615

01:16:43,169 --> 01:16:39,070

to Heather Wade

1616

01:16:44,639 --> 01:16:43,179

I personally well maybe I shouldn't give

1617

01:16:47,399 --> 01:16:44,649

you my opinion on it maybe maybe I

1618

01:16:49,259 --> 01:16:47,409

should just hear your opinion on it well

1619

01:16:51,659 --> 01:16:49,269

I'd like to hear yours after and after I

1620

01:16:53,459 --> 01:16:51,669

give you mine okay Heather called me

1621

01:16:55,679 --> 01:16:53,469

I've done a couple of shows with her I

1622

01:16:59,609 --> 01:16:55,689

greatly appreciate he's a very bright

1623

01:17:04,589 --> 01:16:59,619

lady and I'm having written a whole book

1624

01:17:07,080 --> 01:17:04,599

top secret magic Maj I see about mj-12 I

1625

01:17:07,619 --> 01:17:07,090

was of course interested to say the

1626

01:17:09,659 --> 01:17:07,629

least

1627

01:17:10,889 --> 01:17:09,669

and I'm convinced there wasn't mj-12 and

1628

01:17:13,049 --> 01:17:10,899

I'm convinced that most of the early

1629

01:17:16,439 --> 01:17:13,059

documents were fraudulent okay I was

1630

01:17:19,949 --> 01:17:16,449

able to show why as a matter of fact so

1631

01:17:23,279 --> 01:17:19,959

I it was difficult though because I was

1632

01:17:24,229 --> 01:17:23,289

traveling and this thing was very hard

1633

01:17:28,830 --> 01:17:24,239

to read

1634

01:17:31,500 --> 01:17:28,840

it's like 48 pages to deliver mission to

1635

01:17:34,949 --> 01:17:31,510

to a sheep and I had to get a big

1636

01:17:36,479 --> 01:17:34,959

magnifier in order to read it so it took

1637

01:17:38,850 --> 01:17:36,489

a lot more time than one would have

1638

01:17:42,689 --> 01:17:38,860

thought yeah

1639

01:17:44,719 --> 01:17:42,699

really hard to read yeah it was so I

1640

01:17:47,219 --> 01:17:44,729

read it with interest and the thing is

1641

01:17:49,560 --> 01:17:47,229

you can't just look at a document like

1642

01:17:50,969 --> 01:17:49,570

that you've got to check if you're gonna

1643

01:17:56,099 --> 01:17:50,979

say it's a fraud you got to say well

1644

01:17:57,340 --> 01:17:56,109

because ABCDEF etc no I was able to

1645

01:18:01,630 --> 01:17:57,350

check

1646

01:18:04,240 --> 01:18:01,640

since I got that from Heather it is

1647

01:18:08,400 --> 01:18:04,250

noted that Truman President Truman

1648

01:18:12,990 --> 01:18:08,410

supposedly met with aliens in Vermont

1649

01:18:16,990 --> 01:18:13,000

while he was president on a certain date

1650

01:18:18,970 --> 01:18:17,000

so I checked with the Truman library the

1651

01:18:20,650 --> 01:18:18,980

presidential libraries are loaded with

1652

01:18:22,870 --> 01:18:20,660

information they have all the calendars

1653

01:18:25,200 --> 01:18:22,880

every meeting the president ever had and

1654

01:18:27,580 --> 01:18:25,210

so forth and so on so they're very

1655

01:18:29,230 --> 01:18:27,590

obliging they'll give me information if

1656

01:18:31,120 --> 01:18:29,240

you're given a specific date where was

1657

01:18:33,640 --> 01:18:31,130

he or you know tell me what was on ask

1658

01:18:35,830 --> 01:18:33,650

Allender for that day he definitely was

1659

01:18:38,320 --> 01:18:35,840

in Washington he had meetings with

1660

01:18:42,120 --> 01:18:38,330

people that are spelled out and so forth

1661

01:18:46,330 --> 01:18:42,130

there was a second item where supposedly

1662

01:18:49,980 --> 01:18:46,340

Mike met with aliens at Curtin which is

1663

01:18:52,210 --> 01:18:49,990

in New Mexico on a certain date and

1664

01:18:54,040 --> 01:18:52,220

there again when I checked with the

1665

01:18:57,460 --> 01:18:54,050

Eisenhower where they they got back to

1666

01:19:00,400 --> 01:18:57,470

me and he was in Washington that day

1667

01:19:02,500 --> 01:19:00,410

lots of meetings and so you know we

1668

01:19:06,580 --> 01:19:02,510

didn't have supersonic transports moving

1669

01:19:08,890 --> 01:19:06,590

presidents around for secret meeting

1670

01:19:11,290 --> 01:19:08,900

well people forget when a president

1671

01:19:13,180 --> 01:19:11,300

travels there's an entourage oh yeah you

1672

01:19:15,700 --> 01:19:13,190

got to protect them security people and

1673

01:19:17,350 --> 01:19:15,710

so forth and there are records they may

1674

01:19:19,750 --> 01:19:17,360

not be in the New York Times that day

1675

01:19:22,090 --> 01:19:19,760

were what he was doing but somebody

1676

01:19:24,340 --> 01:19:22,100

knows and after he's out of office they

1677

01:19:26,380 --> 01:19:24,350

certainly him you know loads of files a

1678

01:19:28,720 --> 01:19:26,390

pile of presidential libraries I've been

1679

01:19:30,850 --> 01:19:28,730

to several of them but it's a good place

1680

01:19:38,560 --> 01:19:30,860

to get solid information you know settle

1681

01:19:41,830 --> 01:19:38,570

for guessing what's that well I should

1682

01:19:45,220 --> 01:19:41,840

add that there were some things in the

1683

01:19:49,540 --> 01:19:45,230

document down that conversation would be

1684

01:19:55,030 --> 01:19:49,550

suppose it alien oh yes yeah what it's

1685

01:19:57,880 --> 01:19:55,040

hokey a good word to use yeah I did have

1686

01:19:59,620 --> 01:19:57,890

Kevin on recently Kevin Randall and we

1687

01:20:04,450 --> 01:19:59,630

talked about the document and that's the

1688

01:20:06,250 --> 01:20:04,460

part that I said to him basically the

1689

01:20:07,900 --> 01:20:06,260

the person that wrote those questions

1690

01:20:09,310 --> 01:20:07,910

didn't watch a rival now there was a

1691

01:20:11,260 --> 01:20:09,320

movie arrival I don't know if you got to

1692

01:20:13,810 --> 01:20:11,270

see that stand I haven't seen it

1693

01:20:15,670 --> 01:20:13,820

yeah but they asked some real logical

1694

01:20:18,760 --> 01:20:15,680

questions that will really really

1695

01:20:22,660 --> 01:20:18,770

well-thought-out whoever wrote that

1696

01:20:25,270 --> 01:20:22,670

script which would be something typical

1697

01:20:27,460 --> 01:20:25,280

you would ask someone coming from you

1698

01:20:30,910 --> 01:20:27,470

know another planet or you know solar

1699

01:20:33,610 --> 01:20:30,920

system or whatever and know those

1700

01:20:36,010 --> 01:20:33,620

questions the questions themselves just

1701

01:20:37,660 --> 01:20:36,020

didn't make any sense and you know who

1702

01:20:41,130 --> 01:20:37,670

knows what an aliens gonna answer maybe

1703

01:20:45,820 --> 01:20:41,140

they do like trees that's a new document

1704

01:20:51,640 --> 01:20:45,830

so so who do you think would take the

1705

01:20:53,980 --> 01:20:51,650

time to do all that work and why but you

1706

01:20:56,170 --> 01:20:53,990

know that's a good question because when

1707

01:20:59,230 --> 01:20:56,180

I started to do my research on the

1708

01:21:01,450 --> 01:20:59,240

original batch of documents never forget

1709

01:21:04,120 --> 01:21:01,460

I say there were four genuine ones and

1710

01:21:06,730 --> 01:21:04,130

there's dozens of phony ones now how did

1711

01:21:09,720 --> 01:21:06,740

I establish they were phony well there

1712

01:21:12,130 --> 01:21:09,730

was a mention of general Wedemeyer

1713

01:21:16,770 --> 01:21:12,140

having something to do with in grade 12

1714

01:21:18,970 --> 01:21:16,780

and I called the Marshall archives

1715

01:21:20,760 --> 01:21:18,980

George Marshall was a secretary of

1716

01:21:23,140 --> 01:21:20,770

defense during World War 2 and

1717

01:21:25,920 --> 01:21:23,150

outstanding record and Truman consider

1718

01:21:29,370 --> 01:21:25,930

him the outstanding living American on

1719

01:21:32,830 --> 01:21:29,380

anyway I called the Marshall archives

1720

01:21:35,530 --> 01:21:32,840

and I asked do you see any reason why

1721

01:21:38,050 --> 01:21:35,540

general Wedemeyer I'd been there so the

1722

01:21:40,150 --> 01:21:38,060

guy knew who I was and stuff and know

1723

01:21:42,070 --> 01:21:40,160

about my work on em trade well can you

1724

01:21:43,330 --> 01:21:42,080

say any reason why general Wedemeyer

1725

01:21:45,520 --> 01:21:43,340

would have been part of this he was a

1726

01:21:50,320 --> 01:21:45,530

China expert he spent a year in China in

1727

01:21:52,300 --> 01:21:50,330

the 40s and he said no I can't uh why

1728

01:21:53,980 --> 01:21:52,310

don't you look at his book Oh didn't

1729

01:21:57,790 --> 01:21:53,990

know he'd written a book Wedemeyer

1730

01:22:01,090 --> 01:21:57,800

reports in the mid 50's okay so I got

1731

01:22:02,890 --> 01:22:01,100

off the phone I called the local

1732

01:22:05,380 --> 01:22:02,900

University of New Brunswick library

1733

01:22:08,230 --> 01:22:05,390

which is two miles from my house very

1734

01:22:10,180 --> 01:22:08,240

nice to have that and I asked if they

1735

01:22:13,150 --> 01:22:10,190

had the book they had the book I went

1736

01:22:14,669 --> 01:22:13,160

over borrowed the book I have privileges

1737

01:22:16,860 --> 01:22:14,679

at the library

1738

01:22:20,459 --> 01:22:16,870

and within half an hour found three

1739

01:22:24,209 --> 01:22:20,469

documents that somebody had emulated

1740

01:22:26,189 --> 01:22:24,219

it's the word I think with very few

1741

01:22:27,540 --> 01:22:26,199

changes they change a date in a couple

1742

01:22:29,729 --> 01:22:27,550

of words so you'd think it was something

1743

01:22:32,340 --> 01:22:29,739

it wasn't and I found three documents

1744

01:22:34,020 --> 01:22:32,350

right off the bat and a few days later

1745

01:22:36,090 --> 01:22:34,030

went back to the library grabbed some

1746

01:22:39,200 --> 01:22:36,100

other books in that same section of the

1747

01:22:41,640 --> 01:22:39,210

library and found a bunch more documents

1748

01:22:43,709 --> 01:22:41,650

where the handwritten material was in

1749

01:22:50,939 --> 01:22:43,719

exactly the same place on the page

1750

01:22:53,250 --> 01:22:50,949

you know Xerox machines work and so it

1751

01:22:55,140 --> 01:22:53,260

was clear to me that and some people

1752

01:22:56,220 --> 01:22:55,150

thought because it's hard to read some

1753

01:23:04,729 --> 01:22:56,230

of the documents that meant they were

1754

01:23:07,229 --> 01:23:04,739

genuine yeah yeah you know so I became

1755

01:23:12,090 --> 01:23:07,239

very concerned and I asked somebody who

1756

01:23:13,350 --> 01:23:12,100

worked for the CIA it's possible that

1757

01:23:15,689 --> 01:23:13,360

there were classes were guys in

1758

01:23:18,270 --> 01:23:15,699

intelligence groups or have as a class

1759

01:23:21,360 --> 01:23:18,280

exercise make up a phony document you

1760

01:23:24,450 --> 01:23:21,370

know why not that's a great question I

1761

01:23:27,510 --> 01:23:24,460

could yeah certainly signatures people

1762

01:23:29,580 --> 01:23:27,520

forget when we picked up Eichmann

1763

01:23:32,189 --> 01:23:29,590

where was it Argentina or someplace when

1764

01:23:35,220 --> 01:23:32,199

Israelis picked that bike when one of

1765

01:23:37,950 --> 01:23:35,230

the people I was with their team the big

1766

01:23:40,200 --> 01:23:37,960

Nazi well one of the people that was

1767

01:23:43,169 --> 01:23:40,210

with their team was a document forger

1768

01:23:44,820 --> 01:23:43,179

huh I mean illegal they work for the

1769

01:23:47,820 --> 01:23:44,830

government well if you take somebody

1770

01:23:51,419 --> 01:23:47,830

across boundaries national boundaries

1771

01:23:53,280 --> 01:23:51,429

you can have paperwork for right yeah my

1772

01:23:55,950 --> 01:23:53,290

friend isn't feeling well at all but

1773

01:23:57,930 --> 01:23:55,960

here his documents and so forth and so

1774

01:24:00,270 --> 01:23:57,940

it was standard practice that you hadn't

1775

01:24:04,740 --> 01:24:00,280

gotta have a document Ignite around to

1776

01:24:08,370 --> 01:24:04,750

make documents phony ones so you know I

1777

01:24:09,930 --> 01:24:08,380

I understand that there are plenty of

1778

01:24:11,880 --> 01:24:09,940

people who are good at making phony

1779

01:24:14,580 --> 01:24:11,890

documents doesn't every spy have to have

1780

01:24:15,149 --> 01:24:14,590

phony documents you know let me think

1781

01:24:17,910 --> 01:24:15,159

about it

1782

01:24:22,820 --> 01:24:17,920

huh he wasn't born in Milwaukee he was

1783

01:24:26,640 --> 01:24:22,830

born in Munich regarding the document

1784

01:24:29,459 --> 01:24:26,650

bill and the forum had this question

1785

01:24:31,260 --> 01:24:29,469

could it be the reaction of the UFO

1786

01:24:34,470 --> 01:24:31,270

community was exactly the outcome

1787

01:24:36,750 --> 01:24:34,480

desired by the documents creator namely

1788

01:24:39,350 --> 01:24:36,760

just enough earmarks earmarks of

1789

01:24:42,450 --> 01:24:39,360

authenticity to gain a certain level of

1790

01:24:44,550 --> 01:24:42,460

publicity on the content but with a

1791

01:24:48,419 --> 01:24:44,560

relatively quick recognition that this

1792

01:24:50,340 --> 01:24:48,429

is not authentic well I think that may

1793

01:24:52,530 --> 01:24:50,350

very well be because my feeling in the

1794

01:24:55,950 --> 01:24:52,540

early mass of documents or dozens of

1795

01:24:58,260 --> 01:24:55,960

them that good stuff gets out you put

1796

01:25:00,780 --> 01:24:58,270

crap on the market and hope it rubs off

1797

01:25:02,880 --> 01:25:00,790

on the good stuff and I can understand

1798

01:25:05,490 --> 01:25:02,890

that that there's a certain utility to

1799

01:25:07,110 --> 01:25:05,500

that because it takes a gutsy guy who's

1800

01:25:08,550 --> 01:25:07,120

done his homework to stand up for

1801  
01:25:11,850 --> 01:25:08,560  
something where everybody knows the most

1802  
01:25:14,700 --> 01:25:11,860  
documents are phony Stan I've had some

1803  
01:25:17,040 --> 01:25:14,710  
people say that to me and I say the

1804  
01:25:20,070 --> 01:25:17,050  
question isn't those documents sure a

1805  
01:25:23,100 --> 01:25:20,080  
lot of them are phony but what's wrong

1806  
01:25:26,820 --> 01:25:23,110  
with these three you know show me where

1807  
01:25:28,260 --> 01:25:26,830  
the errors are and one guy gave me a

1808  
01:25:32,939 --> 01:25:28,270  
hard time on the Internet

1809  
01:25:37,950 --> 01:25:32,949  
there's no top secret I want to say cold

1810  
01:25:39,930 --> 01:25:37,960  
org document number on tops all he said

1811  
01:25:43,439 --> 01:25:39,940  
all top secret documents have to have

1812  
01:25:46,250 --> 01:25:43,449  
that number and I pointed out that I'd

1813  
01:25:49,439 --> 01:25:46,260

already published a couple that didn't

1814

01:25:53,270 --> 01:25:49,449

and if you look at a listing of the

1815

01:25:58,290 --> 01:25:53,280

documents in the airforce files

1816

01:26:01,290 --> 01:25:58,300

intelligence files there's a whole large

1817

01:26:04,439 --> 01:26:01,300

record group of them I quoted the

1818

01:26:06,720 --> 01:26:04,449

numbers that he said this file includes

1819

01:26:09,959 --> 01:26:06,730

only top secret numbers and they all

1820

01:26:12,060 --> 01:26:09,969

have these top secret documents and they

1821

01:26:14,280 --> 01:26:12,070

all have these code numbers on them and

1822

01:26:16,169 --> 01:26:14,290

how to point out I've got a copy of the

1823

01:26:20,520 --> 01:26:16,179

listing of all the documents it's 50

1824

01:26:22,649 --> 01:26:20,530

pages long and only a small percentage

1825

01:26:25,110 --> 01:26:22,659

were top secret lots of more

1826

01:26:29,000 --> 01:26:25,120

disappointing old confidential or secret

1827

01:26:32,380 --> 01:26:29,010

not top secret code over especially and

1828

01:26:34,910 --> 01:26:32,390

he apologized after a few days

1829

01:26:36,800 --> 01:26:34,920

that his source of information hadn't

1830

01:26:39,169 --> 01:26:36,810

been able to provide any justification

1831

01:26:40,880 --> 01:26:39,179

for this done the other things so yeah I

1832

01:26:43,000 --> 01:26:40,890

think there's a lot of stuff about

1833

01:26:46,430 --> 01:26:43,010

documents and I think you're important

1834

01:26:48,189 --> 01:26:46,440

but it is foolish to say that because

1835

01:26:50,620 --> 01:26:48,199

you've got a poem when they're all phony

1836

01:26:54,050 --> 01:26:50,630

you know that makes no sense

1837

01:26:56,240 --> 01:26:54,060

and guys working on the intelligence

1838

01:27:00,500 --> 01:26:56,250

business know the kind of things to make

1839

01:27:04,160 --> 01:27:00,510

look good and make look phony yeah yes a

1840

01:27:07,400 --> 01:27:04,170

question on the chat room are in regard

1841

01:27:11,209 --> 01:27:07,410

to mj-12 documents he said that every

1842

01:27:15,200 --> 01:27:11,219

this is rja says every document that he

1843

01:27:18,050 --> 01:27:15,210

is read is about as non-technical as it

1844

01:27:20,660 --> 01:27:18,060

gets and I'm an engineer do you never

1845

01:27:23,720 --> 01:27:20,670

see any meat do you ever see any meeting

1846

01:27:27,229 --> 01:27:23,730

these documents does that bother you

1847

01:27:28,669 --> 01:27:27,239

that it's not technical it doesn't

1848

01:27:32,600 --> 01:27:28,679

bother me because I think that would be

1849

01:27:35,979 --> 01:27:32,610

in a separate box entirely highly

1850

01:27:39,709 --> 01:27:35,989

technical stuff I can a highly technical

1851  
01:27:42,290 --> 01:27:39,719  
legitimate stuff I don't think gets out

1852  
01:27:43,910 --> 01:27:42,300  
those documents are still classified

1853  
01:27:45,590 --> 01:27:43,920  
we still have loads of documents that

1854  
01:27:49,340 --> 01:27:45,600  
are classified from the true manure for

1855  
01:27:52,570 --> 01:27:49,350  
God's sakes you know because who knows

1856  
01:27:56,419 --> 01:27:52,580  
what good might be for somebody so I

1857  
01:28:01,490 --> 01:27:56,429  
don't expect I mean that's the first

1858  
01:28:03,890 --> 01:28:01,500  
batch of mj-12 documents i you know i

1859  
01:28:06,790 --> 01:28:03,900  
don't know who put them out i certainly

1860  
01:28:09,470 --> 01:28:06,800  
don't know why and I was quite dubious

1861  
01:28:12,229 --> 01:28:09,480  
like I say finding the name Menzel on

1862  
01:28:18,939 --> 01:28:12,239  
the list these guys were ready for us to

1863  
01:28:23,709 --> 01:28:18,949

go public and say gosh yeah I know so I

1864

01:28:26,300 --> 01:28:23,719

I'm not surprised that we're not getting

1865

01:28:27,669 --> 01:28:26,310

it proves that you can keep secrets is

1866

01:28:29,979 --> 01:28:27,679

what I'm saying I guess

1867

01:28:33,969 --> 01:28:29,989

this is a highly classified technical

1868

01:28:38,290 --> 01:28:33,979

stuff doesn't get out why should it yeah

1869

01:28:40,839 --> 01:28:38,300

okay cow on the message room what's your

1870

01:28:43,410 --> 01:28:40,849

opinion on the purpose of government's

1871

01:28:46,149 --> 01:28:43,420

efforts to manipulate UFO conversation

1872

01:28:49,589 --> 01:28:46,159

do you consider the prima facie evidence

1873

01:28:53,919 --> 01:28:49,599

of the phenomena that they cannot

1874

01:28:55,830 --> 01:28:53,929

outright control well they certainly

1875

01:28:59,589 --> 01:28:55,840

can't control it

1876

01:29:01,899 --> 01:28:59,599

an aircraft stumbles and crash you know

1877

01:29:04,600 --> 01:29:01,909

they can't keep that from happening

1878

01:29:06,040 --> 01:29:04,610

and they can't keep a big mouth from

1879

01:29:09,399 --> 01:29:06,050

opening his mouth when he's drunk

1880

01:29:12,839 --> 01:29:09,409

occasionally it happens on things but I

1881

01:29:16,330 --> 01:29:12,849

think the government let's not forget

1882

01:29:18,459 --> 01:29:16,340

that we have a planet with I don't know

1883

01:29:22,870 --> 01:29:18,469

what the latest number is 195 countries

1884

01:29:25,569 --> 01:29:22,880

some large 95 196 yes that's something

1885

01:29:27,850 --> 01:29:25,579

like that yeah uh we don't have a planet

1886

01:29:29,169 --> 01:29:27,860

earth government there's nobody who

1887

01:29:31,839 --> 01:29:29,179

speaks for the planet you know one of

1888

01:29:35,560 --> 01:29:31,849

them land on a White House lawn well the

1889

01:29:37,359 --> 01:29:35,570

president does not speak for what do we

1890

01:29:38,859 --> 01:29:37,369

got seven and a half billion people on

1891

01:29:45,279 --> 01:29:38,869

the planet maybe it's mine I don't know

1892

01:29:46,569 --> 01:29:45,289

I haven't kept track you know so what

1893

01:29:51,339 --> 01:29:46,579

what are we gonna do

1894

01:29:52,029 --> 01:29:51,349

I lost my track on that give me that

1895

01:29:54,459 --> 01:29:52,039

question again

1896

01:29:56,140 --> 01:29:54,469

this guy just wanted to know if the

1897

01:29:58,540 --> 01:29:56,150

government what you thought about the

1898

01:30:03,310 --> 01:29:58,550

government's efforts to manipulate the

1899

01:30:06,640 --> 01:30:03,320

conversation oh yeah thing I was getting

1900

01:30:07,810 --> 01:30:06,650

at was that if we had an Earthling

1901

01:30:10,620 --> 01:30:07,820

government there'd be an awful lot of

1902

01:30:12,939 --> 01:30:10,630

people losing power wouldn't they hmm

1903

01:30:16,449 --> 01:30:12,949

people in power like to stay in power

1904

01:30:18,549 --> 01:30:16,459

has been my observation so I think it's

1905

01:30:20,979 --> 01:30:18,559

very important for the people who run

1906

01:30:23,410 --> 01:30:20,989

the show that they do everything they

1907

01:30:27,100 --> 01:30:23,420

can something keep people from pushing

1908

01:30:29,890 --> 01:30:27,110

for a planetary government now it may be

1909

01:30:31,449 --> 01:30:29,900

strange to aliens you know what's what

1910

01:30:33,339 --> 01:30:31,459

these guys are gonna done think a little

1911

01:30:36,549 --> 01:30:33,349

planet here we think it's beautiful and

1912

01:30:38,250 --> 01:30:36,559

I think it is beautiful but you know

1913

01:30:40,110 --> 01:30:38,260

what what's what

1914

01:30:42,630 --> 01:30:40,120

I don't think have a government for the

1915

01:30:45,030 --> 01:30:42,640

girl languages on the planet mm-hmm I

1916

01:30:46,860 --> 01:30:45,040

mean sometimes I think that the earth is

1917

01:30:48,270 --> 01:30:46,870

a penal colony they dumped all the bad

1918

01:30:50,610 --> 01:30:48,280

boys and girls here and that's hard

1919

01:30:53,730 --> 01:30:50,620

there's some nasty to each other that

1920

01:30:55,350 --> 01:30:53,740

could be well we certainly don't spend a

1921

01:30:57,210 --> 01:30:55,360

lot of effort trying to make the place

1922

01:31:01,500 --> 01:30:57,220

better like I say a trillion dollars

1923

01:31:06,120 --> 01:31:01,510

every year for things military is a sad

1924

01:31:08,850 --> 01:31:06,130

commentary yeah yeah and and let's just

1925

01:31:12,840 --> 01:31:08,860

go way off topic and just let's just say

1926

01:31:15,870 --> 01:31:12,850

that we were able to start occupying the

1927

01:31:17,880 --> 01:31:15,880

moon or say Mars another planet yeah how

1928

01:31:20,340 --> 01:31:17,890

do you think that would go for our

1929

01:31:24,120 --> 01:31:20,350

species do you think it would be a war

1930

01:31:26,040 --> 01:31:24,130

time on land grabbing and you know war

1931

01:31:29,340 --> 01:31:26,050

time was far as control of another

1932

01:31:32,130 --> 01:31:29,350

planet well look down

1933

01:31:33,990 --> 01:31:32,140

we had Wars when we people were

1934

01:31:37,230 --> 01:31:34,000

migrating South America and North

1935

01:31:38,580 --> 01:31:37,240

America there were there were Wars look

1936

01:31:43,140 --> 01:31:38,590

I live in Canada there were the

1937

01:31:47,790 --> 01:31:43,150

french-indian war of 1812 our own little

1938

01:31:50,790 --> 01:31:47,800

planet so I think that's gonna be a big

1939

01:31:53,550 --> 01:31:50,800

step it's not as more in the future as

1940

01:31:55,710 --> 01:31:53,560

some might think look I worked on

1941

01:31:58,590 --> 01:31:55,720

fishing and fusion propulsion systems

1942

01:32:00,510 --> 01:31:58,600

for deep space travel and most people

1943

01:32:03,150 --> 01:32:00,520

think nuclear oh that's terrible and

1944

01:32:05,460 --> 01:32:03,160

blah blah blah we operated well Los

1945

01:32:07,050 --> 01:32:05,470

Alamos operated a nuclear efficient

1946

01:32:11,520 --> 01:32:07,060

rocket less than eight feet in diameter

1947

01:32:14,370 --> 01:32:11,530

and a power level of 4,400 megawatts

1948

01:32:17,430 --> 01:32:14,380

that's twice the power of over dance yes

1949

01:32:20,130 --> 01:32:17,440

the exhaust temperature of the hydrogen

1950

01:32:22,350 --> 01:32:20,140

very cold hydrogen going in very hot

1951

01:32:27,060 --> 01:32:22,360

going out was over 4,000 degrees

1952

01:32:31,230 --> 01:32:27,070

Fahrenheit and that was back in the 60s

1953

01:32:33,240 --> 01:32:31,240

unreal and I worked on a study in 1962

1954

01:32:36,090 --> 01:32:33,250

of fusion propulsion for deep space

1955

01:32:38,790 --> 01:32:36,100

travel and for the listeners almost all

1956

01:32:42,120 --> 01:32:38,800

the energy in the universe produced by

1957

01:32:43,980 --> 01:32:42,130

nuclear fusion in the Stars that Sun up

1958

01:32:45,250 --> 01:32:43,990

there isn't a mass of burning gas it's

1959

01:32:49,839 --> 01:32:45,260

of fusions

1960

01:32:54,220 --> 01:32:49,849

them and the well look take a little

1961

01:32:56,830 --> 01:32:54,230

escalation in 1944 a big bomb was a 10

1962

01:32:58,720 --> 01:32:56,840

ton blockbuster fixed the energy of 10

1963

01:33:02,830 --> 01:32:58,730

tons of dynamite Wow

1964

01:33:07,839 --> 01:33:02,840

and it took a big b-29 to carry it 1945

1965

01:33:11,529 --> 01:33:07,849

first atomic bomb 16,000 tons of tnt

1966

01:33:16,740 --> 01:33:11,539

dynamite energy equivalent first fusion

1967

01:33:20,049 --> 01:33:16,750

demise 1950 to release the energy of 10

1968

01:33:23,109 --> 01:33:20,059

million tons of dynamite one stinkin

1969

01:33:28,810 --> 01:33:23,119

weapon and the Russians dropped their

1970

01:33:33,580 --> 01:33:28,820

Tsar Bomba it was the 7 million tons of

1971

01:33:37,839 --> 01:33:33,590

TNT energy release equivalent now that

1972

01:33:40,839 --> 01:33:37,849

means you can go to the Stars and you

1973

01:33:44,560 --> 01:33:40,849

know that's pretty scary on the one hand

1974

01:33:45,700 --> 01:33:44,570

it's exciting on the other and well the

1975

01:33:47,140 --> 01:33:45,710

other thing that goes with that of

1976

01:33:50,919 --> 01:33:47,150

course our planet is only 4 billion

1977

01:33:53,080 --> 01:33:50,929

years old but they road is 13 billion

1978

01:33:54,640 --> 01:33:53,090

years old so somebody got started a

1979

01:33:56,350 --> 01:33:54,650

little bit before we did we didn't

1980

01:34:00,520 --> 01:33:56,360

figure out that there were even no trans

1981

01:34:03,250 --> 01:34:00,530

until 1932 fishing and fusion in 1938 so

1982

01:34:04,959 --> 01:34:03,260

what if some things I started a hundred

1983

01:34:09,069 --> 01:34:04,969

a thousand a million years before we did

1984

01:34:11,560 --> 01:34:09,079

what do they know that we don't know you

1985

01:34:16,180 --> 01:34:11,570

know so we have to take into account

1986

01:34:18,759 --> 01:34:16,190

that we're trying to completely right I

1987

01:34:22,930 --> 01:34:18,769

think we are anyway yeah now what do you

1988

01:34:25,509 --> 01:34:22,940

think about Bob Baker loaves claims his

1989

01:34:28,720 --> 01:34:25,519

interview on 60 minutes did you catch

1990

01:34:34,209 --> 01:34:28,730

that well I felt a write-up about it and

1991

01:34:37,990 --> 01:34:34,219

as it happens I got the first research

1992

01:34:43,149 --> 01:34:38,000

grant that Bob gave for UFO studies and

1993

01:34:45,850 --> 01:34:43,159

really Wow way back when and I was very

1994

01:34:47,830 --> 01:34:45,860

impressed with him I mean he's a

1995

01:34:49,870 --> 01:34:47,840

billionaire and you can see why he can

1996

01:34:52,410 --> 01:34:49,880

make decisions he knows what he wants

1997

01:34:55,360 --> 01:34:52,420

and he goes for it

1998

01:34:57,700 --> 01:34:55,370

it was a pleasure to deal with frankly

1999

01:34:59,920 --> 01:34:57,710

because you know give me a budget and I

2000

01:35:02,020 --> 01:34:59,930

sent him some stuff thanks him some

2001

01:35:05,320 --> 01:35:02,030

stuff and I got a yes back in two days

2002

01:35:06,910 --> 01:35:05,330

and you know we agreed on the terms the

2003

01:35:08,800 --> 01:35:06,920

size of the contract there was a check

2004

01:35:14,440 --> 01:35:08,810

in my bank account by the end of the

2005

01:35:16,900 --> 01:35:14,450

week I and I he went with us on a visit

2006

01:35:23,170 --> 01:35:16,910

out of the plains of San Agustin stayed

2007

01:35:25,510 --> 01:35:23,180

in the same chromium but so he paid for

2008

01:35:28,030 --> 01:35:25,520

the helicopter though which made it a

2009

01:35:31,090 --> 01:35:28,040

heck of a lot easier driving on the

2010

01:35:35,770 --> 01:35:31,100

boonies yeah you know so bob is a gutsy

2011

01:35:38,320 --> 01:35:35,780

guy he knows what he wants I appreciate

2012

01:35:40,000 --> 01:35:38,330

his guts and saying he didn't care don't

2013

01:35:41,800 --> 01:35:40,010

you think he should be careful about

2014

01:35:44,140 --> 01:35:41,810

what you say somebody asked them and I

2015

01:35:49,720 --> 01:35:44,150

guess on the program and I don't care

2016

01:35:51,490 --> 01:35:49,730

yeah yeah and if more people had the

2017

01:35:54,340 --> 01:35:51,500

same amount of courage we'd be a heck of

2018

01:35:57,340 --> 01:35:54,350

a lot further advanced but so I I'm a

2019

01:35:59,440 --> 01:35:57,350

fan of his Imai acknowledge him which

2020

01:36:01,390 --> 01:35:59,450

please didn't I didn't handsome gotta

2021

01:36:03,960 --> 01:36:01,400

buy acknowledged person later he told me

2022

01:36:07,810 --> 01:36:03,970

was appreciated in one of my books

2023

01:36:08,920 --> 01:36:07,820

flying saucers in science I think gave

2024

01:36:12,490 --> 01:36:08,930

him credit for

2025

01:36:14,530 --> 01:36:12,500

having provided research money I mean it

2026

01:36:17,560 --> 01:36:14,540

takes money to do research you know

2027

01:36:20,680 --> 01:36:17,570

right like it or not nobody flies me for

2028

01:36:23,770 --> 01:36:20,690

free well you know it's just like he

2029

01:36:26,620 --> 01:36:23,780

said in that interview he's spent more

2030

01:36:30,400 --> 01:36:26,630

money than anyone else on the topic and

2031

01:36:32,320 --> 01:36:30,410

I believe that's absolutely the you know

2032

01:36:34,960 --> 01:36:32,330

the truth and not just that you know I

2033

01:36:38,020 --> 01:36:34,970

mean skinwalker ranch and all that yeah

2034

01:36:41,980 --> 01:36:38,030

he was involved in all that and yeah

2035

01:36:44,250 --> 01:36:41,990

he's a solid guy I we've met we've spent

2036

01:36:46,270 --> 01:36:44,260

time together we've had meals together I

2037

01:36:50,080 --> 01:36:46,280

appreciate it I mean I'm not a

2038

01:36:53,710 --> 01:36:50,090

millionaire but I do appreciate how he

2039

01:36:57,130 --> 01:36:53,720

handled things and I could see why he

2040

01:36:59,680 --> 01:36:57,140

took definite actions he didn't monkey

2041

01:37:01,630 --> 01:36:59,690

around hemming and hawing and so forth

2042

01:37:04,570 --> 01:37:01,640

and let me give me a contrast with

2043

01:37:05,360 --> 01:37:04,580

something when I was in industry working

2044

01:37:08,420 --> 01:37:05,370

on nuclear

2045

01:37:10,490 --> 01:37:08,430

Rockets I was visiting a general in

2046

01:37:13,010 --> 01:37:10,500

California I worked for Westinghouse in

2047

01:37:14,480 --> 01:37:13,020

Pittsburgh and dealing with my radiation

2048

01:37:16,430 --> 01:37:14,490

shielding guy and he said hey Stan you

2049

01:37:18,140 --> 01:37:16,440

want to go to a meeting what kind of a

2050

01:37:19,940 --> 01:37:18,150

meaning well NASA is having a meeting

2051

01:37:22,370 --> 01:37:19,950

about what they should do with the

2052

01:37:24,800 --> 01:37:22,380

nuclear racket oh sure I'd love to go I

2053

01:37:26,960 --> 01:37:24,810

went the March meeting I ever attended

2054

01:37:28,940 --> 01:37:26,970

they hadn't the faintest idea what they

2055

01:37:31,190 --> 01:37:28,950

wanted to do maybe we should do this

2056

01:37:33,290 --> 01:37:31,200

maybe we should do that maybe an Earth

2057

01:37:33,560 --> 01:37:33,300

orbit lunar orbit maybe a base on the

2058

01:37:37,220 --> 01:37:33,570

moon

2059

01:37:39,170 --> 01:37:37,230

maybe Mars look you need an Admiral

2060

01:37:41,180 --> 01:37:39,180

rickover who says that's where we're

2061

01:37:45,320 --> 01:37:41,190

going folks you know you don't want to

2062

01:37:47,960 --> 01:37:45,330

go there get off the plane I and I was

2063

01:37:49,550 --> 01:37:47,970

so disappointed in NASA because in the

2064

01:37:51,320 --> 01:37:49,560

60s most of us in the space program

2065

01:37:58,190 --> 01:37:51,330

thought we'd have a base on the moon by

2066

01:38:01,070 --> 01:37:58,200

the 2000 we didn't we don't think that

2067

01:38:02,540 --> 01:38:01,080

is socialist all that is stalled so much

2068

01:38:11,540 --> 01:38:02,550

and we haven't gone to the moon since

2069

01:38:19,070 --> 01:38:11,550

nineteen what is it 1972 and a failure

2070

01:38:20,780 --> 01:38:19,080

of not ambition guts courage or of

2071

01:38:23,350 --> 01:38:20,790

course it's possible at the Ealing so

2072

01:38:25,670 --> 01:38:23,360

I'd stay the heck off our planet buddy

2073

01:38:27,440 --> 01:38:25,680

you know there was a question earlier in

2074

01:38:29,600 --> 01:38:27,450

the chat room someone to know if you

2075

01:38:31,660 --> 01:38:29,610

what you thought about the claims that

2076

01:38:33,800 --> 01:38:31,670

people say that there's bases on the

2077

01:38:36,350 --> 01:38:33,810

other side of them you know the dark

2078

01:38:38,360 --> 01:38:36,360

side of the moon or whatever well you

2079

01:38:40,400 --> 01:38:38,370

know the the Mew fond conference this

2080

01:38:43,940 --> 01:38:40,410

year which is being held in Las Vegas in

2081

01:38:49,700 --> 01:38:43,950

a couple of weeks the secret space

2082

01:38:51,500 --> 01:38:49,710

program is the will and I I'm not going

2083

01:38:53,810 --> 01:38:51,510

to this one I only go when they pay my

2084

01:38:55,520 --> 01:38:53,820

wife I've been there more than anybody

2085

01:38:58,460 --> 01:38:55,530

else I've spoken in more than anywhere

2086

01:39:01,460 --> 01:38:58,470

else and I'm anxious to see something

2087

01:39:03,680 --> 01:39:01,470

but I have seen no evidence I think some

2088

01:39:05,120 --> 01:39:03,690

of that claims and there's a guy who

2089

01:39:09,110 --> 01:39:05,130

claims he goes there every two weeks to

2090

01:39:11,390 --> 01:39:09,120

Mars I think I people forget how big an

2091

01:39:13,580 --> 01:39:11,400

undertaking it would be and yes secrets

2092

01:39:16,330 --> 01:39:13,590

can be kept but we're talking huge

2093

01:39:19,270 --> 01:39:16,340

enormous amounts of money

2094

01:39:21,400 --> 01:39:19,280

to building systems also if we've

2095

01:39:24,330 --> 01:39:21,410

developed so much technology like this

2096

01:39:27,850 --> 01:39:24,340

why don't we use it we've had a few Wars

2097

01:39:32,200 --> 01:39:27,860

you know I that's where you normally

2098

01:39:35,200 --> 01:39:32,210

would use your your top-notch technology

2099

01:39:37,390 --> 01:39:35,210

I would think I would think so and that

2100

01:39:41,410 --> 01:39:37,400

that kind of brings circle back to the

2101  
01:39:45,040 --> 01:39:41,420  
triangle UFOs that's but keep going you

2102  
01:39:48,880 --> 01:39:45,050  
know I'll bring that up well you know my

2103  
01:39:51,400 --> 01:39:48,890  
my thought is that we may have had

2104  
01:39:56,440 --> 01:39:51,410  
systems that we tried and didn't work

2105  
01:39:58,960 --> 01:39:56,450  
and some you cut the mustard yeah and I

2106  
01:40:02,020 --> 01:39:58,970  
I think that probably happened

2107  
01:40:05,140 --> 01:40:02,030  
look people forget maybe that there were

2108  
01:40:08,680 --> 01:40:05,150  
we had supersonic transports can't take

2109  
01:40:11,380 --> 01:40:08,690  
a flight now Kenya and what caused the

2110  
01:40:15,010 --> 01:40:11,390  
stop it wasn't economically feasible you

2111  
01:40:18,870 --> 01:40:15,020  
know if every flight loses money it's

2112  
01:40:27,100 --> 01:40:18,880  
not a good thing to do company

2113  
01:40:29,620 --> 01:40:27,110

trillionaire nine so I I think that

2114

01:40:32,290 --> 01:40:29,630

there may be all kinds of classified

2115

01:40:35,350 --> 01:40:32,300

technology around but I'm not at all

2116

01:40:39,760 --> 01:40:35,360

satisfied that we have set up bases on

2117

01:40:42,460 --> 01:40:39,770

the moon yeah or on Mars or anyplace

2118

01:40:46,630 --> 01:40:42,470

else beyond that yeah I'm not really

2119

01:40:48,850 --> 01:40:46,640

alone that either I mean I'm happy to be

2120

01:40:50,470 --> 01:40:48,860

shown some evidence but I want evidence

2121

01:40:52,240 --> 01:40:50,480

not somebody saying well I know somebody

2122

01:40:54,130 --> 01:40:52,250

who goes there every other week all

2123

01:40:56,860 --> 01:40:54,140

right that's that's not good enough

2124

01:40:59,650 --> 01:40:56,870

don't we have a like an orbiter around

2125

01:41:03,120 --> 01:40:59,660

the moon to like you know filming

2126

01:41:06,130 --> 01:41:03,130

constantly and photographing we have had

2127

01:41:10,750 --> 01:41:06,140

was a Clementine I think wasn't there

2128

01:41:12,660 --> 01:41:10,760

for a long time and made observations of

2129

01:41:17,460 --> 01:41:12,670

water on

2130

01:41:21,150 --> 01:41:17,470

in other places so you know I can't say

2131

01:41:25,200 --> 01:41:21,160

it's impossible what I can say is I have

2132

01:41:28,140 --> 01:41:25,210

seen no evidence to date that we have a

2133

01:41:32,100 --> 01:41:28,150

base on Moon or Mars or anyplace else in

2134

01:41:34,500 --> 01:41:32,110

the solar system besides Earth and I'd

2135

01:41:37,530 --> 01:41:34,510

be happy if we did Jeannie we're getting

2136

01:41:39,560 --> 01:41:37,540

up there you know I'd say but again

2137

01:41:42,720 --> 01:41:39,570

partly because there was a little

2138

01:41:44,340 --> 01:41:42,730

jurisdictional dispute is it going to be

2139

01:41:47,880 --> 01:41:44,350

China that runs it or Russia or the

2140

01:41:51,450 --> 01:41:47,890

United States or whoever who makes the

2141

01:41:54,810 --> 01:41:51,460

decisions and we've had a few Wars on

2142

01:41:58,310 --> 01:41:54,820

this point it to settle those questions

2143

01:42:00,930 --> 01:41:58,320

heavily I think there's over 300

2144

01:42:03,780 --> 01:42:00,940

thousand Wars documented or something

2145

01:42:07,080 --> 01:42:03,790

like I read something worth is I may be

2146

01:42:09,720 --> 01:42:07,090

way off on the number but the amount of

2147

01:42:12,960 --> 01:42:09,730

wars documented throughout history is

2148

01:42:18,380 --> 01:42:12,970

just incredible yes and the damage done

2149

01:42:22,470 --> 01:42:18,390

by those wars PA the worst you know yeah

2150

01:42:26,460 --> 01:42:22,480

yeah well a simple number World War two

2151

01:42:30,510 --> 01:42:26,470

we nice Earthlings killed 50 million of

2152

01:42:33,480 --> 01:42:30,520

our own kind and we destroyed 1700

2153

01:42:35,670 --> 01:42:33,490

cities can you imagine five hundred

2154

01:42:40,790 --> 01:42:35,680

airplanes at once going across Europe

2155

01:42:46,740 --> 01:42:40,800

but all of them dropping bombs you know

2156

01:42:51,120 --> 01:42:46,750

it is yeah yeah so now getting back to

2157

01:42:55,110 --> 01:42:51,130

the technology say that there is you

2158

01:42:55,920 --> 01:42:55,120

know some technology like a triangle or

2159

01:42:59,550 --> 01:42:55,930

something like that

2160

01:43:01,260 --> 01:42:59,560

why don't you think they are you know

2161

01:43:04,200 --> 01:43:01,270

there's not talk about something being

2162

01:43:08,000 --> 01:43:04,210

used that's really advanced and and and

2163

01:43:11,330 --> 01:43:08,010

are and while worrying that we do

2164

01:43:16,080 --> 01:43:11,340

probably the cost

2165

01:43:18,680 --> 01:43:16,090

fancy technology is expensive you know

2166

01:43:24,690 --> 01:43:18,690

it's not bows and arrows anymore yeah

2167

01:43:27,480 --> 01:43:24,700

they're cheap so and then someone had

2168

01:43:29,460 --> 01:43:27,490

asked also in the chat room earlier what

2169

01:43:32,700 --> 01:43:29,470

did you think about reverse technology

2170

01:43:36,930 --> 01:43:32,710

of do you think any of that has ever

2171

01:43:38,880 --> 01:43:36,940

happened I think some some of it has

2172

01:43:43,620 --> 01:43:38,890

happened on occasions let me give you

2173

01:43:45,990 --> 01:43:43,630

one example I did a weekly science

2174

01:43:47,880 --> 01:43:46,000

commentary for the local CBC Canadian

2175

01:43:50,370 --> 01:43:47,890

Broadcasting Company Station for six

2176

01:43:52,470 --> 01:43:50,380

years here in Fredericton and I was

2177

01:43:55,350 --> 01:43:52,480

reading on the latest I've read a lot of

2178

01:43:57,360 --> 01:43:55,360

papers and stuff there was one on new

2179

01:44:01,950 --> 01:43:57,370

developments and better permanent

2180

01:44:05,250 --> 01:44:01,960

magnets neodymium-iron-boron which I who

2181

01:44:07,200 --> 01:44:05,260

ever heard of that but anyway it buried

2182

01:44:09,000 --> 01:44:07,210

in this was that the original work on

2183

01:44:14,550 --> 01:44:09,010

what was previously thought to be the

2184

01:44:18,810 --> 01:44:14,560

best permanent magnet samarium-cobalt to

2185

01:44:21,840 --> 01:44:18,820

other things most the work was done at

2186

01:44:26,630 --> 01:44:21,850

wright-patterson Air Force Base in Ohio

2187

01:44:29,160 --> 01:44:26,640

I just laughed my head off because

2188

01:44:31,740 --> 01:44:29,170

that's where the wreckage from Roswell

2189

01:44:33,840 --> 01:44:31,750

went hmm there's a foreign technology

2190

01:44:37,710 --> 01:44:33,850

group there it's called and I had a

2191

01:44:39,450 --> 01:44:37,720

contract with them looking at soap

2192

01:44:41,340 --> 01:44:39,460

whether the Soviets had the capability

2193

01:44:43,620 --> 01:44:41,350

of building reactors from space and they

2194

01:44:45,210 --> 01:44:43,630

did I concluded I must have been the

2195

01:44:48,240 --> 01:44:45,220

only guy in the country that was happy

2196

01:44:51,660 --> 01:44:48,250

when cosmos nine five four crashed in

2197

01:44:54,330 --> 01:44:51,670

northern Canada because it was had a

2198

01:44:56,460 --> 01:44:54,340

nuclear reactor on board and it was like

2199

01:44:58,350 --> 01:44:56,470

the 13th one that they had built and

2200

01:45:00,720 --> 01:44:58,360

they wound up building the Russians so

2201  
01:45:06,450 --> 01:45:00,730  
over thirty United States has launched

2202  
01:45:09,110 --> 01:45:06,460  
one so and I think what I'm saying is I

2203  
01:45:13,140 --> 01:45:09,120  
think there has been successful

2204  
01:45:14,610 --> 01:45:13,150  
back-engineering if you will that you

2205  
01:45:17,700 --> 01:45:14,620  
know and people ask well what would you

2206  
01:45:20,190 --> 01:45:17,710  
do if you pick up a wreckage I'd send

2207  
01:45:22,020 --> 01:45:20,200  
pieces off to the best labs I knew that

2208  
01:45:23,310 --> 01:45:22,030  
had his appropriate security clearance

2209  
01:45:25,970 --> 01:45:23,320  
and appropriate Talent

2210  
01:45:29,029 --> 01:45:25,980  
and first question is what is this stuff

2211  
01:45:31,290 --> 01:45:29,039  
it's a combination of samarium-cobalt

2212  
01:45:32,939 --> 01:45:31,300  
what would you use those for well that's

2213  
01:45:36,240 --> 01:45:32,949

somebody else's job and you'd say

2214

01:45:38,549 --> 01:45:36,250

measure all the electrical magnetic etc

2215

01:45:40,379 --> 01:45:38,559

properties and you'd find the biggest

2216

01:45:43,879 --> 01:45:40,389

magnetic moment of any material we've

2217

01:45:46,049 --> 01:45:43,889

ever measured and you'd go to build that

2218

01:45:47,609 --> 01:45:46,059

that doesn't build you a propulsion

2219

01:45:50,250 --> 01:45:47,619

system but it builds you some new

2220

01:45:54,660 --> 01:45:50,260

technology so you'll learn what you can

2221

01:45:56,600 --> 01:45:54,670

when you when you can do it but that's

2222

01:45:59,520 --> 01:45:56,610

not the same as you know it's like

2223

01:46:01,620 --> 01:45:59,530

handing somebody if you handed somebody

2224

01:46:04,040 --> 01:46:01,630

might cheap wristwatch digital

2225

01:46:07,560 --> 01:46:04,050

wristwatch and in the year I was born

2226

01:46:08,970 --> 01:46:07,570

1934 he'd have known was a watch known

2227

01:46:10,890 --> 01:46:08,980

there was a battery and everybody sure

2228

01:46:13,560 --> 01:46:10,900

as heck couldn't analyze the chip and he

2229

01:46:15,029 --> 01:46:13,570

surely couldn't build another chip just

2230

01:46:18,060 --> 01:46:15,039

a cheap rest for watch but you know

2231

01:46:21,990 --> 01:46:18,070

Intel spent a billion dollars diverted a

2232

01:46:27,180 --> 01:46:22,000

facility to make more things so it isn't

2233

01:46:29,370 --> 01:46:27,190

easy right to do a lot of the new well

2234

01:46:31,529 --> 01:46:29,380

it's kind of scary when you look at some

2235

01:46:33,180 --> 01:46:31,539

of the technology I use I hate to say

2236

01:46:36,180 --> 01:46:33,190

this I use a slide rule and I started

2237

01:46:37,950 --> 01:46:36,190

working in this yeah I was in front of a

2238

01:46:42,930 --> 01:46:37,960

class of students that our University in

2239

01:46:45,479 --> 01:46:42,940

Michigan not one of them knew won Nobel

2240

01:46:48,529 --> 01:46:45,489

Prize winners use slide rules now even

2241

01:46:51,029 --> 01:46:48,539

you buy for five bucks you buy a little

2242

01:46:53,399 --> 01:46:51,039

solid-state device and you can do far

2243

01:46:56,430 --> 01:46:53,409

more for far less once you've gotten to

2244

01:47:01,500 --> 01:46:56,440

that far from starting from juror mm-hm

2245

01:47:05,520 --> 01:47:01,510

yeah yeah oh boy I had a question and I

2246

01:47:08,370 --> 01:47:05,530

didn't write it down it was it was in

2247

01:47:10,680 --> 01:47:08,380

regards to once again oh yes the

2248

01:47:14,399 --> 01:47:10,690

technology the technology that the

2249

01:47:15,899 --> 01:47:14,409

crafts must have had to get here how do

2250

01:47:17,549 --> 01:47:15,909

you think it's possible that they could

2251  
01:47:21,089 --> 01:47:17,559  
have crashed and then there's a number

2252  
01:47:23,580 --> 01:47:21,099  
of noted crashes you've just made an

2253  
01:47:26,879 --> 01:47:23,590  
assumption I I think we have a two-stage

2254  
01:47:28,410 --> 01:47:26,889  
system from solar system to solar system

2255  
01:47:30,689 --> 01:47:28,420  
and then once you're in the atmosphere

2256  
01:47:33,160 --> 01:47:30,699  
for example we have nuclear-powered

2257  
01:47:39,090 --> 01:47:33,170  
aircraft carriers

2258  
01:47:43,750 --> 01:47:39,100  
huge monsters over 800 feet long that

2259  
01:47:47,380 --> 01:47:43,760  
can operate for 18 years without

2260  
01:47:49,900 --> 01:47:47,390  
refueling think about that for a minute

2261  
01:47:51,340 --> 01:47:49,910  
on the other hand they carry about 75

2262  
01:47:54,850 --> 01:47:51,350  
little airplanes that can operate for

2263  
01:47:56,380 --> 01:47:54,860

two hours with everything in other words

2264

01:47:59,170 --> 01:47:56,390

between the stars is an entirely

2265

01:48:02,260 --> 01:47:59,180

different environment from within the

2266

01:48:05,020 --> 01:48:02,270

atmosphere of a planet so I and we don't

2267

01:48:07,690 --> 01:48:05,030

see any of these huge mother ships near

2268

01:48:09,990 --> 01:48:07,700

the planet you know down on the landing

2269

01:48:14,080 --> 01:48:10,000

field so to speak they're seen up above

2270

01:48:18,070 --> 01:48:14,090

there's some great cases but they're big

2271

01:48:22,570 --> 01:48:18,080

and they're up there not down here so I

2272

01:48:26,380 --> 01:48:22,580

think we are dealing with two separate

2273

01:48:28,810 --> 01:48:26,390

problems interstellar and atmospheric

2274

01:48:31,750 --> 01:48:28,820

propulsion system and entirely different

2275

01:48:34,150 --> 01:48:31,760

environment a lot cheaper to zip around

2276

01:48:36,130 --> 01:48:34,160

in the atmosphere so if that's the case

2277

01:48:38,170 --> 01:48:36,140

let's just say there let's just go to

2278

01:48:41,140 --> 01:48:38,180

Roswell and say that there was a

2279

01:48:43,660 --> 01:48:41,150

mothership up there and they launched

2280

01:48:46,600 --> 01:48:43,670

you know the smaller craft which crashed

2281

01:48:49,390 --> 01:48:46,610

why wasn't there an attempt or of a

2282

01:48:51,820 --> 01:48:49,400

retrieval we don't know that there

2283

01:48:53,320 --> 01:48:51,830

wasn't hmm I mean the mothership may

2284

01:48:55,450 --> 01:48:53,330

have moved off there and launched some

2285

01:48:57,910 --> 01:48:55,460

over and over that place and you guys

2286

01:49:00,010 --> 01:48:57,920

look at that quadrant and so forth Oh

2287

01:49:01,390 --> 01:49:00,020

God in other words I don't think it they

2288

01:49:03,430 --> 01:49:01,400

launched in it crashed

2289

01:49:08,740 --> 01:49:03,440

I think it's been flying around doing

2290

01:49:10,030 --> 01:49:08,750

its duties for days whatever and but as

2291

01:49:14,860 --> 01:49:10,040

it happens there were plenty more

2292

01:49:17,200 --> 01:49:14,870

sightings in New Mexico right after this

2293

01:49:22,210 --> 01:49:17,210

in that period of time early July in

2294

01:49:26,880 --> 01:49:22,220

other words but I think who knows maybe

2295

01:49:31,680 --> 01:49:26,890

they only had the what do you called

2296

01:49:35,560 --> 01:49:31,690

clones maybe you know the working guys

2297

01:49:38,500 --> 01:49:35,570

maybe they're expendable uh yeah yeah I

2298

01:49:40,570 --> 01:49:38,510

would think that you know just thinking

2299

01:49:42,340 --> 01:49:40,580

the way a human would think that we

2300

01:49:44,080 --> 01:49:42,350

wouldn't want our technology to get in

2301

01:49:45,990 --> 01:49:44,090

someone else's hands but you know maybe

2302

01:49:48,250 --> 01:49:46,000

they don't think that way

2303

01:49:50,290 --> 01:49:48,260

well maybe they think these idiots

2304

01:49:55,300 --> 01:49:50,300

couldn't duplicate this in 50 years what

2305

01:49:57,490 --> 01:49:55,310

do you mean they're right we haven't as

2306

01:50:00,490 --> 01:49:57,500

far as I can tell yeah I've heard you

2307

01:50:04,810 --> 01:50:00,500

say before at a lecture that there's

2308

01:50:06,640 --> 01:50:04,820

been over 5,000 trace cases yes Ted

2309

01:50:09,189 --> 01:50:06,650

Phillips is the expert on that

2310

01:50:13,979 --> 01:50:09,199

Fred's from 80 countries 80 countries

2311

01:50:17,050 --> 01:50:13,989

yeah what would you say and actually

2312

01:50:19,200 --> 01:50:17,060

currently I've been in touch with Ray

2313

01:50:23,379 --> 01:50:19,210

Stanford and he's working on something

2314

01:50:24,700 --> 01:50:23,389

going on to Sakura which you know

2315

01:50:27,189 --> 01:50:24,710

hopefully there'll be something out of

2316

01:50:30,430 --> 01:50:27,199

that but what would you consider one of

2317

01:50:32,530 --> 01:50:30,440

the we only have a five or six or seven

2318

01:50:37,260 --> 01:50:32,540

minutes here what would you consider one

2319

01:50:40,629 --> 01:50:37,270

of the best trace cases well I'm still

2320

01:50:45,640 --> 01:50:40,639

partial because I've been there to tell

2321

01:50:49,479 --> 01:50:45,650

folks Kansas and yeah the Johnson family

2322

01:50:51,850 --> 01:50:49,489

doin their thing and Ronnie Johnson's

2323

01:50:55,709 --> 01:50:51,860

out taking care of the Sheep and miss

2324

01:50:59,589 --> 01:50:55,719

Arnold saucer lands right over there and

2325

01:51:01,330 --> 01:50:59,599

he's with his dog and shocked to see

2326

01:51:07,859 --> 01:51:01,340

this thing this goes back a number of

2327

01:51:11,530 --> 01:51:07,869

years and the thing takes off and he

2328

01:51:13,030 --> 01:51:11,540

slowly he dashes into the house tells us

2329

01:51:17,350 --> 01:51:13,040

her parents he just saw this this

2330

01:51:21,660 --> 01:51:17,360

strange vehicle out there and they go

2331

01:51:26,850 --> 01:51:21,670

out and they see it and they see the

2332

01:51:31,209 --> 01:51:26,860

ring a circle of soil that was dried out

2333

01:51:34,340 --> 01:51:31,219

and his mother places her hand on the

2334

01:51:38,360 --> 01:51:34,350

soil and he almost burned yourself

2335

01:51:42,350 --> 01:51:38,370

uh this was weird and Ted heard about

2336

01:51:45,350 --> 01:51:42,360

this and that there was some publicity

2337

01:51:49,790 --> 01:51:45,360

in the area and some ways the sheriff

2338

01:51:54,260 --> 01:51:49,800

got involved and so I got sent samples

2339

01:51:57,860 --> 01:51:54,270

of the soil from the ring and from the

2340

01:51:59,780 --> 01:51:57,870

surrounding area and I had I called a

2341

01:52:02,450 --> 01:51:59,790

couple of companies I was living in

2342

01:52:05,330 --> 01:52:02,460

California at the time you know what's

2343

01:52:07,250 --> 01:52:05,340

the best lab for checking something that

2344

01:52:09,500 --> 01:52:07,260

won't grow anything because I didn't get

2345

01:52:12,170 --> 01:52:09,510

until after sometime and they tried

2346

01:52:13,790 --> 01:52:12,180

running us blind some seeds you know and

2347

01:52:17,650 --> 01:52:13,800

the ring soil didn't grow anything and

2348

01:52:20,090 --> 01:52:17,660

the normal soil grew stuff fine and

2349

01:52:23,390 --> 01:52:20,100

found that the soil had a higher level

2350

01:52:24,950 --> 01:52:23,400

of soluble minerals to salty if you want

2351

01:52:27,860 --> 01:52:24,960

to put it that way you know it's very

2352

01:52:30,500 --> 01:52:27,870

hard to grow under those conditions so

2353

01:52:32,600 --> 01:52:30,510

you know we've got a family known in the

2354

01:52:35,210 --> 01:52:32,610

community small town Dulles Kansas a

2355

01:52:40,310 --> 01:52:35,220

quite small town the sheriff was

2356

01:52:42,950 --> 01:52:40,320

involved I meant the people I trusted

2357

01:52:44,510 --> 01:52:42,960

he's collected over four thousand over

2358

01:52:46,970 --> 01:52:44,520

well I don't know what the number is now

2359

01:52:50,900 --> 01:52:46,980

having talked recently he's from

2360

01:52:53,540 --> 01:52:50,910

Missouri I close by he actually visited

2361

01:52:56,330 --> 01:52:53,550

the place not too long after we and so

2362

01:53:00,260 --> 01:52:56,340

it's a typical case that they didn't see

2363

01:53:03,710 --> 01:53:00,270

any beans on the ground only about I

2364

01:53:05,570 --> 01:53:03,720

forget under 16 percent of the cases

2365

01:53:08,750 --> 01:53:05,580

involved reports of being seen

2366

01:53:12,590 --> 01:53:08,760

associated with the craft but all over

2367

01:53:15,110 --> 01:53:12,600

the world this happens and sure nobody's

2368

01:53:17,030 --> 01:53:15,120

brought out a net and captured an alien

2369

01:53:19,070 --> 01:53:17,040

and showed it off at the local zoo you

2370

01:53:21,680 --> 01:53:19,080

know

2371

01:53:24,020 --> 01:53:21,690

I think they might be resistant to that

2372

01:53:27,830 --> 01:53:24,030

once they get stuff down here the food's

2373

01:53:30,380 --> 01:53:27,840

lousy you know people are fearing I

2374

01:53:33,710 --> 01:53:30,390

don't know but there are loads of such

2375

01:53:36,710 --> 01:53:33,720

cases is the point thousands not five or

2376

01:53:40,070 --> 01:53:36,720

ten all right well what is missing in

2377

01:53:41,840 --> 01:53:40,080

this whole picture is what I thought to

2378

01:53:43,910 --> 01:53:41,850

illustrate it I took my audience is at

2379

01:53:46,040 --> 01:53:43,920

the end of my lecture never at the

2380

01:53:47,450 --> 01:53:46,050

beginning how many people here believe

2381

01:53:48,770 --> 01:53:47,460

they've seen what I would consider to be

2382

01:53:52,040 --> 01:53:48,780

a flying saucer

2383

01:53:56,960 --> 01:53:52,050

I'm not asking names I'm just pointing

2384

01:53:59,150 --> 01:53:56,970

count and when I do this much of the

2385

01:54:00,890 --> 01:53:59,160

surprise of many of the people there ten

2386

01:54:03,710 --> 01:54:00,900

percent of the people in my audience's

2387

01:54:06,080 --> 01:54:03,720

believe they've seen one but then I ask

2388

01:54:08,570 --> 01:54:06,090

how many of you reported what you saw

2389

01:54:10,910 --> 01:54:08,580

right ninety percent of the hands go

2390

01:54:12,290 --> 01:54:10,920

down right if there's still anybody left

2391

01:54:14,720 --> 01:54:12,300

I'll say how many of you were in the

2392

01:54:18,680 --> 01:54:14,730

military at the time if there's still

2393

01:54:20,900 --> 01:54:18,690

anybody left I say anyone tell us about

2394

01:54:22,880 --> 01:54:20,910

it one guy in front of thirteen hundred

2395

01:54:26,090 --> 01:54:22,890

people in Texas says I can't they told

2396

01:54:29,560 --> 01:54:26,100

me not to say anything well I had

2397

01:54:32,540 --> 01:54:29,570

another guy say they took my pictures

2398

01:54:34,070 --> 01:54:32,550

that's all he said and I said well I'm

2399

01:54:35,690 --> 01:54:34,080

sure the audience would like to hear the

2400

01:54:37,520 --> 01:54:35,700

rest of the story so they brought a

2401  
01:54:42,110 --> 01:54:37,530  
microphone over he didn't I didn't ask

2402  
01:54:43,190 --> 01:54:42,120  
his name he didn't stand up I want to

2403  
01:54:45,620 --> 01:54:43,200  
tell us about it

2404  
01:54:47,360 --> 01:54:45,630  
well he was flying a four it was a pilot

2405  
01:54:49,100 --> 01:54:47,370  
flying a four-engine aircraft over the

2406  
01:54:51,920 --> 01:54:49,110  
Pacific there's another plane 20 miles

2407  
01:54:52,160 --> 01:54:51,930  
ahead radioed back saucer heading your

2408  
01:54:54,860 --> 01:54:52,170  
way

2409  
01:54:56,690 --> 01:54:54,870  
they had gun cameras on the plane they

2410  
01:54:58,790 --> 01:54:56,700  
took pictures they called the base to

2411  
01:55:00,920 --> 01:54:58,800  
which they were flying let him know that

2412  
01:55:03,430 --> 01:55:00,930  
intelligence information was coming and

2413  
01:55:06,860 --> 01:55:03,440

you don't take the film to the drugstore

2414

01:55:09,920 --> 01:55:06,870

about such things and when they landed

2415

01:55:12,280 --> 01:55:09,930

the film got taken and they were

2416

01:55:15,620 --> 01:55:12,290

debriefed and told never to say anything

2417

01:55:17,300 --> 01:55:15,630

and I'll tell you I I would say

2418

01:55:19,580 --> 01:55:17,310

everybody in the room believed the guy

2419

01:55:22,710 --> 01:55:19,590

he just came across so well and it was

2420

01:55:24,750 --> 01:55:22,720

clear they knew that I hadn't you know I

2421

01:55:30,210 --> 01:55:24,760

from there at all this is an

2422

01:55:32,450 --> 01:55:30,220

Indianapolis matter-of-fact and so how

2423

01:55:35,910 --> 01:55:32,460

many more cases are there like that

2424

01:55:39,150 --> 01:55:35,920

where people are afraid to talk in

2425

01:55:42,480 --> 01:55:39,160

general and I'm sure if I had pushed him

2426  
01:55:44,190 --> 01:55:42,490  
well I'll give you another example a guy

2427  
01:55:46,980 --> 01:55:44,200  
when I asked you you want to tell us

2428  
01:55:50,010 --> 01:55:46,990  
about it I'll talk to you later comes up

2429  
01:55:53,220 --> 01:55:50,020  
to my table he wanted to tell somebody

2430  
01:55:54,960 --> 01:55:53,230  
but he it felt very constrained the guy

2431  
01:55:58,680 --> 01:55:54,970  
tells he's flying a helicopter in

2432  
01:56:02,330 --> 01:55:58,690  
Vietnam and suddenly the sleek circular

2433  
01:56:04,800 --> 01:56:02,340  
saucer type vehicle comes by them

2434  
01:56:06,510 --> 01:56:04,810  
circles around them twice and he figures

2435  
01:56:10,140 --> 01:56:06,520  
were dead there must be in a Russian

2436  
01:56:12,150 --> 01:56:10,150  
vehicle you know and took off so he

2437  
01:56:15,270 --> 01:56:12,160  
dutifully when they land he reports the

2438  
01:56:18,440 --> 01:56:15,280

commander about the experience they've

2439

01:56:20,940 --> 01:56:18,450

had and the next day base commander

2440

01:56:23,100 --> 01:56:20,950

lieutenant Jones you didn't see anything

2441

01:56:25,020 --> 01:56:23,110

strange yesterday did you yes sir I

2442

01:56:27,600 --> 01:56:25,030

reported it you didn't hear me

2443

01:56:32,520 --> 01:56:27,610

lieutenant Jones I didn't see anything

2444

01:56:36,210 --> 01:56:32,530

strangest no sir I you know how many

2445

01:56:38,280 --> 01:56:36,220

times more is that happened so until we

2446

01:56:40,020 --> 01:56:38,290

break through that laughter Curtin and

2447

01:56:42,990 --> 01:56:40,030

the fear occurred and was security

2448

01:56:44,370 --> 01:56:43,000

Curtin the good stuff is gonna be out

2449

01:56:46,920 --> 01:56:44,380

there sorry

2450

01:56:48,570 --> 01:56:46,930

yeah hey Stan we're at the end of the

2451

01:56:52,440 --> 01:56:48,580

show can you give out your website

2452

01:56:55,170 --> 01:56:52,450

address please yeah the easiest way to

2453

01:57:00,210 --> 01:56:55,180

reach me triple w dot Stanton Friedman

2454

01:57:02,850 --> 01:57:00,220

fr ie D and my n.com and it lists all my

2455

01:57:04,380 --> 01:57:02,860

books and I should add one thing you

2456

01:57:06,270 --> 01:57:04,390

can't get from Amazon they're a great

2457

01:57:07,380 --> 01:57:06,280

place to buy books but you don't get my

2458

01:57:11,100 --> 01:57:07,390

autograph

2459

01:57:13,260 --> 01:57:11,110

that's everything I send out I uh lists

2460

01:57:15,390 --> 01:57:13,270

all my books there's some articles stuff

2461

01:57:17,280 --> 01:57:15,400

to find out but there's plenty of it

2462

01:57:19,950 --> 01:57:17,290

also gives me a funs address and all

2463

01:57:21,780 --> 01:57:19,960

that sort of stuff so there there is an

2464

01:57:23,700 --> 01:57:21,790

opportunity and I should say one thing

2465

01:57:26,160 --> 01:57:23,710

we've changed our view about how many

2466

01:57:27,930 --> 01:57:26,170

planets there are Frank Drake was saying

2467

01:57:30,630 --> 01:57:27,940

there might be 8 thousand places I could

2468

01:57:34,440 --> 01:57:30,640

send signals in our galaxy the current

2469

01:57:37,390 --> 01:57:34,450

number will be found 8 billion

2470

01:57:39,010 --> 01:57:37,400

our priest a little change yeah yeah

2471

01:57:41,680 --> 01:57:39,020

just a little the equation is all

2472

01:57:43,180 --> 01:57:41,690

changed yeah you're right hey thanks

2473

01:57:47,140 --> 01:57:43,190

Stan it's always a real pleasure to have

2474

01:57:47,980 --> 01:57:47,150

you on and until next time I look

2475

01:57:50,470 --> 01:57:47,990

forward to it

2476

01:57:51,730 --> 01:57:50,480

all right we'll have more no nose I hope

2477

01:58:08,820 --> 01:57:51,740

so all right

2478

01:58:08,830 --> 01:58:37,420

you
