

1
00:00:13,249 --> 00:00:10,660
and three two one go

2
00:00:16,220 --> 00:00:13,259
welcome to task force Griffin on kgr

3
00:00:19,939 --> 00:00:16,230
radio KGA radio.com your connection is

4
00:00:22,820 --> 00:00:19,949
secure and this transmission is now

5
00:00:25,099 --> 00:00:22,830
online your most humble and blessed Oh

6
00:00:28,160 --> 00:00:25,109
schematic Cobra once again talking and

7
00:00:30,800 --> 00:00:28,170
to use some lucky folks video streaming

8
00:00:32,930 --> 00:00:30,810
to you with the thanks and Bill

9
00:00:34,910 --> 00:00:32,940
skywatcher and we're talking to the

10
00:00:37,130 --> 00:00:34,920
greatest audience on the planet as I

11
00:00:38,660 --> 00:00:37,140
said Bill's on the wing please look at

12
00:00:41,690 --> 00:00:38,670
the man behind the curtain who makes all

13
00:00:44,389 --> 00:00:41,700

the magic work he is producing an

14

00:00:46,970 --> 00:00:44,399

engineering and he has looped in another

15

00:00:49,130 --> 00:00:46,980

service tonight we are set for another

16

00:00:52,910 --> 00:00:49,140

outstanding broadcast I'm very pleased

17

00:00:54,619 --> 00:00:52,920

to tell you that this was another one of

18

00:00:57,229 --> 00:00:54,629

those great things they got put together

19

00:01:00,049 --> 00:00:57,239

by the guests and the producer and your

20

00:01:02,119 --> 00:01:00,059

host had nothing else nothing to really

21

00:01:04,189 --> 00:01:02,129

do with it except to show up and try to

22

00:01:05,719 --> 00:01:04,199

be ready we're going to dedicate

23

00:01:08,600 --> 00:01:05,729

tonight's show it's gonna be to two

24

00:01:11,620 --> 00:01:08,610

people it's the family of Alfie the

25

00:01:15,050 --> 00:01:11,630

young baby that passed away in Britain

26

00:01:17,660 --> 00:01:15,060

I'm not concerned about the the politics

27

00:01:20,350 --> 00:01:17,670

I just would like to extend condolences

28

00:01:23,179 --> 00:01:20,360

that's going to be some of the toughest

29

00:01:25,609 --> 00:01:23,189

and emotional driving things that could

30

00:01:29,300 --> 00:01:25,619

possibly happen it was in the news and

31

00:01:32,359 --> 00:01:29,310

it's it's sad and I all of task force

32

00:01:35,510 --> 00:01:32,369

Griffin and the family that we are sends

33

00:01:37,190 --> 00:01:35,520

condolences and equally sad since my

34

00:01:41,179 --> 00:01:37,200

guest is from Maine tonight like myself

35

00:01:43,520 --> 00:01:41,189

we had a tragic law enforcement event

36

00:01:47,990 --> 00:01:43,530

this week it's touched all of us we have

37

00:01:51,710 --> 00:01:48,000

not lost a an officer of the law in the

38

00:01:52,550 --> 00:01:51,720

line of duty in 30 years Somerset County

39

00:01:55,580 --> 00:01:52,560

corporal

40

00:01:59,480 --> 00:01:55,590

Eugene Cole was killed in the process of

41

00:02:03,910 --> 00:01:59,490

apprehending a and responding to a call

42

00:02:06,530 --> 00:02:03,920

this past week to his family and to his

43

00:02:10,190 --> 00:02:06,540

community in his County the citizens of

44

00:02:12,770 --> 00:02:10,200

his County he was by all reports dearly

45

00:02:13,790 --> 00:02:12,780

loved dearly respected and an important

46

00:02:16,550 --> 00:02:13,800

part of his community

47

00:02:20,120 --> 00:02:16,560

so to do both of those families and the

48

00:02:23,110 --> 00:02:20,130

greater connection of folks our deepest

49

00:02:26,000 --> 00:02:23,120

sympathy is extended with that said

50

00:02:28,160 --> 00:02:26,010

tonight the other Wallace brother Martin

51
00:02:30,260 --> 00:02:28,170
Wallace is with us tonight I say that

52
00:02:33,200 --> 00:02:30,270
Martin because Dan Wallace has been on

53
00:02:36,620 --> 00:02:33,210
with me a couple times and when I told

54
00:02:38,120 --> 00:02:36,630
bill that no no Martin's coming on he

55
00:02:39,920 --> 00:02:38,130
goes Martin I don't know who Martin is

56
00:02:42,530 --> 00:02:39,930
and then then he realized what I was

57
00:02:44,510 --> 00:02:42,540
talking about oh that yeah no the other

58
00:02:48,320 --> 00:02:44,520
Willis is gonna be on and then we got

59
00:02:51,470 --> 00:02:48,330
the right weekend set up Martin you are

60
00:02:55,700 --> 00:02:51,480
a fellow Manor and you are also one of

61
00:02:58,850 --> 00:02:55,710
the most prolific folks that works on

62
00:03:00,350 --> 00:02:58,860
video and podcasting and having the

63
00:03:01,490 --> 00:03:00,360

YouTube channel I've been greatly

64

00:03:03,200 --> 00:03:01,500

impressed with the stuff that you've

65

00:03:05,110 --> 00:03:03,210

done and you have a lot of facets that

66

00:03:08,750 --> 00:03:05,120

we hopefully will talk about tonight

67

00:03:10,310 --> 00:03:08,760

well thank you welcome to task force

68

00:03:12,020 --> 00:03:10,320

Griffin and the great audience I will

69

00:03:14,390 --> 00:03:12,030

warn the audience as you can tell if

70

00:03:15,830 --> 00:03:14,400

you're watching the video I'm a little

71

00:03:18,500 --> 00:03:15,840

bit more encumbered tonight so that

72

00:03:20,930 --> 00:03:18,510

could have a visual appearance I worked

73

00:03:23,000 --> 00:03:20,940

very hard to set up the the staging

74

00:03:25,880 --> 00:03:23,010

behind me and if I'll just move my

75

00:03:28,580 --> 00:03:25,890

shoulder here you'll see the alien

76
00:03:30,710 --> 00:03:28,590
holding the skull and the Cobra skeleton

77
00:03:33,530 --> 00:03:30,720
so that's all been done now all the

78
00:03:36,830 --> 00:03:33,540
props have been seen Martin how did you

79
00:03:40,280 --> 00:03:36,840
get started in the work that you do well

80
00:03:45,920 --> 00:03:40,290
as far as podcasting goes I started a

81
00:03:48,500 --> 00:03:45,930
podcast back in 2009 I had a connection

82
00:03:49,960 --> 00:03:48,510
with a guy that he was on the man show

83
00:03:52,790 --> 00:03:49,970
years ago Adam Carolla

84
00:03:57,860 --> 00:03:52,800
just had talked to him a couple of times

85
00:03:59,510 --> 00:03:57,870
and he his radio station basically went

86
00:04:01,540 --> 00:03:59,520
down where he was broadcasting in the

87
00:04:04,250 --> 00:04:01,550
morning and I was out in California and

88
00:04:06,949 --> 00:04:04,260

he started doing podcasting and I said

89

00:04:11,150 --> 00:04:06,959

well if he can do it I'll try it so I

90

00:04:12,920 --> 00:04:11,160

tried doing some antique work and

91

00:04:14,720 --> 00:04:12,930

actually it was pretty successful that's

92

00:04:17,710 --> 00:04:14,730

still going on going now

93

00:04:23,290 --> 00:04:17,720

and so that's how I started podcasting

94

00:04:26,090 --> 00:04:23,300

now in 2000 2006 I was actually working

95

00:04:27,350 --> 00:04:26,100

in the antiques field that I'm in

96

00:04:32,330 --> 00:04:27,360

antiques and fine art

97

00:04:34,879 --> 00:04:32,340

I was actually at Merv Griffin's I was

98

00:04:36,230 --> 00:04:34,889

working on his estate and I was saying

99

00:04:38,600 --> 00:04:36,240

in Carmel Valley he had a house in

100

00:04:42,740 --> 00:04:38,610

Carmel Valley I was staying there and I

101
00:04:45,409 --> 00:04:42,750
had a sighting I've always had kind of

102
00:04:48,619 --> 00:04:45,419
an interest and well I've had a fast

103
00:04:52,339 --> 00:04:48,629
interest in like space and science and

104
00:04:54,320 --> 00:04:52,349
all that but and we had a flap in Maine

105
00:04:56,209 --> 00:04:54,330
years ago when I was growing up and I

106
00:04:58,189 --> 00:04:56,219
remember like looking for UFOs when I

107
00:05:01,610 --> 00:04:58,199
was a kid but then it never really

108
00:05:05,089 --> 00:05:01,620
crossed my mind much I was actually

109
00:05:08,300 --> 00:05:05,099
sitting in a hot tub I was not drinking

110
00:05:10,219 --> 00:05:08,310
and all the Legislature would clarify

111
00:05:12,619 --> 00:05:10,229
the evidence chain of evidence here you

112
00:05:14,659 --> 00:05:12,629
are in a hot tub in California that's

113
00:05:16,129 --> 00:05:14,669

right and then you were known Oh golly I

114

00:05:18,800 --> 00:05:16,139

was not trained you were not drinking

115

00:05:20,119 --> 00:05:18,810

yes I know that's I think that's against

116

00:05:21,709 --> 00:05:20,129

the local ordinance there but please

117

00:05:23,540 --> 00:05:21,719

continue for those that are listening

118

00:05:26,330 --> 00:05:23,550

well something caught my eye it was

119

00:05:28,070 --> 00:05:26,340

Twilight it was like 8:30 or something

120

00:05:32,510 --> 00:05:28,080

like that something caught my eye

121

00:05:35,869 --> 00:05:32,520

overhead so I just looked up and I

122

00:05:37,010 --> 00:05:35,879

watched and I just you know if I had a

123

00:05:38,269 --> 00:05:37,020

camera next to me I would have never

124

00:05:40,790 --> 00:05:38,279

thought to use it I got to tell you that

125

00:05:43,610 --> 00:05:40,800

because it was I was just struck by the

126
00:05:45,200 --> 00:05:43,620
moment and the thing that fascinated me

127
00:05:47,869 --> 00:05:45,210
the most when I saw this it was like a

128
00:05:49,700 --> 00:05:47,879
disk perfectly shaped disc like the size

129
00:05:51,110 --> 00:05:49,710
of a quarter held at arm's length I

130
00:05:53,029 --> 00:05:51,120
guess that's the best way to put it

131
00:05:54,379 --> 00:05:53,039
and I was thinking it was maybe a couple

132
00:05:58,399 --> 00:05:54,389
thousand feet high but it was all

133
00:06:00,589 --> 00:05:58,409
guessing it had a bluish glow over the

134
00:06:04,879 --> 00:06:00,599
entire object and it moved in a straight

135
00:06:07,129 --> 00:06:04,889
line over me and I just remember sitting

136
00:06:09,079 --> 00:06:07,139
there and being baffled because there

137
00:06:11,240 --> 00:06:09,089
was no sound I mean that's the first

138
00:06:13,399 --> 00:06:11,250

thing I thought of like I'm seeing this

139

00:06:15,700 --> 00:06:13,409

thing move and there's absolutely no

140

00:06:20,320 --> 00:06:15,710

sound then it stopped dead stopped and

141

00:06:24,260 --> 00:06:20,330

it then it veered off toward Carmel

142

00:06:28,129 --> 00:06:24,270

Monterey and so I jumped out of the hot

143

00:06:30,679 --> 00:06:28,139

tub and I ran inside and I got on the

144

00:06:32,829 --> 00:06:30,689

phone I didn't know who to call I never

145

00:06:36,889 --> 00:06:32,839

thought of anything online at the time

146

00:06:39,949 --> 00:06:36,899

so I got in touch with the I think it

147

00:06:41,180 --> 00:06:39,959

was the Monterey I may be getting Carmel

148

00:06:43,310 --> 00:06:41,190

and Monterey confused I think

149

00:06:45,940 --> 00:06:43,320

was a Monterey Police Department it was

150

00:06:48,890 --> 00:06:45,950

a female desk dispatcher and she was

151
00:06:50,390 --> 00:06:48,900
sarcastic and then I said no I'd like to

152
00:06:52,070 --> 00:06:50,400
you know I'd like to repo how do I

153
00:06:56,660 --> 00:06:52,080
report this I didn't know how to report

154
00:06:58,790 --> 00:06:56,670
it so she put me on hold and I waited

155
00:07:00,500 --> 00:06:58,800
for about 15 minutes and I got

156
00:07:02,300 --> 00:07:00,510
discouraged and I hung up and that was

157
00:07:04,850 --> 00:07:02,310
kind of like the end of it so I went

158
00:07:07,220 --> 00:07:04,860
into it wasn't a spectacular sighting

159
00:07:09,080 --> 00:07:07,230
but it was a sighting and it certainly

160
00:07:13,070 --> 00:07:09,090
rocked my boat on what I thought about

161
00:07:14,660 --> 00:07:13,080
the whole situation I went inside I'm

162
00:07:16,520 --> 00:07:14,670
sitting inside and I'm thinking Who am I

163
00:07:18,620 --> 00:07:16,530

gonna tell about this to tell this to

164

00:07:20,150 --> 00:07:18,630

and I couldn't think of you know it

165

00:07:24,820 --> 00:07:20,160

really never crossed my mind to go

166

00:07:27,770 --> 00:07:24,830

online so at work the following week I

167

00:07:31,280 --> 00:07:27,780

had kind of a close person I was working

168

00:07:33,350 --> 00:07:31,290

with I was basically mentoring her and I

169

00:07:34,640 --> 00:07:33,360

said please don't tell anyone but I have

170

00:07:37,070 --> 00:07:34,650

to tell you what happened this weekend

171

00:07:38,510 --> 00:07:37,080

and I told her and it wasn't maybe a

172

00:07:41,330 --> 00:07:38,520

week later that everyone there was

173

00:07:44,120 --> 00:07:41,340

teasing me you know so it got around

174

00:07:48,260 --> 00:07:44,130

pretty fast so you know I find I just

175

00:07:51,760 --> 00:07:48,270

never talked about it years went by and

176

00:07:57,290 --> 00:07:51,770

I moved from California back to Maine

177

00:07:59,450 --> 00:07:57,300

worm from and I was on a I was doing

178

00:08:02,780 --> 00:07:59,460

some actually some podcast with

179

00:08:04,220 --> 00:08:02,790

comedians that I knew in California and

180

00:08:08,630 --> 00:08:04,230

met them and I was running that for a

181

00:08:11,270 --> 00:08:08,640

while and I told I was on someone else's

182

00:08:12,530 --> 00:08:11,280

show and I told they said what's the

183

00:08:14,570 --> 00:08:12,540

weirdest thing that ever happened to you

184

00:08:17,630 --> 00:08:14,580

so I told of the UFO experience

185

00:08:19,640 --> 00:08:17,640

basically and the guy was really funny

186

00:08:21,500 --> 00:08:19,650

who said well how was the probing going

187

00:08:22,490 --> 00:08:21,510

and you know did you see you know and

188

00:08:24,530 --> 00:08:22,500

all that stuff you know he's really

189

00:08:26,030 --> 00:08:24,540

teasing me and then I think you could

190

00:08:27,710 --> 00:08:26,040

have said that though just on any trip

191

00:08:30,890 --> 00:08:27,720

to California but that's my own personal

192

00:08:32,719 --> 00:08:30,900

bias living out there yeah so anyway he

193

00:08:35,779 --> 00:08:32,729

he called me a few weeks later and he

194

00:08:38,510 --> 00:08:35,789

said you know what he said this show he

195

00:08:40,760 --> 00:08:38,520

did like this keyword search and what

196

00:08:42,860 --> 00:08:40,770

what people were landing on he said it

197

00:08:45,470 --> 00:08:42,870

was UFOs he said we were talking about

198

00:08:48,020 --> 00:08:45,480

UFOs and had a lot of traffic on this

199

00:08:50,270 --> 00:08:48,030

particular podcast and and so I thought

200

00:08:53,300 --> 00:08:50,280

about it I said wow you know I think

201
00:08:55,490 --> 00:08:53,310
doing a show on UFOs would be pretty

202
00:08:57,710 --> 00:08:55,500
interesting I don't know anything about

203
00:08:59,780 --> 00:08:57,720
them so I looked on you to if I started

204
00:09:01,790 --> 00:08:59,790
doing some reading then I contacted

205
00:09:03,770 --> 00:09:01,800
first person I contacted with Stan

206
00:09:06,500 --> 00:09:03,780
Freedman I didn't hear from him then I

207
00:09:08,480 --> 00:09:06,510
contacted oh I can't remember how many

208
00:09:11,150 --> 00:09:08,490
other people and finally Steve Bassett I

209
00:09:13,100 --> 00:09:11,160
contacted him and he said sure and I

210
00:09:15,020 --> 00:09:13,110
said well I've never had a show on UFOs

211
00:09:17,810 --> 00:09:15,030
before and it's really bad my first show

212
00:09:19,280 --> 00:09:17,820
was really bad I have to tell you so and

213
00:09:21,110 --> 00:09:19,290

then Bill Byrne yeah when you go back to

214

00:09:24,920 --> 00:09:21,120

the archives on this one we can compare

215

00:09:26,710 --> 00:09:24,930

notes but uh so it kind of just

216

00:09:29,780 --> 00:09:26,720

snowballed from there and I have a

217

00:09:31,730 --> 00:09:29,790

listener Scott who was I don't know how

218

00:09:34,490 --> 00:09:31,740

we found my show but like the second

219

00:09:36,110 --> 00:09:34,500

show you know brand-new website some put

220

00:09:39,260 --> 00:09:36,120

it on iTunes I think that's probably how

221

00:09:42,320 --> 00:09:39,270

we found it so it's been going on it's

222

00:09:44,930 --> 00:09:42,330

coming up I think this week this week is

223

00:09:47,750 --> 00:09:44,940

the 300th show that we have coming up

224

00:09:50,090 --> 00:09:47,760

coming up on in tremendous show that you

225

00:09:52,460 --> 00:09:50,100

put together well thank you I have a lot

226

00:09:56,390 --> 00:09:52,470

of fun and I think it's I think that's

227

00:10:00,650 --> 00:09:56,400

important to just have fun and enjoy it

228

00:10:02,180 --> 00:10:00,660

and listen to what people's ideas up you

229

00:10:03,530 --> 00:10:02,190

know no one really has any if there some

230

00:10:07,880 --> 00:10:03,540

people have been on my show think they

231

00:10:10,910 --> 00:10:07,890

do have an answer but I beg to differ as

232

00:10:12,500 --> 00:10:10,920

a matter of fact the saying is if

233

00:10:14,360 --> 00:10:12,510

someone tells you they know what a UFO

234

00:10:20,030 --> 00:10:14,370

is run the other way you know and I

235

00:10:23,510 --> 00:10:20,040

think that's not a bad idea so we should

236

00:10:25,390 --> 00:10:23,520

probably mention how you and I got

237

00:10:30,380 --> 00:10:25,400

together we have a mutual friend

238

00:10:33,710 --> 00:10:30,390

Melanie write that as your show and my

239

00:10:36,079 --> 00:10:33,720

show playing in her shop and she's a

240

00:10:39,170 --> 00:10:36,089

fellow Manor as well and she started to

241

00:10:41,300 --> 00:10:39,180

put you and I on email Jane trying to

242

00:10:43,760 --> 00:10:41,310

convince you to come on to the show then

243

00:10:46,670 --> 00:10:43,770

you were on with Mac Maloney's military

244

00:10:48,560 --> 00:10:46,680

x-files the one week of that month that

245

00:10:49,970 --> 00:10:48,570

I was not on the show so when I called

246

00:10:52,730 --> 00:10:49,980

you and we were starting yeah but I've

247

00:10:55,130 --> 00:10:52,740

already been on your show and I said I

248

00:10:57,710 --> 00:10:55,140

was on previously when you were on there

249

00:11:01,579 --> 00:10:57,720

all right we talked very very short time

250

00:11:04,250 --> 00:11:01,589

yeah mm-hmm so we showed up to Melanie

251
00:11:08,380 --> 00:11:04,260
for setting this up and getting us all

252
00:11:11,590 --> 00:11:08,390
together and connecting us up

253
00:11:15,009 --> 00:11:11,600
yeah just before we move on I'm looking

254
00:11:16,810 --> 00:11:15,019
at what you're wearing it is that hard I

255
00:11:18,460 --> 00:11:16,820
haven't a heart I mean that looks heavy

256
00:11:20,980 --> 00:11:18,470
is it is it heavy

257
00:11:23,710 --> 00:11:20,990
I have very well-developed neck muscles

258
00:11:27,670 --> 00:11:23,720
for most of my flying career I I wore

259
00:11:28,870 --> 00:11:27,680
something like this yeah so this is this

260
00:11:30,490 --> 00:11:28,880
is the actual helmet that I wore for the

261
00:11:31,569 --> 00:11:30,500
last part of my military flying career

262
00:11:33,639 --> 00:11:31,579
and then I actually used this same

263
00:11:35,470 --> 00:11:33,649

helmet when I was in Iraq and if you

264

00:11:37,389 --> 00:11:35,480

look at this little piece they have my

265

00:11:39,910 --> 00:11:37,399

hand on right here this is where the

266

00:11:41,230 --> 00:11:39,920

NVGs would hook on to and then they can

267

00:11:43,440 --> 00:11:41,240

flip up and down depending on how you

268

00:11:46,600 --> 00:11:43,450

need to fly it so that would be an extra

269

00:11:48,340 --> 00:11:46,610

couple pounds of gear here and some

270

00:11:50,949 --> 00:11:48,350

wires and then on the backside is a

271

00:11:53,980 --> 00:11:50,959

battery pack and some other kit that

272

00:11:57,040 --> 00:11:53,990

goes with it and then you strap it all

273

00:11:59,350 --> 00:11:57,050

on yeah my wife sometimes my wife comes

274

00:12:01,569 --> 00:11:59,360

in on the show and I wonder tonight if

275

00:12:04,000 --> 00:12:01,579

she did you know she be prepared you're

276

00:12:05,530 --> 00:12:04,010

gonna be on a million screens across the

277

00:12:07,810 --> 00:12:05,540

globe when people are watching cuz

278

00:12:08,920 --> 00:12:07,820

Martin's got a pretty big following and

279

00:12:10,810 --> 00:12:08,930

she goes well I won't be coming in

280

00:12:12,970 --> 00:12:10,820

tonight I see she do is put the alien

281

00:12:15,790 --> 00:12:12,980

mask on come in and bring me a cup of

282

00:12:17,650 --> 00:12:15,800

tea maybe the next time we'll do that

283

00:12:19,990 --> 00:12:17,660

know one of our other audience members

284

00:12:21,910 --> 00:12:20,000

they do want to say hi to is Susan she

285

00:12:23,560 --> 00:12:21,920

actually visited this week she came out

286

00:12:25,449 --> 00:12:23,570

to what we call Wolf Moon farm where my

287

00:12:28,150 --> 00:12:25,459

wife and I live with the the critters

288

00:12:30,310 --> 00:12:28,160

the animals and we had a great visit and

289

00:12:32,410 --> 00:12:30,320

was wonderful to finally have her she's

290

00:12:36,069 --> 00:12:32,420

got some family she travels between

291

00:12:37,689 --> 00:12:36,079

North Carolina and in here and she's

292

00:12:40,810 --> 00:12:37,699

very good friends with Mary Joyce who I

293

00:12:43,329 --> 00:12:40,820

think you have saucers over the cashiers

294

00:12:45,130 --> 00:12:43,339

is her site and she's been and she's a

295

00:12:46,990 --> 00:12:45,140

frequent guest on task force group and

296

00:12:51,040 --> 00:12:47,000

she's a it's a wonderful group of ladies

297

00:12:54,009 --> 00:12:51,050

there that we have worked with so you

298

00:12:55,630 --> 00:12:54,019

have this first experience it kind of

299

00:12:57,460 --> 00:12:55,640

lights the fire I think you're very

300

00:12:58,990 --> 00:12:57,470

fortunate because I've always wanted to

301

00:13:01,449 --> 00:12:59,000

i'm jealous cuz i would have liked to

302

00:13:04,389 --> 00:13:01,459

have had the experience i have not have

303

00:13:06,130 --> 00:13:04,399

not had the everything I have seen I've

304

00:13:08,769 --> 00:13:06,140

been able to explain and it was usually

305

00:13:10,030 --> 00:13:08,779

something connected with the project and

306

00:13:11,800 --> 00:13:10,040

I don't even think there's anything that

307

00:13:14,829 --> 00:13:11,810

I could say was reversed engineered or

308

00:13:17,710 --> 00:13:14,839

came from any other source but something

309

00:13:20,650 --> 00:13:17,720

like the skunk works or some other part

310

00:13:22,120 --> 00:13:20,660

of the military or aerospace world that

311

00:13:25,360 --> 00:13:22,130

had put it together

312

00:13:27,190 --> 00:13:25,370

but I'm I'm always ready I've been in

313

00:13:29,680 --> 00:13:27,200

some of the loneliest parts of the globe

314

00:13:31,030 --> 00:13:29,690

by myself I saw I was a prime candidate

315

00:13:34,090 --> 00:13:31,040

so I guess because if you want to it's

316

00:13:37,000 --> 00:13:34,100

not gonna happen what have you seen

317

00:13:40,840 --> 00:13:37,010

since then I haven't seen anything

318

00:13:42,640 --> 00:13:40,850

really that you know the one thing I do

319

00:13:44,590 --> 00:13:42,650

have to say I saw in Cape Elizabeth

320

00:13:46,630 --> 00:13:44,600

Maine and I didn't really want to talk

321

00:13:47,950 --> 00:13:46,640

about it because I was thinking you know

322

00:13:50,800 --> 00:13:47,960

what are the odds that I'm actually

323

00:13:52,270 --> 00:13:50,810

gonna have two sightings I thought I was

324

00:13:55,270 --> 00:13:52,280

seeing the International Space Station

325

00:13:57,730 --> 00:13:55,280

because it was large and it was kind of

326

00:13:59,710 --> 00:13:57,740

moving in a straight line and then I

327

00:14:02,860 --> 00:13:59,720

went to film it and I could have sworn

328

00:14:04,390 --> 00:14:02,870

it jagd over but you know I'm saying it

329

00:14:05,980 --> 00:14:04,400

was probably something like that

330

00:14:08,620 --> 00:14:05,990

most likely and I've seen many

331

00:14:11,230 --> 00:14:08,630

satellites in it it was much bigger it

332

00:14:13,480 --> 00:14:11,240

was whatever it was but I think that's

333

00:14:15,010 --> 00:14:13,490

about it but I do have I do have a very

334

00:14:20,230 --> 00:14:15,020

interesting story to tell you what

335

00:14:22,690 --> 00:14:20,240

happened during one of my shows was I at

336

00:14:25,390 --> 00:14:22,700

one time I was in another I was living

337

00:14:29,920 --> 00:14:25,400

in a condo on a golf course in Cape

338

00:14:33,460 --> 00:14:29,930

Elizabeth Maine and during my show my

339

00:14:36,400 --> 00:14:33,470

neighbor tried to knock on my door and I

340

00:14:38,370 --> 00:14:36,410

talked to her a few days later and she

341

00:14:40,600 --> 00:14:38,380

said I tried to knock on your door in

342

00:14:42,010 --> 00:14:40,610

the other night and I said when and she

343

00:14:43,930 --> 00:14:42,020

didn't she said Wednesday night or

344

00:14:45,820 --> 00:14:43,940

whatever whenever I was doing my show at

345

00:14:50,590 --> 00:14:45,830

the time and I said oh yeah I was busy

346

00:14:52,870 --> 00:14:50,600

so she said this weird thing came over

347

00:14:55,420 --> 00:14:52,880

the golf course she said it looked like

348

00:14:57,100 --> 00:14:55,430

a triangle with lights and it did it

349

00:14:58,660 --> 00:14:57,110

just like sweep trite over the golf

350

00:14:58,960 --> 00:14:58,670

course it said you've got to be kidding

351

00:15:01,120 --> 00:14:58,970

me

352

00:15:04,570 --> 00:15:01,130

so while I was having my show this thing

353

00:15:06,430 --> 00:15:04,580

was right outside my door I didn't see

354

00:15:08,170 --> 00:15:06,440

it so I asked her I said would you

355

00:15:12,520 --> 00:15:08,180

please come on my show and talk about

356

00:15:15,550 --> 00:15:12,530

that and she said no and I don't believe

357

00:15:17,560 --> 00:15:15,560

in UFOs I told her I did a show and been

358

00:15:20,590 --> 00:15:17,570

you know ever since then she kind of

359

00:15:22,900 --> 00:15:20,600

avoided me but she wouldn't come on even

360

00:15:24,460 --> 00:15:22,910

a NAM anonymously and talk about it she

361

00:15:26,800 --> 00:15:24,470

was just didn't want anything to do with

362

00:15:28,780 --> 00:15:26,810

the subject and I think that is the

363

00:15:30,490 --> 00:15:28,790

problem that a lot of people encounter

364

00:15:34,780 --> 00:15:30,500

when they want to talk about what

365

00:15:36,040 --> 00:15:34,790

they've seen but she was willing to

366

00:15:38,350 --> 00:15:36,050

share it with you but not right

367

00:15:40,660 --> 00:15:38,360

to talk to me further than that yeah

368

00:15:42,579 --> 00:15:40,670

yeah well I guess the public thing I

369

00:15:44,410 --> 00:15:42,589

understand I think a lot of folks are

370

00:15:45,910 --> 00:15:44,420

probably still think there's a certain

371

00:15:48,790 --> 00:15:45,920

stigma attached to it and we're gonna

372

00:15:51,519 --> 00:15:48,800

delve into that in the next blocks as

373

00:15:52,990 --> 00:15:51,529

we've worked through on the show it's a

374

00:15:54,550 --> 00:15:53,000

special night for us because of the

375

00:15:55,990 --> 00:15:54,560

YouTube side of it we really don't have

376

00:15:57,790 --> 00:15:56,000

a break

377

00:15:59,980 --> 00:15:57,800

that's right I'm gonna have to like duck

378

00:16:01,540 --> 00:15:59,990

away and and drop to the floor and do

379

00:16:03,910 --> 00:16:01,550

some kind of a crawl if I have to use

380

00:16:05,829 --> 00:16:03,920

the take a bathroom break in there but

381

00:16:07,240 --> 00:16:05,839

I'm ready because I'm used to sitting in

382

00:16:12,490 --> 00:16:07,250

the seat for a couple hours and and

383

00:16:16,120 --> 00:16:12,500

going so I'm all set but you now you

384

00:16:17,710 --> 00:16:16,130

must have had some compelling I mean

385

00:16:19,509 --> 00:16:17,720

some of the pods that I've listened to

386

00:16:22,019 --> 00:16:19,519

that you put out you have had some

387

00:16:25,030 --> 00:16:22,029

interesting interactions with people

388

00:16:27,610 --> 00:16:25,040

that are relating their experience to

389

00:16:31,240 --> 00:16:27,620

you and you seem to react to it in a in

390

00:16:33,389 --> 00:16:31,250

a very human emotional way what are the

391

00:16:37,990 --> 00:16:33,399

memorable ones that you've dealt with

392

00:16:41,980 --> 00:16:38,000

well I think I would have to say one of

393

00:16:46,060 --> 00:16:41,990

the most memorable memorable shows that

394

00:16:49,650 --> 00:16:46,070

I did was with Psalm acidic she was one

395

00:16:52,870 --> 00:16:49,660

of these 62 children that were at the

396

00:16:57,870 --> 00:16:52,880

Arial school and had the Arial school

397

00:17:00,880 --> 00:16:57,880

encounter that that show in particular

398

00:17:04,360 --> 00:17:00,890

just ran chills up my spine when I was

399

00:17:07,809 --> 00:17:04,370

talking to her because first of all it's

400

00:17:12,549 --> 00:17:07,819

an amazing case I happened in I want to

401
00:17:18,790 --> 00:17:12,559
say 1994 or 1995 so she's in her 20s now

402
00:17:20,530 --> 00:17:18,800
and all these students you know it was

403
00:17:23,980 --> 00:17:20,540
such a bizarre situation because all

404
00:17:28,080 --> 00:17:23,990
these students saw 62 children saw this

405
00:17:32,169 --> 00:17:28,090
Kraft land and these beings come out and

406
00:17:34,090 --> 00:17:32,179
they seem to see some people seem to see

407
00:17:37,930 --> 00:17:34,100
something a little different it was kind

408
00:17:40,570 --> 00:17:37,940
of unusual and for instance when the

409
00:17:42,700 --> 00:17:40,580
being was walking it looked like was

410
00:17:45,820 --> 00:17:42,710
floating some people said that and her

411
00:17:48,909 --> 00:17:45,830
in particular said no but she she was

412
00:17:49,880 --> 00:17:48,919
only within four feet of this being

413
00:17:54,350 --> 00:17:49,890

whatever

414

00:17:57,080 --> 00:17:54,360

and she described it and she said its

415

00:18:00,110 --> 00:17:57,090

face was like almost like porcelain like

416

00:18:01,669 --> 00:18:00,120

no expression and you know that

417

00:18:04,630 --> 00:18:01,679

particular encounter you know a lot of

418

00:18:07,909 --> 00:18:04,640

these kids had you know telepathic

419

00:18:10,159 --> 00:18:07,919

thoughts that and a lot of it had to do

420

00:18:13,909 --> 00:18:10,169

with you know maintaining the planet and

421

00:18:17,090 --> 00:18:13,919

you know taking care of the planet she

422

00:18:20,990 --> 00:18:17,100

in particular didn't but her story was

423

00:18:22,789 --> 00:18:21,000

just absolutely incredible that really

424

00:18:25,430 --> 00:18:22,799

that was I would say that that was my

425

00:18:28,250 --> 00:18:25,440

favorite show of all time now I've

426

00:18:30,710 --> 00:18:28,260

talked to a lot of different people that

427

00:18:32,690 --> 00:18:30,720

either have had encounters and you talk

428

00:18:34,850 --> 00:18:32,700

about yourself never having an encounter

429

00:18:36,889 --> 00:18:34,860

and there are people like Stan Freedman

430

00:18:38,930 --> 00:18:36,899

you know he's never had a single

431

00:18:41,360 --> 00:18:38,940

encounter Steve Bassett I mentioned was

432

00:18:42,919 --> 00:18:41,370

the first person on my show has never

433

00:18:46,570 --> 00:18:42,929

had an encounter but they know there's

434

00:18:49,879 --> 00:18:46,580

something going on and they're they're

435

00:18:52,970 --> 00:18:49,889

dedicating themselves to looking into it

436

00:18:54,500 --> 00:18:52,980

which which is actually pretty

437

00:18:56,450 --> 00:18:54,510

refreshing if you really think about it

438

00:18:59,419 --> 00:18:56,460

someone that's never had an encounter

439

00:19:01,269 --> 00:18:59,429

invest all their time and thoughts in it

440

00:19:06,980 --> 00:19:01,279

and they're doing a pretty good you know

441

00:19:08,419 --> 00:19:06,990

straightforward look into it have you

442

00:19:12,830 --> 00:19:08,429

had anybody that you just don't know

443

00:19:14,389 --> 00:19:12,840

thought was full of it for lack of a

444

00:19:17,419 --> 00:19:14,399

better term it's hoping you wouldn't ask

445

00:19:23,690 --> 00:19:17,429

that question yes I've had I've had a

446

00:19:26,960 --> 00:19:23,700

few people on I had one sort of recently

447

00:19:30,049 --> 00:19:26,970

and so I don't want to name names sure

448

00:19:32,810 --> 00:19:30,059

but I've had you know people that are

449

00:19:36,220 --> 00:19:32,820

saying they've I had one person that was

450

00:19:42,889 --> 00:19:36,230

saying that you know he's been on Venus

451
00:19:46,210 --> 00:19:42,899
so I I don't really buy that but you

452
00:19:48,379 --> 00:19:46,220
know I let them say what they will and

453
00:19:51,710 --> 00:19:48,389
you know it's the audience that will

454
00:19:55,009 --> 00:19:51,720
certainly comment you know do get a lot

455
00:19:57,169 --> 00:19:55,019
of that well we're starting to work up

456
00:19:59,450 --> 00:19:57,179
towards our first break and one of my

457
00:20:03,710 --> 00:19:59,460
most dedicated listeners who gives me a

458
00:20:04,850 --> 00:20:03,720
really pretty decent hard time

459
00:20:06,799 --> 00:20:04,860
from New Hampshire that I'll explain

460
00:20:10,100 --> 00:20:06,809
everything for you and I being from

461
00:20:11,840 --> 00:20:10,110
Maine I think he wants me to have papers

462
00:20:14,659 --> 00:20:11,850
when I cross the border into New

463
00:20:17,360 --> 00:20:14,669

Hampshire he kept asking about floats

464

00:20:18,710 --> 00:20:17,370

and he says it's it's a main staple and

465

00:20:20,990 --> 00:20:18,720

that we should know what that is does

466

00:20:23,690 --> 00:20:21,000

that mean yes it does for all things

467

00:20:26,690 --> 00:20:23,700

louis howe once again yeah flows hot

468

00:20:29,060 --> 00:20:26,700

dogs in on Route one in York Maine has

469

00:20:33,110 --> 00:20:29,070

been there for I don't know how many

470

00:20:35,690 --> 00:20:33,120

decades maybe seven decades or something

471

00:20:38,029 --> 00:20:35,700

like that and it's just basically hot

472

00:20:39,680 --> 00:20:38,039

dogs it's always packed and it's because

473

00:20:42,890 --> 00:20:39,690

they have this special type of relish

474

00:20:44,210 --> 00:20:42,900

that is really really good you could

475

00:20:46,220 --> 00:20:44,220

throw the hot dog away and just eat the

476

00:20:48,320 --> 00:20:46,230

relish but I mean it's it's a it's

477

00:20:50,720 --> 00:20:48,330

really good so well you're lucky I

478

00:20:52,520 --> 00:20:50,730

actually have invite floats live I've

479

00:20:56,000 --> 00:20:52,530

never had one of the hot dogs nor the

480

00:20:58,370 --> 00:20:56,010

relish I do see you're right again and

481

00:21:00,740 --> 00:20:58,380

we've got that all taken out before I'm

482

00:21:02,180 --> 00:21:00,750

not all taking care of going into the on

483

00:21:08,560 --> 00:21:02,190

this first section the show that's

484

00:21:11,000 --> 00:21:08,570

excellent when we talked about guests

485

00:21:14,450 --> 00:21:11,010

have you had to work hard to get people

486

00:21:16,159 --> 00:21:14,460

to want to come on your show you know

487

00:21:16,700 --> 00:21:16,169

that's uh that's what I found real

488

00:21:18,980 --> 00:21:16,710

amazing

489

00:21:21,289 --> 00:21:18,990

you know I've it was hard when I was

490

00:21:23,690 --> 00:21:21,299

doing a show with comedians I was trying

491

00:21:26,060 --> 00:21:23,700

to get some good names on there

492

00:21:28,940 --> 00:21:26,070

this was the shows not even up anymore I

493

00:21:31,730 --> 00:21:28,950

mean the podcast site is gone but I did

494

00:21:33,860 --> 00:21:31,740

have you know Jen Kirkman and Paul

495

00:21:37,549 --> 00:21:33,870

Gilmartin and a number of people on the

496

00:21:40,159 --> 00:21:37,559

show that was really tough and the UFO

497

00:21:42,320 --> 00:21:40,169

field I found right from the get-go that

498

00:21:48,200 --> 00:21:42,330

it was fairly easy people want to talk

499

00:21:50,690 --> 00:21:48,210

about it so I would say that getting

500

00:21:53,060 --> 00:21:50,700

guests on the UFO show and now that it's

501
00:21:56,360 --> 00:21:53,070
established is is pretty easy and I have

502
00:21:58,159 --> 00:21:56,370
you know booked out to the end of May

503
00:22:01,700 --> 00:21:58,169
sometimes I've actually had you know

504
00:22:04,640 --> 00:22:01,710
people bail at the last minute and you

505
00:22:07,159 --> 00:22:04,650
know had to scramble so that does happen

506
00:22:08,990 --> 00:22:07,169
occasionally but it's actually it's

507
00:22:12,409 --> 00:22:09,000
actually pretty good and actually really

508
00:22:15,670 --> 00:22:12,419
great people I've had fun interesting

509
00:22:18,910 --> 00:22:15,680
and a whole variety

510
00:22:22,180 --> 00:22:18,920
all right well let's plug your show and

511
00:22:25,300 --> 00:22:22,190
the time that it that comes up now as we

512
00:22:27,580 --> 00:22:25,310
go to the first break and we'll pick it

513
00:22:30,640 --> 00:22:27,590

up in about three or four minutes all

514

00:22:33,970 --> 00:22:30,650

right so it's podcast UFO and it's every

515

00:22:35,620 --> 00:22:33,980

Wednesday and it's at 8:00 - I'm sorry

516

00:22:40,990 --> 00:22:35,630

got 8:00 to 10:00 p.m. Eastern Standard

517

00:22:42,700 --> 00:22:41,000

Time podcast UFO it is I enjoy it I

518

00:22:46,660 --> 00:22:42,710

actually have do not get a chance very

519

00:22:48,970 --> 00:22:46,670

often to catch it live and I enjoy

520

00:22:50,890 --> 00:22:48,980

putting it on much like Melanie our

521

00:22:53,320 --> 00:22:50,900

mutual friend that brought us together

522

00:22:56,940 --> 00:22:53,330

I guess our parole officer that's when

523

00:22:58,930 --> 00:22:56,950

she's going to be serving us tonight we

524

00:23:01,420 --> 00:22:58,940

it's great to have in the background

525

00:23:02,860 --> 00:23:01,430

because you you do a show that you don't

526

00:23:04,420 --> 00:23:02,870

have to see it and of course then you'll

527

00:23:05,980 --> 00:23:04,430

say something and you want to go right

528

00:23:07,420 --> 00:23:05,990

to the screen and go okay I got to see

529

00:23:10,000 --> 00:23:07,430

the facial expressions when that was

530

00:23:12,370 --> 00:23:10,010

said and I won't embarrass anybody with

531

00:23:13,750 --> 00:23:12,380

some of the stuff that has happened but

532

00:23:16,840 --> 00:23:13,760

there have been moments where I've said

533

00:23:18,340 --> 00:23:16,850

I've got to figure out I got see what

534

00:23:20,320 --> 00:23:18,350

these people's faces look like when they

535

00:23:22,600 --> 00:23:20,330

said that's this I've got to get that

536

00:23:24,580 --> 00:23:22,610

mic I'm gonna get my connection here to

537

00:23:26,080 --> 00:23:24,590

make sure I get it well okay folks

538

00:23:29,710 --> 00:23:26,090

you're listening a task force Griffin on

539

00:23:34,570 --> 00:23:29,720

kgr radio KGA REO calm my special guest

540

00:23:35,830 --> 00:23:34,580

tonight Martin Wallace podcast UFO a man

541

00:23:38,050 --> 00:23:35,840

of many talents and we're going to

542

00:23:39,940 --> 00:23:38,060

explore those as we get as we come back

543

00:23:42,280 --> 00:23:39,950

on the other side and we're very

544

00:23:44,650 --> 00:23:42,290

fortunate to have Martin as well as

545

00:23:47,590 --> 00:23:44,660

through his office's being able to put

546

00:23:52,780 --> 00:23:47,600

this on a youtube channel as well please

547

00:23:53,280 --> 00:23:52,790

return we'll be right back clear thank

548

00:23:55,360 --> 00:23:53,290

you

549

00:23:57,970 --> 00:23:55,370

all right so we're clear but we're not

550

00:23:59,380 --> 00:23:57,980

clear on on you know that's right we're

551
00:24:02,770 --> 00:23:59,390
clear but we're not clear on YouTube

552
00:24:03,820 --> 00:24:02,780
yeah so no swearing oh you know Martin

553
00:24:05,500 --> 00:24:03,830
you know what you do should flip the

554
00:24:07,440 --> 00:24:05,510
script on him and you should ask him the

555
00:24:11,680 --> 00:24:07,450
same kind of questions he was asking you

556
00:24:13,330 --> 00:24:11,690
if he does that now bill then when he

557
00:24:16,660 --> 00:24:13,340
calls me when one of his guests drops

558
00:24:19,300 --> 00:24:16,670
out then I will not play the game see he

559
00:24:21,430 --> 00:24:19,310
knows that I'm in the oh I mean I'm in

560
00:24:23,830 --> 00:24:21,440
the oh column to him that's you know I'm

561
00:24:28,090 --> 00:24:23,840
in his book after coming on tonight

562
00:24:29,470 --> 00:24:28,100
that's fine okay and I can get home on a

563
00:24:33,060 --> 00:24:29,480

Wednesday night I'll do it

564

00:24:35,860 --> 00:24:33,070

I was looking through the chat room and

565

00:24:39,610 --> 00:24:35,870

someone says you look great commander

566

00:24:42,250 --> 00:24:39,620

and so anyone actually what do we have a

567

00:24:43,990 --> 00:24:42,260

couple minutes yep Oh someone wants to

568

00:24:46,690 --> 00:24:44,000

know why you're wearing the helmet so go

569

00:24:48,640 --> 00:24:46,700

ahead and answer that well the helmet is

570

00:24:51,730 --> 00:24:48,650

to protect my identity what started out

571

00:24:56,560 --> 00:24:51,740

as part of to give certain people that I

572

00:24:58,539 --> 00:24:56,570

was contracting for some space to have a

573

00:25:02,140 --> 00:24:58,549

guy who talks about the things like talk

574

00:25:04,780 --> 00:25:02,150

about and some of the things that I was

575

00:25:07,390 --> 00:25:04,790

involved in and on the show outside of

576

00:25:09,789 --> 00:25:07,400

the show on my other work believe it or

577

00:25:12,070 --> 00:25:09,799

not unlike Martin I have to have a

578

00:25:14,409 --> 00:25:12,080

couple other full-time jobs to to keep

579

00:25:16,600 --> 00:25:14,419

things rolling I'm not Martin's the one

580

00:25:19,060 --> 00:25:16,610

that's making all the the large big

581

00:25:20,320 --> 00:25:19,070

dollars in Maine in podcasts you can

582

00:25:23,140 --> 00:25:20,330

just look at his face in the ocean

583

00:25:25,360 --> 00:25:23,150

camera right now it's there so yeah yeah

584

00:25:27,820 --> 00:25:25,370

that's the reason why well now it's

585

00:25:29,950 --> 00:25:27,830

become part of the brand a few folks in

586

00:25:32,770 --> 00:25:29,960

fact two that are in the chat room have

587

00:25:35,590 --> 00:25:32,780

actually met me without the helmet on

588

00:25:37,360 --> 00:25:35,600

and they've met mrs. Cobra and although

589

00:25:39,669 --> 00:25:37,370

I sometimes refer to her being an alien

590

00:25:42,220 --> 00:25:39,679

she's not she's actually just from Idaho

591

00:25:45,100 --> 00:25:42,230

but two folks in New England that's kind

592

00:25:46,780 --> 00:25:45,110

of like being an alien so that's that's

593

00:25:50,260 --> 00:25:46,790

the background so the helmet helps

594

00:25:51,880 --> 00:25:50,270

protect my identity someday they'll

595

00:25:53,530 --> 00:25:51,890

probably a coming-out party you know

596

00:25:55,840 --> 00:25:53,540

I'll have to I'll have to break with it

597

00:25:57,370 --> 00:25:55,850

the disappointment will be huge for most

598

00:26:00,430 --> 00:25:57,380

folks when they finally do see what I

599

00:26:02,260 --> 00:26:00,440

look like now you say you're actually

600

00:26:04,000 --> 00:26:02,270

protecting your identity because of some

601
00:26:05,890 --> 00:26:04,010
work that you're doing and you're well

602
00:26:07,870 --> 00:26:05,900
that and the people that I do work for

603
00:26:11,169 --> 00:26:07,880
some of the the contractors they do work

604
00:26:16,539 --> 00:26:11,179
for they would hate to see my real name

605
00:26:18,400 --> 00:26:16,549
show up and and connected to it and now

606
00:26:22,270 --> 00:26:18,410
that that most of that work has really

607
00:26:23,710 --> 00:26:22,280
really slipped to to very little but

608
00:26:26,200 --> 00:26:23,720
some of the projects that I've worked on

609
00:26:28,900 --> 00:26:26,210
over the last 14 or so years since I

610
00:26:30,940 --> 00:26:28,910
retired I was still very deep now most

611
00:26:32,740 --> 00:26:30,950
folks knew I would tell them about the

612
00:26:34,539 --> 00:26:32,750
show and many of them listened to it and

613
00:26:37,510 --> 00:26:34,549

I would try to throw some kind of small

614

00:26:38,919 --> 00:26:37,520

plug in during the the broadcast that

615

00:26:40,390 --> 00:26:38,929

would identify them and note note

616

00:26:43,060 --> 00:26:40,400

sometimes I would talk about the testing

617

00:26:45,190 --> 00:26:43,070

I was with this mic

618

00:26:46,990 --> 00:26:45,200

is a gift from Mack Maloney who got me

619

00:26:50,169 --> 00:26:47,000

started in this you know Mack very well

620

00:26:52,060 --> 00:26:50,179

yeah and Mack got me this Yeti mic and

621

00:26:53,769 --> 00:26:52,070

this mic has been all over the United

622

00:26:57,159 --> 00:26:53,779

States it's been in my helmet bag it's

623

00:26:59,080 --> 00:26:57,169

been in hotel rooms general yeah I don't

624

00:27:06,610 --> 00:26:59,090

interrupt but we're coming back from the

625

00:27:10,749 --> 00:27:06,620

break in about five seconds copy in

626
00:27:13,149 --> 00:27:10,759
three two one go welcome back to task

627
00:27:14,769 --> 00:27:13,159
force Griffin on kgr radio KJR intercom

628
00:27:16,720 --> 00:27:14,779
talking to the greatest audience on the

629
00:27:19,990 --> 00:27:16,730
planet my guest tonight mr. Martin

630
00:27:22,379 --> 00:27:20,000
Willis from Maine a fellow maniac off

631
00:27:25,269 --> 00:27:22,389
air for those of you that are not

632
00:27:28,060 --> 00:27:25,279
delving into the YouTube side of this

633
00:27:29,409 --> 00:27:28,070
Martin asked me he was reading because

634
00:27:31,090 --> 00:27:29,419
he's checking the chat room he's

635
00:27:34,180 --> 00:27:31,100
clandestinely watching what's going on

636
00:27:35,590 --> 00:27:34,190
in there so that he can control the

637
00:27:38,049 --> 00:27:35,600
numbers I think to make sure things are

638
00:27:39,909 --> 00:27:38,059

working and why am I wearing the helmet

639

00:27:42,039 --> 00:27:39,919

I didn't want to say that I was wearing

640

00:27:43,810 --> 00:27:42,049

the helmet because it's not that

641

00:27:46,990 --> 00:27:43,820

good-looking of a person and the helmet

642

00:27:49,930 --> 00:27:47,000

helps keep the audience intrigued that's

643

00:27:53,049 --> 00:27:49,940

part of it the other part was explained

644

00:27:56,499 --> 00:27:53,059

to Martin was the kind of the work that

645

00:28:00,159 --> 00:27:56,509

I did not revealing my identity has been

646

00:28:02,139 --> 00:28:00,169

was useful to help keep separation with

647

00:28:04,720 --> 00:28:02,149

some of the projects I was working on

648

00:28:07,509 --> 00:28:04,730

I've never ever released anything is

649

00:28:09,580 --> 00:28:07,519

unbound on my security clearance that I

650

00:28:10,899 --> 00:28:09,590

wasn't supposed to release but things

651
00:28:12,909 --> 00:28:10,909
that I could talk about are things that

652
00:28:14,590 --> 00:28:12,919
I did encounter I'm pretty Frank as you

653
00:28:17,379 --> 00:28:14,600
know I've from the past that we've

654
00:28:21,730 --> 00:28:17,389
talked but now it's kind of a brand

655
00:28:23,470 --> 00:28:21,740
thing I'm a big fan of Iran so I guess

656
00:28:25,509 --> 00:28:23,480
this is my version of John Galt you know

657
00:28:28,749 --> 00:28:25,519
who is commander Cobra so there you go

658
00:28:31,389 --> 00:28:28,759
now isn't isn't commander commander

659
00:28:34,779 --> 00:28:31,399
Cobra like a fictional character right

660
00:28:36,310 --> 00:28:34,789
yeah Cobra is a fictional character out

661
00:28:39,279 --> 00:28:36,320
of the GI Joe series

662
00:28:45,549 --> 00:28:39,289
he was the commander Cobras unique brand

663
00:28:48,249 --> 00:28:45,559

and we can it reflects my callsign from

664

00:28:49,749 --> 00:28:48,259

my military flying and the rank that I

665

00:28:52,000 --> 00:28:49,759

retired at so I've retired as a

666

00:28:53,680 --> 00:28:52,010

commander it started out on Mac show as

667

00:28:55,810 --> 00:28:53,690

commander X and apparently there's a guy

668

00:28:56,980 --> 00:28:55,820

that has commander X trademarked and he

669

00:28:58,530 --> 00:28:56,990

got in touch with us to let us

670

00:29:00,940 --> 00:28:58,540

know that he did not appreciate

671

00:29:03,250 --> 00:29:00,950

commander X being used anymore because

672

00:29:07,419 --> 00:29:03,260

with Mack everything is a genetics

673

00:29:08,860 --> 00:29:07,429

commander X friend X reporter X and I

674

00:29:10,419 --> 00:29:08,870

think that's because it was just easier

675

00:29:12,310 --> 00:29:10,429

for us to get through it and we you know

676
00:29:15,040 --> 00:29:12,320
everyone kind of liked it the commander

677
00:29:20,320 --> 00:29:15,050
Cobra thing is how we were able to fix

678
00:29:22,360 --> 00:29:20,330
it oh I see I see well we were talking

679
00:29:24,790 --> 00:29:22,370
you know a little bit you were talking a

680
00:29:27,340 --> 00:29:24,800
little bit about you know why you kind

681
00:29:29,890 --> 00:29:27,350
of want to hide your identity and you

682
00:29:32,440 --> 00:29:29,900
know I actually there was kind of a

683
00:29:34,840 --> 00:29:32,450
rumor now I don't really know if that's

684
00:29:39,100 --> 00:29:34,850
true or not but I think I may have lost

685
00:29:41,799 --> 00:29:39,110
a job because I do this show and the job

686
00:29:44,410 --> 00:29:41,809
I had at the time was probably one of

687
00:29:47,310 --> 00:29:44,420
the best part-time jobs a person could

688
00:29:50,110 --> 00:29:47,320

have I mean it was it was just amazing

689

00:29:51,280 --> 00:29:50,120

so in the in the antiques and fine arts

690

00:29:54,310 --> 00:29:51,290

it was actually in the auction business

691

00:29:57,280 --> 00:29:54,320

for a big auction company mmm and it was

692

00:29:59,169 --> 00:29:57,290

just a wonderful job and all of a sudden

693

00:30:00,880 --> 00:29:59,179

it was like they said well there's not

694

00:30:03,100 --> 00:30:00,890

enough business in this area and you

695

00:30:07,570 --> 00:30:03,110

know we're gonna have to let you go and

696

00:30:08,890 --> 00:30:07,580

I've never been let go ever and then one

697

00:30:11,530 --> 00:30:08,900

of the people that worked at this

698

00:30:13,630 --> 00:30:11,540

company said maybe you ought to be a

699

00:30:15,460 --> 00:30:13,640

little bit careful about your UFO show

700

00:30:17,950 --> 00:30:15,470

and mixing it you know being in the

701
00:30:22,030 --> 00:30:17,960
antique business so I kind of took that

702
00:30:23,560 --> 00:30:22,040
as a hint that's possibly why my job is

703
00:30:27,040 --> 00:30:23,570
terminated now I don't know if it I

704
00:30:29,200 --> 00:30:27,050
can't prove it but that's that's a

705
00:30:31,060 --> 00:30:29,210
possibility which is kind of a shame I

706
00:30:35,230 --> 00:30:31,070
think and I don't think that's going to

707
00:30:37,750 --> 00:30:35,240
happen as much now since there's a

708
00:30:39,100 --> 00:30:37,760
little more publicity about the UFO you

709
00:30:42,669 --> 00:30:39,110
know search that our government actually

710
00:30:44,980 --> 00:30:42,679
was taking it serious it has a few times

711
00:30:46,950 --> 00:30:44,990
but I mean more recently this New York

712
00:30:51,400 --> 00:30:46,960
Times article that came out December

713
00:30:53,950 --> 00:30:51,410

December 16th of last year I think kind

714

00:30:57,070 --> 00:30:53,960
of changed a little bit on the way

715

00:30:59,020 --> 00:30:57,080
people look at the topic what's your

716

00:31:04,030 --> 00:30:59,030
thoughts on that I know you're enabling

717

00:31:06,580 --> 00:31:04,040
me right but yeah nice segue into it you

718

00:31:10,749 --> 00:31:06,590
and I have spoken a little bit off air

719

00:31:13,859 --> 00:31:10,759
about this the initial not the least bit

720

00:31:21,069 --> 00:31:13,869
surprised that we had a Pentagon program

721

00:31:24,369 --> 00:31:21,079
the rollout in December my my refined

722

00:31:26,919 --> 00:31:24,379
that remarks on it if there was some

723

00:31:30,759 --> 00:31:26,929
interesting stuff there I think it was

724

00:31:33,849 --> 00:31:30,769
done more as a measure to see how people

725

00:31:39,629 --> 00:31:33,859
are reacting I think it had a lot to do

726

00:31:42,909 --> 00:31:39,639

with our president and the kind of

727

00:31:47,049 --> 00:31:42,919

atmosphere that is going on in the

728

00:31:49,180 --> 00:31:47,059

internet media meaning that that was a

729

00:31:53,529 --> 00:31:49,190

reason to pump a lot of information into

730

00:31:56,169 --> 00:31:53,539

it we may be at the precipice of finally

731

00:31:59,649 --> 00:31:56,179

coming clean and opening up all the

732

00:32:02,259 --> 00:31:59,659

files but before December a lot of folks

733

00:32:04,269 --> 00:32:02,269

don't refer to this one very much a lot

734

00:32:06,159 --> 00:32:04,279

of the JFK assassination files were

735

00:32:09,579 --> 00:32:06,169

released with the exception of some

736

00:32:11,889 --> 00:32:09,589

stuff that was publicly held by the CIA

737

00:32:12,789 --> 00:32:11,899

which I found interesting that why would

738

00:32:14,709 --> 00:32:12,799

you even bring that up

739

00:32:17,229 --> 00:32:14,719

why would you throw that into the mix

740

00:32:20,829 --> 00:32:17,239

why would you put those letters that

741

00:32:25,209 --> 00:32:20,839

agency that name together and work that

742

00:32:28,569 --> 00:32:25,219

in so I think it was as much as

743

00:32:30,669 --> 00:32:28,579

releasing into C they wanted to track

744

00:32:32,469 --> 00:32:30,679

how we're going to react everything is

745

00:32:34,449 --> 00:32:32,479

done by polls everything is done by

746

00:32:36,579 --> 00:32:34,459

where they think public opinion is

747

00:32:38,169 --> 00:32:36,589

rolling I think that's a reason why a

748

00:32:40,209 --> 00:32:38,179

lot of our policy and things are very

749

00:32:44,379 --> 00:32:40,219

screwed up and I think this is just one

750

00:32:47,699 --> 00:32:44,389

of those issues with that said the

751
00:32:50,859 --> 00:32:47,709
people that were involved mr. Bigalow

752
00:32:52,419 --> 00:32:50,869
former Senator Reid very interesting

753
00:32:56,529 --> 00:32:52,429
cast of characters that were in on that

754
00:32:58,359 --> 00:32:56,539
there's I think some very true bonafide

755
00:33:00,969 --> 00:32:58,369
people and events that are wrapped in

756
00:33:06,369 --> 00:33:00,979
that and I think the first things that

757
00:33:08,619 --> 00:33:06,379
they released were manufactured very

758
00:33:11,289 --> 00:33:08,629
heavily edited not manufactured evidence

759
00:33:15,789 --> 00:33:11,299
but manufactured and handled package the

760
00:33:18,489 --> 00:33:15,799
way it came out okay okay are you saying

761
00:33:23,109 --> 00:33:18,499
that because of the the short span of

762
00:33:24,310 --> 00:33:23,119
the the videos themselves the quality of

763
00:33:26,470 --> 00:33:24,320

the videos the way

764

00:33:28,720 --> 00:33:26,480

that those are the heat is coming off of

765

00:33:30,580 --> 00:33:28,730

them this is one of the things that you

766

00:33:32,980 --> 00:33:30,590

spoke to me at length about because when

767

00:33:34,509 --> 00:33:32,990

the second one came out I told you that

768

00:33:38,259 --> 00:33:34,519

I was actually at a place where I had

769

00:33:40,269 --> 00:33:38,269

seen that video I'm sure of it as part

770

00:33:42,129 --> 00:33:40,279

of other videos are on there it's

771

00:33:43,840 --> 00:33:42,139

actually the second one is an excellent

772

00:33:46,440 --> 00:33:43,850

demonstration of someone who really

773

00:33:48,430 --> 00:33:46,450

knows how to operate a system well

774

00:33:51,220 --> 00:33:48,440

manually running over to what they

775

00:33:52,870 --> 00:33:51,230

visually see moving driving the system

776

00:33:55,860 --> 00:33:52,880

over to it and then putting an auto lock

777

00:33:58,840 --> 00:33:55,870

onto it that's not hard to do with radar

778

00:34:00,340 --> 00:33:58,850

hard and a relative sense optically

779

00:34:02,740 --> 00:34:00,350

driving a system that can be very

780

00:34:06,759 --> 00:34:02,750

difficult and it was a very good piece

781

00:34:08,230 --> 00:34:06,769

of work and as we talked I'm convinced

782

00:34:09,849 --> 00:34:08,240

it's either some kind of ammunition or

783

00:34:13,300 --> 00:34:09,859

as you were talking off air before we

784

00:34:17,169 --> 00:34:13,310

came on most likely it's a some kind of

785

00:34:19,569 --> 00:34:17,179

a UAS unmanned aerial system right

786

00:34:21,790 --> 00:34:19,579

what about have you looked at have you

787

00:34:25,119 --> 00:34:21,800

looked at all of the there's actually

788

00:34:27,579 --> 00:34:25,129

been three now that were released one of

789

00:34:30,639 --> 00:34:27,589

them was kind of I think released

790

00:34:33,579 --> 00:34:30,649

actually prior to that called the Nimitz

791

00:34:35,260 --> 00:34:33,589

have you looked at all of those yes the

792

00:34:38,669 --> 00:34:35,270

Nimitz one that were there was two sets

793

00:34:41,559 --> 00:34:38,679

of events that occurred around the major

794

00:34:44,980 --> 00:34:41,569

reveal and working backwards as we

795

00:34:47,409 --> 00:34:44,990

talked I'm not surprised that the that

796

00:34:49,300 --> 00:34:47,419

the Pentagon had an aim program and I'm

797

00:34:50,950 --> 00:34:49,310

not surprised that it's ended and and

798

00:34:53,470 --> 00:34:50,960

they discussed that it's and you know

799

00:34:54,760 --> 00:34:53,480

that program ended and it may have ended

800

00:34:57,670 --> 00:34:54,770

on a Friday and I guarantee you on

801
00:34:59,109 --> 00:34:57,680
Monday there was a new office and a new

802
00:35:01,690 --> 00:34:59,119
set of folks that were working at or

803
00:35:04,510 --> 00:35:01,700
split over to two other teams there's no

804
00:35:10,599 --> 00:35:04,520
doubt in my mind that work continues yes

805
00:35:12,220 --> 00:35:10,609
in some way ultimately might my belief

806
00:35:14,740 --> 00:35:12,230
system has me at the point that there

807
00:35:17,410 --> 00:35:14,750
are a group of people that aren't part

808
00:35:21,339 --> 00:35:17,420
of the elected elected body of the

809
00:35:23,950 --> 00:35:21,349
government I don't think the term deep

810
00:35:26,730 --> 00:35:23,960
state properly fits but it does kind of

811
00:35:30,730 --> 00:35:26,740
metaphorically the folks that are in

812
00:35:32,800 --> 00:35:30,740
areas that work into it that hold any

813
00:35:35,319 --> 00:35:32,810

number of Secrets some are critical you

814

00:35:37,540 --> 00:35:35,329

know to our signal security that those

815

00:35:37,750 --> 00:35:37,550

secrets are mixed in there with it that

816

00:35:40,020 --> 00:35:37,760

our

817

00:35:43,090 --> 00:35:40,030

constantly looking at these kinds of

818

00:35:46,510 --> 00:35:43,100

events looking at these kinds of

819

00:35:48,010 --> 00:35:46,520

experiences in these reports I think

820

00:35:52,210 --> 00:35:48,020

there's enough evidence there that tells

821

00:35:54,790 --> 00:35:52,220

me that there is a very strong case to

822

00:35:56,770 --> 00:35:54,800

be made for extraterrestrial visits I

823

00:36:00,540 --> 00:35:56,780

think there's a very strong case to be

824

00:36:04,150 --> 00:36:00,550

made for reverse engineering of of

825

00:36:06,520 --> 00:36:04,160

extraterrestrial technology and I think

826

00:36:10,120 --> 00:36:06,530

a lot of the things that we see that we

827

00:36:13,900 --> 00:36:10,130

claim or people claim is man-made

828

00:36:15,790 --> 00:36:13,910

military objects that are flying there's

829

00:36:18,400 --> 00:36:15,800

a number of people that have speculated

830

00:36:22,230 --> 00:36:18,410

that the the triangles that people are

831

00:36:25,030 --> 00:36:22,240

seeing even though you know they are

832

00:36:29,830 --> 00:36:25,040

mostly silent some people report them

833

00:36:31,690 --> 00:36:29,840

with a humming but that are there's a

834

00:36:36,280 --> 00:36:31,700

lot of people speculating that those are

835

00:36:39,280 --> 00:36:36,290

actually you know black ops or not

836

00:36:42,450 --> 00:36:39,290

exactly a secret military craft you know

837

00:36:44,950 --> 00:36:42,460

I think that when we get black ops I

838

00:36:47,440 --> 00:36:44,960

said that by a different yes yeah I

839

00:36:50,950 --> 00:36:47,450

would say a black program or yeah that's

840

00:36:55,270 --> 00:36:50,960

a program so let's take the case of the

841

00:36:58,060 --> 00:36:55,280

sr-71 the aircraft was flying well over

842

00:37:01,210 --> 00:36:58,070

ten years before anybody really knew

843

00:37:04,510 --> 00:37:01,220

that it was of flight they paraded other

844

00:37:06,640 --> 00:37:04,520

aircraft in fact they used the UFO

845

00:37:08,710 --> 00:37:06,650

phenomenon as a way to cover-up it in a

846

00:37:10,930 --> 00:37:08,720

number of other aircraft that were out

847

00:37:12,760 --> 00:37:10,940

flying that's really air force was

848

00:37:15,400 --> 00:37:12,770

engaging the government was engaging in

849

00:37:16,420 --> 00:37:15,410

feeding disinformation into that system

850

00:37:18,610 --> 00:37:16,430

now

851

00:37:20,890 --> 00:37:18,620

that's an effective tool disinformation

852

00:37:23,890 --> 00:37:20,900

is on one of the things I was taught as

853

00:37:26,530 --> 00:37:23,900

part of my career in the military and

854

00:37:28,600 --> 00:37:26,540

some of the work how did you deceive not

855

00:37:30,310 --> 00:37:28,610

so much the public it was in my case it

856

00:37:33,760 --> 00:37:30,320

was the enemy but how do you deceive the

857

00:37:35,200 --> 00:37:33,770

enemy's civilian populace like if we're

858

00:37:37,000 --> 00:37:35,210

going to do a helicopter insertion we're

859

00:37:40,240 --> 00:37:37,010

gonna put a team in you would make

860

00:37:42,400 --> 00:37:40,250

multiple approaches that look like

861

00:37:43,720 --> 00:37:42,410

landings and I'm one of those that's

862

00:37:46,990 --> 00:37:43,730

when they actually got off and you

863

00:37:49,780 --> 00:37:47,000

continued so that it did not give an

864

00:37:51,280 --> 00:37:49,790

indication you know a helicopter when it

865

00:37:51,579 --> 00:37:51,290

will field and everybody that's where

866

00:37:54,910 --> 00:37:51,589

they

867

00:37:57,370 --> 00:37:54,920

for the team that you've inserted or the

868

00:38:02,559 --> 00:37:57,380

people that you're trying to extract Oh

869

00:38:03,999 --> 00:38:02,569

so that doesn't I think that's that's a

870

00:38:05,620 --> 00:38:04,009

pretty good case a pretty good precedent

871

00:38:08,259 --> 00:38:05,630

how we're gonna go forward we definitely

872

00:38:11,069 --> 00:38:08,269

become creatures of habit the one thing

873

00:38:14,529 --> 00:38:11,079

the one argument that I've had about

874

00:38:17,259 --> 00:38:14,539

when people say that you know all the

875

00:38:19,749 --> 00:38:17,269

the triangles that people are seeing our

876

00:38:21,400 --> 00:38:19,759

you know secret military craft the

877

00:38:24,279 --> 00:38:21,410

argument I have in that is you know all

878

00:38:28,779 --> 00:38:24,289

the way back to I'm trying to think it

879

00:38:30,999 --> 00:38:28,789

was like 1960 or something like that in

880

00:38:33,130 --> 00:38:31,009

Lubbock Texas you know the first

881

00:38:34,900 --> 00:38:33,140

triangle that was pictured and witnessed

882

00:38:37,769 --> 00:38:34,910

by thousands of people and that was

883

00:38:38,979 --> 00:38:37,779

actually one all the way up into Kansas

884

00:38:41,249 --> 00:38:38,989

Wichita

885

00:38:43,660 --> 00:38:41,259

they were seen there was a number of

886

00:38:45,069 --> 00:38:43,670

cell phone pictures is an interesting

887

00:38:47,109 --> 00:38:45,079

thing to bring up on a lot of fronts

888

00:38:49,059 --> 00:38:47,119

there Martin never I mean this was this

889

00:38:51,459 --> 00:38:49,069

was an earlier this was prior to cell

890

00:38:53,829 --> 00:38:51,469

phone this was you were talking about

891

00:38:56,289 --> 00:38:53,839

the Phoenix lights perhaps I was talking

892

00:39:01,329 --> 00:38:56,299

about in luboc these are early early

893

00:39:03,549 --> 00:39:01,339

triangles also a friend of mine Lee

894

00:39:05,079 --> 00:39:03,559

Spiegel that used to work at The

895

00:39:09,279 --> 00:39:05,089

Huffington Post he's now working with

896

00:39:12,130 --> 00:39:09,289

James Fox on a UFO video he actually had

897

00:39:15,249 --> 00:39:12,140

an encounter in North Carolina I want to

898

00:39:18,099 --> 00:39:15,259

say it was 19 late 1970s with a triangle

899

00:39:20,049 --> 00:39:18,109

that came over silently and shot down a

900

00:39:21,489 --> 00:39:20,059

beam of light right at their feet along

901
00:39:24,699 --> 00:39:21,499
with him with a whole bunch of police

902
00:39:26,529 --> 00:39:24,709
officers so I don't think that we're

903
00:39:29,799 --> 00:39:26,539
going to have military secret military

904
00:39:32,349 --> 00:39:29,809
craft going that far back that we still

905
00:39:35,529 --> 00:39:32,359
wouldn't know anything about you know

906
00:39:39,789 --> 00:39:35,539
what's your - I I think that we will or

907
00:39:44,130 --> 00:39:39,799
we did I will cite for folks that are

908
00:39:48,489 --> 00:39:44,140
new to the show if you have a chance get

909
00:39:50,739 --> 00:39:48,499
download mr. leer show mr. leer talks

910
00:39:54,459 --> 00:39:50,749
about some of the things that he was

911
00:39:56,650 --> 00:39:54,469
made known or had some knowledge of the

912
00:39:58,269 --> 00:39:56,660
aircraft that you were just referred to

913
00:40:01,239 --> 00:39:58,279

the very Silent One the one that shot

914

00:40:05,410 --> 00:40:01,249

the beam that one there I'm almost sure

915

00:40:06,850 --> 00:40:05,420

was a combination of a dirigible tight

916

00:40:09,310 --> 00:40:06,860

design that it had lighter-than-air

917

00:40:11,020 --> 00:40:09,320

properties and it had other things made

918

00:40:13,660 --> 00:40:11,030

it to it

919

00:40:16,990 --> 00:40:13,670

partially because they were looking for

920

00:40:23,320 --> 00:40:17,000

the ability to have surveillance and the

921

00:40:26,680 --> 00:40:23,330

ability to take extended surveillance

922

00:40:28,150 --> 00:40:26,690

activity over a target area not a lot of

923

00:40:28,870 --> 00:40:28,160

heat being produced so it wouldn't show

924

00:40:32,290 --> 00:40:28,880

up

925

00:40:35,500 --> 00:40:32,300

very quiet had some characteristics of

926
00:40:37,990 --> 00:40:35,510
being able to fly in and have some

927
00:40:42,190 --> 00:40:38,000
control that's what dirigibles give and

928
00:40:44,500 --> 00:40:42,200
that triangle shape I think not so much

929
00:40:47,410 --> 00:40:44,510
coincidence I believe that's what that

930
00:40:50,140 --> 00:40:47,420
vehicle had been talked about and had

931
00:40:51,760 --> 00:40:50,150
been seen in Europe quite a bit and I

932
00:40:54,010 --> 00:40:51,770
believe it was for a specific purpose

933
00:40:56,620 --> 00:40:54,020
and a lot of the vehicles that we have

934
00:40:58,930 --> 00:40:56,630
worked that way they they do show up in

935
00:41:03,070 --> 00:40:58,940
a very specific mission set that they

936
00:41:09,630 --> 00:41:03,080
want to get coverage or some capability

937
00:41:12,730 --> 00:41:09,640
same thing happened with the with our

938
00:41:15,300 --> 00:41:12,740

predators and the the unmanned aerial

939

00:41:20,560 --> 00:41:15,310

vehicles you know they're they're

940

00:41:22,540 --> 00:41:20,570

exploded and their capability so I think

941

00:41:25,240 --> 00:41:22,550

that you're talking about a family of

942

00:41:27,460 --> 00:41:25,250

different types of aircraft that have

943

00:41:29,680 --> 00:41:27,470

that shape if you look at fighter

944

00:41:30,340 --> 00:41:29,690

aircraft or transport aircraft they all

945

00:41:33,100 --> 00:41:30,350

look the same

946

00:41:37,240 --> 00:41:33,110

some had propellers some have jet

947

00:41:40,720 --> 00:41:37,250

engines their capabilities are similar

948

00:41:43,000 --> 00:41:40,730

but their their characteristics are

949

00:41:46,930 --> 00:41:43,010

what's of what's different there was a

950

00:41:48,280 --> 00:41:46,940

helicopter project that's been on very

951
00:41:49,660 --> 00:41:48,290
much the forerunner to some of the

952
00:41:52,330 --> 00:41:49,670
things that went on the bin Laden raid

953
00:41:56,760 --> 00:41:52,340
where the helicopters were nearly silent

954
00:42:00,070 --> 00:41:56,770
I saw these aircraft move used in

955
00:42:01,840 --> 00:42:00,080
exercises the problem was is that to

956
00:42:04,060 --> 00:42:01,850
make them silent made them not such good

957
00:42:05,380 --> 00:42:04,070
helicopters they were great for moving

958
00:42:08,350 --> 00:42:05,390
around they're very quiet but you had to

959
00:42:10,240 --> 00:42:08,360
compromise a lot of other capabilities

960
00:42:12,400 --> 00:42:10,250
that didn't make them useful now you

961
00:42:14,290 --> 00:42:12,410
have had some experiences with the the

962
00:42:17,500 --> 00:42:14,300
triangle and you know that that's one of

963
00:42:19,269 --> 00:42:17,510

my if there's anything that gets my

964

00:42:21,370 --> 00:42:19,279

attention if there's a shiny bell

965

00:42:22,749 --> 00:42:21,380

that when it rings gets my attention

966

00:42:25,859 --> 00:42:22,759

it's definitely the black triangle

967

00:42:29,049 --> 00:42:25,869

discussion well you know a couple things

968

00:42:31,809 --> 00:42:29,059

to argue there about what you're saying

969

00:42:34,329 --> 00:42:31,819

is a number of people have said that

970

00:42:36,819 --> 00:42:34,339

they've seen these things shoot off at a

971

00:42:40,839 --> 00:42:36,829

high rate of speed and again with no

972

00:42:44,499 --> 00:42:40,849

sound at all that that is repeated quite

973

00:42:46,329 --> 00:42:44,509

often another thing a lot of people are

974

00:42:49,029 --> 00:42:46,339

saying these things are enormous

975

00:42:50,769 --> 00:42:49,039

you know sometimes perhaps even more

976
00:42:52,599 --> 00:42:50,779
than a mile wide there would be

977
00:42:54,519 --> 00:42:52,609
absolutely no reason why the government

978
00:42:57,999 --> 00:42:54,529
would make something like that agreement

979
00:43:00,069 --> 00:42:58,009
that would make any sense so I don't

980
00:43:03,699 --> 00:43:00,079
know you know I would say that you're

981
00:43:05,919 --> 00:43:03,709
probably right on some of them that and

982
00:43:07,630 --> 00:43:05,929
I've always thought that - that some of

983
00:43:11,309 --> 00:43:07,640
these triangles could actually be

984
00:43:13,659 --> 00:43:11,319
military absolutely without a doubt and

985
00:43:15,279 --> 00:43:13,669
when I say could I don't know if they

986
00:43:16,799 --> 00:43:15,289
actually have that technology but I've

987
00:43:21,249 --> 00:43:16,809
never really heard that dirigible

988
00:43:23,380 --> 00:43:21,259

thought it it I guess it would make

989

00:43:26,049 --> 00:43:23,390

sense something that would go out at

990

00:43:27,279 --> 00:43:26,059

night and surveil but now they have why

991

00:43:29,799 --> 00:43:27,289

would they do that when they have drones

992

00:43:32,109 --> 00:43:29,809

the drones can do all that well the time

993

00:43:34,329 --> 00:43:32,119

period you were talking about I'm I

994

00:43:37,929 --> 00:43:34,339

would be very doubtful at that aircraft

995

00:43:40,649 --> 00:43:37,939

is is still flying but a specific time

996

00:43:43,359 --> 00:43:40,659

in Perea during the Cold War and the

997

00:43:45,489 --> 00:43:43,369

technology at the time that type of

998

00:43:48,839 --> 00:43:45,499

aircraft that type of persistent

999

00:43:51,789 --> 00:43:48,849

capability remember we didn't even have

1000

00:43:54,880 --> 00:43:51,799

the ability to really downlink the

1001
00:43:57,779 --> 00:43:54,890
imagery very well until the well into

1002
00:44:00,189 --> 00:43:57,789
the 80s were still very dependent on

1003
00:44:01,959 --> 00:44:00,199
well in the 70s all the way into the

1004
00:44:03,729 --> 00:44:01,969
early 80s we were actually dropping film

1005
00:44:07,089 --> 00:44:03,739
canisters out of our satellites that had

1006
00:44:11,399 --> 00:44:07,099
to be caught in the air then the ability

1007
00:44:13,630 --> 00:44:11,409
to send those pictures down by radio

1008
00:44:16,509 --> 00:44:13,640
technology and now that's been replaced

1009
00:44:18,459 --> 00:44:16,519
by still using a radio wave but it

1010
00:44:20,169 --> 00:44:18,469
you're packing more information I mean

1011
00:44:22,289 --> 00:44:20,179
just the fact that we have the kind of

1012
00:44:25,059 --> 00:44:22,299
Wi-Fi capabilities that we have now

1013
00:44:26,919 --> 00:44:25,069

these are the the fruits of the labor to

1014

00:44:30,989 --> 00:44:26,929

be able to have secure links and

1015

00:44:32,290 --> 00:44:30,999

descendant information oh so yeah did

1016

00:44:46,180 --> 00:44:32,300

the

1017

00:44:48,730 --> 00:44:46,190

80s he did a lot of research Aviation

1018

00:44:51,100 --> 00:44:48,740

Week and it was one of the ones of

1019

00:44:52,570 --> 00:44:51,110

aircraft that he he didn't have

1020

00:44:54,730 --> 00:44:52,580

definitive proof but he had a pretty

1021

00:44:57,790 --> 00:44:54,740

good postulation of what was happening

1022

00:45:00,130 --> 00:44:57,800

there and it was that mix in there and

1023

00:45:01,480 --> 00:45:00,140

but you said when we were off air before

1024

00:45:03,850 --> 00:45:01,490

we came on that you did have an

1025

00:45:06,340 --> 00:45:03,860

experience up and main and I'm convinced

1026
00:45:08,530 --> 00:45:06,350
that we between where you and I live is

1027
00:45:10,240 --> 00:45:08,540
a major routing structure that flies

1028
00:45:13,030 --> 00:45:10,250
back and forth and uses the tanker fleet

1029
00:45:17,320 --> 00:45:13,040
that's in this area yes I personally

1030
00:45:20,470 --> 00:45:17,330
didn't see that I didn't see that object

1031
00:45:24,010 --> 00:45:20,480
that I told you about but my girlfriend

1032
00:45:26,410 --> 00:45:24,020
basically did see it you know she said

1033
00:45:28,570 --> 00:45:26,420
it was tiny because she said it was tiny

1034
00:45:31,450 --> 00:45:28,580
because it was up so high but she said

1035
00:45:33,520 --> 00:45:31,460
it had she said it I think she said it

1036
00:45:36,220 --> 00:45:33,530
had five lights with one in the center

1037
00:45:39,040 --> 00:45:36,230
and it was shaped like a like a

1038
00:45:41,530 --> 00:45:39,050

boomerang or triangle type of thing and

1039

00:45:43,150 --> 00:45:41,540

that was like I said that was way

1040

00:45:45,070 --> 00:45:43,160

overhead and may have just been a plane

1041

00:45:47,650 --> 00:45:45,080

and the way the lighting was on the

1042

00:45:49,210 --> 00:45:47,660

plane you know I'm not sure I didn't

1043

00:45:51,010 --> 00:45:49,220

it's interesting the way she describes

1044

00:45:52,870 --> 00:45:51,020

that and I'd love her to see a picture

1045

00:45:58,030 --> 00:45:52,880

off to send you the sketch when I dig it

1046

00:45:59,680 --> 00:45:58,040

up I have a a offline offline print

1047

00:46:02,020 --> 00:45:59,690

graphic artist that does a lot of the

1048

00:46:05,050 --> 00:46:02,030

t-shirts and and other stuff of the show

1049

00:46:06,460 --> 00:46:05,060

plus other work-related stuff and he

1050

00:46:08,530 --> 00:46:06,470

drew me because he's very talented

1051
00:46:10,000 --> 00:46:08,540
because he can sketch and he can take

1052
00:46:11,890 --> 00:46:10,010
you know the scratching should come in

1053
00:46:14,860 --> 00:46:11,900
with and he'll build the the artwork for

1054
00:46:18,280 --> 00:46:14,870
your everything from the decals to the

1055
00:46:22,450 --> 00:46:18,290
car wraps to the t-shirts and he drew a

1056
00:46:24,580 --> 00:46:22,460
very classical picture and his theory

1057
00:46:28,540 --> 00:46:24,590
he's a longtime resident of Maine as

1058
00:46:31,090 --> 00:46:28,550
well is that this is technology that Y

1059
00:46:32,890 --> 00:46:31,100
would be flying here because we have a

1060
00:46:35,830 --> 00:46:32,900
major engine manufacturer that's in the

1061
00:46:38,830 --> 00:46:35,840
area and we have a fairly isolated part

1062
00:46:42,190 --> 00:46:38,840
of the country and I think a lot of

1063
00:46:43,780 --> 00:46:42,200

times I know that we would do operations

1064

00:46:45,599 --> 00:46:43,790

in Europe when I was stationed there

1065

00:46:48,779 --> 00:46:45,609

just to partially

1066

00:46:50,819 --> 00:46:48,789

gauge how the public would react to how

1067

00:46:54,029 --> 00:46:50,829

the civilian populace reacted to our

1068

00:46:57,029 --> 00:46:54,039

presence being there as a way to how

1069

00:47:00,180 --> 00:46:57,039

effective we were to moving or cover and

1070

00:47:01,739 --> 00:47:00,190

a lot of times if somebody else was

1071

00:47:03,989 --> 00:47:01,749

doing something of very sensitive nature

1072

00:47:05,609 --> 00:47:03,999

other aircraft would be out there

1073

00:47:07,979 --> 00:47:05,619

drawing your attention

1074

00:47:11,430 --> 00:47:07,989

so why everybody's looking up at the sky

1075

00:47:14,339 --> 00:47:11,440

and seeing watch formations of aircraft

1076
00:47:17,519 --> 00:47:14,349
moving a very small set of helicopters

1077
00:47:19,650 --> 00:47:17,529
is moving in to go do a mission you know

1078
00:47:21,870 --> 00:47:19,660
in a sensitive area in those days it was

1079
00:47:23,160 --> 00:47:21,880
East and West Germany I can leave most

1080
00:47:24,329 --> 00:47:23,170
of that to your imagination to figure

1081
00:47:26,279 --> 00:47:24,339
out how that was going on I

1082
00:47:28,349 --> 00:47:26,289
affectionately refer to those days as

1083
00:47:30,269 --> 00:47:28,359
Mad Magazine spy versus spy because I

1084
00:47:32,729 --> 00:47:30,279
seem to be the playbook was a lot of fun

1085
00:47:34,739 --> 00:47:32,739
and luckily it never turned anything

1086
00:47:39,170 --> 00:47:34,749
more serious than being serious about

1087
00:47:44,069 --> 00:47:39,180
our work huh Wow interesting

1088
00:47:46,380 --> 00:47:44,079

so what do you think that well let's

1089

00:47:48,269 --> 00:47:46,390

circle back all right God you we talked

1090

00:47:50,460 --> 00:47:48,279

about stars to the Academy give me your

1091

00:47:52,609 --> 00:47:50,470

take on that release in December and the

1092

00:47:59,249 --> 00:47:52,619

and the videos that come out since them

1093

00:48:01,920 --> 00:47:59,259

well I I've had Leslie Kane on my show a

1094

00:48:04,049 --> 00:48:01,930

number of times and also I was one of

1095

00:48:08,609 --> 00:48:04,059

the people that got to interview ralph

1096

00:48:13,229 --> 00:48:08,619

Blumenthal who was one of the co-authors

1097

00:48:16,529 --> 00:48:13,239

of that particular viral I guess nothing

1098

00:48:19,650 --> 00:48:16,539

went viral more than that for in the UFO

1099

00:48:21,900 --> 00:48:19,660

field nothing's gone quite like that I

1100

00:48:25,410 --> 00:48:21,910

think there was over a hundred news

1101

00:48:27,660 --> 00:48:25,420

shows on that alone in particular all

1102

00:48:30,239 --> 00:48:27,670

over you know everywhere so I think it

1103

00:48:34,529 --> 00:48:30,249

was great that got out there I think

1104

00:48:36,120 --> 00:48:34,539

that I think that it's helped in a lot

1105

00:48:37,950 --> 00:48:36,130

of ways has helped more people that were

1106

00:48:40,979 --> 00:48:37,960

on the fence maybe take a serious look

1107

00:48:43,470 --> 00:48:40,989

and and that's what we need and I've

1108

00:48:47,970 --> 00:48:43,480

spoken to both leslie and ralph

1109

00:48:50,220 --> 00:48:47,980

Blumenthal and Ralph says hold on

1110

00:48:51,900 --> 00:48:50,230

there's more more to come and he will be

1111

00:48:54,269 --> 00:48:51,910

on my show again but he says we have to

1112

00:48:55,499 --> 00:48:54,279

you know we're working with the New York

1113

00:48:58,200 --> 00:48:55,509

Times and there's going to be more

1114

00:48:59,190 --> 00:48:58,210

release now I give you the explanation

1115

00:49:01,589 --> 00:48:59,200

why is

1116

00:49:03,810 --> 00:49:01,599

coming out so slowly I didn't in the age

1117

00:49:05,400 --> 00:49:03,820

that we live in I mean I understand if

1118

00:49:07,470 --> 00:49:05,410

it's gonna be for some kind of a profit

1119

00:49:09,030 --> 00:49:07,480

generated part of it you know I mean

1120

00:49:10,290 --> 00:49:09,040

that's that they have to make money they

1121

00:49:12,720 --> 00:49:10,300

have to sell papers they have to sell

1122

00:49:14,280 --> 00:49:12,730

their their their news but what's the

1123

00:49:16,349 --> 00:49:14,290

explanation or what's your summation of

1124

00:49:18,210 --> 00:49:16,359

why it's taking so much time I would say

1125

00:49:20,130 --> 00:49:18,220

it's more of my summation and that is

1126

00:49:23,220 --> 00:49:20,140

that I think they're just trying to keep

1127

00:49:25,290 --> 00:49:23,230

it alive and so it just doesn't fade

1128

00:49:28,620 --> 00:49:25,300

away like you know it's such an

1129

00:49:30,420 --> 00:49:28,630

ephemeral society now and I don't know

1130

00:49:32,250 --> 00:49:30,430

if you're watching the news but there's

1131

00:49:34,470 --> 00:49:32,260

so many dramatic things on the news all

1132

00:49:38,280 --> 00:49:34,480

the time and it's yesterday's news

1133

00:49:40,640 --> 00:49:38,290

instantly you know it fades away I still

1134

00:49:44,190 --> 00:49:40,650

think that a lot of people actually

1135

00:49:47,640 --> 00:49:44,200

witnessed one of those TV shows or new

1136

00:49:50,700 --> 00:49:47,650

shows about the Pentagon release and I

1137

00:49:53,280 --> 00:49:50,710

think I think it is you know when I

1138

00:49:55,859 --> 00:49:53,290

brought the topic up to I would say

1139

00:49:57,780 --> 00:49:55,869

people outside of the UFO field did you

1140

00:50:00,060 --> 00:49:57,790

see that you know the Pentagon released

1141

00:50:01,980 --> 00:50:00,070

the fact that they've been looking into

1142

00:50:04,290 --> 00:50:01,990

you know UFOs and whether they're a

1143

00:50:06,450 --> 00:50:04,300

threat or not and a lot of people saw

1144

00:50:09,410 --> 00:50:06,460

that it really got it really got a lot

1145

00:50:11,250 --> 00:50:09,420

of people's attention so I think

1146

00:50:13,880 --> 00:50:11,260

personally think that it was a really

1147

00:50:17,370 --> 00:50:13,890

good real good thing and I think that

1148

00:50:19,200 --> 00:50:17,380

like I said is going to have more people

1149

00:50:21,450 --> 00:50:19,210

taking it serious people that were on

1150

00:50:23,010 --> 00:50:21,460

the fence about looking into it may

1151
00:50:25,650 --> 00:50:23,020
start looking into it and there's going

1152
00:50:27,990 --> 00:50:25,660
to be less ridicule and for instance

1153
00:50:33,120 --> 00:50:28,000
this Arizona I don't know if you caught

1154
00:50:36,300 --> 00:50:33,130
this Arizona sightings of the FA the FAA

1155
00:50:39,150 --> 00:50:36,310
actually released the recordings of the

1156
00:50:41,819 --> 00:50:39,160
pilots talking about seeing this UFO

1157
00:50:45,420 --> 00:50:41,829
overhead I thought that would have

1158
00:50:48,089 --> 00:50:45,430
happened prior to the New York Times

1159
00:50:51,120 --> 00:50:48,099
article coming out the FAA has been real

1160
00:50:53,160 --> 00:50:51,130
guarded about any UFO material getting

1161
00:50:54,870 --> 00:50:53,170
out there that they have any thing to do

1162
00:50:57,960 --> 00:50:54,880
with so I think it's it's a good thing

1163
00:50:59,940 --> 00:50:57,970

overall all right I I guess I'm gonna

1164

00:51:02,910 --> 00:50:59,950

beg to differ with you because the age

1165

00:51:05,069 --> 00:51:02,920

that we live in I don't understand why

1166

00:51:08,730 --> 00:51:05,079

you have to drag it out as slow as the

1167

00:51:11,010 --> 00:51:08,740

you have to drag it out why we were

1168

00:51:12,720 --> 00:51:11,020

living in it where Libya I mean people

1169

00:51:14,400 --> 00:51:12,730

do not go to the I know

1170

00:51:15,870 --> 00:51:14,410

that the vast majority people still pick

1171

00:51:19,590 --> 00:51:15,880

up their news by looking at the three

1172

00:51:22,140 --> 00:51:19,600

primary media networks but they were a

1173

00:51:24,240 --> 00:51:22,150

big part of this story and the print

1174

00:51:28,500 --> 00:51:24,250

media is not print anymore it's print

1175

00:51:32,160 --> 00:51:28,510

with everything that's online the to the

1176
00:51:34,800 --> 00:51:32,170
Stars Academy has the ability to put a

1177
00:51:38,310 --> 00:51:34,810
lot of information out in depth with

1178
00:51:39,540 --> 00:51:38,320
explanation with podcasts I can

1179
00:51:41,220 --> 00:51:39,550
understand if you're trying to build

1180
00:51:45,180 --> 00:51:41,230
interest and you're trying to do that

1181
00:51:49,080 --> 00:51:45,190
but this is not a movie that anybody is

1182
00:51:51,690 --> 00:51:49,090
going to wait to see if you continue to

1183
00:51:53,610 --> 00:51:51,700
drag it out in my opinion for people

1184
00:51:55,950 --> 00:51:53,620
that are but they are believers people

1185
00:51:58,470 --> 00:51:55,960
that are listening tonight to this show

1186
00:52:01,500 --> 00:51:58,480
and go to your podcast to see that we're

1187
00:52:03,270 --> 00:52:01,510
already in on the on the belief we're

1188
00:52:06,840 --> 00:52:03,280

looking for something to help Stan she

1189

00:52:10,050 --> 00:52:06,850

ate it so I don't understand what the

1190

00:52:11,880 --> 00:52:10,060

the theory is on how slow to go and why

1191

00:52:13,370 --> 00:52:11,890

it's a two or three minute clip and

1192

00:52:16,080 --> 00:52:13,380

there's no explanation there's no

1193

00:52:19,470 --> 00:52:16,090

there's no briefing that goes with their

1194

00:52:22,920 --> 00:52:19,480

clip just about I know a little bit

1195

00:52:25,710 --> 00:52:22,930

about that part and that is Lois Alison

1196

00:52:30,350 --> 00:52:25,720

doe that was heading that project for

1197

00:52:34,020 --> 00:52:30,360

the Pentagon who you've recently retired

1198

00:52:36,090 --> 00:52:34,030

said that there is footage before and

1199

00:52:39,330 --> 00:52:36,100

after that but it's not unclassified and

1200

00:52:42,330 --> 00:52:39,340

I think perhaps that may be part of the

1201
00:52:45,600 --> 00:52:42,340
deal is maybe we're getting fed this

1202
00:52:49,290 --> 00:52:45,610
it's not just like the New York Times

1203
00:52:51,120 --> 00:52:49,300
and these authors hanging on to what

1204
00:52:54,300 --> 00:52:51,130
they know and to the stars hang on to

1205
00:52:57,420 --> 00:52:54,310
what they know perhaps it's a trickle

1206
00:52:59,550 --> 00:52:57,430
down from the being released from the

1207
00:53:00,630 --> 00:52:59,560
Pentagon I don't know or if they even

1208
00:53:02,940 --> 00:53:00,640
want to bother with it

1209
00:53:04,380 --> 00:53:02,950
on there I'm gonna give you we're coming

1210
00:53:07,350 --> 00:53:04,390
up to our next break so I'm gonna give

1211
00:53:09,420 --> 00:53:07,360
you a lead-in to our next part okay one

1212
00:53:11,760 --> 00:53:09,430
of the stories are referred to we had a

1213
00:53:13,560 --> 00:53:11,770

unidentified object Arizona came over

1214

00:53:16,080 --> 00:53:13,570

through Oregon when its way back towards

1215

00:53:20,520 --> 00:53:16,090

Idaho a very good friend of the show

1216

00:53:24,150 --> 00:53:20,530

Tyler Rogo a the war zone calm he broke

1217

00:53:26,100 --> 00:53:24,160

the story he did the work he did freedom

1218

00:53:26,670 --> 00:53:26,110

of information he's a two man shop he's

1219

00:53:30,960 --> 00:53:26,680

got a part

1220

00:53:33,000 --> 00:53:30,970

there they they uncovered more

1221

00:53:35,460 --> 00:53:33,010

information they released more now they

1222

00:53:36,780 --> 00:53:35,470

didn't release any video data that went

1223

00:53:39,300 --> 00:53:36,790

with it because it really wasn't any

1224

00:53:41,610 --> 00:53:39,310

video data to go there wasn't a HUD film

1225

00:53:43,410 --> 00:53:41,620

from the f-15s that did that but he's

1226
00:53:45,840 --> 00:53:43,420
got all the conversations he got all the

1227
00:53:51,120 --> 00:53:45,850
transcripts he turned that around in a

1228
00:53:53,250 --> 00:53:51,130
matter of a week and continued to

1229
00:53:55,290 --> 00:53:53,260
continue to break it down followed up

1230
00:53:57,360 --> 00:53:55,300
with it what I consider pretty decent

1231
00:53:59,640 --> 00:53:57,370
journalism I understand that this is

1232
00:54:02,160 --> 00:53:59,650
sensational pile up that you have and

1233
00:54:04,130 --> 00:54:02,170
you're gonna release that info but I the

1234
00:54:06,300 --> 00:54:04,140
two of them don't stand side-by-side

1235
00:54:08,900 --> 00:54:06,310
telling me that you have classified

1236
00:54:11,160 --> 00:54:08,910
information on the front part of a video

1237
00:54:12,900 --> 00:54:11,170
classified information in the other part

1238
00:54:14,640 --> 00:54:12,910

and then you have the commander that was

1239

00:54:16,640 --> 00:54:14,650

flying the aircraft on all the amazing

1240

00:54:19,710 --> 00:54:16,650

news network and then he disappears

1241

00:54:23,550 --> 00:54:19,720

doesn't add up to me there's something

1242

00:54:25,470 --> 00:54:23,560

that doesn't link up so we're gonna hold

1243

00:54:27,690 --> 00:54:25,480

you on that one okay this is task force

1244

00:54:29,190 --> 00:54:27,700

Griffin on kgr radio KGA comm we're

1245

00:54:31,560 --> 00:54:29,200

talking to the greatest audience on the

1246

00:54:33,270 --> 00:54:31,570

planet and we're very lucky to have one

1247

00:54:35,370 --> 00:54:33,280

of the greatest podcasters on the planet

1248

00:54:39,540 --> 00:54:35,380

Martin Wilson will be back about three

1249

00:54:41,000 --> 00:54:39,550

minutes please stand by clear command I

1250

00:54:43,440 --> 00:54:41,010

don't know if you got my message

1251

00:54:45,810 --> 00:54:43,450

regarding Mark Dantonio he would like to

1252

00:54:46,770 --> 00:54:45,820

join the show for the final segment to

1253

00:54:50,820 --> 00:54:46,780

speak with both of you

1254

00:54:52,230 --> 00:54:50,830

oh okay awesome now where'd you send

1255

00:54:55,620 --> 00:54:52,240

that bill cuz I didn't see it come in I

1256

00:54:57,960 --> 00:54:55,630

sent it to you individually mmm okay

1257

00:54:59,220 --> 00:54:57,970

that's yeah I didn't want to confuse the

1258

00:55:01,680 --> 00:54:59,230

conversation I was going on with you

1259

00:55:02,190 --> 00:55:01,690

guys so we got three minutes three

1260

00:55:05,400 --> 00:55:02,200

minutes

1261

00:55:07,650 --> 00:55:05,410

Oh excellent all right I'm gonna look

1262

00:55:10,870 --> 00:55:07,660

through the chat room again and see if

1263

00:55:12,800 --> 00:55:10,880

we have anything here for questions

1264

00:55:15,320 --> 00:55:12,810

[Music]

1265

00:55:19,050 --> 00:55:15,330

let's see

1266

00:55:22,080 --> 00:55:19,060

interesting what your I have a moderator

1267

00:55:28,410 --> 00:55:22,090

on there that deleted something so there

1268

00:55:34,710 --> 00:55:28,420

was something going on there oh yeah

1269

00:55:36,000 --> 00:55:34,720

they want to know have you saw a witness

1270

00:55:38,940 --> 00:55:36,010

anything you already talked about that

1271

00:55:40,440 --> 00:55:38,950

oh oh I'm sorry wait a minute were you

1272

00:55:45,720 --> 00:55:40,450

ever briefed in two

1273

00:55:51,540 --> 00:55:45,730

secret programs now you answer that

1274

00:55:52,290 --> 00:55:51,550

Martin a tell you want no I haven't been

1275

00:55:53,849 --> 00:55:52,300

I think

1276

00:55:56,069 --> 00:55:53,859

obviously not know is that someone on

1277

00:55:58,290 --> 00:55:56,079

York on your side of your podcast yeah

1278

00:56:01,920 --> 00:55:58,300

they're asking asking if you were ever

1279

00:56:04,710 --> 00:56:01,930

briefed in I understand or vole so yes

1280

00:56:07,770 --> 00:56:04,720

so why we're waiting there's quite a few

1281

00:56:11,370 --> 00:56:07,780

I did carry a top secret clearance it's

1282

00:56:16,310 --> 00:56:11,380

not active anymore it's because I'm

1283

00:56:21,510 --> 00:56:20,190

much of the very sensitive especially

1284

00:56:23,760 --> 00:56:21,520

when you were moving troops when I was

1285

00:56:27,240 --> 00:56:23,770

working in places like Kosovo and Iraq

1286

00:56:30,060 --> 00:56:27,250

you had to be very careful how you were

1287

00:56:32,040 --> 00:56:30,070

right into programs and pieces because

1288

00:56:34,740 --> 00:56:32,050

of other components that were going on

1289

00:56:36,150 --> 00:56:34,750

around that what people think and I'm

1290

00:56:38,250 --> 00:56:36,160

pretty sure what the question is driving

1291

00:56:39,990 --> 00:56:38,260

at a lot of people think is you have a

1292

00:56:42,870 --> 00:56:40,000

clearance that you can go and look and

1293

00:56:46,520 --> 00:56:42,880

see things no it does not how it works

1294

00:56:49,829 --> 00:56:46,530

and there's a very strong part of

1295

00:56:51,420 --> 00:56:49,839

keeping things in compartments or a

1296

00:56:54,720 --> 00:56:51,430

need-to-know as it's sometimes referred

1297

00:56:56,460 --> 00:56:54,730

to in the movies and television that you

1298

00:56:59,790 --> 00:56:56,470

have to be part of a project to go do

1299

00:57:02,640 --> 00:56:59,800

that I try to explain to a good friend

1300

00:57:08,040 --> 00:57:02,650

of mine that there are probably people

1301
00:57:09,510 --> 00:57:08,050
that are young enlisted that have more

1302
00:57:11,630 --> 00:57:09,520
knowledge and have seen more things

1303
00:57:14,069 --> 00:57:11,640
because of the areas where they were in

1304
00:57:17,220 --> 00:57:14,079
and how they were handling large amounts

1305
00:57:20,520 --> 00:57:17,230
of information than many the rest of us

1306
00:57:22,290 --> 00:57:20,530
that you know held higher position or

1307
00:57:24,120 --> 00:57:22,300
higher rank it's just it's a matter of

1308
00:57:27,900 --> 00:57:24,130
where you're at but yes yep that all

1309
00:57:29,760 --> 00:57:27,910
those classified briefs still go every

1310
00:57:31,170 --> 00:57:29,770
now and then to have my currency to make

1311
00:57:35,010 --> 00:57:31,180
sure that I'm doing what I'm supposed to

1312
00:57:36,960 --> 00:57:35,020
and most of my secrets so the things I

1313
00:57:39,720 --> 00:57:36,970

seen were sensitive information

1314

00:57:41,190 --> 00:57:39,730

regarding ops or some kind of capability

1315

00:57:43,079 --> 00:57:41,200

if we're going to build or some way that

1316

00:57:45,990 --> 00:57:43,089

we were actually able to do what we were

1317

00:57:50,030 --> 00:57:46,000

doing work wise alright gentlemen we're

1318

00:58:02,780 --> 00:57:50,040

coming back in about 15 seconds okay

1319

00:58:04,640 --> 00:58:02,790

I in three two one go

1320

00:58:07,010 --> 00:58:04,650

welcome back to task force Griffin on

1321

00:58:09,920 --> 00:58:07,020

kgr radio KGA radio calm my guest

1322

00:58:13,970 --> 00:58:09,930

tonight mr. Martin Willis a fellow

1323

00:58:15,770 --> 00:58:13,980

maniac a connoisseur of Antiquities or

1324

00:58:18,710 --> 00:58:15,780

antique use depending on what part of

1325

00:58:21,350 --> 00:58:18,720

Maine you're in that's right we've been

1326
00:58:25,970 --> 00:58:21,360
moving around the the map here a little

1327
00:58:27,110 --> 00:58:25,980
bit the black triangle sighting I got a

1328
00:58:29,420 --> 00:58:27,120
couple of questions I would need to

1329
00:58:33,110 --> 00:58:29,430
clean up here that I've let slide a

1330
00:58:34,940 --> 00:58:33,120
little bit where your your significant

1331
00:58:36,710 --> 00:58:34,950
other said that she had seen the black

1332
00:58:39,140 --> 00:58:36,720
triangles that was in Maine correct

1333
00:58:41,300 --> 00:58:39,150
that's right it wasn't a black triangle

1334
00:58:43,220 --> 00:58:41,310
all she saw was a triangle formation of

1335
00:58:46,730 --> 00:58:43,230
lights and she said it was right tiny

1336
00:58:50,180 --> 00:58:46,740
and way up high mmm okay and then you

1337
00:58:54,110 --> 00:58:50,190
talked about a triangle vehicle in North

1338
00:58:56,720 --> 00:58:54,120

Carolina one of our listeners frequents

1339

00:58:58,220 --> 00:58:56,730

between Maine and North Carolina and she

1340

00:59:00,110 --> 00:58:58,230

was curious where that was did you know

1341

00:59:01,430 --> 00:59:00,120

the location where that was it's the one

1342

00:59:04,310 --> 00:59:01,440

that had the beam of light that came out

1343

00:59:06,170 --> 00:59:04,320

that you were describing right I can

1344

00:59:08,360 --> 00:59:06,180

find that out really quickly actually

1345

00:59:10,780 --> 00:59:08,370

Lee Spiegel is the one who experienced

1346

00:59:14,690 --> 00:59:10,790

that and he's been actually texting me

1347

00:59:17,150 --> 00:59:14,700

so I will when we take a break here I'll

1348

00:59:21,170 --> 00:59:17,160

text him and find out that location if I

1349

00:59:22,640 --> 00:59:21,180

was she wants to hang in I spread on the

1350

00:59:24,620 --> 00:59:22,650

tip of my tongue but I can't think of

1351

00:59:26,870 --> 00:59:24,630

the exact location of where that

1352

00:59:29,240 --> 00:59:26,880

happened and that story goes on there

1353

00:59:32,920 --> 00:59:29,250

was a police officer that and another

1354

00:59:35,300 --> 00:59:32,930

town over that was jumped out of his car

1355

00:59:36,950 --> 00:59:35,310

pulled his flashlight out of his trunk

1356

00:59:38,570 --> 00:59:36,960

and flashed his light at it and the

1357

00:59:42,140 --> 00:59:38,580

thing flashed back at him which is

1358

00:59:46,220 --> 00:59:42,150

pretty bizarre I wouldn't have ever had

1359

00:59:49,100 --> 00:59:46,230

been brave enough to do that well I did

1360

00:59:51,080 --> 00:59:49,110

I had people that would do things like

1361

00:59:53,750 --> 00:59:51,090

that when I was flying helicopters and

1362

00:59:56,780 --> 00:59:53,760

we would flash back as well and people

1363

00:59:58,850 --> 00:59:56,790

get pretty excited in fact I remember we

1364

01:00:00,140 --> 00:59:58,860

had a piece of equipment on one of the

1365

01:00:03,020 --> 01:00:00,150

gyro helicopters I flew that you could

1366

01:00:03,860 --> 01:00:03,030

actually talk on CB radios and I'll just

1367

01:00:06,050 --> 01:00:03,870

take this quick

1368

01:00:09,460 --> 01:00:06,060

we're out in the out in the West Was in

1369

01:00:13,100 --> 01:00:09,470

New Mexico and we started talking and

1370

01:00:15,410 --> 01:00:13,110

those when CB was the height of its it

1371

01:00:19,220 --> 01:00:15,420

was at its zenith of its cultural

1372

01:00:21,350 --> 01:00:19,230

implications and this guy didn't believe

1373

01:00:25,400 --> 01:00:21,360

he's if I'm talking to the big

1374

01:00:27,830 --> 01:00:25,410

helicopter that's fine along i-10 fly

1375

01:00:29,960 --> 01:00:27,840

over to the other side of the highway

1376

01:00:31,250 --> 01:00:29,970

swap sides to the highway so we flew

1377

01:00:33,110 --> 01:00:31,260

over the other side of the highway well

1378

01:00:35,360 --> 01:00:33,120

that was it you know oh my god everybody

1379

01:00:38,180 --> 01:00:35,370

now wanted to talk to the big helicopter

1380

01:00:39,620 --> 01:00:38,190

and one poor helicopter I mean one poor

1381

01:00:43,430 --> 01:00:39,630

truck that we got close to because of

1382

01:00:45,920 --> 01:00:43,440

the kind of power that that system had I

1383

01:00:48,230 --> 01:00:45,930

think it caught his CB radio on fire

1384

01:00:50,360 --> 01:00:48,240

because it was smoking I think it I

1385

01:00:52,550 --> 01:00:50,370

think it over probably because of the

1386

01:00:54,050 --> 01:00:52,560

amount of wattage that that because it

1387

01:00:56,450 --> 01:00:54,060

was designed to work on the battlefield

1388

01:00:58,730 --> 01:00:56,460

and when you wondered those frequency

1389

01:01:00,950 --> 01:00:58,740

ranges so we stopped doing that after

1390

01:01:02,780 --> 01:01:00,960

that you know more community engagement

1391

01:01:04,520 --> 01:01:02,790

that way that's not that wasn't good

1392

01:01:06,410 --> 01:01:04,530

cricket back in the day but it was a lot

1393

01:01:07,760 --> 01:01:06,420

of fun I'll never forget the enthusiasm

1394

01:01:09,460 --> 01:01:07,770

they voice when they could not believe

1395

01:01:11,840 --> 01:01:09,470

that we switched over to the other side

1396

01:01:13,670 --> 01:01:11,850

and I've had kids shoot bottle rockets

1397

01:01:16,190 --> 01:01:13,680

at the helicopter and I chased them

1398

01:01:19,460 --> 01:01:16,200

around with the helicopter you know can

1399

01:01:21,260 --> 01:01:19,470

only imagine the stories later on what I

1400

01:01:22,970 --> 01:01:21,270

digress of Glaser

1401

01:01:27,410 --> 01:01:22,980

well now the the thing that's really

1402

01:01:30,080 --> 01:01:27,420

dangerous is the laser pointers yeah I I

1403

01:01:31,820 --> 01:01:30,090

was zapped many an evening in Iraq with

1404

01:01:33,110 --> 01:01:31,830

lasers and of course the thing you're

1405

01:01:34,550 --> 01:01:33,120

always wondering there is is is it

1406

01:01:35,600 --> 01:01:34,560

actually connected to a weapon or are

1407

01:01:37,010 --> 01:01:35,610

they just trying to get you in the ice

1408

01:01:40,670 --> 01:01:37,020

Wow

1409

01:01:42,170 --> 01:01:40,680

well that's scary you know along the

1410

01:01:45,590 --> 01:01:42,180

same lines I don't know have you ever

1411

01:01:48,080 --> 01:01:45,600

heard of the Fothergill case it sounds

1412

01:01:51,530 --> 01:01:48,090

familiar but I'm not recalling the exact

1413

01:01:56,330 --> 01:01:51,540

figures yeah that was back in 1962 and

1414

01:01:59,030 --> 01:01:56,340

it was God I came remember exactly where

1415

01:02:02,320 --> 01:01:59,040

it was I wanted to say but Zimbabwe but

1416

01:02:06,980 --> 01:02:02,330

it wasn't it was mm-hmm

1417

01:02:09,470 --> 01:02:06,990

anyway he was outside they were outside

1418

01:02:11,660 --> 01:02:09,480

and they saw these first I think they

1419

01:02:13,670 --> 01:02:11,670

saw four crafts look like one was

1420

01:02:16,880 --> 01:02:13,680

repairing another one and they kept

1421

01:02:19,999 --> 01:02:16,890

seeing this craft wood

1422

01:02:22,400 --> 01:02:20,009

and one night they were outside and

1423

01:02:26,720 --> 01:02:22,410

there it was and there was actually look

1424

01:02:31,729 --> 01:02:26,730

like beings on top of the craft and so

1425

01:02:34,249 --> 01:02:31,739

the they waved they waved at him in the

1426

01:02:37,309 --> 01:02:34,259

the beings whatever they were waved back

1427

01:02:40,910 --> 01:02:37,319

this is all according to Fothergill a

1428

01:02:42,829 --> 01:02:40,920

and J Allen Hynek from Project Blue Book

1429

01:02:44,989 --> 01:02:42,839

looked into that case and thought there

1430

01:02:47,749 --> 01:02:44,999

was really something there was they also

1431

01:02:49,460 --> 01:02:47,759

had a situation with the flashlight one

1432

01:02:52,579 --> 01:02:49,470

of them took a flashlight they called it

1433

01:02:54,349 --> 01:02:52,589

a torch I guess in and moved it back and

1434

01:02:58,160 --> 01:02:54,359

forth and the craft moved back and forth

1435

01:03:01,720 --> 01:02:58,170

which was pretty bizarre and exciting

1436

01:03:06,200 --> 01:03:01,730

yeah yes it's a pretty interesting case

1437

01:03:07,910 --> 01:03:06,210

so let's let me ask you a couple cases

1438

01:03:10,700 --> 01:03:07,920

that I think always seem to make our

1439

01:03:14,470 --> 01:03:10,710

turns give me your thoughts on the

1440

01:03:18,440 --> 01:03:14,480

Rendlesham Woodbridge airbase England

1441

01:03:22,670 --> 01:03:18,450

that famous involvement there well I

1442

01:03:27,229 --> 01:03:22,680

consider that my own personal in the top

1443

01:03:29,329 --> 01:03:27,239

five of UFO encounters myself I've

1444

01:03:32,180 --> 01:03:29,339

talked to a number of people that were

1445

01:03:34,609 --> 01:03:32,190

involved that were there Charles halt I

1446

01:03:38,269 --> 01:03:34,619

talked to him now and then I had him on

1447

01:03:40,970 --> 01:03:38,279

my show a number of times and I think

1448

01:03:44,329 --> 01:03:40,980

it's a legit case and if anyone's ever

1449

01:03:47,319 --> 01:03:44,339

listened to the audio recording that he

1450

01:03:50,479 --> 01:03:47,329

made you know during the encounter

1451

01:03:52,460 --> 01:03:50,489

there's a long version of that mmm

1452

01:03:53,809 --> 01:03:52,470

he didn't even know I remember he told

1453

01:03:56,769 --> 01:03:53,819

me he didn't even know how that actually

1454

01:04:00,440 --> 01:03:56,779

got out online when it first did but

1455

01:04:03,849 --> 01:04:00,450

that whole case I think you know there's

1456

01:04:06,620 --> 01:04:03,859

a lot of controversy there's some

1457

01:04:09,440 --> 01:04:06,630

there's a little bit of you know

1458

01:04:11,799 --> 01:04:09,450

convoluted tales between the different

1459

01:04:14,779 --> 01:04:11,809

people there there was some friction

1460

01:04:19,670 --> 01:04:14,789

Larry Mullen has kind of pushed out of

1461

01:04:22,519 --> 01:04:19,680

the topic a little bit right now Peter

1462

01:04:25,009 --> 01:04:22,529

Robinson Larry Warren did the book the

1463

01:04:28,970 --> 01:04:25,019

left at Eastgate I believe that's called

1464

01:04:29,990 --> 01:04:28,980

that and so there was there were some

1465

01:04:32,570 --> 01:04:30,000

issues

1466

01:04:35,780 --> 01:04:32,580

going on with that but overall that case

1467

01:04:39,710 --> 01:04:35,790

is amazing amazing happened in 1980 over

1468

01:04:40,520 --> 01:04:39,720

a period of a few days and you know when

1469

01:04:43,460 --> 01:04:40,530

I've talked to

1470

01:04:46,520 --> 01:04:43,470

I've sat and you know just had a

1471

01:04:49,010 --> 01:04:46,530

discussion with Charles had about you

1472

01:04:51,020 --> 01:04:49,020

know what he saw and the way the craft

1473

01:04:54,410 --> 01:04:51,030

looked like an eyeball sort of like

1474

01:04:56,210 --> 01:04:54,420

dripping mult multi through the wood you

1475

01:04:58,550 --> 01:04:56,220

know kind of going zigzagging between

1476

01:05:01,190 --> 01:04:58,560

the trees and then it bursts into five

1477

01:05:04,490 --> 01:05:01,200

lights I mean I love those bizarre

1478

01:05:06,890 --> 01:05:04,500

stories and I've heard I actually gonna

1479

01:05:08,480 --> 01:05:06,900

have someone on my show that I was in a

1480

01:05:10,940 --> 01:05:08,490

hotel last week I'll just say this

1481

01:05:12,590 --> 01:05:10,950

briefly and I was filling out paperwork

1482

01:05:15,260 --> 01:05:12,600

and I'm here to be brief we got plenty

1483

01:05:16,670 --> 01:05:15,270

of time I know but I'm gonna have her on

1484

01:05:19,610 --> 01:05:16,680

my show so I don't want to spoil it for

1485

01:05:21,920 --> 01:05:19,620

Milo okay so much but it's a long list

1486

01:05:23,690 --> 01:05:21,930

you know she saw a very similar thing

1487

01:05:25,970 --> 01:05:23,700

I'm gonna actually call her during my

1488

01:05:28,040 --> 01:05:25,980

show and have her tell her story because

1489

01:05:29,930 --> 01:05:28,050

I love to hear stories of people that

1490

01:05:33,200 --> 01:05:29,940

don't really have an interest in UFOs

1491

01:05:34,700 --> 01:05:33,210

but something happened and you know when

1492

01:05:37,910 --> 01:05:34,710

I've talked to Charles halt

1493

01:05:38,690 --> 01:05:37,920

about that he'll say you know I wish it

1494

01:05:40,940 --> 01:05:38,700

never happened

1495

01:05:42,710 --> 01:05:40,950

I wish it was not part of my life it's

1496

01:05:44,840 --> 01:05:42,720

it's caused me more grief than anything

1497

01:05:49,840 --> 01:05:44,850

else and I believe him I think he really

1498

01:05:53,630 --> 01:05:49,850

feels that way very well I will tell

1499

01:05:55,370 --> 01:05:53,640

listeners that know my show to check out

1500

01:05:59,420 --> 01:05:55,380

a couple of those pieces with Ross

1501
01:06:02,210 --> 01:05:59,430
Sharpe who was a RAF officer and a aero

1502
01:06:04,250 --> 01:06:02,220
engineer in the Aria retired from the

1503
01:06:07,370 --> 01:06:04,260
Royal Air Force and he has a very

1504
01:06:10,010 --> 01:06:07,380
interesting take on just the background

1505
01:06:12,380 --> 01:06:10,020
behind the physical area of the

1506
01:06:15,470 --> 01:06:12,390
Rendlesham forest that part of England

1507
01:06:17,240 --> 01:06:15,480
the bases the underground facilities

1508
01:06:19,310 --> 01:06:17,250
that are there the extensive underground

1509
01:06:20,540 --> 01:06:19,320
facilities though they're very

1510
01:06:22,490 --> 01:06:20,550
interesting take from someone who's

1511
01:06:23,870 --> 01:06:22,500
originally from England now lives in the

1512
01:06:26,090 --> 01:06:23,880
state's very good friend very good

1513
01:06:28,010 --> 01:06:26,100

friend of the show so there's some

1514

01:06:30,820 --> 01:06:28,020

interesting parts and pieces to that I

1515

01:06:33,020 --> 01:06:30,830

will also note that when mr. lair was on

1516

01:06:36,740 --> 01:06:33,030

the show

1517

01:06:40,040 --> 01:06:36,750

that is the event that made him a

1518

01:06:42,530 --> 01:06:40,050

believer because he had a friend that

1519

01:06:43,880 --> 01:06:42,540

someone he knew eight-ten pilot that was

1520

01:06:45,829 --> 01:06:43,890

stationed in Bentwaters

1521

01:06:48,170 --> 01:06:45,839

which is the other connecting area the

1522

01:06:50,750 --> 01:06:48,180

other connecting base in that area who

1523

01:06:52,549 --> 01:06:50,760

relead to bill all the activity that was

1524

01:06:55,069 --> 01:06:52,559

going on in the lockdown that they were

1525

01:06:56,660 --> 01:06:55,079

in and the night you know the three or

1526

01:07:00,049 --> 01:06:56,670

so nights that they were going through

1527

01:07:02,799 --> 01:07:00,059

these different activity levels and John

1528

01:07:05,000 --> 01:07:02,809

just knew that this this man was as

1529

01:07:07,309 --> 01:07:05,010

straight as a came there was just no

1530

01:07:11,150 --> 01:07:07,319

reason for him to be interested and when

1531

01:07:13,880 --> 01:07:11,160

he brought these facts out and told him

1532

01:07:17,740 --> 01:07:13,890

he was he was intrigued and that's what

1533

01:07:21,700 --> 01:07:17,750

sent him on the path that he's on in UFO

1534

01:07:23,690 --> 01:07:21,710

discovery and research on his part

1535

01:07:26,960 --> 01:07:23,700

interesting case

1536

01:07:29,500 --> 01:07:26,970

I've had the Ramseys on a number of

1537

01:07:32,559 --> 01:07:29,510

times they're connected with the Aztec

1538

01:07:35,630 --> 01:07:32,569

UFO I think is probably the the best

1539

01:07:37,940 --> 01:07:35,640

researched UFO event in the United

1540

01:07:40,339 --> 01:07:37,950

States I think their work is bar none

1541

01:07:43,339 --> 01:07:40,349

the best that's out there what's your

1542

01:07:47,539 --> 01:07:43,349

take on their research and on that

1543

01:07:50,779 --> 01:07:47,549

particular incident actually you know

1544

01:07:53,049 --> 01:07:50,789

I've kind of on the fence on that one

1545

01:07:57,549 --> 01:07:53,059

only because I've heard a number of

1546

01:08:00,710 --> 01:07:57,559

people stating that they think that

1547

01:08:02,089 --> 01:08:00,720

basically it's a hoax so I don't know

1548

01:08:05,210 --> 01:08:02,099

you know

1549

01:08:07,009 --> 01:08:05,220

I know that they have done a lot of you

1550

01:08:10,370 --> 01:08:07,019

know in-depth research but I just don't

1551

01:08:12,859 --> 01:08:10,380

know how accurate it is and I I

1552

01:08:16,039 --> 01:08:12,869

don't want to make enemies on this show

1553

01:08:18,079 --> 01:08:16,049

or enemies of Friends of your show but

1554

01:08:21,019 --> 01:08:18,089

I've heard some mixed you know a lot of

1555

01:08:22,640 --> 01:08:21,029

mixed stories on that particular case

1556

01:08:24,769 --> 01:08:22,650

and I don't really know what to believe

1557

01:08:28,729 --> 01:08:24,779

there are a number there are a few cases

1558

01:08:33,620 --> 01:08:28,739

out there that I that I have felt that

1559

01:08:36,950 --> 01:08:33,630

way about you know and how about the our

1560

01:08:40,849 --> 01:08:36,960

most famous of the UFO cases Roswell

1561

01:08:43,399 --> 01:08:40,859

that always seems to come up I think

1562

01:08:45,800 --> 01:08:43,409

that something happened there there's a

1563

01:08:48,289 --> 01:08:45,810

I don't know exactly what happened I

1564

01:08:50,059 --> 01:08:48,299

know there's a I've talked to Mac

1565

01:08:51,269 --> 01:08:50,069

Maloney and he says he doesn't think

1566

01:08:53,220 --> 01:08:51,279

anything happened there other

1567

01:08:54,689 --> 01:08:53,230

then you know what the Air Force is

1568

01:08:58,410 --> 01:08:54,699

saying but you know the Air Force did

1569

01:09:02,309 --> 01:08:58,420

lie five times on on what actually

1570

01:09:04,229 --> 01:09:02,319

happened you know it's it's possible it

1571

01:09:05,720 --> 01:09:04,239

is possible it could have been something

1572

01:09:10,140 --> 01:09:05,730

like the Mogul

1573

01:09:13,709 --> 01:09:10,150

that they said it was but I think

1574

01:09:17,339 --> 01:09:13,719

there's there's just too much smoke

1575

01:09:22,109 --> 01:09:17,349

there to say that it was just you know a

1576

01:09:23,459 --> 01:09:22,119

military operation because for one thing

1577

01:09:25,740 --> 01:09:23,469

you know a lot of people have made the

1578

01:09:29,490 --> 01:09:25,750

argument that everything that they used

1579

01:09:33,299 --> 01:09:29,500

in those mogul balloons was you know

1580

01:09:35,129 --> 01:09:33,309

unclassified and nothing unusual you

1581

01:09:37,379 --> 01:09:35,139

know whether it's a string of balloons

1582

01:09:40,740 --> 01:09:37,389

it would make the total difference I

1583

01:09:42,539 --> 01:09:40,750

don't know but I think something

1584

01:09:45,599 --> 01:09:42,549

happened in the question I always ask

1585

01:09:48,169 --> 01:09:45,609

people that are totally skeptic of it is

1586

01:09:52,379 --> 01:09:48,179

why on earth would the Air Force ever

1587

01:09:54,959 --> 01:09:52,389

release for the newspapers that they

1588

01:09:57,750 --> 01:09:54,969

found a disc in the first place

1589

01:09:59,669 --> 01:09:57,760

I mean it's very simple like if they

1590

01:10:02,399 --> 01:09:59,679

didn't find one or if it was something

1591

01:10:05,010 --> 01:10:02,409

else to say absolutely nothing why did

1592

01:10:09,600 --> 01:10:05,020

they have the press release that they

1593

01:10:10,830 --> 01:10:09,610

had found a disc there or a craft at all

1594

01:10:12,510 --> 01:10:10,840

why would they do that

1595

01:10:17,549 --> 01:10:12,520

and what's your thoughts on that

1596

01:10:20,129 --> 01:10:17,559

particularly I am a believer on the

1597

01:10:22,049 --> 01:10:20,139

Aztek because of the the level of

1598

01:10:25,680 --> 01:10:22,059

research that has been done by the

1599

01:10:29,069 --> 01:10:25,690

Ramseys and dr. Thayer I'm convinced of

1600

01:10:32,100 --> 01:10:29,079

its legitimacy that's the vehicle did

1601
01:10:34,160 --> 01:10:32,110
crash there there's too many parts and

1602
01:10:37,649 --> 01:10:34,170
pieces that when you look at their

1603
01:10:41,879 --> 01:10:37,659
extensive I mean they have laid out a

1604
01:10:45,390 --> 01:10:41,889
case of legal type findings and in fact

1605
01:10:48,240 --> 01:10:45,400
and they keep opinion out of it the

1606
01:10:50,339 --> 01:10:48,250
Roswell thing I tend to follow into max

1607
01:10:55,709 --> 01:10:50,349
camp that there's a lot of stuff that's

1608
01:10:58,560 --> 01:10:55,719
there and I'm wondering if if they had a

1609
01:11:01,140 --> 01:10:58,570
set pad the three balloons together I

1610
01:11:03,930 --> 01:11:01,150
find interesting because of the

1611
01:11:05,040 --> 01:11:03,940
possibility of it being a surveillance

1612
01:11:07,380 --> 01:11:05,050
or a weapon system

1613
01:11:10,140 --> 01:11:07,390

as the Cold War is just starting up the

1614

01:11:12,900 --> 01:11:10,150

Japanese sailed numbers of balloons out

1615

01:11:15,440 --> 01:11:12,910

of Japan trying to start fires and they

1616

01:11:18,240 --> 01:11:15,450

were prepared to put biological agents

1617

01:11:20,700 --> 01:11:18,250

into the entity of the mainland the

1618

01:11:23,160 --> 01:11:20,710

United States and Canada by bullying

1619

01:11:25,110 --> 01:11:23,170

delivery they were they were ready to do

1620

01:11:28,650 --> 01:11:25,120

that they had tried and there's a couple

1621

01:11:30,690 --> 01:11:28,660

small cases where there was the belief

1622

01:11:34,050 --> 01:11:30,700

school teacher was killed when students

1623

01:11:35,580 --> 01:11:34,060

on a field trip in Oregon found one of

1624

01:11:38,190 --> 01:11:35,590

the balloons a head crash that had the

1625

01:11:40,740 --> 01:11:38,200

incendiary devices to to set the woods

1626

01:11:44,160 --> 01:11:40,750

on fire and I've seen that activity

1627

01:11:46,710 --> 01:11:44,170

that's come up in other ways like it so

1628

01:11:51,480 --> 01:11:46,720

the part about the disc doesn't fit real

1629

01:11:53,880 --> 01:11:51,490

well but I have been in enough just kind

1630

01:11:57,030 --> 01:11:53,890

of day-to-day operations where there has

1631

01:11:59,700 --> 01:11:57,040

been a mishap and the way that

1632

01:12:05,250 --> 01:11:59,710

information gets transmitted and passed

1633

01:12:08,430 --> 01:12:05,260

initially things will get that screwed

1634

01:12:12,030 --> 01:12:08,440

up I mean you'll have people that are

1635

01:12:16,200 --> 01:12:12,040

reported as as killed when they're not

1636

01:12:18,330 --> 01:12:16,210

you'll have just a grievous amount of

1637

01:12:20,010 --> 01:12:18,340

damage when it's not that way and vice

1638

01:12:22,650 --> 01:12:20,020

versa where you don't think anything bad

1639

01:12:25,830 --> 01:12:22,660

has happened so I can understand the

1640

01:12:28,830 --> 01:12:25,840

confusion on that I tend to have a l

1641

01:12:31,440 --> 01:12:28,840

guess a more sinister or a sneaky

1642

01:12:33,360 --> 01:12:31,450

suspicion that somebody pretty early on

1643

01:12:35,760 --> 01:12:33,370

realized because of everything that

1644

01:12:41,100 --> 01:12:35,770

happened under the development of the

1645

01:12:43,320 --> 01:12:41,110

atomic bomb the the fallout no pun

1646

01:12:45,000 --> 01:12:43,330

intended it really wasn't an intended

1647

01:12:46,680 --> 01:12:45,010

part of it but from that program the

1648

01:12:48,720 --> 01:12:46,690

amount of secrecy the amount of people

1649

01:12:51,360 --> 01:12:48,730

that were involved and all the other

1650

01:12:53,970 --> 01:12:51,370

activities that were going on around at

1651
01:12:55,740 --> 01:12:53,980
that same time in that area of Roswell

1652
01:12:59,070 --> 01:12:55,750
in that particular part of the region in

1653
01:13:03,060 --> 01:12:59,080
the United States so I think that there

1654
01:13:04,800 --> 01:13:03,070
is good case for to go through it and I

1655
01:13:08,040 --> 01:13:04,810
think it also was a very telling case

1656
01:13:10,970 --> 01:13:08,050
that the government the Air Force

1657
01:13:14,100 --> 01:13:10,980
learned very quickly that the press

1658
01:13:15,900 --> 01:13:14,110
could be a very useful tool for

1659
01:13:18,390 --> 01:13:15,910
disinformation and I think it's a very

1660
01:13:19,029 --> 01:13:18,400
good case of disinformation and how that

1661
01:13:24,279 --> 01:13:19,039
went

1662
01:13:26,500 --> 01:13:24,289
I could see I understand where you're

1663
01:13:28,930 --> 01:13:26,510

going with that one of the questions

1664

01:13:31,120 --> 01:13:28,940

were that came up that the Air Force

1665

01:13:33,819 --> 01:13:31,130

lied about and it was a very obvious lie

1666

01:13:36,430 --> 01:13:33,829

was that there were a number of people

1667

01:13:41,439 --> 01:13:36,440

that say they witnessed bodies small

1668

01:13:46,000 --> 01:13:41,449

bodies right and then the Air Force came

1669

01:13:48,069 --> 01:13:46,010

out with they thought it was that there

1670

01:13:51,490 --> 01:13:48,079

were crash-test dummies that were

1671

01:13:53,410 --> 01:13:51,500

actually you know parachuted and that

1672

01:13:56,379 --> 01:13:53,420

didn't hold water because they didn't

1673

01:13:59,470 --> 01:13:56,389

start using them until 1952 so that was

1674

01:14:03,250 --> 01:13:59,480

a another lie and they're just just the

1675

01:14:05,259 --> 01:14:03,260

fact that there was lies from the Air

1676

01:14:06,640 --> 01:14:05,269

Force about what was going on I

1677

01:14:08,680 --> 01:14:06,650

understand what you're saying

1678

01:14:11,229 --> 01:14:08,690

maybe they cover it up that way but

1679

01:14:13,330 --> 01:14:11,239

still when it comes to you know people

1680

01:14:17,229 --> 01:14:13,340

stating that they saw you know figures

1681

01:14:19,899 --> 01:14:17,239

in the desert and you know some there

1682

01:14:21,609 --> 01:14:19,909

was I think some saying that one was

1683

01:14:25,750 --> 01:14:21,619

alive you know that type of thing

1684

01:14:27,640 --> 01:14:25,760

you know I don't know the one thing I

1685

01:14:30,850 --> 01:14:27,650

think about Roswell I think is

1686

01:14:33,100 --> 01:14:30,860

interesting about Roswell is that it's

1687

01:14:37,810 --> 01:14:33,110

becoming almost like a myth and it has

1688

01:14:41,350 --> 01:14:37,820

to do with as time goes on there's so

1689

01:14:44,680 --> 01:14:41,360

much you know there's the annual event

1690

01:14:47,049 --> 01:14:44,690

and there's you know people really like

1691

01:14:49,060 --> 01:14:47,059

dressing in costumes and it's getting

1692

01:14:51,399 --> 01:14:49,070

you know out there with the tinfoil hats

1693

01:14:55,240 --> 01:14:51,409

and I think it's kind of all muddied up

1694

01:14:58,180 --> 01:14:55,250

and eventually is going to just be

1695

01:15:00,609 --> 01:14:58,190

something celebrated and no one will

1696

01:15:02,379 --> 01:15:00,619

even have any answers because all the

1697

01:15:06,160 --> 01:15:02,389

people that were involved all the

1698

01:15:07,560 --> 01:15:06,170

witnesses now are either dead or there's

1699

01:15:10,859 --> 01:15:07,570

only I think there's only a couple left

1700

01:15:13,990 --> 01:15:10,869

that actually claim they saw something

1701
01:15:17,799 --> 01:15:14,000
which I know you know Stan Freedman

1702
01:15:20,529 --> 01:15:17,809
started and then Don Schmidt and Kerry

1703
01:15:22,180 --> 01:15:20,539
we're doing you know interviews with

1704
01:15:25,049 --> 01:15:22,190
people that claimed they witnessed

1705
01:15:30,040 --> 01:15:25,059
things I think it's an interesting case

1706
01:15:32,259 --> 01:15:30,050
it's certainly it's not resolved and I

1707
01:15:32,860 --> 01:15:32,269
you know I sort of have mixed feelings

1708
01:15:35,020 --> 01:15:32,870
about a

1709
01:15:36,460 --> 01:15:35,030
I think something happened and I'm not

1710
01:15:38,350 --> 01:15:36,470
sure if what you're talking about is

1711
01:15:44,560 --> 01:15:38,360
what the answer is or not I really don't

1712
01:15:47,350 --> 01:15:44,570
know turning towards New England the

1713
01:15:50,260 --> 01:15:47,360

hills what do you think of their case I

1714

01:15:51,970 --> 01:15:50,270

think it's very interesting before we go

1715

01:15:55,660 --> 01:15:51,980

there just quickly for your listener

1716

01:15:58,240 --> 01:15:55,670

that was in North Carolina that Lee text

1717

01:16:00,550 --> 01:15:58,250

me that location of that town was

1718

01:16:02,230 --> 01:16:00,560

Lumberton Lumberton North Carolina

1719

01:16:05,920 --> 01:16:02,240

that's where they threw there many times

1720

01:16:08,440 --> 01:16:05,930

Oh have you uh-huh oh yeah the Betty and

1721

01:16:10,600 --> 01:16:08,450

Barney Hill case I think is pretty

1722

01:16:14,460 --> 01:16:10,610

interesting I know of the niece Kathy

1723

01:16:20,170 --> 01:16:14,470

Martin fairly well we talked a bit in

1724

01:16:22,180 --> 01:16:20,180

very nice lady I think that oh and by

1725

01:16:25,180 --> 01:16:22,190

the way the last time I had her on my

1726

01:16:27,100 --> 01:16:25,190

show she actually broke down she was

1727

01:16:29,440 --> 01:16:27,110

upset that she broke down on camera

1728

01:16:33,070 --> 01:16:29,450

actually out in Phoenix when I had her

1729

01:16:36,340 --> 01:16:33,080

on the show because of what Betty and

1730

01:16:40,030 --> 01:16:36,350

Barney had gone through it was very

1731

01:16:42,400 --> 01:16:40,040

traumatic for them and it was very sad

1732

01:16:44,650 --> 01:16:42,410

and they just didn't know where to turn

1733

01:16:48,010 --> 01:16:44,660

once the story got out they didn't leak

1734

01:16:49,840 --> 01:16:48,020

the story the story got out and they had

1735

01:16:51,390 --> 01:16:49,850

to decide she said she was right there

1736

01:16:54,280 --> 01:16:51,400

when they made the decision to either

1737

01:16:56,980 --> 01:16:54,290

you know run forward or face it and they

1738

01:17:01,120 --> 01:16:56,990

decided to face it and that really was

1739

01:17:02,500 --> 01:17:01,130

very emotional time and you know really

1740

01:17:04,450 --> 01:17:02,510

upset Kathie to think about their

1741

01:17:07,540 --> 01:17:04,460

situation at the time they did go

1742

01:17:10,420 --> 01:17:07,550

through a lot of grief that case I know

1743

01:17:13,870 --> 01:17:10,430

I a lot of people or some people think

1744

01:17:15,280 --> 01:17:13,880

that it never happened or that you know

1745

01:17:18,190 --> 01:17:15,290

something happened and they saw the

1746

01:17:19,660 --> 01:17:18,200

light up on the mountain instead they

1747

01:17:21,630 --> 01:17:19,670

saw the jack-o'-lantern at the

1748

01:17:24,280 --> 01:17:21,640

jack-o'-lantern restaurant instead of

1749

01:17:25,900 --> 01:17:24,290

you know a craft there's a lot of people

1750

01:17:28,060 --> 01:17:25,910

you know trying to put holes in it I

1751

01:17:30,310 --> 01:17:28,070

think it's I think something happened

1752

01:17:34,420 --> 01:17:30,320

along with you know some other cases

1753

01:17:36,670 --> 01:17:34,430

that are you know really you know

1754

01:17:39,910 --> 01:17:36,680

well-known they seem like they're out

1755

01:17:41,980 --> 01:17:39,920

there for instance the allagash case I

1756

01:17:43,180 --> 01:17:41,990

think something really happened there -

1757

01:17:44,580 --> 01:17:43,190

I don't know if you've looked into that

1758

01:17:46,890 --> 01:17:44,590

yourself but

1759

01:17:52,710 --> 01:17:46,900

that is quite agreed on the allagash

1760

01:17:54,840 --> 01:17:52,720

case there's enough there my you made a

1761

01:17:56,580 --> 01:17:54,850

remark about the tinfoil hat so a a

1762

01:17:58,470 --> 01:17:56,590

little bit tongue-in-cheek as I say this

1763

01:18:05,490 --> 01:17:58,480

but there's nothing wrong with putting

1764

01:18:07,140 --> 01:18:05,500

tinfoil in your hat and some of the best

1765

01:18:09,620 --> 01:18:07,150

teachers I've had some of the best

1766

01:18:12,810 --> 01:18:09,630

sources of information some of the most

1767

01:18:16,230 --> 01:18:12,820

candid people I've been with have been

1768

01:18:20,640 --> 01:18:16,240

the least formally educated folks that

1769

01:18:22,680 --> 01:18:20,650

you can imagine so I understand what

1770

01:18:26,580 --> 01:18:22,690

what the remark means and I and I do

1771

01:18:27,660 --> 01:18:26,590

laugh with it because it's it's part of

1772

01:18:30,270 --> 01:18:27,670

our culture and it's part of the

1773

01:18:31,860 --> 01:18:30,280

phenomena that goes on with that but

1774

01:18:33,510 --> 01:18:31,870

it's sort of like that expression

1775

01:18:35,880 --> 01:18:33,520

just because you are paranoid doesn't

1776

01:18:38,670 --> 01:18:35,890

mean they're not after you okay there is

1777

01:18:40,080 --> 01:18:38,680

you know there is that part of it I'll

1778

01:18:43,110 --> 01:18:40,090

you know allagash yeah there's

1779

01:18:46,440 --> 01:18:43,120

definitely there's just too much that

1780

01:18:49,770 --> 01:18:46,450

happens that I don't understand there

1781

01:18:51,090 --> 01:18:49,780

are I will not go into depth of folks

1782

01:18:54,000 --> 01:18:51,100

that have presented stuff that they've

1783

01:18:56,250 --> 01:18:54,010

talked about and they have nothing to

1784

01:19:00,810 --> 01:18:56,260

substantiate a way to back it up

1785

01:19:02,310 --> 01:19:00,820

I I believe that they believe what

1786

01:19:04,920 --> 01:19:02,320

they're saying I believe that they've

1787

01:19:06,630 --> 01:19:04,930

had some kind of an experience and this

1788

01:19:09,810 --> 01:19:06,640

is what they've connected it to this is

1789

01:19:11,100 --> 01:19:09,820

what they're saying it is so on that

1790

01:19:13,050 --> 01:19:11,110

same line this is the one I want to

1791

01:19:15,730 --> 01:19:13,060

drive to missile Azhar what do you think

1792

01:19:17,100 --> 01:19:15,740

of him and his claims from area 51

1793

01:19:22,400 --> 01:19:17,110

[Music]

1794

01:19:26,100 --> 01:19:22,410

you know the the best part of Bob Lazar

1795

01:19:28,080 --> 01:19:26,110

is George Knapp I know that sounds kind

1796

01:19:32,940 --> 01:19:28,090

of funny but I think the world of George

1797

01:19:35,310 --> 01:19:32,950

Knapp he's very a very good broadcaster

1798

01:19:38,700 --> 01:19:35,320

first of all but also a very good

1799

01:19:41,820 --> 01:19:38,710

journalist and takes a lot of caution

1800

01:19:45,420 --> 01:19:41,830

that's the only type of validity that I

1801
01:19:47,730 --> 01:19:45,430
could possibly see now I know there are

1802
01:19:52,290 --> 01:19:47,740
so many holes and how we get his

1803
01:19:54,990 --> 01:19:52,300
education and he probably did not go to

1804
01:19:56,959 --> 01:19:55,000
MIT like he said because you know that

1805
01:19:59,270 --> 01:19:56,969
alive

1806
01:20:02,240 --> 01:19:59,280
interview someone asked him what's the

1807
01:20:05,209 --> 01:20:02,250
monument outside of MIT or what's the

1808
01:20:06,680 --> 01:20:05,219
square and he couldn't answer that and

1809
01:20:09,260 --> 01:20:06,690
everybody that it would ever go there

1810
01:20:13,729 --> 01:20:09,270
would absolutely know that question so

1811
01:20:18,169 --> 01:20:13,739
whether he somehow got in to area 51

1812
01:20:18,530 --> 01:20:18,179
without having the education I don't

1813
01:20:28,310 --> 01:20:18,540

know

1814

01:20:30,590 --> 01:20:28,320

will say this there's absolutely no

1815

01:20:35,120 --> 01:20:30,600

doubt about it that Bob Lazar is highly

1816

01:20:36,830 --> 01:20:35,130

intelligent but whether he actually when

1817

01:20:38,720 --> 01:20:36,840

his story falls apart and he actually

1818

01:20:43,280 --> 01:20:38,730

did not go to these schools that he says

1819

01:20:48,110 --> 01:20:43,290

he went to being finding a fine art in

1820

01:20:52,220 --> 01:20:48,120

antique appraiser we come across a lot

1821

01:20:53,990 --> 01:20:52,230

of fakes and once we come across a fake

1822

01:20:56,540 --> 01:20:54,000

and a house for instance if I'm doing an

1823

01:20:58,310 --> 01:20:56,550

appraisal and I'm in a house and I see a

1824

01:20:59,570 --> 01:20:58,320

fake painting and I right away I can

1825

01:21:01,100 --> 01:20:59,580

tell it's a fake sometimes you have to

1826

01:21:04,430 --> 01:21:01,110

do a lot of research before you can tell

1827

01:21:07,700 --> 01:21:04,440

but everything is suspect and that's how

1828

01:21:12,200 --> 01:21:07,710

I feel about the mj-12 documents that's

1829

01:21:14,330 --> 01:21:12,210

how I feel about Bob Lazar like once

1830

01:21:18,979 --> 01:21:14,340

there are some untruths that are

1831

01:21:21,770 --> 01:21:18,989

uncovered how can you possibly believe

1832

01:21:28,459 --> 01:21:21,780

the rest of it you know that's kind of

1833

01:21:31,640 --> 01:21:28,469

how I feel mm-hmm do you think that we

1834

01:21:37,580 --> 01:21:31,650

have alien extraterrestrial aliens

1835

01:21:39,979 --> 01:21:37,590

living amongst us now hmm in my gut my

1836

01:21:44,030 --> 01:21:39,989

gut feeling is I don't think so but

1837

01:21:45,700 --> 01:21:44,040

that's only an opinion I think I think

1838

01:21:49,370 --> 01:21:45,710

there's a lot of people that really do

1839

01:21:53,090 --> 01:21:49,380

think that but I don't I'm not feeling

1840

01:21:58,850 --> 01:21:53,100

it you know I just think that it would

1841

01:22:00,680 --> 01:21:58,860

be a little too obvious but okay I'm not

1842

01:22:02,780 --> 01:22:00,690

ruling it out totally it's just I don't

1843

01:22:04,850 --> 01:22:02,790

know I mean I don't know rational I

1844

01:22:06,800 --> 01:22:04,860

don't think any reasonable rule any of

1845

01:22:09,110 --> 01:22:06,810

it out I mean it's just fair did you

1846

01:22:10,340 --> 01:22:09,120

know you state your how you would you

1847

01:22:12,260 --> 01:22:10,350

some eyes based on what you

1848

01:22:13,880 --> 01:22:12,270

your experience has been okay I'm

1849

01:22:16,550 --> 01:22:13,890

getting the flash that were coming up to

1850

01:22:18,710 --> 01:22:16,560

the end of this block Mark Dantonio is

1851

01:22:25,550 --> 01:22:18,720

gonna join us on the on the next part

1852

01:22:29,180 --> 01:22:25,560

well that should be fun um do you think

1853

01:22:32,180 --> 01:22:29,190

this year 18 going into 19 we're going

1854

01:22:36,640 --> 01:22:32,190

to see the major breaker that's going to

1855

01:22:40,190 --> 01:22:36,650

put the evidence on on the world stage

1856

01:22:42,110 --> 01:22:40,200

that we are not the only beings that we

1857

01:22:44,990 --> 01:22:42,120

have been visit we've had encounters

1858

01:22:50,630 --> 01:22:45,000

that this UFO the extra-terrestrial part

1859

01:22:53,300 --> 01:22:50,640

of it is is true I think that we are by

1860

01:22:55,420 --> 01:22:53,310

the way Lee Spiegel just text me he

1861

01:22:57,680 --> 01:22:55,430

thinks that aliens are living among us

1862

01:23:03,920 --> 01:22:57,690

so is that he's listening to the show

1863

01:23:08,420 --> 01:23:03,930

hey I think that I think it's very

1864

01:23:13,060 --> 01:23:08,430

possible because I think if nothing else

1865

01:23:16,490 --> 01:23:13,070

that that New York Times article and

1866

01:23:18,320 --> 01:23:16,500

Elizondo and to the people like to the

1867

01:23:20,930 --> 01:23:18,330

stars there's a lot of little this kind

1868

01:23:23,990 --> 01:23:20,940

of bashing about them out there but I

1869

01:23:27,350 --> 01:23:24,000

think that it's possible I think they've

1870

01:23:30,350 --> 01:23:27,360

opened up the door to at least a serious

1871

01:23:32,870 --> 01:23:30,360

look and I keep feeling like we're on

1872

01:23:37,310 --> 01:23:32,880

the edge of discovering life out there

1873

01:23:39,140 --> 01:23:37,320

somehow somewhere I feel like we're very

1874

01:23:41,200 --> 01:23:39,150

close to that and I hope I see that in

1875

01:23:43,610 --> 01:23:41,210

my lifetime but I don't know for sure

1876

01:23:46,610 --> 01:23:43,620

you listening a task force Griffin on

1877

01:23:50,270 --> 01:23:46,620

kgr radio KGA radio calm my guest

1878

01:23:54,050 --> 01:23:50,280

tonight mr. Martin Willis been an

1879

01:23:56,660 --> 01:23:54,060

unbelievably fast 90 minutes here that

1880

01:23:58,340 --> 01:23:56,670

we've gone by here that's right

1881

01:24:00,020 --> 01:23:58,350

and we'll be returning for our last

1882

01:24:02,750 --> 01:24:00,030

block Marc Dantonio joining us

1883

01:24:04,040 --> 01:24:02,760

task force Griffin kg our radio talking

1884

01:24:06,370 --> 01:24:04,050

to the greatest audience on the planet

1885

01:24:09,290 --> 01:24:06,380

please join us three minutes

1886

01:24:12,320 --> 01:24:09,300

clear all right let's get Marc on and

1887

01:24:13,490 --> 01:24:12,330

speedy recovery I hope that Leif Spiegel

1888

01:24:15,530 --> 01:24:13,500

is doing better because I know he was

1889

01:24:21,260 --> 01:24:15,540

under the weather for a bit yeah yeah

1890

01:24:23,450 --> 01:24:21,270

he's doing he's doing good good earmark

1891

01:24:28,160 --> 01:24:23,460

I'll see if I get mark and video I'll

1892

01:24:32,240 --> 01:24:28,170

squeeze me over here and let's see let's

1893

01:24:34,790 --> 01:24:32,250

see if Mark has this video up mark do

1894

01:24:36,470 --> 01:24:34,800

you got video capability right now so we

1895

01:24:43,670 --> 01:24:36,480

can share it on yon Martin Willis is

1896

01:24:46,130 --> 01:24:43,680

YouTube I wish I did and this camera and

1897

01:24:48,229 --> 01:24:46,140

Mark be ready you were hot the YouTube

1898

01:24:49,640 --> 01:24:48,239

channels is exact yeah yeah we're

1899

01:24:52,580 --> 01:24:49,650

actually going over YouTube how you

1900

01:24:54,020 --> 01:24:52,590

doing mark good good I know we've been

1901

01:24:57,140 --> 01:24:54,030

texting back and forth but I've been

1902

01:24:57,500 --> 01:24:57,150

talking we have yeah yeah you don't text

1903

01:25:00,470 --> 01:24:57,510

me

1904

01:25:02,330 --> 01:25:00,480

thanks 90 see where I stand he doesn't

1905

01:25:06,740 --> 01:25:02,340

exactly that's exactly right

1906

01:25:10,850 --> 01:25:06,750

no no Martin and I were talking because

1907

01:25:12,680 --> 01:25:10,860

there was a possible show that we were I

1908

01:25:15,860 --> 01:25:12,690

was supposed to be or asked to be got

1909

01:25:19,220 --> 01:25:15,870

part of but they didn't they didn't

1910

01:25:20,450 --> 01:25:19,230

pursue it you know they wanted to they

1911

01:25:21,800 --> 01:25:20,460

only want to but it didn't matter you

1912

01:25:24,290 --> 01:25:21,810

know it's like it yeah it so many things

1913

01:25:27,440 --> 01:25:24,300

going on it it's okay let me see here

1914

01:25:28,190 --> 01:25:27,450

how do I get this uh I'm all duded up

1915

01:25:30,650 --> 01:25:28,200

for you by the way

1916

01:25:32,030 --> 01:25:30,660

oh look at you that's you know what

1917

01:25:35,930 --> 01:25:32,040

that's usually the photograph I see

1918

01:25:38,209 --> 01:25:35,940

that's a moving picture that's you so

1919

01:25:40,580 --> 01:25:38,219

cool look at you

1920

01:25:41,840 --> 01:25:40,590

Wow I'm going to look while you're doing

1921

01:25:43,420 --> 01:25:41,850

that I'm going to look in the chat room

1922

01:25:46,540 --> 01:25:43,430

to see if we have any questions in there

1923

01:25:49,970 --> 01:25:46,550

but I continue on youtube if you'd like

1924

01:25:54,590 --> 01:25:49,980

yeah we don't need much of an invitation

1925

01:25:57,110 --> 01:25:54,600

to get into our furball that's how

1926

01:26:02,690 --> 01:25:57,120

you've been feeling there old man hey

1927

01:26:07,130 --> 01:26:02,700

talking to Bill oh I'm fine good right

1928

01:26:08,720 --> 01:26:07,140

so uh bill wears a we're say how can I

1929

01:26:10,520 --> 01:26:08,730

get my video on this camera to work got

1930

01:26:13,940 --> 01:26:10,530

to start this all over here with Skype

1931

01:26:17,390 --> 01:26:13,950

or what well yeah you may go to tools

1932

01:26:21,400 --> 01:26:17,400

options no settings and just simply take

1933

01:26:24,400 --> 01:26:21,410

the line out of the camera the video USB

1934

01:26:29,000 --> 01:26:24,410

yeah you should be

1935

01:26:31,550 --> 01:26:29,010

let me see just make sure or this video

1936

01:26:34,910 --> 01:26:31,560

settings okay oh look it's gonna work

1937

01:26:37,520 --> 01:26:34,920

okay so now I'll just say

1938

01:26:41,560 --> 01:26:37,530

at least am I in does it work in now oh

1939

01:26:44,209 --> 01:26:41,570

yeah yeah you don't say it okay hold on

1940

01:26:48,530 --> 01:26:44,219

take a little line out of the video part

1941

01:26:49,820 --> 01:26:48,540

on the call yeah yep you're right I can

1942

01:26:55,850 --> 01:26:49,830

see it I got to turn it on okay so it

1943

01:26:58,729 --> 01:26:55,860

was there it just had to do this all

1944

01:27:00,890 --> 01:26:58,739

right I'll do some adjustments here yeah

1945

01:27:04,070 --> 01:27:00,900

I'm a little tiny picture I'm using a

1946

01:27:06,500 --> 01:27:04,080

document reading web webcam that I

1947

01:27:08,390 --> 01:27:06,510

actually use in the observatory for it's

1948

01:27:11,060 --> 01:27:08,400

like a little insect camera about that

1949

01:27:12,859 --> 01:27:11,070

size actually all right green gentlemen

1950

01:27:14,510 --> 01:27:12,869

were coming back in about 10 seconds I

1951

01:27:16,370 --> 01:27:14,520

might have to fight back and forth

1952

01:27:18,800 --> 01:27:16,380

between you two very nice it seemed to

1953

01:27:22,780 --> 01:27:18,810

get both of you on okay okay

1954

01:27:24,890 --> 01:27:22,790

in three two one go

1955

01:27:27,709 --> 01:27:24,900

welcome back to task force Griffin on

1956

01:27:30,260 --> 01:27:27,719

kgr radio KGA radio comm my guest night

1957

01:27:33,410 --> 01:27:30,270

Mart Wallace just been joined by by next

1958

01:27:35,479 --> 01:27:33,420

guest Mark Dantonio we all know follows

1959

01:27:39,320 --> 01:27:35,489

this show and a few minutes with his

1960

01:27:41,180 --> 01:27:39,330

outstanding efforts you folks that are

1961

01:27:42,919 --> 01:27:41,190

on YouTube and hearing the getting us

1962

01:27:45,979 --> 01:27:42,929

set up in the background so a lot of the

1963

01:27:47,450 --> 01:27:45,989

mystery a lot of the intrigue has been

1964

01:27:50,109 --> 01:27:47,460

left on the floor a few here I was

1965

01:27:53,780 --> 01:27:50,119

trying to get everybody stuff on and

1966

01:27:56,300 --> 01:27:53,790

insect cameras and aces of spades being

1967

01:27:57,979 --> 01:27:56,310

thrown around and things like that

1968

01:27:59,780 --> 01:27:57,989

good evening to both you gentlemen thank

1969

01:28:01,399 --> 01:27:59,790

you for joining us and talking to the

1970

01:28:04,160 --> 01:28:01,409

greatest audience on the planet

1971

01:28:04,790 --> 01:28:04,170

mark anyone know Martin already correct

1972

01:28:08,270 --> 01:28:04,800

I do

1973

01:28:10,430 --> 01:28:08,280

Martin's a good friend yeah yes thank

1974

01:28:12,859 --> 01:28:10,440

you for allowing me to basically cut in

1975

01:28:14,629 --> 01:28:12,869

on his time here tonight well it's

1976

01:28:16,939 --> 01:28:14,639

really it's up to Martin he was very

1977

01:28:21,500 --> 01:28:16,949

excited that knowing that you wanted to

1978

01:28:23,570 --> 01:28:21,510

jump on and we love your show and oh I

1979

01:28:25,700 --> 01:28:23,580

love you it's always fun well thank you

1980

01:28:28,430 --> 01:28:25,710

it's always fun together here's a love

1981

01:28:28,879 --> 01:28:28,440

fest yeah yeah and that's not a bad

1982

01:28:31,669 --> 01:28:28,889

thing

1983

01:28:35,300 --> 01:28:31,679

yeah so let me ask you both a quick

1984

01:28:42,950 --> 01:28:35,310

couple questions where you think things

1985

01:28:44,419 --> 01:28:42,960

are at I am I'm I'm torn between two

1986

01:28:47,060 --> 01:28:44,429

parts some of the guests that I've had

1987

01:28:48,739 --> 01:28:47,070

on I'm convinced that in this year 18

1988

01:28:52,489 --> 01:28:48,749

going into 19

1989

01:28:56,779 --> 01:28:52,499

we're going to have a major breakthrough

1990

01:28:59,330 --> 01:28:56,789

in truth or information and it's going

1991

01:29:02,719 --> 01:28:59,340

to be around our UFO extraterrestrial

1992

01:29:04,189 --> 01:29:02,729

and other and our other activities it

1993

01:29:09,229 --> 01:29:04,199

could be something in just in in the

1994

01:29:11,569 --> 01:29:09,239

area of technology when we left the last

1995

01:29:13,279 --> 01:29:11,579

section Martin you kind of thought that

1996

01:29:14,120 --> 01:29:13,289

that possibility is there I don't put

1997

01:29:16,819 --> 01:29:14,130

words in your mouth

1998

01:29:19,759 --> 01:29:16,829

what do you both think about that do you

1999

01:29:21,649 --> 01:29:19,769

think that we're at this point that

2000

01:29:24,649 --> 01:29:21,659

we're that the the pressure is building

2001
01:29:25,939 --> 01:29:24,659
to the point now that I think the reason

2002
01:29:28,250 --> 01:29:25,949
that we are in the difficult that we're

2003
01:29:30,259 --> 01:29:28,260
in is we got so used to lying and got

2004
01:29:33,649 --> 01:29:30,269
used to lying in the name of national

2005
01:29:35,060 --> 01:29:33,659
security and that's an easy label to

2006
01:29:36,439 --> 01:29:35,070
throw on I mean the times that we've

2007
01:29:39,950 --> 01:29:36,449
been living through products of the last

2008
01:29:40,899 --> 01:29:39,960
10 15 years a lot of bad things have

2009
01:29:44,390 --> 01:29:40,909
happened

2010
01:29:48,410 --> 01:29:44,400
stamp on it national security and that's

2011
01:29:50,779 --> 01:29:48,420
the reason why you try to bury it I'll

2012
01:29:52,489 --> 01:29:50,789
let you cut makes it I think makes the

2013
01:29:55,160 --> 01:29:52,499

truth coming out very difficult because

2014

01:29:57,229 --> 01:29:55,170

we now live in an age that you can go

2015

01:30:02,209 --> 01:29:57,239

back and find out well we knew this for

2016

01:30:03,759 --> 01:30:02,219

20 years 30 years 40 years actually I do

2017

01:30:07,700 --> 01:30:03,769

have something I can say about that

2018

01:30:10,069 --> 01:30:07,710

commander I really like your love your

2019

01:30:12,709 --> 01:30:10,079

helmet man that's great it's great

2020

01:30:15,500 --> 01:30:12,719

anyway and yeah these are very good boy

2021

01:30:19,330 --> 01:30:15,510

you might get one oh you kidding me I

2022

01:30:23,000 --> 01:30:19,340

love this just try one on yeah now the

2023

01:30:25,129 --> 01:30:23,010

tain't your question I know for a fact

2024

01:30:27,560 --> 01:30:25,139

and and this was just from my experience

2025

01:30:29,540 --> 01:30:27,570

that there were some really weird things

2026

01:30:31,459 --> 01:30:29,550

that I have witnessed you know in my

2027

01:30:32,989 --> 01:30:31,469

life you know I'm a science guy so again

2028

01:30:34,640 --> 01:30:32,999

I've said this often enough that people

2029

01:30:36,529 --> 01:30:34,650

say yeah yeah he's saying this again but

2030

01:30:38,149 --> 01:30:36,539

you know these things don't happen to me

2031

01:30:39,890 --> 01:30:38,159

until they do then what do you do with

2032

01:30:42,939 --> 01:30:39,900

it you know you've got to do something

2033

01:30:45,200 --> 01:30:42,949

with what you experience so in my case

2034

01:30:47,540 --> 01:30:45,210

you know that I had that experience when

2035

01:30:50,750 --> 01:30:47,550

I was on board that submarine brand I

2036

01:30:55,819 --> 01:30:50,760

can't shake that and that was something

2037

01:30:58,810 --> 01:30:55,829

that was secretive back then program

2038

01:31:02,420 --> 01:30:58,820

that was continuing from years past and

2039

01:31:05,330 --> 01:31:02,430

it continued to be enforced

2040

01:31:07,190 --> 01:31:05,340

for many years so after that I think um

2041

01:31:09,350 --> 01:31:07,200

because it was many years after that

2042

01:31:12,230 --> 01:31:09,360

when I actually talked to the folks and

2043

01:31:14,120 --> 01:31:12,240

the higher-ups in the Navy who basically

2044

01:31:16,100 --> 01:31:14,130

worked directly for the president and I

2045

01:31:17,540 --> 01:31:16,110

asked them you know asked one particular

2046

01:31:19,130 --> 01:31:17,550

guy you know what can you tell me about

2047

01:31:21,110 --> 01:31:19,140

that and he basically said he can't talk

2048

01:31:22,520 --> 01:31:21,120

about that program now he could have

2049

01:31:24,830 --> 01:31:22,530

said what program I know what you're

2050

01:31:26,300 --> 01:31:24,840

talking about but he didn't he said I

2051

01:31:28,430 --> 01:31:26,310

can't talk about that particular program

2052

01:31:31,160 --> 01:31:28,440

I thought that was an interesting

2053

01:31:32,810 --> 01:31:31,170

response because that was him saying I'm

2054

01:31:34,310 --> 01:31:32,820

not gonna tell you anything but by not

2055

01:31:35,720 --> 01:31:34,320

saying anything I'll say in a way that

2056

01:31:38,120 --> 01:31:35,730

will make you understand it's still

2057

01:31:39,620 --> 01:31:38,130

going on I'd love to tell you but they

2058

01:31:41,840 --> 01:31:39,630

can't kind of a thing you know that's

2059

01:31:43,880 --> 01:31:41,850

just something there there is and that

2060

01:31:46,280 --> 01:31:43,890

was something that I've kind of always

2061

01:31:47,510 --> 01:31:46,290

knew in my head the Russians came out

2062

01:31:49,010 --> 01:31:47,520

and said that there were these unknown

2063

01:31:51,890 --> 01:31:49,020

submerged objects moving at high speed

2064

01:31:54,500 --> 01:31:51,900

underwater other navies have said that

2065

01:31:57,710 --> 01:31:54,510

these things have been out there you

2066

01:31:59,960 --> 01:31:57,720

know I don't I make no bones about the

2067

01:32:02,600 --> 01:31:59,970

fact I have no idea what they really are

2068

01:32:04,370 --> 01:32:02,610

are the extra-terrestrial well we said

2069

01:32:07,130 --> 01:32:04,380

we tend to leap toward that don't we you

2070

01:32:08,780 --> 01:32:07,140

know we crossed that wide gulf you know

2071

01:32:11,450 --> 01:32:08,790

going by all the other potential

2072

01:32:14,180 --> 01:32:11,460

possibilities and leap into aliens all

2073

01:32:16,190 --> 01:32:14,190

the time you know we see that giorgio

2074

01:32:18,950 --> 01:32:16,200

means you know that says it's aliens you

2075

01:32:20,390 --> 01:32:18,960

know but the fact is we don't know what

2076

01:32:20,800 --> 01:32:20,400

it is and the fact that we don't know

2077

01:32:23,540 --> 01:32:20,810

what it is

2078

01:32:26,570 --> 01:32:23,550

leads us down the path that may take us

2079

01:32:27,890 --> 01:32:26,580

to that position because we don't know

2080

01:32:30,800 --> 01:32:27,900

of anything on the planet that can do

2081

01:32:32,510 --> 01:32:30,810

what we see so that's where I leave it I

2082

01:32:35,620 --> 01:32:32,520

say I don't know what it is but it's

2083

01:32:38,900 --> 01:32:35,630

something that we don't understand and

2084

01:32:44,260 --> 01:32:38,910

commander doom I asked my mind if I

2085

01:32:47,780 --> 01:32:44,270

asked mark a question not so so mark

2086

01:32:52,460 --> 01:32:47,790

being an astronomer the question I have

2087

01:32:56,120 --> 01:32:52,470

for you is if there is in fact possibly

2088

01:32:57,920 --> 01:32:56,130

billions of planets out there possibly

2089

01:33:00,530 --> 01:32:57,930

even in our solar system that may be

2090

01:33:04,370 --> 01:33:00,540

harboring intelligent life just say if

2091

01:33:06,560 --> 01:33:04,380

there is why on earth would we be so

2092

01:33:09,040 --> 01:33:06,570

special that they would be here visiting

2093

01:33:13,000 --> 01:33:09,050

us why would you think that would happen

2094

01:33:16,100 --> 01:33:13,010

well if you go back to Sumeria ancient

2095

01:33:16,640 --> 01:33:16,110

Sumeria and you you consider the

2096

01:33:18,350 --> 01:33:16,650

cuneiform

2097

01:33:22,700 --> 01:33:18,360

language which was pretty much the first

2098

01:33:25,610 --> 01:33:22,710

written history that you know uh Homo

2099

01:33:28,209 --> 01:33:25,620

sapiens started to keep track of you

2100

01:33:30,290 --> 01:33:28,219

find that we've been around in that case

2101
01:33:32,570 --> 01:33:30,300
historically keeping records for about

2102
01:33:35,120 --> 01:33:32,580
five thousand years we don't count the

2103
01:33:36,830 --> 01:33:35,130
cave pictographs and the petroglyphs

2104
01:33:39,110 --> 01:33:36,840
pecked into cliffs and stuff like that I

2105
01:33:41,149 --> 01:33:39,120
mean I do but I mean in this particular

2106
01:33:42,620 --> 01:33:41,159
case let's just for the record just

2107
01:33:43,820 --> 01:33:42,630
state that I'm gonna take it from say

2108
01:33:46,130 --> 01:33:43,830
cuneiform for word

2109
01:33:49,790 --> 01:33:46,140
so from that point of view if you look

2110
01:33:53,540 --> 01:33:49,800
at if you look at what happened you know

2111
01:33:55,520 --> 01:33:53,550
in that five thousand years we we were

2112
01:33:57,649 --> 01:33:55,530
bred to be a very curious species we

2113
01:34:00,800 --> 01:33:57,659

evolved to be very curious we wanted

2114

01:34:04,010 --> 01:34:00,810

answers why why does a species evolve a

2115

01:34:06,470 --> 01:34:04,020

need to look for answers why is the

2116

01:34:08,780 --> 01:34:06,480

species care where they come from okay

2117

01:34:12,500 --> 01:34:08,790

this is something that you know I don't

2118

01:34:15,160 --> 01:34:12,510

have an answer for but the one thing I

2119

01:34:18,709 --> 01:34:15,170

can say is this may might be a template

2120

01:34:21,080 --> 01:34:18,719

that the universe provides for based on

2121

01:34:23,360 --> 01:34:21,090

how we were built from these amino acids

2122

01:34:25,430 --> 01:34:23,370

these particular chemistry that came

2123

01:34:28,070 --> 01:34:25,440

together the DNA of deoxyribonucleic

2124

01:34:31,370 --> 01:34:28,080

acid that we're all made of maybe this

2125

01:34:34,520 --> 01:34:31,380

is something that has in it within it a

2126
01:34:37,310 --> 01:34:34,530
template of sorts okay is example all

2127
01:34:39,470 --> 01:34:37,320
higher life-forms on this planet have

2128
01:34:41,240 --> 01:34:39,480
bilateral symmetry in the way that they

2129
01:34:42,560 --> 01:34:41,250
interact with their world their internal

2130
01:34:43,939 --> 01:34:42,570
organs are arranged all differently but

2131
01:34:45,830 --> 01:34:43,949
they have symmetry on the outside they

2132
01:34:47,300 --> 01:34:45,840
interact with their world well that's a

2133
01:34:48,740 --> 01:34:47,310
template see that's what I'm getting at

2134
01:34:50,450 --> 01:34:48,750
that's a template provided by the

2135
01:34:52,580 --> 01:34:50,460
universe and the way the life formed on

2136
01:34:54,200 --> 01:34:52,590
this planet that all these higher

2137
01:34:56,450 --> 01:34:54,210
life-forms will have that type of

2138
01:34:59,000 --> 01:34:56,460

symmetry we didn't have to have symmetry

2139

01:35:00,919 --> 01:34:59,010

I mean why don't we have pogo stick cows

2140

01:35:03,649 --> 01:35:00,929

Boing Boing Boing Boing hopping around

2141

01:35:06,020 --> 01:35:03,659

pastures we don't because the symmetry

2142

01:35:08,090 --> 01:35:06,030

is required it's somehow required for

2143

01:35:09,830 --> 01:35:08,100

life so that's what I mean by template

2144

01:35:11,930 --> 01:35:09,840

so if there's a template for the way

2145

01:35:15,229 --> 01:35:11,940

life develops then maybe there's a

2146

01:35:17,720 --> 01:35:15,239

template for the way the beings think so

2147

01:35:20,899 --> 01:35:17,730

if we're gonna go and look for life

2148

01:35:22,700 --> 01:35:20,909

elsewhere because we're curious then I

2149

01:35:23,990 --> 01:35:22,710

suspect that there's other beings out

2150

01:35:26,270 --> 01:35:24,000

there they're just as curious and are

2151

01:35:29,540 --> 01:35:26,280

doing the same thing now what would they

2152

01:35:30,590 --> 01:35:29,550

look for we know look what happened

2153

01:35:34,400 --> 01:35:30,600

there's something the

2154

01:35:36,380 --> 01:35:34,410

well if they can cross if they can cross

2155

01:35:38,060 --> 01:35:36,390

the gulf between the stars then eating

2156

01:35:41,620 --> 01:35:38,070

is not one of their big problems okay

2157

01:35:44,860 --> 01:35:41,630

because they so so using your example

2158

01:35:47,840 --> 01:35:44,870

people that take Lear jets to fly a

2159

01:35:50,960 --> 01:35:47,850

specific kind of tuna or beef from one

2160

01:35:53,510 --> 01:35:50,970

part of the globe to the other when they

2161

01:35:55,520 --> 01:35:53,520

could get something locally grown you

2162

01:35:58,970 --> 01:35:55,530

don't see that an extra extraterrestrial

2163

01:36:01,700 --> 01:35:58,980

scale I think that we have to talk about

2164

01:36:04,790 --> 01:36:01,710

scale actually we need to talk about the

2165

01:36:06,920 --> 01:36:04,800

scale of these events if an

2166

01:36:09,710 --> 01:36:06,930

extraterrestrial species is coming from

2167

01:36:13,580 --> 01:36:09,720

say the nearest star 4.3 light years

2168

01:36:16,010 --> 01:36:13,590

away the energy requirement to get here

2169

01:36:18,860 --> 01:36:16,020

from there even with what we see now in

2170

01:36:21,470 --> 01:36:18,870

our limited existence only you know

2171

01:36:24,140 --> 01:36:21,480

5,000 years of you know uniform forward

2172

01:36:26,390 --> 01:36:24,150

ok written history okay in that time

2173

01:36:28,550 --> 01:36:26,400

frame we see ways to defeat the speed of

2174

01:36:32,270 --> 01:36:28,560

light as a light speed as a speed light

2175

01:36:34,010 --> 01:36:32,280

speed limit right right so another race

2176

01:36:35,750 --> 01:36:34,020

but also but we see that there are

2177

01:36:37,640 --> 01:36:35,760

stupendous amounts of energy that we

2178

01:36:40,970 --> 01:36:37,650

require to do that to actually beat that

2179

01:36:43,250 --> 01:36:40,980

limit so another race would also have

2180

01:36:45,380 --> 01:36:43,260

that and that technology would be very

2181

01:36:48,860 --> 01:36:45,390

expensive because the energy would be a

2182

01:36:52,700 --> 01:36:48,870

commodity in any civilization where this

2183

01:36:53,780 --> 01:36:52,710

becomes a thing so you do have on this

2184

01:36:55,760 --> 01:36:53,790

planet the ultra-wealthy

2185

01:36:59,300 --> 01:36:55,770

who might fly to Paris to have a steak

2186

01:37:02,410 --> 01:36:59,310

and french wine and then fly back to New

2187

01:37:05,210 --> 01:37:02,420

York okay in their in their private jet

2188

01:37:06,980 --> 01:37:05,220

but the scale of that travel the cost of

2189

01:37:09,890 --> 01:37:06,990

that travel is something that's absorbed

2190

01:37:12,140 --> 01:37:09,900

within that person's wealth packet okay

2191

01:37:15,440 --> 01:37:12,150

what the ball of wealth that one person

2192

01:37:19,390 --> 01:37:15,450

that one you know family has per se okay

2193

01:37:23,420 --> 01:37:19,400

now an extraterrestrial species probably

2194

01:37:25,760 --> 01:37:23,430

has to have gone planet wide and have

2195

01:37:27,710 --> 01:37:25,770

this consensus among everyone on the

2196

01:37:29,690 --> 01:37:27,720

planet every being that's intelligent

2197

01:37:32,440 --> 01:37:29,700

that they're gonna travel to another

2198

01:37:34,940 --> 01:37:32,450

star and to do that is gonna require

2199

01:37:37,400 --> 01:37:34,950

stupendous amounts of energy even if

2200

01:37:40,310 --> 01:37:37,410

you're in advanced species and you're

2201
01:37:42,350 --> 01:37:40,320
gonna have to use some of that energy in

2202
01:37:44,300 --> 01:37:42,360
order to do it I don't think they're

2203
01:37:47,390 --> 01:37:44,310
going to travel here too

2204
01:37:50,000 --> 01:37:47,400
commander cobra and make him lunch all

2205
01:37:52,840 --> 01:37:50,010
right I mean I am an acquired taste but

2206
01:37:55,280 --> 01:37:52,850
that doesn't need to really be said here

2207
01:37:56,900 --> 01:37:55,290
I'm not gonna I won't

2208
01:37:58,340 --> 01:37:56,910
I will not go there you've got you got a

2209
01:38:01,220 --> 01:37:58,350
cool helmet on and you might not let me

2210
01:38:03,830 --> 01:38:01,230
try it on if I don't that you know agree

2211
01:38:06,470 --> 01:38:03,840
with you but uh yeah I just think that

2212
01:38:08,870 --> 01:38:06,480
we have a lot there's a lot of

2213
01:38:12,020 --> 01:38:08,880

considerations and and an alien species

2214

01:38:14,570 --> 01:38:12,030

if they're curious if curiosity is also

2215

01:38:16,940 --> 01:38:14,580

a template to life in the universe then

2216

01:38:20,290 --> 01:38:16,950

I think an alien species is probably

2217

01:38:22,670 --> 01:38:20,300

gonna look for beings like themselves

2218

01:38:24,200 --> 01:38:22,680

all right and the reason they would look

2219

01:38:27,920 --> 01:38:24,210

for beings like themselves is because of

2220

01:38:29,840 --> 01:38:27,930

the fact that that's what we do and why

2221

01:38:31,880 --> 01:38:29,850

should they be any different you know

2222

01:38:34,400 --> 01:38:31,890

they may not have the same morality as

2223

01:38:35,810 --> 01:38:34,410

us for instance and that that could be

2224

01:38:38,229 --> 01:38:35,820

possible they might not have the same

2225

01:38:41,150 --> 01:38:38,239

philosophies of course and were the same

2226

01:38:43,370 --> 01:38:41,160

cultural beliefs naturally but they'll

2227

01:38:46,220 --> 01:38:43,380

be different in the same way that the

2228

01:38:48,050 --> 01:38:46,230

Rapanui on Easter Island were different

2229

01:38:50,360 --> 01:38:48,060

to the Polynesian island there's the

2230

01:38:52,250 --> 01:38:50,370

first time they found them you know that

2231

01:38:54,970 --> 01:38:52,260

was a very different you know a very

2232

01:38:58,310 --> 01:38:54,980

different meeting for sure you know so

2233

01:39:00,320 --> 01:38:58,320

and I think that a the science is what

2234

01:39:01,520 --> 01:39:00,330

stands between us our science level and

2235

01:39:03,530 --> 01:39:01,530

their science level is what stands

2236

01:39:05,960 --> 01:39:03,540

between us right now that separates us

2237

01:39:07,640 --> 01:39:05,970

if we have if we have an acquired

2238

01:39:10,729 --> 01:39:07,650

science that we get this and take us to

2239

01:39:12,950 --> 01:39:10,739

the stars then we're gonna be more on

2240

01:39:15,080 --> 01:39:12,960

more uneven more uneven footing with

2241

01:39:17,540 --> 01:39:15,090

them and that maybe that maybe that's a

2242

01:39:19,820 --> 01:39:17,550

concern you know I might be concerned

2243

01:39:21,830 --> 01:39:19,830

that these crazy beings are gonna come

2244

01:39:24,800 --> 01:39:21,840

to my planet or come to my my star

2245

01:39:27,020 --> 01:39:24,810

system but if they're gonna search for

2246

01:39:31,190 --> 01:39:27,030

life elsewhere I think that they're

2247

01:39:34,550 --> 01:39:31,200

gonna look for the the chemicals in the

2248

01:39:36,260 --> 01:39:34,560

atmosphere that they need to live and

2249

01:39:40,190 --> 01:39:36,270

see if it's in our atmosphere

2250

01:39:43,880 --> 01:39:40,200

no we evolved a carbon-based and we

2251

01:39:45,260 --> 01:39:43,890

evolved to breathe oxygen so they're

2252

01:39:48,040 --> 01:39:45,270

gonna look for planets that perhaps have

2253

01:39:51,850 --> 01:39:48,050

oxygen if they have the same developer

2254

01:39:55,729 --> 01:39:51,860

so we would stand out quite easily

2255

01:39:57,830 --> 01:39:55,739

actually as a planet surrounding a

2256

01:39:59,740 --> 01:39:57,840

relatively normal star

2257

01:40:02,450 --> 01:39:59,750

that has an oxygenated atmosphere

2258

01:40:04,939 --> 01:40:02,460

because anytime you have oxygen in an

2259

01:40:05,479 --> 01:40:04,949

atmosphere it's really not supposed to

2260

01:40:07,580 --> 01:40:05,489

be there

2261

01:40:09,290 --> 01:40:07,590

our planet is has not been in

2262

01:40:10,939 --> 01:40:09,300

equilibrium since life began in this

2263

01:40:13,370 --> 01:40:10,949

planet it's actually in what's called

2264

01:40:15,950 --> 01:40:13,380

disequilibrium we don't have an

2265

01:40:18,800 --> 01:40:15,960

equilibrium setting on our planet that's

2266

01:40:19,760 --> 01:40:18,810

been met okay only way back in the

2267

01:40:21,260 --> 01:40:19,770

beginning when the earth was first

2268

01:40:23,390 --> 01:40:21,270

formed but after the atmosphere came

2269

01:40:25,070 --> 01:40:23,400

along and most importantly in life you

2270

01:40:27,350 --> 01:40:25,080

know these you know 3.8 billion years

2271

01:40:29,419 --> 01:40:27,360

ago these cyanobacteria that started

2272

01:40:30,979 --> 01:40:29,429

pumping oxygen into the atmosphere the

2273

01:40:32,959 --> 01:40:30,989

oceans which started sucking up carbon

2274

01:40:36,140 --> 01:40:32,969

dioxide thus making the atmosphere

2275

01:40:38,510 --> 01:40:36,150

thinner and more palatable for more life

2276

01:40:40,810 --> 01:40:38,520

form still and then in those oceans that

2277

01:40:44,000 --> 01:40:40,820

form the plankton the phytoplankton that

2278

01:40:45,020 --> 01:40:44,010

began in there those those are the along

2279

01:40:48,620 --> 01:40:45,030

with plants for the main oxygen

2280

01:40:51,649 --> 01:40:48,630

producers on the planet so they keep

2281

01:40:55,129 --> 01:40:51,659

that level of oxygen falsely and

2282

01:40:57,290 --> 01:40:55,139

artificially elevated way higher and if

2283

01:40:59,180 --> 01:40:57,300

they didn't do that then this planet

2284

01:41:00,919 --> 01:40:59,190

would that oxygen would of course leach

2285

01:41:02,959 --> 01:41:00,929

backed out into the soils it would you

2286

01:41:06,740 --> 01:41:02,969

know oxidize many things and go into the

2287

01:41:08,390 --> 01:41:06,750

water and oxidize you know elements in

2288

01:41:10,070 --> 01:41:08,400

the and the water and form all these

2289

01:41:12,350 --> 01:41:10,080

these other chemists know this other

2290

01:41:15,140 --> 01:41:12,360

chemistry and so the oxygen would

2291

01:41:17,120 --> 01:41:15,150

eventually be depleted so I mean I gotta

2292

01:41:18,109 --> 01:41:17,130

throw a lasso on you because your rodeo

2293

01:41:21,859 --> 01:41:18,119

is my favorite sport

2294

01:41:23,149 --> 01:41:21,869

I know really yeah absolutely bull

2295

01:41:24,979 --> 01:41:23,159

riding I mean if you want to talk a

2296

01:41:28,490 --> 01:41:24,989

sport that's the sport bull riding the

2297

01:41:30,200 --> 01:41:28,500

rest of this stuff is a well the time

2298

01:41:32,300 --> 01:41:30,210

now what that said now then another

2299

01:41:34,970 --> 01:41:32,310

facet of the jewel of commander cobra

2300

01:41:38,839 --> 01:41:34,980

has been revealed to the bat that's a

2301
01:41:39,890 --> 01:41:38,849
heck of a gem let me tell you I'm gonna

2302
01:41:41,919 --> 01:41:39,900
I'm gonna take it around the wheelhouse

2303
01:41:45,129 --> 01:41:41,929
all right

2304
01:41:50,000 --> 01:41:45,139
do you believe in extraterrestrial life

2305
01:41:55,040 --> 01:41:50,010
yes no yes yes Martin

2306
01:41:57,729 --> 01:41:55,050
uh that's a 10-4 yes okay CB talk that

2307
01:41:59,810 --> 01:41:57,739
means yes I don't know if you know that

2308
01:42:01,280 --> 01:41:59,820
if you were listening to the show you

2309
01:42:04,280 --> 01:42:01,290
were to know we had our little CB

2310
01:42:06,410 --> 01:42:04,290
interlude when I was part of a you know

2311
01:42:10,010 --> 01:42:06,420
Air Force program inadvertently frying

2312
01:42:11,360 --> 01:42:10,020
CB radios on PI ten different story for

2313
01:42:12,740 --> 01:42:11,370

a different time kind of

2314

01:42:15,760 --> 01:42:12,750

shush we don't want to talk about it

2315

01:42:19,760 --> 01:42:15,770

cause phrasing maker 1-9 breaker 1-9

2316

01:42:23,630 --> 01:42:19,770

with that said yep back to you sir

2317

01:42:27,770 --> 01:42:23,640

do you believe we have been visited am I

2318

01:42:32,720 --> 01:42:27,780

the sir yes oh yes okay I wasn't sure

2319

01:42:39,950 --> 01:42:32,730

you know um well um my feeling is that I

2320

01:42:42,980 --> 01:42:39,960

think that it's very possible okay well

2321

01:42:47,090 --> 01:42:42,990

I think it's I think it's highly likely

2322

01:42:49,430 --> 01:42:47,100

I I can't say for certain but I think

2323

01:42:53,680 --> 01:42:49,440

it's highly likely it makes more sense

2324

01:42:56,960 --> 01:42:53,690

in a lot of other a lot of other ideas

2325

01:42:58,010 --> 01:42:56,970

hypothesis of what what's going on okay

2326

01:43:00,200 --> 01:42:58,020

great

2327

01:43:02,450 --> 01:43:00,210

I'm definitely much more in the

2328

01:43:05,420 --> 01:43:02,460

affirmative than the two of you there's

2329

01:43:07,100 --> 01:43:05,430

no doubt in my mind about it but I have

2330

01:43:09,770 --> 01:43:07,110

nothing that I can point to that as the

2331

01:43:10,820 --> 01:43:09,780

definitive fact on that well that's how

2332

01:43:13,700 --> 01:43:10,830

I feel too actually

2333

01:43:15,620 --> 01:43:13,710

I mean right do you mean dependent back

2334

01:43:20,750 --> 01:43:15,630

to our my earlier part of this question

2335

01:43:23,290 --> 01:43:20,760

to kind of lead this up do you think

2336

01:43:26,840 --> 01:43:23,300

this is the time period that we are

2337

01:43:28,640 --> 01:43:26,850

going to in our lifetimes the remaining

2338

01:43:31,040 --> 01:43:28,650

of our lifetimes if we have null

2339

01:43:32,900 --> 01:43:31,050

projections all those happy things I

2340

01:43:34,670 --> 01:43:32,910

expect my two guests are gonna have many

2341

01:43:38,060 --> 01:43:34,680

many more trips or complete trips around

2342

01:43:39,080 --> 01:43:38,070

the Sun that's what I hope for do you

2343

01:43:41,330 --> 01:43:39,090

think it's gonna happen if we're gonna

2344

01:43:42,850 --> 01:43:41,340

get the word that we're going to get the

2345

01:43:45,050 --> 01:43:42,860

evidence

2346

01:43:47,750 --> 01:43:45,060

everything from the day the the Earth

2347

01:43:49,670 --> 01:43:47,760

Stood Still kind of moment to finally

2348

01:43:51,620 --> 01:43:49,680

the the books will crack open in the

2349

01:43:53,930 --> 01:43:51,630

files and yep we did have the meeting

2350

01:43:56,800 --> 01:43:53,940

Eisenhower did sit down with the aliens

2351

01:44:00,890 --> 01:43:56,810

that did occur you know irrefutable

2352

01:44:10,160 --> 01:44:00,900

written video proof do you think it's

2353

01:44:16,070 --> 01:44:10,170

going to happen you want my answer no I

2354

01:44:20,300 --> 01:44:16,080

want to go first I think that it will

2355

01:44:22,340 --> 01:44:20,310

not happen and you need an explanation

2356

01:44:24,580 --> 01:44:22,350

because I'd be happy to talk in circle

2357

01:44:27,350 --> 01:44:24,590

back Martin what do you think

2358

01:44:28,970 --> 01:44:27,360

you're basically so you're basically

2359

01:44:31,399 --> 01:44:28,980

asking the question that we're gonna

2360

01:44:33,819 --> 01:44:31,409

have disclosure is that is that we're

2361

01:44:36,439 --> 01:44:33,829

gonna finally have the ear just

2362

01:44:38,600 --> 01:44:36,449

unrefuted it's just going to be the

2363

01:44:40,640 --> 01:44:38,610

evidence in any of those formats that I

2364

01:44:42,379 --> 01:44:40,650

put up you know the the vehicle finally

2365

01:44:45,649 --> 01:44:42,389

unmasked and it lands and it you know

2366

01:44:48,770 --> 01:44:45,659

it's the the day the earth starts to

2367

01:44:50,720 --> 01:44:48,780

still type scenario or you know the

2368

01:44:52,520 --> 01:44:50,730

records that have been kept the programs

2369

01:44:56,030 --> 01:44:52,530

that have gone on the x-files kind of

2370

01:44:57,229 --> 01:44:56,040

thing that that's gone on occurs I don't

2371

01:44:59,000 --> 01:44:57,239

think that it's going to have anything

2372

01:45:03,470 --> 01:44:59,010

to do with our government like a lot of

2373

01:45:06,140 --> 01:45:03,480

people have bought into like and are

2374

01:45:08,959 --> 01:45:06,150

working hard like Steve Bassets job I

2375

01:45:10,040 --> 01:45:08,969

brought him up a few times I don't think

2376

01:45:13,490 --> 01:45:10,050

that we're going to have government

2377

01:45:16,580 --> 01:45:13,500

disclosure that we have aliens visiting

2378

01:45:20,689 --> 01:45:16,590

or have visited but I think that it may

2379

01:45:21,919 --> 01:45:20,699

reveal itself sooner or later I don't

2380

01:45:24,919 --> 01:45:21,929

know if it's going to be in my lifetime

2381

01:45:26,569 --> 01:45:24,929

or not so I think that's I think that

2382

01:45:29,780 --> 01:45:26,579

eventually that will happen it will

2383

01:45:31,370 --> 01:45:29,790

reveal itself that they are here all

2384

01:45:32,629 --> 01:45:31,380

right I got a question from the chat

2385

01:45:36,589 --> 01:45:32,639

room and I'm going to add a little bit

2386

01:45:39,260 --> 01:45:36,599

to it do both you think that human

2387

01:45:41,450 --> 01:45:39,270

beings are from Earth that they evolved

2388

01:45:42,950 --> 01:45:41,460

from the earth as a way out put it or do

2389

01:45:46,220 --> 01:45:42,960

you believe that we were planted here

2390

01:45:48,919 --> 01:45:46,230

seated or a combination where there's

2391

01:45:55,250 --> 01:45:48,929

been some kind of alteration I'll take

2392

01:45:58,069 --> 01:45:55,260

this one oh well I've been communicating

2393

01:45:59,569 --> 01:45:58,079

with the police Spiegel and on this and

2394

01:46:02,330 --> 01:45:59,579

I wanted to bring this up when I was in

2395

01:46:04,520 --> 01:46:02,340

high school I wrote an essay in English

2396

01:46:06,319 --> 01:46:04,530

and I actually got an a on it which was

2397

01:46:08,330 --> 01:46:06,329

a really page right in the language

2398

01:46:11,959 --> 01:46:08,340

English or was it in English class which

2399

01:46:13,310 --> 01:46:11,969

was gone English both okay yeah good

2400

01:46:14,569 --> 01:46:13,320

mark was gonna ask I could see him just

2401

01:46:16,669 --> 01:46:14,579

he was getting ready to come right

2402

01:46:20,899 --> 01:46:16,679

through the screen no now he's gonna put

2403

01:46:23,629 --> 01:46:20,909

oh no not me so I basically said the

2404

01:46:26,209 --> 01:46:23,639

reason that there are so many different

2405

01:46:29,379 --> 01:46:26,219

racers and they're so different around

2406

01:46:30,979 --> 01:46:29,389

the world is because we were seeded by

2407

01:46:33,919 --> 01:46:30,989

extraterrestrial I actually wrote that

2408

01:46:38,270 --> 01:46:33,929

in high school I forgot all about it

2409

01:46:40,730 --> 01:46:38,280

until I met a high

2410

01:46:44,270 --> 01:46:40,740

someone that allowed an insurance agent

2411

01:46:45,980 --> 01:46:44,280

of mine a broker who said that when he

2412

01:46:49,010 --> 01:46:45,990

was in Vietnam he actually worked in a

2413

01:46:51,740 --> 01:46:49,020

special special part of the Air Force

2414

01:46:55,370 --> 01:46:51,750

that studied UFOs and I remembered it

2415

01:46:56,780 --> 01:46:55,380

then because I said to him why are they

2416

01:46:59,060 --> 01:46:56,790

here and I said you know when I was in

2417

01:47:01,010 --> 01:46:59,070

high school I wrote this essay and I

2418

01:47:02,810 --> 01:47:01,020

told him that you know we were possibly

2419

01:47:05,450 --> 01:47:02,820

seeded different races to see how we'd

2420

01:47:07,700 --> 01:47:05,460

get along and he said that's kind of

2421

01:47:09,050 --> 01:47:07,710

what the this is what he said okay now I

2422

01:47:11,000 --> 01:47:09,060

don't know I could never find him again

2423

01:47:13,100 --> 01:47:11,010

but he said that's kind of what the

2424

01:47:16,580 --> 01:47:13,110

government thinks is things that were

2425

01:47:18,590 --> 01:47:16,590

more like a petri dish and I think it

2426
01:47:21,470 --> 01:47:18,600
was fascinating you know I mean whether

2427
01:47:23,900 --> 01:47:21,480
it's true or not I think it is a

2428
01:47:25,610 --> 01:47:23,910
possibility definitely that we are an

2429
01:47:27,800 --> 01:47:25,620
experiment and I've that's what Li

2430
01:47:29,180 --> 01:47:27,810
Spiegel just texted me more or less that

2431
01:47:31,970 --> 01:47:29,190
we're being watched to see how their

2432
01:47:34,120 --> 01:47:31,980
experiment goes I don't know Paul I

2433
01:47:36,950 --> 01:47:34,130
wouldn't want it I would I sure hope

2434
01:47:38,420 --> 01:47:36,960
we're not disappointing them I know I

2435
01:47:40,610 --> 01:47:38,430
I'm pretty disappointed when I see yeah

2436
01:47:44,420 --> 01:47:40,620
mark the the question to you your answer

2437
01:47:46,370 --> 01:47:44,430
sir well my answer is kind of

2438
01:47:48,280 --> 01:47:46,380

diametrically opposed I don't believe we

2439

01:47:52,030 --> 01:47:48,290

were seeded actually I think that we are

2440

01:47:56,120 --> 01:47:52,040

I think that you know you don't have to

2441

01:47:58,010 --> 01:47:56,130

you don't have to jump to aliens to see

2442

01:48:00,530 --> 01:47:58,020

what we have here as a normal outcome

2443

01:48:03,170 --> 01:48:00,540

for the different environments the

2444

01:48:05,240 --> 01:48:03,180

different continental you know

2445

01:48:07,940 --> 01:48:05,250

arrangements that different materials

2446

01:48:11,000 --> 01:48:07,950

and and so forth different amounts of

2447

01:48:13,820 --> 01:48:11,010

sunlight I think that the thing that's

2448

01:48:19,580 --> 01:48:13,830

most important here is that all you have

2449

01:48:21,020 --> 01:48:19,590

to do is well lick your forearm do we

2450

01:48:22,910 --> 01:48:21,030

have to do this on camera okay here we

2451
01:48:25,400 --> 01:48:22,920
go hey you look your forearm okay yeah

2452
01:48:26,630 --> 01:48:25,410
what do you taste don't don't be funny

2453
01:48:29,990 --> 01:48:26,640
now okay

2454
01:48:32,840 --> 01:48:30,000
what's the thing about your body okay

2455
01:48:35,060 --> 01:48:32,850
your body is salty right right you have

2456
01:48:36,620 --> 01:48:35,070
a salinity in your body do you know

2457
01:48:39,200 --> 01:48:36,630
where that comes from you know that

2458
01:48:41,000 --> 01:48:39,210
salinity yes it's a vestigial ocean that

2459
01:48:43,040 --> 01:48:41,010
we carry around in this organ we call

2460
01:48:44,840 --> 01:48:43,050
the skin because we were once in the

2461
01:48:47,780 --> 01:48:44,850
ocean when we evolved out of the ocean

2462
01:48:49,580 --> 01:48:47,790
we like turtles carried the water on our

2463
01:48:51,649 --> 01:48:49,590

back effectively except we called it you

2464

01:48:53,419 --> 01:48:51,659

know skin and

2465

01:48:55,549 --> 01:48:53,429

we carry that vestigial ocean around

2466

01:48:57,229 --> 01:48:55,559

with us every day and we have since

2467

01:49:01,339 --> 01:48:57,239

we've evolved out of the ocean that's

2468

01:49:05,330 --> 01:49:01,349

why that's why we have that salinity in

2469

01:49:09,049 --> 01:49:05,340

our skin all right now this is a this is

2470

01:49:12,020 --> 01:49:09,059

something that tells me that we evolved

2471

01:49:14,270 --> 01:49:12,030

here and I don't see any reason to to

2472

01:49:16,310 --> 01:49:14,280

suggest aliens had some kind of hand in

2473

01:49:18,500 --> 01:49:16,320

it I think that the planet and the

2474

01:49:20,569 --> 01:49:18,510

life-forms here are more than capable of

2475

01:49:22,399 --> 01:49:20,579

evolving themselves look at some of the

2476

01:49:23,689 --> 01:49:22,409

other life-forms that have evolved in

2477

01:49:26,000 --> 01:49:23,699

this planet that aren't human

2478

01:49:28,549 --> 01:49:26,010

but are animal some of these life-forms

2479

01:49:29,179 --> 01:49:28,559

have such an incredible evolutionary

2480

01:49:32,270 --> 01:49:29,189

tree

2481

01:49:34,729 --> 01:49:32,280

well did nobody help them yet they went

2482

01:49:37,489 --> 01:49:34,739

through this unbelievable turn of events

2483

01:49:40,520 --> 01:49:37,499

throughout their evolution and became

2484

01:49:43,609 --> 01:49:40,530

what they are all right and nothing

2485

01:49:44,839 --> 01:49:43,619

helped them along the way and that you'd

2486

01:49:47,659 --> 01:49:44,849

have to lump you'd have to literally

2487

01:49:49,489 --> 01:49:47,669

jump to say every bit of the life form

2488

01:49:52,520 --> 01:49:49,499

so that every life form no matter what

2489

01:49:54,049 --> 01:49:52,530

it is in this planet was seeded and you

2490

01:49:56,029 --> 01:49:54,059

you'd have to say that there was all of

2491

01:49:58,069 --> 01:49:56,039

them or none of them you can't just say

2492

01:49:59,989 --> 01:49:58,079

it was humans because that falls down on

2493

01:50:02,689 --> 01:49:59,999

the fact that we have this ocean within

2494

01:50:04,640 --> 01:50:02,699

us that we carry you know so you would

2495

01:50:07,580 --> 01:50:04,650

have to have seeded life on this planet

2496

01:50:10,399 --> 01:50:07,590

when there was just oh Sh ins on the

2497

01:50:12,739 --> 01:50:10,409

planet and I can't answer whether that

2498

01:50:14,629 --> 01:50:12,749

happened or not but I just know that

2499

01:50:18,259 --> 01:50:14,639

evolution has its own course that it

2500

01:50:19,850 --> 01:50:18,269

follows not every destination in

2501

01:50:22,580 --> 01:50:19,860

evolution is intelligence as we

2502

01:50:25,580 --> 01:50:22,590

obviously know well I'm driven on any

2503

01:50:28,879 --> 01:50:25,590

major road as of late or been on public

2504

01:50:31,279 --> 01:50:28,889

transportation brother that statement

2505

01:50:33,830 --> 01:50:31,289

there doctor there's that there's that

2506

01:50:36,229 --> 01:50:33,840

but my that's my point okay then you

2507

01:50:37,669 --> 01:50:36,239

know we don't need to leap to aliens and

2508

01:50:39,439 --> 01:50:37,679

I believe that aliens exist I believe

2509

01:50:41,060 --> 01:50:39,449

that there's alien life and fact I

2510

01:50:43,189 --> 01:50:41,070

believe they might even be here you know

2511

01:50:44,629 --> 01:50:43,199

wait like I said we're only five

2512

01:50:47,299 --> 01:50:44,639

thousand years into our written history

2513

01:50:49,879 --> 01:50:47,309

or so and you know again not counting

2514

01:50:52,790 --> 01:50:49,889

pictographs and petroglyphs and from

2515

01:50:55,069 --> 01:50:52,800

that position we can already see that we

2516

01:50:56,779 --> 01:50:55,079

can defeat that Lightspeed barrier you

2517

01:50:58,390 --> 01:50:56,789

know with some technology that that's a

2518

01:51:01,729 --> 01:50:58,400

little bit over our horizon right now

2519

01:51:03,819 --> 01:51:01,739

but because it's so favorable now

2520

01:51:05,569 --> 01:51:03,829

because it's come such a long way

2521

01:51:08,120 --> 01:51:05,579

there's

2522

01:51:11,120 --> 01:51:08,130

sunny white at NASA is investigating

2523

01:51:13,669 --> 01:51:11,130

this Froning Alcubierre drive which is

2524

01:51:15,379 --> 01:51:13,679

the warp drive right and and they've got

2525

01:51:16,939 --> 01:51:15,389

a funded lab to study this there's

2526

01:51:18,229 --> 01:51:16,949

there's a reason for that it's not

2527

01:51:19,430 --> 01:51:18,239

because they just want to play around

2528

01:51:21,470 --> 01:51:19,440

with this cool little thing that could

2529

01:51:22,790 --> 01:51:21,480

never happen they're playing around with

2530

01:51:25,010 --> 01:51:22,800

this because they think it's actually

2531

01:51:26,899 --> 01:51:25,020

the weight of the stars and that's it

2532

01:51:29,149 --> 01:51:26,909

with a civilization that's basically

2533

01:51:31,189 --> 01:51:29,159

five thousand you know five thousand

2534

01:51:33,620 --> 01:51:31,199

years old in its written history okay so

2535

01:51:35,180 --> 01:51:33,630

we've got a we make some really good

2536

01:51:36,319 --> 01:51:35,190

leaps and then we sometimes will

2537

01:51:38,569 --> 01:51:36,329

stagnate for a while then we make some

2538

01:51:40,280 --> 01:51:38,579

more leaps you know and the whole

2539

01:51:41,810 --> 01:51:40,290

question of reaching a certain you know

2540

01:51:43,459 --> 01:51:41,820

a point where it's a singularity where

2541

01:51:45,379 --> 01:51:43,469

we can't depend on humans anymore we

2542

01:51:47,600 --> 01:51:45,389

have to go to machines to do something

2543

01:51:49,520 --> 01:51:47,610

for us to take us that next step that's

2544

01:51:51,799 --> 01:51:49,530

certainly on its way and we've also

2545

01:51:53,450 --> 01:51:51,809

faced that already a few times so you

2546

01:51:55,520 --> 01:51:53,460

know we're already facing down these

2547

01:51:58,310 --> 01:51:55,530

these problems that some advanced

2548

01:52:00,770 --> 01:51:58,320

species have have and we're doing this

2549

01:52:03,799 --> 01:52:00,780

on our terms and we're actually able to

2550

01:52:06,260 --> 01:52:03,809

do it you know so far so I'm convinced

2551

01:52:08,990 --> 01:52:06,270

that we weren't seated I'm convinced

2552

01:52:11,120 --> 01:52:09,000

that we're gonna find the technology to

2553

01:52:14,060 --> 01:52:11,130

go other stars just as another race

2554

01:52:14,750 --> 01:52:14,070

probably did because we came along 4.6

2555

01:52:18,799 --> 01:52:14,760

billion years ago

2556

01:52:20,540 --> 01:52:18,809

well the galaxy was here you know the

2557

01:52:23,839 --> 01:52:20,550

universe rather was here over nine

2558

01:52:25,879 --> 01:52:23,849

billion years before that so we know

2559

01:52:28,910 --> 01:52:25,889

that there are planets out there that

2560

01:52:33,140 --> 01:52:28,920

are literally over 12 billion years old

2561

01:52:35,299 --> 01:52:33,150

planets are we found so that that tells

2562

01:52:36,740 --> 01:52:35,309

me that life existed from early early in

2563

01:52:39,740 --> 01:52:36,750

the universe our life could have existed

2564

01:52:42,950 --> 01:52:39,750

from early on in the universe and who

2565

01:52:44,240 --> 01:52:42,960

knows how far they developed see when

2566

01:52:46,850 --> 01:52:44,250

you really know how to burst a bubble

2567

01:52:48,799 --> 01:52:46,860

don't you I'm not trying to burst a

2568

01:52:50,720 --> 01:52:48,809

bubble I know I'm just I'm just giving

2569

01:52:52,580 --> 01:52:50,730

you a hard time just well you know I

2570

01:52:56,510 --> 01:52:52,590

told commander the Lucas forum if you

2571

01:52:58,819 --> 01:52:56,520

want you can lick your armpit he came

2572

01:53:00,830 --> 01:52:58,829

with a helmet on though you know he's ya

2573

01:53:04,069 --> 01:53:00,840

know he was directing that to you Martin

2574

01:53:06,890 --> 01:53:04,079

oh I stopped at the forearm there's no

2575

01:53:08,330 --> 01:53:06,900

reason to prove how flexible I am but I

2576

01:53:10,819 --> 01:53:08,340

could get my head in the helmet to my

2577

01:53:11,479 --> 01:53:10,829

armpit if I had to know it's not gonna

2578

01:53:12,919 --> 01:53:11,489

happen tonight

2579

01:53:15,140 --> 01:53:12,929

so much too much information here I

2580

01:53:19,100 --> 01:53:15,150

don't need that well you're the one that

2581

01:53:21,590 --> 01:53:19,110

started I'm okay I'm

2582

01:53:24,080 --> 01:53:21,600

and yes he's talking to us from

2583

01:53:26,150 --> 01:53:24,090

Connecticut with this attitude yeah this

2584

01:53:29,720 --> 01:53:26,160

is exact course yeah they always do that

2585

01:53:31,850 --> 01:53:29,730

nice Manor yeah that's exactly what I'm

2586

01:53:34,790 --> 01:53:31,860

talking about yeah are you kidding me

2587

01:53:37,100 --> 01:53:34,800

I'm uh I used to go to poor Clyde Maine

2588

01:53:38,780 --> 01:53:37,110

every summer for for the summer because

2589

01:53:41,480 --> 01:53:38,790

that's where my family was the entire

2590

01:53:43,370 --> 01:53:41,490

town of Port Authority relative yeah yep

2591

01:53:46,130 --> 01:53:43,380

I remember you told ya right and now

2592

01:53:48,370 --> 01:53:46,140

they're taking over by l.l.bean my

2593

01:53:51,530 --> 01:53:48,380

cousin's general store was bought by

2594

01:53:54,620 --> 01:53:51,540

beans something or other some woman

2595

01:53:56,000 --> 01:53:54,630

there forget a first name and then we're

2596

01:53:57,620 --> 01:53:56,010

not going to discuss bean because

2597

01:54:00,320 --> 01:53:57,630

they're not contributing to the

2598

01:54:01,370 --> 01:54:00,330

capitalistic side of this enterprise

2599

01:54:04,420 --> 01:54:01,380

anymore

2600

01:54:06,680 --> 01:54:04,430

oh so that's that's it all right

2601
01:54:08,270 --> 01:54:06,690
gentlemen we're down to our last two

2602
01:54:10,310 --> 01:54:08,280
minutes marks gonna be rolling and

2603
01:54:13,400 --> 01:54:10,320
getting ready for his show so let's

2604
01:54:14,960 --> 01:54:13,410
let's round the the wheel here Martin

2605
01:54:17,690 --> 01:54:14,970
obviously I'm gonna have to get you on

2606
01:54:20,630 --> 01:54:17,700
again this was way too fast it was a lot

2607
01:54:24,230 --> 01:54:20,640
of fun and I really enjoyed your Martin

2608
01:54:25,730 --> 01:54:24,240
flip the tables on me like you mark you

2609
01:54:28,610 --> 01:54:25,740
know put questions to me it had me

2610
01:54:32,750 --> 01:54:28,620
answer stuff so old habits die hard

2611
01:54:34,940 --> 01:54:32,760
yeah he's got he reminds me of those

2612
01:54:37,850 --> 01:54:34,950
guys to Stassi when East Germany was

2613
01:54:38,930 --> 01:54:37,860

East Germany yeah well you know he's got

2614

01:54:41,000 --> 01:54:38,940

a great interview style though

2615

01:54:43,580 --> 01:54:41,010

nonetheless okay he's not quite as bad

2616

01:54:45,440 --> 01:54:43,590

okay is them for sure yeah he's actually

2617

01:54:47,000 --> 01:54:45,450

quite good though he smiles all like the

2618

01:54:50,960 --> 01:54:47,010

Stasi guys at the gates when these

2619

01:54:53,450 --> 01:54:50,970

across in there oh you have cigarettes

2620

01:54:56,780 --> 01:54:53,460

yes yes I have cigarettes do you may go

2621

01:54:58,730 --> 01:54:56,790

then your papers they're not in order

2622

01:55:00,680 --> 01:54:58,740

speaking of papers being in order we

2623

01:55:02,510 --> 01:55:00,690

were joined by Mark Dantonio who's gonna

2624

01:55:04,430 --> 01:55:02,520

have his show coming up sky tour will be

2625

01:55:06,470 --> 01:55:04,440

on right after this show is going

2626

01:55:08,060 --> 01:55:06,480

fantastic you both have great shows I

2627

01:55:10,190 --> 01:55:08,070

hope the folks that when they're not

2628

01:55:13,610 --> 01:55:10,200

here at Task Force Griffin are taking

2629

01:55:15,650 --> 01:55:13,620

advantage of the podcast and doing some

2630

01:55:20,720 --> 01:55:15,660

live with you both I thank you both for

2631

01:55:23,300 --> 01:55:20,730

being guests tonight thank you it's do

2632

01:55:24,830 --> 01:55:23,310

this again good to see moving in as ex

2633

01:55:26,360 --> 01:55:24,840

lady likes to put it another three way

2634

01:55:28,070 --> 01:55:26,370

I'm not sure what she's talking about

2635

01:55:32,259 --> 01:55:28,080

but she seemed to be pretty happy with

2636

01:55:39,669 --> 01:55:37,149

once again I salute thank you very much

2637

01:55:41,290 --> 01:55:39,679

it's been a wonderful show with both you

2638

01:55:43,479 --> 01:55:41,300

and to the greatest audience on the
