[Music]

2
00:00:30,210 --> 00:00:27,600

hello and welcome to the show on Martin

3
00:00:32,070 --> 00:00:30,220

Willis your host we have a fun show this

4
00:00:35,880 --> 00:00:32,080

evening we're going to be talking us ohs

5
00:00:38,340 --> 00:00:35,890

with Preston Tennant repeat guest always

6
00:00:40,560 --> 00:00:38,350

fun to have on the show so I want to

7
00:00:44,040 --> 00:00:40,570

thank everyone who supports us and

8
00:00:46,470 --> 00:00:44,050

people who cannot support the show you

9
00:00:49,920 --> 00:00:46,480

can always listen to the full two hours

10
00:00:52,880 --> 00:00:49,930

free every every Wednesday night live at

11
00:00:55,770 --> 00:00:52,890

podcast UFO comm 8:00 to 10:00 p.m.

12
00:00:59,040 --> 00:00:55,780

Eastern Standard Time also on our

13
00:01:00,959 --> 00:00:59,050

youtube channel at the same time you can

14

00:01:03,510 --> 00:01:00,969

also listen on the Dark Matter digital

15

00:01:05,280 --> 00:01:03,520

network every Thursday at 10:00 to

16

00:01:08,850 --> 00:01:05,290

midnight and that's also Eastern

17

00:01:11,670 --> 00:01:08,860

Standard Time speaking of that I think

18

00:01:13,170 --> 00:01:11,680

we are the longest-running possibly the

19

00:01:15,719 --> 00:01:13,180

longest-running show at least that's

20

00:01:18,630 --> 00:01:15,729

still on there in the dark metal matter

21

00:01:20,790 --> 00:01:18,640

digital network and that show was

22

00:01:23,100 --> 00:01:20,800

initiated by Keith Roland to give art

23

00:01:27,779 --> 00:01:23,110

Bell and his Midnight in the desert show

24

00:01:30,510 --> 00:01:27,789

a place to a place to land and to a home

25

00:01:35,279 --> 00:01:30,520

base after his contract finally expired

26
00:01:37,650 --> 00:01:35,289
with Sirius XM so I retired as you know

27
00:01:40,350 --> 00:01:37,660
after sin on the network Heather Wade

28
00:01:43,199 --> 00:01:40,360
came in filled in for him did a nice job

29
00:01:45,089 --> 00:01:43,209
and but recently with the loss of art

30
00:01:47,639 --> 00:01:45,099
though unfortunately on April 13th

31
00:01:51,690 --> 00:01:47,649
Heather decided not to come back so

32
00:01:54,210 --> 00:01:51,700
Keith made a decision to let the show go

33
00:01:56,730 --> 00:01:54,220
on and it's my pleasure to announce that

34
00:02:00,180 --> 00:01:56,740
he has a great replacement host Dave

35
00:02:02,850 --> 00:02:00,190
Schrader of Darkness radio I'm pretty

36
00:02:04,979 --> 00:02:02,860
excited about that really like Dave a

37
00:02:09,330 --> 00:02:04,989
lot he's one of the really good people

38
00:02:11,820 --> 00:02:09,340

out there that dive into this topic he

39

00:02:13,530 --> 00:02:11,830

also does he also does true crime

40

00:02:17,640 --> 00:02:13,540

tuesdays is going to keep that going

41

00:02:19,440 --> 00:02:17,650

which I'm real actually really glad that

42

00:02:23,040 --> 00:02:19,450

I kept my midnight in the desert

43

00:02:25,830 --> 00:02:23,050

subscription I and excited to listen to

44

00:02:28,500 --> 00:02:25,840

Dave as a podcast and anyone can listen

45

00:02:30,330 --> 00:02:28,510

to the full shows on midnight in the

46

00:02:32,220 --> 00:02:30,340

desert that's a weeknight especially if

47

00:02:35,260 --> 00:02:32,230

you're a night owl I should say that

48

00:02:37,210 --> 00:02:35,270

starts at midnight Eastern Standard Time

49

00:02:41,700 --> 00:02:37,220

and you can subscribe like I do to a

50

00:02:44,110 --> 00:02:41,710

podcast so they're great shows ahead and

51
00:02:47,290 --> 00:02:44,120
anyway I tried to get him to pop on and

52
00:02:50,980 --> 00:02:47,300
say hi he's a very busy guy a little

53
00:02:53,290 --> 00:02:50,990
tiny bit of housekeeping here last week

54
00:02:56,500 --> 00:02:53,300
I mentioned to the listener out there

55
00:02:59,920 --> 00:02:56,510
that I had some hacking problems and I

56
00:03:02,860 --> 00:02:59,930
made my website super super secure I

57
00:03:05,170 --> 00:03:02,870
made it to secure actually the settings

58
00:03:06,940 --> 00:03:05,180
on the firewall kind of booted it didn't

59
00:03:10,000 --> 00:03:06,950
kind of blew this off it booted us off

60
00:03:12,490 --> 00:03:10,010
iTunes so that's really not going to

61
00:03:15,070 --> 00:03:12,500
affect anyone that's subscribed and

62
00:03:18,010 --> 00:03:15,080
listening you know through your media

63
00:03:19,870 --> 00:03:18,020

player but if you listen on iTunes

64

00:03:22,240 --> 00:03:19,880

itself I'm talking about the free show

65

00:03:25,300 --> 00:03:22,250

that is this does not affect any

66

00:03:29,230 --> 00:03:25,310

subscribers so if you listen to the free

67

00:03:30,580 --> 00:03:29,240

show on iTunes or download the mp3 it

68

00:03:33,250 --> 00:03:30,590

will not be there for a couple of days

69

00:03:35,950 --> 00:03:33,260

now we did get our feed our our SS feet

70

00:03:38,410 --> 00:03:35,960

it's called RIA proved and it's

71

00:03:40,480 --> 00:03:38,420

submitted but I just got to notice

72

00:03:43,840 --> 00:03:40,490

yesterday from iTunes they say it takes

73

00:03:46,650 --> 00:03:43,850

up to five days for that to come back so

74

00:03:48,790 --> 00:03:46,660

should be on back in a couple of days

75

00:03:51,640 --> 00:03:48,800

well that's it for the housekeeping

76

00:03:52,510 --> 00:03:51,650

alejandro welcome to the show hello

77

00:03:55,180 --> 00:03:52,520

thank you

78

00:03:58,390 --> 00:03:55,190

hey you know what I just thought of the

79

00:04:00,790 --> 00:03:58,400

people that can't get the show on iTunes

80

00:04:05,110 --> 00:04:00,800

they can't hear me say what I just said

81

00:04:08,460 --> 00:04:05,120

so all the people it's gonna affect they

82

00:04:12,700 --> 00:04:08,470

can't even hear that I said that well

83

00:04:14,830 --> 00:04:12,710

anyway what can you do yeah that's the

84

00:04:17,260 --> 00:04:14,840

way it goes so you're not on video this

85

00:04:20,140 --> 00:04:17,270

week you're no place is getting a lot

86

00:04:22,800 --> 00:04:20,150

done or something yeah the kitchen is

87

00:04:28,240 --> 00:04:22,810

getting worked on on the space station

88

00:04:30,940 --> 00:04:28,250

here and and we're we're so far on the

89

00:04:33,670 --> 00:04:30,950

other side of the galaxy that the signal

90

00:04:35,890 --> 00:04:33,680

could not completely reach so it sounds

91

00:04:38,680 --> 00:04:35,900

a little different and there was so much

92

00:04:42,520 --> 00:04:38,690

racket I had to go to a different room

93

00:04:45,610 --> 00:04:42,530

and the the space station this room does

94

00:04:47,740 --> 00:04:45,620

not have cameras that's Joe and it'd be

95

00:04:48,920 --> 00:04:47,750

really hard eyes must be hard to get

96

00:04:51,320 --> 00:04:48,930

good help out there

97

00:04:53,450 --> 00:04:51,330

you know mm-hmm yeah just that one

98

00:04:55,520 --> 00:04:53,460

airlock kind of area that you all

99

00:04:59,450 --> 00:04:55,530

typically see is the only one with that

100

00:05:00,770 --> 00:04:59,460

with that computer with a camera on in

101
00:05:03,020 --> 00:05:00,780
the kitchen in the background you can't

102
00:05:07,580 --> 00:05:03,030
see the kitchen yeah the kitchens on the

103
00:05:09,170 --> 00:05:07,590
other side of that beautiful kitchen now

104
00:05:11,420 --> 00:05:09,180
especially because it's getting worked

105
00:05:14,260 --> 00:05:11,430
out so you might even hear once in a

106
00:05:16,760 --> 00:05:14,270
while the nail gun going off actually

107
00:05:19,969 --> 00:05:16,770
all right so what's going on in the UFO

108
00:05:22,460 --> 00:05:19,979
world oh there's a little other stuff

109
00:05:23,779 --> 00:05:22,470
going on in the UFO world I guess one

110
00:05:25,460 --> 00:05:23,789
thing to talk about that I think is

111
00:05:28,900 --> 00:05:25,470
important and it's interesting where

112
00:05:32,600 --> 00:05:28,910
this article showed up but it's on the

113
00:05:34,850 --> 00:05:32,610

online kind of magazine news magazine

114

00:05:36,950 --> 00:05:34,860

called now and I think this is really

115

00:05:38,890 --> 00:05:36,960

cool being someone who's into PR and

116

00:05:43,249 --> 00:05:38,900

stuff they kind of have their own

117

00:05:46,939 --> 00:05:43,259

Northup groomin has its own kind of news

118

00:05:48,529 --> 00:05:46,949

magazine site called now and where they

119

00:05:51,469 --> 00:05:48,539

write some news I just think that's kind

120

00:05:53,870 --> 00:05:51,479

of cool cuz you know sometimes it's

121

00:05:56,870 --> 00:05:53,880

harder for corporations to get news out

122

00:05:59,629 --> 00:05:56,880

like I recently did a thing with 3m and

123

00:06:01,850 --> 00:05:59,639

they have some interesting science so

124

00:06:03,680 --> 00:06:01,860

doing their own kind of thing as it's

125

00:06:08,600 --> 00:06:03,690

kind of neat I think and and this is an

126
00:06:10,399 --> 00:06:08,610
example of a great story that has come

127
00:06:13,879 --> 00:06:10,409
out because of that and this is

128
00:06:15,950 --> 00:06:13,889
regarding fast radio bursts so you and I

129
00:06:18,170 --> 00:06:15,960
have talked about this before these are

130
00:06:21,230 --> 00:06:18,180
these radio signals that they've been

131
00:06:23,330 --> 00:06:21,240
able to hear some of the first people to

132
00:06:25,480 --> 00:06:23,340
get them are our SETI search for

133
00:06:28,760 --> 00:06:25,490
extraterrestrial intelligence and

134
00:06:32,390 --> 00:06:28,770
different cosmic bodies essentially out

135
00:06:35,330 --> 00:06:32,400
there Suns Nova's all of these things

136
00:06:38,330 --> 00:06:35,340
kind of create they create radio waves

137
00:06:40,879 --> 00:06:38,340
that travel throughout space and we

138
00:06:42,710 --> 00:06:40,889

listen in on those now if you're an

139

00:06:44,620 --> 00:06:42,720

astronomer you're listening in on those

140

00:06:48,760 --> 00:06:44,630

to kind of get an idea of the nature of

141

00:06:51,020 --> 00:06:48,770

this you know thing you're listening to

142

00:06:53,300 --> 00:06:51,030

but if your SETI the search for

143

00:06:56,510 --> 00:06:53,310

extraterrestrial intelligence you're

144

00:06:57,950 --> 00:06:56,520

listening for signals that have some

145

00:06:59,740 --> 00:06:57,960

sort of signature that they may come

146

00:07:02,000 --> 00:06:59,750

from an intelligent civilization

147

00:07:02,879 --> 00:07:02,010

especially if it's the same signal

148

00:07:04,709 --> 00:07:02,889

repeating

149

00:07:07,499 --> 00:07:04,719

if it's powerful and it's the same

150

00:07:10,439 --> 00:07:07,509

signal repeating exactly the same over

151

00:07:13,320 --> 00:07:10,449

and over again they received some

152

00:07:16,260 --> 00:07:13,330

signals they weren't repeating over and

153

00:07:18,540 --> 00:07:16,270

over exactly but they were very strong

154

00:07:19,980 --> 00:07:18,550

coming from and they weren't of a nature

155

00:07:21,480 --> 00:07:19,990

that they could understand what they

156

00:07:23,550 --> 00:07:21,490

were they didn't sound like anything

157

00:07:25,950 --> 00:07:23,560

we've listened to before so this was

158

00:07:28,619 --> 00:07:25,960

sort of a mystery now part of this

159

00:07:31,110 --> 00:07:28,629

mystery was discovered some of these

160

00:07:32,939 --> 00:07:31,120

were discovered to be they because they

161

00:07:34,800 --> 00:07:32,949

were happening at the same time every

162

00:07:37,110 --> 00:07:34,810

day but it turned out one of the

163

00:07:40,080 --> 00:07:37,120

astronomers was turning on the microwave

164

00:07:44,010 --> 00:07:40,090

and he damped their lunch and that's

165

00:07:45,719 --> 00:07:44,020

what caused some of being sent so but we

166

00:07:49,529 --> 00:07:45,729

only had a few that were truly anomalous

167

00:07:51,980 --> 00:07:49,539

and then this russian billionaire who

168

00:07:54,719 --> 00:07:51,990

decided to help out with a search for

169

00:07:58,019 --> 00:07:54,729

extraterrestrials and essentially he was

170

00:07:59,850 --> 00:07:58,029

but funded more telescopes to listen for

171

00:08:02,730 --> 00:07:59,860

more of these things and they retrieved

172

00:08:04,080 --> 00:08:02,740

a bunch more and so the mystery was even

173

00:08:06,089 --> 00:08:04,090

bigger it's like wow you know we're

174

00:08:07,890 --> 00:08:06,099

getting even more of these signals well

175

00:08:10,829 --> 00:08:07,900

now in this article that just came out

176

00:08:14,010 --> 00:08:10,839

on May 3rd so just a few days ago they

177

00:08:17,700 --> 00:08:14,020

have narrowed down where these radio

178

00:08:23,070 --> 00:08:17,710

waves are coming from and they figure

179

00:08:27,170 --> 00:08:23,080

that this might be from a certain type

180

00:08:30,450 --> 00:08:27,180

of Sun essentially so what they're

181

00:08:32,300 --> 00:08:30,460

essentially have decided is that they

182

00:08:34,409 --> 00:08:32,310

think that it's coming from like a

183

00:08:41,990 --> 00:08:34,419

supernova

184

00:08:43,740 --> 00:08:42,000

long with long gamma ray bursts so

185

00:08:46,230 --> 00:08:43,750

they're getting closer to discovering

186

00:08:48,480 --> 00:08:46,240

what it was the bummer is of course it's

187

00:08:51,630 --> 00:08:48,490

not alien because people were thinking

188

00:08:54,210 --> 00:08:51,640

and even scientists were theorizing that

189

00:08:57,120 --> 00:08:54,220

maybe these are alien signals but

190

00:09:00,810 --> 00:08:57,130

they're getting closer to possibly not a

191

00:09:04,189 --> 00:09:00,820

an alien signal they don't know exactly

192

00:09:10,050 --> 00:09:04,199

but they're getting closer to an answer

193

00:09:13,350 --> 00:09:10,060

so how can they get closer to an answer

194

00:09:15,630 --> 00:09:13,360

just is that by just you know repeating

195

00:09:16,790 --> 00:09:15,640

what they're doing or or yeah

196

00:09:18,560 --> 00:09:16,800

essentially is

197

00:09:21,500 --> 00:09:18,570

what do they do is they narrow down

198

00:09:23,269 --> 00:09:21,510

where it's coming from so when you don't

199

00:09:25,730 --> 00:09:23,279

get many of these signals it's hard to

200

00:09:27,410 --> 00:09:25,740

know exactly where it's from and and if

201
00:09:30,250 --> 00:09:27,420
you get them from one telescope if you

202
00:09:32,840 --> 00:09:30,260
use multiple telescopes to listen in to

203
00:09:35,120 --> 00:09:32,850
this one area and essentially that's

204
00:09:39,230 --> 00:09:35,130
what Milner has to do is pay these

205
00:09:42,680 --> 00:09:39,240
people for telescope time so they can

206
00:09:45,139 --> 00:09:42,690
focus it at this certain area and then

207
00:09:47,870 --> 00:09:45,149
receive some more of those signals and

208
00:09:50,210 --> 00:09:47,880
then they can study them two more

209
00:09:53,079 --> 00:09:50,220
signals that they get and that's how

210
00:09:57,259 --> 00:09:53,089
they're able to get closer to an answer

211
00:09:58,610 --> 00:09:57,269
yeah I know it seems like whenever the

212
00:10:00,110 --> 00:09:58,620
day and you know I've talked about this

213
00:10:02,600 --> 00:10:00,120

too whenever they think they discover

214

00:10:05,019 --> 00:10:02,610

something new and outrageous there

215

00:10:06,880 --> 00:10:05,029

always seems to be you know a natural

216

00:10:09,290 --> 00:10:06,890

unusual unheard-of

217

00:10:11,449 --> 00:10:09,300

way that this happens going all the way

218

00:10:13,600 --> 00:10:11,459

back since the beginning of astronomy

219

00:10:16,460 --> 00:10:13,610

you know they keep discovering things

220

00:10:19,009 --> 00:10:16,470

well it's funny and it is interesting

221

00:10:21,500 --> 00:10:19,019

because you're exactly right like you

222

00:10:24,769 --> 00:10:21,510

know with astronomy with a lot of types

223

00:10:28,460 --> 00:10:24,779

of science we predict we run models we

224

00:10:30,910 --> 00:10:28,470

have math and we think often we as

225

00:10:34,010 --> 00:10:30,920

humans or scientists think that they

226

00:10:35,329 --> 00:10:34,020

understand much about nature so when

227

00:10:37,519 --> 00:10:35,339

they get something that they can't

228

00:10:40,010 --> 00:10:37,529

explain or it's way out of the scope of

229

00:10:43,639 --> 00:10:40,020

what they expect to be out there they it

230

00:10:46,280 --> 00:10:43,649

kind of really blows their mind and and

231

00:10:49,250 --> 00:10:46,290

that's why at least in today's world

232

00:10:51,620 --> 00:10:49,260

that's was kind of more exciting is they

233

00:10:54,470 --> 00:10:51,630

speculate more and more often in

234

00:10:56,780 --> 00:10:54,480

scientific circle that hey maybe this is

235

00:10:59,540 --> 00:10:56,790

aliens I don't know if this is that

236

00:11:01,370 --> 00:10:59,550

Giorgio tsoukalos is fault that people

237

00:11:03,710 --> 00:11:01,380

are thinking Balian smore but they're

238

00:11:05,240 --> 00:11:03,720

like wow maybe this is aliens so it's

239

00:11:07,250 --> 00:11:05,250

interesting that they're willing to go

240

00:11:10,130 --> 00:11:07,260

there when it comes to speculation but

241

00:11:13,160 --> 00:11:10,140

you're right it often turns out to be a

242

00:11:16,160 --> 00:11:13,170

natural occurrence because science and

243

00:11:19,550 --> 00:11:16,170

especially in astronomy proves over and

244

00:11:21,530 --> 00:11:19,560

over again that reality than the nature

245

00:11:24,130 --> 00:11:21,540

or what's going on out there is much

246

00:11:27,199 --> 00:11:24,140

much stranger than we could ever imagine

247

00:11:29,329 --> 00:11:27,209

and so you know that's how discoveries

248

00:11:30,610 --> 00:11:29,339

are made but it is cool that they're

249

00:11:34,990 --> 00:11:30,620

going to the alien thing

250

00:11:38,230 --> 00:11:35,000

and of course it would be exciting and I

251
00:11:40,750 --> 00:11:38,240
think you know many of people who listen

252
00:11:42,610 --> 00:11:40,760
to our shows are expecting that you know

253
00:11:44,830 --> 00:11:42,620
it's possible any moment now they could

254
00:11:47,710 --> 00:11:44,840
come out and say hey turns out these are

255
00:11:51,430 --> 00:11:47,720
aliens now these things are so far away

256
00:11:54,100 --> 00:11:51,440
that the signals that we're getting are

257
00:11:56,350 --> 00:11:54,110
very very old something like millions of

258
00:11:59,080 --> 00:11:56,360
years I know I so would wasn't a three

259
00:12:00,940 --> 00:11:59,090
billion something like that yeah you're

260
00:12:02,980 --> 00:12:00,950
probably right cuz I remember we

261
00:12:05,020 --> 00:12:02,990
discussed this before but that would

262
00:12:06,910 --> 00:12:05,030
mean but that would still be exciting

263
00:12:11,590 --> 00:12:06,920

think of that we find evidence that

264

00:12:15,160 --> 00:12:11,600

there was a culture out there three

265

00:12:18,970 --> 00:12:15,170

billion years ago there are those that

266

00:12:21,760 --> 00:12:18,980

would be fascinating yeah I remember

267

00:12:24,520 --> 00:12:21,770

talking to Seth Shostak about the WoW

268

00:12:25,990 --> 00:12:24,530

signal and he said it was no big deal

269

00:12:28,780 --> 00:12:26,000

and it just got all of the attention

270

00:12:32,740 --> 00:12:28,790

because of the astronomer writing Wow

271

00:12:35,920 --> 00:12:32,750

next to it do you know what the but

272

00:12:39,760 --> 00:12:35,930

there's been some talk about that our

273

00:12:41,380 --> 00:12:39,770

people yeah there was a go ahead oh no

274

00:12:43,360 --> 00:12:41,390

what was interesting is I think what

275

00:12:45,940 --> 00:12:43,370

you're talking about is not too long ago

276

00:12:48,580 --> 00:12:45,950

Antonio Paris who's actually someone who

277

00:12:50,860 --> 00:12:48,590

did some MUFON investigating and started

278

00:12:53,110 --> 00:12:50,870

his own paranormal group he's an

279

00:12:55,300 --> 00:12:53,120

astronomer actually he's trying to

280

00:12:58,150 --> 00:12:55,310

become an astronaut right now and he's

281

00:12:59,470 --> 00:12:58,160

gaining some ground really cool every

282

00:13:00,850 --> 00:12:59,480

people should bomb him because one of

283

00:13:03,970 --> 00:13:00,860

the cool things he's from Puerto Rico

284

00:13:07,720 --> 00:13:03,980

and he's been raising money and going

285

00:13:10,060 --> 00:13:07,730

back there and helping people you know

286

00:13:12,700 --> 00:13:10,070

because they're still out of power in

287

00:13:14,290 --> 00:13:12,710

many places and people are still

288

00:13:16,420 --> 00:13:14,300

struggling so it's really cool that he's

289

00:13:19,540 --> 00:13:16,430

been doing that and I wish him all the

290

00:13:21,580 --> 00:13:19,550

luck uh Acutes a great guest too if

291

00:13:24,400 --> 00:13:21,590

you've never had him on your show I have

292

00:13:28,540 --> 00:13:24,410

before but he did and I and on this

293

00:13:31,960 --> 00:13:28,550

topic he speculated that the WoW signal

294

00:13:34,360 --> 00:13:31,970

was some sort of comet or a key figured

295

00:13:36,370 --> 00:13:34,370

he figured out what that wow signal is

296

00:13:38,970 --> 00:13:36,380

because they still don't know exactly

297

00:13:44,290 --> 00:13:38,980

what it was and interestingly enough

298

00:13:51,640 --> 00:13:48,220

the mystery of it he said Antonio Parris

299

00:13:53,470 --> 00:13:51,650

was wrong in this paper that he wrote

300

00:13:55,870 --> 00:13:53,480

and he submitted to a peer review

301
00:14:00,040 --> 00:13:55,880
article and he says no that the WoW

302
00:14:02,860 --> 00:14:00,050
signal is still unknown of unknown

303
00:14:03,400 --> 00:14:02,870
origin so he may have downplayed it to

304
00:14:06,160 --> 00:14:03,410
you

305
00:14:09,790 --> 00:14:06,170
but he he defended it recently saying no

306
00:14:12,130 --> 00:14:09,800
it's still weird so he did so he it's

307
00:14:13,750 --> 00:14:12,140
fraught it's more important it depends

308
00:14:16,120 --> 00:14:13,760
on probably the person he's talking to

309
00:14:18,130 --> 00:14:16,130
you he wants to dissuade people like you

310
00:14:21,160 --> 00:14:18,140
from going down the extraterrestrial

311
00:14:23,860 --> 00:14:21,170
route necessarily but at the same time

312
00:14:26,440 --> 00:14:23,870
he wants to keep that Wonder alive

313
00:14:30,160 --> 00:14:26,450

because that's what they do they're

314

00:14:32,440 --> 00:14:30,170

looking for eg signals so he kind of

315

00:14:34,720 --> 00:14:32,450

plays both sides of the fence there but

316

00:14:36,880 --> 00:14:34,730

that's probably the news you were

317

00:14:39,190 --> 00:14:36,890

thinking of that's fairly recent well

318

00:14:41,190 --> 00:14:39,200

you know I think the next time I talk to

319

00:14:44,650 --> 00:14:41,200

stuff I'm gonna use reverse psychology

320

00:14:46,570 --> 00:14:44,660

that's a great idea helps no city lines

321

00:14:48,960 --> 00:14:46,580

aliens or UFOs stuff what are you

322

00:14:51,700 --> 00:14:48,970

talking yeah why are you working there

323

00:14:53,740 --> 00:14:51,710

yeah you should even approach him and be

324

00:14:55,990 --> 00:14:53,750

like well they figured out what that was

325

00:14:58,360 --> 00:14:56,000

didn't think that and you're like wait a

326

00:15:00,970 --> 00:14:58,370

minute and then you can turn it out of

327

00:15:03,190 --> 00:15:00,980

me and be like so it is aliens yeah yeah

328

00:15:06,820 --> 00:15:03,200

what's your answers to that yeah yeah

329

00:15:08,520 --> 00:15:06,830

get that sign up again anything else out

330

00:15:10,570 --> 00:15:08,530

on we just got a few minutes left here

331

00:15:12,370 --> 00:15:10,580

okay yeah there's a lot of other

332

00:15:14,290 --> 00:15:12,380

interesting stuff going on of course you

333

00:15:15,940 --> 00:15:14,300

could go to open minds to that TV and

334

00:15:18,040 --> 00:15:15,950

look at the daily headlines and see some

335

00:15:22,000 --> 00:15:18,050

of this stuff or I know you post links

336

00:15:25,180 --> 00:15:22,010

as well on your social media but some

337

00:15:26,830 --> 00:15:25,190

really interesting stuff over and from

338

00:15:28,570 --> 00:15:26,840

the i-team from George Knapp in

339

00:15:31,510 --> 00:15:28,580

particular who's of course a a

340

00:15:32,620 --> 00:15:31,520

journalist with klas and also

341

00:15:35,410 --> 00:15:32,630

occasionally hosts

342

00:15:37,300 --> 00:15:35,420

coast-to-coast am but this is news that

343

00:15:39,130 --> 00:15:37,310

was kind of ink ink lling out from the

344

00:15:41,710 --> 00:15:39,140

UFO field there are some researchers

345

00:15:44,290 --> 00:15:41,720

such as the Australian Paul Dean and

346

00:15:46,450 --> 00:15:44,300

some others who were able to find some

347

00:15:50,860 --> 00:15:46,460

some paperwork to show that Robert

348

00:15:54,370 --> 00:15:50,870

Bigelow actually started working on kind

349

00:15:57,340 --> 00:15:54,380

of with his Bigelow Aerospace UFO and

350

00:15:58,030 --> 00:15:57,350

paranormal research before this defense

351

00:16:52,629 --> 00:15:58,040

a

352

00:16:54,519 --> 00:16:52,639

funding from the government for this

353

00:16:57,430 --> 00:16:54,529

program but Bigelow spent some of his

354

00:17:00,069 --> 00:16:57,440

own money on this eventually this is the

355

00:17:02,439 --> 00:17:00,079

program that turned into the advanced

356

00:17:05,140 --> 00:17:02,449

aerospace threat identification program

357

00:17:07,630 --> 00:17:05,150

and essentially Elizondo who headed that

358

00:17:10,659 --> 00:17:07,640

who recently retired he's won that

359

00:17:14,549 --> 00:17:10,669

reason we know about all of this he is

360

00:17:17,890 --> 00:17:14,559

the one who once they lost funding

361

00:17:23,319 --> 00:17:17,900

narrowed the scope to UFOs essentially

362

00:17:24,970 --> 00:17:23,329

and renamed the organization so just a

363

00:17:27,819 --> 00:17:24,980

little bit of background it's not not

364

00:17:30,130 --> 00:17:27,829

necessarily anything really huge or

365

00:17:33,039 --> 00:17:30,140

exciting I guess we all knew that

366

00:17:35,020 --> 00:17:33,049

Bigelow was spending money on this sort

367

00:17:36,610 --> 00:17:35,030

of research before anyway she had

368

00:17:39,370 --> 00:17:36,620

something called the National Institute

369

00:17:42,970 --> 00:17:39,380

of Discovery sciences early on where he

370

00:17:44,649 --> 00:17:42,980

was looking into paranormal cases and we

371

00:17:46,539 --> 00:17:44,659

of course we already know that this

372

00:17:48,780 --> 00:17:46,549

project that Elizondo worked on was

373

00:17:51,100 --> 00:17:48,790

looking at UFOs which is the big new

374

00:17:52,360 --> 00:17:51,110

important piece and that they found

375

00:17:54,880 --> 00:17:52,370

cases where they believed there was

376

00:17:57,310 --> 00:17:54,890

unknown technology so it's not

377

00:17:59,620 --> 00:17:57,320

necessarily huge news but it does fill

378

00:18:01,480 --> 00:17:59,630

in the gaps and give us gives us a

379

00:18:04,600 --> 00:18:01,490

little more history about what happened

380

00:18:07,570 --> 00:18:04,610

at that time right right well that's it

381

00:18:10,030 --> 00:18:07,580

isn't it her tonight yeah that's about

382

00:18:11,620 --> 00:18:10,040

it that's some of the cool news out

383

00:18:17,410 --> 00:18:11,630

there

384

00:18:21,760 --> 00:18:17,420

thought what did we you and I have

385

00:18:23,710 --> 00:18:21,770

talked about it recently oh the UK UFO

386

00:18:28,180 --> 00:18:23,720

FILES there were some oh yeah yeah go

387

00:18:30,610 --> 00:18:28,190

ahead okay and in these files

388

00:18:33,400 --> 00:18:30,620

essentially they talk about a little bit

389

00:18:36,850 --> 00:18:33,410

more about this project condign and this

390

00:18:38,320 --> 00:18:36,860

project condign you know and you might

391

00:18:41,590 --> 00:18:38,330

have talked to Nick Pope about it and

392

00:18:44,470 --> 00:18:41,600

and I as well it was a paper that came

393

00:18:46,930 --> 00:18:44,480

out investigating UFOs and this was

394

00:18:49,560 --> 00:18:46,940

around 2000 when the investigation

395

00:18:52,990 --> 00:18:49,570

happened this paper was classified and

396

00:18:54,670 --> 00:18:53,000

it eventually got Declassified and it

397

00:18:58,900 --> 00:18:54,680

was interesting but it was really kind

398

00:19:01,390 --> 00:18:58,910

of speculation about the UFO phenomena

399

00:19:03,900 --> 00:19:01,400

and more than anything the document

400

00:19:08,110 --> 00:19:03,910

speculated that perhaps there is a

401
00:19:10,360 --> 00:19:08,120
plasma phenomena that happens and that's

402
00:19:12,460 --> 00:19:10,370
what people are observing these lights

403
00:19:14,050 --> 00:19:12,470
and that's what it was really kind of

404
00:19:16,120 --> 00:19:14,060
arguing although that it was more

405
00:19:18,490 --> 00:19:16,130
speculative they didn't really get into

406
00:19:19,720 --> 00:19:18,500
any hard evidence one of the things they

407
00:19:23,290 --> 00:19:19,730
talked about was the Rendlesham forest

408
00:19:26,950 --> 00:19:23,300
and they speculated that you know this

409
00:19:29,590 --> 00:19:26,960
big mass sighting in 1980 on by a u.s.

410
00:19:32,140 --> 00:19:29,600
airman on this base that was on lease in

411
00:19:34,810 --> 00:19:32,150
the UK that perhaps some of those men

412
00:19:37,300 --> 00:19:34,820
were physically affected by this plasma

413
00:19:40,270 --> 00:19:37,310

phenomena and so it was interesting I

414

00:19:41,950 --> 00:19:40,280

asked Nick Pope why did that even happen

415

00:19:44,230 --> 00:19:41,960

why did these guys spend all this time

416

00:19:46,750 --> 00:19:44,240

to kind of speculate and look into this

417

00:19:47,830 --> 00:19:46,760

and he said it was really backed by a

418

00:19:50,020 --> 00:19:47,840

lot of people who were really interested

419

00:19:52,150 --> 00:19:50,030

in UFOs who were in the intelligent

420

00:19:54,820 --> 00:19:52,160

community intelligence community in

421

00:19:56,680 --> 00:19:54,830

Britain so they wanted to do a study but

422

00:19:59,170 --> 00:19:56,690

they just didn't have access nor could

423

00:20:01,770 --> 00:19:59,180

they share classified information so the

424

00:20:03,760 --> 00:20:01,780

only thing they could really share was

425

00:20:05,980 --> 00:20:03,770

unclassified information so they

426

00:20:08,140 --> 00:20:05,990

couldn't really get into much well these

427

00:20:10,840 --> 00:20:08,150

new files that came out and David Clarke

428

00:20:13,960 --> 00:20:10,850

a historian in the UK who is interested

429

00:20:17,890 --> 00:20:13,970

in UFOs kind of overview got some more

430

00:20:19,960 --> 00:20:17,900

files UFO files and what they show is

431

00:20:22,450 --> 00:20:19,970

that there was also this kind of

432

00:20:24,580 --> 00:20:22,460

background at that time to do one last

433

00:20:25,560 --> 00:20:24,590

study to kind of prove that there's

434

00:20:28,530 --> 00:20:25,570

nothing to you

435

00:20:31,530 --> 00:20:28,540

UFOs and that we need to close the books

436

00:20:33,420 --> 00:20:31,540

and also this discussion about why they

437

00:20:36,270 --> 00:20:33,430

classified this studying kind of this

438

00:20:38,160 --> 00:20:36,280

debate on classifying the study and and

439

00:20:40,050 --> 00:20:38,170

they classified the study eventually

440

00:20:41,970 --> 00:20:40,060

because they were embarrassed about

441

00:20:44,730 --> 00:20:41,980

looking into UFOs they didn't want the

442

00:20:49,140 --> 00:20:44,740

public to know and David Clarke kind of

443

00:20:51,360 --> 00:20:49,150

argues that you know that is why people

444

00:20:52,830 --> 00:20:51,370

believe in conspiracies that you know

445

00:20:54,990 --> 00:20:52,840

they feel there's not much to it but

446

00:20:56,370 --> 00:20:55,000

then they classify this stuff and then

447

00:20:59,160 --> 00:20:56,380

it makes it look like there's this

448

00:21:01,320 --> 00:20:59,170

bigger cover-up and so David Clarke is

449

00:21:03,930 --> 00:21:01,330

arguing they need to be more forthcoming

450

00:21:06,150 --> 00:21:03,940

and their embarrassment behind all of

451
00:21:08,070 --> 00:21:06,160
this is really cause them their own

452
00:21:09,000 --> 00:21:08,080
problem with conspiracy theories and

453
00:21:12,390 --> 00:21:09,010
stuff like this

454
00:21:14,430 --> 00:21:12,400
now Nick Pope is also right now going

455
00:21:16,740 --> 00:21:14,440
out in their media as we speak he

456
00:21:19,230 --> 00:21:16,750
tweeted something today and he's arguing

457
00:21:22,590 --> 00:21:19,240
that these last bit of UFO FILES that

458
00:21:25,410 --> 00:21:22,600
the UK is releasing they need to provide

459
00:21:26,760 --> 00:21:25,420
those to everyone for free and they used

460
00:21:29,370 --> 00:21:26,770
to do that when they were putting out

461
00:21:32,310 --> 00:21:29,380
all their USF Oh files but unfortunately

462
00:21:34,530 --> 00:21:32,320
the last few remaining files they've

463
00:21:38,460 --> 00:21:34,540

released lately you actually have to go

464

00:21:41,970 --> 00:21:38,470

all the way to this place near London to

465

00:21:44,580 --> 00:21:41,980

get copies and so they're not providing

466

00:21:47,190 --> 00:21:44,590

them free to the public for a period of

467

00:21:50,580 --> 00:21:47,200

time so that's kind of the new latest

468

00:21:52,380 --> 00:21:50,590

developments on that yeah when you and I

469

00:21:54,330 --> 00:21:52,390

were talking about that there's so many

470

00:21:59,010 --> 00:21:54,340

things that happen in the Rendlesham

471

00:22:02,700 --> 00:21:59,020

forest incident that Plasma just you

472

00:22:05,400 --> 00:22:02,710

know doesn't fit the intelligence of

473

00:22:09,750 --> 00:22:05,410

whatever it was the beams coming down to

474

00:22:12,900 --> 00:22:09,760

the ground and to the to the bomb bunker

475

00:22:14,880 --> 00:22:12,910

whatever it was exactly there's that's

476

00:22:17,480 --> 00:22:14,890

directed that seems intelligence this

477

00:22:20,550 --> 00:22:17,490

this ball of light that beams of light

478

00:22:23,310 --> 00:22:20,560

and Colonel halt even was a witness to

479

00:22:25,680 --> 00:22:23,320

this over the weapons storage area where

480

00:22:28,080 --> 00:22:25,690

you know they're secretly hidden nuclear

481

00:22:30,540 --> 00:22:28,090

weapons and then it comes towards them

482

00:22:32,490 --> 00:22:30,550

and beams this light at their feet that

483

00:22:34,950 --> 00:22:32,500

really is indicative of some sort of

484

00:22:37,140 --> 00:22:34,960

intelligence and a plasma phenomena

485

00:22:38,529 --> 00:22:37,150

doesn't seem like it would fit that that

486

00:22:41,319 --> 00:22:38,539

scenario right

487

00:22:43,659 --> 00:22:41,329

right alright well hey thanks a lot and

488

00:22:46,719 --> 00:22:43,669

I hope your kitchen gets tidied up in

489

00:22:49,899 --> 00:22:46,729

yeah that's again it'll be great yeah we

490

00:22:52,359 --> 00:22:49,909

can start enjoying some more alien

491

00:22:54,729 --> 00:22:52,369

cuisine some of these planets out here

492

00:22:57,909 --> 00:22:54,739

on the far side of the galaxy actually

493

00:23:00,729 --> 00:22:57,919

have quite the remarkable culinary

494

00:23:03,669 --> 00:23:00,739

prowess and just some delicious lots of

495

00:23:05,560 --> 00:23:03,679

vegetarians out here as well so which is

496

00:23:07,810 --> 00:23:05,570

good for me because I'm a vegetarian so

497

00:23:09,639 --> 00:23:07,820

yeah yeah I'm enjoying myself and I'm

498

00:23:12,459 --> 00:23:09,649

looking forward to our kitchen being

499

00:23:14,129 --> 00:23:12,469

finished up here okay alright Alejandro

500

00:23:17,289 --> 00:23:14,139

thanks a lot I'll talk to you next week

501
00:23:19,419 --> 00:23:17,299
alright check you later alright bye bye

502
00:23:23,109 --> 00:23:19,429
alright everyone so our guest we've had

503
00:23:26,739 --> 00:23:23,119
him on and I think this will be the

504
00:23:31,869 --> 00:23:26,749
third time he's on the show his book is

505
00:23:35,169 --> 00:23:31,879
called undersea UFO base an in-depth

506
00:23:38,049 --> 00:23:35,179
investigation of UFOs u.s. owes and the

507
00:23:40,209 --> 00:23:38,059
Santa Catalina channel and more

508
00:23:44,559 --> 00:23:40,219
he has been investigating UFOs and the

509
00:23:45,669 --> 00:23:44,569
paranormal since 1986 when he discovered

510
00:23:47,649 --> 00:23:45,679
that his family and friends and

511
00:23:50,139 --> 00:23:47,659
co-workers were having dramatic

512
00:23:52,419 --> 00:23:50,149
unexplained encounters since then he's

513
00:23:55,209 --> 00:23:52,429

interviewed hundreds of witnesses and a

514

00:23:58,149 --> 00:23:55,219

variety of paranormal phenomena

515

00:24:01,059 --> 00:23:58,159

he's also a field investigator for a

516

00:24:03,669 --> 00:24:01,069

MUFON a ghost hunter all kinds of stuff

517

00:24:06,459 --> 00:24:03,679

and a fun guy always nice to have on

518

00:24:07,419 --> 00:24:06,469

Preston welcome to the show hey thanks

519

00:24:09,699 --> 00:24:07,429

for having me on

520

00:24:12,639 --> 00:24:09,709

and you remember to unmute your mic that

521

00:24:16,989 --> 00:24:12,649

you're in the small percentage that

522

00:24:19,569 --> 00:24:16,999

actually remembers that so hey you were

523

00:24:21,219 --> 00:24:19,579

on I think about a year ago I believe

524

00:24:24,969 --> 00:24:21,229

something like that and you have a new

525

00:24:29,859 --> 00:24:24,979

book and interesting book I've wanted to

526

00:24:32,229 --> 00:24:29,869

talk to people about you SOS not a lot

527

00:24:34,859 --> 00:24:32,239

of there's not a lot of books and people

528

00:24:39,099 --> 00:24:34,869

that actually discuss the subject and

529

00:24:41,859 --> 00:24:39,109

they're there a small percentage of UFO

530

00:24:43,299 --> 00:24:41,869

sightings or USO sightings I guess

531

00:24:45,849 --> 00:24:43,309

they're a small percentage of unknown

532

00:24:48,819 --> 00:24:45,859

sightings that people see but they're

533

00:24:52,270 --> 00:24:48,829

very interesting and hopefully we're

534

00:24:54,340 --> 00:24:52,280

going to be covering why that is and

535

00:24:56,290 --> 00:24:54,350

some interesting cases and all that can

536

00:24:58,420 --> 00:24:56,300

you tell the listening audience a little

537

00:25:02,830 --> 00:24:58,430

bit about yourself that have not heard

538

00:25:07,440 --> 00:25:02,840

you before yeah sure I got involved in

539

00:25:10,510 --> 00:25:07,450

UFO research involuntarily by hey in

540

00:25:13,480 --> 00:25:10,520

1986 after hearing a report on the news

541

00:25:16,000 --> 00:25:13,490

in mid-november 1986 there was a

542

00:25:18,310 --> 00:25:16,010

sighting over Alaska by a Japanese

543

00:25:21,610 --> 00:25:18,320

commercial airliner it's now a really

544

00:25:26,050 --> 00:25:21,620

well-known case captain Turo she was

545

00:25:28,660 --> 00:25:26,060

tracked by three very large UFOs -

546

00:25:30,010 --> 00:25:28,670

onboard radar it was a great case the

547

00:25:31,300 --> 00:25:30,020

news people just kind of looked they

548

00:25:32,890 --> 00:25:31,310

just kind of laughed about it

549

00:25:35,650 --> 00:25:32,900

tongue-in-cheek you know they didn't

550

00:25:37,360 --> 00:25:35,660

cover really any details at all but it

551

00:25:40,060 --> 00:25:37,370

interested me and I remembered my

552

00:25:43,060 --> 00:25:40,070

brother had seen a UFO so I brought it

553

00:25:45,640 --> 00:25:43,070

up to him and he I didn't believe him

554

00:25:48,910 --> 00:25:45,650

the first time um nobody in my family

555

00:25:51,280 --> 00:25:48,920

did but now I asked him about it it's

556

00:25:53,470 --> 00:25:51,290

like yeah it was a metallic object you

557

00:25:55,540 --> 00:25:53,480

know I had colored lights on it me and

558

00:25:58,210 --> 00:25:55,550

my two friends chased it well I called

559

00:26:00,880 --> 00:25:58,220

it his two friends and I asked him you

560

00:26:03,310 --> 00:26:00,890

know it's what did you see and they gave

561

00:26:04,630 --> 00:26:03,320

the same description and I started

562

00:26:07,810 --> 00:26:04,640

asking people I found out my

563

00:26:10,360 --> 00:26:07,820

sister-in-law had seen a UFO she had two

564

00:26:14,800 --> 00:26:10,370

friends with her she later had a

565

00:26:18,550 --> 00:26:14,810

encounter with gray type ETS in Van Nuys

566

00:26:20,200 --> 00:26:18,560

California near her home right in front

567

00:26:23,320 --> 00:26:20,210

of Stagg Street elementary school

568

00:26:26,740 --> 00:26:23,330

actually late at night Wow

569

00:26:28,330 --> 00:26:26,750

my other sister-in-law I brought you

570

00:26:29,890 --> 00:26:28,340

know I asked her about it and she she

571

00:26:32,170 --> 00:26:29,900

finally admitted that she had had

572

00:26:35,050 --> 00:26:32,180

childhood experiences with entities

573

00:26:37,150 --> 00:26:35,060

coming into her bedroom

574

00:26:40,540 --> 00:26:37,160

for about period of a couple of months

575

00:26:43,420 --> 00:26:40,550

and then it stopped I had a best friend

576

00:26:45,880 --> 00:26:43,430

who apparently had missing time I had

577

00:26:48,040 --> 00:26:45,890

another friend quite a sighting with her

578

00:26:50,230 --> 00:26:48,050

friend she's a pilot a scuba diver a

579

00:26:53,560 --> 00:26:50,240

great witness I brought it up at work

580

00:26:55,390 --> 00:26:53,570

and this lady I I worked right next to

581

00:26:58,980 --> 00:26:55,400

her I'd worked with her for gosh five or

582

00:27:01,510 --> 00:26:58,990

ten years at this point a long time and

583

00:27:03,160 --> 00:27:01,520

she's like yeah I mean my whole family

584

00:27:05,800 --> 00:27:03,170

saw this UFO and it was darting around

585

00:27:09,340 --> 00:27:05,810

it would hover it was silent turning

586

00:27:10,840 --> 00:27:09,350

right angles mic huh and in walks

587

00:27:12,430 --> 00:27:10,850

Dorothy you know I love Dorothy I've

588

00:27:16,330 --> 00:27:12,440

worked with her for a very long time

589

00:27:17,920 --> 00:27:16,340

it's like UFOs oh yeah one chased us

590

00:27:20,980 --> 00:27:17,930

home from the library me and my best

591

00:27:21,730 --> 00:27:20,990

friend and my mom like really she said

592

00:27:24,460 --> 00:27:21,740

yeah

593

00:27:26,920 --> 00:27:24,470

we lived this really weird we live five

594

00:27:28,390 --> 00:27:26,930

minutes from the library we left at

595

00:27:30,220 --> 00:27:28,400

exactly nine o'clock right when the

596

00:27:33,340 --> 00:27:30,230

library closed and you know we didn't

597

00:27:34,570 --> 00:27:33,350

get home till 10:15 says it'll it's

598

00:27:37,090 --> 00:27:34,580

really weird I don't know what happened

599

00:27:39,460 --> 00:27:37,100

at the time and you know this was before

600

00:27:43,330 --> 00:27:39,470

Budd Hopkins book missing time had been

601
00:27:46,570 --> 00:27:43,340
reprinted and become the bestseller so

602
00:27:48,280 --> 00:27:46,580
I'm like whoa so what was this pardon me

603
00:27:51,570 --> 00:27:48,290
was just before you had ever heard of

604
00:27:54,760 --> 00:27:51,580
anyone talk about missing time yourself

605
00:27:56,800 --> 00:27:54,770
yes I'd certainly heard of UFOs but

606
00:27:58,570 --> 00:27:56,810
didn't was repulsed by the subject

607
00:28:01,120 --> 00:27:58,580
mainly because people who were saying oh

608
00:28:02,890 --> 00:28:01,130
you know I saw humanoids and I was

609
00:28:05,380 --> 00:28:02,900
pretty sure that the stars were too far

610
00:28:09,640 --> 00:28:05,390
away for one thing and second of all

611
00:28:12,450 --> 00:28:09,650
aliens wouldn't look at all like us so I

612
00:28:14,530 --> 00:28:12,460
was just had you know full of free

613
00:28:17,980 --> 00:28:14,540

misconceptions about the phenomena and

614

00:28:20,110 --> 00:28:17,990

our preconceptions but this kind of

615

00:28:23,020 --> 00:28:20,120

broke through that veneer my skepticism

616

00:28:24,250 --> 00:28:23,030

I I'm like this is this is ridiculous

617

00:28:26,980 --> 00:28:24,260

and I'm going to the library and I'm

618

00:28:30,130 --> 00:28:26,990

going to disprove these people and I

619

00:28:33,460 --> 00:28:30,140

couldn't all the books were mostly Pro

620

00:28:34,930 --> 00:28:33,470

UFO and so I started that's how I

621

00:28:37,810 --> 00:28:34,940

started researching stuff I started

622

00:28:40,630 --> 00:28:37,820

interviewing people I just couldn't get

623

00:28:43,390 --> 00:28:40,640

over it it was bad news as far as I was

624

00:28:44,950 --> 00:28:43,400

concerned hit me like a ton of bricks my

625

00:28:47,290 --> 00:28:44,960

family friends and co-workers had been

626
00:28:49,630 --> 00:28:47,300
lying to me for a long time it was never

627
00:28:53,260 --> 00:28:49,640
taught in schools it wasn't taking being

628
00:28:56,620 --> 00:28:53,270
taken seriously and yet it looked like

629
00:28:58,980 --> 00:28:56,630
it was actually happening so I dived in

630
00:29:02,400 --> 00:28:58,990
you know I joined all the UFO groups I

631
00:29:06,430 --> 00:29:02,410
started interviewing people going out

632
00:29:08,410 --> 00:29:06,440
into the fields really UFO hunting and

633
00:29:11,020 --> 00:29:08,420
almost immediately I started getting USO

634
00:29:14,110 --> 00:29:11,030
reports so it started right away

635
00:29:17,110 --> 00:29:14,120
colonel I I didn't know at the time that

636
00:29:19,490 --> 00:29:17,120
this area was particularly active for us

637
00:29:21,380 --> 00:29:19,500
OS but

638
00:29:22,520 --> 00:29:21,390

yeah I started collecting them um gosh

639

00:29:26,270 --> 00:29:22,530

all those years ago

640

00:29:30,650 --> 00:29:26,280

now you're in Southern California

641

00:29:31,790 --> 00:29:30,660

right that's right yeah and I currently

642

00:29:34,190 --> 00:29:31,800

live in Reseda

643

00:29:36,470 --> 00:29:34,200

yeah at the time I was researching I

644

00:29:38,090 --> 00:29:36,480

lived closer to the beach in Topanga

645

00:29:41,290 --> 00:29:38,100

Canyon oh yeah

646

00:29:44,570 --> 00:29:41,300

and I which no turned out to be a pretty

647

00:29:46,910 --> 00:29:44,580

active area sort of a wave area or a hot

648

00:29:48,470 --> 00:29:46,920

spot and I always thought you know

649

00:29:50,750 --> 00:29:48,480

something about unusual about Topanga

650

00:29:53,120 --> 00:29:50,760

Canyon and you know Malibu Santa Monica

651
00:29:54,950 --> 00:29:53,130
this area and it wasn't until much later

652
00:29:57,710 --> 00:29:54,960
that I started shifting my research out

653
00:30:00,320 --> 00:29:57,720
towards the ocean when I realized that

654
00:30:03,170 --> 00:30:00,330
was probably you know the origin of all

655
00:30:06,320 --> 00:30:03,180
this activity there's a well for one

656
00:30:08,660 --> 00:30:06,330
thing there there are so many sightings

657
00:30:11,390 --> 00:30:08,670
in California in general and I just

658
00:30:16,730 --> 00:30:11,400
looked in today on statistics on

659
00:30:21,770 --> 00:30:16,740
listeners to my free show and last month

660
00:30:25,880 --> 00:30:21,780
or a 40,000 listeners from California so

661
00:30:27,650 --> 00:30:25,890
I mean 40,000 listens I should say on my

662
00:30:30,920 --> 00:30:27,660
free show California isn't that way

663
00:30:34,430 --> 00:30:30,930

ahead of the next state below that is

664

00:30:37,250 --> 00:30:34,440

New York and that's 10,000 so California

665

00:30:40,910 --> 00:30:37,260

is huge when it comes to listeners to

666

00:30:43,970 --> 00:30:40,920

this show and well also the UFO

667

00:30:47,050 --> 00:30:43,980

sightings are so prevalent yeah it's the

668

00:30:49,490 --> 00:30:47,060

number one state yet in terms of UFO

669

00:30:52,280 --> 00:30:49,500

producing reports according to both

670

00:30:55,580 --> 00:30:52,290

MUFON and national UFO Reporting Center

671

00:30:58,430 --> 00:30:55,590

right yeah you know Texas is up there

672

00:30:59,450 --> 00:30:58,440

Washington but California's number one

673

00:31:01,610 --> 00:30:59,460

yeah by far

674

00:31:04,640 --> 00:31:01,620

uh-huh and you know I realized there's a

675

00:31:06,350 --> 00:31:04,650

big population there and the other thing

676

00:31:08,210 --> 00:31:06,360

that kind of plays into it is the

677

00:31:10,220 --> 00:31:08,220

weather is a lot there's a lot more

678

00:31:13,430 --> 00:31:10,230

sunny days out there than there is in

679

00:31:16,040 --> 00:31:13,440

most of the country actually so that

680

00:31:17,840 --> 00:31:16,050

does play part of it play into I think

681

00:31:19,030 --> 00:31:17,850

there's a number number factors I

682

00:31:21,200 --> 00:31:19,040

thought you know it was maybe just

683

00:31:23,630 --> 00:31:21,210

Southern Californians in the New Age

684

00:31:25,280 --> 00:31:23,640

attitude that was yeah

685

00:31:28,130 --> 00:31:25,290

you know I don't think so there's a lot

686

00:31:32,540 --> 00:31:28,140

of military bases here as well I think

687

00:31:33,500 --> 00:31:32,550

that's a factor yeah you know I don't

688

00:31:37,550 --> 00:31:33,510

know it is definitely numb

689

00:31:42,200 --> 00:31:37,560

one right right so let's talk a little

690

00:31:44,090 --> 00:31:42,210

bit about you esos what would you say in

691

00:31:48,230 --> 00:31:44,100

your research what did you find is the

692

00:31:52,610 --> 00:31:48,240

earliest account of us oh that you could

693

00:31:54,560 --> 00:31:52,620

find out that way well certainly they

694

00:31:56,240 --> 00:31:54,570

stretch back you know hundreds of years

695

00:32:01,280 --> 00:31:56,250

there's some very early reports from

696

00:32:03,470 --> 00:32:01,290

charles fort there's i believe a report

697

00:32:06,080 --> 00:32:03,480

from the christopher columbus actually i

698

00:32:08,750 --> 00:32:06,090

which i don't know a whole lot about but

699

00:32:10,340 --> 00:32:08,760

as far as this particular area and by

700

00:32:13,610 --> 00:32:10,350

that i mean right off the Southern

701
00:32:15,800 --> 00:32:13,620
California coast sort of the Santa

702
00:32:18,770 --> 00:32:15,810
Catalina San Pedro Channel area

703
00:32:20,810 --> 00:32:18,780
stretching like at the north end Santa

704
00:32:26,060 --> 00:32:20,820
Barbara Channel Islands all the way

705
00:32:28,040 --> 00:32:26,070
south through malibu santa monica rancho

706
00:32:33,110 --> 00:32:28,050
palos verdes Long Beach down pretty much

707
00:32:35,600 --> 00:32:33,120
to San Clemente lots of reports and the

708
00:32:39,500 --> 00:32:35,610
earliest ones I could find well dated

709
00:32:42,140 --> 00:32:39,510
around the 1920s there was a researcher

710
00:32:44,870 --> 00:32:42,150
by the name of wish our survey who wrote

711
00:32:46,310 --> 00:32:44,880
a book about California mysteries and I

712
00:32:48,340 --> 00:32:46,320
you know talked about a number of

713
00:32:51,230 --> 00:32:48,350

different paranormal stuff but mentioned

714

00:32:54,530 --> 00:32:51,240

people who were seeing what they called

715

00:32:56,960 --> 00:32:54,540

sky boats but objects which would you

716

00:32:59,900 --> 00:32:56,970

know land on the water right off the

717

00:33:02,210 --> 00:32:59,910

coast there and then take off he just

718

00:33:03,830 --> 00:33:02,220

does not have a lot of detail on it but

719

00:33:05,990 --> 00:33:03,840

it certainly some intriguing early

720

00:33:08,900 --> 00:33:06,000

reports probably the earliest report

721

00:33:13,460 --> 00:33:08,910

that it's really detailed occurred right

722

00:33:14,300 --> 00:33:13,470

with the modern age of UFOs 1947 and

723

00:33:17,120 --> 00:33:14,310

it's actually a really interesting

724

00:33:20,630 --> 00:33:17,130

report it began up in the Northern

725

00:33:24,230 --> 00:33:20,640

California area in the San Francisco Bay

726

00:33:26,890 --> 00:33:24,240

Area and it involved what shippers you

727

00:33:32,270 --> 00:33:26,900

know freighters called

728

00:33:35,570 --> 00:33:32,280

undersea reef or a phantom reef this

729

00:33:38,170 --> 00:33:35,580

mysterious masts underwater that kept

730

00:33:42,140 --> 00:33:38,180

moving around and was causing havoc and

731

00:33:44,060 --> 00:33:42,150

for shipping and so so many voters had

732

00:33:45,710 --> 00:33:44,070

reported this thing that they finally

733

00:33:47,190 --> 00:33:45,720

just called the Navy and said you've got

734

00:33:50,460 --> 00:33:47,200

to investigate this something's going

735

00:33:53,100 --> 00:33:50,470

and the Navy sent up a ship called the

736

00:33:57,840 --> 00:33:53,110

Mori to investigate it and they actually

737

00:33:59,970 --> 00:33:57,850

tracked this phantom reef down the coast

738

00:34:03,149 --> 00:33:59,980

of California to Southern California

739

00:34:06,810 --> 00:34:03,159

which at which point it went out to sea

740

00:34:10,109 --> 00:34:06,820

maybe 200 miles or so they tracked it

741

00:34:12,720 --> 00:34:10,119

there they caught it on their sonar and

742

00:34:16,980 --> 00:34:12,730

at some point just disappeared they

743

00:34:20,069 --> 00:34:16,990

never found it again so this was a large

744

00:34:23,010 --> 00:34:20,079

mass you're saying actually yes

745

00:34:25,109 --> 00:34:23,020

absolutely very large and they could not

746

00:34:28,169 --> 00:34:25,119

figure out what it is and apparently it

747

00:34:31,649 --> 00:34:28,179

wasn't ours so they were very concerned

748

00:34:33,690 --> 00:34:31,659

and never found it after it disappeared

749

00:34:36,180 --> 00:34:33,700

but I'm thinking you know this is

750

00:34:38,250 --> 00:34:36,190

probably when the activity really I mean

751

00:34:43,010 --> 00:34:38,260

this is when the activity started in

752

00:34:45,000 --> 00:34:43,020

earnest in this area I uh I have a

753

00:34:48,599 --> 00:34:45,010

someone that's been on the show before

754

00:34:50,250 --> 00:34:48,609

that had an encounter I just text him

755

00:34:52,260 --> 00:34:50,260

right now to see you can call in and the

756

00:34:55,200 --> 00:34:52,270

we're take will be taking calls after

757

00:34:56,700 --> 00:34:55,210

nine o'clock so I hopefully he'll call

758

00:34:58,650 --> 00:34:56,710

in and tell his story you'll be able to

759

00:35:01,349 --> 00:34:58,660

get to hear that as well I'm not sure

760

00:35:02,790 --> 00:35:01,359

exactly where that was based I think it

761

00:35:04,890 --> 00:35:02,800

actually was on the East Coast but not

762

00:35:08,190 --> 00:35:04,900

positive but when you were you look when

763

00:35:11,160 --> 00:35:08,200

you were looking into this did you also

764

00:35:12,359 --> 00:35:11,170

look at other regions besides just

765

00:35:16,740 --> 00:35:12,369

California as well

766

00:35:19,470 --> 00:35:16,750

I did not in-depth I'm certainly aware

767

00:35:22,230 --> 00:35:19,480

that there's USL activity all over the

768

00:35:24,930 --> 00:35:22,240

world for that matter it's not just in

769

00:35:29,030 --> 00:35:24,940

oceans it's in lakes and rivers you know

770

00:35:32,460 --> 00:35:29,040

that a Puerto Rico has a lot of activity

771

00:35:36,390 --> 00:35:32,470

but I I mainly concentrated my research

772

00:35:38,790 --> 00:35:36,400

in this area I did get a number of

773

00:35:41,130 --> 00:35:38,800

reports from other people which were

774

00:35:43,859 --> 00:35:41,140

very intriguing a very intriguing case

775

00:35:47,010 --> 00:35:43,869

off the East Coast one in the Bahamas

776

00:35:50,730 --> 00:35:47,020

area another in a small lake outside of

777

00:35:55,140 --> 00:35:50,740

Hot Springs Arkansas another in a lake

778

00:35:57,720 --> 00:35:55,150

in Florida Lake makuu's Miccosukee so

779

00:36:01,080 --> 00:35:57,730

yeah a lot of reports on but in this

780

00:36:04,830 --> 00:36:01,090

area I've documented over seven

781

00:36:08,010 --> 00:36:04,840

reports of us owes and for that matter

782

00:36:09,690 --> 00:36:08,020

the same the same amount of UFOs which

783

00:36:13,020 --> 00:36:09,700

you know weren't seeing going into the

784

00:36:15,150 --> 00:36:13,030

water but we're seen above the water so

785

00:36:17,430 --> 00:36:15,160

it's a lot of reports in this area

786

00:36:20,220 --> 00:36:17,440

stretching back you know all the way to

787

00:36:22,860 --> 00:36:20,230

the nineteen forties at least to pretty

788

00:36:25,020 --> 00:36:22,870

much the present day and it's got to be

789

00:36:26,460 --> 00:36:25,030

a lot more than just the seventy because

790

00:36:29,820 --> 00:36:26,470

as I'm sure you know most people don't

791

00:36:32,180 --> 00:36:29,830

report through UFO sightings in any

792

00:36:34,710 --> 00:36:32,190

official capacity when it's had maybe

793

00:36:36,720 --> 00:36:34,720

one in a hundred right yeah I'm thinking

794

00:36:38,660 --> 00:36:36,730

home a seventy we're probably closer to

795

00:36:43,070 --> 00:36:38,670

seven hundred maybe seven thousand

796

00:36:45,540 --> 00:36:43,080

reports yeah I've been at a number of

797

00:36:47,190 --> 00:36:45,550

conferences where they'll ask people how

798

00:36:50,340 --> 00:36:47,200

many people saw a UFO and then how many

799

00:36:53,490 --> 00:36:50,350

people report them and it's a very small

800

00:36:55,260 --> 00:36:53,500

fraction I would guess that you're

801
00:36:58,470 --> 00:36:55,270
probably right right up one out of ten

802
00:37:00,360 --> 00:36:58,480
people may actually report them you know

803
00:37:02,190 --> 00:37:00,370
of the people in those audiences I don't

804
00:37:04,680 --> 00:37:02,200
you know I've seen that at times

805
00:37:06,930 --> 00:37:04,690
especially if it's a really major

806
00:37:09,590 --> 00:37:06,940
encounter they're less inclined you know

807
00:37:12,900 --> 00:37:09,600
if it's a freaky details and all of this

808
00:37:15,390 --> 00:37:12,910
you know every person that I can think

809
00:37:17,040 --> 00:37:15,400
of that I've talked to that really

810
00:37:18,570 --> 00:37:17,050
doesn't pay attention to the subject and

811
00:37:21,300 --> 00:37:18,580
just had you know had a sighting and

812
00:37:22,770 --> 00:37:21,310
tells me about their sighting I can't

813
00:37:25,680 --> 00:37:22,780

think of one single person that's ever

814

00:37:27,720 --> 00:37:25,690

said and I reported it you know that

815

00:37:30,300 --> 00:37:27,730

they had the encounter it will blew

816

00:37:32,790 --> 00:37:30,310

their mind or you know whatever it is

817

00:37:34,530 --> 00:37:32,800

had happened but I don't ever remember

818

00:37:37,380 --> 00:37:34,540

anyone saying they reported I didn't

819

00:37:40,110 --> 00:37:37,390

report my my sighting I had in you know

820

00:37:41,910 --> 00:37:40,120

2006 all right if you were to

821

00:37:43,110 --> 00:37:41,920

extrapolate you know new Forks numbers

822

00:37:45,480 --> 00:37:43,120

and MUFON numbers that people who

823

00:37:47,490 --> 00:37:45,490

actually do report to move on the number

824

00:37:50,670 --> 00:37:47,500

of reports actually taking place daily

825

00:37:52,350 --> 00:37:50,680

is it's not just a dozen or so it's

826

00:37:54,030 --> 00:37:52,360

probably closer to hundreds and I'm

827

00:37:55,830 --> 00:37:54,040

guessing like right now someone's being

828

00:37:58,200 --> 00:37:55,840

abducted multiple people right now

829

00:38:01,830 --> 00:37:58,210

there's many people on our planet having

830

00:38:06,390 --> 00:38:01,840

sightings at any given time which really

831

00:38:10,230 --> 00:38:06,400

makes you wonder like who's visiting us

832

00:38:13,560 --> 00:38:10,240

that's always the question and why why

833

00:38:16,250 --> 00:38:13,570

so frequently and another thing okay

834

00:38:19,020 --> 00:38:16,260

getting back to us

835

00:38:22,380 --> 00:38:19,030

that is such a puzzle what are they

836

00:38:24,569 --> 00:38:22,390

doing under the water and a couple of

837

00:38:26,309 --> 00:38:24,579

reasons I say that first of all of

838

00:38:28,049 --> 00:38:26,319

course is a lot more water on the earth

839

00:38:31,020 --> 00:38:28,059

and there is land mass so there's plenty

840

00:38:33,059 --> 00:38:31,030

of places to hike but what did they just

841

00:38:33,780 --> 00:38:33,069

rest on the bottom and it sounds awful

842

00:38:38,539 --> 00:38:33,790

boring to me

843

00:38:42,120 --> 00:38:38,549

or do they you know are these actually

844

00:38:43,620 --> 00:38:42,130

non-human Don you know our mechanical

845

00:38:46,109 --> 00:38:43,630

devices or you know I mean there's just

846

00:38:48,780 --> 00:38:46,119

so many like a drone or or something

847

00:38:51,539 --> 00:38:48,790

there's there's just so many so many

848

00:38:55,400 --> 00:38:51,549

questions these even more questions you

849

00:38:57,839 --> 00:38:55,410

SOS on you SOS and there are UFOs to me

850

00:39:00,960 --> 00:38:57,849

you know the pressure of the the depth

851

00:39:03,210 --> 00:39:00,970

of the water all that stuff is how do

852

00:39:07,140 --> 00:39:03,220

they deal with that and there are

853

00:39:09,319 --> 00:39:07,150

obviously water proof right well I I

854

00:39:12,270 --> 00:39:09,329

think probably some of them are drones

855

00:39:15,030 --> 00:39:12,280

as we would think of them because I know

856

00:39:16,589 --> 00:39:15,040

that this one guy I interviewed I didn't

857

00:39:18,870 --> 00:39:16,599

get to do a formal interview with him I

858

00:39:22,319 --> 00:39:18,880

did talk to him a few times he was scuba

859

00:39:25,099 --> 00:39:22,329

diving in this area and had this little

860

00:39:27,510 --> 00:39:25,109

ball of light comes zooming up to him

861

00:39:31,650 --> 00:39:27,520

are you serious no I know the guy really

862

00:39:33,270 --> 00:39:31,660

well and he says the Yak came right up

863

00:39:36,150 --> 00:39:33,280

to me scared - living daylights out of

864

00:39:38,520 --> 00:39:36,160

me and moved very fast it was much too

865

00:39:39,990 --> 00:39:38,530

small you know size of a softball he

866

00:39:42,329 --> 00:39:40,000

said maybe a little larger it was hard

867

00:39:44,220 --> 00:39:42,339

to tell it's pretty bright and it kind

868

00:39:46,319 --> 00:39:44,230

of startled him but it was not another

869

00:39:48,660 --> 00:39:46,329

diver and it moved way too fast

870

00:39:50,460 --> 00:39:48,670

certainly wasn't a fish no this is

871

00:39:53,789 --> 00:39:50,470

mooring day lighter is just night diving

872

00:39:56,059 --> 00:39:53,799

this was daylight yeah but still that's

873

00:39:58,079 --> 00:39:56,069

crazy I'm still the light is

874

00:40:01,890 --> 00:39:58,089

significantly cut down when you're

875

00:40:06,030 --> 00:40:01,900

underwater there but yeah most of these

876

00:40:09,089 --> 00:40:06,040

um I think are your standard UFOs you

877

00:40:10,349 --> 00:40:09,099

can't really cook call them UFOs when

878

00:40:14,160 --> 00:40:10,359

they're underwater so that's how the

879

00:40:15,299 --> 00:40:14,170

term you know uso was coined but

880

00:40:18,270 --> 00:40:15,309

otherwise they're pretty much the same

881

00:40:20,160 --> 00:40:18,280

thing some of these objects are much

882

00:40:24,720 --> 00:40:20,170

larger than others you know all the way

883

00:40:27,359 --> 00:40:24,730

from stadium-sized 200 feet 300 feet all

884

00:40:28,560 --> 00:40:27,369

the way down to tiny little you know 20

885

00:40:32,940 --> 00:40:28,570

foot 10

886

00:40:35,790 --> 00:40:32,950

craft and another really weird thing and

887

00:40:38,550 --> 00:40:35,800

this has always puzzled me in UFO

888

00:40:42,720 --> 00:40:38,560

research in general is the wide variety

889

00:40:44,700 --> 00:40:42,730

of shapes hmm you know there's the

890

00:40:48,210 --> 00:40:44,710

standard saucer shaped and certainly

891

00:40:50,670 --> 00:40:48,220

there's a lot of reports of that but in

892

00:40:53,550 --> 00:40:50,680

this area there is every shape I have

893

00:40:55,320 --> 00:40:53,560

ever heard and some I haven't ever heard

894

00:40:58,050 --> 00:40:55,330

I'm that people could not describe them

895

00:41:01,380 --> 00:40:58,060

as they were no blobs or oddly shaped

896

00:41:03,270 --> 00:41:01,390

with strange angles but yes spherical

897

00:41:09,320 --> 00:41:03,280

saucer shaped Mantaray shaped

898

00:41:14,010 --> 00:41:09,330

cylindrical you name it these triangles

899

00:41:17,220 --> 00:41:14,020

box shaped rectangular like organically

900

00:41:19,950 --> 00:41:17,230

shaped other some like that I mean those

901
00:41:23,220 --> 00:41:19,960
are there's like there was an octopus

902
00:41:26,700 --> 00:41:23,230
type of UFO someone reported and you

903
00:41:27,900 --> 00:41:26,710
know really strange looking things do

904
00:41:30,210 --> 00:41:27,910
they have those type of things coming

905
00:41:34,290 --> 00:41:30,220
out of the water - all right those

906
00:41:39,360 --> 00:41:34,300
doughnut shaped yeah there was manta ray

907
00:41:41,400 --> 00:41:39,370
shaped but I did not get octopus but but

908
00:41:45,080 --> 00:41:41,410
it wouldn't surprise me I mean I mean we

909
00:41:47,910 --> 00:41:45,090
also there's also these weird kind of

910
00:41:50,280 --> 00:41:47,920
glowing clouds or anomalous cloud

911
00:41:53,100 --> 00:41:50,290
phenomena these weird clouds that will

912
00:41:56,610 --> 00:41:53,110
appear with very sharp edges and seem to

913
00:41:59,400 --> 00:41:56,620

have little pastel lights around the

914

00:42:01,190 --> 00:41:59,410

perimeter some people say the lights get

915

00:42:03,360 --> 00:42:01,200

really bright and start to look metallic

916

00:42:07,640 --> 00:42:03,370

and then the clouds will like split

917

00:42:11,340 --> 00:42:07,650

apart and create a row of objects so

918

00:42:13,650 --> 00:42:11,350

it's all kind the whole range of

919

00:42:14,790 --> 00:42:13,660

sightings it's taking place in this area

920

00:42:17,640 --> 00:42:14,800

now

921

00:42:19,650 --> 00:42:17,650

our what is more frequent when someone

922

00:42:23,880 --> 00:42:19,660

is reporting one coming out of the water

923

00:42:26,280 --> 00:42:23,890

or one going into the water and in by

924

00:42:28,770 --> 00:42:26,290

far and I think the reason for that is

925

00:42:30,810 --> 00:42:28,780

because they're more visible

926

00:42:32,970 --> 00:42:30,820

I'm not tripped that's entirely true but

927

00:42:34,200 --> 00:42:32,980

uh you see this object in the sky and

928

00:42:36,030 --> 00:42:34,210

then it's coming down coming down coming

929

00:42:38,400 --> 00:42:36,040

down and it goes in the water whereas if

930

00:42:39,960 --> 00:42:38,410

one comes out if you don't catch it as

931

00:42:41,910 --> 00:42:39,970

it's coming out you would never know

932

00:42:44,039 --> 00:42:41,920

right

933

00:42:45,690 --> 00:42:44,049

so I'm guessing that's the reason I'm

934

00:42:48,839 --> 00:42:45,700

not sure that they actually are more

935

00:42:50,370 --> 00:42:48,849

common number of people never see these

936

00:42:53,520 --> 00:42:50,380

objects come in or out they just see it

937

00:42:57,030 --> 00:42:53,530

under the water particularly boaters and

938

00:43:00,359 --> 00:42:57,040

a few Beach people along the beach but

939

00:43:03,359 --> 00:43:00,369

the rarest of all is to see one go in

940

00:43:07,859 --> 00:43:03,369

and out of the water but I got a couple

941

00:43:10,589 --> 00:43:07,869

of those too well if I was out of my

942

00:43:13,500 --> 00:43:10,599

boat and I saw a UFO under the water

943

00:43:15,390 --> 00:43:13,510

I would totally freak out it much sure I

944

00:43:17,760 --> 00:43:15,400

would much rather see one in the sky

945

00:43:18,450 --> 00:43:17,770

something like that it kind of gives me

946

00:43:21,809 --> 00:43:18,460

the creeps

947

00:43:23,819 --> 00:43:21,819

I can't imagine so well what yeah I mean

948

00:43:26,250 --> 00:43:23,829

this one senior electronics engineer

949

00:43:28,440 --> 00:43:26,260

great witness was out there and this is

950

00:43:31,890 --> 00:43:28,450

the mid 1980s at the northern end and

951
00:43:34,829 --> 00:43:31,900
his fully equipped boat foggy night

952
00:43:36,690 --> 00:43:34,839
going along when he sees this green glow

953
00:43:38,309 --> 00:43:36,700
ahead of him he's like well that's odd

954
00:43:39,900 --> 00:43:38,319
you know that's not standard lights and

955
00:43:41,700 --> 00:43:39,910
it's getting brighter and brighter and

956
00:43:43,680 --> 00:43:41,710
so he stops you know doesn't want to

957
00:43:45,359 --> 00:43:43,690
have a collision and this thing just

958
00:43:48,120 --> 00:43:45,369
gets closer and closer to suddenly

959
00:43:51,750 --> 00:43:48,130
realizes this thing was under water and

960
00:43:54,120 --> 00:43:51,760
it came right up to his boat said it

961
00:43:56,609 --> 00:43:54,130
must have been at least 300 feet across

962
00:43:59,160 --> 00:43:56,619
much larger than his boat he looks down

963
00:44:02,190 --> 00:43:59,170

at his compasses they're slowly spinning

964

00:44:04,230 --> 00:44:02,200

both of them one spun sergeant faster it

965

00:44:06,180 --> 00:44:04,240

actually broke off its moorings he tried

966

00:44:08,309 --> 00:44:06,190

to call the Coast Guard his radio is

967

00:44:11,039 --> 00:44:08,319

dead he said at this point he was just

968

00:44:13,920 --> 00:44:11,049

too petrified to move that's a direct

969

00:44:17,609 --> 00:44:13,930

quote and just completely freaked him

970

00:44:19,200 --> 00:44:17,619

out and eventually moved on but what I

971

00:44:23,789 --> 00:44:19,210

found real interesting about that report

972

00:44:26,640 --> 00:44:23,799

it was pretty you know low I'm very

973

00:44:29,640 --> 00:44:26,650

close to his boat I guess maybe 50 100

974

00:44:31,950 --> 00:44:29,650

feet down not not very deep but it

975

00:44:34,740 --> 00:44:31,960

targeted him it actually came you know

976

00:44:36,990 --> 00:44:34,750

and targeted his boat and there was case

977

00:44:39,660 --> 00:44:37,000

after case like that where these things

978

00:44:41,370 --> 00:44:39,670

are you know could have gone around but

979

00:44:46,410 --> 00:44:41,380

no they don't they come right under the

980

00:44:49,680 --> 00:44:46,420

boat fire yeah now Catalina Island in

981

00:44:53,789 --> 00:44:49,690

particular now I know you did the Santa

982

00:44:55,830 --> 00:44:53,799

Catalina Ridge I mean a channel but

983

00:44:57,870 --> 00:44:55,840

Catalina Island

984

00:44:59,880 --> 00:44:57,880

there's been a lot there's been so many

985

00:45:04,530 --> 00:44:59,890

UFO sightings there that they actually

986

00:45:10,520 --> 00:45:04,540

have like a program for UFO tours which

987

00:45:13,080 --> 00:45:10,530

is ryan easing yeah I went there with my

988

00:45:14,340 --> 00:45:13,090

office my co-workers met the boss to do

989

00:45:16,230 --> 00:45:14,350

you know a little vacation to cuddle him

990

00:45:18,270 --> 00:45:16,240

and we're on the bus were taking the bus

991

00:45:20,370 --> 00:45:18,280

tour and he starts talking about UFOs

992

00:45:23,070 --> 00:45:20,380

everyone at my work turns and looks

993

00:45:27,350 --> 00:45:23,080

right at me you know I'm pretty well

994

00:45:30,390 --> 00:45:27,360

known at my office for this stuff okay

995

00:45:34,230 --> 00:45:30,400

but yes I mean the reason for that is

996

00:45:37,380 --> 00:45:34,240

just its prime viewing area on it's

997

00:45:42,000 --> 00:45:37,390

literally overlooks the exact center of

998

00:45:43,650 --> 00:45:42,010

this activity mmm and I mean this was

999

00:45:46,410 --> 00:45:43,660

really the first data point I have like

1000

00:45:49,080 --> 00:45:46,420

five really strong data points well well

1001

00:45:51,540 --> 00:45:49,090

I started to think there's a USO base an

1002

00:45:54,660 --> 00:45:51,550

undersea base and the first one was just

1003

00:45:58,020 --> 00:45:54,670

a huge number of reports in a sharply

1004

00:46:00,990 --> 00:45:58,030

defined area so if you go to Northern

1005

00:46:03,300 --> 00:46:01,000

California yeah there's a few but

1006

00:46:05,760 --> 00:46:03,310

nothing like here certainly Oregon

1007

00:46:09,060 --> 00:46:05,770

Washington no up and down the East Coast

1008

00:46:10,410 --> 00:46:09,070

the you know the Gulf of Mexico like

1009

00:46:13,170 --> 00:46:10,420

like we mentioned earlier there are

1010

00:46:16,110 --> 00:46:13,180

areas around the world which do have a

1011

00:46:19,110 --> 00:46:16,120

lot but I'm thinking this has got to be

1012

00:46:20,670 --> 00:46:19,120

one of the top five areas and I mean

1013

00:46:24,390 --> 00:46:20,680

mile for mile it might be the most

1014

00:46:26,670 --> 00:46:24,400

active area on our planet so I mean what

1015

00:46:28,670 --> 00:46:26,680

does that say I mean this is what really

1016

00:46:31,170 --> 00:46:28,680

I'd be scratching my head I'm like

1017

00:46:33,180 --> 00:46:31,180

something's going on here something has

1018

00:46:35,760 --> 00:46:33,190

got to be going on here because how do

1019

00:46:38,190 --> 00:46:35,770

you explain the huge number of reports

1020

00:46:39,810 --> 00:46:38,200

in a sharply defined area that seemed to

1021

00:46:43,740 --> 00:46:39,820

be centered right over the water

1022

00:46:46,370 --> 00:46:43,750

hmm so this is where he came up to the

1023

00:46:50,970 --> 00:46:46,380

thought there might be an underground

1024

00:46:53,400 --> 00:46:50,980

UFO or USO base right it kind of came

1025

00:46:57,300 --> 00:46:53,410

slowly I know Robert Stanley he's an

1026

00:46:58,860 --> 00:46:57,310

early researcher and uh still active he

1027

00:47:00,780 --> 00:46:58,870

was one of the first to like point to

1028

00:47:03,030 --> 00:47:00,790

this area and say hey you know stuff is

1029

00:47:05,850 --> 00:47:03,040

going on he had a number of sightings

1030

00:47:08,250 --> 00:47:05,860

himself of objects going in and out of

1031

00:47:09,720 --> 00:47:08,260

the water and as far as I know he's the

1032

00:47:13,590 --> 00:47:09,730

first to actually speculate

1033

00:47:16,380 --> 00:47:13,600

that there is or could be some sort of

1034

00:47:19,560 --> 00:47:16,390

base down here and and he you know he

1035

00:47:22,530 --> 00:47:19,570

wrote about this possibility I know and

1036

00:47:25,740 --> 00:47:22,540

ruffle another pioneering early

1037

00:47:27,870 --> 00:47:25,750

researcher yeah she pointed to this area

1038

00:47:29,849 --> 00:47:27,880

of way back in the 1970s and says we

1039

00:47:32,190 --> 00:47:29,859

should you know put this under constant

1040

00:47:35,760 --> 00:47:32,200

surveillance because something is going

1041

00:47:37,710 --> 00:47:35,770

on in this area bill Hamilton he

1042

00:47:40,770 --> 00:47:37,720

uncovered reports a lot of early

1043

00:47:43,950 --> 00:47:40,780

researchers uncovered reports long

1044

00:47:45,810 --> 00:47:43,960

before I came along and I started

1045

00:47:48,900 --> 00:47:45,820

getting reports right away I mean one

1046

00:47:51,060 --> 00:47:48,910

lady I interviewed she's driving along

1047

00:47:54,599 --> 00:47:51,070

the coast with a friend her friend is

1048

00:47:57,120 --> 00:47:54,609

driving she's at Malibu and she looks to

1049

00:47:58,410 --> 00:47:57,130

the ocean she sees this light floating

1050

00:48:00,450 --> 00:47:58,420

on the water I'm just thinks well that's

1051

00:48:03,359 --> 00:48:00,460

odd it's very bright it looks just like

1052

00:48:07,349 --> 00:48:03,369

a sphere of light not like a boat really

1053

00:48:09,300 --> 00:48:07,359

bright she turns to her friend says look

1054

00:48:11,580 --> 00:48:09,310

at that what do you think that is she

1055

00:48:13,910 --> 00:48:11,590

points to it as soon as he looks at it

1056

00:48:17,760 --> 00:48:13,920

this thing takes off straight up

1057

00:48:21,570 --> 00:48:17,770

disappears well so I talked to another

1058

00:48:23,970 --> 00:48:21,580

guy lives has a house on the coast he

1059

00:48:26,220 --> 00:48:23,980

saw an unidentified floating object

1060

00:48:27,630 --> 00:48:26,230

right there floating on the water called

1061

00:48:29,040 --> 00:48:27,640

the Coast Guard they're like no it's not

1062

00:48:32,190 --> 00:48:29,050

a boat he's like are you sure it looks

1063

00:48:34,710 --> 00:48:32,200

like a boat on fire says it was giving

1064

00:48:38,420 --> 00:48:34,720

off prismatic glows and just really

1065

00:48:41,370 --> 00:48:38,430

bright like no we don't know what it is

1066

00:48:43,980 --> 00:48:41,380

so yeah I started getting a lot of

1067

00:48:46,530 --> 00:48:43,990

reports I was talking to some people who

1068

00:48:47,550 --> 00:48:46,540

are having abductions and they started

1069

00:48:51,000 --> 00:48:47,560

telling me you know I think there might

1070

00:48:53,099 --> 00:48:51,010

be a base in this area just their

1071

00:48:56,070 --> 00:48:53,109

intuitive feeling you know I was

1072

00:48:57,930 --> 00:48:56,080

thinking the same thing because just of

1073

00:49:00,390 --> 00:48:57,940

the huge number of reports there was

1074

00:49:03,359 --> 00:49:00,400

another lady I talked to she was told

1075

00:49:05,609 --> 00:49:03,369

flat out by great iboötis she's up in

1076

00:49:09,270 --> 00:49:05,619

the Santa Barbara area they told her

1077

00:49:11,609 --> 00:49:09,280

that they do have bases in the ocean and

1078

00:49:14,520 --> 00:49:11,619

have been here for a very very long time

1079

00:49:16,260 --> 00:49:14,530

among other things they told her but

1080

00:49:21,330 --> 00:49:16,270

yeah I started hmm beginning to wonder

1081

00:49:22,650 --> 00:49:21,340

if maybe there is a base you know I've

1082

00:49:23,549 --> 00:49:22,660

got a number of data points pointing

1083

00:49:25,349 --> 00:49:23,559

towards the stronger

1084

00:49:29,670 --> 00:49:25,359

by far as the huge number of report

1085

00:49:32,339 --> 00:49:29,680

reports well you know I I know a lot a

1086

00:49:34,410 --> 00:49:32,349

longtime friend of mine years before I

1087

00:49:37,529 --> 00:49:34,420

even she was a friend of mine before I

1088

00:49:39,779 --> 00:49:37,539

got into UFOs actually and it's through

1089

00:49:43,890 --> 00:49:39,789

my real life which is antiques and fine

1090

00:49:45,359 --> 00:49:43,900

art eventually you know we have like a

1091

00:49:46,859 --> 00:49:45,369

comfortable relationship where I could

1092

00:49:49,410 --> 00:49:46,869

talk to her and eventually I told her

1093

00:49:55,380 --> 00:49:49,420

that I'd do a show in UFOs and I had a

1094

00:49:56,759 --> 00:49:55,390

sighting and etc and she she has she

1095

00:49:58,140 --> 00:49:56,769

lives and I'm trying to remember it

1096

00:50:00,059 --> 00:49:58,150

something like Gold Beach Oregon

1097

00:50:02,640 --> 00:50:00,069

something like that I think that's what

1098

00:50:04,620 --> 00:50:02,650

it's called and she said that there's

1099

00:50:07,439 --> 00:50:04,630

several scientists that have just shown

1100

00:50:08,670 --> 00:50:07,449

up there and they had a talk one night

1101
00:50:12,390 --> 00:50:08,680
and they think that there's something

1102
00:50:14,489 --> 00:50:12,400
off the coast up there is what they were

1103
00:50:15,630 --> 00:50:14,499
coming up with in some type of

1104
00:50:17,609 --> 00:50:15,640
communication

1105
00:50:20,819 --> 00:50:17,619
she was this is things that she was

1106
00:50:23,880 --> 00:50:20,829
talking about these aren't my words and

1107
00:50:26,519 --> 00:50:23,890
that whatever it is is dormant and going

1108
00:50:28,109 --> 00:50:26,529
to be dormant until all of a sudden you

1109
00:50:32,939 --> 00:50:28,119
know they'll all wake up at the same

1110
00:50:34,829 --> 00:50:32,949
time in these little bases up there and

1111
00:50:36,870 --> 00:50:34,839
something's going to happen according to

1112
00:50:38,699 --> 00:50:36,880
her and that's why the scientists moved

1113
00:50:42,569 --> 00:50:38,709

there and I thought it was kind of wacky

1114

00:50:44,489 --> 00:50:42,579

but you know for her to come up with all

1115

00:50:47,239 --> 00:50:44,499

this I had no idea she had that aspect

1116

00:50:50,339 --> 00:50:47,249

of that side of her you know she's very

1117

00:50:52,229 --> 00:50:50,349

balanced type of person I worked at the

1118

00:50:52,829 --> 00:50:52,239

Vatican as an artist and you know all

1119

00:50:58,019 --> 00:50:52,839

kinds of things

1120

00:50:59,969 --> 00:50:58,029

so anyway interesting you know and I do

1121

00:51:03,179 --> 00:50:59,979

understand why a lot of people think is

1122

00:51:06,089 --> 00:51:03,189

that you know like I said earlier

1123

00:51:09,630 --> 00:51:06,099

there's so much water on this planet you

1124

00:51:12,299 --> 00:51:09,640

know like for instance if space junk

1125

00:51:14,339 --> 00:51:12,309

falls you know 90% of the time it seems

1126

00:51:16,559 --> 00:51:14,349

to fall in the water doesn't even you

1127

00:51:19,859 --> 00:51:16,569

know fall on land land is just such a

1128

00:51:21,959 --> 00:51:19,869

small part of what we are here right

1129

00:51:24,269 --> 00:51:21,969

well I mean I think that's one of the

1130

00:51:26,789 --> 00:51:24,279

reasons that they're taking advantage of

1131

00:51:29,279 --> 00:51:26,799

it is is that we can't go underwater in

1132

00:51:30,660 --> 00:51:29,289

the way that they can so these objects

1133

00:51:33,630 --> 00:51:30,670

are coming down and they hit the water

1134

00:51:34,589 --> 00:51:33,640

and um don't make a splash you know

1135

00:51:37,329 --> 00:51:34,599

don't make a sound

1136

00:51:40,440 --> 00:51:37,339

they have obviously some sort of force

1137

00:51:42,670 --> 00:51:40,450

or some way of pushing the water aside

1138

00:51:45,009 --> 00:51:42,680

and could come up out of the water and

1139

00:51:46,859 --> 00:51:45,019

don't drag the water in most cases with

1140

00:51:50,769 --> 00:51:46,869

them there are a few where they have

1141

00:51:53,589 --> 00:51:50,779

actually but in most cases now and I

1142

00:51:55,719 --> 00:51:53,599

don't know how many you Essos there are

1143

00:51:57,700 --> 00:51:55,729

but I'm guessing there's a lot of them

1144

00:52:00,180 --> 00:51:57,710

that we don't know about wouldn't

1145

00:52:04,029 --> 00:52:00,190

surprise me if there's multiple bases

1146

00:52:06,880 --> 00:52:04,039

but definitely this area um I think

1147

00:52:09,309 --> 00:52:06,890

they're hiding down there because they

1148

00:52:12,489 --> 00:52:09,319

can and because we can't get that to

1149

00:52:14,079 --> 00:52:12,499

then certainly not easily and it's

1150

00:52:17,680 --> 00:52:14,089

really interesting because you know this

1151
00:52:21,359 --> 00:52:17,690
area where they're at is not a great

1152
00:52:25,089 --> 00:52:21,369
place for UFOs Hurley in terms of being

1153
00:52:27,489 --> 00:52:25,099
caught being seen because on the north

1154
00:52:30,039 --> 00:52:27,499
end we have Point Mugu Naval Base

1155
00:52:31,979 --> 00:52:30,049
there's San Clemente Island just beyond

1156
00:52:34,900 --> 00:52:31,989
Catalina which is purely military

1157
00:52:38,620 --> 00:52:34,910
there's Seal Beach Naval Weapons

1158
00:52:43,450 --> 00:52:38,630
stations at the south end it's a pretty

1159
00:52:45,219 --> 00:52:43,460
heavily militarized area so it's pretty

1160
00:52:47,890 --> 00:52:45,229
surprising that there's so much activity

1161
00:52:52,630 --> 00:52:47,900
here has anyone ever speculated that

1162
00:52:55,359 --> 00:52:52,640
this could be secret military craft are

1163
00:52:57,849 --> 00:52:55,369

you know certainly I'm guessing some of

1164

00:53:01,390 --> 00:52:57,859

it might be but I'm pretty darn sure

1165

00:53:04,390 --> 00:53:01,400

that most of it is not and I'll tell you

1166

00:53:06,549 --> 00:53:04,400

I've got five really good reasons why I

1167

00:53:08,019 --> 00:53:06,559

don't think it's military certainly I've

1168

00:53:10,239 --> 00:53:08,029

talked and talked to some of these

1169

00:53:11,979 --> 00:53:10,249

military guys I talked to a submarine

1170

00:53:14,259 --> 00:53:11,989

navigator I talked to you the

1171

00:53:20,349 --> 00:53:14,269

electrician's mate on a submarine I

1172

00:53:23,229 --> 00:53:20,359

talked to a navy officer who saw a USO

1173

00:53:25,390 --> 00:53:23,239

in this area so they're certainly

1174

00:53:27,789 --> 00:53:25,400

baffled by it themselves but the reason

1175

00:53:31,749 --> 00:53:27,799

why I don't think it's military is

1176

00:53:34,239 --> 00:53:31,759

because for one people are being taken

1177

00:53:37,630 --> 00:53:34,249

on board these craft and they're not

1178

00:53:39,999 --> 00:53:37,640

seeing humans they're seeing greys we're

1179

00:53:42,459 --> 00:53:40,009

seeing praying mantis there's some cases

1180

00:53:46,239 --> 00:53:42,469

where people are seeing humanoids but

1181

00:53:49,450 --> 00:53:46,249

they're not human does not appear to be

1182

00:53:50,680 --> 00:53:49,460

that these was ever inside these is

1183

00:53:52,770 --> 00:53:50,690

military

1184

00:53:55,300 --> 00:53:52,780

that's the first reason but secondly

1185

00:53:58,540 --> 00:53:55,310

these sightings are taking place over a

1186

00:54:00,970 --> 00:53:58,550

very heavy population center and it

1187

00:54:06,160 --> 00:54:00,980

flies in the face of military protocol

1188

00:54:08,740 --> 00:54:06,170

to test fly advanced secret craft over

1189

00:54:11,230 --> 00:54:08,750

someone's house over everybody's house

1190

00:54:13,510 --> 00:54:11,240

or to chase cars down the road or to

1191

00:54:15,340 --> 00:54:13,520

hover right over a home and light it up

1192

00:54:18,550 --> 00:54:15,350

so that everyone inside wakes up and

1193

00:54:20,620 --> 00:54:18,560

comes outside I mean there's they're

1194

00:54:23,670 --> 00:54:20,630

putting on what amounts to displays in

1195

00:54:27,810 --> 00:54:23,680

some cases clearly wanting to be seen

1196

00:54:30,310 --> 00:54:27,820

know it's military does not do that

1197

00:54:33,250 --> 00:54:30,320

I'm going to say about 10% of the cases

1198

00:54:36,280 --> 00:54:33,260

maybe a little more 20 these objects are

1199

00:54:39,030 --> 00:54:36,290

being chased by military aircraft we're

1200

00:54:42,090 --> 00:54:39,040

not going to be chasing our own aircraft

1201

00:54:46,120 --> 00:54:42,100

so that doesn't make sense

1202

00:54:48,760 --> 00:54:46,130

another reason is there are just too

1203

00:54:50,560 --> 00:54:48,770

many of these sightings there's too many

1204

00:54:54,100 --> 00:54:50,570

of these crafts I don't think our

1205

00:54:57,250 --> 00:54:54,110

military has that many airplanes or

1206

00:54:58,900 --> 00:54:57,260

advanced aircraft certainly that's been

1207

00:55:02,050 --> 00:54:58,910

going on way too long

1208

00:55:04,360 --> 00:55:02,060

these objects were darting around you

1209

00:55:07,450 --> 00:55:04,370

know hovering silently way back in the

1210

00:55:09,670 --> 00:55:07,460

40s and 50s and 60s well before our

1211

00:55:12,940 --> 00:55:09,680

military was you know as advanced as it

1212

00:55:15,670 --> 00:55:12,950

is today right so I mean there's all

1213

00:55:19,240 --> 00:55:15,680

these reasons why it certainly does not

1214

00:55:22,840 --> 00:55:19,250

look like it's military and yeah the

1215

00:55:24,940 --> 00:55:22,850

military witnesses I've spoken to a

1216

00:55:27,820 --> 00:55:24,950

Coast Guard captain I've spoken to you

1217

00:55:29,770 --> 00:55:27,830

know lots of people are completely

1218

00:55:33,190 --> 00:55:29,780

baffled and they said no no no this is

1219

00:55:37,030 --> 00:55:33,200

not military it's not has anyone ever

1220

00:55:41,440 --> 00:55:37,040

mentioned any type of sound coming from

1221

00:55:42,730 --> 00:55:41,450

these objects no not really I mean

1222

00:55:44,950 --> 00:55:42,740

there's a few cases where people have

1223

00:55:49,060 --> 00:55:44,960

said they've heard a low buzz in terms

1224

00:55:52,510 --> 00:55:49,070

of us OHS no no one's heard any sound

1225

00:55:54,520 --> 00:55:52,520

from them really at all but a few cases

1226

00:55:59,020 --> 00:55:54,530

involving the low hum a low buzzing

1227

00:56:02,050 --> 00:55:59,030

noise but those are actually very rare

1228

00:56:04,420 --> 00:56:02,060

in terms of know you SOS and UFOs right

1229

00:56:08,450 --> 00:56:04,430

over the water here yeah

1230

00:56:09,590 --> 00:56:08,460

but yeah they're north north of you I

1231

00:56:12,650 --> 00:56:09,600

mean I'm sorry

1232

00:56:18,820 --> 00:56:12,660

south of you actually off San Diego the

1233

00:56:21,440 --> 00:56:18,830

Nimitz back in 2004 the Nimitz case that

1234

00:56:25,510 --> 00:56:21,450

there's conflicting reports and I don't

1235

00:56:32,240 --> 00:56:25,520

know which one is actually accurate that

1236

00:56:35,180 --> 00:56:32,250

some say that the object was right above

1237

00:56:37,250 --> 00:56:35,190

the surface of the water and then a few

1238

00:56:39,140 --> 00:56:37,260

times I've heard someone say that the

1239

00:56:41,720 --> 00:56:39,150

object was just below the water do you

1240

00:56:44,720 --> 00:56:41,730

did you look into that in all the Nimitz

1241

00:56:48,410 --> 00:56:44,730

case um no I don't know a lot about that

1242

00:56:50,630 --> 00:56:48,420

particular case I do know there's a lot

1243

00:56:54,710 --> 00:56:50,640

of military witnesses I mean one that

1244

00:56:57,710 --> 00:56:54,720

really impressed me I talked to dr. Gary

1245

00:57:01,760 --> 00:56:57,720

Wagner who was on board the USS Long

1246

00:57:05,000 --> 00:57:01,770

Beach this was back in let me see 1983

1247

00:57:09,730 --> 00:57:05,010

now the USS Long Beach is a

1248

00:57:13,130 --> 00:57:09,740

nuclear-powered aircraft run ship so

1249

00:57:15,860 --> 00:57:13,140

this I think is what really attracts the

1250

00:57:17,510 --> 00:57:15,870

UFOs and the USO is because this has

1251
00:57:20,330 --> 00:57:17,520
turned up in two other cases and he was

1252
00:57:22,790 --> 00:57:20,340
off on the far side of Catalina Island

1253
00:57:23,840 --> 00:57:22,800
when they saw a very unusual object

1254
00:57:25,280 --> 00:57:23,850
right there on the water

1255
00:57:27,110 --> 00:57:25,290
they couldn't tell if it was you know

1256
00:57:30,350 --> 00:57:27,120
right above the water are on the horizon

1257
00:57:32,390 --> 00:57:30,360
or partly in the water but it was just

1258
00:57:34,820 --> 00:57:32,400
large kind of half disk with a little

1259
00:57:38,660 --> 00:57:34,830
kind of section PI like section cut out

1260
00:57:40,310 --> 00:57:38,670
of it it was pulsating and he calls the

1261
00:57:41,450 --> 00:57:40,320
bridge and tries to get information and

1262
00:57:43,640 --> 00:57:41,460
they won't tell him anything they're

1263
00:57:45,200 --> 00:57:43,650

like we're just too damn busy here but

1264

00:57:47,510 --> 00:57:45,210

everyone on the ship saw it it was a

1265

00:57:51,110 --> 00:57:47,520

relatively brief sighting but they could

1266

00:57:53,390 --> 00:57:51,120

not identify it I talked to a Coast

1267

00:57:57,200 --> 00:57:53,400

Guard captain he had a really amazing

1268

00:57:59,780 --> 00:57:57,210

sighting not in this area but off like

1269

00:58:02,660 --> 00:57:59,790

near the Haiti area the Dominican

1270

00:58:05,630 --> 00:58:02,670

Republic this area was with two other

1271

00:58:08,060 --> 00:58:05,640

people in a boat small boat which was

1272

00:58:11,860 --> 00:58:08,070

actually a navy boat with equipped with

1273

00:58:14,990 --> 00:58:11,870

sonar it was no not active the equipment

1274

00:58:17,970 --> 00:58:15,000

but he was coming into you know a safe

1275

00:58:21,480 --> 00:58:17,980

harbor after a very big storm when

1276

00:58:23,420 --> 00:58:21,490

they were targeted by these us OHS which

1277

00:58:27,260 --> 00:58:23,430

came right under their boat and were

1278

00:58:29,550 --> 00:58:27,270

large 20 feet across perhaps

1279

00:58:31,710 --> 00:58:29,560

doughnut-shaped meaning they had a

1280

00:58:35,400 --> 00:58:31,720

hollow center but very large kind of a

1281

00:58:37,230 --> 00:58:35,410

blue ring of light and would blink on

1282

00:58:40,290 --> 00:58:37,240

and off he says there must have been 10

1283

00:58:41,880 --> 00:58:40,300

maybe 20 of them or more

1284

00:58:43,290 --> 00:58:41,890

I was very hard to tell if they were

1285

00:58:46,320 --> 00:58:43,300

moving or not because they were moving

1286

00:58:48,300 --> 00:58:46,330

and it freaks them all out none of them

1287

00:58:50,640 --> 00:58:48,310

could identify it he contacted me

1288

00:58:53,430 --> 00:58:50,650

because he says honestly I can't find

1289

00:58:55,440 --> 00:58:53,440

any information about us O's really at

1290

00:58:57,480 --> 00:58:55,450

all you know on the internet or anywhere

1291

00:59:01,710 --> 00:58:57,490

there's not a lot of information out

1292

00:59:03,840 --> 00:59:01,720

there and they were kind of followed by

1293

00:59:06,230 --> 00:59:03,850

these u.s. OS for a short period until

1294

00:59:08,730 --> 00:59:06,240

they no went into the harbor there and

1295

00:59:12,210 --> 00:59:08,740

right after they parked and all the UFOs

1296

00:59:14,490 --> 00:59:12,220

were gone one final object came up and

1297

00:59:17,670 --> 00:59:14,500

went right towards their boat as if

1298

00:59:20,190 --> 00:59:17,680

investigating them so I mean yeah these

1299

00:59:22,920 --> 00:59:20,200

military guys are seeing this stuff and

1300

00:59:25,260 --> 00:59:22,930

I guessing it's a lot more common than

1301

00:59:28,680 --> 00:59:25,270

we're hearing because it's military

1302

00:59:30,690 --> 00:59:28,690

policy to not talk about this yeah

1303

00:59:32,040 --> 00:59:30,700

that's the person that's going to call

1304

00:59:35,580 --> 00:59:32,050

in here and a little bits going to talk

1305

00:59:38,400 --> 00:59:35,590

about that particular aspect of it now

1306

00:59:41,250 --> 00:59:38,410

shag harbour for instance you know that

1307

00:59:44,220 --> 00:59:41,260

was there would they tractor there is I

1308

00:59:46,590 --> 00:59:44,230

don't know how accurate it is but it was

1309

00:59:50,330 --> 00:59:46,600

I believe the first time the the Navy

1310

00:59:53,160 --> 00:59:50,340

actually admitted that it was a UFO and

1311

00:59:57,810 --> 00:59:53,170

there was some tracking of I think two

1312

00:59:59,820 --> 00:59:57,820

objects way up the coast so that's again

1313

01:00:01,410 --> 00:59:59,830

on the East Coast but that's that's one

1314

01:00:04,020 --> 01:00:01,420

of the really great sight you know one

1315

01:00:06,000 --> 01:00:04,030

of the great sightings I think oh very

1316

01:00:08,940 --> 01:00:06,010

well very well verified lots of

1317

01:00:12,359 --> 01:00:08,950

witnesses official documents lasted a

1318

01:00:13,790 --> 01:00:12,369

long time it's a great case yeah very

1319

01:00:17,310 --> 01:00:13,800

familiar with it

1320

01:00:18,810 --> 01:00:17,320

they're unusual one case oh god I'd love

1321

01:00:21,120 --> 01:00:18,820

to talk about just because I think it's

1322

01:00:23,849 --> 01:00:21,130

one of my favorite in the book didn't

1323

01:00:27,810 --> 01:00:23,859

take place in this Catalina channel area

1324

01:00:29,400 --> 01:00:27,820

but rather on the East Coast in 1971 to

1325

01:00:31,530 --> 01:00:29,410

a guy named Ray Sachs

1326

01:00:34,800 --> 01:00:31,540

who was an electrician's mate on the USS

1327

01:00:37,500 --> 01:00:34,810

clam Igor it's a submarine with nuclear

1328

01:00:39,570 --> 01:00:37,510

missiles in it and he was on the other

1329

01:00:42,120 --> 01:00:39,580

subs and never had anything unusual

1330

01:00:44,610 --> 01:00:42,130

happen gets on board this sub and

1331

01:00:47,010 --> 01:00:44,620

strange things started happening I mean

1332

01:00:49,170 --> 01:00:47,020

one point all the engines shut off there

1333

01:00:51,810 --> 01:00:49,180

are you know multiple backup things that

1334

01:00:54,150 --> 01:00:51,820

should not allow this to happen but it

1335

01:00:56,490 --> 01:00:54,160

did they couldn't explain it but the

1336

01:00:58,650 --> 01:00:56,500

weirdest incident by far occurred in

1337

01:01:03,170 --> 01:00:58,660

1971 is they're heading up the coast

1338

01:01:06,660 --> 01:01:03,180

there and this they were on the surface

1339

01:01:08,430 --> 01:01:06,670

moving along at around 12 knots or so he

1340

01:01:10,080 --> 01:01:08,440

was a lookout along with another petty

1341

01:01:11,790 --> 01:01:10,090

officer he was an electrician's mate

1342

01:01:14,460 --> 01:01:11,800

the captain was there in the

1343

01:01:17,820 --> 01:01:14,470

second-in-command were all on deck when

1344

01:01:21,990 --> 01:01:17,830

this USO comes zooming up he said maybe

1345

01:01:24,870 --> 01:01:22,000

a hundred knots very fast and totally

1346

01:01:27,810 --> 01:01:24,880

silent comes right up next to the sub 50

1347

01:01:30,690 --> 01:01:27,820

feet off and starts pacing them tracking

1348

01:01:31,650 --> 01:01:30,700

them it's got to be 50 feet across it's

1349

01:01:34,920 --> 01:01:31,660

huge

1350

01:01:36,360 --> 01:01:34,930

very bright and the captain turns to Ray

1351

01:01:38,790 --> 01:01:36,370

and says you know what are the sonar

1352

01:01:41,490 --> 01:01:38,800

guys say are they painting anything what

1353

01:01:43,410 --> 01:01:41,500

do they see and they didn't weren't

1354

01:01:46,710 --> 01:01:43,420

seeing anything they saw nothing at all

1355

01:01:49,740 --> 01:01:46,720

this was not showing up on sonar did you

1356

01:01:53,970 --> 01:01:49,750

see this 71 19 oh yeah

1357

01:01:56,430 --> 01:01:53,980

yeah I believe it was 71 Wow and so

1358

01:01:58,920 --> 01:01:56,440

they're freaking out because this object

1359

01:02:00,810 --> 01:01:58,930

is not going away

1360

01:02:03,600 --> 01:02:00,820

it's following them they don't know what

1361

01:02:06,630 --> 01:02:03,610

it is and one by one all the main

1362

01:02:07,830 --> 01:02:06,640

officers go up on deck to take a look at

1363

01:02:10,440 --> 01:02:07,840

this thing because they want to see it

1364

01:02:13,110 --> 01:02:10,450

of course the you know those petty

1365

01:02:15,810 --> 01:02:13,120

officers are not allowed on deck but Ray

1366

01:02:17,550 --> 01:02:15,820

sax is they were watching all of this as

1367

01:02:21,360 --> 01:02:17,560

one officer after another comes up looks

1368

01:02:24,120 --> 01:02:21,370

at it then goes back below this object

1369

01:02:27,390 --> 01:02:24,130

paste that submarine the clan ogar for

1370

01:02:30,960 --> 01:02:27,400

about 15 maybe 20 minutes before it

1371

01:02:34,620 --> 01:02:30,970

finally took off in another direction at

1372

01:02:36,150 --> 01:02:34,630

about a 15 ounce and was right under the

1373

01:02:38,910 --> 01:02:36,160

water there you know 20 feet down maybe

1374

01:02:41,250 --> 01:02:38,920

30 that was hard for them to tell they

1375

01:02:44,220 --> 01:02:41,260

couldn't see any solid object just a

1376

01:02:46,920 --> 01:02:44,230

light but what's the aftermath was

1377

01:02:49,260 --> 01:02:46,930

really interesting because a ray and the

1378

01:03:00,440 --> 01:02:49,270

other look out there just talking their

1379

01:03:09,690 --> 01:03:05,430

let me see if I can get him back on the

1380

01:03:12,600 --> 01:03:09,700

line I'm gonna have to hang up and so

1381

01:03:18,060 --> 01:03:12,610

hang in there everyone I'm going to hang

1382

01:03:22,050 --> 01:03:18,070

up on him and call him right back and so

1383

01:03:32,400 --> 01:03:22,060

just hold tight I'm not sure exactly

1384

01:03:40,009 --> 01:03:35,490

all right so it's it's after just after

1385

01:03:42,539 --> 01:03:40,019

9:00 we're actually taking calls so that

1386

01:03:50,240 --> 01:03:42,549

number I'm gonna we're gonna have over

1387

01:03:55,049 --> 01:03:50,250

on the screen right now and let's see

1388

01:03:58,579 --> 01:03:55,059

I'm not sure what happened hopefully

1389

01:04:02,069 --> 01:03:58,589

he'll dial back in he's not picking up

1390

01:04:03,329 --> 01:04:02,079

these type of things is it's always the

1391

01:04:06,809 --> 01:04:03,339

government that does this type of thing

1392

01:04:08,999 --> 01:04:06,819

I'm sure all right so you can see that

1393

01:04:11,609 --> 01:04:09,009

number is up on the screen right now on

1394

01:04:14,099 --> 01:04:11,619

YouTube anyone listening live right now

1395

01:04:17,940 --> 01:04:14,109

can call in that number or you're

1396

01:04:20,970 --> 01:04:17,950

welcome to call while we're waiting I'm

1397

01:04:36,480 --> 01:04:20,980

gonna see if I can get the person to

1398

01:04:39,059 --> 01:04:36,490

call in now hang on just a second anyway

1399

01:04:40,680 --> 01:04:39,069

I will try them one more time so that

1400

01:04:48,089 --> 01:04:40,690

number is up on the screen if anyone

1401
01:04:50,339 --> 01:04:48,099
wants to call in and interesting topic I

1402
01:04:51,180 --> 01:04:50,349
find this a very interesting topic I'm

1403
01:04:55,309 --> 01:04:51,190
not sure

1404
01:04:59,789 --> 01:04:55,319
and of course I'll say this to him too

1405
01:05:01,380 --> 01:04:59,799
I'm not sure how much I really buy into

1406
01:05:05,130 --> 01:05:01,390
the fact that there's possibly an

1407
01:05:09,900 --> 01:05:05,140
underground underwater that is base off

1408
01:05:11,819 --> 01:05:09,910
the shore I know the I think was Jimmy

1409
01:05:15,029 --> 01:05:11,829
Church made something kind of famous

1410
01:05:17,730 --> 01:05:15,039
calling an underwater base it's

1411
01:05:19,710 --> 01:05:17,740
something on Google Maps if you check

1412
01:05:21,990 --> 01:05:19,720
that out you can see it okay

1413
01:05:27,870 --> 01:05:22,000

looks like he's calling back well I

1414

01:05:32,370 --> 01:05:27,880

think it is hello is this Preston or is

1415

01:05:33,150 --> 01:05:32,380

this a caller that's really caller hi

1416

01:05:36,450 --> 01:05:33,160

caller

1417

01:05:38,700 --> 01:05:36,460

thanks for calling in you have well our

1418

01:05:40,259 --> 01:05:38,710

guest is not with us do you have a

1419

01:05:45,980 --> 01:05:40,269

sighting you want to talk about or

1420

01:05:49,400 --> 01:05:45,990

thanks for calling not yet well I I do

1421

01:05:55,520 --> 01:05:49,410

but I wanted to ask him a question

1422

01:05:57,050 --> 01:05:55,530

basically all right he he disappeared

1423

01:06:00,260 --> 01:05:57,060

I'm not really sure exactly what

1424

01:06:05,390 --> 01:06:00,270

happened but what's your first name were

1425

01:06:06,500 --> 01:06:05,400

you calling from Midway Utah and you

1426

01:06:10,190 --> 01:06:06,510

what's your first name Michael

1427

01:06:14,150 --> 01:06:10,200

Michael welcome to the Michael no well

1428

01:06:16,310 --> 01:06:14,160

Michael hopefully he will call in any

1429

01:06:18,109 --> 01:06:16,320

second I'm not sure if his internet went

1430

01:06:22,190 --> 01:06:18,119

out or what but what exactly were you

1431

01:06:27,320 --> 01:06:22,200

gonna ask him for a question uh I was

1432

01:06:31,820 --> 01:06:27,330

curious if you've ever he has ever heard

1433

01:06:33,920 --> 01:06:31,830

of any stories where it's the aliens

1434

01:06:35,570 --> 01:06:33,930

that the people that have seen aliens if

1435

01:06:39,470 --> 01:06:35,580

they've ever heard about this white

1436

01:06:41,750 --> 01:06:39,480

powdered gold this monatomic elements

1437

01:06:44,660 --> 01:06:41,760

that supposedly the aliens know about

1438

01:06:46,130 --> 01:06:44,670

and because it's what I think gives them

1439

01:06:49,070 --> 01:06:46,140

their long life and their super health

1440

01:06:51,890 --> 01:06:49,080

and their intelligence anyway

1441

01:06:55,849 --> 01:06:51,900

well okay never heard of any of this

1442

01:06:57,650 --> 01:06:55,859

stuff so I guess we just tried to call

1443

01:07:01,220 --> 01:06:57,660

in I try to accept this call I'm not

1444

01:07:04,609 --> 01:07:01,230

sure what is going on here I can wait

1445

01:07:08,810 --> 01:07:04,619

yeah I mean well though we have mark you

1446

01:07:10,480 --> 01:07:08,820

want I am here mark our guest we lost

1447

01:07:13,790 --> 01:07:10,490

our guest he just tried to call in

1448

01:07:17,000 --> 01:07:13,800

Michael do you mind calling back a

1449

01:07:21,320 --> 01:07:17,010

little bit later on is that when I get

1450

01:07:24,280 --> 01:07:21,330

when we get Preston back sounds good all

1451

01:07:27,560 --> 01:07:24,290

right I appreciate the call thank you

1452

01:07:29,870 --> 01:07:27,570

mark how you doing hey Martin how are

1453

01:07:32,660 --> 01:07:29,880

you good so listen we're going to have

1454

01:07:35,450 --> 01:07:32,670

to try if I'm not sure what's going on

1455

01:07:37,970 --> 01:07:35,460

with with Preston's here he is right now

1456

01:07:41,810 --> 01:07:37,980

let's try to get him back on okay sure

1457

01:07:44,330 --> 01:07:41,820

all right just right here we go I think

1458

01:07:46,190 --> 01:07:44,340

it's gonna work hey you're back I am

1459

01:07:47,690 --> 01:07:46,200

thank you hey Preston I'm not really

1460

01:07:50,060 --> 01:07:47,700

sure what happened

1461

01:07:53,480 --> 01:07:50,070

you froze and then that was the end of

1462

01:07:55,670 --> 01:07:53,490

you so you're back thank you Hey hey

1463

01:07:57,500 --> 01:07:55,680

Preston we had someone call in and ask a

1464

01:07:59,870 --> 01:07:57,510

question I didn't quite get what he was

1465

01:08:01,249 --> 01:07:59,880

saying exactly but um we

1466

01:08:05,269 --> 01:08:01,259

you have someone on we have Mark

1467

01:08:07,279 --> 01:08:05,279

Dantonio on and I told you earlier that

1468

01:08:07,999 --> 01:08:07,289

I was up wanting him to come on to tell

1469

01:08:12,289 --> 01:08:08,009

his story

1470

01:08:15,529 --> 01:08:12,299

so mark well we're on with Preston

1471

01:08:18,260 --> 01:08:15,539

Dennett hi Preston how are you I'm great

1472

01:08:20,300 --> 01:08:18,270

how are you I'm just fine thank you it's

1473

01:08:23,570 --> 01:08:20,310

fine I'm actually out in the observatory

1474

01:08:25,399 --> 01:08:23,580

so you have to mind the sounds of the

1475

01:08:27,530 --> 01:08:25,409

telescope because I'm doing a little bit

1476

01:08:28,849 --> 01:08:27,540

of research here but I told Martin I

1477

01:08:30,349 --> 01:08:28,859

could call in anyway and we could talk

1478

01:08:33,439 --> 01:08:30,359

for a while

1479

01:08:34,939 --> 01:08:33,449

sounds okay to me but you know so Martin

1480

01:08:37,249 --> 01:08:34,949

when he let me talk to him about or tell

1481

01:08:39,919 --> 01:08:37,259

you guys you know we're talking about us

1482

01:08:43,459 --> 01:08:39,929

and just a minute ago I was talking

1483

01:08:46,490 --> 01:08:43,469

about a case back in 1971 that was very

1484

01:08:47,599 --> 01:08:46,500

similar or you know talking about speed

1485

01:08:52,579 --> 01:08:47,609

and everything

1486

01:08:54,200 --> 01:08:52,589

a submarine case back in 1971 mark I'd

1487

01:08:56,390 --> 01:08:54,210

like for you to tell I don't think

1488

01:08:58,099 --> 01:08:56,400

precedents ever heard your story and the

1489

01:08:59,360 --> 01:08:58,109

listeners we have some people in the

1490

01:09:00,160 --> 01:08:59,370

chat room that are excited to hear about

1491

01:09:02,240 --> 01:09:00,170

it

1492

01:09:04,189 --> 01:09:02,250

just one question I want to ask you

1493

01:09:06,610 --> 01:09:04,199

though mark was the particular sub that

1494

01:09:10,039 --> 01:09:06,620

you were on was at a nuclear submarine

1495

01:09:12,379 --> 01:09:10,049

yes it was and I wasn't I was not a

1496

01:09:15,860 --> 01:09:12,389

sailor I was just to get because of the

1497

01:09:17,809 --> 01:09:15,870

work I do for the Navy um and you know

1498

01:09:22,099 --> 01:09:17,819

that work may come to a grinding halt I

1499

01:09:23,149 --> 01:09:22,109

mean you know but yeah I've had a number

1500

01:09:25,129 --> 01:09:23,159

of years with it anyway

1501

01:09:27,079 --> 01:09:25,139

alright so I'm ok with it I just you

1502

01:09:29,959 --> 01:09:27,089

know there I just thought that it was a

1503

01:09:31,999 --> 01:09:29,969

really interesting experience because

1504

01:09:34,399 --> 01:09:32,009

why should it happen to me you know

1505

01:09:37,430 --> 01:09:34,409

going on a ride and as I thought about

1506

01:09:41,149 --> 01:09:37,440

it I felt well maybe what happened to me

1507

01:09:43,220 --> 01:09:41,159

is something that happens a lot that's

1508

01:09:44,959 --> 01:09:43,230

the only way I could I could actually

1509

01:09:48,110 --> 01:09:44,969

make this assumptions it happens a lot

1510

01:09:50,209 --> 01:09:48,120

and it's a double it's the story has two

1511

01:09:52,189 --> 01:09:50,219

sides to it because here's how it worked

1512

01:09:53,840 --> 01:09:52,199

okay first I was invited to go for a

1513

01:09:56,660 --> 01:09:53,850

ride because of the some of the work I

1514

01:09:59,000 --> 01:09:56,670

did close to the Navy for a number of

1515

01:10:02,390 --> 01:09:59,010

years so this do you want to go for ride

1516

01:10:05,240 --> 01:10:02,400

in a nuclear sub yeah let's do you sure

1517

01:10:07,129 --> 01:10:05,250

you know of course where do I swear do I

1518

01:10:09,200 --> 01:10:07,139

start and they like slow down it's gonna

1519

01:10:10,340 --> 01:10:09,210

be next month you know so I was already

1520

01:10:13,100 --> 01:10:10,350

heading for the door you know kind of

1521

01:10:13,790 --> 01:10:13,110

thing so they uh they set it up I went

1522

01:10:16,040 --> 01:10:13,800

down and

1523

01:10:17,629 --> 01:10:16,050

aboard the sub I know an awful lot about

1524

01:10:19,580 --> 01:10:17,639

submarines that's that's kind of what my

1525

01:10:21,859 --> 01:10:19,590

businesses with a navy I actually own a

1526

01:10:24,169 --> 01:10:21,869

company that makes these very high-end

1527

01:10:27,020 --> 01:10:24,179

engineering models of submarine concepts

1528

01:10:30,229 --> 01:10:27,030

that are far future so they're 30 years

1529

01:10:33,589 --> 01:10:30,239

out typically so I've made models that

1530

01:10:34,760 --> 01:10:33,599

you know just look so outlandish that if

1531

01:10:37,069 --> 01:10:34,770

someone saw them today they would say

1532

01:10:39,799 --> 01:10:37,079

wow it's a spaceship wow it's an alien

1533

01:10:41,089 --> 01:10:39,809

craft you know in our seas and that's

1534

01:10:44,120 --> 01:10:41,099

kind of what attracted me to the whole

1535

01:10:45,680 --> 01:10:44,130

you know submarine industry and I've

1536

01:10:48,560 --> 01:10:45,690

always been interested in unidentified

1537

01:10:50,450 --> 01:10:48,570

flying objects so not even thinking

1538

01:10:52,669 --> 01:10:50,460

anything about that I went on board the

1539

01:10:54,950 --> 01:10:52,679

sub and I asked when we were gonna get

1540

01:10:56,330 --> 01:10:54,960

on their way and that was about a couple

1541

01:10:58,160 --> 01:10:56,340

hours after word got through the

1542

01:10:59,899 --> 01:10:58,170

orientation and like you know we're told

1543

01:11:01,339 --> 01:10:59,909

you know they got a full tour we could

1544

01:11:02,510 --> 01:11:01,349

go anywhere we wanted on the boat even

1545

01:11:04,760 --> 01:11:02,520

to the back end which I thought was

1546

01:11:07,129 --> 01:11:04,770

pretty interesting but no at the time

1547

01:11:09,530 --> 01:11:07,139

with my clearance and so forth that

1548

01:11:12,919 --> 01:11:09,540

wasn't an issue I just had the heads

1549

01:11:14,330 --> 01:11:12,929

have someone with me so during that time

1550

01:11:15,350 --> 01:11:14,340

I asked when we're gonna get on their

1551
01:11:16,540 --> 01:11:15,360
way and they said we've been underway

1552
01:11:18,680 --> 01:11:16,550
for about two hours

1553
01:11:20,540 --> 01:11:18,690
alright and we didn't even know because

1554
01:11:24,200 --> 01:11:20,550
we were actually going going through

1555
01:11:27,950 --> 01:11:24,210
relatively calm estuary type waters and

1556
01:11:29,390 --> 01:11:27,960
so but I realized what's we got out into

1557
01:11:30,830 --> 01:11:29,400
the open ocean okay

1558
01:11:33,169 --> 01:11:30,840
then the boat started rocking and

1559
01:11:34,399 --> 01:11:33,179
rolling and we're still on the surface

1560
01:11:36,560 --> 01:11:34,409
because they traveled on the surface for

1561
01:11:38,419 --> 01:11:36,570
a long time before they go under they do

1562
01:11:39,649 --> 01:11:38,429
a survey of all the ships in the area

1563
01:11:42,859 --> 01:11:39,659

make sure there's nobody nearby and then

1564

01:11:45,560 --> 01:11:42,869

they will dive okay well during that

1565

01:11:48,350 --> 01:11:45,570

time I got really badly seasick I didn't

1566

01:11:50,299 --> 01:11:48,360

ever throw up but you know as I tell

1567

01:11:53,000 --> 01:11:50,309

people it was the best time I had being

1568

01:11:54,560 --> 01:11:53,010

seasick if you could ever have a good

1569

01:11:56,149 --> 01:11:54,570

time had it that was it you know that's

1570

01:12:01,760 --> 01:11:56,159

the way I want to do it again if I have

1571

01:12:04,549 --> 01:12:01,770

to so I went to it we have to see and I

1572

01:12:06,080 --> 01:12:04,559

was sitting in the sonar area it's a

1573

01:12:08,089 --> 01:12:06,090

they called the sonar Shack it's

1574

01:12:09,620 --> 01:12:08,099

actually a little row of consoles just

1575

01:12:13,010 --> 01:12:09,630

to the right side of the control room

1576

01:12:14,930 --> 01:12:13,020

and it seemed from you know looking from

1577

01:12:17,030 --> 01:12:14,940

back to forward and I was on the right

1578

01:12:21,649 --> 01:12:17,040

side and sitting at one of the consoles

1579

01:12:23,030 --> 01:12:21,659

that apparently wasn't in use and I was

1580

01:12:25,189 --> 01:12:23,040

sitting there trying to just zone out in

1581

01:12:27,169 --> 01:12:25,199

the in the semi-darkness there because

1582

01:12:30,649 --> 01:12:27,179

it was around a barrier wall

1583

01:12:33,260 --> 01:12:30,659

and I was really feeling like it was

1584

01:12:35,510 --> 01:12:33,270

gonna get better and I was feeling I was

1585

01:12:37,370 --> 01:12:35,520

breathing and so forth and then I don't

1586

01:12:39,220 --> 01:12:37,380

know how much time passed but you know

1587

01:12:42,080 --> 01:12:39,230

we were already out there for many hours

1588

01:12:44,479 --> 01:12:42,090

and you know when the sub goes under

1589

01:12:47,240 --> 01:12:44,489

okay and and this is the difference here

1590

01:12:49,370 --> 01:12:47,250

at some point when we submerged the

1591

01:12:52,220 --> 01:12:49,380

rockin and rollin from the surface just

1592

01:12:54,200 --> 01:12:52,230

goes away it just goes away it feels

1593

01:12:57,410 --> 01:12:54,210

like you feel like right now sitting in

1594

01:12:58,820 --> 01:12:57,420

your rooms okay you don't feel anything

1595

01:13:02,839 --> 01:12:58,830

but you feel a vibration in your feet

1596

01:13:05,180 --> 01:13:02,849

because the sub is is noisy it's got

1597

01:13:07,129 --> 01:13:05,190

vibrations but the Navy prides itself on

1598

01:13:12,740 --> 01:13:07,139

those noises and vibrations not getting

1599

01:13:14,810 --> 01:13:12,750

out of the sub so as I'm sitting there

1600

01:13:16,520 --> 01:13:14,820

and I'm almost I'm literally almost

1601
01:13:18,200 --> 01:13:16,530
falling asleep and I'm thinking you know

1602
01:13:19,399 --> 01:13:18,210
what I can do that for a little while

1603
01:13:21,890 --> 01:13:19,409
I'll just take a little nap get rid of

1604
01:13:23,750 --> 01:13:21,900
this seasickness for sure and then be

1605
01:13:25,399 --> 01:13:23,760
done with it and then as I'm sitting

1606
01:13:29,050 --> 01:13:25,409
there just zoning out all of a sudden

1607
01:13:32,870 --> 01:13:29,060
the the kid at the sonar console console

1608
01:13:36,290 --> 01:13:32,880
you know announces Conn sonar Conn sonar

1609
01:13:39,020 --> 01:13:36,300
fast mover fast mover you know something

1610
01:13:41,479 --> 01:13:39,030
to that effect and I jolt awake with an

1611
01:13:43,430 --> 01:13:41,489
adrenaline rush and I'm thinking oh

1612
01:13:44,600 --> 01:13:43,440
great I'm gonna get killed by a torpedo

1613
01:13:45,890 --> 01:13:44,610

out here it's supposed to be a pleasure

1614

01:13:47,720 --> 01:13:45,900

cruise one day I'm gonna die out here

1615

01:13:48,890 --> 01:13:47,730

what do they even see us to this you

1616

01:13:52,700 --> 01:13:48,900

know let's go through all the reasons

1617

01:13:54,260 --> 01:13:52,710

why I should even be there when the the

1618

01:13:57,830 --> 01:13:54,270

executive officer comes around and says

1619

01:13:59,629 --> 01:13:57,840

what do you have and the kids talk it

1620

01:14:00,830 --> 01:13:59,639

knows it says it's kind of noisy on the

1621

01:14:02,510 --> 01:14:00,840

sub I couldn't hear everything they were

1622

01:14:03,859 --> 01:14:02,520

saying and because all the seats are

1623

01:14:06,800 --> 01:14:03,869

bolted down I had to kind of slide

1624

01:14:08,570 --> 01:14:06,810

forward on the on a seat cushion okay

1625

01:14:10,760 --> 01:14:08,580

and can I just put the little corner of

1626

01:14:12,200 --> 01:14:10,770

my book but on that seat so I was

1627

01:14:14,330 --> 01:14:12,210

literally trying to hold myself up with

1628

01:14:16,820 --> 01:14:14,340

my legs while leaning forward enough to

1629

01:14:18,310 --> 01:14:16,830

kind of overhear the conversation which

1630

01:14:22,430 --> 01:14:18,320

is probably not a good idea

1631

01:14:24,740 --> 01:14:22,440

and as you'll see and so I said all

1632

01:14:26,240 --> 01:14:24,750

right i sat there listen and he asked

1633

01:14:29,149 --> 01:14:26,250

for the the XO s for the course in

1634

01:14:30,859 --> 01:14:29,159

bearing and I couldn't hear that but

1635

01:14:34,790 --> 01:14:30,869

then he said well wait how fast is that

1636

01:14:37,850 --> 01:14:34,800

going and and the kid kinda and he was a

1637

01:14:41,000 --> 01:14:37,860

kid he looked at the screen and he he

1638

01:14:42,710 --> 01:14:41,010

said I and I thought he said

1639

01:14:46,070 --> 01:14:42,720

he say he said several I know he said

1640

01:14:48,380 --> 01:14:46,080

several hundred knots he said it's going

1641

01:14:50,540 --> 01:14:48,390

several hundred knots and he was sort of

1642

01:14:54,050 --> 01:14:50,550

had this incredible iseverything like

1643

01:14:57,620 --> 01:14:54,060

that he didn't in the exo said to him

1644

01:14:59,210 --> 01:14:57,630

okay can you confirm it and didn't act

1645

01:15:00,200 --> 01:14:59,220

incredulous didn't go huh you know or

1646

01:15:02,270 --> 01:15:00,210

anything like that didn't ask for

1647

01:15:04,490 --> 01:15:02,280

anything other than confirmation and

1648

01:15:07,310 --> 01:15:04,500

that's when the kid said yeah I'll check

1649

01:15:07,820 --> 01:15:07,320

the other I can check the other sonar or

1650

01:15:09,470 --> 01:15:07,830

whatever

1651

01:15:11,690 --> 01:15:09,480

I can't member exactly how we said it

1652

01:15:13,040 --> 01:15:11,700

and all of a sudden his face was in mind

1653

01:15:14,960 --> 01:15:13,050

because remember I'm leaning forward now

1654

01:15:16,940 --> 01:15:14,970

and I'm a little diagonal off my seat

1655

01:15:19,760 --> 01:15:16,950

trying to listen in and horn in on their

1656

01:15:21,710 --> 01:15:19,770

conversation and then suddenly got this

1657

01:15:23,060 --> 01:15:21,720

kid's face in mine he was oh sorry sorry

1658

01:15:24,770 --> 01:15:23,070

let me back up and they backed up and

1659

01:15:26,510 --> 01:15:24,780

just saw I'm sorry sir and he looks at

1660

01:15:28,940 --> 01:15:26,520

the screen I was sitting at which was

1661

01:15:31,010 --> 01:15:28,950

actually on okay and there was a

1662

01:15:33,260 --> 01:15:31,020

developing track there too and it was a

1663

01:15:34,340 --> 01:15:33,270

very faint lying and very faint track

1664

01:15:36,320 --> 01:15:34,350

which I assume is what he was talking

1665

01:15:38,140 --> 01:15:36,330

about it was not there's nothing loud on

1666

01:15:41,090 --> 01:15:38,150

this owner was they're all very faint

1667

01:15:42,740 --> 01:15:41,100

very faint traces and he went back he

1668

01:15:44,200 --> 01:15:42,750

says yeah it's it's on this one too it's

1669

01:15:46,310 --> 01:15:44,210

over he said whatever he said that this

1670

01:15:50,030 --> 01:15:46,320

it's on this something or other you know

1671

01:15:51,500 --> 01:15:50,040

the know if he said t be 29 or some

1672

01:15:53,240 --> 01:15:51,510

other 16 I don't know but it we

1673

01:15:57,890 --> 01:15:53,250

basically said it was on this one too

1674

01:15:59,150 --> 01:15:57,900

and the XO is looking at the kid and the

1675

01:16:01,100 --> 01:15:59,160

kid says what do I do

1676

01:16:02,300 --> 01:16:01,110

sir how do I handle this what do I do

1677

01:16:04,370 --> 01:16:02,310

because he had never done this before

1678

01:16:06,160 --> 01:16:04,380

apparently for the kid in the executive

1679

01:16:10,220 --> 01:16:06,170

officer just looked at him and said okay

1680

01:16:12,290 --> 01:16:10,230

log it and dog it sir yes sir and XO

1681

01:16:15,170 --> 01:16:12,300

walked away kid did whatever he's doing

1682

01:16:18,080 --> 01:16:15,180

and I got up and I followed the

1683

01:16:20,090 --> 01:16:18,090

executive officer out there okay you

1684

01:16:21,560 --> 01:16:20,100

know hey look I'm invited I'm a special

1685

01:16:23,540 --> 01:16:21,570

guy man right I got all these special

1686

01:16:25,850 --> 01:16:23,550

privileges to on this subject me out a

1687

01:16:27,650 --> 01:16:25,860

bigwig walked up to the executive

1688

01:16:29,930 --> 01:16:27,660

officer and he said sir I know something

1689

01:16:31,850 --> 01:16:29,940

about these fast movers can I help you

1690

01:16:34,340 --> 01:16:31,860

in any way and he put his hand to my

1691

01:16:35,900 --> 01:16:34,350

shoulder and said mr. Dantonio are you

1692

01:16:38,000 --> 01:16:35,910

having a good ride yes sir I am

1693

01:16:41,690 --> 01:16:38,010

let's keep it that way and he turned and

1694

01:16:45,230 --> 01:16:41,700

walked away so much for my special

1695

01:16:46,610 --> 01:16:45,240

status right so that was kind of like my

1696

01:16:50,360 --> 01:16:46,620

first introduction to that need-to-know

1697

01:16:53,780 --> 01:16:50,370

process you know because I thought I was

1698

01:16:55,850 --> 01:16:53,790

joking up until that point and

1699

01:16:59,780 --> 01:16:55,860

from then that point forward decades ago

1700

01:17:01,610 --> 01:16:59,790

I've never never you know let it go to

1701

01:17:04,880 --> 01:17:01,620

my head let me tell you so anyway that

1702

01:17:07,790 --> 01:17:04,890

so that was the incident well what year

1703

01:17:09,380 --> 01:17:07,800

was this mark I can't tell you the year

1704

01:17:10,730 --> 01:17:09,390

because that that tells too much and

1705

01:17:12,080 --> 01:17:10,740

I've never actually talked

1706

01:17:13,400 --> 01:17:12,090

yeah I've talked to a number of people

1707

01:17:16,970 --> 01:17:13,410

about it you know especially down the

1708

01:17:19,550 --> 01:17:16,980

Navy and they'd rather I not say a thing

1709

01:17:20,780 --> 01:17:19,560

but okay there's this much of it yeah

1710

01:17:22,190 --> 01:17:20,790

this much of it doesn't get me in

1711

01:17:24,380 --> 01:17:22,200

trouble

1712

01:17:27,770 --> 01:17:24,390

you actually published I saw something

1713

01:17:31,940 --> 01:17:27,780

published and it's kind of circulated

1714

01:17:33,590 --> 01:17:31,950

quite a bit a story with you right yeah

1715

01:17:36,590 --> 01:17:33,600

and it was only the thing means that

1716

01:17:37,730 --> 01:17:36,600

yeah I can tell and and the UK Sun

1717

01:17:40,670 --> 01:17:37,740

actually is the one that published it

1718

01:17:42,530 --> 01:17:40,680

and you know the UK Suns a bit of a

1719

01:17:44,350 --> 01:17:42,540

tabloid everybody knows that but they

1720

01:17:47,240 --> 01:17:44,360

got this one right you know I asked the

1721

01:17:48,620 --> 01:17:47,250

reporter Emma Perry asked her you know

1722

01:17:50,210 --> 01:17:48,630

please don't publish this particular

1723

01:17:51,500 --> 01:17:50,220

information or this particular

1724

01:17:55,040 --> 01:17:51,510

information because they told her a

1725

01:17:58,340 --> 01:17:55,050

little more and then you know nothing

1726

01:18:01,550 --> 01:17:58,350

classified obviously and but just

1727

01:18:04,760 --> 01:18:01,560

information that that would allow you

1728

01:18:06,740 --> 01:18:04,770

know never dwells to you know take the

1729

01:18:10,400 --> 01:18:06,750

story and and do other things with it

1730

01:18:11,840 --> 01:18:10,410

that were unintended maybe but and she

1731

01:18:13,100 --> 01:18:11,850

said she wouldn't and I figured it

1732

01:18:15,440 --> 01:18:13,110

alright well that's it she's probably

1733

01:18:17,180 --> 01:18:15,450

publish everything I said in more but

1734

01:18:18,590 --> 01:18:17,190

she didn't she to her credit she

1735

01:18:20,240 --> 01:18:18,600

published only what I told her to

1736

01:18:22,880 --> 01:18:20,250

publish I was very pleased to see that

1737

01:18:27,050 --> 01:18:22,890

and the story that she related exactly

1738

01:18:29,840 --> 01:18:27,060

what I told her now it didn't end there

1739

01:18:31,850 --> 01:18:29,850

because see I continued to work for the

1740

01:18:34,970 --> 01:18:31,860

for the Navy and I had to do another job

1741

01:18:37,450 --> 01:18:34,980

for the Joint Chiefs okay they worked

1742

01:18:40,520 --> 01:18:37,460

for the president the United States and

1743

01:18:42,320 --> 01:18:40,530

one of the particular Joint Chiefs was a

1744

01:18:45,020 --> 01:18:42,330

friend of mine that I'm over time I

1745

01:18:46,610 --> 01:18:45,030

become friends with her and he asked me

1746

01:18:47,780 --> 01:18:46,620

for a project I did the project for him

1747

01:18:50,180 --> 01:18:47,790

and he said hey why'd you drive it down

1748

01:18:52,040 --> 01:18:50,190

you know I live in Maryland here at the

1749

01:18:53,120 --> 01:18:52,050

house it come down to the house hang out

1750

01:18:53,900 --> 01:18:53,130

for the afternoon with my wife we'll

1751

01:18:55,820 --> 01:18:53,910

just talking

1752

01:19:01,250 --> 01:18:55,830

oh yeah sure that'd be great so I went

1753

01:19:02,510 --> 01:19:01,260

down and when I when his wife was in the

1754

01:19:04,790 --> 01:19:02,520

other room I leaned over to him and I

1755

01:19:07,550 --> 01:19:04,800

said you know what can you tell me about

1756

01:19:09,020 --> 01:19:07,560

the fast mover program cuz it

1757

01:19:11,060 --> 01:19:09,030

never left my mind hey you asked him

1758

01:19:12,800 --> 01:19:11,070

yeah this is the guy he's like wait up

1759

01:19:15,290 --> 01:19:12,810

there I said what can you tell me about

1760

01:19:15,850 --> 01:19:15,300

the fast mover program now you know how

1761

01:19:18,680 --> 01:19:15,860

it goes

1762

01:19:20,240 --> 01:19:18,690

these guys could say and and probably

1763

01:19:22,760 --> 01:19:20,250

should have said and could and may

1764

01:19:24,200 --> 01:19:22,770

always have said but wait talking I

1765

01:19:27,470 --> 01:19:24,210

didn't know that I had no idea what that

1766

01:19:29,360 --> 01:19:27,480

is and he didn't say that he leaned over

1767

01:19:33,320 --> 01:19:29,370

to me he says uh I I can't talk about

1768

01:19:35,540 --> 01:19:33,330

that program Marc I'm sorry whoa I could

1769

01:19:38,240 --> 01:19:35,550

I could have I practically did something

1770

01:19:40,100 --> 01:19:38,250

you know they're crazy at that point you

1771

01:19:42,920 --> 01:19:40,110

know but I had to drive home with that

1772

01:19:44,570 --> 01:19:42,930

yeah you know uh really funny look at my

1773

01:19:46,820 --> 01:19:44,580

face I'll tell you because I was I

1774

01:19:48,980 --> 01:19:46,830

actually couldn't believe he said that

1775

01:19:52,100 --> 01:19:48,990

good in a sense he was saying nothing

1776

01:19:54,500 --> 01:19:52,110

but saying everything you know and I was

1777

01:19:56,120 --> 01:19:54,510

just astonished by that and look I'm not

1778

01:19:58,460 --> 01:19:56,130

saying that it's it's extraterrestrial

1779

01:20:00,140 --> 01:19:58,470

in nature I'm just saying there is

1780

01:20:01,880 --> 01:20:00,150

something going on that we don't

1781

01:20:05,900 --> 01:20:01,890

understand that the Navy is tracking I

1782

01:20:08,090 --> 01:20:05,910

know that I know that yeah no and when

1783

01:20:09,470 --> 01:20:08,100

Douglas Trumbull and I were tweeting a

1784

01:20:12,230 --> 01:20:09,480

bills you pataga units we're doing one

1785

01:20:13,460 --> 01:20:12,240

for land those are the automated UFO

1786

01:20:15,710 --> 01:20:13,470

detection systems that are gonna use

1787

01:20:18,440 --> 01:20:15,720

science you know to tell whether they're

1788

01:20:20,750 --> 01:20:18,450

here okay rather than I took a picture

1789

01:20:22,610 --> 01:20:20,760

or I got a video it's gonna use science

1790

01:20:23,990 --> 01:20:22,620

and a bunch of multi-varied instruments

1791

01:20:26,960 --> 01:20:24,000

that will tell us different data for the

1792

01:20:28,910 --> 01:20:26,970

same sighting but we also developed one

1793

01:20:31,070 --> 01:20:28,920

for going underwater all right and

1794

01:20:34,400 --> 01:20:31,080

that's a use detector and it doesn't

1795

01:20:36,140 --> 01:20:34,410

look up it looks it looks down down and

1796

01:20:36,920 --> 01:20:36,150

we're trying to see if we can detect

1797

01:20:38,630 --> 01:20:36,930

something that way

1798

01:20:41,870 --> 01:20:38,640

well that caught the attention of the

1799

01:20:43,460 --> 01:20:41,880

DoD and you know we actually had some

1800

01:20:44,600 --> 01:20:43,470

Defense folks call us and say hey yard

1801
01:20:45,860 --> 01:20:44,610
can we come up and meet with you and

1802
01:20:48,260 --> 01:20:45,870
want to talk to you about all these

1803
01:20:49,370 --> 01:20:48,270
projects you're doing and that hasn't

1804
01:20:51,470 --> 01:20:49,380
happened yet that meeting has not

1805
01:20:53,420 --> 01:20:51,480
happened we've been it's been put off

1806
01:20:55,340 --> 01:20:53,430
and put off and put off something

1807
01:20:57,260 --> 01:20:55,350
sometimes by us sometimes by them I'm

1808
01:20:59,270 --> 01:20:57,270
okay with that you know I don't I don't

1809
01:21:02,320 --> 01:20:59,280
you know it may be innocent but it may

1810
01:21:06,500 --> 01:21:02,330
not be but there it is that's the story

1811
01:21:07,640 --> 01:21:06,510
you know I you know again I as a science

1812
01:21:10,400 --> 01:21:07,650
guy these are the kinds of things that

1813
01:21:12,650 --> 01:21:10,410

you know I believe as most science folks

1814

01:21:13,940 --> 01:21:12,660

do that the universe is a populated

1815

01:21:15,860 --> 01:21:13,950

place you know it is you know that's

1816

01:21:18,140 --> 01:21:15,870

title my book the populated universe so

1817

01:21:19,280 --> 01:21:18,150

I believe that they're here this story

1818

01:21:20,430 --> 01:21:19,290

is not in that book at all it has

1819

01:21:22,080 --> 01:21:20,440

nothing to do with that but

1820

01:21:23,970 --> 01:21:22,090

it has to do with you know the

1821

01:21:25,979 --> 01:21:23,980

possibilities of life elsewhere around

1822

01:21:29,610 --> 01:21:25,989

exoplanets it's an exoplanet booked but

1823

01:21:31,830 --> 01:21:29,620

anyway I think that I think that there's

1824

01:21:35,400 --> 01:21:31,840

definitely something to this I don't

1825

01:21:37,110 --> 01:21:35,410

know what those were what it is I mean

1826

01:21:39,930 --> 01:21:37,120

the thought of extraterrestrial life yes

1827

01:21:42,000 --> 01:21:39,940

maybe but you also have to consider

1828

01:21:44,070 --> 01:21:42,010

other things we don't know and and what

1829

01:21:46,620 --> 01:21:44,080

those things are I can't begin to tell

1830

01:21:48,930 --> 01:21:46,630

you though hey Preston do you have any

1831

01:21:51,330 --> 01:21:48,940

question - any questions for mark while

1832

01:21:55,620 --> 01:21:51,340

he's on you shaking his head a lot so I

1833

01:21:57,570 --> 01:21:55,630

think he just like what an idiot no it's

1834

01:22:00,660 --> 01:21:57,580

amazing to hear this stuff you mentioned

1835

01:22:05,910 --> 01:22:00,670

log it and dog it what even by dog it

1836

01:22:08,100 --> 01:22:05,920

hide it bury it yeah yeah log in doggy

1837

01:22:09,720 --> 01:22:08,110

never I've said often you know I didn't

1838

01:22:12,840 --> 01:22:09,730

finish the sentence he said log it and

1839

01:22:14,550 --> 01:22:12,850

dog it and I usually will maybe retell

1840

01:22:16,170 --> 01:22:14,560

it I say log it and target which I think

1841

01:22:18,390 --> 01:22:16,180

means bury it I don't know that it means

1842

01:22:21,060 --> 01:22:18,400

it but that's that's doggy dog the hatch

1843

01:22:23,360 --> 01:22:21,070

closed the hatch seal it in kind of

1844

01:22:26,100 --> 01:22:23,370

thing so I think he meant hide it um

1845

01:22:30,360 --> 01:22:26,110

nothing Preston was saying earlier that

1846

01:22:31,890 --> 01:22:30,370

a number of people in the Navy or that

1847

01:22:35,160 --> 01:22:31,900

have been on regular subs or regular

1848

01:22:37,200 --> 01:22:35,170

ships have noticed nothing and until

1849

01:22:40,260 --> 01:22:37,210

they're on a nuclear ship which is

1850

01:22:43,380 --> 01:22:40,270

pretty strange I mean I'm wondering if

1851

01:22:45,930 --> 01:22:43,390

there's no reason for that yeah I think

1852

01:22:48,750 --> 01:22:45,940

there is actually and Preston may have

1853

01:22:50,640 --> 01:22:48,760

plenty to say in that but just a my

1854

01:22:52,110 --> 01:22:50,650

personal feeling real quick I'll just

1855

01:22:56,430 --> 01:22:52,120

say and then Preston I don't want to

1856

01:22:59,010 --> 01:22:56,440

dominate your time sorry but my personal

1857

01:23:01,439 --> 01:22:59,020

feeling is we're on the surface of the

1858

01:23:03,240 --> 01:23:01,449

water in droves but with tons and tons

1859

01:23:05,970 --> 01:23:03,250

of vehicles anyone watching the Earth

1860

01:23:07,530 --> 01:23:05,980

from space will notice that anyone who

1861

01:23:09,330 --> 01:23:07,540

has a capability to see where else we

1862

01:23:10,920 --> 01:23:09,340

are like underwater would notice that

1863

01:23:11,880 --> 01:23:10,930

there's an absolute dearth of human

1864

01:23:14,250 --> 01:23:11,890

presence underwater

1865

01:23:16,920 --> 01:23:14,260

we don't have cities underwater we don't

1866

01:23:19,500 --> 01:23:16,930

have you know underwater habitats that

1867

01:23:21,270 --> 01:23:19,510

are populated by lots of people you

1868

01:23:23,820 --> 01:23:21,280

don't have even research and habitats

1869

01:23:26,220 --> 01:23:23,830

underwater we only have a few submarines

1870

01:23:28,020 --> 01:23:26,230

from a few people in this planet and

1871

01:23:30,630 --> 01:23:28,030

they probably don't even differentiate

1872

01:23:32,490 --> 01:23:30,640

who's who you know what I mean and so

1873

01:23:34,199 --> 01:23:32,500

now we have a few submarines that's it

1874

01:23:36,330 --> 01:23:34,209

so they probably say hey

1875

01:23:38,069 --> 01:23:36,340

let's go hide out there if we're gonna

1876

01:23:39,750 --> 01:23:38,079

hide let's hide in their water I mean I

1877

01:23:41,100 --> 01:23:39,760

would you just have to change the sign

1878

01:23:43,679 --> 01:23:41,110

on your pressure equation if you can go

1879

01:23:45,089 --> 01:23:43,689

you know interstellar well you know

1880

01:23:46,709 --> 01:23:45,099

there's no reason in the world why you

1881

01:23:49,199 --> 01:23:46,719

can't just you know keep the water out

1882

01:23:51,390 --> 01:23:49,209

and press outward rather than you know

1883

01:23:54,779 --> 01:23:51,400

keep the walls together and pull inward

1884

01:23:56,669 --> 01:23:54,789

you know you should probably a relative

1885

01:23:58,199 --> 01:23:56,679

change for your relative scientific

1886

01:24:02,609 --> 01:23:58,209

switch for you as an advanced

1887

01:24:04,439 --> 01:24:02,619

civilization but I don't know what

1888

01:24:06,089 --> 01:24:04,449

Preston what do you think that makes

1889

01:24:07,560 --> 01:24:06,099

perfect sense to me I have you know I

1890

01:24:09,899 --> 01:24:07,570

think the that's why they're underwater

1891

01:24:12,600 --> 01:24:09,909

is because they can and we can't though

1892

01:24:15,120 --> 01:24:12,610

I did hear back in the 1960s the Navy

1893

01:24:19,560 --> 01:24:15,130

was looking into developing a flying

1894

01:24:21,959 --> 01:24:19,570

submarine yes don't know if they ever

1895

01:24:24,029 --> 01:24:21,969

got around to it yeah they did

1896

01:24:27,179 --> 01:24:24,039

actually and I worked in that project I

1897

01:24:29,129 --> 01:24:27,189

actually it was called the MP UAV at the

1898

01:24:30,689 --> 01:24:29,139

time and it was classified at first but

1899

01:24:32,609 --> 01:24:30,699

it's unclassified now which is why I can

1900

01:24:36,330 --> 01:24:32,619

talk about and it was a source of a lot

1901

01:24:38,459 --> 01:24:36,340

of UFO sightings it was a system that

1902

01:24:40,739 --> 01:24:38,469

would leave a mother submarine like an

1903

01:24:42,660 --> 01:24:40,749

ohio-class sub come out of the missile

1904

01:24:44,429 --> 01:24:42,670

tube unfold its wings come to the

1905

01:24:47,339 --> 01:24:44,439

surface take off from the water like an

1906

01:24:49,709 --> 01:24:47,349

aircraft go fly around through a recon

1907

01:24:50,250 --> 01:24:49,719

mission or an ordnance drop land back on

1908

01:24:53,009 --> 01:24:50,260

the water

1909

01:24:55,560 --> 01:24:53,019

fold up its wings submerge go back into

1910

01:24:57,449 --> 01:24:55,570

the missile tube and go home and then

1911

01:25:00,060 --> 01:24:57,459

yeah it's like the flying sub from voice

1912

01:25:01,649 --> 01:25:00,070

of the bottom of the sea and we joked

1913

01:25:03,419 --> 01:25:01,659

about it being the flying sub you know

1914

01:25:05,399 --> 01:25:03,429

we used to call it a first one you know

1915

01:25:07,679 --> 01:25:05,409

flying sub one but uh-huh

1916

01:25:09,890 --> 01:25:07,689

it turned out that and we also called it

1917

01:25:13,290 --> 01:25:09,900

the birdie as that was a codename and

1918

01:25:18,089 --> 01:25:13,300

when we built this thing and it turned

1919

01:25:21,540 --> 01:25:18,099

out that that was the flying sub I

1920

01:25:23,609 --> 01:25:21,550

believe of rumor and it was actually one

1921

01:25:25,879 --> 01:25:23,619

of those things which is uh basically

1922

01:25:28,319 --> 01:25:25,889

sort of one of the first drones actually

1923

01:25:31,199 --> 01:25:28,329

because it was developed like ten years

1924

01:25:34,140 --> 01:25:31,209

ago actually maybe more I know they got

1925

01:25:35,719 --> 01:25:34,150

trains up military drones now that can

1926

01:25:38,729 --> 01:25:35,729

go in and out of the water

1927

01:25:41,009 --> 01:25:38,739

pretty well yeah and I'd worked on a

1928

01:25:44,459 --> 01:25:41,019

project where I had to develop drones

1929

01:25:47,690 --> 01:25:44,469

that would leave a sub and I called them

1930

01:25:49,820 --> 01:25:47,700

whiskers after Seaquest the

1931

01:25:51,410 --> 01:25:49,830

viii they had these little scanning

1932

01:25:53,660 --> 01:25:51,420

devices that would go with several

1933

01:25:55,760 --> 01:25:53,670

kilometers out of way from the sub and

1934

01:25:58,190 --> 01:25:55,770

act like whiskers you know and since

1935

01:26:00,560 --> 01:25:58,200

anything it's out farther sit and wait

1936

01:26:03,110 --> 01:26:00,570

for a while listen in and do a gauge of

1937

01:26:04,580 --> 01:26:03,120

the ocean and I thought those would be

1938

01:26:07,220 --> 01:26:04,590

really cool to have and then hosing for

1939

01:26:08,270 --> 01:26:07,230

me yeah we have them and you know

1940

01:26:09,860 --> 01:26:08,280

remember that mother you made of these

1941

01:26:11,450 --> 01:26:09,870

little things oh yeah oh yeah those were

1942

01:26:13,940 --> 01:26:11,460

them oh wow that's pretty cool I didn't

1943

01:26:15,830 --> 01:26:13,950

realize they already made those so we

1944

01:26:17,540 --> 01:26:15,840

are we're making way in the technology

1945

01:26:19,520 --> 01:26:17,550

arena but underwater is very different

1946

01:26:21,080 --> 01:26:19,530

you know different frequencies don't

1947

01:26:24,110 --> 01:26:21,090

travel well underwater and some do some

1948

01:26:26,420 --> 01:26:24,120

don't you know so you know getting the

1949

01:26:27,830 --> 01:26:26,430

right frequency you know like is it's

1950

01:26:30,260 --> 01:26:27,840

crazy like the instrumentation to look

1951

01:26:31,910 --> 01:26:30,270

down for a USO is not the same

1952

01:26:33,650 --> 01:26:31,920

instrumentation that looks up for a UFO

1953

01:26:34,910 --> 01:26:33,660

above ground above them the water you

1954

01:26:37,580 --> 01:26:34,920

know the this it's all different

1955

01:26:38,960 --> 01:26:37,590

instrumentation you know because you

1956

01:26:41,270 --> 01:26:38,970

don't have the transmissivity of light

1957

01:26:43,960 --> 01:26:41,280

underwater like you do above so

1958

01:26:46,400 --> 01:26:43,970

electromagnetic radiation is right out

1959

01:26:49,730 --> 01:26:46,410

but you can use certain high frequencies

1960

01:26:50,840 --> 01:26:49,740

and low frequencies to actually do some

1961

01:26:54,050 --> 01:26:50,850

work and that's the kind of thing where

1962

01:26:55,730 --> 01:26:54,060

we're going you know I believe why well

1963

01:26:58,790 --> 01:26:55,740

have you both on here there's a question

1964

01:27:01,310 --> 01:26:58,800

that came up in the chat room and this

1965

01:27:03,380 --> 01:27:01,320

person is wondering if they since we

1966

01:27:06,500 --> 01:27:03,390

have such incredible radar technology

1967

01:27:09,830 --> 01:27:06,510

why can't we actually find us OHS under

1968

01:27:11,360 --> 01:27:09,840

the oceans how hard is that I mean this

1969

01:27:12,920 --> 01:27:11,370

is kind of what you're addressing anyway

1970

01:27:17,330 --> 01:27:12,930

right mark you're looking into doing

1971

01:27:18,800 --> 01:27:17,340

something like that yeah I don't think

1972

01:27:21,490 --> 01:27:18,810

you see the radar is not gonna cut it

1973

01:27:23,330 --> 01:27:21,500

because what does Doppler radar show you

1974

01:27:24,440 --> 01:27:23,340

when you look at the weather radar

1975

01:27:28,070 --> 01:27:24,450

what's that rate what's that Doppler

1976

01:27:29,930 --> 01:27:28,080

radar show you just shows your rain what

1977

01:27:31,730 --> 01:27:29,940

right it shows your rain

1978

01:27:33,920 --> 01:27:31,740

Doppler radar shows your rain it shows

1979

01:27:35,630 --> 01:27:33,930

you the rain clouds right oh I see what

1980

01:27:37,970 --> 01:27:35,640

you're saying yeah so the radar is not

1981

01:27:41,030 --> 01:27:37,980

gonna work in water

1982

01:27:43,820 --> 01:27:41,040

well sonar I guess so nerds what the

1983

01:27:48,680 --> 01:27:43,830

person meant sonar yeah well sonar is

1984

01:27:52,130 --> 01:27:48,690

also fine you know but the the the issue

1985

01:27:53,240 --> 01:27:52,140

is not that the sonar may not work it's

1986

01:27:54,820 --> 01:27:53,250

just that the sonar will immediately

1987

01:27:56,720 --> 01:27:54,830

tell everybody else where you are

1988

01:27:58,520 --> 01:27:56,730

because everyone will know where you are

1989

01:28:00,830 --> 01:27:58,530

including the people you're trying to

1990

01:28:02,660 --> 01:28:00,840

ping you know and if it's at and some

1991

01:28:04,280 --> 01:28:02,670

ship its gonna know and it's gonna do

1992

01:28:06,410 --> 01:28:04,290

whatever it can the hide maybe that's

1993

01:28:07,760 --> 01:28:06,420

already being done I don't know well

1994

01:28:10,700 --> 01:28:07,770

that was it see what that sub for that

1995

01:28:13,940 --> 01:28:10,710

one time there was no active pinging

1996

01:28:16,220 --> 01:28:13,950

going on you know there was no active

1997

01:28:17,360 --> 01:28:16,230

ping mm-hmm and then pings don't sound

1998

01:28:19,880 --> 01:28:17,370

like they do in the movies no they don't

1999

01:28:22,220 --> 01:28:19,890

go like in the movies it's it's actually

2000

01:28:26,240 --> 01:28:22,230

real and it's like a really warbly

2001

01:28:28,690 --> 01:28:26,250

high-pitched squeal in real life yeah

2002

01:28:32,660 --> 01:28:28,700

anyway yes so it's it's it's pretty uh

2003

01:28:34,190 --> 01:28:32,670

it's pretty cool but I don't yeah the

2004

01:28:35,960 --> 01:28:34,200

problem is we don't have technology to

2005

01:28:39,320 --> 01:28:35,970

actually detect things that are

2006

01:28:42,320 --> 01:28:39,330

underwater very well our sonar is it's

2007

01:28:43,820 --> 01:28:42,330

not even it's great sonar okay but we

2008

01:28:46,940 --> 01:28:43,830

have to moving slow to get the best

2009

01:28:49,040 --> 01:28:46,950

results and you know twist and turn a

2010

01:28:50,990 --> 01:28:49,050

little bit to kind of move that long

2011

01:28:53,030 --> 01:28:51,000

array that's totally you're towing

2012

01:28:55,340 --> 01:28:53,040

behind the submarine to actually you

2013

01:28:57,530 --> 01:28:55,350

know get the best signal and you got to

2014

01:28:58,760 --> 01:28:57,540

be moving very slowly so you know that

2015

01:29:01,280 --> 01:28:58,770

doesn't give us a lot of coverage in the

2016

01:29:02,570 --> 01:29:01,290

oceans you know yeah we need a satellite

2017

01:29:04,340 --> 01:29:02,580

they can look you know that's the thing

2018

01:29:06,530 --> 01:29:04,350

and there's no way to do sonar from a

2019

01:29:09,440 --> 01:29:06,540

satellite obviously and radars not gonna

2020

01:29:11,840 --> 01:29:09,450

do it so yeah we got a wait we got a

2021

01:29:14,600 --> 01:29:11,850

sticky wicket here you might say so this

2022

01:29:17,570 --> 01:29:14,610

there's a lot a lot of a lot of concerns

2023

01:29:20,990 --> 01:29:17,580

that way in my view I think probably the

2024

01:29:23,660 --> 01:29:21,000

technology could be there if a satellite

2025

01:29:27,350 --> 01:29:23,670

if someone would fund a satellite to

2026

01:29:31,040 --> 01:29:27,360

just look you know in the oceans through

2027

01:29:33,400 --> 01:29:31,050

some type of method to see you know

2028

01:29:35,090 --> 01:29:33,410

what's going on you know I'm sure some

2029

01:29:37,640 --> 01:29:35,100

technology will come along eventually

2030

01:29:39,470 --> 01:29:37,650

but who would fund something like that

2031

01:29:42,770 --> 01:29:39,480

you know that would be the thing well

2032

01:29:44,570 --> 01:29:42,780

only a black project somewhere in one of

2033

01:29:46,280 --> 01:29:44,580

the government's like Chinese Russian us

2034

01:29:48,110 --> 01:29:46,290

right Preston you and you would you

2035

01:29:49,670 --> 01:29:48,120

probably have an opinion of that right

2036

01:29:51,950 --> 01:29:49,680

well I know the Navy is well aware of

2037

01:29:54,200 --> 01:29:51,960

this stuff interestingly the Navy's been

2038

01:29:56,960 --> 01:29:54,210

doing a bunch of sonar research right in

2039

01:29:57,800 --> 01:29:56,970

this Southern California area to the

2040

01:30:01,880 --> 01:29:57,810

point where they were sued by

2041

01:30:05,390 --> 01:30:01,890

environmental groups of the whale whale

2042

01:30:06,800 --> 01:30:05,400

injuries right right and yeah a judge

2043

01:30:08,690 --> 01:30:06,810

ruled no the Navy's allowed to do what

2044

01:30:10,010 --> 01:30:08,700

they want the environmental groups kept

2045

01:30:13,280 --> 01:30:10,020

pushing and they finally reached an

2046

01:30:14,239 --> 01:30:13,290

agreement to limit the testing in this

2047

01:30:16,700 --> 01:30:14,249

area but

2048

01:30:19,129 --> 01:30:16,710

it's pretty clear that the Navy is fully

2049

01:30:21,770 --> 01:30:19,139

aware of what's going on and that most

2050

01:30:24,049 --> 01:30:21,780

these sightings aren't being officially

2051
01:30:26,779 --> 01:30:24,059
logged into the log book at least when I

2052
01:30:29,149 --> 01:30:26,789
interviewed ray sacks he was never told

2053
01:30:31,040 --> 01:30:29,159
he couldn't talk about this but after

2054
01:30:33,049 --> 01:30:31,050
they had his sighting the

2055
01:30:34,640 --> 01:30:33,059
second-in-command turns them says stop

2056
01:30:38,000 --> 01:30:34,650
talking about this don't talk about this

2057
01:30:39,979 --> 01:30:38,010
he turns to the captain and says sir how

2058
01:30:41,839 --> 01:30:39,989
do I report this in the log and the

2059
01:30:43,939 --> 01:30:41,849
captain turns to him and says people who

2060
01:30:47,509 --> 01:30:43,949
report this sort of thing don't move up

2061
01:30:49,549 --> 01:30:47,519
in rank haha so they didn't report it at

2062
01:30:52,069 --> 01:30:49,559
all and when Ray Sachs went down below

2063
01:30:54,319 --> 01:30:52,079

of course he told everybody yeah because

2064

01:30:55,729 --> 01:30:54,329

they already knew it was a big huge buzz

2065

01:30:57,459 --> 01:30:55,739

aboard the submarine and everyone wanted

2066

01:31:00,290 --> 01:30:57,469

to know yeah you bet you it would be

2067

01:31:02,180 --> 01:31:00,300

right so yeah I'm sure they're fully

2068

01:31:07,370 --> 01:31:02,190

aware of it and are trying to deal with

2069

01:31:09,259 --> 01:31:07,380

it as best as they can so mark yeah I'll

2070

01:31:11,569 --> 01:31:09,269

press Denis right I really do believe

2071

01:31:13,609 --> 01:31:11,579

that there is a fast mover program okay

2072

01:31:15,830 --> 01:31:13,619

based on my discussion with one of the

2073

01:31:18,560 --> 01:31:15,840

Joint Chiefs and seeing this thing on

2074

01:31:19,580 --> 01:31:18,570

the sub I didn't ask to see this in fact

2075

01:31:23,390 --> 01:31:19,590

I haven't talked about it for decades

2076

01:31:26,689 --> 01:31:23,400

because I basically really was kind of

2077

01:31:29,719 --> 01:31:26,699

afraid to but there came a point where I

2078

01:31:32,299 --> 01:31:29,729

felt that technology has moved along

2079

01:31:33,950 --> 01:31:32,309

enough but more importantly the Russians

2080

01:31:35,540 --> 01:31:33,960

have already come out and talked all

2081

01:31:37,939 --> 01:31:35,550

about the USO is that they're

2082

01:31:39,859 --> 01:31:37,949

encountering it their Navy has seen so

2083

01:31:41,540 --> 01:31:39,869

that was sort of like a signal which

2084

01:31:44,660 --> 01:31:41,550

says okay you know what if they're

2085

01:31:47,390 --> 01:31:44,670

talking about it then I feel more

2086

01:31:48,709 --> 01:31:47,400

confident that I can talk about it and

2087

01:31:50,750 --> 01:31:48,719

that was it I was just being I was just

2088

01:31:52,879 --> 01:31:50,760

chicken you know I didn't want to mess

2089

01:31:54,259 --> 01:31:52,889

with that you know but but if the

2090

01:31:56,629 --> 01:31:54,269

Russians are talking about it I can talk

2091

01:31:58,819 --> 01:31:56,639

about it that's all I looked at so

2092

01:32:00,859 --> 01:31:58,829

Marshall show you want to go announce

2093

01:32:03,469 --> 01:32:00,869

when your show is how people can watch

2094

01:32:05,859 --> 01:32:03,479

that on Sundays oh yeah sure Thank You

2095

01:32:09,919 --> 01:32:05,869

Martin oh it's a it's sky to a radio and

2096

01:32:11,930 --> 01:32:09,929

it's basically it's we learn about the

2097

01:32:13,759 --> 01:32:11,940

universe with the scientific lens and I

2098

01:32:16,189 --> 01:32:13,769

actually take people on it's a one-hour

2099

01:32:19,790 --> 01:32:16,199

show right now we're we're talking about

2100

01:32:23,719 --> 01:32:19,800

going the to and basically the the show

2101

01:32:24,830 --> 01:32:23,729

is called sky tour radio and I'm

2102

01:32:26,989 --> 01:32:24,840

actually talking to you from inside the

2103

01:32:28,100 --> 01:32:26,999

observatory which is the sky to our

2104

01:32:29,660 --> 01:32:28,110

livestream observe

2105

01:32:32,720 --> 01:32:29,670

which is the YouTube channel it's the

2106

01:32:34,970 --> 01:32:32,730

companion Observatory to the show and so

2107

01:32:37,280 --> 01:32:34,980

you know in Skye to a radio we deal with

2108

01:32:39,880 --> 01:32:37,290

astronomical objects we talk about

2109

01:32:42,920 --> 01:32:39,890

exoplanets and alien life possibilities

2110

01:32:46,130 --> 01:32:42,930

and I do so I do things you know in that

2111

01:32:48,200 --> 01:32:46,140

show a little bit differently I think I

2112

01:32:50,330 --> 01:32:48,210

mean as a science guy you know we're not

2113

01:32:53,270 --> 01:32:50,340

supposed to speculate on alien life and

2114

01:32:54,680 --> 01:32:53,280

so forth but I don't know I've seen some

2115

01:32:56,990 --> 01:32:54,690

things that I can't explain and I'm

2116

01:32:58,310 --> 01:32:57,000

willing to say that I mean why can't you

2117

01:32:59,000 --> 01:32:58,320

just say look I don't understand I saw

2118

01:33:01,070 --> 01:32:59,010

something weird

2119

01:33:03,230 --> 01:33:01,080

you know you want to chastise me for it

2120

01:33:04,850 --> 01:33:03,240

fine I'm not a I'm not teaching in a

2121

01:33:07,280 --> 01:33:04,860

college okay or anything like that so

2122

01:33:09,500 --> 01:33:07,290

yeah I have no tenure or to worry about

2123

01:33:12,020 --> 01:33:09,510

I own my own company so what do you do

2124

01:33:14,690 --> 01:33:12,030

you know you're gonna get me fired I'd

2125

01:33:17,030 --> 01:33:14,700

have to be the one to fire me you know

2126

01:33:19,490 --> 01:33:17,040

so I'm okay with that so uh so I feel

2127

01:33:22,160 --> 01:33:19,500

like I'm in a position where I can talk

2128

01:33:24,650 --> 01:33:22,170

about and and and say these things and I

2129

01:33:26,920 --> 01:33:24,660

speculate because I think we need to

2130

01:33:30,950 --> 01:33:26,930

speculate to get the conversation going

2131

01:33:32,600 --> 01:33:30,960

right when and where when and where can

2132

01:33:36,170 --> 01:33:32,610

someone see your show or listen to your

2133

01:33:40,850 --> 01:33:36,180

show it's a Sunday nights at 9:00 p.m.

2134

01:33:44,000 --> 01:33:40,860

Eastern Time on kgr a radio KGA radio

2135

01:33:45,710 --> 01:33:44,010

calm great alright hey Mark thanks so

2136

01:33:48,500 --> 01:33:45,720

much thanks for calling in and sharing

2137

01:33:50,030 --> 01:33:48,510

that great story I love it sure great to

2138

01:33:51,200 --> 01:33:50,040

talk to you press and I've been looking

2139

01:33:52,820 --> 01:33:51,210

forward to meeting you at some point and

2140

01:33:54,920 --> 01:33:52,830

Lisa here it's it's a one way video I

2141

01:33:57,350 --> 01:33:54,930

see you but you can't see me because the

2142

01:34:02,390 --> 01:33:57,360

observatory's dark no way to turn it on

2143

01:34:03,710 --> 01:34:02,400

the camera all right take care thanks a

2144

01:34:06,560 --> 01:34:03,720

lot Martin all right thanks

2145

01:34:08,750 --> 01:34:06,570

so Willie we still have the lines open

2146

01:34:11,630 --> 01:34:08,760

the call-in number is up on this screen

2147

01:34:13,970 --> 01:34:11,640

we had someone call in while we lost you

2148

01:34:15,740 --> 01:34:13,980

Preston I didn't quite get his question

2149

01:34:18,880 --> 01:34:15,750

his name was Michael Michael if you want

2150

01:34:21,830 --> 01:34:18,890

to call back in go right ahead and and

2151
01:34:24,890 --> 01:34:21,840
give us a call again the numbers up in

2152
01:34:27,740 --> 01:34:24,900
the screen so interesting the submarine

2153
01:34:32,180 --> 01:34:27,750
sightings are there other ones that

2154
01:34:34,610 --> 01:34:32,190
you're aware of honest in' yeah there

2155
01:34:38,300 --> 01:34:34,620
are a few which i talked about in the

2156
01:34:41,810 --> 01:34:38,310
book i did talk to a submarine navigator

2157
01:34:44,750 --> 01:34:41,820
who was on a boat actually convoying

2158
01:34:48,560 --> 01:34:44,760
our convoy with two boats he was in the

2159
01:34:50,900 --> 01:34:48,570
boat on the he was following another

2160
01:34:55,010 --> 01:34:50,910
boat and they went up the coast and had

2161
01:34:57,380 --> 01:34:55,020
a really remarkable USO sighting just

2162
01:34:59,870 --> 01:34:57,390
sort of the northern end in the San

2163
01:35:02,720 --> 01:34:59,880

Simeon area more almost no central

2164

01:35:06,350 --> 01:35:02,730

California no the northern edge of this

2165

01:35:07,910 --> 01:35:06,360

whole complex but uh their sighting was

2166

01:35:09,800 --> 01:35:07,920

really interesting because they're going

2167

01:35:13,880 --> 01:35:09,810

along right at the coast when suddenly

2168

01:35:16,310 --> 01:35:13,890

it's at night they see this object in

2169

01:35:18,380 --> 01:35:16,320

the water right on the coast in an area

2170

01:35:20,810 --> 01:35:18,390

where it couldn't be because there's

2171

01:35:23,510 --> 01:35:20,820

it's very shallow there there's lots of

2172

01:35:25,490 --> 01:35:23,520

rocks it's off-limits to ships because

2173

01:35:28,580 --> 01:35:25,500

it's too dangerous and yet here's this

2174

01:35:31,850 --> 01:35:28,590

very very large it's not a ship it's a

2175

01:35:33,290 --> 01:35:31,860

lighted object of some kind and they're

2176

01:35:35,150 --> 01:35:33,300

looking at it trying to figure out what

2177

01:35:37,990 --> 01:35:35,160

could this possibly be in what is it

2178

01:35:40,940 --> 01:35:38,000

doing there when suddenly their own

2179

01:35:42,380 --> 01:35:40,950

electronics start to malfunction they

2180

01:35:45,020 --> 01:35:42,390

knew exactly where they were they had a

2181

01:35:47,630 --> 01:35:45,030

global positioning finder very

2182

01:35:50,390 --> 01:35:47,640

experienced sailors had navigated to

2183

01:35:52,130 --> 01:35:50,400

submarine thousands of miles so they

2184

01:35:53,840 --> 01:35:52,140

knew what they were doing and suddenly

2185

01:35:55,280 --> 01:35:53,850

their depth finder it's showing that

2186

01:35:58,340 --> 01:35:55,290

they're in ten feet of water

2187

01:36:01,610 --> 01:35:58,350

they knew they weren't so the very very

2188

01:36:04,820 --> 01:36:01,620

disoriented well oh my god I think this

2189

01:36:07,340 --> 01:36:04,830

was caused by the USO to get them out of

2190

01:36:08,960 --> 01:36:07,350

that area or something because that's

2191

01:36:10,550 --> 01:36:08,970

exactly what they did which they pretty

2192

01:36:12,830 --> 01:36:10,560

much had to do because you know they

2193

01:36:16,340 --> 01:36:12,840

can't crash so they turn off to the left

2194

01:36:18,200 --> 01:36:16,350

towards the deeper water and go just a

2195

01:36:22,040 --> 01:36:18,210

little bit when suddenly something they

2196

01:36:24,170 --> 01:36:22,050

can't explain happens the USO is no

2197

01:36:27,050 --> 01:36:24,180

longer on the coast it's right in front

2198

01:36:28,850 --> 01:36:27,060

of their ship and it's coming closer so

2199

01:36:30,590 --> 01:36:28,860

they stop and they're wondering what to

2200

01:36:33,880 --> 01:36:30,600

do you know this thing is looks like

2201

01:36:36,110 --> 01:36:33,890

it's gonna collide with them there's no

2202

01:36:37,790 --> 01:36:36,120

standard navigation lights you know

2203

01:36:40,550 --> 01:36:37,800

showing which side the ship is going to

2204

01:36:42,890 --> 01:36:40,560

pass on it didn't look anything like

2205

01:36:45,229 --> 01:36:42,900

they'd ever seen and finally it comes

2206

01:36:48,890 --> 01:36:45,239

and passes on the report on their left

2207

01:36:51,709 --> 01:36:48,900

side and about a half mile away maybe

2208

01:36:53,209 --> 01:36:51,719

which at sea is very close and he said

2209

01:36:54,470 --> 01:36:53,219

they couldn't really tell anything and

2210

01:36:55,550 --> 01:36:54,480

about what it was because it was too

2211

01:36:57,620 --> 01:36:55,560

darn bright and

2212

01:37:00,650 --> 01:36:57,630

got past them and they could see it

2213

01:37:02,060 --> 01:37:00,660

looked like banks of stadium lights this

2214

01:37:06,080 --> 01:37:02,070

is a description I've heard a number of

2215

01:37:08,060 --> 01:37:06,090

times well and it stopped and kind of

2216

01:37:09,740 --> 01:37:08,070

just stood there and looked at them

2217

01:37:11,000 --> 01:37:09,750

completely freaking them out because

2218

01:37:13,550 --> 01:37:11,010

they weren't moving at this point either

2219

01:37:15,740 --> 01:37:13,560

and they had a little bit of a standoff

2220

01:37:17,990 --> 01:37:15,750

there for a few minutes until they just

2221

01:37:20,420 --> 01:37:18,000

became too nervous and decided they're

2222

01:37:21,680 --> 01:37:20,430

leaving I'm wondering if they had

2223

01:37:24,290 --> 01:37:21,690

missing time or something because

2224

01:37:26,360 --> 01:37:24,300

suddenly this USO is on the coast and

2225

01:37:28,550 --> 01:37:26,370

then it's right in front of them that's

2226

01:37:31,430 --> 01:37:28,560

sort of a red flag I look for they

2227

01:37:33,290 --> 01:37:31,440

denied it I felt like they did not have

2228

01:37:36,290 --> 01:37:33,300

missing time but I think it's still a

2229

01:37:39,050 --> 01:37:36,300

possibility they had no history of UFO

2230

01:37:42,140 --> 01:37:39,060

sightings or you know in their childhood

2231

01:37:45,770 --> 01:37:42,150

or anything like this so it's an open

2232

01:37:47,690 --> 01:37:45,780

question but great witnesses and I mean

2233

01:37:50,330 --> 01:37:47,700

when you got these military guys telling

2234

01:37:52,480 --> 01:37:50,340

you we can't explain it and they're

2235

01:37:55,250 --> 01:37:52,490

already familiar with this advanced

2236

01:37:57,650 --> 01:37:55,260

aircraft and submarines for that matter

2237

01:37:58,900 --> 01:37:57,660

like Marc well you know you've got

2238

01:38:02,840 --> 01:37:58,910

something on your hands that is

2239

01:38:06,290 --> 01:38:02,850

unexplained are there any of videos or

2240

01:38:07,790 --> 01:38:06,300

pictures of us hos that you're aware

2241

01:38:11,000 --> 01:38:07,800

that they're wrong aasif right

2242

01:38:12,080 --> 01:38:11,010

surprisingly you know da number of

2243

01:38:14,270 --> 01:38:12,090

people who've been able to take

2244

01:38:16,910 --> 01:38:14,280

photographs of this as far as videos

2245

01:38:19,550 --> 01:38:16,920

that's much rarer there was a very

2246

01:38:23,030 --> 01:38:19,560

famous video which played on a Brandon

2247

01:38:25,840 --> 01:38:23,040

chases documentary UFOs are real in

2248

01:38:28,870 --> 01:38:25,850

which a pilot a helicopter Navy pilot

2249

01:38:33,260 --> 01:38:28,880

Leland Henson I believe was his name

2250

01:38:36,290 --> 01:38:33,270

photograph or filmed a UFO over Catalina

2251

01:38:37,670 --> 01:38:36,300

Island it was never debunked they never

2252

01:38:39,110 --> 01:38:37,680

could figure out what it was

2253

01:38:41,480 --> 01:38:39,120

they tried to debunk it saying it was a

2254

01:38:43,910 --> 01:38:41,490

plane but there was no planes in that

2255

01:38:46,730 --> 01:38:43,920

area that were known and for that matter

2256

01:38:48,590 --> 01:38:46,740

when they all first saw it these Navy

2257

01:38:51,200 --> 01:38:48,600

guys it wasn't just the one guy they all

2258

01:38:53,180 --> 01:38:51,210

saw it it was hovering in place it

2259

01:38:54,590 --> 01:38:53,190

wasn't moving and when they finally got

2260

01:38:58,070 --> 01:38:54,600

the camera off this thing was kind of

2261

01:39:02,480 --> 01:38:58,080

moving at a leisurely pace over the

2262

01:39:04,100 --> 01:39:02,490

island is this the one back in 66 yeah

2263

01:39:06,080 --> 01:39:04,110

that could be it you know I'd have to

2264

01:39:09,530 --> 01:39:06,090

look up the exact it sounds about right

2265

01:39:11,540 --> 01:39:09,540

yeah it was a it's a video

2266

01:39:14,420 --> 01:39:11,550

I don't know I think it's only about 11

2267

01:39:17,300 --> 01:39:14,430

seconds long something like that back in

2268

01:39:22,400 --> 01:39:17,310

1966 and it shows like the amount and I

2269

01:39:26,380 --> 01:39:22,410

think we can pull it up on on YouTube

2270

01:39:28,550 --> 01:39:26,390

yeah 1966 that's when it was in April so

2271

01:39:29,900 --> 01:39:28,560

that one did that one actually have

2272

01:39:33,050 --> 01:39:29,910

anything to do with the water was that

2273

01:39:34,850 --> 01:39:33,060

just in Catalina that was just your

2274

01:39:37,250 --> 01:39:34,860

standard UFO but it's right over this

2275

01:39:40,490 --> 01:39:37,260

area huh so you can't really separate it

2276

01:39:42,010 --> 01:39:40,500

from the whole usl phenomena because I

2277

01:39:44,630 --> 01:39:42,020

mean they're obviously the same thing

2278

01:39:46,610 --> 01:39:44,640

but one thing I do I do want to get into

2279

01:39:48,740 --> 01:39:46,620

real quick because I know we're quickly

2280

01:39:51,260 --> 01:39:48,750

running out of time as another data

2281

01:39:53,780 --> 01:39:51,270

point as to why I think there's a base

2282

01:39:56,800 --> 01:39:53,790

here and that there's four or five

2283

01:39:59,540 --> 01:39:56,810

encounters in this area involving not

2284

01:40:02,150 --> 01:39:59,550

one or two objects not three or four or

2285

01:40:05,600 --> 01:40:02,160

ten or twenty even I am talking over a

2286

01:40:07,730 --> 01:40:05,610

hundred Wow a huge number of objects

2287

01:40:10,250 --> 01:40:07,740

there was one sighting a wave of

2288

01:40:12,980 --> 01:40:10,260

sightings on June 14th 1992

2289

01:40:15,650 --> 01:40:12,990

I've interviewed up dozens and dozens of

2290

01:40:20,240 --> 01:40:15,660

people who were saw UFOs on that night

2291

01:40:22,670 --> 01:40:20,250

and some who saw us OHS and one couple

2292

01:40:24,980 --> 01:40:22,680

who lived very high in the area which

2293

01:40:26,270 --> 01:40:24,990

overlooks the ocean they started

2294

01:40:29,180 --> 01:40:26,280

counting these objects because they were

2295

01:40:31,510 --> 01:40:29,190

coming up from below not from above from

2296

01:40:34,100 --> 01:40:31,520

below behind a ridge down by the ocean

2297

01:40:36,590 --> 01:40:34,110

they counted first ten and then twenty

2298

01:40:38,870 --> 01:40:36,600

little groups of objects coming up this

2299

01:40:42,290 --> 01:40:38,880

went on for two hours they counted about

2300

01:40:44,060 --> 01:40:42,300

200 objects so where are all these

2301
01:40:46,190 --> 01:40:44,070
objects coming from and they're coming

2302
01:40:47,750 --> 01:40:46,200
from below you know there's another case

2303
01:40:50,450 --> 01:40:47,760
just like that in Catalina Island

2304
01:40:52,100 --> 01:40:50,460
another case involving twenty or thirty

2305
01:40:55,970 --> 01:40:52,110
objects two years later which were

2306
01:40:59,510 --> 01:40:55,980
actually photographed by the witness

2307
01:41:01,610 --> 01:40:59,520
so this is another thing that's really

2308
01:41:03,470 --> 01:41:01,620
got me scratching my head if there's not

2309
01:41:06,140 --> 01:41:03,480
a base down there there is a parking lot

2310
01:41:08,270 --> 01:41:06,150
involving hundreds of these objects now

2311
01:41:12,590 --> 01:41:08,280
with these objects all looking the same

2312
01:41:15,050 --> 01:41:12,600
or they were they different and this the

2313
01:41:18,590 --> 01:41:15,060

same in that case no they were all these

2314

01:41:21,810 --> 01:41:18,600

kind of a half disk kind of not quite a

2315

01:41:23,430 --> 01:41:21,820

disk but sort of a half disk shape

2316

01:41:25,800 --> 01:41:23,440

but in another case which took place on

2317

01:41:27,390 --> 01:41:25,810

the north end of Catalina Island they

2318

01:41:29,310 --> 01:41:27,400

were all different shapes they were

2319

01:41:32,220 --> 01:41:29,320

saucer shaped they were Mantaray shaped

2320

01:41:34,800 --> 01:41:32,230

spherical they had colored lights on him

2321

01:41:37,260 --> 01:41:34,810

purple green yellow orange really

2322

01:41:39,920 --> 01:41:37,270

beautiful they tried to take photographs

2323

01:41:42,210 --> 01:41:39,930

of them but the multiple cameras failed

2324

01:41:44,280 --> 01:41:42,220

that's taking place in a number of cases

2325

01:41:46,920 --> 01:41:44,290

in this area and for that matter across

2326

01:41:49,110 --> 01:41:46,930

the world they can exert a force field

2327

01:41:51,390 --> 01:41:49,120

or something I think there is something

2328

01:41:55,800 --> 01:41:51,400

strange a lot of people do talk about

2329

01:41:57,510 --> 01:41:55,810

electronics and cameras you know all

2330

01:41:59,580 --> 01:41:57,520

over the place I've heard many many many

2331

01:42:02,400 --> 01:41:59,590

stories where a full fully charged

2332

01:42:05,220 --> 01:42:02,410

battery all of a sudden is dead or ripe

2333

01:42:08,310 --> 01:42:05,230

just not operating which really is no

2334

01:42:10,710 --> 01:42:08,320

coincidence yeah I have a question for

2335

01:42:13,680 --> 01:42:10,720

you how do you and by the way we have a

2336

01:42:15,180 --> 01:42:13,690

we have about less than 20 minutes if

2337

01:42:18,930 --> 01:42:15,190

anyone wants to call in that number is

2338

01:42:21,210 --> 01:42:18,940

up on the screen how do you get all

2339

01:42:23,220 --> 01:42:21,220

these people to interview it sounds like

2340

01:42:25,830 --> 01:42:23,230

you interview a lot of people and do

2341

01:42:28,680 --> 01:42:25,840

they actually contact you or how do you

2342

01:42:30,270 --> 01:42:28,690

how does that happen well you know I

2343

01:42:32,130 --> 01:42:30,280

started out slowly I wasn't really

2344

01:42:33,690 --> 01:42:32,140

looking to investigate you SOS in

2345

01:42:36,510 --> 01:42:33,700

particular but I was collecting accounts

2346

01:42:39,000 --> 01:42:36,520

I wrote a chapter in my book UFOs over

2347

01:42:41,250 --> 01:42:39,010

California specifically about these

2348

01:42:45,000 --> 01:42:41,260

accounts and to publicize the book I

2349

01:42:46,680 --> 01:42:45,010

wrote an article for fate magazine you

2350

01:42:48,180 --> 01:42:46,690

know it's receiving more reports and

2351

01:42:53,340 --> 01:42:48,190

this is when I really sort of came into

2352

01:42:55,350 --> 01:42:53,350

this UFO undersea base and I wrote it up

2353

01:42:57,090 --> 01:42:55,360

from fate magazine and said is there an

2354

01:42:59,190 --> 01:42:57,100

undersea UFO base off the Southern

2355

01:43:01,860 --> 01:42:59,200

California coast it was a very popular

2356

01:43:04,710 --> 01:43:01,870

article it went viral got me interviewed

2357

01:43:07,050 --> 01:43:04,720

by newspapers and I started speaking of

2358

01:43:09,630 --> 01:43:07,060

conventions this brought in a lot of

2359

01:43:12,440 --> 01:43:09,640

reports and I was actually contacted by

2360

01:43:15,030 --> 01:43:12,450

The History Channel for deep sea UFOs

2361

01:43:16,950 --> 01:43:15,040

and it was very popular

2362

01:43:21,060 --> 01:43:16,960

they had record ratings with that

2363

01:43:23,370 --> 01:43:21,070

episode so they called me back twice

2364

01:43:26,700 --> 01:43:23,380

actually I did another episode with UFO

2365

01:43:30,270 --> 01:43:26,710

hunters and so by that time I had become

2366

01:43:31,860 --> 01:43:30,280

the guy and I was receiving a lot of

2367

01:43:34,200 --> 01:43:31,870

reports and it's just never stopped

2368

01:43:35,580 --> 01:43:34,210

since then so yeah a lot of people have

2369

01:43:37,589 --> 01:43:35,590

been contacting me

2370

01:43:40,500 --> 01:43:37,599

just a real quick jaga you mentioned

2371

01:43:43,320 --> 01:43:40,510

earlier about everyone at work looked to

2372

01:43:45,660 --> 01:43:43,330

you about this when I think you said

2373

01:43:48,570 --> 01:43:45,670

your boss was going to Catalina UFO

2374

01:43:51,359 --> 01:43:48,580

tours or something but so how does that

2375

01:43:53,430 --> 01:43:51,369

work for you in the workplace do you

2376

01:43:57,030 --> 01:43:53,440

have any grief at all or is it well

2377

01:43:59,310 --> 01:43:57,040

accepted it's pretty surprising ly well

2378

01:44:00,990 --> 01:43:59,320

accepted and has always been I've been

2379

01:44:03,720 --> 01:44:01,000

very lucky I've had a you know a number

2380

01:44:05,959 --> 01:44:03,730

of bosses throughout the years and gosh

2381

01:44:08,129 --> 01:44:05,969

a revolving door of co-workers and

2382

01:44:09,510 --> 01:44:08,139

everyone's been great you know some

2383

01:44:12,390 --> 01:44:09,520

people don't believe and you know I can

2384

01:44:14,850 --> 01:44:12,400

clear a room certainly if I try and

2385

01:44:16,560 --> 01:44:14,860

bring this up but a lot of these people

2386

01:44:18,870 --> 01:44:16,570

will come to me privately and say oh my

2387

01:44:20,609 --> 01:44:18,880

gosh you know I saw something and I've

2388

01:44:22,050 --> 01:44:20,619

become something of a local Clearing

2389

01:44:23,580 --> 01:44:22,060

House and whenever there's a new

2390

01:44:26,030 --> 01:44:23,590

employee they bring me in like here's

2391

01:44:29,910 --> 01:44:26,040

Preston you ever seen a UFO talk to him

2392

01:44:32,370 --> 01:44:29,920

so yeah people are fine with it I think

2393

01:44:34,379 --> 01:44:32,380

we've reached a point now I'm certainly

2394

01:44:37,770 --> 01:44:34,389

back when I started researching the 80s

2395

01:44:40,680 --> 01:44:37,780

and 90s it wasn't as well as accepted as

2396

01:44:43,770 --> 01:44:40,690

it is now but now people are like yeah

2397

01:44:46,620 --> 01:44:43,780

sure they'll know about it we have a

2398

01:44:51,060 --> 01:44:46,630

call coming in I'm gonna take it so hang

2399

01:44:52,770 --> 01:44:51,070

on just a minute caller you are on the

2400

01:44:54,050 --> 01:44:52,780

line what what's your first name and

2401

01:44:57,300 --> 01:44:54,060

where are you calling from

2402

01:44:59,220 --> 01:44:57,310

hi Martin this is Andy from Stratford

2403

01:45:02,370 --> 01:44:59,230

Connecticut how you doing hi Andy

2404

01:45:05,070 --> 01:45:02,380

welcome to the show you have a you have

2405

01:45:07,979 --> 01:45:05,080

a question for our guest yeah just a

2406

01:45:11,459 --> 01:45:07,989

quick question for Preston I'm

2407

01:45:14,669 --> 01:45:11,469

fascinated with the idea of hardhat

2408

01:45:17,220 --> 01:45:14,679

divers or saturation divers possibly

2409

01:45:20,189 --> 01:45:17,230

having some strange stories to tell

2410

01:45:24,450 --> 01:45:20,199

themselves does he know of any from oil

2411

01:45:28,350 --> 01:45:24,460

oil rig or pipeline work you know in his

2412

01:45:31,890 --> 01:45:28,360

experience and and then just I had one

2413

01:45:35,459 --> 01:45:31,900

that I had heard through another show

2414

01:45:40,129 --> 01:45:35,469

beyond creepy covered a story where the

2415

01:45:44,310 --> 01:45:40,139

son of a hardhat diver from Norway

2416

01:45:48,330 --> 01:45:44,320

observed some kind of bizarre tracks on

2417

01:45:49,439 --> 01:45:48,340

the the sea floor in a feud he was with

2418

01:45:51,780 --> 01:45:49,449

another diver

2419

01:45:55,350 --> 01:45:51,790

and they followed it as far as they

2420

01:45:58,530 --> 01:45:55,360

possibly could and gave up and the guy

2421

01:46:00,780 --> 01:45:58,540

was traumatized by what he saw and was

2422

01:46:04,200 --> 01:46:00,790

told never to discuss it again by his uh

2423

01:46:06,419 --> 01:46:04,210

his superiors but I'll take your call

2424

01:46:08,700 --> 01:46:06,429

your answer off the air I didn't know if

2425

01:46:09,390 --> 01:46:08,710

you had any stories yourself thank

2426

01:46:13,080 --> 01:46:09,400

thanks guys

2427

01:46:14,100 --> 01:46:13,090

yeah thanks we have to have another we

2428

01:46:16,530 --> 01:46:14,110

just to let you know we have another

2429

01:46:18,540 --> 01:46:16,540

caller waiting so go ahead all right

2430

01:46:22,110 --> 01:46:18,550

yeah yeah thanks Andy that's a great

2431

01:46:24,090 --> 01:46:22,120

question I don't really have cases like

2432

01:46:25,140 --> 01:46:24,100

that in particular you know I've talked

2433

01:46:27,120 --> 01:46:25,150

to a few people who have been scuba

2434

01:46:29,790 --> 01:46:27,130

diving and have seen stuff we mentioned

2435

01:46:32,100 --> 01:46:29,800

one there was another lady who was scuba

2436

01:46:36,240 --> 01:46:32,110

diving and had a UFO sighting and was

2437

01:46:39,959 --> 01:46:36,250

actually abducted while scuba diving off

2438

01:46:41,640 --> 01:46:39,969

off the coast of Catalina Island so yeah

2439

01:46:42,959 --> 01:46:41,650

it does happen I think this is probably

2440

01:46:44,880 --> 01:46:42,969

a lot more common but getting these

2441

01:46:46,700 --> 01:46:44,890

people to talk is another story

2442

01:46:47,970 --> 01:46:46,710

particularly if they're in the military

2443

01:46:50,490 --> 01:46:47,980

hmm

2444

01:46:52,620 --> 01:46:50,500

so yeah I'm guessing there's a lot of

2445

01:46:55,530 --> 01:46:52,630

reports we're not hearing about right

2446

01:46:57,300 --> 01:46:55,540

right so caller thanks for holding

2447

01:47:00,900 --> 01:46:57,310

what's your first name and where you

2448

01:47:02,640 --> 01:47:00,910

calling from this is Ryan from South

2449

01:47:04,919 --> 01:47:02,650

Carolina Oh Ryan I haven't heard from

2450

01:47:06,540 --> 01:47:04,929

you in a long time how you doing yeah

2451

01:47:09,630 --> 01:47:06,550

pretty good I haven't not yes but about

2452

01:47:14,220 --> 01:47:09,640

him up to two eyes yeah yeah you got a

2453

01:47:18,120 --> 01:47:14,230

question for Preston yeah I did um he

2454

01:47:21,689 --> 01:47:18,130

had mentioned earlier that he considered

2455

01:47:24,450 --> 01:47:21,699

there was large numbers of UFOs in the

2456

01:47:27,209 --> 01:47:24,460

ocean and they're all over the place I

2457

01:47:31,200 --> 01:47:27,219

just wondered if he had a theory as to

2458

01:47:34,530 --> 01:47:31,210

their purpose y'all may have covered

2459

01:47:36,150 --> 01:47:34,540

this earlier but that I was distracted

2460

01:47:37,709 --> 01:47:36,160

at one point by just wondering if he if

2461

01:47:39,630 --> 01:47:37,719

he had a theory as to what they were

2462

01:47:43,470 --> 01:47:39,640

doing was it simple exploration or

2463

01:47:45,450 --> 01:47:43,480

something else good right no yeah that

2464

01:47:46,800 --> 01:47:45,460

is a great question and it's the

2465

01:47:48,630 --> 01:47:46,810

million-dollar question really because

2466

01:47:51,120 --> 01:47:48,640

we can only speculate as to what the

2467

01:47:53,010 --> 01:47:51,130

alien agenda is there's been some

2468

01:47:56,790 --> 01:47:53,020

speculation that they value water and

2469

01:47:58,200 --> 01:47:56,800

can use it as a fuel perhaps I don't

2470

01:47:59,850 --> 01:47:58,210

think there's a whole lot of evidence to

2471

01:48:02,459 --> 01:47:59,860

speak to that but there are many cases

2472

01:48:03,250 --> 01:48:02,469

where people have seen UFOs sucking up

2473

01:48:06,250 --> 01:48:03,260

water

2474

01:48:08,709 --> 01:48:06,260

out of lakes and things like this yeah

2475

01:48:10,779 --> 01:48:08,719

so I mean that's a possibility as far as

2476

01:48:11,979 --> 01:48:10,789

exploring our planet well yeah we know

2477

01:48:14,529 --> 01:48:11,989

they're doing that they're abducting

2478

01:48:17,200 --> 01:48:14,539

people they're picking plants of all

2479

01:48:19,569 --> 01:48:17,210

kinds or taking pretty much all samples

2480

01:48:21,819 --> 01:48:19,579

of animals and most of our life is

2481

01:48:23,770 --> 01:48:21,829

underwater so if they're going to do a

2482

01:48:26,979 --> 01:48:23,780

full survey of our planet it's gonna

2483

01:48:28,990 --> 01:48:26,989

entail a lot of ocean research and so

2484

01:48:32,890 --> 01:48:29,000

yeah I'm guessing that's part of it

2485

01:48:35,140 --> 01:48:32,900

there's the alien agenda is a big

2486

01:48:38,049 --> 01:48:35,150

subject to tackle I think there's a lot

2487

01:48:40,600 --> 01:48:38,059

of reasons they're here I think we are

2488

01:48:43,540 --> 01:48:40,610

probably one of their main draws their

2489

01:48:45,819 --> 01:48:43,550

variation all things human and I think

2490

01:48:48,279 --> 01:48:45,829

that's probably what the main reason why

2491

01:48:53,169 --> 01:48:48,289

they're here

2492

01:48:57,419 --> 01:48:53,179

Ryan anything else all right hey thanks

2493

01:49:02,319 --> 01:48:57,429

for the call Ryan all right thank you so

2494

01:49:05,740 --> 01:49:02,329

so there let's just say that there is a

2495

01:49:10,390 --> 01:49:05,750

base and they're underwater

2496

01:49:12,220 --> 01:49:10,400

why would like when a sighting that you

2497

01:49:13,930 --> 01:49:12,230

talked about earlier why would 200 of

2498

01:49:18,220 --> 01:49:13,940

them come out I mean that's almost like

2499

01:49:20,649 --> 01:49:18,230

a that's almost like a invasion of some

2500

01:49:22,270 --> 01:49:20,659

kind or it seems like it would be I feel

2501
01:49:23,859 --> 01:49:22,280
like when if I saw that I think we're

2502
01:49:26,319 --> 01:49:23,869
being invaded

2503
01:49:29,740 --> 01:49:26,329
I wonder what something like that would

2504
01:49:31,930 --> 01:49:29,750
have been about when and in that

2505
01:49:34,919 --> 01:49:31,940
particular case did you say there was a

2506
01:49:37,750 --> 01:49:34,929
lot of witnesses that actually saw that

2507
01:49:40,240 --> 01:49:37,760
yes someone saw one or two craft

2508
01:49:44,290 --> 01:49:40,250
somewhere chase down the road some saw

2509
01:49:46,149 --> 01:49:44,300
five or ten some saw ten or twenty one

2510
01:49:47,589 --> 01:49:46,159
guy down by the beach actually saw some

2511
01:49:49,569 --> 01:49:47,599
of this stuff you didn't see it come out

2512
01:49:51,549 --> 01:49:49,579
of the water he heard it heard this very

2513
01:49:54,310 --> 01:49:51,559

loud splash of water other people were

2514

01:49:55,660 --> 01:49:54,320

screaming he's done the Venice area he

2515

01:49:58,930 --> 01:49:55,670

turns and looks at the water and this

2516

01:49:59,529 --> 01:49:58,940

huge giant object has just come out of

2517

01:50:01,870 --> 01:49:59,539

the water

2518

01:50:03,549 --> 01:50:01,880

waterfalls are coming down around it he

2519

01:50:05,350 --> 01:50:03,559

says it must have been stadium size it

2520

01:50:07,779 --> 01:50:05,360

was huge he couldn't tell exactly how

2521

01:50:10,089 --> 01:50:07,789

big but he knew it was because there was

2522

01:50:11,979 --> 01:50:10,099

little objects next to it which looked

2523

01:50:13,569 --> 01:50:11,989

like they were about 20 feet across and

2524

01:50:16,029 --> 01:50:13,579

they looked like little bugs next to it

2525

01:50:16,840 --> 01:50:16,039

and he says honestly I only saw this

2526

01:50:21,040 --> 01:50:16,850

thing for maybe

2527

01:50:24,730 --> 01:50:21,050

three seconds it just darted north very

2528

01:50:29,170 --> 01:50:24,740

fast so he only got a brief glimpse of

2529

01:50:32,170 --> 01:50:29,180

it really but yeah definitely uh large

2530

01:50:34,390 --> 01:50:32,180

numbers of objects and I think that's

2531

01:50:36,700 --> 01:50:34,400

one of the main reasons and one of my

2532

01:50:38,800 --> 01:50:36,710

main data points but I mean I talked to

2533

01:50:41,590 --> 01:50:38,810

whistleblowers as well people who were

2534

01:50:43,390 --> 01:50:41,600

government insiders and a number of

2535

01:50:47,860 --> 01:50:43,400

people told me there's a tunnel in this

2536

01:50:50,440 --> 01:50:47,870

area that leads from actually area 51 to

2537

01:50:52,420 --> 01:50:50,450

Edwards Air Force Base area 51 in Nevada

2538

01:50:55,150 --> 01:50:52,430

to Edwards Air Force Base in the high

2539

01:50:58,120 --> 01:50:55,160

desert all the way to the Catalina

2540

01:51:00,520 --> 01:50:58,130

channel area I'm not just one person

2541

01:51:02,110 --> 01:51:00,530

telling this a number of people and my

2542

01:51:05,260 --> 01:51:02,120

dream is well do you think that's

2543

01:51:11,830 --> 01:51:05,270

believable I mean I don't it sounds like

2544

01:51:14,280 --> 01:51:11,840

a monumental I mean to go there by any

2545

01:51:18,850 --> 01:51:14,290

miles how many miles is that in toll

2546

01:51:20,230 --> 01:51:18,860

it's a lot thousands so it's after you

2547

01:51:21,700 --> 01:51:20,240

know the third or fourth person starts

2548

01:51:23,950 --> 01:51:21,710

selling this I'm beginning to wonder

2549

01:51:25,600 --> 01:51:23,960

certainly I looked into this sort of

2550

01:51:28,870 --> 01:51:25,610

thing and there's evidence to support

2551
01:51:32,230 --> 01:51:28,880
this richard Souder wrote a book called

2552
01:51:34,120 --> 01:51:32,240
underground undersea bases yeah yeah

2553
01:51:36,520 --> 01:51:34,130
yeah he talks quite a bit about this

2554
01:51:38,620 --> 01:51:36,530
sort of thing I think the technology is

2555
01:51:41,110 --> 01:51:38,630
probably there to do it and it's

2556
01:51:43,330 --> 01:51:41,120
according to these guys that they told

2557
01:51:44,800 --> 01:51:43,340
me that you know it's a huge tunnel it's

2558
01:51:47,100 --> 01:51:44,810
underwater and it's big enough for

2559
01:51:49,300 --> 01:51:47,110
multiple submarines to go in and out and

2560
01:51:53,620 --> 01:51:49,310
what I found really interesting it was

2561
01:51:55,660 --> 01:51:53,630
you know but 2006 when I started really

2562
01:51:58,930 --> 01:51:55,670
looking into this years later this

2563
01:52:01,030 --> 01:51:58,940

so-called malibu anomaly appears all

2564

01:52:03,670 --> 01:52:01,040

over the internet right in the center of

2565

01:52:06,550 --> 01:52:03,680

this area which appears to show a tunnel

2566

01:52:09,880 --> 01:52:06,560

it really does in some google image it's

2567

01:52:11,770 --> 01:52:09,890

not all but uh you can't really pick the

2568

01:52:14,170 --> 01:52:11,780

ones that don't show the tunnels any

2569

01:52:15,460 --> 01:52:14,180

more than the ones that do so I'm kind

2570

01:52:18,880 --> 01:52:15,470

of on the fence about this so-called

2571

01:52:20,230 --> 01:52:18,890

anomaly but I do find it intriguing that

2572

01:52:22,150 --> 01:52:20,240

it's right in the middle where all this

2573

01:52:26,200 --> 01:52:22,160

activity is where these people said a

2574

01:52:29,230 --> 01:52:26,210

tunnel was right I think that was I

2575

01:52:30,339 --> 01:52:29,240

think there was a lot of controversy

2576

01:52:33,939 --> 01:52:30,349

about that

2577

01:52:37,689 --> 01:52:33,949

and supposedly debunked but I mean has

2578

01:52:41,649 --> 01:52:37,699

anyone actually I mean how far under the

2579

01:52:44,219 --> 01:52:41,659

water is that anomaly um it's six miles

2580

01:52:47,049 --> 01:52:44,229

out and you know many hundreds feet down

2581

01:52:49,719 --> 01:52:47,059

there was a show with Rob Lowe called

2582

01:52:51,669 --> 01:52:49,729

location where they explore various

2583

01:52:55,270 --> 01:52:51,679

paranormal phenomenon and went to this

2584

01:52:56,889 --> 01:52:55,280

place and sent down a unmanned sub you

2585

01:53:00,279 --> 01:52:56,899

know submersible to check it out

2586

01:53:03,250 --> 01:53:00,289

yeah and and I didn't find any evidence

2587

01:53:05,290 --> 01:53:03,260

of artificial construction but it was a

2588

01:53:08,049 --> 01:53:05,300

pretty shoestring project you know not a

2589

01:53:10,060 --> 01:53:08,059

whole lot of time was put into it and I

2590

01:53:12,369 --> 01:53:10,070

think the you know the it's still an

2591

01:53:14,080 --> 01:53:12,379

open question it's supposedly you know

2592

01:53:17,830 --> 01:53:14,090

if you talk to skeptics they're gonna

2593

01:53:20,259 --> 01:53:17,840

say no mm hmm so yeah that's kind of why

2594

01:53:21,969 --> 01:53:20,269

I'm on the fence about it I don't think

2595

01:53:24,759 --> 01:53:21,979

this is quite enough proof to say that's

2596

01:53:26,409 --> 01:53:24,769

it Robert Stanley says you know they

2597

01:53:27,969 --> 01:53:26,419

don't even need a base they can just go

2598

01:53:30,429 --> 01:53:27,979

through wormholes and things like this

2599

01:53:31,000 --> 01:53:30,439

so it's a possibility that that's what

2600

01:53:33,270 --> 01:53:31,010

they're doing

2601

01:53:36,790 --> 01:53:33,280

it's possibility they're using this

2602

01:53:38,199 --> 01:53:36,800

so-called natural formation as a base

2603

01:53:40,869 --> 01:53:38,209

you know just because it's natural

2604

01:53:42,399 --> 01:53:40,879

doesn't preclude it from being used or

2605

01:53:44,439 --> 01:53:42,409

for that matter it might not even be

2606

01:53:45,849 --> 01:53:44,449

that it could be somewhere else because

2607

01:53:47,889 --> 01:53:45,859

these things can not only go through

2608

01:53:49,689 --> 01:53:47,899

water they can go through solid earth

2609

01:53:51,969 --> 01:53:49,699

there's a number of cases where people

2610

01:53:54,819 --> 01:53:51,979

seen these things go down into the

2611

01:53:57,729 --> 01:53:54,829

ground the ground seems to open up just

2612

01:54:01,209 --> 01:53:57,739

swallow them so yeah I've heard of a

2613

01:54:02,889 --> 01:54:01,219

couple of situations like that sounds so

2614

01:54:06,189 --> 01:54:02,899

bizarre doesn't it now

2615

01:54:08,619 --> 01:54:06,199

what about I know you're you're you're

2616

01:54:13,270 --> 01:54:08,629

focusing off the coast there but you

2617

01:54:16,060 --> 01:54:13,280

mentioned earlier lakes and in and also

2618

01:54:18,040 --> 01:54:16,070

when you were talking about them drawing

2619

01:54:21,040 --> 01:54:18,050

water up there's a real famous case

2620

01:54:23,409 --> 01:54:21,050

where all these people saw that that had

2621

01:54:25,750 --> 01:54:23,419

like these condos along the lakes they

2622

01:54:27,580 --> 01:54:25,760

all saw out the window or those the

2623

01:54:31,199 --> 01:54:27,590

stream of water was going up to this

2624

01:54:33,339 --> 01:54:31,209

craft but I know that California has

2625

01:54:37,149 --> 01:54:33,349

reservoirs more than you know lakes

2626

01:54:40,179 --> 01:54:37,159

other talks about any US owes in the

2627

01:54:43,719 --> 01:54:40,189

lakes in California oh yeah

2628

01:54:44,380 --> 01:54:43,729

well not a whole lot really one I did

2629

01:54:47,260 --> 01:54:44,390

find was Lake

2630

01:54:51,460 --> 01:54:47,270

casitas which is real close to this area

2631

01:54:52,990 --> 01:54:51,470

it's an artificial lake but uh didn't

2632

01:54:55,960 --> 01:54:53,000

bother really remarkable sighting where

2633

01:54:58,450 --> 01:54:55,970

the guy saw this object come out of the

2634

01:55:01,620 --> 01:54:58,460

water there was a window in it a very

2635

01:55:03,910 --> 01:55:01,630

large plastic kind of heavy looking

2636

01:55:06,070 --> 01:55:03,920

window you could see a humanoid figure

2637

01:55:07,780 --> 01:55:06,080

behind it he had a camera with him and

2638

01:55:11,080 --> 01:55:07,790

he was able to actually photograph this

2639

01:55:14,380 --> 01:55:11,090

thing as it moved off not a great photo

2640

01:55:16,570 --> 01:55:14,390

but it shows something there's a number

2641

01:55:19,180 --> 01:55:16,580

of cases of UFOs and rivers I mean I

2642

01:55:22,620 --> 01:55:19,190

mentioned one in Arkansas in the Lake

2643

01:55:25,510 --> 01:55:22,630

Hamilton out of Hot Springs Arkansas a

2644

01:55:27,130 --> 01:55:25,520

four teenagers were on their little

2645

01:55:28,420 --> 01:55:27,140

speedboat there they had parked they

2646

01:55:31,000 --> 01:55:28,430

were just going to park there and mess

2647

01:55:33,220 --> 01:55:31,010

around a little bit of two boys two

2648

01:55:36,090 --> 01:55:33,230

girls you know what I mean just having

2649

01:55:38,260 --> 01:55:36,100

you know a good time and suddenly this

2650

01:55:41,080 --> 01:55:38,270

USO because I don't know what else to

2651
01:55:43,060 --> 01:55:41,090
call it comes up and right next to their

2652
01:55:46,810 --> 01:55:43,070
boat it's twice the size of their boat

2653
01:55:47,890 --> 01:55:46,820
it's black it's completely round the

2654
01:55:49,150 --> 01:55:47,900
girls are freaking out they're like

2655
01:55:51,340 --> 01:55:49,160
let's get out of here they can hear

2656
01:55:54,670 --> 01:55:51,350
gurgling or something so they gunned the

2657
01:55:56,500 --> 01:55:54,680
boat the boat will not move it's stuck

2658
01:55:57,820 --> 01:55:56,510
so they're all freaking out at this

2659
01:55:59,800 --> 01:55:57,830
point when suddenly they have missing

2660
01:56:02,860 --> 01:55:59,810
time there's somewhere else on the lake

2661
01:56:06,310 --> 01:56:02,870
it's two hours later and they're moving

2662
01:56:08,920 --> 01:56:06,320
at full speed the us yet the USO is gone

2663
01:56:11,260 --> 01:56:08,930

they rush home and their parents are

2664

01:56:14,080 --> 01:56:11,270

furious don't want to hear anything

2665

01:56:16,030 --> 01:56:14,090

about any USO and are gonna call the

2666

01:56:19,300 --> 01:56:16,040

police unless those boys go home right

2667

01:56:22,390 --> 01:56:19,310

now so yeah there's a number of cases

2668

01:56:25,420 --> 01:56:22,400

like this within you know in upstate New

2669

01:56:28,080 --> 01:56:25,430

York there's a number of cases in which

2670

01:56:31,270 --> 01:56:28,090

these objects were seen in tiny little

2671

01:56:34,600 --> 01:56:31,280

reservoirs not deep at all yeah so

2672

01:56:36,790 --> 01:56:34,610

they're hidin yeah Wow bizarre I almost

2673

01:56:40,570 --> 01:56:36,800

forgot to ask this was Bobby sent this

2674

01:56:44,050 --> 01:56:40,580

in and he's usually a listener to the

2675

01:56:47,290 --> 01:56:44,060

show how about the Leo Carrillo State

2676

01:56:49,000 --> 01:56:47,300

Park on Pacific Coast Highway in Malibu

2677

01:56:51,370 --> 01:56:49,010

there was some type of sighting the air

2678

01:56:53,920 --> 01:56:51,380

did you ever hear about that happier

2679

01:56:56,020 --> 01:56:53,930

than each number of sightings in that

2680

01:56:58,090 --> 01:56:56,030

area it's right there in the center of

2681

01:57:00,490 --> 01:56:58,100

the activity gosh my favorite

2682

01:57:02,890 --> 01:57:00,500

involves a really interesting sighting

2683

01:57:05,230 --> 01:57:02,900

and which a group of partygoers about

2684

01:57:08,160 --> 01:57:05,240

you know 40 or 50 of them had decided to

2685

01:57:10,180 --> 01:57:08,170

throw a little nighttime beach party and

2686

01:57:11,980 --> 01:57:10,190

late into the night it's the parties

2687

01:57:14,890 --> 01:57:11,990

beginning to wind down 10 or 11 o'clock

2688

01:57:16,810 --> 01:57:14,900

or so a group of them go down to the

2689

01:57:18,400 --> 01:57:16,820

water because there's this USL out there

2690

01:57:19,270 --> 01:57:18,410

and they're trying to figure out what

2691

01:57:20,800 --> 01:57:19,280

the heck is it

2692

01:57:22,540 --> 01:57:20,810

it's got colored lights all over it it's

2693

01:57:24,490 --> 01:57:22,550

huge it looks like a cruise ship

2694

01:57:26,250 --> 01:57:24,500

it's obviously not because the lights

2695

01:57:28,540 --> 01:57:26,260

are all random in different shapes

2696

01:57:28,810 --> 01:57:28,550

nothing the oil platform what could this

2697

01:57:40,870 --> 01:57:28,820

be

2698

01:57:43,600 --> 01:57:40,880

bright Bank of stadium lights switches

2699

01:57:45,340 --> 01:57:43,610

on it's impossible there's no way this

2700

01:57:47,350 --> 01:57:45,350

car lights could do this

2701
01:57:51,150 --> 01:57:47,360
so all everyone in the party looks up at

2702
01:57:53,620 --> 01:57:51,160
these Bank of lights which flick off and

2703
01:57:57,430 --> 01:57:53,630
suddenly coming down the stairs is a

2704
01:57:58,960 --> 01:57:57,440
group of humanoids when at this point it

2705
01:58:01,750 --> 01:57:58,970
got it got very strange a lot of the

2706
01:58:03,910 --> 01:58:01,760
partygoers kind of switched off don't

2707
01:58:06,520 --> 01:58:03,920
didn't react to the humanoids didn't

2708
01:58:09,070 --> 01:58:06,530
apparently notice them didn't remember

2709
01:58:10,420 --> 01:58:09,080
them afterwards but the guy I

2710
01:58:12,550 --> 01:58:10,430
interviewed remembered him he's had

2711
01:58:15,190 --> 01:58:12,560
encounters his whole life and he said

2712
01:58:17,380 --> 01:58:15,200
that there was ten of them at least men

2713
01:58:19,980 --> 01:58:17,390

and women all dressed in blue jumpsuits

2714

01:58:22,930 --> 01:58:19,990

all about five five and a half feet tall

2715

01:58:26,290 --> 01:58:22,940

all looked very similar like twins

2716

01:58:29,070 --> 01:58:26,300

almost dark complected like South

2717

01:58:32,830 --> 01:58:29,080

American maybe or meso American

2718

01:58:34,720 --> 01:58:32,840

Shorthair good-looking and we're walking

2719

01:58:37,870 --> 01:58:34,730

among the group in a very strange ways

2720

01:58:39,700 --> 01:58:37,880

as it's surveying him or something had

2721

01:58:41,950 --> 01:58:39,710

weird stuff there hands with lights on

2722

01:58:44,020 --> 01:58:41,960

it and start signaling to this USO out

2723

01:58:47,380 --> 01:58:44,030

in the water they ended up all having

2724

01:58:50,050 --> 01:58:47,390

missing time when when he woke up he was

2725

01:58:51,340 --> 01:58:50,060

down by the beach in a row with ten

2726

01:58:53,620 --> 01:58:51,350

other people there was another row of

2727

01:58:55,000 --> 01:58:53,630

ten people behind him no footprints

2728

01:58:58,750 --> 01:58:55,010

around them just this weird kind of

2729

01:59:00,550 --> 01:58:58,760

imprint in the sand around them and he

2730

01:59:05,220 --> 01:59:00,560

had some partial memories of being taken

2731

01:59:07,360 --> 01:59:05,230

on board Wow boy that's a wild one and

2732

01:59:09,820 --> 01:59:07,370

what do you have coming up next we have

2733

01:59:11,620 --> 01:59:09,830

we are out of time so do you have a

2734

01:59:12,820 --> 01:59:11,630

doing any writing

2735

01:59:15,879 --> 01:59:12,830

other books in the middle of writing

2736

01:59:17,530 --> 01:59:15,889

something new or head oh yeah yeah oh

2737

01:59:19,419 --> 01:59:17,540

it's always keeping them busy

2738

01:59:21,399 --> 01:59:19,429

definitely um I've got a new book coming

2739

01:59:25,149 --> 01:59:21,409

out hopefully later this year it'll be

2740

01:59:27,310 --> 01:59:25,159

vol 3 of my series not from here about

2741

01:59:30,129 --> 01:59:27,320

the weirder and more unusual aspects of

2742

01:59:32,680 --> 01:59:30,139

UFO encounters and I'm also working on a

2743

01:59:34,750 --> 01:59:32,690

book about UFO healings that was the

2744

01:59:37,660 --> 01:59:34,760

subject of my first first book yeah

2745

01:59:40,180 --> 01:59:37,670

I had a hundred cases a lot yeah lot of

2746

01:59:44,020 --> 01:59:40,190

people talked about that yeah probably

2747

01:59:46,060 --> 01:59:44,030

gosh 200 250 cases now Wow excellent

2748

01:59:48,040 --> 01:59:46,070

well we're out of time pressing anyone

2749

01:59:50,709 --> 01:59:48,050

can reach on your do you have a website

2750

01:59:52,120 --> 01:59:50,719

I can't remember yeah yeah I do if you

2751
01:59:53,760 --> 01:59:52,130
just google my name it should take you

2752
01:59:56,080 --> 01:59:53,770
there pressing Zdenek weebly.com

2753
01:59:58,180 --> 01:59:56,090
excellent thanks so much it's always a

2754
01:59:59,919 --> 01:59:58,190
pleasure talking to you Preston hey

2755
02:00:02,140 --> 01:59:59,929
thanks Martin I appreciate it all right

2756
02:00:05,350 --> 02:00:02,150
you take care bye

2757
02:00:09,580 --> 02:00:05,360
alright bye alright everyone so thanks

2758
02:00:13,720 --> 02:00:09,590
so much next week we have an interesting

2759
02:00:15,669 --> 02:00:13,730
guest coming up and that is we have his

2760
02:00:17,979 --> 02:00:15,679
name is let me get it here Loren

2761
02:00:20,890 --> 02:00:17,989
Christiansen he's a former police

2762
02:00:24,070 --> 02:00:20,900
officer and he is going to be talking

2763
02:00:26,379 --> 02:00:24,080

about cops and UFO so that's next week

2764

02:00:28,149 --> 02:00:26,389

should be an interesting show thanks so

2765

02:00:29,410 --> 02:00:28,159

much everyone for listening I want to

2766

02:00:32,200 --> 02:00:29,420

thank the people that helps out with the

2767

02:00:34,149 --> 02:00:32,210

show Alejandro Rojas our guest preston

2768

02:00:38,620 --> 02:00:34,159

Dennett Evan for working behind the

2769

02:00:41,830 --> 02:00:38,630

scenes on YouTube and Peggy for managing

2770

02:00:44,560 --> 02:00:41,840

our Facebook page and again I want to

2771

02:00:46,300 --> 02:00:44,570

thank you all for listening and if

2772

02:00:49,720 --> 02:00:46,310

you're on the Dark Matter digital

2773

02:00:52,120 --> 02:00:49,730

network you'll be listening to Dave

2774

02:00:54,189 --> 02:00:52,130

Schrader coming up on midnight in the

2775

02:00:55,629 --> 02:00:54,199

desert right after this all right

2776

02:00:57,550 --> 02:00:55,639

everyone so remember to keep your eyes

2777

02:01:02,800 --> 02:00:57,560

to the sky
