

# CHRIS O'BRIEN IN STUDIO

1  
00:00:06,320 --> 00:00:04,370  
hello and welcome to the show I'm Martin

2  
00:00:08,089 --> 00:00:06,330  
will assure host and we have a fun show

3  
00:00:12,799 --> 00:00:08,099  
for you this evening I have Chris

4  
00:00:14,900 --> 00:00:12,809  
O'Brien great ufologists for many years

5  
00:00:16,790 --> 00:00:14,910  
he actually made the trek out here he's

6  
00:00:18,140 --> 00:00:16,800  
living in New York currently and made

7  
00:00:20,420 --> 00:00:18,150  
the trek up here

8  
00:00:21,590 --> 00:00:20,430  
he's currently I don't know if he's

9  
00:00:23,689 --> 00:00:21,600  
going to say this but he's currently

10  
00:00:25,880 --> 00:00:23,699  
eating a lobster in the guest house

11  
00:00:27,620 --> 00:00:25,890  
right now so he'll be over and be

12  
00:00:32,049 --> 00:00:27,630  
joining us in a bit before that I have

13  
00:00:36,620 --> 00:00:32,059

Alejandro Rojas with the UFO updates and

14

00:00:39,260 --> 00:00:36,630

we are on kgr a radio and it's a real

15

00:00:42,229 --> 00:00:39,270

pleasure to be on that station we're

16

00:00:44,690 --> 00:00:42,239

also on YouTube live and you can also

17

00:00:46,069 --> 00:00:44,700

even see it on our website it's not much

18

00:00:48,529 --> 00:00:46,079

fun there over at our website to watch

19

00:00:51,830 --> 00:00:48,539

it so better off going to youtube if you

20

00:00:55,910 --> 00:00:51,840

want to watch it and over that kgr a

21

00:00:58,580 --> 00:00:55,920

radio and so we're gonna be talking

22

00:01:00,889 --> 00:00:58,590

about all kinds of things tonight by the

23

00:01:02,599 --> 00:01:00,899

way I do appreciate anyone that helps us

24

00:01:04,910 --> 00:01:02,609

out anyone that supports the show

25

00:01:07,399 --> 00:01:04,920

thanks so much and anyone anywhere can

26

00:01:10,880 --> 00:01:07,409

help us out that informations on my

27

00:01:13,580 --> 00:01:10,890

website podcast UFO comm and also we

28

00:01:15,020 --> 00:01:13,590

have a conditional blog writer is going

29

00:01:17,539 --> 00:01:15,030

to be sending us some blog so we'll see

30

00:01:19,820 --> 00:01:17,549

how that goes so check that website out

31

00:01:22,730 --> 00:01:19,830

also there's the UFO sightings page and

32

00:01:24,530 --> 00:01:22,740

if you had a UFO sighting and you want

33

00:01:27,140 --> 00:01:24,540

to remain anonymous we have an anonymous

34

00:01:29,149 --> 00:01:27,150

form to fill out there's some pretty

35

00:01:32,960 --> 00:01:29,159

good sightings and I check that out when

36

00:01:35,390 --> 00:01:32,970

you get some time so that's it for me

37

00:01:38,300 --> 00:01:35,400

blabbing away Alejandro welcome to the

38

00:01:41,359 --> 00:01:38,310

show thank you thank you

39

00:01:43,730 --> 00:01:41,369

so I'm will for the YouTube I'm a little

40

00:01:45,710 --> 00:01:43,740

askew here trying to figure things out

41

00:01:48,830 --> 00:01:45,720

here in the one of the in the library

42

00:01:50,719 --> 00:01:48,840

here but yeah Chris will be coming in

43

00:01:54,380 --> 00:01:50,729

walking in any minute when he finishes

44

00:01:55,130 --> 00:01:54,390

his dinner he's in one of the libraries

45

00:01:56,990 --> 00:01:55,140

because you

46

00:01:58,580 --> 00:01:57,000

there's several libraries about it right

47

00:02:00,950 --> 00:01:58,590

we were talking about this and oh I know

48

00:02:06,260 --> 00:02:00,960

it's a state yeah it's kind of a crazy

49

00:02:08,719 --> 00:02:06,270

place there's four of them whoa yeah but

50

00:02:10,820 --> 00:02:08,729

anyway places we know I work I've never

51  
00:02:12,440 --> 00:02:10,830  
owned a place like this if I I could

52  
00:02:12,730 --> 00:02:12,450  
never afford a place like this if it

53  
00:02:14,710 --> 00:02:12,740  
didn't

54  
00:02:17,200 --> 00:02:14,720  
so much work that's all that's all I got

55  
00:02:20,440 --> 00:02:17,210  
to say is it haunted no yet

56  
00:02:22,120 --> 00:02:20,450  
really libraries it seems hauntings come

57  
00:02:24,790 --> 00:02:22,130  
with it uh well I plan to haunt the

58  
00:02:26,920 --> 00:02:24,800  
place you know so okay I'll take care of

59  
00:02:29,110 --> 00:02:26,930  
that yeah yeah that's good

60  
00:02:33,700 --> 00:02:29,120  
so what's going on with the UFO news

61  
00:02:36,790 --> 00:02:33,710  
this week UFO news let's see ad there

62  
00:02:39,520 --> 00:02:36,800  
was some ruckus that was made by mr.

63  
00:02:41,080 --> 00:02:39,530

Frank Kim blur so Kim blur is a guy and

64

00:02:45,430 --> 00:02:41,090

we broke this story at open minds that

65

00:02:48,340 --> 00:02:45,440

TV actually he is a earth sciences and

66

00:02:51,100 --> 00:02:48,350

geology teacher at the high school and

67

00:02:54,340 --> 00:02:51,110

college level at the Military Institute

68

00:02:56,320 --> 00:02:54,350

in New Mexico which happens to be in

69

00:02:57,670 --> 00:02:56,330

Roswell it's really cool if you have if

70

00:03:00,330 --> 00:02:57,680

you've been to Roswell you could see

71

00:03:02,260 --> 00:03:00,340

this at this estate it's cool in fact

72

00:03:04,270 --> 00:03:02,270

sometimes there are events that were

73

00:03:06,580 --> 00:03:04,280

held that there big auditorium they have

74

00:03:09,370 --> 00:03:06,590

this big old auditorium where it with

75

00:03:13,930 --> 00:03:09,380

plays and stuff they used to hold neat

76

00:03:16,780 --> 00:03:13,940

place so Frank years ago something like

77

00:03:18,670 --> 00:03:16,790

maybe ten years ago he moved out there

78

00:03:21,520 --> 00:03:18,680

to teach at this Military Institute and

79

00:03:23,590 --> 00:03:21,530

he decided hey you know uh since this is

80

00:03:25,750 --> 00:03:23,600

my specialty geology and stuff it might

81

00:03:27,160 --> 00:03:25,760

be kind of fun to look into this whole

82

00:03:30,250 --> 00:03:27,170

Roswell thing and see if there's

83

00:03:34,110 --> 00:03:30,260

anything to it he decided he what he

84

00:03:37,000 --> 00:03:34,120

would do is look at satellite photos or

85

00:03:38,950 --> 00:03:37,010

aerial photos of the land where the

86

00:03:41,500 --> 00:03:38,960

alleged crash site was and see if he

87

00:03:43,270 --> 00:03:41,510

sees anything interesting well he did he

88

00:03:46,270 --> 00:03:43,280

found some areas that he thought look

89

00:03:48,100 --> 00:03:46,280

like they or maybe burned and he thought

90

00:03:51,220 --> 00:03:48,110

hmm that would be interesting now if

91

00:03:52,810 --> 00:03:51,230

they you know burned an area to kind of

92

00:03:55,060 --> 00:03:52,820

get rid of debris and stuff so he

93

00:03:57,370 --> 00:03:55,070

focused on these areas took his metal

94

00:03:59,470 --> 00:03:57,380

detector and he found a lot of you know

95

00:04:01,480 --> 00:03:59,480

mundane stuff but he did find some

96

00:04:05,440 --> 00:04:01,490

things that were interesting one of

97

00:04:09,130 --> 00:04:05,450

those pieces he took to add a lab

98

00:04:11,110 --> 00:04:09,140

essentially to get analyzed and he did

99

00:04:14,020 --> 00:04:11,120

this in conjunction with the UFO Museum

100

00:04:16,300 --> 00:04:14,030

out there sure enough they came back and

101

00:04:18,370 --> 00:04:16,310

the isotopic research was kind of

102

00:04:20,380 --> 00:04:18,380

different there are a lot of different

103

00:04:22,300 --> 00:04:20,390

analysis that can happen and there's

104

00:04:24,070 --> 00:04:22,310

some people that were like how come he

105

00:04:26,230 --> 00:04:24,080

didn't do this analysis or that analysis

106

00:04:29,800 --> 00:04:26,240

and he did do several

107

00:04:32,710 --> 00:04:29,810

and but most of those like electro my

108

00:04:34,629 --> 00:04:32,720

scrap poetry I always get that word

109

00:04:36,370 --> 00:04:34,639

backs up essentially what those will do

110

00:04:39,550 --> 00:04:36,380

don't look at the components in the

111

00:04:41,860 --> 00:04:39,560

element of the metal but and that's

112

00:04:44,740 --> 00:04:41,870

interesting but for the most stuff you

113

00:04:46,390 --> 00:04:44,750

know all the space stuff is all the same

114

00:04:48,100 --> 00:04:46,400

you know what we have in our solar

115

00:04:49,990 --> 00:04:48,110

system is what to know the other solar

116

00:04:51,909 --> 00:04:50,000

systems right so what you really need to

117

00:04:53,710 --> 00:04:51,919

look for is something that looks to be

118

00:04:56,260 --> 00:04:53,720

manufactured in a manner that we

119

00:04:58,510 --> 00:04:56,270

couldn't have done when something that

120

00:05:01,180 --> 00:04:58,520

was offworld that comes from you know

121

00:05:03,879 --> 00:05:01,190

elsewhere so sure enough this first

122

00:05:06,460 --> 00:05:03,889

analysis that he had done showed it was

123

00:05:09,640 --> 00:05:06,470

not material from this planet but it was

124

00:05:11,409 --> 00:05:09,650

a manufactured material so that's very

125

00:05:14,140 --> 00:05:11,419

promising I mean that's the key that's

126

00:05:18,219 --> 00:05:14,150

what we're looking for it was in the

127

00:05:20,589 --> 00:05:18,229

area of error very far off and the thing

128

00:05:23,170 --> 00:05:20,599

is is that you know they give you okay

129

00:05:25,270 --> 00:05:23,180

could be error but the whole point is we

130

00:05:26,680 --> 00:05:25,280

don't make errors like this big so

131

00:05:29,469 --> 00:05:26,690

there's no way we don't think it's an

132

00:05:31,600 --> 00:05:29,479

error but it could be so we needed

133

00:05:33,580 --> 00:05:31,610

further analysis done and I've helped

134

00:05:35,140 --> 00:05:33,590

him with a couple situations that have

135

00:05:38,020 --> 00:05:35,150

just been weird that didn't work out

136

00:05:40,149 --> 00:05:38,030

he's had a couple situations he's worked

137

00:05:44,020 --> 00:05:40,159

with including with Bigelow and that

138

00:05:46,089 --> 00:05:44,030

didn't really work out so he's on the

139

00:05:50,589 --> 00:05:46,099

brink he's had some more analysis done

140

00:05:54,279 --> 00:05:50,599

and he's had he's got some more on the

141

00:05:56,320 --> 00:05:54,289

way and he feels he's very close to that

142

00:05:57,490 --> 00:05:56,330

this stuff is you know et in nature and

143

00:06:01,689 --> 00:05:57,500

he didn't even want to tell anybody

144

00:06:03,730 --> 00:06:01,699

until recently because you know and the

145

00:06:06,070 --> 00:06:03,740

reason why he came out about it just the

146

00:06:08,170 --> 00:06:06,080

other day is that the BLM came knocking

147

00:06:10,089 --> 00:06:08,180

at the door and said hey you know this

148

00:06:11,620 --> 00:06:10,099

was BLM land where you collected this

149

00:06:13,029 --> 00:06:11,630

stuff we want to take a look and make

150

00:06:15,640 --> 00:06:13,039

sure you're doing the right thing and

151

00:06:17,499 --> 00:06:15,650

Frank kind of freaked out I mean he got

152

00:06:19,360 --> 00:06:17,509

scared as you could imagine you know the

153

00:06:21,460 --> 00:06:19,370

prospect of all this work kind of going

154

00:06:23,050 --> 00:06:21,470

down the tubes and them taking the

155

00:06:25,450 --> 00:06:23,060

material away he was really scared

156

00:06:27,310 --> 00:06:25,460

although he did follow their rules

157

00:06:30,219 --> 00:06:27,320

there's a handbook that talks about the

158

00:06:32,860 --> 00:06:30,229

rules we posted it on our story at open

159

00:06:35,850 --> 00:06:32,870

mind TV and he did follow the rules the

160

00:06:38,350 --> 00:06:35,860

the you can take material as long as

161

00:06:39,610 --> 00:06:38,360

it's a reasonable amount and of course

162

00:06:42,900 --> 00:06:39,620

he hasn't taken much

163

00:06:45,629 --> 00:06:42,910

and not even a pound worth probably and

164

00:06:48,610 --> 00:06:45,639

it has to be historically or culturally

165

00:06:50,170 --> 00:06:48,620

significant and this material has not

166

00:06:52,390 --> 00:06:50,180

proven to be that yet

167

00:06:54,610 --> 00:06:52,400

hopefully Frank will prove it to be that

168

00:06:57,100 --> 00:06:54,620

and then you know the BLM would then

169

00:06:59,230 --> 00:06:57,110

have a legitimate case to take it but of

170

00:07:00,670 --> 00:06:59,240

course if they said this was significant

171

00:07:03,820 --> 00:07:00,680

and they did take it that would proof

172

00:07:05,620 --> 00:07:03,830

Frank's point that it was interesting so

173

00:07:07,360 --> 00:07:05,630

he was freaking out because they wanted

174

00:07:11,170 --> 00:07:07,370

to look at it this morning or yesterday

175

00:07:13,150 --> 00:07:11,180

morning on Monday and so I have an

176

00:07:15,490 --> 00:07:13,160

update which is that they did look at it

177

00:07:17,439 --> 00:07:15,500

Frank says they didn't take anything

178

00:07:19,420 --> 00:07:17,449

away from him so he's happy about that

179

00:07:21,159 --> 00:07:19,430

but he's still kind of scared because he

180

00:07:24,939 --> 00:07:21,169

says they still might at any moment

181

00:07:26,170 --> 00:07:24,949

think they could do that so and the

182

00:07:28,230 --> 00:07:26,180

reason this all came about is

183

00:07:31,689 --> 00:07:28,240

interesting too because the Roswell

184

00:07:33,189 --> 00:07:31,699

festival is coming up at what next

185

00:07:36,969 --> 00:07:33,199

weekend not this weekend at the next

186

00:07:38,590 --> 00:07:36,979

weekend the weekend after July 4th and

187

00:07:41,020 --> 00:07:38,600

I'll be there speaking of course at the

188

00:07:45,219 --> 00:07:41,030

Museum as usual or I'm always speaking

189

00:07:46,900 --> 00:07:45,229

there somewhere and what happened is

190

00:07:49,779 --> 00:07:46,910

they were going to take people to the

191

00:07:51,909 --> 00:07:49,789

site and BLM caught wind of that and

192

00:07:53,140 --> 00:07:51,919

said hey wait you can't take a bunch of

193

00:07:54,610 --> 00:07:53,150

people out there you got to check with

194

00:07:56,350 --> 00:07:54,620

us before you have any events or

195

00:07:57,909 --> 00:07:56,360

anything and we don't want this area

196

00:08:00,909 --> 00:07:57,919

trampled on and it's not necessarily

197

00:08:02,620 --> 00:08:00,919

that easy to get to anyway and so they

198

00:08:04,240 --> 00:08:02,630

they were denying them and the people

199

00:08:05,710 --> 00:08:04,250

who were like well you Frank went out

200

00:08:07,690 --> 00:08:05,720

there and that's how they were like oh

201  
00:08:10,300 --> 00:08:07,700  
yeah Frank who's this Frank we want to

202  
00:08:13,320 --> 00:08:10,310  
talk to this Frank guy and so that's

203  
00:08:16,150 --> 00:08:13,330  
kind of how this all came about Wow so

204  
00:08:18,490 --> 00:08:16,160  
are you gonna be hearing from him

205  
00:08:21,339 --> 00:08:18,500  
eventually you know well I did hear from

206  
00:08:24,100 --> 00:08:21,349  
not to it and and he said yeah they not

207  
00:08:26,800 --> 00:08:24,110  
taking anything but he's still worried

208  
00:08:29,350 --> 00:08:26,810  
that they could alright I'm sorry I just

209  
00:08:32,769 --> 00:08:29,360  
got a little distracted here mom I

210  
00:08:35,170 --> 00:08:32,779  
didn't catch that part up sorry did you

211  
00:08:38,409 --> 00:08:35,180  
get lost in the library no no no just

212  
00:08:39,519 --> 00:08:38,419  
Chris came in and we have to change

213  
00:08:43,390 --> 00:08:39,529

something real quickly

214

00:08:45,750 --> 00:08:43,400

so I'm gonna have to get up for a second

215

00:08:50,560 --> 00:08:45,760

but Chris is right here say hi Chris

216

00:08:52,210 --> 00:08:50,570

alejandro hey how's the manger no Brian

217

00:08:54,670 --> 00:08:52,220

I haven't talked to you in a while

218

00:08:57,400 --> 00:08:54,680

yeah it has been a little while and

219

00:08:58,750 --> 00:08:57,410

you've been traveling around I haven't

220

00:09:01,510 --> 00:08:58,760

dude oh man

221

00:09:06,550 --> 00:09:01,520

boy it's been been a lot of miles here

222

00:09:12,940 --> 00:09:06,560

in the last month yeah I did

223

00:09:15,460 --> 00:09:12,950

conflict in the desert with people

224

00:09:20,320 --> 00:09:15,470

that's kind of what you do no no no it's

225

00:09:24,280 --> 00:09:20,330

just I had me tucked away in a small

226

00:09:27,030 --> 00:09:24,290

dark little room so that I didn't come

227

00:09:32,920 --> 00:09:27,040

out and and you know harm anybody or

228

00:09:35,950 --> 00:09:32,930

insult anybody yeah that's good thing

229

00:09:39,940 --> 00:09:35,960

but but I still I ended up getting in

230

00:09:42,520 --> 00:09:39,950

trouble so yeah I'm sure but I mean it

231

00:09:44,590 --> 00:09:42,530

is it can be difficult especially at

232

00:09:48,670 --> 00:09:44,600

that event because there are some pretty

233

00:09:50,500 --> 00:09:48,680

strange things being said and I mean

234

00:09:53,200 --> 00:09:50,510

I've even been present where you know

235

00:09:57,010 --> 00:09:53,210

people want me to say that there was a

236

00:09:58,720 --> 00:09:57,020

you an alien that was a guest in my talk

237

00:10:03,010 --> 00:09:58,730

or something like that and it was like

238

00:10:05,170 --> 00:10:03,020

no no no and I think I don't know if

239

00:10:07,300 --> 00:10:05,180

they genuinely believe those things but

240

00:10:09,220 --> 00:10:07,310

I think they kind of do at least some

241

00:10:11,680 --> 00:10:09,230

people they do you they do let me let me

242

00:10:14,770 --> 00:10:11,690

let me assure you they do this is the

243

00:10:20,170 --> 00:10:14,780

tidal flats where the New Age washes

244

00:10:23,340 --> 00:10:20,180

over and then recedes at low tide mandir

245

00:10:28,410 --> 00:10:23,350

beach of ufology and it's it's a very

246

00:10:33,310 --> 00:10:28,420

very frightening experience to be

247

00:10:36,190 --> 00:10:33,320

subjected to the type of energy the to

248

00:10:39,130 --> 00:10:36,200

and borrow the parlance of the type of

249

00:10:40,840 --> 00:10:39,140

energy that pervades these types of

250

00:10:43,329 --> 00:10:40,850

events of course this year was the first

251  
00:10:47,500 --> 00:10:43,339  
year that they were indoors and quite a

252  
00:10:50,380 --> 00:10:47,510  
fancy place and I unfortunately had the

253  
00:10:52,510 --> 00:10:50,390  
job of mastering editing and mastering

254  
00:10:55,510 --> 00:10:52,520  
all the talks as they came hot off the

255  
00:10:58,480 --> 00:10:55,520  
couch and I was working six computers at

256  
00:11:01,260 --> 00:10:58,490  
once for my knowledge of about 17 hours

257  
00:11:04,540 --> 00:11:01,270  
a day for four days it was a madhouse

258  
00:11:07,690 --> 00:11:04,550  
yeah that's a lot of work yeah but

259  
00:11:11,440 --> 00:11:07,700  
it was you know I mean what can I say

260  
00:11:14,980 --> 00:11:11,450  
you know it was yeah i opening yeah i

261  
00:11:18,070 --> 00:11:14,990  
opening potentially not as educational

262  
00:11:21,009 --> 00:11:18,080  
as you would like you know what just to

263  
00:11:24,130 --> 00:11:21,019

be but i opening nonetheless and i'm

264

00:11:26,410 --> 00:11:24,140

like you said it can't be I mean it's a

265

00:11:28,600 --> 00:11:26,420

bit scary this the the kind of Fringe

266

00:11:32,800 --> 00:11:28,610

ideas and the kind of unsubstantiated

267

00:11:34,000 --> 00:11:32,810

kind of belief can be fun and

268

00:11:38,889 --> 00:11:34,010

interesting too

269

00:11:41,470 --> 00:11:38,899

at times but especially in more recent

270

00:11:44,230 --> 00:11:41,480

times it at there's times where it does

271

00:11:45,759 --> 00:11:44,240

get a little more frightening like

272

00:11:47,889 --> 00:11:45,769

although you know you've heard of

273

00:11:57,280 --> 00:11:47,899

Hitchcockian right well this isn't will

274

00:11:59,230 --> 00:11:57,290

cocky and I love that yet that I coin

275

00:12:03,730 --> 00:11:59,240

the coin I should trademark it because

276

00:12:05,139 --> 00:12:03,740

it's definitely appropriate yeah yeah I

277

00:12:07,480 --> 00:12:05,149

mean there's just some people like

278

00:12:10,180 --> 00:12:07,490

speculation emulation or speculation

279

00:12:13,210 --> 00:12:10,190

sake and and that's great but it's not

280

00:12:16,180 --> 00:12:13,220

speculation that's it's it's claims that

281

00:12:18,220 --> 00:12:16,190

are off the charts that I'm sorry I

282

00:12:21,850 --> 00:12:18,230

don't I don't believe that Emory Smith

283

00:12:26,980 --> 00:12:21,860

autopsy 3,000 aliens I'm sorry you know

284

00:12:29,079 --> 00:12:26,990

sorry yeah no yeah well I'm back and

285

00:12:33,160 --> 00:12:29,089

thank you Chris we'll be bringing you

286

00:12:34,870 --> 00:12:33,170

back in yeah now that you went away we

287

00:12:37,420 --> 00:12:34,880

were able to no you just said and

288

00:12:40,650 --> 00:12:37,430

that'll generate some emails for happens

289

00:12:43,750 --> 00:12:40,660

yeah so so anyway

290

00:12:46,079 --> 00:12:43,760

anything else cooking in the UFO topic

291

00:12:48,610 --> 00:12:46,089

that you want to talk about Alejandra I

292

00:12:51,819 --> 00:12:48,620

guess we've kind of talked about

293

00:12:53,530 --> 00:12:51,829

everything else that's gone on you know

294

00:12:55,360 --> 00:12:53,540

I I'm den of geek I guess the only

295

00:12:57,610 --> 00:12:55,370

addition I have to this whole limit

296

00:12:59,139 --> 00:12:57,620

situation is that I did write destroy

297

00:13:03,970 --> 00:12:59,149

recently and it does have some input

298

00:13:05,860 --> 00:13:03,980

from Louise Elizondo and Leslie Kane and

299

00:13:07,750 --> 00:13:05,870

I think what's really interesting from

300

00:13:09,670 --> 00:13:07,760

Jeremy Korbelt because I think he's gonna

301  
00:13:12,189 --> 00:13:09,680  
have some really interesting stuff

302  
00:13:13,930 --> 00:13:12,199  
coming out soon and he is I mean he's

303  
00:13:17,019 --> 00:13:13,940  
got some great interviews that he's been

304  
00:13:18,370 --> 00:13:17,029  
doing on Facebook so those are really

305  
00:13:20,590 --> 00:13:18,380  
cool check those out and these are wit

306  
00:13:22,210 --> 00:13:20,600  
do some of these events including David

307  
00:13:24,370 --> 00:13:22,220  
flavor who is two jet fighter pilot you

308  
00:13:26,530 --> 00:13:24,380  
know at this two thousand or San Diego

309  
00:13:28,630 --> 00:13:26,540  
thing which we've all heard from him but

310  
00:13:32,380 --> 00:13:28,640  
Jeremy knows him very well so this is

311  
00:13:35,350 --> 00:13:32,390  
more in-depth and and more lengthy than

312  
00:13:37,330 --> 00:13:35,360  
other interviews so he's one of these

313  
00:13:38,980 --> 00:13:37,340

people that are very cautious because

314

00:13:41,560 --> 00:13:38,990

I've tried to get a hold of him and I

315

00:13:44,410 --> 00:13:41,570

haven't heard anything from him yes yeah

316

00:13:46,540 --> 00:13:44,420

yeah he's he's cautious which is good

317

00:13:47,980 --> 00:13:46,550

you know I think is a good thing you

318

00:13:50,290 --> 00:13:47,990

know I think it's good too and it's

319

00:13:52,480 --> 00:13:50,300

great that Jeremy is kind of the guy

320

00:13:54,160 --> 00:13:52,490

he's talking to at least because Jeremy

321

00:13:57,250 --> 00:13:54,170

is a friend of mine so he keeps us

322

00:13:59,740 --> 00:13:57,260

apprised of stuff right and so that's

323

00:14:02,980 --> 00:13:59,750

really cool okay I just got a noticed

324

00:14:06,940 --> 00:14:02,990

he's gonna be live Friday night I can't

325

00:14:10,720 --> 00:14:06,950

see that text that was from hang on just

326

00:14:14,770 --> 00:14:10,730

a minute he is going to be no it didn't

327

00:14:16,480 --> 00:14:14,780

come up here anyway is gonna be on kgr a

328

00:14:19,090 --> 00:14:16,490

radio I so that's what I've just

329

00:14:21,310 --> 00:14:19,100

gathered by a text that flew over on

330

00:14:24,340 --> 00:14:21,320

skype which I can't seem to get ahold of

331

00:14:27,310 --> 00:14:24,350

but anyway I'm sure you'll find out

332

00:14:29,380 --> 00:14:27,320

about that if you go to kgr a.com though

333

00:14:31,570 --> 00:14:29,390

note the notice should be up there on

334

00:14:35,860 --> 00:14:31,580

that website so Alejandro thanks so much

335

00:14:36,580 --> 00:14:35,870

for for being here as always thank you

336

00:14:38,730 --> 00:14:36,590

my friend

337

00:14:42,910 --> 00:14:38,740

alright and we'll talk to you next week

338

00:14:44,680 --> 00:14:42,920

alright see you Christian you alright

339

00:14:47,800 --> 00:14:44,690

well I guess our guest doesn't really

340

00:14:49,180 --> 00:14:47,810

need too much of a introduction all

341

00:14:50,050 --> 00:14:49,190

right do a lot of people don't know who

342

00:14:53,320 --> 00:14:50,060

the hell this guy is

343

00:14:56,260 --> 00:14:53,330

oh you kid alright I'm just gonna bring

344

00:14:59,950 --> 00:14:56,270

you in we're talking about stocking the

345

00:15:02,770 --> 00:14:59,960

herd all kinds of great research you've

346

00:15:05,440 --> 00:15:02,780

done places you've lifted quite quite a

347

00:15:08,830 --> 00:15:05,450

few amazing places welcome to the show

348

00:15:12,280 --> 00:15:08,840

it's good to be back in Maine after 31

349

00:15:15,160 --> 00:15:12,290

years 31 31 years and then I was only

350

00:15:18,100 --> 00:15:15,170

here once just for an afternoon Wow

351

00:15:20,170 --> 00:15:18,110

and I must say thank you so much I

352

00:15:22,030 --> 00:15:20,180

arrived there was a hot steamy lobster

353

00:15:25,660 --> 00:15:22,040

waiting for yeah it's great that broke

354

00:15:27,250 --> 00:15:25,670

the news to everyone oh man I would if

355

00:15:29,230 --> 00:15:27,260

it gave you more than one Lobster I

356

00:15:30,060 --> 00:15:29,240

might not see you know I probably came

357

00:15:32,069 --> 00:15:30,070

out after we

358

00:15:33,780 --> 00:15:32,079

yeah that would have been too much I

359

00:15:35,759 --> 00:15:33,790

probably wouldn't Bend me able to make

360

00:15:39,990 --> 00:15:35,769

it right make it across the parking lot

361

00:15:44,009 --> 00:15:40,000

there right so go ahead and let the go

362

00:15:48,480 --> 00:15:44,019

ahead and let the the listeners know who

363

00:15:52,470 --> 00:15:48,490

the heck you are well I'm one of those

364

00:15:54,240 --> 00:15:52,480

guys that wears helmets and flak vests

365

00:15:58,530 --> 00:15:54,250

and spends a lot of time when the

366

00:16:00,240 --> 00:15:58,540

trenches I as I've gotten older I've

367

00:16:04,400 --> 00:16:00,250

spent more and more time in the armchair

368

00:16:06,990 --> 00:16:04,410

but you know all through the 90s I

369

00:16:10,800 --> 00:16:07,000

happened to be sitting and living in one

370

00:16:13,139 --> 00:16:10,810

of the most amazing anomalous areas in

371

00:16:14,970 --> 00:16:13,149

North America with a variety and

372

00:16:17,699 --> 00:16:14,980

intensity of unusual experiences

373

00:16:19,379 --> 00:16:17,709

reported by locals there that pretty

374

00:16:25,110 --> 00:16:19,389

much is unrivaled anywhere I think in

375

00:16:27,480 --> 00:16:25,120

North America it's just everything from

376

00:16:33,090 --> 00:16:27,490

flying humanoids to you know a cult

377

00:16:37,110 --> 00:16:33,100

crime to Bigfoot trooping fairies every

378

00:16:40,199 --> 00:16:37,120

type of UFO imaginable secret military

379

00:16:46,000 --> 00:16:40,209

bases underground you know military

380

00:16:47,389 --> 00:16:46,010

bases all kinds of strange individuals

381

00:16:52,199 --> 00:16:47,399

[Music]

382

00:16:53,910 --> 00:16:52,209

that shall remain nameless it's just

383

00:16:55,559 --> 00:16:53,920

it's just an amazing place the San Luis

384

00:16:58,710 --> 00:16:55,569

Valley of course is what I'm talking

385

00:17:01,050 --> 00:16:58,720

about many of my people that do know my

386

00:17:03,509 --> 00:17:01,060

work are familiar with with the valley

387

00:17:08,220 --> 00:17:03,519

it's the world's largest Alpine Valley

388

00:17:10,620 --> 00:17:08,230

it sits in the south-central Colorado

389

00:17:13,980 --> 00:17:10,630

North very extreme northern central New

390

00:17:17,010 --> 00:17:13,990

Mexico area it's like the backbone of

391

00:17:19,919 --> 00:17:17,020

North America America's Tibet some

392

00:17:20,340 --> 00:17:19,929

Tibetan Buddhists that visited called it

393

00:17:23,579 --> 00:17:20,350

that

394

00:17:26,220 --> 00:17:23,589

it's radar invisible below 18,000 feet

395

00:17:29,010 --> 00:17:26,230

it's about 140 miles long and totally

396

00:17:30,659 --> 00:17:29,020

surrounded by mountains and it's just an

397

00:17:32,789 --> 00:17:30,669

absolute paranormal Disneyland when I

398

00:17:35,070 --> 00:17:32,799

moved there I I knew that things had

399

00:17:37,250 --> 00:17:35,080

gone on there in the past of course the

400

00:17:39,870 --> 00:17:37,260

most famous incident would be the first

401  
00:17:42,419 --> 00:17:39,880  
publicized unexplained livestock death

402  
00:17:43,560 --> 00:17:42,429  
or cattle mutilation even though snippy

403  
00:17:47,340 --> 00:17:43,570  
the horse

404  
00:17:49,889 --> 00:17:47,350  
the cow I knew about the place beat all

405  
00:17:52,139 --> 00:17:49,899  
the way back to 67 rounds a little kid I

406  
00:17:54,659 --> 00:17:52,149  
remember reading about the flying

407  
00:17:57,810 --> 00:17:54,669  
saucers coming down and snippy and

408  
00:18:00,090 --> 00:17:57,820  
snippy and when I moved there in 89 I I

409  
00:18:02,249 --> 00:18:00,100  
thought that all that stuff was ancient

410  
00:18:03,690 --> 00:18:02,259  
history and I hope didn't you know it's

411  
00:18:06,060 --> 00:18:03,700  
kind of nosing around a little bit and

412  
00:18:08,240 --> 00:18:06,070  
then all of a sudden having a quite an

413  
00:18:12,330 --> 00:18:08,250

upwelling of activity in the area and

414

00:18:15,240 --> 00:18:12,340

91-92 I got involved in really

415

00:18:17,159 --> 00:18:15,250

investigating reports that were coming

416

00:18:19,519 --> 00:18:17,169

in and the fact that I was a local with

417

00:18:22,080 --> 00:18:19,529

a local phone number and and people knew

418

00:18:23,970 --> 00:18:22,090

you they eventually got the idea that I

419

00:18:26,310 --> 00:18:23,980

wasn't going to be judgmental and

420

00:18:29,159 --> 00:18:26,320

exploit their and violate their request

421

00:18:31,560 --> 00:18:29,169

for anonymity credit them when they

422

00:18:35,190 --> 00:18:31,570

wanted credit for for photographs and

423

00:18:36,990 --> 00:18:35,200

and in reports and stuff you know people

424

00:18:38,639 --> 00:18:37,000

started to feel I think a little bit

425

00:18:41,129 --> 00:18:38,649

more comfortable that there was someone

426

00:18:46,070 --> 00:18:41,139

local there and it's just the upwelling

427

00:18:48,180 --> 00:18:46,080

of it's just it was astounding how many

428

00:18:50,669 --> 00:18:48,190

how many reports I was able to

429

00:18:54,299 --> 00:18:50,679

investigate in a 10-year period well

430

00:18:58,680 --> 00:18:54,309

over I must have investigated around

431

00:19:01,680 --> 00:18:58,690

1200 bona fide reports out of which

432

00:19:04,580 --> 00:19:01,690

about seven eight hundred ended up in my

433

00:19:06,810 --> 00:19:04,590

database I have a database of unusual

434

00:19:10,919 --> 00:19:06,820

unexplained occurrences from that region

435

00:19:12,840 --> 00:19:10,929

that probably rivals databases from

436

00:19:15,360 --> 00:19:12,850

other you know specific geographic

437

00:19:17,879 --> 00:19:15,370

regions in terms of its complexity

438

00:19:20,879 --> 00:19:17,889

intensity and the variety of reports

439

00:19:23,369 --> 00:19:20,889

that I was able to document and of

440

00:19:26,159 --> 00:19:23,379

course I ended up writing several books

441

00:19:29,369 --> 00:19:26,169

the mysterious valley came out in 96 it

442

00:19:32,519 --> 00:19:29,379

was a best-seller for paranormal books

443

00:19:35,759 --> 00:19:32,529

it went through 12 paintings and twelve

444

00:19:37,919 --> 00:19:35,769

printings and then enter the valley was

445

00:19:40,799 --> 00:19:37,929

the all the historical information and

446

00:19:43,320 --> 00:19:40,809

caught the reader up for a couple of

447

00:19:44,759 --> 00:19:43,330

years of activity and then secrets of

448

00:19:47,700 --> 00:19:44,769

the mysterious Valley which came out 10

449

00:19:50,490 --> 00:19:47,710

years later eight years later summed up

450

00:19:52,350 --> 00:19:50,500

the entire period and kind of gave an

451  
00:19:54,019 --> 00:19:52,360  
idea what it was like to be an

452  
00:19:55,800 --> 00:19:54,029  
investigator running around

453  
00:19:58,200 --> 00:19:55,810  
investigating some of them

454  
00:20:01,410 --> 00:19:58,210  
most compelling cases on record I'm

455  
00:20:03,690 --> 00:20:01,420  
quite proud of my work I've never made a

456  
00:20:07,200 --> 00:20:03,700  
call to the media to promote myself

457  
00:20:09,210 --> 00:20:07,210  
unlike a lot of field investigators the

458  
00:20:11,130 --> 00:20:09,220  
first thing I do is call the local

459  
00:20:13,290 --> 00:20:11,140  
newspaper calls a local TV show and try

460  
00:20:19,700 --> 00:20:13,300  
to promote themselves never done that

461  
00:20:22,610 --> 00:20:19,710  
I've also I've also made sure not to

462  
00:20:25,950 --> 00:20:22,620  
violate people's request for anonymity

463  
00:20:28,680 --> 00:20:25,960

and and I worked quietly with five

464

00:20:30,750 --> 00:20:28,690

County Sheriff's Department's and when

465

00:20:33,660 --> 00:20:30,760

they got a report of the type that I've

466

00:20:35,670 --> 00:20:33,670

described I would be the first person

467

00:20:38,750 --> 00:20:35,680

that would be contacted and quite often

468

00:20:42,180 --> 00:20:38,760

I I went out instead of the deputies and

469

00:20:45,210 --> 00:20:42,190

when one sheriff said I was the

470

00:20:47,940 --> 00:20:45,220

unofficial deputy of weirdness for five

471

00:20:49,860 --> 00:20:47,950

counties Sheriff's Department so I I

472

00:20:52,410 --> 00:20:49,870

spent 13 years there in the valley and

473

00:20:54,360 --> 00:20:52,420

I'm quite proud of my work I'm that's a

474

00:20:57,810 --> 00:20:54,370

investigated over two hundred cattle

475

00:21:00,540 --> 00:20:57,820

mutilations up close and personal and my

476

00:21:03,210 --> 00:21:00,550

latest book is the textbook the Bible

477

00:21:05,760 --> 00:21:03,220

the encyclopedia the case history of

478

00:21:08,640 --> 00:21:05,770

that particular mystery I'm very proud

479

00:21:10,740 --> 00:21:08,650

of it I don't think anybody has even

480

00:21:14,670 --> 00:21:10,750

come close to putting the amount of time

481

00:21:17,040 --> 00:21:14,680

and effort and objectivity into that

482

00:21:21,420 --> 00:21:17,050

particular mystery and you know stalking

483

00:21:25,110 --> 00:21:21,430

the herd is the go-to book now when you

484

00:21:26,520 --> 00:21:25,120

say you know a mystery have and I know

485

00:21:31,500 --> 00:21:26,530

that I think I've asked you this before

486

00:21:34,680 --> 00:21:31,510

Weiner on my shows you have a best guess

487

00:21:38,520 --> 00:21:34,690

of what the or is it still just a plain

488

00:21:40,620 --> 00:21:38,530

mystery it's very complicated there's no

489

00:21:42,510 --> 00:21:40,630

one-size-fits-all answer everybody likes

490

00:21:44,780 --> 00:21:42,520

things nice and you know tied up in a

491

00:21:49,380 --> 00:21:44,790

bow in a nice neat little package well

492

00:21:53,280 --> 00:21:49,390

this particular conundrum Gordian knot

493

00:21:55,980 --> 00:21:53,290

if you will it defies all simple logical

494

00:21:59,690 --> 00:21:55,990

single explanations there's multiple

495

00:22:02,550 --> 00:21:59,700

groups involved everything from

496

00:22:07,020 --> 00:22:02,560

unidentified scavenger action which is

497

00:22:09,330 --> 00:22:07,030

the biggest I think sort of cause of a

498

00:22:10,049 --> 00:22:09,340

lot of these reports people seeing a

499

00:22:12,659 --> 00:22:10,059

dead cow

500

00:22:15,060 --> 00:22:12,669

hearing may be that there's mutilations

501  
00:22:17,009 --> 00:22:15,070  
going on in the region happening upon a

502  
00:22:18,629 --> 00:22:17,019  
dead cow stopping their car going out

503  
00:22:21,119 --> 00:22:18,639  
looking at it not knowing what they're

504  
00:22:24,479 --> 00:22:21,129  
looking at and thinking that it looks

505  
00:22:27,269 --> 00:22:24,489  
unusual and reporting it as a cattle

506  
00:22:30,180 --> 00:22:27,279  
mutilation if you factor out all those

507  
00:22:32,489 --> 00:22:30,190  
types of misidentified scavenger action

508  
00:22:35,879 --> 00:22:32,499  
cases you are still left with a body of

509  
00:22:39,359 --> 00:22:35,889  
cases however it's nowhere near the

510  
00:22:43,349 --> 00:22:39,369  
amount that some investigators out there

511  
00:22:46,649 --> 00:22:43,359  
with interesting theories but you know

512  
00:22:48,570 --> 00:22:46,659  
it just I mean that to me is mr. Iman

513  
00:22:51,450 --> 00:22:48,580

Green when when you tout every dead cows

514

00:22:54,329 --> 00:22:51,460

as being mutilated out of 200 cases I

515

00:22:56,539 --> 00:22:54,339

think I had about 40 that definitely

516

00:23:01,430 --> 00:22:56,549

appeared to be done with intelligence

517

00:23:06,089 --> 00:23:01,440

using cutting instruments out of those

518

00:23:07,919 --> 00:23:06,099

40 about three or four possibly had high

519

00:23:12,930 --> 00:23:07,929

heat as a cutting agent which are very

520

00:23:15,599 --> 00:23:12,940

very disturbing and the total out of

521

00:23:17,459 --> 00:23:15,609

those 40 cases that I feel were real

522

00:23:20,399 --> 00:23:17,469

mutilations that something did that to

523

00:23:23,639 --> 00:23:20,409

the poor animals there were eight about

524

00:23:27,359 --> 00:23:23,649

eight cases that were really really

525

00:23:31,019 --> 00:23:27,369

spooky that that still sticks thick with

526

00:23:33,659 --> 00:23:31,029

me years later you know for instance at

527

00:23:36,959 --> 00:23:33,669

the skinwalker ranch there was a report

528

00:23:39,269 --> 00:23:36,969

of what appeared as if the cow had been

529

00:23:42,419 --> 00:23:39,279

dropped its head was jammed down inside

530

00:23:43,859 --> 00:23:42,429

of a hole did you ever see any cases

531

00:23:45,989 --> 00:23:43,869

where it appeared that the cow could

532

00:23:49,769 --> 00:23:45,999

have been dropped oh yeah quite a number

533

00:23:54,570 --> 00:23:49,779

yeah fact I found five that we actually

534

00:23:56,489 --> 00:23:54,580

I was down doing interviews with a with

535

00:23:58,259 --> 00:23:56,499

a film crew and some of the overheard us

536

00:24:00,629 --> 00:23:58,269

talking in arrests you know kind of a

537

00:24:02,310 --> 00:24:00,639

little local restaurant she goes I was

538

00:24:04,889 --> 00:24:02,320

coming in you should caught you know

539

00:24:07,109 --> 00:24:04,899

County Road you know X Y Z or whatever

540

00:24:09,259 --> 00:24:07,119

good go down make a left make right and

541

00:24:11,609 --> 00:24:09,269

then look off by the fence line and

542

00:24:13,950 --> 00:24:11,619

there's there's some cows out there and

543

00:24:16,139 --> 00:24:13,960

they look strange so we did we went out

544

00:24:17,999 --> 00:24:16,149

there and sure enough all five of these

545

00:24:20,639 --> 00:24:18,009

animals that had appeared to have been

546

00:24:22,510 --> 00:24:20,649

dropped quite a distance I mean one of

547

00:24:26,560 --> 00:24:22,520

them had all the ribs were

548

00:24:29,260 --> 00:24:26,570

can write on the spine on the downside

549

00:24:31,620 --> 00:24:29,270

and then one of the the horns had been

550

00:24:34,270 --> 00:24:31,630

driven into the ground and snapped off

551  
00:24:36,670 --> 00:24:34,280  
and and there's no way that that animal

552  
00:24:38,080 --> 00:24:36,680  
could have done that to itself or it

553  
00:24:39,670 --> 00:24:38,090  
could have done it happened with

554  
00:24:41,980 --> 00:24:39,680  
somebody dumping dead cows at the back

555  
00:24:43,240 --> 00:24:41,990  
of a pickup truck let's say they look

556  
00:24:45,100 --> 00:24:43,250  
like they had been dropped in a pile

557  
00:24:49,170 --> 00:24:45,110  
there was four I think three or four

558  
00:24:53,350 --> 00:24:49,180  
cows and a horse and a horse yeah Wow

559  
00:24:57,190 --> 00:24:53,360  
not snippy no snipper goes back in 67

560  
00:25:01,150 --> 00:24:57,200  
this is 94 I think so I listened to your

561  
00:25:03,730 --> 00:25:01,160  
show on Greg bishops radio mysterioso

562  
00:25:05,980 --> 00:25:03,740  
I'm a fan of his show I really like that

563  
00:25:07,150 --> 00:25:05,990

enjoy at night suggest anyone to check

564

00:25:12,220 --> 00:25:07,160

it out it's a really great show

565

00:25:14,980 --> 00:25:12,230

so in that show and I'm gonna call this

566

00:25:17,410 --> 00:25:14,990

the post-race Stanford show because you

567

00:25:18,580 --> 00:25:17,420

also went to Ray stampers so yeah that's

568

00:25:21,040 --> 00:25:18,590

show you were talking about going to

569

00:25:23,620 --> 00:25:21,050

race oh man I was excited I was ready to

570

00:25:28,570 --> 00:25:23,630

rock I had 20 to 23 hours of videotape

571

00:25:31,300 --> 00:25:28,580

yeah and it's just ray got cold feet

572

00:25:34,240 --> 00:25:31,310

he just totally back back back away from

573

00:25:36,460 --> 00:25:34,250

he's listening now just I know he did he

574

00:25:38,470 --> 00:25:36,470

backed away ray next time I come down

575

00:25:40,390 --> 00:25:38,480

I'm shooting everything I kept saying I

576

00:25:43,330 --> 00:25:40,400

should be shooting this I should be

577

00:25:46,740 --> 00:25:43,340

shooting this and I wasn't going to jump

578

00:25:49,090 --> 00:25:46,750

right in and be rude and start filming

579

00:25:51,430 --> 00:25:49,100

immediately I was waiting for him to say

580

00:25:53,230 --> 00:25:51,440

you know go ahead you can film this I

581

00:25:58,030 --> 00:25:53,240

gave him plenty plenty of opportunities

582

00:26:01,900 --> 00:25:58,040

and you know Ray Ray Ray will at some

583

00:26:04,750 --> 00:26:01,910

point I think come to the realization

584

00:26:07,480 --> 00:26:04,760

that you know he just passed his 80th

585

00:26:11,050 --> 00:26:07,490

birthday here a couple days ago and and

586

00:26:15,040 --> 00:26:11,060

uh you know it's the the the time is

587

00:26:16,780 --> 00:26:15,050

right to to document not only all his

588

00:26:19,390 --> 00:26:16,790

wonderful collections that he has that

589

00:26:24,100 --> 00:26:19,400

are just jaw-dropping amazing his chunky

590

00:26:25,600 --> 00:26:24,110

stone collection I think is the the

591

00:26:28,750 --> 00:26:25,610

ancient aliens yeah

592

00:26:31,690 --> 00:26:28,760

there is really no proof that ancient

593

00:26:33,190 --> 00:26:31,700

aliens were here unless you go and look

594

00:26:35,590 --> 00:26:33,200

at ray Stanford's chunky stone

595

00:26:38,890 --> 00:26:35,600

collection then you will see

596

00:26:41,260 --> 00:26:38,900

physical evidence in at least in my

597

00:26:44,590 --> 00:26:41,270

estimation I think I think I can echo

598

00:26:47,170 --> 00:26:44,600

Ray's feelings about this that the hair

599

00:26:50,260 --> 00:26:47,180

is real concrete evidence that ancient

600

00:26:54,750 --> 00:26:50,270

peoples up to 1800 years ago at least in

601  
00:26:57,220 --> 00:26:54,760  
North America were witnessing

602  
00:26:59,650 --> 00:26:57,230  
extraordinary craft in the sky which

603  
00:27:01,390 --> 00:26:59,660  
evolved into the into the Native

604  
00:27:03,730 --> 00:27:01,400  
American game of chunky

605  
00:27:06,340 --> 00:27:03,740  
yeah these up these just got like

606  
00:27:08,200 --> 00:27:06,350  
perfect I mean you couldn't describe

607  
00:27:10,750 --> 00:27:08,210  
them anything more than perfect UFOs

608  
00:27:13,360 --> 00:27:10,760  
yeah yeah saucers yes

609  
00:27:15,640 --> 00:27:13,370  
complete with the 13 in minutes and and

610  
00:27:17,290 --> 00:27:15,650  
in little domes and and they're right

611  
00:27:20,470 --> 00:27:17,300  
out if they were right in the central

612  
00:27:23,230 --> 00:27:20,480  
United States don't know yeah really and

613  
00:27:25,660 --> 00:27:23,240

most of them are made out of out of

614

00:27:27,670 --> 00:27:25,670

meteoritic material haematite and then

615

00:27:30,340 --> 00:27:27,680

Ray has one that may be made out of a

616

00:27:32,230 --> 00:27:30,350

lunar meteorite and if that's if it is

617

00:27:35,110 --> 00:27:32,240

it would be the only worked I think

618

00:27:37,750 --> 00:27:35,120

lunar lunar meteorite ever ever

619

00:27:40,210 --> 00:27:37,760

discovered and it's impressive it's big

620

00:27:42,160 --> 00:27:40,220

I mean we're talking you know about five

621

00:27:44,080 --> 00:27:42,170

inches six and four or five inches

622

00:27:45,760 --> 00:27:44,090

across I don't think I've ever walked

623

00:27:47,860 --> 00:27:45,770

into anyone's house I saw a meteorite

624

00:27:49,540 --> 00:27:47,870

till I went in I can't remember seeing a

625

00:27:52,150 --> 00:27:49,550

meteorite in anyone's house except his

626

00:27:55,030 --> 00:27:52,160

you know he's gonna couple of pretty

627

00:27:58,420 --> 00:27:55,040

good stones there he's got a collection

628

00:28:01,450 --> 00:27:58,430

of meteorites that the glass meteorite

629

00:28:05,440 --> 00:28:01,460

that Allen Hynek said was the strangest

630

00:28:07,480 --> 00:28:05,450

fall of all that's a classic I didn't

631

00:28:10,060 --> 00:28:07,490

get a chance to see that one again I've

632

00:28:12,100 --> 00:28:10,070

seen it you know in the past but you

633

00:28:15,280 --> 00:28:12,110

know I I love right I think he's the

634

00:28:18,370 --> 00:28:15,290

only person in the field will be of any

635

00:28:21,580 --> 00:28:18,380

attention I think everybody else are

636

00:28:23,740 --> 00:28:21,590

just a lot of posers and wannabes for

637

00:28:25,810 --> 00:28:23,750

the most part you know there are some

638

00:28:28,210 --> 00:28:25,820

people that that I do have some respect

639

00:28:29,890 --> 00:28:28,220

for good historians people that have

640

00:28:32,170 --> 00:28:29,900

done a lot of work research eaten and

641

00:28:34,840 --> 00:28:32,180

stuff but in terms of really analyzing

642

00:28:37,780 --> 00:28:34,850

the phenomenon looking at at the type of

643

00:28:40,330 --> 00:28:37,790

visual evidence that that we that we

644

00:28:43,990 --> 00:28:40,340

have you know to ponder

645

00:28:46,780 --> 00:28:44,000

I think Ray's work is it's just so far

646

00:28:47,940 --> 00:28:46,790

above and beyond anybody else's work and

647

00:28:51,150 --> 00:28:47,950

of course he

648

00:28:54,300 --> 00:28:51,160

early to mid-70s project starlight his

649

00:28:57,240 --> 00:28:54,310

hard data monitoring program has been an

650

00:28:58,680 --> 00:28:57,250

inspiration and a model for my effort in

651  
00:29:02,690 --> 00:28:58,690  
the San Luis Valley are putting together

652  
00:29:05,070 --> 00:29:02,700  
a monitoring hard data monitoring

653  
00:29:08,630 --> 00:29:05,080  
triangulated monitoring array and in the

654  
00:29:11,970 --> 00:29:08,640  
San Luis Valley with with gravity meters

655  
00:29:14,910 --> 00:29:11,980  
magnetometers Kezia microphones and

656  
00:29:17,190 --> 00:29:14,920  
other things to attempt to document some

657  
00:29:18,570 --> 00:29:17,200  
of the amazing sightings said they go on

658  
00:29:22,080 --> 00:29:18,580  
in the valley cone you know continuously

659  
00:29:24,510 --> 00:29:22,090  
so that's that's something obviously we

660  
00:29:26,730 --> 00:29:24,520  
can talk about more but but ray-ray is

661  
00:29:29,220 --> 00:29:26,740  
the inspiration for that night when I

662  
00:29:31,560 --> 00:29:29,230  
read about project starlight in the

663  
00:29:35,550 --> 00:29:31,570

early to mid 70s and and then of course

664

00:29:39,060 --> 00:29:35,560

project has Darwin in well it has Dolan

665

00:29:43,110 --> 00:29:39,070

project in Norway between those two I

666

00:29:46,500 --> 00:29:43,120

think we have the the real I guess the

667

00:29:49,500 --> 00:29:46,510

the boilerplate the prototype of how it

668

00:29:52,080 --> 00:29:49,510

could be done and and now and in 2018

669

00:29:54,930 --> 00:29:52,090

with the the level of technology and the

670

00:29:56,310 --> 00:29:54,940

price you know coming down for tech you

671

00:29:58,830 --> 00:29:56,320

know we're gonna be able to do some

672

00:30:02,880 --> 00:29:58,840

pretty amazing things if the if the

673

00:30:06,030 --> 00:30:02,890

phenomenon doesn't play with our heads

674

00:30:10,140 --> 00:30:06,040

and try to try to you know fake us out

675

00:30:14,670 --> 00:30:10,150

but but we'll we'll see right right now

676

00:30:17,070 --> 00:30:14,680

I think I I hope ray doesn't get mad at

677

00:30:20,010 --> 00:30:17,080

me for saying this but he has said to me

678

00:30:23,790 --> 00:30:20,020

that if anyone is really really serious

679

00:30:25,230 --> 00:30:23,800

and takes this really serious and not

680

00:30:27,680 --> 00:30:25,240

messing around and they're really

681

00:30:30,570 --> 00:30:27,690

interested he will show them things yeah

682

00:30:34,530 --> 00:30:30,580

yeah and he shows that a number of

683

00:30:37,140 --> 00:30:34,540

people already it's just he just does

684

00:30:37,680 --> 00:30:37,150

not want to go into hey yeah I forgot

685

00:30:39,870 --> 00:30:37,690

work

686

00:30:42,360 --> 00:30:39,880

I forgot we went past break time how

687

00:30:45,840 --> 00:30:42,370

about that so we are going to take a

688

00:30:49,770 --> 00:30:45,850

break everyone so hang in there this is

689

00:30:51,390 --> 00:30:49,780

Martin Willis with kgr a radio and my

690

00:30:55,500 --> 00:30:51,400

guest is Chris O'Brien we'll be right

691

00:31:01,210 --> 00:30:59,260

all right Mari not clear I'm so sorry

692

00:31:03,640 --> 00:31:01,220

all right we got three minutes in this

693

00:31:05,230 --> 00:31:03,650

break it's really sorry live which is

694

00:31:06,430 --> 00:31:05,240

the live in which I don't even know that

695

00:31:08,590 --> 00:31:06,440

you're okay

696

00:31:14,350 --> 00:31:08,600

we're actually live on YouTube just to

697

00:31:16,780 --> 00:31:14,360

let you know so actually what what I

698

00:31:18,070 --> 00:31:16,790

like to do in these live breaks because

699

00:31:20,680 --> 00:31:18,080

we're on YouTube it's gonna go into the

700

00:31:22,510 --> 00:31:20,690

podcast as we just chitchat off a

701  
00:31:25,120 --> 00:31:22,520  
different subject we were talking about

702  
00:31:27,460 --> 00:31:25,130  
race so that's how we ended on that one

703  
00:31:31,540 --> 00:31:27,470  
I set the timer here for three minutes

704  
00:31:34,030 --> 00:31:31,550  
so I don't know if you want to talk

705  
00:31:36,160 --> 00:31:34,040  
about on the regular show if you want to

706  
00:31:37,690 --> 00:31:36,170  
talk about the pirate casts and why

707  
00:31:40,150 --> 00:31:37,700  
you're not on that or you want to save

708  
00:31:42,580 --> 00:31:40,160  
that for the regular part of the show oh

709  
00:31:44,530 --> 00:31:42,590  
no I can do it here I'd rather do it

710  
00:31:49,630 --> 00:31:44,540  
here yeah Lovells are really booming to

711  
00:31:51,610 --> 00:31:49,640  
audio by the way yeah yeah okay one two

712  
00:31:54,670 --> 00:31:51,620  
one two yeah that's way better yeah okay

713  
00:31:56,200 --> 00:31:54,680

go ahead so so you're not on the podcast

714

00:32:02,520 --> 00:31:56,210

after how many years were you on there

715

00:32:05,230 --> 00:32:02,530

uh almost ten almost ten yeah yeah and

716

00:32:09,040 --> 00:32:05,240

what made you decide not to be on there

717

00:32:11,680 --> 00:32:09,050

anymore um it was just time time to move

718

00:32:15,570 --> 00:32:11,690

along I you know I I think I'd pretty

719

00:32:23,770 --> 00:32:15,580

much what would the turn be shot my wad

720

00:32:26,380 --> 00:32:23,780

I it just I don't know I'm into a whole

721

00:32:30,010 --> 00:32:26,390

new vibe trying to get the kids involved

722

00:32:34,600 --> 00:32:30,020

Log form shows really aren't getting the

723

00:32:37,720 --> 00:32:34,610

18 to 35 year old interested in in the

724

00:32:40,960 --> 00:32:37,730

subject matter and as a result of that

725

00:32:41,890 --> 00:32:40,970

I've I've been working with a new

726  
00:32:45,040 --> 00:32:41,900  
co-host

727  
00:32:49,030 --> 00:32:45,050  
Ted bonnet and we're coming up with a a

728  
00:32:51,490 --> 00:32:49,040  
much slicker modern kind of

729  
00:32:53,350 --> 00:32:51,500  
multi-platform way of approaching the

730  
00:32:56,350 --> 00:32:53,360  
subject matter we're gonna have a cool

731  
00:32:58,240 --> 00:32:56,360  
geo geographic app we're gonna have a TV

732  
00:33:00,940 --> 00:32:58,250  
show and a podcast it's all going to be

733  
00:33:02,400 --> 00:33:00,950  
feeding to a database that's that's very

734  
00:33:04,980 --> 00:33:02,410  
very impressive

735  
00:33:07,770 --> 00:33:04,990  
and you know each of these things are

736  
00:33:10,260 --> 00:33:07,780  
gonna be are gonna be independent but

737  
00:33:15,420 --> 00:33:10,270  
they're all gonna be feeding into into a

738  
00:33:18,510 --> 00:33:15,430

UFO grid which is the database grid now

739

00:33:20,880 --> 00:33:18,520

if you go on if you type in UFO grid

740

00:33:23,570 --> 00:33:20,890

comm it goes to Ted site now correct

741

00:33:27,780 --> 00:33:23,580

which is called something else I forget

742

00:33:30,570 --> 00:33:27,790

the name of it but so why did he decide

743

00:33:32,310 --> 00:33:30,580

not to use that URL anymore that's that

744

00:33:34,920 --> 00:33:32,320

was that's been around a long time right

745

00:33:41,820 --> 00:33:34,930

yeah it has you know I'm not really sure

746

00:33:43,740 --> 00:33:41,830

what his thinking was on that here bud

747

00:33:46,020 --> 00:33:43,750

working you don't really have to worry

748

00:33:47,790 --> 00:33:46,030

about that until until we take calls up

749

00:33:49,290 --> 00:33:47,800

by the way we will be taking calls later

750

00:33:52,950 --> 00:33:49,300

on maybe yeah figure those of you

751  
00:33:54,750 --> 00:33:52,960  
listening live in YouTube also over when

752  
00:33:56,160 --> 00:33:54,760  
we go back live I will let everyone know

753  
00:34:04,370 --> 00:33:56,170  
it looks like 20 seconds left all right

754  
00:34:08,909 --> 00:34:07,020  
commercial-free into the top of the next

755  
00:34:11,460 --> 00:34:08,919  
hour come on I'm on the right side there

756  
00:34:14,990 --> 00:34:11,470  
right is the live feed you were on the

757  
00:34:21,169 --> 00:34:15,000  
live feed right now yes okay yeah yeah

758  
00:34:24,180 --> 00:34:21,179  
okay so he's gonna count us down back

759  
00:34:26,280 --> 00:34:24,190  
all right Martin were good until five

760  
00:34:27,330 --> 00:34:26,290  
till we'll take the network break it

761  
00:34:29,129 --> 00:34:27,340  
then we'll come back and run

762  
00:34:30,030 --> 00:34:29,139  
commercial-free for the final hour

763  
00:34:31,980 --> 00:34:30,040

sounds good

764

00:34:38,129 --> 00:34:31,990

all right stand by and I'll count you

765

00:34:44,399 --> 00:34:38,139

down yep all right here we go

766

00:34:46,889 --> 00:34:44,409

in five four three two all right welcome

767

00:34:50,909 --> 00:34:46,899

back it's Martin Willis with podcast UFO

768

00:34:56,070 --> 00:34:50,919

my guest tonight is Chris O'Brien on kgr

769

00:34:59,040 --> 00:34:56,080

a radio at kgr radio kgr a radio calm

770

00:35:02,010 --> 00:34:59,050

and so we were talking before the break

771

00:35:03,540 --> 00:35:02,020

we were chatting about race Stanford

772

00:35:06,360 --> 00:35:03,550

your visit there what what did you

773

00:35:08,940 --> 00:35:06,370

accomplish while you were there well it

774

00:35:11,730 --> 00:35:08,950

was good you know first of all visiting

775

00:35:13,720 --> 00:35:11,740

with Ray and Sheila it's been six years

776

00:35:18,550 --> 00:35:13,730

since I actually was out there at the

777

00:35:21,490 --> 00:35:18,560

house and I also got a chance to kind of

778

00:35:23,920 --> 00:35:21,500

get a dry run through what hopefully I

779

00:35:25,750 --> 00:35:23,930

will be at some point documenting I

780

00:35:28,690 --> 00:35:25,760

think in the future all his various

781

00:35:31,260 --> 00:35:28,700

collections is pre-columbian he was a

782

00:35:33,520 --> 00:35:31,270

dinosaur trace evidence his fossils

783

00:35:36,700 --> 00:35:33,530

meteorites and then of course the

784

00:35:40,030 --> 00:35:36,710

all-important as he calls it anomalous

785

00:35:43,650 --> 00:35:40,040

aerial object analytical work he's been

786

00:35:46,780 --> 00:35:43,660

working for well over a decade

787

00:35:52,180 --> 00:35:46,790

analyzing the many films that he's taken

788

00:35:54,700 --> 00:35:52,190

since 1956 of UFO events and what he's

789

00:35:56,170 --> 00:35:54,710

done is he's digitized everything and

790

00:36:00,460 --> 00:35:56,180

then put it into a frame by frame

791

00:36:03,250 --> 00:36:00,470

sequences so that he can then look at at

792

00:36:07,270 --> 00:36:03,260

the trace evidence that's left in in the

793

00:36:11,560 --> 00:36:07,280

in the sky of these events and it's just

794

00:36:14,320 --> 00:36:11,570

it's phenomenal his observational acuity

795

00:36:17,680 --> 00:36:14,330

is off the charts there's no one I've

796

00:36:21,460 --> 00:36:17,690

met that even comes close to how in you

797

00:36:25,540 --> 00:36:21,470

know insightful his his the physical

798

00:36:28,090 --> 00:36:25,550

ability to detect trace evidence whether

799

00:36:29,830 --> 00:36:28,100

it's a dinosaur track that millions of

800

00:36:32,140 --> 00:36:29,840

people have walked over and he can see

801  
00:36:34,840 --> 00:36:32,150  
or if he looks up and sees the track

802  
00:36:37,780 --> 00:36:34,850  
ways in the sky based on his his

803  
00:36:41,109 --> 00:36:37,790  
photographs and and film footage it is

804  
00:36:44,740 --> 00:36:41,119  
just dazzling and unfortunately you know

805  
00:36:48,250 --> 00:36:44,750  
I'm a pretty right guy I've got a good

806  
00:36:53,260 --> 00:36:48,260  
working knowledge of several scientific

807  
00:36:55,750 --> 00:36:53,270  
disciplines but I mean it's it takes

808  
00:37:00,210 --> 00:36:55,760  
every bit of concentration and every bit

809  
00:37:02,770 --> 00:37:00,220  
of my knowledge and and the you know the

810  
00:37:04,210 --> 00:37:02,780  
the ability to stop him and ask

811  
00:37:06,520 --> 00:37:04,220  
questions I think it's important when

812  
00:37:08,950 --> 00:37:06,530  
when he gets too far beyond me

813  
00:37:11,620 --> 00:37:08,960

instead of my eyes glazing over and me

814

00:37:13,359 --> 00:37:11,630

just kind of nodding off like some

815

00:37:17,490 --> 00:37:13,369

people I'm sure do when they when they

816

00:37:20,380 --> 00:37:17,500

see some of this very very intricate

817

00:37:22,660 --> 00:37:20,390

information of visual information iid

818

00:37:25,690 --> 00:37:22,670

try to ask questions and try to get get

819

00:37:27,789 --> 00:37:25,700

you know make sure that I'm following

820

00:37:29,380 --> 00:37:27,799

when he's talking about optical physics

821

00:37:30,789 --> 00:37:29,390

when he's talking about you know

822

00:37:33,430 --> 00:37:30,799

gravitational fields where he's talking

823

00:37:35,650 --> 00:37:33,440

about magnetic fields and in light

824

00:37:37,539 --> 00:37:35,660

spectra and how light can be polarized

825

00:37:39,069 --> 00:37:37,549

or not polarized you know I there's

826

00:37:40,630 --> 00:37:39,079

certain scientific principles that you

827

00:37:42,970 --> 00:37:40,640

you really have to have an understanding

828

00:37:46,930 --> 00:37:42,980

of in order for what he's saying to make

829

00:37:49,269 --> 00:37:46,940

sense so I'm really really dedicated to

830

00:37:52,500 --> 00:37:49,279

making sure that we have a version of

831

00:37:55,660 --> 00:37:52,510

Ray's presentation with ray actually

832

00:37:59,589 --> 00:37:55,670

explaining the information sitting there

833

00:38:01,569 --> 00:37:59,599

without ray is only gonna you know only

834

00:38:03,789 --> 00:38:01,579

a few people really are gonna be able to

835

00:38:06,099 --> 00:38:03,799

decipher what he's done there

836

00:38:07,480 --> 00:38:06,109

you know optical physicist theoretical

837

00:38:10,420 --> 00:38:07,490

physicists are gonna be able to sit down

838

00:38:12,970 --> 00:38:10,430

and understand what he's done based on

839

00:38:15,519 --> 00:38:12,980

what he's left behind let's say but with

840

00:38:17,680 --> 00:38:15,529

ray actually sitting there taking you

841

00:38:19,420 --> 00:38:17,690

through the process step by step I think

842

00:38:24,160 --> 00:38:19,430

it's very important to get that down on

843

00:38:26,200 --> 00:38:24,170

video and I'm ready you know that's one

844

00:38:29,039 --> 00:38:26,210

of the reasons why I've moved back to

845

00:38:32,890 --> 00:38:29,049

the East Coast is to is to do this and

846

00:38:33,579 --> 00:38:32,900

I've already got his life in his own

847

00:38:35,980 --> 00:38:33,589

words

848

00:38:37,720 --> 00:38:35,990

you know transcript it's it's been

849

00:38:40,299 --> 00:38:37,730

written down I've spent hundreds of

850

00:38:42,759 --> 00:38:40,309

hours with him and then transcribed our

851  
00:38:44,170 --> 00:38:42,769  
conversations about his life I was able

852  
00:38:46,380 --> 00:38:44,180  
to get all his uri geller

853  
00:38:49,839 --> 00:38:46,390  
stories which are just mind-warping

854  
00:38:52,089 --> 00:38:49,849  
which I never did get prior to this he

855  
00:38:53,829 --> 00:38:52,099  
really care actually wanted him to tour

856  
00:38:57,339 --> 00:38:53,839  
with him yeah yeah yeah to be his

857  
00:39:00,670 --> 00:38:57,349  
battery or his his when the two of them

858  
00:39:02,890 --> 00:39:00,680  
got together some pretty amazing stuff

859  
00:39:05,829 --> 00:39:02,900  
very very well documented too I might

860  
00:39:08,349 --> 00:39:05,839  
add some pretty amazing stuff took place

861  
00:39:10,660 --> 00:39:08,359  
and and initially the book was only

862  
00:39:13,720 --> 00:39:10,670  
going to be as you Falah djegal history

863  
00:39:16,749 --> 00:39:13,730

and stories but but now we're we're

864

00:39:19,210 --> 00:39:16,759

we're branching off a little bit Carl in

865

00:39:22,180 --> 00:39:19,220

the chatroom by the way I will take a

866

00:39:26,099 --> 00:39:22,190

look at the chatroom on YouTube and I

867

00:39:29,529 --> 00:39:26,109

have Evan is over there on the K GRA

868

00:39:31,180 --> 00:39:29,539

radio over he's over there at the chat

869

00:39:33,880 --> 00:39:31,190

if someone wants to communicate a

870

00:39:36,339 --> 00:39:33,890

question to get to Chris so Carl here on

871

00:39:38,800 --> 00:39:36,349

YouTube wants to know do you have any

872

00:39:41,230 --> 00:39:38,810

latest what's your latest news on cattle

873

00:39:45,100 --> 00:39:41,240

relations have you do you keep your your

874

00:39:47,530 --> 00:39:45,110

thumb on that yeah I do there's a couple

875

00:39:50,260 --> 00:39:47,540

of interesting chat rooms there's a

876

00:39:54,130 --> 00:39:50,270

Facebook a closed Facebook page and

877

00:39:57,880 --> 00:39:54,140

anomalous animal deaths and you know of

878

00:40:00,880 --> 00:39:57,890

course we do have a lease network of if

879

00:40:02,320 --> 00:40:00,890

you call it that of of investigators so

880

00:40:05,020 --> 00:40:02,330

there's there's not many people out

881

00:40:06,820 --> 00:40:05,030

there that are willing to to devote the

882

00:40:10,900 --> 00:40:06,830

time and energy it takes to investigate

883

00:40:12,250 --> 00:40:10,910

these cases and it seems that most of

884

00:40:15,340 --> 00:40:12,260

the people that are involved in this

885

00:40:17,320 --> 00:40:15,350

particular realm of investigation have

886

00:40:19,300 --> 00:40:17,330

already come to the conclusion a Lien's

887

00:40:21,910 --> 00:40:19,310

are responsible for all of this and and

888

00:40:24,550 --> 00:40:21,920

that's it I mean if you even argue with

889

00:40:28,600 --> 00:40:24,560

that you're the enemy you you are you

890

00:40:30,730 --> 00:40:28,610

know you know get away get away you know

891

00:40:33,610 --> 00:40:30,740

you're not buying into the alien meme

892

00:40:36,460 --> 00:40:33,620

well I think aliens have possibly the

893

00:40:42,670 --> 00:40:36,470

least likely explanation there's only

894

00:40:46,750 --> 00:40:42,680

maybe 7% maybe 10% of the data would

895

00:40:49,810 --> 00:40:46,760

support a UFO connection there's very

896

00:40:54,220 --> 00:40:49,820

little if any information pertaining to

897

00:40:56,560 --> 00:40:54,230

aliens one or two claims over 60 years I

898

00:41:02,280 --> 00:40:56,570

think the majority of cases are actually

899

00:41:06,280 --> 00:41:02,290

a a very stealthy well orchestrated

900

00:41:08,560 --> 00:41:06,290

monitoring of the environment and of our

901  
00:41:10,980 --> 00:41:08,570  
food chain I think there's a tremendous

902  
00:41:13,750 --> 00:41:10,990  
fear within the beef industry within the

903  
00:41:16,030 --> 00:41:13,760  
the Centers for Disease Control possibly

904  
00:41:18,430 --> 00:41:16,040  
the National Institutes of Health some

905  
00:41:22,030 --> 00:41:18,440  
sort of quasi group along those lines

906  
00:41:24,910 --> 00:41:22,040  
may be in concert with the beef industry

907  
00:41:26,980 --> 00:41:24,920  
that's deathly afraid of the outbreak of

908  
00:41:28,780 --> 00:41:26,990  
mad cow disease and and then the

909  
00:41:31,720 --> 00:41:28,790  
resulting cuts failed yakov's disease in

910  
00:41:34,330 --> 00:41:31,730  
humans of you know possibly blossoming

911  
00:41:36,880 --> 00:41:34,340  
in the food chain so I think if you if

912  
00:41:39,790 --> 00:41:36,890  
you look at the work that's been done by

913  
00:41:41,530 --> 00:41:39,800

Colm Kelleher who you know for many

914

00:41:42,580 --> 00:41:41,540

years was the managing director for the

915

00:41:46,210 --> 00:41:42,590

National Institute for discovery

916

00:41:48,430 --> 00:41:46,220

discovery Sciences mids with Robert

917

00:41:51,340 --> 00:41:48,440

Bigelow spent quite a bit of time

918

00:41:52,570 --> 00:41:51,350

coordinating all the investigations up

919

00:41:57,070 --> 00:41:52,580

on the skin marker ran

920

00:41:59,560 --> 00:41:57,080

and you win a basin up in Utah comer a

921

00:42:03,070 --> 00:41:59,570

very very important book that I I'm so

922

00:42:04,990 --> 00:42:03,080

bummed was so overlooked and it called

923

00:42:07,780 --> 00:42:05,000

brain trust and and basically he laid

924

00:42:11,410 --> 00:42:07,790

out the the proposition that mad cow

925

00:42:13,810 --> 00:42:11,420

disease is the possible motivating

926  
00:42:15,580 --> 00:42:13,820  
factor behind quite a number of cattle

927  
00:42:17,470 --> 00:42:15,590  
mutilations I'm not saying that's the

928  
00:42:18,910 --> 00:42:17,480  
end-all to be all that's not that one

929  
00:42:20,860 --> 00:42:18,920  
size fits all answer

930  
00:42:25,270 --> 00:42:20,870  
I have cases going all the way back to

931  
00:42:27,610 --> 00:42:25,280  
1605 and 1606 and in you know during the

932  
00:42:29,980 --> 00:42:27,620  
early part of the reign of James the

933  
00:42:32,170 --> 00:42:29,990  
first of England you know right when

934  
00:42:34,420 --> 00:42:32,180  
Shakespeare was writing Macbeth and and

935  
00:42:36,400 --> 00:42:34,430  
James was rewriting the Christian Bible

936  
00:42:37,900 --> 00:42:36,410  
there were outbreaks of hundreds and

937  
00:42:41,710 --> 00:42:37,910  
hundreds of sheep mutilations in and

938  
00:42:44,170 --> 00:42:41,720

around London I did finally was able to

939

00:42:46,950 --> 00:42:44,180

confirm that so so this is a true

940

00:42:49,480 --> 00:42:46,960

mystery there is a high strange possibly

941

00:42:51,610 --> 00:42:49,490

supernatural or preternatural element to

942

00:42:53,620 --> 00:42:51,620

it but but those cases are extremely

943

00:42:55,720 --> 00:42:53,630

rare compared to to the many many

944

00:42:58,510 --> 00:42:55,730

thousands and thousands of what I feel

945

00:43:01,540 --> 00:42:58,520

are human perpetrated cases last time

946

00:43:04,410 --> 00:43:01,550

that you were on the show you really

947

00:43:07,180 --> 00:43:04,420

wanted to make me become a vegetarian

948

00:43:10,150 --> 00:43:07,190

you're talking about the beef industry

949

00:43:13,660 --> 00:43:10,160

you know the methane caused by raising

950

00:43:16,240 --> 00:43:13,670

beef now tell me if I'm wrong that you

951  
00:43:18,250 --> 00:43:16,250  
said there's up to three hundred cows in

952  
00:43:20,350 --> 00:43:18,260  
a single McDonald's hamburger did you

953  
00:43:23,050 --> 00:43:20,360  
say well they admit to a hundred but

954  
00:43:25,540 --> 00:43:23,060  
there's been there's been with some

955  
00:43:28,720 --> 00:43:25,550  
studies that would suggest it could be

956  
00:43:30,640 --> 00:43:28,730  
as many as a thousand cows and say and

957  
00:43:33,220 --> 00:43:30,650  
if any of them have nerve tissue that's

958  
00:43:35,020 --> 00:43:33,230  
where the prions hang out and you know

959  
00:43:37,090 --> 00:43:35,030  
if there's a downer cow they used to

960  
00:43:39,010 --> 00:43:37,100  
throw those into the food chain when a

961  
00:43:40,210 --> 00:43:39,020  
cow was shaking and couldn't stand up

962  
00:43:43,090 --> 00:43:40,220  
and was twitchy now

963  
00:43:46,780 --> 00:43:43,100

well like dementia like dementia in

964

00:43:49,780 --> 00:43:46,790

humans these these animals are thrown in

965

00:43:53,230 --> 00:43:49,790

in the pie now they're put into pet

966

00:43:56,290 --> 00:43:53,240

foods you know if you use your cutlery

967

00:43:58,750 --> 00:43:56,300

to take the dog food out of the can or

968

00:44:00,340 --> 00:43:58,760

the cat food out of the can it doesn't

969

00:44:02,080 --> 00:44:00,350

matter how many times you sterilize

970

00:44:05,140 --> 00:44:02,090

those things there could still be prions

971

00:44:06,460 --> 00:44:05,150

there because you can't kill them it

972

00:44:10,599 --> 00:44:06,470

takes about 2,500

973

00:44:14,260 --> 00:44:10,609

agrees to turn off a prion so you know

974

00:44:16,500 --> 00:44:14,270

autoclaves and sterilization and even

975

00:44:19,960 --> 00:44:16,510

chlorine bleach can't do away with

976  
00:44:23,410 --> 00:44:19,970  
brains yeah so just the words otherwise

977  
00:44:28,390 --> 00:44:23,420  
yeah you saw the little chihuahua to try

978  
00:44:32,080 --> 00:44:28,400  
to I did eats better than human race

979  
00:44:35,230 --> 00:44:32,090  
probably most Pepe Nair could look at

980  
00:44:39,120 --> 00:44:35,240  
that yeah I used to do make my own cat

981  
00:44:42,370 --> 00:44:39,130  
food yeah I get a pound of Turkey

982  
00:44:45,339 --> 00:44:42,380  
alfalfa sprouts chicken livers a little

983  
00:44:48,790 --> 00:44:45,349  
squash Wow grind it all up and then do

984  
00:44:50,680 --> 00:44:48,800  
little single serving things and freeze

985  
00:44:53,109 --> 00:44:50,690  
it and and then and then one day

986  
00:44:55,900 --> 00:44:53,119  
somebody was house-sitting and they ran

987  
00:44:57,849 --> 00:44:55,910  
out of our homemade cat food and and put

988  
00:45:01,420 --> 00:44:57,859

down some Friskies some dry food and

989

00:45:03,190 --> 00:45:01,430

they would never touch that well that's

990

00:45:06,250 --> 00:45:03,200

the good stuff again ever

991

00:45:08,349 --> 00:45:06,260

yeah someone WOD stir wants to know have

992

00:45:11,640 --> 00:45:08,359

you seen a map that overlays the

993

00:45:13,470 --> 00:45:11,650

mutilations with atomic testing yes yes

994

00:45:16,839 --> 00:45:13,480

[Music]

995

00:45:19,540 --> 00:45:16,849

absolutely David Perkins my mentor who's

996

00:45:21,579 --> 00:45:19,550

working diligently on a follow-up to

997

00:45:23,440 --> 00:45:21,589

stocking the herd stocking the herd has

998

00:45:26,109 --> 00:45:23,450

all the data and it has 12 different

999

00:45:29,290 --> 00:45:26,119

databases correlated together and has

1000

00:45:31,329 --> 00:45:29,300

all the facts I had that's it's a 600

1001

00:45:33,550 --> 00:45:31,339

page book half a million words I had to

1002

00:45:37,570 --> 00:45:33,560

take 300 pages out because there wasn't

1003

00:45:39,670 --> 00:45:37,580

enough room that is going to be it's

1004

00:45:42,670 --> 00:45:39,680

kind of the basis for a follow-up book

1005

00:45:43,839 --> 00:45:42,680

that's gonna analyze all the data we're

1006

00:45:46,870 --> 00:45:43,849

not sure we're gonna call it stalking

1007

00:45:49,120 --> 00:45:46,880

the stalkers mute speak we have a couple

1008

00:45:51,640 --> 00:45:49,130

of working titles but but David Perkins

1009

00:45:54,940 --> 00:45:51,650

might code my co-writer and my dear dear

1010

00:45:59,079 --> 00:45:54,950

dear friend and mentor he came up with a

1011

00:46:01,680 --> 00:45:59,089

theory and an observation in 1979 that

1012

00:46:04,540 --> 00:46:01,690

if you take a map of above-ground

1013

00:46:07,270 --> 00:46:04,550

pollution from a hundred above-ground

1014

00:46:09,460 --> 00:46:07,280

nuclear tests at the Nevada Test Site

1015

00:46:11,380 --> 00:46:09,470

you look at the wind patterns and how

1016

00:46:14,200 --> 00:46:11,390

that nuclear radiation has been

1017

00:46:15,609 --> 00:46:14,210

distributed across the middle and

1018

00:46:18,160 --> 00:46:15,619

eastern portions of the United States

1019

00:46:19,510 --> 00:46:18,170

and then you take a map of high

1020

00:46:22,960 --> 00:46:19,520

incidence of cat Amelie

1021

00:46:25,000 --> 00:46:22,970

and overlay it's a perfect match it's

1022

00:46:29,350 --> 00:46:25,010

frightening and you know I've always

1023

00:46:32,260 --> 00:46:29,360

always wondered why California you know

1024

00:46:34,990 --> 00:46:32,270

parts of western Nevada or Washington

1025

00:46:37,870 --> 00:46:35,000

Oregon British Columbia they have a few

1026  
00:46:39,460 --> 00:46:37,880  
cases but relatively speaking to what's

1027  
00:46:42,490 --> 00:46:39,470  
going on in Kansas Nebraska and New

1028  
00:46:44,170 --> 00:46:42,500  
Mexico Colorado there's hundreds and

1029  
00:46:47,290 --> 00:46:44,180  
hundreds of cases for every one case

1030  
00:46:50,170 --> 00:46:47,300  
that you have upwind of the Nevada Test

1031  
00:46:54,000 --> 00:46:50,180  
Site so another thing that we've found

1032  
00:46:57,960 --> 00:46:54,010  
is that radiation in the environment and

1033  
00:47:02,080 --> 00:46:57,970  
levels of copper in the cattles blood

1034  
00:47:03,790 --> 00:47:02,090  
can kick off mad cow disease were more

1035  
00:47:07,090 --> 00:47:03,800  
prevalent it could be more prevalent in

1036  
00:47:09,310 --> 00:47:07,100  
animals that have been grazing on with

1037  
00:47:14,050 --> 00:47:09,320  
residual radiation in their environment

1038  
00:47:17,290 --> 00:47:14,060

so the combination of copper and and

1039

00:47:19,920 --> 00:47:17,300

radiation in the environment makes

1040

00:47:25,030 --> 00:47:19,930

cattle more prone to developing

1041

00:47:28,390 --> 00:47:25,040

misfolded proteins or prions now going

1042

00:47:30,430 --> 00:47:28,400

back to the San Luis Valley I lived in

1043

00:47:32,950 --> 00:47:30,440

Colorado for three years but it was it

1044

00:47:33,610 --> 00:47:32,960

was in Longmont you know I don't know if

1045

00:47:36,460 --> 00:47:33,620

you know where that is

1046

00:47:39,070 --> 00:47:36,470

yeah so what part of the state that's

1047

00:47:41,110 --> 00:47:39,080

down is a down toward Durango where is

1048

00:47:43,450 --> 00:47:41,120

no that's West Western it's a western

1049

00:47:45,820 --> 00:47:43,460

slope right in the middle of the state

1050

00:47:48,940 --> 00:47:45,830

if you go down to Taos New Mexico yeah

1051  
00:47:50,740 --> 00:47:48,950  
and stand you know right there let's say

1052  
00:47:52,900 --> 00:47:50,750  
stand just north of town there at the

1053  
00:47:55,330 --> 00:47:52,910  
Pueblo and look north you'll see this

1054  
00:47:58,690 --> 00:47:55,340  
huge football shape valley it's 140

1055  
00:48:00,420 --> 00:47:58,700  
miles long that extends North Taos is at

1056  
00:48:02,860 --> 00:48:00,430  
the extreme southern end of the valley

1057  
00:48:04,000 --> 00:48:02,870  
geographically and then the valley the

1058  
00:48:08,170 --> 00:48:04,010  
valley extends all the way up into

1059  
00:48:10,480 --> 00:48:08,180  
Colorado 140 miles so that's that's the

1060  
00:48:13,000 --> 00:48:10,490  
San Luis Valley

1061  
00:48:17,350 --> 00:48:13,010  
now do you know is it's a still a hotbed

1062  
00:48:20,350 --> 00:48:17,360  
right now yeah right now yeah last

1063  
00:48:22,810 --> 00:48:20,360

September we had a bunch of reports two

1064

00:48:27,100 --> 00:48:22,820

weeks was hot and heavy in March that

1065

00:48:30,370 --> 00:48:27,110

were a number of reports the one mystic

1066

00:48:32,560 --> 00:48:30,380

mountain site on Facebook has been

1067

00:48:33,109 --> 00:48:32,570

talking about some recent reports around

1068

00:48:37,670 --> 00:48:33,119

the town

1069

00:48:41,450 --> 00:48:37,680

Blanc my my guy down in meseta

1070

00:48:44,239 --> 00:48:41,460

Thomas pay has had a number of reports

1071

00:48:46,069 --> 00:48:44,249

that he's seen you have to remember

1072

00:48:47,870 --> 00:48:46,079

because it's so prevalent there people

1073

00:48:51,200 --> 00:48:47,880

have gotten used to it and it's normal

1074

00:48:53,359 --> 00:48:51,210

for them dating back how far do you go

1075

00:48:56,989 --> 00:48:53,369

back in history where people been

1076  
00:49:00,999 --> 00:48:56,999  
reporting on the earliest that I can

1077  
00:49:03,170 --> 00:49:01,009  
find a report is 1777 and the first

1078  
00:49:05,509 --> 00:49:03,180  
Spanish governor of the New Mexico

1079  
00:49:08,299 --> 00:49:05,519  
Territory was chasing a Comanche war

1080  
00:49:09,920 --> 00:49:08,309  
chief Quinta Verde up into the wherefore

1081  
00:49:12,589 --> 00:49:09,930  
no Valley and as he passed by for

1082  
00:49:14,359 --> 00:49:12,599  
Garland and made the turn to go around

1083  
00:49:16,910 --> 00:49:14,369  
to the east of the San Luis Valley he

1084  
00:49:19,880 --> 00:49:16,920  
noticed up around Blanca peak which is

1085  
00:49:21,049 --> 00:49:19,890  
the highest mountain group in the on the

1086  
00:49:23,299 --> 00:49:21,059  
eastern side of the valley there he

1087  
00:49:25,009 --> 00:49:23,309  
noticed strange lights and and his

1088  
00:49:28,999 --> 00:49:25,019

troops reported this weird kind of

1089

00:49:32,210 --> 00:49:29,009

nauseating sort of humming sound or deep

1090

00:49:34,130 --> 00:49:32,220

vibration in the ground so they'd like

1091

00:49:36,249 --> 00:49:34,140

the Taos home is what people would call

1092

00:49:40,489 --> 00:49:36,259

it later I think wow is there any

1093

00:49:43,549 --> 00:49:40,499

geological aspects that are unique like

1094

00:49:45,410 --> 00:49:43,559

for instance at Brown Mountain with the

1095

00:49:49,910 --> 00:49:45,420

although sightings of the air has a real

1096

00:49:53,420 --> 00:49:49,920

high copper content of that particular

1097

00:49:55,339 --> 00:49:53,430

mountain oh yeah yeah there's quite a

1098

00:49:57,289 --> 00:49:55,349

quite a note quite it's quite a number

1099

00:49:58,910 --> 00:49:57,299

of interesting features there first of

1100

00:50:00,890 --> 00:49:58,920

all it's the second-largest Rift Valley

1101  
00:50:03,829 --> 00:50:00,900  
in the world where's the Great Rift

1102  
00:50:07,220 --> 00:50:03,839  
Valley in Africa which goes up you know

1103  
00:50:09,229 --> 00:50:07,230  
the eastern part of Africa and it's

1104  
00:50:10,729 --> 00:50:09,239  
where some of the oldest remains of

1105  
00:50:14,859 --> 00:50:10,739  
humans have been found in Olduvai Gorge

1106  
00:50:18,229 --> 00:50:14,869  
in that area of Ethiopia that that that

1107  
00:50:22,279 --> 00:50:18,239  
that is the largest Rift Valley the the

1108  
00:50:24,470 --> 00:50:22,289  
Rio Grande Rift Valley goes from south

1109  
00:50:27,200 --> 00:50:24,480  
of El Paso all the way up through New

1110  
00:50:29,779 --> 00:50:27,210  
Mexico into the center of Colorado

1111  
00:50:32,839 --> 00:50:29,789  
around Leadville so that's a continuous

1112  
00:50:34,970 --> 00:50:32,849  
rift it's a it's a it's a plate in the

1113  
00:50:36,769 --> 00:50:34,980

North American plate it's where two

1114

00:50:40,309 --> 00:50:36,779

sections of the North American plate

1115

00:50:43,700 --> 00:50:40,319

come together and so occasionally you'll

1116

00:50:44,749 --> 00:50:43,710

have super cold on super cold nights

1117

00:50:46,760 --> 00:50:44,759

with with like

1118

00:50:49,130 --> 00:50:46,770

single-digit humidity

1119

00:50:51,680 --> 00:50:49,140

I've seen this a couple times you have

1120

00:50:53,270 --> 00:50:51,690

the piezoelectric quartz discharging up

1121

00:50:56,090 --> 00:50:53,280

into the atmosphere from the tops of the

1122

00:51:00,950 --> 00:50:56,100

mountains these these weird white like

1123

00:51:02,930 --> 00:51:00,960

they snake like Kundalini rushes going

1124

00:51:05,330 --> 00:51:02,940

up into the sky that are pretty

1125

00:51:07,670 --> 00:51:05,340

interesting right and then there's two

1126  
00:51:10,520 --> 00:51:07,680  
billion dollars worth of methane sitting

1127  
00:51:12,500 --> 00:51:10,530  
out just west and north of the Great

1128  
00:51:13,790 --> 00:51:12,510  
Sand Dunes and occasionally the

1129  
00:51:17,780 --> 00:51:13,800  
conditions are right some of that

1130  
00:51:19,370 --> 00:51:17,790  
methane gas will will illuminate and I

1131  
00:51:21,200 --> 00:51:19,380  
think that's fooled quite a number of

1132  
00:51:26,200 --> 00:51:21,210  
people over the years

1133  
00:51:28,910 --> 00:51:26,210  
you also have interesting correlation in

1134  
00:51:31,130 --> 00:51:28,920  
close proximity between the Earth's

1135  
00:51:33,380 --> 00:51:31,140  
magnetic field in other words there are

1136  
00:51:35,810 --> 00:51:33,390  
areas where the magnetic field is that

1137  
00:51:37,490 --> 00:51:35,820  
maximum strength and then areas where

1138  
00:51:39,260 --> 00:51:37,500

it's at minimum field strength and

1139

00:51:41,720 --> 00:51:39,270

they're right buttered up against one

1140

00:51:43,700 --> 00:51:41,730

another and it seems where you have the

1141

00:51:45,470 --> 00:51:43,710

the close proximity between minimum

1142

00:51:47,600 --> 00:51:45,480

maximum field strength there's like

1143

00:51:50,270 --> 00:51:47,610

seems and that seems to be the corridors

1144

00:51:53,240 --> 00:51:50,280

where a lot of our activity are you

1145

00:51:55,670 --> 00:51:53,250

falah juh collectivity tends to be

1146

00:51:59,540 --> 00:51:55,680

mostly reported along this those

1147

00:52:00,740 --> 00:51:59,550

demarcation zone dmz if you will so you

1148

00:52:02,360 --> 00:52:00,750

know and you also have the government

1149

00:52:04,190 --> 00:52:02,370

they have the la Vida military

1150

00:52:05,990 --> 00:52:04,200

operations area just over the mountains

1151  
00:52:08,600 --> 00:52:06,000  
to the east and they're constantly

1152  
00:52:11,330 --> 00:52:08,610  
flying all kinds of weird you know

1153  
00:52:14,030 --> 00:52:11,340  
conventional you know lit up like

1154  
00:52:16,310 --> 00:52:14,040  
something from outer space conventional

1155  
00:52:19,910 --> 00:52:16,320  
craft and then probably some you know

1156  
00:52:22,070 --> 00:52:19,920  
black black project craft as well if you

1157  
00:52:23,270 --> 00:52:22,080  
want to you know get into all that kind

1158  
00:52:25,370 --> 00:52:23,280  
of stuff you got to read my books

1159  
00:52:28,340 --> 00:52:25,380  
because I a little reluctant to talk

1160  
00:52:31,970 --> 00:52:28,350  
about the government stuff on the on the

1161  
00:52:38,540 --> 00:52:31,980  
air yeah we're going to break in just

1162  
00:52:41,390 --> 00:52:38,550  
two minutes so as far as that - now did

1163  
00:52:43,250 --> 00:52:41,400

you first move there because you're

1164

00:52:46,910 --> 00:52:43,260

interested or did you get interested

1165

00:52:51,710 --> 00:52:46,920

when you move there no I moved to Santa

1166

00:52:54,620 --> 00:52:51,720

Fe in 89 and I just happened to witness

1167

00:52:58,580 --> 00:52:54,630

a fatal car accident and two pedestrian

1168

00:52:59,500 --> 00:52:58,590

yes from the crazy drivers there in

1169

00:53:02,290 --> 00:52:59,510

Santa Fe

1170

00:53:03,760 --> 00:53:02,300

and I just took it as the universe

1171

00:53:06,820 --> 00:53:03,770

saying that that wasn't quite the place

1172

00:53:08,950 --> 00:53:06,830

for me and in Deborah and and so I had

1173

00:53:11,200 --> 00:53:08,960

friends that had a big four-bedroom

1174

00:53:13,480 --> 00:53:11,210

house up in the in the little town of

1175

00:53:15,010 --> 00:53:13,490

crest stone and up in the San Luis

1176  
00:53:17,590 --> 00:53:15,020  
Valley and they said hey once you come

1177  
00:53:20,530 --> 00:53:17,600  
up here and check it out and so we went

1178  
00:53:22,930 --> 00:53:20,540  
up there just to check it out and we

1179  
00:53:25,510 --> 00:53:22,940  
ended I ended up staying for 13 years

1180  
00:53:27,010 --> 00:53:25,520  
and some of the the most you know it's

1181  
00:53:27,790 --> 00:53:27,020  
one of the most remote areas in North

1182  
00:53:30,250 --> 00:53:27,800  
America

1183  
00:53:36,540 --> 00:53:30,260  
I mean it's 60 miles to near a stoplight

1184  
00:53:39,610 --> 00:53:36,550  
from where I lived oh yeah this is like

1185  
00:53:42,550 --> 00:53:39,620  
we have we have a stoplight I think yeah

1186  
00:53:44,740 --> 00:53:42,560  
well it's not real far away anyway all

1187  
00:53:49,240 --> 00:53:44,750  
right so we're coming up on the break

1188  
00:53:52,060 --> 00:53:49,250

and we'll come back and a bit and we're

1189

00:53:53,680 --> 00:53:52,070

probably gonna ask you about your

1190

00:53:58,450 --> 00:53:53,690

project too that you're thinking about

1191

00:54:00,010 --> 00:53:58,460

snoring yeah all right so we are coming

1192

00:54:04,330 --> 00:54:00,020

up in the break this is Martin Willis

1193

00:54:08,350 --> 00:54:04,340

with podcast UFO and we are in kite kgr

1194

00:54:10,180 --> 00:54:08,360

a radio and we are going to take a break

1195

00:54:18,010 --> 00:54:10,190

so hang in stay with us we'll be back

1196

00:54:23,560 --> 00:54:18,020

all right Martin we're clear and we've

1197

00:54:27,730 --> 00:54:23,570

got let me see one two three almost four

1198

00:54:33,090 --> 00:54:27,740

minutes of stop set program and plus the

1199

00:54:37,180 --> 00:54:33,100

bumper so okay all right very good

1200

00:54:38,920 --> 00:54:37,190

sounds good race so here we're at we

1201

00:54:41,290 --> 00:54:38,930

only have this break and then that's it

1202

00:54:43,600 --> 00:54:41,300

the rest is live show so when we come

1203

00:54:45,310 --> 00:54:43,610

back for those of listening on YouTube

1204

00:54:48,640 --> 00:54:45,320

when we come back we'll take phone calls

1205

00:54:52,810 --> 00:54:48,650

and if you want to write that number

1206

00:54:56,890 --> 00:54:52,820

down get ready with your pen it is six

1207

00:54:59,110 --> 00:54:56,900

oh three nine six seven four OH three Oh

1208

00:55:00,760 --> 00:54:59,120

glad to see you in the chatroom ba

1209

00:55:02,530 --> 00:55:00,770

because I know when I was on Wednesday

1210

00:55:04,630 --> 00:55:02,540

night she couldn't get there too late

1211

00:55:09,190 --> 00:55:04,640

so good to see this must be your easy

1212

00:55:10,750 --> 00:55:09,200

night for you or you get off early so on

1213

00:55:12,400 --> 00:55:10,760

this break

1214

00:55:13,780 --> 00:55:12,410

what can we talk about that you don't

1215

00:55:16,600 --> 00:55:13,790

really want to talk about in the Regular

1216

00:55:18,940 --> 00:55:16,610

Show do you want to continue talking

1217

00:55:20,800 --> 00:55:18,950

about para cast you just decided not to

1218

00:55:22,270 --> 00:55:20,810

do that but now you're going to be on

1219

00:55:27,420 --> 00:55:22,280

with is it Tim

1220

00:55:30,430 --> 00:55:27,430

Ted Banda yeah yeah well it's yeah I

1221

00:55:32,980 --> 00:55:30,440

there are a number of reasons why I

1222

00:55:34,840 --> 00:55:32,990

finally left the show and and I'm sure

1223

00:55:38,620 --> 00:55:34,850

people that know me and know the show

1224

00:55:40,630 --> 00:55:38,630

and know the trials and tribulations

1225

00:55:44,950 --> 00:55:40,640

that have gone into my involvement with

1226

00:55:48,850 --> 00:55:44,960

the show I don't want to I don't want to

1227

00:55:51,340 --> 00:55:48,860

belabor any anything or you know cast

1228

00:55:54,430 --> 00:55:51,350

aspersions are complaining or [h\_\_\h] or

1229

00:55:56,230 --> 00:55:54,440

moan or whatever but but I just you know

1230

00:55:59,080 --> 00:55:56,240

I felt it for the amount of work that I

1231

00:56:04,180 --> 00:55:59,090

was putting in there I wasn't seeing the

1232

00:56:06,100 --> 00:56:04,190

kind of I don't know it just wasn't

1233

00:56:08,140 --> 00:56:06,110

worth my time

1234

00:56:12,190 --> 00:56:08,150

for the amount of effort and energy that

1235

00:56:13,990 --> 00:56:12,200

it takes to do a two-hour show it just

1236

00:56:17,590 --> 00:56:14,000

you know it was too much work for too

1237

00:56:19,840 --> 00:56:17,600

little coming back and and you know it

1238

00:56:22,510 --> 00:56:19,850

just again I think the main thing though

1239

00:56:27,100 --> 00:56:22,520

is that I really want to move forward in

1240

00:56:28,960 --> 00:56:27,110

the type of broadcasting scenario I want

1241

00:56:31,690 --> 00:56:28,970

to be multi-platform I want to be

1242

00:56:35,100 --> 00:56:31,700

talking to you know to 18 to 35 year

1243

00:56:38,140 --> 00:56:35,110

olds the baby boomers can argue about

1244

00:56:40,960 --> 00:56:38,150

whether UFOs exist all they want the

1245

00:56:42,880 --> 00:56:40,970

kids know they do they're not interested

1246

00:56:44,770 --> 00:56:42,890

in sitting there and listening to you

1247

00:56:48,400 --> 00:56:44,780

know war stories featuring Donald Keough

1248

00:56:51,190 --> 00:56:48,410

and Jim Mosely these are you know people

1249

00:56:52,930 --> 00:56:51,200

from you know ancient history even their

1250

00:56:56,320 --> 00:56:52,940

parents would think that they were

1251  
00:56:59,820 --> 00:56:56,330  
old old old news so I am looking to do

1252  
00:57:03,460 --> 00:56:59,830  
something much more cool cutting-edge

1253  
00:57:04,900 --> 00:57:03,470  
and in less old school

1254  
00:57:10,530 --> 00:57:04,910  
I hear you say it was gonna be just like

1255  
00:57:14,710 --> 00:57:13,090  
yeah absolutely I mean I can have

1256  
00:57:17,530 --> 00:57:14,720  
cliffhangers and you know you can wait

1257  
00:57:22,480 --> 00:57:17,540  
to the next half hour show absolutely

1258  
00:57:24,490 --> 00:57:22,490  
Ill I think that if you can't if you

1259  
00:57:26,590 --> 00:57:24,500  
can't get a point across

1260  
00:57:29,830 --> 00:57:26,600  
and a half hour whatever that point

1261  
00:57:31,900 --> 00:57:29,840  
might be the kids aren't gonna be

1262  
00:57:36,040 --> 00:57:31,910  
interested yeah well I know the

1263  
00:57:38,500 --> 00:57:36,050

attention span is is short you know it's

1264

00:57:40,900 --> 00:57:38,510

just in the reason to be fair the reason

1265

00:57:43,750 --> 00:57:40,910

is there's so much information all the

1266

00:57:46,240 --> 00:57:43,760

time being blasted had everyone's way

1267

00:57:47,980 --> 00:57:46,250

that's I totally understand why the

1268

00:57:49,810 --> 00:57:47,990

two-minute video and YouTube is the one

1269

00:57:53,920 --> 00:57:49,820

that people watch instead of like you

1270

00:57:55,810 --> 00:57:53,930

know 4-minute well in again it our our

1271

00:57:57,940 --> 00:57:55,820

approach is gonna be much different

1272

00:58:00,580 --> 00:57:57,950

we're gonna have people out and you know

1273

00:58:03,030 --> 00:58:00,590

Ted's gonna be out in the field it's

1274

00:58:05,700 --> 00:58:03,040

gonna be story driven it's all gonna

1275

00:58:10,630 --> 00:58:05,710

everything's gonna be kicking back to a

1276

00:58:12,520 --> 00:58:10,640

you know a regional based database I

1277

00:58:17,380 --> 00:58:12,530

think race aren't we going in to the

1278

00:58:25,240 --> 00:58:17,390

back to the show now we've got about 28

1279

00:58:26,980 --> 00:58:25,250

seconds 28 seconds okay very good so not

1280

00:58:28,510 --> 00:58:26,990

much we can say in 28 seconds so just

1281

00:58:29,170 --> 00:58:28,520

quickly where is someone gonna be able

1282

00:58:31,600 --> 00:58:29,180

to find them

1283

00:58:33,250 --> 00:58:31,610

well we we don't have an actual web

1284

00:58:36,220 --> 00:58:33,260

presence yet but the show is gonna be

1285

00:58:37,660 --> 00:58:36,230

called out there and and we're

1286

00:58:39,640 --> 00:58:37,670

definitely gonna be out there we're

1287

00:58:43,650 --> 00:58:39,650

gonna be covering all aspects of the

1288

00:58:46,720 --> 00:58:43,660

paranormal and and also of consciousness

1289

00:58:48,490 --> 00:58:46,730

psychedelic studies we're gonna be

1290

00:58:49,690 --> 00:58:48,500

branching out and and looking at all

1291

00:58:54,040 --> 00:58:49,700

this stuff when they're a big umbrella

1292

00:58:54,790 --> 00:58:54,050

okay all right you all said Martin yeah

1293

00:58:57,730 --> 00:58:54,800

we're all set here

1294

00:59:02,130 --> 00:58:57,740

yeah Chris you ready yep all right dude

1295

00:59:04,140 --> 00:59:02,140

gentlemen here we go in five four three

1296

00:59:06,760 --> 00:59:04,150

two

1297

00:59:09,160 --> 00:59:06,770

welcome back everyone this is Martin

1298

00:59:14,050 --> 00:59:09,170

Willis with podcast UFO my guest tonight

1299

00:59:17,820 --> 00:59:14,060

is Chris O'Brien in studio and I'm glad

1300

00:59:20,590 --> 00:59:17,830

to have him here and before the break I

1301  
00:59:22,930 --> 00:59:20,600  
can't hack where we talk about San Luis

1302  
00:59:26,410 --> 00:59:22,940  
Valley I can I don't know we change the

1303  
00:59:28,300 --> 00:59:26,420  
subject so many times since then but we

1304  
00:59:32,530 --> 00:59:28,310  
are now going to be taking calls if

1305  
00:59:34,150 --> 00:59:32,540  
anyone would like to call in and that

1306  
00:59:37,810 --> 00:59:34,160  
number I'm just going to announce it for

1307  
00:59:38,200 --> 00:59:37,820  
those over at kgr a radio and also evan

1308  
00:59:41,320 --> 00:59:38,210  
will

1309  
00:59:44,080 --> 00:59:41,330  
the number there and on YouTube it'll be

1310  
00:59:47,830 --> 00:59:44,090  
up on your screen screen and that's 603

1311  
00:59:50,080 --> 00:59:47,840  
9 6 7 400 300 if anyone would like to

1312  
00:59:52,990 --> 00:59:50,090  
call in we are getting some questions in

1313  
00:59:55,150 --> 00:59:53,000

the chat I noticed and I will try to get

1314

00:59:59,590 --> 00:59:55,160

to them but of course we always like to

1315

01:00:02,080 --> 00:59:59,600

have people call in and someone posted

1316

01:00:04,030 --> 01:00:02,090

this question over at kgr a radio and

1317

01:00:05,650 --> 01:00:04,040

that is speaking of things washed up on

1318

01:00:07,630 --> 01:00:05,660

the beach what about the strange object

1319

01:00:09,520 --> 01:00:07,640

that washed up on the California beach

1320

01:00:18,070 --> 01:00:09,530

with flashing with a flashing light on

1321

01:00:19,420 --> 01:00:18,080

top there for several months sorry we

1322

01:00:21,940 --> 01:00:19,430

don't we don't hear about it we can't

1323

01:00:24,030 --> 01:00:21,950

really comment money on it well sounds

1324

01:00:32,980 --> 01:00:24,040

sounds mundane

1325

01:00:34,960 --> 01:00:32,990

ok so let's see someone here was I don't

1326

01:00:36,790 --> 01:00:34,970

want a boy there's a lot of questions

1327

01:00:40,500 --> 01:00:36,800

coming in and let's see what do you

1328

01:00:43,120 --> 01:00:40,510

think of the Eric Davis calm that

1329

01:00:45,250 --> 01:00:43,130

poltergeist activity always accompanies

1330

01:00:49,060 --> 01:00:45,260

the UFO phenomenon are you familiar with

1331

01:00:52,000 --> 01:00:49,070

that yeah I haven't really dug into some

1332

01:00:56,560 --> 01:00:52,010

of the interviews in comments that have

1333

01:00:58,900 --> 01:00:56,570

done been done about his interview it's

1334

01:01:01,000 --> 01:00:58,910

it doesn't surprise me I think John

1335

01:01:04,890 --> 01:01:01,010

Alexander is someone that's been

1336

01:01:08,290 --> 01:01:04,900

championing a big connection between

1337

01:01:11,440 --> 01:01:08,300

various divergent mysteries that people

1338

01:01:15,520 --> 01:01:11,450

would think are standalone and in or you

1339

01:01:18,370 --> 01:01:15,530

know encapsulated and and and sort of

1340

01:01:21,460 --> 01:01:18,380

stovepipe I disagree I think there's a

1341

01:01:23,290 --> 01:01:21,470

connecting point that ties a lot of

1342

01:01:27,760 --> 01:01:23,300

these various types of mysteries

1343

01:01:30,220 --> 01:01:27,770

together and to be followed home from a

1344

01:01:31,810 --> 01:01:30,230

hot spot location and to have a

1345

01:01:34,690 --> 01:01:31,820

hitchhiker that all of a sudden then

1346

01:01:36,730 --> 01:01:34,700

starts you know pranking you in your

1347

01:01:38,560 --> 01:01:36,740

house it makes perfect sense to me and

1348

01:01:40,510 --> 01:01:38,570

it doesn't surprise me at all in fact

1349

01:01:43,950 --> 01:01:40,520

I've kind of been saying this for years

1350

01:01:48,070 --> 01:01:43,960

that there is a connection between

1351

01:01:50,230 --> 01:01:48,080

various paranormal phenomena oh yeah

1352

01:01:50,770 --> 01:01:50,240

there are some theories out there I've

1353

01:01:54,460 --> 01:01:50,780

heard

1354

01:01:55,690 --> 01:01:54,470

for instance Paul you know has a theory

1355

01:01:58,020 --> 01:01:55,700

that's pretty interesting I don't know

1356

01:02:01,359 --> 01:01:58,030

if you've ever heard of his mmm-hmm yeah

1357

01:02:04,809 --> 01:02:01,369

so and I wanted to know if you can

1358

01:02:07,050 --> 01:02:04,819

comment on any other Gormley slash

1359

01:02:11,589 --> 01:02:07,060

Bradshaw type sites currently

1360

01:02:13,559 --> 01:02:11,599

experiencing high strangeness well it

1361

01:02:15,760 --> 01:02:13,569

depends on what you mean by currently

1362

01:02:17,200 --> 01:02:15,770

you know I've been gone for the last

1363

01:02:18,579 --> 01:02:17,210

month so it's hard for me to comment

1364

01:02:21,130 --> 01:02:18,589

about anything that's been going on

1365

01:02:25,420 --> 01:02:21,140

within the last few weeks the Bradshaw

1366

01:02:29,470 --> 01:02:25,430

ranch has been fairly dead but there was

1367

01:02:32,020 --> 01:02:29,480

let's see about a year ago third week of

1368

01:02:34,180 --> 01:02:32,030

September there was a an interesting

1369

01:02:36,040 --> 01:02:34,190

report from out in the Bradshaw branch

1370

01:02:38,800 --> 01:02:36,050

for some of the listeners who don't know

1371

01:02:41,680 --> 01:02:38,810

where the application is that's west of

1372

01:02:46,240 --> 01:02:41,690

Sedona Arizona where I live for for the

1373

01:02:49,240 --> 01:02:46,250

last fourteen years and an investigator

1374

01:02:51,790 --> 01:02:49,250

researcher named Tom dongho worked with

1375

01:02:53,079 --> 01:02:51,800

the ranch owner Linda Bradshaw for quite

1376

01:02:55,630 --> 01:02:53,089

a number of years wrote three books

1377

01:02:58,480 --> 01:02:55,640

about some of the you know the activity

1378

01:03:01,720 --> 01:02:58,490

out there the Sherman Ranch or the

1379

01:03:04,300 --> 01:03:01,730

Gorman ranch as George Knapp called it

1380

01:03:06,069 --> 01:03:04,310

in a hunt for the skinwalker is the skin

1381

01:03:09,700 --> 01:03:06,079

also called skinwalker ranch up in the

1382

01:03:13,030 --> 01:03:09,710

Uintah Basin there's constantly stuff

1383

01:03:16,210 --> 01:03:13,040

going on around there but as with the

1384

01:03:18,030 --> 01:03:16,220

San Luis Valley people are so used to it

1385

01:03:20,079 --> 01:03:18,040

and they know that there's nothing

1386

01:03:22,569 --> 01:03:20,089

nothing good is gonna come from

1387

01:03:24,760 --> 01:03:22,579

reporting activity they're just gonna

1388

01:03:26,920 --> 01:03:24,770

open themselves up for for media

1389

01:03:28,829 --> 01:03:26,930

attention and for people to you know be

1390

01:03:32,200 --> 01:03:28,839

staking out their property and stuff so

1391

01:03:35,550 --> 01:03:32,210

you know locals in these areas they will

1392

01:03:37,660 --> 01:03:35,560

not report these things to national

1393

01:03:39,849 --> 01:03:37,670

organizations it's generally newcomers

1394

01:03:42,220 --> 01:03:39,859

to the area they get excited and then

1395

01:03:44,020 --> 01:03:42,230

might mention stuff all the old locals

1396

01:03:47,410 --> 01:03:44,030

do the old timers they they will never

1397

01:03:49,960 --> 01:03:47,420

report stuff to outside investigators

1398

01:03:53,260 --> 01:03:49,970

and it takes years of getting to know

1399

01:03:55,089 --> 01:03:53,270

people of gaining their trust of getting

1400

01:03:58,569 --> 01:03:55,099

them to open up and and be forthright

1401

01:04:01,420 --> 01:03:58,579

about their experiences for them to to

1402

01:04:04,670 --> 01:04:01,430

comment in and to publicize these things

1403

01:04:06,080 --> 01:04:04,680

so stuff is always burbling

1404

01:04:09,170 --> 01:04:06,090

of course we do have peaks and valleys

1405

01:04:11,450 --> 01:04:09,180

and waves that occur right now I think

1406

01:04:12,320 --> 01:04:11,460

we're in a lull period generally this

1407

01:04:15,470 --> 01:04:12,330

time of year

1408

01:04:17,060 --> 01:04:15,480

you see activity tail off and then the

1409

01:04:19,130 --> 01:04:17,070

end of August began in September it

1410

01:04:22,250 --> 01:04:19,140

starts to pick up again it's generally a

1411

01:04:25,370 --> 01:04:22,260

bell curve around you know the spring is

1412

01:04:27,260 --> 01:04:25,380

heightened activity it kind of tails off

1413

01:04:30,740 --> 01:04:27,270

in the summer and then and then it

1414

01:04:33,080 --> 01:04:30,750

raises it's a phenomenal head cutting in

1415

01:04:35,450 --> 01:04:33,090

the fall that's in a regular year and

1416

01:04:38,330 --> 01:04:35,460

we're an off year when it's really hot

1417

01:04:41,180 --> 01:04:38,340

and heavy those are the times of the

1418

01:04:44,210 --> 01:04:41,190

year that it's really intense and the

1419

01:04:48,080 --> 01:04:44,220

summer and in winter you'll have reports

1420

01:04:50,540 --> 01:04:48,090

but but not as many I'm trying to

1421

01:04:52,610 --> 01:04:50,550

understand this question from Michael

1422

01:04:56,090 --> 01:04:52,620

thanks for the question

1423

01:04:58,280 --> 01:04:56,100

let's see it just went away here what

1424

01:05:00,920 --> 01:04:58,290

types of devices have you seen and

1425

01:05:05,240 --> 01:05:00,930

technology that you can talk about and

1426

01:05:07,370 --> 01:05:05,250

if you can't talk about some of it that

1427

01:05:10,010 --> 01:05:07,380

okay nevermind we'll just skip that

1428

01:05:12,800 --> 01:05:10,020

question let's talk about your your

1429

01:05:14,960 --> 01:05:12,810

camera device project yeah you know the

1430

01:05:18,470 --> 01:05:14,970

San Luis Valley camera and monitoring

1431

01:05:22,490 --> 01:05:18,480

project it's part of a larger project

1432

01:05:24,110 --> 01:05:22,500

that the San Luis Valley is going to be

1433

01:05:26,630 --> 01:05:24,120

the litmus test the first place where

1434

01:05:29,480 --> 01:05:26,640

it's really you know put out into the

1435

01:05:31,130 --> 01:05:29,490

field and then become it will become

1436

01:05:33,500 --> 01:05:31,140

operational later this summer in early

1437

01:05:36,710 --> 01:05:33,510

fall basically what we're doing is we're

1438

01:05:39,520 --> 01:05:36,720

putting up a triangulated system which

1439

01:05:44,900 --> 01:05:39,530

means that there will be more than one

1440

01:05:47,020 --> 01:05:44,910

camera ideally three cameras and each of

1441

01:05:50,330 --> 01:05:47,030

these cameras will have an accompanying

1442

01:05:53,120 --> 01:05:50,340

package of sensing hardware that will be

1443

01:05:54,830 --> 01:05:53,130

sitting there in a box underneath it and

1444

01:05:59,330 --> 01:05:54,840

it'll all be connected to the Internet

1445

01:06:01,940 --> 01:05:59,340

now the cameras are really the

1446

01:06:03,440 --> 01:06:01,950

technology is amazing now so for less

1447

01:06:07,550 --> 01:06:03,450

than a thousand dollars you can get a

1448

01:06:09,980 --> 01:06:07,560

very very good high res camera people

1449

01:06:13,040 --> 01:06:09,990

say well why don't you go 4k because we

1450

01:06:17,000 --> 01:06:13,050

don't have the data the pipeline for the

1451  
01:06:17,630 --> 01:06:17,010  
data to go 4k and you know we're going

1452  
01:06:20,559 --> 01:06:17,640  
to have some

1453  
01:06:23,059 --> 01:06:20,569  
word recording so will you high def is

1454  
01:06:25,880 --> 01:06:23,069  
is the extent of where we're going

1455  
01:06:28,609 --> 01:06:25,890  
visually optically but we're gonna have

1456  
01:06:32,059 --> 01:06:28,619  
a system that's gonna be idling and

1457  
01:06:34,279 --> 01:06:32,069  
they'll be able to go online and see the

1458  
01:06:37,160 --> 01:06:34,289  
system going through what we call a

1459  
01:06:38,960 --> 01:06:37,170  
Patrol routine where each camera will be

1460  
01:06:40,759 --> 01:06:38,970  
going and then it'll shift to another

1461  
01:06:42,650 --> 01:06:40,769  
cameras shift to another camera it'll be

1462  
01:06:45,289 --> 01:06:42,660  
kind of on standby

1463  
01:06:47,240 --> 01:06:45,299

it'll be on idle and then we have an

1464

01:06:49,279 --> 01:06:47,250

all-sky camera which will be sitting in

1465

01:06:51,589 --> 01:06:49,289

the middle of the triangulated array and

1466

01:06:54,339 --> 01:06:51,599

that basically can see the entire sky

1467

01:06:57,799 --> 01:06:54,349

and each of the pixels that are in that

1468

01:07:00,589 --> 01:06:57,809

display of the entire sky has a number

1469

01:07:04,509 --> 01:07:00,599

of value and when something happens that

1470

01:07:07,339 --> 01:07:04,519

either has the luminance the speed

1471

01:07:09,099 --> 01:07:07,349

various parameters that that alert us if

1472

01:07:11,480 --> 01:07:09,109

something unusual is happening

1473

01:07:13,730 --> 01:07:11,490

immediately that proximity data

1474

01:07:15,799 --> 01:07:13,740

generated by the pixels will be sent to

1475

01:07:21,380 --> 01:07:15,809

the other cameras they will swing around

1476

01:07:22,910 --> 01:07:21,390

and focus on the event so that's what

1477

01:07:25,549 --> 01:07:22,920

we're going to be looking at optically

1478

01:07:27,349 --> 01:07:25,559

and then boom you'll see we'll go from a

1479

01:07:30,670 --> 01:07:27,359

low res idle

1480

01:07:33,200 --> 01:07:30,680

you know status into a high res status

1481

01:07:35,480 --> 01:07:33,210

the software will click on will have

1482

01:07:37,339 --> 01:07:35,490

recording and then you'll have targeting

1483

01:07:40,160 --> 01:07:37,349

boxes that will appear around the object

1484

01:07:43,700 --> 01:07:40,170

and then the cameras will then motion

1485

01:07:45,230 --> 01:07:43,710

track the object so that if it moves to

1486

01:07:47,720 --> 01:07:45,240

the left the cameras will move to the

1487

01:07:49,160 --> 01:07:47,730

left and then they'll try to if it stops

1488

01:07:51,200 --> 01:07:49,170

for a little bit they'll try to zoom in

1489

01:07:54,349 --> 01:07:51,210

and so we're gonna have three different

1490

01:07:55,579 --> 01:07:54,359

angles at a single event now sitting

1491

01:07:59,450 --> 01:07:55,589

underneath the camera

1492

01:08:03,410 --> 01:07:59,460

these cameras by the way have a 36 times

1493

01:08:07,039 --> 01:08:03,420

optical zoom so we can zoom in fairly

1494

01:08:09,109 --> 01:08:07,049

close to to the event if it's you know

1495

01:08:13,430 --> 01:08:09,119

within 10 miles of the event we're gonna

1496

01:08:16,340 --> 01:08:13,440

get some pretty good images yeah exactly

1497

01:08:18,769 --> 01:08:16,350

it depends a the bounding box if it sits

1498

01:08:20,930 --> 01:08:18,779

still for long enough time then we'll be

1499

01:08:22,760 --> 01:08:20,940

able to get a zoom on it now underneath

1500

01:08:25,459 --> 01:08:22,770

the camera will be a series of

1501

01:08:27,050 --> 01:08:25,469

scientific monitoring equipment that

1502

01:08:28,390 --> 01:08:27,060

will monitor changes in the Earth's

1503

01:08:31,270 --> 01:08:28,400

magnetic

1504

01:08:33,220 --> 01:08:31,280

changes in the gravitational field will

1505

01:08:36,370 --> 01:08:33,230

be monitoring temperature humidity wind

1506

01:08:38,320 --> 01:08:36,380

speed temperature will be plugged into

1507

01:08:41,140 --> 01:08:38,330

FlightAware so we're gonna be factoring

1508

01:08:43,810 --> 01:08:41,150

out any transponders conventional craft

1509

01:08:45,310 --> 01:08:43,820

any lights in the environment they're

1510

01:08:47,560 --> 01:08:45,320

gonna be known in advance

1511

01:08:50,290 --> 01:08:47,570

highways street lights house lights

1512

01:08:53,080 --> 01:08:50,300

they'll be masked out and then we'll

1513

01:08:55,510 --> 01:08:53,090

have two sets of images optically one

1514

01:08:56,830 --> 01:08:55,520

that'll have all our data in a time code

1515

01:09:00,700 --> 01:08:56,840

and the other just with the time code

1516

01:09:03,910 --> 01:09:00,710

and the actual object so it's never been

1517

01:09:06,280 --> 01:09:03,920

done we've had as I mentioned earlier

1518

01:09:09,190 --> 01:09:06,290

ray Stanford did attempt to do this he

1519

01:09:11,280 --> 01:09:09,200

had a two million dollar single single

1520

01:09:13,660 --> 01:09:11,290

operation with just a single set of gear

1521

01:09:17,530 --> 01:09:13,670

we're gonna be doing three different

1522

01:09:19,840 --> 01:09:17,540

sets of gear and its historic if we can

1523

01:09:22,960 --> 01:09:19,850

pull this off and then replicate some of

1524

01:09:26,650 --> 01:09:22,970

our data and then make hypothesis you

1525

01:09:28,960 --> 01:09:26,660

know actually create a hypothesis and

1526

01:09:31,600 --> 01:09:28,970

then get follow-up data to substantiate

1527

01:09:34,630 --> 01:09:31,610

that hypothesis we're gonna be able to

1528

01:09:36,520 --> 01:09:34,640

have in conjunction with optical

1529

01:09:38,710 --> 01:09:36,530

physicist theoretical physicists we

1530

01:09:41,770 --> 01:09:38,720

literally could theoretically like write

1531

01:09:44,430 --> 01:09:41,780

papers for peer review so this this is a

1532

01:09:46,870 --> 01:09:44,440

logical step forward for hard data

1533

01:09:49,960 --> 01:09:46,880

monitoring their investigation of UFO

1534

01:09:52,930 --> 01:09:49,970

hotspot areas and it's one thing to say

1535

01:09:55,780 --> 01:09:52,940

yeah I was in I was in some special ops

1536

01:09:59,140 --> 01:09:55,790

group and I you know I when I was in my

1537

01:10:00,040 --> 01:09:59,150

early 20s I autopsy 3,000 aliens it's

1538

01:10:03,040 --> 01:10:00,050

another thing to get

1539

01:10:05,460 --> 01:10:03,050

magnetic-gravitational and you know

1540

01:10:08,680 --> 01:10:05,470

light spectra information from a

1541

01:10:11,410 --> 01:10:08,690

youthful article event times three

1542

01:10:13,270 --> 01:10:11,420

now when you say triangulate how how

1543

01:10:16,960 --> 01:10:13,280

what type of distance are we talking

1544

01:10:18,310 --> 01:10:16,970

apart well it depends on where our exact

1545

01:10:20,320 --> 01:10:18,320

locations are gonna be this is still to

1546

01:10:28,320 --> 01:10:20,330

be worked out but we're talking about a

1547

01:10:33,880 --> 01:10:31,540

in the valley is really neat because

1548

01:10:35,830 --> 01:10:33,890

it's an open Valley there's no there's

1549

01:10:38,590 --> 01:10:35,840

no trees there's very few trees or

1550

01:10:39,359 --> 01:10:38,600

anything to block the view and then our

1551

01:10:42,089 --> 01:10:39,369

main

1552

01:10:48,060 --> 01:10:42,099

camera is gonna be 60 70 feet up on a

1553

01:10:51,000 --> 01:10:48,070

cell tower now has anyone ever got a

1554

01:10:53,850 --> 01:10:51,010

really good video of events that have

1555

01:10:57,149 --> 01:10:53,860

happened there in the valley really good

1556

01:10:59,030 --> 01:10:57,159

video no I did have some very very

1557

01:11:02,040 --> 01:10:59,040

compelling video that was taken in to

1558

01:11:04,020 --> 01:11:02,050

1995 of course it was stolen from the

1559

01:11:07,950 --> 01:11:04,030

mail Priority Mail ensured the whole

1560

01:11:09,930 --> 01:11:07,960

deal yeah that's the guy the postmaster

1561

01:11:12,419 --> 01:11:09,940

that my post office didn't even know

1562

01:11:14,669 --> 01:11:12,429

where the forum was to report a missing

1563

01:11:16,890 --> 01:11:14,679

package that had been registered in and

1564

01:11:20,070 --> 01:11:16,900

the whole thing he was I've never had

1565

01:11:21,899 --> 01:11:20,080

this before that was really good footage

1566

01:11:24,200 --> 01:11:21,909

it was of a translucent object that was

1567

01:11:27,300 --> 01:11:24,210

hovering over the center of the valley

1568

01:11:31,070 --> 01:11:27,310

you know I sent it to sightings the TV

1569

01:11:33,209 --> 01:11:31,080

show and sorry Chris it never arrived so

1570

01:11:36,780 --> 01:11:33,219

and nobody signed for it it just

1571

01:11:39,720 --> 01:11:36,790

disappeared in the ethers go figure

1572

01:11:41,879 --> 01:11:39,730

I have night vision footage of third

1573

01:11:44,760 --> 01:11:41,889

generation night-vision footage of 13

1574

01:11:47,330 --> 01:11:44,770

objects two groups one of seven one of

1575

01:11:49,890 --> 01:11:47,340

six that come together from different

1576

01:11:52,709 --> 01:11:49,900

directions and then come together and

1577

01:11:54,899 --> 01:11:52,719

merge for a while and then split and

1578

01:11:57,390 --> 01:11:54,909

take take off some of them hover some go

1579

01:11:59,430 --> 01:11:57,400

backwards we were less than four or five

1580

01:12:02,100 --> 01:11:59,440

miles away it was eight below zero when

1581

01:12:04,800 --> 01:12:02,110

we took the footage and there was

1582

01:12:06,660 --> 01:12:04,810

absolutely not a single sound and these

1583

01:12:08,700 --> 01:12:06,670

things were close and I've been holding

1584

01:12:11,220 --> 01:12:08,710

on to this for quite a number of years

1585

01:12:13,530 --> 01:12:11,230

I've most of my footage that I've taken

1586

01:12:15,810 --> 01:12:13,540

has ended up on some TV show or another

1587

01:12:19,560 --> 01:12:15,820

over the years this particular footage

1588

01:12:21,720 --> 01:12:19,570

I've been holding on to so you actually

1589

01:12:23,459 --> 01:12:21,730

saw this particularly this is something

1590

01:12:25,680 --> 01:12:23,469

I took I took it myself

1591

01:12:27,540 --> 01:12:25,690

13 objects it's the most I've ever seen

1592

01:12:31,530 --> 01:12:27,550

in a single event Wow

1593

01:12:34,410 --> 01:12:31,540

now do you when you were in Colorado to

1594

01:12:38,220 --> 01:12:34,420

juice Bend like hours and hours and

1595

01:12:40,530 --> 01:12:38,230

hours like sky watching so to speak yeah

1596

01:12:42,600 --> 01:12:40,540

I did when things were happening yeah I

1597

01:12:45,479 --> 01:12:42,610

did I spent a lot of time out I've seen

1598

01:12:48,839 --> 01:12:45,489

personally dozens and dozens of events I

1599

01:12:50,399 --> 01:12:48,849

had a phone tree set up in a network of

1600

01:12:51,200 --> 01:12:50,409

sky watchers and we would alert each

1601

01:12:54,620 --> 01:12:51,210

other when things

1602

01:12:58,070 --> 01:12:54,630

going on I had as many as 17 reports in

1603

01:13:00,380 --> 01:12:58,080

a single day so give me an idea of how

1604

01:13:02,690 --> 01:13:00,390

active it got now is it is it am I

1605

01:13:04,940 --> 01:13:02,700

thinking of the right place or their UFO

1606

01:13:07,460 --> 01:13:04,950

Watchtower in the valley yeah it's so

1607

01:13:09,920 --> 01:13:07,470

yeah it's right out right in the center

1608

01:13:12,170 --> 01:13:09,930

of the valley in fact one of our camera

1609

01:13:14,690 --> 01:13:12,180

locations is theoretically going to be

1610

01:13:17,570 --> 01:13:14,700

very close to that it is a perfect place

1611

01:13:20,030 --> 01:13:17,580

to put a UFO Watchtower unfortunately

1612

01:13:22,280 --> 01:13:20,040

Judy the crazy lady that lives down the

1613

01:13:26,300 --> 01:13:22,290

road as the title of her book it's very

1614

01:13:28,460 --> 01:13:26,310

appropriate to a my dad she is not

1615

01:13:31,190 --> 01:13:28,470

interested in doing the kind of you know

1616

01:13:34,490 --> 01:13:31,200

real meticulous documentation of date

1617

01:13:36,590 --> 01:13:34,500

time event witness names location you

1618

01:13:39,560 --> 01:13:36,600

know a nice description of the event she

1619

01:13:42,050 --> 01:13:39,570

likes to collect stories and she's got a

1620

01:13:45,920 --> 01:13:42,060

bunch of them that she's collected over

1621

01:13:46,970 --> 01:13:45,930

the years and yeah it's you know people

1622

01:13:48,920 --> 01:13:46,980

have asked me well what do you think of

1623

01:13:50,330 --> 01:13:48,930

the UFO Watchtower I say well you know

1624

01:13:53,060 --> 01:13:50,340

if I was gonna put a UFO Watchtower

1625

01:13:58,280 --> 01:13:53,070

someplace that would be where I'd put it

1626

01:14:00,470 --> 01:13:58,290

because it is front rows yeah I actually

1627

01:14:02,620 --> 01:14:00,480

had her on the show one time way back

1628

01:14:10,850 --> 01:14:02,630

but are there actually people that do

1629

01:14:12,380 --> 01:14:10,860

see ya there so she by donation if you

1630

01:14:14,180 --> 01:14:12,390

want to stay at her little campground I

1631

01:14:16,600 --> 01:14:14,190

think she charges for a hook-up and

1632

01:14:20,570 --> 01:14:16,610

stuff but it's been a while since I've

1633

01:14:23,030 --> 01:14:20,580

visited hello Judy she's she's a real

1634

01:14:24,830 --> 01:14:23,040

character yeah so again we're taking

1635

01:14:27,590 --> 01:14:24,840

calls if anyone would like to call in

1636

01:14:30,920 --> 01:14:27,600

let's see Bobby who can't call in

1637

01:14:33,740 --> 01:14:30,930

because he's working anybody's he can

1638

01:14:36,200 --> 01:14:33,750

type anyway while he's working wasn't

1639

01:14:40,520 --> 01:14:36,210

Chris watching a game during the Phoenix

1640

01:14:43,610 --> 01:14:40,530

sightings I was I was working I was

1641

01:14:47,540 --> 01:14:43,620

living in Colorado in March of 97 and in

1642

01:14:49,820 --> 01:14:47,550

February my brother and I had a Adobe

1643

01:14:52,610 --> 01:14:49,830

plastering company and we would do real

1644

01:14:55,490 --> 01:14:52,620

super high quality adobe natural adobe

1645

01:15:00,950 --> 01:14:55,500

finishes and one of the Maricopa County

1646

01:15:01,430 --> 01:15:00,960

Commissioners Dali Archuleta her at your

1647

01:15:05,210 --> 01:15:01,440

area

1648

01:15:08,000 --> 01:15:05,220

she got a variance from the building

1649

01:15:10,400 --> 01:15:08,010

and to build a straw bale in Maricopa

1650

01:15:12,200 --> 01:15:10,410

County so we were called down to to do

1651  
01:15:14,750 --> 01:15:12,210  
all the finish work and so we spent two

1652  
01:15:17,420 --> 01:15:14,760  
months down there and right in the

1653  
01:15:19,460 --> 01:15:17,430  
middle of our of our you know work two

1654  
01:15:21,500 --> 01:15:19,470  
months work period I was getting ready

1655  
01:15:24,860 --> 01:15:21,510  
to following day to go have dinner with

1656  
01:15:28,100 --> 01:15:24,870  
Steven Greer and Tom a king and Jim

1657  
01:15:29,930 --> 01:15:28,110  
dalit Oso and sherry adamak some friends

1658  
01:15:32,000 --> 01:15:29,940  
who were down there we were all gonna

1659  
01:15:33,140 --> 01:15:32,010  
get together I think was March 18th and

1660  
01:15:35,090 --> 01:15:33,150  
on March 17th

1661  
01:15:38,150 --> 01:15:35,100  
I was watching Arizona State in the

1662  
01:15:40,040 --> 01:15:38,160  
sweet sweet 16 I think and we were

1663  
01:15:42,050 --> 01:15:40,050

inside our motel room watching the game

1664

01:15:43,760 --> 01:15:42,060

and and we were hearing whooping and

1665

01:15:45,230 --> 01:15:43,770

hollering coming from outside you know

1666

01:15:47,090 --> 01:15:45,240

it's other rooms we thought you know hey

1667

01:15:48,680 --> 01:15:47,100

other people are watching the game

1668

01:15:50,810 --> 01:15:48,690

because it was Arizona I was down in

1669

01:15:53,930 --> 01:15:50,820

Arizona I was in Casa Grande which is

1670

01:15:59,240 --> 01:15:53,940

between Phoenix and Tucson right on i-10

1671

01:16:00,950 --> 01:15:59,250

there and and then right they burst into

1672

01:16:02,090 --> 01:16:00,960

the game you know during the I think was

1673

01:16:04,400 --> 01:16:02,100

at the end of the third quarter or

1674

01:16:06,260 --> 01:16:04,410

whatever and they said oh we have this

1675

01:16:07,910 --> 01:16:06,270

special news bulletin you know I'm

1676

01:16:09,440 --> 01:16:07,920

standing here in front of the Strela

1677

01:16:12,320 --> 01:16:09,450

Mountains and look behind me you see

1678

01:16:13,640 --> 01:16:12,330

these strange lights and and we're

1679

01:16:15,140 --> 01:16:13,650

thinking wait a minute that's going on

1680

01:16:17,780 --> 01:16:15,150

just up the road so we all ran outside

1681

01:16:19,790 --> 01:16:17,790

and there are people out there going oh

1682

01:16:21,530 --> 01:16:19,800

man you should get too bad you weren't

1683

01:16:25,160 --> 01:16:21,540

out here about the or 20 minutes ago

1684

01:16:27,050 --> 01:16:25,170

they flew right over and we're like we

1685

01:16:29,090 --> 01:16:27,060

were inside watching the NCAA you know

1686

01:16:33,050 --> 01:16:29,100

sweet 16 I missed it a flew right over

1687

01:16:37,550 --> 01:16:33,060

the motels so oh well that job I'm sure

1688

01:16:40,040 --> 01:16:37,560

you probably heard who was it that was

1689

01:16:45,020 --> 01:16:40,050

flying their airplane Kurt Russell yeah

1690

01:16:46,610 --> 01:16:45,030

yeah I did it but that there's there's

1691

01:16:49,130 --> 01:16:46,620

so there's still a lot of confusion

1692

01:16:50,750 --> 01:16:49,140

about that because a lot of the film

1693

01:16:53,780 --> 01:16:50,760

that you see out there is actually the

1694

01:16:56,360 --> 01:16:53,790

flares wait I don't know if there's any

1695

01:16:58,580 --> 01:16:56,370

real so I know you would think with

1696

01:17:00,620 --> 01:16:58,590

10,000 people approximately would see

1697

01:17:02,750 --> 01:17:00,630

something somebody would even pre

1698

01:17:05,420 --> 01:17:02,760

cellphone some people were out there

1699

01:17:10,070 --> 01:17:05,430

because of hale-bopp

1700

01:17:12,320 --> 01:17:10,080

yeah help help up yeah and so they were

1701

01:17:15,680 --> 01:17:12,330

out watching that and you couldn't ask

1702

01:17:17,240 --> 01:17:15,690

for more of an audience really go figure

1703

01:17:19,430 --> 01:17:17,250

yeah Ron Regehr

1704

01:17:22,310 --> 01:17:19,440

who helped to design our DSP spy

1705

01:17:24,230 --> 01:17:22,320

satellite wrote the engineering manuals

1706

01:17:26,960 --> 01:17:24,240

for the I think the optical portion of

1707

01:17:29,600 --> 01:17:26,970

the satellite he actually checked the

1708

01:17:32,150 --> 01:17:29,610

logs for that night and there was an

1709

01:17:34,370 --> 01:17:32,160

event log that started in Henderson

1710

01:17:37,340 --> 01:17:34,380

Nevada and went all the way down the

1711

01:17:40,160 --> 01:17:37,350

Prescott Valley and then kind of made a

1712

01:17:42,650 --> 01:17:40,170

slight turn to the direct south over

1713

01:17:45,440 --> 01:17:42,660

Phoenix went down to Tucson then made a

1714

01:17:47,030 --> 01:17:45,450

right angle turn and went off to the

1715

01:17:48,760 --> 01:17:47,040

west towards Yuma and then it

1716

01:17:52,460 --> 01:17:48,770

disappeared down around the club water

1717

01:17:54,830 --> 01:17:52,470

for two Akaka and the Goldwater gunnery

1718

01:17:58,010 --> 01:17:54,840

range down there well top the mountains

1719

01:18:02,320 --> 01:17:58,020

the last time I had a Peter Davenport on

1720

01:18:05,240 --> 01:18:02,330

the show he was telling me that when he

1721

01:18:07,670 --> 01:18:05,250

was getting calls about the Phoenix

1722

01:18:10,460 --> 01:18:07,680

lights he said that there was someone

1723

01:18:13,520 --> 01:18:10,470

that was estimating it at being up to

1724

01:18:17,000 --> 01:18:13,530

eight miles wide did you hear people

1725

01:18:20,900 --> 01:18:17,010

talk about the size of it yeah I - miles

1726

01:18:24,070 --> 01:18:20,910

is about I think what what what is the

1727

01:18:27,050 --> 01:18:24,080

closest approximation in terms of taking

1728

01:18:29,510 --> 01:18:27,060

everybody's everybody's descriptions I

1729

01:18:31,790 --> 01:18:29,520

think two miles are being to be the most

1730

01:18:34,940 --> 01:18:31,800

accurate which is absolutely crazy if

1731

01:18:37,220 --> 01:18:34,950

you think about that's ours

1732

01:18:38,900 --> 01:18:37,230

yeah the argument that you know people

1733

01:18:41,360 --> 01:18:38,910

say that it was probably something

1734

01:18:43,220 --> 01:18:41,370

military I mean it doesn't really make

1735

01:18:44,750 --> 01:18:43,230

any sense so I had someone on the show

1736

01:18:46,700 --> 01:18:44,760

recently that says you know where would

1737

01:18:49,400 --> 01:18:46,710

they how was something that was two

1738

01:18:50,600 --> 01:18:49,410

miles well if it was yeah I mean if it

1739

01:18:53,090 --> 01:18:50,610

was lighter than air

1740

01:18:55,910 --> 01:18:53,100

you could you could theoretically house

1741

01:18:58,130 --> 01:18:55,920

something like that just deflate it but

1742

01:18:59,510 --> 01:18:58,140

or take the the helium out whatever I

1743

01:19:02,630 --> 01:18:59,520

get yeah whatever the lighter-than-air

1744

01:19:04,970 --> 01:19:02,640

gas was but it was a physical object

1745

01:19:08,690 --> 01:19:04,980

according to Ron Regehr and you know

1746

01:19:11,380 --> 01:19:08,700

he's someone that was above there would

1747

01:19:14,340 --> 01:19:11,390

be no reason for him to to fabricate a

1748

01:19:16,980 --> 01:19:14,350

claim like that right right

1749

01:19:21,480 --> 01:19:16,990

a little close to the mics here all

1750

01:19:23,190 --> 01:19:21,490

right and so let's talk about your you

1751

01:19:24,510 --> 01:19:23,200

took you talking about this camera a

1752

01:19:26,040 --> 01:19:24,520

unit that you want to get out there

1753

01:19:27,660 --> 01:19:26,050

what's the name and where can someone I

1754

01:19:30,150 --> 01:19:27,670

know it's on your website right someone

1755

01:19:32,280 --> 01:19:30,160

can go see that you know we're at the

1756

01:19:34,970 --> 01:19:32,290

point right now where we're finishing up

1757

01:19:37,980 --> 01:19:34,980

the the triangulation software

1758

01:19:39,780 --> 01:19:37,990

programming which will be for the next

1759

01:19:43,350 --> 01:19:39,790

couple three weeks then we're going to

1760

01:19:45,240 --> 01:19:43,360

have a GoFundMe campaign to pay for the

1761

01:19:48,110 --> 01:19:45,250

rest of the equipment and that'll be

1762

01:19:51,720 --> 01:19:48,120

starting in about three to four weeks

1763

01:19:54,270 --> 01:19:51,730

right around the end of July third to

1764

01:19:56,100 --> 01:19:54,280

fourth week of July and then I'm slated

1765

01:20:00,810 --> 01:19:56,110

to go out in August out to the valley

1766

01:20:03,300 --> 01:20:00,820

and get the initial installation process

1767

01:20:05,070 --> 01:20:03,310

going and with money I can pay people

1768

01:20:08,040 --> 01:20:05,080

and not have to rely on people's you

1769

01:20:09,690 --> 01:20:08,050

know doing favors for me or you know

1770

01:20:12,810 --> 01:20:09,700

dragging their feet it's it's been a

1771

01:20:17,850 --> 01:20:12,820

12-year process of relying on people's

1772

01:20:20,310 --> 01:20:17,860

you know doing new favors and and I just

1773

01:20:22,500 --> 01:20:20,320

would rather go out there with a budget

1774

01:20:24,390 --> 01:20:22,510

you know and and be sitting there

1775

01:20:28,590 --> 01:20:24,400

tapping my foot looking at my watch

1776

01:20:30,330 --> 01:20:28,600

while people are you know getting paid

1777

01:20:32,400 --> 01:20:30,340

to do what needs to be done and that is

1778

01:20:36,120 --> 01:20:32,410

my client hours and and get these things

1779

01:20:37,350 --> 01:20:36,130

in yeah you know speaking of projects

1780

01:20:39,750 --> 01:20:37,360

and funding and all that up just

1781

01:20:42,230 --> 01:20:39,760

wondering if any listener that hears

1782

01:20:44,880 --> 01:20:42,240

this knows any updates on the CubeSat

1783

01:20:46,440 --> 01:20:44,890

the CubeSat was supposed to be launched

1784

01:20:50,340 --> 01:20:46,450

they raised I think twenty thousand

1785

01:20:51,630 --> 01:20:50,350

dollars through a fund situation and all

1786

01:20:53,460 --> 01:20:51,640

these people were getting a lot of air

1787

01:20:56,340 --> 01:20:53,470

time and I haven't heard a single thing

1788

01:20:58,560 --> 01:20:56,350

so if anyone has information about that

1789

01:21:00,900 --> 01:20:58,570

you can actually call in if you're

1790

01:21:04,200 --> 01:21:00,910

listening live or send me an email at

1791

01:21:06,420 --> 01:21:04,210

Martin at podcast UFO comm that was only

1792

01:21:08,670 --> 01:21:06,430

what for just a few months so right

1793

01:21:10,830 --> 01:21:08,680

right but it was to go up we have a

1794

01:21:13,050 --> 01:21:10,840

caller caller thanks for calling in

1795

01:21:16,950 --> 01:21:13,060

please give us your first name and where

1796

01:21:18,750 --> 01:21:16,960

you calling from hey Martin this is Ryan

1797

01:21:21,710 --> 01:21:18,760

from South Carolina oh hey Ryan how are

1798

01:21:25,140 --> 01:21:21,720

ya hey you do okay I call it a bad time

1799

01:21:27,959 --> 01:21:25,150

no no I'll call it oh good I don't know

1800

01:21:30,660 --> 01:21:27,969

one sure if there was a good spot yeah

1801

01:21:35,880 --> 01:21:30,670

ya know you have a question for our

1802

01:21:42,270 --> 01:21:38,340

about going back to the cattle

1803

01:21:44,640 --> 01:21:42,280

mutilations and I kind of apologize

1804

01:21:46,530 --> 01:21:44,650

because I was distracted early on in the

1805

01:21:49,080 --> 01:21:46,540

show from something else and I assume

1806

01:21:52,410 --> 01:21:49,090

your guest leaves the cattle mutilations

1807

01:21:54,720 --> 01:21:52,420

are from our firm aliens is that am i

1808

01:21:57,600 --> 01:21:54,730

understanding that correctly that's what

1809

01:21:59,729 --> 01:21:57,610

the popular perception is because of the

1810

01:22:02,580 --> 01:21:59,739

efforts of Linda Moulton Howe and Chuck

1811

01:22:05,189 --> 01:22:02,590

Zukowski margie kay and others that have

1812

01:22:08,220 --> 01:22:05,199

been touting this explanation as the the

1813

01:22:09,479 --> 01:22:08,230

go-to rationale for these cattle to be

1814

01:22:12,000 --> 01:22:09,489

discovered in the in the shape that

1815

01:22:14,040 --> 01:22:12,010

they're discovered in and I I disagree I

1816

01:22:17,610 --> 01:22:14,050

I've looked at all the data that's

1817

01:22:21,780 --> 01:22:17,620

available and the cases that you can

1818

01:22:26,610 --> 01:22:21,790

even equate weird lights or some sort of

1819

01:22:30,990 --> 01:22:26,620

craft or just you know maybe 10% at the

1820

01:22:34,170 --> 01:22:31,000

hit the most the other 90% are in my

1821

01:22:38,610 --> 01:22:34,180

estimation done by humans very very

1822

01:22:42,479 --> 01:22:38,620

skillful excisions but done by sharp

1823

01:22:44,250 --> 01:22:42,489

cutting implements not many animals are

1824

01:22:46,620 --> 01:22:44,260

drained a blood for instance this course

1825

01:22:49,200 --> 01:22:46,630

there's the the popular misconception

1826

01:22:51,840 --> 01:22:49,210

that all these animals are drained of

1827

01:22:55,950 --> 01:22:51,850

blood and and that aliens are gathering

1828

01:22:59,189 --> 01:22:55,960

blood and fluids for hybridization of

1829

01:23:03,540 --> 01:22:59,199

their dying race and stuff and one thing

1830

01:23:05,010 --> 01:23:03,550

about about the blood that is something

1831

01:23:06,990 --> 01:23:05,020

you do hear a lot of people talk about

1832

01:23:09,630 --> 01:23:07,000

that but I want to ask you is it because

1833

01:23:11,850 --> 01:23:09,640

the naturally blood will settle to the

1834

01:23:14,100 --> 01:23:11,860

bottom exactly it's called gravity

1835

01:23:15,570 --> 01:23:14,110

what's happening yeah I don't know how

1836

01:23:16,770 --> 01:23:15,580

many cases I went out and the rancher

1837

01:23:18,450 --> 01:23:16,780

says oh we are they're draining this

1838

01:23:20,939 --> 01:23:18,460

thing of blood and I go yeah

1839

01:23:23,550 --> 01:23:20,949

oh yeah and we'll flip the thing over in

1840

01:23:25,950 --> 01:23:23,560

a whoosh it'll all come out if you cut

1841

01:23:29,189 --> 01:23:25,960

into the meat in the meatus is slightly

1842

01:23:30,780 --> 01:23:29,199

pink but but mostly gray then the

1843

01:23:33,420 --> 01:23:30,790

animals been drained of blood now I have

1844

01:23:35,880 --> 01:23:33,430

had some cases where the animals been

1845

01:23:38,520 --> 01:23:35,890

drained of blood but they're rare in the

1846

01:23:40,630 --> 01:23:38,530

exception the whole idea that that

1847

01:23:42,970 --> 01:23:40,640

aliens are coming to

1848

01:23:44,980 --> 01:23:42,980

you know drain animals are blood and all

1849

01:23:46,600 --> 01:23:44,990

this is to me is ludicrous

1850

01:23:48,850 --> 01:23:46,610

if they wanted that why don't they just

1851  
01:23:51,610 --> 01:23:48,860  
pick the lock on a on a slaughterhouse

1852  
01:23:54,880 --> 01:23:51,620  
and go in at night and there's vats and

1853  
01:23:58,900 --> 01:23:54,890  
vats of blood in there it just does its

1854  
01:24:02,200 --> 01:23:58,910  
to me the alien theory is sensational

1855  
01:24:04,120 --> 01:24:02,210  
it's mystery mongering we don't have the

1856  
01:24:07,030 --> 01:24:04,130  
data to back it up there's no evidence

1857  
01:24:09,790 --> 01:24:07,040  
whatsoever to support that particular

1858  
01:24:11,350 --> 01:24:09,800  
conclusion but we have a ton evidence to

1859  
01:24:13,870 --> 01:24:11,360  
support the conclusion that humans are

1860  
01:24:16,840 --> 01:24:13,880  
involved how about all the cases where

1861  
01:24:18,580 --> 01:24:16,850  
400-plus helicopter reports have been

1862  
01:24:21,580 --> 01:24:18,590  
filed or the cases where animals have

1863  
01:24:23,700 --> 01:24:21,590

been shot with firearms and mutilated or

1864

01:24:27,910 --> 01:24:23,710

cases where we've had barbiturates

1865

01:24:29,680 --> 01:24:27,920

coagulants anticoagulants mescaline in

1866

01:24:34,660 --> 01:24:29,690

one case in Arkansas

1867

01:24:38,440 --> 01:24:34,670

nikka tides all kinds of different types

1868

01:24:41,050 --> 01:24:38,450

of drugs and and other foreign

1869

01:24:42,970 --> 01:24:41,060

substances have been found when these

1870

01:24:45,220 --> 01:24:42,980

animals have been when they've done

1871

01:24:48,790 --> 01:24:45,230

workups on these animals so there's a

1872

01:24:51,360 --> 01:24:48,800

huge body of evidence that supports any

1873

01:24:56,250 --> 01:24:51,370

other conclusion that has human beings

1874

01:24:58,840 --> 01:24:56,260

attached to it another question Ryan

1875

01:25:02,170 --> 01:24:58,850

yeah well just to follow up comment cuz

1876

01:25:04,030 --> 01:25:02,180

you know my if he said he thought this

1877

01:25:05,740 --> 01:25:04,040

was from aliens you know my follow-up

1878

01:25:07,660 --> 01:25:05,750

question question was going to be you

1879

01:25:09,970 --> 01:25:07,670

know this if it's aliens I mean why do

1880

01:25:12,100 --> 01:25:09,980

they always leave so much of it behind

1881

01:25:14,170 --> 01:25:12,110

you would think that yeah alien race

1882

01:25:16,720 --> 01:25:14,180

coming here it would take the whole

1883

01:25:18,340 --> 01:25:16,730

thing rather just take a little chunk

1884

01:25:20,620 --> 01:25:18,350

and go running off with and leave the

1885

01:25:23,200 --> 01:25:20,630

rest because you know you're operating

1886

01:25:24,730 --> 01:25:23,210

under the assumption that you know they

1887

01:25:26,350 --> 01:25:24,740

want to conceal their presence here I

1888

01:25:27,580 --> 01:25:26,360

mean obviously they don't announce it

1889

01:25:29,260 --> 01:25:27,590

well why would they take a chunk and

1890

01:25:31,030 --> 01:25:29,270

then just leave the rest and jump in the

1891

01:25:33,520 --> 01:25:31,040

ship and take off that's that's never

1892

01:25:35,320 --> 01:25:33,530

made much sense to me well yeah and

1893

01:25:37,900 --> 01:25:35,330

you're absolutely correct the very fact

1894

01:25:41,010 --> 01:25:37,910

that the animals are left behind creates

1895

01:25:43,660 --> 01:25:41,020

a scenario plausible deniability for

1896

01:25:45,190 --> 01:25:43,670

whatever human groups are involved in

1897

01:25:48,160 --> 01:25:45,200

there are multiple groups by the way

1898

01:25:49,960 --> 01:25:48,170

this isn't one human group I think

1899

01:25:52,660 --> 01:25:49,970

there's multiple groups with with

1900

01:25:54,580 --> 01:25:52,670

different agendas possibly overlapping

1901

01:25:58,630 --> 01:25:54,590

and the reason why they leave them

1902

01:26:01,390 --> 01:25:58,640

mind is very simple back in 70 71 when

1903

01:26:05,200 --> 01:26:01,400

these cases really started to get get

1904

01:26:07,750 --> 01:26:05,210

noticed and reported the animals were

1905

01:26:09,580 --> 01:26:07,760

being stolen and there was such an

1906

01:26:12,910 --> 01:26:09,590

uproar in the ranching community that

1907

01:26:15,580 --> 01:26:12,920

you know helicopters were being fired at

1908

01:26:17,320 --> 01:26:15,590

and you know the utility you know

1909

01:26:19,630 --> 01:26:17,330

powerline helicopters National Guard

1910

01:26:21,070 --> 01:26:19,640

helicopters were being targeted by

1911

01:26:23,500 --> 01:26:21,080

ranches who were mad as hell and they

1912

01:26:25,780 --> 01:26:23,510

weren't gonna take it anymore and so in

1913

01:26:27,850 --> 01:26:25,790

in 72 we had not a single cattle

1914

01:26:29,890 --> 01:26:27,860

mutilation case and I think that's when

1915

01:26:32,020 --> 01:26:29,900

they figured out that hey if we leave

1916

01:26:33,130 --> 01:26:32,030

the animals there there won't be a

1917

01:26:35,410 --> 01:26:33,140

police report

1918

01:26:37,480 --> 01:26:35,420

there won't be grand theft you know

1919

01:26:39,490 --> 01:26:37,490

there will be plausible deniability we

1920

01:26:42,510 --> 01:26:39,500

can always say it was it was scavenging

1921

01:26:46,390 --> 01:26:42,520

we can always say that we're blaming on

1922

01:26:49,210 --> 01:26:46,400

ritual cultism or or Satanists or

1923

01:26:52,270 --> 01:26:49,220

something and that that creates a veneer

1924

01:26:55,300 --> 01:26:52,280

of fear and what can you accomplish by

1925

01:26:57,520 --> 01:26:55,310

by going to a very patriotic portion of

1926

01:26:59,110 --> 01:26:57,530

our population ranchers are some of the

1927

01:27:01,510 --> 01:26:59,120

most militant people we have in our

1928

01:27:05,170 --> 01:27:01,520

country look at the the Bundy standoff

1929

01:27:07,210 --> 01:27:05,180

for instance ranches are more prone to

1930

01:27:09,580 --> 01:27:07,220

Paige you know being members of Patriot

1931

01:27:11,590 --> 01:27:09,590

groups for instance so if you mutilate

1932

01:27:14,140 --> 01:27:11,600

their cows and leave them behind you're

1933

01:27:17,770 --> 01:27:14,150

also manipulating you know the society

1934

01:27:21,730 --> 01:27:17,780

you're actually creating fear and and

1935

01:27:24,640 --> 01:27:21,740

you're you kind of creating a system of

1936

01:27:27,490 --> 01:27:24,650

control using paranoia and terror

1937

01:27:29,320 --> 01:27:27,500

tactics bye-bye you know targeting

1938

01:27:31,780 --> 01:27:29,330

people's livestock so you know I think

1939

01:27:34,120 --> 01:27:31,790

it's now you're not hearing about these

1940

01:27:36,160 --> 01:27:34,130

cases very much ranches know that

1941

01:27:38,530 --> 01:27:36,170

there's no point in reporting them I

1942

01:27:41,590 --> 01:27:38,540

think very very few cases now that occur

1943

01:27:43,360 --> 01:27:41,600

being reported only the cases where the

1944

01:27:45,430 --> 01:27:43,370

rancher thinks he's been victimized by

1945

01:27:50,110 --> 01:27:45,440

the government now are the ones that

1946

01:27:50,350 --> 01:27:50,120

tend to be reported very interesting all

1947

01:27:54,040 --> 01:27:50,360

right

1948

01:27:56,710 --> 01:27:54,050

hey Ryan thanks for the call okay thanks

1949

01:28:00,190 --> 01:27:56,720

for taking it all right take care

1950

01:28:04,060 --> 01:28:00,200

calculate all right so in the chat Shane

1951

01:28:06,100 --> 01:28:04,070

from Australia used to be on all the

1952

01:28:08,200 --> 01:28:06,110

time it's good to see him in here he is

1953

01:28:09,810 --> 01:28:08,210

asking the ones that are not

1954

01:28:12,970 --> 01:28:09,820

drained of blood are there ever any

1955

01:28:15,600 --> 01:28:12,980

toxicology reports on the animals yeah

1956

01:28:18,550 --> 01:28:15,610

yeah there are not as many as we'd like

1957

01:28:20,140 --> 01:28:18,560

normally these animals aren't found for

1958

01:28:21,790 --> 01:28:20,150

at least two or three or four days and

1959

01:28:24,340 --> 01:28:21,800

and so by the time that they are found

1960

01:28:25,840 --> 01:28:24,350

usually during the warmer months they

1961

01:28:28,150 --> 01:28:25,850

were already starting to rot and go

1962

01:28:30,370 --> 01:28:28,160

necrotic and so there's no point in

1963

01:28:31,770 --> 01:28:30,380

attempting to try to you know do an e

1964

01:28:34,540 --> 01:28:31,780

crop C or

1965

01:28:37,060 --> 01:28:34,550

call a pathologist to come out and look

1966

01:28:38,590 --> 01:28:37,070

at the annual you know let's face it the

1967

01:28:41,080 --> 01:28:38,600

rancher has already lost his investment

1968

01:28:44,110 --> 01:28:41,090

why would he spend hundreds of dollars

1969

01:28:47,110 --> 01:28:44,120

on a lost investment so it's it's very

1970

01:28:50,170 --> 01:28:47,120

ingenious the way the thing unfolds it's

1971

01:28:54,220 --> 01:28:50,180

it's almost self nullifying in in many

1972

01:28:56,110 --> 01:28:54,230

ways yeah amazing the whole thing is is

1973

01:28:59,170 --> 01:28:56,120

bizarre and when I had never heard

1974

01:29:01,240 --> 01:28:59,180

before until tonight about you know

1975

01:29:05,530 --> 01:29:01,250

going back in history so far yeah you

1976

01:29:08,650 --> 01:29:05,540

know that there there was and I think

1977

01:29:13,229 --> 01:29:08,660

for someone that is plain skeptical most

1978

01:29:16,570 --> 01:29:13,239

people will claim that it was say

1979

01:29:20,040 --> 01:29:16,580

scavenger or something but you have

1980

01:29:23,260 --> 01:29:20,050

actually seen with your own eyes the

1981

01:29:25,390 --> 01:29:23,270

precision cutting yeah that can't be

1982

01:29:28,150 --> 01:29:25,400

well the first thing I look for it

1983

01:29:30,400 --> 01:29:28,160

number one is is cut hair follicles it

1984

01:29:34,540 --> 01:29:30,410

doesn't matter what kind of scavenger it

1985

01:29:36,729 --> 01:29:34,550

is insect bird you know the foreleg

1986

01:29:38,229 --> 01:29:36,739

environment whatever they're not going

1987

01:29:41,200 --> 01:29:38,239

to be able to cut hair in a straight

1988

01:29:43,000 --> 01:29:41,210

line you know coyotes have really bad

1989

01:29:45,670 --> 01:29:43,010

breath but not that bad they they're not

1990

01:29:48,190 --> 01:29:45,680

that talented and birds they can't they

1991

01:29:52,090 --> 01:29:48,200

can't cut hair follicles in a straight

1992

01:29:54,670 --> 01:29:52,100

line they tear the flesh in between the

1993

01:29:56,860 --> 01:29:54,680

hair and so the first thing I do and

1994

01:29:59,100 --> 01:29:56,870

I've been trying to get our you know

1995

01:30:03,820 --> 01:29:59,110

these newer johnny-come-lately

1996

01:30:06,970 --> 01:30:03,830

investigators to to to wake up and use

1997

01:30:08,770 --> 01:30:06,980

some very very good you know field

1998

01:30:10,540 --> 01:30:08,780

investigative techniques to determine

1999

01:30:12,790 --> 01:30:10,550

the highest range nature of a case and

2000

01:30:15,400 --> 01:30:12,800

if the thing has cut hair follicles

2001

01:30:19,150 --> 01:30:15,410

something with intelligence and with

2002

01:30:21,850 --> 01:30:19,160

tools did that and the other thing that

2003

01:30:23,859 --> 01:30:21,860

I used to do is when I would arrive at

2004

01:30:27,220 --> 01:30:23,869

mutilation site the more pristine the

2005

01:30:29,040 --> 01:30:27,230

better obviously the first investigator

2006

01:30:33,100 --> 01:30:29,050

out of the out of the vehicle would be

2007

01:30:35,560 --> 01:30:33,110

my brother's pyrenees dog and kato would

2008

01:30:38,770 --> 01:30:35,570

go out and immediately investigate the

2009

01:30:41,470 --> 01:30:38,780

entire scene and we very carefully note

2010

01:30:44,740 --> 01:30:41,480

all his animal reactions to the animal

2011

01:30:47,320 --> 01:30:44,750

and we'd uh and we would make notes

2012

01:30:49,899 --> 01:30:47,330

where he pissed because that would tell

2013

01:30:51,790 --> 01:30:49,909

us exactly where the Coyotes were and so

2014

01:30:54,310 --> 01:30:51,800

then we'd be able to instantly zero in

2015

01:30:56,950 --> 01:30:54,320

on any coyote tracks and find out how

2016

01:31:03,609 --> 01:30:56,960

how close they came to to the actual

2017

01:31:06,100 --> 01:31:03,619

scene around the animal so yeah animals

2018

01:31:09,030 --> 01:31:06,110

especially dogs they could smell some

2019

01:31:12,399 --> 01:31:09,040

dogs and small parts per trillion and

2020

01:31:14,950 --> 01:31:12,409

quite a number of cases Kato you know

2021

01:31:16,629 --> 01:31:14,960

who normally is out he's a great

2022

01:31:19,540 --> 01:31:16,639

pyrenees he's he's not afraid of

2023

01:31:21,250 --> 01:31:19,550

anything anything at all and the very

2024

01:31:23,590 --> 01:31:21,260

few cases where he would go out and he'd

2025

01:31:26,169 --> 01:31:23,600

get downwind of the thing and he'd you

2026

01:31:29,379 --> 01:31:26,179

could see the hair standing up and he'd

2027

01:31:32,950 --> 01:31:29,389

come back to the car yeah for the truck

2028

01:31:35,770 --> 01:31:32,960

I should say and yeah there was only a

2029

01:31:37,479 --> 01:31:35,780

few but most of the time he would have

2030

01:31:40,660 --> 01:31:37,489

no fear at all and he'd be drun around

2031

01:31:42,970 --> 01:31:40,670

and anyplace account he would be on a

2032

01:31:45,609 --> 01:31:42,980

bush or something he he would have to

2033

01:31:48,490 --> 01:31:45,619

add his little postcard or whatever so

2034

01:31:52,510 --> 01:31:48,500

how many cases that have you actually

2035

01:31:56,070 --> 01:31:52,520

physically investigated that did have

2036

01:32:00,040 --> 01:31:56,080

cut hair follicles like you're saying

2037

01:32:03,629 --> 01:32:00,050

it's it's it's tough to say without

2038

01:32:10,300 --> 01:32:07,689

probably at least a dozen 15 maybe that

2039

01:32:14,109 --> 01:32:10,310

had actual cut hair follicles there were

2040

01:32:18,340 --> 01:32:14,119

a few others that it was it was

2041

01:32:19,479 --> 01:32:18,350

equivocal there were a few but not it's

2042

01:32:21,189 --> 01:32:19,489

the cases that happened in the

2043

01:32:24,399 --> 01:32:21,199

wintertime when the horse when the horse

2044

01:32:27,490 --> 01:32:24,409

of the cow when their hair is long then

2045

01:32:28,990 --> 01:32:27,500

you can tell easily when it's during the

2046

01:32:32,260 --> 01:32:29,000

warmer months it's a little bit more

2047

01:32:34,120 --> 01:32:32,270

difficult to tell and quite frankly I

2048

01:32:39,490 --> 01:32:34,130

really didn't like

2049

01:32:41,229 --> 01:32:39,500

getting as close to the incisional areas

2050

01:32:43,689 --> 01:32:41,239

as you have to get to really determine

2051

01:32:45,490 --> 01:32:43,699

that and it's my least favorite thing to

2052

01:32:48,580 --> 01:32:45,500

do in the world be around a thousand

2053

01:32:50,770 --> 01:32:48,590

pounds of rotting animal flesh it's not

2054

01:32:52,479 --> 01:32:50,780

for everybody right right so we have a

2055

01:32:55,450 --> 01:32:52,489

caller on the line caller your first

2056

01:32:57,729 --> 01:32:55,460

name where you calling from hi guys it's

2057

01:33:00,399 --> 01:32:57,739

Andy from Stratford Connecticut how you

2058

01:33:02,800 --> 01:33:00,409

doing hi Andy welcome to the show

2059

01:33:05,439 --> 01:33:02,810

you have a market show what's that yeah

2060

01:33:07,990 --> 01:33:05,449

I just wanted to hear I'm always

2061

01:33:11,470 --> 01:33:08,000

interested to hear in experts thoughts

2062

01:33:14,379 --> 01:33:11,480

on what what their opinion is on the

2063

01:33:15,669 --> 01:33:14,389

connection between as I'd asked earlier

2064

01:33:19,660 --> 01:33:15,679

in the chatroom

2065

01:33:22,510 --> 01:33:19,670

these military you know rural farming

2066

01:33:27,850 --> 01:33:22,520

sites and ranches is what the connection

2067

01:33:33,490 --> 01:33:27,860

might be they all share things in common

2068

01:33:35,950 --> 01:33:33,500

Native American tribe military rural you

2069

01:33:37,689 --> 01:33:35,960

know and so on and I'll take your answer

2070

01:33:39,419 --> 01:33:37,699

off the air but just want to know if

2071

01:33:41,919 --> 01:33:39,429

what he thinks the connection might be

2072

01:33:44,439 --> 01:33:41,929

that's it thanks guys thank you thanks

2073

01:33:48,010 --> 01:33:44,449

for the call all righty sure well I've

2074

01:33:50,950 --> 01:33:48,020

talked about a formula that I've kind of

2075

01:33:53,500 --> 01:33:50,960

adopted from dr. Lewis turi

2076

01:33:56,410 --> 01:33:53,510

who came up with was a kind of a rough

2077

01:33:59,200 --> 01:33:56,420

idea of how to identify a hot spot area

2078

01:34:01,510 --> 01:33:59,210

or an area that has more activity in a

2079

01:34:04,419 --> 01:34:01,520

variety and intensity of activity more

2080

01:34:07,540 --> 01:34:04,429

than other areas you know like Sedona is

2081

01:34:09,370 --> 01:34:07,550

the Verde Valley area they're the San

2082

01:34:14,050 --> 01:34:09,380

Luis Valley parts of the Hudson River

2083

01:34:17,410 --> 01:34:14,060

Valley around white sands in New Mexico

2084

01:34:19,000 --> 01:34:17,420

you went to base and around Mount Adams

2085

01:34:21,459 --> 01:34:19,010

around Mount Shasta

2086

01:34:26,260 --> 01:34:21,469

there are hotspot areas parts of the

2087

01:34:28,300 --> 01:34:26,270

Mojave Joshua Tree etc and one thing

2088

01:34:30,729 --> 01:34:28,310

that I found is that there are

2089

01:34:33,550 --> 01:34:30,739

commonalities that exists in all these

2090

01:34:35,740 --> 01:34:33,560

areas number one they have a history of

2091

01:34:38,140 --> 01:34:35,750

unusual occurrences that go back into

2092

01:34:40,060 --> 01:34:38,150

prehistory there there are Native

2093

01:34:43,000 --> 01:34:40,070

American legends about either flying

2094

01:34:44,959 --> 01:34:43,010

seedpods flying shields sky people

2095

01:34:47,750 --> 01:34:44,969

Kachinas

2096

01:34:51,020 --> 01:34:47,760

there are waves of unexplained activity

2097

01:34:54,459 --> 01:34:51,030

that ebb and flow through the area there

2098

01:34:57,129 --> 01:34:54,469

are Native American sacred sites that

2099

01:34:59,569 --> 01:34:57,139

there's unusual geophysical properties

2100

01:35:01,879 --> 01:34:59,579

like we were talking about before the

2101  
01:35:03,049 --> 01:35:01,889  
proximity of minimum/maximum field

2102  
01:35:07,750 --> 01:35:03,059  
strength in the Earth's magnetic field

2103  
01:35:11,419 --> 01:35:07,760  
gravitational loes areas where you have

2104  
01:35:14,120 --> 01:35:11,429  
earthquake faults that sort of thing and

2105  
01:35:15,979 --> 01:35:14,130  
there is a government presence the

2106  
01:35:18,080 --> 01:35:15,989  
government is definitely interested in

2107  
01:35:22,279 --> 01:35:18,090  
these areas whether they have facilities

2108  
01:35:25,430 --> 01:35:22,289  
there whether they do training routes

2109  
01:35:26,779 --> 01:35:25,440  
there they always seem to have an

2110  
01:35:30,109 --> 01:35:26,789  
interest in the area and they're trying

2111  
01:35:33,680 --> 01:35:30,119  
to get more control of the airspace of

2112  
01:35:35,149 --> 01:35:33,690  
the actual land itself Bradshaw ranch in

2113  
01:35:37,640 --> 01:35:35,159

Sedona was appropriated by the

2114

01:35:40,819 --> 01:35:37,650

government there's areas in the Uintah

2115

01:35:42,049 --> 01:35:40,829

Basin that seemed to have unusual

2116

01:35:44,120 --> 01:35:42,059

amounts of military interest in

2117

01:35:46,969 --> 01:35:44,130

government interest so if you put those

2118

01:35:49,189 --> 01:35:46,979

five different things together and an

2119

01:35:50,689 --> 01:35:49,199

area has and features all five of those

2120

01:35:52,219 --> 01:35:50,699

things you have a hotspot area and

2121

01:35:54,500 --> 01:35:52,229

that's a place where I'd like to get a

2122

01:35:57,620 --> 01:35:54,510

triangulated camera and you know

2123

01:36:01,009 --> 01:35:57,630

instrumented scientific instrument array

2124

01:36:02,479 --> 01:36:01,019

set up there ultimately we're hoping to

2125

01:36:04,879 --> 01:36:02,489

have these things spread out all around

2126  
01:36:07,100 --> 01:36:04,889  
North America in hotspot areas and then

2127  
01:36:09,410 --> 01:36:07,110  
branching out into other parts of the

2128  
01:36:12,859 --> 01:36:09,420  
world as well have you thought about how

2129  
01:36:14,509 --> 01:36:12,869  
to keep up any vandals away from you

2130  
01:36:16,310 --> 01:36:14,519  
know like if someone's hiking and all of

2131  
01:36:18,200 --> 01:36:16,320  
a sudden they come across this camera

2132  
01:36:20,750 --> 01:36:18,210  
they're gonna be curious they're gonna

2133  
01:36:22,069 --> 01:36:20,760  
be in secure areas you know there's none

2134  
01:36:23,660 --> 01:36:22,079  
of these things are gonna be out in the

2135  
01:36:27,290 --> 01:36:23,670  
open just for somebody to stumble on

2136  
01:36:29,750 --> 01:36:27,300  
they're gonna be you know either on

2137  
01:36:32,899 --> 01:36:29,760  
people's porches on their roofs on cell

2138  
01:36:34,910 --> 01:36:32,909

towers and people what if the government

2139

01:36:37,040 --> 01:36:34,920

decides to take it out and I say well

2140

01:36:40,009 --> 01:36:37,050

that's great I hope they do because then

2141

01:36:42,589 --> 01:36:40,019

that'll give me information they'll be

2142

01:36:45,919 --> 01:36:42,599

prompted to do that because I they think

2143

01:36:47,299 --> 01:36:45,929

I captured some data and if I captured

2144

01:36:49,250 --> 01:36:47,309

some data and they take the camera out

2145

01:36:51,469 --> 01:36:49,260

then that'll alert me to the fact that

2146

01:36:52,879 --> 01:36:51,479

I'm on to something so I think that

2147

01:36:54,979 --> 01:36:52,889

they're gonna try to fool us so I think

2148

01:36:56,120 --> 01:36:54,989

they're gonna play cat-and-mouse I think

2149

01:36:58,130 --> 01:36:56,130

they're gonna see how much that they can

2150

01:37:01,570 --> 01:36:58,140

get away with whether we missing

2151  
01:37:04,610 --> 01:37:01,580  
Turpin or you know somehow misconstrue

2152  
01:37:07,220 --> 01:37:04,620  
you know maybe some black project that

2153  
01:37:09,110 --> 01:37:07,230  
they they they tried out or maybe some

2154  
01:37:11,420 --> 01:37:09,120  
sort of hologram technology to see if it

2155  
01:37:13,130 --> 01:37:11,430  
fools us I think that I think they're

2156  
01:37:16,040 --> 01:37:13,140  
gonna actually try to have some fun with

2157  
01:37:18,860 --> 01:37:16,050  
us and it's gonna be Tom and Jerry you

2158  
01:37:20,330 --> 01:37:18,870  
know the old cat-and-mouse game and I'm

2159  
01:37:23,420 --> 01:37:20,340  
looking forward to it I think it's great

2160  
01:37:26,540 --> 01:37:23,430  
if they do take it out if they zap it

2161  
01:37:28,550 --> 01:37:26,550  
with a particle beam weapon or a laser

2162  
01:37:30,980 --> 01:37:28,560  
or something like that that means that

2163  
01:37:33,740 --> 01:37:30,990

we found something and all we have to do

2164

01:37:36,200 --> 01:37:33,750

is go back and look look at at our data

2165

01:37:38,840 --> 01:37:36,210

and see what it is that that they got

2166

01:37:41,570 --> 01:37:38,850

them all nervous that harkens back to

2167

01:37:43,340 --> 01:37:41,580

the Paul bennewitz case in a way yeah

2168

01:37:45,830 --> 01:37:43,350

you know that's what happened so yeah

2169

01:37:47,810 --> 01:37:45,840

yeah exactly with him you know because

2170

01:37:50,180 --> 01:37:47,820

he was seeing something maybe he had

2171

01:37:52,970 --> 01:37:50,190

nothing to do with UFOs but it

2172

01:37:54,590 --> 01:37:52,980

definitely had something to do with very

2173

01:37:56,240 --> 01:37:54,600

strong interest well I think he was

2174

01:37:58,730 --> 01:37:56,250

picking up some of the early digital

2175

01:38:01,040 --> 01:37:58,740

burst transmissions as I think the audio

2176

01:38:03,190 --> 01:38:01,050

signals that he was picking up that's my

2177

01:38:06,770 --> 01:38:03,200

guess because that was right when those

2178

01:38:09,800 --> 01:38:06,780

when digitized you know super compressed

2179

01:38:12,280 --> 01:38:09,810

blurt blips of digital data were being

2180

01:38:14,360 --> 01:38:12,290

transmitted and I think that he may have

2181

01:38:17,120 --> 01:38:14,370

accidentally stumbled on some of those

2182

01:38:19,610 --> 01:38:17,130

some of his the colored photographs in

2183

01:38:23,020 --> 01:38:19,620

Chris Slam brights book Exodus sending

2184

01:38:25,850 --> 01:38:23,030

some of those color photographs of the

2185

01:38:27,830 --> 01:38:25,860

lighting arrays that he was able to

2186

01:38:30,530 --> 01:38:27,840

photograph out over the Coyote Canyon

2187

01:38:33,410 --> 01:38:30,540

area which is right you know where the

2188

01:38:35,420 --> 01:38:33,420

old Manzano weapons storage facility

2189

01:38:37,130 --> 01:38:35,430

we've had I think more nuclear weapons

2190

01:38:39,980 --> 01:38:37,140

stored there than any other spot in

2191

01:38:43,460 --> 01:38:39,990

America I think that that's all very

2192

01:38:45,500 --> 01:38:43,470

compelling stuff yeah yeah I know that

2193

01:38:48,730 --> 01:38:45,510

Cole extra sending what a great book

2194

01:38:51,290 --> 01:38:48,740

actually raised information ever that

2195

01:38:54,350 --> 01:38:51,300

yeah that's that's actually how I first

2196

01:38:55,640 --> 01:38:54,360

met Chris I read his book and and we

2197

01:38:58,630 --> 01:38:55,650

stay in touch he's pretty he might be

2198

01:39:01,160 --> 01:38:58,640

listening he does listen to the show

2199

01:39:06,810 --> 01:39:01,170

okay I was just picking up what I

2200

01:39:08,790 --> 01:39:06,820

thought was a question but so

2201  
01:39:12,150 --> 01:39:08,800  
you know and it's very unfortunate what

2202  
01:39:13,920 --> 01:39:12,160  
happened to ball to Paul bennewitz and I

2203  
01:39:17,730 --> 01:39:13,930  
don't know if you've been following this

2204  
01:39:20,490 --> 01:39:17,740  
at all but I'm shocked by what Richard

2205  
01:39:23,880 --> 01:39:20,500  
Doty is out there doing have you seen

2206  
01:39:26,610 --> 01:39:23,890  
any well we had him on the pair of

2207  
01:39:29,370 --> 01:39:26,620  
castle and yeah he did a full two hours

2208  
01:39:31,200 --> 01:39:29,380  
I think it was the third show he ever

2209  
01:39:34,470 --> 01:39:31,210  
did I think he did coast to coast twice

2210  
01:39:39,330 --> 01:39:34,480  
and then we did us Wow that was a real

2211  
01:39:39,930 --> 01:39:39,340  
coup yeah and you know I mean Walter

2212  
01:39:43,200 --> 01:39:39,940  
Bosley

2213  
01:39:45,450 --> 01:39:43,210

is someone else it was you know xaf OSI

2214

01:39:47,430 --> 01:39:45,460

and counterintelligence guy and you know

2215

01:39:49,230 --> 01:39:47,440

Walter's been very upfront saying look

2216

01:39:52,410 --> 01:39:49,240

there's some things that you know we

2217

01:39:55,200 --> 01:39:52,420

just have to be on the lookout for if we

2218

01:39:57,270 --> 01:39:55,210

think that you know China or Russia is

2219

01:39:59,550 --> 01:39:57,280

trying to trying to get information

2220

01:40:01,800 --> 01:39:59,560

about classified projects and we're

2221

01:40:04,860 --> 01:40:01,810

gonna have to you know mount our counter

2222

01:40:08,220 --> 01:40:04,870

surveillance efforts to ascertain

2223

01:40:10,620 --> 01:40:08,230

whether there's some you know industrial

2224

01:40:13,980 --> 01:40:10,630

or you know technological espionage

2225

01:40:15,840 --> 01:40:13,990

going on and and so when someone like a

2226

01:40:17,550 --> 01:40:15,850

bennewitz comes along and and says look

2227

01:40:20,520 --> 01:40:17,560

I got these recordings of these weird

2228

01:40:22,500 --> 01:40:20,530

audio signals and I've got these strange

2229

01:40:25,050 --> 01:40:22,510

photographs and the fact that he was

2230

01:40:29,550 --> 01:40:25,060

putting the analysis and spin on it that

2231

01:40:34,610 --> 01:40:29,560

it was et gave them a perfect you know

2232

01:40:37,410 --> 01:40:34,620

sort of way to approach him and and in

2233

01:40:39,570 --> 01:40:37,420

feed that fantasy to keep him away from

2234

01:40:42,180 --> 01:40:39,580

thinking that maybe it's it's some sort

2235

01:40:43,800 --> 01:40:42,190

of classified Air Force or project out

2236

01:40:44,190 --> 01:40:43,810

at Sandia there on Kirtland Air Force

2237

01:40:47,430 --> 01:40:44,200

Base

2238

01:40:49,800 --> 01:40:47,440

so going the extra yard and driving the

2239

01:40:52,460 --> 01:40:49,810

guy crazy and and moving his furniture

2240

01:40:54,990 --> 01:40:52,470

around which Doty denies by the way and

2241

01:40:56,550 --> 01:40:55,000

and you know putting the groceries you

2242

01:40:59,640 --> 01:40:56,560

know out of one cabinet and the other

2243

01:41:01,830 --> 01:40:59,650

some of the other things that Greg

2244

01:41:04,350 --> 01:41:01,840

Bishop mentioned and his very very good

2245

01:41:05,340 --> 01:41:04,360

book project beta about the banner Woods

2246

01:41:08,370 --> 01:41:05,350

case all right

2247

01:41:11,040 --> 01:41:08,380

Ill think that that was going a little

2248

01:41:12,910 --> 01:41:11,050

bit overboard myself and if somebody's a

2249

01:41:16,240 --> 01:41:12,920

little twitchy to begin with and

2250

01:41:17,979 --> 01:41:16,250

prone to to maybe getting delusional and

2251

01:41:21,130 --> 01:41:17,989

developing mental ease you know health

2252

01:41:24,270 --> 01:41:21,140

issues I think I think it's the

2253

01:41:26,890 --> 01:41:24,280

responsibility of of counterintelligence

2254

01:41:30,220 --> 01:41:26,900

officials and officers and in case case

2255

01:41:32,020 --> 01:41:30,230

officers to you know to not be in a

2256

01:41:36,520 --> 01:41:32,030

position to be able to be blamed for

2257

01:41:39,880 --> 01:41:36,530

guys losing his you know his sanity it's

2258

01:41:41,910 --> 01:41:39,890

very very unfortunate and there's you

2259

01:41:45,510 --> 01:41:41,920

know you can't you can't make excuses to

2260

01:41:48,189 --> 01:41:45,520

you know to explain away that kind of

2261

01:41:50,530 --> 01:41:48,199

over overreach on the fact that by those

2262

01:41:52,510 --> 01:41:50,540

by the government so what type of

2263

01:41:55,900 --> 01:41:52,520

conversation did you have with Richard

2264

01:41:58,240 --> 01:41:55,910

Doty about Paul was he willing to speak

2265

01:42:00,610 --> 01:41:58,250

about what how you know yeah he in fact

2266

01:42:03,010 --> 01:42:00,620

he's he mentioned something I had

2267

01:42:04,090 --> 01:42:03,020

totally forgotten from Greg's book that

2268

01:42:07,060 --> 01:42:04,100

they noticed that there was somebody

2269

01:42:10,419 --> 01:42:07,070

watching them they're they're like

2270

01:42:11,410 --> 01:42:10,429

surveilling bennewitz then they realized

2271

01:42:13,330 --> 01:42:11,420

there was a house across the street

2272

01:42:15,370 --> 01:42:13,340

that's that's empty that nobody lives in

2273

01:42:17,860 --> 01:42:15,380

there's there's there's movement and

2274

01:42:20,020 --> 01:42:17,870

stuff in there and so they they they did

2275

01:42:21,790 --> 01:42:20,030

a the only punk - it wasn't the found

2276

01:42:25,360 --> 01:42:21,800

out it was the NSA or some other agency

2277

01:42:30,550 --> 01:42:25,370

there was monitoring them so you don't

2278

01:42:36,010 --> 01:42:30,560

know how deep the rabbit-hole now but

2279

01:42:39,450 --> 01:42:36,020

the I watched some part of a of a movie

2280

01:42:41,200 --> 01:42:39,460

I think it was a the latest Steven Greer

2281

01:42:46,900 --> 01:42:41,210

movie

2282

01:42:52,900 --> 01:42:46,910

Lesa Lesa people baby watch it we forced

2283

01:42:54,790 --> 01:42:52,910

me to watch it but Richard Doty is on

2284

01:43:01,510 --> 01:42:54,800

there saying talking about like these

2285

01:43:03,820 --> 01:43:01,520

things are real aliens he was saying

2286

01:43:05,830 --> 01:43:03,830

that - I mean come on once you're you

2287

01:43:09,490 --> 01:43:05,840

know in the business of lying for a

2288

01:43:12,000 --> 01:43:09,500

living yeah you know how is anybody

2289

01:43:15,100 --> 01:43:12,010

gonna take you seriously the whole serpo

2290

01:43:18,490 --> 01:43:15,110

thing that happened Victor Martinez if

2291

01:43:20,970 --> 01:43:18,500

we ever gotten on on Victor the Wizards

2292

01:43:23,320 --> 01:43:20,980

email list it's really tough to get off

2293

01:43:24,290 --> 01:43:23,330

you know he I don't know how many people

2294

01:43:26,839 --> 01:43:24,300

out there

2295

01:43:28,760 --> 01:43:26,849

see know about the Serpa thing which is

2296

01:43:32,180 --> 01:43:28,770

if you remember back to close encounter

2297

01:43:34,100 --> 01:43:32,190

of the Third Kind the the 13 astronauts

2298

01:43:36,560 --> 01:43:34,110

in the orange jumpsuits that got aboard

2299

01:43:39,350 --> 01:43:36,570

the ship the whole serpo thing is a

2300

01:43:42,200 --> 01:43:39,360

story that surfaced in 2004 and 5 I

2301

01:43:45,049 --> 01:43:42,210

think that this actually happened and

2302

01:43:46,490 --> 01:43:45,059

that two of the people died and I think

2303

01:43:50,209 --> 01:43:46,500

one was left behind the two were left

2304

01:43:52,910 --> 01:43:50,219

behind serpo which is I think in Zeta

2305

01:44:01,370 --> 01:43:52,920

Reticuli it's just all about you just

2306

01:44:04,549 --> 01:44:01,380

you know how do you do that in it's it's

2307

01:44:06,770 --> 01:44:04,559

it's all just I mean it's hide in your

2308

01:44:10,209 --> 01:44:06,780

grandma's basement with some Vaseline

2309

01:44:13,339 --> 01:44:10,219

material it's just not it's not worth

2310

01:44:16,129 --> 01:44:13,349

the paper it's printed on III there's so

2311

01:44:17,870 --> 01:44:16,139

many holes and that in and dodi of

2312

01:44:22,040 --> 01:44:17,880

course he says oh I had nothing to do

2313

01:44:23,600 --> 01:44:22,050

with that but the email that divulged

2314

01:44:26,240 --> 01:44:23,610

the information correct me if I'm wrong

2315

01:44:30,200 --> 01:44:26,250

here was they were able to trace it back

2316

01:44:33,069 --> 01:44:30,210

to him the original email that Martinez

2317

01:44:36,680 --> 01:44:33,079

got or something like that I mean it's

2318

01:44:38,629 --> 01:44:36,690

this stuff is so tawdry I really try to

2319

01:44:41,000 --> 01:44:38,639

stay above the fray and not pay much

2320

01:44:43,370 --> 01:44:41,010

attention to it but and the dulce of

2321

01:44:46,040 --> 01:44:43,380

course all all was another distraction

2322

01:44:48,439 --> 01:44:46,050

yeah yeah that was all bennewitz being

2323

01:44:50,839 --> 01:44:48,449

led astray he said yo he flew up there

2324

01:44:53,839 --> 01:44:50,849

and saw a spaceship on the top of the

2325

01:44:56,209 --> 01:44:53,849

Mesa and I mean I lived pretty close to

2326

01:44:58,370 --> 01:44:56,219

Dulce for 14 years but there are some

2327

01:44:59,950 --> 01:44:58,380

weird things going on sure there's some

2328

01:45:02,990 --> 01:44:59,960

weird things going on there but the

2329

01:45:05,870 --> 01:45:03,000

thing that most people are familiar with

2330

01:45:07,580 --> 01:45:05,880

the ground race well that's that's all

2331

01:45:09,290 --> 01:45:07,590

that's for the outside people that's

2332

01:45:10,220 --> 01:45:09,300

just to keep everybody you know looking

2333

01:45:12,410 --> 01:45:10,230

in the wrong direction

2334

01:45:14,089 --> 01:45:12,420

the thing that spooks the Indians the

2335

01:45:15,620 --> 01:45:14,099

most are the little two-foot dwarves

2336

01:45:18,649 --> 01:45:15,630

that are seen all over the place they're

2337

01:45:21,919 --> 01:45:18,659

in right in town they jump on cars in

2338

01:45:22,760 --> 01:45:21,929

the parking lot of casino and in the

2339

01:45:24,939 --> 01:45:22,770

Bigfoot sightings

2340

01:45:27,020 --> 01:45:24,949

Hoyt Velarde who was the head of the

2341

01:45:29,020 --> 01:45:27,030

Department of Public Safety there for

2342

01:45:31,910 --> 01:45:29,030

four years I've known him for many years

2343

01:45:34,339 --> 01:45:31,920

yeah he he went out he says on at least

2344

01:45:35,950 --> 01:45:34,349

a hundred Bigfoot reports including one

2345

01:45:38,850 --> 01:45:35,960

event that he had happen right the

2346

01:45:42,340 --> 01:45:38,860

up close and personal on his own ranch

2347

01:45:43,930 --> 01:45:42,350

so in when I was up there in 2009 I saw

2348

01:45:46,060 --> 01:45:43,940

some really good footage

2349

01:45:47,950 --> 01:45:46,070

I wish whoever it was and had the cell

2350

01:45:49,330 --> 01:45:47,960

phone footage would release it that's

2351

01:45:51,280 --> 01:45:49,340

some of the best footage I've ever seen

2352

01:45:53,620 --> 01:45:51,290

thing ran right across the road it

2353

01:45:56,709 --> 01:45:53,630

didn't look like some Indian drunk

2354

01:45:59,110 --> 01:45:56,719

Indian in a big Wookiee suit either I

2355

01:46:01,900 --> 01:45:59,120

mean it was impressive you could see the

2356

01:46:03,459 --> 01:46:01,910

whites of the underneath of the feet no

2357

01:46:05,979 --> 01:46:03,469

and it was running away and in the

2358

01:46:10,990 --> 01:46:05,989

headlights so you know the whole Dulce

2359

01:46:14,920 --> 01:46:11,000

thing is to me is one of the weird

2360

01:46:17,440 --> 01:46:14,930

things there I actually bill birnes

2361

01:46:19,660 --> 01:46:17,450

you know UFO Hunters you some people may

2362

01:46:24,130 --> 01:46:19,670

like that show some may not I personally

2363

01:46:27,970 --> 01:46:24,140

like bill birnes and he they saw the

2364

01:46:30,100 --> 01:46:27,980

strange half cow half something else I

2365

01:46:34,780 --> 01:46:30,110

don't know if you ever saw that show but

2366

01:46:37,600 --> 01:46:34,790

it was really really bizarre this it was

2367

01:46:40,330 --> 01:46:37,610

a cow gave birth yeah it was it was like

2368

01:46:42,700 --> 01:46:40,340

a genetic it was just a weird deform

2369

01:46:48,490 --> 01:46:42,710

calf I mean that's probably yeah yeah I

2370

01:46:52,180 --> 01:46:48,500

mean you know I because of the way these

2371

01:46:56,380 --> 01:46:52,190

these animals you know some of them are

2372

01:46:59,440 --> 01:46:56,390

able to become friendly with their own

2373

01:47:01,930 --> 01:46:59,450

progeny and stuff you know occasionally

2374

01:47:03,850 --> 01:47:01,940

in some of these closed herds you'll

2375

01:47:07,479 --> 01:47:03,860

you'll get some pretty interesting

2376

01:47:08,860 --> 01:47:07,489

genetic deformities and stuff and that's

2377

01:47:12,459 --> 01:47:08,870

all that we never want to rule that out

2378

01:47:16,290 --> 01:47:12,469

this is just like you know the atacama

2379

01:47:19,470 --> 01:47:16,300

baby it was definitely you know it's

2380

01:47:26,080 --> 01:47:19,480

well that's a Steven Greer

2381

01:47:28,479 --> 01:47:26,090

I'll see you he hasn't yet and if anyone

2382

01:47:34,720 --> 01:47:28,489

looks really hard on YouTube you can

2383

01:47:37,180 --> 01:47:34,730

find a spoof I did on on Steven Greer on

2384

01:47:39,610 --> 01:47:37,190

the attic home of baby so just check it

2385

01:47:42,400 --> 01:47:39,620

out on YouTube the only karaoke I've

2386

01:47:46,189 --> 01:47:42,410

ever done sounds like a rap song at a

2387

01:47:50,240 --> 01:47:46,199

coma baby actually

2388

01:47:58,130 --> 01:47:50,250

whoops we just lost I just lost what you

2389

01:48:00,380 --> 01:47:58,140

do okay so here we're back okay I

2390

01:48:01,550 --> 01:48:00,390

thought we lost the connection here good

2391

01:48:05,510 --> 01:48:01,560

good

2392

01:48:08,470 --> 01:48:05,520

so on the topic of liars is Shane from

2393

01:48:11,570 --> 01:48:08,480

Australia again on the topic of liars

2394

01:48:17,919 --> 01:48:11,580

that's a good opening do have an opinion

2395

01:48:24,260 --> 01:48:21,200

document a documentary coming out on him

2396

01:48:26,810 --> 01:48:24,270

fairly so jeremy Korb was doing I

2397

01:48:29,990 --> 01:48:26,820

don't know what to make a Lazaro I think

2398

01:48:32,330 --> 01:48:30,000

he may have been profiled in his psych

2399

01:48:35,360 --> 01:48:32,340

psych profiles I think he did work out

2400

01:48:38,660 --> 01:48:35,370

there I think he did have some

2401

01:48:41,330 --> 01:48:38,670

experiences but I think he may have day

2402

01:48:43,610 --> 01:48:41,340

may have set him up because he may be

2403

01:48:45,890 --> 01:48:43,620

fit some sort of profile for someone

2404

01:48:47,750 --> 01:48:45,900

that would see things and even though he

2405

01:48:50,689 --> 01:48:47,760

wasn't supposed to say anything about it

2406

01:48:53,419 --> 01:48:50,699

he may have come out in his profile that

2407

01:48:56,689 --> 01:48:53,429

he would talk so maybe he set him up for

2408

01:48:58,640 --> 01:48:56,699

some really good disinformation so he

2409

01:49:00,680 --> 01:48:58,650

would then approach John Lear and then a

2410

01:49:04,220 --> 01:49:00,690

you know approached George Knapp and

2411

01:49:08,300 --> 01:49:04,230

however that whole disclosure of those

2412

01:49:10,370 --> 01:49:08,310

area 51 secrets came out my eyes glaze

2413

01:49:14,270 --> 01:49:10,380

over when I when I hear the name Bob

2414

01:49:16,700 --> 01:49:14,280

Lazar Richard Doty or some of these

2415

01:49:18,140 --> 01:49:16,710

people I I mean I'm into the really

2416

01:49:22,220 --> 01:49:18,150

trying to get to the bottom of this

2417

01:49:25,250 --> 01:49:22,230

stuff by exercising you know the powers

2418

01:49:26,780 --> 01:49:25,260

of diagnostic science the people's stuff

2419

01:49:29,390 --> 01:49:26,790

really leave me cold especially when

2420

01:49:33,530 --> 01:49:29,400

it's the government trying to get people

2421

01:49:36,620 --> 01:49:33,540

to propagate memes and and dis inform

2422

01:49:39,709 --> 01:49:36,630

the public I really have no time for

2423

01:49:42,020 --> 01:49:39,719

that there's someone that just wrote in

2424

01:49:44,120 --> 01:49:42,030

I don't know if this is I don't have any

2425

01:49:46,610 --> 01:49:44,130

proof of this it's just so it's someone

2426

01:49:47,959 --> 01:49:46,620

wrote in the chat room and I'd like to

2427

01:49:51,169 --> 01:49:47,969

if someone can send me a link I'm

2428

01:49:53,930 --> 01:49:51,179

interested to see it that dr. Greer is

2429

01:49:57,830 --> 01:49:53,940

accusing Noland of academic academic

2430

01:49:58,580 --> 01:49:57,840

fraud in is there's a court action

2431

01:50:00,169 --> 01:49:58,590

pending of

2432

01:50:05,149 --> 01:50:00,179

someone could send that I'm interested

2433

01:50:07,280 --> 01:50:05,159

is accusing who now Nolan was Martin

2434

01:50:08,300 --> 01:50:07,290

Nolan I think is I think I thought his

2435

01:50:10,580 --> 01:50:08,310

first name was that but it may be

2436

01:50:13,459 --> 01:50:10,590

something else he was one of the doctors

2437

01:50:15,200 --> 01:50:13,469

involved out at Stanford that's right

2438

01:50:17,899 --> 01:50:15,210

yeah yeah yeah well good luck with that

2439

01:50:20,479 --> 01:50:17,909

Stephen I've been telling Stephen at

2440

01:50:24,260 --> 01:50:20,489

least way back when I first met him over

2441

01:50:26,180 --> 01:50:24,270

25 years ago in fact I presented a

2442

01:50:28,100 --> 01:50:26,190

little talk about the San Luis Valley he

2443

01:50:30,459 --> 01:50:28,110

was visiting in the valley with some

2444

01:50:32,540 --> 01:50:30,469

super wealthy High Roller types

2445

01:50:35,060 --> 01:50:32,550

including Lawrence Rockefellers

2446

01:50:37,250 --> 01:50:35,070

right-hand man and I had been fighting a

2447

01:50:39,020 --> 01:50:37,260

brushfire and was late and I was not in

2448

01:50:42,379 --> 01:50:39,030

a good mood and when I walked in and he

2449

01:50:44,810 --> 01:50:42,389

started in on his you know messianic

2450

01:50:48,919 --> 01:50:44,820

thing I interrupted him three times and

2451  
01:50:54,500 --> 01:50:48,929  
said Stephen your message is way more

2452  
01:50:56,540 --> 01:50:54,510  
important than you are and that's you

2453  
01:50:59,390 --> 01:50:56,550  
know people say what do you think about

2454  
01:51:01,280 --> 01:50:59,400  
Steven Greer his message is way more

2455  
01:51:03,439 --> 01:51:01,290  
important than he is and who the hell

2456  
01:51:05,990 --> 01:51:03,449  
elected him humankind's ambassador to

2457  
01:51:08,540 --> 01:51:06,000  
the universe and who gives him the right

2458  
01:51:11,530 --> 01:51:08,550  
to train people and charge them God

2459  
01:51:14,120 --> 01:51:11,540  
godly ungodly amounts of money to become

2460  
01:51:16,910 --> 01:51:14,130  
humankind's ambassadors to the universe

2461  
01:51:21,589 --> 01:51:16,920  
to be it's just you know it's called yes

2462  
01:51:24,470 --> 01:51:21,599  
and yeah and to charge them for taking

2463  
01:51:28,910 --> 01:51:24,480

pictures of the spaceship that you can't

2464

01:51:31,000 --> 01:51:28,920

really see yeah well I you know don't

2465

01:51:33,680 --> 01:51:31,010

get me you know that's will cocky and I

2466

01:51:37,100 --> 01:51:33,690

think now we're getting into the realm

2467

01:51:40,640 --> 01:51:37,110

of the whistleblowers and you know

2468

01:51:43,970 --> 01:51:40,650

that's where I get in trouble when I

2469

01:51:47,899 --> 01:51:43,980

start talking about these these you know

2470

01:51:49,070 --> 01:51:47,909

PT Barnum types capitalizing on suckers

2471

01:51:52,189 --> 01:51:49,080

born every minute

2472

01:51:54,379 --> 01:51:52,199

I have no time for that BS we only have

2473

01:51:57,919 --> 01:51:54,389

a few minutes left but you you were

2474

01:52:00,919 --> 01:51:57,929

mentioning you're thinking that one of

2475

01:52:04,319 --> 01:52:00,929

the ones that you went and we got three

2476

01:52:07,959 --> 01:52:04,329

minutes to wrap here so

2477

01:52:12,010 --> 01:52:07,969

contact in the desert you you you're

2478

01:52:15,100 --> 01:52:12,020

just seeing that things are just new age

2479

01:52:18,640 --> 01:52:15,110

is that what it is it's it's people that

2480

01:52:21,459 --> 01:52:18,650

are so rapidly in the place of wanting

2481

01:52:23,680 --> 01:52:21,469

to believe that they're looking for

2482

01:52:26,470 --> 01:52:23,690

anything that supports some sort of

2483

01:52:28,330 --> 01:52:26,480

weird dysfunctional narrative that they

2484

01:52:31,930 --> 01:52:28,340

have in their brain about what's going

2485

01:52:34,299 --> 01:52:31,940

on and so David Wilcock and these others

2486

01:52:35,979 --> 01:52:34,309

are presenting people that are filling

2487

01:52:37,359 --> 01:52:35,989

in blanks and narratives that have

2488

01:52:39,310 --> 01:52:37,369

already false narratives that have

2489

01:52:40,629 --> 01:52:39,320

already been presented and now these

2490

01:52:42,760 --> 01:52:40,639

people are coming along and they're

2491

01:52:43,270 --> 01:52:42,770

filling in blanks they're there they're

2492

01:52:46,209 --> 01:52:43,280

there

2493

01:52:49,660 --> 01:52:46,219

fleshing out the the meme if you will

2494

01:52:51,490 --> 01:52:49,670

and it's all entertainment there's

2495

01:52:52,870 --> 01:52:51,500

nothing to back any of this stuff up

2496

01:52:55,030 --> 01:52:52,880

every Smith

2497

01:52:56,799 --> 01:52:55,040

show me your dd-214 your separation

2498

01:52:57,399 --> 01:52:56,809

agreement with me with the with the

2499

01:53:00,490 --> 01:52:57,409

government

2500

01:53:02,790 --> 01:53:00,500

show me that let me see it tells you

2501  
01:53:04,870 --> 01:53:02,800  
where you were how long you were there

2502  
01:53:08,470 --> 01:53:04,880  
everybody that's been in the military

2503  
01:53:10,720 --> 01:53:08,480  
house one where's yours 3,000 aliens you

2504  
01:53:14,680 --> 01:53:10,730  
autopsy right and how old are you you

2505  
01:53:17,020 --> 01:53:14,690  
don't look like you're even 40 are you

2506  
01:53:20,709 --> 01:53:17,030  
actually are you actually witnessing

2507  
01:53:23,379 --> 01:53:20,719  
them him saying this did you witness him

2508  
01:53:26,649 --> 01:53:23,389  
sighs just something you think I would

2509  
01:53:28,450 --> 01:53:26,659  
waste my precious time and listening to

2510  
01:53:30,399 --> 01:53:28,460  
this guy I just take cliff notes from

2511  
01:53:33,549 --> 01:53:30,409  
other people like oh you should heard

2512  
01:53:36,609 --> 01:53:33,559  
what you said you suppose the Newlands

2513  
01:53:38,589 --> 01:53:36,619

it's like okay whatever

2514

01:53:40,060 --> 01:53:38,599

you know David Wilcock will come up with

2515

01:53:42,640 --> 01:53:40,070

some you know Corey Goode was the last

2516

01:53:44,169 --> 01:53:42,650

one now we have Daenerys Smith and Pete

2517

01:53:46,810 --> 01:53:44,179

Peterson was the one before

2518

01:53:48,910 --> 01:53:46,820

Corey Goode and dan burisch was the one

2519

01:53:51,700 --> 01:53:48,920

before that this is all a bunch of

2520

01:53:53,589 --> 01:53:51,710

disinformation BS as far as I could sir

2521

01:53:56,379 --> 01:53:53,599

there's no proof to back any of it up

2522

01:53:59,200 --> 01:53:56,389

there's always I think from the very

2523

01:54:01,270 --> 01:53:59,210

beginning though in the UFOs in

2524

01:54:03,430 --> 01:54:01,280

particular the contactee movement

2525

01:54:05,589 --> 01:54:03,440

there's always been this sort of fringe

2526

01:54:07,060 --> 01:54:05,599

element that's all I think will always

2527

01:54:11,850 --> 01:54:07,070

be there for you do you think it's

2528

01:54:15,450 --> 01:54:11,860

growing yeah it's like a virus

2529

01:54:17,640 --> 01:54:15,460

and what would you say to like the

2530

01:54:20,430 --> 01:54:17,650

listener to protect themselves from it

2531

01:54:23,399 --> 01:54:20,440

just you know for advice what would you

2532

01:54:24,540 --> 01:54:23,409

say well first of all you know question

2533

01:54:26,729 --> 01:54:24,550

everything yeah

2534

01:54:28,500 --> 01:54:26,739

don't believe anything don't suspend

2535

01:54:29,280 --> 01:54:28,510

your disbelief just because you want it

2536

01:54:32,310 --> 01:54:29,290

to be true

2537

01:54:34,169 --> 01:54:32,320

number one dude Egypt diligence do your

2538

01:54:37,290 --> 01:54:34,179

research find people that you respect

2539

01:54:39,419 --> 01:54:37,300

and that are objective that aren't gonna

2540

01:54:42,660 --> 01:54:39,429

give you a bill of goods and fill your

2541

01:54:44,549 --> 01:54:42,670

head with with bad science fiction and

2542

01:54:46,589 --> 01:54:44,559

do your own research don't sit in your

2543

01:54:51,149 --> 01:54:46,599

arm chairs and believe and accept

2544

01:54:53,609 --> 01:54:51,159

everything at face value yeah yeah oh no

2545

01:54:56,850 --> 01:54:53,619

no I agree so if someone wanted to

2546

01:55:00,359 --> 01:54:56,860

contact you are you do you gauge with

2547

01:55:02,729 --> 01:55:00,369

yeah oh absolutely yeah go to our

2548

01:55:06,350 --> 01:55:02,739

strange planet calm it's a strange

2549

01:55:08,879 --> 01:55:06,360

planet Martin it's our strange planet

2550

01:55:10,530 --> 01:55:08,889

and then very soon we'll have some

2551  
01:55:12,629 --> 01:55:10,540  
announcements about the GoFundMe

2552  
01:55:15,750 --> 01:55:12,639  
campaign for the San Luis Valley

2553  
01:55:18,870 --> 01:55:15,760  
monitoring project and also we're going

2554  
01:55:21,240 --> 01:55:18,880  
to have a website and the streaming you

2555  
01:55:24,649 --> 01:55:21,250  
know the the the actual images the

2556  
01:55:28,229 --> 01:55:24,659  
patrol function will be screaming 24/7

2557  
01:55:30,510 --> 01:55:28,239  
well great excellent hey Chris thanks so

2558  
01:55:34,290 --> 01:55:30,520  
much oh yeah thanks to the lobster man

2559  
01:55:38,640 --> 01:55:34,300  
yeah yeah all right so all right so

2560  
01:55:41,100 --> 01:55:38,650  
everyone we are going to call it a night

2561  
01:55:43,530 --> 01:55:41,110  
thank you so much for listening or

2562  
01:55:47,640 --> 01:55:43,540  
watching on youtube or over at kgr a

2563  
01:55:53,010 --> 01:55:47,650

radio we'll be back next week as always

2564

01:55:54,629 --> 01:55:53,020

and next week's guest and I just want to

2565

01:55:57,810 --> 01:55:54,639

make sure I have that right

2566

01:55:59,790 --> 01:55:57,820

because that is Jennifer Stein so we're

2567

01:56:02,160 --> 01:55:59,800

going to be talking a little bit about

2568

01:56:03,870 --> 01:56:02,170

crop circles that'll be kind of

2569

01:56:05,189 --> 01:56:03,880

interesting I saw her you know I've been

2570

01:56:06,569 --> 01:56:05,199

Larry it's kind of like the cattle

2571

01:56:09,500 --> 01:56:06,579

mutilations I don't know if there's any

2572

01:56:13,350 --> 01:56:09,510

I don't really see any connection but

2573

01:56:14,939 --> 01:56:13,360

Linda I mean Jennifer does such a great

2574

01:56:17,100 --> 01:56:14,949

presentation I said you know I'd love to

2575

01:56:18,720 --> 01:56:17,110

have you on your show to hear you do

2576

01:56:21,540 --> 01:56:18,730

that again because it was really good

2577

01:56:24,180 --> 01:56:21,550

this was when I saw her out in out in

2578

01:56:25,699 --> 01:56:24,190

Phoenix so thank you so much everyone

2579

01:56:30,330 --> 01:56:25,709

and thanks for listening

2580

01:56:31,500 --> 01:56:30,340

@kg are a radio and I want to thank

2581

01:56:34,469 --> 01:56:31,510

people that helped out with the show

2582

01:56:35,219 --> 01:56:34,479

first of all Evan for helping out behind

2583

01:56:37,739 --> 01:56:35,229

the scenes

2584

01:56:41,279 --> 01:56:37,749

I want to thank Peggy for managing the

2585

01:56:44,969 --> 01:56:41,289

Facebook page race over at kgr a radio

2586

01:56:47,310 --> 01:56:44,979

and I know I'm forgetting people but

2587

01:56:48,779 --> 01:56:47,320

thanks for listening you're the most

2588

01:56:51,659 --> 01:56:48,789

important couldn't do the show without
