

KEVIN RANDLE

1
00:00:05,210 --> 00:00:02,990
hello and welcome to the show I'm Martin

2
00:00:07,670 --> 00:00:05,220
Willis your host and we have a great one

3
00:00:10,549 --> 00:00:07,680
tonight we have an Kevin Randle is going

4
00:00:13,910 --> 00:00:10,559
to be on the show repeat guests always

5
00:00:16,880 --> 00:00:13,920
great to talk to Kevin and just before I

6
00:00:21,470 --> 00:00:16,890
forget next week we have Chris Cogswell

7
00:00:25,310 --> 00:00:21,480
on the following Saturday probably after

8
00:00:28,509 --> 00:00:25,320
that which is a 28th I will be live at

9
00:00:32,030 --> 00:00:28,519
the cherry hill of the annual MUFON

10
00:00:34,370 --> 00:00:32,040
symposium and that's that show is going

11
00:00:36,440 --> 00:00:34,380
to be only on YouTube and it's only

12
00:00:40,100 --> 00:00:36,450
going to be four also for supporters of

13
00:00:42,110 --> 00:00:40,110

the show to be able to listen to that as

14

00:00:46,610 --> 00:00:42,120

an audio podcast that'll be posted

15

00:00:48,470 --> 00:00:46,620

sometime as a bonus show for that so if

16

00:00:50,360 --> 00:00:48,480

you want to know when that's playing

17

00:00:53,750 --> 00:00:50,370

live the best thing you can do is

18

00:00:57,470 --> 00:00:53,760

actually check in on my website on say

19

00:01:01,939 --> 00:00:57,480

Friday night of the 27th I'll talk about

20

00:01:03,319 --> 00:01:01,949

this again next week and so I want to

21

00:01:05,420 --> 00:01:03,329

thank it one that supports the show

22

00:01:09,530 --> 00:01:05,430

anyone can do that that informations on

23

00:01:11,899 --> 00:01:09,540

podcast UFO calm also over there we have

24

00:01:13,640 --> 00:01:11,909

a UFO sightings page there's some

25

00:01:15,170 --> 00:01:13,650

interesting sightings on there if you

26

00:01:17,480 --> 00:01:15,180

want to post it a sighting you can

27

00:01:20,749 --> 00:01:17,490

remain anonymous as well there's a

28

00:01:23,710 --> 00:01:20,759

there's a forum for that also there and

29

00:01:28,580 --> 00:01:23,720

we'd love to hear about your sighting

30

00:01:31,580 --> 00:01:28,590

and I have a special person on the show

31

00:01:34,240 --> 00:01:31,590

right now because he's special because

32

00:01:39,140 --> 00:01:34,250

it's his birthday

33

00:01:42,560 --> 00:01:39,150

alejandro happy birthday to you man

34

00:01:44,030 --> 00:01:42,570

my birthday's not today oh you got the

35

00:01:44,960 --> 00:01:44,040

wrong information I got the wrong

36

00:01:47,359 --> 00:01:44,970

alejandro

37

00:01:50,660 --> 00:01:47,369

no I know it's your birthday you can't

38

00:01:53,660 --> 00:01:50,670

hide you can't yeah you're right it's my

39

00:01:56,600 --> 00:01:53,670

birthday yeah yes it is so and yours was

40

00:01:58,100 --> 00:01:56,610

was recent right I missed yours yeah ten

41

00:02:01,700 --> 00:01:58,110

days ago or something like that yeah

42

00:02:04,010 --> 00:02:01,710

yeah yeah so maybe you can sing happy

43

00:02:07,399 --> 00:02:04,020

birthday to me and then I'll sing it to

44

00:02:08,930 --> 00:02:07,409

you at the same time that would be some

45

00:02:11,229 --> 00:02:08,940

great radio just gonna lose a lot of

46

00:02:13,910 --> 00:02:11,239

listeners you you realize that right

47

00:02:17,030 --> 00:02:13,920

but happy birthday

48

00:02:20,330 --> 00:02:17,040

right back at you pigs thanks yeah which

49

00:02:23,660 --> 00:02:20,340

day is yours the seventh Oh see my mom's

50

00:02:26,030 --> 00:02:23,670

is on the ninth I love being a July baby

51
00:02:27,170 --> 00:02:26,040
it's a great month especially in New

52
00:02:30,110 --> 00:02:27,180
England the summers are just so

53
00:02:32,240 --> 00:02:30,120
wonderful here you know the best time of

54
00:02:35,150 --> 00:02:32,250
year and and people are still

55
00:02:37,160 --> 00:02:35,160
high-spirited from the jollof July 4th

56
00:02:39,020 --> 00:02:37,170
you know celebration and you know you

57
00:02:41,420 --> 00:02:39,030
still have fireworks going off here and

58
00:02:43,130 --> 00:02:41,430
there and you know whether it's perfect

59
00:02:46,220 --> 00:02:43,140
usually mosquitoes are kind of lightened

60
00:02:49,040 --> 00:02:46,230
up a little bit all that stuff well you

61
00:02:53,059 --> 00:02:49,050
know why I missed your birthday you were

62
00:02:55,280 --> 00:02:53,069
oh you weren't here last week also so

63
00:02:59,150 --> 00:02:55,290

yeah everyone missed you last week I got

64

00:03:01,280 --> 00:02:59,160

some messages about how people Kirstin

65

00:03:02,140 --> 00:03:01,290

me out yeah so what were you going to

66

00:03:04,759 --> 00:03:02,150

say

67

00:03:07,100 --> 00:03:04,769

Roswell that's right hey before we talk

68

00:03:10,460 --> 00:03:07,110

about anything I have a I have a very

69

00:03:12,289 --> 00:03:10,470

interesting question that someone sent

70

00:03:16,130 --> 00:03:12,299

me I think just an honest simple

71

00:03:18,229 --> 00:03:16,140

question and an email and I wanted to

72

00:03:21,650 --> 00:03:18,239

take it run it by you and get your

73

00:03:24,199 --> 00:03:21,660

feedback on it and that's hang on let me

74

00:03:26,030 --> 00:03:24,209

just pull up the email it's oh I think I

75

00:03:28,340 --> 00:03:26,040

know what this question is oh you do

76

00:03:31,460 --> 00:03:28,350

already mm-hmm

77

00:03:36,460 --> 00:03:31,470

yeah I've gained some psychic abilities

78

00:03:44,479 --> 00:03:41,390

all right so wait let me guess let me

79

00:03:47,449 --> 00:03:44,489

can I go ahead guess oh crap get my

80

00:03:53,360 --> 00:03:47,459

camera is this from nighttime podcast

81

00:03:56,509 --> 00:03:53,370

yeah that's right yeah okay so why

82

00:03:58,250 --> 00:03:56,519

should we be interested in why should

83

00:04:00,979 --> 00:03:58,260

you care about UFOs

84

00:04:03,680 --> 00:04:00,989

that's the question then you want me to

85

00:04:07,520 --> 00:04:03,690

answer yeah what white why bother why

86

00:04:11,660 --> 00:04:07,530

why is it something I think the the

87

00:04:14,270 --> 00:04:11,670

answer to me is because it it's an

88

00:04:17,920 --> 00:04:14,280

unsolved mystery that we have certainly

89

00:04:20,659 --> 00:04:17,930

many things that are unidentified are

90

00:04:24,230 --> 00:04:20,669

eventually identified certainly a large

91

00:04:27,080 --> 00:04:24,240

amount of what's unidentified objects

92

00:04:27,860 --> 00:04:27,090

that are mundane you know top-secret

93

00:04:30,439 --> 00:04:27,870

stuff

94

00:04:32,659 --> 00:04:30,449

other boring you know cosmic sort of

95

00:04:34,670 --> 00:04:32,669

things although for astronomers and

96

00:04:37,670 --> 00:04:34,680

stuff of course the cosmic phenomena are

97

00:04:42,020 --> 00:04:37,680

very exciting but there's a percentage

98

00:04:45,379 --> 00:04:42,030

of these at a very amazing situations

99

00:04:47,900 --> 00:04:45,389

very extraordinary accounts from very

100

00:04:51,439 --> 00:04:47,910

credible people as you know even the Air

101
00:04:53,570 --> 00:04:51,449
Force said decades ago that we can't

102
00:04:55,580 --> 00:04:53,580
resolve you know I think these cases

103
00:04:57,650 --> 00:04:55,590
like the Nimitz case that the Pentagon

104
00:05:01,670 --> 00:04:57,660
has come out and said is so interesting

105
00:05:05,210 --> 00:05:01,680
are very interesting and and they pose a

106
00:05:06,710 --> 00:05:05,220
potential I'm not gonna say threat of

107
00:05:08,840 --> 00:05:06,720
course for the military they're looking

108
00:05:11,210 --> 00:05:08,850
at potential set of threats but they

109
00:05:14,440 --> 00:05:11,220
pose a potential the will discovery

110
00:05:17,480 --> 00:05:14,450
science that things we can discover and

111
00:05:22,730 --> 00:05:17,490
it's entirely possible I think more and

112
00:05:25,190 --> 00:05:22,740
more now that life elsewhere is seems to

113
00:05:27,010 --> 00:05:25,200

be on the cusp that we'll be discovering

114

00:05:29,930 --> 00:05:27,020

you know even a microbe or something

115

00:05:31,370 --> 00:05:29,940

elsewhere that it's more more likely

116

00:05:33,500 --> 00:05:31,380

there are other intelligent

117

00:05:35,570 --> 00:05:33,510

civilizations out there and if there's a

118

00:05:37,070 --> 00:05:35,580

possibility you know that they're here

119

00:05:39,500 --> 00:05:37,080

or they're sending probes or something

120

00:05:41,930 --> 00:05:39,510

like that I think that that's also

121

00:05:45,140 --> 00:05:41,940

something we need to keep open to and

122

00:05:49,339 --> 00:05:45,150

very interesting so it's it's an area of

123

00:05:52,250 --> 00:05:49,349

study that the doors haven't shut so

124

00:05:54,650 --> 00:05:52,260

just for that alone you know that's what

125

00:05:58,279 --> 00:05:54,660

exploration and science is all about is

126
00:06:00,740 --> 00:05:58,289
researching mysteries and and you're in

127
00:06:03,110 --> 00:06:00,750
phenomena that we can explain to look

128
00:06:06,950 --> 00:06:03,120
for answers I think that is an excellent

129
00:06:11,990 --> 00:06:06,960
answer and I I agree with with all of

130
00:06:17,270 --> 00:06:12,000
that and you know basically if you if

131
00:06:19,730 --> 00:06:17,280
it's possible that UFOs or a UFO or even

132
00:06:23,570 --> 00:06:19,740
you know just even a single UFO could be

133
00:06:26,029 --> 00:06:23,580
a visitor from another say another

134
00:06:28,219 --> 00:06:26,039
planet another whatever wherever they're

135
00:06:31,700 --> 00:06:28,229
from you know that would be one of the

136
00:06:33,409 --> 00:06:31,710
the biggest discoveries of all time so I

137
00:06:35,990 --> 00:06:33,419
think you know I think it's really

138
00:06:39,050 --> 00:06:36,000

important that it's a question looked

139

00:06:41,000 --> 00:06:39,060

into and it may be you know a shark

140

00:06:41,670 --> 00:06:41,010

valet has said you know maybe something

141

00:06:43,620 --> 00:06:41,680

entirely

142

00:06:45,840 --> 00:06:43,630

different you know that we have no idea

143

00:06:48,840 --> 00:06:45,850

I've never even thought of before but

144

00:06:53,189 --> 00:06:48,850

whatever it is it's still fascinating

145

00:06:55,550 --> 00:06:53,199

because of the lack of answers basically

146

00:07:00,180 --> 00:06:55,560

of what what they are it's also

147

00:07:02,100 --> 00:07:00,190

fascinating and and I guess how do I say

148

00:07:04,830 --> 00:07:02,110

this you know it's hard to say anything

149

00:07:07,740 --> 00:07:04,840

without upsetting people but that you

150

00:07:09,870 --> 00:07:07,750

know there's also the social aspect the

151
00:07:13,860 --> 00:07:09,880
which i think is fascinating how we

152
00:07:17,430 --> 00:07:13,870
react to the idea of ETS or

153
00:07:19,170 --> 00:07:17,440
extraterrestrials and one of my well one

154
00:07:20,790 --> 00:07:19,180
of my talks is about religion and that's

155
00:07:23,760 --> 00:07:20,800
that's a major thing it's how does a

156
00:07:25,650 --> 00:07:23,770
religion change how do we react to that

157
00:07:27,740 --> 00:07:25,660
what future religions are getting

158
00:07:30,659 --> 00:07:27,750
created because of this idea of

159
00:07:32,279 --> 00:07:30,669
extraterrestrials but also you know

160
00:07:35,129 --> 00:07:32,289
recently in roswell i did a talk on

161
00:07:36,960 --> 00:07:35,139
spielberg so like you know how it

162
00:07:40,589 --> 00:07:36,970
influenced entertainment which i think

163
00:07:45,629 --> 00:07:40,599

is fascinating and then also just how we

164

00:07:49,080 --> 00:07:45,639

digest and create our worldviews and i

165

00:07:53,129 --> 00:07:49,090

think that you know being in this field

166

00:07:56,460 --> 00:07:53,139

and seeing what people believe why gave

167

00:07:59,850 --> 00:07:56,470

us a little bit of insight more a

168

00:08:04,320 --> 00:07:59,860

preview to the current world situation

169

00:08:06,659 --> 00:08:04,330

at least in the United States and and so

170

00:08:08,610 --> 00:08:06,669

yeah it's it's just microcosm and it

171

00:08:11,550 --> 00:08:08,620

brings up you know even important social

172

00:08:14,670 --> 00:08:11,560

issues in and just how we think and

173

00:08:16,980 --> 00:08:14,680

operate us as a species or a community I

174

00:08:18,570 --> 00:08:16,990

think the Catholic religion you know the

175

00:08:20,879 --> 00:08:18,580

some from some of the things that Pope

176

00:08:24,270 --> 00:08:20,889

has said they're they're kind of geared

177

00:08:26,310 --> 00:08:24,280

to let it happen you know the discovery

178

00:08:28,770 --> 00:08:26,320

of it happened yeah I have a whole

179

00:08:30,450 --> 00:08:28,780

lecture about it but it's exciting and

180

00:08:33,719 --> 00:08:30,460

the reason that they speak so much about

181

00:08:37,019 --> 00:08:33,729

it is because SETI scientists paul

182

00:08:39,480 --> 00:08:37,029

dauids especially one of the SETI

183

00:08:41,159 --> 00:08:39,490

scientists but others kind of go after

184

00:08:46,139 --> 00:08:41,169

the Catholic religion because they say

185

00:08:48,180 --> 00:08:46,149

their their theology does not accept you

186

00:08:51,180 --> 00:08:48,190

know people from other worlds and it's

187

00:08:52,650 --> 00:08:51,190

true that you know they've the Jesuits

188

00:08:55,170 --> 00:08:52,660

who are in charge of kind of the

189

00:08:58,079 --> 00:08:55,180

philosophy and everything have

190

00:09:00,150 --> 00:08:58,089

tackled the issue to try to make it fit

191

00:09:02,820 --> 00:09:00,160

but they all kind of generally feel

192

00:09:04,950 --> 00:09:02,830

wealth God made things here he can make

193

00:09:07,710 --> 00:09:04,960

things elsewhere and so these little

194

00:09:10,500 --> 00:09:07,720

tenants and different things that you

195

00:09:12,449 --> 00:09:10,510

know that kind of come at odds with with

196

00:09:15,210 --> 00:09:12,459

the possibility they've they've attacked

197

00:09:17,340 --> 00:09:15,220

but so it's been kind of a defensive

198

00:09:20,250 --> 00:09:17,350

posture but they've taken a very

199

00:09:22,650 --> 00:09:20,260

proactive approach and saying that hey

200

00:09:25,320 --> 00:09:22,660

we are gonna adopt the science we're

201
00:09:27,990 --> 00:09:25,330
gonna try to understand all of this and

202
00:09:30,420 --> 00:09:28,000
we are going to understand how it works

203
00:09:32,670 --> 00:09:30,430
in our worldview and and they've done

204
00:09:35,790 --> 00:09:32,680
that I think pretty successfully so

205
00:09:40,980 --> 00:09:35,800
that's why they've in particular been so

206
00:09:42,780 --> 00:09:40,990
vocal about even you know the book by

207
00:09:44,970 --> 00:09:42,790
one of the Jesuit priests in charge of

208
00:09:49,199 --> 00:09:44,980
the astronomy for the for the Vatican

209
00:09:51,650 --> 00:09:49,209
about the book of baptizing and ET and

210
00:09:54,389 --> 00:09:51,660
there's been other papers out by them

211
00:09:56,070 --> 00:09:54,399
yeah I think you know the the Catholic

212
00:09:58,320 --> 00:09:56,080
Church has been wrong when it comes to

213
00:10:00,930 --> 00:09:58,330

science and have paid the price you know

214

00:10:02,579 --> 00:10:00,940

for instance you know the earth being

215

00:10:05,190 --> 00:10:02,589

the center of the universe and the Sun

216

00:10:08,340 --> 00:10:05,200

going around it and you know things had

217

00:10:10,620 --> 00:10:08,350

to change and you know there was a lot

218

00:10:13,740 --> 00:10:10,630

of mistakes made because of them

219

00:10:16,530 --> 00:10:13,750

standing by their beliefs and thoughts

220

00:10:19,079 --> 00:10:16,540

and so I think it's they're coming like

221

00:10:21,000 --> 00:10:19,089

you say coming of age and realizing you

222

00:10:24,690 --> 00:10:21,010

know perhaps not to keep doing it that

223

00:10:26,610 --> 00:10:24,700

close minded thinking mm-hmm yeah we

224

00:10:28,170 --> 00:10:26,620

could talk like a whole show about this

225

00:10:32,150 --> 00:10:28,180

but oh yeah

226

00:10:36,449 --> 00:10:32,160

but the anything new in the UFO world

227

00:10:39,960 --> 00:10:36,459

well I guess or you want to talk about

228

00:10:42,360 --> 00:10:39,970

Roswell it's new yeah with Roswell one

229

00:10:44,699 --> 00:10:42,370

thing first of all your guests tonight

230

00:10:46,260 --> 00:10:44,709

Kevin always miss him being out there

231

00:10:48,090 --> 00:10:46,270

because I think he's an important voice

232

00:10:50,699 --> 00:10:48,100

when it comes to Roswell research one of

233

00:10:52,380 --> 00:10:50,709

the most important and I think you know

234

00:10:55,230 --> 00:10:52,390

his recent book about Roswell in the

235

00:10:57,750 --> 00:10:55,240

20th century gives a lot of for people

236

00:11:01,199 --> 00:10:57,760

to think about that people need to think

237

00:11:02,730 --> 00:11:01,209

about when it comes to this case so he

238

00:11:04,079 --> 00:11:02,740

was missed but hopefully he'll be there

239

00:11:05,130 --> 00:11:04,089

again in the future of course he's been

240

00:11:07,800 --> 00:11:05,140

there in the past

241

00:11:09,010 --> 00:11:07,810

but you know who will greatly be greatly

242

00:11:12,490 --> 00:11:09,020

greatly greatly

243

00:11:15,790 --> 00:11:12,500

here coming Roswell let me guess women

244

00:11:20,020 --> 00:11:15,800

I'm psychic I'm psychic oh okay

245

00:11:23,320 --> 00:11:20,030

initials SF that's right got it

246

00:11:29,290 --> 00:11:23,330

Wow amazing you're amazing

247

00:11:31,240 --> 00:11:29,300

so yes mr. Stanton Friedman SF and that

248

00:11:32,740 --> 00:11:31,250

I think that's big news and that you

249

00:11:36,960 --> 00:11:32,750

know I just posted a video interview

250

00:11:42,490 --> 00:11:36,970

today that I did with him thanks to

251
00:11:45,880 --> 00:11:42,500
these guys here this ondre's whole and

252
00:11:48,850 --> 00:11:45,890
Vader video there's his business card

253
00:11:50,050 --> 00:11:48,860
cool guy who was there to do some

254
00:11:52,720 --> 00:11:50,060
filming we've worked with him in the

255
00:11:54,700 --> 00:11:52,730
past but so we filmed an interview with

256
00:11:56,980 --> 00:11:54,710
sin and I'm surprised there weren't more

257
00:11:59,530 --> 00:11:56,990
because this is it Stanton is retiring

258
00:12:01,360 --> 00:11:59,540
this year and he will not be going back

259
00:12:06,510 --> 00:12:01,370
to Roswell again he said that was his

260
00:12:09,610 --> 00:12:06,520
last annual Roswell pilgrimage and so

261
00:12:12,040 --> 00:12:09,620
it's kind of a sad moment it's a it's a

262
00:12:14,320 --> 00:12:12,050
change it's an end of an era you know

263
00:12:16,690 --> 00:12:14,330

for those of us in the UFO field and in

264

00:12:18,760 --> 00:12:16,700

fact this is a something great to talk

265

00:12:21,520 --> 00:12:18,770

to Kevin about I'm really interested to

266

00:12:23,530 --> 00:12:21,530

hear what he would say because I think

267

00:12:25,180 --> 00:12:23,540

you know what his perspectives are in

268

00:12:26,770 --> 00:12:25,190

that Stanton is kind of the guy who

269

00:12:30,640 --> 00:12:26,780

brought this whole situation to

270

00:12:33,070 --> 00:12:30,650

everyone's attention and and when I was

271

00:12:37,810 --> 00:12:33,080

first got into this field for many years

272

00:12:40,870 --> 00:12:37,820

he was the guy he was the capital t-h-e

273

00:12:42,820 --> 00:12:40,880

face of ufology you know all of these

274

00:12:47,760 --> 00:12:42,830

people who you see on TV shows now Nick

275

00:12:50,080 --> 00:12:47,770

Pope Giorgio tsoukalos Richard Dolan

276

00:12:53,410 --> 00:12:50,090

Mark Dantonio or some of our other

277

00:12:56,020 --> 00:12:53,420

friends David Hatcher Childress that

278

00:12:58,390 --> 00:12:56,030

Stanton was there before that you know

279

00:13:00,520 --> 00:12:58,400

he was the guy on all the shows talking

280

00:13:02,920 --> 00:13:00,530

about the science and credibility when

281

00:13:05,830 --> 00:13:02,930

it came to UFOs and now to see him

282

00:13:07,510 --> 00:13:05,840

retiring it's an end of an era and and I

283

00:13:09,760 --> 00:13:07,520

was very honored to be there with him

284

00:13:12,640 --> 00:13:09,770

and to get that interview so I think

285

00:13:16,750 --> 00:13:12,650

that's pretty big UFO news and what

286

00:13:18,100 --> 00:13:16,760

about the mayor oh yeah yeah well and

287

00:13:21,840 --> 00:13:18,110

and we talked about this in the

288

00:13:26,670 --> 00:13:21,850

interview the mayor declared July 6th

289

00:13:30,360 --> 00:13:26,680

the Stanton Friedman day in Roswell so

290

00:13:34,170 --> 00:13:30,370

that's really cool but he's had another

291

00:13:37,260 --> 00:13:34,180

day declared Stanton Friedman day back

292

00:13:39,240 --> 00:13:37,270

in his hometown in Canada I think it's

293

00:13:41,630 --> 00:13:39,250

New Brunswick you'll have to watch the

294

00:13:44,880 --> 00:13:41,640

interview we've got it on the open mind

295

00:13:46,860 --> 00:13:44,890

production YouTube page people can watch

296

00:13:48,210 --> 00:13:46,870

it there and if you hurt my podcast you

297

00:13:51,330 --> 00:13:48,220

actually heard the audio from that

298

00:13:52,530 --> 00:13:51,340

interview but if I did listen to the

299

00:13:55,590 --> 00:13:52,540

podcast was really good

300

00:13:57,750 --> 00:13:55,600

yeah yeah so so yeah this is a second

301
00:14:00,060 --> 00:13:57,760
you know santen Friedman day that's been

302
00:14:03,560 --> 00:14:00,070
declared for him so one day it'll

303
00:14:07,380 --> 00:14:03,570
probably be official national day but

304
00:14:11,040 --> 00:14:07,390
we're now a couple towns in one in

305
00:14:13,320 --> 00:14:11,050
Canada and one in and Roswell New Mexico

306
00:14:15,870 --> 00:14:13,330
so it already is a bit international

307
00:14:19,710 --> 00:14:15,880
yeah right right well we ran a little

308
00:14:21,450 --> 00:14:19,720
bit long okay so we'll catch you up next

309
00:14:23,490 --> 00:14:21,460
week to whatever that's going on in the

310
00:14:25,920 --> 00:14:23,500
UFO world thanks a lot Alejandro and

311
00:14:27,300 --> 00:14:25,930
have a great great day yeah thank you

312
00:14:28,620 --> 00:14:27,310
very much I do want to say if you're

313
00:14:32,040 --> 00:14:28,630

gonna be in comic-con I'll be speaking

314

00:14:35,580 --> 00:14:32,050

at for National Geographic what about

315

00:14:38,220 --> 00:14:35,590

the Mars TV show at Comic Con and I'm

316

00:14:40,110 --> 00:14:38,230

gonna sneak in a little UFO alien stuff

317

00:14:44,040 --> 00:14:40,120

they don't know this but is that in no

318

00:14:45,780 --> 00:14:44,050

way there or was San Diego huh CND eggs

319

00:14:49,110 --> 00:14:45,790

and iego yeah I have a great time that

320

00:14:51,600 --> 00:14:49,120

sounds like blast yeah okay alright I'll

321

00:14:53,880 --> 00:14:51,610

catch you next week later yep alright

322

00:14:57,090 --> 00:14:53,890

have a good one you too

323

00:15:01,260 --> 00:14:57,100

alright so our guest a repeat guest

324

00:15:04,140 --> 00:15:01,270

Kevin Randle he is definitely a

325

00:15:05,730 --> 00:15:04,150

prominent ufologists and you can find

326

00:15:09,840 --> 00:15:05,740

all kinds of information about him even

327

00:15:13,080 --> 00:15:09,850

has a Wikipedia page so he's he has over

328

00:15:15,470 --> 00:15:13,090

80 books to his credit and we're gonna

329

00:15:18,360 --> 00:15:15,480

be touching on as we did last time

330

00:15:20,310 --> 00:15:18,370

encounter in the desert I may have said

331

00:15:21,920 --> 00:15:20,320

that wrong that's about the Socorro case

332

00:15:25,040 --> 00:15:21,930

we're going to talk about that and

333

00:15:27,270 --> 00:15:25,050

probably mostly in the second hour and

334

00:15:30,000 --> 00:15:27,280

it's always a great pleasure to have

335

00:15:33,420 --> 00:15:30,010

Kevin on he's a no-nonsense type of guy

336

00:15:35,430 --> 00:15:33,430

and I do have to say a lot of times when

337

00:15:39,660 --> 00:15:35,440

I'm trying to figure out if a story

338

00:15:42,900 --> 00:15:39,670

has merit and not I end up on somehow I

339

00:15:44,400 --> 00:15:42,910

always end up on Kevin's blog and I find

340

00:15:47,340 --> 00:15:44,410

out some great information there so

341

00:15:48,870 --> 00:15:47,350

Kevin welcome back to the show well

342

00:15:50,790 --> 00:15:48,880

thank you very much but I do need to

343

00:15:53,160 --> 00:15:50,800

correct you on one point certainly I

344

00:15:55,200 --> 00:15:53,170

said your book line yeah though the

345

00:16:00,060 --> 00:15:55,210

wikipedia page which says 80 books is

346

00:16:02,960 --> 00:16:00,070

way out of date it's like 125 so okay I

347

00:16:05,520 --> 00:16:02,970

can go in there and change that for you

348

00:16:06,570 --> 00:16:05,530

I'll just change it to like 500 or

349

00:16:11,190 --> 00:16:06,580

something just so you don't have to

350

00:16:12,840 --> 00:16:11,200

worry about it again I employed anything

351
00:16:14,550 --> 00:16:12,850
to Wikipedia or anything like that I

352
00:16:16,860 --> 00:16:14,560
don't know who created the page

353
00:16:18,690 --> 00:16:16,870
originally or how it how it came to be

354
00:16:20,760 --> 00:16:18,700
but I certainly applaud them for doing

355
00:16:24,270 --> 00:16:20,770
it for me yeah you can't you can't

356
00:16:25,800 --> 00:16:24,280
create your own page I've heard so and

357
00:16:27,000 --> 00:16:25,810
but I don't know if you can correct your

358
00:16:30,030 --> 00:16:27,010
own page you should be able to correct

359
00:16:32,220 --> 00:16:30,040
your own page I don't know I haven't

360
00:16:33,510 --> 00:16:32,230
haven't tried I've mentioned it to other

361
00:16:34,890 --> 00:16:33,520
people and some things what I've

362
00:16:37,620 --> 00:16:34,900
mentioned it if they have appeared on

363
00:16:41,040 --> 00:16:37,630

the on the page so I don't know how how

364

00:16:43,380 --> 00:16:41,050

all that works hey Kevin last time you

365

00:16:46,080 --> 00:16:43,390

were on was last November and we talked

366

00:16:49,280 --> 00:16:46,090

about your book mostly and again we'll

367

00:16:52,800 --> 00:16:49,290

touch on that it and but I wanted to

368

00:16:55,380 --> 00:16:52,810

start out we haven't talked but I

369

00:16:58,200 --> 00:16:55,390

believe we had a couple emails going

370

00:17:01,620 --> 00:16:58,210

back and forth about you know the the

371

00:17:05,370 --> 00:17:01,630

Pentagon you know when the when December

372

00:17:07,920 --> 00:17:05,380

16th when the article came out how a lot

373

00:17:09,240 --> 00:17:07,930

of things seemed to change in that

374

00:17:10,710 --> 00:17:09,250

moment and I don't believe you and I

375

00:17:12,689 --> 00:17:10,720

have ever talked about that so I want to

376

00:17:15,360 --> 00:17:12,699

get your take on that whole situation

377

00:17:20,720 --> 00:17:15,370

and how how you think it's affected you

378

00:17:24,410 --> 00:17:20,730

follow geez it was interesting that got

379

00:17:26,640 --> 00:17:24,420

national attention and it got the

380

00:17:27,600 --> 00:17:26,650

legitimate national attention I mean it

381

00:17:29,580 --> 00:17:27,610

wasn't something that they were

382

00:17:31,500 --> 00:17:29,590

ridiculing and making fun of with the

383

00:17:33,600 --> 00:17:31,510

first announcements and I thought that

384

00:17:35,790 --> 00:17:33,610

was a positive step for ufology because

385

00:17:38,970 --> 00:17:35,800

it shows it in a light that suggested is

386

00:17:40,350 --> 00:17:38,980

something more than a pseudoscience so

387

00:17:44,130 --> 00:17:40,360

we're looking at it in a different

388

00:17:46,230 --> 00:17:44,140

perspective that way but since that time

389

00:17:48,720 --> 00:17:46,240

there has been little in the national

390

00:17:49,410 --> 00:17:48,730

media about that I know that in various

391

00:17:51,000 --> 00:17:49,420

UFO

392

00:17:53,700 --> 00:17:51,010

forums it still talked about and I know

393

00:17:59,190 --> 00:17:53,710

that some of the skeptical community has

394

00:18:00,630 --> 00:17:59,200

gone after the the witnesses and the way

395

00:18:02,130 --> 00:18:00,640

it was presented and it really isn't

396

00:18:05,340 --> 00:18:02,140

that extraordinary and that sort of

397

00:18:08,240 --> 00:18:05,350

thing but I think that the original take

398

00:18:12,570 --> 00:18:08,250

on it were showed you follow G or AG

399

00:18:14,040 --> 00:18:12,580

presented a UFO sighting in a legitimate

400

00:18:15,810 --> 00:18:14,050

light was something that was positive

401
00:18:17,730 --> 00:18:15,820
for all of you follow G and I think

402
00:18:19,980 --> 00:18:17,740
that's a goal of a lot of us who are

403
00:18:24,060 --> 00:18:19,990
working inside the UFO community is to

404
00:18:26,790 --> 00:18:24,070
move it away from the fringe elements

405
00:18:29,430 --> 00:18:26,800
into something that is more scientific

406
00:18:32,520 --> 00:18:29,440
and something that can be looked at as

407
00:18:34,260 --> 00:18:32,530
as a real science as opposed to where we

408
00:18:37,020 --> 00:18:34,270
kind of are now and I think that was an

409
00:18:39,600 --> 00:18:37,030
important step to take when the national

410
00:18:43,110 --> 00:18:39,610
media the legitimate media looked at it

411
00:18:47,420 --> 00:18:43,120
as something positive yeah I agree

412
00:18:50,010 --> 00:18:47,430
and to your point I have spoken to both

413
00:18:53,720 --> 00:18:50,020

Ralph Blumenthal who is one of the

414

00:18:57,780 --> 00:18:53,730

authors on that and Leslie Kane both

415

00:19:00,140 --> 00:18:57,790

periodically every couple months or

416

00:19:02,190 --> 00:19:00,150

something we have an email exchange and

417

00:19:04,200 --> 00:19:02,200

basically it sounds like there's still

418

00:19:10,680 --> 00:19:04,210

something out there that they're going

419

00:19:13,710 --> 00:19:10,690

to release but no details that was that

420

00:19:15,750 --> 00:19:13,720

was the thing the original release was

421

00:19:17,130 --> 00:19:15,760

very interesting and you're now kind of

422

00:19:18,540 --> 00:19:17,140

waiting for the other shoe to drop

423

00:19:20,790 --> 00:19:18,550

you're waiting for something else to

424

00:19:22,410 --> 00:19:20,800

come about and it's it's like well we

425

00:19:23,970 --> 00:19:22,420

might have said too much too soon and

426
00:19:25,500 --> 00:19:23,980
we're doing some investigation and we're

427
00:19:27,480 --> 00:19:25,510
looking at some other stuff and I think

428
00:19:29,220 --> 00:19:27,490
part of the problem is everybody focused

429
00:19:31,080 --> 00:19:29,230
on the funding and the Pentagon study

430
00:19:34,500 --> 00:19:31,090
and we're worried about Bob Bigelow's

431
00:19:36,420 --> 00:19:34,510
role in that and Harry lead yeah I've

432
00:19:38,510 --> 00:19:36,430
wanted to say Robert Reed but I knew it

433
00:19:40,470 --> 00:19:38,520
I knew that wasn't right Harry Reid's

434
00:19:45,060 --> 00:19:40,480
involvement in getting the funding to

435
00:19:49,350 --> 00:19:45,070
the Pentagon and interestingly if you go

436
00:19:51,210 --> 00:19:49,360
back to the Condon committee is is one

437
00:19:52,710 --> 00:19:51,220
of the reasons they wanted to get rid

438
00:19:54,960 --> 00:19:52,720

force wanted to get rid of the study of

439

00:19:56,940 --> 00:19:54,970

UFOs as they said in the next in the

440

00:19:59,760 --> 00:19:56,950

next 20 years is going to cost us 20

441

00:20:02,340 --> 00:19:59,770

million dollars and well that would have

442

00:20:03,280 --> 00:20:02,350

been a bargain now compared to where we

443

00:20:05,470 --> 00:20:03,290

are but

444

00:20:06,760 --> 00:20:05,480

but that's the thing you know that all

445

00:20:09,550 --> 00:20:06,770

of that was very interesting and it was

446

00:20:11,710 --> 00:20:09,560

covered in a way that you could see well

447

00:20:13,420 --> 00:20:11,720

is the Pentagon wasting money on this

448

00:20:15,340 --> 00:20:13,430

sort of thing who's financing this how

449

00:20:18,040 --> 00:20:15,350

is all of this going on and they took it

450

00:20:22,390 --> 00:20:18,050

into a direction of suggesting some kind

451
00:20:27,040 --> 00:20:22,400
of pork barrel funding for Bigelow and

452
00:20:29,080 --> 00:20:27,050
his and his space explorations but we've

453
00:20:32,350 --> 00:20:29,090
we've now moved beyond that we've had

454
00:20:35,230 --> 00:20:32,360
quite a few months pass and we really

455
00:20:37,090 --> 00:20:35,240
haven't gotten more information about it

456
00:20:39,940 --> 00:20:37,100
and I would like to see some additional

457
00:20:42,130 --> 00:20:39,950
work I looking at the Mantell case and I

458
00:20:45,130 --> 00:20:42,140
bring that up because we don't have

459
00:20:47,260 --> 00:20:45,140
access to everything back when rappelled

460
00:20:49,050 --> 00:20:47,270
wrote about it in his book and rupert

461
00:20:51,460 --> 00:20:49,060
wrote about it and others wrote about it

462
00:20:53,470 --> 00:20:51,470
there was things that we were missing we

463
00:20:55,270 --> 00:20:53,480

didn't see we couldn't get to because it

464

00:20:57,280 --> 00:20:55,280

was classified it was buried in Blue

465

00:20:59,410 --> 00:20:57,290

Book it was hidden away here or there

466

00:21:01,450 --> 00:20:59,420

and at this point we now have all that

467

00:21:04,870 --> 00:21:01,460

information and it tells us where we

468

00:21:07,150 --> 00:21:04,880

need to go and with this new information

469

00:21:08,290 --> 00:21:07,160

we're still in the process of trying to

470

00:21:11,050 --> 00:21:08,300

get all that additional information

471

00:21:13,720 --> 00:21:11,060

that'll help us formulate some sort of a

472

00:21:16,090 --> 00:21:13,730

rational opinion about it

473

00:21:18,100 --> 00:21:16,100

right hey Kevin it's sorry to cut you

474

00:21:21,160 --> 00:21:18,110

there but we have to go to a break it's

475

00:21:22,600 --> 00:21:21,170

time for our break and so we're on the

476
00:21:26,620 --> 00:21:22,610
show right now with Kevin Randall and

477
00:21:34,990 --> 00:21:26,630
you're listening to podcast UFO on kgr a

478
00:21:36,460 --> 00:21:35,000
radio and we'll be right back alright

479
00:21:38,560 --> 00:21:36,470
gentlemen we're in the clear there's

480
00:21:41,830 --> 00:21:38,570
just over three minutes in this break

481
00:21:43,990 --> 00:21:41,840
all right thanks race so we just have to

482
00:21:47,320 --> 00:21:44,000
keep that thought Kevin and go back to

483
00:21:53,560 --> 00:21:47,330
it when we start when we start on the

484
00:21:55,960 --> 00:21:53,570
radio so you know another another thing

485
00:21:58,690 --> 00:21:55,970
I think is up I'm going to get the

486
00:22:01,030 --> 00:21:58,700
chance to meet Lois Elizondo next

487
00:22:03,910 --> 00:22:01,040
weekend I hope I get him to talk you

488
00:22:06,100 --> 00:22:03,920

know and I just don't know if he'll talk

489

00:22:08,470 --> 00:22:06,110

off here of course if he talks off air

490

00:22:10,960 --> 00:22:08,480

then he probably won't want me to repeat

491

00:22:12,730 --> 00:22:10,970

things that he says but hopefully I'll

492

00:22:16,180 --> 00:22:12,740

be able to understand what's going on

493

00:22:17,240 --> 00:22:16,190

with the amount of videos because there

494

00:22:19,010 --> 00:22:17,250

was I

495

00:22:21,950 --> 00:22:19,020

George Knapp say originally that there

496

00:22:24,410 --> 00:22:21,960

were 12 videos but I haven't heard that

497

00:22:26,660 --> 00:22:24,420

repeated yet well the interesting thing

498

00:22:29,000 --> 00:22:26,670

when you talked to somebody off the air

499

00:22:31,010 --> 00:22:29,010

or off the record they will tell you

500

00:22:32,570 --> 00:22:31,020

things and it gives you an idea of where

501
00:22:34,160 --> 00:22:32,580
you need to search for something else so

502
00:22:35,450 --> 00:22:34,170
you can look for another avenue to get

503
00:22:38,390 --> 00:22:35,460
to that information and you're not

504
00:22:40,910 --> 00:22:38,400
violating the confidence your but you're

505
00:22:42,200 --> 00:22:40,920
able to find something that you might

506
00:22:43,730 --> 00:22:42,210
not have found had you not have that

507
00:22:46,040 --> 00:22:43,740
insider information or that additional

508
00:22:47,450 --> 00:22:46,050
information so you know it's always it's

509
00:22:49,370 --> 00:22:47,460
all good you've got to listen to what

510
00:22:52,970 --> 00:22:49,380
everybody says and see where you need to

511
00:22:56,750 --> 00:22:52,980
go right right there being as I

512
00:23:01,400 --> 00:22:56,760
mentioned you know the Ralph Blumenthal

513
00:23:03,410 --> 00:23:01,410

and Leslie Kane and Lewis Allison though

514

00:23:07,250 --> 00:23:03,420

they're kind of being controlled

515

00:23:10,550 --> 00:23:07,260

well at least Louis's by the to the

516

00:23:11,570 --> 00:23:10,560

stars Academy publicist is being very

517

00:23:13,730 --> 00:23:11,580

very careful you know

518

00:23:15,800 --> 00:23:13,740

coast to coast is okay but don't go in

519

00:23:20,270 --> 00:23:15,810

it on any other show I think there's

520

00:23:23,000 --> 00:23:20,280

been 160 you know shows on news shows

521

00:23:25,040 --> 00:23:23,010

about you know the situation a lot of

522

00:23:27,860 --> 00:23:25,050

them did have Lois on it so but they're

523

00:23:29,990 --> 00:23:27,870

being very careful about whatever they

524

00:23:31,220 --> 00:23:30,000

do you know Leslie Kane it's been on my

525

00:23:39,740 --> 00:23:31,230

show many times she won't come back

526

00:23:41,240 --> 00:23:39,750

right now for right now so in the past

527

00:23:42,920 --> 00:23:41,250

we've kind of gotten into trouble with

528

00:23:44,720 --> 00:23:42,930

people who are talking about some of

529

00:23:46,250 --> 00:23:44,730

this stuff and they're they want to be

530

00:23:47,900 --> 00:23:46,260

careful what they say and they're

531

00:23:49,850 --> 00:23:47,910

looking at the information is

532

00:23:54,020 --> 00:23:49,860

proprietary they don't want to share it

533

00:23:55,850 --> 00:23:54,030

yeah we are ready to come back yeah I

534

00:23:59,870 --> 00:23:55,860

thought we had another no problem just

535

00:24:02,120 --> 00:23:59,880

count us down okay Archer good to go we

536

00:24:04,460 --> 00:24:02,130

are right on the money we're good to go

537

00:24:06,440 --> 00:24:04,470

up until about four minutes to the top

538

00:24:10,540 --> 00:24:06,450

of the hour Martin okay sure

539

00:24:16,670 --> 00:24:10,550

all right here we go in five four three

540

00:24:19,480 --> 00:24:16,680

two welcome back to podcast UFO on kgr a

541

00:24:22,880 --> 00:24:19,490

radio my guest is Kevin Randall and

542

00:24:23,930 --> 00:24:22,890

always fun to have on the show and Kevin

543

00:24:30,350 --> 00:24:23,940

I don't know if you remember the

544

00:24:31,760 --> 00:24:30,360

senate's you left off on approximately I

545

00:24:37,040 --> 00:24:31,770

know we've already talked about so many

546

00:24:39,830 --> 00:24:37,050

things on the break we were looking at I

547

00:24:44,570 --> 00:24:39,840

think the funding and the information

548

00:24:46,070 --> 00:24:44,580

has been sort of I guess embargoed and I

549

00:24:47,630 --> 00:24:46,080

can understand that in some some

550

00:24:49,190 --> 00:24:47,640

respects because you've gathered this

551
00:24:52,340 --> 00:24:49,200
information and you treat it as somewhat

552
00:24:53,720 --> 00:24:52,350
proprietary and you want the opportunity

553
00:24:55,010 --> 00:24:53,730
to release it yourself and I know when

554
00:24:56,570 --> 00:24:55,020
Dodge Schmidt and I were looking on the

555
00:24:58,520 --> 00:24:56,580
working on the Roswell book we were

556
00:25:00,650 --> 00:24:58,530
reticent to say some things about it

557
00:25:02,600 --> 00:25:00,660
because we felt that we wanted to break

558
00:25:04,010 --> 00:25:02,610
the break the story ourselves and we

559
00:25:08,210 --> 00:25:04,020
talked about it too early than other

560
00:25:10,250 --> 00:25:08,220
people would be able to push us to us to

561
00:25:11,720 --> 00:25:10,260
the side and break the information that

562
00:25:13,520 --> 00:25:11,730
we had uncovered so we wanted to be very

563
00:25:14,810 --> 00:25:13,530

circumspect at what we said but we also

564

00:25:17,030 --> 00:25:14,820

wanted to share what we were learning

565

00:25:18,740 --> 00:25:17,040

because we thought it was exciting and

566

00:25:20,690 --> 00:25:18,750

the people in the UFO community would be

567

00:25:23,750 --> 00:25:20,700

excited about it so you've got to

568

00:25:25,790 --> 00:25:23,760

balance those two ideas with you know

569

00:25:27,380 --> 00:25:25,800

what do you want to share with people to

570

00:25:29,240 --> 00:25:27,390

keep them excited but what do you want

571

00:25:31,040 --> 00:25:29,250

to hold back until you have an

572

00:25:33,560 --> 00:25:31,050

opportunity to publish it in a different

573

00:25:36,020 --> 00:25:33,570

forum and so I can understand why there

574

00:25:40,100 --> 00:25:36,030

has been a reticence to talk about some

575

00:25:41,390 --> 00:25:40,110

of this stuff and what have you seen

576

00:25:45,740 --> 00:25:41,400

you know personally have you actually

577

00:25:47,300 --> 00:25:45,750

seen a difference yourself and the way I

578

00:25:49,730 --> 00:25:47,310

mean I've noticed a difference in the

579

00:25:51,650 --> 00:25:49,740

way the media in general is treating

580

00:25:54,770 --> 00:25:51,660

this whole thing and I just wondered if

581

00:25:56,419 --> 00:25:54,780

you actually see that as well well the

582

00:25:58,190 --> 00:25:56,429

way the media was treating this one is

583

00:26:00,110 --> 00:25:58,200

much different than it was treating some

584

00:26:02,630 --> 00:26:00,120

of the other things and you know harken

585

00:26:04,940 --> 00:26:02,640

back to the the idiotic experiment done

586

00:26:06,530 --> 00:26:04,950

in New Jersey with a couple of skeptics

587

00:26:08,510 --> 00:26:06,540

wanting to prove that ufologists were

588

00:26:12,080 --> 00:26:08,520

very credulous and we're launching the

589

00:26:13,610 --> 00:26:12,090

balloons with flares on them and you

590

00:26:15,830 --> 00:26:13,620

know you look at what the reporters were

591

00:26:17,210 --> 00:26:15,840

doing about that and we had one reporter

592

00:26:18,860 --> 00:26:17,220

out there in the field and she's report

593

00:26:19,520 --> 00:26:18,870

she's interviewing a little girl with a

594

00:26:21,950 --> 00:26:19,530

lollipop

595

00:26:24,410 --> 00:26:21,960

asking her about aliens and I'm thinking

596

00:26:26,660 --> 00:26:24,420

you know this isn't good for us and the

597

00:26:29,240 --> 00:26:26,670

reporters are drawing conclusions that

598

00:26:31,760 --> 00:26:29,250

the witnesses were making and so you saw

599

00:26:34,190 --> 00:26:31,770

the reporters interdict introducing the

600

00:26:37,010 --> 00:26:34,200

extra-terrestrial into the conversation

601
00:26:38,690 --> 00:26:37,020
where the witnesses weren't saying yeah

602
00:26:40,530 --> 00:26:38,700
it was an alien spacecraft or was any

603
00:26:42,870 --> 00:26:40,540
kind of spacecraft this is what we saw

604
00:26:45,330 --> 00:26:42,880
was doing and one of the best examples

605
00:26:46,590 --> 00:26:45,340
of that was as the object moved across

606
00:26:48,030 --> 00:26:46,600
the said balloon and moved across the

607
00:26:50,610 --> 00:26:48,040
sky with the flares and you can see it

608
00:26:52,350 --> 00:26:50,620
flickering and the reporter said well

609
00:26:53,910 --> 00:26:52,360
are they signaling us and she said no

610
00:26:55,320 --> 00:26:53,920
it's going behind the trees and that's

611
00:26:56,880 --> 00:26:55,330
what you're seeing is the flickering is

612
00:26:58,800 --> 00:26:56,890
because of the trees that's going behind

613
00:27:00,270 --> 00:26:58,810

and I was very impressed with the

614

00:27:02,040 --> 00:27:00,280

witnesses in that and of course the

615

00:27:03,870 --> 00:27:02,050

experiment failed because it didn't

616

00:27:06,750 --> 00:27:03,880

prove that the UFO investigators were

617

00:27:08,220 --> 00:27:06,760

credulous I think I'm Mark Dantonio was

618

00:27:09,240 --> 00:27:08,230

one of those that said you had some kind

619

00:27:12,030 --> 00:27:09,250

of a flare

620

00:27:13,890 --> 00:27:12,040

not it not a UFO I mean right off right

621

00:27:15,330 --> 00:27:13,900

off the bat so that the UFO

622

00:27:16,950 --> 00:27:15,340

investigators weren't credulous the

623

00:27:20,270 --> 00:27:16,960

witnesses weren't credulous the problem

624

00:27:23,460 --> 00:27:20,280

was the news media and with this new

625

00:27:26,310 --> 00:27:23,470

revelation we don't see that sort of

626

00:27:28,260 --> 00:27:26,320

credulous attitude by the reporters or

627

00:27:30,360 --> 00:27:28,270

they're trying to drag something into it

628

00:27:32,880 --> 00:27:30,370

that isn't is not demonstrated by the

629

00:27:38,190 --> 00:27:32,890

facts as we now know them and what's

630

00:27:40,380 --> 00:27:38,200

your opinion on how t TSA has been

631

00:27:41,820 --> 00:27:40,390

handling you know the whole the whole

632

00:27:43,290 --> 00:27:41,830

thing do you think they're doing the

633

00:27:45,600 --> 00:27:43,300

right thing because you really don't

634

00:27:48,030 --> 00:27:45,610

hear you're not really hearing anything

635

00:27:49,560 --> 00:27:48,040

from some of the players that you'd

636

00:27:51,630 --> 00:27:49,570

expect to hear at least something from

637

00:27:53,610 --> 00:27:51,640

well I think that's one of the problems

638

00:27:56,940 --> 00:27:53,620

is that if you're going to make this

639

00:27:58,440 --> 00:27:56,950

announcement and make a tissue a press

640

00:28:00,210 --> 00:27:58,450

release you make a press release they

641

00:28:03,150 --> 00:28:00,220

should have press release then you sort

642

00:28:05,820 --> 00:28:03,160

of have an obligation to follow up and I

643

00:28:07,830 --> 00:28:05,830

think they may not have been ready for

644

00:28:09,690 --> 00:28:07,840

the reaction that they got from the

645

00:28:11,910 --> 00:28:09,700

media and the UFO community and the

646

00:28:13,890 --> 00:28:11,920

general public and didn't realize what

647

00:28:15,480 --> 00:28:13,900

was going to happen and so they they

648

00:28:18,720 --> 00:28:15,490

took a step back and I think you need to

649

00:28:20,520 --> 00:28:18,730

be prepared for the additional questions

650

00:28:22,500 --> 00:28:20,530

when you say something like this you're

651
00:28:24,420 --> 00:28:22,510
going to get questions you're going to

652
00:28:25,830 --> 00:28:24,430
get intense interest you're going to get

653
00:28:28,080 --> 00:28:25,840
people with a legitimate interest in

654
00:28:29,610 --> 00:28:28,090
what's going on and if you've made this

655
00:28:31,020 --> 00:28:29,620
announcement then you take a step back

656
00:28:33,000 --> 00:28:31,030
well then you had you didn't handle the

657
00:28:36,900 --> 00:28:33,010
initial announcement properly and I

658
00:28:39,720 --> 00:28:36,910
think that the taking the step back kind

659
00:28:41,190 --> 00:28:39,730
of feeds into the conspiracy theories

660
00:28:45,030 --> 00:28:41,200
way too much and we really don't need

661
00:28:50,340 --> 00:28:45,040
that and and you know while I'm talking

662
00:28:52,550 --> 00:28:50,350
about to the Stars Academy I have gotten

663
00:28:54,510 --> 00:28:52,560

a lot of people that have written me and

664

00:29:01,980 --> 00:28:54,520

you know

665

00:29:04,320 --> 00:29:01,990

first of all they want to they get a lot

666

00:29:06,990 --> 00:29:04,330

of money in donations you know to

667

00:29:08,940 --> 00:29:07,000

initially and now you know everything's

668

00:29:10,800 --> 00:29:08,950

about selling books selling t-shirts

669

00:29:13,800 --> 00:29:10,810

stuff like that I'm on their mailing

670

00:29:16,500 --> 00:29:13,810

list so I see you know basically it is

671

00:29:20,880 --> 00:29:16,510

kind of commercialized do you think the

672

00:29:22,860 --> 00:29:20,890

two can work together or do you think do

673

00:29:25,680 --> 00:29:22,870

you think that it's kind of a strange

674

00:29:27,150 --> 00:29:25,690

part of it no I think it's a ridiculous

675

00:29:28,770 --> 00:29:27,160

question to ask about the money making

676

00:29:30,840 --> 00:29:28,780

part of it out on your party understand

677

00:29:33,930 --> 00:29:30,850

but but to suggest there's something

678

00:29:38,850 --> 00:29:33,940

nefarious and making money on this does

679

00:29:42,120 --> 00:29:38,860

ABC News CBS News are they operating in

680

00:29:43,650 --> 00:29:42,130

a philanthropic way I mean are they or

681

00:29:45,240 --> 00:29:43,660

are they out to make money and isn't the

682

00:29:48,390 --> 00:29:45,250

point to do stories that will gain

683

00:29:50,490 --> 00:29:48,400

viewers which will generate ad revenue

684

00:29:52,170 --> 00:29:50,500

which will pay everybody salaries you

685

00:29:53,550 --> 00:29:52,180

know when you start asking is it right

686

00:29:55,950 --> 00:29:53,560

for them to earn money the question is

687

00:29:57,660 --> 00:29:55,960

why would it be wrong you know they've

688

00:30:03,150 --> 00:29:57,670

got that empirical seems to think it is

689

00:30:04,980 --> 00:30:03,160

I mean I play that apply play to UFOs

690

00:30:07,890 --> 00:30:04,990

well you're just in it for the money

691

00:30:09,930 --> 00:30:07,900

excuse me ABC News guy aren't you in it

692

00:30:12,000 --> 00:30:09,940

for the money isn't that the whole point

693

00:30:13,800 --> 00:30:12,010

I know when Don and I were writing the

694

00:30:16,140 --> 00:30:13,810

first Roswell book I didn't care about

695

00:30:17,850 --> 00:30:16,150

the money I thought we had a great story

696

00:30:20,880 --> 00:30:17,860

to tell and I wanted to tell that story

697

00:30:23,100 --> 00:30:20,890

and if we had had to publish the book

698

00:30:26,040 --> 00:30:23,110

ourselves and not gotten any kind of in

699

00:30:27,990 --> 00:30:26,050

advance well that so be it and that's

700

00:30:29,690 --> 00:30:28,000

the thing about the blog I make no money

701
00:30:32,520 --> 00:30:29,700
on the blog there's no no day no

702
00:30:35,910 --> 00:30:32,530
donation button there are no ads on the

703
00:30:38,820 --> 00:30:35,920
blog I just share the information with

704
00:30:40,860 --> 00:30:38,830
people who are interested in it should I

705
00:30:42,690 --> 00:30:40,870
should I put people have said well you

706
00:30:44,310 --> 00:30:42,700
need to put a donation button up there

707
00:30:46,650 --> 00:30:44,320
make some money off it I'm thinking I

708
00:30:48,570 --> 00:30:46,660
don't really want to do that but there

709
00:30:51,450 --> 00:30:48,580
is nothing wrong with that

710
00:30:53,610 --> 00:30:51,460
why should this field be the one where

711
00:30:56,820 --> 00:30:53,620
they're always asking about the money

712
00:30:58,620 --> 00:30:56,830
why is the money important wire to to do

713
00:31:02,130 --> 00:30:58,630

proper investigations you need money and

714

00:31:03,870 --> 00:31:02,140

and Don and I were using them using our

715

00:31:05,460 --> 00:31:03,880

own money to investigate the Roswell

716

00:31:08,370 --> 00:31:05,470

case when we began that and

717

00:31:11,190 --> 00:31:08,380

then when we got an advance for the book

718

00:31:13,110 --> 00:31:11,200

which wasn't all that great that money

719

00:31:14,789 --> 00:31:13,120

went right back into the investigation I

720

00:31:16,649 --> 00:31:14,799

mean it costs money to travel to New

721

00:31:18,810 --> 00:31:16,659

Mexico and stay in New Mexico and track

722

00:31:20,610 --> 00:31:18,820

down witnesses back in the olden days

723

00:31:21,570 --> 00:31:20,620

which a lot of the younger people won't

724

00:31:23,669 --> 00:31:21,580

understand

725

00:31:26,039 --> 00:31:23,679

we were running up huge phone bills

726

00:31:30,029 --> 00:31:26,049

because we didn't have a way to call

727

00:31:32,100 --> 00:31:30,039

around the nation for free and now you

728

00:31:33,779 --> 00:31:32,110

can call a Canada and Mexico and all

729

00:31:36,149 --> 00:31:33,789

around the world for free

730

00:31:38,130 --> 00:31:36,159

we've got Skype I can interview people

731

00:31:40,350 --> 00:31:38,140

on skype I don't have to go and visit

732

00:31:42,810 --> 00:31:40,360

them one of the things we wanted to do

733

00:31:45,000 --> 00:31:42,820

and it's kind of relevant to this is we

734

00:31:45,419 --> 00:31:45,010

didn't I didn't want a phone Sheridan

735

00:31:47,460 --> 00:31:45,429

Cavitt

736

00:31:48,630 --> 00:31:47,470

I wanted to be in the room with him when

737

00:31:49,890 --> 00:31:48,640

we first interviewed him because I

738

00:31:51,870 --> 00:31:49,900

wanted to be able to watch his body

739

00:31:54,720 --> 00:31:51,880

language and watch his reactions and see

740

00:31:56,130 --> 00:31:54,730

how he responded to the questions you

741

00:31:58,710 --> 00:31:56,140

can't do that on the telephone you can

742

00:32:01,950 --> 00:31:58,720

do it on Skype and you can do it on some

743

00:32:03,480 --> 00:32:01,960

other ways so we had to go to meet we

744

00:32:05,700 --> 00:32:03,490

met him in Arizona we hadn't travel to

745

00:32:08,279 --> 00:32:05,710

Arizona to meet him down there he was

746

00:32:12,360 --> 00:32:08,289

they were wintering cab the cabinets

747

00:32:13,590 --> 00:32:12,370

were wintering in in Arizona so we went

748

00:32:15,600 --> 00:32:13,600

to visit them and I had an opportunity

749

00:32:21,090 --> 00:32:15,610

and one of the things that came out of

750

00:32:23,039 --> 00:32:21,100

that was we were talking about the

751
00:32:27,210 --> 00:32:23,049
Roswell case and I asked him a question

752
00:32:28,950 --> 00:32:27,220
and he got very nervous and he leaned

753
00:32:30,779 --> 00:32:28,960
forward he picked up a magazine and he

754
00:32:32,720 --> 00:32:30,789
leaned back and he threw the magazine

755
00:32:35,430 --> 00:32:32,730
down he says did Billerica tell you that

756
00:32:36,779 --> 00:32:35,440
and I dumbly said not was that one

757
00:32:39,570 --> 00:32:36,789
easily because I'm trying to protect mil

758
00:32:42,510 --> 00:32:39,580
Rickett and and when easily had passed

759
00:32:44,789 --> 00:32:42,520
away by then I think so I was protecting

760
00:32:47,610 --> 00:32:44,799
Rickett and he just relaxed immediately

761
00:32:49,440 --> 00:32:47,620
on that realizing that you know but we

762
00:32:51,299 --> 00:32:49,450
supposedly didn't know something that we

763
00:32:53,070 --> 00:32:51,309

knew and we had gotten from Bill Rickon

764

00:32:54,919 --> 00:32:53,080

but I mean that's the important thing I

765

00:32:57,960 --> 00:32:54,929

got to watch his body language I got to

766

00:33:01,620 --> 00:32:57,970

watch what he was doing and how he

767

00:33:03,360 --> 00:33:01,630

reacted to the questions and so you had

768

00:33:06,840 --> 00:33:03,370

to go to those places to interview those

769

00:33:11,549 --> 00:33:06,850

people so making the money you know

770

00:33:14,850 --> 00:33:11,559

helped defray the expenses Walt Andres

771

00:33:16,289 --> 00:33:14,860

got really annoyed with me at a MUFON

772

00:33:17,570 --> 00:33:16,299

conference and wanted to know who is

773

00:33:19,789 --> 00:33:17,580

funding our research

774

00:33:22,489 --> 00:33:19,799

and I think he saw that we were somehow

775

00:33:24,830 --> 00:33:22,499

taking money out of his pocket that we

776

00:33:26,509 --> 00:33:24,840

were we had tapped a resource that he

777

00:33:27,950 --> 00:33:26,519

had not tapped and we were getting money

778

00:33:29,060 --> 00:33:27,960

that would have gone to him if it hadn't

779

00:33:30,350 --> 00:33:29,070

been for us and of course that wasn't

780

00:33:31,909 --> 00:33:30,360

true and he want to know who is funding

781

00:33:33,049 --> 00:33:31,919

as I would I said well that's really

782

00:33:36,680 --> 00:33:33,059

none of your business

783

00:33:38,180 --> 00:33:36,690

but I've seen the same thing in in in

784

00:33:39,289 --> 00:33:38,190

the writing you know you mentioned all

785

00:33:40,519 --> 00:33:39,299

the books and a lot of books I've

786

00:33:42,379 --> 00:33:40,529

written or science fiction and I've been

787

00:33:44,359 --> 00:33:42,389

to science fiction conventions and there

788

00:33:46,009 --> 00:33:44,369

are actually people in science fiction

789

00:33:47,960 --> 00:33:46,019

conventions to think if you've got if

790

00:33:50,149 --> 00:33:47,970

you've written a book a science fiction

791

00:33:52,729 --> 00:33:50,159

novel or something like that or India

792

00:33:54,080 --> 00:33:52,739

book then you've somehow taken money out

793

00:33:56,060 --> 00:33:54,090

of their pocket because they didn't have

794

00:33:57,830 --> 00:33:56,070

the opportunity to write the book you

795

00:34:00,499 --> 00:33:57,840

cannot possibly write all the science

796

00:34:02,599 --> 00:34:00,509

fiction books published in a year so my

797

00:34:04,340 --> 00:34:02,609

earning some money writing a science

798

00:34:05,539 --> 00:34:04,350

fiction novel doesn't take money from

799

00:34:07,549 --> 00:34:05,549

you but there are too many people that

800

00:34:09,109 --> 00:34:07,559

view it that way and I think in the UFO

801
00:34:10,970 --> 00:34:09,119
community there's an awful lot of people

802
00:34:14,089 --> 00:34:10,980
thinking that if you've been invited to

803
00:34:16,159 --> 00:34:14,099
a to lecture or make a presentation

804
00:34:17,750 --> 00:34:16,169
someplace that that takes money out of

805
00:34:20,240 --> 00:34:17,760
their pocket when it really doesn't

806
00:34:23,089 --> 00:34:20,250
because they couldn't do everything even

807
00:34:25,730 --> 00:34:23,099
if they if even if they tried and so the

808
00:34:28,909 --> 00:34:25,740
question about them making money really

809
00:34:30,680 --> 00:34:28,919
to me is an irrelevant question and not

810
00:34:33,680 --> 00:34:30,690
an important question because it's not

811
00:34:35,359 --> 00:34:33,690
my money and it will help them fund

812
00:34:35,899 --> 00:34:35,369
their research which would probably be a

813
00:34:38,299 --> 00:34:35,909

good thing

814

00:34:42,020 --> 00:34:38,309

yeah and now now they'll be sending me a

815

00:34:44,299 --> 00:34:42,030

check I'm sure for that well you know I

816

00:34:46,129 --> 00:34:44,309

mean one of the angry emails I got I

817

00:34:48,289 --> 00:34:46,139

remember was something like you know of

818

00:34:50,990 --> 00:34:48,299

course Chris Mellon is from a very

819

00:34:53,270 --> 00:34:51,000

wealthy family the Mellon bank and then

820

00:34:55,430 --> 00:34:53,280

you know Tom belongs worth 80 million so

821

00:34:56,930 --> 00:34:55,440

why you know why aren't they you know

822

00:34:58,609 --> 00:34:56,940

using their own money type of thing but

823

00:35:00,470 --> 00:34:58,619

you're right why it's a smart decision

824

00:35:02,990 --> 00:35:00,480

not to use your own money if you're

825

00:35:05,539 --> 00:35:03,000

starting something you know of course it

826
00:35:07,250 --> 00:35:05,549
makes total sense to me and why do you

827
00:35:09,200 --> 00:35:07,260
think they're obligated to fund this

828
00:35:10,910 --> 00:35:09,210
just because they happen to have that's

829
00:35:12,620 --> 00:35:10,920
right a couple of million dollars you

830
00:35:14,180 --> 00:35:12,630
know I mean why do you expect them to

831
00:35:16,549 --> 00:35:14,190
fund that out of their own pocket if

832
00:35:18,319 --> 00:35:16,559
they can tap into a revenue stream that

833
00:35:20,299 --> 00:35:18,329
will help us fund help them fund the

834
00:35:24,940 --> 00:35:20,309
research you know I don't I don't

835
00:35:27,260 --> 00:35:24,950
understand that this if we're somehow

836
00:35:29,180 --> 00:35:27,270
obligated to provide all this

837
00:35:31,360 --> 00:35:29,190
information to people for free without

838
00:35:35,140 --> 00:35:31,370

any kind of compensation

839

00:35:36,940 --> 00:35:35,150

and yet they go to their jobs not out of

840

00:35:38,770 --> 00:35:36,950

the goodness of their hearts just to do

841

00:35:40,990 --> 00:35:38,780

something positive they go to earn money

842

00:35:43,540 --> 00:35:41,000

and why shouldn't we be allowed to make

843

00:35:45,040 --> 00:35:43,550

some money on this I think that the

844

00:35:46,420 --> 00:35:45,050

other the other thing that's always kind

845

00:35:48,850 --> 00:35:46,430

of funny is people worry about the

846

00:35:50,230 --> 00:35:48,860

advances on the books and you look at

847

00:35:51,640 --> 00:35:50,240

the amount of work that went into get

848

00:35:53,260 --> 00:35:51,650

that book and get the book written and

849

00:35:54,760 --> 00:35:53,270

all of that stuff which is much easier

850

00:35:56,140 --> 00:35:54,770

today with a computer by the way than it

851
00:35:59,650 --> 00:35:56,150
was back when we were banging it out on

852
00:36:02,860 --> 00:35:59,660
a typewriter yeah but but but but the

853
00:36:04,360 --> 00:36:02,870
thing is if you if you look at it most

854
00:36:06,850 --> 00:36:04,370
writers aren't even making minimum wage

855
00:36:09,100 --> 00:36:06,860
because of the on a time and effort that

856
00:36:10,750 --> 00:36:09,110
they've spent in an attempt to produce

857
00:36:12,520 --> 00:36:10,760
whether it's a fiction book that they're

858
00:36:15,130 --> 00:36:12,530
they're making up as they go along and

859
00:36:17,410 --> 00:36:15,140
I'm done I've done action-adventure

860
00:36:19,030 --> 00:36:17,420
novels that required a great deal of

861
00:36:21,850 --> 00:36:19,040
research so you could get the stuff

862
00:36:23,200 --> 00:36:21,860
accurate and so even if you're doing

863
00:36:24,610 --> 00:36:23,210

that sort of thing you want to you want

864

00:36:28,020 --> 00:36:24,620

the information to be as accurate as

865

00:36:30,700 --> 00:36:28,030

possible so I don't understand this this

866

00:36:34,570 --> 00:36:30,710

irritation and people making money or

867

00:36:38,320 --> 00:36:34,580

getting funding to do the research right

868

00:36:41,050 --> 00:36:38,330

right well I thank you for for

869

00:36:43,120 --> 00:36:41,060

addressing that I think I have brought

870

00:36:45,790 --> 00:36:43,130

that up to a couple of other people to

871

00:36:47,370 --> 00:36:45,800

get their perspective so before we talk

872

00:36:51,100 --> 00:36:47,380

I want to talk about the Roswell

873

00:36:53,280 --> 00:36:51,110

theories the one actually I had a guest

874

00:36:55,690 --> 00:36:53,290

on the show while back and I know you

875

00:36:58,300 --> 00:36:55,700

you responded on your blog about that

876

00:37:00,100 --> 00:36:58,310

but did you hear the question we had

877

00:37:02,590 --> 00:37:00,110

during the news you know someone wanted

878

00:37:04,690 --> 00:37:02,600

to know why should we care about UFOs

879

00:37:06,190 --> 00:37:04,700

that simple question like that so I'm

880

00:37:09,070 --> 00:37:06,200

going to pose that question to you why

881

00:37:10,630 --> 00:37:09,080

should we care about UFOs just like that

882

00:37:12,870 --> 00:37:10,640

average person out there that doesn't

883

00:37:15,370 --> 00:37:12,880

care about them asking us that question

884

00:37:16,870 --> 00:37:15,380

well then we can ask that simple

885

00:37:18,400 --> 00:37:16,880

question why do you care about history

886

00:37:20,440 --> 00:37:18,410

or why do you carry about the Battle of

887

00:37:23,380 --> 00:37:20,450

Gettysburg or why do you carry up care

888

00:37:26,820 --> 00:37:23,390

about all these other things that may

889

00:37:29,410 --> 00:37:26,830

not impact your life directly and and I

890

00:37:33,820 --> 00:37:29,420

think that the the important part of

891

00:37:36,250 --> 00:37:33,830

ufology is if we demonstrate that there

892

00:37:38,620 --> 00:37:36,260

is alien visitation it suggests that

893

00:37:40,180 --> 00:37:38,630

there is a possibility of interstellar

894

00:37:43,120 --> 00:37:40,190

travel and that opens up the whole

895

00:37:44,720 --> 00:37:43,130

galaxy to us and if you know something

896

00:37:47,330 --> 00:37:44,730

is possible

897

00:37:48,650 --> 00:37:47,340

then you're most much more likely to

898

00:37:50,330 --> 00:37:48,660

invent it than if you believed it to be

899

00:37:51,590 --> 00:37:50,340

impossible why should I do that it's

900

00:37:53,750 --> 00:37:51,600

impossible you can't do that

901
00:37:55,760 --> 00:37:53,760
interstellar flight is impossible we

902
00:37:58,250 --> 00:37:55,770
can't do that but if we can learn that

903
00:38:00,920 --> 00:37:58,260
it's possible that may open up the

904
00:38:04,340 --> 00:38:00,930
entire galaxy to us and change our

905
00:38:06,350 --> 00:38:04,350
perspective on practically everything I

906
00:38:07,940 --> 00:38:06,360
think the other point is and I've said

907
00:38:11,480 --> 00:38:07,950
this I've said this in the past you know

908
00:38:13,430 --> 00:38:11,490
why people are also also afraid of some

909
00:38:15,830 --> 00:38:13,440
of this and would panic if they knew the

910
00:38:18,140 --> 00:38:15,840
truth and I'm thinking you know we've

911
00:38:19,760 --> 00:38:18,150
been talking about this well you and I

912
00:38:22,010 --> 00:38:19,770
haven't but people have been talking

913
00:38:25,610 --> 00:38:22,020

about this since basically the Foo

914

00:38:26,870 --> 00:38:25,620

Fighters of World War two and you look

915

00:38:28,850 --> 00:38:26,880

at it from that perspective you know

916

00:38:29,960 --> 00:38:28,860

here is if there's alien visitation it

917

00:38:31,970 --> 00:38:29,970

goes back that far well obviously

918

00:38:33,950 --> 00:38:31,980

they're not hostile they haven't invaded

919

00:38:36,920 --> 00:38:33,960

they haven't done anything they're just

920

00:38:38,300 --> 00:38:36,930

out there observing what we do I mean so

921

00:38:41,180 --> 00:38:38,310

there's no reason to be frightened about

922

00:38:46,700 --> 00:38:41,190

it but who knows what sort of technology

923

00:38:48,530 --> 00:38:46,710

that they may provide for us it would be

924

00:38:52,220 --> 00:38:48,540

very beneficial to the entire human race

925

00:38:54,770 --> 00:38:52,230

if they are in fact visiting but we also

926
00:38:56,710 --> 00:38:54,780
have to look at it you know from the

927
00:38:58,970 --> 00:38:56,720
perspective of every time and

928
00:39:00,320 --> 00:38:58,980
technologically inferior civilization

929
00:39:02,360 --> 00:39:00,330
comes into contact with the

930
00:39:03,980 --> 00:39:02,370
technologically superior civilization

931
00:39:06,680 --> 00:39:03,990
that technologically inferior

932
00:39:08,270 --> 00:39:06,690
civilization ceases to exist not

933
00:39:10,250 --> 00:39:08,280
necessarily through conquest or anything

934
00:39:12,830 --> 00:39:10,260
else the me reduction of the technology

935
00:39:15,170 --> 00:39:12,840
radically Auto alters the society and we

936
00:39:17,120 --> 00:39:15,180
have numerous examples of that

937
00:39:19,310 --> 00:39:17,130
throughout history there was an

938
00:39:22,640 --> 00:39:19,320

anthropologist who was studying a group

939

00:39:25,340 --> 00:39:22,650

of people and they had a very rigorous

940

00:39:27,500 --> 00:39:25,350

procedure for borrowing a stone ax from

941

00:39:29,270 --> 00:39:27,510

one of the head men you know they if you

942

00:39:32,060 --> 00:39:29,280

needed a stone axe to do something you

943

00:39:33,950 --> 00:39:32,070

had to go through this ritual or this

944

00:39:36,230 --> 00:39:33,960

procedure to gather it and the

945

00:39:38,270 --> 00:39:36,240

anthropologist showed up with steel axes

946

00:39:40,130 --> 00:39:38,280

and he was using those to bribe people

947

00:39:43,280 --> 00:39:40,140

to talk to him well he's just now

948

00:39:45,320 --> 00:39:43,290

undercut one of the underpinnings of the

949

00:39:46,880 --> 00:39:45,330

society just the introduction of the

950

00:39:50,660 --> 00:39:46,890

steel axe which is far superior to a

951
00:39:53,780 --> 00:39:50,670
stone axe by I guess his own ignorance

952
00:39:56,690 --> 00:39:53,790
not understanding the importance of the

953
00:39:59,840 --> 00:39:56,700
ritual of borrowing the steel axe so you

954
00:40:02,480 --> 00:39:59,850
you open up that door so if we did learn

955
00:40:06,770 --> 00:40:02,490
the truth and even learning the truth

956
00:40:09,880 --> 00:40:06,780
may alter our perspective of the world

957
00:40:14,420 --> 00:40:09,890
and the cosmos and realize that we can I

958
00:40:16,370 --> 00:40:14,430
guess exploit other planets so uh you

959
00:40:18,740 --> 00:40:16,380
know it's a it's important to a lot of

960
00:40:20,810 --> 00:40:18,750
us for the simple knowledge it's

961
00:40:23,240 --> 00:40:20,820
important to us to solve the mystery and

962
00:40:24,800 --> 00:40:23,250
I guess a good example is the curse of

963
00:40:27,410 --> 00:40:24,810

Oak Island in which I've addressed on my

964

00:40:29,150 --> 00:40:27,420

blog number a number of times and it's

965

00:40:30,500 --> 00:40:29,160

you know why is that important to me or

966

00:40:32,150 --> 00:40:30,510

anybody else well it's a mystery and

967

00:40:33,950 --> 00:40:32,160

I've been fascinated by the thing since

968

00:40:36,050 --> 00:40:33,960

the mid-1970s

969

00:40:38,630 --> 00:40:36,060

I think they've solved the mystery that

970

00:40:40,580 --> 00:40:38,640

there is no treasure but I understand

971

00:40:42,470 --> 00:40:40,590

they're gonna do season six I'm gonna be

972

00:40:44,450 --> 00:40:42,480

doing four more of them yeah but well

973

00:40:47,240 --> 00:40:44,460

why not they're making a lot of money on

974

00:40:49,370 --> 00:40:47,250

it the treasure is the treasure is the

975

00:40:50,870 --> 00:40:49,380

show yeah and you know that's that's

976

00:40:52,730 --> 00:40:50,880

kind of fascinating but the point simply

977

00:40:53,870 --> 00:40:52,740

is you know that if they found a

978

00:40:56,750 --> 00:40:53,880

treasure they're not gonna share it with

979

00:40:58,910 --> 00:40:56,760

me so why do I care and I care because

980

00:41:00,440 --> 00:40:58,920

it solves that mystery and I'm

981

00:41:01,670 --> 00:41:00,450

interested in the solutions of the

982

00:41:05,360 --> 00:41:01,680

mystery and I think that's another part

983

00:41:07,040 --> 00:41:05,370

of it it solves a mystery well yeah yeah

984

00:41:09,350 --> 00:41:07,050

that whole I followed a little bit of

985

00:41:11,840 --> 00:41:09,360

that Oak Island I don't have I don't

986

00:41:14,780 --> 00:41:11,850

have cable I don't have TV but I did

987

00:41:16,340 --> 00:41:14,790

follow that just the whole mystery part

988

00:41:20,390 --> 00:41:16,350

of it I'd heard about it many years ago

989

00:41:23,300 --> 00:41:20,400

possibly even the 70s and you know I

990

00:41:24,680 --> 00:41:23,310

just had a picture in my mind with what

991

00:41:27,740 --> 00:41:24,690

was going on with it but it was totally

992

00:41:30,140 --> 00:41:27,750

once I saw like on YouTube or something

993

00:41:31,580 --> 00:41:30,150

a video of what was actually happening

994

00:41:35,300 --> 00:41:31,590

is totally different than I was

995

00:41:37,490 --> 00:41:35,310

picturing it but if I remember right

996

00:41:40,100 --> 00:41:37,500

people have died trying to find what

997

00:41:42,080 --> 00:41:40,110

probably isn't there right six people I

998

00:41:46,190 --> 00:41:42,090

think have died you know in the in the

999

00:41:47,660 --> 00:41:46,200

process I tried trying to find it so

1000

00:41:49,250 --> 00:41:47,670

that you know that's the curse of Oak

1001
00:41:52,490 --> 00:41:49,260
Island and the seventh must die before

1002
00:41:55,370 --> 00:41:52,500
we can find the treasure but I read a

1003
00:41:58,190 --> 00:41:55,380
book by DRC okay well Brian I think it

1004
00:42:00,350 --> 00:41:58,200
was back in the 70s you know called the

1005
00:42:03,680 --> 00:42:00,360
Big Dig and they were how they were

1006
00:42:05,540 --> 00:42:03,690
going to defeat the the money pit

1007
00:42:07,220 --> 00:42:05,550
hey and I actually said on my blog the

1008
00:42:08,570 --> 00:42:07,230
money pit is is just where they're

1009
00:42:10,220 --> 00:42:08,580
throwing all the money there I get

1010
00:42:12,500 --> 00:42:10,230
anything out there it's a big

1011
00:42:14,900 --> 00:42:12,510
they're throwing their money into but

1012
00:42:17,660 --> 00:42:14,910
it's a fascinating mystery and I think I

1013
00:42:19,339 --> 00:42:17,670

think it's been solved joy Steele did a

1014

00:42:22,670 --> 00:42:19,349

book about it

1015

00:42:24,710 --> 00:42:22,680

postulating about what what the initial

1016

00:42:26,030 --> 00:42:24,720

thing was and I think she's pretty much

1017

00:42:29,660 --> 00:42:26,040

on the right track

1018

00:42:31,819 --> 00:42:29,670

about what what was going on there but

1019

00:42:33,319 --> 00:42:31,829

you know it's a mystery that that is

1020

00:42:36,170 --> 00:42:33,329

interesting and it's something you know

1021

00:42:38,000 --> 00:42:36,180

it's like the Loch Ness monster like to

1022

00:42:40,190 --> 00:42:38,010

know the solution there think I know

1023

00:42:41,810 --> 00:42:40,200

what it is which will make on many

1024

00:42:45,319 --> 00:42:41,820

people unhappy but it but you know

1025

00:42:46,970 --> 00:42:45,329

that's another mystery that needs to be

1026
00:42:48,829 --> 00:42:46,980
solved and you you followed you Falls

1027
00:42:50,900 --> 00:42:48,839
right into that same category here's a

1028
00:42:52,550 --> 00:42:50,910
mystery we need to solve I look at some

1029
00:42:55,910 --> 00:42:52,560
of the old classic cases and I think we

1030
00:42:59,359 --> 00:42:55,920
have good solutions for them now as we

1031
00:43:02,060 --> 00:42:59,369
understand more about the world around

1032
00:43:03,470 --> 00:43:02,070
us and we understand more of what was

1033
00:43:06,620 --> 00:43:03,480
going on and some of the things that

1034
00:43:08,750 --> 00:43:06,630
were hidden from us originally are now

1035
00:43:11,240 --> 00:43:08,760
open to us that the files have been

1036
00:43:12,740 --> 00:43:11,250
Declassified that was the other thing I

1037
00:43:14,240 --> 00:43:12,750
think the conduct materi said well there

1038
00:43:16,309 --> 00:43:14,250

was never any secret investigation of

1039

00:43:18,020 --> 00:43:16,319

UFOs and I found a document the project

1040

00:43:20,270 --> 00:43:18,030

Bluebook files was stamped secret well

1041

00:43:21,770 --> 00:43:20,280

that kind of shoots doubt down their

1042

00:43:24,710 --> 00:43:21,780

proud apparently were some secret

1043

00:43:27,200 --> 00:43:24,720

investigations going on and I know the

1044

00:43:28,670 --> 00:43:27,210

Mantell case part of that file was

1045

00:43:30,500 --> 00:43:28,680

classified but it was classified because

1046

00:43:32,630 --> 00:43:30,510

the accident investigation part of it

1047

00:43:37,010 --> 00:43:32,640

was classified because the Air Force

1048

00:43:39,470 --> 00:43:37,020

always did that so that the witnesses

1049

00:43:41,720 --> 00:43:39,480

the people involved in the accident and

1050

00:43:43,849 --> 00:43:41,730

the investigation whatever that accident

1051
00:43:44,839 --> 00:43:43,859
investigation might be would feel free

1052
00:43:46,849 --> 00:43:44,849
to talk and there wouldn't be

1053
00:43:48,440 --> 00:43:46,859
ramifications from higher up in the

1054
00:43:50,630 --> 00:43:48,450
chain of command they they knew that

1055
00:43:52,160 --> 00:43:50,640
they their words would not come back to

1056
00:43:53,960 --> 00:43:52,170
haunt them so they were they could speak

1057
00:43:55,849 --> 00:43:53,970
freely so there's there's times when the

1058
00:43:57,380 --> 00:43:55,859
classification is necessary and then the

1059
00:43:59,059 --> 00:43:57,390
Mantell case that made perfect sense

1060
00:44:01,309 --> 00:43:59,069
that the accident investigation was

1061
00:44:05,200 --> 00:44:01,319
classified I think it was classified

1062
00:44:07,550 --> 00:44:05,210
partially because in it the other pilots

1063
00:44:09,230 --> 00:44:07,560

admitted to violating military

1064

00:44:11,630 --> 00:44:09,240

regulations which said you can't climb

1065

00:44:15,109 --> 00:44:11,640

above 14,000 feet without oxygen and

1066

00:44:17,420 --> 00:44:15,119

they were they were up at 20,000 22,000

1067

00:44:19,190 --> 00:44:17,430

feet without oxygen and so they were in

1068

00:44:21,470 --> 00:44:19,200

violation of military regulations so

1069

00:44:24,349 --> 00:44:21,480

that wouldn't have come out had

1070

00:44:25,849 --> 00:44:24,359

had not been for the classification of

1071

00:44:28,010 --> 00:44:25,859

the accident investigation and the guys

1072

00:44:29,750 --> 00:44:28,020

being feeling feeling there would be no

1073

00:44:32,300 --> 00:44:29,760

ramifications for their violation of the

1074

00:44:35,180 --> 00:44:32,310

regulation man as man telling them

1075

00:44:36,920 --> 00:44:35,190

higher but I mean the point simply is we

1076
00:44:39,440 --> 00:44:36,930
have better information now and better

1077
00:44:41,390 --> 00:44:39,450
access to information and we're able to

1078
00:44:43,520 --> 00:44:41,400
solve some of the older cases that were

1079
00:44:48,980 --> 00:44:43,530
mysterious at one time but there's still

1080
00:44:51,820 --> 00:44:48,990
some cases that just kind of defy

1081
00:44:54,530 --> 00:44:51,830
explanation and you can and you can

1082
00:44:55,880 --> 00:44:54,540
minimize them by making suggestions the

1083
00:44:57,380 --> 00:44:55,890
Socorro case which I guess we'll talk

1084
00:45:01,099 --> 00:44:57,390
about later and say well I was single

1085
00:45:04,130 --> 00:45:01,109
witness well not really but you you kind

1086
00:45:04,760 --> 00:45:04,140
of minimize it's important by doing that

1087
00:45:08,090 --> 00:45:04,770
sort of thing

1088
00:45:10,250 --> 00:45:08,100

the Levelland case from 1957 where

1089

00:45:12,770 --> 00:45:10,260

you've got the craft interacting with

1090

00:45:14,660 --> 00:45:12,780

the environment but there's no physical

1091

00:45:16,520 --> 00:45:14,670

evidence left behind so you've only got

1092

00:45:19,220 --> 00:45:16,530

witness testimony now there's a

1093

00:45:21,590 --> 00:45:19,230

possibility of physical evidence that

1094

00:45:23,570 --> 00:45:21,600

was ignored at the time but but you know

1095

00:45:26,900 --> 00:45:23,580

well it's only witness testimony and we

1096

00:45:29,210 --> 00:45:26,910

know I witness testimony isn't very good

1097

00:45:31,640 --> 00:45:29,220

and that sort of thing so we can kind of

1098

00:45:34,130 --> 00:45:31,650

mitigate the cases in that way but I

1099

00:45:35,780 --> 00:45:34,140

think that you know our our our

1100

00:45:37,070 --> 00:45:35,790

standards in ufology and our

1101
00:45:38,750 --> 00:45:37,080
investigative techniques have improved

1102
00:45:41,510 --> 00:45:38,760
over the years as we learn more of these

1103
00:45:44,420 --> 00:45:41,520
things right I've heard that you know I

1104
00:45:46,400 --> 00:45:44,430
guess on the show one time speculate

1105
00:45:48,680 --> 00:45:46,410
that there's there's a lot of things

1106
00:45:51,530 --> 00:45:48,690
that never made it into project Bluebook

1107
00:45:53,450 --> 00:45:51,540
that were classified instead have you

1108
00:45:54,230 --> 00:45:53,460
ever heard any rumblings along those

1109
00:45:57,859 --> 00:45:54,240
lines

1110
00:45:59,359 --> 00:45:57,869
oh absolutely a high-neck said it that

1111
00:46:01,340 --> 00:45:59,369
the really good case has never made it

1112
00:46:03,170 --> 00:46:01,350
to Blue Book when the conduct committee

1113
00:46:04,849 --> 00:46:03,180

was investigating it for the universe of

1114

00:46:06,770 --> 00:46:04,859

Colorado back in the nineteen

1115

00:46:09,859 --> 00:46:06,780

early late 1960s the the air force

1116

00:46:11,840 --> 00:46:09,869

investigation of it there was a series

1117

00:46:14,960 --> 00:46:11,850

of sightings in belt Montana Malstrom

1118

00:46:17,480 --> 00:46:14,970

air force base and one of them the the

1119

00:46:19,430 --> 00:46:17,490

object shut down the missiles which

1120

00:46:22,430 --> 00:46:19,440

makes it an issue of national security

1121

00:46:24,200 --> 00:46:22,440

sure because an outside force being able

1122

00:46:27,290 --> 00:46:24,210

to stop the launch of the missiles you

1123

00:46:29,990 --> 00:46:27,300

know in in a interact with the system in

1124

00:46:31,430 --> 00:46:30,000

a very negative way and the conduct

1125

00:46:34,220 --> 00:46:31,440

committee guys were there and they had

1126
00:46:35,210 --> 00:46:34,230
their security clearances and the UFO

1127
00:46:36,740 --> 00:46:35,220
officer

1128
00:46:38,780 --> 00:46:36,750
told him I can't talk about that it's a

1129
00:46:41,089 --> 00:46:38,790
national security so we know that there

1130
00:46:43,339 --> 00:46:41,099
was items of national security that were

1131
00:46:46,190 --> 00:46:43,349
involved in UFO sightings that

1132
00:46:47,390 --> 00:46:46,200
prohibited getting into the project

1133
00:46:49,580 --> 00:46:47,400
Bluebook files we have high next

1134
00:46:53,050 --> 00:46:49,590
statement that they went somewhere else

1135
00:46:55,910 --> 00:46:53,060
and we had Bolander statement in 1969

1136
00:46:57,830 --> 00:46:55,920
about cases going that were not part of

1137
00:46:59,870 --> 00:46:57,840
the Blue Book system we know about

1138
00:47:03,020 --> 00:46:59,880

project moon dust for example and I

1139

00:47:04,460 --> 00:47:03,030

found four cases in the project blue

1140

00:47:06,230 --> 00:47:04,470

book files labeled moon dust they are

1141

00:47:07,490 --> 00:47:06,240

all in September of 1960 and I was

1142

00:47:09,830 --> 00:47:07,500

looking for something else I was

1143

00:47:12,260 --> 00:47:09,840

scanning the microfilm and I thought I

1144

00:47:14,030 --> 00:47:12,270

saw the words moon dust go by so I went

1145

00:47:16,160 --> 00:47:14,040

back and looked and I found four cases

1146

00:47:18,710 --> 00:47:16,170

that were labeled moon dust so a we know

1147

00:47:20,120 --> 00:47:18,720

there was a UFO community component to

1148

00:47:22,670 --> 00:47:20,130

Moon to us we know his communication

1149

00:47:24,320 --> 00:47:22,680

between Blue Book and moon dust the four

1150

00:47:26,270 --> 00:47:24,330

cases were crappy cases you know the

1151

00:47:28,430 --> 00:47:26,280

sighting was like a minute I'm sorry a

1152

00:47:31,670 --> 00:47:28,440

second second and a half and probably

1153

00:47:33,410 --> 00:47:31,680

were meteoric in origin but the point is

1154

00:47:35,660 --> 00:47:33,420

the cases made it in the blue books

1155

00:47:39,760 --> 00:47:35,670

file but there's a lot of other cases we

1156

00:47:42,079 --> 00:47:39,770

now know about that generated moon dust

1157

00:47:44,210 --> 00:47:42,089

traffic that didn't make it into the

1158

00:47:45,800 --> 00:47:44,220

Project Blue Book file so yeah we can

1159

00:47:47,000 --> 00:47:45,810

answer that question the positive sure

1160

00:47:49,490 --> 00:47:47,010

there's a lot of stuff that didn't make

1161

00:47:51,470 --> 00:47:49,500

it to the files and we know this okay so

1162

00:47:53,720 --> 00:47:51,480

let's uh we're going to be going to

1163

00:47:57,320 --> 00:47:53,730

break in in a couple of minutes here

1164

00:47:58,250 --> 00:47:57,330

about four minutes or so but let's let's

1165

00:48:00,859 --> 00:47:58,260

address

1166

00:48:04,190 --> 00:48:00,869

I saw your blog or a read your blog I

1167

00:48:08,660 --> 00:48:04,200

had a guest on the show dr. Bob Gross

1168

00:48:12,620 --> 00:48:08,670

talked about his theories of Roswell and

1169

00:48:15,220 --> 00:48:12,630

just wanted to wanted to catch your side

1170

00:48:18,170 --> 00:48:15,230

on what you thought about his theory

1171

00:48:20,030 --> 00:48:18,180

well it was an interesting theory and I

1172

00:48:21,829 --> 00:48:20,040

apparently done a lot of research but we

1173

00:48:24,170 --> 00:48:21,839

haven't seen that research we've seen

1174

00:48:26,810 --> 00:48:24,180

his conclusions based on that research

1175

00:48:29,750 --> 00:48:26,820

and until we can see the documentation

1176

00:48:32,060 --> 00:48:29,760

we have to we have questions we we need

1177

00:48:35,800 --> 00:48:32,070

to ask and one of them was his

1178

00:48:38,420 --> 00:48:35,810

suggestion that this sat alone was

1179

00:48:39,470 --> 00:48:38,430

embedded in a mogul mogul flight mogul

1180

00:48:41,089 --> 00:48:39,480

flight number four but there's

1181

00:48:43,670 --> 00:48:41,099

absolutely nothing in the mogul

1182

00:48:45,740 --> 00:48:43,680

documentation to suggest that in flight

1183

00:48:48,770 --> 00:48:45,750

number four we know was canceled we have

1184

00:48:49,100 --> 00:48:48,780

the documentation dr. Kerry Albert Crary

1185

00:48:53,360 --> 00:48:49,110

who

1186

00:48:57,380 --> 00:48:53,370

was the leader of the blue launchings

1187

00:48:59,540 --> 00:48:57,390

the Mogul launchings in Alamogordo and I

1188

00:49:00,920 --> 00:48:59,550

hesitate to say mogul launchings because

1189

00:49:02,450 --> 00:49:00,930

a number of the people who are involved

1190

00:49:04,850 --> 00:49:02,460

I said well it really wasn't project

1191

00:49:08,390 --> 00:49:04,860

mogul we were doing there it was the New

1192

00:49:10,130 --> 00:49:08,400

York University balloon investigation we

1193

00:49:13,040 --> 00:49:10,140

were doing but its ultimate purpose was

1194

00:49:16,960 --> 00:49:13,050

to create a constant level balloon that

1195

00:49:20,300 --> 00:49:16,970

would allow us to spy on the Soviets in

1196

00:49:21,800 --> 00:49:20,310

their atomic testing but and and Moghuls

1197

00:49:23,090 --> 00:49:21,810

mentioned in Kerry's diary a number of

1198

00:49:25,010 --> 00:49:23,100

times so they were interacting with

1199

00:49:26,420 --> 00:49:25,020

mogul but there's nothing in the

1200

00:49:28,790 --> 00:49:26,430

documentation to suggest they had

1201

00:49:30,830 --> 00:49:28,800

invented one of these statins in any of

1202

00:49:32,930 --> 00:49:30,840

the flights and flight number four

1203

00:49:35,750 --> 00:49:32,940

coordinate career diary was cancelled so

1204

00:49:38,120 --> 00:49:35,760

the the mogul flight that has been

1205

00:49:39,710 --> 00:49:38,130

identified as crashing allegedly

1206

00:49:43,490 --> 00:49:39,720

clashing crashing on the foster ranch

1207

00:49:46,280 --> 00:49:43,500

the Brazel ranch never flew and if it

1208

00:49:49,580 --> 00:49:46,290

did didn't it never flew so even if it

1209

00:49:50,810 --> 00:49:49,590

had a Saeta loon appended to it embedded

1210

00:49:54,920 --> 00:49:50,820

in it it wouldn't have gotten to the

1211

00:49:56,750 --> 00:49:54,930

Brazel ranch because that that flight

1212

00:49:59,990 --> 00:49:56,760

never went so you have to look at all of

1213

00:50:03,920 --> 00:50:00,000

this and now I know in my limited

1214

00:50:06,020 --> 00:50:03,930

discussions with him that he says I have

1215

00:50:07,370 --> 00:50:06,030

the documentation and I will present it

1216

00:50:09,350 --> 00:50:07,380

in my books and now we're back to the

1217

00:50:13,190 --> 00:50:09,360

proprietary information and I understand

1218

00:50:14,510 --> 00:50:13,200

his point of view wanting to expose that

1219

00:50:16,580 --> 00:50:14,520

information or publish that information

1220

00:50:19,280 --> 00:50:16,590

himself in his book rather than handing

1221

00:50:21,290 --> 00:50:19,290

it out to all US researchers who demand

1222

00:50:24,910 --> 00:50:21,300

the the information right now so until

1223

00:50:27,320 --> 00:50:24,920

we can see the evidence you know my

1224

00:50:29,510 --> 00:50:27,330

conclusion is you know it's an

1225

00:50:31,070 --> 00:50:29,520

interesting theory but I don't think ya

1226

00:50:38,360 --> 00:50:31,080

hesitate to say it this way I don't

1227

00:50:41,990 --> 00:50:38,370

think it's gonna fly but we have to look

1228

00:50:43,700 --> 00:50:42,000

at what evidence he has to prove it

1229

00:50:45,350 --> 00:50:43,710

prove it to us and he says he's got the

1230

00:50:47,600 --> 00:50:45,360

information so I'm waiting to see that

1231

00:50:49,730 --> 00:50:47,610

information I'm wondering if any of

1232

00:50:51,440 --> 00:50:49,740

those statins you know how a lot of

1233

00:50:53,660 --> 00:50:51,450

times they'll have they'll have like

1234

00:50:56,540 --> 00:50:53,670

surplus of something stored somewhere

1235

00:50:59,480 --> 00:50:56,550

you know I mean there's so many vast

1236

00:51:00,800 --> 00:50:59,490

storerooms I'm sure with you know old

1237

00:51:01,480 --> 00:51:00,810

weapons and things like that I'm

1238

00:51:04,540 --> 00:51:01,490

wondering if

1239

00:51:07,089 --> 00:51:04,550

there's actually a saddle on that the

1240

00:51:12,400 --> 00:51:07,099

preserve still that actually is tucked

1241

00:51:13,569 --> 00:51:12,410

away somewhere well actually you're

1242

00:51:16,809 --> 00:51:13,579

funny you should say that because one of

1243

00:51:20,680 --> 00:51:16,819

the raehwan targets and balloons that

1244

00:51:22,299 --> 00:51:20,690

was exposed in the 1947 around the

1245

00:51:25,839 --> 00:51:22,309

Roswell time was actually found in a

1246

00:51:27,940 --> 00:51:25,849

barn but or stored in a barn but but you

1247

00:51:29,980 --> 00:51:27,950

know since it was I guess done sort of

1248

00:51:32,260 --> 00:51:29,990

under government auspices and that sort

1249

00:51:34,210 --> 00:51:32,270

of thing you might it might be stored

1250

00:51:35,500 --> 00:51:34,220

away somewhere and somebody's back room

1251

00:51:39,819 --> 00:51:35,510

that they ass haven't cleaned it out

1252

00:51:42,010 --> 00:51:39,829

yeah found in a file box Hey that time

1253

00:51:44,950 --> 00:51:42,020

for us to go into a break are this our

1254

00:51:47,859 --> 00:51:44,960

second and last break of the show so

1255

00:51:48,640 --> 00:51:47,869

you're listening to podcast UFO on kgr a

1256

00:51:50,890 --> 00:51:48,650

radio

1257

00:51:56,010 --> 00:51:50,900

my guest is Kevin Randle and we'll be

1258

00:52:02,349 --> 00:51:59,380

all right gentlemen good segment we've

1259

00:52:05,020 --> 00:52:02,359

got one two three full minutes in this

1260

00:52:07,750 --> 00:52:05,030

break plus a few seconds of bumper on

1261

00:52:10,480 --> 00:52:07,760

this and on the back sides okay thank

1262

00:52:12,490 --> 00:52:10,490

you we're all set all right so we'll

1263

00:52:15,030 --> 00:52:12,500

have to remember we were at that and

1264

00:52:18,039 --> 00:52:15,040

then we'll jump right into the Socorro

1265

00:52:20,079 --> 00:52:18,049

Socorro in your book and all that right

1266

00:52:21,819 --> 00:52:20,089

after that well if you want to talk a

1267

00:52:23,710 --> 00:52:21,829

little bit about Roswell that's fine too

1268

00:52:25,150 --> 00:52:23,720

I mean you know we just had the Roswell

1269

00:52:27,579 --> 00:52:25,160

festival and all of that sort of thing

1270

00:52:29,049 --> 00:52:27,589

and not you know conversant in both

1271

00:52:31,599 --> 00:52:29,059

those and if you want to talk about the

1272

00:52:33,309 --> 00:52:31,609

man kill kill see the man told case I've

1273

00:52:36,880 --> 00:52:33,319

just been learning an awful lot by that

1274

00:52:38,260 --> 00:52:36,890

about that as well because I'd done a

1275

00:52:39,640 --> 00:52:38,270

research paper on that that was

1276

00:52:40,960 --> 00:52:39,650

peer-reviewed and they sent me some

1277

00:52:42,250 --> 00:52:40,970

suggestions it seemed that every time I

1278

00:52:44,200 --> 00:52:42,260

turned around I was finding more

1279

00:52:45,700 --> 00:52:44,210

information that was relevant to the

1280

00:52:48,039 --> 00:52:45,710

Mantell case one of the things I did was

1281

00:52:50,200 --> 00:52:48,049

plot the the sightings on a map and

1282

00:52:52,990 --> 00:52:50,210

realized you've got a group of sightings

1283

00:52:55,170 --> 00:52:53,000

in southwestern and Kentucky but you've

1284

00:52:57,970 --> 00:52:55,180

got another groups of sightings east of

1285

00:53:01,150 --> 00:52:57,980

Godman Tower and all of that it's almost

1286

00:53:03,160 --> 00:53:01,160

a straight line you know so do you want

1287

00:53:05,049 --> 00:53:03,170

to talk about that during the live radio

1288

00:53:06,789 --> 00:53:05,059

show today

1289

00:53:08,170 --> 00:53:06,799

that's an interesting case if it's the

1290

00:53:10,030 --> 00:53:08,180

one I'm thinking of it's the one where

1291

00:53:12,309 --> 00:53:10,040

he float flew really high and then he

1292

00:53:13,870 --> 00:53:12,319

ended up crashing and then absolutely we

1293

00:53:15,550 --> 00:53:13,880

can talk about sir we can talk about

1294

00:53:17,620 --> 00:53:15,560

that

1295

00:53:20,680 --> 00:53:17,630

you know we can talk about whatever you

1296

00:53:22,450 --> 00:53:20,690

wherever you'd like to go about that as

1297

00:53:24,490 --> 00:53:22,460

well I mean it's your show so we can do

1298

00:53:27,340 --> 00:53:24,500

whatever you'd like yeah this I'm just

1299

00:53:31,270 --> 00:53:27,350

very very easy to get along with well

1300

00:53:32,590 --> 00:53:31,280

we've got some people say yeah to two

1301

00:53:36,700 --> 00:53:32,600

and a half minutes so while we're on

1302

00:53:38,650 --> 00:53:36,710

break here just you can tell your shout

1303

00:53:43,090 --> 00:53:38,660

out your website if you would your

1304

00:53:45,040 --> 00:53:43,100

blogspot well yes wwq van randall blog

1305

00:53:46,870 --> 00:53:45,050

spot.com and if you type a different

1306

00:53:48,760 --> 00:53:46,880

perspective into the year search engine

1307

00:53:50,680 --> 00:53:48,770

e you usually get it there and I've

1308

00:53:53,350 --> 00:53:50,690

noticed on some some things if you're

1309

00:53:55,690 --> 00:53:53,360

interested in it when you type them in I

1310

00:53:56,830 --> 00:53:55,700

trend number one on Google you know the

1311

00:53:59,440 --> 00:53:56,840

first thing you come to is something

1312

00:54:01,090 --> 00:53:59,450

that I had written about a specific case

1313

00:54:02,290 --> 00:54:01,100

and I think it's because I sometimes

1314

00:54:05,610 --> 00:54:02,300

explore

1315

00:54:08,080 --> 00:54:05,620

obscure cases so mine is the most recent

1316

00:54:09,790 --> 00:54:08,090

example of something like that the other

1317

00:54:11,050 --> 00:54:09,800

thing that's kind of annoying and we

1318

00:54:14,140 --> 00:54:11,060

kind of talked a little bit about Oak

1319

00:54:17,410 --> 00:54:14,150

Island I've noticed that if I've got a

1320

00:54:20,830 --> 00:54:17,420

new posting about Oak Island my traffic

1321

00:54:22,480 --> 00:54:20,840

goes up you know it like doubles or

1322

00:54:24,010 --> 00:54:22,490

triples one case it triples if I do

1323

00:54:25,710 --> 00:54:24,020

something on Oak Island so you know I'm

1324

00:54:27,940 --> 00:54:25,720

kind of locked into that because a

1325

00:54:29,410 --> 00:54:27,950

brings traffic to the side but B it's

1326

00:54:32,820 --> 00:54:29,420

also something I'm very interested in

1327

00:54:35,950 --> 00:54:32,830

yeah but it's a but but you know just

1328

00:54:38,140 --> 00:54:35,960

WWE Kevin Randleman blog spot.com it's

1329

00:54:42,460 --> 00:54:38,150

called a different perspective the last

1330

00:54:45,580 --> 00:54:42,470

thing I did was a discussion about the

1331

00:54:48,490 --> 00:54:45,590

announcement down in Roswell about the

1332

00:54:51,220 --> 00:54:48,500

Marcel finding family finding a treasure

1333

00:54:53,260 --> 00:54:51,230

trove of documents from their

1334

00:54:55,720 --> 00:54:53,270

grandfather Jesse Marcel senior and

1335

00:54:57,910 --> 00:54:55,730

they're looking through those and that

1336

00:54:59,920 --> 00:54:57,920

could be a very important find and I did

1337

00:55:02,140 --> 00:54:59,930

a thing on Ruth Barnett because I said

1338

00:55:03,970 --> 00:55:02,150

well you know we've looked for journals

1339

00:55:05,860 --> 00:55:03,980

and letters or anything from that time

1340

00:55:07,660 --> 00:55:05,870

frame and we just can't find him and

1341

00:55:09,670 --> 00:55:07,670

then I said oh yeah wait a minute the

1342

00:55:13,030 --> 00:55:09,680

Ruth Barnett diary did surface a number

1343

00:55:14,830 --> 00:55:13,040

above 20 years ago and about the plains

1344

00:55:16,330 --> 00:55:14,840

of san agustin crash and Barney

1345

00:55:18,010 --> 00:55:16,340

Barnett's involvement in that and I

1346

00:55:19,480 --> 00:55:18,020

think that was a you know that was an

1347

00:55:20,950 --> 00:55:19,490

important find it didn't do us any good

1348

00:55:25,030 --> 00:55:20,960

because there's no mention of it in the

1349

00:55:26,890 --> 00:55:25,040

diary but and and I I think there would

1350

00:55:28,550 --> 00:55:26,900

have been had that had Bonnie Barnett

1351

00:55:30,860 --> 00:55:28,560

been there in 1947 I

1352

00:55:33,140 --> 00:55:30,870

if he was involved in a sighting of a

1353

00:55:34,910 --> 00:55:33,150

crashed UFO was in 1947 Oh sometime

1354

00:55:37,100 --> 00:55:34,920

later but that's another argument for

1355

00:55:39,220 --> 00:55:37,110

another another time I think we got just

1356

00:55:41,870 --> 00:55:39,230

about a minute left

1357

00:55:43,670 --> 00:55:41,880

so we're actually we're actually we're

1358

00:55:52,120 --> 00:55:43,680

ready to go oh okay that's fine I'm

1359

00:55:54,310 --> 00:55:52,130

ready okay just a second to get you here

1360

00:55:58,670 --> 00:55:54,320

[Music]

1361

00:56:00,950 --> 00:55:58,680

all right all right gang here we go

1362

00:56:07,100 --> 00:56:00,960

non-stop until the close of the show in

1363

00:56:11,540 --> 00:56:07,110

five four three two welcome back to

1364

00:56:14,800 --> 00:56:11,550

podcast UFO on kg are a radio a Martin

1365

00:56:16,880 --> 00:56:14,810

Willison my guest is Kevin Randall and I

1366

00:56:20,270 --> 00:56:16,890

think we can remember what we're talking

1367

00:56:20,900 --> 00:56:20,280

about before the break so we talked

1368

00:56:23,450 --> 00:56:20,910

about that

1369

00:56:25,700 --> 00:56:23,460

thus a balloon and whether they get

1370

00:56:29,840 --> 00:56:25,710

stored away somewhere someone will find

1371

00:56:31,070 --> 00:56:29,850

a dusty old tarp and a canvas tarp and a

1372

00:56:33,350 --> 00:56:31,080

barn and lift it off and there's a

1373

00:56:34,640 --> 00:56:33,360

saddle in sitting there but we really

1374

00:56:38,690 --> 00:56:34,650

know what the saddle ins look like

1375

00:56:39,950 --> 00:56:38,700

because that the echo 1 and echo 2 for

1376
00:56:42,110 --> 00:56:39,960
those of you old enough remember the

1377
00:56:45,500 --> 00:56:42,120
communication satellite so so those were

1378
00:56:46,400 --> 00:56:45,510
basically saddle owns so you know we

1379
00:56:47,810 --> 00:56:46,410
know they're out there where there's

1380
00:56:49,250 --> 00:56:47,820
pictures of them and all of that sort of

1381
00:56:50,690 --> 00:56:49,260
things so we're not lost and that sort

1382
00:56:54,350 --> 00:56:50,700
of thing the only the only thing I'm

1383
00:56:56,300 --> 00:56:54,360
saying is I have seen no documentation

1384
00:56:58,340 --> 00:56:56,310
that suggests saddle loons were part of

1385
00:57:00,470 --> 00:56:58,350
a mogul array or anything like that or

1386
00:57:02,300 --> 00:57:00,480
they were testing them in New Mexico in

1387
00:57:06,500 --> 00:57:02,310
1947 that would have scattered the

1388
00:57:09,170 --> 00:57:06,510

debris on the foster razzle ranch but as

1389

00:57:11,510 --> 00:57:09,180

I said you know dr. gross said that he

1390

00:57:12,860 --> 00:57:11,520

had that documentation and that evidence

1391

00:57:15,860 --> 00:57:12,870

and until we see that you know that's

1392

00:57:18,410 --> 00:57:15,870

kind of where we are I'm skeptical and I

1393

00:57:19,670 --> 00:57:18,420

think you know skepticism is proper if

1394

00:57:22,310 --> 00:57:19,680

you're if you're offering a theory about

1395

00:57:24,230 --> 00:57:22,320

a UFO sighting its proper to be

1396

00:57:26,900 --> 00:57:24,240

skeptical if you're saying you've seen a

1397

00:57:29,000 --> 00:57:26,910

UFO it's proper to be skeptical you know

1398

00:57:30,530 --> 00:57:29,010

we want to one ask the proper questions

1399

00:57:32,330 --> 00:57:30,540

and get the proper information so we can

1400

00:57:33,650 --> 00:57:32,340

make a proper determination about

1401
00:57:35,690 --> 00:57:33,660
exactly what had happened or what was

1402
00:57:38,990 --> 00:57:35,700
going on was there anything else about

1403
00:57:40,520 --> 00:57:39,000
his theory that seems weak to you or did

1404
00:57:43,010 --> 00:57:40,530
you think that other things kind of made

1405
00:57:45,570 --> 00:57:43,020
sense in any type of way

1406
00:57:49,290 --> 00:57:45,580
it seemed to me that he had not

1407
00:57:51,120 --> 00:57:49,300
addressed the material that bill Brazel

1408
00:57:53,760 --> 00:57:51,130
talked about specifically fiber-optic

1409
00:57:56,010 --> 00:57:53,770
tag material and the balsa wood like

1410
00:57:57,650 --> 00:57:56,020
material that Bill Brazil had said was

1411
00:58:00,030 --> 00:57:57,660
so tough that he couldn't even get a

1412
00:58:01,650 --> 00:58:00,040
shaving on it with his pocketknife when

1413
00:58:05,520 --> 00:58:01,660

he tried to do that and doesn't seem to

1414

00:58:07,320 --> 00:58:05,530

me that he addressed that but you know

1415

00:58:09,510 --> 00:58:07,330

over those kind of components would they

1416

00:58:11,370 --> 00:58:09,520

had been involved with fiber optics at

1417

00:58:13,740 --> 00:58:11,380

that time you know we've got a we've got

1418

00:58:16,170 --> 00:58:13,750

to just wait and see what he has in the

1419

00:58:19,680 --> 00:58:16,180

way of evidence and as I say you know I

1420

00:58:23,190 --> 00:58:19,690

understand his wanting to withhold all

1421

00:58:25,650 --> 00:58:23,200

the exciting details to make his book

1422

00:58:27,720 --> 00:58:25,660

more exciting and more interesting for

1423

00:58:30,540 --> 00:58:27,730

the rest of us but we all have to look

1424

00:58:33,480 --> 00:58:30,550

at at it from a skeptical standpoint and

1425

00:58:35,609 --> 00:58:33,490

right now you know SATA lune is just one

1426

00:58:39,630 --> 00:58:35,619

more of a theory that has been thrown

1427

00:58:41,940 --> 00:58:39,640

out like project mogul and the v2

1428

00:58:45,570 --> 00:58:41,950

rockets and the balloon bombs John keels

1429

00:58:47,640 --> 00:58:45,580

balloon bombs from 1991 and all the

1430

00:58:50,840 --> 00:58:47,650

various other theories to explain it

1431

00:58:54,000 --> 00:58:50,850

from my point of view right now we have

1432

00:58:57,960 --> 00:58:54,010

nothing to explain it's Blaine Roswell

1433

00:58:59,430 --> 00:58:57,970

in terrestrial terms and and that

1434

00:59:00,810 --> 00:58:59,440

doesn't take us directly to the

1435

00:59:04,020 --> 00:59:00,820

extra-terrestrial it just means we

1436

00:59:05,940 --> 00:59:04,030

haven't found the answer in trust in a

1437

00:59:10,050 --> 00:59:05,950

terrestrial environment if such an

1438

00:59:12,540 --> 00:59:10,060

answer exists this is one more I guess

1439

00:59:15,450 --> 00:59:12,550

terrestrial suggestion about what really

1440

00:59:19,020 --> 00:59:15,460

was found on the Brazel ranch of why Mac

1441

00:59:20,550 --> 00:59:19,030

Brazel was a little bit puzzled by what

1442

00:59:22,109 --> 00:59:20,560

he had found but then we also have to

1443

00:59:24,359 --> 00:59:22,119

look at it that the sheriff was puzzled

1444

00:59:26,940 --> 00:59:24,369

and the people at Roswell were puzzled

1445

00:59:28,500 --> 00:59:26,950

by it and we look at the documentation

1446

00:59:30,570 --> 00:59:28,510

from mogul because he said it was part

1447

00:59:32,730 --> 00:59:30,580

of a mogul array and and we see no

1448

00:59:34,290 --> 00:59:32,740

evidence of that and again you know if

1449

00:59:35,700 --> 00:59:34,300

he's got the evidence we need to see

1450

00:59:37,890 --> 00:59:35,710

that so I you know I'm kind of

1451
00:59:40,830 --> 00:59:37,900
withholding judgment on this until I see

1452
00:59:44,130 --> 00:59:40,840
what he has in the way of documentation

1453
00:59:45,840 --> 00:59:44,140
and evidence but from what I know based

1454
00:59:46,590 --> 00:59:45,850
on the documentation I have seen that

1455
00:59:48,060 --> 00:59:46,600
this attitude

1456
00:59:50,940 --> 00:59:48,070
was not embedded in the mobile flights

1457
00:59:52,920 --> 00:59:50,950
that was not part of the mogul prospect

1458
00:59:54,330 --> 00:59:52,930
and and since mogul you know and if that

1459
00:59:55,620 --> 00:59:54,340
was the other thing he said he he

1460
00:59:57,779 --> 00:59:55,630
repeated

1461
01:00:00,720 --> 00:59:57,789
in his paper that the mogul was top

1462
01:00:02,190 --> 01:00:00,730
secret and mogul may well have been top

1463
01:00:04,140 --> 01:00:02,200

secret but what was going on in New

1464

01:00:06,180 --> 01:00:04,150

Mexico with the with the launches of the

1465

01:00:08,009 --> 01:00:06,190

balloons was not top secret it was

1466

01:00:09,240 --> 01:00:08,019

published in the newspaper on July 10th

1467

01:00:10,529 --> 01:00:09,250

you know here's a picture of the array

1468

01:00:12,779 --> 01:00:10,539

here's a picture I was launching the

1469

01:00:15,390 --> 01:00:12,789

balloons here's the I remember Charles

1470

01:00:17,130 --> 01:00:15,400

Moore telling me that the the ladder in

1471

01:00:19,740 --> 01:00:17,140

one of the photographs is one that he

1472

01:00:22,980 --> 01:00:19,750

bought was petty cash and in Alamogordo

1473

01:00:26,130 --> 01:00:22,990

so I mean you know there was there was

1474

01:00:28,470 --> 01:00:26,140

mogul exposed in the newspaper at that

1475

01:00:29,819 --> 01:00:28,480

time Charles Moore on the other hand

1476

01:00:31,740 --> 01:00:29,829

said that they didn't know the name of

1477

01:00:33,990 --> 01:00:31,750

mogul at the time because it was

1478

01:00:35,819 --> 01:00:34,000

classified but in fact queries diary

1479

01:00:37,559 --> 01:00:35,829

mentions it at least three times that I

1480

01:00:39,809 --> 01:00:37,569

found and I after finding it three times

1481

01:00:41,400 --> 01:00:39,819

I stopped looking you know he talked he

1482

01:00:45,210 --> 01:00:41,410

talks about the mobile equipment has

1483

01:00:50,579 --> 01:00:45,220

arrived you know so you know that sort

1484

01:00:51,960 --> 01:00:50,589

of thing so you know if SATA loons were

1485

01:00:53,400 --> 01:00:51,970

involved I would expect something in

1486

01:00:56,730 --> 01:00:53,410

Carrara diary and I haven't found

1487

01:00:58,109 --> 01:00:56,740

anything in that so you know we just we

1488

01:00:59,819 --> 01:00:58,119

look at all of that sort of thing and we

1489

01:01:01,499 --> 01:00:59,829

have to all put that in a proper

1490

01:01:04,200 --> 01:01:01,509

perspective as opposed to a different

1491

01:01:05,400 --> 01:01:04,210

perspective when we're looking when

1492

01:01:07,380 --> 01:01:05,410

we're looking at that sort of thing and

1493

01:01:10,380 --> 01:01:07,390

wait wait to see what evidence is

1494

01:01:12,749 --> 01:01:10,390

presented to us that will be interesting

1495

01:01:15,480 --> 01:01:12,759

to see what he has booked actually comes

1496

01:01:17,039 --> 01:01:15,490

out you know whether whether there is

1497

01:01:19,650 --> 01:01:17,049

actually an explanation one of the

1498

01:01:22,980 --> 01:01:19,660

things that's and by the way at the top

1499

01:01:24,690 --> 01:01:22,990

starting now or when we came back on and

1500

01:01:26,430 --> 01:01:24,700

meant to mention that we will be

1501

01:01:28,740 --> 01:01:26,440

accepting calls if people would like to

1502

01:01:31,499 --> 01:01:28,750

call in and that number will be up on

1503

01:01:35,609 --> 01:01:31,509

the YouTube screen and Evan will also

1504

01:01:37,380 --> 01:01:35,619

posts it over on the kgr a radio chat

1505

01:01:39,779 --> 01:01:37,390

room as well over there

1506

01:01:41,430 --> 01:01:39,789

so the one thing that's always can

1507

01:01:43,289 --> 01:01:41,440

couple of things that's always confusing

1508

01:01:44,670 --> 01:01:43,299

I know you listen to the show that I had

1509

01:01:47,160 --> 01:01:44,680

with Bob Gross and you probably heard me

1510

01:01:48,809 --> 01:01:47,170

say to him you know why in the first

1511

01:01:50,999 --> 01:01:48,819

place did the Army Air Force even ever

1512

01:01:52,620 --> 01:01:51,009

come out with the you know they all they

1513

01:01:54,390 --> 01:01:52,630

could have had to do is done nothing or

1514

01:01:56,309 --> 01:01:54,400

said nothing instead of saying I found

1515

01:01:58,980 --> 01:01:56,319

the crash disk and I think he had a

1516

01:02:01,499 --> 01:01:58,990

pretty sound a pretty good sounding

1517

01:02:04,410 --> 01:02:01,509

answer for that but have you ever

1518

01:02:07,049 --> 01:02:04,420

thought about that in particular why the

1519

01:02:08,430 --> 01:02:07,059

Army Air Force ever put that thing out

1520

01:02:11,099 --> 01:02:08,440

in the first place

1521

01:02:12,690 --> 01:02:11,109

that has been discussed from the moment

1522

01:02:15,240 --> 01:02:12,700

that I got involved in the case why

1523

01:02:17,250 --> 01:02:15,250

would they put out this press release of

1524

01:02:19,170 --> 01:02:17,260

course we've talked about it and we've

1525

01:02:21,240 --> 01:02:19,180

had all kinds of theories about it well

1526

01:02:23,040 --> 01:02:21,250

we're hiding it in plain sight you know

1527

01:02:25,589 --> 01:02:23,050

well we got a flying saucer the lower

1528

01:02:27,270 --> 01:02:25,599

command since we got a flying saucer and

1529

01:02:28,819 --> 01:02:27,280

the higher commands the access a weather

1530

01:02:32,490 --> 01:02:28,829

balloon you don't need to worry about it

1531

01:02:33,809 --> 01:02:32,500

and the reporters you take the more

1532

01:02:35,309 --> 01:02:33,819

credible of the sources the lower

1533

01:02:36,359 --> 01:02:35,319

headquarters not being as credible as

1534

01:02:38,160 --> 01:02:36,369

the higher headquarters

1535

01:02:40,559 --> 01:02:38,170

Colonel Blanchard said we have a weather

1536

01:02:42,510 --> 01:02:40,569

balloon saucer general Raimi's and

1537

01:02:44,370 --> 01:02:42,520

that's a weather balloon here's a here

1538

01:02:46,079 --> 01:02:44,380

it is here's a weather balloon and it's

1539

01:02:47,910 --> 01:02:46,089

a way of hiding the information in plain

1540

01:02:49,440 --> 01:02:47,920

sight is one of the ways I'm not sure

1541

01:02:51,599 --> 01:02:49,450

they were that clever too clever enough

1542

01:02:53,220 --> 01:02:51,609

to do that the real question is why they

1543

01:02:55,559 --> 01:02:53,230

even bothered to investigate the thing

1544

01:02:59,069 --> 01:02:55,569

in the 1990s you know why not just let

1545

01:03:01,349 --> 01:02:59,079

let it go so they felt some obligation

1546

01:03:03,540 --> 01:03:01,359

to allegedly set the record straight so

1547

01:03:06,089 --> 01:03:03,550

then the next question is okay they came

1548

01:03:07,530 --> 01:03:06,099

up with a mobile solution solution what

1549

01:03:09,660 --> 01:03:07,540

if it was a sat alone which would have

1550

01:03:11,280 --> 01:03:09,670

caught everybody off guard why not

1551

01:03:13,410 --> 01:03:11,290

mention that at that time because they

1552

01:03:17,280 --> 01:03:13,420

would have had the information to to to

1553

01:03:19,650 --> 01:03:17,290

release in 1947 1994 I'm sorry that's a

1554

01:03:21,809 --> 01:03:19,660

good that's a good point now here's

1555

01:03:24,690 --> 01:03:21,819

another thing that confused me Kevin and

1556

01:03:29,160 --> 01:03:24,700

since you were one of the originals on

1557

01:03:31,349 --> 01:03:29,170

this on the Roswell investigating what

1558

01:03:33,500 --> 01:03:31,359

about when people are saying that they

1559

01:03:37,020 --> 01:03:33,510

found this other of like volkswagen size

1560

01:03:39,089 --> 01:03:37,030

craft so many miles away with possible

1561

01:03:40,559 --> 01:03:39,099

bodies in it what what's the story on

1562

01:03:42,390 --> 01:03:40,569

that what did what did you find out

1563

01:03:46,349 --> 01:03:42,400

about that that's always been confusing

1564

01:03:50,339 --> 01:03:46,359

to me about the Roswell when when Don

1565

01:03:52,230 --> 01:03:50,349

and I started we got in touch with Bill

1566

01:03:54,780 --> 01:03:52,240

Brown a soul who sat down with us which

1567

01:03:57,210 --> 01:03:54,790

was really interesting because he rarely

1568

01:04:00,329 --> 01:03:57,220

would talk to anybody and we were able

1569

01:04:01,770 --> 01:04:00,339

to convince him to talk to us any but he

1570

01:04:04,020 --> 01:04:01,780

was just on the debris field that's all

1571

01:04:06,630 --> 01:04:04,030

he ever saw where the the remnants of

1572

01:04:08,940 --> 01:04:06,640

the debrief and his his father

1573

01:04:11,040 --> 01:04:08,950

apparently if the father had seen bodies

1574

01:04:13,349 --> 01:04:11,050

he never mentioned him to bill his

1575

01:04:14,760 --> 01:04:13,359

father was very closed mouth and as bill

1576

01:04:15,900 --> 01:04:14,770

said you know if people asked him not to

1577

01:04:20,550 --> 01:04:15,910

talk about something he wouldn't talk

1578

01:04:22,010 --> 01:04:20,560

about it and he would just you know when

1579

01:04:23,900 --> 01:04:22,020

Bill found those little bits of

1580

01:04:25,100 --> 01:04:23,910

Rhian on the debris-filled his father

1581

01:04:27,020 --> 01:04:25,110

would say well that looks like some of

1582

01:04:29,420 --> 01:04:27,030

the contraption I found well contraption

1583

01:04:33,530 --> 01:04:29,430

imply something more than just scattered

1584

01:04:36,140 --> 01:04:33,540

metallic debris but we had heard stories

1585

01:04:37,820 --> 01:04:36,150

of bodies and I think that was one of

1586

01:04:39,710 --> 01:04:37,830

the reasons we got diverted and not we

1587

01:04:41,000 --> 01:04:39,720

but but the UFO coming got diverted the

1588

01:04:42,920 --> 01:04:41,010

plains of san agustin because he had

1589

01:04:45,770 --> 01:04:42,930

Barney Barnett talking about seeing a

1590

01:04:49,070 --> 01:04:45,780

craft and bodies and this brought the

1591

01:04:52,010 --> 01:04:49,080

alien aspect into it perfectly because

1592

01:04:55,730 --> 01:04:52,020

these are creatures who were not

1593

01:04:57,550 --> 01:04:55,740

obviously not born on earth and I think

1594

01:05:00,290 --> 01:04:57,560

I think that diverted too much attention

1595

01:05:10,030 --> 01:05:00,300

given what we now know about that aspect

1596

01:05:12,650 --> 01:05:10,040

of it but I think that Proctor III

1597

01:05:14,630 --> 01:05:12,660

Loretta Proctor you know talk to us and

1598

01:05:17,120 --> 01:05:14,640

her son whose name for some reason

1599

01:05:19,970 --> 01:05:17,130

escapes me at the moment D Proctor D

1600

01:05:21,680 --> 01:05:19,980

Proctor who is allegedly with Brazil

1601
01:05:25,160 --> 01:05:21,690
when he found the debris and knew what

1602
01:05:28,280 --> 01:05:25,170
it was also talked to his mother and a

1603
01:05:32,180 --> 01:05:28,290
couple of others about a craft and body

1604
01:05:34,250 --> 01:05:32,190
somewhere away from the debris field as

1605
01:05:35,870 --> 01:05:34,260
there was some kind of an escape pod or

1606
01:05:37,580 --> 01:05:35,880
something like that or something didn't

1607
01:05:39,610 --> 01:05:37,590
happened in the craft shed debris in one

1608
01:05:42,470 --> 01:05:39,620
spot and came down somewhere else

1609
01:05:46,190 --> 01:05:42,480
something like that so there are hints

1610
01:05:48,410 --> 01:05:46,200
about that Frank Iero talked about what

1611
01:05:51,740 --> 01:05:48,420
her father had seen and I know Karl

1612
01:05:55,010 --> 01:05:51,750
flock kind of debunk that with his book

1613
01:05:56,270 --> 01:05:55,020

Roswell you know inconvenient facts in

1614

01:05:57,800 --> 01:05:56,280

the will to believe when he said well I

1615

01:06:00,260 --> 01:05:57,810

talked to three firefighters and they

1616

01:06:02,720 --> 01:06:00,270

said that nothing happened I talked to

1617

01:06:04,220 --> 01:06:02,730

one of the guys as well and I got the

1618

01:06:06,410 --> 01:06:04,230

same story from him until I asked him a

1619

01:06:08,090 --> 01:06:06,420

specific question I said do you know Dan

1620

01:06:10,160 --> 01:06:08,100

Dwyer Frankie Roe's father who was a

1621

01:06:12,110 --> 01:06:10,170

firefighter he so I know Dan yeah he

1622

01:06:14,150 --> 01:06:12,120

went out there on his own in his private

1623

01:06:15,380 --> 01:06:14,160

car I'm thinking well that's why we

1624

01:06:16,910 --> 01:06:15,390

couldn't find any record in the fire

1625

01:06:20,420 --> 01:06:16,920

department because Dan Dreyer didn't go

1626

01:06:22,940 --> 01:06:20,430

out on a fire truck but her father

1627

01:06:25,480 --> 01:06:22,950

talked about seeing a craft and bodies

1628

01:06:27,950 --> 01:06:25,490

little little creatures with that

1629

01:06:30,620 --> 01:06:27,960

secondhand testimony granted you know

1630

01:06:33,050 --> 01:06:30,630

granted but but there are aspects of

1631

01:06:35,870 --> 01:06:33,060

that and the one firefighter said yeah

1632

01:06:37,370 --> 01:06:35,880

the he said a colonel came to us

1633

01:06:38,779 --> 01:06:37,380

in the fire department I think why is it

1634

01:06:40,700 --> 01:06:38,789

always a colonel why isn't it never

1635

01:06:41,509 --> 01:06:40,710

acting or a lieutenant why is it always

1636

01:06:43,700 --> 01:06:41,519

a colonel

1637

01:06:45,140 --> 01:06:43,710

anyway this colonel came to talk to us

1638

01:06:46,489 --> 01:06:45,150

and said you guys don't need to go out

1639

01:06:48,109 --> 01:06:46,499

there we got it under control

1640

01:06:50,870 --> 01:06:48,119

he said and then then Dan went out in

1641

01:06:52,190 --> 01:06:50,880

his private car and came back and talked

1642

01:06:54,140 --> 01:06:52,200

a little bit about it so we got some

1643

01:06:55,700 --> 01:06:54,150

cooperation from Frank Iero story but

1644

01:06:57,920 --> 01:06:55,710

again it's all secondhand the guy didn't

1645

01:07:01,160 --> 01:06:57,930

go out and didn't see it himself so we

1646

01:07:03,109 --> 01:07:01,170

have some of that information and if

1647

01:07:05,269 --> 01:07:03,119

you're looking at it from a strictly

1648

01:07:06,829 --> 01:07:05,279

investigative point of view or a

1649

01:07:09,950 --> 01:07:06,839

scientific point of view for that matter

1650

01:07:11,749 --> 01:07:09,960

the evidence is very shaky about the

1651

01:07:15,200 --> 01:07:11,759

extra-terrestrial aspects of it it's

1652

01:07:16,729 --> 01:07:15,210

there but it's not the kind of thing

1653

01:07:18,769 --> 01:07:16,739

that we would like what we'd like is a

1654

01:07:19,969 --> 01:07:18,779

document from the government analyzing

1655

01:07:22,370 --> 01:07:19,979

the metal and saying this couldn't

1656

01:07:24,349 --> 01:07:22,380

bother simply have been made on earth or

1657

01:07:26,989 --> 01:07:24,359

have some characteristic that we now

1658

01:07:28,940 --> 01:07:26,999

understand that they didn't understand

1659

01:07:30,410 --> 01:07:28,950

in 1947 so somebody could have faked

1660

01:07:32,299 --> 01:07:30,420

that sort of thing you know or here

1661

01:07:34,309 --> 01:07:32,309

pictures of the body something like that

1662

01:07:36,710 --> 01:07:34,319

that comes from a source everything that

1663

01:07:39,410 --> 01:07:36,720

we've gotten from the government and

1664

01:07:41,509 --> 01:07:39,420

it's very limited doesn't provide us

1665

01:07:44,390 --> 01:07:41,519

with those kinds of things mj-12 is

1666

01:07:45,920 --> 01:07:44,400

clearly a hoax and I'm going to catch

1667

01:07:48,769 --> 01:07:45,930

all kinds of Hell for saying that but

1668

01:07:53,059 --> 01:07:48,779

clearly clearly it's a hoax there's

1669

01:07:55,190 --> 01:07:53,069

there's a fatal flaw in it and that's

1670

01:07:57,259 --> 01:07:55,200

the Del Rio UFO crash which was made up

1671

01:07:58,729 --> 01:07:57,269

by a guy named Robert Willingham who

1672

01:08:00,140 --> 01:07:58,739

claimed to be a fighter pilot Air Force

1673

01:08:01,880 --> 01:08:00,150

fighter pilot and has no evidence that

1674

01:08:04,430 --> 01:08:01,890

he was ever in the Air Force let alone a

1675

01:08:07,910 --> 01:08:04,440

fighter planet so that was included in

1676

01:08:09,859 --> 01:08:07,920

the mj-12 documents there is a about the

1677

01:08:12,559 --> 01:08:09,869

crash at El Indio

1678

01:08:14,870 --> 01:08:12,569

Guerrero I was agrerro in India I

1679

01:08:17,990 --> 01:08:14,880

Guerrero and El Indio which is the del

1680

01:08:21,039 --> 01:08:18,000

Rio crash and at the time that the

1681

01:08:27,379 --> 01:08:21,049

documents created in 1994 by Bill Moore

1682

01:08:28,970 --> 01:08:27,389

by whoever it was whoever it was and we

1683

01:08:33,229 --> 01:08:28,980

can trace it to Bill Moore no further by

1684

01:08:35,300 --> 01:08:33,239

the way but they believed the Willingham

1685

01:08:37,070 --> 01:08:35,310

testimony as did I at the time and I

1686

01:08:40,099 --> 01:08:37,080

think that I did a book called the

1687

01:08:42,620 --> 01:08:40,109

history of UFO crashes in the mid-1990s

1688

01:08:44,030 --> 01:08:42,630

and Willingham's affidavit in there and

1689

01:08:45,800 --> 01:08:44,040

we thought he was an Air Force colonel

1690

01:08:47,300 --> 01:08:45,810

I thought others had checked him out I

1691

01:08:49,129 --> 01:08:47,310

thought nobody had ever checked out his

1692

01:08:49,550 --> 01:08:49,139

credentials so I finally went to st.

1693

01:08:51,950 --> 01:08:49,560

Louis

1694

01:08:55,040 --> 01:08:51,960

found out that he'd spent 13 months in

1695

01:08:56,600 --> 01:08:55,050

the army was technically a veteran of

1696

01:09:01,340 --> 01:08:56,610

World War two and I say technically

1697

01:09:04,070 --> 01:09:01,350

because he joined the Army in December

1698

01:09:05,750 --> 01:09:04,080

of 1945 all the shooting was over but

1699

01:09:08,930 --> 01:09:05,760

the war wasn't declared officially over

1700

01:09:11,780 --> 01:09:08,940

until 1946 so he's technically a veteran

1701

01:09:14,240 --> 01:09:11,790

of World War two he spent 13 months in

1702

01:09:17,150 --> 01:09:14,250

the in the army and was discharged as an

1703

01:09:18,710 --> 01:09:17,160

e4 and he then came up I'll and he went

1704

01:09:20,540 --> 01:09:18,720

into the Air Force or the National Guard

1705

01:09:22,670 --> 01:09:20,550

or something and he was a pilot in that

1706

01:09:24,080 --> 01:09:22,680

and he went to Korea and all of this

1707

01:09:26,510 --> 01:09:24,090

other nonsense but the records don't

1708

01:09:29,710 --> 01:09:26,520

reflect that nobody had ever checked him

1709

01:09:32,060 --> 01:09:29,720

out and he presented documentation

1710

01:09:33,680 --> 01:09:32,070

pictures of him in a uniform and that

1711

01:09:35,390 --> 01:09:33,690

and and I've discussed this on my blog

1712

01:09:36,830 --> 01:09:35,400

so you can you can look up Robert

1713

01:09:38,870 --> 01:09:36,840

Willingham and it just came up again

1714

01:09:40,610 --> 01:09:38,880

recently but if it's well here's a

1715

01:09:42,200 --> 01:09:40,620

picture of him in the 1960s in an Air

1716

01:09:44,960 --> 01:09:42,210

Force uniform and I said well if you

1717

01:09:46,460 --> 01:09:44,970

took a look at the picture carefully you

1718

01:09:49,130 --> 01:09:46,470

discover he's in a Civil Air Patrol

1719

01:09:51,560 --> 01:09:49,140

uniform instead of c.a.p on his collar

1720

01:09:53,360 --> 01:09:51,570

and he's the metal plaque the little

1721

01:09:54,950 --> 01:09:53,370

metal pin that you wore on your capn

1722

01:09:56,450 --> 01:09:54,960

over him it says you know Civil Air

1723

01:09:57,530 --> 01:09:56,460

Patrol official artillery of the Air

1724

01:09:59,330 --> 01:09:57,540

Force is something that effect

1725

01:10:02,050 --> 01:09:59,340

identifying you as a member of the Civil

1726

01:10:05,180 --> 01:10:02,060

Air Patrol Civil Air Patrol provides a

1727

01:10:06,830 --> 01:10:05,190

number of legitimate and important

1728

01:10:08,660 --> 01:10:06,840

functions take some of the

1729

01:10:10,880 --> 01:10:08,670

search-and-rescue away from the from the

1730

01:10:12,710 --> 01:10:10,890

military it's you know of all voluntary

1731

01:10:14,810 --> 01:10:12,720

organization it's an axillary of the Air

1732

01:10:16,700 --> 01:10:14,820

Force you receive no retirement points

1733

01:10:18,950 --> 01:10:16,710

for participating you don't get paid for

1734

01:10:21,680 --> 01:10:18,960

it although they reimburse you if you're

1735

01:10:24,470 --> 01:10:21,690

on a mission what they called a red cap

1736

01:10:26,390 --> 01:10:24,480

a real search-and-rescue mission the

1737

01:10:28,550 --> 01:10:26,400

government were impatient reimburse you

1738

01:10:31,520 --> 01:10:28,560

for the gas and things that you burn up

1739

01:10:33,500 --> 01:10:31,530

in the in the search-and-rescue area but

1740

01:10:35,540 --> 01:10:33,510

it's not part of the Air Force and

1741

01:10:37,220 --> 01:10:35,550

there's additional pictures of him but

1742

01:10:39,560 --> 01:10:37,230

it's clearly a Civil Air Patrol uniform

1743

01:10:42,050 --> 01:10:39,570

and he has tried to co-opt the Civil Air

1744

01:10:44,330 --> 01:10:42,060

Patrol experience into being an Air

1745

01:10:47,480 --> 01:10:44,340

Force pilot the other thing that I

1746

01:10:51,650 --> 01:10:47,490

noticed is he was wearing uh he had

1747

01:10:53,240 --> 01:10:51,660

gotten a private pilot's license and the

1748

01:10:54,650 --> 01:10:53,250

FAA used to used to give us that

1749

01:10:59,150 --> 01:10:54,660

information they don't anymore and

1750

01:11:01,970 --> 01:10:59,160

because of all the problems with an

1751

01:11:03,609 --> 01:11:01,980

identity theft when my experience was

1752

01:11:06,919 --> 01:11:03,619

every military pilot

1753

01:11:08,240 --> 01:11:06,929

who had got an FAA certification always

1754

01:11:12,020 --> 01:11:08,250

got at least a commercial pilot's

1755

01:11:13,640 --> 01:11:12,030

license and as a military pilot the FAA

1756

01:11:16,250 --> 01:11:13,650

believed that the flight school and the

1757

01:11:19,729 --> 01:11:16,260

training you had was sufficient to meet

1758

01:11:22,009 --> 01:11:19,739

the requirements for a commercial

1759

01:11:23,959 --> 01:11:22,019

pilot's license all you had to do was

1760

01:11:26,509 --> 01:11:23,969

take a test a 50 question test on

1761

01:11:28,160 --> 01:11:26,519

regulations FAA regulations as opposed

1762

01:11:31,040 --> 01:11:28,170

to the air force regulations or the

1763

01:11:32,390 --> 01:11:31,050

military regulations I am as an army

1764

01:11:34,819 --> 01:11:32,400

helicopter pilot when I got back from

1765

01:11:39,649 --> 01:11:34,829

Vietnam I had like 1500 hours of flight

1766

01:11:41,089 --> 01:11:39,659

time I got my FAA commercial pilot's

1767

01:11:44,330 --> 01:11:41,099

license which is why I know this I just

1768

01:11:46,609 --> 01:11:44,340

went to that when you finish flight

1769

01:11:47,899 --> 01:11:46,619

school there were a number of classes

1770

01:11:50,419 --> 01:11:47,909

held then you know here will help you

1771

01:11:52,879 --> 01:11:50,429

pass the test for the FAA regulations if

1772

01:11:55,640 --> 01:11:52,889

you wanted to to take the test then at

1773

01:11:57,109 --> 01:11:55,650

that point very few of us what we're all

1774

01:11:58,580 --> 01:11:57,119

about to go on leave and we didn't want

1775

01:12:00,529 --> 01:11:58,590

to hang around for a couple of days to

1776

01:12:03,459 --> 01:12:00,539

take the FAA test that's why I didn't

1777

01:12:05,959 --> 01:12:03,469

take it till I got back from Vietnam but

1778

01:12:07,459 --> 01:12:05,969

he only had a private pilot's license

1779

01:12:09,830 --> 01:12:07,469

which was another red flag

1780

01:12:11,299 --> 01:12:09,840

no no evidence that he went to flight

1781

01:12:12,770 --> 01:12:11,309

school no evidence that he was an Air

1782

01:12:17,750 --> 01:12:12,780

Force officer no evidence that he was a

1783

01:12:20,120 --> 01:12:17,760

fighter pilot he said that he he got out

1784

01:12:21,799 --> 01:12:20,130

of the Air Force and went into the Air

1785

01:12:23,870 --> 01:12:21,809

Force Reserve because they wouldn't let

1786

01:12:25,939 --> 01:12:23,880

him fly anymore because he was injured

1787

01:12:27,799 --> 01:12:25,949

in Korea and he had back problems well I

1788

01:12:31,270 --> 01:12:27,809

talked to an Air Force pilot about that

1789

01:12:34,520 --> 01:12:31,280

and he said well the problem is the

1790

01:12:36,379 --> 01:12:34,530

forces of ejection and if fighter pilots

1791

01:12:39,290 --> 01:12:36,389

would have to use ejection seats might

1792

01:12:41,779 --> 01:12:39,300

have to use ejection seats prohibit him

1793

01:12:44,390 --> 01:12:41,789

from flying a fighter aircraft but you

1794

01:12:47,209 --> 01:12:44,400

could fly it you could fly cargo planes

1795

01:12:48,950 --> 01:12:47,219

and other yeah other flying jobs

1796

01:12:50,299 --> 01:12:48,960

available to you so his excuse for

1797

01:12:52,790 --> 01:12:50,309

getting out of the Air Force wasn't

1798

01:12:53,839 --> 01:12:52,800

really right either the documentation

1799

01:12:57,259 --> 01:12:53,849

didn't didn't pan out

1800

01:13:00,439 --> 01:12:57,269

the point being he is the sole source on

1801
01:13:03,529 --> 01:13:00,449
the El Indio Guerrero UFO crash just

1802
01:13:06,049 --> 01:13:03,539
over the Mexican border and he had

1803
01:13:07,370 --> 01:13:06,059
Robert zecko know Todd's Eckel who had

1804
01:13:09,319 --> 01:13:07,380
interviewed him a lot had given the

1805
01:13:11,899 --> 01:13:09,329
information to Bill Moore and that

1806
01:13:14,569 --> 01:13:11,909
there's a 1-1 paragraph about that crash

1807
01:13:16,550 --> 01:13:14,579
in the mj-12 document and if that is a

1808
01:13:19,940 --> 01:13:16,560
hoax and all that kind of kind

1809
01:13:21,980 --> 01:13:19,950
eliminates the entire mj-12 document is

1810
01:13:25,940 --> 01:13:21,990
being authentic yeah that's that's kind

1811
01:13:27,710 --> 01:13:25,950
of how I when I do work in my real world

1812
01:13:31,160 --> 01:13:27,720
of fine arts and antiques and things

1813
01:13:34,040 --> 01:13:31,170

like that when something is suspect it

1814

01:13:36,380 --> 01:13:34,050

kind of kills the whole thing and in

1815

01:13:38,180 --> 01:13:36,390

other words also if if you find out if

1816

01:13:41,320 --> 01:13:38,190

you find a false document and a bunch of

1817

01:13:44,780 --> 01:13:41,330

documents or you find even a fake

1818

01:13:46,460 --> 01:13:44,790

painting in a collection you have to you

1819

01:13:50,800 --> 01:13:46,470

have to question everything basically

1820

01:13:56,360 --> 01:13:50,810

because that's just the way it goes hey

1821

01:14:02,030 --> 01:13:56,370

we have a we have a Socorro I dare to

1822

01:14:04,970 --> 01:14:02,040

call him a skeptic possibly in the I've

1823

01:14:09,490 --> 01:14:04,980

been seeing some of his chat tweets hang

1824

01:14:12,800 --> 01:14:09,500

on just one minute I'm going to okay so

1825

01:14:15,470 --> 01:14:12,810

I just added him whoops

1826

01:14:20,390 --> 01:14:15,480

heaven I'll let you take over sorry

1827

01:14:22,670 --> 01:14:20,400

about that oh there oh yeah hang on just

1828

01:14:26,390 --> 01:14:22,680

a second I think I may have

1829

01:14:30,860 --> 01:14:26,400

inadvertently everybody do not see I

1830

01:14:32,990 --> 01:14:30,870

don't see a question okay in the chat

1831

01:14:35,270 --> 01:14:33,000

there's no no question it's just a lot

1832

01:14:38,120 --> 01:14:35,280

of statements about Socorro and this

1833

01:14:41,480 --> 01:14:38,130

gentleman's from Sweden and he's saying

1834

01:14:52,160 --> 01:14:41,490

that there's articles there that the

1835

01:14:54,140 --> 01:14:52,170

Socorro was was a balloon so so why

1836

01:14:58,010 --> 01:14:54,150

don't you for the person that's unaware

1837

01:14:59,810 --> 01:14:58,020

has never really looked into the Socorro

1838

01:15:01,700 --> 01:14:59,820

case a lot of people have a better

1839

01:15:04,040 --> 01:15:01,710

listening but can you kind of give as

1840

01:15:07,400 --> 01:15:04,050

quick of a nutshell as you possibly can

1841

01:15:09,380 --> 01:15:07,410

on on the case to begin to begin with

1842

01:15:11,390 --> 01:15:09,390

and then we'll go from there please know

1843

01:15:12,830 --> 01:15:11,400

I suggest everybody to go to Amazon and

1844

01:15:14,540 --> 01:15:12,840

buy the book on Kindle then read it

1845

01:15:17,810 --> 01:15:14,550

themselves right now this minute no

1846

01:15:20,090 --> 01:15:17,820

seriously the story is that the police

1847

01:15:22,430 --> 01:15:20,100

officer Lonnie Zamora was on patrol in

1848

01:15:24,350 --> 01:15:22,440

Socorro New Mexico and was chasing a

1849

01:15:27,590 --> 01:15:24,360

speeder I think it's on the southwest

1850

01:15:29,270 --> 01:15:27,600

side of town and heard a roar and I

1851
01:15:29,500 --> 01:15:29,280
thought that a dynamite said that he

1852
01:15:31,990 --> 01:15:29,510
knew

1853
01:15:33,580 --> 01:15:32,000
was shed the distort dynamite over there

1854
01:15:35,169 --> 01:15:33,590
he thought it had blown up so he broke

1855
01:15:38,069 --> 01:15:35,179
off the chase of the speeder and he went

1856
01:15:40,720 --> 01:15:38,079
over in that direction he came up over a

1857
01:15:45,399 --> 01:15:40,730
rise and looked down into an arroyo and

1858
01:15:47,220 --> 01:15:45,409
there was this craft egg shaped craft

1859
01:15:49,509 --> 01:15:47,230
sitting on the ground on four four legs

1860
01:15:52,419 --> 01:15:49,519
he lost sight of it for a minute came up

1861
01:15:57,189 --> 01:15:52,429
on another one and saw two beings

1862
01:15:59,709 --> 01:15:57,199
outside it as he tried to get closer to

1863
01:16:01,149 --> 01:15:59,719

it they spotted him in some fashion got

1864

01:16:03,009 --> 01:16:01,159

frightened when it ran around behind the

1865

01:16:04,959 --> 01:16:03,019

craft it was a bang and the thing left

1866

01:16:07,479 --> 01:16:04,969

off lifted off with a roar leaving

1867

01:16:12,399 --> 01:16:07,489

behind a burned area and the landing

1868

01:16:14,259 --> 01:16:12,409

gear impressions on the ground that's it

1869

01:16:19,600 --> 01:16:14,269

in a nutshell Lonnie Zamora was a single

1870

01:16:20,830 --> 01:16:19,610

witness to this to this event so you're

1871

01:16:23,770 --> 01:16:20,840

looking at it from that point of view

1872

01:16:29,069 --> 01:16:23,780

now the theory is that a group of oh my

1873

01:16:31,439 --> 01:16:29,079

god that's the wrong symbol a a group of

1874

01:16:34,419 --> 01:16:31,449

the theory is a group of you you

1875

01:16:40,529 --> 01:16:34,429

derailed my train of thought you're not

1876

01:16:44,350 --> 01:16:40,539

supposed to be watching the YouTube a

1877

01:16:46,479 --> 01:16:44,360

group of students from the School of

1878

01:16:49,660 --> 01:16:46,489

Mines there had created this elaborate

1879

01:16:51,100 --> 01:16:49,670

hoax to fool Lonnie Zamora because he

1880

01:16:52,390 --> 01:16:51,110

would give them speeding tickets and

1881

01:16:53,979 --> 01:16:52,400

they don't lead and I guess they didn't

1882

01:16:55,299 --> 01:16:53,989

feel they deserved him I'm I'm always up

1883

01:16:56,770 --> 01:16:55,309

the opinion if you're speeding and you

1884

01:16:59,770 --> 01:16:56,780

get caught then you probably deserve the

1885

01:17:01,569 --> 01:16:59,780

ticket that sort of thing but anyway

1886

01:17:03,850 --> 01:17:01,579

they they created this elaborate hoax

1887

01:17:07,629 --> 01:17:03,860

with some kind of a balloon and that

1888

01:17:10,270 --> 01:17:07,639

sort of thing I'm sorry we're getting

1889

01:17:12,220 --> 01:17:10,280

feedback yes yeah

1890

01:17:15,399 --> 01:17:12,230

and that's that's because I took a call

1891

01:17:17,649 --> 01:17:15,409

so call her sorry Kevin hang on caller

1892

01:17:19,419 --> 01:17:17,659

please try to mute your show if you

1893

01:17:24,160 --> 01:17:19,429

would and we'll get right to you in just

1894

01:17:25,870 --> 01:17:24,170

a second but the idea of being a balloon

1895

01:17:29,529 --> 01:17:25,880

I think has been pretty well debunked

1896

01:17:32,500 --> 01:17:29,539

because there were people on the scene

1897

01:17:34,479 --> 01:17:32,510

within minutes of Zamora calling into

1898

01:17:35,979 --> 01:17:34,489

the police station I think it was two

1899

01:17:37,359 --> 01:17:35,989

two and a half minutes that his friend

1900

01:17:39,430 --> 01:17:37,369

got there there were other people who

1901

01:17:41,379 --> 01:17:39,440

came shortly after there there was no

1902

01:17:43,450 --> 01:17:41,389

evidence of the balloon or anything like

1903

01:17:44,890 --> 01:17:43,460

that the hoaxers have never

1904

01:17:49,000 --> 01:17:44,900

come forward to say yeah we did that

1905

01:17:50,650 --> 01:17:49,010

haha and you guys did the hoax there he

1906

01:17:54,520 --> 01:17:50,660

just doesn't doesn't really hold water

1907

01:17:56,860 --> 01:17:54,530

and I you know I go I go through that

1908

01:17:58,920 --> 01:17:56,870

sort of thing on the blog in great

1909

01:18:01,660 --> 01:17:58,930

detail I also go through it in the book

1910

01:18:07,090 --> 01:18:01,670

about why the balloons explanation

1911

01:18:11,590 --> 01:18:07,100

doesn't work I I use or have credited

1912

01:18:14,820 --> 01:18:11,600

Tony burger a Leo brigade of the hoax

1913

01:18:18,490 --> 01:18:14,830

tour the balloon story and what his

1914

01:18:19,840 --> 01:18:18,500

information is and why it just doesn't

1915

01:18:21,820 --> 01:18:19,850

track with the evidence that we have

1916

01:18:23,200 --> 01:18:21,830

there were three people who had called

1917

01:18:24,520 --> 01:18:23,210

into the police and this is one of the

1918

01:18:28,959 --> 01:18:24,530

important things who had heard the roar

1919

01:18:31,240 --> 01:18:28,969

in the sky the dumb police officer never

1920

01:18:33,580 --> 01:18:31,250

took their names and even though they

1921

01:18:35,200 --> 01:18:33,590

knew that evening about the three phone

1922

01:18:37,030 --> 01:18:35,210

calls nobody ever tried to follow up on

1923

01:18:37,870 --> 01:18:37,040

it which just annoys the hell out of me

1924

01:18:40,390 --> 01:18:37,880

because you could have had at least

1925

01:18:42,070 --> 01:18:40,400

three other witnesses something and that

1926

01:18:43,570 --> 01:18:42,080

sort of things so when we say and that

1927

01:18:46,390 --> 01:18:43,580

was one you know I had mentioned earlier

1928

01:18:47,950 --> 01:18:46,400

that it's single witness well not really

1929

01:18:49,750 --> 01:18:47,960

because there are other witnesses two

1930

01:18:51,490 --> 01:18:49,760

aspects of it and of course you've got

1931

01:18:54,280 --> 01:18:51,500

the landing traces on the ground which

1932

01:18:55,930 --> 01:18:54,290

according to some of the soil testing

1933

01:18:57,880 --> 01:18:55,940

that was done suggested it was something

1934

01:18:59,410 --> 01:18:57,890

that was pressed into the ground as

1935

01:19:02,040 --> 01:18:59,420

opposed to something that was activated

1936

01:19:04,420 --> 01:19:02,050

so so some heavy object had sat on the

1937

01:19:07,660 --> 01:19:04,430

ground in that location so there's

1938

01:19:10,690 --> 01:19:07,670

there's some interesting reasons to

1939

01:19:12,370 --> 01:19:10,700

reject the balloon hypothesis yeah you

1940

01:19:13,780 --> 01:19:12,380

know I definitely think hey so it's not

1941

01:19:15,910 --> 01:19:13,790

Kevin we have a caller on line caller

1942

01:19:22,680 --> 01:19:15,920

your first name and were you calling

1943

01:19:25,240 --> 01:19:22,690

from oh my god I'm in Cedar Rapids Iowa

1944

01:19:27,340 --> 01:19:25,250

yeah wondering Kevin if you still lived

1945

01:19:29,290 --> 01:19:27,350

in Cedar Rapids in a reading your your

1946

01:19:30,370 --> 01:19:29,300

two books on Roswell in that you

1947

01:19:32,229 --> 01:19:30,380

mentioned you were from Cedar Rapids

1948

01:19:35,650 --> 01:19:32,239

well yeah we're we're neighbors so to

1949

01:19:41,470 --> 01:19:35,660

speaking yes my question is yeah my

1950

01:19:43,900 --> 01:19:41,480

question is the date April 24th 1964 the

1951

01:19:48,250 --> 01:19:43,910

date of the correlating is also the date

1952

01:19:50,260 --> 01:19:48,260

of alleged Holloman UFO landing so I've

1953

01:19:52,900 --> 01:19:50,270

developed a theory I wonder if the craft

1954

01:19:56,459 --> 01:19:52,910

that landed very very briefly it's a

1955

01:19:58,469 --> 01:19:56,469

Carl then relocated

1956

01:20:00,540 --> 01:19:58,479

Holliman could that possibly been a

1957

01:20:02,549 --> 01:20:00,550

mistake in landing spot they were

1958

01:20:04,770 --> 01:20:02,559

permanently the creature to get out

1959

01:20:06,450 --> 01:20:04,780

quickly realize they were an around the

1960

01:20:09,450 --> 01:20:06,460

craft and got back inside the craft took

1961

01:20:12,689 --> 01:20:09,460

off quickly headed I guess was it

1962

01:20:14,339 --> 01:20:12,699

Southwest towards Holloman I always I

1963

01:20:16,430 --> 01:20:14,349

was guys I always got the impression

1964

01:20:19,350 --> 01:20:16,440

they headed off to the north-northwest

1965

01:20:22,169 --> 01:20:19,360

okay yeah I'm not sure on the map in my

1966

01:20:24,299 --> 01:20:22,179

mind which direction but I just wonder

1967

01:20:27,750 --> 01:20:24,309

if that was for tomorrow saw I was

1968

01:20:30,149 --> 01:20:27,760

mistaken landing that that was a theory

1969

01:20:32,609 --> 01:20:30,159

that had been explored a number of times

1970

01:20:37,439 --> 01:20:32,619

and I believe I talked about that in the

1971

01:20:39,029 --> 01:20:37,449

book you know why the information about

1972

01:20:42,359 --> 01:20:39,039

that and how that all came about I think

1973

01:20:45,089 --> 01:20:42,369

um the Lorenz ins talked about that that

1974

01:20:47,520 --> 01:20:45,099

idea as well and the date is an it isn't

1975

01:20:48,839 --> 01:20:47,530

necessarily April 24th 1964 there's some

1976

01:20:51,299 --> 01:20:48,849

discussion about what the real date

1977

01:20:53,669 --> 01:20:51,309

would have been as well so there there

1978

01:20:55,680 --> 01:20:53,679

are some problems with linking the

1979

01:20:58,290 --> 01:20:55,690

Socorro landing with this story out of

1980

01:21:01,830 --> 01:20:58,300

Holloman Air Force Base in that time

1981

01:21:05,310 --> 01:21:01,840

frame but I do I do explore that I do

1982

01:21:06,989 --> 01:21:05,320

explore that in the book and what Lorenz

1983

01:21:08,279 --> 01:21:06,999

ins had to say about it and some of the

1984

01:21:10,350 --> 01:21:08,289

other people who were involved in that

1985

01:21:13,500 --> 01:21:10,360

aspect of the investigation the Lorenz

1986

01:21:15,509 --> 01:21:13,510

ins got to Socorro so coral landing was

1987

01:21:17,850 --> 01:21:15,519

on a Friday night they were on there on

1988

01:21:19,680 --> 01:21:17,860

a Sunday talking to some more on some of

1989

01:21:21,029 --> 01:21:19,690

the people they had gotten there right

1990

01:21:24,719 --> 01:21:21,039

after the air force appeared on the

1991

01:21:27,870 --> 01:21:24,729

scene and I say the air force from from

1992

01:21:30,629 --> 01:21:27,880

white right field we had an army officer

1993

01:21:32,819 --> 01:21:30,639

there that very night within an hour

1994

01:21:35,100 --> 01:21:32,829

hour and a half 90 minutes of the

1995

01:21:36,930 --> 01:21:35,110

landing and an FBI agent involved as

1996

01:21:39,479 --> 01:21:36,940

well and some of the investigation so

1997

01:21:41,279 --> 01:21:39,489

you yeah all of that is laid out in

1998

01:21:42,750 --> 01:21:41,289

detail in the book and if you don't want

1999

01:21:47,549 --> 01:21:42,760

to buy the book then some of that detail

2000

01:21:50,129 --> 01:21:47,559

is also appears on on my blog at WWF on

2001
01:21:52,620 --> 01:21:50,139
our blog spot.com I use that as a way of

2002
01:22:00,660 --> 01:21:52,630
spring boarding into giving the blogspot

2003
01:22:04,969 --> 01:22:00,670
another another shout out any other do

2004
01:22:10,020 --> 01:22:04,979
you have any thoughts project circle

2005
01:22:10,410 --> 01:22:10,030
yeah I have any politicize I'm it's not

2006
01:22:13,140 --> 01:22:10,420
going to

2007
01:22:23,310 --> 01:22:13,150
a lot of people I think that just really

2008
01:22:26,190 --> 01:22:23,320
cockamamie I I just don't buy into that

2009
01:22:28,410 --> 01:22:26,200
I I'm in my old age I've taken a much

2010
01:22:31,680 --> 01:22:28,420
more conservative view of that I think I

2011
01:22:33,540 --> 01:22:31,690
think uh uh as we all age we begin to be

2012
01:22:37,380 --> 01:22:33,550
get more skeptical on things that we we

2013
01:22:39,030 --> 01:22:37,390

don't have the same sense of same sense

2014

01:22:41,400 --> 01:22:39,040

of wonder that we had in our younger

2015

01:22:45,630 --> 01:22:41,410

years and we and we learn things that

2016

01:22:47,340 --> 01:22:45,640

that I think I guess inhibit her

2017

01:22:48,840 --> 01:22:47,350

acceptance of some of the more crazy

2018

01:22:51,030 --> 01:22:48,850

things in ufology

2019

01:22:53,820 --> 01:22:51,040

or in the world around as we look for

2020

01:22:56,820 --> 01:22:53,830

more documentation and more evidence and

2021

01:22:59,460 --> 01:22:56,830

I just see nothing in that exchange

2022

01:23:04,220 --> 01:22:59,470

program that I find plausible but that's

2023

01:23:08,340 --> 01:23:05,550

all right

2024

01:23:10,080 --> 01:23:08,350

hey thanks for the call so we are we are

2025

01:23:12,540 --> 01:23:10,090

available for calls if anyone like to

2026

01:23:15,900 --> 01:23:12,550

call in and that number is up on the

2027

01:23:18,240 --> 01:23:15,910

screen and I'll just say the number out

2028

01:23:20,880 --> 01:23:18,250

there just keep in mind that this number

2029

01:23:23,550 --> 01:23:20,890

is only live during the show only a lot

2030

01:23:27,900 --> 01:23:23,560

of people call it off hours and it's

2031

01:23:30,960 --> 01:23:27,910

6:03 nine six seven four o3o if you

2032

01:23:35,640 --> 01:23:30,970

happen to be listening on on-air on the

2033

01:23:37,830 --> 01:23:35,650

radio so so I've heard you say the

2034

01:23:39,630 --> 01:23:37,840

symbol the this controversy about there

2035

01:23:42,090 --> 01:23:39,640

always has been controversy about the

2036

01:23:43,710 --> 01:23:42,100

symbol in you know you can see my hat

2037

01:23:49,710 --> 01:23:43,720

I'm wearing right now you're saying this

2038

01:23:57,120 --> 01:23:49,720

symbol is wrong oops I lost you Kevin

2039

01:23:59,930 --> 01:23:57,130

have you muted your mic by chance for

2040

01:24:05,040 --> 01:23:59,940

some reason we're not getting your audio

2041

01:24:10,620 --> 01:24:05,050

I mean let me take a look at let me take

2042

01:24:12,960 --> 01:24:10,630

a look at what I can see here I see your

2043

01:24:19,080 --> 01:24:12,970

lips moving but I can't hear what you're

2044

01:24:22,170 --> 01:24:19,090

saying and hang on just one moment I'm

2045

01:24:23,730 --> 01:24:22,180

gonna see if if I'm alone or go ahead

2046

01:24:29,900 --> 01:24:23,740

and talk if you would

2047

01:24:33,870 --> 01:24:32,520

hang on live listeners we'll get this

2048

01:24:36,920 --> 01:24:33,880

figured out

2049

01:24:39,980 --> 01:24:36,930

Kevin BER perhaps it's a good idea if I

2050

01:24:46,170 --> 01:24:39,990

if I hang up on you and call right back

2051

01:24:57,780 --> 01:24:46,180

I'll try that okay and let's see okay

2052

01:25:21,300 --> 01:24:57,790

hang in there everyone all right

2053

01:25:21,310 --> 01:25:31,710

okay

2054

01:26:06,209 --> 01:25:33,600

just hanging everyone we'll get this

2055

01:26:22,080 --> 01:26:20,380

almost there all right try that you're

2056

01:26:28,959 --> 01:26:22,090

back but I still can't hear you Kevin

2057

01:26:32,550 --> 01:26:28,969

you want to you want to yeah you

2058

01:26:37,780 --> 01:26:35,439

plugged it back in yeah it works

2059

01:26:40,630 --> 01:26:37,790

okay good to have you back I just wanted

2060

01:26:43,870 --> 01:26:40,640

to hear the little chime that when Skype

2061

01:26:48,390 --> 01:26:43,880

calls you okay we have another call

2062

01:26:50,620 --> 01:26:48,400

coming in so it's good timing so caller

2063

01:26:52,680 --> 01:26:50,630

welcome to the show your first name and

2064

01:26:55,540 --> 01:26:52,690

where you calling from

2065

01:26:59,200 --> 01:26:55,550

that's Sean from Burleigh I don't know

2066

01:27:01,030 --> 01:26:59,210

hi Sean how are you good how you doing

2067

01:27:03,910 --> 01:27:01,040

good good you have a you have a question

2068

01:27:06,640 --> 01:27:03,920

for our guest tonight yes they do have a

2069

01:27:08,229 --> 01:27:06,650

question for Kevin I wanted to ask him

2070

01:27:12,040 --> 01:27:08,239

do you want me to tell you it now yeah

2071

01:27:15,220 --> 01:27:12,050

yeah go ahead sure I wanted to see if he

2072

01:27:18,040 --> 01:27:15,230

has reached out with in his contacts to

2073

01:27:20,169 --> 01:27:18,050

see if anybody has any more information

2074

01:27:22,810 --> 01:27:20,179

about the metamaterials that were

2075

01:27:26,620 --> 01:27:22,820

discussed in the press release you know

2076

01:27:28,270 --> 01:27:26,630

for the tick-tack UFO you know no I'm

2077

01:27:32,350 --> 01:27:28,280

standing on investigation

2078

01:27:33,910 --> 01:27:32,360

I have not reached out I've I've

2079

01:27:37,900 --> 01:27:33,920

discussed it with some of the people I

2080

01:27:42,100 --> 01:27:37,910

know briefly and and I think the feeling

2081

01:27:46,060 --> 01:27:42,110

among most of them is that this is an

2082

01:27:51,220 --> 01:27:46,070

interesting case and it deserves more

2083

01:27:55,479 --> 01:27:51,230

research but I haven't really delved

2084

01:27:57,100 --> 01:27:55,489

into it in depth I've been just I did

2085

01:27:59,860 --> 01:27:57,110

the last two weeks that for example I've

2086

01:28:04,840 --> 01:27:59,870

just been immersed in a scientific paper

2087

01:28:07,030 --> 01:28:04,850

on the mantle UFO sighting so I I

2088

01:28:08,530 --> 01:28:07,040

haven't really done anything with that I

2089

01:28:10,479 --> 01:28:08,540

haven't gotten in depth into it and I

2090

01:28:13,000 --> 01:28:10,489

really probably should take more of a

2091

01:28:14,860 --> 01:28:13,010

look at it yeah what do you thoughts

2092

01:28:19,299 --> 01:28:14,870

thinking about that it certainly seems

2093

01:28:26,229 --> 01:28:22,540

potentially have some unique metallurgy

2094

01:28:29,500 --> 01:28:26,239

and/or molecular makeup I can't believe

2095

01:28:31,959 --> 01:28:29,510

how the press just as like drop the ball

2096

01:28:35,020 --> 01:28:31,969

like where are these meta material folks

2097

01:28:41,529 --> 01:28:35,030

you say you have them there's no photos

2098

01:28:44,620 --> 01:28:41,539

there's well we kind of argued about

2099

01:28:46,870 --> 01:28:44,630

this and I don't say you and I but in

2100

01:28:49,629 --> 01:28:46,880

general yeah would for a long time with

2101

01:28:52,000 --> 01:28:49,639

the press but but if you go back to look

2102

01:28:56,830 --> 01:28:52,010

at the Roswell case we've had any number

2103

01:28:58,450 --> 01:28:56,840

of announcements that metal had been

2104

01:29:00,100 --> 01:28:58,460

found and here's the metal and we're

2105

01:29:02,319 --> 01:29:00,110

going to present you with the scientific

2106

01:29:04,029 --> 01:29:02,329

analysis of it and it's all it's all

2107

01:29:06,549 --> 01:29:04,039

broken down it's all come out well this

2108

01:29:08,919 --> 01:29:06,559

is terrestrially based material the last

2109

01:29:11,560 --> 01:29:08,929

the last one was a big the big 50th

2110

01:29:13,719 --> 01:29:11,570

anniversary in 1997 I think it was where

2111

01:29:16,270 --> 01:29:13,729

they said you know we've got the

2112

01:29:18,189 --> 01:29:16,280

scientific papers to prove we've got a

2113

01:29:20,350 --> 01:29:18,199

piece of material that couldn't have

2114

01:29:23,709 --> 01:29:20,360

been manufactured on earth based on the

2115

01:29:28,180 --> 01:29:23,719

isotopic ratios and then you start

2116

01:29:29,739 --> 01:29:28,190

talking to metallurgist and things like

2117

01:29:32,680 --> 01:29:29,749

that and they say yeah we can manipulate

2118

01:29:35,140 --> 01:29:32,690

the isotopic ratios now we have the we

2119

01:29:38,560 --> 01:29:35,150

have the wherewithal to do that and

2120

01:29:40,359 --> 01:29:38,570

without more information and whatnot

2121

01:29:43,359 --> 01:29:40,369

then you know this is interesting but

2122

01:29:45,520 --> 01:29:43,369

it's not conclusive and I think that's

2123

01:29:47,439 --> 01:29:45,530

kind of where we are here you know it's

2124

01:29:48,790 --> 01:29:47,449

interesting but it's not conclusive and

2125

01:29:50,830 --> 01:29:48,800

we need independent study and

2126
01:29:53,080 --> 01:29:50,840
independent confirmation of this and

2127
01:29:56,500 --> 01:29:53,090
that the isotopic ratios are something

2128
01:30:00,700 --> 01:29:56,510
that couldn't easily be manipulated on

2129
01:30:02,439 --> 01:30:00,710
earth you know I you know they're the

2130
01:30:06,700 --> 01:30:02,449
big thing in 1997 was it wasn't found

2131
01:30:08,890 --> 01:30:06,710
naturally on earth but samples of that

2132
01:30:11,529 --> 01:30:08,900
kind of material did exist in the

2133
01:30:14,080 --> 01:30:11,539
laboratory so it wasn't something that

2134
01:30:16,479 --> 01:30:14,090
didn't exist on earth

2135
01:30:17,469 --> 01:30:16,489
it just didn't naturally exist on earth

2136
01:30:19,390 --> 01:30:17,479
there was something that had been

2137
01:30:21,310 --> 01:30:19,400
manufactured ninety you know that's kind

2138
01:30:24,580 --> 01:30:21,320

of where we are on this sort of thing we

2139

01:30:27,430 --> 01:30:24,590

just haven't seen all the proper

2140

01:30:28,959 --> 01:30:27,440

scientific a peer review on this sort of

2141

01:30:31,000 --> 01:30:28,969

stuff and that's really what we kind of

2142

01:30:32,709 --> 01:30:31,010

need to do and I I think the news media

2143

01:30:36,970 --> 01:30:32,719

although they covered the initial

2144

01:30:40,840 --> 01:30:36,980

Tic Tac site out of New York time you

2145

01:30:44,890 --> 01:30:40,850

know legitimate hey job right they

2146

01:30:48,160 --> 01:30:44,900

didn't just trot out a straw man and you

2147

01:30:50,410 --> 01:30:48,170

know and make it get campy but with

2148

01:30:53,649 --> 01:30:50,420

aadmi has the lawn even one of you

2149

01:30:56,229 --> 01:30:53,659

recall if the long even has ever said

2150

01:31:01,360 --> 01:30:56,239

have they done any testing on it yet

2151
01:31:05,680 --> 01:31:01,370
is there any are they've released any

2152
01:31:07,629 --> 01:31:05,690
report i haven't I haven't seen anything

2153
01:31:09,070 --> 01:31:07,639
I haven't seen anything which is not to

2154
01:31:11,200 --> 01:31:09,080
say they haven't done it it's just I

2155
01:31:13,030 --> 01:31:11,210
haven't seen anything and I don't know

2156
01:31:16,540 --> 01:31:13,040
if Mark Martin has seen anything or not

2157
01:31:19,300 --> 01:31:16,550
and it the people I discuss these sorts

2158
01:31:21,010 --> 01:31:19,310
of things with regularly I don't think

2159
01:31:23,229 --> 01:31:21,020
many of them any of them have seen

2160
01:31:25,120 --> 01:31:23,239
anything either we're all kind of

2161
01:31:27,790 --> 01:31:25,130
standing there waiting you know I

2162
01:31:29,500 --> 01:31:27,800
understand them wanting to protect the

2163
01:31:31,479 --> 01:31:29,510

proprietary nature of what they're

2164

01:31:33,129 --> 01:31:31,489

finding and that sort of thing so that

2165

01:31:35,740 --> 01:31:33,139

they can make it offer announcements at

2166

01:31:37,629 --> 01:31:35,750

the proper time but that kind of leaves

2167

01:31:40,479 --> 01:31:37,639

the rest of us hanging waiting well you

2168

01:31:42,340 --> 01:31:40,489

know it's interesting that we can't we

2169

01:31:46,660 --> 01:31:42,350

can't say yeah it's a good deal we just

2170

01:31:49,229 --> 01:31:46,670

have to say you know one when we see the

2171

01:31:52,629 --> 01:31:49,239

rest of the evidence then then we'll

2172

01:31:55,330 --> 01:31:52,639

take off I guess our skeptic hat and go

2173

01:31:57,669 --> 01:31:55,340

from there yeah I'm dying to see that

2174

01:32:00,459 --> 01:31:57,679

man I mean I appreciate the fact that

2175

01:32:02,560 --> 01:32:00,469

they managed to get this gun camera

2176
01:32:05,140 --> 01:32:02,570
footage because obviously that's that's

2177
01:32:07,149 --> 01:32:05,150
classified stuff I mean you know you're

2178
01:32:11,620 --> 01:32:07,159
not gonna for you out that stuff I mean

2179
01:32:13,120 --> 01:32:11,630
so they they got that and they got that

2180
01:32:15,250 --> 01:32:13,130
out in front of everybody but it's like

2181
01:32:18,100 --> 01:32:15,260
boy when are we gonna see some hard

2182
01:32:21,149 --> 01:32:18,110
evidence on the material did it see what

2183
01:32:24,490 --> 01:32:21,159
it would fight anybody who's done FOIA

2184
01:32:26,550 --> 01:32:24,500
knows that sometimes it just takes years

2185
01:32:30,430 --> 01:32:26,560
and years and years for this stuff to

2186
01:32:32,110 --> 01:32:30,440
filter down to us the the law used to be

2187
01:32:34,300 --> 01:32:32,120
that they had to respond within ten days

2188
01:32:38,410 --> 01:32:34,310

and the way they got away around that

2189

01:32:38,950 --> 01:32:38,420

was we have your request we are looking

2190

01:32:41,590 --> 01:32:38,960

into it

2191

01:32:43,629 --> 01:32:41,600

well they've responded in ten days but

2192

01:32:45,550 --> 01:32:43,639

they haven't told us anything and I've

2193

01:32:46,450 --> 01:32:45,560

waited years for some FOIA requests and

2194

01:32:49,930 --> 01:32:46,460

forgotten about it

2195

01:32:57,310 --> 01:32:49,940

stuff shows up in the mess oh yeah that

2196

01:32:59,080 --> 01:32:57,320

was but I mean in today's world with the

2197

01:33:03,490 --> 01:32:59,090

internet and the and the environment we

2198

01:33:05,770 --> 01:33:03,500

work in today I mentioned earlier that I

2199

01:33:10,000 --> 01:33:05,780

was doing a scientific paper on the

2200

01:33:13,840 --> 01:33:10,010

mantel sighting I was able to find the

2201

01:33:17,440 --> 01:33:13,850

weather records for January 7th 1947

2202

01:33:22,690 --> 01:33:17,450

from Godman Army Airfield from LOC born

2203

01:33:24,940 --> 01:33:22,700

Air Force Base from Wellington Ohio so

2204

01:33:26,290 --> 01:33:24,950

that I I knew what the the wind

2205

01:33:28,479 --> 01:33:26,300

conditions were where the wind was

2206

01:33:29,920 --> 01:33:28,489

coming from what the sky conditions were

2207

01:33:32,740 --> 01:33:29,930

who wasn't or not they got any

2208

01:33:34,780 --> 01:33:32,750

precipitation and I could do all that

2209

01:33:37,060 --> 01:33:34,790

sitting in my house where it used to be

2210

01:33:41,590 --> 01:33:37,070

to get that sort of information I would

2211

01:33:44,440 --> 01:33:41,600

have had to go to Noah Noah yeah and and

2212

01:33:45,760 --> 01:33:44,450

try to get the the winds aloft data

2213

01:33:48,370 --> 01:33:45,770

which is what I want it was the winds

2214

01:33:49,660 --> 01:33:48,380

aloft data for that specific date and

2215

01:33:51,700 --> 01:33:49,670

then you're waiting for that and you've

2216

01:33:53,380 --> 01:33:51,710

got to buy the microfilm and you've got

2217

01:33:55,450 --> 01:33:53,390

to have a microfilm reader and now I've

2218

01:33:57,850 --> 01:33:55,460

got at least the surface winds which

2219

01:33:59,979 --> 01:33:57,860

tell me something and the winds aloft

2220

01:34:01,060 --> 01:33:59,989

date is and all that great for 1947

2221

01:34:04,060 --> 01:34:01,070

because he only took readings up to

2222

01:34:06,640 --> 01:34:04,070

20,000 feet so if you've got an object

2223

01:34:08,229 --> 01:34:06,650

that's above 20,000 feet you know the

2224

01:34:09,820 --> 01:34:08,239

winds aloft data doesn't do you a lot of

2225

01:34:12,280 --> 01:34:09,830

good by the point simply is you know

2226

01:34:16,030 --> 01:34:12,290

we've got a way to see what comes out

2227

01:34:19,450 --> 01:34:16,040

and what sort of scientific peer review

2228

01:34:22,740 --> 01:34:19,460

has been done to validate the claims

2229

01:34:24,910 --> 01:34:22,750

that are being made yeah all right yeah

2230

01:34:27,520 --> 01:34:24,920

hey we'll have another question or you

2231

01:34:30,970 --> 01:34:27,530

got another caller no go ahead go fire

2232

01:34:33,280 --> 01:34:30,980

another question yeah my next question

2233

01:34:36,010 --> 01:34:33,290

is gonna be like sauce disclosures right

2234

01:34:40,270 --> 01:34:36,020

I mean how do you think you know Richard

2235

01:34:41,770 --> 01:34:40,280

you know Dolan makes a really good

2236

01:34:45,420 --> 01:34:41,780

remark that he thinks it won't happen

2237

01:34:50,020 --> 01:34:45,430

because there's so much technology that

2238

01:34:53,860 --> 01:34:50,030

they built off of what they found that

2239

01:34:57,220 --> 01:34:53,870

if they're all of us know that right

2240

01:34:59,620 --> 01:34:57,230

you've got the whole you know in the oil

2241

01:35:00,260 --> 01:34:59,630

you know everything is based on on the

2242

01:35:03,590 --> 01:35:00,270

petrol

2243

01:35:06,980 --> 01:35:03,600

it's like if they have anti grab and

2244

01:35:10,720 --> 01:35:06,990

they have these things it's like at some

2245

01:35:14,840 --> 01:35:10,730

point how do they disclose that and not

2246

01:35:17,270 --> 01:35:14,850

turn this into a nightmare

2247

01:35:19,370 --> 01:35:17,280

I think disclosure will come when the

2248

01:35:20,960 --> 01:35:19,380

aliens land and make their make their

2249

01:35:22,250 --> 01:35:20,970

presence known that's how we're going to

2250

01:35:24,620 --> 01:35:22,260

get disclosure I don't think the

2251

01:35:29,140 --> 01:35:24,630

government's ever going to do it yeah

2252

01:35:33,230 --> 01:35:29,150

you know I we force our hand basically

2253

01:35:35,960 --> 01:35:33,240

there's there if if what don't says is

2254

01:35:37,430 --> 01:35:35,970

accurate that's that's a big yes but if

2255

01:35:40,720 --> 01:35:37,440

I what he says accurate about the

2256

01:35:45,560 --> 01:35:40,730

technology that's based on recovered

2257

01:35:49,700 --> 01:35:45,570

alien materials yes the there is no

2258

01:35:52,160 --> 01:35:49,710

incentive to disclose know and be able

2259

01:35:55,220 --> 01:35:52,170

eyes everything that establishes it it

2260

01:35:57,380 --> 01:35:55,230

could hours it could be stable

2261

01:35:59,000 --> 01:35:57,390

everything everything it may not well we

2262

01:36:02,360 --> 01:35:59,010

talked I talked a little bit about how

2263

01:36:05,690 --> 01:36:02,370

how an invert n't introduction of a

2264

01:36:08,630 --> 01:36:05,700

technology into a society can undermine

2265

01:36:10,780 --> 01:36:08,640

the the entire society and in a way

2266

01:36:13,220 --> 01:36:10,790

without intentionally wanting to do that

2267

01:36:14,960 --> 01:36:13,230

but I think if we're going to get

2268

01:36:17,450 --> 01:36:14,970

disclosure it's going to be the aliens

2269

01:36:18,890 --> 01:36:17,460

are going to disclose we are not going

2270

01:36:20,360 --> 01:36:18,900

to be able to force the government to

2271

01:36:24,140 --> 01:36:20,370

disclose what they know if they don't

2272

01:36:26,990 --> 01:36:24,150

wish to do so and and we see that all

2273

01:36:31,550 --> 01:36:27,000

the time you know there's lawsuits and

2274

01:36:34,580 --> 01:36:31,560

FOIA requests that are still being

2275

01:36:36,920 --> 01:36:34,590

processed a stan used to have the the

2276

01:36:39,290 --> 01:36:36,930

document that that he finally got

2277

01:36:40,880 --> 01:36:39,300

through FOIA and it had like you know

2278

01:36:42,440 --> 01:36:40,890

pages and pages of everything blacked

2279

01:36:43,850 --> 01:36:42,450

out and you'd see one word or a page

2280

01:36:46,190 --> 01:36:43,860

number here and there it was just

2281

01:36:48,050 --> 01:36:46,200

absolutely worthless we finally got the

2282

01:36:49,550 --> 01:36:48,060

rest of the document and we understand

2283

01:36:51,410 --> 01:36:49,560

now it hadn't really nothing to do with

2284

01:36:54,560 --> 01:36:51,420

UFOs the reason it was classified as it

2285

01:36:56,240 --> 01:36:54,570

talked about listening posts that were

2286

01:36:59,150 --> 01:36:56,250

based in Turkey that were monitoring

2287

01:37:04,700 --> 01:36:59,160

Soviet communications so at the time it

2288

01:37:06,230 --> 01:37:04,710

was a national security item so as I say

2289

01:37:08,630 --> 01:37:06,240

I think disclosure will come when the

2290

01:37:10,400 --> 01:37:08,640

aliens decide yeah we're gonna announce

2291

01:37:11,130 --> 01:37:10,410

our presence and that that'll be the end

2292

01:37:13,230 --> 01:37:11,140

of that

2293

01:37:15,930 --> 01:37:13,240

yeah I think it's interesting that so

2294

01:37:18,210 --> 01:37:15,940

many people worry so much about the old

2295

01:37:20,700 --> 01:37:18,220

Brookings report and what religious

2296

01:37:22,710 --> 01:37:20,710

systems and the effect in our society

2297

01:37:24,960 --> 01:37:22,720

might when that if this event happens

2298

01:37:28,530 --> 01:37:24,970

and I think I think I don't think well

2299

01:37:30,150 --> 01:37:28,540

if you said it's 60 years now and and

2300

01:37:32,570 --> 01:37:30,160

where our technology and the pace we're

2301

01:37:35,820 --> 01:37:32,580

going I think the bigger question is the

2302

01:37:38,850 --> 01:37:35,830

the people who have power and how they

2303

01:37:41,400 --> 01:37:38,860

keep that power and that power and is

2304

01:37:46,380 --> 01:37:41,410

gone if you are not I grab and you'll

2305

01:37:48,270 --> 01:37:46,390

have limited energy and you have well I

2306

01:37:51,840 --> 01:37:48,280

think the thing you know I mentioned

2307

01:37:53,430 --> 01:37:51,850

earlier is is that that we have really

2308

01:37:54,630 --> 01:37:53,440

nothing to fear from the aliens I don't

2309

01:37:55,920 --> 01:37:54,640

think they're going to invade I don't

2310

01:37:58,770 --> 01:37:55,930

think it's going to be Independence Day

2311

01:38:00,840 --> 01:37:58,780

all over again in fact the my rationale

2312

01:38:03,510 --> 01:38:00,850

behind Independence Day is ridiculous

2313

01:38:07,080 --> 01:38:03,520

but but it's the introduction of the

2314

01:38:10,470 --> 01:38:07,090

technology and if you can you can see

2315

01:38:12,960 --> 01:38:10,480

just the mere introduction how it the

2316

01:38:16,080 --> 01:38:12,970

technology has changed the societies

2317

01:38:20,940 --> 01:38:16,090

prior to the Spanish arriving in the new

2318

01:38:24,000 --> 01:38:20,950

world there were no horses and we end up

2319

01:38:28,100 --> 01:38:24,010

in in the 19th century dealing with a

2320

01:38:32,610 --> 01:38:28,110

society that is built around the horse

2321

01:38:35,430 --> 01:38:32,620

you know a steel cooking pot or an iron

2322

01:38:38,040 --> 01:38:35,440

cooking pot is a much better vessel for

2323

01:38:40,700 --> 01:38:38,050

cooking than a clay pot and the

2324

01:38:43,260 --> 01:38:40,710

introduction of that sort of thing a

2325

01:38:47,010 --> 01:38:43,270

rifle a musket is a much better than a

2326

01:38:49,530 --> 01:38:47,020

bow and arrow in some circumstances but

2327

01:38:52,020 --> 01:38:49,540

you need a technology to support the

2328

01:38:55,760 --> 01:38:52,030

making of the weapon and the technology

2329

01:38:59,910 --> 01:38:55,770

to create the Gunpowder and the bullet

2330

01:39:02,190 --> 01:38:59,920

and that the Plains Indians didn't have

2331

01:39:04,920 --> 01:39:02,200

that technology so they're suddenly at

2332

01:39:07,260 --> 01:39:04,930

the mercy of the technology that owns

2333

01:39:09,360 --> 01:39:07,270

that sort of thing and so we see that

2334

01:39:11,130 --> 01:39:09,370

repeatedly throughout history how the

2335

01:39:14,070 --> 01:39:11,140

introduction of the technology is

2336

01:39:16,860 --> 01:39:14,080

radically altered societies I'm not sure

2337

01:39:19,470 --> 01:39:16,870

that the the alien showing up for

2338

01:39:22,230 --> 01:39:19,480

disclosure would radically alter our

2339

01:39:24,270 --> 01:39:22,240

society unless we have access to some of

2340

01:39:24,910 --> 01:39:24,280

that technology and they may not be

2341

01:39:28,240 --> 01:39:24,920

willing to say

2342

01:39:30,400 --> 01:39:28,250

apply that and when we argue that we

2343

01:39:33,820 --> 01:39:30,410

think we have the technology from the

2344

01:39:35,979 --> 01:39:33,830

Roswell crash for example I often I used

2345

01:39:39,220 --> 01:39:35,989

to say and Millennials won't understand

2346

01:39:42,729 --> 01:39:39,230

this that if you took a video tape and a

2347

01:39:46,150 --> 01:39:42,739

VCR to play it and a TV to display it

2348

01:39:48,070 --> 01:39:46,160

back to Merlyn the magician and said

2349

01:39:50,229 --> 01:39:48,080

duplicate this he can't do that because

2350

01:39:53,620 --> 01:39:50,239

you've got a black ribbon if you know

2351

01:39:56,080 --> 01:39:53,630

the secrets you can get pictures and

2352

01:39:58,570 --> 01:39:56,090

sound but if you know I know magnetism

2353

01:40:00,010 --> 01:39:58,580

and you don't know electricity you're

2354

01:40:02,200 --> 01:40:00,020

not going to be able to figure out how

2355

01:40:04,090 --> 01:40:02,210

that thing works and it may be that the

2356

01:40:05,979 --> 01:40:04,100

technology that was recovered was so far

2357

01:40:10,510 --> 01:40:05,989

superior we haven't figured it out yet

2358

01:40:13,330 --> 01:40:10,520

which is a distinct possibility so a

2359

01:40:16,600 --> 01:40:13,340

disclosure you know being predicated on

2360

01:40:19,209 --> 01:40:16,610

a fear of losing power may not be

2361

01:40:21,280 --> 01:40:19,219

accurate it may be a wonderful theory

2362

01:40:22,750 --> 01:40:21,290

and it may be accurate but it may not be

2363

01:40:24,910 --> 01:40:22,760

so you know we have to look at all of

2364

01:40:27,490 --> 01:40:24,920

that all right well hey thanks for the

2365

01:40:31,540 --> 01:40:27,500

call my question thanks a lot for the

2366

01:40:34,060 --> 01:40:31,550

call thanks Jake all right Kevin why

2367

01:40:36,669 --> 01:40:34,070

don't we shift gears here and go into

2368

01:40:38,290 --> 01:40:36,679

the Thomas Mantell case because you said

2369

01:40:40,660 --> 01:40:38,300

you've been researching this you wrote a

2370

01:40:43,660 --> 01:40:40,670

paper on it and all that so let's let's

2371

01:40:45,430 --> 01:40:43,670

hear first of all can again I'm going to

2372

01:40:48,760 --> 01:40:45,440

ask you to say a nutshell for the person

2373

01:40:50,979 --> 01:40:48,770

that is unfamiliar with the case of what

2374

01:40:53,080 --> 01:40:50,989

happened and unfortunately I don't have

2375

01:40:54,400 --> 01:40:53,090

a book I can point to to get get the

2376

01:40:59,740 --> 01:40:54,410

information right now this instantaneous

2377

01:41:02,430 --> 01:40:59,750

second Thomas Mantell was a army pilot

2378

01:41:07,470 --> 01:41:02,440

because it was the Army Army Air Forces

2379

01:41:09,520 --> 01:41:07,480

who actually was a very good pilot he

2380

01:41:13,750 --> 01:41:09,530

received the Distinguished Flying Cross

2381

01:41:16,300 --> 01:41:13,760

four of his come I say activities not

2382

01:41:18,459 --> 01:41:16,310

really good word for his response to

2383

01:41:20,890 --> 01:41:18,469

German anti-aircraft fire during the

2384

01:41:23,110 --> 01:41:20,900

invasion of Normandy and the lives that

2385

01:41:27,250 --> 01:41:23,120

he managed to save so I mean he was a

2386

01:41:29,680 --> 01:41:27,260

competent good pilot he is the in

2387

01:41:31,750 --> 01:41:29,690

command of a flight of four at the time

2388

01:41:35,710 --> 01:41:31,760

p-51 Mustangs they're they're moving the

2389

01:41:39,850 --> 01:41:35,720
aircraft from Georgia to Kentucky

2390

01:41:41,710 --> 01:41:39,860
and he is called by the Godman Army

2391

01:41:44,680 --> 01:41:41,720
Airfield tower and say can you check out

2392

01:41:46,300 --> 01:41:44,690
this object that we see and he he and

2393

01:41:49,000 --> 01:41:46,310
his flight turned toward it one guy

2394

01:41:51,640 --> 01:41:49,010
broke off to go to their their base

2395

01:41:53,980 --> 01:41:51,650
because he didn't have enough fuel to to

2396

01:41:55,900 --> 01:41:53,990
engage in an intercept Mantell and two

2397

01:41:58,600 --> 01:41:55,910
others went up they continued climbing

2398

01:42:01,090 --> 01:41:58,610
they climbed above 14,000 feet Mantell

2399

01:42:04,150 --> 01:42:01,100
continued the climb the evidence

2400

01:42:06,250 --> 01:42:04,160
suggests he got up to 22,000 feet but he

2401
01:42:09,010 --> 01:42:06,260
around 20,000 feet he told the guys I'm

2402
01:42:10,630 --> 01:42:09,020
gonna go to 25,000 feet and if I can't

2403
01:42:11,710 --> 01:42:10,640
get any closer then I'm gonna break off

2404
01:42:15,370 --> 01:42:11,720
the intercept the other two guys turned

2405
01:42:19,060 --> 01:42:15,380
back man tells a plane crashed some

2406
01:42:21,310 --> 01:42:19,070
thirty minutes later it's clear that he

2407
01:42:22,480 --> 01:42:21,320
he did not have oxygen equipment on

2408
01:42:24,130 --> 01:42:22,490
board while there was equipment

2409
01:42:27,610 --> 01:42:24,140
installed it wasn't properly charged he

2410
01:42:32,110 --> 01:42:27,620
didn't have his oxygen mask we now

2411
01:42:34,180 --> 01:42:32,120
understand epoxy ax or hypoxia epoxy is

2412
01:42:37,660 --> 01:42:34,190
a complete lack of oxygen blood hypoxia

2413
01:42:40,120 --> 01:42:37,670

is diminishing amounts of blood oxygen

2414

01:42:43,690 --> 01:42:40,130

blood and how quickly the hypoxia can

2415

01:42:44,920 --> 01:42:43,700

turn in turn deadly if you're at 25,000

2416

01:42:46,600 --> 01:42:44,930

feet you have like three minutes of

2417

01:42:49,690 --> 01:42:46,610

useful consciousness I think it is

2418

01:42:51,490 --> 01:42:49,700

according to the studies that have been

2419

01:42:53,890 --> 01:42:51,500

done so he you know he didn't have

2420

01:42:55,540 --> 01:42:53,900

enough time to get to 25,000 feet in

2421

01:42:57,430 --> 01:42:55,550

circle for 10 minutes before he would

2422

01:42:59,200 --> 01:42:57,440

have passed out from a lack of oxygen in

2423

01:43:02,740 --> 01:42:59,210

his blood the aircraft being trained

2424

01:43:05,200 --> 01:43:02,750

trimmed to climb continued climbing to

2425

01:43:06,460 --> 01:43:05,210

around 30,000 feet where it sort of

2426

01:43:08,050 --> 01:43:06,470

leveled off and then the torque of the

2427

01:43:10,570 --> 01:43:08,060

engine pulled it over into a power dive

2428

01:43:12,340 --> 01:43:10,580

in the aircraft broke up around you know

2429

01:43:13,900 --> 01:43:12,350

10 to 20,000 feet the aircraft broke up

2430

01:43:17,320 --> 01:43:13,910

to the external forces of this power

2431

01:43:22,390 --> 01:43:17,330

dive in Mantell was killed so of course

2432

01:43:24,100 --> 01:43:22,400

it is what did he see this the Air Force

2433

01:43:25,720 --> 01:43:24,110

said originally well he was chasing the

2434

01:43:27,700 --> 01:43:25,730

planet Venus which is not a very good

2435

01:43:31,360 --> 01:43:27,710

explanation Venus was in the part of the

2436

01:43:33,040 --> 01:43:31,370

sky where they thought the object was

2437

01:43:34,450 --> 01:43:33,050

but that's just merely a coincidence and

2438

01:43:37,540 --> 01:43:34,460

the Air Force said well you know it's

2439

01:43:39,040 --> 01:43:37,550

really Venus in a balloon then it was

2440

01:43:42,760 --> 01:43:39,050

Venus and two weather balloons and

2441

01:43:45,310 --> 01:43:42,770

eventually they decided our Isis is a

2442

01:43:47,919 --> 01:43:45,320

and repelled who was a chief of posi

2443

01:43:50,260 --> 01:43:47,929

Bluebook at the time in 1952

2444

01:43:52,270 --> 01:43:50,270

we stutters studying the case again said

2445

01:43:53,500 --> 01:43:52,280

well it was a skyhook balloon and he

2446

01:43:57,450 --> 01:43:53,510

thought it had been launched from

2447

01:43:59,919 --> 01:43:57,460

Clinton County Air Force Base in Ohio

2448

01:44:02,709 --> 01:43:59,929

but they could find no records of that

2449

01:44:05,500 --> 01:44:02,719

later on that we found it hit the

2450

01:44:08,880 --> 01:44:05,510

microphone sorry about that people found

2451
01:44:11,050 --> 01:44:08,890
the skyhook was lodged from Minnesota

2452
01:44:12,610 --> 01:44:11,060
and would have been in the area at the

2453
01:44:13,840 --> 01:44:12,620
time so the question is is that what

2454
01:44:16,090 --> 01:44:13,850
what he chased the balloon would have

2455
01:44:19,030 --> 01:44:16,100
been it's like 80 thousand feet and

2456
01:44:22,479 --> 01:44:19,040
Mantell was flying around at 20,000 feet

2457
01:44:25,870 --> 01:44:22,489
so the balloon was 60,000 feet what 11

2458
01:44:27,520 --> 01:44:25,880
miles above him at the time that sort of

2459
01:44:30,899 --> 01:44:27,530
thing so it's been a big controversy

2460
01:44:35,649 --> 01:44:30,909
about what he chased view that the

2461
01:44:37,510 --> 01:44:35,659
accident was caused by his violation of

2462
01:44:41,050 --> 01:44:37,520
regulations which is the only way to say

2463
01:44:44,040 --> 01:44:41,060

that and probably well passing out to

2464

01:44:48,550 --> 01:44:44,050

hypoxia if you remember pain jennings

2465

01:44:52,660 --> 01:44:48,560

Learjet they lost contact with it I

2466

01:44:54,160 --> 01:44:52,670

think there was a window broke or

2467

01:44:56,560 --> 01:44:54,170

something like that in the aircraft and

2468

01:44:58,240 --> 01:44:56,570

they lost the oxygen and the the the

2469

01:45:01,330 --> 01:44:58,250

crew didn't even have time to respond to

2470

01:45:03,959 --> 01:45:01,340

that at 39,000 feet you just lose

2471

01:45:06,640 --> 01:45:03,969

consciousness almost instantaneously

2472

01:45:08,130 --> 01:45:06,650

when that sort of thing happens so it's

2473

01:45:14,830 --> 01:45:08,140

clear that's the cause of the accident

2474

01:45:17,320 --> 01:45:14,840

is man tells succumbing to hypoxia Wow

2475

01:45:19,180 --> 01:45:17,330

and he either died from hypoxia or he

2476

01:45:22,149 --> 01:45:19,190

died in the crash it really makes little

2477

01:45:23,919 --> 01:45:22,159

difference to man tell okay so the

2478

01:45:26,890 --> 01:45:23,929

question is you know what did he see and

2479

01:45:29,080 --> 01:45:26,900

I think based on the research and I'm

2480

01:45:30,939 --> 01:45:29,090

gonna take heat from a number of my

2481

01:45:33,250 --> 01:45:30,949

friends on this one I think he was

2482

01:45:34,660 --> 01:45:33,260

chasing a skyhook balloon which was in

2483

01:45:37,570 --> 01:45:34,670

the area and the question is well could

2484

01:45:39,610 --> 01:45:37,580

they have seen it was it was it large

2485

01:45:41,740 --> 01:45:39,620

enough for them to see at that altitude

2486

01:45:44,260 --> 01:45:41,750

from the distance they supposedly saw it

2487

01:45:46,450 --> 01:45:44,270

and every time I turned around and

2488

01:45:49,830 --> 01:45:46,460

working the paper I found something else

2489

01:45:52,180 --> 01:45:49,840

that did impacted on this I plotted the

2490

01:45:53,290 --> 01:45:52,190

sightings and the times because those

2491

01:45:55,660 --> 01:45:53,300

are available in the project Bluebook

2492

01:45:58,750 --> 01:45:55,670

files in other places and there is I

2493

01:46:00,580 --> 01:45:58,760

think the reason Rubel thought it came

2494

01:46:01,810 --> 01:46:00,590

from Clinton County is if you take a

2495

01:46:05,380 --> 01:46:01,820

look at the size

2496

01:46:08,350 --> 01:46:05,390

in Central and Eastern Kentucky it's

2497

01:46:10,480 --> 01:46:08,360

almost a straight line from what is it

2498

01:46:16,150 --> 01:46:10,490

Maysville to Lexington to man's Ville

2499

01:46:18,820 --> 01:46:16,160

and back up to Willington Ohio it's

2500

01:46:20,650 --> 01:46:18,830

almost a straight line it looks like

2501

01:46:22,660 --> 01:46:20,660

something flying in a straight line but

2502

01:46:25,120 --> 01:46:22,670

everything that you read about man tell

2503

01:46:26,950 --> 01:46:25,130

the tower Clinton the Godman tower and

2504

01:46:29,640 --> 01:46:26,960

everything's looking to the southwest so

2505

01:46:32,380 --> 01:46:29,650

those those sightings are irrelevant

2506

01:46:35,560 --> 01:46:32,390

they got their information from the

2507

01:46:38,580 --> 01:46:35,570

police in Madisonville which is in South

2508

01:46:41,290 --> 01:46:38,590

Western Kentucky and Elizabethtown and

2509

01:46:42,880 --> 01:46:41,300

other places like that so when the tower

2510

01:46:44,950 --> 01:46:42,890

began looking for they're looking for a

2511

01:46:47,350 --> 01:46:44,960

specific thing in that specific area and

2512

01:46:53,550 --> 01:46:47,360

they're using both binoculars and they

2513

01:46:56,920 --> 01:46:55,630

interview with one of the guys in the

2514

01:46:58,570 --> 01:46:56,930

tower and he said they had this

2515

01:47:01,480 --> 01:46:58,580

jury-rigged thing in the tower with a

2516

01:47:03,730 --> 01:47:01,490

broomstick and a piece of paper on take

2517

01:47:05,470 --> 01:47:03,740

to the window because it was almost

2518

01:47:07,120 --> 01:47:05,480

impossible to see the object cause of

2519

01:47:08,830 --> 01:47:07,130

the distance and but when they brought

2520

01:47:10,300 --> 01:47:08,840

binoculars on it if you if you knew

2521

01:47:11,140 --> 01:47:10,310

where to look you could spot it but if

2522

01:47:12,580 --> 01:47:11,150

you didn't know where to look you'd

2523

01:47:14,500 --> 01:47:12,590

never have never have seen it and they

2524

01:47:18,160 --> 01:47:14,510

had found it with their binoculars and

2525

01:47:19,570 --> 01:47:18,170

then put up this jury-rigged thing in

2526

01:47:20,950 --> 01:47:19,580

the tower that said oh well that's where

2527

01:47:23,530 --> 01:47:20,960

these guys look down there and then

2528

01:47:25,780 --> 01:47:23,540

that's where we are so I think I think

2529

01:47:27,520 --> 01:47:25,790

the man tell k-6 is you know the the

2530

01:47:29,020 --> 01:47:27,530

two-prong investigation the accident

2531

01:47:31,240 --> 01:47:29,030

investigation I think that's explained

2532

01:47:33,070 --> 01:47:31,250

and I think I think the UFO sighting is

2533

01:47:35,530 --> 01:47:33,080

now explained but it's one of the other

2534

01:47:36,850 --> 01:47:35,540

classics of the the UFO field right

2535

01:47:39,340 --> 01:47:36,860

right

2536

01:47:42,280 --> 01:47:39,350

we have we have Ryan been waiting

2537

01:47:50,070 --> 01:47:42,290

patiently online to talk Ryan how you

2538

01:47:56,380 --> 01:47:54,100

wanted to ask him he had mentioned

2539

01:47:59,320 --> 01:47:56,390

earlier in the broadcast and I

2540

01:48:01,690 --> 01:47:59,330

participate in his vlog sometimes he had

2541

01:48:04,870 --> 01:48:01,700

mentioned on his blog that there is the

2542

01:48:07,770 --> 01:48:04,880

new revelation about some of Jesse

2543

01:48:09,910 --> 01:48:07,780

Marcel documents may be coming out is

2544

01:48:11,560 --> 01:48:09,920

this Marcel the third may have

2545

01:48:13,960 --> 01:48:11,570

discovered and all this kind of stuff I

2546

01:48:15,670 --> 01:48:13,970

just wanted to ask and a big point of

2547

01:48:18,310 --> 01:48:15,680

contention with Roswell

2548

01:48:22,240 --> 01:48:18,320

always been whether Jesse Marcel would

2549

01:48:24,580 --> 01:48:22,250

have I've been able to identify would

2550

01:48:27,490 --> 01:48:24,590

have understood that he's looking at a

2551
01:48:30,010 --> 01:48:27,500
weather balloon or a ray wind target as

2552
01:48:32,910 --> 01:48:30,020
opposed to something extraordinary back

2553
01:48:35,290 --> 01:48:32,920
in 1947 some people had looked at as

2554
01:48:37,690 --> 01:48:35,300
military record and said there's there's

2555
01:48:40,000 --> 01:48:37,700
nothing there that indicates he was ever

2556
01:48:42,580 --> 01:48:40,010
trained and identifying this sort of

2557
01:48:44,050 --> 01:48:42,590
thing other people has said it's

2558
01:48:46,660 --> 01:48:44,060
ridiculous that an intelligence officer

2559
01:48:48,370 --> 01:48:46,670
wouldn't be able to and wanted to tap

2560
01:48:51,790 --> 01:48:48,380
into your knowledge as an ex-military

2561
01:48:54,580 --> 01:48:51,800
man what do you think first of all if we

2562
01:48:56,790 --> 01:48:54,590
believe Sheridan Cavitt who was

2563
01:48:59,020 --> 01:48:56,800

allegedly on the scene with Jesse Marcel

2564

01:49:01,720 --> 01:48:59,030

Cavett said when he first saw it he knew

2565

01:49:03,460 --> 01:49:01,730

it was a weather balloon well why didn't

2566

01:49:05,110 --> 01:49:03,470

he communicate this rather important

2567

01:49:08,470 --> 01:49:05,120

piece of intelligence Jesse Marcel yes

2568

01:49:10,510 --> 01:49:08,480

that's a weather balloon you know that's

2569

01:49:12,820 --> 01:49:10,520

the first thing the second thing is

2570

01:49:14,320 --> 01:49:12,830

Jesse Marcel participated in operation

2571

01:49:16,180 --> 01:49:14,330

crossroads that was the testing the

2572

01:49:18,460 --> 01:49:16,190

atomic bombs and the Bikini Atoll area I

2573

01:49:20,620 --> 01:49:18,470

believe part of the equipment they

2574

01:49:23,200 --> 01:49:20,630

carried with them were raehwan targets

2575

01:49:26,650 --> 01:49:23,210

and weather balloons so he would have

2576

01:49:28,900 --> 01:49:26,660

known that sort of thing as well he also

2577

01:49:31,570 --> 01:49:28,910

apparently attended a radar school and

2578

01:49:33,310 --> 01:49:31,580

part of that would have involved raehwan

2579

01:49:34,720 --> 01:49:33,320

targets and that sort of thing so it's

2580

01:49:36,340 --> 01:49:34,730

clear that that he would have been

2581

01:49:38,920 --> 01:49:36,350

exposed to that but if you're looking at

2582

01:49:40,870 --> 01:49:38,930

an array when targets basically what an

2583

01:49:42,880 --> 01:49:40,880

aluminum foil I think it's got a cloth

2584

01:49:46,630 --> 01:49:42,890

backing to it but basically an aluminum

2585

01:49:48,130 --> 01:49:46,640

foil thing this wouldn't be that all

2586

01:49:49,660 --> 01:49:48,140

extraordinary there's no reason for it

2587

01:49:51,850 --> 01:49:49,670

to have been torn up and spread over

2588

01:49:55,120 --> 01:49:51,860

what I think he said three-quarters of a

2589

01:49:56,740 --> 01:49:55,130

mile that sort of thing it just it just

2590

01:49:58,840 --> 01:49:56,750

doesn't make sense so I know the the

2591

01:50:00,790 --> 01:49:58,850

idea that he was fooled by a weather

2592

01:50:04,570 --> 01:50:00,800

balloon in a ring when target a farmer

2593

01:50:06,250 --> 01:50:04,580

in Ohio Circleville Ohio founder raehwan

2594

01:50:08,410 --> 01:50:06,260

target and weather balloon on his rant

2595

01:50:09,700 --> 01:50:08,420

are on his farm and he took it to the

2596

01:50:10,780 --> 01:50:09,710

sheriff and says you know here's one of

2597

01:50:12,550 --> 01:50:10,790

these weather balloon things mites

2598

01:50:13,900 --> 01:50:12,560

explain some of the UFO sightings or

2599

01:50:16,510 --> 01:50:13,910

some of the flying saucer sightings I

2600

01:50:18,400 --> 01:50:16,520

guess so I mean a farmer in Ohio was

2601
01:50:20,140 --> 01:50:18,410
able to identify the raehwan target the

2602
01:50:22,100 --> 01:50:20,150
weather bloom but Jesse Marcel could not

2603
01:50:25,220 --> 01:50:22,110
sue preposterous idea

2604
01:50:26,660 --> 01:50:25,230
even if it was project mogul mogul was

2605
01:50:28,759 --> 01:50:26,670
basically weather balloons and raehwan

2606
01:50:30,169 --> 01:50:28,769
targets so even if there was a number of

2607
01:50:32,319 --> 01:50:30,179
them there there was nothing that that

2608
01:50:34,700 --> 01:50:32,329
he shouldn't have been able to identify

2609
01:50:38,000 --> 01:50:34,710
they they launched weather balloons from

2610
01:50:39,770 --> 01:50:38,010
the Roswell Army Airfield I think four

2611
01:50:41,330 --> 01:50:39,780
times was it four times or six times

2612
01:50:43,040 --> 01:50:41,340
every four hours every four hours I

2613
01:50:45,290 --> 01:50:43,050

think it was from the weather station

2614

01:50:46,549 --> 01:50:45,300

there to get the winds aloft do you know

2615

01:50:48,830 --> 01:50:46,559

one of the places they got we were

2616

01:50:50,720 --> 01:50:48,840

gathering winds aloft date in 1947 so

2617

01:50:51,589 --> 01:50:50,730

the idea that he was fooled by a raehwan

2618

01:50:54,319 --> 01:50:51,599

target and weather balloon is

2619

01:50:55,729 --> 01:50:54,329

preposterous well thanks for that hey

2620

01:51:02,209 --> 01:50:55,739

thanks for the call Ryan we're actually

2621

01:51:03,250 --> 01:51:02,219

at the end of the show so yeah so all

2622

01:51:05,600 --> 01:51:03,260

right take care

2623

01:51:07,939 --> 01:51:05,610

Kevin it's always a pleasure every

2624

01:51:09,470 --> 01:51:07,949

single time and I feel like we could

2625

01:51:14,239 --> 01:51:09,480

talk another four hours I know you have

2626

01:51:16,339 --> 01:51:14,249

dinner waiting for you yeah yeah

2627

01:51:17,750 --> 01:51:16,349

excellent so thanks so much really it's

2628

01:51:18,140 --> 01:51:17,760

been a real pleasure I really appreciate

2629

01:51:23,149 --> 01:51:18,150

it

2630

01:51:24,770 --> 01:51:23,159

well I'm give me a shout I know you

2631

01:51:26,899 --> 01:51:24,780

reached out to me that was really nice

2632

01:51:30,770 --> 01:51:26,909

enough I had a guest canceled that was

2633

01:51:32,270 --> 01:51:30,780

but I guess I had it covered ahead of

2634

01:51:33,890 --> 01:51:32,280

that but I appreciate that very much and

2635

01:51:35,779 --> 01:51:33,900

we'll talk to you soon Kevin you take

2636

01:51:38,739 --> 01:51:35,789

care okay you too thank you much all

2637

01:51:40,939 --> 01:51:38,749

right thanks ok everyone so that's it

2638

01:51:44,120 --> 01:51:40,949

for the show remember we'll be back next

2639

01:51:50,509 --> 01:51:44,130

week with Chris Cogswell he should be a

2640

01:51:53,959 --> 01:51:50,519

great guest and we have just a couple

2641

01:51:57,830 --> 01:51:53,969

things to go over real quickly and that

2642

01:52:02,149 --> 01:51:57,840

is if you would like to listen to the

2643

01:52:05,359 --> 01:52:02,159

show live and you're catching this as a

2644

01:52:09,560 --> 01:52:05,369

podcast now or if you just happened on

2645

01:52:11,060 --> 01:52:09,570

this YouTube video or whatever you can

2646

01:52:14,239 --> 01:52:11,070

do a couple of different things one you

2647

01:52:17,180 --> 01:52:14,249

can go to my website podcast UFO calm

2648

01:52:18,529 --> 01:52:17,190

and over on the right hand side you'll

2649

01:52:20,720 --> 01:52:18,539

see that there is a mailing list you

2650

01:52:22,279 --> 01:52:20,730

just simply enter your mailing I mean

2651
01:52:23,390 --> 01:52:22,289
I'm sorry your email address into that

2652
01:52:25,580 --> 01:52:23,400
and push enter

2653
01:52:27,589 --> 01:52:25,590
basically that's that's how it works

2654
01:52:29,330 --> 01:52:27,599
you'll get the newsletter once a week of

2655
01:52:30,830 --> 01:52:29,340
what we have going on so we have

2656
01:52:33,229 --> 01:52:30,840
announcement for instance when - I'm at

2657
01:52:34,520 --> 01:52:33,239
the MUFON symposium and I know when I'm

2658
01:52:36,830 --> 01:52:34,530
going to set the show

2659
01:52:39,420 --> 01:52:36,840
you will actually get that announcement

2660
01:52:40,970 --> 01:52:39,430
or any other upcoming guests that we

2661
01:52:44,550 --> 01:52:40,980
have or any other important

2662
01:52:46,800 --> 01:52:44,560
announcements so also you can subscribe

2663
01:52:50,400 --> 01:52:46,810

to the YouTube channel and you can catch

2664

01:52:52,140 --> 01:52:50,410

what's going on there I think I do

2665

01:52:56,040 --> 01:52:52,150

believe you get notices of when live

2666

01:52:57,810 --> 01:52:56,050

shows are coming up I don't know for

2667

01:53:02,550 --> 01:52:57,820

sure but some people have told me that's

2668

01:53:03,900 --> 01:53:02,560

how that works and so that is about it I

2669

01:53:06,050 --> 01:53:03,910

want to thank some people that helped

2670

01:53:08,640 --> 01:53:06,060

out first of all our guests of course

2671

01:53:10,500 --> 01:53:08,650

and Kevin Randall and Alejandro Rojas

2672

01:53:13,260 --> 01:53:10,510

for helping out with the UFO updates we

2673

01:53:15,180 --> 01:53:13,270

didn't talk too much about updates of

2674

01:53:17,729 --> 01:53:15,190

UFOs but other things always good to

2675

01:53:19,700 --> 01:53:17,739

have Alejandro on Evan I want to thank

2676

01:53:22,260 --> 01:53:19,710

him for working in the background and

2677

01:53:25,620 --> 01:53:22,270

Peggy for managing the Facebook page

2678

01:53:27,420 --> 01:53:25,630

race over at kgr a radio and so that's
