1
00:00:14,540 --> 00:00:05,640
one intros Rolly

2
00:00:14,550 --> 00:00:28,089
[Music]

3
00:00:39,830 --> 00:00:37,130
all right you ready Martin hello and

4
00:00:41,960 --> 00:00:39,840
welcome to the show I'm Martin Willis

5
00:00:44,509 --> 00:00:41,970
your host and we have a great show for

6
00:00:46,970 --> 00:00:44,519
you this evening we have Jan Harrison

7
00:00:49,369 --> 00:00:46,980
from MUFON he's the executive director

8
00:00:53,119 --> 00:00:49,379
from MUFON he'll be coming up first we

9
00:00:55,399 --> 00:00:53,129
have Alejandro Rojas with UFO updates

10
00:00:57,349 --> 00:00:55,409
and speaking of updates I'm going to

11
00:00:59,090 --> 00:00:57,359
tell you the next I thought it was going

12
00:01:02,479 --> 00:00:59,100
to be two weeks but it's actually three

13
00:01:05,150 --> 00:01:02,489

Tuesdays I'm gonna be traveling and the

14

00:01:06,919 --> 00:01:05,160

first Tuesday next week we have Jeremy

15

00:01:09,950 --> 00:01:06,929

ray on from you might know him from

16

00:01:12,050 --> 00:01:09,960

hangar 1 he's going to be on that's a

17

00:01:14,900 --> 00:01:12,060

pre-recorded show on that one the week

18

00:01:16,790 --> 00:01:14,910

after is going to be Grant camera and

19

00:01:18,460 --> 00:01:16,800

that is going to be live on YouTube but

20

00:01:23,480 --> 00:01:18,470

it's going to be a pre-recorded show on

21

00:01:25,130 --> 00:01:23,490

kgr a radio which we are on so that also

22

00:01:27,139 --> 00:01:25,140

is going to be a pre-recorded show

23

00:01:28,130 --> 00:01:27,149

because I just don't want to do it in

24

00:01:33,650 --> 00:01:28,140

the middle of the night to be honest

25

00:01:36,919 --> 00:01:33,660

with you then on the the week after that

26

00:01:39,199 --> 00:01:36,929

I'm actually going to be in Vienna I'm

27

00:01:41,210 --> 00:01:39,209

gonna be doing a show live from there

28

00:01:43,940 --> 00:01:41,220

it's gonna be earlier in the day as well

29

00:01:46,669 --> 00:01:43,950

but with a avid listener he's trying to

30

00:01:48,080 --> 00:01:46,679

get some things together with some other

31

00:01:50,540 --> 00:01:48,090

people so that should be interesting

32

00:01:52,309 --> 00:01:50,550

that's three weeks out so for right now

33

00:01:54,650 --> 00:01:52,319

I want to thank everyone that supports

34

00:01:57,380 --> 00:01:54,660

the show anyone can do that

35

00:01:59,630 --> 00:01:57,390

that informations on podcast UFO comm we

36

00:02:01,460 --> 00:01:59,640

also have a very active Facebook page

37

00:02:03,619 --> 00:02:01,470

was which is updated every day if anyone

38

00:02:05,960 --> 00:02:03,629

wants to check that out oh that's under

39

00:02:09,050 --> 00:02:05,970

a podcast UFO I believe it says podcast

40

00:02:12,410 --> 00:02:09,060

UFO live shows on Facebook and that is

41

00:02:15,290 --> 00:02:12,420

enough chitchat for now Alejandro how

42

00:02:17,240 --> 00:02:15,300

are you doing hello mr. space good I am

43

00:02:20,839 --> 00:02:17,250

so jealous of you getting to visit

44

00:02:24,080 --> 00:02:20,849

Vienna I was in passes you know like

45

00:02:27,259 --> 00:02:24,090

last year and I heard that Vienna's like

46

00:02:29,630 --> 00:02:27,269

a more updated kind of beautiful version

47

00:02:31,220 --> 00:02:29,640

of Budapest although Budapest is kind of

48

00:02:34,130 --> 00:02:31,230

fun because it's old and lots of young

49

00:02:35,690 --> 00:02:34,140

people but I'd love to see Banias yeah

50

00:02:37,850 --> 00:02:35,700

yeah I'd love to see Vienna

51
00:02:38,370 --> 00:02:37,860
we'll have to compare notes we get back

52
00:02:44,630 --> 00:02:38,380
yeah

53
00:02:47,490 --> 00:02:44,640
fun so what is going on in the UFO world

54
00:02:50,730 --> 00:02:47,500
what's going on in the UFO world well

55
00:02:53,670 --> 00:02:50,740
you've got Jan on today and this is a

56
00:02:56,550 --> 00:02:53,680
bit a bittersweet because MUFON was

57
00:02:58,980 --> 00:02:56,560
mentioned in the New York Times today

58
00:03:01,200 --> 00:02:58,990
I'm not sure maybe if Jim seen this

59
00:03:03,360 --> 00:03:01,210
article yeah and they talked about the

60
00:03:05,340 --> 00:03:03,370
symposium but unfortunately the

61
00:03:07,290 --> 00:03:05,350
symposiums already happened so it was

62
00:03:10,470 --> 00:03:07,300
like oh man they got that plug for the

63
00:03:12,780 --> 00:03:10,480

symposium in late but this story

64

00:03:15,180 --> 00:03:12,790

interesting so New York Times you know

65

00:03:18,060 --> 00:03:15,190

they release that story in December big

66

00:03:20,940 --> 00:03:18,070

news about Louise Elizondo who was at

67

00:03:23,130 --> 00:03:20,950

the fund symposium and and everything

68

00:03:24,750 --> 00:03:23,140

going on there with that program and

69

00:03:27,510 --> 00:03:24,760

since then they've done some follow-up

70

00:03:29,910 --> 00:03:27,520

stories one with Steve justice and some

71

00:03:32,750 --> 00:03:29,920

others covering some very credible

72

00:03:36,360 --> 00:03:32,760

aspects of the UFO phenomenon

73

00:03:38,460 --> 00:03:36,370

today's story was a little different

74

00:03:40,770 --> 00:03:38,470

this one was covering a gentleman named

75

00:03:45,330 --> 00:03:40,780

Rob Robert Bingham have you heard of him

76

00:03:48,450 --> 00:03:45,340

no Robert Bingham yeah he's been at the

77

00:03:50,580 --> 00:03:48,460

conference and I believe he's in the LA

78

00:03:52,380 --> 00:03:50,590

area Jan might recognize him especially

79

00:03:54,990 --> 00:03:52,390

when I mentioned what he does

80

00:03:58,140 --> 00:03:55,000

essentially he believes he can call in

81

00:04:01,080 --> 00:03:58,150

UFOs and often he'll be in the parking

82

00:04:02,610 --> 00:04:01,090

lot at UFO conferences standing there

83

00:04:05,310 --> 00:04:02,620

looking at the sky telling people hey

84

00:04:07,380 --> 00:04:05,320

I'm calling in UFOs and then sometimes

85

00:04:12,420 --> 00:04:07,390

that people will say oh my gosh I saw a

86

00:04:14,790 --> 00:04:12,430

UFO with him although personally every

87

00:04:16,620 --> 00:04:14,800

time I've asked you know what did it

88

00:04:18,630 --> 00:04:16,630

look like it sounds like a balloon I

89

00:04:20,729 --> 00:04:18,640

mean it's usually just a small little

90

00:04:23,190 --> 00:04:20,739

thing floating across the sky very high

91

00:04:25,530 --> 00:04:23,200

up in the air so nothing too spectacular

92

00:04:29,300 --> 00:04:25,540

that I've heard of but he certainly

93

00:04:32,460 --> 00:04:29,310

gathered a pretty big following if you

94

00:04:35,370 --> 00:04:32,470

went and looked at your emails I'm sure

95

00:04:37,920 --> 00:04:35,380

you would find some emails from some of

96

00:04:39,630 --> 00:04:37,930

his kind of followers or the group of

97

00:04:41,610 --> 00:04:39,640

people that follow him they've created

98

00:04:43,470 --> 00:04:41,620

this YouTube page where they all hang

99

00:04:45,570 --> 00:04:43,480

out and I've watched them in these

100

00:04:47,580 --> 00:04:45,580

videos because I have these people have

101
00:04:50,010 --> 00:04:47,590
contacted me and said oh my gosh we got

102
00:04:51,719 --> 00:04:50,020
something really cool but you know I

103
00:04:52,170 --> 00:04:51,729
haven't even seen any of these videos

104
00:04:55,980 --> 00:04:52,180
tomorrow

105
00:04:58,469 --> 00:04:55,990
Dantonio who because none of them even

106
00:05:01,070 --> 00:04:58,479
look big to me they have I haven't seen

107
00:05:03,870 --> 00:05:01,080
anything that looks that spectacular yet

108
00:05:06,629 --> 00:05:03,880
who knows I mean who knows what what's

109
00:05:08,790 --> 00:05:06,639
going on with the nature of whatever may

110
00:05:11,010 --> 00:05:08,800
be out there I'm not seeing it it's not

111
00:05:14,580 --> 00:05:11,020
possible about at least haven't seen

112
00:05:17,580 --> 00:05:14,590
anything that that really shocking from

113
00:05:19,620 --> 00:05:17,590

this group as of yet but I think the

114

00:05:21,779 --> 00:05:19,630

most shocking thing I've seen of this

115

00:05:24,570 --> 00:05:21,789

group is that they have an article

116

00:05:26,850 --> 00:05:24,580

dedicated to them in the New York Times

117

00:05:29,670 --> 00:05:26,860

today so that's really interesting Wow

118

00:05:33,150 --> 00:05:29,680

yeah I noticed the New York Times is

119

00:05:35,790 --> 00:05:33,160

publishing some you know more UFO

120

00:05:38,339 --> 00:05:35,800

stories which is I don't know if

121

00:05:40,529 --> 00:05:38,349

previously they did too much with that I

122

00:05:43,010 --> 00:05:40,539

know they showed an article from 19 I

123

00:05:45,870 --> 00:05:43,020

don't know any they published something

124

00:05:48,060 --> 00:05:45,880

yeah not a whole lot and often what they

125

00:05:51,510 --> 00:05:48,070

would do would be tongue-in-cheek type

126

00:05:54,870 --> 00:05:51,520

of stuff so certainly this year has been

127

00:05:57,570 --> 00:05:54,880

great for New York Times articles coming

128

00:05:59,339 --> 00:05:57,580

out with very credible information you

129

00:06:01,200 --> 00:05:59,349

know a lot of people like our listeners

130

00:06:04,290 --> 00:06:01,210

who are really into the credible type of

131

00:06:07,620 --> 00:06:04,300

stuff may cringe at stories like we see

132

00:06:09,210 --> 00:06:07,630

today but I think what's important and I

133

00:06:11,580 --> 00:06:09,220

know this is something you know Jam

134

00:06:13,860 --> 00:06:11,590

struggles with daily is that you know

135

00:06:16,500 --> 00:06:13,870

this whole phenomena is created kind of

136

00:06:20,399 --> 00:06:16,510

a culture so it's a cultural thing as

137

00:06:22,200 --> 00:06:20,409

well and how people react to these

138

00:06:25,370 --> 00:06:22,210

different possibilities is another

139

00:06:28,140 --> 00:06:25,380

aspect of this whole phenomenon in fact

140

00:06:30,540 --> 00:06:28,150

Jacques Vallee used to speak to it and

141

00:06:32,219 --> 00:06:30,550

he used to argue that if the government

142

00:06:34,710 --> 00:06:32,229

doesn't really share with us what's

143

00:06:37,820 --> 00:06:34,720

going on then people will be left to

144

00:06:40,499 --> 00:06:37,830

speculate and that just you know

145

00:06:43,080 --> 00:06:40,509

perpetuates this culture of people

146

00:06:45,240 --> 00:06:43,090

creating these cults or different kind

147

00:06:47,939 --> 00:06:45,250

of groups around you know this

148

00:06:49,499 --> 00:06:47,949

speculation and he argued that's one of

149

00:06:53,460 --> 00:06:49,509

the reasons that the government should

150

00:06:56,790 --> 00:06:53,470

be leading kind of research and and

151
00:06:58,589 --> 00:06:56,800
giving the public something to to hold

152
00:07:02,180 --> 00:06:58,599
on to something to grasp when it comes

153
00:07:04,440 --> 00:07:02,190
to this topic but Jack's arguments

154
00:07:06,170 --> 00:07:04,450
unfortunately have fallen on deaf ears

155
00:07:09,480 --> 00:07:06,180
ears that thus

156
00:07:12,180 --> 00:07:09,490
but you know I think he's 100% right

157
00:07:16,140 --> 00:07:12,190
that when you you don't have anything

158
00:07:18,480 --> 00:07:16,150
official really coming out then you just

159
00:07:20,820 --> 00:07:18,490
have a lot of people it leaves a lot of

160
00:07:22,470 --> 00:07:20,830
room for speculation and I would note

161
00:07:24,720 --> 00:07:22,480
that you know we kind of talked about

162
00:07:28,640 --> 00:07:24,730
this a bit last time when we talked

163
00:07:32,550 --> 00:07:28,650

about this new project to examine

164

00:07:35,010 --> 00:07:32,560

artifacts or material from UFOs that the

165

00:07:38,850 --> 00:07:35,020

to the Stars group has started up but

166

00:07:41,130 --> 00:07:38,860

there's really no even it came to

167

00:07:45,090 --> 00:07:41,140

elizondo's group there was no public

168

00:07:47,070 --> 00:07:45,100

interface piece to that at all even now

169

00:07:48,750 --> 00:07:47,080

we just have Elizondo sharing with us

170

00:07:51,360 --> 00:07:48,760

and then leaked documents at people like

171

00:07:52,710 --> 00:07:51,370

George Knapp have been able to obtain or

172

00:07:55,140 --> 00:07:52,720

the New York Times have been able to

173

00:08:00,150 --> 00:07:55,150

obtain but there hasn't been any sort of

174

00:08:01,860 --> 00:08:00,160

public aspect to that program so we'll

175

00:08:04,350 --> 00:08:01,870

see what happens in the future in fact

176

00:08:06,150 --> 00:08:04,360

we're still kind of in this limbo where

177

00:08:08,820 --> 00:08:06,160

the Department of Defense hasn't even

178

00:08:10,470 --> 00:08:08,830

really they've acknowledged the

179

00:08:12,090 --> 00:08:10,480

existence of the program or at least the

180

00:08:14,310 --> 00:08:12,100

funding for the program but they haven't

181

00:08:16,230 --> 00:08:14,320

spoken to it beyond that nor have they

182

00:08:19,200 --> 00:08:16,240

released any official documents in fact

183

00:08:21,290 --> 00:08:19,210

they've even denied at one point that

184

00:08:25,470 --> 00:08:21,300

the videos were really from the DoD

185

00:08:27,390 --> 00:08:25,480

which I believe they are so yeah the

186

00:08:29,790 --> 00:08:27,400

public interaction I mean it's been the

187

00:08:35,100 --> 00:08:29,800

difficult part when it comes to to all

188

00:08:37,110 --> 00:08:35,110

of this and well so long the lines of

189

00:08:37,620 --> 00:08:37,120

your point there pardon me for the

190

00:08:41,700 --> 00:08:37,630

interruption

191

00:08:44,820 --> 00:08:41,710

is that no Grum I've had people on the

192

00:08:47,520 --> 00:08:44,830

show that say what a wonderful thing if

193

00:08:50,550 --> 00:08:47,530

the government does not want you know

194

00:08:53,190 --> 00:08:50,560

the word out there how people go you

195

00:08:56,730 --> 00:08:53,200

know real fringe on the topic and and

196

00:08:58,860 --> 00:08:56,740

you know muddy the water and so no one

197

00:09:01,110 --> 00:08:58,870

knows what to believe and and that's a

198

00:09:03,510 --> 00:09:01,120

gift you know if the government is truly

199

00:09:07,470 --> 00:09:03,520

trying to hide you know things are

200

00:09:12,690 --> 00:09:07,480

they're trying to you know just keep it

201
00:09:15,000 --> 00:09:12,700
as secret as possible I mean if they

202
00:09:17,820 --> 00:09:15,010
know any true yeah yeah that would a

203
00:09:19,980 --> 00:09:17,830
method that could be used and I think

204
00:09:21,570 --> 00:09:19,990
would make a lot of sense I think

205
00:09:23,040 --> 00:09:21,580
certainly Nick Pope has spoke to that

206
00:09:24,690 --> 00:09:23,050
when he talked to the UK and how they

207
00:09:26,070 --> 00:09:24,700
dealt with things that really they

208
00:09:27,780 --> 00:09:26,080
didn't really have to do much because

209
00:09:30,120 --> 00:09:27,790
the public does work for them they

210
00:09:32,220 --> 00:09:30,130
muddied the waters and and speculated

211
00:09:35,820 --> 00:09:32,230
enough where you know it wasn't taking

212
00:09:38,570 --> 00:09:35,830
seriously enough and even though the UK

213
00:09:42,139 --> 00:09:38,580

would make fun of the topic in order to

214

00:09:45,030 --> 00:09:42,149

kind of throw people off the scent that

215

00:09:48,269 --> 00:09:45,040

right that that sort of thing just just

216

00:09:51,090 --> 00:09:48,279

helped them but it's also you know I

217

00:09:53,160 --> 00:09:51,100

think at least for me over the years as

218

00:09:54,480 --> 00:09:53,170

researchers you just kind of kind of

219

00:09:56,190 --> 00:09:54,490

make peace with this it's just how

220

00:09:59,430 --> 00:09:56,200

people in the public deal with things

221

00:10:02,699 --> 00:09:59,440

differently and we need to just embrace

222

00:10:04,920 --> 00:10:02,709

that not get too frustrated but with it

223

00:10:07,290 --> 00:10:04,930

and then try to you know move on

224

00:10:09,090 --> 00:10:07,300

professionally and try to like what we

225

00:10:12,540 --> 00:10:09,100

attempt to do provide information the

226

00:10:14,370 --> 00:10:12,550

best information possible now you want

227

00:10:16,740 --> 00:10:14,380

to tell the we have about four minutes

228

00:10:18,060 --> 00:10:16,750

left here so knowing all the listeners

229

00:10:22,290 --> 00:10:18,070

what you're planning on doing your

230

00:10:25,139 --> 00:10:22,300

YouTube your show on Thursday yeah so I

231

00:10:27,420 --> 00:10:25,149

have a new YouTube live kind of like

232

00:10:30,870 --> 00:10:27,430

this right we're on YouTube live show

233

00:10:33,240 --> 00:10:30,880

that I'm doing on Thursdays at 6:00 p.m.

234

00:10:34,829 --> 00:10:33,250

Arizona time which is currently aligned

235

00:10:37,769 --> 00:10:34,839

with specific because era doesn't

236

00:10:40,650 --> 00:10:37,779

Arizona doesn't change time so 6 p.m. on

237

00:10:42,720 --> 00:10:40,660

our open minds YouTube page you'll be

238

00:10:44,790 --> 00:10:42,730

able to see me live kind of talking

239

00:10:47,310 --> 00:10:44,800

about the news for the week what open

240

00:10:49,319 --> 00:10:47,320

minds is up for up to for the week what

241

00:10:52,079 --> 00:10:49,329

I've been writing about for the week and

242

00:10:53,910 --> 00:10:52,089

it's called UFO seriously because you

243

00:10:55,949 --> 00:10:53,920

know now we're in I think this new world

244

00:10:58,829 --> 00:10:55,959

where people are taking the topic more

245

00:11:01,170 --> 00:10:58,839

seriously I want to kind of be a place

246

00:11:03,600 --> 00:11:01,180

where I'm providing more serious

247

00:11:05,730 --> 00:11:03,610

credible information and not to say that

248

00:11:09,389 --> 00:11:05,740

I'm saying anybody else is wrong I just

249

00:11:11,160 --> 00:11:09,399

want a place where people who you know

250

00:11:14,460 --> 00:11:11,170

maybe are more conservative with how

251
00:11:16,019 --> 00:11:14,470
they obtain their information to be able

252
00:11:19,530 --> 00:11:16,029
to have information that is more

253
00:11:23,150 --> 00:11:19,540
credible and it's also covering topics

254
00:11:26,730 --> 00:11:23,160
that are serious that are related so

255
00:11:29,189 --> 00:11:26,740
astrobiology you know spaceflight all of

256
00:11:31,800 --> 00:11:29,199
these sort of things one of the things I

257
00:11:33,600 --> 00:11:31,810
talked about was the space force it

258
00:11:33,870 --> 00:11:33,610
what's with this new space force is it

259
00:11:36,300 --> 00:11:33,880
real

260
00:11:39,030 --> 00:11:36,310
gonna be for searching for aliens and

261
00:11:41,220 --> 00:11:39,040
and like I wrote in this article it's

262
00:11:42,900 --> 00:11:41,230
more about a conversation that's been

263
00:11:44,760 --> 00:11:42,910

ongoing for decades and how do we

264

00:11:46,950 --> 00:11:44,770

protect our satellites from the Chinese

265

00:11:49,410 --> 00:11:46,960

and Russians who are developing killer

266

00:11:51,600 --> 00:11:49,420

satellite weapons I'm sure we are too

267

00:11:54,150 --> 00:11:51,610

and just kind of getting into spending

268

00:11:56,400 --> 00:11:54,160

the dollars and prioritizing enough in

269

00:11:57,990 --> 00:11:56,410

this arena that's really it's a

270

00:12:00,030 --> 00:11:58,000

conversation that's been going on a long

271

00:12:02,540 --> 00:12:00,040

time so it's not something necessarily

272

00:12:05,370 --> 00:12:02,550

that the president pulled out of nowhere

273

00:12:07,980 --> 00:12:05,380

although his sticking to this term space

274

00:12:11,310 --> 00:12:07,990

force its kind of lends itself to to

275

00:12:12,780 --> 00:12:11,320

more ridicule whereas it's really US Air

276
00:12:15,000 --> 00:12:12,790
Force Space Command which we already

277
00:12:16,710 --> 00:12:15,010
have a department for this but pulling

278
00:12:19,260 --> 00:12:16,720
it out of the Air Force and calling it

279
00:12:21,870 --> 00:12:19,270
just a US Space Command like pence

280
00:12:23,700 --> 00:12:21,880
talked about and and having this kind of

281
00:12:26,700 --> 00:12:23,710
six branch of the government that's in

282
00:12:28,890 --> 00:12:26,710
charge of this so that's the history

283
00:12:31,590 --> 00:12:28,900
behind it it's not necessarily something

284
00:12:33,030 --> 00:12:31,600
new although people felt you know since

285
00:12:35,550 --> 00:12:33,040
the Pentagon had just announced

286
00:12:38,820 --> 00:12:35,560
something in December that the timing

287
00:12:40,710 --> 00:12:38,830
was coincidental but Louise Elizondo I

288
00:12:42,840 --> 00:12:40,720

think he shared this and move on and I'd

289

00:12:44,340 --> 00:12:42,850

certainly have shared with me in private

290

00:12:47,400 --> 00:12:44,350

conversation and with others like on

291

00:12:49,590 --> 00:12:47,410

coast-to-coast he does not feel you know

292

00:12:51,720 --> 00:12:49,600

that the government has taken this topic

293

00:12:54,480 --> 00:12:51,730

seriously enough that's his goal that's

294

00:12:56,490 --> 00:12:54,490

what he's trying to seek for the

295

00:12:58,950 --> 00:12:56,500

government and and mainstream science

296

00:13:00,660 --> 00:12:58,960

and media to do and from what I

297

00:13:04,740 --> 00:13:00,670

understand they're making some great

298

00:13:07,830 --> 00:13:04,750

progress behind the scenes in that area

299

00:13:10,170 --> 00:13:07,840

but certainly and who knows maybe we'll

300

00:13:12,270 --> 00:13:10,180

see some lime item in a budget somewhere

301
00:13:15,060 --> 00:13:12,280
for a space force or defense which just

302
00:13:17,190 --> 00:13:15,070
got approved I think today that does

303
00:13:18,840 --> 00:13:17,200
take this topic more seriously but

304
00:13:21,930 --> 00:13:18,850
that's something they're currently

305
00:13:24,360 --> 00:13:21,940
working on just in the last few months

306
00:13:27,480 --> 00:13:24,370
and weeks here you know when it comes to

307
00:13:28,860 --> 00:13:27,490
like a space force and you know the

308
00:13:30,750 --> 00:13:28,870
possible

309
00:13:32,970 --> 00:13:30,760
like you said killer satellite and it

310
00:13:35,310 --> 00:13:32,980
starts to make me think well you know we

311
00:13:39,270 --> 00:13:35,320
get enough nukes to blow ourselves up I

312
00:13:41,250 --> 00:13:39,280
forget how many times many times and but

313
00:13:43,650 --> 00:13:41,260

the first the first country that would

314

00:13:45,990 --> 00:13:43,660

get say a killer satellite up there that

315

00:13:47,369 --> 00:13:46,000

could knock out other satellites and our

316

00:13:48,900 --> 00:13:47,379

defense system

317

00:13:50,549 --> 00:13:48,910

you know I mean it's just you know how

318

00:13:52,409 --> 00:13:50,559

what are we just gonna keep building and

319

00:13:54,869 --> 00:13:52,419

building and how many different ways we

320

00:13:56,429 --> 00:13:54,879

can kill each other you know yeah I mean

321

00:13:58,169 --> 00:13:56,439

it's very possible there are killer

322

00:14:00,659 --> 00:13:58,179

satellites out there already probably

323

00:14:03,089 --> 00:14:00,669

our top-secret projects to do that for

324

00:14:04,949 --> 00:14:03,099

instance the Air Force Space Command has

325

00:14:06,869 --> 00:14:04,959

a secret space plane they've been flying

326

00:14:10,949 --> 00:14:06,879

up there for a long period of time in

327

00:14:14,669 --> 00:14:10,959

fact shuttle yeah and it's been up there

328

00:14:17,460 --> 00:14:14,679

for it's been in and been able to be in

329

00:14:19,679 --> 00:14:17,470

space for like a year so we don't know

330

00:14:22,679 --> 00:14:19,689

what's on that thing there's other

331

00:14:25,949 --> 00:14:22,689

defense projects technically we have a

332

00:14:27,479 --> 00:14:25,959

treaty where no no government is

333

00:14:29,879 --> 00:14:27,489

supposed to have any weapons in space

334

00:14:32,189 --> 00:14:29,889

but these space treaties are not

335

00:14:35,089 --> 00:14:32,199

something really many governments take

336

00:14:37,529 --> 00:14:35,099

too seriously for better or worse and

337

00:14:39,839 --> 00:14:37,539

the the weapons they've been building

338

00:14:42,029 --> 00:14:39,849

are actually missiles now it's Star Wars

339

00:14:44,339 --> 00:14:42,039

during the Reagan era was something that

340

00:14:45,929 --> 00:14:44,349

they were developing to actually defend

341

00:14:48,749 --> 00:14:45,939

against missiles but it was a

342

00:14:50,729 --> 00:14:48,759

space-based laser that they were trying

343

00:14:52,559 --> 00:14:50,739

to build back then or I get at least get

344

00:14:54,179 --> 00:14:52,569

funding for it right who knows they

345

00:14:56,399 --> 00:14:54,189

print they might have built prototypes

346

00:14:58,590 --> 00:14:56,409

or maybe even working devices that are

347

00:15:00,929 --> 00:14:58,600

up there but that's kind of the

348

00:15:05,009 --> 00:15:00,939

conversation there yeah there's so much

349

00:15:08,429 --> 00:15:05,019

we won't know and don't know which is so

350

00:15:10,529 --> 00:15:08,439

who knows speculation that Oh which

351
00:15:12,479 --> 00:15:10,539
reminds me in UFO news just real quick

352
00:15:14,669 --> 00:15:12,489
History Channel in the ramped up for

353
00:15:17,519 --> 00:15:14,679
Project Blue Book has been writing some

354
00:15:19,739 --> 00:15:17,529
more stories about UFO cases great ones

355
00:15:22,590 --> 00:15:19,749
credible ones lévesque lights they wrote

356
00:15:24,629 --> 00:15:22,600
about but they also wrote about these

357
00:15:27,659 --> 00:15:24,639
UFO FILES at the Air Force destroyed

358
00:15:29,819 --> 00:15:27,669
regarding an interesting case from 1948

359
00:15:31,829 --> 00:15:29,829
so they've got some great stories that

360
00:15:34,079 --> 00:15:31,839
they're posting there and if you look at

361
00:15:35,999 --> 00:15:34,089
Project Blue Book History Channel you'll

362
00:15:39,119 --> 00:15:36,009
find where they're posting all those

363
00:15:41,099 --> 00:15:39,129

stories excellent ok alejandro thanks so

364

00:15:42,389 --> 00:15:41,109

much and all right thank you

365

00:15:45,149 --> 00:15:42,399

they'll be looking for your show on

366

370

00:16:00,930 --> 00:15:58,199

p.m. Pacific oh sorry

371

00:16:03,210 --> 00:16:00,940

ok all right thanks a lot

372

00:16:05,580 --> 00:16:03,220

all right thank you guys later yeah all

373

00:16:08,100 --> 00:16:05,590

right all right everyone so our guests

374

00:16:10,980 --> 00:16:08,110

we've had him on I think he was on I

375

00:16:13,920 --> 00:16:10,990

possibly like a year year and a half ago

376

00:16:17,130 --> 00:16:13,930

I believe Jan Harrison from he's a

377

00:16:20,790 --> 00:16:17,140

executive director from MUFON and he has

378

00:16:22,680 --> 00:16:20,800

been in that position since 2013 he's

379

00:16:27,600 --> 00:16:22,690

done a lot of really good things with

380

00:16:30,120 --> 00:16:27,610

MUFON he was with IBM and the sales and

381

00:16:32,550 --> 00:16:30,130

marketing for 37 years ahead of that

382

00:16:34,860 --> 00:16:32,560

he's had an interest since the age of 8

383

00:16:38,150 --> 00:16:34,870

I do want to talk about his and I did

384

00:16:40,620 --> 00:16:38,160

last time but I love to hear about his

385

00:16:43,850 --> 00:16:40,630

UFO sighting ahead with his brother when

386

00:16:46,620 --> 00:16:43,860

he was very young and the whole

387

00:16:48,570 --> 00:16:46,630

mysterious circumstance around that

388

00:16:50,790 --> 00:16:48,580

can't take gravity and all that we'll

389

00:16:53,430 --> 00:16:50,800

talk about that so Jan welcome to the

390

00:16:56,880 --> 00:16:53,440

show oh good to be here thank you Willis

391

00:17:00,060 --> 00:16:56,890

yeah Martin yep yeah I was good to see

392

00:17:02,610 --> 00:17:00,070

you in and down at Cherry Hill in New

393

00:17:04,380 --> 00:17:02,620

Jersey at the the conference I do want

394

00:17:05,670 --> 00:17:04,390

to talk about that because that was that

395

00:17:09,750 --> 00:17:05,680

was really good I really enjoyed that

396

00:17:14,310 --> 00:17:09,760

and it's unfortunate that I was that

397

00:17:16,320 --> 00:17:14,320

Louis Elizondo had to leave it was

398

00:17:17,820 --> 00:17:16,330

really too bad but it was good he was

399

00:17:20,700 --> 00:17:17,830

there when he was there it was really

400

00:17:22,230 --> 00:17:20,710

interesting yeah yeah Louis did a great

401
00:17:25,290 --> 00:17:22,240
job I think it people really enjoyed

402
00:17:27,390 --> 00:17:25,300
hearing him and hearing his talk about

403
00:17:29,100 --> 00:17:27,400
the program that he ran while he was in

404
00:17:31,770 --> 00:17:29,110
the Pentagon got a lot of positive

405
00:17:33,960 --> 00:17:31,780
feedback from that right right and I

406
00:17:38,360 --> 00:17:33,970
noticed I noticed something that you

407
00:17:41,370 --> 00:17:38,370
were really keeping guard on him

408
00:17:43,320 --> 00:17:41,380
personally yeah yeah when I when I was

409
00:17:44,910 --> 00:17:43,330
speaking to him in the I think when I

410
00:17:46,890 --> 00:17:44,920
speaking to him in the lobby for a while

411
00:17:47,640 --> 00:17:46,900
you said isn't it time for your nap or

412
00:17:49,530 --> 00:17:47,650
something like I you were really

413
00:17:51,210 --> 00:17:49,540

watching you were you're his guardian

414

00:17:53,460 --> 00:17:51,220

through the whole thing you know you'll

415

00:17:55,380 --> 00:17:53,470

basically protect him and there are had

416

00:17:56,820 --> 00:17:55,390

those symposiums every once in a while

417

00:18:00,360 --> 00:17:56,830

you get a nut case that might come up

418

00:18:02,010 --> 00:18:00,370

and you know say actually whatever

419

00:18:03,780 --> 00:18:02,020

actually he yeah he actually he took

420

00:18:05,070 --> 00:18:03,790

pretty good well care of himself he was

421

00:18:07,980 --> 00:18:05,080

there with his daughter and her two

422

00:18:09,900 --> 00:18:07,990

friends yeah I I had so many other

423

00:18:11,850 --> 00:18:09,910

things to worry about he he was the

424

00:18:13,350 --> 00:18:11,860

least of my worries frankly though he he

425

00:18:14,880 --> 00:18:13,360

did a good job I think getting to know

426

00:18:16,200 --> 00:18:14,890

people and meeting people

427

00:18:17,910 --> 00:18:16,210

was a great opportunity for people to

428

00:18:19,620 --> 00:18:17,920

come and meet him firsthand and have a

429

00:18:20,550 --> 00:18:19,630

little conversation with him which i

430

00:18:22,560 --> 00:18:20,560

think is what a lot of people really

431

00:18:25,230 --> 00:18:22,570

enjoy doing yeah I was I was telling

432

00:18:26,700 --> 00:18:25,240

this a couple of shows ago that I don't

433

00:18:28,110 --> 00:18:26,710

know how long I talked to him for quite

434

00:18:29,940 --> 00:18:28,120

a while in the lobby and we were talking

435

00:18:31,800 --> 00:18:29,950

about he was talking about things that

436

00:18:33,480 --> 00:18:31,810

he collect and I was talking about my

437

00:18:35,310 --> 00:18:33,490

background and you know as an appraiser

438

00:18:37,950 --> 00:18:35,320

and all that I had a great conversation

439

00:18:41,510 --> 00:18:37,960

and after we say goodbye I realized I

440

00:18:44,730 --> 00:18:41,520

never once mentioned the word UFO to him

441

00:18:46,220 --> 00:18:44,740

at all yeah he's actually just he's a

442

00:18:48,720 --> 00:18:46,230

regular guy you know and he'd actually

443

00:18:51,600 --> 00:18:48,730

made it a point when he was running the

444

00:18:54,870 --> 00:18:51,610

Pentagon's UFO program I called a tip

445

00:18:58,160 --> 00:18:54,880

that he'd made a purposeful decision not

446

00:19:00,930 --> 00:18:58,170

to read anything about UFOs and not to

447

00:19:03,150 --> 00:19:00,940

research UFOs because he wanted to kind

448

00:19:04,680 --> 00:19:03,160

of keep his mind clear for the data that

449

00:19:07,560 --> 00:19:04,690

was coming in from the different points

450

00:19:09,660 --> 00:19:07,570

in the military so I think that's a hats

451
00:19:11,790 --> 00:19:09,670
off to him you know yes I think a lot of

452
00:19:13,110 --> 00:19:11,800
a lot of people you know complain gee

453
00:19:15,390 --> 00:19:13,120
why don't we know more why don't you

454
00:19:16,920 --> 00:19:15,400
tell us more this and that he only knows

455
00:19:18,360 --> 00:19:16,930
what he knows and he only knows what he

456
00:19:19,830 --> 00:19:18,370
knows through the program he was in I

457
00:19:23,070 --> 00:19:19,840
mean that's that's his full some

458
00:19:24,780 --> 00:19:23,080
knowledge which is extensive but I think

459
00:19:26,730 --> 00:19:24,790
a lot of people are thinking gosh you

460
00:19:28,590 --> 00:19:26,740
know show us the really secret stuff but

461
00:19:30,390 --> 00:19:28,600
I don't I don't think for from his

462
00:19:32,190 --> 00:19:30,400
perspective there's all other secret

463
00:19:33,660 --> 00:19:32,200

stuff per se but there certainly will be

464

00:19:36,540 --> 00:19:33,670

more information coming out very shortly

465

00:19:39,120 --> 00:19:36,550

that should be to all of our benefits

466

00:19:41,460 --> 00:19:39,130

frankly you know in your opinion who is

467

00:19:43,950 --> 00:19:41,470

the is the Pentagon actually controlling

468

00:19:46,620 --> 00:19:43,960

that or their people still connected

469

00:19:48,840 --> 00:19:46,630

that he's still connected to that are

470

00:19:52,920 --> 00:19:48,850

controlling that or is it or is it to

471

00:19:54,810 --> 00:19:52,930

the Stars Academy well that's a that's a

472

00:19:57,810 --> 00:19:54,820

very good question I don't believe it's

473

00:19:59,700 --> 00:19:57,820

the Pentagon controlling that based on

474

00:20:02,910 --> 00:19:59,710

the fact that these five gentlemen who

475

00:20:05,250 --> 00:20:02,920

stepped out to become part of tts a how

476

00:20:06,900 --> 00:20:05,260

put off from this you know his earth

477

00:20:08,850 --> 00:20:06,910

tech technologies is one of the top

478

00:20:10,230 --> 00:20:08,860

scientists you've got Chris melon worked

479

00:20:11,670 --> 00:20:10,240

at the very top levels of government

480

00:20:12,960 --> 00:20:11,680

including being assistant secretary of

481

00:20:14,550 --> 00:20:12,970

defense

482

00:20:18,360 --> 00:20:14,560

you've got Stephen Justice who was the

483

00:20:19,500 --> 00:20:18,370

maybe number two three four guy at the

484

00:20:21,630 --> 00:20:19,510

Lockheed skunkworks

485

00:20:25,620 --> 00:20:21,640

he got Lou who ran the feta garden

486

00:20:27,510 --> 00:20:25,630

program you know and then I don't know

487

00:20:28,289 --> 00:20:27,520

Jim semi van but I mean obviously he was

488

00:20:30,359 --> 00:20:28,299

an off

489

00:20:32,999 --> 00:20:30,369

in the CIA but these folks all worked on

490

00:20:35,099 --> 00:20:33,009

programs within their own part of

491

00:20:37,499 --> 00:20:35,109

government that let them know that this

492

00:20:38,879 --> 00:20:37,509

was a real phenomenon that it was you

493

00:20:41,339 --> 00:20:38,889

know definitely something happening

494

00:20:44,669 --> 00:20:41,349

definitely not us and definitely

495

00:20:46,259 --> 00:20:44,679

something that was very advanced and so

496

00:20:48,329 --> 00:20:46,269

collectively they decided to ban

497

00:20:50,099 --> 00:20:48,339

together and try to bring this

498

00:20:52,619 --> 00:20:50,109

information out from our government so

499

00:20:55,129 --> 00:20:52,629

they have just like I worked for IBM for

500

00:20:57,690 --> 00:20:55,139

37 years I have contacts back in IBM

501
00:20:59,039 --> 00:20:57,700
it's becoming fewer and fewer the longer

502
00:21:00,389 --> 00:20:59,049
I'm away because they're all retiring

503
00:21:02,069 --> 00:21:00,399
it's just like I'm sure it's gonna

504
00:21:03,299 --> 00:21:02,079
become fewer and fewer for them but I

505
00:21:05,989 --> 00:21:03,309
think they they're just trying to get

506
00:21:08,579 --> 00:21:05,999
that information out I mean who's told

507
00:21:11,369 --> 00:21:08,589
publicly in the LA in the New York Times

508
00:21:13,409 --> 00:21:11,379
and more recently that you know he was

509
00:21:15,629 --> 00:21:13,419
frustrated because he was seeing this

510
00:21:17,940 --> 00:21:15,639
incredible data which he was trying to

511
00:21:19,589 --> 00:21:17,950
share with his superiors and no one was

512
00:21:21,359 --> 00:21:19,599
listening and so we're we heard that

513
00:21:23,489 --> 00:21:21,369

before I mean that's been the story for

514

00:21:24,989 --> 00:21:23,499

70 years basically where we've been

515

00:21:27,419 --> 00:21:24,999

talking about this trying to share

516

00:21:29,789 --> 00:21:27,429

information on it and it doesn't seem to

517

00:21:32,219 --> 00:21:29,799

be anybody listening it appears now that

518

00:21:34,619 --> 00:21:32,229

they're starting to get the ear of the

519

00:21:36,659 --> 00:21:34,629

folks at least in our elected government

520

00:21:38,009 --> 00:21:36,669

and I think that's the distinction you

521

00:21:39,449 --> 00:21:38,019

know we have an elected government and

522

00:21:41,639 --> 00:21:39,459

then we have a government that kind of

523

00:21:44,190 --> 00:21:41,649

runs itself I call the bureaucrats

524

00:21:48,029 --> 00:21:44,200

who've been there for you know 10 20 30

525

00:21:49,829 --> 00:21:48,039

40 years doing what they do so I think

526

00:21:51,599 --> 00:21:49,839

this is very very positive I mean as far

527

00:21:54,029 --> 00:21:51,609

as I'm concerned disclosure happened on

528

00:21:55,769 --> 00:21:54,039

December 16th I mean this is well this

529

00:21:57,659 --> 00:21:55,779

is as good as it's going to get I mean

530

00:22:00,269 --> 00:21:57,669

we need to take it and we need to run

531

00:22:02,329 --> 00:22:00,279

with it and we need to start continue to

532

00:22:04,349 --> 00:22:02,339

push the boundaries of disclosure

533

00:22:06,930 --> 00:22:04,359

because I think this is just step one

534

00:22:11,069 --> 00:22:06,940

and a much longer disclosure process I

535

00:22:13,499 --> 00:22:11,079

think so I think you know it basically

536

00:22:16,649 --> 00:22:13,509

we had all the information ahead of time

537

00:22:18,749 --> 00:22:16,659

when they had that conference but it was

538

00:22:22,229 --> 00:22:18,759

the New York Times that actually exposed

539

00:22:25,859 --> 00:22:22,239

it and made made it go viral basically

540

00:22:28,499 --> 00:22:25,869

and you know it's kind of a it's kind of

541

00:22:31,379 --> 00:22:28,509

like I remember UFOs before and now I

542

00:22:33,269 --> 00:22:31,389

know them after and right and all these

543

00:22:35,749 --> 00:22:33,279

last week we had a great guest we had

544

00:22:40,829 --> 00:22:35,759

Calvin Parker from the Pascagoula

545

00:22:42,000 --> 00:22:40,839

abduction case and he is getting so much

546

00:22:45,950 --> 00:22:42,010

media

547

00:22:48,060 --> 00:22:45,960

more serious than seriously

548

00:22:50,090 --> 00:22:48,070

exactly and that's what we saw that at

549

00:22:52,860 --> 00:22:50,100

our symposium we had people attending

550

00:22:54,960 --> 00:22:52,870

from all walks of life who have never

551
00:22:57,060 --> 00:22:54,970
ever attended a UFO symposium in their

552
00:22:59,070 --> 00:22:57,070
life they're coming out now they want to

553
00:23:00,659 --> 00:22:59,080
find out what's going on that it's now

554
00:23:03,480 --> 00:23:00,669
safe for them to come and talk about

555
00:23:05,909 --> 00:23:03,490
this subject I had people there who were

556
00:23:08,490 --> 00:23:05,919
policy people from the government I had

557
00:23:12,090 --> 00:23:08,500
to pee boy yeah both local and

558
00:23:13,590 --> 00:23:12,100
international and then also scientists a

559
00:23:15,690 --> 00:23:13,600
lot of scientists showing up and wanting

560
00:23:17,130 --> 00:23:15,700
to sit and meet with these people meet

561
00:23:19,049 --> 00:23:17,140
with Lou meet with the other folks and

562
00:23:21,240 --> 00:23:19,059
talk about the science behind this

563
00:23:23,070 --> 00:23:21,250

because this is really gonna open up a

564

00:23:25,530 --> 00:23:23,080

whole new world for all of us I mean I

565

00:23:27,570 --> 00:23:25,540

don't think people quite realize the

566

00:23:30,539 --> 00:23:27,580

tremendous advances are gonna happen in

567

00:23:32,220 --> 00:23:30,549

the next 10 20 30 years because of our

568

00:23:34,440 --> 00:23:32,230

ability now to open this up for

569

00:23:36,000 --> 00:23:34,450

discussion and make it safe for

570

00:23:38,730 --> 00:23:36,010

scientists around the world and

571

00:23:40,470 --> 00:23:38,740

engineers to work on this problem yeah I

572

00:23:43,650 --> 00:23:40,480

think it's wonderful and now the

573

00:23:45,360 --> 00:23:43,660

question had come up so many times in

574

00:23:47,760 --> 00:23:45,370

this short time I've done the show in

575

00:23:49,680 --> 00:23:47,770

six years like you know what is what is

576

00:23:52,860 --> 00:23:49,690

it going to take to have you know

577

00:23:55,289 --> 00:23:52,870

science and other people take this more

578

00:23:56,820 --> 00:23:55,299

serious and examine it and you know

579

00:23:59,700 --> 00:23:56,830

maybe we maybe we've crossed that

580

00:24:03,900 --> 00:23:59,710

threshold and but when we'll be seeing

581

00:24:07,560 --> 00:24:03,910

some we'll be seeing some you know

582

00:24:09,210 --> 00:24:07,570

forward motion into what I've heard a

583

00:24:11,549 --> 00:24:09,220

number of people and I can't say that I

584

00:24:13,860 --> 00:24:11,559

don't just that I don't agree with it

585

00:24:17,370 --> 00:24:13,870

and that is - one of the most important

586

00:24:21,090 --> 00:24:17,380

things of the you know 21st century or

587

00:24:22,919 --> 00:24:21,100

you know of all time you know like when

588

00:24:26,820 --> 00:24:22,929

there's intelligent life if that's what

589

00:24:29,070 --> 00:24:26,830

it indeed is that we're seeing we still

590

00:24:30,659 --> 00:24:29,080

don't know what we're seeing yeah right

591

00:24:32,370 --> 00:24:30,669

yeah well that's gonna be that's gonna

592

00:24:33,810 --> 00:24:32,380

be the next step in the evolution but

593

00:24:37,650 --> 00:24:33,820

let's just step back for a second and be

594

00:24:39,450 --> 00:24:37,660

because scientists have been focused on

595

00:24:40,950 --> 00:24:39,460

this but they've been very quiet about

596

00:24:43,020 --> 00:24:40,960

it I mean they've been kind of keeping

597

00:24:45,270 --> 00:24:43,030

it in the back room for most of them now

598

00:24:46,530 --> 00:24:45,280

many of them have not been focused on it

599

00:24:47,250 --> 00:24:46,540

because they thought it was a bunch of

600

00:24:49,620 --> 00:24:47,260

nonsense

601
00:24:51,330 --> 00:24:49,630
those folks who have been focused on it

602
00:24:53,130 --> 00:24:51,340
now feel safe to come out in the open

603
00:24:55,260 --> 00:24:53,140
and talk about it amongst their

604
00:24:57,200 --> 00:24:55,270
colleagues and I could talk about a

605
00:24:59,880 --> 00:24:57,210
group of scientists doing that right now

606
00:25:01,470 --> 00:24:59,890
but those who have never been involved

607
00:25:03,810 --> 00:25:01,480
in it are now coming to the realization

608
00:25:05,370 --> 00:25:03,820
this is something very very advanced

609
00:25:07,110 --> 00:25:05,380
this is something that I want to get on

610
00:25:10,110 --> 00:25:07,120
board with I wanna this is the cutting

611
00:25:11,760 --> 00:25:10,120
edge of science so what scientist isn't

612
00:25:14,789 --> 00:25:11,770
going to want to be on the cutting edge

613
00:25:16,680 --> 00:25:14,799

of science right I think yeah exciting

614

00:25:20,280 --> 00:25:16,690

so hold that thought we're gonna go into

615

00:25:23,250 --> 00:25:20,290

break so I'm on with Jan Harrison this

616

00:25:25,470 --> 00:25:23,260

is Martin Willis with podcast UFO on kgr

617

00:25:32,460 --> 00:25:25,480

a radio and stay with us we'll be right

618

00:25:33,720 --> 00:25:32,470

back we're clear Jim very clear and

619

00:25:35,370 --> 00:25:33,730

we've got three and a half minutes in

620

00:25:38,010 --> 00:25:35,380

this break Martin three and a half

621

00:25:39,299 --> 00:25:38,020

minutes I got it okay so Jan we're still

622

00:25:43,200 --> 00:25:39,309

alive

623

00:25:46,470 --> 00:25:43,210

and we're live on YouTube so this is

624

00:25:50,130 --> 00:25:46,480

where we talk about other things besides

625

00:25:52,260 --> 00:25:50,140

the top Corazon we were on basically so

626

00:25:54,480 --> 00:25:52,270

I do want to get into then the next

627

00:25:57,330 --> 00:25:54,490

between the next break I want to get

628

00:26:00,720 --> 00:25:57,340

into your childhood your childhood

629

00:26:03,270 --> 00:26:00,730

sighting but and you lived in was a

630

00:26:03,899 --> 00:26:03,280

Thousand Oaks California correct yeah

631

00:26:05,310 --> 00:26:03,909

Thousand Oaks

632

00:26:08,250 --> 00:26:05,320

yeah you're right are you in that

633

00:26:11,310 --> 00:26:08,260

general area now I'm actually about an

634

00:26:12,919 --> 00:26:11,320

hour hour and 15 20 minutes south there

635

00:26:15,930 --> 00:26:12,929

I'm in Orange County now so that's

636

00:26:18,180 --> 00:26:15,940

Thousand Oaks is north of Los Angeles to

637

00:26:20,520 --> 00:26:18,190

the west in Ventura County you have to

638

00:26:22,590 --> 00:26:20,530

go through Los Angeles County to get to

639

00:26:25,649 --> 00:26:22,600

Orange County and I'm down south I'm

640

00:26:27,930 --> 00:26:25,659

about an hour north of San Diego I'm

641

00:26:29,130 --> 00:26:27,940

about an hour south our headquarters is

642

00:26:30,450 --> 00:26:29,140

about an hour north of San Diego and

643

00:26:32,610 --> 00:26:30,460

about an hour south of downtown Los

644

00:26:35,220 --> 00:26:32,620

Angeles so what's the correlation with

645

00:26:37,289 --> 00:26:35,230

the fires out your way well it's been

646

00:26:37,710 --> 00:26:37,299

pretty exciting out here we had the

647

00:26:40,320 --> 00:26:37,720

other day

648

00:26:43,470 --> 00:26:40,330

the skies were like a dark brown you

649

00:26:44,250 --> 00:26:43,480

know it's but we're used to this I mean

650

00:26:45,840 --> 00:26:44,260

I can remember

651
00:26:48,600 --> 00:26:45,850
fires since I was a kid growing up out

652
00:26:51,060 --> 00:26:48,610
here so it's it's just it's one of the

653
00:26:53,190 --> 00:26:51,070
four seasons you know fire season it's a

654
00:26:54,870 --> 00:26:53,200
little bit early this year it's heavy

655
00:26:57,630 --> 00:26:54,880
early I should say wouldn't you think so

656
00:26:59,790 --> 00:26:57,640
yeah definitely definitely much earlier

657
00:27:04,139 --> 00:26:59,800
that we expected to happen yeah yeah

658
00:27:05,460 --> 00:27:04,149
crazy times yeah I know I when I was out

659
00:27:07,830 --> 00:27:05,470
there for nine years I was in Northern

660
00:27:08,620 --> 00:27:07,840
California and I remember you know like

661
00:27:11,410 --> 00:27:08,630
smelling smoke

662
00:27:13,300 --> 00:27:11,420
constantly you know during the during

663
00:27:17,290 --> 00:27:13,310

one of the fires but never like the

664

00:27:19,290 --> 00:27:17,300

South like South down there and so have

665

00:27:22,180 --> 00:27:19,300

has that ever come close to home for you

666

00:27:24,130 --> 00:27:22,190

well I just remember when I was a kid we

667

00:27:25,510 --> 00:27:24,140

had fires on all four sides of us I was

668

00:27:26,950 --> 00:27:25,520

living at Thousand Oaks we had west lake

669

00:27:29,590 --> 00:27:26,960

& Schley Sherwood on one side and

670

00:27:32,200 --> 00:27:29,600

mountains on the other side and and it

671

00:27:34,570 --> 00:27:32,210

actually turned the sky black so at noon

672

00:27:36,310 --> 00:27:34,580

this guy was completely black and there

673

00:27:38,380 --> 00:27:36,320

was a little orange ball up in the sky

674

00:27:41,350 --> 00:27:38,390

you can see this little tiny it was very

675

00:27:42,940 --> 00:27:41,360

faint but that was the Sun it was it was

676

00:27:43,420 --> 00:27:42,950

the strangest feeling I've ever had in

677

00:27:45,730 --> 00:27:43,430

my life

678

00:27:47,950 --> 00:27:45,740

Wow to be yeah I used to be like almost

679

00:27:49,890 --> 00:27:47,960

like a total eclipse of some sort that's

680

00:27:52,630 --> 00:27:49,900

crazy

681

00:27:55,780 --> 00:27:52,640

yeah scary alright now I was out that

682

00:27:57,910 --> 00:27:55,790

way in the San Diego area I lived it out

683

00:28:04,180 --> 00:27:57,920

there for about eight months or so back

684

00:28:08,650 --> 00:28:04,190

in 70 I want to say 77 and yeah it was

685

00:28:13,270 --> 00:28:08,660

77 I remember like climbing and the

686

00:28:13,780 --> 00:28:13,280

chaparral hills over by la jolla over

687

00:28:16,870 --> 00:28:13,790

that way

688

00:28:18,910 --> 00:28:16,880

I remember looking out toward like la la

689

00:28:22,060 --> 00:28:18,920

out to the ocean and there was so much

690

00:28:25,300 --> 00:28:22,070

smog there the most beautiful sunsets

691

00:28:27,490 --> 00:28:25,310

and that was before the you know the

692

00:28:30,100 --> 00:28:27,500

pollution control boy that was a that

693

00:28:31,750 --> 00:28:30,110

was that was really brutal back then do

694

00:28:34,390 --> 00:28:31,760

you remember like having trouble

695

00:28:35,620 --> 00:28:34,400

breathing and all that back then I I

696

00:28:37,150 --> 00:28:35,630

don't particularly remember having

697

00:28:38,680 --> 00:28:37,160

trouble breathing but I will say this

698

00:28:40,360 --> 00:28:38,690

that with all these fire school and I

699

00:28:43,810 --> 00:28:40,370

currently it has produced a very

700

00:28:45,190 --> 00:28:43,820

spectacular sunsets we're close to the

701
00:28:47,320 --> 00:28:45,200
ocean hackers so we'll go down to the

702
00:28:49,930 --> 00:28:47,330
ocean side and look out over the ocean

703
00:28:51,550 --> 00:28:49,940
and it's it's very very pretty I mean I

704
00:28:53,880 --> 00:28:51,560
so I guess that's one positive sign of

705
00:28:56,950 --> 00:28:53,890
smoke is it makes pretty sunsets or a

706
00:28:58,780 --> 00:28:56,960
race we're about ready to go back on yep

707
00:29:01,300 --> 00:28:58,790
we got 20 seconds okay

708
00:29:02,890 --> 00:29:01,310
all right all right so you basically

709
00:29:04,450 --> 00:29:02,900
remember where we were you were talking

710
00:29:06,550 --> 00:29:04,460
about science the cutting edge of

711
00:29:07,900 --> 00:29:06,560
science yeah I wanted to talk about some

712
00:29:12,490 --> 00:29:07,910
of these scientists if I could just for

713
00:29:18,410 --> 00:29:17,900

all right gentlemen standby all right

714

00:29:24,440 --> 00:29:18,420

here we go

715

00:29:28,280 --> 00:29:24,450

in five four three two all right welcome

716

00:29:30,230 --> 00:29:28,290

back to podcast UFO on kgr a radio my

717

00:29:33,890 --> 00:29:30,240

guests this evening is the executive

718

00:29:35,980 --> 00:29:33,900

director of MUFON Jan Harrison so Jan we

719

00:29:38,720 --> 00:29:35,990

were just talking before the break about

720

00:29:40,610 --> 00:29:38,730

the cutting edge of science and

721

00:29:42,140 --> 00:29:40,620

scientists Oh yep I'd like to see for

722

00:29:44,900 --> 00:29:42,150

you to continue on with that if you

723

00:29:47,720 --> 00:29:44,910

would sure I'd be happy to you know one

724

00:29:50,930 --> 00:29:47,730

of the areas that I I think is gonna be

725

00:29:52,850 --> 00:29:50,940

exciting in the future is the faster

726

00:29:54,290 --> 00:29:52,860

than light travel it's the whole physics

727

00:29:56,510 --> 00:29:54,300

behind how do you get from here to there

728

00:29:58,250 --> 00:29:56,520

I had the opportunity after this was all

729

00:30:01,940 --> 00:29:58,260

announced to have a conversation with

730

00:30:03,440 --> 00:30:01,950

help pull it off and he told me based on

731

00:30:05,300 --> 00:30:03,450

that conversation I'd had with Ben rich

732

00:30:07,220 --> 00:30:05,310

many years ago he told me Jan we now

733

00:30:10,040 --> 00:30:07,230

have figured out the equations we know

734

00:30:12,200 --> 00:30:10,050

how they're doing this and so I said

735

00:30:13,010 --> 00:30:12,210

that's great how are they doing it and

736

00:30:16,070 --> 00:30:13,020

he said well they're manipulating

737

00:30:17,390 --> 00:30:16,080

space-time and we know how the equations

738

00:30:20,180 --> 00:30:17,400

work and now we have to turn it

739

00:30:21,740 --> 00:30:20,190

basically basically engineered if you

740

00:30:23,450 --> 00:30:21,750

will engineer it into being cuz no

741

00:30:25,820 --> 00:30:23,460

understanding the mathematics behind it

742

00:30:27,790 --> 00:30:25,830

it's one thing but building something

743

00:30:30,620 --> 00:30:27,800

out of it is a whole nother level of

744

00:30:33,350 --> 00:30:30,630

complexity so but there's a group of

745

00:30:34,940 --> 00:30:33,360

guys I was I'm blessed to be on their

746

00:30:38,420 --> 00:30:34,950

distribution list it's kind of fun

747

00:30:40,040 --> 00:30:38,430

because there are about I don't 40 or 30

748

00:30:41,420 --> 00:30:40,050

40 or 50 I don't know how many I haven't

749

00:30:43,700 --> 00:30:41,430

even counted all the different email

750

00:30:45,320 --> 00:30:43,710

addresses physicists around the world

751

00:30:49,340 --> 00:30:45,330

that are working on this issue a faster

752

00:30:52,070 --> 00:30:49,350

light travel and James Woodward from Cal

753

00:30:55,370 --> 00:30:52,080

State Fullerton here retired professor

754

00:30:57,020 --> 00:30:55,380

he's been writing books on stargates and

755

00:30:59,090 --> 00:30:57,030

wormholes and how we're gonna get from

756

00:31:01,400 --> 00:30:59,100

here to there he invited me to be part

757

00:31:03,260 --> 00:31:01,410

of it and these guys meet every year up

758

00:31:04,340 --> 00:31:03,270

in Estes Park Colorado or at least they

759

00:31:07,760 --> 00:31:04,350

did last year and they'll do it again

760

00:31:10,640 --> 00:31:07,770

this year at a conference called it's an

761

00:31:12,500 --> 00:31:10,650

advanced propulsion workshop and they

762

00:31:14,390 --> 00:31:12,510

meet there and they present papers to

763

00:31:14,960 --> 00:31:14,400

each other on their ideas on how to make

764

00:31:18,110 --> 00:31:14,970

this happen

765

00:31:20,480 --> 00:31:18,120

and I was like I said I was blessed to

766

00:31:21,770 --> 00:31:20,490

be invited to come sit in as a fly on

767

00:31:23,900 --> 00:31:21,780

the wall now I wish I could have

768

00:31:25,130 --> 00:31:23,910

understood a fraction of the mathematics

769

00:31:26,180 --> 00:31:25,140

that they were throwing around them a

770

00:31:28,370 --> 00:31:26,190

joke but I

771

00:31:30,670 --> 00:31:28,380

my my my mathematics is pretty rusty

772

00:31:32,990 --> 00:31:30,680

after 40 years being out of college but

773

00:31:35,600 --> 00:31:33,000

but the thing is that these guys are all

774

00:31:38,480 --> 00:31:35,610

trying to figure out how to get us to

775

00:31:40,010 --> 00:31:38,490

the stars and I think it's exciting and

776

00:31:41,360 --> 00:31:40,020

I think we're gonna do it here in the

777

00:31:43,490 --> 00:31:41,370

next 20-30 years now

778

00:31:44,750 --> 00:31:43,500

whether we've done it officially in the

779

00:31:46,280 --> 00:31:44,760

black or not I don't know that we'll

780

00:31:47,480 --> 00:31:46,290

ever know that I don't think there's

781

00:31:49,900 --> 00:31:47,490

anyone ever gonna come out and say guess

782

00:31:53,000 --> 00:31:49,910

what we had interstellar travel back in

783

00:31:54,740 --> 00:31:53,010

1977 or whatever but I think what they

784

00:31:57,140 --> 00:31:54,750

can do is reinvent it in the white world

785

00:31:59,120 --> 00:31:57,150

and I think that's what as I look at

786

00:32:00,290 --> 00:31:59,130

this TSA organization and the fact

787

00:32:02,990 --> 00:32:00,300

they've got Stephen justice from

788

00:32:05,300 --> 00:32:03,000

Lockheed skunk works and how put off as

789

00:32:06,920 --> 00:32:05,310

a chief scientist it appears to me

790

00:32:09,410 --> 00:32:06,930

they're trying to actually do this

791

00:32:10,850 --> 00:32:09,420

themselves there'll be plenty of other

792

00:32:12,380 --> 00:32:10,860

people doing it and if there haven't

793

00:32:15,050 --> 00:32:12,390

already been some of our aerospace

794

00:32:17,000 --> 00:32:15,060

companies who've accomplished it so for

795

00:32:19,190 --> 00:32:17,010

us the excitement is having scientists

796

00:32:20,960 --> 00:32:19,200

involved in it but more importantly for

797

00:32:23,240 --> 00:32:20,970

us to be able to travel out amongst the

798

00:32:24,380 --> 00:32:23,250

stars as a civilization and I think

799

00:32:26,150 --> 00:32:24,390

that's really exciting because you have

800

00:32:28,940 --> 00:32:26,160

to realize one thing once we get out

801
00:32:30,830 --> 00:32:28,950
there once we're circling above a planet

802
00:32:33,290 --> 00:32:30,840
in a solar system and another galaxies

803
00:32:36,440 --> 00:32:33,300
far far away and we look down and we see

804
00:32:38,690 --> 00:32:36,450
indigenous life on that planet we now

805
00:32:40,700 --> 00:32:38,700
become the alien yeah we're the UFO and

806
00:32:43,070 --> 00:32:40,710
I think that's something right yeah

807
00:32:44,360 --> 00:32:43,080
we're the UFO we're the aliens and so I

808
00:32:45,980 --> 00:32:44,370
think that's really gonna put it in

809
00:32:48,110 --> 00:32:45,990
perspective for everybody what's going

810
00:32:49,940 --> 00:32:48,120
on right now here on earth wow that's

811
00:32:51,920 --> 00:32:49,950
amazing now when you spoke to Ben rich

812
00:32:53,750 --> 00:32:51,930
you know he has the famous saying that

813
00:32:55,670 --> 00:32:53,760

he can take e.t home or I believe

814

00:32:58,400 --> 00:32:55,680

something like that we already have the

815

00:33:00,650 --> 00:32:58,410

technology to take e.t home was you know

816

00:33:05,210 --> 00:33:00,660

I may be miss boarding but yeah I was go

817

00:33:07,370 --> 00:33:05,220

ahead yeah we now have the technical a

818

00:33:09,170 --> 00:33:07,380

alumni function I'm a graduate of UCLA

819

00:33:13,210 --> 00:33:09,180

School of Engineering and Ben rich was -

820

00:33:15,680 --> 00:33:13,220

and I got a notification back in the 93

821

00:33:17,360 --> 00:33:15,690

that he would be speaking on I think was

822

00:33:19,280 --> 00:33:17,370

March 23rd 1993

823

00:33:22,340 --> 00:33:19,290

today all night so I went to this event

824

00:33:24,920 --> 00:33:22,350

and he did a beautiful 40 slide set of

825

00:33:26,690 --> 00:33:24,930

his 40 plus years at the Lockheed

826

00:33:30,590 --> 00:33:26,700

skunkworks he had just retired as the

827

00:33:32,360 --> 00:33:30,600

CEO he followed Kelly Johnson as the

828

00:33:35,660 --> 00:33:32,370

number two CEO of Lockheed skunkworks

829

00:33:37,880 --> 00:33:35,670

Kelly Johnson was the CEO who had that

830

00:33:39,830 --> 00:33:37,890

the spy plane I'm sorry the u-2 spy

831

00:33:42,169 --> 00:33:39,840

plane and then also

832

00:33:45,080 --> 00:33:42,179

Ben rich was his young engineer that was

833

00:33:46,730 --> 00:33:45,090

the engineer on the sr-71 and that was

834

00:33:48,769 --> 00:33:46,740

such a successful project that it

835

00:33:51,019 --> 00:33:48,779

catapulted him in line to take over for

836

00:33:52,519 --> 00:33:51,029

Kelly what he'd left so so he now spent

837

00:33:54,049 --> 00:33:52,529

40 years there all these different

838

00:33:56,080 --> 00:33:54,059

development projects and he was

839

00:33:59,120 --> 00:33:56,090

presenting this to the UCLA alumni

840

00:34:01,850 --> 00:33:59,130

engineering Alumni Association about 200

841

00:34:03,260 --> 00:34:01,860

of us in this room Tom Keller was there

842

00:34:06,080 --> 00:34:03,270

as a matter of fact - he's a he's also

843

00:34:08,389 --> 00:34:06,090

an alumni of the UCLA School of

844

00:34:10,310 --> 00:34:08,399

Engineering and his last slide that we

845

00:34:13,070 --> 00:34:10,320

started off with the u-2 spy plane and

846

00:34:14,300 --> 00:34:13,080

he had the sr-71 and he had the f-117 he

847

00:34:15,680 --> 00:34:14,310

had a whole bunch of other projects in

848

00:34:17,060 --> 00:34:15,690

between many of them that we hadn't even

849

00:34:20,149 --> 00:34:17,070

heard of because they got killed they

850

00:34:22,790 --> 00:34:20,159

were never implemented but his very last

851

00:34:24,560 --> 00:34:22,800

slide was a black disc zipping off in

852

00:34:26,899 --> 00:34:24,570

outer space and he did it was a slides

853

00:34:29,089 --> 00:34:26,909

that was actually you know Kodachrome

854

00:34:31,159 --> 00:34:29,099

slides right yeah zipping off in outer

855

00:34:34,099 --> 00:34:31,169

space and he ended the talk by saying we

856

00:34:36,770 --> 00:34:34,109

now have the technology to take e.t home

857

00:34:37,909 --> 00:34:36,780

and the whole room busted up laughing

858

00:34:40,399 --> 00:34:37,919

all the engineers thought he was

859

00:34:41,720 --> 00:34:40,409

cracking a joke and Tom and I just

860

00:34:44,329 --> 00:34:41,730

looked at each other like did he just

861

00:34:46,159 --> 00:34:44,339

say that we couldn't believe it right so

862

00:34:49,040 --> 00:34:46,169

we had air when he said that that's yeah

863

00:34:52,099 --> 00:34:49,050

the famous quote Wow yep I think it came

864

00:34:55,550 --> 00:34:52,109

from me so I actually came from Ben but

865

00:34:58,400 --> 00:34:55,560

I heard it so we had to talk to him

866

00:35:04,040 --> 00:34:58,410

after the session and he he shared some

867

00:35:05,780 --> 00:35:04,050

things basically that we you know we

868

00:35:07,190 --> 00:35:05,790

have the ability to travel to the stars

869

00:35:09,140 --> 00:35:07,200

and it won't take us our lifetime to do

870

00:35:11,510 --> 00:35:09,150

it that was one of his things and the

871

00:35:13,940 --> 00:35:11,520

fact is that how does it work Ben well

872

00:35:16,339 --> 00:35:13,950

it works because we've found the air in

873

00:35:17,540 --> 00:35:16,349

the equations now he would never answer

874

00:35:19,520 --> 00:35:17,550

the question because I did ask him

875

00:35:20,750 --> 00:35:19,530

directly hey Ben one of the one of the

876

00:35:22,160 --> 00:35:20,760

equations you're talking about I thought

877

00:35:24,670 --> 00:35:22,170

he was either talking about Maxwell's

878

00:35:26,450 --> 00:35:24,680

equations of electromagnetic theory or

879

00:35:29,240 --> 00:35:26,460

Einstein's general theory of relativity

880

00:35:31,190 --> 00:35:29,250

or some combination of the two he didn't

881

00:35:33,440 --> 00:35:31,200

ever answered the question but whatever

882

00:35:35,780 --> 00:35:33,450

the equations are and I Hal did share

883

00:35:38,180 --> 00:35:35,790

with me that it's part of Einstein's

884

00:35:39,980 --> 00:35:38,190

general theory of relativity which is

885

00:35:42,109 --> 00:35:39,990

how they're getting here they're able to

886

00:35:43,820 --> 00:35:42,119

just tweak space-time just a little bit

887

00:35:47,329 --> 00:35:43,830

which open makes it opening for them to

888

00:35:51,560 --> 00:35:47,339

come through to our our place in space

889

00:35:52,940 --> 00:35:51,570

and time let's just say so then the

890

00:35:53,390 --> 00:35:52,950

other thing as he was walking out I had

891

00:36:03,680 --> 00:35:53,400

a

892

00:36:06,380 --> 00:36:03,690

this engine work how does it gets us out

893

00:36:08,030 --> 00:36:06,390

to the stars or something to that effect

894

00:36:08,900 --> 00:36:08,040

and he spun around and he looked at me

895

00:36:13,640 --> 00:36:08,910

and he said well let me ask you a

896

00:36:15,050 --> 00:36:13,650

question how does ESP work and I was

897

00:36:16,850 --> 00:36:15,060

gonna take him back because I didn't

898

00:36:19,310 --> 00:36:16,860

know why he would ask me that question

899

00:36:20,750 --> 00:36:19,320

so I just blurted it out the first thing

900

00:36:22,130 --> 00:36:20,760

that came into my mind I said I don't

901
00:36:24,140 --> 00:36:22,140
know all points in space and time were

902
00:36:25,280 --> 00:36:24,150
connected he said that's how it works

903
00:36:28,190 --> 00:36:25,290
that he turned around and walked down

904
00:36:30,470 --> 00:36:28,200
the room so I don't I don't you know I

905
00:36:31,970 --> 00:36:30,480
don't I think we talked about you know

906
00:36:34,940 --> 00:36:31,980
people are now moving in the UFO field

907
00:36:38,330 --> 00:36:34,950
into consciousness and how does how does

908
00:36:40,280 --> 00:36:38,340
all this stuff work it may all be

909
00:36:43,220 --> 00:36:40,290
interrelated to itself you know and

910
00:36:45,200 --> 00:36:43,230
here's how we figure out how does

911
00:36:48,650 --> 00:36:45,210
reality come into being reality how do

912
00:36:51,290 --> 00:36:48,660
we how do we manipulate or how do we

913
00:36:52,370 --> 00:36:51,300

interact with reality as human beings

914

00:36:55,400 --> 00:36:52,380

you know and how does our how do our

915

00:36:59,420 --> 00:36:55,410

minds work exactly this this may be a

916

00:37:00,710 --> 00:36:59,430

much bigger find for us than just some

917

00:37:02,300 --> 00:37:00,720

structured craft that's able to go

918

00:37:05,180 --> 00:37:02,310

interstellar you know I mean this might

919

00:37:06,890 --> 00:37:05,190

be a big big opening for all of mankind

920

00:37:13,360 --> 00:37:06,900

in terms of what we're gonna discover

921

00:37:16,310 --> 00:37:13,370

here right in that case you know would

922

00:37:19,310 --> 00:37:16,320

would something need a craft you know I

923

00:37:22,550 --> 00:37:19,320

mean it just seems I know it's kind of a

924

00:37:24,050 --> 00:37:22,560

bizarre thing to say but no maybe maybe

925

00:37:25,960 --> 00:37:24,060

not maybe you don't maybe don't hit it

926

00:37:30,800 --> 00:37:25,970

craft you know I mean if you read oh

927

00:37:34,370 --> 00:37:30,810

gosh the Monroe Institute Robert Monroe

928

00:37:35,930 --> 00:37:34,380

wrote a book I'm not pulling up in my

929

00:37:37,670 --> 00:37:35,940

brain right away but it was basically

930

00:37:40,520 --> 00:37:37,680

about the work that he did at the Monroe

931

00:37:42,500 --> 00:37:40,530

Institute there in Virginia and and he

932

00:37:44,300 --> 00:37:42,510

talked about training the CIA and

933

00:37:46,220 --> 00:37:44,310

different people how to go out of body

934

00:37:47,840 --> 00:37:46,230

and there was how to take their

935

00:37:49,910 --> 00:37:47,850

consciousness and remove it from the

936

00:37:52,160 --> 00:37:49,920

vessel we think of as a body and go out

937

00:37:53,570 --> 00:37:52,170

in space and be able to actually that

938

00:37:55,040 --> 00:37:53,580

the trick is not so much getting out of

939

00:37:57,650 --> 00:37:55,050

your body the trick is really getting

940

00:37:59,180 --> 00:37:57,660

back into your body so he would teach

941

00:38:00,500 --> 00:37:59,190

him how to how to find themselves again

942

00:38:02,650 --> 00:38:00,510

so that they could reconnect their

943

00:38:05,030 --> 00:38:02,660

consciousness with their physical body

944

00:38:06,440 --> 00:38:05,040

but he talked about all sorts of places

945

00:38:07,730 --> 00:38:06,450

that they would visit and things they

946

00:38:11,600 --> 00:38:07,740

would see and

947

00:38:14,330 --> 00:38:11,610

it was pretty fascinating to me reading

948

00:38:16,820 --> 00:38:14,340

that book I'll think of the name of it

949

00:38:18,590 --> 00:38:16,830

I'll tell you later but it's it's it's

950

00:38:21,680 --> 00:38:18,600

it but it goes right to your point which

951
00:38:24,770 --> 00:38:21,690
is do you need a physical craft to do

952
00:38:26,330 --> 00:38:24,780
this and perhaps not I mean I I don't I

953
00:38:30,140 --> 00:38:26,340
don't know but I mean I perhaps not I

954
00:38:34,850 --> 00:38:30,150
think the last I had a show where I

955
00:38:36,380 --> 00:38:34,860
talked about there was some a couple of

956
00:38:38,990 --> 00:38:36,390
sightings that are known that people

957
00:38:41,330 --> 00:38:39,000
think the craft itself is possibly

958
00:38:42,590 --> 00:38:41,340
organic and living have you ever heard

959
00:38:43,640 --> 00:38:42,600
of anything like that I mean that's

960
00:38:47,960 --> 00:38:43,650
bizarre

961
00:38:50,030 --> 00:38:47,970
yes yeah I have I am yeah yeah sometimes

962
00:38:53,450 --> 00:38:50,040
there's this chips are described as like

963
00:38:57,830 --> 00:38:53,460

a stingray like almost a manta ray or a

964

00:38:59,810 --> 00:38:57,840

fish type of thing yes yeah and and and

965

00:39:00,770 --> 00:38:59,820

the material sciences too I mean you

966

00:39:03,950 --> 00:39:00,780

know we're talking about these meta

967

00:39:06,290 --> 00:39:03,960

materials and different things that are

968

00:39:11,240 --> 00:39:06,300

coming up the news more and more you

969

00:39:14,210 --> 00:39:11,250

know our engineering level for material

970

00:39:16,220 --> 00:39:14,220

sciences is pretty advanced but it's

971

00:39:18,620 --> 00:39:16,230

nowhere near as advanced as whoever

972

00:39:20,720 --> 00:39:18,630

these beings are that are bringing these

973

00:39:23,660 --> 00:39:20,730

crafts here because their technology is

974

00:39:25,340 --> 00:39:23,670

completely integrated completely smooth

975

00:39:26,660 --> 00:39:25,350

and I think that's how you tell the

976
00:39:28,280 --> 00:39:26,670
difference between ours have you talked

977
00:39:30,950 --> 00:39:28,290
to Michael shrap between our craft and

978
00:39:32,960 --> 00:39:30,960
their craft is ours look pretty angular

979
00:39:35,210 --> 00:39:32,970
they got you know hard edges in them

980
00:39:37,640 --> 00:39:35,220
theirs are just complete it's almost

981
00:39:40,130 --> 00:39:37,650
like it was it was like grown in a petri

982
00:39:42,920 --> 00:39:40,140
dish you know it's so smooth and elegant

983
00:39:45,140 --> 00:39:42,930
looking yeah yeah I've won at some point

984
00:39:46,850 --> 00:39:45,150
tonight we're gonna talk about MUFON and

985
00:39:48,920 --> 00:39:46,860
the amount of sightings and and all that

986
00:39:50,090 --> 00:39:48,930
and the type of sightings because I

987
00:39:52,310 --> 00:39:50,100
think that's interesting you know

988
00:39:54,380 --> 00:39:52,320

triangle versus you know lights in the

989

00:39:57,020 --> 00:39:54,390

sky versus discs and all that how that's

990

00:40:00,380 --> 00:39:57,030

kind of seems to have changed but let's

991

00:40:03,230 --> 00:40:00,390

let's a rehash the story of you and your

992

00:40:06,230 --> 00:40:03,240

brother or so long ago back in 1965 and

993

00:40:09,590 --> 00:40:06,240

and at that amazing sighting I'd love to

994

00:40:11,840 --> 00:40:09,600

hear that again now sure yeah so you

995

00:40:14,480 --> 00:40:11,850

know back in the 50s and 60s when you

996

00:40:16,340 --> 00:40:14,490

open the newspaper more than likely

997

00:40:17,600 --> 00:40:16,350

you're gonna see a UFO story there and

998

00:40:20,180 --> 00:40:17,610

they didn't call them UFOs they called

999

00:40:21,489 --> 00:40:20,190

flying saucers so this was all over the

1000

00:40:23,589 --> 00:40:21,499

front page

1001
00:40:26,650 --> 00:40:23,599
my father used to get to men's magazines

1002
00:40:28,299 --> 00:40:26,660
true and Argosy and one month I think it

1003
00:40:32,130 --> 00:40:28,309
was a March edition back in the early

1004
00:40:35,859 --> 00:40:32,140
60s they had an article their night cap

1005
00:40:37,870 --> 00:40:35,869
and Donald Kehoe and as a kid about

1006
00:40:40,749 --> 00:40:37,880
seven eight years all the time reading

1007
00:40:42,880 --> 00:40:40,759
this what I was impressed about was here

1008
00:40:45,789 --> 00:40:42,890
was a man who had retired as a major in

1009
00:40:47,739 --> 00:40:45,799
the Marines who was running the at that

1010
00:40:50,140 --> 00:40:47,749
time probably one of the largest UFO

1011
00:40:54,009 --> 00:40:50,150
organizations in the world died cap and

1012
00:40:56,259 --> 00:40:54,019
he was telling the press that these were

1013
00:40:58,959 --> 00:40:56,269

extraterrestrial crafts they were coming

1014

00:41:04,569 --> 00:40:58,969

here from someplace else and that was so

1015

00:41:06,249 --> 00:41:04,579

in opposition to what the news stations

1016

00:41:07,719 --> 00:41:06,259

were reporting because they would report

1017

00:41:09,099 --> 00:41:07,729

these sightings the newspaper would

1018

00:41:11,529 --> 00:41:09,109

report these sightings but they would

1019

00:41:14,229 --> 00:41:11,539

always have some kind of a explanation

1020

00:41:18,099 --> 00:41:14,239

you know well it was probably a balloon

1021

00:41:20,349 --> 00:41:18,109

you know most likely a radar inversion

1022

00:41:22,660 --> 00:41:20,359

or a weather inversion you know causing

1023

00:41:25,209 --> 00:41:22,670

radar blips or whatever and so to have

1024

00:41:27,910 --> 00:41:25,219

this man so honestly speak about this

1025

00:41:30,309 --> 00:41:27,920

the subject was really eye-opening for

1026
00:41:32,620 --> 00:41:30,319
me and so my brother and I got talking

1027
00:41:35,170 --> 00:41:32,630
about this and he was a my brother's

1028
00:41:37,269 --> 00:41:35,180
kind of one of these Tesla types he was

1029
00:41:39,219 --> 00:41:37,279
building crystal radios at the age of

1030
00:41:40,690 --> 00:41:39,229
seven years old and you know fixing the

1031
00:41:42,789 --> 00:41:40,700
neighbors television sets at the age of

1032
00:41:44,229 --> 00:41:42,799
eight years old I don't know how he knew

1033
00:41:46,900 --> 00:41:44,239
that to do this but he was he was very

1034
00:41:48,729 --> 00:41:46,910
smart that way and we got talking about

1035
00:41:50,049 --> 00:41:48,739
it and we decided that each craft must

1036
00:41:53,140 --> 00:41:50,059
be using some kind of electromagnetic

1037
00:41:54,729 --> 00:41:53,150
propulsion system so we said well you

1038
00:41:55,870 --> 00:41:54,739

know and we were playing around with

1039

00:41:57,489 --> 00:41:55,880

electromagnets and doing different

1040

00:41:58,959 --> 00:41:57,499

experiments and things as kids ourselves

1041

00:42:00,819 --> 00:41:58,969

so we said well maybe we could build one

1042

00:42:02,499 --> 00:42:00,829

of these things so we decided what we

1043

00:42:04,299 --> 00:42:02,509

needed to do was build a 30-foot craft

1044

00:42:06,400 --> 00:42:04,309

in our backyard with three pulsed

1045

00:42:08,319 --> 00:42:06,410

electromagnetic engines and maybe we

1046

00:42:10,719 --> 00:42:08,329

could get it to do some of the maneuvers

1047

00:42:13,239 --> 00:42:10,729

these crafts do don't ask me where that

1048

00:42:15,219 --> 00:42:13,249

idea came from I know we came up with so

1049

00:42:17,019 --> 00:42:15,229

so one day my mother was going to the

1050

00:42:18,579 --> 00:42:17,029

store a thrifty drugstore and she's

1051
00:42:19,569 --> 00:42:18,589
invited us to go with her mostly because

1052
00:42:22,209 --> 00:42:19,579
she did want to leave his home to get

1053
00:42:23,529 --> 00:42:22,219
trouble and so we went with her and we

1054
00:42:25,959 --> 00:42:23,539
were in the store waiting for her to

1055
00:42:27,729 --> 00:42:25,969
shopping we were on the magazine rack

1056
00:42:29,079 --> 00:42:27,739
looking at the magazines and on the very

1057
00:42:31,660 --> 00:42:29,089
lower shelf in the very back you know

1058
00:42:33,940 --> 00:42:31,670
the corner was this half-size magazine

1059
00:42:34,690 --> 00:42:33,950
called flying saucer review it was a

1060
00:42:37,000 --> 00:42:34,700
British public

1061
00:42:38,710 --> 00:42:37,010
and was like a dollar so we bought it

1062
00:42:40,690 --> 00:42:38,720
took it took it home with us and we

1063
00:42:43,150 --> 00:42:40,700

started reading it and it said these

1064

00:42:46,270 --> 00:42:43,160

crafts are seen around nuclear power

1065

00:42:49,000 --> 00:42:46,280

plants military installations and places

1066

00:42:50,200 --> 00:42:49,010

where anti-gravity research is done so

1067

00:42:51,670 --> 00:42:50,210

he looked at each other we said well

1068

00:42:53,170 --> 00:42:51,680

we're doing anti-gravity research maybe

1069

00:42:55,150 --> 00:42:53,180

one will come here

1070

00:42:57,280 --> 00:42:55,160

well sure Norfolk within about a month I

1071

00:42:59,950 --> 00:42:57,290

was in my room early on a Saturday

1072

00:43:02,170 --> 00:42:59,960

morning sleeping and my brother came

1073

00:43:03,340 --> 00:43:02,180

into my room I was at one end of the

1074

00:43:07,630 --> 00:43:03,350

house he was at the other end of the

1075

00:43:09,970 --> 00:43:07,640

house and he woke me up what had

1076
00:43:12,190 --> 00:43:09,980
happened was we my parents had four boys

1077
00:43:14,590 --> 00:43:12,200
we were living in a two-bedroom house in

1078
00:43:16,750 --> 00:43:14,600
in Woodland Hills California so they

1079
00:43:19,060 --> 00:43:16,760
built a three bedroom house in Thousand

1080
00:43:20,590 --> 00:43:19,070
Oaks California in 59 because they were

1081
00:43:21,910 --> 00:43:20,600
gonna put two boys in one bedroom two

1082
00:43:23,620 --> 00:43:21,920
boys the other bedroom with bunk beds

1083
00:43:25,300 --> 00:43:23,630
and then they'd have the third bedroom

1084
00:43:26,680 --> 00:43:25,310
well then they had another baby which

1085
00:43:28,300 --> 00:43:26,690
turned out to be a girl so my father had

1086
00:43:30,040 --> 00:43:28,310
to turn the garage basically into a bunk

1087
00:43:31,420 --> 00:43:30,050
room so he could pass all these kids he

1088
00:43:34,150 --> 00:43:31,430

had so I'm out in the garage

1089

00:43:35,860 --> 00:43:34,160

sleeping it was turned into it it was a

1090

00:43:37,960 --> 00:43:35,870

it was a room but it was our former

1091

00:43:38,950 --> 00:43:37,970

garage and he comes out there and he

1092

00:43:40,270 --> 00:43:38,960

says hey there's somebody's trying to

1093

00:43:41,590 --> 00:43:40,280

break into my room and I said what do

1094

00:43:44,680 --> 00:43:41,600

you mean they said well there's somebody

1095

00:43:46,120 --> 00:43:44,690

I can hear jiggling the screen and I

1096

00:43:47,800 --> 00:43:46,130

said well did you look outside to see

1097

00:43:49,270 --> 00:43:47,810

who it was and he said no I didn't look

1098

00:43:51,070 --> 00:43:49,280

out so I said let's go back and take a

1099

00:43:52,330 --> 00:43:51,080

look so we walked into the house walked

1100

00:43:54,370 --> 00:43:52,340

to the back of the house where his room

1101

00:43:56,230 --> 00:43:54,380

was we looked into his room and the

1102

00:43:58,960 --> 00:43:56,240

drapes were drawn and so we didn't see

1103

00:44:00,370 --> 00:43:58,970

anything happening so I said let's go

1104

00:44:02,170 --> 00:44:00,380

out and we'll go out the back yard and

1105

00:44:04,540 --> 00:44:02,180

see now it was 6:30 on a Saturday

1106

00:44:06,820 --> 00:44:04,550

morning in April right before time

1107

00:44:08,530 --> 00:44:06,830

change so the Sun was already up so it

1108

00:44:10,510 --> 00:44:08,540

was very bright outside and we're

1109

00:44:12,880 --> 00:44:10,520

walking down the hallway talking to each

1110

00:44:15,400 --> 00:44:12,890

other I'm looking back at him and all of

1111

00:44:16,840 --> 00:44:15,410

a sudden he says look and I spin around

1112

00:44:18,820 --> 00:44:16,850

look where he's looking he's looking in

1113

00:44:20,320 --> 00:44:18,830

our living room we had a wall of drapes

1114

00:44:22,540 --> 00:44:20,330

which were all white and the Sun was

1115

00:44:25,060 --> 00:44:22,550

coming in from behind him I didn't see

1116

00:44:26,980 --> 00:44:25,070

anything so I said what you see Jeff and

1117

00:44:28,120 --> 00:44:26,990

he said well there was somebody standing

1118

00:44:30,730 --> 00:44:28,130

against the window I could see their

1119

00:44:33,160 --> 00:44:30,740

shadow on the on the window and when I

1120

00:44:34,480 --> 00:44:33,170

told you to look they floated backwards

1121

00:44:35,680 --> 00:44:34,490

and he used those words floated

1122

00:44:37,540 --> 00:44:35,690

backwards and I thought that was really

1123

00:44:40,000 --> 00:44:37,550

weird to describe something like that so

1124

00:44:42,400 --> 00:44:40,010

at this point my I'm thinking well he's

1125

00:44:45,460 --> 00:44:42,410

just trying to you know pull one over on

1126

00:44:46,570 --> 00:44:45,470

me he's trying to pull a fast one we'll

1127

00:44:48,039 --> 00:44:46,580

put this to bed we'll round the back

1128

00:44:50,259 --> 00:44:48,049

yard there'll be nothing there

1129

00:44:52,329 --> 00:44:50,269

I'll be over so I said let's go to out

1130

00:44:54,969 --> 00:44:52,339

the garage again as I walked through the

1131

00:44:56,890 --> 00:44:54,979

kitchen into the garage this the clock

1132

00:44:59,679 --> 00:44:56,900

said 6:30 that's how I know what time it

1133

00:45:02,229 --> 00:44:59,689

was it was 6:30 would indigo aged out

1134

00:45:05,880 --> 00:45:02,239

the back door to the end of the house we

1135

00:45:08,319 --> 00:45:05,890

looked back towards his bedroom and

1136

00:45:09,939 --> 00:45:08,329

there was nothing there and so I'm

1137

00:45:11,349 --> 00:45:09,949

thinking okay this is this is fun you

1138

00:45:13,479 --> 00:45:11,359

know got me up at 6:30 in the morning

1139

00:45:15,099 --> 00:45:13,489

made this big spoof and everything you

1140

00:45:16,630 --> 00:45:15,109

know so I said well there's nothing

1141

00:45:17,799 --> 00:45:16,640

there you know so let's go back in so he

1142

00:45:20,380 --> 00:45:17,809

turned it around and go back into the

1143

00:45:22,089 --> 00:45:20,390

house and as we turned around there 30

1144

00:45:24,579 --> 00:45:22,099

feet from us hovering 10 feet off the

1145

00:45:26,620 --> 00:45:24,589

ground was a landing craft with four

1146

00:45:28,839 --> 00:45:26,630

landing gear on it and I thought oh my

1147

00:45:29,739 --> 00:45:28,849

gosh these things were real I was the

1148

00:45:31,209 --> 00:45:29,749

first thing was through my head oh my

1149

00:45:33,160 --> 00:45:31,219

gosh see things look there it is these

1150

00:45:34,529 --> 00:45:33,170

things are real and then the second

1151
00:45:36,549 --> 00:45:34,539
thought that went through my mind was

1152
00:45:38,079 --> 00:45:36,559
wow this thing looks like it might be

1153
00:45:38,620 --> 00:45:38,089
man-made now why did I think it was

1154
00:45:41,049 --> 00:45:38,630
man-made

1155
00:45:43,419 --> 00:45:41,059
because the craft itself was like a

1156
00:45:45,400 --> 00:45:43,429
brick if you blew it up to eight to ten

1157
00:45:47,679 --> 00:45:45,410
feet long by four feet wide by three

1158
00:45:50,529 --> 00:45:47,689
feet high and completely smooth the

1159
00:45:52,839 --> 00:45:50,539
edges so it was like a tank sink

1160
00:45:54,400 --> 00:45:52,849
completely seamless and then put four

1161
00:45:59,679 --> 00:45:54,410
landing gear on it on the landing gear

1162
00:46:00,910 --> 00:45:59,689
where blue corrugated hose like a dryer

1163
00:46:03,039 --> 00:46:00,920

hose you know it's gonna dryer hose

1164

00:46:04,900 --> 00:46:03,049

where it goes in and out yeah that came

1165

00:46:06,910 --> 00:46:04,910

out from the AL from the craft on both

1166

00:46:09,579 --> 00:46:06,920

sides two on each side and then at the

1167

00:46:11,079 --> 00:46:09,589

bottom was a black suction cup and then

1168

00:46:13,509 --> 00:46:11,089

between the dining area there were these

1169

00:46:14,799 --> 00:46:13,519

cross bars with like a scissoring

1170

00:46:16,809 --> 00:46:14,809

function and in that middle of that

1171

00:46:18,939 --> 00:46:16,819

scissoring function was a bolt and it

1172

00:46:22,150 --> 00:46:18,949

was the bolt that made me think this

1173

00:46:24,400 --> 00:46:22,160

looks like it's man-made yeah but then I

1174

00:46:26,769 --> 00:46:24,410

started studying the craft I thought wow

1175

00:46:28,239 --> 00:46:26,779

like it's not very tall like it's only

1176

00:46:30,189 --> 00:46:28,249

three feet tall how could they get in

1177

00:46:31,599 --> 00:46:30,199

and out of this thing like there they

1178

00:46:33,189 --> 00:46:31,609

must not be very big creatures if

1179

00:46:36,429 --> 00:46:33,199

they're in this if they're inside this

1180

00:46:39,219 --> 00:46:36,439

craft and the second thing I thought was

1181

00:46:41,589 --> 00:46:39,229

wow there's no windows or doors like how

1182

00:46:43,539 --> 00:46:41,599

how do you get inside this thing because

1183

00:46:44,799 --> 00:46:43,549

there's no at least on the side I was

1184

00:46:47,439 --> 00:46:44,809

looking at I was looking at two of the

1185

00:46:48,969 --> 00:46:47,449

four sides of it there's no windows of

1186

00:46:51,299 --> 00:46:48,979

doors and then I started looking at the

1187

00:46:53,699 --> 00:46:51,309

actual surface of it and it was a shiny

1188

00:46:56,979 --> 00:46:53,709

seamless piece of metal the whole

1189

00:47:00,009 --> 00:46:56,989

structure of the craft those bill rivets

1190

00:47:01,660 --> 00:47:00,019

no seams no nothing and I thought to

1191

00:47:03,579 --> 00:47:01,670

myself wow that's pretty good

1192

00:47:05,500 --> 00:47:03,589

it's pretty good stuff because I don't

1193

00:47:07,210 --> 00:47:05,510

think back in 1965 we had the technology

1194

00:47:10,420 --> 00:47:07,220

to do that from a manufacturing

1195

00:47:11,530 --> 00:47:10,430

standpoint so I said at that point I

1196

00:47:13,510 --> 00:47:11,540

said to my brother I'm gonna go and get

1197

00:47:15,700 --> 00:47:13,520

a camera I'll be right back so I ran

1198

00:47:16,960 --> 00:47:15,710

into the garage and then I went to go

1199

00:47:20,650 --> 00:47:16,970

into the house so we locked ourselves

1200

00:47:21,970 --> 00:47:20,660

out so as I'm counting on the door he's

1201

00:47:23,440 --> 00:47:21,980

dead let me get the exact goin house now

1202

00:47:24,670 --> 00:47:23,450

I remember nobody was up when we went

1203

00:47:26,530 --> 00:47:24,680

out I mean everyone's asleep so we're

1204

00:47:29,109 --> 00:47:26,540

pounding on this door Alston I noticed a

1205

00:47:31,539 --> 00:47:29,119

discontinuity in my knock like that like

1206

00:47:33,549 --> 00:47:31,549

don't dunk like that that last weird and

1207

00:47:35,049 --> 00:47:33,559

that's about three knocks later that the

1208

00:47:37,390 --> 00:47:35,059

door opens up my older brother's there I

1209

00:47:38,799 --> 00:47:37,400

go running in I tripped private run over

1210

00:47:40,299 --> 00:47:38,809

the top of him get my the camera he's

1211

00:47:41,859 --> 00:47:40,309

saying what's what's going on I said

1212

00:47:43,000 --> 00:47:41,869

nothing and I reason I did that was I

1213

00:47:44,859 --> 00:47:43,010

didn't want to slow myself down

1214

00:47:48,520 --> 00:47:44,869

so I ran I got the camera ran back out

1215

00:47:51,030 --> 00:47:48,530

he was up watching TV and my brother was

1216

00:47:53,410 --> 00:47:51,040

standing on the swing set outside

1217

00:47:54,940 --> 00:47:53,420

climbed up to the top of the swing set

1218

00:47:57,849 --> 00:47:54,950

where the slide is and was looking out

1219

00:48:00,549 --> 00:47:57,859

to the west and the craft was gone and I

1220

00:48:02,770 --> 00:48:00,559

said what happened he said well it was

1221

00:48:05,410 --> 00:48:02,780

just frozen there and he was frozen

1222

00:48:06,910 --> 00:48:05,420

there in the sky now it was making a

1223

00:48:09,220 --> 00:48:06,920

humming noise I forgot to mention that

1224

00:48:11,049 --> 00:48:09,230

but it was humming like a transformer on

1225

00:48:12,220 --> 00:48:11,059

a telephone pole late at night if you

1226
00:48:15,400 --> 00:48:12,230
ever go down the street and hear lives

1227
00:48:18,700 --> 00:48:15,410
humming noise but it was perfectly it

1228
00:48:20,470 --> 00:48:18,710
was perfectly still and then he said it

1229
00:48:22,089 --> 00:48:20,480
just slowly started to drift away after

1230
00:48:25,390 --> 00:48:22,099
a minute and it just shot over the

1231
00:48:26,589 --> 00:48:25,400
horizon just to she's gone so you know

1232
00:48:28,990 --> 00:48:26,599
we looked at each other like what are we

1233
00:48:32,049 --> 00:48:29,000
gonna do now no one's gonna believe us

1234
00:48:33,460 --> 00:48:32,059
you know we're I'm 10 he's 9 so we kind

1235
00:48:33,940 --> 00:48:33,470
of decided to keep it 2 hours keep it to

1236
00:48:36,640 --> 00:48:33,950
ourselves

1237
00:48:38,740 --> 00:48:36,650
yeah but but the funny thing was I went

1238
00:48:40,750 --> 00:48:38,750

to school that Monday morning I was

1239

00:48:42,220 --> 00:48:40,760

telling my best friend Tom about this

1240

00:48:43,569 --> 00:48:42,230

what had happened and I said Tom you

1241

00:48:45,160 --> 00:48:43,579

won't believe what happened this weekend

1242

00:48:48,760 --> 00:48:45,170

and I went through the whole story that

1243

00:48:49,900 --> 00:48:48,770

I just related to you and he's a little

1244

00:48:51,609 --> 00:48:49,910

couldn't mean he's staring at me and

1245

00:48:54,460 --> 00:48:51,619

he's staring at me and so I finally

1246

00:48:58,170 --> 00:48:54,470

pause so he can say something and his

1247

00:49:02,200 --> 00:48:58,180

answer to me was Jordan go play baseball

1248

00:49:03,940 --> 00:49:02,210

that's what he said yeah I figured of

1249

00:49:07,180 --> 00:49:03,950

myself did she just hear what I told her

1250

00:49:08,680 --> 00:49:07,190

I just fantastic story no way and and

1251

00:49:11,170 --> 00:49:08,690

and right then and there

1252

00:49:12,910 --> 00:49:11,180

it would Bing in my head okay this is

1253

00:49:14,890 --> 00:49:12,920

not something you talk to people about

1254

00:49:15,550 --> 00:49:14,900

cuz they aren't going to get it that is

1255

00:49:19,870 --> 00:49:15,560

so funny

1256

00:49:22,090 --> 00:49:19,880

oh my god so when you talk about the

1257

00:49:24,490 --> 00:49:22,100

landing gear this this is interesting to

1258

00:49:27,130 --> 00:49:24,500

me it kind of reminded me you know I'm

1259

00:49:29,590 --> 00:49:27,140

sure you were about the same age you

1260

00:49:31,600 --> 00:49:29,600

watched the original lost in space and

1261

00:49:34,510 --> 00:49:31,610

then robot had that had that like

1262

00:49:36,850 --> 00:49:34,520

corrugated arms yeah very similar it was

1263

00:49:38,680 --> 00:49:36,860

very similar very similar yeah it was

1264

00:49:40,540 --> 00:49:38,690

round that was around yeah I think his

1265

00:49:41,920 --> 00:49:40,550

arms were around too high mistake and it

1266

00:49:43,900 --> 00:49:41,930

just went in and out but it was like

1267

00:49:45,190 --> 00:49:43,910

cobalt blue it's like I'm I mean that

1268

00:49:46,210 --> 00:49:45,200

the craft was very ornate it was like

1269

00:49:48,580 --> 00:49:46,220

bright orange

1270

00:49:50,500 --> 00:49:48,590

he's cobalt blue landing gear black

1271

00:49:52,060 --> 00:49:50,510

suction cups and brown crossbars I'm

1272

00:49:54,040 --> 00:49:52,070

just like you know it's like some kid

1273

00:49:56,620 --> 00:49:54,050

went crazy with his paint cans spray

1274

00:49:58,300 --> 00:49:56,630

paint cans yeah but that's that's what I

1275

00:50:01,080 --> 00:49:58,310

saw that's what I observed yeah and my

1276

00:50:04,810 --> 00:50:01,090

brother observed so yeah at the time

1277

00:50:08,590 --> 00:50:04,820

well no let me ask you this now that

1278

00:50:10,690 --> 00:50:08,600

reflect on it did you did you consider

1279

00:50:12,970 --> 00:50:10,700

that it possibly could be man-made and

1280

00:50:15,490 --> 00:50:12,980

like a secret government but why would

1281

00:50:17,920 --> 00:50:15,500

it land at 6:30 Saturday morning on your

1282

00:50:20,380 --> 00:50:17,930

you know why that's funnier then I mean

1283

00:50:22,300 --> 00:50:20,390

that's bizarre well that's a funny you

1284

00:50:25,270 --> 00:50:22,310

should say that because a good Fred bill

1285

00:50:27,730 --> 00:50:25,280

McDonald who was active in the UFO field

1286

00:50:32,740 --> 00:50:27,740

many years ago it actually does art work

1287

00:50:35,110 --> 00:50:32,750

in this field his father was the senior

1288

00:50:36,340 --> 00:50:35,120

scientist at the Rockwell Science Center

1289

00:50:38,230 --> 00:50:36,350

which happened to be in Thousand Oaks at

1290

00:50:39,880 --> 00:50:38,240

that time and so what I told him this

1291

00:50:40,900 --> 00:50:39,890

story and he did a little bit research

1292

00:50:43,360 --> 00:50:40,910

on his own he says you know I think

1293

00:50:46,270 --> 00:50:43,370

that's something my father built and I

1294

00:50:47,830 --> 00:50:46,280

said Bill it's very possible rockwell

1295

00:50:49,420 --> 00:50:47,840

could have built this thing i i'm not

1296

00:50:51,670 --> 00:50:49,430

telling you they didn't build it but i

1297

00:50:54,490 --> 00:50:51,680

but I have to ask you why would they be

1298

00:50:56,320 --> 00:50:54,500

testing it in my backyard at 6:30 in the

1299

00:50:59,680 --> 00:50:56,330

morning on a Saturday it makes no sense

1300

00:51:00,970 --> 00:50:59,690

to me yeah so so could it be ours

1301

00:51:02,940 --> 00:51:00,980

yeah I've never said that it's

1302

00:51:05,560 --> 00:51:02,950

definitely extraterrestrial but I think

1303

00:51:09,460 --> 00:51:05,570

based on the fact of the manufacturer of

1304

00:51:10,660 --> 00:51:09,470

that that the hub of the craft itself I

1305

00:51:12,820 --> 00:51:10,670

don't think it was ours

1306

00:51:17,680 --> 00:51:12,830

I really don't if I had to put my money

1307

00:51:19,270 --> 00:51:17,690

down now had you you didn't have

1308

00:51:21,970 --> 00:51:19,280

anything like missing time that you're

1309

00:51:24,940 --> 00:51:21,980

aware of or anything like that well you

1310

00:51:27,050 --> 00:51:24,950

already else yeah no I didn't have

1311

00:51:29,820 --> 00:51:27,060

anything

1312

00:51:31,079 --> 00:51:29,830

let's go this way I have no there's two

1313

00:51:32,609 --> 00:51:31,089

questions I guess I missed you time but

1314

00:51:33,930 --> 00:51:32,619

the other one is being taken aboard the

1315

00:51:35,040 --> 00:51:33,940

crab I have no recollection of being

1316

00:51:38,339 --> 00:51:35,050

bored any craft or anything like that

1317

00:51:41,700 --> 00:51:38,349

but but when I was doing that knock and

1318

00:51:44,370 --> 00:51:41,710

it might knock stopped yeah I think it's

1319

00:51:45,120 --> 00:51:44,380

very possible that they switched they

1320

00:51:46,950 --> 00:51:45,130

stopped time

1321

00:51:49,410 --> 00:51:46,960

first first for however long they

1322

00:51:51,410 --> 00:51:49,420

stopped before however they do that and

1323

00:51:54,390 --> 00:51:51,420

the reason I say that is that my brother

1324

00:51:56,550 --> 00:51:54,400

definitely has the symptoms of having

1325

00:51:58,980 --> 00:51:56,560

been taken he's gone through

1326

00:52:01,710 --> 00:51:58,990

post-traumatic stress he's gotten into

1327

00:52:04,380 --> 00:52:01,720

drugs and alcohol he's was shown visions

1328

00:52:05,880 --> 00:52:04,390

of the whole world being destroyed and a

1329

00:52:09,030 --> 00:52:05,890

nuclear exchange between the US and

1330

00:52:10,829 --> 00:52:09,040

China basically a lot of stuff that

1331

00:52:14,190 --> 00:52:10,839

freaked him out now you're telling me

1332

00:52:16,079 --> 00:52:14,200

that he actually he had during that

1333

00:52:17,609 --> 00:52:16,089

experience he could see something about

1334

00:52:21,030 --> 00:52:17,619

the world being destroyed during that

1335

00:52:22,920 --> 00:52:21,040

experience or afterwards I think it was

1336

00:52:25,589 --> 00:52:22,930

after I don't have to ask him that

1337

00:52:29,400 --> 00:52:25,599

question but I mean but he he'd he had

1338

00:52:31,050 --> 00:52:29,410

told me sometime later that Jan I told

1339

00:52:33,089 --> 00:52:31,060

you that there were little beings in my

1340

00:52:35,220 --> 00:52:33,099

room like two weeks before this happened

1341

00:52:37,260 --> 00:52:35,230

and you and Joel would not believe me

1342

00:52:39,480 --> 00:52:37,270

and I do recall him saying something

1343

00:52:41,700 --> 00:52:39,490

about it but when you younger brother

1344

00:52:43,079 --> 00:52:41,710

says to you there's little beings in my

1345

00:52:44,640 --> 00:52:43,089

room it's like what do you do about I

1346

00:52:46,530 --> 00:52:44,650

mean was it okay there's little beings

1347

00:52:49,680 --> 00:52:46,540

in your room but I didn't mean anything

1348

00:52:52,050 --> 00:52:49,690

to us right but he also told me probably

1349

00:52:55,620 --> 00:52:52,060

30 years later he said you realize what

1350

00:52:57,300 --> 00:52:55,630

we went back into the house the program

1351
00:53:00,470 --> 00:52:57,310
that Joel who's our older brother was

1352
00:53:03,240 --> 00:53:00,480
watching didn't come on till 8 o'clock I

1353
00:53:06,060 --> 00:53:03,250
remember I stepped out at 6:30 I was out

1354
00:53:08,010 --> 00:53:06,070
there maybe a minute or two as far as I

1355
00:53:12,660 --> 00:53:08,020
was concerned only a minute or two had

1356
00:53:13,920 --> 00:53:12,670
passed yet he's recollecting that we

1357
00:53:16,980 --> 00:53:13,930
were out there for a good hour and a

1358
00:53:18,870 --> 00:53:16,990
half to two hours so Wow I don't I don't

1359
00:53:21,450 --> 00:53:18,880
know I can't I can't confirm or denied I

1360
00:53:23,579 --> 00:53:21,460
mean I just I it makes sense to me

1361
00:53:27,210 --> 00:53:23,589
because my brother was up watching TV

1362
00:53:29,609 --> 00:53:27,220
which he was not when we went out in

1363
00:53:30,780 --> 00:53:29,619

those days as you may recall the TV says

1364

00:53:32,700 --> 00:53:30,790

when you turn him on didn't start

1365

00:53:34,859 --> 00:53:32,710

instantaneously it started with a little

1366

00:53:36,510 --> 00:53:34,869

dot and then we'd go out and they'd be

1367

00:53:38,220 --> 00:53:36,520

like a white screen and then maybe the

1368

00:53:40,270 --> 00:53:38,230

image would try to come in forgot about

1369

00:53:43,660 --> 00:53:40,280

that and he was up

1370

00:53:45,610 --> 00:53:43,670

engaged in a program so it would have

1371

00:53:48,520 --> 00:53:45,620

had to happen very quickly so I I don't

1372

00:53:51,370 --> 00:53:48,530

know Martin it's good yeah yeah I've

1373

00:53:53,500 --> 00:53:51,380

thought about it yeah and it's

1374

00:53:54,880 --> 00:53:53,510

interesting how you said you're it's had

1375

00:53:57,970 --> 00:53:54,890

a negative effect on your brother which

1376

00:54:01,780 --> 00:53:57,980

is really too bad or if this is you know

1377

00:54:02,950 --> 00:54:01,790

related related to that well well I'm

1378

00:54:05,950 --> 00:54:02,960

gonna say you know that that's exactly

1379

00:54:07,660 --> 00:54:05,960

right I mean so I hear people who have

1380

00:54:09,580 --> 00:54:07,670

you know what they consider to be

1381

00:54:11,350 --> 00:54:09,590

positive experiences and I hear people

1382

00:54:15,490 --> 00:54:11,360

who say they have negative experiences

1383

00:54:18,400 --> 00:54:15,500

so here's a case where that one UFO two

1384

00:54:20,800 --> 00:54:18,410

individuals brothers in this case one

1385

00:54:23,200 --> 00:54:20,810

went this way and one went that way with

1386

00:54:25,690 --> 00:54:23,210

the experience right one took it it made

1387

00:54:28,840 --> 00:54:25,700

it a positive thing that drove his life

1388

00:54:31,630 --> 00:54:28,850

and but I don't know that I'd be sitting

1389

00:54:33,400 --> 00:54:31,640

in the chair I'm sitting in today if it

1390

00:54:34,720 --> 00:54:33,410

weren't for this occurrence because I

1391

00:54:36,520 --> 00:54:34,730

sure don't know that I have the same

1392

00:54:38,830 --> 00:54:36,530

strong conviction without having seen

1393

00:54:40,360 --> 00:54:38,840

this craft right on his side and his

1394

00:54:42,310 --> 00:54:40,370

side he's gone

1395

00:54:44,890 --> 00:54:42,320

you know suffering from post-traumatic

1396

00:54:47,890 --> 00:54:44,900

stress all the issues of dealing with

1397

00:54:51,190 --> 00:54:47,900

that basically why would you want to

1398

00:54:53,760 --> 00:54:51,200

live if you thought the world was gonna

1399

00:54:56,530 --> 00:54:53,770

end in a catastrophic nuclear holocaust

1400

00:54:58,720 --> 00:54:56,540

happy you know I mean it's like why go

1401
00:55:00,040 --> 00:54:58,730
get a career and then have a family and

1402
00:55:04,390 --> 00:55:00,050
do all this stuff if it's all just going

1403
00:55:05,830 --> 00:55:04,400
to be wiped out so yeah it's it's just

1404
00:55:08,530 --> 00:55:05,840
interesting you know that's one of the

1405
00:55:10,570 --> 00:55:08,540
things why I really put a lot of of time

1406
00:55:12,970 --> 00:55:10,580
and effort and and energy and this whole

1407
00:55:15,340 --> 00:55:12,980
experience or research team that we have

1408
00:55:17,410 --> 00:55:15,350
in MUFON under Cathleen Martin and

1409
00:55:21,640 --> 00:55:17,420
George Medich and a whole team of people

1410
00:55:23,260 --> 00:55:21,650
Don done Jerry just a dozens of great

1411
00:55:25,450 --> 00:55:23,270
people who were in that program because

1412
00:55:27,160 --> 00:55:25,460
they're really offering help to those

1413
00:55:28,960 --> 00:55:27,170

who have had interactions with non-human

1414

00:55:30,760 --> 00:55:28,970

entities whether it be from a UFO or

1415

00:55:32,110 --> 00:55:30,770

anything else that's happening and

1416

00:55:34,960 --> 00:55:32,120

trying to get them what they need

1417

00:55:37,360 --> 00:55:34,970

whether it be counseling services just

1418

00:55:38,770 --> 00:55:37,370

an ear to listen to psychological

1419

00:55:42,640 --> 00:55:38,780

services try to deal with post-traumatic

1420

00:55:44,680 --> 00:55:42,650

stress whatever there's a lot of people

1421

00:55:47,230 --> 00:55:44,690

out there in my opinion that are hurting

1422

00:55:49,120 --> 00:55:47,240

because they've been told that this is a

1423

00:55:51,130 --> 00:55:49,130

bunch of poppycock and yet they have the

1424

00:55:54,010 --> 00:55:51,140

experience and now what do they do with

1425

00:55:55,870 --> 00:55:54,020

it because they're living it but

1426
00:55:58,930 --> 00:55:55,880
the world around them is denying it and

1427
00:56:00,730 --> 00:55:58,940
so they're caught in this catch-22 they

1428
00:56:02,349 --> 00:56:00,740
can't speak to their family they can't

1429
00:56:05,140 --> 00:56:02,359
talk to their kids they can't talk to

1430
00:56:07,000 --> 00:56:05,150
the Russians can't talk to their work or

1431
00:56:09,370 --> 00:56:07,010
coworkers or they'll be they'll lose

1432
00:56:11,260 --> 00:56:09,380
their job so they need some place to go

1433
00:56:12,040 --> 00:56:11,270
and that place to go really it's MUFON

1434
00:56:15,010 --> 00:56:12,050
at this point

1435
00:56:18,430 --> 00:56:15,020
right right all right well we are at

1436
00:56:20,530 --> 00:56:18,440
break time so we're on with Jan Harrison

1437
00:56:23,829 --> 00:56:20,540
this is Martin Willis with podcast UFO

1438
00:56:30,310 --> 00:56:23,839

we're on kgr a radio and we'll be right

1439

00:56:32,800 --> 00:56:30,320

back stay with us all right gentlemen

1440

00:56:35,320 --> 00:56:32,810

that is a closed for our one we have

1441

00:56:38,260 --> 00:56:35,330

four minutes in its break Martin okay

1442

00:56:43,180 --> 00:56:38,270

four minutes got it okay Marshall for

1443

00:56:47,589 --> 00:56:43,190

the second hour what yes yes yep okay

1444

00:56:51,820 --> 00:56:47,599

all right excellent so I thought in the

1445

00:56:53,920 --> 00:56:51,830

last hour we're gonna take calls and so

1446

00:56:55,690 --> 00:56:53,930

Evan if you wouldn't mind get the number

1447

00:56:57,640 --> 00:56:55,700

up there and for the people in YouTube

1448

00:56:58,810 --> 00:56:57,650

we're not gonna we're not gonna take

1449

00:57:01,570 --> 00:56:58,820

them during the break but we'll take

1450

00:57:04,300 --> 00:57:01,580

them when we come back on and so that

1451
00:57:08,349 --> 00:57:04,310
number will be up there on YouTube you

1452
00:57:09,760 --> 00:57:08,359
can check it out and let's see at the

1453
00:57:13,500 --> 00:57:09,770
last break we were talking about forest

1454
00:57:18,150 --> 00:57:13,510
fires we really went off topic and

1455
00:57:20,890 --> 00:57:18,160
pollution and all that but on this break

1456
00:57:23,109 --> 00:57:20,900
something we can talk about for a short

1457
00:57:27,040 --> 00:57:23,119
time is let's talk about California

1458
00:57:30,820 --> 00:57:27,050
because California is the number one

1459
00:57:32,050 --> 00:57:30,830
state that listens to this podcast when

1460
00:57:37,570 --> 00:57:32,060
I look through you know the Google

1461
00:57:39,339 --> 00:57:37,580
Analytics data and do you think the

1462
00:57:41,380 --> 00:57:39,349
reason California is where the number

1463
00:57:43,960 --> 00:57:41,390

one sightings are as far as the amount

1464

00:57:46,089 --> 00:57:43,970

is because of the the usual really great

1465

00:57:49,060 --> 00:57:46,099

weather and the population or do you

1466

00:57:52,030 --> 00:57:49,070

think there's more to it than that well

1467

00:57:53,829 --> 00:57:52,040

I uh obviously yeah weather plays a good

1468

00:57:55,839 --> 00:57:53,839

portion oh we noticed a big dip in our

1469

00:57:58,180 --> 00:57:55,849

sightings around the October November

1470

00:57:59,829 --> 00:57:58,190

December time frame and I think that's

1471

00:58:01,540 --> 00:57:59,839

because most of the eastern seaboard and

1472

00:58:04,089 --> 00:58:01,550

in this central part of the country is

1473

00:58:05,770 --> 00:58:04,099

under a lot of heavy cloud cover so it

1474

00:58:07,330 --> 00:58:05,780

helps and then summertime when it's

1475

00:58:08,860 --> 00:58:07,340

usually clear out

1476

00:58:11,200 --> 00:58:08,870

most across most country that's when we

1477

00:58:13,000 --> 00:58:11,210

get the most of our sightings so I think

1478

00:58:14,080 --> 00:58:13,010

weather has a big part to play in it I

1479

00:58:15,700 --> 00:58:14,090

think the other thing is you know

1480

00:58:16,960 --> 00:58:15,710

California is a lot of people are

1481

00:58:20,350 --> 00:58:16,970

outdoors I mean they're doing stuff

1482

00:58:22,330 --> 00:58:20,360

outdoors you got to be outdoors we find

1483

00:58:25,180 --> 00:58:22,340

you know we find that there's two things

1484

00:58:26,710 --> 00:58:25,190

and sighting reports that are common if

1485

00:58:28,660 --> 00:58:26,720

you want to see a UFO this will this

1486

00:58:31,180 --> 00:58:28,670

will greatly increase your chances

1487

00:58:33,220 --> 00:58:31,190

number one own the dog because if you

1488

00:58:36,010 --> 00:58:33,230

want a dog you gotta go take your walk

1489

00:58:37,660 --> 00:58:36,020

yeah yeah and the other is smoking you

1490

00:58:39,850 --> 00:58:37,670

know not that I thought they adore

1491

00:58:41,380 --> 00:58:39,860

smoking but but I I can't tell you the

1492

00:58:42,790 --> 00:58:41,390

number of reports I read where it says I

1493

00:58:44,380 --> 00:58:42,800

stepped out of my back porch to have a

1494

00:58:46,420 --> 00:58:44,390

smoke yeah yeah and I saw this thing

1495

00:58:48,280 --> 00:58:46,430

yeah yeah and so if you're not going

1496

00:58:51,190 --> 00:58:48,290

outside and you're not looking you know

1497

00:58:52,450 --> 00:58:51,200

you're not gonna see so but just a

1498

00:58:54,580 --> 00:58:52,460

little tongue-in-cheek but those do

1499

00:58:55,840 --> 00:58:54,590

those two things do turn up a lot of

1500

00:58:58,360 --> 00:58:55,850

times in our reports that's just so

1501
00:59:00,670 --> 00:58:58,370
funny yeah I've just so what the person

1502
00:59:04,840 --> 00:59:00,680
on YouTube no I just saw someone try to

1503
00:59:07,270 --> 00:59:04,850
call in and if you're calling from Skype

1504
00:59:08,650 --> 00:59:07,280
I think it's not gonna let me join you

1505
00:59:11,290 --> 00:59:08,660
to the call so you have to call from a

1506
00:59:13,330 --> 00:59:11,300
phone line it looks like so anyway if

1507
00:59:15,310 --> 00:59:13,340
you would please don't call back until

1508
00:59:17,260 --> 00:59:15,320
we start after the break which is about

1509
00:59:19,660 --> 00:59:17,270
one minute just about a minute and a

1510
00:59:24,150 --> 00:59:19,670
half you can try again but please try to

1511
00:59:27,280 --> 00:59:24,160
call that number through a phone line so

1512
00:59:29,470 --> 00:59:27,290
the the population is high people are

1513
00:59:34,060 --> 00:59:29,480

out smoking or walking their dog but

1514

00:59:35,800 --> 00:59:34,070

also what else do you think do you think

1515

00:59:38,380 --> 00:59:35,810

there's any type of like hot spots in

1516

00:59:39,420 --> 00:59:38,390

California or any report it just to

1517

00:59:42,910 --> 00:59:39,430

speaking of

1518

00:59:47,230 --> 00:59:42,920

well I know you know Shasta my chest is

1519

00:59:48,910 --> 00:59:47,240

always yeah but also a Joshua Tree you

1520

00:59:50,320 --> 00:59:48,920

know is another but I think a lot of

1521

00:59:51,940 --> 00:59:50,330

those there because they're so clear you

1522

00:59:54,070 --> 00:59:51,950

know there's the nightly sky is so we're

1523

00:59:55,270 --> 00:59:54,080

still clear they're obviously in

1524

00:59:56,680 --> 00:59:55,280

downtown Los Angeles you're getting a

1525

00:59:59,530 --> 00:59:56,690

lot of light pollution so you like to be

1526

01:00:00,940 --> 00:59:59,540

able to see a whole lot of anything the

1527

01:00:02,950 --> 01:00:00,950

San Luis Valley has always been a hot

1528

01:00:04,630 --> 01:00:02,960

spot that's in southwest Colorado

1529

01:00:06,610 --> 01:00:04,640

we'll be going there here at a few about

1530

01:00:08,200 --> 01:00:06,620

a month I'm here now my wife both my

1531

01:00:09,160 --> 01:00:08,210

wife's parents are from the San Luis

1532

01:00:11,560 --> 01:00:09,170

Valley oh really

1533

01:00:13,330 --> 01:00:11,570

they grew up there yeah just crisscross

1534

01:00:14,350 --> 01:00:13,340

O'Brien was on a few weeks ago he came

1535

01:00:17,440 --> 01:00:14,360

out to visit me here

1536

01:00:20,020 --> 01:00:17,450

so race Ron is like gonna change seconds

1537

01:00:21,160 --> 01:00:20,030

right yes sir absolutely okay we're

1538

01:00:24,670 --> 01:00:21,170

ready here

1539

01:00:26,260 --> 01:00:24,680

all right stand by again we're going for

1540

01:00:31,140 --> 01:00:26,270

one hour we're gonna do commercial-free

1541

01:00:38,380 --> 01:00:31,150

for the backhand for Jan and here we go

1542

01:00:40,360 --> 01:00:38,390

in five four three two all right I won

1543

01:00:43,150 --> 01:00:40,370

welcome back it's Martin Willis with

1544

01:00:45,520 --> 01:00:43,160

podcast UFO are my guest this evening is

1545

01:00:50,350 --> 01:00:45,530

Jan Harz an executive director director

1546

01:00:52,510 --> 01:00:50,360

of MUFON and welcome back Jan thank you

1547

01:00:55,210 --> 01:00:52,520

great to be here and so we are taking

1548

01:00:57,990 --> 01:00:55,220

calls in this last hour that phone

1549

01:01:02,740 --> 01:00:58,000

numbers up on the screen on YouTube and

1550

01:01:05,650 --> 01:01:02,750

if you're listening to kgr a radio I

1551

01:01:07,720 --> 01:01:05,660

think Evan might be in chat if not if

1552

01:01:09,850 --> 01:01:07,730

you go in there and put the number in

1553

01:01:12,280 --> 01:01:09,860

I'll just say it one time but please do

1554

01:01:14,920 --> 01:01:12,290

not call unless the show is live I get

1555

01:01:17,560 --> 01:01:14,930

calls all the time and that number six

1556

01:01:19,690 --> 01:01:17,570

oh three nine six seven four oh three oh

1557

01:01:25,750 --> 01:01:19,700

please only is that during the Showtime

1558

01:01:27,520 --> 01:01:25,760

hours to two hours that is so so we were

1559

01:01:30,210 --> 01:01:27,530

talking you know basically about your

1560

01:01:32,200 --> 01:01:30,220

your sighting and how it affected your

1561

01:01:34,600 --> 01:01:32,210

basically your brother I think we have a

1562

01:01:38,440 --> 01:01:34,610

yeah we do have a call coming in so I'm

1563

01:01:40,870 --> 01:01:38,450

gonna grab that hello

1564

01:01:44,440 --> 01:01:40,880

huh it seems like it just no are you

1565

01:01:48,880 --> 01:01:44,450

there caller caller can you hear me

1566

01:01:51,010 --> 01:01:48,890

I see we do have a caller on but I don't

1567

01:01:56,070 --> 01:01:51,020

think he can hear we can't hear you call

1568

01:02:00,250 --> 01:01:56,080

her why don't you try calling back oh

1569

01:02:02,020 --> 01:02:00,260

look you there yep okay

1570

01:02:05,860 --> 01:02:02,030

what's your what's your name were you

1571

01:02:06,790 --> 01:02:05,870

coming through the first name Jay Allen

1572

01:02:10,630 --> 01:02:06,800

from San Diego

1573

01:02:12,520 --> 01:02:10,640

oh hi welcome to the show thank you and

1574

01:02:13,720 --> 01:02:12,530

if you could speak up a little bit

1575

01:02:16,180 --> 01:02:13,730

that'd be great and you do have a

1576

01:02:18,010 --> 01:02:16,190

question for we have another person

1577

01:02:21,610 --> 01:02:18,020

trying to call in so do you have a

1578

01:02:22,240 --> 01:02:21,620

question for our our guests sure no

1579

01:02:24,490 --> 01:02:22,250

problem

1580

01:02:27,330 --> 01:02:24,500

I first I just want to say add great

1581

01:02:31,200 --> 01:02:27,340

storytelling I love the show I'm also an

1582

01:02:35,020 --> 01:02:33,400

I've called in a couple times before

1583

01:02:36,850 --> 01:02:35,030

yeah it's been a while

1584

01:02:37,960 --> 01:02:36,860

but I have it I I don't want to be

1585

01:02:39,550 --> 01:02:37,970

selfish but I have a couple questions

1586

01:02:43,650 --> 01:02:39,560

and then I can just kind of listen off

1587

01:02:45,970 --> 01:02:43,660

but mention how I put off earlier and

1588

01:02:50,350 --> 01:02:45,980

he's well known for his laser research

1589

01:02:51,970 --> 01:02:50,360

with Russell Targ and NASA and then they

1590

01:02:56,050 --> 01:02:51,980

joined s RIT near the remote viewing

1591

01:02:59,980 --> 01:02:56,060

program with the military and I'm

1592

01:03:02,650 --> 01:02:59,990

wondering if anybody has heard or I'm

1593

01:03:06,010 --> 01:03:02,660

wondering also why we're not hearing

1594

01:03:07,950 --> 01:03:06,020

about how put off setting up a remote

1595

01:03:10,690 --> 01:03:07,960

viewing target to learn how these

1596

01:03:15,550 --> 01:03:10,700

devices work very well how they're

1597

01:03:19,420 --> 01:03:15,560

imposed and then because that means but

1598

01:03:24,430 --> 01:03:19,430

all he knows how remote doing works and

1599

01:03:27,330 --> 01:03:24,440

then as far as so second questions real

1600

01:03:31,540 --> 01:03:27,340

quick Tom DeLonge and his business model

1601

01:03:33,520 --> 01:03:31,550

which I'll put off now works with Tom

1602

01:03:35,530 --> 01:03:33,530

the ones business models crowdfunding so

1603

01:03:37,900 --> 01:03:35,540

it seems to reason that if they have

1604

01:03:40,450 --> 01:03:37,910

metamaterial some meta materials that

1605

01:03:42,220 --> 01:03:40,460

they're studying if they could release

1606

01:03:46,510 --> 01:03:42,230

some of the information about that

1607

01:03:49,030 --> 01:03:46,520

it seems the reason that they would they

1608

01:03:49,720 --> 01:03:49,040

were increased interest like like you

1609

01:03:51,610 --> 01:03:49,730

wouldn't believe

1610

01:03:53,860 --> 01:03:51,620

and so crowdfunding would just come

1611

01:03:56,530 --> 01:03:53,870

pouring in if if they're looking for

1612

01:03:58,030 --> 01:03:56,540

crowdfunding you know why why not you

1613

01:03:59,380 --> 01:03:58,040

know throw a bone out there I know they

1614

01:04:02,680 --> 01:03:59,390

they released some of the Pentagon

1615

01:04:05,710 --> 01:04:02,690

videos that we've seen and on FLIR and

1616

01:04:07,240 --> 01:04:05,720

things like that but I'm sort of

1617

01:04:09,960 --> 01:04:07,250

wondering those two questions and that

1618

01:04:13,360 --> 01:04:09,970

if Jan has any any comment on that great

1619

01:04:15,900 --> 01:04:13,370

thank you good questions yeah thank you

1620

01:04:18,730 --> 01:04:15,910

I think it's a great questions

1621

01:04:21,700 --> 01:04:18,740

on the first one with regard to using

1622

01:04:23,200 --> 01:04:21,710

remote viewing to kind of discern how

1623

01:04:24,640 --> 01:04:23,210

these crafts work I guess the question

1624

01:04:30,160 --> 01:04:24,650

I'd ask is what makes you think they

1625

01:04:31,360 --> 01:04:30,170

haven't I'll leave it at that so I'm in

1626

01:04:33,130 --> 01:04:31,370

that community and I haven't heard

1627

01:04:34,660 --> 01:04:33,140

anything about it so either they keeping

1628

01:04:37,360 --> 01:04:34,670

it very secret

1629

01:04:40,120 --> 01:04:37,370

so I'm actually writing down a thesis on

1630

01:04:42,670 --> 01:04:40,130

that topic so oh you should just call

1631

01:04:45,220 --> 01:04:42,680

Hal and ask him so I listen I listen to

1632

01:04:47,170 --> 01:04:45,230

his lectures and I go to the I go to the

1633

01:04:48,880 --> 01:04:47,180

events that they have and I've never

1634

01:04:50,890 --> 01:04:48,890

heard anything about it so I don't know

1635

01:04:53,320 --> 01:04:50,900

that on the down-low or what they're

1636

01:04:55,360 --> 01:04:53,330

doing with it well I mean I honestly

1637

01:04:57,430 --> 01:04:55,370

don't know he doesn't confide it in me

1638

01:05:00,100 --> 01:04:57,440

but I'm assuming because they know it's

1639

01:05:03,000 --> 01:05:00,110

a tool to be used that they would use it

1640

01:05:05,770 --> 01:05:03,010

if they if it's in their arsenal to use

1641

01:05:07,540 --> 01:05:05,780

but again you I think it's best lead we

1642

01:05:09,340 --> 01:05:07,550

to address it to them directly and you

1643

01:05:11,170 --> 01:05:09,350

could you could call Hal up or send them

1644

01:05:13,870 --> 01:05:11,180

an email if you if you need to know how

1645

01:05:16,150 --> 01:05:13,880

to do that just send me an email at Exe

1646

01:05:18,010 --> 01:05:16,160

dir mufon dot-com well I'll be happy to

1647

01:05:19,990 --> 01:05:18,020

put you in touch with him yeah I

1648

01:05:21,480 --> 01:05:20,000

appreciate that I was just wondering if

1649

01:05:24,160 --> 01:05:21,490

you two heard anything about it because

1650

01:05:26,890 --> 01:05:24,170

I was well known in the remote viewing

1651

01:05:29,070 --> 01:05:26,900

field yet we all we've heard is sort of

1652

01:05:32,290 --> 01:05:29,080

a segregation from his work with this

1653

01:05:33,370 --> 01:05:32,300

with this UFO stuff and he's never I

1654

01:05:35,710 --> 01:05:33,380

haven't heard him mentioned remote

1655

01:05:38,320 --> 01:05:35,720

viewing in a very long time so yeah then

1656

01:05:40,090 --> 01:05:38,330

his you know well he's been he's been

1657

01:05:41,440 --> 01:05:40,100

working on faster than light travel I

1658

01:05:44,890 --> 01:05:41,450

mean that's been his thing you know in

1659

01:05:46,930 --> 01:05:44,900

energy systems so he's got some

1660

01:05:49,300 --> 01:05:46,940

contracts with the government to kind of

1661

01:05:50,950 --> 01:05:49,310

create and produce that stuff I was

1662

01:05:52,840 --> 01:05:50,960

surprised honestly to see him out in

1663

01:05:55,120 --> 01:05:52,850

such public view because I've invited

1664

01:05:56,860 --> 01:05:55,130

him for 20 years to come speak at MUFON

1665

01:05:58,960 --> 01:05:56,870

symposiums and because of his contract

1666

01:06:01,450 --> 01:05:58,970

work with the government he's been

1667

01:06:03,670 --> 01:06:01,460

reluctant to do so he spent a 25 year

1668

01:06:05,430 --> 01:06:03,680

plus member of MUFON so he definitely

1669

01:06:08,320 --> 01:06:05,440

sees the value and MUFON and be a member

1670

01:06:11,920 --> 01:06:08,330

and he's he was one of the he was the

1671

01:06:13,750 --> 01:06:11,930

only physicist that called me after my

1672

01:06:16,690 --> 01:06:13,760

conversation with Ben rich went public

1673

01:06:18,400 --> 01:06:16,700

and asked me questions about it so I

1674

01:06:19,600 --> 01:06:18,410

know he's definitely interested in I

1675

01:06:22,570 --> 01:06:19,610

know he's doing some great work and I

1676
01:06:24,520 --> 01:06:22,580
know he thinks he's well he's telling me

1677
01:06:26,620 --> 01:06:24,530
anyway that he they know what the

1678
01:06:30,220 --> 01:06:26,630
equations are and it's just a matter of

1679
01:06:33,330 --> 01:06:30,230
taking those from from mathematical just

1680
01:06:36,550 --> 01:06:33,340
like the stealth aircraft which was a

1681
01:06:38,410 --> 01:06:36,560
Russian mathematicians equations they

1682
01:06:41,410 --> 01:06:38,420
took that at the Lockheed skunkworks and

1683
01:06:42,820 --> 01:06:41,420
turned it into the f-117 now we need to

1684
01:06:45,510 --> 01:06:42,830
take these mathematics for

1685
01:06:47,200 --> 01:06:45,520
faster-than-light travel through

1686
01:06:49,360 --> 01:06:47,210
Einstein's general theory of relativity

1687
01:06:52,090 --> 01:06:49,370
and manipulation of space-time and turn

1688
01:06:55,930 --> 01:06:52,100

it into an interstellar trap right yeah

1689

01:06:57,760 --> 01:06:55,940

well genocide as an engineer I know that

1690

01:06:59,530 --> 01:06:57,770

I know that you can't travel at the

1691

01:07:00,880 --> 01:06:59,540

relativistic speed in a linear fashion

1692

01:07:02,710 --> 01:07:00,890

you're gonna have to bend space-time

1693

01:07:04,870 --> 01:07:02,720

because you're just going if

1694

01:07:06,730 --> 01:07:04,880

you hit anything if you hit if you hit a

1695

01:07:08,230 --> 01:07:06,740

piece of space stuff and your your whole

1696

01:07:10,420 --> 01:07:08,240

ships gonna explode so they're gonna

1697

01:07:12,609 --> 01:07:10,430

write within space-time so if they've

1698

01:07:14,140 --> 01:07:12,619

worked the math out it's gonna have to

1699

01:07:16,030 --> 01:07:14,150

be an energy problem that they need to

1700

01:07:17,410 --> 01:07:16,040

solve right now and a man I can't

1701

01:07:20,050 --> 01:07:17,420

imagine when that when that happens

1702

01:07:21,400 --> 01:07:20,060

we're gonna have well yeah you hit them

1703

01:07:23,080 --> 01:07:21,410

you hit the nail on the head because

1704

01:07:24,550 --> 01:07:23,090

what you told me was Jan there's two

1705

01:07:26,800 --> 01:07:24,560

ways to do it you either have a large

1706

01:07:28,900 --> 01:07:26,810

mass you know but but it's hard to go

1707

01:07:30,580 --> 01:07:28,910

grab a mass the size of the Sun or

1708

01:07:33,220 --> 01:07:30,590

Jupiter and start hauling it around or

1709

01:07:43,109 --> 01:07:33,230

you have to have a high high high energy

1710

01:07:47,080 --> 01:07:43,119

energy source weight me okay I'm sorry

1711

01:07:48,790 --> 01:07:47,090

okay yes I think nothing no I think her

1712

01:07:50,170 --> 01:07:48,800

question was what about Tom DeLonge and

1713

01:07:51,370 --> 01:07:50,180

the stunt talk to the stars kind of

1714

01:07:53,859 --> 01:07:51,380

because that was just that was your

1715

01:07:56,230 --> 01:07:53,869

second question right which is how yeah

1716

01:07:58,690 --> 01:07:56,240

my second question was just reiterate

1717

01:08:01,630 --> 01:07:58,700

I'm sorry for interrupting my second

1718

01:08:03,760 --> 01:08:01,640

question was if if Tom DeLonge I

1719

01:08:05,410 --> 01:08:03,770

understand how the two the stars Academy

1720

01:08:08,770 --> 01:08:05,420

is set up and what they're looking for

1721

01:08:11,050 --> 01:08:08,780

is a crowdsourcing crowdfunding model

1722

01:08:12,520 --> 01:08:11,060

and if they're just going to release

1723

01:08:13,870 --> 01:08:12,530

Pentagon videos you know they're gonna

1724

01:08:16,059 --> 01:08:13,880

gather a little bit interest but if they

1725

01:08:17,890 --> 01:08:16,069

have metamaterials something physical to

1726

01:08:19,660 --> 01:08:17,900

make in touch and we can actually

1727

01:08:21,370 --> 01:08:19,670

evaluate that then that's just gonna

1728

01:08:22,870 --> 01:08:21,380

blow the lid off I'm wondering what's

1729

01:08:25,240 --> 01:08:22,880

taking them so long if they actually

1730

01:08:29,650 --> 01:08:25,250

have these why not announce it and then

1731

01:08:32,019 --> 01:08:29,660

let's get the ball rolling again right

1732

01:08:33,610 --> 01:08:32,029

absolutely and I don't want to answer on

1733

01:08:35,890 --> 01:08:33,620

behalf of to the stars because I you

1734

01:08:38,729 --> 01:08:35,900

know that's not for me to do but I would

1735

01:08:41,680 --> 01:08:38,739

just tell you this based on what I know

1736

01:08:46,209 --> 01:08:41,690

watch this space sometime between now

1737

01:08:47,410 --> 01:08:46,219

and the end of the year right thank you

1738

01:08:49,059 --> 01:08:47,420

you're welcome

1739

01:08:52,499 --> 01:08:49,069

all right we have another call is it's

1740

01:08:56,910 --> 01:08:52,509

very very persistent so I'm gonna bring

1741

01:08:59,140 --> 01:08:56,920

this person in boy you are persistent

1742

01:09:03,010 --> 01:08:59,150

you're what's your first name and where

1743

01:09:07,479 --> 01:09:03,020

you calling from um my name is Bambi and

1744

01:09:09,640 --> 01:09:07,489

I'm from Philadelphia hi Bambi you have

1745

01:09:13,510 --> 01:09:09,650

a question for for our guest tonight

1746

01:09:16,209 --> 01:09:13,520

yeah Jan - well what's the difference

1747

01:09:18,099 --> 01:09:16,219

between MUFON and

1748

01:09:21,399 --> 01:09:18,109

to the Stars Academy how are they

1749

01:09:23,200 --> 01:09:21,409

different okay well and I think Lou

1750

01:09:24,219 --> 01:09:23,210

answer this question onstage at the

1751

01:09:26,859 --> 01:09:24,229

symposium

1752

01:09:28,299 --> 01:09:26,869

you know I he made a real good comment a

1753

01:09:30,309 --> 01:09:28,309

couple very good comments

1754

01:09:33,009 --> 01:09:30,319

one was the fact that it's not the

1755

01:09:37,149 --> 01:09:33,019

purpose of government to fulfill the

1756

01:09:38,859 --> 01:09:37,159

idle curiosity of the masses it's the

1757

01:09:43,019 --> 01:09:38,869

purpose of government to protect its

1758

01:09:44,259 --> 01:09:43,029

people and move on civilian based

1759

01:09:48,729 --> 01:09:44,269

organization

1760

01:09:51,719 --> 01:09:48,739

yes we're civilian base exactly and

1761

01:09:55,810 --> 01:09:51,729

don't they do reporting an investigation

1762

01:10:00,160 --> 01:09:55,820

yes absolutely so I mean basically MUFON

1763

01:10:02,560 --> 01:10:00,170

is is the civilian 501c3 nonprofit and

1764

01:10:03,850 --> 01:10:02,570

our whole role in life is collecting

1765

01:10:05,799 --> 01:10:03,860

reports from the public the general

1766

01:10:07,600 --> 01:10:05,809

public of what they see and then we

1767

01:10:10,509 --> 01:10:07,610

train investigators who can go out and

1768

01:10:13,390 --> 01:10:10,519

vet these reports and determine what

1769

01:10:16,299 --> 01:10:13,400

exactly the person saw and report that

1770

01:10:19,479 --> 01:10:16,309

back to the public so I think what Lou

1771

01:10:21,250 --> 01:10:19,489

said was that the information that MUFON

1772

01:10:23,410 --> 01:10:21,260

has been producing for the last 50 years

1773

01:10:25,089 --> 01:10:23,420

was in fact some of the information that

1774

01:10:28,089 --> 01:10:25,099

they used because we make it publicly

1775

01:10:33,160 --> 01:10:28,099

available to help actually justify and

1776

01:10:35,410 --> 01:10:33,170

get the HM program approved and running

1777

01:10:37,390 --> 01:10:35,420

so I think that's that's very positive I

1778

01:10:41,140 --> 01:10:37,400

mean we wouldn't have had a TTIP which

1779

01:10:42,520 --> 01:10:41,150

is now coming out in the press showing

1780

01:10:45,520 --> 01:10:42,530

that our government is in fact

1781

01:10:47,500 --> 01:10:45,530

interested in UFOs and this wall would

1782

01:10:49,089 --> 01:10:47,510

not have happened without MUFON doing

1783

01:10:57,029 --> 01:10:49,099

the great work it's done for the last 50

1784

01:10:59,229 --> 01:10:57,039

years so thank you for you we plan to

1785

01:11:01,270 --> 01:10:59,239

okay there's no reason to stop down oh

1786

01:11:06,700 --> 01:11:01,280

yeah all right thank thank you for the

1787

01:11:14,020 --> 01:11:11,259

okay so yeah that I like I like his uh

1788

01:11:16,390 --> 01:11:14,030

the the last caller's question prior to

1789

01:11:18,069 --> 01:11:16,400

that you know about getting the the bone

1790

01:11:20,589 --> 01:11:18,079

out there and I think you know the

1791

01:11:24,719 --> 01:11:20,599

transparency part of of this is pretty

1792

01:11:27,160 --> 01:11:24,729

important and why you know they need to

1793

01:11:29,350 --> 01:11:27,170

no matter who they are they're in that

1794

01:11:33,450 --> 01:11:29,360

seat they're gonna have to gain trust

1795

01:11:36,130 --> 01:11:33,460

of people before anyone's gonna really

1796

01:11:38,080 --> 01:11:36,140

divulge something important Alejandro

1797

01:11:41,050 --> 01:11:38,090

was basically talking about that you

1798

01:11:42,820 --> 01:11:41,060

know maybe another show a little bit

1799

01:11:46,210 --> 01:11:42,830

earlier we talked about it so they

1800

01:11:48,460 --> 01:11:46,220

really have to you know the questions

1801
01:11:51,760 --> 01:11:48,470
come up a bunch of times on this show

1802
01:11:53,170 --> 01:11:51,770
and that is you know why why do they

1803
01:11:54,970 --> 01:11:53,180
need funding well they're starting to

1804
01:11:56,050 --> 01:11:54,980
show why they need funding now because

1805
01:12:00,190 --> 01:11:56,060
of the different things they're doing

1806
01:12:04,000 --> 01:12:00,200
that are costly so I think that part is

1807
01:12:07,180 --> 01:12:04,010
gonna reveal itself but but it would you

1808
01:12:10,800 --> 01:12:07,190
know I think I think the trouble that we

1809
01:12:14,710 --> 01:12:10,810
can have is the disconnect and you know

1810
01:12:18,760 --> 01:12:14,720
also your your opinion on this - let me

1811
01:12:21,550 --> 01:12:18,770
get your opinion on this and that is the

1812
01:12:23,530 --> 01:12:21,560
reluctancy of you know like for instance

1813
01:12:25,780 --> 01:12:23,540

I had contacted you a number of times

1814

01:12:29,350 --> 01:12:25,790

and said hey any chance you can get Lou

1815

01:12:31,390 --> 01:12:29,360

Alejandro I'm Alison doe on my show just

1816

01:12:33,160 --> 01:12:31,400

just briefly and we'll talk about the

1817

01:12:35,500 --> 01:12:33,170

upcoming MUFON symposium and all that

1818

01:12:36,700 --> 01:12:35,510

and it has to go for publicist has to go

1819

01:12:39,640 --> 01:12:36,710

through lawyers and they're basically

1820

01:12:41,110 --> 01:12:39,650

saying you don't know to everybody

1821

01:12:43,840 --> 01:12:41,120

because they want to make sure that he's

1822

01:12:48,010 --> 01:12:43,850

only on like coast to coast or or some

1823

01:12:49,570 --> 01:12:48,020

major media show but not someone I'm

1824

01:12:51,700 --> 01:12:49,580

gathering this you know tell me if I'm

1825

01:12:54,250 --> 01:12:51,710

wrong they don't want him on some show

1826

01:12:56,650 --> 01:12:54,260

that could be construed as fringe and

1827

01:12:59,320 --> 01:12:56,660

some type of way to muddy the reputation

1828

01:13:00,700 --> 01:12:59,330

of of what he's doing is that is that

1829

01:13:03,400 --> 01:13:00,710

kind of where that you think that might

1830

01:13:05,320 --> 01:13:03,410

be going well actually yeah Lou Lou

1831

01:13:07,630 --> 01:13:05,330

would go on anybody's show he's very

1832

01:13:12,130 --> 01:13:07,640

much a people's person I mean I a sub

1833

01:13:13,240 --> 01:13:12,140

yeah very enjoyable guy the problem is

1834

01:13:14,650 --> 01:13:13,250

there's only so much of them to go

1835

01:13:16,420 --> 01:13:14,660

around you know so they're trying to

1836

01:13:19,210 --> 01:13:16,430

protect him a little bit with I think I

1837

01:13:21,100 --> 01:13:19,220

I'm speaking Malik aunt speak on their

1838

01:13:22,240 --> 01:13:21,110

behalf but I'm just surmising they're

1839

01:13:23,830 --> 01:13:22,250

protecting him because otherwise

1840

01:13:25,450 --> 01:13:23,840

everybody wants a piece of him and

1841

01:13:26,020 --> 01:13:25,460

there's only so many pieces of them to

1842

01:13:27,850 --> 01:13:26,030

go around

1843

01:13:30,130 --> 01:13:27,860

I'm the fact that he spoke at the MUFON

1844

01:13:32,050 --> 01:13:30,140

symposium is a monumental deal because

1845

01:13:33,670 --> 01:13:32,060

originally I was told by Tom that he

1846

01:13:37,969 --> 01:13:33,680

would not be speaking at any UFO

1847

01:13:39,739 --> 01:13:37,979

conferences so you know

1848

01:13:40,969 --> 01:13:39,749

if you would like him on your show I'll

1849

01:13:41,330 --> 01:13:40,979

do my best to try to get him on your

1850

01:13:43,790 --> 01:13:41,340

show

1851

01:13:47,179 --> 01:13:43,800

aye aye all I could say is I don't

1852

01:13:48,949 --> 01:13:47,189

control him he's actually works for TTS

1853

01:13:51,529 --> 01:13:48,959

a and they booked all of his

1854

01:13:54,020 --> 01:13:51,539

appointments oh yeah yeah but I could

1855

01:13:56,239 --> 01:13:54,030

tell you they he himself would do

1856

01:13:58,159 --> 01:13:56,249

anything because he seems like that he

1857

01:13:59,569 --> 01:13:58,169

feels us yeah he just thinks it's so

1858

01:14:01,669 --> 01:13:59,579

important that people really understand

1859

01:14:03,319 --> 01:14:01,679

that this is a real deal and that it's

1860

01:14:05,270 --> 01:14:03,329

important for us to be focused on it and

1861

01:14:07,489 --> 01:14:05,280

he's trying to spend his time working

1862

01:14:08,659 --> 01:14:07,499

with the right people by the right

1863

01:14:09,949 --> 01:14:08,669

people I mean people who were actually

1864

01:14:13,100 --> 01:14:09,959

in a position to be able to do something

1865

01:14:15,560 --> 01:14:13,110

about it on behalf of all of us to make

1866

01:14:18,500 --> 01:14:15,570

it happen so we all we need to be

1867

01:14:21,469 --> 01:14:18,510

supporting him right I'll bug you until

1868

01:14:23,540 --> 01:14:21,479

you get him on my show okay we have a

1869

01:14:26,209 --> 01:14:23,550

caller caller what's your first name and

1870

01:14:28,609 --> 01:14:26,219

where are you calling from hi this is

1871

01:14:31,549 --> 01:14:28,619

Jordyn from Canada hi Jordyn welcome to

1872

01:14:33,020 --> 01:14:31,559

the show yeah great to be here Martin

1873

01:14:34,399 --> 01:14:33,030

that's it's your friend Jordan just in

1874

01:14:38,029 --> 01:14:34,409

case you don't recognize Michael my

1875

01:14:38,509 --> 01:14:38,039

voice oh yes Hey how are you I'm doing

1876

01:14:40,429 --> 01:14:38,519

great

1877

01:14:42,139 --> 01:14:40,439

I had a I had a question for Jan I'm

1878

01:14:43,639 --> 01:14:42,149

glad to see him on the show because

1879

01:14:45,169 --> 01:14:43,649

there's something that's been bothering

1880

01:14:47,540 --> 01:14:45,179

me for a while and I really wanted to

1881

01:14:49,219 --> 01:14:47,550

hear him address it in fact it's been

1882

01:14:51,589 --> 01:14:49,229

brought up on your show a few times and

1883

01:14:54,350 --> 01:14:51,599

better that is some of the allegations

1884

01:14:57,589 --> 01:14:54,360

that were made against MUFON in their

1885

01:15:00,229 --> 01:14:57,599

handling of the what was seen as racist

1886

01:15:02,209 --> 01:15:00,239

comments by by the director from I

1887

01:15:04,399 --> 01:15:02,219

believe from Pennsylvania I know Jan

1888

01:15:05,750 --> 01:15:04,409

released a statement after this all

1889

01:15:07,819 --> 01:15:05,760

happened but I just like to hear him

1890

01:15:11,540 --> 01:15:07,829

talk about it and just to back up one

1891

01:15:14,419 --> 01:15:11,550

more second is I myself am a last MUFON

1892

01:15:16,759 --> 01:15:14,429

member as a result of the handling of

1893

01:15:18,799 --> 01:15:16,769

this situation and I really want to get

1894

01:15:19,790 --> 01:15:18,809

back on T MUFON so I just hope he can

1895

01:15:22,429 --> 01:15:19,800

make me feel better

1896

01:15:24,169 --> 01:15:22,439

and let me know that MUFON doesn't

1897

01:15:26,989 --> 01:15:24,179

support those types of comments

1898

01:15:28,489 --> 01:15:26,999

well a cab solutely bouffant doesn't

1899

01:15:31,310 --> 01:15:28,499

support it and and there's nobody and

1900

01:15:33,049 --> 01:15:31,320

move on that's a racist or Eddie that I

1901

01:15:35,299 --> 01:15:33,059

mean if we're gonna ever move to the

1902

01:15:38,029 --> 01:15:35,309

next step of being in part of an

1903

01:15:40,279 --> 01:15:38,039

intergalactic society we first got to

1904

01:15:41,870 --> 01:15:40,289

get along amongst ourselves so that's

1905

01:15:43,429 --> 01:15:41,880

very very important to me and you know

1906

01:15:46,189 --> 01:15:43,439

as you know we released John from his

1907

01:15:47,449 --> 01:15:46,199

it's a volunteer job so we release it

1908

01:15:50,029 --> 01:15:47,459

from his duties

1909

01:15:51,680 --> 01:15:50,039

he's very remorseful about what happened

1910

01:15:53,710 --> 01:15:51,690

it's apologized for it

1911

01:15:55,580 --> 01:15:53,720

assistant li and many many types

1912

01:15:57,560 --> 01:15:55,590

unfortunately the damage was done

1913

01:15:59,330 --> 01:15:57,570

so when you have someone who's out there

1914

01:16:01,490 --> 01:15:59,340

on their own personal Facebook page

1915

01:16:03,920 --> 01:16:01,500

making comments say this becomes the

1916

01:16:06,130 --> 01:16:03,930

challenge of a corporation whether its

1917

01:16:10,010 --> 01:16:06,140

corporation or a non-profit like move on

1918

01:16:11,990 --> 01:16:10,020

is how much do we control are now these

1919

01:16:13,280 --> 01:16:12,000

are volunteers we don't have employees I

1920

01:16:16,010 --> 01:16:13,290

mean I'm there's only three employees

1921

01:16:17,780 --> 01:16:16,020

and all of MUFON I'm one two three so

1922

01:16:19,820 --> 01:16:17,790

how much you actually control that but

1923

01:16:21,410 --> 01:16:19,830

at the end of the day you know the

1924

01:16:22,970 --> 01:16:21,420

comments are comments and you've got to

1925

01:16:27,320 --> 01:16:22,980

take action based on those comments and

1926

01:16:29,270 --> 01:16:27,330

we did that and you know John is kind of

1927

01:16:30,890 --> 01:16:29,280

just missed himself from MUFON and is

1928

01:16:34,160 --> 01:16:30,900

off doing his own thing and I wish him

1929

01:16:37,190 --> 01:16:34,170

well and you know I he would be the

1930

01:16:40,610 --> 01:16:37,200

first one to tell you that he's very

1931

01:16:42,230 --> 01:16:40,620

remorseful for what happened and and if

1932

01:16:45,320 --> 01:16:42,240

he could take it all back he would so

1933

01:16:46,490 --> 01:16:45,330

that's all I can tell you yeah and one

1934

01:16:49,700 --> 01:16:46,500

of the things there's been some

1935

01:16:53,300 --> 01:16:49,710

criticism or maybe some allegations made

1936

01:16:55,760 --> 01:16:53,310

from primarily by Chris Cogswell who

1937

01:16:59,480 --> 01:16:55,770

left MUFON as a result of the handling

1938

01:17:01,700 --> 01:16:59,490

of of John and the allegations Christmas

1939

01:17:03,440 --> 01:17:01,710

Cogswell admitted that John may have

1940

01:17:06,260 --> 01:17:03,450

stepped down as director but is still

1941

01:17:08,840 --> 01:17:06,270

largely working with MUFON behind the

1942

01:17:11,000 --> 01:17:08,850

scenes can you tell me is is he still

1943

01:17:12,650 --> 01:17:11,010

with MUFON in some capacity maybe not an

1944

01:17:15,980 --> 01:17:12,660

official director but is he still

1945

01:17:20,440 --> 01:17:15,990

working with MUFON well no he's not

1946

01:17:24,410 --> 01:17:20,450

solo you can hear me yeah I hear you

1947

01:17:32,720 --> 01:17:24,420

this end we just have so many calls

1948

01:17:34,250 --> 01:17:32,730

coming in for some reason so they're

1949

01:17:36,260 --> 01:17:34,260

gonna have to wait you didn't have to

1950

01:17:38,300 --> 01:17:36,270

wait your turn okay oh wait and now

1951

01:17:40,040 --> 01:17:38,310

please anyone that calls in has to mute

1952

01:17:42,190 --> 01:17:40,050

their computer please mute your computer

1953

01:17:44,720 --> 01:17:42,200

oh okay yeah I'll turn right down though

1954

01:17:47,330 --> 01:17:44,730

go ahead I'm sorry about that everyone

1955

01:17:50,150 --> 01:17:47,340

that's okay so I think it's Jason it's

1956

01:17:51,140 --> 01:17:50,160

Jason right but can Jordan yes Jordan

1957

01:17:52,970 --> 01:17:51,150

I'm sorry I apology

1958

01:17:54,890 --> 01:17:52,980

so Jordan yeah so the answer is no he's

1959

01:17:57,020 --> 01:17:54,900

not he's no longer I mean you know you

1960

01:18:00,050 --> 01:17:57,030

could be a member of MUFON right John

1961

01:18:03,020 --> 01:18:00,060

had had bought a benefactor package

1962

01:18:04,550 --> 01:18:03,030

years ago so I mean he gets tickets the

1963

01:18:05,660 --> 01:18:04,560

journal I mean he's like a subscriber

1964

01:18:08,450 --> 01:18:05,670

it'd be like you know getting

1965

01:18:11,330 --> 01:18:08,460

National Geographic in your block so I

1966

01:18:13,040 --> 01:18:11,340

don't consider that to be this they

1967

01:18:15,830 --> 01:18:13,050

actively evolved so no he's no longer

1968

01:18:22,280 --> 01:18:15,840

actively involved in move fun I mean

1969

01:18:23,600 --> 01:18:22,290

pretty ballin including but yeah and I

1970

01:18:26,060 --> 01:18:23,610

was gonna say that includes like

1971

01:18:28,640 --> 01:18:26,070

planning of the symposium and working in

1972

01:18:31,130 --> 01:18:28,650

that type of capacity yeah well so what

1973

01:18:32,900 --> 01:18:31,140

he would he would he was state director

1974

01:18:35,600 --> 01:18:32,910

we put the symposium in Philadelphia

1975

01:18:38,030 --> 01:18:35,610

actually Cherry Hill New Jersey he was

1976

01:18:40,040 --> 01:18:38,040

the state director at the time since

1977

01:18:42,229 --> 01:18:40,050

that time he was removed but you know he

1978

01:18:43,760 --> 01:18:42,239

was guy originally set it up so we had

1979

01:18:45,380 --> 01:18:43,770

to get a different team to go in there

1980

01:18:48,290 --> 01:18:45,390

and run the symposium which we did

1981

01:18:50,300 --> 01:18:48,300

Jennifer spine her team Fred Saluja

1982

01:18:53,990 --> 01:18:50,310

Bill Weber and the other guys who

1983

01:18:55,760 --> 01:18:54,000

pitched in to make it happen okay and I

1984

01:18:58,610 --> 01:18:55,770

don't want to be to beat a dead horse

1985

01:19:00,830 --> 01:18:58,620

but the allegation Chris Cogswell made

1986

01:19:03,320 --> 01:19:00,840

was as recently as just a few months ago

1987

01:19:06,050 --> 01:19:03,330

when he when he resigned as ugly

1988

01:19:08,930 --> 01:19:06,060

director of research for MUFON at that

1989

01:19:11,300 --> 01:19:08,940

point he his what he said in some of his

1990

01:19:14,419 --> 01:19:11,310

interviews was that John was still

1991

01:19:17,270 --> 01:19:14,429

working for the symposium which led to

1992

01:19:17,660 --> 01:19:17,280

Cogswell's resignation is that not

1993

01:19:20,000 --> 01:19:17,670

correct

1994

01:19:21,560 --> 01:19:20,010

well John Sean had volunteered to help

1995

01:19:25,340 --> 01:19:21,570

out if they needed him about John was

1996

01:19:28,520 --> 01:19:25,350

not at the symposium so I'd say it's not

1997

01:19:30,200 --> 01:19:28,530

correct but you know I mean anyone can

1998

01:19:32,360 --> 01:19:30,210

volunteer to help you know we're not

1999

01:19:33,530 --> 01:19:32,370

gonna turn people away you know we're

2000

01:19:34,700 --> 01:19:33,540

not gonna check everybody's Facebook

2001

01:19:37,400 --> 01:19:34,710

pages and make sure that they're all

2002

01:19:38,600 --> 01:19:37,410

totally clean we're gonna let people do

2003

01:19:40,880 --> 01:19:38,610

what they want to do because it's

2004

01:19:42,740 --> 01:19:40,890

volunteer organization but but John is

2005

01:19:46,010 --> 01:19:42,750

no longer associated with MUFON that's

2006

01:19:48,830 --> 01:19:46,020

that's about line yeah after the recent

2007

01:19:51,500 --> 01:19:48,840

symposium that he volunteered for having

2008

01:19:55,010 --> 01:19:51,510

already been outed as a known racist

2009

01:19:58,280 --> 01:19:55,020

that was either quit or resigned oh okay

2010

01:19:59,150 --> 01:19:58,290

I follow you okay well thank you for for

2011

01:20:01,459 --> 01:19:59,160

answering that question

2012

01:20:04,010 --> 01:20:01,469

alright thanks for the call Jordan you

2013

01:20:05,240 --> 01:20:04,020

take care thank you all right now we

2014

01:20:07,550 --> 01:20:05,250

have another caller we have a bunch of

2015

01:20:09,709 --> 01:20:07,560

people trying to call in and if you

2016

01:20:12,020 --> 01:20:09,719

could please with your calling and make

2017

01:20:14,479 --> 01:20:12,030

sure you mute your your computer and

2018

01:20:16,490 --> 01:20:14,489

also be patient

2019

01:20:19,310 --> 01:20:16,500

we have a caller now your first name and

2020

01:20:19,729 --> 01:20:19,320

where you're calling from hi I'm Kevin

2021

01:20:22,970 --> 01:20:19,739

neat

2022

01:20:25,190 --> 01:20:22,980

and I'm from upstate New York uh about

2023

01:20:28,490 --> 01:20:25,200

six miles north of Lake George New York

2024

01:20:29,660 --> 01:20:28,500

about 50 miles north of Albany oh it

2025

01:20:32,540 --> 01:20:29,670

says I just want to let the guys know

2026

01:20:34,280 --> 01:20:32,550

that I've seen some things in the sky

2027

01:20:36,020 --> 01:20:34,290

and I know exactly what they are I know

2028

01:20:39,110 --> 01:20:36,030

they're not ours

2029

01:20:40,790 --> 01:20:39,120

probably about five years ago had to be

2030

01:20:45,260 --> 01:20:40,800

to work at two o'clock in the afternoon

2031

01:20:48,860 --> 01:20:45,270

I left exit 21 also the North way having

2032

01:20:51,740 --> 01:20:48,870

cells and it was a very very very windy

2033

01:20:53,979 --> 01:20:51,750

day it was cloudy but didn't black out

2034

01:20:57,350 --> 01:20:53,989

the Sun there was just patches of clouds

2035

01:20:59,630 --> 01:20:57,360

and I Drive a Honda Element and it's got

2036

01:21:01,459 --> 01:20:59,640

no I got a lot of visibility in the

2037

01:21:03,260 --> 01:21:01,469

front windshield so I left my house at

2038

01:21:09,050 --> 01:21:03,270

one o'clock I had a GPS with the

2039

01:21:11,840 --> 01:21:09,060

Bluetooth capability hands-free and I go

2040

01:21:14,420 --> 01:21:11,850

down the road with heading south and I

2041

01:21:16,040 --> 01:21:14,430

see this little black straight line up

2042

01:21:17,390 --> 01:21:16,050

in the sky to the left and it looked

2043

01:21:20,450 --> 01:21:17,400

like there was two three thousand feet

2044

01:21:21,530 --> 01:21:20,460

up and it was but it didn't shine in the

2045

01:21:24,500 --> 01:21:21,540

light off and I thought it might have

2046

01:21:27,020 --> 01:21:24,510

been a an airliner right so I'm coming

2047

01:21:30,440 --> 01:21:27,030

up the North way and there's you know

2048

01:21:33,290 --> 01:21:30,450

there's a incline to the north way and I

2049

01:21:35,630 --> 01:21:33,300

lost track it between this the north and

2050

01:21:38,120 --> 01:21:35,640

the south bound line lanes the trees

2051
01:21:41,270 --> 01:21:38,130
blocked it out I got toward the top of

2052
01:21:43,640 --> 01:21:41,280
the hill and the next exit was exit 19

2053
01:21:46,820 --> 01:21:43,650
of the North Quay which attention to as

2054
01:21:49,760 --> 01:21:46,830
falls Queen for New York and probably I

2055
01:21:52,700 --> 01:21:49,770
don't know about a half a mile from the

2056
01:21:55,610 --> 01:21:52,710
exit I see this black line that's a lot

2057
01:21:57,950 --> 01:21:55,620
closer and it's a lot lower because it's

2058
01:22:00,650 --> 01:21:57,960
closer and I've seen a beautiful blue

2059
01:22:02,660 --> 01:22:00,660
light blinking from end to end of this

2060
01:22:04,900 --> 01:22:02,670
little black speck know what's going

2061
01:22:07,550 --> 01:22:04,910
very well and it was it was kind of low

2062
01:22:09,770 --> 01:22:07,560
and I get about I don't know about a

2063
01:22:12,290 --> 01:22:09,780

quarter of a mile from the exit and I'm

2064

01:22:14,360 --> 01:22:12,300

looking at a ninety to a hundred foot

2065

01:22:17,690 --> 01:22:14,370

diameter classic disc

2066

01:22:19,940 --> 01:22:17,700

salad it was all black there was not a

2067

01:22:23,360 --> 01:22:19,950

scene in it it looked like it was liquid

2068

01:22:26,180 --> 01:22:23,370

metal and when it went with it no it was

2069

01:22:28,040 --> 01:22:26,190

only about 300 feet in the air it was

2070

01:22:29,420 --> 01:22:28,050

going from my left to my right and I

2071

01:22:30,560 --> 01:22:29,430

told my girlfriend I said you wouldn't

2072

01:22:33,020 --> 01:22:30,570

believe what I'm looking at right now

2073

01:22:35,180 --> 01:22:33,030

nothing was blocking us at all

2074

01:22:37,960 --> 01:22:35,190

Edison time they were like licking your

2075

01:22:40,490 --> 01:22:37,970

face right now on the screen that clear

2076
01:22:43,520 --> 01:22:40,500
when it went over a head and to my right

2077
01:22:44,720 --> 01:22:43,530
I was probably you know always I was

2078
01:22:46,610 --> 01:22:44,730
going to turn off on the North Way and

2079
01:22:47,990 --> 01:22:46,620
make a light I started slowing down you

2080
01:22:49,430 --> 01:22:48,000
know she goes get out and get a pickle

2081
01:22:52,370 --> 01:22:49,440
you know when you see something like

2082
01:22:53,480 --> 01:22:52,380
that I don't know you kind of freeze a

2083
01:22:55,490 --> 01:22:53,490
little bit because you don't want to

2084
01:22:56,900 --> 01:22:55,500
miss what it's gonna do you're crazy to

2085
01:22:58,340 --> 01:22:56,910
get a get out you're gonna miss it so I

2086
01:23:00,950 --> 01:22:58,350
started I'm watching and I'm looking at

2087
01:23:04,340 --> 01:23:00,960
driving over right and right underneath

2088
01:23:06,710 --> 01:23:04,350

it there was a circle that was dead

2089

01:23:08,720 --> 01:23:06,720

center flush up against the bottom of it

2090

01:23:11,450 --> 01:23:08,730

it was color of a milk carton without

2091

01:23:14,780 --> 01:23:11,460

the milk in a light gray and that blue

2092

01:23:16,340 --> 01:23:14,790

light that I had seen was Ashley I know

2093

01:23:18,290 --> 01:23:16,350

probably not to go illusion whatever

2094

01:23:20,030 --> 01:23:18,300

because there was one blue light that

2095

01:23:21,830 --> 01:23:20,040

was going around the center of this you

2096

01:23:24,470 --> 01:23:21,840

want to follow counterclockwise very

2097

01:23:27,860 --> 01:23:24,480

squall and it did a very slow wobble

2098

01:23:29,510 --> 01:23:27,870

from my left to the right and I would

2099

01:23:32,390 --> 01:23:29,520

say that that thing wasn't going more

2100

01:23:32,960 --> 01:23:32,400

than 45 miles an hour like I said it was

2101

01:23:37,430 --> 01:23:32,970

huge

2102

01:23:39,140 --> 01:23:37,440

been a balloon and it wasn't no ballon

2103

01:23:43,420 --> 01:23:39,150

it's nothing that that we have on this

2104

01:23:45,380 --> 01:23:43,430

earth and so I got off to the diner ramp

2105

01:23:46,850 --> 01:23:45,390

got out and walked and there's some

2106

01:23:49,280 --> 01:23:46,860

pretty sorry right I couldn't see that

2107

01:23:52,820 --> 01:23:49,290

I'm the ramp I went over to the quick

2108

01:23:54,560 --> 01:23:52,830

click left over off x19 there to a

2109

01:23:56,810 --> 01:23:54,570

mobile station get out in the parking

2110

01:23:59,180 --> 01:23:56,820

lot look and it was completely gone it

2111

01:24:00,860 --> 01:23:59,190

wasn't there anymore a couple days ago

2112

01:24:04,010 --> 01:24:00,870

at work in Lake George I was telling

2113

01:24:06,260 --> 01:24:04,020

this kid it was like 17 years old about

2114

01:24:08,300 --> 01:24:06,270

what I had seen and he says you know

2115

01:24:10,430 --> 01:24:08,310

that that sounds familiar that story was

2116

01:24:13,130 --> 01:24:10,440

when I was about five years when I did

2117

01:24:15,320 --> 01:24:13,140

it I was going to clean the very central

2118

01:24:17,900 --> 01:24:15,330

school he said there were some kids this

2119

01:24:20,600 --> 01:24:17,910

thought something just like that so that

2120

01:24:22,610 --> 01:24:20,610

was just verification of it so I never

2121

01:24:24,620 --> 01:24:22,620

did report I've never made any reports

2122

01:24:26,300 --> 01:24:24,630

to move on and stuff but you know I know

2123

01:24:28,040 --> 01:24:26,310

I know what that is and I know you guys

2124

01:24:30,560 --> 01:24:28,050

know what it is to it that's not that's

2125

01:24:33,290 --> 01:24:30,570

nothing that we have yeah and you can

2126
01:24:34,850 --> 01:24:33,300
also do that ya know it's a great report

2127
01:24:37,400 --> 01:24:34,860
I mean you should still share that with

2128
01:24:38,840 --> 01:24:37,410
MUFON you know we get a certain fraction

2129
01:24:40,220 --> 01:24:38,850
I don't know if it's 15 20 percent of

2130
01:24:42,710 --> 01:24:40,230
our reports every year that are actually

2131
01:24:44,600 --> 01:24:42,720
from prior years and some coin mech many

2132
01:24:46,700 --> 01:24:44,610
many years you know I never reported my

2133
01:24:49,190 --> 01:24:46,710
sighting in 1965

2134
01:24:52,400 --> 01:24:49,200
I I actually I did put it in the MUFON

2135
01:24:53,750 --> 01:24:52,410
database a little bit later but you know

2136
01:24:55,220 --> 01:24:53,760
I think it's important we collect this

2137
01:24:58,940 --> 01:24:55,230
data because it's important the

2138
01:25:02,090 --> 01:24:58,950

scientists are you yeah I should because

2139

01:25:04,670 --> 01:25:02,100

because I was going to work that had to

2140

01:25:07,490 --> 01:25:04,680

be work at two o'clock so I saw that

2141

01:25:09,530 --> 01:25:07,500

about 1:10 p.m. in the afternoon you

2142

01:25:11,090 --> 01:25:09,540

know I had told my supervisor and

2143

01:25:12,470 --> 01:25:11,100

another lady that worked at the place

2144

01:25:14,810 --> 01:25:12,480

where I was been and she told me that

2145

01:25:17,090 --> 01:25:14,820

she had worked I said you wouldn't

2146

01:25:19,160 --> 01:25:17,100

believe what I Todd what and I didn't

2147

01:25:21,790 --> 01:25:19,170

tell you used to work something that the

2148

01:25:25,700 --> 01:25:21,800

CIA knows while I work for the CIA and

2149

01:25:27,590 --> 01:25:25,710

in some sort of capacity and I told her

2150

01:25:28,940 --> 01:25:27,600

and she just smiles you as well that's

2151

01:25:30,770 --> 01:25:28,950

all I said have you ever seen anything

2152

01:25:32,990 --> 01:25:30,780

like that she goes I haven't she goes

2153

01:25:35,390 --> 01:25:33,000

but I had a friend a male friend of mine

2154

01:25:37,880 --> 01:25:35,400

that lead live in Queensberry over by

2155

01:25:40,190 --> 01:25:37,890

the Queensbury school that years ago had

2156

01:25:43,220 --> 01:25:40,200

filmed something in the air and he'd

2157

01:25:45,440 --> 01:25:43,230

recorded it and I think the FBI showed

2158

01:25:48,230 --> 01:25:45,450

up or some government agency and took

2159

01:25:50,210 --> 01:25:48,240

his pictures they chopped his doors and

2160

01:25:53,030 --> 01:25:50,220

they took them away from him so all

2161

01:25:56,060 --> 01:25:53,040

right I appreciate that

2162

01:25:58,310 --> 01:25:56,070

thanks a lot what go ahead I always yeah

2163

01:26:00,560 --> 01:25:58,320

what I always tell people is if you ever

2164

01:26:02,270 --> 01:26:00,570

have someone approach you and demand to

2165

01:26:03,830 --> 01:26:02,280

have your pictures ask to see their

2166

01:26:05,390 --> 01:26:03,840

identification first and write down

2167

01:26:07,400 --> 01:26:05,400

their name and the organization they're

2168

01:26:09,110 --> 01:26:07,410

with because we get these we get these

2169

01:26:10,280 --> 01:26:09,120

reports all the time from people saying

2170

01:26:11,630 --> 01:26:10,290

you know this was taken two that was

2171

01:26:19,270 --> 01:26:11,640

taken but they can't ever tell me who

2172

01:26:26,030 --> 01:26:20,950

here we go

2173

01:26:27,410 --> 01:26:26,040

we lost him yeah I think I might have

2174

01:26:29,990 --> 01:26:27,420

done this

2175

01:26:31,790 --> 01:26:30,000

I have my own merit and I think I did

2176

01:26:35,300 --> 01:26:31,800

that by accident okay I did that two

2177

01:26:37,550 --> 01:26:35,310

weeks in a row now so anyway yeah that's

2178

01:26:39,530 --> 01:26:37,560

a little interesting so we have another

2179

01:26:40,190 --> 01:26:39,540

caller on and your your name where you

2180

01:26:44,360 --> 01:26:40,200

calling from

2181

01:26:48,830 --> 01:26:44,370

yeah Ronald from Minnesota I'm radio on

2182

01:26:52,130 --> 01:26:48,840

the chat so radio yep I had a question

2183

01:26:55,790 --> 01:26:52,140

for Jan I tried to contact the director

2184

01:26:59,000 --> 01:26:55,800

in Colorado I'm trying to collect the

2185

01:27:00,439 --> 01:26:59,010

state directors names and email

2186

01:27:03,259 --> 01:27:00,449

addresses and things

2187

01:27:05,379 --> 01:27:03,269

stories so that we can share them

2188

01:27:10,729 --> 01:27:05,389

because I can share them on my station

2189

01:27:13,370 --> 01:27:10,739

you know I would like to my goal for

2190

01:27:16,790 --> 01:27:13,380

that is to get the information out there

2191

01:27:19,759 --> 01:27:16,800

and make people a little bit more aware

2192

01:27:21,169 --> 01:27:19,769

of what we're talking about and of

2193

01:27:23,600 --> 01:27:21,179

course to make people a little more

2194

01:27:25,939 --> 01:27:23,610

comfortable about what we're talking

2195

01:27:29,899 --> 01:27:25,949

about I mean the whole point is to

2196

01:27:32,120 --> 01:27:29,909

listen lessen the fear of what we think

2197

01:27:34,910 --> 01:27:32,130

you are those are a lot of people think

2198

01:27:37,100 --> 01:27:34,920

they're aliens are evil or whatever and

2199

01:27:38,330 --> 01:27:37,110

I don't think they're any of those

2200

01:27:40,729 --> 01:27:38,340

things I think there's something we

2201

01:27:43,729 --> 01:27:40,739

don't understand yet and part of the

2202

01:27:46,250 --> 01:27:43,739

part of the understanding is knowing is

2203

01:27:49,040 --> 01:27:46,260

knowledge you know and so I think that

2204

01:27:50,859 --> 01:27:49,050

if I have some shows to share already

2205

01:27:54,259 --> 01:27:50,869

talking with Eric Hartwig of

2206

01:27:56,660 --> 01:27:54,269

Massachusetts sure and so he state

2207

01:27:58,790 --> 01:27:56,670

director of Massachusetts and as I can

2208

01:28:02,779 --> 01:27:58,800

get some more state directors have had

2209

01:28:04,689 --> 01:28:02,789

experiences that can give me some you

2210

01:28:07,209 --> 01:28:04,699

know good information that I can share

2211

01:28:10,069 --> 01:28:07,219

you know on my station or on my website

2212

01:28:12,410 --> 01:28:10,079

you know which is the same radio calm

2213

01:28:14,479 --> 01:28:12,420

and I think we're all in the same

2214

01:28:16,370 --> 01:28:14,489

ballpark just trying to get the

2215

01:28:18,069 --> 01:28:16,380

information out there we need to be on

2216

01:28:20,419 --> 01:28:18,079

the same page now

2217

01:28:24,259 --> 01:28:20,429

absolutely god bless you for doing that

2218

01:28:25,640 --> 01:28:24,269

that's awesome so here's how you here's

2219

01:28:28,279 --> 01:28:25,650

how you go about doing that you go to

2220

01:28:30,830 --> 01:28:28,289

the Buffon comm website you you run your

2221

01:28:32,930 --> 01:28:30,840

cursor over join and the drop-down menu

2222

01:28:35,029 --> 01:28:32,940

comes down and about the fifth one down

2223

01:28:37,609 --> 01:28:35,039

is just find a chapter click on that

2224

01:28:39,560 --> 01:28:37,619

it'll bring up a page and you scroll

2225

01:28:40,939 --> 01:28:39,570

down the page as all of our state

2226

01:28:43,339 --> 01:28:40,949

chapters listed all our international

2227

01:28:45,229 --> 01:28:43,349

chapters listed and they'll be emailed

2228

01:28:47,149 --> 01:28:45,239

yeah and there's a little box says you

2229

01:28:48,680 --> 01:28:47,159

know send an email if you run your

2230

01:28:49,850 --> 01:28:48,690

cursor over that little boxes as email

2231

01:28:51,439 --> 01:28:49,860

you look at the bottom left-hand corner

2232

01:28:53,149 --> 01:28:51,449

of your screen you'll see the actual

2233

01:29:00,199 --> 01:28:53,159

email address you can type those in and

2234

01:29:01,810 --> 01:29:00,209

yeah yeah exactly yeah all right you're

2235

01:29:06,890 --> 01:29:01,820

welcome yeah thanks for the call

2236

01:29:09,770 --> 01:29:06,900

thank you but all right so let's kind of

2237

01:29:12,979 --> 01:29:09,780

shift gears a little bit here Jan you

2238

01:29:16,640 --> 01:29:12,989

were talking about the use of

2239

01:29:21,080 --> 01:29:16,650

MUFON basically helping you know things

2240

01:29:23,569 --> 01:29:21,090

along here do you think do you think the

2241

01:29:24,679 --> 01:29:23,579

government if the well here is a

2242

01:29:26,629 --> 01:29:24,689

question I'm gonna ask two different

2243

01:29:29,689 --> 01:29:26,639

questions here first of all sure do you

2244

01:29:31,250 --> 01:29:29,699

think the government and my thoughts are

2245

01:29:34,509 --> 01:29:31,260

they don't say that they know what

2246

01:29:37,640 --> 01:29:34,519

they're seeing what are your thoughts I

2247

01:29:39,560 --> 01:29:37,650

I think they have a pretty good idea and

2248

01:29:43,310 --> 01:29:39,570

what they're saying you'll notice

2249

01:29:45,859 --> 01:29:43,320

they're not talking about it mainly for

2250

01:29:48,379 --> 01:29:45,869

two reasons one is because there's it's

2251

01:29:49,549 --> 01:29:48,389

gonna open up a whole nother it's

2252

01:29:52,489 --> 01:29:49,559

beginning of the show I talked about

2253

01:29:54,709 --> 01:29:52,499

this is step one to disclosure is just

2254

01:29:56,149 --> 01:29:54,719

coming to the stark realization all of

2255

01:30:00,469 --> 01:29:56,159

us on this planet that we're not alone

2256

01:30:01,819 --> 01:30:00,479

and today although we all believe all

2257

01:30:04,040 --> 01:30:01,829

the people listed on the show probably

2258

01:30:06,439 --> 01:30:04,050

believe the vast majority the general

2259

01:30:08,029 --> 01:30:06,449

public doesn't believe or they may think

2260

01:30:10,759 --> 01:30:08,039

that there's other people out there but

2261

01:30:12,770 --> 01:30:10,769

they think it's some more far away it's

2262

01:30:14,629 --> 01:30:12,780

not affecting me now I mean it's very

2263

01:30:18,529 --> 01:30:14,639

clear to me they're not only here but

2264

01:30:21,080 --> 01:30:18,539

they're here so I think we have to get

2265

01:30:24,259 --> 01:30:21,090

everybody on that page first and then

2266

01:30:26,390 --> 01:30:24,269

the next step becomes who are they why

2267

01:30:29,149 --> 01:30:26,400

are they here you know what do they want

2268

01:30:30,560 --> 01:30:29,159

and those kind of questions and that is

2269

01:30:32,870 --> 01:30:30,570

going to open up a whole nother

2270

01:30:33,919 --> 01:30:32,880

conversation that's gonna be all over

2271

01:30:35,270 --> 01:30:33,929

the place I mean it's gonna be

2272

01:30:38,359 --> 01:30:35,280

everything from the devil and the demons

2273

01:30:41,060 --> 01:30:38,369

to you know interdimensional beings to

2274

01:30:42,739 --> 01:30:41,070

trim' travelers to you know

2275

01:30:45,229 --> 01:30:42,749

extraterrestrials living on other

2276

01:30:48,469 --> 01:30:45,239

planets to other other people living in

2277

01:30:50,209 --> 01:30:48,479

other universes other other dimensions

2278

01:30:51,679 --> 01:30:50,219

and others other places in space and

2279

01:30:53,660 --> 01:30:51,689

time I think space time is really the

2280

01:30:59,989 --> 01:30:53,670

key here that's why I talked about that

2281

01:31:01,669 --> 01:30:59,999

book by Robert Bly got his name the guy

2282

01:31:03,560 --> 01:31:01,679

who founded the Monroe is too so it's

2283

01:31:06,049 --> 01:31:03,570

Robert Monroe who wrote the book because

2284

01:31:07,759 --> 01:31:06,059

he talks about these people going out of

2285

01:31:10,489 --> 01:31:07,769

body and going to these other places in

2286

01:31:11,870 --> 01:31:10,499

space and time we might find our

2287

01:31:14,029 --> 01:31:11,880

universe is much more strange than we

2288

01:31:15,350 --> 01:31:14,039

ever thought it was but I think there's

2289

01:31:17,000 --> 01:31:15,360

nothing that says it can't be all of

2290

01:31:18,620 --> 01:31:17,010

these things you know it can't be it

2291

01:31:20,779 --> 01:31:18,630

could be all of these things happening

2292

01:31:23,660 --> 01:31:20,789

simultaneously and getting reported to

2293

01:31:26,060 --> 01:31:23,670

us as UFOs or as ETS and we're just

2294

01:31:27,859 --> 01:31:26,070

writing it all down

2295

01:31:29,930 --> 01:31:27,869

what about the cryptids you know what

2296

01:31:33,080 --> 01:31:29,940

about these these strange animal types

2297

01:31:34,910 --> 01:31:33,090

that run around where does this all come

2298

01:31:37,760 --> 01:31:34,920

from and and maybe it's all tied back to

2299

01:31:39,439 --> 01:31:37,770

consciousness so I think they need to

2300

01:31:41,060 --> 01:31:39,449

first just get the fact that these

2301

01:31:43,939 --> 01:31:41,070

things are real they're here they're

2302

01:31:45,979 --> 01:31:43,949

physical their technological and their

2303

01:31:47,330 --> 01:31:45,989

advanced and they're not us and once you

2304

01:31:49,910 --> 01:31:47,340

get beyond that then you can go to the

2305

01:31:51,319 --> 01:31:49,920

next set of questions confidently and

2306

01:31:53,140 --> 01:31:51,329

start tackling that and that'll probably

2307

01:31:56,959 --> 01:31:53,150

take us another 50 years to figure out

2308

01:31:59,060 --> 01:31:56,969

okay yeah when when I had that tough I

2309

01:32:02,479 --> 01:31:59,070

had scheduled the one-on-one you know

2310

01:32:05,149 --> 01:32:02,489

dinner with Allah with Lois Elizondo and

2311

01:32:07,310 --> 01:32:05,159

I wish his name wasn't so close to

2312

01:32:08,149 --> 01:32:07,320

Alejandro Rojas yeah I get the two

2313

01:32:12,140 --> 01:32:08,159

confused sometimes

2314

01:32:14,060 --> 01:32:12,150

yeah yeah so when I had that scheduled

2315

01:32:16,879 --> 01:32:14,070

before he had to leave on the emergency

2316

01:32:19,669 --> 01:32:16,889

or whatever it was the one question I

2317

01:32:23,419 --> 01:32:19,679

was going to ask him is why now you know

2318

01:32:26,000 --> 01:32:23,429

why did this come out now

2319

01:32:28,220 --> 01:32:26,010

and that wasn't my question that was I

2320

01:32:30,589 --> 01:32:28,230

think that was Stan Freeman I asked him

2321

01:32:32,540 --> 01:32:30,599

like the week after this came out and

2322

01:32:34,700 --> 01:32:32,550

that was his first question was why now

2323

01:32:36,620 --> 01:32:34,710

and that's one question I wanted to ask

2324

01:32:39,410 --> 01:32:36,630

him and there was a question that came

2325

01:32:42,080 --> 01:32:39,420

in the chat room that I have to direct

2326

01:32:45,439 --> 01:32:42,090

toward you but before that what do you

2327

01:32:48,560 --> 01:32:45,449

think about the why now think wide ask

2328

01:32:51,520 --> 01:32:48,570

the question why not now hmm but do you

2329

01:32:54,680 --> 01:32:51,530

think there's some type of event that's

2330

01:32:58,760 --> 01:32:54,690

that is like heading our way or

2331

01:33:03,970 --> 01:32:58,770

something for the reason I don't know I

2332

01:33:06,560 --> 01:33:03,980

I don't know I don't think I hope not I

2333

01:33:07,790 --> 01:33:06,570

think and I've written about this for

2334

01:33:11,780 --> 01:33:07,800

the last couple years as executive

2335

01:33:14,300 --> 01:33:11,790

director we are living at a time when

2336

01:33:16,970 --> 01:33:14,310

you've got all these private space

2337

01:33:19,910 --> 01:33:16,980

programs you know SpaceX of Virgin

2338

01:33:21,200 --> 01:33:19,920

Galactic Bigelow Aerospace you know

2339

01:33:22,850 --> 01:33:21,210

there's there's actually about a half

2340

01:33:25,850 --> 01:33:22,860

dozen to a dozen of these guys that are

2341

01:33:28,750 --> 01:33:25,860

out there Blue Horizon by V so and his

2342

01:33:31,339 --> 01:33:28,760

group Amazon I mean they are out there

2343

01:33:34,010 --> 01:33:31,349

pushing the boundaries of space travel

2344

01:33:35,870 --> 01:33:34,020

at the same time you've got NASA pushing

2345

01:33:37,430 --> 01:33:35,880

the boundaries of warp speed trying to

2346

01:33:39,649 --> 01:33:37,440

get out intergalactically you know get

2347

01:33:41,629 --> 01:33:39,659

out interstellar

2348

01:33:44,419 --> 01:33:41,639

so we are right on the precipice of

2349

01:33:47,209 --> 01:33:44,429

about to be heading out there in mass I

2350

01:33:48,620 --> 01:33:47,219

mean it's no longer the 357 or Robert

2351

01:33:51,290 --> 01:33:48,630

any astronauts at event it's going to be

2352

01:33:52,729 --> 01:33:51,300

all of us out there in space so once

2353

01:33:55,820 --> 01:33:52,739

you're there it's hard to hide anything

2354

01:33:57,939 --> 01:33:55,830

I mean you're out there right so I think

2355

01:34:00,770 --> 01:33:57,949

it's just time for it to come out I mean

2356

01:34:02,899 --> 01:34:00,780

yeah and it's always possible there's

2357

01:34:04,550 --> 01:34:02,909

some kind of event coming I don't I've

2358

01:34:06,500 --> 01:34:04,560

not heard about it I've no I don't know

2359

01:34:10,040 --> 01:34:06,510

anything personally about it I hope it's

2360

01:34:11,720 --> 01:34:10,050

not coming but I welcome the fact that

2361

01:34:13,729 --> 01:34:11,730

we're now starting to talk about this in

2362

01:34:16,370 --> 01:34:13,739

intelligent you know circles right we're

2363

01:34:19,010 --> 01:34:16,380

we have actually people who before would

2364

01:34:20,479 --> 01:34:19,020

laugh at any of us for what we do and

2365

01:34:23,629 --> 01:34:20,489

I've plenty of plenty of people laugh at

2366

01:34:25,669 --> 01:34:23,639

me you know now saying oh my gosh you

2367

01:34:27,560 --> 01:34:25,679

know what you said was true you know and

2368

01:34:28,850 --> 01:34:27,570

I'd like yeah if I've been telling it's

2369

01:34:32,930 --> 01:34:28,860

true you know

2370

01:34:35,990 --> 01:34:32,940

so it opens up the dialogue to a much

2371

01:34:38,450 --> 01:34:36,000

broader audience and it incorporates all

2372

01:34:40,399 --> 01:34:38,460

of humanity not just those people who

2373

01:34:42,560 --> 01:34:40,409

are part of the UFO community and I

2374

01:34:45,919 --> 01:34:42,570

think that's terrific one of the

2375

01:34:48,560 --> 01:34:45,929

questions that came in the chat room the

2376

01:34:51,890 --> 01:34:48,570

guy wrote something along the lines he

2377

01:34:54,590 --> 01:34:51,900

wanted me to ask you if you were since

2378

01:34:56,780 --> 01:34:54,600

you were basically hanging out with Lou

2379

01:35:02,149 --> 01:34:56,790

Elizondo no did he tell you anything

2380

01:35:06,229 --> 01:35:02,159

juicy and if he did you know yep well

2381

01:35:08,120 --> 01:35:06,239

know what he's heard when I write you

2382

01:35:11,300 --> 01:35:08,130

did tell me anything secret um every

2383

01:35:13,520 --> 01:35:11,310

what he did tell me was look Jan I still

2384

01:35:14,689 --> 01:35:13,530

hold security clearances and I am NOT

2385

01:35:16,010 --> 01:35:14,699

going to violate violate the security

2386

01:35:18,590 --> 01:35:16,020

clearance I think there's some confusion

2387

01:35:20,479 --> 01:35:18,600

back when the tic-tac video came out

2388

01:35:22,220 --> 01:35:20,489

that people were saying oh we've got

2389

01:35:24,500 --> 01:35:22,230

this classified video well it wasn't

2390

01:35:27,790 --> 01:35:24,510

classified it was it was actually marked

2391

01:35:32,870 --> 01:35:27,800

as as I understand it it was marked as

2392

01:35:34,640 --> 01:35:32,880

not highly unusual but basically it's

2393

01:35:37,100 --> 01:35:34,650

the level right below of classification

2394

01:35:39,379 --> 01:35:37,110

but it's basically where it's very

2395

01:35:41,510 --> 01:35:39,389

important kind of stuff so they were

2396

01:35:45,290 --> 01:35:41,520

able to get it out of the Pentagon and

2397

01:35:47,660 --> 01:35:45,300

get it released for the public what he

2398

01:35:50,209 --> 01:35:47,670

has to all be is their intent is to not

2399

01:35:52,760 --> 01:35:50,219

stop until they have the ear of Congress

2400

01:35:53,600 --> 01:35:52,770

and you know the people who can make a

2401

01:35:57,230 --> 01:35:53,610

difference about

2402

01:36:00,140 --> 01:35:57,240

and that they have the scientists

2403

01:36:01,940 --> 01:36:00,150

working on these issues in a positive

2404

01:36:04,010 --> 01:36:01,950

way so I see everything that they're

2405

01:36:06,470 --> 01:36:04,020

doing is very very positive for ufology

2406

01:36:08,060 --> 01:36:06,480

for everything we've fought for for 70

2407

01:36:11,090 --> 01:36:08,070

years or more

2408

01:36:14,540 --> 01:36:11,100

certainly I can't find fault in anything

2409

01:36:16,580 --> 01:36:14,550

they're doing Lu was very clear at the

2410

01:36:18,440 --> 01:36:16,590

symposium that look the job the role of

2411

01:36:19,940 --> 01:36:18,450

the military is to protect you their

2412

01:36:21,920 --> 01:36:19,950

role isn't to make friends with aliens

2413

01:36:23,840 --> 01:36:21,930

so they're they're gonna go put a battle

2414

01:36:26,270 --> 01:36:23,850

plan in place for how you protect people

2415

01:36:28,100 --> 01:36:26,280

from this now that doesn't say that we

2416

01:36:29,540 --> 01:36:28,110

don't do the same thing for China or for

2417

01:36:31,070 --> 01:36:29,550

Russia and that's me speaking we don't

2418

01:36:32,750 --> 01:36:31,080

we do the same thing for China for

2419

01:36:34,580 --> 01:36:32,760

Russia I mean I have neighbors who are

2420

01:36:36,950 --> 01:36:34,590

buying homes next to me my neighborhood

2421

01:36:38,630 --> 01:36:36,960

on how yours is who are Chinese I mean

2422

01:36:39,980 --> 01:36:38,640

they don't even speak English but

2423

01:36:41,630 --> 01:36:39,990

they're coming here from mainland China

2424

01:36:42,950 --> 01:36:41,640

because they have money they're buying

2425

01:36:44,780 --> 01:36:42,960

up property because they want to get to

2426

01:36:48,500 --> 01:36:44,790

diversify their money outside of the

2427

01:36:50,720 --> 01:36:48,510

Chinese economy I assume and you know

2428

01:36:52,910 --> 01:36:50,730

they're Chinese but yet I mean I'm sure

2429

01:36:55,430 --> 01:36:52,920

our government views the Chinese as one

2430

01:36:56,840 --> 01:36:55,440

of our biggest quote-unquote enemies in

2431

01:36:58,250 --> 01:36:56,850

the standpoint from an economic

2432

01:36:59,870 --> 01:36:58,260

standpoint from a military standpoint

2433

01:37:00,980 --> 01:36:59,880

from all these other things that doesn't

2434

01:37:02,930 --> 01:37:00,990

mean we're not friends with them that's

2435

01:37:04,550 --> 01:37:02,940

not means run associating with them but

2436

01:37:06,080 --> 01:37:04,560

but the role of military is to worry

2437

01:37:08,630 --> 01:37:06,090

about those kinds of things the role of

2438

01:37:10,730 --> 01:37:08,640

us as citizens is to worry about how to

2439

01:37:12,050 --> 01:37:10,740

get along and how to how to create

2440

01:37:14,600 --> 01:37:12,060

community and that's what we should be

2441

01:37:17,840 --> 01:37:14,610

trying to create here right oh we have a

2442

01:37:19,420 --> 01:37:17,850

question for you Jan yeah I think thanks

2443

01:37:22,010 --> 01:37:19,430

for that that's good

2444

01:37:24,950 --> 01:37:22,020

let's see Matt want to know if you

2445

01:37:28,040 --> 01:37:24,960

thought that it's possible that UFOs

2446

01:37:30,650 --> 01:37:28,050

like influence people in other words

2447

01:37:33,080 --> 01:37:30,660

like influenced you to doing what you're

2448

01:37:37,520 --> 01:37:33,090

doing today do you have to do that's

2449

01:37:41,810 --> 01:37:37,530

purposely can't people be influenced by

2450

01:37:43,730 --> 01:37:41,820

UFOs I I think from what I've observed

2451

01:37:45,470 --> 01:37:43,740

or what I've read when I know I'd say

2452

01:37:51,380 --> 01:37:45,480

yes let's leave it at that

2453

01:37:54,230 --> 01:37:51,390

yes yeah well interesting and now I had

2454

01:37:55,790 --> 01:37:54,240

heard no this is second hand of course

2455

01:37:57,560 --> 01:37:55,800

and I don't even know if there's any

2456

01:37:59,390 --> 01:37:57,570

truth to it at all but wondered if you

2457

01:38:01,910 --> 01:37:59,400

had heard something similar to this that

2458

01:38:04,970 --> 01:38:01,920

there's there's another additional

2459

01:38:07,240 --> 01:38:04,980

program going on then there was all

2460

01:38:10,060 --> 01:38:07,250

along besides the one that

2461

01:38:11,230 --> 01:38:10,070

the one where blue was working in have

2462

01:38:13,480 --> 01:38:11,240

you heard that yet

2463

01:38:14,500 --> 01:38:13,490

yeah and Lu actually addressed that at

2464

01:38:16,660 --> 01:38:14,510

this symposium

2465

01:38:18,900 --> 01:38:16,670

there was another program called CCW

2466

01:38:22,090 --> 01:38:18,910

something it was like eight letters long

2467

01:38:23,530 --> 01:38:22,100

and it was a much broader program and it

2468

01:38:25,090 --> 01:38:23,540

was the program before he was brought

2469

01:38:26,560 --> 01:38:25,100

into what he was actually brought into

2470

01:38:29,200 --> 01:38:26,570

that program it was as I was closing

2471

01:38:32,170 --> 01:38:29,210

down and they tried to refocus the

2472

01:38:34,750 --> 01:38:32,180

program into just UFOs because the other

2473

01:38:36,280 --> 01:38:34,760

one was too broad and the eight tip

2474

01:38:38,440 --> 01:38:36,290

program the advanced aerial threat

2475

01:38:41,020 --> 01:38:38,450

identification program became born under

2476

01:38:43,780 --> 01:38:41,030

Lou and he ran that for the next ten

2477

01:38:45,250 --> 01:38:43,790

years I believe so yeah he did mention

2478

01:38:46,810 --> 01:38:45,260

that and he said that's where some of

2479

01:38:48,850 --> 01:38:46,820

that confusion comes from is that the

2480

01:38:50,590 --> 01:38:48,860

original program was called this but

2481

01:38:52,870 --> 01:38:50,600

then it got morphed into a thing called

2482

01:38:54,070 --> 01:38:52,880

a tip and that's I saw that in IBM you

2483

01:38:55,300 --> 01:38:54,080

would start programs to start out and

2484

01:38:56,890 --> 01:38:55,310

they'd be called certain and then they

2485

01:38:58,300 --> 01:38:56,900

morph into a different kind of a mission

2486

01:38:59,320 --> 01:38:58,310

statement and be called something

2487

01:39:01,590 --> 01:38:59,330

different but it was really a

2488

01:39:04,030 --> 01:39:01,600

continuation of the same program so

2489

01:39:05,710 --> 01:39:04,040

that's all that's all I know about it

2490

01:39:09,240 --> 01:39:05,720

and Lou did address that at the

2491

01:39:12,310 --> 01:39:09,250

symposium something I chatted with you

2492

01:39:15,190 --> 01:39:12,320

you know prior to the show on different

2493

01:39:17,620 --> 01:39:15,200

topics and one of them was someone's

2494

01:39:21,580 --> 01:39:17,630

addressing that in the chat room right

2495

01:39:23,500 --> 01:39:21,590

now and he wanted me to ask you how can

2496

01:39:26,980 --> 01:39:23,510

MUFON really be considered a reliable

2497

01:39:28,690 --> 01:39:26,990

group studying and researching UFOs when

2498

01:39:32,350 --> 01:39:28,700

they deal with the likes of Corey Goode

2499

01:39:34,000 --> 01:39:32,360

and David Wilcock and that's I mentioned

2500

01:39:36,670 --> 01:39:34,010

something similar that to you ahead of

2501

01:39:38,440 --> 01:39:36,680

time like for instance the time travel

2502

01:39:40,420 --> 01:39:38,450

like what's-his-name bassy oh I can't

2503

01:39:42,790 --> 01:39:40,430

remember his name but you know there was

2504

01:39:46,660 --> 01:39:42,800

a go yeah Andrew basiago

2505

01:39:48,580 --> 01:39:46,670

yeah so so it's kind of a good point and

2506

01:39:52,210 --> 01:39:48,590

I've wondered what your thoughts were

2507

01:39:54,490 --> 01:39:52,220

about that sure let me address that we

2508

01:39:58,240 --> 01:39:54,500

put our program on for 2017 for the

2509

01:39:59,920 --> 01:39:58,250

MUFON symposium the topic we chose every

2510

01:40:01,480 --> 01:39:59,930

year we pick a different topic next year

2511

01:40:02,650 --> 01:40:01,490

will be the 50th anniversary of move on

2512

01:40:06,220 --> 01:40:02,660

by the way just so you know oh yeah

2513

01:40:10,300 --> 01:40:06,230

it'll be a year in Irvine July 26 7th

2514

01:40:14,740 --> 01:40:10,310
and 8th at the Irvine Hilton Hotel

2515

01:40:17,200 --> 01:40:14,750
Irvine used to be the Hilton but so in

2516

01:40:20,260 --> 01:40:17,210
2017 which we selected the topic the

2517

01:40:21,100 --> 01:40:20,270
secret space program are the case for a

2518

01:40:23,169 --> 01:40:21,110
secret space

2519

01:40:24,669 --> 01:40:23,179
because there had been like six books

2520

01:40:26,830 --> 01:40:24,679
written in the last six eight months

2521

01:40:29,439 --> 01:40:26,840
about this thing from different authors

2522

01:40:30,970 --> 01:40:29,449
and they all had kind of similar stories

2523

01:40:33,010 --> 01:40:30,980
to them but they're all written from a

2524

01:40:35,020 --> 01:40:33,020
different perspective and some of the

2525

01:40:36,970 --> 01:40:35,030
people called out in those books were

2526
01:40:40,209 --> 01:40:36,980
the likes of Corey Goode Andrew basiago

2527
01:40:42,070 --> 01:40:40,219
and others so what we tried to do was

2528
01:40:44,979 --> 01:40:42,080
put together a symposium where people

2529
01:40:46,660 --> 01:40:44,989
could come and hear from the scientists

2530
01:40:48,189 --> 01:40:46,670
types we had James Woodward talking

2531
01:40:51,280 --> 01:40:48,199
about the work he's doing at a store

2532
01:40:52,359 --> 01:40:51,290
like travel other scientists come and

2533
01:40:54,129 --> 01:40:52,369
talk about the work they're doing

2534
01:40:57,189 --> 01:40:54,139
we had some notable researchers like

2535
01:40:59,320 --> 01:40:57,199
Michael shre at mark McCandlish

2536
01:41:02,250 --> 01:40:59,330
and others who came and brought their

2537
01:41:03,879 --> 01:41:02,260
review of a research study plus the the

2538
01:41:05,770 --> 01:41:03,889

attachments they've had within the

2539

01:41:09,640 --> 01:41:05,780

aerospace community where they've been

2540

01:41:11,410 --> 01:41:09,650

told things that were probably

2541

01:41:12,459 --> 01:41:11,420

classified I'd be honest with you but

2542

01:41:15,220 --> 01:41:12,469

they were told things that they could

2543

01:41:16,870 --> 01:41:15,230

share with the group and then we had out

2544

01:41:19,030 --> 01:41:16,880

of the 12 speakers I think we had two

2545

01:41:20,560 --> 01:41:19,040

speakers who could be considered pretty

2546

01:41:21,760 --> 01:41:20,570

much out there a reason we're out there

2547

01:41:23,109 --> 01:41:21,770

is because you can't really verify your

2548

01:41:25,570 --> 01:41:23,119

claim so you got Corey Goode who was

2549

01:41:27,970 --> 01:41:25,580

claiming he had traveled in a secret

2550

01:41:29,950 --> 01:41:27,980

space program out to I believe I believe

2551
01:41:33,370 --> 01:41:29,960
was Mars I could be mistaken I think was

2552
01:41:34,689 --> 01:41:33,380
Mars and of course I drove Asiago who

2553
01:41:37,270 --> 01:41:34,699
claims he was part of the teleportation

2554
01:41:40,990 --> 01:41:37,280
team that had actually been on a group

2555
01:41:43,870 --> 01:41:41,000
with with with I think Obama at the time

2556
01:41:45,490 --> 01:41:43,880
so so we took everything for the heart

2557
01:41:47,700 --> 01:41:45,500
scientists through the UFO researchers

2558
01:41:51,160 --> 01:41:47,710
to what we would consider the far out

2559
01:41:53,290 --> 01:41:51,170
boundaries of the whole topic but it was

2560
01:41:55,330 --> 01:41:53,300
all bound within the topic and I was

2561
01:41:56,979 --> 01:41:55,340
very clear in my video on the other

2562
01:41:58,390 --> 01:41:56,989
website that this was really an

2563
01:42:01,240 --> 01:41:58,400

opportunity to come and hear the entire

2564

01:42:02,740 --> 01:42:01,250

spectrum of the secret space program and

2565

01:42:04,629 --> 01:42:02,750

make up your mind for yourself we're not

2566

01:42:08,070 --> 01:42:04,639

MUFON doesn't try to tell people what to

2567

01:42:10,120 --> 01:42:08,080

think we collect data from the public we

2568

01:42:12,669 --> 01:42:10,130

investigate the data and try to weed out

2569

01:42:15,490 --> 01:42:12,679

all the non UFO stuff and we try to

2570

01:42:16,870 --> 01:42:15,500

publish the UFO stuff back to the to the

2571

01:42:19,810 --> 01:42:16,880

public in fact least I like to tell you

2572

01:42:22,109 --> 01:42:19,820

about is a book that came out with Roger

2573

01:42:25,560 --> 01:42:22,119

Marsh and our communication team called

2574

01:42:28,629 --> 01:42:25,570

it's called the cases of interest for

2575

01:42:32,979 --> 01:42:28,639

2017 it's 2018 cases of interest it's

2576

01:42:34,780 --> 01:42:32,989

all our top cases of interests for 2017

2577

01:42:37,510 --> 01:42:34,790

so

2578

01:42:39,520 --> 01:42:37,520

we are here collecting the data for

2579

01:42:42,310 --> 01:42:39,530

scientists used for the public to use

2580

01:42:44,470 --> 01:42:42,320

anyone who liked the data that's what

2581

01:42:46,330 --> 01:42:44,480

MUFON does that's our core competency

2582

01:42:48,780 --> 01:42:46,340

once a year we put on a suppose and we

2583

01:42:51,730 --> 01:42:48,790

pick a different topic this year's topic

2584

01:42:53,590 --> 01:42:51,740

was UFOs extraterrestrials in the future

2585

01:42:54,730 --> 01:42:53,600

of humanity based on the fact that all

2586

01:42:55,990 --> 01:42:54,740

these new things are coming out we

2587

01:42:57,730 --> 01:42:56,000

thought hey this is a good time to say

2588

01:42:59,920 --> 01:42:57,740

how is this going to impact us as a

2589

01:43:02,050 --> 01:42:59,930

society from a religious standpoint from

2590

01:43:04,930 --> 01:43:02,060

a scientific standpoint from a financial

2591

01:43:07,000 --> 01:43:04,940

standpoint things like that so it's more

2592

01:43:09,310 --> 01:43:07,010

we just put it out there for the public

2593

01:43:10,830 --> 01:43:09,320

discussion no one's saying that you have

2594

01:43:12,940 --> 01:43:10,840

to believe any of the stories you heard

2595

01:43:15,760 --> 01:43:12,950

certainly people have to believe my own

2596

01:43:18,130 --> 01:43:15,770

story that I told but you know it's just

2597

01:43:19,930 --> 01:43:18,140

kind of it's just there for discussion

2598

01:43:21,790 --> 01:43:19,940

and it tried to and I'll tell you it was

2599

01:43:23,170 --> 01:43:21,800

our most successful symposium ever we

2600

01:43:25,780 --> 01:43:23,180

had more people attend the symposium

2601
01:43:27,730 --> 01:43:25,790
than any time in our past history that's

2602
01:43:31,660 --> 01:43:27,740
not because people yeah that's kind of

2603
01:43:33,430 --> 01:43:31,670
disheartening but I but I get it well

2604
01:43:35,560 --> 01:43:33,440
but we had we had ten of the twelve

2605
01:43:37,450 --> 01:43:35,570
speakers who were grounded scientists

2606
01:43:39,430 --> 01:43:37,460
type people I mean they were you know so

2607
01:43:41,670 --> 01:43:39,440
it's not like we put on a whole

2608
01:43:44,200 --> 01:43:41,680
dog-and-pony show I mean it was a very

2609
01:43:46,450 --> 01:43:44,210
well-run conference and people did enjoy

2610
01:43:47,800 --> 01:43:46,460
being there if you don't like I had a

2611
01:43:49,030 --> 01:43:47,810
guy come up at this last conference he

2612
01:43:51,520 --> 01:43:49,040
didn't like one of the speakers because

2613
01:43:54,010 --> 01:43:51,530

he didn't agree with them I won't go

2614

01:43:55,930 --> 01:43:54,020

into that but but but hey you're you're

2615

01:43:57,820 --> 01:43:55,940

welcome to disagree with people I mean

2616

01:44:00,130 --> 01:43:57,830

as long as you're you're agreeably

2617

01:44:01,930 --> 01:44:00,140

disagreeable I mean you know let's let's

2618

01:44:03,430 --> 01:44:01,940

agree to disagree but let's have a

2619

01:44:05,680 --> 01:44:03,440

conversation about it where I have a

2620

01:44:07,420 --> 01:44:05,690

trouble with where people throw down the

2621

01:44:08,590 --> 01:44:07,430

gauntlet and they walk away because they

2622

01:44:11,040 --> 01:44:08,600

are so disgusting because it's not

2623

01:44:14,230 --> 01:44:11,050

aligned with their way of thinking look

2624

01:44:16,060 --> 01:44:14,240

i-i-i i see people at i'm i don't agree

2625

01:44:17,650 --> 01:44:16,070

with but i don't you know walk away from

2626

01:44:19,000 --> 01:44:17,660

them i sit and talk to them about why

2627

01:44:20,620 --> 01:44:19,010

they think the way they do i try to

2628

01:44:23,050 --> 01:44:20,630

understand seek first to understand then

2629

01:44:24,850 --> 01:44:23,060

be understood that's one of the premises

2630

01:44:27,430 --> 01:44:24,860

of the seven Habits of Highly Effective

2631

01:44:29,290 --> 01:44:27,440

People so that was whole purpose of that

2632

01:44:31,540 --> 01:44:29,300

whole whole conversation they happen in

2633

01:44:34,330 --> 01:44:31,550

2017 and you know it's come it's gone

2634

01:44:36,760 --> 01:44:34,340

and we're on to the next so yeah was

2635

01:44:39,850 --> 01:44:36,770

there a lot of grief because of that did

2636

01:44:44,260 --> 01:44:39,860

you get a little hate mail but I get

2637

01:44:46,350 --> 01:44:44,270

hate mail every year so I well you know

2638

01:44:47,770 --> 01:44:46,360

I gotta tell you I was at I was at

2639

01:44:49,899 --> 01:44:47,780

Alejandro's

2640

01:44:53,250 --> 01:44:49,909

conference out of Phoenix a couple of

2641

01:44:55,990 --> 01:44:53,260

years ago in them the most bizarre

2642

01:44:58,209 --> 01:44:56,000

person the people that spoke there I

2643

01:45:00,760 --> 01:44:58,219

mean they were just way way out I wasn't

2644

01:45:02,169 --> 01:45:00,770

buying any of it yeah they got the most

2645

01:45:06,669 --> 01:45:02,179

applause that they got a standing

2646

01:45:09,010 --> 01:45:06,679

ovation and it just it in in a way you

2647

01:45:10,029 --> 01:45:09,020

sort of see like this cult type movement

2648

01:45:13,359 --> 01:45:10,039

when you see something like that

2649

01:45:14,799 --> 01:45:13,369

happened you know and well well I I

2650

01:45:16,120 --> 01:45:14,809

think that's I think that's the thing

2651
01:45:18,850 --> 01:45:16,130
that's having people really scratch

2652
01:45:20,500 --> 01:45:18,860
their heads about TTS a like what's this

2653
01:45:22,299 --> 01:45:20,510
all about like is the Pentagon running

2654
01:45:25,109 --> 01:45:22,309
this thing or like as a CIA who's

2655
01:45:27,939 --> 01:45:25,119
running this thing right because people

2656
01:45:30,430 --> 01:45:27,949
we've heard the stories I I get the

2657
01:45:32,470 --> 01:45:30,440
phone calls from people I worked at area

2658
01:45:34,089 --> 01:45:32,480
51 with aliens you know understand the

2659
01:45:36,490 --> 01:45:34,099
other thing the problem is you can't

2660
01:45:38,379 --> 01:45:36,500
verify any of it and and I've asked I've

2661
01:45:39,790 --> 01:45:38,389
asked Lou these tough questions like do

2662
01:45:41,109 --> 01:45:39,800
you think there's a secret space program

2663
01:45:42,669 --> 01:45:41,119

well of course there's a secret space

2664

01:45:44,379 --> 01:45:42,679

program the question is how advanced is

2665

01:45:48,760 --> 01:45:44,389

the secret space program because we know

2666

01:45:51,370 --> 01:45:48,770

the the X x-37b which is built by Boeing

2667

01:45:53,740 --> 01:45:51,380

is that Air Force small shuttle that

2668

01:45:55,270 --> 01:45:53,750

goes up takes you know classified

2669

01:45:56,379 --> 01:45:55,280

payloads up to space that's been up

2670

01:45:57,819 --> 01:45:56,389

there for as many as two years before

2671

01:45:59,500 --> 01:45:57,829

they bring it back and land it at

2672

01:46:02,319 --> 01:45:59,510

Edwards or wherever I think they landed

2673

01:46:03,910 --> 01:46:02,329

and words I'm assuming they do so we

2674

01:46:06,430 --> 01:46:03,920

know there's a secret space book I mean

2675

01:46:09,010 --> 01:46:06,440

it just it just is the question is are

2676
01:46:11,080 --> 01:46:09,020
we out interstellar like you know a Star

2677
01:46:13,510 --> 01:46:11,090
Trek or are we just kind of floating

2678
01:46:16,870 --> 01:46:13,520
around and orbit around the earth how

2679
01:46:20,020 --> 01:46:16,880
far advanced is it so I don't know I

2680
01:46:21,879 --> 01:46:20,030
it's it's I think people get frustrated

2681
01:46:23,890 --> 01:46:21,889
because they believe there's more going

2682
01:46:26,919 --> 01:46:23,900
on than what they're being told and the

2683
01:46:28,870 --> 01:46:26,929
answer that is probably yes on the other

2684
01:46:30,250 --> 01:46:28,880
hand and I think it's Lou put it out to

2685
01:46:32,020 --> 01:46:30,260
the group is that it's not the purpose

2686
01:46:34,270 --> 01:46:32,030
of government to fulfill the idle

2687
01:46:36,040 --> 01:46:34,280
curiosity of the public it's the purpose

2688
01:46:37,450 --> 01:46:36,050

of government to protect its citizens so

2689

01:46:39,430 --> 01:46:37,460

if you're looking for answers to these

2690

01:46:41,589 --> 01:46:39,440

things it's going to be through a MUFON

2691

01:46:44,080 --> 01:46:41,599

or through a TSA or through other

2692

01:46:45,850 --> 01:46:44,090

organizations that might do that so I

2693

01:46:48,010 --> 01:46:45,860

just had a gentleman come visit me on

2694

01:46:50,979 --> 01:46:48,020

Monday I'm sorry on Friday he was at the

2695

01:46:52,899 --> 01:46:50,989

symposium he wants to start a policy

2696

01:46:55,240 --> 01:46:52,909

group on this whole subject he sees it

2697

01:46:57,490 --> 01:46:55,250

as the next great thing for mankind and

2698

01:46:59,049 --> 01:46:57,500

I'm fully supportive of what he's trying

2699

01:47:01,700 --> 01:46:59,059

to do and we're gonna work with him on

2700

01:47:04,400 --> 01:47:01,710

that there needs to be more discussion

2701
01:47:08,479 --> 01:47:04,410
more conversation just like you have at

2702
01:47:10,070 --> 01:47:08,489
the United Nations or in our Congress on

2703
01:47:11,330 --> 01:47:10,080
the topic you know meanwhile the

2704
01:47:13,700 --> 01:47:11,340
military will do what the military does

2705
01:47:15,950 --> 01:47:13,710
the CIA will do what the CIA does you

2706
01:47:18,140 --> 01:47:15,960
know and and others should do what they

2707
01:47:20,240 --> 01:47:18,150
do with best so I don't that answers

2708
01:47:22,880 --> 01:47:20,250
your question or not but yeah yeah

2709
01:47:25,310 --> 01:47:22,890
another thing you were talking and you

2710
01:47:27,459 --> 01:47:25,320
talked earlier about kind of how there

2711
01:47:30,350 --> 01:47:27,469
was some type of connection with

2712
01:47:32,900 --> 01:47:30,360
possibility that helping the government

2713
01:47:37,940 --> 01:47:32,910

along with with this do you think they

2714

01:47:40,459 --> 01:47:37,950

were active in MUFON in some capacity as

2715

01:47:42,140 --> 01:47:40,469

far as doing research on cases or

2716

01:47:44,000 --> 01:47:42,150

anything do you think they were using

2717

01:47:47,170 --> 01:47:44,010

MUFON as any type of tool

2718

01:47:50,450 --> 01:47:47,180

I'm not saying covertly I mean openly

2719

01:47:53,690 --> 01:47:50,460

well yeah I mean Lou told me that the

2720

01:47:57,890 --> 01:47:53,700

DIA did use our files to help put the

2721

01:48:00,650 --> 01:47:57,900

case together to take forward to get a

2722

01:48:02,900 --> 01:48:00,660

tip funded but it's publicly available

2723

01:48:04,700 --> 01:48:02,910

information I mean you can go anyone can

2724

01:48:07,490 --> 01:48:04,710

go on our site look up cases and see

2725

01:48:08,840 --> 01:48:07,500

what people are reporting so yeah I

2726

01:48:12,470 --> 01:48:08,850

think they use it I mean I've been told

2727

01:48:13,940 --> 01:48:12,480

by Chris Mellon that you know from his

2728

01:48:15,620 --> 01:48:13,950

perspective the people he's talked at

2729

01:48:17,420 --> 01:48:15,630

the top levels of the NSA CIA don't

2730

01:48:19,910 --> 01:48:17,430

don't give a hoot about MUFON or what

2731

01:48:21,680 --> 01:48:19,920

we're do I find that hard to believe

2732

01:48:22,910 --> 01:48:21,690

because I think we do important work I

2733

01:48:26,630 --> 01:48:22,920

would think they'd really want to know

2734

01:48:29,209 --> 01:48:26,640

what we do but but I could I can see

2735

01:48:30,650 --> 01:48:29,219

where they're focused on you know what's

2736

01:48:32,360 --> 01:48:30,660

going on with not anymore but what's

2737

01:48:35,660 --> 01:48:32,370

going on with North Korea you know what

2738

01:48:40,040 --> 01:48:35,670

about China what about what about all

2739

01:48:42,590 --> 01:48:40,050

these website Internet hacks going on

2740

01:48:44,240 --> 01:48:42,600

you know this cyber cyber threats that

2741

01:48:45,380 --> 01:48:44,250

are happening I mean there's a lot of

2742

01:48:48,440 --> 01:48:45,390

stuff for their government to worry

2743

01:48:51,080 --> 01:48:48,450

about you know terrorists you know so so

2744

01:48:55,340 --> 01:48:51,090

worrying about a small UFO group and

2745

01:48:57,229 --> 01:48:55,350

collection of data really isn't probably

2746

01:48:58,700 --> 01:48:57,239

at the top of their of their list of

2747

01:49:00,530 --> 01:48:58,710

things to worry about honestly

2748

01:49:02,300 --> 01:49:00,540

and and in fact it appears what many of

2749

01:49:05,510 --> 01:49:02,310

them are watching it just like you can

2750

01:49:07,490 --> 01:49:05,520

on UFO stalker comm or on our MUFON comm

2751

01:49:09,080 --> 01:49:07,500

website you can watch the reports as

2752

01:49:10,310 --> 01:49:09,090

they come in across the board we have a

2753

01:49:12,080 --> 01:49:10,320

lot of people who do that I mean

2754

01:49:14,760 --> 01:49:12,090

Alejandro does that and he reports on it

2755

01:49:17,040 --> 01:49:14,770

through his his channel how about that

2756

01:49:20,910 --> 01:49:17,050

maybe I'll start doing that yeah you

2757

01:49:23,490 --> 01:49:20,920

should too yeah yeah so when you're when

2758

01:49:27,060 --> 01:49:23,500

someone is reporting can you just kind

2759

01:49:29,729 --> 01:49:27,070

of explain there is you know the trust

2760

01:49:33,330 --> 01:49:29,739

is built through anonymity and sharing

2761

01:49:34,800 --> 01:49:33,340

you can you explain how that that is

2762

01:49:36,390 --> 01:49:34,810

held I mean talk about that could be

2763

01:49:38,580 --> 01:49:36,400

hacked of course but it would have to be

2764

01:49:40,080 --> 01:49:38,590

really something really something

2765

01:49:41,310 --> 01:49:40,090

special for someone to want to go

2766

01:49:44,010 --> 01:49:41,320

through the trouble of hacking it but

2767

01:49:47,280 --> 01:49:44,020

alright can you so what hell about that

2768

01:49:48,930 --> 01:49:47,290

element yeah so what happens and we're

2769

01:49:51,110 --> 01:49:48,940

about to put a rollout a new front end

2770

01:49:54,270 --> 01:49:51,120

to CMS it'll be mobile friendly and

2771

01:49:55,950 --> 01:49:54,280

tablet friendly as well but when you

2772

01:49:57,750 --> 01:49:55,960

report a sighting to MUFON you go to our

2773

01:50:00,570 --> 01:49:57,760

website MUFON comm you click on report a

2774

01:50:02,459 --> 01:50:00,580

UFO and you fill out that form when you

2775

01:50:04,440 --> 01:50:02,469

push that submit button it is

2776

01:50:05,940 --> 01:50:04,450
automatically sent to the state or

2777

01:50:07,920 --> 01:50:05,950
national director where your sighting

2778

01:50:09,930 --> 01:50:07,930
occurred so if you were vacationing in

2779

01:50:11,760 --> 01:50:09,940
France and you saw something on the

2780

01:50:13,229 --> 01:50:11,770
Eiffel Tower and you put in a report it

2781

01:50:15,330 --> 01:50:13,239
would go to the National Director for

2782

01:50:17,310 --> 01:50:15,340
France or would go to the National

2783

01:50:19,410 --> 01:50:17,320
Director for Des Moines Iowa or Iowa

2784

01:50:22,500 --> 01:50:19,420
whatever wherever it happened and then

2785

01:50:24,330 --> 01:50:22,510
they assign a field investigator to look

2786

01:50:26,100 --> 01:50:24,340
into the case and review the case and

2787

01:50:28,950 --> 01:50:26,110
decide what needs to be investigated or

2788

01:50:31,520 --> 01:50:28,960

not talk to the witness etc and and come

2789

01:50:34,290 --> 01:50:31,530

up with a final disposition on the case

2790

01:50:37,080 --> 01:50:34,300

so it's it's all automated everything

2791

01:50:39,090 --> 01:50:37,090

happens now we did put a filter in it to

2792

01:50:41,400 --> 01:50:39,100

catch foul words because we have people

2793

01:50:44,100 --> 01:50:41,410

who seem to like toilet jokes and rather

2794

01:50:45,390 --> 01:50:44,110

than publishing those to the public we

2795

01:50:46,740 --> 01:50:45,400

stripped those out and then they get

2796

01:50:49,020 --> 01:50:46,750

reviewed by a small team of people

2797

01:50:51,420 --> 01:50:49,030

called CMS administrators who then

2798

01:50:53,190 --> 01:50:51,430

basically remove the foul words if it's

2799

01:50:54,780 --> 01:50:53,200

strictly nothing but a we do get a lot

2800

01:50:55,950 --> 01:50:54,790

of not a lot of these but we get a fair

2801
01:50:59,850 --> 01:50:55,960
amount of these where people just write

2802
01:51:01,350 --> 01:50:59,860
in chunk they get they get quote deleted

2803
01:51:03,420 --> 01:51:01,360
out of the database basically they just

2804
01:51:04,620 --> 01:51:03,430
get removed from the view nothing you

2805
01:51:06,420 --> 01:51:04,630
ever gets deleted out of the database

2806
01:51:08,700 --> 01:51:06,430
but they can remove from the public view

2807
01:51:12,270 --> 01:51:08,710
and they get marked as a hoax and then

2808
01:51:14,820 --> 01:51:12,280
we move on but you know 99.9% of the

2809
01:51:16,410 --> 01:51:14,830
cases come through or clean people are

2810
01:51:19,229 --> 01:51:16,420
reporting exactly what they've seen and

2811
01:51:20,820 --> 01:51:19,239
those go right and they don't go through

2812
01:51:23,010 --> 01:51:20,830
any filtering process they go right to

2813
01:51:25,020 --> 01:51:23,020

the state director and get assigned so

2814

01:51:26,610 --> 01:51:25,030

now the other thing that happens is that

2815

01:51:28,450 --> 01:51:26,620

the data that you put in for your

2816

01:51:30,250 --> 01:51:28,460

personal information is

2817

01:51:32,410 --> 01:51:30,260

actually separated out into a separate

2818

01:51:33,790 --> 01:51:32,420

database from the actual report then

2819

01:51:36,520 --> 01:51:33,800

those two are attached but they're not

2820

01:51:38,650 --> 01:51:36,530

in the same database so if anyone ever

2821

01:51:40,600 --> 01:51:38,660

wanted to hack the sighting database

2822

01:51:43,290 --> 01:51:40,610

they would not necessarily get your they

2823

01:51:47,320 --> 01:51:43,300

should not get your personal information

2824

01:51:49,209 --> 01:51:47,330

okay we actually yep but we actually we

2825

01:51:52,150 --> 01:51:49,219

actually asked peaceful people would you

2826

01:51:53,290 --> 01:51:52,160

like to remain anonymous and most mister

2827

01:51:56,890 --> 01:51:53,300

Charlie people don't really care that

2828

01:51:58,540 --> 01:51:56,900

you know but but we've we never go

2829

01:52:00,010 --> 01:51:58,550

public with someone's name unless we go

2830

01:52:01,870 --> 01:52:00,020

back to him and say hey we've got a call

2831

01:52:03,640 --> 01:52:01,880

from Martin Willis and he heard your

2832

01:52:05,620 --> 01:52:03,650

case and he wants to put you on his show

2833

01:52:07,120 --> 01:52:05,630

is that something you'd be interested in

2834

01:52:08,680 --> 01:52:07,130

and they could say yes or no and if they

2835

01:52:09,910 --> 01:52:08,690

say no that's that it's over with done

2836

01:52:12,130 --> 01:52:09,920

with will let you know they're not gonna

2837

01:52:14,380 --> 01:52:12,140

come on if they say yes then we put them

2838

01:52:17,470 --> 01:52:14,390

in touch with you and you would talk to

2839

01:52:19,540 --> 01:52:17,480

them so we do get that's very rare but

2840

01:52:22,150 --> 01:52:19,550

we do get those how about the other way

2841

01:52:24,160 --> 01:52:22,160

around someone someone in was say

2842

01:52:25,840 --> 01:52:24,170

someone want to remain anonymous and

2843

01:52:28,150 --> 01:52:25,850

then all of a sudden another witness

2844

01:52:30,700 --> 01:52:28,160

comes forward and they they want to

2845

01:52:33,610 --> 01:52:30,710

connect do you ever do any like behind

2846

01:52:35,670 --> 01:52:33,620

the scenes connecting of people that

2847

01:52:37,810 --> 01:52:35,680

have the same you know same sighting

2848

01:52:39,820 --> 01:52:37,820

well we get requests like that

2849

01:52:41,590 --> 01:52:39,830

occasionally and what we do is we reach

2850

01:52:42,850 --> 01:52:41,600

out to the other party and we say hey

2851
01:52:44,590 --> 01:52:42,860
look we have a request from this

2852
01:52:45,490 --> 01:52:44,600
individual who'd like to talk to you

2853
01:52:47,680 --> 01:52:45,500
about your sighting before because they

2854
01:52:49,000 --> 01:52:47,690
have a similar one and we leave it up to

2855
01:52:51,760 --> 01:52:49,010
them so we always leave it up to the

2856
01:52:53,320 --> 01:52:51,770
witness if they want to some want to

2857
01:52:55,270 --> 01:52:53,330
communicate others just want to forget

2858
01:52:56,920 --> 01:52:55,280
about it you know it happened I'm done

2859
01:52:59,740 --> 01:52:56,930
with it I don't want to talk to anybody

2860
01:53:02,290 --> 01:52:59,750
more about it so the answer is yes we

2861
01:53:05,320 --> 01:53:02,300
have but we're very cautious in how we

2862
01:53:08,709 --> 01:53:05,330
do it we got one minute left really to

2863
01:53:10,510 --> 01:53:08,719

talk about can you can in one minute are

2864

01:53:13,209 --> 01:53:10,520

you able to tell us like a real

2865

01:53:18,100 --> 01:53:13,219

interesting case a recent case anything

2866

01:53:19,930 --> 01:53:18,110

you can talk about well gosh that's a l

2867

01:53:21,790 --> 01:53:19,940

there's so many cases I was tell me we

2868

01:53:25,240 --> 01:53:21,800

got 500,000 a month so it's just so many

2869

01:53:29,680 --> 01:53:25,250

great cases I guess my favorite cases

2870

01:53:32,459 --> 01:53:29,690

was an airline pilot back in 94 I think

2871

01:53:37,450 --> 01:53:32,469

it was where TWA pilot was flying from

2872

01:53:40,000 --> 01:53:37,460

Missouri out to st. Louis out to San

2873

01:53:41,530 --> 01:53:40,010

Francisco and the plane was delayed it

2874

01:53:42,280 --> 01:53:41,540

didn't get off the ground till after

2875

01:53:44,380 --> 01:53:42,290

midnight so it was

2876
01:53:45,610 --> 01:53:44,390
to 3:00 in the morning by the time he

2877
01:53:46,630 --> 01:53:45,620
got out to the way I think 2:00 in the

2878
01:53:48,730 --> 01:53:46,640
morning what time he got to the west

2879
01:53:51,010 --> 01:53:48,740
coast towards the west coast and it was

2880
01:53:53,050 --> 01:53:51,020
pitch black on the ground and all of a

2881
01:53:55,930 --> 01:53:53,060
sudden he is puck hope I looked out and

2882
01:53:59,200 --> 01:53:55,940
he saw this ILS Whincup on the bottom of

2883
01:54:01,570 --> 01:53:59,210
the of the black floor down below it was

2884
01:54:03,100 --> 01:54:01,580
pink I think in purple and it was

2885
01:54:04,900 --> 01:54:03,110
three-dimensional ILS which is an

2886
01:54:06,100 --> 01:54:04,910
instrument landing system and they

2887
01:54:07,360 --> 01:54:06,110
looked up in the front of their

2888
01:54:08,620 --> 01:54:07,370

windshield of their airliner and they

2889

01:54:10,450 --> 01:54:08,630

could see these little like fireflies

2890

01:54:12,400 --> 01:54:10,460

flitting around it's like up at space

2891

01:54:14,560 --> 01:54:12,410

next thing he saw was these things going

2892

01:54:15,250 --> 01:54:14,570

choo-choo just down the chute like one

2893

01:54:18,040 --> 01:54:15,260

after the other

2894

01:54:20,320 --> 01:54:18,050

boom boom boom boom following down the

2895

01:54:22,360 --> 01:54:20,330

ILS and landing and then as soon as they

2896

01:54:25,110 --> 01:54:22,370

all got down it went out and it went

2897

01:54:27,970 --> 01:54:25,120

completely black again and he said Jan

2898

01:54:30,910 --> 01:54:27,980

when that happened we were over area 51

2899

01:54:33,130 --> 01:54:30,920

oh and I always remember that I always

2900

01:54:35,320 --> 01:54:33,140

remember that protect airspace so isn't

2901
01:54:37,480 --> 01:54:35,330
that protected airspace well but but but

2902
01:54:39,280 --> 01:54:37,490
if you flew if you're at 37,000 feet or

2903
01:54:41,110 --> 01:54:39,290
whatever you're flying west and you're

2904
01:54:42,580 --> 01:54:41,120
out even outside that you can still see

2905
01:54:44,580 --> 01:54:42,590
these things coming down I mean you've

2906
01:54:46,960 --> 01:54:44,590
got a pretty good range oh why so many

2907
01:54:50,140 --> 01:54:46,970
yeah so we could see it on angle well

2908
01:54:52,840 --> 01:54:50,150
hey Jan thanks so much and so throw out

2909
01:54:54,160 --> 01:54:52,850
