1  
00:00:37,430 --> 00:00:13,170

[Music]

2  
00:00:39,410 --> 00:00:37,440

hello and welcome to the show I'm Martin

3  
00:00:41,240 --> 00:00:39,420

will assure host and we had some

4  
00:00:43,490 --> 00:00:41,250

technical difficulties but we got them

5  
00:00:46,340 --> 00:00:43,500

straightened out starting a few minutes

6  
00:00:48,380 --> 00:00:46,350

late on had to create a whole different

7  
00:00:51,830 --> 00:00:48,390

streams a long story but it's all fixed

8  
00:00:58,700 --> 00:00:51,840

and just a little bit of housekeeping

9  
00:01:04,340 --> 00:00:58,710

here last week we had a lot of Collins

10  
00:01:07,100 --> 00:01:04,350

and with Robert Powell and because of

11  
00:01:09,020 --> 00:01:07,110

that I've got a lot of email and I have

12  
00:01:11,690 --> 00:01:09,030

to listen to my listeners basically what

13  
00:01:13,940 --> 00:01:11,700

it boils down to so we're gonna push the

14

00:01:17,029 --> 00:01:13,950

phone calls to the last half-hour of the

15

00:01:18,260 --> 00:01:17,039

show and I'm sorry we're just gonna for

16

00:01:19,340 --> 00:01:18,270

the people I want to call in earlier

17

00:01:19,690 --> 00:01:19,350

we're just gonna have to leave it at

18

00:01:26,060 --> 00:01:19,700

that

19

00:01:27,920 --> 00:01:26,070

getting a really good question a

20

00:01:29,870 --> 00:01:27,930

question for our guests if you want to

21

00:01:31,190 --> 00:01:29,880

know who our upcoming guests are there's

22

00:01:34,010 --> 00:01:31,200

a couple different ways you can do that

23

00:01:35,930 --> 00:01:34,020

you can you can subscribe on our YouTube

24

00:01:38,840 --> 00:01:35,940

channel and click the little bell

25

00:01:41,169 --> 00:01:38,850

that'll give you notices when you're

26

00:01:43,850 --> 00:01:41,179

subscribing on you'll get an email

27

00:01:45,800 --> 00:01:43,860

that'll have that information and the

28

00:01:48,139 --> 00:01:45,810

stream up there for anyone else you can

29

00:01:51,830 --> 00:01:48,149

go to our website podcast UFO comm and

30

00:01:55,040 --> 00:01:51,840

enter your email into our sign up weekly

31

00:01:57,139 --> 00:01:55,050

guest notices and announcements and on

32

00:02:00,410 --> 00:01:57,149

Monday mornings you will have the

33

00:02:03,529 --> 00:02:00,420

information for upcoming guests then for

34

00:02:06,199 --> 00:02:03,539

that Tuesday and also I do post our

35

00:02:07,520 --> 00:02:06,209

upcoming guests on the website and I'd

36

00:02:10,339 --> 00:02:07,530

like to make an announcement to our

37

00:02:14,360 --> 00:02:10,349

wonderful repeat guests Linda Zimmerman

38

00:02:17,930 --> 00:02:14,370

she is starting her own radio show on

39

00:02:19,970 --> 00:02:17,940

UFOs it's called UFO headquarters the

40

00:02:23,150 --> 00:02:19,980

first show will be on Monday February

41

00:02:26,030 --> 00:02:23,160

11th at 7:00 p.m. Eastern Time and

42

00:02:28,580 --> 00:02:26,040

that's on the Hudson River radio and you

43

00:02:31,699 --> 00:02:28,590

can listen on even listen live to the

44

00:02:34,280 --> 00:02:31,709

live stream over at Hudson River radio

45

00:02:36,400 --> 00:02:34,290

calm so check that out Linda has always

46

00:02:38,350 --> 00:02:36,410

been a great guest and she I'm

47

00:02:40,090 --> 00:02:38,360

is gonna run a wonderful show so you may

48

00:02:41,410 --> 00:02:40,100

want to check that out I do want to

49

00:02:43,990 --> 00:02:41,420

thank everyone that helps out with the

50

00:02:46,510 --> 00:02:44,000

show it really means a lot it's the only

51  
00:02:48,370 --> 00:02:46,520  
way you can we can do that and if you'd

52  
00:02:51,460 --> 00:02:48,380  
like to become a subscriber and listen

53  
00:02:53,430 --> 00:02:51,470  
to the full shows on your your podcast

54  
00:02:55,890 --> 00:02:53,440  
player all you have to do is go to

55  
00:02:57,790 --> 00:02:55,900  
podcast UFO comm and all that

56  
00:02:59,710 --> 00:02:57,800  
information is there and again I thank

57  
00:03:02,850 --> 00:02:59,720  
all the people who have already done

58  
00:03:05,860 --> 00:03:02,860  
that and I do thank every listener and

59  
00:03:08,590 --> 00:03:05,870  
great people over at YouTube and kgr a

60  
00:03:11,110 --> 00:03:08,600  
radio and the Dark Matter digital

61  
00:03:12,880 --> 00:03:11,120  
network all of you thank you all and we

62  
00:03:14,320 --> 00:03:12,890  
are ready to bring in allahabad did I

63  
00:03:15,460 --> 00:03:14,330

talk about our guests I don't think I

64

00:03:18,160 --> 00:03:15,470

did oh my goodness

65

00:03:20,020 --> 00:03:18,170

Sam moranto repeat guests Amaranto will

66

00:03:23,710 --> 00:03:20,030

be on in just a bit right after

67

00:03:26,800 --> 00:03:23,720

Alejandro and Alejandro welcome to the

68

00:03:28,960 --> 00:03:26,810

show thank you very much it's great to

69

00:03:31,450 --> 00:03:28,970

be here glad to hear it

70

00:03:35,530 --> 00:03:31,460

I'm glad you made it boy it was a tough

71

00:03:37,930 --> 00:03:35,540

one tonight yeah yeah it gets

72

00:03:41,260 --> 00:03:37,940

complicated and sometimes these services

73

00:03:43,890 --> 00:03:41,270

we use do not participate with us well I

74

00:03:48,150 --> 00:03:43,900

found out what browser not to use oh

75

00:03:51,670 --> 00:03:48,160

yeah so anyway how's everything going

76

00:03:54,160 --> 00:03:51,680

everything is going good so lots of

77

00:03:56,620 --> 00:03:54,170

stuff going on I'm just right now

78

00:03:59,170 --> 00:03:56,630

writing up my review for the tonight's

79

00:04:01,300 --> 00:03:59,180

episode of Project Blue Book I know

80

00:04:05,290 --> 00:04:01,310

you've already seen it so we won't talk

81

00:04:06,699 --> 00:04:05,300

about that episode today but maybe we

82

00:04:09,760 --> 00:04:06,709

say that in the future so we don't do

83

00:04:11,970 --> 00:04:09,770

any spoilers but it's an exciting and

84

00:04:14,470 --> 00:04:11,980

interesting one that's for sure however

85

00:04:16,659 --> 00:04:14,480

you know just like we talked about this

86

00:04:20,530 --> 00:04:16,669

last week that the last project Bluebook

87

00:04:23,770 --> 00:04:20,540

show was really diverging from reality

88

00:04:26,230 --> 00:04:23,780

but what they did do was kind of

89

00:04:29,320 --> 00:04:26,240

incorporate these mythologies around

90

00:04:31,780 --> 00:04:29,330

UFOs last times the episode was about

91

00:04:33,520 --> 00:04:31,790

you know kind of the the Nazis and Nazi

92

00:04:34,960 --> 00:04:33,530

technology type of stuff that may have

93

00:04:37,210 --> 00:04:34,970

been brought over here by German

94

00:04:39,970 --> 00:04:37,220

scientists when they were essentially

95

00:04:42,550 --> 00:04:39,980

brought here from Germany as part of

96

00:04:45,190 --> 00:04:42,560

Project Paperclip which was the name of

97

00:04:48,779 --> 00:04:45,200

the show so they do at least touch upon

98

00:04:50,020 --> 00:04:48,789

those things however yeah does diverge

99

00:04:52,270 --> 00:04:50,030

great

100

00:04:53,980 --> 00:04:52,280

from reality and and I guess I'll say

101  
00:04:56,350 --> 00:04:53,990  
even though the title of this this

102  
00:04:57,850 --> 00:04:56,360  
tonight's episode is Foo Fighters you

103  
00:05:00,280 --> 00:04:57,860  
may agree and I'd like to hear your

104  
00:05:03,130 --> 00:05:00,290  
opinion they don't come any closer back

105  
00:05:05,350 --> 00:05:03,140  
to reality in this next episode they get

106  
00:05:08,080 --> 00:05:05,360  
pretty pretty far out there yeah I do

107  
00:05:11,290 --> 00:05:08,090  
remember that I do remember that but

108  
00:05:12,400 --> 00:05:11,300  
they I think as the show moves on I

109  
00:05:14,350 --> 00:05:12,410  
don't think they're all gonna be out

110  
00:05:17,050 --> 00:05:14,360  
there you know and I hope I hope people

111  
00:05:19,720 --> 00:05:17,060  
don't the hardcore people don't leave

112  
00:05:21,670 --> 00:05:19,730  
and because it is really a great show

113  
00:05:24,190 --> 00:05:21,680

overall you know so I hope they come

114

00:05:26,170 --> 00:05:24,200

back yeah you know I think it's it's

115

00:05:28,450 --> 00:05:26,180

exciting it's getting I guess more

116

00:05:32,290 --> 00:05:28,460

x-file a-- show though it's getting kind

117

00:05:34,330 --> 00:05:32,300

of dark and yeah you know Karen had had

118

00:05:36,280 --> 00:05:34,340

said something she just said I hope that

119

00:05:38,440 --> 00:05:36,290

you know people just don't blow it off

120

00:05:39,970 --> 00:05:38,450

as oh you know I thought the show would

121

00:05:42,340 --> 00:05:39,980

reveal something that there was some

122

00:05:44,140 --> 00:05:42,350

kind of real mystery to UFOs but it's

123

00:05:45,610 --> 00:05:44,150

actually just all make-believe just like

124

00:05:47,860 --> 00:05:45,620

UFOs are and hopefully it doesn't

125

00:05:51,130 --> 00:05:47,870

reflect bad on that but I'm not so sure

126

00:05:55,470 --> 00:05:51,140

it is because we are seeing certainly in

127

00:05:57,970 --> 00:05:55,480

the media a lot more stories on UFOs and

128

00:06:00,670 --> 00:05:57,980

Sam could speak to this I know I had

129

00:06:04,060 --> 00:06:00,680

someone in in the Illinois Chicago area

130

00:06:06,070 --> 00:06:04,070

but they're all writing about these and

131

00:06:08,980 --> 00:06:06,080

we've talked about it before sightings

132

00:06:11,760 --> 00:06:08,990

in their local areas and we're seeing a

133

00:06:14,860 --> 00:06:11,770

lot of these stories so it's definitely

134

00:06:16,870 --> 00:06:14,870

created an interest in the topic I

135

00:06:18,340 --> 00:06:16,880

believe I think that that along with of

136

00:06:20,710 --> 00:06:18,350

course the New York Times article from a

137

00:06:23,020 --> 00:06:20,720

year or so ago and some of those

138

00:06:24,970 --> 00:06:23,030

developments are really pushing kind of

139

00:06:27,400 --> 00:06:24,980

this newfound interest in credible

140

00:06:29,290 --> 00:06:27,410

information regarding UFOs and that

141

00:06:31,330 --> 00:06:29,300

least the History Channel is writing

142

00:06:33,490 --> 00:06:31,340

some good stories we regarding all of

143

00:06:35,410 --> 00:06:33,500

this in fact they've got a great story

144

00:06:39,730 --> 00:06:35,420

on Foo Fighters that you can find on the

145

00:06:42,330 --> 00:06:39,740

History Channel website right now and

146

00:06:45,850 --> 00:06:42,340

you to support you know tonight's show

147

00:06:47,890 --> 00:06:45,860

so check that out but actually there's a

148

00:06:51,100 --> 00:06:47,900

different story that I'm finding

149

00:06:53,050 --> 00:06:51,110

extremely interesting that I wanted to

150

00:06:56,080 --> 00:06:53,060

talk about today great

151  
00:06:57,970 --> 00:06:56,090  
all right ready so you probably saw this

152  
00:06:59,980 --> 00:06:57,980  
one in fact I think we talked about it

153  
00:07:03,190 --> 00:06:59,990  
but it's this astronomer Harvard

154  
00:07:03,909 --> 00:07:03,200  
astronomer that says that the Washington

155  
00:07:06,070 --> 00:07:03,919  
Post hide

156  
00:07:08,800 --> 00:07:06,080  
and the stories getting all over the

157  
00:07:11,950 --> 00:07:08,810  
place Harvard's top astronomer says an

158  
00:07:14,290 --> 00:07:11,960  
alien ship may be among us and he

159  
00:07:17,580 --> 00:07:14,300  
doesn't care what his colleagues think

160  
00:07:20,709 --> 00:07:17,590  
and it's an interesting story so this

161  
00:07:24,550 --> 00:07:20,719  
astronomy professor's name is Abby Loeb

162  
00:07:26,860 --> 00:07:24,560  
and he has I guess his calculation that

163  
00:07:29,260 --> 00:07:26,870

he calls cosmic modesty or this is what

164

00:07:32,050 --> 00:07:29,270

he calls cosmic modesty and that what he

165

00:07:35,129 --> 00:07:32,060

says is that the idea that it's arrogant

166

00:07:37,929 --> 00:07:35,139

to assume we are alone in the universe

167

00:07:42,580 --> 00:07:37,939

that's what his cosmic modesty is or

168

00:07:44,379 --> 00:07:42,590

even a particularly special species and

169

00:07:46,540 --> 00:07:44,389

which I think it's really interesting

170

00:07:49,510 --> 00:07:46,550

and I love this idea to begin with

171

00:07:51,939 --> 00:07:49,520

because in nature we see that there

172

00:07:54,429 --> 00:07:51,949

isn't one of something there's many many

173

00:07:56,409 --> 00:07:54,439

many many many many of something in fact

174

00:07:58,899 --> 00:07:56,419

when it comes to planets we're finding

175

00:08:00,490 --> 00:07:58,909

out that there's tons of planets out

176

00:08:03,640 --> 00:08:00,500

there perhaps even more planets than

177

00:08:06,790 --> 00:08:03,650

Suns which would then equal kind of like

178

00:08:09,249 --> 00:08:06,800

his equation goes into that were not so

179

00:08:10,749 --> 00:08:09,259

special and unique I think what's

180

00:08:13,480 --> 00:08:10,759

interesting about that is if you take

181

00:08:16,629 --> 00:08:13,490

that even further than this whole level

182

00:08:19,450 --> 00:08:16,639

of technology that we have gotten to or

183

00:08:23,170 --> 00:08:19,460

even our social economical kind of

184

00:08:27,490 --> 00:08:23,180

makeup probably also isn't unique or

185

00:08:30,100 --> 00:08:27,500

even a species that is beginning to

186

00:08:32,740 --> 00:08:30,110

become spacefaring isn't necessarily

187

00:08:36,100 --> 00:08:32,750

unique so he really pushes us forward

188

00:08:39,279 --> 00:08:36,110

however he is the guy that was really

189

00:08:41,290 --> 00:08:39,289

pushing the idea that isn't that it's

190

00:08:43,149 --> 00:08:41,300

mysterious is by its movement they're

191

00:08:45,699 --> 00:08:43,159

able to determine you know kind of the

192

00:08:47,650 --> 00:08:45,709

makeup of the object in this case the

193

00:08:51,730 --> 00:08:47,660

object move in a manner that they could

194

00:08:53,590 --> 00:08:51,740

not explain it the way that it would

195

00:08:56,019 --> 00:08:53,600

gravity affected it it seemed lighter

196

00:08:59,560 --> 00:08:56,029

than a typical rock so it was made of a

197

00:09:03,460 --> 00:08:59,570

lighter material also it seemed I guess

198

00:09:06,310 --> 00:09:03,470

it sped up at some point so the idea is

199

00:09:09,519 --> 00:09:06,320

that perhaps the way that the Sun hit it

200

00:09:12,430 --> 00:09:09,529

you know I was able to propel it at that

201  
00:09:14,889 --> 00:09:12,440  
time faster than it could be that's kind

202  
00:09:17,740 --> 00:09:14,899  
of the leading theory but this guy's

203  
00:09:20,860 --> 00:09:17,750  
saying no that doesn't seem right either

204  
00:09:22,769 --> 00:09:20,870  
so it's got to be extraterrestrial he's

205  
00:09:26,590 --> 00:09:22,779  
suggesting you know it's like an

206  
00:09:29,050 --> 00:09:26,600  
extraterrestrial a technology that was

207  
00:09:31,420 --> 00:09:29,060  
sent into our solar system to come take

208  
00:09:33,999 --> 00:09:31,430  
a look and then keep going like I said

209  
00:09:34,929 --> 00:09:34,009  
some of his colleagues are like well he

210  
00:09:36,069 --> 00:09:34,939  
doesn't mean it

211  
00:09:38,679 --> 00:09:36,079  
and that's essentially what they're

212  
00:09:41,019 --> 00:09:38,689  
saying that someone suggested well he

213  
00:09:42,879 --> 00:09:41,029

could be putting this forest as kind of

214

00:09:45,910 --> 00:09:42,889

an exercise because that's often what

215

00:09:48,090 --> 00:09:45,920

professors do to teach you know how you

216

00:09:51,249 --> 00:09:48,100

theorize and how you prove or disprove

217

00:09:54,249 --> 00:09:51,259

theories other people are saying perhaps

218

00:09:56,439 --> 00:09:54,259

he's joking or it's just kind of funny

219

00:09:59,199 --> 00:09:56,449

cuz of a lot of it he's got this guy is

220

00:10:02,650 --> 00:09:59,209

super credible he's very well-known he's

221

00:10:04,689 --> 00:10:02,660

written a lot of papers and so he can't

222

00:10:07,900 --> 00:10:04,699

he's so credible they can't really call

223

00:10:09,939 --> 00:10:07,910

him a nut so they're just kind of trying

224

00:10:12,699 --> 00:10:09,949

to come up with excuses as to why he's

225

00:10:15,850 --> 00:10:12,709

doing this but it's really interesting

226

00:10:19,629 --> 00:10:15,860

it does seem at least right now he is

227

00:10:21,699 --> 00:10:19,639

very at least adamant that there's got

228

00:10:24,340 --> 00:10:21,709

to be extraterrestrial civilizations

229

00:10:27,040 --> 00:10:24,350

there's got to be other species like us

230

00:10:29,350 --> 00:10:27,050

more advanced in us out there and that's

231

00:10:32,319 --> 00:10:29,360

one of the reasons he loves this idea

232

00:10:34,809 --> 00:10:32,329

that this could have been evidence of

233

00:10:37,059 --> 00:10:34,819

that but what's great is we're seeing a

234

00:10:39,280 --> 00:10:37,069

lot of this there's another story out

235

00:10:41,590 --> 00:10:39,290

there recently with another scientist

236

00:10:43,929 --> 00:10:41,600

saying that we need to take you know the

237

00:10:46,150 --> 00:10:43,939

idea that we might be being visited

238

00:10:49,090 --> 00:10:46,160

seriously there is a paper written by

239

00:10:50,590 --> 00:10:49,100

this Columbo scientist who who gotten

240

00:10:52,629 --> 00:10:50,600

the news also where he was essentially

241

00:10:55,629 --> 00:10:52,639

saying the same thing that okay maybe

242

00:10:58,090 --> 00:10:55,639

we're not being visited right now but if

243

00:11:02,170 --> 00:10:58,100

there is a potential for that if we find

244

00:11:07,329 --> 00:11:02,180

something odd we can't discount that

245

00:11:10,420 --> 00:11:07,339

offhand we have to leave that in the the

246

00:11:12,670 --> 00:11:10,430

potential possibilities out there before

247

00:11:14,379 --> 00:11:12,680

we just say you know it can't be this

248

00:11:16,949 --> 00:11:14,389

because that's not scientific science

249

00:11:21,100 --> 00:11:16,959

you have to disprove it before you can

250

00:11:24,189 --> 00:11:21,110

not include it definitively so right

251

00:11:27,669 --> 00:11:24,199

well hey I really appreciate you picking

252

00:11:29,439 --> 00:11:27,679

up the mantle here well and had it the

253

00:11:31,390 --> 00:11:29,449

strange thing happened as my computer

254

00:11:33,970 --> 00:11:31,400

screen went black

255

00:11:35,850 --> 00:11:33,980

then it just was gone I've never had

256

00:11:38,620 --> 00:11:35,860

that happen before it's a late model man

257

00:11:42,280 --> 00:11:38,630

I think it's the government after

258

00:11:45,250 --> 00:11:42,290

tonight it's Sam it's Sam I think Sam's

259

00:11:47,190 --> 00:11:45,260

gone so before you leave why don't you

260

00:11:49,690 --> 00:11:47,200

hang in there make sure I get them back

261

00:11:53,860 --> 00:11:49,700

okay because I think we lost them in the

262

00:11:58,920 --> 00:11:53,870

crash here so I will I will see the

263

00:12:05,530 --> 00:11:58,930

crash of 2019 yeah that's right oh and

264

00:12:07,690 --> 00:12:05,540

now I have to figure out all right

265

00:12:09,670 --> 00:12:07,700

KTR he's getting him on the line but I

266

00:12:13,360 --> 00:12:09,680

just got to say you know this is just a

267

00:12:16,360 --> 00:12:13,370

really exciting time when we have this

268

00:12:18,870 --> 00:12:16,370

government program that's come out you

269

00:12:21,820 --> 00:12:18,880

know there was a behind-the-scenes

270

00:12:24,940 --> 00:12:21,830

evolution that that happened here when

271

00:12:26,980 --> 00:12:24,950

Lou Elizondo first came out that he had

272

00:12:29,200 --> 00:12:26,990

worked for this discover mint program

273

00:12:31,600 --> 00:12:29,210

investigating UFOs his colleagues

274

00:12:33,550 --> 00:12:31,610

weren't happy about it and we know this

275

00:12:36,130 --> 00:12:33,560

at least through through George nappa

276

00:12:37,750 --> 00:12:36,140

who hasn't been investigating all of

277

00:12:40,060 --> 00:12:37,760

this many of his colleagues weren't

278

00:12:44,920 --> 00:12:40,070

happy about it and they weren't

279

00:12:47,620 --> 00:12:44,930

necessarily on board with you know these

280

00:12:49,540 --> 00:12:47,630

revelations however that's changed where

281

00:12:52,570 --> 00:12:49,550

his colleagues eventually have kind of

282

00:12:54,190 --> 00:12:52,580

accepted it they were just you know like

283

00:12:56,530 --> 00:12:54,200

Harry Reid I said the whole reason that

284

00:12:58,540 --> 00:12:56,540

this program was kept secret is it's the

285

00:13:00,220 --> 00:12:58,550

scrutiny they didn't want people to say

286

00:13:02,620 --> 00:13:00,230

hey what the hell are you guys doing you

287

00:13:05,800 --> 00:13:02,630

know looking for UFOs or aliens and

288

00:13:08,440 --> 00:13:05,810

stuff like that but that's changed we

289

00:13:10,450 --> 00:13:08,450

have seen through Nick Pope's

290

00:13:12,580 --> 00:13:10,460

articles or through other people that

291

00:13:15,280 --> 00:13:12,590

we've interviewed close to this that the

292

00:13:17,770 --> 00:13:15,290

Congress has had part of their

293

00:13:19,750 --> 00:13:17,780

subcommittees have been interviewing UFO

294

00:13:22,390 --> 00:13:19,760

witnesses and in interviewing Lou and

295

00:13:25,360 --> 00:13:22,400

others related to you know what's been

296

00:13:27,520 --> 00:13:25,370

going on with this phenomena let alone

297

00:13:29,410 --> 00:13:27,530

we've had a lot more media stories and

298

00:13:32,350 --> 00:13:29,420

then on top of that we have the

299

00:13:35,560 --> 00:13:32,360

scientists being more accepted of the

300

00:13:37,330 --> 00:13:35,570

extra-terrestrial hypotheses and I think

301  
00:13:39,430 --> 00:13:37,340  
one thing we have to remember and it is

302  
00:13:40,990 --> 00:13:39,440  
part of this evolution is that the

303  
00:13:43,900 --> 00:13:41,000  
search for extraterrestrial

304  
00:13:45,190 --> 00:13:43,910  
Institute kind of as it was represented

305  
00:13:46,810 --> 00:13:45,200  
in contact

306  
00:13:49,480 --> 00:13:46,820  
they were just gonna listen for signals

307  
00:13:52,060 --> 00:13:49,490  
of aliens possibly being out there and

308  
00:13:54,579 --> 00:13:52,070  
that used to be considered fringe it was

309  
00:13:57,280 --> 00:13:54,589  
really strange and weird like in the 80s

310  
00:13:59,259 --> 00:13:57,290  
or in the 90s and as time went on

311  
00:14:01,540 --> 00:13:59,269  
because that organization is so full of

312  
00:14:03,790 --> 00:14:01,550  
scientists it began to be taken very

313  
00:14:06,490 --> 00:14:03,800

very seriously until we've reached this

314

00:14:08,769 --> 00:14:06,500

point where NASA essentially is like a

315

00:14:11,050 --> 00:14:08,779

SETI Institute they're all about looking

316

00:14:14,980 --> 00:14:11,060

for aliens many of their projects have

317

00:14:17,439 --> 00:14:14,990

been looking for life so that idea that

318

00:14:19,870 --> 00:14:17,449

they're out there has been adopted and

319

00:14:23,350 --> 00:14:19,880

and become you know not weird or funny

320

00:14:26,379 --> 00:14:23,360

or worse than giggling about UFOs have

321

00:14:28,569 --> 00:14:26,389

had a harder time of it but now we're

322

00:14:31,329 --> 00:14:28,579

starting to get to a point where even

323

00:14:34,860 --> 00:14:31,339

the idea that extraterrestrials could be

324

00:14:37,810 --> 00:14:34,870

visiting us or we could be having

325

00:14:41,470 --> 00:14:37,820

observing evidence of advanced

326

00:14:44,949 --> 00:14:41,480

civilization just now starting to become

327

00:14:47,019 --> 00:14:44,959

more accepted it could be not that only

328

00:14:48,340 --> 00:14:47,029

that we have more credible information

329

00:14:50,590 --> 00:14:48,350

coming forth that's why I think it's

330

00:14:52,930 --> 00:14:50,600

important that people like you know

331

00:14:56,500 --> 00:14:52,940

Martin and Martin's guests share

332

00:14:59,019 --> 00:14:56,510

credible information but it's also I

333

00:15:00,610 --> 00:14:59,029

think that you know a lot of these grad

334

00:15:03,160 --> 00:15:00,620

students who work on these papers are

335

00:15:05,350 --> 00:15:03,170

younger people and the statistics show

336

00:15:08,319 --> 00:15:05,360

that younger people are really into this

337

00:15:10,300 --> 00:15:08,329

topic they are more into UFOs and more

338

00:15:13,660 --> 00:15:10,310

accepting of the possibility or even

339

00:15:16,150 --> 00:15:13,670

have taken it as fact that there's got

340

00:15:17,800 --> 00:15:16,160

to be others out there and so that could

341

00:15:20,530 --> 00:15:17,810

be part of why this is happening but

342

00:15:22,150 --> 00:15:20,540

we're writing this crest of where public

343

00:15:25,240 --> 00:15:22,160

opinion about was something that we've

344

00:15:27,069 --> 00:15:25,250

worked on is changing and I think it's

345

00:15:29,620 --> 00:15:27,079

interesting and you know with people

346

00:15:32,710 --> 00:15:29,630

like Sam moranto who's been doing these

347

00:15:35,100 --> 00:15:32,720

sorts of investigations for decades the

348

00:15:41,850 --> 00:15:35,110

landscape has changed so much and

349

00:15:49,090 --> 00:15:47,139

Martin yes it looks like yeah I'm still

350

00:15:51,970 --> 00:15:49,100

on oh you're still here trying to get

351  
00:15:53,889 --> 00:15:51,980  
Sam back on on the show okay yeah okay

352  
00:15:58,540 --> 00:15:53,899  
so maybe I'll ask again

353  
00:16:00,220 --> 00:15:58,550  
no and is there anything any other

354  
00:16:04,000 --> 00:16:00,230  
you know the head that doesn't seem to

355  
00:16:06,850 --> 00:16:04,010  
be a lot of UFO incidents happening

356  
00:16:11,080 --> 00:16:06,860  
lately besides of you know you mentioned

357  
00:16:14,080 --> 00:16:11,090  
one but I've have noticed it seems quiet

358  
00:16:17,680 --> 00:16:14,090  
am I not you know am I just not seeing

359  
00:16:20,440 --> 00:16:17,690  
them as much I agree with you there I

360  
00:16:23,500 --> 00:16:20,450  
totally agree what it is interesting

361  
00:16:26,050 --> 00:16:23,510  
that we haven't had a lot of stories

362  
00:16:28,480 --> 00:16:26,060  
about UFO sightings recently we've had

363  
00:16:30,160 --> 00:16:28,490

stories about recent sightings we've

364

00:16:32,740 --> 00:16:30,170

seen a lot of stories in the media about

365

00:16:34,870 --> 00:16:32,750

UFOs and UFO sightings but typically

366

00:16:36,760 --> 00:16:34,880

they're talking about well for instance

367

00:16:38,830 --> 00:16:36,770

a lot of them are talking about 2018

368

00:16:40,930 --> 00:16:38,840

since it's January or now it's February

369

00:16:43,090 --> 00:16:40,940

but in I think because it's January a

370

00:16:47,560 --> 00:16:43,100

lot of people review the previous year

371

00:16:49,470 --> 00:16:47,570

so we had a lot of 2018 sighting reports

372

00:16:52,000 --> 00:16:49,480

stories but not about necessarily

373

00:16:54,820 --> 00:16:52,010

individual sightings when it comes to

374

00:16:56,710 --> 00:16:54,830

individual sightings we've had a few but

375

00:17:00,220 --> 00:16:56,720

nothing of note and I know some people

376

00:17:02,590 --> 00:17:00,230

will argue that they disagree but really

377

00:17:06,040 --> 00:17:02,600

a lot of what we've seen have it's been

378

00:17:09,190 --> 00:17:06,050

the type of you know birds and bees and

379

00:17:11,970 --> 00:17:09,200

solar balloons and balloons and nothing

380

00:17:15,010 --> 00:17:11,980

really strong or interesting

381

00:17:17,590 --> 00:17:15,020

unfortunately in fact even this case in

382

00:17:20,620 --> 00:17:17,600

Utah do you remember that one where this

383

00:17:22,360 --> 00:17:20,630

drone captured something zipped by very

384

00:17:24,579 --> 00:17:22,370

quickly and a lot of people have

385

00:17:26,920 --> 00:17:24,589

analyzed that and I think proven pretty

386

00:17:29,710 --> 00:17:26,930

handedly including you know our go-to

387

00:17:32,560 --> 00:17:29,720

guy Mark Dantonio who's the MUFON video

388

00:17:35,050 --> 00:17:32,570

and photo expert that it was a bird

389

00:17:36,580 --> 00:17:35,060

swooping in on the drone which makes

390

00:17:39,310 --> 00:17:36,590

sense movements bit

391

00:17:40,780 --> 00:17:39,320

they even got some stills at that seem

392

00:17:44,080 --> 00:17:40,790

like that seems to be the answer for

393

00:17:47,230 --> 00:17:44,090

that one so yeah no mysterious really

394

00:17:50,380 --> 00:17:47,240

great sightings recently that I'm aware

395

00:17:52,060 --> 00:17:50,390

of and that you know I've been thinking

396

00:17:54,400 --> 00:17:52,070

about that a lot lately it's interesting

397

00:17:57,280 --> 00:17:54,410

that we have this kind of resurgence and

398

00:17:58,180 --> 00:17:57,290

I was asked recently on Brian Eno his

399

00:18:01,480 --> 00:17:58,190

show oh yeah

400

00:18:04,630 --> 00:18:01,490

Paul you know yeah Paul and Ben their

401  
00:18:07,500 --> 00:18:04,640  
show and and you know that haven't been

402  
00:18:09,910 --> 00:18:07,510  
recently some really great sightings

403  
00:18:12,310 --> 00:18:09,920  
even though we have this kind of bigger

404  
00:18:14,670 --> 00:18:12,320  
interest in the topic so

405  
00:18:16,330 --> 00:18:14,680  
it I think that's that's odd yeah

406  
00:18:18,160 --> 00:18:16,340  
alejandro i don't know if there's

407  
00:18:22,900 --> 00:18:18,170  
another subject you can speak of but i'm

408  
00:18:26,140 --> 00:18:22,910  
going to try to dial through to sam it's

409  
00:18:27,730 --> 00:18:26,150  
going to take a few minutes so let's see

410  
00:18:29,710 --> 00:18:27,740  
can you go ahead and talk about your

411  
00:18:32,680 --> 00:18:29,720  
Thursday night livestream show I really

412  
00:18:33,940 --> 00:18:32,690  
enjoy that okay well I talked a lot

413  
00:18:35,680 --> 00:18:33,950

about news

414

00:18:38,080 --> 00:18:35,690

so my Thursday livestream show of course

415

00:18:41,200 --> 00:18:38,090

here well I guess we're probably in that

416

00:18:43,900 --> 00:18:41,210

broadcasting not YouTube right now yeah

417

00:18:45,490 --> 00:18:43,910

oh we are okay so it's here on YouTube

418

00:18:48,580 --> 00:18:45,500

kind of like this show where I do a live

419

00:18:51,280 --> 00:18:48,590

show it's every Thursday evening 6 p.m.

420

00:18:52,450 --> 00:18:51,290

Arizona time and I say Arizona time

421

00:18:54,100 --> 00:18:52,460

because we don't change with daylight

422

00:18:56,140 --> 00:18:54,110

savings so right now we're aligned with

423

00:19:00,310 --> 00:18:56,150

Mountain otherwise in the summer were

424

00:19:03,040 --> 00:19:00,320

aligned with Pacific but essentially I

425

00:19:04,690 --> 00:19:03,050

covered the news in more depth and some

426

00:19:06,160 --> 00:19:04,700

of the stories that I write so kind of

427

00:19:08,260 --> 00:19:06,170

like these reviews have been doing on

428

00:19:11,170 --> 00:19:08,270

Project Blue Book I go into detail about

429

00:19:14,020 --> 00:19:11,180

some of the stories that are related to

430

00:19:16,390 --> 00:19:14,030

these episodes that I include in the

431

00:19:18,160 --> 00:19:16,400

links and also the actual Blue Book

432

00:19:21,130 --> 00:19:18,170

files what I think is interesting is

433

00:19:22,780 --> 00:19:21,140

I've read other reviews and I haven't

434

00:19:24,820 --> 00:19:22,790

seen any other reviews except for mine

435

00:19:26,770 --> 00:19:24,830

actually where that referenced the

436

00:19:28,660 --> 00:19:26,780

actual Blue Book stories and give you

437

00:19:31,840 --> 00:19:28,670

links to them to see the files

438

00:19:33,460 --> 00:19:31,850

themselves because it's hard to tell

439

00:19:35,860 --> 00:19:33,470

from the television show certainly

440

00:19:39,510 --> 00:19:35,870

what's real and what's not and some of

441

00:19:42,010 --> 00:19:39,520

the more interesting points are aspects

442

00:19:44,080 --> 00:19:42,020

especially of those sightings that were

443

00:19:46,450 --> 00:19:44,090

covered in the first few episodes are

444

00:19:50,410 --> 00:19:46,460

really fascinating and you can find

445

00:19:53,650 --> 00:19:50,420

pictures or details in the project

446

00:19:55,630 --> 00:19:53,660

Bluebook files another really important

447

00:19:58,300 --> 00:19:55,640

I think this is the number one in most

448

00:20:01,050 --> 00:19:58,310

important book in ufology is Captain

449

00:20:03,490 --> 00:20:01,060

rappels book so Edward rappelled

450

00:20:04,690 --> 00:20:03,500

essentially and I think this is an

451  
00:20:08,880 --> 00:20:04,700  
interesting part of history and he

452  
00:20:13,270 --> 00:20:08,890  
documents this in his book the Air Force

453  
00:20:15,310 --> 00:20:13,280  
in the early 50s was not when it came to

454  
00:20:18,760 --> 00:20:15,320  
UFOs was not seen in a positive light

455  
00:20:21,130 --> 00:20:18,770  
that's because in 1948 the very first

456  
00:20:23,830 --> 00:20:21,140  
UFO investigation that went on project

457  
00:20:25,990 --> 00:20:23,840  
sign there was a paper written estimate

458  
00:20:27,970 --> 00:20:26,000  
of a situation that concluded

459  
00:20:30,070 --> 00:20:27,980  
UFOs could be extraterrestrial in nature

460  
00:20:31,810 --> 00:20:30,080  
of course they outlined a few things

461  
00:20:33,370 --> 00:20:31,820  
these could be but they they said some

462  
00:20:34,210 --> 00:20:33,380  
are genuine mysteries and this could be

463  
00:20:36,520 --> 00:20:34,220

a possibility

464

00:20:39,460 --> 00:20:36,530

general Vandenberg didn't like that idea

465

00:20:42,310 --> 00:20:39,470

he said try again ripped up the paper

466

00:20:43,870 --> 00:20:42,320

report and essentially wanted to take

467

00:20:45,970 --> 00:20:43,880

that part out because he didn't feel

468

00:20:48,760 --> 00:20:45,980

that that was there was enough evidence

469

00:20:50,530 --> 00:20:48,770

to support that so then became project

470

00:20:52,480 --> 00:20:50,540

grudge what's interesting is that

471

00:20:55,660 --> 00:20:52,490

project names are supposed to be chosen

472

00:20:57,550 --> 00:20:55,670

randomly and supposedly they are but

473

00:20:59,770 --> 00:20:57,560

grudge seemed to fit because by this

474

00:21:01,720 --> 00:20:59,780

time the Air Force really seemed to have

475

00:21:04,330 --> 00:21:01,730

a grudge against the whole phenomena and

476

00:21:07,000 --> 00:21:04,340

they really worked hard to debunk

477

00:21:11,560 --> 00:21:07,010

everything older cases current cases and

478

00:21:14,230 --> 00:21:11,570

so even scientists began to not want to

479

00:21:16,150 --> 00:21:14,240

deal with the Air Force or even people

480

00:21:18,610 --> 00:21:16,160

in the Air Force didn't want to send

481

00:21:20,830 --> 00:21:18,620

cases a blue book because they knew even

482

00:21:23,200 --> 00:21:20,840

if they had an interesting case that

483

00:21:24,310 --> 00:21:23,210

blue book would say oh it's not this or

484

00:21:26,680 --> 00:21:24,320

it's not that

485

00:21:28,620 --> 00:21:26,690

in fact Project Blue Book covered one of

486

00:21:30,940 --> 00:21:28,630

the cases and I think it was the Gorman

487

00:21:33,850 --> 00:21:30,950

case in the first episode I can't

488

00:21:36,280 --> 00:21:33,860

remember for sure but essentially what

489

00:21:40,090 --> 00:21:36,290

had happened was that the object was

490

00:21:43,120 --> 00:21:40,100

caught on radar and the radar guy sent

491

00:21:45,040 --> 00:21:43,130

into blue book hey this is not weather

492

00:21:47,470 --> 00:21:45,050

phenomena it was not some sort of

493

00:21:49,930 --> 00:21:47,480

weather messing with our radar this was

494

00:21:52,420 --> 00:21:49,940

an object that we saw moving in a

495

00:21:54,760 --> 00:21:52,430

strange manner they send this into Blue

496

00:21:56,710 --> 00:21:54,770

Book being very clear and repelled says

497

00:21:59,500 --> 00:21:56,720

he saw this report and it was obvious

498

00:22:01,330 --> 00:21:59,510

that they were afraid that Blue Book

499

00:22:04,510 --> 00:22:01,340

would explain it away and sure enough

500

00:22:05,860 --> 00:22:04,520

they still explained it went oh no this

501  
00:22:09,370 --> 00:22:05,870  
has to be weather even though those

502  
00:22:11,290 --> 00:22:09,380  
radar people explicitly said they check

503  
00:22:13,660 --> 00:22:11,300  
that that was not the issue but it

504  
00:22:15,640 --> 00:22:13,670  
demonstrated why this angst and

505  
00:22:17,470 --> 00:22:15,650  
frustration was having with Blue Book so

506  
00:22:19,330 --> 00:22:17,480  
they wanted roof health to come take a

507  
00:22:21,820 --> 00:22:19,340  
look and say well what should we do at

508  
00:22:23,950 --> 00:22:21,830  
this point and rappelled said we've got

509  
00:22:26,350 --> 00:22:23,960  
a bad reputation this is not good for us

510  
00:22:28,450 --> 00:22:26,360  
we really need to genuinely investigate

511  
00:22:31,540 --> 00:22:28,460  
these things and they said okay thanks

512  
00:22:34,270 --> 00:22:31,550  
go for it and they put him in charge he

513  
00:22:37,090 --> 00:22:34,280

only did this for about a year or so and

514

00:22:39,100 --> 00:22:37,100

then he retired and he wrote a book

515

00:22:39,820 --> 00:22:39,110

about his experience in Project Blue

516

00:22:42,640 --> 00:22:39,830

Book

517

00:22:44,620 --> 00:22:42,650

and it's a great book it's got some very

518

00:22:46,270 --> 00:22:44,630

very credible cases and I really feel

519

00:22:49,360 --> 00:22:46,280

it's the most important book in this

520

00:22:52,110 --> 00:22:49,370

field and you can find that book for

521

00:22:54,910 --> 00:22:52,120

free on the night cap website but just

522

00:22:56,890 --> 00:22:54,920

Google Rupe help estimate of a situation

523

00:23:00,880 --> 00:22:56,900

of the situation you can find it and

524

00:23:03,100 --> 00:23:00,890

read that book several super fascinating

525

00:23:07,210 --> 00:23:03,110

cases in there and that book is really

526  
00:23:09,310 --> 00:23:07,220  
what's being used largely by the Project

527  
00:23:11,680 --> 00:23:09,320  
Blue Book creators and writers to put

528  
00:23:15,010 --> 00:23:11,690  
together these episodes so really that

529  
00:23:17,230 --> 00:23:15,020  
book you're gonna read the truth of all

530  
00:23:19,150 --> 00:23:17,240  
of the background of all of this so

531  
00:23:21,790 --> 00:23:19,160  
that's something really interesting to

532  
00:23:24,940 --> 00:23:21,800  
look into and so a lot of my stories the

533  
00:23:27,190 --> 00:23:24,950  
roots are from there you know my you and

534  
00:23:32,170 --> 00:23:27,200  
I had conversation once about that book

535  
00:23:34,390 --> 00:23:32,180  
and I mentioned that that I said that I

536  
00:23:36,040 --> 00:23:34,400  
didn't have that book well someone was

537  
00:23:37,690 --> 00:23:36,050  
went into a library one of my listeners

538  
00:23:41,410 --> 00:23:37,700

went into a library actually in Phoenix

539

00:23:41,770 --> 00:23:41,420

and they found the book and sent it to

540

00:23:46,030 --> 00:23:41,780

me

541

00:23:47,830 --> 00:23:46,040

a wonderful hardcopy yeah but did they

542

00:23:49,630 --> 00:23:47,840

check it out of the library and then

543

00:23:54,000 --> 00:23:49,640

send it to you I'm in I'm sorry a

544

00:23:57,640 --> 00:23:54,010

bookstore oh that is a library oh boy

545

00:23:59,560 --> 00:23:57,650

yeah there are several outlets yep I'm

546

00:24:02,650 --> 00:23:59,570

reprinting it so you can't find it on

547

00:24:04,540 --> 00:24:02,660

Amazon and in fact in all of my videos I

548

00:24:06,220 --> 00:24:04,550

put a link to it on the bottom because I

549

00:24:09,700 --> 00:24:06,230

have some of my favorite books link

550

00:24:11,680 --> 00:24:09,710

there so you can go buy them but and I'd

551  
00:24:14,380 --> 00:24:11,690  
recommend them all but that one's really

552  
00:24:16,270 --> 00:24:14,390  
important I think because it establishes

553  
00:24:18,040 --> 00:24:16,280  
from the get-go and this is something

554  
00:24:21,430 --> 00:24:18,050  
I've been saying and it's certainly

555  
00:24:24,820 --> 00:24:21,440  
borne out in recent revelations

556  
00:24:27,430 --> 00:24:24,830  
especially related to you know Elizondo

557  
00:24:30,130 --> 00:24:27,440  
and his group that at the DoD in

558  
00:24:33,160 --> 00:24:30,140  
investigating UFOs but it's never been

559  
00:24:35,740 --> 00:24:33,170  
that there's been a consensus I mean I

560  
00:24:37,390 --> 00:24:35,750  
think the US Air Force PR department has

561  
00:24:39,700 --> 00:24:37,400  
worked very hard to say oh yeah we

562  
00:24:42,310 --> 00:24:39,710  
looked at UFOs there's nothing to it and

563  
00:24:45,610 --> 00:24:42,320

we and it's kind of a unanimous decision

564

00:24:48,610 --> 00:24:45,620

but that's never been the case there's

565

00:24:51,850 --> 00:24:48,620

always been arguing within the Air Force

566

00:24:53,320 --> 00:24:51,860

as to the nature of the phenomena and I

567

00:24:56,380 --> 00:24:53,330

think we see that

568

00:24:58,150 --> 00:24:56,390

that especially with the revelation

569

00:25:01,000 --> 00:24:58,160

surrounding the nimitz case which are

570

00:25:03,850 --> 00:25:01,010

you covered in depth in that these

571

00:25:05,560 --> 00:25:03,860

people of course since 2004 have felt

572

00:25:07,540 --> 00:25:05,570

that they really experienced something

573

00:25:09,070 --> 00:25:07,550

anomalous and now that they're able to

574

00:25:11,170 --> 00:25:09,080

come out about it they're talking about

575

00:25:12,670 --> 00:25:11,180

it so that proves you know and

576

00:25:14,520 --> 00:25:12,680

demonstrates there has been these

577

00:25:18,310 --> 00:25:14,530

conversations within the Air Force

578

00:25:21,070 --> 00:25:18,320

despite you know us not knowing that and

579

00:25:22,870 --> 00:25:21,080

none of that really very little of it I

580

00:25:24,790 --> 00:25:22,880

should say coming to light

581

00:25:26,650 --> 00:25:24,800

I shouldn't say none because there are

582

00:25:29,440 --> 00:25:26,660

researchers who have been able to

583

00:25:32,470 --> 00:25:29,450

interview military witnesses in the last

584

00:25:35,140 --> 00:25:32,480

few decades even during really all of

585

00:25:36,580 --> 00:25:35,150

this really hard secrecy I don't know if

586

00:25:38,830 --> 00:25:36,590

Sam has that would be interesting he's

587

00:25:41,680 --> 00:25:38,840

done so much work I'm sure he has but

588

00:25:43,150 --> 00:25:41,690

one example of that would be you know

589

00:25:46,000 --> 00:25:43,160

that the scientific Coalition for

590

00:25:49,210 --> 00:25:46,010

ufology and their investigation of the

591

00:25:51,040 --> 00:25:49,220

homeland security video from 2009 or for

592

00:25:53,740 --> 00:25:51,050

Puerto Rico where these guys you know

593

00:25:55,750 --> 00:25:53,750

saw something in mysterious and they

594

00:25:57,760 --> 00:25:55,760

sought the group of these UFO

595

00:26:00,220 --> 00:25:57,770

researchers to investigate it right

596

00:26:02,230 --> 00:26:00,230

alejandro again i really appreciate you

597

00:26:04,450 --> 00:26:02,240

really helped out a lot tonight and no

598

00:26:06,220 --> 00:26:04,460

remodeling my pleasure all right all

599

00:26:07,390 --> 00:26:06,230

right now i'll talk to you next week all

600

00:26:08,520 --> 00:26:07,400

right talk to you later all right

601  
00:26:11,260 --> 00:26:08,530  
bye-bye

602  
00:26:13,630 --> 00:26:11,270  
alright everyone our guest is sam

603  
00:26:16,780 --> 00:26:13,640  
moranto he has been on this show a

604  
00:26:19,300 --> 00:26:16,790  
number of times he's always he actually

605  
00:26:22,900 --> 00:26:19,310  
helped me out with the show at one time

606  
00:26:24,700 --> 00:26:22,910  
did a couple of UFO news segments and

607  
00:26:26,800 --> 00:26:24,710  
it's always great talking to him I

608  
00:26:29,350 --> 00:26:26,810  
consider him a good friend and he's back

609  
00:26:32,380 --> 00:26:29,360  
and just what we're speaking of earlier

610  
00:26:33,670 --> 00:26:32,390  
just a minute ago about the Nimitz case

611  
00:26:36,190 --> 00:26:33,680  
just one more thing I wanted to add

612  
00:26:39,790 --> 00:26:36,200  
about that on March 19th I will have

613  
00:26:42,310 --> 00:26:39,800

Kevin day he was the radar the chief

614

00:26:45,460 --> 00:26:42,320

officer and the we're looking the radar

615

00:26:48,580 --> 00:26:45,470

that saw all those objects on the nimac

616

00:26:50,050 --> 00:26:48,590

case Nimitz case and he he and I had a

617

00:26:51,190 --> 00:26:50,060

conversation last night he said he was

618

00:26:53,980 --> 00:26:51,200

going to try to get a couple more

619

00:26:57,010 --> 00:26:53,990

tic-tac witnesses to join the show again

620

00:26:58,180 --> 00:26:57,020

that's March 19th I'm not saying that's

621

00:27:00,760 --> 00:26:58,190

going to happen I'm gonna say I'm

622

00:27:03,940 --> 00:27:00,770

hopeful that's going to happen and we'll

623

00:27:06,070 --> 00:27:03,950

see if it indeed does all right so our

624

00:27:06,700 --> 00:27:06,080

guest via phone we had all kinds of

625

00:27:08,770 --> 00:27:06,710

trouble

626  
00:27:10,360 --> 00:27:08,780  
and every which way possible Skype you

627  
00:27:12,840 --> 00:27:10,370  
name it but I got him here on the phone

628  
00:27:15,070 --> 00:27:12,850  
as Sam moranto welcome to the show

629  
00:27:17,440 --> 00:27:15,080  
boy have we've gone through quite a few

630  
00:27:19,570 --> 00:27:17,450  
hurdles today honey I missed something

631  
00:27:22,240 --> 00:27:19,580  
else I think we started a half hour

632  
00:27:24,120 --> 00:27:22,250  
before the show too and and still yeah

633  
00:27:27,340 --> 00:27:24,130  
it's trouble f2 trouble but anyway

634  
00:27:29,650 --> 00:27:27,350  
you're here Aloha jewel-covered oh yes

635  
00:27:32,020 --> 00:27:29,660  
oh my god holla honcho and you covered

636  
00:27:33,370 --> 00:27:32,030  
tons of ground and I was wishing you

637  
00:27:35,590 --> 00:27:33,380  
would actually stay on but that'd be

638  
00:27:39,010 --> 00:27:35,600

kind of impossible for us to all talk

639

00:27:43,300 --> 00:27:39,020

but maybe I don't know this whole

640

00:27:46,330 --> 00:27:43,310

Bluebook phenomena is really getting

641

00:27:48,910 --> 00:27:46,340

people interested that were neither on

642

00:27:51,250 --> 00:27:48,920

the fence or even in the arena anyway

643

00:27:51,880 --> 00:27:51,260

whatsoever they were watching other

644

00:27:54,940 --> 00:27:51,890

things

645

00:27:57,340 --> 00:27:54,950

no listen they're watching this so we've

646

00:27:58,960 --> 00:27:57,350

discussed this many times over and you

647

00:28:01,120 --> 00:27:58,970

always took the position and they

648

00:28:03,190 --> 00:28:01,130

applaud you for it saying that they're

649

00:28:07,660 --> 00:28:03,200

know something good will come out of it

650

00:28:10,510 --> 00:28:07,670

as far as getting people interested yep

651  
00:28:12,100 --> 00:28:10,520  
yeah I do I do think so you know I mean

652  
00:28:16,090 --> 00:28:12,110  
a lot of there's been a lot of critics

653  
00:28:19,900 --> 00:28:16,100  
as you know for project Bluebook this

654  
00:28:22,770 --> 00:28:19,910  
series and that is almost to be expected

655  
00:28:25,060 --> 00:28:22,780  
but but anyway you know there there is

656  
00:28:28,750 --> 00:28:25,070  
good coming out of it as well like you

657  
00:28:30,430 --> 00:28:28,760  
say full of the listener that we have a

658  
00:28:33,430 --> 00:28:30,440  
lot of first-time listeners can you give

659  
00:28:35,110 --> 00:28:33,440  
them your background and and what gets

660  
00:28:37,150 --> 00:28:35,120  
you I know you had a sighting when you

661  
00:28:40,270 --> 00:28:37,160  
were young but can you give the Nuala

662  
00:28:44,260 --> 00:28:40,280  
sure it's a nutshell of who sam moranto

663  
00:28:46,360 --> 00:28:44,270

is well I'm just a regular guy don't

664

00:28:48,520 --> 00:28:46,370

have any acronyms back of my name's if

665

00:28:51,820 --> 00:28:48,530

they're they're they're typos it's just

666

00:28:53,440 --> 00:28:51,830

experience and you know it's I've I've

667

00:28:56,830 --> 00:28:53,450

had personal experience with these

668

00:28:59,470 --> 00:28:56,840

things and again because of that I have

669

00:29:02,830 --> 00:28:59,480

to probably be more objective when it

670

00:29:05,470 --> 00:29:02,840

comes to analyzing a case and that may

671

00:29:07,900 --> 00:29:05,480

play out to be sounded sometimes far

672

00:29:10,210 --> 00:29:07,910

more skeptical but never cynical and I

673

00:29:15,100 --> 00:29:10,220

think that plays out well across the

674

00:29:17,980 --> 00:29:15,110

board before to be taken seriously so my

675

00:29:20,290 --> 00:29:17,990

first experience I was a little guy up

676

00:29:22,750 --> 00:29:20,300

at my uncle's cottage

677

00:29:24,550 --> 00:29:22,760

and being a little kid running all over

678

00:29:26,860 --> 00:29:24,560

the place he had just put her new well

679

00:29:28,630 --> 00:29:26,870

in and I had to find out how deep it was

680

00:29:31,030 --> 00:29:28,640

so I'm dropping stuff down there and

681

00:29:33,280 --> 00:29:31,040

he's yelling at me and I'm like oh well

682

00:29:37,540 --> 00:29:33,290

I gotta go hide summers and do something

683

00:29:41,260 --> 00:29:37,550

else go in the backyard and I'm standing

684

00:29:44,080 --> 00:29:41,270

there pitching some rocks across the

685

00:29:46,660 --> 00:29:44,090

water by a lake and this was just a

686

00:29:48,850 --> 00:29:46,670

little Inlet and all of a sudden this

687

00:29:52,600 --> 00:29:48,860

bright object comes flying past my

688

00:29:55,180 --> 00:29:52,610

shoulder I was very warm after that I

689

00:29:55,690 --> 00:29:55,190

remember that and it went up behind a

690

00:30:02,230 --> 00:29:55,700

tree

691

00:30:03,820 --> 00:30:02,240

my aunt was calling me she said for some

692

00:30:06,850 --> 00:30:03,830

time she couldn't find me and it was

693

00:30:08,680 --> 00:30:06,860

dark out when all this came together it

694

00:30:11,440 --> 00:30:08,690

scared the heck out of me didn't know

695

00:30:13,780 --> 00:30:11,450

what was going on so that was my first

696

00:30:15,970 --> 00:30:13,790

experience with something that was truly

697

00:30:20,230 --> 00:30:15,980

anomalous in the sky and it could be

698

00:30:23,350 --> 00:30:20,240

called a UAP UFO or whatever but as a

699

00:30:25,720 --> 00:30:23,360

kid one day I woke up again all this I

700

00:30:27,700 --> 00:30:25,730

was young I heard my father talking

701  
00:30:30,130 --> 00:30:27,710  
about something all excited in the

702  
00:30:31,780 --> 00:30:30,140  
kitchen I walked into the kitchen and

703  
00:30:33,760 --> 00:30:31,790  
there he is he's telling the story about

704  
00:30:36,160 --> 00:30:33,770  
going by one of his students he was a

705  
00:30:38,890 --> 00:30:36,170  
music teacher and he actually made house

706  
00:30:41,590 --> 00:30:38,900  
calls and he went to the house the wife

707  
00:30:43,930 --> 00:30:41,600  
said come on in Sam you got to go in the

708  
00:30:44,890 --> 00:30:43,940  
backyard but the boys are looking at

709  
00:30:47,200 --> 00:30:44,900  
something in the sky

710  
00:30:48,970 --> 00:30:47,210  
so they get out there and and he would

711  
00:30:51,670 --> 00:30:48,980  
they were amateur astronomers and they

712  
00:30:55,750 --> 00:30:51,680  
said Sam you know what we've seen some

713  
00:30:58,330 --> 00:30:55,760

UFOs my dad goes what are UFOs and they

714

00:31:00,040 --> 00:30:58,340

end up giving him a magazine a couple of

715

00:31:00,670 --> 00:31:00,050

books and they gave me the adventure of

716

00:31:03,670 --> 00:31:00,680

a lifetime

717

00:31:08,680 --> 00:31:03,680

mm-hmm so that's what started out for me

718

00:31:10,780 --> 00:31:08,690

well now my first involvement as far as

719

00:31:13,390 --> 00:31:10,790

doing investigative work was in the 80s

720

00:31:17,500 --> 00:31:13,400

I was doing it by myself and then there

721

00:31:21,220 --> 00:31:17,510

was a case of 1997 funny thing is it was

722

00:31:24,340 --> 00:31:21,230

the same year of course as the may 13th

723

00:31:26,680 --> 00:31:24,350

sighting in Phoenix which was 19 Marvin

724

00:31:30,520 --> 00:31:26,690

Marquette we had March yes

725

00:31:34,010 --> 00:31:30,530

March 13th and there was a this one was

726

00:31:38,080 --> 00:31:34,020

earlier that year and

727

00:31:41,300 --> 00:31:38,090

was in New Lenox all the way north

728

00:31:44,000 --> 00:31:41,310

through Oran Park that this object was

729

00:31:46,550 --> 00:31:44,010

seen was seen by a lot of people but the

730

00:31:49,220 --> 00:31:46,560

one individual that really really made

731

00:31:52,070 --> 00:31:49,230

the news was a pilot and I heard about

732

00:31:55,430 --> 00:31:52,080

him when I was coming home from Crystal

733

00:31:57,260 --> 00:31:55,440

Lake I turned on the radio and he was

734

00:31:59,810 --> 00:31:57,270

talking about this sighting was all over

735

00:32:02,840 --> 00:31:59,820

the news so I made it a point to see him

736

00:32:06,320 --> 00:32:02,850

and then after that I met up with a

737

00:32:09,140 --> 00:32:06,330

gentleman from loofah and so we all got

738

00:32:11,270 --> 00:32:09,150

involved and working on things and after

739

00:32:13,310 --> 00:32:11,280

that it was one thing after another

740

00:32:15,950 --> 00:32:13,320

you know so I don't know how many years

741

00:32:20,360 --> 00:32:15,960

it's been a long time okay right right

742

00:32:22,610 --> 00:32:20,370

and and you actually were the go-to for

743

00:32:26,150 --> 00:32:22,620

a couple of cases people really looking

744

00:32:29,570 --> 00:32:26,160

into and we we can talk about them and a

745

00:32:31,790 --> 00:32:29,580

little bit here but one of them that you

746

00:32:34,760 --> 00:32:31,800

were really involved in I remember for

747

00:32:36,650 --> 00:32:34,770

quite a while was the Tinley Park Mass

748

00:32:39,320 --> 00:32:36,660

sightings you I remember you telling me

749

00:32:41,660 --> 00:32:39,330

you loved mass sightings because of all

750

00:32:44,000 --> 00:32:41,670

the war yes math sightings yes man

751  
00:32:46,880 --> 00:32:44,010  
sightings really when you lay out the

752  
00:32:48,980 --> 00:32:46,890  
weight of a case the more people you

753  
00:32:51,920 --> 00:32:48,990  
have especially if it's a cut across the

754  
00:32:54,800 --> 00:32:51,930  
demographic of a community and from

755  
00:32:56,930 --> 00:32:54,810  
various vantage points it really adds

756  
00:32:59,240 --> 00:32:56,940  
value to a case because you could be

757  
00:33:02,300 --> 00:32:59,250  
looking at the same object at the same

758  
00:33:04,580 --> 00:33:02,310  
time but from your vantage point you're

759  
00:33:06,800 --> 00:33:04,590  
seeing something entirely different and

760  
00:33:09,230 --> 00:33:06,810  
so when you get a well-rounded view of

761  
00:33:11,870 --> 00:33:09,240  
what's going on you get a better idea

762  
00:33:14,180 --> 00:33:11,880  
and that was a perfect example with the

763  
00:33:17,240 --> 00:33:14,190

Tinley Park case the Tinley Park case

764

00:33:19,160 --> 00:33:17,250

you have the three lights in the sky and

765

00:33:20,960 --> 00:33:19,170

that's all they're seeing is these three

766

00:33:22,880 --> 00:33:20,970

points of light and three points of

767

00:33:26,900 --> 00:33:22,890

light could be anything but these were

768

00:33:28,510 --> 00:33:26,910

so brilliant and and so unusual they

769

00:33:33,560 --> 00:33:28,520

hovered they rotated counterclockwise

770

00:33:35,570 --> 00:33:33,570

and actually at times even moved very

771

00:33:37,730 --> 00:33:35,580

quick almost hyper leaping from one

772

00:33:42,080 --> 00:33:37,740

point to another than going straight up

773

00:33:46,130 --> 00:33:42,090

that this was strange because they never

774

00:33:47,510 --> 00:33:46,140

broke the signature of being like my

775

00:33:49,280 --> 00:33:47,520

sossel ease

776

00:33:52,700 --> 00:33:49,290

they tell that it was just a matter of

777

00:33:54,290 --> 00:33:52,710

your perspective and we knew that by

778

00:33:57,140 --> 00:33:54,300

looking at the footage and here's a

779

00:33:57,799 --> 00:33:57,150

perfect scenario we have thousands of

780

00:34:01,549 --> 00:33:57,809

witnesses

781

00:34:04,669 --> 00:34:01,559

hundreds of absolute very least and then

782

00:34:06,470 --> 00:34:04,679

we have multiple sets of footage from

783

00:34:10,550 --> 00:34:06,480

different vantage points

784

00:34:13,520 --> 00:34:10,560

I personally reviewed over 13 videos and

785

00:34:16,070 --> 00:34:13,530

I know there's at least 25 out there I'm

786

00:34:19,669 --> 00:34:16,080

sure there's more than that and when you

787

00:34:22,659 --> 00:34:19,679

when you analyze it and not only I can

788

00:34:27,460 --> 00:34:22,669

analyze that multiple people analyzed it

789

00:34:30,740 --> 00:34:27,470

that was part of the second series of

790

00:34:33,530 --> 00:34:30,750

UFO Hunters so that was analyzed very

791

00:34:36,740 --> 00:34:33,540

well and they played it back and forth

792

00:34:39,530 --> 00:34:36,750

and they and the bottom line is they are

793

00:34:43,070 --> 00:34:39,540

a fixed and time space so if they're not

794

00:34:46,720 --> 00:34:43,080

on a object there is something in there

795

00:34:50,180 --> 00:34:46,730

holding it in time place though we know

796

00:34:52,700 --> 00:34:50,190

people have seen an actual object when

797

00:34:55,849 --> 00:34:52,710

they were directly underneath that very

798

00:34:57,710 --> 00:34:55,859

cloaked into the sky and actually

799

00:35:00,470 --> 00:34:57,720

displaying when you got directly

800

00:35:04,910 --> 00:35:00,480

underneath almost like a canopy of stars

801  
00:35:08,450 --> 00:35:04,920  
above so it was whatever technology is

802  
00:35:10,700 --> 00:35:08,460  
it is it's pretty cool and I would like

803  
00:35:14,000 --> 00:35:10,710  
to think it's ours I don't know because

804  
00:35:16,849 --> 00:35:14,010  
the darn thing was massive it could have

805  
00:35:19,640 --> 00:35:16,859  
well have been you know quarter of a

806  
00:35:22,280 --> 00:35:19,650  
mile even bigger than that who knows it

807  
00:35:24,800 --> 00:35:22,290  
was big so where do you house something

808  
00:35:28,340 --> 00:35:24,810  
like that the other thing is that object

809  
00:35:31,190 --> 00:35:28,350  
has been seen in multiple locations not

810  
00:35:35,570 --> 00:35:31,200  
just Tinley Park and during that period

811  
00:35:38,270 --> 00:35:35,580  
of time on the August 19th we had in

812  
00:35:40,640 --> 00:35:38,280  
Minneapolis st. Paul a sighting of an

813  
00:35:42,950 --> 00:35:40,650

object stationary in the sky for at

814

00:35:45,280 --> 00:35:42,960

least nine hours or more and it sat

815

00:35:48,230 --> 00:35:45,290

there at about 30,000 feet in the air

816

00:35:49,880 --> 00:35:48,240

and it just anther all day and to the

817

00:35:52,280 --> 00:35:49,890

points that people coming in from

818

00:35:55,490 --> 00:35:52,290

Wisconsin were seeing a turn red at

819

00:35:58,250 --> 00:35:55,500

night and then it disappeared now now

820

00:36:00,740 --> 00:35:58,260

that wasn't a weather balloon in fact

821

00:36:01,370 --> 00:36:00,750

Peter Davenport received that report and

822

00:36:11,359 --> 00:36:01,380

he

823

00:36:14,839 --> 00:36:11,369

and ufology for many great cases and I

824

00:36:18,469 --> 00:36:14,849

applaud the man right but he had he had

825

00:36:21,049 --> 00:36:18,479

these these these these people calling

826

00:36:22,460 --> 00:36:21,059

in about Minneapolis and we were led a

827

00:36:25,039 --> 00:36:22,470

yearn about it did you ever hear about

828

00:36:29,180 --> 00:36:25,049

the Minneapolis sighting number 19th no

829

00:36:32,150 --> 00:36:29,190

precursor yeah and then that night in

830

00:36:34,130 --> 00:36:32,160

Arizona there was a there were multiple

831

00:36:38,150 --> 00:36:34,140

sightings and there are two sets of

832

00:36:41,299 --> 00:36:38,160

footage from one being north and one

833

00:36:44,269 --> 00:36:41,309

being south in the Phoenix area of an

834

00:36:47,329 --> 00:36:44,279

object very large object very unusual

835

00:36:49,759 --> 00:36:47,339

sittings still in the sky and a 30 mile

836

00:36:51,559 --> 00:36:49,769

an hour wind further south the wind

837

00:36:54,170 --> 00:36:51,569

wasn't as bad but still it was pretty

838

00:36:56,120 --> 00:36:54,180

bad and there's a triangular object

839

00:36:59,109 --> 00:36:56,130

sitting in the sky ders there's video of

840

00:37:02,989 --> 00:36:59,119

that the configuration of the

841

00:37:07,160 --> 00:37:02,999

eliminations moving in a uniform pattern

842

00:37:10,279 --> 00:37:07,170

you know motion so that was on the 19th

843

00:37:12,799 --> 00:37:10,289

our first sighting here was on the 21st

844

00:37:14,719 --> 00:37:12,809

of August but there were sightings all

845

00:37:18,319 --> 00:37:14,729

around the world within that period of

846

00:37:20,630 --> 00:37:18,329

time in August August was a very strange

847

00:37:24,650 --> 00:37:20,640

month it was also the month that we

848

00:37:29,959 --> 00:37:24,660

first got the first landfall of one of

849

00:37:31,819 --> 00:37:29,969

13 hurricanes in the Caribbean so that

850

00:37:35,289 --> 00:37:31,829

was a strange year we never had that

851  
00:37:41,569 --> 00:37:35,299  
many hurricanes that were that powerful

852  
00:37:43,069 --> 00:37:41,579  
in that area the other thing is 2004 we

853  
00:37:47,089 --> 00:37:43,079  
end up with the Sumatra earthquake

854  
00:37:48,319 --> 00:37:47,099  
tsunami that was on on Christmas so I

855  
00:37:51,440 --> 00:37:48,329  
mean a lot of weird things were

856  
00:37:53,209 --> 00:37:51,450  
happening in 2004 the other thing about

857  
00:37:55,700 --> 00:37:53,219  
the Tinley Park case and this is

858  
00:37:59,930 --> 00:37:55,710  
something I keep on forgetting about

859  
00:38:02,630 --> 00:37:59,940  
telling you is the Nimitz tick-tack

860  
00:38:05,150 --> 00:38:02,640  
sighting was the 10 to the 14th they

861  
00:38:07,249 --> 00:38:05,160  
were seeing him dole has mentioned that

862  
00:38:10,489 --> 00:38:07,259  
the month prior within that period of

863  
00:38:12,289 --> 00:38:10,499

time they were also getting incursions

864

00:38:14,960 --> 00:38:12,299

and other reports and there things

865

00:38:17,270 --> 00:38:14,970

picked up on the radar so wasn't just

866

00:38:21,220 --> 00:38:17,280

then but that was when it seemed to a

867

00:38:24,860 --> 00:38:21,230

peaked and that would have been November

868

00:38:27,080 --> 00:38:24,870

the 10th of the 14th and here our last

869

00:38:30,560 --> 00:38:27,090

mass sighting in Tinley Park and in

870

00:38:33,590 --> 00:38:30,570

other places was October 31st Halloween

871

00:38:37,220 --> 00:38:33,600

ten days afterwards all this excitement

872

00:38:40,580 --> 00:38:37,230

on them around the nimitz Lee Sam you

873

00:38:43,730 --> 00:38:40,590

mentioned that there are some videos of

874

00:38:45,770 --> 00:38:43,740

the Tinley Park incident is that

875

00:38:48,920 --> 00:38:45,780

actually available someone can actually

876

00:38:51,980 --> 00:38:48,930

find those videos online or where they

877

00:38:53,060 --> 00:38:51,990

are they available anywhere to look okay

878

00:38:59,270 --> 00:38:53,070

you could yes

879

00:39:02,030 --> 00:38:59,280

look up there would be UFO Hunters it

880

00:39:07,220 --> 00:39:02,040

would be episode 201 and it's called

881

00:39:10,220 --> 00:39:07,230

invasion Illinois you could see them

882

00:39:13,310 --> 00:39:10,230

analyzing the footage I'm sitting there

883

00:39:15,620 --> 00:39:13,320

talking about it whatever then there's

884

00:39:16,840 --> 00:39:15,630

also the I don't know if you could still

885

00:39:21,560 --> 00:39:16,850

find it anymore

886

00:39:22,970 --> 00:39:21,570

MSNBC Dateline we did a I got a call

887

00:39:27,080 --> 00:39:22,980

from them they want to do something on

888

00:39:28,760 --> 00:39:27,090

UFOs but they wanted to ten best cases

889

00:39:30,890 --> 00:39:28,770

they really wanted it something with

890

00:39:34,120 --> 00:39:30,900

with photographic evidence of video

891

00:39:37,790 --> 00:39:34,130

evidence so I had mentioned X number of

892

00:39:39,470 --> 00:39:37,800

cases and I pointed them to some

893

00:39:41,630 --> 00:39:39,480

individuals and then of course I

894

00:39:44,000 --> 00:39:41,640

certainly Park which they knew they knew

895

00:39:46,010 --> 00:39:44,010

nothing about Stevensville at that time

896

00:39:48,470 --> 00:39:46,020

when that came out they they knew out

897

00:39:51,610 --> 00:39:48,480

Stevensville to some degree yet there

898

00:39:54,440 --> 00:39:51,620

was really no video for Stevensville

899

00:39:57,920 --> 00:39:54,450

where Tinley Park has video multiple

900

00:39:59,600 --> 00:39:57,930

sets of video so the thing is that too

901  
00:40:02,570 --> 00:39:59,610  
could be out there somewheres and it was

902  
00:40:06,680 --> 00:40:02,580  
called I think was ten best encounters

903  
00:40:09,080 --> 00:40:06,690  
it was MSNBC I remember that yeah yeah

904  
00:40:11,990 --> 00:40:09,090  
and they did oh they did a real

905  
00:40:14,600 --> 00:40:12,000  
interesting job cutting it up and and

906  
00:40:19,310 --> 00:40:14,610  
you know funny thing was it was shot by

907  
00:40:21,200 --> 00:40:19,320  
by some folks that are doing some doing

908  
00:40:24,710 --> 00:40:21,210  
some big things right now as far as some

909  
00:40:28,220 --> 00:40:24,720  
reproduction but it was done or MSNBC

910  
00:40:28,970 --> 00:40:28,230  
and I sat there in the hot seat until I

911  
00:40:31,130 --> 00:40:28,980  
said the word

912  
00:40:35,180 --> 00:40:31,140  
extraterrestrial because I usually don't

913  
00:40:37,130 --> 00:40:35,190

say the e word and I sat there and I

914

00:40:40,190 --> 00:40:37,140

thought I was going to melt and tilting

915

00:40:41,630 --> 00:40:40,200

they have all these questions when is he

916

00:40:44,440 --> 00:40:41,640

going to say the e word is what it comes

917

00:40:47,210 --> 00:40:44,450

down to it I said I said this long

918

00:40:50,210 --> 00:40:47,220

sentence qualifying what I thought this

919

00:40:52,430 --> 00:40:50,220

could be a long sentence and in there

920

00:40:54,380 --> 00:40:52,440

was extra streel and when you hear it

921

00:40:56,300 --> 00:40:54,390

that's all you hear is me saying

922

00:40:58,370 --> 00:40:56,310

something about extraterrestrial I do

923

00:41:01,550 --> 00:40:58,380

mean anything on the cutting floor they

924

00:41:04,940 --> 00:41:01,560

edited it out those are sound and I know

925

00:41:06,920 --> 00:41:04,950

the rest of the sentence oh yeah and

926

00:41:09,980 --> 00:41:06,930

then the other thing is they kept on

927

00:41:13,060 --> 00:41:09,990

they kept under it they didn't we always

928

00:41:15,560 --> 00:41:13,070

started out I had one of the witnesses

929

00:41:21,080 --> 00:41:15,570

with me in fact one of the key witnesses

930

00:41:22,520 --> 00:41:21,090

and has some great footage and every

931

00:41:25,120 --> 00:41:22,530

time we would start a sentence we'd

932

00:41:27,980 --> 00:41:25,130

always say the red lights we qualify

933

00:41:30,770 --> 00:41:27,990

what it was the color and everything

934

00:41:34,160 --> 00:41:30,780

never never did they do that they only

935

00:41:35,570 --> 00:41:34,170

showed the very burnt out images where

936

00:41:39,140 --> 00:41:35,580

you couldn't even see that there is

937

00:41:40,880 --> 00:41:39,150

anything red in there and I remember one

938

00:41:43,310 --> 00:41:40,890

of the so-called skeptics making the

939

00:41:47,180 --> 00:41:43,320

statement that they even thought it was

940

00:41:49,820 --> 00:41:47,190

a it was a celestial it was a

941

00:41:53,260 --> 00:41:49,830

constellation which would have been the

942

00:41:57,590 --> 00:41:53,270

at you know in the summer triangle dnad

943

00:42:00,020 --> 00:41:57,600

Altair and Vega and this cracks me up

944

00:42:01,310 --> 00:42:00,030

because if it was the earth would have

945

00:42:05,150 --> 00:42:01,320

been spinning because this thing's

946

00:42:08,750 --> 00:42:05,160

moving around and we'd be dead thank God

947

00:42:10,940 --> 00:42:08,760

it wasn't you know yeah but no they

948

00:42:12,530 --> 00:42:10,950

didn't they didn't even probably get to

949

00:42:14,900 --> 00:42:12,540

see the footage better or have at least

950

00:42:17,450 --> 00:42:14,910

some explanation to what they're saying

951  
00:42:20,270 --> 00:42:17,460  
these things were red but so intense

952  
00:42:22,940 --> 00:42:20,280  
that we need with what the camera picked

953  
00:42:25,420 --> 00:42:22,950  
up did note no justification whatsoever

954  
00:42:29,750 --> 00:42:25,430  
to what they were actually saying none

955  
00:42:31,250 --> 00:42:29,760  
well we we have just about a minute or

956  
00:42:34,210 --> 00:42:31,260  
so and we're going to be going into a

957  
00:42:37,310 --> 00:42:34,220  
break I just wanted to bring up that

958  
00:42:40,910 --> 00:42:37,320  
speaking with both James Fox and Travis

959  
00:42:42,710 --> 00:42:40,920  
Walton he did an episode of UFO chasing

960  
00:42:46,970 --> 00:42:42,720  
UFOs that James Fox it was

961  
00:42:49,099 --> 00:42:46,980  
a short-lived series and they both but

962  
00:42:51,080 --> 00:42:49,109  
mostly Travis Walton was very upset at

963  
00:42:54,589 --> 00:42:51,090

what they did with the cutting the

964

00:42:56,750 --> 00:42:54,599

editing you know he said the whole story

965

00:42:58,400 --> 00:42:56,760

completely changed with what they did

966

00:43:01,580 --> 00:42:58,410

with the editing and he was really

967

00:43:04,310 --> 00:43:01,590

really upset about it and yeah they came

968

00:43:07,010 --> 00:43:04,320

very upset and James when he was gonna

969

00:43:08,540 --> 00:43:07,020

come on my show the last time he said we

970

00:43:10,880 --> 00:43:08,550

really don't have to bring that up if he

971

00:43:13,370 --> 00:43:10,890

if you don't want to other words you

972

00:43:17,180 --> 00:43:13,380

don't have to talk about chasing UFOs so

973

00:43:19,520 --> 00:43:17,190

we're ready to go into break Sam so hang

974

00:43:31,550 --> 00:43:19,530

in there everyone we'll be right back

975

00:43:36,920 --> 00:43:34,670

okay we are clear for a few minutes and

976

00:43:41,120 --> 00:43:36,930

Sam we're still we're still live on

977

00:43:43,550 --> 00:43:41,130

YouTube and by God so so that's right

978

00:43:45,820 --> 00:43:43,560

we'll pick up you know where we were

979

00:43:47,840 --> 00:43:45,830

talking then but let's talk about

980

00:43:49,400 --> 00:43:47,850

something different have you lived in

981

00:43:51,790 --> 00:43:49,410

other places in the country you mostly

982

00:43:54,680 --> 00:43:51,800

you have lived in the Chicago area right

983

00:43:56,600 --> 00:43:54,690

yes yeah well I lived anywhere as I went

984

00:44:00,770 --> 00:43:56,610

as long as I was dead yeah but I mean

985

00:44:03,290 --> 00:44:00,780

yeah not that I was born on the south

986

00:44:05,390 --> 00:44:03,300

side of Chicago and that's it ya know

987

00:44:07,910 --> 00:44:05,400

yeah you know I don't do much traveling

988

00:44:10,370 --> 00:44:07,920

anyways as you know that's why I get

989

00:44:13,760 --> 00:44:10,380

invited anywhere to speak to a

990

00:44:16,370 --> 00:44:13,770

tupperware group but in in the Khitan

991

00:44:18,140 --> 00:44:16,380

see I don't care if they're paying the

992

00:44:19,790 --> 00:44:18,150

airfare I go and I talk and they don't

993

00:44:22,610 --> 00:44:19,800

even have to pay me just give me a

994

00:44:25,670 --> 00:44:22,620

sandwich or whatever I do it and we do

995

00:44:28,100 --> 00:44:25,680

we just uh today we have 55 degrees here

996

00:44:28,520 --> 00:44:28,110

in Maine up here on the coast but we had

997

00:44:34,460 --> 00:44:28,530

cold

998

00:44:37,520 --> 00:44:34,470

it oh yeah you were in there okay I have

999

00:44:39,860 --> 00:44:37,530

a CI monitor said identify it the sunny

1000

00:44:42,500 --> 00:44:39,870

that I was taking pictures in the

1001

00:44:44,390 --> 00:44:42,510

morning it was negative 22 that's

1002

00:44:46,100 --> 00:44:44,400

without the wind chill but then my

1003

00:44:48,740 --> 00:44:46,110

sister called me up and shows up in

1004

00:44:51,080 --> 00:44:48,750

Galena and I think was negative 36

1005

00:44:53,840 --> 00:44:51,090

without the windchill and then a buddy

1006

00:44:56,990 --> 00:44:53,850

of mine up in Wisconsin his was he said

1007

00:44:59,720 --> 00:44:57,000

it was close to 40 without the

1008

00:45:02,180 --> 00:44:59,730

windshield so I'm like my gosh yeah yeah

1009

00:45:04,940 --> 00:45:02,190

we were down in Springfield I told you

1010

00:45:08,600 --> 00:45:04,950

we went yes this folk at that paranormal

1011

00:45:11,120 --> 00:45:08,610

was very nice but the hotel we get there

1012

00:45:13,730 --> 00:45:11,130

they had busted pipes and then the hotel

1013

00:45:15,740 --> 00:45:13,740

next door had busted pipes I'm like my

1014

00:45:18,140 --> 00:45:15,750

gosh they go oh it was horrific down

1015

00:45:20,930 --> 00:45:18,150

here they're not they're not used to

1016

00:45:23,630 --> 00:45:20,940

this you know for their sound they're

1017

00:45:25,550 --> 00:45:23,640

not used to it and neither are we

1018

00:45:28,750 --> 00:45:25,560

yeah the plumbers will be busy for a

1019

00:45:33,470 --> 00:45:28,760

long time in the hole Midmark yeah oh

1020

00:45:35,660 --> 00:45:33,480

yeah yeah no no I just I don't know 55

1021

00:45:38,840 --> 00:45:35,670

degrees for you guys that's that's Wow

1022

00:45:40,850 --> 00:45:38,850

yeah and speaking of warm weather I'm

1023

00:45:42,140 --> 00:45:40,860

going to be I'm gonna be on the road the

1024

00:45:44,420 --> 00:45:42,150

next couple weeks this is for the

1025

00:45:45,150 --> 00:45:44,430

listeners so I will be doing the show

1026

00:45:47,430 --> 00:45:45,160

from

1027

00:45:49,950 --> 00:45:47,440

for the next couple of weeks and I won't

1028

00:45:53,160 --> 00:45:49,960

have all my audio and up to snuff

1029

00:45:56,220 --> 00:45:53,170

that'll be it'll be pretty good so so

1030

00:45:58,620 --> 00:45:56,230

Sam we you know we got about well we're

1031

00:46:02,940 --> 00:45:58,630

closing in on like 30 40 seconds here

1032

00:46:06,120 --> 00:46:02,950

and so good this is the only break that

1033

00:46:11,819 --> 00:46:06,130

we're going to be taking yeah we got

1034

00:46:13,620 --> 00:46:11,829

about a minute left and so we actually

1035

00:46:16,170 --> 00:46:13,630

met in person in a couple of times this

1036

00:46:18,329 --> 00:46:16,180

last summer when I was in Chicago which

1037

00:46:19,740 --> 00:46:18,339

I do go to Chicago quite a bit but it

1038

00:46:22,019 --> 00:46:19,750

was great when we were out in the warm

1039

00:46:24,599 --> 00:46:22,029

weather out in Phoenix and that was

1040

00:46:27,240 --> 00:46:24,609

lovely to be out there in February few

1041

00:46:29,640 --> 00:46:27,250

years ago when you were there we had a

1042

00:46:32,999 --> 00:46:29,650

blast it wasn't it fun a great time

1043

00:46:35,970 --> 00:46:33,009

great time alright I think we are just

1044

00:46:40,140 --> 00:46:35,980

about ready to go back here in a minute

1045

00:46:44,910 --> 00:46:40,150

oh we still got 40 seconds left

1046

00:46:48,930 --> 00:46:44,920

and so as far as the area out there when

1047

00:46:51,509 --> 00:46:48,940

you are working with MUFON are you are

1048

00:46:55,499 --> 00:46:51,519

you still taking cases it to this day

1049

00:46:57,089 --> 00:46:55,509

oh yeah I mean as a general rule estate

1050

00:47:00,120 --> 00:46:57,099

drift is not supposed to take any sort

1051  
00:47:02,249 --> 00:47:00,130  
of cases but I end up taking some the

1052  
00:47:04,680 --> 00:47:02,259  
other highly sensitive ones that you

1053  
00:47:05,490 --> 00:47:04,690  
know you really got to watch what you're

1054  
00:47:08,039 --> 00:47:05,500  
saying and doing

1055  
00:47:11,430 --> 00:47:08,049  
I handle those or work in conjunction

1056  
00:47:14,670 --> 00:47:11,440  
with my assistant director usually it's

1057  
00:47:17,730 --> 00:47:14,680  
it's usually the two of us and we've had

1058  
00:47:20,940 --> 00:47:17,740  
some great cases I'll talk about one in

1059  
00:47:22,289 --> 00:47:20,950  
particular when I get a chance and give

1060  
00:47:24,870 --> 00:47:22,299  
you a little more detail about it I

1061  
00:47:27,029 --> 00:47:24,880  
think I I mentioned it then we get to

1062  
00:47:28,650 --> 00:47:27,039  
more interesting ones lifted type things

1063  
00:47:34,319 --> 00:47:28,660

we're gonna have to roll right back into

1064

00:47:42,809 --> 00:47:34,329

the show yep we're ready sure you can

1065

00:47:45,269 --> 00:47:42,819

count down alright is okay welcome back

1066

00:47:49,200 --> 00:47:45,279

to the show my guest is Sam moranto and

1067

00:47:51,359 --> 00:47:49,210

we are talking UFOs out in the Chicago

1068

00:47:54,769 --> 00:47:51,369

area we took a Jag and we're talking

1069

00:47:56,700 --> 00:47:54,779

about what happens on the editing floor

1070

00:48:01,049 --> 00:47:56,710

when

1071

00:48:05,519 --> 00:48:01,059

that's pretty funny they left the

1072

00:48:08,400 --> 00:48:05,529

extra-terrestrial word in there and yeah

1073

00:48:12,299 --> 00:48:08,410

and I understand it it's one you want to

1074

00:48:15,240 --> 00:48:12,309

avoid at all costs because you know it

1075

00:48:18,420 --> 00:48:15,250

it is what a lot of people assume but

1076

00:48:21,359 --> 00:48:18,430

you know and I know no one really really

1077

00:48:24,000 --> 00:48:21,369

knows it's just a it's just a guess one

1078

00:48:25,950 --> 00:48:24,010

of the guesses that's all yeah

1079

00:48:27,329 --> 00:48:25,960

and that's fine because that's what

1080

00:48:30,510 --> 00:48:27,339

science wants we're not looking for

1081

00:48:32,789 --> 00:48:30,520

proof in science proof is in law alcohol

1082

00:48:35,940 --> 00:48:32,799

and math what we're looking for is a

1083

00:48:38,010 --> 00:48:35,950

decent set of hypotheses that could

1084

00:48:40,200 --> 00:48:38,020

probably move up to a theory and then

1085

00:48:41,940 --> 00:48:40,210

you know that's great you know and they

1086

00:48:45,569 --> 00:48:41,950

could take it from there and to do that

1087

00:48:48,480 --> 00:48:45,579

you need evidence and most of what we

1088

00:48:50,730 --> 00:48:48,490

get are anecdotal accounts that's what

1089

00:48:53,190 --> 00:48:50,740

my math sightings are so wonderful it's

1090

00:48:56,460 --> 00:48:53,200

not just one person's word it's another

1091

00:48:58,319 --> 00:48:56,470

person hopefully independent and from

1092

00:49:00,750 --> 00:48:58,329

another perspective seeing the same

1093

00:49:04,380 --> 00:49:00,760

thing simultaneously for relatively

1094

00:49:06,420 --> 00:49:04,390

close and in time and we can tie all

1095

00:49:10,920 --> 00:49:06,430

together and get and get some supportive

1096

00:49:13,799 --> 00:49:10,930

evidence now when you have photograph

1097

00:49:15,870 --> 00:49:13,809

video or if you're blessed but something

1098

00:49:17,760 --> 00:49:15,880

is wonderful physical trace evidence and

1099

00:49:20,130 --> 00:49:17,770

this is something a lot of people don't

1100

00:49:22,829 --> 00:49:20,140

understand there are thousands of cases

1101  
00:49:25,519 --> 00:49:22,839  
of physical trace evidence we had a case

1102  
00:49:29,160 --> 00:49:25,529  
in southern Illinois that we did collect

1103  
00:49:30,660 --> 00:49:29,170  
hopefully something turns out of it you

1104  
00:49:33,089 --> 00:49:30,670  
know turns up good but there were

1105  
00:49:35,370 --> 00:49:33,099  
samples taken and we may have had may

1106  
00:49:38,250 --> 00:49:35,380  
have physical trace evidence so this

1107  
00:49:40,380 --> 00:49:38,260  
these things do take place the notion

1108  
00:49:42,960 --> 00:49:40,390  
that you know we need the ashtray that

1109  
00:49:46,200 --> 00:49:42,970  
Neal's always looking for yeah you don't

1110  
00:49:48,480 --> 00:49:46,210  
need an ashtray maybe if you know if

1111  
00:49:49,289 --> 00:49:48,490  
that's what he wants but that's not

1112  
00:49:53,640 --> 00:49:49,299  
scientific

1113  
00:49:58,380 --> 00:49:53,650

what we need is evidence and we need to

1114

00:50:00,990 --> 00:49:58,390

evolve the anecdote by using non a

1115

00:50:05,450 --> 00:50:01,000

better way of assessing a better metrics

1116

00:50:08,010 --> 00:50:05,460

and less arbitrary and an ambiguous

1117

00:50:10,500 --> 00:50:08,020

evaluation and terminology so that

1118

00:50:12,900 --> 00:50:10,510

people can understand regardless who

1119

00:50:15,390 --> 00:50:12,910

that's looking at the information they

1120

00:50:17,160 --> 00:50:15,400

take the data points take all that put

1121

00:50:21,000 --> 00:50:17,170

it together and guess what you have

1122

00:50:21,720 --> 00:50:21,010

something of value but you know we're

1123

00:50:24,690 --> 00:50:21,730

getting there

1124

00:50:26,820 --> 00:50:24,700

and it's slow but but it it takes with

1125

00:50:29,220 --> 00:50:26,830

that first step even if it's been 50

1126

00:50:33,990 --> 00:50:29,230

years it doesn't matter or 70 years

1127

00:50:36,920 --> 00:50:34,000

we're trying and being the always

1128

00:50:39,620 --> 00:50:36,930

referred to as you know

1129

00:50:43,530 --> 00:50:39,630

pseudo-scientific

1130

00:50:47,070 --> 00:50:43,540

it all starts at sudo before it becomes

1131

00:50:50,820 --> 00:50:47,080

legitimized and it's also exactly you

1132

00:50:54,000 --> 00:50:50,830

know everything else was an idea you

1133

00:50:56,550 --> 00:50:54,010

know right it's always a POC recei yes

1134

00:50:59,370 --> 00:50:56,560

and then they're saying oh speculation

1135

00:51:02,340 --> 00:50:59,380

speculation is the first step in science

1136

00:51:05,040 --> 00:51:02,350

you have to speculate and you try to go

1137

00:51:07,740 --> 00:51:05,050

outside your comfort zone you test that

1138

00:51:10,110 --> 00:51:07,750

you know oh there's so many failures yes

1139

00:51:13,920 --> 00:51:10,120

you you're gonna have the failures you

1140

00:51:15,420 --> 00:51:13,930

learn from the failures and so many of

1141

00:51:17,640 --> 00:51:15,430

these things the so-called skeptics

1142

00:51:19,710 --> 00:51:17,650

bring up and they're not being skeptical

1143

00:51:22,170 --> 00:51:19,720

and not being scientific some of them

1144

00:51:23,520 --> 00:51:22,180

are very good and and the other thing is

1145

00:51:25,650 --> 00:51:23,530

you should listen to him regardless

1146

00:51:27,780 --> 00:51:25,660

because there's always something and

1147

00:51:28,410 --> 00:51:27,790

nugget of something in there that you

1148

00:51:30,780 --> 00:51:28,420

can learn from

1149

00:51:34,130 --> 00:51:30,790

I don't discount these people at all as

1150

00:51:37,440 --> 00:51:34,140

you know but in the same token you

1151  
00:51:40,110 --> 00:51:37,450  
really want to give get people a pat on

1152  
00:51:42,270 --> 00:51:40,120  
the back that are at least trying to

1153  
00:51:44,550 --> 00:51:42,280  
bring this information forward it's not

1154  
00:51:46,680 --> 00:51:44,560  
going to be perfect heck with this unit

1155  
00:51:49,170 --> 00:51:46,690  
but we're trying and on a name we're

1156  
00:51:49,860 --> 00:51:49,180  
trying yeah yeah that's right that's

1157  
00:51:53,310 --> 00:51:49,870  
right

1158  
00:51:56,580 --> 00:51:53,320  
I promised to everyone that we would

1159  
00:51:58,590 --> 00:51:56,590  
talk about the O'Hare case I know you

1160  
00:51:59,390 --> 00:51:58,600  
and I have spoken briefly in the past

1161  
00:52:03,630 --> 00:51:59,400  
about it

1162  
00:52:05,340 --> 00:52:03,640  
but I still think it's and it's it's an

1163  
00:52:07,830 --> 00:52:05,350

interesting case and I don't think it's

1164

00:52:11,220 --> 00:52:07,840

what you would call a closed case

1165

00:52:12,870 --> 00:52:11,230

because eventually people may start

1166

00:52:18,090 --> 00:52:12,880

talking we may get more information

1167

00:52:20,550 --> 00:52:18,100

about that you're 100% correct a special

1168

00:52:22,960 --> 00:52:20,560

inaudible entire or they leave the

1169

00:52:25,220 --> 00:52:22,970

airline business

1170

00:52:28,250 --> 00:52:25,230

but why don't you for the person that's

1171

00:52:32,180 --> 00:52:28,260

not familiar with that I know it was I

1172

00:52:36,650 --> 00:52:32,190

think it was 2006 same year I had like a

1173

00:52:42,339 --> 00:52:36,660

Barbara sighting yeah that was November

1174

00:52:45,700 --> 00:52:42,349

the 7th 2006 after 4 o'clock from 4:15

1175

00:52:49,760 --> 00:52:45,710

by gate c-17 was right above gate c-17

1176

00:52:52,760 --> 00:52:49,770

and a couple individuals were loading up

1177

00:52:54,290 --> 00:52:52,770

a plane that was going to be pushed back

1178

00:52:56,930 --> 00:52:54,300

- no one out - it looks going to North

1179

00:53:00,109 --> 00:52:56,940

Carolina at that time they seemed

1180

00:53:02,089 --> 00:53:00,119

something below the ceiling clouds and

1181

00:53:04,520 --> 00:53:02,099

it was sitting there and nothing should

1182

00:53:06,680 --> 00:53:04,530

be sitting there it was odd you know

1183

00:53:08,990 --> 00:53:06,690

here's this strange object just sitting

1184

00:53:10,720 --> 00:53:09,000

there it's Class B airspace nothing

1185

00:53:14,300 --> 00:53:10,730

should be in there without a transponder

1186

00:53:18,680 --> 00:53:14,310

so mind you this is just X number of

1187

00:53:20,960 --> 00:53:18,690

years five years after 9/11 people are

1188

00:53:26,060 --> 00:53:20,970

very concerned about anything like that

1189

00:53:28,760 --> 00:53:26,070

any violation of infringement on you

1190

00:53:32,690 --> 00:53:28,770

know on airspace or something like that

1191

00:53:34,460 --> 00:53:32,700

so they called their manager because

1192

00:53:36,829 --> 00:53:34,470

they wanted to file a safety report

1193

00:53:38,300 --> 00:53:36,839

there and you're like what is this they

1194

00:53:40,670 --> 00:53:38,310

wanted people take a look at it

1195

00:53:44,329 --> 00:53:40,680

pilot copilot we're also taking a peek

1196

00:53:46,070 --> 00:53:44,339

at it they saw the manager came down

1197

00:53:49,190 --> 00:53:46,080

sure enough comes out there and there it

1198

00:53:51,250 --> 00:53:49,200

was well before you know it it's got

1199

00:53:56,329 --> 00:53:51,260

that being talked about on the radio

1200

00:53:59,980 --> 00:53:56,339

throughout the the airport and personnel

1201  
00:54:04,599 --> 00:53:59,990  
regardless if they're taxing you know

1202  
00:54:08,510 --> 00:54:04,609  
747s or whatever they're seeing it in

1203  
00:54:11,900 --> 00:54:08,520  
there was one there was a a group of

1204  
00:54:15,740 --> 00:54:11,910  
people were two guys taxing seven seven

1205  
00:54:17,890 --> 00:54:15,750  
seven and trip to seven and they saw it

1206  
00:54:20,300 --> 00:54:17,900  
and they listened to other people

1207  
00:54:23,150 --> 00:54:20,310  
talking and in fact this guy you could

1208  
00:54:24,980 --> 00:54:23,160  
hear his uh if you go to youtube you get

1209  
00:54:28,160 --> 00:54:24,990  
a bunch of stuff on on the O'Hair

1210  
00:54:31,609 --> 00:54:28,170  
sighting and and the thing about the

1211  
00:54:33,890 --> 00:54:31,619  
O'Hare case is why they had to keep it

1212  
00:54:36,170 --> 00:54:33,900  
quiet so many people this is a mass

1213  
00:54:38,270 --> 00:54:36,180

sighting - but they had

1214

00:54:42,819 --> 00:54:38,280

it's quiet because February of that year

1215

00:54:45,290 --> 00:54:42,829

the American UAL just came out of

1216

00:54:47,480 --> 00:54:45,300

bankruptcy they here so they may not

1217

00:54:49,609 --> 00:54:47,490

want it have been known as being the

1218

00:54:50,480 --> 00:54:49,619

extra-terrestrial Airlines that's a

1219

00:54:53,960 --> 00:54:50,490

possibility

1220

00:54:55,760 --> 00:54:53,970

Wow the other thing is it isn't that

1221

00:54:58,970 --> 00:54:55,770

crazy it was the largest bankruptcy at

1222

00:55:00,920 --> 00:54:58,980

that time you had mentioned that well

1223

00:55:04,190 --> 00:55:00,930

now that people are starting retired

1224

00:55:07,250 --> 00:55:04,200

they may be coming forward had that

1225

00:55:10,730 --> 00:55:07,260

happen I was giving a talk at some group

1226  
00:55:13,430 --> 00:55:10,740  
up north and guy says you know I want to

1227  
00:55:16,970 --> 00:55:13,440  
talk to you afterwards okay so he goes I

1228  
00:55:20,120 --> 00:55:16,980  
used to work as a manager he had a very

1229  
00:55:23,299 --> 00:55:20,130  
good position and he was working that

1230  
00:55:25,579 --> 00:55:23,309  
day but where he was working at would

1231  
00:55:27,829 --> 00:55:25,589  
not allow him to see what was going on

1232  
00:55:33,040 --> 00:55:27,839  
but he heard all the chatter in the

1233  
00:55:37,700 --> 00:55:33,050  
radio and the end result is he goes and

1234  
00:55:39,920 --> 00:55:37,710  
he goes and and and tells me that he was

1235  
00:55:43,760 --> 00:55:39,930  
talking to his friend who was on the B

1236  
00:55:46,220 --> 00:55:43,770  
concourse and he was telling him what

1237  
00:55:48,740 --> 00:55:46,230  
was going on describing exactly what

1238  
00:55:52,760 --> 00:55:48,750

he's saying and without so much as a

1239

00:55:54,680 --> 00:55:52,770

doubt this was there it was an object it

1240

00:55:57,650 --> 00:55:54,690

was below the ceiling of cloud which is

1241

00:56:01,670 --> 00:55:57,660

about 1,900 feet at that time and it was

1242

00:56:03,950 --> 00:56:01,680

at about 1514 1,500 feet it was summer's

1243

00:56:06,859 --> 00:56:03,960

between no less than 30 feet to as big

1244

00:56:10,730 --> 00:56:06,869

as 88 feet is what they're figuring out

1245

00:56:13,370 --> 00:56:10,740

as far as the NAR Kappa reporting and

1246

00:56:14,960 --> 00:56:13,380

that is a good read if you want to get

1247

00:56:18,230 --> 00:56:14,970

some information know more about the

1248

00:56:21,049 --> 00:56:18,240

case vote in our cap dot org look up the

1249

00:56:21,740 --> 00:56:21,059

technical paper number 10 and read

1250

00:56:24,920 --> 00:56:21,750

through it

1251

00:56:26,870 --> 00:56:24,930

and you'll hear the data in there you

1252

00:56:28,970 --> 00:56:26,880

get this nonsense people saying always a

1253

00:56:30,920 --> 00:56:28,980

little tick Euler cloud and lenticular

1254

00:56:35,030 --> 00:56:30,930

clouds only form on the leeward side of

1255

00:56:36,859 --> 00:56:35,040

a mountain ring of a mountain yes you've

1256

00:56:39,740 --> 00:56:36,869

seen them mm-hm and and they're

1257

00:56:43,220 --> 00:56:39,750

beautiful the and nothing like that

1258

00:56:45,349 --> 00:56:43,230

whatsoever was going on the other thing

1259

00:56:47,780 --> 00:56:45,359

is the the weather to support something

1260

00:56:49,470 --> 00:56:47,790

like that Wichita Kansas would have been

1261

00:56:51,270 --> 00:56:49,480

the closest place had

1262

00:56:53,990 --> 00:56:51,280

anything resembling the type of winds

1263

00:56:56,340 --> 00:56:54,000

that you would have to have to have

1264

00:56:59,490 --> 00:56:56,350

lenticular clouds because you can get

1265

00:57:01,740 --> 00:56:59,500

them at times in the Midwest here we get

1266

00:57:02,910 --> 00:57:01,750

them but they're very rare better it's

1267

00:57:07,620 --> 00:57:02,920

usually at the leeward side of a

1268

00:57:09,359 --> 00:57:07,630

mountain so that was a bunch of malarkey

1269

00:57:11,550 --> 00:57:09,369

the other thing is the object shoots

1270

00:57:13,680 --> 00:57:11,560

while they're watching it they're

1271

00:57:16,250 --> 00:57:13,690

watching it for about 20 minutes this

1272

00:57:19,349 --> 00:57:16,260

thing just goes straight up in the air

1273

00:57:21,599 --> 00:57:19,359

real fast in a blink leaves a gaping

1274

00:57:26,030 --> 00:57:21,609

blue hole all the way through the

1275

00:57:30,710 --> 00:57:26,040

approximately 6000 feet of cloud ceiling

1276

00:57:34,260 --> 00:57:30,720

boom instantly well it can't do that

1277

00:57:36,330 --> 00:57:34,270

instantly with a lenticular cloud they

1278

00:57:38,849 --> 00:57:36,340

don't do that I never heard of anything

1279

00:57:40,980 --> 00:57:38,859

like that then you have people saying

1280

00:57:43,170 --> 00:57:40,990

well it's just ice crystals that

1281

00:57:47,520 --> 00:57:43,180

formulate and drop down and I've seen

1282

00:57:50,820 --> 00:57:47,530

that at least twice one time was on i-55

1283

00:57:55,200 --> 00:57:50,830

I'm driving along and here you see this

1284

00:57:57,210 --> 00:57:55,210

burst of obviously something coming out

1285

00:58:00,390 --> 00:57:57,220

of the clouds and you see this round

1286

00:58:02,730 --> 00:58:00,400

blue hole well first of all you see this

1287

00:58:06,740 --> 00:58:02,740

falling out you'll see it looking like

1288

00:58:10,500 --> 00:58:06,750

Oh looking like very feathery looking

1289

00:58:12,900 --> 00:58:10,510

fanned out crystals of ice almost like

1290

00:58:14,880 --> 00:58:12,910

snow that heavier and it'll punch a hole

1291

00:58:18,270 --> 00:58:14,890

and that's when you have a vortex of of

1292

00:58:22,890 --> 00:58:18,280

cold air spinning above and and and

1293

00:58:25,590 --> 00:58:22,900

it'll in that area just gets the

1294

00:58:27,750 --> 00:58:25,600

humidity up there it becomes crystals it

1295

00:58:29,520 --> 00:58:27,760

falls you can't hold himself no longer

1296

00:58:31,980 --> 00:58:29,530

and it falls straight through and that

1297

00:58:34,650 --> 00:58:31,990

makes sense but the bottom line that was

1298

00:58:37,349 --> 00:58:34,660

it what happened we had the top of this

1299

00:58:39,240 --> 00:58:37,359

where the coldest area was that could

1300

00:58:41,640 --> 00:58:39,250

formulate that was about ten thousand

1301

00:58:43,859 --> 00:58:41,650

feet these were about the the highest

1302

00:58:47,520 --> 00:58:43,869

levels that ceiling was about six

1303

00:58:49,109 --> 00:58:47,530

thousand feet maybe even less so none of

1304

00:58:52,410 --> 00:58:49,119

this took place and they were saying

1305

00:58:54,450 --> 00:58:52,420

well it's the lights reflecting up no it

1306

00:58:59,640 --> 00:58:54,460

was and I believe what civilian it was

1307

00:59:01,859 --> 00:58:59,650

yeah it was civilian Twilight so I mean

1308

00:59:03,420 --> 00:59:01,869

no no it wasn't it some lights were on

1309

00:59:06,299 --> 00:59:03,430

but not everything and

1310

00:59:09,319 --> 00:59:06,309

weren't reflecting up that heavily so

1311

00:59:12,240 --> 00:59:09,329

that's all nonsense now did he

1312

00:59:15,150 --> 00:59:12,250

they someone I think I heard it

1313

00:59:15,930 --> 00:59:15,160

described as it was almost like a black

1314

00:59:18,210 --> 00:59:15,940

in color

1315

00:59:23,460 --> 00:59:18,220

it was very dark am I getting that right

1316

00:59:25,680 --> 00:59:23,470

and imperfectly circular it was okay

1317

00:59:29,549 --> 00:59:25,690

picture this the ratio was two point

1318

00:59:31,740 --> 00:59:29,559

seven to one as far as the width to the

1319

00:59:35,339 --> 00:59:31,750

length they were using a ratio of two

1320

00:59:38,510 --> 00:59:35,349

point seven to one so it was you know

1321

00:59:41,309 --> 00:59:38,520

like the tic-tac concept of a fact

1322

00:59:43,859 --> 00:59:41,319

football something along that line but

1323

00:59:47,930 --> 00:59:43,869

it was more litical and round as far as

1324

00:59:50,569 --> 00:59:47,940

the different in in the center so it was

1325

00:59:54,240 --> 00:59:50,579

and it was moving in a counterclockwise

1326

00:59:57,930 --> 00:59:54,250

direction my first witness that I spoke

1327

01:00:00,230 --> 00:59:57,940

to was a military brat who grew up on

1328

01:00:04,319 --> 01:00:00,240

the East Coast her father was a

1329

01:00:09,180 --> 01:00:04,329

commander of a oh is captain of a Air

1330

01:00:11,910 --> 01:00:09,190

Wing for the Navy she knew every proper

1331

01:00:14,640 --> 01:00:11,920

term to describe things so when she was

1332

01:00:17,789 --> 01:00:14,650

analyzing it she was analyzing it with a

1333

01:00:19,829 --> 01:00:17,799

really high degree of scrutiny and the

1334

01:00:23,280 --> 01:00:19,839

other thing was she was also an X

1335

01:00:26,730 --> 01:00:23,290

reporter so she knew how to compile this

1336

01:00:29,190 --> 01:00:26,740

information and explain it to us now

1337

01:00:32,730 --> 01:00:29,200

what is great where did she what did she

1338

01:00:35,460 --> 01:00:32,740

actually view the object from two

1339

01:00:37,170 --> 01:00:35,470

vantage points coming in on Manheim Road

1340

01:00:40,470 --> 01:00:37,180

towards the airport she was able to

1341

01:00:42,420 --> 01:00:40,480

discern it below the clouds with her as

1342

01:00:44,760 --> 01:00:42,430

a passenger was front of hers was a

1343

01:00:46,980 --> 01:00:44,770

doctor from Bulgaria and they were in

1344

01:00:50,039 --> 01:00:46,990

the process of meeting a friend who was

1345

01:00:52,289 --> 01:00:50,049

a airline pilot from another Airlines

1346

01:00:55,319 --> 01:00:52,299

coming in at the international concourse

1347

01:00:57,120 --> 01:00:55,329

so they're driving in both of them see

1348

01:00:59,880 --> 01:00:57,130

this they're like what on earth is that

1349

01:01:01,650 --> 01:00:59,890

that's not supposed to be there so when

1350

01:01:04,349 --> 01:01:01,660

they pulled up to the International kind

1351

01:01:06,569 --> 01:01:04,359

of course she got out and took her

1352

01:01:07,500 --> 01:01:06,579

reading glasses bentham at an angle so

1353

01:01:10,230 --> 01:01:07,510

she could see it better

1354

01:01:10,890 --> 01:01:10,240

trying to get her her view as best as

1355

01:01:12,870 --> 01:01:10,900

possible

1356

01:01:15,089 --> 01:01:12,880

and she said while she was pulling up

1357

01:01:16,440 --> 01:01:15,099

other people were out there and then

1358

01:01:17,300 --> 01:01:16,450

they were starting to congregate

1359

01:01:20,110 --> 01:01:17,310

pointing at it

1360

01:01:23,290 --> 01:01:20,120

and people were taking photographs

1361

01:01:26,780 --> 01:01:23,300

definitely and possibly even video

1362

01:01:28,430 --> 01:01:26,790

definitely so she was there and then she

1363

01:01:31,580 --> 01:01:28,440

says when this thing shot through the

1364

01:01:33,290 --> 01:01:31,590

sky or the clouds excuse me that that

1365

01:01:35,210 --> 01:01:33,300

you could have heard them

1366

01:01:39,290 --> 01:01:35,220

I heard the noise that they like

1367

01:01:42,230 --> 01:01:39,300

squealed a ghastr they were alarmed at

1368

01:01:46,250 --> 01:01:42,240

its the motion that it was was so

1369

01:01:49,160 --> 01:01:46,260

instantaneous and the one-sheets finally

1370

01:01:51,380 --> 01:01:49,170

talked to her her pilot friend who got

1371

01:01:54,170 --> 01:01:51,390

off the plane and we need got off his

1372

01:01:56,360 --> 01:01:54,180

plane he was being greeted by security

1373

01:01:57,650 --> 01:01:56,370

asking him if he had seen anything up

1374

01:02:00,290 --> 01:01:57,660

there and he had no idea what they were

1375

01:02:02,540 --> 01:02:00,300

talking about then when he got to the

1376

01:02:05,300 --> 01:02:02,550

car and she told him what they saw she

1377

01:02:07,430 --> 01:02:05,310

goes he goes and says oh my god you have

1378

01:02:10,130 --> 01:02:07,440

to come forward with this because there

1379

01:02:14,420 --> 01:02:10,140

are people out there with video and in

1380

01:02:17,210 --> 01:02:14,430

camera stills or whatever and they're

1381

01:02:18,830 --> 01:02:17,220

leaving going to different countries you

1382

01:02:22,610 --> 01:02:18,840

want to get on the internet and get the

1383

01:02:24,530 --> 01:02:22,620

information out so she did because she

1384

01:02:27,290 --> 01:02:24,540

knew people in the the international

1385

01:02:30,260 --> 01:02:27,300

concourse were definitely taken pictures

1386

01:02:32,300 --> 01:02:30,270

assumedly other locations which was

1387

01:02:35,720 --> 01:02:32,310

correct pictures were being taken by

1388

01:02:37,730 --> 01:02:35,730

other people pictures were submitted the

1389

01:02:42,470 --> 01:02:37,740

one in particular she said look most

1390

01:02:44,180 --> 01:02:42,480

like it was submitted but because we

1391

01:02:47,000 --> 01:02:44,190

didn't have a chain of evidence we

1392

01:02:49,640 --> 01:02:47,010

didn't know who gave it we didn't have

1393

01:02:51,350 --> 01:02:49,650

the original anything as far as to

1394

01:02:54,110 --> 01:02:51,360

examine everything to camera everything

1395

01:02:55,580 --> 01:02:54,120

else but it's just an illustration

1396

01:02:59,120 --> 01:02:55,590

that's the best you're gonna get

1397

01:03:03,020 --> 01:02:59,130

so it's supportive in that sense and we

1398

01:03:06,730 --> 01:03:03,030

were working under doctor dr. Haines oh

1399

01:03:09,470 --> 01:03:06,740

yeah everything from Richard Haines and

1400

01:03:11,330 --> 01:03:09,480

he's very rigid as far as what you could

1401

01:03:13,400 --> 01:03:11,340

do what you know as far as laying out

1402

01:03:16,130 --> 01:03:13,410

what we were going our each each one

1403

01:03:17,810 --> 01:03:16,140

over assignments were pretty much spelt

1404

01:03:20,870 --> 01:03:17,820

out what we were going to be doing and

1405

01:03:26,330 --> 01:03:20,880

what we're looking at and there were

1406

01:03:28,310 --> 01:03:26,340

nine of us or more involved and to tell

1407

01:03:31,400 --> 01:03:28,320

you what it's a good paper it's a very

1408

01:03:32,990 --> 01:03:31,410

good white paper and to this

1409

01:03:35,599 --> 01:03:33,000

day of course we can't say it's

1410

01:03:38,059 --> 01:03:35,609

extraterrestrial but I tell you what

1411

01:03:40,819 --> 01:03:38,069

damn weird and it falls into the

1412

01:03:44,240 --> 01:03:40,829

category of a UFO right I would say I

1413

01:03:47,380 --> 01:03:44,250

would think so now the FAA at the time

1414

01:03:51,039 --> 01:03:47,390

they were tight-lipped about this and

1415

01:03:54,789 --> 01:03:51,049

recently while I had Tyler rogue away on

1416

01:03:57,319 --> 01:03:54,799

who was discussing he is a journalist

1417

01:03:59,450 --> 01:03:57,329

aviation journalist and he was

1418

01:04:01,190 --> 01:03:59,460

discussing how easy it is to deal with

1419

01:04:04,569 --> 01:04:01,200

the art the FAA

1420

01:04:09,799 --> 01:04:04,579

I almost said IRS well it's tax season

1421

01:04:13,910 --> 01:04:09,809

he he was dealing with the FAA and they

1422

01:04:16,190 --> 01:04:13,920

were very cooperative and I found that

1423

01:04:20,569 --> 01:04:16,200

strange and this was about the topic of

1424

01:04:23,270 --> 01:04:20,579

UFOs and so well it may be to him they

1425

01:04:25,670 --> 01:04:23,280

were I don't know yeah that I did I did

1426

01:04:29,029 --> 01:04:25,680

ask him if he thought anything had to do

1427

01:04:33,500 --> 01:04:29,039

with you know what he does he was unsure

1428

01:04:36,019 --> 01:04:33,510

about that but but that being said I

1429

01:04:38,839 --> 01:04:36,029

believe it's possible that they are

1430

01:04:41,210 --> 01:04:38,849

loosening up a little and I think you

1431

01:04:42,829 --> 01:04:41,220

know the stories like what came out in

1432

01:04:45,740 --> 01:04:42,839

the New York Times you know over a year

1433

01:04:48,079 --> 01:04:45,750

ago has helped loosen that that whole

1434

01:04:52,120 --> 01:04:48,089

thing up a little bit as far as the the

1435

01:04:56,089 --> 01:04:52,130

rigidness of the FAA and I'm wondering

1436

01:04:58,940 --> 01:04:56,099

if they would be what could be

1437

01:05:02,750 --> 01:04:58,950

approachable I'm not just saying you

1438

01:05:07,130 --> 01:05:02,760

know maybe not just the FAA but have

1439

01:05:09,710 --> 01:05:07,140

people tried to do FOIA requests you

1440

01:05:12,609 --> 01:05:09,720

know Freedom of Information Act requests

1441

01:05:17,630 --> 01:05:12,619

for documents or any information

1442

01:05:20,660 --> 01:05:17,640

regarding this incident yes and they got

1443

01:05:24,559 --> 01:05:20,670

of course dr. Haynes had had received

1444

01:05:25,910 --> 01:05:24,569

multiple packets of radar data the funny

1445

01:05:27,200 --> 01:05:25,920

thing is radar data can only be

1446

01:05:29,299 --> 01:05:27,210

retrieved within a certain period of

1447

01:05:33,849 --> 01:05:29,309

time they reuse the tapes which is

1448

01:05:36,289 --> 01:05:33,859

strange especially when it comes with a

1449

01:05:40,099 --> 01:05:36,299

episode like this would they me use it I

1450

01:05:42,470 --> 01:05:40,109

find that out but either way he did get

1451

01:05:44,839 --> 01:05:42,480

the radar data that came in and

1452

01:05:45,410 --> 01:05:44,849

intervals and didn't come in all at once

1453

01:05:49,430 --> 01:05:45,420

sure

1454

01:05:52,760 --> 01:05:49,440

then and again the evaluation of that

1455

01:05:54,110 --> 01:05:52,770

really left it you know up in the air

1456

01:05:56,330 --> 01:05:54,120

though they feel there was something

1457

01:05:59,380 --> 01:05:56,340

definitely there there were some other

1458

01:06:02,300 --> 01:05:59,390

things noted in some of the radar data

1459

01:06:08,570 --> 01:06:02,310

further to the west of the airport which

1460

01:06:11,240 --> 01:06:08,580

I don't think was painting of clutter or

1461

01:06:12,770 --> 01:06:11,250

anything like that or migratory in fact

1462

01:06:15,650 --> 01:06:12,780

that's what I looked into his migratory

1463

01:06:17,900 --> 01:06:15,660

insects and birds for that but that was

1464

01:06:20,270 --> 01:06:17,910

not within the scope of the

1465

01:06:23,540 --> 01:06:20,280

investigation it was centered around

1466

01:06:25,790 --> 01:06:23,550

gate c-17 that time period that was it

1467

01:06:27,920 --> 01:06:25,800

though we did take a peek at something

1468

01:06:29,600 --> 01:06:27,930

else and ruled out that it wasn't birds

1469

01:06:32,210 --> 01:06:29,610

or insects so there are other things

1470

01:06:34,550 --> 01:06:32,220

being painted but that wasn't the scope

1471

01:06:34,550 --> 01:06:34,560

of the investigation

1472

01:06:40,010 --> 01:06:37,550

I mean Masson was coming in that day at

1473

01:06:44,780 --> 01:06:40,020

six o'clock and he said do you think

1474

01:06:47,150 --> 01:06:44,790

they were coming there to see me I know

1475

01:06:49,040 --> 01:06:47,160

Michael is that amazing he came in at

1476

01:06:53,210 --> 01:06:49,050

six o'clock he goes yes came in at six

1477

01:06:55,730 --> 01:06:53,220

o'clock no but you know was the first

1478

01:07:00,530 --> 01:06:55,740

time we had something weird like that

1479

01:07:03,650 --> 01:07:00,540

but I what's interesting about working

1480

01:07:04,940 --> 01:07:03,660

on cases like this other people come out

1481

01:07:07,100 --> 01:07:04,950

of the Woodworks you hear different

1482

01:07:10,120 --> 01:07:07,110

stories one gentleman came forward he

1483

01:07:15,140 --> 01:07:10,130

says I was working at the Northwest

1484

01:07:17,510 --> 01:07:15,150

Northwest orient the building over there

1485

01:07:20,330 --> 01:07:17,520

which is basically used by American

1486

01:07:23,420 --> 01:07:20,340

Airlines I think her yeah or United

1487

01:07:25,310 --> 01:07:23,430

possibly for maintenance on planes they

1488

01:07:27,950 --> 01:07:25,320

taxi the planes there and they maintain

1489

01:07:29,300 --> 01:07:27,960

them they empty the toilets whatever and

1490

01:07:32,870 --> 01:07:29,310

that's what he did he was the honey

1491

01:07:35,450 --> 01:07:32,880

truck driver and he worked the night

1492

01:07:38,120 --> 01:07:35,460

shift the end results is this guy's out

1493

01:07:42,500 --> 01:07:38,130

there one night and it was a beautiful

1494

01:07:44,150 --> 01:07:42,510

evening they had they actually decided

1495

01:07:46,190 --> 01:07:44,160

to do some barbecuing because the

1496

01:07:48,680 --> 01:07:46,200

weather was good he said he was even

1497

01:07:52,310 --> 01:07:48,690

wearing shorts it was April it was very

1498

01:07:55,760 --> 01:07:52,320

temperate and so while he's there all of

1499

01:07:58,700 --> 01:07:55,770

a sudden a UFO shows up and he drew this

1500

01:08:01,550 --> 01:07:58,710

thing I have a picture of it and it went

1501  
01:08:03,920 --> 01:08:01,560  
across the tarmac everybody just stopped

1502  
01:08:06,250 --> 01:08:03,930  
and stared at this thing and it went

1503  
01:08:10,490 --> 01:08:06,260  
right across the tarmac took off and

1504  
01:08:12,920 --> 01:08:10,500  
just missed the 747 coming in no cycle

1505  
01:08:15,079 --> 01:08:12,930  
what he goes here this thing landed

1506  
01:08:17,420 --> 01:08:15,089  
right there we're all staring at it

1507  
01:08:20,539 --> 01:08:17,430  
moves across time that can takes right

1508  
01:08:23,360 --> 01:08:20,549  
off and he swears to it so does his

1509  
01:08:26,209 --> 01:08:23,370  
father his father said no this was what

1510  
01:08:27,559 --> 01:08:26,219  
he saw and sure that's what it was talk

1511  
01:08:30,829 --> 01:08:27,569  
to a few of his friends who were there

1512  
01:08:33,979 --> 01:08:30,839  
that Davis of the same thing so things

1513  
01:08:36,229 --> 01:08:33,989

happen around the airport and not

1514

01:08:37,940 --> 01:08:36,239

everything gets out to the open and nor

1515

01:08:40,970 --> 01:08:37,950

does it end up in a report that we get

1516

01:08:45,530 --> 01:08:40,980

our hands on either amazing Wow now

1517

01:08:48,499 --> 01:08:45,540

which yeah that's pretty strange well

1518

01:08:50,870 --> 01:08:48,509

you know there's that that story about

1519

01:08:53,690 --> 01:08:50,880

Linda Moulton Howe that was supposed to

1520

01:08:57,200 --> 01:08:53,700

get a video you know she was lured in to

1521

01:08:58,999 --> 01:08:57,210

get this video of of a craft landing at

1522

01:09:00,769 --> 01:08:59,009

a Air Force Base do you remember that

1523

01:09:02,150 --> 01:09:00,779

and yeah

1524

01:09:05,840 --> 01:09:02,160

they lured her into that whole thing and

1525

01:09:07,220 --> 01:09:05,850

nothing was ever revealed I don't know I

1526

01:09:09,890 --> 01:09:07,230

don't even know what any of that was

1527

01:09:13,880 --> 01:09:09,900

about but it does seem like you do hear

1528

01:09:15,650 --> 01:09:13,890

about you know possible landings or you

1529

01:09:18,019 --> 01:09:15,660

know remember Gordon Cooper talks about

1530

01:09:20,269 --> 01:09:18,029

I don't think he was on an air base but

1531

01:09:22,490 --> 01:09:20,279

he was somewhere out in the desert or

1532

01:09:24,499 --> 01:09:22,500

something when another thing land yes

1533

01:09:27,170 --> 01:09:24,509

you know it just seemed yeah he had the

1534

01:09:29,059 --> 01:09:27,180

gun he had the footage yeah yeah he

1535

01:09:31,880 --> 01:09:29,069

delivered it and everything yeah yeah

1536

01:09:34,700 --> 01:09:31,890

and he never he wasn't he didn't

1537

01:09:36,620 --> 01:09:34,710

actually see it he was told about it but

1538

01:09:38,749 --> 01:09:36,630

he actually you know after the film was

1539

01:09:41,030 --> 01:09:38,759

developed he looked through it and saw

1540

01:09:44,390 --> 01:09:41,040

it saw they weren't making anything up

1541

01:09:46,249 --> 01:09:44,400

you know they saw it on film and that

1542

01:09:49,809 --> 01:09:46,259

was a snob you said it was perfect he

1543

01:09:52,280 --> 01:09:49,819

said was pretty darn good film yeah yeah

1544

01:09:54,289 --> 01:09:52,290

the story that I'm saying is little

1545

01:09:55,729 --> 01:09:54,299

small craft and little feet came out of

1546

01:09:59,120 --> 01:09:55,739

it and landed right in front of everyone

1547

01:10:01,580 --> 01:09:59,130

in the films at the wartime Bazaar yeah

1548

01:10:06,979 --> 01:10:01,590

and that footage I think exists right

1549

01:10:09,140 --> 01:10:06,989

now somewhere that reminds me of the

1550

01:10:10,400 --> 01:10:09,150

Socorro case for some reason every time

1551

01:10:12,529 --> 01:10:10,410

I hear about that one

1552

01:10:14,149 --> 01:10:12,539

the two seem to go together was

1553

01:10:15,740 --> 01:10:14,159

what that thing may have looked like to

1554

01:10:17,600 --> 01:10:15,750

those right and I don't even know if

1555

01:10:20,089 --> 01:10:17,610

they were that far apart as far as the

1556

01:10:23,450 --> 01:10:20,099

date goes you know it's now they're

1557

01:10:24,890 --> 01:10:23,460

nearly closed yeah you know what cracks

1558

01:10:25,970 --> 01:10:24,900

me up at this Blue Book thing they're

1559

01:10:29,810 --> 01:10:25,980

not putting things in a proper

1560

01:10:31,970 --> 01:10:29,820

chronology because they had the Gordon

1561

01:10:34,310 --> 01:10:31,980

one which was actually later than say

1562

01:10:37,970 --> 01:10:34,320

for instance some of the other ones the

1563

01:10:42,529 --> 01:10:37,980

flatwood monster case that was at the

1564

01:10:46,910 --> 01:10:42,539

end of all that 1952 activity along the

1565

01:10:49,310 --> 01:10:46,920

coast and the buzzing of Washington DC

1566

01:10:52,370 --> 01:10:49,320

which was from what I heard instead of

1567

01:10:55,430 --> 01:10:52,380

the two weekends of incursions there may

1568

01:10:58,250 --> 01:10:55,440

have been at least 90 incursions during

1569

01:10:59,660 --> 01:10:58,260

that period of time so well it was a lot

1570

01:11:02,509 --> 01:10:59,670

more activity than what we'd ever hear

1571

01:11:06,109 --> 01:11:02,519

about well Sam when we were taking that

1572

01:11:07,819 --> 01:11:06,119

break you mentioned that you had there

1573

01:11:11,359 --> 01:11:07,829

was a recent case that you may talk

1574

01:11:14,330 --> 01:11:11,369

about yes yeah talk a little bit about

1575

01:11:18,549 --> 01:11:14,340

the Heron go ahead if you would um sure

1576

01:11:21,259 --> 01:11:18,559

the it was southern Illinois case and

1577

01:11:23,259 --> 01:11:21,269

gentleman filled out a report came in

1578

01:11:25,490 --> 01:11:23,269

was actually two reports came in I

1579

01:11:27,890 --> 01:11:25,500

looked at him I go wow these are the

1580

01:11:30,799 --> 01:11:27,900

same not the same person but the same

1581

01:11:33,200 --> 01:11:30,809

incident and each one took the time and

1582

01:11:37,790 --> 01:11:33,210

to fill out the reports so I called him

1583

01:11:41,660 --> 01:11:37,800

up immediately and it was that time that

1584

01:11:43,729 --> 01:11:41,670

I was down meant medically I couldn't I

1585

01:11:47,180 --> 01:11:43,739

was getting a lot of tests and stuff and

1586

01:11:49,250 --> 01:11:47,190

a few of other folks were caught all

1587

01:11:50,810 --> 01:11:49,260

unable to hit the road and do you know

1588

01:11:55,069 --> 01:11:50,820

work on it it was further south in

1589

01:11:57,140 --> 01:11:55,079

Illinois and so we called very gone to

1590

01:12:00,049 --> 01:11:57,150

actually feel worked but I interviewed

1591

01:12:02,209 --> 01:12:00,059

the man multiple times he says I was

1592

01:12:04,450 --> 01:12:02,219

driving home actually it was the best

1593

01:12:07,430 --> 01:12:04,460

day she'd his girlfriend's driving and

1594

01:12:10,879 --> 01:12:07,440

they stopped for mail they turn into the

1595

01:12:13,459 --> 01:12:10,889

driveway and there is this huge light

1596

01:12:16,370 --> 01:12:13,469

and the the size of the light he says

1597

01:12:19,220 --> 01:12:16,380

was as big as an orange at arm's length

1598

01:12:23,359 --> 01:12:19,230

and it's over from what appeared to be

1599

01:12:25,940 --> 01:12:23,369

over the distance above the house would

1600

01:12:28,490 --> 01:12:25,950

be over the house but in the distance

1601

01:12:31,970 --> 01:12:28,500

and he try he has such a difficulty

1602

01:12:33,590 --> 01:12:31,980

trying to explain the characteristics of

1603

01:12:36,470 --> 01:12:33,600

this likes he says it's like nothing

1604

01:12:38,660 --> 01:12:36,480

you've ever seen before it's it was

1605

01:12:42,530 --> 01:12:38,670

brilliant it was white that was like a

1606

01:12:46,700 --> 01:12:42,540

lens and then the other day he called me

1607

01:12:49,430 --> 01:12:46,710

up he says it was like faceted it was

1608

01:12:53,090 --> 01:12:49,440

like there was faceting to it it was

1609

01:12:55,280 --> 01:12:53,100

very strange now that's at there and

1610

01:12:58,310 --> 01:12:55,290

coming out of there appearing to come

1611

01:13:00,170 --> 01:12:58,320

out of it was a smaller object with the

1612

01:13:02,480 --> 01:13:00,180

same intensity and type of illumination

1613

01:13:05,780 --> 01:13:02,490

about the size of a nickel at arm's

1614

01:13:09,410 --> 01:13:05,790

length that object comes out does a

1615

01:13:13,040 --> 01:13:09,420

zigzag but does describing the zigzag

1616

01:13:16,490 --> 01:13:13,050

being more like a skier coming down a

1617

01:13:20,810 --> 01:13:16,500

slope right to left right left and comes

1618

01:13:23,900 --> 01:13:20,820

down and shoots across over some trees

1619

01:13:25,190 --> 01:13:23,910

or in back of his house now he pulls up

1620

01:13:28,940 --> 01:13:25,200

they were going to be emptying the

1621

01:13:30,890 --> 01:13:28,950

getting the their groceries out he

1622

01:13:33,260 --> 01:13:30,900

decides I'm gonna go see what's going on

1623

01:13:35,450 --> 01:13:33,270

here with this day he walks him back by

1624

01:13:37,970 --> 01:13:35,460

the house looking for where that light

1625

01:13:40,730 --> 01:13:37,980

could have gone I couldn't see it but

1626

01:13:43,760 --> 01:13:40,740

from where it it dipped over the the

1627

01:13:46,040 --> 01:13:43,770

tree line some was around 200 some feet

1628

01:13:48,070 --> 01:13:46,050

away to his right there is the

1629

01:13:51,440 --> 01:13:48,080

silhouette of an object sitting there

1630

01:13:55,070 --> 01:13:51,450

perfectly still but now it's coming

1631

01:13:57,110 --> 01:13:55,080

towards him he is standing there trying

1632

01:14:00,710 --> 01:13:57,120

to figure out what occurred this thing

1633

01:14:04,730 --> 01:14:00,720

is and it's big and it's coming down and

1634

01:14:09,230 --> 01:14:04,740

it's coming along next to the field next

1635

01:14:12,220 --> 01:14:09,240

to his house the object is as he says no

1636

01:14:18,290 --> 01:14:12,230

less than fifty feet could be more and

1637

01:14:22,220 --> 01:14:18,300

20 some feet wide about 10 15 feet or so

1638

01:14:24,920 --> 01:14:22,230

max in the middle and a type of

1639

01:14:26,630 --> 01:14:24,930

illumination along the bottom but he

1640

01:14:29,060 --> 01:14:26,640

says what was truly unusual it was

1641

01:14:31,250 --> 01:14:29,070

coming towards him is he was saying what

1642

01:14:34,280 --> 01:14:31,260

appeared to be a window and in this

1643

01:14:36,680 --> 01:14:34,290

window well he found very disturbing was

1644

01:14:38,690 --> 01:14:36,690

motion but the motion was like that of

1645

01:14:42,590 --> 01:14:38,700

something alive

1646

01:14:45,890 --> 01:14:42,600

something human-like or human and he was

1647

01:14:49,070 --> 01:14:45,900

able to discern that type of motion and

1648

01:14:52,430 --> 01:14:49,080

shape inside as it was coming towards

1649

01:14:54,740 --> 01:14:52,440

him then he notices two red lights in

1650

01:14:58,060 --> 01:14:54,750

the green lighting back on the side the

1651

01:15:05,450 --> 01:14:58,070

right side the shape of the object is

1652

01:15:09,170 --> 01:15:05,460

sort of like a Oh an elliptic but like

1653

01:15:12,590 --> 01:15:09,180

an arrow and the back of it was flat or

1654

01:15:15,920 --> 01:15:12,600

possibly even concave and it appeared

1655

01:15:18,230 --> 01:15:15,930

that there was the machine from the

1656

01:15:21,980 --> 01:15:18,240

bottom was unlike anything he ever seen

1657

01:15:25,520 --> 01:15:21,990

it was self luminous yet it was metallic

1658

01:15:28,730 --> 01:15:25,530

and he can't even grasp to get the color

1659

01:15:33,350 --> 01:15:28,740

correct it's just too unusual the side

1660

01:15:37,280 --> 01:15:33,360

was grey and dark too dark black a

1661

01:15:39,950 --> 01:15:37,290

matted black and the windows were darker

1662

01:15:42,280 --> 01:15:39,960

and then they got lighter where they're

1663

01:15:46,640 --> 01:15:42,290

able to see more detail as it progressed

1664

01:15:48,580 --> 01:15:46,650

the back of it was like titanium is that

1665

01:15:50,720 --> 01:15:48,590

when he described it look like titania

1666

01:15:52,310 --> 01:15:50,730

he went brand

1667

01:15:54,710 --> 01:15:52,320

he was stooped down looking underneath

1668

01:15:56,450 --> 01:15:54,720

reran got his his girlfriend says you

1669

01:16:00,530 --> 01:15:56,460

got to see this thing it's a UFO it's a

1670

01:16:02,630 --> 01:16:00,540

UFO he grabs her pools are along behind

1671

01:16:03,980 --> 01:16:02,640

this they had to go behind a building to

1672

01:16:08,270 --> 01:16:03,990

catch up with this thing cuz now it's

1673

01:16:10,730 --> 01:16:08,280

moving very slowly across the field they

1674

01:16:13,160 --> 01:16:10,740

come around she was not interested in

1675

01:16:16,970 --> 01:16:13,170

looking at this thing at all she was

1676

01:16:19,700 --> 01:16:16,980

frightened he's looking at it and now

1677

01:16:21,980 --> 01:16:19,710

he's able to discern they're not just

1678

01:16:25,040 --> 01:16:21,990

one being in there there are two beings

1679

01:16:28,220 --> 01:16:25,050

in there the being and back of the first

1680

01:16:30,920 --> 01:16:28,230

one is bending forward as it bends

1681

01:16:34,300 --> 01:16:30,930

forward he hears something like the

1682

01:16:37,940 --> 01:16:34,310

engaging of some sort of device bit an

1683

01:16:42,590 --> 01:16:37,950

engine or some energy or whatever there

1684

01:16:44,630 --> 01:16:42,600

is a sound that's taking place then all

1685

01:16:48,050 --> 01:16:44,640

of a sudden there is a roush

1686

01:16:50,540 --> 01:16:48,060

and this whooshing sound like it was

1687

01:16:52,670 --> 01:16:50,550

just like very unusual like rouscher

1688

01:16:54,500 --> 01:16:52,680

like air and he said you could

1689

01:16:56,390 --> 01:16:54,510

to discern that if you were more than

1690

01:16:58,370 --> 01:16:56,400

say two or three hundred feet away it

1691

01:17:01,640 --> 01:16:58,380

was it was discernible but it wasn't

1692

01:17:05,750 --> 01:17:01,650

super loud but it was obvious that thing

1693

01:17:07,550 --> 01:17:05,760

curved off and shot up he said the way

1694

01:17:10,250 --> 01:17:07,560

it moved was like that of a centipede

1695

01:17:13,640 --> 01:17:10,260

turning to its side and moving Jeff you

1696

01:17:17,360 --> 01:17:13,650

ever seen that how they move along yeah

1697

01:17:19,790 --> 01:17:17,370

mm-hmm you know just and that's what it

1698

01:17:22,490 --> 01:17:19,800

was in his eye and and I'm thinking

1699

01:17:24,920 --> 01:17:22,500

that's because the illumination now it

1700

01:17:27,980 --> 01:17:24,930

started to become illuminated that his

1701

01:17:30,620 --> 01:17:27,990

opt is how his eyes picking it up it may

1702

01:17:32,660 --> 01:17:30,630

have been in like flashes or sequences

1703

01:17:37,720 --> 01:17:32,670

that it would look like that that it was

1704

01:17:41,300 --> 01:17:37,730

stuttering or almost like oh like a

1705

01:17:43,550 --> 01:17:41,310

strobing motion moving off and veering

1706

01:17:45,620 --> 01:17:43,560

off into the sky and he says within

1707

01:17:50,780 --> 01:17:45,630

seconds that thing was lost into the

1708

01:17:53,990 --> 01:17:50,790

stars so he was just puzzled totally

1709

01:17:55,640 --> 01:17:54,000

puzzled he was so shocked by this he

1710

01:17:57,440 --> 01:17:55,650

called his mom and was actually crying

1711

01:18:01,100 --> 01:17:57,450

on the phone he was so freaked out by it

1712

01:18:04,010 --> 01:18:01,110

and this guy is somebody you know could

1713

01:18:04,990 --> 01:18:04,020

handle a lot of craziness he was he's a

1714

01:18:08,480 --> 01:18:05,000

pretty tough guy

1715

01:18:12,740 --> 01:18:08,490

well what up and story then isn't it

1716

01:18:14,960 --> 01:18:12,750

wild that's crazy yeah yeah and then

1717

01:18:17,510 --> 01:18:14,970

he's seen it they seen it again but this

1718

01:18:21,740 --> 01:18:17,520

time with the I believe it was a sister

1719

01:18:25,940 --> 01:18:21,750

and brother-in-law of his girlfriend and

1720

01:18:28,970 --> 01:18:25,950

then coming home one day he went out of

1721

01:18:31,910 --> 01:18:28,980

state he was coming over a bridge not

1722

01:18:35,270 --> 01:18:31,920

far from him but towards like metropolis

1723

01:18:39,860 --> 01:18:35,280

in Korea so he he's come out of the

1724

01:18:42,380 --> 01:18:39,870

bridge and there's this dream UFO above

1725

01:18:45,650 --> 01:18:42,390

the bridge line dreams sitting there and

1726

01:18:49,970 --> 01:18:45,660

he says what is this and then it takes

1727

01:18:51,230 --> 01:18:49,980

off to the north-northwest and he says

1728

01:18:52,820 --> 01:18:51,240

by the time he when he got to the other

1729

01:18:55,850 --> 01:18:52,830

side the bridge was about nine police

1730

01:18:57,470 --> 01:18:55,860

officers standing around he says I he

1731

01:19:02,150 --> 01:18:57,480

had his filled with this at that point

1732

01:19:06,350 --> 01:19:02,160

so he just went home but yeah pretty

1733

01:19:07,200 --> 01:19:06,360

crazy huh yeah and did we did the police

1734

01:19:14,260 --> 01:19:07,210

officer

1735

01:19:16,330 --> 01:19:14,270

you're aware of no idea well all this is

1736

01:19:18,280 --> 01:19:16,340

still under investigation we will we

1737

01:19:20,530 --> 01:19:18,290

know there's more more information there

1738

01:19:22,900 --> 01:19:20,540

we know there's more witnesses and other

1739

01:19:26,410 --> 01:19:22,910

cases came in even came in Kentucky that

1740

01:19:28,180 --> 01:19:26,420

seem to be similar to this berry come on

1741

01:19:32,020 --> 01:19:28,190

went out there he did the field test

1742

01:19:34,720 --> 01:19:32,030

took some photographs so I mean the

1743

01:19:36,790 --> 01:19:34,730

gentleman had some ailments we may have

1744

01:19:39,550 --> 01:19:36,800

to do some follow-up with that the

1745

01:19:42,130 --> 01:19:39,560

bottom line is he you know this because

1746

01:19:45,550 --> 01:19:42,140

he says this was life changing this was

1747

01:19:47,140 --> 01:19:45,560

a life changing event there is this was

1748

01:19:49,990 --> 01:19:47,150

like nothing ever seen before

1749

01:19:52,960 --> 01:19:50,000

his girlfriend was totally shook up by

1750

01:19:54,490 --> 01:19:52,970

yet I spoke to his mom and she said he

1751

01:19:59,290 --> 01:19:54,500

isn't that she has never seen him this

1752

01:20:01,540 --> 01:19:59,300

worked up over anything and she is a

1753

01:20:05,140 --> 01:20:01,550

hundred percent in back of them but they

1754

01:20:08,290 --> 01:20:05,150

saw is what they saw area what it is we

1755

01:20:11,230 --> 01:20:08,300

don't know right what we know it's a

1756

01:20:13,240 --> 01:20:11,240

piece of technology many helicopter

1757

01:20:15,750 --> 01:20:13,250

showed up a military helicopter showed

1758

01:20:18,940 --> 01:20:15,760

up afterwards

1759

01:20:22,840 --> 01:20:18,950

yeah pretty strange stuff that's been

1760

01:20:24,940 --> 01:20:22,850

everything yeah all the goodies yeah and

1761

01:20:26,830 --> 01:20:24,950

all the goodies and and a cooperative

1762

01:20:29,440 --> 01:20:26,840

witness too so you get the information

1763

01:20:31,360 --> 01:20:29,450

and you know after this happened he went

1764

01:20:32,740 --> 01:20:31,370

to the neighborhood he was asking people

1765

01:20:34,750 --> 01:20:32,750

different stuff and he said he came

1766

01:20:37,180 --> 01:20:34,760

across a farmer who told him a story

1767

01:20:41,080 --> 01:20:37,190

that he was out there he was I don't

1768

01:20:43,570 --> 01:20:41,090

know if he was disk in but he was getting

1769

01:20:45,550 --> 01:20:43,580

ready to put some put some put some seed

1770

01:20:47,860 --> 01:20:45,560

and there was a UFO just sitting there

1771

01:20:49,810 --> 01:20:47,870

and I'm sitting there above them in the

1772

01:20:51,040 --> 01:20:49,820

field they says oh yeah I watched this

1773

01:20:52,930 --> 01:20:51,050

thing for I don't know how long it

1774

01:20:54,640 --> 01:20:52,940

didn't move it just sent there he says

1775

01:20:55,780 --> 01:20:54,650

but I had to get back to work you

1776

01:21:00,850 --> 01:20:55,790

know the work would never get done

1777

01:21:04,150 --> 01:21:00,860

unless I do it well now going back to

1778

01:21:10,330 --> 01:21:04,160

the O'Hare incident just a couple of

1779

01:21:12,130 --> 01:21:10,340

things on that did someone was saying

1780

01:21:14,350 --> 01:21:12,140

actually in the chat room they said that

1781

01:21:18,730 --> 01:21:14,360

there was something about a college kid

1782

01:21:21,170 --> 01:21:18,740

that that was making something about it

1783

01:21:23,730 --> 01:21:21,180

do you know anything about that

1784

01:21:26,610 --> 01:21:23,740

making photographs no no that was uh

1785

01:21:28,830 --> 01:21:26,620

that was making a video or something

1786

01:21:31,140 --> 01:21:28,840

about it there's the situation do you

1787

01:21:34,170 --> 01:21:31,150

know anything about that that was just

1788

01:21:36,540 --> 01:21:34,180

what someone posted up on chat could

1789

01:21:38,130 --> 01:21:36,550

have been but I don't recall you know

1790

01:21:40,830 --> 01:21:38,140

there were so many rumors going about

1791

01:21:43,350 --> 01:21:40,840

dan Aykroyd supposedly had some footage

1792

01:21:47,430 --> 01:21:43,360

and everything and I never heard that

1793

01:21:52,980 --> 01:21:47,440

you know I mean I that hasn't been

1794

01:21:55,860 --> 01:21:52,990

validated either way on the go ahead no

1795

01:21:58,080 --> 01:21:55,870

go ahead well the other thing I was

1796

01:22:03,330 --> 01:21:58,090

thinking of did that actually stop

1797

01:22:05,430 --> 01:22:03,340

traffic you know traffic was was was the

1798

01:22:08,040 --> 01:22:05,440

the normal flow of traffic was changed

1799

01:22:12,420 --> 01:22:08,050

there was they talk in fact you could

1800

01:22:14,460 --> 01:22:12,430

hear the tower tapes like on the YouTube

1801  
01:22:17,100 --> 01:22:14,470  
they have the tower tapes they were

1802  
01:22:18,660 --> 01:22:17,110  
asking pilots if they seen anything and

1803  
01:22:20,330 --> 01:22:18,670  
then they were tell him you know you

1804  
01:22:24,360 --> 01:22:20,340  
could hear the chatter with the tower

1805  
01:22:28,830 --> 01:22:24,370  
about that um we did get in fact Robert

1806  
01:22:31,500 --> 01:22:28,840  
Powell sent me a email one day and he

1807  
01:22:34,080 --> 01:22:31,510  
says Sam he got a another person that

1808  
01:22:36,560 --> 01:22:34,090  
that Saints something while they were in

1809  
01:22:39,350 --> 01:22:36,570  
the air and sure enough there wasn't a

1810  
01:22:42,240 --> 01:22:39,360  
gentleman and his wife coming in and

1811  
01:22:45,870 --> 01:22:42,250  
they seen something in the air and they

1812  
01:22:48,450 --> 01:22:45,880  
were very qualified observers to they

1813  
01:22:51,420 --> 01:22:48,460

were what was some military observers on

1814

01:22:53,670 --> 01:22:51,430

military personnel so they're other like

1815

01:22:55,830 --> 01:22:53,680

you said other people are coming forward

1816

01:22:58,380 --> 01:22:55,840

now they feel comfortable and this is

1817

01:23:00,990 --> 01:22:58,390

how it always happens these things are

1818

01:23:03,540 --> 01:23:01,000

always open the only time a case is done

1819

01:23:05,760 --> 01:23:03,550

is you can't really add any more to it

1820

01:23:08,700 --> 01:23:05,770

or unless you know exactly what it is

1821

01:23:09,300 --> 01:23:08,710

and I am going than if I'd flying object

1822

01:23:11,670 --> 01:23:09,310

or a hoax

1823

01:23:14,370 --> 01:23:11,680

so Maria you were a hundred percent

1824

01:23:16,980 --> 01:23:14,380

correct yeah and you know you're talking

1825

01:23:18,720 --> 01:23:16,990

about helicopters in this last one it

1826

01:23:21,330 --> 01:23:18,730

seems to me that if something was in

1827

01:23:24,510 --> 01:23:21,340

threat of airspace you know they would

1828

01:23:27,180 --> 01:23:24,520

have sent something to go check it out

1829

01:23:29,180 --> 01:23:27,190

like a helicopter or you know the the

1830

01:23:31,830 --> 01:23:29,190

military we get involved or something

1831

01:23:32,799 --> 01:23:31,840

you know me what else takes too long I

1832

01:23:35,950 --> 01:23:32,809

don't know

1833

01:23:39,220 --> 01:23:35,960

oh yeah this was pretty quick

1834

01:23:41,080 --> 01:23:39,230

you know the whole incident well they

1835

01:23:42,100 --> 01:23:41,090

had they know the exact time of

1836

01:23:43,529 --> 01:23:42,110

everything

1837

01:23:47,350 --> 01:23:43,539

sure and that's what's so interesting

1838

01:23:50,529 --> 01:23:47,360

exact time and speaking of time he feels

1839

01:23:52,990 --> 01:23:50,539

there was at least a minute or more of

1840

01:23:54,729 --> 01:23:53,000

missing time because something

1841

01:23:56,709 --> 01:23:54,739

transpired he was looking at something

1842

01:24:01,839 --> 01:23:56,719

one land and all of a sudden it was

1843

01:24:03,339 --> 01:24:01,849

something was different and so missing

1844

01:24:03,760 --> 01:24:03,349

time could have taken place with this

1845

01:24:07,270 --> 01:24:03,770

gentleman

1846

01:24:12,339 --> 01:24:07,280

so don't the the girlfriend was totally

1847

01:24:14,470 --> 01:24:12,349

scared we talked every day almost we l

1848

01:24:17,470 --> 01:24:14,480

couldn't even kana many times we talk we

1849

01:24:19,810 --> 01:24:17,480

talk all the time that's the other thing

1850

01:24:23,020 --> 01:24:19,820

about we're working a case like this you

1851  
01:24:25,060 --> 01:24:23,030  
get very close to these people and and

1852  
01:24:26,890 --> 01:24:25,070  
that's a genuine thing and it isn't just

1853  
01:24:29,109 --> 01:24:26,900  
you want to do it clinically you

1854  
01:24:30,669 --> 01:24:29,119  
generally have a concern and my concern

1855  
01:24:32,830 --> 01:24:30,679  
more than anything else is their health

1856  
01:24:35,109 --> 01:24:32,840  
and well-being I don't want anything to

1857  
01:24:38,049 --> 01:24:35,119  
hurt them and if there's something wrong

1858  
01:24:40,180 --> 01:24:38,059  
want them taken care of the other thing

1859  
01:24:44,709 --> 01:24:40,190  
is I don't want people bothering them

1860  
01:24:48,939 --> 01:24:44,719  
and their privacy and their health or

1861  
01:24:51,220 --> 01:24:48,949  
well-being has to be respected so and so

1862  
01:24:52,830 --> 01:24:51,230  
in this case there's gonna be you're

1863  
01:24:55,930 --> 01:24:52,840

gonna hear about this a little bit more

1864

01:24:59,740 --> 01:24:55,940

pretty soon well that's exciting

1865

01:25:01,510 --> 01:24:59,750

so we are we are at a point where we

1866

01:25:05,919 --> 01:25:01,520

could take a call if anyone wants to

1867

01:25:07,890 --> 01:25:05,929

call in that number but Sam you tried to

1868

01:25:10,660 --> 01:25:07,900

call in on that number and you said that

1869

01:25:13,419 --> 01:25:10,670

that's an act it going to voicemail

1870

01:25:16,180 --> 01:25:13,429

went into voice yeah first so what the

1871

01:25:19,330 --> 01:25:16,190

voice no no perhaps we maybe ought not

1872

01:25:22,750 --> 01:25:19,340

give it a try with who any things that

1873

01:25:24,430 --> 01:25:22,760

one or more so I mean the worst thing

1874

01:25:26,799 --> 01:25:24,440

that could happen is someone would call

1875

01:25:30,129 --> 01:25:26,809

in and it would go nowhere so that call

1876  
01:25:31,830 --> 01:25:30,139  
numbers up on the screen someone is

1877  
01:25:36,609 --> 01:25:31,840  
welcome to try it if they would like and

1878  
01:25:40,259 --> 01:25:36,619  
ask you a question so as far as up as

1879  
01:25:42,939 --> 01:25:40,269  
far as your daily life goes then and

1880  
01:25:46,439 --> 01:25:42,949  
your profession and things like that

1881  
01:25:48,680 --> 01:25:46,449  
does this the UFO

1882  
01:25:52,979 --> 01:25:48,690  
you know topic ever get in the way of

1883  
01:25:59,220 --> 01:25:52,989  
our Hindi you in any type of way what

1884  
01:26:01,560 --> 01:25:59,230  
normal life oh yeah it has taken a toll

1885  
01:26:04,740 --> 01:26:01,570  
on me and like you wouldn't believe

1886  
01:26:06,540 --> 01:26:04,750  
I didn't jump in with two feet I jumped

1887  
01:26:08,640 --> 01:26:06,550  
in with my head and everything else and

1888  
01:26:11,129 --> 01:26:08,650

I dragged my family along with it which

1889

01:26:15,629 --> 01:26:11,139

is probably not the best thing to do and

1890

01:26:20,750 --> 01:26:15,639

they remind me of that a lot you know it

1891

01:26:23,490 --> 01:26:20,760

is not a popular you want to really lose

1892

01:26:26,820 --> 01:26:23,500

you know at the table dinner table no

1893

01:26:31,350 --> 01:26:26,830

it's not a topic we never talk about it

1894

01:26:34,589 --> 01:26:31,360

it's chandu it's taboo and it's funny

1895

01:26:37,140 --> 01:26:34,599

because I'll go to let's say my sister

1896

01:26:39,330 --> 01:26:37,150

and brother-in-law Lena and their

1897

01:26:41,669 --> 01:26:39,340

friends always want to ask questions I

1898

01:26:43,859 --> 01:26:41,679

see this all the you know but they want

1899

01:26:47,070 --> 01:26:43,869

nothing they themselves want nothing to

1900

01:26:49,439 --> 01:26:47,080

do with any of this stuff hmm as far as

1901

01:26:52,229 --> 01:26:49,449

clients you know as far as business-wise

1902

01:26:54,629 --> 01:26:52,239

and if they have taken because this is a

1903

01:26:57,450 --> 01:26:54,639

full-time job this is my life this is

1904

01:26:59,899 --> 01:26:57,460

what I do and everything else is

1905

01:27:03,060 --> 01:26:59,909

unfortunately taken a backseat sort of

1906

01:27:07,979 --> 01:27:03,070

but whatever I I do I try to do the best

1907

01:27:10,770 --> 01:27:07,989

I can but this thing is from the center

1908

01:27:14,100 --> 01:27:10,780

in my life and it's been this way for I

1909

01:27:16,680 --> 01:27:14,110

don't know 10 years maybe no so the last

1910

01:27:19,050 --> 01:27:16,690

least 10 years but you know it's not not

1911

01:27:23,570 --> 01:27:19,060

what I recommend people to do you want

1912

01:27:27,950 --> 01:27:23,580

if you know the problem is there isn't a

1913

01:27:30,930 --> 01:27:27,960

this should be a paid position or a paid

1914

01:27:32,550 --> 01:27:30,940

profession where as funding or people to

1915

01:27:34,979 --> 01:27:32,560

make a living and really dedicate the

1916

01:27:37,560 --> 01:27:34,989

time have all the resources available to

1917

01:27:40,169 --> 01:27:37,570

do things in a proficient manner and

1918

01:27:43,979 --> 01:27:40,179

that's what really needs to make it move

1919

01:27:47,310 --> 01:27:43,989

along so this way it is respectable it

1920

01:27:49,830 --> 01:27:47,320

is a profession and it can evolve

1921

01:27:52,950 --> 01:27:49,840

through something scientific and it

1922

01:27:55,080 --> 01:27:52,960

should I mean just stop and think echod

1923

01:27:56,959 --> 01:27:55,090

from academia you have people in

1924

01:27:59,040 --> 01:27:56,969

humanities you have people to teach

1925

01:28:01,860 --> 01:27:59,050

teach mythology

1926

01:28:04,040 --> 01:28:01,870

that teach of theology I read all these

1927

01:28:05,280 --> 01:28:04,050

other ologies that are are not

1928

01:28:08,880 --> 01:28:05,290

scientific

1929

01:28:11,310 --> 01:28:08,890

so that are based on myths and beliefs

1930

01:28:16,710 --> 01:28:11,320

and things that cannot be substantiated

1931

01:28:19,920 --> 01:28:16,720

and yet they are in academia and hold

1932

01:28:22,980 --> 01:28:19,930

reverence and yet we get claim you know

1933

01:28:25,560 --> 01:28:22,990

we are the pseudo scientific or pseudo

1934

01:28:27,920 --> 01:28:25,570

scientific right yeah and this is what

1935

01:28:30,870 --> 01:28:27,930

cracks me up the other day we had a

1936

01:28:35,010 --> 01:28:30,880

belated happy Groundhog Day to you too

1937

01:28:37,530 --> 01:28:35,020

oh yeah hey hang on just one second hold

1938

01:28:40,890 --> 01:28:37,540

that thought can you hold that hot sure

1939

01:28:44,010 --> 01:28:40,900

all right it seems to me we have a

1940

01:28:46,050 --> 01:28:44,020

caller on the line so I guess the phones

1941

01:28:47,880 --> 01:28:46,060

working after all caller welcome to the

1942

01:28:52,830 --> 01:28:47,890

show what what's your first name and

1943

01:28:56,400 --> 01:28:52,840

where are you calling from hi Martin

1944

01:28:58,950 --> 01:28:56,410

this is Chuck I called in last week when

1945

01:29:04,440 --> 01:28:58,960

the guest with Robert Powell oh yes my

1946

01:29:07,200 --> 01:29:04,450

job anyway yeah I have a call for Sam or

1947

01:29:11,310 --> 01:29:07,210

I mean a question for Sam and then

1948

01:29:18,320 --> 01:29:11,320

probably a follow-up as far as the

1949

01:29:22,350 --> 01:29:18,330

Chicago O'Hare case I heard that a lot

1950

01:29:24,270 --> 01:29:22,360

maybe most of the airline employees

1951

01:29:29,000 --> 01:29:24,280

pilots flight attendants ground

1952

01:29:32,640 --> 01:29:29,010

personnel we're all told by their

1953

01:29:35,850 --> 01:29:32,650

employers do not talk about this or you

1954

01:29:38,580 --> 01:29:35,860

know you may lose your job and I just

1955

01:29:40,230 --> 01:29:38,590

wondered if Sam could comment on that

1956

01:29:44,760 --> 01:29:40,240

and I just have a follow-up question

1957

01:29:47,130 --> 01:29:44,770

after that I think Chuck what they I

1958

01:29:49,350 --> 01:29:47,140

think the proper way of the wording on

1959

01:29:51,230 --> 01:29:49,360

most of them was reminded that they

1960

01:29:57,470 --> 01:29:51,240

don't have such a perfect record of

1961

01:30:00,330 --> 01:29:57,480

employment so this way it's not a a I

1962

01:30:03,090 --> 01:30:00,340

don't know it's an interpretive threat

1963

01:30:08,850 --> 01:30:03,100

but some of people that's what they said

1964

01:30:12,120 --> 01:30:08,860

yes so I think again the posture being

1965

01:30:12,990 --> 01:30:12,130

that it just came out of it just came

1966

01:30:15,570 --> 01:30:13,000

out of bankruptcy

1967

01:30:17,220 --> 01:30:15,580

in February I think they were very

1968

01:30:20,670 --> 01:30:17,230

concerned about the well-being of the

1969

01:30:23,550 --> 01:30:20,680

corporation the other thing is I there

1970

01:30:27,120 --> 01:30:23,560

was a military presence there

1971

01:30:28,440 --> 01:30:27,130

after this took place so again we're

1972

01:30:29,450 --> 01:30:28,450

talking about a matter of national

1973

01:30:34,940 --> 01:30:29,460

security

1974

01:30:39,270 --> 01:30:34,950

I'll take your second question that uh

1975

01:30:42,720 --> 01:30:39,280

was that a particular airline that you

1976

01:30:45,740 --> 01:30:42,730

were just referring to United right you

1977

01:30:53,670 --> 01:30:45,750

know you will yes

1978

01:30:56,040 --> 01:30:53,680

okay well and you uncovered they need

1979

01:30:58,500 --> 01:30:56,050

other airlines that did something

1980

01:31:00,210 --> 01:30:58,510

similar that you know you were dot just

1981

01:31:03,720 --> 01:31:00,220

coming out of bankruptcy that told their

1982

01:31:06,990 --> 01:31:03,730

employees this was a non-event to talk

1983

01:31:09,270 --> 01:31:07,000

about it yeah you know I can't recall

1984

01:31:13,200 --> 01:31:09,280

anything like that till you the truth I

1985

01:31:16,890 --> 01:31:13,210

don't know like can I just explain to

1986

01:31:21,480 --> 01:31:16,900

him why this is actually c-17 was a

1987

01:31:23,280 --> 01:31:21,490

United Airline gate and that's isn't

1988

01:31:26,760 --> 01:31:23,290

that correct isn't that why it was you

1989

01:31:29,940 --> 01:31:26,770

just United that you know yes the most

1990

01:31:32,670 --> 01:31:29,950

people involved yes they're mostly

1991

01:31:34,290 --> 01:31:32,680

United yeah they're mostly not everybody

1992

01:31:36,630 --> 01:31:34,300

but there was mostly United people knows

1993

01:31:38,550 --> 01:31:36,640

other personnel but those people that

1994

01:31:40,650 --> 01:31:38,560

came forward mentioned something that

1995

01:31:44,040 --> 01:31:40,660

they were just reminded that they didn't

1996

01:31:46,230 --> 01:31:44,050

have the most perfect record I know a

1997

01:31:49,350 --> 01:31:46,240

few instances put it that way

1998

01:31:55,110 --> 01:31:49,360

now dr. Haynes spoke to 14 people I only

1999

01:31:58,950 --> 01:31:55,120

spoke to three and they had no problem

2000

01:32:00,990 --> 01:31:58,960

so they didn't mention anything about

2001  
01:32:02,850 --> 01:32:01,000  
that but they did hear about other

2002  
01:32:05,490 --> 01:32:02,860  
people having problems so it was

2003  
01:32:07,440 --> 01:32:05,500  
secondhand they didn't but those

2004  
01:32:11,850 --> 01:32:07,450  
individuals let's say for instance yet

2005  
01:32:12,390 --> 01:32:11,860  
to pilot the pilot copilot you had ran

2006  
01:32:19,290 --> 01:32:12,400  
traps

2007  
01:32:22,320 --> 01:32:19,300  
you know loading up the the plane yeah

2008  
01:32:25,380 --> 01:32:22,330  
few of them weren't formed don't have a

2009  
01:32:26,940 --> 01:32:25,390  
perfect record or thanksgi you know it

2010  
01:32:30,450 --> 01:32:26,950  
does affect your job

2011  
01:32:34,280 --> 01:32:30,460  
oh yeah all right char they were

2012  
01:32:38,040 --> 01:32:34,290  
concerned yes yeah that's a job that

2013  
01:32:42,020 --> 01:32:38,050

that brings up my other point your other

2014

01:32:46,800 --> 01:32:42,030

question or just a comment from you is

2015

01:32:49,790 --> 01:32:46,810

well basically these people's jobs were

2016

01:32:54,150 --> 01:32:49,800

threatened if they were the same thing

2017

01:32:56,040 --> 01:32:54,160

so I've often wondered what the reason

2018

01:32:59,690 --> 01:32:56,050

for that is is it because the airline

2019

01:33:03,140 --> 01:32:59,700

doesn't want to be getting barrased by

2020

01:33:06,450 --> 01:33:03,150

you know talking about UFOs or just

2021

01:33:08,370 --> 01:33:06,460

how's the government the FAA or somebody

2022

01:33:10,920 --> 01:33:08,380

come in and said okay if anything like

2023

01:33:13,680 --> 01:33:10,930

this happens this is what you do you

2024

01:33:17,130 --> 01:33:13,690

can't threaten people with the loss of

2025

01:33:18,930 --> 01:33:17,140

their jobs well I think but I think I

2026

01:33:21,240 --> 01:33:18,940

don't think there's protocol in place

2027

01:33:23,220 --> 01:33:21,250

and then then from there you can figure

2028

01:33:27,150 --> 01:33:23,230

things out I think with it but it comes

2029

01:33:29,910 --> 01:33:27,160

down to we had a you al nurse that

2030

01:33:32,040 --> 01:33:29,920

showed up to quite a few of our events

2031

01:33:35,340 --> 01:33:32,050

she was 90 years old

2032

01:33:39,030 --> 01:33:35,350

and she said Sam did you ever wonder why

2033

01:33:40,700 --> 01:33:39,040

these pilots don't come forward I can

2034

01:33:45,270 --> 01:33:40,710

tell you because I was there firsthand

2035

01:33:49,880 --> 01:33:45,280

giving their when giving the physicals

2036

01:33:54,180 --> 01:33:51,570

evaluations that they have to go through

2037

01:33:59,040 --> 01:33:54,190

any time they make such a report that's

2038

01:34:01,080 --> 01:33:59,050

why it's intimidation so it's a it's a

2039

01:34:06,800 --> 01:34:01,090

career killer remember in the beginning

2040

01:34:09,870 --> 01:34:06,810

of close encounters with a pilot see the

2041

01:34:12,360 --> 01:34:09,880

UFO nine pilots and they asked they

2042

01:34:15,750 --> 01:34:12,370

asked if they want to file a report no

2043

01:34:18,660 --> 01:34:15,760

not interested no that's exactly the

2044

01:34:23,360 --> 01:34:18,670

reaction and one of our investigators

2045

01:34:27,420 --> 01:34:23,370

was an 18 air traffic controller out of

2046

01:34:30,900 --> 01:34:27,430

Puerto Rico and they were in the tower

2047

01:34:32,850 --> 01:34:30,910

when a UFO came out of the water he his

2048

01:34:35,400 --> 01:34:32,860

supervisor and I think was two other

2049

01:34:37,550 --> 01:34:35,410

people seeing the whole incident and he

2050

01:34:41,000 --> 01:34:37,560

looked at them and said we saw nothing

2051

01:34:45,560 --> 01:34:41,010

so that's how it goes

2052

01:34:48,689 --> 01:34:45,570

yeah I just wonder what what what the

2053

01:34:52,589 --> 01:34:48,699

good basis for all it is if it is it

2054

01:34:57,239 --> 01:34:52,599

just the fear of ridicule or or who

2055

01:34:57,810 --> 01:34:57,249

knows but it just seems kind of it's not

2056

01:35:01,229 --> 01:34:57,820

for sure

2057

01:35:04,140 --> 01:35:01,239

but the bottom line is this is it isn't

2058

01:35:07,109 --> 01:35:04,150

America matter of national security and

2059

01:35:09,120 --> 01:35:07,119

above that secret because it's just for

2060

01:35:11,339 --> 01:35:09,130

the heck of it they're sound reasoning

2061

01:35:13,830 --> 01:35:11,349

and to say to think for one month in one

2062

01:35:18,779 --> 01:35:13,840

minute that I I know everything

2063

01:35:20,700 --> 01:35:18,789

no way and is it justified maybe I'm not

2064

01:35:23,370 --> 01:35:20,710

one to say that you know all this is

2065

01:35:26,459 --> 01:35:23,380

wrong that that this has been held back

2066

01:35:29,009 --> 01:35:26,469

for a reason and it may be a matter of

2067

01:35:31,290 --> 01:35:29,019

just ramping up to be able to get some

2068

01:35:34,770 --> 01:35:31,300

degree of control or some degree of

2069

01:35:37,859 --> 01:35:34,780

normalcy to to when the time does come

2070

01:35:40,790 --> 01:35:37,869

to present this information say yes here

2071

01:35:43,529 --> 01:35:40,800

we have things here that we can't quite

2072

01:35:45,620 --> 01:35:43,539

have complete utter control of because

2073

01:35:48,270 --> 01:35:45,630

they can move about with impunity

2074

01:35:53,009 --> 01:35:48,280

wherever they die and we all want to go

2075

01:35:55,350 --> 01:35:53,019

they go it doesn't matter now if you say

2076

01:35:56,790 --> 01:35:55,360

well now they really can't go here or

2077

01:35:59,100 --> 01:35:56,800

there because we have somewhat

2078

01:36:00,839 --> 01:35:59,110

comparable technology to be assured that

2079

01:36:04,560 --> 01:36:00,849

that isn't going to be interfered with

2080

01:36:07,620 --> 01:36:04,570

or if they aren't benevolent and

2081

01:36:11,430 --> 01:36:07,630

possibly motherland' then we could have

2082

01:36:13,140 --> 01:36:11,440

some sort of control as far as not so

2083

01:36:16,259 --> 01:36:13,150

much control but some sort of defense

2084

01:36:18,569 --> 01:36:16,269

maybe that was just a matter of time I

2085

01:36:21,029 --> 01:36:18,579

would like to think that and that they

2086

01:36:25,350 --> 01:36:21,039

have technology like this in place and

2087

01:36:27,149 --> 01:36:25,360

we'll see but thank you and I are in the

2088

01:36:32,160 --> 01:36:27,159

same boat Chuck we're gonna find out one

2089

01:36:35,339 --> 01:36:32,170

way or another right yeah it's maybe

2090

01:36:41,009 --> 01:36:35,349

that's part of the problem is our best

2091

01:36:43,140 --> 01:36:41,019

military and these objects

2092

01:36:46,919 --> 01:36:43,150

well the Nimitz case last week was a

2093

01:36:49,080 --> 01:36:46,929

pretty good example that the ticket and

2094

01:36:53,189 --> 01:36:49,090

then I was a comment I made is it just

2095

01:36:54,480 --> 01:36:53,199

probably extraterrestrial technology is

2096

01:36:57,420 --> 01:36:54,490

so far

2097

01:37:00,030 --> 01:36:57,430

beyond our own that maybe our military

2098

01:37:01,800 --> 01:37:00,040

is just afraid to admit that you know

2099

01:37:03,570 --> 01:37:01,810

because their reason we have a military

2100

01:37:06,270 --> 01:37:03,580

it's to protect us apparently or

2101  
01:37:08,730 --> 01:37:06,280  
supposedly but you know if these objects

2102  
01:37:10,560 --> 01:37:08,740  
can as you just said fly around we

2103  
01:37:13,890 --> 01:37:10,570  
really want do whatever they want with

2104  
01:37:15,690 --> 01:37:13,900  
impunity and and our military knows that

2105  
01:37:18,990 --> 01:37:15,700  
and they're just afraid to admit it

2106  
01:37:22,200 --> 01:37:19,000  
because that's absolutely be saying you

2107  
01:37:24,210 --> 01:37:22,210  
know well we we can't protect you from

2108  
01:37:26,580 --> 01:37:24,220  
these things so hopefully we can stay on

2109  
01:37:29,130 --> 01:37:26,590  
the good side of these there's other

2110  
01:37:33,120 --> 01:37:29,140  
intelligence and because obviously they

2111  
01:37:33,510 --> 01:37:33,130  
could probably come in and take over the

2112  
01:37:36,980 --> 01:37:33,520  
planet

2113  
01:37:40,070 --> 01:37:36,990

with without any problem at all anyway

2114

01:37:44,160 --> 01:37:40,080

nice talking to you mr. Morano and

2115

01:37:45,900 --> 01:37:44,170

Martin will always and oh I'll sit and

2116

01:37:47,160 --> 01:37:45,910

listen and enjoy the rest of the program

2117

01:37:52,080 --> 01:37:47,170

thanks a lot

2118

01:37:54,420 --> 01:37:52,090

thank you call Thank You Chuck so we

2119

01:37:55,560 --> 01:37:54,430

think here is you know how much time do

2120

01:37:59,100 --> 01:37:55,570

we have I was just going to tell you we

2121

01:38:00,810 --> 01:37:59,110

have about five minutes left okay the

2122

01:38:03,600 --> 01:38:00,820

you know the thing is what are we

2123

01:38:06,030 --> 01:38:03,610

dealing with when it comes to all of us

2124

01:38:09,750 --> 01:38:06,040

you know the getting back to jail and

2125

01:38:13,020 --> 01:38:09,760

Hynek the extra-terrestrial hypotheses

2126  
01:38:15,450 --> 01:38:13,030  
was one hypotheses that was put forth

2127  
01:38:17,850 --> 01:38:15,460  
the other being something that is far

2128  
01:38:20,550 --> 01:38:17,860  
more outside the scope of even we

2129  
01:38:23,250 --> 01:38:20,560  
anything we could even comprehend and

2130  
01:38:27,020 --> 01:38:23,260  
that's the more esoteric development and

2131  
01:38:30,450 --> 01:38:27,030  
the dimensional and interdimensional

2132  
01:38:34,020 --> 01:38:30,460  
components now this is what flips me out

2133  
01:38:38,330 --> 01:38:34,030  
and either it's the technology the

2134  
01:38:43,400 --> 01:38:38,340  
cloaking ability but in 2004 the whole

2135  
01:38:45,540 --> 01:38:43,410  
concept or prospect I should say of an

2136  
01:38:49,230 --> 01:38:45,550  
interdimensional component to some of

2137  
01:38:53,640 --> 01:38:49,240  
this technology and quite even possibly

2138  
01:38:57,240 --> 01:38:53,650

the beings themselves that put a shiver up

2139

01:38:59,310 --> 01:38:57,250

my spine like you wouldn't believe and I

2140

01:39:02,490 --> 01:38:59,320

think you've heard enough people talk on

2141

01:39:04,530 --> 01:39:02,500

your show and elsewhere that this is

2142

01:39:07,620 --> 01:39:04,540

something that we really have to take

2143

01:39:08,100 --> 01:39:07,630

into consideration so when people say

2144

01:39:10,410 --> 01:39:08,110

you know

2145

01:39:12,050 --> 01:39:10,420

with LA and Hynek and they know what

2146

01:39:14,250 --> 01:39:12,060

they're talking about and they basically

2147

01:39:17,880 --> 01:39:14,260

kicked him in the butt because they

2148

01:39:19,410 --> 01:39:17,890

weren't nuts-and-bolts pathologists

2149

01:39:21,990 --> 01:39:19,420

that's because they were being

2150

01:39:23,940 --> 01:39:22,000

scientific that they were saying that

2151

01:39:26,280 --> 01:39:23,950

there's more to this than meets the eye

2152

01:39:30,780 --> 01:39:26,290

now with the understanding technology

2153

01:39:33,960 --> 01:39:30,790

and advancements in science today we see

2154

01:39:36,540 --> 01:39:33,970

what science does conventional science

2155

01:39:39,270 --> 01:39:36,550

can do maybe that position would have

2156

01:39:42,660 --> 01:39:39,280

changed but either way I stand behind

2157

01:39:45,570 --> 01:39:42,670

the both of them and I applaud them and

2158

01:39:46,620 --> 01:39:45,580

I'm so happy we have Blue Book out there

2159

01:39:49,230 --> 01:39:46,630

to the public

2160

01:39:50,700 --> 01:39:49,240

yeah I think I think you know II you

2161

01:39:53,370 --> 01:39:50,710

know there's a lot of critics of it but

2162

01:39:56,250 --> 01:39:53,380

in the UFO field but I think it could

2163

01:39:58,710 --> 01:39:56,260

only do good overall and I felt the same

2164

01:40:01,950 --> 01:39:58,720

way about hangar one I was a big fan fan

2165

01:40:06,620 --> 01:40:01,960

of that show either but boy did it

2166

01:40:09,660 --> 01:40:06,630

change things as far as UFO reports go

2167

01:40:12,600 --> 01:40:09,670

absolutely a few of my cases were in

2168

01:40:15,240 --> 01:40:12,610

there one being the lake Cooke car in

2169

01:40:17,010 --> 01:40:15,250

fact the lake lacar work somebody of

2170

01:40:20,190 --> 01:40:17,020

somebody about five people called me and

2171

01:40:23,640 --> 01:40:20,200

since and and the Lubbock Texas case

2172

01:40:27,000 --> 01:40:23,650

went on Blue Book they have a car that's

2173

01:40:30,780 --> 01:40:27,010

all sucked in just like the your case up

2174

01:40:32,280 --> 01:40:30,790

and on Leigh Cook Road we had a case

2175

01:40:35,970 --> 01:40:32,290

there I don't know if you ever hear

2176

01:40:37,710 --> 01:40:35,980

about the Lake Road case no just keep in

2177

01:40:40,350 --> 01:40:37,720

my office well we have about two and a

2178

01:40:40,860 --> 01:40:40,360

half minutes two and a half minutes real

2179

01:40:42,960 --> 01:40:40,870

fast

2180

01:40:44,940 --> 01:40:42,970

well Peter Davenport called me up he

2181

01:40:46,530 --> 01:40:44,950

sent me some photos Sam this is what

2182

01:40:47,910 --> 01:40:46,540

happened to this girl's tire looked like

2183

01:40:49,680 --> 01:40:47,920

one on earth happen here

2184

01:40:52,710 --> 01:40:49,690

looked like a beer can you sucked all

2185

01:40:55,890 --> 01:40:52,720

the air out of it compressed so he says

2186

01:40:58,650 --> 01:40:55,900

the woman the girl wants once it's

2187

01:41:02,520 --> 01:40:58,660

looked into finally we got in touch with

2188

01:41:04,440 --> 01:41:02,530

her she worked at a a mall nearby went

2189

01:41:07,380 --> 01:41:04,450

out there examined the car sure enough

2190

01:41:10,620 --> 01:41:07,390

anything that was made of anything that

2191

01:41:12,810 --> 01:41:10,630

had iron in it was was looking that way

2192

01:41:15,300 --> 01:41:12,820

on one side of the car none of the none

2193

01:41:18,600 --> 01:41:15,310

of the aluminum neither the trim and the

2194

01:41:21,950 --> 01:41:18,610

most unusual aspect was the past the

2195

01:41:24,979 --> 01:41:21,960

driver side mirror the back of it was

2196

01:41:29,120 --> 01:41:24,989

completely busted up the mirror was

2197

01:41:31,550 --> 01:41:29,130

intact and it was dangling by to the two

2198

01:41:33,950 --> 01:41:31,560

wires I picked it up and I noticed the a

2199

01:41:35,720 --> 01:41:33,960

pillar of the car which is the strongest

2200

01:41:38,120 --> 01:41:35,730

part of the car it's like a roll cage

2201

01:41:40,190 --> 01:41:38,130

and an indication eight inches long at

2202

01:41:42,260 --> 01:41:40,200

about 1/4 inch deep and that would have

2203

01:41:43,520 --> 01:41:42,270

been directly where this thing would

2204

01:41:48,680 --> 01:41:43,530

have flipped over and hit it

2205

01:41:52,790 --> 01:41:48,690

so you hit plastic indenting metal to be

2206

01:41:54,740 --> 01:41:52,800

precise iron steel so what does that you

2207

01:41:57,110 --> 01:41:54,750

take a weaker thing to make damage

2208

01:41:59,959 --> 01:41:57,120

something it has to be velocity to

2209

01:42:03,620 --> 01:41:59,969

create the mass so something moved that

2210

01:42:06,860 --> 01:42:03,630

somehow and crushed it into that a

2211

01:42:10,640 --> 01:42:06,870

pillar never cracking or scratching the

2212

01:42:14,000 --> 01:42:10,650

glass how absurd is that his jaws are

2213

01:42:16,729 --> 01:42:14,010

well they thought it we know they said

2214

01:42:18,440 --> 01:42:16,739

it would have been a UFO no UFO was seen

2215

01:42:20,870 --> 01:42:18,450

but it obviously an energy disbursement

2216

01:42:23,000 --> 01:42:20,880

or something that caused that and also

2217

01:42:25,310 --> 01:42:23,010

pushed the car to the Sun or lane there

2218

01:42:27,620 --> 01:42:25,320

is no doubt that something unusual did

2219

01:42:29,479 --> 01:42:27,630

take place there was a crucifix made of

2220

01:42:32,479 --> 01:42:29,489

steel that was inside the cart was also

2221

01:42:34,100 --> 01:42:32,489

moved moved to the I believe it was

2222

01:42:37,880 --> 01:42:34,110

moved to the seat so there were some

2223

01:42:40,280 --> 01:42:37,890

unusual things she she thought possibly

2224

01:42:42,110 --> 01:42:40,290

was some paranormal event I don't think

2225

01:42:45,650 --> 01:42:42,120

so I think was some strange energies

2226

01:42:48,620 --> 01:42:45,660

charged whether it was a misplace a bit

2227

01:42:50,090 --> 01:42:48,630

of technology that ricocheted down or

2228

01:42:52,820 --> 01:42:50,100

just a fluke of nature

2229

01:42:55,760 --> 01:42:52,830

I don't know but no UFOs see well

2230

01:42:57,729 --> 01:42:55,770

interesting you talked about J Allen

2231

01:43:01,490 --> 01:42:57,739

Hynek I just got a minute here in J

2232

01:43:04,820 --> 01:43:01,500

Allen Hynek has been coming up a lot

2233

01:43:06,729 --> 01:43:04,830

lately because of the show a Project

2234

01:43:09,979 --> 01:43:06,739

Blue Book of course I get this message

2235

01:43:12,979 --> 01:43:09,989

yesterday from someone that says in the

2236

01:43:15,170 --> 01:43:12,989

1970s he set up a toll-free UFO Center

2237

01:43:16,910 --> 01:43:15,180

with J Allen Hynek and he has lots of

2238

01:43:18,500 --> 01:43:16,920

info info to share I'm going to be

2239

01:43:20,750 --> 01:43:18,510

giving this guy a call out in Las Vegas

2240

01:43:24,380 --> 01:43:20,760

that should be interesting oh yeah if

2241

01:43:28,220 --> 01:43:24,390

it's true yeah it's true make sure to

2242

01:43:31,220 --> 01:43:28,230

keep me in the loop yeah with Sam it's

2243

01:43:33,590 --> 01:43:31,230

been a pleasure as always always fun

2244

01:43:35,330 --> 01:43:33,600

talking with you and in you have a

2245

01:43:36,950 --> 01:43:35,340

pleasure yeah you

2246

01:43:40,189 --> 01:43:36,960

you stay warm out there in the great

2247

01:43:42,470 --> 01:43:40,199

state of Illinois you to all right you

2248

01:43:45,530 --> 01:43:42,480

take care take care all right

2249

01:43:48,740 --> 01:43:45,540

okay everyone so that's it for our

2250

01:43:50,600 --> 01:43:48,750

that's it for our show tonight and thank

2251

01:43:52,220 --> 01:43:50,610

you for hanging in there with all the

2252

01:43:55,100 --> 01:43:52,230

glitches and everything that we had we

2253

01:43:59,089 --> 01:43:55,110

made it through and next week we have

2254

01:44:00,830 --> 01:43:59,099

Chad Lewis he's a ufologist I had not

2255

01:44:03,200 --> 01:44:00,840

heard of him but I read an article about

2256

01:44:05,060 --> 01:44:03,210

him and he will be on the show next week

2257

01:44:07,220 --> 01:44:05,070

so check back then again I'm going to be

2258

01:44:09,080 --> 01:44:07,230

on the road so hopefully that will go

2259

01:44:12,379 --> 01:44:09,090

well thanks to everyone that helped out

2260

01:44:14,870 --> 01:44:12,389

with the show also to Alejandro special

2261

01:44:17,479 --> 01:44:14,880

thanks for getting me through all the

2262

01:44:20,359 --> 01:44:17,489

bumps that we had and so that's it for

2263

01:44:27,270 --> 01:44:20,369

me everyone so remember to keep your
