

SCOTT & SUZANNE RAMSEY

DR. FRANK THAYER

THE AZTEC UFO INCIDENT

1
00:00:05,869 --> 00:00:03,860
Suzanne Ramsey and it kind of worked

2
00:00:08,660 --> 00:00:05,879
this way I'll just tell the listening on

3
00:00:10,669 --> 00:00:08,670
it's really quick I had heard of this

4
00:00:12,080 --> 00:00:10,679
story and looked into a little bit when

5
00:00:15,189 --> 00:00:12,090
I first started getting into the show

6
00:00:20,560 --> 00:00:15,199
and then I heard the story about Khan

7
00:00:24,590 --> 00:00:20,570
and the Scully I believe it is and and

8
00:00:27,500 --> 00:00:24,600
how it just seemed like there was a

9
00:00:29,140 --> 00:00:27,510
conman out there this whole thing was

10
00:00:33,979 --> 00:00:29,150
made up and there was a figure of

11
00:00:36,860 --> 00:00:33,989
\$25,000 and to pay if the story panned

12
00:00:40,580 --> 00:00:36,870
out or whatever so I just assumed that

13
00:00:42,799 --> 00:00:40,590

this was totally just a false story and

14

00:00:47,029 --> 00:00:42,809

I didn't really pay attention to it and

15

00:00:51,439 --> 00:00:47,039

and you know I didn't realize that there

16

00:00:54,790 --> 00:00:51,449

was more to it than just that I talked

17

00:00:57,049 --> 00:00:54,800

quite a bit with Dave Marlar and was

18

00:00:58,459 --> 00:00:57,059

driving on the road one day and he

19

00:01:00,549 --> 00:00:58,469

started talking about this case and I

20

00:01:03,500 --> 00:01:00,559

said isn't it you know isn't it a hoax

21

00:01:05,870 --> 00:01:03,510

and he said you know this I thought it

22

00:01:08,390 --> 00:01:05,880

was - there's really something to this

23

00:01:11,690 --> 00:01:08,400

and he said you ought to have the

24

00:01:13,780 --> 00:01:11,700

Ramseys on and to talk about it so not

25

00:01:18,050 --> 00:01:13,790

only do we have the Ramseys we also have

26

00:01:19,969 --> 00:01:18,060

doctors fair who also worked on this

27

00:01:22,100 --> 00:01:19,979

project and we're gonna be talking about

28

00:01:25,850 --> 00:01:22,110

that tonight the twists and turns and

29

00:01:28,039 --> 00:01:25,860

questions we will take calls in the last

30

00:01:30,679 --> 00:01:28,049

part of the show but for right now I'd

31

00:01:31,490 --> 00:01:30,689

like to welcome on our guests probably

32

00:01:34,130 --> 00:01:31,500

gonna have to do a little bit of

33

00:01:40,010 --> 00:01:34,140

adjusting here so hang on just a minute

34

00:01:41,899 --> 00:01:40,020

and here we go hello everyone I'm Martin

35

00:01:45,889 --> 00:01:41,909

everyone happy do you need to put on

36

00:01:49,069 --> 00:01:45,899

your oh he's got it okay got ya so

37

00:01:51,730 --> 00:01:49,079

welcome to the show and you heard what I

38

00:01:55,069 --> 00:01:51,740

said you know I always thought there was

39

00:01:56,569 --> 00:01:55,079

you know this was just a hoax and so

40

00:02:00,770 --> 00:01:56,579

we're gonna clear that up tonight

41

00:02:02,209 --> 00:02:00,780

hopefully and so I do get a lot of new

42

00:02:04,190 --> 00:02:02,219

listeners to the show and a lot of

43

00:02:07,010 --> 00:02:04,200

people are totally unfamiliar with the

44

00:02:09,529 --> 00:02:07,020

Aztek incident and I'm gonna ask one of

45

00:02:12,470 --> 00:02:09,539

you or you know both do two or three in

46

00:02:14,230 --> 00:02:12,480

all chime in on let's give a nutshell of

47

00:02:17,320 --> 00:02:14,240

exactly what half

48

00:02:22,780 --> 00:02:17,330

back in 1948 if you would Frank let's

49

00:02:25,420 --> 00:02:22,790

start me well I think that we've

50

00:02:27,010 --> 00:02:25,430

actually had two books on this and I was

51
00:02:28,480 --> 00:02:27,020
fortunate enough to meet the Ramseys

52
00:02:31,600 --> 00:02:28,490
back in 2009

53
00:02:35,170 --> 00:02:31,610
but as you know Roswell began in about

54
00:02:39,070 --> 00:02:35,180
78 is when it really began the 47 crash

55
00:02:42,820 --> 00:02:39,080
and Aztec didn't start to see the light

56
00:02:46,300 --> 00:02:42,830
of day until about 1986 the Scott Ramsey

57
00:02:47,920 --> 00:02:46,310
is a wonderful researcher he went to

58
00:02:51,340 --> 00:02:47,930
where it happened this is one of those

59
00:02:54,820 --> 00:02:51,350
places that we know exactly x marks the

60
00:02:57,910 --> 00:02:54,830
spot where the flying saucer settled to

61
00:03:00,190 --> 00:02:57,920
earth and was found by the military we

62
00:03:03,940 --> 00:03:00,200
now know that the cover-up was so good

63
00:03:07,960 --> 00:03:03,950

they was better than Roswell and the

64

00:03:13,150 --> 00:03:07,970

Jaypee con con job that you mentioned

65

00:03:17,160 --> 00:03:13,160

was very well done and it was brutal but

66

00:03:20,050 --> 00:03:17,170

let's start with the March 25th 1948

67

00:03:21,820 --> 00:03:20,060

there was a lot of flying saucer

68

00:03:25,120 --> 00:03:21,830

activity in New Mexico this was ground

69

00:03:29,470 --> 00:03:25,130

zero for flying saucer activities I'm a

70

00:03:32,320 --> 00:03:29,480

New Mexico native by the way and this

71

00:03:35,710 --> 00:03:32,330

flying saucer came over northern New

72

00:03:39,150 --> 00:03:35,720

Mexico followed by some deputies went

73

00:03:42,670 --> 00:03:39,160

past and a ranch house hit a bluff

74

00:03:45,910 --> 00:03:42,680

across from the ranchers land went on

75

00:03:50,140 --> 00:03:45,920

over went straight north and landed on a

76

00:03:53,370 --> 00:03:50,150

Mesa Hart Canyon Mesa in near asked

77

00:03:57,220 --> 00:03:53,380

about 11 miles from Aztec New Mexico and

78

00:03:58,630 --> 00:03:57,230

here was intact no damage nothing there

79

00:04:00,850 --> 00:03:58,640

obviously something was wrong because

80

00:04:04,270 --> 00:04:00,860

the landing gear didn't come out of just

81

00:04:07,420 --> 00:04:04,280

leaning over on the on the Mesa and some

82

00:04:09,370 --> 00:04:07,430

oilfield guys were there early in the

83

00:04:11,680 --> 00:04:09,380

morning they heard there was a fire out

84

00:04:13,780 --> 00:04:11,690

on because they had some oil drip tanks

85

00:04:16,180 --> 00:04:13,790

below the Mesa they wanted to check to

86

00:04:17,890 --> 00:04:16,190

make sure there was no danger and they

87

00:04:21,190 --> 00:04:17,900

went up on the Mesa and they saw this

88

00:04:24,760 --> 00:04:21,200

hundred-foot aluminum disc with the dome

89

00:04:26,710 --> 00:04:24,770

on top and they didn't know what it was

90

00:04:27,550 --> 00:04:26,720

they had no idea they didn't know

91

00:04:29,920 --> 00:04:27,560

anything about flying

92

00:04:32,530 --> 00:04:29,930

saucers and they were playing around on

93

00:04:35,890 --> 00:04:32,540

that and a few hours later here comes

94

00:04:37,960 --> 00:04:35,900

the military in no one was sure whether

95

00:04:40,270 --> 00:04:37,970

it was army or Air Force but they were

96

00:04:43,330 --> 00:04:40,280

there and they took charge

97

00:04:45,700 --> 00:04:43,340

they debriefed everybody but not before

98

00:04:48,460 --> 00:04:45,710

some of these guys actually got up and

99

00:04:51,820 --> 00:04:48,470

walked around on this disc walked around

100

00:04:53,710 --> 00:04:51,830

on it and you know surplus there's some

101
00:04:55,300 --> 00:04:53,720
ranchers there's there who said

102
00:04:57,659 --> 00:04:55,310
something like hey you kids get off of

103
00:05:03,129 --> 00:04:57,669
there you don't know where it's been but

104
00:05:08,020 --> 00:05:03,139
just this kind of thing and they found a

105
00:05:12,430 --> 00:05:08,030
way to open it and every story that does

106
00:05:15,700 --> 00:05:12,440
this shows that there was a hole in one

107
00:05:18,370 --> 00:05:15,710
of the ports in the dome about the size

108
00:05:21,790 --> 00:05:18,380
of a quarter and somehow someway

109
00:05:24,879 --> 00:05:21,800
somebody stuck a pole into that hole and

110
00:05:27,070 --> 00:05:24,889
hit a button inside and the whole thing

111
00:05:29,650 --> 00:05:27,080
opened up you saw The Day the Earth

112
00:05:31,300 --> 00:05:29,660
Stood Still you remember that yeah and

113
00:05:34,360 --> 00:05:31,310

the Sultan's are opened up that's

114

00:05:38,740 --> 00:05:34,370

apparently exactly what it did and they

115

00:05:41,680 --> 00:05:38,750

found 16 childlike bodies dead inside

116

00:05:43,990 --> 00:05:41,690

the craft there's a lot more to that

117

00:05:48,880 --> 00:05:44,000

story but we wouldn't know anything

118

00:05:51,760 --> 00:05:48,890

about it if Scott had not followed it

119

00:05:53,590 --> 00:05:51,770

like a bulldog and he and Suzanne got

120

00:05:55,990 --> 00:05:53,600

together while he was doing the research

121

00:06:01,480 --> 00:05:56,000

that was a love story they can tell you

122

00:06:06,670 --> 00:06:01,490

about some time and the the facts just

123

00:06:10,330 --> 00:06:06,680

fit Scott found two witnesses two

124

00:06:10,570 --> 00:06:10,340

oilfield guys now in their late late in

125

00:06:13,060 --> 00:06:10,580

life

126
00:06:14,980 --> 00:06:13,070
two oilfield guys didn't know each other

127
00:06:17,770 --> 00:06:14,990
but they were both on the Mesa that

128
00:06:21,550 --> 00:06:17,780
morning and the interview both of them

129
00:06:23,650 --> 00:06:21,560
they told identical stories and it's

130
00:06:27,810 --> 00:06:23,660
chilling we have them actually a tape

131
00:06:30,610 --> 00:06:27,820
recording of one of their accounts and I

132
00:06:32,350 --> 00:06:30,620
think that that is what convinced me

133
00:06:34,090 --> 00:06:32,360
there was no collusion

134
00:06:39,159 --> 00:06:34,100
that's a favorite word about his dates

135
00:06:41,390 --> 00:06:39,169
and these two people who were there they

136
00:06:43,790 --> 00:06:41,400
saw the saucer they saw the body

137
00:06:45,860 --> 00:06:43,800
and they were debriefed and told they

138
00:06:47,810 --> 00:06:45,870

could never talk about it but they were

139

00:06:50,000 --> 00:06:47,820

in their late stage of life one of them

140

00:06:52,790 --> 00:06:50,010

and had several strokes and he won't

141

00:06:55,310 --> 00:06:52,800

knew he was dying and he told Scott the

142

00:06:58,670 --> 00:06:55,320

story and it unfolded from there

143

00:07:00,469 --> 00:06:58,680

and everything that Scott has come up

144

00:07:03,830 --> 00:07:00,479

with and what we have in our book is

145

00:07:06,439 --> 00:07:03,840

documented I dare anybody to argue that

146

00:07:08,030 --> 00:07:06,449

this event did not happen now let me

147

00:07:10,490 --> 00:07:08,040

turn it over to Scott and Suzanne and

148

00:07:13,990 --> 00:07:10,500

let them embellish and tell tell us some

149

00:07:16,400 --> 00:07:14,000

more stuff yeah Mike if I can just offer

150

00:07:17,930 --> 00:07:16,410

you had mentioned one of the first

151
00:07:20,420 --> 00:07:17,940
things when you were visiting with Dave

152
00:07:24,830 --> 00:07:20,430
Marlowe that that it was a hoax

153
00:07:28,250 --> 00:07:24,840
and I'd like to just put a little light

154
00:07:30,590 --> 00:07:28,260
and get put this in perspective if you

155
00:07:32,570 --> 00:07:30,600
only watch part of a movie you either

156
00:07:34,879 --> 00:07:32,580
miss the beginning or you miss the end

157
00:07:36,439 --> 00:07:34,889
you never really know that movie you

158
00:07:38,210 --> 00:07:36,449
walk away thinking you know I know what

159
00:07:40,189 --> 00:07:38,220
that movie is about later on you watch

160
00:07:42,620 --> 00:07:40,199
movie and you think holy cats it's

161
00:07:47,150 --> 00:07:42,630
nothing like I originally thought that's

162
00:07:49,279 --> 00:07:47,160
the case of the Aztec story the folks

163
00:07:51,920 --> 00:07:49,289

that put on the internet that it was a

164

00:07:54,110 --> 00:07:51,930

hoax did very little research they

165

00:07:56,510 --> 00:07:54,120

researched it to a point and they

166

00:08:00,680 --> 00:07:56,520

stopped they didn't deeply research it

167

00:08:03,770 --> 00:08:00,690

they stopped and so they did not have

168

00:08:06,740 --> 00:08:03,780

all of the information and there were is

169

00:08:10,129 --> 00:08:06,750

a three or four people that put the term

170

00:08:13,939 --> 00:08:10,139

hoaxes associated with it

171

00:08:18,500 --> 00:08:13,949

the problem is none of them had ever

172

00:08:20,689 --> 00:08:18,510

even been to the crash site ever none of

173

00:08:22,640 --> 00:08:20,699

them had really done any research so

174

00:08:25,010 --> 00:08:22,650

they really didn't know the story and I

175

00:08:27,200 --> 00:08:25,020

think what is so powerful about this

176

00:08:29,300 --> 00:08:27,210

story and with the three of us all doing

177

00:08:32,360 --> 00:08:29,310

research on it what we've been able to

178

00:08:37,779 --> 00:08:32,370

do is document as Frank was describing

179

00:08:40,070 --> 00:08:37,789

the pre incident where there were

180

00:08:41,810 --> 00:08:40,080

experiences in fact even deeper than

181

00:08:44,780 --> 00:08:41,820

what Frank did he just gave you a little

182

00:08:47,510 --> 00:08:44,790

bit of a an idea about it but but the

183

00:08:49,640 --> 00:08:47,520

research that was done the folks that

184

00:08:53,510 --> 00:08:49,650

were there and the scientists studying

185

00:08:55,050 --> 00:08:53,520

the crafts before the actual incident

186

00:09:06,540 --> 00:08:55,060

the

187

00:09:09,210 --> 00:09:06,550

that term lightly cover it but gets

188

00:09:12,569 --> 00:09:09,220

overused all the time very specifically

189

00:09:16,499 --> 00:09:12,579

we can document all of that and there is

190

00:09:19,230 --> 00:09:16,509

no other case that that we have 55,000

191

00:09:22,559 --> 00:09:19,240

over 55,000 documents to document this

192

00:09:25,889 --> 00:09:22,569

so it's a little bit different than just

193

00:09:29,069 --> 00:09:25,899

telling well there's a story or my

194

00:09:32,119 --> 00:09:29,079

friends or you know hearsay there's no

195

00:09:36,540 --> 00:09:32,129

actual documentation which I feel really

196

00:09:39,629 --> 00:09:36,550

supports a true case now you talk about

197

00:09:41,999 --> 00:09:39,639

documentation of a cover-up or are you

198

00:09:46,230 --> 00:09:42,009

talking about documentation about the

199

00:09:50,069 --> 00:09:46,240

case happening well all the above oh we

200

00:09:54,240 --> 00:09:50,079

have documents from the FBI CIA army

201

00:09:56,040 --> 00:09:54,250

counterintelligence division a lot of

202

00:09:59,179 --> 00:09:56,050

the documents involved in that

203

00:10:01,889 --> 00:09:59,189

collection of 55,000 are tax records

204

00:10:06,929 --> 00:10:01,899

documents of the people that claim they

205

00:10:10,379 --> 00:10:06,939

lived in Aztec at the time newspaper

206

00:10:13,379 --> 00:10:10,389

articles interviews we did with people

207

00:10:16,799 --> 00:10:13,389

including Rob Robert McClay who worked

208

00:10:19,110 --> 00:10:16,809

with JP Kahn so it's it's a it's

209

00:10:21,509 --> 00:10:19,120

qualifying so some of its actually

210

00:10:24,389 --> 00:10:21,519

documents as Scott said from from the

211

00:10:26,509 --> 00:10:24,399

military and the government but but some

212

00:10:29,400 --> 00:10:26,519

of it's actually qualifying your your

213

00:10:30,840 --> 00:10:29,410

witnesses anybody can say anything and

214

00:10:33,329 --> 00:10:30,850

certainly I'm sure that you're familiar

215

00:10:34,769 --> 00:10:33,339

with this Martin on the internet you can

216

00:10:35,910 --> 00:10:34,779

throw anything you want on there you

217

00:10:38,879 --> 00:10:35,920

don't even have to use your real name

218

00:10:41,189 --> 00:10:38,889

you know so that's where I think that

219

00:10:44,699 --> 00:10:41,199

this is a case to be reckoned with

220

00:10:46,980 --> 00:10:44,709

and we're very honored that we are able

221

00:10:50,309 --> 00:10:46,990

to share this information well great

222

00:10:53,579 --> 00:10:50,319

well we're at our first break and we are

223

00:10:55,799 --> 00:10:53,589

going to go into that right now so hang

224

00:10:57,900 --> 00:10:55,809

in everyone we'll be right back right

225

00:11:00,869 --> 00:10:57,910

after these messages

226

00:11:06,620 --> 00:11:00,879

hey all right welcome back here we are

227

00:11:08,700 --> 00:11:06,630

and so I want to continue talking about

228

00:11:11,160 --> 00:11:08,710

you know the crash in

229

00:11:14,340 --> 00:11:11,170

you know the witnesses I think you know

230

00:11:16,710 --> 00:11:14,350

the firsthand testimony is about the

231

00:11:20,880 --> 00:11:16,720

best you can get and I know just like

232

00:11:23,100 --> 00:11:20,890

Roswell you know there it's a long time

233

00:11:28,410 --> 00:11:23,110

ago as a matter of fact it weren't on an

234

00:11:29,970 --> 00:11:28,420

anniversary yesterday right 71st 71st

235

00:11:31,950 --> 00:11:29,980

anniversary so you think about that

236

00:11:35,430 --> 00:11:31,960

someone has to be most likely in their

237

00:11:39,230 --> 00:11:35,440

90s that witness that is there anyone

238

00:11:43,110 --> 00:11:39,240

left now they've all passed

239

00:11:46,860 --> 00:11:43,120

Doug Nolan was 19 at the time he just

240

00:11:48,720 --> 00:11:46,870

started with El Paso oil and he died as

241

00:11:52,410 --> 00:11:48,730

Frank was saying after multiple strokes

242

00:11:54,150 --> 00:11:52,420

a few years back looked like he

243

00:11:55,860 --> 00:11:54,160

unfortunately unless there's a couple

244

00:11:57,960 --> 00:11:55,870

hidden out there that we haven't found

245

00:12:01,560 --> 00:11:57,970

or met yet it looks like everybody's

246

00:12:03,960 --> 00:12:01,570

passed on and speaking of that does it

247

00:12:05,580 --> 00:12:03,970

happen where some someone will come

248

00:12:08,250 --> 00:12:05,590

forward after they read your book or

249

00:12:10,530 --> 00:12:08,260

they see something on television or

250

00:12:14,250 --> 00:12:10,540

YouTube or something like that and has

251
00:12:16,290 --> 00:12:14,260
that happened yes we're working with the

252
00:12:20,820 --> 00:12:16,300
gentleman right now obviously he wasn't

253
00:12:27,510 --> 00:12:20,830
there at the time but we're still

254
00:12:30,630 --> 00:12:27,520
digging he he approached us in 2016 so

255
00:12:32,400 --> 00:12:30,640
far everything checks out his story tax

256
00:12:36,060 --> 00:12:32,410
records that he lived in Dayton Ohio at

257
00:12:39,090 --> 00:12:36,070
the time his daughter's school records

258
00:12:41,880 --> 00:12:39,100
when she entered kindergarten and he

259
00:12:45,030 --> 00:12:41,890
claims he worked as a outside contractor

260
00:12:49,800 --> 00:12:45,040
on a flying saucer that came from Aztec

261
00:12:52,530 --> 00:12:49,810
New Mexico hmm so when when Scott's

262
00:12:55,830 --> 00:12:52,540
describing that about about qualifying

263
00:12:58,740 --> 00:12:55,840

him there's usually takes us about two

264

00:13:01,400 --> 00:12:58,750

two and a half years to qualify when we

265

00:13:05,150 --> 00:13:01,410

get information it's not a quick process

266

00:13:10,470 --> 00:13:05,160

we work on it on a regular basis I mean

267

00:13:12,270 --> 00:13:10,480

usually some every day but it takes time

268

00:13:14,670 --> 00:13:12,280

and when he was saying about the

269

00:13:17,580 --> 00:13:14,680

daughter's kindergarten records or or

270

00:13:19,260 --> 00:13:17,590

tax records or things we have to go

271

00:13:21,090 --> 00:13:19,270

through numerous stages to prove that

272

00:13:22,780 --> 00:13:21,100

that person is not only who they say

273

00:13:27,190 --> 00:13:22,790

they are where they were

274

00:13:29,560 --> 00:13:27,200

and information about them and to really

275

00:13:31,570 --> 00:13:29,570

qualify them and establish that they are

276

00:13:33,280 --> 00:13:31,580

a good witness as opposed to someone

277

00:13:36,040 --> 00:13:33,290

just making it up you know that happens

278

00:13:38,470 --> 00:13:36,050

plenty yeah yeah I guess I'll direct

279

00:13:41,200 --> 00:13:38,480

this question that Frank just we want to

280

00:13:43,810 --> 00:13:41,210

get everyone involved here so the the

281

00:13:45,880 --> 00:13:43,820

crash is I mean the the craft is coming

282

00:13:50,980 --> 00:13:45,890

people are seeing if they're seeing it

283

00:13:52,240 --> 00:13:50,990

wobble and which is unusual is there you

284

00:13:55,240 --> 00:13:52,250

know and of course there's a lot of

285

00:13:59,170 --> 00:13:55,250

speculation about all of this or any of

286

00:14:02,020 --> 00:13:59,180

this at that time were were they

287

00:14:04,150 --> 00:14:02,030

speculating that the beings inside were

288

00:14:09,310 --> 00:14:04,160

just all dead and they were blackened

289

00:14:12,640 --> 00:14:09,320

right charge-charge dark crispy critters

290

00:14:17,050 --> 00:14:12,650

and but there was no sign of fire inside

291

00:14:19,240 --> 00:14:17,060

of the crowd and and would that have to

292

00:14:20,560 --> 00:14:19,250

do with possible the little tiny hole or

293

00:14:23,650 --> 00:14:20,570

you know anything

294

00:14:26,560 --> 00:14:23,660

it could be decompression but also as

295

00:14:29,470 --> 00:14:26,570

Scott found out in his research that at

296

00:14:31,200 --> 00:14:29,480

that time the United States had some of

297

00:14:33,700 --> 00:14:31,210

the most powerful radar in the world

298

00:14:37,960 --> 00:14:33,710

this is radar course radar just

299

00:14:40,200 --> 00:14:37,970

microwave beams and they were so strong

300

00:14:43,810 --> 00:14:40,210

that they could cook birds in the air

301
00:14:46,180 --> 00:14:43,820
and so there was that thought that maybe

302
00:14:48,790 --> 00:14:46,190
these crafts were defenseless against

303
00:14:50,950 --> 00:14:48,800
the kind of radar we had right after

304
00:14:53,950 --> 00:14:50,960
World War two and there was a there was

305
00:14:56,950 --> 00:14:53,960
a site at El vato which is not that far

306
00:14:58,960 --> 00:14:56,960
away from Aztec that was in full

307
00:15:01,390 --> 00:14:58,970
operation at that time and that may have

308
00:15:04,450 --> 00:15:01,400
done it but we'll never know we have no

309
00:15:06,520 --> 00:15:04,460
idea what caused their death but we do

310
00:15:08,950 --> 00:15:06,530
agree now that with the kind of remote

311
00:15:12,040 --> 00:15:08,960
control we have today that the saucer

312
00:15:15,430 --> 00:15:12,050
could be set down without any human

313
00:15:21,400 --> 00:15:15,440

assistance right yeah

314

00:15:23,860 --> 00:15:21,410

and but it didn't really it didn't

315

00:15:26,500 --> 00:15:23,870

really it sort of crashed but it didn't

316

00:15:29,980 --> 00:15:26,510

there was real no no damage that anyone

317

00:15:31,720 --> 00:15:29,990

could see and I don't know who wants to

318

00:15:34,330 --> 00:15:31,730

do this but can someone describe the

319

00:15:36,130 --> 00:15:34,340

craft as well as you can of what people

320

00:15:38,530 --> 00:15:36,140

were claiming it looked like

321

00:15:42,040 --> 00:15:38,540

disgustin he's even had a malleable made

322

00:15:43,540 --> 00:15:42,050

oh yeah I should have got that I should

323

00:15:46,960 --> 00:15:43,550

have got that on the break yeah you know

324

00:15:50,079 --> 00:15:46,970

we have a 170 second scale model made of

325

00:15:51,780 --> 00:15:50,089

it I like Frank was saying I just short

326

00:15:55,780 --> 00:15:51,790

of a hundred feet in diameter

327

00:15:58,650 --> 00:15:55,790

it had a raised dome on the top and a

328

00:16:01,690 --> 00:15:58,660

smaller dome on the bottom it was

329

00:16:05,259 --> 00:16:01,700

lenticular is the best description for

330

00:16:07,120 --> 00:16:05,269

it it was very thin cross section the

331

00:16:09,280 --> 00:16:07,130

only raised section that made any sense

332

00:16:12,579 --> 00:16:09,290

was what we for the lack of a better

333

00:16:15,550 --> 00:16:12,589

word the cabin area the raised dome on

334

00:16:17,410 --> 00:16:15,560

the top the craft we don't know what

335

00:16:20,170 --> 00:16:17,420

kind of material was it was aluminum

336

00:16:23,519 --> 00:16:20,180

looking or pewter looking kind of a dull

337

00:16:27,100 --> 00:16:23,529

finish to it

338

00:16:30,130 --> 00:16:27,110

the loaders yeah three stories to it

339

00:16:33,579 --> 00:16:30,140

when the oil field workers the young

340

00:16:38,110 --> 00:16:33,589

kids basically went in they could see

341

00:16:41,800 --> 00:16:38,120

three three levels the craft had poured

342

00:16:44,290 --> 00:16:41,810

holes on the top deck the top dome Frank

343

00:16:47,170 --> 00:16:44,300

reference one was had a hole in it the

344

00:16:49,660 --> 00:16:47,180

size of about a quarter other than that

345

00:16:52,110 --> 00:16:49,670

it was a very plain sight I wanted to

346

00:16:54,480 --> 00:16:52,120

add when the oil field workers got there

347

00:16:56,590 --> 00:16:54,490

they did not think anything

348

00:16:57,819 --> 00:16:56,600

extraterrestrial they they were thinking

349

00:16:59,740 --> 00:16:57,829

with all the things that were flying

350

00:17:02,769 --> 00:16:59,750

over New Mexico and being tested New

351

00:17:05,230 --> 00:17:02,779

Mexico during after world war ii they

352

00:17:08,250 --> 00:17:05,240

they thought this was really one of ours

353

00:17:10,960 --> 00:17:08,260

and climbing on it wasn't really

354

00:17:12,460 --> 00:17:10,970

recreations so to speak they it was more

355

00:17:14,650 --> 00:17:12,470

of a rescue mission they were trying to

356

00:17:18,280 --> 00:17:14,660

get into their craft to see if anybody

357

00:17:20,590 --> 00:17:18,290

was hurt and the fact at that time there

358

00:17:24,760 --> 00:17:20,600

was actually a helicopter that flew over

359

00:17:27,760 --> 00:17:24,770

and one of the witnesses said they

360

00:17:31,299 --> 00:17:27,770

weren't sure which they were more

361

00:17:33,130 --> 00:17:31,309

mesmerized by the craft or the

362

00:17:34,900 --> 00:17:33,140

helicopter because they had just

363

00:17:37,030 --> 00:17:34,910

helicopters had just been introduced to

364

00:17:39,730 --> 00:17:37,040

the public so that'll give you an idea

365

00:17:43,000 --> 00:17:39,740

you know certainly today we would be

366

00:17:46,840 --> 00:17:43,010

mesmerized by by the saucer but because

367

00:17:49,360 --> 00:17:46,850

helicopters are so common no visible

368

00:17:50,160 --> 00:17:49,370

seams or rivets or anything like that

369

00:17:53,530 --> 00:17:50,170

that's what

370

00:17:57,780 --> 00:17:53,540

and other descriptions consistent

371

00:17:59,020 --> 00:17:57,790

between all the witnesses that are know

372

00:18:01,570 --> 00:17:59,030

absolutely

373

00:18:05,470 --> 00:18:01,580

yeah even going back to Frank Scully and

374

00:18:09,120 --> 00:18:05,480

the late bills diamond bill and I

375

00:18:11,620 --> 00:18:09,130

compared notes for about 30 years and

376

00:18:15,880 --> 00:18:11,630

right before he died he died a year ago

377

00:18:18,280 --> 00:18:15,890

this past January bill gave us a lot of

378

00:18:21,280 --> 00:18:18,290

good documents and a lot of his notes

379

00:18:24,160 --> 00:18:21,290

that Frank and Suzanne and I have have

380

00:18:27,310 --> 00:18:24,170

reviewed and even his notes from his

381

00:18:29,790 --> 00:18:27,320

people back in the 80s are very

382

00:18:32,110 --> 00:18:29,800

consistent with our witnesses we

383

00:18:34,090 --> 00:18:32,120

fortunately we had different groups of

384

00:18:35,680 --> 00:18:34,100

witnesses at the time and people that

385

00:18:38,320 --> 00:18:35,690

were from different parts of the country

386

00:18:41,110 --> 00:18:38,330

so and didn't know each other so that

387

00:18:43,690 --> 00:18:41,120

was that was helpful to see that too

388

00:18:45,340 --> 00:18:43,700

that there was that consistency now were

389

00:18:47,320 --> 00:18:45,350

there were people that later on in life

390

00:18:50,380 --> 00:18:47,330

toward the under the life they decided

391

00:18:53,200 --> 00:18:50,390

to talk about this or did people you

392

00:19:00,840 --> 00:18:53,210

know keep it to themselves for the most

393

00:19:04,360 --> 00:19:00,850

part as far far as I know and actually

394

00:19:07,750 --> 00:19:04,370

contacted Bill Steinman well after

395

00:19:10,450 --> 00:19:07,760

Bill's book had been written and so bill

396

00:19:12,280 --> 00:19:10,460

handed him off to us and we interviewed

397

00:19:17,590 --> 00:19:12,290

and that and we have a that's almost a

398

00:19:21,610 --> 00:19:17,600

two-hour taped interview with him and he

399

00:19:23,680 --> 00:19:21,620

was very consistent as best he could

400

00:19:25,410 --> 00:19:23,690

remember after a series of strokes but I

401
00:19:28,780 --> 00:19:25,420
mean he took us back to the day

402
00:19:31,150 --> 00:19:28,790
everything that went on a pretty good

403
00:19:34,510 --> 00:19:31,160
timeline of how long they were there

404
00:19:37,180 --> 00:19:34,520
until the military showed up which some

405
00:19:38,590 --> 00:19:37,190
say early afternoon and in Doug's case

406
00:19:40,840 --> 00:19:38,600
he said it was late morning getting

407
00:19:42,730 --> 00:19:40,850
toward lunchtime but still extremely

408
00:19:44,920 --> 00:19:42,740
quick when you when you figure that

409
00:19:47,110 --> 00:19:44,930
terrain I mean Frank's been there

410
00:19:50,290 --> 00:19:47,120
numerous times I've been there many many

411
00:19:53,770 --> 00:19:50,300
times it's not easy today to get anybody

412
00:19:56,410 --> 00:19:53,780
out there we just as last weekend had a

413
00:19:59,770 --> 00:19:56,420

researcher that was out there and giving

414

00:20:02,650 --> 00:19:59,780

him directions and hiking around out

415

00:20:03,590 --> 00:20:02,660

there it was it's quite an ordeal if you

416

00:20:05,630 --> 00:20:03,600

if you go

417

00:20:07,730 --> 00:20:05,640

you need to make sure that you have gas

418

00:20:10,490 --> 00:20:07,740

in your vehicle and have some bottles of

419

00:20:11,779 --> 00:20:10,500

water and like it's like it's think

420

00:20:14,570 --> 00:20:11,789

about those kind of things because

421

00:20:18,529 --> 00:20:14,580

things happen you know how far away is

422

00:20:22,400 --> 00:20:18,539

the nearest military base mm-hmm

423

00:20:25,760 --> 00:20:22,410

today are back that back then oh let's

424

00:20:29,210 --> 00:20:25,770

see probably Kirtland would have been

425

00:20:32,870 --> 00:20:29,220

the closest alvaro as Frank was saying

426

00:20:35,150 --> 00:20:32,880

as a crow flies is not that far that was

427

00:20:38,990 --> 00:20:35,160

the radar base then he had Moriarty down

428

00:20:40,240 --> 00:20:39,000

by Albuquerque that wasn't quite open at

429

00:20:43,250 --> 00:20:40,250

the time so we'll roll that out

430

00:20:45,230 --> 00:20:43,260

Continental Divide it was under

431

00:20:47,510 --> 00:20:45,240

construction but it wasn't operational

432

00:20:49,789 --> 00:20:47,520

and then you get up into the Colorado

433

00:20:51,799 --> 00:20:49,799

area the Durango Airport used to be a

434

00:20:53,659 --> 00:20:51,809

training base during World War two but

435

00:20:57,289 --> 00:20:53,669

then was turned over to the to the

436

00:20:59,510 --> 00:20:57,299

county there were a lot of hidden

437

00:21:04,730 --> 00:20:59,520

training camps in that area back to that

438

00:21:07,010 --> 00:21:04,740

time frame like Camp Hill yeah probably

439

00:21:09,080 --> 00:21:07,020

a lot more than that one and that's why

440

00:21:12,289 --> 00:21:09,090

we're we're always amazed at that

441

00:21:14,779 --> 00:21:12,299

helicopter where it came from to get to

442

00:21:17,180 --> 00:21:14,789

the crash site because we know we went

443

00:21:19,250 --> 00:21:17,190

down to McMinnville when they had the

444

00:21:21,620 --> 00:21:19,260

large air museum down there we flew out

445

00:21:23,870 --> 00:21:21,630

and there were two helicopters and

446

00:21:24,740 --> 00:21:23,880

service that went into service January

447

00:21:26,990 --> 00:21:24,750

at 48

448

00:21:29,299 --> 00:21:27,000

they have copies of both when we sat

449

00:21:32,390 --> 00:21:29,309

down and went over the helicopters and

450

00:21:34,220 --> 00:21:32,400

went over it with the curator that did

451
00:21:36,370 --> 00:21:34,230
not have a long right either one of them

452
00:21:39,529 --> 00:21:36,380
didn't have a very long range of flying

453
00:21:41,990 --> 00:21:39,539
so we're and it didn't stay at the crash

454
00:21:44,029 --> 00:21:42,000
site long it kind of did two passes to

455
00:21:45,710 --> 00:21:44,039
confirm that there was something down on

456
00:21:50,260 --> 00:21:45,720
the Mesa and that it took off to the

457
00:21:53,419 --> 00:21:50,270
northeast okay so this this thing is

458
00:21:54,799 --> 00:21:53,429
crash-landed so to speak whatever you

459
00:21:58,190 --> 00:21:54,809
want to call it crashed or only ended or

460
00:22:00,409 --> 00:21:58,200
above and you know people are around it

461
00:22:05,539 --> 00:22:00,419
and I remember reading in your book that

462
00:22:07,760 --> 00:22:05,549
they thought the object was light so was

463
00:22:10,130 --> 00:22:07,770

this uh you know was that to say a

464

00:22:13,340 --> 00:22:10,140

hundred feet which is amazing pretty big

465

00:22:17,000 --> 00:22:13,350

yeah were like a few people able to

466

00:22:20,380 --> 00:22:17,010

actually move the object at all

467

00:22:25,010 --> 00:22:20,390

yeah I've had different reports on that

468

00:22:26,870 --> 00:22:25,020

I I'm gonna leave it like this when they

469

00:22:31,010 --> 00:22:26,880

when they removed it from the crash site

470

00:22:32,780 --> 00:22:31,020

of course we re-enacted that back a

471

00:22:36,140 --> 00:22:32,790

number of years ago the moving of the

472

00:22:40,039 --> 00:22:36,150

craft and the dragon wagon

473

00:22:43,850 --> 00:22:40,049

that's the m24 tank removal vehicle that

474

00:22:48,350 --> 00:22:43,860

had a I think the capability was 50,000

475

00:22:50,480 --> 00:22:48,360

pounds and apparently whatever the

476

00:22:51,650 --> 00:22:50,490

weight of this object was was extremely

477

00:22:54,770 --> 00:22:51,660

light because they had no problems

478

00:22:56,990 --> 00:22:54,780

moving hmm I think you know I think it

479

00:22:59,360 --> 00:22:57,000

would be a reader would find that

480

00:23:02,630 --> 00:22:59,370

chapter I think it's chapter 11 if I'm

481

00:23:05,419 --> 00:23:02,640

not mistaken moving the craft very

482

00:23:08,690 --> 00:23:05,429

meticulously re-enacted by the Ramseys

483

00:23:11,419 --> 00:23:08,700

and a friend of theirs who is an expert

484

00:23:13,130 --> 00:23:11,429

in moving of heavy equipment

485

00:23:17,950 --> 00:23:13,140

I recommend that to the readers

486

00:23:23,030 --> 00:23:17,960

definitely alright so they there was a

487

00:23:24,950 --> 00:23:23,040

pad found out there a slab cement and

488

00:23:28,669 --> 00:23:24,960

there was speculation that the crane was

489

00:23:32,950 --> 00:23:28,679

put on this is that how that goes yeah

490

00:23:36,740 --> 00:23:32,960

the they really had to cut a road in to

491

00:23:38,870 --> 00:23:36,750

to get the craft out and we refer to

492

00:23:43,010 --> 00:23:38,880

that as the mystery road or the Military

493

00:23:47,570 --> 00:23:43,020

Road and interviewing a gentleman that

494

00:23:50,919 --> 00:23:47,580

was based down at Walker airfield told

495

00:23:53,360 --> 00:23:50,929

me you know I was not at the crash site

496

00:23:56,480 --> 00:23:53,370

but when they cut the road they had a

497

00:23:58,159 --> 00:23:56,490

problem with the loose silt he said I

498

00:23:59,470 --> 00:23:58,169

know we were delayed a few days because

499

00:24:02,270 --> 00:23:59,480

they had to pour concrete

500

00:24:05,240 --> 00:24:02,280

so the dear friend of ours Randy Barnes

501
00:24:08,570 --> 00:24:05,250
went out probing around one day and this

502
00:24:11,990 --> 00:24:08,580
is a very silty soil it's it's minigraf

503
00:24:14,330 --> 00:24:12,000
and yeah yeah sand and mini gravel and

504
00:24:17,020 --> 00:24:14,340
he uncovered it dill Steinman had found

505
00:24:19,700 --> 00:24:17,030
it back in the mid-80s but with all the

506
00:24:21,799 --> 00:24:19,710
erosion and rain and whatnot it had been

507
00:24:24,020 --> 00:24:21,809
covered up again but that was a

508
00:24:26,870 --> 00:24:24,030
stabilizing pad according to our

509
00:24:29,480 --> 00:24:26,880
military person that we refer to as

510
00:24:30,590 --> 00:24:29,490
George in the book and sure enough that

511
00:24:32,899 --> 00:24:30,600
road

512
00:24:37,730 --> 00:24:32,909
was cut and sure enough that pad is

513
00:24:39,499 --> 00:24:37,740

there and so we we found that part and

514

00:24:43,039 --> 00:24:39,509

there's no there's no other reason for

515

00:24:45,440 --> 00:24:43,049

that pad or for that road to be there if

516

00:24:48,980 --> 00:24:45,450

you are familiar with the oil fields out

517

00:24:51,830 --> 00:24:48,990

in New Mexico they have roads they have

518

00:24:56,690 --> 00:24:51,840

maps of every single little teeny road

519

00:24:58,610 --> 00:24:56,700

that exists they have to to get parts

520

00:25:02,120 --> 00:24:58,620

and things to the oil field workers and

521

00:25:04,519 --> 00:25:02,130

there's no reason for that pad or that

522

00:25:07,490 --> 00:25:04,529

that road to be there and we've

523

00:25:10,909 --> 00:25:07,500

consulted with oil field workers people

524

00:25:13,730 --> 00:25:10,919

that are out in that area experts in the

525

00:25:16,129 --> 00:25:13,740

field literally in the field and and

526

00:25:17,899 --> 00:25:16,139

there's no reason for it and to the fact

527

00:25:20,690 --> 00:25:17,909

you know we've had people speculate and

528

00:25:22,610 --> 00:25:20,700

say well it's to cover well there's no

529

00:25:26,749 --> 00:25:22,620

way because we actually drilled into it

530

00:25:28,999 --> 00:25:26,759

to get a core sample you know we've had

531

00:25:32,980 --> 00:25:29,009

a variety of people toss things out as

532

00:25:35,680 --> 00:25:32,990

their speculation but but what the

533

00:25:39,639 --> 00:25:35,690

witness that Scott described George

534

00:25:41,659 --> 00:25:39,649

seems very credible now what about these

535

00:25:43,730 --> 00:25:41,669

it makes very much sense

536

00:25:45,950 --> 00:25:43,740

go ahead learn I'm sorry what about

537

00:25:47,269 --> 00:25:45,960

radar they would you know that's the

538

00:25:50,269 --> 00:25:47,279

only place that the only time I could

539

00:25:53,210 --> 00:25:50,279

think anyone would pour a slab is to

540

00:25:56,409 --> 00:25:53,220

have the radar set up you know whether a

541

00:25:59,899 --> 00:25:56,419

building or or you know the radar itself

542

00:26:03,350 --> 00:25:59,909

so there was there is there a way to map

543

00:26:07,519 --> 00:26:03,360

out where the radar was located the we

544

00:26:09,919 --> 00:26:07,529

know a lot oh yeah the radar pads are

545

00:26:12,230 --> 00:26:09,929

still intact and they're huge I mean

546

00:26:14,840 --> 00:26:12,240

they're very different yeah they're

547

00:26:18,259 --> 00:26:14,850

actually a big teller that they would

548

00:26:21,680 --> 00:26:18,269

set them the the legs of a radar

549

00:26:22,970 --> 00:26:21,690

apparatus this is a just about a meter

550

00:26:25,039 --> 00:26:22,980

square it's tiny

551

00:26:26,690 --> 00:26:25,049

I mean it in comparison and would it

552

00:26:30,110 --> 00:26:26,700

work a meter square well would it work

553

00:26:33,649 --> 00:26:30,120

as far as the location goes and where

554

00:26:35,899 --> 00:26:33,659

the Mesa you know where the purported

555

00:26:42,169 --> 00:26:35,909

crash happened does everything fit is

556

00:26:43,730 --> 00:26:42,179

what I'm asking yes it builds as you as

557

00:26:44,210 --> 00:26:43,740

you follow it because there is no other

558

00:26:46,340 --> 00:26:44,220

x

559

00:26:49,039 --> 00:26:46,350

nation for it the mystery road comes

560

00:26:53,020 --> 00:26:49,049

down it was actually like a call to sack

561

00:26:55,610 --> 00:26:53,030

it went around a little tiny Mesa and

562

00:26:57,110 --> 00:26:55,620

according to George when they they cut

563

00:27:00,080 --> 00:26:57,120

the road they had a problem an issue

564

00:27:03,620 --> 00:27:00,090

with it being too silty and if you ever

565

00:27:06,200 --> 00:27:03,630

look up an m24 tank vehicle or recovery

566

00:27:08,330 --> 00:27:06,210

vehicle they had stabilizing legs like

567

00:27:10,850 --> 00:27:08,340

the back of a backhoe yep that would

568

00:27:13,640 --> 00:27:10,860

come down to stabilize the recovery

569

00:27:15,080 --> 00:27:13,650

vehicle and then if you walk out 300

570

00:27:18,320 --> 00:27:15,090

yards give or take

571

00:27:23,120 --> 00:27:18,330

from that pad is where the plaque is for

572

00:27:25,340 --> 00:27:23,130

the disc allegedly landed mm-hmm all

573

00:27:28,039 --> 00:27:25,350

right well let's go back to the date the

574

00:27:29,690 --> 00:27:28,049

day of the the crash or crash landing

575

00:27:31,549 --> 00:27:29,700

whatever you want to call it so that

576

00:27:36,140 --> 00:27:31,559

happens there witnesses around the

577

00:27:38,360 --> 00:27:36,150

military shows up fairly quickly do they

578

00:27:39,950 --> 00:27:38,370

permanently shoe people out of there I

579

00:27:42,200 --> 00:27:39,960

mean they get the military involved in

580

00:27:44,419 --> 00:27:42,210

actually guarding the area is that is

581

00:27:47,240 --> 00:27:44,429

that what the speculation or is there

582

00:27:50,510 --> 00:27:47,250

any way to you know dock any documents

583

00:27:52,669 --> 00:27:50,520

on that no documents but the locals say

584

00:27:55,760 --> 00:27:52,679

it was about a two-week recovery process

585

00:28:00,320 --> 00:27:55,770

but that particular day although the

586

00:28:03,049 --> 00:28:00,330

military did come and question all of

587

00:28:05,770 --> 00:28:03,059

the witnesses and then returned do I

588

00:28:08,960 --> 00:28:05,780

want to use threaten all the witnesses

589

00:28:12,140 --> 00:28:08,970

reminded them of their loyalty loyalty

590

00:28:14,419 --> 00:28:12,150

to the United States and but the one

591

00:28:16,580 --> 00:28:14,429

person that they did welcome after they

592

00:28:19,460 --> 00:28:16,590

shoot everybody else up was a minister

593

00:28:22,789 --> 00:28:19,470

that was passing by and he was from

594

00:28:25,270 --> 00:28:22,799

Vegas Colorado a new minister a Baptist

595

00:28:28,520 --> 00:28:25,280

minister and he was doing some circuit

596

00:28:31,580 --> 00:28:28,530

preaching and as he passed by he saw

597

00:28:33,260 --> 00:28:31,590

some activity down on the road and so he

598

00:28:35,000 --> 00:28:33,270

went out there thinking well there's

599

00:28:38,600 --> 00:28:35,010

somebody hurt or something maybe maybe I

600

00:28:41,510 --> 00:28:38,610

could help and he got there and they

601
00:28:43,700 --> 00:28:41,520
said we need you to come up here we need

602
00:28:46,909 --> 00:28:43,710
some help from you and he said sure I'd

603
00:28:49,250 --> 00:28:46,919
be happy to well he climbs the hill and

604
00:28:51,919 --> 00:28:49,260
he gets over the bluff and on top of the

605
00:28:55,340 --> 00:28:51,929
Mesa and here he sees these bodies all

606
00:28:58,159 --> 00:28:55,350
laying there and he went over and and

607
00:28:59,990 --> 00:28:58,169
you know he wasn't they indicated you

608
00:29:02,210 --> 00:29:00,000
know prayer and things and he was not a

609
00:29:04,310 --> 00:29:02,220
priest for last rites but he went over

610
00:29:06,440 --> 00:29:04,320
and said prayers on the bodies and then

611
00:29:10,669 --> 00:29:06,450
just left got in his vehicle and drove

612
00:29:13,159 --> 00:29:10,679
back to make us he was so shook up that

613
00:29:16,279 --> 00:29:13,169

he called some of his parishioners that

614

00:29:20,060 --> 00:29:16,289

were close friends of his and they

615

00:29:21,440 --> 00:29:20,070

gathered in a room and he said I have to

616

00:29:25,070 --> 00:29:21,450

tell you something that happened to me

617

00:29:28,070 --> 00:29:25,080

today and it just shook me up and I just

618

00:29:30,560 --> 00:29:28,080

need to share this with you and so he

619

00:29:33,590 --> 00:29:30,570

begins to tell them the story and one of

620

00:29:36,289 --> 00:29:33,600

the the people in the group you can

621

00:29:38,419 --> 00:29:36,299

imagine you hear story like that you're

622

00:29:41,600 --> 00:29:38,429

uncomfortable probably but the man went

623

00:29:43,580 --> 00:29:41,610

huh like that and it clears his throat

624

00:29:46,600 --> 00:29:43,590

and cleared his throat yeah

625

00:29:49,220 --> 00:29:46,610

and the minister just began to weep and

626
00:29:51,020 --> 00:29:49,230
said you don't believe me and got very

627
00:29:52,370 --> 00:29:51,030
defensive and upset and he said you

628
00:29:55,940 --> 00:29:52,380
think I would tell you this if it wasn't

629
00:29:59,299 --> 00:29:55,950
true and we were able to interview a

630
00:30:01,490 --> 00:29:59,309
child that was there during this when

631
00:30:03,020 --> 00:30:01,500
this all went on and he was nine years

632
00:30:06,409 --> 00:30:03,030
old at the time years old at the time

633
00:30:08,870 --> 00:30:06,419
and so and then the son of the preacher

634
00:30:15,289 --> 00:30:08,880
and then the son of the creature and so

635
00:30:17,690 --> 00:30:15,299
they recall more or less yeah yeah so

636
00:30:20,240 --> 00:30:17,700
there's there's another angle there to

637
00:30:21,560 --> 00:30:20,250
another layer to it someone that you

638
00:30:23,539 --> 00:30:21,570

wouldn't wouldn't think would be

639

00:30:25,580 --> 00:30:23,549

participating and that nine year old boy

640

00:30:28,549 --> 00:30:25,590

went on to be a vice president of a

641

00:30:35,230 --> 00:30:28,559

major airline so his credibility was

642

00:30:39,440 --> 00:30:35,240

very good with us we believed him it's

643

00:30:40,159 --> 00:30:39,450

you know when we tell the story of our

644

00:30:42,950 --> 00:30:40,169

research

645

00:30:45,919 --> 00:30:42,960

we're voice has been amazed in that

646

00:30:48,020 --> 00:30:45,929

small town in that small area it's not

647

00:30:50,810 --> 00:30:48,030

like we had owed us the town drunk

648

00:30:52,520 --> 00:30:50,820

you know as our as our source we had

649

00:30:55,250 --> 00:30:52,530

some very very very we've been lucky to

650

00:30:57,080 --> 00:30:55,260

have very very credible people that went

651
00:31:01,370 --> 00:30:57,090
on to be very successful and we've

652
00:31:03,110 --> 00:31:01,380
always kind of questioned that but these

653
00:31:06,350 --> 00:31:03,120
are these are people that if you sat

654
00:31:09,910 --> 00:31:06,360
down and you talked with you would find

655
00:31:13,280 --> 00:31:09,920
that they are would be a perfect witness

656
00:31:15,380 --> 00:31:13,290
mmm-hmm we have a break coming up in

657
00:31:20,810 --> 00:31:15,390
like five minutes from now just to let

658
00:31:23,930 --> 00:31:20,820
you know okay so now the disassembling

659
00:31:25,700 --> 00:31:23,940
this is this is a just one of the areas

660
00:31:27,980 --> 00:31:25,710
that I think is well first of all no

661
00:31:33,020 --> 00:31:27,990
one's gonna move 100 foot craft anywhere

662
00:31:35,390 --> 00:31:33,030
too far that's right and the thing

663
00:31:36,110 --> 00:31:35,400

that's puzzling or that something would

664

00:31:38,990 --> 00:31:36,120

come apart

665

00:31:43,790 --> 00:31:39,000

I came apart with supposedly with pins

666

00:31:46,930 --> 00:31:43,800

and even though it's a smooth surface

667

00:31:49,310 --> 00:31:46,940

how would you speculate that they

668

00:31:52,970 --> 00:31:49,320

figured that part of it out how to

669

00:31:55,070 --> 00:31:52,980

disassemble it going from a little bit

670

00:31:56,930 --> 00:31:55,080

of Frank's Kelly's researched bills

671

00:32:00,290 --> 00:31:56,940

diamonds and then just you know of

672

00:32:02,450 --> 00:32:00,300

course we weren't there but it was a

673

00:32:05,270 --> 00:32:02,460

series of what we would call today pin

674

00:32:07,210 --> 00:32:05,280

pins are you from North it bends yeah

675

00:32:10,250 --> 00:32:07,220

like for tractors and things like that

676
00:32:13,790 --> 00:32:10,260
tractors Formula one cars Indianapolis

677
00:32:17,840 --> 00:32:13,800
type style racecars the wings are held

678
00:32:20,570 --> 00:32:17,850
on with pin pins the bodywork we have

679
00:32:23,540 --> 00:32:20,580
three tractors here at our farm and of

680
00:32:25,490 --> 00:32:23,550
course we lose pins all the time but

681
00:32:28,550 --> 00:32:25,500
they've come a long way

682
00:32:29,900 --> 00:32:28,560
I mean they've the old days of just

683
00:32:33,200 --> 00:32:29,910
banging a pin through to hold an

684
00:32:36,320 --> 00:32:33,210
implement on and putting a drop latch in

685
00:32:39,230 --> 00:32:36,330
it hitch pin I think they call it and

686
00:32:40,910 --> 00:32:39,240
this in all the descriptions it reminds

687
00:32:42,950 --> 00:32:40,920
me of the pit pins that they use a

688
00:32:45,110 --> 00:32:42,960

friend of ours has an aerobatic plane

689

00:32:48,260 --> 00:32:45,120

and that whole wing assemblies put

690

00:32:51,280 --> 00:32:48,270

together with Tipton's now who's who how

691

00:32:54,770 --> 00:32:51,290

did that the word get out about the pins

692

00:32:57,190 --> 00:32:54,780

I probably an interview that Frank

693

00:32:59,930 --> 00:32:57,200

Scully did with one of the scientists

694

00:33:06,470 --> 00:32:59,940

that told him how the the craft came

695

00:33:08,450 --> 00:33:06,480

apart that goes back to 1950 and I just

696

00:33:11,090 --> 00:33:08,460

think it's you know I mean I'm not

697

00:33:12,950 --> 00:33:11,100

doubting that it happened then I'm just

698

00:33:14,570 --> 00:33:12,960

thinking it's a it's a really weird

699

00:33:19,430 --> 00:33:14,580

thing that something would come apart

700

00:33:21,020 --> 00:33:19,440

like that you know I mean not just the

701
00:33:22,109 --> 00:33:21,030
fact that it appeared to be completely

702
00:33:25,439 --> 00:33:22,119
smooth and

703
00:33:27,899 --> 00:33:25,449
that but just the fact that you know I

704
00:33:30,179 --> 00:33:27,909
mean who knows what technology it was or

705
00:33:32,579 --> 00:33:30,189
whatever but it just seems unusual that

706
00:33:37,019 --> 00:33:32,589
something would be assembled and be able

707
00:33:38,899 --> 00:33:37,029
to be dissin them well you look at when

708
00:33:43,139 --> 00:33:38,909
we were down at Maxwell years ago

709
00:33:46,619 --> 00:33:43,149
reading about the 4602 air intelligence

710
00:33:48,449 --> 00:33:46,629
Recovery Group one of their proud cases

711
00:33:50,069 --> 00:33:48,459
of something they had to disassemble and

712
00:33:53,399 --> 00:33:50,079
bring back to wright-patterson was a

713
00:33:55,649 --> 00:33:53,409

early Nick jet fighter that the pilot

714

00:33:58,799 --> 00:33:55,659

ran low on fuel and ditched it in a

715

00:34:00,089 --> 00:33:58,809

river and that's one of my favorite

716

00:34:03,149 --> 00:34:00,099

things that I've ever gotten that out of

717

00:34:05,669 --> 00:34:03,159

Maxwell seven guys living under a bridge

718

00:34:08,309 --> 00:34:05,679

with bull ropes at night would go down

719

00:34:11,730 --> 00:34:08,319

in the water and take off a wing or a

720

00:34:13,230 --> 00:34:11,740

stabilizer and the landing gears and

721

00:34:15,089 --> 00:34:13,240

they smuggle the whole thing out in a

722

00:34:17,970 --> 00:34:15,099

hay wagon that's a very well-documented

723

00:34:19,579 --> 00:34:17,980

base down there Maxwell brought it back

724

00:34:22,680 --> 00:34:19,589

to wright-patterson and proudly

725

00:34:25,019 --> 00:34:22,690

reassembled it - the ejection seat in

726

00:34:27,599 --> 00:34:25,029

the cockpit and they and the canopy

727

00:34:28,950 --> 00:34:27,609

isn't that something well yeah it shows

728

00:34:33,720 --> 00:34:28,960

how good these guys are

729

00:34:35,909 --> 00:34:33,730

Wow Wow and did know we had another

730

00:34:38,159 --> 00:34:35,919

minute just a minute here left or so did

731

00:34:41,430 --> 00:34:38,169

anyone ever talk about

732

00:34:45,389 --> 00:34:41,440

feeling ill or any you know any physical

733

00:34:46,979 --> 00:34:45,399

effects from the object yes do you want

734

00:34:47,399 --> 00:34:46,989

to handle that one Frank just to get you

735

00:34:50,159 --> 00:34:47,409

in there

736

00:34:52,799 --> 00:34:50,169

well we've our new source that we

737

00:34:55,109 --> 00:34:52,809

haven't really exploited yet said that

738

00:34:57,089 --> 00:34:55,119

there was some discussion and Dayton

739

00:35:00,809 --> 00:34:57,099

about the fact that this saucer

740

00:35:02,309 --> 00:35:00,819

reassembled in wright-patterson that you

741

00:35:05,970 --> 00:35:02,319

couldn't go into it for very long

742

00:35:09,120 --> 00:35:05,980

because you would get ill and apparently

743

00:35:11,460 --> 00:35:09,130

some people who were retrieving material

744

00:35:13,859 --> 00:35:11,470

from it on the Mesa and so on that they

745

00:35:15,690 --> 00:35:13,869

did get ill and some of them were very

746

00:35:18,059 --> 00:35:15,700

serious we don't know how serious it was

747

00:35:20,729 --> 00:35:18,069

and that's a very peculiar thing that

748

00:35:24,239 --> 00:35:20,739

the atmosphere inside this disk was

749

00:35:27,390 --> 00:35:24,249

toxic to humans they said no more than

750

00:35:29,370 --> 00:35:27,400

20 minutes a person couldn't yes yeah

751
00:35:31,410 --> 00:35:29,380
well I could I would think that they

752
00:35:33,839 --> 00:35:31,420
would get you know in like a hazmat suit

753
00:35:35,970 --> 00:35:33,849
to even go in the thing you know I I

754
00:35:40,230 --> 00:35:35,980
don't know what they had back in 1948

755
00:35:41,820 --> 00:35:40,240
but still yes I don't think they did is

756
00:35:43,890 --> 00:35:41,830
just like when I was training I didn't

757
00:35:46,230 --> 00:35:43,900
have your protectors for while on the

758
00:35:49,280 --> 00:35:46,240
firing range either these things came

759
00:35:51,930 --> 00:35:49,290
later yeah yeah all right well is it

760
00:35:55,260 --> 00:35:51,940
we're up against the break so all right

761
00:35:57,300 --> 00:35:55,270
hang in everyone we'll be right back

762
00:36:00,690 --> 00:35:57,310
hang in there right after these messages

763
00:36:04,290 --> 00:36:00,700

don't go all right welcome back here we

764

00:36:09,540 --> 00:36:04,300

are and we are talking about the Aztec

765

00:36:12,840 --> 00:36:09,550

UFO incident back in 1948 interesting

766

00:36:16,890 --> 00:36:12,850

case it's interesting that there's so

767

00:36:20,640 --> 00:36:16,900

many so many strands so many spokes to

768

00:36:21,750 --> 00:36:20,650

this thing now Scott you and yeah I

769

00:36:25,320 --> 00:36:21,760

talked on the phone

770

00:36:27,930 --> 00:36:25,330

months ago for quite a while and I

771

00:36:31,130 --> 00:36:27,940

remember you saying to me something

772

00:36:34,710 --> 00:36:31,140

along the lines were you kept trying to

773

00:36:37,260 --> 00:36:34,720

you know weed out if this was a hoax and

774

00:36:39,210 --> 00:36:37,270

you kept coming up like Wow

775

00:36:41,160 --> 00:36:39,220

more and more as you went along like

776

00:36:45,030 --> 00:36:41,170

more and more there was really something

777

00:36:48,599 --> 00:36:45,040

to it exactly yeah that still happens

778

00:36:51,480 --> 00:36:48,609

today and so and one of the big

779

00:36:56,460 --> 00:36:51,490

arguments against it that you you first

780

00:36:59,340 --> 00:36:56,470

tackled oh wow there were so many I

781

00:37:01,650 --> 00:36:59,350

didn't I didn't know when I was out in

782

00:37:03,960 --> 00:37:01,660

the Four Corners area anything about an

783

00:37:06,900 --> 00:37:03,970

Aztec UFO crash I was familiar with

784

00:37:09,690 --> 00:37:06,910

Roswell we all are and I thought at

785

00:37:11,640 --> 00:37:09,700

first are the people confusing Roswell

786

00:37:17,930 --> 00:37:11,650

with Aztec even though we're two

787

00:37:20,609 --> 00:37:17,940

opposite ends of the state it was it was

788

00:37:23,370 --> 00:37:20,619

blackballed so early I mean the military

789

00:37:28,170 --> 00:37:23,380

did a great job with the help of JP Kahn

790

00:37:30,420 --> 00:37:28,180

and others to say and I speculate on

791

00:37:32,340 --> 00:37:30,430

this but they did such a lousy job

792

00:37:34,380 --> 00:37:32,350

covering up brahs wall by putting it on

793

00:37:36,000 --> 00:37:34,390

the front page of the Roswell paper and

794

00:37:38,310 --> 00:37:36,010

other papers all the way out to

795

00:37:40,950 --> 00:37:38,320

California and all the way far east is

796

00:37:45,900 --> 00:37:40,960

Missouri I think this time they had a

797

00:37:48,120 --> 00:37:45,910

plan that it's we're going to have a

798

00:37:50,430 --> 00:37:48,130

recovery operation a lot better than

799

00:37:52,590 --> 00:37:50,440

what we did at Roswell keep in mind you

800

00:37:57,720 --> 00:37:52,600

learn from your mistakes and Roswell was

801
00:38:00,870 --> 00:37:57,730
probably the first I think the first

802
00:38:05,280 --> 00:38:00,880
thing that would come up in people's

803
00:38:08,360 --> 00:38:05,290
mind about about Aztec is the the fact

804
00:38:13,260 --> 00:38:08,370
that the Silas Newton and Leo gave our

805
00:38:16,350 --> 00:38:13,270
were during the investigation on on our

806
00:38:19,110 --> 00:38:16,360
Aztec they were dragged into court on

807
00:38:22,950 --> 00:38:19,120
some civil charges not not criminal like

808
00:38:26,120 --> 00:38:22,960
everybody likes to say saying that they

809
00:38:29,100 --> 00:38:26,130
they tried to defraud some oil investors

810
00:38:31,440 --> 00:38:29,110
claiming the technology that they had

811
00:38:34,380 --> 00:38:31,450
was superior to anybody's because it's a

812
00:38:36,690 --> 00:38:34,390
valent technology the Doodlebug right is

813
00:38:41,550 --> 00:38:36,700

that the the infamous Doodlebug we've

814

00:38:45,930 --> 00:38:41,560

actually a picture of it the problem

815

00:38:48,630 --> 00:38:45,940

with all of that is if you look at it

816

00:38:50,280 --> 00:38:48,640

from the way the story was told similar

817

00:38:53,640 --> 00:38:50,290

to what Suzanne was saying earlier the

818

00:38:56,190 --> 00:38:53,650

only hair part of the story and you

819

00:39:00,750 --> 00:38:56,200

don't hear the whole story and then the

820

00:39:03,900 --> 00:39:00,760

whole story being that Frank Scully sued

821

00:39:07,260 --> 00:39:03,910

perdy from what was the magazine Frank

822

00:39:09,210 --> 00:39:07,270

true magazine and they Frank Scully

823

00:39:11,520 --> 00:39:09,220

turned around with the help of Silas

824

00:39:14,100 --> 00:39:11,530

Newton and they sued everybody involved

825

00:39:16,950 --> 00:39:14,110

in that and it appears there was a

826

00:39:20,640 --> 00:39:16,960

rather large out-of-court settlement

827

00:39:22,170 --> 00:39:20,650

that again because it's Aztec you don't

828

00:39:24,270 --> 00:39:22,180

hear about that you got to go digging

829

00:39:26,580 --> 00:39:24,280

through the archives to find all that if

830

00:39:28,890 --> 00:39:26,590

I could mention something real quick if

831

00:39:30,240 --> 00:39:28,900

you're not familiar with this story this

832

00:39:33,030 --> 00:39:30,250

seems a little abstract

833

00:39:36,120 --> 00:39:33,040

Silas Newton let's say who Silas Newton

834

00:39:41,550 --> 00:39:36,130

and Leo Gilbert Palmer gave out they

835

00:39:44,070 --> 00:39:41,560

actually were I'll say friends with with

836

00:39:47,580 --> 00:39:44,080

Frank Scully who is the author of the

837

00:39:50,790 --> 00:39:47,590

first book and they approached him and

838

00:39:53,640 --> 00:39:50,800

they were approached by nine scientists

839

00:39:54,090 --> 00:39:53,650

that worked on the craft to tell the

840

00:39:56,100 --> 00:39:54,100

story

841

00:39:58,230 --> 00:39:56,110

Frank Scully wrote all types of

842

00:40:01,290 --> 00:39:58,240

biographies he was a very famous writer

843

00:40:01,860 --> 00:40:01,300

he wrote for by Variety magazine too but

844

00:40:12,960 --> 00:40:01,870

he

845

00:40:14,490 --> 00:40:12,970

taking people in that were going through

846

00:40:17,820 --> 00:40:14,500

a hard time in their life and keeping

847

00:40:20,130 --> 00:40:17,830

their secrets and so he seemed like I

848

00:40:22,260 --> 00:40:20,140

know this part is my speculation he

849

00:40:24,210 --> 00:40:22,270

seemed like the perfect person that you

850

00:40:28,140 --> 00:40:24,220

could tell secrets to and then have him

851

00:40:32,100 --> 00:40:28,150

tell it and so the scientists confided

852

00:40:39,660 --> 00:40:32,110

in him and Silas Newton and Leo gave our

853

00:40:45,390 --> 00:40:39,670

were the two liaisons as a catalyst that

854

00:40:49,770 --> 00:40:45,400

approached Scully and so when this story

855

00:40:53,250 --> 00:40:49,780

was attacked by we need to go on and

856

00:40:55,890 --> 00:40:53,260

tell about who JP Cohn is and so that

857

00:40:59,220 --> 00:40:55,900

you know who that player is too but when

858

00:41:04,200 --> 00:40:59,230

the government and JP Khan attacked this

859

00:41:07,170 --> 00:41:04,210

they went after to discredit the people

860

00:41:08,880 --> 00:41:07,180

that were telling this story so I just

861

00:41:10,860 --> 00:41:08,890

want you to see the big picture and it's

862

00:41:13,740 --> 00:41:10,870

a very complex story as you said and if

863

00:41:15,330 --> 00:41:13,750

you're not familiar with the story you

864

00:41:17,790 --> 00:41:15,340

think well where do these people come

865

00:41:20,060 --> 00:41:17,800

from where did this hoax come up but

866

00:41:22,980 --> 00:41:20,070

there was an effort to discredit

867

00:41:25,170 --> 00:41:22,990

everybody that was in doubt yeah they

868

00:41:27,360 --> 00:41:25,180

just one-by-one started taking him apart

869

00:41:29,550 --> 00:41:27,370

yeah everybody that was involved an

870

00:41:33,030 --> 00:41:29,560

Aztec at some point was dragged down the

871

00:41:35,370 --> 00:41:33,040

rabbit hole and discredited and Silas

872

00:41:38,790 --> 00:41:35,380

Newton just in case people in your

873

00:41:40,260 --> 00:41:38,800

audience aren't familiar the case at

874

00:41:43,610 --> 00:41:40,270

that time he was one of the wealthiest

875

00:41:46,560 --> 00:41:43,620

men in the country doing oil speculation

876

00:41:48,840 --> 00:41:46,570

and he had oil every all the old-time

877

00:41:52,980 --> 00:41:48,850

oil guys in the four corners know Silas

878

00:41:55,200 --> 00:41:52,990

knew or knew of Silas Newton and that's

879

00:41:56,940 --> 00:41:55,210

how he heard about the story his claim

880

00:42:00,360 --> 00:41:56,950

to fame was the rediscovery of the

881

00:42:03,420 --> 00:42:00,370

wrangling fields up in Colorado but I

882

00:42:06,990 --> 00:42:03,430

attacked him because I didn't they

883

00:42:09,180 --> 00:42:07,000

attacked him because he did oil

884

00:42:10,860 --> 00:42:09,190

speculation and that's exactly what it

885

00:42:14,130 --> 00:42:10,870

is it's never a hundred percent that's

886

00:42:15,300 --> 00:42:14,140

the risk so that's how they attacked him

887

00:42:17,610 --> 00:42:15,310

you know you take

888

00:42:20,490 --> 00:42:17,620

weakest link and if it's that's how they

889

00:42:22,920 --> 00:42:20,500

went about tacking him but to fully

890

00:42:24,390 --> 00:42:22,930

answer the question you asked it was

891

00:42:26,880 --> 00:42:24,400

looking at the whole story

892

00:42:30,060 --> 00:42:26,890

looking at how it started to crumble

893

00:42:32,070 --> 00:42:30,070

apart and then kind of looking at what

894

00:42:35,970 --> 00:42:32,080

what made it crumble what caused it and

895

00:42:38,280 --> 00:42:35,980

that that just I mean just the the

896

00:42:41,820 --> 00:42:38,290

research on the alleged scientist that

897

00:42:43,920 --> 00:42:41,830

Scully talked about the doctor geez that

898

00:42:46,440 --> 00:42:43,930

that part of the book was three years

899

00:42:48,300 --> 00:42:46,450

just researching those scientists and

900

00:42:50,970 --> 00:42:48,310

the doctors geez

901
00:42:55,380 --> 00:42:50,980
wasn't his real name right is that a mic

902
00:42:57,450 --> 00:42:55,390
that it was a collection of the eight

903
00:43:01,860 --> 00:42:57,460
sigh eight to nine scientists there were

904
00:43:07,230 --> 00:43:01,870
nine one died and Scully gave him the

905
00:43:10,020 --> 00:43:07,240
overall name of dr. G yeah yeah and I

906
00:43:12,090 --> 00:43:10,030
remember that you researched for a long

907
00:43:16,770 --> 00:43:12,100
time trying to find I'm going to say

908
00:43:18,450 --> 00:43:16,780
bass or a name something like that yes

909
00:43:19,310 --> 00:43:18,460
yeah what was that what was the reason

910
00:43:23,010 --> 00:43:19,320
for that

911
00:43:25,620 --> 00:43:23,020
Virgil Riggs who lived at Aztec later

912
00:43:27,570 --> 00:43:25,630
went into the military he's actually

913
00:43:30,540 --> 00:43:27,580

been in several branches but at the time

914

00:43:34,110 --> 00:43:30,550

the Air Force and while stationed over

915

00:43:38,760 --> 00:43:34,120

in England he met a gentleman that was

916

00:43:43,830 --> 00:43:38,770

much older than him that had an Aztec or

917

00:43:45,390 --> 00:43:43,840

I'm sorry Virgil had an Aztec sticker on

918

00:43:48,930 --> 00:43:45,400

his little sports cars British sports

919

00:43:53,160 --> 00:43:48,940

car and basset Aztec New Mexico and knew

920

00:43:54,780 --> 00:43:53,170

all about Aztec and as they got to be

921

00:43:56,100 --> 00:43:54,790

good friends they both stood up in each

922

00:43:59,280 --> 00:43:56,110

other's wedding they're on the same

923

00:44:00,780 --> 00:43:59,290

bowling tape of you know on and on he

924

00:44:02,430 --> 00:44:00,790

can fight it in virginal he said the

925

00:44:04,500 --> 00:44:02,440

reason I know about Aztec because I

926

00:44:05,730 --> 00:44:04,510

worked on a flying saucer recovery out

927

00:44:08,970 --> 00:44:05,740

there hmm

928

00:44:11,580 --> 00:44:08,980

the donald bass has disappeared we think

929

00:44:12,020 --> 00:44:11,590

we found him and i think he's passed on

930

00:44:15,810 --> 00:44:12,030

now

931

00:44:19,650 --> 00:44:15,820

but the story in the the group of that

932

00:44:22,170 --> 00:44:19,660

Air Force came back that he was killed

933

00:44:25,980 --> 00:44:22,180

by a hit-and-run driver in Vietnam right

934

00:44:27,600 --> 00:44:25,990

which we you know maybe so maybe not

935

00:44:29,160 --> 00:44:27,610

some say well his name's out on the

936

00:44:30,540 --> 00:44:29,170

Vietnam Memorial well

937

00:44:32,250 --> 00:44:30,550

according to the Vietnam Memorial

938

00:44:35,400 --> 00:44:32,260

there's a lot of names on on that wall

939

00:44:38,190 --> 00:44:35,410

right but I think he actually survived I

940

00:44:41,910 --> 00:44:38,200

think I actually talked to him and the

941

00:44:43,860 --> 00:44:41,920

irony the irony is I probably drove by

942

00:44:47,930 --> 00:44:43,870

where he lived several times he retired

943

00:44:52,140 --> 00:44:47,940

down here in the southeast hmm well okay

944

00:44:53,300 --> 00:44:52,150

and where does a flock fit into to this

945

00:44:56,870 --> 00:44:53,310

whole thing

946

00:45:00,470 --> 00:44:56,880

Carl flock was an interesting character

947

00:45:04,440 --> 00:45:00,480

Carl was ex United States Marine Corps

948

00:45:06,210 --> 00:45:04,450

later recruited by the CIA and he never

949

00:45:09,210 --> 00:45:06,220

made any bones about that he didn't try

950

00:45:12,810 --> 00:45:09,220

to hide that part he was very active in

951
00:45:14,400 --> 00:45:12,820
various UFO groups over the years he was

952
00:45:18,270 --> 00:45:14,410
real active in afro when they were

953
00:45:20,940 --> 00:45:18,280
around and Carl lived just north of

954
00:45:25,770 --> 00:45:20,950
occur key actually up near where Dave

955
00:45:27,510 --> 00:45:25,780
Marley lives and he just appeared out of

956
00:45:29,430 --> 00:45:27,520
nowhere when I started digging into

957
00:45:31,100 --> 00:45:29,440
Aztec I mean it was just like I flipped

958
00:45:34,200 --> 00:45:31,110
on a light switch and there was Carl I

959
00:45:38,490 --> 00:45:34,210
didn't know who Carl was and he had a

960
00:45:40,040 --> 00:45:38,500
big interest in our research we could do

961
00:45:42,540 --> 00:45:40,050
a whole show on Carl I mean he actually

962
00:45:48,120 --> 00:45:42,550
intercepted documents that were sent out

963
00:45:50,550 --> 00:45:48,130

of my office but things like JP carne he

964

00:45:53,820 --> 00:45:50,560

called me one day and said no but

965

00:45:57,540 --> 00:45:53,830

there's really no need to research JP

966

00:46:00,150 --> 00:45:57,550

Cohen he died I was out in San Francisco

967

00:46:02,940 --> 00:46:00,160

and learned he died and I said when he

968

00:46:05,430 --> 00:46:02,950

said all years ago well that turned out

969

00:46:09,540 --> 00:46:05,440

not to be very accurate at all he died

970

00:46:11,520 --> 00:46:09,550

in 2005 hmm I Carl was steering me all

971

00:46:13,800 --> 00:46:11,530

the time to keep away from people that

972

00:46:17,850 --> 00:46:13,810

were alive and where do you suppose that

973

00:46:21,750 --> 00:46:17,860

more of an ongoing cover-up I do I do I

974

00:46:23,850 --> 00:46:21,760

firmly believe that when we discovered

975

00:46:25,740 --> 00:46:23,860

the radar basis because Scully had

976

00:46:28,440 --> 00:46:25,750

mentioned the radar basis and Steinman

977

00:46:30,360 --> 00:46:28,450

in his book and the reason the UFO

978

00:46:33,600 --> 00:46:30,370

community for the lack of a better word

979

00:46:35,790 --> 00:46:33,610

poo-pooed the radar basis is they come

980

00:46:38,070 --> 00:46:35,800

up to me and say nobody's ever found him

981

00:46:39,750 --> 00:46:38,080

and that was true nobody ever found the

982

00:46:42,540 --> 00:46:39,760

radar basis because they were filed

983

00:46:47,220 --> 00:46:44,640

what was that group prank back then

984

00:46:50,280 --> 00:46:47,230

wasn't the airforce Atomic Energy

985

00:46:55,620 --> 00:46:50,290

Commission oh okay have these radio

986

00:46:57,720 --> 00:46:55,630

shows late today doesn't do me Atomic

987

00:47:01,020 --> 00:46:57,730

Energy Commission had built the basis to

988

00:47:02,640 --> 00:47:01,030

protect Los Alamos and it wasn't until

989

00:47:04,800 --> 00:47:02,650

years later they turned him over to the

990

00:47:06,960 --> 00:47:04,810

air force but they you know they were up

991

00:47:09,600 --> 00:47:06,970

and running so if you were looking at

992

00:47:11,280 --> 00:47:09,610

the airforce archives for the radar

993

00:47:13,590 --> 00:47:11,290

bases you weren't going to find him and

994

00:47:16,380 --> 00:47:13,600

the Air Force actually found them on our

995

00:47:19,170 --> 00:47:16,390

behalf at the archives of the Atomic

996

00:47:21,900 --> 00:47:19,180

Energy Commission know how the flock was

997

00:47:24,960 --> 00:47:21,910

one of those people that that he would

998

00:47:28,200 --> 00:47:24,970

always profess how he was so such an

999

00:47:30,810 --> 00:47:28,210

avid believer in the UFOs and and they

1000

00:47:33,480 --> 00:47:30,820

exist but his statement always would be

1001

00:47:36,120 --> 00:47:33,490

I just don't believe this case I just

1002

00:47:38,370 --> 00:47:36,130

don't believe that case yeah Roswell an

1003

00:47:40,230 --> 00:47:38,380

Aztec where there were physical and good

1004

00:47:42,000 --> 00:47:40,240

evidence well didn't fit into his

1005

00:47:44,430 --> 00:47:42,010

bailiwick but Carla Karl was a

1006

00:47:47,220 --> 00:47:44,440

one-of-a-kind guy I can I can say that

1007

00:47:50,070 --> 00:47:47,230

well well let's talk about the physical

1008

00:47:53,640 --> 00:47:50,080

trace evidence I know there's a scratch

1009

00:47:55,080 --> 00:47:53,650

on a Mesa that looks suspiciously like

1010

00:47:57,330 --> 00:47:55,090

it could be something but is there

1011

00:48:00,120 --> 00:47:57,340

anything else that you'd consider trace

1012

00:48:02,220 --> 00:48:00,130

evidence mm-hmm

1013

00:48:03,990 --> 00:48:02,230

I wish Ted Phillips was on the show

1014

00:48:07,440 --> 00:48:04,000

because he had an interesting time when

1015

00:48:10,590 --> 00:48:07,450

he was at the crash site things that we

1016

00:48:14,250 --> 00:48:10,600

noticed when we re-enacted the crash or

1017

00:48:17,250 --> 00:48:14,260

the removal of the craft that had to go

1018

00:48:20,010 --> 00:48:17,260

a really specific way down through Largo

1019

00:48:21,870 --> 00:48:20,020

Canyon and Punk Canyon because of the

1020

00:48:24,510 --> 00:48:21,880

even though as we talked earlier you

1021

00:48:27,480 --> 00:48:24,520

took the craft apart sections they were

1022

00:48:29,550 --> 00:48:27,490

still good sized sections and going

1023

00:48:32,040 --> 00:48:29,560

through those canyons we have what the

1024

00:48:38,210 --> 00:48:32,050

experts call pinch concerns pinch areas

1025

00:48:40,890 --> 00:48:38,220

and as bill and I were taking the

1026

00:48:42,660 --> 00:48:40,900

reenactment out we noticed and you know

1027

00:48:45,240 --> 00:48:42,670

you know things don't really deteriorate

1028

00:48:48,420 --> 00:48:45,250

much in the in the desert along certain

1029

00:48:49,890 --> 00:48:48,430

roads where trees have been cut down not

1030

00:48:51,510 --> 00:48:49,900

far from the crash site I mean I'm

1031

00:48:54,060 --> 00:48:51,520

talking less than an eighth of a mile

1032

00:48:56,430 --> 00:48:54,070

from the crash site that trees have been

1033

00:48:59,030 --> 00:48:56,440

cut down in the old stumps of the car

1034

00:49:01,620 --> 00:48:59,040

would trees and whatnot were still there

1035

00:49:05,120 --> 00:49:01,630

could you consider that evidence yeah

1036

00:49:09,660 --> 00:49:05,130

you know I don't know the concrete slab

1037

00:49:11,760 --> 00:49:09,670

is one that we tend to lean to the fact

1038

00:49:15,390 --> 00:49:11,770

that we're the craft allegedly came down

1039

00:49:18,510 --> 00:49:15,400

on the Mesa when we first got there and

1040

00:49:21,270 --> 00:49:18,520

Bill Steinman years ahead of me the dead

1041

00:49:23,100 --> 00:49:21,280

trees were still there that had were all

1042

00:49:25,350 --> 00:49:23,110

knocked down toward the Northeast

1043

00:49:28,230 --> 00:49:25,360

the Bureau of Reclamation or the Bureau

1044

00:49:30,030 --> 00:49:28,240

of Land Management made us move them to

1045

00:49:32,190 --> 00:49:30,040

a safe place and get them off the trail

1046

00:49:34,860 --> 00:49:32,200

so they because they knew we're having

1047

00:49:39,840 --> 00:49:34,870

people go up to the crash site people do

1048

00:49:42,330 --> 00:49:39,850

everyday right now so it's yeah there's

1049

00:49:44,160 --> 00:49:42,340

an when we we saw something very

1050

00:49:46,050 --> 00:49:44,170

interesting you know depending on where

1051

00:49:50,280 --> 00:49:46,060

you're at you see a different

1052

00:49:53,100 --> 00:49:50,290

perspective of things and in a flight

1053

00:49:55,500 --> 00:49:53,110

over the top now this is before drones

1054

00:49:57,510 --> 00:49:55,510

and things but in a flight over the top

1055

00:50:00,510 --> 00:49:57,520

of the crash site it's very interesting

1056

00:50:03,030 --> 00:50:00,520

you know in nature there is a random

1057

00:50:06,180 --> 00:50:03,040

pattern of how plants and trees and

1058

00:50:08,430 --> 00:50:06,190

things grow it was very interesting in

1059

00:50:11,910 --> 00:50:08,440

certain areas right on top of that Mesa

1060

00:50:15,000 --> 00:50:11,920

they were opinions planted in exact rows

1061

00:50:17,100 --> 00:50:15,010

which would be separate logically that

1062

00:50:18,990 --> 00:50:17,110

we would do without even thinking about

1063

00:50:21,060 --> 00:50:19,000

it you would transplant something not

1064

00:50:23,000 --> 00:50:21,070

thinking organically the way the

1065

00:50:25,950 --> 00:50:23,010

patterns it would grow so it was a very

1066

00:50:27,570 --> 00:50:25,960

interesting perspective to see that that

1067

00:50:29,370 --> 00:50:27,580

you would never know from the ground you

1068

00:50:31,200 --> 00:50:29,380

wouldn't be able to tell that hmm

1069

00:50:33,690 --> 00:50:31,210

if someone was trying to hide a site

1070

00:50:35,820 --> 00:50:33,700

though it'd be kind of strange for them

1071

00:50:38,160 --> 00:50:35,830

to plant like that if they were trying

1072

00:50:43,680 --> 00:50:38,170

to I think you know bring it back like

1073

00:50:47,010 --> 00:50:43,690

you say organically for one thing again

1074

00:50:49,200 --> 00:50:47,020

you know it's not like you had the air

1075

00:50:50,850 --> 00:50:49,210

travel that you do today for one thing

1076
00:50:53,790 --> 00:50:50,860
and and I don't think they were thinking

1077
00:50:57,030 --> 00:50:53,800
from that perspective hmm I think it's

1078
00:51:00,750 --> 00:50:57,040
very common military to restore crash

1079
00:51:04,110 --> 00:51:00,760
sites yes appear as though nothing ever

1080
00:51:07,020 --> 00:51:04,120
happened right so I I'm sure that they

1081
00:51:09,420 --> 00:51:07,030
did restore that site to is near

1082
00:51:13,109 --> 00:51:09,430
original as possible

1083
00:51:14,430 --> 00:51:13,119
to cover their their departure right I

1084
00:51:16,440 --> 00:51:14,440
don't think they thought about the

1085
00:51:18,750 --> 00:51:16,450
planting pounds you know I don't think

1086
00:51:20,040 --> 00:51:18,760
they thought about that yeah I spoke to

1087
00:51:22,140 --> 00:51:20,050
someone that actually did that but he

1088
00:51:24,690 --> 00:51:22,150

did that for like quarrys and things

1089

00:51:27,780 --> 00:51:24,700

like that tried to bring him back to to

1090

00:51:30,809 --> 00:51:27,790

look the way they did you know yes I

1091

00:51:38,190 --> 00:51:30,819

think I would like to take some calls

1092

00:51:39,930 --> 00:51:38,200

are you up for that yeah so the number

1093

00:51:41,040 --> 00:51:39,940

let me get it up on the screen here in

1094

00:51:44,809 --> 00:51:41,050

just a minute

1095

00:51:48,660 --> 00:51:44,819

patience everyone I'm doing the shows

1096

00:51:51,420 --> 00:51:48,670

solo again here no one working in the

1097

00:51:53,579 --> 00:51:51,430

background so it's just me but anyway I

1098

00:51:56,700 --> 00:51:53,589

saw the call is we got someone calling

1099

00:51:58,130 --> 00:51:56,710

right now and hello caller welcome to

1100

00:52:02,670 --> 00:51:58,140

the show

1101
00:52:08,849 --> 00:52:02,680
hello hello who do I have here David

1102
00:52:10,829 --> 00:52:08,859
Marlar how are you Dave oh yeah thanks

1103
00:52:15,299 --> 00:52:10,839
for calling and I'm doing well yeah I'm

1104
00:52:22,200 --> 00:52:15,309
just enjoying the show well your ears

1105
00:52:25,020 --> 00:52:22,210
burning yeah they were I told myself a

1106
00:52:26,430 --> 00:52:25,030
better tune into podcast UFO here my

1107
00:52:30,180 --> 00:52:26,440
ears are burning someone talking about

1108
00:52:32,780 --> 00:52:30,190
me yeah we should doubt that the day's

1109
00:52:36,299 --> 00:52:32,790
working on a book himself right Dave

1110
00:52:38,700 --> 00:52:36,309
slowly but surely dr. Thayer trying to

1111
00:52:40,440 --> 00:52:38,710
get there but it's Scott and Suzanne

1112
00:52:44,010 --> 00:52:40,450
knows as well as yourself it's hard to

1113
00:52:49,230 --> 00:52:44,020

juggle work and family and UFO research

1114

00:52:50,970 --> 00:52:49,240

yes yes yeah yeah everyone on the phone

1115

00:52:53,370 --> 00:52:50,980

none of us make our living doing this

1116

00:52:56,400 --> 00:52:53,380

this is you know something on the side

1117

00:52:58,170 --> 00:52:56,410

but I just wanted to say I had the

1118

00:53:00,240 --> 00:52:58,180

pleasure of going to Maxwell Air Force

1119

00:53:02,789 --> 00:53:00,250

Base with my fiance back in February

1120

00:53:05,039 --> 00:53:02,799

2018 with Scott and Suzanne and they

1121

00:53:07,020 --> 00:53:05,049

were my guides so to speak in

1122

00:53:09,990 --> 00:53:07,030

introducing me to Maxwell Air Force Base

1123

00:53:11,520 --> 00:53:10,000

and the files there and just had a

1124

00:53:13,559 --> 00:53:11,530

wonderful time and I just wanted to say

1125

00:53:16,680 --> 00:53:13,569

Martin you know firsthand I've witnessed

1126

00:53:18,359 --> 00:53:16,690

their their research tenacity in digging

1127

00:53:21,480 --> 00:53:18,369

through and going through government

1128

00:53:22,980 --> 00:53:21,490

files and documents and you know with

1129

00:53:24,870 --> 00:53:22,990

regard to their book I

1130

00:53:27,090 --> 00:53:24,880

it just make the argument having read it

1131

00:53:29,490 --> 00:53:27,100

and having spent time with Scott Suzanne

1132

00:53:30,990 --> 00:53:29,500

their book is not a UFO book I would

1133

00:53:34,080 --> 00:53:31,000

rather characterize it as a great

1134

00:53:36,390 --> 00:53:34,090

real-life detective story because really

1135

00:53:38,400 --> 00:53:36,400

they take a very very common-sense

1136

00:53:41,820 --> 00:53:38,410

approach to the situation and trying to

1137

00:53:44,670 --> 00:53:41,830

find facts evidence and correlations

1138

00:53:47,160 --> 00:53:44,680

with the various individuals and aspects

1139

00:53:50,130 --> 00:53:47,170

of the story it's not a UFO book in that

1140

00:53:51,570 --> 00:53:50,140

sense I think if anybody is fascinated

1141

00:53:53,490 --> 00:53:51,580

with detective work

1142

00:53:55,200 --> 00:53:53,500

Scott Suzanne definitely qualify as the

1143

00:53:59,220 --> 00:53:55,210

best Private Investigators I've ever met

1144

00:54:01,080 --> 00:53:59,230

and you know I and I think Scott and

1145

00:54:02,910 --> 00:54:01,090

Suzanne would also say they're not UFO

1146

00:54:04,590 --> 00:54:02,920

researchers they're Aztec UFO

1147

00:54:07,160 --> 00:54:04,600

researchers they're not chasing every

1148

00:54:10,170 --> 00:54:07,170

lightness every light in the sky story

1149

00:54:12,390 --> 00:54:10,180

they've been focused on one specific

1150

00:54:14,820 --> 00:54:12,400

case and I just want to give them credit

1151
00:54:16,950 --> 00:54:14,830
it's not often you see people dedicate

1152
00:54:19,530 --> 00:54:16,960
their lives and dr. Thayer as well to

1153
00:54:21,090 --> 00:54:19,540
focusing on one specific case and just

1154
00:54:24,359 --> 00:54:21,100
continuing to drill down deeper and

1155
00:54:28,190 --> 00:54:24,369
deeper and I know with Silas Newton and

1156
00:54:30,690 --> 00:54:28,200
Leia Leo gave our eye like many people

1157
00:54:32,099 --> 00:54:30,700
kind of fell into that narrative that

1158
00:54:34,440 --> 00:54:32,109
was put out there that they were con

1159
00:54:36,900 --> 00:54:34,450
artists and as I think Scott alluded to

1160
00:54:37,380 --> 00:54:36,910
Silas Newton had no reason to be a con

1161
00:54:39,450 --> 00:54:37,390
artist

1162
00:54:41,820 --> 00:54:39,460
he was extremely financially successful

1163
00:54:44,250 --> 00:54:41,830

and when you start pulling on those

1164

00:54:46,830 --> 00:54:44,260

threads as they have you realize very

1165

00:54:49,800 --> 00:54:46,840

quickly the story doesn't add up

1166

00:54:51,359 --> 00:54:49,810

and then it begs the next question well

1167

00:54:53,490 --> 00:54:51,369

then why are we being told this

1168

00:54:55,800 --> 00:54:53,500

narrative and it really opens it up to

1169

00:55:03,000 --> 00:54:55,810

this discussion that we're having on the

1170

00:55:04,830 --> 00:55:03,010

show today yeah at the time of Silas

1171

00:55:07,530 --> 00:55:04,840

Newton and Leo Gabe Bauer and this is

1172

00:55:12,210 --> 00:55:07,540

coming from an FBI document now keep in

1173

00:55:14,130 --> 00:55:12,220

mind this is 40 48 to 49 he had 20

1174

00:55:16,349 --> 00:55:14,140

million dollars cash in his personal

1175

00:55:18,810 --> 00:55:16,359

bank account hmm I don't know what that

1176
00:55:22,349 --> 00:55:18,820
would be equivalent today but that would

1177
00:55:24,900 --> 00:55:22,359
be huge and as we've learned over the

1178
00:55:28,650 --> 00:55:24,910
years his personal holdings were endless

1179
00:55:31,560 --> 00:55:28,660
and Leo gave our who we would all like

1180
00:55:35,340 --> 00:55:31,570
to read the horror stories about what a

1181
00:55:36,610 --> 00:55:35,350
con artist he was actually and Frank was

1182
00:55:38,170 --> 00:55:36,620
there we went to the fur

1183
00:55:42,520 --> 00:55:38,180
development that his construction

1184
00:55:45,040 --> 00:55:42,530
company built in Arizona and these are I

1185
00:55:48,280 --> 00:55:45,050
don't want to call him huge homes but

1186
00:55:50,650 --> 00:55:48,290
they were three four thousand

1187
00:55:53,290 --> 00:55:50,660
square-foot homes back in the day right

1188
00:55:56,020 --> 00:55:53,300

and they had we we were led to believe

1189

00:55:59,470 --> 00:55:56,030

that Leo gave our was electronic

1190

00:56:01,960 --> 00:55:59,480

salesmen sold TV vacuum tubes well that

1191

00:56:03,730 --> 00:56:01,970

part is true that was his hobby trading

1192

00:56:07,810 --> 00:56:03,740

and electronics but he had a very

1193

00:56:10,510 --> 00:56:07,820

successful contracting business well

1194

00:56:13,630 --> 00:56:10,520

interesting well I was trying to do that

1195

00:56:17,500 --> 00:56:13,640

calculation it looks like something like

1196

00:56:21,760 --> 00:56:17,510

two point four billion dollars possibly

1197

00:56:23,440 --> 00:56:21,770

that maybe off but yeah a billion here a

1198

00:56:25,870 --> 00:56:23,450

billion there pretty soon we're talking

1199

00:56:30,580 --> 00:56:25,880

a little bit of money a buck or two yeah

1200

00:56:33,880 --> 00:56:30,590

yeah Dave do you have anything else for

1201
00:56:35,890 --> 00:56:33,890
us um and I'd also also like to give a

1202
00:56:38,800 --> 00:56:35,900
plug I know you still have your your

1203
00:56:41,500 --> 00:56:38,810
GoFundMe up there can you talk a little

1204
00:56:44,830 --> 00:56:41,510
over here and the archive said just just

1205
00:56:47,050 --> 00:56:44,840
before you do that yeah go ahead it's

1206
00:56:47,500 --> 00:56:47,060
not it's not let me calculate it that's

1207
00:56:51,370 --> 00:56:47,510
too bad

1208
00:56:54,420 --> 00:56:51,380
oh yes no I'm sorry it was 214 million

1209
00:57:00,940 --> 00:56:54,430
seven hundred twenty-nine thousand and

1210
00:57:05,520 --> 00:57:00,950
eighty three cents nineteen forty now

1211
00:57:08,860 --> 00:57:05,530
yes so go ahead and gave if you would oh

1212
00:57:11,320 --> 00:57:08,870
yeah I just have been collecting a lot

1213
00:57:12,820 --> 00:57:11,330

of historical material and Scott and

1214

00:57:14,260 --> 00:57:12,830

Suzanne have been very instrumental in

1215

00:57:15,940 --> 00:57:14,270

putting me in touch with some witnesses

1216

00:57:17,380 --> 00:57:15,950

regarding the farmington research but

1217

00:57:20,110 --> 00:57:17,390

that's of course just one of a number of

1218

00:57:21,880 --> 00:57:20,120

cases i've been looking at and we've

1219

00:57:23,980 --> 00:57:21,890

talked before i've kind of set up a

1220

00:57:25,300 --> 00:57:23,990

GoFundMe site just for anybody that does

1221

00:57:26,770 --> 00:57:25,310

feel like they would you know

1222

00:57:28,630 --> 00:57:26,780

financially like to assist with

1223

00:57:30,220 --> 00:57:28,640

endeavors like trips out to Maxwell Air

1224

00:57:32,350 --> 00:57:30,230

Force Base and other things like that

1225

00:57:35,740 --> 00:57:32,360

and also securing these historical

1226

00:57:37,630 --> 00:57:35,750

collections it's great that Scott

1227

00:57:39,760 --> 00:57:37,640

Suzanne have been able to preserve some

1228

00:57:42,190 --> 00:57:39,770

of Steinman's research for future

1229

00:57:44,350 --> 00:57:42,200

generations and I think that's very

1230

00:57:46,930 --> 00:57:44,360

important and I know that we share that

1231

00:57:48,970 --> 00:57:46,940

passion for history and for preservation

1232

00:57:50,260 --> 00:57:48,980

of this information not just for

1233

00:57:52,780 --> 00:57:50,270

ourselves but for certain

1234

00:57:54,700 --> 00:57:52,790

future generations of researchers and so

1235

00:57:57,610 --> 00:57:54,710

I just want to commend them for their

1236

00:58:00,460 --> 00:57:57,620

efforts and just one last question

1237

00:58:02,320 --> 00:58:00,470

before I go for Scott Suzanne and dr.

1238

00:58:04,600 --> 00:58:02,330

Thayer is if they could maybe just touch

1239

00:58:06,670 --> 00:58:04,610

a little bit more obviously I live here

1240

00:58:08,320 --> 00:58:06,680

in New Mexico like dr. Thayer they get

1241

00:58:10,540 --> 00:58:08,330

just such a little bit more on being Los

1242

00:58:12,310 --> 00:58:10,550

Alamos connection with regard to the

1243

00:58:15,040 --> 00:58:12,320

haze because I was really fascinated by

1244

00:58:16,750 --> 00:58:15,050

that yeah and as a crow flies how far

1245

00:58:21,280 --> 00:58:16,760

was that you know you want to start out

1246

00:58:25,420 --> 00:58:21,290

Frank 150 miles just sort of south

1247

00:58:27,580 --> 00:58:25,430

southeast Aztec and we figured that's

1248

00:58:29,140 --> 00:58:27,590

where the disk was taken first and

1249

00:58:32,230 --> 00:58:29,150

that's where the scientists first

1250

00:58:33,970 --> 00:58:32,240

examined it before they got in touch

1251

00:58:36,340 --> 00:58:33,980

with their old friend Silas Newton who

1252

00:58:40,150 --> 00:58:36,350

was a geophysicist he was not just an

1253

00:58:41,830 --> 00:58:40,160

oil guy he was a really at me and

1254

00:58:45,010 --> 00:58:41,840

advanced degrees from University of

1255

00:58:48,190 --> 00:58:45,020

Berlin he was he was a very educated man

1256

00:58:50,500 --> 00:58:48,200

and they told him a story he told Scully

1257

00:58:53,470 --> 00:58:50,510

the story and that's how it got out from

1258

00:58:56,200 --> 00:58:53,480

under the under the military and they

1259

00:58:58,390 --> 00:58:56,210

had to go to lanes to stop it but Los

1260

00:59:01,600 --> 00:58:58,400

Alamos is still one of the most secret

1261

00:59:04,270 --> 00:59:01,610

places in New Mexico dance on the base

1262

00:59:06,840 --> 00:59:04,280

he's had secret clearance I'll be there

1263

00:59:09,550 --> 00:59:06,850

at the end of the month yeah Wow

1264

00:59:11,380 --> 00:59:09,560

interesting yeah my brother-in-law I

1265

00:59:12,850 --> 00:59:11,390

worked there I spied lived in Los Alamos

1266

00:59:14,680 --> 00:59:12,860

for a while I don't know if I ever said

1267

00:59:16,930 --> 00:59:14,690

that on the show for I don't know maybe

1268

00:59:20,860 --> 00:59:16,940

six months or so and my brother-in-law

1269

00:59:26,320 --> 00:59:20,870

was at the lab yeah and couldn't talk

1270

00:59:28,090 --> 00:59:26,330

about much or didn't talk about much hey

1271

00:59:31,510 --> 00:59:28,100

we sure want to appreciate you calling

1272

00:59:34,210 --> 00:59:31,520

in and and our best to you and Kendra

1273

00:59:36,730 --> 00:59:34,220

and thank you for the research that you

1274

00:59:39,480 --> 00:59:36,740

do too we we had such a good time with

1275

00:59:42,880 --> 00:59:39,490

you and it was such a treat to be with

1276
00:59:45,820 --> 00:59:42,890
people that value history and accurate

1277
00:59:48,070 --> 00:59:45,830
documentation of history as you do it

1278
00:59:49,810 --> 00:59:48,080
was it was almost like we don't get a

1279
00:59:51,820 --> 00:59:49,820
chance to do that very often be with

1280
00:59:56,770 --> 00:59:51,830
people of that quality and it was just a

1281
00:59:58,720 --> 00:59:56,780
feeding frenzy we took advantage of

1282
01:00:00,720 --> 00:59:58,730
three three full days there I we went

1283
01:00:03,240 --> 01:00:00,730
through a lot of files

1284
01:00:05,970 --> 01:00:03,250
hey your big days coming up good luck to

1285
01:00:09,960 --> 01:00:05,980
you thank you very much yeah come out

1286
01:00:11,940 --> 01:00:09,970
tonight and we get to the story of the

1287
01:00:15,109 --> 01:00:11,950
real story of Farmington it's a

1288
01:00:19,950 --> 01:00:18,329

it's needed to been told properly and

1289

01:00:21,720 --> 01:00:19,960

and it's in good hands

1290

01:00:25,079 --> 01:00:21,730

that's right all right Dave thanks so

1291

01:00:28,290 --> 01:00:25,089

much thank you and great show all right

1292

01:00:31,890 --> 01:00:28,300

take care all right a question I'm gonna

1293

01:00:34,650 --> 01:00:31,900

ask I'm gonna ask you first Scott and

1294

01:00:37,290 --> 01:00:34,660

Suzanne and that is were there times

1295

01:00:41,220 --> 01:00:37,300

when you felt like giving up like I've

1296

01:00:44,640 --> 01:00:41,230

had it and or did you just have you just

1297

01:00:46,020 --> 01:00:44,650

stayed right on this you know it seems

1298

01:00:48,150 --> 01:00:46,030

like everyone goes through those phases

1299

01:00:53,040 --> 01:00:48,160

and I just wondered to hear that from

1300

01:00:55,800 --> 01:00:53,050

you I don't know I think there's days

1301

01:00:59,400 --> 01:00:55,810

you get frustrated you know many trips

1302

01:01:04,890 --> 01:00:59,410

down to Maxwell and you know there's \$10

1303

01:01:07,440 --> 01:01:04,900

or 10 million file boxes and million

1304

01:01:09,300 --> 01:01:07,450

yeah I mean the entire history of the

1305

01:01:10,620 --> 01:01:09,310

Air Force is sitting in this building it

1306

01:01:12,990 --> 01:01:10,630

looks like a building out of Indiana

1307

01:01:15,359 --> 01:01:13,000

Jones and of course you don't have free

1308

01:01:17,970 --> 01:01:15,369

rein yeah look you get down with your

1309

01:01:20,160 --> 01:01:17,980

list and I'd like documents this this

1310

01:01:22,380 --> 01:01:20,170

and this and they either come back with

1311

01:01:25,650 --> 01:01:22,390

a yeah we're gonna read it and we're

1312

01:01:29,040 --> 01:01:25,660

gonna think about it and pass it on to

1313

01:01:30,900 --> 01:01:29,050

the intelligence folks and you know you

1314

01:01:32,460 --> 01:01:30,910

could be there a whole i l've gotten

1315

01:01:34,829 --> 01:01:32,470

down there Sunday night to be there

1316

01:01:36,440 --> 01:01:34,839

first thing Monday and left Friday when

1317

01:01:38,970 --> 01:01:36,450

they were throwing me out the door and

1318

01:01:40,740 --> 01:01:38,980

some trips you come back with a couple

1319

01:01:43,920 --> 01:01:40,750

of gems and some trips you come back

1320

01:01:46,349 --> 01:01:43,930

with absolutely nothing and the Air

1321

01:01:48,420 --> 01:01:46,359

Force is incredibly good to work with I

1322

01:01:50,640 --> 01:01:48,430

want your listening audience to know

1323

01:01:52,410 --> 01:01:50,650

that they're they're not

1324

01:01:54,120 --> 01:01:52,420

stick-in-the-muds like well you know we

1325

01:01:56,160 --> 01:01:54,130

don't even like you UFO people being

1326

01:01:59,460 --> 01:01:56,170

here the total opposite that they're

1327

01:02:02,359 --> 01:01:59,470

great people very professional but just

1328

01:02:06,210 --> 01:02:02,369

say they have a job to do and because of

1329

01:02:08,849 --> 01:02:06,220

many reasons sources methods and means

1330

01:02:11,670 --> 01:02:08,859

as the top one they can't always give

1331

01:02:14,400 --> 01:02:11,680

you documents even from back in 1948

1332

01:02:17,370 --> 01:02:14,410

if those sources are still being used

1333

01:02:19,740 --> 01:02:17,380

or the methods or the means but yeah

1334

01:02:22,380 --> 01:02:19,750

sometimes driving back late Friday night

1335

01:02:24,300 --> 01:02:22,390

back to North Carolina it's kind of like

1336

01:02:26,540 --> 01:02:24,310

well I spent a lot of money and a lot of

1337

01:02:29,550 --> 01:02:26,550

time and I'm coming back with nothing

1338

01:02:31,740 --> 01:02:29,560

but that a good night's sleep and that

1339

01:02:35,190 --> 01:02:31,750

would change well and I and I can say

1340

01:02:38,220 --> 01:02:35,200

that since we've been married were we're

1341

01:02:41,160 --> 01:02:38,230

on our way to 16 years and since we've

1342

01:02:43,110 --> 01:02:41,170

been married except for the last I would

1343

01:02:45,540 --> 01:02:43,120

say probably eight months we've taken

1344

01:02:49,710 --> 01:02:45,550

our first real break in all that time

1345

01:02:52,620 --> 01:02:49,720

right including our we've had some other

1346

01:02:54,750 --> 01:02:52,630

obligations but including our honeymoon

1347

01:02:57,090 --> 01:02:54,760

all but two of our days of our honeymoon

1348

01:03:00,180 --> 01:02:57,100

we have talked and worked on this

1349

01:03:01,980 --> 01:03:00,190

project and have had a passion and I

1350

01:03:03,360 --> 01:03:01,990

tell you what and I know we don't have

1351

01:03:08,810 --> 01:03:03,370

time because we're going to a break but

1352

01:03:11,250 --> 01:03:08,820

no no okay there are so many instances

1353

01:03:15,320 --> 01:03:11,260

where and I can think of when we were in

1354

01:03:18,300 --> 01:03:15,330

Minneapolis and we were at the Minnesota

1355

01:03:21,180 --> 01:03:18,310

University of Minnesota and you know

1356

01:03:22,950 --> 01:03:21,190

both of us were tired and and you're

1357

01:03:24,330 --> 01:03:22,960

just you don't even know you know what

1358

01:03:26,010 --> 01:03:24,340

you're looking for if you don't always

1359

01:03:27,690 --> 01:03:26,020

know when you're gonna find it and they

1360

01:03:29,700 --> 01:03:27,700

brought up the boxes and you have to

1361

01:03:32,850 --> 01:03:29,710

wear white gloves and these boxes have

1362

01:03:35,670 --> 01:03:32,860

been in the archives underneath ground

1363

01:03:37,290 --> 01:03:35,680

or several floors nobody's looked at

1364

01:03:42,360 --> 01:03:37,300

them we're sitting going through

1365

01:03:44,460 --> 01:03:42,370

documents and you find a treasure and

1366

01:03:46,740 --> 01:03:44,470

you find something and it's like a

1367

01:03:48,600 --> 01:03:46,750

treasure hunt and I could just you're so

1368

01:03:49,860 --> 01:03:48,610

giddy you can hardly control yourself

1369

01:03:52,230 --> 01:03:49,870

and you have to be quiet in this library

1370

01:03:54,840 --> 01:03:52,240

because you know everybody that's the

1371

01:03:56,640 --> 01:03:54,850

rules but it's things like that it seems

1372

01:03:59,340 --> 01:03:56,650

like every time that we start tonight

1373

01:04:01,440 --> 01:03:59,350

I'm sure Frank's gonna mirror this that

1374

01:04:04,470 --> 01:04:01,450

every time that we get to the point that

1375

01:04:07,230 --> 01:04:04,480

we think you know maybe we just need to

1376

01:04:09,330 --> 01:04:07,240

take a big break on this either somebody

1377

01:04:11,400 --> 01:04:09,340

comes into our lives or our new piece of

1378

01:04:13,770 --> 01:04:11,410

information or something that gets us

1379

01:04:15,210 --> 01:04:13,780

all juiced up again and and I'll pass

1380

01:04:16,560 --> 01:04:15,220

that you Frank I'm gonna step up for a

1381

01:04:21,450 --> 01:04:16,570

second turn on the light cuz it's

1382

01:04:24,210 --> 01:04:21,460

getting kind of dark that okay and carry

1383

01:04:26,130 --> 01:04:24,220

on what Suzanne was saying the discovery

1384

01:04:27,030 --> 01:04:26,140

at the University of Wyoming was a

1385

01:04:29,820 --> 01:04:27,040

bonanza

1386

01:04:32,400 --> 01:04:29,830

yeah Frank's goes--whoa nobody'd ever

1387

01:04:34,380 --> 01:04:32,410

looked at him nobody had seen them it

1388

01:04:36,020 --> 01:04:34,390

was except with the air force right

1389

01:04:39,960 --> 01:04:36,030

before we got there

1390

01:04:42,450 --> 01:04:39,970

Geo what they were looking for but wire

1391

01:04:45,180 --> 01:04:42,460

recordings from the four in the late 40s

1392

01:04:47,640 --> 01:04:45,190

and early 50s though thanks to our

1393

01:04:50,610 --> 01:04:47,650

friend Mike great price we got those

1394

01:04:52,980 --> 01:04:50,620

things transferred into digital and so

1395

01:04:55,440 --> 01:04:52,990

we have the Silas Newton lecture to the

1396

01:04:57,990 --> 01:04:55,450

University of Denver captured in its

1397

01:05:00,810 --> 01:04:58,000

entirety and even listened to Silas

1398

01:05:03,390 --> 01:05:00,820

Newton talking to that class of science

1399

01:05:06,360 --> 01:05:03,400

students and that's how Frank's Co he

1400

01:05:08,810 --> 01:05:06,370

started his book now well how long after

1401

01:05:11,610 --> 01:05:08,820

the incident was that was that I wasn't

1402

01:05:13,800 --> 01:05:11,620

1950 when he did that and I came to the

1403

01:05:15,960 --> 01:05:13,810

University of Denver when Silas Newton

1404

01:05:18,690 --> 01:05:15,970

broke the news to the world through the

1405

01:05:20,880 --> 01:05:18,700

students that a UFO had been recovered

1406

01:05:23,220 --> 01:05:20,890

in northern New Mexico it was a

1407

01:05:31,530 --> 01:05:23,230

bombshell boy the Air Force was looking

1408

01:05:35,100 --> 01:05:31,540

for him the Air Force was on the campus

1409

01:05:36,720 --> 01:05:35,110

before the lecture was over yeah is that

1410

01:05:39,930 --> 01:05:36,730

right wow that's amazing

1411

01:05:43,680 --> 01:05:39,940

so Frank the question was have you have

1412

01:05:46,710 --> 01:05:43,690

you stayed steadfast too in your

1413

01:05:50,640 --> 01:05:46,720

research or it has been one that you've

1414

01:05:52,950 --> 01:05:50,650

had to put down now and then I think

1415

01:05:55,650 --> 01:05:52,960

that I've retained my enthusiasm from

1416

01:05:59,100 --> 01:05:55,660

the time I first read Steinman book and

1417

01:06:02,940 --> 01:05:59,110

wrote an essay that's how Scott found me

1418

01:06:05,540 --> 01:06:02,950

gotten Suzanne found me so for the last

1419

01:06:08,280 --> 01:06:05,550

10 years I've maintained my enthusiasm

1420

01:06:11,880 --> 01:06:08,290

there is so much more stuff that we only

1421

01:06:13,950 --> 01:06:11,890

have the time to assemble it right it is

1422

01:06:16,320 --> 01:06:13,960

just to confirm what we've already

1423

01:06:18,450 --> 01:06:16,330

proved we have proved the case as far as

1424

01:06:20,670 --> 01:06:18,460

I'm concerned and now it's just time to

1425

01:06:24,510 --> 01:06:20,680

bring up some stuff from underground and

1426

01:06:27,240 --> 01:06:24,520

add to it to show that this is the case

1427

01:06:30,180 --> 01:06:27,250

and maybe it is more powerful than

1428

01:06:33,390 --> 01:06:30,190

Roswell I'm not saying it is but I'm I'm

1429

01:06:34,950 --> 01:06:33,400

I think I'm biased okay you know I might

1430

01:06:37,350 --> 01:06:34,960

mention something too real quick if I

1431

01:06:39,180 --> 01:06:37,360

could is one of the things that we have

1432

01:06:40,620 --> 01:06:39,190

never had an opportunity to do in the

1433

01:06:43,500 --> 01:06:40,630

two books that we've written

1434

01:06:46,530 --> 01:06:43,510

you're limited by the number of

1435

01:06:51,780 --> 01:06:46,540

illustrations the number of pages so out

1436

01:06:54,270 --> 01:06:51,790

of 55,000 documents we had to pick and

1437

01:06:55,140 --> 01:06:54,280

choose and try to piece together as much

1438

01:06:56,940 --> 01:06:55,150

as we can

1439

01:07:00,270 --> 01:06:56,950

one of the things that's never been done

1440

01:07:03,150 --> 01:07:00,280

is there is nobody that has ever told

1441

01:07:04,680 --> 01:07:03,160

the whole story the entire story and all

1442

01:07:09,780 --> 01:07:04,690

the people that have been involved with

1443

01:07:12,720 --> 01:07:09,790

it there's a city councilperson there's

1444

01:07:16,830 --> 01:07:12,730

sheriffs there's people that it's not

1445

01:07:19,650 --> 01:07:16,840

been released and so that's something

1446

01:07:22,860 --> 01:07:19,660

that I think that keeps us used up is to

1447

01:07:25,830 --> 01:07:22,870

be able to in one form or another tell

1448

01:07:29,190 --> 01:07:25,840

the comprehensive story and really have

1449

01:07:31,860 --> 01:07:29,200

history documented and then how all of

1450

01:07:33,660 --> 01:07:31,870

our research supports that so I didn't

1451

01:07:36,900 --> 01:07:33,670

mean to cut you short but I did I think

1452

01:07:38,490 --> 01:07:36,910

that's really important I agree it would

1453

01:07:40,890 --> 01:07:38,500

be nice to tell that story and maybe

1454

01:07:45,870 --> 01:07:40,900

we'll get to do it I'd like to add one

1455

01:07:48,120 --> 01:07:45,880

thing Stanton Friedman of course over

1456

01:07:50,010 --> 01:07:48,130

the years has come jumped into the Aztec

1457

01:07:52,050 --> 01:07:50,020

fray and been a big big help

1458

01:07:53,760 --> 01:07:52,060

he was one that had it in the great

1459

01:07:55,680 --> 01:07:53,770

basket for years never in the black

1460

01:07:58,290 --> 01:07:55,690

basket never in the white basket but the

1461

01:08:00,450 --> 01:07:58,300

gray basket and we just had dinner with

1462

01:08:01,920 --> 01:08:00,460

stand a few few months back and he's

1463

01:08:03,900 --> 01:08:01,930

very enthusiastic

1464

01:08:07,980 --> 01:08:03,910

there's a gentleman it needs a little

1465

01:08:11,580 --> 01:08:07,990

bit of a de bois bobko furred out in

1466

01:08:14,310 --> 01:08:11,590

california bob has taken a big interest

1467

01:08:18,450 --> 01:08:14,320

in Aztec and he is a document in my

1468

01:08:20,640 --> 01:08:18,460

opinion world-class expert he has dug up

1469

01:08:24,900 --> 01:08:20,650

documents that in places that we've been

1470

01:08:26,880 --> 01:08:24,910

but we didn't find him and CIA for one I

1471

01:08:30,570 --> 01:08:26,890

act again we could do a whole show on

1472

01:08:34,260 --> 01:08:30,580

Bob covert and he's been really good in

1473

01:08:36,060 --> 01:08:34,270

helping us and supporting us and if we

1474

01:08:39,090 --> 01:08:36,070

do another book which of course we're

1475

01:08:41,910 --> 01:08:39,100

talking about Bob will probably be on

1476

01:08:43,740 --> 01:08:41,920

our team Stein knew who's going to be on

1477

01:08:48,560 --> 01:08:43,750

our team and then he had to drop dead

1478

01:08:52,539 --> 01:08:48,570

one I unfortunately I lost a good friend

1479

01:08:55,839 --> 01:08:52,549

person yeah the culprits work is

1480

01:08:58,269 --> 01:08:55,849

and it's all centered on Aztec and you

1481

01:09:01,269 --> 01:08:58,279

know I might add too and I'm sorry Frank

1482

01:09:05,109 --> 01:09:01,279

in terms of Bill Simon to something that

1483

01:09:08,739 --> 01:09:05,119

we were really honored with is he wrote

1484

01:09:10,930 --> 01:09:08,749

the second book about Aztec and then

1485

01:09:14,769 --> 01:09:10,940

when Scott got in contact with him

1486

01:09:16,539 --> 01:09:14,779

bill vetted Scott very heavily and took

1487

01:09:19,419 --> 01:09:16,549

time to get to know him before he would

1488

01:09:21,609 --> 01:09:19,429

do share any information and he became

1489

01:09:25,029 --> 01:09:21,619

such a dear friend of ours and it was

1490

01:09:27,430 --> 01:09:25,039

really nice to be able to work as a team

1491

01:09:29,709 --> 01:09:27,440

and have him as a member of the team and

1492

01:09:33,099 --> 01:09:29,719

our us be a member of his instead of

1493

01:09:34,809 --> 01:09:33,109

competing or sometimes that gets nasty

1494

01:09:37,950 --> 01:09:34,819

it really was an honor and I'm sorry

1495

01:09:40,599 --> 01:09:37,960

Frank go ahead yeah I agree with Suzanne

1496

01:09:44,649 --> 01:09:40,609

bobko fir'd has found a lot of stuff

1497

01:09:46,930 --> 01:09:44,659

about March 25th 1948 the American

1498

01:09:49,839 --> 01:09:46,940

government suddenly woke up in March

1499

01:09:53,890 --> 01:09:49,849

25th was a very big day for the American

1500

01:09:57,970 --> 01:09:53,900

government yeah I wonder why in the 26

1501
01:09:59,620 --> 01:09:57,980
those two days yes it changed it changed

1502
01:10:01,359 --> 01:09:59,630
history as we know it today

1503
01:10:05,319 --> 01:10:01,369
yeah great guy for you to have on the

1504
01:10:10,899 --> 01:10:05,329
show oh yes uh-huh

1505
01:10:14,040 --> 01:10:10,909
now about witnesses approximately how

1506
01:10:16,049 --> 01:10:14,050
many witnesses were to the crash itself

1507
01:10:18,700 --> 01:10:16,059
are you aware of that

1508
01:10:21,250 --> 01:10:18,710
hmm I think I think I've pieced together

1509
01:10:25,560 --> 01:10:21,260
not that we were able to talk or know

1510
01:10:30,339 --> 01:10:25,570
all of them but it looks like 16 people

1511
01:10:32,279 --> 01:10:30,349
16 and then afterwards afterwards there

1512
01:10:36,129 --> 01:10:32,289
was the military there were those

1513
01:10:39,250 --> 01:10:36,139

purportedly the scientists and can you

1514

01:10:43,089 --> 01:10:39,260

talk about the scientists and and and

1515

01:10:46,149 --> 01:10:43,099

Scully the connection there Frank Scully

1516

01:10:48,910 --> 01:10:46,159

in his book and by the way those want to

1517

01:10:52,149 --> 01:10:48,920

reach out and buy one on Amazon it's

1518

01:10:54,609 --> 01:10:52,159

called behind the flying saucers it was

1519

01:10:58,799 --> 01:10:54,619

the first hardback book ever published

1520

01:11:00,310 --> 01:10:58,809

on the subject of flying saucers it

1521

01:11:04,060 --> 01:11:00,320

Frank Scully

1522

01:11:06,339 --> 01:11:04,070

in his book takes eight to nine

1523

01:11:08,740 --> 01:11:06,349

scientists there were nine one died

1524

01:11:13,990 --> 01:11:08,750

and puts them under one umbrella and

1525

01:11:16,030 --> 01:11:14,000

refers to him as dr. G and that was

1526

01:11:18,729 --> 01:11:16,040

another part of Aztec that got poo poed

1527

01:11:21,490 --> 01:11:18,739

over the years where some of the crazy

1528

01:11:23,709 --> 01:11:21,500

claims these scientists made when that

1529

01:11:27,310 --> 01:11:23,719

when they sat down and were interviewed

1530

01:11:28,959 --> 01:11:27,320

by Frank Scully such as these scientists

1531

01:11:31,780 --> 01:11:28,969

said during World War 2 they had a

1532

01:11:35,080 --> 01:11:31,790

billion dollar budget which nobody could

1533

01:11:38,410 --> 01:11:35,090

even fathom a billion dollars in 1950

1534

01:11:42,520 --> 01:11:38,420

and that they had technology that they

1535

01:11:44,950 --> 01:11:42,530

could sniff out subs underwater and in

1536

01:11:47,260 --> 01:11:44,960

one day took out seven well people

1537

01:11:49,060 --> 01:11:47,270

reading that book in 1950 so come on

1538

01:11:51,450 --> 01:11:49,070

World War two is only over five years

1539

01:11:55,510 --> 01:11:51,460

ago we've never heard of this technology

1540

01:11:57,339 --> 01:11:55,520

well it turns out by the time 1990-1995

1541

01:12:00,069 --> 01:11:57,349

rolled around and with the help of the

1542

01:12:03,339 --> 01:12:00,079

people at Texas Instruments we found out

1543

01:12:07,120 --> 01:12:03,349

that technology did exist and we found

1544

01:12:09,640 --> 01:12:07,130

out that the special group that worked

1545

01:12:11,500 --> 01:12:09,650

on everything and splintering off

1546

01:12:13,839 --> 01:12:11,510

including the Manhattan Project their

1547

01:12:17,770 --> 01:12:13,849

budget was a billion dollars annually

1548

01:12:19,930 --> 01:12:17,780

now we started taking the clues that

1549

01:12:21,669 --> 01:12:19,940

Frank Scully do have you ever if you're

1550

01:12:24,280 --> 01:12:21,679

ever read his book part know behind the

1551

01:12:27,490 --> 01:12:24,290

plum site that's it you need a copy I've

1552

01:12:29,740 --> 01:12:27,500

got one you start like peeling back the

1553

01:12:32,379 --> 01:12:29,750

young you know on each scientist that

1554

01:12:34,479 --> 01:12:32,389

Scully talks about and then you look at

1555

01:12:36,609 --> 01:12:34,489

who the scientists the war in these

1556

01:12:38,470 --> 01:12:36,619

programs you can go well that's a you

1557

01:12:41,080 --> 01:12:38,480

see that's this guy and that's this guy

1558

01:12:43,839 --> 01:12:41,090

I say easy it took us three years he

1559

01:12:46,000 --> 01:12:43,849

creates almost like riddles yeah look so

1560

01:12:48,399 --> 01:12:46,010

he doesn't directly say their names it

1561

01:12:50,919 --> 01:12:48,409

doesn't say the name he gives like a

1562

01:12:52,959 --> 01:12:50,929

riddle a little hint of well he got his

1563

01:12:55,540 --> 01:12:52,969

degree at this college and then went to

1564

01:12:58,000 --> 01:12:55,550

Berlin Germany and finished another

1565

01:13:00,760 --> 01:12:58,010

degree and then came back and worked for

1566

01:13:02,350 --> 01:13:00,770

the War Department and you just we had

1567

01:13:04,000 --> 01:13:02,360

to sit there and a lot of people helped

1568

01:13:06,520 --> 01:13:04,010

on this Frank Warren from the UFO

1569

01:13:09,100 --> 01:13:06,530

Chronicles was a big help and we just

1570

01:13:11,620 --> 01:13:09,110

had to mold all these resumes together

1571

01:13:13,689 --> 01:13:11,630

and see who it fit and the one that we

1572

01:13:16,649 --> 01:13:13,699

came up with that was most fascinating

1573

01:13:20,200 --> 01:13:16,659

was Jonathan

1574

01:13:21,790 --> 01:13:20,210

Turin state that after the war

1575

01:13:27,610 --> 01:13:21,800

went back to the University of Minnesota

1576

01:13:31,690 --> 01:13:27,620

and and died just weeks before Frank

1577

01:13:33,729 --> 01:13:31,700

Scully's book came out sadly so the

1578

01:13:35,590 --> 01:13:33,739

scientists were rely they weren't a

1579

01:13:38,860 --> 01:13:35,600

figment of Frank Scully's imagination

1580

01:13:42,820 --> 01:13:38,870

but these were world-class scientists I

1581

01:13:44,950 --> 01:13:42,830

mean they they were amazing people and

1582

01:13:46,270 --> 01:13:44,960

hand-picked to work for those projects

1583

01:13:49,479 --> 01:13:46,280

during World War two

1584

01:13:53,520 --> 01:13:49,489

and their poor Naturals to be working on

1585

01:13:57,150 --> 01:13:53,530

something unknown such as a flying disc

1586

01:14:01,600 --> 01:13:57,160

and you wonder or I wonder I should say

1587

01:14:04,209 --> 01:14:01,610

pardon me where where all the tinkering

1588

01:14:06,400 --> 01:14:04,219

you know did it lead to anything did

1589

01:14:10,930 --> 01:14:06,410

they figure anything out you know I mean

1590

01:14:13,060 --> 01:14:10,940

when you I saw your your disc a picture

1591

01:14:15,070 --> 01:14:13,070

of your disc that you had and there's

1592

01:14:17,080 --> 01:14:15,080

absolutely no place that it looks like

1593

01:14:20,050 --> 01:14:17,090

there's any place you know any

1594

01:14:23,530 --> 01:14:20,060

propulsion to it at all you know so it's

1595

01:14:24,700 --> 01:14:23,540

it's a it's interesting and the the

1596

01:14:26,709 --> 01:14:24,710

thing you said at the beginning of the

1597

01:14:28,810 --> 01:14:26,719

show someone reached in with like a pole

1598

01:14:31,780 --> 01:14:28,820

and pushed a button and door open

1599

01:14:33,700 --> 01:14:31,790

that sounds primitive almost you know

1600

01:14:37,660 --> 01:14:33,710

well are you gonna remember all the oil

1601
01:14:39,550 --> 01:14:37,670
field workers out there those trucks and

1602
01:14:42,640 --> 01:14:39,560
we have a brother-in-law that works out

1603
01:14:44,290 --> 01:14:42,650
there in the oil fields they have a lot

1604
01:14:47,440 --> 01:14:44,300
of equipment on those trucks they have

1605
01:14:49,390 --> 01:14:47,450
winches they have welders if we could go

1606
01:14:51,220 --> 01:14:49,400
on and on and on and they also have to

1607
01:14:53,920 --> 01:14:51,230
sometimes be their own fire truck in

1608
01:14:56,740 --> 01:14:53,930
case they have a fire and it was

1609
01:14:58,780 --> 01:14:56,750
described that it was a fire pole that

1610
01:15:00,790 --> 01:14:58,790
was pushed through the porthole now I

1611
01:15:03,040 --> 01:15:00,800
didn't mean I didn't mean the use of the

1612
01:15:06,520 --> 01:15:03,050
fire pole I just mean I meant that a

1613
01:15:08,770 --> 01:15:06,530

button could be pushed Ryan's right you

1614

01:15:11,260 --> 01:15:08,780

know well but one thing a couple things

1615

01:15:15,670 --> 01:15:11,270

that they found and think of where we're

1616

01:15:18,550 --> 01:15:15,680

at today was they saw where you would

1617

01:15:24,760 --> 01:15:18,560

push your handprint in on their

1618

01:15:26,470 --> 01:15:24,770

handprint in right - I guess drive

1619

01:15:31,690 --> 01:15:26,480

something is that would that be an

1620

01:15:34,040 --> 01:15:31,700

accurate description the UH around the

1621

01:15:38,540 --> 01:15:34,050

dome there was

1622

01:15:39,950 --> 01:15:38,550

a reflective glass like that you

1623

01:15:43,730 --> 01:15:39,960

couldn't see that there was anything

1624

01:15:47,710 --> 01:15:43,740

there and it was almost like sunglasses

1625

01:15:52,010 --> 01:15:47,720

that the old highway patrolman usual

1626
01:15:54,800 --> 01:15:52,020
glasses which that didn't exist there

1627
01:15:58,370 --> 01:15:54,810
were CDs like type things with

1628
01:16:00,800 --> 01:15:58,380
information on them so there were am I

1629
01:16:01,520 --> 01:16:00,810
thinking what are some things else that

1630
01:16:04,370 --> 01:16:01,530
I'm missing

1631
01:16:06,110 --> 01:16:04,380
oh you're how about the consoles that

1632
01:16:09,530 --> 01:16:06,120
they described it looking like little

1633
01:16:11,900 --> 01:16:09,540
typewriters yeat that's what they

1634
01:16:15,050 --> 01:16:11,910
thought they were obvious with some sort

1635
01:16:18,260 --> 01:16:15,060
of computers we're operating with the

1636
01:16:24,020 --> 01:16:18,270
ship and they were described in 1949

1637
01:16:27,830 --> 01:16:24,030
terms not in terms that we see today we

1638
01:16:31,430 --> 01:16:27,840

could alert something knows flat flat TV

1639

01:16:33,800 --> 01:16:31,440

like screams that you know 1950 when you

1640

01:16:35,210 --> 01:16:33,810

read Frank Scully's book that didn't

1641

01:16:38,900 --> 01:16:35,220

actually come out till Steinman's book

1642

01:16:40,760 --> 01:16:38,910

but you'd look at that and say flat TV

1643

01:16:45,560 --> 01:16:40,770

like screams well we're talking to you

1644

01:16:47,690 --> 01:16:45,570

on one yes it's crazy but but you could

1645

01:16:49,550 --> 01:16:47,700

see we're in 1950 when people read

1646

01:16:53,210 --> 01:16:49,560

Scully's book they put it down and shake

1647

01:16:57,110 --> 01:16:53,220

their head so yeah this is a Buck Rogers

1648

01:16:59,600 --> 01:16:57,120

book it's not a you know a UFO hmm and

1649

01:17:02,920 --> 01:16:59,610

was he trying to be as factual as he

1650

01:17:08,570 --> 01:17:02,930

could at the time yes he was extremely

1651

01:17:11,720 --> 01:17:08,580

factual 100% we tried to go and to see

1652

01:17:13,640 --> 01:17:11,730

him that everything was accurate and she

1653

01:17:18,910 --> 01:17:13,650

looked for any any problems that we have

1654

01:17:21,650 --> 01:17:18,920

never found yes but he you know breezy

1655

01:17:24,050 --> 01:17:21,660

journalistic style and you think well

1656

01:17:26,350 --> 01:17:24,060

maybe just how he would report her but

1657

01:17:29,480 --> 01:17:26,360

everything he said is checked out

1658

01:17:32,570 --> 01:17:29,490

backward and forward and we've been over

1659

01:17:34,820 --> 01:17:32,580

it so many times and you got to respect

1660

01:17:36,260 --> 01:17:34,830

the guy he knew what he was doing and he

1661

01:17:39,950 --> 01:17:36,270

never revealed the names of the

1662

01:17:43,310 --> 01:17:39,960

scientists not even to his wife and

1663

01:17:45,950 --> 01:17:43,320

children yes and but the book was

1664

01:17:49,330 --> 01:17:45,960

totally discredited at the time yes

1665

01:17:53,510 --> 01:17:51,560

there's a person by the name of Jay

1666

01:17:55,190 --> 01:17:53,520

pecan and we've used his name but I

1667

01:17:58,100 --> 01:17:55,200

don't think we've told who he is Jay

1668

01:18:01,910 --> 01:17:58,110

pecan at the time when when Scully

1669

01:18:05,180 --> 01:18:01,920

received this information okay skali

1670

01:18:08,540 --> 01:18:05,190

received this information about the

1671

01:18:13,670 --> 01:18:08,550

craft and was asked to go ahead and tell

1672

01:18:17,740 --> 01:18:13,680

the story he put out a few short stories

1673

01:18:20,750 --> 01:18:17,750

and and articles in some magazines and

1674

01:18:23,060 --> 01:18:20,760

JP Kahn was a person that worked for the

1675

01:18:25,820 --> 01:18:23,070

San Francisco Chronicle he really had a

1676

01:18:29,000 --> 01:18:25,830

desk there he was independently wealthy

1677

01:18:32,210 --> 01:18:29,010

never had to work a day in his life he

1678

01:18:34,760 --> 01:18:32,220

was inherited as well so he would go to

1679

01:18:36,620 --> 01:18:34,770

his desk and have fun more or less

1680

01:18:38,540 --> 01:18:36,630

really that's that's my interpretation

1681

01:18:41,900 --> 01:18:38,550

but that's that's really more or less

1682

01:18:46,550 --> 01:18:41,910

what he did and he got wind of these

1683

01:18:48,950 --> 01:18:46,560

stories and he had told the management

1684

01:18:50,600 --> 01:18:48,960

of the San Francisco Chronicle oh I can

1685

01:18:53,750 --> 01:18:50,610

get this information and I'll just write

1686

01:18:57,350 --> 01:18:53,760

the story and we can run with it he's

1687

01:18:59,200 --> 01:18:57,360

very arrogant man and he went to Scully

1688

01:19:01,160 --> 01:18:59,210

and said I'd like to buy that

1689

01:19:02,990 --> 01:19:01,170

information from you and Scully said I

1690

01:19:05,330 --> 01:19:03,000

can't release that information who the

1691

01:19:08,330 --> 01:19:05,340

scientists are and I'm in the process of

1692

01:19:10,270 --> 01:19:08,340

writing it anyway so no so numerous

1693

01:19:13,460 --> 01:19:10,280

times

1694

01:19:16,610 --> 01:19:13,470

JP Kahn came back with higher and higher

1695

01:19:18,710 --> 01:19:16,620

money and trying to persuade because he

1696

01:19:21,020 --> 01:19:18,720

had made promises that he was going to

1697

01:19:25,220 --> 01:19:21,030

get this done and Annie

1698

01:19:29,660 --> 01:19:25,230

and obviously Scully said no so JP was

1699

01:19:32,360 --> 01:19:29,670

so upset that he went about with his

1700

01:19:35,540 --> 01:19:32,370

wealth and his free time discrediting

1701

01:19:38,750 --> 01:19:35,550

every single person and we have we have

1702

01:19:41,690 --> 01:19:38,760

research and we have information you

1703

01:19:44,540 --> 01:19:41,700

could read it that talks about JP Kahn

1704

01:19:46,220 --> 01:19:44,550

sending to J Edgar Hoover we have a copy

1705

01:19:49,880 --> 01:19:46,230

of the original letter that was sent to

1706

01:19:53,390 --> 01:19:49,890

Jagger Hoover by JP Kahn and there there

1707

01:19:55,790 --> 01:19:53,400

are numerous occasions you just play

1708

01:19:58,680 --> 01:19:55,800

step by step by step discredited and

1709

01:20:01,560 --> 01:19:58,690

that's where the hoax really comes in

1710

01:20:06,540 --> 01:20:01,570

you can see again we are able to prove

1711

01:20:08,370 --> 01:20:06,550

this with with wit forms but that that

1712

01:20:10,440 --> 01:20:08,380

he that was what he was out to do was

1713

01:20:11,970 --> 01:20:10,450

discredit it and I think it must have

1714

01:20:14,910 --> 01:20:11,980

worked hand in hand with what the

1715

01:20:19,770 --> 01:20:14,920

government wanted to do anyway in

1716

01:20:24,780 --> 01:20:19,780

between that and the the court you know

1717

01:20:28,830 --> 01:20:24,790

the trial of the oilmen arm wasn't

1718

01:20:31,410 --> 01:20:28,840

actually oil men but the Doodlebug yeah

1719

01:20:35,550 --> 01:20:31,420

the Doolittle are people for an

1720

01:20:38,880 --> 01:20:35,560

investment and all that yeah so today

1721

01:20:41,100 --> 01:20:38,890

what what is the biggest battle you're

1722

01:20:44,070 --> 01:20:41,110

at the biggest struggle in in trying to

1723

01:20:48,120 --> 01:20:44,080

get this story out there you know

1724

01:20:50,250 --> 01:20:48,130

against the the sceptics well I've never

1725

01:20:52,140 --> 01:20:50,260

ever paid any attention to the skeptics

1726

01:20:55,620 --> 01:20:52,150

because I never met one that actually

1727

01:20:58,830 --> 01:20:55,630

did any research on it they like to go

1728

01:21:02,280 --> 01:20:58,840

back and read Wikipedia or a story

1729

01:21:05,280 --> 01:21:02,290

written by Ken Purdy from true magazine

1730

01:21:09,330 --> 01:21:05,290

and and use that as their their exterior

1731

01:21:11,760 --> 01:21:09,340

criteria exactly hang on we have a call

1732

01:21:13,770 --> 01:21:11,770

keep that thought if you would okay hang

1733

01:21:17,160 --> 01:21:13,780

on to that thought we have a call just

1734

01:21:18,150 --> 01:21:17,170

coming in right now caller welcome to

1735

01:21:19,490 --> 01:21:18,160

show your first name where you're

1736

01:21:23,820 --> 01:21:19,500

calling from

1737

01:21:26,040 --> 01:21:23,830

I'm William from Pooler Georgia I've got

1738

01:21:26,910 --> 01:21:26,050

a couple questions out hey how's it

1739

01:21:29,430 --> 01:21:26,920

going

1740

01:21:32,220 --> 01:21:29,440

I've been studying Roswell and the Aztec

1741

01:21:33,210 --> 01:21:32,230

UFO crash and other incidents for many

1742

01:21:35,010 --> 01:21:33,220

many years and one of the most

1743

01:21:37,580 --> 01:21:35,020

interesting things I've found in support

1744

01:21:40,380 --> 01:21:37,590

of the Aztec UFO and I've heard this

1745

01:21:43,380 --> 01:21:40,390

before is that there were field ration

1746

01:21:49,530 --> 01:21:43,390

cans found at the spot where the crash

1747

01:21:51,330 --> 01:21:49,540

allegedly happened you have any

1748

01:21:54,480 --> 01:21:51,340

photographs of them that you could post

1749

01:21:58,530 --> 01:21:54,490

online the show I have to dig through

1750

01:22:02,210 --> 01:21:58,540

but the bad news is we found out those K

1751

01:22:05,760 --> 01:22:02,220

ration cans were sold up until about

1752

01:22:09,600 --> 01:22:05,770

1985 at the local Alamo military surplus

1753

01:22:11,599 --> 01:22:09,610

store and I sat down with the owners and

1754

01:22:13,899 --> 01:22:11,609

they said you know

1755

01:22:19,339 --> 01:22:13,909

these are world war two they were like

1756

01:22:24,469 --> 01:22:19,349

1944 date on them and we actually found

1757

01:22:27,290 --> 01:22:24,479

m1 clips - from an m1 garand but then

1758

01:22:29,869 --> 01:22:27,300

they let the air out of me by telling me

1759

01:22:33,319 --> 01:22:29,879

that m1 Garands were also sold that

1760

01:22:38,929 --> 01:22:33,329

their other gun store as surplus back in

1761

01:22:41,869 --> 01:22:38,939

the 50s 60s so the K rations were

1762

01:22:44,119 --> 01:22:41,879

probably left behind by deer hunters

1763

01:22:46,909 --> 01:22:44,129

that were it's a wonderful place to

1764

01:22:52,779 --> 01:22:46,919

catch or to go on dear thus the name

1765

01:22:57,169 --> 01:22:52,789

heart canyon heart meaning deer in

1766

01:22:59,029 --> 01:22:57,179

german utterly but the obser i had

1767

01:23:05,169 --> 01:22:59,039

pictures of them somewhere and we found

1768

01:23:08,989 --> 01:23:05,179

an old beech nut chewing tobacco pouch

1769

01:23:12,979 --> 01:23:08,999

that beech nut said was about 1946 to

1770

01:23:14,779 --> 01:23:12,989

1948 they used the actual aluminum that

1771

01:23:16,790 --> 01:23:14,789

the same material they couldn't give us

1772

01:23:18,199 --> 01:23:16,800

an exact could have been it could have

1773

01:23:20,119 --> 01:23:18,209

been from the military but it could have

1774

01:23:22,009 --> 01:23:20,129

also been it could have been from

1775

01:23:23,659 --> 01:23:22,019

hunters yeah because they were sold

1776

01:23:26,989 --> 01:23:23,669

right there in the area so it doesn't

1777

01:23:29,659 --> 01:23:26,999

discredit it but it's not a sure thing

1778

01:23:33,889 --> 01:23:29,669

yeah could it be you know we'd like to

1779

01:23:35,959 --> 01:23:33,899

think it is but the alamo military

1780

01:23:38,719 --> 01:23:35,969

surplus store kind of let the wind out

1781

01:23:41,479 --> 01:23:38,729

of my sail uh now even though you said

1782

01:23:45,649 --> 01:23:41,489

you had another question william yes

1783

01:23:48,770 --> 01:23:45,659

i've also been studying the whole story

1784

01:23:54,109 --> 01:23:48,780

about Wilbert smith and his connection

1785

01:23:57,439 --> 01:23:54,119

to serb otter and how it leads to Eric

1786

01:24:00,799 --> 01:23:57,449

Walker in Vannevar Bush and have you

1787

01:24:03,739 --> 01:24:00,809

came across any evidence that Wilbur

1788

01:24:06,349 --> 01:24:03,749

Smith were anyone even loosely

1789

01:24:08,750 --> 01:24:06,359
associated with the research and

1790

01:24:11,540 --> 01:24:08,760
development board that was ran by then

1791

01:24:14,270 --> 01:24:11,550
of our Bush during that time period had

1792

01:24:17,299 --> 01:24:14,280
gained access to the bodies or wreckage

1793

01:24:19,159 --> 01:24:17,309
from Aztec and that's my question and I

1794

01:24:20,629 --> 01:24:19,169
guess I'll just hang up and listen thank

1795

01:24:24,350 --> 01:24:20,639
you so much for all your great research

1796

01:24:26,689 --> 01:24:24,360
Thanks thanks for you

1797

01:24:30,859 --> 01:24:26,699
it was bill Steinman that actually broke

1798

01:24:33,200 --> 01:24:30,869
that whole sar barker case wide open

1799

01:24:35,299 --> 01:24:33,210
bill just sat down one day on a lead

1800

01:24:38,569 --> 01:24:35,309
that tsar walker knew something about

1801

01:24:40,760 --> 01:24:38,579

Aztec and wrote him this is before he

1802

01:24:46,180 --> 01:24:40,770

patent before star Walker passed away

1803

01:24:49,240 --> 01:24:46,190

and Tsar Barker said I was not privy to

1804

01:24:51,799 --> 01:24:49,250

pictures of the craft nor was I there

1805

01:24:54,080 --> 01:24:51,809

but he confirmed that Frank Scully's

1806

01:24:58,970 --> 01:24:54,090

book was about 99 percent accurate

1807

01:25:00,560 --> 01:24:58,980

hmm and so really Steinman broke that

1808

01:25:04,959 --> 01:25:00,570

and what he was talking about Wilbur

1809

01:25:08,959 --> 01:25:04,969

Smith Wilbur was a very famous Canadian

1810

01:25:11,540 --> 01:25:08,969

scientist he wasn't given enough credit

1811

01:25:15,770 --> 01:25:11,550

for what he actually did if you open up

1812

01:25:17,959 --> 01:25:15,780

a quick resume on Wilbur Smith it kind

1813

01:25:20,419 --> 01:25:17,969

of downplays what he did but he did do

1814

01:25:23,379 --> 01:25:20,429

some liaison work with our government

1815

01:25:25,580 --> 01:25:23,389

and had a very top secret clearance so

1816

01:25:29,229 --> 01:25:25,590

would he been in the loop wants

1817

01:25:32,780 --> 01:25:29,239

something like that probably most likely

1818

01:25:36,109 --> 01:25:32,790

hmm there's a whole list of people that

1819

01:25:37,790 --> 01:25:36,119

would would fit that being involved good

1820

01:25:40,069 --> 01:25:37,800

questions with a very good question

1821

01:25:44,330 --> 01:25:40,079

you're really doing good research if you

1822

01:25:49,129 --> 01:25:44,340

came up with those one of the things

1823

01:25:52,100 --> 01:25:49,139

that I get email from and I do try to

1824

01:25:53,930 --> 01:25:52,110

answer all my email when I can is that a

1825

01:25:56,930 --> 01:25:53,940

lot of people will write and say why do

1826
01:25:59,060 --> 01:25:56,940
you always bring up old cases you know

1827
01:26:01,069 --> 01:25:59,070
what why not you know talked about

1828
01:26:03,890 --> 01:26:01,079
different cases and newer cases and all

1829
01:26:07,760 --> 01:26:03,900
that but I think there's really a reason

1830
01:26:10,100 --> 01:26:07,770
for that and the reason is you talk

1831
01:26:12,890 --> 01:26:10,110
about on you know peeling the onion you

1832
01:26:14,330 --> 01:26:12,900
keep finding more and more do you think

1833
01:26:21,950 --> 01:26:14,340
there's still a lot more to find on this

1834
01:26:28,790 --> 01:26:25,970
I hit that big 62 this summer but it is

1835
01:26:32,240 --> 01:26:28,800
amazing that all these years 30-some

1836
01:26:36,300 --> 01:26:32,250
years that we're still able to track

1837
01:26:39,300 --> 01:26:36,310
certain things and and that's

1838
01:26:41,730 --> 01:26:39,310

amazing to me one thing to keep in mind

1839

01:26:44,630 --> 01:26:41,740

Martin the United States Air Force has

1840

01:26:47,130 --> 01:26:44,640

never said Aztec did not happen

1841

01:26:50,310 --> 01:26:47,140

that's an inner it's like Project Blue

1842

01:26:53,790 --> 01:26:50,320

Book at the end the conclusion was UFOs

1843

01:26:56,940 --> 01:26:53,800

they don't say UFOs don't exist

1844

01:27:00,450 --> 01:26:56,950

they say UFOs we have deemed are not a

1845

01:27:02,820 --> 01:27:00,460

threat to our national security the the

1846

01:27:07,170 --> 01:27:02,830

interesting group of documents to

1847

01:27:09,950 --> 01:27:07,180

support that we have were the FBI the

1848

01:27:12,780 --> 01:27:09,960

Air Force and Army counterintelligence

1849

01:27:17,460 --> 01:27:12,790

tried to do a sting operation at the a

1850

01:27:20,250 --> 01:27:17,470

device bar in downtown Denver and the

1851

01:27:24,960 --> 01:27:20,260

three groups of Intel and these are

1852

01:27:27,300 --> 01:27:24,970

letters rights from them yeah that they

1853

01:27:31,440 --> 01:27:27,310

were trying to intercept photographs of

1854

01:27:33,510 --> 01:27:31,450

not just a UFO but the Aztec a flying

1855

01:27:38,460 --> 01:27:33,520

saucer that crashed and was recovered in

1856

01:27:40,430 --> 01:27:38,470

Aztec New Mexico that it doesn't get any

1857

01:27:45,510 --> 01:27:40,440

plainer than that

1858

01:27:47,250 --> 01:27:45,520

the sting operation went bad and they

1859

01:27:50,280 --> 01:27:47,260

did not recover the photographs they

1860

01:27:52,710 --> 01:27:50,290

recovered the seller and the buyer but

1861

01:27:55,740 --> 01:27:52,720

we're not able to obtain the actual

1862

01:27:58,080 --> 01:27:55,750

photographs now as far as you know where

1863

01:28:01,740 --> 01:27:58,090

any of the 16 witnesses that saw the

1864

01:28:06,330 --> 01:28:01,750

crash did any of them take pictures no

1865

01:28:10,800 --> 01:28:06,340

no no the only reference to photographs

1866

01:28:15,090 --> 01:28:10,810

is Chris Evans of incredibly good

1867

01:28:18,750 --> 01:28:15,100

researcher passed away in 2005 excuse me

1868

01:28:21,690 --> 01:28:18,760

have the hiccups he sat down with Frank

1869

01:28:24,360 --> 01:28:21,700

Scully's wife and she confirmed because

1870

01:28:26,550 --> 01:28:24,370

Frank's Kelley made referenced the dr. G

1871

01:28:28,610 --> 01:28:26,560

talked about the pictures they took to

1872

01:28:32,700 --> 01:28:28,620

have the crash the scientist

1873

01:28:36,180 --> 01:28:32,710

Alice Kelly confirmed to Chris Evans

1874

01:28:39,180 --> 01:28:36,190

that yes photographs were taken she had

1875

01:28:40,950 --> 01:28:39,190

seen him Frank Scully had seen him but

1876

01:28:43,790 --> 01:28:40,960

would not give any more information as

1877

01:28:47,580 --> 01:28:43,800

to who had him and where they were

1878

01:28:49,770 --> 01:28:47,590

additionally there were the research was

1879

01:28:52,230 --> 01:28:49,780

a procurement over the research

1880

01:28:54,600 --> 01:28:52,240

George that that had seen pictures oh

1881

01:28:57,200 --> 01:28:54,610

yes our gentlemen we refer to in the

1882

01:29:00,630 --> 01:28:57,210

book that was at Walker Air Force Base

1883

01:29:03,870 --> 01:29:00,640

coordinating the Aztec recovery one of

1884

01:29:06,750 --> 01:29:03,880

the many people coordinating it said he

1885

01:29:08,130 --> 01:29:06,760

did not ever see the craft blood had

1886

01:29:10,410 --> 01:29:08,140

daily briefs and he saw it

1887

01:29:12,150 --> 01:29:10,420

excuse me black-and-white photographs of

1888

01:29:13,980 --> 01:29:12,160

the craft Wow

1889

01:29:16,590 --> 01:29:13,990

well you know what I can't believe this

1890

01:29:19,380 --> 01:29:16,600

already but we are already at the end of

1891

01:29:23,460 --> 01:29:19,390

the show already yeah I don't know how

1892

01:29:26,460 --> 01:29:23,470

that happened but thank you so much and

1893

01:29:27,960 --> 01:29:26,470

I am actually doing this alone I'm gonna

1894

01:29:29,280 --> 01:29:27,970

have to ask you something's a little

1895

01:29:31,500 --> 01:29:29,290

awkward here I'm gonna have to ask you

1896

01:29:33,180 --> 01:29:31,510

to hang up when I say goodbye because I

1897

01:29:35,670 --> 01:29:33,190

can't do that here I usually have help

1898

01:29:37,350 --> 01:29:35,680

but anyway thanks so much I really

1899

01:29:40,050 --> 01:29:37,360

appreciate it was it was a lot of fun a

1900

01:29:42,000 --> 01:29:40,060

really interesting case and hopefully

1901

01:29:44,820 --> 01:29:42,010

you'll stay at it I don't know how many

1902

01:29:46,410 --> 01:29:44,830

more years you can do it but you have

1903

01:29:53,010 --> 01:29:46,420

the passion for it and that's great and

1904

01:29:54,180 --> 01:29:53,020

I appreciate that thanks very much bye

1905

01:29:58,080 --> 01:29:54,190

everyone all right

1906

01:29:59,790 --> 01:29:58,090

okay so that's it for the show this this

1907

01:30:02,520 --> 01:29:59,800

evening thank you all for checking it

1908

01:30:07,200 --> 01:30:02,530

out and listening we'll be back next

1909

01:30:14,160 --> 01:30:07,210

week and let's see who do we have next

1910

01:30:16,530 --> 01:30:14,170

week we have Stephen Ward next week and

1911

01:30:18,450 --> 01:30:16,540

oh yes he's in the Midwest

1912

01:30:20,940 --> 01:30:18,460

some people know him on switchblade he

1913

01:30:22,350 --> 01:30:20,950

calls into some show we're not gonna

1914

01:30:23,880 --> 01:30:22,360

call him that but anyway he'll be back

1915

01:30:26,220 --> 01:30:23,890

next week and it should be an

1916

01:30:29,400 --> 01:30:26,230

interesting one so I want to thank

1917

01:30:31,500 --> 01:30:29,410

everyone that helps out and we are

1918

01:30:33,540 --> 01:30:31,510

totally out of time so remember to keep

1919

01:30:40,980 --> 01:30:33,550

your eyes to the sky and we'll see you
