USS NIMITZ UFO INCIDENT

1
00:00:15,420 --> 00:00:35,299

[Music]

2
00:00:40,319 --> 00:00:38,430

hello and welcome to the show on Martin

3
00:00:44,250 --> 00:00:40,329

Willis your host and we're here at

4
00:00:46,170 --> 00:00:44,260

podcast UFO and thank you for joining us

5
00:00:49,979 --> 00:00:46,180

this evening we have a great show for

6
00:00:51,270 --> 00:00:49,989

you we have a first of all we have pj

7
00:00:54,750 --> 00:00:51,280

hughes he's gonna be coming up in about

8
00:00:56,579 --> 00:00:54,760

40 minutes up he will he was at a

9
00:01:00,000 --> 00:00:56,589

different location he's running home

10
00:01:02,789 --> 00:01:00,010

right now to get to his microphone and

11
00:01:06,480 --> 00:01:02,799

set up over there then we have Omar

12
00:01:09,390 --> 00:01:06,490

Lauda and he is a witness to the

13
00:01:12,200 --> 00:01:09,400

tick-tack UFO on the Nimitz he'll be

14

00:01:17,550 --> 00:01:12,210

joining us and Dave Beatty Dave Beatty

15

00:01:21,440 --> 00:01:17,560

is a filmmaker and and my book made the

16

00:01:25,920 --> 00:01:21,450

very best film out there called the u.s.

17

00:01:27,899 --> 00:01:25,930

USS nimitz encounters on you youtube

18

00:01:29,660 --> 00:01:27,909

it's over like i think it's somewhere

19

00:01:33,480 --> 00:01:29,670

around a million and a half views so far

20

00:01:36,469 --> 00:01:33,490

on that it's a great film he because of

21

00:01:38,719 --> 00:01:36,479

his efforts in this film he's having

22

00:01:41,910 --> 00:01:38,729

contact he's getting contacted by

23

00:01:42,899 --> 00:01:41,920

witnesses and therefore is the show this

24

00:01:46,380 --> 00:01:42,909

evening we're gonna be talking about

25

00:01:48,599 --> 00:01:46,390

that more coming forward this is really

26

00:01:50,429 --> 00:01:48,609

turning into something a few listeners

27

00:01:52,080 --> 00:01:50,439

say well you know you're doing this

28

00:01:54,959 --> 00:01:52,090

nimitz stuff a little too much but i

29

00:01:57,349 --> 00:01:54,969

think it's a very important case and i'm

30

00:02:00,630 --> 00:01:57,359

glad to be doing this and hopefully

31

00:02:02,910 --> 00:02:00,640

every show that i've done about it the

32

00:02:04,020 --> 00:02:02,920

listener gets something out of it and i

33

00:02:08,520 --> 00:02:04,030

think that's going to be the case

34

00:02:10,260 --> 00:02:08,530

tonight pretty sure it is and I have

35

00:02:13,140 --> 00:02:10,270

Alejandro Rojas coming up in just a

36

00:02:14,610 --> 00:02:13,150

minute with the UFO updates I do want to

37

00:02:17,820 --> 00:02:14,620

thank everyone that supports the show

38

00:02:21,240 --> 00:02:17,830

it's an expensive show to do and I do

39

00:02:24,900 --> 00:02:21,250

appreciate everyone that helps out on

40

00:02:27,150 --> 00:02:24,910

that let me just make sure that we had

41

00:02:30,770 --> 00:02:27,160

some trouble last time I'm going to ask

42

00:02:35,500 --> 00:02:30,780

this to the chat if the audio is okay

43

00:02:39,339 --> 00:02:37,449

that was on YouTube last time so I think

44

00:02:42,520 --> 00:02:39,349

we have everything ironed out but I just

45

00:02:44,259 --> 00:02:42,530

want to make sure and again without your

46

00:02:46,270 --> 00:02:44,269

support I couldn't do it anyone can

47

00:02:50,050 --> 00:02:46,280

support the show you go over to podcast

48

00:02:52,960 --> 00:02:50,060

UFO comm and the information is there

49

00:02:54,580 --> 00:02:52,970

also if you check out that website you

50

00:03:00,190 --> 00:02:54,590

will see we have a new blog every week

51
00:03:02,259 --> 00:03:00,200
and this this week is very interesting

52
00:03:08,830 --> 00:03:02,269
it's about basically about journalism

53
00:03:14,589 --> 00:03:08,840
and UFOs and the name of that blog our

54
00:03:16,690 --> 00:03:14,599
blog our blogger I should say is Charles

55
00:03:19,240 --> 00:03:16,700
Lear he's doing a great job he's that

56
00:03:21,160 --> 00:03:19,250
down in New York and the title of this

57
00:03:24,280 --> 00:03:21,170
is how do you capture a moving target I

58
00:03:29,350 --> 00:03:24,290
like that because uh as you know UFOs

59
00:03:32,289 --> 00:03:29,360
are evasive our unrepeatabe and except

60
00:03:34,809 --> 00:03:32,299
for a few cases you never you know get

61
00:03:37,000 --> 00:03:34,819
another chance once one goes by go so

62
00:03:39,430 --> 00:03:37,010
anyway it's a great blog check it out

63
00:03:41,110 --> 00:03:39,440

again we have new blogs every week I can

64

00:03:44,650 --> 00:03:41,120

also join our Facebook page we have

65

00:03:46,479 --> 00:03:44,660

about 23,000 people liked on that and

66

00:03:48,670 --> 00:03:46,489

there's Peggy helps out with that

67

00:03:54,160 --> 00:03:48,680

there's there's news every day on that

68

00:03:55,930 --> 00:03:54,170

and we have Alejandro Rojas up now for

69

00:03:58,300 --> 00:03:55,940

UFO updates welcome to the show

70

00:03:59,979 --> 00:03:58,310

Alejandro hello thank you very much

71

00:04:01,750 --> 00:03:59,989

thank you

72

00:04:04,990 --> 00:04:01,760

and there's you know it's funny right

73

00:04:08,170 --> 00:04:05,000

during the show last week there was six

74

00:04:11,680 --> 00:04:08,180

minutes in the show six oh six that

75

00:04:14,289 --> 00:04:11,690

political article broke went across the

76

00:04:15,490 --> 00:04:14,299

wire and you text me about it and I

77

00:04:18,069 --> 00:04:15,500

imagine this we're gonna be talking

78

00:04:19,330 --> 00:04:18,079

about tonight a little bit that will be

79

00:04:21,219 --> 00:04:19,340

I wanted to talk about one other thing

80

00:04:23,589 --> 00:04:21,229

real quick it was a breaking piece of

81

00:04:25,120 --> 00:04:23,599

news from last night and then we'll get

82

00:04:26,620 --> 00:04:25,130

into that because there's much more to

83

00:04:28,870 --> 00:04:26,630

that especially that relates to your

84

00:04:31,089 --> 00:04:28,880

program and everything yeah however at

85

00:04:34,690 --> 00:04:31,099

the late-breaking news last week Oh guys

86

00:04:36,850 --> 00:04:34,700

news here is from George Knapp yet again

87

00:04:38,350 --> 00:04:36,860

George Knapp really is the guy releasing

88

00:04:41,320 --> 00:04:38,360

the best information when it comes to a

89

00:04:44,380 --> 00:04:41,330

tip he's staying on top of it as usually

90

00:04:46,000 --> 00:04:44,390

he's digging and he got this document so

91

00:04:47,050 --> 00:04:46,010

there's been some people questioning

92

00:04:49,990 --> 00:04:47,060

that these flür of it

93

00:04:52,570 --> 00:04:50,000

Gio's from the FT f-18s came from the

94

00:04:54,820 --> 00:04:52,580

DoD to be honest I personally feel it's

95

00:04:56,080 --> 00:04:54,830

been kind of a silly argument because we

96

00:04:58,930 --> 00:04:56,090

have a lot of supporting information

97

00:05:00,970 --> 00:04:58,940

including from a multitude of witnesses

98

00:05:03,610 --> 00:05:00,980

supporting that those flew documents or

99

00:05:05,470 --> 00:05:03,620

those fluid videos were from the DoD it

100

00:05:07,600 --> 00:05:05,480

was a question of who released them Lu

101
00:05:09,940 --> 00:05:07,610
elizondo's already told us you know it

102
00:05:11,740 --> 00:05:09,950
was released through the DoD the New

103
00:05:13,870 --> 00:05:11,750
York Times I've spoken to Leslie Kane

104
00:05:16,570 --> 00:05:13,880
confirms that you know they had this

105
00:05:17,920 --> 00:05:16,580
document that showed the DoD released

106
00:05:19,750 --> 00:05:17,930
these videos and they vetted that

107
00:05:21,610 --> 00:05:19,760
document to make sure that it was real

108
00:05:23,620 --> 00:05:21,620
but none of them had released the

109
00:05:25,780 --> 00:05:23,630
document so finally George Knapp was

110
00:05:27,969 --> 00:05:25,790
able to get a copy and release this

111
00:05:29,710 --> 00:05:27,979
document so we can see it ourselves now

112
00:05:31,719 --> 00:05:29,720
we don't have confirmation from the DoD

113
00:05:33,760 --> 00:05:31,729

that this is real but we have

114

00:05:35,950 --> 00:05:33,770

confirmation from Elizondo we have

115

00:05:38,310 --> 00:05:35,960

confirmation from Harry Reid from New

116

00:05:40,719 --> 00:05:38,320

York Times I mean we have a lot of

117

00:05:42,850 --> 00:05:40,729

credible people substantiating that this

118

00:05:44,800 --> 00:05:42,860

is a real document so what's the DoD

119

00:05:48,159 --> 00:05:44,810

that release these we don't have details

120

00:05:50,800 --> 00:05:48,169

about why or who release them

121

00:05:52,480 --> 00:05:50,810

I think Elizondo knows it's just he's

122

00:05:54,640 --> 00:05:52,490

not at liberty to share that information

123

00:05:58,659 --> 00:05:54,650

yet so that's a piece of late-breaking

124

00:06:01,240 --> 00:05:58,669

news however that's kind of small fries

125

00:06:02,710 --> 00:06:01,250

and mostly only of a concern for some of

126

00:06:04,960 --> 00:06:02,720

us geeks who are really looking at all

127

00:06:07,300 --> 00:06:04,970

the details the bigger concern is the

128

00:06:09,670 --> 00:06:07,310

Navy what you were referring to during

129

00:06:11,350 --> 00:06:09,680

your show you must have inspired him it

130

00:06:12,760 --> 00:06:11,360

only took him six minutes of watching

131

00:06:15,940 --> 00:06:12,770

your show and they said you know what

132

00:06:18,520 --> 00:06:15,950

yeah we need to make some UFO guidelines

133

00:06:21,550 --> 00:06:18,530

so the Navy did that they said we're

134

00:06:23,469 --> 00:06:21,560

gonna release some guidelines related to

135

00:06:25,719 --> 00:06:23,479

UFOs and we're gonna take this seriously

136

00:06:27,820 --> 00:06:25,729

in fact we have a full statement and

137

00:06:30,070 --> 00:06:27,830

they've kind of been stashed with this

138

00:06:32,020 --> 00:06:30,080

statement I got this from a guy who

139

00:06:34,180 --> 00:06:32,030

worked with the government doing PR work

140

00:06:36,730 --> 00:06:34,190

he was able he's also got an interest in

141

00:06:39,279 --> 00:06:36,740

UFOs and he was able to get this this

142

00:06:42,340 --> 00:06:39,289

full statement from the Navy the

143

00:06:44,230 --> 00:06:42,350

Politico published the majority of this

144

00:06:45,820 --> 00:06:44,240

statement but not the full statement and

145

00:06:47,860 --> 00:06:45,830

by the way it was Politico that broke

146

00:06:49,629 --> 00:06:47,870

this news but here's a full statement

147

00:06:52,090 --> 00:06:49,639

and I think this is important because

148

00:06:54,610 --> 00:06:52,100

it'll it gives you an idea of why they

149

00:06:56,620 --> 00:06:54,620

did this there have been a number of

150

00:06:59,200 --> 00:06:56,630

reports of unauthorized and or

151
00:07:00,970 --> 00:06:59,210
unidentified aircraft entering various

152
00:07:03,520 --> 00:07:00,980
military controlled ranges

153
00:07:06,250 --> 00:07:03,530
and designated airspace in recent years

154
00:07:08,680 --> 00:07:06,260
for safety and security concerns the

155
00:07:10,990 --> 00:07:08,690
Navy and the US Air Force take these

156
00:07:13,600 --> 00:07:11,000
reports very seriously and investigate

157
00:07:15,310 --> 00:07:13,610
each and every report as part of this

158
00:07:17,680 --> 00:07:15,320
effort the Navy is updating and

159
00:07:20,320 --> 00:07:17,690
formalizing the process by which reports

160
00:07:23,740 --> 00:07:20,330
of any such suspected incursions can be

161
00:07:25,720 --> 00:07:23,750
made to the cognizant authorities a new

162
00:07:28,810 --> 00:07:25,730
message to the fleet that will detail

163
00:07:30,790 --> 00:07:28,820

the steps for reporting is in draft in

164

00:07:33,420 --> 00:07:30,800

response to requests for information

165

00:07:36,700 --> 00:07:33,430

from congressional members and staff

166

00:07:39,840 --> 00:07:36,710

Navy officials have provided a series of

167

00:07:43,480 --> 00:07:39,850

briefings by senior naval intelligence

168

00:07:47,100 --> 00:07:43,490

officials as well as aviators who

169

00:07:49,660 --> 00:07:47,110

reported hazards to aviation safety so

170

00:07:51,850 --> 00:07:49,670

they're saying you know congressional

171

00:07:54,010 --> 00:07:51,860

briefings these briefings are what

172

00:07:55,870 --> 00:07:54,020

influenced them also the reports from

173

00:07:58,690 --> 00:07:55,880

the very people you're having on your

174

00:08:02,200 --> 00:07:58,700

show witnesses who were in the Navy who

175

00:08:05,650 --> 00:08:02,210

reported influenced them to to come out

176

00:08:07,840 --> 00:08:05,660

and to talk about this they outline it

177

00:08:09,910 --> 00:08:07,850

pretty clearly I've been arguing and I

178

00:08:11,620 --> 00:08:09,920

wrote a piece that you can see at the

179

00:08:13,720 --> 00:08:11,630

front page of open mind sad TV saying

180

00:08:16,690 --> 00:08:13,730

hey this is also a direct result of the

181

00:08:18,370 --> 00:08:16,700

work of T TSA some people disputed that

182

00:08:20,560 --> 00:08:18,380

but in that article from last night

183

00:08:23,170 --> 00:08:20,570

Chris Mullin was a part of it and Chris

184

00:08:25,420 --> 00:08:23,180

Mullin actually wrote to George Knapp a

185

00:08:28,150 --> 00:08:25,430

document saying yes to the Stars and our

186

00:08:30,130 --> 00:08:28,160

efforts were involved with all of this

187

00:08:31,810 --> 00:08:30,140

and you know getting these briefings to

188

00:08:34,600 --> 00:08:31,820

happen getting these witnesses in front

189

00:08:37,510 --> 00:08:34,610

of Congress and others and so Chris

190

00:08:39,430 --> 00:08:37,520

Mellon also confirms you know that Tom

191

00:08:41,320 --> 00:08:39,440

DeLonge had said this also but you know

192

00:08:43,690 --> 00:08:41,330

sometimes people think he's exaggerating

193

00:08:45,610 --> 00:08:43,700

but no certainly two stars and Tom

194

00:08:48,070 --> 00:08:45,620

DeLonge deserve a lot of credit credit

195

00:08:49,900 --> 00:08:48,080

as well as the Navy witnesses who have

196

00:08:53,170 --> 00:08:49,910

been brave enough to come forward and

197

00:08:56,110 --> 00:08:53,180

share their stories I wonder what do you

198

00:09:00,160 --> 00:08:56,120

say to the the skeptic or I've had

199

00:09:03,160 --> 00:09:00,170

someone wrote me and they said that this

200

00:09:05,340 --> 00:09:03,170

has nothing at all to do with UFOs it

201
00:09:07,870 --> 00:09:05,350
meant just you know threatening like

202
00:09:09,610 --> 00:09:07,880
from a hostile country or something like

203
00:09:13,210 --> 00:09:09,620
that yeah you know there's a lot of

204
00:09:14,830 --> 00:09:13,220
people who who make claims like that but

205
00:09:16,330 --> 00:09:14,840
I think that you

206
00:09:18,310 --> 00:09:16,340
it's like a lot of these claims it's

207
00:09:20,740 --> 00:09:18,320
like the claim about the FLIR videos and

208
00:09:23,280 --> 00:09:20,750
where they came from or this claim that

209
00:09:26,440 --> 00:09:23,290
even a tip has nothing to do with UFOs

210
00:09:29,860 --> 00:09:26,450
to me they're silly I mean you need to

211
00:09:31,870 --> 00:09:29,870
justify what you're saying and on our

212
00:09:34,450 --> 00:09:31,880
side when we're saying like a tip was

213
00:09:37,030 --> 00:09:34,460

part of its all UFOs we have plenty of

214

00:09:38,530 --> 00:09:37,040

substantiated and information to to say

215

00:09:40,690 --> 00:09:38,540

that we have credible information we

216

00:09:42,190 --> 00:09:40,700

have the guy who started the program we

217

00:09:44,829 --> 00:09:42,200

got the funding read we got the guy who

218

00:09:46,930 --> 00:09:44,839

ran the program we have people who were

219

00:09:48,970 --> 00:09:46,940

hired to work on the program all telling

220

00:09:50,800 --> 00:09:48,980

us this as far as to when it comes to

221

00:09:53,800 --> 00:09:50,810

the Navy I think if you read that

222

00:09:56,230 --> 00:09:53,810

statement it's it's pretty silly to say

223

00:09:59,170 --> 00:09:56,240

otherwise now people have to remember

224

00:10:02,500 --> 00:09:59,180

also a UFO is an unidentified flying

225

00:10:04,630 --> 00:10:02,510

object that doesn't mean that it is

226

00:10:06,400 --> 00:10:04,640

alien in nature some skeptics have that

227

00:10:08,500 --> 00:10:06,410

said that but that's not the truth at

228

00:10:10,060 --> 00:10:08,510

all if you hear any of these people it's

229

00:10:11,650 --> 00:10:10,070

something that we haven't identified we

230

00:10:14,680 --> 00:10:11,660

don't know what it is it demonstrates

231

00:10:17,019 --> 00:10:14,690

you know advanced characteristics that

232

00:10:19,570 --> 00:10:17,029

that we don't have anything or at least

233

00:10:21,430 --> 00:10:19,580

known that can do those sorts of things

234

00:10:23,530 --> 00:10:21,440

so there was a great article written by

235

00:10:26,290 --> 00:10:23,540

Tyler Roca way about all of this where

236

00:10:27,790 --> 00:10:26,300

he examines it and he goes he says what

237

00:10:29,260 --> 00:10:27,800

we have to take from this is two things

238

00:10:31,660 --> 00:10:29,270

that this is real

239

00:10:35,050 --> 00:10:31,670

these aircraft that are performing these

240

00:10:37,120 --> 00:10:35,060

these you know incredible feats they are

241

00:10:39,990 --> 00:10:37,130

real this is really happening we can't

242

00:10:42,520 --> 00:10:40,000

ignore it anymore now it could be

243

00:10:44,890 --> 00:10:42,530

advanced aircraft and it's a good step

244

00:10:46,930 --> 00:10:44,900

for mainstream to take because now they

245

00:10:48,940 --> 00:10:46,940

have to examine that does it fit is

246

00:10:51,579 --> 00:10:48,950

there anything in our arsenal or are

247

00:10:53,860 --> 00:10:51,589

there any technologies where at craft

248

00:10:56,140 --> 00:10:53,870

can go thousands of miles in an hour

249

00:11:01,230 --> 00:10:56,150

you know demonstrating technology that

250

00:11:04,449 --> 00:11:01,240

would take the the power of several

251

00:11:08,290 --> 00:11:04,459

nuclear blasts like the seu report as

252

00:11:09,910 --> 00:11:08,300

estimated so you know next up we got to

253

00:11:12,130 --> 00:11:09,920

look into that stuff it's a UFO it's

254

00:11:14,019 --> 00:11:12,140

unidentified so it is something that we

255

00:11:17,019 --> 00:11:14,029

don't know what it is so now out this is

256

00:11:19,660 --> 00:11:17,029

about examining what it is so certainly

257

00:11:21,880 --> 00:11:19,670

you know all of this UFO information

258

00:11:24,400 --> 00:11:21,890

that's been coming out the TSA all of

259

00:11:27,550 --> 00:11:24,410

this is supportive of this so it is

260

00:11:28,310 --> 00:11:27,560

looking into unknowns the topic we're

261

00:11:31,370 --> 00:11:28,320

going to be speaking

262

00:11:34,400 --> 00:11:31,380

tonight you know one of the one of the

263

00:11:36,530 --> 00:11:34,410

things I've heard a number of times by

264

00:11:38,540 --> 00:11:36,540

different people speculating saying you

265

00:11:42,230 --> 00:11:38,550

know it's probably security you know

266

00:11:45,320 --> 00:11:42,240

military black ops you know and which

267

00:11:48,170 --> 00:11:45,330

could fit for some of it but not all of

268

00:11:50,510 --> 00:11:48,180

it for one of one of the things in

269

00:11:52,970 --> 00:11:50,520

particular that I'm thinking about is

270

00:11:54,770 --> 00:11:52,980

not only that the g-forces and how it

271

00:11:59,780 --> 00:11:54,780

held together with these massive

272

00:12:02,180 --> 00:11:59,790

g-forces but also the no witnessing of

273

00:12:03,650 --> 00:12:02,190

any sonic booms that's something you

274

00:12:06,500 --> 00:12:03,660

never that a lot of people don't think

275

00:12:09,170 --> 00:12:06,510

about or talk about but when something

276

00:12:11,150 --> 00:12:09,180

is shooting off it's a several thousand

277

00:12:12,920 --> 00:12:11,160

miles an hour you'd always hear a sonic

278

00:12:15,650 --> 00:12:12,930

boom and how does it defy that that's

279

00:12:17,810 --> 00:12:15,660

that's a big another big huge mystery

280

00:12:20,480 --> 00:12:17,820

right there no those are it those are

281

00:12:23,450 --> 00:12:20,490

all of the the scientific questions is

282

00:12:26,150 --> 00:12:23,460

that when a when an object that has a

283

00:12:27,920 --> 00:12:26,160

mass is moving at a great speed you're

284

00:12:31,070 --> 00:12:27,930

creating g-forces you're creating

285

00:12:32,900 --> 00:12:31,080

stresses on the object for instance you

286

00:12:34,700 --> 00:12:32,910

know it doesn't take too many g-forces

287

00:12:36,680 --> 00:12:34,710

for an f-18 to start to fall apart

288

00:12:37,880 --> 00:12:36,690

something I can't remember the numbers I

289

00:12:39,530 --> 00:12:37,890

see you went over it and I've written

290

00:12:41,090 --> 00:12:39,540

about if I can't remember it right now

291

00:12:42,950 --> 00:12:41,100

I'm sure some of your witnesses would

292

00:12:45,980 --> 00:12:42,960

remember or some Dave Beatty might

293

00:12:47,690 --> 00:12:45,990

remember those numbers but you know

294

00:12:49,820 --> 00:12:47,700

what's something it's let's say it

295

00:12:51,830 --> 00:12:49,830

doesn't it's it's somewhere around seven

296

00:12:53,870 --> 00:12:51,840

or eight or something like that but the

297

00:12:56,330 --> 00:12:53,880

point is that what we're observing here

298

00:12:59,030 --> 00:12:56,340

are g-forces that go well beyond that so

299

00:13:02,120 --> 00:12:59,040

we are looking at strains on materials

300

00:13:04,610 --> 00:13:02,130

that we don't have the sort of materials

301

00:13:07,070 --> 00:13:04,620

that can take those sort of strings let

302

00:13:08,690 --> 00:13:07,080

alone oceans that can move something at

303

00:13:11,120 --> 00:13:08,700

those speeds or move them in the way

304

00:13:14,060 --> 00:13:11,130

that these are exhibited so those

305

00:13:16,400 --> 00:13:14,070

g-forces are really important the strain

306

00:13:19,040 --> 00:13:16,410

on the the material of whatever this is

307

00:13:20,660 --> 00:13:19,050

would be tremendous not only that like

308

00:13:22,640 --> 00:13:20,670

you mentioned of course that they would

309

00:13:24,110 --> 00:13:22,650

creating be creating sonic booms that

310

00:13:26,510 --> 00:13:24,120

they're going above the speed of sound

311

00:13:30,070 --> 00:13:26,520

but we're not seeing that they also

312

00:13:33,890 --> 00:13:30,080

would be expending large amount of

313

00:13:36,920 --> 00:13:33,900

energy so for instance a rocket rockets

314

00:13:39,620 --> 00:13:36,930

are you know they're propelling an

315

00:13:42,170 --> 00:13:39,630

object at a large object very quickly

316

00:13:43,340 --> 00:13:42,180

and in order for us to do that you

317

00:13:46,370 --> 00:13:43,350

we have to have these controlled

318

00:13:49,130 --> 00:13:46,380

explosions essentially you could see the

319

00:13:51,650 --> 00:13:49,140

results of these energy being emitted

320

00:13:53,870 --> 00:13:51,660

but we see no results of any energy

321

00:13:57,170 --> 00:13:53,880

being emitted except for our one can

322

00:13:58,820 --> 00:13:57,180

argue that the small I heat that we're

323

00:14:00,710 --> 00:13:58,830

seeing coming from these objects because

324

00:14:02,180 --> 00:14:00,720

these were infrared they were heat you

325

00:14:04,490 --> 00:14:02,190

know looking at the heat of the object

326

00:14:07,880 --> 00:14:04,500

so you do see some heat but a very small

327

00:14:09,470 --> 00:14:07,890

amount of heat as opposed to the large

328

00:14:12,230 --> 00:14:09,480

amounts of heat that you would be seeing

329

00:14:13,940 --> 00:14:12,240

generated from from these things so yeah

330

00:14:16,340 --> 00:14:13,950

the scientific questions are really

331

00:14:18,470 --> 00:14:16,350

tough to tackle and even taking that

332

00:14:23,090 --> 00:14:18,480

perspective that it is human-made which

333

00:14:25,430 --> 00:14:23,100

is is possible the technology that would

334

00:14:28,220 --> 00:14:25,440

need to be applied at least given what

335

00:14:30,020 --> 00:14:28,230

the SCU has looked at would have to be

336

00:14:35,050 --> 00:14:30,030

extraordinary these technologies would

337

00:14:37,280 --> 00:14:35,060

have to be extremely advanced so

338

00:14:38,480 --> 00:14:37,290

especially not to have sonic booms or

339

00:14:40,910 --> 00:14:38,490

some of these other things that we've

340

00:14:43,670 --> 00:14:40,920

talked about so yeah you're right

341

00:14:45,680 --> 00:14:43,680

that's what's so jaw-dropping that is

342

00:14:48,980 --> 00:14:45,690

what's so mysterious about all of this

343

00:14:50,210 --> 00:14:48,990

right right well looks like we're at

344

00:14:51,530 --> 00:14:50,220

about the end of our time did you have

345

00:14:54,470 --> 00:14:51,540

anything else you wanted to pop in there

346

00:14:55,700 --> 00:14:54,480

no I think those are all the big stories

347

00:14:58,340 --> 00:14:55,710

of course you can see them on the front

348

00:15:01,040 --> 00:14:58,350

page of open mind stat TV there's more

349

00:15:03,050 --> 00:15:01,050

and more coming out about this but you

350

00:15:05,480 --> 00:15:03,060

know I think what this does this Navy

351

00:15:07,700 --> 00:15:05,490

news it justifies what you've been doing

352

00:15:09,710 --> 00:15:07,710

I mean I think it's terribly important

353

00:15:11,360 --> 00:15:09,720

to talk to as many witnesses as possible

354

00:15:12,620 --> 00:15:11,370

I haven't been doing that but that's

355

00:15:14,540 --> 00:15:12,630

because people like you have been doing

356

00:15:18,890 --> 00:15:14,550

a great job getting to these witnesses

357

00:15:21,590 --> 00:15:18,900

and so I think it's really important

358

00:15:23,720 --> 00:15:21,600

what you're doing and I think it's well

359

00:15:25,850 --> 00:15:23,730

well worth the effort this is something

360

00:15:29,360 --> 00:15:25,860

we've never had before it's been decades

361

00:15:31,550 --> 00:15:29,370

since the the military has spoken to

362

00:15:33,350 --> 00:15:31,560

UFOs and I when they they mentioned that

363

00:15:35,120 --> 00:15:33,360

the Air Force takes it seriously you

364

00:15:37,100 --> 00:15:35,130

know we wouldn't have known because for

365

00:15:39,050 --> 00:15:37,110

decades the Air Force has been telling

366

00:15:41,690 --> 00:15:39,060

us we don't pay attention to UFOs since

367

00:15:44,300 --> 00:15:41,700

1969 even though we have documentation

368

00:15:45,860 --> 00:15:44,310

to show otherwise so you know the

369

00:15:47,990 --> 00:15:45,870

military certainly created their own

370

00:15:49,040 --> 00:15:48,000

problem with this whole thing where

371

00:15:50,330 --> 00:15:49,050

people are feeling that they're not

372

00:15:52,340 --> 00:15:50,340

taking this seriously because they've

373

00:15:54,050 --> 00:15:52,350

that's what they've told us yeah now

374

00:15:55,610 --> 00:15:54,060

thankfully it looks like they are taking

375

00:15:58,160 --> 00:15:55,620

it more seriously yeah

376

00:16:00,290 --> 00:15:58,170

thank goodness alright Alejandro thank

377

00:16:02,330 --> 00:16:00,300

you so much as always yep my pleasure

378

00:16:02,810 --> 00:16:02,340

thank you all right talk to you next

379

00:16:05,030 --> 00:16:02,820

week

380

00:16:07,850 --> 00:16:05,040

All Right see ya have a good show thank

381

00:16:09,290 --> 00:16:07,860

you all right everyone our guests while

382

00:16:11,810 --> 00:16:09,300

we have two of them two out of three

383

00:16:17,000 --> 00:16:11,820

right now and PJ will be joining us

384

00:16:20,420 --> 00:16:17,010

later on so keep that in mind and right

385

00:16:22,660 --> 00:16:20,430

now we have Omar Lara and we also have

386

00:16:25,280 --> 00:16:22,670

Dave Beatty welcome to the show guys

387

00:16:29,390 --> 00:16:25,290

okay thank you appreciate it

388

00:16:34,490 --> 00:16:29,400

so let's see one at a time here Omar can

389

00:16:39,680 --> 00:16:34,500

you first give up a nutshell about your

390

00:16:41,840 --> 00:16:39,690

position during 2004 in the Navy and and

391

00:16:42,200 --> 00:16:41,850

your your background real quickly if you

392

00:16:45,740 --> 00:16:42,210

would

393

00:16:49,480 --> 00:16:45,750

sure no problem in 2004 I was a ABA

394

00:16:52,660 --> 00:16:49,490

aviation fuels second class basically a

395

00:16:55,880 --> 00:16:52,670

petty officer second class rank and

396

00:16:58,310 --> 00:16:55,890

onboard the Nimitz I'm sorry on board

397

00:17:01,570 --> 00:16:58,320

the Nimitz I was an aviation fuels

398

00:17:05,000 --> 00:17:01,580

technician basically what I did was

399

00:17:08,480 --> 00:17:05,010

monitor the fuel system do maintenance

400

00:17:13,220 --> 00:17:08,490

on board and monitor the defueling and

401

00:17:15,800 --> 00:17:13,230

fueling of all embarked aircraft okay

402

00:17:17,329 --> 00:17:15,810

Omar it's a shame you you think you're

403

00:17:18,620 --> 00:17:17,339

on a Mac and everything we just can't

404

00:17:21,079 --> 00:17:18,630

figure out how to eat your camera going

405

00:17:25,130 --> 00:17:21,089

so when you're talking on a popover this

406

00:17:27,020 --> 00:17:25,140

picture of you in navy uniform that you

407

00:17:27,500 --> 00:17:27,030

were very young then right when was that

408

00:17:31,580 --> 00:17:27,510

taken

409

00:17:36,950 --> 00:17:31,590

I was probably about 23 at the time yeah

410

00:17:38,750 --> 00:17:36,960

41 now yeah yeah yeah and Dave baby Dave

411

00:17:43,970 --> 00:17:38,760

why don't you wanted to give you a

412

00:17:46,730 --> 00:17:43,980

background yeah sure as you know I'm a

413

00:17:49,520 --> 00:17:46,740

filmmaker but my day job is video

414

00:17:51,830 --> 00:17:49,530

Intelli production which I've been

415

00:17:54,520 --> 00:17:51,840

involved in for over 20 years

416

00:17:57,740 --> 00:17:54,530

before that I was a television

417

00:18:00,860 --> 00:17:57,750

journalist spent the first 10 years of

418

00:18:03,980 --> 00:18:00,870

my career covering local news in New

419

00:18:06,470 --> 00:18:03,990

York and then down here in Florida you

420

00:18:09,350 --> 00:18:06,480

know when I came down here in the 90s I

421

00:18:12,470 --> 00:18:09,360

would I joined the local state

422

00:18:16,070 --> 00:18:12,480

section of youth on and I was a field

423

00:18:17,960 --> 00:18:16,080

investigator for several years didn't

424

00:18:20,900 --> 00:18:17,970

have too many big cases here although my

425

00:18:23,270 --> 00:18:20,910

mom lived in Gulf Breeze while that

426
00:18:25,820 --> 00:18:23,280
whole Gulf Breeze thing was going on I

427
00:18:28,030 --> 00:18:25,830
used to go up there and visit her I've

428
00:18:31,700 --> 00:18:28,040
always been interested in the topic

429
00:18:35,000 --> 00:18:31,710
probably the first video efforts that I

430
00:18:36,860 --> 00:18:35,010
did with ufology was in the last year so

431
00:18:39,140 --> 00:18:36,870
my the rest of my career has been doing

432
00:18:42,230 --> 00:18:39,150
documentaries and films and commercial

433
00:18:45,200 --> 00:18:42,240
production not necessarily not

434
00:18:47,870 --> 00:18:45,210
necessarily UFO video production but

435
00:18:51,230 --> 00:18:47,880
that kind of changed last year and and

436
00:18:55,039 --> 00:18:51,240
what what inspired you to do that well

437
00:18:58,600 --> 00:18:55,049
it was you know several of my friends

438
00:19:02,240 --> 00:18:58,610

had sent me links to to the stars

439

00:19:05,390 --> 00:19:02,250

announcement when they first pitched the

440

00:19:08,210 --> 00:19:05,400

whole group and they got up on stage and

441

00:19:11,480 --> 00:19:08,220

they talked about you know these former

442

00:19:14,120 --> 00:19:11,490

intelligence officers and you know

443

00:19:17,539 --> 00:19:14,130

Lockheed Martin skunk works you know

444

00:19:19,880 --> 00:19:17,549

workers and then they began talking

445

00:19:23,630 --> 00:19:19,890

about these incidents that occurred

446

00:19:27,460 --> 00:19:23,640

involving u.s. Navy Carrier Strike

447

00:19:30,289 --> 00:19:27,470

groups and crafts that sort of defied

448

00:19:32,450 --> 00:19:30,299

physics and they couldn't really

449

00:19:35,630 --> 00:19:32,460

identify them and I was very interested

450

00:19:38,360 --> 00:19:35,640

in that story and I guess you know that

451
00:19:41,860 --> 00:19:38,370
was like around October 2017 when that

452
00:19:44,450 --> 00:19:41,870
came out so a bunch of us began

453
00:19:47,659 --> 00:19:44,460
researching and trying to find out more

454
00:19:49,850 --> 00:19:47,669
about that particular case and it wasn't

455
00:19:52,909 --> 00:19:49,860
soon after that we tracked down the

456
00:19:55,730 --> 00:19:52,919
fighter sweep article that had been

457
00:19:58,850 --> 00:19:55,740
published on in March of that year so

458
00:20:02,330 --> 00:19:58,860
back in March of 2017 written by a

459
00:20:05,780 --> 00:20:02,340
former fighter pilot named Paco chichi

460
00:20:08,810 --> 00:20:05,790
and in this article he lays out in

461
00:20:11,210 --> 00:20:08,820
detail the entire incident and it was

462
00:20:13,280 --> 00:20:11,220
kind of a trade magazine for fighter

463
00:20:15,320 --> 00:20:13,290

pilots and aviation enthusiasts so not

464

00:20:17,900 --> 00:20:15,330

many people had heard about it and up

465

00:20:20,510 --> 00:20:17,910

until that point I think that that was a

466

00:20:23,250 --> 00:20:20,520

story that was told or on the bar you

467

00:20:25,020 --> 00:20:23,260

know in fact it's what they said

468

00:20:27,000 --> 00:20:25,030

in the name of it there I was that's

469

00:20:30,270 --> 00:20:27,010

like kind of like a fighter pilot story

470

00:20:33,570 --> 00:20:30,280

that they told you know you know to

471

00:20:36,750 --> 00:20:33,580

their friends only so he put it in print

472

00:20:38,990 --> 00:20:36,760

and he researched it diligently and

473

00:20:43,590 --> 00:20:39,000

checked facts he told me he had the

474

00:20:45,090 --> 00:20:43,600

naval investigation document which to my

475

00:20:47,220 --> 00:20:45,100

knowledge has still never come out

476
00:20:48,390 --> 00:20:47,230
this was not an a tip document according

477
00:20:51,870 --> 00:20:48,400
to him this was like a naval

478
00:20:54,450 --> 00:20:51,880
investigation document that was very

479
00:20:56,909 --> 00:20:54,460
similar to what we've later seen and he

480
00:20:59,610 --> 00:20:56,919
used that to kind of set the stage so to

481
00:21:02,850 --> 00:20:59,620
speak and describe it and when I when I

482
00:21:05,340 --> 00:21:02,860
first read that article I mean I saw it

483
00:21:07,890 --> 00:21:05,350
in video as a video guy I'm like wow

484
00:21:10,710 --> 00:21:07,900
this is make a really cool documentary I

485
00:21:13,530 --> 00:21:10,720
could picture it and got my the gears

486
00:21:16,799 --> 00:21:13,540
going up here you know so that's how it

487
00:21:21,450 --> 00:21:16,809
started yeah and it looks the film you

488
00:21:23,340 --> 00:21:21,460

created looks very high-quality and

489

00:21:25,320 --> 00:21:23,350

usually when you see a film like that

490

00:21:27,330 --> 00:21:25,330

you know there's major funding and all

491

00:21:30,200 --> 00:21:27,340

that is this something you undertook all

492

00:21:33,780 --> 00:21:30,210

by yourself or did you get some backing

493

00:21:36,539 --> 00:21:33,790

no um when I first started thinking

494

00:21:38,700 --> 00:21:36,549

about it I realized that you know it

495

00:21:40,260 --> 00:21:38,710

would be very difficult for me to get

496

00:21:42,990 --> 00:21:40,270

sponsorship for something like this I

497

00:21:45,000 --> 00:21:43,000

didn't have anything lined up and over

498

00:21:46,440 --> 00:21:45,010

the course of several months especially

499

00:21:48,600 --> 00:21:46,450

after the New York Times article came

500

00:21:49,919 --> 00:21:48,610

out in December and it started getting

501
00:21:53,120 --> 00:21:49,929
more popular

502
00:21:55,860 --> 00:21:53,130
I considered how I could do it on a

503
00:21:58,890 --> 00:21:55,870
shoestring budget because I do have a

504
00:22:02,039 --> 00:21:58,900
skill set that allows me to not only do

505
00:22:06,210 --> 00:22:02,049
video editing but I'm also a DP a

506
00:22:09,240 --> 00:22:06,220
cinematographer you know I in my past I

507
00:22:12,150 --> 00:22:09,250
studied electronic music and I also do

508
00:22:14,250 --> 00:22:12,160
computer graphics I'm not you know

509
00:22:17,070 --> 00:22:14,260
that's not my full-time day job of doing

510
00:22:19,140 --> 00:22:17,080
CGI but I know how to do it you know and

511
00:22:23,190 --> 00:22:19,150
you can see it in the film so pretty

512
00:22:26,159 --> 00:22:23,200
much using that skill set with other

513
00:22:29,490 --> 00:22:26,169

resources I used and that I can pull

514

00:22:31,799 --> 00:22:29,500

from I decided that yeah I'll just work

515

00:22:35,590 --> 00:22:31,809

on this for fun because I really wanted

516

00:22:43,540 --> 00:22:40,180

yeah what looks like the screen froze

517

00:22:45,040 --> 00:22:43,550

here for some reason all right Dave I'm

518

00:22:50,350 --> 00:22:45,050

not sure if you can hear me but you are

519

00:22:52,000 --> 00:22:50,360

frozen in time and so we may have to try

520

00:22:52,660 --> 00:22:52,010

to pull you back on skype and see what

521

00:22:55,690 --> 00:22:52,670

happened there

522

00:22:59,800 --> 00:22:55,700

Omar while we're trying to get him

523

00:23:04,510 --> 00:22:59,810

why don't you given kind of an overall

524

00:23:07,480 --> 00:23:04,520

about your job and leading up to the

525

00:23:11,620 --> 00:23:07,490

infamous day there if you would yes sir

526

00:23:14,260 --> 00:23:11,630

no problem at that in 2004 it was the

527

00:23:15,970 --> 00:23:14,270

second and last night of the operations

528

00:23:17,950 --> 00:23:15,980

and the reason why I remember that being

529

00:23:20,590 --> 00:23:17,960

the second last night is all the jet

530

00:23:22,780 --> 00:23:20,600

aircraft and all the other aircraft had

531

00:23:25,420 --> 00:23:22,790

already disembarked meaning that they

532

00:23:27,850 --> 00:23:25,430

had flown off back to their home base a

533

00:23:29,920 --> 00:23:27,860

lot of times people tend to believe or

534

00:23:31,330 --> 00:23:29,930

think that the aircraft stay with the

535

00:23:35,460 --> 00:23:31,340

aircraft carrier when we pull into

536

00:23:37,630 --> 00:23:35,470

homeport they go back to their bases and

537

00:23:40,930 --> 00:23:37,640

typically at night like that it's gonna

538

00:23:43,780 --> 00:23:40,940

be a long one usually the department the

539

00:23:48,040 --> 00:23:43,790

air department is clearing up the deck

540

00:23:50,020 --> 00:23:48,050

of gear as well as the Air Wing the Air

541

00:23:52,270 --> 00:23:50,030

Wing also has attached sailors to them

542

00:23:54,490 --> 00:23:52,280

and they come on board literally just by

543

00:23:57,910 --> 00:23:54,500

walking on and they meet the aircraft

544

00:24:01,630 --> 00:23:57,920

once they land there and the Air Wing is

545

00:24:04,210 --> 00:24:01,640

using our elevator system to remove a

546

00:24:08,410 --> 00:24:04,220

lot of their gear down into the hangar

547

00:24:11,710 --> 00:24:08,420

bay and it's a nice night in some

548

00:24:17,590 --> 00:24:11,720

Pacific Ocean southeast of southwest of

549

00:24:19,930 --> 00:24:17,600

San Diego and as the Air Wing personnel

550

00:24:24,580 --> 00:24:19,940

are going up and down the elevator

551
00:24:26,740 --> 00:24:24,590
system while I3 if I'm correct on that I

552
00:24:30,130 --> 00:24:26,750
believe was I3 was down into the hangar

553
00:24:34,660 --> 00:24:30,140
bay one of the gentlemen had fallen off

554
00:24:36,790 --> 00:24:34,670
and he went overboard just did his

555
00:24:41,920 --> 00:24:36,800
strobe light and the man-overboard

556
00:24:45,610 --> 00:24:41,930
signal went on and at that moment what

557
00:24:47,890 --> 00:24:45,620
had happened is usually at a man

558
00:24:49,480 --> 00:24:47,900
overboard everyone has to report in so

559
00:24:52,630 --> 00:24:49,490
that your department

560
00:24:54,940 --> 00:24:52,640
and your immediate supervisors know that

561
00:25:00,370 --> 00:24:54,950
you're not the one over the side in the

562
00:25:07,180 --> 00:25:00,380
ocean so I called in all counted four

563
00:25:09,310 --> 00:25:07,190

and after that things kind of come to a

564

00:25:14,080 --> 00:25:09,320

certain standstill with someone's Man

565

00:25:18,220 --> 00:25:14,090

Overboard you don't really get back to

566

00:25:22,269 --> 00:25:18,230

what you're doing and we went back on

567

00:25:24,460 --> 00:25:22,279

deck after I called in and we could see

568

00:25:26,350 --> 00:25:24,470

the Sailor he's he had drifted out at

569

00:25:29,139 --> 00:25:26,360

sea he caught he got caught in a current

570

00:25:32,700 --> 00:25:29,149

and I remember that night the deck

571

00:25:35,560 --> 00:25:32,710

department having a an issue or problem

572

00:25:39,549 --> 00:25:35,570

getting the rig boat off the aircraft

573

00:25:42,100 --> 00:25:39,559

carrier and his strobe lights flashing

574

00:25:44,649 --> 00:25:42,110

and I'm standing out there on the aft

575

00:25:50,080 --> 00:25:44,659

end of the ship which is the back end of

576

00:25:54,039 --> 00:25:50,090

the aircraft carrier and without any

577

00:25:56,649 --> 00:25:54,049

warning this white an emmalution

578

00:25:59,919 --> 00:25:56,659

emmalution object shoots down out from

579

00:26:01,690 --> 00:25:59,929

the sky comes down like a shooting star

580

00:26:05,590 --> 00:26:01,700

and when you see a shooting star they

581

00:26:06,820 --> 00:26:05,600

tend to almost break up and disseminate

582

00:26:09,250 --> 00:26:06,830

you know what I mean they slow down and

583

00:26:11,500 --> 00:26:09,260

disseminate but this thing just kept

584

00:26:14,260 --> 00:26:11,510

coming down at an angle and it just

585

00:26:18,100 --> 00:26:14,270

stopped right in between the horizon and

586

00:26:20,139 --> 00:26:18,110

the calm ocean it was a nice clear night

587

00:26:23,159 --> 00:26:20,149

so this thing stuck out like a sore

588

00:26:25,659 --> 00:26:23,169

thumb and it was just white bright

589

00:26:30,460 --> 00:26:25,669

object and it sat there for about eight

590

00:26:31,810 --> 00:26:30,470

to fifteen seconds between uh behind the

591

00:26:34,659 --> 00:26:31,820

sailors so I'm not saying it was

592

00:26:37,419 --> 00:26:34,669

directly above them or behind them but

593

00:26:39,130 --> 00:26:37,429

it was still a distance from the Sailor

594

00:26:43,630 --> 00:26:39,140

overboard Wow

595

00:26:47,139 --> 00:26:43,640

well Omar we are right at our break so

596

00:26:50,649 --> 00:26:47,149

this is really pretty exciting and we'll

597

00:26:54,700 --> 00:26:50,659

pick that up when we come back so that's

598

00:26:59,049 --> 00:26:54,710

that's it for this this segment hanging

599

00:27:00,460 --> 00:26:59,059

everyone on kgr a radio and we'll be

600

00:27:02,560 --> 00:27:00,470

right back

601
00:27:08,400 --> 00:27:02,570
stay stay in there youtube we're going

602
00:27:13,090 --> 00:27:10,540
all right we're clear

603
00:27:15,400 --> 00:27:13,100
Martin Willis and there's just about

604
00:27:17,950 --> 00:27:15,410
four minutes and ten seconds in this

605
00:27:20,980 --> 00:27:17,960
break all right thank you all right so

606
00:27:22,930 --> 00:27:20,990
we are still live on YouTube everyone on

607
00:27:25,540 --> 00:27:22,940
this break mmm the next break we won't

608
00:27:26,350 --> 00:27:25,550
be but anyway I think we got everyone

609
00:27:30,040 --> 00:27:26,360
here don't we

610
00:27:32,110 --> 00:27:30,050
PJ yes I'm here I'm back

611
00:27:36,010 --> 00:27:32,120
PJ I don't I don't hear a microphone do

612
00:27:38,350 --> 00:27:36,020
you have one can you give enough yeah it

613
00:27:40,290 --> 00:27:38,360

does it sound where I'm getting a it

614

00:27:44,020 --> 00:27:40,300

doesn't sound quite like a microphone

615

00:27:50,410 --> 00:27:44,030

all right yep

616

00:27:53,080 --> 00:27:50,420

Dave what happened Dave Eve I'm not

617

00:27:54,850 --> 00:27:53,090

hearing you yeah the I guess the

618

00:27:59,230 --> 00:27:54,860

internet dropped my just had to

619

00:28:01,000 --> 00:27:59,240

reconnect are you far away from the

620

00:28:07,240 --> 00:28:01,010

you're on Wi-Fi obviously you far away

621

00:28:09,310 --> 00:28:07,250

from the router no okay all right so PJ

622

00:28:09,640 --> 00:28:09,320

how are you how you doing good how are

623

00:28:11,530 --> 00:28:09,650

you

624

00:28:13,300 --> 00:28:11,540

I guess that's I guess that's a

625

00:28:16,090 --> 00:28:13,310

microphone you have a foot type we have

626
00:28:17,470 --> 00:28:16,100
a microphone lan I had a microphone in I

627
00:28:18,070 --> 00:28:17,480
just took it out could you couldn't hear

628
00:28:19,780 --> 00:28:18,080
me on it

629
00:28:22,570 --> 00:28:19,790
oh no I could hear you it just didn't

630
00:28:24,640 --> 00:28:22,580
sound like a microphone it sounds almost

631
00:28:26,740 --> 00:28:24,650
sounds a little better now so we're

632
00:28:32,550 --> 00:28:26,750
still live on YouTube so why don't you

633
00:28:34,870 --> 00:28:32,560
introduce yourself if you would um yeah

634
00:28:38,410 --> 00:28:34,880
names Patrick Hughes I was an avionics

635
00:28:40,750 --> 00:28:38,420
technician with VAW 117 the Wallbangers

636
00:28:44,530 --> 00:28:40,760
we were onboard

637
00:28:49,930 --> 00:28:44,540
Nimitz during what Dave has called the

638
00:28:54,220 --> 00:28:49,940

Nimitz encounters I was I never actually

639

00:28:56,860 --> 00:28:54,230

saw the attack myself I speak for Roger

640

00:28:59,380 --> 00:28:56,870

who was one of the in-flight techs who

641

00:29:03,190 --> 00:28:59,390

was airborne during stories intercept he

642

00:29:05,910 --> 00:29:03,200

saw the tic-tac he can't come forward

643

00:29:09,370 --> 00:29:05,920

he's he has signed an NDA and has

644

00:29:12,430 --> 00:29:09,380

security clearance concerns but he has

645

00:29:16,630 --> 00:29:12,440

confirmed quite a few things with me he

646

00:29:18,900 --> 00:29:16,640

gives you the tick-tock tick tack it did

647

00:29:21,340 --> 00:29:18,910

form up with the Hawkeye during a flight

648

00:29:25,270 --> 00:29:21,350

but more specifically what I can speak

649

00:29:27,190 --> 00:29:25,280

for is after the Hawkeye which was

650

00:29:31,870 --> 00:29:27,200

airborne during flavours intercept

651
00:29:35,320 --> 00:29:31,880
flight came back the Air Force came and

652
00:29:37,840 --> 00:29:35,330
confiscated a lot of the classified

653
00:29:39,630 --> 00:29:37,850
material off the airplane that had

654
00:29:42,100 --> 00:29:39,640
record stuff there in the flight and

655
00:29:44,350 --> 00:29:42,110
that's where I come in and speaking to

656
00:29:47,110 --> 00:29:44,360
some of the backstory of the actual

657
00:29:49,210 --> 00:29:47,120
situation yeah so we're gonna be when we

658
00:29:50,860 --> 00:29:49,220
go back live we want everyone over at

659
00:29:54,580 --> 00:29:50,870
the radio station ability here that - so

660
00:29:57,490 --> 00:29:54,590
we'll kind of go over all that but were

661
00:30:01,180 --> 00:29:57,500
you actually on the Hawkeye I mean is

662
00:30:02,710 --> 00:30:01,190
that is that did you die in that oh not

663
00:30:06,100 --> 00:30:02,720

in this case but I have flown into

664

00:30:08,830 --> 00:30:06,110

plenty of times yes yeah that's that's

665

00:30:11,020 --> 00:30:08,840

quite can you describe what that is

666

00:30:13,840 --> 00:30:11,030

exactly I mean it's got this major radar

667

00:30:15,430 --> 00:30:13,850

dish on the top of it right yeah I mean

668

00:30:16,539 --> 00:30:15,440

the Hawkeye is essentially it's an

669

00:30:20,320 --> 00:30:16,549

airborne early warning and control

670

00:30:24,039 --> 00:30:20,330

aircraft it's frequently called the

671

00:30:25,510 --> 00:30:24,049

quarterback of the theater group almost

672

00:30:28,090 --> 00:30:25,520

nothing happens in the battle groups

673

00:30:29,710 --> 00:30:28,100

without without a Hawkeye president of

674

00:30:34,240 --> 00:30:29,720

Hawkeye airborne and Hawkeye controlling

675

00:30:35,950 --> 00:30:34,250

things the radar and the cooperative

676
00:30:38,620 --> 00:30:35,960
engagement capability were true the big

677
00:30:43,169 --> 00:30:38,630
assets Lynx up the battle group allows

678
00:30:46,870 --> 00:30:43,179
everybody to see the same picture and

679
00:30:48,700 --> 00:30:46,880
it's because of being up in the sky like

680
00:30:50,650 --> 00:30:48,710
the up in the air like that is that and

681
00:30:54,159 --> 00:30:50,660
it gets more of an overview than you

682
00:30:58,900 --> 00:30:54,169
could on the ground like a off a ship so

683
00:31:01,900 --> 00:30:58,910
uh the radar in general is a limitation

684
00:31:04,360 --> 00:31:01,910
is line of sight you can only relatively

685
00:31:05,740 --> 00:31:04,370
see the horizon you can't the higher up

686
00:31:08,320 --> 00:31:05,750
you are the further you can see just

687
00:31:11,080 --> 00:31:08,330
like if you would your own eyes stood

688
00:31:12,549 --> 00:31:11,090

below a tower and looked you're only

689

00:31:14,530 --> 00:31:12,559

going to see so far you climb up to the

690

00:31:16,570 --> 00:31:14,540

top of that tower and look you're gonna

691

00:31:18,460 --> 00:31:16,580

see that much further yeah I got it yeah

692

00:31:22,600 --> 00:31:18,470

same principle all right I think we're

693

00:31:22,960 --> 00:31:22,610

going back aren't we race ray see you

694

00:31:25,600 --> 00:31:22,970

there

695

00:31:28,899 --> 00:31:25,610

yes I am and we're ready to go back

696

00:31:32,669 --> 00:31:28,909

around you yep awesome

697

00:31:34,870 --> 00:31:32,679

we are thin off of music bro alrighty

698

00:31:37,320 --> 00:31:34,880

alright here we go I'm gonna count you

699

00:31:44,680 --> 00:31:37,330

down Martin yep

700

00:31:46,659 --> 00:31:44,690

in five four three two all right

701
00:31:48,430 --> 00:31:46,669
everyone welcome back I'm here with

702
00:31:51,549 --> 00:31:48,440
everybody's here now

703
00:31:54,190 --> 00:31:51,559
PJ is PJ who Hughes pest juice is

704
00:31:58,899 --> 00:31:54,200
joining us and Omar is here as well and

705
00:32:01,570 --> 00:31:58,909
AP and so quickly I know you've been

706
00:32:05,470 --> 00:32:01,580
talking on YouTube but just introduce

707
00:32:07,389 --> 00:32:05,480
yourself if you would Patrick yeah my

708
00:32:09,180 --> 00:32:07,399
name is Patrick Hughes I was a bionic

709
00:32:13,769 --> 00:32:09,190
technician on board

710
00:32:17,860 --> 00:32:13,779
Nimitz I worked with Wallbangers VAW 117

711
00:32:19,090 --> 00:32:17,870
I'm speaking for both myself who I could

712
00:32:21,159 --> 00:32:19,100
speak for some of the behind the scenes

713
00:32:23,169 --> 00:32:21,169

stuff I didn't actually see the tic tac

714

00:32:25,029 --> 00:32:23,179

with my own eyes but I'm also speaking

715

00:32:27,580 --> 00:32:25,039

for Roger who was one of the in-flight

716

00:32:30,399 --> 00:32:27,590

Tech's who not only was airborne Tour

717

00:32:33,190 --> 00:32:30,409

favorites intercept but who also saw the

718

00:32:35,649 --> 00:32:33,200

tic-tac form up with with our Hawkeye

719

00:32:38,470 --> 00:32:35,659

during that same time frame know this

720

00:32:40,600 --> 00:32:38,480

has been kind of a mystery to me and I

721

00:32:42,639 --> 00:32:40,610

don't know if Omar if you want to chime

722

00:32:47,320 --> 00:32:42,649

in on this too but how come some people

723

00:32:51,820 --> 00:32:47,330

were made to sign the NDA and and some

724

00:32:56,080 --> 00:32:51,830

not it's it's a puzzle oh my honest

725

00:32:58,990 --> 00:32:56,090

opinion has to do with the CC system and

726

00:33:01,330 --> 00:32:59,000

what it was capable of seeing what it

727

00:33:02,649 --> 00:33:01,340

was linked to what it was tied to the

728

00:33:05,590 --> 00:33:02,659

amount of people who actually had

729

00:33:10,539 --> 00:33:05,600

visible access to that is a lot less

730

00:33:13,899 --> 00:33:10,549

than who who actually saw the object so

731

00:33:17,080 --> 00:33:13,909

that's my assumption and is the hawk I

732

00:33:18,669 --> 00:33:17,090

saw a lot of data we would have seen

733

00:33:20,560 --> 00:33:18,679

data that not necessarily everybody else

734

00:33:22,509 --> 00:33:20,570

could see that's really reason I can

735

00:33:23,590 --> 00:33:22,519

think of they would have NBA the crew

736

00:33:26,919 --> 00:33:23,600

that was in the Hawkeye and not

737

00:33:29,799 --> 00:33:26,929

everybody else yeah I mean I mean David

738

00:33:32,529 --> 00:33:29,809

flavor is he was he obviously he's

739

00:33:34,330 --> 00:33:32,539

talking about it I don't think that he

740

00:33:36,159 --> 00:33:34,340

had to sign one I don't remember hearing

741

00:33:38,500 --> 00:33:36,169

that disgusting but he also wouldn't

742

00:33:41,630 --> 00:33:38,510

have seen the CC data yeah

743

00:33:43,760 --> 00:33:41,640

that's sure you were the item CT

744

00:33:45,440 --> 00:33:43,770

it and so you think that the data is

745

00:33:48,260 --> 00:33:45,450

more

746

00:33:53,030 --> 00:33:48,270

let's see incredible than the visual

747

00:33:54,590 --> 00:33:53,040

sighting because of and I'm gonna try

748

00:33:56,510 --> 00:33:54,600

and steer clear Patrick's and

749

00:33:59,360 --> 00:33:56,520

capabilities of what yes when actually

750

00:34:02,270 --> 00:33:59,370

you yeah but CC is essentially a data

751

00:34:04,610 --> 00:34:02,280

link it links the Hawkeye which is the

752

00:34:06,530 --> 00:34:04,620

only airborne asset that has you see it

753

00:34:08,240 --> 00:34:06,540

links to Princeton it links grad

754

00:34:11,900 --> 00:34:08,250

stations and it links and limits and

755

00:34:13,820 --> 00:34:11,910

some other stuff all together and they

756

00:34:16,220 --> 00:34:13,830

see a giant instantaneous picture of

757

00:34:18,980 --> 00:34:16,230

everything that's happening not

758

00:34:21,320 --> 00:34:18,990

everybody has access to that other

759

00:34:24,470 --> 00:34:21,330

sensors feed into it but not everybody

760

00:34:29,420 --> 00:34:24,480

can actually see what the CEC system has

761

00:34:33,380 --> 00:34:29,430

and it's a it's a game changer as far as

762

00:34:35,210 --> 00:34:33,390

what information that has and the

763

00:34:36,110 --> 00:34:35,220

Princeton would have recorded it and it

764

00:34:38,660 --> 00:34:36,120

does it automatically

765

00:34:40,640 --> 00:34:38,670

the Hawkeye doesn't always record it but

766

00:34:41,810 --> 00:34:40,650

I know it was recording because I always

767

00:34:45,320 --> 00:34:41,820

hit record before I got out of the

768

00:34:47,450 --> 00:34:45,330

airplane and odds are the Nimitz even

769

00:34:48,830 --> 00:34:47,460

though it was tied in it probably wasn't

770

00:34:51,500 --> 00:34:48,840

recording because it wasn't a high

771

00:34:55,730 --> 00:34:51,510

priority for them I see

772

00:34:58,430 --> 00:34:55,740

ok so Dave can you kind of go over how

773

00:35:03,170 --> 00:34:58,440

this whole thing happened were you know

774

00:35:05,120 --> 00:35:03,180

PJ and Omar and other witnesses I'm sure

775

00:35:06,890 --> 00:35:05,130

you have said other witnesses have

776

00:35:10,250 --> 00:35:06,900

gotten in touch with you over this film

777

00:35:11,990 --> 00:35:10,260

right your film yeah that's right I mean

778

00:35:13,850 --> 00:35:12,000

you're you you're talking to two of them

779

00:35:16,640 --> 00:35:13,860

right here tonight your audience is

780

00:35:20,900 --> 00:35:16,650

hearing their stories simply because hmm

781

00:35:23,900 --> 00:35:20,910

they at some point saw my movie and in

782

00:35:26,840 --> 00:35:23,910

that I had asked any military personnel

783

00:35:30,530 --> 00:35:26,850

they had witnessed not just this

784

00:35:33,020 --> 00:35:30,540

particular case but any military case to

785

00:35:34,790 --> 00:35:33,030

if they wanted to talk about it to get

786

00:35:38,750 --> 00:35:34,800

in touch with me and that you know I

787

00:35:40,220 --> 00:35:38,760

would respect their privacy and so on

788

00:35:41,420 --> 00:35:40,230

and not use their name if they didn't

789

00:35:45,140 --> 00:35:41,430

want if they wanted to remain anonymous

790

00:35:47,000 --> 00:35:45,150

and so on that I promised to do so and I

791

00:35:48,650 --> 00:35:47,010

kept that you know I haven't like

792

00:35:51,800 --> 00:35:48,660

anybody that doesn't want to like have

793

00:35:55,559 --> 00:35:51,810

their name or even their story told I

794

00:35:57,809 --> 00:35:55,569

haven't done that but PJ reached

795

00:36:02,579 --> 00:35:57,819

me I don't know when it was back in

796

00:36:05,549 --> 00:36:02,589

November or so telling me that the story

797

00:36:08,539 --> 00:36:05,559

that you just heard and I think at that

798

00:36:12,120 --> 00:36:08,549

point I asked him if he had any other

799

00:36:15,059 --> 00:36:12,130

you know friends that were there during

800

00:36:19,279 --> 00:36:15,069

that time and you know I'm sure enough

801
00:36:23,699 --> 00:36:19,289
like several weeks later his friend

802
00:36:26,430 --> 00:36:23,709
contacts me via email and you know just

803
00:36:29,130 --> 00:36:26,440
bear in mind that I did check these guys

804
00:36:31,140 --> 00:36:29,140
out as far as their military service

805
00:36:36,329 --> 00:36:31,150
records or their separation papers of

806
00:36:39,209 --> 00:36:36,339
dd-214 a lot of these strike groups have

807
00:36:41,459 --> 00:36:39,219
Cruz books that every few years when

808
00:36:44,670 --> 00:36:41,469
they go on deployment they create these

809
00:36:46,499 --> 00:36:44,680
you know hunters and a 300 page yearbook

810
00:36:49,259 --> 00:36:46,509
so to speak that has photos of every

811
00:36:51,209 --> 00:36:49,269
single crew men and their rank and what

812
00:36:54,239 --> 00:36:51,219
department they're in so you can also

813
00:36:56,519 --> 00:36:54,249

easily go back and I just made sure that

814

00:36:58,620 --> 00:36:56,529

you know the people that were contacting

815

00:37:00,749 --> 00:36:58,630

me if they said that they did something

816

00:37:02,430 --> 00:37:00,759

that I checked it out and verified that

817

00:37:05,609 --> 00:37:02,440

and in some cases that would have

818

00:37:08,670 --> 00:37:05,619

multiple people that were corroborating

819

00:37:10,759 --> 00:37:08,680

each other stories so these two

820

00:37:13,949 --> 00:37:10,769

gentlemen you know told me their story

821

00:37:17,339 --> 00:37:13,959

and then later on actually I think it

822

00:37:21,299 --> 00:37:17,349

was probably just in March that Omar

823

00:37:23,459 --> 00:37:21,309

emailed me as well and told me the story

824

00:37:26,339 --> 00:37:23,469

about the man overboard and kind of

825

00:37:29,160 --> 00:37:26,349

incredible nocturnal light that he

826

00:37:32,099 --> 00:37:29,170

witnessed towards the end of that work

827

00:37:34,079 --> 00:37:32,109

up right and he you and you know that's

828

00:37:36,390 --> 00:37:34,089

not all I have like dozens and dozens of

829

00:37:38,849 --> 00:37:36,400

other sighting reports that have really

830

00:37:40,079 --> 00:37:38,859

nothing to do with the Nimitz some of

831

00:37:42,089 --> 00:37:40,089

the other witnesses that I've been

832

00:37:44,039 --> 00:37:42,099

working with came out individually that

833

00:37:45,719 --> 00:37:44,049

weren't necessarily related to my film

834

00:37:51,059 --> 00:37:45,729

such as Kevin day and Gary Voorhees

835

00:37:55,259 --> 00:37:51,069

those two sailors I you know became

836

00:37:57,390 --> 00:37:55,269

acquainted with outside of my film I see

837

00:38:00,870 --> 00:37:57,400

I see Omar right before we were going

838

00:38:03,689 --> 00:38:00,880

into break you were telling us about you

839

00:38:06,599 --> 00:38:03,699

know your encounter you saw this then

840

00:38:07,920 --> 00:38:06,609

come down right down to the water and

841

00:38:09,730 --> 00:38:07,930

just stay there I think you said

842

00:38:13,150 --> 00:38:09,740

something like eight to fifty

843

00:38:14,200 --> 00:38:13,160

seconds and you don't know you said you

844

00:38:16,180 --> 00:38:14,210

didn't think it was right over the

845

00:38:19,510 --> 00:38:16,190

sailor that had gone overboard but it

846

00:38:23,380 --> 00:38:19,520

was over in that direction was it yes

847

00:38:26,710 --> 00:38:23,390

there was I would say is directly behind

848

00:38:29,020 --> 00:38:26,720

him and it was nowhere near the sailor

849

00:38:31,480 --> 00:38:29,030

that was overboard his strobe light was

850

00:38:34,240 --> 00:38:31,490

still flashing and between those eight

851
00:38:35,710 --> 00:38:34,250
to fifteen seconds while the deck

852
00:38:39,240 --> 00:38:35,720
Department was still struggling to

853
00:38:42,160 --> 00:38:39,250
remove the rigged boat from the Nimitz I

854
00:38:45,370 --> 00:38:42,170
one of the sailors that were on that

855
00:38:48,089 --> 00:38:45,380
response and with the rig boat literally

856
00:38:52,900 --> 00:38:48,099
turned the spotlight to try to

857
00:38:56,620 --> 00:38:52,910
illuminate this object so those there's

858
00:38:59,800 --> 00:38:56,630
a witness there as well and as he turned

859
00:39:02,290 --> 00:38:59,810
to try to illuminate it it lasted maybe

860
00:39:05,440 --> 00:39:02,300
two to three seconds after he did that

861
00:39:07,870 --> 00:39:05,450
and he went back to the Sailor and then

862
00:39:10,810 --> 00:39:07,880
maybe a few seconds shortly after that

863
00:39:13,300 --> 00:39:10,820

that's when the object took off at an

864

00:39:17,950 --> 00:39:13,310

incredible speed just as fast as it came

865

00:39:20,440 --> 00:39:17,960

down it went right and it went left but

866

00:39:23,980 --> 00:39:20,450

at an angle maybe at an acute angle or a

867

00:39:26,859 --> 00:39:23,990

90-degree angle and at that moment it

868

00:39:27,670 --> 00:39:26,869

just shot right back up into space where

869

00:39:29,710 --> 00:39:27,680

it came from

870

00:39:32,859 --> 00:39:29,720

and when I mean shot right back up I

871

00:39:35,260 --> 00:39:32,869

don't mean as in as you would witness a

872

00:39:39,040 --> 00:39:35,270

space shuttle launch you know you could

873

00:39:40,780 --> 00:39:39,050

still see exhaust fumes and the space

874

00:39:43,060 --> 00:39:40,790

shuttle is traveling at incredible speed

875

00:39:46,240 --> 00:39:43,070

but you can still fall generally follow

876

00:39:48,730 --> 00:39:46,250

it with your eye sight but with the

877

00:39:51,400 --> 00:39:48,740

movement of this object you literally

878

00:39:54,280 --> 00:39:51,410

have to move your torso and you had to

879

00:39:58,089 --> 00:39:54,290

look up just to keep up with this thing

880

00:40:02,160 --> 00:39:58,099

and there was no sonic boom no cat no

881

00:40:04,690 --> 00:40:02,170

trail whatsoever and it just took off as

882

00:40:06,700 --> 00:40:04,700

fast as anything I've ever seen on this

883

00:40:09,670 --> 00:40:06,710

pass of the handy and I've ever seen on

884

00:40:11,920 --> 00:40:09,680

this planet now did you see the actual

885

00:40:14,740 --> 00:40:11,930

moon shape of it looking like a tic-tac

886

00:40:17,050 --> 00:40:14,750

like the other ones or was this more

887

00:40:22,210 --> 00:40:17,060

like a round object what did you see

888

00:40:22,960 --> 00:40:22,220

it was definitely roundish you know

889

00:40:25,450 --> 00:40:22,970

compared to the

890

00:40:27,910 --> 00:40:25,460

stars I would say it was like maybe the

891

00:40:29,200 --> 00:40:27,920

size of a quarter it was a nice clear

892

00:40:31,720 --> 00:40:29,210

night mm-hmm

893

00:40:34,780 --> 00:40:31,730

so you could really you could see it I

894

00:40:36,910 --> 00:40:34,790

mean even if it was well after the fact

895

00:40:40,510 --> 00:40:36,920

that he saw it shot down and then plant

896

00:40:46,170 --> 00:40:40,520

itself there it was pretty visible

897

00:40:49,780 --> 00:40:46,180

compared to the night sky and and the

898

00:40:52,600 --> 00:40:49,790

the stars but as far as commander's

899

00:40:54,150 --> 00:40:52,610

flavors description of the object I to

900

00:40:59,310 --> 00:40:54,160

see anything

901
00:41:04,090 --> 00:40:59,320
as far as I wasn't as close to it as

902
00:41:06,340 --> 00:41:04,100
commander was and this thing just moved

903
00:41:09,520 --> 00:41:06,350
at incredible speed and that's one of

904
00:41:10,960 --> 00:41:09,530
the things I'll never forget and Omar

905
00:41:13,180 --> 00:41:10,970
knows commander favored by the way I

906
00:41:16,900 --> 00:41:13,190
think that he worked with them on Nimitz

907
00:41:19,870 --> 00:41:16,910
in his capacity you know with the Jets

908
00:41:22,510 --> 00:41:19,880
so I had a encounters with commander

909
00:41:24,160 --> 00:41:22,520
forever almost at a daily basis if he

910
00:41:27,610 --> 00:41:24,170
was there in his office I would turn in

911
00:41:31,510 --> 00:41:27,620
few reports basically it's just a

912
00:41:34,780 --> 00:41:31,520
breakdown how much fuel each aircraft or

913
00:41:37,780 --> 00:41:34,790

actually each squadron was using in

914

00:41:40,300 --> 00:41:37,790

pounds not in gallons and it's just like

915

00:41:43,650 --> 00:41:40,310

a general breakdown of what how much

916

00:41:47,200 --> 00:41:43,660

gasoline or jp5 did drinking basically

917

00:41:49,840 --> 00:41:47,210

and now that it was you know a good

918

00:41:52,180 --> 00:41:49,850

morning sir how are you and I have to be

919

00:41:56,800 --> 00:41:52,190

very respectful and of course respect

920

00:42:01,630 --> 00:41:56,810

his rank and stand up individual if I

921

00:42:04,720 --> 00:42:01,640

remember and up do you think your

922

00:42:08,320 --> 00:42:04,730

encounter was approximately the same you

923

00:42:10,630 --> 00:42:08,330

know Dateline as as what when when he

924

00:42:12,310 --> 00:42:10,640

had that encounter did he actually you

925

00:42:14,620 --> 00:42:12,320

know was that a known thing when these

926

00:42:19,680 --> 00:42:14,630

encounters were happening well no sir

927

00:42:22,810 --> 00:42:19,690

not for me I'm wasn't privy to PJ's

928

00:42:24,430 --> 00:42:22,820

account due to his security clearance

929

00:42:26,890 --> 00:42:24,440

just to piggyback on what he said during

930

00:42:31,770 --> 00:42:26,900

the break my security clearance was

931

00:42:36,930 --> 00:42:31,780

nowhere near is or as far as others in

932

00:42:44,410 --> 00:42:40,870

we had I had no clue of all those other

933

00:42:46,540 --> 00:42:44,420

incidents that happened and that was one

934

00:42:50,020 --> 00:42:46,550

of the first things that came to mind

935

00:42:52,660 --> 00:42:50,030

right away when I heard I think I

936

00:42:54,640 --> 00:42:52,670

believe it was a Jeremy Korbelt he came

937

00:42:57,220 --> 00:42:54,650

out with it first on a George Knapp

938

00:42:59,620 --> 00:42:57,230

interview and I happen to be listening

939

00:43:03,190 --> 00:42:59,630

that only the fact that it was until

940

00:43:05,890 --> 00:43:03,200

2016 that I had just got done reading

941

00:43:09,100 --> 00:43:05,900

Annie Jacobs book of area 51

942

00:43:11,740 --> 00:43:09,110

she mentioned mr. Knapp and I got back

943

00:43:14,110 --> 00:43:11,750

into the UFO subject and just kind of

944

00:43:17,560 --> 00:43:14,120

started trying to figure out maybe what

945

00:43:21,130 --> 00:43:17,570

did I see or maybe someone has inside

946

00:43:23,020 --> 00:43:21,140

them to this this object with this

947

00:43:27,490 --> 00:43:23,030

incredible maneuverability and

948

00:43:30,220 --> 00:43:27,500

technology and when I heard mr. corporal

949

00:43:34,060 --> 00:43:30,230

mention it I literally just jumped out

950

00:43:36,490 --> 00:43:34,070

of out of my my seat at the middle of

951
00:43:37,930 --> 00:43:36,500
the night I woke up my family and they

952
00:43:41,500 --> 00:43:37,940
had only been maybe five people that

953
00:43:46,390 --> 00:43:41,510
ever told in my lifetime since that

954
00:43:49,210 --> 00:43:46,400
incident and that is when I reached out

955
00:43:51,850 --> 00:43:49,220
to mr. Korbell and then a few months

956
00:43:55,690 --> 00:43:51,860
later I remember he had mentioned that

957
00:44:00,430 --> 00:43:55,700
he has Bob Lazar video coming out as

958
00:44:02,080 --> 00:44:00,440
well as skinwalker ranch and I think

959
00:44:06,790 --> 00:44:02,090
that just kind of took precedence over

960
00:44:11,020 --> 00:44:06,800
his uh his uh work and his daily life

961
00:44:13,630 --> 00:44:11,030
and then I saw mr. batas video and I say

962
00:44:16,450 --> 00:44:13,640
you know maybe I tell this gentleman my

963
00:44:18,190 --> 00:44:16,460

story and hopefully we can get some

964

00:44:21,400 --> 00:44:18,200

other witnesses because I was not the

965

00:44:22,930 --> 00:44:21,410

only one that saw this thing I mean

966

00:44:25,090 --> 00:44:22,940

there's a gentleman right next to me and

967

00:44:27,880 --> 00:44:25,100

I won't release his name because he's

968

00:44:30,670 --> 00:44:27,890

still active and out of respect to him

969

00:44:32,920 --> 00:44:30,680

his service time and his family and

970

00:44:36,460 --> 00:44:32,930

close close friendship I won't say his

971

00:44:40,420 --> 00:44:36,470

name he saw this object too but no sir I

972

00:44:45,300 --> 00:44:40,430

mean there was no information out there

973

00:44:48,790 --> 00:44:45,310

in regards to hey we're chasing these

974

00:44:49,599 --> 00:44:48,800

UFOs nothing like that but uh pj of

975

00:44:51,390 --> 00:44:49,609

course they knew

976
00:44:54,039 --> 00:44:51,400
bought it but not me because I had no

977
00:44:57,789 --> 00:44:54,049
security clearance like that but was

978
00:45:01,479 --> 00:44:57,799
this on the the training was it on the

979
00:45:05,049 --> 00:45:01,489
same training session off of San Diego

980
00:45:07,210 --> 00:45:05,059
and mm yes it was the same time the same

981
00:45:11,950 --> 00:45:07,220
time we did go out to sea twice in

982
00:45:16,269 --> 00:45:11,960
November and I believe mr. Beatty

983
00:45:18,960 --> 00:45:16,279
is uh researching the deck logs for that

984
00:45:22,450 --> 00:45:18,970
particular night right we have we have a

985
00:45:26,410 --> 00:45:22,460
FOIA request in right now for the Nimitz

986
00:45:29,950 --> 00:45:26,420
tech logs the ones that were already

987
00:45:34,210 --> 00:45:29,960
produced didn't go up to the end of

988
00:45:36,220 --> 00:45:34,220

November I believe I think it's that

989

00:45:39,039 --> 00:45:36,230

they went up to like November 16th or

990

00:45:41,019 --> 00:45:39,049

something like that and Omar related

991

00:45:43,870 --> 00:45:41,029

that he believed that this that might

992

00:45:45,910 --> 00:45:43,880

have been the last night before they

993

00:45:48,910 --> 00:45:45,920

went back to port so that would have

994

00:45:51,579 --> 00:45:48,920

been a later in November so we did go

995

00:45:54,279 --> 00:45:51,589

back and resubmit to try to get the rest

996

00:45:55,960 --> 00:45:54,289

of those logs specifically looking for

997

00:45:58,809 --> 00:45:55,970

that man overboard so we could correlate

998

00:46:00,430 --> 00:45:58,819

the date when this event happened which

999

00:46:02,710 --> 00:46:00,440

i think is kind of an interesting thing

1000

00:46:04,690 --> 00:46:02,720

and the other thing I want to ask you

1001
00:46:08,229 --> 00:46:04,700
all Marv is because you know you are on

1002
00:46:11,680 --> 00:46:08,239
the ship do you ever remember any sort

1003
00:46:14,739 --> 00:46:11,690
of scuttlebutt that you know they were

1004
00:46:17,049 --> 00:46:14,749
playing The X Files or that there was

1005
00:46:19,329 --> 00:46:17,059
any cartoons like or anything like that

1006
00:46:21,430 --> 00:46:19,339
around that period you do you recall I

1007
00:46:24,549 --> 00:46:21,440
remember they kept playing that that

1008
00:46:25,660 --> 00:46:24,559
movie with the Will Smith over and over

1009
00:46:31,539 --> 00:46:25,670
and then they even play Close Encounters

1010
00:46:33,190 --> 00:46:31,549
of the Third Kind I believe house was if

1011
00:46:36,009 --> 00:46:33,200
I could I don't know if it was that one

1012
00:46:37,029 --> 00:46:36,019
but I do know that Will Smith movie

1013
00:46:40,329 --> 00:46:37,039

being anymore

1014

00:46:42,190 --> 00:46:40,339

oh yes know how fourth of July or

1015

00:46:44,079 --> 00:46:42,200

whatever I Nippon Independence Day in

1016

00:46:48,400 --> 00:46:44,089

the air he was he was a jet fighter

1017

00:46:50,559 --> 00:46:48,410

pilot yeah independency yeah that's all

1018

00:46:55,839 --> 00:46:50,569

they were they're busting you a little

1019

00:46:58,660 --> 00:46:55,849

bit there well um so when this happened

1020

00:47:00,279 --> 00:46:58,670

first of all I'm going to ask you do you

1021

00:47:02,200 --> 00:47:00,289

you said there was someone beside you

1022

00:47:02,800 --> 00:47:02,210

and I wondered if you had an approximate

1023

00:47:04,750 --> 00:47:02,810

idea

1024

00:47:07,270 --> 00:47:04,760

many other people witnessed it and to

1025

00:47:10,600 --> 00:47:07,280

talk among yourselves and did you report

1026
00:47:17,340 --> 00:47:10,610
anything oh yes we talked about it and

1027
00:47:20,770 --> 00:47:17,350
that's one of the experience one of the

1028
00:47:24,040 --> 00:47:20,780
things I take out of the experience as

1029
00:47:28,780 --> 00:47:24,050
soon as it the object went back to

1030
00:47:31,590 --> 00:47:28,790
wherever it came from a short time after

1031
00:47:34,420 --> 00:47:31,600
that we went into General Quarters and

1032
00:47:36,310 --> 00:47:34,430
General Quarters is basically a battle

1033
00:47:40,780 --> 00:47:36,320
stations there's something within our

1034
00:47:42,520 --> 00:47:40,790
vicinity so not only that the art

1035
00:47:46,240 --> 00:47:42,530
witnesses in front of me which probably

1036
00:47:48,670 --> 00:47:46,250
about I'm gonna say eight to maybe five

1037
00:47:51,070 --> 00:47:48,680
to eight ten people

1038
00:47:53,440 --> 00:47:51,080

I remember them standing there and as

1039

00:47:55,090 --> 00:47:53,450

well as the gentleman next to me we went

1040

00:47:58,780 --> 00:47:55,100

into General Quarters and at that time

1041

00:48:00,280 --> 00:47:58,790

they called for non-essential flight

1042

00:48:02,650 --> 00:48:00,290

deck personnel to leave the flight deck

1043

00:48:05,290 --> 00:48:02,660

they see what's going to happen is we're

1044

00:48:08,770 --> 00:48:05,300

gonna we're gonna launch and we had the

1045

00:48:10,950 --> 00:48:08,780

alert six on standby and the alert stick

1046

00:48:13,240 --> 00:48:10,960

is the alert six is a jet aircraft

1047

00:48:15,820 --> 00:48:13,250

that's sitting on the catapult system

1048

00:48:20,020 --> 00:48:15,830

while the catapult system is charged

1049

00:48:23,980 --> 00:48:20,030

ready to go in the jet aircraft is a

1050

00:48:27,700 --> 00:48:23,990

pilot and he's gonna get ready to shoot

1051
00:48:30,600 --> 00:48:27,710
off and maybe chase this thing but he

1052
00:48:36,240 --> 00:48:30,610
wasn't gonna catch that that that object

1053
00:48:38,850 --> 00:48:36,250
and shortly after they called general

1054
00:48:41,650 --> 00:48:38,860
for flight deck personnel to leave I

1055
00:48:45,580 --> 00:48:41,660
dawn before I could even dawn my cranial

1056
00:48:46,870 --> 00:48:45,590
and and put my goggles on they called it

1057
00:48:48,790 --> 00:48:46,880
off hmm

1058
00:48:51,790 --> 00:48:48,800
so they didn't they didn't launch the

1059
00:48:55,810 --> 00:48:51,800
jet aircraft so I know that combat

1060
00:48:58,480 --> 00:48:55,820
systems had to have seen this object

1061
00:49:02,650 --> 00:48:58,490
because I don't think they were gonna do

1062
00:49:06,400 --> 00:49:02,660
a Man Overboard drill I'm sorry a

1063
00:49:07,780 --> 00:49:06,410

General Quarters drill during them the

1064

00:49:12,810 --> 00:49:07,790

actual Man Overboard

1065

00:49:15,760 --> 00:49:12,820

I don't believe they would do so so the

1066

00:49:18,140 --> 00:49:15,770

General Quarters went off and

1067

00:49:21,290 --> 00:49:18,150

like I said they have just seen

1068

00:49:22,070 --> 00:49:21,300

something on our radar system Wow

1069

00:49:24,500 --> 00:49:22,080

interesting

1070

00:49:26,540 --> 00:49:24,510

Dave I'm asking you this question

1071

00:49:30,440 --> 00:49:26,550

because I know you've researched this

1072

00:49:33,109 --> 00:49:30,450

thing overall and I just wondered do you

1073

00:49:36,020 --> 00:49:33,119

know if this is the only encounter that

1074

00:49:41,300 --> 00:49:36,030

was seen from the ship or any of the

1075

00:49:44,660 --> 00:49:41,310

ships themselves as far as I know you

1076
00:49:48,620 --> 00:49:44,670
know as far as being a separate incident

1077
00:49:52,370 --> 00:49:48,630
from the November 14th incident now

1078
00:49:55,970 --> 00:49:52,380
there are other eyewitnesses to the

1079
00:50:00,230 --> 00:49:55,980
tick-tack and those would be Kevin Day

1080
00:50:04,040 --> 00:50:00,240
and Gary Voorhees who both independently

1081
00:50:07,400 --> 00:50:04,050
after those intercepts went up to the

1082
00:50:10,849 --> 00:50:07,410
bridge wing on the USS Princeton which

1083
00:50:14,170 --> 00:50:10,859
would be you know way up high and super

1084
00:50:17,290 --> 00:50:14,180
structure of the ship outside they have

1085
00:50:19,910 --> 00:50:17,300
tripod mounted or rail mounted

1086
00:50:21,890 --> 00:50:19,920
binoculars that are called the ship's

1087
00:50:24,950 --> 00:50:21,900
big eye that are used for the watch

1088
00:50:27,770 --> 00:50:24,960

standers so they would sneak up there

1089

00:50:29,540 --> 00:50:27,780

get a bearing and range on one of the

1090

00:50:31,430 --> 00:50:29,550

radar tracks that they were they had

1091

00:50:35,089 --> 00:50:31,440

down in combat information go back

1092

00:50:38,450 --> 00:50:35,099

upstairs and then look through these big

1093

00:50:41,630 --> 00:50:38,460

eyes and Gary Voorhees described seeing

1094

00:50:44,359 --> 00:50:41,640

these white objects at quite a distance

1095

00:50:45,740 --> 00:50:44,369

he didn't know specifically the distance

1096

00:50:47,510 --> 00:50:45,750

but he thought that they were probably

1097

00:50:50,599 --> 00:50:47,520

based on the radar crocks that they were

1098

00:50:54,320 --> 00:50:50,609

you know 20 to 30 miles out and he could

1099

00:50:55,790 --> 00:50:54,330

see the white tic-tac object at that

1100

00:50:58,579 --> 00:50:55,800

distance

1101
00:51:00,560 --> 00:50:58,589
Kevin day also recorded a very similar

1102
00:51:02,890 --> 00:51:00,570
experience and I think that there were

1103
00:51:07,220 --> 00:51:02,900
probably more than those two gentlemen

1104
00:51:10,370 --> 00:51:07,230
went up to the bridge wing in fact area

1105
00:51:12,440 --> 00:51:10,380
told me that some of the crew were kind

1106
00:51:14,720 --> 00:51:12,450
of shooing these guys away because every

1107
00:51:16,130 --> 00:51:14,730
spare chance they got after this they

1108
00:51:20,050 --> 00:51:16,140
were all running up there trying to get

1109
00:51:24,079 --> 00:51:20,060
in line to see these things so you know

1110
00:51:27,800 --> 00:51:24,089
and then the other not as far as on the

1111
00:51:29,510 --> 00:51:27,810
ship but then you know PJ and has the

1112
00:51:33,050 --> 00:51:29,520
description of his

1113
00:51:37,520 --> 00:51:33,060

friend that saw the objects from the e2

1114

00:51:39,620 --> 00:51:37,530

Hawkeye and again that particular story

1115

00:51:41,840 --> 00:51:39,630

has never been told if you look in any

1116

00:51:45,290 --> 00:51:41,850

of the official documents from to the

1117

00:51:46,820 --> 00:51:45,300

stars from the eighth tip you know these

1118

00:51:49,280 --> 00:51:46,830

people were never interviewed by any

1119

00:51:51,200 --> 00:51:49,290

officials in that capacity so when

1120

00:51:54,230 --> 00:51:51,210

they're telling me that story it's never

1121

00:51:56,930 --> 00:51:54,240

been in the press and in fact you'll get

1122

00:51:59,630 --> 00:51:56,940

people saying no no one from the Hawkeye

1123

00:52:01,010 --> 00:51:59,640

squadron saw the tic tac because I read

1124

00:52:03,860 --> 00:52:01,020

the report it's not in there

1125

00:52:05,750 --> 00:52:03,870

but I'm saying no there's a witness here

1126
00:52:07,430 --> 00:52:05,760
and there's a cooperating corroborating

1127
00:52:10,430 --> 00:52:07,440
witness that says that they did

1128
00:52:11,870 --> 00:52:10,440
now we've pj and i have tried to reach

1129
00:52:13,580 --> 00:52:11,880
out to some of the other flight crew

1130
00:52:16,400 --> 00:52:13,590
that were there so far we've been

1131
00:52:18,620 --> 00:52:16,410
unsuccessful but there's five people in

1132
00:52:20,720 --> 00:52:18,630
that airplane and you know if one person

1133
00:52:22,790 --> 00:52:20,730
saw it he says that the whole flight

1134
00:52:25,010 --> 00:52:22,800
crew saw it so there's probably some

1135
00:52:27,950 --> 00:52:25,020
other witnesses out there in that

1136
00:52:29,210 --> 00:52:27,960
airplane now I know it seems to me a

1137
00:52:31,670 --> 00:52:29,220
plane like that probably doesn't have a

1138
00:52:34,540 --> 00:52:31,680

lot of windows so maybe over by a door

1139

00:52:42,350 --> 00:52:40,010

what's that I know I have a funny story

1140

00:52:44,990 --> 00:52:42,360

about that well we got we got two

1141

00:52:46,940 --> 00:52:45,000

minutes to break and I just wanted to

1142

00:52:49,370 --> 00:52:46,950

say when we do come back I want PJ to

1143

00:52:50,390 --> 00:52:49,380

tell basically his story thoroughly

1144

00:52:54,800 --> 00:52:50,400

there but go ahead

1145

00:52:57,860 --> 00:52:54,810

um well when I first heard that I had

1146

00:52:59,450 --> 00:52:57,870

somebody that's a pilot telling me no

1147

00:53:00,950 --> 00:52:59,460

they couldn't have seen him because

1148

00:53:03,500 --> 00:53:00,960

there's no windows in the back of the

1149

00:53:06,590 --> 00:53:03,510

Hawkeye and then PJ sent me a photograph

1150

00:53:09,920 --> 00:53:06,600

of the window in the Hawkeye in the back

1151
00:53:12,290 --> 00:53:09,930
there's three windows and then the pilot

1152
00:53:14,120 --> 00:53:12,300
told me well they never opened the

1153
00:53:17,120 --> 00:53:14,130
windows during when they're flying and

1154
00:53:18,680 --> 00:53:17,130
then PJ explained that well yes they do

1155
00:53:21,770 --> 00:53:18,690
they just have to put the radar and

1156
00:53:23,120 --> 00:53:21,780
stand by so each time they came up with

1157
00:53:25,190 --> 00:53:23,130
a reason

1158
00:53:27,590 --> 00:53:25,200
PJ who's very knowledgeable the hawk I

1159
00:53:30,230 --> 00:53:27,600
would show me a picture and say well

1160
00:53:33,020 --> 00:53:30,240
here here here's the proof right here so

1161
00:53:35,390 --> 00:53:33,030
kind of interesting Wow yeah I I would

1162
00:53:37,520 --> 00:53:35,400
just you know I was just picturing again

1163
00:53:38,630 --> 00:53:37,530

you know just picturing my mind a plane

1164

00:53:41,480 --> 00:53:38,640

like that I wouldn't think would have

1165

00:53:43,220 --> 00:53:41,490

you know windows accessible you know

1166

00:53:45,650 --> 00:53:43,230

because it's all instrument reading

1167

00:53:47,630 --> 00:53:45,660

you know that's what that's what I would

1168

00:53:49,819 --> 00:53:47,640

think but um let's see we're gonna be

1169

00:53:52,339 --> 00:53:49,829

why don't we head into break now since

1170

00:53:54,890 --> 00:53:52,349

we're at this that this bridge here will

1171

00:53:56,809 --> 00:53:54,900

go into a break and and then we'll come

1172

00:54:00,349 --> 00:53:56,819

back and we'll continue and when we do

1173

00:54:02,569 --> 00:54:00,359

come back I'll have PJ tell his story

1174

00:54:04,130 --> 00:54:02,579

basically alright everyone so hang and

1175

00:54:07,760 --> 00:54:04,140

nail we'll be right back right after

1176

00:54:09,740 --> 00:54:07,770

this break alright welcome back this is

1177

00:54:11,750 --> 00:54:09,750

Martin Willis and we have three guests

1178

00:54:14,359 --> 00:54:11,760

tonight we have dave Beatty

1179

00:54:17,480 --> 00:54:14,369

we have Omar Lara and PJ Hughes or

1180

00:54:21,349 --> 00:54:17,490

Patrick Hughes and we are talking about

1181

00:54:25,539 --> 00:54:21,359

the UF the Nimitz USS Nimitz UFO

1182

00:54:29,089 --> 00:54:25,549

incident fascinating story if you ask me

1183

00:54:33,730 --> 00:54:29,099

overall and you know I forgot where we

1184

00:54:36,740 --> 00:54:33,740

were when we went to break but I did say

1185

00:54:41,809 --> 00:54:36,750

what I did do remember is that I wanted

1186

00:54:48,460 --> 00:54:41,819

PJ to tell his story and so PJ if you

1187

00:54:51,230 --> 00:54:48,470

would please do talk about what happened

1188

00:54:53,930 --> 00:54:51,240

just remind everybody I do speak for two

1189

00:54:56,599 --> 00:54:53,940

people I speak for myself and I speak to

1190

00:54:58,490 --> 00:54:56,609

Roger who who wants to me anonymous and

1191

00:54:59,000 --> 00:54:58,500

you can thank Dave baby for the the

1192

00:55:02,660 --> 00:54:59,010

Roger

1193

00:55:05,690 --> 00:55:02,670

Monica needed a way to talk about it

1194

00:55:08,180 --> 00:55:05,700

without using his name but uh like I

1195

00:55:09,530 --> 00:55:08,190

said it earlier I was I'm a avionics

1196

00:55:11,690 --> 00:55:09,540

mechanic I fixed the radar the

1197

00:55:15,799 --> 00:55:11,700

communications navigation Quinten and

1198

00:55:17,420 --> 00:55:15,809

all that on the Hawkeye and we launched

1199

00:55:19,309 --> 00:55:17,430

the airplanes we recover the airplanes

1200

00:55:22,339 --> 00:55:19,319

and it's a routine cycle we're out to

1201

00:55:23,809 --> 00:55:22,349

sea and usually when we launch an

1202

00:55:26,329 --> 00:55:23,819

airplane the same person's up there to

1203

00:55:27,950 --> 00:55:26,339

catch the airplane and we put all that

1204

00:55:29,420 --> 00:55:27,960

classified material in the airplane when

1205

00:55:31,370 --> 00:55:29,430

the launches take it all back out when

1206

00:55:33,039 --> 00:55:31,380

we've done make sure you know nothing

1207

00:55:36,289 --> 00:55:33,049

broke nothing got lost

1208

00:55:39,200 --> 00:55:36,299

but I'm a particular day of commander

1209

00:55:43,069 --> 00:55:39,210

freighters intercept when all the

1210

00:55:46,880 --> 00:55:43,079

tic-tacs stuff happened I had launched a

1211

00:55:49,539 --> 00:55:46,890

Hawkeye routine mission you know nothing

1212

00:55:52,520 --> 00:55:49,549

special is going on

1213

00:55:55,250 --> 00:55:52,530

nothing special was related to us during

1214

00:55:57,080 --> 00:55:55,260

the flight they normally radio back to

1215

00:55:59,510 --> 00:55:57,090

the ship on the way back

1216

00:56:03,050 --> 00:55:59,520

know if there any major problems nothing

1217

00:56:05,090 --> 00:56:03,060

was said the air crew landed

1218

00:56:07,670 --> 00:56:05,100

you know they normally let her smell if

1219

00:56:09,560 --> 00:56:07,680

anything throw still nothing we said you

1220

00:56:12,980 --> 00:56:09,570

know the five five guys in the airplane

1221

00:56:14,720 --> 00:56:12,990

off took off downstairs together I go in

1222

00:56:17,890 --> 00:56:14,730

the airplane check my stuff I pull out

1223

00:56:21,050 --> 00:56:17,900

my we call them our MCS we call bricks

1224

00:56:23,720 --> 00:56:21,060

essentially hard drives that store data

1225

00:56:26,000 --> 00:56:23,730

from the airplane and run some of the

1226

00:56:27,500 --> 00:56:26,010

airplane systems and these we don't

1227

00:56:31,550 --> 00:56:27,510

leave an airplane they get stored in our

1228

00:56:33,860 --> 00:56:31,560

safe so I take these all out I finish my

1229

00:56:36,290 --> 00:56:33,870

stuff I walk down to my ship my shop in

1230

00:56:38,230 --> 00:56:36,300

the on the ship and store all this stuff

1231

00:56:40,700 --> 00:56:38,240

and our safe so we have to open the safe

1232

00:56:43,400 --> 00:56:40,710

put it all in we sign it in it's all

1233

00:56:46,700 --> 00:56:43,410

tracked no close the safe when we're

1234

00:56:48,860 --> 00:56:46,710

done yeah then a couple minutes I still

1235

00:56:51,140 --> 00:56:48,870

don't remember the exact time frame

1236

00:56:53,600 --> 00:56:51,150

well my commanding officer comes knocks

1237

00:56:55,160 --> 00:56:53,610

on a door and it's weird for one because

1238

00:56:56,630 --> 00:56:55,170

we're off in the middle of nowhere my

1239

00:56:59,840 --> 00:56:56,640

commanding officer rarely comes by a

1240

00:57:04,760 --> 00:56:59,850

shop usually if he does we were in

1241

00:57:06,320 --> 00:57:04,770

trouble so when he shows up there and we

1242

00:57:09,170 --> 00:57:06,330

open the door it's very small work space

1243

00:57:10,880 --> 00:57:09,180

it's very small hallway he's got two

1244

00:57:14,270 --> 00:57:10,890

guys and they're floor slight suits with

1245

00:57:18,310 --> 00:57:14,280

it they couldn't tell you what rank

1246

00:57:20,270 --> 00:57:18,320

anything but there's distinctive

1247

00:57:21,740 --> 00:57:20,280

differences between the Navy flights

1248

00:57:24,950 --> 00:57:21,750

even an Air Force flight suit even

1249

00:57:28,070 --> 00:57:24,960

readily tell know who's who not to

1250

00:57:29,390 --> 00:57:28,080

mention you know who's on the ship even

1251
00:57:32,690 --> 00:57:29,400
when it's 5,000 people on an aircraft

1252
00:57:34,160 --> 00:57:32,700
carrier in your own world which my world

1253
00:57:36,170 --> 00:57:34,170
was the aviation side you knew who was

1254
00:57:38,180 --> 00:57:36,180
there I might not have been able to tell

1255
00:57:40,190 --> 00:57:38,190
half of who almost Omar's co-workers

1256
00:57:44,990 --> 00:57:40,200
were but I knew who was in the aviation

1257
00:57:47,720 --> 00:57:45,000
side and he basically says I need to

1258
00:57:48,890 --> 00:57:47,730
stuff off off that flight so we have to

1259
00:57:51,020 --> 00:57:48,900
open up our safe

1260
00:57:52,730 --> 00:57:51,030
he had she had way dominicans the

1261
00:57:54,080 --> 00:57:52,740
two-sided safe means to combination

1262
00:57:55,310 --> 00:57:54,090
science way for the other half to come

1263
00:57:56,600 --> 00:57:55,320

back they had gone to the bathroom and

1264

00:57:57,920 --> 00:57:56,610

get a chunk of something I'm quite

1265

00:58:00,920 --> 00:57:57,930

remember

1266

00:58:03,500 --> 00:58:00,930

pulse it out you know he turns him to

1267

00:58:05,660 --> 00:58:03,510

see the Air Force officers I asked him

1268

00:58:09,380 --> 00:58:05,670

you know who am i signing me out to we

1269

00:58:10,400 --> 00:58:09,390

we have tracked this stuff so he says

1270

00:58:12,529 --> 00:58:10,410

basically sign it out

1271

00:58:14,960 --> 00:58:12,539

to me as in my commanding officer and

1272

00:58:17,450 --> 00:58:14,970

they took off and that was last I ever

1273

00:58:19,520 --> 00:58:17,460

saw those uh those hard drives that's

1274

00:58:22,549 --> 00:58:19,530

the last I ever saw those efforts got

1275

00:58:23,420 --> 00:58:22,559

secret now is this this very unusual is

1276

00:58:26,510 --> 00:58:23,430

that the only time this has ever

1277

00:58:28,279 --> 00:58:26,520

happened the only time we ever usually

1278

00:58:31,779 --> 00:58:28,289

mailed off those hard drives is if we

1279

00:58:34,849 --> 00:58:31,789

were running basically tests for

1280

00:58:38,420 --> 00:58:34,859

Raytheon whose company behind a lot of

1281

00:58:39,740 --> 00:58:38,430

the the software so it was a those rare

1282

00:58:43,059 --> 00:58:39,750

occurrence that our commanding officer

1283

00:58:46,039 --> 00:58:43,069

came and took anything of ours let alone

1284

00:58:47,630 --> 00:58:46,049

took that stuff because he's got guys

1285

00:58:49,849 --> 00:58:47,640

subordinate to him who are in charge of

1286

00:58:51,829 --> 00:58:49,859

all the classified materials so if it

1287

00:58:55,250 --> 00:58:51,839

was a normal routine thing he would have

1288

00:58:58,720 --> 00:58:55,260

sent his minions so to speak not himself

1289

00:59:03,170 --> 00:58:58,730

to come get it and and you said this

1290

00:59:06,589 --> 00:59:03,180

this was by an Air Force officer or I

1291

00:59:08,299 --> 00:59:06,599

believe you said that accompanied yours

1292

00:59:10,190 --> 00:59:08,309

yeah yet like that he had two guys in

1293

00:59:12,520 --> 00:59:10,200

the Air Force like suits with him and so

1294

00:59:16,880 --> 00:59:12,530

you can assume they jumped on board a

1295

00:59:18,380 --> 00:59:16,890

chopper or something and there's only

1296

00:59:20,839 --> 00:59:18,390

two ways on a board an aircraft carrier

1297

00:59:23,779 --> 00:59:20,849

when you have to see that's Hilo or c2

1298

00:59:25,670 --> 00:59:23,789

Graham I also worked on the Greyhound so

1299

00:59:27,650 --> 00:59:25,680

I know they didn't come on that which

1300

00:59:29,779 --> 00:59:27,660

means they came on a helo but the

1301

00:59:32,510 --> 00:59:29,789

problem with the helos is they pop in

1302

00:59:35,059 --> 00:59:32,520

and out so often it it's you know

1303

00:59:37,789 --> 00:59:35,069

they're landing in between every flight

1304

00:59:39,380 --> 00:59:37,799

every in the launch cycle so it's hard

1305

00:59:42,620 --> 00:59:39,390

to track who actually comes and goes on

1306

00:59:46,400 --> 00:59:42,630

those so who knows when they actually

1307

00:59:48,920 --> 00:59:46,410

got there they weren't there you know

1308

00:59:50,990 --> 00:59:48,930

early I know that much so it's very

1309

00:59:53,839 --> 00:59:51,000

interesting because you know obviously

1310

00:59:56,630 --> 00:59:53,849

the data is being you know wreath was

1311

00:59:58,930 --> 00:59:56,640

researched or you know hidden maybe

1312

01:00:01,760 --> 00:59:58,940

became top-secret or something who knows

1313

01:00:05,059 --> 01:00:01,770

but they definitely had you know enough

1314

01:00:07,400 --> 01:00:05,069

to go on there to be concerned enough to

1315

01:00:10,130 --> 01:00:07,410

take this type of action

1316

01:00:15,529 --> 01:00:10,140

and without anything else happened

1317

01:00:18,650 --> 01:00:15,539

following that um Roger who like I said

1318

01:00:21,440 --> 01:00:18,660

was airborne during that flight and who

1319

01:00:23,210 --> 01:00:21,450

saw the tic-tac with the crew they came

1320

01:00:25,250 --> 01:00:23,220

back went straight down to the skiff

1321

01:00:27,410 --> 01:00:25,260

which is a

1322

01:00:29,630 --> 01:00:27,420

it's a secure classified information

1323

01:00:30,920 --> 01:00:29,640

facility it's basically a room where you

1324

01:00:33,680 --> 01:00:30,930

can't hear anything outside it you can

1325

01:00:35,930 --> 01:00:33,690

talk about what you need to they went in

1326

01:00:38,660 --> 01:00:35,940

they were debriefed and signed NDA's

1327

01:00:41,089 --> 01:00:38,670

I don't know the extent of their debrief

1328

01:00:42,529 --> 01:00:41,099

because Rogers not sharing that and I

1329

01:00:45,109 --> 01:00:42,539

don't blame him

1330

01:00:49,309 --> 01:00:45,119

he's shared more than enough then yeah

1331

01:00:53,990 --> 01:00:49,319

then he probably needs to they were

1332

01:00:56,289 --> 01:00:54,000

debriefed and Roger loved to fly he was

1333

01:00:58,519 --> 01:00:56,299

the only enlisted guy who routinely flew

1334

01:01:00,769 --> 01:00:58,529

so when he came back to the shop you

1335

01:01:02,809 --> 01:01:00,779

could tell he was not in the same type

1336

01:01:04,160 --> 01:01:02,819

of mood he normally adds and he was

1337

01:01:06,259 --> 01:01:04,170

normally happy-go-lucky every time he

1338

01:01:09,529 --> 01:01:06,269

got to flying he was kind of in a

1339

01:01:11,029 --> 01:01:09,539

serious mood and he started to tell us

1340

01:01:12,799 --> 01:01:11,039

what's going on and this is well after

1341

01:01:13,339 --> 01:01:12,809

they had taken our hard drives and

1342

01:01:15,410 --> 01:01:13,349

everything

1343

01:01:16,789 --> 01:01:15,420

he cannot start to tell us what the

1344

01:01:18,589 --> 01:01:16,799

flight happened or what happened during

1345

01:01:21,049 --> 01:01:18,599

his flight you could tell he was kind of

1346

01:01:23,019 --> 01:01:21,059

shaken but uh our division chief

1347

01:01:24,740 --> 01:01:23,029

happened to return at the same time and

1348

01:01:26,870 --> 01:01:24,750

basically interrupted the conversation

1349

01:01:28,150 --> 01:01:26,880

he said well this is not something

1350

01:01:30,049 --> 01:01:28,160

you're supposed to be talking about

1351
01:01:31,549 --> 01:01:30,059
conversation ended and that's really the

1352
01:01:35,359 --> 01:01:31,559
last we ever spoke of it until after I

1353
01:01:38,870 --> 01:01:35,369
saw Dave's video and reconnected with

1354
01:01:41,630 --> 01:01:38,880
some people can you Ill know it's

1355
01:01:48,970 --> 01:01:41,640
secondhand but can you go over with what

1356
01:01:56,900 --> 01:01:54,650
that time of you know training cycle our

1357
01:01:59,029 --> 01:01:56,910
radar was a lot less of a priority they

1358
01:02:01,940 --> 01:01:59,039
wanted CC stuff they were chaining CC

1359
01:02:03,620 --> 01:02:01,950
they were testing CC they were work

1360
01:02:07,730 --> 01:02:03,630
everything was about CC at that period

1361
01:02:09,890 --> 01:02:07,740
of time so radar to my knowledge was not

1362
01:02:11,299 --> 01:02:09,900
operating it was on but it wasn't

1363
01:02:13,490 --> 01:02:11,309

operating which means those windows were

1364

01:02:16,249 --> 01:02:13,500

open even if the windows and back were

1365

01:02:20,390 --> 01:02:16,259

open the cockpits fully open you know

1366

01:02:21,799 --> 01:02:20,400

they have almost 260 degree view out of

1367

01:02:24,410 --> 01:02:21,809

that pocket with how much they can see

1368

01:02:27,620 --> 01:02:24,420

between the windows so people would have

1369

01:02:31,190 --> 01:02:27,630

seen stuff but according to Roger the

1370

01:02:33,380 --> 01:02:31,200

tic-tac kind of formed up with them for

1371

01:02:34,880 --> 01:02:33,390

five ten seconds long enough for them to

1372

01:02:38,210 --> 01:02:34,890

kind of get a good look at and then just

1373

01:02:41,329 --> 01:02:38,220

peeled off and what about its business

1374

01:02:44,299 --> 01:02:41,339

and I was never aware that from Roger at

1375

01:02:47,089 --> 01:02:44,309

the time I said this didn't come until

1376

01:02:52,039 --> 01:02:47,099

we had like a nice long conversation

1377

01:02:54,500 --> 01:02:52,049

after after the fact mm-hmm - Dean did

1378

01:02:58,609 --> 01:02:54,510

did they talk about speeds or anything

1379

01:03:00,109 --> 01:02:58,619

at that time um no the problem with the

1380

01:03:02,240 --> 01:03:00,119

Hawkeye at that amount of time is that

1381

01:03:05,089 --> 01:03:02,250

the radars not that sophisticated

1382

01:03:08,660 --> 01:03:05,099

anymore it was starting to be at the end

1383

01:03:10,370 --> 01:03:08,670

of its life in my opinion we could track

1384

01:03:12,770 --> 01:03:10,380

the tape deck and the tic-tac was

1385

01:03:15,740 --> 01:03:12,780

tracked by the Hawkeye just not to the

1386

01:03:18,859 --> 01:03:15,750

extent by one track it you know

1387

01:03:20,809 --> 01:03:18,869

basically our radar moved too slow right

1388

01:03:23,210 --> 01:03:20,819

let's see there was a question that I

1389

01:03:26,000 --> 01:03:23,220

was going to ask you we talked about

1390

01:03:31,730 --> 01:03:26,010

during the break oh yes here it is right

1391

01:03:34,520 --> 01:03:31,740

here can you go into the detail about

1392

01:03:37,670 --> 01:03:34,530

the radar blocking effect if there was

1393

01:03:42,980 --> 01:03:37,680

one that the tic-tac seemed to

1394

01:03:46,720 --> 01:03:42,990

demonstrate the when it comes to jamming

1395

01:03:49,490 --> 01:03:46,730

the radar it's really really hard and

1396

01:03:54,710 --> 01:03:49,500

about the only people I know who have

1397

01:03:57,370 --> 01:03:54,720

that technology to do that is us but the

1398

01:04:01,030 --> 01:03:57,380

radar on the hawk that was not jammed

1399

01:04:04,339 --> 01:04:01,040

the radar on the Princeton wasn't jammed

1400

01:04:06,680 --> 01:04:04,349

Gary Voorhees who was one of the texts

1401
01:04:09,109 --> 01:04:06,690
on the Princeton has spoken more than

1402
01:04:10,730 --> 01:04:09,119
one so they thought their spy one was

1403
01:04:13,280 --> 01:04:10,740
have an issue they thought it was acting

1404
01:04:15,559 --> 01:04:13,290
up - you took the system down to you

1405
01:04:18,109 --> 01:04:15,569
know clean reboot and do all their stuff

1406
01:04:19,730 --> 01:04:18,119
so they were seeing what they were

1407
01:04:22,039 --> 01:04:19,740
seeing then they determined after they'd

1408
01:04:23,510 --> 01:04:22,049
be you know brought the system back

1409
01:04:27,680 --> 01:04:23,520
online that they were getting accurate

1410
01:04:30,049 --> 01:04:27,690
targets that there was no Janet I see so

1411
01:04:32,270 --> 01:04:30,059
the whole jamming idea came up just

1412
01:04:36,680 --> 01:04:32,280
because it was so spectacular what they

1413
01:04:40,280 --> 01:04:36,690

were seeing that I've read in some of

1414

01:04:43,220 --> 01:04:40,290

the official reports that I've seen that

1415

01:04:46,220 --> 01:04:43,230

the Jayhawk I you know wasn't tracking

1416

01:04:47,329 --> 01:04:46,230

it and that's not true it might not have

1417

01:04:49,789 --> 01:04:47,339

constantly tracked it to the

1418

01:04:51,470 --> 01:04:49,799

effectiveness by one because it's a huge

1419

01:04:53,030 --> 01:04:51,480

generation gap in the spy

1420

01:04:56,630 --> 01:04:53,040

one radar in the afternoons what are you

1421

01:04:58,730 --> 01:04:56,640

a vibrator but the hawk I tracked it um

1422

01:05:00,080 --> 01:04:58,740

they might have had to be guided to it

1423

01:05:02,030 --> 01:05:00,090

they might have to get a little coaching

1424

01:05:04,310 --> 01:05:02,040

from the Princeton but the Hawkeye

1425

01:05:06,740 --> 01:05:04,320

trapped it that's the only thing I can

1426

01:05:08,780 --> 01:05:06,750

think of why jamming was what's

1427

01:05:12,950 --> 01:05:08,790

discussed at all well you know one of

1428

01:05:17,120 --> 01:05:12,960

the one of the jamming topics came up

1429

01:05:20,660 --> 01:05:17,130

with one of the f-18 pilots that I

1430

01:05:22,190 --> 01:05:20,670

believe it was in the second flight you

1431

01:05:23,930 --> 01:05:22,200

know coming into favor mentioned on

1432

01:05:26,870 --> 01:05:23,940

fighter pilot podcast at a chat

1433

01:05:30,620 --> 01:05:26,880

Underwood was the guy that filmed the at

1434

01:05:32,300 --> 01:05:30,630

FLIR video that we have and I believe it

1435

01:05:35,450 --> 01:05:32,310

was that flight that talked about it and

1436

01:05:38,150 --> 01:05:35,460

they said that there were no jamming

1437

01:05:41,020 --> 01:05:38,160

cues champagne bubbles I think they

1438

01:05:44,120 --> 01:05:41,030

called said that they were in the the

1439

01:05:47,390 --> 01:05:44,130

weapons system officer said that he

1440

01:05:49,670 --> 01:05:47,400

thought that the aasa' radar on the f-18

1441

01:05:53,000 --> 01:05:49,680

just could not hack it in other words

1442

01:05:54,830 --> 01:05:53,010

the object itself perhaps had a radar

1443

01:05:58,220 --> 01:05:54,840

cross-section that made it very

1444

01:06:02,060 --> 01:05:58,230

difficult to get a attract a lock on it

1445

01:06:05,900 --> 01:06:02,070

from that no f-18 onboard radar system

1446

01:06:08,450 --> 01:06:05,910

whereas the spy-1 bravo radar was much

1447

01:06:10,990 --> 01:06:08,460

more sophisticated so that it did come

1448

01:06:13,730 --> 01:06:11,000

up and I believe on ABC Nightline

1449

01:06:15,530 --> 01:06:13,740

commander favor and some of those

1450

01:06:19,700 --> 01:06:15,540

initial interviews to say that he

1451

01:06:22,700 --> 01:06:19,710

thought that he witnessed some jamming

1452

01:06:25,250 --> 01:06:22,710

indication on his radar system so again

1453

01:06:25,790 --> 01:06:25,260

that would be a question for him right

1454

01:06:28,849 --> 01:06:25,800

right

1455

01:06:32,720 --> 01:06:28,859

Dave are you since you're talking now

1456

01:06:35,420 --> 01:06:32,730

are you for working on this film can you

1457

01:06:36,970 --> 01:06:35,430

tell the listening audience some of the

1458

01:06:39,950 --> 01:06:36,980

people that you worked with that

1459

01:06:43,430 --> 01:06:39,960

assisted you with you know the different

1460

01:06:45,020 --> 01:06:43,440

aspects of your film regard yeah sure

1461

01:06:47,060 --> 01:06:45,030

mm-hmm

1462

01:06:49,220 --> 01:06:47,070

you know going back to the very

1463

01:06:51,200 --> 01:06:49,230

beginning I tried to reach out to

1464

01:06:53,599 --> 01:06:51,210

everybody that I could I did try to

1465

01:06:56,990 --> 01:06:53,609

identify the flight crews that were

1466

01:06:59,390 --> 01:06:57,000

there in the beginning and find out who

1467

01:07:02,510 --> 01:06:59,400

was in each airplane of course we know

1468

01:07:04,880 --> 01:07:02,520

that you know in some of those reports

1469

01:07:06,980 --> 01:07:04,890

the names are redacted and

1470

01:07:10,940 --> 01:07:06,990

that those individuals did not want to

1471

01:07:14,030 --> 01:07:10,950

come forward I did find out that you

1472

01:07:17,150 --> 01:07:14,040

know the pilot of the second jet of

1473

01:07:20,360 --> 01:07:17,160

commander flavors flight was a woman who

1474

01:07:22,310 --> 01:07:20,370

does not want to her name to be used in

1475

01:07:25,280 --> 01:07:22,320

the backseat of that plane was commander

1476

01:07:29,840 --> 01:07:25,290

Jim slate who appeared in several media

1477

01:07:32,270 --> 01:07:29,850

reports so I did reach out on several of

1478

01:07:34,340 --> 01:07:32,280

those individuals help me a little bit

1479

01:07:38,410 --> 01:07:34,350

it was kind of difficult to pull

1480

01:07:42,920 --> 01:07:38,420

information from that side of it when

1481

01:07:46,280 --> 01:07:42,930

senior chief Kevin day arrived in kind

1482

01:07:48,230 --> 01:07:46,290

of my world where I could contact him he

1483

01:07:50,300 --> 01:07:48,240

was very open to helping me with

1484

01:07:52,580 --> 01:07:50,310

questions that I had because in doing a

1485

01:07:56,000 --> 01:07:52,590

recreation I wanted it to be as accurate

1486

01:07:58,130 --> 01:07:56,010

as possible and that's not only you know

1487

01:08:03,260 --> 01:07:58,140

the position of the ships where things

1488

01:08:06,830 --> 01:08:03,270

were the location the the the radio

1489

01:08:10,370 --> 01:08:06,840

calls for instance his assistance was

1490

01:08:13,790 --> 01:08:10,380

invaluable helping me to come up with

1491

01:08:15,650 --> 01:08:13,800

you know what what the Princeton air

1492

01:08:17,530 --> 01:08:15,660

controllers were saying to the pilots

1493

01:08:20,780 --> 01:08:17,540

what would have happened because

1494

01:08:23,780 --> 01:08:20,790

initially the Hawkeye would have had

1495

01:08:25,760 --> 01:08:23,790

control of fast Eagle that's you know

1496

01:08:27,800 --> 01:08:25,770

how it works in those air training

1497

01:08:30,080 --> 01:08:27,810

exercises it's not the Princeton that's

1498

01:08:32,480 --> 01:08:30,090

usually doing the controlling it's the

1499

01:08:36,260 --> 01:08:32,490

Hawkeye but in this case they took

1500

01:08:37,790 --> 01:08:36,270

control so they helped me there there

1501

01:08:41,680 --> 01:08:37,800

were other individuals that gave me

1502

01:08:45,380 --> 01:08:41,690

assistance as far as the Jets and the

1503

01:08:48,320 --> 01:08:45,390

you know the squadron IDs on the planes

1504

01:08:51,160 --> 01:08:48,330

all that all the way down to the you

1505

01:08:54,440 --> 01:08:51,170

know the decals on the planes and so on

1506

01:08:57,440 --> 01:08:54,450

so quite a few quite a few people in a

1507

01:09:00,920 --> 01:08:57,450

lot of the witnesses such as pja did

1508

01:09:04,160 --> 01:09:00,930

help me when I had a question about you

1509

01:09:06,470 --> 01:09:04,170

know what kind of data was confiscated

1510

01:09:10,670 --> 01:09:06,480

why were they interested in this

1511

01:09:13,280 --> 01:09:10,680

specific information you know he could

1512

01:09:15,350 --> 01:09:13,290

explain that he in you know again none

1513

01:09:16,940 --> 01:09:15,360

of these individuals ever you know what

1514

01:09:18,829 --> 01:09:16,950

passed anything that was classified

1515

01:09:22,249 --> 01:09:18,839

would mean fact they direct me

1516

01:09:24,800 --> 01:09:22,259

to the Internet to an AV site to

1517

01:09:26,780 --> 01:09:24,810

describe for instance the CEC system you

1518

01:09:29,300 --> 01:09:26,790

can read a description on the US Navy's

1519

01:09:32,329 --> 01:09:29,310

website of what that system is even it's

1520

01:09:35,629 --> 01:09:32,339

a highly classified sensor you can get

1521

01:09:38,180 --> 01:09:35,639

an idea of what it does and then other

1522

01:09:40,879 --> 01:09:38,190

you know data that was on those hard

1523

01:09:42,649 --> 01:09:40,889

drives for instance what what was it

1524

01:09:45,530 --> 01:09:42,659

that these officials were coming to take

1525

01:09:49,550 --> 01:09:45,540

and he would explain to me what you know

1526

01:09:51,349 --> 01:09:49,560

the value of that data would be so I did

1527

01:09:54,140 --> 01:09:51,359

receive a lot of insistence that's good

1528

01:09:56,750 --> 01:09:54,150

now what about what about the UFO

1529

01:09:59,600 --> 01:09:56,760

community has anyone actually reached

1530

01:10:03,229 --> 01:09:59,610

out to you from the UFO community and

1531

01:10:04,669 --> 01:10:03,239

helped yeah what when I first started

1532

01:10:06,770 --> 01:10:04,679

this I the first thing I did before

1533

01:10:11,479 --> 01:10:06,780

Haven started doing a film was I created

1534

01:10:14,419 --> 01:10:11,489

a Facebook group and you know yeah and I

1535

01:10:17,270 --> 01:10:14,429

was out there trying to seek individuals

1536

01:10:19,850 --> 01:10:17,280

that had information that could point me

1537

01:10:22,280 --> 01:10:19,860

in the right direction and you know some

1538

01:10:26,180 --> 01:10:22,290

of the first people you know dr. Bruce

1539

01:10:29,149 --> 01:10:26,190

Maccabee rich Hoffman of the scientific

1540

01:10:31,910 --> 01:10:29,159

Coalition of ufology once they saw that

1541

01:10:33,169 --> 01:10:31,920

I was asking you know intelligent

1542

01:10:35,330 --> 01:10:33,179

questions and using critical thinking

1543

01:10:38,270 --> 01:10:35,340

that I wasn't just jumping to a

1544

01:10:40,129 --> 01:10:38,280

conclusion that these are ATT spacecraft

1545

01:10:43,100 --> 01:10:40,139

that I was saying you know what are

1546

01:10:45,140 --> 01:10:43,110

these this is very interesting then they

1547

01:10:46,910 --> 01:10:45,150

sort of kind of helped me and they would

1548

01:10:49,689 --> 01:10:46,920

put me in touch with other individuals

1549

01:10:52,070 --> 01:10:49,699

that were trying to do scientific

1550

01:10:52,850 --> 01:10:52,080

analytically based research on this

1551

01:10:56,479 --> 01:10:52,860

material

1552

01:10:59,479 --> 01:10:56,489

so that's great that's great I like to

1553

01:11:03,859 --> 01:10:59,489

see that happen did Robert Powell and

1554

01:11:06,950 --> 01:11:03,869

you ever have a conversation yeah we

1555

01:11:09,500 --> 01:11:06,960

were sort of on parallel tracks he was

1556

01:11:12,680 --> 01:11:09,510

very involved in his research paper that

1557

01:11:17,419 --> 01:11:12,690

he recently published along with the

1558

01:11:19,250 --> 01:11:17,429

other researchers at SCU during that

1559

01:11:20,780 --> 01:11:19,260

during the last year and a half while he

1560

01:11:23,209 --> 01:11:20,790

was conducting that research I found

1561

01:11:25,370 --> 01:11:23,219

that a lot of times we were kind of on

1562

01:11:30,530 --> 01:11:25,380

parallel tracks as far as Freedom of

1563

01:11:32,330 --> 01:11:30,540

Information request and so on I have to

1564

01:11:34,250 --> 01:11:32,340

say you know a

1565

01:11:37,399 --> 01:11:34,260

lot of his stuff was really valuable I

1566

01:11:39,410 --> 01:11:37,409

would look at his some of his blog posts

1567

01:11:42,290 --> 01:11:39,420

and so on and it kind of gave me ideas

1568

01:11:43,850 --> 01:11:42,300

and if I did get a document I tried to

1569

01:11:47,209 --> 01:11:43,860

share it with him but usually he already

1570

01:11:50,050 --> 01:11:47,219

had it so we discovered yeah together I

1571

01:11:52,310 --> 01:11:50,060

mean we discovered different things I I

1572

01:11:54,080 --> 01:11:52,320

gave him the names of some of the

1573

01:11:57,200 --> 01:11:54,090

witnesses if he wanted to interview them

1574

01:11:58,850 --> 01:11:57,210

I did you know he didn't really reveal

1575

01:12:00,979 --> 01:11:58,860

too much I think his investigations he

1576

01:12:03,379 --> 01:12:00,989

tries to keep everything you know close

1577

01:12:06,919 --> 01:12:03,389

to the vest cuz that's just a technique

1578

01:12:10,070 --> 01:12:06,929

he uses but yeah yeah I get that so I'm

1579

01:12:11,510 --> 01:12:10,080

opening up the lines I don't know if I

1580

01:12:14,780 --> 01:12:11,520

went over this with my guest but I'm

1581

01:12:17,689 --> 01:12:14,790

gonna open up the phone lines and caller

1582

01:12:20,870 --> 01:12:17,699

can call in and ask any one of our three

1583

01:12:22,939 --> 01:12:20,880

guests separately or just a general

1584

01:12:26,810 --> 01:12:22,949

question and that numbers up on the

1585

01:12:30,229 --> 01:12:26,820

screen in YouTube if we were over at kgr

1586

01:12:34,820 --> 01:12:30,239

a radio that number is six oh three nine

1587

01:12:36,439 --> 01:12:34,830

six seven four OH three oh this this new

1588

01:12:38,240 --> 01:12:36,449

Skype is driving me crazy because you're

1589

01:12:40,399 --> 01:12:38,250

going in and I have this big huge screen

1590

01:12:42,379 --> 01:12:40,409

and I have to keep changing things

1591

01:12:44,629 --> 01:12:42,389

you're right we're gonna have a new

1592

01:12:46,970 --> 01:12:44,639

system hopefully by next week and Skype

1593

01:12:47,600 --> 01:12:46,980

will be out which I'm pretty pretty

1594

01:12:49,939 --> 01:12:47,610

happy about

1595

01:12:53,359 --> 01:12:49,949

so again if anyone wants to call in ask

1596

01:12:55,160 --> 01:12:53,369

any one of our guests a question the

1597

01:12:55,490 --> 01:12:55,170

time is now you can call in the line is

1598

01:13:02,080 --> 01:12:55,500

open

1599

01:13:04,520 --> 01:13:02,090

and let's see so I'm wondering as far as

1600

01:13:09,050 --> 01:13:04,530

these people getting a hold of you like

1601
01:13:11,330 --> 01:13:09,060
both Omar in p/j have you had anyone

1602
01:13:14,180 --> 01:13:11,340
actually tried to get in touch with you

1603
01:13:16,850 --> 01:13:14,190
that was sort of hoaxing something have

1604
01:13:20,930 --> 01:13:16,860
you had any of that experience you no

1605
01:13:22,640 --> 01:13:20,940
sir not at all nothing that's good Dave

1606
01:13:28,370 --> 01:13:22,650
have you had anyone contact you that

1607
01:13:31,220 --> 01:13:28,380
didn't pan out not that I can think of I

1608
01:13:34,040 --> 01:13:31,230
mean I well to be honest when you go

1609
01:13:36,709 --> 01:13:34,050
outside of the nimitz events I did have

1610
01:13:40,189 --> 01:13:36,719
people contact me with sort of

1611
01:13:42,050 --> 01:13:40,199
remarkable stories that seemed

1612
01:13:43,700 --> 01:13:42,060
unbelievable but in the beginning you

1613
01:13:45,930 --> 01:13:43,710

know when somebody would tell me a story

1614

01:13:48,090 --> 01:13:45,940

about a navy vessel and encounter

1615

01:13:50,580 --> 01:13:48,100

you know I would listen with an open

1616

01:13:53,879 --> 01:13:50,590

mind and then sometimes in the end you'd

1617

01:13:55,229 --> 01:13:53,889

find out that that is impossible what

1618

01:13:57,629 --> 01:13:55,239

you're saying even though I think you

1619

01:14:00,270 --> 01:13:57,639

may even believe it yourself so yeah I

1620

01:14:03,500 --> 01:14:00,280

did receive some communications from

1621

01:14:05,790 --> 01:14:03,510

individuals that you know I'm not sure

1622

01:14:09,180 --> 01:14:05,800

why they were telling me things that

1623

01:14:11,189 --> 01:14:09,190

were incorrect but again I think that

1624

01:14:12,479 --> 01:14:11,199

does happen when you put yourself out

1625

01:14:13,050 --> 01:14:12,489

there and you ask for people to come

1626

01:14:15,149 --> 01:14:13,060

forward

1627

01:14:17,669 --> 01:14:15,159

maybe it's delusional or not I'm not

1628

01:14:20,490 --> 01:14:17,679

sure yeah every now and then that'll

1629

01:14:23,790 --> 01:14:20,500

happen sometimes I think some of the

1630

01:14:25,860 --> 01:14:23,800

really bizarre sightings seem more

1631

01:14:27,419 --> 01:14:25,870

truthful than me

1632

01:14:29,459 --> 01:14:27,429

you know mundane ones I mean they're

1633

01:14:32,010 --> 01:14:29,469

just some things that you hear about

1634

01:14:33,450 --> 01:14:32,020

that it just so like I mean you can't

1635

01:14:35,370 --> 01:14:33,460

even picture someone making these things

1636

01:14:37,470 --> 01:14:35,380

up I mean some of them are just really

1637

01:14:42,320 --> 01:14:37,480

incredible some of the ones that I've

1638

01:14:46,320 --> 01:14:42,330

heard you know I've I got some amazing

1639

01:14:49,350 --> 01:14:46,330

reports that you know in the future I

1640

01:14:50,899 --> 01:14:49,360

want to tell people about because you

1641

01:14:54,060 --> 01:14:50,909

know some of these were multiple witness

1642

01:14:56,640 --> 01:14:54,070

sightings from Coast Guard vessels and

1643

01:14:58,530 --> 01:14:56,650

Navy vessels and so on that stretch back

1644

01:15:00,320 --> 01:14:58,540

you know wait before the nimitz

1645

01:15:03,930 --> 01:15:00,330

encounters but there's still like

1646

01:15:07,290 --> 01:15:03,940

valuable historical cases that you know

1647

01:15:08,430 --> 01:15:07,300

maybe have never been heard before we

1648

01:15:12,390 --> 01:15:08,440

have a caller on the line

1649

01:15:15,110 --> 01:15:12,400

caller first please unmute your computer

1650

01:15:17,610 --> 01:15:15,120

or listening device police caller I

1651

01:15:19,890 --> 01:15:17,620

apologize about that yeah so anyone that

1652

01:15:22,169 --> 01:15:19,900

calls our I did make sure you mute your

1653

01:15:24,060 --> 01:15:22,179

listening device whether it's a computer

1654

01:15:26,370 --> 01:15:24,070

or phone or whatever call your first

1655

01:15:28,470 --> 01:15:26,380

name where you calling from hi this is

1656

01:15:30,270 --> 01:15:28,480

Adam from New York how you doing hi Adam

1657

01:15:31,649 --> 01:15:30,280

how are you and you have a question we

1658

01:15:36,330 --> 01:15:31,659

have three guests you have the question

1659

01:15:39,390 --> 01:15:36,340

to direct to anyone in particular I just

1660

01:15:40,680 --> 01:15:39,400

wanted to point over a statement in

1661

01:15:42,540 --> 01:15:40,690

question first of all I really

1662

01:15:46,740 --> 01:15:42,550

appreciate you guys coming out with this

1663

01:15:49,260 --> 01:15:46,750

story you know I was in it I got back

1664

01:15:52,530 --> 01:15:49,270

into this thing from the New York Times

1665

01:15:55,530 --> 01:15:52,540

article in 2017 and I just want to ask

1666

01:15:58,410 --> 01:15:55,540

you guys on being that this is an actual

1667

01:15:59,250 --> 01:15:58,420

real phenomenon real subject what can we

1668

01:16:01,200 --> 01:15:59,260

do to kind of get

1669

01:16:02,970 --> 01:16:01,210

this information out more to the public

1670

01:16:06,210 --> 01:16:02,980

because I kind of feel like it's almost

1671

01:16:09,480 --> 01:16:06,220

all of our responsibility to make this a

1672

01:16:11,220 --> 01:16:09,490

more credible subject and I feel like I

1673

01:16:15,540 --> 01:16:11,230

can't help but to feel like it's still I

1674

01:16:18,540 --> 01:16:15,550

mean looked at in kind of a letter joke

1675

01:16:19,950 --> 01:16:18,550

way at this point but I've got a lot of

1676

01:16:21,420 --> 01:16:19,960

conversations and I just want to know

1677

01:16:23,100 --> 01:16:21,430

what you guys think about what I can do

1678

01:16:25,710 --> 01:16:23,110

or what we can do for our parts to

1679

01:16:27,560 --> 01:16:25,720

spread the story so other people come on

1680

01:16:30,300 --> 01:16:27,570

make this a more credible law subject

1681

01:16:32,040 --> 01:16:30,310

that's like much basically Thank You

1682

01:16:34,410 --> 01:16:32,050

Debbie okay if I answer that mr. Willis

1683

01:16:38,220 --> 01:16:34,420

yes go right ahead Omar Adam you said

1684

01:16:41,160 --> 01:16:38,230

your name was sir huh yeah yes sir

1685

01:16:44,430 --> 01:16:41,170

if I would have known of the subculture

1686

01:16:46,560 --> 01:16:44,440

of the UFO ology the minute I got out of

1687

01:16:49,200 --> 01:16:46,570

the service I would have jumped on it

1688

01:16:51,900 --> 01:16:49,210

and told someone this story that was the

1689

01:16:53,970 --> 01:16:51,910

thing I did not know of any Avenue to

1690

01:16:56,850 --> 01:16:53,980

take I didn't know of mr. Beatty or

1691

01:17:00,210 --> 01:16:56,860

Souls just like this one with mr. Willis

1692

01:17:04,080 --> 01:17:00,220

and on a Hondo or any of the thing like

1693

01:17:07,890 --> 01:17:04,090

I said it wasn't until I read dr. by

1694

01:17:11,220 --> 01:17:07,900

Annie Jacobs in 2016 that I knew of

1695

01:17:13,140 --> 01:17:11,230

individuals name such as George Knapp

1696

01:17:17,810 --> 01:17:13,150

and then I started digging in and

1697

01:17:22,050 --> 01:17:17,820

finding shoals like this and reports of

1698

01:17:23,760 --> 01:17:22,060

incidents such as mine so I that's a

1699

01:17:26,250 --> 01:17:23,770

good question I really don't know i

1700

01:17:29,250 --> 01:17:26,260

don't think it's talked about as much as

1701

01:17:31,290 --> 01:17:29,260

mainstream it pops up and then it'll

1702

01:17:34,260 --> 01:17:31,300

definitely go away just as fast as in

1703

01:17:36,720 --> 01:17:34,270

the other news story that pops up true

1704

01:17:38,670 --> 01:17:36,730

Dave you know what go ahead yeah one one

1705

01:17:39,990 --> 01:17:38,680

thing that I would say and I don't I

1706

01:17:43,470 --> 01:17:40,000

know other people have been doing this

1707

01:17:45,030 --> 01:17:43,480

is when we do have news reports that

1708

01:17:48,900 --> 01:17:45,040

come across our feed

1709

01:17:50,520 --> 01:17:48,910

for instance the US Navy's recent

1710

01:17:53,010 --> 01:17:50,530

announcement that that they would be

1711

01:17:55,380 --> 01:17:53,020

implementing procedures and policies for

1712

01:17:58,260 --> 01:17:55,390

service members to report these

1713

01:18:01,170 --> 01:17:58,270

incidents and that was reported in

1714

01:18:04,560 --> 01:18:01,180

Politico and other you know major news

1715

01:18:06,570 --> 01:18:04,570

organizations it's a very serious you

1716

01:18:08,700 --> 01:18:06,580

know discussion and you can always share

1717

01:18:11,940 --> 01:18:08,710

that I mean social media is so powerful

1718

01:18:12,609 --> 01:18:11,950

these days that if you do share it you

1719

01:18:14,169 --> 01:18:12,619

know with the people

1720

01:18:16,479 --> 01:18:14,179

you know say take a look at this and

1721

01:18:19,169 --> 01:18:16,489

it's not I mean when it's coming from

1722

01:18:22,359 --> 01:18:19,179

that source I think it's more readily

1723

01:18:24,040 --> 01:18:22,369

digestible than like a tabloid or

1724

01:18:27,069 --> 01:18:24,050

something like that and there's other

1725

01:18:31,179 --> 01:18:27,079

ones on last week on Tyler Rove away

1726

01:18:34,419 --> 01:18:31,189

whose aviation journalist came out with

1727

01:18:39,669 --> 01:18:34,429

a really interesting story on on the US

1728

01:18:41,709 --> 01:18:39,679

Navy's policies you know on his site

1729

01:18:45,069 --> 01:18:41,719

called the drive so again that's a very

1730

01:18:47,649 --> 01:18:45,079

you know critical thinking mainstream

1731

01:18:49,959 --> 01:18:47,659

piece of information you can share with

1732

01:18:52,299 --> 01:18:49,969

people other people have said you know

1733

01:18:55,119 --> 01:18:52,309

even my video they they've they've

1734

01:18:56,439 --> 01:18:55,129

shared with other people because a lot

1735

01:18:59,139 --> 01:18:56,449

of people don't even know about it even

1736

01:19:01,330 --> 01:18:59,149

though you know in our kind of circle we

1737

01:19:03,729 --> 01:19:01,340

know all about it and people say I'll

1738

01:19:06,250 --> 01:19:03,739

stop talking him up Nimitz we're sick of

1739

01:19:09,459 --> 01:19:06,260

hearing about it but yeah I mean I think

1740

01:19:11,319 --> 01:19:09,469

not everyone even you know if you if you

1741

01:19:12,879 --> 01:19:11,329

went out there and polled people we're a

1742

01:19:15,369 --> 01:19:12,889

very small percentage of people that

1743

01:19:17,379 --> 01:19:15,379

have ever even heard of it so yeah yeah

1744

01:19:20,770 --> 01:19:17,389

yeah well I just want to let you guys

1745

01:19:23,379 --> 01:19:20,780

know that I did share I I did I do like

1746

01:19:25,629 --> 01:19:23,389

incessantly I did share the information

1747

01:19:27,250 --> 01:19:25,639

it was a lot that there was a fox they

1748

01:19:29,080 --> 01:19:27,260

even did a thing Tucker Carlson did it

1749

01:19:31,330 --> 01:19:29,090

last week on the new Navy policies I

1750

01:19:33,100 --> 01:19:31,340

shared that and I shared the political

1751

01:19:35,409 --> 01:19:33,110

story and the time of Rockaway I've

1752

01:19:37,229 --> 01:19:35,419

shared that and I saw you guys know man

1753

01:19:39,429 --> 01:19:37,239

that I'm doing my part as just a regular

1754

01:19:41,379 --> 01:19:39,439

civilian putting a story out there and I

1755

01:19:43,179 --> 01:19:41,389

want to thank thank back to men for the

1756

01:19:45,969 --> 01:19:43,189

services country I think it's just so

1757

01:19:48,909 --> 01:19:45,979

important so I hope there's more people

1758

01:19:50,949 --> 01:19:48,919

like me out there trying to do this I

1759

01:19:52,600 --> 01:19:50,959

just think it's important that I swallow

1760

01:19:55,029 --> 01:19:52,610

you guys know I'm trying to get this

1761

01:19:56,560 --> 01:19:55,039

story out there and I hope just more

1762

01:19:58,270 --> 01:19:56,570

regular people continue to do the same

1763

01:20:00,639 --> 01:19:58,280

thing and Martin your show is great I

1764

01:20:02,290 --> 01:20:00,649

tune in every week for it so thank you

1765

01:20:05,500 --> 01:20:02,300

very much thanks a lot thanks for the

1766

01:20:07,719 --> 01:20:05,510

call thank you yeah kind of kind of

1767

01:20:11,560 --> 01:20:07,729

along their lines have heard you know

1768

01:20:14,020 --> 01:20:11,570

there's a saying that the the in the UFO

1769

01:20:15,219 --> 01:20:14,030

ufology eats its own in other words

1770

01:20:18,909 --> 01:20:15,229

there's a you know there's a lot of

1771

01:20:21,729 --> 01:20:18,919

infighting and and all that but you know

1772

01:20:23,619 --> 01:20:21,739

the one thing I I would like to say to

1773

01:20:26,009 --> 01:20:23,629

someone that's new getting into this

1774

01:20:32,160 --> 01:20:26,019

topic and you know new into

1775

01:20:34,739 --> 01:20:32,170

and it is a be be aware of be aware of

1776

01:20:37,589 --> 01:20:34,749

the hoaxing you know that's that's the

1777

01:20:39,149 --> 01:20:37,599

thing you know I liken this to you know

1778

01:20:41,279 --> 01:20:39,159

I'm in the fine arts and antiques and

1779

01:20:42,629 --> 01:20:41,289

people collecting when people collect

1780

01:20:44,489 --> 01:20:42,639

and they get a fake then they stop

1781

01:20:46,739 --> 01:20:44,499

collecting and it's kind of the same

1782

01:20:49,259 --> 01:20:46,749

thing in ufology if someone's interested

1783

01:20:50,819 --> 01:20:49,269

in the UFO topic and then they look at

1784

01:20:53,219 --> 01:20:50,829

something and they oh my god look at

1785

01:20:54,660 --> 01:20:53,229

this on YouTube and it ends up being CGI

1786

01:20:55,500 --> 01:20:54,670

they say oh god I'm not gonna bother

1787

01:20:57,509 --> 01:20:55,510

with this anymore

1788

01:20:58,979 --> 01:20:57,519

you know that type of thing and it could

1789

01:21:01,589 --> 01:20:58,989

even happen with Chinese lanterns you

1790

01:21:03,540 --> 01:21:01,599

know some people have could see a

1791

01:21:05,310 --> 01:21:03,550

Chinese lantern and think it's UFO and

1792

01:21:09,089 --> 01:21:05,320

get all excited and then saw Jesus

1793

01:21:12,600 --> 01:21:09,099

nothing to this so yeah it's well yeah

1794

01:21:17,219 --> 01:21:12,610

right I mean isn't the statistics that

1795

01:21:20,430 --> 01:21:17,229

less than 5% of all unknown sightings

1796

01:21:22,020 --> 01:21:20,440

turn out to be explainable so even

1797

01:21:25,319 --> 01:21:22,030

though people see something in videotape

1798

01:21:26,790 --> 01:21:25,329

it with their phone you know ninety five

1799

01:21:28,290 --> 01:21:26,800

percent of the time it's going to be

1800

01:21:29,790 --> 01:21:28,300

explainable and I think that can be

1801
01:21:31,649 --> 01:21:29,800
discouraging for people when they keep

1802
01:21:33,890 --> 01:21:31,659
seeing that but it's that small

1803
01:21:37,350 --> 01:21:33,900
percentage that's just remarkable

1804
01:21:39,810 --> 01:21:37,360
unknown mystery right but very real you

1805
01:21:43,469 --> 01:21:39,820
know just to uh jump in on what you had

1806
01:21:48,410 --> 01:21:43,479
said mister was re I think you're

1807
01:21:51,330 --> 01:21:48,420
correct because after my initial contact

1808
01:21:53,790 --> 01:21:51,340
with mister Korbelt I kind of did sit

1809
01:21:56,850 --> 01:21:53,800
back and started research and listening

1810
01:22:00,330 --> 01:21:56,860
to other folks talk about it and there

1811
01:22:02,850 --> 01:22:00,340
was a lot of what you said in fighting

1812
01:22:04,799 --> 01:22:02,860
and then once I saw mr. Davies baby's

1813
01:22:07,830 --> 01:22:04,809

video it was just straight to the point

1814

01:22:09,839 --> 01:22:07,840

and I said I'm gonna reach out to mr.

1815

01:22:11,790 --> 01:22:09,849

Beatty so yeah I did see some of that

1816

01:22:15,209 --> 01:22:11,800

infighting going on and I was like wait

1817

01:22:18,239 --> 01:22:15,219

a minute when in our history as as the

1818

01:22:22,200 --> 01:22:18,249

DoD ever released videos like this and

1819

01:22:25,109 --> 01:22:22,210

and I people were still not happy with

1820

01:22:30,089 --> 01:22:25,119

it and that's surprising yeah yeah

1821

01:22:31,770 --> 01:22:30,099

PJ just a question for you did you ever

1822

01:22:33,689 --> 01:22:31,780

have any interest in this topic before

1823

01:22:37,259 --> 01:22:33,699

or was that it just all come about

1824

01:22:39,349 --> 01:22:37,269

because of the situation um I can't say

1825

01:22:43,099 --> 01:22:39,359

I've never been interested in it

1826

01:22:44,569 --> 01:22:43,109

but I was never I never knew about half

1827

01:22:46,759 --> 01:22:44,579

this world I never knew there were

1828

01:22:51,409 --> 01:22:46,769

conferences all you ever knew was what

1829

01:22:52,669 --> 01:22:51,419

they showed on TV yeah but you know

1830

01:22:55,729 --> 01:22:52,679

there's a line in the movie contact

1831

01:22:56,089 --> 01:22:55,739

where they say if we're alone in the

1832

01:22:58,699 --> 01:22:56,099

universe

1833

01:23:02,239 --> 01:22:58,709

it's an awful waste of space yes yeah

1834

01:23:04,279 --> 01:23:02,249

and I do firmly believe that Ill can't

1835

01:23:08,750 --> 01:23:04,289

tell you if there's there I tell you

1836

01:23:14,060 --> 01:23:08,760

there any of that I I can't tell you

1837

01:23:15,739 --> 01:23:14,070

there's not yeah and I do believe it's

1838

01:23:16,699 --> 01:23:15,749

an awful waste of space if we're alone

1839

01:23:18,469 --> 01:23:16,709

in this universe

1840

01:23:21,619 --> 01:23:18,479

yeah so I've always had a passing

1841

01:23:23,449 --> 01:23:21,629

interest in the topic I've just never it

1842

01:23:25,609 --> 01:23:23,459

took this to get me involved so to speak

1843

01:23:27,319 --> 01:23:25,619

yes and and that's that's what it often

1844

01:23:29,029 --> 01:23:27,329

takes we have another caller on the line

1845

01:23:32,239 --> 01:23:29,039

caller your first name and where are you

1846

01:23:35,089 --> 01:23:32,249

calling from I've Steve an Oregon oh hi

1847

01:23:37,819 --> 01:23:35,099

Steve in Oregon how are you good how are

1848

01:23:39,909 --> 01:23:37,829

you guys doing you have a question for

1849

01:23:43,969 --> 01:23:39,919

anyone in particular

1850

01:23:48,079 --> 01:23:43,979

a couple things are I would like to ask

1851
01:23:51,020 --> 01:23:48,089
about PJ I don't understand how Roger

1852
01:23:53,719 --> 01:23:51,030
can have a security clearance I mean

1853
01:23:55,969 --> 01:23:53,729
have signed an NDA and somehow he's

1854
01:23:58,729 --> 01:23:55,979
allowed Pete for you to relay

1855
01:24:03,469 --> 01:23:58,739
information I mean that that's a

1856
01:24:06,020 --> 01:24:03,479
complete disconnect for me I'm gonna put

1857
01:24:09,139 --> 01:24:06,030
it two ways you said you're speaking for

1858
01:24:14,149 --> 01:24:09,149
two people yes Roger is a real person

1859
01:24:17,479 --> 01:24:14,159
Roger is who signed an NDA yes Roger is

1860
01:24:20,599 --> 01:24:17,489
still active in the government industry

1861
01:24:22,429 --> 01:24:20,609
if Roger was not I can almost guarantee

1862
01:24:26,329 --> 01:24:22,439
you Roger would be talking about it

1863
01:24:28,369 --> 01:24:26,339

himself but he's got a family to be

1864

01:24:31,849 --> 01:24:28,379

concerned about so he's got to keep its

1865

01:24:36,949 --> 01:24:31,859

mouth quiet what Roger has told me is

1866

01:24:38,959 --> 01:24:36,959

not and this is between a conversation

1867

01:24:42,469 --> 01:24:38,969

I've had with Ryder what roger has told

1868

01:24:45,619 --> 01:24:42,479

me is not what he is very basic it's not

1869

01:24:48,559 --> 01:24:45,629

what he was told not to say what what

1870

01:24:51,859 --> 01:24:48,569

they were debriefed about has way more

1871

01:24:53,090 --> 01:24:51,869

to do with then I was flying and

1872

01:24:55,730 --> 01:24:53,100

something came up next

1873

01:24:57,170 --> 01:24:55,740

airplane you know that's a very basic

1874

01:25:02,870 --> 01:24:57,180

statement that I could have proved

1875

01:25:06,230 --> 01:25:02,880

without talking to Rogers yeah I bet it

1876

01:25:08,090 --> 01:25:06,240

doesn't make sense is like this thing

1877

01:25:10,280 --> 01:25:08,100

where you say you know I

1878

01:25:11,690 --> 01:25:10,290

I know a guy who was there I know a guy

1879

01:25:14,960 --> 01:25:11,700

who was a witness who told me everything

1880

01:25:18,140 --> 01:25:14,970

so I I can tell to you

1881

01:25:20,270 --> 01:25:18,150

you know secondhand but supposedly he

1882

01:25:23,420 --> 01:25:20,280

signed an NDA and he's not allowed to I

1883

01:25:25,460 --> 01:25:23,430

know I mean it is it is secondhand it's

1884

01:25:28,610 --> 01:25:25,470

been confirmed by a conversation between

1885

01:25:30,620 --> 01:25:28,620

him and a vanity so it's not yes that

1886

01:25:33,230 --> 01:25:30,630

might be a violation that would be a

1887

01:25:33,730 --> 01:25:33,240

violation of the NBA I can't say you're

1888

01:25:36,290 --> 01:25:33,740

wrong

1889

01:25:38,590 --> 01:25:36,300

well it also depends oh it depends on

1890

01:25:41,540 --> 01:25:38,600

what the NBA was about I mean perhaps

1891

01:25:43,520 --> 01:25:41,550

the NBA had nothing to do with the UFO

1892

01:25:48,800 --> 01:25:43,530

and it was about some secret technology

1893

01:25:50,540 --> 01:25:48,810

that he's never mentioned yeah I don't

1894

01:25:51,620 --> 01:25:50,550

know one more thing I just a couple

1895

01:25:54,140 --> 01:25:51,630

really quick ones

1896

01:25:56,420 --> 01:25:54,150

um hey baby I looked at some of your

1897

01:25:58,400 --> 01:25:56,430

work some of your documentary if you did

1898

01:26:00,800 --> 01:25:58,410

for PBS and put me your other stuff and

1899

01:26:04,190 --> 01:26:00,810

it's really good yeah I was really

1900

01:26:05,900 --> 01:26:04,200

impressed I have one coming out this

1901

01:26:08,990 --> 01:26:05,910

month called d-day at Pointe du Hoc

1902

01:26:13,070 --> 01:26:09,000

about the second Rangers assault on

1903

01:26:15,530 --> 01:26:13,080

Normandy so if you see that on PBS III

1904

01:26:19,250 --> 01:26:15,540

saw the one that really interests me was

1905

01:26:21,920 --> 01:26:19,260

a Nazi attempt to attack New York with a

1906

01:26:26,000 --> 01:26:21,930

bomb and that and when you go to that

1907

01:26:28,310 --> 01:26:26,010

video that plane that those two German

1908

01:26:31,070 --> 01:26:28,320

brothers the Hawks night or whatever

1909

01:26:33,410 --> 01:26:31,080

brothers were designing in Germany

1910

01:26:36,320 --> 01:26:33,420

looked exactly like the crafts and the

1911

01:26:38,150 --> 01:26:36,330

Phoenix lights incident and I know a lot

1912

01:26:42,640 --> 01:26:38,160

of those guys came over in the paperclip

1913

01:26:46,040 --> 01:26:42,650

to Alabama and New Mexico and Arizona I

1914

01:26:49,570 --> 01:26:46,050

thought that was interesting yeah I mean

1915

01:26:52,280 --> 01:26:49,580

Walter and Reimer Horton

1916

01:26:55,390 --> 01:26:52,290

designed some very sophisticated flying

1917

01:26:57,710 --> 01:26:55,400

wing design crafts that I know that

1918

01:27:01,040 --> 01:26:57,720

you're absolutely right I'm at the end

1919

01:27:02,660 --> 01:27:01,050

of World War two I our intelligence

1920

01:27:04,400 --> 01:27:02,670

apparatus was trying to hunt these guys

1921

01:27:07,070 --> 01:27:04,410

down because they did want to look at

1922

01:27:10,190 --> 01:27:07,080

that technology and if you look at

1923

01:27:12,530 --> 01:27:10,200

of the I guess the Northrup flying-wing

1924

01:27:15,680 --> 01:27:12,540

designs that came out in the 50s are

1925

01:27:21,010 --> 01:27:15,690

almost facsimile replicas of these

1926

01:27:24,080 --> 01:27:21,020

German all wing designs your ass hang on

1927

01:27:26,240 --> 01:27:24,090

hang on everyone for just like we have a

1928

01:27:28,430 --> 01:27:26,250

new caller please mute your your

1929

01:27:32,390 --> 01:27:28,440

listening device Steve thanks so much

1930

01:27:34,100 --> 01:27:32,400

for the call thanks all right so we have

1931

01:27:37,150 --> 01:27:34,110

a new caller on the line your first name

1932

01:27:45,020 --> 01:27:42,380

oh is it Adam did you say Abner

1933

01:27:51,830 --> 01:27:45,030

Oh Abner hi you have a question for any

1934

01:27:54,380 --> 01:27:51,840

specific guests we have tonight my

1935

01:27:57,440 --> 01:27:54,390

question is during the time I've been

1936

01:28:00,080 --> 01:27:57,450

trying to figure out B maybe has

1937

01:28:03,170 --> 01:28:00,090

different jobs and most of these jobs

1938

01:28:05,390 --> 01:28:03,180

they have levels of security clearance I

1939

01:28:07,880 --> 01:28:05,400

myself was a bubblehead

1940

01:28:09,020 --> 01:28:07,890

which was a mixed Submariner during that

1941

01:28:11,620 --> 01:28:09,030

time as a matter of fact

1942

01:28:16,460 --> 01:28:11,630

watching this I realized this was nearby

1943

01:28:18,650 --> 01:28:16,470

where I was stationed in San Diego so

1944

01:28:21,170 --> 01:28:18,660

I'm very surprised about all this but

1945

01:28:23,180 --> 01:28:21,180

the thing is that what level of

1946

01:28:26,930 --> 01:28:23,190

clearance that PJ whole because he was

1947

01:28:29,600 --> 01:28:26,940

an aviation mechanic um so I'm not so

1948

01:28:32,270 --> 01:28:29,610

sure as to how much knowledge you will

1949

01:28:41,240 --> 01:28:32,280

be able to be privy to and well at a

1950

01:28:43,790 --> 01:28:41,250

certain level at that sort of job PJ PJ

1951

01:28:47,840 --> 01:28:43,800

sir I couldn't understand um you myself

1952

01:28:50,240 --> 01:28:47,850

I said okay yeah I mean I had an active

1953

01:28:52,610 --> 01:28:50,250

top-secret clearance at the time there's

1954

01:28:54,350 --> 01:28:52,620

more to a security clearance and you

1955

01:28:57,350 --> 01:28:54,360

know confidential secret or top secret

1956

01:28:59,240 --> 01:28:57,360

there's a bunch of gibberish language

1957

01:29:01,520 --> 01:28:59,250

that goes along with it

1958

01:29:06,800 --> 01:29:01,530

but at a basic I had a top secret

1959

01:29:12,530 --> 01:29:06,810

clearance at the time I was Navionics

1960

01:29:14,780 --> 01:29:12,540

technician maybe okay okay radio

1961

01:29:20,139 --> 01:29:14,790

operators I knew they were top secret

1962

01:29:24,189 --> 01:29:20,149

awesome clearance

1963

01:29:25,299 --> 01:29:24,199

oh all right that was my question that's

1964

01:29:26,919 --> 01:29:25,309

all thank you

1965

01:29:29,799 --> 01:29:26,929

all right Abner thanks thanks for the

1966

01:29:33,100 --> 01:29:29,809

call lines are open if anyone else wants

1967

01:29:34,689 --> 01:29:33,110

to call in let's see so I'm gonna ask

1968

01:29:40,209 --> 01:29:34,699

you this question

1969

01:29:42,219 --> 01:29:40,219

Dave and that is so supposedly from what

1970

01:29:44,889 --> 01:29:42,229

PJ just said that you actually had a

1971

01:29:49,689 --> 01:29:44,899

conversation with the man who likes to

1972

01:29:53,080 --> 01:29:49,699

be known as Roger and do you feel that

1973

01:29:54,489 --> 01:29:53,090

was uh that he broke the NDA by speaking

1974

01:29:59,229 --> 01:29:54,499

about I mean you know what he talked

1975

01:30:02,259 --> 01:29:59,239

about well yeah I mean he flat-out told

1976

01:30:04,959 --> 01:30:02,269

me that he can't talk about some of the

1977

01:30:08,739 --> 01:30:04,969

stuff mm-hm and he said I can tell you

1978

01:30:11,979 --> 01:30:08,749

that I was in the airplane and I saw the

1979

01:30:15,250 --> 01:30:11,989

tic-tac and pretty much that was all he

1980

01:30:17,679 --> 01:30:15,260

revealed to me in fact I tried to ask

1981

01:30:20,409 --> 01:30:17,689

him some more questions and he flat-out

1982

01:30:22,779 --> 01:30:20,419

refused to even talk to me at all and

1983

01:30:24,310 --> 01:30:22,789

you know even in all this stuff I mean

1984

01:30:27,060 --> 01:30:24,320

all these witnesses that have come

1985

01:30:31,600 --> 01:30:27,070

forward that may have been involved in

1986

01:30:34,000 --> 01:30:31,610

classified sensors and so on I asked him

1987

01:30:36,009 --> 01:30:34,010

I said did anyone first of all ever tell

1988

01:30:38,020 --> 01:30:36,019

you not to talk about this stuff that

1989

01:30:40,689 --> 01:30:38,030

you've revealed here and and they said

1990

01:30:42,669 --> 01:30:40,699

no no one ever mentioned it to us that

1991

01:30:46,270 --> 01:30:42,679

we couldn't talk about this UFO

1992

01:30:48,729 --> 01:30:46,280

encounter that happened and I said in in

1993

01:30:51,399 --> 01:30:48,739

the last few months or the last six

1994

01:30:53,529 --> 01:30:51,409

months since you come forward has anyone

1995

01:30:56,259 --> 01:30:53,539

ever approached you behind the scenes

1996

01:30:59,080 --> 01:30:56,269

and said okay stop talking about this

1997

01:31:01,419 --> 01:30:59,090

and they said no and they also told me

1998

01:31:04,959 --> 01:31:01,429

every last one of them that if any one

1999

01:31:07,929 --> 01:31:04,969

official ever did come to them and say

2000

01:31:09,489 --> 01:31:07,939

okay guys you know can it we're not

2001

01:31:12,100 --> 01:31:09,499

going to talk about this anymore

2002

01:31:15,549 --> 01:31:12,110

that they would all go black and go dark

2003

01:31:18,189 --> 01:31:15,559

on it immediately so I mean I think that

2004

01:31:21,009 --> 01:31:18,199

they are all Patriots in my

2005

01:31:22,810 --> 01:31:21,019

conversations with them they love our

2006

01:31:25,629 --> 01:31:22,820

country and they would never do anything

2007

01:31:27,040 --> 01:31:25,639

to jeopardize any secret information I

2008

01:31:29,649 --> 01:31:27,050

think that they're simply talking about

2009

01:31:33,790 --> 01:31:29,659

an unknown aircraft that had this this

2010

01:31:35,680 --> 01:31:33,800

event that happened so yeah okay

2011

01:31:37,230 --> 01:31:35,690

we have another caller caller your first

2012

01:31:40,030 --> 01:31:37,240

name and where are you calling from

2013

01:31:43,210 --> 01:31:40,040

hi Martin this is Linda from New York

2014

01:31:53,110 --> 01:31:43,220

well Linda how are you is this the mime

2015

01:31:56,410 --> 01:31:53,120

very good yes yes thank you I really

2016

01:31:59,380 --> 01:31:56,420

appreciate Omar and PJ coming forward

2017

01:32:04,000 --> 01:31:59,390

and I have a question about the men

2018

01:32:08,370 --> 01:32:04,010

overboard since this object seemed to be

2019

01:32:12,190 --> 01:32:08,380

closer to him has he been identified and

2020

01:32:15,400 --> 01:32:12,200

interviewed to my knowledge ma'am no he

2021

01:32:18,400 --> 01:32:15,410

is not and as far as the proximity to

2022

01:32:21,700 --> 01:32:18,410

him and the object it was quite a

2023

01:32:26,140 --> 01:32:21,710

distance but I don't know whether or not

2024

01:32:28,230 --> 01:32:26,150

he saw it hmm that that was okay that

2025

01:32:32,430 --> 01:32:28,240

was something I was wondering too if if

2026

01:32:34,630 --> 01:32:32,440

if the person never talked about it or

2027

01:32:36,160 --> 01:32:34,640

you know if he actually saw it when he

2028

01:32:38,350 --> 01:32:36,170

was in the water because you know you

2029

01:32:39,940 --> 01:32:38,360

have it the open sky in front of you

2030

01:32:41,920 --> 01:32:39,950

when you're in the water and the ship

2031

01:32:44,980 --> 01:32:41,930

over to one you know one side and that's

2032

01:32:47,920 --> 01:32:44,990

it you can see vast area and he wasn't

2033

01:32:49,900 --> 01:32:47,930

quite he was quite a distance yes that's

2034

01:32:52,570 --> 01:32:49,910

the farthest man overboard I had seen a

2035

01:32:54,460 --> 01:32:52,580

guy drift that's as far as ways he did

2036

01:32:56,710 --> 01:32:54,470

he must have got caught on the current

2037

01:33:00,250 --> 01:32:56,720

too and as well as the aircraft carrier

2038

01:33:01,510 --> 01:33:00,260

was how they as at a coasting speed as

2039

01:33:04,780 --> 01:33:01,520

far as what knots

2040

01:33:06,430 --> 01:33:04,790

I couldn't answer that mm-hmm Linda

2041

01:33:10,360 --> 01:33:06,440

you're still doing your show I'm

2042

01:33:15,340 --> 01:33:10,370

assuming yes thank you very much I am

2043

01:33:18,610 --> 01:33:15,350

still doing UFO headquarters and we're

2044

01:33:20,770 --> 01:33:18,620

actually doing a special on Pine Bush in

2045

01:33:23,650 --> 01:33:20,780

a couple of weeks because the Pine Bush

2046

01:33:26,980 --> 01:33:23,660

UFO festival is coming up on May 18th

2047

01:33:30,310 --> 01:33:26,990

right so since you run I'll let you plug

2048

01:33:34,660 --> 01:33:30,320

your show and people can listen to it

2049

01:33:38,830 --> 01:33:34,670

live can they and it's Sunday right it

2050

01:33:44,770 --> 01:33:38,840

is the second Monday of every month it

2051

01:33:48,510 --> 01:33:44,780

was close you can listen to to it on

2052

01:33:51,490 --> 01:33:48,520

podcast anytime but

2053

01:33:53,920 --> 01:33:51,500

yes I appreciate that but I would love

2054

01:33:56,320 --> 01:33:53,930

to see Martin you come down for the Pine

2055

01:33:57,640 --> 01:33:56,330

Bush UFO Festival someday maybe you

2056

01:33:58,540 --> 01:33:57,650

could do a show there yeah it's

2057

01:34:01,240 --> 01:33:58,550

something I've actually thought about

2058

01:34:03,670 --> 01:34:01,250

how we'll be in touch off here good to

2059

01:34:04,870 --> 01:34:03,680

talk to you Linda thank you very much

2060

01:34:07,660 --> 01:34:04,880

and I enjoy the show

2061

01:34:10,450 --> 01:34:07,670

take care all right thanks bye bye so

2062

01:34:12,490 --> 01:34:10,460

the line is the line is still open

2063

01:34:16,720 --> 01:34:12,500

let's see now going back to this

2064

01:34:18,130 --> 01:34:16,730

security clearances I mean I'm sorry I

2065

01:34:21,390 --> 01:34:18,140

didn't mean to say that going back to

2066

01:34:24,870 --> 01:34:21,400

the NDA's then the non-disclosure

2067

01:34:28,090 --> 01:34:24,880

agreements are they all different or

2068

01:34:29,920 --> 01:34:28,100

does anyone know that that's you know in

2069

01:34:32,050 --> 01:34:29,930

the guests here I mean do they actually

2070

01:34:34,270 --> 01:34:32,060

say you can never at any time any given

2071

01:34:37,330 --> 01:34:34,280

day ever talk about this is that is that

2072

01:34:42,180 --> 01:34:37,340

kind of what it is NDA's are are very

2073

01:34:45,820 --> 01:34:42,190

very specific documents they don't leave

2074

01:34:47,710 --> 01:34:45,830

anything to the imagination I've signed

2075

01:34:49,090 --> 01:34:47,720

a tremendous amount of them over the

2076

01:34:52,300 --> 01:34:49,100

years

2077

01:34:55,330 --> 01:34:52,310

what do you know it's not even what you

2078

01:34:59,260 --> 01:34:55,340

know it's and this is one thing Dave was

2079

01:35:01,150 --> 01:34:59,270

talking before you know about you know

2080

01:35:03,790 --> 01:35:01,160

respecting NDA's and respecting that

2081

01:35:05,620 --> 01:35:03,800

stuff dave has been absolutely

2082

01:35:07,810 --> 01:35:05,630

tremendous and respecting the boundaries

2083

01:35:10,120 --> 01:35:07,820

that we've set because quite a bit of

2084

01:35:12,610 --> 01:35:10,130

this to explain some of it you start

2085

01:35:15,610 --> 01:35:12,620

getting into you know tactics and

2086

01:35:17,530 --> 01:35:15,620

capabilities of certain systems and that

2087

01:35:19,930 --> 01:35:17,540

stuff that you know we can't share and

2088

01:35:21,640 --> 01:35:19,940

he's he's respected that you know he's

2089

01:35:24,370 --> 01:35:21,650

taken that the information we've given

2090

01:35:26,410 --> 01:35:24,380

him in and worked with it you know he's

2091

01:35:29,260 --> 01:35:26,420

never ever tried to push the boundaries

2092

01:35:32,890 --> 01:35:29,270

of what we can say or can't say that's

2093

01:35:34,210 --> 01:35:32,900

good you know I've signed basically

2094

01:35:37,120 --> 01:35:34,220

every time I transfer I've signed an NDA

2095

01:35:38,500 --> 01:35:37,130

every time I left certain stuff I've

2096

01:35:42,070 --> 01:35:38,510

signed in any and they're all very

2097

01:35:44,290 --> 01:35:42,080

detailed on what you cannot say and what

2098

01:35:47,550 --> 01:35:44,300

you basically I mean it's about what you

2099

01:35:49,900 --> 01:35:47,560

can't say not what you can say and

2100

01:35:52,030 --> 01:35:49,910

there's not really any guesswork in

2101
01:35:53,830 --> 01:35:52,040
those isn't perpetuity in other words

2102
01:35:58,790 --> 01:35:53,840
you just can't ever talk about it ever

2103
01:36:02,509 --> 01:35:58,800
ever ever know if

2104
01:36:05,779 --> 01:36:02,519
the topic or the the gear or the

2105
01:36:08,330 --> 01:36:05,789
equipment or the the subject of the NDA

2106
01:36:09,560 --> 01:36:08,340
has been Declassified by a higher

2107
01:36:12,169 --> 01:36:09,570
authority hmm

2108
01:36:13,459 --> 01:36:12,179
it kind of null in voids the NBA in most

2109
01:36:15,859 --> 01:36:13,469
cases hmm

2110
01:36:19,160 --> 01:36:15,869
there are cases where it's you can just

2111
01:36:20,899 --> 01:36:19,170
never talk about it well like I've

2112
01:36:22,459 --> 01:36:20,909
signed NDA's for equipment and gear

2113
01:36:25,729 --> 01:36:22,469

that's gone in the airplane that at one

2114

01:36:28,759 --> 01:36:25,739

time was held a certain classification

2115

01:36:30,169 --> 01:36:28,769

level and you know two years down the

2116

01:36:31,850 --> 01:36:30,179

line they determined it's no longer

2117

01:36:34,040 --> 01:36:31,860

doesn't need to be this kind of

2118

01:36:36,859 --> 01:36:34,050

classification level so it gets

2119

01:36:38,810 --> 01:36:36,869

downgraded and now you know that becomes

2120

01:36:42,049 --> 01:36:38,820

part of normal conversation because you

2121

01:36:44,000 --> 01:36:42,059

can now talk about it so it's there are

2122

01:36:45,410 --> 01:36:44,010

cases where they are forever but there

2123

01:36:48,290 --> 01:36:45,420

are also plenty of cases where it's not

2124

01:36:52,009 --> 01:36:48,300

Wow okay

2125

01:36:55,850 --> 01:36:52,019

so Omar I'm gonna ask you this question

2126
01:36:58,310 --> 01:36:55,860
in particular what do you when you saw

2127
01:37:01,580 --> 01:36:58,320
this object and you know you talked to

2128
01:37:05,419 --> 01:37:01,590
your you did mention they did speak to

2129
01:37:07,879 --> 01:37:05,429
other people that witnessed it what was

2130
01:37:10,729 --> 01:37:07,889
your thought about what you were

2131
01:37:13,970 --> 01:37:10,739
actually witnessing did you think it was

2132
01:37:17,479 --> 01:37:13,980
a technology did you think right away

2133
01:37:19,100 --> 01:37:17,489
that had to be you know something not

2134
01:37:21,310 --> 01:37:19,110
from this planet or what what were you

2135
01:37:24,729 --> 01:37:21,320
what was going through your head

2136
01:37:27,229 --> 01:37:24,739
definitely it wasn't the object was

2137
01:37:30,739 --> 01:37:27,239
nothing I've ever seen in my 10 years

2138
01:37:32,390 --> 01:37:30,749

onboard aircraft carriers from jets even

2139

01:37:34,910 --> 01:37:32,400

at supersonic speeds when Jets are

2140

01:37:37,910 --> 01:37:34,920

moving you can follow them at a distance

2141

01:37:40,310 --> 01:37:37,920

when you can still view it at a with

2142

01:37:43,160 --> 01:37:40,320

your eyeballs mm-hmm but at this

2143

01:37:44,239 --> 01:37:43,170

distance from whatever this object for

2144

01:37:47,169 --> 01:37:44,249

the distance from the aircraft carrier

2145

01:37:51,700 --> 01:37:47,179

you literally had to move your torso and

2146

01:37:55,569 --> 01:37:51,710

actually look up to see this thing leap

2147

01:37:58,250 --> 01:37:55,579

as far as it being out of this world

2148

01:38:01,189 --> 01:37:58,260

didn't cross my mind at that moment I

2149

01:38:04,489 --> 01:38:01,199

wasn't too concerned as far as who was

2150

01:38:06,979 --> 01:38:04,499

in the cockpit or what was it I don't

2151
01:38:09,229 --> 01:38:06,989
know whether if it was our technology

2152
01:38:12,200 --> 01:38:09,239
but then when he hear reports that there

2153
01:38:14,660 --> 01:38:12,210
were hundreds of these things

2154
01:38:17,979 --> 01:38:14,670
and I hope that all hundred of those

2155
01:38:21,100 --> 01:38:17,989
pilots if they are ours are 100%

2156
01:38:23,870 --> 01:38:21,110
patriotic because that they decide to

2157
01:38:25,880 --> 01:38:23,880
literally go rogue or defect they're

2158
01:38:28,550 --> 01:38:25,890
just gonna rule the entire airspace on

2159
01:38:31,760 --> 01:38:28,560
this planet hmm that's one of the things

2160
01:38:35,270 --> 01:38:31,770
that's always surprised me about UFOs

2161
01:38:37,400 --> 01:38:35,280
and say the Air Force for instance just

2162
01:38:40,100 --> 01:38:37,410
wondering why they don't take more of an

2163
01:38:42,740 --> 01:38:40,110

interest in something that has

2164

01:38:45,290 --> 01:38:42,750

technology that is just so scary that

2165

01:38:47,540 --> 01:38:45,300

like you just said it could easily take

2166

01:38:49,820 --> 01:38:47,550

over the take over the airspace in the

2167

01:38:52,490 --> 01:38:49,830

world so there's always baffle me why

2168

01:38:55,190 --> 01:38:52,500

you know Project Blue Book stopped in

2169

01:38:57,080 --> 01:38:55,200

1969 and you know the Air Force

2170

01:38:59,390 --> 01:38:57,090

supposedly didn't have any interests in

2171

01:39:00,890 --> 01:38:59,400

this and then we come to find out there

2172

01:39:03,920 --> 01:39:00,900

was a little bit of interest and there

2173

01:39:06,050 --> 01:39:03,930

still is probably so and it only makes

2174

01:39:07,760 --> 01:39:06,060

sense only makes sense

2175

01:39:11,420 --> 01:39:07,770

and that's true I mean even the

2176

01:39:15,650 --> 01:39:11,430

individual next we see after the after

2177

01:39:18,020 --> 01:39:15,660

the object had left I went back into

2178

01:39:20,630 --> 01:39:18,030

flight deck control and there was this

2179

01:39:22,970 --> 01:39:20,640

eerie silence amongst those who had just

2180

01:39:24,770 --> 01:39:22,980

walked back in with me and one of the

2181

01:39:28,400 --> 01:39:24,780

guys try to break the ice by saying what

2182

01:39:29,900 --> 01:39:28,410

the f was that and I turned and I kind

2183

01:39:32,630 --> 01:39:29,910

of turned around to look at him and just

2184

01:39:35,510 --> 01:39:32,640

kind of laugh and and when I turned

2185

01:39:38,150 --> 01:39:35,520

around to my right I looked down and

2186

01:39:40,910 --> 01:39:38,160

there's a sailor with his hands folded

2187

01:39:42,740 --> 01:39:40,920

and he was in prayer Wow so my

2188

01:39:46,130 --> 01:39:42,750

experience from what I saw was totally

2189

01:39:49,310 --> 01:39:46,140

different for this individual mm-hm and

2190

01:39:50,900 --> 01:39:49,320

it bothered him to a point where he had

2191

01:39:54,979 --> 01:39:50,910

to get into prayer because he did not

2192

01:39:58,030 --> 01:39:54,989

know what he was witnessing and even

2193

01:40:01,729 --> 01:39:58,040

going back into my work center my shop I

2194

01:40:04,130 --> 01:40:01,739

refer to him as a BA a BF he was there

2195

01:40:05,830 --> 01:40:04,140

and we had a general conversation you

2196

01:40:08,120 --> 01:40:05,840

know what we just see what was this and

2197

01:40:10,970 --> 01:40:08,130

he's like you know believing that stuff

2198

01:40:13,700 --> 01:40:10,980

do you know I'm saying maybe I do now I

2199

01:40:15,940 --> 01:40:13,710

mean what was that and he tried to ride

2200

01:40:19,550 --> 01:40:15,950

it off all that was some Chinese

2201

01:40:23,000 --> 01:40:19,560

technology that's Chinese stuff and I

2202

01:40:25,529 --> 01:40:23,010

told them you know I remember this

2203

01:40:28,660 --> 01:40:25,539

Pacifica I said it that's China's tech

2204

01:40:30,609 --> 01:40:28,670

you can basically write us off as the

2205

01:40:32,830 --> 01:40:30,619

number one superpower on this planet

2206

01:40:36,100 --> 01:40:32,840

because we are done if those things want

2207

01:40:38,549 --> 01:40:36,110

to just lift a finger on us yeah yeah

2208

01:40:41,709 --> 01:40:38,559

that's so true and I don't think that's

2209

01:40:43,120 --> 01:40:41,719

thought about or talked about enough you

2210

01:40:46,899 --> 01:40:43,130

know from some of the technology that

2211

01:40:49,799 --> 01:40:46,909

we've seen I'm going to you now David

2212

01:40:54,189 --> 01:40:49,809

and were worried do you go from here

2213

01:40:55,870 --> 01:40:54,199

with this film I saw on YouTube that it

2214

01:40:58,299 --> 01:40:55,880

said this film is going to be taken down

2215

01:41:00,899 --> 01:40:58,309

when you have you know 1.5 million

2216

01:41:03,520 --> 01:41:00,909

reviews on it why would you take it down

2217

01:41:06,700 --> 01:41:03,530

well you know from the very beginning I

2218

01:41:10,540 --> 01:41:06,710

always wanted to have the film sort of

2219

01:41:14,560 --> 01:41:10,550

evolved as the story progresses and I'm

2220

01:41:17,439 --> 01:41:14,570

on version 2 now and and that was going

2221

01:41:20,259 --> 01:41:17,449

back to March currently I'm working on

2222

01:41:23,379 --> 01:41:20,269

the next iteration and it's going to

2223

01:41:25,390 --> 01:41:23,389

expand greatly with the new witnesses

2224

01:41:29,200 --> 01:41:25,400

that have come forward based on the

2225

01:41:31,239 --> 01:41:29,210

first two versions and so my plan is to

2226

01:41:35,439 --> 01:41:31,249

put together this really great new

2227

01:41:38,100 --> 01:41:35,449

version and that goes into PJ story and

2228

01:41:41,200 --> 01:41:38,110

goes into Gary story and Kevin day and

2229

01:41:43,419 --> 01:41:41,210

brings them off forward so they're not

2230

01:41:45,100 --> 01:41:43,429

just being talked about but they're

2231

01:41:47,350 --> 01:41:45,110

actually telling us their story

2232

01:41:50,700 --> 01:41:47,360

themselves I mean I really do like to

2233

01:41:53,859 --> 01:41:50,710

tell personal stories and let the actual

2234

01:41:57,819 --> 01:41:53,869

witness describe what they experienced

2235

01:41:59,919 --> 01:41:57,829

and how they felt and sometimes you know

2236

01:42:02,319 --> 01:41:59,929

all the little details when you put them

2237

01:42:05,770 --> 01:42:02,329

side-by-side it just becomes this very

2238

01:42:08,020 --> 01:42:05,780

powerful story so mmm what I'm telling

2239

01:42:10,989 --> 01:42:08,030

people is you know go to my website to

2240

01:42:13,629 --> 01:42:10,999

the video link and I'm gonna try to keep

2241

01:42:16,180 --> 01:42:13,639

that updated so as these videos on

2242

01:42:18,489 --> 01:42:16,190

YouTube you know are kind of updated

2243

01:42:20,020 --> 01:42:18,499

they have the latest version because

2244

01:42:22,209 --> 01:42:20,030

some people want to link directly to a

2245

01:42:25,209 --> 01:42:22,219

YouTube video that may be outdated so I

2246

01:42:26,830 --> 01:42:25,219

see no very good we have another caller

2247

01:42:29,310 --> 01:42:26,840

on the line color your first name and

2248

01:42:33,040 --> 01:42:29,320

where are you calling from

2249

01:42:34,930 --> 01:42:33,050

yeah yeah January I can what's your

2250

01:42:37,000 --> 01:42:34,940

first name where you calling from okay

2251

01:42:40,390 --> 01:42:37,010

hi my name is Joe I'm calling from

2252

01:42:41,650 --> 01:42:40,400

Michigan hi Joe welcome to the show you

2253

01:42:43,630 --> 01:42:41,660

have a question for any one of our

2254

01:42:48,340 --> 01:42:43,640

guests in particular or yes I do

2255

01:42:51,040 --> 01:42:48,350

okay I want I have a question if if

2256

01:42:54,340 --> 01:42:51,050

anyone is familiar with the southern

2257

01:42:58,710 --> 01:42:54,350

Ontario sighting by the department of

2258

01:43:02,590 --> 01:42:58,720

defense engineer and optical engineer

2259

01:43:06,340 --> 01:43:02,600

through a nikon rifle scope for seven

2260

01:43:09,220 --> 01:43:06,350

minutes at 400 feet and all the work

2261

01:43:13,120 --> 01:43:09,230

that he put in to work towards a

2262

01:43:17,530 --> 01:43:13,130

propulsion system and the the the

2263

01:43:19,900 --> 01:43:17,540

drawings of the craft in great detail it

2264

01:43:23,790 --> 01:43:19,910

was a move happened in 2013 it was a

2265

01:43:26,320 --> 01:43:23,800

MUFON encounter of the year for 2016

2266

01:43:29,680 --> 01:43:26,330

they didn't report it immediately that's

2267

01:43:32,110 --> 01:43:29,690

why I was in 2016 not 2013 but I wonder

2268

01:43:35,080 --> 01:43:32,120

if the affinity gentlemen are are

2269

01:43:37,570 --> 01:43:35,090

familiar with that thank you no sir I'm

2270

01:43:39,460 --> 01:43:37,580

not aware I didn't even know what move

2271

01:43:42,340 --> 01:43:39,470

move I don't even know what MUFON was

2272

01:43:44,680 --> 01:43:42,350

until we go I think you can want I want

2273

01:43:46,840 --> 01:43:44,690

to know about it yeah you might you

2274

01:43:49,600 --> 01:43:46,850

might go ahead you might want to check

2275

01:43:51,730 --> 01:43:49,610

into it the gentleman is has been

2276

01:43:53,860 --> 01:43:51,740

interviewed in the interview he's uh

2277

01:43:55,770 --> 01:43:53,870

they cover his face and then the other

2278

01:43:58,000 --> 01:43:55,780

gentleman listen there's new gentleman

2279

01:44:00,360 --> 01:43:58,010

there a bear hunting in southern Ontario

2280

01:44:03,160 --> 01:44:00,370

in the fall of 2013

2281

01:44:08,110 --> 01:44:03,170

we'll be back in the way back in the

2282

01:44:09,130 --> 01:44:08,120

woods this is a Cisco whoa is it no okay

2283

01:44:11,370 --> 01:44:09,140

not all right

2284

01:44:14,440 --> 01:44:11,380

the gentleman the gentleman is a

2285

01:44:17,350 --> 01:44:14,450

extremely educated man he's interviewed

2286

01:44:22,120 --> 01:44:17,360

for about 45 minutes by a MUFON it is on

2287

01:44:23,710 --> 01:44:22,130

YouTube and I think it would have to be

2288

01:44:25,630 --> 01:44:23,720

one of my I've been following this for

2289

01:44:28,990 --> 01:44:25,640

50 years this would have to be one of my

2290

01:44:31,810 --> 01:44:29,000

top five encounters and if you're not

2291

01:44:35,920 --> 01:44:31,820

aware of it if you can try to find it on

2292

01:44:39,790 --> 01:44:35,930

YouTube the southern Ontario UFO

2293

01:44:42,940 --> 01:44:39,800

encounter or through MUFON and the

2294

01:44:48,490 --> 01:44:42,950

gentleman has an engineering company

2295

01:44:50,440 --> 01:44:48,500

big DoD contractor 22 patents and he's

2296

01:44:52,270 --> 01:44:50,450

he's working like crazy to figure out

2297

01:44:56,560 --> 01:44:52,280

the propulsion system I think he's real

2298

01:44:58,990 --> 01:44:56,570

close to it and as far as a blockbuster

2299

01:45:01,330 --> 01:44:59,000

and colander that definitely is

2300

01:45:03,190 --> 01:45:01,340

I'm enterprise that no one I see from it

2301

01:45:07,510 --> 01:45:03,200

I think did this thing look like a

2302

01:45:09,430 --> 01:45:07,520

dumbbell it was a DA like a God long all

2303

01:45:11,200 --> 01:45:09,440

right all right dog balls yes I know

2304

01:45:13,960 --> 01:45:11,210

which one you're talking about now yeah

2305

01:45:15,580 --> 01:45:13,970

yeah that okay that is that is as soon

2306

01:45:17,890 --> 01:45:15,590

as you started talking about his

2307

01:45:19,440 --> 01:45:17,900

background I and I remembered the one

2308

01:45:21,880 --> 01:45:19,450

you're talking about yeah that's a real

2309

01:45:24,670 --> 01:45:21,890

real interesting and I was talking to

2310

01:45:27,400 --> 01:45:24,680

Dave earlier about that it's sometimes

2311

01:45:28,960 --> 01:45:27,410

the really unusual ones almost seem like

2312

01:45:31,840 --> 01:45:28,970

they're even more credible because

2313

01:45:36,600 --> 01:45:31,850

they're just so bizarre and this is one

2314

01:45:39,790 --> 01:45:36,610

of those instances it's a well he even

2315

01:45:41,740 --> 01:45:39,800

saw an insignia on the side of the craft

2316

01:45:43,750 --> 01:45:41,750

yes yes all the measurements of the

2317

01:45:45,940 --> 01:45:43,760

craft hit everything everything about

2318

01:45:48,340 --> 01:45:45,950

the craft later guys right out as far as

2319

01:45:50,710 --> 01:45:48,350

you know visual on Condor I don't think

2320

01:45:53,980 --> 01:45:50,720

there's ever been one like like what

2321

01:45:56,470 --> 01:45:53,990

these Jonah saw in seven minutes do that

2322

01:45:58,840 --> 01:45:56,480

nikon rifle scope he examined that

2323

01:46:02,560 --> 01:45:58,850

craftsmen took notes right and it is

2324

01:46:04,240 --> 01:46:02,570

also the audio when they saw it all the

2325

01:46:06,460 --> 01:46:04,250

audio they have all the audio and their

2326

01:46:09,450 --> 01:46:06,470

phones but the video from the phones

2327

01:46:11,680 --> 01:46:09,460

that it was interrupted by the by the

2328

01:46:14,260 --> 01:46:11,690

interference from the craft being so

2329

01:46:15,880 --> 01:46:14,270

close which is like for me I just wanted

2330

01:46:17,800 --> 01:46:15,890

to see I just want to bring that up to

2331

01:46:20,830 --> 01:46:17,810

you Jonathan yeah it's a good one okay

2332

01:46:23,350 --> 01:46:20,840

Joe thanks a lot thank you thanks for

2333

01:46:26,350 --> 01:46:23,360

call alright so we only got we only have

2334

01:46:28,540 --> 01:46:26,360

about two and a half three minutes of

2335

01:46:31,630 --> 01:46:28,550

the most here so we have to basically

2336

01:46:34,410 --> 01:46:31,640

wrap up here and it's been it's been a

2337

01:46:37,510 --> 01:46:34,420

real pleasure Dave I was just asking you

2338

01:46:40,180 --> 01:46:37,520

basically where you going from here are

2339

01:46:41,800 --> 01:46:40,190

you gonna do something else in the UFO

2340

01:46:46,710 --> 01:46:41,810

field or do you think this is a one-time

2341

01:46:49,570 --> 01:46:46,720

deal you know again

2342

01:46:51,700 --> 01:46:49,580

the future will tell what what happens

2343

01:46:54,580 --> 01:46:51,710

next you know especially with this

2344

01:46:56,140 --> 01:46:54,590

project that seems to be you know kind

2345

01:46:59,680 --> 01:46:56,150

of ongoing

2346

01:47:03,130 --> 01:46:59,690

one thought that I had was looking at

2347

01:47:06,399 --> 01:47:03,140

the military witnesses as a group

2348

01:47:08,229 --> 01:47:06,409

military police pilots that it might be

2349

01:47:10,750 --> 01:47:08,239

interesting to form some type of

2350

01:47:14,790 --> 01:47:10,760

foundation or form some type of group

2351
01:47:18,340 --> 01:47:14,800
that supports them and as well as maybe

2352
01:47:20,110 --> 01:47:18,350
filmmaking about the topics in the

2353
01:47:22,990 --> 01:47:20,120
subject matter of these anomalous

2354
01:47:25,209 --> 01:47:23,000
reports that they have so you know I'm

2355
01:47:28,510 --> 01:47:25,219
exploring that you know in the future

2356
01:47:32,380 --> 01:47:28,520
after seeing you know the benefits and

2357
01:47:34,330 --> 01:47:32,390
kind of the the support that these vets

2358
01:47:35,919 --> 01:47:34,340
have given each other just bringing them

2359
01:47:37,750 --> 01:47:35,929
together and putting them together I

2360
01:47:40,630 --> 01:47:37,760
think it's been a very positive effect

2361
01:47:41,830 --> 01:47:40,640
on them right so this is getting near

2362
01:47:45,040 --> 01:47:41,840
the end of the show I just want to say

2363
01:47:49,870 --> 01:47:45,050

good bye and have everyone say just one

2364

01:47:53,169 --> 01:47:49,880

last thing so PJ I want to thank you

2365

01:47:54,820 --> 01:47:53,179

very much for or I'm not going to say

2366

01:47:57,610 --> 01:47:54,830

you're not actually coming forward as a

2367

01:47:58,930 --> 01:47:57,620

witness but still that ordeal

2368

01:48:01,450 --> 01:47:58,940

you know the whole ordeal is pretty

2369

01:48:04,180 --> 01:48:01,460

amazing oh well and I appreciate I

2370

01:48:08,380 --> 01:48:04,190

appreciate that you're doing what you're

2371

01:48:11,169 --> 01:48:08,390

doing no bubbles yeah and the last but

2372

01:48:12,189 --> 01:48:11,179

not least Omar thank you as well I

2373

01:48:14,770 --> 01:48:12,199

appreciate it

2374

01:48:16,570 --> 01:48:14,780

yes sir thank you thank you very much it

2375

01:48:19,209 --> 01:48:16,580

2376

2377

01:48:24,340 --> 01:48:22,760

speaking I know Kevin day has spoken at

2378

01:48:27,970 --> 01:48:24,350

2379

01:48:32,910 --> 01:48:27,980

2380

01:48:35,919 --> 01:48:32,920

Jason Turner and Kevin day at us Phil

2382

Megacon that's the only one that I've

2383

01:48:42,459 --> 01:48:40,219

been asked to do and probably the only

2384

01:48:44,560 --> 01:48:42,469

one I might do on my shore yeah okay

2385

01:48:46,300 --> 01:48:44,570

all right everyone well I'm gonna ask

2386

01:48:47,439 --> 01:48:46,310

2387

01:48:49,660 --> 01:48:47,449

me to do on this side you're all gonna

2388

01:48:51,850 --> 01:48:49,670
