KGRA Radio

1  
00:00:05,390 --> 00:00:01,880  
most I don't know what happened to my

2  
00:00:09,200 --> 00:00:05,400  
intro I hope I'm not walking over K GRA

3  
00:00:12,379 --> 00:00:09,210  
radios intro I tested it before the show

4  
00:00:16,580 --> 00:00:12,389  
everything was fine my intro did not

5  
00:00:19,460 --> 00:00:16,590  
work for some reason but anyway this is

6  
00:00:20,150 --> 00:00:19,470  
gonna be a fun show tonight and welcome

7  
00:00:23,359 --> 00:00:20,160  
to it

8  
00:00:25,609 --> 00:00:23,369  
this is Martin Willis and we have two

9  
00:00:27,230 --> 00:00:25,619  
guests coming up tonight first of all we

10  
00:00:29,150 --> 00:00:27,240  
have Lee Spiegel he's going to be

11  
00:00:33,920 --> 00:00:29,160  
talking about a show that's upcoming

12  
00:00:37,310 --> 00:00:33,930  
soon within a few weeks we hope and and

13  
00:00:40,069 --> 00:00:37,320

then after that I have rich Hoffmann he

14

00:00:42,860 --> 00:00:40,079

is he was back on three years ago a lot

15

00:00:44,600 --> 00:00:42,870

has happened since he was on and he has

16

00:00:47,420 --> 00:00:44,610

a great background started when was

17

00:00:50,299 --> 00:00:47,430

extremely young 13 years old checking

18

00:00:53,779 --> 00:00:50,309

out UFOs and was actually on the Phil

19

00:00:56,569 --> 00:00:53,789

Donahue at age 15 talking UFOs isn't

20

00:00:58,610 --> 00:00:56,579

that amazing anyway so that's our guests

21

00:01:02,380 --> 00:00:58,620

we have Alejandro Rojas coming up in

22

00:01:05,450 --> 00:01:02,390

just a minute with UFO UFO updates and

23

00:01:08,120 --> 00:01:05,460

the blog we have this week from Charles

24

00:01:10,850 --> 00:01:08,130

Lear is trust me this is science it's

25

00:01:13,280 --> 00:01:10,860

basically about if you're looking into

26

00:01:17,270 --> 00:01:13,290

the UFO topic you know more or less

27

00:01:19,190 --> 00:01:17,280

beware and look out for pseudoscience

28

00:01:21,440 --> 00:01:19,200

and try to figure out which is

29

00:01:23,149 --> 00:01:21,450

pseudoscience and which is real science

30

00:01:26,480 --> 00:01:23,159

if you can find any real science when it

31

00:01:30,080 --> 00:01:26,490

comes to UFO so check that blog out it's

32

00:01:36,350 --> 00:01:30,090

on podcast UFO comm we also have a

33

00:01:37,910 --> 00:01:36,360

Facebook page podcast UFO and and live

34

00:01:40,940 --> 00:01:37,920

shows I think that's how it's titled and

35

00:01:43,160 --> 00:01:40,950

so check that out there's 22,000 or so

36

00:01:47,359 --> 00:01:43,170

people over there and a lot of activity

37

00:01:51,139 --> 00:01:47,369

a UFO updates every day and speaking of

38

00:01:55,429 --> 00:01:51,149

updates we have Alejandro Rojas for UFO

39

00:01:57,800 --> 00:01:55,439

updates welcome friend hello how are you

40

00:02:00,649 --> 00:01:57,810

doing good jeez that was weird no intro

41

00:02:02,539 --> 00:02:00,659

I know what happened yeah well you're

42

00:02:03,950 --> 00:02:02,549

supposed to pretend like that's the way

43

00:02:06,200 --> 00:02:03,960

it's supposed to be on radio that's the

44

00:02:08,059 --> 00:02:06,210

thing is you pretends like like nothing

45

00:02:10,190 --> 00:02:08,069

went wrong yeah and you just move on

46

00:02:11,960 --> 00:02:10,200

you're right you're right yes oh that

47

00:02:12,940 --> 00:02:11,970

was a great I really liked how you tried

48

00:02:15,430 --> 00:02:12,950

this kind of

49

00:02:17,580 --> 00:02:15,440

no intro thing so we could get right

50

00:02:20,979 --> 00:02:17,590

into it that's right yeah it was a nice

51  
00:02:22,990 --> 00:02:20,989  
nice little silence dead airs wonderful

52  
00:02:25,390 --> 00:02:23,000  
yes yeah a little bit of peace and quiet

53  
00:02:27,490 --> 00:02:25,400  
so we can reflect on on what we're doing

54  
00:02:29,680 --> 00:02:27,500  
and gather our thoughts that's where you

55  
00:02:33,400 --> 00:02:29,690  
get into this heavy topic next week I'll

56  
00:02:35,920 --> 00:02:33,410  
make sure I have crickets going anyway

57  
00:02:38,860 --> 00:02:35,930  
so how's everything going good so a lots

58  
00:02:40,390 --> 00:02:38,870  
going on of course right because I

59  
00:02:41,800 --> 00:02:40,400  
wasn't on the show last week we keep

60  
00:02:43,750 --> 00:02:41,810  
talking about some of these stories that

61  
00:02:45,100 --> 00:02:43,760  
came out in the last week it feels like

62  
00:02:46,960 --> 00:02:45,110  
we've talked about but there's no way

63  
00:02:49,900 --> 00:02:46,970

because we haven't talked in the last

64

00:02:51,690 --> 00:02:49,910

week but it's been an exciting week of

65

00:02:56,740 --> 00:02:51,700

course although the stories are mostly

66

00:02:59,830 --> 00:02:56,750

around the the program unidentified you

67

00:03:01,690 --> 00:02:59,840

know America's UFO investigation so on

68

00:03:03,880 --> 00:03:01,700

the History Channel that first episode

69

00:03:05,860 --> 00:03:03,890

finally came out you and I of course

70

00:03:08,860 --> 00:03:05,870

have talked about it since we got an

71

00:03:11,920 --> 00:03:08,870

early preview because we're special we

72

00:03:15,009 --> 00:03:11,930

were in special class were younger and

73

00:03:16,930 --> 00:03:15,019

and we of course both like the show but

74

00:03:20,199 --> 00:03:16,940

there's a lot of information now the

75

00:03:22,210 --> 00:03:20,209

first episode is mostly information

76

00:03:24,069 --> 00:03:22,220

especially our listeners will be

77

00:03:28,120 --> 00:03:24,079

familiar with because it included the

78

00:03:29,830 --> 00:03:28,130

Nimitz case some of what was in there

79

00:03:32,349 --> 00:03:29,840

which I think some of our people might

80

00:03:34,530 --> 00:03:32,359

not have known about was you know this

81

00:03:37,930 --> 00:03:34,540

was the first time we had heard from the

82

00:03:41,500 --> 00:03:37,940

female pilot and I still remained

83

00:03:43,090 --> 00:03:41,510

anonymous in this year's blacked out so

84

00:03:45,849 --> 00:03:43,100

that was really interesting to have her

85

00:03:47,740 --> 00:03:45,859

go through Nimitz and also even though

86

00:03:49,720 --> 00:03:47,750

you know both of you and I have had

87

00:03:51,160 --> 00:03:49,730

people on to talk about this and I've

88

00:03:53,620 --> 00:03:51,170

written a lot about it

89

00:03:56,199 --> 00:03:53,630

there's so many working parts and the

90

00:03:58,089 --> 00:03:56,209

backgrounds really confusing and so I

91

00:04:00,970 --> 00:03:58,099

thought they did a really great job of

92

00:04:04,420 --> 00:04:00,980

going over Steve justice background Tom

93

00:04:06,940 --> 00:04:04,430

DeLonge flew elizondo's chris mellon all

94

00:04:10,259 --> 00:04:06,950

the major players I think they did they

95

00:04:13,210 --> 00:04:10,269

all have such incredible histories and

96

00:04:15,819 --> 00:04:13,220

credibility that substantiates you know

97

00:04:17,650 --> 00:04:15,829

what they're talking about and I thought

98

00:04:20,890 --> 00:04:17,660

they did a really good job tackling all

99

00:04:23,980 --> 00:04:20,900

of their backgrounds mm-hmm you know of

100

00:04:25,330 --> 00:04:23,990

course up I'm sure as myself you

101  
00:04:26,320 --> 00:04:25,340  
probably heard from a lot of people that

102  
00:04:28,350 --> 00:04:26,330  
watched it

103  
00:04:29,920 --> 00:04:28,360  
and you know got all kinds of feedback

104  
00:04:32,020 --> 00:04:29,930  
someone said there were too many

105  
00:04:33,670 --> 00:04:32,030  
commercials you know that you and I were

106  
00:04:35,260 --> 00:04:33,680  
lucky enough not to be able to watch it

107  
00:04:37,990 --> 00:04:35,270  
without commercials so I hate

108  
00:04:39,459 --> 00:04:38,000  
commercials yes I get that one and then

109  
00:04:41,469 --> 00:04:39,469  
you know people were talking oh it's

110  
00:04:43,570 --> 00:04:41,479  
just the same stuff rehashed but I think

111  
00:04:47,320 --> 00:04:43,580  
you know like you mentioned the female

112  
00:04:49,570 --> 00:04:47,330  
pilot that was really great and I you

113  
00:04:51,249 --> 00:04:49,580

know there's a lot to that story and you

114

00:04:54,249 --> 00:04:51,259

know it's it was I believe it was a

115

00:04:57,550 --> 00:04:54,259

really good one to start off with my son

116

00:04:59,140 --> 00:04:57,560

I agree killer yeah it was they had to

117

00:05:01,270 --> 00:04:59,150

you know it's the one that was out there

118

00:05:04,180 --> 00:05:01,280

and they did offer something new they

119

00:05:05,830 --> 00:05:04,190

did offer the perspective of this you

120

00:05:09,249 --> 00:05:05,840

know other pilot that we haven't heard

121

00:05:11,529 --> 00:05:09,259

from they also had a couple people come

122

00:05:14,559 --> 00:05:11,539

in and analyze the video and I thought

123

00:05:16,990 --> 00:05:14,569

that was really interesting and you and

124

00:05:19,990 --> 00:05:17,000

I both spoke with the producer Anthony

125

00:05:23,920 --> 00:05:20,000

laughs la Paix you know and he's great

126  
00:05:25,570 --> 00:05:23,930  
he you can tell he and he was right you

127  
00:05:27,909 --> 00:05:25,580  
know what he told us in our interviews

128  
00:05:29,230 --> 00:05:27,919  
came out to be true in the show that

129  
00:05:31,510 --> 00:05:29,240  
they were really just letting things

130  
00:05:33,909 --> 00:05:31,520  
flow like he said he didn't want anybody

131  
00:05:35,830 --> 00:05:33,919  
to do a double-take like if they screwed

132  
00:05:38,439 --> 00:05:35,840  
up he was like no that's done you know

133  
00:05:40,209 --> 00:05:38,449  
we're just recording what happens as it

134  
00:05:42,369 --> 00:05:40,219  
happens we're not we don't want to seem

135  
00:05:44,140 --> 00:05:42,379  
scripted or script anything at all and

136  
00:05:45,760 --> 00:05:44,150  
that came across in this show but it

137  
00:05:47,769 --> 00:05:45,770  
came across very credible of course I

138  
00:05:50,760 --> 00:05:47,779

feel you know we've heard from Lou and

139

00:05:53,320 --> 00:05:50,770

and Lou's a very good at articulating

140

00:05:54,100 --> 00:05:53,330

you know what he feels or what he's

141

00:05:56,110 --> 00:05:54,110

trying to do

142

00:05:57,939 --> 00:05:56,120

Chris Mellon of course it's been

143

00:06:00,369 --> 00:05:57,949

incredible and that's where the news

144

00:06:02,110 --> 00:06:00,379

comes in getting into the news is that

145

00:06:04,390 --> 00:06:02,120

we've got a lot of these people on

146

00:06:07,510 --> 00:06:04,400

television so we've got Chris Mellon on

147

00:06:09,249 --> 00:06:07,520

Fox News CNN Good Morning America we've

148

00:06:10,980 --> 00:06:09,259

got all of these these people

149

00:06:14,230 --> 00:06:10,990

essentially the main players or well Lou

150

00:06:14,800 --> 00:06:14,240

on all of those Tom DeLonge on a couple

151  
00:06:17,649 --> 00:06:14,810  
things

152  
00:06:20,589 --> 00:06:17,659  
Tom DeLonge did a newsweek opinion piece

153  
00:06:22,959 --> 00:06:20,599  
that was really good actually

154  
00:06:26,829 --> 00:06:22,969  
and I say actually because of course we

155  
00:06:29,499 --> 00:06:26,839  
all know Tom could get kind of often to

156  
00:06:31,480 --> 00:06:29,509  
some more odd topics more speculative

157  
00:06:34,719 --> 00:06:31,490  
topics in the rest of the group but he

158  
00:06:36,850 --> 00:06:34,729  
really stuck to the topics at hand

159  
00:06:39,730 --> 00:06:36,860  
that was really good and then the big

160  
00:06:40,119 --> 00:06:39,740  
news from the week was this New York

161  
00:06:43,029 --> 00:06:40,129  
time

162  
00:06:45,070 --> 00:06:43,039  
article which introduced some new pilots

163  
00:06:47,529 --> 00:06:45,080

that we're going to hear from in future

164

00:06:50,019 --> 00:06:47,539

episodes of unidentified and these are

165

00:06:52,540 --> 00:06:50,029

pilots who are with the Roosevelt who

166

00:06:56,469 --> 00:06:52,550

were involved with UFO incidents that

167

00:06:58,899 --> 00:06:56,479

happen in 2014 and 2015 and shockingly

168

00:07:00,459 --> 00:06:58,909

you know these guys said that they were

169

00:07:03,029 --> 00:07:00,469

having these experiences or at least

170

00:07:06,279 --> 00:07:03,039

catching these things on radar for

171

00:07:08,709 --> 00:07:06,289

almost daily that they didn't know what

172

00:07:10,689 --> 00:07:08,719

they were they assumed that perhaps

173

00:07:13,029 --> 00:07:10,699

somebody was testing some sort of new

174

00:07:15,009 --> 00:07:13,039

drone you know kind of a black project

175

00:07:17,739 --> 00:07:15,019

type of thing until they had their own

176  
00:07:20,799 --> 00:07:17,749  
encounter when two of the Jets had one

177  
00:07:22,869 --> 00:07:20,809  
of these things well in the story they

178  
00:07:25,239 --> 00:07:22,879  
make it sound like it would they almost

179  
00:07:27,279 --> 00:07:25,249  
had a near miss one of these things was

180  
00:07:30,459 --> 00:07:27,289  
in between them that was cube-shaped

181  
00:07:32,259 --> 00:07:30,469  
with kind of an orb around it and that's

182  
00:07:34,540 --> 00:07:32,269  
when they really caught their attention

183  
00:07:37,839 --> 00:07:34,550  
they're like wow this is dangerous this

184  
00:07:40,029 --> 00:07:37,849  
is not good if this is you know

185  
00:07:42,100 --> 00:07:40,039  
obviously it's something physical this

186  
00:07:43,749 --> 00:07:42,110  
could really put our lives in danger at

187  
00:07:46,659 --> 00:07:43,759  
this point so that's when they started

188  
00:07:48,730 --> 00:07:46,669

taking it very seriously what's really

189

00:07:51,100 --> 00:07:48,740

exciting and of course I'll plug it on

190

00:07:53,769 --> 00:07:51,110

my blog but a lot of people have posted

191

00:07:56,079 --> 00:07:53,779

this now is a history also released to

192

00:07:58,509 --> 00:07:56,089

some of us some clips you probably saw

193

00:08:01,389 --> 00:07:58,519

these clips from those Navy pilots and

194

00:08:04,089 --> 00:08:01,399

those were really cool so I've got those

195

00:08:05,679 --> 00:08:04,099

posted at alejandro t rojas comm where

196

00:08:08,350 --> 00:08:05,689

you could see them three separate clips

197

00:08:10,779 --> 00:08:08,360

about a minute or so each where it's the

198

00:08:13,719 --> 00:08:10,789

pilots talking about this incident but

199

00:08:17,139 --> 00:08:13,729

what was revealed in these clips is that

200

00:08:20,469 --> 00:08:17,149

these incidents are also the origins of

201  
00:08:22,749 --> 00:08:20,479  
the other two f-18 flare videos that

202  
00:08:25,149 --> 00:08:22,759  
we've been questioned questioning since

203  
00:08:27,669 --> 00:08:25,159  
the beginning the one called go fast and

204  
00:08:28,809 --> 00:08:27,679  
the one called gimbal we haven't known

205  
00:08:31,959 --> 00:08:28,819  
you know where did these things come

206  
00:08:35,529 --> 00:08:31,969  
from and now we know of course we have

207  
00:08:37,659 --> 00:08:35,539  
limited information thus far except to

208  
00:08:39,850 --> 00:08:37,669  
know that you know these pilots are

209  
00:08:42,939 --> 00:08:39,860  
aware of it have seen the video do you

210  
00:08:44,439 --> 00:08:42,949  
believe that it's something unusual so

211  
00:08:46,600 --> 00:08:44,449  
that's really exciting that we're gonna

212  
00:08:48,249 --> 00:08:46,610  
hear more from this you know the other

213  
00:08:50,199 --> 00:08:48,259

thing that we did get a little bit of

214

00:08:51,999 --> 00:08:50,209

information of and we're getting more is

215

00:08:53,560 --> 00:08:52,009

of course this Oregon event I did talk

216

00:08:55,720 --> 00:08:53,570

about on the last show with

217

00:08:57,940 --> 00:08:55,730

you the McMinnville event were david

218

00:09:00,430 --> 00:08:57,950

flavor only the other pilots the wing

219

00:09:02,230 --> 00:09:00,440

commander who was on the Nimitz and he

220

00:09:05,170 --> 00:09:02,240

talked about the gimbal video in

221

00:09:06,970 --> 00:09:05,180

particular because he was saying you

222

00:09:10,330 --> 00:09:06,980

know somebody had asked well actually

223

00:09:12,430 --> 00:09:10,340

this was my questioning I had asked

224

00:09:14,050 --> 00:09:12,440

about you know was this a missile or an

225

00:09:15,610 --> 00:09:14,060

aircraft because there's a lot of the

226

00:09:19,090 --> 00:09:15,620

skeptics and debunkers out there who

227

00:09:21,010 --> 00:09:19,100

have said that all this was was that you

228

00:09:23,770 --> 00:09:21,020

know a rotation even our good buddy mark

229

00:09:25,720 --> 00:09:23,780

the Antonio I believe believes this but

230

00:09:28,720 --> 00:09:25,730

framer talked about how he feels that's

231

00:09:30,700 --> 00:09:28,730

absolutely there's no way and he talks

232

00:09:32,680 --> 00:09:30,710

about the characteristics of an aircraft

233

00:09:34,720 --> 00:09:32,690

and aircraft and he makes a great point

234

00:09:36,760 --> 00:09:34,730

that you can't an aircraft can't fly

235

00:09:39,490 --> 00:09:36,770

like this yeah it looks like they are

236

00:09:41,650 --> 00:09:39,500

sometimes but in order to create lift on

237

00:09:44,020 --> 00:09:41,660

the wings they have to be creating you

238

00:09:45,370 --> 00:09:44,030

know a friction they've got a bank left

239

00:09:47,260 --> 00:09:45,380

or right if they're gonna go sideways

240

00:09:48,610 --> 00:09:47,270

like this yeah he said sometimes the

241

00:09:50,320 --> 00:09:48,620

Blue Angels can kind of do these

242

00:09:52,510 --> 00:09:50,330

maneuvers for a little while what they

243

00:09:54,610 --> 00:09:52,520

do these tricks but otherwise it's gonna

244

00:09:56,680 --> 00:09:54,620

fall out of the sky right so this was

245

00:09:58,510 --> 00:09:56,690

not an aircraft that went like this and

246

00:10:01,540 --> 00:09:58,520

what were the effects we're seeing are

247

00:10:06,670 --> 00:10:01,550

not uh you know effect from the actual

248

00:10:09,610 --> 00:10:06,680

lens of the of the FLIR camera so you

249

00:10:12,010 --> 00:10:09,620

know we now at least we're getting and I

250

00:10:13,420 --> 00:10:12,020

you know many of us assume this was a

251  
00:10:14,650 --> 00:10:13,430  
case that these guys aren't gonna come

252  
00:10:17,670 --> 00:10:14,660  
out and say that these videos are

253  
00:10:20,140 --> 00:10:17,680  
unusual for no reason I mean their

254  
00:10:21,670 --> 00:10:20,150  
credentials and their are on the line

255  
00:10:23,920 --> 00:10:21,680  
their credibility is on the line as well

256  
00:10:26,200 --> 00:10:23,930  
so when these pilots are coming out and

257  
00:10:27,910 --> 00:10:26,210  
saying no you know this is not something

258  
00:10:30,390 --> 00:10:27,920  
conventional and something I've dealt

259  
00:10:32,800 --> 00:10:30,400  
with before and is demonstrating some

260  
00:10:34,750 --> 00:10:32,810  
advanced technology there's no doubt

261  
00:10:37,270 --> 00:10:34,760  
that they put a lot of thought towards

262  
00:10:39,040 --> 00:10:37,280  
it to make those determinations and come

263  
00:10:42,400 --> 00:10:39,050

out and say those things that's right

264

00:10:44,080 --> 00:10:42,410

hey pardon me we are out of time because

265

00:10:46,600 --> 00:10:44,090

I only have only gonna have Leon for

266

00:10:47,680 --> 00:10:46,610

about ten minutes or so until ok so

267

00:10:49,690 --> 00:10:47,690

anyway thanks so much

268

00:10:52,270 --> 00:10:49,700

Alejandro and we'll be talking to you

269

00:10:55,990 --> 00:10:52,280

next week all right thanks man all right

270

00:10:59,560 --> 00:10:56,000

talk to you then all right so our next

271

00:11:00,970 --> 00:10:59,570

guests needs no introduction that means

272

00:11:04,290 --> 00:11:00,980

I'm not going to introduce them except

273

00:11:06,310 --> 00:11:04,300

for say hello Lee welcome to the show

274

00:11:07,780 --> 00:11:06,320

hello mark

275

00:11:11,080 --> 00:11:07,790

thanks for that glory

276  
00:11:14,440 --> 00:11:11,090  
introduction that was your background

277  
00:11:17,140 --> 00:11:14,450  
everything yeah well I called the mini

278  
00:11:19,000 --> 00:11:17,150  
bio no I appreciate that thank you know

279  
00:11:21,550 --> 00:11:19,010  
you've been on so many times there

280  
00:11:24,850 --> 00:11:21,560  
you've been on so many times but I I

281  
00:11:27,160 --> 00:11:24,860  
guess it would be just a we just so

282  
00:11:29,500 --> 00:11:27,170  
short on time because we only have ten

283  
00:11:31,750 --> 00:11:29,510  
minutes until we go into break but so

284  
00:11:33,910 --> 00:11:31,760  
Lee's been in the well you say it in a

285  
00:11:36,880 --> 00:11:33,920  
quick nutshell your background for the

286  
00:11:38,950 --> 00:11:36,890  
new listeners if you would well I've

287  
00:11:42,670 --> 00:11:38,960  
been investigating researching this

288  
00:11:45,310 --> 00:11:42,680

crazy phenomenon called UFOs for 46

289

00:11:47,470 --> 00:11:45,320

years now makes me an old-timer in the

290

00:11:50,620 --> 00:11:47,480

whole series

291

00:11:53,020 --> 00:11:50,630

I've among the things that I've helped

292

00:11:57,820 --> 00:11:53,030

to do to forward people's information

293

00:12:00,550 --> 00:11:57,830

about this was 1975 I produced for CBS a

294

00:12:04,240 --> 00:12:00,560

vinyl documentary record album called

295

00:12:06,790 --> 00:12:04,250

UFOs the credibility factor in which it

296

00:12:09,400 --> 00:12:06,800

was the first time that I the voices of

297

00:12:12,250 --> 00:12:09,410

people who have had encounters who had

298

00:12:14,560 --> 00:12:12,260

strong opinions about UFOs and these are

299

00:12:17,470 --> 00:12:14,570

these were people in science in the

300

00:12:20,770 --> 00:12:17,480

military in politics and and had them

301

00:12:22,840 --> 00:12:20,780

come together in one voice she basically

302

00:12:26,140 --> 00:12:22,850

asked the government please come clean

303

00:12:28,390 --> 00:12:26,150

about UFO information and from there I

304

00:12:31,120 --> 00:12:28,400

kind of leapfrogged a couple of years

305

00:12:35,860 --> 00:12:31,130

later into bringing UFOs to the United

306

00:12:39,160 --> 00:12:35,870

Nations in 1978 and and then kind of

307

00:12:41,800 --> 00:12:39,170

from there kept moving forward in this I

308

00:12:44,650 --> 00:12:41,810

guess mission of mine I spent eight

309

00:12:47,020 --> 00:12:44,660

years on NBC radio just doing

310

00:12:50,400 --> 00:12:47,030

unexplained phenomena features more than

311

00:12:54,130 --> 00:12:50,410

1500 programs about the topic well and

312

00:12:56,350 --> 00:12:54,140

and more recently seven years I spent as

313

00:12:57,130 --> 00:12:56,360

the chief UFO writer at The Huffington

314

00:13:01,060 --> 00:12:57,140

Post

315

00:13:03,400 --> 00:13:01,070

that's right and as you and many your

316

00:13:07,480 --> 00:13:03,410

listeners know now I'm still involved

317

00:13:10,060 --> 00:13:07,490

with film producer James Fox we're

318

00:13:13,920 --> 00:13:10,070

putting it together were in the last

319

00:13:16,240 --> 00:13:13,930

throes of an upcoming documentary and

320

00:13:18,250 --> 00:13:16,250

for those who don't know the name of it

321

00:13:20,230 --> 00:13:18,260

yet we started to spill the beans a

322

00:13:21,400 --> 00:13:20,240

little bit this is going to be called

323

00:13:25,719 --> 00:13:21,410

the phenomenon

324

00:13:29,079 --> 00:13:25,729

oh you'd finally named it this is an and

325

00:13:32,319 --> 00:13:29,089

up name number three isn't it but not

326

00:13:35,319 --> 00:13:32,329

gonna stack right yeah well yeah and

327

00:13:38,049 --> 00:13:35,329

what and one of the reasons why that

328

00:13:43,479 --> 00:13:38,059

we've actually chosen that that name has

329

00:13:46,869 --> 00:13:43,489

to go back to literally 1947 previously

330

00:13:49,389 --> 00:13:46,879

classified military documents it's now

331

00:13:50,549 --> 00:13:49,399

commonly referred to as the twining no

332

00:13:53,199 --> 00:13:50,559

mm OH mm hm

333

00:13:56,499 --> 00:13:53,209

you or flying saucer reports were

334

00:13:58,719 --> 00:13:56,509

flourishing in 47 Air Force lieutenant

335

00:14:01,989 --> 00:13:58,729

general Nathan twining he was the

336

00:14:03,729 --> 00:14:01,999

commander of the air Materiel Command he

337

00:14:07,779 --> 00:14:03,739

issued a very eye-opening

338

00:14:10,419 --> 00:14:07,789

but secret at the time memo to the Army

339

00:14:12,599 --> 00:14:10,429

Air Forces and the subject line of it

340

00:14:15,579 --> 00:14:12,609

was the air material command opinion

341

00:14:17,769 --> 00:14:15,589

concerning flying discs and among the

342

00:14:19,779 --> 00:14:17,779

things that this very serious memo

343

00:14:24,009 --> 00:14:19,789

stated was and this is a quote from it

344

00:14:26,199 --> 00:14:24,019

quote the phenomenon reported is

345

00:14:29,309 --> 00:14:26,209

something real and not visionary or

346

00:14:32,349 --> 00:14:29,319

fictitious fictitious there are objects

347

00:14:34,569 --> 00:14:32,359

approximating the shape of a disc such

348

00:14:37,059 --> 00:14:34,579

size as to appear to be as large as

349

00:14:39,549 --> 00:14:37,069

man-made aircraft unquote

350

00:14:42,909 --> 00:14:39,559

so this memo went on to describe the

351  
00:14:45,669 --> 00:14:42,919  
incredible maneuverability demonstrate

352  
00:14:47,969 --> 00:14:45,679  
demonstrated by these objects 72 years

353  
00:14:51,069 --> 00:14:47,979  
ago and these things are still out

354  
00:14:53,769 --> 00:14:51,079  
maneuvering current global aircraft

355  
00:14:57,090 --> 00:14:53,779  
technology and so that that twining memo

356  
00:14:59,889 --> 00:14:57,100  
eventually brought about a multi

357  
00:15:01,539 --> 00:14:59,899  
military investigation known as Project

358  
00:15:03,969 --> 00:15:01,549  
Blue Book but it was the beginning of

359  
00:15:07,449 --> 00:15:03,979  
the quote we referred to it as the

360  
00:15:09,340 --> 00:15:07,459  
phenomenon both James Fox my credit

361  
00:15:11,199 --> 00:15:09,350  
James with saying let's call the

362  
00:15:13,509 --> 00:15:11,209  
phenomena that the documentary because

363  
00:15:16,869 --> 00:15:13,519

in so many places historically in

364

00:15:19,509 --> 00:15:16,879

documents it's always referred to as the

365

00:15:21,549 --> 00:15:19,519

phenomena and that just kind of stuck

366

00:15:25,779 --> 00:15:21,559

with us I mean wait yes there's our

367

00:15:26,679 --> 00:15:25,789

title oh wow simple and good yeah

368

00:15:29,109 --> 00:15:26,689

exactly

369

00:15:31,749 --> 00:15:29,119

yeah that's great it started out for the

370

00:15:33,519 --> 00:15:31,759

listener that because I still get email

371

00:15:34,569 --> 00:15:33,529

I think I got one two weeks ago someone

372

00:15:38,019 --> 00:15:34,579

saying when

373

00:15:40,869 --> 00:15:38,029

7:01 coming out and that was that was

374

00:15:44,129 --> 00:15:40,879

the first working title so this is what

375

00:15:46,900 --> 00:15:44,139

this is morphed into it this time and

376

00:15:48,970 --> 00:15:46,910

it's going to be a smash when it

377

00:15:51,129 --> 00:15:48,980

actually comes out I know it is with the

378

00:15:52,329 --> 00:15:51,139

work that you've described to me in the

379

00:15:54,549 --> 00:15:52,339

budget and everything it's going to be a

380

00:15:56,530 --> 00:15:54,559

major movie and I can't wait for it and

381

00:15:58,689 --> 00:15:56,540

so while we're looking you know we're

382

00:16:01,090 --> 00:15:58,699

looking forward to doing it and to

383

00:16:02,619 --> 00:16:01,100

talking about it I'm looking forward to

384

00:16:06,189 --> 00:16:02,629

more to talking about on your show and

385

00:16:10,299 --> 00:16:06,199

I'm also happy that you and I will soon

386

00:16:12,789 --> 00:16:10,309

be Co radio colleagues kgr a digital

387

00:16:15,639 --> 00:16:12,799

broadcasting when I begin my own program

388

00:16:18,039 --> 00:16:15,649

called edge of reality radio and that's

389

00:16:20,410 --> 00:16:18,049

coming up pretty soon what I would think

390

00:16:23,559 --> 00:16:20,420

within a few 2 to 3 weeks or something

391

00:16:25,359 --> 00:16:23,569

like that and you're rolling in Linda

392

00:16:27,970 --> 00:16:25,369

Moulton Howes time slot on Thursday

393

00:16:30,069 --> 00:16:27,980

which is is that 8 to 10 p.m. Eastern

394

00:16:32,169 --> 00:16:30,079

Standard Time Eastern Time that's what

395

00:16:34,410 --> 00:16:32,179

I'm that's what we're talking about

396

00:16:37,150 --> 00:16:34,420

although we're really left to do now is

397

00:16:41,549 --> 00:16:37,160

figuring out the technical logistics of

398

00:16:44,139 --> 00:16:41,559

my broadcasting Michelle from New York

399

00:16:47,919 --> 00:16:44,149

you know back to the kgr a main

400

00:16:50,019 --> 00:16:47,929

broadcast studio in in Utah so that it

401  
00:16:52,470 --> 00:16:50,029  
can have a real nice clean signal all

402  
00:16:56,530 --> 00:16:52,480  
across America and then later across

403  
00:16:58,059 --> 00:16:56,540  
across all international borders so I'm

404  
00:17:00,159 --> 00:16:58,069  
looking forward to this and I want to

405  
00:17:02,949 --> 00:17:00,169  
get this thing rolling as soon as

406  
00:17:06,370 --> 00:17:02,959  
possible in fact I've already outlined

407  
00:17:08,919 --> 00:17:06,380  
the guest list for approximately the

408  
00:17:10,059 --> 00:17:08,929  
first five months of my show I can't

409  
00:17:14,350 --> 00:17:10,069  
believe that you told me that the other

410  
00:17:15,639 --> 00:17:14,360  
day five months and well well I'm

411  
00:17:18,039 --> 00:17:15,649  
serious about doing this

412  
00:17:20,679 --> 00:17:18,049  
I guess who are you know I'm I'm lucky

413  
00:17:23,340 --> 00:17:20,689

if I have a month I had it's it's not

414

00:17:25,750 --> 00:17:23,350

always that an easy thing to do

415

00:17:27,899 --> 00:17:25,760

especially if someone changes at the

416

00:17:30,460 --> 00:17:27,909

last minute you can't get a fill-in and

417

00:17:32,139 --> 00:17:30,470

and thank you last week I announced I

418

00:17:37,799 --> 00:17:32,149

didn't have any guests and you know you

419

00:17:40,480 --> 00:17:37,809

were gracious enough to come on and also

420

00:17:41,980 --> 00:17:40,490

let's talk about I can't believe who

421

00:17:44,440 --> 00:17:41,990

your first guest is let's talk about a

422

00:17:47,350 --> 00:17:44,450

couple of that that and I guess you have

423

00:17:48,580 --> 00:17:47,360

coming up well my first guess

424

00:17:50,289 --> 00:17:48,590

hopefully it

425

00:17:52,110 --> 00:17:50,299

if he still wants to do it and in the

426

00:17:56,590 --> 00:17:52,120

mood he has it's been a while since

427

00:17:58,869 --> 00:17:56,600

since I asked him is a man named Jacques

428

00:18:00,730 --> 00:17:58,879

Ballet perhaps you and some of your

429

00:18:04,749 --> 00:18:00,740

audience of all the audience afraid of

430

00:18:08,080 --> 00:18:04,759

Jacques never heard no that's great no

431

00:18:09,789 --> 00:18:08,090

Jacque is not not just simply a

432

00:18:14,489 --> 00:18:09,799

scientist an astronomer or

433

00:18:18,399 --> 00:18:14,499

astrophysicist he he is like a legend

434

00:18:20,590 --> 00:18:18,409

and not just in UFOs but but in many

435

00:18:22,560 --> 00:18:20,600

areas of science he's done so many

436

00:18:26,499 --> 00:18:22,570

things he was the first scientist

437

00:18:31,470 --> 00:18:26,509

decades ago who mapped did a computer

438

00:18:38,710 --> 00:18:36,190

Wow yeah he's a he's a multi-faceted guy

439

00:18:40,570 --> 00:18:38,720

very interesting and who who some of

440

00:18:43,090 --> 00:18:40,580

your other guests I know you were gonna

441

00:18:44,919 --> 00:18:43,100

have Stan Freeman until we lost him he

442

00:18:48,730 --> 00:18:44,929

was really looking forward to comes

443

00:18:53,499 --> 00:18:48,740

right yeah yeah and and and and and yes

444

00:18:55,659 --> 00:18:53,509

so Stan very sadly he's with us but he's

445

00:18:59,049 --> 00:18:55,669

still with us yeah in so many areas and

446

00:19:02,680 --> 00:18:59,059

so many levels going to be talking with

447

00:19:04,779 --> 00:19:02,690

with as many people in in the UFO field

448

00:19:06,940 --> 00:19:04,789

as I can I'm looking for military folks

449

00:19:10,350 --> 00:19:06,950

I'm going to be talking with pilots that

450

00:19:15,269 --> 00:19:10,360

haven't done a lot of radio interviews

451  
00:19:18,009 --> 00:19:15,279  
more politicians more international

452  
00:19:21,840 --> 00:19:18,019  
figures of people that we haven't heard

453  
00:19:24,279 --> 00:19:21,850  
from and and also especially more

454  
00:19:27,460 --> 00:19:24,289  
scientists because now we're at a point

455  
00:19:29,560 --> 00:19:27,470  
in time historically where scientists

456  
00:19:31,389 --> 00:19:29,570  
aren't just saying oh there's nothing to

457  
00:19:34,509 --> 00:19:31,399  
this this whole thing and your UFOs are

458  
00:19:36,249 --> 00:19:34,519  
just strange lights or strange inverted

459  
00:19:40,060 --> 00:19:36,259  
weather patterns and things like that no

460  
00:19:44,289 --> 00:19:40,070  
it's gone beyond that now mostly thanks

461  
00:19:45,340 --> 00:19:44,299  
to the New York Times in 2017 and all

462  
00:19:47,580 --> 00:19:45,350  
the stuff that came out with the

463  
00:19:51,269 --> 00:19:47,590

Pentagon revelations of their top secret

464

00:19:54,129 --> 00:19:51,279

UFO studies and and now more recently

465

00:19:57,369 --> 00:19:54,139

the whole revelation that the the Navy

466

00:19:58,900 --> 00:19:57,379

is now creating new guidelines for their

467

00:20:01,870 --> 00:19:58,910

for their pilots

468

00:20:04,630 --> 00:20:01,880

and and Navy personnel who have had very

469

00:20:06,940 --> 00:20:04,640

close encounters and this is not just

470

00:20:09,040 --> 00:20:06,950

something that is just recent they are

471

00:20:12,220 --> 00:20:09,050

now admitting these things have been

472

00:20:15,010 --> 00:20:12,230

going on for a very long time and I've

473

00:20:17,410 --> 00:20:15,020

been trying to stress that every time I

474

00:20:19,300 --> 00:20:17,420

do some kind of an interview who is that

475

00:20:20,440 --> 00:20:19,310

this is not a new thing it's not an

476

00:20:24,100 --> 00:20:20,450

American thing

477

00:20:26,710 --> 00:20:24,110

it's an international phenomenon that

478

00:20:30,580 --> 00:20:26,720

we're dealing with and part of me is

479

00:20:33,250 --> 00:20:30,590

kind of curious I still wonder why the

480

00:20:37,510 --> 00:20:33,260

Pentagon or the Navy would suddenly come

481

00:20:40,210 --> 00:20:37,520

out and say yeah our pilots our military

482

00:20:42,460 --> 00:20:40,220

forces have had strange encounters with

483

00:20:44,740 --> 00:20:42,470

strange things that we don't understand

484

00:20:47,440 --> 00:20:44,750

why would they suddenly say that now in

485

00:20:51,010 --> 00:20:47,450

history I don't fully understand that

486

00:20:53,410 --> 00:20:51,020

what what purpose will that serve any of

487

00:20:55,690 --> 00:20:53,420

us to have this kind of information come

488

00:20:57,850 --> 00:20:55,700

out now like on a more official level

489

00:21:01,330 --> 00:20:57,860

which which is what this is talking

490

00:21:03,310 --> 00:21:01,340

about it is what it feels like you know

491

00:21:06,340 --> 00:21:03,320

the there's a definition I think there's

492

00:21:10,660 --> 00:21:06,350

a definite feeling in the air I know I'm

493

00:21:13,060 --> 00:21:10,670

you know yeah yeah yeah whoever's in

494

00:21:17,380 --> 00:21:13,070

charge of what the public is told about

495

00:21:19,960 --> 00:21:17,390

UFOs over many decades now Arden maybe

496

00:21:22,360 --> 00:21:19,970

they're loosening up a little but for

497

00:21:24,820 --> 00:21:22,370

what reason what what purpose will it

498

00:21:27,700 --> 00:21:24,830

serve to admit to the citizens of our

499

00:21:29,590 --> 00:21:27,710

planet unexplained aircraft of unknown

500

00:21:34,120 --> 00:21:29,600

origin have been operating in our skies

501  
00:21:36,550 --> 00:21:34,130  
for a very long time so on a new edge of

502  
00:21:39,460 --> 00:21:36,560  
reality radio I want to explore this a

503  
00:21:39,880 --> 00:21:39,470  
lot and see where it takes us that is

504  
00:21:41,590 --> 00:21:39,890  
awesome

505  
00:21:44,590 --> 00:21:41,600  
well I'm really looking forward to it

506  
00:21:49,030 --> 00:21:44,600  
I'm definitely going to be tuning in and

507  
00:21:50,560 --> 00:21:49,040  
and so when that becomes available I'll

508  
00:21:52,360 --> 00:21:50,570  
make an announcement on this show and

509  
00:21:54,430 --> 00:21:52,370  
make sure that everyone knows when to

510  
00:21:54,910 --> 00:21:54,440  
tune in oh and thank you I appreciate

511  
00:21:57,760 --> 00:21:54,920  
that

512  
00:21:59,650 --> 00:21:57,770  
yeah and I I love what you're doing I'm

513  
00:22:01,180 --> 00:21:59,660

glad that finally you and I are gonna be

514

00:22:04,110 --> 00:22:01,190

able to do the same thing now together

515

00:22:06,160 --> 00:22:04,120

at the same place that's right a

516

00:22:06,520 --> 00:22:06,170

competition right isn't that what they

517

00:22:12,110 --> 00:22:06,530

call it

518

00:22:14,900 --> 00:22:12,120

I know

519

00:22:16,910 --> 00:22:14,910

just easy you know but the people in kg

520

00:22:18,770 --> 00:22:16,920

are a I don't think anybody is in

521

00:22:20,900 --> 00:22:18,780

competition with each other we just all

522

00:22:23,930 --> 00:22:20,910

kind of want to get this information out

523

00:22:27,260 --> 00:22:23,940

in the best possible credible efficient

524

00:22:30,550 --> 00:22:27,270

way yeah and you you had 1500 shows

525

00:22:33,290 --> 00:22:30,560

years ago and some of me and amazing

526

00:22:35,210 --> 00:22:33,300

people you spoke to back then and I'm

527

00:22:38,150 --> 00:22:35,220

really really I'm truly looking forward

528

00:22:41,900 --> 00:22:38,160

to it and I'm really excited about your

529

00:22:44,450 --> 00:22:41,910

show coming up and so yeah we're we're

530

00:22:46,730 --> 00:22:44,460

gonna head into break and I'm going to

531

00:22:49,600 --> 00:22:46,740

be breaking on YouTube before I do this

532

00:22:52,790 --> 00:22:49,610

is a special note to YouTube listeners I

533

00:22:56,510 --> 00:22:52,800

was hoping to make an announcement

534

00:23:00,380 --> 00:22:56,520

for this coming Friday around noon time

535

00:23:01,820 --> 00:23:00,390

and I did not get the 100% confirmation

536

00:23:04,880 --> 00:23:01,830

email that I was waiting for it's gonna

537

00:23:07,100 --> 00:23:04,890

be a special show a livestream you're

538

00:23:08,360 --> 00:23:07,110

going to want to see it so keep an eye

539

00:23:12,560 --> 00:23:08,370

on my channel if you're watching in

540

00:23:14,180 --> 00:23:12,570

YouTube please click Subscribe and click

541

00:23:15,050 --> 00:23:14,190

the little bell next to the subscribe

542

00:23:17,360 --> 00:23:15,060

button that way you'll get a

543

00:23:20,510 --> 00:23:17,370

notification of what I have coming up

544

00:23:22,970 --> 00:23:20,520

but it's about 95 percent sure that I'm

545

00:23:26,480 --> 00:23:22,980

gonna have a really really good show

546

00:23:28,940 --> 00:23:26,490

coming up this Friday afternoon I think

547

00:23:32,090 --> 00:23:28,950

it is 12:10 p.m. Eastern Time

548

00:23:34,640 --> 00:23:32,100

and also if you want to get a

549

00:23:36,980 --> 00:23:34,650

notification by email just run over to

550

00:23:39,590 --> 00:23:36,990

podcast UFO comm on the sidebar there is

551  
00:23:42,440 --> 00:23:39,600  
a little email notification thing fill

552  
00:23:44,570 --> 00:23:42,450  
out leave thanks so much and my pleasure

553  
00:23:46,870 --> 00:23:44,580  
Martin thank you all right take care and

554  
00:23:49,550 --> 00:23:46,880  
we'll Will's we'll talk real soon

555  
00:23:51,140 --> 00:23:49,560  
looking forward to it alright everyone

556  
00:23:53,570 --> 00:23:51,150  
hang in there I'll be right back with

557  
00:23:54,140 --> 00:23:53,580  
rich Hoffman alright welcome back to the

558  
00:23:56,570 --> 00:23:54,150  
show

559  
00:23:58,910 --> 00:23:56,580  
sorry for the extended break we had a

560  
00:24:01,520 --> 00:23:58,920  
little bit of Technology issues I would

561  
00:24:04,340 --> 00:24:01,530  
say and speaking of that our guests rich

562  
00:24:07,460 --> 00:24:04,350  
Hoffman he's a and information

563  
00:24:09,170 --> 00:24:07,470

technology consultant and strategist he

564

00:24:11,870 --> 00:24:09,180

has been with a while he spent at

565

00:24:15,170 --> 00:24:11,880

defense contractor for over 20 years

566

00:24:17,660 --> 00:24:15,180

primarily for the Army Materiel Command

567

00:24:20,300 --> 00:24:17,670

HQ with a variety of other companies

568

00:24:22,460 --> 00:24:20,310

he's got quite a background he started

569

00:24:25,880 --> 00:24:22,470

when he was extremely young was on the

570

00:24:29,180 --> 00:24:25,890

Phil Donahue show at only 15 years old

571

00:24:31,450 --> 00:24:29,190

and I think they called well welcome to

572

00:24:34,039 --> 00:24:31,460

the show I'm rich good to have you back

573

00:24:36,140 --> 00:24:34,049

it's good to be back with you Martin I

574

00:24:38,270 --> 00:24:36,150

enjoy your show by the way

575

00:24:40,250 --> 00:24:38,280

oh well things you do when someone like

576

00:24:41,390 --> 00:24:40,260

you says that I really it means a lot to

577

00:24:45,020 --> 00:24:41,400

me thank you

578

00:24:47,200 --> 00:24:45,030

so I think didn't they call you a UFO

579

00:24:50,270 --> 00:24:47,210

expert I always loved that one don't you

580

00:24:53,330 --> 00:24:50,280

yeah I got it yeah the funny thing about

581

00:24:59,090 --> 00:24:53,340

it was I used you know I had a license

582

00:25:02,150 --> 00:24:59,100

plate and it was UFO X PRT and it and I

583

00:25:04,460 --> 00:25:02,160

and it fit for the back end of my bumper

584

00:25:06,200 --> 00:25:04,470

in the car and the funny part about it

585

00:25:08,030 --> 00:25:06,210

was it you know it caused a lot of

586

00:25:09,620 --> 00:25:08,040

conversations because I'd be at a gas

587

00:25:11,990 --> 00:25:09,630

station and somebody would see it they

588

00:25:13,610 --> 00:25:12,000

say oh wow are you what is that

589

00:25:16,460 --> 00:25:13,620

or then you get the people that say it's

590

00:25:18,620 --> 00:25:16,470

you Fox Berg and I'm going well okay you

591

00:25:21,200 --> 00:25:18,630

know let me explain that one but it

592

00:25:23,539 --> 00:25:21,210

starts as a conversation starter so I

593

00:25:24,950 --> 00:25:23,549

just used that for my even for my email

594

00:25:27,500 --> 00:25:24,960

and stuff I said the hell of it I'll

595

00:25:30,350 --> 00:25:27,510

just use it yeah yeah yeah it's fine

596

00:25:33,590 --> 00:25:30,360

it's flat yeah but you've bet you have

597

00:25:36,110 --> 00:25:33,600

you have a great background and you've

598

00:25:39,200 --> 00:25:36,120

taken the subject seriously as you you

599

00:25:42,620 --> 00:25:39,210

know gone through time and so you've

600

00:25:44,600 --> 00:25:42,630

been you were actually had cases that

601  
00:25:49,100 --> 00:25:44,610  
you were researching at a very young age

602  
00:25:51,500 --> 00:25:49,110  
right oh yeah I mean so let me give you

603  
00:25:54,409 --> 00:25:51,510  
a little bit of an H I guess sort of

604  
00:25:57,950 --> 00:25:54,419  
when I was 13 years old and I was living

605  
00:26:00,530 --> 00:25:57,960  
in Dayton Ohio and so I would it's right

606  
00:26:02,150 --> 00:26:00,540  
about that time that I found out that

607  
00:26:04,510 --> 00:26:02,160  
there was a project to stop the street

608  
00:26:07,490 --> 00:26:04,520  
at wright-patterson and you know and so

609  
00:26:09,560 --> 00:26:07,500  
my first book that I picked up was the

610  
00:26:11,419 --> 00:26:09,570  
captain and were repelled talking about

611  
00:26:14,030 --> 00:26:11,429  
the the project Bluebook and I'm going

612  
00:26:17,750 --> 00:26:14,040  
like man this is just up the road for me

613  
00:26:20,870 --> 00:26:17,760

and at that age you know it's quite it's

614

00:26:23,360 --> 00:26:20,880

a quite an impression and it just

615

00:26:25,850 --> 00:26:23,370

propelled me big time into it nice so I

616

00:26:27,890 --> 00:26:25,860

started doing a you know at that time I

617

00:26:30,740 --> 00:26:27,900

was doing a lot of like clippings and

618

00:26:33,020 --> 00:26:30,750

and just getting every book that I could

619

00:26:36,830 --> 00:26:33,030

possibly get every magazine that I could

620

00:26:39,140 --> 00:26:36,840

get we was reading voraciously

621

00:26:40,700 --> 00:26:39,150

and the next thing I know it was like

622

00:26:42,200 --> 00:26:40,710

somebody asked me up to give a

623

00:26:45,289 --> 00:26:42,210

presentation that's some sort of an

624

00:26:47,570 --> 00:26:45,299

astronomy club in Dayton and I went up

625

00:26:49,490 --> 00:26:47,580

there and did that and then somebody

626

00:26:51,140 --> 00:26:49,500

else heard that I did that and then the

627

00:26:53,630 --> 00:26:51,150

next thing I know I was like I was

628

00:26:56,990 --> 00:26:53,640

getting calls from like sarcomas clubs

629

00:26:58,820 --> 00:26:57,000

and optimist clubs and everything else

630

00:27:01,630 --> 00:26:58,830

want me to come and then next thing I

631

00:27:06,230 --> 00:27:01,640

know Church just wanted me to come so

632

00:27:09,110 --> 00:27:06,240

and then eventually got word over to the

633

00:27:11,000 --> 00:27:09,120

Phil Donahue and this is before women up

634

00:27:12,680 --> 00:27:11,010

to Chicago and really became famous so

635

00:27:17,060 --> 00:27:12,690

it was when he was just starting and

636

00:27:19,460 --> 00:27:17,070

dating and uh and so I always like I

637

00:27:20,539 --> 00:27:19,470

guess in a really experiment but they

638

00:27:22,880 --> 00:27:20,549

had heard that I was going around

639

00:27:25,070 --> 00:27:22,890

talking all this stuff about UFOs and so

640

00:27:27,139 --> 00:27:25,080

let's just do it and then the next thing

641

00:27:29,090 --> 00:27:27,149

you know is that that propelled me even

642

00:27:31,070 --> 00:27:29,100

further is - now I'm starting to get

643

00:27:33,080 --> 00:27:31,080

phone calls from like people like left

644

00:27:36,710 --> 00:27:33,090

or right saying hey can you come and

645

00:27:41,000 --> 00:27:36,720

check this out I was an investigator at

646

00:27:43,720 --> 00:27:41,010

that time but eventually moved into hey

647

00:27:47,090 --> 00:27:43,730

I got to be able to do that and then in

648

00:27:49,700 --> 00:27:47,100

1965 there were us a slurry of activity

649

00:27:54,680 --> 00:27:49,710

and I was going crazy trying to keep up

650

00:27:56,870 --> 00:27:54,690

with some of that work on cases and it

651

00:27:58,880 --> 00:27:56,880

just kept building and building it over

652

00:28:00,799 --> 00:27:58,890

time to the point where if you probably

653

00:28:03,110 --> 00:28:00,809

look at my caseload it's it's well over

654

00:28:05,090 --> 00:28:03,120

a thousand cases the first hand like you

655

00:28:10,990 --> 00:28:05,100

know field investigated their work and

656

00:28:15,049 --> 00:28:11,000

it's climbing

657

00:28:16,519 --> 00:28:15,059

research and you know and that's what it

658

00:28:19,310 --> 00:28:16,529

was about so I was on the front lines

659

00:28:22,250 --> 00:28:19,320

for those and then eventually I you know

660

00:28:24,529 --> 00:28:22,260

let into me getting into MUFON if when

661

00:28:28,700 --> 00:28:24,539

it was the Midwest UFO network and that

662

00:28:31,549 --> 00:28:28,710

was before you know Blue Book was going

663

00:28:35,389 --> 00:28:31,559

on at the road and occasionally I would

664

00:28:37,820 --> 00:28:35,399

bump into a Blue Book officer who was

665

00:28:40,519 --> 00:28:37,830

doing like the same case or something of

666

00:28:42,740 --> 00:28:40,529

that nature and so we would compare

667

00:28:44,330 --> 00:28:42,750

notes write talk with them and then we'd

668

00:28:47,090 --> 00:28:44,340

shared information the next thing I know

669

00:28:49,760 --> 00:28:47,100

is it may be a phone number to call

670

00:28:50,180 --> 00:28:49,770

rapcon for radar approach control and I

671

00:28:53,390 --> 00:28:50,190

could

672

00:28:55,190 --> 00:28:53,400

get up and get information about that I

673

00:28:57,140 --> 00:28:55,200

was connecting with Len Springfield in

674

00:29:00,650 --> 00:28:57,150

Cincinnati and him and I were talking a

675

00:29:02,420 --> 00:29:00,660

lot and then I would bump in

676

00:29:04,190 --> 00:29:02,430

occasionally to Hynek who would be

677

00:29:07,070 --> 00:29:04,200

around at the Dayton engineers Club

678

00:29:10,550 --> 00:29:07,080

giving presentations and I would go and

679

00:29:12,820 --> 00:29:10,560

listen to him present and you know I

680

00:29:15,890 --> 00:29:12,830

again I would bump into like you know

681

00:29:19,310 --> 00:29:15,900

Stanton and I would bump into just all

682

00:29:21,830 --> 00:29:19,320

these big-name people and uh you know in

683

00:29:26,060 --> 00:29:21,840

the ufology world and and it was a very

684

00:29:29,210 --> 00:29:26,070

exciting time anyway I just have haha a

685

00:29:33,200 --> 00:29:29,220

very long history with bumping into this

686

00:29:35,870 --> 00:29:33,210

stuff so it's been a joy for me yes

687

00:29:37,640 --> 00:29:35,880

and I'm glad you're you you're at it

688

00:29:40,010 --> 00:29:37,650

because you take it seriously you do a

689

00:29:42,950 --> 00:29:40,020

nice a really nice job and a lot has

690

00:29:46,550 --> 00:29:42,960

happened since uh you and I were talking

691

00:29:50,690 --> 00:29:46,560

last I mean oh wow there's a lot to talk

692

00:29:54,320 --> 00:29:50,700

about and you're part of the scientific

693

00:29:57,440 --> 00:29:54,330

coalition what is the the full title of

694

00:29:59,600 --> 00:29:57,450

that well we've just changed it was the

695

00:30:02,000 --> 00:29:59,610

scientific Coalition for ufology and

696

00:30:05,600 --> 00:30:02,010

then we've now changed it to his

697

00:30:06,920 --> 00:30:05,610

scientific Coalition for UAP studies we

698

00:30:09,920 --> 00:30:06,930

learned to emphasize that we are

699

00:30:12,380 --> 00:30:09,930

studying this stuff yeah and that that

700

00:30:14,150 --> 00:30:12,390

was important and then the other thing

701  
00:30:17,570 --> 00:30:14,160  
that we learned from we had a conference

702  
00:30:21,710 --> 00:30:17,580  
here in Huntsville where I live back in

703  
00:30:23,390 --> 00:30:21,720  
mid-march and uh at that conference we

704  
00:30:25,370 --> 00:30:23,400  
had a lot of people that were saying you

705  
00:30:30,590 --> 00:30:25,380  
know we're trying to get scientists

706  
00:30:34,150 --> 00:30:30,600  
engaged from the military side we have

707  
00:30:37,670 --> 00:30:34,160  
none you know the UFO term has so much

708  
00:30:40,700 --> 00:30:37,680  
that it's got a stigma even to

709  
00:30:42,710 --> 00:30:40,710  
professors in universities and various

710  
00:30:45,530 --> 00:30:42,720  
other things who want to do more where

711  
00:30:48,050 --> 00:30:45,540  
you mentioned the UFO and it's not it

712  
00:30:52,330 --> 00:30:48,060  
leads into you know all that's at wacky

713  
00:30:54,560 --> 00:30:52,340

stuff right so much like you know

714

00:30:56,720 --> 00:30:54,570

Europeans have done it where they've

715

00:31:00,500 --> 00:30:56,730

switched over to you AP we decided to go

716

00:31:04,360 --> 00:31:00,510

with unidentified aerospace phenomena

717

00:31:08,389 --> 00:31:04,370

because aerospace is also

718

00:31:12,710 --> 00:31:08,399

coppering the water as well as the air

719

00:31:15,740 --> 00:31:12,720

and space so it's got all three of those

720

00:31:18,889 --> 00:31:15,750

mediums that we can use that one term

721

00:31:21,470 --> 00:31:18,899

purpose to oppose us owes and in

722

00:31:23,419 --> 00:31:21,480

something else you know and so that's

723

00:31:25,820 --> 00:31:23,429

pretty we decided to go with that and

724

00:31:28,159 --> 00:31:25,830

scientists that we had and the

725

00:31:29,810 --> 00:31:28,169

professor's we had and the doctors all

726

00:31:30,519 --> 00:31:29,820

agreed that that would be the better way

727

00:31:34,580 --> 00:31:30,529

to go

728

00:31:39,039 --> 00:31:34,590

interesting Wow yeah yeah I think I

729

00:31:43,879 --> 00:31:42,200

you know you know you do such a great

730

00:31:46,730 --> 00:31:43,889

job with it that it doesn't really

731

00:31:48,769 --> 00:31:46,740

matter so I mean I but but I'm just

732

00:31:53,200 --> 00:31:48,779

telling you that that there is a stigma

733

00:31:56,509 --> 00:31:53,210

out there that has been in conversations

734

00:31:59,450 --> 00:31:56,519

a little bit on the quiet side from a

735

00:32:02,119 --> 00:31:59,460

lot of people in in those scientific

736

00:32:04,659 --> 00:32:02,129

worlds and and so we're trying to bring

737

00:32:07,220 --> 00:32:04,669

them and make them feel comfortable and

738

00:32:10,430 --> 00:32:07,230

it's easier for them to get this

739

00:32:12,860 --> 00:32:10,440

aerospace phenomena thing than it is UFO

740

00:32:16,490 --> 00:32:12,870

and come to a conference and maybe get

741

00:32:20,240 --> 00:32:16,500

approved by their universities so there

742

00:32:21,999 --> 00:32:20,250

you go now in the case of and the

743

00:32:24,100 --> 00:32:22,009

conference we were just speaking about

744

00:32:27,619 --> 00:32:24,110

where you had it in Huntsville there

745

00:32:29,810 --> 00:32:27,629

yeah I understand them fortunately I

746

00:32:31,460 --> 00:32:29,820

didn't go but some friends when Randy

747

00:32:35,139 --> 00:32:31,470

Nickerson was there Alejandro was there

748

00:32:38,450 --> 00:32:35,149

yeah and and so from what I understand

749

00:32:40,129 --> 00:32:38,460

the most fascinating part that I got out

750

00:32:43,999 --> 00:32:40,139

of the bits and pieces of what I heard

751

00:32:47,450 --> 00:32:44,009

about that was that the in particular

752

00:32:49,159 --> 00:32:47,460

the tick-tack UFO people are saying it's

753

00:32:52,129 --> 00:32:49,169

being beaten to death at you know we're

754

00:32:53,659 --> 00:32:52,139

talking about it too much but in that in

755

00:32:55,310 --> 00:32:53,669

particular I understand there was

756

00:32:58,879 --> 00:32:55,320

someone that did some study on the

757

00:33:01,369 --> 00:32:58,889

g-forces of what they were actually

758

00:33:05,749 --> 00:33:01,379

visually seeing and seeing on radar and

759

00:33:08,690 --> 00:33:05,759

how impossible they would be for a craft

760

00:33:11,680 --> 00:33:08,700

that we know of to stay together and and

761

00:33:14,990 --> 00:33:11,690

certainly not any any beings inside

762

00:33:17,410 --> 00:33:15,000

being able to take those g-forces do you

763

00:33:23,830 --> 00:33:17,420

have any little tidbits on that and

764

00:33:27,220 --> 00:33:23,840

that you remember yeah so let me clarify

765

00:33:31,630 --> 00:33:27,230

the the Robert Powell got started back

766

00:33:34,360 --> 00:33:31,640

when the Paco cherry or cherry Chi I

767

00:33:36,940 --> 00:33:34,370

think that's how you say his name did a

768

00:33:41,350 --> 00:33:36,950

fighter sweet article on the the whole

769

00:33:43,090 --> 00:33:41,360

tic-tac encounter and so Robert got

770

00:33:44,920 --> 00:33:43,100

started with it at that time and began

771

00:33:46,840 --> 00:33:44,930

collecting evidence and getting a hold

772

00:33:50,680 --> 00:33:46,850

of things and trying to document this

773

00:33:54,790 --> 00:33:50,690

and so eventually then over period time

774

00:33:58,060 --> 00:33:54,800

we formed a team of us to begin to take

775

00:33:59,910 --> 00:33:58,070

a look at it and to put together a you

776

00:34:01,990 --> 00:33:59,920

know and see what we could find out and

777

00:34:05,560 --> 00:34:02,000

obviously we didn't have things like

778

00:34:08,770 --> 00:34:05,570

radar actual radar data and we didn't

779

00:34:12,010 --> 00:34:08,780

all we had was the testimony that was

780

00:34:15,310 --> 00:34:12,020

coming in and so we began talking and

781

00:34:20,560 --> 00:34:15,320

contacting a lot of the the witnesses to

782

00:34:23,290 --> 00:34:20,570

that and you know these and so what you

783

00:34:25,900 --> 00:34:23,300

could do and and this is where we're s U

784

00:34:28,210 --> 00:34:25,910

is about we're you know typically a UFO

785

00:34:31,600 --> 00:34:28,220

report might get very minimal treatment

786

00:34:33,640 --> 00:34:31,610

and scientifically it might get maybe

787

00:34:35,470 --> 00:34:33,650

like a you know a couple pages or

788

00:34:38,470 --> 00:34:35,480

something like that we saw that one with

789

00:34:41,650 --> 00:34:38,480

MUFON were we didn't see like lengthy

790

00:34:44,230 --> 00:34:41,660

analysis or long-term studies of it and

791

00:34:46,840 --> 00:34:44,240

we thought that the better cases deserve

792

00:34:51,430 --> 00:34:46,850

that right they deserve our attention

793

00:34:54,070 --> 00:34:51,440

and so we we said that we're gonna spend

794

00:34:55,870 --> 00:34:54,080

that time and so we spent like in over

795

00:34:59,650 --> 00:34:55,880

two years putting together this report

796

00:35:03,190 --> 00:34:59,660

and part of the report was to document

797

00:35:06,220 --> 00:35:03,200

as much as we could about the case about

798

00:35:08,650 --> 00:35:06,230

what the witnesses said our attempts at

799

00:35:10,930 --> 00:35:08,660

getting FOIA requests so we've got that

800

00:35:13,900 --> 00:35:10,940

whole section on that we put together a

801

00:35:16,900 --> 00:35:13,910

glossary we put together uh we put

802

00:35:21,400 --> 00:35:16,910

together an analysis based upon a lot of

803

00:35:22,960 --> 00:35:21,410

different factors for example we had we

804

00:35:24,850 --> 00:35:22,970

talked with the radar people they would

805

00:35:26,440 --> 00:35:24,860

describe objects that would be dropping

806

00:35:29,080 --> 00:35:26,450

down from the skies at like eighty

807

00:35:31,150 --> 00:35:29,090

thousand feet and maybe stopping at

808

00:35:34,660 --> 00:35:31,160

twenty thousand or even going to see

809

00:35:37,690 --> 00:35:34,670

be level and stopping just above sea

810

00:35:39,520 --> 00:35:37,700

level in a matter of and then you would

811

00:35:42,520 --> 00:35:39,530

you would you would take a look at that

812

00:35:44,590 --> 00:35:42,530

and say well what what are the physics

813

00:35:46,630 --> 00:35:44,600

involved in that what would what would

814

00:35:49,750 --> 00:35:46,640

if you looked at that from a physical

815

00:35:52,330 --> 00:35:49,760

physics standpoint what could you deduce

816

00:35:54,880 --> 00:35:52,340

if you had something with a similar size

817

00:35:57,640 --> 00:35:54,890

to the tic-tac you know let's say an

818

00:36:00,280 --> 00:35:57,650

airplane that's that's weighs a certain

819

00:36:02,620 --> 00:36:00,290

weight or has a certain weight to it and

820

00:36:04,930 --> 00:36:02,630

if it were if it were some the

821

00:36:08,410 --> 00:36:04,940

acceleration if you think about if I

822

00:36:10,960 --> 00:36:08,420

move from 80,000 feet and I stop or even

823

00:36:13,090 --> 00:36:10,970

20,000 feet it doesn't matter if I'm at

824

00:36:15,310 --> 00:36:13,100

20,000 feet and I go to sea level and

825

00:36:19,750 --> 00:36:15,320

it's a matter of just a within less than

826

00:36:21,220 --> 00:36:19,760

a second what what is the g-force that

827

00:36:24,360 --> 00:36:21,230

would be experienced what would be the

828

00:36:27,340 --> 00:36:24,370

speed of that what how would you

829

00:36:31,360 --> 00:36:27,350

accelerate to get to a certain point and

830

00:36:34,360 --> 00:36:31,370

then suddenly decelerate to come to a

831

00:36:36,340 --> 00:36:34,370

full stop above the water and the

832

00:36:38,440 --> 00:36:36,350

wonderful part about that whole thing is

833

00:36:41,980 --> 00:36:38,450

that you know you can use mathematics

834

00:36:43,570 --> 00:36:41,990

and and and basically the the types of

835

00:36:45,880 --> 00:36:43,580

things that we already understand and

836

00:36:49,270 --> 00:36:45,890

kind of deduce what that would be like

837

00:36:52,660 --> 00:36:49,280

and so we said let's do that and so

838

00:36:54,970 --> 00:36:52,670

basically you had Peter reality who did

839

00:36:58,210 --> 00:36:54,980

that and took it on and and put together

840

00:37:00,730 --> 00:36:58,220

in his papers and in the back of it in

841

00:37:02,530 --> 00:37:00,740

the appendices section the physics of

842

00:37:04,660 --> 00:37:02,540

that are involved in that and so you

843

00:37:06,820 --> 00:37:04,670

find out that like an object that would

844

00:37:10,090 --> 00:37:06,830

be going from like roughly 20,000 feet

845

00:37:11,890 --> 00:37:10,100

to sea level and stopping were in point

846

00:37:16,930 --> 00:37:11,900

seven eight seconds or whatever like

847

00:37:19,180 --> 00:37:16,940

that would basically have used moved it

848

00:37:21,220 --> 00:37:19,190

over a hundred thousand miles per hour

849

00:37:23,980 --> 00:37:21,230

or something of that nature and we and

850

00:37:27,580 --> 00:37:23,990

the other thing that we did Martin was

851  
00:37:29,830 --> 00:37:27,590  
to we used also conservative estimates

852  
00:37:32,200 --> 00:37:29,840  
instead of instead of it being like

853  
00:37:34,600 --> 00:37:32,210  
point seven eight seconds let's use it

854  
00:37:37,570 --> 00:37:34,610  
it may be like three seconds let's look

855  
00:37:39,940 --> 00:37:37,580  
at it at six seconds and and so we we

856  
00:37:42,160 --> 00:37:39,950  
did that where we showed in a table kind

857  
00:37:44,380 --> 00:37:42,170  
of format what those different four

858  
00:37:45,330 --> 00:37:44,390  
speeds would be to include what the

859  
00:37:48,210 --> 00:37:45,340  
different

860  
00:37:51,000 --> 00:37:48,220  
the path or inputs would would have

861  
00:37:52,830 --> 00:37:51,010  
outputs would have been to have done

862  
00:37:54,360 --> 00:37:52,840  
that and then you start to look at that

863  
00:37:56,160 --> 00:37:54,370

and then the g-forces and you come up

864

00:37:58,920 --> 00:37:56,170

with the fact that nobody could survive

865

00:38:00,900 --> 00:37:58,930

it if it were like an aircraft falling

866

00:38:02,910 --> 00:38:00,910

from that sky or moving down at that sky

867

00:38:09,090 --> 00:38:02,920

it would basically have disintegrated

868

00:38:11,160 --> 00:38:09,100

and that the g-forces anything human and

869

00:38:13,080 --> 00:38:11,170

so we did that in our plus we also took

870

00:38:16,020 --> 00:38:13,090

a look at it from the standpoint that if

871

00:38:19,590 --> 00:38:16,030

you recall in the storyline when when

872

00:38:21,750 --> 00:38:19,600

favor is making his upward motion and

873

00:38:24,210 --> 00:38:21,760

the object is to going from sea level

874

00:38:28,530 --> 00:38:24,220

and coming up to about 20,000 feet as it

875

00:38:30,930 --> 00:38:28,540

was progressing up in its altitude the

876

00:38:32,730 --> 00:38:30,940

object then leaves and then suddenly

877

00:38:34,770 --> 00:38:32,740

it's up very quickly over at the cap

878

00:38:37,020 --> 00:38:34,780

point you hear them mention this combat

879

00:38:40,020 --> 00:38:37,030

air patrol which is a classified point

880

00:38:42,870 --> 00:38:40,030

of where they are supposed to to

881

00:38:46,950 --> 00:38:42,880

actually meet when they conduct this

882

00:38:48,720 --> 00:38:46,960

red-blue experience that's read war

883

00:38:52,350 --> 00:38:48,730

fighting country thing that they've got

884

00:38:54,420 --> 00:38:52,360

yeah I'm so the fact that it did that

885

00:38:55,710 --> 00:38:54,430

and we you're able to now measure the

886

00:38:57,510 --> 00:38:55,720

speed because that's sixty miles away

887

00:38:59,130 --> 00:38:57,520

and you're able to say well it let's

888

00:39:01,440 --> 00:38:59,140

look at that one you know and so then

889

00:39:04,500 --> 00:39:01,450

you find out again it exceeds beyond

890

00:39:07,530 --> 00:39:04,510

what we know of in the way of propulsion

891

00:39:09,630 --> 00:39:07,540

systems and the g-force that would have

892

00:39:11,670 --> 00:39:09,640

been involved as well as the power

893

00:39:13,050 --> 00:39:11,680

that's required at one point one of our

894

00:39:16,620 --> 00:39:13,060

estimates showed that it would have been

895

00:39:21,240 --> 00:39:16,630

equivalent to potentially that of Hoover

896

00:39:23,510 --> 00:39:21,250

Dam Wow terms and and then you you also

897

00:39:27,360 --> 00:39:23,520

take a look at the testimony of

898

00:39:29,520 --> 00:39:27,370

commander slate and you find out that he

899

00:39:33,300 --> 00:39:29,530

talks about there was like a kind of

900

00:39:36,210 --> 00:39:33,310

like a a barrage like effect above the

901  
00:39:38,490 --> 00:39:36,220  
tic-tac or around the tic-tac I mean he

902  
00:39:40,500 --> 00:39:38,500  
talks about that and so you say well

903  
00:39:43,230 --> 00:39:40,510  
okay is that some sort of a field around

904  
00:39:45,600 --> 00:39:43,240  
it you know and and and what would that

905  
00:39:47,940 --> 00:39:45,610  
be it and that's the kind of details you

906  
00:39:51,030 --> 00:39:47,950  
want from these very credible and very

907  
00:39:54,860 --> 00:39:51,040  
good observers who noticed these very

908  
00:39:58,799 --> 00:39:54,870  
small details that help us to understand

909  
00:40:01,949 --> 00:39:58,809  
what might be with the phenomena I mean

910  
00:40:04,349 --> 00:40:01,959  
and how it might be performing and so we

911  
00:40:06,029 --> 00:40:04,359  
need more of that highly you know that

912  
00:40:07,919 --> 00:40:06,039  
that kind of him and we'd love to be

913  
00:40:09,390 --> 00:40:07,929

able to have the radar data but you know

914

00:40:12,089 --> 00:40:09,400

obviously that's a little bit hard to

915

00:40:20,130 --> 00:40:12,099

get since it's apparently not being

916

00:40:22,919 --> 00:40:20,140

found or released to us oh well I was

917

00:40:24,870 --> 00:40:22,929

just thinking that other other cases

918

00:40:29,399 --> 00:40:24,880

that you've been able to study like this

919

00:40:31,259 --> 00:40:29,409

or or is it and can you talk about them

920

00:40:37,169 --> 00:40:31,269

where you've come up with some similar

921

00:40:40,439 --> 00:40:37,179

things well you know I think you might

922

00:40:48,439 --> 00:40:40,449

if you go up to the explore SCU org site

923

00:40:55,019 --> 00:40:51,359

number four years to go on the Agiadilla

924

00:40:57,779 --> 00:40:55,029

case and I mean if you recall that

925

00:41:00,179 --> 00:40:57,789

Agriadilla Puerto Rico incident but we

926  
00:41:03,539 --> 00:41:00,189  
yes you say that where the two K put

927  
00:41:06,689 --> 00:41:03,549  
together our reports if you would and

928  
00:41:09,390 --> 00:41:06,699  
our study of what we saw in the video

929  
00:41:11,339 --> 00:41:09,400  
clips as well as the and both have a

930  
00:41:16,019 --> 00:41:11,349  
more like infrared or thermal imaging

931  
00:41:17,370 --> 00:41:16,029  
kinds of cameras that were used the at

932  
00:41:19,199 --> 00:41:17,380  
flitter is of course a little bit

933  
00:41:22,439 --> 00:41:19,209  
different from the West cam that was in

934  
00:41:25,109 --> 00:41:22,449  
the aqua dia thing and so you ever get

935  
00:41:26,939 --> 00:41:25,119  
head smart about the whole thermal kind

936  
00:41:31,559 --> 00:41:26,949  
of like range and and find out about the

937  
00:41:34,620 --> 00:41:31,569  
mid wave IR where it is in terms of what

938  
00:41:39,419 --> 00:41:34,630

it can reveal to you and that's been a

939

00:41:42,659 --> 00:41:39,429

whole new world for us quite frankly and

940

00:41:46,259 --> 00:41:42,669

now s you've got a total of about 22

941

00:41:49,079 --> 00:41:46,269

PhDs on board and we're continuing to

942

00:41:52,109 --> 00:41:49,089

now build partnerships with with others

943

00:41:55,890 --> 00:41:52,119

as well and we're hoping that we can

944

00:41:58,319 --> 00:41:55,900

bring on more of the thermal experts out

945

00:42:01,199 --> 00:41:58,329

there we tried to take our studies over

946

00:42:03,659 --> 00:42:01,209

to them to get as much as we can to

947

00:42:06,059 --> 00:42:03,669

happen peer reviewed we had this

948

00:42:08,609 --> 00:42:06,069

document peer interviewed and we had the

949

00:42:12,080 --> 00:42:08,619

last document looked at by the the

950

00:42:14,960 --> 00:42:12,090

French who also came back and

951  
00:42:16,760 --> 00:42:14,970  
much confirmed for example that in the

952  
00:42:20,510 --> 00:42:16,770  
Aguadilla case there was a question

953  
00:42:22,940 --> 00:42:20,520  
about the path and they confirmed to us

954  
00:42:26,360 --> 00:42:22,950  
that the path was circular like we

955  
00:42:27,890 --> 00:42:26,370  
thought that it was and those things are

956  
00:42:31,250 --> 00:42:27,900  
helpful too and I we just need to have

957  
00:42:33,380 --> 00:42:31,260  
more peer-reviewed or more other kinds

958  
00:42:35,930 --> 00:42:33,390  
of like scientific companies or

959  
00:42:40,090 --> 00:42:35,940  
organizations take a look at this our

960  
00:42:44,780 --> 00:42:40,100  
data the data and and do the same thing

961  
00:42:47,180 --> 00:42:44,790  
well you know we are we are ready to go

962  
00:42:49,370 --> 00:42:47,190  
to break and what I'm going to do okay

963  
00:42:51,110 --> 00:42:49,380

here is we're having some issues with

964

00:42:52,550 --> 00:42:51,120

Skype so what we're gonna do is I'm

965

00:42:55,190 --> 00:42:52,560

gonna be actually calling you back on

966

00:42:57,680 --> 00:42:55,200

the phone but for right now we are

967

00:42:59,660 --> 00:42:57,690

heading into break so hang in everyone

968

00:43:02,000 --> 00:42:59,670

we'll be right back right after these

969

00:43:05,360 --> 00:43:02,010

messages all right welcome back my guest

970

00:43:07,100 --> 00:43:05,370

tonight is rich Hoffman and we have them

971

00:43:10,630 --> 00:43:07,110

now on the phone should be a nice clear

972

00:43:16,850 --> 00:43:10,640

signal right richer there aren't you

973

00:43:18,020 --> 00:43:16,860

well I'm here how are you yeah yeah just

974

00:43:20,690 --> 00:43:18,030

make sure you hold the phone closed if

975

00:43:24,350 --> 00:43:20,700

you would and so we were basically

976  
00:43:28,220 --> 00:43:24,360  
talking about you know the different the

977  
00:43:29,900 --> 00:43:28,230  
puerto rican incident which there was a

978  
00:43:34,010 --> 00:43:29,910  
lot of that's the first time I've

979  
00:43:36,350 --> 00:43:34,020  
actually seen like real science and to

980  
00:43:39,340 --> 00:43:36,360  
work people taking something really

981  
00:43:43,210 --> 00:43:39,350  
seriously and it almost seems like a

982  
00:43:45,260 --> 00:43:43,220  
this seemed to almost open the door for

983  
00:43:48,320 --> 00:43:45,270  
what we're seeing today a little bit

984  
00:43:49,610 --> 00:43:48,330  
just the fact that you know people are

985  
00:43:52,400 --> 00:43:49,620  
really looking at the subject more

986  
00:43:54,410 --> 00:43:52,410  
seriously and and what is your thoughts

987  
00:43:56,750 --> 00:43:54,420  
on that I mean you you've seen a lot of

988  
00:44:00,830 --> 00:43:56,760

change in ever since you know last year

989

00:44:03,020 --> 00:44:00,840

and a half or so right oh dramatically

990

00:44:06,710 --> 00:44:03,030

and you know I kind of like you know

991

00:44:08,870 --> 00:44:06,720

it's where things were I look back on on

992

00:44:11,720 --> 00:44:08,880

my history with this whole thing like

993

00:44:14,000 --> 00:44:11,730

for example you know are the cases any

994

00:44:19,580 --> 00:44:14,010

different from what we had back in the

995

00:44:21,830 --> 00:44:19,590

50s and 60s and answerers no in the

996

00:44:23,750 --> 00:44:21,840

sense that we had military cases and

997

00:44:25,950 --> 00:44:23,760

we've had you know jet pursuits and

998

00:44:27,870 --> 00:44:25,960

we've had incursions in our air

999

00:44:29,640 --> 00:44:27,880

face and we've had you know all that

1000

00:44:32,099 --> 00:44:29,650

stopped us has pretty much been there

1001

00:44:34,020 --> 00:44:32,109

and there's so it's nothing for me it's

1002

00:44:37,260 --> 00:44:34,030

not you know my perspective anyway it's

1003

00:44:39,870 --> 00:44:37,270

nothing new I just had some incredible

1004

00:44:44,700 --> 00:44:39,880

cases in the past that are not receiving

1005

00:44:47,849 --> 00:44:44,710

as much attention on the medial side I

1006

00:44:49,829 --> 00:44:47,859

mean yeah they were they they got in the

1007

00:44:51,750 --> 00:44:49,839

National Inquirer they got into

1008

00:44:54,359 --> 00:44:51,760

something like that but you didn't have

1009

00:44:56,730 --> 00:44:54,369

anything that was really grabbing a hold

1010

00:45:01,380 --> 00:44:56,740

of the attention like it is today and

1011

00:45:04,740 --> 00:45:01,390

and now you know the whole thing is

1012

00:45:07,500 --> 00:45:04,750

you've got more advanced technology that

1013

00:45:09,000 --> 00:45:07,510

we have over I mean our radar systems

1014

00:45:12,150 --> 00:45:09,010

have dramatically improved our

1015

00:45:14,839 --> 00:45:12,160

capabilities the aircraft and and

1016

00:45:17,880 --> 00:45:14,849

everything else are fabulous and the top

1017

00:45:20,490 --> 00:45:17,890

top-notch and so the fact that these

1018

00:45:22,290 --> 00:45:20,500

kinds of systems are detecting these

1019

00:45:24,990 --> 00:45:22,300

things and they're seeing that they're

1020

00:45:27,990 --> 00:45:25,000

doing each incredible maneuvers and you

1021

00:45:29,730 --> 00:45:28,000

have very high-level credible pilots and

1022

00:45:31,589 --> 00:45:29,740

you have the willingness to be able to

1023

00:45:33,329 --> 00:45:31,599

confront it and put it on to like

1024

00:45:37,050 --> 00:45:33,339

something like the New York Times and

1025

00:45:39,089 --> 00:45:37,060

and then now now it's videos you had the

1026

00:45:40,920 --> 00:45:39,099

credibility of the fact that we found

1027

00:45:43,200 --> 00:45:40,930

that there was a program at the Pentagon

1028

00:45:45,089 --> 00:45:43,210

and you have the lead of that willing to

1029

00:45:48,089 --> 00:45:45,099

talk about it and help us to get the

1030

00:45:49,980 --> 00:45:48,099

getting more and so that's that's a

1031

00:45:52,170 --> 00:45:49,990

holistically different flavor than when

1032

00:45:56,130 --> 00:45:52,180

you had back in blue both days and and

1033

00:45:57,810 --> 00:45:56,140

and where we were before and so to me

1034

00:46:02,040 --> 00:45:57,820

it's a whole like a whole other world

1035

00:46:03,960 --> 00:46:02,050

and I'm so happy to see that you know

1036

00:46:06,089 --> 00:46:03,970

that they're saying that they I mean

1037

00:46:08,220 --> 00:46:06,099

that basically saying that yeah these

1038

00:46:10,859 --> 00:46:08,230

things do exist you know by the way you

1039

00:46:13,320 --> 00:46:10,869

know we need to pay attention to them

1040

00:46:15,270 --> 00:46:13,330

and oh by the way there might be

1041

00:46:18,150 --> 00:46:15,280

potential threats and you know they're

1042

00:46:20,490 --> 00:46:18,160

hanging over our you know nukes

1043

00:46:23,099 --> 00:46:20,500

shouldn't we be concern you know

1044

00:46:25,620 --> 00:46:23,109

shouldn't we we not be concerned and Jim

1045

00:46:27,599 --> 00:46:25,630

and so I'm glad to see it's getting that

1046

00:46:30,570 --> 00:46:27,609

Jerry's attention and it's helping a lot

1047

00:46:32,700 --> 00:46:30,580

of more scientific people who are like I

1048

00:46:35,490 --> 00:46:32,710

call them and going back to Jaco in

1049

00:46:36,900 --> 00:46:35,500

hynek's days the invisible college are

1050

00:46:38,670 --> 00:46:36,910

willing to actually now come out and

1051  
00:46:39,780 --> 00:46:38,680  
talk a little bit and there's more

1052  
00:46:41,850 --> 00:46:39,790  
people that are will

1053  
00:46:45,000 --> 00:46:41,860  
to discuss it so it to me this is

1054  
00:46:49,170 --> 00:46:45,010  
exciting times the I am yes rope friggin

1055  
00:46:53,160 --> 00:46:49,180  
death no no I'm I'm totally with you

1056  
00:46:55,530 --> 00:46:53,170  
there I've seen you know for just one

1057  
00:46:58,200 --> 00:46:55,540  
thing alone my listenership has greatly

1058  
00:47:00,150 --> 00:46:58,210  
picked up with people just now looking

1059  
00:47:02,340 --> 00:47:00,160  
into the topic that never had before and

1060  
00:47:04,020 --> 00:47:02,350  
so that's why I kind of dive into

1061  
00:47:08,010 --> 00:47:04,030  
everyone's background if they've been on

1062  
00:47:12,180 --> 00:47:08,020  
the show before or not and you know what

1063  
00:47:15,780 --> 00:47:12,190

I've seen you know since this whole

1064

00:47:17,670 --> 00:47:15,790

thing came out and and you know SIPP I

1065

00:47:23,580 --> 00:47:17,680

think it was December 16th or whatever

1066

00:47:26,910 --> 00:47:23,590

was 2017 I believe it was yeah since

1067

00:47:30,170 --> 00:47:26,920

that time you know it just seems to be

1068

00:47:32,970 --> 00:47:30,180

escalating to the where more and more

1069

00:47:34,980 --> 00:47:32,980

you know people are taking it seriously

1070

00:47:35,840 --> 00:47:34,990

I'll just tell you a quick situation I

1071

00:47:39,600 --> 00:47:35,850

was in

1072

00:47:42,060 --> 00:47:39,610

I'm a an appraiser that's my profession

1073

00:47:43,770 --> 00:47:42,070

and I was down in Massachusetts and as I

1074

00:47:46,980 --> 00:47:43,780

was walking into this house I saw these

1075

00:47:48,780 --> 00:47:46,990

Navy bumper stickers on the back of the

1076

00:47:50,130 --> 00:47:48,790

car over the people that lived in this

1077

00:47:53,370 --> 00:47:50,140

house where I was going and I was in

1078

00:47:54,660 --> 00:47:53,380

there and after a while I said I had the

1079

00:47:57,840 --> 00:47:54,670

courage to say hey did you hear about

1080

00:48:00,450 --> 00:47:57,850

the Navy you know the new reporting on

1081

00:48:02,790 --> 00:48:00,460

UFOs the Navy said actually taking this

1082

00:48:04,650 --> 00:48:02,800

seriously and the woman wouldn't stop

1083

00:48:06,560 --> 00:48:04,660

talking about and she she and her

1084

00:48:09,660 --> 00:48:06,570

husband her husband's retired and and

1085

00:48:11,040 --> 00:48:09,670

they thought it was amazing and all that

1086

00:48:14,310 --> 00:48:11,050

and then she started telling me about a

1087

00:48:16,410 --> 00:48:14,320

sighting and I'm really always very you

1088

00:48:18,510 --> 00:48:16,420

know careful about mentioning the UFO

1089

00:48:21,480 --> 00:48:18,520

topic when it comes to my profession and

1090

00:48:23,070 --> 00:48:21,490

all that but every once in a while you

1091

00:48:24,750 --> 00:48:23,080

know I feel comfortable enough to talk

1092

00:48:26,910 --> 00:48:24,760

about it and and this time it was

1093

00:48:31,470 --> 00:48:26,920

received well but you never know but

1094

00:48:32,880 --> 00:48:31,480

it's it's a lot more it it just seems a

1095

00:48:36,360 --> 00:48:32,890

lot easier now than it was when I

1096

00:48:39,270 --> 00:48:36,370

started the show for sure yeah and

1097

00:48:43,260 --> 00:48:39,280

that's pretty much where I like when

1098

00:48:45,390 --> 00:48:43,270

book was closed and they basically had

1099

00:48:49,080 --> 00:48:45,400

the Condon report and everything else it

1100

00:48:51,180 --> 00:48:49,090

seemed like you know the credibility of

1101  
00:48:52,910 --> 00:48:51,190  
the whole subject went down the toilet

1102  
00:48:55,070 --> 00:48:52,920  
and and

1103  
00:48:56,870 --> 00:48:55,080  
if you know it's like you can't talk

1104  
00:49:00,500 --> 00:48:56,880  
about him much anymore than a man over a

1105  
00:49:02,990 --> 00:49:00,510  
period of time you know it just got very

1106  
00:49:04,640 --> 00:49:03,000  
very I mean more and more you just

1107  
00:49:06,830 --> 00:49:04,650  
couldn't talk about it because it came a

1108  
00:49:08,570 --> 00:49:06,840  
joke I mean take a look at the tabloids

1109  
00:49:12,440 --> 00:49:08,580  
and what they did with it well they

1110  
00:49:14,150 --> 00:49:12,450  
turned it into a joke and then you know

1111  
00:49:15,920 --> 00:49:14,160  
you just couldn't even begin to discuss

1112  
00:49:18,500 --> 00:49:15,930  
it and then over period of time now

1113  
00:49:21,350 --> 00:49:18,510

you're able to come back and talk about

1114

00:49:23,540 --> 00:49:21,360

it and and you have that if you would

1115

00:49:25,310 --> 00:49:23,550

that top cover the fact that there's

1116

00:49:27,050 --> 00:49:25,320

actually senators and congressional

1117

00:49:29,270 --> 00:49:27,060

people that are willing to listen and

1118

00:49:32,090 --> 00:49:29,280

hear this and the fact that the Navy is

1119

00:49:33,800 --> 00:49:32,100

and the Air Force are gonna be switching

1120

00:49:35,480 --> 00:49:33,810

that I mean the Air Force it's not that

1121

00:49:37,610 --> 00:49:35,490

I don't think announced but they've gone

1122

00:49:39,560 --> 00:49:37,620

and made changes and it's not like that

1123

00:49:42,950 --> 00:49:39,570

they haven't been you know concerned

1124

00:49:45,710 --> 00:49:42,960

before it's just it didn't allow you

1125

00:49:48,740 --> 00:49:45,720

know soldiers and stuff like that are

1126  
00:49:51,170 --> 00:49:48,750  
hesitant to bring it up you know and so

1127  
00:49:53,360 --> 00:49:51,180  
it now allows them to feel a little more

1128  
00:49:54,830 --> 00:49:53,370  
open and and oh by the way I saw

1129  
00:49:57,620 --> 00:49:54,840  
something and you know and I said that

1130  
00:49:58,940 --> 00:49:57,630  
they can talk about it not be feeling

1131  
00:50:01,060 --> 00:49:58,950  
right that they're going to be penalized

1132  
00:50:03,980 --> 00:50:01,070  
if you would and so that's that's gonna

1133  
00:50:05,900 --> 00:50:03,990  
take open up a lot I hope we can do the

1134  
00:50:09,130 --> 00:50:05,910  
same thing for a commercial pilot you

1135  
00:50:11,690 --> 00:50:09,140  
know is that that we now get more

1136  
00:50:16,820 --> 00:50:11,700  
openness if we could get that from the

1137  
00:50:18,800 --> 00:50:16,830  
FAA and the pilots you know and and then

1138  
00:50:21,100 --> 00:50:18,810

we could also get it from other agencies

1139

00:50:23,720 --> 00:50:21,110

and then the big question with people

1140

00:50:26,150 --> 00:50:23,730

who would be the central body to be able

1141

00:50:28,430 --> 00:50:26,160

to take a look at it and to collect all

1142

00:50:30,590 --> 00:50:28,440

that because it is a global phenomena

1143

00:50:33,020 --> 00:50:30,600

and it's we need to be concerned about

1144

00:50:35,420 --> 00:50:33,030

the threats that are over our you know

1145

00:50:39,920 --> 00:50:35,430

over our land just as much as in the

1146

00:50:42,710 --> 00:50:39,930

water that's right I'm hoping that we

1147

00:50:45,590 --> 00:50:42,720

and if we see this as a threat then that

1148

00:50:47,360 --> 00:50:45,600

opens up doors for where are where are

1149

00:50:50,690 --> 00:50:47,370

these things going what are they doing

1150

00:50:51,200 --> 00:50:50,700

and so anyway that's pretty much my

1151  
00:50:53,300 --> 00:50:51,210  
thoughts

1152  
00:50:55,040 --> 00:50:53,310  
I've thought I I think I talked about

1153  
00:50:56,750 --> 00:50:55,050  
this briefly last time you were on the

1154  
00:51:01,340 --> 00:50:56,760  
show and and I still kind of feel the

1155  
00:51:04,220 --> 00:51:01,350  
same way is that I don't think that the

1156  
00:51:05,510 --> 00:51:04,230  
Air Force whoever it is that is you know

1157  
00:51:10,910 --> 00:51:05,520  
really looking at this

1158  
00:51:13,730 --> 00:51:10,920  
topic the Pentagon DoD whoever it is

1159  
00:51:16,400 --> 00:51:13,740  
that's I don't think anyone knows any

1160  
00:51:19,250 --> 00:51:16,410  
really that much more than any of us out

1161  
00:51:20,900 --> 00:51:19,260  
here looking at it I still think it's a

1162  
00:51:23,390 --> 00:51:20,910  
puzzle and I think that's the reason

1163  
00:51:24,980 --> 00:51:23,400

you're the main reason the secrecy has

1164

00:51:27,400 --> 00:51:24,990  
been so long because how do you defend

1165

00:51:30,620 --> 00:51:27,410  
against something you know how do you

1166

00:51:31,490 --> 00:51:30,630  
take care of the skies when you don't

1167

00:51:34,420 --> 00:51:31,500  
know what the heck it is

1168

00:51:36,890 --> 00:51:34,430  
and you can't assure the people that

1169

00:51:40,190 --> 00:51:36,900  
this is happening but we don't know what

1170

00:51:42,829 --> 00:51:40,200  
it is you know I mean it wouldn't agree

1171

00:51:44,750 --> 00:51:42,839  
with yeah we don't have any answers and

1172

00:51:46,280 --> 00:51:44,760  
you know and that's pretty clear

1173

00:51:48,650 --> 00:51:46,290  
all we know is that there are these

1174

00:51:50,690 --> 00:51:48,660  
crafts that are outperforming anything

1175

00:51:56,480 --> 00:51:50,700  
that we've got and that they seem to be

1176  
00:51:59,390 --> 00:51:56,490  
within our airspace and you know and

1177  
00:52:02,960 --> 00:51:59,400  
water space you know our waters as well

1178  
00:52:05,329 --> 00:52:02,970  
and and that why wouldn't we be

1179  
00:52:08,750 --> 00:52:05,339  
concerned about that type of thing

1180  
00:52:11,510 --> 00:52:08,760  
especially knowing that other countries

1181  
00:52:13,640 --> 00:52:11,520  
are doing the looking and at the same

1182  
00:52:16,220 --> 00:52:13,650  
time that you know that we're trying to

1183  
00:52:18,260 --> 00:52:16,230  
say that it could be potentially we

1184  
00:52:20,210 --> 00:52:18,270  
notices we don't do the origin it could

1185  
00:52:22,760 --> 00:52:20,220  
be that somebody else has made greater

1186  
00:52:25,609 --> 00:52:22,770  
advancements than we have and why

1187  
00:52:27,800 --> 00:52:25,619  
wouldn't we want to know that and so

1188  
00:52:29,690 --> 00:52:27,810

that's I think that that's that's

1189

00:52:31,880 --> 00:52:29,700

finally coming around and we don't have

1190

00:52:34,880 --> 00:52:31,890

the answer so neither does the belief

1191

00:52:38,810 --> 00:52:34,890

that the government has the answers per

1192

00:52:40,339 --> 00:52:38,820

se in my book but it also doesn't

1193

00:52:41,960 --> 00:52:40,349

preclude the fact that we aren't

1194

00:52:44,540 --> 00:52:41,970

interested and haven't been interested

1195

00:52:48,650 --> 00:52:44,550

in the standpoint of looking at it from

1196

00:52:50,810 --> 00:52:48,660

an the propulsion system and on how do

1197

00:52:53,000 --> 00:52:50,820

we build these things and if you think

1198

00:52:56,270 --> 00:52:53,010

about us not paying attention to looking

1199

00:52:58,010 --> 00:52:56,280

into anti-gravity or like that certainly

1200

00:52:59,599 --> 00:52:58,020

we've done that over this time that's

1201

00:53:01,970 --> 00:52:59,609

what the military would do there would

1202

00:53:03,890 --> 00:53:01,980

be a look and be all the contracting

1203

00:53:06,770 --> 00:53:03,900

firms and the companies and a Lockheed's

1204

00:53:09,609 --> 00:53:06,780

and the Boeing's at the being able to

1205

00:53:12,800 --> 00:53:09,619

look into that the other if you saw that

1206

00:53:15,230 --> 00:53:12,810

that the Navy came out that there has a

1207

00:53:17,300 --> 00:53:15,240

couple patents are you aware that that

1208

00:53:18,620 --> 00:53:17,310

patent thing know going on with the

1209

00:53:21,499 --> 00:53:18,630

United States

1210

00:53:25,430 --> 00:53:21,509

okay so there's a if you go look up

1211

00:53:28,549 --> 00:53:25,440

Salvatore Cesare pice who is got a

1212

00:53:30,380 --> 00:53:28,559

number of patents now right now that are

1213

00:53:33,499 --> 00:53:30,390

looking at building something on the

1214

00:53:35,269 --> 00:53:33,509

scale of a tic-tac and it gets into

1215

00:53:37,670 --> 00:53:35,279

high-energy electromagnetic field

1216

00:53:41,150 --> 00:53:37,680

generators it gets into using a vacuum

1217

00:53:44,599 --> 00:53:41,160

states around the object it uses

1218

00:53:46,700 --> 00:53:44,609

microwave transmitters interesting it up

1219

00:53:48,680 --> 00:53:46,710

you know that you know that and it's

1220

00:53:50,960 --> 00:53:48,690

creating it this kind of like a vacuum

1221

00:53:52,849 --> 00:53:50,970

and the whole paper is built around the

1222

00:53:55,759 --> 00:53:52,859

fact that you produce your inertial mass

1223

00:53:57,109 --> 00:53:55,769

and your gravitational mass and you can

1224

00:53:59,690 --> 00:53:57,119

get to the point where you could do that

1225

00:54:04,039 --> 00:53:59,700

very kind of thing like the tic-tac you

1226  
00:54:05,480 --> 00:54:04,049  
mean the moon so yeah I mean exactly I

1227  
00:54:07,130 --> 00:54:05,490  
mean you can do every all you could do

1228  
00:54:09,980 --> 00:54:07,140  
basically if the same kinds of things

1229  
00:54:11,930 --> 00:54:09,990  
that guys doing and you know you're not

1230  
00:54:13,670 --> 00:54:11,940  
going to suffer the inertial mass you're

1231  
00:54:15,769 --> 00:54:13,680  
going to be reducing your your the

1232  
00:54:18,349 --> 00:54:15,779  
weight your weight you're going to be

1233  
00:54:21,220 --> 00:54:18,359  
able to interact and so this these kind

1234  
00:54:26,870 --> 00:54:21,230  
of like patents that are out there or

1235  
00:54:30,249 --> 00:54:26,880  
and reading the how put off is also

1236  
00:54:34,519 --> 00:54:30,259  
cited in that with its polarizable

1237  
00:54:36,400 --> 00:54:34,529  
vacuum approach to general relativity so

1238  
00:54:39,200 --> 00:54:36,410

I guess what I'm kind of get at is

1239

00:54:41,180 --> 00:54:39,210

science is progressing to the point

1240

00:54:44,059 --> 00:54:41,190

where we're getting to the point where I

1241

00:54:47,180 --> 00:54:44,069

think that we may be able to develop

1242

00:54:48,890 --> 00:54:47,190

these kind of technologies but you have

1243

00:54:50,779 --> 00:54:48,900

to realize that these objects have been

1244

00:54:54,529 --> 00:54:50,789

doing this for a very very very long

1245

00:54:58,099 --> 00:54:54,539

time right and so we're gonna start to

1246

00:54:59,990 --> 00:54:58,109

see the potential for us to do that but

1247

00:55:02,720 --> 00:55:00,000

it's still in the the theoretical world

1248

00:55:04,880 --> 00:55:02,730

I mean we do I I don't know that we're

1249

00:55:06,319 --> 00:55:04,890

gonna hear from Lockheed Martin that

1250

00:55:08,839 --> 00:55:06,329

they've actually gone out and they've

1251

00:55:10,999 --> 00:55:08,849

done this or if they'll release it to us

1252

00:55:13,549 --> 00:55:11,009

or if it's gonna remain you know a

1253

00:55:15,140 --> 00:55:13,559

top-secret type of than ever but I think

1254

00:55:17,240 --> 00:55:15,150

that we are actually experimenting in

1255

00:55:17,539 --> 00:55:17,250

these kinds of things and why wouldn't

1256

00:55:19,759 --> 00:55:17,549

we be

1257

00:55:22,910 --> 00:55:19,769

I mean we've had plenty of time looking

1258

00:55:25,220 --> 00:55:22,920

at this now what about that that theory

1259

00:55:30,109 --> 00:55:25,230

or that you were talking about does that

1260

00:55:32,539 --> 00:55:30,119

address there's never any one reporting

1261

00:55:34,819 --> 00:55:32,549

you know the sound barrier being broken

1262

00:55:37,219 --> 00:55:34,829

this thing takes off correct does that

1263

00:55:37,640 --> 00:55:37,229

address it does address that it sure

1264

00:55:42,709 --> 00:55:37,650

does

1265

00:55:44,209 --> 00:55:42,719

and so so I mean you know I guess what

1266

00:55:47,150 --> 00:55:44,219

I'm trying to get at is if you look at

1267

00:55:51,079 --> 00:55:47,160

those five traits that Lou Elizondo

1268

00:55:56,089 --> 00:55:51,089

talks about in this presentation this

1269

00:55:59,809 --> 00:55:56,099

type of an object could the Navy can put

1270

00:56:03,079 --> 00:55:59,819

together is a is basically probably

1271

00:56:04,729 --> 00:56:03,089

capable of doing that very thing and all

1272

00:56:08,029 --> 00:56:04,739

those types of things would be able to

1273

00:56:10,969 --> 00:56:08,039

function in in the water as much as in

1274

00:56:16,900 --> 00:56:10,979

air and as much as space so it's trans

1275

00:56:20,419 --> 00:56:16,910

medium it would be able to basically

1276  
00:56:23,630 --> 00:56:20,429  
maneuver seamlessly without the inertia

1277  
00:56:25,669 --> 00:56:23,640  
issues you know you could have a

1278  
00:56:27,289 --> 00:56:25,679  
conceivably a pilot on the inside of it

1279  
00:56:28,849 --> 00:56:27,299  
I don't know how what they're how they

1280  
00:56:31,849 --> 00:56:28,859  
would be shielded or whatever like that

1281  
00:56:34,519 --> 00:56:31,859  
um the the high-energy electromagnetic

1282  
00:56:36,289 --> 00:56:34,529  
field generators but even had in his

1283  
00:56:39,319 --> 00:56:36,299  
diagram some sort of shielding to be

1284  
00:56:41,809 --> 00:56:39,329  
able to protect somebody so I mean

1285  
00:56:43,789 --> 00:56:41,819  
that's we're starting to get there I

1286  
00:56:46,009 --> 00:56:43,799  
think you know is what I'm trying to get

1287  
00:56:48,739 --> 00:56:46,019  
at is that we'll be able to and then

1288  
00:56:51,640 --> 00:56:48,749

it's enough that these use microwave

1289

00:56:54,229 --> 00:56:51,650

transmitters and when I was doing the

1290

00:56:55,910 --> 00:56:54,239

landing case that I investigated back in

1291

00:56:59,120 --> 00:56:55,920

the seventies where a seven-foot

1292

00:57:02,269 --> 00:56:59,130

diameter area was completely fake to

1293

00:57:03,679 --> 00:57:02,279

freeze in the ground you know and all it

1294

00:57:05,689 --> 00:57:03,689

was gone there's possibly around the

1295

00:57:08,569 --> 00:57:05,699

perimeter of the Sun but there is

1296

00:57:09,259 --> 00:57:08,579

microwave radiation are they using

1297

00:57:12,349 --> 00:57:09,269

microwaves

1298

00:57:14,900 --> 00:57:12,359

you know transmitter is that what what's

1299

00:57:17,539 --> 00:57:14,910

involved here and and does that bake the

1300

00:57:19,579 --> 00:57:17,549

soil like we're expecting so so you get

1301

00:57:22,130 --> 00:57:19,589

what I'm saying right it's it's a

1302

00:57:24,979 --> 00:57:22,140

wonderful time it's exciting and I think

1303

00:57:27,109 --> 00:57:24,989

that science is when we're gonna more

1304

00:57:29,419 --> 00:57:27,119

more progress to the point where we're

1305

00:57:32,630 --> 00:57:29,429

going to be able to look at and don't

1306

00:57:35,150 --> 00:57:32,640

come to these times I think well the

1307

00:57:38,359 --> 00:57:35,160

guest I had a lot last week it was more

1308

00:57:40,999 --> 00:57:38,369

or less convinced that what we're seeing

1309

00:57:43,099 --> 00:57:41,009

is time travelers in you know in a

1310

00:57:46,240 --> 00:57:43,109

little tiny way that could fit and

1311

00:57:48,700 --> 00:57:46,250

that's development of something you

1312

00:57:51,339 --> 00:57:48,710

way in the future you know that we're

1313

00:57:52,570 --> 00:57:51,349

actually seeing but I thought it was an

1314

00:57:55,210 --> 00:57:52,580

interesting theory anyway

1315

00:57:56,680 --> 00:57:55,220

but as far as you know the the thing

1316

00:57:59,680 --> 00:57:56,690

that always comes up when you talk to

1317

00:58:03,700 --> 00:57:59,690

someone that is you know rightly skeptic

1318

00:58:05,410 --> 00:58:03,710

of how we are being visited the it

1319

00:58:07,660 --> 00:58:05,420

always comes up with the vast distance

1320

00:58:11,020 --> 00:58:07,670

that it is to the nearest you know star

1321

00:58:14,020 --> 00:58:11,030

system the nearest solar system for an

1322

00:58:16,150 --> 00:58:14,030

entire year I wish that they would have

1323

00:58:19,870 --> 00:58:16,160

been in my conference is dr. Kevin

1324

00:58:23,260 --> 00:58:19,880

canoes on and he Devin you ever heard

1325

00:58:25,720 --> 00:58:23,270

him his presentation was on relativistic

1326

00:58:29,320 --> 00:58:25,730

interstellar travel and you find out

1327

00:58:30,970 --> 00:58:29,330

that typically if you look and this is

1328

00:58:34,690 --> 00:58:30,980

the interesting thing I think that he

1329

00:58:37,270 --> 00:58:34,700

did he looked at the speeds of UFO cases

1330

00:58:42,310 --> 00:58:37,280

that we have that we have - like for

1331

00:58:45,730 --> 00:58:42,320

example the FAA case in a lot he looked

1332

00:58:47,140 --> 00:58:45,740

at the and they had radar right so you

1333

00:58:48,760 --> 00:58:47,150

looked at the speed there and he looked

1334

00:58:51,460 --> 00:58:48,770

at the speed of the tic-tac and he

1335

00:58:54,400 --> 00:58:51,470

looked at speed from the bethune case

1336

00:58:55,720 --> 00:58:54,410

and then he put all these cases together

1337

00:58:58,900 --> 00:58:55,730

and he said these are the speeds of

1338

00:59:01,570 --> 00:58:58,910

these objects he seemed to be going okay

1339

00:59:05,770 --> 00:59:01,580

let me project that out and say can they

1340

00:59:07,660 --> 00:59:05,780

go at those of the speeds that we know

1341

00:59:11,140 --> 00:59:07,670

of and the answer was yes

1342

00:59:13,780 --> 00:59:11,150

and so there's any progresses in to the

1343

00:59:16,000 --> 00:59:13,790

point of talking about okay so now if

1344

00:59:17,109 --> 00:59:16,010

you've got that and you click build a

1345

00:59:20,349 --> 00:59:17,119

craft that could do that

1346

00:59:22,599 --> 00:59:20,359

basically how would you go out and do to

1347

00:59:24,370 --> 00:59:22,609

go into the interstellar and how long

1348

00:59:26,560 --> 00:59:24,380

would it take you to do that and then

1349

00:59:28,270 --> 00:59:26,570

you get into the time dilation kind of

1350

00:59:30,070 --> 00:59:28,280

thing where you know as you go towards

1351  
00:59:32,740 --> 00:59:30,080  
the speed of light time slows down for

1352  
00:59:34,210 --> 00:59:32,750  
the people on board right so it gets to

1353  
00:59:37,300 --> 00:59:34,220  
the point where you could go these you

1354  
00:59:40,150 --> 00:59:37,310  
know these light light speeds if you let

1355  
00:59:42,940 --> 00:59:40,160  
her near near the white speed and for

1356  
00:59:46,349 --> 00:59:42,950  
them to go across the entire universe

1357  
00:59:51,579 --> 00:59:46,359  
it's only a matter of month

1358  
00:59:53,560 --> 00:59:51,589  
all right so so it's in their time and

1359  
00:59:56,109 --> 00:59:53,570  
of course for us back here it's gonna be

1360  
00:59:57,579 --> 00:59:56,119  
like you know da sort of like that so we

1361  
00:59:59,440 --> 00:59:57,589  
keep hearing about the fact all it's

1362  
01:00:00,100 --> 00:59:59,450  
gonna take too long because keeping it

1363  
01:00:02,320 --> 01:00:00,110

from the stand

1364

01:00:04,240 --> 01:00:02,330

point of our own perspective what you

1365

01:00:05,650 --> 01:00:04,250

have to do is you look at it if you get

1366

01:00:07,720 --> 01:00:05,660

near the speed of why that's flowing

1367

01:00:09,580 --> 01:00:07,730

down for them and for them and he

1368

01:00:10,990 --> 01:00:09,590

protected that and so that these people

1369

01:00:13,030 --> 01:00:11,000

could literally be on the other side of

1370

01:00:14,920 --> 01:00:13,040

the galaxy in a matter of days or

1371

01:00:17,800 --> 01:00:14,930

something of that nature he's got that

1372

01:00:21,160 --> 01:00:17,810

time all planned out and then what if we

1373

01:00:24,430 --> 01:00:21,170

were going to build and want to go and

1374

01:00:26,890 --> 01:00:24,440

go to other extrasolar planets and we

1375

01:00:29,050 --> 01:00:26,900

believe that life is well guess what you

1376

01:00:31,300 --> 01:00:29,060

would do you would shoot off and you had

1377

01:00:33,270 --> 01:00:31,310

become nomadic you go with a whole bunch

1378

01:00:35,590 --> 01:00:33,280

of other people with you and basically

1379

01:00:36,780 --> 01:00:35,600

go to that location because you know

1380

01:00:38,950 --> 01:00:36,790

you're not going to be coming back

1381

01:00:41,410 --> 01:00:38,960

you're gonna go to that place and you're

1382

01:00:43,780 --> 01:00:41,420

going to basically inhabit it right and

1383

01:00:45,670 --> 01:00:43,790

then you go and shoot off again to other

1384

01:00:46,990 --> 01:00:45,680

places from that baby that point of

1385

01:00:48,910 --> 01:00:47,000

reference knowing that you're not going

1386

01:00:50,200 --> 01:00:48,920

to come back and look like that so

1387

01:00:52,030 --> 01:00:50,210

eventually you can get to the point

1388

01:00:54,430 --> 01:00:52,040

where it because you're only traveling

1389

01:00:57,040 --> 01:00:54,440

just a matter of month you're basically

1390

01:00:58,660 --> 01:00:57,050

there you go and you settle down and you

1391

01:01:00,700 --> 01:00:58,670

get screw to land and you take off to

1392

01:01:03,490 --> 01:01:00,710

other places in a very short order

1393

01:01:06,150 --> 01:01:03,500

you could be already acheived going to

1394

01:01:08,200 --> 01:01:06,160

multiple places that are inhabited or

1395

01:01:11,560 --> 01:01:08,210

potential places where you could live

1396

01:01:13,630 --> 01:01:11,570

and and so what's the problem here

1397

01:01:17,020 --> 01:01:13,640

you know it means you get what I'm

1398

01:01:18,940 --> 01:01:17,030

saying right mm-hmm well and so that was

1399

01:01:20,950 --> 01:01:18,950

just point and that it was a very

1400

01:01:23,410 --> 01:01:20,960

dramatic presentation it did a lot of

1401

01:01:26,920 --> 01:01:23,420

reframe for a lot of it because

1402

01:01:29,920 --> 01:01:26,930

ultimately it's a situation where we you

1403

01:01:32,950 --> 01:01:29,930

know we can do that we could conceivably

1404

01:01:35,590 --> 01:01:32,960

do that if we had even just the

1405

01:01:37,090 --> 01:01:35,600

capabilities of a UFO so that they've

1406

01:01:40,950 --> 01:01:37,100

been demonstrating in those kind of

1407

01:01:45,340 --> 01:01:40,960

speed hmm Wow well that's interesting

1408

01:01:48,600 --> 01:01:45,350

so just just wanted to you mentioned

1409

01:01:52,870 --> 01:01:48,610

earlier that you you probably have

1410

01:01:54,910 --> 01:01:52,880

researched and you know basically worked

1411

01:02:02,710 --> 01:01:54,920

on about 1,500 cases did I hear you say

1412

01:02:05,950 --> 01:02:02,720

that something like that years 5:55

1413

01:02:09,220 --> 01:02:05,960

years of my life Wow yeah no all right

1414

01:02:12,060 --> 01:02:09,230

yeah it's it's been a long time in a lot

1415

01:02:14,020 --> 01:02:12,070

of cases and there for a while but I was

1416

01:02:16,360 --> 01:02:14,030

on with Ruth

1417

01:02:17,740 --> 01:02:16,370

it was the on a start team side and

1418

01:02:20,200 --> 01:02:17,750

there was also the deputy director of

1419

01:02:21,760 --> 01:02:20,210

investigations with them and then I was

1420

01:02:23,710 --> 01:02:21,770

also on the science review board

1421

01:02:26,230 --> 01:02:23,720

committee that was actually looking at

1422

01:02:28,240 --> 01:02:26,240

all of like the monthly cases that would

1423

01:02:31,810 --> 01:02:28,250

come in and we would pick the top ten

1424

01:02:33,730 --> 01:02:31,820

cases each month and so we were all

1425

01:02:38,740 --> 01:02:33,740

reviewing hundreds of cases even in the

1426

01:02:41,320 --> 01:02:38,750

files there so yeah I mean it's been a

1427

01:02:44,500 --> 01:02:41,330

long time but that's pretty much what I

1428

01:02:46,960 --> 01:02:44,510

did I'm not like other researchers that

1429

01:02:48,370 --> 01:02:46,970

were spent your time in books I'm the

1430

01:02:50,440 --> 01:02:48,380

kind of research so that was out in the

1431

01:02:52,840 --> 01:02:50,450

field talking with witnesses so I've got

1432

01:02:56,560 --> 01:02:52,850

more of an understanding of that than I

1433

01:02:58,150 --> 01:02:56,570

do you know the documented history and

1434

01:02:59,890 --> 01:02:58,160

everything else I leave that to people

1435

01:03:03,370 --> 01:02:59,900

like Paul Dean and some of the others

1436

01:03:04,840 --> 01:03:03,380

that the Isaac boys and and everybody

1437

01:03:07,990 --> 01:03:04,850

else that are out there doing that great

1438

01:03:13,480 --> 01:03:08,000

work of researching documents and things

1439

01:03:17,530 --> 01:03:13,490

now you said you've worked for your

1440

01:03:20,470 --> 01:03:17,540

Bennet defense contractor has your has

1441

01:03:26,200 --> 01:03:20,480

UFO the UFO topic ever interfered in any

1442

01:03:33,190 --> 01:03:26,210

type of way with that work my cube is

1443

01:03:34,780 --> 01:03:33,200

decorated and ice cream in fact the fun

1444

01:03:37,030 --> 01:03:34,790

part about it today was they sent the

1445

01:03:38,560 --> 01:03:37,040

list about the show to a lot of the

1446

01:03:41,200 --> 01:03:38,570

people that I work with and say hey I'm

1447

01:03:45,160 --> 01:03:41,210

gonna be on pro the program tonight you

1448

01:03:52,690 --> 01:03:45,170

might want to check into it so okay yeah

1449

01:03:55,660 --> 01:03:52,700

so yeah I mean you're our UFO expert you

1450

01:03:58,030 --> 01:03:55,670

know that thing so it's pretty much

1451

01:04:00,100 --> 01:03:58,040

exciting to see that that's happening

1452

01:04:02,140 --> 01:04:00,110

now and it's getting more attention well

1453

01:04:03,580 --> 01:04:02,150

I know you're you're sort of in the IT I

1454

01:04:06,460 --> 01:04:03,590

think you said the last time you were on

1455

01:04:11,850 --> 01:04:06,470

the show that yeah the some of the work

1456

01:04:16,720 --> 01:04:11,860

you do like cyber security as well any

1457

01:04:20,050 --> 01:04:16,730

yeah what they call the nipper net and

1458

01:04:23,140 --> 01:04:20,060

the super net site and so I get to work

1459

01:04:25,230 --> 01:04:23,150

in both worlds like that and and issue

1460

01:04:27,850 --> 01:04:25,240

that it's it's a mixture of

1461

01:04:29,320 --> 01:04:27,860

cybersecurity it's also

1462

01:04:31,270 --> 01:04:29,330

what they call portfolio management

1463

01:04:35,770 --> 01:04:31,280

meaning looking at I'm looking at

1464

01:04:38,020 --> 01:04:35,780

investments and how we can better save

1465

01:04:40,540 --> 01:04:38,030

money for the government and how we do

1466

01:04:42,220 --> 01:04:40,550

that so I play into that world I was

1467

01:04:44,020 --> 01:04:42,230

working with a data center consolidation

1468

01:04:49,480 --> 01:04:44,030

because we're trying to consolidate data

1469

01:04:52,210 --> 01:04:49,490

centers and and to go into the cloud and

1470

01:04:55,840 --> 01:04:52,220

we're also we're also getting into AI

1471

01:04:58,480 --> 01:04:55,850

kind of technologies and looking at big

1472

01:04:58,960 --> 01:04:58,490

data platforms so I'm into that kind of

1473

01:05:01,180 --> 01:04:58,970

world

1474

01:05:03,460 --> 01:05:01,190

Wow well one of the reasons I was asking

1475

01:05:05,050 --> 01:05:03,470

and because I was just kind of trying to

1476

01:05:07,240 --> 01:05:05,060

see a little bit of a parallel if there

1477

01:05:11,170 --> 01:05:07,250

is one at all I'm sure you know all

1478

01:05:14,980 --> 01:05:11,180

about this the NSA lost some tools some

1479

01:05:18,820 --> 01:05:14,990

cyber sabotage tools one was called

1480

01:05:20,560 --> 01:05:18,830

eternal blue and it's wreaking havoc I

1481

01:05:24,130 --> 01:05:20,570

know for instance right now in Baltimore

1482

01:05:25,990 --> 01:05:24,140

the city the city hall is basically down

1483

01:05:28,270 --> 01:05:26,000

because of the cyber tool that the NSA

1484

01:05:30,610 --> 01:05:28,280

actually created and somehow it got

1485

01:05:34,060 --> 01:05:30,620

hacked back in 2017 the tool got out

1486

01:05:35,860 --> 01:05:34,070

there it was actually offered at auction

1487

01:05:38,920 --> 01:05:35,870

and finally just given away for free so

1488

01:05:41,590 --> 01:05:38,930

now like North Korea is using it and and

1489

01:05:44,410 --> 01:05:41,600

possibly Russia it's all over the world

1490

01:05:47,350 --> 01:05:44,420

right now I'll do have a point that I'm

1491

01:05:49,960 --> 01:05:47,360

getting to eventually here but so just

1492

01:05:52,090 --> 01:05:49,970

for instance the city of Baltimore was

1493

01:05:53,200 --> 01:05:52,100

offered you know to pay a ransom of a

1494

01:05:55,330 --> 01:05:53,210

hundred thousand dollars and they

1495

01:05:57,070 --> 01:05:55,340

refused to and now it's cost them over

1496

01:05:59,770 --> 01:05:57,080

eighteen million dollars to get their

1497

01:06:04,630 --> 01:05:59,780

systems back and with loss fees and

1498

01:06:07,540 --> 01:06:04,640

everything else so when the NSA is asked

1499

01:06:09,690 --> 01:06:07,550

about this they say that they can't talk

1500

01:06:12,150 --> 01:06:09,700

about it because it's classified and

1501

01:06:17,440 --> 01:06:12,160

they won't you know they're kind of like

1502

01:06:19,510 --> 01:06:17,450

saying well we if if a Toyota

1503

01:06:21,430 --> 01:06:19,520

you know smashed into a bunch of people

1504

01:06:23,230 --> 01:06:21,440

and hurt them would you go after Toyota

1505

01:06:25,480 --> 01:06:23,240

you know they're kind of blaming it that

1506

01:06:27,910 --> 01:06:25,490

way they created the tools there they're

1507

01:06:29,980 --> 01:06:27,920

not taking any responsibility for the

1508

01:06:33,910 --> 01:06:29,990

leak of these tools and them tools out

1509

01:06:39,160 --> 01:06:33,920

there do you think there's any parallel

1510

01:06:41,620 --> 01:06:39,170

to the UFO topic in classified documents

1511

01:06:43,840 --> 01:06:41,630

and the way things are classified so the

1512

01:06:49,390 --> 01:06:43,850

just don't have to talk about the topic

1513

01:06:52,450 --> 01:06:49,400

of UFOs well this way I think that

1514

01:06:54,880 --> 01:06:52,460

there's a you know there is a concern I

1515

01:06:57,400 --> 01:06:54,890

mean the certainly the icy world the

1516

01:06:58,930 --> 01:06:57,410

intelligence side of the house and stuff

1517

01:07:01,480 --> 01:06:58,940

like that as always like watching what's

1518

01:07:04,720 --> 01:07:01,490

going on and and you know that pretty

1519

01:07:07,240 --> 01:07:04,730

much they're trying to protect that from

1520

01:07:09,160 --> 01:07:07,250

their standpoint and I can understand

1521

01:07:11,650 --> 01:07:09,170

trying to find out where things are at

1522

01:07:14,560 --> 01:07:11,660

the same time I know that from the

1523

01:07:18,400 --> 01:07:14,570

military side were we're doing our best

1524

01:07:21,760 --> 01:07:18,410

to shield and defend and protect as much

1525

01:07:25,840 --> 01:07:21,770

of our information as possible I mean it

1526

01:07:29,980 --> 01:07:25,850

and it and I'll say this much that you

1527

01:07:31,810 --> 01:07:29,990

know the DoD takes huge hits constantly

1528

01:07:35,650 --> 01:07:31,820

because everybody's not trying to get

1529

01:07:37,060 --> 01:07:35,660

into it right yeah so well you know you

1530

01:07:38,590 --> 01:07:37,070

know when you talk about like what

1531

01:07:41,170 --> 01:07:38,600

they're doing with companies and like

1532

01:07:45,130 --> 01:07:41,180

that well the doq gets maybe 20 or 40

1533

01:07:47,890 --> 01:07:45,140

times that traffic and a tenth and so

1534

01:07:50,230 --> 01:07:47,900

you got that and so there's a tremendous

1535

01:07:52,200 --> 01:07:50,240

effort going on to protect that we're

1536

01:07:56,680 --> 01:07:52,210

also very concerned about you know

1537

01:07:59,290 --> 01:07:56,690

things like for example you know control

1538

01:08:02,620 --> 01:07:59,300

systems and the ability for me to go

1539

01:08:04,210 --> 01:08:02,630

into a military location and control the

1540

01:08:07,240 --> 01:08:04,220

dam and you know and open up the

1541

01:08:09,130 --> 01:08:07,250

floodgates or if you've got you know and

1542

01:08:11,290 --> 01:08:09,140

how we're able to do that so there's a

1543

01:08:15,240 --> 01:08:11,300

tremendous like focus right now on cyber

1544

01:08:17,940 --> 01:08:15,250

security which I needs to be and to also

1545

01:08:22,240 --> 01:08:17,950

consolidate systems to get into better

1546

01:08:24,760 --> 01:08:22,250

like data centers and looking at how

1547

01:08:27,849 --> 01:08:24,770

were defended on our networks and and by

1548

01:08:30,280 --> 01:08:27,859

the way who's on them some of the

1549

01:08:32,260 --> 01:08:30,290

concerns we've had are that you know if

1550

01:08:34,030 --> 01:08:32,270

you take a look at even in building

1551

01:08:37,620 --> 01:08:34,040

weapons systems stuff like that well

1552

01:08:40,620 --> 01:08:37,630

sometimes you know we use we use the

1553

01:08:43,090 --> 01:08:40,630

universities to do some studies well

1554

01:08:45,700 --> 01:08:43,100

who's in the universities that has

1555

01:08:47,230 --> 01:08:45,710

access to something like that well you

1556

01:08:49,390 --> 01:08:47,240

find out a lot of the students that are

1557

01:08:52,990 --> 01:08:49,400

there are foreign students who are

1558

01:08:56,530 --> 01:08:53,000

coming in very knowledgeable you know

1559

01:08:58,510 --> 01:08:56,540

and are they providing information and

1560

01:09:00,970 --> 01:08:58,520

then you have the issue where we go into

1561

01:09:03,250 --> 01:09:00,980

other countries and like China and they

1562

01:09:05,800 --> 01:09:03,260

want to be able to have you provide over

1563

01:09:07,180 --> 01:09:05,810

the text with diagrams and various other

1564

01:09:09,430 --> 01:09:07,190

things of the things you want to be able

1565

01:09:11,620 --> 01:09:09,440

to do in our country so we're getting up

1566

01:09:14,440 --> 01:09:11,630

the farm is what I'm trying to say a lot

1567

01:09:17,410 --> 01:09:14,450

of times and we talk too much and we

1568

01:09:20,050 --> 01:09:17,420

also share a lot and so going back to

1569

01:09:21,970 --> 01:09:20,060

the analogy with the UFO thing if we're

1570

01:09:24,400 --> 01:09:21,980

looking at this technology and we're

1571

01:09:25,690 --> 01:09:24,410

coming up with ideas like I just got

1572

01:09:28,090 --> 01:09:25,700

through telling you about this patent

1573

01:09:32,740 --> 01:09:28,100

mmm-hmm how much are we giving up the

1574

01:09:34,780 --> 01:09:32,750

farm in that and and now do we want to

1575

01:09:37,300 --> 01:09:34,790

participate more protective and more

1576

01:09:39,460 --> 01:09:37,310

secure and the answer I would say to you

1577

01:09:43,510 --> 01:09:39,470

is we want to be more secure as a

1578

01:09:44,829 --> 01:09:43,520

country because ultimately all the other

1579

01:09:48,849 --> 01:09:44,839

countries are out trying to build

1580

01:09:51,490 --> 01:09:48,859

hypersonic weapons and weapons that can

1581

01:09:54,460 --> 01:09:51,500

defeat everything that we're doing and

1582

01:09:57,100 --> 01:09:54,470

you know why wouldn't we want to be the

1583

01:10:01,060 --> 01:09:57,110

best defended country around so I think

1584

01:10:03,540 --> 01:10:01,070

that we need to really get honest and

1585

01:10:06,640 --> 01:10:03,550

say that we can't be as open as we like

1586

01:10:12,490 --> 01:10:06,650

and we need to do a better job of

1587

01:10:16,320 --> 01:10:12,500

protecting what we do have yes yes and

1588

01:10:18,850 --> 01:10:16,330

but also do you think that as far as

1589

01:10:20,470 --> 01:10:18,860

classified I think last time you were on

1590

01:10:24,400 --> 01:10:20,480

the show where you were talking about

1591

01:10:28,660 --> 01:10:24,410

you were getting some FOIA documents and

1592

01:10:31,570 --> 01:10:28,670

is that also something that they

1593

01:10:34,420 --> 01:10:31,580

assigned the SCU is actually heavily

1594

01:10:38,050 --> 01:10:34,430

involved in on encases is getting you

1595

01:10:40,270 --> 01:10:38,060

know the government documents oh yes I

1596

01:10:41,980 --> 01:10:40,280

mean if you take a look at it well if

1597

01:10:43,510 --> 01:10:41,990

you take a look at our report and it's

1598

01:10:44,560 --> 01:10:43,520

not just us there's a whole bunch of

1599

01:10:46,480 --> 01:10:44,570

people I mean my god

1600

01:10:49,030 --> 01:10:46,490

dia must have been pummeled and they

1601

01:10:51,370 --> 01:10:49,040

were pumping pummeled by requests before

1602

01:10:54,370 --> 01:10:51,380

you uh you know releases and stuff like

1603

01:10:55,720 --> 01:10:54,380

that as a result of just those videos

1604

01:10:56,830 --> 01:10:55,730

and things like that oh yeah

1605

01:10:59,890 --> 01:10:56,840

and everyone was trying to find out

1606

01:11:01,810 --> 01:10:59,900

where where is a tip and who does it

1607

01:11:03,640 --> 01:11:01,820

support to and and you know and

1608

01:11:04,690 --> 01:11:03,650

everything else so yeah it's for

1609

01:11:08,080 --> 01:11:04,700

requests

1610

01:11:10,300 --> 01:11:08,090

basically pummeled a lot of countries

1611

01:11:11,680 --> 01:11:10,310

including okay I mean Nick Pope would

1612

01:11:13,930 --> 01:11:11,690

probably tell you about what they had in

1613

01:11:15,880 --> 01:11:13,940

the UK I mean part of the reason why

1614

01:11:17,200 --> 01:11:15,890

that they went to doing the releases

1615

01:11:19,240 --> 01:11:17,210

stuff like that was because they were

1616

01:11:22,930 --> 01:11:19,250

being pummeled with these requests for

1617

01:11:26,230 --> 01:11:22,940

information and so we have a whole

1618

01:11:28,840 --> 01:11:26,240

section in our reports that are

1619

01:11:30,880 --> 01:11:28,850

dedicated to strictly just all the FOIA

1620

01:11:34,740 --> 01:11:30,890

requests that we attempted and it didn't

1621

01:11:37,810 --> 01:11:34,750

come out so we do try to get what we can

1622

01:11:40,300 --> 01:11:37,820

and we understand when it's blacked out

1623

01:11:43,270 --> 01:11:40,310

there is probably a very good reason for

1624

01:11:48,640 --> 01:11:43,280

it being blacked out and you know and

1625

01:11:51,940 --> 01:11:48,650

take a look at the Moller report you

1626  
01:11:54,430 --> 01:11:51,950  
know and there's justifiable reasons for

1627  
01:11:57,400 --> 01:11:54,440  
some of those things you know like the

1628  
01:11:58,960 --> 01:11:57,410  
videos often don't have all of the Nimet

1629  
01:12:00,880 --> 01:11:58,970  
space they were cleansed to the point

1630  
01:12:03,010 --> 01:12:00,890  
where they didn't have the GPS locations

1631  
01:12:04,150 --> 01:12:03,020  
well why is that important because we

1632  
01:12:08,020 --> 01:12:04,160  
don't want to announce where we're doing

1633  
01:12:09,850 --> 01:12:08,030  
our exercises yeah let's advise the

1634  
01:12:12,250 --> 01:12:09,860  
Chinese or the Russians or somebody else

1635  
01:12:15,160 --> 01:12:12,260  
oh you know over so we know where we're

1636  
01:12:16,990 --> 01:12:15,170  
gonna be and now they could be out doing

1637  
01:12:19,720 --> 01:12:17,000  
all kinds of things to interact with

1638  
01:12:23,050 --> 01:12:19,730

that I'm sure you've probably heard that

1639

01:12:24,640 --> 01:12:23,060

there's been controversy on of people

1640

01:12:27,190 --> 01:12:24,650

saying that you know there's no real

1641

01:12:30,250 --> 01:12:27,200

clear record on how those those videos

1642

01:12:31,510 --> 01:12:30,260

are released and in I don't know have

1643

01:12:34,990 --> 01:12:31,520

you been following into the back and

1644

01:12:38,950 --> 01:12:35,000

forth on that yeah and we finally got

1645

01:12:41,290 --> 01:12:38,960

those the the document that was released

1646

01:12:43,180 --> 01:12:41,300

I think George Knapp released it that

1647

01:12:45,790 --> 01:12:43,190

showed that the release happened and I

1648

01:12:47,770 --> 01:12:45,800

talked with Lou and and Lou indicated

1649

01:12:48,760 --> 01:12:47,780

that you know there are reasons why you

1650

01:12:50,680 --> 01:12:48,770

don't you list

1651  
01:12:52,240 --> 01:12:50,690  
you know balloons and various other

1652  
01:12:54,370 --> 01:12:52,250  
things in the Department of Defense

1653  
01:12:57,790 --> 01:12:54,380  
instead of putting the word UFO on it

1654  
01:13:00,100 --> 01:12:57,800  
right so you know bottom line was it was

1655  
01:13:03,700 --> 01:13:00,110  
cleared for release and any provided

1656  
01:13:06,670 --> 01:13:03,710  
document now the big controversy is did

1657  
01:13:08,860 --> 01:13:06,680  
did will work for a tip and let's see if

1658  
01:13:10,690 --> 01:13:08,870  
we can find a document that's out there

1659  
01:13:13,150 --> 01:13:10,700  
that shows who did that well there's

1660  
01:13:15,400 --> 01:13:13,160  
many documents top this he's doing that

1661  
01:13:17,800 --> 01:13:15,410  
so there's an attempt right now to

1662  
01:13:18,610 --> 01:13:17,810  
discredit Lou and yeah that he's not he

1663  
01:13:23,020 --> 01:13:18,620

wasn't connected

1664

01:13:25,030 --> 01:13:23,030

a tip well that's that's malarkey you

1665

01:13:27,010 --> 01:13:25,040

had contractors that we had to report to

1666

01:13:30,460 --> 01:13:27,020

him there are people up there I mean

1667

01:13:32,590 --> 01:13:30,470

that had to interact with him and I

1668

01:13:35,770 --> 01:13:32,600

don't care what this DoD spokesman said

1669

01:13:37,480 --> 01:13:35,780

the DoD spokesman bot oh by the way also

1670

01:13:43,360 --> 01:13:37,490

previously said that there was no

1671

01:13:47,080 --> 01:13:43,370

program on UFOs they were saying that

1672

01:13:49,390 --> 01:13:47,090

same thing spokesman I'm sorry but you

1673

01:13:51,670 --> 01:13:49,400

know go to a spokesman you know if I go

1674

01:13:56,680 --> 01:13:51,680

to the DoD you only share this like the

1675

01:13:58,720 --> 01:13:56,690

DoD says this or they save that right do

1676

01:14:03,370 --> 01:13:58,730

you believe that that's representative

1677

01:14:05,800 --> 01:14:03,380

of everybody in the DoD no it's it's

1678

01:14:07,720 --> 01:14:05,810

basically somebody that you know the

1679

01:14:10,030 --> 01:14:07,730

public affairs office may be that might

1680

01:14:13,000 --> 01:14:10,040

be responding and that's based upon the

1681

01:14:16,120 --> 01:14:13,010

information that they have so you know

1682

01:14:19,360 --> 01:14:16,130

FOIA requests are not handled

1683

01:14:22,330 --> 01:14:19,370

consistently there there's I can tell

1684

01:14:24,640 --> 01:14:22,340

you this much then I pointed this I my

1685

01:14:27,040 --> 01:14:24,650

computer's chock-full of UFO information

1686

01:14:29,590 --> 01:14:27,050

on it and it's an army computer right

1687

01:14:31,090 --> 01:14:29,600

and you know three McKinnon wanted if I

1688

01:14:34,530 --> 01:14:31,100

meant do it you would have a field day

1689

01:14:37,000 --> 01:14:34,540

as fine and say now that the entire army

1690

01:14:46,000 --> 01:14:37,010

so I see where you're going with that

1691

01:14:49,870 --> 01:14:46,010

yeah so it's pretty funny you know about

1692

01:14:51,670 --> 01:14:49,880

the DoD or how it works and apparent a

1693

01:14:55,150 --> 01:14:51,680

lot of people just don't understand it

1694

01:14:57,940 --> 01:14:55,160

and why did they do what they do is mr.

1695

01:14:59,620 --> 01:14:57,950

mr. but the people on the inside of a

1696

01:15:02,260 --> 01:14:59,630

bender but they understand completely

1697

01:15:03,670 --> 01:15:02,270

and and then they kind of like laugh of

1698

01:15:07,120 --> 01:15:03,680

what they see that's out there in the

1699

01:15:08,620 --> 01:15:07,130

and the unclasp role but yeah anyway why

1700

01:15:10,660 --> 01:15:08,630

do you think um you just said you don't

1701

01:15:14,290 --> 01:15:10,670

know why they do it I I don't I don't

1702

01:15:16,890 --> 01:15:14,300

know why either but you know why would

1703

01:15:19,540 --> 01:15:16,900

you suppose do you think there's so I

1704

01:15:21,280 --> 01:15:19,550

always try to figure out motives and why

1705

01:15:23,920 --> 01:15:21,290

someone would try to discredit this

1706

01:15:30,100 --> 01:15:23,930

whole thing and and say it's all hogwash

1707

01:15:32,379 --> 01:15:30,110

and and I don't really get it well I do

1708

01:15:34,899 --> 01:15:32,389

let me Louie even told you

1709

01:15:36,909 --> 01:15:34,909

that he said he basically said look I

1710

01:15:39,699 --> 01:15:36,919

ran into problems where people wanted to

1711

01:15:41,529 --> 01:15:39,709

keep this thing quiet and people it was

1712

01:15:45,009 --> 01:15:41,539

against their religious beliefs it was

1713

01:15:48,459 --> 01:15:45,019

against whatever they so he experienced

1714

01:15:50,379 --> 01:15:48,469

that pushback which my experience well

1715

01:15:53,620 --> 01:15:50,389

on a lot of different things that I do

1716

01:15:56,939 --> 01:15:53,630

where there's pushback and and you know

1717

01:15:59,979 --> 01:15:56,949

not everybody thinks the same way and so

1718

01:16:02,649 --> 01:15:59,989

you know bottom line might be an element

1719

01:16:04,509 --> 01:16:02,659

within the DoD that says well we need to

1720

01:16:06,489 --> 01:16:04,519

silence this but at the same time

1721

01:16:09,520 --> 01:16:06,499

somebody else is saying that we need to

1722

01:16:11,859 --> 01:16:09,530

open up more or when you do that and so

1723

01:16:13,689 --> 01:16:11,869

you have differences of opinions and you

1724

01:16:16,569 --> 01:16:13,699

have differences of people knowing

1725

01:16:19,359 --> 01:16:16,579

certain types of data and information

1726

01:16:22,179 --> 01:16:19,369

you know just the same as you do in

1727

01:16:24,069 --> 01:16:22,189

talking to people and the regular world

1728

01:16:26,949 --> 01:16:24,079

that you know you'll get different

1729

01:16:28,509 --> 01:16:26,959

opinions you'll get different different

1730

01:16:29,979 --> 01:16:28,519

statements from people I can go talk to

1731

01:16:32,139 --> 01:16:29,989

two people over where I'm at right now

1732

01:16:34,659 --> 01:16:32,149

and get two different two different

1733

01:16:37,419 --> 01:16:34,669

statements and have them you know but

1734

01:16:39,250 --> 01:16:37,429

they'll be contradictory and so that's

1735

01:16:41,979 --> 01:16:39,260

just an inner of these silos that are

1736

01:16:44,169 --> 01:16:41,989

out there in the DoD world where

1737

01:16:47,080 --> 01:16:44,179

information is not easily shared across

1738

01:16:48,009 --> 01:16:47,090

it and and and there's then you're

1739

01:16:50,529 --> 01:16:48,019

running into problems with

1740

01:16:52,540 --> 01:16:50,539

classification sometimes where that well

1741

01:16:54,639 --> 01:16:52,550

can't talk about it and so okay then

1742

01:16:56,199 --> 01:16:54,649

you're trying to figure out what are you

1743

01:16:57,850 --> 01:16:56,209

trying to say well I can't tell you

1744

01:17:02,939 --> 01:16:57,860

everything I want to say what am I

1745

01:17:07,419 --> 01:17:02,949

supposed to do with that hmm yeah so

1746

01:17:11,219 --> 01:17:07,429

okay well no I I think it's interesting

1747

01:17:14,649 --> 01:17:11,229

in you know I didn't really look at it

1748

01:17:17,709 --> 01:17:14,659

until you just mentioned I didn't look

1749

01:17:20,169 --> 01:17:17,719

at why why people may have a reason to

1750

01:17:21,850 --> 01:17:20,179

try to discredit and no I understand

1751

01:17:24,370 --> 01:17:21,860

what you're saying I'm gonna open the

1752

01:17:26,589 --> 01:17:24,380

line up if anyone wants to call in with

1753

01:17:28,839 --> 01:17:26,599

a question that phone number six oh

1754

01:17:31,540 --> 01:17:28,849

three nine six seven four OH three oh

1755

01:17:36,879 --> 01:17:31,550

and if you have a question for our guest

1756

01:17:39,129 --> 01:17:36,889

please give us a ring so as far as the

1757

01:17:43,409 --> 01:17:39,139

cases that you have worked on in the

1758

01:17:48,570 --> 01:17:43,419

past what what would you consider the

1759

01:17:55,990 --> 01:17:51,190

most fascinating case yeah well I've had

1760

01:17:58,990 --> 01:17:56,000

I I've had you know I didn't working on

1761

01:18:02,290 --> 01:17:59,000

that case in 2013

1762

01:18:04,510 --> 01:18:02,300

I mean I'm obviously things like

1763

01:18:06,730 --> 01:18:04,520

Aguadilla and the Nimitz case are just

1764

01:18:09,220 --> 01:18:06,740

really really good but in the past I in

1765

01:18:13,210 --> 01:18:09,230

2013 I also I had a pilot case that was

1766

01:18:19,090 --> 01:18:13,220

pretty fascinating for a small private

1767

01:18:22,860 --> 01:18:19,100

pilot was flying along near southern

1768

01:18:25,240 --> 01:18:22,870

mississippi and and basically he had a

1769

01:18:27,990 --> 01:18:25,250

basically an object that came up about

1770

01:18:31,720 --> 01:18:28,000

four foot in diameter that was you know

1771

01:18:34,810 --> 01:18:31,730

like kind of like a disc shape if you

1772

01:18:36,730 --> 01:18:34,820

would there was no protrusions or ports

1773

01:18:40,120 --> 01:18:36,740

or anything like that on it and then

1774

01:18:41,980 --> 01:18:40,130

that bottom line it came underneath the

1775

01:18:44,100 --> 01:18:41,990

wing of his aircraft and it was

1776

01:18:47,170 --> 01:18:44,110

following along as he was going at about

1777

01:18:48,820 --> 01:18:47,180

you know roughly about maybe 2,000 feet

1778

01:18:51,190 --> 01:18:48,830

altitude and I'm trying to remember all

1779

01:18:54,190 --> 01:18:51,200

the details that he was in moving about

1780

01:18:55,960 --> 01:18:54,200

maybe 254 miles an hour and so he's

1781

01:18:58,120 --> 01:18:55,970

flying along it was a beautiful day and

1782

01:18:59,470 --> 01:18:58,130

he looks over underneath his wing and

1783

01:19:02,560 --> 01:18:59,480

here's a five dick that's right there

1784

01:19:05,860 --> 01:19:02,570

that's moving along with him and uh and

1785

01:19:07,480 --> 01:19:05,870

then so just as query was concerned

1786

01:19:09,010 --> 01:19:07,490

about what what it was doing it he kept

1787

01:19:10,780 --> 01:19:09,020

like looking at it then even look bad

1788

01:19:13,720 --> 01:19:10,790

and then the next thing you know is that

1789

01:19:17,980 --> 01:19:13,730

it started to like move behind him and

1790

01:19:19,390 --> 01:19:17,990

fall back well we thought you know ok

1791

01:19:20,800 --> 01:19:19,400

well that's a pretty interesting thing

1792

01:19:25,120 --> 01:19:20,810

and tried to do everything we could to

1793

01:19:27,220 --> 01:19:25,130

find out about it laughs at all so let's

1794

01:19:31,630 --> 01:19:27,230

get some radar data we went to six radar

1795

01:19:35,380 --> 01:19:31,640

sites and got the FAA data and had that

1796

01:19:37,750 --> 01:19:35,390

data looked at and interesting enough we

1797

01:19:40,090 --> 01:19:37,760

found his plane flying along on one of

1798

01:19:42,460 --> 01:19:40,100

the radars and then on another radar

1799

01:19:44,680 --> 01:19:42,470

that has to be in Alabama we were able

1800

01:19:47,230 --> 01:19:44,690

to get the radar track of the object

1801

01:19:49,420 --> 01:19:47,240

which then showed that it was moving and

1802

01:19:52,090 --> 01:19:49,430

making some very interesting speed

1803

01:19:55,780 --> 01:19:52,100

changes and direction changes like 120

1804

01:19:57,940 --> 01:19:55,790

degree change the drop back from the 254

1805

01:20:00,050 --> 01:19:57,950

miles maybe an hour to something like

1806

01:20:03,290 --> 01:20:00,060

about 35 miles an hour

1807

01:20:05,480 --> 01:20:03,300

and then you know and so so we had that

1808

01:20:07,850 --> 01:20:05,490

radar track for that so that you know it

1809

01:20:10,250 --> 01:20:07,860

to me the most exciting cases are when

1810

01:20:13,850 --> 01:20:10,260

you can get some multi-sensory kinds of

1811

01:20:19,100 --> 01:20:13,860

like information or or you have multiple

1812

01:20:21,080 --> 01:20:19,110

witness cases that happen I've had you

1813

01:20:24,070 --> 01:20:21,090

know other cases you know where people

1814

01:20:26,990 --> 01:20:24,080

have seen some things like the triangles

1815

01:20:29,390 --> 01:20:27,000

I've had triangle cases that were over

1816

01:20:34,690 --> 01:20:29,400

for example during military exercises of

1817

01:20:37,190 --> 01:20:34,700

live-fire was a live-fire exercise army

1818

01:20:39,620 --> 01:20:37,200

incident that was going on down in in

1819

01:20:42,290 --> 01:20:39,630

Southern Mississippi and they were doing

1820

01:20:45,260 --> 01:20:42,300

an exercise and you had one of the

1821

01:20:48,020 --> 01:20:45,270

soldiers happen to look up and in

1822

01:20:49,880 --> 01:20:48,030

another soldier have to see it too while

1823

01:20:51,200 --> 01:20:49,890

they're doing the live-fire exercise and

1824

01:20:53,120 --> 01:20:51,210

all sort of stuff that there was a

1825

01:20:55,130 --> 01:20:53,130

triangle-shaped object it was just above

1826

01:20:58,910 --> 01:20:55,140

them and watching kind of things going

1827

01:21:01,160 --> 01:20:58,920

on and then I had another case over in

1828

01:21:04,100 --> 01:21:01,170

Mississippi where you have an individual

1829

01:21:06,950 --> 01:21:04,110

who was an ex-sheriff this is an

1830

01:21:10,130 --> 01:21:06,960

enormous asipi and and he's basically

1831

01:21:12,920 --> 01:21:10,140

out one night and happens to look up and

1832

01:21:16,420 --> 01:21:12,930

see three objects moving in crisis

1833

01:21:20,690 --> 01:21:16,430

dry-ass a small or kinda like object

1834

01:21:23,570 --> 01:21:20,700

being followed by a helicopter which was

1835

01:21:27,500 --> 01:21:23,580

also followed by a triangular shaped

1836

01:21:32,830 --> 01:21:27,510

object and they were moving across the

1837

01:21:37,550 --> 01:21:32,840

sky he happened to apparently he was

1838

01:21:39,620 --> 01:21:37,560

somehow he was conversing with he he he

1839

01:21:41,390 --> 01:21:39,630

was out in his backyard I'm trying

1840

01:21:44,450 --> 01:21:41,400

remember all the details on this and

1841

01:21:47,140 --> 01:21:44,460

there was like a field behind him and he

1842

01:21:49,640 --> 01:21:47,150

goes back in the field hears voices and

1843

01:21:53,740 --> 01:21:49,650

apparently and there was like military

1844

01:21:56,120 --> 01:21:53,750

are wearing black camo kind of you know

1845

01:21:59,450 --> 01:21:56,130

uniformed military type uniforms that

1846

01:22:00,650 --> 01:21:59,460

were back there and a guy hat around his

1847

01:22:05,270 --> 01:22:00,660

neck you know you know those like

1848

01:22:07,250 --> 01:22:05,280

cigarettes that the ladies for and maybe

1849

01:22:08,870 --> 01:22:07,260

New York City back in the forties where

1850

01:22:10,940 --> 01:22:08,880

they had the strap around their neck and

1851  
01:22:11,990 --> 01:22:10,950  
they had some sort of a flat thing and

1852  
01:22:12,590 --> 01:22:12,000  
they were walking around selling

1853  
01:22:13,760 --> 01:22:12,600  
cigarettes

1854  
01:22:15,800 --> 01:22:13,770  
oh yeah mm-hmm so

1855  
01:22:17,990 --> 01:22:15,810  
heey this was almost like a

1856  
01:22:19,610 --> 01:22:18,000  
remote-control device that he had around

1857  
01:22:20,720 --> 01:22:19,620  
his neck and he's doing some sort of

1858  
01:22:22,700 --> 01:22:20,730  
remote control thing

1859  
01:22:24,440 --> 01:22:22,710  
well they immediately told him to get

1860  
01:22:27,170 --> 01:22:24,450  
out of the woods well this private I

1861  
01:22:29,720 --> 01:22:27,180  
mean like a private property that not

1862  
01:22:32,750 --> 01:22:29,730  
theirs and it's like so anyway he got

1863  
01:22:35,810 --> 01:22:32,760

and they told him to shut up and he

1864

01:22:39,860 --> 01:22:35,820

didn't see anything and so please and

1865

01:22:41,240 --> 01:22:39,870

then assign an investigator for us from

1866

01:22:42,500 --> 01:22:41,250

southern part of Mississippi to get

1867

01:22:45,440 --> 01:22:42,510

ahold of him and the next thing you know

1868

01:22:48,350 --> 01:22:45,450

he's having a conversation with it back

1869

01:22:51,020 --> 01:22:48,360

and forth and this was like a couple

1870

01:22:54,500 --> 01:22:51,030

days later that he had a knock on the

1871

01:22:56,740 --> 01:22:54,510

door and somebody came dressed up and

1872

01:23:00,320 --> 01:22:56,750

like a suit or something like that and

1873

01:23:02,090 --> 01:23:00,330

and was holding up the emails that he

1874

01:23:05,120 --> 01:23:02,100

was having with my field investigator

1875

01:23:07,940 --> 01:23:05,130

and said we I thought we told you not to

1876

01:23:12,260 --> 01:23:07,950

be talking about this oh my goodness Wow

1877

01:23:13,340 --> 01:23:12,270

so he basically shut up and he wouldn't

1878

01:23:17,150 --> 01:23:13,350

talk about it anymore

1879

01:23:20,210 --> 01:23:17,160

and so I've had cases like that I've had

1880

01:23:22,640 --> 01:23:20,220

cases where I've had other the it was

1881

01:23:24,640 --> 01:23:22,650

featured on the front page of The

1882

01:23:27,830 --> 01:23:24,650

National Enquirer

1883

01:23:31,430 --> 01:23:27,840

Pratt got ahold of it back in the 73

1884

01:23:33,710 --> 01:23:31,440

time period I was with patrolman Bob

1885

01:23:35,450 --> 01:23:33,720

bales and and there were like 30

1886

01:23:37,160 --> 01:23:35,460

residents are all and watching this

1887

01:23:38,870 --> 01:23:37,170

object that was doing some incredible

1888

01:23:42,590 --> 01:23:38,880

stuff and it eventually went over the

1889

01:23:43,970 --> 01:23:42,600

patrol car and he had a camera and took

1890

01:23:47,990 --> 01:23:43,980

a picture of it it was spotted across

1891

01:23:53,540 --> 01:23:48,000

the all that but 30 witnesses all seeing

1892

01:23:56,950 --> 01:23:53,550

this thing and it was an odd object that

1893

01:23:59,270 --> 01:23:56,960

was pretty impressive and then I had

1894

01:24:01,070 --> 01:23:59,280

encounters where I was getting a UFO

1895

01:24:03,080 --> 01:24:01,080

presentation at wright-patterson Air

1896

01:24:07,070 --> 01:24:03,090

Force Base to the people done it for in

1897

01:24:11,420 --> 01:24:07,080

technology division or both and and when

1898

01:24:14,450 --> 01:24:11,430

I would have I had an one officer said

1899

01:24:16,190 --> 01:24:14,460

well I'm a pilot and my job like gotten

1900

01:24:20,480 --> 01:24:16,200

so on these things and they come back

1901

01:24:22,910 --> 01:24:20,490

and they would take my film and I would

1902

01:24:24,770 --> 01:24:22,920

be not supposed to be talking about it

1903

01:24:26,090 --> 01:24:24,780

and here he was Ptolemy's and private

1904

01:24:29,030 --> 01:24:26,100

about it

1905

01:24:31,580 --> 01:24:29,040

then I heard landing cases where you'd

1906

01:24:33,740 --> 01:24:31,590

have effects and I mentioned the 70 foot

1907

01:24:37,040 --> 01:24:33,750

diameter area yeah well in Carrollton

1908

01:24:42,110 --> 01:24:37,050

Ohio back in the mid 70s so I've had a

1909

01:24:43,910 --> 01:24:42,120

lot of very very interesting cases I had

1910

01:24:45,680 --> 01:24:43,920

quite a number of them when I was like

1911

01:24:47,510 --> 01:24:45,690

here in Alabama I was a state director

1912

01:24:50,150 --> 01:24:47,520

and so I was investigating a lot of the

1913

01:24:52,940 --> 01:24:50,160

cases here and then of course the ones

1914

01:24:54,920 --> 01:24:52,950

back in Dayton a lot of interesting

1915

01:24:57,140 --> 01:24:54,930

cases as well and some of those weren't

1916

01:25:02,120 --> 01:24:57,150

involved like I said a bullet book

1917

01:25:04,250 --> 01:25:02,130

officer I would be I had been 73 I mean

1918

01:25:06,140 --> 01:25:04,260

that was just a wild and crazy time I

1919

01:25:08,480 --> 01:25:06,150

couldn't even keep up with the reports

1920

01:25:11,540 --> 01:25:08,490

that were coming in but you had

1921

01:25:15,290 --> 01:25:11,550

everything from landings to do name it I

1922

01:25:17,960 --> 01:25:15,300

mean it was it was a crazy time Wow

1923

01:25:21,040 --> 01:25:17,970

though those are just a few of the cases

1924

01:25:23,000 --> 01:25:21,050

that I've dealt with and I've seen I

1925

01:25:25,370 --> 01:25:23,010

have heard some of the incredible

1926

01:25:28,220 --> 01:25:25,380

stories I can't begin to tell you that

1927

01:25:29,660 --> 01:25:28,230

that's amazing those I love to hear

1928

01:25:31,880 --> 01:25:29,670

about cases that I haven't heard about

1929

01:25:34,550 --> 01:25:31,890

before and who pose a real some real

1930

01:25:37,400 --> 01:25:34,560

good ones yeah recently you mentioned

1931

01:25:40,610 --> 01:25:37,410

this the pilot and the encounters

1932

01:25:42,080 --> 01:25:40,620

they're going back to what we talked

1933

01:25:44,900 --> 01:25:42,090

briefly about at some point the

1934

01:25:47,240 --> 01:25:44,910

different videos that were released one

1935

01:25:51,650 --> 01:25:47,250

of them is as the nickname the gimbal

1936

01:25:55,340 --> 01:25:51,660

and the giggle UFO and that was shot by

1937

01:25:57,530 --> 01:25:55,350

I believe in new technology I believe

1938

01:26:00,200 --> 01:25:57,540

that's two in two thousand fourteen or

1939

01:26:04,850 --> 01:26:00,210

fifteen around there off off the East

1940

01:26:06,380 --> 01:26:04,860

Coast and someone had wrote now I

1941

01:26:08,360 --> 01:26:06,390

haven't seen any article but someone

1942

01:26:11,390 --> 01:26:08,370

wrote me an email saying that seth

1943

01:26:16,400 --> 01:26:11,400

shostack is from SETI the senior

1944

01:26:17,960 --> 01:26:16,410

scientists at SETI had either written or

1945

01:26:19,960 --> 01:26:17,970

maybe talked on his show he does a show

1946

01:26:25,700 --> 01:26:19,970

on science it's actually really good

1947

01:26:27,350 --> 01:26:25,710

that that with new technology you have

1948

01:26:30,500 --> 01:26:27,360

anomalies in other words he's already

1949

01:26:33,050 --> 01:26:30,510

explaining this away as something that

1950

01:26:37,520 --> 01:26:33,060

is just an anomaly that has nothing to

1951

01:26:40,010 --> 01:26:37,530

do with you know UFOs yeah I love that

1952

01:26:42,260 --> 01:26:40,020

kind of like logic let me go

1953

01:26:44,930 --> 01:26:42,270

you're talking about you're talking

1954

01:26:47,450 --> 01:26:44,940

about state-of-the-art equipment that

1955

01:26:50,540 --> 01:26:47,460

basically is being placed on military

1956

01:26:52,580 --> 01:26:50,550

aircraft and and by the way it's not

1957

01:26:55,490 --> 01:26:52,590

just on the aircraft but you're talking

1958

01:26:58,280 --> 01:26:55,500

you got the aegis system that we have on

1959

01:27:00,200 --> 01:26:58,290

ships and you've got so many blasted

1960

01:27:02,000 --> 01:27:00,210

sensors and different kinds of radars

1961

01:27:04,700 --> 01:27:02,010

I mean if you take a look at the sheer

1962

01:27:07,130 --> 01:27:04,710

volume of technology aboard the the

1963

01:27:08,900 --> 01:27:07,140

Nimitz and that type thing it's it's

1964

01:27:11,720 --> 01:27:08,910

really phenomenal but going back to the

1965

01:27:14,420 --> 01:27:11,730

aircraft the aircraft have on an AVR

1966

01:27:17,450 --> 01:27:14,430

these things are tested to the nth

1967

01:27:21,140 --> 01:27:17,460

degree they have capabilities that can

1968

01:27:23,479 --> 01:27:21,150

go down and and the incredible level you

1969

01:27:26,330 --> 01:27:23,489

know the thermal imaging can probably

1970

01:27:29,510 --> 01:27:26,340

detect a hundreds of degree variants and

1971

01:27:33,200 --> 01:27:29,520

temperatures you can you can you can

1972

01:27:34,880 --> 01:27:33,210

catch so you know yeah right I believe

1973

01:27:37,490 --> 01:27:34,890

that

1974

01:27:39,610 --> 01:27:37,500

multiple aircraft using the

1975

01:27:42,140 --> 01:27:39,620

state-of-the-art kind of technology or

1976

01:27:45,170 --> 01:27:42,150

experiencing kinds of problems like that

1977

01:27:48,530 --> 01:27:45,180

and they happen to show up video ok you

1978

01:27:52,520 --> 01:27:48,540

know give me a break and it you know and

1979

01:27:54,950 --> 01:27:52,530

it's just where you have you know you

1980

01:27:57,950 --> 01:27:54,960

have people out there that just can't

1981

01:27:59,840 --> 01:27:57,960

either accept it or they just I mean I

1982

01:28:02,900 --> 01:27:59,850

saw something where somebody's name you

1983

01:28:05,510 --> 01:28:02,910

know so you had a journalist it goes out

1984

01:28:06,709 --> 01:28:05,520

to for example and they want to put

1985

01:28:09,170 --> 01:28:06,719

something together they go out and they

1986

01:28:10,850 --> 01:28:09,180

find a scientist somewhere well give me

1987

01:28:12,709 --> 01:28:10,860

your thoughts you're a scientist you

1988

01:28:15,020 --> 01:28:12,719

know paint big tell me what you think

1989

01:28:18,080 --> 01:28:15,030

about this thing and so they they come

1990

01:28:20,209 --> 01:28:18,090

up well they were all hallucinations or

1991

01:28:22,220 --> 01:28:20,219

you know that people can do this and you

1992

01:28:26,660 --> 01:28:22,230

can people can do that yeah massively

1993

01:28:29,510 --> 01:28:26,670

deletions yeah mm-hmm so how how long

1994

01:28:31,550 --> 01:28:29,520

did you spend studying this well I've

1995

01:28:33,890 --> 01:28:31,560

never seen it I've only I just saw the

1996

01:28:35,900 --> 01:28:33,900

video okay so they don't talk about that

1997

01:28:38,690 --> 01:28:35,910

so now you've got the article being

1998

01:28:41,030 --> 01:28:38,700

written where scientists saved it yeah

1999

01:28:43,160 --> 01:28:41,040

and the rest of us are going and saying

2000

01:28:45,830 --> 01:28:43,170

oh my god you know if that's what it's

2001

01:28:47,479 --> 01:28:45,840

gotta be it I don't do that well excuse

2002

01:28:49,610 --> 01:28:47,489

me but you know when you're doing

2003

01:28:51,260 --> 01:28:49,620

science you follow the data and the data

2004

01:28:53,899 --> 01:28:51,270

should take your where you're gonna make

2005

01:28:55,939 --> 01:28:53,909

conclusions and the data is

2006

01:28:58,010 --> 01:28:55,949

without it's not even really even about

2007

01:29:00,950 --> 01:28:58,020

too much in the way of testimony because

2008

01:29:03,439 --> 01:29:00,960

testimony from healings is also saw

2009

01:29:06,160 --> 01:29:03,449

fraught with all kinds of memory issues

2010

01:29:08,959 --> 01:29:06,170

and fraught with problems and

2011

01:29:11,209 --> 01:29:08,969

interpretations and so guess what the 30

2012

01:29:12,950 --> 01:29:11,219

people that all saw the same object back

2013

01:29:14,990 --> 01:29:12,960

and I was talking about they all have

2014

01:29:16,490 --> 01:29:15,000

different ways of describing it saw

2015

01:29:18,620 --> 01:29:16,500

different things and heard different

2016

01:29:20,450 --> 01:29:18,630

things and that type stuff so you're

2017

01:29:22,580 --> 01:29:20,460

gonna always experience variants of that

2018

01:29:26,149 --> 01:29:22,590

but I mean the bottom line there is that

2019

01:29:28,939 --> 01:29:26,159

you know the data doesn't lie so if you

2020

01:29:30,410 --> 01:29:28,949

can get data that that's great and you

2021

01:29:33,439 --> 01:29:30,420

should follow the data as much you can

2022

01:29:35,240 --> 01:29:33,449

now when you don't have data like if I'm

2023

01:29:37,189 --> 01:29:35,250

waiting for the radar to come from that

2024

01:29:39,169 --> 01:29:37,199

system which I'd love to be able to have

2025

01:29:41,479 --> 01:29:39,179

and I'd love to be able to have all of

2026

01:29:42,830 --> 01:29:41,489

the other kinds of stuff that was

2027

01:29:45,050 --> 01:29:42,840

probably tracking it like if they were

2028

01:29:46,850 --> 01:29:45,060

sonar you know I'd love to be able to

2029

01:29:49,520 --> 01:29:46,860

have that because science can do

2030

01:29:51,439 --> 01:29:49,530

something with that but bottom line is

2031

01:29:53,300 --> 01:29:51,449

and we're trying to work through it

2032

01:29:55,790 --> 01:29:53,310

we'd love to be able to you know be on

2033

01:29:58,399 --> 01:29:55,800

the side to be able to have that access

2034

01:30:00,950 --> 01:29:58,409

to look at that and use those PhDs lay

2035

01:30:04,370 --> 01:30:00,960

on top of em effectively but

2036

01:30:05,840 --> 01:30:04,380

nevertheless yeah technology doesn't

2037

01:30:08,720 --> 01:30:05,850

have problems and hiccups

2038

01:30:11,300 --> 01:30:08,730

you can't let's go back to the good old

2039

01:30:13,729 --> 01:30:11,310

days in the early days when it used to

2040

01:30:16,760 --> 01:30:13,739

have all kinds of interference and stuff

2041

01:30:21,470 --> 01:30:16,770

like that Waldo radar system back in the

2042

01:30:25,970 --> 01:30:21,480

fifties are not what they are in 2019

2043

01:30:28,399 --> 01:30:25,980

okay so we have to romantically approve

2044

01:30:31,700 --> 01:30:28,409

those things and there tell abraded they

2045

01:30:33,830 --> 01:30:31,710

looked at to the nth degree and I'm

2046

01:30:37,820 --> 01:30:33,840

sorry it's just somebody looking to make

2047

01:30:41,060 --> 01:30:37,830

excuse or speculate which is what a lot

2048

01:30:43,850 --> 01:30:41,070

of people like to do yeah yeah yeah I

2049

01:30:49,520 --> 01:30:43,860

wasn't that surprised when I when I got

2050

01:30:51,850 --> 01:30:49,530

that email yeah you know yeah now you

2051

01:30:55,430 --> 01:30:51,860

were going talking earlier about this

2052

01:30:57,709 --> 01:30:55,440

this theory of technology that could do

2053

01:31:00,919 --> 01:30:57,719

things like the tic-tac and I think

2054

01:31:04,580 --> 01:31:00,929

there are there are purportedly people

2055

01:31:07,350 --> 01:31:04,590

or a person saying that you know those

2056

01:31:10,910 --> 01:31:07,360

things actually went below the surface

2057

01:31:14,190 --> 01:31:10,920

and we're tracked at an enormous speeds

2058

01:31:16,260 --> 01:31:14,200

through sonar I don't know if you heard

2059

01:31:20,430 --> 01:31:16,270

that part of it or not and I don't know

2060

01:31:23,490 --> 01:31:20,440

if that's been vetted properly and all

2061

01:31:24,930 --> 01:31:23,500

that but five hundred knots recorded at

2062

01:31:28,920 --> 01:31:24,940

five hundred knots have you heard any of

2063

01:31:31,740 --> 01:31:28,930

that part of it I've heard of it uh when

2064

01:31:34,860 --> 01:31:31,750

we did our report we did we would kept

2065

01:31:37,980 --> 01:31:34,870

asking did did the Louisville happen to

2066

01:31:40,530 --> 01:31:37,990

fight any or catch anything on its own

2067

01:31:44,970 --> 01:31:40,540

are just like we were asking if the e-2

2068

01:31:47,730 --> 01:31:44,980

Hawkeye had any great art mm-hmm and the

2069

01:31:49,470 --> 01:31:47,740

answer that we got at the time talking

2070

01:31:51,540 --> 01:31:49,480

with the witnesses that we could get to

2071

01:31:53,190 --> 01:31:51,550

talk we talked with like I can't

2072

01:31:56,120 --> 01:31:53,200

remember like how many people we talked

2073

01:31:59,130 --> 01:31:56,130

with but we talked a lot of people and

2074

01:32:01,260 --> 01:31:59,140

looking for that and the bottom line

2075

01:32:03,930 --> 01:32:01,270

it's time was that we didn't really get

2076  
01:32:05,550 --> 01:32:03,940  
any indication the sonar was captured

2077  
01:32:08,010 --> 01:32:05,560  
look at that like you know people like

2078  
01:32:10,950 --> 01:32:08,020  
Kevin Bay and other if you have any

2079  
01:32:19,470 --> 01:32:10,960  
awareness of that and then you know and

2080  
01:32:24,050 --> 01:32:19,480  
the answer is no now that maybe some of

2081  
01:32:31,800 --> 01:32:27,930  
captured well we look at it like this

2082  
01:32:34,230 --> 01:32:31,810  
you know and that's great it's another

2083  
01:32:36,570 --> 01:32:34,240  
piece of testimony we're talking about

2084  
01:32:38,340 --> 01:32:36,580  
an incident for you know many many moons

2085  
01:32:41,370 --> 01:32:38,350  
ago we don't have any other independent

2086  
01:32:43,470 --> 01:32:41,380  
record what what to validate what that

2087  
01:32:45,270 --> 01:32:43,480  
person is saying so we just kind of

2088  
01:32:47,250 --> 01:32:45,280

diminished that and we say maybe that

2089

01:32:49,440 --> 01:32:47,260

did maybe it didn't happen we don't have

2090

01:32:54,090 --> 01:32:49,450

any really solid evidence eyewitness

2091

01:32:55,620 --> 01:32:54,100

testimony on it uh and okay it's just

2092

01:32:58,950 --> 01:32:55,630

another one of those pieces of

2093

01:33:01,410 --> 01:32:58,960

information you get around the case and

2094

01:33:03,870 --> 01:33:01,420

we didn't try to focus as much on the

2095

01:33:06,930 --> 01:33:03,880

witness testimony as much as just

2096

01:33:10,440 --> 01:33:06,940

documenting what they were saying but at

2097

01:33:13,260 --> 01:33:10,450

the same time going into analysis well

2098

01:33:16,380 --> 01:33:13,270

what would hard to be like and trying to

2099

01:33:17,940 --> 01:33:16,390

look at the data from the video can we

2100

01:33:20,250 --> 01:33:17,950

determine anything from the video

2101  
01:33:21,439 --> 01:33:20,260  
evidence because that's that that was

2102  
01:33:25,830 --> 01:33:21,449  
that's where

2103  
01:33:28,020 --> 01:33:25,840  
yes-no is getting the data and uh you

2104  
01:33:29,970 --> 01:33:28,030  
get one saying yeah like you know okay

2105  
01:33:32,189 --> 01:33:29,980  
it's another piece of information and we

2106  
01:33:35,669 --> 01:33:32,199  
couldn't control it we can't confirm it

2107  
01:33:37,350 --> 01:33:35,679  
or deny it I mean okay maybe you did we

2108  
01:33:40,290 --> 01:33:37,360  
had talks of other people and said this

2109  
01:33:42,959 --> 01:33:40,300  
well there wasn't any and so now we're a

2110  
01:33:45,410 --> 01:33:42,969  
little bit in a quandary with that right

2111  
01:33:48,870 --> 01:33:45,420  
boy it sure would be nice to see that

2112  
01:33:53,820 --> 01:33:48,880  
the high definition video that

2113  
01:33:55,350 --> 01:33:53,830

supposedly was was captured in scene it

2114

01:33:58,860 --> 01:33:55,360

looks like we have a caller I'm gonna

2115

01:34:00,180 --> 01:33:58,870

take that call now go ahead caller

2116

01:34:02,939 --> 01:34:00,190

welcome to the show what's your first

2117

01:34:06,120 --> 01:34:02,949

name and where you calling from hi this

2118

01:34:09,750 --> 01:34:06,130

is Robin from Brighton Colorado hi Robin

2119

01:34:11,729 --> 01:34:09,760

welcome to the show hi hi oh gosh and my

2120

01:34:15,629 --> 01:34:11,739

owner is this a commercial no you are

2121

01:34:19,080 --> 01:34:15,639

definitely on there oh shoot so you have

2122

01:34:23,129 --> 01:34:19,090

a question for our guest well I kind of

2123

01:34:26,879 --> 01:34:23,139

a general sort of question like I am the

2124

01:34:30,240 --> 01:34:26,889

least non techie tech person I've ever

2125

01:34:33,810 --> 01:34:30,250

known but I was out with my hot tub one

2126  
01:34:40,399 --> 01:34:33,820  
night about 2:30 in the morning how did

2127  
01:34:43,979 --> 01:34:40,409  
how would I I have I took a photo okay

2128  
01:34:48,360 --> 01:34:43,989  
when I saw this huge blast of light in

2129  
01:34:51,000 --> 01:34:48,370  
this boom and I looked up and there was

2130  
01:34:53,760 --> 01:34:51,010  
this I don't even know how to describe

2131  
01:34:55,560 --> 01:34:53,770  
it there were like these three objects

2132  
01:34:58,530 --> 01:34:55,570  
coming toward me but then there was

2133  
01:35:01,200 --> 01:34:58,540  
something larger and by the time I got

2134  
01:35:04,709 --> 01:35:01,210  
out of the tub and grabbed my really old

2135  
01:35:07,350 --> 01:35:04,719  
awful cell phone and took a photo of it

2136  
01:35:12,180 --> 01:35:07,360  
all you could see is this the most

2137  
01:35:16,470 --> 01:35:12,190  
bizarre trail left in the sky how I

2138  
01:35:18,990 --> 01:35:16,480

don't know how to like get the image off

2139

01:35:22,169 --> 01:35:19,000

of the phone I don't know how to do any

2140

01:35:30,990 --> 01:35:22,179

of that techie tech stuff right there

2141

01:35:33,479 --> 01:35:31,000

anyone yes yeah there is I'm sorry I

2142

01:35:36,870 --> 01:35:33,489

wish I had a more eloquent question for

2143

01:35:41,250 --> 01:35:36,880

your guests but I just happened at my

2144

01:35:43,800 --> 01:35:41,260

met my iPad was on and this came on and

2145

01:35:46,500 --> 01:35:43,810

I thought oh my gosh maybe somebody

2146

01:35:51,720 --> 01:35:46,510

could tell me how can I get this image

2147

01:35:55,399 --> 01:35:51,730

off of this phone yeah and and I I can

2148

01:35:58,379 --> 01:35:55,409

help you do that if you want I can give

2149

01:36:01,310 --> 01:35:58,389

I don't know how you want to do this but

2150

01:36:04,530 --> 01:36:01,320

I can get my contact information to

2151

01:36:05,570 --> 01:36:04,540

Martin I've had that happen over the

2152

01:36:06,750 --> 01:36:05,580

years when you're doing your

2153

01:36:08,879 --> 01:36:06,760

investigation

2154

01:36:12,810 --> 01:36:08,889

a lot of people are using and having or

2155

01:36:14,970 --> 01:36:12,820

the phone kind of things and kind of

2156

01:36:17,189 --> 01:36:14,980

phone and so like an iPhone does a

2157

01:36:23,430 --> 01:36:17,199

certain way and another phone does

2158

01:36:25,350 --> 01:36:23,440

another way and go ahead oh no I don't

2159

01:36:26,970 --> 01:36:25,360

want to interrupt I just I wish I had a

2160

01:36:28,950 --> 01:36:26,980

more eloquent question for you other

2161

01:36:31,950 --> 01:36:28,960

than oh my gosh these guys know UFOs

2162

01:36:35,100 --> 01:36:31,960

that oh well I don't know about that I

2163

01:36:37,140 --> 01:36:35,110

am so I apologize but if I could get

2164

01:36:37,919 --> 01:36:37,150

your information to have to tell

2165

01:36:40,410 --> 01:36:37,929

somebody

2166

01:36:41,760 --> 01:36:40,420

tell me how to get this image on the

2167

01:36:45,840 --> 01:36:41,770

phone all right

2168

01:36:47,729 --> 01:36:45,850

well might be yeah interested in seeing

2169

01:36:49,950 --> 01:36:47,739

this well we only have a couple minutes

2170

01:36:52,740 --> 01:36:49,960

left to the show so why don't you just

2171

01:36:55,620 --> 01:36:52,750

email me just send me an email

2172

01:36:55,919 --> 01:36:55,630

Martin at podcast UFO and we'll go from

2173

01:37:03,350 --> 01:36:55,929

there

2174

01:37:05,729 --> 01:37:03,360

so thanks Martin yep at podcast UFO yeah

2175

01:37:07,620 --> 01:37:05,739

alright thank you and I'm so sorry and

2176  
01:37:11,550 --> 01:37:07,630  
y'all have a great night alright you too

2177  
01:37:17,280 --> 01:37:11,560  
alright so we just have a couple minutes

2178  
01:37:20,220 --> 01:37:17,290  
left rich and sure so I guess some I

2179  
01:37:22,439 --> 01:37:20,230  
would like to say that I'm glad that

2180  
01:37:26,010 --> 01:37:22,449  
you're doing what you're doing I'm

2181  
01:37:29,010 --> 01:37:26,020  
really happy that you are getting you

2182  
01:37:32,700 --> 01:37:29,020  
know all these PhDs that are taking this

2183  
01:37:34,229 --> 01:37:32,710  
thing seriously and yeah so the last

2184  
01:37:36,930 --> 01:37:34,239  
thing I can think of are you working on

2185  
01:37:42,290 --> 01:37:36,940  
anything that you haven't really talked

2186  
01:37:43,859 --> 01:37:42,300  
about that as a coalition yeah well

2187  
01:37:46,200 --> 01:37:43,869  
right now

2188  
01:37:48,629 --> 01:37:46,210

what do we do we hop onto the USS

2189

01:37:50,910 --> 01:37:48,639

Roosevelt case there's a couple other

2190

01:37:52,830 --> 01:37:50,920

cases that are out there the USS USS

2191

01:37:56,250 --> 01:37:52,840

Bainbridge and there's also the USS

2192

01:37:59,129 --> 01:37:56,260

boxer the USS boxer goes back to 1998

2193

01:38:00,930 --> 01:37:59,139

it's also down in the San Diego area the

2194

01:38:05,100 --> 01:38:00,940

same general area where the Nimitz was

2195

01:38:09,300 --> 01:38:05,110

so we're probably gonna see if we can't

2196

01:38:11,040 --> 01:38:09,310

you know focus maybe on that work I like

2197

01:38:13,140 --> 01:38:11,050

trying to decide right now what we're

2198

01:38:14,540 --> 01:38:13,150

doing with that we're doing a variety of

2199

01:38:16,890 --> 01:38:14,550

other studies what we're doing the

2200

01:38:19,800 --> 01:38:16,900

something like a it's like a

2201

01:38:22,109 --> 01:38:19,810

characteristic study of of States and

2202

01:38:26,129 --> 01:38:22,119

various other things over over time in

2203

01:38:28,640 --> 01:38:26,139

history we're also doing a USO kind of

2204

01:38:31,800 --> 01:38:28,650

like project where we're looking at

2205

01:38:32,550 --> 01:38:31,810

documenting that doing analysis on you

2206

01:38:40,080 --> 01:38:32,560

ourselves

2207

01:38:42,720 --> 01:38:40,090

oh that's entirely so we're doing a lot

2208

01:38:44,580 --> 01:38:42,730

of different things I I'm heavily

2209

01:38:48,120 --> 01:38:44,590

engaged in setting up next year's

2210

01:38:49,620 --> 01:38:48,130

conference right now we're looking to

2211

01:38:51,720 --> 01:38:49,630

try to get that squared away it'll

2212

01:38:54,839 --> 01:38:51,730

probably be a year from actually about

2213

01:38:57,270 --> 01:38:54,849

today well hey you know we're out of

2214

01:38:58,950 --> 01:38:57,280

time rich I'm sorry to say so okay

2215

01:38:59,820 --> 01:38:58,960

thanks so much it's it's been a real

2216

01:39:01,740 --> 01:38:59,830

pleasure as always

2217

01:39:02,879 --> 01:39:01,750

and hope to talk to you soon all right

2218

01:39:10,740 --> 01:39:02,889

all right

2219

01:39:12,419 --> 01:39:10,750

for listening that's it for our show and

2220

01:39:16,439 --> 01:39:12,429

we'll be back next week with Robbie

2221

01:39:18,689 --> 01:39:16,449

Graham and we are just plumb out of time
