

**KEVIN
DAY**

**GARY
VOORHIS**

USS NIMITZ UFO INCIDENT

1
00:00:12,770 --> 00:00:34,229

[Music]

2
00:00:40,810 --> 00:00:37,389

hello and welcome to the show I'm Martin

3
00:00:43,390 --> 00:00:40,820

will usher host and we have a great show

4
00:00:46,569 --> 00:00:43,400

for you this evening we also have a

5
00:00:49,329 --> 00:00:46,579

special guest coming on on the second

6
00:00:52,389 --> 00:00:49,339

hour I'm gonna hold that secret right

7
00:00:55,420 --> 00:00:52,399

now the only bad thing I can think about

8
00:00:57,579 --> 00:00:55,430

tonight is I just found out just now

9
00:01:01,329 --> 00:00:57,589

that Alejandro is not going to be

10
00:01:03,189 --> 00:01:01,339

joining us for the UFO updates he's in a

11
00:01:06,310 --> 00:01:03,199

state of moving and all different types

12
00:01:08,770 --> 00:01:06,320

of things so at the last minute he said

13
00:01:10,859 --> 00:01:08,780

he could not make it so it's like the

14

00:01:14,770 --> 00:01:10,869

dog ate my homework I have no stories

15

00:01:16,780 --> 00:01:14,780

prepared to talk about really in the UFO

16

00:01:19,569 --> 00:01:16,790

world I know there's a there's a lot

17

00:01:23,499 --> 00:01:19,579

going on I think I saw where some

18

00:01:25,719 --> 00:01:23,509

professor is saying that I'm not sure

19

00:01:28,029 --> 00:01:25,729

exactly who he is but he's saying that

20

00:01:31,090 --> 00:01:28,039

he really does believe that we're gonna

21

00:01:32,139 --> 00:01:31,100

find out very soon that there is life on

22

00:01:35,080 --> 00:01:32,149

Mars

23

00:01:37,059 --> 00:01:35,090

it's a NASA's chief scientist here's a

24

00:01:39,190 --> 00:01:37,069

headline here says we're close to

25

00:01:41,830 --> 00:01:39,200

finding and announcing alien life on

26

00:01:45,639 --> 00:01:41,840

Mars but is the world ready

27

00:01:48,219 --> 00:01:45,649

what a nice what a nice title that is

28

00:01:50,590 --> 00:01:48,229

for getting a lot of clickbait out there

29

00:01:54,669 --> 00:01:50,600

that's actually on the Telegraph in the

30

00:01:57,010 --> 00:01:54,679

UK so anyway we'll we'll see how that

31

00:01:59,499 --> 00:01:57,020

holds out I remember about five years

32

00:02:02,800 --> 00:01:59,509

ago I was saying something along the

33

00:02:05,919 --> 00:02:02,810

lines that I thought we would find of

34

00:02:09,609 --> 00:02:05,929

signs of alien life on Mars within a

35

00:02:12,760 --> 00:02:09,619

year well I got that wrong I'm glad I

36

00:02:14,590 --> 00:02:12,770

didn't take any bets on that so I want

37

00:02:16,270 --> 00:02:14,600

to talk a little bit well first of all I

38

00:02:18,370 --> 00:02:16,280

want to thank everyone that helps out

39

00:02:22,330 --> 00:02:18,380

with the show I want to thank the good

40

00:02:24,250 --> 00:02:22,340

people over at kgr a radio also over the

41

00:02:26,320 --> 00:02:24,260

Dark Matter digital network who's been

42

00:02:30,160 --> 00:02:26,330

running my show consistently for several

43

00:02:32,170 --> 00:02:30,170

years now and I want to thank the people

44

00:02:35,530 --> 00:02:32,180

that helped out behind the scenes here

45

00:02:37,569 --> 00:02:35,540

there's a few of them and Peggy she

46

00:02:41,170 --> 00:02:37,579

helps out with the Facebook page

47

00:02:44,110 --> 00:02:41,180

she puts up UFO and related stories

48

00:02:45,970 --> 00:02:44,120

almost every single day of the year on

49

00:02:49,839 --> 00:02:45,980

the Facebook page and that's under

50

00:02:52,179 --> 00:02:49,849

podcast UFO anyone can jump over there

51
00:02:54,039 --> 00:02:52,189
and anyone can support the show we have

52
00:02:56,020 --> 00:02:54,049
a patreon site we also have a

53
00:02:59,410 --> 00:02:56,030
subscription service where people can

54
00:03:02,110 --> 00:02:59,420
listen to the full shows the first 55

55
00:03:02,979 --> 00:03:02,120
minutes or so are free to anyone for

56
00:03:05,050 --> 00:03:02,989
listening to

57
00:03:07,149 --> 00:03:05,060
I do appreciate every single listener

58
00:03:09,039 --> 00:03:07,159
and if you really want to listen to the

59
00:03:12,309 --> 00:03:09,049
whole show but you can't we do a live

60
00:03:15,399 --> 00:03:12,319
stream over at YouTube and after that of

61
00:03:17,289 --> 00:03:15,409
the show stays up on YouTube as long as

62
00:03:20,440 --> 00:03:17,299
YouTube will be around and my account is

63
00:03:24,009 --> 00:03:20,450

still around it'll be there and I think

64

00:03:26,949 --> 00:03:24,019

I have something like 300 audio shows

65

00:03:28,839 --> 00:03:26,959

over at YouTube but it's always best if

66

00:03:30,970 --> 00:03:28,849

you can listen to your media player and

67

00:03:33,610 --> 00:03:30,980

that's why it's kind of popular for

68

00:03:35,979 --> 00:03:33,620

people that want to help out they get to

69

00:03:38,649 --> 00:03:35,989

use their media player it kind pops in

70

00:03:41,170 --> 00:03:38,659

the full shows will pop in the free

71

00:03:43,659 --> 00:03:41,180

shows will pop in - it's a free show on

72

00:03:47,140 --> 00:03:43,669

your media player if you just sign up

73

00:03:49,960 --> 00:03:47,150

subscribe to it but anyway so for two

74

00:03:51,430 --> 00:03:49,970

dollars or more a month you can help out

75

00:03:57,339 --> 00:03:51,440

with the show and get that full show and

76

00:04:01,920 --> 00:03:57,349

all the archives also and if I say

77

00:04:05,589 --> 00:04:01,930

thinking now there's another way you can

78

00:04:08,050 --> 00:04:05,599

do that as far as the full show so yes

79

00:04:12,460 --> 00:04:08,060

of course you can listen live always on

80

00:04:17,379 --> 00:04:12,470

Tuesday evenings from 6 p.m. to 8 p.m.

81

00:04:19,899 --> 00:04:17,389

that's Eastern Time and it's also at kgr

82

00:04:23,260 --> 00:04:19,909

a radio it's on our website as well we

83

00:04:24,810 --> 00:04:23,270

do have a blog this week another great

84

00:04:27,189 --> 00:04:24,820

blog that's actually it's one of my

85

00:04:32,830 --> 00:04:27,199

favorite blogs written in quite a while

86

00:04:35,110 --> 00:04:32,840

and that's by Charles Lear who writes

87

00:04:37,450 --> 00:04:35,120

blogs for us and it's called just the

88

00:04:39,670 --> 00:04:37,460

UFO facts and basically what he's

89

00:04:43,480 --> 00:04:39,680

talking about there was a really really

90

00:04:45,839 --> 00:04:43,490

great UFO researcher several years of

91

00:04:49,360 --> 00:04:45,849

several years ago unfortunately he died

92

00:04:50,650 --> 00:04:49,370

very young about 38 years old with

93

00:04:53,350 --> 00:04:50,660

leukemia but as

94

00:04:55,840 --> 00:04:53,360

name was Kenny young and I think he was

95

00:04:57,910 --> 00:04:55,850

in the Ohio area so it kind of writes a

96

00:05:01,780 --> 00:04:57,920

story about that also it gets into

97

00:05:02,710 --> 00:05:01,790

Jackie Gleason the old-time comedian

98

00:05:05,020 --> 00:05:02,720

when I was a little kid I remember

99

00:05:07,360 --> 00:05:05,030

watching that Jackie Gleason show so

100

00:05:10,660 --> 00:05:07,370

that kind of dates me as far as how old

101

00:05:14,310 --> 00:05:10,670

I am but I love that show but Jackie

102

00:05:17,730 --> 00:05:14,320

Gleason had a real interest in UFOs and

103

00:05:20,170 --> 00:05:17,740

supposedly has a story about Nixon

104

00:05:22,200 --> 00:05:20,180

taking him to see alien bodies now I

105

00:05:24,580 --> 00:05:22,210

don't know about that I think that's

106

00:05:27,300 --> 00:05:24,590

that can be a little bit out there but

107

00:05:30,490 --> 00:05:27,310

still it's a great story and Kenny Young

108

00:05:34,060 --> 00:05:30,500

did some work on that and so that's all

109

00:05:36,070 --> 00:05:34,070

in our blog check that out and we have a

110

00:05:37,930 --> 00:05:36,080

blog we've been getting them about every

111

00:05:40,510 --> 00:05:37,940

week or so a little bit about our guests

112

00:05:43,750 --> 00:05:40,520

chemin de he's a return guest he's been

113

00:05:49,030 --> 00:05:43,760

on this show actually he was on my show

114

00:05:51,610 --> 00:05:49,040

and quite a while ago I'm trying to

115

00:05:54,730 --> 00:05:51,620

remember exactly when now Kevin actually

116

00:05:56,440 --> 00:05:54,740

contacted there was a it all started way

117

00:06:00,010 --> 00:05:56,450

back when Robert Powell was on my show

118

00:06:02,650 --> 00:06:00,020

and Kevin kind of I think he posted

119

00:06:04,330 --> 00:06:02,660

something on YouTube and so it started a

120

00:06:07,630 --> 00:06:04,340

conversation with Robert Powell and

121

00:06:10,480 --> 00:06:07,640

Kevin day and Kevin day has come a long

122

00:06:12,610 --> 00:06:10,490

way since then he has really been

123

00:06:14,230 --> 00:06:12,620

getting involved in this I really do

124

00:06:19,330 --> 00:06:14,240

appreciate it I got to meet him out in

125

00:06:24,070 --> 00:06:19,340

Phoenix this at the UFO International

126
00:06:25,330 --> 00:06:24,080
UFO Congress great guy really a great

127
00:06:28,330 --> 00:06:25,340
speaker actually it was really

128
00:06:31,180 --> 00:06:28,340
interesting and what I really appreciate

129
00:06:33,040 --> 00:06:31,190
the most about Kevin and actually

130
00:06:36,220 --> 00:06:33,050
working with him I work behind the

131
00:06:40,659 --> 00:06:36,230
scenes there and as Kevin speaks from

132
00:06:43,560 --> 00:06:40,669
the heart nan he's he is there's no BS

133
00:06:47,200 --> 00:06:43,570
when it comes to things he talks about

134
00:06:51,430 --> 00:06:47,210
and you know this has taken an effect on

135
00:06:53,740 --> 00:06:51,440
him this whole limits case and he has

136
00:06:56,220 --> 00:06:53,750
actually come a long way since that time

137
00:06:59,890 --> 00:06:56,230
he's involved in a number of things and

138
00:07:04,279 --> 00:06:59,900

he was the guy when it comes to the

139

00:07:06,350 --> 00:07:04,289

intercept controller he's he's a Top Gun

140

00:07:08,149 --> 00:07:06,360

air intercept controller and he was on

141

00:07:10,100 --> 00:07:08,159

the Princeton I may be seeing some of

142

00:07:13,879 --> 00:07:10,110

this wrong but he was on the USS

143

00:07:15,920 --> 00:07:13,889

Princeton during the Tic Tac incident

144

00:07:18,799 --> 00:07:15,930

and was wondering what the heck was

145

00:07:21,980 --> 00:07:18,809

going on then our second guest Gary

146

00:07:24,679 --> 00:07:21,990

Voorhis he is his background as

147

00:07:28,519 --> 00:07:24,689

mechanical engineering and working with

148

00:07:32,570 --> 00:07:28,529

electronic and RF RF technician and he

149

00:07:35,239 --> 00:07:32,580

had some involvement in this as well at

150

00:07:37,760 --> 00:07:35,249

his time on the USS Princeton he had the

151

00:07:40,189 --> 00:07:37,770

task of security and inventory of top

152

00:07:42,949 --> 00:07:40,199

secret and classified information and

153

00:07:47,359 --> 00:07:42,959

materials including being trained on the

154

00:07:49,070 --> 00:07:47,369

W ASP military recon UAV for the Pacific

155

00:07:52,879 --> 00:07:49,080

Fleet during and enduring the Freedom

156

00:07:56,269 --> 00:07:52,889

and Operation Iraqi Freedom anyway on

157

00:07:59,359 --> 00:07:56,279

the week of the 14th of November in 2004

158

00:08:02,239 --> 00:07:59,369

he was an eyewitness of the USS Nimitz

159

00:08:04,219 --> 00:08:02,249

tick-tack events and so I'm really

160

00:08:06,859 --> 00:08:04,229

excited to have both of these guests on

161

00:08:10,070 --> 00:08:06,869

and I want to welcome them now to the

162

00:08:11,869 --> 00:08:10,080

show welcome to the show guys great to

163

00:08:16,189 --> 00:08:11,879

be here Martin this is Kevin day

164

00:08:18,170 --> 00:08:16,199

I'm glad you identified yourself this is

165

00:08:22,219 --> 00:08:18,180

Gary thanks for having us

166

00:08:24,709 --> 00:08:22,229

Gary I get the first time and I'm glad

167

00:08:27,019 --> 00:08:24,719

to meet you thank you for being on Gary

168

00:08:28,309 --> 00:08:27,029

since up since you have not been on

169

00:08:32,180 --> 00:08:28,319

before can you kind of give your

170

00:08:35,319 --> 00:08:32,190

background basically on this the city or

171

00:08:37,639 --> 00:08:35,329

the situation and your involvement with

172

00:08:40,939 --> 00:08:37,649

with the incident but first of all your

173

00:08:45,170 --> 00:08:40,949

background and how how things unfolded

174

00:08:47,030 --> 00:08:45,180

if you would my background is a aegis

175

00:08:48,829 --> 00:08:47,040

computer technician aboard the ship I

176
00:08:52,819 --> 00:08:48,839
ran all the mainframes Ransom Island

177
00:08:54,379 --> 00:08:52,829
Bravo's all the consoles and CIC I did

178
00:08:57,290 --> 00:08:54,389
that controlled all the data recording

179
00:09:01,550 --> 00:08:57,300
for the aegis system and it's easy

180
00:09:02,749 --> 00:09:01,560
systems and then also what hasn't really

181
00:09:04,999 --> 00:09:02,759
come up I don't know why I hasn't come

182
00:09:07,460 --> 00:09:05,009
up with q70 system that we have board

183
00:09:09,829 --> 00:09:07,470
was a hybrid version for the 6.1 base

184
00:09:15,559 --> 00:09:09,839
line for the ages it's when we went from

185
00:09:17,269 --> 00:09:15,569
a kind of like a the older ages system

186
00:09:18,769 --> 00:09:17,279
to the new Cod off the

187
00:09:23,509 --> 00:09:18,779
self stuff it's when we kind of moved

188
00:09:26,900 --> 00:09:23,519

into eunuchs and fiber optics hmm Wow

189

00:09:29,809 --> 00:09:26,910

now what what did fiber optics change in

190

00:09:31,850 --> 00:09:29,819

what you do mostly just the relays on

191

00:09:34,249 --> 00:09:31,860

the ship how fast everything we came

192

00:09:37,790 --> 00:09:34,259

back and forth through everything in our

193

00:09:42,799 --> 00:09:37,800

video how detailed the information comes

194

00:09:47,119 --> 00:09:42,809

in through IC and Kevin would you would

195

00:09:49,100 --> 00:09:47,129

you be actually working with with Gary

196

00:09:49,549 --> 00:09:49,110

at all I mean did you did you two know

197

00:09:54,379 --> 00:09:49,559

each other

198

00:09:56,960 --> 00:09:54,389

you know it's a pretty small ship

199

00:09:59,420 --> 00:09:56,970

what was it Gary about 350 people or so

200

00:10:02,179 --> 00:09:59,430

when we actually go on deployment now I

201
00:10:05,809 --> 00:10:02,189
just listen I was an operator Martin so

202
00:10:08,420 --> 00:10:05,819
I was not a technician and Gary was it

203
00:10:10,129 --> 00:10:08,430
was a technician in so he was up in

204
00:10:13,639 --> 00:10:10,139
combat Information Center up and see I

205
00:10:15,590 --> 00:10:13,649
see quite often yeah and I he was a

206
00:10:20,960 --> 00:10:15,600
third class petty officer at the time I

207
00:10:22,699 --> 00:10:20,970
was a senior chief so I mean baha you

208
00:10:25,490 --> 00:10:22,709
know our association was a little

209
00:10:28,429 --> 00:10:25,500
limited right Gary I mean yeah we would

210
00:10:30,319 --> 00:10:28,439
I mean we would chat not here and there

211
00:10:32,210 --> 00:10:30,329
he was directly in my chain of command

212
00:10:35,960 --> 00:10:32,220
so it was a little bit more casual than

213
00:10:38,420 --> 00:10:35,970

normal chief junior but you know he's

214

00:10:40,579 --> 00:10:38,430

always I tell you what this guy was a

215

00:10:50,090 --> 00:10:40,589

stickler by-the-book guy when I first

216

00:10:51,799 --> 00:10:50,100

met him interesting so uh so Kevin can

217

00:10:54,470 --> 00:10:51,809

you please give out your background

218

00:10:56,689 --> 00:10:54,480

basically and I know you were on the

219

00:10:58,400 --> 00:10:56,699

show before but and it may be redundant

220

00:11:00,429 --> 00:10:58,410

to some people but there are a lot of

221

00:11:03,949 --> 00:11:00,439

new listeners so if you wouldn't mind

222

00:11:05,119 --> 00:11:03,959

you bet I mean I joined the Navy in 86

223

00:11:07,730 --> 00:11:05,129

with the boot camp

224

00:11:09,590 --> 00:11:07,740

and did really well in my a school for

225

00:11:12,350 --> 00:11:09,600

Operations Specialist and I was able to

226

00:11:13,850 --> 00:11:12,360

choose my orders out of I got the first

227

00:11:16,309 --> 00:11:13,860

ticket orders out of three classes which

228

00:11:18,110 --> 00:11:16,319

was kind of cool and of course I picked

229

00:11:20,360 --> 00:11:18,120

the latest and greatest ship that they

230

00:11:22,669 --> 00:11:20,370

had was the USS Vincennes it was the

231

00:11:24,889 --> 00:11:22,679

first Aegis cruiser on the west coast

232

00:11:27,259 --> 00:11:24,899

and that ended up being my first ship

233

00:11:29,929 --> 00:11:27,269

made my first few deployments on that

234

00:11:31,790 --> 00:11:29,939

ship decided to stay in the Navy I'm

235

00:11:35,420 --> 00:11:31,800

glad I did

236

00:11:38,000 --> 00:11:35,430

and I basically ended up on three Aegis

237

00:11:40,190 --> 00:11:38,010

cruisers the Choson the Princeton and

238

00:11:41,920 --> 00:11:40,200

the Vincennes and I've done staff duty I

239

00:11:45,680 --> 00:11:41,930

was on the staff on the constellation

240

00:11:48,680 --> 00:11:45,690

and I for the Admirals training staff at

241

00:11:51,260 --> 00:11:48,690

North Island as well and when the

242

00:11:55,760 --> 00:11:51,270

incident happened in 2004 I had probably

243

00:11:58,340 --> 00:11:55,770

18 years of actual radar background and

244

00:12:01,760 --> 00:11:58,350

an experience on the spy-1 radar and I'd

245

00:12:03,260 --> 00:12:01,770

been in about 20 years but I had done

246

00:12:08,480 --> 00:12:03,270

some instructor duty - they took me off

247

00:12:10,340 --> 00:12:08,490

the ships and so that was a pretty well

248

00:12:13,220 --> 00:12:10,350

experienced guy on that radar when I

249

00:12:15,800 --> 00:12:13,230

started observing these objects and they

250

00:12:17,690 --> 00:12:15,810

were pretty enough Burton hood at first

251
00:12:20,360 --> 00:12:17,700
I didn't I was really scratching my head

252
00:12:23,380 --> 00:12:20,370
with the hell these things were I bet

253
00:12:26,450 --> 00:12:23,390
and Gary had you known anything about

254
00:12:29,360 --> 00:12:26,460
the objects in the beginning or did it

255
00:12:35,300 --> 00:12:29,370
just take a while to you know trickle to

256
00:12:37,670 --> 00:12:35,310
you Gary there yes I attended meet

257
00:12:39,230 --> 00:12:37,680
what's up live yeah yeah we were

258
00:12:41,210 --> 00:12:39,240
probably the first ones that knew it the

259
00:12:42,650 --> 00:12:41,220
spy radar guys were really because we

260
00:12:44,870 --> 00:12:42,660
honestly didn't even dig your real

261
00:12:46,970 --> 00:12:44,880
tracks we really weren't paying much

262
00:12:48,710 --> 00:12:46,980
attention to him we thought ghost tracks

263
00:12:50,360 --> 00:12:48,720

and just kind of clutter and the system

264

00:12:52,970 --> 00:12:50,370

just kind of needs to be recalibrated

265

00:12:56,420 --> 00:12:52,980

oh so you kept thinking it needed

266

00:12:57,800 --> 00:12:56,430

recalibration yeah we actually did and

267

00:13:00,320 --> 00:12:57,810

then we got a permission from the

268

00:13:03,080 --> 00:13:00,330

captain the tape system down and we did

269

00:13:05,930 --> 00:13:03,090

a full from top to bottom on it and then

270

00:13:09,800 --> 00:13:05,940

brought it back up and those tracks are

271

00:13:12,280 --> 00:13:09,810

still there as clear as day Wow Gary may

272

00:13:16,490 --> 00:13:12,290

I ask you something are you glowing I

273

00:13:23,030 --> 00:13:16,500

see you're glowing

274

00:13:26,480 --> 00:13:23,040

it sure is I'm a gamer so and what is

275

00:13:29,780 --> 00:13:26,490

the purpose for glowing in a game it

276

00:13:33,950 --> 00:13:29,790

looks it looks cool oh I got it okay

277

00:13:36,140 --> 00:13:33,960

very good so so what what happened when

278

00:13:40,070 --> 00:13:36,150

you go you went to recalibrate and and

279

00:13:41,360 --> 00:13:40,080

what exactly did that do alright so what

280

00:13:43,040 --> 00:13:41,370

it did is it cleared up any clutter

281

00:13:44,130 --> 00:13:43,050

there actually was and actually

282

00:13:46,020 --> 00:13:44,140

sharpened

283

00:13:47,750 --> 00:13:46,030

tracts and you know I say sharpen it

284

00:13:50,880 --> 00:13:47,760

means that the tracks came through even

285

00:13:55,620 --> 00:13:50,890

more clear and more defined they were

286

00:13:59,790 --> 00:13:55,630

most definitely solid object tracks hmm

287

00:14:01,820 --> 00:13:59,800

and did you did you alert anyone of this

288

00:14:04,730 --> 00:14:01,830

or is your your deal just to deal with

289

00:14:07,230 --> 00:14:04,740

that alone and not and not you know

290

00:14:09,510 --> 00:14:07,240

alert anyone in particular I mean in

291

00:14:11,010 --> 00:14:09,520

this situation were there other people

292

00:14:13,170 --> 00:14:11,020

saying hey you know what's going on

293

00:14:14,340 --> 00:14:13,180

beside you yeah there was plenty of

294

00:14:16,950 --> 00:14:14,350

people and that's really the

295

00:14:19,260 --> 00:14:16,960

watchstanders duty to do that they

296

00:14:21,750 --> 00:14:19,270

report to us that they see you know goes

297

00:14:23,910 --> 00:14:21,760

tracks or they're seeing the OSS will

298

00:14:25,380 --> 00:14:23,920

tell us something's wrong and then we'll

299

00:14:27,750 --> 00:14:25,390

fix it

300

00:14:29,460 --> 00:14:27,760

most of the time you see an OS for the

301

00:14:31,560 --> 00:14:29,470

wrench or a screwdriver you usually

302

00:14:32,430 --> 00:14:31,570

tackle them and wrench it away from them

303

00:14:33,140 --> 00:14:32,440

because they're not allowed to touch

304

00:14:38,130 --> 00:14:33,150

anything

305

00:14:40,860 --> 00:14:38,140

Wow Wow and carry your you had to handle

306

00:14:43,290 --> 00:14:40,870

the the classified information does that

307

00:14:45,750 --> 00:14:43,300

mean like you know this is a layman

308

00:14:47,580 --> 00:14:45,760

terms like radar tapes is that something

309

00:14:49,290 --> 00:14:47,590

that you'd also handle it would be all

310

00:14:52,920 --> 00:14:49,300

the tracking information from the spy

311

00:14:56,010 --> 00:14:52,930

it'd be all of the data coming because

312

00:14:57,810 --> 00:14:56,020

we also have a system that keeps track

313

00:15:00,930 --> 00:14:57,820

of the aegis system called warts and

314

00:15:03,000 --> 00:15:00,940

warts keeps track of its got data points

315

00:15:04,650 --> 00:15:03,010

throughout the entire AG system tells us

316

00:15:07,320 --> 00:15:04,660

everything about about the system how

317

00:15:08,750 --> 00:15:07,330

it's running and so all that information

318

00:15:11,610 --> 00:15:08,760

would be in there

319

00:15:13,350 --> 00:15:11,620

CC whether it's offer on any any

320

00:15:18,270 --> 00:15:13,360

peripherals that are attached to the

321

00:15:20,760 --> 00:15:18,280

aegis system the status of all the

322

00:15:23,910 --> 00:15:20,770

actual computers whether they're up down

323

00:15:26,180 --> 00:15:23,920

opera how well they're operating all

324

00:15:29,340 --> 00:15:26,190

that stuff gets recorded on data tapes

325

00:15:31,410 --> 00:15:29,350

mm-hmm okay well I hate to do this to

326

00:15:34,290 --> 00:15:31,420

some of the listening audience that

327

00:15:37,230 --> 00:15:34,300

knows these this Nimitz case really

328

00:15:40,580 --> 00:15:37,240

really well but like I mentioned a few

329

00:15:43,260 --> 00:15:40,590

minutes ago we have tons of new

330

00:15:45,750 --> 00:15:43,270

listeners to the show all the time and a

331

00:15:50,100 --> 00:15:45,760

lot of people are just plain getting

332

00:15:52,950 --> 00:15:50,110

into the UFO topic because of you know

333

00:15:55,560 --> 00:15:52,960

some of the credible stories including I

334

00:15:58,079 --> 00:15:55,570

want to say probably leading the pack is

335

00:15:59,429 --> 00:15:58,089

the Nimitz case so if you don't mind

336

00:16:01,530 --> 00:15:59,439

would one you want to take the handle

337

00:16:04,230 --> 00:16:01,540

and just kind of doing a nutshell of

338

00:16:08,189 --> 00:16:04,240

what exactly happened back in November

339

00:16:11,189 --> 00:16:08,199

of you bet go ahead bet mark this is

340

00:16:14,369 --> 00:16:11,199

Kevin yeah you know 2004 were that was

341

00:16:16,230 --> 00:16:14,379

quite a while to go now and it was just

342

00:16:18,629 --> 00:16:16,240

a few years in the you know the war had

343

00:16:20,639 --> 00:16:18,639

started and things were pretty hot have

344

00:16:23,220 --> 00:16:20,649

we we received orders to deploy a little

345

00:16:24,449 --> 00:16:23,230

bit early and so we were off the coast

346

00:16:27,329 --> 00:16:24,459

of San Diego

347

00:16:29,850 --> 00:16:27,339

the Nimitz it was us and we had the Air

348

00:16:32,280 --> 00:16:29,860

Wing on board now the Chaffee USS

349

00:16:34,079 --> 00:16:32,290

Chaffee and the USS Higgins also played

350

00:16:37,759 --> 00:16:34,089

but they weren't there physically with

351

00:16:40,110 --> 00:16:37,769

this they were hooked up remotely over

352

00:16:44,069 --> 00:16:40,120

basically a gaming network that allows

353

00:16:45,929 --> 00:16:44,079

us to play with them and I think it's

354

00:16:48,329 --> 00:16:45,939

like on the 10th of November I went up

355

00:16:51,540 --> 00:16:48,339

to combat I was already on watch and I

356

00:16:53,989 --> 00:16:51,550

noticed there was probably six tracks at

357

00:16:57,569 --> 00:16:53,999

that time right off the coast of

358

00:16:59,939 --> 00:16:57,579

Catalina Island which are north of 90

359

00:17:01,549 --> 00:16:59,949

miles or so and the reason why I said

360

00:17:05,370 --> 00:17:01,559

they were weird is because they were at

361

00:17:07,199 --> 00:17:05,380

28,000 feet in a kind of a tight group

362

00:17:09,960 --> 00:17:07,209

of a formation and they were tracking to

363

00:17:11,939 --> 00:17:09,970

the south at a hundred knots which was

364

00:17:16,590 --> 00:17:11,949

really bizarre because usually things

365

00:17:19,620 --> 00:17:16,600

that high don't fly that slow right or

366

00:17:21,059 --> 00:17:19,630

can't fly yeah I wasn't really concerned

367

00:17:23,069 --> 00:17:21,069

about them because they're way up there

368

00:17:25,679 --> 00:17:23,079

way up there were way down here it's off

369

00:17:26,939 --> 00:17:25,689

the coast of California and heck it

370

00:17:28,260 --> 00:17:26,949

could have been just something civilian

371

00:17:30,710 --> 00:17:28,270

related they didn't even know we were

372

00:17:33,659 --> 00:17:30,720

there had nothing at all to do with this

373

00:17:35,700 --> 00:17:33,669

but of course we tried to idea there's a

374

00:17:37,139 --> 00:17:35,710

certain process and protocols we use for

375

00:17:38,970 --> 00:17:37,149

ID and everything and everybody at

376

00:17:42,090 --> 00:17:38,980

combat kind of puts in their own piece

377

00:17:44,010 --> 00:17:42,100

of the puzzle and an actual human makes

378

00:17:47,580 --> 00:17:44,020

the identification you know our systems

379

00:17:48,990 --> 00:17:47,590

aren't automatic they're automated and

380

00:17:51,419 --> 00:17:49,000

it gives us all the pieces of

381

00:17:53,250 --> 00:17:51,429

information and then I was I was a guy

382

00:17:56,039 --> 00:17:53,260

that made the call I was a guy that they

383

00:17:57,750 --> 00:17:56,049

actually identified stuff who's the

384

00:18:02,250 --> 00:17:57,760

position in combats called the anti-air

385

00:18:04,289 --> 00:18:02,260

warfare coordinator or a wick and all

386

00:18:06,720 --> 00:18:04,299

attempts to ID these things felled us no

387

00:18:10,110 --> 00:18:06,730

it was it was it was really bizarre it

388

00:18:11,820 --> 00:18:10,120

was humbling actually we there was there

389

00:18:13,410 --> 00:18:11,830

was years and years and years of

390

00:18:15,420 --> 00:18:13,420

combined experience in that room and

391

00:18:18,060 --> 00:18:15,430

none of us had any idea what these

392

00:18:19,380 --> 00:18:18,070

things were and like gary said in fact

393

00:18:21,810 --> 00:18:19,390

we thought they were some kind of glitch

394

00:18:24,630 --> 00:18:21,820

some kind of problem in the computer or

395

00:18:26,640 --> 00:18:24,640

whatever so they brought everything down

396

00:18:29,490 --> 00:18:26,650

brought everything back up and lo and

397

00:18:31,920 --> 00:18:29,500

behold they were still there and they

398

00:18:33,390 --> 00:18:31,930

tracked down to the south and eventually

399

00:18:35,370 --> 00:18:33,400

faded off radar right around the

400

00:18:37,320 --> 00:18:35,380

vicinity of Guadalupe Island which is

401

00:18:40,950 --> 00:18:37,330

off the coast of Baja California and

402

00:18:42,360 --> 00:18:40,960

then it would be you know a few hours or

403

00:18:44,850 --> 00:18:42,370

maybe the next day I'd do it the

404

00:18:46,080 --> 00:18:44,860

contrary and watch and there would be

405

00:18:48,720 --> 00:18:46,090

another group of these things in the

406

00:18:51,300 --> 00:18:48,730

same spot doing the same damn thing and

407

00:18:52,980 --> 00:18:51,310

just yeah we we spent about two weeks

408

00:18:54,600 --> 00:18:52,990

smoked a lot of cigarettes and looking

409

00:18:57,780 --> 00:18:54,610

for bearings and trying to find lights

410

00:18:59,640 --> 00:18:57,790

in the sky people up on the bridge

411

00:19:02,940 --> 00:18:59,650

trying to find these things in the big

412

00:19:04,410 --> 00:19:02,950

guy binoculars and you know I wasn't if

413

00:19:05,550 --> 00:19:04,420

it hadn't have been through the fact we

414

00:19:09,420 --> 00:19:05,560

were gonna do a narrative defense

415

00:19:10,680 --> 00:19:09,430

exercise on the 14th of November there

416

00:19:12,720 --> 00:19:10,690

was probably a pretty good chance we

417

00:19:14,070 --> 00:19:12,730

would never would have never decided to

418

00:19:16,740 --> 00:19:14,080

intercept these things because like I

419

00:19:20,700 --> 00:19:16,750

said they didn't constitute any sort of

420

00:19:23,370 --> 00:19:20,710

threat there no no threat profiles no

421

00:19:25,170 --> 00:19:23,380

hostile intentions or anything and the

422

00:19:26,880 --> 00:19:25,180

only reason why I recommended the

423

00:19:29,040 --> 00:19:26,890

captain Smith that we actually do an

424

00:19:31,140 --> 00:19:29,050

intercept is because on the 14th we were

425

00:19:33,230 --> 00:19:31,150

going to launch a bunch of aircraft we

426
00:19:35,400 --> 00:19:33,240
were gonna do a mock air battle which

427
00:19:37,530 --> 00:19:35,410
launched aircraft off the coast of

428
00:19:39,300 --> 00:19:37,540
California and coming out come out there

429
00:19:42,150 --> 00:19:39,310
and attack us in a mock air you know air

430
00:19:43,530 --> 00:19:42,160
defense exercise and at that point I

431
00:19:45,540 --> 00:19:43,540
became concerned because of now these

432
00:19:48,270 --> 00:19:45,550
objects are in the same piece of sky is

433
00:19:50,370 --> 00:19:48,280
with her friendly with their friendly

434
00:19:52,140 --> 00:19:50,380
aircraft and there was a a real good

435
00:19:53,760 --> 00:19:52,150
high potential for some sort of

436
00:19:56,010 --> 00:19:53,770
air-to-air miss happy because we didn't

437
00:19:57,000 --> 00:19:56,020
know what these were sure and and based

438
00:19:59,520 --> 00:19:57,010

on that concern

439

00:20:03,330 --> 00:19:59,530

Captain Smith directed me to consummate

440

00:20:08,670 --> 00:20:03,340

an intercept which we did we I was a I

441

00:20:10,470 --> 00:20:08,680

was a I'm a basically I'm a Top Gun hair

442

00:20:13,580 --> 00:20:10,480

intercept control supervisor so the

443

00:20:15,780 --> 00:20:13,590

actual AIC who has not come out publicly

444

00:20:17,670 --> 00:20:15,790

was actually doing the control I was

445

00:20:19,980 --> 00:20:17,680

standing behind him on a parrot and I

446

00:20:22,230 --> 00:20:19,990

had set with the long cord and helping

447

00:20:24,420 --> 00:20:22,240

him coordinate external radio comms

448

00:20:25,560 --> 00:20:24,430

communications and helping them in

449

00:20:27,960 --> 00:20:25,570

interpret the radar

450

00:20:29,999 --> 00:20:27,970

so he picked the closest contact and

451
00:20:32,849 --> 00:20:30,009
commander Faber had to happen to be a

452
00:20:35,279 --> 00:20:32,859
hair born he was had just launched and

453
00:20:37,109 --> 00:20:35,289
so he vectored him in that direction and

454
00:20:39,629 --> 00:20:37,119
it was we had to the communications up

455
00:20:41,279 --> 00:20:39,639
in the overhead speaker and its man

456
00:20:43,830 --> 00:20:41,289
Martin as soon as he got to the merge

457
00:20:45,749 --> 00:20:43,840
plot position which is basically two

458
00:20:48,359 --> 00:20:45,759
aerial objects in the same piece of

459
00:20:50,009 --> 00:20:48,369
vertical sky brain so that when you look

460
00:20:53,159 --> 00:20:50,019
at him on a two-dimensional display it

461
00:20:55,349 --> 00:20:53,169
looks like one object now as soon as he

462
00:20:57,419 --> 00:20:55,359
got to that merge plot position we hear

463
00:21:00,599 --> 00:20:57,429

on the radio oh my god oh my god I'm

464

00:21:03,210 --> 00:21:00,609

engaged I'm engaged and there was just

465

00:21:05,339 --> 00:21:03,220

stunned silence on the ship that's what

466

00:21:07,619 --> 00:21:05,349

I'm supposed to happen in that contact

467

00:21:09,359 --> 00:21:07,629

that he intercepted so when you saw her

468

00:21:12,119 --> 00:21:09,369

I'm sorry when someone says they're

469

00:21:16,200 --> 00:21:12,129

engaged what exactly does that mean

470

00:21:17,969 --> 00:21:16,210

does that mean just visual that just

471

00:21:20,369 --> 00:21:17,979

means they're in the the they're in the

472

00:21:22,529 --> 00:21:20,379

same visual piece of their visual now

473

00:21:23,700 --> 00:21:22,539

with each other and they're turning or

474

00:21:25,259 --> 00:21:23,710

turning around each other it doesn't

475

00:21:26,639 --> 00:21:25,269

mean they're firing guns or anything at

476

00:21:28,529 --> 00:21:26,649

each other but they're actually kind of

477

00:21:30,299 --> 00:21:28,539

this kind of a bet so they're doing like

478

00:21:33,869 --> 00:21:30,309

this dance they're you know connected

479

00:21:37,349 --> 00:21:33,879

connected in that way we're a dogfight

480

00:21:38,940 --> 00:21:37,359

if you will yeah yeah so when he got to

481

00:21:41,879 --> 00:21:38,950

that merge plot position that contact

482

00:21:44,460 --> 00:21:41,889

that we vectored him to suddenly dropped

483

00:21:46,529 --> 00:21:44,470

from 28,000 feet all the way down to the

484

00:21:51,539 --> 00:21:46,539

surface of the ocean and we found out

485

00:21:54,869 --> 00:21:51,549

the next day it was 0.78 seconds 0.7

486

00:21:58,320 --> 00:21:54,879

lives so under us under one second yeah

487

00:22:00,539 --> 00:21:58,330

point seventy yeah this thing this thing

488

00:22:02,690 --> 00:22:00,549

would consistently move at speeds that

489

00:22:05,460 --> 00:22:02,700

would just blow your mind

490

00:22:07,259 --> 00:22:05,470

yeah what did a scientific correlation

491

00:22:09,899 --> 00:22:07,269

for UF ology coming up with your you

492

00:22:12,019 --> 00:22:09,909

remember the number like with a 1,350

493

00:22:19,580 --> 00:22:12,029

G's or something like that

494

00:22:21,899 --> 00:22:19,590

yeah it was ridiculous yeah and you know

495

00:22:24,599 --> 00:22:21,909

the human body can't withstand how do

496

00:22:25,859 --> 00:22:24,609

you know I don't know we can work and

497

00:22:27,779 --> 00:22:25,869

still remain without any type of

498

00:22:29,729 --> 00:22:27,789

detection anything maybe 8 G's the

499

00:22:32,339 --> 00:22:29,739

aircraft itself can withstand maybe 14

500

00:22:34,259 --> 00:22:32,349

before it starts to come apart I mean it

501
00:22:37,019 --> 00:22:34,269
then if they're using a you know

502
00:22:39,120 --> 00:22:37,029
gravitational system you know honestly

503
00:22:41,799 --> 00:22:39,130
the G's aren't even gonna be a thanks

504
00:22:44,020 --> 00:22:41,809
yeah and they buy that exactly what are

505
00:22:45,460 --> 00:22:44,030
you talking about Gary so well if

506
00:22:48,820 --> 00:22:45,470
they're like if they're manipulating

507
00:22:51,760 --> 00:22:48,830
gravity and they're doing where you know

508
00:22:53,799 --> 00:22:51,770
they're not actually moving with inertia

509
00:22:55,420 --> 00:22:53,809
there would be no inertia at all so

510
00:22:59,830 --> 00:22:55,430
they're not even feel it inside there

511
00:23:01,630 --> 00:22:59,840
inside can you examine yeah it was not

512
00:23:03,340 --> 00:23:01,640
non classical physics that's what Gary's

513
00:23:05,020 --> 00:23:03,350

talk about now we're all pretty

514

00:23:08,920 --> 00:23:05,030

convinced had there been some quantum

515

00:23:12,010 --> 00:23:08,930

basically basically it's like they

516

00:23:15,549 --> 00:23:12,020

there's the popular theory right now is

517

00:23:17,200 --> 00:23:15,559

that basically it moves through space by

518

00:23:23,350 --> 00:23:17,210

moving and make basically making a

519

00:23:24,700 --> 00:23:23,360

bubble in front of it of stretching

520

00:23:26,890 --> 00:23:24,710

space-time in front of it so that it

521

00:23:30,610 --> 00:23:26,900

moves through space-time rather than

522

00:23:32,350 --> 00:23:30,620

actual physical you know anything so

523

00:23:34,960 --> 00:23:32,360

that's like just sitting in this bubble

524

00:23:36,700 --> 00:23:34,970

that's not being affected by gravity or

525

00:23:39,360 --> 00:23:36,710

anything else it's just being moved

526

00:23:42,760 --> 00:23:39,370

through by its own propulsion

527

00:23:45,370 --> 00:23:42,770

manipulating using anti-gravity okay

528

00:23:47,950 --> 00:23:45,380

all right well hey where we are at break

529

00:23:50,440 --> 00:23:47,960

time so we are going to head into the

530

00:24:03,750 --> 00:23:50,450

break so everyone hang in there we'll be

531

00:24:11,620 --> 00:24:07,930

all right team we are in the clear just

532

00:24:16,030 --> 00:24:11,630

under three minutes very good I started

533

00:24:20,410 --> 00:24:16,040

the timer now listen Gary and Kevin

534

00:24:23,590 --> 00:24:20,420

we're still live on YouTube so so just

535

00:24:29,110 --> 00:24:23,600

know about Mike yeah so yeah just just

536

00:24:32,440 --> 00:24:29,120

no swearing so let's see Kevin you're

537

00:24:33,750 --> 00:24:32,450

out on the west coast right that's right

538

00:24:38,049 --> 00:24:33,760

I mean I live in Southern Oregon

539

00:24:41,350 --> 00:24:38,059

Southern Oregon yeah beautiful area very

540

00:24:43,630 --> 00:24:41,360

beautiful yes now I'm just I just figure

541

00:24:47,500 --> 00:24:43,640

we will pick up where we left off when

542

00:24:48,970 --> 00:24:47,510

we come back from break but are you now

543

00:24:51,810 --> 00:24:48,980

that you're out there you've been out

544

00:24:55,730 --> 00:24:51,820

there for how many years now

545

00:24:58,080 --> 00:24:55,740

about an organ yeah I was raised here

546

00:25:00,630 --> 00:24:58,090

back and what back in my hometown

547

00:25:02,730 --> 00:25:00,640

all right had you ever had any interest

548

00:25:04,440 --> 00:25:02,740

in UFOs or ever even paid attention to

549

00:25:06,240 --> 00:25:04,450

the subject personalized I've been

550

00:25:10,050 --> 00:25:06,250

listening to coast to coast to him since

551
00:25:11,670 --> 00:25:10,060
late mid mid to late 90s oh so yeah I've

552
00:25:13,530 --> 00:25:11,680
had an interest in it I was never a

553
00:25:15,930 --> 00:25:13,540
researcher or anything like that but

554
00:25:19,590 --> 00:25:15,940
I've had a passing interest in UFOs sure

555
00:25:22,200 --> 00:25:19,600
ah hi what about you Gary mom I watched

556
00:25:24,720 --> 00:25:22,210
x-files and honestly most of my interest

557
00:25:25,770 --> 00:25:24,730
is just how the tech works oh really if

558
00:25:26,460 --> 00:25:25,780
that's your interest isn't that

559
00:25:28,170 --> 00:25:26,470
something

560
00:25:30,150 --> 00:25:28,180
so yeah I want to know a little bit more

561
00:25:33,230 --> 00:25:30,160
about I think that's really interesting

562
00:25:38,190 --> 00:25:33,240
what you're saying about this gravity

563
00:25:40,500 --> 00:25:38,200

however you called that exactly because

564

00:25:42,420 --> 00:25:40,510

I think there's a guy named he's been on

565

00:25:45,870 --> 00:25:42,430

the show before

566

00:25:50,490 --> 00:25:45,880

his name is slipping my mind right now

567

00:25:52,950 --> 00:25:50,500

Robert is his first name he has this

568

00:25:54,540 --> 00:25:52,960

theory about this gravity type of

569

00:25:56,780 --> 00:25:54,550

movement that he thinks is propulsion

570

00:25:59,250 --> 00:25:56,790

which i think is pretty interesting and

571

00:26:01,770 --> 00:25:59,260

basically things are like falling or

572

00:26:04,020 --> 00:26:01,780

something as it's never I may be

573

00:26:06,560 --> 00:26:04,030

confusing him with someone else actually

574

00:26:09,290 --> 00:26:06,570

I think he does have more like

575

00:26:11,760 --> 00:26:09,300

space-time folded or something like that

576

00:26:13,560 --> 00:26:11,770

yeah that's that's that's actually a

577

00:26:15,210 --> 00:26:13,570

little bit different of a theory I mean

578

00:26:18,240 --> 00:26:15,220

basically they all go into quantum

579

00:26:21,480 --> 00:26:18,250

physics and one of the thoughts that I'm

580

00:26:23,190 --> 00:26:21,490

going into you is basically there's a

581

00:26:25,320 --> 00:26:23,200

newer thought about quantum entanglement

582

00:26:27,480 --> 00:26:25,330

how like everything is connected at some

583

00:26:30,390 --> 00:26:27,490

point in every point of the universe and

584

00:26:33,180 --> 00:26:30,400

so then using that you can technically

585

00:26:36,050 --> 00:26:33,190

open up a black hole you know a stable

586

00:26:38,670 --> 00:26:36,060

wormhole the whole isin yeah the

587

00:26:41,400 --> 00:26:38,680

Einstein Rosenberg bridge type thing and

588

00:26:44,910 --> 00:26:41,410

just basically move from point to point

589

00:26:47,370 --> 00:26:44,920

at any speed anywhere you want well it

590

00:26:50,040 --> 00:26:47,380

does it's not restricted to distance so

591

00:26:53,640 --> 00:26:50,050

you can do it in small jumps you can do

592

00:26:55,200 --> 00:26:53,650

it in big jumps so I'm I've been just

593

00:26:57,090 --> 00:26:55,210

kind of twinning with the numbers to see

594

00:26:59,130 --> 00:26:57,100

if any of that even comes close and I'm

595

00:27:00,660 --> 00:26:59,140

actually because when I couldn't thread

596

00:27:04,380 --> 00:27:00,670

through school for physics in college

597

00:27:05,550 --> 00:27:04,390

yet none of that none of this was this

598

00:27:07,470 --> 00:27:05,560

was like some whackadoo

599

00:27:09,030 --> 00:27:07,480

theory and then it wasn't like validated

600

00:27:10,950 --> 00:27:09,040

until like within the last ten years

601
00:27:14,450 --> 00:27:10,960
when it's been a long time since I was

602
00:27:15,750 --> 00:27:14,460
in school raised oh I have to go back

603
00:27:20,160 --> 00:27:15,760
not yet

604
00:27:23,430 --> 00:27:20,170
Oh 30 seconds before the bumper Rose 30

605
00:27:27,600 --> 00:27:23,440
seconds so total about 45 seconds you

606
00:27:29,580 --> 00:27:27,610
got it okay all right no it's all it's a

607
00:27:31,200 --> 00:27:29,590
it's all interesting and you know we can

608
00:27:33,780 --> 00:27:31,210
talk a little bit about the physics

609
00:27:36,690 --> 00:27:33,790
because that part of it I find

610
00:27:39,140 --> 00:27:36,700
fascinating I I have Seth Shostak from

611
00:27:41,880 --> 00:27:39,150
SETI coming up in a couple of weeks and

612
00:27:44,160 --> 00:27:41,890
you know I've mentioned to him prior and

613
00:27:45,870 --> 00:27:44,170

when he was on you know years ago maybe

614

00:27:47,670 --> 00:27:45,880

we just haven't figured something out in

615

00:27:50,310 --> 00:27:47,680

physics because the main argument is how

616

00:27:51,960 --> 00:27:50,320

the heck did they get here you know from

617

00:27:56,100 --> 00:27:51,970

from there I think we're about ready

618

00:27:57,900 --> 00:27:56,110

aren't we race yeah we've got about ten

619

00:28:02,940 --> 00:27:57,910

seconds all right we're ready on this

620

00:28:04,530 --> 00:28:02,950

end Kevin it's good to hear you again

621

00:28:07,080 --> 00:28:04,540

brother I hope everything's going well

622

00:28:11,840 --> 00:28:07,090

with you yeah you should got a face for

623

00:28:17,820 --> 00:28:11,850

radio of their race I know it here we go

624

00:28:20,430 --> 00:28:17,830

in five four three two all right

625

00:28:23,310 --> 00:28:20,440

everyone welcome back I want to welcome

626

00:28:26,190 --> 00:28:23,320

welcome back my guest that is and we

627

00:28:29,070 --> 00:28:26,200

have Kevin day and Gary Voris and we're

628

00:28:31,920 --> 00:28:29,080

talking about the USS Nimitz case and

629

00:28:35,760 --> 00:28:31,930

right off the coast of CA San Diego

630

00:28:38,010 --> 00:28:35,770

happened back in November 2004 a lot of

631

00:28:40,260 --> 00:28:38,020

time has gone by and speaking of that

632

00:28:41,940 --> 00:28:40,270

either one of you can take this up you

633

00:28:45,480 --> 00:28:41,950

know our memory gets all twisted and

634

00:28:49,140 --> 00:28:45,490

faded and things get jumbled around did

635

00:28:52,170 --> 00:28:49,150

either one of you take the time at the

636

00:28:55,410 --> 00:28:52,180

time and you know make notations for

637

00:28:57,900 --> 00:28:55,420

yourself I know Kevin you wrote a book

638

00:29:00,210 --> 00:28:57,910

kind of a fiction book after kind of

639

00:29:02,850 --> 00:29:00,220

working this out in your head but Gary

640

00:29:06,630 --> 00:29:02,860

how about you did you make notes or or

641

00:29:10,500 --> 00:29:06,640

anything of what you saw witness mental

642

00:29:13,500 --> 00:29:10,510

notes mostly about angles of descent and

643

00:29:17,100 --> 00:29:13,510

speeds things like that and you know the

644

00:29:19,270 --> 00:29:17,110

way the way that it maneuvered and Gary

645

00:29:23,410 --> 00:29:19,280

did you actually physically see

646

00:29:24,820 --> 00:29:23,420

one of the objects yes I saw it on a

647

00:29:28,030 --> 00:29:24,830

number of occasions but when I when I

648

00:29:31,150 --> 00:29:28,040

say I saw it was through through a very

649

00:29:33,010 --> 00:29:31,160

heavily magnified set of binoculars that

650

00:29:34,990 --> 00:29:33,020

are mounted to the bridge wing of the

651
00:29:39,310 --> 00:29:35,000
ship called big eyes oh yes I know what

652
00:29:40,960 --> 00:29:39,320
those are yeah and but you know so went

653
00:29:43,510 --> 00:29:40,970
during the day we're talking that's like

654
00:29:44,950 --> 00:29:43,520
a dot in the horizon so you're seeing it

655
00:29:46,180 --> 00:29:44,960
in a bear you know you you look at the

656
00:29:49,270 --> 00:29:46,190
bearing and you're just looking for

657
00:29:52,060 --> 00:29:49,280
something moving in that area at night

658
00:29:53,290 --> 00:29:52,070
you could see it a lot better because at

659
00:29:56,320 --> 00:29:53,300
least you know because at least it was a

660
00:29:57,880 --> 00:29:56,330
glowing dot but oh no I'm not I'm not

661
00:30:01,090 --> 00:29:57,890
really sure if I'm aware of the fact

662
00:30:03,640 --> 00:30:01,100
that they actually glowed well it's kind

663
00:30:05,520 --> 00:30:03,650

of like a white like whitish light you

664

00:30:08,770 --> 00:30:05,530

see on the horizon

665

00:30:13,030 --> 00:30:08,780

interesting and were you at this point

666

00:30:15,040 --> 00:30:13,040

where you and your shipmates basically

667

00:30:19,090 --> 00:30:15,050

taking turns and the binoculars like

668

00:30:20,440 --> 00:30:19,100

checking these things out well well the

669

00:30:22,210 --> 00:30:20,450

bridge went the brig Marines went with

670

00:30:25,390 --> 00:30:22,220

bridge wing really wasn't a spot where

671

00:30:27,340 --> 00:30:25,400

people could just walk out to engulf for

672

00:30:30,310 --> 00:30:27,350

numbers so you basically had to make

673

00:30:32,620 --> 00:30:30,320

sure that you know it wasn't gonna cause

674

00:30:34,480 --> 00:30:32,630

a problem because you still had all the

675

00:30:35,920 --> 00:30:34,490

operations of the ship being steered and

676

00:30:40,420 --> 00:30:35,930

everything right there to the right of

677

00:30:41,890 --> 00:30:40,430

you inside the bridge so if the officer

678

00:30:43,540 --> 00:30:41,900

the deck at the time didn't want you out

679

00:30:44,740 --> 00:30:43,550

there you just didn't you couldn't go

680

00:30:46,090 --> 00:30:44,750

out there and they would definitely not

681

00:30:49,420 --> 00:30:46,100

let a whole crowd of people out there

682

00:30:52,480 --> 00:30:49,430

yeah yeah now did any to your knowledge

683

00:30:56,260 --> 00:30:52,490

that any of the officers have a

684

00:30:58,600 --> 00:30:56,270

curiosity to look for themselves I'll be

685

00:31:01,480 --> 00:30:58,610

honestly the I really don't know because

686

00:31:05,410 --> 00:31:01,490

I would just I would try to hit it when

687

00:31:06,970 --> 00:31:05,420

there was nobody there yeah yeah you

688

00:31:09,280 --> 00:31:06,980

know one of the things that has puzzled

689

00:31:11,320 --> 00:31:09,290

me about this whole thing is okay so

690

00:31:14,650 --> 00:31:11,330

David flavor and I think there was a

691

00:31:17,650 --> 00:31:14,660

there was another case where someone

692

00:31:18,940 --> 00:31:17,660

else went out and you know had I don't

693

00:31:21,970 --> 00:31:18,950

want to say dogfight but they actually

694

00:31:23,920 --> 00:31:21,980

witnessed witness it an hour later or

695

00:31:26,710 --> 00:31:23,930

something am i right on that they flew

696

00:31:29,380 --> 00:31:26,720

out again and and there was another

697

00:31:31,990 --> 00:31:29,390

encounter well I know the the actual

698

00:31:32,770 --> 00:31:32,000

video encounter was actually the second

699

00:31:34,150 --> 00:31:32,780

set of

700

00:31:36,910 --> 00:31:34,160

planes that went out for the in for

701
00:31:41,470 --> 00:31:36,920
intercepts it was an actually favor that

702
00:31:44,290 --> 00:31:41,480
took the video right yeah so the thing

703
00:31:48,040 --> 00:31:44,300
that's always been really curious to me

704
00:31:52,030 --> 00:31:48,050
is okay they saw this unbelievable thing

705
00:31:54,970 --> 00:31:52,040
this unbelievable technology where's the

706
00:31:56,890 --> 00:31:54,980
curiosity I mean to me I would think

707
00:31:58,630 --> 00:31:56,900
that you know the government would want

708
00:31:59,920 --> 00:31:58,640
to just be out there studying this thing

709
00:32:05,560 --> 00:31:59,930
you know

710
00:32:08,470 --> 00:32:05,570
things just do not work that way or you

711
00:32:11,670 --> 00:32:08,480
know what's the deal with that well just

712
00:32:14,170 --> 00:32:11,680
just for the kind of the casual relaxed

713
00:32:16,420 --> 00:32:14,180

way that the chain of command dealt with

714

00:32:19,480 --> 00:32:16,430

it you know that they actually kind of

715

00:32:22,210 --> 00:32:19,490

leads to my thought process that you

716

00:32:26,710 --> 00:32:22,220

know somebody somebody somebody

717

00:32:28,540 --> 00:32:26,720

somewhere knew already they they knew

718

00:32:30,160 --> 00:32:28,550

already that these things were happening

719

00:32:30,880 --> 00:32:30,170

or that these things have been there

720

00:32:33,160 --> 00:32:30,890

many times

721

00:32:35,260 --> 00:32:33,170

well I I've got a working theory that I

722

00:32:38,170 --> 00:32:35,270

think it's our own reverse-engineer tech

723

00:32:40,090 --> 00:32:38,180

and that just a sloppy way that they

724

00:32:42,490 --> 00:32:40,100

they were because I mean when you hear

725

00:32:44,410 --> 00:32:42,500

about a lot of UFOs you know it's like

726

00:32:46,060 --> 00:32:44,420

they're here they're gone they got a

727

00:32:47,620 --> 00:32:46,070

purpose they come down they do something

728

00:32:49,810 --> 00:32:47,630

and then any leap we're here are these

729

00:32:51,910 --> 00:32:49,820

things were just basically just kind of

730

00:32:53,500 --> 00:32:51,920

like hey we're here once you take a look

731

00:32:55,360 --> 00:32:53,510

at us and then when we intercept them

732

00:32:58,540 --> 00:32:55,370

then they decide they're gonna you know

733

00:33:00,040 --> 00:32:58,550

move around and and you know so I think

734

00:33:02,250 --> 00:33:00,050

it might have been some type of proof of

735

00:33:04,630 --> 00:33:02,260

concept of some type of our own tech

736

00:33:06,520 --> 00:33:04,640

really that's that's your that's your

737

00:33:08,530 --> 00:33:06,530

your working theory on that that's

738

00:33:12,250 --> 00:33:08,540

that's pretty amazing I will tell you

739

00:33:17,080 --> 00:33:12,260

this I had I'm in the basically the fine

740

00:33:20,560 --> 00:33:17,090

arts and antique business and I I was at

741

00:33:22,000 --> 00:33:20,570

a client's house just a couple of days

742

00:33:23,590 --> 00:33:22,010

ago and I'm gonna have to paraphrase

743

00:33:27,430 --> 00:33:23,600

this because I don't remember exactly

744

00:33:30,940 --> 00:33:27,440

what he said but he did work with the

745

00:33:33,490 --> 00:33:30,950

Navy and he had something to do with

746

00:33:34,270 --> 00:33:33,500

flight I think he says flight control or

747

00:33:35,650 --> 00:33:34,280

something like that

748

00:33:38,800 --> 00:33:35,660

along those lines I can't remember

749

00:33:40,510 --> 00:33:38,810

exactly what it was but when I spoke

750

00:33:42,220 --> 00:33:40,520

with him

751

00:33:44,950 --> 00:33:42,230

I asked him if he had heard anything

752

00:33:46,690 --> 00:33:44,960

about the USS Nimitz case and all that

753

00:33:49,680 --> 00:33:46,700

and he said yeah he said I heard about

754

00:33:54,039 --> 00:33:49,690

and then he went on to say things like

755

00:33:56,470 --> 00:33:54,049

you know it's it's interesting but he

756

00:33:58,930 --> 00:33:56,480

said when he was out in California who

757

00:34:01,979 --> 00:33:58,940

was near some you know a place where

758

00:34:05,680 --> 00:34:01,989

they were developing you know high tech

759

00:34:08,230 --> 00:34:05,690

things possibly and he used to see

760

00:34:10,869 --> 00:34:08,240

things show up and disappear and show up

761

00:34:14,409 --> 00:34:10,879

and disappear and he just assumed that

762

00:34:16,419 --> 00:34:14,419

it was our technology which you know I

763

00:34:18,010 --> 00:34:16,429

had never really heard anyone talk about

764

00:34:21,490 --> 00:34:18,020

until you just you know you're

765

00:34:24,280 --> 00:34:21,500

mentioning it now but you know I I have

766

00:34:26,379 --> 00:34:24,290

to say that you know I would think that

767

00:34:29,049 --> 00:34:26,389

what they were doing is if we could

768

00:34:32,710 --> 00:34:29,059

actually do that it just seems like that

769

00:34:35,589 --> 00:34:32,720

would be so far ahead of what I would

770

00:34:39,069 --> 00:34:35,599

imagine we would have for technology but

771

00:34:40,869 --> 00:34:39,079

if you if you think it it's possible you

772

00:34:44,319 --> 00:34:40,879

know it's just something we have to we

773

00:34:46,030 --> 00:34:44,329

have to think of okay like I said you

774

00:34:47,619 --> 00:34:46,040

know a lot of these working theories

775

00:34:50,200 --> 00:34:47,629

that I have are just based off of what

776

00:34:52,869 --> 00:34:50,210

could be true if you know if it's true

777

00:34:54,579 --> 00:34:52,879

that we you know recovered a craft in

778

00:34:56,470 --> 00:34:54,589

Roswell well that's a good chance that

779

00:34:58,870 --> 00:34:56,480

we've reverse engineered a good chunk of

780

00:35:01,120 --> 00:34:58,880

that or at least being able to use that

781

00:35:04,420 --> 00:35:01,130

tech even if we couldn't reverse

782

00:35:06,809 --> 00:35:04,430

engineer it but okay though here's a

783

00:35:10,240 --> 00:35:06,819

question about that that theory then is

784

00:35:12,700 --> 00:35:10,250

they knew I mean one branch of the

785

00:35:18,220 --> 00:35:12,710

whatever it is would speak to the other

786

00:35:20,920 --> 00:35:18,230

as far as like doing your you know your

787

00:35:23,829 --> 00:35:20,930

exercises out there and see when they

788

00:35:26,470 --> 00:35:23,839

not be in the area at that time I mean

789

00:35:29,230 --> 00:35:26,480

it just seems like one brother they ever

790

00:35:31,390 --> 00:35:29,240

met would know that well it depends on

791

00:35:33,430 --> 00:35:31,400

depends on the program I mean how many

792

00:35:37,180 --> 00:35:33,440

how long do they tip run before anybody

793

00:35:39,309 --> 00:35:37,190

even knew that word a tip mm-hm

794

00:35:42,250 --> 00:35:39,319

you know I mean it's it's it's really

795

00:35:45,220 --> 00:35:42,260

just all this all these programs would

796

00:35:46,870 --> 00:35:45,230

just be you know they'd be secret so you

797

00:35:49,630 --> 00:35:46,880

wouldn't know so if they decide they

798

00:35:51,849 --> 00:35:49,640

want to go out test it against the best

799

00:35:53,049 --> 00:35:51,859

we got right now do proof of concept

800

00:35:54,490 --> 00:35:53,059

they know where we're at

801
00:35:56,349 --> 00:35:54,500
they know we're not gonna have a weapons

802
00:35:58,120 --> 00:35:56,359
loadout they know that they're not in

803
00:35:59,280 --> 00:35:58,130
any way gonna be able to damage the

804
00:36:02,100 --> 00:35:59,290
vehicles

805
00:36:03,870 --> 00:36:02,110
hmm so they go out do proof of concept

806
00:36:05,730 --> 00:36:03,880
come back say and then you know

807
00:36:10,440 --> 00:36:05,740
high-five each other cuz here I'll be

808
00:36:12,900 --> 00:36:10,450
able to out dog's Wow Robert I'll be all

809
00:36:14,910 --> 00:36:12,910
champion here honest I am I don't I

810
00:36:16,830 --> 00:36:14,920
don't know I don't know what those

811
00:36:18,810 --> 00:36:16,840
objects were but I I know what they

812
00:36:21,150 --> 00:36:18,820
weren't because that was my job my

813
00:36:24,150 --> 00:36:21,160

entire job was try to identify things

814

00:36:26,370 --> 00:36:24,160

that flew in the air and believe me we

815

00:36:27,600 --> 00:36:26,380

tried we tried to identify him I do to

816

00:36:31,020 --> 00:36:27,610

this day I don't know what they were I

817

00:36:32,250 --> 00:36:31,030

have concerns if this was our stuff

818

00:36:35,040 --> 00:36:32,260

because we are out there doing that

819

00:36:37,260 --> 00:36:35,050

exercise and for us not to know there

820

00:36:40,380 --> 00:36:37,270

was another exercise layered on top of

821

00:36:44,250 --> 00:36:40,390

us it's not like you dangerous it could

822

00:36:46,590 --> 00:36:44,260

also be potentially even illegal but I

823

00:36:47,880 --> 00:36:46,600

have an open mind I really do i best it

824

00:36:50,220 --> 00:36:47,890

I haven't got the right about what these

825

00:36:55,740 --> 00:36:50,230

are because the US military has never

826
00:36:59,700 --> 00:36:55,750
done anything dangerous or illegal well

827
00:37:02,580 --> 00:36:59,710
I you know it's really an interesting

828
00:37:06,390 --> 00:37:02,590
theory and but you know the one thing

829
00:37:09,300 --> 00:37:06,400
you know I have to say Gary pardon me is

830
00:37:11,550 --> 00:37:09,310
if they did not have this gravity

831
00:37:13,320 --> 00:37:11,560
technology that you're speaking of you

832
00:37:16,200 --> 00:37:13,330
know it would just be impossible for any

833
00:37:18,330 --> 00:37:16,210
type of craft to you know be able to

834
00:37:21,690 --> 00:37:18,340
handle the type of 13-hundred did you

835
00:37:24,030 --> 00:37:21,700
say gee forced well the craft it would

836
00:37:27,150 --> 00:37:24,040
definitely stress that they would be at

837
00:37:29,040 --> 00:37:27,160
the very edge of its capabilities as you

838
00:37:30,780 --> 00:37:29,050

know metal fatigue things like that and

839

00:37:33,540 --> 00:37:30,790

they're definitely if they didn't have

840

00:37:36,600 --> 00:37:33,550

any type of gravitational propulsion

841

00:37:38,760 --> 00:37:36,610

systems they would have 100% been

842

00:37:40,110 --> 00:37:38,770

nothing alive inside those things they

843

00:37:41,250 --> 00:37:40,120

would have had them in drones at that

844

00:37:45,630 --> 00:37:41,260

point yeah

845

00:37:49,470 --> 00:37:45,640

and so but this if it was a drone it

846

00:37:52,680 --> 00:37:49,480

seemed to engage you know the the craft

847

00:37:55,830 --> 00:37:52,690

free-verse craft pretty accurately I

848

00:37:57,810 --> 00:37:55,840

guess that would be remote but it thinks

849

00:38:00,960 --> 00:37:57,820

just it just doesn't seem to make sense

850

00:38:03,420 --> 00:38:00,970

that first of all it could drop the

851
00:38:06,090 --> 00:38:03,430
28,000 feet and you know a fraction of a

852
00:38:09,230 --> 00:38:06,100
second and still have you know remote

853
00:38:11,700 --> 00:38:09,240
capabilities I mean this is all just you

854
00:38:13,050 --> 00:38:11,710
know they would have remote technology

855
00:38:16,130 --> 00:38:13,060
for that

856
00:38:19,530 --> 00:38:16,140
in in reverse-engineered you know space

857
00:38:21,660 --> 00:38:19,540
spacecraft I don't think I mean we are

858
00:38:23,700 --> 00:38:21,670
talking about some pretty seriously

859
00:38:26,400 --> 00:38:23,710
advanced technology at this point you

860
00:38:28,140 --> 00:38:26,410
know who knows what the range went on

861
00:38:32,850 --> 00:38:28,150
remote device would be four or something

862
00:38:35,370 --> 00:38:32,860
like that yeah and but Kevin there was

863
00:38:38,550 --> 00:38:35,380

how many would you say that you saw and

864

00:38:39,410 --> 00:38:38,560

want any given situation at will at one

865

00:38:42,390 --> 00:38:39,420

time

866

00:38:44,760 --> 00:38:42,400

um they appeared on the radar and groups

867

00:38:47,610 --> 00:38:44,770

of five to ten at a time and if I was to

868

00:38:48,900 --> 00:38:47,620

add up all the groups over the entire

869

00:38:49,980 --> 00:38:48,910

period of time we were tracking these

870

00:38:52,710 --> 00:38:49,990

things there was probably about a

871

00:38:55,950 --> 00:38:52,720

hundred total objects now I don't have

872

00:38:58,290 --> 00:38:55,960

any idea if they were a hundred separate

873

00:39:00,810 --> 00:38:58,300

objects or they were the same five you

874

00:39:02,820 --> 00:39:00,820

know groups the same groups basically

875

00:39:04,200 --> 00:39:02,830

repeating somehow I don't even know if

876

00:39:06,660 --> 00:39:04,210

they're all the same shape and size

877

00:39:09,480 --> 00:39:06,670

because all I'm looking at on my on my

878

00:39:14,070 --> 00:39:09,490

console is a simple symbology represents

879

00:39:15,690 --> 00:39:14,080

everything so it's um the base time I

880

00:39:20,430 --> 00:39:15,700

loose my loose math of about a hundred

881

00:39:22,440 --> 00:39:20,440

altogether so you know the going back to

882

00:39:25,680 --> 00:39:22,450

you know Gary's thoughts or whatever

883

00:39:30,930 --> 00:39:25,690

have it just seems like if there was

884

00:39:32,880 --> 00:39:30,940

this tic tac shaped odd object objects

885

00:39:35,790 --> 00:39:32,890

that was developed by the military and

886

00:39:39,150 --> 00:39:35,800

they were testing them you just seem you

887

00:39:41,250 --> 00:39:39,160

would seem to kind of get the idea that

888

00:39:44,100 --> 00:39:41,260

a lot of people would be seeing them it

889

00:39:45,510 --> 00:39:44,110

wouldn't just be your situation you know

890

00:39:49,860 --> 00:39:45,520

they'd be seeing them over and over and

891

00:39:51,030 --> 00:39:49,870

over and and are there any other you

892

00:39:52,710 --> 00:39:51,040

know people that have come forward

893

00:39:56,130 --> 00:39:52,720

saying they're seeing the same objects

894

00:39:57,480 --> 00:39:56,140

that you're aware of I know Kevin has

895

00:39:59,100 --> 00:39:57,490

done some research and as with

896

00:40:01,080 --> 00:39:59,110

especially with the sightings around the

897

00:40:03,420 --> 00:40:01,090

same area that we were at apparently

898

00:40:06,270 --> 00:40:03,430

there's been hundreds of people that

899

00:40:08,400 --> 00:40:06,280

have seen it so yeah and that and then a

900

00:40:09,870 --> 00:40:08,410

recent the more recent events on the

901
00:40:12,660 --> 00:40:09,880
East Coast with the Roosevelt battle

902
00:40:14,370 --> 00:40:12,670
group according to some of the reports

903
00:40:16,800 --> 00:40:14,380
I've heard from those guys is they were

904
00:40:19,590 --> 00:40:16,810
seeing them some sort of objects out

905
00:40:21,600 --> 00:40:19,600
there almost on a daily basis for for a

906
00:40:23,040 --> 00:40:21,610
period of time but that's more like

907
00:40:24,660 --> 00:40:23,050
that's where they go ahead that's where

908
00:40:26,010 --> 00:40:24,670
the gimbal and they go fast video scan

909
00:40:26,490 --> 00:40:26,020
yeah I was gonna say it but that's the

910
00:40:28,380 --> 00:40:26,500
gimbal

911
00:40:30,930 --> 00:40:28,390
is not you know not your tic-tac shape

912
00:40:32,520 --> 00:40:30,940
and then you're getting it you're going

913
00:40:35,490 --> 00:40:32,530

to be getting into some other type of

914

00:40:39,330 --> 00:40:35,500

technology that that is if it's our own

915

00:40:40,860 --> 00:40:39,340

you know it's that I mean they could

916

00:40:42,240 --> 00:40:40,870

have different models using the same

917

00:40:43,950 --> 00:40:42,250

thing I mean they could be for different

918

00:40:46,050 --> 00:40:43,960

things because I mean the our f-18s

919

00:40:48,480 --> 00:40:46,060

don't look like jumbo jets you know

920

00:40:51,150 --> 00:40:48,490

that's it's just a matter of or they

921

00:40:53,700 --> 00:40:51,160

could have different purposes one could

922

00:40:57,030 --> 00:40:53,710

be reconnaissance one could be you know

923

00:41:01,710 --> 00:40:57,040

for use for actual combat all right

924

00:41:04,020 --> 00:41:01,720

along those lines Gary you know when the

925

00:41:08,120 --> 00:41:04,030

craft went right down and it was

926
00:41:10,800 --> 00:41:08,130
hovering over disturbance in the water

927
00:41:14,310 --> 00:41:10,810
why would you you know just in your

928
00:41:16,530 --> 00:41:14,320
along your minds of your theory no one

929
00:41:18,450 --> 00:41:16,540
really knows what that was about either

930
00:41:22,200 --> 00:41:18,460
but it wouldn't seem like it would make

931
00:41:24,480 --> 00:41:22,210
any sense that if it's a drone that it

932
00:41:28,290 --> 00:41:24,490
would be checking out a disturbance in

933
00:41:29,610 --> 00:41:28,300
the water I don't know I mean and the

934
00:41:31,620 --> 00:41:29,620
only thing I could really I mean just

935
00:41:34,260 --> 00:41:31,630
say you get remember all this is

936
00:41:35,850 --> 00:41:34,270
theories based off of no actual

937
00:41:37,290 --> 00:41:35,860
knowledge just me trying to piece things

938
00:41:39,660 --> 00:41:37,300

together that makes sense to me

939

00:41:41,670 --> 00:41:39,670

and if the thing that was under the

940

00:41:43,920 --> 00:41:41,680

water has never been identified we don't

941

00:41:45,720 --> 00:41:43,930

know what it was and it could have been

942

00:41:48,360 --> 00:41:45,730

the controller it could have been a

943

00:41:50,670 --> 00:41:48,370

mothership it could have been a much

944

00:41:54,960 --> 00:41:50,680

larger ship that launched these things

945

00:41:57,450 --> 00:41:54,970

yeah I have no idea mm-hmm so I have

946

00:42:00,120 --> 00:41:57,460

your kind of your theory that's your top

947

00:42:03,390 --> 00:42:00,130

theory but you're open to other

948

00:42:05,280 --> 00:42:03,400

possibilities I imagine I'm open up to

949

00:42:07,080 --> 00:42:05,290

any possibility if anybody wants to lay

950

00:42:09,270 --> 00:42:07,090

something out and you know how follow

951
00:42:11,640 --> 00:42:09,280
down any paths anybody wants and then

952
00:42:15,510 --> 00:42:11,650
talk with them about it now Gary just

953
00:42:19,590 --> 00:42:15,520
one thing also do you think the

954
00:42:21,690 --> 00:42:19,600
government or would have that has

955
00:42:23,610 --> 00:42:21,700
knowledge of this that they could just

956
00:42:25,500 --> 00:42:23,620
keep this thing quiet if they did have

957
00:42:28,680 --> 00:42:25,510
something like this or do you think it

958
00:42:31,020 --> 00:42:28,690
would have to be in the private sector I

959
00:42:34,800 --> 00:42:31,030
think a little bit of both I think that

960
00:42:36,630 --> 00:42:34,810
the government knows a lot more about it

961
00:42:39,090 --> 00:42:36,640
than they could ever even possibly know

962
00:42:40,170 --> 00:42:39,100
and they also are not stupid enough to

963
00:42:40,450 --> 00:42:40,180

think that they're going to be able to

964

00:42:44,380 --> 00:42:40,460

keep

965

00:42:46,540 --> 00:42:44,390

raps forever mm-hmm so I would think

966

00:42:48,220 --> 00:42:46,550

that a lot of the tech if it is being

967

00:42:49,450 --> 00:42:48,230

reverse engineering has probably been

968

00:42:51,460 --> 00:42:49,460

released to some of these bigger

969

00:42:54,490 --> 00:42:51,470

companies like you know Apple and

970

00:42:58,630 --> 00:42:54,500

Microsoft and you know or any of these

971

00:43:03,000 --> 00:42:58,640

fees and pushing it out on the market

972

00:43:05,860 --> 00:43:03,010

all right so along your theory as well

973

00:43:08,200 --> 00:43:05,870

then if this is the case then why would

974

00:43:11,050 --> 00:43:08,210

the Navy change their stance on the UFO

975

00:43:14,370 --> 00:43:11,060

status of of people reporting in the

976

00:43:17,140 --> 00:43:14,380

Navy pilots are reporting unidentified

977

00:43:21,670 --> 00:43:17,150

objects why would they change the status

978

00:43:22,900 --> 00:43:21,680

if it's our technology I would think

979

00:43:25,180 --> 00:43:22,910

they would change the status for the

980

00:43:27,010 --> 00:43:25,190

simple fact that with literally

981

00:43:29,890 --> 00:43:27,020

everybody having a 4k camera in their

982

00:43:32,320 --> 00:43:29,900

pockets now eventually people are gonna

983

00:43:35,680 --> 00:43:32,330

get good video people are going to find

984

00:43:37,480 --> 00:43:35,690

real evidence on you know all these

985

00:43:38,740 --> 00:43:37,490

things that are going on and I mean and

986

00:43:40,180 --> 00:43:38,750

it could be a little bit of everything

987

00:43:41,980 --> 00:43:40,190

that everybody wanted this straight

988

00:43:45,370 --> 00:43:41,990

usually the truth is stranger than

989

00:43:48,900 --> 00:43:45,380

reality so I'm really looking forward to

990

00:43:51,310 --> 00:43:48,910

seeing where all this goes yeah I am too

991

00:43:52,930 --> 00:43:51,320

it's kind of like we're in exciting

992

00:43:55,000 --> 00:43:52,940

times and we're gonna be talking a

993

00:43:56,380 --> 00:43:55,010

little bit about that Kevin because I

994

00:43:58,150 --> 00:43:56,390

know you're involved I don't know I'm

995

00:44:02,050 --> 00:43:58,160

sure if you're involved with him at all

996

00:44:04,690 --> 00:44:02,060

and some things coming up but Kevin what

997

00:44:06,070 --> 00:44:04,700

are your are your thoughts similar to

998

00:44:09,480 --> 00:44:06,080

Gary so do you have your own idea of

999

00:44:12,430 --> 00:44:09,490

what you may have been witnessing I

1000

00:44:16,870 --> 00:44:12,440

don't know what they were Martin and I

1001
00:44:21,160 --> 00:44:16,880
could be a really good answer yeah it's

1002
00:44:23,230 --> 00:44:21,170
completely honest I just I just really

1003
00:44:24,790 --> 00:44:23,240
hate to speculate about it because you

1004
00:44:26,710 --> 00:44:24,800
know if I go out on the radio here and I

1005
00:44:28,960 --> 00:44:26,720
say yeah those are definitely aliens

1006
00:44:30,730 --> 00:44:28,970
yeah well then by god but I got to be

1007
00:44:33,610 --> 00:44:30,740
able to defend it and I just can't I

1008
00:44:35,260 --> 00:44:33,620
don't have the evidence yeah I'm not

1009
00:44:37,810 --> 00:44:35,270
gonna put I'm not gonna say something

1010
00:44:41,860 --> 00:44:37,820
like that so the best answer for me is I

1011
00:44:43,990 --> 00:44:41,870
don't know I got it so Kevin what you're

1012
00:44:46,180 --> 00:44:44,000
involved in a couple things do you want

1013
00:44:47,800 --> 00:44:46,190

to talk about that yeah I'm kind of

1014

00:44:51,220 --> 00:44:47,810

picking it picking back up on the story

1015

00:44:52,660 --> 00:44:51,230

um the the kind of the scene side or her

1016

00:44:54,120 --> 00:44:52,670

commander Faber who followed the object

1017

00:44:55,499 --> 00:44:54,130

down of the surface because he saw the

1018

00:44:57,029 --> 00:44:55,509

disturbance and in fact he thought it

1019

00:44:58,620 --> 00:44:57,039

was a downed aircraft at first and it

1020

00:45:01,049 --> 00:44:58,630

turned out it wasn't thank God

1021

00:45:02,700 --> 00:45:01,059

but this object when he went down there

1022

00:45:05,160 --> 00:45:02,710

it kind of turned on him a little bit it

1023

00:45:06,990 --> 00:45:05,170

was aware of him reacted to him and all

1024

00:45:09,809 --> 00:45:07,000

sudden that object went straight back up

1025

00:45:12,059 --> 00:45:09,819

to 28,000 feet and again point seven

1026

00:45:14,940 --> 00:45:12,069

eight seconds continue tracking towards

1027

00:45:19,380 --> 00:45:14,950

the south towards Baja California as if

1028

00:45:21,029 --> 00:45:19,390

nothing fun had just happened you asked

1029

00:45:23,910 --> 00:45:21,039

earlier if we had taken notes and stuff

1030

00:45:25,380 --> 00:45:23,920

at night I in fact did I and one of the

1031

00:45:27,329 --> 00:45:25,390

notes that I did take is I wrote down

1032

00:45:30,089 --> 00:45:27,339

the latitude and the longitude of or all

1033

00:45:33,210 --> 00:45:30,099

of these objects faded from my radar and

1034

00:45:35,819 --> 00:45:33,220

it turns out they're co-located with

1035

00:45:38,640 --> 00:45:35,829

guada Guadalupe Island off the coast of

1036

00:45:40,740 --> 00:45:38,650

Baja I'm not sure if they descended

1037

00:45:42,049 --> 00:45:40,750

there or they may radar just couldn't

1038

00:45:45,240 --> 00:45:42,059

track them anymore it was too far away

1039

00:45:46,559 --> 00:45:45,250

but I'll tell you what when Lou Elizondo

1040

00:45:48,509 --> 00:45:46,569

and Tom DeLonge came to my house to

1041

00:45:50,180 --> 00:45:48,519

interview me when I mentioned the fact

1042

00:45:52,470 --> 00:45:50,190

that I had the Latin loud

1043

00:45:54,660 --> 00:45:52,480

latitude/longitude I didn't even get the

1044

00:45:57,390 --> 00:45:54,670

word out of my mouth and I'll never

1045

00:45:58,890 --> 00:45:57,400

forget this he's like we're going there

1046

00:46:00,180 --> 00:45:58,900

I'm gonna get a boat and we're going out

1047

00:46:02,640 --> 00:46:00,190

there and that's that's what they did

1048

00:46:05,099 --> 00:46:02,650

that's with Sean Cahill Wow and when

1049

00:46:08,880 --> 00:46:05,109

they were Guadeloupe Leon was based on

1050

00:46:12,569 --> 00:46:08,890

that information I was able to retain

1051
00:46:14,190 --> 00:46:12,579
from my notes so anyway um there's a

1052
00:46:16,109 --> 00:46:14,200
bunch of other aircraft launching off

1053
00:46:18,660 --> 00:46:16,119
the Nimitz and before it there was one

1054
00:46:21,589 --> 00:46:18,670
point in time when we were literally had

1055
00:46:23,789 --> 00:46:21,599
UFOs raining out of the sky because

1056
00:46:26,609 --> 00:46:23,799
these things just started dropping out

1057
00:46:29,249 --> 00:46:26,619
of the sky in reaction to the aircraft

1058
00:46:30,749 --> 00:46:29,259
and they were all in the less than a

1059
00:46:33,120 --> 00:46:30,759
second went down to the surface and they

1060
00:46:34,680 --> 00:46:33,130
would pop straight back out 28,000 feet

1061
00:46:36,660 --> 00:46:34,690
I guess when they felt it was safe to do

1062
00:46:40,769 --> 00:46:36,670
it and they continued tracking South

1063
00:46:44,160 --> 00:46:40,779

dead 100 knots Justin that just let that

1064

00:46:47,249 --> 00:46:44,170

whole the way that he reacted and yeah

1065

00:46:48,839 --> 00:46:47,259

they acted like if you throw a pebble

1066

00:46:50,609 --> 00:46:48,849

into a flock of birds are gonna scatter

1067

00:46:53,730 --> 00:46:50,619

but they're then they're gonna regroup

1068

00:46:56,730 --> 00:46:53,740

they continue on there as if you know

1069

00:46:58,920 --> 00:46:56,740

almost organic like now yeah

1070

00:47:02,910 --> 00:46:58,930

very organic behavior and it was

1071

00:47:04,499 --> 00:47:02,920

prescient it was if I had to I had this

1072

00:47:05,789 --> 00:47:04,509

overwhelming impression that that thing

1073

00:47:06,970 --> 00:47:05,799

whatever they were they were somehow

1074

00:47:09,609 --> 00:47:06,980

alive

1075

00:47:11,380 --> 00:47:09,619

yeah but that is my own personal feeling

1076
00:47:13,359 --> 00:47:11,390
to get and totally based on how they

1077
00:47:15,970 --> 00:47:13,369
were behaving right

1078
00:47:19,300 --> 00:47:15,980
almost like birds in a way now the that

1079
00:47:21,599 --> 00:47:19,310
go ahead there's the other real curious

1080
00:47:23,829 --> 00:47:21,609
thing about this whole situation is

1081
00:47:28,120 --> 00:47:23,839
what's the point where they actually

1082
00:47:30,250 --> 00:47:28,130
showed up the point of where you were

1083
00:47:32,319 --> 00:47:30,260
doing your yes what's that called there

1084
00:47:35,410 --> 00:47:32,329
is at one point in a commander framers

1085
00:47:37,780 --> 00:47:35,420
intercept where the object left is were

1086
00:47:40,510 --> 00:47:37,790
the location of where he was at at the

1087
00:47:43,569 --> 00:47:40,520
sky and that went about 60 miles away

1088
00:47:46,569 --> 00:47:43,579

and again less than a second it went

1089

00:47:48,880 --> 00:47:46,579

exactly to this spot the spot in the sky

1090

00:47:51,190 --> 00:47:48,890

that we call a combat air patrol station

1091

00:47:52,480 --> 00:47:51,200

and basically real simply with that is

1092

00:47:54,310 --> 00:47:52,490

if you got a strike group down to the

1093

00:47:56,530 --> 00:47:54,320

south and you got a notional threat up

1094

00:47:59,670 --> 00:47:56,540

to the north we're gonna have several

1095

00:48:01,750 --> 00:47:59,680

points that we kick in the sky and

1096

00:48:03,130 --> 00:48:01,760

that's kind of just a point in this guy

1097

00:48:04,829 --> 00:48:03,140

where the air crews kind of hang out

1098

00:48:07,240 --> 00:48:04,839

till they get an order to do something

1099

00:48:08,770 --> 00:48:07,250

now there's there is no way that this

1100

00:48:11,020 --> 00:48:08,780

object should have known where that cat

1101

00:48:14,349 --> 00:48:11,030

point was and that's like right it was

1102

00:48:15,339 --> 00:48:14,359

right where right exactly where right on

1103

00:48:18,160 --> 00:48:15,349

it Yeah right

1104

00:48:19,780 --> 00:48:18,170

exactly on it now they own the home the

1105

00:48:21,790 --> 00:48:19,790

whole point of what we're gonna be out

1106

00:48:23,490 --> 00:48:21,800

there for a lift what you just asked is

1107

00:48:26,980 --> 00:48:23,500

that we were doing combat training

1108

00:48:29,200 --> 00:48:26,990

mm-hmm so the whole event is the whole

1109

00:48:31,480 --> 00:48:29,210

event prior to this whole intercept or

1110

00:48:35,230 --> 00:48:31,490

to intercept we were all doing combat

1111

00:48:38,319 --> 00:48:35,240

training and for you know what there

1112

00:48:39,609 --> 00:48:38,329

that that is just that doesn't make kind

1113

00:48:42,180 --> 00:48:39,619

of continuing on the story a little bit

1114

00:48:44,680 --> 00:48:42,190

cuz it kind of it kind of alludes to

1115

00:48:46,030 --> 00:48:44,690

something else that you asked me when in

1116

00:48:48,940 --> 00:48:46,040

commander forever we landed back on the

1117

00:48:50,050 --> 00:48:48,950

Nimitz he pulled the other there the

1118

00:48:51,280 --> 00:48:50,060

flight crew that was getting ready to

1119

00:48:53,109 --> 00:48:51,290

launch and he said hey you guys make

1120

00:48:55,870 --> 00:48:53,119

sure you have an attic floor pod loaded

1121

00:48:58,809 --> 00:48:55,880

the advanced forward-looking infrared

1122

00:49:00,609 --> 00:48:58,819

radar because it can record video and

1123

00:49:03,010 --> 00:49:00,619

that's the video that we all see the TIC

1124

00:49:05,579 --> 00:49:03,020

10 video and I wasn't there of course

1125

00:49:08,500 --> 00:49:05,589

but it's been reported

1126
00:49:10,599 --> 00:49:08,510
other people that chat under was a pilot

1127
00:49:13,240 --> 00:49:10,609
saying this recently came out public he

1128
00:49:14,980 --> 00:49:13,250
said I'm gonna go find those things and

1129
00:49:18,190 --> 00:49:14,990
you know what that's exactly what he did

1130
00:49:20,170 --> 00:49:18,200
Wow and it's its base it's based on that

1131
00:49:21,849 --> 00:49:20,180
fact that we

1132
00:49:23,589 --> 00:49:21,859
got it we're actually gonna go back out

1133
00:49:24,730 --> 00:49:23,599
there and find them again Martin while I

1134
00:49:26,140 --> 00:49:24,740
hope so

1135
00:49:28,569 --> 00:49:26,150
we're putting together an expedition

1136
00:49:32,530 --> 00:49:28,579
we're we're gonna charter a research

1137
00:49:34,660 --> 00:49:32,540
vessel and I've got this thing crewed up

1138
00:49:37,210 --> 00:49:34,670

with some pretty top-notch physicists

1139

00:49:39,760 --> 00:49:37,220

research scientists trained observers

1140

00:49:42,099 --> 00:49:39,770

we've got a film crew that's going out

1141

00:49:44,970 --> 00:49:42,109

with us and we're taking a bunch of new

1142

00:49:47,440 --> 00:49:44,980

technologies out there with this because

1143

00:49:52,559 --> 00:49:47,450

we we want to create a situation where

1144

00:49:57,309 --> 00:49:56,620

incontrovertible evidence it yes UAP is

1145

00:50:00,819 --> 00:49:57,319

real

1146

00:50:03,700 --> 00:50:00,829

yes UAP is findable and yes UAP is

1147

00:50:05,230 --> 00:50:03,710

knowable because if we're able to

1148

00:50:06,339 --> 00:50:05,240

capture the data we're gonna capture the

1149

00:50:11,049 --> 00:50:06,349

data and all different kinds of

1150

00:50:13,270 --> 00:50:11,059

modalities to support the support as

1151

00:50:14,680 --> 00:50:13,280

eyewitnesses on the ship and we had

1152

00:50:16,180 --> 00:50:14,690

originally planned to do it in November

1153

00:50:18,130 --> 00:50:16,190

2020 but I found out recently the

1154

00:50:20,470 --> 00:50:18,140

research vessel isn't available till

1155

00:50:21,970 --> 00:50:20,480

December so we're pushing it we're gonna

1156

00:50:24,359 --> 00:50:21,980

push it back we're gonna push it to the

1157

00:50:26,440 --> 00:50:24,369

left and go out there in December 2020

1158

00:50:28,740 --> 00:50:26,450

spend about ten days we're gonna anchor

1159

00:50:31,539 --> 00:50:28,750

off there's a little cove off the

1160

00:50:34,120 --> 00:50:31,549

southern tip of sank many island which

1161

00:50:37,780 --> 00:50:34,130

is about midway between the Soquel

1162

00:50:41,859 --> 00:50:37,790

operating areas and Catalina Island to

1163

00:50:43,030 --> 00:50:41,869

the north Wow or we can just anchor

1164

00:50:44,470 --> 00:50:43,040

we're just gonna anchor there so we

1165

00:50:46,900 --> 00:50:44,480

don't burn a lot of fuel so you're

1166

00:50:50,260 --> 00:50:46,910

saying this is gonna be in a year from

1167

00:50:53,500 --> 00:50:50,270

this December a year from this December

1168

00:50:55,299 --> 00:50:53,510

correct aha Wow

1169

00:50:58,210 --> 00:50:55,309

and it's all based it's all based on the

1170

00:51:00,430 --> 00:50:58,220

fact that if you know if we found a more

1171

00:51:02,559 --> 00:51:00,440

you can do it again if we find them on

1172

00:51:05,410 --> 00:51:02,569

radar once they can do it again using

1173

00:51:06,339 --> 00:51:05,420

other technologies we 100 are and if if

1174

00:51:08,260 --> 00:51:06,349

Chad Underwood

1175

00:51:11,460 --> 00:51:08,270

vocalize the fact I'm gonna go find him

1176
00:51:13,539 --> 00:51:11,470
then that's what I'm doing now and their

1177
00:51:17,170 --> 00:51:13,549
content plays a big role in this I

1178
00:51:19,180 --> 00:51:17,180
really do but that and Annette Annette

1179
00:51:21,250 --> 00:51:19,190
one local area that we were at like I

1180
00:51:25,780 --> 00:51:21,260
said there's been hundreds of sightings

1181
00:51:28,089 --> 00:51:25,790
of UFOs you AP's underwater phenomenon

1182
00:51:30,970 --> 00:51:28,099
all kinds of stuff over there so near

1183
00:51:34,030 --> 00:51:30,980
Catalina Island right yeah because yeah

1184
00:51:35,830 --> 00:51:34,040
there's that's pretty famous for that

1185
00:51:37,810 --> 00:51:35,840
we're going into break in just about one

1186
00:51:40,960 --> 00:51:37,820
minute we're gonna be back with a

1187
00:51:42,850 --> 00:51:40,970
another guest I'll be talking about but

1188
00:51:45,280 --> 00:51:42,860

I do have an announcement I'm pretty

1189

00:51:48,460 --> 00:51:45,290

excited because I just got an email

1190

00:51:51,880 --> 00:51:48,470

confirmation that the one and only

1191

00:51:53,980 --> 00:51:51,890

Jacque Olay will be on next week on this

1192

00:51:58,390 --> 00:51:53,990

show some program

1193

00:52:01,750 --> 00:51:58,400

pretty happy about that so we have just

1194

00:52:03,280 --> 00:52:01,760

about a minute and are a little bit less

1195

00:52:04,810 --> 00:52:03,290

than that would be going to break I do

1196

00:52:09,250 --> 00:52:04,820

want to say that we're going to be

1197

00:52:10,930 --> 00:52:09,260

coming back with Robert Powell he's

1198

00:52:12,930 --> 00:52:10,940

going to be joining the three of us I

1199

00:52:15,640 --> 00:52:12,940

think you kind of did the spoiler there

1200

00:52:17,860 --> 00:52:15,650

Kevin you kind of said we can talk about

1201

00:52:19,570 --> 00:52:17,870

that with Robert later I don't know if

1202

00:52:21,330 --> 00:52:19,580

anyone caught that or not but that's

1203

00:52:25,000 --> 00:52:21,340

okay

1204

00:52:26,320 --> 00:52:25,010

but anyway hang in everyone we'll be

1205

00:52:28,990 --> 00:52:26,330

right back

1206

00:52:32,200 --> 00:52:29,000

we're going to go on a hard break over

1207

00:52:40,740 --> 00:52:32,210

at YouTube and we'll be back right back

1208

00:52:46,840 --> 00:52:44,620

all right everyone welcome back this is

1209

00:52:50,590 --> 00:52:46,850

Martin Willis and my guest this evening

1210

00:52:54,270 --> 00:52:50,600

is Kevin day and Gary forests witnesses

1211

00:52:57,780 --> 00:52:54,280

to the USS Nimitz tic-tac-toe

1212

00:53:03,400 --> 00:52:57,790

tic-tac-toe did you hear me say that

1213

00:53:05,620 --> 00:53:03,410

tic-tac UFO incident back in 2004 we

1214

00:53:09,850 --> 00:53:05,630

have an additional guest I'm really

1215

00:53:11,860 --> 00:53:09,860

excited to say that Robert Powell has

1216

00:53:15,010 --> 00:53:11,870

joined us Robert thank you and welcome

1217

00:53:16,870 --> 00:53:15,020

to the show oh it's good to see you

1218

00:53:19,780 --> 00:53:16,880

again Martin I think it's been a year or

1219

00:53:22,210 --> 00:53:19,790

so since I last was on your show yeah it

1220

00:53:23,530 --> 00:53:22,220

wasn't really that long ago but you know

1221

00:53:27,400 --> 00:53:23,540

I was talking in the very beginning of

1222

00:53:29,650 --> 00:53:27,410

the show how how Kevin actually wrote a

1223

00:53:32,110 --> 00:53:29,660

post on the YouTube that you and I did

1224

00:53:34,680 --> 00:53:32,120

together and you connected that way

1225

00:53:39,460 --> 00:53:34,690

initially yeah actually that's how I

1226
00:53:42,310 --> 00:53:39,470
that's how I first found Kevin was I did

1227
00:53:44,650 --> 00:53:42,320
it I'm trying to remember if we did the

1228
00:53:47,410 --> 00:53:44,660
your show right before the New York

1229
00:53:49,210 --> 00:53:47,420
Times article yes that's right

1230
00:53:52,740 --> 00:53:49,220
yeah it was because I started working on

1231
00:53:56,259 --> 00:53:52,750
it in late 2016

1232
00:53:58,420 --> 00:53:56,269
and then I did your show and then I saw

1233
00:54:01,150 --> 00:53:58,430
a little note from Kevin where I don't

1234
00:54:02,620 --> 00:54:01,160
even remember what he wrote and I but I

1235
00:54:05,170 --> 00:54:02,630
could tell from the way he wrote it

1236
00:54:07,920 --> 00:54:05,180
while you know okay this is someone I

1237
00:54:10,480 --> 00:54:07,930
should try to reach so I sent him my

1238
00:54:12,519 --> 00:54:10,490

email or a text or something like that

1239

00:54:14,920 --> 00:54:12,529

on Facebook you told me yeah yeah I

1240

00:54:18,609 --> 00:54:14,930

think so yeah me and Kevin got back with

1241

00:54:22,329 --> 00:54:18,619

me and I interviewed Kevin in January of

1242

00:54:25,920 --> 00:54:22,339

2018 probably about three or four weeks

1243

00:54:32,230 --> 00:54:25,930

after the New York Times story broke and

1244

00:54:34,900 --> 00:54:32,240

then Kevin's story was so amazing that I

1245

00:54:37,509 --> 00:54:34,910

wanted to get some confirmation so I

1246

00:54:41,859 --> 00:54:37,519

went onto Facebook and I I looked up the

1247

00:54:44,259 --> 00:54:41,869

USS Princeton and I got on to their site

1248

00:54:47,500 --> 00:54:44,269

they let me on whoever the traitor is

1249

00:54:50,609 --> 00:54:47,510

and that's how I found Gary I just

1250

00:54:54,759 --> 00:54:50,619

started reading through the site and I

1251
00:54:57,279 --> 00:54:54,769
contacted everyone who on that site it

1252
00:55:01,210 --> 00:54:57,289
indicated they had knowledge of the

1253
00:55:03,670 --> 00:55:01,220
event and really yeah because I wanted

1254
00:55:06,150 --> 00:55:03,680
someone to confirm what Kevin had told

1255
00:55:08,799 --> 00:55:06,160
me because it was it was pretty amazing

1256
00:55:11,440 --> 00:55:08,809
and that's actually the only reason I

1257
00:55:16,749 --> 00:55:11,450
ever came out to begin with is just in

1258
00:55:18,160 --> 00:55:16,759
support of Kevin really so so Gary well

1259
00:55:22,569 --> 00:55:18,170
while you're on right now

1260
00:55:24,130 --> 00:55:22,579
if if this had not happened would this

1261
00:55:26,019 --> 00:55:24,140
just be something you would have just

1262
00:55:28,690 --> 00:55:26,029
taken to your grave basically and not

1263
00:55:30,430 --> 00:55:28,700

talked about publicly well I probably

1264

00:55:31,870 --> 00:55:30,440

would have still talked about it when I

1265

00:55:37,420 --> 00:55:31,880

drank and I don't really drink for

1266

00:55:41,039 --> 00:55:37,430

though yeah and had you talked to family

1267

00:55:43,809 --> 00:55:41,049

members and friends about this quietly

1268

00:55:45,999 --> 00:55:43,819

some people but you know you know not a

1269

00:55:49,529 --> 00:55:46,009

lot of people even want to know about

1270

00:55:54,549 --> 00:55:49,539

this stuff so and how about now

1271

00:55:57,160 --> 00:55:54,559

well I don't even get recognized so now

1272

00:56:01,390 --> 00:55:57,170

I really tucked it to many people yeah

1273

00:56:04,000 --> 00:56:01,400

yeah but how about you were on a

1274

00:56:06,840 --> 00:56:04,010

unidentified Chris melon who's been on

1275

00:56:09,550 --> 00:56:06,850

the show actually interviewed you and

1276

00:56:12,460 --> 00:56:09,560

after that happened did you get

1277

00:56:14,800 --> 00:56:12,470

contacted um I had a lot of my old

1278

00:56:17,800 --> 00:56:14,810

shipmates contact me because you get

1279

00:56:21,430 --> 00:56:17,810

remember our memories er yeah 14 years

1280

00:56:23,080 --> 00:56:21,440

later and you know telling me yeah you

1281

00:56:24,850 --> 00:56:23,090

know you were right on with that but hey

1282

00:56:26,260 --> 00:56:24,860

you might uh you know you might want to

1283

00:56:28,420 --> 00:56:26,270

say it this way because this is actually

1284

00:56:29,950 --> 00:56:28,430

kind of how that works you know I've

1285

00:56:35,140 --> 00:56:29,960

gotten a lot of confirmation and I've

1286

00:56:37,540 --> 00:56:35,150

gotten a lot of you know people be able

1287

00:56:39,460 --> 00:56:37,550

to confirm and deny a lot of stuff like

1288

00:56:41,590 --> 00:56:39,470

the USO s and stuff like that because

1289

00:56:43,900 --> 00:56:41,600

we've actually had it edited a lot of

1290

00:56:45,700 --> 00:56:43,910

that stuff because what I was told at

1291

00:56:48,460 --> 00:56:45,710

the time was from a junior personnel and

1292

00:56:49,870 --> 00:56:48,470

apparently if he had known anything

1293

00:56:51,880 --> 00:56:49,880

about it it would have been something he

1294

00:56:54,520 --> 00:56:51,890

did on his own it wouldn't know anything

1295

00:56:57,400 --> 00:56:54,530

in a official capacity oh so it couldn't

1296

00:56:59,610 --> 00:56:57,410

be collaborated basically exactly so I

1297

00:57:01,240 --> 00:56:59,620

completely redacted that because it was

1298

00:57:03,130 --> 00:57:01,250

even though it was something that

1299

00:57:06,400 --> 00:57:03,140

literally was told to me at the time I

1300

00:57:08,740 --> 00:57:06,410

you know the senior personnel that told

1301
00:57:10,660 --> 00:57:08,750
me about this was a sonar technician and

1302
00:57:13,780 --> 00:57:10,670
one of the more high ranking ones that I

1303
00:57:15,970 --> 00:57:13,790
knew personally and trusted about the

1304
00:57:16,600 --> 00:57:15,980
object going in into the actual ocean

1305
00:57:19,000 --> 00:57:16,610
right Gary

1306
00:57:21,580 --> 00:57:19,010
there are us being able to track it at

1307
00:57:23,860 --> 00:57:21,590
the time if it was tracked it was not by

1308
00:57:26,620 --> 00:57:23,870
our ship our ship would other than

1309
00:57:28,480 --> 00:57:26,630
getting a ping you know it was not gonna

1310
00:57:29,890 --> 00:57:28,490
be able to tell you burying speed or

1311
00:57:32,980 --> 00:57:29,900
anything on anything because we did not

1312
00:57:36,000 --> 00:57:32,990
have our sonar buoys in our tail in the

1313
00:57:40,480 --> 00:57:36,010

water I see I've wondered about that I

1314

00:57:43,000 --> 00:57:40,490

wondered about the sonar Robert going

1315

00:57:46,090 --> 00:57:43,010

back to the Facebook page and you

1316

00:57:50,680 --> 00:57:46,100

contacting everyone how did that pan out

1317

00:57:53,290 --> 00:57:50,690

overall I it worked out really well

1318

00:57:58,630 --> 00:57:53,300

because my main objective is I wanted to

1319

00:58:03,580 --> 00:57:58,640

talk to everyone I could before they

1320

00:58:06,160 --> 00:58:03,590

became you know interactive with the UFO

1321

00:58:08,530 --> 00:58:06,170

community and all that because our

1322

00:58:10,630 --> 00:58:08,540

memories change and you know you hear

1323

00:58:13,900 --> 00:58:10,640

other people say things the more it can

1324

00:58:14,770 --> 00:58:13,910

affect you that's right all of us are

1325

00:58:18,430 --> 00:58:14,780

like that

1326
00:58:21,370 --> 00:58:18,440
but the two things that after talking to

1327
00:58:24,040 --> 00:58:21,380
cabinet I really wanted to verify one

1328
00:58:26,920 --> 00:58:24,050
was that point seven eight seconds right

1329
00:58:31,060 --> 00:58:26,930
because the speed calculations and

1330
00:58:32,650 --> 00:58:31,070
accelerations on that earth I mean

1331
00:58:37,150 --> 00:58:32,660
you're talking about thousands of

1332
00:58:38,710 --> 00:58:37,160
g-forces and speeds so fast that an

1333
00:58:40,900 --> 00:58:38,720
object should just burned up in the

1334
00:58:43,840 --> 00:58:40,910
atmosphere well I wanted to verify that

1335
00:58:47,260 --> 00:58:43,850
and I wanted to verify Kevin telling me

1336
00:58:49,600 --> 00:58:47,270
that the tapes had been erased when he

1337
00:58:51,880 --> 00:58:49,610
went there the next funny story about

1338
00:58:54,190 --> 00:58:51,890

that is when he still at his story but

1339

00:58:57,970 --> 00:58:54,200

it I've laughed and because I'm the one

1340

00:58:59,980 --> 00:58:57,980

that erased himself right yeah your race

1341

00:59:01,510 --> 00:58:59,990

them but so that one of the first things

1342

00:59:04,260 --> 00:59:01,520

I asked Gary and I don't know if you

1343

00:59:07,270 --> 00:59:04,270

remember this Gary can we talk but I

1344

00:59:09,610 --> 00:59:07,280

asked you if if you knew Kevin and how

1345

00:59:11,800 --> 00:59:09,620

well you knew him and the reason I was

1346

00:59:14,350 --> 00:59:11,810

asking that was because I wanted to know

1347

00:59:16,690 --> 00:59:14,360

I wanted to know whether you guys have

1348

00:59:20,710 --> 00:59:16,700

been communicating right or am I getting

1349

00:59:22,630 --> 00:59:20,720

a totally independent comment and what

1350

00:59:24,790 --> 00:59:22,640

you told me is you were aware of him on

1351

00:59:26,380 --> 00:59:24,800

the ship but it's not like you guys at

1352

00:59:29,380 --> 00:59:26,390

that time I think you're close friends

1353

00:59:31,120 --> 00:59:29,390

now but at that time my understanding

1354

00:59:33,100 --> 00:59:31,130

was you guys were close friends yeah the

1355

00:59:35,110 --> 00:59:33,110

the the the rank between us would have

1356

00:59:36,580 --> 00:59:35,120

kept us from having like you know we

1357

00:59:38,800 --> 00:59:36,590

were sitting down and having coffee with

1358

00:59:40,900 --> 00:59:38,810

each other but you know casual

1359

00:59:43,840 --> 00:59:40,910

conversation on the bridge and you know

1360

00:59:45,970 --> 00:59:43,850

inside CSC stuff like that but you know

1361

00:59:50,650 --> 00:59:45,980

and it was always you know senior chief

1362

00:59:52,810 --> 00:59:50,660

petty officer right so that was good

1363

00:59:57,160 --> 00:59:52,820

because what that way when I interviewed

1364

00:59:59,410 --> 00:59:57,170

you I could I had a truly second

1365

01:00:01,270 --> 00:59:59,420

independent witness and someone I asked

1366

01:00:03,640 --> 01:00:01,280

you about how long it took I always

1367

01:00:07,630 --> 01:00:03,650

remember your answer it's kind of burned

1368

01:00:10,390 --> 01:00:07,640

into my head and I cuz I said you know

1369

01:00:12,100 --> 01:00:10,400

how long did it take and you said how

1370

01:00:16,090 --> 01:00:12,110

long did it take you to generate that

1371

01:00:19,420 --> 01:00:16,100

thought in your head sounds like

1372

01:00:21,130 --> 01:00:19,430

something I'd say and so that fits very

1373

01:00:22,870 --> 01:00:21,140

well with Kevin's point seven eight

1374

01:00:26,620 --> 01:00:22,880

seconds my thoughts are about point

1375

01:00:29,109 --> 01:00:26,630

seven two seconds just on a good day

1376

01:00:32,170 --> 01:00:29,119

right now yeah it's pretty cool

1377

01:00:34,359 --> 01:00:32,180

and then the other part what you just

1378

01:00:36,279 --> 01:00:34,369

mentioned is I wanted to verify you know

1379

01:00:38,470 --> 01:00:36,289

why were the did you have any

1380

01:00:40,930 --> 01:00:38,480

information about the tapes being

1381

01:00:43,150 --> 01:00:40,940

deleted and of course like you said

1382

01:00:45,099 --> 01:00:43,160

you're the one who deleted them and then

1383

01:00:47,140 --> 01:00:45,109

you told me about the helicopter that

1384

01:00:49,720 --> 01:00:47,150

landed and they requested

1385

01:00:52,690 --> 01:00:49,730

yeah the physical dead recording off of

1386

01:00:54,400 --> 01:00:52,700

the you know Aegis system that was taken

1387

01:00:57,730 --> 01:00:54,410

that was taken by the chain of command

1388

01:00:59,859 --> 01:00:57,740

and then relinquished and then anything

1389

01:01:03,989 --> 01:00:59,869

else that wasn't on tape was just

1390

01:01:06,130 --> 01:01:03,999

deleted you know is that Gary is that a

1391

01:01:09,609 --> 01:01:06,140

standard procedure or was there

1392

01:01:13,509 --> 01:01:09,619

something a little awry in that hello

1393

01:01:15,249 --> 01:01:13,519

with any any type of incident or event

1394

01:01:16,779 --> 01:01:15,259

the only other time I've ever had to

1395

01:01:19,539 --> 01:01:16,789

worry about that recording is when a

1396

01:01:21,400 --> 01:01:19,549

yeah yeah I think it was either a plane

1397

01:01:24,190 --> 01:01:21,410

or a helicopter went down during our

1398

01:01:25,960 --> 01:01:24,200

last deployment and they needed all the

1399

01:01:30,249 --> 01:01:25,970

tapes for that and it was kind of

1400

01:01:32,109 --> 01:01:30,259

similar to that situation and but it

1401

01:01:35,349 --> 01:01:32,119

wasn't as immediate you know there was

1402

01:01:37,210 --> 01:01:35,359

literally somebody pretty quickly it was

1403

01:01:38,950 --> 01:01:37,220

in the same day that the intercept

1404

01:01:41,079 --> 01:01:38,960

happened that we watched the video and

1405

01:01:45,249 --> 01:01:41,089

then of course all the data recording

1406

01:01:49,690 --> 01:01:45,259

he's gone and I actually found a time in

1407

01:01:54,249 --> 01:01:49,700

history where that occurred before not a

1408

01:01:56,049 --> 01:01:54,259

UFO event but the USS and I guess Kevin

1409

01:01:58,630 --> 01:01:56,059

you were on this ship I think at the

1410

01:02:00,880 --> 01:01:58,640

time this occurred the USS Vincent then

1411

01:02:03,670 --> 01:02:00,890

sent us if I pronounced it right I got

1412

01:02:11,349 --> 01:02:03,680

about the Airbus incident yeah where we

1413

01:02:13,660 --> 01:02:11,359

shot down a yeah I really yeah all I'm

1414

01:02:16,779 --> 01:02:13,670

talking about that one flight 655

1415

01:02:17,319 --> 01:02:16,789

Iranian flight 605 in 1988 was my first

1416

01:02:19,539 --> 01:02:17,329

deployment

1417

01:02:21,279 --> 01:02:19,549

I had nothing to do with I'd was I was

1418

01:02:23,470 --> 01:02:21,289

my first plan real junior I think I was

1419

01:02:24,999 --> 01:02:23,480

a third class petty officer right in my

1420

01:02:28,059 --> 01:02:25,009

watch station just happened to be right

1421

01:02:29,769 --> 01:02:28,069

behind the captain so I was like the

1422

01:02:32,200 --> 01:02:29,779

proverbial fly on the wall for the whole

1423

01:02:34,390 --> 01:02:32,210

thing but yeah that's it

1424

01:02:36,339 --> 01:02:34,400

and as a result of that as a result of

1425

01:02:38,229 --> 01:02:36,349

that incident that's when the Navy of

1426

01:02:39,910 --> 01:02:38,239

really got serious about recording

1427

01:02:40,829 --> 01:02:39,920

information right so that we could

1428

01:02:43,049 --> 01:02:40,839

figure out what happened

1429

01:02:45,569 --> 01:02:43,059

after the fact and in that case a

1430

01:02:49,979 --> 01:02:45,579

helicopter landed and into and removed

1431

01:02:52,109 --> 01:02:49,989

the everything that it didn't disappear

1432

01:02:57,150 --> 01:02:52,119

right because Congress went through and

1433

01:02:59,249 --> 01:02:57,160

no babies it was removed very quickly

1434

01:03:01,049 --> 01:02:59,259

yeah it was all over there wasn't a

1435

01:03:02,789 --> 01:03:01,059

covert operation or anything in fact

1436

01:03:05,009 --> 01:03:02,799

they actually flew out so I called

1437

01:03:06,959 --> 01:03:05,019

yourself to the ship to because you know

1438

01:03:07,950 --> 01:03:06,969

obviously there was a lot quite a few

1439

01:03:09,690 --> 01:03:07,960

people on the ship we're having the

1440

01:03:11,599 --> 01:03:09,700

series travel accepting what we had just

1441

01:03:13,529 --> 01:03:11,609

done it was so horrible almost

1442

01:03:18,680 --> 01:03:13,539

unimaginable whenever those

1443

01:03:24,509 --> 01:03:20,279

interesting

1444

01:03:26,430 --> 01:03:24,519

well Robert when you were actually you

1445

01:03:30,509 --> 01:03:26,440

know going through the Facebook page how

1446

01:03:32,849 --> 01:03:30,519

many witnesses other than the ones that

1447

01:03:34,559 --> 01:03:32,859

we know about did you speak with that

1448

01:03:35,729 --> 01:03:34,569

you know did not want to come for were

1449

01:03:37,799 --> 01:03:35,739

there any that did not want to come

1450

01:03:40,499 --> 01:03:37,809

forward well there was one other

1451
01:03:42,420 --> 01:03:40,509
individual I cooked I interviewed and if

1452
01:03:43,829 --> 01:03:42,430
I remember his right name right this is

1453
01:03:44,670 --> 01:03:43,839
off the top of my head I believe it's

1454
01:03:47,700 --> 01:03:44,680
Jason Turner

1455
01:03:50,219 --> 01:03:47,710
oh yes Jason yes yeah as I talked to

1456
01:03:54,630 --> 01:03:50,229
Jason and there were probably another

1457
01:03:57,390 --> 01:03:54,640
eight people on that Facebook site but

1458
01:04:02,099 --> 01:03:57,400
none of them were willing to discuss it

1459
01:04:04,709 --> 01:04:02,109
so and I've discussed this with over 33

1460
01:04:06,239 --> 01:04:04,719
individuals and so I mean you who you

1461
01:04:08,579 --> 01:04:06,249
know that came out that's the only

1462
01:04:11,370 --> 01:04:08,589
people so far right I've gotten a lot of

1463
01:04:13,200 --> 01:04:11,380

information from other people but I I

1464

01:04:15,359 --> 01:04:13,210

still haven't been able to convince a

1465

01:04:18,539 --> 01:04:15,369

lot of people to come out about it now

1466

01:04:21,809 --> 01:04:18,549

were there any other eyewitnesses that

1467

01:04:24,959 --> 01:04:21,819

you're aware of either one of you Gary

1468

01:04:27,719 --> 01:04:24,969

or Robert I'm aware that most of the

1469

01:04:30,390 --> 01:04:27,729

people in the ages suites all of us ages

1470

01:04:34,499 --> 01:04:30,400

text and you know people that were privy

1471

01:04:36,390 --> 01:04:34,509

of the more detailed information they I

1472

01:04:37,859 --> 01:04:36,400

knew other people were going up to the

1473

01:04:39,599 --> 01:04:37,869

first wing I knew other people or say

1474

01:04:41,069 --> 01:04:39,609

that in combat so I mean there's other

1475

01:04:43,739 --> 01:04:41,079

people that were completely aware of

1476

01:04:45,809 --> 01:04:43,749

this and to some degrees some people are

1477

01:04:47,430 --> 01:04:45,819

excited and they're really interested in

1478

01:04:51,539 --> 01:04:47,440

seeing where this goes and I think if

1479

01:04:53,279 --> 01:04:51,549

this goes into a more positive culture

1480

01:04:54,750 --> 01:04:53,289

that we're gonna get a lot more of these

1481

01:04:57,870 --> 01:04:54,760

people well

1482

01:05:00,120 --> 01:04:57,880

if it turns on us and you know we all

1483

01:05:02,220 --> 01:05:00,130

start looking like idiots and nobody

1484

01:05:04,320 --> 01:05:02,230

wants to feel that way so they won't go

1485

01:05:07,290 --> 01:05:04,330

they won't go for it yeah that's a very

1486

01:05:08,850 --> 01:05:07,300

big fear of mine actually is that you

1487

01:05:12,420 --> 01:05:08,860

know something will come out like

1488

01:05:15,750 --> 01:05:12,430

something is disinformation and you know

1489

01:05:18,720 --> 01:05:15,760

the New York Times article was bogus or

1490

01:05:22,190 --> 01:05:18,730

something like that that we look like

1491

01:05:24,570 --> 01:05:22,200

idiots that's just a fear I have that

1492

01:05:26,270 --> 01:05:24,580

something didn't play out right I don't

1493

01:05:29,010 --> 01:05:26,280

think you have to worry about that I

1494

01:05:30,000 --> 01:05:29,020

know the good the good news is this this

1495

01:05:32,400 --> 01:05:30,010

really did happen

1496

01:05:34,260 --> 01:05:32,410

the details are gonna change as we get

1497

01:05:36,450 --> 01:05:34,270

more people and we get more information

1498

01:05:38,870 --> 01:05:36,460

that's why Nick earlier you said you

1499

01:05:43,320 --> 01:05:38,880

know if I might open to any other ideas

1500

01:05:48,450 --> 01:05:43,330

anytime come and discuss it hmm right

1501

01:05:51,840 --> 01:05:48,460

right so Robert can you you said you

1502

01:05:55,260 --> 01:05:51,850

started looking into this in 2016 right

1503

01:05:57,060 --> 01:05:55,270

and right and how did you hear about it

1504

01:05:59,760 --> 01:05:57,070

I wasn't hearing anything about this

1505

01:06:04,580 --> 01:05:59,770

back then that I'm aware of or a little

1506

01:06:08,240 --> 01:06:04,590

bits and pieces may be a right and a

1507

01:06:12,450 --> 01:06:08,250

unknown source which I can't you know

1508

01:06:15,600 --> 01:06:12,460

mention told me about the case and they

1509

01:06:19,350 --> 01:06:15,610

just told me where to go to find the

1510

01:06:23,370 --> 01:06:19,360

marine the remember the report from

1511

01:06:27,900 --> 01:06:23,380

Lieutenant Colonel Kurtz that showed up

1512

01:06:29,910 --> 01:06:27,910

in a a navy blog so they told me about

1513

01:06:33,440 --> 01:06:29,920

that and I went to that site and I read

1514

01:06:37,800 --> 01:06:33,450

the Navy boy mm-hmm I read the Navy blog

1515

01:06:40,200 --> 01:06:37,810

I knew that I could just tell you after

1516

01:06:41,730 --> 01:06:40,210

you've done hundreds of cases you can

1517

01:06:43,020 --> 01:06:41,740

tell when you've got a real case and

1518

01:06:45,930 --> 01:06:43,030

when you've got one that's not going

1519

01:06:50,190 --> 01:06:45,940

anywhere and I could tell that you know

1520

01:06:52,740 --> 01:06:50,200

this case had legs and so the the next

1521

01:06:56,480 --> 01:06:52,750

thing that I started doing was sending

1522

01:07:00,090 --> 01:06:56,490

out for you with quests to the Navy and

1523

01:07:02,490 --> 01:07:00,100

I got constant denials of information

1524

01:07:04,890 --> 01:07:02,500

that they had no information I got that

1525

01:07:07,920 --> 01:07:04,900

denial from some Navy organizations that

1526

01:07:10,200 --> 01:07:07,930

today you're now saying yes there were

1527

01:07:12,870 --> 01:07:10,210

these you AP's right but when I first

1528

01:07:15,530 --> 01:07:12,880

sent that it was now we dumped and so

1529

01:07:18,240 --> 01:07:15,540

then I appealed one of my four years and

1530

01:07:20,790 --> 01:07:18,250

when I appeal I always copy my

1531

01:07:23,790 --> 01:07:20,800

congressman and I do a written letter

1532

01:07:26,910 --> 01:07:23,800

rather than electronic and that time I

1533

01:07:29,970 --> 01:07:26,920

got back a response and then the

1534

01:07:33,900 --> 01:07:29,980

response was basically the Navy jag

1535

01:07:36,600 --> 01:07:33,910

officers asking some officers that had

1536

01:07:39,120 --> 01:07:36,610

been on the USS Nimitz at the time and

1537

01:07:41,520 --> 01:07:39,130

they said you know anything about this

1538

01:07:44,310 --> 01:07:41,530

and this one lieutenant colonel said oh

1539

01:07:48,510 --> 01:07:44,320

the tic-tacs yeah we know all about the

1540

01:07:50,790 --> 01:07:48,520

tic tacs and he went on in and gave the

1541

01:07:55,680 --> 01:07:50,800

names of five or six of their officers

1542

01:07:59,150 --> 01:07:55,690

none of them have come forward who had

1543

01:08:02,850 --> 01:07:59,160

seen the video on board the USS Nimitz

1544

01:08:06,750 --> 01:08:02,860

so I think that video was seen by I

1545

01:08:10,080 --> 01:08:06,760

would guess dozens and dozens if not

1546

01:08:11,550 --> 01:08:10,090

hundreds of servicemen I think there's

1547

01:08:13,620 --> 01:08:11,560

about everybody with a secret clearance

1548

01:08:15,630 --> 01:08:13,630

and could get on that land was watching

1549

01:08:19,080 --> 01:08:15,640

it well let's talk about the video

1550

01:08:22,500 --> 01:08:19,090

wasn't there a video that we have not

1551

01:08:24,800 --> 01:08:22,510

seen that was much clearer well the

1552

01:08:28,980 --> 01:08:24,810

original video is much much clearer and

1553

01:08:31,920 --> 01:08:28,990

contrary to any popular opinion it was

1554

01:08:33,450 --> 01:08:31,930

much longer than what you see yeah I'm

1555

01:08:36,630 --> 01:08:33,460

sure there's a reason why it's limited

1556

01:08:38,880 --> 01:08:36,640

the way it is but not come on I

1557

01:08:42,030 --> 01:08:38,890

interviewed Lieutenant Commander slate

1558

01:08:44,790 --> 01:08:42,040

he gave me the best reason I mean it was

1559

01:08:45,420 --> 01:08:44,800

just logical as to why that video was

1560

01:08:48,570 --> 01:08:45,430

longer

1561

01:08:50,700 --> 01:08:48,580

he said when we go into a if you go into

1562

01:08:52,590 --> 01:08:50,710

a situation and you don't know what's

1563

01:08:54,360 --> 01:08:52,600

going to happen you don't wait until

1564

01:08:57,270 --> 01:08:54,370

you're in the situation to turn on your

1565

01:09:00,300 --> 01:08:57,280

Fleur as he described it it's wheels are

1566

01:09:03,420 --> 01:09:00,310

up the fleurs on and you and that's on

1567

01:09:07,050 --> 01:09:03,430

until you you get back so there's no

1568

01:09:08,970 --> 01:09:07,060

reason why you would wait until you get

1569

01:09:11,610 --> 01:09:08,980

into a situation to turn on the Fleur

1570

01:09:14,250 --> 01:09:11,620

and then there was a meat-and-potatoes

1571

01:09:18,300 --> 01:09:14,260

version of the of it that was emailed to

1572

01:09:22,830 --> 01:09:18,310

officers though it's much shorter what

1573

01:09:29,190 --> 01:09:25,890

me I don't know much like my that that

1574

01:09:31,530 --> 01:09:29,200

exact same grainy video that we all see

1575

01:09:34,410 --> 01:09:31,540

now the tic-tac video I got that in my

1576

01:09:37,460 --> 01:09:34,420

email I think was it must been an N Pig

1577

01:09:40,190 --> 01:09:37,470

video I don't remember at this point the

1578

01:09:42,810 --> 01:09:40,200

that's how I that's how when I saw this

1579

01:09:44,490 --> 01:09:42,820

this New York Times story came out and I

1580

01:09:46,560 --> 01:09:44,500

saw that resaw that same video that I

1581

01:09:49,020 --> 01:09:46,570

had seen all the years years ago mm-hmm

1582

01:09:50,250 --> 01:09:49,030

man I I was a I had just opened the

1583

01:09:51,360 --> 01:09:50,260

kitchen dot the golf course I was

1584

01:09:53,850 --> 01:09:51,370

carrying out to play the food because we

1585

01:09:55,380 --> 01:09:53,860

didn't have any waiters yet and I

1586

01:09:57,780 --> 01:09:55,390

actually dropped two plate of food man

1587

01:10:00,720 --> 01:09:57,790

cuz I was like in total that was in

1588

01:10:02,070 --> 01:10:00,730

total shock I was like oh my god I don't

1589

01:10:04,080 --> 01:10:02,080

believe this is happening

1590

01:10:05,460 --> 01:10:04,090

cuz I knew in that moment my life was

1591

01:10:08,160 --> 01:10:05,470

gonna change there was no doubt in my

1592

01:10:11,190 --> 01:10:08,170

mind because I I felt an overwhelming

1593

01:10:13,290 --> 01:10:11,200

sense of duty to back back up commander

1594

01:10:15,120 --> 01:10:13,300

forever that's not the story because oh

1595

01:10:18,030 --> 01:10:15,130

yeah they're nice this was really

1596

01:10:20,580 --> 01:10:18,040

happening I witnessed it Wow

1597

01:10:24,270 --> 01:10:20,590

Gary I want to go back to your theory

1598

01:10:26,370 --> 01:10:24,280

because Robert Gary has kind of a theory

1599

01:10:29,880 --> 01:10:26,380

I want to say kind of a theory has a

1600

01:10:33,290 --> 01:10:29,890

theory that this could be advanced

1601
01:10:36,420 --> 01:10:33,300
technology of reverse-engineered

1602
01:10:39,330 --> 01:10:36,430
possible alien craft something along

1603
01:10:41,970 --> 01:10:39,340
those lines but to Gary just a couple of

1604
01:10:44,550 --> 01:10:41,980
questions that had come to mind and this

1605
01:10:47,040 --> 01:10:44,560
does not have to do with this particular

1606
01:10:49,680 --> 01:10:47,050
tick tack of what people were seeing

1607
01:10:52,680 --> 01:10:49,690
this has to do with UFOs in general

1608
01:10:55,740 --> 01:10:52,690
there's some questions here and the

1609
01:10:59,850 --> 01:10:55,750
question that I'm asking you is your

1610
01:11:02,480 --> 01:10:59,860
theory about the the gravity propulsion

1611
01:11:06,900 --> 01:11:02,490
or whatever it is that you termed it

1612
01:11:10,170 --> 01:11:06,910
what about things like when this object

1613
01:11:12,300 --> 01:11:10,180

moved in point seven eight seconds or

1614

01:11:15,500 --> 01:11:12,310

whatever it is from 28,000 feet down to

1615

01:11:20,160 --> 01:11:15,510

whatever the ocean near the ocean

1616

01:11:22,290 --> 01:11:20,170

surface that quickly Robert mentioned

1617

01:11:24,480 --> 01:11:22,300

that it would you know an object would

1618

01:11:26,930 --> 01:11:24,490

burn up there's that question then

1619

01:11:30,690 --> 01:11:26,940

there's also why are there no sound

1620

01:11:32,970 --> 01:11:30,700

barrier you know sound booms whatever

1621

01:11:35,399 --> 01:11:32,980

they used to call those sonic boom sonic

1622

01:11:38,520 --> 01:11:35,409

booms sonic booms are a result

1623

01:11:41,129 --> 01:11:38,530

displacement of air right if you're not

1624

01:11:44,490 --> 01:11:41,139

displacing the air and you're in a

1625

01:11:48,479 --> 01:11:44,500

bubble of space-time then you're not

1626

01:11:51,979 --> 01:11:48,489

going to a burn up you be cause any type

1627

01:11:55,470 --> 01:11:51,989

of sonic booms whatsoever if if you're

1628

01:11:57,600 --> 01:11:55,480

visioning visualizing this would you

1629

01:11:59,879 --> 01:11:57,610

think that the object would have some

1630

01:12:01,800 --> 01:11:59,889

type of an aura or something around it

1631

01:12:05,640 --> 01:12:01,810

or do you think it would just look like

1632

01:12:07,470 --> 01:12:05,650

a regular object um I think it probably

1633

01:12:09,300 --> 01:12:07,480

could have ambient lighting that it

1634

01:12:11,100 --> 01:12:09,310

turned on and off just like we do in our

1635

01:12:13,020 --> 01:12:11,110

own spacecrafts that's not out of the

1636

01:12:14,669 --> 01:12:13,030

realm of possibility because you'd

1637

01:12:16,379 --> 01:12:14,679

remember what we do as a practical thing

1638

01:12:18,390 --> 01:12:16,389

like we put lights on earth on our

1639

01:12:20,399 --> 01:12:18,400

planes we put lights on our cars

1640

01:12:22,229 --> 01:12:20,409

why wouldn't they put in some type of

1641

01:12:24,120 --> 01:12:22,239

lighting system on the aircraft no

1642

01:12:26,160 --> 01:12:24,130

that's not really um what I was talking

1643

01:12:28,649 --> 01:12:26,170

about basically I don't know that if

1644

01:12:30,629 --> 01:12:28,659

this had the the capabilities you're

1645

01:12:34,979 --> 01:12:30,639

talking about wouldn't it kind of

1646

01:12:36,030 --> 01:12:34,989

distort the areas around it or would it

1647

01:12:38,939 --> 01:12:36,040

do you think that it would look like

1648

01:12:40,320 --> 01:12:38,949

just an object um I think it probably

1649

01:12:41,760 --> 01:12:40,330

just looked like an object's I don't

1650

01:12:46,050 --> 01:12:41,770

think you could perceive the distortions

1651
01:12:48,090 --> 01:12:46,060
I see Ron again I've never actually seen

1652
01:12:50,220 --> 01:12:48,100
the technology so I really don't know

1653
01:12:53,310 --> 01:12:50,230
yeah Robert what are your thoughts on

1654
01:12:55,470 --> 01:12:53,320
the possibility that it's some type of

1655
01:12:59,490 --> 01:12:55,480
reverse engineer technology or just

1656
01:13:02,660 --> 01:12:59,500
secret technology well it's a just first

1657
01:13:05,370 --> 01:13:02,670
a quick comment when I interviewed

1658
01:13:07,740 --> 01:13:05,380
Lieutenant Commander Slade he did

1659
01:13:12,689 --> 01:13:07,750
mention that when he saw the object that

1660
01:13:14,820 --> 01:13:12,699
there was around it something similar to

1661
01:13:16,340 --> 01:13:14,830
what you see when you see hot pavement

1662
01:13:18,899 --> 01:13:16,350
on a hot summer day hmm

1663
01:13:21,540 --> 01:13:18,909

and he's the only person that mentioned

1664

01:13:25,320 --> 01:13:21,550

that but he he he was pretty confident

1665

01:13:27,120 --> 01:13:25,330

that they were like heat waves around

1666

01:13:32,010 --> 01:13:27,130

the object

1667

01:13:33,810 --> 01:13:32,020

I guess reverse engineering my

1668

01:13:37,110 --> 01:13:33,820

background is in a semiconductor field

1669

01:13:38,490 --> 01:13:37,120

and we actually did reverse engineering

1670

01:13:41,280 --> 01:13:38,500

I worked at a company called Advanced

1671

01:13:44,129 --> 01:13:41,290

Micro Devices we reverse engineered

1672

01:13:47,310 --> 01:13:44,139

Intel chips sometimes and I'm sure they

1673

01:13:49,180 --> 01:13:47,320

reverse engineered ours it takes quite a

1674

01:13:53,400 --> 01:13:49,190

while to reverse in

1675

01:13:56,380 --> 01:13:53,410

near something that you even know about

1676

01:13:58,870 --> 01:13:56,390

if you took a computer chip today and

1677

01:14:02,439 --> 01:13:58,880

gave it to the best scientists of the

1678

01:14:04,720 --> 01:14:02,449

year 1850 it would be impossible for

1679

01:14:06,910 --> 01:14:04,730

them to reverse-engineer it because they

1680

01:14:10,890 --> 01:14:06,920

didn't need an electron microscope to

1681

01:14:13,330 --> 01:14:10,900

see the nanometer sized metal lines and

1682

01:14:17,380 --> 01:14:13,340

the electron microscope had not even

1683

01:14:19,780 --> 01:14:17,390

been invented and of course there would

1684

01:14:23,350 --> 01:14:19,790

be no internet for them to see how the

1685

01:14:26,320 --> 01:14:23,360

chip interacts with anything so there's

1686

01:14:30,850 --> 01:14:26,330

and anything they did to the chip would

1687

01:14:33,760 --> 01:14:30,860

probably destroy it so their chances of

1688

01:14:37,630 --> 01:14:33,770

reverse engineering it would be very

1689

01:14:39,340 --> 01:14:37,640

very low now of course today we're much

1690

01:14:44,110 --> 01:14:39,350

more modern society or at least that's

1691

01:14:46,390 --> 01:14:44,120

what we think we are well whether or not

1692

01:14:48,729 --> 01:14:46,400

you know we could reverse engineer

1693

01:14:50,500 --> 01:14:48,739

something that was 100 year you know

1694

01:14:56,590 --> 01:14:50,510

hundreds of years more advanced than us

1695

01:14:58,900 --> 01:14:56,600

I I would have my you know it I think it

1696

01:15:00,850 --> 01:14:58,910

would be extremely difficult yeah I

1697

01:15:03,280 --> 01:15:00,860

would have my doubts on it and it all

1698

01:15:05,880 --> 01:15:03,290

depends on how long we've had it and you

1699

01:15:08,229 --> 01:15:05,890

know exactly to what extent that we

1700

01:15:10,360 --> 01:15:08,239

understood how any of it worked and I

1701

01:15:12,910 --> 01:15:10,370

mean we could even be utilizing parts

1702

01:15:16,780 --> 01:15:12,920

off of their crafts even though we don't

1703

01:15:19,510 --> 01:15:16,790

know how they actually work yeah the

1704

01:15:21,640 --> 01:15:19,520

best yeah that we might be able to do I

1705

01:15:24,340 --> 01:15:21,650

mean this is all I'm not saying that

1706

01:15:28,180 --> 01:15:24,350

this is a you know that we have any

1707

01:15:30,340 --> 01:15:28,190

alien craft right I'm not saying that at

1708

01:15:32,140 --> 01:15:30,350

all so I don't want any of your

1709

01:15:34,360 --> 01:15:32,150

listeners to think I'm now of course

1710

01:15:36,040 --> 01:15:34,370

this this whole line of theory is all

1711

01:15:39,250 --> 01:15:36,050

based off the fact that we would have

1712

01:15:42,280 --> 01:15:39,260

recovered a craft during Roswell right

1713

01:15:44,860 --> 01:15:42,290

now and that's just this ditch it's a

1714

01:15:47,380 --> 01:15:44,870

it's a thought experiment I did from

1715

01:15:49,360 --> 01:15:47,390

that point on and how this would play

1716

01:15:52,530 --> 01:15:49,370

out and how this would make sense but

1717

01:15:54,310 --> 01:15:52,540

I've got you know 13 other ones too so

1718

01:15:56,020 --> 01:15:54,320

you know if you just take that

1719

01:15:58,000 --> 01:15:56,030

assumption and that's a big assumption

1720

01:16:00,220 --> 01:15:58,010

you just say okay I'm gonna set that

1721

01:16:02,850 --> 01:16:00,230

aside and believe it for a moment well

1722

01:16:05,430 --> 01:16:02,860

what we might be able to reverse in

1723

01:16:08,550 --> 01:16:05,440

engineer might be okay what is the

1724

01:16:11,010 --> 01:16:08,560

material that it's made out of and then

1725

01:16:13,050 --> 01:16:11,020

then we would just be going oh okay this

1726

01:16:15,359 --> 01:16:13,060

is interesting what can we do with this

1727

01:16:18,090 --> 01:16:15,369

material and then we would be coming up

1728

01:16:20,700 --> 01:16:18,100

with our own ideas we probably wouldn't

1729

01:16:22,560 --> 01:16:20,710

know exactly what they were using the

1730

01:16:24,359 --> 01:16:22,570

material for well it could have

1731

01:16:29,310 --> 01:16:24,369

definitely inspired things like graphene

1732

01:16:31,530 --> 01:16:29,320

which is a big tech now yeah there's

1733

01:16:33,600 --> 01:16:31,540

there's theories I've heard you know

1734

01:16:38,370 --> 01:16:33,610

fiber optics and things like that that

1735

01:16:40,439 --> 01:16:38,380

you know a possibility of but I mean who

1736

01:16:41,760 --> 01:16:40,449

knows well I mean you just look at look

1737

01:16:43,410 --> 01:16:41,770

at all the technologies you can just

1738

01:16:45,390 --> 01:16:43,420

look at and say you know why would they

1739

01:16:47,399 --> 01:16:45,400

do that and then like later on saying oh

1740

01:16:48,600 --> 01:16:47,409

well well go back to that other thing we

1741

01:16:50,669 --> 01:16:48,610

were looking at you know ten years ago

1742

01:16:54,600 --> 01:16:50,679

this is why they did it you know and

1743

01:16:57,180 --> 01:16:54,610

then BAM you got something new but but I

1744

01:16:58,470 --> 01:16:57,190

can I know I've read sometimes people

1745

01:17:00,479 --> 01:16:58,480

thought that that's where our micro

1746

01:17:02,310 --> 01:17:00,489

processors came from but I was in that

1747

01:17:06,149 --> 01:17:02,320

field so I I can tell you that like in

1748

01:17:09,540 --> 01:17:06,159

that particular incident started off

1749

01:17:11,280 --> 01:17:09,550

with like 10 micron size transistors you

1750

01:17:13,229 --> 01:17:11,290

know back in the 70s and then we would

1751

01:17:14,820 --> 01:17:13,239

shrink them we get down to 9 and we've

1752

01:17:16,890 --> 01:17:14,830

worked real hard when we get down to 8

1753

01:17:21,030 --> 01:17:16,900

and we just kept going down of course

1754

01:17:25,439 --> 01:17:21,040

now we're in sub micron size transistors

1755

01:17:29,390 --> 01:17:25,449

but none of that was that was all just

1756

01:17:30,840 --> 01:17:29,400

hard work over many many years hmm

1757

01:17:34,950 --> 01:17:30,850

interesting

1758

01:17:37,950 --> 01:17:34,960

well I know we're which I think you made

1759

01:17:42,479 --> 01:17:37,960

a really good analogy Robert it would be

1760

01:17:44,910 --> 01:17:42,489

like what a handing a caveman you know

1761

01:17:47,459 --> 01:17:44,920

something of 19th century technology or

1762

01:17:50,850 --> 01:17:47,469

handing a cell phone to someone back in

1763

01:17:55,919 --> 01:17:50,860

1920 you know try to reverse-engineer

1764

01:17:58,910 --> 01:17:55,929

that you know oh yeah actually I said

1765

01:18:02,459 --> 01:17:58,920

1850 because in 1920 they had the

1766

01:18:04,140 --> 01:18:02,469

electron microscope and they might have

1767

01:18:10,200 --> 01:18:04,150

been able to make some progress back to

1768

01:18:13,229 --> 01:18:10,210

1920 1850 probably not yeah well it's

1769

01:18:16,620 --> 01:18:13,239

all speculation and right just again the

1770

01:18:21,630 --> 01:18:16,630

mental game yeah and

1771

01:18:23,010 --> 01:18:21,640

I know you know you hear on TV on news

1772

01:18:25,260 --> 01:18:23,020

service and stuff like that when they're

1773

01:18:27,980 --> 01:18:25,270

interviewing someone like David flavor

1774

01:18:30,510 --> 01:18:27,990

or Lu Elizondo or someone like that

1775

01:18:34,800 --> 01:18:30,520

they're trying to push him to say alien

1776

01:18:36,690 --> 01:18:34,810

you know but you know you did hear David

1777

01:18:41,010 --> 01:18:36,700

flavor say I think it was something not

1778

01:18:43,530 --> 01:18:41,020

of this world you know and I I think

1779

01:18:46,320 --> 01:18:43,540

even if he's wrong he's right because uh

1780

01:18:48,750 --> 01:18:46,330

you know we don't know of something like

1781

01:18:51,960 --> 01:18:48,760

that that could be reproduced in this

1782

01:18:55,590 --> 01:18:51,970

world right for me the accelerations

1783

01:18:58,260 --> 01:18:55,600

exhibited were just too high to be

1784

01:18:59,670 --> 01:18:58,270

explained with anything we could do

1785

01:19:04,320 --> 01:18:59,680

I mean if we have those types of

1786

01:19:10,160 --> 01:19:04,330

capabilities we would be on Mars and you

1787

01:19:13,880 --> 01:19:10,170

know a week not six to seven months and

1788

01:19:18,180 --> 01:19:13,890

when one note on these high

1789

01:19:20,880 --> 01:19:18,190

accelerations and gravity really doesn't

1790

01:19:24,120 --> 01:19:20,890

matter if you're gonna grab it well let

1791

01:19:26,100 --> 01:19:24,130

me backtrack that not being in a

1792

01:19:28,680 --> 01:19:26,110

gravitational field does not allow you

1793

01:19:30,540 --> 01:19:28,690

to have high accelerations right because

1794

01:19:33,000 --> 01:19:30,550

when we put a rocket in space and

1795

01:19:36,570 --> 01:19:33,010

there's no gravity around it you can't

1796

01:19:39,150 --> 01:19:36,580

have extreme accelerations but what a

1797

01:19:41,390 --> 01:19:39,160

lot what would be required to have

1798

01:19:45,000 --> 01:19:41,400

extreme accelerations like that and

1799

01:19:47,910 --> 01:19:45,010

would be for your inertial mass to

1800

01:19:52,140 --> 01:19:47,920

approach zero in other words if I could

1801
01:19:56,130 --> 01:19:52,150
take an f-18 and I could magically drive

1802
01:19:58,230 --> 01:19:56,140
its mass to zero or close to zero then I

1803
01:20:00,000 --> 01:19:58,240
could accelerate it with a few photons

1804
01:20:03,770 --> 01:20:00,010
of light which are moving at speed of

1805
01:20:09,570 --> 01:20:03,780
light and it would push that object it

1806
01:20:11,340 --> 01:20:09,580
extremes be very rapidly but it takes

1807
01:20:16,230 --> 01:20:11,350
more than just not being in a

1808
01:20:19,580 --> 01:20:16,240
gravitational field to do it well this

1809
01:20:22,620 --> 01:20:19,590
is kind of beyond my level of thinking

1810
01:20:25,020 --> 01:20:22,630
yeah and that's actually why I move that

1811
01:20:28,040 --> 01:20:25,030
very reason so I have moved more towards

1812
01:20:30,040 --> 01:20:28,050
some of the newer thought processes on

1813
01:20:31,480 --> 01:20:30,050

quantum entanglement

1814

01:20:33,310 --> 01:20:31,490

some of the ways that they're thinking

1815

01:20:35,530 --> 01:20:33,320

that we could probably use it to move

1816

01:20:39,880 --> 01:20:35,540

especially over great distances and

1817

01:20:44,020 --> 01:20:39,890

small distances yeah basically

1818

01:20:45,970 --> 01:20:44,030

quantum entanglement means it's a part

1819

01:20:49,540 --> 01:20:45,980

of it that that hide would act

1820

01:20:50,890 --> 01:20:49,550

yeah react no matter where it is right I

1821

01:20:51,970 --> 01:20:50,900

mean can you just give that in a

1822

01:20:55,950 --> 01:20:51,980

nutshell how that works

1823

01:20:59,200 --> 01:20:55,960

Oh Gary just the basic theory is that

1824

01:21:02,170 --> 01:20:59,210

you know there's sets of particles that

1825

01:21:04,180 --> 01:21:02,180

are disconnected over you know short

1826

01:21:08,470 --> 01:21:04,190

distances vast distances and basically

1827

01:21:10,750 --> 01:21:08,480

that they are connected in some way

1828

01:21:13,330 --> 01:21:10,760

the details of it just look at this

1829

01:21:15,550 --> 01:21:13,340

Google quantum entanglement and but uh

1830

01:21:18,460 --> 01:21:15,560

you know the theory is that he could use

1831

01:21:21,420 --> 01:21:18,470

it to open up a bridge from one point to

1832

01:21:24,010 --> 01:21:21,430

another yeah I've thought of

1833

01:21:26,020 --> 01:21:24,020

communication you know you think of just

1834

01:21:29,070 --> 01:21:26,030

the delay it will be like for instance

1835

01:21:30,190 --> 01:21:29,080

if we were on Mars and we were you know

1836

01:21:33,430 --> 01:21:30,200

telecommunicator

1837

01:21:36,250 --> 01:21:33,440

to Mars you know it takes I don't know

1838

01:21:38,380 --> 01:21:36,260

how many minutes it would take but you

1839

01:21:40,860 --> 01:21:38,390

know something like quantum entanglement

1840

01:21:42,940 --> 01:21:40,870

for communication even would be

1841

01:21:44,920 --> 01:21:42,950

instantaneous if they ever can figure

1842

01:21:49,510 --> 01:21:44,930

out how to do something like that right

1843

01:21:51,820 --> 01:21:49,520

yeah if you had you use quantum

1844

01:21:54,190 --> 01:21:51,830

entanglement to communicate it would be

1845

01:21:57,340 --> 01:21:54,200

instantaneous no matter where you were I

1846

01:21:59,110 --> 01:21:57,350

mean in a nutshell what they do is let's

1847

01:22:01,720 --> 01:21:59,120

just say you take a photon of light

1848

01:22:05,230 --> 01:22:01,730

right let's say it was a given

1849

01:22:07,300 --> 01:22:05,240

wavelength of a thousand angstroms you

1850

01:22:10,390 --> 01:22:07,310

run it through a crystal that splits

1851

01:22:13,480 --> 01:22:10,400

that into two photons each or now let's

1852

01:22:14,950 --> 01:22:13,490

say 2000 angstroms in length so there

1853

01:22:17,860 --> 01:22:14,960

are different wavelengths but they came

1854

01:22:20,530 --> 01:22:17,870

from the same Photon now you send that

1855

01:22:22,360 --> 01:22:20,540

one photon off somewhere and you keep

1856

01:22:25,180 --> 01:22:22,370

the other photon let's say somehow

1857

01:22:27,670 --> 01:22:25,190

bouncing around in a jar the first

1858

01:22:30,340 --> 01:22:27,680

photon hits a piece of black paper and

1859

01:22:32,760 --> 01:22:30,350

gets absorbed mm-hmm the photon in your

1860

01:22:36,130 --> 01:22:32,770

jar disappears because he was just sort

1861

01:22:39,120 --> 01:22:36,140

well that's basically what happens and

1862

01:22:42,370 --> 01:22:39,130

everything that's been been done today

1863

01:22:44,169 --> 01:22:42,380

involves light maybe a dozen photons or

1864

01:22:47,189 --> 01:22:44,179

less

1865

01:22:49,959 --> 01:22:47,199

no one that I'm aware of has done any

1866

01:22:53,410 --> 01:22:49,969

large-scale quantum entanglement but

1867

01:22:56,950 --> 01:22:53,420

theoretically you know to here yeah

1868

01:22:59,620 --> 01:22:56,960

nobody here has done that I have a quick

1869

01:23:02,020 --> 01:22:59,630

question about that that the behavior of

1870

01:23:04,359 --> 01:23:02,030

the dangling with the photons let's say

1871

01:23:07,600 --> 01:23:04,369

as another example what if the remote so

1872

01:23:09,189 --> 01:23:07,610

time was actually split split again he

1873

01:23:13,419 --> 01:23:09,199

created two new photons from that one

1874

01:23:15,520 --> 01:23:13,429

will local full-time split - that's a

1875

01:23:18,550 --> 01:23:15,530

good question Kevin I mean I'm a chemist

1876

01:23:22,120 --> 01:23:18,560

not a physicist but I might ask Kevin

1877

01:23:26,859 --> 01:23:22,130

Knuth that question you guys deep that

1878

01:23:30,040 --> 01:23:26,869

question yeah what what you know if Yuri

1879

01:23:33,729 --> 01:23:30,050

split it again will your other photons

1880

01:23:35,820 --> 01:23:33,739

split you could I mean if that's the

1881

01:23:39,609 --> 01:23:35,830

case you could you can create a

1882

01:23:41,229 --> 01:23:39,619

basically a telegraph and because the

1883

01:23:44,550 --> 01:23:41,239

community the actual information could

1884

01:23:46,629 --> 01:23:44,560

be encoded in the timing of the splits

1885

01:23:48,250 --> 01:23:46,639

where you're not actually transferring

1886

01:23:50,080 --> 01:23:48,260

information you're just you just

1887

01:23:52,479 --> 01:23:50,090

observing it locally okay it split again

1888

01:23:54,040 --> 01:23:52,489

yeah you can only do that probably so

1889

01:23:56,680 --> 01:23:54,050

many times because you're you're

1890

01:23:59,470 --> 01:23:56,690

basically there's still so many so much

1891

01:24:00,970 --> 01:23:59,480

energy so I mean eventually you will I

1892

01:24:03,220 --> 01:24:00,980

mean it just continues to convert it to

1893

01:24:07,390 --> 01:24:03,230

something else but it will eventually

1894

01:24:13,000 --> 01:24:07,400

deplete you guys lost me back at I don't

1895

01:24:15,760 --> 01:24:13,010

even know we have a people working on

1896

01:24:17,919 --> 01:24:15,770

the phone system right now there's some

1897

01:24:19,839 --> 01:24:17,929

type of issue going on with it there's

1898

01:24:22,089 --> 01:24:19,849

an engineer working at the radio station

1899

01:24:24,430 --> 01:24:22,099

trying to figure out what that is so

1900

01:24:27,160 --> 01:24:24,440

we're not taking calls as of right now

1901

01:24:31,020 --> 01:24:27,170

but if we if they get that repaired over

1902

01:24:35,080 --> 01:24:31,030

there then we'll take calls later on

1903

01:24:38,470 --> 01:24:35,090

Robert since you're like the person

1904

01:24:41,560 --> 01:24:38,480

who's like in ufology I would say on

1905

01:24:46,330 --> 01:24:41,570

this you have looked at this a long long

1906

01:24:50,520 --> 01:24:46,340

time I I have my thoughts are is that

1907

01:24:55,899 --> 01:24:50,530

this case the Nimitz case in particular

1908

01:24:57,069 --> 01:24:55,909

to me has grown has risen up to of the

1909

01:24:59,139 --> 01:24:57,079

level of

1910

01:25:00,759 --> 01:24:59,149

one of the top UFO sightings that I'm

1911

01:25:03,429 --> 01:25:00,769

aware of what are you what are your

1912

01:25:05,799 --> 01:25:03,439

thoughts on that no I'll agree with you

1913

01:25:10,540 --> 01:25:05,809

because of the quality and the number of

1914

01:25:15,369 --> 01:25:10,550

witnesses I think it's one of the best

1915

01:25:17,829 --> 01:25:15,379

cases that has ever come along and you

1916

01:25:19,449 --> 01:25:17,839

have to realize there's a lot more data

1917

01:25:22,259 --> 01:25:19,459

that we don't even have right

1918

01:25:26,909 --> 01:25:22,269

yeah the Navy has all that radar data

1919

01:25:31,719 --> 01:25:26,919

not only on the 2004 case the 2015 case

1920

01:25:34,239 --> 01:25:31,729

so right you've got a lot of good

1921

01:25:39,489 --> 01:25:34,249

detailed information that can be gone

1922

01:25:41,379 --> 01:25:39,499

through and I would hope and assume that

1923

01:25:44,709 --> 01:25:41,389

they've had someone go through that data

1924

01:25:46,839 --> 01:25:44,719

I would think so I mean you know unless

1925

01:25:48,969 --> 01:25:46,849

you know like Gary was saying earlier

1926

01:25:51,520 --> 01:25:48,979

that it's you know our our own

1927

01:25:53,859 --> 01:25:51,530

technology one thing I do think is very

1928

01:25:56,799 --> 01:25:53,869

curious that he mentioned is that you

1929

01:25:58,329 --> 01:25:56,809

know the upper level officers kind of

1930

01:26:01,060 --> 01:25:58,339

like said oh yeah you know that type of

1931

01:26:04,060 --> 01:26:01,070

thing did like it was no big deal I mean

1932

01:26:05,439 --> 01:26:04,070

to me that's very puzzling they'll see

1933

01:26:07,359 --> 01:26:05,449

the things that kind of bothered me

1934

01:26:09,489 --> 01:26:07,369

about the whole event like because after

1935

01:26:11,379 --> 01:26:09,499

mr. Powell came out and he was talking

1936

01:26:13,209 --> 01:26:11,389

with us about it of course it brings a

1937

01:26:15,479 --> 01:26:13,219

lot of back up and it just kind of

1938

01:26:18,639 --> 01:26:15,489

rekindled this whole thing for me so I

1939

01:26:21,250 --> 01:26:18,649

mean I just been thinking about how

1940

01:26:24,069 --> 01:26:21,260

everything could have worked out you

1941

01:26:25,929 --> 01:26:24,079

know the feel of the time I still don't

1942

01:26:27,790 --> 01:26:25,939

understand why it took him so long to

1943

01:26:30,699 --> 01:26:27,800

intercept and why it ended up taking a

1944

01:26:32,319 --> 01:26:30,709

senior chief to say hey this is a good

1945

01:26:34,149 --> 01:26:32,329

idea for them to actually do it because

1946

01:26:35,709 --> 01:26:34,159

if he had never said anything who knows

1947

01:26:39,189 --> 01:26:35,719

if we would have done an intercept on

1948

01:26:41,259 --> 01:26:39,199

him you know so I mean it's to me it

1949

01:26:44,800 --> 01:26:41,269

just feels weird that we would have not

1950

01:26:45,959 --> 01:26:44,810

done anything about it and for so long

1951

01:26:50,799 --> 01:26:45,969

[Music]

1952

01:26:56,229 --> 01:26:50,809

and also another thing Gary why would

1953

01:26:59,560 --> 01:26:56,239

the Navy be okay with the conversation

1954

01:27:02,290 --> 01:26:59,570

if this was technology that is not

1955

01:27:04,149 --> 01:27:02,300

supposed to be out there well I mean

1956

01:27:06,189 --> 01:27:04,159

like I said you know they're I mean

1957

01:27:07,929 --> 01:27:06,199

they're not fools I mean the people in

1958

01:27:10,990 --> 01:27:07,939

the government is as foolish as they can

1959

01:27:14,230 --> 01:27:11,000

be in a group the individuals that

1960

01:27:16,120 --> 01:27:14,240

cells are you know smarter than all of

1961

01:27:17,770 --> 01:27:16,130

us combined I mean they got to be smart

1962

01:27:19,810 --> 01:27:17,780

enough to realize they just can't keep

1963

01:27:21,370 --> 01:27:19,820

it under wraps forever I mean with

1964

01:27:25,360 --> 01:27:21,380

everybody literally like I said with a

1965

01:27:27,850 --> 01:27:25,370

4k camera video everything in there damn

1966

01:27:29,410 --> 01:27:27,860

pockets walking around eventually

1967

01:27:33,400 --> 01:27:29,420

somebody's gonna get information that

1968

01:27:36,370 --> 01:27:33,410

can't be refuted and I mean so they just

1969

01:27:38,830 --> 01:27:36,380

can't keep it under wraps forever Gary

1970

01:27:40,630 --> 01:27:38,840

did you actually know you handled like

1971

01:27:44,160 --> 01:27:40,640

the radar data stuff like that but did

1972

01:27:46,120 --> 01:27:44,170

you actually handle the videos as well

1973

01:27:47,020 --> 01:27:46,130

anything that would have been recorded

1974

01:27:49,150 --> 01:27:47,030

on it

1975

01:27:51,880 --> 01:27:49,160

I think videos would have probably been

1976

01:27:55,990 --> 01:27:51,890

on the computer systems which would have

1977

01:27:58,390 --> 01:27:56,000

been recorded on my data any of the data

1978

01:28:00,400 --> 01:27:58,400

from CC would be plot point data and

1979

01:28:03,670 --> 01:28:00,410

would be more statistical data and

1980

01:28:07,570 --> 01:28:03,680

numbers so unless you had a program to

1981

01:28:09,280 --> 01:28:07,580

translate that into a picture I mean it

1982

01:28:11,950 --> 01:28:09,290

was technically a 3d picture of

1983

01:28:13,300 --> 01:28:11,960

everything that went on but it wasn't

1984

01:28:14,890 --> 01:28:13,310

like you know in you know fattest

1985

01:28:16,930 --> 01:28:14,900

caracal act ago where you can just look

1986

01:28:19,270 --> 01:28:16,940

at this monitor and see a 3d picture of

1987

01:28:22,480 --> 01:28:19,280

the battlefield it was just all

1988

01:28:24,850 --> 01:28:22,490

statistical data in a computer system

1989

01:28:28,300 --> 01:28:24,860

and then that puts tracks on our screens

1990

01:28:30,730 --> 01:28:28,310

and let's just know what's going on now

1991

01:28:32,860 --> 01:28:30,740

were you actually involved when the

1992

01:28:35,410 --> 01:28:32,870

helicopter landed and they confiscated

1993

01:28:37,030 --> 01:28:35,420

the data were you involved in that I

1994

01:28:39,370 --> 01:28:37,040

mean did you see that happen personally

1995

01:28:41,530 --> 01:28:39,380

I wasn't I was in the hangar with the

1996

01:28:43,990 --> 01:28:41,540

crashing smash people I was in crisis

1997

01:28:45,880 --> 01:28:44,000

mesh I was hanging out with them and

1998

01:28:47,920 --> 01:28:45,890

that's where I hung out anytime it's

1999

01:28:51,070 --> 01:28:47,930

like flights came in because it was

2000

01:28:54,190 --> 01:28:51,080

easier then beeing where I wanted to be

2001

01:28:57,370 --> 01:28:54,200

but uh and you know I saw the hook after

2002

01:28:59,230 --> 01:28:57,380

land it's all people get off line club

2003

01:29:01,000 --> 01:28:59,240

people and there was no airforce

2004

01:29:02,650 --> 01:29:01,010

insignias or anything like that they

2005

01:29:06,040 --> 01:29:02,660

didn't look any particular way no men in

2006

01:29:07,570 --> 01:29:06,050

black I'll go I'll go with I go with him

2007

01:29:08,260 --> 01:29:07,580

that it was not a men in black but I

2008

01:29:10,360 --> 01:29:08,270

don't

2009

01:29:12,070 --> 01:29:10,370

it was a they're the winners they

2010

01:29:13,360 --> 01:29:12,080

dressed is nondescript enough where I

2011

01:29:16,390 --> 01:29:13,370

really don't particularly remember

2012

01:29:18,820 --> 01:29:16,400

exactly how they were dressed right so a

2013

01:29:20,650 --> 01:29:18,830

lot of years ago yeah so I mean I just

2014

01:29:23,470 --> 01:29:20,660

remember they got off the helicopter and

2015

01:29:24,700 --> 01:29:23,480

less than 20 minutes later I'm asked to

2016

01:29:27,820 --> 01:29:24,710

report and grab

2017

01:29:30,850 --> 01:29:27,830

my tapes and any tapes that aren't used

2018

01:29:34,390 --> 01:29:30,860

even the blank tapes that we had had to

2019

01:29:36,400 --> 01:29:34,400

be erased because when we do the erasing

2020

01:29:38,560 --> 01:29:36,410

it leaves a timestamp so that they know

2021

01:29:40,000 --> 01:29:38,570

for certain that it was a race and there

2022

01:29:43,000 --> 01:29:40,010

was never any data on them

2023

01:29:45,640 --> 01:29:43,010

Wow did you think that was really

2024

01:29:49,000 --> 01:29:45,650

bizarre at the time

2025

01:29:50,530 --> 01:29:49,010

no I'm smart enough to know that you

2026
01:29:55,390 --> 01:29:50,540
know I mean if I was the government this

2027
01:29:58,660 --> 01:29:55,400
is what I would do Wow

2028
01:30:00,550 --> 01:29:58,670
Robert when you were in Kevin I want to

2029
01:30:02,200 --> 01:30:00,560
get you back on in a minute here because

2030
01:30:05,290 --> 01:30:02,210
I want to talk to you about your your

2031
01:30:08,430 --> 01:30:05,300
book and all that but Robert when you

2032
01:30:12,340 --> 01:30:08,440
were researching this how did everything

2033
01:30:15,900 --> 01:30:12,350
unfold you know you know I mean what

2034
01:30:19,240 --> 01:30:15,910
type of information did you find out

2035
01:30:21,280 --> 01:30:19,250
like you were the you know that you were

2036
01:30:25,150 --> 01:30:21,290
able to and this was with a group to

2037
01:30:28,410 --> 01:30:25,160
write yes yes there were other

2038
01:30:32,080 --> 01:30:28,420

individuals for example in order to

2039

01:30:35,530 --> 01:30:32,090

interview lieutenant commander slate we

2040

01:30:39,970 --> 01:30:35,540

have a a former Navy captain who's in a

2041

01:30:42,550 --> 01:30:39,980

SCU SCU being the scientific Coalition

2042

01:30:47,320 --> 01:30:42,560

for UAP studies the group that I'm in

2043

01:30:49,660 --> 01:30:47,330

right so I we used the Navy captain to

2044

01:30:52,000 --> 01:30:49,670

first approach lieutenant commander

2045

01:30:53,560 --> 01:30:52,010

slate so he interviewed him first and it

2046

01:30:55,450 --> 01:30:53,570

just works better that way right one

2047

01:30:57,340 --> 01:30:55,460

Navy guy talking to another Navy guy

2048

01:31:02,470 --> 01:30:57,350

where he he probably wouldn't have

2049

01:31:05,290 --> 01:31:02,480

talked to me because is probably Kevin

2050

01:31:07,380 --> 01:31:05,300

and a Gary can tell you air for the

2051

01:31:11,050 --> 01:31:07,390

pilots are a little bit different breed

2052

01:31:13,270 --> 01:31:11,060

yes yes they are yeah and when I knew

2053

01:31:16,240 --> 01:31:13,280

one and yeah I had kind of a kind of an

2054

01:31:18,550 --> 01:31:16,250

ego issue what's currently well you know

2055

01:31:21,490 --> 01:31:18,560

I mean I don't I'm not you can't you

2056

01:31:23,110 --> 01:31:21,500

shouldn't characterize a whole group

2057

01:31:26,400 --> 01:31:23,120

right but if you've seen the movie Top

2058

01:31:28,720 --> 01:31:26,410

Gun that's not too far off well I mean I

2059

01:31:30,250 --> 01:31:28,730

mean they're feeding these guys he goes

2060

01:31:33,970 --> 01:31:30,260

all the way along because I mean not

2061

01:31:35,920 --> 01:31:33,980

many people can fly it yet in and these

2062

01:31:38,830 --> 01:31:35,930

guys are sharp I mean they are under

2063

01:31:44,200 --> 01:31:38,840

course they have oh yeah

2064

01:31:53,140 --> 01:31:44,210

both he and fragran of fact and they're

2065

01:31:56,439 --> 01:31:53,150

very good witnesses but but what's the

2066

01:31:58,870 --> 01:31:56,449

gentleman in our group talked to

2067

01:32:01,120 --> 01:31:58,880

commander slight then you know he told

2068

01:32:02,709 --> 01:32:01,130

him would you talk to Robert blah blah

2069

01:32:07,419 --> 01:32:02,719

blah and so then when I called him it

2070

01:32:09,819 --> 01:32:07,429

was fine however we only had the

2071

01:32:11,879 --> 01:32:09,829

captain's interview with Lieutenant

2072

01:32:16,270 --> 01:32:11,889

Commander slate and my interview because

2073

01:32:20,709 --> 01:32:16,280

after that I think commedia the way the

2074

01:32:22,540 --> 01:32:20,719

media handles the entire issue is so you

2075

01:32:25,569 --> 01:32:22,550

know how bad it is Martin in jail so bad

2076

01:32:28,810 --> 01:32:25,579

that he would not talk anymore to anyone

2077

01:32:31,600 --> 01:32:28,820

yeah they want to reduce everything to a

2078

01:32:34,000 --> 01:32:31,610

soundbite or if they can't they can't

2079

01:32:36,009 --> 01:32:34,010

monopolize on it or they can't scare

2080

01:32:38,439 --> 01:32:36,019

somebody with it they just don't want to

2081

01:32:41,379 --> 01:32:38,449

get with it it's yeah the camp a little

2082

01:32:44,500 --> 01:32:41,389

green of gray aliens next to you yeah

2083

01:32:47,649 --> 01:32:44,510

it's not exciting well I've seen I've

2084

01:32:51,609 --> 01:32:47,659

I've noticed a change Robert you know

2085

01:32:53,160 --> 01:32:51,619

since that article came out you know in

2086

01:32:57,640 --> 01:32:53,170

the New York Times since to that late

2087

01:33:00,939 --> 01:32:57,650

2017 I've noticed a change on you know

2088

01:33:03,910 --> 01:33:00,949

the news media of you know this being

2089

01:33:06,669 --> 01:33:03,920

taken more seriously and and not being

2090

01:33:08,770 --> 01:33:06,679

made fun of it seems like there's a lot

2091

01:33:12,220 --> 01:33:08,780

of people in the mainstream media that

2092

01:33:15,729 --> 01:33:12,230

actually are are interested in our doing

2093

01:33:18,819 --> 01:33:15,739

a pretty good reporting these days yes I

2094

01:33:20,649 --> 01:33:18,829

will agree he that has improved some but

2095

01:33:24,549 --> 01:33:20,659

the question will be will let be a

2096

01:33:27,339 --> 01:33:24,559

lasting improvement right and I actually

2097

01:33:31,180 --> 01:33:27,349

think that probably probably depends on

2098

01:33:33,129 --> 01:33:31,190

the Navy and how they go forth with it

2099

01:33:35,850 --> 01:33:33,139

because if you'll notice the Air Force's

2100

01:33:39,069 --> 01:33:35,860

continued with their normal stance

2101
01:33:40,870 --> 01:33:39,079
mm-hmm when large media organizations

2102
01:33:43,049 --> 01:33:40,880
asked the Air Force for their comment it

2103
01:33:45,399 --> 01:33:43,059
was no comment we don't deal with

2104
01:33:49,870 --> 01:33:45,409
dealing with it's always been hard to

2105
01:33:52,420 --> 01:33:49,880
get the chair for us to get up I wonder

2106
01:33:53,470 --> 01:33:52,430
why you know I mean the Navy is

2107
01:33:56,470 --> 01:33:53,480
you would just think that they would

2108
01:33:58,510 --> 01:33:56,480
kind of fall in line well you know

2109
01:34:00,610 --> 01:33:58,520
that's the interesting part and I don't

2110
01:34:02,920 --> 01:34:00,620
you know I'm not sure what's going on

2111
01:34:05,020 --> 01:34:02,930
here because the Navy has always been

2112
01:34:07,900 --> 01:34:05,030
very difficult to get information out

2113
01:34:10,150 --> 01:34:07,910

from them when you go back in

2114

01:34:15,070 --> 01:34:10,160

historically I'm talking about you know

2115

01:34:18,460 --> 01:34:15,080

historically and for them to kind of

2116

01:34:21,670 --> 01:34:18,470

suddenly change their tune makes me and

2117

01:34:24,100 --> 01:34:21,680

I don't think it's like a PR you know a

2118

01:34:27,040 --> 01:34:24,110

public affairs officer who misspoke

2119

01:34:30,480 --> 01:34:27,050

because he's he spoken this way several

2120

01:34:34,570 --> 01:34:30,490

times and he hasn't been corrected so

2121

01:34:39,310 --> 01:34:34,580

this appears to be intentional and the

2122

01:34:42,670 --> 01:34:39,320

only you know my only theory on it is

2123

01:34:45,070 --> 01:34:42,680

that maybe they they want a bigger slice

2124

01:34:47,140 --> 01:34:45,080

of the defense budget and they're going

2125

01:34:49,750 --> 01:34:47,150

to use this as an argument as to why

2126

01:34:53,680 --> 01:34:49,760

they they need a little bit a bigger

2127

01:34:56,400 --> 01:34:53,690

part of the slice of the pie so anything

2128

01:34:59,800 --> 01:34:56,410

I can think of hmm Wow

2129

01:35:02,890 --> 01:34:59,810

interesting the phone is not working as

2130

01:35:07,510 --> 01:35:02,900

I mentioned and I do have a way to take

2131

01:35:09,520 --> 01:35:07,520

calls on skype but I'm just afraid I got

2132

01:35:12,130 --> 01:35:09,530

a question go ahead I got a question for

2133

01:35:14,260 --> 01:35:12,140

Robert yeah and the question comes from

2134

01:35:18,580 --> 01:35:14,270

a superduper guy by the name of Dave

2135

01:35:21,010 --> 01:35:18,590

Altman oh yes it's about contacting the

2136

01:35:22,150 --> 01:35:21,020

desert coming up in May Robert and we

2137

01:35:29,080 --> 01:35:22,160

were wondering if you would consider

2138

01:35:30,460 --> 01:35:29,090

going there about how do we talk about

2139

01:35:35,650 --> 01:35:30,470

it talking to him when we're not

2140

01:35:38,530 --> 01:35:35,660

blessing them on air don't you guys

2141

01:35:40,710 --> 01:35:38,540

understand that's all Dave Altman's I

2142

01:35:43,960 --> 01:35:40,720

did it as a favor for Davey yeah yeah

2143

01:35:50,500 --> 01:35:43,970

ask him on the air so they wanted he

2144

01:35:53,770 --> 01:35:50,510

wanted yeah yeah

2145

01:35:56,770 --> 01:35:53,780

so Kevin since you since you just piped

2146

01:35:59,200 --> 01:35:56,780

up and again we can't take calls but I'm

2147

01:36:01,180 --> 01:35:59,210

gonna try to look into the chat room to

2148

01:36:02,770 --> 01:36:01,190

see if there's a you know some questions

2149

01:36:04,330 --> 01:36:02,780

that come up in there that okay while

2150

01:36:05,830 --> 01:36:04,340

you're doing that I'll talk a little bit

2151
01:36:09,100 --> 01:36:05,840
about my book yeah you've already had

2152
01:36:11,080 --> 01:36:09,110
yeah yeah when I retired in 2008 this

2153
01:36:13,030 --> 01:36:11,090
whole thing really gravely actually

2154
01:36:14,590 --> 01:36:13,040
gravely concerned me I actually started

2155
01:36:16,660 --> 01:36:14,600
having nightmares over it because I was

2156
01:36:18,580 --> 01:36:16,670
I was concerned for safety of flight

2157
01:36:20,890 --> 01:36:18,590
number one and I was also second you

2158
01:36:23,620 --> 01:36:20,900
know what if the same same damn thing

2159
01:36:25,060 --> 01:36:23,630
happened overseas when I really did have

2160
01:36:28,150 --> 01:36:25,070
muscles and they're really worse

2161
01:36:31,390 --> 01:36:28,160
hostilities it you know just a simple

2162
01:36:32,970 --> 01:36:31,400
overreaction could create World War 3 I

2163
01:36:35,440 --> 01:36:32,980

mean something really bad could happen

2164

01:36:38,290 --> 01:36:35,450

but I tried to tell people I tried to

2165

01:36:40,330 --> 01:36:38,300

talk to people and you know back then no

2166

01:36:41,830 --> 01:36:40,340

one really believed you I guess even my

2167

01:36:44,200 --> 01:36:41,840

own family kind of like looked at me

2168

01:36:46,570 --> 01:36:44,210

weird so what I did is I wrote a short

2169

01:36:48,100 --> 01:36:46,580

story it's called the seer and it's a

2170

01:36:50,560 --> 01:36:48,110

fictionalized account of what happened

2171

01:36:53,800 --> 01:36:50,570

that day on the Nimitz right and on the

2172

01:36:54,970 --> 01:36:53,810

Princeton and I wrote a couple other

2173

01:36:56,710 --> 01:36:54,980

short stories to go with it and I

2174

01:37:00,580 --> 01:36:56,720

actually published it in the Library of

2175

01:37:03,160 --> 01:37:00,590

Congress just in case this story ever

2176
01:37:05,230 --> 01:37:03,170
became public that my book who provides

2177
01:37:08,470 --> 01:37:05,240
some sort of contemporary nough seven

2178
01:37:10,300 --> 01:37:08,480
Sulli did in fact happened and that's

2179
01:37:14,110 --> 01:37:10,310
exactly what happened when my book is

2180
01:37:15,310 --> 01:37:14,120
now considered evidence a gentleman an

2181
01:37:19,840 --> 01:37:15,320
avid super duper guy by the name of

2182
01:37:22,120 --> 01:37:19,850
Alejandro Rojas on his own dime found my

2183
01:37:23,860 --> 01:37:22,130
book and he published it in that book

2184
01:37:25,630 --> 01:37:23,870
that I'd never had any intention of ever

2185
01:37:28,180 --> 01:37:25,640
selling or doing anything other than

2186
01:37:30,940 --> 01:37:28,190
just being a piece of evidence is now

2187
01:37:32,800 --> 01:37:30,950
for sale on Amazon it's called the is

2188
01:37:35,200 --> 01:37:32,810

called sailor's anthology and it doesn't

2189

01:37:36,640 --> 01:37:35,210

cost them a whole lot of money but if I

2190

01:37:38,740 --> 01:37:36,650

could plug my book in my books on

2191

01:37:41,200 --> 01:37:38,750

sailor's anthology and the proceeds from

2192

01:37:42,850 --> 01:37:41,210

the sells in part is going to fund their

2193

01:37:44,820 --> 01:37:42,860

expedition off the coast of Southern

2194

01:37:46,990 --> 01:37:44,830

California

2195

01:37:47,710 --> 01:37:47,000

that's my plug for the book all right

2196

01:37:50,110 --> 01:37:47,720

great

2197

01:37:55,330 --> 01:37:50,120

I have a question in chat and it's to

2198

01:37:58,750 --> 01:37:55,340

both to both Kevin and Gary did either

2199

01:38:04,750 --> 01:37:58,760

one of you happen to catch the interview

2200

01:38:07,780 --> 01:38:04,760

with David flavor on Joe Rogan I didn't

2201

01:38:08,140 --> 01:38:07,790

listen to it yeah I Wow I watched the

2202

01:38:13,420 --> 01:38:08,150

whole thing

2203

01:38:15,460 --> 01:38:13,430

and you know I I saw today a post thing

2204

01:38:17,740 --> 01:38:15,470

on fan on listened to it yet but I saw a

2205

01:38:18,790 --> 01:38:17,750

posting on Facebook today from Mick West

2206

01:38:20,649 --> 01:38:18,800

whose

2207

01:38:23,799 --> 01:38:20,659

Mehta bunk he's you know likes to

2208

01:38:26,739 --> 01:38:23,809

debunked things and he was taking on a

2209

01:38:29,649 --> 01:38:26,749

part of that where I guess David flavor

2210

01:38:31,870 --> 01:38:29,659

talks about faking a UFO when he was

2211

01:38:33,879 --> 01:38:31,880

camping you know as a joke so I

2212

01:38:36,009 --> 01:38:33,889

confronted Mick I said Mickey you're

2213

01:38:38,049 --> 01:38:36,019

trying to say that David has no

2214

01:38:41,379 --> 01:38:38,059

credibility what what's going on and you

2215

01:38:42,850 --> 01:38:41,389

know at the end he basically mix that no

2216

01:38:46,540 --> 01:38:42,860

there's definitely a difference between

2217

01:38:49,089 --> 01:38:46,550

being a witness and lying or not lying

2218

01:38:50,890 --> 01:38:49,099

to a bunch of people and doing a joke

2219

01:38:58,899 --> 01:38:50,900

so I was glad to hear that part of it

2220

01:39:00,939 --> 01:38:58,909

what did you think overall Gary Gary do

2221

01:39:03,640 --> 01:39:00,949

you hear me Gary yeah I can hear ya

2222

01:39:05,410 --> 01:39:03,650

sorry I had that I was keyed over to

2223

01:39:08,739 --> 01:39:05,420

another window for a second

2224

01:39:10,479 --> 01:39:08,749

so Illi thought he did a pretty good job

2225

01:39:13,179 --> 01:39:10,489

on it I still have some point

2226

01:39:18,160 --> 01:39:13,189

contentions just on certain aspects of

2227

01:39:21,339 --> 01:39:18,170

his personality but as in I've come out

2228

01:39:23,459 --> 01:39:21,349

on Facebook and Twitter and I just want

2229

01:39:26,560 --> 01:39:23,469

to make sure everybody understands that

2230

01:39:29,109 --> 01:39:26,570

no matter what I think of his

2231

01:39:31,660 --> 01:39:29,119

personality no matter what he says about

2232

01:39:34,929 --> 01:39:31,670

this UFO I am a hundred percent behind

2233

01:39:38,049 --> 01:39:34,939

and I believe anything he says about the

2234

01:39:41,919 --> 01:39:38,059

flight I have the utmost confidence in

2235

01:39:44,859 --> 01:39:41,929

his in everything that he says about the

2236

01:39:47,109 --> 01:39:44,869

story and I do too Gary on commander

2237

01:39:50,049 --> 01:39:47,119

forevers one of the finest damn pilots

2238

01:39:53,859 --> 01:39:50,059

the Navy's ever produced in impeccable

2239

01:39:55,419 --> 01:39:53,869

character he just has certain different

2240

01:39:57,429 --> 01:39:55,429

points of view on some of this and then

2241

01:39:58,989 --> 01:39:57,439

we do and I think that's to be

2242

01:40:00,609 --> 01:39:58,999

understood I mean we were on the foot he

2243

01:40:02,679 --> 01:40:00,619

was in his aircraft him and you can

2244

01:40:05,229 --> 01:40:02,689

understand his whole point of view for

2245

01:40:07,509 --> 01:40:05,239

this entire event is from the point was

2246

01:40:10,060 --> 01:40:07,519

to the point that he got at at past with

2247

01:40:14,979 --> 01:40:10,070

this on we were dealing with this for

2248

01:40:17,469 --> 01:40:14,989

weeks prior to in the night yeah well I

2249

01:40:21,209 --> 01:40:17,479

gotta say something about Kevin right

2250

01:40:24,250 --> 01:40:21,219

now and that is Kevin for you to say

2251

01:40:25,779 --> 01:40:24,260

such a nice thing about David after he

2252

01:40:28,270 --> 01:40:25,789

kind of hammered you at one of the

2253

01:40:30,370 --> 01:40:28,280

conferences but I don't think he was

2254

01:40:33,010 --> 01:40:30,380

really understood who you were or

2255

01:40:35,620 --> 01:40:33,020

whatever at the time - I forgive him

2256

01:40:38,380 --> 01:40:35,630

I understand I really do and I've got

2257

01:40:39,940 --> 01:40:38,390

nothing but respect for the man now

2258

01:40:42,520 --> 01:40:39,950

that's good that just shows your level

2259

01:40:44,380 --> 01:40:42,530

and of integrity as far as I'm concerned

2260

01:40:46,960 --> 01:40:44,390

here's a question from Steven in the

2261

01:40:50,530 --> 01:40:46,970

chat room if they were witnessing other

2262

01:40:54,520 --> 01:40:50,540

world level technology why did they

2263

01:40:55,780 --> 01:40:54,530

leave the seat the scene there where

2264

01:40:57,610 --> 01:40:55,790

there have been numerous sightings I

2265

01:41:00,520 --> 01:40:57,620

think I kind of addressed that but I

2266

01:41:02,680 --> 01:41:00,530

don't know he probably didn't listen

2267

01:41:04,450 --> 01:41:02,690

first part of the show no the only

2268

01:41:06,490 --> 01:41:04,460

reason we left is because we were part

2269

01:41:09,990 --> 01:41:06,500

of the US Navy and we go exactly where

2270

01:41:12,580 --> 01:41:10,000

they tell us to go yeah of course but

2271

01:41:14,080 --> 01:41:12,590

but you know back to the question that I

2272

01:41:17,170 --> 01:41:14,090

had about that I mean if they really

2273

01:41:19,240 --> 01:41:17,180

were witnessing something you know

2274

01:41:21,760 --> 01:41:19,250

bizarre technology that was not ours

2275

01:41:23,590 --> 01:41:21,770

it seems to me that they would do some

2276

01:41:29,320 --> 01:41:23,600

more investigating myself that's what I

2277

01:41:33,190 --> 01:41:29,330

would think so Robert you're still on

2278

01:41:36,040 --> 01:41:33,200

right yes yes I am yeah

2279

01:41:39,100 --> 01:41:36,050

so Robert were you're fading away you're

2280

01:41:44,370 --> 01:41:39,110

it's getting dark in your room there we

2281

01:41:47,710 --> 01:41:44,380

go see you're very grainy but but anyway

2282

01:41:49,680 --> 01:41:47,720

what do you think you know why they

2283

01:41:52,240 --> 01:41:49,690

didn't stick around and really

2284

01:41:54,280 --> 01:41:52,250

investigate I mean if this was

2285

01:41:56,380 --> 01:41:54,290

technology that they were unaware of

2286

01:41:58,570 --> 01:41:56,390

wouldn't it just makes sense for them to

2287

01:42:00,670 --> 01:41:58,580

really try to explore to see what the

2288

01:42:04,090 --> 01:42:00,680

heck these things were and you know

2289

01:42:06,040 --> 01:42:04,100

really well a couple of things one that

2290

01:42:09,100 --> 01:42:06,050

wasn't you know that wasn't the Carrier

2291

01:42:12,100 --> 01:42:09,110

Strike groups mission so that's true of

2292

01:42:15,450 --> 01:42:12,110

them and in the second is there's a

2293

01:42:19,800 --> 01:42:15,460

certain psychological sociological

2294

01:42:23,830 --> 01:42:19,810

aspect to the whole UFO phenomenon right

2295

01:42:27,070 --> 01:42:23,840

there there's such stigma to it right I

2296

01:42:30,070 --> 01:42:27,080

think it's best characterized by I was

2297

01:42:33,040 --> 01:42:30,080

talking to a guy it was he happened to

2298

01:42:36,040 --> 01:42:33,050

be in the Navy also and I asked him if

2299

01:42:37,900 --> 01:42:36,050

he logged in the incident they saw disk

2300

01:42:40,120 --> 01:42:37,910

right over their ship did you log that

2301

01:42:42,760 --> 01:42:40,130

incident into the deck log so I could go

2302

01:42:46,900 --> 01:42:42,770

for you right and he said well I asked

2303

01:42:49,480 --> 01:42:46,910

the cap the captain if I should put this

2304

01:42:52,950 --> 01:42:49,490

you know in our log book and his reply

2305

01:42:56,680 --> 01:42:52,960

was no I want to make Admiral someday

2306

01:42:59,650 --> 01:42:56,690

right so it I don't think it's so much

2307

01:43:02,800 --> 01:42:59,660

that anyone's trying to hide something

2308

01:43:05,020 --> 01:43:02,810

as it is it's almost like if you had a

2309

01:43:11,190 --> 01:43:05,030

ghost that showed up on board right

2310

01:43:15,280 --> 01:43:13,120

don't think it's so much that the

2311

01:43:17,940 --> 01:43:15,290

military tries to hide things is it's

2312

01:43:22,210 --> 01:43:17,950

just something nobody wants to deal with

2313

01:43:24,550 --> 01:43:22,220

well psychologically and socially right

2314

01:43:27,400 --> 01:43:24,560

right yeah I think a lot of incidences

2315

01:43:29,920 --> 01:43:27,410

go untold and then you don't hear about

2316

01:43:30,520 --> 01:43:29,930

forever it has a lot to do with what are

2317

01:43:33,460 --> 01:43:30,530

you saying

2318

01:43:35,380 --> 01:43:33,470

and I mean there's a lot that goes on on

2319

01:43:37,860 --> 01:43:35,390

a ship that doesn't get locked that

2320

01:43:41,020 --> 01:43:37,870

probably should I mean everything from

2321

01:43:43,090 --> 01:43:41,030

sexual harassment the violence to you

2322

01:43:46,060 --> 01:43:43,100

know like you said you know ghosts you a

2323

01:43:48,670 --> 01:43:46,070

view you know unmanned aircraft so

2324

01:43:52,540 --> 01:43:48,680

there's a lot that goes undocumented in

2325

01:43:55,450 --> 01:43:52,550

the military well someone wanted me to

2326

01:43:58,540 --> 01:43:55,460

ask you in chat room if there the

2327

01:44:00,970 --> 01:43:58,550

jamming of the radar that flavor I guess

2328

01:44:05,650 --> 01:44:00,980

talks about what are your thoughts on

2329

01:44:07,930 --> 01:44:05,660

that well my personal thoughts is that

2330

01:44:10,180 --> 01:44:07,940

he's been flying jets for probably

2331

01:44:13,540 --> 01:44:10,190

longer than I was alive at the time so

2332

01:44:16,030 --> 01:44:13,550

if he says that he was being jammed

2333

01:44:18,310 --> 01:44:16,040

I absolutely believe him I do too

2334

01:44:20,710 --> 01:44:18,320

although I have to say we never received

2335

01:44:22,780 --> 01:44:20,720

any jamming on the chip and you would

2336

01:44:24,040 --> 01:44:22,790

you had sensitive I would yeah what I

2337

01:44:26,860 --> 01:44:24,050

would have known about that was part of

2338

01:44:29,560 --> 01:44:26,870

the identification process how does that

2339

01:44:32,230 --> 01:44:29,570

show up of is it like warning or

2340

01:44:36,460 --> 01:44:32,240

something yeah there's a console is the

2341

01:44:39,460 --> 01:44:36,470

ewo operator and he would get the

2342

01:44:43,090 --> 01:44:39,470

information on his console the basically

2343

01:44:44,710 --> 01:44:43,100

a direction and a strength and the type

2344

01:44:48,310 --> 01:44:44,720

of Jim you know what what type of signal

2345

01:44:49,810 --> 01:44:48,320

it is you know by the way active jamming

2346

01:44:53,020 --> 01:44:49,820

is considered a hostile act

2347

01:44:56,170 --> 01:44:53,030

oh it's according to the rules of

2348

01:44:58,210 --> 01:44:56,180

engagement so okay so according to the

2349

01:45:00,290 --> 01:44:58,220

rules that was not what during the time

2350

01:45:02,990 --> 01:45:00,300

it was it my situational awareness the

2351
01:45:04,549 --> 01:45:03,000
new Jimmy but I do have to I do have to

2352
01:45:07,939 --> 01:45:04,559
believe what comparative favor has said

2353
01:45:09,680 --> 01:45:07,949
about it I mean he would know for a em

2354
01:45:11,660 --> 01:45:09,690
for clarification on that

2355
01:45:14,270 --> 01:45:11,670
I believe commander freighter was

2356
01:45:16,609 --> 01:45:14,280
talking about the video

2357
01:45:19,069 --> 01:45:16,619
my understanding is neither he nor

2358
01:45:21,979 --> 01:45:19,079
Lieutenant Commander slate felt that

2359
01:45:25,370 --> 01:45:21,989
they were jammed at the time they were

2360
01:45:28,100 --> 01:45:25,380
having the engagement you the jamming I

2361
01:45:30,500 --> 01:45:28,110
believe is based on his interpretation

2362
01:45:32,810 --> 01:45:30,510
of what he saw in the video and I agree

2363
01:45:36,260 --> 01:45:32,820

carrying Kevin he says there was jamming

2364

01:45:37,580 --> 01:45:36,270

on that video I believe yeah I have no

2365

01:45:39,040 --> 01:45:37,590

there's nothing else I can do but

2366

01:45:43,520 --> 01:45:39,050

believing

2367

01:45:45,500 --> 01:45:43,530

well that that kind of just it shows you

2368

01:45:49,459 --> 01:45:45,510

know that the different phases of

2369

01:45:51,319 --> 01:45:49,469

Technology you know that I I wouldn't

2370

01:45:53,120 --> 01:45:51,329

think that if this was our own

2371

01:45:55,580 --> 01:45:53,130

technology and we were experimenting

2372

01:45:58,549 --> 01:45:55,590

with it I would think that would be

2373

01:46:02,510 --> 01:45:58,559

something that normally wouldn't be

2374

01:46:05,890 --> 01:46:02,520

thought of as far as equipment but you

2375

01:46:13,399 --> 01:46:08,959

any thoughts on on that do you think

2376

01:46:15,319 --> 01:46:13,409

that a lot of skew Gary if there that

2377

01:46:17,959 --> 01:46:15,329

was reversed technology do you think

2378

01:46:20,569 --> 01:46:17,969

that would be part of it

2379

01:46:22,339 --> 01:46:20,579

I think if it was that high level where

2380

01:46:24,950 --> 01:46:22,349

it would only be the highest of people

2381

01:46:29,240 --> 01:46:24,960

that knew about it then it would be a

2382

01:46:31,580 --> 01:46:29,250

situation where it they were they would

2383

01:46:32,689 --> 01:46:31,590

have already had everything set up they

2384

01:46:34,609 --> 01:46:32,699

would have already known where the

2385

01:46:38,120 --> 01:46:34,619

battle group was going to be they would

2386

01:46:40,370 --> 01:46:38,130

have already had a set plan for what

2387

01:46:41,959 --> 01:46:40,380

they wanted to do if and contingency

2388

01:46:45,649 --> 01:46:41,969

plans for anything that happened and

2389

01:46:47,030 --> 01:46:45,659

then they come out at right after the

2390

01:46:48,799 --> 01:46:47,040

incident because they know what happened

2391

01:46:52,700 --> 01:46:48,809

they collect all the data they go

2392

01:46:55,850 --> 01:46:52,710

analyze how well they did and and this

2393

01:46:58,129 --> 01:46:55,860

is with the thoughts that the no one

2394

01:47:00,859 --> 01:46:58,139

that witnesses would ever talk about it

2395

01:47:01,910 --> 01:47:00,869

right well I don't think they were I

2396

01:47:04,310 --> 01:47:01,920

don't think they were really worried

2397

01:47:06,169 --> 01:47:04,320

about it I mean they really did not seem

2398

01:47:08,990 --> 01:47:06,179

worried about it whatsoever which is

2399

01:47:11,600 --> 01:47:09,000

another yeah that's something that's

2400

01:47:13,480 --> 01:47:11,610

always kind of boggled my mind which is

2401

01:47:17,390 --> 01:47:13,490

kind of letting me more double

2402

01:47:20,360 --> 01:47:17,400

Artech then you know alien tech why do

2403

01:47:23,930 --> 01:47:20,370

you suppose some people were asked to

2404

01:47:26,930 --> 01:47:23,940

sign an NDA non-disclosure agreement and

2405

01:47:29,360 --> 01:47:26,940

some were not well because even the even

2406

01:47:30,860 --> 01:47:29,370

the because the the one that one set of

2407

01:47:34,100 --> 01:47:30,870

people that I know they had to sign the

2408

01:47:37,880 --> 01:47:34,110

NDA they got a really really close look

2409

01:47:40,070 --> 01:47:37,890

at these objects at a physically close

2410

01:47:42,650 --> 01:47:40,080

look where even the Jets you know they

2411

01:47:45,050 --> 01:47:42,660

were still mild you know half mile away

2412

01:47:46,940 --> 01:47:45,060

from home as they were chasing them so

2413

01:47:48,440 --> 01:47:46,950

even though they got a good look at them

2414

01:47:51,350 --> 01:47:48,450

and they know what they were the shave

2415

01:47:55,220 --> 01:47:51,360

you know even even the ravers

2416

01:47:58,400 --> 01:47:55,230

description is from a distance the

2417

01:48:01,010 --> 01:47:58,410

people in the the the Hawkeye I mean

2418

01:48:03,230 --> 01:48:01,020

they're getting ridiculous amounts of

2419

01:48:06,820 --> 01:48:03,240

data off of this thing so they probably

2420

01:48:08,450 --> 01:48:06,830

know something that all of us don't

2421

01:48:10,160 --> 01:48:08,460

right Wow

2422

01:48:11,990 --> 01:48:10,170

you know what I can't believe this we're

2423

01:48:13,820 --> 01:48:12,000

out of time already I'm looking up and

2424

01:48:16,100 --> 01:48:13,830

it's like oh my I have to end the show

2425

01:48:18,860 --> 01:48:16,110

so I want to thank you all very much

2426

01:48:20,540 --> 01:48:18,870

it's been a real pleasure Robert thank

2427

01:48:22,670 --> 01:48:20,550

you for joining us in the last hour

2428

01:48:24,920 --> 01:48:22,680

Kevin thanks so much it's always great

2429

01:48:25,910 --> 01:48:24,930

to speak with you and Gary could I give

2430

01:48:28,460 --> 01:48:25,920

one more quick shoutout

2431

01:48:30,050 --> 01:48:28,470

yes go ahead some people knew and

2432

01:48:31,670 --> 01:48:30,060

following the story there is a video on

2433

01:48:34,010 --> 01:48:31,680

YouTube that's called the Nimitz

2434

01:48:35,720 --> 01:48:34,020

encounters and it's at three and a half

2435

01:48:39,170 --> 01:48:35,730

million views or some crazy number like

2436

01:48:41,060 --> 01:48:39,180

that and abd is on his own dime he's the

2437

01:48:42,200 --> 01:48:41,070

one that created it in for anyone what

2438

01:48:45,320 --> 01:48:42,210

interesting and getting some background

2439

01:48:47,330 --> 01:48:45,330

on this go to youtube and first for the

2440

01:48:49,100 --> 01:48:47,340

nimitz encounters okay all right we're

2441

01:48:52,070 --> 01:48:49,110

out of time goodbye everyone good night

2442

01:48:55,070 --> 01:48:52,080

bye alright alright everyone thanks so

2443

01:48:57,170 --> 01:48:55,080

much and we will be back next week again

2444

01:49:01,640 --> 01:48:57,180

with shark fillet he'll be joining us

2445

01:49:04,670 --> 01:49:01,650

and also Alan striven I can't I was like

2446

01:49:07,010 --> 01:49:04,680

stifle my stableman will be joining us

2447

01:49:08,780 --> 01:49:07,020

as well with shark fillet and thank you

2448

01:49:15,070 --> 01:49:08,790

and remember to keep your eyes to the

2449

01:49:15,080 --> 01:49:20,110

all right fellas that's a wrap

2450

01:49:30,530 --> 01:49:28,220

okay you guys happy with that here you

2451

01:49:35,460 --> 01:49:30,540

guys always do a fantastic job Robert

2452

01:49:40,390 --> 01:49:36,700

yep

2453

01:49:43,810 --> 01:49:40,400

we lost race yeah thank you guys I'm

2454

01:49:46,660 --> 01:49:43,820

gonna punch off your night Kevin all
