[Music]

2
00:00:38,670 --> 00:00:36,280

talking about that in just a second I

6
00:00:47,850 --> 00:00:45,580

want to thank everyone that supports the

7
00:00:50,250 --> 00:00:47,860

show I do appreciate that

8
00:00:53,430 --> 00:00:50,260

and at informations over at podcast UFO

9
00:00:55,770 --> 00:00:53,440

we also have a patreon page you can

10
00:00:57,660 --> 00:00:55,780

check out too and the shows are can

11
00:01:00,990 --> 00:00:57,670

actually access shows through patreon

12
00:01:03,270 --> 00:01:01,000

through their RSS feed if you support

13
00:01:05,550 --> 00:01:03,280

the show the full shows that is so if

14

00:01:08,940 --> 00:01:05,560

you head over to podcast UFO comm we

15

00:01:11,850 --> 00:01:08,950

have by a great demand a new merchandise

16

00:01:14,550 --> 00:01:11,860

store we just opened it up this morning

17

00:01:16,890 --> 00:01:14,560

it's right there on the menu bar we have

18

00:01:20,490 --> 00:01:16,900

t-shirts pullovers tank tops hoodies

19

00:01:22,440 --> 00:01:20,500

pillows shower curtains even and this

20

00:01:25,680 --> 00:01:22,450

was all with the wonderful graphic that

21

00:01:27,810 --> 00:01:25,690

Dianne cash made I think two or three

22

00:01:30,450 --> 00:01:27,820

years ago for t-shirts actually it was

23

00:01:33,390 --> 00:01:30,460

she won the first prize in the t-shirt

24

00:01:35,690 --> 00:01:33,400

graphics contest that I did so it's a

25

00:01:39,350 --> 00:01:35,700

great graphics it's a basically a

26
00:01:42,450 --> 00:01:39,360
triangle UFO and a beautiful night sky

27
00:01:43,470 --> 00:01:42,460
looks almost like a milky way going

28
00:01:45,810 --> 00:01:43,480
through there and then you see this

29
00:01:48,210 --> 00:01:45,820
triangle UFO like I said with a single

30
00:01:50,790 --> 00:01:48,220
person looking down I think pointing up

31
00:01:53,670 --> 00:01:50,800
or something like that wonderful graphic

32
00:01:57,030 --> 00:01:53,680
so check that out now if you go into the

33
00:02:00,210 --> 00:01:57,040
show notes or under this show whether

34
00:02:04,020 --> 00:02:00,220
it's on youtube or on my website or even

35
00:02:07,110 --> 00:02:04,030
in your media player you will see a link

36
00:02:09,089 --> 00:02:07,120
to where the merchandise store is also

37
00:02:12,000 --> 00:02:09,099
there is a code that's good for two

38
00:02:14,369 --> 00:02:12,010

weeks just in time for Christmas I'm not

39

00:02:16,619 --> 00:02:14,379

going to say the code it's too long but

40

00:02:20,280 --> 00:02:16,629

the code is included also in the show

41

00:02:22,559 --> 00:02:20,290

notes and in the show itself text so

42

00:02:25,050 --> 00:02:22,569

it's all right there it's 20% off for

43

00:02:26,369 --> 00:02:25,060

two weeks and the prices are very

44

00:02:28,229 --> 00:02:26,379

reasonable it's not like these are

45

00:02:31,260 --> 00:02:28,239

expensive in any type of way they're

46

00:02:34,020 --> 00:02:31,270

just regular t-shirt price that you see

47

00:02:35,339 --> 00:02:34,030

out there I forgot to announce last week

48

00:02:39,209 --> 00:02:35,349

we had

49

00:02:42,479 --> 00:02:39,219

a blog called UFOs and astronauts a very

50

00:02:45,750 --> 00:02:42,489

well-written very informational and this

51
00:02:49,170 --> 00:02:45,760
week we have UFOs over Scotland so if

52
00:02:52,319 --> 00:02:49,180
you are new to this whole topic there's

53
00:02:54,479 --> 00:02:52,329
a great amount of information in these

54
00:02:57,839 --> 00:02:54,489
weekly blogs so check that out again

55
00:03:00,209 --> 00:02:57,849
over at podcast UFO comm and I want to

56
00:03:01,740 --> 00:03:00,219
thank Charles Lear for doing a great job

57
00:03:05,159 --> 00:03:01,750
with those

58
00:03:07,860 --> 00:03:05,169
I repeat guest tonight he's also a

59
00:03:10,589 --> 00:03:07,870
personal friend and he's gonna be

60
00:03:12,780 --> 00:03:10,599
joining us in just one minute here chris

61
00:03:16,199 --> 00:03:12,790

arts illustrations CGI and holds a

65

00:03:24,209 --> 00:03:23,379

degree in psychology from Baylor

66

00:03:26,369 --> 00:03:24,219

University

67

he's a former investigator for the

68

00:03:31,640 --> 00:03:28,540

center of UFO studies and a Caribbean

69

00:03:34,229 --> 00:03:31,650

tributed to the computer UFO network and

70

00:03:35,459 --> 00:03:34,239

he's also a licensed private

71

00:03:36,929 --> 00:03:35,469

investigator

72

00:03:37,860 --> 00:03:36,939

he likes to investigate things and

73

00:03:40,649 --> 00:03:37,870

that's we're going to be talking about

74

00:03:42,780 --> 00:03:40,659

tonight currently lives in in Austin

75

00:03:46,860 --> 00:03:42,790

Texas what we're going to be talking

76

00:03:50,839 --> 00:03:46,870

about tonight is the US Navy its

77

00:03:54,749 --> 00:03:50,849

relation to UFOs including the UF USS

78

00:03:57,360 --> 00:03:54,759

Nimitz UFO encounter Bigelow airspace

79

00:04:00,499 --> 00:03:57,370

and the connection between the US

80

00:04:04,979 --> 00:04:00,509

government and T TSA all that good stuff

81

00:04:07,710 --> 00:04:04,989

Chris has written a paper on this and on

82

00:04:13,229 --> 00:04:07,720

my website you will see a PDF currently

83

00:04:16,740 --> 00:04:13,239

there's the links in the in the PDF are

84

00:04:18,839 --> 00:04:16,750

not active they will be by actually by

85

00:04:19,920 --> 00:04:18,849

tomorrow so maybe by the time most of

86

00:04:22,620 --> 00:04:19,930

the people are listening to the show

87

00:04:26,279 --> 00:04:22,630

those links will be active because the

88

00:04:30,420 --> 00:04:26,289

links instead of doing like a summary

89

00:04:32,700 --> 00:04:30,430

with or footnotes a lot of things that

90

00:04:34,770 --> 00:04:32,710

Chris is talking about is linked live

91

00:04:36,600 --> 00:04:34,780

link so you can go right to those to

92

00:04:38,870 --> 00:04:36,610

reference them welcome to the show Chris

93

00:04:41,339 --> 00:04:38,880

always good talking hey Martin

94

00:04:44,430 --> 00:04:41,349

nice to see you again how are you good

95

00:04:46,769 --> 00:04:44,440

good you know it I've made a few friends

96

00:04:48,580 --> 00:04:46,779

along the way doing the show and I

97

00:04:50,740 --> 00:04:48,590

consider you a good one

98

00:04:54,690 --> 00:04:50,750

we've gone I can't remember the first

99

00:04:58,750 --> 00:04:54,700

time you listen goes way back it's like

100

00:05:02,140 --> 00:04:58,760

12 or I had heard you on coast to coast

101

00:05:03,940 --> 00:05:02,150

I think it back in 2012 and I contacted

102

00:05:05,980 --> 00:05:03,950

you or gracious enough to come on and

103

00:05:07,740 --> 00:05:05,990

we've been basically in touch ever since

104

00:05:10,330 --> 00:05:07,750

we talked on the phone a lot and it's

105

00:05:14,280 --> 00:05:10,340

it's been it's been good and we have a

106

00:05:16,540 --> 00:05:14,290

mutual friend race Stanford always

107

00:05:19,600 --> 00:05:16,550

interesting talking to him and the

108

00:05:22,870 --> 00:05:19,610

things that he has done we supporting

109

00:05:24,250 --> 00:05:22,880

him and it's an amazing world that he's

110

00:05:27,730 --> 00:05:24,260

in isn't it I mean what he's uncovered

111

00:05:29,650 --> 00:05:27,740

in the dinosaur world is just a talk to

112

00:05:31,840 --> 00:05:29,660

him this morning and he had a close call

113

00:05:33,580 --> 00:05:31,850

last week it was almost all over he told

114

00:05:35,110 --> 00:05:33,590

me about a car accident somebody ran a

115

00:05:37,750 --> 00:05:35,120

stop sign took the front end of his car

116

00:05:39,940 --> 00:05:37,760

off with his wife in it and pushed him

117

00:05:44,800 --> 00:05:39,950

up against a tree it was closed house it

118

00:05:52,450 --> 00:05:44,810

closely he's okay yeah well that's good

119

00:05:55,030 --> 00:05:52,460

Wow so Chris for the person I kind of

120

00:05:56,440 --> 00:05:55,040

just gave your background but for the

121

00:05:59,140 --> 00:05:56,450

person that's this the first time

122

00:06:01,000 --> 00:05:59,150

hearing you can you give them you know

123

00:06:04,200 --> 00:06:01,010

kind of a nutshell of what got you

124

00:06:06,880 --> 00:06:04,210

interested in this topic to begin with

125

00:06:08,920 --> 00:06:06,890

that's a good I mean I can go all the

126
00:06:10,770 --> 00:06:08,930
way back to even when I guess I was in

127
00:06:13,570 --> 00:06:10,780
high school or junior high school and

128
00:06:15,340 --> 00:06:13,580
being interested and vaguely remember

129
00:06:18,160 --> 00:06:15,350
going to a conference in Kansas City and

130
00:06:20,950 --> 00:06:18,170
passing Allen Hynek just I had no idea

131
00:06:22,270 --> 00:06:20,960
who he was and I was a nobody I grew up

132
00:06:23,710 --> 00:06:22,280
in Indonesia my parents had an

133
00:06:25,750 --> 00:06:23,720
experience when we were over there back

134
00:06:28,150 --> 00:06:25,760
in the late fifties that I didn't even

135
00:06:30,670 --> 00:06:28,160
find out about until years later but

136
00:06:33,340 --> 00:06:30,680
somewhere between that and in my college

137
00:06:35,170 --> 00:06:33,350
years and and especially by the last

138
00:06:36,990 --> 00:06:35,180

year of college when I took a really

139

00:06:40,060 --> 00:06:37,000

interesting course in parapsychology and

140

00:06:42,010 --> 00:06:40,070

led to other things got me to read up a

141

00:06:45,190 --> 00:06:42,020

lot about how put off and always been

142

00:06:47,800 --> 00:06:45,200

impressed with him and and Matt my

143

00:06:50,160 --> 00:06:47,810

friend Tommy Boylan and and after that

144

00:06:52,030 --> 00:06:50,170

it just things seemed to snowball and

145

00:06:53,560 --> 00:06:52,040

somewhere along the way through her

146

00:06:55,990 --> 00:06:53,570

friend through Tom especially you know I

147

00:06:59,200 --> 00:06:56,000

got to know Allen Hynek and for a little

148

00:07:00,220 --> 00:06:59,210

while before he passed away I did some

149

00:07:02,140 --> 00:07:00,230

things with a Center for UFO studies

150

00:07:06,180 --> 00:07:02,150

that sent a few reports in

151
00:07:08,740 --> 00:07:06,190
but for the most part it seems to be a

152
00:07:10,990 --> 00:07:08,750
lot of people it's kind of independent

153
00:07:13,090 --> 00:07:11,000
interests and trying to step carefully

154
00:07:14,830 --> 00:07:13,100
and not make the wrong step and try to

155
00:07:16,210 --> 00:07:14,840
follow the leads where they go and that

156
00:07:18,670 --> 00:07:16,220
seems to be a lot that's actually what

157
00:07:20,650 --> 00:07:18,680
originated this entire paper was just I

158
00:07:22,300 --> 00:07:20,660
wrote a list of questions I began to

159
00:07:24,460 --> 00:07:22,310
have on my own and just started

160
00:07:25,900 --> 00:07:24,470
following those and that ended up with

161
00:07:29,620 --> 00:07:25,910
this and then I send it to you and here

162
00:07:31,810 --> 00:07:29,630
we are yeah it wasn't the plan I promise

163
00:07:33,190 --> 00:07:31,820

you it wasn't the plan well you know you

164

00:07:36,550 --> 00:07:33,200

do raise some interesting questions

165

00:07:39,070 --> 00:07:36,560

we'll go with them tonight whether

166

00:07:41,080 --> 00:07:39,080

they'll be answers out there or not we

167

00:07:43,240 --> 00:07:41,090

also are going to have Colin so you know

168

00:07:45,850 --> 00:07:43,250

during the second hour so if people have

169

00:07:49,570 --> 00:07:45,860

read the PDF it's actually right now if

170

00:07:51,790 --> 00:07:49,580

you go on podcast UFO calm it's a if

171

00:07:54,700 --> 00:07:51,800

people are watching the show there which

172

00:07:57,930 --> 00:07:54,710

the YouTube is embedded there you'll see

173

00:08:01,120 --> 00:07:57,940

the PDF down below it's 22 pages long

174

00:08:03,610 --> 00:08:01,130

and a lot of really good points

175

00:08:06,520 --> 00:08:03,620

what is your feedback then like you've

176

00:08:09,340 --> 00:08:06,530

passed it around a little bit well as

177

00:08:11,620 --> 00:08:09,350

you know a month ago about at the end of

178

00:08:14,110 --> 00:08:11,630

October I had come up with the first I

179

00:08:16,000 --> 00:08:14,120

guess it was about 19 pages a little bit

180

00:08:18,340 --> 00:08:16,010

less at the time and it was just a rough

181

00:08:19,840 --> 00:08:18,350

draft and even at this point it's not

182

00:08:21,460 --> 00:08:19,850

something I wrote with a purpose to

183

00:08:23,140 --> 00:08:21,470

publish or whatnot

184

00:08:25,780 --> 00:08:23,150

it was a rough draft and I send it to

185

00:08:29,800 --> 00:08:25,790

you and a handful of others Joe mirja

186

00:08:32,920 --> 00:08:29,810

and David Beaty and basically just said

187

00:08:34,000 --> 00:08:32,930

hey I've got something wrong tell me you

188

00:08:37,210 --> 00:08:34,010

know that sort of thing give me any

189

00:08:38,860 --> 00:08:37,220

feedback and I got some nice response

190

00:08:39,940 --> 00:08:38,870

from Dave on it I understand there's a

191

00:08:44,790 --> 00:08:39,950

point I'll make here in a minute that

192

00:08:46,930 --> 00:08:44,800

you brought up earlier and not much else

193

00:08:48,850 --> 00:08:46,940

people were nice enough but I guess if

194

00:08:52,690 --> 00:08:48,860

it's a draft I didn't excite I did send

195

00:08:54,730 --> 00:08:52,700

it to Tioga way and just because the

196

00:08:57,610 --> 00:08:54,740

point was the people who have put things

197

00:08:59,530 --> 00:08:57,620

out there that helped me I would at

198

00:09:01,330 --> 00:08:59,540

least you know I can oblige to give them

199

00:09:03,130 --> 00:09:01,340

a heads up on it and I send it to them

200

00:09:05,830 --> 00:09:03,140

and let them take a look at it but for

201
00:09:07,330 --> 00:09:05,840
the most part didn't get a lot of

202
00:09:09,670 --> 00:09:07,340
feedback there were some questions that

203
00:09:12,700 --> 00:09:09,680
I had and Dave made he was helpful that

204
00:09:15,510 --> 00:09:12,710
way and Tim McMillan who worked with him

205
00:09:19,180 --> 00:09:15,520
were helpful that way

206
00:09:21,520 --> 00:09:19,190
then it was the question you raised that

207
00:09:24,130 --> 00:09:21,530
really got me thinking and it was when

208
00:09:25,960 --> 00:09:24,140
you it was this some of my interests

209
00:09:28,450 --> 00:09:25,970
began to revolve around the question of

210
00:09:31,870 --> 00:09:28,460
Douglas Kurth and what he saw and what

211
00:09:34,480 --> 00:09:31,880
Dave raver saw and why the two didn't

212
00:09:37,480 --> 00:09:34,490
seem to the descriptions seem to vary a

213
00:09:40,630 --> 00:09:37,490

good bit and then when you wrote me back

214

00:09:44,170 --> 00:09:40,640

and said how do we know what Douglas fir

215

00:09:45,940 --> 00:09:44,180

saw is what Dave raver saw and for some

216

00:09:47,350 --> 00:09:45,950

reason that hit me it just I just

217

00:09:50,470 --> 00:09:47,360

realized right then you know we're all

218

00:09:53,860 --> 00:09:50,480

presuming that what we're being told is

219

00:09:56,290 --> 00:09:53,870

the way it is and wow that set me off on

220

00:09:59,440 --> 00:09:56,300

a whole different path of looking at

221

00:10:02,260 --> 00:09:59,450

facts I spent a long time I'm I wrote to

222

00:10:04,300 --> 00:10:02,270

the pilots asking questions about which

223

00:10:05,860 --> 00:10:04,310

aircraft who flew what did a lot of

224

00:10:08,260 --> 00:10:05,870

research when all the way back found

225

00:10:10,840 --> 00:10:08,270

some of the early things that Kevin day

226
00:10:12,910 --> 00:10:10,850
had written and even all the way back to

227
00:10:16,480 --> 00:10:12,920
where the original fuller video had been

228
00:10:18,370 --> 00:10:16,490
posted in 2007 and not many people are

229
00:10:20,830 --> 00:10:18,380
aware that a little later in that post

230
00:10:23,250 --> 00:10:20,840
there's a what it basically seems like a

231
00:10:26,950 --> 00:10:23,260
page or so out of a log file that

232
00:10:30,730 --> 00:10:26,960
describes the pilots that went out it's

233
00:10:32,830 --> 00:10:30,740
an event summary and that began and

234
00:10:36,130 --> 00:10:32,840
especially even in the executive summary

235
00:10:40,270 --> 00:10:36,140
if you look at the times I began to

236
00:10:42,120 --> 00:10:40,280
realize wait a minute Douglas Kurth was

237
00:10:44,620 --> 00:10:42,130
out and I want to have her two hours

238
00:10:47,350 --> 00:10:44,630

before David flavor claims he wants

239

00:10:48,580 --> 00:10:47,360

flavors known for saying all the time

240

00:10:50,320 --> 00:10:48,590

they left between 12:00 and 1:00

241

00:10:53,590 --> 00:10:50,330

somewhere in that time frame and even

242

00:10:56,470 --> 00:10:53,600

his is a wing man or his the pilot our

243

00:10:59,650 --> 00:10:56,480

two Dietrich had has stated that they

244

00:11:01,300 --> 00:10:59,660

left sometime noon or after but even in

245

00:11:04,510 --> 00:11:01,310

the executive summary where it talks

246

00:11:06,730 --> 00:11:04,520

about Douglas curse outing he was out

247

00:11:08,410 --> 00:11:06,740

there initially doing a post flight

248

00:11:09,790 --> 00:11:08,420

maintenance or post maintenance flight

249

00:11:11,800 --> 00:11:09,800

check something to that effect

250

00:11:14,890 --> 00:11:11,810

which struck me because that's not what

251

00:11:16,840 --> 00:11:14,900

David flavour initial initially he says

252

00:11:19,900 --> 00:11:16,850

they were doing an air defense exercises

253

00:11:23,140 --> 00:11:19,910

a 2v2 two planes fighting against two

254

00:11:25,870 --> 00:11:23,150

others and I compare that with the

255

00:11:28,300 --> 00:11:25,880

article that was written by Paco Chia

256

00:11:29,920 --> 00:11:28,310

Ricci in 2015 that seemed to be

257

00:11:31,960 --> 00:11:29,930

main source where a lot of this got

258

00:11:35,050 --> 00:11:31,970

started and maybe even where Robert

259

00:11:37,240 --> 00:11:35,060

Powell got started and even he says that

260

00:11:40,000 --> 00:11:37,250

Douglas Kurth was doing a post

261

00:11:42,340 --> 00:11:40,010

maintenance flight check but they both

262

00:11:46,240 --> 00:11:42,350

seemed to suggest that cars went out

263

00:11:49,540 --> 00:11:46,250

there saw this 300-foot disturbance in

264

00:11:53,050 --> 00:11:49,550

the water 150 200 meters but then they

265

00:11:54,640 --> 00:11:53,060

told him to skip it you're like if he

266

00:11:57,460 --> 00:11:54,650

was already right there and he actually

267

00:11:59,110 --> 00:11:57,470

says he flew right over it then he says

268

00:12:01,510 --> 00:11:59,120

he saw freighter coming in and flavor

269

00:12:03,010 --> 00:12:01,520

claims he saw this cross-shaped thing

270

00:12:04,570 --> 00:12:03,020

under the water but if you'll remember

271

00:12:07,060 --> 00:12:04,580

in the original paper I pretty well

272

00:12:08,740 --> 00:12:07,070

stopped to her because it was Douglas

273

00:12:11,890 --> 00:12:08,750

Krause saying he looked back and saw the

274

00:12:14,200 --> 00:12:11,900

disturbance had disappeared but it

275

00:12:17,740 --> 00:12:14,210

didn't disappear in flavor story until

276

00:12:19,570 --> 00:12:17,750

after favorite pet is encounter so that

277

00:12:21,490 --> 00:12:19,580

there was a conflict right there how

278

00:12:24,060 --> 00:12:21,500

could it be gone unless Douglas Kurth

279

00:12:26,350 --> 00:12:24,070

was right on top of it the whole time

280

00:12:29,620 --> 00:12:26,360

now I don't think even that's the case

281

00:12:31,870 --> 00:12:29,630

because I think Kurth must have been out

282

00:12:33,730 --> 00:12:31,880

there earlier perhaps by himself

283

00:12:36,310 --> 00:12:33,740

originally because his flight number and

284

00:12:37,660 --> 00:12:36,320

in the in the PDF I go into all of this

285

00:12:39,640 --> 00:12:37,670

and even at the very end there's the

286

00:12:41,200 --> 00:12:39,650

photograph that I found showing curse

287

00:12:43,120 --> 00:12:41,210

plane with his flight number with a

288

00:12:45,490 --> 00:12:43,130

plane number on it and his name printed

289

00:12:47,380 --> 00:12:45,500

but that's not one of the two flights

290

00:12:50,320 --> 00:12:47,390

that were that suppose we went out when

291

00:12:52,780 --> 00:12:50,330

favor went out so the whole paper began

292

00:12:54,610 --> 00:12:52,790

just these conflicts that didn't add up

293

00:12:56,770 --> 00:12:54,620

and one of the points that you mentioned

294

00:12:58,600 --> 00:12:56,780

it earlier that I guess I want to say up

295

00:13:02,110 --> 00:12:58,610

front to kind of head everybody off at

296

00:13:03,610 --> 00:13:02,120

the past is the comments been made yeah

297

00:13:06,010 --> 00:13:03,620

that reading the paper it's hard to know

298

00:13:07,840 --> 00:13:06,020

where I'm and where I'm going but that

299

00:13:10,150 --> 00:13:07,850

wasn't why I started writing it was just

300

00:13:11,500 --> 00:13:10,160

pure analysis I was just hit an a domino

301
00:13:15,100 --> 00:13:11,510
and following it where it went

302
00:13:17,380 --> 00:13:15,110
so I understand that if you're looking

303
00:13:19,810 --> 00:13:17,390
for me to reach a point and tell you a

304
00:13:23,680 --> 00:13:19,820
given conclusion this is what the fact

305
00:13:25,360 --> 00:13:23,690
is well I'll read it in two sections and

306
00:13:27,250 --> 00:13:25,370
understand the questions because if my

307
00:13:29,920 --> 00:13:27,260
aim is to get a lot more questions

308
00:13:32,290 --> 00:13:29,930
raised and in fact I have a quote I

309
00:13:33,940 --> 00:13:32,300
found this even this morning that says

310
00:13:35,350 --> 00:13:33,950
we don't know the answers but we have

311
00:13:37,540 --> 00:13:35,360
plenty of evidence to support the

312
00:13:39,970 --> 00:13:37,550
questions and that's a quote from Harry

313
00:13:41,420 --> 00:13:39,980

Reid when he originally came out and

314

00:13:44,240 --> 00:13:41,430

admitted that he had backed the 88

315

00:13:47,000 --> 00:13:44,250

project and that's kind of my point the

316

00:13:49,760 --> 00:13:47,010

point is there's things that don't add

317

00:13:51,290 --> 00:13:49,770

up and there are questions I have I hope

318

00:13:53,210 --> 00:13:51,300

we have good answers I mean I want to

319

00:13:55,010 --> 00:13:53,220

have faith and the paper starts with the

320

00:13:56,990 --> 00:13:55,020

idea that you know we all are hopeful

321

00:13:58,579 --> 00:13:57,000

for what to the stars once and what they

322

00:14:01,850 --> 00:13:58,589

profess to be about and what they're

323

00:14:03,199 --> 00:14:01,860

claiming they're going to do but frankly

324

00:14:05,269 --> 00:14:03,209

I know somebody's gonna ask me what I

325

00:14:07,490 --> 00:14:05,279

think and this whole thing is looking a

326

00:14:09,139 --> 00:14:07,500

lot more like an OP to me like there's

327

00:14:11,780 --> 00:14:09,149

something else going on because we're

328

00:14:15,440 --> 00:14:11,790

getting a narrative with flavors one

329

00:14:17,810 --> 00:14:15,450

story and their aspects of even things

330

00:14:21,079 --> 00:14:17,820

Kevin day wrote back in 2010 don't match

331

00:14:23,269 --> 00:14:21,089

flavors story or even curse story that

332

00:14:25,630 --> 00:14:23,279

seemed like a completely third encounter

333

00:14:28,490 --> 00:14:25,640

with somebody engaging an object up at

334

00:14:30,410 --> 00:14:28,500

20,000 feet that shot right down into

335

00:14:32,090 --> 00:14:30,420

the water and when the pilot flew away

336

00:14:34,519 --> 00:14:32,100

it shot right back out and went on its

337

00:14:37,400 --> 00:14:34,529

merry way that's that's a good quote and

338

00:14:42,290 --> 00:14:37,410

I'm like so how many encounters were

339

00:14:43,850 --> 00:14:42,300

there and it's just not adding up I mean

340

00:14:45,350 --> 00:14:43,860

things are not adding up the way it was

341

00:14:47,300 --> 00:14:45,360

of course this started with me was.how

342

00:14:49,519 --> 00:14:47,310

Kurth ended up at Bigelow Aerospace in

343

00:14:52,550 --> 00:14:49,529

2007 before any other name seemed to

344

00:14:55,340 --> 00:14:52,560

have appeared the pilot who was there

345

00:14:57,590 --> 00:14:55,350

starts working at Bigelow Aerospace and

346

00:14:59,030 --> 00:14:57,600

he won't - I did write I did reach out

347

00:15:01,670 --> 00:14:59,040

to Douglas quor'toth and he was nice

348

00:15:03,079 --> 00:15:01,680

enough to reply but of course he says

349

00:15:05,990 --> 00:15:03,089

anything that he had to say has already

350

00:15:07,460 --> 00:15:06,000

been published and good luck so Wow yeah

351

00:15:09,260 --> 00:15:07,470

he doesn't want to talk and which of

352

00:15:12,470 --> 00:15:09,270

course is interesting to me as well but

353

00:15:14,090 --> 00:15:12,480

yeah well you know we it there's you

354

00:15:17,570 --> 00:15:14,100

know two things right off the bat I want

355

00:15:19,370 --> 00:15:17,580

to say first of all I think Kevin day is

356

00:15:21,980 --> 00:15:19,380

and I do believe you feel the same way

357

00:15:23,960 --> 00:15:21,990

is totally credible I also feel David

358

00:15:26,870 --> 00:15:23,970

flavour is credible but they do there is

359

00:15:29,030 --> 00:15:26,880

a little bit of content there you know

360

00:15:31,490 --> 00:15:29,040

there was obvious at a conference you

361

00:15:36,110 --> 00:15:31,500

know several months back and that

362

00:15:39,380 --> 00:15:36,120

there's a little bit of conflict of you

363

00:15:42,319 --> 00:15:39,390

know what one person is speculating over

364

00:15:46,940 --> 00:15:42,329

another mostly I want to say David

365

00:15:49,190 --> 00:15:46,950

flavor has you know speculated that you

366

00:15:51,199 --> 00:15:49,200

know other people don't know that

367

00:15:53,750 --> 00:15:51,209

actually do you know for instance Kevin

368

00:15:54,290 --> 00:15:53,760

day but you know I have some questions

369

00:15:56,270 --> 00:15:54,300

I'm going to

370

00:15:58,700 --> 00:15:56,280

at you to get your opinion as we go

371

00:16:01,940 --> 00:15:58,710

along here but if you would in kind of a

372

00:16:03,680 --> 00:16:01,950

nutshell can you tell us basically what

373

00:16:06,230 --> 00:16:03,690

we're going to be covering tonight

374

00:16:08,450 --> 00:16:06,240

besides you know the Nimitz

375

00:16:09,470 --> 00:16:08,460

yeah sure you're touching on a lot of

376

00:16:11,330 --> 00:16:09,480

the different things I know we're going

377

00:16:12,170 --> 00:16:11,340

to talk about but there were basically

378

00:16:14,150 --> 00:16:12,180

China for

379

00:16:16,270 --> 00:16:14,160

yeah there were recently forced sections

380

00:16:18,860 --> 00:16:16,280

to this paper that I broke it down into

381

00:16:20,990 --> 00:16:18,870

the first one was just questions on this

382

00:16:23,030 --> 00:16:21,000

nimitz narrative because of the

383

00:16:24,980 --> 00:16:23,040

conflicts that even initially I was

384

00:16:26,510 --> 00:16:24,990

seeing somehow you know the two things

385

00:16:30,290 --> 00:16:26,520

can't seem to be right or they seem to

386

00:16:32,930 --> 00:16:30,300

have big discrepancies the second it's

387

00:16:34,910 --> 00:16:32,940

questions on a navy I think I where

388

00:16:38,570 --> 00:16:34,920

worded it was a Navy investigation

389

00:16:40,250 --> 00:16:38,580

behind us app and a tip because I think

390

00:16:42,170 --> 00:16:40,260

there's undeniable indications

391

00:16:43,790 --> 00:16:42,180

especially because and I documented as

392

00:16:46,610 --> 00:16:43,800

something CEREC has said some things

393

00:16:48,980 --> 00:16:46,620

Paco cheery she has now said that there

394

00:16:51,470 --> 00:16:48,990

was a no an i investigation that went on

395

00:16:53,360 --> 00:16:51,480

and in fact the person who originally

396

00:16:54,860 --> 00:16:53,370

wrote the executive summary the

397

00:16:57,610 --> 00:16:54,870

classified version or the original

398

00:17:00,320 --> 00:16:57,620

investigation was a gs-15 with oh and i

399

00:17:03,980 --> 00:17:00,330

that if this was long before us a and a

400

00:17:05,120 --> 00:17:03,990

tip came out then there's and that was

401
00:17:06,410 --> 00:17:05,130
actually one of the things that started

402
00:17:09,500 --> 00:17:06,420
in the set of questions i wrote to

403
00:17:11,120 --> 00:17:09,510
myself was in it in the beginning of the

404
00:17:13,460 --> 00:17:11,130
paper is you look at these things and

405
00:17:16,100 --> 00:17:13,470
it's hard not to think that the Navy is

406
00:17:19,010 --> 00:17:16,110
some kind of a silent backer or a silent

407
00:17:21,320 --> 00:17:19,020
player in all of this because it allowed

408
00:17:23,180 --> 00:17:21,330
Lassonde to take the videos and and

409
00:17:24,890 --> 00:17:23,190
resign and immediately go to work for to

410
00:17:27,290 --> 00:17:24,900
the stars and use those videos of

411
00:17:29,900 --> 00:17:27,300
promotional material no consequences

412
00:17:31,850 --> 00:17:29,910
that are we've seen you've got the Navy

413
00:17:33,440 --> 00:17:31,860

changing some of their pilot reporting

414

00:17:35,690 --> 00:17:33,450

policies you've got a lot of these

415

00:17:39,290 --> 00:17:35,700

things happening there is even a comment

416

00:17:42,500 --> 00:17:39,300

how put out and I think in his ceci

417

00:17:45,740 --> 00:17:42,510

conference where he says that these Navy

418

00:17:47,330 --> 00:17:45,750

pilots were permitted to speak that's a

419

00:17:49,490 --> 00:17:47,340

kind of an unusual way to say it if

420

00:17:50,810 --> 00:17:49,500

they're supposed to be retired citizens

421

00:17:53,960 --> 00:17:50,820

they able to do what eight what they

422

00:17:56,630 --> 00:17:53,970

please and feel like speaking anyway the

423

00:17:59,090 --> 00:17:56,640

third section was kind of interesting to

424

00:18:02,600 --> 00:17:59,100

me as well me personally because it was

425

00:18:04,760 --> 00:18:02,610

the idea of how did the DeLong situation

426

00:18:07,070 --> 00:18:04,770

which started out with kind of in the

427

00:18:08,000 --> 00:18:07,080

WikiLeaks and his meeting the people at

428

00:18:10,840 --> 00:18:08,010

Lockheed

429

00:18:13,580 --> 00:18:10,850

end up with him with to the stars

430

00:18:15,049 --> 00:18:13,590

because there's a gap in there which

431

00:18:16,549 --> 00:18:15,059

there doesn't seem to be a connection

432

00:18:19,639 --> 00:18:16,559

the people he originally was writing out

433

00:18:21,500 --> 00:18:19,649

that he first met and suddenly now he's

434

00:18:24,830 --> 00:18:21,510

co-founding to the stars with how put

435

00:18:26,419 --> 00:18:24,840

off in a and jimsim event and so that

436

00:18:29,120 --> 00:18:26,429

was more of an intriguing little

437

00:18:31,399 --> 00:18:29,130

analysis in there and I think from what

438

00:18:33,049 --> 00:18:31,409

I've my opinion at this point is that

439

00:18:35,720 --> 00:18:33,059

kit green played a hand in that

440

00:18:37,070 --> 00:18:35,730

because I don't know how the connection

441

00:18:40,490 --> 00:18:37,080

was made there but the description

442

00:18:42,080 --> 00:18:40,500

sounds a lot like him and then of course

443

00:18:44,899 --> 00:18:42,090

the final maybe the shorter section on

444

00:18:45,379 --> 00:18:44,909

this was Wyatt to the Stars after all of

445

00:18:49,789 --> 00:18:45,389

that

446

00:18:51,379 --> 00:18:49,799

why created to the Stars Academy if

447

00:18:52,669 --> 00:18:51,389

you're gonna do a Navy investigation if

448

00:18:57,680 --> 00:18:52,679

you're gonna be investigating all this

449

00:18:59,180 --> 00:18:57,690

sort of thing well I do the same kind of

450

00:19:01,370 --> 00:18:59,190

many of the same names at least that

451
00:19:03,919 --> 00:19:01,380
were in the Bigelow Aerospace the bass

452
00:19:07,850 --> 00:19:03,929
kind of arrangement and it carried

453
00:19:09,289 --> 00:19:07,860
through all of this why not you're right

454
00:19:11,000 --> 00:19:09,299
these be these are people that I've had

455
00:19:13,279 --> 00:19:11,010
a lot of respect for I've read about for

456
00:19:15,110 --> 00:19:13,289
years I mean oddly enough I've looked a

457
00:19:17,240 --> 00:19:15,120
little bit at Stephen justice this is a

458
00:19:21,350 --> 00:19:17,250
brilliant guy I mean I like his designs

459
00:19:23,870 --> 00:19:21,360
he's visual the heck of a thing to

460
00:19:26,060 --> 00:19:23,880
practically retire from all those years

461
00:19:27,919 --> 00:19:26,070
at Lockheed the month before you

462
00:19:31,129 --> 00:19:27,929
suddenly show up on stage with to the

463
00:19:33,049 --> 00:19:31,139

stars yeah you know my impression

464

00:19:34,639 --> 00:19:33,059

originally was they've got something I

465

00:19:38,180 --> 00:19:34,649

don't know what but they've already got

466

00:19:39,769 --> 00:19:38,190

something and now I think probably the

467

00:19:41,240 --> 00:19:39,779

office of the Secretary of Defense is

468

00:19:43,159 --> 00:19:41,250

helping them because of something stated

469

00:19:44,750 --> 00:19:43,169

in that Cradock that army krodha that

470

00:19:47,570 --> 00:19:44,760

was put out there about some of the

471

00:19:49,159 --> 00:19:47,580

materials that they've got but but so

472

00:19:50,690 --> 00:19:49,169

it's basically was these four different

473

00:19:52,580 --> 00:19:50,700

sections that the questions I had

474

00:19:57,049 --> 00:19:52,590

eventually led me to really be focusing

475

00:19:59,539 --> 00:19:57,059

on and and it's simply to raise

476

00:20:01,430 --> 00:19:59,549

questions to ask you know go out and get

477

00:20:02,750 --> 00:20:01,440

the answers that we want I'm not trying

478

00:20:05,870 --> 00:20:02,760

to prove anything I'm not against

479

00:20:07,399 --> 00:20:05,880

anybody and I just I laugh to myself

480

00:20:09,710 --> 00:20:07,409

because I'm admits in this to you if

481

00:20:13,759 --> 00:20:09,720

this is like somebody wants you to buy a

482

00:20:14,810 --> 00:20:13,769

car invest money in it well you should

483

00:20:16,310 --> 00:20:14,820

ask for the CARFAX

484

00:20:17,720 --> 00:20:16,320

yeah and you should they should they

485

00:20:18,980 --> 00:20:17,730

should expect you're gonna ask for it

486

00:20:21,470 --> 00:20:18,990

these days they should just have it

487

00:20:21,860 --> 00:20:21,480

ready be upfront about it so when you

488

00:20:23,750 --> 00:20:21,870

begin to

489

00:20:26,000 --> 00:20:23,760

get their feeling that the stories

490

00:20:28,070 --> 00:20:26,010

aren't tying together and things you

491

00:20:31,310 --> 00:20:28,080

might want to know they don't want to

492

00:20:32,660 --> 00:20:31,320

talk to you you know which sadly when

493

00:20:35,210 --> 00:20:32,670

the after the end of the first paper you

494

00:20:37,760 --> 00:20:35,220

wrote me the question about to the stars

495

00:20:40,430 --> 00:20:37,770

is not being inclusive of those in the

496

00:20:41,960 --> 00:20:40,440

UFO community and some of the recent

497

00:20:43,870 --> 00:20:41,970

comments that came out on Grant Cameron

498

00:20:46,400 --> 00:20:43,880

show him talking to Melinda Leslie about

499

00:20:49,670 --> 00:20:46,410

jimsim even saying no don't want to talk

500

00:20:53,000 --> 00:20:49,680

to you not interested okay it's their

501
00:20:55,070 --> 00:20:53,010
company but they're looking for people

502
00:20:56,690 --> 00:20:55,080
to invest money and they're certainly

503
00:20:58,940 --> 00:20:56,700
going on the talk show circuits and

504
00:21:01,549 --> 00:20:58,950
going out to the conferences and talking

505
00:21:04,669 --> 00:21:01,559
to the UFO community and wanting an

506
00:21:07,940 --> 00:21:04,679
input through their vault app that

507
00:21:11,060 --> 00:21:07,950
they're gonna be making so seems to

508
00:21:12,950 --> 00:21:11,070
media you know a little more a little

509
00:21:14,870 --> 00:21:12,960
more upfront with some of the

510
00:21:16,400 --> 00:21:14,880
information and explaining it some of

511
00:21:18,919 --> 00:21:16,410
these conflicts I would like to just

512
00:21:20,870 --> 00:21:18,929
have explanations to put my own mind at

513
00:21:22,040 --> 00:21:20,880

ease right now hopefully that everything

514

00:21:22,460 --> 00:21:22,050

is okay and everything's on the

515

00:21:24,650 --> 00:21:22,470

up-and-up

516

00:21:28,070 --> 00:21:24,660

yeah yeah we can all we can all hope for

517

00:21:32,660 --> 00:21:28,080

that I had thought that Tom DeLonge

518

00:21:34,940 --> 00:21:32,670

sister who was the publicist for TTS a I

519

00:21:38,090 --> 00:21:34,950

was thinking that she you know perhaps

520

00:21:41,470 --> 00:21:38,100

maybe she had not had a background in

521

00:21:44,299 --> 00:21:41,480

and in this this type of thing and they

522

00:21:46,400 --> 00:21:44,309

researched her I think it scary maybe I

523

00:21:49,280 --> 00:21:46,410

believe I think that sounds right but

524

00:21:51,350 --> 00:21:49,290

she is she has a background in doing

525

00:21:52,850 --> 00:21:51,360

what she's doing so because I've been

526

00:21:57,010 --> 00:21:52,860

kind of surprised that there hasn't been

527

00:22:01,280 --> 00:21:57,020

a lot of you know connectivity be when

528

00:22:03,710 --> 00:22:01,290

someone like myself or someone that has

529

00:22:06,970 --> 00:22:03,720

a really good show or you know that

530

00:22:09,680 --> 00:22:06,980

tries to you know keep on the up-and-up

531

00:22:13,510 --> 00:22:09,690

contacts them you know they're generally

532

00:22:18,410 --> 00:22:13,520

not replying you know and but they use

533

00:22:20,330 --> 00:22:18,420

we can be used as a tool when needed

534

00:22:23,180 --> 00:22:20,340

alright that's kind of how it feels in

535

00:22:24,740 --> 00:22:23,190

some ways I'm not yeah it was something

536

00:22:26,240 --> 00:22:24,750

I something I read the other day but I

537

00:22:28,490 --> 00:22:26,250

wish I could remember who it was because

538

00:22:29,840 --> 00:22:28,500

I am it's important to me to give credit

539

00:22:32,570 --> 00:22:29,850

to all these other people who done all

540

00:22:33,950 --> 00:22:32,580

this good work that has helped all of us

541

00:22:35,480 --> 00:22:33,960

keep on top of things but the comment

542

00:22:37,010 --> 00:22:35,490

was something to the effect that

543

00:22:39,310 --> 00:22:37,020

you know David flavor only talks to

544

00:22:41,450 --> 00:22:39,320

Georgia Knapp and Jeremy Korbelt and

545

00:22:44,030 --> 00:22:41,460

somebody else only talks you know Jim

546

00:22:45,860 --> 00:22:44,040

simav and only talks to Wendel Leslie

547

00:22:47,210 --> 00:22:45,870

and whomever and it's like you're right

548

00:22:50,000 --> 00:22:47,220

you want to get them on your show and

549

00:22:52,580 --> 00:22:50,010

only specific audiences are they

550

00:22:55,190 --> 00:22:52,590

seemingly willing to talk to you I mean

551

00:22:58,870 --> 00:22:55,200

I as I said I reached out to a couple of

552

00:23:00,860 --> 00:22:58,880

the pilots that I was confined and

553

00:23:03,290 --> 00:23:00,870

generally they were nice but not

554

00:23:05,630 --> 00:23:03,300

talkative not wanting to answer

555

00:23:08,930 --> 00:23:05,640

questions no flavors seems to be willing

556

00:23:10,850 --> 00:23:08,940

to say just about everything but most of

557

00:23:12,380 --> 00:23:10,860

the others are pretty tight-lipped or

558

00:23:13,760 --> 00:23:12,390

don't want to say anything or don't want

559

00:23:15,260 --> 00:23:13,770

to talk at all and I would think if

560

00:23:18,770 --> 00:23:15,270

you're really trying to promote this as

561

00:23:20,570 --> 00:23:18,780

and why not have Kurth on the show with

562

00:23:22,760 --> 00:23:20,580

you think here's a guy who went to work

563

00:23:24,560 --> 00:23:22,770

at Bigelow Aerospace would be a huge

564

00:23:26,060 --> 00:23:24,570

proponent to back all of this

565

00:23:28,880 --> 00:23:26,070

information up could explain his

566

00:23:32,120 --> 00:23:28,890

involvement but I don't know for some

567

00:23:35,570 --> 00:23:32,130

reason it seems to be very tailored the

568

00:23:36,020 --> 00:23:35,580

way the narrative is going and that's my

569

00:23:38,120 --> 00:23:36,030

concern

570

00:23:39,620 --> 00:23:38,130

I don't move I know why bothers me when

571

00:23:43,810 --> 00:23:39,630

somebody won't tell you things that you

572

00:23:48,590 --> 00:23:46,400

reached out and tried to ask questions

573

00:23:50,060 --> 00:23:48,600

and wanted to you know send them stuff

574

00:23:51,260 --> 00:23:50,070

to see what they have to say and I'm not

575

00:23:54,410 --> 00:23:51,270

saying I'm gonna get everything right

576

00:23:56,720 --> 00:23:54,420

but I don't think I can be he'll totally

577

00:23:58,520 --> 00:23:56,730

accountable if I've made some errors or

578

00:24:00,320 --> 00:23:58,530

some mistakes because these are just

579

00:24:01,910 --> 00:24:00,330

questions and I think people should ask

580

00:24:03,860 --> 00:24:01,920

but I think everybody should be looking

581

00:24:07,160 --> 00:24:03,870

at them because something doesn't add up

582

00:24:09,230 --> 00:24:07,170

well the thing that you kind of

583

00:24:12,590 --> 00:24:09,240

uncovered or I actually have I believe

584

00:24:15,110 --> 00:24:12,600

I've seen it before or maybe I followed

585

00:24:17,419 --> 00:24:15,120

what you wrote but is it Paco is that

586

00:24:20,180 --> 00:24:17,429

how you say his name I think his pocket

587

00:24:25,340 --> 00:24:20,190

I think Paco cheery GI that's my

588

00:24:28,700 --> 00:24:25,350

principal yeah he was given a classified

589

00:24:31,190 --> 00:24:28,710

document and was able to use it to write

590

00:24:33,020 --> 00:24:31,200

his article and they had to draw back to

591

00:24:35,330 --> 00:24:33,030

me that seems like a biggest question of

592

00:24:38,510 --> 00:24:35,340

them all to me well and that's why it's

593

00:24:39,500 --> 00:24:38,520

the first big main type big type lead at

594

00:24:42,470 --> 00:24:39,510

the top of this thing because that

595

00:24:44,600 --> 00:24:42,480

stunned me back in October when I was

596

00:24:47,510 --> 00:24:44,610

doing all of this research and this was

597

00:24:49,160 --> 00:24:47,520

in the first paper that I sent to to you

598

00:24:52,010 --> 00:24:49,170

and Dave Beatty and pop and

599

00:24:56,030 --> 00:24:52,020

Tata rogue away and Joe mirja and Danny

600

00:24:57,080 --> 00:24:56,040

Silva a few of those that laughed when I

601
00:24:58,700 --> 00:24:57,090
told you I said it's one of the

602
00:25:01,580 --> 00:24:58,710
advantages of being able to sit here all

603
00:25:05,450 --> 00:25:01,590
day and just look for things that I

604
00:25:08,030 --> 00:25:05,460
happen to come across a another podcast

605
00:25:09,920 --> 00:25:08,040
by another guy I guess if it's a fighter

606
00:25:11,990 --> 00:25:09,930
pilot podcast you know an alpha person

607
00:25:13,760 --> 00:25:12,000
that Hawk whatever personalities and he

608
00:25:15,650 --> 00:25:13,770
had to pocket you reaching on there and

609
00:25:17,840 --> 00:25:15,660
they spent the longest time talking

610
00:25:19,550 --> 00:25:17,850
about all this cool stuff you know pilot

611
00:25:21,440 --> 00:25:19,560
stuff you know I've always been

612
00:25:23,810 --> 00:25:21,450
impressed it amazes me these pilots are

613
00:25:25,580 --> 00:25:23,820

a bunch of tall good-looking guys and

614

00:25:28,220 --> 00:25:25,590

they're just amazing fighter pilot

615

00:25:30,650 --> 00:25:28,230

yeah and they're amazing but you know

616

00:25:32,990 --> 00:25:30,660

what Chris I I'm sorry I got you lead

617

00:25:34,880 --> 00:25:33,000

led you into this question and we have

618

00:25:37,250 --> 00:25:34,890

to go into a break so we're gonna pick

619

00:25:39,650 --> 00:25:37,260

it up right here when we come back so

620

00:25:41,330 --> 00:25:39,660

this is Martin Willis with Chris

621

00:25:49,639 --> 00:25:41,340

Lambright and we'll be right back right

622

00:25:54,119 --> 00:25:52,019

we're clear bharden just over three

623

00:25:56,190 --> 00:25:54,129

minutes in this break three minutes okay

624

00:26:00,419 --> 00:25:56,200

so we'll pick it up right there when we

625

00:26:03,209 --> 00:26:00,429

come back Chris and sofa right now we've

626
00:26:08,129 --> 00:26:03,219
got you know three minutes on YouTube

627
00:26:11,759 --> 00:26:08,139
only and so will will bring up something

628
00:26:16,109 --> 00:26:11,769
else can you go over basically your book

629
00:26:18,599 --> 00:26:16,119
X descending for those who may not be

630
00:26:20,819 --> 00:26:18,609
aware of it yeah it'll be a nice kind of

631
00:26:23,190 --> 00:26:20,829
an aside thing because if people really

632
00:26:25,469 --> 00:26:23,200
do wonder why I cared to dig into all of

633
00:26:27,629 --> 00:26:25,479
this a lot of it me personally did stem

634
00:26:28,889 --> 00:26:27,639
from that episode of unidentified where

635
00:26:32,039 --> 00:26:28,899
they talked about the Kirtland Air Force

636
00:26:34,680 --> 00:26:32,049
Base incidents which was clearly to Paul

637
00:26:37,409 --> 00:26:34,690
bennewitz story but never mentioned his

638
00:26:39,569 --> 00:26:37,419

name or anything and the point was I

639

00:26:41,249 --> 00:26:39,579

knew a little bit about that and Paul

640

00:26:44,190 --> 00:26:41,259

bennewitz of course the whole issue was

641

00:26:45,930 --> 00:26:44,200

he was a man in had a successful company

642

00:26:48,509 --> 00:26:45,940

and lived in the nice part of

643

00:26:50,339 --> 00:26:48,519

Albuquerque and had had an interest in

644

00:26:52,259 --> 00:26:50,349

things that were going on up in the

645

00:26:54,749 --> 00:26:52,269

northern New Mexico Dulce area this is

646

00:26:59,249 --> 00:26:54,759

back in the late seventeen EIN there's

647

00:27:01,979 --> 00:26:59,259

too late 1979 and at some point

648

00:27:05,039 --> 00:27:01,989

long story short was on the roof of his

649

00:27:07,289 --> 00:27:05,049

house and happened to see some things

650

00:27:10,680 --> 00:27:07,299

take coming and taking off from out of

651
00:27:11,819 --> 00:27:10,690
the Manzano weapons storage area so he

652
00:27:13,859 --> 00:27:11,829
had some good camera equipment

653
00:27:16,199 --> 00:27:13,869
Hasselblad camera another one mounted on

654
00:27:19,319 --> 00:27:16,209
a telescope and over a period of several

655
00:27:22,459 --> 00:27:19,329
nights from his roof he got film in

656
00:27:26,669 --> 00:27:22,469
still shots of these objects that would

657
00:27:28,799 --> 00:27:26,679
on the mountain lights out and one time

658
00:27:31,529 --> 00:27:28,809
he the mountain down lights out in five

659
00:27:33,839 --> 00:27:31,539
seconds so these are very very fast

660
00:27:35,069 --> 00:27:33,849
objects and even at one point his wife

661
00:27:36,719 --> 00:27:35,079
was out there he said get ready here

662
00:27:38,609 --> 00:27:36,729
they go and they took off and shot down

663
00:27:41,999 --> 00:27:38,619

around the end of the mountains he had

664

00:27:43,799 --> 00:27:42,009

all this on film and some were in around

665

00:27:46,259 --> 00:27:43,809

January I guess when he got the film

666

00:27:47,639 --> 00:27:46,269

developed or whatnot is when he finally

667

00:27:50,789 --> 00:27:47,649

picked up the phone and called down to

668

00:27:52,589 --> 00:27:50,799

the base it Kirtland got first you got a

669

00:27:54,749 --> 00:27:52,599

touch with Ernest Edwards who then put

670

00:27:56,249 --> 00:27:54,759

him in touch with Richard Doty so for

671

00:27:58,169 --> 00:27:56,259

anybody who wonders this is where

672

00:28:00,299 --> 00:27:58,179

Richard Dodie's name came into all of

673

00:28:02,549 --> 00:28:00,309

this is because he happened to be the

674

00:28:03,390 --> 00:28:02,559

person on the other end of the phone who

675

00:28:05,610 --> 00:28:03,400

talked to Paul Bennett

676

00:28:06,360 --> 00:28:05,620

but what started it at all was these

677

00:28:08,370 --> 00:28:06,370

films

678

00:28:10,049 --> 00:28:08,380

it wasn't picking up signals from the

679

00:28:14,940 --> 00:28:10,059

base which is the whole story that they

680

00:28:18,150 --> 00:28:14,950

tried to sell okay now we have one

681

00:28:20,370 --> 00:28:18,160

minute oh yeah to wrap it up yeah anyway

682

00:28:24,420 --> 00:28:20,380

so so the idea sorry I apologize the

683

00:28:27,690 --> 00:28:24,430

idea is Paul saw some things and here's

684

00:28:30,540 --> 00:28:27,700

also one point to be made why forty

685

00:28:32,340 --> 00:28:30,550

years later almost would they still be

686

00:28:33,750 --> 00:28:32,350

trying to push the issue of no no there

687

00:28:36,450 --> 00:28:33,760

was nothing to it it was just Russians

688

00:28:37,860 --> 00:28:36,460

it was whatever else Dodi would be out

689

00:28:41,310 --> 00:28:37,870

there I've had that question asked it's

690

00:28:44,040 --> 00:28:41,320

a fair question why still keep piling on

691

00:28:45,299 --> 00:28:44,050

to try to keep the story buried and I

692

00:28:46,680 --> 00:28:45,309

didn't appreciate the way it was

693

00:28:48,000 --> 00:28:46,690

presented and that episode of

694

00:28:50,880 --> 00:28:48,010

unidentified and the way they tried to

695

00:28:52,049 --> 00:28:50,890

demean Paul it's all clear I wrote in a

696

00:28:53,549 --> 00:28:52,059

little section at the end of this paper

697

00:28:56,280 --> 00:28:53,559

for anyone who wants to know you know

698

00:29:00,650 --> 00:28:56,290

why it mattered to me that'll fill in

699

00:29:03,570 --> 00:29:00,660

that kind of information and anyway so

700

00:29:05,970 --> 00:29:03,580

that's the that's the book X descending

701
00:29:08,520 --> 00:29:05,980
which actually covers two films at once

702
00:29:11,310 --> 00:29:08,530
Paul took and two amazing incredible

703
00:29:12,840 --> 00:29:11,320
films that Ray took that bothering them

704
00:29:15,570 --> 00:29:12,850
tied back into the Air Force Research

705
00:29:20,660 --> 00:29:15,580
Lab so the book is about - his films

706
00:29:28,169 --> 00:29:24,510
well it's over three minutes race you

707
00:29:30,060 --> 00:29:28,179
there we're ready to go live I'm here my

708
00:29:34,890 --> 00:29:30,070
brothers stand by and I'll count you

709
00:29:36,600 --> 00:29:34,900
down I was over here on another computer

710
00:29:38,190 --> 00:29:36,610
getting everything sorted for the phone

711
00:29:50,490 --> 00:29:38,200
calls had a phone call already coming in

712
00:29:54,210 --> 00:29:50,500
oh geez good here let me oops gotta get

713
00:29:58,799 --> 00:29:54,220

to signed in now so that I'm ready okay

714

00:30:01,080 --> 00:29:58,809

I'm in ok and we've got bumper rolling

715

00:30:02,960 --> 00:30:01,090

and if you're ready my brother I'll go

716

00:30:09,870 --> 00:30:02,970

ahead and get us going yeah we're ready

717

00:30:12,060 --> 00:30:09,880

in five four three two all right welcome

718

00:30:14,280 --> 00:30:12,070

back this is martin willis and i have

719

00:30:15,539 --> 00:30:14,290

chris Lambright we're here on podcast

720

00:30:18,690 --> 00:30:15,549

UFO

721

00:30:20,820 --> 00:30:18,700

Chris I made a note of where we end it

722

00:30:23,639 --> 00:30:20,830

and you know I look down I can't read I

723

00:30:27,060 --> 00:30:23,649

wrote with my left hand I can't read my

724

00:30:28,529 --> 00:30:27,070

own writing so we were basically talking

725

00:30:32,669 --> 00:30:28,539

about I think our you're mentioning a

726

00:30:34,590 --> 00:30:32,679

pilot or yeah I was Paco Paco's comments

727

00:30:38,310 --> 00:30:34,600

yeah that he made at the tail end of

728

00:30:40,409 --> 00:30:38,320

this other podcast in which at that

729

00:30:42,419 --> 00:30:40,419

point the host of the other podcast said

730

00:30:44,610 --> 00:30:42,429

okay I have to ask you about the article

731

00:30:46,470 --> 00:30:44,620

the 2015 article the x-files edition

732

00:30:50,340 --> 00:30:46,480

terrific article if anybody hasn't

733

00:30:52,710 --> 00:30:50,350

already I find that and he meant he

734

00:30:56,730 --> 00:30:52,720

brought it up and Paco began talking

735

00:30:58,620 --> 00:30:56,740

about it and that's when he says he

736

00:31:00,299 --> 00:30:58,630

talked to flavor and when he called him

737

00:31:02,880 --> 00:31:00,309

to ask about writing it and flavor said

738

00:31:05,490 --> 00:31:02,890

what a coincidence they just left my

739

00:31:09,269 --> 00:31:05,500

house and doing this investigation and

740

00:31:10,760 --> 00:31:09,279

Paco says he got a copy of this I

741

00:31:15,090 --> 00:31:10,770

believe the way he warded it was

742

00:31:16,919 --> 00:31:15,100

exhaustive classified report and he said

743

00:31:19,799 --> 00:31:16,929

they interviewed everybody

744

00:31:21,779 --> 00:31:19,809

it was my Everlong report right I know

745

00:31:24,570 --> 00:31:21,789

how long the report was but it was

746

00:31:26,990 --> 00:31:24,580

several pages I mean I'm think 15 20

747

00:31:29,269 --> 00:31:27,000

pages long but I do remember him

748

00:31:31,769 --> 00:31:29,279

explicitly stating it was a an

749

00:31:34,200 --> 00:31:31,779

exhaustive classified report where they

750

00:31:37,649 --> 00:31:34,210

talked to the pilots the radar operators

751
00:31:39,750 --> 00:31:37,659
the submarine I'm like whoa and that's

752
00:31:41,580 --> 00:31:39,760
when he says yeah and I had it for two

753
00:31:44,279 --> 00:31:41,590
weeks before I wrote my report and then

754
00:31:46,320 --> 00:31:44,289
I had to give it back and I had never

755
00:31:48,269 --> 00:31:46,330
heard that I'm like wait a minute now

756
00:31:51,060 --> 00:31:48,279
there's clear evidence that somebody has

757
00:31:53,100 --> 00:31:51,070
done some kind of investigation and it

758
00:31:54,899 --> 00:31:53,110
was a classified one that he got to and

759
00:31:56,940 --> 00:31:54,909
of course I did add it at the very last

760
00:32:00,690 --> 00:31:56,950
year the other day he's now actually

761
00:32:02,340 --> 00:32:00,700
come out on another podcast and just

762
00:32:04,649 --> 00:32:02,350
addressed this whole thing talking about

763
00:32:06,360 --> 00:32:04,659

how I think Dave Beatty after I wrote

764

00:32:09,149 --> 00:32:06,370

him and sent him the paper last in

765

00:32:11,820 --> 00:32:09,159

October wrote me and asked me about that

766

00:32:14,159 --> 00:32:11,830

and he said he's gonna put Paco

767

00:32:16,169 --> 00:32:14,169

and that's when apparently Paco wrote

768

00:32:18,090 --> 00:32:16,179

him back and said yeah he dun wanted to

769

00:32:20,299 --> 00:32:18,100

tell him where he got the report but

770

00:32:22,620 --> 00:32:20,309

asked Dave asked for a ver and

771

00:32:25,200 --> 00:32:22,630

subsequently Paco has come out and said

772

00:32:29,370 --> 00:32:25,210

it was a no and I investigation although

773

00:32:32,400 --> 00:32:29,380

now he kind of says well I'm thinking

774

00:32:37,919 --> 00:32:32,410

maybe it was an a tip invest a tip

775

00:32:40,049 --> 00:32:37,929

depended in 2013 from told 17 right well

776

00:32:42,450 --> 00:32:40,059

this is 25th excuse me I'm sorry

777

00:32:46,279 --> 00:32:42,460

2015 is when he wrote his article I like

778

00:32:48,779 --> 00:32:46,289

March of 2015 which in fact was a

779

00:32:51,299 --> 00:32:48,789

obviously even a little few months so to

780

00:32:52,799 --> 00:32:51,309

speak before dumped along supposedly had

781

00:32:54,779 --> 00:32:52,809

gone to Lockheed and before anybody had

782

00:32:57,720 --> 00:32:54,789

even heard of to the Stars or anything

783

00:33:00,600 --> 00:32:57,730

along that line but it struck me as odd

784

00:33:04,799 --> 00:33:00,610

that wait if somebody is willing to loan

785

00:33:07,500 --> 00:33:04,809

him a copy of this exhaustive report for

786

00:33:09,570 --> 00:33:07,510

two weeks to help him I guess write his

787

00:33:11,610 --> 00:33:09,580

article although he says in this most

788

00:33:13,350 --> 00:33:11,620

recent interview that a few days back I

789

00:33:16,110 --> 00:33:13,360

guess that he said through a circuitous

790

00:33:18,630 --> 00:33:16,120

route he got his hands or got a copy of

791

00:33:21,419 --> 00:33:18,640

that article that he looked at but that

792

00:33:23,039 --> 00:33:21,429

it was a no and I investigation although

793

00:33:26,399 --> 00:33:23,049

now maybe he thinks it was a tip and I'm

794

00:33:28,399 --> 00:33:26,409

like he said oh and I never Davis had

795

00:33:32,010 --> 00:33:28,409

apparently mentioned to Linda how that

796

00:33:33,930 --> 00:33:32,020

blew up that the executive summary was

797

00:33:36,899 --> 00:33:33,940

drawn from was done by an oh and I

798

00:33:39,060 --> 00:33:36,909

investigator was a gs-15 so there was

799

00:33:41,430 --> 00:33:39,070

clearly some time and in fact if you go

800

00:33:43,169 --> 00:33:41,440

and look at the reports from all the way

801
00:33:45,690 --> 00:33:43,179
back to the newspaper articles even

802
00:33:48,000 --> 00:33:45,700
flavor has stated that he got a call

803
00:33:49,950 --> 00:33:48,010
from his friend Douglas cheeks Kurth

804
00:33:52,230 --> 00:33:49,960
who's the other pilot who was working at

805
00:33:55,590 --> 00:33:52,240
Bigelow Aerospace that somewhere in the

806
00:33:57,390 --> 00:33:55,600
2008 or so time frame somebody else was

807
00:33:58,860 --> 00:33:57,400
already wanting to do an investigation a

808
00:34:00,779 --> 00:33:58,870
weird way to put it he said we have a

809
00:34:03,090 --> 00:34:00,789
customer who wants to investigate this

810
00:34:05,669 --> 00:34:03,100
can we do it I'm like who is the

811
00:34:08,159 --> 00:34:05,679
customer we don't really know but that's

812
00:34:10,740 --> 00:34:08,169
when I began to realize clearly there's

813
00:34:12,510 --> 00:34:10,750

been an investigation going on that the

814

00:34:15,480 --> 00:34:12,520

two different sources have stated it was

815

00:34:17,639 --> 00:34:15,490

an investigation but according to what

816

00:34:19,740 --> 00:34:17,649

i've heard through linda show and eric

817

00:34:22,169 --> 00:34:19,750

and whoever stating that the executive

818

00:34:24,060 --> 00:34:22,179

summary was facilitated and I think that

819

00:34:27,629 --> 00:34:24,070

waymond to put it facilitated by this

820

00:34:29,820 --> 00:34:27,639

manager at the DIA to get it to Eric and

821

00:34:32,190 --> 00:34:29,830

Hal for them to analyze her to look at

822

00:34:33,780 --> 00:34:32,200

because it had been classified so

823

00:34:36,810 --> 00:34:33,790

clearly there's a classified version a

824

00:34:39,149 --> 00:34:36,820

classified report the executive summary

825

00:34:41,460 --> 00:34:39,159

is kind of the Declassified sanitized

826

00:34:43,220 --> 00:34:41,470

version but somebody's loaning it to

827

00:34:45,919 --> 00:34:43,230

Paco Chia ricci for him to write

828

00:34:48,500 --> 00:34:45,929

article would suggest to me somebody

829

00:34:49,909 --> 00:34:48,510

wants this publicized or somebody is

830

00:34:52,490 --> 00:34:49,919

willing to have the information out

831

00:34:54,200 --> 00:34:52,500

there one of the things that I noted and

832

00:34:57,560 --> 00:34:54,210

that I believe was somewhere in this

833

00:35:00,349 --> 00:34:57,570

information this article is 24 cert on

834

00:35:02,540 --> 00:35:00,359

Douglas curse role was first I heard was

835

00:35:04,550 --> 00:35:02,550

in Paco's article where he described

836

00:35:06,890 --> 00:35:04,560

having been out there and seeing the big

837

00:35:10,940 --> 00:35:06,900

huge circular shape in the water

838

00:35:13,220 --> 00:35:10,950

he doesn't quote Kurth so if you look at

839

00:35:15,770 --> 00:35:13,230

it that way it's pretty clear from what

840

00:35:18,080 --> 00:35:15,780

I can tell he must have gotten the

841

00:35:20,540 --> 00:35:18,090

information somewhere probably in that

842

00:35:22,280 --> 00:35:20,550

O&I investigation that he got and even

843

00:35:24,020 --> 00:35:22,290

though the names are blacked out it's

844

00:35:25,609 --> 00:35:24,030

clear that it's curse you know

845

00:35:28,190 --> 00:35:25,619

description even in the executive

846

00:35:31,099 --> 00:35:28,200

summary but it doesn't fit with the

847

00:35:32,660 --> 00:35:31,109

allottee far as I can tell when flavor

848

00:35:34,460 --> 00:35:32,670

says he was out there and curse said oh

849

00:35:35,930 --> 00:35:34,470

he saw them coming in and then he turned

850

00:35:37,820 --> 00:35:35,940

around and you know they caught told

851

00:35:40,760 --> 00:35:37,830

that they called him off said skipper

852

00:35:42,320 --> 00:35:40,770

and favor makes it out that it's on

853

00:35:44,270 --> 00:35:42,330

believe him right that their new

854

00:35:47,240 --> 00:35:44,280

aircraft he was in has larger fuel

855

00:35:49,910 --> 00:35:47,250

capacity than curse so they wanted him

856

00:35:52,370 --> 00:35:49,920

to go out and said it could but curse Rd

857

00:35:54,620 --> 00:35:52,380

there and he described seeing it he's

858

00:35:56,090 --> 00:35:54,630

alright so why would and you don't ever

859

00:35:57,710 --> 00:35:56,100

hear about my first thought was where

860

00:35:59,210 --> 00:35:57,720

was curse wingman if raver said they

861

00:36:01,460 --> 00:35:59,220

were gonna do this air defense exercise

862

00:36:02,210 --> 00:36:01,470

but a curse and never mentions having

863

00:36:04,730 --> 00:36:02,220

had a wingman

864

00:36:05,690 --> 00:36:04,740

I'm thinking and this flame later on

865

00:36:07,670 --> 00:36:05,700

wasn't the one

866

00:36:09,200 --> 00:36:07,680

so there's conflicts in here there's

867

00:36:11,450 --> 00:36:09,210

conflicts even down to the naval

868

00:36:12,890 --> 00:36:11,460

investigation in Davitt Office of Naval

869

00:36:17,150 --> 00:36:12,900

Intelligence whoever was doing the

870

00:36:19,640 --> 00:36:17,160

investigation that doesn't hold up and

871

00:36:22,880 --> 00:36:19,650

my thinking now if something was going

872

00:36:25,250 --> 00:36:22,890

on from 2007 which is where House said

873

00:36:28,520 --> 00:36:25,260

this got started in June very specific

874

00:36:31,160 --> 00:36:28,530

month in June of 2007 in Douglas

875

00:36:32,900 --> 00:36:31,170

carthon's up at Bigelow Aerospace there

876

00:36:35,390 --> 00:36:32,910

was a comment I haven't been able to

877

00:36:36,740 --> 00:36:35,400

document where I saw this yet a comment

878

00:36:38,570 --> 00:36:36,750

that I think was attributed to Sean

879

00:36:41,450 --> 00:36:38,580

valet that he supposedly had done the

880

00:36:43,670 --> 00:36:41,460

database for bass and it was then handed

881

00:36:45,380 --> 00:36:43,680

over to a pilot which is kind of an

882

00:36:47,270 --> 00:36:45,390

unusual way to put it if I'm if my

883

00:36:49,460 --> 00:36:47,280

memory is correct which made me wonder

884

00:36:53,630 --> 00:36:49,470

if that wasn't Douglas quor'toth for

885

00:36:55,730 --> 00:36:53,640

some reason there but the other thing

886

00:36:56,690 --> 00:36:55,740

about this that strikes me is really

887

00:37:00,049 --> 00:36:56,700

strange

888

00:37:00,980 --> 00:37:00,059

which may also tie into Elizondo having

889

00:37:02,210 --> 00:37:00,990

been with the office of the

890

00:37:05,260 --> 00:37:02,220

undersecretary of defense for

891

00:37:07,280 --> 00:37:05,270

intelligence not for acquisition and

892

00:37:10,099 --> 00:37:07,290

sustainment or acquisition and

893

00:37:11,930 --> 00:37:10,109

technology but for Intel that yes of

894

00:37:15,260 --> 00:37:11,940

course he was at the top of all of this

895

00:37:17,539 --> 00:37:15,270

all along and for some reason when the

896

00:37:18,980 --> 00:37:17,549

money for the Harry REO set contract all

897

00:37:21,230 --> 00:37:18,990

we've known of that came out of that

898

00:37:23,420 --> 00:37:21,240

money seemed to be a pretty extensive

899

00:37:24,829 --> 00:37:23,430

effort to gather other information I

900

00:37:27,049 --> 00:37:24,839

think I think it's pretty clear that's

901
00:37:30,109 --> 00:37:27,059
where the money came to buy into me fons

902
00:37:33,799 --> 00:37:30,119
database how went out and had the those

903
00:37:35,480 --> 00:37:33,809
38 dar Dee's written so for some reason

904
00:37:37,670 --> 00:37:35,490
there was a real effort to gather more

905
00:37:40,460 --> 00:37:37,680
information about the UFO phenomenon in

906
00:37:43,819 --> 00:37:40,470
general from many available sources they

907
00:37:45,380 --> 00:37:43,829
could get which struck me is as you

908
00:37:46,520 --> 00:37:45,390
would think as most of us who've been at

909
00:37:49,099 --> 00:37:46,530
this a while think okay somebody up

910
00:37:50,990 --> 00:37:49,109
there has all the data well why would

911
00:37:53,900 --> 00:37:51,000
you need to go out and get into a public

912
00:37:56,180 --> 00:37:53,910
database a public UFO groups database

913
00:37:57,920 --> 00:37:56,190

why would you be going out and so I'm

914

00:38:01,039 --> 00:37:57,930

not sure how I I don't really have a

915

00:38:03,140 --> 00:38:01,049

clear mind set on how that works yet but

916

00:38:05,059 --> 00:38:03,150

it's obvious that a lot of what was

917

00:38:07,339 --> 00:38:05,069

going on over the last number of years

918

00:38:09,920 --> 00:38:07,349

had to do with going out and gathering

919

00:38:12,410 --> 00:38:09,930

extra extra information from other

920

00:38:15,799 --> 00:38:12,420

sources not like somebody already had

921

00:38:19,130 --> 00:38:15,809

that and and I don't know you know I

922

00:38:20,839 --> 00:38:19,140

don't know whether but at the same time

923

00:38:25,579 --> 00:38:20,849

if an investigation had been done by oh

924

00:38:26,299 --> 00:38:25,589

and I who is favor talking to in early

925

00:38:28,819 --> 00:38:26,309

2015

926

00:38:30,920 --> 00:38:28,829

when Paco called him up in favor says

927

00:38:33,559 --> 00:38:30,930

yeah they were just here who was doing

928

00:38:35,569 --> 00:38:33,569

that investigation and Hawaii has flavor

929

00:38:38,030 --> 00:38:35,579

eluded that was a big question a lot of

930

00:38:40,220 --> 00:38:38,040

people have had why is flavor made it

931

00:38:41,059 --> 00:38:40,230

sound like nobody talked to him until

932

00:38:42,710 --> 00:38:41,069

2017

933

00:38:44,240 --> 00:38:42,720

you've been said in one of the programs

934

00:38:46,039 --> 00:38:44,250

that one of the other pilots called him

935

00:38:47,839 --> 00:38:46,049

up said hey have you been talked to yet

936

00:38:50,660 --> 00:38:47,849

no that's how I've been talk to you by

937

00:38:53,200 --> 00:38:50,670

like the Pentagon five times a favor

938

00:38:55,789 --> 00:38:53,210

said get my number and I'll talk to him

939

00:38:58,579 --> 00:38:55,799

but somebody was at framers house in

940

00:38:59,690 --> 00:38:58,589

2015 yeah so I don't know if it's just

941

00:39:01,730 --> 00:38:59,700

there are a lot of these questions that

942

00:39:03,500 --> 00:39:01,740

don't seem to add up one of the things I

943

00:39:08,510 --> 00:39:03,510

just want to make a point a little side

944

00:39:09,740 --> 00:39:08,520

side note here and that is that if a lot

945

00:39:10,460 --> 00:39:09,750

of people have speculated that the

946

00:39:13,520 --> 00:39:10,470

tick-tock

947

00:39:16,820 --> 00:39:13,530

were some type of you know airforce or

948

00:39:18,650 --> 00:39:16,830

some other type of you know project a

949

00:39:20,900 --> 00:39:18,660

secret project and they were just

950

00:39:22,700 --> 00:39:20,910

testing to see how the Navy react you

951
00:39:24,020 --> 00:39:22,710
know would react to it that type of

952
00:39:27,470 --> 00:39:24,030
thing a lot of people have been

953
00:39:29,420 --> 00:39:27,480
speculating that but why would they have

954
00:39:31,880 --> 00:39:29,430
an exhaustive year-long you know

955
00:39:33,380 --> 00:39:31,890
investigation if that was the case that

956
00:39:35,570 --> 00:39:33,390
may everyone would be in honor or know

957
00:39:37,550 --> 00:39:35,580
about it you know at that level at the

958
00:39:40,580 --> 00:39:37,560
upper levels that would initiate an

959
00:39:43,670 --> 00:39:40,590
investigation like this so I'm just kind

960
00:39:45,680 --> 00:39:43,680
of making that that point well it's a

961
00:39:49,490 --> 00:39:45,690
thought actually that I was talking to

962
00:39:50,900 --> 00:39:49,500
someone about this morning which started

963
00:39:53,510 --> 00:39:50,910

with this idea of why would somebody be

964

00:39:55,220 --> 00:39:53,520

talking to forever 2015 and why would

965

00:39:57,020 --> 00:39:55,230

Elizondo need to be going and

966

00:39:58,940 --> 00:39:57,030

interviewing everybody in 2017 if they'd

967

00:40:01,880 --> 00:39:58,950

already done this investigation back you

968

00:40:02,750 --> 00:40:01,890

know if a tip was on to it way back but

969

00:40:03,890 --> 00:40:02,760

then the thought occurred to me it

970

00:40:06,170 --> 00:40:03,900

almost sounds like somebody's trying to

971

00:40:07,780 --> 00:40:06,180

retrace the steps and recreate the

972

00:40:11,210 --> 00:40:07,790

appearance of doing this investigation

973

00:40:16,130 --> 00:40:11,220

for a tip but at the same time it

974

00:40:20,240 --> 00:40:16,140

occurred to me if you were going to test

975

00:40:23,240 --> 00:40:20,250

your equipment and make a point to

976

00:40:24,440 --> 00:40:23,250

somebody it wouldn't be bad to test it

977

00:40:25,640 --> 00:40:24,450

around your own strike group because you

978

00:40:27,980 --> 00:40:25,650

know there's not gonna be anybody else

979

00:40:30,829 --> 00:40:27,990

around there and apparently they make

980

00:40:33,440 --> 00:40:30,839

sure these guys don't have live ammo and

981

00:40:35,780 --> 00:40:33,450

if you can fly around out there and your

982

00:40:37,970 --> 00:40:35,790

special radar seems to be able to pick

983

00:40:39,680 --> 00:40:37,980

them up although some other really

984

00:40:41,150 --> 00:40:39,690

interesting articles I could create a

985

00:40:42,680 --> 00:40:41,160

lot of credit to title rogue away in the

986

00:40:44,680 --> 00:40:42,690

drive and Tim McMillan they write some

987

00:40:47,300 --> 00:40:44,690

good articles on special projects and

988

00:40:48,829 --> 00:40:47,310

yeah new to radar technologies and

989

00:40:51,410 --> 00:40:48,839

whatnot and this whole idea that there's

990

00:40:53,300 --> 00:40:51,420

I think it was called nemesis some type

991

00:40:55,670 --> 00:40:53,310

of ability to shoot drones out that

992

00:40:57,320 --> 00:40:55,680

would like fake the presence of Navy

993

00:40:59,690 --> 00:40:57,330

carrier carriers and other things out

994

00:41:04,490 --> 00:40:59,700

there right but if you had something

995

00:41:06,680 --> 00:41:04,500

like this tic-tac and you tested it out

996

00:41:08,660 --> 00:41:06,690

there and you showed whoever the

997

00:41:10,400 --> 00:41:08,670

dog-and-pony show to their senators or

998

00:41:13,250 --> 00:41:10,410

whomever that you've got this stuff

999

00:41:15,260 --> 00:41:13,260

nobody has maybe one of the first things

1000

00:41:17,450 --> 00:41:15,270

you'd want to do is make sure it looked

1001
00:41:19,420 --> 00:41:17,460
like you didn't have it that you didn't

1002
00:41:21,740 --> 00:41:19,430
know what it was you might play it up as

1003
00:41:23,060 --> 00:41:21,750
UFOs and now you're desperately looking

1004
00:41:23,430 --> 00:41:23,070
for meta materials and you're trying to

1005
00:41:25,340 --> 00:41:23,440
River

1006
00:41:27,720 --> 00:41:25,350
engineer it so that any of the other

1007
00:41:29,700 --> 00:41:27,730
country's intelligence agents anybody

1008
00:41:31,740 --> 00:41:29,710
who is looking at it would be just as

1009
00:41:33,930 --> 00:41:31,750
confused as you described why would we

1010
00:41:36,300 --> 00:41:33,940
be doing all of this if we already had

1011
00:41:39,090 --> 00:41:36,310
this stuff so I don't know I mean it's

1012
00:41:40,770 --> 00:41:39,100
not saying it's a perfect theory but

1013
00:41:44,190 --> 00:41:40,780

that did occur to me the possibility

1014

00:41:48,120 --> 00:41:44,200

that what we're now trying to do is to

1015

00:41:50,580 --> 00:41:48,130

make sure it looks like we don't have it

1016

00:41:51,120 --> 00:41:50,590

so nobody's focusing their attention on

1017

00:41:53,100 --> 00:41:51,130

us

1018

00:41:55,560 --> 00:41:53,110

nobody's all the spies in the world

1019

00:41:57,230 --> 00:41:55,570

aren't suddenly trying to saturate you

1020

00:41:59,730 --> 00:41:57,240

know you're looking for the information

1021

00:42:03,660 --> 00:41:59,740

but I don't know it's a tough call when

1022

00:42:06,600 --> 00:42:03,670

you you know when you think of some of

1023

00:42:08,520 --> 00:42:06,610

the and I agree David framers a very

1024

00:42:11,070 --> 00:42:08,530

convincing me just like Kevin day yeah I

1025

00:42:13,880 --> 00:42:11,080

mean when I looked at Kevin days first

1026

00:42:15,630 --> 00:42:13,890

one it's just like you can't doubt that

1027

00:42:17,760 --> 00:42:15,640

something happened out there that

1028

00:42:20,160 --> 00:42:17,770

whatever it was had a real serious you

1029

00:42:22,650 --> 00:42:20,170

know impact on these guys I don't know

1030

00:42:25,080 --> 00:42:22,660

what the rest of the so story is but

1031

00:42:28,260 --> 00:42:25,090

something something was out there

1032

00:42:31,680 --> 00:42:28,270

I just don't know whose it was right

1033

00:42:34,260 --> 00:42:31,690

another question I've asked on this show

1034

00:42:36,450 --> 00:42:34,270

before but I haven't asked you what you

1035

00:42:39,060 --> 00:42:36,460

thought about it why do you suppose some

1036

00:42:41,910 --> 00:42:39,070

people had to sign an NDA and some

1037

00:42:43,830 --> 00:42:41,920

people did not like flavor for instance

1038

00:42:46,860 --> 00:42:43,840

I mean why would you know being a

1039

00:42:48,540 --> 00:42:46,870

first-hand witness like that I know he

1040

00:42:54,630 --> 00:42:48,550

was too briefed you know right

1041

00:43:01,800 --> 00:42:54,640

afterwards but I mean no NDA yeah that's

1042

00:43:03,540 --> 00:43:01,810

a tough call now I do think of course

1043

00:43:05,460 --> 00:43:03,550

keep in mind people are being told not

1044

00:43:07,530 --> 00:43:05,470

to talk it's pretty standard fare in

1045

00:43:09,600 --> 00:43:07,540

this thing going way back we always hear

1046

00:43:11,400 --> 00:43:09,610

about Tommy not men in black but people

1047

00:43:13,860 --> 00:43:11,410

being told you know you didn't see

1048

00:43:17,670 --> 00:43:13,870

anything that's the right answer why the

1049

00:43:20,520 --> 00:43:17,680

pilots from what we're told are not told

1050

00:43:23,730 --> 00:43:20,530

we're never told not to talk I don't

1051
00:43:25,740 --> 00:43:23,740
know whether that's because maybe if

1052
00:43:28,050 --> 00:43:25,750
maybe if it was something we were

1053
00:43:30,960 --> 00:43:28,060
testing you would know with the advent

1054
00:43:32,310 --> 00:43:30,970
of the internet and would they on zipper

1055
00:43:34,860 --> 00:43:32,320
nets and with people emailing things

1056
00:43:36,750 --> 00:43:34,870
even I think Alex Dietrich the copilot

1057
00:43:38,490 --> 00:43:36,760
framers wing man

1058
00:43:40,500 --> 00:43:38,500
and made a statement that when she got

1059
00:43:42,150 --> 00:43:40,510
back she wrote some notes and sent it

1060
00:43:43,770 --> 00:43:42,160
off mailed it to her aunt at home saying

1061
00:43:47,100 --> 00:43:43,780
hold onto this it's some real x-files

1062
00:43:48,540 --> 00:43:47,110
ya know so maybe you just realized

1063
00:43:50,340 --> 00:43:48,550

at some point these days you're never

1064

00:43:54,390 --> 00:43:50,350

gonna keep it all quiet why do they

1065

00:43:59,490 --> 00:43:54,400

would tell the radar technicians that's

1066

00:44:01,410 --> 00:43:59,500

a good and at the same time I mean in

1067

00:44:03,180 --> 00:44:01,420

all fairness so I made the comment and I

1068

00:44:04,260 --> 00:44:03,190

mentioned it to you before you know some

1069

00:44:06,330 --> 00:44:04,270

of the descriptions of the planes that

1070

00:44:08,760 --> 00:44:06,340

went out for a versus encounter earth

1071

00:44:10,560 --> 00:44:08,770

being out there an hour how can Kevin

1072

00:44:12,990 --> 00:44:10,570

day not know that how can they not know

1073

00:44:14,970 --> 00:44:13,000

where these planes were and then if you

1074

00:44:17,310 --> 00:44:14,980

were gonna investigate flavor why would

1075

00:44:21,510 --> 00:44:17,320

you also talk to Kevin day he was the

1076

00:44:23,250 --> 00:44:21,520

main man on duty at the time but in all

1077

00:44:25,800 --> 00:44:23,260

fairness it occurred to me unless you've

1078

00:44:27,630 --> 00:44:25,810

already got the radar data which you can

1079

00:44:29,190 --> 00:44:27,640

use to recreate everything that would

1080

00:44:30,900 --> 00:44:29,200

have been seen on the radar systems of

1081

00:44:32,490 --> 00:44:30,910

the ships so you might not need to go

1082

00:44:34,440 --> 00:44:32,500

back and talk to the technicians anymore

1083

00:44:36,660 --> 00:44:34,450

because you've got all of that somewhere

1084

00:44:40,620 --> 00:44:36,670

I mean I don't have a real answer for

1085

00:44:43,740 --> 00:44:40,630

that I mean that speculation but I don't

1086

00:44:45,480 --> 00:44:43,750

know whether and keep in mind as I

1087

00:44:47,760 --> 00:44:45,490

mentioned earlier to you I think how put

1088

00:44:51,420 --> 00:44:47,770

off in his SSC conference stated that

1089

00:44:55,920 --> 00:44:51,430

these Navy pilots were permitted to talk

1090

00:44:57,780 --> 00:44:55,930

about this my idea I have no real good

1091

00:44:59,040 --> 00:44:57,790

explanation but my gut feeling right now

1092

00:45:02,130 --> 00:44:59,050

from everything that I've looked at with

1093

00:45:03,720 --> 00:45:02,140

his paper seems to suggest there was a

1094

00:45:05,190 --> 00:45:03,730

narrative that they were willing to use

1095

00:45:08,700 --> 00:45:05,200

and they wanted her to use the Nimitz

1096

00:45:10,110 --> 00:45:08,710

case and why have 15 different

1097

00:45:11,970 --> 00:45:10,120

encounters or three different encounters

1098

00:45:14,130 --> 00:45:11,980

out there if you can just narrow it down

1099

00:45:16,530 --> 00:45:14,140

to the one instance which flavor was

1100

00:45:18,150 --> 00:45:16,540

involved in tell him he can talk about

1101

00:45:19,710 --> 00:45:18,160

anything he wants but this is the

1102

00:45:21,330 --> 00:45:19,720

narrative Hurst was out there right

1103

00:45:22,770 --> 00:45:21,340

before you we called him off and you go

1104

00:45:24,270 --> 00:45:22,780

I don't even know why they would mention

1105

00:45:26,040 --> 00:45:24,280

Kurth if he was at Bigler airspace

1106

00:45:28,800 --> 00:45:26,050

except that Paco mentioned him in that

1107

00:45:32,280 --> 00:45:28,810

2015 article so curse name was already

1108

00:45:37,230 --> 00:45:32,290

out there but maybe they at some point

1109

00:45:39,570 --> 00:45:37,240

wanted the pilots to speak or didn't

1110

00:45:41,240 --> 00:45:39,580

want yeah I don't know it's curious

1111

00:45:44,460 --> 00:45:41,250

because when the executive summary was

1112

00:45:45,810 --> 00:45:44,470

Eric Davis apparently according to what

1113

00:45:49,290 --> 00:45:45,820

I heard Linda Howe saying one of her

1114

00:45:50,099 --> 00:45:49,300
shows had said that the original report

1115

00:45:53,450 --> 00:45:50,109
was

1116

00:45:56,609 --> 00:45:53,460
put on Navy and DOD stationery

1117

00:45:59,279 --> 00:45:56,619
specifically I think to keep it from

1118

00:46:02,759 --> 00:45:59,289
being classified but then later on the

1119

00:46:04,440 --> 00:46:02,769
DIA classified it why would you not want

1120

00:46:05,970 --> 00:46:04,450
it classified or was that an effort to

1121

00:46:07,890 --> 00:46:05,980
keep it out of the hands of people who

1122

00:46:09,749 --> 00:46:07,900
would classify it right you can just

1123

00:46:11,009 --> 00:46:09,759
leave it in your drawer you can take it

1124

00:46:13,680 --> 00:46:11,019
with you where you want don't have to

1125

00:46:15,749 --> 00:46:13,690
answer questions maybe not having the

1126

00:46:18,239 --> 00:46:15,759

pilots talk about it or maybe they were

1127

00:46:19,829 --> 00:46:18,249

told not to talk and maybe somebody went

1128

00:46:22,650 --> 00:46:19,839

back later and said okay we're gonna do

1129

00:46:24,870 --> 00:46:22,660

this thing now now you can talk about it

1130

00:46:26,849 --> 00:46:24,880

you just can't tell us yeah I can guess

1131

00:46:28,529 --> 00:46:26,859

all day long what if they were told

1132

00:46:31,650 --> 00:46:28,539

don't speak about it

1133

00:46:33,809 --> 00:46:31,660

you mean an effing connector initially

1134

00:46:35,670 --> 00:46:33,819

yeah or they were told don't discuss

1135

00:46:36,839 --> 00:46:35,680

this but now somebody comes back and

1136

00:46:39,809 --> 00:46:36,849

says all right we're gonna give you

1137

00:46:42,359 --> 00:46:39,819

permit us how as Hal said permitted to

1138

00:46:44,579 --> 00:46:42,369

1138
speak about it now well you know I'm

1139
00:46:47,190 --> 00:46:44,589
gonna have a real good answer there you

1140
00:46:49,859 --> 00:46:47,200
sent me a link to Paco actually being

1141
00:46:52,109 --> 00:46:49,869
interviewed and sure Ricci is that how

1142
00:46:54,420 --> 00:46:52,119
you say his last name I think I think so

1143
00:46:56,489 --> 00:46:54,430
some to BG yeah so he's being

1144
00:46:59,579 --> 00:46:56,499
interviewed and he said that he was

1145
00:47:01,979 --> 00:46:59,589
talking about David talking with David

1146
00:47:04,829 --> 00:47:01,989
in a bar several years ago you know

1147
00:47:08,069 --> 00:47:04,839
previous to 2015 when he heard that

1148
00:47:10,349 --> 00:47:08,079
story first so to me that sounds like

1149
00:47:11,339 --> 00:47:10,359
David was able to talk about it whenever

1150
00:47:13,859 --> 00:47:11,349
he wanted to

1151
00:47:15,779 --> 00:47:13,869
that's about yeah exactly a valid point

1152
00:47:16,920 --> 00:47:15,789
if he was one talking David flavor has

1153
00:47:18,210 --> 00:47:16,930
made the comment they'd sit around the

1154
00:47:19,950 --> 00:47:18,220
bar and talk about the strangest things

1155
00:47:23,819 --> 00:47:19,960
they've seen and he said I chased a UFO

1156
00:47:26,400 --> 00:47:23,829
and I agree that that's a conflict why

1157
00:47:30,690 --> 00:47:26,410
would the text be told not to speak of

1158
00:47:32,279 --> 00:47:30,700
it except I don't accept this the texts

1159
00:47:34,620 --> 00:47:32,289
were apparently told not to speak about

1160
00:47:38,579 --> 00:47:34,630
it by whoever came on board their ships

1161
00:47:40,799 --> 00:47:38,589
and confiscated the data I'm not heard

1162
00:47:43,470 --> 00:47:40,809
of anybody coming on board to flavor in

1163
00:47:44,700 --> 00:47:43,480

his peril off the ready room and going

1164

00:47:47,099 --> 00:47:44,710

in there and say it hand over the tapes

1165

00:47:48,989 --> 00:47:47,109

and don't speak about it so perhaps it's

1166

00:47:50,579 --> 00:47:48,999

only the people who happen to be in a

1167

00:47:53,640 --> 00:47:50,589

position to have encountered those

1168

00:47:55,609 --> 00:47:53,650

whoever they were that flew in and said

1169

00:47:57,870 --> 00:47:55,619

give us all the data and took it away

1170

00:48:00,180 --> 00:47:57,880

maybe they were told that by whoever

1171

00:48:01,769 --> 00:48:00,190

flew in to take the data but you

1172

00:48:03,299 --> 00:48:01,779

couldn't go and talk to everybody and

1173

00:48:03,720 --> 00:48:03,309

the pilots and everybody else on every

1174

00:48:05,580 --> 00:48:03,730

single

1175

00:48:07,470 --> 00:48:05,590

ship especially if it there was no

1176

00:48:09,420 --> 00:48:07,480

reason for you to go there so it wasn't

1177

00:48:11,010 --> 00:48:09,430

the ad to my understanding it wasn't the

1178

00:48:13,560 --> 00:48:11,020

captains of the boat it wasn't the

1179

00:48:16,200 --> 00:48:13,570

Admiral see the Navy contacting

1180

00:48:18,930 --> 00:48:16,210

everybody and saying don't talk sounds

1181

00:48:21,720 --> 00:48:18,940

to me like it was just the people who

1182

00:48:23,220 --> 00:48:21,730

came into the purpose of these guys who

1183

00:48:24,900 --> 00:48:23,230

supposedly flew in and wanted to

1184

00:48:27,290 --> 00:48:24,910

confiscate the tapes and the drives and

1185

00:48:29,730 --> 00:48:27,300

all of that who say they were told and

1186

00:48:31,770 --> 00:48:29,740

had signed non-disclosure agreements

1187

00:48:33,570 --> 00:48:31,780

maybe it's just for aver doesn't hang

1188

00:48:35,280 --> 00:48:33,580

out with those guys maybe he was not in

1189

00:48:38,700 --> 00:48:35,290

a location where the men who came in on

1190

00:48:41,730 --> 00:48:38,710

the planes were but but you're right

1191

00:48:43,200 --> 00:48:41,740

it's something another question that I

1192

00:48:47,430 --> 00:48:43,210

don't understand I can't I don't have an

1193

00:48:50,400 --> 00:48:47,440

answer for ya another part of what you

1194

00:48:54,750 --> 00:48:50,410

touch on quite a bit actually is you

1195

00:48:56,820 --> 00:48:54,760

know why the Navy you know it's kind of

1196

00:48:59,130 --> 00:48:56,830

an interesting problem you know the need

1197

00:49:01,230 --> 00:48:59,140

and not other branches but there there's

1198

00:49:06,000 --> 00:49:01,240

there's some type of connection there

1199

00:49:07,320 --> 00:49:06,010

and also with t TSA as well yeah that

1200

00:49:09,120 --> 00:49:07,330

was you're right that's one of the very

1201

00:49:13,680 --> 00:49:09,130

very first things that I the questions I

1202

00:49:15,630 --> 00:49:13,690

had was why is the Navy one of the prime

1203

00:49:17,609 --> 00:49:15,640

players the witnesses are all from the

1204

00:49:20,460 --> 00:49:17,619

Navy the ships were out there that was

1205

00:49:23,550 --> 00:49:20,470

all Navy the Navy it seems to be doing

1206

00:49:26,070 --> 00:49:23,560

the investigation that maybe changes

1207

00:49:28,940 --> 00:49:26,080

their reporting things publicly comes

1208

00:49:31,470 --> 00:49:28,950

out and says ok wasn't the Air Force and

1209

00:49:33,660 --> 00:49:31,480

forever people have generally considered

1210

00:49:37,200 --> 00:49:33,670

if it's UFOs the Air Force is in charge

1211

00:49:39,630 --> 00:49:37,210

and I don't know whether I mean just

1212

00:49:41,280 --> 00:49:39,640

speculating here but what if it was the

1213

00:49:42,870 --> 00:49:41,290

people who came in and took all the

1214

00:49:45,300 --> 00:49:42,880

radar tapes who were picked at all this

1215

00:49:47,250 --> 00:49:45,310

stuff that were part of the old bastion

1216

00:49:48,930 --> 00:49:47,260

Air Force of whomever who had the

1217

00:49:51,390 --> 00:49:48,940

authority to come in and demand those

1218

00:49:52,950 --> 00:49:51,400

tapes and the Navy didn't like it this

1219

00:49:54,090 --> 00:49:52,960

is the Navy's got pilots out there that

1220

00:49:56,970 --> 00:49:54,100

are encountering these things and their

1221

00:49:58,650 --> 00:49:56,980

new radar systems and the you know that

1222

00:50:00,150 --> 00:49:58,660

they've got can detect these objects and

1223

00:50:02,820 --> 00:50:00,160

everybody's seen these things things and

1224

00:50:05,190 --> 00:50:02,830

then suddenly realizes now we nice

1225

00:50:07,290 --> 00:50:05,200

things are here and we've been standing

1226
00:50:09,570 --> 00:50:07,300
behind whoever's been calling the shots

1227
00:50:12,900 --> 00:50:09,580
on this before I don't know it's curious

1228
00:50:14,190 --> 00:50:12,910
that in the TV episode even Christopher

1229
00:50:15,720 --> 00:50:14,200
Mellon makes the comment you know we're

1230
00:50:19,290 --> 00:50:15,730
not trying to do an end run around

1231
00:50:21,150 --> 00:50:19,300
government interesting thought to bring

1232
00:50:24,540 --> 00:50:21,160
up you know if you're doing some kind of

1233
00:50:26,190 --> 00:50:24,550
run but but yeah I mean and I have had

1234
00:50:27,630 --> 00:50:26,200
plenty of people and you know as well as

1235
00:50:30,870 --> 00:50:27,640
I do in this in the history of this

1236
00:50:32,640 --> 00:50:30,880
phenomenon sightings out who in the

1237
00:50:35,070 --> 00:50:32,650
ocean things coming in and going out of

1238
00:50:37,530 --> 00:50:35,080

the ocean maybe experiences some of

1239

00:50:39,570 --> 00:50:37,540

those are the most amazing ones for the

1240

00:50:41,340 --> 00:50:39,580

simple fact that even in the case of the

1241

00:50:43,880 --> 00:50:41,350

nimitz episode people thought about talk

1242

00:50:46,650 --> 00:50:43,890

about why would we be testing things

1243

00:50:48,750 --> 00:50:46,660

hundred miles off the coast instead of

1244

00:50:51,480 --> 00:50:48,760

just doing it at area 51 where it's all

1245

00:50:53,280 --> 00:50:51,490

safe why would you risk flying something

1246

00:50:55,859 --> 00:50:53,290

way out there and if it's flying around

1247

00:50:57,930 --> 00:50:55,869

out there it's probably not a it's not

1248

00:50:59,730 --> 00:50:57,940

drug runners or something that far out

1249

00:51:03,240 --> 00:50:59,740

there over the middle of a Navy Carrier

1250

00:51:04,950 --> 00:51:03,250

Strike Group but uh uh you know the

1251
00:51:08,040 --> 00:51:04,960
Navy's been at this for a long time even

1252
00:51:10,859 --> 00:51:08,050
back when well I don't you know need me

1253
00:51:12,690 --> 00:51:10,869
to explain that but but yeah that comes

1254
00:51:16,740 --> 00:51:12,700
up quite a bit people wonder why is the

1255
00:51:18,540 --> 00:51:16,750
Navy now seem to be behind this you know

1256
00:51:19,830 --> 00:51:18,550
there was a compliment from the lady I

1257
00:51:20,910 --> 00:51:19,840
think it wasn't some of the requests

1258
00:51:22,950 --> 00:51:20,920
that people were sending in for

1259
00:51:25,770 --> 00:51:22,960
information on a tip and who's in charge

1260
00:51:27,120 --> 00:51:25,780
and a lady susan Groff I think was her

1261
00:51:29,099 --> 00:51:27,130
name at the office of the Secretary of

1262
00:51:30,540 --> 00:51:29,109
Defense and they had apparently been

1263
00:51:33,270 --> 00:51:30,550

getting feedback from the air from the

1264

00:51:34,500 --> 00:51:33,280

air force as well and office of

1265

00:51:36,780 --> 00:51:34,510

Secretary of Defense finally said look

1266

00:51:38,160 --> 00:51:36,790

we're gonna be the point man on this so

1267

00:51:41,700 --> 00:51:38,170

if you have any information you need to

1268

00:51:43,290 --> 00:51:41,710

clear send it to them which maybe that's

1269

00:51:45,510 --> 00:51:43,300

just stop some of the contention between

1270

00:51:48,750 --> 00:51:45,520

the Air Force and the Navy over who's

1271

00:51:50,640 --> 00:51:48,760

saying what but but once again it was

1272

00:51:53,310 --> 00:51:50,650

the OSD involvement at that point which

1273

00:51:55,170 --> 00:51:53,320

is kind of where elizondo's got into all

1274

00:51:57,480 --> 00:51:55,180

of this which there's another thing I

1275

00:52:00,030 --> 00:51:57,490

think I fairly well decided that

1276
00:52:03,150 --> 00:52:00,040
Elizondo was way up there not just some

1277
00:52:06,240 --> 00:52:03,160
guy at the Pentagon that his I actually

1278
00:52:11,120 --> 00:52:06,250
did a search for a national program

1279
00:52:13,890 --> 00:52:11,130
special management staff which is on his

1280
00:52:15,300 --> 00:52:13,900
signed his resignation that he was the

1281
00:52:17,430 --> 00:52:15,310
director of national program special

1282
00:52:19,440 --> 00:52:17,440
management staff there's practically

1283
00:52:21,690 --> 00:52:19,450
nothing on them at least available on

1284
00:52:23,370 --> 00:52:21,700
the internet I found one entry but it

1285
00:52:25,890 --> 00:52:23,380
has to do with a high level place a

1286
00:52:28,400 --> 00:52:25,900
group of people who are involved with

1287
00:52:31,099 --> 00:52:28,410
these special access programs

1288
00:52:34,099 --> 00:52:31,109

and looking into that is what pretty

1289

00:52:36,529 --> 00:52:34,109

well convinced me that I have a feeling

1290

00:52:39,230 --> 00:52:36,539

Elizondo was a part of this way up at

1291

00:52:41,240 --> 00:52:39,240

the top when whatever started in 2007

1292

00:52:43,970 --> 00:52:41,250

was first getting designated as a

1293

00:52:47,529 --> 00:52:43,980

special access program or at least

1294

00:52:50,779 --> 00:52:47,539

something that required his input on it

1295

00:52:52,849 --> 00:52:50,789

but I you know it's kind of the whole

1296

00:52:54,529 --> 00:52:52,859

idea of a tip and offset and if a tip

1297

00:52:57,170 --> 00:52:54,539

was just a nickname that special access

1298

00:52:59,779 --> 00:52:57,180

programs often get nickname things oh

1299

00:53:02,539 --> 00:52:59,789

man that's but then how it comes out and

1300

00:53:03,799 --> 00:53:02,549

says but all set was just one I mean

1301
00:53:07,190 --> 00:53:03,809
I've had the quote right in front of me

1302
00:53:09,589 --> 00:53:07,200
but in his sse conference paper report

1303
00:53:12,049 --> 00:53:09,599
he mentions that you know that this was

1304
00:53:13,249 --> 00:53:12,059
just one program when the money ran out

1305
00:53:14,569 --> 00:53:13,259
of it it wasn't just the end of

1306
00:53:16,099 --> 00:53:14,579
everything they were doesn't mean that

1307
00:53:17,660 --> 00:53:16,109
that funding was all the funding there

1308
00:53:20,269 --> 00:53:17,670
was for whatever other programs there

1309
00:53:22,609 --> 00:53:20,279
were so once again it's a lot of

1310
00:53:24,049 --> 00:53:22,619
questions but things just don't seem to

1311
00:53:26,749 --> 00:53:24,059
be adding up and I don't know what that

1312
00:53:29,720 --> 00:53:26,759
spells what does it spell out I mean

1313
00:53:31,339 --> 00:53:29,730

does it mean that it's a bunch of you

1314

00:53:33,170 --> 00:53:31,349

know I mean I'd laugh when I think of

1315

00:53:35,180 --> 00:53:33,180

the analogy people talk about you know

1316

00:53:37,099 --> 00:53:35,190

the Wizard of Oz and don't look at the

1317

00:53:38,749 --> 00:53:37,109

man behind the curtain you know as

1318

00:53:41,299 --> 00:53:38,759

though as though there's something in

1319

00:53:43,460 --> 00:53:41,309

Makaveli on going on but if you remember

1320

00:53:46,370 --> 00:53:43,470

the story the guy behind the curtain was

1321

00:53:48,079 --> 00:53:46,380

a good guy and yeah in The Wizard of Oz

1322

00:53:49,700 --> 00:53:48,089

he was an okay guy in the long run it

1323

00:53:51,950 --> 00:53:49,710

was just the way it was being done that

1324

00:53:54,529 --> 00:53:51,960

makes people suspicious and that may be

1325

00:53:56,359 --> 00:53:54,539

the case here but I don't know it just

1326

00:53:59,240 --> 00:53:56,369

when you're not getting the full story

1327

00:54:00,349 --> 00:53:59,250

and things seemed well even at this

1328

00:54:03,200 --> 00:54:00,359

point it's not holding together

1329

00:54:04,789 --> 00:54:03,210

perfectly well because if you look

1330

00:54:08,089 --> 00:54:04,799

closely at it you can get all of these

1331

00:54:10,160 --> 00:54:08,099

discrepancies that time right you know

1332

00:54:14,450 --> 00:54:10,170

even going down to the idea of the

1333

00:54:16,609 --> 00:54:14,460

attack having smooth no features and in

1334

00:54:18,170 --> 00:54:16,619

the recent interview with uh I think it

1335

00:54:19,940 --> 00:54:18,180

was Puckle she reaches interview where

1336

00:54:21,609 --> 00:54:19,950

he's going back over there woman I

1337

00:54:25,220 --> 00:54:21,619

investigation and and he does

1338

00:54:26,779 --> 00:54:25,230

unfortunately kind of convey some of the

1339

00:54:28,819 --> 00:54:26,789

same attitude towards some of the other

1340

00:54:31,220 --> 00:54:28,829

witnesses that no none of that happened

1341

00:54:32,720 --> 00:54:31,230

it wasn't you know with it you know but

1342

00:54:34,609 --> 00:54:32,730

then again what about the story of

1343

00:54:37,370 --> 00:54:34,619

flavor having claimed that he saw these

1344

00:54:40,009 --> 00:54:37,380

two extensions a little antenna or the

1345

00:54:42,410 --> 00:54:40,019

little tiny Frank yeah he saw how that

1346

00:54:44,809 --> 00:54:42,420

was closed up and and even in the

1347

00:54:46,880 --> 00:54:44,819

and the SCU report it's got a sketch in

1348

00:54:47,780 --> 00:54:46,890

there with two little extensions on them

1349

00:54:49,069 --> 00:54:47,790

but I don't think there's any

1350

00:54:51,230 --> 00:54:49,079

attribution for where the sketch came

1351

00:54:52,970 --> 00:54:51,240

from in favors interview with Jeremy

1352

00:54:54,559 --> 00:54:52,980

Korbel he's very clear about it that you

1353

00:54:56,359 --> 00:54:54,569

could see it clear as day and one of the

1354

00:54:57,770 --> 00:54:56,369

other witnesses I college eyes I can't

1355

00:54:59,930 --> 00:54:57,780

remember his name right now who's

1356

00:55:01,579 --> 00:54:59,940

mentioned standing from back from one of

1357

00:55:03,260 --> 00:55:01,589

the screens and I guess somewhere on one

1358

00:55:06,049 --> 00:55:03,270

of the ships and seeing it very very

1359

00:55:08,180 --> 00:55:06,059

clearly hmm maybe then maybe that's why

1360

00:55:09,589 --> 00:55:08,190

they why would you why would they be

1361

00:55:12,470 --> 00:55:09,599

more clear on that and why are our

1362

00:55:17,299 --> 00:55:12,480

videos so fuzzy when they talk about

1363

00:55:19,520 --> 00:55:17,309

what they saw and they're so it's it's

1364

00:55:22,430 --> 00:55:19,530

an interesting so circumstances right

1365

00:55:25,099 --> 00:55:22,440

well we're right at our break at fifty

1366

00:55:28,789 --> 00:55:25,109

five so thank you so much for listening

1367

00:55:31,460 --> 00:55:28,799

everyone on with Christian Lambright and

1368

00:55:35,059 --> 00:55:31,470

we'll be right back right after these

1369

00:55:38,599 --> 00:55:35,069

messages all right welcome back my guest

1370

00:55:40,880 --> 00:55:38,609

tonight is Chris Lambright and we were

1371

00:55:44,599 --> 00:55:40,890

talking before the break

1372

00:55:46,910 --> 00:55:44,609

basically about blue Elizondo and kind

1373

00:55:50,240 --> 00:55:46,920

of a mystery guy I mean I did get the

1374

00:55:54,410 --> 00:55:50,250

pleasure to meet him a year and a half

1375

00:55:56,900 --> 00:55:54,420

ago or so in in New Jersey at a MUFON

1376

00:55:58,940 --> 00:55:56,910

conference and we talked in the lobby

1377

00:56:02,930 --> 00:55:58,950

for like a half hour never even talked

1378

00:56:04,190 --> 00:56:02,940

about UFOs things that he's he collects

1379

00:56:06,380 --> 00:56:04,200

and things like that you know that's

1380

00:56:07,520 --> 00:56:06,390

kind of what we're talking about but you

1381

00:56:12,140 --> 00:56:07,530

know seems like a real straightforward

1382

00:56:14,630 --> 00:56:12,150

guy very intelligent nice a nice person

1383

00:56:18,799 --> 00:56:14,640

to speak with and all that but he said

1384

00:56:21,289 --> 00:56:18,809

he's a little bit of a mystery to in

1385

00:56:22,730 --> 00:56:21,299

general you know with a certainly the

1386

00:56:26,030 --> 00:56:22,740

feedback I've been getting from

1387

00:56:29,089 --> 00:56:26,040

listeners it's you know there's a lot of

1388

00:56:31,280 --> 00:56:29,099

people speculating about him you know

1389

00:56:35,150 --> 00:56:31,290

what are your thoughts in general about

1390

00:56:36,559 --> 00:56:35,160

Lou and before we go on I do want to

1391

00:56:38,030 --> 00:56:36,569

mention this one other thing I remember

1392

00:56:41,000 --> 00:56:38,040

you telling me you were in the room when

1393

00:56:46,099 --> 00:56:41,010

Bill Moore came out and said that he was

1394

00:56:51,319 --> 00:56:46,109

basically you know working for was at

1395

00:56:53,359 --> 00:56:51,329

the CIA who was well he was yeah you

1396

00:56:54,960 --> 00:56:53,369

must be referring to the conference in

1397

00:56:57,300 --> 00:56:54,970

Las Vegas yeah when

1398

00:57:00,240 --> 00:56:57,310

four more came out and pretty well bared

1399

00:57:04,620 --> 00:57:00,250

his soul about having been working with

1400

00:57:06,240 --> 00:57:04,630

I guess it was a FSI or whomever I had

1401

00:57:07,859 --> 00:57:06,250

my own opinions after all that work I

1402

00:57:09,180 --> 00:57:07,869

did looking at the book when it came to

1403

00:57:11,040 --> 00:57:09,190

situations like this where certain

1404

00:57:12,870 --> 00:57:11,050

things just didn't add up you know

1405

00:57:15,180 --> 00:57:12,880

trying to get a chronology and how can

1406

00:57:16,200 --> 00:57:15,190

this happen when that happened but yeah

1407

00:57:17,490 --> 00:57:16,210

there were a lot of us there actually I

1408

00:57:19,079 --> 00:57:17,500

think I was sitting right next to Linda

1409

00:57:21,270 --> 00:57:19,089

Howe at the time and it was like holy

1410

00:57:22,950 --> 00:57:21,280

cow and of course it was a big

1411

00:57:25,920 --> 00:57:22,960

revelation to me I remember at the time

1412

00:57:28,290 --> 00:57:25,930

when Bill stood up there and said it all

1413

00:57:29,220 --> 00:57:28,300

began ten years ago with a man named

1414

00:57:32,760 --> 00:57:29,230

Paul bennewitz

1415

00:57:34,829 --> 00:57:32,770

and I wasn't like hallelujah that so

1416

00:57:36,420 --> 00:57:34,839

there you go whatever it was originated

1417

00:57:38,520 --> 00:57:36,430

originated that far back and that's

1418

00:57:40,319 --> 00:57:38,530

where they all kind of got involved with

1419

00:57:44,579 --> 00:57:40,329

it and met Richard Doty and some of that

1420

00:57:46,770 --> 00:57:44,589

kind of stuff but um but Lew Elizondo I

1421

00:57:50,370 --> 00:57:46,780

do not know personally I don't have I

1422

00:57:52,410 --> 00:57:50,380

mean he's you know in a way I judge a

1423

00:57:53,550 --> 00:57:52,420

lot based on a person's face and their

1424

00:57:55,740 --> 00:57:53,560

demeanor and the way they come across

1425

00:57:59,370 --> 00:57:55,750

and he does yeah he strikes me as a

1426
00:58:00,839 --> 00:57:59,380
straight-up guy and part of me also says

1427
00:58:03,480 --> 00:58:00,849
you problem less you're able to work

1428
00:58:05,760 --> 00:58:03,490
with people and do the job you don't

1429
00:58:07,230 --> 00:58:05,770
rise up into the levels that he was at

1430
00:58:08,250 --> 00:58:07,240
least it at the office of the

1431
00:58:10,890 --> 00:58:08,260
Undersecretary of defense for

1432
00:58:12,000 --> 00:58:10,900
intelligence and of course and I think

1433
00:58:12,809 --> 00:58:12,010
other people have asked him well you

1434
00:58:14,339 --> 00:58:12,819
know you were supposed to be in

1435
00:58:17,550 --> 00:58:14,349
counterintelligence why should we trust

1436
00:58:19,980 --> 00:58:17,560
you now yes in a way you assumed that

1437
00:58:21,750 --> 00:58:19,990
you know I guess my age you kind of

1438
00:58:26,550 --> 00:58:21,760

learned to just trust everybody but cut

1439

00:58:29,660 --> 00:58:26,560

the cards so you know beyond that I mean

1440

00:58:32,579 --> 00:58:29,670

I thought it was interesting when he

1441

00:58:35,220 --> 00:58:32,589

supposedly had resigned and went to work

1442

00:58:37,710 --> 00:58:35,230

with to the Stars where he said he had

1443

00:58:40,470 --> 00:58:37,720

to leave or quit what he was doing to

1444

00:58:42,150 --> 00:58:40,480

continue the mission once again asking

1445

00:58:45,030 --> 00:58:42,160

an intriguing kind of a way to word it

1446

00:58:47,430 --> 00:58:45,040

he didn't just say just quit these guys

1447

00:58:49,410 --> 00:58:47,440

and go do something else so it always

1448

00:58:50,970 --> 00:58:49,420

makes you wonder is the mission still

1449

00:58:54,540 --> 00:58:50,980

ongoing and what was the mission to

1450

00:58:55,980 --> 00:58:54,550

begin with and originally until I began

1451

00:58:58,050 --> 00:58:55,990

to looking looking at these kind of

1452

00:59:00,930 --> 00:58:58,060

questions you know as far as anybody

1453

00:59:03,650 --> 00:59:00,940

knew the story was he was a guy at the

1454

00:59:06,930 --> 00:59:03,660

Pentagon directing the a tip program and

1455

00:59:08,470 --> 00:59:06,940

I am at least my impression had been

1456

00:59:10,180 --> 00:59:08,480

maybe it was everyone's

1457

00:59:13,240 --> 00:59:10,190

that the money that came from a tip and

1458

00:59:16,570 --> 00:59:13,250

aw snap was used to basically cover the

1459

00:59:18,970 --> 00:59:16,580

costs of Lu directing the a tip program

1460

00:59:20,530 --> 00:59:18,980

at the Pentagon and that's the way it

1461

00:59:23,260 --> 00:59:20,540

seemed to me it was presented in the

1462

00:59:25,620 --> 00:59:23,270

original newspaper articles so it was a

1463

00:59:30,060 --> 00:59:25,630

little bit kind of an unusual thing when

1464

00:59:34,359 --> 00:59:30,070

his resignation letters turns up and

1465

00:59:36,310 --> 00:59:34,369

doesn't say dia or whatever it doesn't

1466

00:59:37,690 --> 00:59:36,320

you know doesn't of course I think John

1467

00:59:39,550 --> 00:59:37,700

Alexander wants before I say no people

1468

00:59:41,980 --> 00:59:39,560

say the Pentagon and you forget this is

1469

00:59:43,240 --> 00:59:41,990

like a small city it's a huge place you

1470

00:59:45,400 --> 00:59:43,250

can't just say Pentagon and it's one

1471

00:59:47,950 --> 00:59:45,410

cohesive bunch right so in this

1472

00:59:49,330 --> 00:59:47,960

particular case and for all I know Lou

1473

00:59:51,280 --> 00:59:49,340

may have had an office in the Pentagon

1474

00:59:53,380 --> 00:59:51,290

for sure so that could be okay

1475

00:59:57,430 --> 00:59:53,390

I mean that way but it's when you

1476

00:59:58,870 --> 00:59:57,440

realized that he's resigning and of

1477

01:00:01,300 --> 00:59:58,880

course I wonder does everybody who

1478

01:00:03,910 --> 01:00:01,310

resigns just send a letter to mattis and

1479

01:00:05,800 --> 01:00:03,920

say I'm out and that's your resignation

1480

01:00:07,540 --> 01:00:05,810

isn't there a little more standard

1481

01:00:10,359 --> 01:00:07,550

protocol for how people in the military

1482

01:00:13,480 --> 01:00:10,369

resigned than just that so I don't know

1483

01:00:15,670 --> 01:00:13,490

whether he just moved his office to to

1484

01:00:18,000 --> 01:00:15,680

the stars and continued but when I began

1485

01:00:20,020 --> 01:00:18,010

to realize okay well what exactly is the

1486

01:00:23,349 --> 01:00:20,030

national program special management

1487

01:00:24,670 --> 01:00:23,359

staff that he's the director of and I

1488

01:00:27,250 --> 01:00:24,680

did some work and you can find some

1489

01:00:29,890 --> 01:00:27,260

things online there's some place I found

1490

01:00:33,190 --> 01:00:29,900

that had a curriculum posted for a some

1491

01:00:34,030 --> 01:00:33,200

kind of the universe gives people who

1492

01:00:36,040 --> 01:00:34,040

are coming into these positions

1493

01:00:37,780 --> 01:00:36,050

backgrounds and special access programs

1494

01:00:39,700 --> 01:00:37,790

and the best special access program

1495

01:00:42,760 --> 01:00:39,710

Oversight Committee and then the senior

1496

01:00:44,470 --> 01:00:42,770

review group and you realize like some

1497

01:00:46,420 --> 01:00:44,480

people have said you know that these

1498

01:00:48,609 --> 01:00:46,430

kinds of programs sometimes most of your

1499

01:00:50,849 --> 01:00:48,619

money is just spent on keeping the

1500

01:00:53,020 --> 01:00:50,859

secret on the security of it not

1501
01:00:55,450 --> 01:00:53,030
actually doing whatever the work was

1502
01:00:58,330 --> 01:00:55,460
it's kind of a yeah so it's like you

1503
01:00:59,950 --> 01:00:58,340
yeah I mean you get 22 million and only

1504
01:01:01,810 --> 01:00:59,960
1 million goes to the program because

1505
01:01:03,640 --> 01:01:01,820
the other 20 is mint built to keep this

1506
01:01:05,380 --> 01:01:03,650
thing secret I'm you know I'm laughing

1507
01:01:09,490 --> 01:01:05,390
about that I'm not saying that's true

1508
01:01:12,010 --> 01:01:09,500
but the general idea being that it began

1509
01:01:15,970 --> 01:01:12,020
to occur to me that you know what a guy

1510
01:01:17,890 --> 01:01:15,980
who's high up in the area where the

1511
01:01:20,830 --> 01:01:17,900
security aspects of sensitive programs

1512
01:01:21,250 --> 01:01:20,840
are handled and you're the director of

1513
01:01:23,450 --> 01:01:21,260

this

1514

01:01:25,130 --> 01:01:23,460

special management staff I don't know

1515

01:01:27,640 --> 01:01:25,140

what the normal management staff might

1516

01:01:30,020 --> 01:01:27,650

be began to really make me think and

1517

01:01:32,300 --> 01:01:30,030

comment he made in an interview just

1518

01:01:35,109 --> 01:01:32,310

recently with George Knapp and George

1519

01:01:37,880 --> 01:01:35,119

snaps new kind of a website blogging

1520

01:01:40,250 --> 01:01:37,890

where Elizondo says you know in the ten

1521

01:01:43,070 --> 01:01:40,260

years I was I was with the program where

1522

01:01:46,160 --> 01:01:43,080

I worked the program and that struck me

1523

01:01:48,470 --> 01:01:46,170

wait I thought he got into it somewhere

1524

01:01:51,740 --> 01:01:48,480

around 2010 when he took it over a tip

1525

01:01:54,740 --> 01:01:51,750

and he ran it until 2013 when the money

1526

01:01:56,120 --> 01:01:54,750

ran out so if he was resigned in 2017

1527

01:01:59,390 --> 01:01:56,130

and he was in at ten years that puts him

1528

01:02:01,040 --> 01:01:59,400

back to 2007 which again seems to jive

1529

01:02:03,650 --> 01:02:01,050

with what Hal had indicated with curse

1530

01:02:05,840 --> 01:02:03,660

showing up it makes me think somebody

1531

01:02:08,740 --> 01:02:05,850

started some kind of a project or

1532

01:02:12,920 --> 01:02:08,750

program way back in 2007

1533

01:02:14,720 --> 01:02:12,930

whatever it was my feeling probably is

1534

01:02:16,700 --> 01:02:14,730

where the O&I investigation was started

1535

01:02:18,170 --> 01:02:16,710

or somebody may have been doing it

1536

01:02:20,660 --> 01:02:18,180

before then it decided they needed a

1537

01:02:22,100 --> 01:02:20,670

special access program somehow that

1538

01:02:25,670 --> 01:02:22,110

involved the office of the secretary

1539

01:02:27,050 --> 01:02:25,680

defense somehow Lou Elizondo it wasn't

1540

01:02:28,340 --> 01:02:27,060

just some guy that they knocked on his

1541

01:02:29,810 --> 01:02:28,350

door and said oh guess what you're about

1542

01:02:31,970 --> 01:02:29,820

to hear everything there is about UFOs

1543

01:02:33,890 --> 01:02:31,980

and we want you to send this stuff and

1544

01:02:36,320 --> 01:02:33,900

he had no clue before that something

1545

01:02:39,970 --> 01:02:36,330

tells me he was way up somewhere that's

1546

01:02:44,720 --> 01:02:39,980

just my my feelings at this point but

1547

01:02:48,800 --> 01:02:44,730

it's hard for me I don't know I guess

1548

01:02:51,290 --> 01:02:48,810

it's episode of - the unidentified where

1549

01:02:52,940 --> 01:02:51,300

they actually had this segment about you

1550

01:02:55,190 --> 01:02:52,950

know the fifth episode where it was

1551
01:02:56,900 --> 01:02:55,200
segments of objects flying over nuclear

1552
01:03:00,200 --> 01:02:56,910
weapons areas the one that involved

1553
01:03:02,060 --> 01:03:00,210
Kirtland and all of this and I began to

1554
01:03:04,310 --> 01:03:02,070
think and I watched that thing five

1555
01:03:07,250 --> 01:03:04,320
times and made notes and just to be sure

1556
01:03:08,870 --> 01:03:07,260
I had that but this much right that they

1557
01:03:10,760 --> 01:03:08,880
would have all these episodes these two

1558
01:03:13,130 --> 01:03:10,770
segments with special effects showing

1559
01:03:14,780 --> 01:03:13,140
you know objects coming over in the

1560
01:03:17,390 --> 01:03:14,790
directions of nuclear facilities they

1561
01:03:20,810 --> 01:03:17,400
had Rendlesham they had recreations they

1562
01:03:23,030 --> 01:03:20,820
had the witnesses named them and then

1563
01:03:25,370 --> 01:03:23,040

they put the wall went on that they had

1564

01:03:28,130 --> 01:03:25,380

Richard Doty in crab fish basically

1565

01:03:31,390 --> 01:03:28,140

throw Paul under the bus never mention

1566

01:03:34,390 --> 01:03:31,400

him by name no CGI's no comments and

1567

01:03:37,330 --> 01:03:34,400

then a few minutes later you have

1568

01:03:39,190 --> 01:03:37,340

Lu Elizondo Christopher Mellon saying

1569

01:03:40,630 --> 01:03:39,200

that you know it's actually illegal to

1570

01:03:43,990 --> 01:03:40,640

do an operation against your own

1571

01:03:46,810 --> 01:03:44,000

citizenry and if we were told to do that

1572

01:03:48,430 --> 01:03:46,820

I wouldn't do it because and you know

1573

01:03:52,030 --> 01:03:48,440

I'd look at their faces and I believe

1574

01:03:53,320 --> 01:03:52,040

them but did they not know that a minute

1575

01:03:55,330 --> 01:03:53,330

before to miss before in the same

1576

01:03:56,770 --> 01:03:55,340

episode they're gonna have a guy on

1577

01:03:59,320 --> 01:03:56,780

there talking about how they screwed

1578

01:04:00,760 --> 01:03:59,330

over Paul bennewitz basically pushed him

1579

01:04:03,040 --> 01:04:00,770

over the edge and convincing him ho he

1580

01:04:05,950 --> 01:04:03,050

keep quiet and all this exactly the

1581

01:04:07,650 --> 01:04:05,960

opposite which you know even Tim

1582

01:04:10,870 --> 01:04:07,660

McMillan wrote me today is basically

1583

01:04:13,120 --> 01:04:10,880

that's exactly the legality that they

1584

01:04:15,160 --> 01:04:13,130

were talking about that it's illegal to

1585

01:04:17,100 --> 01:04:15,170

do a minute later in the program that's

1586

01:04:20,470 --> 01:04:17,110

a conflict I have a hard time with that

1587

01:04:22,030 --> 01:04:20,480

yellow eyes that must be in the cutting

1588

01:04:24,640 --> 01:04:22,040

room you know huh

1589

01:04:26,770 --> 01:04:24,650

I suppose but once again who picked that

1590

01:04:28,510 --> 01:04:26,780

who edited that that honestly made me

1591

01:04:31,240 --> 01:04:28,520

think somebody has to have some kind of

1592

01:04:33,460 --> 01:04:31,250

editorial control to choose the episodes

1593

01:04:35,920 --> 01:04:33,470

to put in there and then it at that one

1594

01:04:39,310 --> 01:04:35,930

segment specifically the way they did

1595

01:04:40,630 --> 01:04:39,320

and to say you didn't know I mean you

1596

01:04:42,430 --> 01:04:40,640

and I both know there's been all sorts

1597

01:04:44,020 --> 01:04:42,440

of talk recently about Richard Doty

1598

01:04:46,720 --> 01:04:44,030

having worked with helped put off and

1599

01:04:49,560 --> 01:04:46,730

everybody knows duties background why

1600

01:04:52,060 --> 01:04:49,570

would you put him on a program like that

1601
01:04:54,340 --> 01:04:52,070
knowing his background talking about

1602
01:04:56,740 --> 01:04:54,350
something that no threats against

1603
01:04:57,850 --> 01:04:56,750
nuclear weapons areas the exact opposite

1604
01:05:00,280 --> 01:04:57,860
of what the other two segments were

1605
01:05:02,140 --> 01:05:00,290
about and maybe they didn't know I mean

1606
01:05:03,460 --> 01:05:02,150
I get it that was all excuse me Tom

1607
01:05:05,950 --> 01:05:03,470
DeLonge is supposed to be in charge of

1608
01:05:08,460 --> 01:05:05,960
the entertainment end but whoever was

1609
01:05:11,020 --> 01:05:08,470
deciding to edit that program that way

1610
01:05:13,780 --> 01:05:11,030
you know who stands it who stands up for

1611
01:05:17,440 --> 01:05:13,790
Paul who if if it was illegal what was

1612
01:05:19,480 --> 01:05:17,450
done to him hmm so uh I don't know Danny

1613
01:05:21,790 --> 01:05:19,490

even then I'm not pointing a finger at

1614

01:05:24,430 --> 01:05:21,800

anybody I just but back to Elizondo I

1615

01:05:27,370 --> 01:05:24,440

just at this stage my my impression is

1616

01:05:29,380 --> 01:05:27,380

this is a well-qualified guy who's done

1617

01:05:30,640 --> 01:05:29,390

this a long time in the position he had

1618

01:05:33,400 --> 01:05:30,650

at the office of the undersecretary of

1619

01:05:36,880 --> 01:05:33,410

defense for intelligence that's way up

1620

01:05:39,130 --> 01:05:36,890

there I think that's not just a newbie

1621

01:05:40,990 --> 01:05:39,140

sitting at the Pentagon calling UFO

1622

01:05:42,940 --> 01:05:41,000

reports you know that sort of thing you

1623

01:05:44,830 --> 01:05:42,950

mean it I think he had yeah go ahead I'm

1624

01:05:48,100 --> 01:05:44,840

sorry well you made an interesting point

1625

01:05:53,020 --> 01:05:48,110

just a minute ago you said if he

1626
01:05:56,170 --> 01:05:53,030
actually did resign he said something

1627
01:05:59,410 --> 01:05:56,180
like that I mean is that relation out

1628
01:06:02,260 --> 01:05:59,420
there that he may still be part of that

1629
01:06:03,850 --> 01:06:02,270
is maybe it's maybe it's just me but I

1630
01:06:05,710 --> 01:06:03,860
mean you notice in his resignation

1631
01:06:08,380 --> 01:06:05,720
letter there were and I in some place I

1632
01:06:11,800 --> 01:06:08,390
read that it said something that sounded

1633
01:06:15,460 --> 01:06:11,810
like he had deferred his retirement not

1634
01:06:17,200 --> 01:06:15,470
sure and I will say I will say from my

1635
01:06:19,390 --> 01:06:17,210
own experience when I was working on my

1636
01:06:21,310 --> 01:06:19,400
book there's an entire summary section

1637
01:06:23,530 --> 01:06:21,320
at the end that relates to Richard Doty

1638
01:06:25,780 --> 01:06:23,540

and John Lear and some operations going

1639

01:06:27,820 --> 01:06:25,790

on in Laos and back in the days of the

1640

01:06:28,960 --> 01:06:27,830

Vietnam War what you find out it was we

1641

01:06:30,370 --> 01:06:28,970

weren't to put Nixon says well I

1642

01:06:32,530 --> 01:06:30,380

supposed to have anybody over there in

1643

01:06:35,040 --> 01:06:32,540

Vietnam so they do what's called sheep

1644

01:06:37,180 --> 01:06:35,050

dipping they take the army guys

1645

01:06:38,500 --> 01:06:37,190

supposedly kick him out get him out of

1646

01:06:40,630 --> 01:06:38,510

the army they're now working for

1647

01:06:43,090 --> 01:06:40,640

Raytheon and now they're on top of this

1648

01:06:45,670 --> 01:06:43,100

mountain in Laos renting the radar

1649

01:06:49,360 --> 01:06:45,680

systems that are controlling the flight

1650

01:06:51,190 --> 01:06:49,370

so their runs over Hanoi technically

1651
01:06:53,560 --> 01:06:51,200
were working for Raytheon right so Nixon

1652
01:06:57,010 --> 01:06:53,570
can say we don't have any military guys

1653
01:06:58,960 --> 01:06:57,020
in Laos so it's really a clever ploy and

1654
01:07:01,120 --> 01:06:58,970
I'm not suggesting that that's

1655
01:07:03,730 --> 01:07:01,130
necessarily what Elizondo is doing but

1656
01:07:07,590 --> 01:07:03,740
the idea that if you resign from your

1657
01:07:11,950 --> 01:07:07,600
position does that mean he actually quit

1658
01:07:13,690 --> 01:07:11,960
military completely or is he still I

1659
01:07:15,820 --> 01:07:13,700
don't know I don't want to go there make

1660
01:07:17,920 --> 01:07:15,830
it sound like this some big conspiracy

1661
01:07:19,600 --> 01:07:17,930
this conspiracy thing going but it is a

1662
01:07:21,400 --> 01:07:19,610
curious thing because if he just

1663
01:07:24,520 --> 01:07:21,410

resigned his Director position at the

1664

01:07:26,740 --> 01:07:24,530

National Press Duma staff and you'll

1665

01:07:28,990 --> 01:07:26,750

notice and everybody who went suddenly

1666

01:07:32,530 --> 01:07:29,000

to work for to the stars seems to have

1667

01:07:34,450 --> 01:07:32,540

resigned or retired immediately if they

1668

01:07:36,730 --> 01:07:34,460

weren't already retired that Stephen

1669

01:07:38,620 --> 01:07:36,740

Justice the month before boom he retires

1670

01:07:41,350 --> 01:07:38,630

and goes to work for locked for to the

1671

01:07:44,080 --> 01:07:41,360

stars now Lizardo retires or resigns

1672

01:07:45,790 --> 01:07:44,090

poof goes work for to the stars a lot of

1673

01:07:47,470 --> 01:07:45,800

people who were supposedly and it's a

1674

01:07:49,450 --> 01:07:47,480

it's a point that I kind of make in my

1675

01:07:50,650 --> 01:07:49,460

paper when you'll notice even some of

1676

01:07:54,040 --> 01:07:50,660

the people that Tom DeLonge was

1677

01:07:57,300 --> 01:07:54,050

referring to as the general or the CIA

1678

01:08:01,420 --> 01:07:57,310

man a lot of those people and turns out

1679

01:08:04,190 --> 01:08:01,430

they had retired years before in fact

1680

01:08:06,200 --> 01:08:04,200

McCasland who is the Air Force Research

1681

01:08:07,940 --> 01:08:06,210

Lab in general one of the one of the

1682

01:08:09,710 --> 01:08:07,950

first few people that Tom DeLonge and

1683

01:08:12,769 --> 01:08:09,720

his name came out in the Podesta emails

1684

01:08:16,939 --> 01:08:12,779

the wiki leaks that Neal McCasland write

1685

01:08:20,390 --> 01:08:16,949

clearly a high-ranking guy is supposedly

1686

01:08:22,939 --> 01:08:20,400

one of those that I think Rob Weiss of

1687

01:08:25,640 --> 01:08:22,949

Lockheed kind of made the connections

1688

01:08:28,099 --> 01:08:25,650

that got Tom DeLonge into neo McCasland

1689

01:08:29,930 --> 01:08:28,109

and he calls into general and then there

1690

01:08:32,269 --> 01:08:29,940

was the general Kerry who was with the

1691

01:08:36,680 --> 01:08:32,279

Space Command but these guys had both

1692

01:08:38,749 --> 01:08:36,690

retired 2-3 years before so why would

1693

01:08:40,760 --> 01:08:38,759

you be connecting him now with retired

1694

01:08:42,769 --> 01:08:40,770

people so I don't know whether that's

1695

01:08:44,120 --> 01:08:42,779

just know I know I'm sure how to make

1696

01:08:45,649 --> 01:08:44,130

that out but if you wanted to get in

1697

01:08:46,879 --> 01:08:45,659

good with people inside the government

1698

01:08:49,729 --> 01:08:46,889

now you think you wouldn't go to guys

1699

01:08:51,950 --> 01:08:49,739

who were retired two years ago mmm but

1700

01:08:53,769 --> 01:08:51,960

there but it seems to me all of them are

1701

01:08:55,490 --> 01:08:53,779

now taking roles in industry

1702

01:08:58,399 --> 01:08:55,500

representing companies that have

1703

01:08:59,660 --> 01:08:58,409

contracts back with the same agencies or

1704

01:09:00,919 --> 01:08:59,670

the same departments that they used to

1705

01:09:02,930 --> 01:09:00,929

work with of course that's not an

1706

01:09:04,729 --> 01:09:02,940

uncommon thing you hear that a lot that

1707

01:09:06,169 --> 01:09:04,739

people people resigned from some

1708

01:09:08,269 --> 01:09:06,179

position in the military and immediately

1709

01:09:09,709 --> 01:09:08,279

become a consultant or go to work for a

1710

01:09:11,990 --> 01:09:09,719

company that they used to have contracts

1711

01:09:15,740 --> 01:09:12,000

with and it may not be a bad thing I

1712

01:09:17,180 --> 01:09:15,750

mean I don't so far at this point I some

1713

01:09:19,579 --> 01:09:17,190

of the things that the law long had

1714

01:09:20,780 --> 01:09:19,589

wanted to do if you read the WikiLeaks

1715

01:09:23,209 --> 01:09:20,790

emails and some of the things that

1716

01:09:24,910 --> 01:09:23,219

McCaslin is suggested you know STEM

1717

01:09:27,620 --> 01:09:24,920

science technology engineering math

1718

01:09:29,570 --> 01:09:27,630

those are all good things and there's a

1719

01:09:31,430 --> 01:09:29,580

valid point in some of the materials

1720

01:09:32,990 --> 01:09:31,440

some of the things that I wrote that

1721

01:09:35,930 --> 01:09:33,000

suggested there are a lot of people even

1722

01:09:38,269 --> 01:09:35,940

at Lockheed back in 2015 I think it was

1723

01:09:40,760 --> 01:09:38,279

there was a huge substantial number of

1724

01:09:42,890 --> 01:09:40,770

the people that were about to retire and

1725

01:09:44,030 --> 01:09:42,900

you can see the brain drain suddenly if

1726

01:09:46,430 --> 01:09:44,040

you have a whole lot of people who are

1727

01:09:48,470 --> 01:09:46,440

working with you suddenly retiring you

1728

01:09:50,749 --> 01:09:48,480

need to fill those seats and bring in

1729

01:09:52,579 --> 01:09:50,759

people and by like too long even made

1730

01:09:54,680 --> 01:09:52,589

the comment you know that something to

1731

01:09:56,090 --> 01:09:54,690

the effect of no a lot of new kids

1732

01:09:57,860 --> 01:09:56,100

coming out of school today they want to

1733

01:09:59,270 --> 01:09:57,870

work for they want to work for Google or

1734

01:10:02,270 --> 01:09:59,280

Amazon they don't want to go to work for

1735

01:10:03,530 --> 01:10:02,280

some secret area 51 place where you

1736

01:10:05,540 --> 01:10:03,540

can't talk about anything that you do

1737

01:10:07,459 --> 01:10:05,550

and your life will come shattered so how

1738

01:10:09,320 --> 01:10:07,469

do you get those good brains come in and

1739

01:10:13,399 --> 01:10:09,330

I it's a valid point you know it's a

1740

01:10:14,450 --> 01:10:13,409

valid point so but but I don't know it

1741

01:10:18,070 --> 01:10:14,460

just

1742

01:10:20,420 --> 01:10:18,080

this point I don't know what the

1743

01:10:22,520 --> 01:10:20,430

somewhere ISM there's some tied to the

1744

01:10:23,930 --> 01:10:22,530

office of Secretary of Defense behind a

1745

01:10:27,320 --> 01:10:23,940

lot of this behind the to the stars

1746

01:10:29,750 --> 01:10:27,330

Kurata arrangement that and not to me is

1747

01:10:33,740 --> 01:10:29,760

if you read the statement it's clear

1748

01:10:36,710 --> 01:10:33,750

that if to the tars excuse me to the

1749

01:10:39,650 --> 01:10:36,720

stars is a public or private company

1750

01:10:42,440 --> 01:10:39,660

doing their own thing getting materials

1751

01:10:44,540 --> 01:10:42,450
from Linda how or where they're

1752

01:10:47,330 --> 01:10:44,550
accessing metamaterials and crashed

1753

01:10:49,370 --> 01:10:47,340
things out there somewhere and they're

1754

01:10:51,260 --> 01:10:49,380
going to work an arrangement with the

1755

01:10:52,370 --> 01:10:51,270
army which is sounded like a valid you

1756

01:10:53,870 --> 01:10:52,380
know justifiable thing you know the

1757

01:10:55,640 --> 01:10:53,880
Army's got the facilities and the people

1758

01:11:01,060 --> 01:10:55,650
will provide the stuff and will share

1759

01:11:04,190 --> 01:11:01,070
the science but then why is the OSD a

1760

01:11:06,020 --> 01:11:04,200
second partner and that they are the

1761

01:11:08,690 --> 01:11:06,030
ones who can seemingly and it seemingly

1762

01:11:12,160 --> 01:11:08,700
is only in there to reinforce the army

1763

01:11:15,380 --> 01:11:12,170

to the army that the OSD can provide

1764

01:11:17,210 --> 01:11:15,390

some kind of information on the origin

1765

01:11:22,760 --> 01:11:17,220

ation of the materials now in the

1766

01:11:25,310 --> 01:11:22,770

possession of to the stars so there's

1767

01:11:27,110 --> 01:11:25,320

some connection back in here some tie-in

1768

01:11:29,320 --> 01:11:27,120

still with the government agency or

1769

01:11:31,940 --> 01:11:29,330

they'll with the whomever else which

1770

01:11:34,790 --> 01:11:31,950

directly or indirectly was kind of word

1771

01:11:37,840 --> 01:11:34,800

Lou Elizondo used to work and I think I

1772

01:11:40,160 --> 01:11:37,850

think was actually the same area that

1773

01:11:42,410 --> 01:11:40,170

Christopher mellon had been in back when

1774

01:11:46,430 --> 01:11:42,420

he was in politics you know those years

1775

01:11:49,700 --> 01:11:46,440

ago but but I don't you know there's

1776

01:11:52,340 --> 01:11:49,710

just I'm just asking questions that I

1777

01:11:54,800 --> 01:11:52,350

would like answers for yeah and honestly

1778

01:11:57,680 --> 01:11:54,810

honestly if they want people invest

1779

01:12:00,110 --> 01:11:57,690

money fine if I can be put my mind at

1780

01:12:02,210 --> 01:12:00,120

ease hum I buy some stock as well right

1781

01:12:05,600 --> 01:12:02,220

at least go to the shareholder meetings

1782

01:12:11,030 --> 01:12:05,610

and ask a few questions there but but

1783

01:12:13,730 --> 01:12:11,040

but it's there it is a confusing part of

1784

01:12:15,110 --> 01:12:13,740

TT sa a lot of people are saying you

1785

01:12:18,200 --> 01:12:15,120

know I don't understand you know their

1786

01:12:21,350 --> 01:12:18,210

entertainment and and you know what is

1787

01:12:23,720 --> 01:12:21,360

their drive to make money and then on

1788

01:12:26,000 --> 01:12:23,730

the other hand you know Alejandro will

1789

01:12:27,720 --> 01:12:26,010

say you know something well you know

1790

01:12:29,280 --> 01:12:27,730

they got a fund the

1791

01:12:30,479 --> 01:12:29,290

the work they're doing you know I mean

1792

01:12:34,590 --> 01:12:30,489

there's there's people that are doing

1793

01:12:37,380 --> 01:12:34,600

serious work so what are your thoughts

1794

01:12:39,120 --> 01:12:37,390

on the the different segments of TTS a

1795

01:12:44,550 --> 01:12:39,130

there's think there's three separate

1796

01:12:46,620 --> 01:12:44,560

components to it well as I one of the

1797

01:12:49,920 --> 01:12:46,630

points that I mentioned was I could in a

1798

01:12:53,010 --> 01:12:49,930

way I can certainly understand producing

1799

01:12:54,450 --> 01:12:53,020

a television series and it touches on

1800

01:12:56,220 --> 01:12:54,460

this thing you know the project Bluebook

1801

01:12:58,170 --> 01:12:56,230

television series although a lot of its

1802

01:12:59,760 --> 01:12:58,180

kind of fictionalized but it's

1803

01:13:02,729 --> 01:12:59,770

interesting people watch it I was

1804

01:13:06,060 --> 01:13:02,739

reading an article earlier that showed

1805

01:13:08,220 --> 01:13:06,070

the ratings for ancient aliens and the

1806

01:13:09,930 --> 01:13:08,230

over-40 crowd and I'm like yes so

1807

01:13:12,150 --> 01:13:09,940

everybody I don't care what anybody says

1808

01:13:15,900 --> 01:13:12,160

Martin everybody's interested in UFOs

1809

01:13:17,610 --> 01:13:15,910

just because of the possibilities so as

1810

01:13:19,470 --> 01:13:17,620

far as having an entertainment side and

1811

01:13:21,900 --> 01:13:19,480

doing a program on unidentified which

1812

01:13:23,210 --> 01:13:21,910

may talk to real people there's money to

1813

01:13:25,680 --> 01:13:23,220

be made

1814

01:13:27,000 --> 01:13:25,690

certainly it's gonna be the easiest way

1815

01:13:28,860 --> 01:13:27,010

to make money initially if you can get

1816

01:13:30,510 --> 01:13:28,870

them to get the program going getting

1817

01:13:32,130 --> 01:13:30,520

contracts behind the scenes trying to

1818

01:13:33,840 --> 01:13:32,140

get people to invest you know of course

1819

01:13:35,580 --> 01:13:33,850

I don't know what the inner workings or

1820

01:13:36,900 --> 01:13:35,590

the the background things that they're

1821

01:13:39,000 --> 01:13:36,910

doing if you looked at some of the

1822

01:13:41,100 --> 01:13:39,010

people that are on their board you know

1823

01:13:43,020 --> 01:13:41,110

they're paying to hire a new person

1824

01:13:46,260 --> 01:13:43,030

paying them sixty sixty five thousand

1825

01:13:47,700 --> 01:13:46,270

dollars a year to do something so I

1826

01:13:50,340 --> 01:13:47,710

guess they've got money from somewhere

1827

01:13:52,530 --> 01:13:50,350

and from what I understand or have been

1828

01:13:55,020 --> 01:13:52,540

read or seen you know they and Tom

1829

01:13:56,820 --> 01:13:55,030

DeLonge invested a big chunk of change

1830

01:13:59,460 --> 01:13:56,830

at the beginning and they're obliged to

1831

01:14:00,840 --> 01:13:59,470

repay that at some point so I can

1832

01:14:02,729 --> 01:14:00,850

certainly understand though at this

1833

01:14:04,200 --> 01:14:02,739

stage if you you know if you're these

1834

01:14:06,690 --> 01:14:04,210

people who've got a lot of inside

1835

01:14:08,460 --> 01:14:06,700

connections just like those generals who

1836

01:14:10,320 --> 01:14:08,470

retire and immediately go work as a

1837

01:14:12,479 --> 01:14:10,330

consultant for another military

1838

01:14:13,800 --> 01:14:12,489

industrial place that used to have

1839

01:14:15,060 --> 01:14:13,810

contracts moving them back at that you

1840

01:14:16,320 --> 01:14:15,070

know well they're gonna know people if

1841

01:14:19,590 --> 01:14:16,330

you pick up the phone people will answer

1842

01:14:21,510 --> 01:14:19,600

so I really don't have you know it's

1843

01:14:22,710 --> 01:14:21,520

they're a company it's their company and

1844

01:14:24,750 --> 01:14:22,720

if you know at the end of the day

1845

01:14:26,160 --> 01:14:24,760

they're entitled to do what they wanted

1846

01:14:27,780 --> 01:14:26,170

and get the funding that they can and

1847

01:14:29,460 --> 01:14:27,790

you know you wish them well maybe

1848

01:14:31,740 --> 01:14:29,470

someday you will all be flying around in

1849

01:14:33,240 --> 01:14:31,750

a tic-tac if they reverse engineer one

1850

01:14:36,510 --> 01:14:33,250

other and that would be great I mean I'm

1851
01:14:37,590 --> 01:14:36,520
not gonna complain you know but at the

1852
01:14:41,190 --> 01:14:37,600
same time it

1853
01:14:41,370 --> 01:14:41,200
I guess the impression people got when

1854
01:14:44,209 --> 01:14:41,380
they

1855
01:14:46,979 --> 01:14:44,219
first appeared on the stage and at least

1856
01:14:48,660 --> 01:14:46,989
many of us and I think maybe mistakenly

1857
01:14:51,750 --> 01:14:48,670
those of us out here who had an interest

1858
01:14:54,780 --> 01:14:51,760
in this for a long time saw this as some

1859
01:14:55,919 --> 01:14:54,790
type of disclosure or revelation they're

1860
01:14:59,310 --> 01:14:55,929
coming out here and they're going to

1861
01:15:01,340 --> 01:14:59,320
validate interest in this phenomenon and

1862
01:15:03,629 --> 01:15:01,350
you really wouldn't anticipate that they

1863
01:15:05,879 --> 01:15:03,639

might watch suddenly turn around and

1864

01:15:08,340 --> 01:15:05,889

become another part of the military

1865

01:15:10,470 --> 01:15:08,350

industrial complex and get contracts

1866

01:15:12,510 --> 01:15:10,480

back with you the Army or else that they

1867

01:15:14,160 --> 01:15:12,520

can't talk about it's like the Navy

1868

01:15:15,510 --> 01:15:14,170

coming out and saying they're going to

1869

01:15:18,660 --> 01:15:15,520

have their pilots be much more open

1870

01:15:20,760 --> 01:15:18,670

about reporting unidentified vehicles or

1871

01:15:23,280 --> 01:15:20,770

unidentified aircraft but they're not

1872

01:15:24,840 --> 01:15:23,290

going to be open to telling us I guess

1873

01:15:27,629 --> 01:15:24,850

if you send an f.y.i request you might

1874

01:15:29,970 --> 01:15:27,639

still get nothing but I don't know so

1875

01:15:32,970 --> 01:15:29,980

that's really the part that I think I

1876

01:15:37,770 --> 01:15:32,980

wrote the least amount on under which

1877

01:15:41,430 --> 01:15:37,780

the Stars Academy what's you know what

1878

01:15:42,990 --> 01:15:41,440

was the goal although to kid huh I'll

1879

01:15:45,930 --> 01:15:43,000

even say this from an experience I had

1880

01:15:47,879 --> 01:15:45,940

last week you know the whole idea of the

1881

01:15:49,830 --> 01:15:47,889

bureaucracy you know was on to even

1882

01:15:51,720 --> 01:15:49,840

claiming that you know getting involved

1883

01:15:53,070 --> 01:15:51,730

in the bureaucracy and I get it when you

1884

01:15:55,140 --> 01:15:53,080

can't tell people what you're working on

1885

01:15:57,149 --> 01:15:55,150

which is how you need to support the

1886

01:15:58,500 --> 01:15:57,159

budget that you've got by explaining how

1887

01:15:59,640 --> 01:15:58,510

important your work is but you can't

1888

01:16:03,840 --> 01:15:59,650

tell them because it's a classified

1889

01:16:05,189 --> 01:16:03,850

project or special prax s it's tough to

1890

01:16:06,740 --> 01:16:05,199

keep the budget money coming and the

1891

01:16:09,990 --> 01:16:06,750

bureaucracy tends to want a barrier you

1892

01:16:12,479 --> 01:16:10,000

take up the phone and try to call a

1893

01:16:14,820 --> 01:16:12,489

congressman and just say I'd like to ask

1894

01:16:17,100 --> 01:16:14,830

a question about this and and the little

1895

01:16:21,060 --> 01:16:17,110

girl who answers the phone says well do

1896

01:16:24,419 --> 01:16:21,070

you represent a group you're like no I'm

1897

01:16:25,770 --> 01:16:24,429

just a civilian out here and but I'd

1898

01:16:26,970 --> 01:16:25,780

like to ask some questions well you know

1899

01:16:31,020 --> 01:16:26,980

we have a lot of the people on the phone

1900

01:16:32,520 --> 01:16:31,030

click and you realize you know just the

1901

01:16:34,169 --> 01:16:32,530

simple bureaucracy of getting through

1902

01:16:35,910 --> 01:16:34,179

the person who the girl who's answering

1903

01:16:38,820 --> 01:16:35,920

the phone and is just answering them

1904

01:16:41,580 --> 01:16:38,830

right and left and first question is do

1905

01:16:43,379 --> 01:16:41,590

you represent a group which tells you

1906

01:16:44,910 --> 01:16:43,389

right there if you represent a huge

1907

01:16:46,680 --> 01:16:44,920

group you have a far better chance of

1908

01:16:48,660 --> 01:16:46,690

getting some kind of a hearing or an

1909

01:16:51,419 --> 01:16:48,670

audience or at least getting through so

1910

01:16:52,770 --> 01:16:51,429

the simple bureaucracy if can you your

1911

01:16:54,450 --> 01:16:52,780

congressman these days

1912

01:16:54,870 --> 01:16:54,460

makes me think I can certainly

1913

01:16:58,290 --> 01:16:54,880

understand

1914

01:17:01,050 --> 01:16:58,300

and perhaps some of luzon doze position

1915

01:17:02,730 --> 01:17:01,060

that boy trying to bring up UFOs to

1916

01:17:04,170 --> 01:17:02,740

anybody on the inside but you can't tell

1917

01:17:05,760 --> 01:17:04,180

them what the deal is because it's a

1918

01:17:07,830 --> 01:17:05,770

special project or it's you know

1919

01:17:11,250 --> 01:17:07,840

hush-hush yeah and your buds just

1920

01:17:14,100 --> 01:17:11,260

getting cut right and left as I go ahead

1921

01:17:17,070 --> 01:17:14,110

one of the things I want to mention is

1922

01:17:22,170 --> 01:17:17,080

because of the timeline on this whole

1923

01:17:27,420 --> 01:17:22,180

thing everyone you know brings up over

1924

01:17:29,400 --> 01:17:27,430

and over about the December 16 2017 New

1925

01:17:30,960 --> 01:17:29,410

York Times article you know once that

1926

01:17:32,580 --> 01:17:30,970

was released you know kind of changed

1927

01:17:36,770 --> 01:17:32,590

everything and the videos and all that

1928

01:17:40,440 --> 01:17:36,780

but if you recall it was back in October

1929

01:17:42,780 --> 01:17:40,450

when Tom DeLonge had that live stream

1930

01:17:44,910 --> 01:17:42,790

where he basically you know came out

1931

01:17:47,940 --> 01:17:44,920

with about everything that that came out

1932

01:17:50,880 --> 01:17:47,950

in the New York Times article yeah it

1933

01:17:53,760 --> 01:17:50,890

just took the you know the New York

1934

01:17:57,990 --> 01:17:53,770

Times to propel this thing into you know

1935

01:18:00,930 --> 01:17:58,000

into motion but but they they initiated

1936

01:18:02,280 --> 01:18:00,940

it you know back then well and that

1937

01:18:04,080 --> 01:18:02,290

that's kind of a curious thing too

1938

01:18:06,690 --> 01:18:04,090

because you're right when it came out in

1939

01:18:09,540 --> 01:18:06,700

October if I'm not mistaken there's new

1940

01:18:11,700 --> 01:18:09,550

Elizondo sitting on stage with all the

1941

01:18:14,220 --> 01:18:11,710

rest of them and I remember thinking

1942

01:18:15,930 --> 01:18:14,230

these are some heavy hitting high

1943

01:18:18,360 --> 01:18:15,940

intellect people sitting behind Tom

1944

01:18:23,610 --> 01:18:18,370

DeLonge so how does how to figure that

1945

01:18:26,190 --> 01:18:23,620

out but nobody really made huge

1946

01:18:28,080 --> 01:18:26,200

connections if I recall at that moment

1947

01:18:29,970 --> 01:18:28,090

to Louella Sandow and what his position

1948

01:18:31,740 --> 01:18:29,980

was and how he ended up there even

1949

01:18:34,040 --> 01:18:31,750

though Christopher Mellon was talking

1950

01:18:37,020 --> 01:18:34,050

about the Nimitz incidence even then

1951

01:18:40,020 --> 01:18:37,030

then when the New York Times article

1952

01:18:43,620 --> 01:18:40,030

comes out and you realize it really was

1953

01:18:45,600 --> 01:18:43,630

more of a marketing ploy I think than an

1954

01:18:47,820 --> 01:18:45,610

expose because most of the time

1955

01:18:49,560 --> 01:18:47,830

newspapers they want to be the first one

1956

01:18:52,110 --> 01:18:49,570

on that story before anybody else knows

1957

01:18:54,480 --> 01:18:52,120

but in this particular case if I'm I

1958

01:18:59,160 --> 01:18:54,490

think it was the New York Times in the

1959

01:19:00,510 --> 01:18:59,170

Washington Post and it was the other one

1960

01:19:01,950 --> 01:19:00,520

that came out maybe the next day but

1961

01:19:04,800 --> 01:19:01,960

they all seemed to come out with the

1962

01:19:06,120 --> 01:19:04,810

same older story within a day or so of

1963

01:19:08,609 --> 01:19:06,130

each other or maybe on the same day

1964

01:19:10,379 --> 01:19:08,619

which sounded to me like

1965

01:19:12,989 --> 01:19:10,389

somebody was making sure this story was

1966

01:19:14,369 --> 01:19:12,999

being planted in these locations so that

1967

01:19:16,859 --> 01:19:14,379

it would all be released at the same

1968

01:19:18,209 --> 01:19:16,869

time I'm a big publicity thing and of

1969

01:19:19,909 --> 01:19:18,219

course at the time it was making the

1970

01:19:22,139 --> 01:19:19,919

most out of Lou Elizondo and and

1971

01:19:25,469 --> 01:19:22,149

publicizing the a tip Harry Reid

1972

01:19:27,149 --> 01:19:25,479

contract which you know I guess that's

1973

01:19:29,339 --> 01:19:27,159

you know a month or two later you have

1974

01:19:31,139 --> 01:19:29,349

another huge media push and you keep

1975

01:19:33,179 --> 01:19:31,149

everything hot and turning around you

1976

01:19:35,339 --> 01:19:33,189

know turning over in the news it was

1977

01:19:37,169 --> 01:19:35,349

well done they sure got the book I got

1978

01:19:39,419 --> 01:19:37,179

the publicity out of it that's right and

1979

01:19:41,369 --> 01:19:39,429

uh you know and I think a lot of people

1980

01:19:44,159 --> 01:19:41,379

wonder now after then after the last

1981

01:19:45,899 --> 01:19:44,169

episodes of unidentified things seem to

1982

01:19:47,429 --> 01:19:45,909

be kind of quiet at the moment I guess

1983

01:19:50,879 --> 01:19:47,439

except for the army krodha that was

1984

01:19:53,009 --> 01:19:50,889

released not too long ago yeah so what's

1985

01:19:55,169 --> 01:19:53,019

gonna be the next how do you keep your

1986

01:19:59,159 --> 01:19:55,179

products hot right you keep your

1987

01:20:02,129 --> 01:19:59,169

publicity going I don't know cause Chris

1988

01:20:03,659 --> 01:20:02,139

and one's actually coming in now it's

1989

01:20:07,619 --> 01:20:03,669

going to be screened

1990

01:20:11,850 --> 01:20:07,629

so hopefully yep it's being screen right

1991

01:20:15,959 --> 01:20:11,860

now but you know there's a I do want to

1992

01:20:17,609 --> 01:20:15,969

talk you know after the collar about one

1993

01:20:22,379 --> 01:20:17,619

of the things that I was thinking about

1994

01:20:26,009 --> 01:20:22,389

is the unidentified you know whose pitch

1995

01:20:28,859 --> 01:20:26,019

was that and did they approach you know

1996

01:20:31,919 --> 01:20:28,869

did they approach T TSA or was it the

1997

01:20:34,379 --> 01:20:31,929

other way around you know all right I'm

1998

01:20:36,060 --> 01:20:34,389

gonna take this call now hang on just a

1999

01:20:41,959 --> 01:20:36,070

second we have another one coming in two

2000

01:20:47,929 --> 01:20:45,119

eight five five four seven two five four

2001
01:20:50,310 --> 01:20:47,939
eight three and right now we have

2002
01:20:54,869 --> 01:20:50,320
Stephen calling from Washington

2003
01:20:56,699 --> 01:20:54,879
welcome to the show Steven hi guys

2004
01:20:59,040 --> 01:20:56,709
that's great show it's a really

2005
01:21:01,169 --> 01:20:59,050
interesting show um I wanted to add a

2006
01:21:05,759 --> 01:21:01,179
question to your list of questions and

2007
01:21:12,540 --> 01:21:05,769
that is um you know the whole event the

2008
01:21:14,850 --> 01:21:12,550
whole limit event the fact that they can

2009
01:21:19,649 --> 01:21:14,860
you hear me okay yeah we're sadder yes

2010
01:21:21,540 --> 01:21:19,659
okay so so they're out there and Kevin

2011
01:21:22,440 --> 01:21:21,550
they said that they have been tracking

2012
01:21:25,110 --> 01:21:22,450
that thing on

2013
01:21:25,740 --> 01:21:25,120

radar for several days that they have

2014

01:21:28,800 --> 01:21:25,750

gotten it

2015

01:21:31,200 --> 01:21:28,810

several times and they finally retask

2016

01:21:35,540 --> 01:21:31,210

them jets to go have a look and the Jets

2017

01:21:38,100 --> 01:21:35,550

got video footage of the UFOs and the

2018

01:21:39,660 --> 01:21:38,110

thing I you know you want to add a

2019

01:21:42,540 --> 01:21:39,670

really good question to you list the

2020

01:21:44,520 --> 01:21:42,550

questions if so they wouldn't have

2021

01:21:45,900 --> 01:21:44,530

gotten on the phone to the Pentagon

2022

01:21:48,710 --> 01:21:45,910

right away and said there's something

2023

01:21:52,680 --> 01:21:48,720

that can fly circles around us out here

2024

01:21:55,560 --> 01:21:52,690

and and I mean it seems like they would

2025

01:22:00,480 --> 01:21:55,570

got retasked at that moment to

2026

01:22:02,430 --> 01:22:00,490

investigate further and I don't I mean

2027

01:22:09,030 --> 01:22:02,440

that that part of the story is really

2028

01:22:11,220 --> 01:22:09,040

fishy to me that that that that that

2029

01:22:13,740 --> 01:22:11,230

didn't immediately stop and go back to

2030

01:22:15,930 --> 01:22:13,750

Washington and it you know a lot of

2031

01:22:17,520 --> 01:22:15,940

things click but all these people that I

2032

01:22:20,250 --> 01:22:17,530

hear Kevin day and all the people the

2033

01:22:23,370 --> 01:22:20,260

witnesses for Nimitz I never hear any of

2034

01:22:26,730 --> 01:22:23,380

them mention you know we got we got

2035

01:22:29,460 --> 01:22:26,740

retasked we we were said to look at it

2036

01:22:30,900 --> 01:22:29,470

further or anything like that and I was

2037

01:22:36,530 --> 01:22:30,910

wondering if you could just comment on

2038

01:22:40,080 --> 01:22:36,540

that thanks to you and go ahead that's

2039

01:22:41,670 --> 01:22:40,090

exactly the kind of observation of

2040

01:22:44,460 --> 01:22:41,680

course led me eventually to all these

2041

01:22:45,780 --> 01:22:44,470

questions that I had because it came up

2042

01:22:49,590 --> 01:22:45,790

in a conversation I was having the other

2043

01:22:51,870 --> 01:22:49,600

day that if even if whoever it was that

2044

01:22:55,380 --> 01:22:51,880

flew in as that I think the term has

2045

01:22:56,790 --> 01:22:55,390

been that were cod2 or coded and the

2046

01:22:58,250 --> 01:22:56,800

guys that flew in on the plane and were

2047

01:23:01,860 --> 01:22:58,260

supposedly confiscated all the data

2048

01:23:05,370 --> 01:23:01,870

how'd they hear about did somebody on

2049

01:23:06,600 --> 01:23:05,380

the ships call the Pentagon or call back

2050

01:23:08,610 --> 01:23:06,610

to somewhere to say hey we have some

2051

01:23:10,770 --> 01:23:08,620

strange things happening or was all of

2052

01:23:12,870 --> 01:23:10,780

this being monitored over the you know

2053

01:23:15,180 --> 01:23:12,880

the secure internet or Internet

2054

01:23:17,280 --> 01:23:15,190

communications so somebody had to find

2055

01:23:20,820 --> 01:23:17,290

out about it to be flown out there to

2056

01:23:23,040 --> 01:23:20,830

the ships but that's yeah and Kevin day

2057

01:23:24,180 --> 01:23:23,050

has made the point that for the most

2058

01:23:25,980 --> 01:23:24,190

part when he was first picking these

2059

01:23:27,420 --> 01:23:25,990

things up on radar they were staying out

2060

01:23:29,070 --> 01:23:27,430

of the way of the carrier group they

2061

01:23:30,480 --> 01:23:29,080

didn't seem to show any interest in them

2062

01:23:33,170 --> 01:23:30,490

and they were just passing by slowly

2063

01:23:35,790 --> 01:23:33,180

from the distances and it wasn't a

2064

01:23:36,390 --> 01:23:35,800

important thing until they really began

2065

01:23:39,680 --> 01:23:36,400

to do the

2066

01:23:42,330 --> 01:23:39,690

the flights the air defense exercises so

2067

01:23:43,620 --> 01:23:42,340

you know I mean I'd have to defer to

2068

01:23:44,729 --> 01:23:43,630

those guys who've done this all their

2069

01:23:46,709 --> 01:23:44,739

lives and have been out there to know

2070

01:23:48,149 --> 01:23:46,719

exactly how things end up you know do

2071

01:23:49,709 --> 01:23:48,159

you immediately tell the captain or is

2072

01:23:51,959 --> 01:23:49,719

it your job to look out for it and then

2073

01:23:54,300 --> 01:23:51,969

you pass it on up when you can but I

2074

01:23:56,760 --> 01:23:54,310

agree you know at some point if I was

2075

01:23:59,609 --> 01:23:56,770

the captain of the ship and I've been

2076

01:24:01,490 --> 01:23:59,619

getting these strange things especially

2077

01:24:06,620 --> 01:24:01,500

if somebody actually had seen one I

2078

01:24:10,320 --> 01:24:06,630

agree with the caller why would you call

2079

01:24:14,070 --> 01:24:10,330

right as well not only did I mean they

2080

01:24:15,870 --> 01:24:14,080

had radar data and video footage at that

2081

01:24:18,089 --> 01:24:15,880

point so it's not like they would have

2082

01:24:21,209 --> 01:24:18,099

had to call Washington empty-handed and

2083

01:24:23,970 --> 01:24:21,219

say what should we do there's something

2084

01:24:26,399 --> 01:24:23,980

flying circles around us what should we

2085

01:24:28,620 --> 01:24:26,409

do I've got you know radar data and film

2086

01:24:32,700 --> 01:24:28,630

and it just that part of the story to me

2087

01:24:37,320 --> 01:24:32,710

has just always been a real real problem

2088

01:24:38,850 --> 01:24:37,330

a real live disconnect yeah I kind of

2089

01:24:40,260 --> 01:24:38,860

agree I mean Kennedy has made the point

2090

01:24:42,359 --> 01:24:40,270

I think in a comedy state is somewhere

2091

01:24:44,160 --> 01:24:42,369

that after after I guess we're talking

2092

01:24:46,290 --> 01:24:44,170

the flavor incident that all those

2093

01:24:48,180 --> 01:24:46,300

pilots were flying around and on their

2094

01:24:51,120 --> 01:24:48,190

own tat you know tasking they were going

2095

01:24:52,830 --> 01:24:51,130

after these objects and you'd think but

2096

01:24:54,750 --> 01:24:52,840

by that you know after that first one

2097

01:24:56,339 --> 01:24:54,760

everybody turns her camera on I think he

2098

01:24:57,930 --> 01:24:56,349

would Paco charity mentioned that in his

2099

01:24:59,850 --> 01:24:57,940

article you know you turn the camera on

2100

01:25:01,439 --> 01:24:59,860

immediately you just leave the camera on

2101
01:25:04,560 --> 01:25:01,449
when you take off so you're filming

2102
01:25:08,070 --> 01:25:04,570
whatever you're filming there isn't

2103
01:25:09,600 --> 01:25:08,080
there is something that you know it goes

2104
01:25:10,830 --> 01:25:09,610
to the idea of who I would like the

2105
01:25:13,770 --> 01:25:10,840
caller saying why would you immediately

2106
01:25:16,169 --> 01:25:13,780
call back to somebody you know the Joint

2107
01:25:17,669 --> 01:25:16,179
Chiefs or anybody and say what what is

2108
01:25:19,470 --> 01:25:17,679
going on we've got these objects flying

2109
01:25:21,240 --> 01:25:19,480
around out all over the place my first

2110
01:25:23,310 --> 01:25:21,250
thought was you would immediately have

2111
01:25:25,410 --> 01:25:23,320
them shift some satellites straight over

2112
01:25:28,410 --> 01:25:25,420
you looking right down at the strong

2113
01:25:29,939 --> 01:25:28,420

group to see all of this you would think

2114

01:25:33,089 --> 01:25:29,949

they'd have some of their ability in

2115

01:25:35,370 --> 01:25:33,099

immediate and an immediate scenario this

2116

01:25:36,930 --> 01:25:35,380

is the odd thing though and I didn't

2117

01:25:40,379 --> 01:25:36,940

really go into this in my paper but the

2118

01:25:43,770 --> 01:25:40,389

point that that Kevin day says after the

2119

01:25:45,629 --> 01:25:43,780

object zipped away the radar of the ship

2120

01:25:47,939 --> 01:25:45,639

told him hey captain it's sitting at

2121

01:25:49,229 --> 01:25:47,949

your cat point and of course a lot of

2122

01:25:49,860 --> 01:25:49,239

people have wondered how would it know

2123

01:25:52,650 --> 01:25:49,870

where his cat

2124

01:25:55,020 --> 01:25:52,660

point was in the last interview with

2125

01:25:56,850 --> 01:25:55,030

Paco Chia Ricci he's talking about the

2126
01:25:58,380 --> 01:25:56,860
Fleur video that was shot by I believed

2127
01:26:02,400 --> 01:25:58,390
it was Chad Underwood the flight that

2128
01:26:04,650 --> 01:26:02,410
went out after after flavor did and he

2129
01:26:07,320 --> 01:26:04,660
makes the comment that this thing was

2130
01:26:09,360 --> 01:26:07,330
sitting at his cat point so as they're

2131
01:26:11,490 --> 01:26:09,370
flying towards the cat point straight at

2132
01:26:14,190 --> 01:26:11,500
it where they're 80 Fleur they're

2133
01:26:16,020 --> 01:26:14,200
videoing this thing I'm like I don't

2134
01:26:17,850 --> 01:26:16,030
know where he got that mad

2135
01:26:20,040 --> 01:26:17,860
that stated and it wasn't in his

2136
01:26:21,810 --> 01:26:20,050
previous articles that the Fleur video

2137
01:26:24,600 --> 01:26:21,820
were seeing was something sitting at the

2138
01:26:27,180 --> 01:26:24,610

cat point but I'll make the comment too

2139

01:26:28,830 --> 01:26:27,190

that if if you look at the speed of the

2140

01:26:30,180 --> 01:26:28,840

plane and I did just a little research

2141

01:26:35,240 --> 01:26:30,190

on this so I don't claim to be an expert

2142

01:26:38,130 --> 01:26:35,250

but the speed that these f-18s are if a

2143

01:26:41,460 --> 01:26:38,140

a-teams fly you know they land at around

2144

01:26:43,950 --> 01:26:41,470

I think it was 150 knots so not super

2145

01:26:46,620 --> 01:26:43,960

fast when you're landing but the video

2146

01:26:49,490 --> 01:26:46,630

floor the Fleur video shows the plane

2147

01:26:51,960 --> 01:26:49,500

going it right at about 250 knots

2148

01:26:54,420 --> 01:26:51,970

straight at whatever this thing is that

2149

01:26:56,340 --> 01:26:54,430

it's supposedly filming but that's not

2150

01:26:57,570 --> 01:26:56,350

very fast no it's not and if you're

2151

01:26:59,760 --> 01:26:57,580

trying to chase if you're trying to

2152

01:27:02,730 --> 01:26:59,770

chase down an object that you've got in

2153

01:27:04,560 --> 01:27:02,740

both video mode and infrared mode and in

2154

01:27:06,210 --> 01:27:04,570

one case it's in video mode on one power

2155

01:27:10,130 --> 01:27:06,220

magnification I'm thinking couldn't you

2156

01:27:14,130 --> 01:27:10,140

see the thing why would you be just

2157

01:27:16,650 --> 01:27:14,140

calmly flying along at 250 knots if

2158

01:27:18,210 --> 01:27:16,660

you're supposedly chasing a tic-tac

2159

01:27:19,800 --> 01:27:18,220

something you've never seen before I

2160

01:27:21,990 --> 01:27:19,810

would think you'd kick in afterburners

2161

01:27:24,210 --> 01:27:22,000

and you would try to catch up to it as

2162

01:27:25,860 --> 01:27:24,220

fast as you could so now I don't know

2163

01:27:27,840 --> 01:27:25,870

it's another question and what the

2164

01:27:29,790 --> 01:27:27,850

caller of points are well made you know

2165

01:27:31,770 --> 01:27:29,800

that there's some explanations that we

2166

01:27:34,050 --> 01:27:31,780

should be getting that I can't seem to

2167

01:27:38,610 --> 01:27:34,060

make them add up thanks for the call

2168

01:27:40,500 --> 01:27:38,620

Stephen all right all right thank you

2169

01:27:43,080 --> 01:27:40,510

we have another caller mouse we'll take

2170

01:27:47,010 --> 01:27:43,090

that now we have Andy calling from

2171

01:27:50,730 --> 01:27:47,020

Connecticut welcome to the show Andy hi

2172

01:27:52,950 --> 01:27:50,740

guys my question for Chris is uh you

2173

01:27:55,380 --> 01:27:52,960

know I have not read his paper at this

2174

01:27:58,710 --> 01:27:55,390

point of this listen of the show but uh

2175

01:28:02,610 --> 01:27:58,720

is he essentially saying that he's

2176
01:28:03,290 --> 01:28:02,620
calling into question you know the fact

2177
01:28:11,120 --> 01:28:03,300
of

2178
01:28:14,650 --> 01:28:11,130
it's perhaps a an orchestrated effort on

2179
01:28:18,410 --> 01:28:14,660
the Navy's behalf the slowly sponging

2180
01:28:21,650 --> 01:28:18,420
the UFO information to the public and

2181
01:28:24,800 --> 01:28:21,660
that combine the cheating essays efforts

2182
01:28:28,640 --> 01:28:24,810
that this isn't just one one huge

2183
01:28:30,830 --> 01:28:28,650
orchestrated undertaking on behalf of

2184
01:28:33,230 --> 01:28:30,840
the Department of Defense did you just

2185
01:28:37,750 --> 01:28:33,240
slowly introduce the public to the idea

2186
01:28:40,400 --> 01:28:37,760
of the extra-terrestrial present and

2187
01:28:42,410 --> 01:28:40,410
good show with all these guys I'll take

2188
01:28:45,380 --> 01:28:42,420

your answer out there thank you thank

2189

01:28:50,530 --> 01:28:45,390

you Andy and I knew somebody was gonna

2190

01:28:53,750 --> 01:28:50,540

ask me what I think and you know and I

2191

01:28:59,300 --> 01:28:53,760

still would say because I've talked to

2192

01:29:02,450 --> 01:28:59,310

my friends that at this stage I'm still

2193

01:29:04,910 --> 01:29:02,460

strongly leaning towards the nimitz

2194

01:29:07,430 --> 01:29:04,920

incidents the Tic Tac incident favors

2195

01:29:09,740 --> 01:29:07,440

seeing this thing Kevin day all of these

2196

01:29:12,980 --> 01:29:09,750

things these guys saw that there was

2197

01:29:15,260 --> 01:29:12,990

actually some type of tic-tac object out

2198

01:29:17,060 --> 01:29:15,270

there if only because you look at their

2199

01:29:18,830 --> 01:29:17,070

faces when they're talking about it you

2200

01:29:20,600 --> 01:29:18,840

look at the way they talk especially

2201

01:29:23,480 --> 01:29:20,610

Kevin day who's a good writer if anybody

2202

01:29:26,660 --> 01:29:23,490

has a registry this year it's an

2203

01:29:29,300 --> 01:29:26,670

intriguing story and you can tell I mean

2204

01:29:32,120 --> 01:29:29,310

this changed something in this in his

2205

01:29:34,580 --> 01:29:32,130

attitude and no doubt flavors as well so

2206

01:29:37,670 --> 01:29:34,590

I do think at least I would say my

2207

01:29:39,770 --> 01:29:37,680

opinion as of the yeah I think the Tic

2208

01:29:43,580 --> 01:29:39,780

Tac incident that flavor describes

2209

01:29:47,150 --> 01:29:43,590

occurred I tend to think there was a lot

2210

01:29:50,000 --> 01:29:47,160

more out there there may be any number I

2211

01:29:53,960 --> 01:29:50,010

mean so far I think flavors describing

2212

01:29:55,610 --> 01:29:53,970

an encounter I have a feeling Cerf had

2213

01:29:58,280 --> 01:29:55,620

an encounter that may have been very

2214

01:30:01,160 --> 01:29:58,290

substantial one of his own the big huge

2215

01:30:02,570 --> 01:30:01,170

300-foot white thing then again and I

2216

01:30:05,870 --> 01:30:02,580

don't know how to explain this and maybe

2217

01:30:08,510 --> 01:30:05,880

Kevin day can his 2010 description of an

2218

01:30:11,630 --> 01:30:08,520

encounter and it's very odd because he

2219

01:30:15,260 --> 01:30:11,640

stipulates that it was a captain now an

2220

01:30:17,130 --> 01:30:15,270

admiral that's a good one so in 2010

2221

01:30:19,830 --> 01:30:17,140

he's stupid that's not favors for

2222

01:30:22,680 --> 01:30:19,840

tenho or Kurth who is Lieutenant Colonel

2223

01:30:24,330 --> 01:30:22,690

I believe but he describes this incident

2224

01:30:27,360 --> 01:30:24,340

where the pilot encountered this thing

2225

01:30:29,160 --> 01:30:27,370

at 20,000 feet or so and the object shot

2226

01:30:32,010 --> 01:30:29,170

down into the water and the pilot flew

2227

01:30:33,300 --> 01:30:32,020

down followed it down and then when the

2228

01:30:34,950 --> 01:30:33,310

pilot flew off it came back up so I'm

2229

01:30:36,000 --> 01:30:34,960

like both so there's a third one and if

2230

01:30:39,210 --> 01:30:36,010

these things were going on over a

2231

01:30:41,580 --> 01:30:39,220

two-week period maybe there is more than

2232

01:30:44,820 --> 01:30:41,590

just this one but for the purposes that

2233

01:30:46,500 --> 01:30:44,830

whatever that purpose is it's best to

2234

01:30:49,110 --> 01:30:46,510

just encapsulate it and have one

2235

01:30:51,600 --> 01:30:49,120

cohesive incident that they can provide

2236

01:30:53,880 --> 01:30:51,610

flavor talking about and not have

2237

01:30:56,550 --> 01:30:53,890

everybody scattering around looking at

2238

01:31:00,060 --> 01:30:56,560

multitudes of other incidents I don't

2239

01:31:01,350 --> 01:31:00,070

know I think it's the idea that like you

2240

01:31:03,960 --> 01:31:01,360

like Martin like you ask you know why

2241

01:31:05,340 --> 01:31:03,970

the Navy and the response that seems to

2242

01:31:06,840 --> 01:31:05,350

have come out especially if you have an

2243

01:31:11,130 --> 01:31:06,850

O and I investigation of this thing

2244

01:31:12,510 --> 01:31:11,140

suggests maybe the Navy didn't know some

2245

01:31:13,980 --> 01:31:12,520

of the reactions that you get would

2246

01:31:15,810 --> 01:31:13,990

suggest that they didn't know that

2247

01:31:18,450 --> 01:31:15,820

suddenly looking you know housing how

2248

01:31:19,950 --> 01:31:18,460

asking for 38 or so other papers to be

2249

01:31:23,190 --> 01:31:19,960

written on what the future is gonna be

2250

01:31:25,640 --> 01:31:23,200

in 2050 are science so just real

2251

01:31:27,810 --> 01:31:25,650

interest in catching up to speed on

2252

01:31:29,940 --> 01:31:27,820

whatever technology or science you might

2253

01:31:32,160 --> 01:31:29,950

be aware of which almost sounds like the

2254

01:31:34,380 --> 01:31:32,170

Navy was shaken a little bit like what

2255

01:31:36,930 --> 01:31:34,390

they encountered out there but then

2256

01:31:40,950 --> 01:31:36,940

again I can certainly see you know the

2257

01:31:42,660 --> 01:31:40,960

cat pointing unless if it's if it's some

2258

01:31:43,920 --> 01:31:42,670

other intelligence they're monitoring

2259

01:31:45,330 --> 01:31:43,930

our calls and they know where the cat

2260

01:31:46,410 --> 01:31:45,340

points are and so they're gonna just sit

2261

01:31:49,110 --> 01:31:46,420

wait for our pilots to play

2262

01:31:51,120 --> 01:31:49,120

cat-and-mouse you know why would you

2263

01:31:53,220 --> 01:31:51,130

have objects monitor you know how would

2264

01:31:54,810 --> 01:31:53,230

they know so I don't know there are

2265

01:31:58,530 --> 01:31:54,820

aspects of this that I can see that make

2266

01:32:01,680 --> 01:31:58,540

me think maybe this is something we

2267

01:32:04,230 --> 01:32:01,690

already have but now we have to explain

2268

01:32:06,000 --> 01:32:04,240

how we got it and it's easier to claim

2269

01:32:07,920 --> 01:32:06,010

we're gonna study metamaterials and

2270

01:32:10,800 --> 01:32:07,930

reverse engineering poof

2271

01:32:12,750 --> 01:32:10,810

here's this tic-tac we built I don't

2272

01:32:14,520 --> 01:32:12,760

know because house you explained it what

2273

01:32:16,110 --> 01:32:14,530

if it really did come from some other

2274

01:32:17,730 --> 01:32:16,120

intelligence or some other information

2275

01:32:20,100 --> 01:32:17,740

you gained and you don't want to tell

2276

01:32:21,630 --> 01:32:20,110

people you know that you got this and

2277

01:32:24,900 --> 01:32:21,640

you had it for all these years and have

2278

01:32:26,910 --> 01:32:24,910

some people starting to dig down on you

2279

01:32:28,650 --> 01:32:26,920

you're covering your tail Ill can come

2280

01:32:31,149 --> 01:32:28,660

up with scenarios I honestly can't I can

2281

01:32:33,969 --> 01:32:31,159

see I can play out all sorts

2282

01:32:36,129 --> 01:32:33,979

theories of what this is but I don't

2283

01:32:40,179 --> 01:32:36,139

think I just I don't I don't think Kevin

2284

01:32:43,000 --> 01:32:40,189

day and braver and these guys are lying

2285

01:32:44,830 --> 01:32:43,010

let's put it that way yeah maybe maybe

2286

01:32:46,390 --> 01:32:44,840

there's a story they've been told uphold

2287

01:32:48,129 --> 01:32:46,400

and they're doing the best they can and

2288

01:32:50,319 --> 01:32:48,139

when you get the other parts that don't

2289

01:32:54,250 --> 01:32:50,329

hold together nobody answers those

2290

01:32:56,979 --> 01:32:54,260

questions hmm yeah we have a no no no

2291

01:33:00,399 --> 01:32:56,989

mouse we'll take that now we have a Greg

2292

01:33:02,709 --> 01:33:00,409

calling from where is he calling

2293

01:33:03,750 --> 01:33:02,719

Pennsylvania welcome to the show

2294

01:33:07,540 --> 01:33:03,760

spoilers

2295

01:33:09,479 --> 01:33:07,550

all right thanks okay I have no doubt

2296

01:33:12,129 --> 01:33:09,489

that your guest has great information

2297

01:33:15,489 --> 01:33:12,139

and but I got a couple things that are

2298

01:33:18,489 --> 01:33:15,499

hanging me up if Lou is that high which

2299

01:33:21,790 --> 01:33:18,499

is possible in the Pentagon why would he

2300

01:33:23,379 --> 01:33:21,800

be doing his own ops and if he's still

2301

01:33:25,659 --> 01:33:23,389

in the government that would mean like a

2302

01:33:27,629 --> 01:33:25,669

whole bunch of these other guys in TTS I

2303

01:33:30,250 --> 01:33:27,639

still Arps that's where they came from

2304

01:33:32,770 --> 01:33:30,260

there would be a whole lot of money that

2305

01:33:34,239 --> 01:33:32,780

DoD is putting out for what exactly

2306

01:33:36,609 --> 01:33:34,249

because there was nothing going on in

2307

01:33:41,979 --> 01:33:36,619

the UFO world really until they showed

2308

01:33:46,179 --> 01:33:41,989

up well of these questions they do make

2309

01:33:47,589 --> 01:33:46,189

you thinking and that's oh and I could

2310

01:33:49,779 --> 01:33:47,599

probably also answer one of your

2311

01:33:51,609 --> 01:33:49,789

questions after you said that okay I

2312

01:33:54,339 --> 01:33:51,619

mean those are that's those very good

2313

01:33:56,080 --> 01:33:54,349

questions in other words we don't know

2314

01:33:58,509 --> 01:33:56,090

now I mean I there's a quote that Hal

2315

01:34:01,509 --> 01:33:58,519

even has in his SSC paper where he says

2316

01:34:03,489 --> 01:34:01,519

I can read this he says this 22 million

2317

01:34:05,199 --> 01:34:03,499

dollar program was one particular

2318

01:34:06,729 --> 01:34:05,209

program that does not say that there

2319

01:34:08,979 --> 01:34:06,739

were not other programs with other

2320

01:34:10,509 --> 01:34:08,989

funding levels it isn't like suddenly

2321

01:34:11,949 --> 01:34:10,519

there was this one program that did not

2322

01:34:14,560 --> 01:34:11,959

last long and did not have that much

2323

01:34:18,909 --> 01:34:14,570

money in it shut down so maybe the

2324

01:34:22,239 --> 01:34:18,919

offset 22 million was put out there to

2325

01:34:24,549 --> 01:34:22,249

just box up the whole 22 million a tip

2326

01:34:26,649 --> 01:34:24,559

that's where Elizondo came from this

2327

01:34:28,359 --> 01:34:26,659

little package over here if there was

2328

01:34:30,790 --> 01:34:28,369

something going on which I tend to think

2329

01:34:34,509 --> 01:34:30,800

there was that began maybe in 2007 or

2330

01:34:39,250 --> 01:34:34,519

earlier and all of this seems to have

2331

01:34:40,989 --> 01:34:39,260

coalesced into this to the Stars coming

2332

01:34:42,549 --> 01:34:40,999

out and of course there's articles that

2333

01:34:44,180 --> 01:34:42,559

have been written about the the Navy

2334

01:34:45,800 --> 01:34:44,190

scientist who's now got these

2335

01:34:48,710 --> 01:34:45,810

that are out there in the patent office

2336

01:34:50,810 --> 01:34:48,720

first didn't buy it yeah our level maybe

2337

01:34:53,090 --> 01:34:50,820

yeah I don't either except that some

2338

01:34:54,920 --> 01:34:53,100

higher level Navy person contacts the

2339

01:34:56,870 --> 01:34:54,930

Patent Office and says we need this

2340

01:34:59,390 --> 01:34:56,880

patent because something about the

2341

01:35:01,520 --> 01:34:59,400

Chinese irori doing it so I don't know

2342

01:35:03,650 --> 01:35:01,530

whether this is an effort to control you

2343

01:35:05,900 --> 01:35:03,660

know companies by other companies to get

2344

01:35:07,490 --> 01:35:05,910

their patents so you have some control I

2345

01:35:10,580 --> 01:35:07,500

don't really know I don't know there are

2346

01:35:12,980 --> 01:35:10,590

a lot of these disparate things go ahead

2347

01:35:15,560 --> 01:35:12,990

I'm sorry Chinese don't do anything that

2348

01:35:17,810 --> 01:35:15,570

we didn't or the Russians didn't do

2349

01:35:20,630 --> 01:35:17,820

first and then they kind of riff off of

2350

01:35:23,210 --> 01:35:20,640

that but one of the things you were

2351

01:35:27,530 --> 01:35:23,220

wondering about is who how does this

2352

01:35:32,390 --> 01:35:27,540

information get to the top I've been in

2353

01:35:35,720 --> 01:35:32,400

a sort of similar issue a ssin it's on a

2354

01:35:38,590 --> 01:35:35,730

submarine go to sleep wake up after we

2355

01:35:41,660 --> 01:35:38,600

we had seen or heard we were in sin are

2356

01:35:45,200 --> 01:35:41,670

something really unusual in the water

2357

01:35:48,290 --> 01:35:45,210

and it got people's attention it was

2358

01:35:50,240 --> 01:35:48,300

very unusual and when I woke up the next

2359

01:35:52,550 --> 01:35:50,250

morning there were five extra people on

2360

01:35:53,890 --> 01:35:52,560

board the frigging submarine you know

2361

01:35:57,320 --> 01:35:53,900

that's a good trick

2362

01:36:00,110 --> 01:35:57,330

so you you want to offer us your best

2363

01:36:03,500 --> 01:36:00,120

guess for how five people show up on the

2364

01:36:06,710 --> 01:36:03,510

submarine yeah apparently while I was

2365

01:36:08,810 --> 01:36:06,720

asleep it surfaced and I don't know how

2366

01:36:11,120 --> 01:36:08,820

they got there so damn quick because it

2367

01:36:14,260 --> 01:36:11,130

was not long I mean it was like less

2368

01:36:18,020 --> 01:36:14,270

than a day and we were not near

2369

01:36:19,220 --> 01:36:18,030

particularly friendly places I guess you

2370

01:36:19,730 --> 01:36:19,230

could have flown out there in a couple

2371

01:36:22,040 --> 01:36:19,740

hours

2372

01:36:23,960 --> 01:36:22,050

but I'm thinking Hunt for Red October

2373

01:36:26,750 --> 01:36:23,970

they fly out the helicopter and drop the

2374

01:36:29,390 --> 01:36:26,760

guys that's your point isn't valid

2375

01:36:31,160 --> 01:36:29,400

helicopter but you're making the valid

2376

01:36:32,870 --> 01:36:31,170

path yeah you hear something unusual and

2377

01:36:35,150 --> 01:36:32,880

some people were able to get there so

2378

01:36:36,800 --> 01:36:35,160

they obviously got the call or the

2379

01:36:40,580 --> 01:36:36,810

information got off the submarine to

2380

01:36:42,260 --> 01:36:40,590

somebody who got out there quickly right

2381

01:36:44,930 --> 01:36:42,270

and they spent a few days there and they

2382

01:36:48,650 --> 01:36:44,940

were pretty impressed with it so I mean

2383

01:36:50,870 --> 01:36:48,660

somebody up at the top level puts in the

2384

01:36:52,970 --> 01:36:50,880

call it's not something that people in

2385

01:36:55,330 --> 01:36:52,980

the lower level are going to even know

2386

01:36:57,870 --> 01:36:55,340

happen unless they're directly involved

2387

01:37:00,149 --> 01:36:57,880

so we didn't they somebody somebody at

2388

01:37:02,040 --> 01:37:00,159

would be perhaps monitoring the

2389

01:37:05,040 --> 01:37:02,050

communication tour monitoring some kind

2390

01:37:07,439 --> 01:37:05,050

of traffic and they pick up on it yes so

2391

01:37:08,669 --> 01:37:07,449

that could very well explain some of

2392

01:37:11,430 --> 01:37:08,679

what Kevin day and the others are

2393

01:37:12,930 --> 01:37:11,440

referring to somebody is listening or

2394

01:37:16,470 --> 01:37:12,940

watching for this kind of thing

2395

01:37:16,830 --> 01:37:16,480

maybe there's a code word go ahead go

2396

01:37:20,100 --> 01:37:16,840

ahead

2397

01:37:23,820 --> 01:37:20,110

so the one thing I found odd about Kevin

2398

01:37:26,160 --> 01:37:23,830

day was at least when I was in the

2399

01:37:28,200 --> 01:37:26,170

surface son our Tech's if you were high

2400

01:37:30,120 --> 01:37:28,210

up you wouldn't you would literally just

2401

01:37:32,430 --> 01:37:30,130

be doing administration things so I

2402

01:37:35,070 --> 01:37:32,440

found it odd that he was doing all this

2403

01:37:37,140 --> 01:37:35,080

work although I listening to him a few

2404

01:37:39,720 --> 01:37:37,150

times I believe that he was supervising

2405

01:37:41,580 --> 01:37:39,730

it and as far as flavor is concerned I

2406

01:37:43,379 --> 01:37:41,590

just think that flavors world revolves

2407

01:37:46,430 --> 01:37:43,389

around flavor I think he's being totally

2408

01:37:49,500 --> 01:37:46,440

honest but that's just his take on it

2409

01:37:54,570 --> 01:37:49,510

mm-hmm thank you that's why he's in the

2410

01:37:56,250 --> 01:37:54,580

center mm-hmm exists to me yeah I'll

2411

01:37:58,590 --> 01:37:56,260

just leave it there let you guys have

2412

01:38:00,240 --> 01:37:58,600

this no you're right I mean you're right

2413

01:38:03,020 --> 01:38:00,250

I mean there's the thing I mean I think

2414

01:38:05,669 --> 01:38:03,030

they're both being very honest which

2415

01:38:08,970 --> 01:38:05,679

nothing else yeah they're definitely

2416

01:38:11,879 --> 01:38:08,980

good witnesses almost insured first but

2417

01:38:14,250 --> 01:38:11,889

I'm totally buying it at this stage yeah

2418

01:38:17,129 --> 01:38:14,260

all right thanks hey thanks for the

2419

01:38:20,430 --> 01:38:17,139

cause great question all right bye-bye

2420

01:38:22,919 --> 01:38:20,440

all right so that line is open anyone

2421

01:38:26,450 --> 01:38:22,929

can call in and that's eight five five

2422

01:38:32,610 --> 01:38:26,460

four seven two five four eight three

2423

01:38:35,010 --> 01:38:32,620

so you just Chris you spoke about I had

2424

01:38:37,350 --> 01:38:35,020

to read that in your paper about the

2425

01:38:40,260 --> 01:38:37,360

report where someone talks about this

2426
01:38:41,990 --> 01:38:40,270
thing actually becoming a USO actually

2427
01:38:45,169 --> 01:38:42,000
going into the water

2428
01:38:50,850 --> 01:38:45,179
who was that exactly that wrote that

2429
01:38:52,530 --> 01:38:50,860
that blows my mind too okay I'm 99%

2430
01:38:54,899 --> 01:38:52,540
certain that's Kevin day because the

2431
01:38:57,390 --> 01:38:54,909
username was the seer and it's really

2432
01:39:00,270 --> 01:38:57,400
it's meant to be C or s EE

2433
01:39:02,070 --> 01:39:00,280
' R which was the title of the short

2434
01:39:06,020 --> 01:39:02,080
story that he wrote in his sailors

2435
01:39:07,950 --> 01:39:06,030
anthology hmm and he had gone I believe

2436
01:39:11,109 --> 01:39:07,960
correct me it's in the paper it was

2437
01:39:13,270 --> 01:39:11,119
either on the above top-secret

2438
01:39:15,369 --> 01:39:13,280

I think it was above top-secret maybe an

2439

01:39:18,790 --> 01:39:15,379

open mind but anyway in 2010 he had

2440

01:39:20,169 --> 01:39:18,800

actually gone in and was putting out a

2441

01:39:22,209 --> 01:39:20,179

little bit of information about his

2442

01:39:24,279 --> 01:39:22,219

story and was talking about how his

2443

01:39:26,949 --> 01:39:24,289

story was a fictionalized account but

2444

01:39:31,029 --> 01:39:26,959

based on the facts from the Nimitz case

2445

01:39:34,779 --> 01:39:31,039

and but then he also goes in gives this

2446

01:39:37,359 --> 01:39:34,789

description of this incident in which he

2447

01:39:40,830 --> 01:39:37,369

this is the one where he says it was a

2448

01:39:43,119 --> 01:39:40,840

pilot he was a captain now on Admiral

2449

01:39:45,279 --> 01:39:43,129

I've done some looking could I have a

2450

01:39:46,899 --> 01:39:45,289

found one guy like this yet I'm just I'm

2451
01:39:48,819 --> 01:39:46,909
guessing you would go from captain to

2452
01:39:50,649 --> 01:39:48,829
being a Rear Admiral first I think yeah

2453
01:39:53,319 --> 01:39:50,659
but he says they're captain now an

2454
01:39:55,569 --> 01:39:53,329
admiral who had this encounter and the

2455
01:39:57,339 --> 01:39:55,579
odd thing is he uses the same phrase

2456
01:39:59,379 --> 01:39:57,349
he's used when he's talking about flavor

2457
01:40:02,350 --> 01:39:59,389
where he says he hears the guy saying

2458
01:40:03,879 --> 01:40:02,360
I'm engaged I'm engaged oh my god which

2459
01:40:07,209 --> 01:40:03,889
he's reiterated that same thing

2460
01:40:10,060 --> 01:40:07,219
accordingly going to favor but then his

2461
01:40:11,889 --> 01:40:10,070
description is a pilot encountered this

2462
01:40:13,239 --> 01:40:11,899
thing and I say 20,000 feet that's just

2463
01:40:14,919 --> 01:40:13,249

my memory but the point was it was at

2464

01:40:17,859 --> 01:40:14,929

altitude it wasn't 50 feet off the

2465

01:40:20,560 --> 01:40:17,869

surface he encounters some object up at

2466

01:40:23,139 --> 01:40:20,570

this altitude and the object shoots down

2467

01:40:26,709 --> 01:40:23,149

and the pilot follows it and the object

2468

01:40:29,290 --> 01:40:26,719

goes into the water clear stipulates

2469

01:40:32,139 --> 01:40:29,300

into the water then as the pilot flies

2470

01:40:33,580 --> 01:40:32,149

away the object shot back out of the

2471

01:40:35,199 --> 01:40:33,590

water right neck tat attune and went on

2472

01:40:37,449 --> 01:40:35,209

its merry way in his merry way I think

2473

01:40:42,369 --> 01:40:37,459

he used that term in an unidentified as

2474

01:40:44,770 --> 01:40:42,379

well but it clearly sounds like another

2475

01:40:46,689 --> 01:40:44,780

encounter of somebody seeing something

2476

01:40:49,299 --> 01:40:46,699

and the object goes down towards the

2477

01:40:52,119 --> 01:40:49,309

water whatever that is but it's not

2478

01:40:54,399 --> 01:40:52,129

freighters encounter and it's certainly

2479

01:40:57,429 --> 01:40:54,409

not curse what we've little we know

2480

01:40:59,169 --> 01:40:57,439

about whatever encounter Kurth had Wow

2481

01:41:01,179 --> 01:40:59,179

so I think honestly that's a question

2482

01:41:03,219 --> 01:41:01,189

that Kevin day I would like to ask it

2483

01:41:05,770 --> 01:41:03,229

may be a mistake but once again that was

2484

01:41:08,739 --> 01:41:05,780

only five years after the incidents here

2485

01:41:10,719 --> 01:41:08,749

we are now 17 years or so after how many

2486

01:41:14,139 --> 01:41:10,729

years afterwards you think memories

2487

01:41:15,489 --> 01:41:14,149

would be clearer much more clear in 2010

2488

01:41:17,229 --> 01:41:15,499

if he's describing something that he

2489

01:41:18,369 --> 01:41:17,239

remembered and that it was so visual to

2490

01:41:20,409 --> 01:41:18,379

him that he had actually used some of

2491

01:41:21,669 --> 01:41:20,419

this in this story so I don't know I

2492

01:41:25,000 --> 01:41:21,679

just when I looked at that I thought

2493

01:41:27,759 --> 01:41:25,010

this this sounds like maybe a third

2494

01:41:30,580 --> 01:41:27,769

Siddhant but this is not clearly in the

2495

01:41:32,109 --> 01:41:30,590

water this is not in his book right

2496

01:41:34,330 --> 01:41:32,119

you're not saying that this is actually

2497

01:41:36,100 --> 01:41:34,340

in his fictionalized no I don't believe

2498

01:41:38,290 --> 01:41:36,110

so okay you wrote a book called a

2499

01:41:41,290 --> 01:41:38,300

sailor's anthology yeah and this I think

2500

01:41:43,600 --> 01:41:41,300

was all he's big he's publicized this

2501

01:41:44,950 --> 01:41:43,610

for quite a while that after he got out

2502

01:41:46,180 --> 01:41:44,960

of the military I found that mistake and

2503

01:41:47,680 --> 01:41:46,190

he wrote this book called the sailors

2504

01:41:50,919 --> 01:41:47,690

anthology and it has some short stories

2505

01:41:54,189 --> 01:41:50,929

and one of them is called the seer and I

2506

01:41:56,649 --> 01:41:54,199

read it impressive it's a heck of an

2507

01:41:58,660 --> 01:41:56,659

imaginative creative kind of story with

2508

01:42:00,459 --> 01:41:58,670

a lot of you know some touching on

2509

01:42:01,540 --> 01:42:00,469

remote viewing and this sort of thing

2510

01:42:05,620 --> 01:42:01,550

probably would have made a good movie

2511

01:42:07,540 --> 01:42:05,630

but then again I don't know he seems to

2512

01:42:10,000 --> 01:42:07,550

have been the only person who on his own

2513

01:42:15,069 --> 01:42:10,010

initiative has been making some effort

2514

01:42:16,569 --> 01:42:15,079

to bring out to make it known some of

2515

01:42:19,359 --> 01:42:16,579

the nimitz encounters that occurred i

2516

01:42:22,899 --> 01:42:19,369

mean frankly i've wondered if he wasn't

2517

01:42:24,790 --> 01:42:22,909

the guy back in 2007 who first put the

2518

01:42:26,290 --> 01:42:24,800

Fleur video out there maybe he was the

2519

01:42:27,549 --> 01:42:26,300

guy who had this information I don't

2520

01:42:30,879 --> 01:42:27,559

know we don't know when those who that

2521

01:42:32,169 --> 01:42:30,889

was but in 2010 he recited this story

2522

01:42:34,240 --> 01:42:32,179

you can go find it I think you could

2523

01:42:36,100 --> 01:42:34,250

still find it if you go back on the open

2524

01:42:38,439 --> 01:42:36,110

minds forum stuff I've got a link to it

2525

01:42:40,779 --> 01:42:38,449

and I'll get the links corrected but

2526

01:42:42,459 --> 01:42:40,789

it's an intriguing story and it goes to

2527

01:42:43,779 --> 01:42:42,469

making me think if these things were out

2528

01:42:45,220 --> 01:42:43,789

there and they were Perry group was out

2529

01:42:47,109 --> 01:42:45,230

there for at least a couple of weeks or

2530

01:42:48,640 --> 01:42:47,119

more if they had a number of these

2531

01:42:50,379 --> 01:42:48,650

things flying around and at that point

2532

01:42:54,370 --> 01:42:50,389

these pilots are on their own initiative

2533

01:42:56,859 --> 01:42:54,380

chasing down you know the objects yeah

2534

01:42:58,600 --> 01:42:56,869

maybe there's maybe that really was more

2535

01:43:00,310 --> 01:42:58,610

than maybe that's why it's such a big

2536

01:43:03,129 --> 01:43:00,320

deal now that there was more than just

2537

01:43:05,950 --> 01:43:03,139

one incident of a pilot or someone

2538

01:43:07,359 --> 01:43:05,960

encountering a tic-tac or whatever that

2539

01:43:08,919 --> 01:43:07,369

had something to do with going under the

2540

01:43:10,359 --> 01:43:08,929

water and maybe that's why we're picking

2541

01:43:12,220 --> 01:43:10,369

up some of it if you look at some of the

2542

01:43:13,479 --> 01:43:12,230

reports you catch traces of people

2543

01:43:15,250 --> 01:43:13,489

talking about things being tracked

2544

01:43:17,529 --> 01:43:15,260

underwater I don't know what the

2545

01:43:19,479 --> 01:43:17,539

accuracy of that is but yeah seems to be

2546

01:43:22,779 --> 01:43:19,489

some indication of vehicles going into

2547

01:43:24,279 --> 01:43:22,789

the water right which is also one of the

2548

01:43:26,200 --> 01:43:24,289

Navy patents if I'm not mistaken that

2549

01:43:27,580 --> 01:43:26,210

came out in the news recently yeah I can

2550

01:43:30,100 --> 01:43:27,590

move freeze over the water just like

2551
01:43:31,450 --> 01:43:30,110
anywhere else yeah we only had off we

2552
01:43:33,549 --> 01:43:31,460
only have five minutes left I can't

2553
01:43:35,459 --> 01:43:33,559
believe it already so I'm not gonna be

2554
01:43:38,980 --> 01:43:35,469
taking any more calls at this point but

2555
01:43:44,890 --> 01:43:38,990
the one thing we didn't discuss is the

2556
01:43:47,710 --> 01:43:44,900
films and there's someone in the chat

2557
01:43:49,660 --> 01:43:47,720
room that just said something that we

2558
01:43:53,680 --> 01:43:49,670
can get that question to Dave I mean -

2559
01:43:56,050 --> 01:43:53,690
Kevin day no problem at all the what the

2560
01:43:57,850 --> 01:43:56,060
one you have there but the films being

2561
01:44:02,650 --> 01:43:57,860
released the way they were

2562
01:44:05,050 --> 01:44:02,660
that's another puzzle here because the

2563
01:44:07,540 --> 01:44:05,060

he didn't blue actually didn't have

2564

01:44:10,420 --> 01:44:07,550

permission to to release them publicly

2565

01:44:14,770 --> 01:44:10,430

yet again there doesn't seem to be any

2566

01:44:18,400 --> 01:44:14,780

repercussion from it you know and I give

2567

01:44:20,020 --> 01:44:18,410

John Greenwald plenty of credit I did

2568

01:44:21,430 --> 01:44:20,030

send him a link I haven't heard from him

2569

01:44:24,970 --> 01:44:21,440

but I give him enough credit for really

2570

01:44:28,440 --> 01:44:24,980

drilling down on these questions and my

2571

01:44:32,140 --> 01:44:28,450

opinion at this particular point is a

2572

01:44:34,570 --> 01:44:32,150

tip was just the nickname it tip may

2573

01:44:37,000 --> 01:44:34,580

have been kind of a disposable name that

2574

01:44:39,310 --> 01:44:37,010

was used and the way to bring Lou to the

2575

01:44:42,070 --> 01:44:39,320

world without exposing much backstory

2576

01:44:44,350 --> 01:44:42,080

may have been to just say he was the

2577

01:44:46,480 --> 01:44:44,360

director of a tip but somewhere along

2578

01:44:50,110 --> 01:44:46,490

the lines the people back in the the

2579

01:44:52,540 --> 01:44:50,120

government information locations didn't

2580

01:44:54,640 --> 01:44:52,550

get the memo or somehow there honestly

2581

01:44:57,220 --> 01:44:54,650

if you really look at the wording that's

2582

01:44:58,840 --> 01:44:57,230

been in there it may be possible because

2583

01:45:00,910 --> 01:44:58,850

I made a point in this last version of

2584

01:45:04,120 --> 01:45:00,920

the paper that what they're saying and

2585

01:45:06,730 --> 01:45:04,130

what Luis saying aren't both technically

2586

01:45:08,620 --> 01:45:06,740

correct if you look at in context but if

2587

01:45:11,170 --> 01:45:08,630

he goes to ask for release of these

2588

01:45:13,870 --> 01:45:11,180

videos and you'll remember he made the

2589

01:45:15,880 --> 01:45:13,880

comment to flavor when he was when a

2590

01:45:17,430 --> 01:45:15,890

favor made as cited this in his

2591

01:45:19,600 --> 01:45:17,440

interviews where he was talking about

2592

01:45:21,730 --> 01:45:19,610

Luke came to him and said we're gonna

2593

01:45:23,950 --> 01:45:21,740

have this newspaper blast we want you to

2594

01:45:26,770 --> 01:45:23,960

do it and he's like no no no and Lou

2595

01:45:30,990 --> 01:45:26,780

told him this is what flavor said we

2596

01:45:33,280 --> 01:45:31,000

have gotten permission to reveal a tip

2597

01:45:35,200 --> 01:45:33,290

and I thought permission from whom

2598

01:45:37,060 --> 01:45:35,210

somebody obviously must have been up

2599

01:45:39,670 --> 01:45:37,070

high enough up there that knew you

2600

01:45:41,890 --> 01:45:39,680

needed to get the okay to reveal that so

2601

01:45:43,380 --> 01:45:41,900

whoever was in charge up top that's

2602

01:45:45,910 --> 01:45:43,390

giving them permission for these things

2603

01:45:49,060 --> 01:45:45,920

is that the Navy is it's somebody in a

2604

01:45:50,010 --> 01:45:49,070

special private access program the

2605

01:45:52,360 --> 01:45:50,020

Oversight Committee

2606

01:45:52,510 --> 01:45:52,370

somebody up there seems to be they have

2607

01:45:54,900 --> 01:45:52,520

to

2608

01:45:57,930 --> 01:45:54,910

get the okay on it and I have a feeling

2609

01:46:00,340 --> 01:45:57,940

whoever was letting him get these videos

2610

01:46:02,350 --> 01:46:00,350

maybe nobody expected all these letters

2611

01:46:03,670 --> 01:46:02,360

to come out later but he's getting the

2612

01:46:06,280 --> 01:46:03,680

videos and he's going to use them for

2613

01:46:08,470 --> 01:46:06,290

analysis or whatever then he immediately

2614

01:46:12,220 --> 01:46:08,480

resigned and goes to the to the stars

2615

01:46:14,760 --> 01:46:12,230

and uses them I think somebody up top

2616

01:46:17,410 --> 01:46:14,770

who had enough clout is making sure

2617

01:46:20,080 --> 01:46:17,420

nobody goes after him because he had the

2618

01:46:21,850 --> 01:46:20,090

okay to use those and he knew he was

2619

01:46:23,830 --> 01:46:21,860

gonna use them at to the stars when he

2620

01:46:27,700 --> 01:46:23,840

resigned and immediately went over to to

2621

01:46:29,800 --> 01:46:27,710

the stars and showed them on TV so and

2622

01:46:31,330 --> 01:46:29,810

Lou doesn't seem totally you just say

2623

01:46:33,370 --> 01:46:31,340

give me a minute let me make a call I'll

2624

01:46:36,700 --> 01:46:33,380

get you to somebody who can verify that

2625

01:46:38,740 --> 01:46:36,710

I work he just seems to calmly let it go

2626

01:46:40,510 --> 01:46:38,750

as though there's you're right and

2627

01:46:42,910 --> 01:46:40,520

there's no repercussions so I think this

2628

01:46:45,330 --> 01:46:42,920

whole thing was planned and to the stars

2629

01:46:47,410 --> 01:46:45,340

has got somebody behind them who's

2630

01:46:48,910 --> 01:46:47,420

watching out for them or making sure

2631

01:46:51,910 --> 01:46:48,920

they've got the budget they need or

2632

01:46:54,910 --> 01:46:51,920

whatever the original Navy or program

2633

01:46:56,650 --> 01:46:54,920

was that led to to the stars all of this

2634

01:46:57,910 --> 01:46:56,660

stuff has been okayed and that's what

2635

01:46:59,620 --> 01:46:57,920

kind of makes me think so this looks

2636

01:47:03,100 --> 01:46:59,630

like a knob you know somebody's still

2637

01:47:06,610 --> 01:47:03,110

running something out here yeah yeah

2638

01:47:08,860 --> 01:47:06,620

that's kind of a cap on on on this so

2639

01:47:13,000 --> 01:47:08,870

far I mean we're right we've got like a

2640

01:47:14,860 --> 01:47:13,010

minute left here so that's basically you

2641

01:47:18,460 --> 01:47:14,870

think it's possible that the whole thing

2642

01:47:21,070 --> 01:47:18,470

is enough I mean this is speculation I

2643

01:47:22,930 --> 01:47:21,080

think maybe it's sanctioned let's put it

2644

01:47:23,710 --> 01:47:22,940

that way these guys have wanted to do

2645

01:47:25,540 --> 01:47:23,720

something like this

2646

01:47:27,220 --> 01:47:25,550

they're brilliant people engineering

2647

01:47:29,350 --> 01:47:27,230

people they want to produce something I

2648

01:47:31,210 --> 01:47:29,360

think maybe they have you know if not an

2649

01:47:32,740 --> 01:47:31,220

angel investor they've got an angel on

2650

01:47:35,620 --> 01:47:32,750

their shoulder up atop some of this

2651

01:47:38,110 --> 01:47:35,630

larger group at the Navy or whomever who

2652

01:47:39,880 --> 01:47:38,120

wants this to finally come out but they

2653

01:47:41,470 --> 01:47:39,890

don't want to expose themselves yet so

2654

01:47:43,810 --> 01:47:41,480

they're making sure that all the wheels

2655

01:47:45,490 --> 01:47:43,820

get greased and if you don't mind

2656

01:47:48,040 --> 01:47:45,500

mentioning everybody just to reiterate I

2657

01:47:50,380 --> 01:47:48,050

didn't realize when I copied the PDF of

2658

01:47:52,630 --> 01:47:50,390

this last paper that it killed all the

2659

01:47:54,490 --> 01:47:52,640

links so like tonight I'll have all the

2660

01:47:55,780 --> 01:47:54,500

links active again and then extent we

2661

01:47:57,610 --> 01:47:55,790

get it up there so if you go back you

2662

01:47:59,230 --> 01:47:57,620

you will know I've linked to every

2663

01:48:00,670 --> 01:47:59,240

single place you can find the

2664

01:48:02,380 --> 01:48:00,680

information that I had in this paper I

2665

01:48:05,020 --> 01:48:02,390

just some college eyes I didn't realize

2666

01:48:05,260 --> 01:48:05,030

it died thanks so much we gotta go all

2667

01:48:12,740 --> 01:48:05,270

right

2668

01:48:15,290 --> 01:48:12,750

for the show and also just to let you

2669

01:48:17,810 --> 01:48:15,300

know that PDF is in the show notes and

2670

01:48:20,959 --> 01:48:17,820

that will be linked in the show also

2671

01:48:23,360 --> 01:48:20,969

will be linked in YouTube as well next

2672

01:48:25,780 --> 01:48:23,370

week we have Shane Ryan he's going to be

2673
