

**CHRISTOPHER  
O'BRIEN**

1  
00:00:37,380 --> 00:00:06,260

[Music]

2  
00:00:40,439 --> 00:00:37,390

hello and welcome to the show my name is

3  
00:00:43,830 --> 00:00:40,449

Martin Willis and I'm your host and we

4  
00:00:45,750 --> 00:00:43,840

have Chris Christopher O'Brien on the

5  
00:00:48,210 --> 00:00:45,760

show this evening he's really here this

6  
00:00:52,560 --> 00:00:48,220

time I got to tell you about last time

7  
00:00:54,900 --> 00:00:52,570

now last time he slept he overslept

8  
00:00:56,579 --> 00:00:54,910

didn't didn't set his alarm or slept

9  
00:00:58,250 --> 00:00:56,589

through his alarm or whatever but you

10  
00:01:01,530 --> 00:00:58,260

know I mean there was a reason for that

11  
00:01:04,500 --> 00:01:01,540

he's doing he's doing well everything is

12  
00:01:06,810 --> 00:01:04,510

just fine and he's here tonight and that

13  
00:01:08,820 --> 00:01:06,820

actually kind of worked out in a way

14

00:01:11,520 --> 00:01:08,830

because uh thanks to the YouTube

15

00:01:15,660 --> 00:01:11,530

listeners out there we had a call-in

16

00:01:17,280 --> 00:01:15,670

show an unexpected one that I I can't

17

00:01:21,140 --> 00:01:17,290

believe the amount of email that I

18

00:01:24,810 --> 00:01:21,150

received and people saying do that again

19

00:01:26,039 --> 00:01:24,820

so so it started something at least I'm

20

00:01:28,620 --> 00:01:26,049

going to give it another try it going to

21

00:01:31,050 --> 00:01:28,630

give it an official try and that will be

22

00:01:32,610 --> 00:01:31,060

on st. Paddy's Day and I hope people

23

00:01:35,400 --> 00:01:32,620

don't drink too much of the green beer

24

00:01:38,760 --> 00:01:35,410

before they call but that's on March

25

00:01:39,870 --> 00:01:38,770

17th I believe that date is so I'll an

26

00:01:42,480 --> 00:01:39,880

outside ahead of time so you can get

27

00:01:44,100 --> 00:01:42,490

your questions ready or your UFO stories

28

00:01:46,620 --> 00:01:44,110

ready or whatever it is and we'll have a

29

00:01:48,600 --> 00:01:46,630

race as always does the call screening

30

00:01:52,520 --> 00:01:48,610

over here great I'm grateful for that

31

00:01:55,470 --> 00:01:52,530

Matt kgr a radio he'll be doing that and

32

00:01:59,760 --> 00:01:55,480

checking people as they as they call in

33

00:02:03,149 --> 00:01:59,770

for that again that's March 17th we have

34

00:02:05,970 --> 00:02:03,159

a blog up on our website podcast UFO

35

00:02:09,059 --> 00:02:05,980

calm and check that out I think it's a

36

00:02:13,619 --> 00:02:09,069

it's one of my favorite incidences and

37

00:02:16,229 --> 00:02:13,629

that is the Fothergill case and it's

38

00:02:17,790 --> 00:02:16,239

about father Gill and UFOs and and our

39

00:02:19,680 --> 00:02:17,800

blogger Charles Lee are actually

40

00:02:21,360 --> 00:02:19,690

uncovered a couple things that I had

41

00:02:23,850 --> 00:02:21,370

never heard about when he was doing some

42

00:02:25,199 --> 00:02:23,860

research for this and father girl I

43

00:02:27,899 --> 00:02:25,209

don't know if anyone's ever looked into

44

00:02:29,940 --> 00:02:27,909

that there's also I posted on in the

45

00:02:32,100 --> 00:02:29,950

middle of the blog a video of him

46

00:02:33,990 --> 00:02:32,110

talking about the event he didn't really

47

00:02:37,070 --> 00:02:34,000

use the fact that you know he was a man

48

00:02:40,310 --> 00:02:37,080

of the cloth so to speak

49

00:02:41,810 --> 00:02:40,320

to promote his authenticity he just said

50

00:02:43,970 --> 00:02:41,820

if you don't believe me that's okay and

51  
00:02:45,860 --> 00:02:43,980  
check out the video it's really great I

52  
00:02:49,700 --> 00:02:45,870  
wish I could have met him he passed away

53  
00:02:51,710 --> 00:02:49,710  
years ago but another really great case

54  
00:02:54,050 --> 00:02:51,720  
that has happened an unexplained one and

55  
00:02:56,990 --> 00:02:54,060  
an interacting one actually there were

56  
00:02:59,420 --> 00:02:57,000  
some there was a flashlight I think they

57  
00:03:02,960 --> 00:02:59,430  
waved at it and then it seemed like the

58  
00:03:04,970 --> 00:03:02,970  
beings were interacting the standing on

59  
00:03:08,920 --> 00:03:04,980  
top of the craft it's a real bizarre

60  
00:03:11,210 --> 00:03:08,930  
story so check that out a lot of people

61  
00:03:12,590 --> 00:03:11,220  
ironically I think it's ironic but

62  
00:03:16,190 --> 00:03:12,600  
there's a number of people that listen

63  
00:03:17,630 --> 00:03:16,200

to my antique auction forum podcasts

64

00:03:20,270 --> 00:03:17,640

that actually listen to this show too

65

00:03:23,840 --> 00:03:20,280

and I actually usually it's the people

66

00:03:27,050 --> 00:03:23,850

that listen to my UFO shows will they

67

00:03:28,970 --> 00:03:27,060

will you know maybe wander over to the

68

00:03:30,380 --> 00:03:28,980

antique auction forum and listen to

69

00:03:32,360 --> 00:03:30,390

those podcasts over there but I've

70

00:03:35,330 --> 00:03:32,370

actually had it go the other way around

71

00:03:36,980 --> 00:03:35,340

the other day I had an email from

72

00:03:39,770 --> 00:03:36,990

someone a longtime listener to my

73

00:03:41,630 --> 00:03:39,780

antique show that said he was looking

74

00:03:45,640 --> 00:03:41,640

wondering why I wasn't having new shows

75

00:03:48,199 --> 00:03:45,650

on my antiques and he found the UFO show

76

00:03:49,520 --> 00:03:48,209

and he said it's fascinating I never

77

00:03:52,400 --> 00:03:49,530

really thought about it but he says I'm

78

00:03:55,250 --> 00:03:52,410

listening all the time so I'm kind of

79

00:03:57,850 --> 00:03:55,260

grateful for that anyway so I'm gonna

80

00:04:00,380 --> 00:03:57,860

start doing more of those shows and

81

00:04:02,449 --> 00:04:00,390

gonna be at a car museum next week

82

00:04:04,850 --> 00:04:02,459

working doing a show over there as well

83

00:04:07,940 --> 00:04:04,860

the antique cars so that ought to be fun

84

00:04:10,340 --> 00:04:07,950

for now I do want to thank everyone that

85

00:04:11,900 --> 00:04:10,350

helps out with the show and there's a

86

00:04:15,830 --> 00:04:11,910

lot of people behind the scenes I'm

87

00:04:18,500 --> 00:04:15,840

grateful for all that and I also want to

88

00:04:22,909 --> 00:04:18,510

thank race @kg are a radio for the great

89

00:04:25,490 --> 00:04:22,919

job he does and and Peggy who helps out

90

00:04:27,860 --> 00:04:25,500

with a Facebook page and a number of

91

00:04:30,050 --> 00:04:27,870

people have been asking me constantly

92

00:04:32,450 --> 00:04:30,060

every single week you know is Alejandro

93

00:04:36,620 --> 00:04:32,460

okay Alejandro Rojas what's up with him

94

00:04:38,900 --> 00:04:36,630

what's going on I don't really know to

95

00:04:43,070 --> 00:04:38,910

be honest with the people out there I

96

00:04:45,620 --> 00:04:43,080

really don't know if if he's planning on

97

00:04:47,719 --> 00:04:45,630

coming back I really don't know he he

98

00:04:50,450 --> 00:04:47,729

may have you know changed a few things

99

00:04:50,959 --> 00:04:50,460

with what he wants to do for right now I

100

00:04:52,489 --> 00:04:50,969

can't

101

00:04:56,419 --> 00:04:52,499

answer for him I'm trying to give him

102

00:04:59,359 --> 00:04:56,429

his privacy his you know it is a private

103

00:05:01,100 --> 00:04:59,369

thing for him Wow whatever he does so he

104

00:05:04,039 --> 00:05:01,110

doesn't really want me to discuss too

105

00:05:05,539 --> 00:05:04,049

much on what's going on but um every

106

00:05:06,919 --> 00:05:05,549

single week I get a lot of people

107

00:05:08,899 --> 00:05:06,929

wondering and they're worried about him

108

00:05:10,969 --> 00:05:08,909

but I can tell you this you don't have

109

00:05:13,699 --> 00:05:10,979

to worry about him he is doing fine and

110

00:05:16,009 --> 00:05:13,709

we've had some great conversations it's

111

00:05:18,309 --> 00:05:16,019

just that he I just don't know what his

112

00:05:20,929 --> 00:05:18,319

future is as far as being on this show

113

00:05:22,519 --> 00:05:20,939

as far as me replacing him with someone

114

00:05:23,419 --> 00:05:22,529

else I don't know if I'm going to do

115

00:05:26,209 --> 00:05:23,429

that either

116

00:05:30,049 --> 00:05:26,219

I may not I may just continue like this

117

00:05:32,209 --> 00:05:30,059

I do personally miss the news updates

118

00:05:35,839 --> 00:05:32,219

you know on the shows the way they were

119

00:05:37,219 --> 00:05:35,849

I just it's I'm usually too busy during

120

00:05:38,989 --> 00:05:37,229

the week to check on things and how

121

00:05:41,809 --> 00:05:38,999

they're going so that that's always been

122

00:05:45,109 --> 00:05:41,819

helpful for me when he fills me in on

123

00:05:46,669 --> 00:05:45,119

that and you know so I may figure out

124

00:05:49,549 --> 00:05:46,679

something at a later time but for right

125

00:05:52,009 --> 00:05:49,559

now I just got a little old me here and

126

00:05:54,169 --> 00:05:52,019

I I do appreciate everyone that listens

127

00:05:56,540 --> 00:05:54,179

and I do appreciate everyone that

128

00:05:58,429 --> 00:05:56,550

supports the show as well and for now

129

00:06:02,089 --> 00:05:58,439

I'm going to introduce our guests

130

00:06:04,999 --> 00:06:02,099

Christopher O'Brien he doesn't really

131

00:06:06,979 --> 00:06:05,009

need much of an it doesn't need much of

132

00:06:09,379 --> 00:06:06,989

an introduction he's been on many times

133

00:06:11,659 --> 00:06:09,389

but he's got an incredible background

134

00:06:14,179 --> 00:06:11,669

wrote the best book out there on cattle

135

00:06:16,009 --> 00:06:14,189

mutilations really great one I've read

136

00:06:17,869 --> 00:06:16,019

through quite a bit of it it's a big

137

00:06:20,509 --> 00:06:17,879

book it's a great book it is the

138

00:06:22,279 --> 00:06:20,519

top-notch top-notch work on that subject

139

00:06:24,139 --> 00:06:22,289

we're going to be talking about all

140

00:06:28,279 --> 00:06:24,149

kinds of different things tonight and

141

00:06:31,879 --> 00:06:28,289

Chris I consider Chris a friend he

142

00:06:34,219 --> 00:06:31,889

actually stayed at my guesthouse a few

143

00:06:37,069 --> 00:06:34,229

years ago before I sold my house up on

144

00:06:39,259 --> 00:06:37,079

the mountain there and we went out Chris

145

00:06:41,419 --> 00:06:39,269

remember going out on the boat how can

146

00:06:45,889 --> 00:06:41,429

you forget that right right

147

00:06:47,779 --> 00:06:45,899

that didn't last too long we ended yeah

148

00:06:49,519 --> 00:06:47,789

in the middle of the lake and then oh

149

00:06:52,609 --> 00:06:49,529

the lake and you saved the day I

150

00:06:55,279 --> 00:06:52,619

remember you doing your pirate R or

151  
00:06:57,289 --> 00:06:55,289  
whatever and waving life preservers and

152  
00:06:59,149 --> 00:06:57,299  
someone actually it was a pretty lonely

153  
00:07:00,829 --> 00:06:59,159  
day on the lake out there remember that

154  
00:07:04,900 --> 00:07:00,839  
there was only like one boat a mile away

155  
00:07:07,510 --> 00:07:04,910  
and right I came and rescued us

156  
00:07:10,150 --> 00:07:07,520  
but you know yeah good times but anyway

157  
00:07:12,220 --> 00:07:10,160  
welcome to the show and I'm glad you're

158  
00:07:14,080 --> 00:07:12,230  
doing okay and everybody else up a lot

159  
00:07:15,940 --> 00:07:14,090  
of people are concerned about you when

160  
00:07:18,910 --> 00:07:15,950  
you didn't show up the last time yeah

161  
00:07:22,900 --> 00:07:18,920  
yeah unfortunately I think I booked the

162  
00:07:25,420 --> 00:07:22,910  
the show a little too soon after uh I'm

163  
00:07:27,280 --> 00:07:25,430

fairly uh well let's put it this way

164

00:07:29,950 --> 00:07:27,290

anytime you get heart surgery it's uh

165

00:07:33,120 --> 00:07:29,960

it's kind of a big deal yeah it was a

166

00:07:35,710 --> 00:07:33,130

fairly fairly routine procedure

167

00:07:39,460 --> 00:07:35,720

unfortunately I developed arterial

168

00:07:41,440 --> 00:07:39,470

fibrillation a year ago and this is a

169

00:07:45,550 --> 00:07:41,450

new procedure that's only been around

170

00:07:48,310 --> 00:07:45,560

for I don't know about 15 years where

171

00:07:50,940 --> 00:07:48,320

they actually go up your carotid artery

172

00:07:54,250 --> 00:07:50,950

and go through your heart and then

173

00:07:57,850 --> 00:07:54,260

obliterate the nerve bundles that kick off

174

00:08:01,020 --> 00:07:57,860

the the you know the heart but said that

175

00:08:06,370 --> 00:08:01,030

the fibrillating heart beats and so I

176  
00:08:09,520 --> 00:08:06,380  
was still kind of down and out and when

177  
00:08:12,910 --> 00:08:09,530  
I went to sleep I I didn't set my alarm

178  
00:08:16,030 --> 00:08:12,920  
and I just I just kept sleeping and

179  
00:08:18,070 --> 00:08:16,040  
unfortunately I miss mr. show I really

180  
00:08:20,860 --> 00:08:18,080  
felt bad I think I woke up at about

181  
00:08:23,260 --> 00:08:20,870  
eight o'clock and I want oh no oh that's

182  
00:08:26,470 --> 00:08:23,270  
right that's right it was pretty I'm

183  
00:08:29,080 --> 00:08:26,480  
back I'm back yeah I'm back and I'm

184  
00:08:31,600 --> 00:08:29,090  
doing really good and I've got lots of

185  
00:08:34,510 --> 00:08:31,610  
cool stuff been going on and I'm looking

186  
00:08:36,790 --> 00:08:34,520  
forward to getting out of the New York

187  
00:08:40,810 --> 00:08:36,800  
upstate New York weather here we just

188  
00:08:43,959 --> 00:08:40,820

had about a foot of snow and it's uh you

189

00:08:46,030 --> 00:08:43,969

know it gets old after a few months

190

00:08:49,750 --> 00:08:46,040

especially you know living in Arizona

191

00:08:52,950 --> 00:08:49,760

for so many years it's a little new and

192

00:08:57,190 --> 00:08:52,960

different my cat doesn't like me anymore

193

00:09:00,130 --> 00:08:57,200

she was born in the desert and she just

194

00:09:03,610 --> 00:09:00,140

takes one step outside and just looks at

195

00:09:05,620 --> 00:09:03,620

me goes yes I did that I lived in

196

00:09:07,720 --> 00:09:05,630

California for nine years and came back

197

00:09:11,380 --> 00:09:07,730

with a Chihuahua that was not happy

198

00:09:14,650 --> 00:09:11,390

walking yes no just likely yeah I got

199

00:09:18,310 --> 00:09:14,660

the look like what is this yeah so yeah

200

00:09:18,770 --> 00:09:18,320

yeah but you're working on all kinds of

201  
00:09:21,230 --> 00:09:18,780

things

202  
00:09:24,980 --> 00:09:21,240

as usual yeah not the type of guy that

203  
00:09:27,500 --> 00:09:24,990

rests on his laurels so no yeah so tell

204  
00:09:29,870 --> 00:09:27,510

us what you're up to these days well you

205  
00:09:34,220 --> 00:09:29,880

know we've got the UFO gap project which

206  
00:09:37,430 --> 00:09:34,230

is the UFO detection data acquisition

207  
00:09:40,190 --> 00:09:37,440

project and basically what we've been

208  
00:09:44,680 --> 00:09:40,200

doing for 12 years is coming up with an

209  
00:09:47,870 --> 00:09:44,690

affordable and you know you know the

210  
00:09:53,120 --> 00:09:47,880

state of the art really an affordable

211  
00:09:56,150 --> 00:09:53,130

system that will detect burial anomalies

212  
00:10:00,730 --> 00:09:56,160

and basically there's triangulated

213  
00:10:04,610 --> 00:10:00,740

cameras with a multi sensor pack that's

214

00:10:08,570 --> 00:10:04,620

based on a Raspberry Pi and and it's got

215

00:10:11,090 --> 00:10:08,580

a magnetometer an accelerometer and you

216

00:10:14,690 --> 00:10:11,100

know complete admin firm ation and and

217

00:10:18,200 --> 00:10:14,700

it's all tied in to GPS so you're able

218

00:10:22,670 --> 00:10:18,210

to triangulate get the altitude azimuth

219

00:10:24,280 --> 00:10:22,680

and speed and and hopefully at some

220

00:10:27,200 --> 00:10:24,290

point we're also going to be able to

221

00:10:29,210 --> 00:10:27,210

detect varying degrees of luminance and

222

00:10:31,880 --> 00:10:29,220

then we'll also find out whether the

223

00:10:34,700 --> 00:10:31,890

object is in some way impact in the

224

00:10:37,460 --> 00:10:34,710

Earth's magnetic field and whether it's

225

00:10:40,579 --> 00:10:37,470

you know got some sort of gravitational

226  
00:10:42,980 --> 00:10:40,589  
component and we've got our first system

227  
00:10:46,280 --> 00:10:42,990  
that effect many years of investigative

228  
00:10:48,350 --> 00:10:46,290  
work it's in South Central Colorado and

229  
00:10:49,670 --> 00:10:48,360  
then this spring I'm going back back

230  
00:10:53,390 --> 00:10:49,680  
there and we're gonna put in the other

231  
00:10:55,940 --> 00:10:53,400  
two cameras and the multi sensor package

232  
00:11:02,470 --> 00:10:55,950  
so I'm really excited about it we've

233  
00:11:07,519 --> 00:11:05,809  
the product it we're not really doing

234  
00:11:11,569 --> 00:11:07,529  
this to make money everything is pretty

235  
00:11:13,939 --> 00:11:11,579  
much it cost and so we've sold one to a

236  
00:11:15,949 --> 00:11:13,949  
guy that is setting it up this spring

237  
00:11:18,530 --> 00:11:15,959  
right next door to the skinwalker ranch

238  
00:11:22,040 --> 00:11:18,540

up there in Utah and then we have

239

00:11:25,910 --> 00:11:22,050

interest in we've got a guy that's in

240

00:11:30,110 --> 00:11:25,920

northern Utah with a system a doctor

241

00:11:32,090 --> 00:11:30,120

with a camera in San Pedro which is the

242

00:11:34,699 --> 00:11:32,100

southernmost part of La is right on the

243

00:11:37,540 --> 00:11:34,709

beach and we have interest stuff from

244

00:11:40,720 --> 00:11:37,550

Switzerland and Australia and Italy and

245

00:11:43,910 --> 00:11:40,730

we're we're pretty excited because the

246

00:11:47,180 --> 00:11:43,920

the systems are you know anybody can can

247

00:11:50,389 --> 00:11:47,190

afford it it's not like it was when I

248

00:11:52,879 --> 00:11:50,399

first started working on the idea 1215

249

00:11:55,490 --> 00:11:52,889

years ago it would have cost you know a

250

00:11:58,069 --> 00:11:55,500

couple hundred thousand dollars because

251  
00:12:01,579 --> 00:11:58,079  
the technology has has come down in

252  
00:12:05,389 --> 00:12:01,589  
price and gone up in quality and these

253  
00:12:07,759 --> 00:12:05,399  
types of systems are now attainable and

254  
00:12:10,670 --> 00:12:07,769  
what makes our system really unique is

255  
00:12:14,079 --> 00:12:10,680  
it has customized software that detects

256  
00:12:16,730 --> 00:12:14,089  
motion and then tracks the motion and

257  
00:12:18,650 --> 00:12:16,740  
sends a signal over the internet to the

258  
00:12:21,290 --> 00:12:18,660  
other cameras so that they can wheel

259  
00:12:23,900 --> 00:12:21,300  
around and with coordinate data then go

260  
00:12:26,600 --> 00:12:23,910  
ahead and get a second and third camera

261  
00:12:28,999 --> 00:12:26,610  
angle on one the events so this is the

262  
00:12:31,069 --> 00:12:29,009  
kind of information that if we're able

263  
00:12:33,800 --> 00:12:31,079

to replicate it we could literally write

264

00:12:46,370 --> 00:12:33,810

a scientific paper with the help of an

265

00:12:49,970 --> 00:12:46,380

acid entrance I anticipate the kind of

266

00:12:52,460 --> 00:12:49,980

data that is then replicated and then

267

00:12:55,429 --> 00:12:52,470

presented for peer review and and this

268

00:12:57,710 --> 00:12:55,439

is a dream come true i I often joke you

269

00:13:01,030 --> 00:12:57,720

know people say call me a ufologist and

270

00:13:05,900 --> 00:13:01,040

I say please do not call me one of those

271

00:13:08,210 --> 00:13:05,910

people and they said well you do

272

00:13:10,400 --> 00:13:08,220

investigate I said yeah and if I was a

273

00:13:14,210 --> 00:13:10,410

ufologist I'd be coming up with a system

274

00:13:15,269 --> 00:13:14,220

like you fo dab so take that for what

275

00:13:18,360 --> 00:13:15,279

it's worth

276

00:13:22,499 --> 00:13:18,370

and that's just one of several projects

277

00:13:24,809 --> 00:13:22,509

that that we have going right now that

278

00:13:29,040 --> 00:13:24,819

that particular one is the most exciting

279

00:13:31,739 --> 00:13:29,050

I think in terms of the impact it will

280

00:13:35,040 --> 00:13:31,749

have I think on the field people can

281

00:13:39,290 --> 00:13:35,050

spend anywhere from 400 to \$5,000 and

282

00:13:43,069 --> 00:13:39,300

and have a you know self-contained

283

00:13:45,989 --> 00:13:43,079

detection system that will allow them

284

00:13:50,720 --> 00:13:45,999

the ability to you know like I said

285

00:13:54,660 --> 00:13:50,730

actually gather scientific data of

286

00:13:57,799 --> 00:13:54,670

anomalous aerial object events so that's

287

00:14:01,079 --> 00:13:57,809

that's one thing that I'm working on

288

00:14:03,119 --> 00:14:01,089

into that I know ray-ray Stanford's

289

00:14:06,809 --> 00:14:03,129

listening now hopefully I'll call in

290

00:14:07,980 --> 00:14:06,819

later it seems like he just sent me an

291

00:14:11,809 --> 00:14:07,990

email right now saying we're having

292

00:14:15,960 --> 00:14:11,819

audio cut in and now and I'm trying to

293

00:14:18,389 --> 00:14:15,970

see if that is the case can you hear me

294

00:14:20,999 --> 00:14:18,399

all right there I hear you perfectly

295

00:14:22,679 --> 00:14:21,009

here but I guess it had been cutting in

296

00:14:26,610 --> 00:14:22,689

and out I'm not really sure why we have

297

00:14:29,040 --> 00:14:26,620

a great signal but it is it what it is

298

00:14:30,840 --> 00:14:29,050

and we'll just move on but a rate rate

299

00:14:33,780 --> 00:14:30,850

you know think of the money he had to

300

00:14:35,490 --> 00:14:33,790

spend back in the late 1970s oh my god

301  
00:14:38,460 --> 00:14:35,500  
yeah well he was my inspiration really

302  
00:14:44,809 --> 00:14:38,470  
for this you know project starlight his

303  
00:14:51,119 --> 00:14:49,199  
1970-71 I think or 72 it was well over a

304  
00:14:52,590 --> 00:14:51,129  
million dollars in fact I think with the

305  
00:14:54,360 --> 00:14:52,600  
land and stuff that they had there

306  
00:14:57,600 --> 00:14:54,370  
outside of Austin it was around two

307  
00:15:00,740 --> 00:14:57,610  
million dollars that they had to to sink

308  
00:15:03,509 --> 00:15:00,750  
into the project and and now we can do

309  
00:15:05,639 --> 00:15:03,519  
with much better technology we can do

310  
00:15:09,900 --> 00:15:05,649  
all that for hundreds of dollars as

311  
00:15:13,939 --> 00:15:09,910  
opposed to you know seven figures so but

312  
00:15:17,189 --> 00:15:13,949  
but that whole concept of hard data

313  
00:15:21,150 --> 00:15:17,199

you know gathering actual hard data I

314

00:15:23,009 --> 00:15:21,160

was really inspired by Ray's work who

315

00:15:24,260 --> 00:15:23,019

was decades and decades ahead of his

316

00:15:28,250 --> 00:15:24,270

time and

317

00:15:30,710 --> 00:15:28,260

and you know again I tip my hat to a lot

318

00:15:34,160 --> 00:15:30,720

of hard work that went into that

319

00:15:37,730 --> 00:15:34,170

particular effort and Ray is going to be

320

00:15:41,449 --> 00:15:37,740

if he if he wants he can be one of our

321

00:15:44,060 --> 00:15:41,459

or my chief analyst so when we get some

322

00:15:46,460 --> 00:15:44,070

good stuff we'll let ray chew on it for

323

00:15:49,970 --> 00:15:46,470

a while and and tell us if we got

324

00:15:53,120 --> 00:15:49,980

something worthy or not he's the best in

325

00:15:56,930 --> 00:15:53,130

in the field at analyzing these events

326

00:16:01,519 --> 00:15:56,940

especially photographic and and you know

327

00:16:04,970 --> 00:16:01,529

other evidence uh-huh yeah yeah that's

328

00:16:09,250 --> 00:16:04,980

that's really great and these things I

329

00:16:13,100 --> 00:16:09,260

saw I try to put up a picture of of the

330

00:16:14,780 --> 00:16:13,110

the unit itself I can't get it wants to

331

00:16:16,430 --> 00:16:14,790

turn sideways in the software for some

332

00:16:19,940 --> 00:16:16,440

reason so I was going to show that to

333

00:16:21,680 --> 00:16:19,950

everyone is this was this your

334

00:16:22,699 --> 00:16:21,690

brainchild all the way through did you

335

00:16:25,130 --> 00:16:22,709

have a lot of people

336

00:16:27,740 --> 00:16:25,140

well no no there's there's a team of

337

00:16:30,079 --> 00:16:27,750

people that have been involved Wayne

338

00:16:32,269 --> 00:16:30,089

Hall and back my my my principal who

339

00:16:35,389 --> 00:16:32,279

I've been where I worked with for 12

340

00:16:38,240 --> 00:16:35,399

years unfortunately he passed away last

341

00:16:41,210 --> 00:16:38,250

year and and that just left myself and

342

00:16:43,790 --> 00:16:41,220

Ron olds who's our engineer Ron's really

343

00:16:46,010 --> 00:16:43,800

the brains behind the software and and

344

00:16:49,010 --> 00:16:46,020

then matching the the gear with the

345

00:16:51,170 --> 00:16:49,020

software he's the engineer and computer

346

00:16:55,340 --> 00:16:51,180

scientists I basically am the

347

00:16:57,829 --> 00:16:55,350

cheerleader and and I helped I helped

348

00:17:00,500 --> 00:16:57,839

install the systems and then do the some

349

00:17:03,610 --> 00:17:00,510

of the analytical work I've been taking

350

00:17:05,829 --> 00:17:03,620

notes from mr. Stanford for years and

351

00:17:08,510 --> 00:17:05,839

I'm getting a little better at

352

00:17:12,620 --> 00:17:08,520

determining you know what what things

353

00:17:17,020 --> 00:17:12,630

are and of course on the internet 98%

354

00:17:21,290 --> 00:17:17,030

99% of what you see is is not what it's

355

00:17:23,900 --> 00:17:21,300

purported to be so it's always it's

356

00:17:25,939 --> 00:17:23,910

always fun to try to come up with a

357

00:17:30,220 --> 00:17:25,949

proper explanation then send it to Ray

358

00:17:33,890 --> 00:17:30,230

and and see if you'll confirm it yeah

359

00:17:35,840 --> 00:17:33,900

but yeah so it's it was a three-person

360

00:17:37,549 --> 00:17:35,850

project and now we're down to two and

361

00:17:40,730 --> 00:17:37,559

and

362

00:17:44,029 --> 00:17:40,740

we also are we haven't really joined

363

00:17:46,100 --> 00:17:44,039

forces with another group but as soon as

364

00:17:50,539 --> 00:17:46,110

we do be able to make an announcement on

365

00:17:53,779 --> 00:17:50,549

that we have some some pretty pretty

366

00:17:55,669 --> 00:17:53,789

interesting inquiries about combining

367

00:17:57,259 --> 00:17:55,679

efforts with other other teams and

368

00:17:58,610 --> 00:17:57,269

that's course we have something to

369

00:18:01,039 --> 00:17:58,620

announce yeah we will

370

00:18:03,519 --> 00:18:01,049

yeah that's really great and I have

371

00:18:08,060 --> 00:18:03,529

mentioned that to other people that have

372

00:18:10,549 --> 00:18:08,070

have had similar you know not really

373

00:18:15,560 --> 00:18:10,559

units but you know you mentioned someone

374

00:18:17,600 --> 00:18:15,570

are all here and I've mentioned to mark

375

00:18:18,859 --> 00:18:17,610

T Antonio and a few other different

376

00:18:20,720 --> 00:18:18,869

people that are trying to do something

377

00:18:22,940 --> 00:18:20,730

you know we're all trying to do the same

378

00:18:27,619 --> 00:18:22,950

thing get the same answer and it would

379

00:18:30,470 --> 00:18:27,629

be great if people do instead of compete

380

00:18:34,789 --> 00:18:30,480

or if that's what it is you know to to

381

00:18:38,119 --> 00:18:34,799

combined combined efforts and try to get

382

00:18:41,239 --> 00:18:38,129

some more answers so yeah yeah well mark

383

00:18:44,029 --> 00:18:41,249

so he's listed on our website as

384

00:18:48,259 --> 00:18:44,039

consultant for astronomical questions

385

00:18:50,749 --> 00:18:48,269

and for analytical work we love to get

386

00:18:55,730 --> 00:18:50,759

mark you know as much involved as he's

387

00:18:59,889 --> 00:18:55,740

willing to of course it's you know again

388

00:19:03,080 --> 00:18:59,899

we really want to make this system

389

00:19:06,049 --> 00:19:03,090

available for as many people as as

390

00:19:10,009 --> 00:19:06,059

possible because once we start producing

391

00:19:11,869 --> 00:19:10,019

data we'll be able to really start

392

00:19:15,169 --> 00:19:11,879

crunching some numbers and doing pattern

393

00:19:18,859 --> 00:19:15,179

recognition and and you know looking for

394

00:19:21,259 --> 00:19:18,869

commonalities and looking for you know

395

00:19:24,529 --> 00:19:21,269

that holy grail of scientific research

396

00:19:27,259 --> 00:19:24,539

and that's repeatability and and that's

397

00:19:30,230 --> 00:19:27,269

you know we need to get systems out

398

00:19:32,539 --> 00:19:30,240

there and we need good annual analyzing

399

00:19:36,320 --> 00:19:32,549

going on after the data has been

400

00:19:38,629 --> 00:19:36,330

gathered so mark is is one of a number

401  
00:19:39,230 --> 00:19:38,639  
of people that we've invited to be to be

402  
00:19:41,299 --> 00:19:39,240  
involved

403  
00:19:43,820 --> 00:19:41,309  
Jacques Vallee kind of helped out a

404  
00:19:47,509 --> 00:19:43,830  
little bit gave us some ideas on some

405  
00:19:50,200 --> 00:19:47,519  
things to consider and we've also had

406  
00:19:53,920 --> 00:19:50,210  
like I said Reyes has

407  
00:19:56,710 --> 00:19:53,930  
has been you know sort of pointing

408  
00:19:59,200 --> 00:19:56,720  
things out and making suggestions and

409  
00:20:00,670 --> 00:19:59,210  
you know it's it's three steps forward

410  
00:20:03,850 --> 00:20:00,680  
two steps back like everything in life

411  
00:20:08,650 --> 00:20:03,860  
and you know when it's all being done on

412  
00:20:11,350 --> 00:20:08,660  
the cheap so to speak it's hard to get

413  
00:20:13,210 --> 00:20:11,360

things done sometimes but I think we

414

00:20:17,620 --> 00:20:13,220

have a lot of nice forward momentum now

415

00:20:21,730 --> 00:20:17,630

and and you know we've been approached

416

00:20:23,830 --> 00:20:21,740

by Kevin day who of course was the radar

417

00:20:26,860 --> 00:20:23,840

operator on the USS Princeton during the

418

00:20:28,810 --> 00:20:26,870

the Nimitz tick-tack event and he's

419

00:20:31,140 --> 00:20:28,820

going to be mounting an expedition to

420

00:20:33,160 --> 00:20:31,150

Catalina Island there off the coast of

421

00:20:34,570 --> 00:20:33,170

California and then later on the

422

00:20:36,940 --> 00:20:34,580

following year he's going down to

423

00:20:39,580 --> 00:20:36,950

Guadeloupe which is in the area where

424

00:20:41,440 --> 00:20:39,590

they had the tic-tac event and we're

425

00:20:45,370 --> 00:20:41,450

going to be helping out with some gear

426  
00:20:47,950 --> 00:20:45,380  
and and I think he's expecting at least

427  
00:20:49,720 --> 00:20:47,960  
one of us to go along I have good sea

428  
00:20:51,280 --> 00:20:49,730  
legs so I wouldn't line up and be kind

429  
00:20:53,920 --> 00:20:51,290  
of fun oh absolutely

430  
00:20:58,870 --> 00:20:53,930  
hey what about Peter Davenport's you

431  
00:21:02,350 --> 00:20:58,880  
know his passive radar idea yeah I'm

432  
00:21:06,180 --> 00:21:02,360  
like it was a pretty pretty solid yeah

433  
00:21:09,310 --> 00:21:06,190  
absolutely I have an active radar idea

434  
00:21:12,550 --> 00:21:09,320  
yeah yeah I know take a marine radar

435  
00:21:15,880 --> 00:21:12,560  
stick it on a pedestal that is being fed

436  
00:21:19,780 --> 00:21:15,890  
coordinate data so it'll you know pan

437  
00:21:24,790 --> 00:21:19,790  
and tilt according to you know where the

438  
00:21:27,850 --> 00:21:24,800

actual GPS signal is pointing it and you

439

00:21:32,620 --> 00:21:27,860

put a marine radar unit on it you dampen

440

00:21:35,500 --> 00:21:32,630

the signal 350 degrees of the sweep of

441

00:21:37,480 --> 00:21:35,510

the radar unit and then have a window

442

00:21:40,000 --> 00:21:37,490

that's pointed right at the event and

443

00:21:42,070 --> 00:21:40,010

you could sit there and paint it and get

444

00:21:46,240 --> 00:21:42,080

a return they're good up to about 40

445

00:21:48,100 --> 00:21:46,250

miles line-of-sight so the San Luis

446

00:21:51,070 --> 00:21:48,110

Valley where our first system was going

447

00:21:52,990 --> 00:21:51,080

in is radar and visible glow 18,000 feet

448

00:21:55,800 --> 00:21:53,000

we could probably get away with it for a

449

00:21:58,680 --> 00:21:55,810

while there is no radar in the valley

450

00:22:02,230 --> 00:21:58,690

the only problem is if our if our

451  
00:22:03,940 --> 00:22:02,240  
detection equipment detects an f-16

452  
00:22:06,909 --> 00:22:03,950  
zipping down the La Veta

453  
00:22:11,680 --> 00:22:06,919  
military operations you know MTR

454  
00:22:14,139 --> 00:22:11,690  
military training route I think the

455  
00:22:15,970 --> 00:22:14,149  
pilot would probably end up soiling his

456  
00:22:25,779 --> 00:22:15,980  
drawers and all of a sudden he gets

457  
00:22:29,889 --> 00:22:25,789  
painted I was just gonna say so we need

458  
00:22:32,169 --> 00:22:29,899  
to check into the legality of doing an

459  
00:22:32,560 --> 00:22:32,179  
active radar passive radar would be good

460  
00:22:36,100 --> 00:22:32,570  
too

461  
00:22:42,190 --> 00:22:36,110  
especially on a slave to plat platform

462  
00:22:44,019 --> 00:22:42,200  
like that it would be it would be again

463  
00:22:45,879 --> 00:22:44,029

it's just another tool you know it gives

464

00:22:48,180 --> 00:22:45,889

you another another set of information

465

00:22:52,210 --> 00:22:48,190

it gives you you know real accurate

466

00:22:55,240 --> 00:22:52,220

distance information yeah we have to go

467

00:22:56,440 --> 00:22:55,250

in to break in like two minutes but you

468

00:22:59,580 --> 00:22:56,450

know prior to that I'd like to at least

469

00:23:03,250 --> 00:22:59,590

begin talking about the San Luis Valley

470

00:23:05,230 --> 00:23:03,260

just because we do have a lot of new

471

00:23:08,500 --> 00:23:05,240

listeners to the show and a lot of new

472

00:23:12,279 --> 00:23:08,510

listeners that are not are just like new

473

00:23:15,159 --> 00:23:12,289

to the UFO topic so well if you can fill

474

00:23:17,379 --> 00:23:15,169

in like for the person just listening

475

00:23:20,320 --> 00:23:17,389

for the first time what kind of hot

476

00:23:22,600 --> 00:23:20,330

spots are there are including the San

477

00:23:23,830 --> 00:23:22,610

Luis Valley yeah we don't have to save

478

00:23:25,509 --> 00:23:23,840

that for when we come back from the

479

00:23:30,129 --> 00:23:25,519

break because we're coming right up to

480

00:23:31,629 --> 00:23:30,139

it yeah yeah well we'll do that when we

481

00:23:35,080 --> 00:23:31,639

get back home I'll go ahead and give

482

00:23:37,779 --> 00:23:35,090

them a a thumbnail sketch of the actual

483

00:23:40,480 --> 00:23:37,789

valley and the 25 years of work that

484

00:23:43,000 --> 00:23:40,490

I've been doing there excellent okay so

485

00:23:44,860 --> 00:23:43,010

we're gonna head into break this is

486

00:23:51,779 --> 00:23:44,870

Martin Willis and we'll be right back

487

00:23:56,980 --> 00:23:54,370

we're clear gentlemen four minutes in

488

00:23:59,379 --> 00:23:56,990

this bright all right excellent except I

489

00:24:01,919 --> 00:23:59,389

guess what Chris look I didn't tell you

490

00:24:10,450 --> 00:24:01,929

this but we're still live on YouTube

491

00:24:13,060 --> 00:24:10,460

okay so good thing you so you say you're

492

00:24:14,350 --> 00:24:13,070

out in New York so we'll just talk about

493

00:24:17,710 --> 00:24:14,360

yeah we'll get back to the San Luis

494

00:24:20,230 --> 00:24:17,720

Valley when we come back but you're in

495

00:24:22,090 --> 00:24:20,240

York have you paid attention I mean

496

00:24:24,810 --> 00:24:22,100

there's that's there's a lot of activity

497

00:24:27,090 --> 00:24:24,820

in upper state New York earlier yes but

498

00:24:30,100 --> 00:24:27,100

yeah there's been some Bigfoot reports

499

00:24:31,470 --> 00:24:30,110

we've had a few sighting events nothing

500

00:24:33,940 --> 00:24:31,480

near me

501  
00:24:36,820 --> 00:24:33,950  
Cheryl cost of course is just up the

502  
00:24:39,390 --> 00:24:36,830  
road and I think Syracuse and then

503  
00:24:42,460 --> 00:24:39,400  
Richard Owens just up the road in

504  
00:24:45,300 --> 00:24:42,470  
Rochester and Peter Robbins is he's

505  
00:24:47,980 --> 00:24:45,310  
pretty close to me he's up by Ithaca and

506  
00:24:51,130 --> 00:24:47,990  
and then I'm right on the border with

507  
00:24:57,190 --> 00:24:51,140  
Pennsylvania whereas some people around

508  
00:24:59,530 --> 00:24:57,200  
here call it pencil talkie and of course

509  
00:25:02,500 --> 00:24:59,540  
they've there they've the northeast

510  
00:25:05,700 --> 00:25:02,510  
corner of the state is has been a hotbed

511  
00:25:09,340 --> 00:25:05,710  
of activity on and off over the years

512  
00:25:12,930 --> 00:25:09,350  
you know north of books berry and

513  
00:25:17,710 --> 00:25:12,940

Scranton that area north of there and I

514

00:25:20,020 --> 00:25:17,720

will be I'm sorry Pine Bush is that the

515

00:25:23,530 --> 00:25:20,030

name of the place I'm thinking of yeah

516

00:25:27,670 --> 00:25:23,540

that's in New York is that I don't yeah

517

00:25:29,860 --> 00:25:27,680

it's fairly close yeah yeah that was you

518

00:25:32,220 --> 00:25:29,870

know it's over it's over to the east on

519

00:25:34,180 --> 00:25:32,230

the Hudson there and near the Hudson I

520

00:25:36,850 --> 00:25:34,190

think it's on the other side of the

521

00:25:39,010 --> 00:25:36,860

Hudson actually Peggy that's been

522

00:25:42,280 --> 00:25:39,020

helping out for years with our Facebook

523

00:25:44,680 --> 00:25:42,290

page has she used to live in that area

524

00:25:46,450 --> 00:25:44,690

and she used to talk about where she's

525

00:25:48,190 --> 00:25:46,460

told me stories about getting the lawn

526

00:25:50,380 --> 00:25:48,200

chair and like going out there was all

527

00:25:52,090 --> 00:25:50,390

these people would just be sitting there

528

00:25:53,620 --> 00:25:52,100

and and waiting for something to happen

529

00:25:56,200 --> 00:25:53,630

a lot of times it would happen

530

00:25:59,380 --> 00:25:56,210

yeah pretty ya know I remember talking

531

00:26:02,770 --> 00:25:59,390

with Ellen Crystal and Bruce Cornett

532

00:26:08,740 --> 00:26:02,780

back in the early 90s and and then when

533

00:26:10,390 --> 00:26:08,750

I lived in Riverdale there was well

534

00:26:12,580 --> 00:26:10,400

actually I was in Manhattan by the time

535

00:26:14,020 --> 00:26:12,590

when the wave started but I had a friend

536

00:26:16,060 --> 00:26:14,030

in Riverdale when we go up there and

537

00:26:18,070 --> 00:26:16,070

then head north up the Hudson to

538

00:26:20,890 --> 00:26:18,080

untermeyer State Park there north of

539

00:26:23,800 --> 00:26:20,900

Yonkers back in the mid 80s and early

540

00:26:26,200 --> 00:26:23,810

eighties when the when the you know the

541

00:26:29,560 --> 00:26:26,210

Hudson Valley sightings were happening

542

00:26:31,550 --> 00:26:29,570

and I met a number of people and had a

543

00:26:33,860 --> 00:26:31,560

couple of friends that actually had

544

00:26:35,990 --> 00:26:33,870

really good sightings and so I was

545

00:26:38,180 --> 00:26:36,000

always jealous because whenever I would

546

00:26:40,010 --> 00:26:38,190

go out and nothing would happen and and

547

00:26:41,450 --> 00:26:40,020

then I'd you know invariably somebody

548

00:26:43,640 --> 00:26:41,460

would call up and say wow you wouldn't

549

00:26:45,950 --> 00:26:43,650

believe what we saw the other night so

550

00:26:49,490 --> 00:26:45,960

you know it's just my luck I guess back

551  
00:26:51,890 --> 00:26:49,500  
then yeah I never did get to see

552  
00:26:55,450 --> 00:26:51,900  
anything in chat someone wanted to know

553  
00:26:58,820 --> 00:26:55,460  
what brought you to upstate New York a

554  
00:27:02,030 --> 00:26:58,830  
friend uh yeah my friend Fritz who I

555  
00:27:04,310 --> 00:27:02,040  
have known forty forty plus years he he

556  
00:27:07,670 --> 00:27:04,320  
was kind of undergoing a health crisis

557  
00:27:11,480 --> 00:27:07,680  
and and was you know needed a little

558  
00:27:13,900 --> 00:27:11,490  
some help and and I came and kind of did

559  
00:27:16,370 --> 00:27:13,910  
a little medical early intervention and

560  
00:27:18,170 --> 00:27:16,380  
got him some care he'd never been to a

561  
00:27:24,770 --> 00:27:18,180  
doctor in his life and he really you

562  
00:27:26,690 --> 00:27:24,780  
know he needed to needed to be needed

563  
00:27:29,270 --> 00:27:26,700

somebody to intervene medically for him

564

00:27:31,910 --> 00:27:29,280

and so uh he's doing much much better he

565

00:27:34,310 --> 00:27:31,920

was not in good shape when I first

566

00:27:36,230 --> 00:27:34,320

arrived here a year ago I remember it's

567

00:27:38,300 --> 00:27:36,240

been almost two years yeah yeah yeah we

568

00:27:40,430 --> 00:27:38,310

had the conversation so yeah I was glad

569

00:27:43,160 --> 00:27:40,440

to hear that he's suing really well yeah

570

00:27:47,870 --> 00:27:43,170

much better yeah you did a really good

571

00:27:50,720 --> 00:27:47,880

thing by doing that yeah yeah living in

572

00:27:53,690 --> 00:27:50,730

the desert about every 13 14 years I

573

00:27:56,390 --> 00:27:53,700

need a couple of year break you know get

574

00:27:59,930 --> 00:27:56,400

off get out of the desert get get into a

575

00:28:02,990 --> 00:27:59,940

place it's a little bit here we go

576

00:28:06,880 --> 00:28:03,000

better weather yeah going back we're

577

00:28:12,830 --> 00:28:09,530

Martin I got a guy in the tack room a

578

00:28:16,640 --> 00:28:12,840

cage he already yep he says you look

579

00:28:18,620 --> 00:28:16,650

like Richard Drive I think that's a

580

00:28:19,550 --> 00:28:18,630

common root you're dry yes I think

581

00:28:23,780 --> 00:28:19,560

that's a compliment

582

00:28:28,520 --> 00:28:23,790

Oh would you took your hat off in your

583

00:28:31,100 --> 00:28:28,530

glasses I was like really okay here we

584

00:28:35,270 --> 00:28:31,110

go guys and we're right on time at

585

00:28:40,580 --> 00:28:35,280

sixteen twenty nine thirty in five four

586

00:28:42,650 --> 00:28:40,590

three two already one welcome back to

587

00:28:44,960 --> 00:28:42,660

the show my guest tonight is Chris

588

00:28:45,500 --> 00:28:44,970

O'Brien and before we went into break we

589

00:28:48,640 --> 00:28:45,510

were talking

590

00:28:52,090 --> 00:28:48,650

about the San Luis Valley in Colorado

591

00:28:55,970 --> 00:28:52,100

it's is it down near four corners Chris

592

00:28:57,410 --> 00:28:55,980

it is considered the northeast corner

593

00:29:01,570 --> 00:28:57,420

about four corners

594

00:29:04,160 --> 00:29:01,580

oh okay so it is yeah yeah yeah it's the

595

00:29:06,440 --> 00:29:04,170

world's largest alpine valley it's and

596

00:29:09,890 --> 00:29:06,450

right above the border with New Mexico

597

00:29:12,740 --> 00:29:09,900

and it actually goes below into New

598

00:29:16,790 --> 00:29:12,750

Mexico and down to Taos and it's about

599

00:29:18,500 --> 00:29:16,800

130 miles long 6070 miles wide it's

600

00:29:21,410 --> 00:29:18,510

football shape completely ringed by

601  
00:29:24,170 --> 00:29:21,420  
mountains the valley sits the valley

602  
00:29:26,360 --> 00:29:24,180  
floor is at seven thousand six hundred

603  
00:29:31,970 --> 00:29:26,370  
feet and then the mountains go up to 14

604  
00:29:34,790 --> 00:29:31,980  
a lot of them and it's arguably has a

605  
00:29:38,000 --> 00:29:34,800  
variety and intensity of unexplained

606  
00:29:40,700 --> 00:29:38,010  
events that I've yet to find another

607  
00:29:44,390 --> 00:29:40,710  
place that rivals it some people think

608  
00:29:48,620 --> 00:29:44,400  
Sedona is has more activity but it

609  
00:29:51,980 --> 00:29:48,630  
really doesn't relatively speaking back

610  
00:29:57,070 --> 00:29:51,990  
in the early 90s they did a the computer

611  
00:29:59,570 --> 00:29:57,080  
UFO network did a a per capita rating of

612  
00:30:02,420 --> 00:29:59,580  
hotspot areas in the country for UFO

613  
00:30:07,340 --> 00:30:02,430

sightings and the San Luis Valley was

614

00:30:11,030 --> 00:30:07,350

271 sightings per 10,000 population and

615

00:30:18,050 --> 00:30:11,040

the next nearest was Bucks County which

616

00:30:21,320 --> 00:30:18,060

is 57 Ill estimate that one in 50 UFO

617

00:30:23,180 --> 00:30:21,330

sightings are reported people actually

618

00:30:25,670 --> 00:30:23,190

have become used to them and it's not

619

00:30:27,800 --> 00:30:25,680

that big of a deal so people see stuff

620

00:30:30,260 --> 00:30:27,810

all the time there I had dozens of

621

00:30:32,330 --> 00:30:30,270

sightings in the 13 years I was there

622

00:30:35,270 --> 00:30:32,340

including some daylight sightings that

623

00:30:37,640 --> 00:30:35,280

were just amazing what one little scout

624

00:30:39,500 --> 00:30:37,650

ship there 150 feet away from I flew

625

00:30:44,210 --> 00:30:39,510

right in front of our car as we were

626

00:30:46,430 --> 00:30:44,220

driving it's the variety intensity and

627

00:30:48,610 --> 00:30:46,440

intensity of unexplained occurrences

628

00:30:51,860 --> 00:30:48,620

there it's just it's just it's

629

00:30:54,770 --> 00:30:51,870

jaw-dropping I mean pretty much any type

630

00:30:57,380 --> 00:30:54,780

of UFO craft that has been reported

631

00:30:59,389 --> 00:30:57,390

you'll at some point somebody will see

632

00:31:03,079 --> 00:30:59,399

it all the holiday

633

00:31:07,459 --> 00:31:03,089

and colored orbs from the real big green

634

00:31:10,459 --> 00:31:07,469

fire balls to the small ruby red balls

635

00:31:11,839 --> 00:31:10,469

it zip around and the orange ones that

636

00:31:14,659 --> 00:31:11,849

are medium-sized and then a little

637

00:31:20,329 --> 00:31:14,669

smaller the the you know the kind of

638

00:31:22,639 --> 00:31:20,339

incandescent to yellow we have fields of

639

00:31:24,259 --> 00:31:22,649

lights that light up that nobody's been

640

00:31:26,599 --> 00:31:24,269

able to figure out what they are there's

641

00:31:28,399 --> 00:31:26,609

thousands of light it's little light up

642

00:31:32,959 --> 00:31:28,409

a whole hillside blinking on and off

643

00:31:36,529 --> 00:31:32,969

like like lightning bugs or fireflies

644

00:31:40,969 --> 00:31:36,539

and then Bigfoot and other crypto

645

00:31:42,979 --> 00:31:40,979

creatures elementals small little

646

00:31:45,320 --> 00:31:42,989

diminutive type creatures that you

647

00:31:49,930 --> 00:31:45,330

normally associate with with Celtic

648

00:31:53,779 --> 00:31:49,940

countries what did you buy elementals

649

00:31:57,499 --> 00:31:53,789

trooping fairies little guys with green

650

00:31:59,570 --> 00:31:57,509

outfits on and sunburned faces it is

651

00:32:03,680 --> 00:31:59,580

it's just some of the reports are just

652

00:32:07,849 --> 00:32:03,690

mind-blowing and coming from really good

653

00:32:10,609 --> 00:32:07,859

experts or good witnesses people that

654

00:32:13,339 --> 00:32:10,619

are above above you know suspicion or

655

00:32:16,959 --> 00:32:13,349

reproach including world class you know

656

00:32:20,810 --> 00:32:16,969

one of the most famous musicians in old

657

00:32:22,249 --> 00:32:20,820

ed he was in his studio and he he saw

658

00:32:26,180 --> 00:32:22,259

movement out of the corner of his eye

659

00:32:28,609 --> 00:32:26,190

and coming through the closed door was a

660

00:32:30,979 --> 00:32:28,619

line of he said they're about eight or

661

00:32:32,269 --> 00:32:30,989

nine inches tall and he says they're

662

00:32:34,639 --> 00:32:32,279

about seven or eight of them when they

663

00:32:37,849 --> 00:32:34,649

came through the door and in a line they

664

00:32:41,060 --> 00:32:37,859

marched right right by him two feet away

665

00:32:43,099 --> 00:32:41,070

and then disappeared in the wall it was

666

00:32:45,680 --> 00:32:43,109

through the wall of a studio he said

667

00:32:48,680 --> 00:32:45,690

they were just in little robes and had

668

00:32:51,739 --> 00:32:48,690

these tall like Keystone cop hats on and

669

00:32:53,570 --> 00:32:51,749

he said um they all went to the wall and

670

00:32:55,700 --> 00:32:53,580

then the last one stopped and it turned

671

00:32:58,070 --> 00:32:55,710

around and it looked at him and gave him

672

00:33:05,419 --> 00:32:58,080

a dirty look and then turn around and

673

00:33:06,950 --> 00:33:05,429

walk I'm not making this up and he he

674

00:33:09,469 --> 00:33:06,960

had seen other things around this house

675

00:33:11,359 --> 00:33:09,479

and he he just he was too embarrassed to

676

00:33:13,340 --> 00:33:11,369

call me but he said after that he says I

677

00:33:15,590 --> 00:33:13,350

I know you're gonna think I'm

678

00:33:17,930 --> 00:33:15,600

totally nuts and Andy you know he didn't

679

00:33:20,930 --> 00:33:17,940

drink he didn't do drugs he's a marshal

680

00:33:24,980 --> 00:33:20,940

umpteenth yeah no mushrooms you know

681

00:33:27,370 --> 00:33:24,990

he's a really spiritual guys black you

682

00:33:31,460 --> 00:33:27,380

know umpteenth black belt in karate and

683

00:33:34,250 --> 00:33:31,470

had 40 patents and you had the patent

684

00:33:36,529 --> 00:33:34,260

for the electronic guitar was a keyboard

685

00:33:39,169 --> 00:33:36,539

player on the Star Trek theme on all the

686

00:33:42,770 --> 00:33:39,179

golden age of television stuff 600 film

687

00:33:45,470 --> 00:33:42,780

and TV credits not a lightweight and not

688

00:33:48,399 --> 00:33:45,480

somebody that you would you know think

689

00:33:51,320 --> 00:33:48,409

was gonna be trying to you know come

690

00:33:54,049 --> 00:33:51,330

hallucinate something a weird experience

691

00:33:55,399 --> 00:33:54,059

like that and it came on the heels of a

692

00:33:58,310 --> 00:33:55,409

bunch of stuff that had been happening

693

00:34:00,850 --> 00:33:58,320

around his house and it just so happens

694

00:34:03,730 --> 00:34:00,860

he happens to live by some sort of

695

00:34:06,200 --> 00:34:03,740

portal or doorway to some other realm

696

00:34:08,659 --> 00:34:06,210

it's right over the hill from his house

697

00:34:11,599 --> 00:34:08,669

that I was able to finally after years

698

00:34:14,030 --> 00:34:11,609

of painting it down I was able to ID the

699

00:34:17,510 --> 00:34:14,040

actual spot talk about a place to put

700

00:34:22,010 --> 00:34:17,520

some gear that would be home and I would

701  
00:34:25,820 --> 00:34:22,020  
love to put some gear there that's one

702  
00:34:28,700 --> 00:34:25,830  
of the strangest stories yeah I know I

703  
00:34:31,669 --> 00:34:28,710  
know it's it's just bizarre why do you

704  
00:34:33,830 --> 00:34:31,679  
think there are locations you just

705  
00:34:35,510 --> 00:34:33,840  
mentioned a portal a possible portal

706  
00:34:38,090 --> 00:34:35,520  
whatever I just said but why do you

707  
00:34:42,340 --> 00:34:38,100  
think there are locations where there

708  
00:34:46,099 --> 00:34:42,350  
are hotspots and and you know all these

709  
00:34:49,909 --> 00:34:46,109  
it's not unusual that there's other

710  
00:34:53,240 --> 00:34:49,919  
things besides UFOs and what is a UFO

711  
00:34:56,090 --> 00:34:53,250  
hotspot yeah well I have a little

712  
00:34:57,859 --> 00:34:56,100  
formula that if you you can say these

713  
00:35:00,020 --> 00:34:57,869

five things about a place it's going to

714

00:35:02,780 --> 00:35:00,030

be a hotspot area it's a place that's

715

00:35:05,120 --> 00:35:02,790

held as sacred to the indigenous people

716

00:35:07,370 --> 00:35:05,130

of the area a place that has sacred

717

00:35:10,099 --> 00:35:07,380

sites that go back into prehistory a

718

00:35:12,890 --> 00:35:10,109

place it has ebbing and flowing waves of

719

00:35:16,580 --> 00:35:12,900

unusual activity not just one thing but

720

00:35:19,730 --> 00:35:16,590

but multiple things it's also a place

721

00:35:23,090 --> 00:35:19,740

that has unusual geophysical properties

722

00:35:25,490 --> 00:35:23,100

whether it's a like in the case of the

723

00:35:27,320 --> 00:35:25,500

San Luis Valley minimum and maximum

724

00:35:29,510 --> 00:35:27,330

magnetic field strength

725

00:35:32,090 --> 00:35:29,520

butted up against one another in close

726

00:35:33,770 --> 00:35:32,100

proximity and also in the case of the

727

00:35:35,630 --> 00:35:33,780

valley and also like places like

728

00:35:38,300 --> 00:35:35,640

Wilshire and England you have

729

00:35:40,820 --> 00:35:38,310

alternating layers of water clay and

730

00:35:46,400 --> 00:35:40,830

sand which creates almost like a natural

731

00:35:48,380 --> 00:35:46,410

battery I really have a sense that veins

732

00:35:53,390 --> 00:35:48,390

of quartz

733

00:35:56,600 --> 00:35:53,400

Cristo's in fact on super cold dry

734

00:35:58,460 --> 00:35:56,610

winter nights it's pretty rare I've only

735

00:36:02,050 --> 00:35:58,470

seen it once or twice but you can see

736

00:36:03,920 --> 00:36:02,060

the the actual cold electricity

737

00:36:05,500 --> 00:36:03,930

grounding from the quartz in the

738

00:36:11,180 --> 00:36:05,510

mountains going up into the atmosphere

739

00:36:13,700 --> 00:36:11,190

and so there's a lot of quartz there and

740

00:36:15,860 --> 00:36:13,710

usually an area like this will have a

741

00:36:17,750 --> 00:36:15,870

military or government presence and

742

00:36:20,030 --> 00:36:17,760

oftentimes the government's trying to

743

00:36:24,740 --> 00:36:20,040

expand their presence further into the

744

00:36:26,900 --> 00:36:24,750

area to get more control of the area so

745

00:36:28,520 --> 00:36:26,910

if you have those five things chances

746

00:36:31,520 --> 00:36:28,530

are you're gonna have a place like

747

00:36:33,110 --> 00:36:31,530

Sedona or around Mount Shasta you know

748

00:36:37,070 --> 00:36:33,120

there's some other spots in the Pacific

749

00:36:39,380 --> 00:36:37,080

Northwest Pine Bush white sands down in

750

00:36:43,370 --> 00:36:39,390

New Mexico there's some really cool

751

00:36:45,470 --> 00:36:43,380

places in in Idaho and Montana there's

752

00:36:48,230 --> 00:36:45,480

places all all up and down the Ohio

753

00:36:51,080 --> 00:36:48,240

River Valley where your mountain culture

754

00:36:55,340 --> 00:36:51,090

used to be located oftentimes those

755

00:36:58,250 --> 00:36:55,350

mounds are on sites that that have that

756

00:37:01,930 --> 00:36:58,260

those five elements involved so that's

757

00:37:05,150 --> 00:37:01,940

kind of a formula that you can use and

758

00:37:06,920 --> 00:37:05,160

it's it's it's interesting when when

759

00:37:08,840 --> 00:37:06,930

things are gonna happen in the San Luis

760

00:37:11,090 --> 00:37:08,850

Valley we see these things I call cheap

761

00:37:14,330 --> 00:37:11,100

fireworks they're like giant bottle

762

00:37:16,340 --> 00:37:14,340

rockets that fizzle out and I've seen

763

00:37:18,950 --> 00:37:16,350

them below me and altitude complete

764

00:37:23,090 --> 00:37:18,960

uniform overcast sky and the thing

765

00:37:26,420 --> 00:37:23,100

arched over Spanish Creek which is lined

766

00:37:28,070 --> 00:37:26,430

with trees and it was just dark enough

767

00:37:30,260 --> 00:37:28,080

so that you could see the light from the

768

00:37:32,510 --> 00:37:30,270

object was actually illuminating the

769

00:37:34,580 --> 00:37:32,520

tops of the trees these cheap fireworks

770

00:37:37,250 --> 00:37:34,590

tend to happen at the beginning of a

771

00:37:40,250 --> 00:37:37,260

wave of activity and then boom will have

772

00:37:41,210 --> 00:37:40,260

UFO reports will have you know crypto

773

00:37:44,180 --> 00:37:41,220

sightings

774

00:37:48,320 --> 00:37:44,190

one year was flying humanoids we had a

775

00:37:50,599 --> 00:37:48,330

whole flurry of sightings some of these

776

00:37:53,030 --> 00:37:50,609

undulating forms that I call prairie

777

00:37:54,710 --> 00:37:53,040

dragons that people see they think you

778

00:37:55,910 --> 00:37:54,720

know they usually see them out of the

779

00:37:58,580 --> 00:37:55,920

corner of their eye and so they don't

780

00:38:00,710 --> 00:37:58,590

really pay attention but I was actually

781

00:38:04,160 --> 00:38:00,720

seen looked right at one in it he went

782

00:38:06,500 --> 00:38:04,170

right in front of me then when the wave

783

00:38:09,050 --> 00:38:06,510

is over in a matter of days or a week or

784

00:38:10,760 --> 00:38:09,060

a month then you'll have more cheap

785

00:38:14,359 --> 00:38:10,770

fireworks that kind of indicate the end

786

00:38:16,430 --> 00:38:14,369

of the of the cycle so you know once

787

00:38:19,130 --> 00:38:16,440

you've been in an area like I was there

788

00:38:21,920 --> 00:38:19,140

for you know doing full its full time

789

00:38:24,470 --> 00:38:21,930

investigating as I could you start to if

790

00:38:26,120 --> 00:38:24,480

you're writing everything down you can

791

00:38:29,150 --> 00:38:26,130

start to determine that there are some

792

00:38:33,080 --> 00:38:29,160

patterns within the data and that you

793

00:38:36,230 --> 00:38:33,090

can you can almost see how things kind

794

00:38:38,810 --> 00:38:36,240

of unfold in an area like the San Luis

795

00:38:41,510 --> 00:38:38,820

Valley and there there is a what appears

796

00:38:46,190 --> 00:38:41,520

to be a sequence of events that rushes

797

00:38:49,220 --> 00:38:46,200

in and ushers out away and I do feel at

798

00:38:52,310 --> 00:38:49,230

the San Luis Valley is arguably the has

799

00:38:55,460 --> 00:38:52,320

the most variety and intensity of

800

00:38:57,740 --> 00:38:55,470

unexplained occurrences anywhere in

801

00:39:01,609 --> 00:38:57,750

North America I have not heard of a

802

00:39:05,089 --> 00:39:01,619

place that has more and an intense - I

803

00:39:07,160 --> 00:39:05,099

had in in the middle of a wave I had 17

804

00:39:11,320 --> 00:39:07,170

phone calls in one day about five

805

00:39:15,230 --> 00:39:11,330

separate events just give you an idea

806

00:39:17,780 --> 00:39:15,240

well how active it can be yeah how about

807

00:39:20,180 --> 00:39:17,790

that you know that I've been to four

808

00:39:22,130 --> 00:39:20,190

corners and I've I've been up to the

809

00:39:25,579 --> 00:39:22,140

Shasta Wat when I lived out in

810

00:39:31,760 --> 00:39:25,589

California I would go up to this Lake

811

00:39:34,550 --> 00:39:31,770

area up there just q that's the county

812

00:39:38,960 --> 00:39:34,560

yeah so I would go there quite a bit and

813

00:39:41,810 --> 00:39:38,970

I do remember I definitely remember

814

00:39:43,490 --> 00:39:41,820

feeling there was like I wanted to get

815

00:39:48,440 --> 00:39:43,500

out of four corners when I went there

816

00:39:49,940 --> 00:39:48,450

that area something felt really it felt

817

00:39:52,670 --> 00:39:49,950

really weird and this before I was

818

00:39:53,089 --> 00:39:52,680

looking into UFOs at all this was many

819

00:39:54,710 --> 00:39:53,099

years ago

820

00:39:56,480 --> 00:39:54,720

same thing with Shasta there

821

00:39:59,330 --> 00:39:56,490

a few areas up there that I just had

822

00:40:01,880 --> 00:39:59,340

just a strange feeling nothing else I

823

00:40:05,960 --> 00:40:01,890

didn't see anything nothing like that

824

00:40:07,370 --> 00:40:05,970

but but I do hear there's a lot you know

825

00:40:09,770 --> 00:40:07,380

since I moved out of that area I heard

826

00:40:12,020 --> 00:40:09,780

there is a lot in chests and I've never

827

00:40:14,810 --> 00:40:12,030

really heard of any main incident are

828

00:40:17,390 --> 00:40:14,820

you aware of any you know incident or is

829

00:40:19,609 --> 00:40:17,400

it just like things are dying it's just

830

00:40:22,160 --> 00:40:19,619

I mean if you look at some of these

831

00:40:24,650 --> 00:40:22,170

stories of the wind - and other natives

832

00:40:26,390 --> 00:40:24,660

in the area and then equate it to some

833

00:40:28,480 --> 00:40:26,400

of the events that have been reported

834

00:40:30,740 --> 00:40:28,490

down to the years

835

00:40:33,500 --> 00:40:30,750

again the Deb's and flows and it's

836

00:40:35,030 --> 00:40:33,510

fairly consistent there as well as

837

00:40:37,700 --> 00:40:35,040

around Mount Adams that the big

838

00:40:40,720 --> 00:40:37,710

volcanoes for some reason tend to have

839

00:40:44,420 --> 00:40:40,730

this kind of activity Mount st. Helens

840

00:40:48,440 --> 00:40:44,430

Mount Rainier those big mountains there

841

00:40:51,680 --> 00:40:48,450

along the Cascade Range in the Pacific

842

00:40:54,130 --> 00:40:51,690

Coast mountains you know do have a lot

843

00:40:57,550 --> 00:40:54,140

of very interesting stuff going on I

844

00:41:00,500 --> 00:40:57,560

can't really think of anything offhand

845

00:41:03,170 --> 00:41:00,510

of course you have your your apocryphal

846

00:41:07,030 --> 00:41:03,180

stories of the the white robed white

847

00:41:11,000 --> 00:41:07,040

haired it's all kind of Nordic looking

848

00:41:13,579 --> 00:41:11,010

hitchhikers that some people claim live

849

00:41:18,260 --> 00:41:13,589

inside Mount Shasta and of course they

850

00:41:20,810 --> 00:41:18,270

do in hey hey someone just posted

851  
00:41:22,820 --> 00:41:20,820  
something on we have to go to break and

852  
00:41:26,630 --> 00:41:22,830  
now as like let's see how many minutes

853  
00:41:28,190 --> 00:41:26,640  
looks like seven minutes so I do want to

854  
00:41:29,510 --> 00:41:28,200  
get into this subject a little bit and I

855  
00:41:31,720 --> 00:41:29,520  
wondered if you looked into it I think

856  
00:41:35,089 --> 00:41:31,730  
last time you were gonna be on we

857  
00:41:37,550 --> 00:41:35,099  
briefly talked about it or passed an

858  
00:41:40,339 --> 00:41:37,560  
email about it the drones the drone

859  
00:41:43,910 --> 00:41:40,349  
situation out there any AHA Loretto have

860  
00:41:45,500 --> 00:41:43,920  
have you looked into that at all yeah

861  
00:41:47,089 --> 00:41:45,510  
and a friend of mine is really doing

862  
00:41:49,609 --> 00:41:47,099  
some major digging on that there's

863  
00:41:51,530 --> 00:41:49,619

there's something going on there may be

864

00:41:53,140 --> 00:41:51,540

some sort of espionage it may have

865

00:41:57,410 --> 00:41:53,150

something to do with the Chinese

866

00:41:59,660 --> 00:41:57,420

evidently the the u.s. is now put a

867

00:42:02,349 --> 00:41:59,670

moratorium on any Chinese drone sales

868

00:42:06,050 --> 00:42:02,359

and I have a real strong hunch that

869

00:42:08,480 --> 00:42:06,060

there may be a connection if you look at

870

00:42:10,250 --> 00:42:08,490

a map where the drone events are being

871

00:42:13,010 --> 00:42:10,260

ported and then look a map at a map of

872

00:42:15,430 --> 00:42:13,020

the the missile fields of our ballistic

873

00:42:18,560 --> 00:42:15,440

missile sites in Wyoming Montana

874

00:42:22,180 --> 00:42:18,570

Nebraska and Colorado it's in the same

875

00:42:27,130 --> 00:42:22,190

area it may be some sort of systematic

876  
00:42:29,270 --> 00:42:27,140  
you know I guess it would be espionage

877  
00:42:32,359 --> 00:42:29,280  
that's that's about as close as I can

878  
00:42:34,359 --> 00:42:32,369  
get it's also the hardest hit area back

879  
00:42:38,270 --> 00:42:34,369  
in the 70s for cattle mutilations oh

880  
00:42:41,150 --> 00:42:38,280  
yeah that that is a subject I did want

881  
00:42:45,050 --> 00:42:41,160  
to talk a little bit about but but was

882  
00:42:48,650 --> 00:42:45,060  
it weren't there reports of the actions

883  
00:42:50,150 --> 00:42:48,660  
of these drones or some characteristics

884  
00:42:51,740 --> 00:42:50,160  
about them that where people were saying

885  
00:42:55,160 --> 00:42:51,750  
well that that doesn't sound like a

886  
00:42:57,560 --> 00:42:55,170  
drone or that any part of that have you

887  
00:42:59,600 --> 00:42:57,570  
heard about well yeah some of them were

888  
00:43:02,570 --> 00:42:59,610

pretty large from what I understand that

889

00:43:04,760 --> 00:43:02,580

they were the real big ones and and they

890

00:43:06,830 --> 00:43:04,770

don't have the high-pitched whine that

891

00:43:09,560 --> 00:43:06,840

the the smaller ones like the phantoms

892

00:43:12,020 --> 00:43:09,570

and the you know the smaller drones do

893

00:43:15,440 --> 00:43:12,030

they have a deeper deeper sound because

894

00:43:19,190 --> 00:43:15,450

the engines are bigger so you know and

895

00:43:20,420 --> 00:43:19,200

this is one group UFO group I think they

896

00:43:22,609 --> 00:43:20,430

came forward and claimed that it was

897

00:43:29,140 --> 00:43:22,619

them and I think they were just looking

898

00:43:33,430 --> 00:43:29,150

for publicity this was a real extensive

899

00:43:36,590 --> 00:43:33,440

flight program that somebody was in

900

00:43:40,970 --> 00:43:36,600

acting it was there was a lot of

901  
00:43:43,220 --> 00:43:40,980  
activity and it it sounds like either

902  
00:43:46,400 --> 00:43:43,230  
some big corporation or were the

903  
00:43:48,620 --> 00:43:46,410  
government or maybe even or another like

904  
00:43:51,320 --> 00:43:48,630  
I said it could be the Chinese the

905  
00:43:53,690 --> 00:43:51,330  
Russians who knows I haven't really dug

906  
00:43:56,660 --> 00:43:53,700  
into it that much but I have a friend

907  
00:43:57,920 --> 00:43:56,670  
who's really digging into it and he's

908  
00:44:00,770 --> 00:43:57,930  
been uncovering some pretty interesting

909  
00:44:04,010 --> 00:44:00,780  
stuff that he's gonna do an article or

910  
00:44:05,690 --> 00:44:04,020  
something at some point about it it

911  
00:44:07,340 --> 00:44:05,700  
seems to have dropped off I haven't

912  
00:44:09,890 --> 00:44:07,350  
heard very much about it in the last

913  
00:44:12,920 --> 00:44:09,900

three weeks or so right so I'm not sure

914

00:44:14,510 --> 00:44:12,930

if those sightings are continuing or and

915

00:44:16,700 --> 00:44:14,520

we're just not hearing about them or or

916

00:44:20,000 --> 00:44:16,710

they've they've actually subsided I

917

00:44:21,710 --> 00:44:20,010

wonder if any one I believe I read that

918

00:44:24,470 --> 00:44:21,720

someone did ask

919

00:44:26,599 --> 00:44:24,480

there was any military you know side of

920

00:44:30,800 --> 00:44:26,609

this and they said no the there was

921

00:44:33,500 --> 00:44:30,810

nothing the military was involved in you

922

00:44:35,570 --> 00:44:33,510

know but I guess that's not true because

923

00:44:37,520 --> 00:44:35,580

there were waves of drones and then

924

00:44:40,280 --> 00:44:37,530

other drones would come and chase the

925

00:44:43,359 --> 00:44:40,290

other drones so there were what appeared

926  
00:44:46,339 --> 00:44:43,369  
to be confrontations drone on drones so

927  
00:44:48,530 --> 00:44:46,349  
that yeah you don't hear much about that

928  
00:44:51,260 --> 00:44:48,540  
but you know if these things are flying

929  
00:44:53,270 --> 00:44:51,270  
into restricted airspace around missile

930  
00:44:55,810 --> 00:44:53,280  
silos you know there's gonna be some

931  
00:44:57,650 --> 00:44:55,820  
sort of military or government response

932  
00:44:58,970 --> 00:44:57,660  
yeah right

933  
00:45:01,070 --> 00:44:58,980  
I don't know what I was thinking about

934  
00:45:03,380 --> 00:45:01,080  
time we still have about nine minutes

935  
00:45:05,570 --> 00:45:03,390  
left I said seven minutes about five

936  
00:45:07,700 --> 00:45:05,580  
minutes ago I'm not good at math tonight

937  
00:45:10,160 --> 00:45:07,710  
that Wow

938  
00:45:13,609 --> 00:45:10,170

so yeah you haven't heard about anything

939

00:45:15,260 --> 00:45:13,619

happening with them lately and so so

940

00:45:19,220 --> 00:45:15,270

maybe it's something that won't occur

941

00:45:20,570 --> 00:45:19,230

again but but I know people there are

942

00:45:23,060 --> 00:45:20,580

some people are really looking for

943

00:45:25,250 --> 00:45:23,070

answers and then want to know what it is

944

00:45:27,220 --> 00:45:25,260

what's going on yeah I don't know if

945

00:45:30,410 --> 00:45:27,230

you've ever been in that area but it's

946

00:45:32,620 --> 00:45:30,420

it's really the middle of nowhere where

947

00:45:37,310 --> 00:45:32,630

is it exactly again it's right we're

948

00:45:38,630 --> 00:45:37,320

Nebraska Colorado and you know kind of

949

00:45:43,670 --> 00:45:38,640

Wyoming you're Montana come together

950

00:45:48,250 --> 00:45:43,680

there it's so be south western Nebraska

951  
00:45:51,670 --> 00:45:48,260  
northeastern Colorado yeah

952  
00:45:54,410 --> 00:45:51,680  
northeastern nebraska oh wait a minute

953  
00:45:56,630 --> 00:45:54,420  
I'm getting confused it's right up there

954  
00:46:00,440 --> 00:45:56,640  
in the corner of Colorado Weld County

955  
00:46:04,010 --> 00:46:00,450  
and then over the Platte River into

956  
00:46:06,109 --> 00:46:04,020  
Nebraska and then I think into Wyoming

957  
00:46:08,570 --> 00:46:06,119  
and that's right where all the missile

958  
00:46:10,930 --> 00:46:08,580  
fields are so it's right around the

959  
00:46:13,910 --> 00:46:10,940  
missile fields that is interesting

960  
00:46:17,210 --> 00:46:13,920  
interesting well you know we may not

961  
00:46:20,540 --> 00:46:17,220  
know much about that so the cattle

962  
00:46:23,839 --> 00:46:20,550  
mutilations now you just mentioned a few

963  
00:46:25,280 --> 00:46:23,849

minutes ago that and the area in

964

00:46:27,140 --> 00:46:25,290

particular was where there was a lot of

965

00:46:30,589 --> 00:46:27,150

cattle mutilations yeah

966

00:46:33,859 --> 00:46:30,599

yeah quite a number hundreds hundreds

967

00:46:34,660 --> 00:46:33,869

and and you are the guy when it comes to

968

00:46:37,150 --> 00:46:34,670

that

969

00:46:39,490 --> 00:46:37,160

remind me it was stalking the herd is

970

00:46:42,790 --> 00:46:39,500

that the name of your book correct yeah

971

00:46:44,080 --> 00:46:42,800

when did that come out how how long I

972

00:46:46,170 --> 00:46:44,090

know we've talked about it on the show

973

00:46:48,550 --> 00:46:46,180

before but again there's a lot of people

974

00:46:50,590 --> 00:46:48,560

yeah how long did it take you to put

975

00:46:51,790 --> 00:46:50,600

that book together and why don't you

976

00:46:55,180 --> 00:46:51,800

talk a little bit about that

977

00:46:58,140 --> 00:46:55,190

well yeah it's probably my least

978

00:47:03,580 --> 00:46:58,150

favorite thing to do in life is is

979

00:47:06,580 --> 00:47:03,590

investigating dead rotting cows it's it

980

00:47:08,770 --> 00:47:06,590

really was not pleasant but because back

981

00:47:10,810 --> 00:47:08,780

in the 90s we had so many cases that

982

00:47:13,630 --> 00:47:10,820

were being reported and nobody was

983

00:47:16,080 --> 00:47:13,640

really looking into them that I kind of

984

00:47:18,070 --> 00:47:16,090

got caught up in in the intrigue of

985

00:47:21,750 --> 00:47:18,080

thousands of pounds of physical evidence

986

00:47:24,280 --> 00:47:21,760

you know and you know it's the only

987

00:47:27,160 --> 00:47:24,290

supposed paranormal phenomena on the

988

00:47:30,400 --> 00:47:27,170

leaves behind you know thousands of

989

00:47:34,540 --> 00:47:30,410

pounds of evidence and that part of it

990

00:47:36,580 --> 00:47:34,550

just was very hard to ignore and the

991

00:47:39,670 --> 00:47:36,590

ranching community really was in need of

992

00:47:41,890 --> 00:47:39,680

somebody to to at least you know look

993

00:47:45,850 --> 00:47:41,900

into it and try to come up with some

994

00:47:48,100 --> 00:47:45,860

answers and by the time I had really

995

00:47:52,090 --> 00:47:48,110

gotten going and had I don't know

996

00:47:55,540 --> 00:47:52,100

several dozen of them under my belt the

997

00:47:58,690 --> 00:47:55,550

local sheriff's departments realized hey

998

00:48:01,720 --> 00:47:58,700

this guy is willing to go there and do

999

00:48:04,210 --> 00:48:01,730

the work and send off forensic samples

1000

00:48:08,430 --> 00:48:04,220

and implant and soil samples in a few

1001  
00:48:13,150 --> 00:48:08,440  
cases I was part of a study and and so

1002  
00:48:15,670 --> 00:48:13,160  
they would literally kind of call me and

1003  
00:48:16,870 --> 00:48:15,680  
have me be the investigator so I was

1004  
00:48:18,250 --> 00:48:16,880  
getting everything right from them

1005  
00:48:21,730 --> 00:48:18,260  
please

1006  
00:48:25,630 --> 00:48:21,740  
Sheriff's dispatch and in going out and

1007  
00:48:27,070 --> 00:48:25,640  
and you know helping trying to help the

1008  
00:48:30,910 --> 00:48:27,080  
ranchers cope with it it's it's very

1009  
00:48:36,300 --> 00:48:30,920  
scary when you know good breeding cow is

1010  
00:48:38,620 --> 00:48:36,310  
found with no sign of cause of death

1011  
00:48:40,630 --> 00:48:38,630  
oftentimes its own tracks aren't even

1012  
00:48:42,309 --> 00:48:40,640  
there sometimes they're in the wrong

1013  
00:48:45,439 --> 00:48:42,319

pasture

1014

00:48:51,049 --> 00:48:45,449

and you know define soft tissue organs

1015

00:48:54,109 --> 00:48:51,059

gone with the dogs not barking nobody's

1016

00:48:57,859 --> 00:48:54,119

seen anything or occasionally lights or

1017

00:48:59,809 --> 00:48:57,869

seen or helicopters this this is really

1018

00:49:02,089 --> 00:48:59,819

spooky I mean number one the guys out

1019

00:49:05,150 --> 00:49:02,099

you know anywhere from four hundred to a

1020

00:49:07,910 --> 00:49:05,160

thousand dollars even more plus if it's

1021

00:49:09,890 --> 00:49:07,920

a breeding cow that cow is not going to

1022

00:49:12,829 --> 00:49:09,900

be having babies for the next four or

1023

00:49:16,579 --> 00:49:12,839

five years so this is a real financial

1024

00:49:21,439 --> 00:49:16,589

hit on you know these small ranching

1025

00:49:23,299 --> 00:49:21,449

operations and you know somebody I just

1026  
00:49:26,449 --> 00:49:23,309  
felt that somebody you know should be

1027  
00:49:28,160 --> 00:49:26,459  
looking into this and I don't care what

1028  
00:49:30,679 --> 00:49:28,170  
any of the skeptics say some of these

1029  
00:49:33,890 --> 00:49:30,689  
cases without question are being

1030  
00:49:36,559 --> 00:49:33,900  
perpetrated by someone with intelligence

1031  
00:49:41,120 --> 00:49:36,569  
and with the aid of sharp cutting

1032  
00:49:44,150 --> 00:49:41,130  
implements one one thing that you know

1033  
00:49:47,150 --> 00:49:44,160  
I've literally work 22 years researching

1034  
00:49:49,999 --> 00:49:47,160  
the book and it took me 18 solid months

1035  
00:49:51,979 --> 00:49:50,009  
to write it I combined all the known

1036  
00:49:54,890 --> 00:49:51,989  
databases together I was the only person

1037  
00:49:58,479 --> 00:49:54,900  
that really knew everybody and one

1038  
00:50:02,299 --> 00:49:58,489

exception and you know David Perkins

1039

00:50:04,519 --> 00:50:02,309

help me do the research and and was

1040

00:50:07,579 --> 00:50:04,529

instrumental in helping me gain access

1041

00:50:09,079 --> 00:50:07,589

to the main databases and this is the

1042

00:50:11,089 --> 00:50:09,089

first time anyone has really tried to

1043

00:50:13,549 --> 00:50:11,099

put all the information together in one

1044

00:50:15,799 --> 00:50:13,559

book and be objective about it and not

1045

00:50:18,079 --> 00:50:15,809

just you know put blinders on and look

1046

00:50:20,870 --> 00:50:18,089

at five or ten percent of the data that

1047

00:50:22,549 --> 00:50:20,880

supports an alien conclusion or look at

1048

00:50:25,910 --> 00:50:22,559

the cases that support a predator

1049

00:50:27,229 --> 00:50:25,920

inclusion you know mundane scavenger

1050

00:50:29,929 --> 00:50:27,239

action

1051  
00:50:32,199 --> 00:50:29,939  
I look at all the data and I tried to be

1052  
00:50:35,509 --> 00:50:32,209  
as objective as possible and and

1053  
00:50:36,969 --> 00:50:35,519  
non-judgmental and you know I I'm really

1054  
00:50:41,839 --> 00:50:36,979  
proud of the book it's probably what

1055  
00:50:46,329 --> 00:50:41,849  
I'll be most remembered for I good luck

1056  
00:50:48,529 --> 00:50:46,339  
trying to top it I mean you know it's

1057  
00:50:51,169 --> 00:50:48,539  
round of it yeah

1058  
00:50:53,660 --> 00:50:51,179  
were there any cases I've heard this

1059  
00:50:55,950 --> 00:50:53,670  
before and tell me if you've ever saw a

1060  
00:51:00,450 --> 00:50:55,960  
case where it almost appeared as if

1061  
00:51:04,530 --> 00:51:00,460  
cow had been dropped yes many many I've

1062  
00:51:09,000 --> 00:51:04,540  
had many yeah at least a dozen if not

1063  
00:51:14,730 --> 00:51:09,010

more in fact we found a pile of three I

1064

00:51:16,890 --> 00:51:14,740

think it was three three cows with horns

1065

00:51:19,740 --> 00:51:16,900

and a horse and they had been dropped in

1066

00:51:21,630 --> 00:51:19,750

one pile and the horns had been snapped

1067

00:51:23,550 --> 00:51:21,640

off on the bottom side the ribs had been

1068

00:51:26,790 --> 00:51:23,560

broken right next to the rib to the

1069

00:51:29,430 --> 00:51:26,800

spine it looked like they've been

1070

00:51:32,070 --> 00:51:29,440

dropped from a considerable height we've

1071

00:51:35,670 --> 00:51:32,080

had cases of cows that appear to have

1072

00:51:40,109 --> 00:51:35,680

clamp marks on their their rear ends

1073

00:51:43,829 --> 00:51:40,119

their back and in the rear legs we've

1074

00:51:45,780 --> 00:51:43,839

had cows that have their heads twisted

1075

00:51:50,510 --> 00:51:45,790

around because they've been dropped in

1076

00:51:53,250 --> 00:51:50,520

you know and landed in an awkward way

1077

00:51:54,900 --> 00:51:53,260

many of these animals do appear to have

1078

00:51:58,020 --> 00:51:54,910

been dropped from you know fairly

1079

00:51:59,700 --> 00:51:58,030

considerable height and of course you

1080

00:52:05,220 --> 00:51:59,710

know there's been so many helicopter

1081

00:52:07,650 --> 00:52:05,230

sightings associated with the cases in a

1082

00:52:10,140 --> 00:52:07,660

lot of times the ranches aren't aren't

1083

00:52:12,089 --> 00:52:10,150

gonna report these things because they

1084

00:52:14,250 --> 00:52:12,099

know nothing good will come of it that

1085

00:52:16,500 --> 00:52:14,260

no one's gonna come up with an answer no

1086

00:52:19,160 --> 00:52:16,510

one's gonna be you know charging anybody

1087

00:52:22,079 --> 00:52:19,170

all it's going to do is give the rancher

1088

00:52:25,550 --> 00:52:22,089

unwanted publicity it'll make him look

1089

00:52:28,680 --> 00:52:25,560

stigmatized in the community and so

1090

00:52:30,900 --> 00:52:28,690

generally I think now very few ranchers

1091

00:52:35,849 --> 00:52:30,910

over-reporting them but the ones that do

1092

00:52:38,190 --> 00:52:35,859

report them oftentimes they report

1093

00:52:39,690 --> 00:52:38,200

because they they see helicopters you

1094

00:52:41,190 --> 00:52:39,700

know you know if they see helicopters

1095

00:52:44,220 --> 00:52:41,200

and they think they're being victimized

1096

00:52:47,400 --> 00:52:44,230

by their government and and so that that

1097

00:52:49,560 --> 00:52:47,410

kind of ticks them off and and they you

1098

00:52:53,130 --> 00:52:49,570

know an angry Rancher will be more apt

1099

00:52:53,970 --> 00:52:53,140

to call and file a report then a rancher

1100

00:52:56,820 --> 00:52:53,980

who's scared

1101

00:53:00,270 --> 00:52:56,830

and so you I really do think that

1102

00:53:02,070 --> 00:53:00,280

there's a you know maybe one in ten or

1103

00:53:03,749 --> 00:53:02,080

being reported I think it's much more

1104

00:53:08,359 --> 00:53:03,759

pervasive than

1105

00:53:12,319 --> 00:53:08,369

and then you would think we've had cases

1106

00:53:15,149 --> 00:53:12,329

lately in Oregon which is highly unusual

1107

00:53:17,729 --> 00:53:15,159

anything west of the Rockies is fairly

1108

00:53:20,089 --> 00:53:17,739

unusual we've had cases in central and

1109

00:53:23,819 --> 00:53:20,099

northern Florida in southern Georgia

1110

00:53:26,189 --> 00:53:23,829

there's been cases in Nebraska about

1111

00:53:30,449 --> 00:53:26,199

five or six years ago we had cases in

1112

00:53:32,339 --> 00:53:30,459

Missouri we've had possibly some cases

1113

00:53:34,620 --> 00:53:32,349

in southern Colorado but I think they're

1114

00:53:39,209 --> 00:53:34,630

equivocal I wouldn't I wouldn't count

1115

00:53:42,409 --> 00:53:39,219

them in the in the totals but we've had

1116

00:53:47,370 --> 00:53:42,419

some cases in in Europe we've had a

1117

00:53:50,159 --> 00:53:47,380

sheep mutilations in in Wales which is

1118

00:53:53,370 --> 00:53:50,169

you know the western part of the middle

1119

00:53:55,379 --> 00:53:53,380

of the Midlands in England did this

1120

00:53:57,569 --> 00:53:55,389

shows did this we have to go in one

1121

00:53:59,459 --> 00:53:57,579

minute for for a break did this all

1122

00:54:02,509 --> 00:53:59,469

start with Skippy the horse is that what

1123

00:54:05,759 --> 00:54:02,519

I remember no snippy but no it started

1124

00:54:09,599 --> 00:54:05,769

yeah I started back in 1605 as my

1125

00:54:11,999 --> 00:54:09,609

earliest I can find how all right so we

1126  
00:54:14,729 --> 00:54:12,009  
are going into break so this is a real

1127  
00:54:16,919 --> 00:54:14,739  
break so hang in there hang in there

1128  
00:54:20,539 --> 00:54:16,929  
everyone we'll be right back right after

1129  
00:54:26,219 --> 00:54:22,949  
my guest this evening is Christopher

1130  
00:54:29,699 --> 00:54:26,229  
O'Brien and before we headed into the

1131  
00:54:32,969 --> 00:54:29,709  
break we were talking about Academy

1132  
00:54:34,829 --> 00:54:32,979  
relations and fascinating subject that

1133  
00:54:37,709 --> 00:54:34,839  
another thing that doesn't make any

1134  
00:54:40,379 --> 00:54:37,719  
sense that is happening another thing in

1135  
00:54:44,939 --> 00:54:40,389  
the real world I should say that happens

1136  
00:54:46,379 --> 00:54:44,949  
that is so hard to explain and I saw

1137  
00:54:48,809 --> 00:54:46,389  
some questions in the chat room and

1138  
00:54:51,169 --> 00:54:48,819

basically people who are asking what

1139

00:54:53,579 --> 00:54:51,179

have you ever come up with a conclusion

1140

00:54:55,469 --> 00:54:53,589

some type of conclusion or what your

1141

00:55:00,539 --> 00:54:55,479

thoughts are why they say why these

1142

00:55:04,169 --> 00:55:00,549

things happen well I I think number one

1143

00:55:05,729 --> 00:55:04,179

there there is no hard fast answer I

1144

00:55:07,769 --> 00:55:05,739

have a sense that there's multiple

1145

00:55:09,870 --> 00:55:07,779

groups involved doing this for four

1146

00:55:12,629 --> 00:55:09,880

different agendas and they're all kind

1147

00:55:14,879 --> 00:55:12,639

of inner weaving there there are gender

1148

00:55:16,979 --> 00:55:14,889

as with others and in some cases to try

1149

00:55:17,580 --> 00:55:16,989

to throw investigators in law

1150

00:55:21,090 --> 00:55:17,590

enforcement

1151

00:55:23,880 --> 00:55:21,100

their tract and in hide their cases in

1152

00:55:26,280 --> 00:55:23,890

and amongst others I think there's not

1153

00:55:29,810 --> 00:55:26,290

multiple of things that can be

1154

00:55:33,410 --> 00:55:29,820

determined one of the things that I've

1155

00:55:35,910 --> 00:55:33,420

I've noticed is that well first of all

1156

00:55:39,090 --> 00:55:35,920

you know beef is the largest income

1157

00:55:40,830 --> 00:55:39,100

producer in agriculture in other words

1158

00:55:44,970 --> 00:55:40,840

more money is generated through selling

1159

00:55:50,190 --> 00:55:44,980

beef than any other part of the large

1160

00:55:52,500 --> 00:55:50,200

you know agribusiness and the beef lobby

1161

00:55:54,870 --> 00:55:52,510

in this country is probably the most

1162

00:55:58,620 --> 00:55:54,880

powerful lobby that you never hear

1163

00:56:00,750 --> 00:55:58,630

anything about except if you're Oprah

1164

00:56:03,270 --> 00:56:00,760

and you say on the air you're not going

1165

00:56:07,860 --> 00:56:03,280

to eat another hamburger again and get

1166

00:56:09,600 --> 00:56:07,870

sued for two billion dollars that that's

1167

00:56:12,200 --> 00:56:09,610

the only time that you hear about the

1168

00:56:14,520 --> 00:56:12,210

beef industry or the old Robert Mitchum

1169

00:56:18,450 --> 00:56:14,530

commercials beef it's what's for dinner

1170

00:56:21,630 --> 00:56:18,460

right the beef industry is incredibly

1171

00:56:24,140 --> 00:56:21,640

powerful we slaughter one cow about

1172

00:56:28,860 --> 00:56:24,150

every second in this country while

1173

00:56:33,990 --> 00:56:28,870

McDonald's alone buys a billion pounds

1174

00:56:38,520 --> 00:56:34,000

of beef a year this is you know this is

1175

00:56:41,670 --> 00:56:38,530

a huge a huge business and one thing

1176

00:56:44,310 --> 00:56:41,680

that I do in stalking heard is I show in

1177

00:56:47,220 --> 00:56:44,320

the first chapter how our relationship

1178

00:56:48,840 --> 00:56:47,230

would cattle has evolved from twelve

1179

00:56:51,420 --> 00:56:48,850

thousand five hundred years ago when we

1180

00:56:53,070 --> 00:56:51,430

first started domesticating these giant

1181

00:56:57,480 --> 00:56:53,080

creatures called Oryx that were the

1182

00:57:02,370 --> 00:56:57,490

progenitor specie to modern-day domestic

1183

00:57:04,860 --> 00:57:02,380

cows and cattle and back then we worship

1184

00:57:07,680 --> 00:57:04,870

cows I mean it was a big deal the bull

1185

00:57:10,380 --> 00:57:07,690

and and in the calf and stuff I mean

1186

00:57:12,000 --> 00:57:10,390

it's even in the Bible Aaron and Moses

1187

00:57:15,900 --> 00:57:12,010

may have been competing priests and

1188

00:57:17,520 --> 00:57:15,910

competing cattle cults for instance you

1189

00:57:20,420 --> 00:57:17,530

don't see reference to cattle too much

1190

00:57:23,460 --> 00:57:20,430

in the Bible James the first took out

1191

00:57:25,050 --> 00:57:23,470

most of the references to cattle in the

1192

00:57:27,450 --> 00:57:25,060

Bible there were used to be tons of them

1193

00:57:30,120 --> 00:57:27,460

and isn't it interesting that right when

1194

00:57:32,339 --> 00:57:30,130

he was beginning that process 100

1195

00:57:35,220 --> 00:57:32,349

and hundreds of sleep sheep rather were

1196

00:57:37,740 --> 00:57:35,230

being slain around London with their

1197

00:57:40,680 --> 00:57:37,750

inward parts taken in the meat and the

1198

00:57:43,230 --> 00:57:40,690

in the the wolves left behind of this

1199

00:57:45,690 --> 00:57:43,240

sundry conjectures but most would agree

1200

00:57:49,529 --> 00:57:45,700

it tendeth toward fireworks was the

1201  
00:57:54,569 --> 00:57:49,539  
quote in the in the records of James the

1202  
00:57:58,230 --> 00:57:54,579  
first so you know we run ceremoniously

1203  
00:58:02,249 --> 00:57:58,240  
slaughtering millions of head of cattle

1204  
00:58:07,019 --> 00:58:02,259  
and it's it's a ritual act but it's it's

1205  
00:58:09,870 --> 00:58:07,029  
not done with reverence that's the

1206  
00:58:13,710 --> 00:58:09,880  
difference between kosher meat for

1207  
00:58:15,930 --> 00:58:13,720  
instance and and and you know the way

1208  
00:58:18,539 --> 00:58:15,940  
the some other cultures slaughter

1209  
00:58:21,029 --> 00:58:18,549  
animals it's done with reverence

1210  
00:58:24,599 --> 00:58:21,039  
we run ceremoniously slaughtering

1211  
00:58:27,660 --> 00:58:24,609  
animals and I think what we're doing is

1212  
00:58:31,589 --> 00:58:27,670  
we're creating what could be called sort

1213  
00:58:35,849 --> 00:58:31,599

of a kind of a psychic Riptide and I

1214

00:58:38,190 --> 00:58:35,859

think in one thing that I'm fairly

1215

00:58:41,430 --> 00:58:38,200

certain of is that the beef industry and

1216

00:58:42,480 --> 00:58:41,440

the government is deathly afraid of mad

1217

00:58:44,370 --> 00:58:42,490

cow disease

1218

00:58:49,440 --> 00:58:44,380

all of a sudden appearing in the food

1219

00:58:52,519 --> 00:58:49,450

chain and I think that out of all the

1220

00:58:55,259 --> 00:58:52,529

overriding potential explanations

1221

00:58:58,079 --> 00:58:55,269

checking the food chain and testing the

1222

00:59:01,650 --> 00:58:58,089

environment for for one of the worst

1223

00:59:04,140 --> 00:59:01,660

scourge is not known to man the prion

1224

00:59:07,470 --> 00:59:04,150

disease is I think one of the main

1225

00:59:12,329 --> 00:59:07,480

motivators for the mutilations I also

1226

00:59:14,099 --> 00:59:12,339

think that there's cases that may be

1227

00:59:17,490 --> 00:59:14,109

checking the environment for residual

1228

00:59:19,079 --> 00:59:17,500

radiation the areas that tend to be hit

1229

00:59:22,109 --> 00:59:19,089

the hardest in North America at least

1230

00:59:25,499 --> 00:59:22,119

are areas that had most of the

1231

00:59:29,480 --> 00:59:25,509

above-ground nuclear test site fallout

1232

00:59:32,370 --> 00:59:29,490

and that the combination of copper and

1233

00:59:34,529 --> 00:59:32,380

it makes the animals more susceptible to

1234

00:59:36,180 --> 00:59:34,539

breaking out with prion disease all

1235

00:59:38,640 --> 00:59:36,190

animals have prions in them it's just

1236

00:59:39,769 --> 00:59:38,650

just like HIV it kicks off into

1237

00:59:43,910 --> 00:59:39,779

full-blown

1238

00:59:46,730 --> 00:59:43,920

you know chronic wasting disease

1239

00:59:50,150 --> 00:59:46,740

if if the environmental factors are

1240

00:59:52,930 --> 00:59:50,160

correct it's it's a really complicated

1241

00:59:56,990 --> 00:59:52,940

subject but I have a feeling that those

1242

00:59:59,660 --> 00:59:57,000

those are probably the main motivations

1243

01:00:01,550 --> 00:59:59,670

I think behind the the modern phase of

1244

01:00:04,460 --> 01:00:01,560

it at the core there is something high

1245

01:00:06,800 --> 01:00:04,470

strange going on there are cases that

1246

01:00:08,420 --> 01:00:06,810

cannot be explained those are the cases

1247

01:00:11,380 --> 01:00:08,430

that people like Linda Howe and Chuck

1248

01:00:14,780 --> 01:00:11,390

Zukowski and others are really

1249

01:00:17,000 --> 01:00:14,790

interested in but they only are about

1250

01:00:22,460 --> 01:00:17,010

five or ten percent of the total of

1251

01:00:25,760 --> 01:00:22,470

cases the other 90% are not done by some

1252

01:00:28,310 --> 01:00:25,770

hi strange a perpetrator whether it's an

1253

01:00:33,770 --> 01:00:28,320

alien whether it's a dimensional you

1254

01:00:35,630 --> 01:00:33,780

know predator or high-tech chefs coming

1255

01:00:37,850 --> 01:00:35,640

back in the future to harvest the

1256

01:00:39,890 --> 01:00:37,860

illegal cattle parts you know you could

1257

01:00:42,830 --> 01:00:39,900

come up with all kinds of interesting

1258

01:00:44,960 --> 01:00:42,840

scenarios to explain excuse me what the

1259

01:00:47,780 --> 01:00:44,970

high-tech you know the the highest range

1260

01:00:49,280 --> 01:00:47,790

cases are but I think the majority of

1261

01:00:52,460 --> 01:00:49,290

them are done with sharp scalpels by

1262

01:00:55,160 --> 01:00:52,470

very very skilled surgeons who are doing

1263

01:00:57,140 --> 01:00:55,170

this to test the environment it's not so

1264

01:01:00,190 --> 01:00:57,150

much the cow it's where it is in the

1265

01:01:02,540 --> 01:01:00,200

environment that's important and

1266

01:01:05,180 --> 01:01:02,550

stalking the herd goes into all the

1267

01:01:07,970 --> 01:01:05,190

various explanations looks and how they

1268

01:01:10,220 --> 01:01:07,980

started and then traces the meme into

1269

01:01:14,390 --> 01:01:10,230

the present day and shows how they all

1270

01:01:16,040 --> 01:01:14,400

could be possible there's a lot of

1271

01:01:17,870 --> 01:01:16,050

evidence to support each one of these

1272

01:01:22,160 --> 01:01:17,880

theories but then there's way more

1273

01:01:23,360 --> 01:01:22,170

evidence to refute them so that's why I

1274

01:01:26,300 --> 01:01:23,370

think we're dealing with something

1275

01:01:32,270 --> 01:01:26,310

that's multifarious that it is not one

1276

01:01:34,070 --> 01:01:32,280

size fits all well you know you touched

1277

01:01:36,320 --> 01:01:34,080

on something early when we started

1278

01:01:39,050 --> 01:01:36,330

talking about this and that is a the

1279

01:01:40,970 --> 01:01:39,060

lobby you know the they have the

1280

01:01:44,030 --> 01:01:40,980

strongest Lobby and I will tell you this

1281

01:01:47,030 --> 01:01:44,040

my son is uh has been vegan for I don't

1282

01:01:50,000 --> 01:01:47,040

know over a year and and he was telling

1283

01:01:53,480 --> 01:01:50,010

me that there is so much propaganda out

1284

01:01:57,019 --> 01:01:53,490

there against you know plant-based diets

1285

01:01:58,789 --> 01:01:57,029

and you know them just saying

1286

01:02:03,049 --> 01:01:58,799

at you know you'll become frail and

1287

01:02:05,539 --> 01:02:03,059

unhealthy and and and you know it's

1288

01:02:07,579 --> 01:02:05,549

deadly to be a vegetarian basically and

1289

01:02:11,839 --> 01:02:07,589

it's and it's supposedly you know

1290

01:02:15,919 --> 01:02:11,849

propaganda from you know the the meat

1291

01:02:19,939 --> 01:02:15,929

industry right and is that you think

1292

01:02:25,189 --> 01:02:19,949

that's so it wouldn't surprise me I I

1293

01:02:29,179 --> 01:02:25,199

don't you know big money has a lot of

1294

01:02:32,029 --> 01:02:29,189

power and influence and I think to

1295

01:02:34,549 --> 01:02:32,039

counteract the increasing numbers of

1296

01:02:37,269 --> 01:02:34,559

people that are realizing that beef beef

1297

01:02:38,630 --> 01:02:37,279

and the red meat protein isn't isn't

1298

01:02:40,459 --> 01:02:38,640

healthy

1299

01:02:43,069 --> 01:02:40,469

I think obviously they're going to be

1300

01:02:45,559 --> 01:02:43,079

doing there's gonna be some pushback and

1301

01:02:47,239 --> 01:02:45,569

I think that he sees probably right but

1302

01:02:49,819 --> 01:02:47,249

it's not something that you're gonna see

1303

01:02:52,519 --> 01:02:49,829

that's overt I think it's going to be

1304

01:02:56,959 --> 01:02:52,529

it's going to be real kind of

1305

01:02:58,909 --> 01:02:56,969

underhanded if you will but um you know

1306

01:03:04,429 --> 01:02:58,919

think about it there's one point five

1307

01:03:06,679 --> 01:03:04,439

billion cattle on the planet and that's

1308

01:03:08,959 --> 01:03:06,689

a lot of cows that that's if you added

1309

01:03:10,640 --> 01:03:08,969

up the weight of that amount of cows

1310

01:03:13,309 --> 01:03:10,650

they're more than the way to all the

1311

01:03:14,929 --> 01:03:13,319

humans on the planet cattle are really

1312

01:03:16,640 --> 01:03:14,939

detrimental to the environment and

1313

01:03:18,679 --> 01:03:16,650

they're detrimental to human health

1314

01:03:22,249 --> 01:03:18,689

they're one of the largest sources of

1315

01:03:24,579 --> 01:03:22,259

yeah ozone depleting gas methane second

1316

01:03:28,449 --> 01:03:24,589

largest natural source of methane

1317

01:03:32,390 --> 01:03:28,459

they're the largest cause of deserts

1318

01:03:34,039 --> 01:03:32,400

because cattle really do dig up the

1319

01:03:35,449 --> 01:03:34,049

environment they're the main reason why

1320

01:03:39,949 --> 01:03:35,459

we're cutting down the rainforests to

1321

01:03:42,199 --> 01:03:39,959

make room for more cows they also are

1322

01:03:44,899 --> 01:03:42,209

one of the largest freshwater polluters

1323

01:03:47,739 --> 01:03:44,909

and whenever we have like recalls of

1324

01:03:50,229 --> 01:03:47,749

spinach because of e.coli and stuff

1325

01:03:53,329 --> 01:03:50,239

oftentimes that's a feedlot that's

1326

01:03:54,829 --> 01:03:53,339

that's you know somehow contaminated in

1327

01:03:56,899 --> 01:03:54,839

the groundwater

1328

01:04:00,289 --> 01:03:56,909

you know those areas in the Gulf of

1329

01:04:02,539 --> 01:04:00,299

Mexico off the you know North Carolina

1330

01:04:04,669 --> 01:04:02,549

areas where we have lots of pig farms

1331

01:04:08,449 --> 01:04:04,679

and cattle and stuff that are dead areas

1332

01:04:10,640 --> 01:04:08,459

in the ocean and you know like I said

1333

01:04:12,890 --> 01:04:10,650

prion disease anthrax when

1334

01:04:17,090 --> 01:04:12,900

the pest I mean there's a whole bunch of

1335

01:04:19,790 --> 01:04:17,100

diseases that come from cows and and you

1336

01:04:21,200 --> 01:04:19,800

know what is it 60 percent of the growth

1337

01:04:23,690 --> 01:04:21,210

or or eighty percent of the growth

1338

01:04:26,390 --> 01:04:23,700

hormones that we used in this country go

1339

01:04:28,070 --> 01:04:26,400

into cattle sixty percent of the end or

1340

01:04:31,000 --> 01:04:28,080

eighty percent the antibiotic sixty

1341

01:04:34,880 --> 01:04:31,010

percent of the growth hormones steroids

1342

01:04:36,470 --> 01:04:34,890

go into calves we wonder why our little

1343

01:04:38,330 --> 01:04:36,480

girls are going into puberty at eight

1344

01:04:41,380 --> 01:04:38,340

nine years old it's because of all the

1345

01:04:44,060 --> 01:04:41,390

growth hormones that are in the meat and

1346

01:04:46,520 --> 01:04:44,070

you know I I I love beef

1347

01:04:49,790 --> 01:04:46,530

I don't eat it very much but when I do

1348

01:04:52,310 --> 01:04:49,800

it's grass-fed and it comes from a local

1349

01:04:54,830 --> 01:04:52,320

source it's not something that you know

1350

01:04:57,290 --> 01:04:54,840

I get at Walmart or I get it McDonald's

1351

01:05:01,670 --> 01:04:57,300

I will not eat industrialize meat

1352

01:05:03,170 --> 01:05:01,680

protein it's it's really it's you know

1353

01:05:04,130 --> 01:05:03,180

at some point it's going to be like

1354

01:05:06,680 --> 01:05:04,140

playing Russian roulette

1355

01:05:09,670 --> 01:05:06,690

we are invariably going to have some

1356

01:05:13,610 --> 01:05:09,680

sort of you know nasty food chain

1357

01:05:16,400 --> 01:05:13,620

outbreak and probably yeah yeah I mean

1358

01:05:19,970 --> 01:05:16,410

it's just inevitable it just seems to be

1359

01:05:21,950 --> 01:05:19,980

going that way so you know the book is

1360

01:05:22,670 --> 01:05:21,960

not only about the mystery of cattle

1361

01:05:25,760 --> 01:05:22,680

mutilations

1362

01:05:28,100 --> 01:05:25,770

it's about our our very dysfunctional um

1363

01:05:32,060 --> 01:05:28,110

symbiotic and almost incestuous

1364

01:05:34,490 --> 01:05:32,070

relationship with bovines and one thing

1365

01:05:36,200 --> 01:05:34,500

that blows people away when I tell me

1366

01:05:38,390 --> 01:05:36,210

his cattle mutilations only happen in

1367

01:05:40,880 --> 01:05:38,400

Christian countries number one and

1368

01:05:43,760 --> 01:05:40,890

number two I have never been able to

1369

01:05:45,560 --> 01:05:43,770

find a sacred Brahma cow from India

1370

01:05:47,780 --> 01:05:45,570

that's been mutilated I was gonna have

1371

01:05:50,870 --> 01:05:47,790

all the millions all the millions of

1372

01:05:52,610 --> 01:05:50,880

cows in the world there's not one Brahma

1373

01:05:54,830 --> 01:05:52,620

that I've found that's been mutilated

1374

01:05:56,450 --> 01:05:54,840

and India has never had a cattle

1375

01:05:59,360 --> 01:05:56,460

mutilation case to my to my knowledge

1376

01:06:05,420 --> 01:05:59,370

and they're the largest exporter of beef

1377

01:06:07,790 --> 01:06:05,430

because they don't eat the cows so

1378

01:06:12,220 --> 01:06:07,800

there's but there's McDonald's in India

1379

01:06:18,710 --> 01:06:15,380

290 I think McDonald's or something in

1380

01:06:21,590 --> 01:06:18,720

India but they serve like McHale you and

1381

01:06:23,150 --> 01:06:21,600

with tandoori you know these kind of

1382

01:06:24,049 --> 01:06:23,160

they should serve all that Indian

1383

01:06:26,420 --> 01:06:24,059

McDonald

1384

01:06:27,380 --> 01:06:26,430

food over here a lot healthier yeah

1385

01:06:29,900 --> 01:06:27,390

that's for sure

1386

01:06:31,549 --> 01:06:29,910

well because I believe in it it's really

1387

01:06:35,049 --> 01:06:31,559

gross but I believe you said there's

1388

01:06:37,880 --> 01:06:35,059

something like 500 up to 500 different

1389

01:06:41,719 --> 01:06:37,890

cows and one beef patty

1390

01:06:45,890 --> 01:06:41,729

well McDonald's admits that up to 101

1391

01:06:47,630 --> 01:06:45,900

could be but some some people say

1392

01:06:49,969 --> 01:06:47,640

they're as many as a thousand animals

1393

01:06:51,559 --> 01:06:49,979

could be in one the parts from a

1394

01:06:53,499 --> 01:06:51,569

thousand animals and that doesn't make

1395

01:06:56,449 --> 01:06:53,509

me want to quit McDonald's nothing will

1396

01:06:59,509 --> 01:06:56,459

well you know again I don't want to get

1397

01:07:01,640 --> 01:06:59,519

sued by the beef industry and you know

1398

01:07:04,640 --> 01:07:01,650

I'm not saying don't eat beef I'm just

1399

01:07:06,650 --> 01:07:04,650

saying be real smart about it and eat

1400

01:07:10,519 --> 01:07:06,660

local Mumia as the Greeks used to call

1401

01:07:13,699 --> 01:07:10,529

it you know eat you know meat that's

1402

01:07:15,920 --> 01:07:13,709

that's grown in your region and make

1403

01:07:18,859 --> 01:07:15,930

sure it's grass-fed not not from you

1404

01:07:20,959 --> 01:07:18,869

know some feedlot yeah yeah and it's

1405

01:07:24,620 --> 01:07:20,969

it's really an atrocity the way the

1406

01:07:28,779 --> 01:07:24,630

animals are treated yeah yeah it's

1407

01:07:30,979 --> 01:07:28,789

horrific just terrible but okay so that

1408

01:07:33,140 --> 01:07:30,989

that's interesting we you know we're

1409

01:07:35,749 --> 01:07:33,150

going to take calls in about 15 minutes

1410

01:07:37,640 --> 01:07:35,759

or so and when we do that you know some

1411

01:07:42,019 --> 01:07:37,650

people may want to bring up some cattle

1412

01:07:43,819 --> 01:07:42,029

mutilation you know questions when they

1413

01:07:45,469 --> 01:07:43,829

when they talk to you but for right now

1414

01:07:49,400 --> 01:07:45,479

let's move on let's talk about what

1415

01:07:57,529 --> 01:07:49,410

you're doing with James Fox oh yeah yeah

1416

01:08:00,380 --> 01:07:57,539

that's I ran into James at the I guess

1417

01:08:03,109 --> 01:08:00,390

it was the UFO Congress and we started

1418

01:08:06,880 --> 01:08:03,119

talking a bit and I I had known about

1419

01:08:11,870 --> 01:08:06,890

his project that he had been working on

1420

01:08:14,979 --> 01:08:11,880

since 2013 he had me out to interview me

1421

01:08:19,579 --> 01:08:14,989

and others pretty much anybody that's uh

1422

01:08:23,390 --> 01:08:19,589

anybody in the field was invited out to

1423

01:08:29,569 --> 01:08:23,400

LA and was interviewed on a green screen

1424

01:08:33,829 --> 01:08:29,579

set and as as some of your listeners may

1425

01:08:35,740 --> 01:08:33,839

know you know I'm real a big fan of Ray

1426

01:08:38,229 --> 01:08:35,750

Stanford's work and I'm

1427

01:08:41,229 --> 01:08:38,239

I've often said that if he had a fan

1428

01:08:41,769 --> 01:08:41,239

club I'd be the president of it I really

1429

01:08:43,630 --> 01:08:41,779

do

1430

01:08:46,240 --> 01:08:43,640

to feel that Ray's work as head and

1431

01:08:48,550 --> 01:08:46,250

shoulders above pretty much anybody in

1432

01:08:52,240 --> 01:08:48,560

the field and I I was instrumental in

1433

01:08:53,920 --> 01:08:52,250

introducing James to Ray and I've been

1434

01:08:56,349 --> 01:08:53,930

kind of keeping tabs on his progress

1435

01:08:57,939 --> 01:08:56,359

he's had some real you know ups and

1436

01:09:00,430 --> 01:08:57,949

downs over the six years that he's been

1437

01:09:03,729 --> 01:09:00,440

attempting to do this film called the

1438

01:09:07,479 --> 01:09:03,739

phenomenon and when I ran into him on

1439

01:09:08,740 --> 01:09:07,489

summer at the at the Congress he he said

1440

01:09:11,229 --> 01:09:08,750

look you know I'm right at that point

1441

01:09:13,150 --> 01:09:11,239

where it would sure be good to have you

1442

01:09:15,880 --> 01:09:13,160

come out and and check this out and see

1443

01:09:17,680 --> 01:09:15,890

you know just kind of help me you know

1444

01:09:20,140 --> 01:09:17,690

put this baby to bed

1445

01:09:23,590 --> 01:09:20,150

so I made a couple chips out there and

1446

01:09:26,220 --> 01:09:23,600

and helped him go over and and fine-tune

1447

01:09:28,660 --> 01:09:26,230

the thing cut it down from two hours to

1448

01:09:32,740 --> 01:09:28,670

90 minutes excuse me actually was about

1449

01:09:35,640 --> 01:09:32,750

two hours and 15 minutes and it helped a

1450

01:09:37,870 --> 01:09:35,650

little bit on so on you know the trailer

1451

01:09:39,490 --> 01:09:37,880

you know kind of tweaked a little bit

1452

01:09:45,039 --> 01:09:39,500

here tweaked a little bit there helped

1453

01:09:48,550 --> 01:09:45,049

him talk with his composure and I was

1454

01:09:53,110 --> 01:09:48,560

really honored that he he asked me to do

1455

01:09:55,390 --> 01:09:53,120

that and it was also an honor to be you

1456

01:09:57,939 --> 01:09:55,400

know one of two people that he trusted

1457

01:10:01,000 --> 01:09:57,949

to to help him put the thing to bed the

1458

01:10:03,400 --> 01:10:01,010

other being chopped away and to be able

1459

01:10:06,790 --> 01:10:03,410

to spend some time was talking and work

1460

01:10:08,890 --> 01:10:06,800

on the on the film was was you know kind

1461

01:10:14,320 --> 01:10:08,900

of a high point for me you know

1462

01:10:17,439 --> 01:10:14,330

professionally and I must say that the

1463

01:10:19,110 --> 01:10:17,449

thing that's most impressive besides the

1464

01:10:22,689 --> 01:10:19,120

fact that James is the only real

1465

01:10:24,400 --> 01:10:22,699

filmmaker in ufology there's a lot of

1466

01:10:26,680 --> 01:10:24,410

people that can slap you know stuff

1467

01:10:31,110 --> 01:10:26,690

together but nobody that does it with

1468

01:10:34,209 --> 01:10:31,120

the land and the elegance that he does

1469

01:10:38,860 --> 01:10:34,219

I'm a huge fan of his work he's a very

1470

01:10:41,050 --> 01:10:38,870

talented storyteller and when I found

1471

01:10:43,720 --> 01:10:41,060

out that he got a theatrical release I

1472

01:10:46,630 --> 01:10:43,730

was just flabbergasted I don't think any

1473

01:10:47,229 --> 01:10:46,640

UFO film has ever been shown in a movie

1474

01:10:56,439 --> 01:10:47,239

theater

1475

01:11:01,209 --> 01:10:56,449

1,500 if it takes takes off that is a

1476

01:11:04,390 --> 01:11:01,219

big deal and yes the realization of what

1477

01:11:06,760 --> 01:11:04,400

people are going to be seen 90% of the

1478

01:11:08,950 --> 01:11:06,770

audience maybe even more is going to

1479

01:11:12,000 --> 01:11:08,960

have maybe a passing interest in UFOs

1480

01:11:15,280 --> 01:11:12,010

but they are not going to have very

1481

01:11:17,800 --> 01:11:15,290

little if any knowledge about the

1482

01:11:21,250 --> 01:11:17,810

history the modern of you know history

1483

01:11:26,200 --> 01:11:21,260

of UFOs and so this movie is not only

1484

01:11:28,360 --> 01:11:26,210

going to be a crash course in the whole

1485

01:11:30,880 --> 01:11:28,370

field of ufology and and the the

1486

01:11:33,040 --> 01:11:30,890

unfolding of cases since 1947

1487

01:11:37,750 --> 01:11:33,050

since the Kenneth Arnold sighting but

1488

01:11:40,000 --> 01:11:37,760

it's also has cases and footage that

1489

01:11:41,560 --> 01:11:40,010

I've never seen before and that anybody

1490

01:11:44,080 --> 01:11:41,570

that I've talked to had seen the film

1491

01:11:45,430 --> 01:11:44,090

has never seen before so there's

1492

01:11:48,820 --> 01:11:45,440

something for everybody there's

1493

01:11:53,740 --> 01:11:48,830

something for the you know the cynical

1494

01:11:56,169 --> 01:11:53,750

and jaded ufologists all the way to the

1495

01:11:57,640 --> 01:11:56,179

you know ten-year-old kid who's just you

1496

01:12:00,600 --> 01:11:57,650

know interested in the subject but

1497

01:12:03,910 --> 01:12:00,610

doesn't really have a knowledge base so

1498

01:12:06,820 --> 01:12:03,920

one thing that I realized you know when

1499

01:12:10,720 --> 01:12:06,830

he delivered the film to have the the

1500

01:12:14,709 --> 01:12:10,730

trailer finished is the James is

1501  
01:12:17,860 --> 01:12:14,719  
disclosure 1992 95 percent of the people

1502  
01:12:19,959 --> 01:12:17,870  
this will be disclosure for them because

1503  
01:12:22,630 --> 01:12:19,969  
they don't know the stuff that you and I

1504  
01:12:25,840 --> 01:12:22,640  
do or a lot of your listeners mayor

1505  
01:12:28,120 --> 01:12:25,850  
they're not familiar with any of it and

1506  
01:12:30,550 --> 01:12:28,130  
maybe they've heard the word Roswell

1507  
01:12:32,020 --> 01:12:30,560  
maybe they heard about the tic-tac but

1508  
01:12:35,740 --> 01:12:32,030  
they you know they don't really know the

1509  
01:12:37,510 --> 01:12:35,750  
ins and outs the popcorn munchin crowds

1510  
01:12:39,520 --> 01:12:37,520  
a thousands and thousands of people that

1511  
01:12:41,050 --> 01:12:39,530  
are gonna be sitting in that theater 90%

1512  
01:12:44,470 --> 01:12:41,060  
of them are going to be getting a

1513  
01:12:47,320 --> 01:12:44,480

wake-up call right major wake-up call

1514

01:12:49,709 --> 01:12:47,330

and I you know people have been asking

1515

01:12:51,729 --> 01:12:49,719

for disclosure this is disclosure

1516

01:12:54,700 --> 01:12:51,739

everything will be different after this

1517

01:12:58,689 --> 01:12:54,710

film I mark my words on that this is a

1518

01:13:00,790 --> 01:12:58,699

huge huge step forward for the subject

1519

01:13:02,979 --> 01:13:00,800

and I'll tell you James

1520

01:13:04,899 --> 01:13:02,989

deserves all the success and

1521

01:13:06,939 --> 01:13:04,909

the accolades he's gonna get but I I

1522

01:13:09,220 --> 01:13:06,949

keep warning I'm saying now you're gonna

1523

01:13:11,319 --> 01:13:09,230

be you're gonna be the the figurehead

1524

01:13:12,750 --> 01:13:11,329

for the whole movement so good luck with

1525

01:13:14,680 --> 01:13:12,760

that

1526

01:13:16,359 --> 01:13:14,690

everybody's gonna they're gonna be

1527

01:13:19,270 --> 01:13:16,369

calling you up every time there's a

1528

01:13:21,580 --> 01:13:19,280

question and now you know with that with

1529

01:13:27,489 --> 01:13:21,590

that New York Times article two years

1530

01:13:29,830 --> 01:13:27,499

ago and and the tic-tac the Nimitz you

1531

01:13:32,350 --> 01:13:29,840

know in the revelation of the advanced

1532

01:13:35,109 --> 01:13:32,360

aerial threat group and stuff

1533

01:13:37,930 --> 01:13:35,119

I mean that really made it okay for the

1534

01:13:40,149 --> 01:13:37,940

media to cover this stuff seriously and

1535

01:13:41,890 --> 01:13:40,159

of James they've tried to finish this

1536

01:13:43,540 --> 01:13:41,900

film two years ago and get it on the

1537

01:13:46,779 --> 01:13:43,550

movie screens he wouldn't have had a

1538

01:13:48,939 --> 01:13:46,789

chance I think your us you're perfectly

1539

01:13:51,790 --> 01:13:48,949

closed the subject the subject is now

1540

01:13:54,700 --> 01:13:51,800

mainstream James is perfectly positioned

1541

01:13:56,259 --> 01:13:54,710

in perfect timing to have a theatrical

1542

01:13:58,930 --> 01:13:56,269

release and I'm telling you they're

1543

01:14:01,509 --> 01:13:58,940

doing a 5.1 surround sound there's a

1544

01:14:04,029 --> 01:14:01,519

world-class composer is doing all the

1545

01:14:06,549 --> 01:14:04,039

music everything is color corrected I

1546

01:14:10,569 --> 01:14:06,559

mean it's it's a real feature film this

1547

01:14:12,669 --> 01:14:10,579

is not just some you know yeah episode

1548

01:14:15,339 --> 01:14:12,679

you're gonna see on History Channel or

1549

01:14:18,609 --> 01:14:15,349

something this this is this is serious

1550

01:14:20,739 --> 01:14:18,619

stuff this is the big time and I am so

1551

01:14:22,839 --> 01:14:20,749

proud of him and proud of everybody that

1552

01:14:24,609 --> 01:14:22,849

was involved in this project and I was

1553

01:14:26,919 --> 01:14:24,619

very very honored to be asked to help

1554

01:14:28,600 --> 01:14:26,929

out yeah we'll talk a little more about

1555

01:14:31,029 --> 01:14:28,610

that I just gotta tell you funny story I

1556

01:14:36,700 --> 01:14:31,039

was texting with him the other day and

1557

01:14:38,709 --> 01:14:36,710

he was under his car he was exiting the

1558

01:14:42,850 --> 01:14:38,719

guy never stops working he's you know

1559

01:14:44,709 --> 01:14:42,860

he's amazing and but yeah I wish that

1560

01:14:46,779 --> 01:14:44,719

all this success but you actually got to

1561

01:14:49,689 --> 01:14:46,789

see this screen or you got you got to

1562

01:14:51,279 --> 01:14:49,699

see the film what was your reaction I've

1563

01:14:54,759 --> 01:14:51,289

seen the film a whole bunch of times

1564

01:14:57,069 --> 01:14:54,769

like I said there was footage in there

1565

01:14:58,689 --> 01:14:57,079

that I had never seen before there are

1566

01:15:02,410 --> 01:14:58,699

cases that he mentions that I'd never

1567

01:15:07,720 --> 01:15:02,420

heard before I've read hundreds of books

1568

01:15:11,020 --> 01:15:07,730

on UFOs hundreds and and I was you know

1569

01:15:14,229 --> 01:15:11,030

it's just it's put together so well and

1570

01:15:16,000 --> 01:15:14,239

so professionally like I said it doesn't

1571

01:15:16,780 --> 01:15:16,010

matter how much you know about the field

1572

01:15:18,850 --> 01:15:16,790

or something

1573

01:15:22,870 --> 01:15:18,860

that's gonna make you scratch your head

1574

01:15:26,860 --> 01:15:22,880

go I didn't know that and you know I

1575

01:15:29,140 --> 01:15:26,870

think it's some I'm not a big eth guy I

1576

01:15:36,760 --> 01:15:29,150

as many people out there who know my

1577

01:15:39,310 --> 01:15:36,770

work know that I'm I prefer to you know

1578

01:15:42,220 --> 01:15:39,320

I've been saying this for years that we

1579

01:15:45,400 --> 01:15:42,230

need to exhaust all mundane explanations

1580

01:15:46,720 --> 01:15:45,410

and closed system explanations before we

1581

01:15:48,630 --> 01:15:46,730

think we're important enough for

1582

01:15:50,940 --> 01:15:48,640

anything out there to come here

1583

01:15:53,260 --> 01:15:50,950

it's just the way that these things

1584

01:15:55,990 --> 01:15:53,270

manifest the way that the aliens

1585

01:15:57,970 --> 01:15:56,000

interact with us all the different types

1586

01:16:01,000 --> 01:15:57,980

of craft all are different types of

1587

01:16:02,890 --> 01:16:01,010

beings there's something tied into

1588

01:16:05,170 --> 01:16:02,900

consciousness that's involved it's

1589

01:16:07,600 --> 01:16:05,180

closed system I don't feel anything out

1590

01:16:09,160 --> 01:16:07,610

there is coming here raised Stanford's

1591

01:16:12,250 --> 01:16:09,170

the only one that convinces me that I

1592

01:16:15,250 --> 01:16:12,260

might be wrong his work is the only work

1593

01:16:20,260 --> 01:16:15,260

that that is pulling me back towards the

1594

01:16:22,360 --> 01:16:20,270

ETH I'm a I'm a real I don't know I'm a

1595

01:16:24,070 --> 01:16:22,370

not contrary and you know I I would

1596

01:16:27,040 --> 01:16:24,080

rather think there's other tenants in

1597

01:16:29,110 --> 01:16:27,050

our building than something out there

1598

01:16:31,660 --> 01:16:29,120

thinking that we're important enough to

1599

01:16:33,130 --> 01:16:31,670

come and keep gathering flowers and

1600

01:16:35,620 --> 01:16:33,140

picking up rocks like they've never seen

1601  
01:16:38,140 --> 01:16:35,630  
them and this is all theatrical there's

1602  
01:16:40,480 --> 01:16:38,150  
something being staged for us that's

1603  
01:16:43,150 --> 01:16:40,490  
pulling us off planet I think that it's

1604  
01:16:46,060 --> 01:16:43,160  
a collective unconscious manifestation

1605  
01:16:49,270 --> 01:16:46,070  
to pull us off planet the planet itself

1606  
01:16:51,870 --> 01:16:49,280  
maybe co-creating these these events

1607  
01:16:57,040 --> 01:16:51,880  
along with our collective unconscious

1608  
01:16:58,630 --> 01:16:57,050  
I'm in a much different place than 99%

1609  
01:17:04,420 --> 01:16:58,640  
of the people who think about this that

1610  
01:17:05,710 --> 01:17:04,430  
the subject and I just you know but for

1611  
01:17:08,560 --> 01:17:05,720  
all the people to think we're being

1612  
01:17:11,620 --> 01:17:08,570  
visited by aliens this is your film he

1613  
01:17:16,750 --> 01:17:11,630

doesn't come out and say that but it's

1614

01:17:18,490 --> 01:17:16,760

it's all over the place which is cool

1615

01:17:20,590 --> 01:17:18,500

it's entertaining I'm gonna I don't love

1616

01:17:21,910 --> 01:17:20,600

it I can't wait to see I'm gonna be

1617

01:17:22,990 --> 01:17:21,920

watching the crowd I'm not gonna be

1618

01:17:25,660 --> 01:17:23,000

watching the screen

1619

01:17:28,240 --> 01:17:25,670

I'll be watching I always responding to

1620

01:17:30,280 --> 01:17:28,250

all this it's gonna be fun hits we mark

1621

01:17:33,550 --> 01:17:30,290

my words this is gonna be

1622

01:17:35,920 --> 01:17:33,560

huge and he does it couldn't happen to a

1623

01:17:38,440 --> 01:17:35,930

nicer guy James is one of the nicest

1624

01:17:42,190 --> 01:17:38,450

sweetest biggest hearted people I have

1625

01:17:45,310 --> 01:17:42,200

ever known and he and his wife Rebecca

1626

01:17:48,490 --> 01:17:45,320

and Sonali are just incredible people

1627

01:17:50,800 --> 01:17:48,500

and man I'll tell you it's just all the

1628

01:17:53,890 --> 01:17:50,810

work and effort and he almost lost

1629

01:17:56,500 --> 01:17:53,900

everything during the process it's just

1630

01:17:58,900 --> 01:17:56,510

so so cool that he's been able to to get

1631

01:18:01,030 --> 01:17:58,910

this thing put to bed and I'm so proud

1632

01:18:04,240 --> 01:18:01,040

of him wow so you went out over toward

1633

01:18:06,610 --> 01:18:04,250

Stinson Beach over there yeah yeah yeah

1634

01:18:10,870 --> 01:18:06,620

I was in the Bolinas Politis right hand

1635

01:18:12,280 --> 01:18:10,880

Oh yep been there many times now I think

1636

01:18:14,350 --> 01:18:12,290

that's interesting what you you've just

1637

01:18:15,880 --> 01:18:14,360

said because one of the questions I ask

1638

01:18:19,990 --> 01:18:15,890

a lot of my guests and I just did last

1639

01:18:24,820 --> 01:18:20,000

week chris wachowsky Rakowski i asked

1640

01:18:27,850 --> 01:18:24,830

him you know why would we be visited by

1641

01:18:29,620 --> 01:18:27,860

an entail and if there's intelligent

1642

01:18:32,530 --> 01:18:29,630

life out there what makes us so special

1643

01:18:34,960 --> 01:18:32,540

if there's possibly 40 billion you know

1644

01:18:37,810 --> 01:18:34,970

earth-like planets with some type of

1645

01:18:40,090 --> 01:18:37,820

life possibly in our galaxy and I have

1646

01:18:42,160 --> 01:18:40,100

to say always possibly because no one

1647

01:18:44,440 --> 01:18:42,170

really knows but what makes us so

1648

01:18:47,470 --> 01:18:44,450

special why we're being visited he said

1649

01:18:49,510 --> 01:18:47,480

water water is unusual but and that's

1650

01:18:51,730 --> 01:18:49,520

probably one of the reasons why we'd be

1651

01:18:55,780 --> 01:18:51,740

visited but you know there's a lot of

1652

01:18:57,790 --> 01:18:55,790

questions out there I don't know about

1653

01:18:59,200 --> 01:18:57,800

that the consciousness thing he did

1654

01:19:02,250 --> 01:18:59,210

actually mention a lot of people are

1655

01:19:04,840 --> 01:19:02,260

talking about that these days that it's

1656

01:19:09,700 --> 01:19:04,850

that could have an involvement with that

1657

01:19:15,540 --> 01:19:09,710

I I like to just continue to say that I

1658

01:19:19,270 --> 01:19:15,550

have no idea and you know

1659

01:19:20,740 --> 01:19:19,280

well like I discussed on the show before

1660

01:19:22,960 --> 01:19:20,750

I'm an experienced or I've been close

1661

01:19:25,630 --> 01:19:22,970

enough to touch them they are not human

1662

01:19:27,630 --> 01:19:25,640

they're they're they're bipedal they

1663

01:19:32,740 --> 01:19:27,640

look kind of like us but not really

1664

01:19:34,540 --> 01:19:32,750

and they're real it changed my life I

1665

01:19:37,420 --> 01:19:34,550

mean I'm a completely different person

1666

01:19:41,020 --> 01:19:37,430

as a you know direct result of that

1667

01:19:42,370 --> 01:19:41,030

experience when I was 7 years old so

1668

01:19:43,030 --> 01:19:42,380

about that again because a lot of people

1669

01:19:46,270 --> 01:19:43,040

never

1670

01:19:47,530 --> 01:19:46,280

remember well yeah growing up and B I'll

1671

01:19:52,030 --> 01:19:47,540

be washing tonight

1672

01:19:54,820 --> 01:19:52,040

one night in the spring of 63 I just you

1673

01:19:59,260 --> 01:19:54,830

know I was almost seven just about a

1674

01:20:00,910 --> 01:19:59,270

month away from my birthday and I woke

1675

01:20:02,830 --> 01:20:00,920

up because there was a strange kind of

1676

01:20:05,860 --> 01:20:02,840

light in my room and it was these two

1677

01:20:07,780 --> 01:20:05,870

foot table glittering wands with Spears

1678

01:20:12,150 --> 01:20:07,790

as I called him that these little

1679

01:20:14,740 --> 01:20:12,160

entities were holding around my bed and

1680

01:20:17,470 --> 01:20:14,750

the light would glitter up and down and

1681

01:20:20,350 --> 01:20:17,480

was shining enough residual light so I

1682

01:20:21,880 --> 01:20:20,360

could see the figures not very well but

1683

01:20:22,720 --> 01:20:21,890

I could see that they were extremely

1684

01:20:25,120 --> 01:20:22,730

skinny

1685

01:20:28,240 --> 01:20:25,130

I called them stick men with big heads

1686

01:20:30,990 --> 01:20:28,250

and they literally followed me around my

1687

01:20:36,130 --> 01:20:31,000

neighborhood at 3 in the morning and I

1688

01:20:39,250 --> 01:20:36,140

was trying to go call my parents so they

1689

01:20:41,560 --> 01:20:39,260

could come and save me and didn't rescue

1690

01:20:43,060 --> 01:20:41,570

me from these these little guys there

1691

01:20:48,460 --> 01:20:43,070

were three of them possibly a fourth in

1692

01:20:51,010 --> 01:20:48,470

the back was hiding excuse me and they

1693

01:20:53,680 --> 01:20:51,020

didn't walk they glide they kind of

1694

01:20:55,380 --> 01:20:53,690

glide it they all moved together like

1695

01:20:58,180 --> 01:20:55,390

cattails

1696

01:21:01,960 --> 01:20:58,190

they just kind of slid along above the

1697

01:21:03,940 --> 01:21:01,970

ground it was fairly terrifying I went

1698

01:21:05,290 --> 01:21:03,950

to T neighbors tried to get them to

1699

01:21:07,900 --> 01:21:05,300

answer the door at 3:00 in the morning

1700

01:21:09,880 --> 01:21:07,910

and and call my parents one of them

1701  
01:21:12,820 --> 01:21:09,890  
actually did I don't know what happened

1702  
01:21:14,680 --> 01:21:12,830  
I ended up five houses away my sister

1703  
01:21:17,140 --> 01:21:14,690  
after an indeterminate amount of time

1704  
01:21:20,860 --> 01:21:17,150  
she said about 20 minutes I think it may

1705  
01:21:25,630 --> 01:21:20,870  
have been longer she was 18 I was 6 she

1706  
01:21:27,370 --> 01:21:25,640  
found me I was absolutely terrified she

1707  
01:21:30,400 --> 01:21:27,380  
took me into the house of course I

1708  
01:21:33,250 --> 01:21:30,410  
refused to go sleep in my bedroom I was

1709  
01:21:35,920 --> 01:21:33,260  
too afraid and so she says ok well you

1710  
01:21:37,600 --> 01:21:35,930  
can sleep in the bed with me and to just

1711  
01:21:40,120 --> 01:21:37,610  
to give you an idea of how traumatized

1712  
01:21:47,320 --> 01:21:40,130  
that was in my sleep I tried to nurse

1713  
01:21:49,630 --> 01:21:47,330

her I was my parents said you were you

1714

01:21:53,350 --> 01:21:49,640

know it was you had a nightmare you were

1715

01:21:55,209 --> 01:21:53,360

sleepwalking when I ran out the kitchen

1716

01:21:56,130 --> 01:21:55,219

door I forgot my dad had put the screen

1717

01:21:58,650 --> 01:21:56,140

door on

1718

01:22:04,710 --> 01:21:58,660

I ran right into the screen door and you

1719

01:22:06,150 --> 01:22:04,720

know sorry wasn't sleepwalking and it

1720

01:22:10,260 --> 01:22:06,160

changed my life I mean I've been

1721

01:22:12,810 --> 01:22:10,270

absolutely you know really interested in

1722

01:22:15,300 --> 01:22:12,820

the subject ever since I hid my interest

1723

01:22:17,490 --> 01:22:15,310

for a lot of years and when I finally

1724

01:22:19,110 --> 01:22:17,500

you know when I moved to Colorado and

1725

01:22:20,850 --> 01:22:19,120

all this stuff was flying around and

1726

01:22:22,800 --> 01:22:20,860

everybody was seeing it I felt

1727

01:22:25,670 --> 01:22:22,810

comfortable enough to come out and and

1728

01:22:30,210 --> 01:22:25,680

talk about it and start investigating

1729

01:22:32,010 --> 01:22:30,220

Wow that is that's really quite the way

1730

01:22:35,280 --> 01:22:32,020

to get started I do remember the story

1731

01:22:37,800 --> 01:22:35,290

just not the details of it I never saw a

1732

01:22:40,440 --> 01:22:37,810

ship I was yelling at him why don't you

1733

01:22:42,300 --> 01:22:40,450

you know say something talk to me what

1734

01:22:45,360 --> 01:22:42,310

do you want what do you want they

1735

01:22:48,060 --> 01:22:45,370

refused or were unable to communicate

1736

01:22:50,820 --> 01:22:48,070

with me I didn't have any telepathic

1737

01:22:53,400 --> 01:22:50,830

communication I didn't have any any sort

1738

01:22:56,460 --> 01:22:53,410

of you know indication at all that they

1739

01:22:58,740 --> 01:22:56,470

of anything positive or negative they

1740

01:23:03,830 --> 01:22:58,750

seemed like bio robots or something a

1741

01:23:07,290 --> 01:23:03,840

totally devoid of any sort of you know

1742

01:23:09,120 --> 01:23:07,300

any sort of expression or you know I

1743

01:23:13,110 --> 01:23:09,130

kind of blanked out their faces I think

1744

01:23:15,110 --> 01:23:13,120

I'm I bet you if I got regrets they'd

1745

01:23:17,700 --> 01:23:15,120

probably remember a lot of stuff but I

1746

01:23:19,860 --> 01:23:17,710

feel okay with the experience and I

1747

01:23:22,980 --> 01:23:19,870

don't really I don't want to open up

1748

01:23:26,580 --> 01:23:22,990

Pandora's box with that one ever

1749

01:23:27,810 --> 01:23:26,590

happened again nope well once I had it

1750

01:23:29,700 --> 01:23:27,820

one thing that happened it could have

1751

01:23:31,350 --> 01:23:29,710

been it could have been something I have

1752

01:23:35,100 --> 01:23:31,360

six hours of missing time in the middle

1753

01:23:36,630 --> 01:23:35,110

of the southern Utah desert that was Wow

1754

01:23:42,000 --> 01:23:36,640

it was a pretty interesting experience

1755

01:23:44,280 --> 01:23:42,010

Wow yeah all right well I am going to

1756

01:23:46,620 --> 01:23:44,290

put the phone number up so if anyone

1757

01:23:49,290 --> 01:23:46,630

would like to call in you can see that

1758

01:23:51,870 --> 01:23:49,300

we have graces be over there screening

1759

01:23:55,260 --> 01:23:51,880

the calls and that number is eight five

1760

01:23:58,170 --> 01:23:55,270

five four seven two five four eight

1761

01:23:59,880 --> 01:23:58,180

three numbers up on the screen if you're

1762

01:24:04,830 --> 01:23:59,890

on YouTube again that number is eight

1763

01:24:07,830 --> 01:24:04,840

five five four seven two five four eight

1764

01:24:10,080 --> 01:24:07,840

three feel free to call in and ask our

1765

01:24:15,029 --> 01:24:10,090

guest a question

1766

01:24:18,239 --> 01:24:15,039

we're standing by and so you had that

1767

01:24:22,020 --> 01:24:18,249

experience you've seen a lot of things

1768

01:24:25,229 --> 01:24:22,030

happen in Colorado yeah have you had

1769

01:24:28,020 --> 01:24:25,239

sightings elsewhere as well yes yes I

1770

01:24:31,529 --> 01:24:28,030

have my first sighting was third week

1771

01:24:33,979 --> 01:24:31,539

Friday of September 1979 I was up in New

1772

01:24:36,929 --> 01:24:33,989

Paltz New York with a group of friends

1773

01:24:39,959 --> 01:24:36,939

three of us were had gobbled mushrooms

1774

01:24:43,169 --> 01:24:39,969

the other three had we all shared the

1775

01:24:47,640 --> 01:24:43,179

same experience there was absolutely no

1776

01:24:51,120 --> 01:24:47,650

difference between the the enhanced

1777

01:24:55,949 --> 01:24:51,130

experience in the regular conscious

1778

01:24:58,759 --> 01:24:55,959

experience it was a group of lights way

1779

01:25:01,350 --> 01:24:58,769

up in the sky they look like stars and

1780

01:25:04,500 --> 01:25:01,360

we seem to be in communication with them

1781

01:25:06,989 --> 01:25:04,510

we were creating my brother said let's

1782

01:25:09,629 --> 01:25:06,999

let's try an experiment and so we made a

1783

01:25:11,850 --> 01:25:09,639

square laid down in the form of a square

1784

01:25:13,409 --> 01:25:11,860

and then we did a circle we did a

1785

01:25:16,199 --> 01:25:13,419

triangle and the objects in the sky

1786

01:25:18,359 --> 01:25:16,209

mirrored what we did which was very

1787

01:25:19,799 --> 01:25:18,369

strange and then then our ride came we

1788

01:25:23,399 --> 01:25:19,809

left I went to the party

1789

01:25:25,109 --> 01:25:23,409

I was in college and having a good time

1790

01:25:27,509 --> 01:25:25,119

it was like hey would never believe what

1791

01:25:29,819 --> 01:25:27,519

just happened you know that was my first

1792

01:25:33,089 --> 01:25:29,829

sighting I had a really good sighting

1793

01:25:35,009 --> 01:25:33,099

after I moved to Sedona it looked like

1794

01:25:39,509 --> 01:25:35,019

one of the tic-tacs it flew broad

1795

01:25:42,509 --> 01:25:39,519

daylight 3 o'clock March 27th 2005 it

1796

01:25:45,239 --> 01:25:42,519

flew right up Oak Creek right through

1797

01:25:47,640 --> 01:25:45,249

middle of town six other people reported

1798

01:25:51,750 --> 01:25:47,650

it it seemed to be about 30 or 40 feet

1799

01:25:54,629 --> 01:25:51,760

long was look like a flying egg maybe a

1800

01:25:56,069 --> 01:25:54,639

little flattened had it one end seemed

1801  
01:25:58,379 --> 01:25:56,079  
to be a little bit more pointed than the

1802  
01:26:03,240 --> 01:25:58,389  
other end so it actually did look like

1803  
01:26:04,640 --> 01:26:03,250  
an egg no wings no propulsion no noise I

1804  
01:26:07,969 --> 01:26:04,650  
[Music]

1805  
01:26:10,500 --> 01:26:07,979  
caught a good look at it for about I

1806  
01:26:13,409 --> 01:26:10,510  
don't know seven seconds maybe eight

1807  
01:26:15,750 --> 01:26:13,419  
seconds as it flew long before it you

1808  
01:26:19,649 --> 01:26:15,760  
know my the house and some trees

1809  
01:26:21,239 --> 01:26:19,659  
obscured the view but that was pretty

1810  
01:26:23,020 --> 01:26:21,249  
interesting I've had some nighttime

1811  
01:26:25,359 --> 01:26:23,030  
sightings there

1812  
01:26:27,790 --> 01:26:25,369  
including a sighting of two armed big

1813  
01:26:31,810 --> 01:26:27,800

orange orbs that got chased away by Air

1814

01:26:34,689 --> 01:26:31,820

Force jets oh wow I love those Wow yeah

1815

01:26:36,370 --> 01:26:34,699

hey we got call stacking up so okay good

1816

01:26:38,800 --> 01:26:36,380

and also get right into him we have

1817

01:26:44,950 --> 01:26:38,810

Steve calling from Las Vegas Steve

1818

01:26:52,240 --> 01:26:44,960

you're on the air Steve can you hear us

1819

01:26:54,310 --> 01:26:52,250

this happened last week and I think it's

1820

01:26:58,720 --> 01:26:54,320

gonna have to put you back on hold Steve

1821

01:27:02,020 --> 01:26:58,730

and I was hoping this wouldn't happen

1822

01:27:07,270 --> 01:27:02,030

again so there's some type of issue over

1823

01:27:11,050 --> 01:27:07,280

at at the station we have three calls on

1824

01:27:17,890 --> 01:27:11,060

hold over there right now let's see if

1825

01:27:21,160 --> 01:27:17,900

we can get that figured out and let me

1826

01:27:26,260 --> 01:27:21,170

just try Steve one more time Steve

1827

01:27:28,060 --> 01:27:26,270

you're on the air can you hear us okay I

1828

01:27:29,080 --> 01:27:28,070

can see that he's talking Steve I'm

1829

01:27:34,660 --> 01:27:29,090

sorry I'm gonna have to put you back on

1830

01:27:37,089 --> 01:27:34,670

hold all right so we have a setting

1831

01:27:39,100 --> 01:27:37,099

problem we're going to wait for that and

1832

01:27:40,450 --> 01:27:39,110

we do have we have a number of people on

1833

01:27:43,089 --> 01:27:40,460

hold right now hopefully the setting

1834

01:27:47,470 --> 01:27:43,099

will be cleaned up and figured out over

1835

01:27:49,330 --> 01:27:47,480

there at the radio station but you might

1836

01:27:53,020 --> 01:27:49,340

as well continue on with your other

1837

01:27:58,030 --> 01:27:53,030

sightings you had I wouldn't know where

1838

01:28:02,620 --> 01:27:58,040

to begin I've had so many in Colorado as

1839

01:28:04,209 --> 01:28:02,630

many as five in one day yeah well it's

1840

01:28:05,500 --> 01:28:04,219

great when you have a phone tree and you

1841

01:28:06,939 --> 01:28:05,510

have people all over the valley they

1842

01:28:09,490 --> 01:28:06,949

call you up and say quick run outside

1843

01:28:13,560 --> 01:28:09,500

look you know look to the south get up

1844

01:28:16,540 --> 01:28:13,570

on your roof you know so we're able to

1845

01:28:20,410 --> 01:28:16,550

alert each other and we've been able to

1846

01:28:24,700 --> 01:28:20,420

I got some video that way I had a really

1847

01:28:28,720 --> 01:28:24,710

cool sighting on December 8th 94 when

1848

01:28:31,720 --> 01:28:28,730

was a blow out it was at night around 10

1849

01:28:34,540 --> 01:28:31,730

o'clock and we had a group of seven

1850

01:28:36,580 --> 01:28:34,550

lights come in and a group of six they

1851

01:28:38,709 --> 01:28:36,590

both came in join started

1852

01:28:41,470 --> 01:28:38,719

lean around it couldn't have been more

1853

01:28:44,620 --> 01:28:41,480

than two miles from us didn't hear a

1854

01:28:47,410 --> 01:28:44,630

thing 13 objects we didn't hear a thing

1855

01:28:49,750 --> 01:28:47,420

some of them started blinking others

1856

01:28:51,850 --> 01:28:49,760

stayed steady then they formed back up

1857

01:28:55,780 --> 01:28:51,860

one group went one way the other group

1858

01:28:56,979 --> 01:28:55,790

went another way and they we didn't hear

1859

01:28:59,470 --> 01:28:56,989

a single sound

1860

01:29:02,470 --> 01:28:59,480

it was just deathly still and I got

1861

01:29:06,070 --> 01:29:02,480

footage on night vision with a night

1862

01:29:10,479 --> 01:29:06,080

vision lens that was really I've been

1863

01:29:12,959 --> 01:29:10,489

holding on to that I haven't I haven't

1864

01:29:15,160 --> 01:29:12,969

supplied it to any TV shows or anything

1865

01:29:17,280 --> 01:29:15,170

another really interesting triangle

1866

01:29:19,930 --> 01:29:17,290

sighting that we got footage of two that

1867

01:29:23,229 --> 01:29:19,940

flew about a half a mile away from us in

1868

01:29:26,500 --> 01:29:23,239

a complete circle in an art kind of

1869

01:29:29,050 --> 01:29:26,510

around us that was a good one

1870

01:29:31,780 --> 01:29:29,060

again I mentioned the little scout ship

1871

01:29:33,280 --> 01:29:31,790

it flew about 50 feet off the road about

1872

01:29:35,830 --> 01:29:33,290

a hundred and fifty feet in front of us

1873

01:29:38,830 --> 01:29:35,840

and then zipped out over the the where

1874

01:29:41,200 --> 01:29:38,840

fertile valley and it looked like

1875

01:29:43,780 --> 01:29:41,210

somebody you know when you reel in a

1876

01:29:45,760 --> 01:29:43,790

lure really fast in the water and kind

1877

01:29:47,530 --> 01:29:45,770

of skips that's what it looked like it

1878

01:29:50,320 --> 01:29:47,540

was doing in the atmosphere like I was

1879

01:29:52,300 --> 01:29:50,330

skipping in the atmosphere that was

1880

01:29:54,939 --> 01:29:52,310

pretty interesting I actually was able

1881

01:29:58,089 --> 01:29:54,949

to get binoculars on it as it has it

1882

01:30:00,729 --> 01:29:58,099

faded away into the distance it was

1883

01:30:06,850 --> 01:30:00,739

pretty small it was only about 12 feet

1884

01:30:09,399 --> 01:30:06,860

maybe 15 feet and I've seen big

1885

01:30:13,600 --> 01:30:09,409

rectangles we've had them block out the

1886

01:30:15,430 --> 01:30:13,610

sky I've seen every type of orb we had a

1887

01:30:18,129 --> 01:30:15,440

one of those little red ones that flew

1888

01:30:21,220 --> 01:30:18,139

right next to our car outside of Fort

1889

01:30:22,839 --> 01:30:21,230

Garland my band was with me and three of

1890

01:30:25,479 --> 01:30:22,849

the guys had never had a sighting two of

1891

01:30:27,970 --> 01:30:25,489

them had well me and the other one had

1892

01:30:31,000 --> 01:30:27,980

and and so they were all excited because

1893

01:30:32,649 --> 01:30:31,010

they finally got to see something and it

1894

01:30:35,830 --> 01:30:32,659

was I could have hit it with a rock I

1895

01:30:38,740 --> 01:30:35,840

mean it was really close to us she's we

1896

01:30:43,030 --> 01:30:38,750

caught oh my god Oh of lights over

1897

01:30:46,120 --> 01:30:43,040

Blancas peak had two big house-sized

1898

01:30:48,040 --> 01:30:46,130

fireballs right at treetop level go one

1899

01:30:50,470 --> 01:30:48,050

after the other all the way down the

1900

01:30:51,850 --> 01:30:50,480

entire length of the valley I

1901

01:30:53,620 --> 01:30:51,860

was up about a thousand feet off the

1902

01:30:58,450 --> 01:30:53,630

valley floors so we had a really good

1903

01:31:00,160 --> 01:30:58,460

good view of those I had this one thing

1904

01:31:02,860 --> 01:31:00,170

that went over that was probably some

1905

01:31:06,360 --> 01:31:02,870

sort of military thing it it looked like

1906

01:31:10,780 --> 01:31:06,370

the Millennium Falcon and had a big

1907

01:31:13,350 --> 01:31:10,790

super loud and it had a the whole back

1908

01:31:17,290 --> 01:31:13,360

end seemed to be lit up a blue flame

1909

01:31:23,680 --> 01:31:17,300

coming out of it but it was kind of flat

1910

01:31:28,110 --> 01:31:23,690

and extremely loud Jesus saw looked like

1911

01:31:33,130 --> 01:31:28,120

the citational battle with no wings a

1912

01:31:35,620 --> 01:31:33,140

whole bunch of people saw that I don't

1913

01:31:38,380 --> 01:31:35,630

know man it's just that's really amazing

1914

01:31:42,520 --> 01:31:38,390

orbs I'm gonna try a different caller

1915

01:31:46,000 --> 01:31:42,530

see see if that might work let's let's

1916

01:31:48,100 --> 01:31:46,010

try let's try let's try John over and

1917

01:31:52,180 --> 01:31:48,110

Missouri John can you hear us

1918

01:31:55,240 --> 01:31:52,190

I could see John talking I can't hear

1919

01:31:56,830 --> 01:31:55,250

John talking all right so that's it I'm

1920

01:31:58,540 --> 01:31:56,840

terribly sorry we have all these people

1921

01:32:00,130 --> 01:31:58,550

on hold it doesn't look like it's gonna

1922

01:32:04,210 --> 01:32:00,140

happen again

1923

01:32:09,250 --> 01:32:04,220

so but I'm not going to give up I will I

1924

01:32:11,470 --> 01:32:09,260

will do what I did last week that that

1925

01:32:14,410 --> 01:32:11,480

didn't go so well either her the Skype

1926

01:32:16,210 --> 01:32:14,420

of the Skype call so we're just I wanted

1927

01:32:18,880 --> 01:32:16,220

and we've got another person calling in

1928

01:32:22,870 --> 01:32:18,890

so we got four people on all trying to

1929

01:32:26,979 --> 01:32:22,880

call so I do apologize we may try we may

1930

01:32:28,630 --> 01:32:26,989

try later if if they can figure it out

1931

01:32:33,729 --> 01:32:28,640

over the radio station what's going on

1932

01:32:36,010 --> 01:32:33,739

it's really too bad I don't dare to try

1933

01:32:41,560 --> 01:32:36,020

Skype so we're gonna pull the number off

1934

01:32:46,810 --> 01:32:41,570

right now and we'll just move on

1935

01:32:49,450 --> 01:32:46,820

Wow I've only had I've had one really

1936

01:32:54,070 --> 01:32:49,460

interest is in two interesting sighting

1937

01:32:56,550 --> 01:32:54,080

and I've had another sighting that it

1938

01:33:00,580 --> 01:32:56,560

probably was a sighting but I always

1939

01:33:01,959 --> 01:33:00,590

discounted it and I don't I've just been

1940

01:33:04,000 --> 01:33:01,969

afraid to say that I've had more than

1941

01:33:06,640 --> 01:33:04,010

one sighting maybe that's part of it

1942

01:33:07,960 --> 01:33:06,650

but another thing it's you know I

1943

01:33:09,880 --> 01:33:07,970

thought for sure it was like the

1944

01:33:13,750 --> 01:33:09,890

International Space Station or something

1945

01:33:17,560 --> 01:33:13,760

like that it was it was big it was well

1946

01:33:20,950 --> 01:33:17,570

lit up in the real distant night sky but

1947

01:33:23,530 --> 01:33:20,960

then it what direction let me think it

1948

01:33:27,430 --> 01:33:23,540

would be heading toward the east sort of

1949

01:33:28,630 --> 01:33:27,440

east if I were the Space Station what's

1950

01:33:29,830 --> 01:33:28,640

that that's pretty it's pretty bright

1951

01:33:34,030 --> 01:33:29,840

the Space Station

1952

01:33:37,720 --> 01:33:34,040

yeah guy says and then it but it did a a

1953

01:33:39,340 --> 01:33:37,730

Jag well that wasn't the Space Station

1954

01:33:41,380 --> 01:33:39,350

she huh all right you know it could have

1955

01:33:44,890 --> 01:33:41,390

been something atmospheric possibly but

1956

01:33:49,270 --> 01:33:44,900

I don't really know but I had I had a

1957

01:33:52,920 --> 01:33:49,280

sighting that I almost had the I could

1958

01:33:56,050 --> 01:33:52,930

have seen the the Phoenix lights ship

1959

01:33:57,580 --> 01:33:56,060

craft but I was inside the motel flew

1960

01:33:59,680 --> 01:33:57,590

right over the motel we watched her

1961

01:34:01,030 --> 01:33:59,690

basketball and we heard other people

1962

01:34:02,620 --> 01:34:01,040

outside we couldn't hear what they were

1963

01:34:04,600 --> 01:34:02,630

saying but they were we thought they

1964

01:34:07,420 --> 01:34:04,610

were watching the game to Arizona State

1965

01:34:10,630 --> 01:34:07,430

I think was in the final this sweet 16

1966

01:34:12,220 --> 01:34:10,640

or something and then when we finally

1967

01:34:13,570 --> 01:34:12,230

you know the noise really got loud

1968

01:34:16,030 --> 01:34:13,580

outside so we went out and he said oh

1969

01:34:19,360 --> 01:34:16,040

man where you been this huge thing just

1970

01:34:21,790 --> 01:34:19,370

flew up like what yeah because we saw on

1971

01:34:23,440 --> 01:34:21,800

TV they interrupted the game there was

1972

01:34:24,760 --> 01:34:23,450

that famous footage of the reporter

1973

01:34:27,280 --> 01:34:24,770

standing there were the lights behind

1974

01:34:31,600 --> 01:34:27,290

them we saw that live I was down in Casa

1975

01:34:34,570 --> 01:34:31,610

Grande in a motel Wow hey you know I'm

1976

01:34:37,060 --> 01:34:34,580

gonna do Chris and I'm sorry this isn't

1977

01:34:38,770 --> 01:34:37,070

really that fair to the people that

1978

01:34:39,160 --> 01:34:38,780

we're trying to call in and I apologize

1979

01:34:41,680 --> 01:34:39,170

for that

1980

01:34:43,030 --> 01:34:41,690

but I'd happen to have Ray's phone

1981

01:34:45,040 --> 01:34:43,040

number right on Skype because he's been

1982

01:34:46,990 --> 01:34:45,050

on the show a number of times so I'm

1983

01:34:48,810 --> 01:34:47,000

gonna try to give Ray's Stanford a call

1984

01:34:54,010 --> 01:34:48,820

here because I know he's listening and

1985

01:34:57,010 --> 01:34:54,020

because we'll see if that will work if

1986

01:35:00,310 --> 01:34:57,020

not of course we'll just know ray is

1987

01:35:01,510 --> 01:35:00,320

that you Ray that's me ray I don't know

1988

01:35:04,720 --> 01:35:01,520

if you even know this yet but you're

1989

01:35:06,880 --> 01:35:04,730

live on the air how are you oh ok hi

1990

01:35:08,320 --> 01:35:06,890

yeah you know I was sitting here

1991

01:35:12,400 --> 01:35:08,330

thinking since you can't get anybody

1992

01:35:14,140 --> 01:35:12,410

this calling in call me well your

1993

01:35:16,000 --> 01:35:14,150

telepathy worked cuz all of a sudden I

1994

01:35:17,440 --> 01:35:16,010

thought hey I think I have raised

1995

01:35:19,660 --> 01:35:17,450

Stanford's number in

1996

01:35:20,860 --> 01:35:19,670

on my skype because you've been on the

1997

01:35:23,500 --> 01:35:20,870

show and they're you worried popped

1998

01:35:24,340 --> 01:35:23,510

right up when I look I'm really glad

1999

01:35:27,460 --> 01:35:24,350

that you did

2000

01:35:31,800 --> 01:35:27,470

and it's always a pleasure to talk to

2001  
01:35:34,570 --> 01:35:31,810  
Chris O'Brien and hey I thought I would

2002  
01:35:36,640 --> 01:35:34,580  
he mentioned that I'm probably the only

2003  
01:35:39,520 --> 01:35:36,650  
source of information that makes him

2004  
01:35:42,010 --> 01:35:39,530  
worry about accepting the

2005  
01:35:44,140 --> 01:35:42,020  
extra-terrestrial hypothesis but I you

2006  
01:35:47,470 --> 01:35:44,150  
know I think that what we have to do in

2007  
01:35:49,120 --> 01:35:47,480  
this field if I may say so is that we

2008  
01:35:51,790 --> 01:35:49,130  
need to not put that as the first

2009  
01:35:54,550 --> 01:35:51,800  
priority as to where do they come from

2010  
01:35:56,790 --> 01:35:54,560  
or even what are they here we need to

2011  
01:36:01,690 --> 01:35:56,800  
get the hard data that will communicate

2012  
01:36:04,510 --> 01:36:01,700  
some real good science to us and leave

2013  
01:36:07,330 --> 01:36:04,520

that perhaps to later but I'd like to

2014

01:36:10,360 --> 01:36:07,340

add this one phenomenon if I may

2015

01:36:13,180 --> 01:36:10,370

this is the so-called mothership

2016

01:36:15,250 --> 01:36:13,190

phenomenon it shouldn't seem strange or

2017

01:36:18,090 --> 01:36:15,260

metaphysical or out of place because

2018

01:36:20,200 --> 01:36:18,100

after all when we wet our took our first

2019

01:36:22,570 --> 01:36:20,210

from Earth journey to an

2020

01:36:24,730 --> 01:36:22,580

extraterrestrial body namely the moon we

2021

01:36:26,680 --> 01:36:24,740

had a mothership that stayed in orbit

2022

01:36:28,480 --> 01:36:26,690

and sent the craft down to land on the

2023

01:36:30,940 --> 01:36:28,490

moon and then came back up dr. with it

2024

01:36:33,250 --> 01:36:30,950

and came home so the mothership

2025

01:36:35,140 --> 01:36:33,260

phenomenon should not be surprising but

2026

01:36:38,740 --> 01:36:35,150

in the context of the question of

2027

01:36:41,260 --> 01:36:38,750

extraterrestrial source it does not

2028

01:36:43,150 --> 01:36:41,270

prove to us that it comes from Planet X

2029

01:36:46,120 --> 01:36:43,160

or anything like that but what this

2030

01:36:48,940 --> 01:36:46,130

suggests these huge objects releasing

2031

01:36:50,710 --> 01:36:48,950

small objects of several different quite

2032

01:36:53,500 --> 01:36:50,720

a number of different categories is that

2033

01:36:55,510 --> 01:36:53,510

they come from far away because the

2034

01:36:57,820 --> 01:36:55,520

large object releasing small addition

2035

01:37:02,260 --> 01:36:57,830

the atmosphere suggests conservation of

2036

01:37:04,720 --> 01:37:02,270

energy and it's it makes a lot of sense

2037

01:37:06,580 --> 01:37:04,730

it tends us to interpret the

2038

01:37:07,720 --> 01:37:06,590

extra-terrestrial hypothesis but we

2039

01:37:10,300 --> 01:37:07,730

don't know where they're coming from

2040

01:37:12,220 --> 01:37:10,310

they may need this big energy sources

2041

01:37:14,110 --> 01:37:12,230

they're coming from an extra dimensional

2042

01:37:16,510 --> 01:37:14,120

situation that we can't comprehend and

2043

01:37:18,970 --> 01:37:16,520

when they get to the local place on the

2044

01:37:21,460 --> 01:37:18,980

earth release shuttles to do some

2045

01:37:22,750 --> 01:37:21,470

studies or whatever they're up to but

2046

01:37:23,470 --> 01:37:22,760

I'm doing all the talking and I

2047

01:37:27,160 --> 01:37:23,480

shouldn't do that

2048

01:37:31,060 --> 01:37:27,170

hey Chris anything you care to say or

2049

01:37:34,680 --> 01:37:31,070

ask me about our to discuss yeah and

2050

01:37:37,060 --> 01:37:34,690

again like I mentioned earlier that

2051  
01:37:40,600 --> 01:37:37,070  
rationale makes perfect sense to me

2052  
01:37:43,629 --> 01:37:40,610  
and that is the only in it at least as

2053  
01:37:45,760 --> 01:37:43,639  
far as you know I'm aware that is really

2054  
01:37:47,560 --> 01:37:45,770  
the best evidence that circumstantial

2055  
01:37:49,060 --> 01:37:47,570  
evidence that we have that would suggest

2056  
01:37:52,479 --> 01:37:49,070  
that we are dealing with something off

2057  
01:37:54,550 --> 01:37:52,489  
planet again we can't really you know

2058  
01:37:56,500 --> 01:37:54,560  
factor anything in or out and I

2059  
01:37:59,950 --> 01:37:56,510  
absolutely agree with you that we need

2060  
01:38:01,419 --> 01:37:59,960  
to exhaust all efforts to utilize this

2061  
01:38:03,760 --> 01:38:01,429  
wonderful technology that's now

2062  
01:38:05,859 --> 01:38:03,770  
affordable and instead of spending 2

2063  
01:38:08,050 --> 01:38:05,869

million dollars on on project starlight

2064

01:38:11,979 --> 01:38:08,060

we can spend five thousand dollars and

2065

01:38:14,620 --> 01:38:11,989

and have a fairly good opportunity if

2066

01:38:18,339 --> 01:38:14,630

they've placed in a proper location to

2067

01:38:22,120 --> 01:38:18,349

get that kind of hard data and I'm

2068

01:38:23,649 --> 01:38:22,130

really again I really can't can't

2069

01:38:27,399 --> 01:38:23,659

emphasize enough how much of an

2070

01:38:30,280 --> 01:38:27,409

inspiration you have been for me in more

2071

01:38:32,560 --> 01:38:30,290

ways than one and and I really do look

2072

01:38:36,450 --> 01:38:32,570

forward to finally getting some quality

2073

01:38:41,620 --> 01:38:39,879

you know you mentioned among the and by

2074

01:38:44,439 --> 01:38:41,630

the way this is very exciting and very

2075

01:38:46,120 --> 01:38:44,449

rewarding to me to see the kind of

2076

01:38:48,550 --> 01:38:46,130

effort you're doing to get instruments

2077

01:38:51,069 --> 01:38:48,560

out there and get data and but I have a

2078

01:38:53,709 --> 01:38:51,079

question my question I'd ask you on the

2079

01:38:56,740 --> 01:38:53,719

phone some time ago but it has to do

2080

01:38:58,569 --> 01:38:56,750

with the magnetometer the magnetometer

2081

01:39:01,419 --> 01:38:58,579

we used is an extreme low frequency

2082

01:39:04,330 --> 01:39:01,429

magnetometer and it came about because

2083

01:39:06,069 --> 01:39:04,340

we had evidence that there was extremely

2084

01:39:08,370 --> 01:39:06,079

low frequency magnetism associated with

2085

01:39:11,470 --> 01:39:08,380

these object I won't go into it now but

2086

01:39:14,680 --> 01:39:11,480

we very successfully use this during

2087

01:39:17,109 --> 01:39:14,690

daylight filming of objects and we have

2088

01:39:19,540 --> 01:39:17,119

a direct correlation of the manoeuvres

2089

01:39:21,490 --> 01:39:19,550

with the changes in the extremely

2090

01:39:24,370 --> 01:39:21,500

elusive magnetic field now that's

2091

01:39:27,000 --> 01:39:24,380

extremely important is to record in a

2092

01:39:30,520 --> 01:39:27,010

way where you have a real-time signal to

2093

01:39:33,640 --> 01:39:30,530

correlate one thing with another so that

2094

01:39:35,859 --> 01:39:33,650

you can correlate field effects with the

2095

01:39:37,300 --> 01:39:35,869

maneuvers it tells you that something is

2096

01:39:39,160 --> 01:39:37,310

happening in this case it strongly

2097

01:39:41,680 --> 01:39:39,170

suggests because of what we see on the

2098

01:39:43,600 --> 01:39:41,690

film is suggest that as a grouse

2099

01:39:44,950 --> 01:39:43,610

propulsive mechanism in the atmosphere

2100

01:39:47,200 --> 01:39:44,960

we're used

2101  
01:39:49,240 --> 01:39:47,210  
they're using electrified atmosphere

2102  
01:39:51,940 --> 01:39:49,250  
plasma in other words maneuvering with a

2103  
01:39:54,640 --> 01:39:51,950  
magnetic field this does not mean it's a

2104  
01:39:56,350 --> 01:39:54,650  
private primary drive or anything of

2105  
01:39:58,690 --> 01:39:56,360  
that nature and it doesn't prove that

2106  
01:40:00,850 --> 01:39:58,700  
there ET is contrast with something

2107  
01:40:03,030 --> 01:40:00,860  
coming from somewhere else but in in a

2108  
01:40:08,260 --> 01:40:03,040  
realistic sense in the atmosphere and

2109  
01:40:11,410 --> 01:40:08,270  
but dude in your in your magnetometer

2110  
01:40:15,190 --> 01:40:11,420  
dude can you tell me what what type of a

2111  
01:40:17,140 --> 01:40:15,200  
bandwidth what what frequency this is

2112  
01:40:19,120 --> 01:40:17,150  
monitoring on there the magnetic

2113  
01:40:22,270 --> 01:40:19,130

spectrum ish you know is incredibly

2114

01:40:25,209 --> 01:40:22,280

broad do you know what what range this

2115

01:40:27,670 --> 01:40:25,219

is is or is it just direct magnetism and

2116

01:40:30,459 --> 01:40:27,680

not looking at frequencies or what do

2117

01:40:33,459 --> 01:40:30,469

you know I'm gonna go ahead and read you

2118

01:40:36,030 --> 01:40:33,469

the specs on it I'm going to the website

2119

01:40:43,840 --> 01:40:36,040

right now for the technical information

2120

01:40:49,360 --> 01:40:43,850

again well just take a second

2121

01:40:51,760 --> 01:40:49,370

I have asked Ron about this and he's it

2122

01:40:55,060 --> 01:40:51,770

I think it's a full spectrum it's not

2123

01:40:59,709 --> 01:40:55,070

focused only on the low frequency I

2124

01:41:02,530 --> 01:40:59,719

think it is a full spectrum that that's

2125

01:41:04,750 --> 01:41:02,540

kind of problematic because you don't

2126

01:41:06,850 --> 01:41:04,760

unless there's a way to tell what

2127

01:41:08,530 --> 01:41:06,860

frequency you're looking at it's very

2128

01:41:09,970 --> 01:41:08,540

difficult to analyze it scientifically I

2129

01:41:12,790 --> 01:41:09,980

think though that there probably is an

2130

01:41:15,130 --> 01:41:12,800

answer that's more meaningful than that

2131

01:41:18,130 --> 01:41:15,140

I wish I wish Ron would contact me and

2132

01:41:19,900 --> 01:41:18,140

talk about this because it really it

2133

01:41:22,060 --> 01:41:19,910

really needs to be ironed out because

2134

01:41:24,610 --> 01:41:22,070

when you go to present this to physical

2135

01:41:27,520 --> 01:41:24,620

scientists to try to gain physical

2136

01:41:30,040 --> 01:41:27,530

theory you need to know what it really

2137

01:41:33,820 --> 01:41:30,050

is being monitored and to let me mention

2138

01:41:35,979 --> 01:41:33,830

some background I believe that the

2139

01:41:37,570 --> 01:41:35,989

government that the first reason that

2140

01:41:40,690 --> 01:41:37,580

got the government very concerned about

2141

01:41:42,310 --> 01:41:40,700

UFOs in secrecy was the effect of this

2142

01:41:44,050 --> 01:41:42,320

extreme low frequency which we have

2143

01:41:47,320 --> 01:41:44,060

documented again and again with our

2144

01:41:48,880 --> 01:41:47,330

system upon submarine communication

2145

01:41:51,760 --> 01:41:48,890

which communicates in the extreme low

2146

01:41:55,470 --> 01:41:51,770

frequency range and in fact it was a

2147

01:41:58,220 --> 01:41:55,480

physicist that works for the Navy that

2148

01:42:01,430 --> 01:41:58,230

was one of the two major designer

2149

01:42:04,880 --> 01:42:01,440

of our system now that's an acoustic

2150

01:42:07,280 --> 01:42:04,890

isn't an acoustic signal no no not at

2151

01:42:10,300 --> 01:42:07,290

all no nothing to it acoustics has to do

2152

01:42:14,570 --> 01:42:10,310

with extreme low frequency magnetism and

2153

01:42:17,090 --> 01:42:14,580

this friend of mine in back in Austin

2154

01:42:19,700 --> 01:42:17,100

that had been in the US Navy working

2155

01:42:21,830 --> 01:42:19,710

aboard a nuclear submarine for a long

2156

01:42:25,540 --> 01:42:21,840

time period he said something that

2157

01:42:28,280 --> 01:42:25,550

really got to him when I happened it was

2158

01:42:31,160 --> 01:42:28,290

they were deep under the Atlantic Ocean

2159

01:42:33,650 --> 01:42:31,170

and all of a sudden the skipper came in

2160

01:42:37,250 --> 01:42:33,660

on the intercom and said look I'm

2161

01:42:41,150 --> 01:42:37,260

requesting that we surface as quickly as

2162

01:42:41,540 --> 01:42:41,160

is commensurate with safety if we can do

2163

01:42:43,880 --> 01:42:41,550

this

2164

01:42:45,950 --> 01:42:43,890

as quickly as possible safely he said I

2165

01:42:47,750 --> 01:42:45,960

believe when we get to the surface you

2166

01:42:49,040 --> 01:42:47,760

guys are going to be able to see a UFO

2167

01:42:52,310 --> 01:42:49,050

at close range

2168

01:42:54,460 --> 01:42:52,320

well they did it they succeeded and they

2169

01:43:01,010 --> 01:42:54,470

got out on the deck and here was a

2170

01:43:02,690 --> 01:43:01,020

textbook disc UFO quite nearby now he

2171

01:43:04,850 --> 01:43:02,700

didn't have the guts to ask the skipper

2172

01:43:06,680 --> 01:43:04,860

how they knew but I would strongly

2173

01:43:09,320 --> 01:43:06,690

suggest that he was monitoring the

2174

01:43:11,420 --> 01:43:09,330

extreme low frequency communications of

2175

01:43:13,460 --> 01:43:11,430

the submarine and saw a characteristic

2176  
01:43:15,410 --> 01:43:13,470  
recognized disturbance they'd had to

2177  
01:43:18,050 --> 01:43:15,420  
deal with this disturbance apparently

2178  
01:43:20,210 --> 01:43:18,060  
from back in the 40s so you can see how

2179  
01:43:21,770 --> 01:43:20,220  
it become a secret that these submarines

2180  
01:43:24,380 --> 01:43:21,780  
that are so important to national

2181  
01:43:26,570 --> 01:43:24,390  
defense are having a disturbance of

2182  
01:43:29,180 --> 01:43:26,580  
something these strange objects that

2183  
01:43:31,550 --> 01:43:29,190  
could give a good reason to classify the

2184  
01:43:33,740 --> 01:43:31,560  
whole UFO thing right away and I think

2185  
01:43:35,450 --> 01:43:33,750  
it was the beginning of secrecy in

2186  
01:43:37,370 --> 01:43:35,460  
relationship to that not that they knew

2187  
01:43:39,350 --> 01:43:37,380  
where it was coming from at that time or

2188  
01:43:41,180 --> 01:43:39,360

how it was being generated but simply

2189

01:43:42,470 --> 01:43:41,190

that it was a problem to national

2190

01:43:44,690 --> 01:43:42,480

security because of its effect on

2191

01:43:47,600 --> 01:43:44,700

submarine communication but it's hard

2192

01:43:50,450 --> 01:43:47,610

Chris if you can find that out I'd love

2193

01:43:52,850 --> 01:43:50,460

to know because that that is very much

2194

01:43:55,450 --> 01:43:52,860

needed in the analysis of in

2195

01:43:58,280 --> 01:43:55,460

relationship to propulsion as to what

2196

01:43:59,780 --> 01:43:58,290

frequencies we're dealing with and I

2197

01:44:02,060 --> 01:43:59,790

think you'll find there's a simple

2198

01:44:05,600 --> 01:44:02,070

answer to it that Ron can give you but

2199

01:44:10,340 --> 01:44:05,610

please get back to me on that yeah it's

2200

01:44:11,540 --> 01:44:10,350

a it's a three DOF magnetometer and so

2201

01:44:14,750 --> 01:44:11,550

it's there's

2202

01:44:19,250 --> 01:44:14,760

three what you're talking mad man a

2203

01:44:23,240 --> 01:44:19,260

factor there right three DOF no it's a

2204

01:44:26,990 --> 01:44:23,250

type of magna there's three TOF TOF in

2205

01:44:29,960 --> 01:44:27,000

9000 okay I've never heard of that of

2206

01:44:32,840 --> 01:44:29,970

course the system we use was strictly

2207

01:44:35,810 --> 01:44:32,850

any I don't know what that covers but

2208

01:44:37,850 --> 01:44:35,820

there should be a statement of the

2209

01:44:39,500 --> 01:44:37,860

bandwidth from the standpoint of

2210

01:44:42,080 --> 01:44:39,510

frequency you want to call it wavelength

2211

01:44:43,520 --> 01:44:42,090

yeah should be a statement there and it

2212

01:44:46,070 --> 01:44:43,530

should be I would recommend once you

2213

01:44:47,690 --> 01:44:46,080

learn that you you publish it with the

2214

01:44:50,540 --> 01:44:47,700

literature that's making this available

2215

01:44:52,040 --> 01:44:50,550

to people so they don't know what their

2216

01:44:54,490 --> 01:44:52,050

they're getting into this is extremely

2217

01:44:56,810 --> 01:44:54,500

important by the way you mentioned

2218

01:44:59,540 --> 01:44:56,820

correlations that replication in

2219

01:45:02,180 --> 01:44:59,550

phenomena well I wish and I could talk

2220

01:45:03,830 --> 01:45:02,190

some of the people that that have strong

2221

01:45:05,930 --> 01:45:03,840

scientific backgrounds to come here and

2222

01:45:09,230 --> 01:45:05,940

see what I have you you understand why

2223

01:45:10,910 --> 01:45:09,240

and but the replication we have films

2224

01:45:13,730 --> 01:45:10,920

from airliners that have gotten in

2225

01:45:16,310 --> 01:45:13,740

daylight multiple times and from the

2226

01:45:18,590 --> 01:45:16,320

ground that show the exact same types of

2227

01:45:20,900 --> 01:45:18,600

phenomenon the same type of gigantic

2228

01:45:24,740 --> 01:45:20,910

carriers to two classes and carriers and

2229

01:45:27,320 --> 01:45:24,750

the same types of tranqer objects and I

2230

01:45:30,230 --> 01:45:27,330

can show them at least five distinct

2231

01:45:32,600 --> 01:45:30,240

types that we have filmed on multiple

2232

01:45:35,360 --> 01:45:32,610

occasions and that other people have

2233

01:45:37,070 --> 01:45:35,370

actually photographed - including the

2234

01:45:38,960 --> 01:45:37,080

the so-called mothership so it's not

2235

01:45:40,700 --> 01:45:38,970

that race Stanford is here with this

2236

01:45:43,130 --> 01:45:40,710

organization and claiming something that

2237

01:45:45,830 --> 01:45:43,140

nobody else has gotten we have excellent

2238

01:45:48,080 --> 01:45:45,840

pictures of these so-called mother ships

2239

01:45:50,570 --> 01:45:48,090

with smaller objects from other sources

2240

01:45:53,150 --> 01:45:50,580

that are highly credible and that

2241

01:45:55,040 --> 01:45:53,160

however you want to interpret at least

2242

01:45:58,640 --> 01:45:55,050

suggests that they're conserving energy

2243

01:46:01,310 --> 01:45:58,650

to get up here by in some way that

2244

01:46:03,230 --> 01:46:01,320

requires a lot of energy of this big

2245

01:46:06,470 --> 01:46:03,240

object if you're going to carry shuttles

2246

01:46:10,070 --> 01:46:06,480

down to earth and maybe elsewhere to do

2247

01:46:12,710 --> 01:46:10,080

studies so anyway that's that's my take

2248

01:46:14,180 --> 01:46:12,720

on it and but I really am encouraged by

2249

01:46:15,590 --> 01:46:14,190

your effort and I wish you the best

2250

01:46:18,080 --> 01:46:15,600

because if we can get these systems

2251

01:46:19,490 --> 01:46:18,090

going around the world it's going to

2252

01:46:23,030 --> 01:46:19,500

create a whole new ballgame in this

2253

01:46:24,740 --> 01:46:23,040

field I absolutely agree and and with

2254

01:46:27,740 --> 01:46:24,750

the advent of the Internet

2255

01:46:31,550 --> 01:46:27,750

the the connectivity and the sharing of

2256

01:46:33,710 --> 01:46:31,560

information is also you know down down

2257

01:46:36,620 --> 01:46:33,720

the road once we start to get some

2258

01:46:39,470 --> 01:46:36,630

quality information it's very easy to

2259

01:46:42,440 --> 01:46:39,480

get to get other people to analyze the

2260

01:46:44,090 --> 01:46:42,450

data and get some peer review let me

2261

01:46:45,200 --> 01:46:44,100

mention one thing very Pat Scott I know

2262

01:46:47,540 --> 01:46:45,210

we're good near the end of the program

2263

01:46:49,430 --> 01:46:47,550

and that is this we have recorded in

2264

01:46:51,680 --> 01:46:49,440

daylight and it's very important to get

2265

01:46:55,510 --> 01:46:51,690

as much data as you can in daylight

2266

01:46:58,330 --> 01:46:55,520

imagery we have recorded again and again

2267

01:47:00,770 --> 01:46:58,340

multiple sets of very very specific

2268

01:47:04,430 --> 01:47:00,780

phenomena that these objects generate

2269

01:47:07,220 --> 01:47:04,440

aircraft meteors natural phenomena in

2270

01:47:09,880 --> 01:47:07,230

the atmosphere nothing else creates

2271

01:47:13,250 --> 01:47:09,890

these sets of phenomena one of which is

2272

01:47:15,320 --> 01:47:13,260

multiple images generated a high speed

2273

01:47:18,140 --> 01:47:15,330

around the object in broad daylight

2274

01:47:20,270 --> 01:47:18,150

there are other really truly wonderful

2275

01:47:22,550 --> 01:47:20,280

and multiple phenomenon that that we've

2276

01:47:24,500 --> 01:47:22,560

documented and the effects on

2277

01:47:26,630 --> 01:47:24,510

backlighting the Faraday rings due to

2278

01:47:30,590 --> 01:47:26,640

rotation of the the plane of

2279

01:47:32,930 --> 01:47:30,600

polarization of the backlighting as it

2280

01:47:35,330 --> 01:47:32,940

passes the object toward the camera but

2281

01:47:37,970 --> 01:47:35,340

as if we get these kind of phenomena and

2282

01:47:41,240 --> 01:47:37,980

document them in other sources and can

2283

01:47:43,460 --> 01:47:41,250

show this worldwide as a phenomenon it

2284

01:47:46,940 --> 01:47:43,470

takes it out of the category of natural

2285

01:47:49,850 --> 01:47:46,950

phenomena even as when we actually

2286

01:47:52,520 --> 01:47:49,860

filmed and recorded the gravity light

2287

01:47:55,040 --> 01:47:52,530

effects as well as the light spectra and

2288

01:47:56,540 --> 01:47:55,050

the the images of objects on the edge of

2289

01:47:57,980 --> 01:47:56,550

white stands when I got a tip that they

2290

01:48:01,790 --> 01:47:57,990

were being plagued by these things and

2291

01:48:03,140 --> 01:48:01,800

by golly there was there were spectra

2292

01:48:05,390 --> 01:48:03,150

that these things were emitting that was

2293

01:48:07,640 --> 01:48:05,400

one single wavelength of light which

2294

01:48:09,590 --> 01:48:07,650

explained when people see these things

2295

01:48:11,630 --> 01:48:09,600

often they say it was so pure I don't

2296

01:48:14,000 --> 01:48:11,640

understand well in this case it was pure

2297

01:48:16,250 --> 01:48:14,010

it was a very long red wavelength of

2298

01:48:17,960 --> 01:48:16,260

light but they remarkable thing beyond

2299

01:48:19,760 --> 01:48:17,970

it being pure such as no conventional

2300

01:48:22,550 --> 01:48:19,770

aircraft would produce and as propulsion

2301

01:48:24,980 --> 01:48:22,560

or in his lighting was that there was

2302

01:48:27,500 --> 01:48:24,990

lines splitting that single line was

2303

01:48:29,180 --> 01:48:27,510

being split and to get that you have to

2304

01:48:31,280 --> 01:48:29,190

have it generated in the presence of a

2305

01:48:33,380 --> 01:48:31,290

strong electrical field are a strong

2306

01:48:35,030 --> 01:48:33,390

magnetic field and in this case based on

2307

01:48:36,920 --> 01:48:35,040

the evidence we have we believe that

2308

01:48:38,540 --> 01:48:36,930

both are present because we objects were

2309

01:48:40,399 --> 01:48:38,550

clearly using magnet

2310

01:48:42,109 --> 01:48:40,409

plasma dynamic propulsion in the

2311

01:48:43,549 --> 01:48:42,119

atmosphere if anybody doesn't believe

2312

01:48:45,290 --> 01:48:43,559

that if you got a scientific background

2313

01:48:48,229 --> 01:48:45,300

contact me I'll give you the evidence

2314

01:48:50,750 --> 01:48:48,239

but I'm really hoping that that you guys

2315

01:48:54,020 --> 01:48:50,760

can help people to get this kind of data

2316

01:48:56,270 --> 01:48:54,030

in broad daylight and also even at night

2317

01:48:57,500 --> 01:48:56,280

it might be best for perspective in

2318

01:49:00,350 --> 01:48:57,510

daylight unless they're awfully bright

2319

01:49:01,430 --> 01:49:00,360

but you haven't mentioned spectra but

2320

01:49:04,160 --> 01:49:01,440

it'd be nice if you could also

2321

01:49:06,470 --> 01:49:04,170

incorporate you know specific spectrum

2322

01:49:09,979 --> 01:49:06,480

well we're we're out of time I'm afraid

2323

01:49:12,020 --> 01:49:09,989

I have to say but thanks I'm glad to

2324

01:49:13,580 --> 01:49:12,030

talk to you Ray as always always fun to

2325

01:49:16,010 --> 01:49:13,590

have you on the show yeah thanks thanks

2326

01:49:18,649 --> 01:49:16,020

ray all right thanks for calling me

2327

01:49:21,589 --> 01:49:18,659

thank you all right good night so we are

2328

01:49:25,609 --> 01:49:21,599

out of time but I will tell people you

2329

01:49:28,220 --> 01:49:25,619

can go over to UFO DEP calm that's UFO

2330

01:49:30,500 --> 01:49:28,230

daap calm and check out what Chris is

2331

01:49:33,410 --> 01:49:30,510

doing Chris I want to thank you very

2332

01:49:35,330 --> 01:49:33,420

much for being on the show tonight yeah

2333

01:49:37,220 --> 01:49:35,340

my pleasure it's always fun I always

2334

01:49:39,799 --> 01:49:37,230

find always good to talk to you and you

2335

01:49:42,109 --> 01:49:39,809

take care all right YouTube alright

2336

01:49:45,919 --> 01:49:42,119

everyone so that is it for our show this

2337

01:49:46,850 --> 01:49:45,929

evening next week we will be back with

2338

01:49:51,439 --> 01:49:46,860

Seth

2339

01:49:54,799 --> 01:49:51,449

Breedlove he is a film producer I

2340

01:49:57,680 --> 01:49:54,809

believe the the movie coming out is

2341

01:50:00,260 --> 01:49:57,690

called on the trail of UFOs and he'll be

2342

01:50:02,660 --> 01:50:00,270

the he'll be on next week so tune in for

2343

01:50:04,490 --> 01:50:02,670

that and remember everyone to keep your

2344

01:50:10,660 --> 01:50:04,500

eyes to the sky
