TESSMAN**

1  
00:00:03,460 --> 00:00:24,729

[Music]

2  
00:00:29,869 --> 00:00:27,529

hello and welcome to the show and Martin

3  
00:00:32,299 --> 00:00:29,879

will assure host and Tonight Show we

4  
00:00:36,260 --> 00:00:32,309

have a Dian Testament coming up in just

5  
00:00:38,750 --> 00:00:36,270

a minute but at first a few things we

6  
00:00:40,520 --> 00:00:38,760

actually had to switch Dave Marlar he

7  
00:00:42,470 --> 00:00:40,530

was supposed to be on tonight but he had

8  
00:00:44,209 --> 00:00:42,480

a work commitment so we had to swap him

9  
00:00:47,720 --> 00:00:44,219

out for next week so we can look forward

10  
00:00:50,900 --> 00:00:47,730

to that next week on March 3rd Dave

11  
00:00:52,430 --> 00:00:50,910

Marla will be here then so I just wanted

12  
00:00:55,430 --> 00:00:52,440

to say a few things over the last week

13  
00:00:58,160 --> 00:00:55,440

I've had a lot of communication with a

14

00:01:00,920 --> 00:00:58,170

lot of my supporters and I have to say

15

00:01:03,429 --> 00:01:00,930

I'm a very fortunate man I want to thank

16

00:01:05,539 --> 00:01:03,439

you all for such kind words and your

17

00:01:09,410 --> 00:01:05,549

continued support it really means a lot

18

00:01:12,260 --> 00:01:09,420

to me and I do appreciate all the

19

00:01:14,359 --> 00:01:12,270

listeners and anyone can support the

20

00:01:16,910 --> 00:01:14,369

show that doesn't now you can go over to

21

00:01:20,870 --> 00:01:16,920

patreon that link is on our website

22

00:01:22,249 --> 00:01:20,880

podcast UFO calm and while you're over

23

00:01:24,649 --> 00:01:22,259

there we also have a Facebook page

24

00:01:27,169 --> 00:01:24,659

connected to that there's a icon on the

25

00:01:29,419 --> 00:01:27,179

sidebar and this I think 22,000 people

26  
00:01:31,399 --> 00:01:29,429  
on that page there's a lot going on over

27  
00:01:33,919 --> 00:01:31,409  
there if you want to check that out our

28  
00:01:36,260 --> 00:01:33,929  
latest blog is the second one on the

29  
00:01:39,050 --> 00:01:36,270  
same topic by Charles Lear

30  
00:01:42,649 --> 00:01:39,060  
it's called the Kelly Kentucky UFO

31  
00:01:45,980 --> 00:01:42,659  
goblins part 2 and as I said last week

32  
00:01:48,620 --> 00:01:45,990  
that case is well I don't know what word

33  
00:01:51,379 --> 00:01:48,630  
you want to call it a humdinger of an

34  
00:01:53,389 --> 00:01:51,389  
unexplained case all different types of

35  
00:01:55,039 --> 00:01:53,399  
weird things happen and if you're new

36  
00:01:56,589 --> 00:01:55,049  
looking into this topic and you've never

37  
00:02:00,109 --> 00:01:56,599  
heard of that go check out the blog's

38  
00:02:04,129 --> 00:02:00,119

the two blogs over there at podcast UFO

39

00:02:06,109 --> 00:02:04,139

calm a couple things in the UFO news

40

00:02:08,660 --> 00:02:06,119

several days ago I get a number of

41

00:02:12,620 --> 00:02:08,670

emails from listeners pretty excited

42

00:02:15,410 --> 00:02:12,630

about a cone-shaped UFO that was filmed

43

00:02:18,260 --> 00:02:15,420

by NASA at the International Space

44

00:02:20,150 --> 00:02:18,270

Station you can see that online I'm not

45

00:02:23,180 --> 00:02:20,160

really sure I'm not going to say well I

46

00:02:26,060 --> 00:02:23,190

guess right now it is an unidentified

47

00:02:27,050 --> 00:02:26,070

flying object but I know that you know

48

00:02:29,210 --> 00:02:27,060

they launched

49

00:02:31,880 --> 00:02:29,220

cube SATs before and people thought they

50

00:02:34,070 --> 00:02:31,890

were you know UFOs and all that you know

51  
00:02:37,339 --> 00:02:34,080  
what I'm getting at is there it may be

52  
00:02:38,930 --> 00:02:37,349  
something explainable and I would just

53  
00:02:41,240 --> 00:02:38,940  
keep an eye on that we may find out in

54  
00:02:45,020 --> 00:02:41,250  
the future what that was or maybe it

55  
00:02:46,339 --> 00:02:45,030  
will continue to be a UFO and if I find

56  
00:02:48,620 --> 00:02:46,349  
out anything about that maybe I'll

57  
00:02:51,440 --> 00:02:48,630  
mention something next week if new

58  
00:02:53,720 --> 00:02:51,450  
evidence comes along to the answer for

59  
00:02:55,850 --> 00:02:53,730  
what that is it may already be answered

60  
00:02:59,960 --> 00:02:55,860  
but I couldn't find anything myself

61  
00:03:02,150 --> 00:02:59,970  
so our friends over at the drive the war

62  
00:03:03,770 --> 00:03:02,160  
zone the drive

63  
00:03:08,840 --> 00:03:03,780

Tyler rogue away has been on this show

64

00:03:12,380 --> 00:03:08,850

but his co-author over there have has

65

00:03:14,900 --> 00:03:12,390

written a great story about the

66

00:03:17,630 --> 00:03:14,910

continuation of the Colorado mystery

67

00:03:20,390 --> 00:03:17,640

drones and we've talked about that a few

68

00:03:23,210 --> 00:03:20,400

times then the author of this article is

69

00:03:26,240 --> 00:03:23,220

Brett tinguely and he put out a story

70

00:03:30,080 --> 00:03:26,250

yesterday that emails obtained through a

71

00:03:33,949 --> 00:03:30,090

FOIA a Freedom of Information Act show

72

00:03:36,289 --> 00:03:33,959

that security forces and officials at Fe

73

00:03:39,229 --> 00:03:36,299

Warren Air Force Base were just as

74

00:03:43,819 --> 00:03:39,239

perplexed with the drones as the public

75

00:03:46,250 --> 00:03:43,829

is so in conclusion this may not have

76  
00:03:48,800 --> 00:03:46,260  
been what most people thought the answer

77  
00:03:52,610 --> 00:03:48,810  
for those drones were they may not be

78  
00:03:55,750 --> 00:03:52,620  
military drones after all so check out

79  
00:03:58,940 --> 00:03:55,760  
that story over at the dr.com

80  
00:04:02,330 --> 00:03:58,950  
tonight's guest a dyin testament in the

81  
00:04:04,670 --> 00:04:02,340  
mid-1970s Diane was a field investigator

82  
00:04:08,479 --> 00:04:04,680  
with the aerial phenomena research

83  
00:04:12,349 --> 00:04:08,489  
organization April and Florida State

84  
00:04:13,970 --> 00:04:12,359  
section director for MUFON but anyway

85  
00:04:16,640 --> 00:04:13,980  
I'm gonna bring lunch we're gonna be

86  
00:04:19,969 --> 00:04:16,650  
talking about her books called future

87  
00:04:22,909 --> 00:04:19,979  
humans and UFOs time for new thinking

88  
00:04:25,969 --> 00:04:22,919

Diane welcome to the show I'm pleased to

89

00:04:28,250 --> 00:04:25,979

be here and you are in we were talking

90

00:04:29,540 --> 00:04:28,260

just before the show you are in you're

91

00:04:32,120 --> 00:04:29,550

in the middle of the country you're in

92

00:04:35,060 --> 00:04:32,130

the lowa yes I'm on the border in

93

00:04:39,920 --> 00:04:35,070

Minnesota but I'm in lowa uh-huh and

94

00:04:40,670 --> 00:04:39,930

you're in corn country fields and fields

95

00:04:42,920 --> 00:04:40,680

of corn

96

00:04:44,030 --> 00:04:42,930

that's what I remember in I'm not going

97

00:04:45,800 --> 00:04:44,040

to get it right off the bat and ask

98

00:04:50,330 --> 00:04:45,810

about crop circles but eventually that

99

00:04:52,730 --> 00:04:50,340

might come up okay so can you tell the

100

00:04:56,719 --> 00:04:52,740

listening audience out there a little

101  
00:04:59,360 --> 00:04:56,729  
bit about yourself yes well I was a

102  
00:05:03,230 --> 00:04:59,370  
school teacher for eleven years I taught

103  
00:05:07,189 --> 00:05:03,240  
English as a second language in st.

104  
00:05:10,700 --> 00:05:07,199  
Thomas Virgin Islands in Florida I had

105  
00:05:13,610 --> 00:05:10,710  
always been interested in UFOs for a

106  
00:05:16,430 --> 00:05:13,620  
personal reason I had two encounters

107  
00:05:20,480 --> 00:05:16,440  
when I was quite young I guess you could

108  
00:05:23,510 --> 00:05:20,490  
call them abductions they were they

109  
00:05:27,290 --> 00:05:23,520  
changed my life but I have no regrets

110  
00:05:33,010 --> 00:05:27,300  
they were not super frightening or super

111  
00:05:39,800 --> 00:05:36,590  
apparently a membrane and my mouth was

112  
00:05:42,980 --> 00:05:39,810  
taken there's a tissue sample

113  
00:05:46,850 --> 00:05:42,990

so I started very young you know looking

114

00:05:49,580 --> 00:05:46,860

at the Stars and wondering and when I

115

00:05:52,279 --> 00:05:49,590

moved to California I couldn't get into

116

00:05:55,790 --> 00:05:52,289

teaching there was a recession on and

117

00:05:58,310 --> 00:05:55,800

also I didn't have my master's degree so

118

00:06:01,580 --> 00:05:58,320

I started a spiritual newsletter that is

119

00:06:05,800 --> 00:06:01,590

still going with messages of well

120

00:06:10,040 --> 00:06:05,810

predicted global climate chaos and

121

00:06:13,969 --> 00:06:10,050

storms and other things that have

122

00:06:15,890 --> 00:06:13,979

unfortunately come true but I've always

123

00:06:18,379 --> 00:06:15,900

wanted to work on the science

124

00:06:22,279 --> 00:06:18,389

speculative side of things too

125

00:06:27,620 --> 00:06:22,289

and I have written a book future humans

126  
00:06:31,219 --> 00:06:27,630  
and the UFOs that is logical and science

127  
00:06:34,310 --> 00:06:31,229  
speculation it's not spiritual as

128  
00:06:36,860 --> 00:06:34,320  
several of my other books have been I've

129  
00:06:39,920 --> 00:06:36,870  
lived in Ireland for five years and

130  
00:06:43,159 --> 00:06:39,930  
looked into Celts shamanism and Irish

131  
00:06:46,150 --> 00:06:43,169  
herbal medicine lived in giant rock

132  
00:06:49,760 --> 00:06:46,160  
current California for two years

133  
00:06:52,940 --> 00:06:49,770  
actually Joshua Tree but giant rock was

134  
00:06:53,660 --> 00:06:52,950  
nearby and that's where George Van

135  
00:06:58,370 --> 00:06:53,670  
Tassel

136  
00:07:02,300 --> 00:06:58,380  
used to gather large crowds and summon

137  
00:07:05,990 --> 00:07:02,310  
the et's down and that was in the 50s

138  
00:07:09,590 --> 00:07:06,000

and 60s I wasn't a part of that I was

139

00:07:12,290 --> 00:07:09,600

there in the later 90s but that is an

140

00:07:16,160 --> 00:07:12,300

interesting area so I'm Southern

141

00:07:19,010 --> 00:07:16,170

California had several good UFO

142

00:07:21,470 --> 00:07:19,020

sightings and synchronicities and

143

00:07:24,200 --> 00:07:21,480

strange things going on there so I've

144

00:07:28,700 --> 00:07:24,210

lived in interesting places and I came

145

00:07:32,260 --> 00:07:28,710

back came back to my native Iowa for my

146

00:07:35,480 --> 00:07:32,270

encounters took place 23 years ago

147

00:07:38,330 --> 00:07:35,490

bought 10 acres and I've let it become

148

00:07:41,090 --> 00:07:38,340

natural as the Lakota perhaps would have

149

00:07:44,840 --> 00:07:41,100

had it in the middle of all the corn and

150

00:07:47,660 --> 00:07:44,850

I have a cat sanctuary and a wildlife

151  
00:07:50,150 --> 00:07:47,670  
refuge yeah and three big dogs that are

152  
00:07:54,320 --> 00:07:50,160  
just my three big dogs they're not part

153  
00:07:56,150 --> 00:07:54,330  
of it but I have 51 cats currently you

154  
00:08:04,820 --> 00:07:56,160  
say that one more time I must have

155  
00:08:09,410 --> 00:08:04,830  
misunderstood you they're not all in the

156  
00:08:12,950 --> 00:08:09,420  
house I have a new cabin as well for the

157  
00:08:16,130 --> 00:08:12,960  
sanctuary and then every season but

158  
00:08:17,840 --> 00:08:16,140  
winter I've got 10 acres for him so this

159  
00:08:20,960 --> 00:08:17,850  
county has no shelter

160  
00:08:24,530 --> 00:08:20,970  
so people dump them here ice pain odor

161  
00:08:26,990 --> 00:08:24,540  
and the other one shows up and for 22

162  
00:08:29,840 --> 00:08:27,000  
years it's been kind of the third act of

163  
00:08:32,870 --> 00:08:29,850

my life I've actually enjoyed it and I

164

00:08:35,330 --> 00:08:32,880

get donations from people mostly who

165

00:08:37,969 --> 00:08:35,340

read still read my spiritual newsletters

166

00:08:40,000 --> 00:08:37,979

which are still going on even though

167

00:08:41,300 --> 00:08:40,010

I've written a more objective book now

168

00:08:43,219 --> 00:08:41,310

Wow

169

00:08:45,380 --> 00:08:43,229

well I can tell you're a kind person

170

00:08:48,740 --> 00:08:45,390

right off the bat when you're talking

171

00:08:50,810 --> 00:08:48,750

about a sanctuary there for these cats I

172

00:08:53,420 --> 00:08:50,820

do have to make an announcement though

173

00:08:55,850 --> 00:08:53,430

because of Bobby and the chatroom

174

00:08:56,300 --> 00:08:55,860

reminded me he sent me a text I forgot

175

00:09:00,470 --> 00:08:56,310

all about

176

00:09:02,780 --> 00:09:00,480

they had explained that that filming

177

00:09:06,530 --> 00:09:02,790

over at the International Space Station

178

00:09:07,250 --> 00:09:06,540

that actually was a CubeSat deployment

179

00:09:15,050 --> 00:09:07,260

and

180

00:09:17,690 --> 00:09:15,060

video to make it look you know to make a

181

00:09:19,730 --> 00:09:17,700

hoax or something so that is no longer a

182

00:09:22,480 --> 00:09:19,740

UFO the what I had mentioned earlier and

183

00:09:25,070 --> 00:09:22,490

I apologize for even bringing it up but

184

00:09:27,140 --> 00:09:25,080

maybe a lot of people have been thinking

185

00:09:30,730 --> 00:09:27,150

it's a UFO and now they know that it's

186

00:09:36,440 --> 00:09:30,740

not any longer a UFO it was a cube sat

187

00:09:39,440 --> 00:09:36,450

deployment so so you had it you had what

188

00:09:43,220 --> 00:09:39,450

you think was a an abduction experience

189

00:09:45,970 --> 00:09:43,230

at a young age yeah two of them one it

190

00:09:49,460 --> 00:09:45,980

was the Golden Age of abductions

191

00:09:52,430 --> 00:09:49,470

somebody's knocking at the door all

192

00:10:00,710 --> 00:09:52,440

right are you saying that this is an

193

00:10:02,180 --> 00:10:00,720

abduction right now that's alright I'll

194

00:10:04,370 --> 00:10:02,190

talk for a minute you go ahead go ahead

195

00:10:06,290 --> 00:10:04,380

just don't get abducted just make sure

196

00:10:08,660 --> 00:10:06,300

you come back ok I'll be right back all

197

00:10:11,450 --> 00:10:08,670

right okay all right everyone so yeah

198

00:10:13,070 --> 00:10:11,460

that's a little embarrassing that I went

199

00:10:15,260 --> 00:10:13,080

ahead with the story actually did look

200

00:10:17,740 --> 00:10:15,270

for about 15 minutes online to see if I

201  
00:10:20,990 --> 00:10:17,750  
could find out what the answer was to

202  
00:10:28,250 --> 00:10:21,000  
that NASA filming at the International

203  
00:10:29,630 --> 00:10:28,260  
Space Station you're back so I thought I

204  
00:10:31,960 --> 00:10:29,640  
might even one of your cats or something

205  
00:10:36,320 --> 00:10:31,970  
but oh very good

206  
00:10:40,550 --> 00:10:36,330  
so right before you went to answer you

207  
00:10:41,870 --> 00:10:40,560  
were talking about we had to - of what

208  
00:10:46,340 --> 00:10:41,880  
you think were abductions when you were

209  
00:10:51,890 --> 00:10:46,350  
young and so go ahead the first one at

210  
00:10:55,370 --> 00:10:51,900  
age 4 I have been regressed with dr. Leo

211  
00:10:58,430 --> 00:10:55,380  
Leo sprinkle and had was hypnotically

212  
00:11:02,120 --> 00:10:58,440  
regressed but I have a few conscious

213  
00:11:05,210 --> 00:11:02,130

memories of that and I was the conscious

214

00:11:10,010 --> 00:11:05,220

memories are I was sitting on an

215

00:11:13,880 --> 00:11:10,020

earthlike park bench this man sat down

216

00:11:16,640 --> 00:11:13,890

about a foot from me my my legs were

217

00:11:20,870 --> 00:11:16,650

swinging off the bench because I it was

218

00:11:24,140 --> 00:11:20,880

taller than my legs were and I was watch

219

00:11:26,810 --> 00:11:24,150

a hologram like seeing a swirling it

220

00:11:28,220 --> 00:11:26,820

remind me a little of the the movie

221

00:11:29,870 --> 00:11:28,230

theaters when they used to show

222

00:11:34,880 --> 00:11:29,880

different colored lights that kept going

223

00:11:38,000 --> 00:11:34,890

across before the film started pastel

224

00:11:40,700 --> 00:11:38,010

colors swirling and I now wonder if

225

00:11:44,090 --> 00:11:40,710

maybe that kept me calm because I never

226

00:11:48,230 --> 00:11:44,100

freaked out I was that kind of a little

227

00:11:51,500 --> 00:11:48,240

kid I was an observer I was smart but I

228

00:11:55,690 --> 00:11:51,510

I just sat there and I don't know why I

229

00:11:58,730 --> 00:11:55,700

wasn't more scared he spoke to me

230

00:12:02,090 --> 00:11:58,740

probably in telepathy but I'm not sure

231

00:12:06,320 --> 00:12:02,100

of that and the words that I I think he

232

00:12:10,370 --> 00:12:06,330

told me quite a bit but the words that I

233

00:12:12,800 --> 00:12:10,380

remember is we are from your future now

234

00:12:15,740 --> 00:12:12,810

I know he could have been lying he could

235

00:12:19,450 --> 00:12:15,750

have been a shape-shifter or something

236

00:12:23,270 --> 00:12:19,460

like that but I have spent my life both

237

00:12:27,500 --> 00:12:23,280

objectively and subjectively looking

238

00:12:30,460 --> 00:12:27,510

into this scene you know trying to to

239

00:12:33,620 --> 00:12:30,470

figure out was he telling the truth and

240

00:12:37,370 --> 00:12:33,630

my conclusion in this book is that he

241

00:12:40,610 --> 00:12:37,380

probably was but that isn't what I based

242

00:12:45,260 --> 00:12:40,620

the books logic on that's just my

243

00:12:49,010 --> 00:12:45,270

personal feeling and then there was a

244

00:12:52,130 --> 00:12:49,020

second abduction that I don't we I

245

00:12:55,580 --> 00:12:52,140

haven't been regressed on hypnotic with

246

00:12:59,360 --> 00:12:55,590

hypnosis and all I remember is that we

247

00:13:01,430 --> 00:12:59,370

went up to Eagle Lake Ontario and there

248

00:13:05,300 --> 00:13:01,440

are a lot of UFOs around the Canadian

249

00:13:07,970 --> 00:13:05,310

lakes we being my family we were going

250

00:13:11,720 --> 00:13:07,980

to have a family get-together with uncle

251

00:13:13,520 --> 00:13:11,730

and aunt and there are two boys and mom

252

00:13:18,320 --> 00:13:13,530

left me alone in the cabin which was

253

00:13:20,510 --> 00:13:18,330

kind of unusual and this same man came

254

00:13:23,210 --> 00:13:20,520

in the door rather quickly I was I was

255

00:13:23,990 --> 00:13:23,220

alone and he said do you remember are

256

00:13:26,450 --> 00:13:24,000

you scared

257

00:13:30,020 --> 00:13:26,460

are you afraid and I said no and he said

258

00:13:32,660 --> 00:13:30,030

do you remember me I said yes and that's

259

00:13:34,610 --> 00:13:32,670

the last I know of that one I have no

260

00:13:39,080 --> 00:13:34,620

recollection of any

261

00:13:41,630 --> 00:13:39,090

of it but my would be proof I wouldn't

262

00:13:43,610 --> 00:13:41,640

you know stake my life on it but I am

263

00:13:46,760 --> 00:13:43,620

missing that entire membrane that's

264

00:13:50,150 --> 00:13:46,770

between your gum and your your inside of

265

00:13:53,180 --> 00:13:50,160

your upper lip sometimes they slit it

266

00:13:55,160 --> 00:13:53,190

I've researched all this when a baby's

267

00:13:58,490 --> 00:13:55,170

born if it isn't suckling very well

268

00:14:01,340 --> 00:13:58,500

they'll they'll slit it but this is just

269

00:14:03,680 --> 00:14:01,350

clean removed and you know I first

270

00:14:07,370 --> 00:14:03,690

noticed it when I was about nine years

271

00:14:10,810 --> 00:14:07,380

old fooling around with makeup and it

272

00:14:13,550 --> 00:14:10,820

was on the outside I noticed a very thin

273

00:14:16,010 --> 00:14:13,560

scar and I thought what did I hurt

274

00:14:20,420 --> 00:14:16,020

myself on my tricycle but when did this

275

00:14:23,540 --> 00:14:20,430

happen my parents both very attentive

276  
00:14:26,750 --> 00:14:23,550  
said no they didn't know and I asked him

277  
00:14:29,360 --> 00:14:26,760  
separately and together I asked a

278  
00:14:32,030 --> 00:14:29,370  
plastic surgeon once and he says well it

279  
00:14:33,970 --> 00:14:32,040  
looks like a laser scar well this was

280  
00:14:35,260 --> 00:14:33,980  
1952

281  
00:14:40,300 --> 00:14:35,270  
[Music]

282  
00:14:44,420 --> 00:14:40,310  
I figured I'd it was actually inside

283  
00:14:46,970 --> 00:14:44,430  
that was the missing part and it showed

284  
00:14:50,840 --> 00:14:46,980  
through or somehow made a small scar on

285  
00:14:56,390 --> 00:14:50,850  
the outside so you know even if there is

286  
00:14:58,850 --> 00:14:56,400  
a mundane reason for that to me my

287  
00:15:00,470 --> 00:14:58,860  
abductions are still valid I mean you

288  
00:15:04,720 --> 00:15:00,480

know other people have abductions

289

00:15:09,320 --> 00:15:04,730

without evidence that is that clear but

290

00:15:11,570 --> 00:15:09,330

anyway I that's something that is I feel

291

00:15:13,580 --> 00:15:11,580

like well you know it's right the

292

00:15:16,460 --> 00:15:13,590

evidence is right under your nose was a

293

00:15:20,930 --> 00:15:16,470

message that I can kind of receive and

294

00:15:24,770 --> 00:15:20,940

I've always been driven to I've always

295

00:15:28,460 --> 00:15:24,780

favored the idea of time-travelers being

296

00:15:35,240 --> 00:15:28,470

either the total answer to UFO occupants

297

00:15:37,640 --> 00:15:35,250

or perhaps ETS or other dimensionals I'm

298

00:15:39,920 --> 00:15:37,650

not sure what other dimensionals means

299

00:15:41,180 --> 00:15:39,930

it's not really a scientific people

300

00:15:46,970 --> 00:15:41,190

always say well it could be other

301  
00:15:48,329 --> 00:15:46,980  
dimensionals but you know ETS could

302  
00:15:50,730 --> 00:15:48,339  
visit us I'm

303  
00:15:54,629 --> 00:15:50,740  
not saying they don't but I have to

304  
00:15:56,840 --> 00:15:54,639  
smile when people sort of resist the

305  
00:16:00,239 --> 00:15:56,850  
time traveller the future human idea

306  
00:16:03,629 --> 00:16:00,249  
they believe so easily that some

307  
00:16:06,840 --> 00:16:03,639  
something from a far far distant planet

308  
00:16:10,139 --> 00:16:06,850  
well of course it's here but they're not

309  
00:16:14,160 --> 00:16:10,149  
as easily I don't know if they think we

310  
00:16:17,720 --> 00:16:14,170  
didn't go on if we became extinct but if

311  
00:16:20,910 --> 00:16:17,730  
we do go on we're gonna make strides in

312  
00:16:23,759 --> 00:16:20,920  
science we're making huge strides right

313  
00:16:26,340 --> 00:16:23,769

now in science this is the Golden Age

314

00:16:30,600 --> 00:16:26,350

they say of science not spiritual

315

00:16:36,150 --> 00:16:30,610

but science so you know I don't know

316

00:16:40,290 --> 00:16:36,160

quite why it's such people resisted that

317

00:16:44,699 --> 00:16:40,300

it's future humans and to me there is a

318

00:16:48,269 --> 00:16:44,709

lot of logic that it is well you know I

319

00:16:49,759 --> 00:16:48,279

I wonder about that as well you know for

320

00:16:53,549 --> 00:16:49,769

instance you know you're mentioning

321

00:16:55,710 --> 00:16:53,559

perhaps you know future time travelers

322

00:16:58,019 --> 00:16:55,720

or whatever I've I've thought about that

323

00:17:01,019 --> 00:16:58,029

you know you got to think also that 99%

324

00:17:02,939 --> 00:17:01,029

of species on this planet have gone

325

00:17:04,110 --> 00:17:02,949

extinct and you know the way we're

326

00:17:09,449 --> 00:17:04,120

heading is not too pretty

327

00:17:12,649 --> 00:17:09,459

I don't think but and there's a large

328

00:17:15,720 --> 00:17:12,659

amount of extinctions much higher it's

329

00:17:18,029 --> 00:17:15,730

incredible per year right now I forget

330

00:17:20,340 --> 00:17:18,039

how many species are gone per year but

331

00:17:24,389 --> 00:17:20,350

it's a lot it's kind of scary right now

332

00:17:27,240 --> 00:17:24,399

but you I saw in your book you have a

333

00:17:30,930 --> 00:17:27,250

chapter I believe on Michael dr. Michael

334

00:17:33,600 --> 00:17:30,940

masters in his yes yeah he's a he's a

335

00:17:35,519 --> 00:17:33,610

past guest and actually we communicate a

336

00:17:38,399 --> 00:17:35,529

bit here and there he's he's a funny guy

337

00:17:42,180 --> 00:17:38,409

nice guy I do too I agree yeah we do too

338

00:17:44,940 --> 00:17:42,190

I just had an email from him yeah he

339

00:17:47,730 --> 00:17:44,950

I've got a whole chapter that is his and

340

00:17:50,669 --> 00:17:47,740

a whole chapter of Jacques Pele and a

341

00:17:53,580 --> 00:17:50,679

whole chapter of Jax are fighting what

342

00:17:57,720 --> 00:17:53,590

Mike masters who is the fun an

343

00:18:01,409 --> 00:17:57,730

evolutionary anthropologist and several

344

00:18:05,399 --> 00:18:01,419

other titles and he's an academic and

345

00:18:08,249 --> 00:18:05,409

and a big tech university yeah he says

346

00:18:11,579 --> 00:18:08,259

the ubiquity the the Communists or the

347

00:18:13,489 --> 00:18:11,589

number of reports describing humanoid

348

00:18:14,699 --> 00:18:13,499

and human-like individuals is

349

00:18:16,919 --> 00:18:14,709

overwhelming

350

00:18:21,869 --> 00:18:16,929

and and I bring that up to I've got a

351

00:18:25,319 --> 00:18:21,879

list that Richard Hall made way back in

352

00:18:29,009 --> 00:18:25,329

the 60s and 70s and I actually dated

353

00:18:33,209 --> 00:18:29,019

Richard Hall he was much older I got

354

00:18:35,879 --> 00:18:33,219

some UFO secrets he was the new fund

355

00:18:39,329 --> 00:18:35,889

editor of new mule fund journal editor

356

00:18:41,999 --> 00:18:39,339

and he edited UFO evidence that is still

357

00:18:44,579 --> 00:18:42,009

well thought of anyway back to Mike

358

00:18:46,829 --> 00:18:44,589

masters he says taking into

359

00:18:49,440 --> 00:18:46,839

consideration their reported relative

360

00:18:51,659 --> 00:18:49,450

humanists it is highly improbable that

361

00:18:54,060 --> 00:18:51,669

another planet with different gravity

362

00:18:57,479 --> 00:18:54,070

different chemistry distance from its

363

00:18:59,669 --> 00:18:57,489

Sun would ever it and so forth there's

364

00:19:03,329 --> 00:18:59,679

more differences would ever develop

365

00:19:07,979 --> 00:19:03,339

bipedal humanoid life that would look

366

00:19:09,989 --> 00:19:07,989

act and talk so much like us or that it

367

00:19:12,810 --> 00:19:09,999

would they would arise on a planet near

368

00:19:15,599 --> 00:19:12,820

enough to allow for mutual contact and

369

00:19:18,060 --> 00:19:15,609

communication you know we're used to

370

00:19:21,449 --> 00:19:18,070

thinking of aliens those are Hollywood

371

00:19:25,199 --> 00:19:21,459

actors that are humans playing them but

372

00:19:27,959 --> 00:19:25,209

then the UFO field comes up with tall

373

00:19:32,729 --> 00:19:27,969

Nordics and and golden humans now the

374

00:19:36,479 --> 00:19:32,739

guy I met a guy I was a probably a

375

00:19:39,479 --> 00:19:36,489

golden human he had amber colored eyes

376

00:19:44,159 --> 00:19:39,489

that were almost translucent and outside

377

00:19:45,989 --> 00:19:44,169

of that he was apparently human I don't

378

00:19:50,759 --> 00:19:45,999

know if it was artificial intelligence

379

00:19:52,639 --> 00:19:50,769

or what but anyway on on with what Mike

380

00:19:55,289 --> 00:19:52,649

said I keep interrupting Mike here

381

00:19:57,539 --> 00:19:55,299

furthermore given the tremendously long

382

00:19:59,629 --> 00:19:57,549

history in the universe it's highly

383

00:20:03,029 --> 00:19:59,639

improbable that such a civilization

384

00:20:06,180 --> 00:20:03,039

would arise at the same time as us be so

385

00:20:08,789 --> 00:20:06,190

much like us but also have just slightly

386

00:20:12,749 --> 00:20:08,799

more advanced technology that happens to

387

00:20:14,400 --> 00:20:12,759

be so similar to our own the Tic Tacs

388

00:20:17,880 --> 00:20:14,410

and the jet planes

389

00:20:20,850 --> 00:20:17,890

very different and yet kind of playing a

390

00:20:26,190 --> 00:20:20,860

game of Top Gun with each other when you

391

00:20:29,820 --> 00:20:26,200

think of how different some machine from

392

00:20:34,070 --> 00:20:29,830

a far distant planet might be the Tic

393

00:20:36,240 --> 00:20:34,080

Tacs to me they're raising a lot of the

394

00:20:39,090 --> 00:20:36,250

time-traveller interest right now

395

00:20:43,230 --> 00:20:39,100

because they do somehow seem sort of

396

00:20:45,900 --> 00:20:43,240

familiar so the final thing for Mike

397

00:20:48,090 --> 00:20:45,910

Masters in thinking about the

398

00:20:51,350 --> 00:20:48,100

statistical improbability of this

399

00:20:53,940 --> 00:20:51,360

scenario we must ask whether

400

00:20:57,090 --> 00:20:53,950

hybridization hybridization would be

401  
00:20:59,850 --> 00:20:57,100  
possible with such coincidental ET

402  
00:21:01,980 --> 00:20:59,860  
aliens we can't produce with our closest

403  
00:21:06,000 --> 00:21:01,990  
living relative which is the chimpanzee

404  
00:21:09,900 --> 00:21:06,010  
with whom we share 98.7 percent of our

405  
00:21:14,100 --> 00:21:09,910  
DNA and so it seems unfathomable that we

406  
00:21:16,710 --> 00:21:14,110  
could ever produce with the women ET

407  
00:21:19,950 --> 00:21:16,720  
from an entirely different distant

408  
00:21:21,120 --> 00:21:19,960  
planet I understand I understand what

409  
00:21:25,350 --> 00:21:21,130  
you're saying you know you could argue

410  
00:21:27,530 --> 00:21:25,360  
some of what Michael you were quoting

411  
00:21:30,590 --> 00:21:27,540  
some of the things he said you know

412  
00:21:33,030 --> 00:21:30,600  
evolutionary you look at other species

413  
00:21:34,230 --> 00:21:33,040

that have evolved I know you know the

414

00:21:36,300 --> 00:21:34,240

different gravities and things I do

415

00:21:38,550 --> 00:21:36,310

understand different type of species

416

00:21:40,440 --> 00:21:38,560

would evolve different ways and things

417

00:21:43,830 --> 00:21:40,450

like that but you know you have a lot of

418

00:21:46,740 --> 00:21:43,840

not not bipedal but you have quadrupeds

419

00:21:49,860 --> 00:21:46,750

and you have the two eyes two ears

420

00:21:53,960 --> 00:21:49,870

everything is made for dimensional work

421

00:21:56,790 --> 00:21:53,970

and survival and things like that so I

422

00:22:02,580 --> 00:21:56,800

don't know I think you know two eyes two

423

00:22:06,060 --> 00:22:02,590

ears that type of thing works in a lot

424

00:22:07,770 --> 00:22:06,070

of evolution but but it is it is

425

00:22:11,280 --> 00:22:07,780

interesting too

426

00:22:13,050 --> 00:22:11,290

you know one of the things you also said

427

00:22:16,500 --> 00:22:13,060

is that the timing the timing is

428

00:22:18,600 --> 00:22:16,510

something that a lot of people or I

429

00:22:21,540 --> 00:22:18,610

wouldn't think about but it really is I

430

00:22:25,770 --> 00:22:21,550

mean the timing of how something evolves

431

00:22:26,970 --> 00:22:25,780

and to right now you know like I talked

432

00:22:27,640 --> 00:22:26,980

about earlier as so many things have

433

00:22:30,610 --> 00:22:27,650

become a

434

00:22:32,560 --> 00:22:30,620

stanked a lot of civilizations probably

435

00:22:36,130 --> 00:22:32,570

have never made it you know to a high

436

00:22:38,860 --> 00:22:36,140

level to a higher level of intelligence

437

00:22:40,660 --> 00:22:38,870

or maybe they have but at so many

438

00:22:42,790 --> 00:22:40,670

different times this could have happened

439

00:22:45,720 --> 00:22:42,800

because you know we're young planet for

440

00:22:49,450 --> 00:22:45,730

one thing so yeah it's all fascinating

441

00:22:50,650 --> 00:22:49,460

it is it's fun - yeah it's it's one of

442

00:22:53,410 --> 00:22:50,660

those things that it's really

443

00:22:55,150 --> 00:22:53,420

interesting to go into and it hasn't

444

00:22:58,330 --> 00:22:55,160

really been thought of as far as the

445

00:22:59,860 --> 00:22:58,340

future humans it isn't a very popular

446

00:23:02,830 --> 00:22:59,870

subject

447

00:23:06,610 --> 00:23:02,840

I guess it's had it's risen and fallen

448

00:23:08,200 --> 00:23:06,620

again throughout ufology but in recent

449

00:23:09,850 --> 00:23:08,210

years it hasn't

450

00:23:12,730 --> 00:23:09,860

Jacque really was actually kind of

451  
00:23:14,910 --> 00:23:12,740  
persecuted for coming for saying well it

452  
00:23:20,590 --> 00:23:14,920  
could be something closer to Earth

453  
00:23:23,170 --> 00:23:20,600  
that's in the UFO hmm that's right so we

454  
00:23:26,020 --> 00:23:23,180  
are at our first break we're actually

455  
00:23:29,680 --> 00:23:26,030  
going to go into a real break at this

456  
00:23:34,630 --> 00:23:29,690  
time and we'll be right back right after

457  
00:23:36,670 --> 00:23:34,640  
these messages and welcome back I'm

458  
00:23:39,040 --> 00:23:36,680  
Martin Willis your host and my guest

459  
00:23:40,680 --> 00:23:39,050  
tonight's Dianne Testament and we were

460  
00:23:45,190 --> 00:23:40,690  
talking just before we went into break

461  
00:23:48,730 --> 00:23:45,200  
Diane about extinction and Michael dr.

462  
00:23:52,840 --> 00:23:48,740  
Michael masters thoughts and you know I

463  
00:23:54,940 --> 00:23:52,850

do understand why someone would think a

464

00:23:56,380 --> 00:23:54,950

couple different things and I've said it

465

00:23:58,240 --> 00:23:56,390

a number of times in the show don't want

466

00:24:00,100 --> 00:23:58,250

to be too redundant but you know why

467

00:24:02,620 --> 00:24:00,110

would we be so special that we'd be

468

00:24:04,630 --> 00:24:02,630

visited um if there are so many

469

00:24:07,120 --> 00:24:04,640

possibilities of intelligent life out

470

00:24:10,600 --> 00:24:07,130

there mathematically you know what makes

471

00:24:13,650 --> 00:24:10,610

us special enough one person I mentioned

472

00:24:17,740 --> 00:24:13,660

that to said water water is is rare to

473

00:24:19,600 --> 00:24:17,750

have as much as we do and maybe I don't

474

00:24:22,110 --> 00:24:19,610

know but it's not it's not that rare

475

00:24:25,240 --> 00:24:22,120

look at all the moons of Saturn and

476  
00:24:28,470 --> 00:24:25,250  
therefore even Pluto has an ocean I mean

477  
00:24:31,900 --> 00:24:28,480  
you'd have to get to it through the eyes

478  
00:24:35,050 --> 00:24:31,910  
but it water seems to be amazingly in

479  
00:24:37,900 --> 00:24:35,060  
the solar system more than we thought it

480  
00:24:40,720 --> 00:24:37,910  
was again not quite as lovely as Earth

481  
00:24:41,470 --> 00:24:40,730  
and is available and it's really a

482  
00:24:44,350 --> 00:24:41,480  
puzzle how

483  
00:24:45,940 --> 00:24:44,360  
how it got here - you know possible

484  
00:24:49,659 --> 00:24:45,950  
comets they don't really know exactly

485  
00:24:51,730 --> 00:24:49,669  
how water arrived here Sheriff but it's

486  
00:24:54,460 --> 00:24:51,740  
here in abundance 70 some-odd percent of

487  
00:24:58,240 --> 00:24:54,470  
the planet pretty amazing right yeah

488  
00:25:05,070 --> 00:24:58,250

yeah so what what made you decide to

489

00:25:08,860 --> 00:25:05,080

write this book in general my years of

490

00:25:15,220 --> 00:25:08,870

being a UFO investigator my years of

491

00:25:16,480 --> 00:25:15,230

chasing UFOs with friends and just it

492

00:25:20,139 --> 00:25:16,490

changed my life

493

00:25:22,299 --> 00:25:20,149

when I was so young that it probably did

494

00:25:25,659 --> 00:25:22,309

make me a different person I've never

495

00:25:27,940 --> 00:25:25,669

really had the same goals as many people

496

00:25:29,830 --> 00:25:27,950

or many women have but I've had a very

497

00:25:36,850 --> 00:25:29,840

adventuresome life having moved to

498

00:25:39,730 --> 00:25:36,860

Ireland and on a shoestring and you know

499

00:25:43,029 --> 00:25:39,740

all that is somehow connected and it

500

00:25:46,600 --> 00:25:43,039

just suddenly seemed to be time and the

501  
00:25:50,230 --> 00:25:46,610  
book kind of wrote itself it it wrote

502  
00:25:53,289 --> 00:25:50,240  
very quickly and I was so pleased when

503  
00:25:56,200 --> 00:25:53,299  
film an old said well let's do it I had

504  
00:26:00,580 --> 00:25:56,210  
I'd proposed another book sort of a

505  
00:26:03,159 --> 00:26:00,590  
biography to him and he says well no I'm

506  
00:26:06,340 --> 00:26:03,169  
sorry I don't think so so a couple

507  
00:26:09,759 --> 00:26:06,350  
months later I came back and I I thought

508  
00:26:13,450 --> 00:26:09,769  
why haven't I really said that I'll do

509  
00:26:16,240 --> 00:26:13,460  
this book before this is my my topic

510  
00:26:20,620 --> 00:26:16,250  
really this is my book and he says well

511  
00:26:23,350 --> 00:26:20,630  
let's do it so it's the right time with

512  
00:26:27,639 --> 00:26:23,360  
that old time again it's time is

513  
00:26:29,379 --> 00:26:27,649

involved yeah yeah let's let's go let's

514

00:26:31,299 --> 00:26:29,389

a rewind a little bit into your

515

00:26:33,730 --> 00:26:31,309

background if that's okay with you I

516

00:26:36,519 --> 00:26:33,740

want to talk about we do have a lot of

517

00:26:38,980 --> 00:26:36,529

new listeners to this show and a lot of

518

00:26:41,680 --> 00:26:38,990

them may not be familiar with the aerial

519

00:26:44,100 --> 00:26:41,690

phenomenon research organization a pro

520

00:26:47,320 --> 00:26:44,110

can you talk about about that

521

00:26:50,820 --> 00:26:47,330

organization and what it was like yeah

522

00:26:54,030 --> 00:26:50,830

it Jim and coral Lorenzen

523

00:26:56,850 --> 00:26:54,040

husband-and-wife team in Arizona

524

00:27:01,380 --> 00:26:56,860

ran it and they were known for doing

525

00:27:05,190 --> 00:27:01,390

really good investigations and at that

526  
00:27:07,890 --> 00:27:05,200  
time MUFON was just it wasn't what it is

527  
00:27:11,370 --> 00:27:07,900  
now it was smaller but it was kind of

528  
00:27:17,130 --> 00:27:11,380  
still the the main one and then a pro

529  
00:27:21,860 --> 00:27:17,140  
was was sort of the I don't want to say

530  
00:27:26,000 --> 00:27:21,870  
more respected but the a little bit more

531  
00:27:29,490 --> 00:27:26,010  
painstaking and close more closely

532  
00:27:33,240 --> 00:27:29,500  
shepherded along by coral and Jim then

533  
00:27:37,140 --> 00:27:33,250  
MUFON was and I was state section

534  
00:27:39,870 --> 00:27:37,150  
director with MUFON for only about two

535  
00:27:43,460 --> 00:27:39,880  
years in Florida and then moved to

536  
00:27:48,150 --> 00:27:43,470  
California so that that ended that but

537  
00:27:50,760 --> 00:27:48,160  
move on with or a pro was very demanding

538  
00:27:53,780 --> 00:27:50,770

as to what you know how to investigate

539

00:27:56,670 --> 00:27:53,790

and to get the arc of the sky right

540

00:28:00,210 --> 00:27:56,680

where the UFO where the person at what

541

00:28:03,180 --> 00:28:00,220

arc was it and and which was always a

542

00:28:06,810 --> 00:28:03,190

pain in the neck to me because I know

543

00:28:11,760 --> 00:28:06,820

not all that technical but yeah there

544

00:28:16,460 --> 00:28:11,770

were some interesting cases do you

545

00:28:22,800 --> 00:28:20,550

why I kind of like to mention one that

546

00:28:25,380 --> 00:28:22,810

that's strange with my brother this

547

00:28:27,570 --> 00:28:25,390

wasn't an a pro case but I kind of want

548

00:28:31,380 --> 00:28:27,580

to get it in because it's kind of food

549

00:28:33,810 --> 00:28:31,390

for thought at the time I was abducted

550

00:28:38,070 --> 00:28:33,820

my my brother was 10 years older than me

551  
00:28:41,790 --> 00:28:38,080  
so I was four he would have been 14 and

552  
00:28:45,710 --> 00:28:41,800  
my mother said don't go into Norman's

553  
00:28:49,560 --> 00:28:45,720  
room he's got a baseball bat and a knife

554  
00:28:53,090 --> 00:28:49,570  
he wasn't like that usually he didn't

555  
00:28:57,210 --> 00:28:53,100  
have you know tons of nightmares he and

556  
00:29:01,350 --> 00:28:57,220  
when when we talked to Norman or when my

557  
00:29:04,980 --> 00:29:01,360  
parents did he said three little men he

558  
00:29:07,529 --> 00:29:04,990  
named him oh ho and Poe were chasing him

559  
00:29:10,009 --> 00:29:07,539  
and and he bought that in he

560  
00:29:15,149 --> 00:29:10,019  
14 and yet he bought it into his waking

561  
00:29:17,310 --> 00:29:15,159  
day to defend himself and it had been he

562  
00:29:19,499 --> 00:29:17,320  
called it a nightmare or ongoing

563  
00:29:21,919 --> 00:29:19,509

nightmare now I don't think it was

564

00:29:25,499 --> 00:29:21,929

ongoing even I think he had one or two

565

00:29:27,719 --> 00:29:25,509

nightmares and felt he had to arm

566

00:29:33,060 --> 00:29:27,729

himself in the daytime and I have

567

00:29:37,499 --> 00:29:33,070

wondered if perhaps the same get to know

568

00:29:40,489 --> 00:29:37,509

the North I was human kid a group of ETS

569

00:29:44,489 --> 00:29:40,499

or future humans or whoever they were

570

00:29:47,609 --> 00:29:44,499

had tried to abduct Norman and it just

571

00:29:51,839 --> 00:29:47,619

didn't it didn't go as well as it did

572

00:29:54,719 --> 00:29:51,849

with me I tried to talk to norm as an

573

00:29:58,139 --> 00:29:54,729

adult we weren't real close but we we

574

00:30:01,619 --> 00:29:58,149

talked a couple of times and he didn't

575

00:30:06,589 --> 00:30:01,629

seem interested at all in UFOs

576

00:30:10,289 --> 00:30:06,599

maybe he protested too much but the only

577

00:30:13,529 --> 00:30:10,299

UFO he could interesting thing he could

578

00:30:18,180 --> 00:30:13,539

come up with as an adult was that he was

579

00:30:21,710 --> 00:30:18,190

hiking with his son near Las Vegas on a

580

00:30:25,680 --> 00:30:21,720

mountain and they saw very vivid clear

581

00:30:29,479 --> 00:30:25,690

saucer-shaped UFO and shortly thereafter

582

00:30:33,989 --> 00:30:29,489

his son was murdered his son was 41 and

583

00:30:36,899 --> 00:30:33,999

champion kayaker and went out just to

584

00:30:39,570 --> 00:30:36,909

practice and was found a couple months

585

00:30:43,009 --> 00:30:39,580

later he'd been hit on the head his body

586

00:30:47,369 --> 00:30:43,019

was found under the lakeshore so it was

587

00:30:50,099 --> 00:30:47,379

I guess that you know for Norman if the

588

00:30:53,159 --> 00:30:50,109

UFO was an omen or something he never

589

00:30:57,659 --> 00:30:53,169

had a very very good experience with

590

00:30:59,879 --> 00:30:57,669

UFOs yes but I have wondered if that was

591

00:31:03,269 --> 00:30:59,889

connected to mine because it had

592

00:31:06,239 --> 00:31:03,279

sometimes contact your abduction does

593

00:31:07,379 --> 00:31:06,249

run in families my mom didn't even

594

00:31:10,859 --> 00:31:07,389

believe in ghosts

595

00:31:13,950 --> 00:31:10,869

she was totally non believer in anything

596

00:31:16,139 --> 00:31:13,960

like that and dad never said very much I

597

00:31:19,379 --> 00:31:16,149

don't really know he was would have been

598

00:31:21,060 --> 00:31:19,389

more open maybe but huh so you never

599

00:31:26,730 --> 00:31:21,070

talked about it with your father

600

00:31:30,450 --> 00:31:26,740

I know he was North Iowa German Lutheran

601  
00:31:33,779 --> 00:31:30,460  
and he was kind of that way he was a

602  
00:31:36,659 --> 00:31:33,789  
nice guy but that generation - they

603  
00:31:40,649 --> 00:31:36,669  
don't didn't talk too much about their

604  
00:31:43,379 --> 00:31:40,659  
feelings or anything like that so when

605  
00:31:45,779 --> 00:31:43,389  
this when this going going back to your

606  
00:31:47,310 --> 00:31:45,789  
experience when you were so young did

607  
00:31:52,590 --> 00:31:47,320  
you have anyone you could talk to about

608  
00:31:55,049 --> 00:31:52,600  
it no and I didn't talk to the family

609  
00:31:58,139 --> 00:31:55,059  
about it at that time

610  
00:32:01,230 --> 00:31:58,149  
it was kind of a dysfunctional family to

611  
00:32:03,810 --> 00:32:01,240  
be honest dad had a drinking problem

612  
00:32:06,509 --> 00:32:03,820  
both my parents were college graduates

613  
00:32:07,289 --> 00:32:06,519

of University of Iowa it was a second

614

00:32:09,090 --> 00:32:07,299

marriage

615

00:32:14,279 --> 00:32:09,100

my brother had come from Mom's first

616

00:32:16,669 --> 00:32:14,289

marriage and she was extremely emotional

617

00:32:20,039 --> 00:32:16,679

and controlling and they argued so much

618

00:32:23,009 --> 00:32:20,049

that I was basically an only child

619

00:32:26,249 --> 00:32:23,019

Norman 10 years older was out of the

620

00:32:31,740 --> 00:32:26,259

house when he was 17 he left so I was

621

00:32:35,519 --> 00:32:31,750

seven and I I maybe one reason I haven't

622

00:32:38,450 --> 00:32:35,529

been felt a victim of the abductions was

623

00:32:43,310 --> 00:32:38,460

that I kind of incorporated them into my

624

00:32:47,399 --> 00:32:43,320

private world I suppose when I was 6 7

625

00:32:50,310 --> 00:32:47,409

or 7 I had invisible playmates they are

626

00:32:54,119 --> 00:32:50,320

not playmates for a presence I called

627

00:32:56,549 --> 00:32:54,129

the remembers read - member and they

628

00:33:01,139 --> 00:32:56,559

never they were only around when I was

629

00:33:03,899 --> 00:33:01,149

outside which was a lot I walked we had

630

00:33:07,169 --> 00:33:03,909

this acreage and I was not this one but

631

00:33:10,919 --> 00:33:07,179

close by actually and I would walk with

632

00:33:12,960 --> 00:33:10,929

the dogs all over the place and that was

633

00:33:16,049 --> 00:33:12,970

my world and the parents would be in

634

00:33:21,509 --> 00:33:16,059

there arguing in the house they loved me

635

00:33:25,340 --> 00:33:21,519

but I I started took it unto myself and

636

00:33:27,629 --> 00:33:25,350

and and sort of made up my own I suppose

637

00:33:31,080 --> 00:33:27,639

which is an odd thing to have done

638

00:33:34,630 --> 00:33:31,090

but it I was never never felt like a

639

00:33:38,710 --> 00:33:34,640

victim yeah sounds like you were coping

640

00:33:40,840 --> 00:33:38,720

pretty well you know yeah that and then

641

00:33:43,560 --> 00:33:40,850

you mentioned that later on in life I

642

00:33:46,150 --> 00:33:43,570

believe you said California did you have

643

00:33:49,930 --> 00:33:46,160

actual sightings yourself did you say

644

00:33:55,320 --> 00:33:49,940

that I did the best sighting in my life

645

00:34:01,960 --> 00:33:55,330

was in Florida for I was teaching school

646

00:34:05,590 --> 00:34:01,970

it was two big white spheres that hung

647

00:34:08,849 --> 00:34:05,600

over Tampa Bay my house was one block

648

00:34:12,609 --> 00:34:08,859

from Tampa Bay in st. Petersburg Florida

649

00:34:15,369 --> 00:34:12,619

and then this is connect it was they

650

00:34:17,409 --> 00:34:15,379

stayed there for hours there was a small

651  
00:34:20,710 --> 00:34:17,419  
group of people in the park at the end

652  
00:34:22,780 --> 00:34:20,720  
of the street watching these two spheres

653  
00:34:24,159 --> 00:34:22,790  
and my daughter and I watched them we

654  
00:34:26,139 --> 00:34:24,169  
took the dog we would have been walking

655  
00:34:29,379 --> 00:34:26,149  
the dog we took the dog home came back

656  
00:34:32,349 --> 00:34:29,389  
and I I decided to try and communicate

657  
00:34:34,780 --> 00:34:32,359  
with one of them and I looked down for a

658  
00:34:38,080 --> 00:34:34,790  
minute and it disappeared so I was kind

659  
00:34:40,149 --> 00:34:38,090  
of insulted it was the one that left but

660  
00:34:43,690 --> 00:34:40,159  
the one just stayed there it didn't

661  
00:34:46,930 --> 00:34:43,700  
dissipate like a rocket launch it didn't

662  
00:34:50,169 --> 00:34:46,940  
float like a balloon or a Chinese

663  
00:34:52,330 --> 00:34:50,179

lantern it just stayed and I left the

664

00:34:54,159 --> 00:34:52,340

park at 2:30 in the morning because I

665

00:34:55,720 --> 00:34:54,169

had to teach school in the morning and

666

00:34:58,359 --> 00:34:55,730

I've always kicked myself for not

667

00:35:02,200 --> 00:34:58,369

staying to see why that ever was going

668

00:35:03,849 --> 00:35:02,210

to do or when it left but that was

669

00:35:06,940 --> 00:35:03,859

probably the best sighting of my life

670

00:35:13,330 --> 00:35:06,950

these were because I never saw the ship

671

00:35:16,780 --> 00:35:13,340

on the abductions these were G the size

672

00:35:19,810 --> 00:35:16,790

of a full moon not a not a huge full

673

00:35:23,970 --> 00:35:19,820

moon but a full moon that's maybe half

674

00:35:28,420 --> 00:35:23,980

way to the apex of the of the sky and

675

00:35:31,060 --> 00:35:28,430

then I also had that at the same year I

676

00:35:34,599 --> 00:35:31,070

call it my year of awakening

677

00:35:39,280 --> 00:35:34,609

I had strange beeps going on in the

678

00:35:42,750 --> 00:35:39,290

house they started in the television set

679

00:35:46,270 --> 00:35:42,760

at 5:00 before the hour but then as time

680

00:35:48,220 --> 00:35:46,280

progressed they were in the wall the

681

00:35:51,849 --> 00:35:48,230

wall beat the lamp

682

00:35:54,190 --> 00:35:51,859

beep - clothes dryer beat and and I

683

00:35:57,730 --> 00:35:54,200

thought what is this a trance some sort

684

00:36:00,220 --> 00:35:57,740

of radio transmission from MacDill Air

685

00:36:05,080 --> 00:36:00,230

Force Base which is over in Tampa or was

686

00:36:08,140 --> 00:36:05,090

I think it's close now but I took a

687

00:36:13,890 --> 00:36:08,150

cassette recorder a half a block away

688

00:36:18,130 --> 00:36:13,900

from the house and it beeped and then

689

00:36:21,700 --> 00:36:18,140

the sort of the climax of that year was

690

00:36:26,170 --> 00:36:21,710

that on May gotta get the date here a

691

00:36:30,160 --> 00:36:26,180

May 9th 1980 abarnes hit the Skyway

692

00:36:32,680 --> 00:36:30,170

Bridge which was over Tampa Bay the same

693

00:36:35,980 --> 00:36:32,690

you know body of water I could see the

694

00:36:38,440 --> 00:36:35,990

bridge when I was looking at the UFO so

695

00:36:41,410 --> 00:36:38,450

our house was a block away

696

00:36:45,730 --> 00:36:41,420

a barge hit a span of the Skyway which

697

00:36:48,550 --> 00:36:45,740

is a very tall bridge and 35 people

698

00:36:50,940 --> 00:36:48,560

plunged to their deaths a Greyhound bus

699

00:36:54,970 --> 00:36:50,950

went over it was I think I remember that

700

00:36:56,530 --> 00:36:54,980

big deal at the time well that morning I

701  
00:37:00,460 --> 00:36:56,540  
was getting my daughter ready for school

702  
00:37:05,320 --> 00:37:00,470  
and myself and our smoke alarm which

703  
00:37:07,599 --> 00:37:05,330  
hadn't been beeping oddly it went off it

704  
00:37:12,220 --> 00:37:07,609  
wasn't I looked for a fire it wasn't the

705  
00:37:14,859 --> 00:37:12,230  
fire sound it wasn't battery's low it it

706  
00:37:16,930 --> 00:37:14,869  
sounded like Morse code and my dad said

707  
00:37:20,620 --> 00:37:16,940  
well I used to know Morse code but he

708  
00:37:24,010 --> 00:37:20,630  
wasn't didn't come up with it with any

709  
00:37:28,750 --> 00:37:24,020  
message but then we heard on the TV that

710  
00:37:35,020 --> 00:37:28,760  
a barge at 7:35 had hit the Skyway and I

711  
00:37:37,240 --> 00:37:35,030  
wondered if maybe the smoke alarm maybe

712  
00:37:40,599 --> 00:37:37,250  
was the energy of these people as they

713  
00:37:44,800 --> 00:37:40,609

they plunged over it would take a second

714

00:37:47,020 --> 00:37:44,810

to hit the the water I don't know I mean

715

00:37:50,620 --> 00:37:47,030

that it was all very strange

716

00:37:55,000 --> 00:37:50,630

and then the beeps sort of dwindled off

717

00:37:57,490 --> 00:37:55,010

they eventually stopped they would come

718

00:38:01,549 --> 00:37:57,500

you know a couple times a day at their

719

00:38:06,270 --> 00:38:01,559

height and then the kicker of this

720

00:38:08,609 --> 00:38:06,280

story is that you know mas mas man that

721

00:38:12,299 --> 00:38:08,619

John keel wrote about with the silver

722

00:38:14,010 --> 00:38:12,309

bridge that collapsed yeah well I

723

00:38:18,299 --> 00:38:14,020

remembered I had been outside before

724

00:38:22,079 --> 00:38:18,309

this bridge the Skyway collapsed or was

725

00:38:26,069 --> 00:38:22,089

severed and something flew over that was

726

00:38:29,370 --> 00:38:26,079

opaque it would be like a huge bird but

727

00:38:33,030 --> 00:38:29,380

there was no flapping and it had read

728

00:38:37,589 --> 00:38:33,040

sort of a rounded a rhythm an edge of

729

00:38:40,829 --> 00:38:37,599

red and the Stars disappeared there was

730

00:38:44,220 --> 00:38:40,839

no noise like a low it would be a Piper

731

00:38:47,700 --> 00:38:44,230

Cub type of airplane the size but there

732

00:38:49,290 --> 00:38:47,710

was no noise and I didn't I just thought

733

00:38:52,410 --> 00:38:49,300

it was one of many kind of strange

734

00:38:55,460 --> 00:38:52,420

things that year it was my year of being

735

00:38:58,170 --> 00:38:55,470

stranger of having strange noises and

736

00:39:00,660 --> 00:38:58,180

then it occurred to me after the bridge

737

00:39:05,700 --> 00:39:00,670

fell I thought what if that was Mothman

738

00:39:07,799 --> 00:39:05,710

Mothman I presume so that was my my

739

00:39:09,480 --> 00:39:07,809

strange year I usually don't have things

740

00:39:12,240 --> 00:39:09,490

like that once in a while there'll be

741

00:39:17,670 --> 00:39:12,250

something kind of kind of odd but that

742

00:39:22,380 --> 00:39:17,680

was that was an exciting year I guess so

743

00:39:26,640 --> 00:39:22,390

and I was in Florida and yeah yeah and

744

00:39:28,109 --> 00:39:26,650

so you were basically a section director

745

00:39:32,880 --> 00:39:28,119

for move on did you find

746

00:39:36,770 --> 00:39:32,890

MUFON was easier to work to work with in

747

00:39:40,520 --> 00:39:36,780

April April yeah they weren't as as

748

00:39:44,190 --> 00:39:40,530

picky or as discerning and I guess I had

749

00:39:46,289 --> 00:39:44,200

more freedom because I could assign

750

00:39:47,849 --> 00:39:46,299

people because the state section

751

00:39:50,970 --> 00:39:47,859

director because I was teaching and

752

00:39:54,630 --> 00:39:50,980

raising my daughter and I there was one

753

00:39:59,789 --> 00:39:54,640

case where the a car the electromagnetic

754

00:40:02,910 --> 00:39:59,799

charge was was the the pole the whatever

755

00:40:05,910 --> 00:40:02,920

North or South the polarization was was

756

00:40:09,870 --> 00:40:05,920

changed after the the people in the car

757

00:40:12,180 --> 00:40:09,880

had seen a UFO had a close it had flown

758

00:40:14,660 --> 00:40:12,190

over it wasn't an abduction that they

759

00:40:19,460 --> 00:40:14,670

knew of but the the pole

760

00:40:21,560 --> 00:40:19,470

relation of the the car changed but yeah

761

00:40:23,900 --> 00:40:21,570

then when I went to California I sort of

762

00:40:26,420 --> 00:40:23,910

switched over to the spiritual side

763

00:40:30,170 --> 00:40:26,430

because I kind of felt I was receiving

764

00:40:33,230 --> 00:40:30,180

messages to be honest but they were more

765

00:40:36,290 --> 00:40:33,240

for they are more for the human species

766

00:40:41,150 --> 00:40:36,300

than they are for individual I was never

767

00:40:45,200 --> 00:40:41,160

a psychic I wasn't that good at it but

768

00:40:48,020 --> 00:40:45,210

it was messages mostly about caring for

769

00:40:52,400 --> 00:40:48,030

the planet and that's come to pass that

770

00:40:54,320 --> 00:40:52,410

that certainly is needed yeah I think

771

00:40:56,780 --> 00:40:54,330

California will do that too about anyone

772

00:41:01,610 --> 00:40:56,790

I looked out there a few different times

773

00:41:03,920 --> 00:41:01,620

yeah freedom in a sense or it did in

774

00:41:06,650 --> 00:41:03,930

those days right right yeah I was out

775

00:41:11,300 --> 00:41:06,660

there when I was 22 for a couple years

776

00:41:15,320 --> 00:41:11,310

and then again you know after Wow I left

777

00:41:18,290 --> 00:41:15,330

there about 11 years ago so 10 or 11

778

00:41:21,590 --> 00:41:18,300

years ago so it was no I'm sorry nine

779

00:41:24,410 --> 00:41:21,600

years ago but yeah it's a it's an

780

00:41:26,090 --> 00:41:24,420

interesting place and I I was not doing

781

00:41:28,610 --> 00:41:26,100

this show when I was out there and

782

00:41:30,470 --> 00:41:28,620

there's so much going on in the area

783

00:41:32,330 --> 00:41:30,480

that I lived I find out now it was

784

00:41:34,340 --> 00:41:32,340

basically in Marin County in Northern

785

00:41:40,310 --> 00:41:34,350

California ah yeah that would be great

786

00:41:41,900 --> 00:41:40,320

yeah what's going on Cisco oh yeah I

787

00:41:45,020 --> 00:41:41,910

should go out there one of these days

788

00:41:47,390 --> 00:41:45,030

yes there's a lot there's a lot of

789

00:41:49,790 --> 00:41:47,400

people really involved in this topic and

790

00:41:51,710 --> 00:41:49,800

there I'm finding you know out that way

791

00:41:54,500 --> 00:41:51,720

I've communicated with over the years

792

00:41:56,600 --> 00:41:54,510

and a major amount of listeners to the

793

00:41:59,870 --> 00:41:56,610

show of course you know that's a high

794

00:42:03,310 --> 00:41:59,880

population state but it's definitely way

795

00:42:08,510 --> 00:42:03,320

number one on for listeners out there

796

00:42:10,400 --> 00:42:08,520

yeah my subscribers also the majority or

797

00:42:13,100 --> 00:42:10,410

not the majority but the highest number

798

00:42:16,870 --> 00:42:13,110

would be California the subscribers to

799

00:42:19,840 --> 00:42:16,880

my newsletters and your newsletters are

800

00:42:23,030 --> 00:42:19,850

can you what's that about exactly oh

801  
00:42:24,920 --> 00:42:23,040  
they're they're the spiritual side of me

802  
00:42:26,930 --> 00:42:24,930  
I see okay you don't have to talk about

803  
00:42:28,760 --> 00:42:26,940  
it I just I just wondered if it was

804  
00:42:29,839 --> 00:42:28,770  
anything related to

805  
00:42:36,650 --> 00:42:29,849  
you know what we're talking about

806  
00:42:39,050 --> 00:42:36,660  
tonight so getting back to back to the

807  
00:42:42,710 --> 00:42:39,060  
last thing I asked you was about hey

808  
00:42:44,890 --> 00:42:42,720  
there know was about Florida who was her

809  
00:42:49,849 --> 00:42:44,900  
and you talked about that case with the

810  
00:42:51,200 --> 00:42:49,859  
magnetic whatever the issue was I wanted

811  
00:42:53,809 --> 00:42:51,210  
to just talk about that case a little

812  
00:42:56,540 --> 00:42:53,819  
more if you would did that car actually

813  
00:42:58,540 --> 00:42:56,550

like stop running they could never use

814

00:43:02,930 --> 00:42:58,550

it again or what was the deal with that

815

00:43:05,569 --> 00:43:02,940

it was fixed but it wouldn't run after

816

00:43:08,870 --> 00:43:05,579

they were they were marooned it was a

817

00:43:13,010 --> 00:43:08,880

family with two kids and it wouldn't run

818

00:43:15,109 --> 00:43:13,020

after the the UFO flew low over it yeah

819

00:43:17,319 --> 00:43:15,119

which is that's I think why they

820

00:43:26,089 --> 00:43:17,329

reported it they were so annoyed that

821

00:43:28,609 --> 00:43:26,099

scared to it was in rural Florida and so

822

00:43:31,069 --> 00:43:28,619

they had I don't even know I guess they

823

00:43:33,079 --> 00:43:31,079

I think they walked to a filling station

824

00:43:36,440 --> 00:43:33,089

or something I they didn't have cell

825

00:43:38,329 --> 00:43:36,450

phones in those days yeah yeah yeah

826

00:43:42,190 --> 00:43:38,339

that's something of there's so many of

827

00:43:45,980 --> 00:43:42,200

those cases about the car you know it

828

00:43:48,319 --> 00:43:45,990

making cars go dead a lot of times up

829

00:43:52,030 --> 00:43:48,329

when the UFO goes away it'll change

830

00:43:59,390 --> 00:43:52,040

everything back and it works but yeah

831

00:44:01,880 --> 00:43:59,400

nuclear codes I think came back on well

832

00:44:03,859 --> 00:44:01,890

and were there any other really

833

00:44:05,690 --> 00:44:03,869

interesting cases I really like talking

834

00:44:07,970 --> 00:44:05,700

about cases that nobody's ever heard of

835

00:44:10,460 --> 00:44:07,980

and I it sounds like you were in this

836

00:44:13,160 --> 00:44:10,470

very early and you may have witnessed

837

00:44:14,900 --> 00:44:13,170

you know a time where there's a lot of

838

00:44:20,660 --> 00:44:14,910

gaps so that we don't know about some

839

00:44:23,480 --> 00:44:20,670

interesting stories yeah so much in the

840

00:44:25,490 --> 00:44:23,490

book recently yes go back to that for

841

00:44:28,010 --> 00:44:25,500

sure but right I know I just tried to

842

00:44:35,410 --> 00:44:28,020

come up with it there was there was a

843

00:44:40,069 --> 00:44:35,420

case of a woman a very smart woman who

844

00:44:42,259 --> 00:44:40,079

who lived with two with her parents she

845

00:44:47,769 --> 00:44:42,269

was kind of out of place with

846

00:44:51,679 --> 00:44:47,779

in in rural Florida she was had a lot of

847

00:44:53,689 --> 00:44:51,689

old for instance she go out on a rural

848

00:44:58,879 --> 00:44:53,699

road at night and come home in the

849

00:45:04,219 --> 00:44:58,889

morning and feel she had experiences but

850

00:45:11,269 --> 00:45:04,229

this time there was whom she called a

851

00:45:15,129 --> 00:45:11,279

shadow man that she saw and then the

852

00:45:20,869 --> 00:45:15,139

next day her father who was very abusive

853

00:45:25,429 --> 00:45:20,879

was was killed and she always felt it

854

00:45:28,939 --> 00:45:25,439

was the shadow man and then the day

855

00:45:34,429 --> 00:45:28,949

after that she had her first UFO

856

00:45:37,339 --> 00:45:34,439

sighting it was two UFOs that she saw

857

00:45:41,539 --> 00:45:37,349

going over and and that's remained with

858

00:45:45,739 --> 00:45:41,549

me as because it links the paranormal a

859

00:45:48,799 --> 00:45:45,749

strange bright and really lovely person

860

00:45:50,629 --> 00:45:48,809

who was kind of a victim of an

861

00:45:57,339 --> 00:45:50,639

environment that she didn't even seem to

862

00:46:01,639 --> 00:45:57,349

belong in and then that tragedy however

863

00:46:04,399 --> 00:46:01,649

he had been terrible to her and then do

864

00:46:08,089 --> 00:46:04,409

you I mean did they come as as hitmen it

865

00:46:12,109 --> 00:46:08,099

was a strange it rima it remains in my

866

00:46:15,849 --> 00:46:12,119

mind comes to mind because it linked

867

00:46:19,719 --> 00:46:15,859

paranormal unusual person and then

868

00:46:23,119 --> 00:46:19,729

actual UFO sighting that her grandmother

869

00:46:25,729 --> 00:46:23,129

also saw she used to

870

00:46:27,439 --> 00:46:25,739

they had a motel an old motel and she

871

00:46:30,459 --> 00:46:27,449

used to hang out with her her

872

00:46:33,609 --> 00:46:30,469

grandmother more than her parents and

873

00:46:37,759 --> 00:46:33,619

the grandmother had seen the two

874

00:46:40,309 --> 00:46:37,769

saucer-shaped UFOs as well well it's

875

00:46:43,389 --> 00:46:40,319

it's funny how I've talked about this a

876

00:46:46,909 --> 00:46:43,399

number of times that there is an era

877

00:46:49,579 --> 00:46:46,919

where the saucer shapes were more

878

00:46:51,589 --> 00:46:49,589

prevalent you know it seems like that's

879

00:46:54,139 --> 00:46:51,599

that's the only thing that I really saw

880

00:46:55,820 --> 00:46:54,149

that I couldn't explain was the saucer

881

00:46:57,800 --> 00:46:55,830

shape and I just wonder

882

00:47:00,790 --> 00:46:57,810

you know it's so strange where now you

883

00:47:03,080 --> 00:47:00,800

hear a lot of orb sightings and

884

00:47:05,510 --> 00:47:03,090

triangles and it's it's really

885

00:47:07,730 --> 00:47:05,520

interesting why they would be different

886

00:47:08,630 --> 00:47:07,740

how would that fit into your theory of

887

00:47:11,870 --> 00:47:08,640

time travel

888

00:47:15,520 --> 00:47:11,880

I suppose they just have different

889

00:47:19,160 --> 00:47:15,530

models of ships that's maybe pretty good

890

00:47:22,670 --> 00:47:19,170

simply the tic tacs

891

00:47:25,070 --> 00:47:22,680

remind me of the shuttles on original

892

00:47:30,230 --> 00:47:25,080

Star Trek of course I am a big star

893

00:47:32,930 --> 00:47:30,240

tracker I admit that but they they seem

894

00:47:34,910 --> 00:47:32,940

to have of the pilot set a funny little

895

00:47:38,060 --> 00:47:34,920

protrusion from them almost like an

896

00:47:39,920 --> 00:47:38,070

antenna right yeah which is kind of

897

00:47:44,570 --> 00:47:39,930

weird why would you need an antenna if

898

00:47:47,240 --> 00:47:44,580

you're so advanced but anyway yeah

899

00:47:50,870 --> 00:47:47,250

they've kind of for some reason they

900

00:47:52,760 --> 00:47:50,880

remind people of more of time travel I

901  
00:47:56,600 --> 00:47:52,770  
think then the saucers do I'm not sure

902  
00:47:58,220 --> 00:47:56,610  
why yeah all right let's just let's just

903  
00:48:00,590 --> 00:47:58,230  
go there for a minute we only have a

904  
00:48:05,480 --> 00:48:00,600  
couple of minutes but okay let's just

905  
00:48:06,920 --> 00:48:05,490  
say this that the tic tacs were time

906  
00:48:09,830 --> 00:48:06,930  
travelers

907  
00:48:12,620 --> 00:48:09,840  
what would they what would they be doing

908  
00:48:14,630 --> 00:48:12,630  
and just doing what they were doing out

909  
00:48:17,450 --> 00:48:14,640  
in the middle of the you know off San

910  
00:48:23,180 --> 00:48:17,460  
Diego and you know messing with a couple

911  
00:48:24,380 --> 00:48:23,190  
of fighter jets beyond that you know

912  
00:48:25,910 --> 00:48:24,390  
what why would you think they would be

913  
00:48:29,030 --> 00:48:25,920

doing that I mean I'm just posing

914

00:48:32,720 --> 00:48:29,040

questions well the Navy did those

915

00:48:34,340 --> 00:48:32,730

maneuvers every year between Tijuana and

916

00:48:36,440 --> 00:48:34,350

San Diego

917

00:48:38,510 --> 00:48:36,450

so the tic tacs would have certainly

918

00:48:43,360 --> 00:48:38,520

known that they could have stayed out of

919

00:48:46,400 --> 00:48:43,370

the way or but they appeared on radar

920

00:48:48,350 --> 00:48:46,410

before they sent the pilots up I think

921

00:48:50,360 --> 00:48:48,360

the radar said there was a battalion or

922

00:48:51,890 --> 00:48:50,370

maybe a unit I don't know if there's I

923

00:48:56,150 --> 00:48:51,900

don't know what's in a battalion but

924

00:48:59,420 --> 00:48:56,160

many many of them formations and so it

925

00:49:02,720 --> 00:48:59,430

was almost like they wanted to have that

926

00:49:07,820 --> 00:49:02,730

confrontation or that little dogfight

927

00:49:09,580 --> 00:49:07,830

kind of possibly that might be a drip

928

00:49:12,640 --> 00:49:09,590

drip of disclosure

929

00:49:14,740 --> 00:49:12,650

because it has raised a lot of the Navy

930

00:49:18,550 --> 00:49:14,750

said they really don't know what it is

931

00:49:20,500 --> 00:49:18,560

which is new and unusual and then there

932

00:49:23,200 --> 00:49:20,510

is a theory that the whales were

933

00:49:25,450 --> 00:49:23,210

migrating and that possibly they were

934

00:49:29,170 --> 00:49:25,460

observing the whales now that's kind of

935

00:49:31,930 --> 00:49:29,180

a maybe too saccharine or too sweet or

936

00:49:37,090 --> 00:49:31,940

something maybe they were going to you

937

00:49:39,430 --> 00:49:37,100

know catch the whales but there was

938

00:49:42,340 --> 00:49:39,440

something foaming under the water or

939

00:49:46,360 --> 00:49:42,350

churning that commander flavor talked

940

00:49:47,770 --> 00:49:46,370

about and it was the size of a 747 well

941

00:49:50,440 --> 00:49:47,780

that could have been one of the wells

942

00:49:52,570 --> 00:49:50,450

but the whales were migrating there and

943

00:49:56,140 --> 00:49:52,580

there's up in Oregon

944

00:49:59,770 --> 00:49:56,150

there was a whale migration and other

945

00:50:05,560 --> 00:49:59,780

military reports of of tick that or at

946

00:50:08,110 --> 00:50:05,570

least of UFOs around so yes well who

947

00:50:10,840 --> 00:50:08,120

knows alright well it's time for us to

948

00:50:13,540 --> 00:50:10,850

head into our break and we'll be right

949

00:50:16,420 --> 00:50:13,550

back right after these messages and

950

00:50:17,920 --> 00:50:16,430

we're going to come back a few minutes

951  
00:50:21,000 --> 00:50:17,930  
into the show about a half hour end

952  
00:50:23,650 --> 00:50:21,010  
we'll take calls so prepare for that and

953  
00:50:26,380 --> 00:50:23,660  
we'll be right back right after these

954  
00:50:29,250 --> 00:50:26,390  
men all right welcome back everyone

955  
00:50:34,090 --> 00:50:29,260  
my guest tonight is Dianne Testament and

956  
00:50:36,760 --> 00:50:34,100  
we are we were talking about what were

957  
00:50:43,540 --> 00:50:36,770  
we talking about before because we

958  
00:50:45,520 --> 00:50:43,550  
talked during the break oh yes yeah

959  
00:50:47,500 --> 00:50:45,530  
those cases are really interesting I

960  
00:50:50,140 --> 00:50:47,510  
love hearing cases that I've never heard

961  
00:50:52,570 --> 00:50:50,150  
about that's why I was actually talking

962  
00:50:55,930 --> 00:50:52,580  
to you about about let's get back into

963  
00:51:00,490 --> 00:50:55,940

your book and some of the things you

964

00:51:03,100 --> 00:51:00,500

have discussed about in the future of

965

00:51:06,430 --> 00:51:03,110

humans what is what are some of the

966

00:51:11,860 --> 00:51:06,440

things you've come up with well I think

967

00:51:16,480 --> 00:51:11,870

that the nuclear issue is part of why

968

00:51:18,400 --> 00:51:16,490

they are back here in our skies I can't

969

00:51:21,940 --> 00:51:18,410

exactly tell you why they don't just

970

00:51:23,089 --> 00:51:21,950

land and say look anything nuclear is

971

00:51:25,430 --> 00:51:23,099

more dangerous than you

972

00:51:28,880 --> 00:51:25,440

think and you current people have been

973

00:51:32,079 --> 00:51:28,890

too nonchalant with nuclear energy even

974

00:51:35,630 --> 00:51:32,089

nuclear plants that are built on water

975

00:51:40,069 --> 00:51:35,640

because they need water intake oceans or

976

00:51:42,229 --> 00:51:40,079

a river and now the oceans are rising

977

00:51:45,109 --> 00:51:42,239

there's torrential rains there's

978

00:51:48,890 --> 00:51:45,119

flooding you know what's that going to

979

00:51:52,940 --> 00:51:48,900

be in a hundred years with with even

980

00:51:55,479 --> 00:51:52,950

safe supposedly safe civilian just you

981

00:51:59,509 --> 00:51:55,489

know just to give us electric energy

982

00:52:04,099 --> 00:51:59,519

yeah but starting with with the concept

983

00:52:08,140 --> 00:52:04,109

of nuclear waste that we generate so

984

00:52:11,539 --> 00:52:08,150

much of it overflows the permanent

985

00:52:14,329 --> 00:52:11,549

storage which may not be the greatest we

986

00:52:18,349 --> 00:52:14,339

put it in temporary storage there is a

987

00:52:20,690 --> 00:52:18,359

Danish film that is a haunting and

988

00:52:23,599 --> 00:52:20,700

award-winning feature documentary called

989

00:52:27,380 --> 00:52:23,609

into eternity it follows the

990

00:52:31,009 --> 00:52:27,390

construction of a waste repository at a

991

00:52:33,079 --> 00:52:31,019

nuclear power plant in Finland the film

992

00:52:37,400 --> 00:52:33,089

questions the intended eternal existence

993

00:52:40,190 --> 00:52:37,410

of nuclear waste storage this site that

994

00:52:43,190 --> 00:52:40,200

has been carefully built in Finland much

995

00:52:46,549 --> 00:52:43,200

better than than what the US has in many

996

00:52:49,430 --> 00:52:46,559

cases it cannot be safely disturbed for

997

00:52:51,859 --> 00:52:49,440

a hundred thousand years exactly no

998

00:52:53,660 --> 00:52:51,869

structure in human history has lasted a

999

00:52:55,630 --> 00:52:53,670

hundred thousand years do we know what

1000

00:52:59,509 --> 00:52:55,640

happened a hundred thousand years ago no

1001  
00:53:02,469 --> 00:52:59,519  
no and and when you think about it a

1002  
00:53:05,239 --> 00:53:02,479  
hundred thousand years how will people

1003  
00:53:07,430 --> 00:53:05,249  
even know not to dig it up

1004  
00:53:09,529 --> 00:53:07,440  
will they even speak English for all we

1005  
00:53:12,160 --> 00:53:09,539  
know they'll dig it up and think they

1006  
00:53:17,209 --> 00:53:12,170  
got some artifact or some wonderful

1007  
00:53:19,160 --> 00:53:17,219  
Egyptian like container but leaving you

1008  
00:53:19,729 --> 00:53:19,170  
know maybe they would know it's nuclear

1009  
00:53:23,509 --> 00:53:19,739  
waste

1010  
00:53:27,200 --> 00:53:23,519  
but it's leaking into earth and so a big

1011  
00:53:31,759 --> 00:53:27,210  
part of my book is asking why are we

1012  
00:53:36,430 --> 00:53:31,769  
leaving to our descendants and you know

1013  
00:53:38,620 --> 00:53:36,440

you mentioned we might go extinct this

1014

00:53:46,240 --> 00:53:38,630

sperm count of the human race is down

1015

00:53:48,970 --> 00:53:46,250

50% so and possibly there is a nuclear

1016

00:53:51,370 --> 00:53:48,980

war that hasn't happened yet you can you

1017

00:53:53,710 --> 00:53:51,380

know guessed out and the the genome is

1018

00:53:56,490 --> 00:53:53,720

damaged it might account for the

1019

00:53:59,290 --> 00:53:56,500

differences in there in the fizzy

1020

00:54:02,950 --> 00:53:59,300

physiological makeup of the the small

1021

00:54:05,020 --> 00:54:02,960

humans that so many people have seen now

1022

00:54:06,670 --> 00:54:05,030

Mike masters says that's just normal

1023

00:54:09,370 --> 00:54:06,680

evolution that we're going in that

1024

00:54:13,980 --> 00:54:09,380

direction so it's just speculation on my

1025

00:54:17,490 --> 00:54:13,990

part but we have been too nonchalant

1026  
00:54:23,380 --> 00:54:17,500  
with nuclear energy and there have been

1027  
00:54:26,470 --> 00:54:23,390  
UFOs even around Los Alamos in way back

1028  
00:54:31,089 --> 00:54:26,480  
in the late 40s they had an outbreak of

1029  
00:54:34,410 --> 00:54:31,099  
red zipping lights running around at Los

1030  
00:54:39,670 --> 00:54:34,420  
Alamos and there have been sightings at

1031  
00:54:43,270 --> 00:54:39,680  
everything from Peach Bottom which is a

1032  
00:54:45,099 --> 00:54:43,280  
a nuclear route where is that here

1033  
00:54:49,900 --> 00:54:45,109  
central Pennsylvania south central

1034  
00:54:52,359 --> 00:54:49,910  
Pennsylvania they have they're running

1035  
00:54:57,880 --> 00:54:52,369  
out of space so they're going to just

1036  
00:55:00,220 --> 00:54:57,890  
put it the overflow in containers stored

1037  
00:55:03,339 --> 00:55:00,230  
in an area less than the size of a

1038  
00:55:05,620 --> 00:55:03,349

football field and there they're going

1039

00:55:08,740 --> 00:55:05,630

to sit I guess above ground

1040

00:55:12,819 --> 00:55:08,750

anyway future humans may be dealing with

1041

00:55:14,890 --> 00:55:12,829

a really contaminated earth also they

1042

00:55:19,260 --> 00:55:14,900

may be a mayor may be a scarcity of

1043

00:55:22,690 --> 00:55:19,270

drinking water of safe drinking water so

1044

00:55:25,240 --> 00:55:22,700

you know they seem to be trying to tell

1045

00:55:29,980 --> 00:55:25,250

us that we're too nonchalant with

1046

00:55:33,430 --> 00:55:29,990

nuclear energy and maybe they don't come

1047

00:55:35,880 --> 00:55:33,440

down and and with a megaphone and

1048

00:55:39,010 --> 00:55:35,890

yelling at us because there is a

1049

00:55:42,460 --> 00:55:39,020

non-interference directive or a reason

1050

00:55:45,069 --> 00:55:42,470

that we're not quite ready to know about

1051  
00:55:47,819 --> 00:55:45,079  
them they would threaten the power

1052  
00:55:49,900 --> 00:55:47,829  
structure even if they didn't aim to

1053  
00:55:54,069 --> 00:55:49,910  
more than et's

1054  
00:55:56,950 --> 00:55:54,079  
even because here would be people the

1055  
00:55:59,109 --> 00:55:56,960  
current people would see that would this

1056  
00:56:01,839 --> 00:55:59,119  
other bunch of humans probably has the

1057  
00:56:04,660 --> 00:56:01,849  
cure for cancer and any disease you can

1058  
00:56:07,599 --> 00:56:04,670  
think of they probably could help with

1059  
00:56:09,549 --> 00:56:07,609  
the fires like in Australia if you had

1060  
00:56:12,460 --> 00:56:09,559  
artificial intelligence that they

1061  
00:56:15,039 --> 00:56:12,470  
designed to go into fires or the Amazon

1062  
00:56:18,760 --> 00:56:15,049  
fires and you wouldn't have any loss of

1063  
00:56:20,740 --> 00:56:18,770

life of firemen and much more

1064

00:56:23,319 --> 00:56:20,750

efficiently artificial intelligence

1065

00:56:24,640 --> 00:56:23,329

could put out fires all sorts of things

1066

00:56:27,730 --> 00:56:24,650

that would be helpful

1067

00:56:30,880 --> 00:56:27,740

and people could turn away from the

1068

00:56:34,829 --> 00:56:30,890

powers that be now pretty quickly so

1069

00:56:38,170 --> 00:56:34,839

that might be the reason for

1070

00:56:40,799 --> 00:56:38,180

non-interference directive because I

1071

00:56:43,870 --> 00:56:40,809

don't think they really want you know

1072

00:56:47,349 --> 00:56:43,880

grandpa just running around and falling

1073

00:56:51,880 --> 00:56:47,359

for trying to follow them and they have

1074

00:56:55,450 --> 00:56:51,890

some ethics I believe but I think there

1075

00:57:00,400 --> 00:56:55,460

is a point where there must be a huge

1076  
00:57:03,460 --> 00:57:00,410  
separation between galactic races that

1077  
00:57:06,010 --> 00:57:03,470  
learn how to time travel that develop it

1078  
00:57:08,099 --> 00:57:06,020  
and those that are still locked in time

1079  
00:57:10,269 --> 00:57:08,109  
to me that would be the biggest

1080  
00:57:12,640 --> 00:57:10,279  
separation almost it would be the

1081  
00:57:15,819 --> 00:57:12,650  
biggest event if we realize that's ever

1082  
00:57:21,609 --> 00:57:15,829  
happened to us if we realized that there

1083  
00:57:23,410 --> 00:57:21,619  
is travel in in time and that that would

1084  
00:57:25,839 --> 00:57:23,420  
have influenced our history I'm getting

1085  
00:57:28,599 --> 00:57:25,849  
off the point of the nuclear things so

1086  
00:57:30,460 --> 00:57:28,609  
let me get back to that of the

1087  
00:57:33,700 --> 00:57:30,470  
government installations Livermore

1088  
00:57:38,309 --> 00:57:33,710

Sandia Savannah River so many of them

1089

00:57:41,019 --> 00:57:38,319

have had strange events with UFOs may be

1090

00:57:44,410 --> 00:57:41,029

flying over for a week or two when

1091

00:57:50,849 --> 00:57:44,420

coming back there's a nuclear

1092

00:57:57,220 --> 00:57:50,859

installation in Nebraska that

1093

00:58:00,549 --> 00:57:57,230

cooper-cooper nuclear plant that had a

1094

00:58:02,620 --> 00:58:00,559

couple of weeks of UFOs flying over and

1095

00:58:03,269 --> 00:58:02,630

they were the ones that got nearly

1096

00:58:05,130 --> 00:58:03,279

flooded

1097

00:58:09,809 --> 00:58:05,140

a couple years ago when the river

1098

00:58:13,079 --> 00:58:09,819

overflowed I think they were bothered by

1099

00:58:17,279 --> 00:58:13,089

a UFO before that a few years but

1100

00:58:20,789 --> 00:58:17,289

there's just so many cases of UFOs and

1101  
00:58:25,019 --> 00:58:20,799  
UAVs being interested in nuclear sites

1102  
00:58:28,099 --> 00:58:25,029  
military and civilian and you had got a

1103  
00:58:30,679 --> 00:58:28,109  
wonder about that stored atomic

1104  
00:58:34,319 --> 00:58:30,689  
radioactive waste that we're just

1105  
00:58:38,099 --> 00:58:34,329  
building up with not a thought I was

1106  
00:58:41,309 --> 00:58:38,109  
gonna say to their future human society

1107  
00:58:44,939 --> 00:58:41,319  
may not be I'm not saying it's wonderful

1108  
00:58:48,569 --> 00:58:44,949  
you know with a Star Trek kind of vision

1109  
00:58:54,269 --> 00:58:48,579  
I I hope it is but they could be

1110  
00:58:58,099 --> 00:58:54,279  
survivors or you know possibly almost

1111  
00:59:01,140 --> 00:58:58,109  
live in space which would account for

1112  
00:59:07,439 --> 00:59:01,150  
radio for radiation damage too because

1113  
00:59:11,880 --> 00:59:07,449

space is so hard on organic beings due

1114

00:59:13,890 --> 00:59:11,890

to radioactivity there could be just a

1115

00:59:16,799 --> 00:59:13,900

few of us left for all I know I'm not

1116

00:59:19,679 --> 00:59:16,809

you know telling you what their society

1117

00:59:21,299 --> 00:59:19,689

is like I don't know yes they could work

1118

00:59:23,269 --> 00:59:21,309

those things out to it I mean if we

1119

00:59:26,009 --> 00:59:23,279

advance it if we advance in the future

1120

00:59:27,989 --> 00:59:26,019

we'll figure out how to protect

1121

00:59:32,640 --> 00:59:27,999

ourselves in space a little better than

1122

00:59:34,620 --> 00:59:32,650

we have now I would imagine I had done

1123

00:59:36,209 --> 00:59:34,630

for a while some of the listeners to the

1124

00:59:38,699 --> 00:59:36,219

show and they're still up on YouTube on

1125

00:59:39,959 --> 00:59:38,709

this channel I did a show called the

1126  
00:59:43,919 --> 00:59:39,969  
everything else show where I talk about

1127  
00:59:47,880 --> 00:59:43,929  
other topics and I had lib halevi

1128  
00:59:49,919 --> 00:59:47,890  
on the show of that show and we talked

1129  
00:59:53,219 --> 00:59:49,929  
about nuclear waste in the future and

1130  
00:59:55,259 --> 00:59:53,229  
all that and I'm you know getting off

1131  
00:59:57,269 --> 00:59:55,269  
the you helped my listeners allow me to

1132  
01:00:00,870 --> 00:59:57,279  
get off the UFO topic for just a second

1133  
01:00:02,999 --> 01:00:00,880  
here and that is I've have thought you

1134  
01:00:04,859 --> 01:00:03,009  
know for many years that we are really

1135  
01:00:08,429 --> 01:00:04,869  
playing with the mattress as Stan

1136  
01:00:11,009 --> 01:00:08,439  
Friedman used to say he used to be more

1137  
01:00:13,620 --> 01:00:11,019  
or less an advocate for what you know

1138  
01:00:15,870 --> 01:00:13,630

nuclear power would be and stuff like

1139

01:00:16,460 --> 01:00:15,880

that but what what has never talked

1140

01:00:19,370 --> 01:00:16,470

about

1141

01:00:22,849 --> 01:00:19,380

and you mention it and that is the waste

1142

01:00:26,960 --> 01:00:22,859

we actually are putting that burden on

1143

01:00:29,060 --> 01:00:26,970

5,000 generations into our future for

1144

01:00:32,810 --> 01:00:29,070

our selfish needs for a hundred years

1145

01:00:35,000 --> 01:00:32,820

and that's right and I think it's it's

1146

01:00:37,430 --> 01:00:35,010

just we don't think about it we always

1147

01:00:38,720 --> 01:00:37,440

think of this short-term and you know

1148

01:00:41,660 --> 01:00:38,730

you've mentioned some things I'd never

1149

01:00:43,040 --> 01:00:41,670

thought about you know what if you know

1150

01:00:44,570 --> 01:00:43,050

there's a separation and people don't

1151  
01:00:45,920 --> 01:00:44,580  
understand how two thousand years from

1152  
01:00:47,870 --> 01:00:45,930  
now where these things are they're still

1153  
01:00:50,270 --> 01:00:47,880  
they're still radioactive and they're so

1154  
01:00:53,300 --> 01:00:50,280  
dangerous you know the half-life's go on

1155  
01:00:55,670 --> 01:00:53,310  
and on and pass right in fact a hundred

1156  
01:00:59,240 --> 01:00:55,680  
thousand years isn't even the longest

1157  
01:01:02,330 --> 01:00:59,250  
half-life no it could be 200 yeah yeah

1158  
01:01:05,540 --> 01:01:02,340  
yeah so it's up I just think that we are

1159  
01:01:07,640 --> 01:01:05,550  
selfish and we're not good to our planet

1160  
01:01:11,540 --> 01:01:07,650  
that's you know there was only a way to

1161  
01:01:12,980 --> 01:01:11,550  
to launch that up to the Sun all the

1162  
01:01:18,640 --> 01:01:12,990  
nuclear waste of the Sun would be all

1163  
01:01:26,200 --> 01:01:23,720

yeah so I agree yeah and you know it is

1164

01:01:28,430 --> 01:01:26,210

really something that there are so many

1165

01:01:31,430 --> 01:01:28,440

there's so many encounters when it comes

1166

01:01:34,130 --> 01:01:31,440

to nuclear power and nuclear missile

1167

01:01:36,020 --> 01:01:34,140

heads and and you know warheads it is

1168

01:01:41,390 --> 01:01:36,030

and and and all that it's just really

1169

01:01:43,460 --> 01:01:41,400

amazing and a small what's not small

1170

01:01:47,000 --> 01:01:43,470

something you think about in the Great

1171

01:01:50,750 --> 01:01:47,010

Plains is the tornadoes right what if an

1172

01:01:55,460 --> 01:01:50,760

f5 tornado hits the Nebraska power plant

1173

01:01:58,640 --> 01:01:55,470

or wherever you know and and the storms

1174

01:02:01,730 --> 01:01:58,650

are getting worse the the number of bad

1175

01:02:04,640 --> 01:02:01,740

tornadoes are worse and even I think the

1176

01:02:07,370 --> 01:02:04,650

number of tornadoes in general but there

1177

01:02:10,190 --> 01:02:07,380

have been some really horrific tornadoes

1178

01:02:14,120 --> 01:02:10,200

I think more in Oklahoma maybe than Iowa

1179

01:02:16,970 --> 01:02:14,130

it's been a little south but we never

1180

01:02:20,390 --> 01:02:16,980

think of that or the the rising waters

1181

01:02:23,240 --> 01:02:20,400

of I think they shut down San Onofre in

1182

01:02:25,970 --> 01:02:23,250

California it was right it right on the

1183

01:02:26,690 --> 01:02:25,980

ocean people surfing on the other side

1184

01:02:29,300 --> 01:02:26,700

of the freeway

1185

01:02:30,319 --> 01:02:29,310

and but they did shut it down to

1186

01:02:34,429 --> 01:02:30,329

California's crown

1187

01:02:36,559 --> 01:02:34,439

Wow how about that interesting I noticed

1188

01:02:39,469 --> 01:02:36,569

that in your I think in your book do you

1189

01:02:41,059 --> 01:02:39,479

mention the Socorro incident because we

1190

01:02:42,859 --> 01:02:41,069

have a lot of times we have raised

1191

01:02:44,929 --> 01:02:42,869

Stanford who wrote the original book on

1192

01:02:48,890 --> 01:02:44,939

that that's so good

1193

01:02:51,279 --> 01:02:48,900

did you look into that case I I didn't

1194

01:02:55,870 --> 01:02:51,289

personally but I have it in the book

1195

01:02:59,120 --> 01:02:55,880

yeah where I'm trying to find it here

1196

01:03:01,630 --> 01:02:59,130

awesome or some Lonnie Zamora right I

1197

01:03:06,039 --> 01:03:01,640

was trying to get his name for starters

1198

01:03:10,579 --> 01:03:06,049

yeah was a sheriff or a patrolman and

1199

01:03:12,769 --> 01:03:10,589

though he saw a craft first in the air

1200

01:03:17,390 --> 01:03:12,779

and then he he was kind of following it

1201

01:03:19,759 --> 01:03:17,400

and then he saw it it landed and was it

1202

01:03:22,819 --> 01:03:19,769

to small human noise got out I'm still

1203

01:03:25,039 --> 01:03:22,829

looking everywhere I that's he claimed

1204

01:03:28,339 --> 01:03:25,049

he thought he saw and they were very

1205

01:03:29,929 --> 01:03:28,349

small like like she thought there were

1206

01:03:33,919 --> 01:03:29,939

children like in coveralls white

1207

01:03:37,429 --> 01:03:33,929

coveralls I believe and that as soon as

1208

01:03:40,729 --> 01:03:37,439

he showed up they basically saw him got

1209

01:03:44,329 --> 01:03:40,739

scared and shot up and you know I think

1210

01:03:46,669 --> 01:03:44,339

that's when he lost sight of it I don't

1211

01:03:49,669 --> 01:03:46,679

know the exact details so I'm kind of

1212

01:03:52,939 --> 01:03:49,679

paraphrasing what I remember yeah I'm

1213

01:03:54,799 --> 01:03:52,949

I'm almost there yeah okay he lost sight

1214

01:03:57,410 --> 01:03:54,809

of the object and the figures as he

1215

01:04:01,910 --> 01:03:57,420

passed behind a hill and then he saw an

1216

01:04:04,489 --> 01:04:01,920

egg-shaped object he let's see he

1217

01:04:07,669 --> 01:04:04,499

glimpsed a shiny car sized object on the

1218

01:04:10,009 --> 01:04:07,679

ground about 150 yards away near it

1219

01:04:13,249 --> 01:04:10,019

stood two small figures in white overall

1220

01:04:16,160 --> 01:04:13,259

coveralls and he lost sight of it

1221

01:04:18,259 --> 01:04:16,170

figures he passed behind a hill and then

1222

01:04:20,900 --> 01:04:18,269

he saw an egg-shaped object standing on

1223

01:04:23,900 --> 01:04:20,910

four legs it displayed a peculiar

1224

01:04:26,269 --> 01:04:23,910

insignia on its side something like an

1225

01:04:29,499 --> 01:04:26,279

arrow pointing vertically from a

1226

01:04:32,959 --> 01:04:29,509

horizontal base to a half council crown

1227

01:04:36,759 --> 01:04:32,969

the two figures had disappeared and the

1228

01:04:39,919 --> 01:04:36,769

object emitting an enormous raw roar he

1229

01:04:41,839 --> 01:04:39,929

charged back to his car he was

1230

01:04:44,289 --> 01:04:41,849

frightened and ran back to his car he

1231

01:04:47,620 --> 01:04:44,299

glimpsed it over his shoulder

1232

01:04:50,079 --> 01:04:47,630

and then project Bluebook investigators

1233

01:04:52,599 --> 01:04:50,089

found that officer Zamora had a

1234

01:04:54,880 --> 01:04:52,609

reputation for integrity and they

1235

01:04:57,370 --> 01:04:54,890

examine what looked like landing marks

1236

01:04:59,829 --> 01:04:57,380

found on the desert floor it was in New

1237

01:05:01,990 --> 01:04:59,839

Mexico in the middle of these marks was

1238

01:05:03,789 --> 01:05:02,000

a burned area apparently from the crafts

1239

01:05:05,410 --> 01:05:03,799

exhaust so there was a bit of evidence

1240

01:05:08,260 --> 01:05:05,420

left behind

1241

01:05:10,750 --> 01:05:08,270

yeah creosote bush was burnt yeah I've

1242

01:05:13,779 --> 01:05:10,760

gone into great detail with Ray Stanford

1243

01:05:17,289 --> 01:05:13,789

because he was there shortly after he

1244

01:05:20,410 --> 01:05:17,299

had shown up and he actually saw you

1245

01:05:22,569 --> 01:05:20,420

know the landing marks and in that he

1246

01:05:26,410 --> 01:05:22,579

has quite the story to tell in that

1247

01:05:29,440 --> 01:05:26,420

there was a rocket and I believe J Allen

1248

01:05:31,180 --> 01:05:29,450

Hynek was there and Ray just happened to

1249

01:05:34,000 --> 01:05:31,190

catch that he saw a scrape of what

1250

01:05:36,490 --> 01:05:34,010

looked like metal on a rock so we kind

1251

01:05:38,200 --> 01:05:36,500

of waited and if he's listening you'll

1252

01:05:42,549 --> 01:05:38,210

probably call in and tell me I'm getting

1253

01:05:44,200 --> 01:05:42,559

it wrong but I believe he waited until

1254

01:05:47,859 --> 01:05:44,210

everyone was gone and then he actually

1255

01:05:50,109 --> 01:05:47,869

took the rock that had the scrape on it

1256

01:05:54,730 --> 01:05:50,119

and that's a long story because he had

1257

01:06:00,640 --> 01:05:54,740

the he had I can't remember exactly what

1258

01:06:04,390 --> 01:06:00,650

it wasn't NASA or Goddard or it was some

1259

01:06:06,640 --> 01:06:04,400

type of place like that that tried to

1260

01:06:08,890 --> 01:06:06,650

scrape the sample OOP they were gonna

1261

01:06:10,750 --> 01:06:08,900

leave that he was very he was very

1262

01:06:14,859 --> 01:06:10,760

concerned about that they would scrape

1263

01:06:16,390 --> 01:06:14,869

the entire sample off and and he could

1264

01:06:18,700 --> 01:06:16,400

never get anywhere with him and when he

1265

01:06:19,359 --> 01:06:18,710

finally got the rock back that's exactly

1266

01:06:21,700 --> 01:06:19,369

what happened

1267

01:06:24,190 --> 01:06:21,710

it was completely straight clean shoot

1268

01:06:28,089 --> 01:06:24,200

so he never really found out what what

1269

01:06:29,380 --> 01:06:28,099

that was for a metal on there so if Ray

1270

01:06:30,460 --> 01:06:29,390

if you were happen to be listening you

1271

01:06:33,609 --> 01:06:30,470

want to call in and set the record

1272

01:06:36,269 --> 01:06:33,619

straight I know I'm kind of probably

1273

01:06:39,279 --> 01:06:36,279

leaving some of the facts out of it but

1274

01:06:41,109 --> 01:06:39,289

but that yeah that is a one of the

1275

01:06:43,630 --> 01:06:41,119

really good cases really the really

1276

01:06:46,180 --> 01:06:43,640

strong case where you have such a man of

1277

01:06:47,349 --> 01:06:46,190

integrity that has such an incredible

1278

01:06:49,420 --> 01:06:47,359

sighting and there were other people

1279

01:06:53,200 --> 01:06:49,430

that saw that other witnesses that saw

1280

01:06:54,880 --> 01:06:53,210

the saw the craft and there's a lot of

1281

01:06:57,580 --> 01:06:54,890

people that were trying to spin it as a

1282

01:07:00,640 --> 01:06:57,590

hoax but none of that held true

1283

01:07:05,590 --> 01:07:00,650

it's always been a very solid case in my

1284

01:07:07,990 --> 01:07:05,600

book I I took older solid cases that had

1285

01:07:11,640 --> 01:07:08,000

been thoroughly investigated and really

1286

01:07:14,470 --> 01:07:11,650

stood up and I did that on purpose

1287

01:07:18,370 --> 01:07:14,480

rather than taking newer ones that might

1288

01:07:20,560 --> 01:07:18,380

possibly have faked photos or and and

1289

01:07:24,370 --> 01:07:20,570

then also I think there got to be a

1290

01:07:29,380 --> 01:07:24,380

certain hysteria around abductions and

1291

01:07:33,210 --> 01:07:29,390

maybe rightfully so but I don't know the

1292

01:07:36,610 --> 01:07:33,220

earlier 1950s and 60s abductions seemed

1293

01:07:39,970 --> 01:07:36,620

to not traumatize people at quite as

1294

01:07:42,430 --> 01:07:39,980

much and you know whether that was a

1295

01:07:44,800 --> 01:07:42,440

different group course with future

1296

01:07:46,480 --> 01:07:44,810

humans you could have a group of them

1297

01:07:49,930 --> 01:07:46,490

from two hundred and fifty years in

1298

01:07:51,790 --> 01:07:49,940

advance or even 50 years in advance it

1299

01:07:56,080 --> 01:07:51,800

depends when we figure out time travel

1300

01:07:58,420 --> 01:07:56,090

back or they could be from a million

1301

01:08:00,850 --> 01:07:58,430

years in advance because once you step

1302

01:08:04,270 --> 01:08:00,860

out of time of course you're not really

1303

01:08:06,040 --> 01:08:04,280

from yeah they're probably not from a

1304

01:08:09,040 --> 01:08:06,050

year but there would be different phases

1305

01:08:11,280 --> 01:08:09,050

or maybe they do still have yours but

1306

01:08:14,980 --> 01:08:11,290

you probably wouldn't have a mixture of

1307

01:08:17,020 --> 01:08:14,990

75 years ahead and 2 million years ahead

1308

01:08:23,290 --> 01:08:17,030

because they wouldn't have anything much

1309

01:08:30,070 --> 01:08:23,300

in common either so now I forget my my

1310

01:08:33,340 --> 01:08:30,080

other point there anyway why I was gonna

1311

01:08:35,950 --> 01:08:33,350

say after there's a more a case in my

1312

01:08:39,490 --> 01:08:35,960

book I've got I mentioned Leonard

1313

01:08:44,860 --> 01:08:39,500

Stringfield work which seemed to always

1314

01:08:50,500 --> 01:08:44,870

be again with just the small humans my

1315

01:08:54,700 --> 01:08:50,510

my friend Richard Hall dick Hall was the

1316

01:08:59,230 --> 01:08:54,710

confidant of Leonard Stringfield so I

1317

01:09:01,240 --> 01:08:59,240

got in on a few things that I didn't

1318

01:09:03,460 --> 01:09:01,250

really get in on that many secrets that

1319

01:09:07,210 --> 01:09:03,470

didn't that Leonard didn't put in his

1320

01:09:09,760 --> 01:09:07,220

crash retrieval booklets but I got in on

1321

01:09:11,320 --> 01:09:09,770

the the fact that his confidence would

1322

01:09:13,240 --> 01:09:11,330

were usually Miller

1323

01:09:15,310 --> 01:09:13,250

carry guards that had seen the bodies

1324

01:09:18,099 --> 01:09:15,320

from crash saucers and there seems to

1325

01:09:20,800 --> 01:09:18,109

have been more crashes than just Roswell

1326

01:09:23,430 --> 01:09:20,810

and then his informants would disappear

1327

01:09:26,590 --> 01:09:23,440

when he tried to see him see them again

1328

01:09:28,930 --> 01:09:26,600

they wouldn't he couldn't find them and

1329

01:09:31,470 --> 01:09:28,940

that happened too so I got in on some of

1330

01:09:35,500 --> 01:09:31,480

the trials and tribulations of it but

1331

01:09:38,680 --> 01:09:35,510

these guards would talk to him and they

1332

01:09:41,130 --> 01:09:38,690

reported little humanoids that had been

1333

01:09:44,890 --> 01:09:41,140

put into hastily prepared wooden crates

1334

01:09:47,800 --> 01:09:44,900

they appeared to be 4 feet tall the the

1335

01:09:53,079 --> 01:09:47,810

witness said they were lying on shrouded

1336

01:09:55,480 --> 01:09:53,089

on a fabric a number of air police stood

1337

01:09:58,480 --> 01:09:55,490

silent guard around these crates that

1338

01:10:02,260 --> 01:09:58,490

were going to to wright-patterson so

1339

01:10:05,290 --> 01:10:02,270

they could be autopsy he got a glimpse

1340

01:10:07,360 --> 01:10:05,300

of humanoid features heads that were

1341

01:10:11,470 --> 01:10:07,370

disproportionately larger than the

1342

01:10:14,410 --> 01:10:11,480

bodies at least to our perception one

1343

01:10:17,410 --> 01:10:14,420

had appeared to be hairless and narrow

1344

01:10:20,830 --> 01:10:17,420

in other cases there was fuzzy thin hair

1345

01:10:24,310 --> 01:10:20,840

on the aliens heads the the eyes seemed

1346

01:10:27,580 --> 01:10:24,320

to be open this the mouth small while

1347

01:10:31,000 --> 01:10:27,590

the nose if any was indistinct of course

1348

01:10:32,950 --> 01:10:31,010

some most of them even burned badly the

1349

01:10:34,870 --> 01:10:32,960

humanoids arms were positioned down

1350

01:10:40,120 --> 01:10:34,880

alongside their bodies but their hands

1351

01:10:42,670 --> 01:10:40,130

and feet were indistinct in one case a

1352

01:10:46,210 --> 01:10:42,680

guard reported that he thought one of

1353

01:10:49,230 --> 01:10:46,220

them had a muscular chest and it turned

1354

01:10:54,430 --> 01:10:49,240

out to be the bumps of a female's breast

1355

01:10:57,670 --> 01:10:54,440

and in another case one was said to be

1356

01:11:02,410 --> 01:10:57,680

still alive they offered it oxygen but

1357

01:11:05,710 --> 01:11:02,420

it died and their silver suits were not

1358

01:11:08,560 --> 01:11:05,720

damaged but had welded to their bodies

1359

01:11:11,950 --> 01:11:08,570

because of the heat from fires of the of

1360

01:11:15,250 --> 01:11:11,960

the crash and you know Leonard

1361

01:11:22,060 --> 01:11:15,260

Stringfield and Richard Hall were very

1362

01:11:23,560 --> 01:11:22,070

meticulous respectable men the autopsy

1363

01:11:25,080 --> 01:11:23,570

that turned out to be a fake in the

1364

01:11:29,580 --> 01:11:25,090  
nineties

1365

01:11:33,780 --> 01:11:29,590  
no comparison I mean they they were

1366

01:11:37,260 --> 01:11:33,790  
sincere and what they what Leonard

1367

01:11:39,240 --> 01:11:37,270  
reported you know has been kind of

1368

01:11:43,200 --> 01:11:39,250  
verified in other ways too I think with

1369

01:11:45,990 --> 01:11:43,210  
wright-patterson and to me that's that's

1370

01:11:48,570 --> 01:11:46,000  
an area that's kind of not remembered

1371

01:11:52,800 --> 01:11:48,580  
much anymore and as some of the the

1372

01:11:56,250 --> 01:11:52,810  
strongest evidence of ETS but to me it's

1373

01:12:00,030 --> 01:11:56,260  
also extra evidence for the fact that

1374

01:12:03,230 --> 01:12:00,040  
they're human very human if if they were

1375

01:12:05,430 --> 01:12:03,240  
you know we were talking earlier about

1376

01:12:08,070 --> 01:12:05,440

you know abductions we've touched on

1377

01:12:09,740 --> 01:12:08,080

that a couple times what people are now

1378

01:12:14,160 --> 01:12:09,750

they're calling experience or

1379

01:12:17,700 --> 01:12:14,170

experiences I guess but if let's just

1380

01:12:21,140 --> 01:12:17,710

take your thoughts on what you know may

1381

01:12:24,620 --> 01:12:21,150

we may be seeing us from the future or

1382

01:12:27,630 --> 01:12:24,630

future beings why would there be so much

1383

01:12:30,000 --> 01:12:27,640

trauma reported in a lot of you know

1384

01:12:31,830 --> 01:12:30,010

what people are claiming happens to them

1385

01:12:34,560 --> 01:12:31,840

when they're abducted I mean wouldn't it

1386

01:12:37,260 --> 01:12:34,570

make more sense that if it was us from

1387

01:12:39,810 --> 01:12:37,270

the future that would be more gentle and

1388

01:12:44,400 --> 01:12:39,820

more understanding with with our weather

1389

01:12:47,910 --> 01:12:44,410

I asked the question in in heavy font

1390

01:12:51,270 --> 01:12:47,920

what terrible species would abduct human

1391

01:12:55,970 --> 01:12:51,280

beings one answer is true human beings

1392

01:12:58,620 --> 01:12:55,980

would abduct human beings but we have

1393

01:13:02,250 --> 01:12:58,630

committed genocide on each other and

1394

01:13:06,390 --> 01:13:02,260

still still are we've enslaved each

1395

01:13:09,630 --> 01:13:06,400

other we've in the case of the Native

1396

01:13:12,150 --> 01:13:09,640

Americans either genocide or driven them

1397

01:13:14,970 --> 01:13:12,160

to either arid climates or very cold

1398

01:13:19,980 --> 01:13:14,980

climates and we kept the fertile land of

1399

01:13:24,210 --> 01:13:19,990

Iowa and so you know man see and

1400

01:13:26,130 --> 01:13:24,220

humanity demand is endless and possibly

1401

01:13:29,040 --> 01:13:26,140

they're a little more enlightened than

1402

01:13:32,820 --> 01:13:29,050

we are because they seem to catch and

1403

01:13:35,490 --> 01:13:32,830

release and I I think they would be or

1404

01:13:38,430 --> 01:13:35,500

see I think it's a military or quasi

1405

01:13:42,060 --> 01:13:38,440

military unit

1406

01:13:44,820 --> 01:13:42,070

trained for time experiences to come

1407

01:13:48,810 --> 01:13:44,830

back I don't think it's pedestrians on a

1408

01:13:51,479 --> 01:13:48,820

vacation I think it's a military-trained

1409

01:13:55,260 --> 01:13:51,489

thing and they are to be cold and

1410

01:13:58,110 --> 01:13:55,270

distant and scary so that we don't

1411

01:14:00,870 --> 01:13:58,120

really start to chat or catch on to

1412

01:14:03,959 --> 01:14:00,880

anything and I think they need something

1413

01:14:08,459 --> 01:14:03,969

from us because there are so many tissue

1414

01:14:11,790 --> 01:14:08,469

samples and similar possibly for DNA

1415

01:14:16,080 --> 01:14:11,800

maybe there they we are having trouble

1416

01:14:20,880 --> 01:14:16,090

with our too much nuclear radiation with

1417

01:14:22,830 --> 01:14:20,890

with our DNA so I think the reason that

1418

01:14:25,410 --> 01:14:22,840

they catch and release and our

1419

01:14:29,160 --> 01:14:25,420

frightening is because that's the way

1420

01:14:32,280 --> 01:14:29,170

they are ordered to be and you know for

1421

01:14:35,189 --> 01:14:32,290

all we know they may be a lot of it is

1422

01:14:38,550 --> 01:14:35,199

artificial intelligence that humans

1423

01:14:41,910 --> 01:14:38,560

created I don't think et that we need to

1424

01:14:45,060 --> 01:14:41,920

think et's create part of you know it to

1425

01:14:47,600 --> 01:14:45,070

me it makes sense that that artificial

1426

01:14:51,530 --> 01:14:47,610

intelligence might be lacking emotion

1427

01:14:55,590 --> 01:14:51,540

unless you get into conscious artificial

1428

01:14:59,240 --> 01:14:55,600

intelligence but to me that that answers

1429

01:15:05,189 --> 01:14:59,250

your question fairly fairly well I just

1430

01:15:07,890 --> 01:15:05,199

said yeah yeah so if the one thing I'm

1431

01:15:11,520 --> 01:15:07,900

sure you've heard a million times of the

1432

01:15:15,060 --> 01:15:11,530

butterfly effect the the next question

1433

01:15:18,600 --> 01:15:15,070

I'd say to you like so that that just

1434

01:15:21,020 --> 01:15:18,610

goes along if if someone alters the

1435

01:15:24,750 --> 01:15:21,030

pasture then they alter you know perhaps

1436

01:15:27,600 --> 01:15:24,760

them selves being born you know you can

1437

01:15:30,390 --> 01:15:27,610

alter one thing and in the world

1438

01:15:33,030 --> 01:15:30,400

basically and it may change some events

1439

01:15:35,939 --> 01:15:33,040

that makes it so the world doesn't

1440

01:15:38,370 --> 01:15:35,949

happen the way it had that type of thing

1441

01:15:40,560 --> 01:15:38,380

if you went back in time and the one

1442

01:15:44,850 --> 01:15:40,570

thing that I just think of is you know

1443

01:15:46,979 --> 01:15:44,860

they're not hiding they're not you know

1444

01:15:50,220 --> 01:15:46,989

they're there's you know a lot of people

1445

01:15:51,939 --> 01:15:50,230

experiencing these things and and it

1446

01:15:54,969 --> 01:15:51,949

seems like it would alter or

1447

01:15:58,149 --> 01:15:54,979

to alter the future you know maybe not a

1448

01:16:02,379 --> 01:15:58,159

UFO sighting but maybe a UFO sighting

1449

01:16:05,439 --> 01:16:02,389

could you know the UFOs could have

1450

01:16:07,689 --> 01:16:05,449

altered you know things that has altered

1451

01:16:10,750 --> 01:16:07,699

some things right now as far as what the

1452

01:16:13,719 --> 01:16:10,760

Navy is is doing and all that yeah that

1453

01:16:17,799 --> 01:16:13,729

gets into to physics to the Novikov loop

1454

01:16:19,500 --> 01:16:17,809

that dr. Cerf ID taught me about so I

1455

01:16:23,979 --> 01:16:19,510

don't know what you're talking about

1456

01:16:26,680 --> 01:16:23,989

right yeah what is that what it was at

1457

01:16:28,870 --> 01:16:26,690

your target it's Novikov was an old

1458

01:16:31,870 --> 01:16:28,880

Russian in the 1800s that came up with

1459

01:16:37,600 --> 01:16:31,880

this that physics does accept us as fact

1460

01:16:42,569 --> 01:16:37,610

that you it's a you can't change the

1461

01:16:46,479 --> 01:16:42,579

future because if you think you had it

1462

01:16:49,359 --> 01:16:46,489

whatever you did you're you you did do

1463

01:16:52,750 --> 01:16:49,369

it you can't escape in other words you

1464

01:16:57,969 --> 01:16:52,760

can't kill your grandfather because you

1465

01:17:01,000 --> 01:16:57,979

exist so it's a non escape I know the

1466

01:17:04,239 --> 01:17:01,010

multifarious gets very the says that

1467

01:17:05,979 --> 01:17:04,249

there are alternate dimensions but

1468

01:17:08,919 --> 01:17:05,989

whether we can actually get to the

1469

01:17:12,399 --> 01:17:08,929

alternate dimension we may be locked in

1470

01:17:18,060 --> 01:17:12,409

our original past and then other use

1471

01:17:22,319 --> 01:17:18,070

would go in the alternate dimensions but

1472

01:17:25,770 --> 01:17:22,329

Novikov loop says that it's almost like

1473

01:17:29,319 --> 01:17:25,780

predestination that you are locked into

1474

01:17:32,319 --> 01:17:29,329

I'm not getting my definition wording

1475

01:17:34,600 --> 01:17:32,329

exactly right but that you can't change

1476

01:17:37,870 --> 01:17:34,610

the future because what you think

1477

01:17:40,839 --> 01:17:37,880

changes the future always happened so I

1478

01:17:43,060 --> 01:17:40,849

guess if you if you cause somebody

1479

01:17:45,759 --> 01:17:43,070

looking at a UFO to get run over by a

1480

01:17:48,839 --> 01:17:45,769

bus they would have been run over by the

1481

01:17:58,390 --> 01:17:48,849

bus anyway so they really can't change

1482

01:18:00,250 --> 01:17:58,400

the future Wow that's my head hurts well

1483

01:18:02,199 --> 01:18:00,260

interesting so I'm gonna open up the

1484

01:18:05,410 --> 01:18:02,209

lines if anyone wants to call in ask our

1485

01:18:09,939 --> 01:18:05,420

guest a question of that number is

1486

01:18:13,300 --> 01:18:09,949

eight five five four seven two five four

1487

01:18:15,820 --> 01:18:13,310

eight three and we do have a race of

1488

01:18:17,830 --> 01:18:15,830

screening calls standing by so if anyone

1489

01:18:20,850 --> 01:18:17,840

would like to call in I ask our guests a

1490

01:18:24,270 --> 01:18:20,860

question a question please do call and

1491

01:18:26,439 --> 01:18:24,280

speaking of that and just a reminder to

1492

01:18:28,150 --> 01:18:26,449

the people that listen to the show I

1493

01:18:30,790 --> 01:18:28,160

would love to have a lot of calls coming

1494

01:18:33,970 --> 01:18:30,800

up on show that's going to be just a

1495

01:18:35,140 --> 01:18:33,980

listener show only it's a it's st.

1496

01:18:40,120 --> 01:18:35,150

Patrick's Day I hope that doesn't

1497

01:18:43,120 --> 01:18:40,130

curtail anything but it is on March 17th

1498

01:18:45,520 --> 01:18:43,130

that's a Tuesday at 6 to 8 p.m. Eastern

1499

01:18:46,780 --> 01:18:45,530

Standard Time love to take your call and

1500

01:18:49,060 --> 01:18:46,790

talk about sightings or whatever you

1501

01:18:53,650 --> 01:18:49,070

want to speak about so that's coming up

1502

01:18:57,600 --> 01:18:53,660

on the 7th 17th of next month which next

1503

01:19:00,750 --> 01:18:57,610

month it's just in a couple of days so

1504

01:19:03,189 --> 01:19:00,760

yeah that is that's interesting so many

1505

01:19:05,890 --> 01:19:03,199

paradoxes and things to think about when

1506

01:19:07,959 --> 01:19:05,900

you're when you're talking about time

1507

01:19:10,750 --> 01:19:07,969

travel remember as a kid as a joke I

1508

01:19:12,669 --> 01:19:10,760

used to say you know I had a lot of

1509

01:19:15,790 --> 01:19:12,679

corny stupid things I used to say I do

1510

01:19:17,260 --> 01:19:15,800

admit that but I used to say that time

1511

01:19:19,300 --> 01:19:17,270

travel it never happened because we

1512

01:19:21,959 --> 01:19:19,310

don't see anyone from the future well

1513

01:19:26,110 --> 01:19:21,969

maybe I was wrong about that maybe we do

1514

01:19:28,240 --> 01:19:26,120

how do we know that might be the

1515

01:19:29,979 --> 01:19:28,250

question but I don't think that they

1516

01:19:33,040 --> 01:19:29,989

just come down you know you'll have

1517

01:19:35,650 --> 01:19:33,050

people on video that say well I'm a time

1518

01:19:39,130 --> 01:19:35,660

traveler from and I'm always really

1519

01:19:40,930 --> 01:19:39,140

skeptical of that okay who was that guy

1520

01:19:44,410 --> 01:19:40,940

that was saying he was the time traveler

1521

01:19:49,209 --> 01:19:44,420

was really an art Bell and he went he

1522

01:19:52,689 --> 01:19:49,219

was on a bunch of dots Iago I don't want

1523

01:19:54,240 --> 01:19:52,699

to name somebody that wrongly oh no it

1524

01:19:57,100 --> 01:19:54,250

wasn't that

1525

01:19:59,140 --> 01:19:57,110

what's that hi oh you got a couple calls

1526

01:20:02,880 --> 01:19:59,150

coming in race I'd see it but it was

1527

01:20:07,510 --> 01:20:02,890

tighter that's it tighter ti-ti t o r

1528

01:20:10,090 --> 01:20:07,520

whatever happened to him well we know we

1529

01:20:12,970 --> 01:20:10,100

have some calls coming in and they're

1530

01:20:14,950 --> 01:20:12,980

just being screened right now so I will

1531

01:20:17,400 --> 01:20:14,960

take that in just one second before we

1532

01:20:20,790 --> 01:20:17,410

get into our

1533

01:20:24,930 --> 01:20:20,800

next topic but yeah that that guy was

1534

01:20:27,030 --> 01:20:24,940

really really something he was on a

1535

01:20:30,030 --> 01:20:27,040

whole bunch of shows and he had claimed

1536

01:20:32,550 --> 01:20:30,040

all these things and and when it came

1537

01:20:34,050 --> 01:20:32,560

right down to it he said that he was

1538

01:20:35,820 --> 01:20:34,060

sent back because he was sick or

1539

01:20:40,110 --> 01:20:35,830

something I can't remember exactly what

1540

01:20:44,610 --> 01:20:40,120

that was but I don't know whatever

1541

01:20:47,250 --> 01:20:44,620

happened to him to me the beauty of my

1542

01:20:50,130 --> 01:20:47,260

book is that it's just really connecting

1543

01:20:51,930 --> 01:20:50,140

dots that we've never connected and you

1544

01:20:54,090 --> 01:20:51,940

know I don't say you got to believe that

1545

01:20:57,450 --> 01:20:54,100

but it's just something that's been

1546

01:20:59,820 --> 01:20:57,460

overlooked and I think it kind of makes

1547

01:21:05,070 --> 01:20:59,830

sense to at least you know think about

1548

01:21:08,340 --> 01:21:05,080

it that's that's it's not a you know I'm

1549

01:21:10,380 --> 01:21:08,350

not an expert on on them really I'm

1550

01:21:13,800 --> 01:21:10,390

looking at it from where I am here in

1551  
01:21:19,560 --> 01:21:13,810  
the current place and thinking gee maybe

1552  
01:21:21,330 --> 01:21:19,570  
it is us well you know so I don't know

1553  
01:21:25,800 --> 01:21:21,340  
if we're having issues with the phone

1554  
01:21:27,830 --> 01:21:25,810  
I'm taking a look at that now hopefully

1555  
01:21:30,810 --> 01:21:27,840  
everything is all set going on with that

1556  
01:21:35,310 --> 01:21:30,820  
but we do have a couple of calls lined

1557  
01:21:37,350 --> 01:21:35,320  
up just waiting for the go here - yeah -

1558  
01:21:41,960 --> 01:21:37,360  
take them ha they keep hanging up I

1559  
01:21:44,580 --> 01:21:41,970  
wonder if they're hanging up on anyway

1560  
01:21:47,700 --> 01:21:44,590  
yeah you know these are these are all

1561  
01:21:53,990 --> 01:21:47,710  
thoughts you can kick around of course

1562  
01:22:00,870 --> 01:21:59,430  
it's just something to kick around have

1563  
01:22:02,820 --> 01:22:00,880

you had a lot of you said you've

1564

01:22:07,620 --> 01:22:02,830

communicated with a few people at least

1565

01:22:11,010 --> 01:22:07,630

dr. Michael masters jackster Fadi to a

1566

01:22:11,610 --> 01:22:11,020

limited degree we are not not Jack's

1567

01:22:15,750 --> 01:22:11,620

sorry

1568

01:22:18,210 --> 01:22:15,760

Jacque fell a limited degree Jack's our

1569

01:22:21,390 --> 01:22:18,220

father and I talk every day we're kind

1570

01:22:24,840 --> 01:22:21,400

of friends on email but Jacques valet

1571

01:22:27,630 --> 01:22:24,850

gave permission to use his paper and I

1572

01:22:30,680 --> 01:22:27,640

was I was very honored at that

1573

01:22:34,640 --> 01:22:30,690

he said something here you can interrupt

1574

01:22:37,939 --> 01:22:34,650

if the call comes through but I just

1575

01:22:40,250 --> 01:22:37,949

wanted to quote he says such from this

1576

01:22:41,990 --> 01:22:40,260

paper in my that's in the book such

1577

01:22:44,900 --> 01:22:42,000

travelers could perform many of the

1578

01:22:47,810 --> 01:22:44,910

physical feats absque Ribe to you you've

1579

01:22:50,450 --> 01:22:47,820

you've not you've not and they could

1580

01:22:52,340 --> 01:22:50,460

also manifest simultaneously through

1581

01:22:53,150 --> 01:22:52,350

what appears to us as different periods

1582

01:22:56,300 --> 01:22:53,160

in our history

1583

01:22:58,820 --> 01:22:56,310

this hypothesis represents an updating

1584

01:23:03,500 --> 01:22:58,830

of the extra-terrestrial hypothesis

1585

01:23:05,030 --> 01:23:03,510

which in fact who visits us can be from

1586

01:23:07,550 --> 01:23:05,040

anywhere at any time

1587

01:23:10,520 --> 01:23:07,560

and could even originate from our own

1588

01:23:12,890 --> 01:23:10,530

earth and that's what he is always you

1589

01:23:15,709 --> 01:23:12,900

know he's he's mentioned fairies and and

1590

01:23:17,810 --> 01:23:15,719

things back in history and then they

1591

01:23:21,740 --> 01:23:17,820

updated themselves to spacecraft

1592

01:23:24,340 --> 01:23:21,750

whatever they are but he doesn't

1593

01:23:27,800 --> 01:23:24,350

disallow that there are future humans

1594

01:23:31,670 --> 01:23:27,810

that isn't his his answer necessarily

1595

01:23:36,200 --> 01:23:31,680

but this quote does sort of describe

1596

01:23:39,439 --> 01:23:36,210

future humans or could and he's involved

1597

01:23:41,780 --> 01:23:39,449

now in venture capital with going to

1598

01:23:44,709 --> 01:23:41,790

space so he obviously thinks there's a

1599

01:23:47,959 --> 01:23:44,719

future that he's creating or

1600

01:23:53,270 --> 01:23:47,969

participating in making which is what

1601  
01:23:54,620 --> 01:23:53,280  
dr. Sarfati feels too well well really

1602  
01:23:57,740 --> 01:23:54,630  
interesting

1603  
01:24:00,320 --> 01:23:57,750  
yeah Jacques is is a quite an

1604  
01:24:02,510 --> 01:24:00,330  
interesting guy I guess I'm gonna tell

1605  
01:24:06,470 --> 01:24:02,520  
the people of the phone I'm not sure

1606  
01:24:09,380 --> 01:24:06,480  
what's going on at the kgr a radio race

1607  
01:24:13,010 --> 01:24:09,390  
is working on it so I will we'll pull

1608  
01:24:16,450 --> 01:24:13,020  
the phones for right now it's hoping

1609  
01:24:18,979 --> 01:24:16,460  
this wouldn't happen again but anyway

1610  
01:24:20,660 --> 01:24:18,989  
we're rebooting the system is basically

1611  
01:24:23,270 --> 01:24:20,670  
what it looks like what is happening so

1612  
01:24:26,360 --> 01:24:23,280  
callers hang in there we'll be we'll be

1613  
01:24:28,900 --> 01:24:26,370

back with a asking you to call in in a

1614

01:24:32,360 --> 01:24:28,910

few minutes so just hang in there and

1615

01:24:37,820 --> 01:24:32,370

how that goes I was I was interested in

1616

01:24:42,020 --> 01:24:37,830

the fact that Travis Walton saw small

1617

01:24:43,919 --> 01:24:42,030

beings who he was scared of at first he

1618

01:24:46,590 --> 01:24:43,929

had been hit on the head or

1619

01:24:49,080 --> 01:24:46,600

with the array from the ship or the

1620

01:24:53,430 --> 01:24:49,090

energy hit him and he had a head injury

1621

01:24:55,410 --> 01:24:53,440

and he really attacked or freaked out at

1622

01:24:57,090 --> 01:24:55,420

these little beings I think they were

1623

01:25:00,600 --> 01:24:57,100

kind of insect-like

1624

01:25:04,050 --> 01:25:00,610

and I remembered in hypnosis two little

1625

01:25:09,810 --> 01:25:04,060

beings are little I guess small humans

1626  
01:25:11,820 --> 01:25:09,820  
that got me to where this one might call

1627  
01:25:13,770 --> 01:25:11,830  
him my special one because he didn't

1628  
01:25:16,470 --> 01:25:13,780  
give me his name I don't aim it as a

1629  
01:25:19,649 --> 01:25:16,480  
huge endearment but I didn't I that's

1630  
01:25:21,660 --> 01:25:19,659  
what I refer to him and one of the

1631  
01:25:25,050 --> 01:25:21,670  
little beings that seemed to get me to

1632  
01:25:28,229 --> 01:25:25,060  
where I was supposed to go was had a

1633  
01:25:33,209 --> 01:25:28,239  
more insect-like look about him

1634  
01:25:36,870 --> 01:25:33,219  
kind of like an Iowa grasshopper but so

1635  
01:25:38,640 --> 01:25:36,880  
Travis sort of attacked or started to

1636  
01:25:42,709 --> 01:25:38,650  
these little beings and they just stood

1637  
01:25:47,880 --> 01:25:42,719  
there and then that's when the few the

1638  
01:25:50,160 --> 01:25:47,890

golden humans that term kind of annoying

1639

01:25:53,570 --> 01:25:50,170

for some reason but anyway the almost

1640

01:25:56,070 --> 01:25:53,580

perfect looking humans showed up and

1641

01:26:00,540 --> 01:25:56,080

apparently saved him did something

1642

01:26:04,890 --> 01:26:00,550

medically they took him somewhere and so

1643

01:26:07,740 --> 01:26:04,900

my experience matches Travis's and that

1644

01:26:09,570 --> 01:26:07,750

I in hypnosis I remembered the small

1645

01:26:14,550 --> 01:26:09,580

beans also I don't remember them

1646

01:26:19,140 --> 01:26:14,560

consciously but the the being I met the

1647

01:26:22,800 --> 01:26:19,150

guy was would be considered a golden

1648

01:26:26,459 --> 01:26:22,810

human he wasn't a tall tall human I

1649

01:26:31,439 --> 01:26:26,469

he just had casual hair I mean he wasn't

1650

01:26:34,770 --> 01:26:31,449

military like he was but his his eyes

1651  
01:26:37,380 --> 01:26:34,780  
were different and I believe you know in

1652  
01:26:40,500 --> 01:26:37,390  
Travis's the illustrations of Travis's

1653  
01:26:43,770 --> 01:26:40,510  
experience those also had kind of

1654  
01:26:46,620 --> 01:26:43,780  
different eyes almost why a wide set

1655  
01:26:49,560 --> 01:26:46,630  
really wide set and maybe kind of

1656  
01:26:52,200 --> 01:26:49,570  
translucent hmm

1657  
01:26:53,580 --> 01:26:52,210  
I've talked to I've taught at Travis has

1658  
01:26:56,669 --> 01:26:53,590  
been on this show a number of times that

1659  
01:26:57,870 --> 01:26:56,679  
I've actually talked to him at an event

1660  
01:27:01,290 --> 01:26:57,880  
we hung out

1661  
01:27:04,320 --> 01:27:01,300  
together for quite a while and actually

1662  
01:27:07,229 --> 01:27:04,330  
he's very intelligent and well-spoken

1663  
01:27:10,280 --> 01:27:07,239

and and we got into talking about all

1664

01:27:12,689 --> 01:27:10,290

different topics but asking him about

1665

01:27:14,750 --> 01:27:12,699

you know first of all about the beings

1666

01:27:19,470 --> 01:27:14,760

this the small ones that you mentioned

1667

01:27:21,450 --> 01:27:19,480

he said the eyes were were just

1668

01:27:24,090 --> 01:27:21,460

incredible something about the rise was

1669

01:27:27,570 --> 01:27:24,100

just incredible like the way they stared

1670

01:27:28,830 --> 01:27:27,580

at him in yeah I don't remember there

1671

01:27:32,459 --> 01:27:28,840

was so huh

1672

01:27:34,379 --> 01:27:32,469

what were they the big goggly almost

1673

01:27:36,209 --> 01:27:34,389

like they had black goggles on cuz I

1674

01:27:39,330 --> 01:27:36,219

wondered if maybe they did have black

1675

01:27:42,689 --> 01:27:39,340

goggles the really dark black eyes with

1676

01:27:48,660 --> 01:27:42,699

a really large yeah yeah and then he

1677

01:27:51,000 --> 01:27:48,670

said then he said that the the ones

1678

01:27:53,070 --> 01:27:51,010

you're talking about the other ones he

1679

01:27:54,990 --> 01:27:53,080

said they were absolutely beautiful

1680

01:27:56,790 --> 01:27:55,000

people he said I don't know how else to

1681

01:27:58,910 --> 01:27:56,800

describe it they were just yeah

1682

01:28:01,379 --> 01:27:58,920

amazingly beautiful people but they said

1683

01:28:05,250 --> 01:28:01,389

he thought he was he was thought he was

1684

01:28:07,919 --> 01:28:05,260

saved and then to find out you know they

1685

01:28:12,629 --> 01:28:07,929

they wouldn't talk and that really

1686

01:28:14,310 --> 01:28:12,639

puzzled him didn't you say that with at

1687

01:28:16,649 --> 01:28:14,320

least that's what I ran I have never

1688

01:28:18,959 --> 01:28:16,659

we're friends on Facebook but I've never

1689

01:28:21,750 --> 01:28:18,969

chatted with him I believe he said that

1690

01:28:27,180 --> 01:28:21,760

they put a mask on him I may be getting

1691

01:28:29,700 --> 01:28:27,190

that wrong yeah oh that's the part

1692

01:28:32,669 --> 01:28:29,710

you're talking about is up when he was

1693

01:28:34,979 --> 01:28:32,679

talking about the fact that he believes

1694

01:28:40,979 --> 01:28:34,989

that he was actually this was a rescue

1695

01:28:46,080 --> 01:28:40,989

mission that's what you mean when he got

1696

01:28:47,910 --> 01:28:46,090

zapped by the light that's yep yeah

1697

01:28:50,700 --> 01:28:47,920

alright we're gonna try to take this

1698

01:28:52,890 --> 01:28:50,710

call cross your fingers everyone okay

1699

01:28:54,950 --> 01:28:52,900

looks like we have Andrew calling again

1700

01:28:57,870 --> 01:28:54,960

from Connecticut Andrew you on the line

1701  
01:29:01,620 --> 01:28:57,880  
yes hi can you punch my frequent caller

1702  
01:29:06,330 --> 01:29:01,630  
card first I know what that will get you

1703  
01:29:11,280 --> 01:29:06,340  
but yes okay so my question for Dianne

1704  
01:29:12,990 --> 01:29:11,290  
is just is she familiar with a seer

1705  
01:29:16,260 --> 01:29:13,000  
and I think this might have been first

1706  
01:29:19,710 --> 01:29:16,270  
proposed by maybe John keel that our

1707  
01:29:24,360 --> 01:29:19,720  
dimension is you know length breadth

1708  
01:29:27,000 --> 01:29:24,370  
width and time and we are all the

1709  
01:29:31,860 --> 01:29:27,010  
molecules in our dimension are vibrating

1710  
01:29:34,140 --> 01:29:31,870  
at one frequency and this mentions

1711  
01:29:36,810 --> 01:29:34,150  
vibrated other frequencies and that

1712  
01:29:42,540 --> 01:29:36,820  
that's one of the mysteries we see or

1713  
01:29:44,310 --> 01:29:42,550

phenomenon with UFOs there's do you come

1714

01:29:47,460 --> 01:29:44,320

across that you find that that's

1715

01:29:51,780 --> 01:29:47,470

probably one of the more valid theories

1716

01:29:57,780 --> 01:29:51,790

on how these interdimensional creatures

1717

01:30:01,230 --> 01:29:57,790

or craft come and go yes I would wonder

1718

01:30:05,240 --> 01:30:01,240

yes I do think it sounds one of the more

1719

01:30:09,620 --> 01:30:05,250

valid do you think that they can

1720

01:30:14,250 --> 01:30:09,630

actually do nuts and bolts or hands on

1721

01:30:17,190 --> 01:30:14,260

like tissue samples or the landing mark

1722

01:30:21,500 --> 01:30:17,200

the actual evidence throughout the years

1723

01:30:24,600 --> 01:30:21,510

what other dimensional beings be able to

1724

01:30:27,300 --> 01:30:24,610

interact with our dimension that much or

1725

01:30:35,040 --> 01:30:27,310

do we just see them in the the I I

1726  
01:30:37,710 --> 01:30:35,050  
wonder that but who knows I guess yeah

1727  
01:30:41,040 --> 01:30:37,720  
I've heard it I've heard it theorized

1728  
01:30:43,860 --> 01:30:41,050  
that they can enter our dimension and

1729  
01:30:46,800 --> 01:30:43,870  
stay briefly but that it's harmful to

1730  
01:30:48,450 --> 01:30:46,810  
them to stay long-term because air

1731  
01:30:51,090 --> 01:30:48,460  
molecules and so on

1732  
01:30:57,210 --> 01:30:51,100  
aren't aren't tuned to this frequency

1733  
01:31:01,110 --> 01:30:57,220  
right that's why they can't stay I think

1734  
01:31:04,170 --> 01:31:01,120  
when you look at modern physics and all

1735  
01:31:07,110 --> 01:31:04,180  
the different fields out there that

1736  
01:31:09,060 --> 01:31:07,120  
they're constantly studying and

1737  
01:31:13,500 --> 01:31:09,070  
expanding our knowledge that that's that

1738  
01:31:17,040 --> 01:31:13,510

is one of the more valid theories hmm

1739

01:31:19,980 --> 01:31:17,050

what one analogy he gave this is John

1740

01:31:23,970 --> 01:31:19,990

keel was that we're like fish in a river

1741

01:31:24,560 --> 01:31:23,980

and we can swim anywhere we want in our

1742

01:31:26,600 --> 01:31:24,570

river

1743

01:31:28,490 --> 01:31:26,610

and go up go down look all over the

1744

01:31:31,130 --> 01:31:28,500

place but we're stuck in the river and

1745

01:31:33,860 --> 01:31:31,140

there's other creatures can leave the

1746

01:31:36,320 --> 01:31:33,870

river and walk up to atop the top of a

1747

01:31:38,630 --> 01:31:36,330

mountain look around and then come back

1748

01:31:41,540 --> 01:31:38,640

into the river wherever they choose and

1749

01:31:43,150 --> 01:31:41,550

that I thought that really stuck with me

1750

01:31:45,890 --> 01:31:43,160

mm-hmm

1751

01:31:48,170 --> 01:31:45,900

yeah I

1752

01:31:51,520 --> 01:31:48,180

that would seem one of the more valid to

1753

01:31:56,920 --> 01:31:51,530

me to I guess I'd say having been

1754

01:32:00,590 --> 01:31:56,930

talking a lot with dr. Sarfatti that if

1755

01:32:03,560 --> 01:32:00,600

we could get the formula for time travel

1756

01:32:05,990 --> 01:32:03,570

it's almost you know Occam's razor that

1757

01:32:09,110 --> 01:32:06,000

says the least number of assumptions is

1758

01:32:11,840 --> 01:32:09,120

the right answer while it's a very big

1759

01:32:14,120 --> 01:32:11,850

one assumption that we'll be able to go

1760

01:32:18,650 --> 01:32:14,130

back in time I real but Einstein never

1761

01:32:22,610 --> 01:32:18,660

said it's impossible so I guess for me I

1762

01:32:26,300 --> 01:32:22,620

would think that was maybe more more

1763

01:32:29,630 --> 01:32:26,310

likely but it could be both or I could

1764

01:32:33,670 --> 01:32:29,640

be wrong that's possible and I think

1765

01:32:37,550 --> 01:32:33,680

your theory is is a good one great good

1766

01:32:39,470 --> 01:32:37,560

about what I thought you say okay yes

1767

01:32:42,620 --> 01:32:39,480

Andrew thanks a lot and don't forget the

1768

01:32:44,390 --> 01:32:42,630

17th you have to save me Andrew saved my

1769

01:32:46,430 --> 01:32:44,400

call where I was going to have to cancel

1770

01:32:49,700 --> 01:32:46,440

the show and and we talked for quite a

1771

01:32:53,690 --> 01:32:49,710

while so I don't forget that Andrew so

1772

01:32:57,070 --> 01:32:53,700

thank you okay all right good night all

1773

01:33:00,380 --> 01:32:57,080

right we have on the line we have Ward

1774

01:33:07,430 --> 01:33:00,390

Ward calling from Florida welcome to the

1775

01:33:11,240 --> 01:33:07,440

show Ward you have a question for our

1776

01:33:15,920 --> 01:33:11,250

guest tonight yes I do well and maybe

1777

01:33:19,670 --> 01:33:15,930

you two synchronicities I mean it's

1778

01:33:21,740 --> 01:33:19,680

they've been blowing up used to be every

1779

01:33:26,390 --> 01:33:21,750

once in a while now I mean getting like

1780

01:33:28,850 --> 01:33:26,400

maybe 20 a day and I saw on a different

1781

01:33:31,190 --> 01:33:28,860

video that this is happening all over

1782

01:33:33,260 --> 01:33:31,200

the place but then when I contacted

1783

01:33:37,280 --> 01:33:33,270

somebody else they said no it's not

1784

01:33:38,090 --> 01:33:37,290

happening to them is she having any kind

1785

01:33:40,360 --> 01:33:38,100

of synchronous

1786

01:33:43,430 --> 01:33:40,370

these are you or is it no words just

1787

01:33:47,600 --> 01:33:43,440

something that you know really isn't

1788

01:33:51,140 --> 01:33:47,610

happening I I have synchronicities

1789

01:33:55,430 --> 01:33:51,150

fairly often with my best friend of over

1790

01:33:57,880 --> 01:33:55,440

40 years who lives in in California as

1791

01:34:01,880 --> 01:33:57,890

far as synchronicities happen I mean

1792

01:34:04,280 --> 01:34:01,890

Here I am out in rural Iowa there's

1793

01:34:11,240 --> 01:34:04,290

almost nobody to bounce it off of to

1794

01:34:13,700 --> 01:34:11,250

find out if I'm having but yeah I

1795

01:34:24,620 --> 01:34:13,710

certainly had them fairly often not not

1796

01:34:27,230 --> 01:34:24,630

as often as you're saying my mother they

1797

01:34:29,360 --> 01:34:27,240

used to be that I was getting them every

1798

01:34:31,160 --> 01:34:29,370

once in a while and yes I would think of

1799

01:34:34,040 --> 01:34:31,170

something and I hear my daughter say it

1800

01:34:35,780 --> 01:34:34,050

or my mother said her person and I'm

1801  
01:34:39,590 --> 01:34:35,790  
lying safe but now it seems to all be

1802  
01:34:41,480 --> 01:34:39,600  
like electronic whir I'll be thinking of

1803  
01:34:43,820 --> 01:34:41,490  
something or I'll have like two things

1804  
01:34:49,210 --> 01:34:43,830  
going I'll have my radio going and the

1805  
01:34:51,650 --> 01:34:49,220  
TV going and at the same exact time the

1806  
01:34:56,950 --> 01:34:51,660  
radio says washing machine all of a

1807  
01:35:02,020 --> 01:35:00,200  
constantly and I I just never saw it so

1808  
01:35:04,310 --> 01:35:02,030  
crazy like this before

1809  
01:35:07,870 --> 01:35:04,320  
I'm just trying to figure out is it

1810  
01:35:10,580 --> 01:35:07,880  
something coming or no what's going on

1811  
01:35:13,760 --> 01:35:10,590  
I've certainly had it happen I know what

1812  
01:35:16,880 --> 01:35:13,770  
you're saying but not as frequently what

1813  
01:35:20,270 --> 01:35:16,890

about you Martin I think I did you know

1814

01:35:24,370 --> 01:35:20,280

at one time I did I did I did notice but

1815

01:35:27,830 --> 01:35:24,380

I do I do thank you for the call wort

1816

01:35:31,130 --> 01:35:27,840

appreciate it all right all right next

1817

01:35:34,250 --> 01:35:31,140

we have we have Brock on the line from

1818

01:35:37,610 --> 01:35:34,260

Dayton Ohio isn't that near a right

1819

01:35:41,270 --> 01:35:37,620

Patterson Patterson Brock how are you

1820

01:35:44,180 --> 01:35:41,280

that is I'm good right that's like ten

1821

01:35:48,770 --> 01:35:44,190

minutes from here so ah yeah how are ya

1822

01:35:51,299 --> 01:35:48,780

welcome to the show yeah so I guess I

1823

01:35:53,689 --> 01:35:51,309

was wondering like

1824

01:35:56,849 --> 01:35:53,699

along the lines what Andrew was saying

1825

01:36:00,719 --> 01:35:56,859

regarding like these aliens being able

1826

01:36:03,929 --> 01:36:00,729

to kind of dip in and dip out of time

1827

01:36:06,209 --> 01:36:03,939

I was wondering like if if Diane thought

1828

01:36:09,959 --> 01:36:06,219

that maybe they were alike higher

1829

01:36:12,689 --> 01:36:09,969

dimensional beings in that you know like

1830

01:36:14,969 --> 01:36:12,699

a fourth or fifth dimensional being

1831

01:36:17,219 --> 01:36:14,979

could see like perceived the passing of

1832

01:36:24,659 --> 01:36:17,229

time like we perceive like what's

1833

01:36:27,089 --> 01:36:24,669

heights and yeah but like if you get to

1834

01:36:29,819 --> 01:36:27,099

like higher level like like up to like

1835

01:36:32,189 --> 01:36:29,829

seven eight even nine dimensional it's

1836

01:36:35,369 --> 01:36:32,199

like not only can you see the passing of

1837

01:36:37,529 --> 01:36:35,379

time but you can also see like different

1838

01:36:41,819 --> 01:36:37,539

alternate universes you know where

1839

01:36:43,500 --> 01:36:41,829

things like say or different events

1840

01:36:45,509 --> 01:36:43,510

happen and it creates like a different

1841

01:36:48,959 --> 01:36:45,519

timeline and like it's these higher

1842

01:36:52,589 --> 01:36:48,969

dimensional beings and this maybe is how

1843

01:36:54,359 --> 01:36:52,599

they navigate through space-time is they

1844

01:36:55,979 --> 01:36:54,369

can perceive like these different

1845

01:36:59,250 --> 01:36:55,989

timelines and stuff and they're kind of

1846

01:37:01,349 --> 01:36:59,260

moving back and forth between these

1847

01:37:04,739 --> 01:37:01,359

different timelines and different paths

1848

01:37:07,969 --> 01:37:04,749

and creatures I don't know is that

1849

01:37:10,979 --> 01:37:07,979

something you thought maybe yeah yeah

1850

01:37:13,949 --> 01:37:10,989

that could be I guess

1851  
01:37:15,089 --> 01:37:13,959  
there's there's two sides sort of to the

1852  
01:37:20,129 --> 01:37:15,099  
UFO issue

1853  
01:37:23,059 --> 01:37:20,139  
there's subjective and metaphysical and

1854  
01:37:29,719 --> 01:37:23,069  
then there's objective and scientific

1855  
01:37:33,629 --> 01:37:29,729  
like I know dr. Sarfati who's a really

1856  
01:37:36,869 --> 01:37:33,639  
aggressive science thinker would say

1857  
01:37:39,270 --> 01:37:36,879  
well that doesn't match our knowledge of

1858  
01:37:42,679 --> 01:37:39,280  
what we know but then there's a lot we

1859  
01:37:45,270 --> 01:37:42,689  
don't know but on the subjective side

1860  
01:37:49,849 --> 01:37:45,280  
I'll just say that what you're saying is

1861  
01:37:54,929 --> 01:37:49,859  
subjective there's no it sounds like a

1862  
01:37:57,509 --> 01:37:54,939  
metaphysical explanation which could be

1863  
01:38:01,529 --> 01:37:57,519

valid I mean metaphysics in itself is a

1864

01:38:05,339 --> 01:38:01,539

deep topic and I know it goes into ten

1865

01:38:08,989 --> 01:38:05,349

and eleven dimensions and all but

1866

01:38:15,509 --> 01:38:08,999

it's it's not Sciences we know it today

1867

01:38:18,479 --> 01:38:15,519

and I've certainly I respect it I don't

1868

01:38:29,250 --> 01:38:18,489

know if I believe exactly that but who

1869

01:38:30,239 --> 01:38:29,260

knows interesting Wow what we're two

1870

01:38:32,939 --> 01:38:30,249

sides of a coin

1871

01:38:34,770 --> 01:38:32,949

we're scientific and we're spiritual and

1872

01:38:38,540 --> 01:38:34,780

then metaphysics would be on the

1873

01:38:41,549 --> 01:38:38,550

spiritual side science logic even

1874

01:38:47,660 --> 01:38:41,559

practicality on the other side and to be

1875

01:38:55,830 --> 01:38:49,620

very good anything else

1876

01:38:58,529 --> 01:38:55,840

Brock not at this time no thanks for

1877

01:39:03,060 --> 01:38:58,539

taking work you bet thank you thanks for

1878

01:39:08,580 --> 01:39:03,070

calling in we have now Julian is calling

1879

01:39:10,589 --> 01:39:08,590

from Quebec hey Julien yeah yes sir mr.

1880

01:39:17,459 --> 01:39:10,599

Martin can you hear me I can hear you

1881

01:39:21,330 --> 01:39:17,469

well yes so you are north of me okay

1882

01:39:27,629 --> 01:39:21,340

look listen sorry if my English is like

1883

01:39:29,489 --> 01:39:27,639

pretty bad I'm like no problem lately

1884

01:39:32,549 --> 01:39:29,499

I've been I've been like listening those

1885

01:39:34,199 --> 01:39:32,559

story about Linda Moulton Howe with your

1886

01:39:37,469 --> 01:39:34,209

toes Antarctica

1887

01:39:40,709 --> 01:39:37,479

like deep story and things those those

1888

01:39:42,719 --> 01:39:40,719

caves and everything that anyway when

1889

01:39:47,069 --> 01:39:42,729

you listen to her it's like a big big

1890

01:39:49,739 --> 01:39:47,079

major a big major picture but I think I

1891

01:39:53,160 --> 01:39:49,749

felt like those things might be coming

1892

01:39:56,040 --> 01:39:53,170

from an original story like BCG mounting

1893

01:39:59,250 --> 01:39:56,050

I don't know with you here if you if you

1894

01:40:05,430 --> 01:39:59,260

heard about the BCG mounting Martin oh I

1895

01:40:08,120 --> 01:40:05,440

was wondering if you heard about it no

1896

01:40:10,319 --> 01:40:08,130

I'm not I may just not understand the

1897

01:40:14,429 --> 01:40:10,329

what is the name of the mountain once

1898

01:40:17,040 --> 01:40:14,439

one more time it's called bougie

1899

01:40:18,940 --> 01:40:17,050

mountain no I'm not familiar with that

1900

01:40:25,980 --> 01:40:18,950

that doesn't ring a bell

1901  
01:40:39,480 --> 01:40:37,120  
yes intriguing I mean where I am right

1902  
01:40:42,460 --> 01:40:39,490  
now I'm thinking about all those things

1903  
01:40:47,340 --> 01:40:42,470  
seems to be related to some kind of

1904  
01:40:49,720 --> 01:40:47,350  
inner her civilization somewhere I can

1905  
01:40:52,930 --> 01:40:49,730  
there's something out there some kind of

1906  
01:40:56,200 --> 01:40:52,940  
intelligence but I'm trying to figure

1907  
01:40:57,390 --> 01:40:56,210  
where where it could be standing you

1908  
01:41:01,030 --> 01:40:57,400  
know if they have like those

1909  
01:41:07,600 --> 01:41:01,040  
supermassive those engine able to move

1910  
01:41:09,670 --> 01:41:07,610  
like speed anyway it's like if you have

1911  
01:41:10,870 --> 01:41:09,680  
a super super engine that can move

1912  
01:41:12,910 --> 01:41:10,880  
Lightspeed

1913  
01:41:14,770 --> 01:41:12,920

if you leave your home planet with

1914

01:41:18,070 --> 01:41:14,780

Lightspeed you can come back down on

1915

01:41:20,530 --> 01:41:18,080

planet your your time your time phase is

1916

01:41:24,250 --> 01:41:20,540

completely different you're like just if

1917

01:41:26,140 --> 01:41:24,260

your alien super advanced species off

1918

01:41:28,960 --> 01:41:26,150

your planet with the Lightspeed

1919

01:41:31,870 --> 01:41:28,970

experience you're like trying to deal

1920

01:41:34,330 --> 01:41:31,880

with different other planets you know

1921

01:41:35,950 --> 01:41:34,340

that's where that's where I am I'm just

1922

01:41:37,750 --> 01:41:35,960

like thinking about all this like I was

1923

01:41:41,740 --> 01:41:37,760

like some kind of super-advanced Jungian

1924

01:41:44,860 --> 01:41:41,750

alien race with this kind of Lightspeed

1925

01:41:48,310 --> 01:41:44,870

technology of my own planet what would

1926

01:41:50,470 --> 01:41:48,320

have what would I do exactly I'm gonna

1927

01:41:53,950 --> 01:41:50,480

leave you with that Martin than that

1928

01:41:56,590 --> 01:41:53,960

nice to see you Howard all right thanks

1929

01:41:57,960 --> 01:41:56,600

for the call thanks for the show all

1930

01:42:03,120 --> 01:41:57,970

right

1931

01:42:12,190 --> 01:42:07,990

I I love that people search and enjoy

1932

01:42:15,640 --> 01:42:12,200

thinking about it and it kind of works

1933

01:42:19,150 --> 01:42:15,650

in with with father I really want of my

1934

01:42:23,170 --> 01:42:19,160

my main mission in my book it isn't to

1935

01:42:26,320 --> 01:42:23,180

persuade everybody that it's us from 50

1936

01:42:29,410 --> 01:42:26,330

years in advance or a million years in

1937

01:42:32,320 --> 01:42:29,420

advance it's more that I think we've

1938

01:42:35,360 --> 01:42:32,330

kind of dug ourselves

1939

01:42:39,410 --> 01:42:35,370

we're in an abyss currently in a mini

1940

01:42:44,930 --> 01:42:39,420

Dark Age and I want our human spirit to

1941

01:42:47,180 --> 01:42:44,940

reawaken when when Buzz and Neil walked

1942

01:42:50,120 --> 01:42:47,190

on the moon the whole world stopped and

1943

01:42:54,410 --> 01:42:50,130

watched them and we're a species that

1944

01:42:57,080 --> 01:42:54,420

needs to reach out we do so much kind of

1945

01:43:01,640 --> 01:42:57,090

bickering and dickering here and social

1946

01:43:04,280 --> 01:43:01,650

media and computers we've gotten so much

1947

01:43:06,200 --> 01:43:04,290

kind of into ourselves we need

1948

01:43:09,680 --> 01:43:06,210

challenges I don't want to sound like

1949

01:43:12,410 --> 01:43:09,690

JFK but we need to do it because it's

1950

01:43:15,620 --> 01:43:12,420

hard not because it's easy and if we if

1951

01:43:18,530 --> 01:43:15,630

we imagine something it usually comes

1952

01:43:21,140 --> 01:43:18,540

about whether it's fire or airplane and

1953

01:43:24,980 --> 01:43:21,150

I think we'll get the key to time travel

1954

01:43:29,510 --> 01:43:24,990

but even if we don't we're going to go

1955

01:43:33,680 --> 01:43:29,520

on into the future until we don't and we

1956

01:43:38,780 --> 01:43:33,690

need to reawaken our connection to you

1957

01:43:41,000 --> 01:43:38,790

know ancestors inspire us maybe a great

1958

01:43:43,490 --> 01:43:41,010

great aunt survived the Irish Famine

1959

01:43:45,650 --> 01:43:43,500

came over to Ellis Island that's an

1960

01:43:48,830 --> 01:43:45,660

inspiration to a woman today to be

1961

01:43:51,740 --> 01:43:48,840

strong and there's a bridge also to our

1962

01:43:54,380 --> 01:43:51,750

descendants and we've totally ignored

1963

01:43:56,630 --> 01:43:54,390

that nobody even think I mean we love

1964

01:44:06,080 --> 01:43:56,640

our grandchildren but that's as far as

1965

01:44:08,600 --> 01:44:06,090

we go we kind of severed the future we a

1966

01:44:10,790 --> 01:44:08,610

lot of times we you know we we forget

1967

01:44:13,130 --> 01:44:10,800

just a couple of generations away we

1968

01:44:16,310 --> 01:44:13,140

have no idea what that was about

1969

01:44:19,670 --> 01:44:16,320

you know ahead of us that's right until

1970

01:44:21,260 --> 01:44:19,680

you know there's genealogy study now the

1971

01:44:24,260 --> 01:44:21,270

Internet is really a wonderful tool for

1972

01:44:26,810 --> 01:44:24,270

that but you know prior to that it was

1973

01:44:29,360 --> 01:44:26,820

you know was just looking up records and

1974

01:44:30,710 --> 01:44:29,370

you know no details of someone's life

1975

01:44:33,400 --> 01:44:30,720

you know that's all it's just kind of

1976

01:44:37,730 --> 01:44:33,410

gone in the abyss unless someone has a

1977

01:44:40,250 --> 01:44:37,740

documented it but anyway so where can

1978

01:44:42,940 --> 01:44:40,260

someone find your book it came out what

1979

01:44:45,840 --> 01:44:42,950

was it the first of February yes

1980

01:44:52,540 --> 01:44:45,850

it's on Amazon both Kindle and paperback

1981

01:44:58,660 --> 01:44:52,550

and it's only \$15 at 500 dollars or \$15

1982

01:45:04,620 --> 01:44:58,670

15 well you can rest it now we're at the

1983

01:45:10,600 --> 01:45:07,660

1984

1985

01:45:15,340 --> 01:45:13,370

1986

01:45:17,050 --> 01:45:15,350

1987

01:45:19,390 --> 01:45:17,060

and remember to keep your eyes to the
