**USS NIMITZ
'TIC-TAC' UFO**

1
00:00:29,019 --> 00:00:06,790

[Music]

2
00:00:34,490 --> 00:00:32,060

hello and welcome to the show I'm Martin

3
00:00:39,829 --> 00:00:34,500

Wilshire host and guess what this is

4
00:00:41,329 --> 00:00:39,839

show number 400 yes 400 shows I would

5
00:00:44,420 --> 00:00:41,339

have never believed it

6
00:00:47,450 --> 00:00:44,430

our guest tonight is PJ Hughes and we're

7
00:00:51,049 --> 00:00:47,460

going to be talking about the USS Nimitz

8
00:00:54,020 --> 00:00:51,059

encounter I actually had PJ picked a

9
00:00:56,540 --> 00:00:54,030

couple of random numbers for our 400 the

10
00:00:57,770 --> 00:00:56,550

show celebration and because I'm going

11
00:01:00,799 --> 00:00:57,780

to be let me put this up on the screen

12
00:01:03,590 --> 00:01:00,809

I'm going to be giving away a couple of

13
00:01:06,680 --> 00:01:03,600

things first of all this is for callers

14

00:01:10,310 --> 00:01:06,690

that is so I had to pick a couple of

15

00:01:13,040 --> 00:01:10,320

random numbers between 1 and 6 between 1

16

00:01:15,260 --> 00:01:13,050

and 8 that is for callers that call in

17

00:01:20,840 --> 00:01:15,270

to the show and then the first one will

18

00:01:25,010 --> 00:01:20,850

get this t-shirt and the next one is

19

00:01:27,559 --> 00:01:25,020

going to get a work that my sister Heidi

20

00:01:31,010 --> 00:01:27,569

powers she's probably even in the chat

21

00:01:33,589 --> 00:01:31,020

room I don't know she did this so that

22

00:01:36,589 --> 00:01:33,599

will be going out to another random

23

00:01:38,210 --> 00:01:36,599

caller the second random caller:thank I

24

00:01:40,699 --> 00:01:38,220

want to thank everyone for supporting

25

00:01:41,990 --> 00:01:40,709

this show I couldn't do it without you

26

00:01:43,790 --> 00:01:42,000

matter of fact I think this is the only

27

00:01:46,969 --> 00:01:43,800

thing I'm doing these days just this

28

00:01:50,479 --> 00:01:46,979

show so I really do appreciate your help

29

00:01:52,070 --> 00:01:50,489

and anyone can support the show we're

30

00:01:56,359 --> 00:01:52,080

over at patreon that links on the

31

00:01:58,309 --> 00:01:56,369

website podcast UFO calm and you want to

32

00:02:02,240 --> 00:01:58,319

check out our blogs over there anyway we

33

00:02:03,529 --> 00:02:02,250

have some great blogs by charles lear we

34

00:02:05,479 --> 00:02:03,539

have the t-shirts that i just showed up

35

00:02:08,960 --> 00:02:05,489

on youtube available and other

36

00:02:13,309 --> 00:02:08,970

merchandise available and this week this

37

00:02:15,710 --> 00:02:13,319

week's vlog is on a pro ufos and the

38

00:02:18,199 --> 00:02:15,720

aerial phenomena research organization a

39

00:02:22,970 --> 00:02:18,209

great blog on that alright about our

40

00:02:24,530 --> 00:02:22,980

guests PJ or Patrick Hughes PJ Hughes he

41

00:02:28,059 --> 00:02:24,540

served in the Navy as an aviation

42

00:02:31,430 --> 00:02:28,069

electronics technician primary on the

43

00:02:34,730 --> 00:02:31,440

e-2c Hawkeye and the seat

44

00:02:38,060 --> 00:02:34,740

a greyhound airframes he left the Navy

45

00:02:40,910 --> 00:02:38,070

in September of 2010 as a first class

46

00:02:42,980 --> 00:02:40,920

petty officer to work on the civilian

47

00:02:45,230 --> 00:02:42,990

side of military which generally happens

48

00:02:48,620 --> 00:02:45,240

it seems and he's employed as a

49

00:02:50,540 --> 00:02:48,630

technical representative for the e2 C

50

00:02:56,750 --> 00:02:50,550

and E to Hawkeye

51
00:02:59,330 --> 00:02:56,760
now as I was talking to PJ off-air a lot

52
00:03:00,890 --> 00:02:59,340
of people are new listeners and they

53
00:03:02,660 --> 00:03:00,900
have absolutely no idea when we're

54
00:03:04,280 --> 00:03:02,670
talking about the USS Nimitz I know at

55
00:03:05,840 --> 00:03:04,290
least a couple of people that are

56
00:03:10,640 --> 00:03:05,850
listening tonight that have no idea what

57
00:03:13,180 --> 00:03:10,650
it is so just briefly the incident was a

58
00:03:16,550 --> 00:03:13,190
radar and visual encounter of

59
00:03:18,620 --> 00:03:16,560
unidentified flying object or objects

60
00:03:22,490 --> 00:03:18,630
while the radar was definitely of lots

61
00:03:28,150 --> 00:03:22,500
of objects u.s. fighter pilot of the

62
00:03:32,030 --> 00:03:28,160
Nimitz Carrier Strike Group in 2004 two

63
00:03:33,740 --> 00:03:32,040

f-18 Super Hornet pilots led by the

64

00:03:36,979 --> 00:03:33,750

commander of a strike force fighter

65

00:03:38,900 --> 00:03:36,989

squadron 41 communicated that they saw a

66

00:03:40,970 --> 00:03:38,910

flying object and this is where the tic

67

00:03:44,330 --> 00:03:40,980

tac comes from because it was a about

68

00:03:49,390 --> 00:03:44,340

the size of the aircraft around 40 feet

69

00:03:52,220 --> 00:03:49,400

or so and it did seem like it had two

70

00:03:56,360 --> 00:03:52,230

antennas on that I'm not really sure

71

00:03:58,490 --> 00:03:56,370

there's differing remarks on that as

72

00:04:03,170 --> 00:03:58,500

well but the movements this thing did

73

00:04:05,690 --> 00:04:03,180

was beyond our known physics without

74

00:04:08,030 --> 00:04:05,700

something like that any type of object

75

00:04:10,550 --> 00:04:08,040

we would have liked that would basically

76

00:04:13,340 --> 00:04:10,560

just fall apart if there was anything

77

00:04:15,470 --> 00:04:13,350

inside it would be jello or beyond jello

78

00:04:18,710 --> 00:04:15,480

into some other thing we can't even

79

00:04:20,960 --> 00:04:18,720

imagine but anyway I'm not really sure

80

00:04:23,360 --> 00:04:20,970

what those objects were and that's what

81

00:04:27,409 --> 00:04:23,370

we're going to talk about tonight PJ

82

00:04:31,630 --> 00:04:27,419

actually had I think a pseudonym

83

00:04:34,220 --> 00:04:31,640

pseudonym friend named Roger that was a

84

00:04:37,310 --> 00:04:34,230

witness that he himself can't come

85

00:04:41,360 --> 00:04:37,320

forward but there is some involvement PJ

86

00:04:42,710 --> 00:04:41,370

had in regards to bricks that were taken

87

00:04:44,370 --> 00:04:42,720

away we're going to be talking about all

88

00:04:46,350 --> 00:04:44,380

that and much more

89

00:04:49,080 --> 00:04:46,360

the last part of the show will be taking

90

00:04:54,000 --> 00:04:49,090

calls so of course that's your chance to

91

00:04:56,970 --> 00:04:54,010

get a free t-shirt and artwork so I'm

92

00:04:59,430 --> 00:04:56,980

going to start and say hello to you PJ

93

00:05:00,330 --> 00:04:59,440

how are you welcome to the show I'm good

94

00:05:02,700 --> 00:05:00,340

how about yourself

95

00:05:05,400 --> 00:05:02,710

great I think it was up just about a

96

00:05:11,310 --> 00:05:05,410

year ago you were on with some other I

97

00:05:12,120 --> 00:05:11,320

think Dave Beatty and Jason Turner Jason

98

00:05:13,980 --> 00:05:12,130

Turner that's right

99

00:05:17,040 --> 00:05:13,990

yeah so you were on then so is about a

100

00:05:19,230 --> 00:05:17,050

year and since that time you have

101
00:05:21,630 --> 00:05:19,240
thought a lot about this whole situation

102
00:05:23,760 --> 00:05:21,640
and one thing I do recall from our last

103
00:05:28,200 --> 00:05:23,770
conversation is you like things fact

104
00:05:31,520 --> 00:05:28,210
base fact-based and and you know that

105
00:05:37,260 --> 00:05:31,530
this incident is definitely fact-based

106
00:05:39,320 --> 00:05:37,270
for what a lot of facts a lot of strange

107
00:05:41,880 --> 00:05:39,330
facts so why don't you if you would

108
00:05:43,710 --> 00:05:41,890
first if you would tell your part of the

109
00:05:46,050 --> 00:05:43,720
story without Roger I mean they're still

110
00:05:48,360 --> 00:05:46,060
it's pretty amazing what happened with

111
00:05:51,390 --> 00:05:48,370
these he's a data brick so they're like

112
00:05:53,970 --> 00:05:51,400
hard drives right yeah they're they're

113
00:05:57,420 --> 00:05:53,980

about this big they're actually computer

114

00:05:59,370 --> 00:05:57,430

hard drives inside a fancy case and

115

00:06:01,950 --> 00:05:59,380

basically they run the back end of the

116

00:06:06,390 --> 00:06:01,960

airplane they run everything they run

117

00:06:09,300 --> 00:06:06,400

all the systems all the avionics so it's

118

00:06:12,960 --> 00:06:09,310

pretty critical to the operation of the

119

00:06:14,160 --> 00:06:12,970

aircraft and we they're classified

120

00:06:16,350 --> 00:06:14,170

obviously so we don't leave them in the

121

00:06:19,170 --> 00:06:16,360

airplanes we take them in and out per

122

00:06:23,400 --> 00:06:19,180

flight they get mixed up so we're able

123

00:06:25,440 --> 00:06:23,410

to track them and a particular day where

124

00:06:29,850 --> 00:06:25,450

the intercepts happened with commander

125

00:06:32,160 --> 00:06:29,860

favor and the involvement with the

126
00:06:34,910 --> 00:06:32,170
Hawkeye and everything that flight was

127
00:06:39,720 --> 00:06:34,920
being recorded for maintenance purposes

128
00:06:41,880 --> 00:06:39,730
when I say recorded it's not a it's not

129
00:06:45,330 --> 00:06:41,890
a video recording like the FLIR video

130
00:06:47,420 --> 00:06:45,340
that you saw it's recording the tracks

131
00:06:51,090 --> 00:06:47,430
on the screen the hard data behind it

132
00:06:53,790 --> 00:06:51,100
all the radar data or the ESM data data

133
00:06:57,120 --> 00:06:53,800
link data and it's all consolidated and

134
00:06:58,110 --> 00:06:57,130
recorded on those bricks and when the

135
00:06:59,550 --> 00:06:58,120
plane came back

136
00:07:02,610 --> 00:06:59,560
those bricks out of the airplane we put

137
00:07:05,400 --> 00:07:02,620
them in our safe like we normally do 15

138
00:07:07,890 --> 00:07:05,410

20 minutes give or take no that time

139

00:07:11,420 --> 00:07:07,900

line berries cuz a long time ago now but

140

00:07:12,990 --> 00:07:11,430

shortly after that plane returned my

141

00:07:14,340 --> 00:07:13,000

executive officer

142

00:07:16,439 --> 00:07:14,350

I've actually stated it was my

143

00:07:18,629 --> 00:07:16,449

commanding officer numerous times but it

144

00:07:21,900 --> 00:07:18,639

actually was my executive officer same

145

00:07:23,430 --> 00:07:21,910

guy different position because right

146

00:07:25,560 --> 00:07:23,440

after the event he ended up taking over

147

00:07:28,890 --> 00:07:25,570

as a commanding officer so that's where

148

00:07:30,990 --> 00:07:28,900

my confusion closed yes but he shows up

149

00:07:34,430 --> 00:07:31,000

at my door with two guys in Air Force

150

00:07:36,600 --> 00:07:34,440

flight suits which is not normal because

151

00:07:38,580 --> 00:07:36,610

you don't really see them on the ship

152

00:07:40,350 --> 00:07:38,590

and when they're there you generally

153

00:07:42,150 --> 00:07:40,360

know about him

154

00:07:43,920 --> 00:07:42,160

so I have no idea how they got to the

155

00:07:45,240 --> 00:07:43,930

ship the only logical way they got to

156

00:07:47,400 --> 00:07:45,250

the ship was by helicopter because

157

00:07:49,200 --> 00:07:47,410

that's the only way I personally would

158

00:07:51,000 --> 00:07:49,210

not have seen them because the only

159

00:07:53,340 --> 00:07:51,010

other way out is by Cod and I would have

160

00:07:57,150 --> 00:07:53,350

seen him on that that's the other

161

00:07:59,040 --> 00:07:57,160

airplane I work on and he asked me

162

00:08:01,610 --> 00:07:59,050

somebody my executive officer asked me

163

00:08:05,040 --> 00:08:01,620

for the bricks that were on that flight

164

00:08:06,540 --> 00:08:05,050

which is somewhat abnormal because

165

00:08:08,490 --> 00:08:06,550

normally if you wants to talk to us we

166

00:08:12,060 --> 00:08:08,500

go across the ship to him he doesn't

167

00:08:15,240 --> 00:08:12,070

come to us mm-hmm so we take him out of

168

00:08:17,370 --> 00:08:15,250

the safe you know we have logbooks that

169

00:08:19,980 --> 00:08:17,380

we track of where they are what planes

170

00:08:22,379 --> 00:08:19,990

they were going and I start to flog the

171

00:08:24,540 --> 00:08:22,389

bricks out to him which we have done on

172

00:08:26,580 --> 00:08:24,550

other occasions to to various officers

173

00:08:30,839 --> 00:08:26,590

for various reasons and he tells me to

174

00:08:32,310 --> 00:08:30,849

to stop what don't rely to math so yes I

175

00:08:36,709 --> 00:08:32,320

remember you saying that I wanted to ask

176
00:08:39,420 --> 00:08:36,719
you last time why why would that mean

177
00:08:42,659 --> 00:08:39,430
maybe it's an obvious reason but why

178
00:08:44,130 --> 00:08:42,669
would that be that is there any normal

179
00:08:46,220 --> 00:08:44,140
circumstance that something is not

180
00:08:48,900 --> 00:08:46,230
logged in something as important is that

181
00:08:51,180 --> 00:08:48,910
there are two ways a person can look at

182
00:08:55,350 --> 00:08:51,190
this for some odd reason that did not

183
00:08:58,500 --> 00:08:55,360
want to track that stuff which is you

184
00:09:01,740 --> 00:08:58,510
know equally likely as what I hope

185
00:09:03,210 --> 00:09:01,750
actually happened you know the all the

186
00:09:05,640 --> 00:09:03,220
classified material of squadron

187
00:09:07,920 --> 00:09:05,650
ultimately belongs to the commanding

188
00:09:11,040 --> 00:09:07,930

officer it's all in his custody it's all

189

00:09:12,000 --> 00:09:11,050

his responsibility even though it's my

190

00:09:13,200 --> 00:09:12,010

responsibility and

191

00:09:15,240 --> 00:09:13,210

technician and somebody with the

192

00:09:19,410 --> 00:09:15,250

clearance no definitely all falls on him

193

00:09:22,830 --> 00:09:19,420

so I have to assume that above my head

194

00:09:24,630 --> 00:09:22,840

paper work was done that somewhere above

195

00:09:27,120 --> 00:09:24,640

my head they did the tracking paper

196

00:09:28,590 --> 00:09:27,130

working and they did the you know the

197

00:09:36,720 --> 00:09:28,600

custody sheets and all the other stuff

198

00:09:38,370 --> 00:09:36,730

that they have to do so oh yeah but well

199

00:09:42,900 --> 00:09:38,380

anyway go ahead and continue sorry for

200

00:09:48,390 --> 00:09:42,910

the interruption there I said they they

201
00:09:49,740 --> 00:09:48,400
took my stuff and left and that was for

202
00:09:55,830 --> 00:09:49,750
the longest time the last I had ever

203
00:09:59,460 --> 00:09:55,840
heard of it but there's some news on

204
00:10:04,800 --> 00:09:59,470
where those bricks went afterwards that

205
00:10:09,300 --> 00:10:04,810
I have given the answer to since all

206
00:10:11,100 --> 00:10:09,310
this happened all the data and I've

207
00:10:13,440 --> 00:10:11,110
separated is what data I think they were

208
00:10:16,400 --> 00:10:13,450
looking for specifically I think they

209
00:10:18,780 --> 00:10:16,410
were looking for the ESM data which is

210
00:10:20,370 --> 00:10:18,790
essentially a passive dissection system

211
00:10:23,070 --> 00:10:20,380
it listens for frequencies among other

212
00:10:25,980 --> 00:10:23,080
things and I'm pretty sure that's the

213
00:10:29,430 --> 00:10:25,990

data they wanted because that's the data

214

00:10:32,070 --> 00:10:29,440

that's unique to my airplane the the

215

00:10:33,600 --> 00:10:32,080

Princeton wouldn't have it the you know

216

00:10:35,910 --> 00:10:33,610

Nimitz wouldn't have it none of the

217

00:10:39,330 --> 00:10:35,920

fighters would have it so that's the own

218

00:10:40,980 --> 00:10:39,340

data that was unique and it can tell a

219

00:10:42,780 --> 00:10:40,990

lot about what those objects were if

220

00:10:46,650 --> 00:10:42,790

they were transmitting or emitting

221

00:10:49,890 --> 00:10:46,660

frequencies or any of that but all that

222

00:10:52,230 --> 00:10:49,900

data was taken compiled by somebody I

223

00:10:55,740 --> 00:10:52,240

don't know who that somebody is and they

224

00:10:58,230 --> 00:10:55,750

were used to brief high-level people at

225

00:11:00,620 --> 00:10:58,240

the Pentagon a couple months ago a

226

00:11:04,260 --> 00:11:00,630

Freedom of Information request act

227

00:11:06,090 --> 00:11:04,270

response came out and the memo actually

228

00:11:09,270 --> 00:11:06,100

mentioned briefing slides that were

229

00:11:13,050 --> 00:11:09,280

classified and I'm sure they're one of

230

00:11:15,150 --> 00:11:13,060

the same how about that and yeah you how

231

00:11:18,840 --> 00:11:15,160

I know this yet I can't reveal who told

232

00:11:21,800 --> 00:11:18,850

me yeah but I highly trust and I highly

233

00:11:24,660 --> 00:11:21,810

believe the person who told me yeah so

234

00:11:25,660 --> 00:11:24,670

people know now let's talk a little bit

235

00:11:30,280 --> 00:11:25,670

about what the Hawkeye

236

00:11:33,160 --> 00:11:30,290

is that is basically above an operation

237

00:11:35,350 --> 00:11:33,170

and kind of like looking out if the eyes

238

00:11:37,630 --> 00:11:35,360

it's the eyes of the operation or I

239

00:11:39,310 --> 00:11:37,640

heard someone say the quarterback so to

240

00:11:41,260 --> 00:11:39,320

speak of that that is my favorite

241

00:11:42,880 --> 00:11:41,270

analogy it's a quarter back of the air

242

00:11:45,250 --> 00:11:42,890

wing because they don't do anything

243

00:11:49,300 --> 00:11:45,260

without a hot guy you know we direct the

244

00:11:52,750 --> 00:11:49,310

mission we direct the fighters if you

245

00:11:55,360 --> 00:11:52,760

recall Dave babies awesome documentary

246

00:11:58,150 --> 00:11:55,370

you know I have to hit him up every time

247

00:12:00,760 --> 00:11:58,160

I can because I wouldn't be here for him

248

00:12:03,280 --> 00:12:00,770

he actually mentions in that video and

249

00:12:06,330 --> 00:12:03,290

Kevin day has mentioned it also that the

250

00:12:08,650 --> 00:12:06,340

Princeton requested control of flavors

251
00:12:10,810 --> 00:12:08,660
aircraft and his wingman from the

252
00:12:12,820 --> 00:12:10,820
Hawkeye because the Hawkeye was up there

253
00:12:13,990 --> 00:12:12,830
to control the air defense exercises

254
00:12:18,610 --> 00:12:14,000
that they were supposed to participate

255
00:12:21,340 --> 00:12:18,620
in you know they they do everything yeah

256
00:12:24,910 --> 00:12:21,350
I am for the people on YouTube I'm gonna

257
00:12:28,870 --> 00:12:24,920
play a clip for a while on it's actually

258
00:12:30,280 --> 00:12:28,880
Gabe eighties clip and I did try to get

259
00:12:32,770 --> 00:12:30,290
permission from him I didn't hear back

260
00:12:35,860 --> 00:12:32,780
so I'm gonna ask for forgiveness if it's

261
00:12:38,250 --> 00:12:35,870
not good but anyway so that Clips

262
00:12:41,470 --> 00:12:38,260
playing for a while up in YouTube and

263
00:12:45,250 --> 00:12:41,480

that is a great really great video that

264

00:12:48,340 --> 00:12:45,260

Dave Beatty did so his research yeah

265

00:12:50,620 --> 00:12:48,350

yeah he did a really nice job on that so

266

00:12:52,570 --> 00:12:50,630

just let me ask you about again about

267

00:12:56,470 --> 00:12:52,580

the Hawkeye couldn't that it just seems

268

00:12:58,780 --> 00:12:56,480

like that that plane or whatever you

269

00:13:01,630 --> 00:12:58,790

want to call it could be just a sitting

270

00:13:05,530 --> 00:13:01,640

duck during a real wartime

271

00:13:07,570 --> 00:13:05,540

you know situation is it the the Hawkeye

272

00:13:10,570 --> 00:13:07,580

in sitting duck it has no defensive

273

00:13:12,850 --> 00:13:10,580

weapons if somebody managed to get close

274

00:13:14,350 --> 00:13:12,860

enough to shoot at it it can't even fly

275

00:13:18,520 --> 00:13:14,360

out of its own way it's not a fast air

276

00:13:21,340 --> 00:13:18,530

claim um normally its operating in an

277

00:13:24,370 --> 00:13:21,350

area where f-18s can get to it rather

278

00:13:26,020 --> 00:13:24,380

quickly I see oh it's never up in the

279

00:13:28,090 --> 00:13:26,030

air by itself yeah

280

00:13:29,710 --> 00:13:28,100

and how what is the altitude that

281

00:13:30,850 --> 00:13:29,720

generally flies that is that classified

282

00:13:32,980 --> 00:13:30,860

um

283

00:13:35,980 --> 00:13:32,990

thirty thousand feet or so depending on

284

00:13:38,740 --> 00:13:35,990

yeah so what's the way up there yeah

285

00:13:38,980 --> 00:13:38,750

yeah know that the higher it gets the

286

00:13:43,030 --> 00:13:38,990

fur

287

00:13:47,199 --> 00:13:43,040

you see I see well and very interesting

288

00:13:49,540 --> 00:13:47,209

and so you you when this thing landed it

289

00:13:51,699 --> 00:13:49,550

was your it was basically your job once

290

00:13:54,040 --> 00:13:51,709

they so to speak parked the plane or

291

00:13:56,290 --> 00:13:54,050

whatever they do wherever wherever it's

292

00:13:58,060 --> 00:13:56,300

supposed to be that's when you basically

293

00:14:00,100 --> 00:13:58,070

jump on board and grab these bricks is

294

00:14:02,079 --> 00:14:00,110

that am I saying how that goes

295

00:14:03,490 --> 00:14:02,089

that's pretty accurate I mean we're up

296

00:14:05,500 --> 00:14:03,500

there before the plane even lands

297

00:14:08,290 --> 00:14:05,510

because we have to chain it down and do

298

00:14:10,540 --> 00:14:08,300

all kinds other stuff to it and part of

299

00:14:12,490 --> 00:14:10,550

our post flight procedure is pulling

300

00:14:14,470 --> 00:14:12,500

those bricks among making sure

301
00:14:17,019 --> 00:14:14,480
everything got turned off we didn't lose

302
00:14:18,820 --> 00:14:17,029
anything nothing got broke in you know

303
00:14:20,680 --> 00:14:18,830
so it's we're up there for a good you

304
00:14:24,100 --> 00:14:20,690
know 10 15 minutes before we take our

305
00:14:27,100 --> 00:14:24,110
stuff down I see now on those bricks in

306
00:14:30,040 --> 00:14:27,110
particular can you do those get

307
00:14:31,990 --> 00:14:30,050
reformatted just for a lack of you know

308
00:14:35,740 --> 00:14:32,000
I don't know what you would call it

309
00:14:40,420 --> 00:14:35,750
there is there machines that we use to

310
00:14:42,519 --> 00:14:40,430
maintain those because we had six per

311
00:14:45,069 --> 00:14:42,529
airplane probably 30 something of those

312
00:14:47,170 --> 00:14:45,079
stupid little hard drives yeah because

313
00:14:49,269 --> 00:14:47,180

there was a high failure rate so we were

314

00:14:52,090 --> 00:14:49,279

changing them off and and there's a lot

315

00:14:54,579 --> 00:14:52,100

of data for other stuff that we had to

316

00:14:57,370 --> 00:14:54,589

change out on those all the time and the

317

00:14:58,810 --> 00:14:57,380

easiest way to do it was to just make a

318

00:15:00,880 --> 00:14:58,820

copy of everything over and over and

319

00:15:01,840 --> 00:15:00,890

over again instead of trying to load

320

00:15:04,480 --> 00:15:01,850

them all individually

321

00:15:10,300 --> 00:15:04,490

so they got rewritten quite often I see

322

00:15:13,269 --> 00:15:10,310

yeah all right so did you when those

323

00:15:17,260 --> 00:15:13,279

things were your commanding officer or

324

00:15:19,530 --> 00:15:17,270

whoever you said he was I know when he

325

00:15:23,170 --> 00:15:19,540

came to you with those two other of

326

00:15:26,380 --> 00:15:23,180

those two other officers probably Air

327

00:15:27,850 --> 00:15:26,390

Force maybe they were there's a distinct

328

00:15:31,030 --> 00:15:27,860

difference between an Air Force flight

329

00:15:32,290 --> 00:15:31,040

suit and a navy flight suit yeah you

330

00:15:34,030 --> 00:15:32,300

know you can tell the difference the

331

00:15:35,590 --> 00:15:34,040

insignia is different the patches are

332

00:15:37,840 --> 00:15:35,600

different the placement is different and

333

00:15:40,210 --> 00:15:37,850

we're talking boot camp to recognize

334

00:15:43,329 --> 00:15:40,220

that so I know for a fact they were Air

335

00:15:47,050 --> 00:15:43,339

Force guys okay or guys wearing airports

336

00:15:49,630 --> 00:15:47,060

light suits I see so your commanding

337

00:15:51,640 --> 00:15:49,640

officer or that person made no excuses

338

00:15:52,780 --> 00:15:51,650

he said you know we just got to have

339

00:15:54,370 --> 00:15:52,790

these and that's

340

00:15:56,110 --> 00:15:54,380

right I mean never really got into it

341

00:15:59,530 --> 00:15:56,120

did he tell you not to say anything

342

00:16:04,150 --> 00:15:59,540

about it um no we were never directly

343

00:16:06,520 --> 00:16:04,160

told to not say anything as far as they

344

00:16:09,340 --> 00:16:06,530

were concerned we didn't know anything

345

00:16:12,310 --> 00:16:09,350

to say yeah you know he just took our

346

00:16:16,090 --> 00:16:12,320

stuff that was it you know now there

347

00:16:18,880 --> 00:16:16,100

what about I heard someone say that on

348

00:16:21,280 --> 00:16:18,890

the next day on the little newspaper

349

00:16:23,560 --> 00:16:21,290

that goes around that they were teasing

350

00:16:28,630 --> 00:16:23,570

David flavour by having you know an

351
00:16:30,280 --> 00:16:28,640
alien or something along those lines so

352
00:16:31,330 --> 00:16:30,290
did you hear about the what I'm getting

353
00:16:35,650 --> 00:16:31,340
at is did you hear about the incident

354
00:16:38,380 --> 00:16:35,660
right away um I heard a beginning

355
00:16:40,770 --> 00:16:38,390
portion of it from the individual we

356
00:16:42,880 --> 00:16:40,780
call Roger when he came back to our shop

357
00:16:43,480 --> 00:16:42,890
before we were told to stop talking

358
00:16:46,510 --> 00:16:43,490
about it

359
00:16:48,870 --> 00:16:46,520
not officially just we were told to shut

360
00:16:56,170 --> 00:16:53,020
so yeah and that was that the same the

361
00:17:03,430 --> 00:16:56,180
same day or or shortly after shortly I

362
00:17:05,620 --> 00:17:03,440
could yeah the the air plan which is all

363
00:17:07,090 --> 00:17:05,630

the flight schedules for the entire air

364

00:17:08,500 --> 00:17:07,100

wing and everything they have that

365

00:17:12,310 --> 00:17:08,510

cartoon on everyone

366

00:17:13,900 --> 00:17:12,320

and it's a very cartoon horrible artwork

367

00:17:16,180 --> 00:17:13,910

a lot of the times whatever random

368

00:17:18,870 --> 00:17:16,190

person happened to have the closest art

369

00:17:21,579 --> 00:17:18,880

skills for the day and they make fun of

370

00:17:22,870 --> 00:17:21,589

everyone in the air wing if there's

371

00:17:25,180 --> 00:17:22,880

somebody in the air wing did something

372

00:17:27,939 --> 00:17:25,190

dumb yeah they got that's just what that

373

00:17:32,460 --> 00:17:27,949

was for you know when and the favor came

374

00:17:34,750 --> 00:17:32,470

back and made no secret of what he saw

375

00:17:37,840 --> 00:17:34,760

they let him have it

376

00:17:40,810 --> 00:17:37,850

they were playing men in black and other

377

00:17:43,360 --> 00:17:40,820

area movies on the ships television you

378

00:17:47,980 --> 00:17:43,370

know though the officers made a big joke

379

00:17:49,990 --> 00:17:47,990

about it yeah now here here's a question

380

00:17:55,600 --> 00:17:50,000

I just showed on video

381

00:17:58,390 --> 00:17:55,610

the Hawkeye taking off here's the

382

00:17:59,860 --> 00:17:58,400

question I have for you why this Roger

383

00:18:04,450 --> 00:17:59,870

we're going to be talking about Roger

384

00:18:06,050 --> 00:18:04,460

but why was Roger told not to talk about

385

00:18:08,990 --> 00:18:06,060

it yet

386

00:18:13,010 --> 00:18:09,000

David flavor can speak about it

387

00:18:15,110 --> 00:18:13,020

I like the commander I do not know the

388

00:18:16,970 --> 00:18:15,120

official reason for any of that I can

389

00:18:19,670 --> 00:18:16,980

tell you what I've been told and what I

390

00:18:21,890 --> 00:18:19,680

know the five guys on the Hawkeye when

391

00:18:23,990 --> 00:18:21,900

they got back went into a skiff which is

392

00:18:25,160 --> 00:18:24,000

a centralized information facility it's

393

00:18:27,380 --> 00:18:25,170

basically a room where you can't hear

394

00:18:28,760 --> 00:18:27,390

anybody on the inside you know it's

395

00:18:31,550 --> 00:18:28,770

soundproof you know they can talk about

396

00:18:33,680 --> 00:18:31,560

classified stuff openly they went in

397

00:18:34,910 --> 00:18:33,690

there to take a debrief with somebody I

398

00:18:38,510 --> 00:18:34,920

don't know who that somebody is

399

00:18:40,490 --> 00:18:38,520

and that debrief during that debrief

400

00:18:44,390 --> 00:18:40,500

they signed non-disclosure agreements

401
00:18:45,740 --> 00:18:44,400
and we're told obviously because of

402
00:18:50,390 --> 00:18:45,750
those non-disclosure agreements not to

403
00:18:54,140 --> 00:18:50,400
say anything and I believe it has a lot

404
00:18:56,540 --> 00:18:54,150
to do with what they would have seen on

405
00:18:59,120 --> 00:18:56,550
the displays on the scopes

406
00:19:01,370 --> 00:18:59,130
what our systems told them was there and

407
00:19:04,160 --> 00:19:01,380
the fact that they were almost

408
00:19:07,190 --> 00:19:04,170
point-blank range with that object it's

409
00:19:10,960 --> 00:19:07,200
not a highly publicized fact because

410
00:19:13,190 --> 00:19:10,970
there's no video or photos but the

411
00:19:16,910 --> 00:19:13,200
object the tic-tock object actually

412
00:19:19,370 --> 00:19:16,920
formed up with the Hawkeye and was now

413
00:19:21,530 --> 00:19:19,380

with almost wingtip to wingtip if it had

414

00:19:22,760 --> 00:19:21,540

a wings now it was close enough for them

415

00:19:27,230 --> 00:19:22,770

to get a damn good look at it

416

00:19:30,380 --> 00:19:27,240

well now has Roger ever mentioned that

417

00:19:32,810 --> 00:19:30,390

there was any fear involved with the you

418

00:19:33,290 --> 00:19:32,820

know possibly attacking or something

419

00:19:36,290 --> 00:19:33,300

like that

420

00:19:38,630 --> 00:19:36,300

not necessarily UFO but unless to know

421

00:19:41,540 --> 00:19:38,640

if it was fear of being attacked but

422

00:19:43,370 --> 00:19:41,550

Roger loves to fly it didn't matter what

423

00:19:47,030 --> 00:19:43,380

he was flying for he had a smile on his

424

00:19:49,610 --> 00:19:47,040

face he came back he did not have that

425

00:19:52,030 --> 00:19:49,620

smile on the face well he was

426

00:19:54,710 --> 00:19:52,040

uncomfortable he was nervous he did not

427

00:19:56,960 --> 00:19:54,720

you know he couldn't elaborate on

428

00:19:59,240 --> 00:19:56,970

everything obviously that happened but

429

00:20:01,520 --> 00:19:59,250

you know he was definitely visibly

430

00:20:03,380 --> 00:20:01,530

uncomfortable when he does this and it's

431

00:20:07,100 --> 00:20:03,390

for that reason that object wanted to do

432

00:20:10,100 --> 00:20:07,110

something they had nothing to stop it

433

00:20:14,570 --> 00:20:10,110

yeah yeah that's right

434

00:20:16,430 --> 00:20:14,580

I had dr. Kevin Knuth on a while back

435

00:20:18,650 --> 00:20:16,440

and he was talking about the physics of

436

00:20:19,860 --> 00:20:18,660

these things which is absolutely

437

00:20:23,040 --> 00:20:19,870

incredible

438

00:20:25,799 --> 00:20:23,050

and I know that you and I connected

439

00:20:28,680 --> 00:20:25,809

because I got ahold of you when I saw

440

00:20:32,720 --> 00:20:28,690

something you you wrote I believe on

441

00:20:36,540 --> 00:20:32,730

Facebook that you are thinking that

442

00:20:43,650 --> 00:20:36,550

these are possibly something explainable

443

00:20:46,020 --> 00:20:43,660

or possibly our tech I've I've almost

444

00:20:49,049 --> 00:20:46,030

inside gone public with if I've been

445

00:20:50,940 --> 00:20:49,059

pretty close to 50/50 on it being

446

00:20:54,870 --> 00:20:50,950

something off our world very being our

447

00:20:57,600 --> 00:20:54,880

tech I know about stuff that the average

448

00:20:59,970 --> 00:20:57,610

person doesn't know techniques our

449

00:21:03,030 --> 00:20:59,980

equipment and tactics and capabilities

450

00:21:05,669 --> 00:21:03,040

that we have that most people don't know

451
00:21:07,620 --> 00:21:05,679
about and if there's stuff I know about

452
00:21:08,100 --> 00:21:07,630
that the average person doesn't know

453
00:21:10,710 --> 00:21:08,110
about

454
00:21:12,180 --> 00:21:10,720
I fully believe there's a ton of stuff I

455
00:21:16,710 --> 00:21:12,190
don't know about I know for a fact

456
00:21:18,390 --> 00:21:16,720
there's stuff I don't know about so it's

457
00:21:21,180 --> 00:21:18,400
not out of the realm of possibilities

458
00:21:25,169 --> 00:21:21,190
for at least in my eyes for it to be our

459
00:21:26,520 --> 00:21:25,179
technology but it's in that spot where

460
00:21:28,980 --> 00:21:26,530
like I said I'm I'm a little bit more

461
00:21:30,630 --> 00:21:28,990
than 60 40 50 50 somewhere in there

462
00:21:33,990 --> 00:21:30,640
depending on who I'm talking to on the

463
00:21:37,830 --> 00:21:34,000

day there's no definitive evidence

464

00:21:39,270 --> 00:21:37,840

either way that's right and unless

465

00:21:41,910 --> 00:21:39,280

someone has and we don't know about it

466

00:21:43,650 --> 00:21:41,920

correct you know get me wrong if it is

467

00:21:45,900 --> 00:21:43,660

ours we got a lot of stuff to relearn

468

00:21:49,590 --> 00:21:45,910

when it comes to physics and compulsion

469

00:21:52,680 --> 00:21:49,600

and other stuff but if out of the realm

470

00:21:55,650 --> 00:21:52,690

of abilities my day yeah yeah all right

471

00:21:58,620 --> 00:21:55,660

well we are ready to go into our break

472

00:22:01,890 --> 00:21:58,630

right now so hang in everyone we'll be

473

00:22:04,110 --> 00:22:01,900

right back right after these messages

474

00:22:07,169 --> 00:22:04,120

and on YouTube just hang in there we'll

475

00:22:09,660 --> 00:22:07,179

be back all right welcome back to the

476

00:22:12,169 --> 00:22:09,670

show of my guest tonight is PJ Hughes

477

00:22:16,340 --> 00:22:12,179

we're talking about the USS Nimitz

478

00:22:21,450 --> 00:22:16,350

tick-tack UFO incident happened back in

479

00:22:28,110 --> 00:22:21,460

2004 nearly 16 years ago

480

00:22:31,820 --> 00:22:28,120

so PJ back at this we were talking about

481

00:22:34,290 --> 00:22:31,830

the you know what the technology

482

00:22:37,830 --> 00:22:34,300

possibilities are

483

00:22:42,570 --> 00:22:37,840

and as I mentioned a little bit earlier

484

00:22:45,720 --> 00:22:42,580

you know having Kevin Knuth on of this

485

00:22:50,910 --> 00:22:45,730

show a while back he demonstrated some

486

00:22:54,930 --> 00:22:50,920

of the the g-forces that these things

487

00:22:59,070 --> 00:22:54,940

would have to create I mean would have

488

00:23:01,620 --> 00:22:59,080

to you know endure I want to say and you

489

00:23:05,910 --> 00:23:01,630

know I forget exactly what it was 20,000

490

00:23:09,270 --> 00:23:05,920

feet to write down above the ocean yep

491

00:23:14,190 --> 00:23:09,280

in less than a second you ever take it

492

00:23:17,160 --> 00:23:14,200

up yeah it's like 1500 g-forces you know

493

00:23:19,380 --> 00:23:17,170

which is would make would almost Bend a

494

00:23:21,030 --> 00:23:19,390

quarter I would think you know and that

495

00:23:23,190 --> 00:23:21,040

and I know these things are tubular

496

00:23:25,680 --> 00:23:23,200

they're rounded on each side they're

497

00:23:28,380 --> 00:23:25,690

very they're designed for pressure

498

00:23:32,370 --> 00:23:28,390

basically if you think about the way

499

00:23:33,630 --> 00:23:32,380

they're designed but still what how do

500

00:23:35,400 --> 00:23:33,640

you think that we could have a

501
00:23:37,080 --> 00:23:35,410
technology and I'm not I'm not here to

502
00:23:39,240 --> 00:23:37,090
argue with it just know that I'm not

503
00:23:42,690 --> 00:23:39,250
here to argue with you I just want to

504
00:23:45,420 --> 00:23:42,700
know do you actually you said you know a

505
00:23:47,700 --> 00:23:45,430
lot more than the average person perhaps

506
00:23:53,160 --> 00:23:47,710
but what when the technology could

507
00:23:55,140 --> 00:23:53,170
handle g-forces like that there's when

508
00:23:57,720 --> 00:23:55,150
when I got out I went to work for

509
00:23:59,070 --> 00:23:57,730
Northrop Grumman and through that and

510
00:24:04,320 --> 00:23:59,080
some stuff I was still doing with the

511
00:24:06,690 --> 00:24:04,330
Navy I was exposed to other stuff and I

512
00:24:09,530 --> 00:24:06,700
can't elaborate on all of it but like I

513
00:24:13,110 --> 00:24:09,540

said if if those technologies are there

514

00:24:17,730 --> 00:24:13,120

that close to my level there's other

515

00:24:20,850 --> 00:24:17,740

stuff at levels I'm not close to and we

516

00:24:25,710 --> 00:24:20,860

have a drone that looks like mini

517

00:24:28,140 --> 00:24:25,720

stealth bomber that can take off fly

518

00:24:30,960 --> 00:24:28,150

itself to the carrier land take off

519

00:24:33,360 --> 00:24:30,970

refuel do everything needs without any

520

00:24:35,220 --> 00:24:33,370

human intervention whatsoever and that's

521

00:24:39,900 --> 00:24:35,230

not a secret that's been on newspapers

522

00:24:43,440 --> 00:24:39,910

if that technology which was in

523

00:24:47,370 --> 00:24:43,450

development back before I even join the

524

00:24:50,669 --> 00:24:47,380

Navy it's that far perfected

525

00:24:53,520 --> 00:24:50,679

there's other stuff that's gotta be in

526
00:24:56,970 --> 00:24:53,530
development to replace technology like

527
00:24:58,650 --> 00:24:56,980
that it's just the way that the

528
00:25:00,029 --> 00:24:58,660
industrial complex works you know

529
00:25:01,890 --> 00:25:00,039
they've always got to get that newer

530
00:25:03,419 --> 00:25:01,900
better thing and I don't personally

531
00:25:06,270 --> 00:25:03,429
think there was a pilot inside that

532
00:25:08,580 --> 00:25:06,280
object there's no way based on what we

533
00:25:11,549 --> 00:25:08,590
know that a human body would have

534
00:25:13,020 --> 00:25:11,559
survived that but when you look at the

535
00:25:14,970 --> 00:25:13,030
fact that I think they were most likely

536
00:25:17,940 --> 00:25:14,980
after the ESM data which would have been

537
00:25:25,350 --> 00:25:17,950
frequencies and and other stuff along

538
00:25:27,840 --> 00:25:25,360

those lines and if something was

539

00:25:30,090 --> 00:25:27,850

controlling that object from a ground

540

00:25:31,980 --> 00:25:30,100

station or for somewhere else we would

541

00:25:35,159 --> 00:25:31,990

have been able to track the frequencies

542

00:25:37,049 --> 00:25:35,169

or anything else electronic that was

543

00:25:41,760 --> 00:25:37,059

going back and forth between that object

544

00:25:44,880 --> 00:25:41,770

and something else well well

545

00:25:46,649 --> 00:25:44,890

hey it's possible

546

00:25:48,029 --> 00:25:46,659

okay it was having a little trouble with

547

00:25:55,710 --> 00:25:48,039

a stream it seems to be okay now

548

00:25:58,860 --> 00:25:55,720

oh good okay so you said they had a

549

00:26:02,100 --> 00:25:58,870

technology that could but as far as the

550

00:26:03,570 --> 00:26:02,110

the speeds of it they couldn't have

551
00:26:05,060 --> 00:26:03,580
there's no drone that we know of that

552
00:26:07,260 --> 00:26:05,070
could have speeds like that right

553
00:26:10,440 --> 00:26:07,270
there's nothing I'm aware of that's

554
00:26:13,169 --> 00:26:10,450
close that fast that's why I'm not sold

555
00:26:15,390 --> 00:26:13,179
on it 100% being ours because there's a

556
00:26:18,750 --> 00:26:15,400
lot of stuff we don't know that's

557
00:26:22,200 --> 00:26:18,760
unexplained about it that I can't answer

558
00:26:24,840 --> 00:26:22,210
that nobody can answer so it's maybe

559
00:26:27,779 --> 00:26:24,850
it's not ours you know not I'm not

560
00:26:30,090 --> 00:26:27,789
against that yeah yeah now when you're

561
00:26:33,060 --> 00:26:30,100
out in your everyday life does this

562
00:26:35,640 --> 00:26:33,070
topic ever come up anywhere have you

563
00:26:39,919 --> 00:26:35,650

ever heard someone else talk about it or

564

00:26:42,870 --> 00:26:39,929

joined in a conversation um only once

565

00:26:46,230 --> 00:26:42,880

and that was ironically my therapist at

566

00:26:49,289 --> 00:26:46,240

the VA when I went to go I mentioned

567

00:26:51,450 --> 00:26:49,299

something I was doing and she was

568

00:26:53,940 --> 00:26:51,460

actually aware of that not nearly to

569

00:26:55,289 --> 00:26:53,950

depth that you know people who want to

570

00:26:57,590 --> 00:26:55,299

know about it are but she actually heard

571

00:27:01,200 --> 00:26:57,600

of it which was really the first time

572

00:27:03,240 --> 00:27:01,210

Wow and what about friends I mean is

573

00:27:06,480 --> 00:27:03,250

a topic you can bring up to two friends

574

00:27:08,610 --> 00:27:06,490

or you ever want to oh yeah I mean I've

575

00:27:10,860 --> 00:27:08,620

talked with guys who were other guys in

576

00:27:12,299 --> 00:27:10,870

the shop who were there at the times the

577

00:27:15,450 --> 00:27:12,309

problem is most of the guys I worked

578

00:27:17,159 --> 00:27:15,460

with are still in either the Navy or in

579

00:27:18,960 --> 00:27:17,169

a government contract position and they

580

00:27:20,190 --> 00:27:18,970

need their clearance so they're not

581

00:27:21,570 --> 00:27:20,200

saying anything because they don't want

582

00:27:24,810 --> 00:27:21,580

to risk it and that's one of the big

583

00:27:26,970 --> 00:27:24,820

issues with Roger I know what Rogers

584

00:27:30,830 --> 00:27:26,980

doing and why he won't come forward yeah

585

00:27:33,960 --> 00:27:30,840

and I completely support it obviously

586

00:27:36,260 --> 00:27:33,970

but some people still have even though

587

00:27:39,149 --> 00:27:36,270

they shouldn't have anything to lose

588

00:27:40,889 --> 00:27:39,159

still have a lot to lose because of

589

00:27:43,320 --> 00:27:40,899

misconceptions that come along with all

590

00:27:46,980 --> 00:27:43,330

this yeah but that hasn't harmed you in

591

00:27:49,649 --> 00:27:46,990

any way has it nope yeah yeah no reason

592

00:27:51,570 --> 00:27:49,659

for it yeah you know I've also said if

593

00:27:53,149 --> 00:27:51,580

the right person with the right

594

00:27:55,230 --> 00:27:53,159

credentials showed up to my porch

595

00:27:56,610 --> 00:27:55,240

tomorrow and told me never to talk about

596

00:27:56,850 --> 00:27:56,620

this again you'd never hear from me

597

00:27:59,340 --> 00:27:56,860

again

598

00:28:02,760 --> 00:27:59,350

yeah but until that day I'm gonna say

599

00:28:09,690 --> 00:28:02,770

what I want yeah yeah you have the men

600

00:28:12,690 --> 00:28:09,700

in black so I was just thinking about if

601
00:28:13,260 --> 00:28:12,700
there's other witnesses that you're

602
00:28:15,779 --> 00:28:13,270
aware of

603
00:28:18,149 --> 00:28:15,789
besides Roger that would like to talk

604
00:28:20,700 --> 00:28:18,159
about it or that you've talked to you

605
00:28:21,930 --> 00:28:20,710
know offline you know not publicly are

606
00:28:24,570 --> 00:28:21,940
there people like that that you've

607
00:28:27,539 --> 00:28:24,580
talked to or you know about three other

608
00:28:29,730 --> 00:28:27,549
guys that were on my shift with me at

609
00:28:32,940 --> 00:28:29,740
that time who knew what happened and

610
00:28:35,519 --> 00:28:32,950
there's another individual who I spoke

611
00:28:38,610 --> 00:28:35,529
with almost right after that event and

612
00:28:42,409 --> 00:28:38,620
was telling portions of what I knew at

613
00:28:45,870 --> 00:28:42,419

the time then a ball spoken to me

614

00:28:47,909 --> 00:28:45,880

obviously but you know I end up being

615

00:28:51,720 --> 00:28:47,919

the bumper nobody's gonna get between me

616

00:28:53,669 --> 00:28:51,730

and them yeah yeah and do you ever get

617

00:28:55,230 --> 00:28:53,679

any grief for that like people say well

618

00:28:57,269 --> 00:28:55,240

white you know you're not a first-hand

619

00:29:00,149 --> 00:28:57,279

witness why why should we take your word

620

00:29:02,399 --> 00:29:00,159

for it to that you ever get that I mean

621

00:29:03,330 --> 00:29:02,409

half the people are like for all I know

622

00:29:04,950 --> 00:29:03,340

you're making it up

623

00:29:07,799 --> 00:29:04,960

because those people aren't going to

624

00:29:10,740 --> 00:29:07,809

come forward but the only one I really

625

00:29:14,399 --> 00:29:10,750

lean on when I repeat the story is Roger

626

00:29:15,060 --> 00:29:14,409

and that's because Roger has also spoken

627

00:29:19,470 --> 00:29:15,070

with Dave

628

00:29:21,509 --> 00:29:19,480

baby and Dave baby did his own not

629

00:29:24,870 --> 00:29:21,519

betting but had his own conversation

630

00:29:26,850 --> 00:29:24,880

with Rogers separate from I did so as

631

00:29:30,259 --> 00:29:26,860

far as I'm concerned roger has been

632

00:29:33,990 --> 00:29:30,269

vetted and proven to be a real person

633

00:29:36,600 --> 00:29:34,000

that's been heavily on his story because

634

00:29:38,129 --> 00:29:36,610

I have somebody who back me up said hey

635

00:29:41,370 --> 00:29:38,139

yeah I did speak with Roger I need to

636

00:29:42,870 --> 00:29:41,380

say this I say oh yeah all the rest of

637

00:29:45,240 --> 00:29:42,880

the guys it's just conversation between

638

00:29:50,220 --> 00:29:45,250

me and then you know I have no true

639

00:29:53,220 --> 00:29:50,230

proof to support it yeah and I know that

640

00:29:58,350 --> 00:29:53,230

there's going to be that well there is a

641

00:29:59,639 --> 00:29:58,360

planned situation where Kevin day and a

642

00:30:03,930 --> 00:29:59,649

few others get together and they're

643

00:30:06,330 --> 00:30:03,940

going to be out on on the Pacific in the

644

00:30:09,090 --> 00:30:06,340

general area do you know anything about

645

00:30:12,240 --> 00:30:09,100

that in particular oh yeah

646

00:30:14,190 --> 00:30:12,250

it's called uip expeditions that's right

647

00:30:19,169 --> 00:30:14,200

oh yeah it is

648

00:30:24,060 --> 00:30:19,179

Kevin days baby so to speak but

649

00:30:28,340 --> 00:30:24,070

ultimately that goal is to rent a couple

650

00:30:31,379 --> 00:30:28,350

ships and they've got a big team of

651
00:30:32,970 --> 00:30:31,389
highly qualified people that know far

652
00:30:36,149 --> 00:30:32,980
more about science and I could ever even

653
00:30:39,899 --> 00:30:36,159
dream about you know experts in their

654
00:30:43,110 --> 00:30:39,909
fields biology science you name it and

655
00:30:45,869 --> 00:30:43,120
they're gonna go out on the ships head

656
00:30:48,899 --> 00:30:45,879
out to the same areas you know I believe

657
00:30:52,289 --> 00:30:48,909
the intent is to leave one off of So Cal

658
00:30:54,570 --> 00:30:52,299
you know up towards where we first saw

659
00:30:56,970 --> 00:30:54,580
them the other ones headed down south to

660
00:30:59,340 --> 00:30:56,980
where we also had the interactions and

661
00:31:02,310 --> 00:30:59,350
they're gonna try and you know find

662
00:31:06,029 --> 00:31:02,320
these objects again what do you think

663
00:31:07,289 --> 00:31:06,039

the odds are you know the odds are kind

664

00:31:10,259 --> 00:31:07,299

of tough on something like that weather

665

00:31:13,860 --> 00:31:10,269

you know that's a one problem about UFOs

666

00:31:15,539 --> 00:31:13,870

is they're unpredictable and that's why

667

00:31:17,279 --> 00:31:15,549

a lot of science people do not get

668

00:31:20,490 --> 00:31:17,289

involved because it's not a repeatable

669

00:31:22,529 --> 00:31:20,500

thing you know they're taking a chance

670

00:31:24,779 --> 00:31:22,539

but I mean it's in my opinion is better

671

00:31:28,409 --> 00:31:24,789

than not trying do you happen to know of

672

00:31:28,950 --> 00:31:28,419

any other sightings of these type of

673

00:31:33,450 --> 00:31:28,960

things

674

00:31:38,269 --> 00:31:33,460

or indirectly through research between

675

00:31:41,190 --> 00:31:38,279

the shell on the History Channel and

676

00:31:45,450 --> 00:31:41,200

other research that they've done there

677

00:31:47,519 --> 00:31:45,460

have been other similar sightings of you

678

00:31:50,220 --> 00:31:47,529

know similar tik-tok take objects all

679

00:31:54,330 --> 00:31:50,230

over that area up around Catalina Island

680

00:31:57,389 --> 00:31:54,340

and down south so some island off Mexico

681

00:32:00,659 --> 00:31:57,399

I can't think of the name of you know so

682

00:32:03,470 --> 00:32:00,669

there's a good track record of these

683

00:32:07,169 --> 00:32:03,480

objects in that area which is why

684

00:32:08,490 --> 00:32:07,179

they're going there I see as if we're

685

00:32:10,169 --> 00:32:08,500

gonna go somewhere where we stand a

686

00:32:12,360 --> 00:32:10,179

chance to possibly seeing these again

687

00:32:14,930 --> 00:32:12,370

with the right equipment to learn

688

00:32:16,169 --> 00:32:14,940

something you know that's the area

689

00:32:18,210 --> 00:32:16,179

uh-huh

690

00:32:19,950 --> 00:32:18,220

well I wish them good luck it'll be

691

00:32:23,240 --> 00:32:19,960

interesting I'm going to be in touch

692

00:32:25,590 --> 00:32:23,250

with at least Kevin day you know before

693

00:32:30,570 --> 00:32:25,600

and hopefully that'll still happen this

694

00:32:33,720 --> 00:32:30,580

year when this encounter happened and

695

00:32:35,159 --> 00:32:33,730

right after it happened I should say is

696

00:32:37,529 --> 00:32:35,169

it something that just kind of went away

697

00:32:39,600 --> 00:32:37,539

in your mind until you know things

698

00:32:42,750 --> 00:32:39,610

started bubbling up again or did you

699

00:32:45,000 --> 00:32:42,760

talk about it along the way do it it

700

00:32:47,310 --> 00:32:45,010

wasn't a Gary for he said it beds best

701
00:32:50,250 --> 00:32:47,320
it was a drinking story you know when we

702
00:32:52,950 --> 00:32:50,260
started drinking and yeah it came out

703
00:32:56,340 --> 00:32:52,960
but beyond that it was out of sight out

704
00:32:59,789 --> 00:32:56,350
of mind until I run across Dave baby's

705
00:33:01,230 --> 00:32:59,799
documentary on YouTube and then I

706
00:33:02,730 --> 00:33:01,240
reached out to Dave I'm like hey there's

707
00:33:06,029 --> 00:33:02,740
a whole section of the story you don't

708
00:33:06,570 --> 00:33:06,039
know about I know happy to tell you what

709
00:33:09,960 --> 00:33:06,580
I know

710
00:33:11,730 --> 00:33:09,970
and it's just spiraled from there and

711
00:33:14,120 --> 00:33:11,740
I've been in contact with more people

712
00:33:17,730 --> 00:33:14,130
and obviously the guys in Princeton and

713
00:33:19,049 --> 00:33:17,740

the nice thing about the small group of

714

00:33:22,909 --> 00:33:19,059

us between the Nimitz and the Princeton

715

00:33:24,930 --> 00:33:22,919

is we'd all spoken with Dave baby

716

00:33:26,460 --> 00:33:24,940

individually before any of us spoke to

717

00:33:30,330 --> 00:33:26,470

each other Wow

718

00:33:33,299 --> 00:33:30,340

so Wow with the exception of Kevin day

719

00:33:37,379 --> 00:33:33,309

and Gary Voorhees mainly because they

720

00:33:38,970 --> 00:33:37,389

were they kind of came out together gary

721

00:33:41,820 --> 00:33:38,980

kind of reached out to him and then Dave

722

00:33:42,870 --> 00:33:41,830

got me in the loop but the rest of us

723

00:33:45,210 --> 00:33:42,880

Dave has spoken

724

00:33:48,360 --> 00:33:45,220

to us individually before so there's

725

00:33:49,680 --> 00:33:48,370

very there's no real argument for

726

00:33:52,080 --> 00:33:49,690

anybody to be like oh yeah we all got

727

00:33:54,060 --> 00:33:52,090

together made it up well Kevin day

728

00:33:56,760 --> 00:33:54,070

actually watched my interview with

729

00:34:01,410 --> 00:33:56,770

Robert Powell about this incident and

730

00:34:03,090 --> 00:34:01,420

then wrote a comment on the YouTube that

731

00:34:06,030 --> 00:34:03,100

I did with Robert Powell this is going

732

00:34:07,920 --> 00:34:06,040

back a couple of years now and then

733

00:34:09,480 --> 00:34:07,930

Robert reached out to him on Facebook

734

00:34:11,460 --> 00:34:09,490

and that's how you know Kevin got

735

00:34:13,470 --> 00:34:11,470

connected with that's what started the

736

00:34:15,119 --> 00:34:13,480

ball rolling so he was he was paying

737

00:34:18,270 --> 00:34:15,129

attention I think he saw something on

738

00:34:22,220 --> 00:34:18,280

the news or something first and yeah

739

00:34:25,440 --> 00:34:22,230

so yep Kevin days obviously been the the

740

00:34:27,960 --> 00:34:25,450

the lead on all of this other than favor

741

00:34:31,830 --> 00:34:27,970

obviously because fragrant you know

742

00:34:35,010 --> 00:34:31,840

public but Kevin had written a short

743

00:34:36,649 --> 00:34:35,020

story oh yes years and years ago based

744

00:34:39,840 --> 00:34:36,659

on these events and had it published

745

00:34:42,570 --> 00:34:39,850

figuring at least he had it recorded in

746

00:34:45,480 --> 00:34:42,580

some place you know even if it wasn't

747

00:34:48,690 --> 00:34:45,490

the 100% true story you know he had

748

00:34:50,460 --> 00:34:48,700

written down way back then so yeah

749

00:34:52,649 --> 00:34:50,470

actually a good story if you read it

750

00:34:57,920 --> 00:34:52,659

yeah I know he had those books when I

751

00:35:01,890 --> 00:34:57,930

met him out in Phoenix he was but and

752

00:35:04,110 --> 00:35:01,900

wow I'm glad that's up you know you have

753

00:35:06,860 --> 00:35:04,120

felt comfortable enough you know to come

754

00:35:09,990 --> 00:35:06,870

forward and and and talk about this but

755

00:35:14,400 --> 00:35:10,000

would you say the strangest part of this

756

00:35:16,290 --> 00:35:14,410

whole thing is that it that it was you

757

00:35:18,420 --> 00:35:16,300

know first of all that happened and that

758

00:35:25,350 --> 00:35:18,430

there was no explanation or no real talk

759

00:35:27,330 --> 00:35:25,360

about it from your superiors um it's

760

00:35:31,160 --> 00:35:27,340

definitely strange that there's no

761

00:35:33,870 --> 00:35:31,170

further comment about it because of the

762

00:35:38,160 --> 00:35:33,880

the clearance I had and how tightly I

763

00:35:41,820 --> 00:35:38,170

worked with many of the officers because

764

00:35:43,560 --> 00:35:41,830

I had other duties aside from you know

765

00:35:45,720 --> 00:35:43,570

being a technician I had collateral

766

00:35:49,440 --> 00:35:45,730

duties extra jobs so to speak

767

00:35:51,660 --> 00:35:49,450

so I was quite close with many of the

768

00:35:53,040 --> 00:35:51,670

officers so we would have normal

769

00:35:54,390 --> 00:35:53,050

conversations because I was in the ready

770

00:35:56,849 --> 00:35:54,400

room every morning checking message

771

00:35:58,799 --> 00:35:56,859

traffic you know so

772

00:36:00,720 --> 00:35:58,809

there was a lot that I knew that they

773

00:36:02,970 --> 00:36:00,730

didn't always spread around the you know

774

00:36:04,890 --> 00:36:02,980

the whole squadron just because I was in

775

00:36:09,749 --> 00:36:04,900

the place to hear about it to talk to

776

00:36:11,940 --> 00:36:09,759

them about it so there I often got at

777

00:36:15,779 --> 00:36:11,950

least basic versions of a lot of events

778

00:36:22,559 --> 00:36:15,789

that happened and there was nothing said

779

00:36:25,170 --> 00:36:22,569

about this well yeah that is that is

780

00:36:26,729 --> 00:36:25,180

puzzling and you know there's I'm sure

781

00:36:30,420 --> 00:36:26,739

you've heard the theory out there that

782

00:36:32,940 --> 00:36:30,430

this was an Air Force you know there's

783

00:36:35,940 --> 00:36:32,950

someone that came forward that you know

784

00:36:37,289 --> 00:36:35,950

claims he knows 100% sure that this is

785

00:36:39,390 --> 00:36:37,299

Air Force and all that and it was

786

00:36:42,150 --> 00:36:39,400

basically Air Force playing games with

787

00:36:44,400 --> 00:36:42,160

the Navy over this whole thing and well

788

00:36:46,380 --> 00:36:44,410

you know yes he also talks about I think

789

00:36:48,900 --> 00:36:46,390

he talks about the confiscation of the

790

00:36:50,249 --> 00:36:48,910

bricks to by the Air Force but yeah not

791

00:36:52,410 --> 00:36:50,259

that the Air Force has never played

792

00:36:56,940 --> 00:36:52,420

games with us cuz they have and we play

793

00:36:58,620 --> 00:36:56,950

funny games with them yeah anyway we

794

00:37:01,349 --> 00:36:58,630

we've some we've shot down their

795

00:37:04,200 --> 00:37:01,359

airplanes in training way more than they

796

00:37:06,839 --> 00:37:04,210

shot us down so I'm just gonna hear that

797

00:37:08,279 --> 00:37:06,849

doesn't not good yeah vegetable and I

798

00:37:11,539 --> 00:37:08,289

don't even feel like mentioning his name

799

00:37:14,630 --> 00:37:11,549

anymore is a complete and utter fraud

800

00:37:17,309 --> 00:37:14,640

yes every yeah I've gone through and

801
00:37:19,440 --> 00:37:17,319
proven a bunch of what he said is wrong

802
00:37:25,799 --> 00:37:19,450
yeah he's wrong and why it's wrong and

803
00:37:28,380 --> 00:37:25,809
you know the guy basically took and used

804
00:37:33,319 --> 00:37:28,390
terminology that would have never been

805
00:37:36,079 --> 00:37:33,329
used outside of my squadron that alone

806
00:37:38,190 --> 00:37:36,089
he would have never used the term bricks

807
00:37:40,380 --> 00:37:38,200
he would have never used some of the

808
00:37:42,809 --> 00:37:40,390
other terminology used because outside

809
00:37:46,259 --> 00:37:42,819
of our little community nobody called

810
00:37:49,739 --> 00:37:46,269
them that name for those stupid things

811
00:37:53,549 --> 00:37:49,749
is removable media cartridge that's what

812
00:37:55,229 --> 00:37:53,559
called outside of us by reason we called

813
00:37:57,299 --> 00:37:55,239

the bricks it's because the darn things

814

00:37:59,400 --> 00:37:57,309

wait a ton and when you're lugging him

815

00:38:02,819 --> 00:37:59,410

around all day yeah you start to be from

816

00:38:05,160 --> 00:38:02,829

a nickname yes oh yeah that guy is a

817

00:38:07,769 --> 00:38:05,170

complete nutter fraud yeah when I would

818

00:38:10,079 --> 00:38:07,779

look for him to take the lie detector

819

00:38:10,830 --> 00:38:10,089

test he agreed to so everybody can learn

820

00:38:12,870 --> 00:38:10,840

them cell

821

00:38:16,200 --> 00:38:12,880

well someone was trying to you know

822

00:38:20,040 --> 00:38:16,210

force him on my show and I watched a

823

00:38:23,250 --> 00:38:20,050

YouTube of him and I got in touch with

824

00:38:26,520 --> 00:38:23,260

my friend Alejandro Rojas we you know

825

00:38:28,140 --> 00:38:26,530

was on this show for quite a while and

826

00:38:30,900 --> 00:38:28,150

said I don't I'm not buying this guy I

827

00:38:33,510 --> 00:38:30,910

said you know not only he yet even his

828

00:38:36,330 --> 00:38:33,520

body language was you know as he was

829

00:38:39,240 --> 00:38:36,340

talking about these things and there was

830

00:38:41,460 --> 00:38:39,250

uh there was some issues there that I

831

00:38:44,160 --> 00:38:41,470

forget exactly what he said but he kept

832

00:38:47,040 --> 00:38:44,170

saying the same thing over and over

833

00:38:48,780 --> 00:38:47,050

again which made me think that I I

834

00:38:51,750 --> 00:38:48,790

didn't buy it basically that's the

835

00:38:57,240 --> 00:38:51,760

bottom line and we both know who that

836

00:38:59,490 --> 00:38:57,250

individual is remain nameless but what

837

00:39:02,220 --> 00:38:59,500

about other things have you heard - have

838

00:39:04,650 --> 00:39:02,230

you paid attention enough to hear you

839

00:39:12,380 --> 00:39:04,660

know what other people are theorizing on

840

00:39:16,950 --> 00:39:14,550

there's a lot of people who don't have

841

00:39:19,620 --> 00:39:16,960

all the same information we do and the

842

00:39:22,770 --> 00:39:19,630

unfortunate part is especially when it

843

00:39:27,000 --> 00:39:22,780

comes to Gary and myself there's a lot

844

00:39:29,190 --> 00:39:27,010

of the technology that was in use that

845

00:39:30,870 --> 00:39:29,200

we know and we know why we're saying

846

00:39:33,120 --> 00:39:30,880

certain things but we can't elaborate

847

00:39:35,850 --> 00:39:33,130

because that technology to this day is

848

00:39:43,140 --> 00:39:35,860

still classified a lot of what I say and

849

00:39:44,730 --> 00:39:43,150

make my my my my guesses and assumptions

850

00:39:46,020 --> 00:39:44,740

based on everything cuz that's all they

851
00:39:48,840 --> 00:39:46,030
are at this point it's guesses and

852
00:39:50,670 --> 00:39:48,850
assumptions is based on a lot of the

853
00:39:53,130 --> 00:39:50,680
tactics and capabilities I know my

854
00:39:55,500 --> 00:39:53,140
airplane is capable of now I know what

855
00:39:58,050 --> 00:39:55,510
my airplane was capable of doing but I

856
00:39:59,760 --> 00:39:58,060
can't other than saying some of the

857
00:40:03,060 --> 00:39:59,770
names I can't really share anything else

858
00:40:07,290 --> 00:40:03,070
yeah you know and that puts a buffer

859
00:40:09,120 --> 00:40:07,300
between a lot of people and you know me

860
00:40:12,090 --> 00:40:09,130
because they want me to spill everything

861
00:40:14,310 --> 00:40:12,100
and I'm not going to do that yeah I

862
00:40:16,380 --> 00:40:14,320
still have friends that fly in those

863
00:40:18,360 --> 00:40:16,390

airplanes I still have friends yeah work

864

00:40:21,240 --> 00:40:18,370

on those airplanes I would be putting

865

00:40:24,690 --> 00:40:21,250

them in jeopardy if I started talking

866

00:40:26,550 --> 00:40:24,700

about some of that stuff not to mention

867

00:40:28,020 --> 00:40:26,560

got a stacking non-disclosure agreements

868

00:40:29,880 --> 00:40:28,030

for all kinds of stuff that I can't talk

869

00:40:32,760 --> 00:40:29,890

about and I have a security clearance

870

00:40:34,710 --> 00:40:32,770

that is inactive at the moment but if I

871

00:40:37,620 --> 00:40:34,720

needed it tomorrow I could reactivate it

872

00:40:39,690 --> 00:40:37,630

and there's an oath so to speak there's

873

00:40:42,650 --> 00:40:39,700

a trust that comes along with that but I

874

00:40:48,240 --> 00:40:42,660

won't break yes

875

00:40:49,859 --> 00:40:48,250

now what about Roger can you talk more

876

00:40:51,540 --> 00:40:49,869

about his story I know we're gonna be

877

00:40:54,680 --> 00:40:51,550

going into a break in about seven

878

00:40:56,970 --> 00:40:54,690

minutes but but anyway can you talk

879

00:40:58,890 --> 00:40:56,980

basically what a Roger have to say and

880

00:41:04,040 --> 00:40:58,900

like I know you've been in touch with

881

00:41:06,530 --> 00:41:04,050

him since so there's two two lines of

882

00:41:09,390 --> 00:41:06,540

Rogers communication with me there's

883

00:41:11,490 --> 00:41:09,400

very little that he's told me that I can

884

00:41:13,620 --> 00:41:11,500

share and then a lot that he's told me

885

00:41:16,410 --> 00:41:13,630

that I can and some of it he's probably

886

00:41:20,060 --> 00:41:16,420

not even supposed to tell me but you

887

00:41:23,099 --> 00:41:20,070

know friends do things yeah you know

888

00:41:25,260 --> 00:41:23,109

Roger was an in-flight tech he was an

889

00:41:27,150 --> 00:41:25,270

enlisted guy who went flying with the

890

00:41:28,859 --> 00:41:27,160

air crew when stuff was broken to

891

00:41:32,190 --> 00:41:28,869

troubleshoot stuff to fix stuff that we

892

00:41:34,740 --> 00:41:32,200

can't duplicate on the ground that was

893

00:41:37,230 --> 00:41:34,750

his primary function so he was on that

894

00:41:38,880 --> 00:41:37,240

flight because he also had to have a

895

00:41:41,579 --> 00:41:38,890

minimum out of flight hours every month

896

00:41:43,740 --> 00:41:41,589

to you know maintain a slight pay and

897

00:41:45,300 --> 00:41:43,750

his qualifications and stuff so you know

898

00:41:50,010 --> 00:41:45,310

you can sometimes when he had no reason

899

00:41:52,710 --> 00:41:50,020

to fly he was flying but he knew that

900

00:41:54,329 --> 00:41:52,720

airplane as well as I did as well as

901
00:41:56,339 --> 00:41:54,339
most of the officers probably even

902
00:41:58,349 --> 00:41:56,349
better than some of them on how to

903
00:42:01,230 --> 00:41:58,359
operate everything how to fix it and you

904
00:42:04,890 --> 00:42:01,240
know so he was a very useful tool tool

905
00:42:07,230 --> 00:42:04,900
to them he was on that flight during

906
00:42:08,910 --> 00:42:07,240
favours intercept you know he was

907
00:42:11,700 --> 00:42:08,920
sitting me the radar officers position

908
00:42:21,660 --> 00:42:11,710
which is in the back of the airplane but

909
00:42:24,170 --> 00:42:21,670
towards the middle he it was relatively

910
00:42:26,910 --> 00:42:24,180
normal flight until Princeton took

911
00:42:29,550 --> 00:42:26,920
control of favors aircraft in his wing

912
00:42:31,859 --> 00:42:29,560
then they were still controlling the

913
00:42:34,349 --> 00:42:31,869

rest of the air defense exercise should

914

00:42:35,460 --> 00:42:34,359

it have started which it didn't because

915

00:42:37,990 --> 00:42:35,470

ultimately the whole thing was called

916

00:42:45,490 --> 00:42:40,150

and while they were up there flying

917

00:42:49,420 --> 00:42:45,500

around the object came up and right

918

00:42:53,340 --> 00:42:49,430

outside their windows which is there and

919

00:42:55,600 --> 00:42:53,350

as quick as it was there it was gone and

920

00:42:58,210 --> 00:42:55,610

when I first had reached out to Dave

921

00:43:02,610 --> 00:42:58,220

Beatty it's kind of funny you know he

922

00:43:06,640 --> 00:43:02,620

was trying to vet me with somebody else

923

00:43:08,260 --> 00:43:06,650

and that person kept coming back saying

924

00:43:11,350 --> 00:43:08,270

everything I was saying was wrong

925

00:43:13,840 --> 00:43:11,360

Oh Hawkeye doesn't have windows well yes

926

00:43:17,080 --> 00:43:13,850

it does and here's a picture of those

927

00:43:19,690 --> 00:43:17,090

windows oh they don't have enlisted guys

928

00:43:22,720 --> 00:43:19,700

to fly in those airplanes oh yes they do

929

00:43:27,910 --> 00:43:22,730

here's a freaking video of Roger is that

930

00:43:31,800 --> 00:43:27,920

everything mm-hmm so the evidence is

931

00:43:35,590 --> 00:43:31,810

there that to support it and you know

932

00:43:40,540 --> 00:43:35,600

the windows are huge but you can see

933

00:43:42,460 --> 00:43:40,550

clearly out of it yeah and if all of a

934

00:43:44,980 --> 00:43:42,470

sudden something pops there they're

935

00:43:48,160 --> 00:43:44,990

gonna look in all it takes is one person

936

00:43:51,190 --> 00:43:48,170

to see it and it was you ever look at

937

00:43:53,500 --> 00:43:51,200

planes flying in formation no they're

938

00:43:55,090 --> 00:43:53,510

not too far from each other a little

939

00:43:57,460 --> 00:43:55,100

further than the Blue Angels but not

940

00:43:59,110 --> 00:43:57,470

quite so far it was just there you know

941

00:44:02,890 --> 00:43:59,120

they saw the same object free bird it

942

00:44:07,200 --> 00:44:02,900

gave the same description flavor did and

943

00:44:11,890 --> 00:44:07,210

then it just went away as they pulled up

944

00:44:15,010 --> 00:44:11,900

now there there were possibly like 60 of

945

00:44:18,940 --> 00:44:15,020

these things total or maybe 60 times

946

00:44:21,480 --> 00:44:18,950

they saw that they tracked the

947

00:44:25,090 --> 00:44:21,490

Princeton's radar obviously tracked

948

00:44:26,410 --> 00:44:25,100

multiple objects at a time over the span

949

00:44:29,920 --> 00:44:26,420

of a whole week before we actually

950

00:44:33,270 --> 00:44:29,930

intercepted them they came and I think

951
00:44:35,590 --> 00:44:33,280
have days had batches are like 10 to 15

952
00:44:38,950 --> 00:44:35,600
so we don't know if maybe it was the

953
00:44:42,340 --> 00:44:38,960
same time 15 things or if it was more or

954
00:44:47,440 --> 00:44:42,350
if it was less you know but more than

955
00:44:49,450 --> 00:44:47,450
one object was tracked and when the

956
00:44:51,730 --> 00:44:49,460
objects were airborne and we intercepted

957
00:44:55,810 --> 00:44:51,740
flavor the Hawkeye

958
00:44:58,510 --> 00:44:55,820
have an old radar but it's a solid very

959
00:45:00,970 --> 00:44:58,520
capable radar and it was tracking the

960
00:45:04,780 --> 00:45:00,980
objects just as well as the Princeton

961
00:45:07,210 --> 00:45:04,790
was so you have two different radars of

962
00:45:10,740 --> 00:45:07,220
two different types tracking these

963
00:45:14,710 --> 00:45:10,750

objects you know that is solid hard

964

00:45:17,770 --> 00:45:14,720

evidence that these were physical

965

00:45:20,980 --> 00:45:17,780

objects not a projection and a hologram

966

00:45:26,500 --> 00:45:20,990

not any other things I've been told they

967

00:45:29,800 --> 00:45:26,510

were physical real objects and you know

968

00:45:33,460 --> 00:45:29,810

since since you have been on this show

969

00:45:37,330 --> 00:45:33,470

now that the Navy has actually has come

970

00:45:40,090 --> 00:45:37,340

out and said that they are you know

971

00:45:42,370 --> 00:45:40,100

they're I forget exactly the terminology

972

00:45:45,340 --> 00:45:42,380

they used but they're allowing you know

973

00:45:49,090 --> 00:45:45,350

people to report these UFOs it's the

974

00:45:52,710 --> 00:45:49,100

really the only Armour the service am I

975

00:45:55,780 --> 00:45:52,720

saying that wrong what right the Navy

976

00:45:58,720 --> 00:45:55,790

and all the branches of military for

977

00:46:01,780 --> 00:45:58,730

that fact that have reporting programs

978

00:46:04,210 --> 00:46:01,790

or all kinds of stuff whether it's you

979

00:46:07,210 --> 00:46:04,220

know hey we ran over a bird oh we got

980

00:46:09,010 --> 00:46:07,220

that bird health data they've got all

981

00:46:10,660 --> 00:46:09,020

kinds of criteria for different things

982

00:46:12,340 --> 00:46:10,670

something falls off my hair play my

983

00:46:15,580 --> 00:46:12,350

likes flying I got a whole stack of

984

00:46:17,800 --> 00:46:15,590

paperwork to do you know so the

985

00:46:23,020 --> 00:46:17,810

paperwork or the process or somebody to

986

00:46:26,380 --> 00:46:23,030

report a UFO or you know an unidentified

987

00:46:29,830 --> 00:46:26,390

object has always been there in one

988

00:46:32,800 --> 00:46:29,840

shape or form but now the Navy itself

989

00:46:35,109 --> 00:46:32,810

has said we're not gonna laugh at you if

990

00:46:38,230 --> 00:46:35,119

you submit these we're gonna take them

991

00:46:40,750 --> 00:46:38,240

seriously yeah and act if something the

992

00:46:42,370 --> 00:46:40,760

Air Force has not said you know army has

993

00:46:44,950 --> 00:46:42,380

not said the government itself has not

994

00:46:48,010 --> 00:46:44,960

said the Navy have said to its pilots

995

00:46:49,720 --> 00:46:48,020

who are going to see these objects even

996

00:46:52,750 --> 00:46:49,730

if they turn out to be weather balloons

997

00:46:55,810 --> 00:46:52,760

or you know somebody's drone flying from

998

00:46:57,670 --> 00:46:55,820

the backyard you know they're

999

00:47:00,160 --> 00:46:57,680

encouraging their pilots to report these

1000

00:47:02,170 --> 00:47:00,170

which means at some point the dam is

1001
00:47:04,500 --> 00:47:02,180
going to break and more of these objects

1002
00:47:05,950 --> 00:47:04,510
are going to be reported but it's not an

1003
00:47:11,260 --> 00:47:05,960
instant

1004
00:47:13,990 --> 00:47:11,270
loud it's a whole culture that's got to

1005
00:47:16,690 --> 00:47:14,000
be changed yeah but you know that that

1006
00:47:18,400 --> 00:47:16,700
is a big deal I mean it's a real big

1007
00:47:20,440 --> 00:47:18,410
deal that they did that I believe and

1008
00:47:24,760 --> 00:47:20,450
yeah you know a lot of people like know

1009
00:47:26,680 --> 00:47:24,770
also agree with that you know and it

1010
00:47:29,710 --> 00:47:26,690
only just keeps opening the door for

1011
00:47:33,190 --> 00:47:29,720
people to take this topic serious enough

1012
00:47:37,900 --> 00:47:33,200
to really look into it I'm glad they did

1013
00:47:41,290 --> 00:47:37,910

it well I I hold I wholeheartedly hope

1014

00:47:43,810 --> 00:47:41,300

that more comes of it and when it

1015

00:47:46,120 --> 00:47:43,820

shortly after came out I actually asked

1016

00:47:48,190 --> 00:47:46,130

a friend of mine who's in a more senior

1017

00:47:50,560 --> 00:47:48,200

position in the Navy who would have been

1018

00:47:52,540 --> 00:47:50,570

exposed to that message traffic I was

1019

00:47:55,450 --> 00:47:52,550

like hey did you really see this it's

1020

00:47:57,100 --> 00:47:55,460

like yes it really came through the

1021

00:47:59,940 --> 00:47:57,110

message traffic they really said it and

1022

00:48:02,620 --> 00:47:59,950

we all got a good laugh about it hmm

1023

00:48:05,650 --> 00:48:02,630

that's the culture that still got a

1024

00:48:06,850 --> 00:48:05,660

change yeah that's right yeah yeah all

1025

00:48:10,420 --> 00:48:06,860

right well we're ready to go into the

1026
00:48:13,180 --> 00:48:10,430
break so thanks everyone we'll be right

1027
00:48:16,210 --> 00:48:13,190
back right after these messages with PJ

1028
00:48:18,790 --> 00:48:16,220
Hewitt hello and welcome back to the

1029
00:48:21,430 --> 00:48:18,800
show my guest tonight is PJ who's Hughes

1030
00:48:26,140 --> 00:48:21,440
and we're talking the USS Nimitz

1031
00:48:29,950 --> 00:48:26,150
tick-tack UFO incident I have said many

1032
00:48:33,010 --> 00:48:29,960
times not that everyone listens to me

1033
00:48:37,230 --> 00:48:33,020
but it's just my thoughts that I think

1034
00:48:39,970 --> 00:48:37,240
this is one of the most interesting

1035
00:48:43,510 --> 00:48:39,980
encounters that really rates up really

1036
00:48:46,800 --> 00:48:43,520
really high and the main reason it does

1037
00:48:51,160 --> 00:48:46,810
is because of first of all the witnesses

1038
00:48:53,470 --> 00:48:51,170

and the data upon it I mean it's it's

1039

00:48:55,900 --> 00:48:53,480

almost like you can't you can't deny

1040

00:48:58,690 --> 00:48:55,910

this a lot of things you can you know

1041

00:49:01,150 --> 00:48:58,700

the swamp gas situations where you can

1042

00:49:03,820 --> 00:49:01,160

say it's this or that or you know Venus

1043

00:49:04,870 --> 00:49:03,830

or the moon or you know whatever you

1044

00:49:08,260 --> 00:49:04,880

want to say on this one in particular

1045

00:49:11,200 --> 00:49:08,270

you can't say that really there's just

1046

00:49:13,620 --> 00:49:11,210

it's just too too much there I mean

1047

00:49:18,250 --> 00:49:13,630

aside from the witnesses who are all

1048

00:49:19,460 --> 00:49:18,260

highly trained individuals you have the

1049

00:49:22,400 --> 00:49:19,470

Navy who said

1050

00:49:24,710 --> 00:49:22,410

yep it happened yep

1051

00:49:26,680 --> 00:49:24,720

these videos are real you know you

1052

00:49:30,289 --> 00:49:26,690

either you can't get much more than that

1053

00:49:33,349 --> 00:49:30,299

yeah and so I guess it just boils down

1054

00:49:36,440 --> 00:49:33,359

to again which it always boils down to

1055

00:49:38,630 --> 00:49:36,450

is what was it and what was it that we

1056

00:49:41,930 --> 00:49:38,640

saw you know that that that type of

1057

00:49:44,240 --> 00:49:41,940

thing but biggest reasons we all keep

1058

00:49:46,910 --> 00:49:44,250

talking is because we want to know what

1059

00:49:48,349 --> 00:49:46,920

it is and at some point somehow we're

1060

00:49:49,460 --> 00:49:48,359

gonna stumble upon that answer and

1061

00:49:51,349 --> 00:49:49,470

that's what we're waiting for

1062

00:49:54,380 --> 00:49:51,359

I sure hope so and it will be

1063

00:49:57,770 --> 00:49:54,390

interesting when they do make that trip

1064

00:50:02,029 --> 00:49:57,780

out in the Pacific if they actually do

1065

00:50:04,370 --> 00:50:02,039

collect something I mean you know the

1066

00:50:08,270 --> 00:50:04,380

odds are if you're out there a month

1067

00:50:11,390 --> 00:50:08,280

maybe a little bit a little bit clearer

1068

00:50:13,730 --> 00:50:11,400

you know a little better of a chance but

1069

00:50:16,370 --> 00:50:13,740

you know how long they're going out to

1070

00:50:19,880 --> 00:50:16,380

sea for exactly I think it's like two

1071

00:50:21,289 --> 00:50:19,890

weeks but I have been on their schedule

1072

00:50:24,559 --> 00:50:21,299

late leader to know for sure

1073

00:50:25,940 --> 00:50:24,569

yes you know maybe I know that someone

1074

00:50:29,150 --> 00:50:25,950

was in the chat room that may want to

1075

00:50:32,329 --> 00:50:29,160

call in with some more information on

1076

00:50:34,460 --> 00:50:32,339

that but I did want to find out more of

1077

00:50:35,900 --> 00:50:34,470

you know I don't know what you know

1078

00:50:38,900 --> 00:50:35,910

about it or don't know about it but

1079

00:50:41,240 --> 00:50:38,910

actually playing on YouTube right now it

1080

00:50:44,529 --> 00:50:41,250

just showed the looking out the little

1081

00:50:47,900 --> 00:50:44,539

portal on the Hawkeye and showing the

1082

00:50:53,029 --> 00:50:47,910

tic-tac right qur'anic me the the video

1083

00:50:55,430 --> 00:50:53,039

of Roger the video I had sent yeah

1084

00:51:01,039 --> 00:50:55,440

that's what blurred out huh how about

1085

00:51:02,529 --> 00:51:01,049

that but anyway it'd be interesting to

1086

00:51:05,930 --> 00:51:02,539

know what type of equipment they're

1087

00:51:09,349 --> 00:51:05,940

going to bring with them do you know

1088

00:51:13,460 --> 00:51:09,359

anything about any of that I do not know

1089

00:51:16,220 --> 00:51:13,470

about the specific equipment that's

1090

00:51:19,460 --> 00:51:16,230

going out I know the people that they

1091

00:51:22,010 --> 00:51:19,470

have involved and it's you know uh who's

1092

00:51:27,260 --> 00:51:22,020

who of you know smart people in my

1093

00:51:29,089 --> 00:51:27,270

opinion yeah yeah well again it surely

1094

00:51:32,329 --> 00:51:29,099

will be interesting you know I decided

1095

00:51:33,319 --> 00:51:32,339

that I was going to open up the phone

1096

00:51:36,709 --> 00:51:33,329

lines early the

1097

00:51:39,170 --> 00:51:36,719

evening and I'd like to do that and take

1098

00:51:42,349 --> 00:51:39,180

calls and also you know we will be

1099

00:51:46,819 --> 00:51:42,359

giving away t-shirt tonight for to

1100

00:51:49,640 --> 00:51:46,829

celebrate our 400th show and also some

1101
00:51:51,920 --> 00:51:49,650
artwork by my sister Heidi powers who

1102
00:51:54,440 --> 00:51:51,930
actually is in chatter she was a minute

1103
00:51:58,930 --> 00:51:54,450
ago so anyway we're going to be taking

1104
00:52:04,219 --> 00:51:58,940
callers and I'll put that number up and

1105
00:52:07,789 --> 00:52:04,229
that is eight five five four seven two

1106
00:52:11,539 --> 00:52:07,799
five four eight three eight five five

1107
00:52:14,599 --> 00:52:11,549
four seven two five four eight three and

1108
00:52:16,549 --> 00:52:14,609
you're welcome to call we have someone

1109
00:52:21,559 --> 00:52:16,559
standing by that will screen the call

1110
00:52:25,209 --> 00:52:21,569
and and please direct your questions on

1111
00:52:27,589 --> 00:52:25,219
the incident itself let me ask you this

1112
00:52:30,319 --> 00:52:27,599
PJ since this has happened - have you

1113
00:52:32,599 --> 00:52:30,329

looked into other UFO incidents you know

1114

00:52:36,049 --> 00:52:32,609

I know the one off of Florida was pretty

1115

00:52:38,269 --> 00:52:36,059

interesting and similar um honestly I

1116

00:52:40,849 --> 00:52:38,279

have not put any time and effort into

1117

00:52:42,739 --> 00:52:40,859

any of the other stuff out there because

1118

00:52:47,209 --> 00:52:42,749

I wasn't involved in any of the other

1119

00:52:49,729 --> 00:52:47,219

stuff out there and you know I I firmly

1120

00:52:51,709 --> 00:52:49,739

believe on seeing to believe and I've

1121

00:52:54,289 --> 00:52:51,719

seen much of the evidence for this one

1122

00:52:58,039 --> 00:52:54,299

what's your why I believe in it so I

1123

00:53:01,219 --> 00:52:58,049

kind of stayed isolated to didn't

1124

00:53:02,870 --> 00:53:01,229

mistake that yeah and you know I gotta I

1125

00:53:06,699 --> 00:53:02,880

gotta say something about that that in

1126

00:53:10,009 --> 00:53:06,709

my opinion that adds to your credibility

1127

00:53:12,439 --> 00:53:10,019

only because you know you're not out

1128

00:53:14,930 --> 00:53:12,449

there like you're not a big UFO

1129

00:53:17,599 --> 00:53:14,940

enthusiast this is a one one story for

1130

00:53:21,019 --> 00:53:17,609

you and and and that's what it is

1131

00:53:22,809 --> 00:53:21,029

so alright we have John from California

1132

00:53:25,549 --> 00:53:22,819

John welcome to the show

1133

00:53:27,680 --> 00:53:25,559

Thank You Martin and thanks for having

1134

00:53:30,349 --> 00:53:27,690

PJ on PJ thanks for your service and

1135

00:53:33,229 --> 00:53:30,359

thanks for coming forward I'm really

1136

00:53:35,739 --> 00:53:33,239

impressed with your your knowledge and

1137

00:53:38,359 --> 00:53:35,749

of the situation and I respect

1138

00:53:40,309 --> 00:53:38,369

everything you say how anybody cannot

1139

00:53:42,289 --> 00:53:40,319

believe stuff that you're saying is

1140

00:53:44,809 --> 00:53:42,299

beyond me or you're so credible it's

1141

00:53:47,059 --> 00:53:44,819

it's really refreshing thank you so much

1142

00:53:50,029 --> 00:53:47,069

thank you

1143

00:53:54,109 --> 00:53:50,039

my question is just a quick one I've

1144

00:53:56,329 --> 00:53:54,119

heard David flavor commander flavor say

1145

00:53:59,779 --> 00:53:56,339

I can't remember who was interviewing

1146

00:54:02,959 --> 00:53:59,789

him that he was like he had a very high

1147

00:54:05,989 --> 00:54:02,969

position on the on the ship and he said

1148

00:54:07,489 --> 00:54:05,999

that if anybody came and took the you

1149

00:54:09,140 --> 00:54:07,499

called him bricks I know there's another

1150

00:54:11,839 --> 00:54:09,150

name for him but that he would have

1151
00:54:12,709 --> 00:54:11,849
known about it and he disagrees that

1152
00:54:14,420 --> 00:54:12,719
that was done

1153
00:54:16,009 --> 00:54:14,430
so how come have you talked to David

1154
00:54:19,069 --> 00:54:16,019
forever is that her why is there such a

1155
00:54:21,529 --> 00:54:19,079
discrepancy we collectively had tried to

1156
00:54:24,259 --> 00:54:21,539
engage David safer in conversation and

1157
00:54:25,849 --> 00:54:24,269
he wants nothing to do with us we

1158
00:54:31,789 --> 00:54:25,859
actually tried reaching out to him again

1159
00:54:33,319 --> 00:54:31,799
to a third party who basically basically

1160
00:54:36,170 --> 00:54:33,329
call us all liars in the middle of

1161
00:54:39,579 --> 00:54:36,180
conversation and stayed with favorite

1162
00:54:43,459 --> 00:54:39,589
story but I'm gonna put it this way I

1163
00:54:46,069 --> 00:54:43,469

100 100 percent believe everything that

1164

00:54:48,579 --> 00:54:46,079

they favor has said the man is not a

1165

00:54:51,680 --> 00:54:48,589

liar he's just got some misinformation

1166

00:54:54,829 --> 00:54:51,690

just because he was as high in the food

1167

00:54:57,499 --> 00:54:54,839

chain on the carrier as he was does not

1168

00:55:00,049 --> 00:54:57,509

mean he had a need to know what was

1169

00:55:02,109 --> 00:55:00,059

going on in everyone else's squadrons

1170

00:55:05,359 --> 00:55:02,119

the Navy doesn't really work like that

1171

00:55:08,269 --> 00:55:05,369

there is a bunch of stuff on my airplane

1172

00:55:12,160 --> 00:55:08,279

that he has nothing to do with and would

1173

00:55:16,489 --> 00:55:12,170

have no reason to be read into programs

1174

00:55:18,439 --> 00:55:16,499

to learn about that stuff so ours he's

1175

00:55:21,319 --> 00:55:18,449

concerned that stuff doesn't exist

1176

00:55:23,479 --> 00:55:21,329

because he has no need to know about got

1177

00:55:26,239 --> 00:55:23,489

it well that explains it thank you for

1178

00:55:27,979 --> 00:55:26,249

the clarification PJ and welcome and

1179

00:55:29,870 --> 00:55:27,989

thanks for thanks for coming forward I

1180

00:55:31,759 --> 00:55:29,880

really appreciate your your information

1181

00:55:35,359 --> 00:55:31,769

Thanks thanks again Martin all right

1182

00:55:39,559 --> 00:55:35,369

John thanks for the call and next we

1183

00:55:42,279 --> 00:55:39,569

have Kevin calling from Augusta Georgia

1184

00:55:45,650 --> 00:55:42,289

that's where Stone Mountain is hi Kevin

1185

00:55:46,549 --> 00:55:45,660

well actually hey Martin actually that's

1186

00:55:48,289 --> 00:55:46,559

over in Atlanta

1187

00:55:50,599 --> 00:55:48,299

we're actually here where they have that

1188

00:55:51,999 --> 00:55:50,609

famous golf tournament the Augusta

1189

00:55:54,140 --> 00:55:52,009

National Oh

1190

00:55:57,049 --> 00:55:54,150

canceled of course because of that

1191

00:56:00,770 --> 00:55:57,059

because of this Corona thing or put off

1192

00:56:05,810 --> 00:56:00,780

until November actually so I got

1193

00:56:07,390 --> 00:56:05,820

really you know one one it's actually

1194

00:56:10,070 --> 00:56:07,400

two questions but I'll just do it in one

1195

00:56:12,820 --> 00:56:10,080

and by the way I really have enjoyed

1196

00:56:16,640 --> 00:56:12,830

your show I think your you do a

1197

00:56:19,850 --> 00:56:16,650

fantastic job really especially when you

1198

00:56:21,500 --> 00:56:19,860

got guests that you know a lot of people

1199

00:56:26,900 --> 00:56:21,510

might say a little bit a suspect so

1200

00:56:31,000 --> 00:56:26,910

anyway when you had your when this event

1201
00:56:39,620 --> 00:56:35,500
from from your interaction or your your

1202
00:56:43,100 --> 00:56:39,630
exposure to the phenomenon that any sort

1203
00:56:45,170 --> 00:56:43,110
of mental issue any sort of mental

1204
00:56:47,480 --> 00:56:45,180
perceptions like it was aware of you

1205
00:56:50,060 --> 00:56:47,490
were you aware of it but it was

1206
00:56:52,400 --> 00:56:50,070
something other than just a piece of

1207
00:56:55,970 --> 00:56:52,410
mechanical stuff running through you

1208
00:56:59,540 --> 00:56:55,980
know the sky or and afterwards have you

1209
00:57:01,970 --> 00:56:59,550
had any kind of effects you know that

1210
00:57:03,620 --> 00:57:01,980
you think that it's it's maybe because a

1211
00:57:05,720 --> 00:57:03,630
lot of people talk about there's

1212
00:57:08,120 --> 00:57:05,730
cognitive or consciousness effects

1213
00:57:10,370 --> 00:57:08,130

afterwards if you could share if any of

1214

00:57:13,730 --> 00:57:10,380

that type with you I'd appreciate it and

1215

00:57:14,060 --> 00:57:13,740

I'll hang up and listen well hey thanks

1216

00:57:16,150 --> 00:57:14,070

Kevin

1217

00:57:20,080 --> 00:57:16,160

thanks for your kind words as well I

1218

00:57:23,330 --> 00:57:20,090

know Kevin Bay has spoken publicly about

1219

00:57:25,160 --> 00:57:23,340

his interactions with the objects but

1220

00:57:27,260 --> 00:57:25,170

what a lot of people get confused is I

1221

00:57:29,930 --> 00:57:27,270

never actually interacted with the

1222

00:57:33,830 --> 00:57:29,940

object all of my experience with it is

1223

00:57:35,870 --> 00:57:33,840

after the fact dealing with my gear

1224

00:57:38,270 --> 00:57:35,880

being taken after the fact you know I

1225

00:57:43,580 --> 00:57:38,280

never saw the object with my own eyes I

1226
00:57:45,500 --> 00:57:43,590
never saw the object period so I really

1227
00:57:48,890 --> 00:57:45,510
have no interaction with it to be

1228
00:57:52,910 --> 00:57:48,900
affected by at the same time since then

1229
00:57:55,580 --> 00:57:52,920
I really can't connect any dots about

1230
00:57:57,890 --> 00:57:55,590
how I'd been affected with it so

1231
00:58:00,470 --> 00:57:57,900
hopefully an answer your question yeah

1232
00:58:03,590 --> 00:58:00,480
no no I understand and I have talked to

1233
00:58:07,310 --> 00:58:03,600
Kevin and to some of the details which

1234
00:58:09,830 --> 00:58:07,320
is pretty interesting and you know not

1235
00:58:11,600 --> 00:58:09,840
know it actually you know him being

1236
00:58:13,640 --> 00:58:11,610
aware of the radar and all that not

1237
00:58:14,490 --> 00:58:13,650
actually I don't believe Kevin actually

1238
00:58:16,650 --> 00:58:14,500

physically saw

1239

00:58:18,720 --> 00:58:16,660

the object I know someone went out to

1240

00:58:22,950 --> 00:58:18,730

one of those big huge binoculars you

1241

00:58:27,810 --> 00:58:22,960

have on board and so that was Gary yep

1242

00:58:32,070 --> 00:58:27,820

yeah so and how well do you know Gary do

1243

00:58:34,109 --> 00:58:32,080

to speak with him beforehand didn't

1244

00:58:36,630 --> 00:58:34,119

really know him I'm sure because of our

1245

00:58:38,099 --> 00:58:36,640

jobs I'd spoken with him a time or two

1246

00:58:40,440 --> 00:58:38,109

so we didn't really know each other but

1247

00:58:43,349 --> 00:58:40,450

since then we've been the whole group of

1248

00:58:46,109 --> 00:58:43,359

us come pretty close for himself and

1249

00:58:47,640 --> 00:58:46,119

when it comes to like things on like you

1250

00:58:50,010 --> 00:58:47,650

wouldn't know you wouldn't have known

1251
00:58:52,200 --> 00:58:50,020
anyone on the Princeton you worked on

1252
00:58:53,640 --> 00:58:52,210
the Nimitz which was a huge I know

1253
00:58:55,770 --> 00:58:53,650
they're like I forget what the

1254
00:58:59,010 --> 00:58:55,780
population is on those things but it's

1255
00:59:01,770 --> 00:58:59,020
big its thousand isn't that amazing I

1256
00:59:05,339 --> 00:59:01,780
was on a aircraft carrier I had a friend

1257
00:59:07,800 --> 00:59:05,349
and the Navy and out of San Diego

1258
00:59:09,750 --> 00:59:07,810
years ago and I just couldn't get over

1259
00:59:11,790 --> 00:59:09,760
it it was amazing they had there I

1260
00:59:13,740 --> 00:59:11,800
remember yet is they have their own

1261
00:59:16,050 --> 00:59:13,750
machine shop for building parts out at

1262
00:59:21,020 --> 00:59:16,060
sea you know they have just amazing

1263
00:59:23,990 --> 00:59:21,030

what's on those things like a city exact

1264

00:59:27,240 --> 00:59:24,000

because of my job and how intertwined

1265

00:59:30,810 --> 00:59:27,250

the Princeton's job is with my airplanes

1266

00:59:34,859 --> 00:59:30,820

job I talked to people on that ship over

1267

00:59:36,720 --> 00:59:34,869

the radio many occasions but never to

1268

00:59:40,349 --> 00:59:36,730

the point where I knew who exactly I was

1269

00:59:41,760 --> 00:59:40,359

talking to or you know I might recognize

1270

00:59:42,000 --> 00:59:41,770

the voice here in there but that's about

1271

00:59:45,060 --> 00:59:42,010

it

1272

00:59:51,180 --> 00:59:45,070

yes all right we have another caller

1273

00:59:55,680 --> 00:59:51,190

callers looks like we have Dave Alton

1274

01:00:01,890 --> 00:59:55,690

and Jason is a D Jason yes it is yeah

1275

01:00:05,160 --> 01:00:01,900

hey yeah we just figured we'd call in

1276

01:00:07,950 --> 01:00:05,170

and say hello to you and PJ and see how

1277

01:00:09,660 --> 01:00:07,960

the corona is treating you guys can't

1278

01:00:13,530 --> 01:00:09,670

complain can't complain still working

1279

01:00:15,270 --> 01:00:13,540

I'm isolated up in Maine I you know I'm

1280

01:00:18,210 --> 01:00:15,280

really pretty safe where I'm at but

1281

01:00:20,520 --> 01:00:18,220

thank you for asking that and hope all

1282

01:00:24,380 --> 01:00:20,530

is well down there Jason your last name

1283

01:00:28,200 --> 01:00:24,390

is it for how do you say your last name

1284

01:00:32,609 --> 01:00:28,210

- you are in the ark all right

1285

01:00:34,290 --> 01:00:32,619

Oh Turner yes Turner I'm sorry my right

1286

01:00:37,470 --> 01:00:34,300

yeah I get the names mixed up a little

1287

01:00:42,690 --> 01:00:37,480

bit and Jason why don't you tell the

1288

01:00:47,520 --> 01:00:42,700

listener how your involvement I was on

1289

01:00:50,520 --> 01:00:47,530

the USS Princeton from 2001 to 2005

1290

01:00:55,170 --> 01:00:50,530

Richard working in supply during this

1291

01:00:58,500 --> 01:00:55,180

whole event and by happenstance I was in

1292

01:01:00,180 --> 01:00:58,510

assist when all of this went down like

1293

01:01:04,260 --> 01:01:00,190

right after it all went down and I got

1294

01:01:06,240 --> 01:01:04,270

to witness the whole video the the full

1295

01:01:10,109 --> 01:01:06,250

length video not the one that we see

1296

01:01:12,599 --> 01:01:10,119

today so Wow yeah that's kind of a

1297

01:01:15,059 --> 01:01:12,609

shortened temple is there anything you

1298

01:01:18,750 --> 01:01:15,069

can talk about on that video without

1299

01:01:25,650 --> 01:01:18,760

getting in trouble yeah I mean pretty

1300

01:01:28,230 --> 01:01:25,660

much anything it's 7 to 10 minutes long

1301
01:01:30,960 --> 01:01:28,240
was the original video compared to the

1302
01:01:33,740 --> 01:01:30,970
what one and a half minute long video

1303
01:01:36,750 --> 01:01:33,750
that we see today a lot clearer a lot uh

1304
01:01:41,039 --> 01:01:36,760
there was a lot more detail in it in the

1305
01:01:43,079 --> 01:01:41,049
video and was this actually I know there

1306
01:01:46,289 --> 01:01:43,089
was a different type of video that was

1307
01:01:48,690 --> 01:01:46,299
recorded and what we see online but did

1308
01:01:50,010 --> 01:01:48,700
you have like a I don't even know what

1309
01:01:53,339 --> 01:01:50,020
you call it but I mean a high definition

1310
01:01:59,549 --> 01:01:53,349
type of video you could look at well is

1311
01:02:01,920 --> 01:01:59,559
if you look at a clear video if it

1312
01:02:04,230 --> 01:02:01,930
doesn't compare to the the newer videos

1313
01:02:05,819 --> 01:02:04,240

but it's not anywhere near what we see

1314

01:02:09,539 --> 01:02:05,829

in the video that that has been

1315

01:02:10,740 --> 01:02:09,549

circulating like all the letters and

1316

01:02:13,289 --> 01:02:10,750

everything and all the numbers and

1317

01:02:14,940 --> 01:02:13,299

everything the way it was just clear so

1318

01:02:17,430 --> 01:02:14,950

we look at you know like if you were to

1319

01:02:20,010 --> 01:02:17,440

just clear everything up

1320

01:02:23,490 --> 01:02:20,020

even the the tick-tack itself was a lot

1321

01:02:25,770 --> 01:02:23,500

clearer than what you see today it were

1322

01:02:28,079 --> 01:02:25,780

you actually able to observe those

1323

01:02:35,579 --> 01:02:28,089

little antenna or whatever they were on

1324

01:02:37,500 --> 01:02:35,589

that you know I know I couldn't tell

1325

01:02:39,960 --> 01:02:37,510

what they were they were there but they

1326

01:02:42,030 --> 01:02:39,970

know if they were el-sheikh or [\h__\h]

1327

01:02:43,320 --> 01:02:42,040

stood but they were there they were

1328

01:02:46,050 --> 01:02:43,330

definitely they are underneath the

1329

01:02:50,430 --> 01:02:46,060

vehicle and what did you see as far as

1330

01:02:52,500 --> 01:02:50,440

the movement of this thing there were a

1331

01:02:56,250 --> 01:02:52,510

few like when it first started it was

1332

01:02:58,200 --> 01:02:56,260

erratic and there would be times when we

1333

01:02:59,790 --> 01:02:58,210

could leave the screen and you would see

1334

01:03:02,760 --> 01:02:59,800

him maneuvering you would see all the

1335

01:03:05,150 --> 01:03:02,770

different the numbers changing of course

1336

01:03:08,460 --> 01:03:05,160

whenever they're they're moving but then

1337

01:03:10,260 --> 01:03:08,470

you know this thing it was it would zip

1338

01:03:16,410 --> 01:03:10,270

from one place to another and just gone

1339

01:03:18,510 --> 01:03:16,420

I mean quick so well well I would love

1340

01:03:20,700 --> 01:03:18,520

to see that and so so many people

1341

01:03:23,580 --> 01:03:20,710

listening tonight we love to see that

1342

01:03:27,360 --> 01:03:23,590

video and as a shawl we're not able to

1343

01:03:29,430 --> 01:03:27,370

actually and you know that it exists at

1344

01:03:33,120 --> 01:03:29,440

this time it's just where it is and and

1345

01:03:34,230 --> 01:03:33,130

who gets to look at it right and that's

1346

01:03:36,540 --> 01:03:34,240

something I think from the beginning

1347

01:03:38,550 --> 01:03:36,550

that I want you know I've always soon as

1348

01:03:40,920 --> 01:03:38,560

I saw the original video being released

1349

01:03:45,480 --> 01:03:40,930

into the public I'm like where's the

1350

01:03:49,050 --> 01:03:45,490

rest of this video good and and it may

1351

01:03:50,910 --> 01:03:49,060

not be as interesting as people may

1352

01:03:52,740 --> 01:03:50,920

think or even some of the pilots may try

1353

01:03:57,000 --> 01:03:52,750

to downplay it but what you know what

1354

01:04:00,120 --> 01:03:57,010

what's not interesting to you yeah if

1355

01:04:03,530 --> 01:04:00,130

then well just the movements of the

1356

01:04:08,460 --> 01:04:03,540

thing and with no you know there's no

1357

01:04:10,830 --> 01:04:08,470

visible propulsion no wings you know I

1358

01:04:13,620 --> 01:04:10,840

mean it just defies what we know at this

1359

01:04:18,000 --> 01:04:13,630

point so you know I think it's pretty

1360

01:04:19,800 --> 01:04:18,010

incredible once the thing moved it was

1361

01:04:22,080 --> 01:04:19,810

like it had a mind of its own like it

1362

01:04:25,610 --> 01:04:22,090

wanted to go 20:02 point be at this set

1363

01:04:29,070 --> 01:04:25,620

speed and that's where it went quickly

1364

01:04:31,290 --> 01:04:29,080

yeah describe it there was no

1365

01:04:33,480 --> 01:04:31,300

acceleration like you see in modern

1366

01:04:35,670 --> 01:04:33,490

vehicles they there's a slow

1367

01:04:38,660 --> 01:04:35,680

acceleration or fast acceleration the

1368

01:04:41,730 --> 01:04:38,670

thing was just accelerate and stop

1369

01:04:43,800 --> 01:04:41,740

wherever it was going now what was your

1370

01:04:49,650 --> 01:04:43,810

position so you're actually able to view

1371

01:04:53,550 --> 01:04:49,660

this thing yeah I worked in supply s1 on

1372

01:04:55,800 --> 01:04:53,560

the ship okay I just taken up a computer

1373

01:04:57,510 --> 01:04:55,810

board up to cess

1374

01:04:59,730 --> 01:04:57,520

to give it to them and I went incest

1375

01:05:02,220 --> 01:04:59,740

course you have to sign in so there's a

1376

01:05:04,890 --> 01:05:02,230

there's a log there and when I went in

1377

01:05:09,420 --> 01:05:04,900

it was just it was I guess it was

1378

01:05:14,700 --> 01:05:09,430

playing on a loop well yeah success at

1379

01:05:16,860 --> 01:05:14,710

the time yeah friend of mine it's uh if

1380

01:05:20,190 --> 01:05:16,870

this was real world or was this part of

1381

01:05:22,050 --> 01:05:20,200

the workup we were doing it he was I

1382

01:05:25,770 --> 01:05:22,060

know this is real world that's real

1383

01:05:28,290 --> 01:05:25,780

world and that was the video Wow

1384

01:05:28,860 --> 01:05:28,300

and hey Martin I hey Martin oh what a

1385

01:05:31,860 --> 01:05:28,870

hit

1386

01:05:34,350 --> 01:05:31,870

I've been in real quick about you had

1387

01:05:37,710 --> 01:05:34,360

you had a caller ask or say something

1388

01:05:41,070 --> 01:05:37,720

about Craver and the need to know and I

1389

01:05:44,850 --> 01:05:41,080

remember during Kramer's interview on

1390

01:05:47,040 --> 01:05:44,860

Joe Rogan I believe he was saying you

1391

01:05:50,850 --> 01:05:47,050

know like oh if you know if somebody had

1392

01:05:53,370 --> 01:05:50,860

came and and taken you know the the

1393

01:05:55,200 --> 01:05:53,380

bricks you know I would know because you

1394

01:05:59,250 --> 01:05:55,210

know I I know everything that happens

1395

01:06:04,440 --> 01:05:59,260

but earlier in the interview he was he

1396

01:06:08,790 --> 01:06:04,450

was complaining about how the Navy had

1397

01:06:09,630 --> 01:06:08,800

been observing the the objects for about

1398

01:06:13,710 --> 01:06:09,640

two weeks

1399

01:06:16,650 --> 01:06:13,720

and he was mad because when he went up

1400

01:06:20,790 --> 01:06:16,660

and he encountered them

1401

01:06:23,760 --> 01:06:20,800

he was upset because they didn't tell

1402

01:06:27,510 --> 01:06:23,770

him that these objects had been seen

1403

01:06:30,150 --> 01:06:27,520

prior so if he was in the need to know

1404

01:06:33,270 --> 01:06:30,160

about everything why wouldn't he have

1405

01:06:36,960 --> 01:06:33,280

known that those things were up there

1406

01:06:38,670 --> 01:06:36,970

that kind of contradicts him in a way of

1407

01:06:42,270 --> 01:06:38,680

him saying he knows everything

1408

01:06:45,030 --> 01:06:42,280

hmm see what I mean yeah so right there

1409

01:06:47,310 --> 01:06:45,040

tells you that obviously he doesn't know

1410

01:06:49,640 --> 01:06:47,320

everything because if he did he would

1411

01:06:53,010 --> 01:06:49,650

have known those things were up there

1412

01:06:56,900 --> 01:06:53,020

that's a pretty good point Dave I know

1413

01:07:00,600 --> 01:06:56,910

that you were pretty involved with this

1414

01:07:02,970 --> 01:07:00,610

this trip going out on the Pacific you

1415

01:07:06,270 --> 01:07:02,980

know a lot about it can you talk just

1416

01:07:09,720 --> 01:07:06,280

fill us in a little bit on that yeah I

1417

01:07:14,849 --> 01:07:09,730

mean right now we're kind of

1418

01:07:16,800 --> 01:07:14,859

cause obviously um so you know although

1419

01:07:20,070 --> 01:07:16,810

we're all doing you know our own

1420

01:07:23,340 --> 01:07:20,080

personal research of what we can to get

1421

01:07:25,830 --> 01:07:23,350

it started you know we really haven't

1422

01:07:28,470 --> 01:07:25,840

been talking much about when we're

1423

01:07:32,430 --> 01:07:28,480

actually going to be going or how long I

1424

01:07:35,190 --> 01:07:32,440

mean until this this virus thing and you

1425

01:07:37,200 --> 01:07:35,200

know the the stay in place goes away

1426

01:07:41,880 --> 01:07:37,210

we're just kind of you know

1427

01:07:45,690 --> 01:07:41,890

wait just waiting yeah you know it all a

1428

01:07:48,210 --> 01:07:45,700

lot of it also depends on funding we've

1429

01:07:51,359 --> 01:07:48,220

got a Kevin Knuth is working on some

1430

01:07:54,720 --> 01:07:51,369

grants you know which is also obviously

1431

01:07:58,770 --> 01:07:54,730

on paws but the one thing I did hear you

1432

01:08:01,410 --> 01:07:58,780

asked about was the technology of what

1433

01:08:06,599 --> 01:08:01,420

type of yeah technology is being

1434

01:08:10,349 --> 01:08:06,609

developed we are speaking with a couple

1435

01:08:13,320 --> 01:08:10,359

of companies that are you know fortune

1436

01:08:15,840 --> 01:08:13,330

500 a I companies technology companies

1437

01:08:20,220 --> 01:08:15,850

that are are willing to work with us and

1438

01:08:22,559 --> 01:08:20,230

help us one of our guys is is a is a

1439

01:08:27,210 --> 01:08:22,569

very smart gentleman named Dave Mason

1440

01:08:30,690 --> 01:08:27,220

and he's been developing some great new

1441

01:08:34,620 --> 01:08:30,700

technology that has to do with you know

1442

01:08:37,829 --> 01:08:34,630

with night vision and all sorts of

1443

01:08:39,780 --> 01:08:37,839

different sonar and radar and we're

1444

01:08:42,570 --> 01:08:39,790

having a lot of things custom custom

1445

01:08:47,039 --> 01:08:42,580

built that has never been used before so

1446

01:08:48,720 --> 01:08:47,049

I guess in a way us having to wait is is

1447

01:08:51,749 --> 01:08:48,730

also a good thing because while we're

1448

01:08:53,910 --> 01:08:51,759

waiting these guys are spending their

1449

01:08:57,990 --> 01:08:53,920

time building new technologies to help

1450

01:09:00,960 --> 01:08:58,000

us yeah oh that that works how about

1451

01:09:05,340 --> 01:09:00,970

that before you go Jason just one one

1452

01:09:06,809 --> 01:09:05,350

other question were you told at the time

1453

01:09:10,140 --> 01:09:06,819

when you saw this video

1454

01:09:11,970 --> 01:09:10,150

were you told anything like well you

1455

01:09:14,160 --> 01:09:11,980

know maybe you shouldn't be seeing this

1456

01:09:18,860 --> 01:09:14,170

or or maybe you shouldn't talk about

1457

01:09:23,769 --> 01:09:18,870

anything like that no that was never

1458

01:09:25,930 --> 01:09:23,779

spoken anybody that I know whoa

1459

01:09:28,090 --> 01:09:25,940

on the ship and I said you know few

1460

01:09:31,629 --> 01:09:28,100

other people that may have bet that when

1461

01:09:34,809 --> 01:09:31,639

those people come and got the Hungarian

1462

01:09:37,059 --> 01:09:34,819

Kevin but no like again it was just

1463

01:09:38,769 --> 01:09:37,069

happen camp that I was there and it

1464

01:09:43,539 --> 01:09:38,779

happened I was kind of under the radar

1465

01:09:45,640 --> 01:09:43,549

and you know here we are yeah

1466

01:09:50,740 --> 01:09:45,650

and and how did you end up coming

1467

01:09:53,709 --> 01:09:50,750

forward with this I saw Dave's video and

1468

01:09:57,700 --> 01:09:53,719

I just contacted actually contacted

1469

01:09:59,709 --> 01:09:57,710

Kevin and of course we all got back

1470

01:10:01,899 --> 01:09:59,719

together and just kind of discussed

1471

01:10:07,689 --> 01:10:01,909

going public with it and they kind of

1472

01:10:10,030 --> 01:10:07,699

encouraged me to talk well I'm glad you

1473

01:10:15,060 --> 01:10:10,040

did too and I sure would love to see

1474

01:10:18,250 --> 01:10:15,070

that video and I tell you those like

1475

01:10:19,570 --> 01:10:18,260

even just from me coming forward we've a

1476

01:10:21,970 --> 01:10:19,580

we've been able to kind of piece

1477

01:10:24,879 --> 01:10:21,980

together all of these little dots that

1478

01:10:26,500 --> 01:10:24,889

are everywhere and you know there's been

1479

01:10:28,450 --> 01:10:26,510

people in the backend that are doing

1480

01:10:30,430 --> 01:10:28,460

open record requests and through the

1481

01:10:33,330 --> 01:10:30,440

Freedom of Information Act and it

1482

01:10:37,629 --> 01:10:33,340

validates everything everybody say and

1483

01:10:39,820 --> 01:10:37,639

to me that's an even bigger victory to

1484

01:10:42,570 --> 01:10:39,830

all of this is now that the government

1485

01:10:46,390 --> 01:10:42,580

is finally having to acknowledge it

1486

01:10:50,080 --> 01:10:46,400

right great that's right well hey thanks

1487

01:10:51,550 --> 01:10:50,090

so much for the call yeah anything else

1488

01:10:53,830 --> 01:10:51,560

I want to put out there why are you

1489

01:10:56,680 --> 01:10:53,840

there why are you run I'm gonna I'm

1490

01:11:00,760 --> 01:10:56,690

gonna I'm gonna post in the chat room

1491

01:11:03,370 --> 01:11:00,770

the UAP expedition website that PJ built

1492

01:11:05,530 --> 01:11:03,380

it's still being made by people can at

1493

01:11:08,500 --> 01:11:05,540

least go and and check out what we got

1494

01:11:09,570 --> 01:11:08,510

up there so far all right all right all

1495

01:11:11,830 --> 01:11:09,580

sounds good

1496

01:11:17,100 --> 01:11:11,840

hey thanks for the call I really

1497

01:11:20,919 --> 01:11:17,110

appreciate it and nice time take care PJ

1498

01:11:23,649 --> 01:11:20,929

right right all right so I'm gonna spill

1499

01:11:28,390 --> 01:11:23,659

the beans the next caller wins a t-shirt

1500

01:11:30,510 --> 01:11:28,400

so if you call in at eight five five

1501

01:11:34,209 --> 01:11:30,520

four seven two five four eight three

1502

01:11:36,070 --> 01:11:34,219

that is we had two callers on this one

1503

01:11:37,180 --> 01:11:36,080

so this would that would be three

1504

01:11:39,700 --> 01:11:37,190

callers altogether this

1505

01:11:41,920 --> 01:11:39,710

be the fourth caller and pj picked

1506

01:11:44,430 --> 01:11:41,930

number four as one of the numbers so

1507

01:11:47,020 --> 01:11:44,440

next caller calls n gets a free t-shirt

1508

01:11:48,729 --> 01:11:47,030

sent to you free and you can pick it out

1509

01:11:51,840 --> 01:11:48,739

and all that stuff that information is

1510

01:11:54,520 --> 01:11:51,850

all on podcast UFO comm we have a link

1511

01:11:58,060 --> 01:11:54,530

that I forget exactly what it says

1512

01:12:00,400 --> 01:11:58,070

something like items I don't know if it

1513

01:12:02,290 --> 01:12:00,410

says t-shirts no I never look at my own

1514

01:12:04,360 --> 01:12:02,300

website but it's over there I think it

1515

01:12:10,320 --> 01:12:04,370

says merchandise I believe so

1516

01:12:14,020 --> 01:12:10,330

anyway the number the line is open so so

1517

01:12:18,550 --> 01:12:14,030

PJ had you been in touch with the Jason

1518

01:12:21,310 --> 01:12:18,560

all along him and I reached out to Dave

1519

01:12:24,550 --> 01:12:21,320

Beatty roughly the same time I see we

1520

01:12:26,490 --> 01:12:24,560

actually have a little facebook chat the

1521

01:12:30,130 --> 01:12:26,500

group of us are in and we talked

1522

01:12:32,439 --> 01:12:30,140

relatively Bailey almost oh wow great

1523

01:12:35,770 --> 01:12:32,449

alright so I'm gonna pull over the

1524

01:12:37,180 --> 01:12:35,780

t-shirts so someone can look at it we do

1525

01:12:40,870 --> 01:12:37,190

have someone that just called in and

1526

01:12:43,090 --> 01:12:40,880

they are a lucky winner of the t-shirt I

1527

01:12:45,900 --> 01:12:43,100

just don't see their name there yet

1528

01:12:48,610 --> 01:12:45,910

oh they're being screened right now so

1529

01:12:51,040 --> 01:12:48,620

do you think that there is a future

1530

01:12:52,540 --> 01:12:51,050

where someone will actually figure out

1531

01:12:53,939 --> 01:12:52,550

what these things are do you think it's

1532

01:12:57,729 --> 01:12:53,949

hopeless

1533

01:12:59,110 --> 01:12:57,739

um at some point we're gonna find out

1534

01:13:02,439 --> 01:12:59,120

what it is I don't know what the

1535

01:13:03,310 --> 01:13:02,449

timeline is but at some point the answer

1536

01:13:06,580 --> 01:13:03,320

is gonna come out

1537

01:13:10,180 --> 01:13:06,590

I hope it's before I die yeah yeah that

1538

01:13:14,050 --> 01:13:10,190

would be really great to to know what

1539

01:13:17,380 --> 01:13:14,060

these things are and you know again on

1540

01:13:19,870 --> 01:13:17,390

this show I try to stay away from saying

1541

01:13:24,220 --> 01:13:19,880

that I know what these are but they

1542

01:13:27,340 --> 01:13:24,230

certainly do have capabilities that are

1543

01:13:31,840 --> 01:13:27,350

just not known that we know about as far

1544

01:13:37,360 --> 01:13:31,850

as I know a lot of physics alone yeah I

1545

01:13:41,020 --> 01:13:37,370

don't even find what we know yep all

1546

01:13:43,900 --> 01:13:41,030

right very good so we have Ron calling

1547

01:13:45,400 --> 01:13:43,910

from Minnesota and I understand that the

1548

01:13:47,770 --> 01:13:45,410

screeener has taken all your information

1549

01:13:50,120 --> 01:13:47,780

for the t-shirt congratulations you got

1550

01:13:54,340 --> 01:13:50,130

yourself a teacher

1551

01:13:58,840 --> 01:13:54,350

thank you thank you Mark sure yes I

1552

01:14:06,650 --> 01:13:58,850

tuned in late sorry about that but I

1553

01:14:09,650 --> 01:14:06,660

remembered that it was on anyway thank

1554

01:14:13,850 --> 01:14:09,660

you thank you what do you what do you

1555

01:14:17,750 --> 01:14:13,860

think about the attack situation what do

1556

01:14:20,840 --> 01:14:17,760

you think it actually is and what do you

1557

01:14:23,440 --> 01:14:20,850

what do you think about moving forward

1558

01:14:27,860 --> 01:14:23,450

with doing a research as far as

1559

01:14:31,070 --> 01:14:27,870

evaluating what what we are looking at

1560

01:14:38,350 --> 01:14:31,080

and should we be concerned about our

1561

01:14:43,340 --> 01:14:38,360

safety and security and Alecto um I

1562

01:14:45,560 --> 01:14:43,350

don't know what it is I would like to

1563

01:14:47,420 --> 01:14:45,570

think it's our technology it could be

1564

01:14:52,610 --> 01:14:47,430

alien technology I don't know there's

1565

01:14:55,310 --> 01:14:52,620

not enough evidence either way as for

1566

01:14:57,220 --> 01:14:55,320

who's researching it I know we are as a

1567

01:15:01,310 --> 01:14:57,230

group with you a px

1568

01:15:03,950 --> 01:15:01,320

I'm sure T TSA is still looking into it

1569

01:15:06,200 --> 01:15:03,960

and who knows what other organizations

1570

01:15:10,280 --> 01:15:06,210

may or may not be looking into it I

1571

01:15:11,780 --> 01:15:10,290

don't know that answer as for do we have

1572

01:15:14,750 --> 01:15:11,790

to be scared about it I don't really

1573

01:15:16,970 --> 01:15:14,760

know I mean it it showed no outward

1574

01:15:20,150 --> 01:15:16,980

hostile actions when we interacted with

1575

01:15:24,770 --> 01:15:20,160

it it seemed like from the descriptions

1576

01:15:26,300 --> 01:15:24,780

given by flavor and all the other pilots

1577

01:15:29,780 --> 01:15:26,310

who saw it he might be was just toying

1578

01:15:32,300 --> 01:15:29,790

with us they never tried to hurt anybody

1579

01:15:34,310 --> 01:15:32,310

never tried to harm us so I wouldn't

1580

01:15:36,280 --> 01:15:34,320

think we need to be scared of it that's

1581

01:15:38,720 --> 01:15:36,290

just my opinion

1582

01:15:41,720 --> 01:15:38,730

thank you very much thank you for your

1583

01:15:44,240 --> 01:15:41,730

time and your and your work you're doing

1584

01:15:46,850 --> 01:15:44,250

Thank You Martin you're home all right

1585

01:15:48,500 --> 01:15:46,860

no and you'll get a t-shirt you gotta

1586

01:15:50,600 --> 01:15:48,510

just go to our website and pick it out

1587

01:15:53,600 --> 01:15:50,610

why don't you email me I know he got his

1588

01:15:55,910 --> 01:15:53,610

his uh he got your information but you

1589

01:15:58,970 --> 01:15:55,920

want to go to my website and check out

1590

01:16:02,000 --> 01:15:58,980

of the type of t-shirt and and it's

1591

01:16:04,360 --> 01:16:02,010

yours we'll get it out to you all right

1592

01:16:06,830 --> 01:16:04,370

thank you very much all right take care

1593

01:16:11,510 --> 01:16:06,840

alright so there's still something to be

1594

01:16:13,520 --> 01:16:11,520

won by an upcoming caller and anyway

1595

01:16:17,300 --> 01:16:13,530

that number is eight five five four

1596

01:16:19,880 --> 01:16:17,310

seven two five four eight three yeah I

1597

01:16:22,970 --> 01:16:19,890

mean right off the bat I would say that

1598

01:16:25,790 --> 01:16:22,980

if if you can't replicate what's going

1599

01:16:27,110 --> 01:16:25,800

on with that technology it can be scary

1600

01:16:29,899 --> 01:16:27,120

you know that's something you don't hear

1601

01:16:32,600 --> 01:16:29,909

a lot of people really talking about but

1602

01:16:36,320 --> 01:16:32,610

I mean think of the capabilities if it

1603

01:16:39,560 --> 01:16:36,330

could do I mean that I mean we we saw or

1604

01:16:41,840 --> 01:16:39,570

you saw or they saw what it could do but

1605

01:16:43,959 --> 01:16:41,850

not everything it could do you know we

1606

01:16:48,800 --> 01:16:43,969

have no idea what else we they do

1607

01:16:51,010 --> 01:16:48,810

I'm sure there's there's a lot of okay

1608

01:16:55,419 --> 01:16:51,020

there's still a lot of unknown with it

1609

01:16:59,870 --> 01:16:55,429

but they said just based on what we saw

1610

01:17:02,720 --> 01:16:59,880

it could be you know in LA and then you

1611

01:17:06,140 --> 01:17:02,730

know thirty seconds later be over China

1612

01:17:08,689 --> 01:17:06,150

or yeah now like there's no telling how

1613

01:17:11,930 --> 01:17:08,699

fast it could truly go or what its

1614

01:17:13,430 --> 01:17:11,940

limits off yeah no yeah that's that's

1615

01:17:15,770 --> 01:17:13,440

that's something never really thought of

1616

01:17:19,850 --> 01:17:15,780

but you we really don't know if that was

1617

01:17:22,580 --> 01:17:19,860

full speed ahead what it was doing you

1618

01:17:23,090 --> 01:17:22,590

know yeah that may have been just half

1619

01:17:26,540 --> 01:17:23,100

throttle

1620

01:17:29,479 --> 01:17:26,550

you never know okay I'm ready to take we

1621

01:17:32,060 --> 01:17:29,489

have another caller and that's we have

1622

01:17:35,149 --> 01:17:32,070

Chris calling from Houston how are you

1623

01:17:35,990 --> 01:17:35,159

Chris welcome to the show hi thanks for

1624

01:17:40,130 --> 01:17:36,000

having me

1625

01:17:43,100 --> 01:17:40,140

I I called a couple weeks ago few weeks

1626
01:17:46,090 --> 01:17:43,110
ago and you mention that I should call

1627
01:17:49,790 --> 01:17:46,100
uh of course great classic right Oh a

1628
01:17:52,760 --> 01:17:49,800
couple of about the tic-tacs and we had

1629
01:17:53,120 --> 01:17:52,770
spoken a bit about what they might be or

1630
01:17:56,510 --> 01:17:53,130
not be

1631
01:17:59,240 --> 01:17:56,520
and so I had a couple of analogy of what

1632
01:18:00,830 --> 01:17:59,250
a throw past your guests and cn2 they

1633
01:18:03,290 --> 01:18:00,840
have question but the question comes

1634
01:18:06,380 --> 01:18:03,300
from the analogies one is the behavior

1635
01:18:08,899 --> 01:18:06,390
of these things and seems like in one

1636
01:18:12,020 --> 01:18:08,909
way sir like a laser they keep like

1637
01:18:15,080 --> 01:18:12,030
point to make a cat chase after it and

1638
01:18:17,209 --> 01:18:15,090

so you know in the speed of the movement

1639

01:18:17,750 --> 01:18:17,219

have no from place to place mind at the

1640

01:18:19,610 --> 01:18:17,760

tone

1641

01:18:22,340 --> 01:18:19,620

and I think you know if you had

1642

01:18:26,479 --> 01:18:22,350

something that was like triangulated

1643

01:18:28,460 --> 01:18:26,489

lasers from from orbit that I mean it is

1644

01:18:30,890 --> 01:18:28,470

it theoretically possible to create a

1645

01:18:33,830 --> 01:18:30,900

three-dimensional image that bounces

1646

01:18:37,190 --> 01:18:33,840

back instrumentation signals to aircraft

1647

01:18:38,600 --> 01:18:37,200

that reads like an object and visually

1648

01:18:41,150 --> 01:18:38,610

looks like an object but is not an

1649

01:18:44,510 --> 01:18:41,160

object so that's one analogy as the

1650

01:18:50,720 --> 01:18:44,520

laser pointer and the cats chase the

1651

01:18:52,430 --> 01:18:50,730

other one would be a whole gear now

1652

01:18:54,710 --> 01:18:52,440

forgotten the second analogy well just

1653

01:18:58,070 --> 01:18:54,720

go with the first analogy so the

1654

01:19:00,260 --> 01:18:58,080

question is do without getting into

1655

01:19:03,410 --> 01:19:00,270

specifics the kind of instruments that

1656

01:19:05,450 --> 01:19:03,420

we have would we be able to know that

1657

01:19:11,350 --> 01:19:05,460

something that reads like an object is

1658

01:19:15,050 --> 01:19:11,360

really an object that's short answer is

1659

01:19:17,180 --> 01:19:15,060

yes it is arenites an outside

1660

01:19:21,560 --> 01:19:17,190

possibility that whatever technology

1661

01:19:25,640 --> 01:19:21,570

that was couldn't wear you know might

1662

01:19:30,440 --> 01:19:25,650

not be able to verify it but based on

1663

01:19:32,780 --> 01:19:30,450

what I know about my radar my ESM and

1664

01:19:35,540 --> 01:19:32,790

all the other things in use on my

1665

01:19:41,600 --> 01:19:35,550

airplane what I know about the

1666

01:19:44,200 --> 01:19:41,610

Princeton's radar there's no way you're

1667

01:19:47,450 --> 01:19:44,210

going to be able to fool all of them

1668

01:19:52,850 --> 01:19:47,460

with a Tec with a hologram technology or

1669

01:19:57,050 --> 01:19:52,860

a you know technology those lines is it

1670

01:19:59,300 --> 01:19:57,060

possible to slip past one of them yeah

1671

01:20:01,010 --> 01:19:59,310

you know you can technically Jam one of

1672

01:20:05,600 --> 01:20:01,020

them if you've really really tried hard

1673

01:20:09,470 --> 01:20:05,610

but getting past all of them and fooling

1674

01:20:12,260 --> 01:20:09,480

all of them I don't see it happening

1675

01:20:19,180 --> 01:20:12,270

based on the capabilities of that

1676

01:20:21,410 --> 01:20:19,190

technology yeah awesome answer I think I

1677

01:20:24,170 --> 01:20:21,420

yeah I thought the other analogy and

1678

01:20:25,610 --> 01:20:24,180

that is when we if you were down in a

1679

01:20:29,000 --> 01:20:25,620

trench at the bottom of the ocean and

1680

01:20:30,680 --> 01:20:29,010

you encountered a an instrument or

1681

01:20:32,000 --> 01:20:30,690

something unusual that wasn't supposed

1682

01:20:34,790 --> 01:20:32,010

to be there

1683

01:20:38,930 --> 01:20:34,800

that behave like nothing else there and

1684

01:20:40,940 --> 01:20:38,940

and it was coming from those surface

1685

01:20:42,740 --> 01:20:40,950

what would you assume it was and what it

1686

01:20:45,650 --> 01:20:42,750

probably would be would be a research

1687

01:20:47,840 --> 01:20:45,660

drone or an instrument taking readings

1688

01:20:50,000 --> 01:20:47,850

doing research observing with no living

1689

01:20:52,820 --> 01:20:50,010

being on board sending images to

1690

01:20:55,520 --> 01:20:52,830

somewhere else so in this if you think

1691

01:20:56,870 --> 01:20:55,530

the atmosphere is the ocean I mean it

1692

01:20:59,930 --> 01:20:56,880

could be that these things are just

1693

01:21:02,360 --> 01:20:59,940

instruments taking readings so that's it

1694

01:21:05,020 --> 01:21:02,370

I love you coming I'll take it off here

1695

01:21:14,780 --> 01:21:05,030

thanks so much thank you great Cheryl

1696

01:21:19,640 --> 01:21:14,790

thanks I mean it's it's possible it was

1697

01:21:22,280 --> 01:21:19,650

a I mean obviously it could be a drone

1698

01:21:24,380 --> 01:21:22,290

it could be some sort of research

1699

01:21:27,530 --> 01:21:24,390

technology bouncing around learning

1700

01:21:29,990 --> 01:21:27,540

things there's some speculation that it

1701

01:21:36,820 --> 01:21:30,000

was chasing after the whales for for all

1702

01:21:42,830 --> 01:21:39,740

yeah that's a whale migration direct ray

1703

01:21:46,190 --> 01:21:42,840

it happens right there right I think

1704

01:21:48,470 --> 01:21:46,200

it's right along the coast there yeah we

1705

01:21:51,320 --> 01:21:48,480

have a question that came in from

1706

01:21:54,710 --> 01:21:51,330

ufologist on chat he wanted me to ask

1707

01:22:00,830 --> 01:21:54,720

you if you ever saw anything any type of

1708

01:22:03,800 --> 01:22:00,840

UFO prior or since I have not I said I

1709

01:22:10,970 --> 01:22:03,810

also really have been looking closest to

1710

01:22:14,960 --> 01:22:10,980

anything I seem was doing a night-vision

1711

01:22:17,720 --> 01:22:14,970

goggle sky tour thing out in Laughlin

1712

01:22:21,890 --> 01:22:17,730

Nevada when we did when the group of us

1713

01:22:25,250 --> 01:22:21,900

went out to Megacon last year and there

1714

01:22:27,290 --> 01:22:25,260

was a lot of stuff in the sky I know

1715

01:22:28,940 --> 01:22:27,300

some of them are satellites but other

1716

01:22:30,920 --> 01:22:28,950

ones who knows what they were I don't

1717

01:22:32,570 --> 01:22:30,930

know what they were but all I saw was a

1718

01:22:35,570 --> 01:22:32,580

little green dot on the black screen so

1719

01:22:37,840 --> 01:22:35,580

it's kind of hard to say yeah well I'll

1720

01:22:41,660 --> 01:22:37,850

tell you once you have a UFO sighting

1721

01:22:43,610 --> 01:22:41,670

you will look up in the sky that's what

1722

01:22:44,910 --> 01:22:43,620

I found that's what I found for myself

1723

01:22:46,740 --> 01:22:44,920

once I you know

1724

01:22:48,870 --> 01:22:46,750

I had my sighting I'm always looking I

1725

01:22:52,040 --> 01:22:48,880

can't help but look but I also like

1726

01:22:57,510 --> 01:22:52,050

astronomy as well what's that I am 100%

1727

01:23:01,560 --> 01:22:57,520

open to - UFOs - aliens - - all of that

1728

01:23:05,310 --> 01:23:01,570

I'm not I'm not a skeptic I'm not yeah I

1729

01:23:07,470 --> 01:23:05,320

just kind of need to see for myself

1730

01:23:10,110 --> 01:23:07,480

yeah it happened I'd be all for it yeah

1731

01:23:13,320 --> 01:23:10,120

yeah you guys be the first to know right

1732

01:23:15,630 --> 01:23:13,330

and you know a lot of a lot of I wonder

1733

01:23:17,669 --> 01:23:15,640

how many skeptics would change their

1734

01:23:19,140 --> 01:23:17,679

mind on this if they actually saw

1735

01:23:21,209 --> 01:23:19,150

something themselves you know I mean

1736

01:23:22,709 --> 01:23:21,219

would they or would they not you know

1737

01:23:25,890 --> 01:23:22,719

who knows

1738

01:23:27,360 --> 01:23:25,900

I had Seth Shostak on and you know he he

1739

01:23:30,270 --> 01:23:27,370

said I saw something that I thought was

1740

01:23:32,550 --> 01:23:30,280

UFO once and it was a missile launch off

1741

01:23:34,680 --> 01:23:32,560

off of California which they are

1742

01:23:37,979 --> 01:23:34,690

spectacular they can be spectacular in

1743

01:23:39,720 --> 01:23:37,989

the upper atmosphere so a lot of people

1744

01:23:42,510 --> 01:23:39,730

do see those and think you know right

1745

01:23:44,070 --> 01:23:42,520

off the bat that's what it's a UFO it is

1746

01:23:47,850 --> 01:23:44,080

a UFO until you know what it is

1747

01:23:51,300 --> 01:23:47,860

basically but it has the rap you know

1748

01:23:52,380 --> 01:23:51,310

the bad yes you ap you can call it that

1749

01:23:58,080 --> 01:23:52,390

whatever you want I should have named

1750

01:24:01,110 --> 01:23:58,090

this show podcast you of UAP anyway the

1751
01:24:03,600 --> 01:24:01,120
number is the lines open and next caller

1752
01:24:09,780 --> 01:24:03,610
wins artwork so eight five five four

1753
01:24:13,200 --> 01:24:09,790
seven two five four eight three and so I

1754
01:24:15,930 --> 01:24:13,210
guess I'd have to ask you you know when

1755
01:24:18,060 --> 01:24:15,940
you reflect on this whole thing and I

1756
01:24:19,320 --> 01:24:18,070
just saw your your message in chat do

1757
01:24:20,340 --> 01:24:19,330
you you don't think this whole thing was

1758
01:24:27,750 --> 01:24:20,350
that big of a deal

1759
01:24:32,820 --> 01:24:27,760
and overall or yes and no I mean based

1760
01:24:35,669 --> 01:24:32,830
on everything that's come to light since

1761
01:24:41,100 --> 01:24:35,679
you know we've gone public and we've

1762
01:24:43,169 --> 01:24:41,110
learned a whole bunch but at the same

1763
01:24:45,780 --> 01:24:43,179

time it without knowing the answer it's

1764

01:24:49,620 --> 01:24:45,790

kind of hard to kind of hard to get

1765

01:24:52,110 --> 01:24:49,630

excited about it yeah yeah I know that

1766

01:24:56,450 --> 01:24:52,120

that is that is probably frustrating in

1767

01:24:58,950 --> 01:24:56,460

a way and do you have like a network

1768

01:25:01,229 --> 01:24:58,960

like the private Facebook page too

1769

01:25:02,910 --> 01:25:01,239

a network where you communicate or just

1770

01:25:07,170 --> 01:25:02,920

each other's email addresses that you

1771

01:25:09,390 --> 01:25:07,180

you talk to other people involved the

1772

01:25:11,400 --> 01:25:09,400

like said that the group of us on

1773

01:25:13,830 --> 01:25:11,410

Facebook have a group chat that we stay

1774

01:25:18,270 --> 01:25:13,840

in touch in I see oh I got it the group

1775

01:25:23,820 --> 01:25:18,280

chat all right yeah we've named the the

1776

01:25:26,220 --> 01:25:23,830

oh jeez it's just that the small group

1777

01:25:29,100 --> 01:25:26,230

or the original ones of us that you know

1778

01:25:31,170 --> 01:25:29,110

we talk about how we share stuff we we

1779

01:25:33,630 --> 01:25:31,180

help Dave Beatty vet people we do all

1780

01:25:35,670 --> 01:25:33,640

kinds of random stuff now tonight here

1781

01:25:38,250 --> 01:25:35,680

not that long ago that someone else came

1782

01:25:43,650 --> 01:25:38,260

forward maybe about six months ago or

1783

01:25:47,310 --> 01:25:43,660

something like that there is Ryan Wiggly

1784

01:25:49,560 --> 01:25:47,320

I'm not sure his last name who was

1785

01:25:54,330 --> 01:25:49,570

attached to the helicopter squadron on

1786

01:25:56,430 --> 01:25:54,340

the Princeton that came forward yeah

1787

01:26:00,000 --> 01:25:56,440

probably six five six months ago now

1788

01:26:03,330 --> 01:26:00,010

couple months ago and clarified and

1789

01:26:05,910 --> 01:26:03,340

verified parts of Gary Voorhees his

1790

01:26:10,290 --> 01:26:05,920

story about guys coming on to the

1791

01:26:12,090 --> 01:26:10,300

Princeton to take all Gary escapes the

1792

01:26:15,750 --> 01:26:12,100

guys getting off the helicopter walking

1793

01:26:19,950 --> 01:26:15,760

onto the ship etc etc he was witnessed

1794

01:26:24,600 --> 01:26:19,960

all that because he was he was one of

1795

01:26:25,979 --> 01:26:24,610

the helicopter mechanics Princeton and I

1796

01:26:29,220 --> 01:26:25,989

know eight he's working on some other

1797

01:26:31,800 --> 01:26:29,230

guys here and there so yeah and he does

1798

01:26:33,870 --> 01:26:31,810

he does he add the interviews separately

1799

01:26:36,840 --> 01:26:33,880

on his youtube channel which is very

1800

01:26:40,740 --> 01:26:36,850

popular by the way I think he's he's got

1801
01:26:46,320 --> 01:26:40,750
millions of hits on tremendous I mean he

1802
01:26:49,260 --> 01:26:46,330
he had a version of it that just Gary

1803
01:26:52,220 --> 01:26:49,270
and Kevin day helped him create yeah

1804
01:26:55,530 --> 01:26:52,230
then when he flew out to Megacon with us

1805
01:26:58,729 --> 01:26:55,540
he dragged us out to the desert made me

1806
01:27:01,560 --> 01:26:58,739
go for a hike which I did not like and

1807
01:27:03,959 --> 01:27:01,570
far enough and got you know some

1808
01:27:05,550 --> 01:27:03,969
in-depth interviews and those raw

1809
01:27:07,620 --> 01:27:05,560
interview footage for those raw

1810
01:27:10,620 --> 01:27:07,630
interviews he's also shared on his

1811
01:27:12,839 --> 01:27:10,630
channel but he recorded all that to

1812
01:27:15,299 --> 01:27:12,849
extend and make

1813
01:27:19,319 --> 01:27:15,309

his nimitz encounters video which you

1814

01:27:21,810 --> 01:27:19,329

can see up in the corner behind me yep

1815

01:27:23,399 --> 01:27:21,820

to make that longer and he since done

1816

01:27:25,199 --> 01:27:23,409

other interviews like I believe he's got

1817

01:27:29,489 --> 01:27:25,209

Ryan out there he's got Omar Laura up

1818

01:27:31,890 --> 01:27:29,499

there oh yeah I remember when Omar came

1819

01:27:34,549 --> 01:27:31,900

forward I remember that that was was

1820

01:27:40,589 --> 01:27:34,559

that like a year ago or something um

1821

01:27:44,310 --> 01:27:40,599

yeah a couple months after after Gary I

1822

01:27:46,140 --> 01:27:44,320

came forward game following yeah and you

1823

01:27:49,679 --> 01:27:46,150

know by more people coming forward it

1824

01:27:53,100 --> 01:27:49,689

does actually solidify things not that

1825

01:27:55,560 --> 01:27:53,110

we need you know it to be solidified but

1826

01:27:57,270 --> 01:27:55,570

it does you know it just helps you know

1827

01:28:01,049 --> 01:27:57,280

the more people that come forward but

1828

01:28:03,000 --> 01:28:01,059

still you know it doesn't really change

1829

01:28:05,040 --> 01:28:03,010

anything really does it because we

1830

01:28:07,679 --> 01:28:05,050

really don't know too much so it looks

1831

01:28:12,899 --> 01:28:07,689

like you're gonna be sending artwork to

1832

01:28:14,939 --> 01:28:12,909

Norway oh okay sure we have Bart from

1833

01:28:19,560 --> 01:28:14,949

Norway Bart welcome to the show you get

1834

01:28:22,290 --> 01:28:19,570

some artwork coming your way and yeah

1835

01:28:24,089 --> 01:28:22,300

I'm sure you're gonna have to you're

1836

01:28:27,089 --> 01:28:24,099

gonna have to email me and my contact

1837

01:28:29,069 --> 01:28:27,099

information is right on my website but

1838

01:28:32,310 --> 01:28:29,079

go ahead and do that and I'll get this

1839

01:28:34,439 --> 01:28:32,320

sent out to you no problem

1840

01:28:37,199 --> 01:28:34,449

yeah I've seen a couple of emails to you

1841

01:28:42,750 --> 01:28:37,209

last week actually so it's no problem I

1842

01:28:45,770 --> 01:28:42,760

can find it easy oh okay yeah cool you

1843

01:28:48,899 --> 01:28:45,780

have a question for our guest

1844

01:28:51,049 --> 01:28:48,909

um yeah corner first I just wanted to

1845

01:28:53,939 --> 01:28:51,059

say yeah thanks for the show Matt it's

1846

01:28:56,129 --> 01:28:53,949

my favorite show is one of the first

1847

01:28:58,439 --> 01:28:56,139

ones I found and I've been listening to

1848

01:29:01,799 --> 01:28:58,449

you for years and so you keep up the

1849

01:29:04,529 --> 01:29:01,809

good work thank you and I just want to

1850

01:29:10,100 --> 01:29:04,539

say yeah don't roll them it's uh yeah

1851
01:29:10,110 --> 01:29:24,229
Kaman and Garrison

1852
01:29:27,390 --> 01:29:26,009
Bart really

1853
01:29:29,310 --> 01:29:27,400
but we're having trouble with your phone

1854
01:29:32,609 --> 01:29:29,320
I don't know if it's the way it's

1855
01:29:34,350 --> 01:29:32,619
positioned or not but why don't you go

1856
01:29:38,879 --> 01:29:34,360
ahead again we didn't hear what you just

1857
01:29:42,239 --> 01:29:38,889
said okay I'm sorry again I just wanted

1858
01:29:45,899 --> 01:29:42,249
to say thanks to PJ and Auntie Jason and

1859
01:29:47,640 --> 01:29:45,909
can also to Gary if he's listening for

1860
01:29:49,470 --> 01:29:47,650
how the how approachable they are on

1861
01:29:52,859 --> 01:29:49,480
Twitter and how good they are at getting

1862
01:29:54,149 --> 01:29:52,869
back to people and answering questions

1863
01:29:56,520 --> 01:29:54,159

that's one of the reasons I don't have

1864

01:29:57,899 --> 01:29:56,530

too many questions because the guys have

1865

01:30:00,419 --> 01:29:57,909

been really good at answering my

1866

01:30:02,729 --> 01:30:00,429

questions on Twitter all right

1867

01:30:05,160 --> 01:30:02,739

I just want to but I'm yeah I just want

1868

01:30:07,799 --> 01:30:05,170

to live know that and and also I do have

1869

01:30:09,899 --> 01:30:07,809

a question about Omar story I know it's

1870

01:30:12,029 --> 01:30:09,909

been says really fascinated by that

1871

01:30:14,430 --> 01:30:12,039

story and I know it's been said that

1872

01:30:18,239 --> 01:30:14,440

that maybe there's more witnesses coming

1873

01:30:21,180 --> 01:30:18,249

forward with his part of the story

1874

01:30:23,189 --> 01:30:21,190

and I was also curious that if it

1875

01:30:26,489 --> 01:30:23,199

happened so close to the ship wouldn't

1876

01:30:28,709 --> 01:30:26,499

there be radar data on on that incident

1877

01:30:32,759 --> 01:30:28,719

as well and it's just wondering what PJ

1878

01:30:36,569 --> 01:30:32,769

told about that the radars in use on the

1879

01:30:38,339 --> 01:30:36,579

Nimitz are more meant for lack of a

1880

01:30:43,830 --> 01:30:38,349

better term air traffic control than

1881

01:30:46,009 --> 01:30:43,840

anything else but I have to believe that

1882

01:30:49,830 --> 01:30:46,019

right after they left my work space

1883

01:30:52,799 --> 01:30:49,840

right at the end of my passageway is the

1884

01:30:56,359 --> 01:30:52,809

spaces where they had all the Nimitz's

1885

01:30:58,709 --> 01:30:56,369

data and I have no evidence and no

1886

01:31:03,859 --> 01:30:58,719

verification but I'm pretty sure they

1887

01:31:06,149 --> 01:31:03,869

probably took all their stuff too yeah

1888

01:31:11,220 --> 01:31:06,159

yeah I did I just think that's a really

1889

01:31:13,109 --> 01:31:11,230

interesting part of the story that that

1890

01:31:16,470 --> 01:31:13,119

incident be really nice to have more

1891

01:31:18,390 --> 01:31:16,480

more information and any hear more

1892

01:31:24,479 --> 01:31:18,400

people talking about it

1893

01:31:30,029 --> 01:31:24,489

yeah it would be anything else part no

1894

01:31:30,299 --> 01:31:30,039

that's it thank you - all right thanks

1895

01:31:32,640 --> 01:31:30,309

Mike

1896

01:31:36,270 --> 01:31:32,650

have a good night bill the nice for you

1897

01:31:37,290 --> 01:31:36,280

there have a good one yeah I think it's

1898

01:31:38,459 --> 01:31:37,300

probably like two or three in the

1899

01:31:39,639 --> 01:31:38,469

morning over there right now I'm not

1900

01:31:43,199 --> 01:31:39,649

sure it's late

1901

01:31:47,319 --> 01:31:43,209

yeah not a [h__h] I'm already tired I

1902

01:31:49,959 --> 01:31:47,329

know yeah um you know one of the things

1903

01:31:52,750 --> 01:31:49,969

I think I said this to Kevin day and and

1904

01:31:55,299 --> 01:31:52,760

it's just a curious question and would

1905

01:31:55,509 --> 01:31:55,309

be interesting to get your your take on

1906

01:32:09,609 --> 01:31:55,519

it

1907

01:32:11,919 --> 01:32:09,619

had mentioned he you know they had been

1908

01:32:15,369 --> 01:32:11,929

seeing these things these objects for a

1909

01:32:17,259 --> 01:32:15,379

while and I'm not sure exactly what made

1910

01:32:19,989 --> 01:32:17,269

them finally you know go out to the area

1911

01:32:22,359 --> 01:32:19,999

where the objects were but but it just

1912

01:32:24,969 --> 01:32:22,369

seems to me that okay they spotted it

1913

01:32:26,379 --> 01:32:24,979

they saw it wouldn't they want to really

1914

01:32:28,479 --> 01:32:26,389

look into it I mean they have this

1915

01:32:30,369 --> 01:32:28,489

opportunity where they could really try

1916

01:32:32,699 --> 01:32:30,379

to figure out what's going on and that

1917

01:32:35,739 --> 01:32:32,709

just puzzles me I mean the one thing

1918

01:32:38,049 --> 01:32:35,749

everybody has to realize is what we were

1919

01:32:39,369 --> 01:32:38,059

actually doing out there what the

1920

01:32:41,379 --> 01:32:39,379

Princeton was out there for what the

1921

01:32:43,149 --> 01:32:41,389

Nimitz was out there for the Air Wing we

1922

01:32:47,830 --> 01:32:43,159

were out there to train for a deployment

1923

01:32:51,419 --> 01:32:47,840

mm-hmm we there's such a tight schedule

1924

01:32:55,000 --> 01:32:51,429

for everything that needs to be done

1925

01:32:56,290 --> 01:32:55,010

they're not they're not straying from

1926

01:32:59,319 --> 01:32:56,300

that schedule unless they absolutely

1927

01:33:02,709 --> 01:32:59,329

have to one of the reasons Kevin Day was

1928

01:33:06,219 --> 01:33:02,719

able to get them to divert fighters was

1929

01:33:11,290 --> 01:33:06,229

because one he pretty much pestered his

1930

01:33:14,259 --> 01:33:11,300

his Co to doing it oh so he heard about

1931

01:33:17,830 --> 01:33:14,269

it before he he heard about it before he

1932

01:33:21,669 --> 01:33:17,840

actually went out he heard this was

1933

01:33:24,250 --> 01:33:21,679

going on Kevin day no it was Kevin day

1934

01:33:26,859 --> 01:33:24,260

that pestered I see I'm sorry I was

1935

01:33:28,149 --> 01:33:26,869

thinking you said Dave yeah okay no I if

1936

01:33:33,729 --> 01:33:28,159

I did I didn't mean to I meant Kevin

1937

01:33:35,830 --> 01:33:33,739

yeah he he he called it a safety of

1938

01:33:39,040 --> 01:33:35,840

flight issue because these things were

1939

01:33:41,339 --> 01:33:39,050

in our our airspace they're big chunks

1940

01:33:46,149 --> 01:33:41,349

of airspace off the coast of California

1941

01:33:48,279 --> 01:33:46,159

that our exclusion zones for everybody

1942

01:33:53,320 --> 01:33:48,289

else but the military that's where we go

1943

01:33:56,010 --> 01:33:53,330

do our training so when you

1944

01:33:59,530 --> 01:33:56,020

he just happened to honestly get lucky

1945

01:34:02,950 --> 01:33:59,540

he had fighters in the air at the right

1946

01:34:05,350 --> 01:34:02,960

time he had an object on radar at the

1947

01:34:07,090 --> 01:34:05,360

right time and his his commanding

1948

01:34:10,630 --> 01:34:07,100

officer just happened to be like okay

1949

01:34:13,150 --> 01:34:10,640

well let's go look you know that could

1950

01:34:15,430 --> 01:34:13,160

have just as easily not happened they

1951

01:34:16,990 --> 01:34:15,440

could have just as easily kept the

1952

01:34:19,209 --> 01:34:17,000

fighters in the air defense exercise

1953

01:34:22,690 --> 01:34:19,219

training and never gone to look at it I

1954

01:34:24,160 --> 01:34:22,700

see yeah and what about the the mystery

1955

01:34:27,070 --> 01:34:24,170

of this thing I think they call it the

1956

01:34:29,320 --> 01:34:27,080

cat point yes yeah

1957

01:34:31,600 --> 01:34:29,330

can you explain that can you explain

1958

01:34:35,320 --> 01:34:31,610

what happened to the person I may not

1959

01:34:38,800 --> 01:34:35,330

know this the cat point is combat air

1960

01:34:41,680 --> 01:34:38,810

patrol it's a made-up point in the sky

1961

01:34:45,640 --> 01:34:41,690

it's a made-up latitude longitude and

1962

01:34:48,880 --> 01:34:45,650

altitude and that's where they go do

1963

01:34:52,410 --> 01:34:48,890

circles until they're needed mean the

1964

01:34:56,200 --> 01:34:52,420

point changes all the time it's made up

1965

01:34:57,490 --> 01:34:56,210

during mission briefing based on where

1966

01:35:01,360 --> 01:34:57,500

they're going to train and what they're

1967

01:35:03,729 --> 01:35:01,370

doing you know it's not it's not a

1968

01:35:05,560 --> 01:35:03,739

standard point it's not a routine point

1969

01:35:07,840 --> 01:35:05,570

it's not something they use all the time

1970

01:35:12,820 --> 01:35:07,850

it's relatively different all the time

1971

01:35:16,920 --> 01:35:12,830

so the fact that that object knew where

1972

01:35:19,540 --> 01:35:16,930

that cat point was is one of the biggest

1973

01:35:21,729 --> 01:35:19,550

confusing things to this whole story for

1974

01:35:23,170 --> 01:35:21,739

me to wrap my head around because it's

1975

01:35:26,170 --> 01:35:23,180

not something they talked about over the

1976

01:35:29,620 --> 01:35:26,180

radio it's not something that was really

1977

01:35:33,850 --> 01:35:29,630

advertised outside of the guys who were

1978

01:35:36,430 --> 01:35:33,860

briefed for that air defense exercise so

1979

01:35:39,729 --> 01:35:36,440

somehow that object knew where that

1980

01:35:42,670 --> 01:35:39,739

point was yeah and that's something I

1981

01:35:44,350 --> 01:35:42,680

can't I can't solve yet yeah

1982

01:35:46,209 --> 01:35:44,360

yeah that that seems like it's one of

1983

01:35:50,830 --> 01:35:46,219

the big the big mysteries of this whole

1984

01:35:55,180 --> 01:35:50,840

thing yes and because how the heck would

1985

01:35:56,800 --> 01:35:55,190

it know to go there unless unless they

1986

01:35:59,370 --> 01:35:56,810

were all over the place but still I mean

1987

01:36:03,010 --> 01:35:59,380

this is a specific pinpointed place

1988

01:36:05,860 --> 01:36:03,020

exactly and even if it was our

1989

01:36:07,050 --> 01:36:05,870

technology yeah there's still no reason

1990

01:36:09,450 --> 01:36:07,060

anybody off

1991

01:36:12,960 --> 01:36:09,460

that ship would have had that point yeah

1992

01:36:16,880 --> 01:36:12,970

and I think that was a since we both

1993

01:36:20,610 --> 01:36:16,890

watched the same video with the former

1994

01:36:22,290 --> 01:36:20,620

intelligence person supposedly that was

1995

01:36:25,410 --> 01:36:22,300

talking about this he was saying that's

1996

01:36:27,450 --> 01:36:25,420

that's the evidence that the it's Air

1997

01:36:30,000 --> 01:36:27,460

Force right did me say something like

1998

01:36:32,700 --> 01:36:30,010

that yeah relatively but that's all

1999

01:36:34,860 --> 01:36:32,710

problem is there was no reason for that

2000

01:36:37,590 --> 01:36:34,870

information to be sent off the ship yeah

2001

01:36:39,720 --> 01:36:37,600

unless it was a joint exercise with the

2002

01:36:43,440 --> 01:36:39,730

Air Force they would never know that

2003

01:36:47,610 --> 01:36:43,450

yeah and it and I think he was saying it

2004

01:36:49,800 --> 01:36:47,620

was a joint situation but only the above

2005

01:36:50,280 --> 01:36:49,810

tiers knew about it you know that type

2006

01:36:55,950 --> 01:36:50,290

of thing

2007

01:37:00,210 --> 01:36:55,960

and but I mean as far as just say the

2008

01:37:02,640 --> 01:37:00,220

devil's advocate the commanding officer

2009

01:37:04,380 --> 01:37:02,650

would he be setting these points or

2010

01:37:07,110 --> 01:37:04,390

would he know anything about these cap

2011

01:37:09,390 --> 01:37:07,120

points depending what commanding officer

2012

01:37:11,760 --> 01:37:09,400

you're talking about the the skipper of

2013

01:37:15,030 --> 01:37:11,770

the Nimitz job we mount the skipper of

2014

01:37:17,670 --> 01:37:15,040

the Princeton probably not the Hawkeye

2015

01:37:20,700 --> 01:37:17,680

crew would know where that point is yeah

2016

01:37:23,460 --> 01:37:20,710

the people flying and that exercise

2017

01:37:26,670 --> 01:37:23,470

would know where that point is that's it

2018

01:37:29,310 --> 01:37:26,680

they have a handful of briefings before

2019

01:37:31,080 --> 01:37:29,320

they go flying you know they were

2020

01:37:32,790 --> 01:37:31,090

briefed by themselves they will brief

2021

01:37:35,340 --> 01:37:32,800

with the other pilots they agree because

2022

01:37:36,960 --> 01:37:35,350

sometimes it's quat other squadrons so

2023

01:37:38,820 --> 01:37:36,970

they you know go over to one of the

2024

01:37:41,280 --> 01:37:38,830

other ready rooms and briefs now and

2025

01:37:43,260 --> 01:37:41,290

eventually the whole little group for

2026

01:37:45,330 --> 01:37:43,270

that whole training evolution all get

2027

01:37:48,090 --> 01:37:45,340

together and that's when that stuff is

2028

01:37:53,300 --> 01:37:48,100

decided and they already little

2029

01:37:56,190 --> 01:37:53,310

notebooks and go about their day yeah I

2030

01:37:58,580 --> 01:37:56,200

guess the one last question I have we're

2031

01:38:00,600 --> 01:37:58,590

getting near the end of the show here is

2032

01:38:03,930 --> 01:38:00,610

well it's not necessarily my last

2033

01:38:05,940 --> 01:38:03,940

question but a portion is the

2034

01:38:10,800 --> 01:38:05,950

information that they could have gotten

2035

01:38:12,330 --> 01:38:10,810

off of as you call them bricks but with

2036

01:38:14,940 --> 01:38:12,340

that if you actually had that

2037

01:38:18,030 --> 01:38:14,950

information yourself would that just be

2038

01:38:20,040 --> 01:38:18,040

more solidifying of this whole case I

2039

01:38:20,940 --> 01:38:20,050

mean could you actually see what was

2040

01:38:22,200 --> 01:38:20,950

going on by

2041

01:38:25,410 --> 01:38:22,210

with that information that showed the

2042

01:38:28,920 --> 01:38:25,420

radar basically on that I mean

2043

01:38:30,830 --> 01:38:28,930

ultimately what was recorded was not

2044

01:38:34,110 --> 01:38:30,840

only what the sensors on the Hawkeye saw

2045

01:38:36,450 --> 01:38:34,120

but because of datalink and multiple

2046

01:38:38,100 --> 01:38:36,460

data links it also saw with the

2047

01:38:40,380 --> 01:38:38,110

Princeton saw it also saw what the

2048

01:38:43,760 --> 01:38:40,390

Princeton saw or the the fighter saw and

2049

01:38:47,460 --> 01:38:43,770

the Nimitz saw all of that was tied into

2050

01:38:51,540 --> 01:38:47,470

the Hawkeye so I would have Seaton a big

2051
01:38:55,530 --> 01:38:51,550
picture of never going on you know yeah

2052
01:38:57,180 --> 01:38:55,540
there were ground stations in Southern

2053
01:38:59,130 --> 01:38:57,190
California that were tied into a network

2054
01:39:04,230 --> 01:38:59,140
so we would have seen what they were

2055
01:39:06,870 --> 01:39:04,240
seeing well all but specifically if I

2056
01:39:09,090 --> 01:39:06,880
had that data and I had the ability to

2057
01:39:11,850 --> 01:39:09,100
record it and make a copy of it I wish

2058
01:39:12,180 --> 01:39:11,860
to this day I did but I didn't know any

2059
01:39:14,730 --> 01:39:12,190
better

2060
01:39:19,650 --> 01:39:14,740
yeah you know it means a specific

2061
01:39:21,690 --> 01:39:19,660
machine to to read the data but if I had

2062
01:39:25,350 --> 01:39:21,700
acted that machine I could put it in and

2063
01:39:29,270 --> 01:39:25,360

from second zero zero one of that flight

2064

01:39:32,490 --> 01:39:29,280

to however long it took I could see

2065

01:39:35,040 --> 01:39:32,500

everything they saw and just by clicking

2066

01:39:38,660 --> 01:39:35,050

certain things I could check what data

2067

01:39:41,250 --> 01:39:38,670

they saw what they looked at you know

2068

01:39:42,810 --> 01:39:41,260

what rate I was tracking if the rate I

2069

01:39:44,480 --> 01:39:42,820

lost it if the rate I thought it was

2070

01:39:49,320 --> 01:39:44,490

being jammed etcetera etcetera etcetera

2071

01:39:53,400 --> 01:39:49,330

there's a tremendous amount of

2072

01:39:55,320 --> 01:39:53,410

information on those bricks alone that

2073

01:39:59,160 --> 01:39:55,330

may not solve every problem but could

2074

01:40:03,660 --> 01:39:59,170

answer a ton of questions well about

2075

01:40:10,470 --> 01:40:03,670

these and knowing that where that data

2076

01:40:14,040 --> 01:40:10,480

went to get worse because somebody used

2077

01:40:16,710 --> 01:40:14,050

that data to answer more questions that

2078

01:40:20,130 --> 01:40:16,720

would be haven't seen to brief people

2079

01:40:21,960 --> 01:40:20,140

about what this was you know what other

2080

01:40:24,290 --> 01:40:21,970

information that they have to go along

2081

01:40:28,500 --> 01:40:24,300

with all the data that they took from me

2082

01:40:32,370 --> 01:40:28,510

right yeah no it's fascinating now there

2083

01:40:33,960 --> 01:40:32,380

was one someone had mentioned and I

2084

01:40:34,689 --> 01:40:33,970

don't know if this is backed up at all

2085

01:40:37,689 --> 01:40:34,699

we only get them in

2086

01:40:39,969 --> 01:40:37,699

here but was did the tic-tac actually

2087

01:40:42,430 --> 01:40:39,979

block radar or was there any of that or

2088

01:40:45,969 --> 01:40:42,440

is that just a rumor I think it's just a

2089

01:40:47,649 --> 01:40:45,979

rumor there's no indication I'm a

2090

01:40:50,049 --> 01:40:47,659

Hawkeye that was being jammed

2091

01:40:53,020 --> 01:40:50,059

there's no indications on anything I

2092

01:40:56,620 --> 01:40:53,030

have access to that indicated anything

2093

01:40:58,750 --> 01:40:56,630

was being jabbed I see all right hey PJ

2094

01:41:01,719 --> 01:40:58,760

it's been really great talking to you

2095

01:41:03,250 --> 01:41:01,729

tonight thank you so much thank you all

2096

01:41:05,410 --> 01:41:03,260

right I really appreciate coming on your

2097
