

# SOLVING the 1897 AIRSHIP MYSTERY

**MICHAEL  
BUSBY**

1  
00:00:26,689 --> 00:00:15,380

[Music]

2  
00:00:31,979 --> 00:00:29,159

hello and welcome to the show Martin

3  
00:00:34,560 --> 00:00:31,989

will show host and we have great show

4  
00:00:36,960 --> 00:00:34,570

for you this evening first we have a

5  
00:00:38,790 --> 00:00:36,970

special guest John Greenwald and he's

6  
00:00:41,729 --> 00:00:38,800

coming on to talk about it his

7  
00:00:45,180 --> 00:00:41,739

interesting take on the Wilson leaked

8  
00:00:48,660 --> 00:00:45,190

documents we will give a quick recap of

9  
00:00:50,360 --> 00:00:48,670

what that means at first and because

10  
00:00:53,639 --> 00:00:50,370

some of you may not be familiar with

11  
00:00:55,229 --> 00:00:53,649

that subject at all and then we'll go

12  
00:00:59,099 --> 00:00:55,239

into the great research that John has

13  
00:01:02,400 --> 00:00:59,109

done and what he came up with our main

14

00:01:05,009 --> 00:01:02,410

guest is Michael Busby and Michael will

15

00:01:07,639 --> 00:01:05,019

be discussing and actually connecting

16

00:01:12,180 --> 00:01:07,649

the dots about the airship sightings

17

00:01:14,760 --> 00:01:12,190

specifically the 1897 sighting and a lot

18

00:01:16,889 --> 00:01:14,770

more I want to thank the people behind

19

00:01:21,450 --> 00:01:16,899

the scenes bill skywatcher @kg are a

20

00:01:24,419 --> 00:01:21,460

radio and Peggy for managing our very

21

00:01:29,040 --> 00:01:24,429

active Facebook page that's at Facebook

22

00:01:31,169 --> 00:01:29,050

/ podcast UFO and you my listeners I

23

00:01:33,930 --> 00:01:31,179

hope all of you are safe and sound I

24

00:01:36,330 --> 00:01:33,940

really do appreciate you listening to

25

00:01:38,669 --> 00:01:36,340

the shows and I want to thank all my

26

00:01:41,790 --> 00:01:38,679

supporters as well I could not do this

27

00:01:44,880 --> 00:01:41,800

without you and anyone can support the

28

00:01:50,130 --> 00:01:44,890

show that's over on patreon and you can

29

00:01:53,699 --> 00:01:50,140

get there through podcast UFO comm just

30

00:01:56,790 --> 00:01:53,709

a couple of things I have been basically

31

00:01:58,740 --> 00:01:56,800

I used to support myself by painting

32

00:02:00,930 --> 00:01:58,750

believe it or not I had my own art

33

00:02:04,740 --> 00:02:00,940

gallery but so I'm starting to do a

34

00:02:06,990 --> 00:02:04,750

couple of UFO paintings here's one I did

35

00:02:13,979 --> 00:02:07,000

last week a little snowy winter this is

36

00:02:16,050 --> 00:02:13,989

of course is on YouTube and this is like

37

00:02:18,690 --> 00:02:16,060

I try it for those of listening to the

38

00:02:22,080 --> 00:02:18,700

podcast it's a triangular UFO over a

39

00:02:24,809 --> 00:02:22,090

snow-covered hillside in a house with

40

00:02:26,850 --> 00:02:24,819

lights on still haven't quite named of

41

00:02:30,120 --> 00:02:26,860

that one yet

42

00:02:32,270 --> 00:02:30,130

but anyway I do have a special link that

43

00:02:36,420 --> 00:02:32,280

I made for my UFO

44

00:02:40,170 --> 00:02:36,430

paintings over it's actually in the show

45

00:02:43,140 --> 00:02:40,180

notes for YouTube and you can see it

46

00:02:45,300 --> 00:02:43,150

there and you can also go to my main art

47

00:02:47,970 --> 00:02:45,310

website which is Martin Willis art calm

48

00:02:50,430 --> 00:02:47,980

and I want to make a deal so if you want

49

00:02:52,949 --> 00:02:50,440

a UFO painting I will personalize it to

50

00:02:58,110 --> 00:02:52,959

you and send it shipping is always free

51  
00:03:00,120 --> 00:02:58,120  
in the United States and so it's really

52  
00:03:03,089 --> 00:03:00,130  
a private link is what you'll find to

53  
00:03:08,960 --> 00:03:03,099  
the UFO paintings because I don't have

54  
00:03:11,490 --> 00:03:08,970  
them on my normal website and let's see

55  
00:03:13,350 --> 00:03:11,500  
you also want to go over to check that

56  
00:03:16,190 --> 00:03:13,360  
podcast UFO comm and check out this

57  
00:03:21,870 --> 00:03:16,200  
week's blog by Charles Lear it's called

58  
00:03:24,780 --> 00:03:21,880  
the other UFO crash in New Mexico or the

59  
00:03:26,490 --> 00:03:24,790  
yeah the other New Mexico UFO crash I

60  
00:03:29,240 --> 00:03:26,500  
said a little backwards and that was in

61  
00:03:33,180 --> 00:03:29,250  
San Antonio New Mexico in August 16th

62  
00:03:34,949 --> 00:03:33,190  
1945 a couple years before Roswell it's

63  
00:03:38,030 --> 00:03:34,959

a very interesting story and there's

64

00:03:41,310 --> 00:03:38,040

actually a link on the black vault

65

00:03:45,120 --> 00:03:41,320

regarding the materials that supposedly

66

00:03:48,080 --> 00:03:45,130

were found over at the site and speaking

67

00:03:51,870 --> 00:03:48,090

of the black vault we have John

68

00:03:56,280 --> 00:03:51,880

Greenwald will be joining us right now

69

00:03:57,930 --> 00:03:56,290

and welcome to the show John hey Martin

70

00:04:00,270 --> 00:03:57,940

it's good to be here it's good to see ya

71

00:04:02,280 --> 00:04:00,280

do I know I know it's been it's been a

72

00:04:06,330 --> 00:04:02,290

while it's always it's always great now

73

00:04:08,640 --> 00:04:06,340

the reason you're on I really I let you

74

00:04:10,800 --> 00:04:08,650

know this I listened to you and watched

75

00:04:13,259 --> 00:04:10,810

your video and that's also by the way a

76

00:04:16,430 --> 00:04:13,269

linked in the show notes and below in

77

00:04:19,380 --> 00:04:16,440

YouTube your great video that went

78

00:04:21,779 --> 00:04:19,390

comprehensively into these documents the

79

00:04:23,520 --> 00:04:21,789

Wilson supposedly been hearing a lot

80

00:04:25,620 --> 00:04:23,530

about this for the last several months

81

00:04:30,450 --> 00:04:25,630

first of all I do want to I do want to

82

00:04:31,620 --> 00:04:30,460

set set the stage on how this all

83

00:04:33,120 --> 00:04:31,630

happened if you wouldn't mind going

84

00:04:35,640 --> 00:04:33,130

through that but first I want to say

85

00:04:38,370 --> 00:04:35,650

that I did indeed contact as I let you

86

00:04:41,240 --> 00:04:38,380

know I contacted ralph Blumenthal and

87

00:04:43,140 --> 00:04:41,250

Leslie Kane mm-hm I asked them both

88

00:04:44,219 --> 00:04:43,150

because there's a lot of rumors going

89

00:04:45,840 --> 00:04:44,229

around that there's going to be a

90

00:04:48,690 --> 00:04:45,850

breaking story in The New York Times

91

00:04:51,000 --> 00:04:48,700

yes even George Knapp set it on coast to

92

00:04:53,430 --> 00:04:51,010

coast the other night and they both said

93

00:04:57,450 --> 00:04:53,440

we have nothing we have nothing here

94

00:05:01,050 --> 00:04:57,460

interesting so I never get excited about

95

00:05:02,850 --> 00:05:01,060

rumors until it actually happens ya know

96

00:05:04,830 --> 00:05:02,860

even everybody says something's coming

97

00:05:07,260 --> 00:05:04,840

in five minutes I still don't get

98

00:05:09,840 --> 00:05:07,270

excited until when it finally appears

99

00:05:11,340 --> 00:05:09,850

five years later but yeah that's that is

100

00:05:13,530 --> 00:05:11,350

interesting and good for you for for

101  
00:05:16,680 --> 00:05:13,540  
reaching out getting the quotes yeah

102  
00:05:18,270 --> 00:05:16,690  
yeah well you know someone when I

103  
00:05:20,040 --> 00:05:18,280  
mentioned that to someone else they said

104  
00:05:21,960 --> 00:05:20,050  
oh they're just not gonna let you know

105  
00:05:24,060 --> 00:05:21,970  
and it's gonna drop that's but you know

106  
00:05:26,880 --> 00:05:24,070  
what is the possibility yeah in fairness

107  
00:05:28,740 --> 00:05:26,890  
that possible I mean the rumors that I'm

108  
00:05:30,630 --> 00:05:28,750  
hearing out in the Twitterverse and

109  
00:05:32,190 --> 00:05:30,640  
social media and the whispers and stuff

110  
00:05:33,990 --> 00:05:32,200  
is that you know they're gonna be

111  
00:05:36,000 --> 00:05:34,000  
covering crash retrievals that that's

112  
00:05:37,710 --> 00:05:36,010  
potentially something that might tie

113  
00:05:38,310 --> 00:05:37,720

into these Wilson documents and so on

114

00:05:41,190 --> 00:05:38,320

and so forth

115

00:05:44,220 --> 00:05:41,200

and to be honest with you I am very

116

00:05:45,570 --> 00:05:44,230

curious to see how some some outfit like

117

00:05:48,840 --> 00:05:45,580

the New York Times will source that

118

00:05:50,310 --> 00:05:48,850

because these types of stories you're

119

00:05:52,530 --> 00:05:50,320

talking about anonymous source after

120

00:05:55,650 --> 00:05:52,540

anonymous source after third fourth hand

121

00:05:57,930 --> 00:05:55,660

I said that she said that I heard and

122

00:06:02,190 --> 00:05:57,940

you know back-alley conversations that's

123

00:06:04,080 --> 00:06:02,200

not New York Times style yeah i'm but so

124

00:06:05,310 --> 00:06:04,090

i'm interested to see if something does

125

00:06:07,680 --> 00:06:05,320

drop we'll see what happens

126

00:06:08,940 --> 00:06:07,690

yeah for those out there they have no

127

00:06:11,910 --> 00:06:08,950

idea what we're talking about when we

128

00:06:14,580 --> 00:06:11,920

talk about the Wilson leak this came out

129

00:06:18,210 --> 00:06:14,590

a while back can you kind of give a

130

00:06:20,430 --> 00:06:18,220

nutshell of what what that is sure well

131

00:06:22,680 --> 00:06:20,440

in you Falah djegal style the way that

132

00:06:25,260 --> 00:06:22,690

the surfaced was a mysterious leak of

133

00:06:28,260 --> 00:06:25,270

records that popped up on a website

134

00:06:31,920 --> 00:06:28,270

called imager and this was last year and

135

00:06:33,950 --> 00:06:31,930

these documents they were I think 15

136

00:06:37,850 --> 00:06:33,960

pages total or something like that and

137

00:06:40,860 --> 00:06:37,860

essentially it was a note breakdown from

138

00:06:43,320 --> 00:06:40,870

allegedly dr. Eric Davis the same one

139

00:06:46,920 --> 00:06:43,330

that has been intimately connected to

140

00:06:49,620 --> 00:06:46,930

nudes with Robert Bigelow also with the

141

00:06:52,260 --> 00:06:49,630

AUSA program or what is often rumored as

142

00:06:55,770 --> 00:06:52,270

the Pentagon UFO study and essentially

143

00:06:57,980 --> 00:06:55,780

this was a note breakdown of his meeting

144

00:06:59,760 --> 00:06:57,990

with an Admiral Thomas Wilson and

145

00:07:01,379 --> 00:06:59,770

essentially it gets in

146

00:07:03,390 --> 00:07:01,389

- I mean the highlight nutshell version

147

00:07:07,379 --> 00:07:03,400

as it gets into the fact that this

148

00:07:09,990 --> 00:07:07,389

Admiral was made aware about UFO /

149

00:07:12,240 --> 00:07:10,000

extraterrestrial programs going on he

150

00:07:13,409 --> 00:07:12,250

aimed to gain access because he was

151  
00:07:16,740 --> 00:07:13,419  
director of the Defense Intelligence

152  
00:07:19,100 --> 00:07:16,750  
Agency j2 which is part of the the Joint

153  
00:07:21,270 --> 00:07:19,110  
Chiefs of Staff so a very high-ranking

154  
00:07:23,399 --> 00:07:21,280  
person you know this was this was not

155  
00:07:25,740 --> 00:07:23,409  
just a military guy looking around

156  
00:07:28,100 --> 00:07:25,750  
trying to get some secrets this was a

157  
00:07:31,710 --> 00:07:28,110  
very high-ranking well-established

158  
00:07:34,830 --> 00:07:31,720  
career military man so as the notes

159  
00:07:37,680 --> 00:07:34,840  
display they talked about UFO crash

160  
00:07:39,689 --> 00:07:37,690  
retrieval programs that it was being

161  
00:07:41,969 --> 00:07:39,699  
hidden in large part in the private

162  
00:07:44,909 --> 00:07:41,979  
sector and that he was denied access

163  
00:07:47,939 --> 00:07:44,919

that he tried to gain access but was

164

00:07:51,779 --> 00:07:47,949

denied and so someone at his level who

165

00:07:53,610 --> 00:07:51,789

should have access as per the notes that

166

00:07:56,909 --> 00:07:53,620

he believed he should have access was

167

00:07:58,619 --> 00:07:56,919

denied he was very angry about that now

168

00:08:00,420 --> 00:07:58,629

obviously there's many more details but

169

00:08:02,730 --> 00:08:00,430

that's that's kind of the nutshell of

170

00:08:06,600 --> 00:08:02,740

what these notes say and what they

171

00:08:09,600 --> 00:08:06,610

outline and again in that you falah

172

00:08:11,279 --> 00:08:09,610

djegal style very little provenance now

173

00:08:13,350 --> 00:08:11,289

people will argue with me that with that

174

00:08:15,209 --> 00:08:13,360

but there's a lot of anonymous sources

175

00:08:17,640 --> 00:08:15,219

that go around with those that are

176

00:08:20,899 --> 00:08:17,650

touting these as real that they have

177

00:08:23,339 --> 00:08:20,909

sources that confirm to them privately

178

00:08:25,230 --> 00:08:23,349

that they're real and this meeting took

179

00:08:26,580 --> 00:08:25,240

place and so on and so forth but they

180

00:08:28,620 --> 00:08:26,590

just won't come out with them publicly

181

00:08:30,719 --> 00:08:28,630

and I've asked numerous people who keep

182

00:08:34,860 --> 00:08:30,729

touting these new you know numerous

183

00:08:38,040 --> 00:08:34,870

anonymous sources and no one will say

184

00:08:39,659 --> 00:08:38,050

anything so that's for me from an

185

00:08:42,300 --> 00:08:39,669

investigator standpoint is so

186

00:08:45,180 --> 00:08:42,310

frustrating because you want to have

187

00:08:47,610 --> 00:08:45,190

that either provenance to the documents

188

00:08:50,280 --> 00:08:47,620

with names attached or people that can

189

00:08:52,290 --> 00:08:50,290

corroborate the story and right now we

190

00:08:57,170 --> 00:08:52,300

only have that third hand fourth hand

191

00:09:00,000 --> 00:08:57,180

information that's right and I just

192

00:09:02,310 --> 00:09:00,010

something from it from the very

193

00:09:04,199 --> 00:09:02,320

beginning when I started to look into

194

00:09:05,639 --> 00:09:04,209

and I didn't do the deep nowhere near

195

00:09:07,829 --> 00:09:05,649

the deep research that you did I mean

196

00:09:10,230 --> 00:09:07,839

you talked with different people and

197

00:09:13,800 --> 00:09:10,240

asked for you know different opinions

198

00:09:17,069 --> 00:09:13,810

about the different you know what P

199

00:09:20,309 --> 00:09:17,079

can say about classified programs and

200

00:09:24,749 --> 00:09:20,319

yeah that's a really good point why

201  
00:09:26,939 --> 00:09:24,759  
would Wilson jeopardize his you know

202  
00:09:29,910 --> 00:09:26,949  
everything basically right it's that's

203  
00:09:31,739 --> 00:09:29,920  
yeah and that is the biggest question

204  
00:09:34,619 --> 00:09:31,749  
just that common sense way of looking at

205  
00:09:36,389 --> 00:09:34,629  
it that doesn't make sense to me and so

206  
00:09:37,319 --> 00:09:36,399  
after these surfaced I would get a lot

207  
00:09:38,340 --> 00:09:37,329  
of questions what do you think of this

208  
00:09:40,650 --> 00:09:38,350  
what do you think of this cuz it was a

209  
00:09:43,139 --> 00:09:40,660  
hot topic and I just didn't want to

210  
00:09:46,860 --> 00:09:43,149  
touch it for a long time simply because

211  
00:09:49,949 --> 00:09:46,870  
it's so difficult to research leaked

212  
00:09:52,499 --> 00:09:49,959  
documents because you have no idea again

213  
00:09:55,259 --> 00:09:52,509

where they came from who's involved with

214

00:09:57,840 --> 00:09:55,269

it we'll Eric Davis actually talk now

215

00:10:00,900 --> 00:09:57,850

obviously he won't his is only on the

216

00:10:03,090 --> 00:10:00,910

record comment was no comment I am

217

00:10:05,369 --> 00:10:03,100

hearing that that again more rumors but

218

00:10:07,939 --> 00:10:05,379

the more information may come out I know

219

00:10:10,650 --> 00:10:07,949

that he talked about it coming from the

220

00:10:13,049 --> 00:10:10,660

astronaut Edgar Mitchell estate and the

221

00:10:14,790 --> 00:10:13,059

collection of documents but that in

222

00:10:16,530 --> 00:10:14,800

itself doesn't mean much that sounds

223

00:10:18,480 --> 00:10:16,540

really neat but that doesn't mean

224

00:10:19,889 --> 00:10:18,490

anything it doesn't it doesn't mean that

225

00:10:21,900 --> 00:10:19,899

it's real it doesn't mean the meeting

226

00:10:24,749 --> 00:10:21,910

took place so again we need a little bit

227

00:10:27,150 --> 00:10:24,759

more than that and Eric Davis won't go

228

00:10:31,259 --> 00:10:27,160

on the record and say I had this meeting

229

00:10:33,780 --> 00:10:31,269

i sat with Admiral Wilson and he was

230

00:10:36,150 --> 00:10:33,790

denied access this actually went went

231

00:10:41,970 --> 00:10:36,160

went down if he goes on the record

232

00:10:43,920 --> 00:10:41,980

I'm a reevaluation these requests to kind

233

00:10:46,379 --> 00:10:43,930

of tackle it I had interviewed other

234

00:10:48,299 --> 00:10:46,389

people about it but I just didn't want

235

00:10:50,549 --> 00:10:48,309

to touch it I finally gave in and I

236

00:10:51,869 --> 00:10:50,559

started in and started reaching out to

237

00:10:54,299 --> 00:10:51,879

people who had researched different

238

00:10:57,299 --> 00:10:54,309

aspects of this tried to see what I

239

00:11:00,569 --> 00:10:57,309

could find out and something just

240

00:11:02,730 --> 00:11:00,579

clicked when I was researching it and it

241

00:11:04,829 --> 00:11:02,740

just stuck in my head and that was that

242

00:11:07,230 --> 00:11:04,839

this was a fictionalized either

243

00:11:10,619 --> 00:11:07,240

television or movie script as crazy as

244

00:11:12,960 --> 00:11:10,629

that sounds that's how it read now right

245

00:11:14,939 --> 00:11:12,970

for those who don't know I worked in

246

00:11:16,860 --> 00:11:14,949

television for many years I've produced

247

00:11:18,809 --> 00:11:16,870

I've written I've directed for networks

248

00:11:21,840 --> 00:11:18,819

like History Channel Discovery Channel

249

00:11:24,949 --> 00:11:21,850

National Geographic Channel this screams

250

00:11:26,580 --> 00:11:24,959

like a very amateurishly put together

251  
00:11:28,980 --> 00:11:26,590  
creative

252  
00:11:32,190 --> 00:11:28,990  
attempt at putting a scene together and

253  
00:11:35,640 --> 00:11:32,200  
what I did in this video is I challenged

254  
00:11:37,590 --> 00:11:35,650  
my myself and I went back to 2002 when

255  
00:11:39,630 --> 00:11:37,600  
the these were allegedly written and

256  
00:11:42,060 --> 00:11:39,640  
looked at what was on television and

257  
00:11:44,220 --> 00:11:42,070  
wouldn't you know the x-files was coming

258  
00:11:46,290 --> 00:11:44,230  
to an end that same year just months

259  
00:11:50,120 --> 00:11:46,300  
prior a hit television show called

260  
00:11:54,210 --> 00:11:50,130  
beyond belief that was was all about

261  
00:11:55,470 --> 00:11:54,220  
fictionalized accounts that may or may

262  
00:11:56,820 --> 00:11:55,480  
not have been true so again

263  
00:11:59,040 --> 00:11:56,830

fictionalized a lot of them were just

264

00:12:01,440 --> 00:11:59,050

fake but they would throw in real

265

00:12:03,120 --> 00:12:01,450

stories and it was up to you to find out

266

00:12:05,370 --> 00:12:03,130

what was fact and what was fiction hence

267

00:12:07,380 --> 00:12:05,380

the title beyond belief fact or fiction

268

00:12:11,540 --> 00:12:07,390

that was what was going on around this

269

00:12:14,700 --> 00:12:11,550

exact same time frame in the exact same

270

00:12:17,250 --> 00:12:14,710

part of the year that that that these

271

00:12:20,310 --> 00:12:17,260

notes were again allegedly written so

272

00:12:22,050 --> 00:12:20,320

that sounds like a crazy idea and and I

273

00:12:23,790 --> 00:12:22,060

laugh at myself for bringing it up and I

274

00:12:27,360 --> 00:12:23,800

don't know if that's really what this is

275

00:12:29,850 --> 00:12:27,370

nor do I propose it as such but my aim

276

00:12:32,970 --> 00:12:29,860

for the video video was to show a very

277

00:12:35,430 --> 00:12:32,980

reasonable very plausible explanation

278

00:12:37,560 --> 00:12:35,440

and as I kept digging in it made more

279

00:12:40,140 --> 00:12:37,570

and more sense to me yeah that this was

280

00:12:43,820 --> 00:12:40,150

just a creative script because you have

281

00:12:48,120 --> 00:12:43,830

that dialog you even have Thomas Wilson

282

00:12:50,490 --> 00:12:48,130

interrupting Eric Davis in this you know

283

00:12:52,140 --> 00:12:50,500

in these notice yeah that's a little bit

284

00:12:53,970 --> 00:12:52,150

weird I mean if you're taking notes and

285

00:12:55,740 --> 00:12:53,980

let's say I'm taking notes and Martin

286

00:12:57,930 --> 00:12:55,750

you get you get angry that I keep

287

00:12:59,910 --> 00:12:57,940

talking over you which sometimes happens

288

00:13:02,280 --> 00:12:59,920

so I'll apologize but let's say you get

289

00:13:04,530 --> 00:13:02,290

angry and I'm taking notes I would just

290

00:13:07,020 --> 00:13:04,540

say he got angry at me you know I kept

291

00:13:09,840 --> 00:13:07,030

interrupting him I wouldn't start like

292

00:13:12,420 --> 00:13:09,850

trying to make a scene between you and I

293

00:13:13,830 --> 00:13:12,430

as I'm taking notes and so that's why I

294

00:13:16,110 --> 00:13:13,840

just kind of clicked that it was more of

295

00:13:19,590 --> 00:13:16,120

this creative fictionalized account and

296

00:13:23,250 --> 00:13:19,600

then that led me to this scene and and I

297

00:13:25,740 --> 00:13:23,260

showed from from my personal collection

298

00:13:27,990 --> 00:13:25,750

of weird things I have an original movie

299

00:13:31,170 --> 00:13:28,000

script from from the movie day Groundhog

300

00:13:35,550 --> 00:13:31,180

Day and I pulled that out and it is set

301  
00:13:38,010 --> 00:13:35,560  
up the exact same way I've seen rips and

302  
00:13:40,530 --> 00:13:38,020  
you know I knew when I read those notes

303  
00:13:42,780 --> 00:13:40,540  
that's the first thing I said it just

304  
00:13:45,690 --> 00:13:42,790  
named funny they seemed funny but I

305  
00:13:49,620 --> 00:13:45,700  
never connected that to a script but

306  
00:13:51,600 --> 00:13:49,630  
once I heard you say that I like makes

307  
00:13:53,910 --> 00:13:51,610  
sense yeah they're also makes sense why

308  
00:13:56,640 --> 00:13:53,920  
you know Eric Davis would say no comment

309  
00:13:59,910 --> 00:13:56,650  
if he has you know signed an agreement

310  
00:14:01,350 --> 00:13:59,920  
not to talk about a movie but I mean not

311  
00:14:03,870 --> 00:14:01,360  
to say that he'd be in a movie but

312  
00:14:07,290 --> 00:14:03,880  
anyway you can see the question up on

313  
00:14:08,160 --> 00:14:07,300

the screen there and so you get an

314

00:14:10,020 --> 00:14:08,170

answer to that one

315

00:14:12,300 --> 00:14:10,030

how come Davis verified the authenticity

316

00:14:14,640 --> 00:14:12,310

- Dolan according to Dolan well that's

317

00:14:16,500 --> 00:14:14,650

the problem is the only on the record

318

00:14:19,050 --> 00:14:16,510

statement that that I could find was

319

00:14:20,940 --> 00:14:19,060

that there was no comment so if this was

320

00:14:22,590 --> 00:14:20,950

given in secret I'd love to see the on

321

00:14:24,510 --> 00:14:22,600

the record comments I did look for that

322

00:14:27,570 --> 00:14:24,520

because I know that Richard Dolan is a

323

00:14:29,100 --> 00:14:27,580

big advocate for these documents being

324

00:14:32,280 --> 00:14:29,110

real he calls them the leak of the

325

00:14:33,810 --> 00:14:32,290

century and that's great but as as far

326

00:14:36,570 --> 00:14:33,820

as I could find

327

00:14:37,140 --> 00:14:36,580

there was no on the record comment that

328

00:14:39,410 --> 00:14:37,150

again

329

00:14:42,510 --> 00:14:39,420

he had kind of stayed away from

330

00:14:43,530 --> 00:14:42,520

commenting it and essentially saying no

331

00:14:46,320 --> 00:14:43,540

comment

332

00:14:48,600 --> 00:14:46,330

in addition dr. Hal put off also put out

333

00:14:50,760 --> 00:14:48,610

a statement that he said that his

334

00:14:53,010 --> 00:14:50,770

colleague had interviewed Admiral Wilson

335

00:14:56,580 --> 00:14:53,020

but since it had dealt with potentially

336

00:15:00,030 --> 00:14:56,590

ongoing programs he also declined to

337

00:15:02,700 --> 00:15:00,040

comment so here this is what we need is

338

00:15:04,800 --> 00:15:02,710

not these gray areas and these hidden

339

00:15:07,200 --> 00:15:04,810

pieces of gems may be in this YouTube

340

00:15:09,780 --> 00:15:07,210

video or that these things have to be

341

00:15:13,080 --> 00:15:09,790

put out into the open if Eric Davis will

342

00:15:15,030 --> 00:15:13,090

go on the record and say this happened I

343

00:15:16,920 --> 00:15:15,040

wrote those notes and I stand by it

344

00:15:19,890 --> 00:15:16,930

then let's let's move forward with that

345

00:15:21,900 --> 00:15:19,900

but as far as I can tell there's nothing

346

00:15:25,310 --> 00:15:21,910

out there in the ether that we can cite

347

00:15:28,320 --> 00:15:25,320

from him dying that and Wilson is

348

00:15:30,660 --> 00:15:28,330

totally denying it and why would he get

349

00:15:32,130 --> 00:15:30,670

in the back of a car in Las Vegas and by

350

00:15:35,970 --> 00:15:32,140

the way he says he hasn't been to Las

351  
00:15:38,310 --> 00:15:35,980  
Vegas since 1979 right but why would he

352  
00:15:41,310 --> 00:15:38,320  
get in the back of the car with and

353  
00:15:43,380 --> 00:15:41,320  
talked to Davis for 45 minutes someone

354  
00:15:45,810 --> 00:15:43,390  
he doesn't even know about something

355  
00:15:47,850 --> 00:15:45,820  
that's top secret you know that doesn't

356  
00:15:50,400 --> 00:15:47,860  
it there's a lot it doesn't make sense

357  
00:15:53,250 --> 00:15:50,410  
no and and very quickly I'd like to make

358  
00:15:55,740 --> 00:15:53,260  
the point that if let's just say

359  
00:15:58,170 --> 00:15:55,750  
that Admiral Wilson looked into this and

360  
00:16:00,570 --> 00:15:58,180  
happened to stumble on the existence of

361  
00:16:02,160 --> 00:16:00,580  
a special access program or what they

362  
00:16:05,010 --> 00:16:02,170  
call like unacknowledged special access

363  
00:16:07,380 --> 00:16:05,020

programs or whatever and it's highly

364

00:16:10,110 --> 00:16:07,390

classified even though he was not

365

00:16:12,570 --> 00:16:10,120

quote-unquote read in and even though he

366

00:16:16,200 --> 00:16:12,580

may have been denied access the mere

367

00:16:19,340 --> 00:16:16,210

existence of it in and of itself would

368

00:16:22,440 --> 00:16:19,350

be classified information so someone at

369

00:16:25,710 --> 00:16:22,450

Wilson's level would not go and share

370

00:16:28,680 --> 00:16:25,720

that information willingly especially

371

00:16:30,390 --> 00:16:28,690

since he himself was cleared for certain

372

00:16:32,790 --> 00:16:30,400

levels of secrecy he had a you know

373

00:16:35,610 --> 00:16:32,800

clearance himself so that doesn't make

374

00:16:38,250 --> 00:16:35,620

any sense whatsoever again especially

375

00:16:41,330 --> 00:16:38,260

sharing it with a you know member of a

376

00:16:45,690 --> 00:16:41,340

UFO group like knids or dr. Eric Davis

377

00:16:47,220 --> 00:16:45,700

in a car in Las Vegas again creatively

378

00:16:49,860 --> 00:16:47,230

from a not from a fictionalized

379

00:16:52,830 --> 00:16:49,870

standpoint absolutely that makes for a

380

00:16:55,410 --> 00:16:52,840

good scene you know but it doesn't make

381

00:16:58,020 --> 00:16:55,420

sense elsewhere and I think only only in

382

00:17:00,600 --> 00:16:58,030

ufology does does going back to your

383

00:17:03,030 --> 00:17:00,610

comment about Wilson denying seeing

384

00:17:05,189 --> 00:17:03,040

Davis only in ufology dozen I a denial

385

00:17:07,230 --> 00:17:05,199

equal an acknowledgment that it all

386

00:17:09,390 --> 00:17:07,240

happened you know I mean of course he's

387

00:17:12,060 --> 00:17:09,400

gonna lie so it has to be true

388

00:17:14,280 --> 00:17:12,070

and that's not true we need a little bit

389

00:17:16,620 --> 00:17:14,290

more evidence than what we've got yeah

390

00:17:19,980 --> 00:17:16,630

yeah well it's interesting have you

391

00:17:23,760 --> 00:17:19,990

actually looked at what Jo UFO Jo wrote

392

00:17:27,930 --> 00:17:23,770

I did yeah and and pretty intense

393

00:17:31,350 --> 00:17:27,940

articles and you know nice nice writing

394

00:17:34,110 --> 00:17:31,360

but I'd you know again we don't you know

395

00:17:36,540 --> 00:17:34,120

he kind of thought he was actually gonna

396

00:17:40,440 --> 00:17:36,550

be on the show tonight and and and I

397

00:17:42,960 --> 00:17:40,450

just unfortunately I just didn't quite I

398

00:17:45,240 --> 00:17:42,970

didn't see enough to be a hundred

399

00:17:47,520 --> 00:17:45,250

percent convinced although he did a good

400

00:17:48,810 --> 00:17:47,530

job yeah the only things I don't want to

401  
00:17:51,630 --> 00:17:48,820  
take away from his work I know he worked

402  
00:17:55,290 --> 00:17:51,640  
very hard on that yes he did but when we

403  
00:17:57,690 --> 00:17:55,300  
start relying on anonymous sources that

404  
00:17:59,940 --> 00:17:57,700  
particular author may be comfortable

405  
00:18:02,250 --> 00:17:59,950  
with the anonymous source that they have

406  
00:18:04,440 --> 00:18:02,260  
but they have to understand that people

407  
00:18:06,990 --> 00:18:04,450  
like me who rely on a little bit more

408  
00:18:09,570 --> 00:18:07,000  
evidence and conclusive proof

409  
00:18:12,390 --> 00:18:09,580  
need a name you know I mean anonymous

410  
00:18:14,400 --> 00:18:12,400  
sources are good supporting pieces of

411  
00:18:15,960 --> 00:18:14,410  
the puzzle if you have a couple people

412  
00:18:17,700 --> 00:18:15,970  
that you can name and then maybe you add

413  
00:18:19,980 --> 00:18:17,710

in another anonymous source that really

414

00:18:22,050 --> 00:18:19,990

solidifies it okay I can accept that I

415

00:18:24,420 --> 00:18:22,060

don't like it but I can accept it but if

416

00:18:27,480 --> 00:18:24,430

you're solely long relying on anonymous

417

00:18:30,750 --> 00:18:27,490

sources and kind of these back back

418

00:18:32,940 --> 00:18:30,760

behind the scenes conversations to

419

00:18:34,440 --> 00:18:32,950

solidify your point you have to

420

00:18:36,660 --> 00:18:34,450

understand where people like me are

421

00:18:38,790 --> 00:18:36,670

really skeptical you know it's really

422

00:18:41,640 --> 00:18:38,800

easy this day and age to get fooled by

423

00:18:43,890 --> 00:18:41,650

anybody with a Twitter account or you

424

00:18:46,170 --> 00:18:43,900

know an anonymous encrypted email that

425

00:18:47,730 --> 00:18:46,180

you can be anybody sit down and fool

426  
00:18:49,500 --> 00:18:47,740  
somebody into thinking you're somebody

427  
00:18:51,680 --> 00:18:49,510  
you know all you got to use is some big

428  
00:18:54,780 --> 00:18:51,690  
words and know a few key words and

429  
00:18:57,210 --> 00:18:54,790  
automatically some may buy into the

430  
00:18:59,340 --> 00:18:57,220  
story so that's why with the field of

431  
00:19:01,680 --> 00:18:59,350  
UFOs I think we need to step back a

432  
00:19:04,590 --> 00:19:01,690  
little bit and realize that anonymous

433  
00:19:06,360 --> 00:19:04,600  
sources can't be the end-all something

434  
00:19:08,880 --> 00:19:06,370  
this important that that requires that

435  
00:19:11,810 --> 00:19:08,890  
evidence requires people to be named you

436  
00:19:15,060 --> 00:19:11,820  
know again that if Eric Davis

437  
00:19:17,070 --> 00:19:15,070  
gave his seal of authenticity that this

438  
00:19:19,800 --> 00:19:17,080

is real then that's great put out an

439

00:19:21,720 --> 00:19:19,810

open letter to the UFO community or send

440

00:19:23,970 --> 00:19:21,730

it to the New York Times or write an

441

00:19:27,170 --> 00:19:23,980

op-ed for Washington Post and put it in

442

00:19:29,610 --> 00:19:27,180

writing and call out the US government

443

00:19:32,820 --> 00:19:29,620

but if that's not going to happen then

444

00:19:36,120 --> 00:19:32,830

we've got a long way to go right well

445

00:19:39,270 --> 00:19:36,130

you know as everyone thinks

446

00:19:42,780 --> 00:19:39,280

who is he astronomer said the

447

00:19:44,550 --> 00:19:42,790

extraordinary extraordinary claims

448

00:19:46,440 --> 00:19:44,560

require extraordinary evidence yeah

449

00:19:48,420 --> 00:19:46,450

believe Carl Sagan said that yeah wasn't

450

00:19:50,670 --> 00:19:48,430

even Carl Sagan saying but he took it

451  
00:19:52,590 --> 00:19:50,680  
from someone else but yes he was known

452  
00:19:54,210 --> 00:19:52,600  
for that saying well you need

453  
00:19:55,710 --> 00:19:54,220  
extraordinary evidence when you have an

454  
00:19:57,690 --> 00:19:55,720  
extraordinary claim like that that's

455  
00:20:00,270 --> 00:19:57,700  
awful even I'll even settle for some

456  
00:20:02,520 --> 00:20:00,280  
evidence right I mean I just need some

457  
00:20:03,390 --> 00:20:02,530  
that that's that's what I'm what I'm

458  
00:20:05,670 --> 00:20:03,400  
going for

459  
00:20:07,620 --> 00:20:05,680  
and and I don't know how much time you

460  
00:20:09,960 --> 00:20:07,630  
have but really quickly the the crazy

461  
00:20:13,500 --> 00:20:09,970  
thing for me is the fact that people

462  
00:20:16,950 --> 00:20:13,510  
will attack me not a lot but attack me

463  
00:20:19,170 --> 00:20:16,960

for this theory that it could be this

464

00:20:19,370 --> 00:20:19,180

script you know if they already were and

465

00:20:30,410 --> 00:20:19,380

the

466

00:20:33,670 --> 00:20:30,420

exchanging it for a high-ranking admiral

467

00:20:36,170 --> 00:20:33,680

sitting and in a car in Las Vegas

468

00:20:38,270 --> 00:20:36,180

violating his security oath talking

469

00:20:39,980 --> 00:20:38,280

about a UFO crash retrieval program and

470

00:20:43,040 --> 00:20:39,990

extraterrestrials so that part's not

471

00:20:45,200 --> 00:20:43,050

crazy but I am for saying this might be

472

00:20:47,360 --> 00:20:45,210

a fictionalized story you know and and

473

00:20:50,180 --> 00:20:47,370

and and that that's what I am always

474

00:20:51,050 --> 00:20:50,190

fascinated by yeah John it's always

475

00:20:53,420 --> 00:20:51,060

great to hear from you

476  
00:20:55,580 --> 00:20:53,430  
and can you two and throw out your when

477  
00:20:57,890 --> 00:20:55,590  
your show airs and all that I don't have

478  
00:21:00,560 --> 00:20:57,900  
set schedule I kind of throw stuff up at

479  
00:21:03,380 --> 00:21:00,570  
random but yet black vault comm will

480  
00:21:05,090 --> 00:21:03,390  
link you to my podcast YouTube channel I

481  
00:21:06,680 --> 00:21:05,100  
have a lot of fun with that and I love

482  
00:21:08,960 --> 00:21:06,690  
feedback even when people disagree with

483  
00:21:11,180 --> 00:21:08,970  
me so respectful dialogue is always

484  
00:21:13,430 --> 00:21:11,190  
welcome that's right I think you do an

485  
00:21:15,470 --> 00:21:13,440  
excellent job and thank you so much for

486  
00:21:18,470 --> 00:21:15,480  
making time cuz I know you have a very

487  
00:21:19,070 --> 00:21:18,480  
busy life not a problem anytime for you

488  
00:21:21,260 --> 00:21:19,080

let me know

489

00:21:22,700 --> 00:21:21,270

alright you take care thank you you too

490

00:21:25,700 --> 00:21:22,710

alright bye no bye

491

00:21:28,360 --> 00:21:25,710

alright everyone so our guests coming

492

00:21:32,930 --> 00:21:28,370

right up in just a second here is

493

00:21:35,840 --> 00:21:32,940

Michael Busby and he is and I hope I've

494

00:21:37,310 --> 00:21:35,850

been saying his name right and whoops we

495

00:21:39,320 --> 00:21:37,320

have a little bit of feedback Michael

496

00:21:45,740 --> 00:21:39,330

you may have to turn something down you

497

00:21:55,280 --> 00:21:45,750

had there okay Michael you have some

498

00:21:58,100 --> 00:21:55,290

type of feedback all right I don't know

499

00:21:59,630 --> 00:21:58,110

if you set your mic up right but I think

500

00:22:04,070 --> 00:21:59,640

we're gonna have to call you in on the

501

00:22:09,140 --> 00:22:04,080

phone and let's see I will do that this

502

00:22:11,900 --> 00:22:09,150

way all right Michael you there yes sir

503

00:22:15,020 --> 00:22:11,910

I'm here Michael can you hear me yeah

504

00:22:16,880 --> 00:22:15,030

yeah Michael I'm not sure yeah I'm not

505

00:22:20,060 --> 00:22:16,890

sure what happened we had you up on

506

00:22:21,620 --> 00:22:20,070

stream yard and we had some serious

507

00:22:24,980 --> 00:22:21,630

feedback going through I don't know did

508

00:22:29,300 --> 00:22:24,990

you test your mic and all that yes I did

509

00:22:33,230 --> 00:22:29,310

I forgot to mention I live 16 miles down

510

00:22:38,230 --> 00:22:33,240

the country I'm on a huge satellite link

511

00:22:41,180 --> 00:22:38,240

and they're in pink pink hours they

512

00:22:44,030 --> 00:22:41,190

throttle everybody back and I think

513

00:22:47,030 --> 00:22:44,040

that's a large part of the issue I can

514

00:22:51,320 --> 00:22:47,040

see you but okay this is what you can do

515

00:22:53,240 --> 00:22:51,330

can you just turn the audio off on your

516

00:22:54,530 --> 00:22:53,250

you can do that right on the switch

517

00:22:56,870 --> 00:22:54,540

right on the screen I could still pull

518

00:22:59,810 --> 00:22:56,880

you in you're just beyond the phone but

519

00:23:01,700 --> 00:22:59,820

can you just for YouTube can you just go

520

00:23:03,140 --> 00:23:01,710

in and you can turn your audio off and

521

00:23:05,330 --> 00:23:03,150

you if you just put your mouse over the

522

00:23:06,650 --> 00:23:05,340

audio thing and click the button it'll

523

00:23:08,480 --> 00:23:06,660

show you how to turn your art there you

524

00:23:11,450 --> 00:23:08,490

go alright I'm gonna bring you in right

525

00:23:13,550 --> 00:23:11,460

all right let's see if that works okay

526

00:23:17,630 --> 00:23:13,560

we can bring you in now and I will do

527

00:23:23,960 --> 00:23:17,640

that and let's see all right there you

528

00:23:26,510 --> 00:23:23,970

are and so thank you for for being on

529

00:23:29,200 --> 00:23:26,520

the show we see you now anyway and we

530

00:23:32,270 --> 00:23:29,210

see you talking on the phone so Michael

531

00:23:34,040 --> 00:23:32,280

can I have quite a serious background

532

00:23:37,460 --> 00:23:34,050

can you go over that and we're going to

533

00:23:41,780 --> 00:23:37,470

find out what what got you interested in

534

00:23:44,150 --> 00:23:41,790

the topic to begin with well I I'm a

535

00:23:48,530 --> 00:23:44,160

country boy born and raised on a Texas

536

00:23:50,060 --> 00:23:48,540

ranch cattle ranch and I finished high

537

00:23:53,860 --> 00:23:50,070

school I went in the Marines

538

00:23:57,320 --> 00:23:53,870

and when I was in the Marines I met this

539

00:24:00,470 --> 00:23:57,330

ethical support guy worked as a

540

00:24:06,140 --> 00:24:00,480

contractor for a company called Rockwell

541

00:24:07,580 --> 00:24:06,150

International and when my time was up in

542

00:24:11,660 --> 00:24:07,590

the Marines he got me a job with

543

00:24:15,560 --> 00:24:11,670

Rockwell and I was a field service

544

00:24:18,050 --> 00:24:15,570

representative for a couple of years and

545

00:24:22,600 --> 00:24:18,060

I started doing contract work for the

546

00:24:27,260 --> 00:24:22,610

DoD and CIA the Marines trained me in

547

00:24:30,530 --> 00:24:27,270

communications I was a data processing

548

00:24:34,340 --> 00:24:30,540

or datalink technician and this is in

549

00:24:37,250 --> 00:24:34,350

the 1960s when unless you worked in

550

00:24:38,990 --> 00:24:37,260

datalink technologies uh you didn't even

551  
00:24:43,280 --> 00:24:39,000  
know what it was you never heard of it

552  
00:24:44,990 --> 00:24:43,290  
and so when I got out of the Marines I

553  
00:24:46,480 --> 00:24:45,000  
went to work for Rockwell I started

554  
00:24:49,000 --> 00:24:46,490  
going to college

555  
00:24:53,169 --> 00:24:49,010  
school and got a degree in electrical

556  
00:24:57,520 --> 00:24:53,179  
engineering with a concentration and

557  
00:25:01,120 --> 00:24:57,530  
communications and I found you know

558  
00:25:05,650 --> 00:25:01,130  
electronics and technology in general to

559  
00:25:08,440 --> 00:25:05,660  
be fascinating and I studied everything

560  
00:25:14,169 --> 00:25:08,450  
I could learn about it not just

561  
00:25:20,080 --> 00:25:14,179  
communications but aerospace and some

562  
00:25:22,090 --> 00:25:20,090  
other disciplines and just excelled it

563  
00:25:25,530 --> 00:25:22,100

the kind of work that I did which was

564

00:25:27,820 --> 00:25:25,540

solving problems for the DoD and CIA

565

00:25:32,260 --> 00:25:27,830

they would have a problem somewhere in

566

00:25:34,440 --> 00:25:32,270

the world that no one could fix and they

567

00:25:38,410 --> 00:25:34,450

would saddle me up and ship me off to

568

00:25:42,010 --> 00:25:38,420

Timbuktu or wherever and I would fix

569

00:25:43,660 --> 00:25:42,020

their problem and come back to the

570

00:25:45,700 --> 00:25:43,670

States and enjoy a little time off

571

00:25:49,600 --> 00:25:45,710

before I hit it off someplace else

572

00:25:54,850 --> 00:25:49,610

excuse me yeah and how long did you do

573

00:25:57,460 --> 00:25:54,860

that for 45 years oh god Wow

574

00:26:01,710 --> 00:25:57,470

you know you don't hear of those yeah

575

00:26:05,020 --> 00:26:01,720

yeah you don't hear of those long

576

00:26:07,720 --> 00:26:05,030

careers especially these days so

577

00:26:09,820 --> 00:26:07,730

generally five years at one place five

578

00:26:14,890 --> 00:26:09,830

and another etc that's what it seems

579

00:26:19,630 --> 00:26:14,900

like for the most part I retired in 2012

580

00:26:24,400 --> 00:26:19,640

I might point out that this star this

581

00:26:29,560 --> 00:26:24,410

airship booked in 1991 it was published

582

00:26:33,190 --> 00:26:29,570

in 2001 well I was 30 years younger when

583

00:26:34,600 --> 00:26:33,200

I started on started on that book and my

584

00:26:39,910 --> 00:26:34,610

picture on the book looks a lot younger

585

00:26:42,940 --> 00:26:39,920

than I am now yeah so how did you get

586

00:26:46,090 --> 00:26:42,950

interested in that that whole topic to

587

00:26:51,610 --> 00:26:46,100

begin with and so you see me started in

588

00:26:56,230 --> 00:26:51,620

2001 on that pardon you said you started

589

00:26:59,350 --> 00:26:56,240

in 2001 no I started the research and

590

00:27:03,640 --> 00:26:59,360

the writing in 1991

591

00:27:06,280 --> 00:27:03,650

it was given to the publisher in 2001 so

592

00:27:09,370 --> 00:27:06,290

I think in yours researching at the

593

00:27:12,730 --> 00:27:09,380

Internet in 1991 the internet was not

594

00:27:14,890 --> 00:27:12,740

developed you had user groups and some

595

00:27:17,610 --> 00:27:14,900

things like that but as far as it being

596

00:27:21,160 --> 00:27:17,620

a good research tool that really wasn't

597

00:27:25,330 --> 00:27:21,170

so what's the research I had to do was

598

00:27:28,299 --> 00:27:25,340

it libraries around the country and you

599

00:27:32,620 --> 00:27:28,309

know they just took some time to to have

600

00:27:35,020 --> 00:27:32,630

the resources to go to the library

601  
00:27:39,130 --> 00:27:35,030  
someplace at the time off and the funds

602  
00:27:41,370 --> 00:27:39,140  
to go and do research and so it just

603  
00:27:46,060 --> 00:27:41,380  
took 10 years to put the story together

604  
00:27:50,260 --> 00:27:46,070  
and publisher took in 2001 I think he

605  
00:27:53,860 --> 00:27:50,270  
came out in 2002 but the reason why I

606  
00:27:57,970 --> 00:27:53,870  
got interested in it a fellow Texan that

607  
00:28:01,680 --> 00:27:57,980  
I had met in the 1980s his name was Jim

608  
00:28:04,150 --> 00:28:01,690  
Hill he was a he worked for a publisher

609  
00:28:07,539 --> 00:28:04,160  
I'm not the publisher who published a

610  
00:28:10,299 --> 00:28:07,549  
book but a different publisher and we

611  
00:28:15,760 --> 00:28:10,309  
were golfing one day and he he mentioned

612  
00:28:17,650 --> 00:28:15,770  
this 1897 an airship story and asked me

613  
00:28:20,890 --> 00:28:17,660

if I knew anything about it and I told

614

00:28:23,440 --> 00:28:20,900

him I didn't I'd never heard anything

615

00:28:27,630 --> 00:28:23,450

about it even though I was born and

616

00:28:31,690 --> 00:28:27,640

raised about 50 miles from Aurora Texas

617

00:28:37,840 --> 00:28:31,700

where the one of the airships supposedly

618

00:28:39,970 --> 00:28:37,850

crashed in 1897 and so he told me said

619

00:28:42,970 --> 00:28:39,980

you know you're out to look into it it

620

00:28:46,180 --> 00:28:42,980

would probably make a good story a good

621

00:28:50,890 --> 00:28:46,190

book as at that time none had been

622

00:28:53,590 --> 00:28:50,900

written on it so that's what we've got

623

00:28:57,549 --> 00:28:53,600

me going started looking into it and and

624

00:29:01,419 --> 00:28:57,559

the more I researched the question the

625

00:29:04,299 --> 00:29:01,429

more interesting it became and it really

626  
00:29:08,530 --> 00:29:04,309  
has consumed a lot of my life since 1991

627  
00:29:10,950 --> 00:29:08,540  
because the story has never ended if so

628  
00:29:12,370 --> 00:29:10,960  
it's the neverending story

629  
00:29:14,980 --> 00:29:12,380  
if

630  
00:29:17,830 --> 00:29:14,990  
find a book and read it you'll

631  
00:29:22,000 --> 00:29:17,840  
understand what I mean by that yeah

632  
00:29:24,870 --> 00:29:22,010  
let's uh let's go to well

633  
00:29:28,330 --> 00:29:24,880  
well first of all there was a people

634  
00:29:32,710 --> 00:29:28,340  
reporting a lot of things in you know in

635  
00:29:34,930 --> 00:29:32,720  
Europe and and in the United States and

636  
00:29:38,140 --> 00:29:34,940  
it's funny you know people reported

637  
00:29:40,990 --> 00:29:38,150  
lights shining down bright lights

638  
00:29:43,090 --> 00:29:41,000

shining down and things like that and I

639

00:29:46,330 --> 00:29:43,100

really always loved the term airships

640

00:29:49,330 --> 00:29:46,340

you know as a description and you know

641

00:29:53,350 --> 00:29:49,340

perfectly fitting for you know for what

642

00:29:55,480 --> 00:29:53,360

they were seeing but what what is in

643

00:29:59,050 --> 00:29:55,490

your research what is the earliest

644

00:30:02,020 --> 00:29:59,060

account of people reporting that you

645

00:30:08,230 --> 00:30:02,030

came across and is it specifically in

646

00:30:15,250 --> 00:30:08,240

the United States well the earliest was

647

00:30:17,410 --> 00:30:15,260

the 1840s there's a there's a fifty year

648

00:30:22,060 --> 00:30:17,420

story here that started in the 1840s

649

00:30:28,270 --> 00:30:22,070

that culminated in the series of airship

650

00:30:31,120 --> 00:30:28,280

sightings in 1897 started with a guy by

651  
00:30:34,720 --> 00:30:31,130  
the name of Solomon Andrews he was a

652  
00:30:40,110 --> 00:30:34,730  
medical doctor who lived in Perth Amboy

653  
00:30:45,190 --> 00:30:40,120  
New Jersey and in the 1840s he started

654  
00:30:49,450 --> 00:30:45,200  
inventing things and he was more or less

655  
00:30:53,350 --> 00:30:49,460  
famous in in the late 1840s for

656  
00:30:57,190 --> 00:30:53,360  
inventing they lock a padlock that he

657  
00:31:00,130 --> 00:30:57,200  
challenged anyone to open a chest that

658  
00:31:02,830 --> 00:31:00,140  
he had padlocked to a lamppost in New

659  
00:31:05,890 --> 00:31:02,840  
York City with a thousand dollars in it

660  
00:31:07,570 --> 00:31:05,900  
and he challenged all comers to get the

661  
00:31:09,430 --> 00:31:07,580  
lock and their reward would be the

662  
00:31:12,370 --> 00:31:09,440  
thousand dollars which was you know he's

663  
00:31:14,320 --> 00:31:12,380

some of money then well he lifted

664

00:31:18,910 --> 00:31:14,330

padlock to his lamp post for three

665

00:31:22,090 --> 00:31:18,920

months and no one no one was able to you

666

00:31:24,100 --> 00:31:22,100

know pick the lock and that got him a

667

00:31:26,070 --> 00:31:24,110

lucrative contract with the national

668

00:31:28,799 --> 00:31:26,080

government supply and locks

669

00:31:32,340 --> 00:31:28,809

or the military in the post office and

670

00:31:37,320 --> 00:31:32,350

so that kind of gave him the funds he

671

00:31:41,460 --> 00:31:37,330

needed to open this shop in New York

672

00:31:45,060 --> 00:31:41,470

City called the inventors Institute and

673

00:31:50,419 --> 00:31:45,070

in the late 1840s there was a revolution

674

00:31:53,519 --> 00:31:50,429

in Germany and the revolution has failed

675

00:31:59,700 --> 00:31:53,529

which was the liberal component of the

676  
00:32:00,919 --> 00:31:59,710  
population and so a lot of German

677  
00:32:05,310 --> 00:32:00,929  
[Music]

678  
00:32:07,350 --> 00:32:05,320  
engineers and scientists left Germany

679  
00:32:09,590 --> 00:32:07,360  
and they migrated the united states well

680  
00:32:12,210 --> 00:32:09,600  
the main port of entry was New York City

681  
00:32:16,590 --> 00:32:12,220  
and Solomon Andrews was down on the

682  
00:32:20,639 --> 00:32:16,600  
docks offering work for any of the

683  
00:32:23,820 --> 00:32:20,649  
scientists inventors of any of the

684  
00:32:31,470 --> 00:32:23,830  
scientists or engineers who happen to be

685  
00:32:36,389 --> 00:32:31,480  
on board ship docking and they got into

686  
00:32:37,799 --> 00:32:36,399  
trying to develop a flying machine and I

687  
00:32:40,680 --> 00:32:37,809  
can remember when I was in high school

688  
00:32:46,700 --> 00:32:40,690

my high school history book had a ad in

689

00:32:52,470 --> 00:32:46,710

it that the chapter in the book about

690

00:32:54,750 --> 00:32:52,480

18-49 Gold Rush there was a picture of

691

00:32:56,509 --> 00:32:54,760

an ad in New York City newspaper ads

692

00:33:00,990 --> 00:32:56,519

from 1849

693

00:33:04,740 --> 00:33:01,000

this said you know fly with us to the

694

00:33:07,919 --> 00:33:04,750

gold fields I think it was a three-day

695

00:33:12,720 --> 00:33:07,929

trip and I've always remembered that I

696

00:33:15,379 --> 00:33:12,730

always remembered that ad well in my

697

00:33:19,139 --> 00:33:15,389

research I discovered that it was

698

00:33:21,570 --> 00:33:19,149

Solomon Andrews by the way he was a

699

00:33:22,980 --> 00:33:21,580

medical doctor so it was dr. Solomon

700

00:33:27,529 --> 00:33:22,990

Enders

701

00:33:30,629 --> 00:33:27,539

his company but they had in the New York

702

00:33:38,100 --> 00:33:30,639

Journal and it only ran for a couple of

703

00:33:39,760 --> 00:33:38,110

days and they pulled the ad so we have

704

00:33:41,500 --> 00:33:39,770

fallen Andrews in New York City

705

00:33:45,580 --> 00:33:41,510

and by the way he changed the name of

706

00:33:48,310 --> 00:33:45,590

the inventors Institute to the something

707

00:33:57,340 --> 00:33:48,320

like the aeronautics club New York

708

00:34:01,000 --> 00:33:57,350

Aeronautics Club and not so much a part

709

00:34:03,340 --> 00:34:01,010

of the 1890s you have a story but one

710

00:34:07,649 --> 00:34:03,350

third and research in that particular

711

00:34:11,770 --> 00:34:07,659

story was that in the 1850s there was a

712

00:34:16,149 --> 00:34:11,780

aerial Club in the California Gold

713

00:34:20,620 --> 00:34:16,159

Fields called the sonora aerial Club and

714

00:34:25,690 --> 00:34:20,630

there was a artist and a technician my

715

00:34:31,440 --> 00:34:25,700

name of Charles bellow Shaw who claimed

716

00:34:34,149 --> 00:34:31,450

to work for this aerial Club in

717

00:34:37,110 --> 00:34:34,159

California and you mentioned you were an

718

00:34:43,590 --> 00:34:37,120

artist and that kind of got my attention

719

00:34:49,870 --> 00:34:43,600

didn't saw when he retired around 1900

720

00:34:58,390 --> 00:34:49,880

he spent 23 years creating 5 over 5,000

721

00:35:04,600 --> 00:34:58,400

drawings of airships and well those

722

00:35:12,040 --> 00:35:04,610

drawings were were bought by the there's

723

00:35:14,440 --> 00:35:12,050

a Houston gallery that bought all of

724

00:35:19,690 --> 00:35:14,450

those drawings except some of them are

725

00:35:22,090 --> 00:35:19,700

bought by UFO enthusiasts but among

726

00:35:26,110 --> 00:35:22,100

joins were his writings and they were

727

00:35:28,240 --> 00:35:26,120

coated and so people are trying to break

728

00:35:30,490 --> 00:35:28,250

the code to see you know understand what

729

00:35:35,110 --> 00:35:30,500

he was talking about he does mention

730

00:35:38,380 --> 00:35:35,120

some names which is about 43 names in

731

00:35:41,770 --> 00:35:38,390

this set of drawings and writings and he

732

00:35:45,700 --> 00:35:41,780

prepared all this 23 year period and I

733

00:35:48,340 --> 00:35:45,710

gather it's a weak link there was a weak

734

00:35:51,670 --> 00:35:48,350

link in the 1990s when I studied it now

735

00:35:53,329 --> 00:35:51,680

with the assets so you have with the

736

00:35:58,609 --> 00:35:53,339

Internet today

737

00:36:01,009 --> 00:35:58,619

and genealogy you can probably make make

738

00:36:03,499 --> 00:36:01,019

it a more solid connection but there

739

00:36:06,800 --> 00:36:03,509

seem to be a connection between dr.

740

00:36:09,160 --> 00:36:06,810

Solomon Andrews of New York City and his

741

00:36:13,609 --> 00:36:09,170

[Music]

742

00:36:17,450 --> 00:36:13,619

company and the Senora Ariel Club in the

743

00:36:21,799 --> 00:36:17,460

gold fields in the 1850s now there were

744

00:36:25,329 --> 00:36:21,809

some reported sightings of airships seen

745

00:36:30,950 --> 00:36:25,339

in the 1850s out west in California and

746

00:36:36,019 --> 00:36:30,960

and in the general western area and I

747

00:36:38,569 --> 00:36:36,029

assumed that they were airships that are

748

00:36:40,579 --> 00:36:38,579

similar to the drawings at Bell Shaw

749

00:36:43,779 --> 00:36:40,589

made and you find some of his drawings

750

00:36:46,009 --> 00:36:43,789

on the internet if you search his name

751

00:36:48,099 --> 00:36:46,019

but at one time they were selling for

752

00:36:51,200 --> 00:36:48,109

fifteen twenty thousand dollars a piece

753

00:36:54,410 --> 00:36:51,210

so people bought them and put copies on

754

00:36:58,370 --> 00:36:54,420

the Internet but apparently they were

755

00:37:00,499 --> 00:36:58,380

very unreliable because he mentions a

756

00:37:03,229 --> 00:37:00,509

lot of crashes and a lot of people

757

00:37:08,359 --> 00:37:03,239

killed and I mentioned in all this

758

00:37:15,069 --> 00:37:08,369

because it leads up to the civil war in

759

00:37:20,680 --> 00:37:15,079

the 1860s when dr. Solomon Enders

760

00:37:27,499 --> 00:37:20,690

offered to the War Department to build a

761

00:37:33,170 --> 00:37:27,509

airship that the North could use to

762

00:37:35,420 --> 00:37:33,180

surveil Confederate lines I was

763

00:37:38,690 --> 00:37:35,430

interested and they contacted with him

764

00:37:41,989 --> 00:37:38,700

to build one and to fly they'll make a

765

00:37:43,809 --> 00:37:41,999

demonstration flight which he did in the

766

00:37:47,150 --> 00:37:43,819

fall of 1863

767

00:37:49,509 --> 00:37:47,160

and he did it in New York City and the

768

00:37:56,599 --> 00:37:49,519

demonstration flight was attended by

769

00:37:59,259 --> 00:37:56,609

some 15 or 20 newspaper reporters by his

770

00:38:03,769 --> 00:37:59,269

and their calculation he flew an airship

771

00:38:06,260 --> 00:38:03,779

over 200 miles an hour and altitude of

772

00:38:09,140 --> 00:38:06,270

half a mile

773

00:38:14,300 --> 00:38:09,150

that's pretty high pretty fast for 1863

774

00:38:19,100 --> 00:38:14,310

yeah but it's documented in numerous

775

00:38:22,190 --> 00:38:19,110

newspapers also he had to submit his

776

00:38:25,580 --> 00:38:22,200

plans to the War Department so they are

777

00:38:28,340 --> 00:38:25,590

in the National Archives you can you can

778

00:38:31,130 --> 00:38:28,350

go fetch those plans and build your own

779

00:38:35,800 --> 00:38:31,140

200 mile-an-hour airship if you want to

780

00:38:38,240 --> 00:38:35,810

yes you got the money can we just no

781

00:38:41,600 --> 00:38:38,250

complete can we just hold it right there

782

00:38:43,310 --> 00:38:41,610

for a second first of all I know that

783

00:38:46,100 --> 00:38:43,320

during the Civil War I can't remember

784

00:38:48,140 --> 00:38:46,110

with the type of gas they used for

785

00:38:50,300 --> 00:38:48,150

they're lighter than air and of balloons

786

00:38:52,730 --> 00:38:50,310

that they did use during the war they

787

00:38:54,830 --> 00:38:52,740

usually tethered them and use them for

788

00:38:58,880 --> 00:38:54,840

basically spying I know they did that

789

00:39:01,220 --> 00:38:58,890

but they also had a very flammable gas I

790

00:39:04,000 --> 00:39:01,230

can't remember what that was do you know

791

00:39:06,740 --> 00:39:04,010

it was a use that was really dangerous

792

00:39:11,330 --> 00:39:06,750

when were using helium in the in the

793

00:39:14,330 --> 00:39:11,340

1800s the ones they tethered for for

794

00:39:16,430 --> 00:39:14,340

signaling and for the use them for

795

00:39:20,480 --> 00:39:16,440

signaling their communication and they

796

00:39:22,670 --> 00:39:20,490

also use them for overlooking the

797

00:39:24,010 --> 00:39:22,680

enemy's lines those were hot-air

798

00:39:30,520 --> 00:39:24,020

balloons

799

00:39:37,970 --> 00:39:35,720

something that create hot air but dr.

800

00:39:41,450 --> 00:39:37,980

Solomon Andrews airship was a

801  
00:39:45,580 --> 00:39:41,460  
helium-filled it consisted three

802  
00:39:50,780 --> 00:39:45,590  
balloons three three cigarettes

803  
00:39:56,690 --> 00:39:50,790  
dirigible and you can find the

804  
00:39:58,340 --> 00:39:56,700  
dimensions of his machine and now like I

805  
00:40:02,180 --> 00:39:58,350  
said you can replicate you can build in

806  
00:40:08,180 --> 00:40:02,190  
fact in 1963 I found that a group of

807  
00:40:10,430 --> 00:40:08,190  
Navy pilots were said about to do that

808  
00:40:15,500 --> 00:40:10,440  
but I never was able to discover how

809  
00:40:18,760 --> 00:40:15,510  
successful they were now I mention this

810  
00:40:19,849 --> 00:40:18,770  
because this is very important to the

811  
00:40:23,239 --> 00:40:19,859  
1890s

812  
00:40:26,599 --> 00:40:23,249  
an airship story and the reason why is

813  
00:40:29,509 --> 00:40:26,609

because Knox Solomon Enders was a member

814

00:40:34,309 --> 00:40:29,519

of the sanitary commission for the

815

00:40:39,049 --> 00:40:34,319

Northern armies and in the fall of 1864

816

00:40:44,390 --> 00:40:39,059

he was assigned to the Pittsburgh feed

817

00:40:47,269 --> 00:40:44,400

lines well almost all of the names that

818

00:40:50,960 --> 00:40:47,279

I ferreted out of the 1897 airship

819

00:40:55,400 --> 00:40:50,970

sightings I could trace their presence

820

00:41:01,849 --> 00:40:55,410

back to the siege lines at Petersburg in

821

00:41:04,099 --> 00:41:01,859

the fall of 1864 so when when Solomon

822

00:41:09,319 --> 00:41:04,109

Andrews flew his airship is all and all

823

00:41:11,359 --> 00:41:09,329

the northern papers and so everyone

824

00:41:14,029 --> 00:41:11,369

would have read about it you know all

825

00:41:15,589 --> 00:41:14,039

the soldiers in the trenches would have

826

00:41:18,529 --> 00:41:15,599

read about it say what they were

827

00:41:21,200 --> 00:41:18,539

familiar with the story then and then

828

00:41:25,309 --> 00:41:21,210

dr. Andrew who shows up in the trenches

829

00:41:29,630 --> 00:41:25,319

with them and I'm sure he must have

830

00:41:31,549 --> 00:41:29,640

given numerous roundtable discussions

831

00:41:36,460 --> 00:41:31,559

with with people who are interested in

832

00:41:40,249 --> 00:41:36,470

flying because we find after the war

833

00:41:44,210 --> 00:41:40,259

this core group of people go to

834

00:41:48,589 --> 00:41:44,220

California to Northern California and

835

00:41:50,420 --> 00:41:48,599

they start building airships and in my

836

00:41:55,729 --> 00:41:50,430

book I have I have all these people

837

00:41:57,970 --> 00:41:55,739

identified and I have them you know

838

00:42:03,099 --> 00:41:57,980

their relationship to follow the Manders

839

00:42:06,559 --> 00:42:03,109

what military unit they were with and

840

00:42:09,380 --> 00:42:06,569

you can document you can go to the

841

00:42:14,749 --> 00:42:09,390

archive national archives or so like

842

00:42:19,489 --> 00:42:14,759

ancestry.com and verify that they were

843

00:42:21,680 --> 00:42:19,499

members of the military units that I you

844

00:42:25,729 --> 00:42:21,690

know I've identified them with and you

845

00:42:29,299 --> 00:42:25,739

can tell that the units were present and

846

00:42:32,170 --> 00:42:29,309

at Petersburg in the fall of 1864 so I

847

00:42:36,010 --> 00:42:32,180

think dr. Shawn Andrews and his

848

00:42:42,130 --> 00:42:36,020

his inventors Institute from the 1840s

849

00:42:44,950 --> 00:42:42,140

in the common denominator for sentient

850

00:42:49,390 --> 00:42:44,960

airship sightings but also for the

851  
00:42:52,599 --> 00:42:49,400  
Senora Senora aerial Club of the 1850s

852  
00:42:57,910 --> 00:42:52,609  
and the goldfields now I mention the

853  
00:42:59,440 --> 00:42:57,920  
Goldfield sometimes because building you

854  
00:43:02,289 --> 00:42:59,450  
know designing and building these

855  
00:43:04,809 --> 00:43:02,299  
airships were not cheap it was an

856  
00:43:09,480 --> 00:43:04,819  
expensive proposition I have one

857  
00:43:12,400 --> 00:43:09,490  
estimate from an inventor in California

858  
00:43:16,870 --> 00:43:12,410  
his statement to a San Francisco

859  
00:43:21,220 --> 00:43:16,880  
newspaper in 1896 that cost \$10,000 to

860  
00:43:26,010 --> 00:43:21,230  
build an airship well that's a that's a

861  
00:43:34,480 --> 00:43:29,859  
so gold and the gold fields would have

862  
00:43:37,870 --> 00:43:34,490  
provided the capital needed for the men

863  
00:43:43,500 --> 00:43:37,880

to build these airships and the common

864

00:43:47,769 --> 00:43:43,510

denominator there is George Hearst and

865

00:43:50,380 --> 00:43:47,779

Randolph Hearst 89 yeah well Jordan

866

00:43:53,620 --> 00:43:50,390

George William Randolph Hearst father

867

00:43:57,370 --> 00:43:53,630

George Hearst his men in the world when

868

00:44:01,390 --> 00:43:57,380

he died in 1892 and William Randolph was

869

00:44:03,849 --> 00:44:01,400

the only child so he inherited well he

870

00:44:06,299 --> 00:44:03,859

is a mother was still alive so she got

871

00:44:08,890 --> 00:44:06,309

you know she inherited most of his

872

00:44:10,930 --> 00:44:08,900

George's fortune at the time but then

873

00:44:13,240 --> 00:44:10,940

she died when she died he inherited the

874

00:44:18,010 --> 00:44:13,250

rest of it the remainder they did get

875

00:44:22,049 --> 00:44:18,020

William and I first took over George's

876

00:44:26,380 --> 00:44:22,059

San Francisco Examiner newspaper in 1886

877

00:44:30,069 --> 00:44:26,390

1887 and there's been eight million

878

00:44:36,010 --> 00:44:30,079

dollars in getting that to be a premiere

879

00:44:38,230 --> 00:44:36,020

you know countrywide newspaper so he

880

00:44:39,760 --> 00:44:38,240

obviously has some amount of money if

881

00:44:42,730 --> 00:44:39,770

he'd spent eight million dollars to

882

00:44:45,410 --> 00:44:42,740

combine new machinery and hired the best

883

00:44:51,250 --> 00:44:45,420

writers and all that sort of stuff

884

00:44:56,890 --> 00:44:51,260

so we ran off first at the time was

885

00:45:02,260 --> 00:44:56,900

extremely liberal we would identify him

886

00:45:10,010 --> 00:45:02,270

probably as a communist today well in

887

00:45:12,440 --> 00:45:10,020

1895 he was not one to work for his

888

00:45:16,100 --> 00:45:12,450

newspaper that he thought brought

889

00:45:17,720 --> 00:45:16,110

brought a talent that he needed he

890

00:45:20,600 --> 00:45:17,730

didn't care about their personal habits

891

00:45:24,200 --> 00:45:20,610

so he hired drug addicts

892

00:45:28,820 --> 00:45:24,210

he hired murderers you know he hired all

893

00:45:31,340 --> 00:45:28,830

kinds of people so in 1895 for some

894

00:45:36,290 --> 00:45:31,350

reason he decided that they all needed

895

00:45:39,410 --> 00:45:36,300

to get away a place to go and just be

896

00:45:42,440 --> 00:45:39,420

themselves for three weeks and relax and

897

00:45:44,240 --> 00:45:42,450

take it easy so he bought two thousand

898

00:45:48,320 --> 00:45:44,250

acres in northern California on the

899

00:45:51,080 --> 00:45:48,330

White River and getting away from it all

900

00:45:54,590 --> 00:45:51,090

letting your hair down and partying and

901  
00:46:00,800 --> 00:45:54,600  
you know they didn't smoke marijuana

902  
00:46:03,410 --> 00:46:00,810  
then so much as a as it was heroin you

903  
00:46:06,680 --> 00:46:03,420  
know Chinese heroin trade was real real

904  
00:46:10,910 --> 00:46:06,690  
big in San Francisco at time they bought

905  
00:46:13,490 --> 00:46:10,920  
this 2,000 acres and every weeks in the

906  
00:46:18,620 --> 00:46:13,500  
fall or in August every three weeks in

907  
00:46:20,920 --> 00:46:18,630  
August he would send his newspaper staff

908  
00:46:24,650 --> 00:46:20,930  
he and his newspaper staff would go

909  
00:46:26,510 --> 00:46:24,660  
there's two thousand acre ranch and that

910  
00:46:33,560 --> 00:46:26,520  
kind of lifestyle

911  
00:46:36,760 --> 00:46:33,570  
called Bohemians so he went off first he

912  
00:46:40,010 --> 00:46:36,770  
named this Bohemian Grove

913  
00:46:41,810 --> 00:46:40,020

in 1991 when I was researching this

914

00:46:44,540 --> 00:46:41,820

nobody had heard of Bohemian Grove

915

00:46:46,880 --> 00:46:44,550

outside of Northern California but now

916

00:46:49,190 --> 00:46:46,890

it's over the internet you can read up

917

00:46:52,130 --> 00:46:49,200

on and study and really understand what

918

00:46:56,450 --> 00:46:52,140

it is you know it's a place where all

919

00:46:59,109 --> 00:46:56,460

the world's leaders and politics and

920

00:47:04,689 --> 00:46:59,119

business get together every August and

921

00:47:07,969 --> 00:47:04,699

and supposedly set the world's agenda

922

00:47:12,049 --> 00:47:07,979

for the coming year so we ran our first

923

00:47:15,170 --> 00:47:12,059

card that in 1895 and for the first five

924

00:47:17,859 --> 00:47:15,180

years it was just his reporters and the

925

00:47:21,439 --> 00:47:17,869

people who worked for him the artists

926

00:47:24,189 --> 00:47:21,449

and reporters the work for him were

927

00:47:28,069 --> 00:47:24,199

invited to go there in August but by

928

00:47:30,019 --> 00:47:28,079

1905 reporters and artists were no

929

00:47:32,630 --> 00:47:30,029

longer welcome and by then it was all

930

00:47:42,529 --> 00:47:32,640

just business and business people and

931

00:47:44,209 --> 00:47:42,539

politicians okay so I think and and

932

00:47:45,680 --> 00:47:44,219

you'll understand why when you read the

933

00:47:48,680 --> 00:47:45,690

book or when I tell you here in few

934

00:47:55,400 --> 00:47:48,690

minutes but I believe we amend our first

935

00:47:57,589 --> 00:47:55,410

was one of the main invent investors in

936

00:48:01,880 --> 00:47:57,599

these people who were designing and

937

00:48:05,689 --> 00:48:01,890

building airships in the 1880s and 1890s

938

00:48:09,049 --> 00:48:05,699

I think George Hearst was you know

939

00:48:12,380 --> 00:48:09,059

started in the 1850s because by then by

940

00:48:15,430 --> 00:48:12,390

the 1850s he was already wealthy having

941

00:48:21,099 --> 00:48:15,440

struck several gold mines in California

942

00:48:24,920 --> 00:48:21,109

also in silver mines also in Montana and

943

00:48:29,259 --> 00:48:24,930

he was already a multi-millionaire but

944

00:48:40,400 --> 00:48:29,269

another name that was involved in the

945

00:48:44,479 --> 00:48:40,410

1897 airship story was a family name of

946

00:48:49,999 --> 00:48:44,489

Rockwell Samuel Rockwell on the

947

00:48:55,039 --> 00:48:50,009

Sacramento Bee and Samuel Rockwell's

948

00:49:00,229 --> 00:48:55,049

daughter married George Collins George

949

00:49:05,630 --> 00:49:00,239

Collins was a cousin who we met our

950

00:49:11,599 --> 00:49:05,640

first wium Randolph Hearst mother's

951  
00:49:12,800 --> 00:49:11,609  
maiden name with Collins so they were

952  
00:49:19,040 --> 00:49:12,810  
first cousins

953  
00:49:22,670 --> 00:49:19,050  
and during the 1890s George Collins had

954  
00:49:24,680 --> 00:49:22,680  
had gotten his law degree and he was an

955  
00:49:35,060 --> 00:49:24,690  
attorney working for the Hearst

956  
00:49:40,310 --> 00:49:35,070  
organization when the well when 1896

957  
00:49:43,550 --> 00:49:40,320  
came along there was an airship ever

958  
00:49:53,180 --> 00:49:43,560  
seen flying over Sacramento and over

959  
00:49:56,030 --> 00:49:53,190  
November 17 1896 and I'm sorry you guys

960  
00:49:59,600 --> 00:49:56,040  
won't take a break I know that that will

961  
00:50:02,180 --> 00:49:59,610  
be coming up in and let's see about five

962  
00:50:04,460 --> 00:50:02,190  
minutes we're going into a break but

963  
00:50:06,320 --> 00:50:04,470

I'll let you continue but just keep in

964

00:50:09,170 --> 00:50:06,330

mind in five minutes and I did have a

965

00:50:14,510 --> 00:50:09,180

question about I will wanted to ask you

966

00:50:18,440 --> 00:50:14,520

fairly soon but go ahead okay well Sir

967

00:50:21,740 --> 00:50:18,450

George Collins the Rockwell family is

968

00:50:24,440 --> 00:50:21,750

involved in these airship sightings and

969

00:50:28,100 --> 00:50:24,450

and by 1896

970

00:50:35,390 --> 00:50:28,110

that's another wealthy family in America

971

00:50:39,440 --> 00:50:35,400

oh I believe a group of wealthy

972

00:50:44,000 --> 00:50:39,450

Americans working with Solomon Andrews

973

00:50:46,690 --> 00:50:44,010

in the 1850s had developed some flying

974

00:50:49,970 --> 00:50:46,700

machines that were not really reliable

975

00:50:52,520 --> 00:50:49,980

they did fly them back and forth between

976  
00:50:56,900 --> 00:50:52,530  
New York and California because there

977  
00:51:00,080 --> 00:50:56,910  
are reported sightings turn 18

978  
00:51:03,140 --> 00:51:00,090  
scattered course you know country wasn't

979  
00:51:07,070 --> 00:51:03,150  
real populated heavily populated between

980  
00:51:10,090 --> 00:51:07,080  
New York and California in 1850s but

981  
00:51:13,490 --> 00:51:10,100  
there are scattered reporting's

982  
00:51:17,150 --> 00:51:13,500  
sightings of things flying in the sky at

983  
00:51:19,840 --> 00:51:17,160  
night between New York California but

984  
00:51:22,550 --> 00:51:19,850  
according to del Shaw Charles del Shaw

985  
00:51:25,330 --> 00:51:22,560  
these machines were not reliable and

986  
00:51:31,160 --> 00:51:25,340  
they crashed quite often and killed

987  
00:51:33,260 --> 00:51:31,170  
killed everybody on board yeah and a lot

988  
00:51:35,840 --> 00:51:33,270

of them that's what I know I've looked

989

00:51:37,160 --> 00:51:35,850

into it it is hydrogen I was thinking of

990

00:51:39,320 --> 00:51:37,170

they used hydrogen

991

00:51:41,810 --> 00:51:39,330

I know during the Civil War and there

992

00:51:44,900 --> 00:51:41,820

were some terrible accidents and you

993

00:51:47,270 --> 00:51:44,910

know very very flammable yet you know

994

00:51:49,700 --> 00:51:47,280

that's right because there was actually

995

00:51:54,140 --> 00:51:49,710

a hydrogen Factory in Fort Worth Texas

996

00:51:56,360 --> 00:51:54,150

I remember now an article where where a

997

00:52:01,670 --> 00:51:56,370

national air ship put down on the ground

998

00:52:06,740 --> 00:52:01,680

and Fort Worth and the occupants were

999

00:52:09,530 --> 00:52:06,750

looking for a source of hydrogen I said

1000

00:52:13,360 --> 00:52:09,540

helium did not yeah the hydrogen yeah

1001  
00:52:17,600 --> 00:52:13,370  
and hydrogen they they blessed the first

1002  
00:52:21,950 --> 00:52:17,610  
actually first hydrogen engine and it

1003  
00:52:25,580 --> 00:52:21,960  
was 1850 for internal combustion engine

1004  
00:52:28,520 --> 00:52:25,590  
that ran on hydrogen yeah it was very

1005  
00:52:32,720 --> 00:52:28,530  
early yeah 1850s yeah that's right yeah

1006  
00:52:37,600 --> 00:52:32,730  
right and I think maybe that's the

1007  
00:52:40,940 --> 00:52:37,610  
motive power because these airships

1008  
00:52:43,640 --> 00:52:40,950  
actually went to the Patent Office and

1009  
00:52:46,340 --> 00:52:43,650  
look through patent records back in the

1010  
00:52:51,020 --> 00:52:46,350  
time period and there are our airships

1011  
00:52:58,130 --> 00:52:51,030  
there were the early 1850s early 1850s

1012  
00:53:02,270 --> 00:52:58,140  
up through 1897 and the pictures that

1013  
00:53:04,730 --> 00:53:02,280

they also drew and the description of

1014

00:53:07,820 --> 00:53:04,740

airships that are written in these

1015

00:53:10,430 --> 00:53:07,830

newspaper articles do correspond quite

1016

00:53:17,030 --> 00:53:10,440

accurately with these these patent

1017

00:53:21,860 --> 00:53:17,040

drawings and these airships were driven

1018

00:53:26,090 --> 00:53:21,870

with propellers and operty there was

1019

00:53:29,900 --> 00:53:26,100

hydrogen engines that that were used to

1020

00:53:33,260 --> 00:53:29,910

propel them I know they even used steam

1021

00:53:37,460 --> 00:53:33,270

on some very early dirigibles way back

1022

00:53:39,200 --> 00:53:37,470

yeah but very successful because Staton

1023

00:53:44,900 --> 00:53:39,210

engines were too heavy yeah

1024

00:53:46,550 --> 00:53:44,910

oh yeah they found that was I was kind

1025

00:53:48,760 --> 00:53:46,560

of an issue there which was the weight

1026  
00:53:51,920 --> 00:53:48,770  
of the same engines and the water and

1027  
00:53:54,980 --> 00:53:51,930  
and then the fuel you had to carry to

1028  
00:53:57,440 --> 00:53:54,990  
burn yeah that's a lot that's a lot I

1029  
00:54:01,099 --> 00:53:57,450  
think we're going to run and go into the

1030  
00:54:03,710 --> 00:54:01,109  
break now and what I am going to do is

1031  
00:54:06,109 --> 00:54:03,720  
we're going to stay on you and I are

1032  
00:54:08,359 --> 00:54:06,119  
going to stay on during the break and

1033  
00:54:11,420 --> 00:54:08,369  
we're gonna try to fix your audio so you

1034  
00:54:13,130 --> 00:54:11,430  
can go back to audio but so and we'll

1035  
00:54:16,280 --> 00:54:13,140  
actually unfortunately we'll be live on

1036  
00:54:18,170 --> 00:54:16,290  
YouTube when we do that so just remember

1037  
00:54:21,050 --> 00:54:18,180  
we're still alive but we're gonna go

1038  
00:54:23,980 --> 00:54:21,060

into the break so hang in everyone we'll

1039

00:54:31,760 --> 00:54:23,990

be right back right after these

1040

00:54:34,460 --> 00:54:31,770

commercials clear how much time do we

1041

00:54:36,829 --> 00:54:34,470

have bill I gave you five minutes okay

1042

00:54:38,560 --> 00:54:36,839

five well five minutes so that should be

1043

00:54:42,620 --> 00:54:38,570

plenty of time all right

1044

00:54:45,460 --> 00:54:42,630

and so I do want to everyone - excuse us

1045

00:54:49,400 --> 00:54:45,470

on YouTube we're gonna try to fix

1046

00:54:53,690 --> 00:54:49,410

Michael's audio so Michael I want you to

1047

00:54:55,609 --> 00:54:53,700

hang on the phone if you would but I'm

1048

00:54:57,950 --> 00:54:55,619

gonna remove you bill for a second for a

1049

00:55:02,000 --> 00:54:57,960

little while here I want you to hang on

1050

00:55:04,460 --> 00:55:02,010

the phone actually I don't think you can

1051

00:55:07,160 --> 00:55:04,470

hear me let me just do this again

1052

00:55:09,079 --> 00:55:07,170

Michael hang on the phone but what I

1053

00:55:13,670 --> 00:55:09,089

want you to do is I want you to sign out

1054

00:55:16,670 --> 00:55:13,680

on stream yard and sign back in and try

1055

00:55:18,020 --> 00:55:16,680

to connect your your something's wrong

1056

00:55:21,470 --> 00:55:18,030

with your audio there you're getting

1057

00:55:25,849 --> 00:55:21,480

some feedback I see you're trying to do

1058

00:55:30,589 --> 00:55:25,859

it now when you turn your you need to go

1059

00:55:32,599 --> 00:55:30,599

back to the the backstage it's called go

1060

00:55:36,760 --> 00:55:32,609

back to the backstage take yourself out

1061

00:55:43,250 --> 00:55:39,680

actually you can't you you can't hear me

1062

00:55:44,990 --> 00:55:43,260

so take yourself out of this studio and

1063

00:55:49,550 --> 00:55:45,000

go back in and try to reset up your

1064

00:55:51,620 --> 00:55:49,560

microphone if you would let's stay on

1065

00:55:54,680 --> 00:55:51,630

that phone just in case

1066

00:55:57,230 --> 00:55:54,690

yeah he's gone so hopefully he will be

1067

00:55:58,760 --> 00:55:57,240

back over there in YouTube I guess is I

1068

00:56:03,050 --> 00:55:58,770

don't know if this is any better than

1069

00:56:05,270 --> 00:56:03,060

listening to silence or not but anyway

1070

00:56:06,740 --> 00:56:05,280

we're gonna try to get Michael's audio

1071

00:56:10,010 --> 00:56:06,750

up so he doesn't have to hang on the

1072

00:56:14,390 --> 00:56:10,020

phone and hopeless should be seeing him

1073

00:56:16,490 --> 00:56:14,400

come back in and so we got a five minute

1074

00:56:18,230 --> 00:56:16,500

break here we still have three minutes a

1075

00:56:22,820 --> 00:56:18,240

little over three minutes left

1076

00:56:24,530 --> 00:56:22,830

correct yeah bill so might as well chat

1077

00:56:27,140 --> 00:56:24,540

to you since if you don't mind talking a

1078

00:56:29,390 --> 00:56:27,150

little bit can you yeah fine I found

1079

00:56:32,210 --> 00:56:29,400

what John Green well as always the black

1080

00:56:34,310 --> 00:56:32,220

ball very interesting he's he's always

1081

00:56:37,370 --> 00:56:34,320

on top of the foyers and getting his

1082

00:56:39,110 --> 00:56:37,380

hands on documents and regardless of

1083

00:56:40,940 --> 00:56:39,120

what people think at least the guys up

1084

00:56:42,860 --> 00:56:40,950

front and he puts out the the

1085

00:56:44,060 --> 00:56:42,870

information out there for everyone to

1086

00:56:46,370 --> 00:56:44,070

pretty much reach their own conclusions

1087

00:56:48,770 --> 00:56:46,380

and that's what you want you want access

1088

00:56:50,960 --> 00:56:48,780

to that kind of information and I think

1089

00:56:54,470 --> 00:56:50,970

John does an extremely incredible job

1090

00:56:55,640 --> 00:56:54,480

doing that I do too and you know that's

1091

00:56:58,160 --> 00:56:55,650

why I wanted to have him on I watched

1092

00:57:01,070 --> 00:56:58,170

this video and I highly recommend anyone

1093

00:57:04,820 --> 00:57:01,080

can go into the show notes they can go

1094

00:57:07,190 --> 00:57:04,830

into also down below in YouTube in the

1095

00:57:10,220 --> 00:57:07,200

description you will see a link to his

1096

00:57:12,920 --> 00:57:10,230

video where he goes into very very deep

1097

00:57:15,320 --> 00:57:12,930

details about his research and this he

1098

00:57:17,390 --> 00:57:15,330

took it serious I mean he really did

1099

00:57:18,800 --> 00:57:17,400

from a young age by the way and that's

1100

00:57:20,810 --> 00:57:18,810

great to see that everywhere there are

1101

00:57:22,430 --> 00:57:20,820

people that are in the younger

1102

00:57:24,440 --> 00:57:22,440

generation that have developed an

1103

00:57:26,720 --> 00:57:24,450

interest in this because we need to

1104

00:57:29,080 --> 00:57:26,730

create that interest for the new

1105

00:57:31,640 --> 00:57:29,090

generation Martin we need to keep going

1106

00:57:35,150 --> 00:57:31,650

that's right and John started when he

1107

00:57:36,170 --> 00:57:35,160

was 16 I think it was and started his

1108

00:57:38,980 --> 00:57:36,180

for yes

1109

00:57:43,580 --> 00:57:38,990

you know his Freedom of Information Act

1110

00:57:45,320 --> 00:57:43,590

you know requests at age 16 and you know

1111

00:57:47,960 --> 00:57:45,330

I had a conversation with Stanton

1112

00:57:51,350 --> 00:57:47,970

Friedman oh I don't know five or six

1113

00:57:56,240 --> 00:57:51,360

years ago and I said Stanton who is the

1114

00:57:57,740 --> 00:57:56,250

next Stan Freeman and he said well let

1115

00:58:00,500 --> 00:57:57,750

me think about that for a minute you

1116

00:58:04,980 --> 00:58:00,510

know how it stands yeah they said I'd

1117

00:58:07,080 --> 00:58:04,990

say John Greenwald is and I

1118

00:58:10,230 --> 00:58:07,090

told John that and you know I when I met

1119

00:58:12,720 --> 00:58:10,240

John and Phoenix a few years ago I told

1120

00:58:14,760 --> 00:58:12,730

him what's what Stanton said and he got

1121

00:58:18,200 --> 00:58:14,770

teary-eyed he thought that was such an

1122

00:58:22,530 --> 00:58:18,210

honor that Stanwood would say that

1123

00:58:23,940 --> 00:58:22,540

listen Michael can you hear me Michael

1124

00:58:26,100 --> 00:58:23,950

you should be on the phone still Michael

1125

00:58:27,030 --> 00:58:26,110

he is on the phone I have a muted hold

1126

00:58:29,640 --> 00:58:27,040

on all right

1127

00:58:32,220 --> 00:58:29,650

right Michael can you hear me I mean

1128

00:58:35,390 --> 00:58:32,230

yeah Michael I'm not seeing your camera

1129

00:58:42,210 --> 00:58:35,400

this time when you're in the on the

1130

00:58:45,270 --> 00:58:42,220

stream here okay I can see myself and

1131

00:58:51,630 --> 00:58:45,280

this is on backstage are you using

1132

00:58:54,090 --> 00:58:51,640

Chrome again still in Firefox

1133

00:58:55,590 --> 00:58:54,100

oh yeah Firefox I should have warned you

1134

00:58:57,630 --> 00:58:55,600

right up front I keep forgetting to tell

1135

00:58:59,490 --> 00:58:57,640

people I'm gonna buy you another minute

1136

00:59:02,520 --> 00:58:59,500

because we need it are you sure we need

1137

00:59:03,840 --> 00:59:02,530

it yeah we have 30 seconds before we

1138

00:59:06,780 --> 00:59:03,850

come back you make yeah I guess we do

1139

00:59:09,090 --> 00:59:06,790

okay all right all right well we can

1140

00:59:12,599 --> 00:59:09,100

still continue to talk anyway yes while

1141

00:59:14,430 --> 00:59:12,609

he's working out on but yes what do you

1142

00:59:18,570 --> 00:59:14,440

have any information about next week's

1143

00:59:23,510 --> 00:59:18,580

guest coming up yes next week I have a

1144

00:59:26,190 --> 00:59:23,520

gentleman named Matthew Shaddaa kiss

1145

00:59:32,190 --> 00:59:26,200

Matthew Shaddaa gives it's this last

1146

00:59:35,400 --> 00:59:32,200

name is spelled SC z y da G is he's a

1147

00:59:41,609 --> 00:59:35,410

scientist and he's really looking deeply

1148

00:59:46,770 --> 00:59:41,619

into the UFO topic great guy all right

1149

00:59:48,359 --> 00:59:46,780

Michael you're back okay so Michael I'm

1150

00:59:50,550 --> 00:59:48,369

gonna bring you in and see what we do

1151  
00:59:53,190 --> 00:59:50,560  
with your audio but you're going to have

1152  
00:59:55,020 --> 00:59:53,200  
to you're going to have to mute his

1153  
00:59:57,080 --> 00:59:55,030  
phone can you do that bill I can't right

1154  
01:00:01,080 --> 00:59:57,090  
now we have 30 seconds by the way Martin

1155  
01:00:04,140 --> 01:00:01,090  
30 seconds okay let me bring him in all

1156  
01:00:07,200 --> 01:00:04,150  
right yeah we still get that feedback

1157  
01:00:08,160 --> 01:00:07,210  
yeah I think with the phone yeah we're

1158  
01:00:11,580 --> 01:00:08,170  
gonna have to stick with the phone

1159  
01:00:15,240 --> 01:00:11,590  
Michael so go ahead and mute your mute

1160  
01:00:16,800 --> 01:00:15,250  
your audio Michael okay

1161  
01:00:19,980 --> 01:00:16,810  
all right gentlemen we're coming back in

1162  
01:00:23,960 --> 01:00:19,990  
about 25 seconds Mike you still have to

1163  
01:00:27,060 --> 01:00:23,970

mute your audio on that little icon I

1164

01:00:35,550 --> 01:00:27,070

did it

1165

01:00:38,670 --> 01:00:35,560

oh no it's not muted okay I just muted

1166

01:00:40,890 --> 01:00:38,680

well I try to mute you I would for

1167

01:00:43,080 --> 01:00:40,900

coming back so musics playing your intro

1168

01:00:47,100 --> 01:00:43,090

music back to your music actually okay

1169

01:00:48,060 --> 01:00:47,110

you guys ready here we go three two one

1170

01:00:50,190 --> 01:00:48,070

go

1171

01:00:53,430 --> 01:00:50,200

all right welcome back my guest is

1172

01:00:54,840 --> 01:00:53,440

Michael Busby and I don't know if I've

1173

01:01:05,790 --> 01:00:54,850

been pronouncing your name right have I

1174

01:01:07,170 --> 01:01:05,800

Michael yes you doing okay sorry we

1175

01:01:11,550 --> 01:01:07,180

couldn't get your audio going there

1176

01:01:14,820 --> 01:01:11,560

let's one of the things up you know this

1177

01:01:17,550 --> 01:01:14,830

this show is about UFOs and you know the

1178

01:01:19,920 --> 01:01:17,560

1897 I'm sure you know that the story

1179

01:01:22,920 --> 01:01:19,930

has been all along you know that that

1180

01:01:24,750 --> 01:01:22,930

was a UFO crash and something about it

1181

01:01:27,720 --> 01:01:24,760

hit a windmill or something and there's

1182

01:01:30,360 --> 01:01:27,730

a unmarked grave and there's a whole

1183

01:01:33,440 --> 01:01:30,370

story about that did you go into that

1184

01:01:36,660 --> 01:01:33,450

part in in that part with the

1185

01:01:42,270 --> 01:01:36,670

the evidence they claimed they had the

1186

01:01:44,790 --> 01:01:42,280

melted pieces and things like that oh

1187

01:01:47,400 --> 01:01:44,800

yeah yeah we haven't we have fifty five

1188

01:01:49,530 --> 01:01:47,410

minutes but but this just to let you

1189

01:01:51,840 --> 01:01:49,540

know that the show is about UFO so I

1190

01:01:54,090 --> 01:01:51,850

want it I do want to I do want to bring

1191

01:01:55,380 --> 01:01:54,100

this subject into UFOs because that's

1192

01:01:57,950 --> 01:01:55,390

what a lot of people were saying they

1193

01:02:02,580 --> 01:01:57,960

were seeing in one way or another okay

1194

01:02:06,780 --> 01:02:02,590

well I wanted to want to approach it in

1195

01:02:09,600 --> 01:02:06,790

a you know an intelligent and stepwise

1196

01:02:12,960 --> 01:02:09,610

fashion so that we can understand the

1197

01:02:18,060 --> 01:02:12,970

whole picture sure so I'm giving you a

1198

01:02:28,110 --> 01:02:22,060

airship development and test flying from

1199

01:02:32,970 --> 01:02:28,120

the 1840s up to up to the airshow

1200

01:02:36,040 --> 01:02:32,980

airship show of the 1896 and 1997

1201

01:02:40,510 --> 01:02:36,050

but moving ahead to that time period I'd

1202

01:02:44,260 --> 01:02:40,520

mentioned that the first sighting in 18

1203

01:02:48,790 --> 01:02:44,270

fall of 1896 was over Sacramento and the

1204

01:02:51,520 --> 01:02:48,800

Sacramento Bee reported that sighting is

1205

01:02:54,310 --> 01:02:51,530

same to look well on the Sacramento Bee

1206

01:03:00,400 --> 01:02:54,320

at the time so I'm trying to establish

1207

01:03:05,230 --> 01:03:00,410

that I believe the wealthy families of

1208

01:03:09,490 --> 01:03:05,240

the United States between the 1850s in

1209

01:03:15,460 --> 01:03:09,500

the 1890s had invested in these

1210

01:03:20,350 --> 01:03:15,470

inventors and one of them was a well

1211

01:03:25,050 --> 01:03:20,360

known inventor in San Francisco who has

1212

01:03:28,170 --> 01:03:25,060

well-documented airship airship designs

1213

01:03:33,220 --> 01:03:28,180

that you can see in the patent records

1214

01:03:36,460 --> 01:03:33,230

and some San Francisco newspapers

1215

01:03:38,950 --> 01:03:36,470

interviewed him when this sighting was

1216

01:03:41,620 --> 01:03:38,960

seen over Sacramento Bee and he claimed

1217

01:03:46,240 --> 01:03:41,630

yes that that was him on a test flight

1218

01:03:48,070 --> 01:03:46,250

flying over Sacramento and he goes on to

1219

01:03:51,010 --> 01:03:48,080

say that they have built they've

1220

01:03:53,740 --> 01:03:51,020

designed and built 11 airships that

1221

01:03:55,630 --> 01:03:53,750

their tests line and they're not all

1222

01:04:02,730 --> 01:03:55,640

identical they they have several

1223

01:04:06,820 --> 01:04:02,740

different configurations any mentions

1224

01:04:10,480 --> 01:04:06,830

the attorney for the the airship

1225

01:04:13,540 --> 01:04:10,490

consortium is a George Collins of San

1226

01:04:16,480 --> 01:04:13,550

Francisco who as I mentioned was a wee

1227

01:04:18,760 --> 01:04:16,490

Randolph Hearst cousin so newspapers

1228

01:04:25,060 --> 01:04:18,770

start dogging George Collins asking him

1229

01:04:28,030 --> 01:04:25,070

questions and he's quite the library of

1230

01:04:29,720 --> 01:04:28,040

information he answers all this paper

1231

01:04:32,120 --> 01:04:29,730

question so

1232

01:04:33,830 --> 01:04:32,130

you pull up the San Francisco newspapers

1233

01:04:37,910 --> 01:04:33,840

there was I think three or four

1234

01:04:40,330 --> 01:04:37,920

different newspapers in San Francisco at

1235

01:04:45,920 --> 01:04:40,340

the time and you read their articles

1236

01:04:48,320 --> 01:04:45,930

which I have in some in my book George

1237

01:04:51,260 --> 01:04:48,330

Collins talks about about the air ships

1238

01:04:56,390 --> 01:04:51,270

and he talks about the men who involved

1239

01:05:01,340 --> 01:04:56,400

so he's naming names and this I think is

1240

01:05:03,820 --> 01:05:01,350

very important I take all the names that

1241

01:05:08,480 --> 01:05:03,830

are mentioned in the newspaper accounts

1242

01:05:13,160 --> 01:05:08,490

not only in 1896 Beaufort 1897 and and

1243

01:05:15,980 --> 01:05:13,170

then going back to 1850 and I try to

1244

01:05:23,420 --> 01:05:15,990

connect them all together to show the

1245

01:05:25,400 --> 01:05:23,430

continuity of how this all flowed to

1246

01:05:31,400 --> 01:05:25,410

result in these eleven airships being

1247

01:05:34,430 --> 01:05:31,410

built in 1896 well the first thing in

1248

01:05:37,160 --> 01:05:34,440

the fall November December 1896 around

1249

01:05:41,060 --> 01:05:37,170

San Francisco and then they start

1250

01:05:45,530 --> 01:05:41,070

showing up in the Midwest in Michigan

1251

01:05:47,750 --> 01:05:45,540

Illinois Indiana and wherever they're

1252

01:05:51,950 --> 01:05:47,760

seen they're always at night they're

1253

01:05:54,470 --> 01:05:51,960

always flying estimated to be flying in

1254

01:05:57,710 --> 01:05:54,480

about 10 to 15,000 feet in the air and

1255

01:06:00,820 --> 01:05:57,720

their speeds are estimated at faster

1256

01:06:03,680 --> 01:06:00,830

than the fastest locomotives which in

1257

01:06:10,030 --> 01:06:03,690

1897 was about was over a hundred miles

1258

01:06:13,970 --> 01:06:10,040

an hour of course going back saw Manders

1259

01:06:16,010 --> 01:06:13,980

wide in 1863 he proved that he can fly

1260

01:06:18,140 --> 01:06:16,020

one two hundred miles an hour

1261

01:06:21,109 --> 01:06:18,150

yeah can I just interrupt you there for

1262

01:06:26,620 --> 01:06:21,119

a second how after that time how could

1263

01:06:26,630 --> 01:06:36,670

well they had some interesting designs

1264

01:06:43,410 --> 01:06:40,640

gosh yes I should have read my books I

1265

01:06:51,950 --> 01:06:48,720

it's been 30 years ago they had some

1266

01:06:59,000 --> 01:06:51,960

very interesting worm gear type

1267

01:07:05,099 --> 01:06:59,010

arrangements and now maybe you'll

1268

01:07:10,740 --> 01:07:05,109

understand appreciate this as I get on

1269

01:07:14,700 --> 01:07:10,750

into the story here because these eleven

1270

01:07:19,650 --> 01:07:14,710

airships there were only four seeing

1271

01:07:23,640 --> 01:07:19,660

flying in the Midwest in January in

1272

01:07:27,450 --> 01:07:23,650

February of 1897 that means five of them

1273

01:07:28,380 --> 01:07:27,460

have discipline seven of them have

1274

01:07:30,620 --> 01:07:28,390

disappeared

1275

01:07:34,500 --> 01:07:30,630

well digging through newspaper records

1276

01:07:38,339 --> 01:07:34,510

from the time period I can identify more

1277

01:07:41,630 --> 01:07:38,349

six of those seven crashed at different

1278

01:07:44,609 --> 01:07:41,640

locales between Michigan and California

1279

01:07:50,460 --> 01:07:44,619

so they start out with 11 airships in

1280

01:07:54,539 --> 01:07:50,470

November or November of 96 and by March

1281

01:08:01,220 --> 01:07:54,549

of 1897 when they first started peering

1282

01:08:05,910 --> 01:08:04,230

now I want to mention names because one

1283

01:08:10,799 --> 01:08:05,920

of the names is very important to this

1284

01:08:12,779 --> 01:08:10,809

story is John Shelby Williams John

1285

01:08:14,779 --> 01:08:12,789

Shelby Williams was born in Butte County

1286

01:08:19,130 --> 01:08:14,789

in the 1800s

1287

01:08:24,840 --> 01:08:19,140

along with three or four other cast

1288

01:08:28,829 --> 01:08:24,850

members of this show and George Hearst

1289

01:08:34,280 --> 01:08:28,839

got him appointed a u.s. marshal well

1290

01:08:40,740 --> 01:08:37,169

Williams comes to Texas and he buys a

1291

01:08:43,559 --> 01:08:40,750

small ranch in North Texas outside of

1292

01:08:48,930 --> 01:08:43,569

town called the Dona and he buys another

1293

01:08:54,660 --> 01:08:48,940

small ranch down by Houston a place

1294

01:08:56,789 --> 01:08:54,670

outside Houston called con grow well in

1295

01:08:59,099 --> 01:08:56,799

March and April as a

1296

01:09:03,059 --> 01:08:59,109

97 these airship sightings are being

1297

01:09:05,370 --> 01:09:03,069

seen all over North Texas and this is

1298

01:09:08,039 --> 01:09:05,380

the area focus in on my book because

1299

01:09:11,329 --> 01:09:08,049

there's enough I was able to get enough

1300

01:09:15,379 --> 01:09:11,339

newspaper clippings enough sightings

1301

01:09:21,599 --> 01:09:15,389

where I could start triangulating the

1302

01:09:24,950 --> 01:09:21,609

paths of these airships and I discovered

1303

01:09:29,609 --> 01:09:24,960

that when they were seen in North Texas

1304

01:09:35,220 --> 01:09:29,619

they were originating from John Shelby's

1305

01:09:39,390 --> 01:09:35,230

ranch in the dump I triangulate their

1306

01:09:42,180 --> 01:09:39,400

paths they all cross right there where

1307

01:09:46,189 --> 01:09:42,190

his ranch was just outside of ladonia

1308

01:09:52,819 --> 01:09:46,199

and then the same thing down in

1309

01:10:02,930 --> 01:09:56,100

originated in the area of conroe where

1310

01:10:05,669 --> 01:10:02,940

he had a farm so I believe that sheriff

1311

01:10:10,589 --> 01:10:05,679

u.s. marshal my sheriff a US Marshal

1312

01:10:16,020 --> 01:10:10,599

John Shelby Williams was a member of

1313

01:10:20,479 --> 01:10:16,030

this this airship party now there are

1314

01:10:23,040 --> 01:10:20,489

newspaper articles that says that one

1315

01:10:27,510 --> 01:10:23,050

airship was having mechanical problems

1316

01:10:29,100 --> 01:10:27,520

where the scene south of Fort Worth and

1317

01:10:33,330 --> 01:10:29,110

now normally they were only seen at

1318

01:10:37,109 --> 01:10:33,340

night this one airship was seen in the

1319

01:10:39,720 --> 01:10:37,119

early morning and it was seemed to be

1320

01:10:41,339 --> 01:10:39,730

having trouble and it landed came down

1321

01:10:44,399 --> 01:10:41,349

to earth

1322

01:10:47,879 --> 01:10:44,409

it landed near town some people talked

1323

01:10:51,569 --> 01:10:47,889

to the people who were there people to

1324

01:10:55,740 --> 01:10:51,579

people I think on the airship and some

1325

01:10:57,419 --> 01:10:55,750

local people talked to them and all this

1326

01:10:59,819 --> 01:10:57,429

information got into the newspaper

1327

01:11:02,580 --> 01:10:59,829

account and the airship went back up in

1328

01:11:09,959 --> 01:11:02,590

the air and was continuing on north

1329

01:11:15,989 --> 01:11:13,410

a line from where it was seeing South

1330

01:11:18,450 --> 01:11:15,999

West or Southwest being southwest of

1331

01:11:23,899 --> 01:11:18,460

Fort Worth my jaw line from there to

1332

01:11:28,640 --> 01:11:23,909

ladonia it crosses over Aurora Texas

1333

01:11:33,629 --> 01:11:28,650

well war is where a government official

1334

01:11:37,580 --> 01:11:33,639

reported in April of 1897 an airship

1335

01:11:45,359 --> 01:11:37,590

crashed it crashed into a a windmill of

1336

01:11:46,950 --> 01:11:45,369

a local judges yard with the death of

1337

01:11:53,399 --> 01:11:46,960

you know someone said the body was

1338

01:11:58,529 --> 01:11:53,409

burned so bad it was unrecognizable so I

1339

01:12:01,080 --> 01:11:58,539

believe the crash roar was one of these

1340

01:12:06,959 --> 01:12:01,090

airships as I said there's a newspaper

1341

01:12:08,520 --> 01:12:06,969

article from the Fort Worth newspaper at

1342

01:12:13,040 --> 01:12:08,530

the time saying that the airship was

1343

01:12:21,149 --> 01:12:13,050

having mechanical problems that morning

1344

01:12:24,589 --> 01:12:21,159

southeast of so you won't talk about

1345

01:12:27,839 --> 01:12:24,599

UFOs and you know see what most people

1346

01:12:30,180 --> 01:12:27,849

when they think UFOs they think little

1347

01:12:34,879 --> 01:12:30,190

green men from Mars or you know some

1348

01:12:38,430 --> 01:12:34,889

other type of outerspace experience well

1349

01:12:42,689 --> 01:12:38,440

I've got a top-secret security clearance

1350

01:12:45,270 --> 01:12:42,699

with so you Hank you whiskey access for

1351

01:12:51,000 --> 01:12:45,280

forty five years I've been inside that

1352

01:12:53,700 --> 01:12:51,010

hangar at wright-patterson Air Force

1353

01:12:56,129 --> 01:12:53,710

Base in Ohio where supposedly the little

1354

01:12:59,459 --> 01:12:56,139

green bodies are kept down in the

1355

01:13:01,020 --> 01:12:59,469

basement I can't tell you what goes on

1356

01:13:02,850 --> 01:13:01,030

inside there because you have to have a

1357

01:13:07,580 --> 01:13:02,860

top-secret just to get it top-secret

1358

01:13:13,859 --> 01:13:10,410

can't tell you that that hangar does not

1359

01:13:17,549 --> 01:13:13,869

have a basement it has no little green

1360

01:13:21,989 --> 01:13:17,559

bodies that's really sure if they seem

1361

01:13:23,890 --> 01:13:21,999

green but you know I think I think the

1362

01:13:28,959 --> 01:13:23,900

green layer Joe

1363

01:13:32,530 --> 01:13:28,969

immolation yeah yeah yeah that was a

1364

01:13:34,990 --> 01:13:32,540

picture of the image that you know the

1365

01:13:38,439 --> 01:13:35,000

media gave us back in the 18 back in the

1366

01:13:40,479 --> 01:13:38,449

1950s and 1960s you know like any time

1367

01:13:44,189 --> 01:13:40,489

they showed space creatures they usually

1368

01:13:46,330 --> 01:13:44,199

little bring little green men and women

1369

01:13:50,979 --> 01:13:46,340

you know what define to be a little

1370

01:13:54,550 --> 01:13:50,989

amusing yeah right yeah I know I know my

1371

01:13:58,120 --> 01:13:54,560

father was a World War two veteran and

1372

01:14:01,229 --> 01:13:58,130

he was in the military police his last

1373

01:14:05,919 --> 01:14:01,239

10 years and he was facing out it

1374

01:14:13,709 --> 01:14:05,929

Roswell and about 18 months before he

1375

01:14:17,919 --> 01:14:13,719

died in 2002 anthemic there was anything

1376

01:14:21,070 --> 01:14:17,929

about Roswell that was you know what

1377

01:14:25,050 --> 01:14:21,080

really happened there and of course he

1378

01:14:27,939 --> 01:14:25,060

had a top-secret security clearance and

1379

01:14:31,689 --> 01:14:27,949

he couldn't provide details or anything

1380

01:14:37,419 --> 01:14:31,699

but he did tell me he says you can

1381

01:14:39,850 --> 01:14:37,429

believe what you read and to be honestly

1382

01:14:45,240 --> 01:14:39,860

that's all I know about Roswell I mean I

1383

01:14:49,810 --> 01:14:45,250

read a lot about it and studied it and

1384

01:14:51,729 --> 01:14:49,820

but my only experience with Roswell is

1385

01:14:54,100 --> 01:14:51,739

that I've been in that hangar at

1386

01:14:56,229 --> 01:14:54,110

wright-patterson and and there's no

1387

01:14:57,700 --> 01:14:56,239

alien bodies in there and there's not

1388

01:14:59,290 --> 01:14:57,710

even a but they said they were stored in

1389

01:15:00,729 --> 01:14:59,300

the basement in the hangar there's not a

1390

01:15:03,520 --> 01:15:00,739

third amount of basement in the hangar

1391

01:15:05,470 --> 01:15:03,530

either are you talking well this more

1392

01:15:08,740 --> 01:15:05,480

than one hangar there isn't there I mean

1393

01:15:14,500 --> 01:15:08,750

there's a lot of hangers right well but

1394

01:15:18,000 --> 01:15:14,510

the one that supposedly the supposedly

1395

01:15:24,729 --> 01:15:18,010

the one where the bodies were taken and

1396

01:15:27,399 --> 01:15:24,739

ambry from from the crash yeah well you

1397

01:15:30,810 --> 01:15:27,409

know that to a point here I'm getting to

1398

01:15:36,250 --> 01:15:30,820

a point here and that is you look at the

1399

01:15:39,220 --> 01:15:36,260

UFO sightings from the 1970s the CIA

1400

01:15:42,820 --> 01:15:39,230

finally admitted

1401

01:15:46,390 --> 01:15:42,830

several years ago 10 15 years ago CIA

1402

01:15:49,630 --> 01:15:46,400

finally admitted that probably 70 70 75

1403

01:15:55,450 --> 01:15:49,640

percent of the reported UFO sightings in

1404

01:15:58,450 --> 01:15:55,460

the 8 in the 1970s was the u-2 spy plane

1405

01:16:02,560 --> 01:15:58,460

I didn't realize it was that high but

1406

01:16:06,790 --> 01:16:02,570

the other that was reported right yeah

1407

01:16:11,560 --> 01:16:06,800

so my point is is it recent things

1408

01:16:13,510 --> 01:16:11,570

flying in the air at night and we don't

1409

01:16:16,720 --> 01:16:13,520

know if they're from this world or from

1410

01:16:18,370 --> 01:16:16,730

some other world from just looking up

1411

01:16:21,910 --> 01:16:18,380

the sky and seeing something I mean you

1412

01:16:23,470 --> 01:16:21,920

take the stealth fighter anyone's in the

1413

01:16:25,420 --> 01:16:23,480

stealth fighter for the very first time

1414

01:16:28,810 --> 01:16:25,430

was wearing if it's from Mars or Venus

1415

01:16:30,220 --> 01:16:28,820

or somewhere you know it would certainly

1416

01:16:32,920 --> 01:16:30,230

didn't look like it was anything that

1417

01:16:40,360 --> 01:16:32,930

was designed and built on this planet

1418

01:16:45,300 --> 01:16:40,370

but in fact it was so the the 1897 story

1419

01:16:48,990 --> 01:16:45,310

and the Aurora Aurora Texas crash is

1420

01:16:53,110 --> 01:16:49,000

really about some very inventive

1421

01:16:56,500 --> 01:16:53,120

Americans who were well financed by

1422

01:17:02,070 --> 01:16:56,510

capitalists by rich capitalists who I

1423

01:17:04,960 --> 01:17:02,080

believe were the founding members of

1424

01:17:10,180 --> 01:17:04,970

what has now become the one-world

1425

01:17:14,170 --> 01:17:10,190

government these guys I mentioned George

1426

01:17:17,500 --> 01:17:14,180

Collins because once you start talking

1427

01:17:21,070 --> 01:17:17,510

to the newspapers we amend all hearse

1428

01:17:29,230 --> 01:17:21,080

fired him from working for the hoods

1429

01:17:32,650 --> 01:17:29,240

corporation and in 1898 George Collins

1430

01:17:36,220 --> 01:17:32,660

was visiting electric in Kentucky and he

1431

01:17:38,200 --> 01:17:36,230

gave an interview to the local paper and

1432

01:17:43,780 --> 01:17:38,210

he told the local paper that he was the

1433

01:17:50,440 --> 01:17:43,790

Grand Vizier of the Illuminati well in

1434

01:17:50,950 --> 01:17:50,450

1903 George Collins was arrested charged

1435

01:17:53,380 --> 01:17:50,960

with

1436

01:17:56,229 --> 01:17:53,390

surgery and since the 14 years in alpha

1437

01:17:58,120 --> 01:17:56,239

dress now that's a big downfall for

1438

01:18:03,459 --> 01:17:58,130

someone who's a cousin the weight of

1439

01:18:06,280 --> 01:18:03,469

Randolph Hearst now things were slow you

1440

01:18:07,840 --> 01:18:06,290

know information was slow to pass back

1441

01:18:10,510 --> 01:18:07,850

in those days you know you had the

1442

01:18:16,690 --> 01:18:10,520

Telegraph with the fastest means of

1443

01:18:18,600 --> 01:18:16,700

communications so Collins and 1898 gives

1444

01:18:20,890 --> 01:18:18,610

the interview in Lexington Kentucky

1445

01:18:22,930 --> 01:18:20,900

saying he's the Grand Vizier the

1446

01:18:25,500 --> 01:18:22,940

Illuminati we Randolph Hearst doesn't

1447

01:18:27,940 --> 01:18:25,510

hear about it until three years later

1448

01:18:30,550 --> 01:18:27,950

and he has his cousin brought up on

1449

01:18:34,870 --> 01:18:30,560

perjury charges he's thrown in prison

1450

01:18:36,610 --> 01:18:34,880

for 14 years today it's the one said

1451

01:18:41,170 --> 01:18:36,620

they admitted they were the Grand Vizier

1452

01:18:43,959 --> 01:18:41,180

they would probably be assassinated now

1453

01:18:47,440 --> 01:18:43,969

I may be way off base here you know I

1454

01:18:50,260 --> 01:18:47,450

may be making a lot of assumptions but

1455

01:18:53,760 --> 01:18:50,270

this is just the picture I get given

1456

01:18:56,620 --> 01:18:53,770

everything I know that happened then and

1457

01:18:58,959 --> 01:18:56,630

subsequently because when I started

1458

01:19:02,229 --> 01:18:58,969

looking at these the rich people who are

1459

01:19:03,610 --> 01:19:02,239

involved in this story I see them and

1460

01:19:07,180 --> 01:19:03,620

their family members and their

1461

01:19:13,030 --> 01:19:07,190

descendants coming up repeatedly in our

1462

01:19:16,810 --> 01:19:13,040

government they become important members

1463

01:19:20,500 --> 01:19:16,820

of our government and knowing what

1464

01:19:24,970 --> 01:19:20,510

Bohemian Grove what transpired there and

1465

01:19:28,000 --> 01:19:24,980

how it evolved from being a you know a

1466

01:19:32,920 --> 01:19:28,010

place to have all the sex and drugs you

1467

01:19:34,900 --> 01:19:32,930

can stand in 1895 to be in a different

1468

01:19:38,590 --> 01:19:34,910

kind of place but the clientele has

1469

01:19:41,650 --> 01:19:38,600

changes it's gone from reporters to oral

1470

01:19:46,000 --> 01:19:41,660

politicians especially based on what we

1471

01:19:50,050 --> 01:19:46,010

know today with the child the pedophilia

1472

01:19:53,229 --> 01:19:50,060

this that's becoming known well it makes

1473

01:19:55,330 --> 01:19:53,239

me wonder how much of that they're doing

1474

01:19:59,040 --> 01:19:55,340

it this Bohemian Grove which is

1475

01:20:02,320 --> 01:19:59,050

off-limits to the public you know you

1476

01:20:04,779 --> 01:20:02,330

you try to gain the this 2,000 acre

1477

01:20:07,449 --> 01:20:04,789

ranch and you know jail for

1478

01:20:09,069 --> 01:20:07,459

while we can't even cross the fence

1479

01:20:17,770 --> 01:20:09,079

without them catching you because it's

1480

01:20:20,679 --> 01:20:17,780

all monitored so well in aerospace for

1481

01:20:26,409 --> 01:20:20,689

as long as I did I know that the

1482

01:20:30,539 --> 01:20:26,419

government is involved in designing and

1483

01:20:35,439 --> 01:20:30,549

test line augments all manner of

1484

01:20:39,909 --> 01:20:35,449

interesting aircraft and they test on at

1485

01:20:41,859 --> 01:20:39,919

night when they're not easily seen they

1486

01:20:43,799 --> 01:20:41,869

don't take their latest and greatest

1487

01:20:49,059 --> 01:20:43,809

flying machine down in broad daylight

1488

01:20:51,789 --> 01:20:49,069

and fly them across LA or New York City

1489

01:20:53,789 --> 01:20:51,799

or anything like that they may fly over

1490

01:20:57,819 --> 01:20:53,799

the desert areas out there in California

1491

01:21:00,069 --> 01:20:57,829

no honor and they do it at night so that

1492

01:21:02,259 --> 01:21:00,079

they can keep it as classified as you

1493

01:21:06,039 --> 01:21:02,269

know classified secret as long as

1494

01:21:09,939 --> 01:21:06,049

possible so I think that's where a lot

1495

01:21:13,299 --> 01:21:09,949

of our UFO sightings come from they come

1496

01:21:16,169 --> 01:21:13,309

from machines that are flying machines

1497

01:21:22,149 --> 01:21:16,179

that are designed and built by humans

1498

01:21:24,729 --> 01:21:22,159

now based on some personal experiences

1499

01:21:30,969 --> 01:21:24,739

that have been related to me by my

1500

01:21:34,539 --> 01:21:30,979

friends there does seem to be another

1501  
01:21:39,239 --> 01:21:34,549  
element involved in some UFO sightings

1502  
01:21:42,449 --> 01:21:39,249  
there does seem to be something that's

1503  
01:21:45,759 --> 01:21:42,459  
more intelligent than the typical human

1504  
01:21:49,979 --> 01:21:45,769  
this out there doing something but have

1505  
01:21:53,799 --> 01:21:49,989  
there had any personal personal UFO

1506  
01:21:58,000 --> 01:21:53,809  
experience I could not trace back to

1507  
01:22:00,729 --> 01:21:58,010  
something that humans were doing yeah

1508  
01:22:03,039 --> 01:22:00,739  
well there's there's sometimes there's a

1509  
01:22:06,179 --> 01:22:03,049  
natural phenomenon you know people will

1510  
01:22:09,969 --> 01:22:06,189  
see that you know they are confusing

1511  
01:22:13,119 --> 01:22:09,979  
with an unidentified object and

1512  
01:22:15,669 --> 01:22:13,129  
eventually gets explained but there is a

1513  
01:22:18,790 --> 01:22:15,679

number of cases you know it's a small

1514

01:22:22,000 --> 01:22:18,800

percentage but there's a number of cases

1515

01:22:24,700 --> 01:22:22,010

no one has ever been able to explain and

1516

01:22:26,980 --> 01:22:24,710

you know I mean I'm not saying little

1517

01:22:30,070 --> 01:22:26,990

green men but I'm just saying that we

1518

01:22:33,970 --> 01:22:30,080

still call them you know unknown objects

1519

01:22:36,520 --> 01:22:33,980

and you know there's there's a sighting

1520

01:22:38,740 --> 01:22:36,530

like someone in the in the chat room

1521

01:22:40,150 --> 01:22:38,750

just posted you know something about the

1522

01:22:42,300 --> 01:22:40,160

Phoenix lights I don't know if you've

1523

01:22:48,580 --> 01:22:42,310

ever heard of that that was back in

1524

01:22:51,640 --> 01:22:48,590

March 13th 1997 and this huge you know

1525

01:22:53,640 --> 01:22:51,650

triangle some people say miles wide went

1526

01:22:56,110 --> 01:22:53,650

over the valley there are many many

1527

01:22:57,700 --> 01:22:56,120

hundreds maybe even thousands of people

1528

01:23:00,910 --> 01:22:57,710

actually saw this because they were out

1529

01:23:02,740 --> 01:23:00,920

looking at the comet back then

1530

01:23:04,960 --> 01:23:02,750

and that's you know that's one that has

1531

01:23:10,150 --> 01:23:04,970

never been explained it's been tried to

1532

01:23:12,790 --> 01:23:10,160

be explained away through because the

1533

01:23:15,250 --> 01:23:12,800

military did put up flares later on that

1534

01:23:18,070 --> 01:23:15,260

night many people saw that too and they

1535

01:23:19,690 --> 01:23:18,080

you know it has been tried to it has

1536

01:23:23,680 --> 01:23:19,700

been explained away his flares but

1537

01:23:25,990 --> 01:23:23,690

that's really not what it was yeah I

1538

01:23:27,970 --> 01:23:26,000

read about right about that the Phoenix

1539

01:23:34,120 --> 01:23:27,980

lights and you know Mexico City lives

1540

01:23:39,120 --> 01:23:34,130

and Marfa Marfa lights yeah oh yeah

1541

01:23:41,590 --> 01:23:39,130

Marshall Luxor that's just something

1542

01:23:44,200 --> 01:23:41,600

interesting that I would like to go to

1543

01:23:47,100 --> 01:23:44,210

one day but looks like I'm not gonna

1544

01:23:49,840 --> 01:23:47,110

make it I'm not gonna last that long

1545

01:23:51,970 --> 01:23:49,850

no well listen you know getting back to

1546

01:23:55,300 --> 01:23:51,980

this 1897 in particular

1547

01:23:58,900 --> 01:23:55,310

Aurora that's the one that you know it

1548

01:24:04,420 --> 01:23:58,910

has been on many TV shows I know

1549

01:24:08,830 --> 01:24:04,430

UFO Hunters did a show on that many many

1550

01:24:12,490 --> 01:24:08,840

people have dove into that thinking that

1551

01:24:15,160 --> 01:24:12,500

it was you know a crash airship with you

1552

01:24:17,380 --> 01:24:15,170

know an alien basically because you know

1553

01:24:19,210 --> 01:24:17,390

I mean that is kind of the the stretch

1554

01:24:21,160 --> 01:24:19,220

that people have made you know

1555

01:24:23,430 --> 01:24:21,170

unexplained they didn't know what it was

1556

01:24:27,280 --> 01:24:23,440

they saw a charred body a charred

1557

01:24:29,320 --> 01:24:27,290

vehicle and they put in an unknown grave

1558

01:24:31,810 --> 01:24:29,330

and there's been a lot of people that

1559

01:24:32,760 --> 01:24:31,820

have wanted to try to dig up that grave

1560

01:24:35,730 --> 01:24:32,770

they know apart

1561

01:24:38,640 --> 01:24:35,740

similar word is but it it's not you know

1562

01:24:40,200 --> 01:24:38,650

being allowed rightly so but you know

1563

01:24:42,540 --> 01:24:40,210

they just wanted to like test the body

1564

01:24:45,870 --> 01:24:42,550

DNA see if it's human and all that but

1565

01:24:49,020 --> 01:24:45,880

it you know it a lot of people share

1566

01:24:51,510 --> 01:24:49,030

your view that this was nothing but you

1567

01:24:53,370 --> 01:24:51,520

know some type of flying dirigible the

1568

01:24:55,530 --> 01:24:53,380

only thing I can't you know really

1569

01:24:57,780 --> 01:24:55,540

understand so far is I can't get how

1570

01:25:00,030 --> 01:24:57,790

something could have possibly gone 200

1571

01:25:02,250 --> 01:25:00,040

miles an hour and stay together that's

1572

01:25:04,410 --> 01:25:02,260

still without if it's not writing a

1573

01:25:06,570 --> 01:25:04,420

current I can't understand how any type

1574

01:25:09,540 --> 01:25:06,580

of dirigible or balloon could have ever

1575

01:25:11,550 --> 01:25:09,550

moved that fast so where did you get

1576

01:25:13,340 --> 01:25:11,560

that you know I don't want to harp on it

1577

01:25:15,650 --> 01:25:13,350

but where did you get that particular

1578

01:25:21,210 --> 01:25:15,660

information

1579

01:25:24,570 --> 01:25:21,220

satting clippings you said well you know

1580

01:25:29,820 --> 01:25:24,580

somewhere someway I came across his name

1581

01:25:40,730 --> 01:25:29,830

and and researching his ground you know

1582

01:25:46,650 --> 01:25:40,740

I come across this because of all the

1583

01:25:48,540 --> 01:25:46,660

plans or yeah you're always we're having

1584

01:25:56,160 --> 01:25:48,550

some we're having some audio trouble

1585

01:25:58,980 --> 01:25:56,170

with you as your phone okay yeah same

1586

01:26:03,600 --> 01:25:58,990

thing okay all right man I'm way the

1587

01:26:09,770 --> 01:26:03,610

hell out here in the country you know my

1588

01:26:13,410 --> 01:26:09,780

strange things happen out here yeah okay

1589

01:26:15,810 --> 01:26:13,420

so yeah go ahead and you can answer that

1590

01:26:17,370 --> 01:26:15,820

question if you you know how could it

1591

01:26:20,670 --> 01:26:17,380

have gone 200 miles an hour and where

1592

01:26:23,670 --> 01:26:20,680

did you get that information well thank

1593

01:26:26,790 --> 01:26:23,680

you and he was riding the wind the

1594

01:26:30,930 --> 01:26:26,800

information comes from the newspaper the

1595

01:26:34,920 --> 01:26:30,940

new york city new articles that i that

1596

01:26:39,300 --> 01:26:34,930

i've dug up on on the story and they're

1597

01:26:44,920 --> 01:26:39,310

referenced in the book i think i quote

1598

01:26:53,950 --> 01:26:50,590

and Solomon remember our quarry Solomon

1599

01:26:56,200 --> 01:26:53,960

Andrews interview with a couple of

1600

01:27:01,200 --> 01:26:56,210

newspapers and they talked about how

1601  
01:27:06,130 --> 01:27:01,210  
fast he went and and how high he went

1602  
01:27:11,470 --> 01:27:06,140  
but yes I presumably was driving the

1603  
01:27:16,360 --> 01:27:11,480  
wind currents but I don't know of course

1604  
01:27:20,040 --> 01:27:16,370  
I wasn't there thank goodness yeah so

1605  
01:27:24,910 --> 01:27:20,050  
just some assumptions made there now

1606  
01:27:28,930 --> 01:27:24,920  
keep in mind I said that George Collins

1607  
01:27:30,850 --> 01:27:28,940  
had said that they had built and we're

1608  
01:27:35,400 --> 01:27:30,860  
test flying the eleven of these airships

1609  
01:27:40,060 --> 01:27:35,410  
in the fall of 1896 before he was fired

1610  
01:27:44,710 --> 01:27:40,070  
from the Hearst Corporation for made it

1611  
01:27:48,790 --> 01:27:44,720  
to Texas one crashed at Aurora and I can

1612  
01:27:50,890 --> 01:27:48,800  
only document three that left Texas and

1613  
01:27:54,700 --> 01:27:50,900

went up the coast headed for New York

1614

01:27:58,860 --> 01:27:54,710

City and the last one crashed off from

1615

01:28:04,420 --> 01:27:58,870

the coast of New York City got newspaper

1616

01:28:08,740 --> 01:28:04,430

accounts documented crashing somewhere

1617

01:28:11,280 --> 01:28:08,750

off Staten Island so these machines they

1618

01:28:15,160 --> 01:28:11,290

were they were flowing great altitude

1619

01:28:19,090 --> 01:28:15,170

and fast speed for the time but they

1620

01:28:22,360 --> 01:28:19,100

weren't reliable they didn't you know

1621

01:28:23,680 --> 01:28:22,370

you weren't gonna get you know the kind

1622

01:28:26,850 --> 01:28:23,690

of flight hours out of them like you

1623

01:28:30,850 --> 01:28:26,860

would have modern days yet now there are

1624

01:28:36,220 --> 01:28:30,860

newspaper accounts were they claim the

1625

01:28:39,550 --> 01:28:36,230

people who were interviewed driving

1626  
01:28:42,610 --> 01:28:39,560  
these machines claimed to have flown to

1627  
01:28:49,870 --> 01:28:42,620  
Europe and back and they may very well

1628  
01:28:54,460 --> 01:28:49,880  
have but again they just weren't real

1629  
01:28:58,570 --> 01:28:54,470  
reliable in 1897 if something fell out

1630  
01:28:58,870 --> 01:28:58,580  
of the sky in your backyard unless it

1631  
01:29:04,360 --> 01:28:58,880  
had

1632  
01:29:05,919 --> 01:29:04,370  
name tag around his neck you know that's

1633  
01:29:10,180 --> 01:29:05,929  
all he could do just bear it in the

1634  
01:29:15,780 --> 01:29:10,190  
local cemetery and unmarked grave that

1635  
01:29:22,870 --> 01:29:19,870  
they just didn't have any tools to you

1636  
01:29:24,939 --> 01:29:22,880  
know you know of course they couldn't

1637  
01:29:29,860 --> 01:29:24,949  
they didn't do any DNA testing didn't

1638  
01:29:33,570 --> 01:29:29,870

know what DNA was in those days and they

1639

01:29:38,709 --> 01:29:33,580

bury people real quick real fast because

1640

01:29:42,820 --> 01:29:38,719

you know preservation means and methods

1641

01:29:45,640 --> 01:29:42,830

were not as well-defined as they are

1642

01:29:50,439 --> 01:29:45,650

today for the head embalming but you

1643

01:29:56,320 --> 01:29:50,449

can't really embalm a charged body and

1644

01:29:58,390 --> 01:29:56,330

they had ice houses but if you're an ice

1645

01:30:00,160 --> 01:29:58,400

house owner and you agree to take the

1646

01:30:05,050 --> 01:30:00,170

charged body and stored anything who's

1647

01:30:08,110 --> 01:30:05,060

gonna buy your eyes after that yeah

1648

01:30:10,750 --> 01:30:08,120

that's right they had no yeah they had

1649

01:30:13,120 --> 01:30:10,760

no choice but their home buried as fast

1650

01:30:20,290 --> 01:30:13,130

as they could so I believe one of the

1651  
01:30:24,879 --> 01:30:20,300  
one of the California airship inventors

1652  
01:30:27,820 --> 01:30:24,889  
our participant was was in that airship

1653  
01:30:30,640 --> 01:30:27,830  
and died and like I said I document the

1654  
01:30:33,939 --> 01:30:30,650  
fact that an airship was down on the

1655  
01:30:36,959 --> 01:30:33,949  
ground with mechanical problems just a

1656  
01:30:41,320 --> 01:30:36,969  
couple of hours before that crash

1657  
01:30:42,760 --> 01:30:41,330  
southeaster there I forget to name the

1658  
01:30:45,790 --> 01:30:42,770  
town there's some wear out around

1659  
01:30:51,459 --> 01:30:45,800  
Mineral Springs and they would have

1660  
01:30:56,189 --> 01:30:51,469  
flown over Aurora to get back to us

1661  
01:30:59,830 --> 01:30:56,199  
Marshall Williams ranch outside Magana

1662  
01:31:02,169 --> 01:30:59,840  
so it makes sense to me that you know

1663  
01:31:08,590 --> 01:31:02,179

that was one of the four machines that

1664

01:31:10,780 --> 01:31:08,600

crashed in Aurora all the names are

1665

01:31:12,700 --> 01:31:10,790

involved in this see the airships would

1666

01:31:15,310 --> 01:31:12,710

would land on the ground

1667

01:31:17,680 --> 01:31:15,320

be found on the ground by someone local

1668

01:31:20,410 --> 01:31:17,690

from time to time because it had

1669

01:31:23,430 --> 01:31:20,420

mechanical problems and had to sit down

1670

01:31:26,020 --> 01:31:23,440

on the ground and some farmer or Rancher

1671

01:31:28,540 --> 01:31:26,030

wandering by would stop and talk to them

1672

01:31:32,560 --> 01:31:28,550

and he'd give an interview to the local

1673

01:31:35,290 --> 01:31:32,570

newspaper and they mention names well

1674

01:31:38,620 --> 01:31:35,300

they were involved in flying one of

1675

01:31:43,090 --> 01:31:38,630

these machines was two instructors from

1676

01:31:46,540 --> 01:31:43,100

the US Military Academy named a gold bar

1677

01:31:48,840 --> 01:31:46,550

and got a name of Tilman I don't

1678

01:31:51,700 --> 01:31:48,850

remember which is which but one was a

1679

01:31:54,040 --> 01:31:51,710

chemistry teacher at the military

1680

01:31:57,250 --> 01:31:54,050

academy and the other one was a physics

1681

01:31:59,590 --> 01:31:57,260

teacher and I checked with the US

1682

01:32:03,459 --> 01:31:59,600

military historian that at the academy

1683

01:32:09,910 --> 01:32:03,469

and gentlemen and Gobert were didn't

1684

01:32:12,040 --> 01:32:09,920

leave during this time period the reason

1685

01:32:15,970 --> 01:32:12,050

for the leave was not given we couldn't

1686

01:32:18,220 --> 01:32:15,980

ascertain that you know but but they

1687

01:32:24,040 --> 01:32:18,230

were absent from the military academy at

1688

01:32:27,820 --> 01:32:24,050

the time there's one real interesting

1689

01:32:31,000 --> 01:32:27,830

fighting were they set down outside New

1690

01:32:33,490 --> 01:32:31,010

Orleans Louisiana and they catch a ride

1691

01:32:39,490 --> 01:32:33,500

into town and stay at a real nice hotel

1692

01:32:41,680 --> 01:32:39,500

and give several interviews there while

1693

01:32:43,660 --> 01:32:41,690

they're doing something to fix their fix

1694

01:32:50,950 --> 01:32:43,670

their ship and then they get in and head

1695

01:32:54,370 --> 01:32:50,960

on towards New York City yeah hey my

1696

01:32:56,110 --> 01:32:54,380

name Pete yeah Michael I think we're

1697

01:32:58,540 --> 01:32:56,120

gonna we're gonna call it a night

1698

01:33:04,090 --> 01:32:58,550

I want to thank you so much and where

1699

01:33:08,229 --> 01:33:04,100

can someone find your book and on Amazon

1700

01:33:11,740 --> 01:33:08,239

and the name of it is mystery why I'm

1701

01:33:16,030 --> 01:33:11,750

missing it the mister what's the title

1702

01:33:17,140 --> 01:33:16,040

again solving the 1897 Air Shuttle story

1703

01:33:19,240 --> 01:33:17,150

that's it

1704

01:33:21,490 --> 01:33:19,250

all right thank you so much Michael it's

1705

01:33:25,150 --> 01:33:21,500

been a real pleasure thanks a lot thank

1706

01:33:26,200 --> 01:33:25,160

you on take heart okay you take care all

1707

01:33:30,340 --> 01:33:26,210

right

1708

01:33:32,550 --> 01:33:30,350

painting behind me on YouTube see that

1709

01:33:33,760 --> 01:33:32,560

new painting anyway I'm gonna bring in

1710

01:33:38,440 --> 01:33:33,770

alejandro

1711

01:33:40,270 --> 01:33:38,450

well how are you good

1712

01:33:41,650 --> 01:33:40,280

your audio sounds a little bit weak if

1713

01:33:44,740 --> 01:33:41,660

you I don't know if you can boost your

1714

01:33:49,450 --> 01:33:44,750

or do just a little bit but thanks for

1715

01:33:52,300 --> 01:33:49,460

thanks for popping on and for I don't

1716

01:33:54,130 --> 01:33:52,310

know what you can uh what you didn't

1717

01:33:56,650 --> 01:33:54,140

talk about last week but you have a

1718

01:33:58,620 --> 01:33:56,660

couple things going on you're adding

1719

01:34:00,490 --> 01:33:58,630

more and more to your patreon site and

1720

01:34:01,840 --> 01:34:00,500

so you want to talk a little bit about

1721

01:34:05,530 --> 01:34:01,850

that and then I have some questions to

1722

01:34:08,650 --> 01:34:05,540

ask you as well okay how do you hear me

1723

01:34:11,320 --> 01:34:08,660

alright yeah it's better yes okay good I

1724

01:34:11,890 --> 01:34:11,330

am well yes I've got all kinds of stuff

1725

01:34:13,930 --> 01:34:11,900

going on

1726

01:34:17,440 --> 01:34:13,940

so thank you so much Martin for having

1727

01:34:20,709 --> 01:34:17,450

me on to talk about that you know we're

1728

01:34:22,390 --> 01:34:20,719

so as far as the Congress we're moving

1729

01:34:25,390 --> 01:34:22,400

forward on that it will have to be

1730

01:34:27,700 --> 01:34:25,400

completely online so sorry about that

1731

01:34:30,820 --> 01:34:27,710

but you know this sort of things fun

1732

01:34:32,260 --> 01:34:30,830

it'll be like this and of course you've

1733

01:34:33,940 --> 01:34:32,270

talked about coming and helping us so

1734

01:34:35,530 --> 01:34:33,950

we're excited about that we're always

1735

01:34:37,660 --> 01:34:35,540

happy to have you there

1736

01:34:40,979 --> 01:34:37,670

that's are going to be here remote but I

1737

01:34:45,729 --> 01:34:40,989

will be helping I'm sure yeah yeah and

1738

01:34:50,050 --> 01:34:45,739

love - yep so and then the other thing

1739

01:34:53,110 --> 01:34:50,060

is the all the live streaming I'm doing

1740

01:34:55,330 --> 01:34:53,120

so I've been doing a lot of that and you

1741

01:34:58,540 --> 01:34:55,340

know I'm trying to kind of have a

1742

01:35:00,340 --> 01:34:58,550

resurgent - rebirth of all of this stuff

1743

01:35:03,729 --> 01:35:00,350

some people might have noticed that the

1744

01:35:06,310 --> 01:35:03,739

open mind site is down and essentially

1745

01:35:08,860 --> 01:35:06,320

you know I'm trying to get that resolved

1746

01:35:11,080 --> 01:35:08,870

right now but because of that that's why

1747

01:35:13,390 --> 01:35:11,090

I've been trying to do kind of some

1748

01:35:16,090 --> 01:35:13,400

different things to get things going and

1749

01:35:18,250 --> 01:35:16,100

get more content out there I know I've

1750

01:35:21,190 --> 01:35:18,260

been away for awhile I moved and was

1751

01:35:23,229 --> 01:35:21,200

trying to figure out this new future and

1752

01:35:26,260 --> 01:35:23,239

everything but I'm really excited to get

1753

01:35:29,050 --> 01:35:26,270

more content out so for instance I've

1754

01:35:31,270 --> 01:35:29,060

got my Rojas report I haven't announced

1755

01:35:33,580 --> 01:35:31,280

this this is going to be a Wednesday

1756

01:35:35,950 --> 01:35:33,590

thing of course after yours the day

1757

01:35:38,850 --> 01:35:35,960

after your yours and this is going to be

1758

01:35:40,060 --> 01:35:38,860

where my interviews reside but also

1759

01:35:41,939 --> 01:35:40,070

presentations

1760

01:35:46,899 --> 01:35:41,949

so I got a lot of requests from people

1761

01:35:49,000 --> 01:35:46,909

to do a talk on to the Stars and the 8a

1762

01:35:51,790 --> 01:35:49,010

program and kind of go over the details

1763

01:35:54,520 --> 01:35:51,800

of all of that it's something I've done

1764

01:35:56,109 --> 01:35:54,530

at events like at Roswell and other

1765

01:35:58,419 --> 01:35:56,119

places but I've got all these lectures

1766

01:35:59,859 --> 01:35:58,429

that I've built for these events and

1767

01:36:03,339 --> 01:35:59,869

they're not all online so I've decided

1768

01:36:05,319 --> 01:36:03,349

to start doing that you can listen to

1769

01:36:07,930 --> 01:36:05,329

the law or watch the livestream and join

1770

01:36:10,930 --> 01:36:07,940

us on livestream on patreon you can also

1771

01:36:13,180 --> 01:36:10,940

subscribe at the open minds TV YouTube

1772

01:36:14,680 --> 01:36:13,190

but beyond it's the best place patreon

1773

01:36:17,109 --> 01:36:14,690

you can get to everything there you

1774

01:36:20,530 --> 01:36:17,119

could watch it live stream there you can

1775

01:36:22,089 --> 01:36:20,540

join there is a membership for that but

1776

01:36:23,859 --> 01:36:22,099

otherwise if you want to pay a little

1777

01:36:29,020 --> 01:36:23,869

less you can subscribe just to the audio

1778

01:36:31,540 --> 01:36:29,030

part but uh-huh I know I didn't ask you

1779

01:36:34,330 --> 01:36:31,550

this but I'm gonna put up there for

1780

01:36:37,450 --> 01:36:34,340

because if anyone wants to call in and

1781

01:36:39,160 --> 01:36:37,460

you can ask Alejandro myself for myself

1782

01:36:42,010 --> 01:36:39,170

of questions so that number is up there

1783

01:36:44,379 --> 01:36:42,020

now eight five five four seven two five

1784

01:36:47,169 --> 01:36:44,389

four eight three if anyone wants to give

1785

01:36:48,939 --> 01:36:47,179

us a call you can talk about our last

1786

01:36:53,020 --> 01:36:48,949

guest any questions you may have about

1787

01:36:54,760 --> 01:36:53,030

that but um since Alejandro is here it's

1788

01:36:57,490 --> 01:36:54,770

always good to have him on anyone has a

1789

01:37:01,060 --> 01:36:57,500

question for him or myself feel free to

1790

01:37:04,419 --> 01:37:01,070

call in and Bill Skywalker will be

1791

01:37:05,950 --> 01:37:04,429

screening calls over there and I did

1792

01:37:07,660 --> 01:37:05,960

want to mention a couple other things

1793

01:37:10,060 --> 01:37:07,670

that we'll be doing yeah just because I

1794

01:37:12,520 --> 01:37:10,070

think they're they're important for the

1795

01:37:14,709 --> 01:37:12,530

time so with den of geek it's a website

1796

01:37:16,060 --> 01:37:14,719

I write for sci-fi and that sort of

1797

01:37:17,830 --> 01:37:16,070

thing but they were really interested in

1798

01:37:19,870 --> 01:37:17,840

these Navy UFO videos so I've been doing

1799

01:37:21,669 --> 01:37:19,880

a live stream lecture series and at

1800

01:37:24,069 --> 01:37:21,679

first I was kind of tackling what's

1801  
01:37:25,689 --> 01:37:24,079  
going on here you know why as the DoD

1802  
01:37:28,919 --> 01:37:25,699  
been so weird about these announcements

1803  
01:37:33,189 --> 01:37:28,929  
why is this news now and so what I did

1804  
01:37:34,839 --> 01:37:33,199  
was I've kind of been talking about that

1805  
01:37:37,930 --> 01:37:34,849  
with people and it's kind of evolved

1806  
01:37:41,530 --> 01:37:37,940  
into now this whole idea of disclosure

1807  
01:37:43,990 --> 01:37:41,540  
is information being disclosed what

1808  
01:37:46,390 --> 01:37:44,000  
information is being disclosed

1809  
01:37:48,280 --> 01:37:46,400  
is there more to disclose and what is

1810  
01:37:50,319 --> 01:37:48,290  
there and one of our friends that's been

1811  
01:37:52,569 --> 01:37:50,329  
talking a lot about this lately is Bryce

1812  
01:37:53,739 --> 01:37:52,579  
Abel so tomorrow I'll be live-streaming

1813  
01:37:55,930 --> 01:37:53,749

with him

1814

01:37:58,390 --> 01:37:55,940

at den of geek to talk about that I

1815

01:38:00,100 --> 01:37:58,400

think he could represent this idea of

1816

01:38:01,479 --> 01:38:00,110

you know all these people asking for

1817

01:38:03,370 --> 01:38:01,489

more and more and more well what do they

1818

01:38:05,229 --> 01:38:03,380

expect what do they think is there and

1819

01:38:08,020 --> 01:38:05,239

he'll let us know and he's got movie

1820

01:38:10,509 --> 01:38:08,030

projects along those lines as well and

1821

01:38:12,879 --> 01:38:10,519

so that's gonna be a lot of fun yeah

1822

01:38:14,669 --> 01:38:12,889

absolutely Brice uh he was on I don't

1823

01:38:16,450 --> 01:38:14,679

know was it two weeks ago I think

1824

01:38:18,790 --> 01:38:16,460

brilliant a gentleman

1825

01:38:22,719 --> 01:38:18,800

yeah he said he's he's a brilliant man

1826

01:38:25,270 --> 01:38:22,729

and I I think you know when he writes

1827

01:38:28,689 --> 01:38:25,280

something like that it he takes his time

1828

01:38:31,120 --> 01:38:28,699

who writes a really nice articles I did

1829

01:38:33,339 --> 01:38:31,130

share that in one of the links but this

1830

01:38:37,120 --> 01:38:33,349

disclosure thing and I know he wrote a

1831

01:38:39,910 --> 01:38:37,130

book with Richard Dolan years ago it was

1832

01:38:42,580 --> 01:38:39,920

called about disclosure right yeah it

1833

01:38:44,350 --> 01:38:42,590

was ad after disclosure and it was a

1834

01:38:46,930 --> 01:38:44,360

speculative book they were speculating

1835

01:38:49,209 --> 01:38:46,940

what would happen if disclosure happened

1836

01:38:50,830 --> 01:38:49,219

would people freak out and what they

1837

01:38:53,830 --> 01:38:50,840

would do and it's a very interesting

1838

01:38:55,540 --> 01:38:53,840

book to look through and what's

1839

01:38:59,350 --> 01:38:55,550

interesting about that book is of course

1840

01:39:01,089 --> 01:38:59,360

it happened before the Louise Alexander

1841

01:39:04,299 --> 01:39:01,099

came out with all of this Pentagon news

1842

01:39:07,509 --> 01:39:04,309

and and we really are going through a

1843

01:39:09,540 --> 01:39:07,519

sort of disclosure I think Lou Elizondo

1844

01:39:12,279 --> 01:39:09,550

would argue that this is disclosure

1845

01:39:15,040 --> 01:39:12,289

whereas others think there's more so

1846

01:39:17,859 --> 01:39:15,050

we'll see what's interesting though is

1847

01:39:20,739 --> 01:39:17,869

just what a huge impact this disclosure

1848

01:39:24,299 --> 01:39:20,749

we're having now has had and is having

1849

01:39:27,609 --> 01:39:24,309

on our lawmakers and and you know de

1850

01:39:30,339 --> 01:39:27,619

yeah let's talk about that mm-hmm I saw

1851

01:39:33,640 --> 01:39:30,349

that tweeted around everywhere and Brian

1852

01:39:35,259 --> 01:39:33,650

bender as well tweeted that go ahead and

1853

01:39:37,810 --> 01:39:35,269

get into that if I didn't really get a

1854

01:39:39,819 --> 01:39:37,820

chance to read it okay yeah so this is

1855

01:39:42,310 --> 01:39:39,829

really late breaking this morning this

1856

01:39:45,310 --> 01:39:42,320

is really cool where the Senate

1857

01:39:47,649 --> 01:39:45,320

Intelligence Committee has put in one of

1858

01:39:51,459 --> 01:39:47,659

the bills regarding I think defense

1859

01:39:56,319 --> 01:39:51,469

spending and intelligence spending in

1860

01:39:59,620 --> 01:39:56,329

there they've requested a report from

1861

01:40:02,350 --> 01:39:59,630

the UAP task force of the Office of

1862

01:40:04,419 --> 01:40:02,360

Naval Intelligence so and that's exactly

1863

01:40:07,360 --> 01:40:04,429

what it says the unidentified aerial

1864

01:40:10,030 --> 01:40:07,370

phenomena attacks task force

1865

01:40:12,610 --> 01:40:10,040

of the Office of Naval Intelligence what

1866

01:40:15,190 --> 01:40:12,620

this organization seems to be or at

1867

01:40:19,360 --> 01:40:15,200

least what people are assuming it to be

1868

01:40:21,670 --> 01:40:19,370

is exactly what Elizondo worked for we

1869

01:40:24,910 --> 01:40:21,680

have heard people like Roger Kastle has

1870

01:40:27,280 --> 01:40:24,920

got information out or information from

1871

01:40:30,520 --> 01:40:27,290

the Pentagon saying that finally

1872

01:40:33,400 --> 01:40:30,530

admitting that yes you know you hate you

1873

01:40:36,700 --> 01:40:33,410

ap organization exists it goes across

1874

01:40:39,190 --> 01:40:36,710

different agencies and that it is

1875

01:40:40,990 --> 01:40:39,200

ongoing which was that what Elizondo has

1876  
01:40:43,660 --> 01:40:41,000  
said all along even though the Pentagon

1877  
01:40:46,210 --> 01:40:43,670  
at first said this ended in 2012 so

1878  
01:40:49,240 --> 01:40:46,220  
they've admitted that and now you know

1879  
01:40:50,770 --> 01:40:49,250  
as elizondo's and others have said

1880  
01:40:53,320 --> 01:40:50,780  
they've been working behind the scenes

1881  
01:40:56,590 --> 01:40:53,330  
to now get that information into

1882  
01:40:58,450 --> 01:40:56,600  
lawmakers hands and apparently you know

1883  
01:41:00,580 --> 01:40:58,460  
there are some people concerned that hey

1884  
01:41:02,620 --> 01:41:00,590  
why are we learning about this from the

1885  
01:41:04,600 --> 01:41:02,630  
New York Times why haven't we been

1886  
01:41:07,120 --> 01:41:04,610  
briefed on this information so they're

1887  
01:41:10,600 --> 01:41:07,130  
asking for a fairly exhaustive report

1888  
01:41:12,790 --> 01:41:10,610

they're giving them till March of 2021

1889

01:41:14,470 --> 01:41:12,800

to put this together but this is fairly

1890

01:41:17,440 --> 01:41:14,480

extraordinary this is going to be the

1891

01:41:20,380 --> 01:41:17,450

first you know UFO report that we've

1892

01:41:22,720 --> 01:41:20,390

gotten from the government they've also

1893

01:41:24,220 --> 01:41:22,730

asked that even if some even though they

1894

01:41:27,040 --> 01:41:24,230

realize some of this information may be

1895

01:41:29,590 --> 01:41:27,050

classified they want as much of it to be

1896

01:41:32,080 --> 01:41:29,600

public as possible so this is definitely

1897

01:41:34,210 --> 01:41:32,090

a report that will have a public

1898

01:41:37,000 --> 01:41:34,220

component so we'll be getting some

1899

01:41:39,040 --> 01:41:37,010

entrance in information on this at some

1900

01:41:42,520 --> 01:41:39,050

point yeah you can see the question up

1901

01:41:45,490 --> 01:41:42,530

there they're asking if you thought the

1902

01:41:48,970 --> 01:41:45,500

information they release may not be

1903

01:41:51,550 --> 01:41:48,980

sanitized and useless like the UK data

1904

01:41:54,400 --> 01:41:51,560

well I don't think the UK data was

1905

01:41:56,650 --> 01:41:54,410

useless whatsoever nor do I feel that

1906

01:42:00,670 --> 01:41:56,660

there's evidence of any sanitation of

1907

01:42:03,910 --> 01:42:00,680

that information either there certainly

1908

01:42:06,460 --> 01:42:03,920

everything wasn't released and

1909

01:42:07,870 --> 01:42:06,470

fortunately we have some insight like

1910

01:42:10,180 --> 01:42:07,880

Nick Pope who worked on those programs

1911

01:42:11,860 --> 01:42:10,190

to be able to share hey you know there's

1912

01:42:15,040 --> 01:42:11,870

there is some stuff that you know may

1913

01:42:17,190 --> 01:42:15,050

not be out but yeah I don't know if I

1914

01:42:21,229 --> 01:42:17,200

necessarily agree with the way that was

1915

01:42:22,790 --> 01:42:21,239

framed but will it be useful it's

1916

01:42:24,439 --> 01:42:22,800

definitely hard to say I think it

1917

01:42:27,350 --> 01:42:24,449

definitely I think it will be useful I

1918

01:42:30,589 --> 01:42:27,360

think it's useful on two ends its useful

1919

01:42:33,319 --> 01:42:30,599

the the there are politicians who are

1920

01:42:35,270 --> 01:42:33,329

now interested and looking into it when

1921

01:42:37,430 --> 01:42:35,280

it comes out it will give us some

1922

01:42:41,029 --> 01:42:37,440

indication at least on their public

1923

01:42:43,549 --> 01:42:41,039

stance will it be a little bit combative

1924

01:42:45,470 --> 01:42:43,559

where they're trying obviously to hold

1925

01:42:47,750 --> 01:42:45,480

back or will it be a little more

1926

01:42:50,029 --> 01:42:47,760

transparent and give us the appearance

1927

01:42:53,359 --> 01:42:50,039

that they are looking into the things

1928

01:42:55,700 --> 01:42:53,369

that out that'll be interesting and so

1929

01:42:59,239 --> 01:42:55,710

do you think the Navy what did they call

1930

01:43:03,020 --> 01:42:59,249

it that you ap task force the you ap

1931

01:43:08,239 --> 01:43:03,030

force yeah so is this something that we

1932

01:43:10,069 --> 01:43:08,249

are just finding out about well I that

1933

01:43:13,669 --> 01:43:10,079

could be argued it's hard to say for

1934

01:43:16,100 --> 01:43:13,679

sure loo Elizondo said that the program

1935

01:43:18,140 --> 01:43:16,110

that he ran was under the OSD which was

1936

01:43:20,720 --> 01:43:18,150

apartment that she worked in which was

1937

01:43:22,609 --> 01:43:20,730

the office of the Secretary of Defense

1938

01:43:24,589 --> 01:43:22,619

some people have said you know this is

1939

01:43:26,870 --> 01:43:24,599

saying that there this group is in the

1940

01:43:28,479 --> 01:43:26,880

oh and I the Office of Naval

1941

01:43:31,339 --> 01:43:28,489

Intelligence

1942

01:43:34,459 --> 01:43:31,349

and others are saying that this is the

1943

01:43:37,160 --> 01:43:34,469

same group even though maybe they're now

1944

01:43:39,350 --> 01:43:37,170

being headed out of the oh and I you

1945

01:43:41,750 --> 01:43:39,360

know Lu elizondo's program used to be in

1946

01:43:44,120 --> 01:43:41,760

the DIA before Lou took over and brought

1947

01:43:48,080 --> 01:43:44,130

it over to the OSD so these programs can

1948

01:43:50,689 --> 01:43:48,090

move around also us the Susan go the

1949

01:43:53,720 --> 01:43:50,699

representative for the Pentagon who is

1950

01:43:56,779 --> 01:43:53,730

the press rep told Roger Castle in his

1951

01:43:59,959 --> 01:43:56,789

questioning that there was a Malta task

1952

01:44:02,209 --> 01:43:59,969

force that was a multi-agency task force

1953

01:44:05,209 --> 01:44:02,219

so that different agencies were working

1954

01:44:08,540 --> 01:44:05,219

on it so it's possible and it's being

1955

01:44:10,810 --> 01:44:08,550

assumed right now that essentially the

1956

01:44:14,689 --> 01:44:10,820

existence of this group was originally

1957

01:44:17,870 --> 01:44:14,699

revealed by Lou Elizondo denied by the

1958

01:44:21,220 --> 01:44:17,880

Pentagon only recently admitted that it

1959

01:44:23,870 --> 01:44:21,230

existed by the Pentagon and now the

1960

01:44:26,779 --> 01:44:23,880

Senate Intelligence Committee is saying

1961

01:44:29,930 --> 01:44:26,789

hey we want more information about this

1962

01:44:32,479 --> 01:44:29,940

organ and you say exists it's also

1963

01:44:34,430 --> 01:44:32,489

interesting to note that Marco Rubio was

1964

01:44:37,400 --> 01:44:34,440

a large part of this and he

1965

01:44:40,820 --> 01:44:37,410

part of briefings that Politico had

1966

01:44:43,310 --> 01:44:40,830

revealed happened a year ago and Brian

1967

01:44:46,280 --> 01:44:43,320

bender with Politico did write an

1968

01:44:48,560 --> 01:44:46,290

article today about this as well kind of

1969

01:44:50,840 --> 01:44:48,570

briefing some of the information that I

1970

01:44:53,060 --> 01:44:50,850

just had revealed along with some

1971

01:44:54,560 --> 01:44:53,070

information from Chris Mellon just kind

1972

01:44:56,870 --> 01:44:54,570

of talking about the importance of all

1973

01:44:59,900 --> 01:44:56,880

of this now is this something that

1974

01:45:02,180 --> 01:44:59,910

actually something actually recently

1975

01:45:06,740 --> 01:45:02,190

happened or is this something that's

1976

01:45:08,720 --> 01:45:06,750

been uncovered basically uh it's fair

1977

01:45:09,439 --> 01:45:08,730

it's sort of something that has been

1978

01:45:11,060 --> 01:45:09,449

uncovered

1979

01:45:14,150 --> 01:45:11,070

so really here's a history and this is

1980

01:45:17,150 --> 01:45:14,160

really interesting great question and

1981

01:45:20,900 --> 01:45:17,160

this is kind of all great for Louise

1982

01:45:23,630 --> 01:45:20,910

Elizondo it's very I forget to

1983

01:45:25,850 --> 01:45:23,640

vindicating because essentially Louise

1984

01:45:29,120 --> 01:45:25,860

Elizondo came out and he said I work on

1985

01:45:31,850 --> 01:45:29,130

a program that investigated UFOs I was

1986

01:45:34,430 --> 01:45:31,860

frustrated that leadership was not

1987

01:45:36,979 --> 01:45:34,440

listening to me he said he tried to take

1988

01:45:40,850 --> 01:45:36,989

this information to the Secretary of

1989

01:45:42,530 --> 01:45:40,860

Defense James Madison he wouldn't let

1990

01:45:43,130 --> 01:45:42,540

him take that information to James

1991

01:45:44,750 --> 01:45:43,140

Madison

1992

01:45:47,479 --> 01:45:44,760

they really wouldn't let him take that

1993

01:45:50,540 --> 01:45:47,489

information to anyone now in their eyes

1994

01:45:53,510 --> 01:45:50,550

they are you know allowing him to deny

1995

01:45:55,400 --> 01:45:53,520

that he knows anything James Madison

1996

01:45:56,390 --> 01:45:55,410

asked James Maddox what about UFOs what

1997

01:45:58,250 --> 01:45:56,400

do you know he can say I don't know

1998

01:46:02,120 --> 01:45:58,260

anything and he really wouldn't so it's

1999

01:46:03,770 --> 01:46:02,130

giving him plausible denial and it could

2000

01:46:05,959 --> 01:46:03,780

be those staffers felt there wasn't

2001

01:46:07,130 --> 01:46:05,969

enough information to present to the

2002

01:46:09,950 --> 01:46:07,140

Intelligence Committee

2003

01:46:11,959 --> 01:46:09,960

however Elizondo was blocked he couldn't

2004

01:46:14,840 --> 01:46:11,969

get the information out so that's when

2005

01:46:16,100 --> 01:46:14,850

he decided I'm gonna leave the Pentagon

2006

01:46:18,320 --> 01:46:16,110

and I'm gonna try to get this

2007

01:46:20,300 --> 01:46:18,330

information out to the public and do a

2008

01:46:23,450 --> 01:46:20,310

runaround essentially and get that

2009

01:46:25,820 --> 01:46:23,460

information out and his it worked it's

2010

01:46:27,920 --> 01:46:25,830

worked like a charm now that information

2011

01:46:30,620 --> 01:46:27,930

and it's gotten out into the New York

2012

01:46:32,300 --> 01:46:30,630

Times everybody's aware of it and now

2013

01:46:34,790 --> 01:46:32,310

the Senate Intelligence Committee and

2014

01:46:37,070 --> 01:46:34,800

this is kind of how Chris Mellon has

2015

01:46:38,810 --> 01:46:37,080

frameless today they're like hey why do

2016

01:46:41,270 --> 01:46:38,820

we have to know about this from the New

2017

01:46:43,600 --> 01:46:41,280

York Times why weren't we briefed on

2018

01:46:46,010 --> 01:46:43,610

this we want to be briefed on this now

2019

01:46:47,870 --> 01:46:46,020

one of the first people to pipe up and

2020

01:46:51,530 --> 01:46:47,880

ask about that was

2021

01:46:55,310 --> 01:46:51,540

the senator from Arizona who passed away

2022

01:46:57,260 --> 01:46:55,320

recently John McCain and we were able to

2023

01:47:00,380 --> 01:46:57,270

see in some of the documents and

2024

01:47:02,600 --> 01:47:00,390

meetings his questions around that we

2025

01:47:05,060 --> 01:47:02,610

also his letter was released to the

2026

01:47:07,280 --> 01:47:05,070

public as well there have been other

2027

01:47:10,580 --> 01:47:07,290

politicians that have asked questions

2028

01:47:12,410 --> 01:47:10,590

here or there but now they've got their

2029

01:47:13,940 --> 01:47:12,420

briefing a year ago you know they're

2030

01:47:15,560 --> 01:47:13,950

like hey what's going on we can't ask

2031

01:47:18,229 --> 01:47:15,570

for a briefing they got their briefing

2032

01:47:20,750 --> 01:47:18,239

and now they're a year later they're

2033

01:47:23,780 --> 01:47:20,760

asking for more information so things

2034

01:47:26,000 --> 01:47:23,790

just work slow in that arena in some of

2035

01:47:28,790 --> 01:47:26,010

these topics and yeah it's really a

2036

01:47:29,930 --> 01:47:28,800

continuation it's really Elizondo

2037

01:47:32,450 --> 01:47:29,940

whoo-hoo

2038

01:47:35,360 --> 01:47:32,460

you know opened up Pandora's box here

2039

01:47:37,790 --> 01:47:35,370

and this is really and and I think this

2040

01:47:40,220 --> 01:47:37,800

is accurate a result of what he's done

2041

01:47:42,770 --> 01:47:40,230

yeah we have a caller

2042

01:47:46,250 --> 01:47:42,780

Steve Steven is calling from Oregon

2043

01:47:47,030 --> 01:47:46,260

welcome to show Steven hey guys can you

2044

01:47:51,709 --> 01:47:47,040

hear me okay

2045

01:47:52,100 --> 01:47:51,719

oh yeah yeah go ahead yeah I'm glad to

2046

01:47:53,810 --> 01:47:52,110

hear that

2047

01:47:55,880 --> 01:47:53,820

Alejandro's kind of getting back in the

2048

01:48:01,670 --> 01:47:55,890

game and for years he was such a great

2049

01:48:03,170 --> 01:48:01,680

source of UFO news so thank you and I

2050

01:48:05,600 --> 01:48:03,180

will be getting back to that I'm gonna

2051

01:48:07,520 --> 01:48:05,610

be doing a Friday newscast

2052

01:48:10,010 --> 01:48:07,530

hopefully Martin will be joining me as

2053

01:48:13,280 --> 01:48:10,020

much as possible but I'll also be

2054

01:48:15,470 --> 01:48:13,290

posting that news on open minds once I

2055

01:48:18,290 --> 01:48:15,480

can get the website working but yeah

2056

01:48:20,090 --> 01:48:18,300

I'll be getting back to that yeah that's

2057

01:48:22,400 --> 01:48:20,100

great I followed your work for years you

2058

01:48:25,580 --> 01:48:22,410

are always a very reasonable resource

2059

01:48:31,760 --> 01:48:25,590

for for UFO news and that's not an easy

2060

01:48:34,070 --> 01:48:31,770

thing to find out there any questions so

2061

01:48:37,250 --> 01:48:34,080

a couple of Pentagon spokespeople have

2062

01:48:40,490 --> 01:48:37,260

come out and said that Elizondo was not

2063

01:48:42,550 --> 01:48:40,500

involved in a tip I'm Susan Gao who you

2064

01:48:45,770 --> 01:48:42,560

just mentioned and Christopher Sherwood

2065

01:48:47,750 --> 01:48:45,780

and I'm wondering how you reconcile why

2066

01:48:51,020 --> 01:48:47,760

they would come out and explicitly say

2067

01:48:56,119 --> 01:48:51,030

Elizondo was not part of a tip was never

2068

01:48:59,629 --> 01:48:57,919

yeah that's a really good question and I

2069

01:49:01,459 --> 01:48:59,639

think that you know that's where some of

2070

01:49:03,889 --> 01:49:01,469

the contention had come in where I was

2071

01:49:05,810 --> 01:49:03,899

writing yes he was obviously he was and

2072

01:49:07,639 --> 01:49:05,820

people were saying well how can you say

2073

01:49:09,560 --> 01:49:07,649

that if the the Pentagon spokespeople

2074

01:49:11,839 --> 01:49:09,570

are saying he's not well here's how I

2075

01:49:14,359 --> 01:49:11,849

can say that as it and this is typical

2076

01:49:16,549 --> 01:49:14,369

in journalism we go to the to the source

2077

01:49:18,349 --> 01:49:16,559

the witnesses who would know witnesses

2078

01:49:21,020 --> 01:49:18,359

like Harry Reid who started the program

2079

01:49:23,540 --> 01:49:21,030

witnesses like dr. Davis or dr. Hal put

2080

01:49:25,399 --> 01:49:23,550

up who worked on the program they have

2081

01:49:28,099 --> 01:49:25,409

first-hand because they were in the

2082

01:49:31,369 --> 01:49:28,109

program to tell us who worked doing what

2083

01:49:34,399 --> 01:49:31,379

the press office doesn't have access to

2084

01:49:36,109 --> 01:49:34,409

that information they are I think they

2085

01:49:38,119 --> 01:49:36,119

were very strong handed they shouldn't

2086

01:49:40,459 --> 01:49:38,129

have been so strong handed and saying

2087

01:49:44,509 --> 01:49:40,469

Elizondo did not work for these programs

2088

01:49:47,839 --> 01:49:44,519

they've had to walk that back later on

2089

01:49:49,669 --> 01:49:47,849

because it was proven he was and Tim

2090

01:49:51,409 --> 01:49:49,679

McMillan actually I don't know if we're

2091

01:49:54,560 --> 01:49:51,419

ins had him on the show actually it'd be

2092

01:49:56,689 --> 01:49:54,570

good if you you haven't but he has done

2093

01:49:58,189 --> 01:49:56,699

a lot of conversation with the press

2094

01:50:00,020 --> 01:49:58,199

department in the Pentagon and I asked

2095

01:50:01,819 --> 01:50:00,030

him that question well why didn't they

2096

01:50:04,099 --> 01:50:01,829

just ask the people we asked why didn't

2097

01:50:06,799 --> 01:50:04,109

they go to the to the source and he said

2098

01:50:09,109 --> 01:50:06,809

they have to ask people who are active

2099

01:50:11,899 --> 01:50:09,119

with the program so they can't ask

2100

01:50:13,279 --> 01:50:11,909

people who work for the program in the

2101

01:50:15,439 --> 01:50:13,289

past it's kind of silly

2102

01:50:17,869 --> 01:50:15,449

it's his goofy bureaucratic type of

2103

01:50:19,849 --> 01:50:17,879

thing so they weren't able to go to the

2104

01:50:21,649 --> 01:50:19,859

first hand and witnesses it's kind of

2105

01:50:24,020 --> 01:50:21,659

ridiculous and Tim Akmal and said now

2106

01:50:26,540 --> 01:50:24,030

Susan go has said well now it's been so

2107

01:50:29,779 --> 01:50:26,550

long ago I can't confirm anything which

2108

01:50:31,219 --> 01:50:29,789

is sort of ridiculous that is yeah so we

2109

01:50:35,270 --> 01:50:31,229

have we don't have a lot of time so

2110

01:50:38,060 --> 01:50:35,280

what's your second question Steven oh it

2111

01:50:40,009 --> 01:50:38,070

was just along the same line because I

2112

01:50:41,750 --> 01:50:40,019

asked to Leslie Kean the same question

2113

01:50:44,389 --> 01:50:41,760

just a few weeks ago when she was under

2114

01:50:46,759 --> 01:50:44,399

Gerald Martin and she doesn't really I

2115

01:50:49,310 --> 01:50:46,769

mean they she ran and she wrote the New

2116

01:50:51,109 --> 01:50:49,320

York Times article right yeah she didn't

2117

01:50:53,839 --> 01:50:51,119

one of the co-authors you know and she

2118

01:50:56,119 --> 01:50:53,849

couldn't explain why that they didn't

2119

01:50:59,389 --> 01:50:56,129

come out and omit his name they came out

2120

01:51:02,869 --> 01:50:59,399

and explosively said he was not art of a

2121

01:51:06,139 --> 01:51:02,879

tip yeah I think that it a lot of people

2122

01:51:07,879 --> 01:51:06,149

arguing they're not happy that he came

2123

01:51:09,199 --> 01:51:07,889

out they were not they didn't know he

2124

01:51:09,379 --> 01:51:09,209

was going to come out and share this in

2125

01:51:11,060 --> 01:51:09,389

four

2126  
01:51:13,609 --> 01:51:11,070  
Meishan he didn't give them a heads up

2127  
01:51:15,439 --> 01:51:13,619  
hey guys when I read attire I'm gonna

2128  
01:51:17,419 --> 01:51:15,449  
come out and share information on this

2129  
01:51:19,639 --> 01:51:17,429  
program which was probably wise of him

2130  
01:51:23,509 --> 01:51:19,649  
because they could have worked to keep

2131  
01:51:26,989 --> 01:51:23,519  
him from doing so and so they're up I I

2132  
01:51:28,909 --> 01:51:26,999  
think the only way you can square that

2133  
01:51:31,069 --> 01:51:28,919  
peg is that they are not happy with him

2134  
01:51:33,560 --> 01:51:31,079  
and they are retaliating that they're

2135  
01:51:36,439 --> 01:51:33,570  
trying to smear him I think that's the

2136  
01:51:38,719 --> 01:51:36,449  
perspective many people have and many

2137  
01:51:41,239 --> 01:51:38,729  
people argue that he would have a lot

2138  
01:51:44,540 --> 01:51:41,249

you know a valid lawsuit if you were to

2139

01:51:46,069 --> 01:51:44,550

pursue that legally and perhaps he will

2140

01:51:49,790 --> 01:51:46,079

in the future I mean there's been buzz

2141

01:51:51,979 --> 01:51:49,800

about that sort of thing so what purpose

2142

01:51:54,049 --> 01:51:51,989

it has he ever provided any proof to the

2143

01:51:58,819 --> 01:51:54,059

bladders a lot of proof yeah a lot of

2144

01:52:00,529 --> 01:51:58,829

proof not only firsthand witnesses yes

2145

01:52:04,069 --> 01:52:00,539

he's provided lots of proof there's

2146

01:52:07,790 --> 01:52:04,079

firsthand witnesses there are documents

2147

01:52:11,270 --> 01:52:07,800

that Harry Reid has said are real that

2148

01:52:14,959 --> 01:52:11,280

George Knapp has leaked that was a Harry

2149

01:52:17,899 --> 01:52:14,969

Reid asking for the program to get sa P

2150

01:52:19,850 --> 01:52:17,909

status and he listed a bigoted list and

2151

01:52:23,509 --> 01:52:19,860

Lou Elizondo is on that list

2152

01:52:25,729 --> 01:52:23,519

I actually have an unredacted that

2153

01:52:28,669 --> 01:52:25,739

document and can see that entire list

2154

01:52:31,159 --> 01:52:28,679

with Lou Elizondo on there that is

2155

01:52:33,949 --> 01:52:31,169

evidence there's also this the email

2156

01:52:36,439 --> 01:52:33,959

string that I got be a FOIA and so did

2157

01:52:39,049 --> 01:52:36,449

other researchers where Elizondo was

2158

01:52:40,239 --> 01:52:39,059

clearing those navy videos to be

2159

01:52:43,159 --> 01:52:40,249

released to the public

2160

01:52:46,429 --> 01:52:43,169

so he's conversing with the Navy in his

2161

01:52:49,100 --> 01:52:46,439

capacity in a tip to get those released

2162

01:52:50,989 --> 01:52:49,110

there's a lot of stuff besides the

2163

01:52:53,959 --> 01:52:50,999

firsthand witnesses the guys who worked

2164

01:52:55,790 --> 01:52:53,969

on the programs the guy who created the

2165

01:52:58,359 --> 01:52:55,800

program all saying yes

2166

01:53:01,189 --> 01:52:58,369

Elizondo was the guy in charge of this

2167

01:53:05,149 --> 01:53:01,199

I'm curious have you ever talked to John

2168

01:53:07,429 --> 01:53:05,159

Green about any of it why was this ever

2169

01:53:09,500 --> 01:53:07,439

made it to John Green wall just just let

2170

01:53:11,810 --> 01:53:09,510

me know we have we have we have less

2171

01:53:13,669 --> 01:53:11,820

than a minute here okay yeah it has made

2172

01:53:15,589 --> 01:53:13,679

it to John Greenwald it didn't at first

2173

01:53:17,179 --> 01:53:15,599

and in fact that was part of our

2174

01:53:19,639 --> 01:53:17,189

arguments he was one of those guys

2175

01:53:20,060 --> 01:53:19,649

telling me hey you're going too quick on

2176

01:53:23,250 --> 01:53:20,070

this

2177

01:53:25,560 --> 01:53:23,260

but like Leslie Kane like Brian bender

2178

01:53:29,339 --> 01:53:25,570

like George Knapp like anybody in

2179

01:53:30,870 --> 01:53:29,349

journalism or even like the Navy or the

2180

01:53:34,279 --> 01:53:30,880

Senate Intelligence Committee

2181

01:53:37,290 --> 01:53:34,289

we all saw an abundance of credible

2182

01:53:39,299 --> 01:53:37,300

evidence that Elizondo was telling the

2183

01:53:41,720 --> 01:53:39,309

truth and it was the press office who

2184

01:53:44,279 --> 01:53:41,730

had it wrong it's just clear as day

2185

01:53:46,379 --> 01:53:44,289

among anybody who really looks at this

2186

01:53:49,529 --> 01:53:46,389

who even using it in an official

2187

01:53:51,540 --> 01:53:49,539

capacity so Greenwald though was having

2188

01:53:53,339 --> 01:53:51,550

great conversations with the press

2189

01:53:56,609 --> 01:53:53,349

office and he was being told something

2190

01:53:59,910 --> 01:53:56,619

different now after talking with Lou

2191

01:54:01,859 --> 01:53:59,920

Greenwald says I was being lied to and

2192

01:54:04,140 --> 01:54:01,869

he's got a very long article about this

2193

01:54:04,830 --> 01:54:04,150

that I was being lied to were all being

2194

01:54:07,470 --> 01:54:04,840

lied to

2195

01:54:09,990 --> 01:54:07,480

he believes Lou Elizondo is telling the

2196

01:54:11,729 --> 01:54:10,000

truth yeah you had another conversation

2197

01:54:12,509 --> 01:54:11,739

we have four ending here Alejandro

2198

01:54:14,720 --> 01:54:12,519
