

PAUL DEAN

1
00:00:31,189 --> 00:00:20,070

[Music]

2
00:00:34,069 --> 00:00:31,910

hello

3
00:00:35,350 --> 00:00:34,079

and welcome to the show i'm martin

4
00:00:37,270 --> 00:00:35,360

willis your host

5
00:00:38,470 --> 00:00:37,280

and we got a great show for you this

6
00:00:40,389 --> 00:00:38,480

evening paul dean

7
00:00:42,229 --> 00:00:40,399

as you see him up on the screen here on

8
00:00:44,150 --> 00:00:42,239

youtube and i want to thank you

9
00:00:45,350 --> 00:00:44,160

um for the people out there that are

10
00:00:48,790 --> 00:00:45,360

watching this live

11
00:00:51,910 --> 00:00:48,800

i do appreciate that you are in

12
00:00:53,029 --> 00:00:51,920

uh the room so to speak on facebook and

13
00:00:56,470 --> 00:00:53,039

youtube

14

00:00:57,350 --> 00:00:56,480
and uh so uh paul is uh he's from

15

00:00:58,869 --> 00:00:57,360
australia

16

00:01:01,349 --> 00:00:58,879
if you haven't heard about him in the

17

00:01:04,950 --> 00:01:01,359
past um he's an amazing guy

18

00:01:05,830 --> 00:01:04,960
he focuses deeply on government and

19

00:01:08,870 --> 00:01:05,840
military

20

00:01:09,910 --> 00:01:08,880
involvement um in response uh to the ufo

21

00:01:11,670 --> 00:01:09,920
phenomena

22

00:01:13,910 --> 00:01:11,680
so we'll be talking to him in just a

23

00:01:16,230 --> 00:01:13,920
minute but a couple things first

24

00:01:18,310 --> 00:01:16,240
um again i want to thank everyone for

25

00:01:20,230 --> 00:01:18,320
being here i want to thank everyone

26
00:01:21,910 --> 00:01:20,240
that listens everyone behind the scenes

27
00:01:22,550 --> 00:01:21,920
and of course people that support the

28
00:01:24,070 --> 00:01:22,560
show

29
00:01:26,550 --> 00:01:24,080
i couldn't do it without you so i thank

30
00:01:28,149 --> 00:01:26,560
you very much we are simulcast

31
00:01:29,429 --> 00:01:28,159
on facebook there is a chat room in

32
00:01:30,870 --> 00:01:29,439
there and actually shows up on the

33
00:01:34,149 --> 00:01:30,880
screen here which is pretty

34
00:01:37,030 --> 00:01:34,159
pretty interesting um so if you go over

35
00:01:37,990 --> 00:01:37,040
to podcastufo.com you'll see our latest

36
00:01:41,030 --> 00:01:38,000
blog

37
00:01:41,590 --> 00:01:41,040
by charles lear it's called ufos over

38
00:01:44,870 --> 00:01:41,600

michigan

39

00:01:46,710 --> 00:01:44,880
and the swamp gas explanation

40

00:01:48,310 --> 00:01:46,720
uh that's the thing that alan heineck

41

00:01:51,429 --> 00:01:48,320
actually never lived down

42

00:01:51,990 --> 00:01:51,439
so uh it's great blog and as some of you

43

00:01:55,270 --> 00:01:52,000
that

44

00:01:57,270 --> 00:01:55,280
have this show in your podcast feed um

45

00:01:58,469 --> 00:01:57,280
wherever you get your podcast you'll

46

00:02:01,510 --> 00:01:58,479
notice that

47

00:02:05,030 --> 00:02:01,520
these audio blogs are going in to uh

48

00:02:06,870 --> 00:02:05,040
the feed about mid-week so charles

49

00:02:08,550 --> 00:02:06,880
actually you know the author of these

50

00:02:11,270 --> 00:02:08,560
blogs actually reads them

51
00:02:11,990 --> 00:02:11,280
and sends them to me and i put them up

52
00:02:13,830 --> 00:02:12,000
so you can

53
00:02:15,110 --> 00:02:13,840
hear them actually on youtube as well

54
00:02:18,390 --> 00:02:15,120
putting them there

55
00:02:20,229 --> 00:02:18,400
and no calls tonight but uh as usual

56
00:02:21,030 --> 00:02:20,239
i'll be uh i'll try to keep an eye on

57
00:02:23,110 --> 00:02:21,040
the chat

58
00:02:24,470 --> 00:02:23,120
tonight and if you want to post a

59
00:02:25,910 --> 00:02:24,480
question for our guest

60
00:02:28,070 --> 00:02:25,920
it's probably a good idea if you put it

61
00:02:31,190 --> 00:02:28,080
in all caps to make sure that i

62
00:02:32,630 --> 00:02:31,200
i don't miss it and you know what i

63
00:02:34,150 --> 00:02:32,640

think that's going to be it for me and

64

00:02:34,949 --> 00:02:34,160

i'm going to bring our guest in right

65

00:02:37,190 --> 00:02:34,959

now

66

00:02:38,390 --> 00:02:37,200

well welcome to the show paul hi how's

67

00:02:40,229 --> 00:02:38,400

it going martin

68

00:02:41,430 --> 00:02:40,239

uh this is going great thank you so much

69

00:02:43,030 --> 00:02:41,440

for being with us

70

00:02:45,190 --> 00:02:43,040

and uh we had to do a little bit of

71

00:02:48,390 --> 00:02:45,200

maneuvering but we got you here

72

00:02:50,070 --> 00:02:48,400

yeah i'm not very good with computers no

73

00:02:51,430 --> 00:02:50,080

no i meant as far as the date you know

74

00:02:53,190 --> 00:02:51,440

we're doing the show

75

00:02:55,110 --> 00:02:53,200

sunday night and it's monday morning

76

00:02:57,270 --> 00:02:55,120

we're in the future yeah

77

00:02:58,630 --> 00:02:57,280

yeah sometimes the time zone thing's

78

00:02:59,830 --> 00:02:58,640

terrible yeah it's weird

79

00:03:01,509 --> 00:02:59,840

yeah it's even harder with the west

80

00:03:03,270 --> 00:03:01,519

coast actually it's really hard with the

81

00:03:06,390 --> 00:03:03,280

west coast of you yeah

82

00:03:09,190 --> 00:03:06,400

and it's always so strange to that your

83

00:03:11,270 --> 00:03:09,200

country is going into summer now and

84

00:03:13,910 --> 00:03:11,280

we're starting to get the chill here

85

00:03:14,309 --> 00:03:13,920

yeah so yeah yeah it's not cold anymore

86

00:03:17,509 --> 00:03:14,319

it's

87

00:03:20,630 --> 00:03:17,519

yeah

88

00:03:22,790 --> 00:03:20,640

you

89

00:03:23,830 --> 00:03:22,800

exactly i'm down south east so right

90

00:03:26,710 --> 00:03:23,840

down the south east

91

00:03:27,030 --> 00:03:26,720

um so melbourne so a bit south of sydney

92

00:03:28,550 --> 00:03:27,040

um

93

00:03:30,390 --> 00:03:28,560

most of australia's cities are on the

94

00:03:33,190 --> 00:03:30,400

east coast um

95

00:03:35,030 --> 00:03:33,200

and i'm down the bottom yeah yeah oh wow

96

00:03:35,990 --> 00:03:35,040

yeah i mean australia is all coastal

97

00:03:38,309 --> 00:03:36,000

basically i mean

98

00:03:39,430 --> 00:03:38,319

it's a population yeah it's all around

99

00:03:41,990 --> 00:03:39,440

the coast it's a bit like

100

00:03:42,550 --> 00:03:42,000

you know they say that you know i think

101
00:03:44,630 --> 00:03:42,560
90

102
00:03:46,229 --> 00:03:44,640
of canada's population are along the

103
00:03:47,509 --> 00:03:46,239
border well in australia

104
00:03:49,430 --> 00:03:47,519
it's 90 percent of australia's

105
00:03:50,869 --> 00:03:49,440
population are you know just on the

106
00:03:53,830 --> 00:03:50,879
coastline there's virtually nothing

107
00:03:55,589 --> 00:03:53,840
amazing amazing and uh i think there's

108
00:03:57,350 --> 00:03:55,599
like 25

109
00:03:59,110 --> 00:03:57,360
million people something like that 25

110
00:03:59,429 --> 00:03:59,120
years 25 million people and yet we're

111
00:04:01,030 --> 00:03:59,439
this

112
00:04:02,630 --> 00:04:01,040
we're just only slightly smaller than

113
00:04:04,470 --> 00:04:02,640

the continental united states so it's

114

00:04:06,149 --> 00:04:04,480

very very sparsely populated

115

00:04:07,509 --> 00:04:06,159

and it's one of the most populated

116

00:04:10,789 --> 00:04:07,519

places in the world

117

00:04:11,589 --> 00:04:10,799

wow and uh one of my top listeners to

118

00:04:13,509 --> 00:04:11,599

this show

119

00:04:15,910 --> 00:04:13,519

are australians which is amazing oh

120

00:04:17,990 --> 00:04:15,920

really it's usually the second or third

121

00:04:19,590 --> 00:04:18,000

in the when i actually go through and

122

00:04:21,749 --> 00:04:19,600

take a look uh so there's a lot of

123

00:04:22,870 --> 00:04:21,759

fascination with ufos in australia there

124

00:04:25,510 --> 00:04:22,880

has to be yeah

125

00:04:26,550 --> 00:04:25,520

yeah yeah yeah yeah yeah there is there

126

00:04:28,469 --> 00:04:26,560

is i would say

127

00:04:30,790 --> 00:04:28,479

there's a lot of people in interested

128

00:04:32,150 --> 00:04:30,800

maybe not maybe not um dedicated

129

00:04:32,550 --> 00:04:32,160

researchers but there's a lot of people

130

00:04:34,230 --> 00:04:32,560

who

131

00:04:35,350 --> 00:04:34,240

i would call them ufo buffs i mean

132

00:04:36,870 --> 00:04:35,360

they're certainly interested they're

133

00:04:39,270 --> 00:04:36,880

reasonably well read

134

00:04:40,230 --> 00:04:39,280

um they've absorbed the right material

135

00:04:41,909 --> 00:04:40,240

over the years

136

00:04:44,150 --> 00:04:41,919

i get quite a lot of contact with people

137

00:04:46,230 --> 00:04:44,160

like that but um as far as

138

00:04:47,270 --> 00:04:46,240

hardcore researchers that really do

139

00:04:47,990 --> 00:04:47,280

stuff there's not many of us

140

00:04:50,550 --> 00:04:48,000

unfortunately

141

00:04:51,510 --> 00:04:50,560

same thing in new zealand very few like

142

00:04:54,150 --> 00:04:51,520

one or two

143

00:04:54,629 --> 00:04:54,160

that's it how about that it's bad it's

144

00:04:58,150 --> 00:04:54,639

bad

145

00:05:00,870 --> 00:04:58,160

guess well

146

00:05:01,350 --> 00:05:00,880

um that you hear a lot here now there

147

00:05:03,189 --> 00:05:01,360

are

148

00:05:04,790 --> 00:05:03,199

you know i look at also uh the

149

00:05:05,270 --> 00:05:04,800

demographics there's a lot of young

150

00:05:07,909 --> 00:05:05,280

people

151

00:05:09,590 --> 00:05:07,919

18 to 35 that listen to the show but uh

152

00:05:11,749 --> 00:05:09,600

but you don't see them at conf

153

00:05:12,870 --> 00:05:11,759

you don't see a lot of younger people at

154

00:05:14,790 --> 00:05:12,880

conferences

155

00:05:15,909 --> 00:05:14,800

um and i'm sure it's probably the same

156

00:05:17,590 --> 00:05:15,919

there right

157

00:05:20,310 --> 00:05:17,600

i've spoken at conferences been to

158

00:05:22,550 --> 00:05:20,320

conferences it's a mix but i would

159

00:05:24,550 --> 00:05:22,560

it's not most people would be in their

160

00:05:25,510 --> 00:05:24,560

50s or 60s that go to conferences that's

161

00:05:26,790 --> 00:05:25,520

what i've found i've

162

00:05:28,870 --> 00:05:26,800

i've stood there looking out at the

163

00:05:29,670 --> 00:05:28,880

audience and some of them are in

164

00:05:32,310 --> 00:05:29,680

wheelchairs

165

00:05:33,029 --> 00:05:32,320

you know like that so like they're so

166

00:05:35,189 --> 00:05:33,039

you know

167

00:05:36,950 --> 00:05:35,199

into the 80s so that's also not a good

168

00:05:39,749 --> 00:05:36,960

sign it's either people

169

00:05:40,629 --> 00:05:39,759

people are people are doing everything

170

00:05:42,790 --> 00:05:40,639

online

171

00:05:43,909 --> 00:05:42,800

or still possibly reading books there's

172

00:05:46,469 --> 00:05:43,919

nothing wrong with that but

173

00:05:48,230 --> 00:05:46,479

as far as um yeah certainly attending

174

00:05:50,550 --> 00:05:48,240

conferences and conferences aren't that

175

00:05:52,150 --> 00:05:50,560

big for me i mean like when you when

176

00:05:54,310 --> 00:05:52,160

conferences are happening happening

177

00:05:56,070 --> 00:05:54,320

you know vast majority of the audience

178

00:05:59,029 --> 00:05:56,080

are already true believers

179

00:05:59,909 --> 00:05:59,039

and half and then half of them would be

180

00:06:02,790 --> 00:05:59,919

fairly

181

00:06:03,189 --> 00:06:02,800

um mentally marginal if you know what i

182

00:06:05,350 --> 00:06:03,199

mean

183

00:06:06,390 --> 00:06:05,360

so it's not i don't think conferences

184

00:06:08,710 --> 00:06:06,400

actually do much

185

00:06:11,350 --> 00:06:08,720

you know i don't i think they appeal to

186

00:06:12,469 --> 00:06:11,360

meteorologists or university professors

187

00:06:16,150 --> 00:06:12,479

in the

188

00:06:17,590 --> 00:06:16,160

areas or whatever

189

00:06:19,110 --> 00:06:17,600

of something i've noticed which is

190

00:06:20,870 --> 00:06:19,120

frustrating it's not like the 70s and

191

00:06:22,550 --> 00:06:20,880

80s where all sorts of people missile

192

00:06:24,070 --> 00:06:22,560

experts rocket experts

193

00:06:25,510 --> 00:06:24,080

you know rocket scientists nuclear

194

00:06:27,670 --> 00:06:25,520

engineers would appear at conferences

195

00:06:30,710 --> 00:06:27,680

willy-nilly it's not like that anymore

196

00:06:31,749 --> 00:06:30,720

well you know uh last september in uh

197

00:06:35,110 --> 00:06:31,759

phoenix

198

00:06:37,110 --> 00:06:35,120

i met uh ben hurle um

199

00:06:38,390 --> 00:06:37,120

on the show and he was with his whole

200

00:06:41,909 --> 00:06:38,400

group there from

201
00:06:42,309 --> 00:06:41,919
victoria yeah yeah so that was a lot of

202
00:06:45,430 --> 00:06:42,319
fun

203
00:06:48,790 --> 00:06:45,440
uh yeah good place guys

204
00:06:51,029 --> 00:06:48,800
yeah yeah um so can you can you

205
00:06:52,070 --> 00:06:51,039
tell the listening audience how you got

206
00:06:53,990 --> 00:06:52,080
involved

207
00:06:55,909 --> 00:06:54,000
you know what sparked your interest in

208
00:06:58,309 --> 00:06:55,919
in this field

209
00:07:01,589 --> 00:06:58,319
well there's two things that probably

210
00:07:05,430 --> 00:07:01,599
spark my interest the first one is um

211
00:07:08,469 --> 00:07:05,440
my dad um my father was

212
00:07:09,189 --> 00:07:08,479
uh in the army um in the australian army

213
00:07:13,990 --> 00:07:09,199

he was

214

00:07:15,749 --> 00:07:14,000

cartography surveying

215

00:07:17,029 --> 00:07:15,759

it was actually with the royal surveying

216

00:07:20,230 --> 00:07:17,039

regiment which is

217

00:07:23,589 --> 00:07:20,240

australia's premier mapping cartography

218

00:07:28,230 --> 00:07:23,599

um topology hydrography

219

00:07:31,430 --> 00:07:28,240

um entity within the australian army

220

00:07:34,629 --> 00:07:31,440

and and he he

221

00:07:35,589 --> 00:07:34,639

he was assigned to for many years to a

222

00:07:38,469 --> 00:07:35,599

military base

223

00:07:39,990 --> 00:07:38,479

in victoria my state called pakapanil

224

00:07:42,550 --> 00:07:40,000

and um

225

00:07:43,670 --> 00:07:42,560

and he he's aside from that he's a very

226

00:07:45,510 --> 00:07:43,680

scientific guy like he's a very

227

00:07:49,909 --> 00:07:45,520

technically minded guy

228

00:07:51,270 --> 00:07:49,919

and um he he was back in 1975 so a bit

229

00:07:53,270 --> 00:07:51,280

before i was born

230

00:07:54,790 --> 00:07:53,280

dad was driving from sydney to melbourne

231

00:07:56,469 --> 00:07:54,800

which is probably the equivalent a bit

232

00:07:57,430 --> 00:07:56,479

like driving from san francisco to los

233

00:08:00,950 --> 00:07:57,440

angeles

234

00:08:03,110 --> 00:08:00,960

like just without the traffic um and

235

00:08:04,710 --> 00:08:03,120

it's eight hours or so yeah yeah yeah

236

00:08:07,430 --> 00:08:04,720

about seven whatever yeah

237

00:08:07,990 --> 00:08:07,440

and uh but dad being my dad took the

238

00:08:09,430 --> 00:08:08,000

long way

239

00:08:11,589 --> 00:08:09,440

sorry took the short way instead of

240

00:08:14,390 --> 00:08:11,599

driving just on the highway he took

241

00:08:15,510 --> 00:08:14,400

he took various back roads and he was

242

00:08:18,390 --> 00:08:15,520

right in the middle of the trip

243

00:08:19,990 --> 00:08:18,400

middle of the night unfortunately a

244

00:08:21,830 --> 00:08:20,000

story we hear all the time this is a

245

00:08:24,629 --> 00:08:21,840

single witness case the witness is

246

00:08:25,909 --> 00:08:24,639

fine but it was just him alone at night

247

00:08:28,950 --> 00:08:25,919

as well which is

248

00:08:30,469 --> 00:08:28,960

always you know a daylight disc sighting

249

00:08:34,230 --> 00:08:30,479

or a daylight

250

00:08:36,949 --> 00:08:34,240

ufo signing is is is is more compelling

251
00:08:38,550 --> 00:08:36,959
or tangible than anything at night in my

252
00:08:40,149 --> 00:08:38,560
wife unless

253
00:08:41,589 --> 00:08:40,159
unless you're an astronaut or a pilot or

254
00:08:42,149 --> 00:08:41,599
something that might be a bit different

255
00:08:44,630 --> 00:08:42,159
but

256
00:08:46,710 --> 00:08:44,640
my dad's driving along and out in front

257
00:08:48,550 --> 00:08:46,720
of him through the trees

258
00:08:49,910 --> 00:08:48,560
we've got all these junky yucky trees in

259
00:08:52,070 --> 00:08:49,920
australia called eucalypts

260
00:08:53,509 --> 00:08:52,080
and they're sort of these nailed

261
00:08:54,949 --> 00:08:53,519
undensed trees it's not like looking

262
00:08:56,389 --> 00:08:54,959
through conifer forest like you'd find

263
00:08:57,110 --> 00:08:56,399

in oregon or washington or something

264

00:09:01,750 --> 00:08:57,120

it's

265

00:09:02,630 --> 00:09:01,760

them dad dad saw a um dad was driving

266

00:09:05,190 --> 00:09:02,640

along

267

00:09:05,750 --> 00:09:05,200

you know 60 miles an hour a bit faster

268

00:09:11,350 --> 00:09:05,760

um

269

00:09:11,990 --> 00:09:11,360

he saw a perfectly circular light like a

270

00:09:15,030 --> 00:09:12,000

like a

271

00:09:19,269 --> 00:09:15,040

sort of

272

00:09:20,949 --> 00:09:19,279

way up ahead of him and he's thinking

273

00:09:22,949 --> 00:09:20,959

um he's thinking it's you know it's not

274

00:09:24,870 --> 00:09:22,959

car headlights miles too big

275

00:09:26,470 --> 00:09:24,880

and it's not making much progress like

276

00:09:28,470 --> 00:09:26,480

there's not much it's not they're going

277

00:09:30,150 --> 00:09:28,480

past each other anytime soon

278

00:09:32,550 --> 00:09:30,160

and he thought it's going to be a train

279

00:09:34,710 --> 00:09:32,560

train headlight right

280

00:09:35,990 --> 00:09:34,720

but he's thinking it's pretty high right

281

00:09:36,630 --> 00:09:36,000

so we're coming up to a hill well the

282

00:09:40,389 --> 00:09:36,640

hill never

283

00:09:41,590 --> 00:09:40,399

eventuated but this he uh he simply

284

00:09:43,910 --> 00:09:41,600

witnessed over we'll say

285

00:09:45,030 --> 00:09:43,920

four or five minutes three four five

286

00:09:47,430 --> 00:09:45,040

minutes this

287

00:09:49,430 --> 00:09:47,440

this spherical or circular light just

288

00:09:50,470 --> 00:09:49,440

get higher and higher and higher in the

289

00:09:53,750 --> 00:09:50,480

sky

290

00:09:56,150 --> 00:09:53,760

um and so he's thinking it's got to be

291

00:09:57,430 --> 00:09:56,160

um a huge flood light on a grain silo

292

00:10:00,710 --> 00:09:57,440

maybe or it's

293

00:10:02,310 --> 00:10:00,720

a searchlight on a helicopter um but

294

00:10:03,990 --> 00:10:02,320

he'd been around helicopters for years

295

00:10:07,269 --> 00:10:04,000

and helicopters just don't

296

00:10:08,630 --> 00:10:07,279

hover and just aim a searchlight just

297

00:10:10,870 --> 00:10:08,640

ahead i mean there's flickering and

298

00:10:12,710 --> 00:10:10,880

moving around and and um

299

00:10:14,069 --> 00:10:12,720

anyway the ultimate test was he turned

300

00:10:17,110 --> 00:10:14,079

it turned his engine off

301

00:10:18,790 --> 00:10:17,120

put it into neutral and so there's no

302

00:10:21,110 --> 00:10:18,800

noise so he wound his window down so all

303

00:10:22,949 --> 00:10:21,120

he's got is the noise of a a

304

00:10:24,870 --> 00:10:22,959

tyre like tyres going along the road and

305

00:10:26,389 --> 00:10:24,880

a bit of wind and he puts his ear out

306

00:10:27,430 --> 00:10:26,399

the window and he's expecting to hear

307

00:10:29,430 --> 00:10:27,440

that

308

00:10:31,750 --> 00:10:29,440

yeah the helicopters nothing happens

309

00:10:33,190 --> 00:10:31,760

right there's no noise no noise at all

310

00:10:34,790 --> 00:10:33,200

so that spooks him a bit anyway the

311

00:10:35,590 --> 00:10:34,800

thing's above him now it's definitely

312

00:10:38,949 --> 00:10:35,600

airborne

313

00:10:40,870 --> 00:10:38,959

right and um he he just

314

00:10:42,069 --> 00:10:40,880

he couldn't do much he did he he didn't

315

00:10:43,829 --> 00:10:42,079

stop

316

00:10:45,509 --> 00:10:43,839

he he he was pretty sure it wasn't a

317

00:10:46,069 --> 00:10:45,519

plane with a with a searchlight or a

318

00:10:48,069 --> 00:10:46,079

helicopter

319

00:10:50,150 --> 00:10:48,079

was sure of that so he just had to keep

320

00:10:52,230 --> 00:10:50,160

going driving and driving and driving

321

00:10:54,389 --> 00:10:52,240

and a few minutes later he was of the

322

00:10:57,190 --> 00:10:54,399

assumption that it was behind him

323

00:10:58,630 --> 00:10:57,200

and just as he was relaxing all of a

324

00:11:00,470 --> 00:10:58,640

sudden his entire car lit up

325

00:11:02,870 --> 00:11:00,480

like the road lit up whatever this thing

326

00:11:03,829 --> 00:11:02,880

was shooting a light on him right it's

327

00:11:06,389 --> 00:11:03,839

now targeting

328

00:11:07,350 --> 00:11:06,399

and he said this is not unusual for my

329

00:11:09,110 --> 00:11:07,360

father but he

330

00:11:11,110 --> 00:11:09,120

um he just completely flawed like he

331

00:11:13,030 --> 00:11:11,120

just completely so you know 100 miles an

332

00:11:14,790 --> 00:11:13,040

hour 120 miles an hour as far as fast

333

00:11:17,110 --> 00:11:14,800

and far as he could go he was spooked

334

00:11:18,150 --> 00:11:17,120

right so he told us this story he used

335

00:11:19,910 --> 00:11:18,160

to tell us this story

336

00:11:21,190 --> 00:11:19,920

yeah he told me this story when i was

337

00:11:22,710 --> 00:11:21,200

say 10 11.

338

00:11:24,230 --> 00:11:22,720

the other thing that got me into it is

339

00:11:25,670 --> 00:11:24,240

just briefly and the listeners will

340

00:11:29,030 --> 00:11:25,680

probably know this one

341

00:11:32,550 --> 00:11:29,040

um off the coast of melbourne in 1978

342

00:11:33,990 --> 00:11:32,560

uh october 21st a pilot went missing

343

00:11:35,990 --> 00:11:34,000

a pilot by the name of frederick

344

00:11:37,110 --> 00:11:36,000

valentick it was already put that in the

345

00:11:38,870 --> 00:11:37,120

chat

346

00:11:41,110 --> 00:11:38,880

pardon someone already put that in the

347

00:11:43,269 --> 00:11:41,120

chat yeah yeah so paul of frederick

348

00:11:43,990 --> 00:11:43,279

olynyk goes missing 7 30 8 o'clock at

349

00:11:46,389 --> 00:11:44,000

night

350

00:11:47,350 --> 00:11:46,399

um he goes missing but what was what was

351
00:11:49,829 --> 00:11:47,360
weird about it

352
00:11:51,030 --> 00:11:49,839
was that his last 12 minutes of radio

353
00:11:54,949 --> 00:11:51,040
conversation with

354
00:11:56,470 --> 00:11:54,959
um like flight services unit air traffic

355
00:11:59,590 --> 00:11:56,480
control at tullamarine airport

356
00:12:01,910 --> 00:11:59,600
um it was a flight services unit um

357
00:12:03,430 --> 00:12:01,920
air traffic controller steve roby um

358
00:12:05,350 --> 00:12:03,440
they had this 12 minute conversation

359
00:12:08,829 --> 00:12:05,360
this broken conversation

360
00:12:10,870 --> 00:12:08,839
and um it's pretty scary friedrich

361
00:12:13,990 --> 00:12:10,880
valentick

362
00:12:17,269 --> 00:12:14,000
describes being

363
00:12:19,829 --> 00:12:17,279

followed harassed encircled by a

364

00:12:21,110 --> 00:12:19,839

silvery metallic object with strange

365

00:12:24,310 --> 00:12:21,120

green lights on it

366

00:12:25,590 --> 00:12:24,320

it's all shiny on the outside um and his

367

00:12:28,150 --> 00:12:25,600

final words

368

00:12:29,829 --> 00:12:28,160

were uh melbourne that aircraft is

369

00:12:32,150 --> 00:12:29,839

hovering on top of me again

370

00:12:32,949 --> 00:12:32,160

it's hovering and it's not an aircraft

371

00:12:35,430 --> 00:12:32,959

yes

372

00:12:36,790 --> 00:12:35,440

then that's it it was nothing else ever

373

00:12:38,470 --> 00:12:36,800

he was never seen again the plane was

374

00:12:40,310 --> 00:12:38,480

never

375

00:12:42,150 --> 00:12:40,320

before we move on from that i have a

376

00:12:44,870 --> 00:12:42,160

question for you do you think that

377

00:12:47,030 --> 00:12:44,880

original recording exists somewhere

378

00:12:48,949 --> 00:12:47,040

because i know they did a re-enactment

379

00:12:50,790 --> 00:12:48,959

i know it does i know for a fact it does

380

00:12:52,150 --> 00:12:50,800

yeah i can say i can tell you enough

381

00:12:54,230 --> 00:12:52,160

about that um

382

00:12:55,910 --> 00:12:54,240

i can tell you so the actual original

383

00:12:57,509 --> 00:12:55,920

recording that was actually at the air

384

00:12:59,750 --> 00:12:57,519

at the airport it's taken

385

00:13:01,190 --> 00:12:59,760

because once you start an accident once

386

00:13:03,110 --> 00:13:01,200

the back then the bureau of air safety

387

00:13:06,069 --> 00:13:03,120

investigations air

388

00:13:07,750 --> 00:13:06,079

air accidents branch once they start an

389

00:13:09,430 --> 00:13:07,760

investigation the investigation goes for

390

00:13:11,430 --> 00:13:09,440

a minimum of 30 days no matter how

391

00:13:13,990 --> 00:13:11,440

uninteresting or solvable it is

392

00:13:15,750 --> 00:13:14,000

what they do they take the um they take

393

00:13:17,829 --> 00:13:15,760

the uh nine

394

00:13:18,870 --> 00:13:17,839

like the the one and a half inch reels

395

00:13:20,790 --> 00:13:18,880

off the machine

396

00:13:22,470 --> 00:13:20,800

they take it underground the airport to

397

00:13:24,069 --> 00:13:22,480

the investigation facility

398

00:13:26,150 --> 00:13:24,079

where experts like communications

399

00:13:29,110 --> 00:13:26,160

experts and various technical experts

400

00:13:31,350 --> 00:13:29,120

analyze the the audio so you've got this

401
00:13:33,829 --> 00:13:31,360
huge reel that's taken off now that

402
00:13:35,590 --> 00:13:33,839
that was played over and over and over

403
00:13:35,829 --> 00:13:35,600
again for the technical experts but what

404
00:13:44,230 --> 00:13:35,839

i

405
00:13:47,509 --> 00:13:44,240
you know sequestered away to the you

406
00:13:50,470 --> 00:13:47,519
know department of defense or

407
00:13:52,629 --> 00:13:50,480
the dio who's who oh sorry the jio who

408
00:13:54,470 --> 00:13:52,639
would be the equivalent of your cia here

409
00:13:56,150 --> 00:13:54,480
or whatever but i do believe that it was

410
00:13:58,150 --> 00:13:56,160
actually put back into service and just

411
00:14:00,710 --> 00:13:58,160
rewritten over however

412
00:14:02,949 --> 00:14:00,720
we know for a fact absolute fact that

413
00:14:04,949 --> 00:14:02,959

the family of the pilot

414

00:14:06,470 --> 00:14:04,959

so guido valentick and his wife alberta

415

00:14:07,509 --> 00:14:06,480

so the parents of the pilot they were

416

00:14:13,670 --> 00:14:07,519

given a copy

417

00:14:16,870 --> 00:14:13,680

by the victorian tasmanian region's

418

00:14:18,389 --> 00:14:16,880

manager for air safety as a memento

419

00:14:20,150 --> 00:14:18,399

for their son because their son had died

420

00:14:23,269 --> 00:14:20,160

or potentially died and disappeared

421

00:14:24,870 --> 00:14:23,279

so they were given a copy that copy

422

00:14:26,710 --> 00:14:24,880

and well they weren't supposed to do

423

00:14:28,310 --> 00:14:26,720

this but that copy was a copy was made

424

00:14:31,189 --> 00:14:28,320

of that copy and given to a uf

425

00:14:32,389 --> 00:14:31,199

a a us researcher based in australia

426

00:14:34,550 --> 00:14:32,399

called paul norman

427

00:14:36,710 --> 00:14:34,560

paul norman gave a copy to dick haynes

428

00:14:37,509 --> 00:14:36,720

so that's one copy we know of or a trial

429

00:14:39,269 --> 00:14:37,519

of copies

430

00:14:41,350 --> 00:14:39,279

i also know for a fact i'm never going

431

00:14:44,949 --> 00:14:41,360

to name names but i know for a fact

432

00:14:47,189 --> 00:14:44,959

the two people who worked at tullamarine

433

00:14:48,710 --> 00:14:47,199

airport also stole copies so they went

434

00:14:50,949 --> 00:14:48,720

in with their own equipment like

435

00:14:52,710 --> 00:14:50,959

an old ghetto blaster with the right

436

00:14:54,550 --> 00:14:52,720

like wire cables and stuff

437

00:14:56,949 --> 00:14:54,560

plugged it into the big investigation

438

00:14:58,150 --> 00:14:56,959

machine stole copies technically it's

439

00:15:00,310 --> 00:14:58,160

theft um

440

00:15:01,269 --> 00:15:00,320

but whatever it doesn't matter they took

441

00:15:04,389 --> 00:15:01,279

copies home so

442

00:15:07,509 --> 00:15:04,399

we've got we've got um three streams of

443

00:15:09,430 --> 00:15:07,519

of copies one's legal and so we've got

444

00:15:10,949 --> 00:15:09,440

to declines it gets a bit illegal

445

00:15:13,269 --> 00:15:10,959

and the other two are definitely stolen

446

00:15:15,189 --> 00:15:13,279

and unofficial i know that for a fact

447

00:15:16,790 --> 00:15:15,199

wow but you've never actually heard the

448

00:15:19,990 --> 00:15:16,800

original have you i have

449

00:15:20,949 --> 00:15:20,000

i haven't got wow and is it as scary as

450

00:15:23,269 --> 00:15:20,959

it seems like

451
00:15:24,230 --> 00:15:23,279
no no not at all it's it's it's not at

452
00:15:25,750 --> 00:15:24,240
all it's it's it's

453
00:15:28,230 --> 00:15:25,760
for starters the first thing that struck

454
00:15:30,150 --> 00:15:28,240
me is how unbelievably old it sounds

455
00:15:31,350 --> 00:15:30,160
it doesn't even sound like i know for a

456
00:15:33,990 --> 00:15:31,360
fact that it is real

457
00:15:35,030 --> 00:15:34,000
because we've had someone confirm well

458
00:15:37,110 --> 00:15:35,040
for starters

459
00:15:38,629 --> 00:15:37,120
steve roby the air traffic controller's

460
00:15:40,150 --> 00:15:38,639
voice is

461
00:15:42,150 --> 00:15:40,160
in there like he's doing most of the

462
00:15:44,069 --> 00:15:42,160
talking actually at all half of it

463
00:15:46,550 --> 00:15:44,079

anyway and his voice

464

00:15:47,910 --> 00:15:46,560

um is exactly like what it is today like

465

00:15:49,269 --> 00:15:47,920

like it's definitely him there's no

466

00:15:50,550 --> 00:15:49,279

question about it like his mannerisms

467

00:15:52,710 --> 00:15:50,560

his slang his

468

00:15:55,189 --> 00:15:52,720

tone whatever now the other voice which

469

00:15:57,670 --> 00:15:55,199

is of course valentik who's

470

00:15:59,269 --> 00:15:57,680

saying that he's seeing a ufo right he's

471

00:16:01,910 --> 00:15:59,279

gone but

472

00:16:03,749 --> 00:16:01,920

we've had someone who knew valentik

473

00:16:05,430 --> 00:16:03,759

confirm that he's definitely his voice

474

00:16:07,110 --> 00:16:05,440

there's no question about it it's it's

475

00:16:08,790 --> 00:16:07,120

not that interesting honestly

476

00:16:10,790 --> 00:16:08,800

i listened to it three times and by the

477

00:16:13,910 --> 00:16:10,800

end of it i was bored there's nothing no

478

00:16:15,910 --> 00:16:13,920

it's not um it's not scary he's not hit

479

00:16:17,030 --> 00:16:15,920

the levels of distress are really not

480

00:16:18,949 --> 00:16:17,040

that high

481

00:16:21,509 --> 00:16:18,959

it almost sounds like it's from the 50s

482

00:16:23,430 --> 00:16:21,519

or 60s it's really old

483

00:16:25,590 --> 00:16:23,440

like it's it's really dated and it's

484

00:16:26,069 --> 00:16:25,600

very it's it's actually like he's having

485

00:16:27,509 --> 00:16:26,079

a very

486

00:16:29,350 --> 00:16:27,519

most of it's just simply like he's

487

00:16:30,949 --> 00:16:29,360

having a very normal conversation

488

00:16:32,550 --> 00:16:30,959

then it might get a little bit heartened

489

00:16:33,829 --> 00:16:32,560

towards the end then it just stopped

490

00:16:37,189 --> 00:16:33,839

that's it

491

00:16:40,310 --> 00:16:37,199

how about that when he says

492

00:16:41,749 --> 00:16:40,320

it's it's not an aircraft and it's

493

00:16:42,310 --> 00:16:41,759

literally he just says it like that he

494

00:16:45,829 --> 00:16:42,320

just says

495

00:16:47,430 --> 00:16:45,839

uh melbourne that aircraft is hovering

496

00:16:48,870 --> 00:16:47,440

on top of me again it's hovering and

497

00:16:50,550 --> 00:16:48,880

it's not an aircraft

498

00:16:51,910 --> 00:16:50,560

that's it he doesn't he's not screaming

499

00:16:53,269 --> 00:16:51,920

and yelling and jumping about the place

500

00:16:55,749 --> 00:16:53,279

it's not like that at all

501
00:16:58,710 --> 00:16:55,759
and is there any audio of any noises

502
00:17:01,350 --> 00:16:58,720
over or anything like uh yeah

503
00:17:03,269 --> 00:17:01,360
yeah you might realize that what is

504
00:17:05,350 --> 00:17:03,279
weird is that

505
00:17:07,029 --> 00:17:05,360
after he says well what happens is after

506
00:17:09,429 --> 00:17:07,039
he said those words

507
00:17:10,309 --> 00:17:09,439
steve roby who was the air traffic

508
00:17:13,029 --> 00:17:10,319
controller says

509
00:17:13,750 --> 00:17:13,039
delta sierra juliet come in delta sierra

510
00:17:17,270 --> 00:17:13,760
juliet

511
00:17:19,110 --> 00:17:17,280
there's nothing but after that

512
00:17:20,710 --> 00:17:19,120
there's 17 seconds of this weird

513
00:17:22,549 --> 00:17:20,720

metallic scraping noise

514

00:17:24,470 --> 00:17:22,559

it almost sounds like someone's got a

515

00:17:25,189 --> 00:17:24,480

tin can like an empty tin can put a

516

00:17:27,350 --> 00:17:25,199

marble in it

517

00:17:29,510 --> 00:17:27,360

and spins it round like spinning around

518

00:17:29,990 --> 00:17:29,520

a marble yeah in a tin can like that

519

00:17:32,310 --> 00:17:30,000

it's the

520

00:17:34,390 --> 00:17:32,320

weirdest thing and i've never heard of

521

00:17:37,029 --> 00:17:34,400

i've had air traffic controllers

522

00:17:38,710 --> 00:17:37,039

listen to it who were air traffic

523

00:17:39,750 --> 00:17:38,720

controlling in the 70s and 80s

524

00:17:40,950 --> 00:17:39,760

and they sort of scratched their heads

525

00:17:42,390 --> 00:17:40,960

and they said i don't even really ever

526

00:17:44,310 --> 00:17:42,400

heard anything like this

527

00:17:45,590 --> 00:17:44,320

like it could be the plane hitting the

528

00:17:47,029 --> 00:17:45,600

water and and

529

00:17:49,110 --> 00:17:47,039

and and water getting into the

530

00:17:51,270 --> 00:17:49,120

microphone it could be it could be him

531

00:17:52,950 --> 00:17:51,280

making contact with something that's

532

00:17:55,830 --> 00:17:52,960

you know like whatever aircraft was up

533

00:17:57,909 --> 00:17:55,840

there or ufo or whatever it was

534

00:17:59,190 --> 00:17:57,919

it could be burning like a fire i i just

535

00:18:00,870 --> 00:17:59,200

don't know

536

00:18:03,190 --> 00:18:00,880

isn't that something though wow yeah it

537

00:18:06,070 --> 00:18:03,200

is weird what is interesting as well is

538

00:18:07,190 --> 00:18:06,080

is i've talked to an faa communications

539

00:18:10,470 --> 00:18:07,200

guy

540

00:18:12,150 --> 00:18:10,480

like a a a a an expert in

541

00:18:14,230 --> 00:18:12,160

in in federal aviation like in your

542

00:18:15,110 --> 00:18:14,240

country so so the way pilots talk to

543

00:18:17,350 --> 00:18:15,120

grand cruz

544

00:18:19,350 --> 00:18:17,360

with their slang and their technical

545

00:18:20,710 --> 00:18:19,360

speech or whatever and he said to me he

546

00:18:22,150 --> 00:18:20,720

said look if the

547

00:18:24,390 --> 00:18:22,160

he was actually quite skeptical of the

548

00:18:26,630 --> 00:18:24,400

entire thing but he said look

549

00:18:28,310 --> 00:18:26,640

if a ufo case went down he said this is

550

00:18:29,590 --> 00:18:28,320

actually how i'd expect it to go

551

00:18:30,710 --> 00:18:29,600

right they're not going to say flying

552

00:18:32,150 --> 00:18:30,720

saucer and there's little green men

553

00:18:33,510 --> 00:18:32,160

hanging out the windows and i'm going to

554

00:18:35,590 --> 00:18:33,520

die and all this sort of stuff

555

00:18:37,510 --> 00:18:35,600

he said this is actually how his exact

556

00:18:39,510 --> 00:18:37,520

words he said this is how i would expect

557

00:18:41,990 --> 00:18:39,520

it to basically go

558

00:18:43,430 --> 00:18:42,000

so there you go yeah isn't that

559

00:18:46,150 --> 00:18:43,440

something wow

560

00:18:47,830 --> 00:18:46,160

yeah that that is quite a fantastic um

561

00:18:49,510 --> 00:18:47,840

so the reason the reason that affected

562

00:18:51,190 --> 00:18:49,520

me is because this is this happened off

563

00:18:53,029 --> 00:18:51,200

the coast of victoria so

564

00:18:54,789 --> 00:18:53,039

it's it's often in the news even years

565

00:18:56,789 --> 00:18:54,799

later my family don't like it like it's

566

00:18:57,750 --> 00:18:56,799

brought up on tablet and tabloid

567

00:19:00,230 --> 00:18:57,760

magazines and

568

00:19:00,870 --> 00:19:00,240

and and you see it's it's brought up

569

00:19:03,430 --> 00:19:00,880

it's dragged

570

00:19:05,190 --> 00:19:03,440

every year on october 21st and um it's

571

00:19:06,950 --> 00:19:05,200

on you know like the equivalent of what

572

00:19:07,590 --> 00:19:06,960

you have is 60 minutes we've got shows

573

00:19:09,190 --> 00:19:07,600

like that

574

00:19:10,310 --> 00:19:09,200

it's on that every now and again and

575

00:19:11,510 --> 00:19:10,320

people are actually pretty sick of it

576

00:19:14,630 --> 00:19:11,520

we're not going to solve it

577

00:19:16,789 --> 00:19:14,640

that's 40 years ago and and very old

578

00:19:18,470 --> 00:19:16,799

and it is odd that there was no debris

579

00:19:19,190 --> 00:19:18,480

in the water no oil slick or anything

580

00:19:21,990 --> 00:19:19,200

like that

581

00:19:22,310 --> 00:19:22,000

i never found anything marine services

582

00:19:25,270 --> 00:19:22,320

look

583

00:19:26,390 --> 00:19:25,280

it's a big place you know it's it's not

584

00:19:29,029 --> 00:19:26,400

it's not

585

00:19:30,710 --> 00:19:29,039

entirely surprising i mean we have ships

586

00:19:32,230 --> 00:19:30,720

going down that you know

587

00:19:33,909 --> 00:19:32,240

that are absolutely enormous we can't

588

00:19:37,750 --> 00:19:33,919

even find them so

589

00:19:40,870 --> 00:19:37,760

it's not it but it is yeah it

590

00:19:41,590 --> 00:19:40,880

it is it is certainly um it's part of

591

00:19:43,510 --> 00:19:41,600

the story

592

00:19:45,190 --> 00:19:43,520

for sure you know they the thing that's

593

00:19:46,710 --> 00:19:45,200

different about the ships well maybe

594

00:19:48,230 --> 00:19:46,720

they do know where a ship is when it

595

00:19:51,190 --> 00:19:48,240

goes down but um

596

00:19:52,070 --> 00:19:51,200

but you know they knew his path you know

597

00:19:53,350 --> 00:19:52,080

his yeah

598

00:19:54,470 --> 00:19:53,360

you know they kind of knew where he

599

00:19:55,669 --> 00:19:54,480

would have had you would have think that

600

00:19:58,230 --> 00:19:55,679

that would have found something

601
00:19:59,350 --> 00:19:58,240
yeah i didn't yeah yeah it's just one of

602
00:20:00,710 --> 00:19:59,360
those mysteries there are a lot of

603
00:20:03,190 --> 00:20:00,720
mysteries in this

604
00:20:04,390 --> 00:20:03,200
you know and this you know involved in

605
00:20:07,350 --> 00:20:04,400
this topic that

606
00:20:08,950 --> 00:20:07,360
i don't think will ever hear the answer

607
00:20:09,510 --> 00:20:08,960
you know this hypes this absolutely

608
00:20:12,230 --> 00:20:09,520
heights

609
00:20:13,510 --> 00:20:12,240
especially roswell the king of them i

610
00:20:15,669 --> 00:20:13,520
don't think we'll ever know

611
00:20:17,350 --> 00:20:15,679
i've never started i refuse to it would

612
00:20:18,950 --> 00:20:17,360
take 20 years to study the amount of

613
00:20:20,149 --> 00:20:18,960

material we've got i mean i just rely on

614

00:20:21,270 --> 00:20:20,159

everyone else to do it like kevin

615

00:20:23,270 --> 00:20:21,280

randell or

616

00:20:25,350 --> 00:20:23,280

whatever like so over it that you know

617

00:20:28,710 --> 00:20:25,360

yeah like

618

00:20:30,789 --> 00:20:28,720

yeah um so as far as you

619

00:20:31,990 --> 00:20:30,799

like getting all these great documents

620

00:20:32,710 --> 00:20:32,000

and we're going to be talking about that

621

00:20:36,310 --> 00:20:32,720

tonight

622

00:20:38,310 --> 00:20:36,320

um what what started you doing i mean

623

00:20:41,669 --> 00:20:38,320

where did you come up with that idea

624

00:20:44,950 --> 00:20:43,590

what happened was about so i've been

625

00:20:48,310 --> 00:20:44,960

studying the topic

626

00:20:50,230 --> 00:20:48,320

for since i was about 13 and um

627

00:20:51,590 --> 00:20:50,240

i've read all or i read all the great

628

00:20:53,750 --> 00:20:51,600

works you know from

629

00:20:54,789 --> 00:20:53,760

ufo controversy in america by david m

630

00:20:56,710 --> 00:20:54,799

jacobs or

631

00:20:59,350 --> 00:20:56,720

ufos yes when where the content

632

00:21:03,510 --> 00:20:59,360

committee went wrong by saunders or

633

00:21:05,430 --> 00:21:03,520

um like honest to famous books or

634

00:21:06,630 --> 00:21:05,440

whatever i'd read all the right material

635

00:21:09,669 --> 00:21:06,640

over and over again

636

00:21:11,350 --> 00:21:09,679

and um and then the internet came along

637

00:21:13,590 --> 00:21:11,360

and i was able to expand a bit but

638

00:21:16,710 --> 00:21:13,600

something that something that surprised

639

00:21:18,870 --> 00:21:16,720

me what i thought was very important

640

00:21:20,950 --> 00:21:18,880

was something that we lacked a lot in

641

00:21:21,990 --> 00:21:20,960

australia in australian research like in

642

00:21:25,270 --> 00:21:22,000

contemporary times

643

00:21:27,830 --> 00:21:25,280

was um no one really knew like

644

00:21:30,230 --> 00:21:27,840

even bill chalker and keith basterfield

645

00:21:32,230 --> 00:21:30,240

really no one in australia really knew

646

00:21:34,630 --> 00:21:32,240

say this is like you know seven eight

647

00:21:37,990 --> 00:21:34,640

years ago nine years ago

648

00:21:39,430 --> 00:21:38,000

no one knew what australia's policy on

649

00:21:43,510 --> 00:21:39,440

ufos whether it be

650

00:21:46,070 --> 00:21:43,520

stray aircraft how to physically

651
00:21:47,430 --> 00:21:46,080
report a ufo and no one knew it's

652
00:21:49,110 --> 00:21:47,440
because there's so many organizations

653
00:21:50,230 --> 00:21:49,120
that deal with aerospace so

654
00:21:53,190 --> 00:21:50,240
you know there's the royal australain

655
00:21:54,549 --> 00:21:53,200
air force at radar level like 41 wing

656
00:21:56,390 --> 00:21:54,559
there's royal australain air force

657
00:21:58,230 --> 00:21:56,400
actual flying operations where pilots

658
00:22:00,470 --> 00:21:58,240
would see things maybe there's the

659
00:22:03,029 --> 00:22:00,480
australian transport and safety bureau

660
00:22:04,390 --> 00:22:03,039
that handles air safety there's air

661
00:22:05,830 --> 00:22:04,400
services australia which run the

662
00:22:08,070 --> 00:22:05,840
airports and navigational and

663
00:22:10,549 --> 00:22:08,080

communications systems for pilots

664

00:22:12,549 --> 00:22:10,559

any and the royal australian navy that

665

00:22:13,190 --> 00:22:12,559

there's that many organizations that

666

00:22:16,630 --> 00:22:13,200

should have

667

00:22:19,750 --> 00:22:16,640

issue

668

00:22:20,230 --> 00:22:19,760

and what i did i realized i realized

669

00:22:24,470 --> 00:22:20,240

that

670

00:22:26,390 --> 00:22:24,480

even know we didn't even know the

671

00:22:27,830 --> 00:22:26,400

terminology they were using like we

672

00:22:31,110 --> 00:22:27,840

couldn't i could honestly not

673

00:22:34,230 --> 00:22:31,120

find a single reference to i mean did

674

00:22:36,070 --> 00:22:34,240

the royal australian air forces say

675

00:22:37,510 --> 00:22:36,080

um did their air command do they call

676

00:22:39,350 --> 00:22:37,520

ufos do they call them

677

00:22:40,950 --> 00:22:39,360

an identified aerial phenomenon do they

678

00:22:42,950 --> 00:22:40,960

call them unknown aircraft

679

00:22:44,870 --> 00:22:42,960

in a radar setting do they call them a

680

00:22:47,669 --> 00:22:44,880

bogey or do they call them an

681

00:22:51,190 --> 00:22:47,679

uncorrelated target or an unknown object

682

00:22:53,270 --> 00:22:51,200

or a hit or a unknown traffic

683

00:22:55,510 --> 00:22:53,280

you know in any visual settings do

684

00:22:56,630 --> 00:22:55,520

people call ufos stray aircraft

685

00:22:59,669 --> 00:22:56,640

phenomena

686

00:23:02,070 --> 00:22:59,679

um drone whatever look we

687

00:23:04,070 --> 00:23:02,080

we had no idea so the first thing i did

688

00:23:05,830 --> 00:23:04,080

i started writing to

689

00:23:07,110 --> 00:23:05,840

i wrote to the chief of air which is a

690

00:23:09,270 --> 00:23:07,120

bit like your um

691

00:23:10,710 --> 00:23:09,280

chief of air force or secretary of the

692

00:23:12,310 --> 00:23:10,720

air force one of the two

693

00:23:13,830 --> 00:23:12,320

so yeah i wrote to our chief of air i

694

00:23:15,990 --> 00:23:13,840

wrote to our chief of navy

695

00:23:17,350 --> 00:23:16,000

i wrote to the legal department at air

696

00:23:19,110 --> 00:23:17,360

safety australia the

697

00:23:21,430 --> 00:23:19,120

australian safety transport bureau and

698

00:23:22,070 --> 00:23:21,440

so on i sent out many letters to

699

00:23:25,110 --> 00:23:22,080

ministers

700

00:23:27,190 --> 00:23:25,120

congressman um

701
00:23:28,950 --> 00:23:27,200
but i sent many letters and what was

702
00:23:30,950 --> 00:23:28,960
funny was is um

703
00:23:32,390 --> 00:23:30,960
is i got so many different answers back

704
00:23:33,750 --> 00:23:32,400
i got different answers from different

705
00:23:36,710 --> 00:23:33,760
departments and

706
00:23:37,909 --> 00:23:36,720
i um and i started asking more pointed

707
00:23:39,909 --> 00:23:37,919
questions like

708
00:23:42,070 --> 00:23:39,919
you know i started writing back and and

709
00:23:42,789 --> 00:23:42,080
i started asking very pointed questions

710
00:23:48,789 --> 00:23:42,799
like

711
00:23:51,510 --> 00:23:48,799
controlled airspace how do you actually

712
00:23:53,190 --> 00:23:51,520
handle it as opposed to say uncontrolled

713
00:23:55,029 --> 00:23:53,200

airspace like over the ocean near

714

00:23:57,029 --> 00:23:55,039

indonesia or something like that

715

00:23:58,230 --> 00:23:57,039

and i was getting this flurry of

716

00:24:01,590 --> 00:23:58,240

information coming back

717

00:24:03,830 --> 00:24:01,600

about well terminology and phraseology

718

00:24:05,190 --> 00:24:03,840

what they do and don't do in particular

719

00:24:06,630 --> 00:24:05,200

like a matrix of what they

720

00:24:08,470 --> 00:24:06,640

you know like if it's in control

721

00:24:09,269 --> 00:24:08,480

airspace they give it three chances to

722

00:24:11,590 --> 00:24:09,279

land or

723

00:24:13,669 --> 00:24:11,600

identify itself and if it doesn't they

724

00:24:16,070 --> 00:24:13,679

can uh well when it does land they can

725

00:24:16,789 --> 00:24:16,080

arrest it whatever uh in uncontrolled

726

00:24:18,470 --> 00:24:16,799

airspace

727

00:24:19,750 --> 00:24:18,480

they if it's going away from australia

728

00:24:20,630 --> 00:24:19,760

they ignore it if it's coming towards

729

00:24:21,990 --> 00:24:20,640

australia

730

00:24:23,269 --> 00:24:22,000

they monitor it and they put fighter

731

00:24:24,950 --> 00:24:23,279

jets on alert this sort of thing i

732

00:24:26,950 --> 00:24:24,960

learned this over time

733

00:24:29,029 --> 00:24:26,960

but what i also learned another thing i

734

00:24:31,590 --> 00:24:29,039

learned was with civil pilots so

735

00:24:33,750 --> 00:24:31,600

non-military pilots there's actually two

736

00:24:35,430 --> 00:24:33,760

ways that they can report a ufo and

737

00:24:36,310 --> 00:24:35,440

nobody done this in australia no one has

738

00:24:39,430 --> 00:24:36,320

studied this for

739

00:24:41,110 --> 00:24:39,440

30 years and the two ways are ones one

740

00:24:42,630 --> 00:24:41,120

if you want to report a ufo or

741

00:24:44,470 --> 00:24:42,640

or a balloon that's nearly hit you or a

742

00:24:47,909 --> 00:24:44,480

stray aircraft or maybe

743

00:24:49,830 --> 00:24:47,919

a very suspicious contrail you reported

744

00:24:51,430 --> 00:24:49,840

via well to air services australia you

745

00:24:54,630 --> 00:24:51,440

can report it by via an

746

00:24:57,190 --> 00:24:54,640

electronically submitted event report

747

00:24:59,350 --> 00:24:57,200

or you can submit to the australian

748

00:25:02,310 --> 00:24:59,360

transport safety bureau you can submit

749

00:25:02,950 --> 00:25:02,320

a um a ufo report it's called an

750

00:25:05,350 --> 00:25:02,960

accident

751
00:25:07,190 --> 00:25:05,360
incident notification summary so there's

752
00:25:08,870 --> 00:25:07,200
two ways of reporting ufos so the what

753
00:25:10,789 --> 00:25:08,880
the first thing i did of course

754
00:25:13,110 --> 00:25:10,799
was using the freedom of information act

755
00:25:15,590 --> 00:25:13,120
which is very powerful in australia

756
00:25:17,350 --> 00:25:15,600
is i went straight to both those

757
00:25:20,470 --> 00:25:17,360
agencies and said i want

758
00:25:22,310 --> 00:25:20,480
you know eight years worth of visa

759
00:25:23,830 --> 00:25:22,320
reports or accident investigation

760
00:25:25,269 --> 00:25:23,840
summary reports

761
00:25:27,590 --> 00:25:25,279
so yeah i went to air services

762
00:25:31,029 --> 00:25:27,600
australian um and atsb

763
00:25:33,590 --> 00:25:31,039

and i said i want all lisa reports and

764

00:25:34,149 --> 00:25:33,600

um notification reports that mention the

765

00:25:36,789 --> 00:25:34,159

words

766

00:25:38,789 --> 00:25:36,799

ufo unknown object unknown flying or

767

00:25:41,990 --> 00:25:38,799

blah blah blah all the key words drone

768

00:25:43,510 --> 00:25:42,000

missile whatever and it took a while but

769

00:25:45,350 --> 00:25:43,520

sure enough the documents started

770

00:25:47,430 --> 00:25:45,360

pouring out you know the

771

00:25:48,390 --> 00:25:47,440

pilots had reported ufos in australian

772

00:25:50,470 --> 00:25:48,400

airspace

773

00:25:51,990 --> 00:25:50,480

for a long long long time it's just that

774

00:25:53,350 --> 00:25:52,000

no one knew about it

775

00:25:55,190 --> 00:25:53,360

no one in the public knew about it the

776

00:25:57,029 --> 00:25:55,200

media's not that interested so

777

00:25:59,029 --> 00:25:57,039

um so that was one thing i did very

778

00:26:01,830 --> 00:25:59,039

early on wow

779

00:26:03,269 --> 00:26:01,840

yeah that's a key thing i mean that's

780

00:26:04,470 --> 00:26:03,279

pretty major if no one's ever done it

781

00:26:05,750 --> 00:26:04,480

before especially yeah

782

00:26:07,750 --> 00:26:05,760

it was good and something else that

783

00:26:09,269 --> 00:26:07,760

happened which was really suspicious

784

00:26:10,789 --> 00:26:09,279

this really got me and it happened very

785

00:26:11,669 --> 00:26:10,799

early on because i've been reading about

786

00:26:14,630 --> 00:26:11,679

governmental

787

00:26:15,590 --> 00:26:14,640

disinformation and cover-up and and

788

00:26:17,029 --> 00:26:15,600

bypassing

789

00:26:18,390 --> 00:26:17,039

and we've been all reading about this

790

00:26:20,230 --> 00:26:18,400

stuff for so long it's not funny

791

00:26:27,430 --> 00:26:20,240

particularly from the united states

792

00:26:31,269 --> 00:26:29,590

i had one of the first questions i'd

793

00:26:32,310 --> 00:26:31,279

asked the royal australian air force i

794

00:26:34,950 --> 00:26:32,320

asked them do you

795

00:26:35,909 --> 00:26:34,960

use the term ufo and they came back to

796

00:26:38,149 --> 00:26:35,919

me and said

797

00:26:39,669 --> 00:26:38,159

we never use the term ufo we use

798

00:26:42,549 --> 00:26:39,679

unidentified traffic

799

00:26:43,029 --> 00:26:42,559

stray aircraft blah blah blah right i

800

00:26:45,430 --> 00:26:43,039

also

801
00:26:46,789 --> 00:26:45,440
wrote very early on to air services

802
00:26:49,110 --> 00:26:46,799
australia

803
00:26:50,950 --> 00:26:49,120
asking what terminology they used and

804
00:26:53,990 --> 00:26:50,960
again it wasn't ufo

805
00:26:56,149 --> 00:26:54,000
and here's what was weird

806
00:26:58,070 --> 00:26:56,159
about a year later i did an fy request

807
00:27:00,549 --> 00:26:58,080
that didn't particularly go anywhere

808
00:27:01,990 --> 00:27:00,559
but i mean i've done many for requests

809
00:27:03,190 --> 00:27:02,000
but the one i'm talking ab

810
00:27:05,190 --> 00:27:03,200
didn't wasn't particularly that

811
00:27:08,470 --> 00:27:05,200
interesting but what i did do

812
00:27:12,070 --> 00:27:08,480
is i then foi the foi so

813
00:27:14,070 --> 00:27:12,080

i yeah so you foi your case file so that

814

00:27:15,510 --> 00:27:14,080

will include into so basically i went to

815

00:27:17,909 --> 00:27:15,520

them like six months later

816

00:27:21,110 --> 00:27:17,919

and said and said hey about eight months

817

00:27:23,430 --> 00:27:21,120

ago six months ago i did an foi into xyz

818

00:27:24,230 --> 00:27:23,440

i want my corporate and case file so

819

00:27:27,269 --> 00:27:24,240

that means

820

00:27:27,909 --> 00:27:27,279

my original foi their final reply their

821

00:27:30,310 --> 00:27:27,919

internal

822

00:27:31,909 --> 00:27:30,320

emails minutes of meetings that they had

823

00:27:35,190 --> 00:27:31,919

about my foi request

824

00:27:36,310 --> 00:27:35,200

memoranda routing slips deaf grams

825

00:27:39,430 --> 00:27:36,320

whatever

826

00:27:40,950 --> 00:27:39,440

and and they said okay yep you can have

827

00:27:42,710 --> 00:27:40,960

all our internal correspondence about

828

00:27:44,710 --> 00:27:42,720

you that's basically what they said fine

829

00:27:48,389 --> 00:27:44,720

so i waited you know a few months

830

00:27:51,510 --> 00:27:48,399

and out comes about 59 emails between

831

00:27:53,909 --> 00:27:51,520

wow like but so so it out come a bunch

832

00:27:57,990 --> 00:27:53,919

of emails and what was weird was

833

00:28:01,190 --> 00:27:58,000

was in there there was an email

834

00:28:03,430 --> 00:28:01,200

from a squadron leader jody hatch

835

00:28:04,389 --> 00:28:03,440

to group captain which is equivalent of

836

00:28:07,750 --> 00:28:04,399

colonel

837

00:28:09,430 --> 00:28:07,760

director of coordination for the whole

838

00:28:13,430 --> 00:28:09,440

royal australian air force

839

00:28:16,070 --> 00:28:13,440

and it said this it said dear barb

840

00:28:17,830 --> 00:28:16,080

i've just contacted air services

841

00:28:21,350 --> 00:28:17,840

australia

842

00:28:24,630 --> 00:28:21,360

on who there handles ufo

843

00:28:26,389 --> 00:28:24,640

and uae reports and apparently it is the

844

00:28:29,669 --> 00:28:26,399

national operations center

845

00:28:31,269 --> 00:28:29,679

and i'm thinking hold on two years ago

846

00:28:33,350 --> 00:28:31,279

or a year ago

847

00:28:35,110 --> 00:28:33,360

air services australia told me that they

848

00:28:36,630 --> 00:28:35,120

don't use the term ufo and royal

849

00:28:37,990 --> 00:28:36,640

australian air force said they don't use

850

00:28:40,710 --> 00:28:38,000

the term ufo

851
00:28:42,389 --> 00:28:40,720
and yet here in writing it says dear bob

852
00:28:43,590 --> 00:28:42,399
i've just contacted air service

853
00:28:46,389 --> 00:28:43,600
australia

854
00:28:46,870 --> 00:28:46,399
about who handles ufo sightings so that

855
00:28:50,310 --> 00:28:46,880
so

856
00:28:51,750 --> 00:28:50,320
australian air force or air services

857
00:28:53,430 --> 00:28:51,760
australia probably royal australian air

858
00:28:54,950 --> 00:28:53,440
force they do use the term ufo i mean

859
00:28:56,630 --> 00:28:54,960
she put it right there in writing

860
00:28:58,149 --> 00:28:56,640
but what was really interesting was

861
00:29:01,510 --> 00:28:58,159
straight after the word ufo

862
00:29:04,310 --> 00:29:01,520
it also says or uae

863
00:29:05,750 --> 00:29:04,320

like so so basically says dear bob um

864

00:29:07,110 --> 00:29:05,760

i've just contacted air services

865

00:29:09,830 --> 00:29:07,120

australia

866

00:29:12,310 --> 00:29:09,840

about how they or who or who their

867

00:29:13,830 --> 00:29:12,320

handles ufo and uae sightings

868

00:29:15,430 --> 00:29:13,840

so when we've got the term ufo which

869

00:29:17,190 --> 00:29:15,440

apparently they don't use

870

00:29:20,070 --> 00:29:17,200

right but they do use it now we should

871

00:29:22,070 --> 00:29:20,080

find and two what's this uae

872

00:29:23,190 --> 00:29:22,080

and i never got to the bottom of the

873

00:29:25,350 --> 00:29:23,200

second issue i

874

00:29:26,630 --> 00:29:25,360

i've asked and asked us what is a uae

875

00:29:27,990 --> 00:29:26,640

the only thing i can think of is

876

00:29:30,710 --> 00:29:28,000

something like unidentified

877

00:29:32,149 --> 00:29:30,720

aerial events or something like that i

878

00:29:34,230 --> 00:29:32,159

was trying to figure it out too

879

00:29:36,070 --> 00:29:34,240

wow yeah unidentified airborne event

880

00:29:37,909 --> 00:29:36,080

that the ease probably event the u

881

00:29:39,669 --> 00:29:37,919

is probably typically unidentified or

882

00:29:42,470 --> 00:29:39,679

unknown or unusual maybe

883

00:29:44,070 --> 00:29:42,480

but never got to i asked and i asked and

884

00:29:45,350 --> 00:29:44,080

i asked and i can't even remember how

885

00:29:46,549 --> 00:29:45,360

that went down i might have to actually

886

00:29:49,190 --> 00:29:46,559

revisit that but

887

00:29:50,230 --> 00:29:49,200

but what was we and then to top it off

888

00:29:52,149 --> 00:29:50,240

so this is basically

889

00:29:53,430 --> 00:29:52,159

defense saying to defense like defense

890

00:29:54,470 --> 00:29:53,440

department saying to someone else in

891

00:29:56,149 --> 00:29:54,480

defence department

892

00:29:57,510 --> 00:29:56,159

you know contacted air services

893

00:30:00,149 --> 00:29:57,520

australia

894

00:30:01,430 --> 00:30:00,159

to work out who handles ufo and uae

895

00:30:03,830 --> 00:30:01,440

sightings

896

00:30:05,590 --> 00:30:03,840

and then it says then it says i found

897

00:30:07,430 --> 00:30:05,600

out that it was the national operations

898

00:30:08,549 --> 00:30:07,440

center for air services australia so

899

00:30:10,230 --> 00:30:08,559

then i find out

900

00:30:11,990 --> 00:30:10,240

that it's the national operations center

901

00:30:14,630 --> 00:30:12,000

it's actually in brisbane i think

902

00:30:16,070 --> 00:30:14,640

um that handles ufo sightings yet

903

00:30:17,830 --> 00:30:16,080

another thing we didn't know i mean air

904

00:30:19,110 --> 00:30:17,840

services australia had told keith

905

00:30:22,149 --> 00:30:19,120

basterfield in

906

00:30:23,669 --> 00:30:22,159

about 1999 or 2000 that they do not

907

00:30:25,350 --> 00:30:23,679

handle it ufo sightings

908

00:30:27,750 --> 00:30:25,360

which you find absolutely ridiculous

909

00:30:29,590 --> 00:30:27,760

because ufo of course the

910

00:30:31,350 --> 00:30:29,600

key part of it i mean it could be drones

911

00:30:32,870 --> 00:30:31,360

or stray research balloons or whatever

912

00:30:35,110 --> 00:30:32,880

of course someone [h__h] handles it

913

00:30:36,070 --> 00:30:35,120

right like the they have to they haven't

914

00:30:39,669 --> 00:30:36,080

got a choice no

915

00:30:41,990 --> 00:30:39,679

modern civil safety authority

916

00:30:43,350 --> 00:30:42,000

right uh it cannot handle some level of

917

00:30:45,350 --> 00:30:43,360

ufo sightings

918

00:30:47,190 --> 00:30:45,360

so so we kate knew that that was

919

00:30:47,830 --> 00:30:47,200

basically wrong but to actually see it

920

00:30:49,350 --> 00:30:47,840

there

921

00:30:51,269 --> 00:30:49,360

in writing that the national operations

922

00:30:53,350 --> 00:30:51,279

center handles ufo

923

00:30:54,870 --> 00:30:53,360

uh sightings by pilots was was

924

00:30:58,070 --> 00:30:54,880

interesting you know

925

00:30:58,630 --> 00:30:58,080

how about that wow and uh i wonder if

926
00:31:01,990 --> 00:30:58,640
they use

927
00:31:03,110 --> 00:31:02,000
you know uap is what you hear in this

928
00:31:06,549 --> 00:31:03,120
country a lot

929
00:31:10,149 --> 00:31:06,559
you know and britain yeah yeah but uh

930
00:31:12,310 --> 00:31:10,159
yeah the ufo uh term

931
00:31:13,350 --> 00:31:12,320
uh cost me um i'm trying to think who

932
00:31:19,190 --> 00:31:13,360
was uh

933
00:31:23,350 --> 00:31:21,509
he said you know i'd love to be on your

934
00:31:24,070 --> 00:31:23,360
show but he says i can't be on any show

935
00:31:27,350 --> 00:31:24,080
that has

936
00:31:29,669 --> 00:31:27,360
the word ufo in the title he was serious

937
00:31:30,950 --> 00:31:29,679
yeah he's pretty he's pretty cynical now

938
00:31:33,110 --> 00:31:30,960

like i know him

939

00:31:34,230 --> 00:31:33,120

yeah yeah he's pretty over it like yeah

940

00:31:34,950 --> 00:31:34,240

i could see him saying that i could

941

00:31:37,750 --> 00:31:34,960

picture that

942

00:31:39,430 --> 00:31:37,760

yeah yeah he retired now but uh but

943

00:31:41,430 --> 00:31:39,440

still a really nice gentleman i really

944

00:31:42,549 --> 00:31:41,440

enjoyed uh some talks with him he's a

945

00:31:44,870 --> 00:31:42,559

great guy

946

00:31:46,710 --> 00:31:44,880

but yeah he's donated his archive

947

00:31:48,549 --> 00:31:46,720

actually they're sorting it out um he

948

00:31:49,029 --> 00:31:48,559

will have i mean he's he ran he ran his

949

00:31:51,269 --> 00:31:49,039

narco

950

00:31:52,149 --> 00:31:51,279

that narcap organization and he

951
00:31:54,470 --> 00:31:52,159
generated look

952
00:31:56,149 --> 00:31:54,480
look really like that a good thousand or

953
00:31:58,789 --> 00:31:56,159
two thousand major

954
00:32:00,870 --> 00:31:58,799
or at least interesting airliner and

955
00:32:02,149 --> 00:32:00,880
pilot cases oh yeah a lot of civilian

956
00:32:03,830 --> 00:32:02,159
ones which is good and a lot of

957
00:32:07,509 --> 00:32:03,840
international stuff you know

958
00:32:09,909 --> 00:32:07,519
um yeah yeah you know i mean that

959
00:32:11,269 --> 00:32:09,919
there's so many you know you mentioned

960
00:32:12,870 --> 00:32:11,279
in australia

961
00:32:15,669 --> 00:32:12,880
you know pilots were having encounters

962
00:32:18,789 --> 00:32:15,679
you uncovered that but there's probably

963
00:32:20,389 --> 00:32:18,799

many many many that we don't even know

964

00:32:21,110 --> 00:32:20,399

about we'll never know about i had a

965

00:32:22,710 --> 00:32:21,120

friend

966

00:32:24,230 --> 00:32:22,720

that i hadn't seen in many years he was

967

00:32:26,070 --> 00:32:24,240

on the show just for

968

00:32:28,389 --> 00:32:26,080

just to say hello and talk about a ufo

969

00:32:30,710 --> 00:32:28,399

sighting he had and then he talked about

970

00:32:31,509 --> 00:32:30,720

his father's his father was a pilot and

971

00:32:34,630 --> 00:32:31,519

his father's

972

00:32:36,230 --> 00:32:34,640

friend that had a ufo sighting

973

00:32:37,669 --> 00:32:36,240

you know uh of course it was never

974

00:32:39,430 --> 00:32:37,679

reported it was yeah

975

00:32:42,149 --> 00:32:39,440

they didn't want to report it yeah you

976

00:32:45,269 --> 00:32:42,159

know there's actually a totally

977

00:32:47,669 --> 00:32:45,279

um there's a totally untapped resource

978

00:32:50,549 --> 00:32:47,679

if people want pilot sightings

979

00:32:51,590 --> 00:32:50,559

there's one untapped resource which is

980

00:32:53,990 --> 00:32:51,600

going to be

981

00:32:55,029 --> 00:32:54,000

fantastic the problem is there's no way

982

00:32:56,870 --> 00:32:55,039

to compel

983

00:32:58,230 --> 00:32:56,880

the reports or the investigations to

984

00:32:59,830 --> 00:32:58,240

ever come out and

985

00:33:01,990 --> 00:32:59,840

it's so simple when you think about it

986

00:33:04,549 --> 00:33:02,000

right but people don't think about this

987

00:33:05,430 --> 00:33:04,559

thank you it's it's just the airlines

988

00:33:06,870 --> 00:33:05,440

themselves

989

00:33:08,070 --> 00:33:06,880

right like if you went to the biggest

990

00:33:09,990 --> 00:33:08,080

airlines in the world you know

991

00:33:12,070 --> 00:33:10,000

continental qantas british airways

992

00:33:13,350 --> 00:33:12,080

right i mean yeah i mean most pilots

993

00:33:15,029 --> 00:33:13,360

aren't going to report even to their

994

00:33:16,230 --> 00:33:15,039

airline but some do there's always a

995

00:33:17,029 --> 00:33:16,240

percentage you know it might be five

996

00:33:19,110 --> 00:33:17,039

percent do

997

00:33:20,310 --> 00:33:19,120

you know they might they might say well

998

00:33:21,509 --> 00:33:20,320

i don't want to report it officially

999

00:33:23,590 --> 00:33:21,519

through this channel or this channel or

1000

00:33:26,630 --> 00:33:23,600

this channel but i do want to tell

1001
00:33:28,230 --> 00:33:26,640
the operations manager at my airline or

1002
00:33:28,789 --> 00:33:28,240
they might get compelled to it might be

1003
00:33:34,070 --> 00:33:28,799
the

1004
00:33:35,029 --> 00:33:34,080
british airways or continental or ua or

1005
00:33:37,110 --> 00:33:35,039
whatever and say look

1006
00:33:38,310 --> 00:33:37,120
we're on a plane you know like we're on

1007
00:33:40,470 --> 00:33:38,320
one of your flights like

1008
00:33:42,630 --> 00:33:40,480
you know two days ago and we saw this

1009
00:33:44,310 --> 00:33:42,640
ufo or whatever out the window and the

1010
00:33:45,509 --> 00:33:44,320
pilot didn't even bother deviating

1011
00:33:47,509 --> 00:33:45,519
whatever and eventually

1012
00:33:48,870 --> 00:33:47,519
i'm thinking that the airline would

1013
00:33:50,230 --> 00:33:48,880

would get in contact with a pilot or

1014

00:33:51,909 --> 00:33:50,240

that flight and say look did you see

1015

00:33:53,110 --> 00:33:51,919

anything up there because we're getting

1016

00:33:56,389 --> 00:33:53,120

stories from

1017

00:33:56,710 --> 00:33:56,399

the crew and what and i'm i'm thinking

1018

00:34:02,230 --> 00:33:56,720

that

1019

00:34:04,630 --> 00:34:02,240

who was it i think it was

1020

00:34:06,070 --> 00:34:04,640

one of the airlines that's what's what

1021

00:34:09,909 --> 00:34:06,080

would be an airline that's

1022

00:34:11,990 --> 00:34:09,919

for florida um southwest or something

1023

00:34:12,950 --> 00:34:12,000

uh well if southwest does go that so

1024

00:34:15,750 --> 00:34:12,960

does jetblue

1025

00:34:16,230 --> 00:34:15,760

um there's um you know all the major

1026
00:34:19,430 --> 00:34:16,240
islands

1027
00:34:21,510 --> 00:34:19,440
uh airlines go to florida i'm thinking i

1028
00:34:23,990 --> 00:34:21,520
i remember vaguely reading

1029
00:34:24,869 --> 00:34:24,000
that in the 90s that i think it was

1030
00:34:27,270 --> 00:34:24,879
southwest

1031
00:34:28,149 --> 00:34:27,280
had had literally a repository of ufo

1032
00:34:30,629 --> 00:34:28,159
sightings

1033
00:34:31,349 --> 00:34:30,639
that that were that would buy pilots

1034
00:34:33,109 --> 00:34:31,359
like like

1035
00:34:34,869 --> 00:34:33,119
by their pilots and it makes sense you

1036
00:34:36,950 --> 00:34:34,879
know if one percent of one percent of

1037
00:34:37,909 --> 00:34:36,960
pilots see ufo for southwest airlines

1038
00:34:40,149 --> 00:34:37,919

when they're flying

1039

00:34:41,669 --> 00:34:40,159

in united states right that's still

1040

00:34:44,149 --> 00:34:41,679

going to amount to 200 or

1041

00:34:45,270 --> 00:34:44,159

500 sightings that they that are tallied

1042

00:34:46,869 --> 00:34:45,280

up now a lot of them won't be

1043

00:34:47,589 --> 00:34:46,879

investigated there's no point there's no

1044

00:34:50,710 --> 00:34:47,599

money in it

1045

00:34:52,310 --> 00:34:50,720

right there's no yeah um yeah so

1046

00:34:54,149 --> 00:34:52,320

but that that is i mean you think about

1047

00:34:56,149 --> 00:34:54,159

the number of airlines in the world

1048

00:34:58,150 --> 00:34:56,159

that have been around forever i mean you

1049

00:34:58,790 --> 00:34:58,160

couldn't even count them like there must

1050

00:35:01,589 --> 00:34:58,800

be

1051
00:35:03,190 --> 00:35:01,599
thousands and thousands of reports but

1052
00:35:04,069 --> 00:35:03,200
you can't compel them to release them

1053
00:35:05,910 --> 00:35:04,079
because

1054
00:35:07,349 --> 00:35:05,920
they're not they're private companies so

1055
00:35:09,030 --> 00:35:07,359
they're not subject to the foi

1056
00:35:10,470 --> 00:35:09,040
act or anything else i mean they can

1057
00:35:12,630 --> 00:35:10,480
just tell you to go away like

1058
00:35:13,990 --> 00:35:12,640
they'll just lie and just say we don't

1059
00:35:17,190 --> 00:35:14,000
have any we destroyed them

1060
00:35:18,550 --> 00:35:17,200
it's no interest to us and you know it's

1061
00:35:19,589 --> 00:35:18,560
embarrassing and whatever else they're

1062
00:35:21,349 --> 00:35:19,599
not going to release and they don't have

1063
00:35:23,589 --> 00:35:21,359

to

1064

00:35:25,190 --> 00:35:23,599

unless a judge pushed them maybe then

1065

00:35:27,270 --> 00:35:25,200

but yeah yeah

1066

00:35:29,190 --> 00:35:27,280

well you know i think of you know right

1067

00:35:32,950 --> 00:35:29,200

off the bat it comes to mind

1068

00:35:37,510 --> 00:35:32,960

for me as a united airlines on the

1069

00:35:40,150 --> 00:35:37,520

o'hare incident gates c17 2006

1070

00:35:41,030 --> 00:35:40,160

you know because that was just uh

1071

00:35:42,710 --> 00:35:41,040

completely

1072

00:35:45,109 --> 00:35:42,720

swept under the rug they couldn't talk

1073

00:35:48,069 --> 00:35:45,119

about no one could talk about it

1074

00:35:49,190 --> 00:35:48,079

yeah i know i know it was bad i think

1075

00:35:51,510 --> 00:35:49,200

that was that was

1076

00:35:53,270 --> 00:35:51,520

that was a very that was a panic case i

1077

00:35:54,550 --> 00:35:53,280

mean that that the lid went down on that

1078

00:35:56,870 --> 00:35:54,560

pretty badly

1079

00:35:57,990 --> 00:35:56,880

like i've never really studied it i've

1080

00:35:59,910 --> 00:35:58,000

read bits and pieces

1081

00:36:01,589 --> 00:35:59,920

i mean i've seen you know i've read it a

1082

00:36:02,870 --> 00:36:01,599

bit but there's definitely more avenues

1083

00:36:04,470 --> 00:36:02,880

for research that'll be something that

1084

00:36:06,230 --> 00:36:04,480

in 10 years time or whatever

1085

00:36:08,230 --> 00:36:06,240

will all explode open and a whole bunch

1086

00:36:11,270 --> 00:36:08,240

of pilots and ground crew who

1087

00:36:11,750 --> 00:36:11,280

who are well well [h__h] yeah retired

1088

00:36:14,630 --> 00:36:11,760

get

1089

00:36:17,270 --> 00:36:14,640

actually what happened you might find

1090

00:36:18,630 --> 00:36:17,280

it's not as explosive as what you know

1091

00:36:20,550 --> 00:36:18,640

i take a lot of things with a grain of

1092

00:36:21,829 --> 00:36:20,560

salt you know they say that the object

1093

00:36:23,109 --> 00:36:21,839

was this big and then you find out it

1094

00:36:23,910 --> 00:36:23,119

was actually that big or you find out

1095

00:36:25,270 --> 00:36:23,920

there was a hole

1096

00:36:27,190 --> 00:36:25,280

through the cloud that you could see for

1097

00:36:27,829 --> 00:36:27,200

10 minutes and it really was like 30

1098

00:36:29,430 --> 00:36:27,839

seconds

1099

00:36:30,630 --> 00:36:29,440

so but something happened there's no

1100

00:36:32,069 --> 00:36:30,640

question there was a cut there was

1101

00:36:35,510 --> 00:36:32,079

there's a case there to be solved

1102

00:36:36,310 --> 00:36:35,520

or not you know yeah yeah i mean you

1103

00:36:39,589 --> 00:36:36,320

know the the

1104

00:36:41,670 --> 00:36:39,599

the thing that was so uh you know

1105

00:36:42,870 --> 00:36:41,680

amazing about it it's a such a i've been

1106

00:36:45,670 --> 00:36:42,880

there many times

1107

00:36:47,430 --> 00:36:45,680

i go to chicago quite a bit usually um i

1108

00:36:50,630 --> 00:36:47,440

haven't in the last year or two but

1109

00:36:51,190 --> 00:36:50,640

still uh that airport is super super

1110

00:36:53,510 --> 00:36:51,200

busy

1111

00:36:54,790 --> 00:36:53,520

so much traffic there and you know

1112

00:36:57,270 --> 00:36:54,800

whatever it was

1113

00:36:58,390 --> 00:36:57,280

was a threat of uh you know threatening

1114

00:37:01,270 --> 00:36:58,400

yeah

1115

00:37:01,829 --> 00:37:01,280

air safety if nothing else fancy fancy

1116

00:37:04,310 --> 00:37:01,839

having a

1117

00:37:05,270 --> 00:37:04,320

fancy of all the places that you could i

1118

00:37:07,829 --> 00:37:05,280

mean

1119

00:37:08,950 --> 00:37:07,839

like it incredibly dangerous and so

1120

00:37:11,430 --> 00:37:08,960

distracting

1121

00:37:12,790 --> 00:37:11,440

even if even if we find out it actually

1122

00:37:14,950 --> 00:37:12,800

like whatever it was

1123

00:37:16,230 --> 00:37:14,960

like it it yeah you couldn't pick

1124

00:37:18,950 --> 00:37:16,240

anything worth

1125

00:37:20,310 --> 00:37:18,960

it's bigger than jfk like it's so i've

1126

00:37:21,750 --> 00:37:20,320

never been there but i've heard you know

1127

00:37:23,270 --> 00:37:21,760

i know people live in chicago and they

1128

00:37:24,150 --> 00:37:23,280

said this you can't believe how big this

1129

00:37:28,069 --> 00:37:24,160

airport is

1130

00:37:33,190 --> 00:37:30,950

so um now you've gotten into all kinds

1131

00:37:35,750 --> 00:37:33,200

of not just australian documents

1132

00:37:36,710 --> 00:37:35,760

you've reached out all over the place

1133

00:37:40,630 --> 00:37:36,720

right

1134

00:37:43,270 --> 00:37:40,640

yeah yeah i mean like i saw

1135

00:37:43,829 --> 00:37:43,280

um i saw all these avenues like i wanted

1136

00:37:46,790 --> 00:37:43,839

to do

1137

00:37:48,390 --> 00:37:46,800

work that nobody else had ever done or

1138

00:37:50,390 --> 00:37:48,400

that people had all researchers had

1139

00:37:51,430 --> 00:37:50,400

attempted to do but never gotten very

1140

00:37:54,310 --> 00:37:51,440

far or given up

1141

00:37:55,670 --> 00:37:54,320

or whatever and you think logically i

1142

00:37:59,030 --> 00:37:55,680

thought logically

1143

00:38:01,510 --> 00:37:59,040

about this many years ago and um

1144

00:38:03,589 --> 00:38:01,520

like if you think about it logically

1145

00:38:05,750 --> 00:38:03,599

right

1146

00:38:06,630 --> 00:38:05,760

the the organizations will take the

1147

00:38:08,069 --> 00:38:06,640

united states

1148

00:38:09,750 --> 00:38:08,079

as a good example and it's probably the

1149

00:38:12,790 --> 00:38:09,760

best example

1150

00:38:14,550 --> 00:38:12,800

the organizations the very organized

1151

00:38:16,390 --> 00:38:14,560

this is what frustrated me the very

1152

00:38:18,550 --> 00:38:16,400

organizations

1153

00:38:21,190 --> 00:38:18,560

that were that are responsible or were

1154

00:38:24,390 --> 00:38:21,200

in the past responsible for

1155

00:38:27,190 --> 00:38:24,400

um two things atmospheric detection

1156

00:38:28,470 --> 00:38:27,200

so air sovereignty air safety management

1157

00:38:30,310 --> 00:38:28,480

the detection

1158

00:38:32,870 --> 00:38:30,320

and tracking of objects in the

1159

00:38:34,550 --> 00:38:32,880

atmosphere right so that's

1160

00:38:36,069 --> 00:38:34,560

federal aviation administration's

1161

00:38:37,910 --> 00:38:36,079

on-route system

1162

00:38:40,390 --> 00:38:37,920

the radar approach control radars with

1163

00:38:44,069 --> 00:38:40,400

the federal aviation administration

1164

00:38:46,230 --> 00:38:44,079

um then the long-range

1165

00:38:47,910 --> 00:38:46,240

the long-range air defense radars run by

1166

00:38:49,109 --> 00:38:47,920

the united states air force at squadron

1167

00:38:51,349 --> 00:38:49,119

and wing level

1168

00:38:52,790 --> 00:38:51,359

often for norad north american aerospace

1169

00:38:54,870 --> 00:38:52,800

defense command

1170

00:38:56,790 --> 00:38:54,880

um then get into space detection and

1171

00:38:59,030 --> 00:38:56,800

space surveillance so that's run by

1172

00:39:00,630 --> 00:38:59,040

air force space command naval space

1173

00:39:01,589 --> 00:39:00,640

command or what used to be naval space

1174

00:39:04,390 --> 00:39:01,599

command

1175

00:39:06,470 --> 00:39:04,400

um particularly air forces air force

1176

00:39:08,710 --> 00:39:06,480

base command's 21st space wing

1177

00:39:11,030 --> 00:39:08,720

um the missile warning center as part of

1178

00:39:13,349 --> 00:39:11,040

noradam u.s strategic command formerly

1179

00:39:15,430 --> 00:39:13,359

u.s space command back in the 80s

1180

00:39:16,950 --> 00:39:15,440

and it just it just hit me that no

1181

00:39:20,069 --> 00:39:16,960

everyone is banging on

1182

00:39:20,790 --> 00:39:20,079

constantly about the fbi and the cia and

1183

00:39:24,630 --> 00:39:20,800

nasa

1184

00:39:26,230 --> 00:39:24,640

nobody's other than a whole bunch of

1185

00:39:27,990 --> 00:39:26,240

fact sheets and a whole bunch of like

1186

00:39:30,470 --> 00:39:28,000

internal papers and

1187

00:39:31,829 --> 00:39:30,480

buck passing no one i don't believe i

1188

00:39:33,589 --> 00:39:31,839

think nasa's a big

1189

00:39:35,430 --> 00:39:33,599

like it's a big red herring like there's

1190

00:39:36,550 --> 00:39:35,440

nothing there there is no secret

1191

00:39:39,430 --> 00:39:36,560

cover-up with nasa

1192

00:39:41,750 --> 00:39:39,440

i think people have been i mean the nasa

1193

00:39:44,630 --> 00:39:41,760

and the cia and the fbi

1194

00:39:47,030 --> 00:39:44,640

seep into people's ufo government

1195

00:39:49,349 --> 00:39:47,040

cover-up conscience like a poison die

1196

00:39:51,270 --> 00:39:49,359

right it's a total waste of time like

1197

00:39:54,470 --> 00:39:51,280

the very organizations

1198

00:39:57,030 --> 00:39:54,480

that actually do detect and do

1199

00:39:59,270 --> 00:39:57,040

track space objects or atmospheric

1200

00:40:01,270 --> 00:39:59,280

objects which are highly unusual

1201
00:40:02,790 --> 00:40:01,280
keep the data analyze the data we know

1202
00:40:03,589 --> 00:40:02,800
that for a fact or i do i've found the

1203
00:40:05,349 --> 00:40:03,599
documents

1204
00:40:07,349 --> 00:40:05,359
right they're the very organizations

1205
00:40:08,390 --> 00:40:07,359
that no one it's all put in the too hard

1206
00:40:10,550 --> 00:40:08,400
basket you know

1207
00:40:12,390 --> 00:40:10,560
like it gets it it does get very

1208
00:40:15,589 --> 00:40:12,400
complicated you know like

1209
00:40:17,270 --> 00:40:15,599
um air force space commands you know

1210
00:40:19,190 --> 00:40:17,280
you know where where in air force based

1211
00:40:20,470 --> 00:40:19,200
command where do they track objects and

1212
00:40:22,790 --> 00:40:20,480
how you know and you've got to start

1213
00:40:25,750 --> 00:40:22,800

studying long range radar systems and

1214

00:40:27,589 --> 00:40:25,760

geo like like ground electro optical

1215

00:40:29,349 --> 00:40:27,599

surveillance system telescopes and

1216

00:40:32,550 --> 00:40:29,359

you've got to really study about how

1217

00:40:35,910 --> 00:40:32,560

systems work like like long range radar

1218

00:40:39,190 --> 00:40:35,920

um um yeah military telescopes enroute

1219

00:40:41,109 --> 00:40:39,200

tool kits for the faa

1220

00:40:43,190 --> 00:40:41,119

ballistic missile early warning radar

1221

00:40:44,069 --> 00:40:43,200

systems that are networked into fusion

1222

00:40:46,309 --> 00:40:44,079

centers

1223

00:40:48,790 --> 00:40:46,319

at vanderberg air force base or peterson

1224

00:40:50,950 --> 00:40:48,800

air force base or cheyenne mountain or

1225

00:40:51,990 --> 00:40:50,960

or the national military command center

1226

00:40:53,270 --> 00:40:52,000

within the organization

1227

00:40:55,190 --> 00:40:53,280

of the joint chiefs of staff whatever

1228

00:40:55,910 --> 00:40:55,200

you've got to spend years studying this

1229

00:40:58,230 --> 00:40:55,920

stuff

1230

00:40:59,750 --> 00:40:58,240

and nobody very very few people do it

1231

00:41:02,630 --> 00:40:59,760

you know like most of

1232

00:41:03,750 --> 00:41:02,640

yeah and so i slowly learn i slowly

1233

00:41:06,230 --> 00:41:03,760

learned the history

1234

00:41:06,870 --> 00:41:06,240

of atmospheric detection so objects in

1235

00:41:08,550 --> 00:41:06,880

the air

1236

00:41:10,630 --> 00:41:08,560

over continental united states and

1237

00:41:11,190 --> 00:41:10,640

beyond and i learned the history of

1238

00:41:13,190 --> 00:41:11,200

space

1239

00:41:14,870 --> 00:41:13,200

violence that the united states

1240

00:41:16,069 --> 00:41:14,880

government has embarked on from usually

1241

00:41:18,069 --> 00:41:16,079

through the u.s air force

1242

00:41:19,829 --> 00:41:18,079

and i've had to learn it off the heart

1243

00:41:20,230 --> 00:41:19,839

and it's really hard and that's when

1244

00:41:23,829 --> 00:41:20,240

i've been

1245

00:41:26,710 --> 00:41:23,839

able to start finding clues yeah

1246

00:41:27,670 --> 00:41:26,720

that's what i've done that's amazing and

1247

00:41:28,950 --> 00:41:27,680

uh you know

1248

00:41:30,790 --> 00:41:28,960

and there's a question i'm going to pull

1249

00:41:33,990 --> 00:41:30,800

up here in chat in just a second but

1250

00:41:36,870 --> 00:41:34,000

um one thing i've i've

1251

00:41:38,150 --> 00:41:36,880

wondered is i know they track space junk

1252

00:41:40,550 --> 00:41:38,160

and there's like

1253

00:41:43,349 --> 00:41:40,560

so much space junk up there but if they

1254

00:41:45,349 --> 00:41:43,359

track space if they have that capability

1255

00:41:46,950 --> 00:41:45,359

um you know it just makes me wonder are

1256

00:41:49,990 --> 00:41:46,960

they actually seeing

1257

00:41:51,430 --> 00:41:50,000

i mean is a ufo coming in from out there

1258

00:41:53,510 --> 00:41:51,440

and they're seeing

1259

00:41:54,470 --> 00:41:53,520

that too or rising up or something yeah

1260

00:41:57,109 --> 00:41:54,480

they have to be

1261

00:41:58,710 --> 00:41:57,119

i know look i know a lot about this and

1262

00:42:00,550 --> 00:41:58,720

the actual organization

1263

00:42:03,109 --> 00:42:00,560

so there's multiple organizations that

1264

00:42:07,910 --> 00:42:03,119

track stuff in space right

1265

00:42:13,750 --> 00:42:11,030

oh hold on it's there's the um

1266

00:42:14,069 --> 00:42:13,760

uh blah blah blah just give me a

1267

00:42:17,510 --> 00:42:14,079

sec

1268

00:42:20,870 --> 00:42:17,520

um yeah so the

1269

00:42:23,829 --> 00:42:20,880

the premier organization is the 21st

1270

00:42:25,670 --> 00:42:23,839

the 21st space wing which is subordinate

1271

00:42:27,510 --> 00:42:25,680

to air force space command which is

1272

00:42:29,910 --> 00:42:27,520

subordinate to

1273

00:42:30,790 --> 00:42:29,920

um the chief of air right like it's it's

1274

00:42:34,150 --> 00:42:30,800

a magic command

1275

00:42:37,510 --> 00:42:34,160

right anyway 21st space wing they

1276

00:42:39,349 --> 00:42:37,520

run the biggest space

1277

00:42:40,870 --> 00:42:39,359

detection and surveillance systems in

1278

00:42:45,589 --> 00:42:40,880

the world so

1279

00:42:47,670 --> 00:42:45,599

there is the um ground electro optical

1280

00:42:49,349 --> 00:42:47,680

uh surveillance system which is made up

1281

00:42:50,069 --> 00:42:49,359

of four telescopes that look out into

1282

00:42:52,550 --> 00:42:50,079

space

1283

00:42:53,510 --> 00:42:52,560

and watch everything that's moving what

1284

00:42:55,910 --> 00:42:53,520

they yeah

1285

00:42:57,670 --> 00:42:55,920

then there is the ballistic missile

1286

00:43:00,630 --> 00:42:57,680

early warning system

1287

00:43:02,150 --> 00:43:00,640

which looks for uh missiles submarine

1288

00:43:04,870 --> 00:43:02,160

launch ballistic missiles and land

1289

00:43:06,069 --> 00:43:04,880

launch ballistic missiles but also has a

1290

00:43:08,470 --> 00:43:06,079

secondary role of

1291

00:43:10,309 --> 00:43:08,480

simply looking at orbiting space objects

1292

00:43:12,710 --> 00:43:10,319

there is the paved pause system

1293

00:43:14,870 --> 00:43:12,720

that looks at either east and west of

1294

00:43:17,270 --> 00:43:14,880

the united states there is the eglin

1295

00:43:19,190 --> 00:43:17,280

radar system that looks over cuba it's

1296

00:43:21,270 --> 00:43:19,200

dedicated again to

1297

00:43:23,109 --> 00:43:21,280

high atmospheric detection so missile

1298

00:43:25,910 --> 00:43:23,119

warheads high-flying aircraft

1299

00:43:27,349 --> 00:43:25,920

meteorites and then also has a simple

1300

00:43:28,950 --> 00:43:27,359

space violence role of watching

1301

00:43:32,069 --> 00:43:28,960

everything that goes around

1302

00:43:35,510 --> 00:43:32,079

i've studied this so heavily and what

1303

00:43:37,109 --> 00:43:35,520

amazes me absolutely baffles me

1304

00:43:38,870 --> 00:43:37,119

something i've learned and it's and it's

1305

00:43:41,750 --> 00:43:38,880

required the freedom of information

1306

00:43:42,470 --> 00:43:41,760

acting of many documents what's shocked

1307

00:43:44,470 --> 00:43:42,480

me the most

1308

00:43:46,150 --> 00:43:44,480

is how unbelievably advanced the

1309

00:43:49,750 --> 00:43:46,160

technology was

1310

00:43:52,150 --> 00:43:49,760

way back like i'm talking the 50s like

1311

00:43:52,790 --> 00:43:52,160

yeah i've got documents i can read one

1312

00:43:54,069 --> 00:43:52,800

in a minute

1313

00:43:55,990 --> 00:43:54,079

from i've got a document for instance

1314

00:43:58,470 --> 00:43:56,000

from 1980 which is what

1315

00:44:00,150 --> 00:43:58,480

nearly 40 years 40 years ago 40 years

1316

00:44:02,230 --> 00:44:00,160

and i could not believe

1317

00:44:03,910 --> 00:44:02,240

what the with where and it was the eglin

1318

00:44:06,550 --> 00:44:03,920

site it was the eglin

1319

00:44:08,309 --> 00:44:06,560

uh it was the england s-band uh yeah it

1320

00:44:10,390 --> 00:44:08,319

was the eckland radar that looks

1321

00:44:11,510 --> 00:44:10,400

south over brazil and you know the

1322

00:44:13,589 --> 00:44:11,520

caribbean

1323

00:44:15,589 --> 00:44:13,599

and they can they can actually are

1324

00:44:18,470 --> 00:44:15,599

rooted after but they had the capability

1325

00:44:20,630 --> 00:44:18,480

with 1970s technology it was the 20th

1326

00:44:21,670 --> 00:44:20,640

missile this 20th missile warning

1327

00:44:23,510 --> 00:44:21,680

squadron

1328

00:44:25,109 --> 00:44:23,520

with the england massive england radar

1329

00:44:26,069 --> 00:44:25,119

system it's like a huge pyramid on its

1330

00:44:28,470 --> 00:44:26,079

side sort of thing

1331

00:44:30,230 --> 00:44:28,480

they actually had the capability in 1980

1332

00:44:31,109 --> 00:44:30,240

and remember this will be 60s and 70s

1333

00:44:34,150 --> 00:44:31,119

technology

1334

00:44:35,430 --> 00:44:34,160

with maybe 19 late 970s software they

1335

00:44:38,390 --> 00:44:35,440

had the capability

1336

00:44:38,790 --> 00:44:38,400

of looking at an object two three four

1337

00:44:41,589 --> 00:44:38,800

five

1338

00:44:42,470 --> 00:44:41,599

six seven hundred miles away into space

1339

00:44:44,630 --> 00:44:42,480

right or at least

1340

00:44:46,710 --> 00:44:44,640

sort of on the horizon towards space

1341

00:44:47,670 --> 00:44:46,720

they could look at an object for a few

1342

00:44:50,390 --> 00:44:47,680

seconds

1343

00:44:51,990 --> 00:44:50,400

they could measure its width its height

1344

00:44:53,589 --> 00:44:52,000

its radar cross section like how

1345

00:44:54,550 --> 00:44:53,599

reflective it is and potentially how big

1346

00:44:56,870 --> 00:44:54,560

it is

1347

00:44:58,150 --> 00:44:56,880

they could measure its like exact

1348

00:45:00,150 --> 00:44:58,160

orbital velocity

1349

00:45:01,750 --> 00:45:00,160

like velocity they could calculate any

1350

00:45:04,309 --> 00:45:01,760

deviations it made

1351

00:45:05,510 --> 00:45:04,319

right this is in 19 this is 1970s

1352

00:45:07,589 --> 00:45:05,520

technology

1353

00:45:09,670 --> 00:45:07,599

like i've got another new i've got

1354

00:45:12,230 --> 00:45:09,680

another it's unreal i've got another

1355

00:45:12,870 --> 00:45:12,240

i've got another document from 1960

1356

00:45:14,790 --> 00:45:12,880

where

1357

00:45:17,030 --> 00:45:14,800

it actually says that with the ballistic

1358

00:45:17,430 --> 00:45:17,040

missile early warning system which is a

1359

00:45:19,589 --> 00:45:17,440

tri

1360

00:45:20,630 --> 00:45:19,599

site based in greenland alaska and

1361

00:45:24,790 --> 00:45:20,640

england

1362

00:45:25,510 --> 00:45:24,800

right even in 1960 but by 1960 they had

1363

00:45:28,950 --> 00:45:25,520

already done

1364

00:45:31,190 --> 00:45:28,960

analytical studies on what missiles look

1365

00:45:33,190 --> 00:45:31,200

like on a radar on their radar screen

1366

00:45:34,710 --> 00:45:33,200

what meteorites look like on their radar

1367

00:45:36,069 --> 00:45:34,720

screen what orbiting

1368

00:45:37,750 --> 00:45:36,079

satellites would look like on their

1369

00:45:39,349 --> 00:45:37,760

radar screen they've already done these

1370

00:45:41,430 --> 00:45:39,359

parameters and projections

1371

00:45:43,030 --> 00:45:41,440

of what different space objects should

1372

00:45:45,510 --> 00:45:43,040

look like to the user

1373

00:45:47,030 --> 00:45:45,520

and what different space objects should

1374

00:45:47,910 --> 00:45:47,040

say to the computer systems like the

1375

00:45:51,190 --> 00:45:47,920

radars

1376

00:45:53,109 --> 00:45:51,200

the radar's data will will have with

1377

00:45:55,030 --> 00:45:53,119

the computer system will analyze radar

1378

00:45:56,950 --> 00:45:55,040

data and immediately tell the you

1379

00:45:58,150 --> 00:45:56,960

the user who's the guy with you know the

1380

00:45:59,990 --> 00:45:58,160

headphones and the

1381

00:46:01,670 --> 00:46:00,000

alert buttons will say right we've got a

1382

00:46:02,309 --> 00:46:01,680

missile or it's just sputnik going

1383

00:46:04,309 --> 00:46:02,319

around again

1384

00:46:06,390 --> 00:46:04,319

or it's a flock of geese whatever it

1385

00:46:09,670 --> 00:46:06,400

actually had that in the 50s

1386

00:46:11,030 --> 00:46:09,680

no joke yeah so now what happens is to

1387

00:46:11,829 --> 00:46:11,040

answer your question what happens is

1388

00:46:18,550 --> 00:46:11,839

when

1389

00:46:21,750 --> 00:46:18,560

the the ultra long range radar fence

1390

00:46:23,829 --> 00:46:21,760

or say the um the ground electro

1391

00:46:25,109 --> 00:46:23,839

optical space file system when they pick

1392

00:46:27,829 --> 00:46:25,119

up an object

1393

00:46:29,430 --> 00:46:27,839

it's going past or flying in space or at

1394

00:46:31,190 --> 00:46:29,440

least very high atmosphere what happens

1395

00:46:34,950 --> 00:46:31,200

is this

1396

00:46:36,630 --> 00:46:34,960

they within a half a second it's matched

1397

00:46:38,710 --> 00:46:36,640

they try and match it to an existing

1398

00:46:40,150 --> 00:46:38,720

object it's already tagged so if it's a

1399

00:46:41,430 --> 00:46:40,160

piece of space debris that's just going

1400

00:46:42,550 --> 00:46:41,440

round and round and round and round and

1401
00:46:43,190 --> 00:46:42,560
round the earth and it's been going

1402
00:46:45,829 --> 00:46:43,200
around since

1403
00:46:47,349 --> 00:46:45,839
forever right it'll be immediately

1404
00:46:49,030 --> 00:46:47,359
matched like they actually expected to

1405
00:46:51,510 --> 00:46:49,040
come around like that you know the

1406
00:46:53,270 --> 00:46:51,520
the the telescope the military telescope

1407
00:46:55,430 --> 00:46:53,280
in hawaii is expecting

1408
00:46:56,630 --> 00:46:55,440
a piece of space debris to come past

1409
00:46:58,630 --> 00:46:56,640
three two one

1410
00:47:02,390 --> 00:46:58,640
yep there it is it's already been tagged

1411
00:47:05,270 --> 00:47:02,400
as object number 90627x2 or whatever

1412
00:47:06,870 --> 00:47:05,280
right and they see 40 000 of these a day

1413
00:47:07,510 --> 00:47:06,880

right it's just constant a constant

1414

00:47:10,550 --> 00:47:07,520

stream of

1415

00:47:11,990 --> 00:47:10,560

known objects right if an

1416

00:47:13,990 --> 00:47:12,000

object appears that's not in the

1417

00:47:15,030 --> 00:47:14,000

computer database it's immediately

1418

00:47:18,069 --> 00:47:15,040

tagged a uh

1419

00:47:20,069 --> 00:47:18,079

unknown object then the computers go

1420

00:47:21,109 --> 00:47:20,079

into overdrive and they alert the user

1421

00:47:22,710 --> 00:47:21,119

which would be

1422

00:47:24,549 --> 00:47:22,720

like like kind of like a space air

1423

00:47:28,309 --> 00:47:24,559

traffic controller or a technical

1424

00:47:30,230 --> 00:47:28,319

guy they alert him or her and they say

1425

00:47:32,150 --> 00:47:30,240

um they say right we've got a uo right

1426

00:47:34,309 --> 00:47:32,160

it's an unknown object right

1427

00:47:36,390 --> 00:47:34,319

and the computers really go into

1428

00:47:37,910 --> 00:47:36,400

overdrive and they work out what it's

1429

00:47:39,829 --> 00:47:37,920

how fast it's going it's orbital

1430

00:47:41,349 --> 00:47:39,839

parameters they use like kepler's law

1431

00:47:43,589 --> 00:47:41,359

and newtonian dynamics

1432

00:47:44,710 --> 00:47:43,599

and they work out you know they they

1433

00:47:46,390 --> 00:47:44,720

they do it they

1434

00:47:48,710 --> 00:47:46,400

they the computers work at how bright

1435

00:47:49,670 --> 00:47:48,720

the object is like how reflective it is

1436

00:47:53,430 --> 00:47:49,680

and so on

1437

00:47:55,829 --> 00:47:53,440

and if it looks if the computers decide

1438

00:47:57,109 --> 00:47:55,839

that it looks threatening so what they

1439

00:48:00,230 --> 00:47:57,119

call an nfl new

1440

00:48:02,790 --> 00:48:00,240

sorry nfl new foreign launch

1441

00:48:04,309 --> 00:48:02,800

like could be a new military satellite

1442

00:48:07,190 --> 00:48:04,319

could be a missile

1443

00:48:08,710 --> 00:48:07,200

it could be a stray missile it could be

1444

00:48:10,069 --> 00:48:08,720

unlikely but it could be an enormous

1445

00:48:12,470 --> 00:48:10,079

meteorite

1446

00:48:14,470 --> 00:48:12,480

if a uo is considered threatening like

1447

00:48:16,150 --> 00:48:14,480

coming towards a a friendly nation or

1448

00:48:17,030 --> 00:48:16,160

the united states or if it's coming

1449

00:48:19,430 --> 00:48:17,040

downwards

1450

00:48:21,349 --> 00:48:19,440

or if it's got the parameters of a cone

1451

00:48:24,069 --> 00:48:21,359

like missile warhead or whatever

1452

00:48:25,349 --> 00:48:24,079

it's called a critical uct or critical

1453

00:48:27,349 --> 00:48:25,359

uncorrelated target

1454

00:48:29,190 --> 00:48:27,359

that's how it's tagged in the system if

1455

00:48:30,150 --> 00:48:29,200

it's not particularly threatening maybe

1456

00:48:31,829 --> 00:48:30,160

very small

1457

00:48:33,589 --> 00:48:31,839

it's considered a significant

1458

00:48:35,829 --> 00:48:33,599

uncorrelated target

1459

00:48:37,670 --> 00:48:35,839

um there's also something called a false

1460

00:48:40,069 --> 00:48:37,680

uncorrelated target which is like a

1461

00:48:41,349 --> 00:48:40,079

computer glitch uh that so it's you know

1462

00:48:43,270 --> 00:48:41,359

like a like a

1463

00:48:44,870 --> 00:48:43,280

it could be a test or something the

1464

00:48:48,309 --> 00:48:44,880

point is is is that

1465

00:48:49,430 --> 00:48:48,319

every single critical uct or significant

1466

00:48:52,069 --> 00:48:49,440

uct

1467

00:48:54,309 --> 00:48:52,079

is part on to the next site so say they

1468

00:48:56,069 --> 00:48:54,319

see a critical uct going overhead

1469

00:48:57,510 --> 00:48:56,079

they think oh [h__h] this could be like a

1470

00:48:59,270 --> 00:48:57,520

north korean missile body

1471

00:49:00,630 --> 00:48:59,280

or it could be a piece of russian

1472

00:49:02,630 --> 00:49:00,640

satellite that's broken up into

1473

00:49:04,230 --> 00:49:02,640

different pieces and we're just seeing

1474

00:49:07,510 --> 00:49:04,240

the results of that breakup

1475

00:49:08,630 --> 00:49:07,520

right that site in say hawaii will alert

1476

00:49:11,109 --> 00:49:08,640

space track

1477

00:49:12,470 --> 00:49:11,119

in georgia and texas and then they'll

1478

00:49:16,230 --> 00:49:12,480

watch it go overhead

1479

00:49:17,990 --> 00:49:16,240

and then they'll alert the um the the

1480

00:49:19,430 --> 00:49:18,000

the system in spain and they'll watch it

1481

00:49:20,790 --> 00:49:19,440

go overhead and

1482

00:49:21,910 --> 00:49:20,800

quite quickly they'll work out where

1483

00:49:23,270 --> 00:49:21,920

this thing is going to land or if it's

1484

00:49:23,829 --> 00:49:23,280

going to nick off into space or if it's

1485

00:49:25,510 --> 00:49:23,839

breaking up

1486

00:49:27,270 --> 00:49:25,520

even more they actually do something

1487

00:49:30,309 --> 00:49:27,280

called a impact prediction

1488

00:49:31,510 --> 00:49:30,319

like an impact prediction service so to

1489

00:49:33,510 --> 00:49:31,520

work out exactly where it's going to

1490

00:49:36,710 --> 00:49:33,520

land if it is going to land

1491

00:49:38,309 --> 00:49:36,720

um so what we're looking for is

1492

00:49:41,030 --> 00:49:38,319

one of the holy grails i believe of

1493

00:49:44,549 --> 00:49:41,040

ufology is to get hold

1494

00:49:47,109 --> 00:49:44,559

of of masses of data

1495

00:49:47,990 --> 00:49:47,119

like databases and reports into and

1496

00:49:51,430 --> 00:49:48,000

studies into

1497

00:49:53,510 --> 00:49:51,440

ucts uncorrelated targets you know

1498

00:49:55,829 --> 00:49:53,520

how many are there like they're always

1499

00:49:57,030 --> 00:49:55,839

classified secrets so any uncorrelated

1500

00:49:59,430 --> 00:49:57,040

target data

1501
00:50:01,190 --> 00:49:59,440
so that's like orbital parameters and

1502
00:50:02,790 --> 00:50:01,200
which detection side pick them up first

1503
00:50:04,309 --> 00:50:02,800
and which detect

1504
00:50:06,309 --> 00:50:04,319
detection site pick them up last

1505
00:50:07,910 --> 00:50:06,319
whatever all that's classified minimum

1506
00:50:08,309 --> 00:50:07,920
secret we've got that in writing we've

1507
00:50:10,470 --> 00:50:08,319
got

1508
00:50:11,510 --> 00:50:10,480
manuals from u.s strategic command and

1509
00:50:12,630 --> 00:50:11,520
air force space command which

1510
00:50:14,549 --> 00:50:12,640
specifically say

1511
00:50:16,710 --> 00:50:14,559
all critical and significant

1512
00:50:17,109 --> 00:50:16,720
uncorrelated targets are classified at

1513
00:50:20,950 --> 00:50:17,119

least

1514

00:50:22,470 --> 00:50:20,960

secret minimum right so the holy grail

1515

00:50:25,270 --> 00:50:22,480

would be to

1516

00:50:26,230 --> 00:50:25,280

have reams of data on uncorrelated

1517

00:50:27,910 --> 00:50:26,240

targets but

1518

00:50:29,910 --> 00:50:27,920

even more telling would be any

1519

00:50:33,030 --> 00:50:29,920

investigations studies

1520

00:50:34,150 --> 00:50:33,040

statistical studies point papers bullet

1521

00:50:36,630 --> 00:50:34,160

point papers

1522

00:50:38,710 --> 00:50:36,640

assessments done by commanders you know

1523

00:50:40,630 --> 00:50:38,720

like what happens if there's been a uct

1524

00:50:41,910 --> 00:50:40,640

that's or an uncorrelated target in

1525

00:50:43,990 --> 00:50:41,920

space that's done

1526

00:50:45,430 --> 00:50:44,000

you know loop-de-loops over kentucky and

1527

00:50:46,470 --> 00:50:45,440

they've watched it you know go this way

1528

00:50:47,510 --> 00:50:46,480

and then back this way

1529

00:50:49,510 --> 00:50:47,520

right and there's been you know a

1530

00:50:51,829 --> 00:50:49,520

50-page report that would be gold

1531

00:50:53,349 --> 00:50:51,839

like that would be incredible yeah it's

1532

00:50:55,990 --> 00:50:53,359

going to be highly classified

1533

00:50:57,829 --> 00:50:56,000

yeah highly classified but for how long

1534

00:51:00,230 --> 00:50:57,839

a lot of these classified things are

1535

00:51:02,230 --> 00:51:00,240

classified for so many years yeah they

1536

00:51:03,910 --> 00:51:02,240

go through downgrading and i mean

1537

00:51:05,750 --> 00:51:03,920

unfortunately unfortunately your

1538

00:51:08,950 --> 00:51:05,760

government has it has become

1539

00:51:11,589 --> 00:51:08,960

very i mean i'm looking i i actually

1540

00:51:13,750 --> 00:51:11,599

recently or a couple of years ago foi

1541

00:51:16,630 --> 00:51:13,760

the documents

1542

00:51:17,829 --> 00:51:16,640

uh it's it's the instruction manual it's

1543

00:51:24,549 --> 00:51:17,839

the

1544

00:51:27,670 --> 00:51:24,559

governance and guideline instruction

1545

00:51:30,549 --> 00:51:27,680

for uh the ballistic missile early war

1546

00:51:32,230 --> 00:51:30,559

your america's u.s air force's ballistic

1547

00:51:35,190 --> 00:51:32,240

missile early warning system

1548

00:51:36,790 --> 00:51:35,200

site three filing dale's england so it's

1549

00:51:39,589 --> 00:51:36,800

this it's a huge manual

1550

00:51:41,190 --> 00:51:39,599

it's this it's huge booklet right and

1551

00:51:44,470 --> 00:51:41,200

it's got the longest name

1552

00:51:47,510 --> 00:51:44,480

it's like it's like um you know spa

1553

00:51:48,390 --> 00:51:47,520

i think it's uh i think it's um you are

1554

00:51:52,549 --> 00:51:48,400

something like you

1555

00:51:55,430 --> 00:51:52,559

are 55-5 g1

1556

00:51:55,990 --> 00:51:55,440

you know us air force slash royal air

1557

00:51:58,150 --> 00:51:56,000

force

1558

00:51:59,829 --> 00:51:58,160

ballistic missile early warning system

1559

00:52:02,150 --> 00:51:59,839

operating manual site 3

1560

00:52:02,950 --> 00:52:02,160

england classified s secret whatever

1561

00:52:05,750 --> 00:52:02,960

right it's huge

1562

00:52:07,430 --> 00:52:05,760

anyway this document this document

1563

00:52:11,109 --> 00:52:07,440

there's there's multiple versions of it

1564

00:52:14,309 --> 00:52:11,119

the first version was published in 1989

1565

00:52:16,390 --> 00:52:14,319

the next version was published in 1992

1566

00:52:17,910 --> 00:52:16,400

and then there's a 1997 version of the

1567

00:52:19,030 --> 00:52:17,920

document so we're still talking a very

1568

00:52:21,030 --> 00:52:19,040

long time ago

1569

00:52:22,309 --> 00:52:21,040

i've asked the british government for a

1570

00:52:24,069 --> 00:52:22,319

copy because

1571

00:52:25,510 --> 00:52:24,079

uh i'm sick of talking to the united

1572

00:52:26,150 --> 00:52:25,520

states air force at the moment but i've

1573

00:52:27,670 --> 00:52:26,160

asked

1574

00:52:29,349 --> 00:52:27,680

britain for a copy even though it's an

1575

00:52:30,390 --> 00:52:29,359

american document i've asked britain for

1576

00:52:32,950 --> 00:52:30,400

a copy because they

1577

00:52:34,150 --> 00:52:32,960

run the farlingdales site in england

1578

00:52:37,109 --> 00:52:34,160

i've asked them for a copy

1579

00:52:38,630 --> 00:52:37,119

absolutely not they they pulled and

1580

00:52:41,270 --> 00:52:38,640

maybe rightfully so they pulled

1581

00:52:41,750 --> 00:52:41,280

national security classification like

1582

00:52:46,150 --> 00:52:41,760

national

1583

00:52:48,230 --> 00:52:46,160

treaties exemption on and on and on and

1584

00:52:49,510 --> 00:52:48,240

um and and this this document

1585

00:52:51,349 --> 00:52:49,520

interestingly

1586

00:52:53,190 --> 00:52:51,359

this document the only reason we know

1587

00:52:54,069 --> 00:52:53,200

this document actually exists is because

1588

00:52:58,230 --> 00:52:54,079

of a

1589

00:52:59,910 --> 00:52:58,240

researcher back in the 90s

1590

00:53:02,230 --> 00:52:59,920

you might have some listeners might have

1591

00:53:04,230 --> 00:53:02,240

heard of a bit of an oddball

1592

00:53:06,790 --> 00:53:04,240

researcher by the name of dr armand

1593

00:53:08,150 --> 00:53:06,800

victorian

1594

00:53:10,950 --> 00:53:08,160

yeah a lot of people haven't heard of

1595

00:53:12,950 --> 00:53:10,960

him a lot have um almond victorian was

1596

00:53:15,030 --> 00:53:12,960

an iranian national that was living in

1597

00:53:15,589 --> 00:53:15,040

england in the 80s and 90s he's vanished

1598

00:53:17,750 --> 00:53:15,599

now

1599

00:53:18,630 --> 00:53:17,760

and he submitted a huge number of foi

1600

00:53:20,549 --> 00:53:18,640

requests and

1601
00:53:22,790 --> 00:53:20,559
and very pointed letters to various

1602
00:53:25,270 --> 00:53:22,800
governments and he did really well

1603
00:53:25,990 --> 00:53:25,280
and he was the one that actually first

1604
00:53:28,470 --> 00:53:26,000
uh

1605
00:53:29,829 --> 00:53:28,480
started studying uncorrelated targets or

1606
00:53:31,030 --> 00:53:29,839
being picked up by places like

1607
00:53:34,470 --> 00:53:31,040
farlingdales

1608
00:53:36,069 --> 00:53:34,480
and and and yeah and so but

1609
00:53:37,829 --> 00:53:36,079
this is the sort of stuff i work on and

1610
00:53:39,589 --> 00:53:37,839
nobody else's very few people

1611
00:53:40,870 --> 00:53:39,599
do it you know there's very few people

1612
00:53:43,349 --> 00:53:40,880
that study this

1613
00:53:45,109 --> 00:53:43,359

i bet i bet uh we're about ready to go

1614

00:53:46,950 --> 00:53:45,119

into break uh we can actually go into

1615

00:53:49,910 --> 00:53:46,960

now but before i go in

1616

00:53:50,790 --> 00:53:49,920

someone posted this question here um and

1617

00:53:52,630 --> 00:53:50,800

stephen

1618

00:53:53,990 --> 00:53:52,640

and can you comment on the knowles

1619

00:53:56,390 --> 00:53:54,000

family ufo encounter

1620

00:53:57,670 --> 00:53:56,400

yeah yeah yeah um and i don't know if

1621

00:53:59,349 --> 00:53:57,680

you know enough time we only have a

1622

00:54:02,710 --> 00:53:59,359

minute or so here um

1623

00:54:05,030 --> 00:54:02,720

yeah to be honest with you um i

1624

00:54:06,950 --> 00:54:05,040

i don't like it i i can tell you this

1625

00:54:08,950 --> 00:54:06,960

for a fact it was wildly exaggerated

1626
00:54:09,990 --> 00:54:08,960
right the media that the witnesses

1627
00:54:11,510 --> 00:54:10,000
exaggerated and the media

1628
00:54:13,829 --> 00:54:11,520
exaggerated it further that much i can

1629
00:54:14,950 --> 00:54:13,839
tell you but it is interesting guys no

1630
00:54:17,750 --> 00:54:14,960
question about it

1631
00:54:19,190 --> 00:54:17,760
and uh yeah well well on the other side

1632
00:54:20,710 --> 00:54:19,200
i'm going to have to ask you the details

1633
00:54:23,510 --> 00:54:20,720
on the other side of the break

1634
00:54:24,309 --> 00:54:23,520
but anyway uh so uh hang in there we'll

1635
00:54:41,160 --> 00:54:24,319
be right back

1636
00:54:41,170 --> 00:54:54,950
[Music]

1637
00:54:58,549 --> 00:54:57,109
all right welcome back my guest tonight

1638
00:55:00,230 --> 00:54:58,559

is paul dean

1639

00:55:02,470 --> 00:55:00,240

and uh right before we went into break

1640

00:55:05,589 --> 00:55:02,480

we were talking about the knowles family

1641

00:55:06,950 --> 00:55:05,599

uh ufo event you say it was wildly

1642

00:55:08,630 --> 00:55:06,960

exaggerated what

1643

00:55:09,990 --> 00:55:08,640

what is the story of that let's just

1644

00:55:13,190 --> 00:55:10,000

hear what um

1645

00:55:16,390 --> 00:55:13,200

purportedly happened well the claim well

1646

00:55:17,829 --> 00:55:16,400

uh so australia's big place um so right

1647

00:55:20,950 --> 00:55:17,839

over on the other side of the country

1648

00:55:22,230 --> 00:55:20,960

there's a city called perth um and when

1649

00:55:25,829 --> 00:55:22,240

you drive

1650

00:55:27,589 --> 00:55:25,839

like it's

1651
00:55:29,910 --> 00:55:27,599
it once you get through a few towns

1652
00:55:31,510 --> 00:55:29,920
you're driving for three days

1653
00:55:33,430 --> 00:55:31,520
without seeing a single you might see

1654
00:55:34,150 --> 00:55:33,440
the odd town but it's in the middle of

1655
00:55:36,710 --> 00:55:34,160
nowhere it's

1656
00:55:38,710 --> 00:55:36,720
it's it's ridiculous how it's like yeah

1657
00:55:41,349 --> 00:55:38,720
it's nothing comparable maybe

1658
00:55:43,349 --> 00:55:41,359
yeah nothing comparable i don't think um

1659
00:55:46,309 --> 00:55:43,359
and back in 1988

1660
00:55:48,390 --> 00:55:46,319
um i can't remember the date uh it was

1661
00:55:51,430 --> 00:55:48,400
1988 a family

1662
00:55:53,430 --> 00:55:51,440
a family were driving a car

1663
00:55:54,870 --> 00:55:53,440

from perth to adelaide which is a

1664

00:55:57,030 --> 00:55:54,880

three-day maybe look

1665

00:55:57,910 --> 00:55:57,040

if you drive really fast it might be a

1666

00:56:01,190 --> 00:55:57,920

two-day drive

1667

00:56:04,230 --> 00:56:01,200

of nothing and it was night time

1668

00:56:06,390 --> 00:56:04,240

and but the family the drop so there was

1669

00:56:07,990 --> 00:56:06,400

three people oh it was either three or

1670

00:56:10,309 --> 00:56:08,000

four people in the car all from the same

1671

00:56:12,789 --> 00:56:10,319

family i haven't studied it for 20 years

1672

00:56:14,150 --> 00:56:12,799

but um there was three i think four

1673

00:56:17,589 --> 00:56:14,160

people in the car

1674

00:56:20,710 --> 00:56:17,599

and it was an old was an old car um

1675

00:56:22,789 --> 00:56:20,720

and they they saw up ahead of them

1676
00:56:23,829 --> 00:56:22,799
they saw what looked like like a bright

1677
00:56:30,630 --> 00:56:23,839
light

1678
00:56:33,990 --> 00:56:30,640
they claimed something airborne um

1679
00:56:36,870 --> 00:56:34,000
they it interacted with their vehicle

1680
00:56:37,750 --> 00:56:36,880
so they the claim was that it pulled

1681
00:56:39,829 --> 00:56:37,760
their vehicle

1682
00:56:42,150 --> 00:56:39,839
up like it physically lifted their car

1683
00:56:44,789 --> 00:56:42,160
off the road so the ufos above them

1684
00:56:45,589 --> 00:56:44,799
had physically pulled their car up into

1685
00:56:47,990 --> 00:56:45,599
the air

1686
00:56:49,030 --> 00:56:48,000
so you know at 60 miles an hour or a bit

1687
00:56:51,670 --> 00:56:49,040
less

1688
00:56:52,870 --> 00:56:51,680

and then it just dumped it right dumped

1689

00:56:55,670 --> 00:56:52,880

it back on the road

1690

00:56:57,270 --> 00:56:55,680

so terrifying if true and of course they

1691

00:56:58,630 --> 00:56:57,280

crashed i mean you wouldn't just keep

1692

00:56:59,910 --> 00:56:58,640

driving i mean they they came to a

1693

00:57:01,349 --> 00:56:59,920

screeching halt i think

1694

00:57:03,510 --> 00:57:01,359

and and they ended up on the side of the

1695

00:57:04,549 --> 00:57:03,520

road they had a blown tire that much is

1696

00:57:07,829 --> 00:57:04,559

true

1697

00:57:12,710 --> 00:57:07,839

um at the same time

1698

00:57:14,390 --> 00:57:12,720

um the the the rumor at the time was

1699

00:57:16,069 --> 00:57:14,400

uh that there were other witnesses to it

1700

00:57:16,950 --> 00:57:16,079

not the actual lifting the car off the

1701

00:57:20,870 --> 00:57:16,960

ground path but the

1702

00:57:22,789 --> 00:57:20,880

witnesses to the ufo ufos in the area at

1703

00:57:25,270 --> 00:57:22,799

the time like that night

1704

00:57:26,309 --> 00:57:25,280

anyway the the the family pulled into a

1705

00:57:29,190 --> 00:57:26,319

town i think it was

1706

00:57:30,309 --> 00:57:29,200

ajuna or something like that they they

1707

00:57:32,390 --> 00:57:30,319

pulled into a town

1708

00:57:33,910 --> 00:57:32,400

and they started talking about it like

1709

00:57:34,950 --> 00:57:33,920

to petrol station people and something

1710

00:57:37,670 --> 00:57:34,960

like that

1711

00:57:38,549 --> 00:57:37,680

um gas station i think you call it um

1712

00:57:40,630 --> 00:57:38,559

and

1713

00:57:42,390 --> 00:57:40,640

the it must have been a slow news week

1714

00:57:43,750 --> 00:57:42,400

because the the media got hold of it

1715

00:57:47,510 --> 00:57:43,760

very quickly

1716

00:57:49,349 --> 00:57:47,520

and they the media um the media really

1717

00:57:53,109 --> 00:57:49,359

turned it into a bit of a circus

1718

00:57:55,910 --> 00:57:53,119

and the the media were as usual

1719

00:57:57,190 --> 00:57:55,920

really came to get the salacious details

1720

00:57:59,190 --> 00:57:57,200

not anything else you know how long have

1721

00:58:00,309 --> 00:57:59,200

they been driving had they been drinking

1722

00:58:02,390 --> 00:58:00,319

you know all this sort of stuff there

1723

00:58:03,349 --> 00:58:02,400

was no proper remotely improper

1724

00:58:05,750 --> 00:58:03,359

investigation

1725

00:58:07,430 --> 00:58:05,760

no one know what the you know the vast

1726

00:58:09,030 --> 00:58:07,440

majority of the press were not in any

1727

00:58:11,190 --> 00:58:09,040

way interested in starting the actual

1728

00:58:13,670 --> 00:58:11,200

car they needed the story that night

1729

00:58:14,309 --> 00:58:13,680

right so that that polluted the case a

1730

00:58:16,950 --> 00:58:14,319

bit

1731

00:58:17,990 --> 00:58:16,960

now over the years people have

1732

00:58:22,470 --> 00:58:18,000

investigated well

1733

00:58:25,750 --> 00:58:22,480

one thing that did come out was um

1734

00:58:27,349 --> 00:58:25,760

the the car the car was covered in all

1735

00:58:28,710 --> 00:58:27,359

parts of the car were covered in a very

1736

00:58:32,390 --> 00:58:28,720

very fine dust

1737

00:58:35,030 --> 00:58:32,400

unusual in the desert and one

1738

00:58:37,750 --> 00:58:35,040

claim by a victorian researcher by the

1739

00:58:41,670 --> 00:58:37,760

name of john ocatel one claim was that

1740

00:58:43,510 --> 00:58:41,680

this dust had a radioactive

1741

00:58:44,950 --> 00:58:43,520

element in it i think he claimed it was

1742

00:58:46,630 --> 00:58:44,960

americanium

1743

00:58:48,549 --> 00:58:46,640

which is really rare i mean you'll find

1744

00:58:51,670 --> 00:58:48,559

american in a nuclear reactor

1745

00:58:52,950 --> 00:58:51,680

maybe um but that was the claim will

1746

00:58:54,630 --> 00:58:52,960

turn out wasn't true

1747

00:58:56,230 --> 00:58:54,640

the the there was there was actually i

1748

00:58:56,710 --> 00:58:56,240

think there was three samples of dust

1749

00:59:00,309 --> 00:58:56,720

taken

1750

00:59:02,069 --> 00:59:00,319

john ocatel's uh john ocatel's dust

1751
00:59:03,670 --> 00:59:02,079
apparently contained americana but he

1752
00:59:05,589 --> 00:59:03,680
wouldn't answer any more questions like

1753
00:59:07,430 --> 00:59:05,599
who analyzed it can we see the results

1754
00:59:08,950 --> 00:59:07,440
can we see the conclusions the

1755
00:59:10,630 --> 00:59:08,960
whatever the other two samples

1756
00:59:11,829 --> 00:59:10,640
apparently nothing unusual is just brake

1757
00:59:14,950 --> 00:59:11,839
dust and desert dust

1758
00:59:16,470 --> 00:59:14,960
calcium and so on so there's a bunch of

1759
00:59:18,069 --> 00:59:16,480
those sort of stories where there's all

1760
00:59:19,829 --> 00:59:18,079
these dead ends where you look at the

1761
00:59:21,430 --> 00:59:19,839
case and on paper it looks really

1762
00:59:23,990 --> 00:59:21,440
shocking and good and whatever

1763
00:59:25,430 --> 00:59:24,000

but it turns out that in hindsight there

1764

00:59:26,230 --> 00:59:25,440

was a lot of claims that were made that

1765

00:59:29,589 --> 00:59:26,240

just don't

1766

00:59:31,589 --> 00:59:29,599

claims that there was other witnesses

1767

00:59:33,829 --> 00:59:31,599

they never came forward there was claims

1768

00:59:34,710 --> 00:59:33,839

that um what else was there uh there was

1769

00:59:36,470 --> 00:59:34,720

claims that

1770

00:59:37,750 --> 00:59:36,480

it was seen off the coast like towards

1771

00:59:39,030 --> 00:59:37,760

the beach and into the ocean by

1772

00:59:40,630 --> 00:59:39,040

fishermen

1773

00:59:42,309 --> 00:59:40,640

apparently no such thing happened or if

1774

00:59:43,589 --> 00:59:42,319

it did it was so minor it looked like a

1775

00:59:43,910 --> 00:59:43,599

star moving around or something like

1776

00:59:46,390 --> 00:59:43,920

that

1777

00:59:47,990 --> 00:59:46,400

we don't know like like is it possible i

1778

00:59:48,549 --> 00:59:48,000

mean i'm cynical enough to say is it

1779

00:59:51,190 --> 00:59:48,559

possible

1780

00:59:52,230 --> 00:59:51,200

that the family did actually see a ufo

1781

00:59:54,630 --> 00:59:52,240

had a crash

1782

00:59:55,750 --> 00:59:54,640

and then embellished the story to the

1783

00:59:57,109 --> 00:59:55,760

point where the car was actually

1784

00:59:58,470 --> 00:59:57,119

physically lifted off the ground and

1785

01:00:00,870 --> 00:59:58,480

chucked back down again

1786

01:00:01,750 --> 01:00:00,880

like it's a big claim it's a big claim

1787

01:00:03,750 --> 01:00:01,760

yeah yeah

1788

01:00:04,950 --> 01:00:03,760

there's there's one uh i think it was in

1789

01:00:07,030 --> 01:00:04,960

new hampshire

1790

01:00:08,230 --> 01:00:07,040

sort of the same claim uh there was a

1791

01:00:10,630 --> 01:00:08,240

young couple

1792

01:00:11,910 --> 01:00:10,640

and their the car was all messed up and

1793

01:00:14,230 --> 01:00:11,920

everything underneath

1794

01:00:15,510 --> 01:00:14,240

but who knows uh if that story had any

1795

01:00:18,309 --> 01:00:15,520

validity to it

1796

01:00:20,150 --> 01:00:18,319

now there was another case where a guy

1797

01:00:22,390 --> 01:00:20,160

was driving along a highway

1798

01:00:24,390 --> 01:00:22,400

something about lights coming and then

1799

01:00:25,430 --> 01:00:24,400

maybe later someone died at the same

1800

01:00:31,430 --> 01:00:25,440

location

1801
01:00:34,470 --> 01:00:32,950
yeah can you talk about that one because

1802
01:00:35,589 --> 01:00:34,480
i always always thought that was

1803
01:00:40,710 --> 01:00:35,599
fabulous

1804
01:00:46,710 --> 01:00:44,470
so march or april 1966

1805
01:00:47,589 --> 01:00:46,720
um my state so down south east of the

1806
01:00:50,470 --> 01:00:47,599
country

1807
01:00:51,430 --> 01:00:50,480
um the the witness's name i'm just

1808
01:00:53,510 --> 01:00:51,440
trying to think of his name

1809
01:00:54,950 --> 01:00:53,520
um i've actually met him he actually

1810
01:00:58,710 --> 01:00:54,960
recently passed away

1811
01:01:02,390 --> 01:01:00,069
i can't remember the witness's name

1812
01:01:05,030 --> 01:01:02,400
it'll come to me but he was again

1813
01:01:07,510 --> 01:01:05,040

unfortunately a single witness case like

1814

01:01:10,710 --> 01:01:07,520

a lot of these ones are at night in cars

1815

01:01:13,270 --> 01:01:10,720

he was driving through fairly windy

1816

01:01:14,710 --> 01:01:13,280

roads in the countryside so in rural you

1817

01:01:17,750 --> 01:01:14,720

call it in the woods

1818

01:01:19,190 --> 01:01:17,760

um he's driving along yeah at night

1819

01:01:21,190 --> 01:01:19,200

not particularly late i think it was

1820

01:01:22,789 --> 01:01:21,200

sort of maybe 9 30 at night it wasn't

1821

01:01:24,390 --> 01:01:22,799

three in the morning or anything

1822

01:01:26,390 --> 01:01:24,400

and he was familiar with the roads he

1823

01:01:29,349 --> 01:01:26,400

was familiar enough with his car

1824

01:01:30,069 --> 01:01:29,359

um and he's he's driving along on a

1825

01:01:32,150 --> 01:01:30,079

reasonable

1826

01:01:33,510 --> 01:01:32,160

reasonably long drive um it wasn't a

1827

01:01:34,870 --> 01:01:33,520

sort of thing around the corner

1828

01:01:36,870 --> 01:01:34,880

like driving around the corner like for

1829

01:01:38,789 --> 01:01:36,880

one minute it was a decent drive

1830

01:01:40,069 --> 01:01:38,799

and he swears absolutely he swears black

1831

01:01:41,589 --> 01:01:40,079

and blue at the time and

1832

01:01:43,430 --> 01:01:41,599

all his life he swears this is what

1833

01:01:45,190 --> 01:01:43,440

happened

1834

01:01:47,990 --> 01:01:45,200

driving along and on the side of the

1835

01:01:49,589 --> 01:01:48,000

road well into the trees and into grass

1836

01:01:52,150 --> 01:01:49,599

he said there was almost like a

1837

01:01:54,950 --> 01:01:52,160

cylindrical like a cylindrical

1838

01:01:56,549 --> 01:01:54,960

ufo almost like more like an apparition

1839

01:01:58,789 --> 01:01:56,559

maybe not necessarily

1840

01:02:00,549 --> 01:01:58,799

like a fully structured craft like you

1841

01:02:01,510 --> 01:02:00,559

think with antennas and flames and

1842

01:02:03,270 --> 01:02:01,520

whatever he

1843

01:02:05,349 --> 01:02:03,280

more like something more like slightly

1844

01:02:06,710 --> 01:02:05,359

leaning towards more of a phenomena than

1845

01:02:09,990 --> 01:02:06,720

an actual

1846

01:02:11,589 --> 01:02:10,000

structured you know device maybe um

1847

01:02:13,109 --> 01:02:11,599

again i haven't studied this for 10

1848

01:02:15,430 --> 01:02:13,119

years at least but what was

1849

01:02:16,789 --> 01:02:15,440

really bizarre about this case is that

1850

01:02:17,910 --> 01:02:16,799

he swears black and blue because

1851

01:02:20,390 --> 01:02:17,920

normally your headlights

1852

01:02:21,589 --> 01:02:20,400

point out straight he says as he's

1853

01:02:25,109 --> 01:02:21,599

watching this

1854

01:02:26,789 --> 01:02:25,119

ufo like just sitting on the ground but

1855

01:02:27,109 --> 01:02:26,799

sort of like a pipe like cylindrical

1856

01:02:30,390 --> 01:02:27,119

with

1857

01:02:33,270 --> 01:02:30,400

it was bright blue i think he swears

1858

01:02:34,390 --> 01:02:33,280

swears to god that his headlights bent

1859

01:02:36,230 --> 01:02:34,400

towards it

1860

01:02:38,150 --> 01:02:36,240

so imagine you're driving along that's

1861

01:02:39,430 --> 01:02:38,160

what i remember yeah yeah and your head

1862

01:02:40,789 --> 01:02:39,440

so not only are you seeing something

1863

01:02:42,470 --> 01:02:40,799

you've never seen before

1864

01:02:43,510 --> 01:02:42,480

right like never seen anything like it

1865

01:02:44,870 --> 01:02:43,520

in your life and it should be there

1866

01:02:46,549 --> 01:02:44,880

should be nothing out there no flood

1867

01:02:48,789 --> 01:02:46,559

lights no farmers no tractor

1868

01:02:50,150 --> 01:02:48,799

operating no fire no bushfire wildfire

1869

01:02:52,230 --> 01:02:50,160

whatever like this was

1870

01:02:53,430 --> 01:02:52,240

this was not accountable by any of those

1871

01:02:55,270 --> 01:02:53,440

things um

1872

01:02:57,270 --> 01:02:55,280

he the way he described it at the time

1873

01:02:59,029 --> 01:02:57,280

and even before he died and over the

1874

01:03:00,789 --> 01:02:59,039

years it hasn't changed i do believe

1875

01:03:03,349 --> 01:03:00,799

something definitely happened it was

1876

01:03:05,190 --> 01:03:03,359

again single witness case dr heineck

1877

01:03:06,230 --> 01:03:05,200

would say to us a single witness case is

1878

01:03:10,390 --> 01:03:06,240

no case at all

1879

01:03:11,430 --> 01:03:10,400

right but i mean this guy as far as high

1880

01:03:14,150 --> 01:03:11,440

strangeness

1881

01:03:15,430 --> 01:03:14,160

in a case the the driver's headlights

1882

01:03:17,750 --> 01:03:15,440

bend to the side

1883

01:03:18,710 --> 01:03:17,760

he says i mean you wonder can you even

1884

01:03:20,789 --> 01:03:18,720

make this stuff up

1885

01:03:22,150 --> 01:03:20,799

like that's really strange that's a real

1886

01:03:24,630 --> 01:03:22,160

physiological

1887

01:03:25,910 --> 01:03:24,640

that's like a that's like an emf effect

1888

01:03:27,670 --> 01:03:25,920

if i've ever seen one

1889

01:03:29,430 --> 01:03:27,680

yeah that's bizarre it just it would

1890

01:03:30,789 --> 01:03:29,440

have been the perfect case if only there

1891

01:03:31,910 --> 01:03:30,799

was a whole bunch of other witnesses but

1892

01:03:34,789 --> 01:03:31,920

what was weird

1893

01:03:35,109 --> 01:03:34,799

is the very next day or it might have

1894

01:03:37,430 --> 01:03:35,119

been

1895

01:03:38,870 --> 01:03:37,440

you know it was it was either just

1896

01:03:42,150 --> 01:03:38,880

before this or just

1897

01:03:44,309 --> 01:03:42,160

after in exactly the same spot a car had

1898

01:03:47,190 --> 01:03:44,319

come off the road and killed the driver

1899

01:03:48,069 --> 01:03:47,200

so the implication is is did that driver

1900

01:03:51,349 --> 01:03:48,079

who died

1901

01:03:52,789 --> 01:03:51,359

did he slash she also see the object and

1902

01:03:54,710 --> 01:03:52,799

scared the hell out of them so much they

1903

01:03:55,510 --> 01:03:54,720

actually crashed their car and died the

1904

01:03:57,910 --> 01:03:55,520

police yeah

1905

01:03:59,910 --> 01:03:57,920

yeah that's the implication the other

1906

01:04:01,589 --> 01:03:59,920

thing is if you go out to the site and

1907

01:04:03,190 --> 01:04:01,599

the police did and various i think it

1908

01:04:04,230 --> 01:04:03,200

was a newspaper people went out to the

1909

01:04:05,990 --> 01:04:04,240

site where

1910

01:04:07,270 --> 01:04:06,000

the witness had seen this ufo and his

1911

01:04:08,789 --> 01:04:07,280

headlights are bending right

1912

01:04:10,710 --> 01:04:08,799

and there's nothing there like there was

1913

01:04:11,990 --> 01:04:10,720

no burn marks there was no dead animals

1914

01:04:14,710 --> 01:04:12,000

there was no radiological

1915

01:04:15,510 --> 01:04:14,720

effects there was no um scarred turf

1916

01:04:18,950 --> 01:04:15,520

there was no

1917

01:04:19,990 --> 01:04:18,960

i think other farmers were asked

1918

01:04:20,710 --> 01:04:20,000

questions everyone just shrugged their

1919

01:04:23,910 --> 01:04:20,720

shoulders

1920

01:04:24,630 --> 01:04:23,920

so yeah really weird i mentioned this

1921

01:04:27,349 --> 01:04:24,640

before i

1922

01:04:27,910 --> 01:04:27,359

i kind of like the weird cases the ones

1923

01:04:29,990 --> 01:04:27,920

that

1924

01:04:31,510 --> 01:04:30,000

are would be almost impossible to make

1925

01:04:34,470 --> 01:04:31,520

up and this is

1926

01:04:36,549 --> 01:04:34,480

this is kind of one of those yeah yeah

1927

01:04:37,589 --> 01:04:36,559

there's a lot i mean socorro new mexico

1928

01:04:39,670 --> 01:04:37,599

is the most

1929

01:04:41,190 --> 01:04:39,680

famous because you're dealing with quite

1930

01:04:44,470 --> 01:04:41,200

clearly a device

1931

01:04:45,270 --> 01:04:44,480

with doors and insignia and appendages

1932

01:04:49,109 --> 01:04:45,280

and whatever

1933

01:04:50,789 --> 01:04:49,119

by an incredibly reputable witness um

1934

01:04:52,789 --> 01:04:50,799

that's got to be sold if that can be

1935

01:04:55,990 --> 01:04:52,799

solved either way

1936

01:04:58,390 --> 01:04:56,000

like yeah uh there i don't know if you

1937

01:05:01,750 --> 01:04:58,400

ever heard the name ben moss

1938

01:05:02,069 --> 01:05:01,760

yeah he's a like a uh writer or journal

1939

01:05:11,990 --> 01:05:02,079

a

1940

01:05:14,309 --> 01:05:12,000

the first book on uh socorro

1941

01:05:15,349 --> 01:05:14,319

uh and the panic what's that called

1942

01:05:18,069 --> 01:05:15,359

saucer in the

1943

01:05:19,589 --> 01:05:18,079

sword it's called um sort of a sorcerer

1944

01:05:20,630 --> 01:05:19,599

in the pentagon fraser what is it i

1945

01:05:23,190 --> 01:05:20,640

should i know all the books

1946

01:05:24,549 --> 01:05:23,200

by heart um pantry or something yeah

1947

01:05:27,510 --> 01:05:24,559

pentagon pantry uh

1948

01:05:28,870 --> 01:05:27,520

uh yeah sorcery uh uh silent source from

1949

01:05:30,069 --> 01:05:28,880

the pentagon pantry or something like

1950

01:05:33,270 --> 01:05:30,079

that yeah

1951

01:05:36,870 --> 01:05:33,280

anyway um so rey has helped has helped

1952

01:05:39,349 --> 01:05:36,880

ben you know along uh no i helped ben

1953

01:05:40,789 --> 01:05:39,359

got oh i've got this oh really you're

1954

01:05:42,630 --> 01:05:40,799

helping ben too

1955

01:05:45,190 --> 01:05:42,640

yeah i've got i've got massive post

1956

01:05:47,109 --> 01:05:45,200

files and ben came to me

1957

01:05:48,309 --> 01:05:47,119

well like i think i heard i think i

1958

01:05:49,430 --> 01:05:48,319

offered you so

1959

01:05:51,270 --> 01:05:49,440

something i don't know a couple years

1960

01:05:51,990 --> 01:05:51,280

ago and i gave him my case files on

1961

01:05:54,069 --> 01:05:52,000

socorro

1962

01:05:55,430 --> 01:05:54,079

so i've got michael's the researcher

1963

01:05:57,510 --> 01:05:55,440

michael michael

1964

01:05:59,829 --> 01:05:57,520

swords's case file on socorro which is

1965

01:06:01,829 --> 01:05:59,839

huge and barry green with the great

1966

01:06:03,910 --> 01:06:01,839

boston archivist no one's got a bigger

1967

01:06:05,510 --> 01:06:03,920

personal collection of ufo case material

1968

01:06:06,309 --> 01:06:05,520

and general material in barry greenwood

1969

01:06:11,109 --> 01:06:06,319

it is

1970

01:06:12,630 --> 01:06:11,119

rooms completely piled to the ceiling no

1971

01:06:14,230 --> 01:06:12,640

four we're up to now

1972

01:06:15,910 --> 01:06:14,240

um and he's just his house is just

1973

01:06:18,470 --> 01:06:15,920

groaning under the white literally

1974

01:06:19,990 --> 01:06:18,480

um so yeah it's bad it's it's real bad

1975

01:06:20,549 --> 01:06:20,000

and he's getting more stuff arise every

1976

01:06:23,510 --> 01:06:20,559

day but

1977

01:06:24,789 --> 01:06:23,520

um so barry's fire well i generated

1978

01:06:26,390 --> 01:06:24,799

sakura material

1979

01:06:28,150 --> 01:06:26,400

but mine was nothing to compare to

1980

01:06:29,750 --> 01:06:28,160

michael swords and nightcaps

1981

01:06:32,309 --> 01:06:29,760

and fran ridges and particularly barry's

1982

01:06:33,829 --> 01:06:32,319

so i remember when i helped i gave ben

1983

01:06:34,950 --> 01:06:33,839

some material he was very grateful

1984

01:06:35,829 --> 01:06:34,960

because a lot of stuff in there that's

1985

01:06:37,750 --> 01:06:35,839

very original

1986

01:06:39,270 --> 01:06:37,760

like the very first letters the very

1987

01:06:39,829 --> 01:06:39,280

first maps of the area that sort of

1988

01:06:43,510 --> 01:06:39,839

thing

1989

01:06:45,589 --> 01:06:43,520

you know wow wow so he he has written

1990

01:06:48,549 --> 01:06:45,599

the book and as far as i know the book

1991

01:06:49,190 --> 01:06:48,559

um he sent me the transcript so um i'm

1992

01:06:50,390 --> 01:06:49,200

gonna be

1993

01:06:52,870 --> 01:06:50,400

reading through that but i'm gonna

1994

01:06:55,670 --> 01:06:52,880

invite him on and uh

1995

01:06:56,390 --> 01:06:55,680

and uh possibly even our next tuesday

1996

01:06:59,910 --> 01:06:56,400

show

1997

01:07:01,829 --> 01:06:59,920

i'll uh i'll try to confirm that but uh

1998

01:07:04,950 --> 01:07:01,839

so i know we've taken kind of a

1999

01:07:06,470 --> 01:07:04,960

jag from a lot of the documents but i i

2000

01:07:07,430 --> 01:07:06,480

remember when you and i first started

2001

01:07:10,069 --> 01:07:07,440

talking

2002

01:07:12,309 --> 01:07:10,079

um you you kind of touched on the

2003

01:07:16,230 --> 01:07:12,319

ballistic missile early warning system

2004

01:07:19,990 --> 01:07:16,240

b m w uh you touched on that a bit

2005

01:07:22,390 --> 01:07:20,000

um and uh you went over what

2006

01:07:23,190 --> 01:07:22,400

would be great if you could actually

2007

01:07:25,670 --> 01:07:23,200

find

2008

01:07:27,029 --> 01:07:25,680

um those i forget what you call them not

2009

01:07:30,470 --> 01:07:27,039

unidentified but you

2010

01:07:31,029 --> 01:07:30,480

you what uncorrelated will will will win

2011

01:07:32,789 --> 01:07:31,039

when the

2012

01:07:34,870 --> 01:07:32,799

so the ballistic missile early warning

2013

01:07:37,190 --> 01:07:34,880

system its primary

2014

01:07:38,470 --> 01:07:37,200

mission so there's a it's a series of

2015

01:07:40,390 --> 01:07:38,480

three radar sites

2016

01:07:41,670 --> 01:07:40,400

massive the biggest most powerful radars

2017

01:07:44,950 --> 01:07:41,680

in the world

2018

01:07:47,349 --> 01:07:44,960

and there's one site in greenland

2019

01:07:48,230 --> 01:07:47,359

there's one site in alaska and the third

2020

01:07:50,870 --> 01:07:48,240

site is

2021

01:07:52,470 --> 01:07:50,880

on the coast of england and all of them

2022

01:07:59,990 --> 01:07:52,480

look

2023

01:08:01,190 --> 01:08:00,000

and russian ballistic missile launchers

2024

01:08:04,309 --> 01:08:01,200

or submarines

2025

01:08:05,510 --> 01:08:04,319

like like land-based or or sea launch

2026

01:08:07,750 --> 01:08:05,520

ballistic missiles

2027

01:08:10,230 --> 01:08:07,760

that's their primary mission that's the

2028

01:08:12,950 --> 01:08:10,240

primary mission of these three sites is

2029

01:08:14,470 --> 01:08:12,960

is is missile warning like early missile

2030

01:08:15,430 --> 01:08:14,480

warning early missile detection and

2031

01:08:17,189 --> 01:08:15,440

warning

2032

01:08:20,390 --> 01:08:17,199

for north america and western europe's

2033

01:08:23,269 --> 01:08:20,400

defense right there's no point i mean

2034

01:08:24,789 --> 01:08:23,279

if you can know that the soviets all the

2035

01:08:25,910 --> 01:08:24,799

russians or the chinese from their

2036

01:08:29,590 --> 01:08:25,920

northern launch sites

2037

01:08:31,349 --> 01:08:29,600

have launched you know a a a salvo of

2038

01:08:32,870 --> 01:08:31,359

ballistic missiles and the computers are

2039

01:08:35,669 --> 01:08:32,880

telling you that they're coming for

2040

01:08:37,269 --> 01:08:35,679

canada and america um if you can get you

2041

01:08:38,550 --> 01:08:37,279

know 20 minutes warning on that before

2042

01:08:40,070 --> 01:08:38,560

they actually start landing all the

2043

01:08:41,430 --> 01:08:40,080

better so that's what these sites do

2044

01:08:43,030 --> 01:08:41,440

that's their primary mission

2045

01:08:45,349 --> 01:08:43,040

the secondary mission of the ballistic

2046

01:08:47,990 --> 01:08:45,359

missile early warning system sites

2047

01:08:49,749 --> 01:08:48,000

is general space surveillance so their

2048

01:08:52,630 --> 01:08:49,759

radars are so powerful

2049

01:08:53,910 --> 01:08:52,640

that they look out into low earth orbit

2050

01:08:57,269 --> 01:08:53,920

satellites like so

2051

01:08:59,030 --> 01:08:57,279

so the the sites watch

2052

01:09:00,470 --> 01:08:59,040

satellites and and space debris just

2053

01:09:01,829 --> 01:09:00,480

constantly going round and round and

2054

01:09:03,110 --> 01:09:01,839

round to earth and they

2055

01:09:05,430 --> 01:09:03,120

they're looking for new satellites

2056

01:09:06,309 --> 01:09:05,440

satellite breakups the odd meteorite

2057

01:09:09,349 --> 01:09:06,319

whatever

2058

01:09:11,590 --> 01:09:09,359

and so that's what these sites do and i

2059

01:09:13,510 --> 01:09:11,600

i realize with their capability and

2060

01:09:15,189 --> 01:09:13,520

range like i i'm thinking you know

2061

01:09:16,630 --> 01:09:15,199

there's so many systems actually have

2062

01:09:18,870 --> 01:09:16,640

limitations like

2063

01:09:20,870 --> 01:09:18,880

airports can only see a couple of

2064

01:09:24,149 --> 01:09:20,880

hundred k's around the radius

2065

01:09:25,990 --> 01:09:24,159

or diam or um you know diameter um

2066

01:09:27,430 --> 01:09:26,000

some radar systems only point in a very

2067

01:09:29,110 --> 01:09:27,440

very specific direction

2068

01:09:30,550 --> 01:09:29,120

some radar systems are turned off half

2069

01:09:32,470 --> 01:09:30,560

the time whatever but the ballistic

2070

01:09:35,430 --> 01:09:32,480

missile early warning system

2071

01:09:36,309 --> 01:09:35,440

at greenland alaska in england they are

2072

01:09:38,630 --> 01:09:36,319

almost

2073

01:09:39,430 --> 01:09:38,640

just the premier they should be the

2074

01:09:43,269 --> 01:09:39,440

premier

2075

01:09:45,669 --> 01:09:43,279

sites if ufos exist they would be

2076

01:09:47,349 --> 01:09:45,679

their data would be incredible and like

2077

01:09:48,070 --> 01:09:47,359

because they because i can say right out

2078

01:09:51,430 --> 01:09:48,080

into space

2079

01:09:53,510 --> 01:09:51,440

they should be able to pick up

2080

01:09:55,270 --> 01:09:53,520

absolutely everything well i mean i know

2081

01:09:57,110 --> 01:09:55,280

back in the 50s that they were able to

2082

01:10:00,070 --> 01:09:57,120

differentiate between

2083

01:10:02,310 --> 01:10:00,080

meteorites and missile payloads and and

2084

01:10:02,950 --> 01:10:02,320

early satellites and this is with 1950

2085

01:10:05,270 --> 01:10:02,960

software

2086

01:10:05,990 --> 01:10:05,280

so imagine what they can do now right it

2087

01:10:07,669 --> 01:10:06,000

must be a

2088

01:10:09,590 --> 01:10:07,679

three dimension they would have i would

2089

01:10:11,590 --> 01:10:09,600

i mean it's highly classified but their

2090

01:10:14,870 --> 01:10:11,600

capabilities would be incredible but

2091

01:10:15,910 --> 01:10:14,880

here's an interesting story i started

2092

01:10:18,070 --> 01:10:15,920

studying

2093

01:10:19,590 --> 01:10:18,080

of the three sites the most interesting

2094

01:10:21,110 --> 01:10:19,600

to me

2095

01:10:22,550 --> 01:10:21,120

of the three ballistic missile early

2096

01:10:23,430 --> 01:10:22,560

warning site here the most interesting

2097

01:10:25,910 --> 01:10:23,440

to me was

2098

01:10:27,990 --> 01:10:25,920

uh farlingdales in england it's it's

2099

01:10:31,110 --> 01:10:28,000

it's in yorkshire north yorkshire

2100

01:10:33,990 --> 01:10:31,120

um it's it's it it looks across

2101
01:10:34,950 --> 01:10:34,000
the um the sea towards denmark and

2102
01:10:38,310 --> 01:10:34,960
belgium

2103
01:10:39,669 --> 01:10:38,320
whatever and um it's its capabilities

2104
01:10:41,590 --> 01:10:39,679
are particularly fearsome

2105
01:10:42,870 --> 01:10:41,600
it looks in 360 degrees so it looks in

2106
01:10:45,430 --> 01:10:42,880
every direction

2107
01:10:46,149 --> 01:10:45,440
but what's what was interesting was i

2108
01:10:50,070 --> 01:10:46,159
started

2109
01:10:52,550 --> 01:10:50,080
material on how

2110
01:10:54,070 --> 01:10:52,560
the the actual system work like the

2111
01:10:57,270 --> 01:10:54,080
there's two main computers

2112
01:10:59,590 --> 01:10:57,280
there's the radar system itself it's an

2113
01:11:01,430 --> 01:10:59,600

electronically a scanned array type

2114

01:11:03,750 --> 01:11:01,440

writer it's not a spinning head

2115

01:11:04,790 --> 01:11:03,760

um and i started learning about some of

2116

01:11:07,350 --> 01:11:04,800

the terminology

2117

01:11:07,910 --> 01:11:07,360

that the space violence network of which

2118

01:11:11,270 --> 01:11:07,920

this

2119

01:11:14,630 --> 01:11:11,280

site is part of um uses whatever

2120

01:11:15,510 --> 01:11:14,640

so i decided because because raf filing

2121

01:11:17,510 --> 01:11:15,520

dials

2122

01:11:19,189 --> 01:11:17,520

where the radar system is it's actually

2123

01:11:20,229 --> 01:11:19,199

run by the british it's run by the royal

2124

01:11:21,750 --> 01:11:20,239

air force it's actually

2125

01:11:23,669 --> 01:11:21,760

i think at the moment i'm not sure but

2126

01:11:25,350 --> 01:11:23,679

it's but until recently it was run by

2127

01:11:28,229 --> 01:11:25,360

fighter command

2128

01:11:29,270 --> 01:11:28,239

so it's a frontline premier uh early

2129

01:11:31,430 --> 01:11:29,280

warning site run

2130

01:11:33,590 --> 01:11:31,440

run by the royal air force but mostly

2131

01:11:35,189 --> 01:11:33,600

paid for by the united states air force

2132

01:11:37,030 --> 01:11:35,199

there's obviously united states air

2133

01:11:39,830 --> 01:11:37,040

force servicemen there

2134

01:11:40,630 --> 01:11:39,840

um it's it's a totally joint or combined

2135

01:11:42,310 --> 01:11:40,640

site

2136

01:11:44,390 --> 01:11:42,320

between the royal air force of england

2137

01:11:46,470 --> 01:11:44,400

and united states air force

2138

01:11:48,229 --> 01:11:46,480

through the 21st space swing at peterson

2139

01:11:51,750 --> 01:11:48,239

air force base colorado

2140

01:11:52,630 --> 01:11:51,760

and i decided i'm not going to waste my

2141

01:11:54,630 --> 01:11:52,640

time because

2142

01:11:56,390 --> 01:11:54,640

dealing with air force space command

2143

01:11:56,790 --> 01:11:56,400

that freedom of information requests has

2144

01:11:59,510 --> 01:11:56,800

become

2145

01:12:00,709 --> 01:11:59,520

painfully slow and disorganized so i

2146

01:12:04,630 --> 01:12:00,719

thought i'll go straight to

2147

01:12:06,229 --> 01:12:04,640

the british so i went so i've done a lot

2148

01:12:07,830 --> 01:12:06,239

of successful foi work

2149

01:12:09,110 --> 01:12:07,840

with the ministry of defence a lot of it

2150

01:12:10,070 --> 01:12:09,120

i haven't even published i've got to get

2151

01:12:12,790 --> 01:12:10,080

around to it and

2152

01:12:14,390 --> 01:12:12,800

anyway a few years ago this is really

2153

01:12:16,149 --> 01:12:14,400

really interesting you can read what you

2154

01:12:18,790 --> 01:12:16,159

want into this i'm not reading too much

2155

01:12:21,669 --> 01:12:18,800

but it's a good laugh

2156

01:12:23,350 --> 01:12:21,679

this is really weird i submitted a um so

2157

01:12:26,630 --> 01:12:23,360

i submitted an foi

2158

01:12:28,149 --> 01:12:26,640

um request to the to the british so i i

2159

01:12:30,149 --> 01:12:28,159

basically gave them some background

2160

01:12:31,590 --> 01:12:30,159

about what filing dales or rathfalling

2161

01:12:33,030 --> 01:12:31,600

dale's ballistic missile early warning

2162

01:12:34,550 --> 01:12:33,040

system what it actually does

2163

01:12:36,390 --> 01:12:34,560

because the foi officer isn't going to

2164

01:12:39,669 --> 01:12:36,400

know everything right so

2165

01:12:41,590 --> 01:12:39,679

i um i i

2166

01:12:43,110 --> 01:12:41,600

i didn't i wasn't going to mention ufos

2167

01:12:45,510 --> 01:12:43,120

i was i'm not no one stup

2168

01:12:47,430 --> 01:12:45,520

no one's stupid enough to to say to the

2169

01:12:49,669 --> 01:12:47,440

british ministry of defense i want

2170

01:12:51,189 --> 01:12:49,679

documents which can mean anything can

2171

01:12:52,470 --> 01:12:51,199

mean print out target printouts

2172

01:12:54,470 --> 01:12:52,480

assessments

2173

01:12:57,430 --> 01:12:54,480

whatever i'm not just going to write i

2174

01:12:57,750 --> 01:12:57,440

want all documents about ufos detected

2175

01:12:59,510 --> 01:12:57,760

by

2176

01:13:00,310 --> 01:12:59,520

raf filing dales thank you very much no

2177

01:13:01,750 --> 01:13:00,320

one's going to write that you're just

2178

01:13:03,189 --> 01:13:01,760

going to be knocked back immediately

2179

01:13:05,270 --> 01:13:03,199

so what i did i was obviously more

2180

01:13:07,110 --> 01:13:05,280

careful with that so what i did

2181

01:13:09,110 --> 01:13:07,120

you got to hear this right remember i

2182

01:13:10,870 --> 01:13:09,120

never use the word ufo

2183

01:13:12,550 --> 01:13:10,880

nor especially not the word

2184

01:13:15,590 --> 01:13:12,560

extraterrestrial

2185

01:13:17,510 --> 01:13:15,600

so i've asked ministry of defense for

2186

01:13:19,990 --> 01:13:17,520

copies of records related to the

2187

01:13:22,390 --> 01:13:20,000

detection of unknown unidentified or

2188

01:13:24,390 --> 01:13:22,400

unsolved objects by rafalingdales

2189

01:13:25,990 --> 01:13:24,400

specifically i wish to be furnished with

2190

01:13:26,790 --> 01:13:26,000

copies of actual detections and

2191

01:13:28,709 --> 01:13:26,800

trackings

2192

01:13:30,870 --> 01:13:28,719

which may include electronic forms

2193

01:13:31,510 --> 01:13:30,880

electronic reports automated pictorials

2194

01:13:33,990 --> 01:13:31,520

etc

2195

01:13:34,950 --> 01:13:34,000

which are created by systems at raf

2196

01:13:37,189 --> 01:13:34,960

filing does

2197

01:13:38,550 --> 01:13:37,199

the date range blah blah blah anyway

2198

01:13:40,070 --> 01:13:38,560

i've got an acknowledgement few hours

2199

01:13:44,149 --> 01:13:40,080

few days later whatever

2200

01:13:46,630 --> 01:13:44,159

and and this is what was really weird

2201

01:13:49,350 --> 01:13:46,640

remember i've asked for essentially

2202

01:13:51,590 --> 01:13:49,360

electronic reports electronic pictorials

2203

01:13:53,030 --> 01:13:51,600

event reports about unknown objects

2204

01:13:56,149 --> 01:13:53,040

whatever right and this is the reply i

2205

01:13:59,910 --> 01:13:57,990

i have searched our records for the

2206

01:14:00,630 --> 01:13:59,920

information you have asked for and i can

2207

01:14:02,310 --> 01:14:00,640

confirm

2208

01:14:05,110 --> 01:14:02,320

that the ministry of defense holds

2209

01:14:07,910 --> 01:14:05,120

information in the scope of your request

2210

01:14:09,350 --> 01:14:07,920

however this information relates to

2211

01:14:11,189 --> 01:14:09,360

relates to matters pertinent to the

2212

01:14:14,390 --> 01:14:11,199

defense of the united kingdom and not to

2213

01:14:16,630 --> 01:14:14,400

so-called extraterrestrial life

2214

01:14:18,390 --> 01:14:16,640

they answered that after that was the

2215

01:14:20,630 --> 01:14:18,400

reply to what you wrote them

2216

01:14:23,110 --> 01:14:20,640

yeah so i i've asked them for copies of

2217

01:14:24,870 --> 01:14:23,120

records related to the teachers

2218

01:14:26,229 --> 01:14:24,880

yeah they took the jump specifically i

2219

01:14:27,750 --> 01:14:26,239

mean this is when one of the things i

2220

01:14:29,750 --> 01:14:27,760

asked for was i wish to be finished with

2221

01:14:31,910 --> 01:14:29,760

copies of actual detections and traction

2222

01:14:33,750 --> 01:14:31,920

trackings electronic forms electronic

2223

01:14:35,669 --> 01:14:33,760

reports pictorials blah blah blah

2224

01:14:37,990 --> 01:14:35,679

and in the first paragraph in the first

2225

01:14:39,750 --> 01:14:38,000

sentence they've said however this

2226

01:14:41,110 --> 01:14:39,760

information relates to matters pertinent

2227

01:14:42,709 --> 01:14:41,120

to the defense of the united kingdom

2228

01:14:44,630 --> 01:14:42,719

and not to so-called extraterrestrial

2229

01:14:44,950 --> 01:14:44,640

life that was the most baffling thing

2230

01:14:46,709 --> 01:14:44,960

i've

2231

01:14:49,030 --> 01:14:46,719

never meant either they've looked me up

2232

01:14:51,910 --> 01:14:49,040

as you know who is this foi researcher

2233

01:14:53,110 --> 01:14:51,920

or they've maybe or they've just jumped

2234

01:14:55,189 --> 01:14:53,120

but but it gets better

2235

01:14:56,550 --> 01:14:55,199

right they go on with the administrative

2236

01:14:58,149 --> 01:14:56,560

stuff about how long

2237

01:14:59,590 --> 01:14:58,159

about that there's too much information

2238

01:15:02,470 --> 01:14:59,600

to give them blah blah blah

2239

01:15:04,390 --> 01:15:02,480

i peel it but anyway um this is there's

2240

01:15:05,910 --> 01:15:04,400

another yet another the last sentence

2241

01:15:10,470 --> 01:15:05,920

the last sentence

2242

01:15:12,390 --> 01:15:10,480

um uh is the department has no opinion

2243

01:15:13,910 --> 01:15:12,400

on the existence that remember this is

2244

01:15:17,270 --> 01:15:13,920

after i ask for electronic

2245

01:15:17,910 --> 01:15:17,280

reports right the department has no

2246

01:15:19,990 --> 01:15:17,920

opinion

2247

01:15:21,430 --> 01:15:20,000

on the existence or otherwise of

2248

01:15:23,910 --> 01:15:21,440

extraterrestrial life

2249

01:15:25,350 --> 01:15:23,920

while the mod continues to receive

2250

01:15:27,750 --> 01:15:25,360

correspondence from members of the

2251

01:15:31,350 --> 01:15:27,760

public concerning ufo sightings

2252

01:15:34,149 --> 01:15:31,360

the mod does not investigate those right

2253

01:15:36,229 --> 01:15:34,159

it was the biggest jump i have never

2254

01:15:39,189 --> 01:15:36,239

like it was the biggest jump

2255

01:15:39,990 --> 01:15:39,199

anyway as the foi what actually ended up

2256

01:15:43,350 --> 01:15:40,000

happening was

2257

01:15:44,390 --> 01:15:43,360

is that is that i we we went we got into

2258

01:15:46,070 --> 01:15:44,400

a bit of a battle

2259

01:15:48,550 --> 01:15:46,080

like we went back and forth i appealed

2260

01:15:50,390 --> 01:15:48,560

it and carried on i reduced the scope of

2261

01:15:52,390 --> 01:15:50,400

my request so i wasn't asking for you

2262

01:15:54,149 --> 01:15:52,400

know 10 years worth of data i reduced it

2263

01:15:55,590 --> 01:15:54,159

to like a year's worth of data

2264

01:15:57,510 --> 01:15:55,600

and they basically came back and they

2265

01:15:59,350 --> 01:15:57,520

said this i said that the ballistic

2266

01:16:01,030 --> 01:15:59,360

missile early warning system computers

2267

01:16:03,830 --> 01:16:01,040

and radar at filing dales

2268

01:16:04,470 --> 01:16:03,840

runs 24 hours a day it's absolute it

2269

01:16:06,229 --> 01:16:04,480

detects

2270

01:16:07,830 --> 01:16:06,239

everything i said we've got terabytes

2271

01:16:08,390 --> 01:16:07,840

and terabytes of data coming in every

2272

01:16:09,990 --> 01:16:08,400

minute

2273

01:16:12,149 --> 01:16:10,000

and we've got to store it they said we

2274

01:16:14,310 --> 01:16:12,159

simply cannot go through

2275

01:16:15,270 --> 01:16:14,320

looking for specifically what you're

2276

01:16:17,669 --> 01:16:15,280

actually after

2277

01:16:18,709 --> 01:16:17,679

i find it i look they i do believe that

2278

01:16:20,229 --> 01:16:18,719

the scope of it

2279

01:16:22,550 --> 01:16:20,239

the amount of information in digital

2280

01:16:24,950 --> 01:16:22,560

format would be inconceivable

2281

01:16:26,790 --> 01:16:24,960

but i don't necessarily believe that

2282

01:16:29,669 --> 01:16:26,800

they couldn't weed out

2283

01:16:32,470 --> 01:16:29,679

say a day's worth or a week's worth of

2284

01:16:34,229 --> 01:16:32,480

uncorrelated targets or unusual

2285

01:16:35,590 --> 01:16:34,239

objects that they've detected in space

2286

01:16:37,350 --> 01:16:35,600

or the upper atmosphere i just don't

2287

01:16:38,070 --> 01:16:37,360

believe that i use an example that

2288

01:16:40,630 --> 01:16:38,080

someone

2289

01:16:41,830 --> 01:16:40,640

once gave me very important and i and i

2290

01:16:44,070 --> 01:16:41,840

think this a lot

2291

01:16:45,110 --> 01:16:44,080

um someone once said to me if you're

2292

01:16:46,950 --> 01:16:45,120

ever at knockback

2293

01:16:48,550 --> 01:16:46,960

for information that you know should be

2294

01:16:49,990 --> 01:16:48,560

there or or that

2295

01:16:51,990 --> 01:16:50,000

or that you would least like to know

2296

01:16:53,510 --> 01:16:52,000

more about they said

2297

01:16:55,189 --> 01:16:53,520

it was the person the military said to

2298

01:16:57,669 --> 01:16:55,199

me

2299

01:16:59,669 --> 01:16:57,679

um they said they said i can guarantee

2300

01:17:03,110 --> 01:16:59,679

this if you're a four-star general

2301
01:17:03,830 --> 01:17:03,120
or a three-star general or or an admiral

2302
01:17:06,790 --> 01:17:03,840
of the fleet

2303
01:17:07,750 --> 01:17:06,800
you know someone with real real a real

2304
01:17:09,430 --> 01:17:07,760
power broker

2305
01:17:11,270 --> 01:17:09,440
if an admiral or a four-star or a

2306
01:17:12,470 --> 01:17:11,280
three-star general walked into the same

2307
01:17:15,669 --> 01:17:12,480
building and said right

2308
01:17:17,830 --> 01:17:15,679
i want a week's worth of uncorrelated

2309
01:17:20,390 --> 01:17:17,840
target data from your computers

2310
01:17:21,669 --> 01:17:20,400
he said i guarantee that the captain or

2311
01:17:23,030 --> 01:17:21,679
the colonel in the room would say yes

2312
01:17:23,830 --> 01:17:23,040
sir immediately you'll have it

2313
01:17:25,990 --> 01:17:23,840

immediately

2314

01:17:27,510 --> 01:17:26,000

like that so they're telling me that no

2315

01:17:28,790 --> 01:17:27,520

there's too much data we're not going to

2316

01:17:30,229 --> 01:17:28,800

pull it out for you and it'll take

2317

01:17:31,430 --> 01:17:30,239

hundreds of hours for us to pull it out

2318

01:17:32,390 --> 01:17:31,440

for you then we've got to reduct it all

2319

01:17:34,950 --> 01:17:32,400

blah blah blah

2320

01:17:35,669 --> 01:17:34,960

um some of that might be fair enough but

2321

01:17:37,510 --> 01:17:35,679

but my

2322

01:17:39,189 --> 01:17:37,520

contact said to me he said if you're a

2323

01:17:40,950 --> 01:17:39,199

four-star general and you marched in

2324

01:17:43,510 --> 01:17:40,960

there and said i want this this and this

2325

01:17:44,310 --> 01:17:43,520

they would immediately say yes sir yeah

2326

01:17:47,430 --> 01:17:44,320

so

2327

01:17:49,030 --> 01:17:47,440

i'm not buying it um but this battle

2328

01:17:50,790 --> 01:17:49,040

went on for a long time and i've given

2329

01:17:51,910 --> 01:17:50,800

up um i will try again one day

2330

01:17:54,070 --> 01:17:51,920

at least they've admitted that they've

2331

01:17:54,950 --> 01:17:54,080

got reams of data on on object

2332

01:17:57,590 --> 01:17:54,960

identification

2333

01:17:59,189 --> 01:17:57,600

above above above the north pole that's

2334

01:18:02,229 --> 01:17:59,199

enough for me to start with

2335

01:18:03,030 --> 01:18:02,239

yeah yeah wow and and also when we first

2336

01:18:06,390 --> 01:18:03,040

started

2337

01:18:07,510 --> 01:18:06,400

connecting um you said that i should

2338

01:18:11,430 --> 01:18:07,520

look into

2339

01:18:12,950 --> 01:18:11,440

norad jcc i'm sorry j33c

2340

01:18:15,990 --> 01:18:12,960

i tried to look it up and it was re

2341

01:18:19,030 --> 01:18:16,000

something was renamed or something

2342

01:18:19,910 --> 01:18:19,040

yeah um oh i know what you're talking

2343

01:18:21,430 --> 01:18:19,920

about you're talking about the center

2344

01:18:23,990 --> 01:18:21,440

for aerospace analysis

2345

01:18:25,510 --> 01:18:24,000

so in all the reading i've done and it's

2346

01:18:28,390 --> 01:18:25,520

been incredibly deep writing

2347

01:18:30,229 --> 01:18:28,400

like like unit histories and command

2348

01:18:33,350 --> 01:18:30,239

chronologies and very old

2349

01:18:35,669 --> 01:18:33,360

instructions and and and even

2350

01:18:37,350 --> 01:18:35,679

thesis like military theses and thesis

2351

01:18:38,709 --> 01:18:37,360

dissertations and stuff from the air

2352

01:18:41,830 --> 01:18:38,719

university or

2353

01:18:42,550 --> 01:18:41,840

the naval war college or whatever i've

2354

01:18:45,830 --> 01:18:42,560

learned that

2355

01:18:49,030 --> 01:18:45,840

um i've found the two well

2356

01:18:51,590 --> 01:18:49,040

we'll say in the last 25 years

2357

01:18:53,270 --> 01:18:51,600

the two most or two of the most

2358

01:18:55,430 --> 01:18:53,280

suspicious

2359

01:18:57,270 --> 01:18:55,440

entities within the north american

2360

01:18:59,350 --> 01:18:57,280

aerospace defense command

2361

01:19:00,870 --> 01:18:59,360

which is based at both cheyenne mountain

2362

01:19:01,910 --> 01:19:00,880

and peterson air force base both in

2363

01:19:03,350 --> 01:19:01,920

colorado

2364

01:19:05,270 --> 01:19:03,360

they're responsible so norad is

2365

01:19:07,030 --> 01:19:05,280

responsible for canada and america's

2366

01:19:08,870 --> 01:19:07,040

military air sovereignty

2367

01:19:10,950 --> 01:19:08,880

missile warning to a point missile

2368

01:19:12,070 --> 01:19:10,960

warnings mostly stratcom u.s stratcom in

2369

01:19:13,830 --> 01:19:12,080

nebraska but

2370

01:19:15,110 --> 01:19:13,840

norad's got a customer of missile

2371

01:19:16,790 --> 01:19:15,120

warning information but

2372

01:19:18,550 --> 01:19:16,800

norway is responsible for atmospheric

2373

01:19:20,070 --> 01:19:18,560

and aerospace detection of hijacked

2374

01:19:23,830 --> 01:19:20,080

aircraft

2375

01:19:24,790 --> 01:19:23,840

in conjunction with the faa and blah

2376

01:19:27,030 --> 01:19:24,800

blah blah

2377

01:19:27,830 --> 01:19:27,040

but the within or it's a huge

2378

01:19:31,350 --> 01:19:27,840

organization

2379

01:19:31,990 --> 01:19:31,360

it covers two countries um but within

2380

01:19:34,630 --> 01:19:32,000

norad

2381

01:19:35,189 --> 01:19:34,640

the two organizations that in the last

2382

01:19:38,630 --> 01:19:35,199

25

2383

01:19:40,550 --> 01:19:38,640

30 years that i've absolutely a hundred

2384

01:19:41,669 --> 01:19:40,560

percent sure have dealt with the ufo

2385

01:19:43,189 --> 01:19:41,679

topic or should have or

2386

01:19:46,149 --> 01:19:43,199

at least their paperwork says that they

2387

01:19:48,550 --> 01:19:46,159

have there's two

2388

01:19:50,070 --> 01:19:48,560

one is so norad's divided into eight

2389

01:19:52,149 --> 01:19:50,080

directorates there's the directorate of

2390

01:19:53,830 --> 01:19:52,159

operations directorate of logistics

2391

01:19:56,550 --> 01:19:53,840

directorate of intelligence directorate

2392

01:19:58,870 --> 01:19:56,560

of manpower and personnel whatever

2393

01:20:01,669 --> 01:19:58,880

one of them is directorate of operations

2394

01:20:04,310 --> 01:20:01,679

which is abbreviated to j3

2395

01:20:04,950 --> 01:20:04,320

now within the directorate of operations

2396

01:20:06,870 --> 01:20:04,960

there's

2397

01:20:07,990 --> 01:20:06,880

um like i think maybe six

2398

01:20:11,430 --> 01:20:08,000

sub-directorates

2399

01:20:11,830 --> 01:20:11,440

so three one would be plans and poll

2400

01:20:13,830 --> 01:20:11,840

like

2401
01:20:15,030 --> 01:20:13,840
it would be directorate operations slash

2402
01:20:17,110 --> 01:20:15,040
plans and policy

2403
01:20:19,110 --> 01:20:17,120
j2 would be directorate of operations

2404
01:20:22,470 --> 01:20:19,120
intelligence and logistics

2405
01:20:25,830 --> 01:20:22,480
j3 is the

2406
01:20:28,070 --> 01:20:25,840
um would be the uh

2407
01:20:29,990 --> 01:20:28,080
like the sub directorate for if it's

2408
01:20:32,390 --> 01:20:30,000
called aerospace operations

2409
01:20:34,470 --> 01:20:32,400
so what i'm saying is within the

2410
01:20:35,910 --> 01:20:34,480
directorate of operations for norad

2411
01:20:37,910 --> 01:20:35,920
there's a sub-directorate called

2412
01:20:40,229 --> 01:20:37,920
aerospace operations

2413
01:20:41,270 --> 01:20:40,239

that is divided into many different

2414

01:20:43,830 --> 01:20:41,280

cells and offices

2415

01:20:45,270 --> 01:20:43,840

and one of them is called the air

2416

01:20:47,669 --> 01:20:45,280

management branch

2417

01:20:49,270 --> 01:20:47,679

and i believe it's i'd have to go right

2418

01:20:50,870 --> 01:20:49,280

back into it but

2419

01:20:54,550 --> 01:20:50,880

the so the full abbreviation would be

2420

01:20:57,910 --> 01:20:54,560

norad j333-c

2421

01:21:01,750 --> 01:20:57,920

that is where um that is where

2422

01:21:03,510 --> 01:21:01,760

uh um unusual aerial activity has been

2423

01:21:06,070 --> 01:21:03,520

studied in the past

2424

01:21:07,750 --> 01:21:06,080

for the commander of the of the

2425

01:21:08,310 --> 01:21:07,760

directorates of operations so we're

2426

01:21:11,030 --> 01:21:08,320

talking

2427

01:21:13,030 --> 01:21:11,040

data regarding um you know how fast that

2428

01:21:13,990 --> 01:21:13,040

they can pick up a hijacked aircraft

2429

01:21:15,430 --> 01:21:14,000

like how fast can

2430

01:21:17,189 --> 01:21:15,440

you know not like the airspace

2431

01:21:18,550 --> 01:21:17,199

management branch of aerospace

2432

01:21:19,350 --> 01:21:18,560

operations of the directorate of

2433

01:21:22,229 --> 01:21:19,360

operations

2434

01:21:24,390 --> 01:21:22,239

was heavily involved in the study of the

2435

01:21:25,030 --> 01:21:24,400

plane routes during september 11 and and

2436

01:21:28,790 --> 01:21:25,040

how

2437

01:21:31,189 --> 01:21:28,800

off and blah blah blah

2438

01:21:32,550 --> 01:21:31,199

right so that's definitely one

2439

01:21:34,149 --> 01:21:32,560
organization the other one that's

2440

01:21:35,669 --> 01:21:34,159
probably far more important and

2441

01:21:37,189 --> 01:21:35,679
frustratingly we don't know what it's

2442

01:21:38,709 --> 01:21:37,199
called now and they won't give me a

2443

01:21:40,229 --> 01:21:38,719
straight answer and i've asked and asked

2444

01:21:42,390 --> 01:21:40,239
and asked i even rang norad

2445

01:21:43,669 --> 01:21:42,400
i was even i was even offered to ring

2446

01:21:44,790 --> 01:21:43,679
all right like they actually said ring

2447

01:21:46,310 --> 01:21:44,800
between those hours

2448

01:21:48,310 --> 01:21:46,320
and you'll speak to colonel smith or

2449

01:21:50,870 --> 01:21:48,320
whatever wouldn't come to the phone

2450

01:21:52,629 --> 01:21:50,880
uh oh louise was there there was a

2451
01:21:54,149 --> 01:21:52,639
massive noir exercise going on they used

2452
01:21:54,709 --> 01:21:54,159
that as an excuse maybe it was true i

2453
01:21:57,910 --> 01:21:54,719
don't know

2454
01:22:01,590 --> 01:21:57,920
but the organization is this

2455
01:22:04,390 --> 01:22:01,600
so back in the 80s um it was called

2456
01:22:06,629 --> 01:22:04,400
the directorate of aerospace analysis

2457
01:22:09,189 --> 01:22:06,639
and it was a joint directorate between

2458
01:22:11,430 --> 01:22:09,199
norad and the old u.s space command and

2459
01:22:15,189 --> 01:22:11,440
it literally abbreviated to norad

2460
01:22:18,229 --> 01:22:15,199
slash us space command space

2461
01:22:21,270 --> 01:22:18,239
directorate for aerospace analysis right

2462
01:22:24,390 --> 01:22:21,280
that's fine um

2463
01:22:26,229 --> 01:22:24,400

then it was renamed in 1993 it was

2464

01:22:29,270 --> 01:22:26,239

renamed as the

2465

01:22:31,270 --> 01:22:29,280

center for aerospace analysis and again

2466

01:22:32,229 --> 01:22:31,280

it was placed within norad and u.s space

2467

01:22:35,830 --> 01:22:32,239

command

2468

01:22:37,510 --> 01:22:35,840

in 2004 it was

2469

01:22:39,830 --> 01:22:37,520

still called the center for aerospace

2470

01:22:41,590 --> 01:22:39,840

analysis and it was placed

2471

01:22:43,430 --> 01:22:41,600

within northcom which is a unified

2472

01:22:44,229 --> 01:22:43,440

combatant command and norad headquarters

2473

01:22:48,229 --> 01:22:44,239

so now it's

2474

01:22:51,350 --> 01:22:48,239

called northcom norad sorry northcom

2475

01:22:53,750 --> 01:22:51,360

norad center for aerospace analysis then

2476

01:22:55,350 --> 01:22:53,760

in about 2006 it disappeared it was

2477

01:22:55,669 --> 01:22:55,360

renamed and they won't tell me what it

2478

01:23:03,990 --> 01:22:55,679

is

2479

01:23:06,470 --> 01:23:04,000

instruction like a norad

2480

01:23:08,550 --> 01:23:06,480

manual it's 20 pages it's it's the copy

2481

01:23:11,830 --> 01:23:08,560

i've got from 1992

2482

01:23:15,510 --> 01:23:11,840

it's called um

2483

01:23:18,149 --> 01:23:15,520

it's called uh norad instruction 10-15

2484

01:23:20,870 --> 01:23:18,159

identification of air traffic right and

2485

01:23:23,990 --> 01:23:20,880

on page 10.

2486

01:23:24,629 --> 01:23:24,000

it says so so just for some background

2487

01:23:26,950 --> 01:23:24,639

whenever

2488

01:23:28,550 --> 01:23:26,960

an object is detected above america or

2489

01:23:29,830 --> 01:23:28,560

around america and canada whenever

2490

01:23:31,030 --> 01:23:29,840

there's an object detected that they

2491

01:23:33,030 --> 01:23:31,040

don't know what it is that's in the

2492

01:23:35,110 --> 01:23:33,040

atmosphere i'm not talking about space

2493

01:23:36,950 --> 01:23:35,120

talk about in the atmosphere when an

2494

01:23:39,270 --> 01:23:36,960

object is detected that's not

2495

01:23:40,870 --> 01:23:39,280

got radio it's not transponding it's not

2496

01:23:42,229 --> 01:23:40,880

going away from the united states

2497

01:23:43,110 --> 01:23:42,239

whatever it's a bit suspicious it's

2498

01:23:46,149 --> 01:23:43,120

called a ut

2499

01:23:47,110 --> 01:23:46,159

unknown track if it lasts in the air if

2500

01:23:49,430 --> 01:23:47,120

they can't

2501

01:23:50,149 --> 01:23:49,440

chase it if it won't land if it won't

2502

01:23:52,550 --> 01:23:50,159

talk back

2503

01:23:54,790 --> 01:23:52,560

via radio or a distress signal after

2504

01:23:56,709 --> 01:23:54,800

five minutes so 240 seconds

2505

01:23:58,229 --> 01:23:56,719

it's called a norad remaining unknown

2506

01:24:00,070 --> 01:23:58,239

that means everything they've done

2507

01:24:01,430 --> 01:24:00,080

to get in contact with this thing

2508

01:24:03,270 --> 01:24:01,440

they're getting really worried now it's

2509

01:24:06,310 --> 01:24:03,280

been a hard it's been five minutes

2510

01:24:08,550 --> 01:24:06,320

right so basically all

2511

01:24:10,229 --> 01:24:08,560

unknown tracks and norad remaining

2512

01:24:13,590 --> 01:24:10,239

unknowns

2513

01:24:16,310 --> 01:24:13,600

um they are all they are all

2514

01:24:17,830 --> 01:24:16,320

uh well back in the 80s and 90s and into

2515

01:24:20,790 --> 01:24:17,840

the 2000s they were

2516

01:24:21,990 --> 01:24:20,800

all recorded on something called a form

2517

01:24:23,590 --> 01:24:22,000

61

2518

01:24:25,270 --> 01:24:23,600

which is back then it was a paper form

2519

01:24:27,669 --> 01:24:25,280

in the 80s but now

2520

01:24:29,750 --> 01:24:27,679

and after that it was a digital form and

2521

01:24:31,350 --> 01:24:29,760

on a form 61 you put

2522

01:24:32,790 --> 01:24:31,360

obviously the captain's name or the

2523

01:24:36,709 --> 01:24:32,800

colonel's name or whatever at the top

2524

01:24:38,790 --> 01:24:36,719

the date the time local the track

2525

01:24:40,790 --> 01:24:38,800

like the track strength like how how big

2526

01:24:43,030 --> 01:24:40,800

of a radar target it is

2527

01:24:44,709 --> 01:24:43,040

um which direction it was going azimuth

2528

01:24:46,629 --> 01:24:44,719

bearing heading all those things

2529

01:24:48,629 --> 01:24:46,639

did you scramble like did you did you

2530

01:24:50,470 --> 01:24:48,639

order from this air force base or this

2531

01:24:52,790 --> 01:24:50,480

air force base did you order a scramble

2532

01:24:54,149 --> 01:24:52,800

if so how many jets what were they f-15s

2533

01:24:56,629 --> 01:24:54,159

f-16s whatever

2534

01:24:57,590 --> 01:24:56,639

did you find the object did it disappear

2535

01:25:01,030 --> 01:24:57,600

whatever

2536

01:25:02,470 --> 01:25:01,040

right the the form 61 is two pages of

2537

01:25:04,629 --> 01:25:02,480

essentially what you would call

2538

01:25:07,030 --> 01:25:04,639

ufo information it's like a ufo pro

2539

01:25:10,629 --> 01:25:07,040

forma for a radar technician at norad

2540

01:25:13,590 --> 01:25:10,639

anyway here's where it's interesting um

2541

01:25:14,470 --> 01:25:13,600

all form 61s once they're filled out it

2542

01:25:16,229 --> 01:25:14,480

says in this

2543

01:25:18,390 --> 01:25:16,239

norad instruction that i've got it says

2544

01:25:20,790 --> 01:25:18,400

that all form 61s

2545

01:25:22,229 --> 01:25:20,800

plus associated data that will be actual

2546

01:25:25,030 --> 01:25:22,239

radar hits

2547

01:25:27,350 --> 01:25:25,040

all form 61s and associated data is to

2548

01:25:30,390 --> 01:25:27,360

be sent

2549

01:25:33,189 --> 01:25:30,400

to the center for aerospace analysis

2550

01:25:34,550 --> 01:25:33,199

for further study and investigation so

2551

01:25:36,709 --> 01:25:34,560

imagine this you've got

2552

01:25:37,830 --> 01:25:36,719

you've got norad technicians and battle

2553

01:25:39,430 --> 01:25:37,840

space operators

2554

01:25:41,189 --> 01:25:39,440

every now and again when they see an

2555

01:25:42,629 --> 01:25:41,199

unknown track or a norad remaining

2556

01:25:44,229 --> 01:25:42,639

unknown it's an object they've got no

2557

01:25:45,030 --> 01:25:44,239

idea what it is it's doing very strange

2558

01:25:47,030 --> 01:25:45,040

things

2559

01:25:48,470 --> 01:25:47,040

they fill it out and sometimes i think

2560

01:25:50,229 --> 01:25:48,480

at the end of the day

2561

01:25:51,510 --> 01:25:50,239

unless it's you know it's started world

2562

01:25:54,070 --> 01:25:51,520

war three or whatever but

2563

01:25:55,910 --> 01:25:54,080

at the end of the day all the form 61s

2564

01:25:56,629 --> 01:25:55,920

from all the norad sites around america

2565

01:25:58,470 --> 01:25:56,639

and canada

2566

01:26:00,070 --> 01:25:58,480

all the form 61s are loaded into a

2567

01:26:01,990 --> 01:26:00,080

computer and they're sent to norway

2568

01:26:03,830 --> 01:26:02,000

headquarters to the center for aerospace

2569

01:26:07,110 --> 01:26:03,840

analysis for like i say

2570

01:26:08,629 --> 01:26:07,120

further investigation and study and

2571

01:26:10,470 --> 01:26:08,639

i think it's analysis and study or

2572

01:26:11,830 --> 01:26:10,480

something so what you're basically in a

2573

01:26:14,870 --> 01:26:11,840

nutshell you've got

2574

01:26:17,110 --> 01:26:14,880

ufoe type data and

2575

01:26:18,790 --> 01:26:17,120

original reports directly from norad

2576
01:26:19,270 --> 01:26:18,800
commanders or deputy commanders and

2577
01:26:21,030 --> 01:26:19,280
stuff

2578
01:26:22,950 --> 01:26:21,040
going straight to one office in one

2579
01:26:25,030 --> 01:26:22,960
building for further analysis

2580
01:26:27,189 --> 01:26:25,040
that's incredible that's and we've never

2581
01:26:29,990 --> 01:26:27,199
seen a single form 61

2582
01:26:31,990 --> 01:26:30,000
or any associated data or an associated

2583
01:26:32,950 --> 01:26:32,000
investigations analysis statistical

2584
01:26:34,550 --> 01:26:32,960
conclusions

2585
01:26:36,870 --> 01:26:34,560
nothing this center for aerospace

2586
01:26:38,310 --> 01:26:36,880
analysis it doesn't even exist anymore

2587
01:26:41,830 --> 01:26:38,320
apparently it's being renamed

2588
01:26:43,110 --> 01:26:41,840

so i believe um it this could be an

2589

01:26:43,669 --> 01:26:43,120

absolute gold mine there could be

2590

01:26:45,430 --> 01:26:43,679

literally

2591

01:26:48,070 --> 01:26:45,440

thousands i would not be surprised there

2592

01:26:50,229 --> 01:26:48,080

were 100 dating back to say the mid 80s

2593

01:26:51,350 --> 01:26:50,239

there could be hundreds or maybe even

2594

01:26:53,669 --> 01:26:51,360

thousands

2595

01:26:54,870 --> 01:26:53,679

of essentially what are kind of ufo

2596

01:26:55,910 --> 01:26:54,880

cases now maybe they're all weather

2597

01:26:58,550 --> 01:26:55,920

balloons i don't know

2598

01:26:59,350 --> 01:26:58,560

but i think it's gold i think that could

2599

01:27:02,790 --> 01:26:59,360

be gold

2600

01:27:04,070 --> 01:27:02,800

yeah you know i'm wondering this thought

2601

01:27:06,709 --> 01:27:04,080

just occurred to me

2602

01:27:07,990 --> 01:27:06,719

you know there's louis elizondo out

2603

01:27:09,830 --> 01:27:08,000

there that supposedly

2604

01:27:12,390 --> 01:27:09,840

you know headed the the task force for

2605

01:27:15,430 --> 01:27:12,400

the pentagon to look into

2606

01:27:17,110 --> 01:27:15,440

unidentified whatever um

2607

01:27:18,790 --> 01:27:17,120

that's a source wouldn't that be a

2608

01:27:21,669 --> 01:27:18,800

source that he would have access to

2609

01:27:23,110 --> 01:27:21,679

i've told you no because norad is a

2610

01:27:26,550 --> 01:27:23,120

complete closed book

2611

01:27:28,790 --> 01:27:26,560

like like i'm like i i have

2612

01:27:30,149 --> 01:27:28,800

asked the right people had lou elizondo

2613

01:27:32,149 --> 01:27:30,159

or any of his crew

2614

01:27:33,350 --> 01:27:32,159

or bigelow's aerospace or whatever have

2615

01:27:34,870 --> 01:27:33,360

they dealt with

2616

01:27:36,950 --> 01:27:34,880

the organizations that i'm talking about

2617

01:27:38,870 --> 01:27:36,960

like norad center for aerospace analysis

2618

01:27:41,030 --> 01:27:38,880

or j33 office or

2619

01:27:42,550 --> 01:27:41,040

u.s space command us air force base

2620

01:27:44,629 --> 01:27:42,560

command's 21st space wing i've

2621

01:27:46,870 --> 01:27:44,639

repeatedly asked the right people

2622

01:27:48,149 --> 01:27:46,880

did or another one is nasik the national

2623

01:27:49,830 --> 01:27:48,159

air and space intelligence center at

2624

01:27:50,709 --> 01:27:49,840

wright-patterson air force base which is

2625

01:27:54,950 --> 01:27:50,719

the

2626

01:27:57,830 --> 01:27:54,960

ran blue

2627

01:27:59,270 --> 01:27:57,840

right i also i do know that there's ufo

2628

01:28:01,430 --> 01:27:59,280

study going on there too

2629

01:28:04,550 --> 01:28:01,440

or has been recently i've asked the

2630

01:28:07,910 --> 01:28:04,560

right people and said did lou elizondo

2631

01:28:09,510 --> 01:28:07,920

and his merry men ever get to talk to

2632

01:28:11,430 --> 01:28:09,520

either norad

2633

01:28:13,669 --> 01:28:11,440

or any of the norad cells or spice

2634

01:28:14,390 --> 01:28:13,679

command 21st by swing particularly or

2635

01:28:16,790 --> 01:28:14,400

nasik

2636

01:28:17,669 --> 01:28:16,800

whatever and i'm either getting back no

2637

01:28:26,629 --> 01:28:17,679

or

2638

01:28:28,790 --> 01:28:26,639

basically as far as i can tell those

2639

01:28:30,950 --> 01:28:28,800

organizations surprise surprise the very

2640

01:28:31,750 --> 01:28:30,960

organizations that that you would first

2641

01:28:34,229 --> 01:28:31,760

go to

2642

01:28:36,070 --> 01:28:34,239

not the dia not some sonar system by the

2643

01:28:38,310 --> 01:28:36,080

navy not a pilot's photograph

2644

01:28:39,750 --> 01:28:38,320

right the systems you would first go to

2645

01:28:41,030 --> 01:28:39,760

are the ones that he went to last or

2646

01:28:43,669 --> 01:28:41,040

never got to go to at all

2647

01:28:45,350 --> 01:28:43,679

right it's like norad and the us air

2648

01:28:47,510 --> 01:28:45,360

force space command get off the hook

2649

01:28:49,590 --> 01:28:47,520

over and over and over again it's always

2650

01:28:51,669 --> 01:28:49,600

the big bad mythical cia

2651

01:28:53,030 --> 01:28:51,679

and the embassies and nasa and all this

2652

01:28:57,030 --> 01:28:53,040

it's all a big red herring

2653

01:29:01,910 --> 01:28:59,350

the very places like the faas joint

2654

01:29:03,990 --> 01:29:01,920

surveillance system and norad's

2655

01:29:05,669 --> 01:29:04,000

uh center for aerospace analysis or you

2656

01:29:08,070 --> 01:29:05,679

know the 21st operations group of the

2657

01:29:09,910 --> 01:29:08,080

21st space room when will people learn

2658

01:29:11,590 --> 01:29:09,920

that that's where the goal is if there

2659

01:29:11,830 --> 01:29:11,600

is any gold to be found that's where it

2660

01:29:14,149 --> 01:29:11,840

is

2661

01:29:15,750 --> 01:29:14,159

i'm 100 sure that's just in america well

2662

01:29:17,350 --> 01:29:15,760

we've got our own gold here which

2663

01:29:18,950 --> 01:29:17,360

which is proving to be incredibly hard

2664

01:29:21,990 --> 01:29:18,960

to penetrate so

2665

01:29:24,950 --> 01:29:22,000

in australia um our 40 f

2666

01:29:25,350 --> 01:29:24,960

it's called the 41 it's called the 41

2667

01:29:27,430 --> 01:29:25,360

wing

2668

01:29:28,709 --> 01:29:27,440

it's a royal australian air force's 41

2669

01:29:32,070 --> 01:29:28,719

wing and they

2670

01:29:33,910 --> 01:29:32,080

operate um they operate the most

2671

01:29:34,550 --> 01:29:33,920

advanced over the horizon radar system

2672

01:29:36,229 --> 01:29:34,560

in the world

2673

01:29:38,550 --> 01:29:36,239

it's called the jindalee over the

2674

01:29:41,669 --> 01:29:38,560

horizon radar network john

2675

01:29:43,750 --> 01:29:41,679

and um it can see right over indonesia

2676
01:29:46,149 --> 01:29:43,760
papua new guinea andaman islands

2677
01:29:48,149 --> 01:29:46,159
whatever it can it looks north right

2678
01:29:51,030 --> 01:29:48,159
getting anything out of them

2679
01:29:52,470 --> 01:29:51,040
is proving i mean all i've had is just

2680
01:29:56,229 --> 01:29:52,480
redacted documents

2681
01:29:58,870 --> 01:29:56,239
and excuses and but

2682
01:30:00,629 --> 01:29:58,880
like it's extremely hard to get raw data

2683
01:30:01,430 --> 01:30:00,639
out it is highly classified i can see

2684
01:30:04,709 --> 01:30:01,440
why

2685
01:30:06,070 --> 01:30:04,719
but um but what i suppose frustrates me

2686
01:30:07,910 --> 01:30:06,080
is no one else is trying

2687
01:30:10,390 --> 01:30:07,920
like in my country i'm the only one

2688
01:30:12,229 --> 01:30:10,400

that's trying like it needs a more

2689

01:30:13,110 --> 01:30:12,239

coordinated approach it needs pressure

2690

01:30:15,030 --> 01:30:13,120

from

2691

01:30:16,790 --> 01:30:15,040

ministers or in your case state

2692

01:30:18,709 --> 01:30:16,800

legislators or congressmen or adjunct

2693

01:30:22,470 --> 01:30:18,719

generals or whatever but

2694

01:30:24,390 --> 01:30:22,480

it's very slow well um you know

2695

01:30:25,830 --> 01:30:24,400

our you mentioned our country quite a

2696

01:30:29,270 --> 01:30:25,840

few times so we have

2697

01:30:31,189 --> 01:30:29,280

uh we have this study going on um jesus

2698

01:30:34,550 --> 01:30:31,199

i was trying to

2699

01:30:36,390 --> 01:30:34,560

you know the investigation that's uh

2700

01:30:38,229 --> 01:30:36,400

through congress i believe it's through

2701

01:30:40,149 --> 01:30:38,239

congress with a task force

2702

01:30:41,590 --> 01:30:40,159

yeah yeah yeah yeah yeah that's really

2703

01:30:43,430 --> 01:30:41,600

good

2704

01:30:45,270 --> 01:30:43,440

but that seems like you know that would

2705

01:30:47,590 --> 01:30:45,280

be one of the places

2706

01:30:49,110 --> 01:30:47,600

or these places you're mentioning you

2707

01:30:51,030 --> 01:30:49,120

know there it seems like there's so much

2708

01:30:52,229 --> 01:30:51,040

information or so much potential

2709

01:30:54,950 --> 01:30:52,239

information

2710

01:30:56,709 --> 01:30:54,960

in these places i know there is i'm sure

2711

01:30:58,950 --> 01:30:56,719

sure of it added to the fact we've got

2712

01:30:59,910 --> 01:30:58,960

yeah that's the problem is we mean that

2713

01:31:02,550 --> 01:30:59,920

task force is

2714

01:31:03,590 --> 01:31:02,560

fantastic it's naval centric though it's

2715

01:31:05,270 --> 01:31:03,600

navy centric

2716

01:31:06,790 --> 01:31:05,280

yeah that's right you know i'm worried

2717

01:31:07,669 --> 01:31:06,800

that there's going to be like a like it

2718

01:31:09,270 --> 01:31:07,679

like an end date

2719

01:31:11,910 --> 01:31:09,280

like it like a project has an end date

2720

01:31:13,189 --> 01:31:11,920

just couldn't go for it yeah right like

2721

01:31:14,390 --> 01:31:13,199

i'm i'm worried that's going to have a

2722

01:31:15,990 --> 01:31:14,400

start and end date that's going to be

2723

01:31:17,430 --> 01:31:16,000

very limited funded you might find that

2724

01:31:20,229 --> 01:31:17,440

the funding is like 25

2725

01:31:20,790 --> 01:31:20,239

000 and they only and well but you might

2726

01:31:21,990 --> 01:31:20,800

and

2727

01:31:23,510 --> 01:31:22,000

no one's talked about the funding like

2728

01:31:25,510 --> 01:31:23,520

the actual dollars what would you rather

2729

01:31:27,270 --> 01:31:25,520

50 million or 25 000 bucks

2730

01:31:29,030 --> 01:31:27,280

right like we might find out that it's

2731

01:31:30,310 --> 01:31:29,040

actually that the people that actually

2732

01:31:31,910 --> 01:31:30,320

run it they'll be like a technical

2733

01:31:33,430 --> 01:31:31,920

expert a photographic expert an

2734

01:31:34,790 --> 01:31:33,440

interrogation expert

2735

01:31:37,030 --> 01:31:34,800

there'll be some sort of intelligence

2736

01:31:38,950 --> 01:31:37,040

and security guy you might find

2737

01:31:40,390 --> 01:31:38,960

that that that they're spending only

2738

01:31:41,350 --> 01:31:40,400

half an hour a week on it or you might

2739

01:31:43,270 --> 01:31:41,360

find something else

2740

01:31:45,189 --> 01:31:43,280

happens that's would be really annoying

2741

01:31:47,270 --> 01:31:45,199

would be all of a sudden ufo cases like

2742

01:31:47,590 --> 01:31:47,280

modern current ufo cases completely dry

2743

01:31:49,189 --> 01:31:47,600

up

2744

01:31:51,430 --> 01:31:49,199

they've actually got nothing to do that

2745

01:31:54,950 --> 01:31:51,440

that's my fear but it's very

2746

01:31:57,590 --> 01:31:54,960

navel focused and if they had the i mean

2747

01:32:00,470 --> 01:31:57,600

i'm hoping that they've got the

2748

01:32:01,750 --> 01:32:00,480

manpower and security clearances to you

2749

01:32:03,270 --> 01:32:01,760

the problem something i've learned

2750

01:32:04,870 --> 01:32:03,280

is that when you're dealing with the

2751
01:32:06,070 --> 01:32:04,880
organizations i was talking about before

2752
01:32:07,510 --> 01:32:06,080
particularly norad

2753
01:32:09,910 --> 01:32:07,520
right they're very very hard to push

2754
01:32:12,310 --> 01:32:09,920
around they use very very norad specific

2755
01:32:14,470 --> 01:32:12,320
systems like recording systems yeah

2756
01:32:15,430 --> 01:32:14,480
databases computer systems with multiple

2757
01:32:17,750 --> 01:32:15,440
levels of

2758
01:32:19,510 --> 01:32:17,760
of interoperability just for within

2759
01:32:23,350 --> 01:32:19,520
norad and nowhere else you know it's

2760
01:32:25,669 --> 01:32:23,360
very very um it's it's it's

2761
01:32:27,910 --> 01:32:25,679
it's very slow and it amazes me how slow

2762
01:32:29,669 --> 01:32:27,920
it is but i'm desperately hoping that

2763
01:32:32,950 --> 01:32:29,679

the naval task force will be

2764

01:32:35,030 --> 01:32:32,960

at la at least able to have

2765

01:32:36,629 --> 01:32:35,040

sit down conversations with people from

2766

01:32:38,550 --> 01:32:36,639

nasik and norad but

2767

01:32:40,390 --> 01:32:38,560

we've asked we've seen all this before

2768

01:32:43,990 --> 01:32:40,400

blue book and

2769

01:32:44,470 --> 01:32:44,000

um you know like congressional questions

2770

01:32:49,990 --> 01:32:44,480

and

2771

01:32:52,229 --> 01:32:50,000

time it amazes me do you think

2772

01:32:54,709 --> 01:32:52,239

do you think it has anything to do with

2773

01:32:57,910 --> 01:32:54,719

regards in regards to norad

2774

01:33:00,310 --> 01:32:57,920

anything to do with the the joint uh

2775

01:33:02,229 --> 01:33:00,320

canada america sovereignty it's a

2776
01:33:03,830 --> 01:33:02,239
bi-national organization unfortunately

2777
01:33:04,790 --> 01:33:03,840
big decisions like the sharing of

2778
01:33:06,629 --> 01:33:04,800
information

2779
01:33:08,149 --> 01:33:06,639
big decisions have to go through both

2780
01:33:09,830 --> 01:33:08,159
the joint chiefs of staff

2781
01:33:11,510 --> 01:33:09,840
that are ultimately responsible for

2782
01:33:13,430 --> 01:33:11,520
norad's activities and through

2783
01:33:15,189 --> 01:33:13,440
canada's parliament both have got to be

2784
01:33:16,790 --> 01:33:15,199
in agreement um

2785
01:33:18,390 --> 01:33:16,800
i do know a bit about this it's all

2786
01:33:21,189 --> 01:33:18,400
about governance and

2787
01:33:22,629 --> 01:33:21,199
and um yeah governance and guidelines

2788
01:33:24,790 --> 01:33:22,639

and it just seems

2789

01:33:26,790 --> 01:33:24,800

that about all sorts of things not just

2790

01:33:27,590 --> 01:33:26,800

about ufos or unknown aircraft or

2791

01:33:30,470 --> 01:33:27,600

whatever but

2792

01:33:32,229 --> 01:33:30,480

i've i've read a lot about norad and um

2793

01:33:33,830 --> 01:33:32,239

it just seems that they're loaded to do

2794

01:33:36,310 --> 01:33:33,840

anything that they don't have to i mean

2795

01:33:37,990 --> 01:33:36,320

even um

2796

01:33:39,350 --> 01:33:38,000

you know even paying for their own

2797

01:33:43,030 --> 01:33:39,360

buildings like even

2798

01:33:48,229 --> 01:33:43,040

paying for their i mean that they they

2799

01:33:52,149 --> 01:33:50,070

they they they push other departments

2800

01:33:52,629 --> 01:33:52,159

around quite a lot you know like i've

2801

01:33:54,070 --> 01:33:52,639

read

2802

01:33:55,910 --> 01:33:54,080

particularly around september 11 that

2803

01:33:57,750 --> 01:33:55,920

was a big one um

2804

01:33:59,270 --> 01:33:57,760

yeah getting any data out of them i mean

2805

01:34:01,030 --> 01:33:59,280

they're not even the one problem with

2806

01:34:02,870 --> 01:34:01,040

norad particularly is is that norad

2807

01:34:03,430 --> 01:34:02,880

being a bi-national organization between

2808

01:34:04,629 --> 01:34:03,440

canada

2809

01:34:05,910 --> 01:34:04,639

and the united states they're not

2810

01:34:07,189 --> 01:34:05,920

actually subject to the freedom of

2811

01:34:09,590 --> 01:34:07,199

information act

2812

01:34:12,950 --> 01:34:09,600

wow this subject it's a bit complicated

2813

01:34:16,550 --> 01:34:14,950

there is a form uh there is an

2814

01:34:18,310 --> 01:34:16,560

instruction that simply says

2815

01:34:20,390 --> 01:34:18,320

as a result of the binational

2816

01:34:22,629 --> 01:34:20,400

relationship norad

2817

01:34:25,030 --> 01:34:22,639

has between the united states and canada

2818

01:34:26,550 --> 01:34:25,040

it has been deemed i think since 1972 or

2819

01:34:30,229 --> 01:34:26,560

something it is deemed

2820

01:34:33,669 --> 01:34:30,239

that um it is deemed that norad records

2821

01:34:36,390 --> 01:34:33,679

are not um are not subject

2822

01:34:37,110 --> 01:34:36,400

to the provisions of the freedom of

2823

01:34:39,350 --> 01:34:37,120

information

2824

01:34:40,629 --> 01:34:39,360

act the only get out of jail free card

2825

01:34:42,870 --> 01:34:40,639

with this at all

2826
01:34:43,910 --> 01:34:42,880
is there is another document that says

2827
01:34:47,030 --> 01:34:43,920
that norad

2828
01:34:50,390 --> 01:34:47,040
should so not must but should

2829
01:34:53,750 --> 01:34:50,400
follow the spirit of the foi

2830
01:34:54,149 --> 01:34:53,760
act so it's basically saying when norad

2831
01:34:55,990 --> 01:34:54,159
if you

2832
01:34:57,669 --> 01:34:56,000
foi norad which you actually can do you

2833
01:34:59,350 --> 01:34:57,679
have to do it through northcom

2834
01:35:01,430 --> 01:34:59,360
which is a unified combatant command

2835
01:35:03,030 --> 01:35:01,440
that's that's uh linked very heavily

2836
01:35:05,109 --> 01:35:03,040
with norad administratively like they

2837
01:35:07,350 --> 01:35:05,119
use the same buildings and and same

2838
01:35:08,310 --> 01:35:07,360

you know like uh as various systems and

2839

01:35:11,990 --> 01:35:08,320

so on but

2840

01:35:14,470 --> 01:35:12,000

um if you do foi norad um

2841

01:35:16,470 --> 01:35:14,480

they can choose to follow the spirit of

2842

01:35:17,590 --> 01:35:16,480

the foi act like yeah we'll release this

2843

01:35:19,430 --> 01:35:17,600

will release this

2844

01:35:20,950 --> 01:35:19,440

but they absolutely do not have to and

2845

01:35:22,790 --> 01:35:20,960

you've got no recourse

2846

01:35:24,149 --> 01:35:22,800

you have absolutely you can't go to your

2847

01:35:26,310 --> 01:35:24,159

congressman you can't

2848

01:35:28,790 --> 01:35:26,320

like kick and scream and sue them and

2849

01:35:30,629 --> 01:35:28,800

all this sort of stuff you can so

2850

01:35:31,910 --> 01:35:30,639

going to norad for for requests is

2851

01:35:34,310 --> 01:35:31,920

really hit and miss and

2852

01:35:36,390 --> 01:35:34,320

um they do release certain things they

2853

01:35:37,910 --> 01:35:36,400

release really mundane stuff like awards

2854

01:35:40,550 --> 01:35:37,920

and ceremonies information

2855

01:35:41,669 --> 01:35:40,560

propaganda like really mundane stuff oh

2856

01:35:44,950 --> 01:35:41,679

it's monday to us

2857

01:35:47,590 --> 01:35:44,960

but um yeah how about that

2858

01:35:51,430 --> 01:35:47,600

yeah um you had you already talked about

2859

01:35:55,270 --> 01:35:51,440

the 84 radar evaluation squad squadron

2860

01:35:57,030 --> 01:35:55,280

oh the um that's that's an interesting

2861

01:35:59,430 --> 01:35:57,040

one uh robert powell

2862

01:36:00,790 --> 01:35:59,440

uh yeah i don't i haven't i've got a

2863

01:36:03,910 --> 01:36:00,800

it's one of my on my list of things to

2864

01:36:08,229 --> 01:36:03,920

do so the 84th radar evaluation squadron

2865

01:36:11,270 --> 01:36:08,239

um so so obviously the fred

2866

01:36:13,350 --> 01:36:11,280

the faa the faa

2867

01:36:14,870 --> 01:36:13,360

their radar systems and the software

2868

01:36:17,910 --> 01:36:14,880

that runs them

2869

01:36:20,550 --> 01:36:17,920

is extremely similar to the us

2870

01:36:22,229 --> 01:36:20,560

air force's radar systems and software

2871

01:36:23,350 --> 01:36:22,239

right they're not they are interoperable

2872

01:36:26,470 --> 01:36:23,360

they have to be

2873

01:36:28,229 --> 01:36:26,480

right and

2874

01:36:30,149 --> 01:36:28,239

what we've found out is you probably

2875

01:36:31,590 --> 01:36:30,159

heard the old adage that

2876

01:36:34,149 --> 01:36:31,600

it did apply in the past but you

2877

01:36:37,270 --> 01:36:34,159

probably heard that um

2878

01:36:40,310 --> 01:36:37,280

that air traffic control centers

2879

01:36:41,109 --> 01:36:40,320

keep radar data for 30 days so

2880

01:36:43,350 --> 01:36:41,119

everything

2881

01:36:44,709 --> 01:36:43,360

so say you've got an fai site i don't

2882

01:36:46,950 --> 01:36:44,719

know it's um

2883

01:36:48,070 --> 01:36:46,960

albuquerque right and it's and it's

2884

01:36:49,669 --> 01:36:48,080

looking um

2885

01:36:50,950 --> 01:36:49,679

it's looking around new mexico for

2886

01:36:51,990 --> 01:36:50,960

primary targets and secondary

2887

01:36:54,870 --> 01:36:52,000

surveillance targets so

2888

01:36:56,470 --> 01:36:54,880

transport so actual physical bodies in

2889

01:36:57,109 --> 01:36:56,480

the sky that are reflecting of radio

2890

01:36:59,030 --> 01:36:57,119

waves and

2891

01:37:01,270 --> 01:36:59,040

also transponder signals right you've

2892

01:37:03,109 --> 01:37:01,280

got you've got 30 days

2893

01:37:04,470 --> 01:37:03,119

where it's it's usually common that

2894

01:37:05,910 --> 01:37:04,480

you'll see that

2895

01:37:07,910 --> 01:37:05,920

or certainly in australia in america

2896

01:37:08,390 --> 01:37:07,920

that radar data like a full radar

2897

01:37:09,910 --> 01:37:08,400

picture

2898

01:37:12,149 --> 01:37:09,920

around an airport or an air defense

2899

01:37:15,430 --> 01:37:12,159

facility or whatever

2900

01:37:17,590 --> 01:37:15,440

it radar data is kept for 30 days

2901
01:37:19,590 --> 01:37:17,600
and then it's written over right that's

2902
01:37:21,830 --> 01:37:19,600
all very well for 1970

2903
01:37:24,390 --> 01:37:21,840
right but we're not in 1970 or 1980

2904
01:37:27,830 --> 01:37:24,400
anymore it's the 2020s

2905
01:37:30,870 --> 01:37:27,840
and and surprise surprise that

2906
01:37:31,430 --> 01:37:30,880
old yarn about keeping radar data for 30

2907
01:37:33,750 --> 01:37:31,440
days

2908
01:37:35,430 --> 01:37:33,760
it ain't true right it's kept for as

2909
01:37:37,750 --> 01:37:35,440
long as i damn we'll want to keep it for

2910
01:37:39,030 --> 01:37:37,760
for starters my first when i kept seeing

2911
01:37:41,910 --> 01:37:39,040
that my first reaction

2912
01:37:43,350 --> 01:37:41,920
was this this isn't right because my

2913
01:37:44,709 --> 01:37:43,360

first reaction is i know that air

2914

01:37:46,390 --> 01:37:44,719

traffic controllers when they learn like

2915

01:37:47,270 --> 01:37:46,400

when they go to school which is three

2916

01:37:48,709 --> 01:37:47,280

years or whatever

2917

01:37:50,950 --> 01:37:48,719

when they go to school they use

2918

01:37:53,750 --> 01:37:50,960

simulations so they actually

2919

01:37:54,790 --> 01:37:53,760

do keep old radar data picture from

2920

01:37:57,750 --> 01:37:54,800

airports

2921

01:37:59,030 --> 01:37:57,760

to train um air traffic controllers so

2922

01:38:00,629 --> 01:37:59,040

at least some is kept

2923

01:38:02,070 --> 01:38:00,639

and then of course some radar data is

2924

01:38:03,430 --> 01:38:02,080

kept for ongoing investigations

2925

01:38:05,350 --> 01:38:03,440

statistical studies

2926

01:38:07,510 --> 01:38:05,360

looking for radar glitches software

2927

01:38:10,070 --> 01:38:07,520

glitches software updates whatever so

2928

01:38:11,350 --> 01:38:10,080

the idea that all radar data is thrown

2929

01:38:14,629 --> 01:38:11,360

out after 30 days

2930

01:38:15,510 --> 01:38:14,639

[h__h] so but then i find out through

2931

01:38:18,550 --> 01:38:15,520

robert powell

2932

01:38:20,790 --> 01:38:18,560

and to a lesser extent me found out that

2933

01:38:22,310 --> 01:38:20,800

um it turns out that a massive

2934

01:38:25,590 --> 01:38:22,320

proportion of

2935

01:38:27,669 --> 01:38:25,600

faa civil airport radar data

2936

01:38:29,189 --> 01:38:27,679

is actually streamed i don't know if

2937

01:38:29,669 --> 01:38:29,199

it's live or at the end of each week or

2938

01:38:31,830 --> 01:38:29,679

whatever

2939

01:38:33,990 --> 01:38:31,840

but it's actually streamed to this

2940

01:38:35,669 --> 01:38:34,000

squadron it's called the 84th radar

2941

01:38:37,590 --> 01:38:35,679

evaluation squadron

2942

01:38:39,109 --> 01:38:37,600

and for a long time it was at hill air

2943

01:38:42,470 --> 01:38:39,119

force base in utah

2944

01:38:45,189 --> 01:38:42,480

but recently it's moved to um to langley

2945

01:38:45,510 --> 01:38:45,199

airfield in virginia i think anyway this

2946

01:38:48,149 --> 01:38:45,520

this

2947

01:38:49,910 --> 01:38:48,159

84th radar evaluation squadron when you

2948

01:38:51,669 --> 01:38:49,920

go to the limited information it's

2949

01:38:53,350 --> 01:38:51,679

probably only got like 80 people that

2950

01:38:55,109 --> 01:38:53,360

work there a lot of them would be

2951
01:38:56,550 --> 01:38:55,119
technicians and payroll people whatever

2952
01:38:57,590 --> 01:38:56,560
i don't i don't know the structure of

2953
01:39:00,870 --> 01:38:57,600
the squadron

2954
01:39:03,830 --> 01:39:00,880
but it turns out that they they have

2955
01:39:05,669 --> 01:39:03,840
they basically are a squadron that is if

2956
01:39:08,790 --> 01:39:05,679
you read about them they're a squadron

2957
01:39:09,910 --> 01:39:08,800
that is dedicated to radar performance

2958
01:39:12,790 --> 01:39:09,920
enhancements

2959
01:39:15,270 --> 01:39:12,800
radar technology accuracy acquisition

2960
01:39:17,350 --> 01:39:15,280
radar software updating for both civil

2961
01:39:20,470 --> 01:39:17,360
like the fia and the air force

2962
01:39:24,390 --> 01:39:20,480
um and and like radar analysis

2963
01:39:26,790 --> 01:39:24,400

glitch solving high-level training

2964

01:39:29,270 --> 01:39:26,800

specialist training uh radar

2965

01:39:30,709 --> 01:39:29,280

like radar investigative training for

2966

01:39:31,510 --> 01:39:30,719

search and rescue missions that sort of

2967

01:39:34,950 --> 01:39:31,520

thing so

2968

01:39:37,750 --> 01:39:34,960

it's no surprise that the faa ascending

2969

01:39:39,109 --> 01:39:37,760

uh basically the implication was that

2970

01:39:40,950 --> 01:39:39,119

again i haven't studied this for a good

2971

01:39:42,229 --> 01:39:40,960

four or five years but the implication

2972

01:39:43,750 --> 01:39:42,239

was was that

2973

01:39:45,590 --> 01:39:43,760

was that despite the fact we're

2974

01:39:47,669 --> 01:39:45,600

constantly told that the faa

2975

01:39:48,709 --> 01:39:47,679

and even our air service australia and

2976

01:39:52,390 --> 01:39:48,719

australia

2977

01:39:55,270 --> 01:39:52,400

in my country um that that they keep

2978

01:39:57,430 --> 01:39:55,280

that this old story this this this old

2979

01:39:59,430 --> 01:39:57,440

double speak half truth that they keep

2980

01:40:01,750 --> 01:39:59,440

radar data for 30 days [h__\h]

2981

01:40:03,669 --> 01:40:01,760

yeah so we and surprise surprise we find

2982

01:40:06,790 --> 01:40:03,679

out that huge reams of it

2983

01:40:07,350 --> 01:40:06,800

are stored permanently or for a long

2984

01:40:09,830 --> 01:40:07,360

time

2985

01:40:10,390 --> 01:40:09,840

at the 84th radar evaluation squadron

2986

01:40:11,510 --> 01:40:10,400

and

2987

01:40:13,510 --> 01:40:11,520

i haven't actually dealt with them

2988

01:40:14,709 --> 01:40:13,520

directly yet i've got to talk to them or

2989

01:40:16,229 --> 01:40:14,719

you know if i wear them or whatever i

2990

01:40:16,550 --> 01:40:16,239

don't even know where i'm going to start

2991

01:40:18,709 --> 01:40:16,560

like

2992

01:40:20,390 --> 01:40:18,719

y'all can't just say that oh i want you

2993

01:40:22,790 --> 01:40:20,400

to search through you know 10 million

2994

01:40:24,070 --> 01:40:22,800

terabytes of radar data looking for ufos

2995

01:40:25,430 --> 01:40:24,080

they're just i mean it's just stupid

2996

01:40:26,790 --> 01:40:25,440

like they're gonna deny you know they

2997

01:40:28,709 --> 01:40:26,800

won't even answer that but i'm gonna

2998

01:40:31,350 --> 01:40:28,719

have to find something very pointed

2999

01:40:31,830 --> 01:40:31,360

and and very specific with that um maybe

3000

01:40:34,550 --> 01:40:31,840

maybe

3001

01:40:36,870 --> 01:40:34,560

something like any foi any reports or

3002

01:40:39,350 --> 01:40:36,880

final analytical papers point papers

3003

01:40:42,149 --> 01:40:39,360

bullet point papers assessments

3004

01:40:43,270 --> 01:40:42,159

on that they've written yeah in the last

3005

01:40:45,350 --> 01:40:43,280

you know year

3006

01:40:47,189 --> 01:40:45,360

so that gives them a very short period

3007

01:40:47,590 --> 01:40:47,199

of time to like to work with so i'm not

3008

01:40:50,310 --> 01:40:47,600

saying

3009

01:40:51,189 --> 01:40:50,320

all documents i might give them a chance

3010

01:40:54,310 --> 01:40:51,199

to release any

3011

01:40:56,149 --> 01:40:54,320

finished product like final processed um

3012

01:40:57,030 --> 01:40:56,159

reports and basically opinion pieces

3013

01:40:58,790 --> 01:40:57,040

about

3014

01:41:00,070 --> 01:40:58,800

unknown objects that appear on radar

3015

01:41:00,629 --> 01:41:00,080

because they can't just ask for radar

3016

01:41:04,149 --> 01:41:00,639

data

3017

01:41:06,629 --> 01:41:04,159

they get it to you terabytes of it

3018

01:41:08,149 --> 01:41:06,639

i can't send it on a cd it's just really

3019

01:41:09,669 --> 01:41:08,159

and how would you play it like this is

3020

01:41:11,109 --> 01:41:09,679

the problem with radar data people say

3021

01:41:12,790 --> 01:41:11,119

oh just get the radar data

3022

01:41:14,390 --> 01:41:12,800

right as if you know like well how are

3023

01:41:16,390 --> 01:41:14,400

you going to play it right it's only

3024

01:41:17,270 --> 01:41:16,400

playable on the on root toolkit system

3025

01:41:19,430 --> 01:41:17,280

that the faa

3026

01:41:21,270 --> 01:41:19,440

owned and paid for right like you can't

3027

01:41:24,310 --> 01:41:21,280

just play on a laptop

3028

01:41:27,189 --> 01:41:24,320

i know but um i've seen

3029

01:41:28,950 --> 01:41:27,199

somewhere where they they printed out

3030

01:41:30,870 --> 01:41:28,960

something that was on on radar

3031

01:41:32,790 --> 01:41:30,880

so sometimes we printed but i mean it

3032

01:41:34,870 --> 01:41:32,800

would only be for the target

3033

01:41:36,470 --> 01:41:34,880

you can you can request target printouts

3034

01:41:38,390 --> 01:41:36,480

for every unknown object

3035

01:41:40,229 --> 01:41:38,400

that was up there you could they're just

3036

01:41:42,310 --> 01:41:40,239

reams of information like

3037

01:41:44,149 --> 01:41:42,320

direction heading bearing azimuth size

3038

01:41:46,229 --> 01:41:44,159

of aircraft name of aircraft

3039

01:41:47,830 --> 01:41:46,239

bracket was there was it in distress

3040

01:41:48,950 --> 01:41:47,840

blah blah blah blah but you can get that

3041

01:41:51,109 --> 01:41:48,960

even that you've got to be a technical

3042

01:41:52,629 --> 01:41:51,119

expert to understand it there is one way

3043

01:41:54,390 --> 01:41:52,639

of getting radar data

3044

01:41:55,669 --> 01:41:54,400

that you can actually play but they're

3045

01:41:57,510 --> 01:41:55,679

loath to do it and i think they've

3046

01:41:59,590 --> 01:41:57,520

actually stopped doing it now

3047

01:42:01,270 --> 01:41:59,600

robert powell knows a lot about this but

3048

01:42:04,229 --> 01:42:01,280

what you can ask for

3049

01:42:05,830 --> 01:42:04,239

is say radar data from a particular site

3050

01:42:06,950 --> 01:42:05,840

over an eight hour say you think there

3051
01:42:09,510 --> 01:42:06,960
was a ufo case

3052
01:42:10,709 --> 01:42:09,520
over i don't know tallahassee florida

3053
01:42:13,750 --> 01:42:10,719
whatever

3054
01:42:14,310 --> 01:42:13,760
you ask for say eight hours of radar

3055
01:42:18,629 --> 01:42:14,320
data

3056
01:42:19,350 --> 01:42:18,639
site that looks you know 150 miles

3057
01:42:22,390 --> 01:42:19,360
around

3058
01:42:23,669 --> 01:42:22,400
the area into the sky and then you say

3059
01:42:25,270 --> 01:42:23,679
you have to be very specific and quick

3060
01:42:28,709 --> 01:42:25,280
about this you say

3061
01:42:31,510 --> 01:42:28,719
if possible can the format be um

3062
01:42:33,430 --> 01:42:31,520
converted into windows media player with

3063
01:42:34,390 --> 01:42:33,440

cartesian coordinates top of the screen

3064

01:42:35,910 --> 01:42:34,400

for north

3065

01:42:37,350 --> 01:42:35,920

um bottomless screen for south and

3066

01:42:38,310 --> 01:42:37,360

you've got to say a lot of technical

3067

01:42:39,750 --> 01:42:38,320

stuff like

3068

01:42:42,070 --> 01:42:39,760

um the time period you don't just say

3069

01:42:44,390 --> 01:42:42,080

eight hours you i'd say you know like a

3070

01:42:46,950 --> 01:42:44,400

thousand minutes or whatever a thousand

3071

01:42:48,229 --> 01:42:46,960

you know there's a way of doing it

3072

01:42:50,629 --> 01:42:48,239

that's it's that's

3073

01:42:51,270 --> 01:42:50,639

um quite specific and then they they

3074

01:42:53,910 --> 01:42:51,280

have to

3075

01:42:55,109 --> 01:42:53,920

i mean if you appeal if they said no we

3076

01:42:55,990 --> 01:42:55,119

don't do that you could appeal it and

3077

01:42:58,870 --> 01:42:56,000

appeal and make them look

3078

01:43:00,070 --> 01:42:58,880

stupid but um but as far as just asking

3079

01:43:02,870 --> 01:43:00,080

for radar data

3080

01:43:04,550 --> 01:43:02,880

very hard to do well i have to say this

3081

01:43:05,910 --> 01:43:04,560

uh we have a question someone asked

3082

01:43:09,030 --> 01:43:05,920

quite a while ago

3083

01:43:12,470 --> 01:43:09,040

but i want to say that you are

3084

01:43:15,430 --> 01:43:12,480

you are a gift to this field

3085

01:43:17,270 --> 01:43:15,440

ufology you really are um uh the work

3086

01:43:19,350 --> 01:43:17,280

that you're doing the dedication

3087

01:43:20,709 --> 01:43:19,360

and uh you're such a bright guy and you

3088

01:43:22,870 --> 01:43:20,719

know um

3089

01:43:24,470 --> 01:43:22,880

you know how to mine this stuff you know

3090

01:43:26,229 --> 01:43:24,480

how to you know where to go

3091

01:43:27,590 --> 01:43:26,239

to dig it up but the question we had

3092

01:43:29,990 --> 01:43:27,600

quite a while back

3093

01:43:31,510 --> 01:43:30,000

um and because i can't believe i'm even

3094

01:43:33,270 --> 01:43:31,520

saying this but we only have like seven

3095

01:43:36,310 --> 01:43:33,280

minutes left of the show

3096

01:43:38,149 --> 01:43:36,320

um but it just went so fast um someone

3097

01:43:42,149 --> 01:43:38,159

wanted to know if you've ever looked

3098

01:43:45,430 --> 01:43:42,159

into the west all um incident

3099

01:43:48,550 --> 01:43:45,440

yeah it's really frustrating yeah i knew

3100

01:43:53,430 --> 01:43:51,590

april 1966 melbourne my city

3101
01:43:55,270 --> 01:43:53,440
so it happened it actually happened

3102
01:43:58,229 --> 01:43:55,280
about about eight

3103
01:44:00,870 --> 01:43:58,239
i don't know about 10 miles from my plat

3104
01:44:05,750 --> 01:44:02,950
the story goes that a large number of

3105
01:44:08,070 --> 01:44:05,760
school children

3106
01:44:09,750 --> 01:44:08,080
it just coming in finishing first recess

3107
01:44:11,669 --> 01:44:09,760
so about we're talking about 10

3108
01:44:13,350 --> 01:44:11,679
10 15 10 20 in the morning large number

3109
01:44:16,070 --> 01:44:13,360
of school children witness

3110
01:44:17,669 --> 01:44:16,080
one two or three ufos in the sky playing

3111
01:44:19,350 --> 01:44:17,679
a bit of cat and mouse coming towards

3112
01:44:21,430 --> 01:44:19,360
the ground

3113
01:44:23,189 --> 01:44:21,440

they luckily they called a school

3114

01:44:25,189 --> 01:44:23,199

teacher who was a school science teacher

3115

01:44:27,990 --> 01:44:25,199

actually and he saw it as well

3116

01:44:28,470 --> 01:44:28,000

he saw two objects um and then there was

3117

01:44:35,109 --> 01:44:28,480

a

3118

01:44:39,109 --> 01:44:35,119

the story goes

3119

01:44:41,750 --> 01:44:39,119

right there's an enormous amount of

3120

01:44:42,550 --> 01:44:41,760

hyperbole here like if you read the

3121

01:44:44,149 --> 01:44:42,560

current hype

3122

01:44:46,070 --> 01:44:44,159

story that would get into a tabloid

3123

01:44:48,390 --> 01:44:46,080

magazine they will tell you that there

3124

01:44:50,070 --> 01:44:48,400

was hundreds of witnesses

3125

01:44:52,629 --> 01:44:50,080

that there was burn marks all over the

3126

01:44:55,030 --> 01:44:52,639

ground like circular landing points

3127

01:44:56,709 --> 01:44:55,040

that there was up to five ufos that

3128

01:44:58,870 --> 01:44:56,719

there was a massive government cover-up

3129

01:45:00,790 --> 01:44:58,880

that the americans were involved

3130

01:45:02,070 --> 01:45:00,800

that there was radiation that those

3131

01:45:03,990 --> 01:45:02,080

missing people

3132

01:45:05,350 --> 01:45:04,000

that the actual true number of witnesses

3133

01:45:07,510 --> 01:45:05,360

outside the school may be in the

3134

01:45:09,910 --> 01:45:07,520

thousands they were all silenced

3135

01:45:12,149 --> 01:45:09,920

cameras were stolen right i did hear

3136

01:45:13,350 --> 01:45:12,159

about the cameras yeah

3137

01:45:15,669 --> 01:45:13,360

half this stuff definitely did not

3138

01:45:16,310 --> 01:45:15,679

happen if you go back to the original

3139

01:45:17,830 --> 01:45:16,320

story

3140

01:45:19,590 --> 01:45:17,840

we're not talking about hundreds of

3141

01:45:22,070 --> 01:45:19,600

school students here we're talking about

3142

01:45:23,510 --> 01:45:22,080

a number which it's still impressive

3143

01:45:24,629 --> 01:45:23,520

it's still a multi-witness signing no

3144

01:45:27,109 --> 01:45:24,639

question about that

3145

01:45:28,310 --> 01:45:27,119

the honest the honest answer is we

3146

01:45:29,590 --> 01:45:28,320

actually don't know how many witnesses

3147

01:45:31,590 --> 01:45:29,600

there were there could have been

3148

01:45:34,149 --> 01:45:31,600

60 there could have been 12 it could

3149

01:45:36,470 --> 01:45:34,159

have been 42 we don't know

3150

01:45:37,990 --> 01:45:36,480

we can also say that when you hear

3151

01:45:39,910 --> 01:45:38,000

things like oh the science teacher

3152

01:45:42,470 --> 01:45:39,920

andrew greenwood saw the ufo

3153

01:45:43,590 --> 01:45:42,480

right it is true he did see it but it

3154

01:45:45,590 --> 01:45:43,600

was so small

3155

01:45:46,709 --> 01:45:45,600

sorry the two of them the two ufos were

3156

01:45:48,550 --> 01:45:46,719

so small

3157

01:45:50,790 --> 01:45:48,560

he had to have them pointed out like the

3158

01:45:52,149 --> 01:45:50,800

kids he he said in an interview with

3159

01:45:54,550 --> 01:45:52,159

actually you know the

3160

01:45:55,590 --> 01:45:54,560

atmospheric physicist james macdonald dr

3161

01:45:57,910 --> 01:45:55,600

james

3162

01:45:58,790 --> 01:45:57,920

from arizona yeah yeah he actually came

3163

01:46:00,550 --> 01:45:58,800

to melbourne

3164

01:46:02,310 --> 01:46:00,560

and he interviewed andrew greenwood who

3165

01:46:03,510 --> 01:46:02,320

was the science teacher about a year

3166

01:46:06,629 --> 01:46:03,520

after it happened

3167

01:46:07,990 --> 01:46:06,639

and and he interviewed him and and

3168

01:46:09,590 --> 01:46:08,000

and we've got a tape recording of the

3169

01:46:10,390 --> 01:46:09,600

interview you can hear it and andrew

3170

01:46:12,550 --> 01:46:10,400

greenwood

3171

01:46:14,870 --> 01:46:12,560

does say that he only had to have the

3172

01:46:16,390 --> 01:46:14,880

students actually point out where it was

3173

01:46:18,390 --> 01:46:16,400

it's not like it was hovering above

3174

01:46:20,229 --> 01:46:18,400

their heads you know blasting

3175

01:46:21,910 --> 01:46:20,239

with radiation and stuff it was so far

3176

01:46:23,270 --> 01:46:21,920

away that he had to have it pointed out

3177

01:46:24,709 --> 01:46:23,280

like then he had to squint like he

3178

01:46:26,070 --> 01:46:24,719

actually had to squint his eyes to see

3179

01:46:28,310 --> 01:46:26,080

two ufos

3180

01:46:29,510 --> 01:46:28,320

right so you there's a whole lot of

3181

01:46:31,510 --> 01:46:29,520

these

3182

01:46:33,109 --> 01:46:31,520

stories that you can reduce by going

3183

01:46:34,390 --> 01:46:33,119

back to the original information another

3184

01:46:37,189 --> 01:46:34,400

one is this

3185

01:46:38,229 --> 01:46:37,199

james macdonald interviewed james dole

3186

01:46:40,550 --> 01:46:38,239

came to australia

3187

01:46:41,830 --> 01:46:40,560

he interviewed andrew greenwood and he

3188

01:46:43,910 --> 01:46:41,840

studied the case

3189

01:46:45,189 --> 01:46:43,920

like other like ufo researchers gave him

3190

01:46:46,790 --> 01:46:45,199

some case material the original

3191

01:46:50,149 --> 01:46:46,800

newspaper reports whatever

3192

01:46:52,229 --> 01:46:50,159

right only a year later james

3193

01:46:53,990 --> 01:46:52,239

dr james macdonald got up and you know

3194

01:46:56,229 --> 01:46:54,000

the 1968 house

3195

01:46:57,910 --> 01:46:56,239

symposium on for astronautics and

3196

01:46:58,470 --> 01:46:57,920

aeronautics that that they had a

3197

01:47:01,030 --> 01:46:58,480

three-pay

3198

01:47:02,629 --> 01:47:01,040

a three-day panel on ufos yeah right it

3199

01:47:05,030 --> 01:47:02,639

was it was a congressional it was a

3200

01:47:05,830 --> 01:47:05,040

sorry it was a house appropriations it

3201

01:47:07,629 --> 01:47:05,840

was a yeah it was

3202

01:47:09,109 --> 01:47:07,639

it was a basically there was it was the

3203

01:47:12,550 --> 01:47:09,119

1968

3204

01:47:15,189 --> 01:47:12,560

um panel on ufos and speakers were james

3205

01:47:17,590 --> 01:47:15,199

mcdonald harder whatever else right

3206

01:47:18,629 --> 01:47:17,600

and james mcdonald spoke for however

3207

01:47:20,870 --> 01:47:18,639

many hours

3208

01:47:22,229 --> 01:47:20,880

and where he got to his section well he

3209

01:47:24,070 --> 01:47:22,239

was literally speaking for hours where

3210

01:47:24,709 --> 01:47:24,080

he got to his section on multi-witness

3211

01:47:26,149 --> 01:47:24,719

sightings

3212

01:47:27,910 --> 01:47:26,159

where there's many many people that see

3213

01:47:29,669 --> 01:47:27,920

ufos he

3214

01:47:31,750 --> 01:47:29,679

but i remember he'd only just look like

3215

01:47:33,750 --> 01:47:31,760

in the last year he just studied westall

3216

01:47:37,350 --> 01:47:33,760

and just interviewed a primary witness

3217

01:47:39,030 --> 01:47:37,360

to get up in 1968 and and talk

3218

01:47:40,790 --> 01:47:39,040

about say the westall case you would

3219

01:47:41,590 --> 01:47:40,800

think it would be a slam dunk he didn't

3220

01:47:43,669 --> 01:47:41,600

even mention it

3221

01:47:45,030 --> 01:47:43,679

he thought it was that unimportant yep

3222

01:47:46,149 --> 01:47:45,040

he had a section that went for you know

3223

01:47:47,910 --> 01:47:46,159

half an hour where he talked about

3224

01:47:49,669 --> 01:47:47,920

multi-witness sightings

3225

01:47:51,590 --> 01:47:49,679

didn't even mention it he could have

3226

01:47:52,790 --> 01:47:51,600

even just 10 seconds were you know i

3227

01:47:53,350 --> 01:47:52,800

went to melbourne and i interviewed a

3228

01:47:55,590 --> 01:47:53,360

teacher and

3229

01:47:57,669 --> 01:47:55,600

blah blah blah blah 2050 school

3230

01:47:58,550 --> 01:47:57,679

kids saw a ufo or two ufos he could have

3231

01:48:00,550 --> 01:47:58,560

at least done that

3232

01:48:02,310 --> 01:48:00,560

didn't even bother he apparently he

3233

01:48:04,070 --> 01:48:02,320

found it that unimportant

3234

01:48:05,750 --> 01:48:04,080

that you know so there's a whole there's

3235

01:48:06,790 --> 01:48:05,760

you know there's a lot of other things

3236

01:48:08,149 --> 01:48:06,800

about it i don't like

3237

01:48:09,830 --> 01:48:08,159

and there's a lot of things culturally

3238

01:48:11,430 --> 01:48:09,840

it's important but there's a lot of

3239

01:48:13,270 --> 01:48:11,440

things i don't like about it

3240

01:48:14,790 --> 01:48:13,280

wow how about that wow never heard that

3241

01:48:16,229 --> 01:48:14,800

side of it it's good

3242

01:48:18,229 --> 01:48:16,239

you know i consider you a healthy

3243

01:48:20,629 --> 01:48:18,239

skeptic and it's good to hear

3244

01:48:22,470 --> 01:48:20,639

it's good to hear that part of it um uh

3245

01:48:24,229 --> 01:48:22,480

because you're right um

3246

01:48:26,070 --> 01:48:24,239

i have to say this you know media can

3247

01:48:28,149 --> 01:48:26,080

get a hold of things and

3248

01:48:29,430 --> 01:48:28,159

you know the time goes by and you know

3249

01:48:32,790 --> 01:48:29,440

who knows what really happened at

3250

01:48:34,470 --> 01:48:32,800

roswell but now there's a parade there

3251

01:48:35,910 --> 01:48:34,480

you know and and who knows what that'll

3252

01:48:38,070 --> 01:48:35,920

end up um

3253

01:48:40,070 --> 01:48:38,080

so do you like to interact with people

3254

01:48:41,430 --> 01:48:40,080

like if someone had some information

3255

01:48:43,750 --> 01:48:41,440

they wanted to get in touch with you is

3256

01:48:45,590 --> 01:48:43,760

that something you you do actively

3257

01:48:47,189 --> 01:48:45,600

and and is it just facebook i know

3258

01:48:50,790 --> 01:48:47,199

that's how you and i first collected

3259

01:48:54,310 --> 01:48:50,800

facebook is one way my email address is

3260

01:48:57,990 --> 01:48:54,320

lowercase p j underscore

3261

01:48:58,950 --> 01:48:58,000

d e a n at hotmail.com that's a good way

3262

01:49:04,950 --> 01:48:58,960

or

3263

01:49:06,470 --> 01:49:04,960

yeah okay well paul thank you so much

3264

01:49:08,709 --> 01:49:06,480

it's been a real pleasure

3265

01:49:10,870 --> 01:49:08,719

and um thank you for you know being

3266

01:49:12,149 --> 01:49:10,880

persistent uh with me so we can get you

3267

01:49:13,990 --> 01:49:12,159

on the show

3268

01:49:15,750 --> 01:49:14,000

and uh i really do like to say you're a

3269

01:49:18,070 --> 01:49:15,760

gift to this uh field

3270

01:49:19,510 --> 01:49:18,080

and um i really do appreciate i highly

3271

01:49:21,430 --> 01:49:19,520

appreciate what you do

3272

01:49:22,709 --> 01:49:21,440

that's thank you very much all right

3273

01:49:25,030 --> 01:49:22,719

well it's been good to be on i

3274

01:49:26,629 --> 01:49:25,040

like i like doing this occasionally yes

3275

01:49:29,669 --> 01:49:26,639

all right you take things

3276

01:49:30,870 --> 01:49:29,679

all right all right bye now all right

3277

01:49:32,870 --> 01:49:30,880

that's it for to

3278

01:49:33,990 --> 01:49:32,880

for tonight's show thank you so much for

3279

01:49:36,950 --> 01:49:34,000

listening and

3280

01:49:38,310 --> 01:49:36,960

our next week's guest is a mystery guest

3281

01:49:40,629 --> 01:49:38,320

only because uh

3282

01:49:42,550 --> 01:49:40,639

i don't know who it is yet i had uh

3283

01:49:45,830 --> 01:49:42,560

someone that had to reschedule

3284

01:49:48,870 --> 01:49:45,840

so we uh i i do say this if you want to

3285

01:49:49,830 --> 01:49:48,880

go to our website podcastufo.com and

3286

01:49:51,669 --> 01:49:49,840

sign up on our

3287

01:49:53,750 --> 01:49:51,679

uh mailing list it's on the right

3288

01:49:57,109 --> 01:49:53,760

sidebar so you can go there

3289

01:49:59,430 --> 01:49:57,119

and sign up for uh mailings so you will

3290

01:50:02,229 --> 01:49:59,440

find out who is on our show

3291

01:50:02,550 --> 01:50:02,239

and it's also uh on youtube here if you

3292

01:50:04,629 --> 01:50:02,560

just

3293

01:50:05,830 --> 01:50:04,639

click the subscribe button and the

3294

01:50:07,350 --> 01:50:05,840

little bell next to it you'll get

3295

01:50:09,350 --> 01:50:07,360

notification emails

3296

01:50:11,350 --> 01:50:09,360

so thank you so much everyone and we'll

3297

01:50:12,070 --> 01:50:11,360

see you next week and remember to keep

3298

01:50:31,950 --> 01:50:12,080

your eyes
