

**ROBERT POWELL**

1  
00:00:57,510 --> 00:00:27,650

[Music]

2  
00:00:59,750 --> 00:00:58,069

hello

3  
00:01:02,069 --> 00:00:59,760

and welcome to the show i'm martin

4  
00:01:02,869 --> 00:01:02,079

willis your host and this was a show

5  
00:01:05,990 --> 00:01:02,879

that

6  
00:01:07,030 --> 00:01:06,000

well it almost didn't happen it came

7  
00:01:08,789 --> 00:01:07,040

real close uh

8  
00:01:10,550 --> 00:01:08,799

we had high winds up here in maine on

9  
00:01:12,469 --> 00:01:10,560

the coast and

10  
00:01:13,750 --> 00:01:12,479

uh i noticed in the middle of the night

11  
00:01:17,030 --> 00:01:13,760

uh that

12  
00:01:17,350 --> 00:01:17,040

uh when i got up that um the power was

13  
00:01:21,109 --> 00:01:17,360

out

14

00:01:24,070 --> 00:01:21,119

notice um

15

00:01:25,109 --> 00:01:24,080

mid afternoon or so that uh your

16

00:01:27,749 --> 00:01:25,119

internet is

17

00:01:29,190 --> 00:01:27,759

out you know so i figured oh boy this is

18

00:01:32,710 --> 00:01:29,200

going to be real close

19

00:01:36,310 --> 00:01:32,720

so i drove around the town where i live

20

00:01:36,950 --> 00:01:36,320

with my laptop and i got i called this

21

00:01:39,429 --> 00:01:36,960

cafe

22

00:01:40,950 --> 00:01:39,439

they were closing but i said hey by the

23

00:01:42,870 --> 00:01:40,960

way how's your internet working

24

00:01:44,149 --> 00:01:42,880

uh because i plan to do this the show

25

00:01:46,630 --> 00:01:44,159

right outside of

26  
00:01:47,830 --> 00:01:46,640  
of the cafe so uh they said everything's

27  
00:01:49,910 --> 00:01:47,840  
fine here so

28  
00:01:51,590 --> 00:01:49,920  
um they closed at two o'clock i went

29  
00:01:53,190 --> 00:01:51,600  
over there at four o'clock

30  
00:01:55,109 --> 00:01:53,200  
and uh one thing they didn't tell me is

31  
00:01:58,469 --> 00:01:55,119  
they shut off their internet so

32  
00:01:59,910 --> 00:01:58,479  
uh anyway i raced home and lo and behold

33  
00:02:01,910 --> 00:01:59,920  
the power came on

34  
00:02:02,950 --> 00:02:01,920  
and just like an hour and a half ago the

35  
00:02:05,429 --> 00:02:02,960  
internet came back

36  
00:02:06,230 --> 00:02:05,439  
and hooray the show is on and the show

37  
00:02:09,510 --> 00:02:06,240  
must go

38  
00:02:10,790 --> 00:02:09,520

on so robert powell is our guest tonight

39

00:02:11,670 --> 00:02:10,800

he's going to be talking about his new

40

00:02:13,990 --> 00:02:11,680

book

41

00:02:16,070 --> 00:02:14,000

and it's called the truth about ufos

42

00:02:18,710 --> 00:02:16,080

it's a scientific perspective

43

00:02:19,830 --> 00:02:18,720

it's geared toward the young we're going

44

00:02:21,750 --> 00:02:19,840

to discuss that

45

00:02:23,589 --> 00:02:21,760

and we're also going to discuss kind of

46

00:02:27,030 --> 00:02:23,599

behind the scenes of the

47

00:02:30,949 --> 00:02:27,040

the scu the scientific coalition for uap

48

00:02:33,430 --> 00:02:30,959

studies and because i think it's slowly

49

00:02:35,430 --> 00:02:33,440

kind of moving the dial toward

50

00:02:38,949 --> 00:02:35,440

disclosure

51  
00:02:41,670 --> 00:02:38,959  
possibly i almost hate using that word

52  
00:02:43,430 --> 00:02:41,680  
but um there seems to me that a lot of

53  
00:02:45,670 --> 00:02:43,440  
people talking about some

54  
00:02:46,790 --> 00:02:45,680  
breaking news that's going to be coming

55  
00:02:49,110 --> 00:02:46,800  
out i've heard

56  
00:02:51,350 --> 00:02:49,120  
you know i get contacted by people that

57  
00:02:53,910 --> 00:02:51,360  
james fox is talking about

58  
00:02:55,110 --> 00:02:53,920  
2021 there's going to be something

59  
00:02:57,990 --> 00:02:55,120  
happening

60  
00:02:59,350 --> 00:02:58,000  
i'm not really sure i know little

61  
00:03:01,190 --> 00:02:59,360  
tidbits i don't think it's going to be

62  
00:03:02,630 --> 00:03:01,200  
something major and earth

63  
00:03:04,229 --> 00:03:02,640

shattering i don't want everyone to get

64

00:03:07,350 --> 00:03:04,239

their hopes up because

65

00:03:08,229 --> 00:03:07,360

um i've been at this long enough to see

66

00:03:10,710 --> 00:03:08,239

a lot of

67

00:03:12,070 --> 00:03:10,720

hopes get crushed when something looks

68

00:03:15,910 --> 00:03:12,080

really promising

69

00:03:18,229 --> 00:03:15,920

and so i caution you to uh just

70

00:03:18,949 --> 00:03:18,239

keep in mind that whatever it is it may

71

00:03:21,509 --> 00:03:18,959

not be

72

00:03:23,030 --> 00:03:21,519

such a big deal after all whatever comes

73

00:03:24,869 --> 00:03:23,040

forward

74

00:03:27,030 --> 00:03:24,879

if we keep that attitude then we're

75

00:03:30,070 --> 00:03:27,040

going to be just fine

76

00:03:31,190 --> 00:03:30,080

as far as robert powell he has his

77

00:03:34,630 --> 00:03:31,200

biography he's

78

00:03:36,949 --> 00:03:34,640

he has a bs in chemistry and he's a

79

00:03:39,110 --> 00:03:36,959

a former debater so i'm not going to

80

00:03:41,589 --> 00:03:39,120

debate him at all tonight

81

00:03:42,390 --> 00:03:41,599

he has 28 years experience in

82

00:03:45,430 --> 00:03:42,400

engineering

83

00:03:46,470 --> 00:03:45,440

management in the semi-conductor field

84

00:03:49,670 --> 00:03:46,480

he's also

85

00:03:50,309 --> 00:03:49,680

had some patents in nanotechnology which

86

00:03:58,309 --> 00:03:50,319

i

87

00:04:00,149 --> 00:03:58,319

me

88

00:04:01,830 --> 00:04:00,159

anyway he's a great guest he's got a

89

00:04:02,789 --> 00:04:01,840

great science background and someone

90

00:04:05,830 --> 00:04:02,799

actually

91

00:04:06,630 --> 00:04:05,840

looks into this topic which i really

92

00:04:10,070 --> 00:04:06,640

appreciate

93

00:04:11,830 --> 00:04:10,080

um anyone uh that has uh you know i

94

00:04:13,429 --> 00:04:11,840

i want to say the guts but more and more

95

00:04:15,910 --> 00:04:13,439

people are

96

00:04:17,030 --> 00:04:15,920

uh with a science background are looking

97

00:04:19,909 --> 00:04:17,040

into this topic

98

00:04:20,789 --> 00:04:19,919

because of the things that have moved

99

00:04:24,230 --> 00:04:20,799

the needle

100

00:04:25,749 --> 00:04:24,240

and we'll be talking more about that

101

00:04:28,390 --> 00:04:25,759

i want to thank everyone behind the

102

00:04:29,990 --> 00:04:28,400

scenes uh bill will be uh screening over

103

00:04:32,629 --> 00:04:30,000

at kgra radio

104

00:04:33,430 --> 00:04:32,639

uh tonight um i don't have this the

105

00:04:35,350 --> 00:04:33,440

screen up

106

00:04:37,030 --> 00:04:35,360

he's gonna be taking the calls and and

107

00:04:39,030 --> 00:04:37,040

it might be a little bit clunky

108

00:04:40,870 --> 00:04:39,040

but uh we should be able to get it

109

00:04:43,030 --> 00:04:40,880

working tonight and that's in the last

110

00:04:44,550 --> 00:04:43,040

half hour of the show that we'll be

111

00:04:46,150 --> 00:04:44,560

taking calls

112

00:04:48,150 --> 00:04:46,160

i want to thank everyone that listens to

113

00:04:50,390 --> 00:04:48,160

the show and

114

00:04:52,230 --> 00:04:50,400

also i want to thank people that help

115

00:04:54,390 --> 00:04:52,240

out with this show if you can't

116

00:04:55,270 --> 00:04:54,400

help out i still appreciate you

117

00:04:56,950 --> 00:04:55,280

listening

118

00:04:59,110 --> 00:04:56,960

and if you want to be a supporter for a

119

00:05:01,110 --> 00:04:59,120

couple of dollars or more a month

120

00:05:02,469 --> 00:05:01,120

and there's also an option for one-time

121

00:05:05,990 --> 00:05:02,479

yearly payments

122

00:05:08,790 --> 00:05:06,000

and that's at [patreon.com](https://patreon.com)

123

00:05:10,310 --> 00:05:08,800

martin willis podcast ufo i wish it

124

00:05:13,510 --> 00:05:10,320

could be shorter than that but that's

125

00:05:16,629 --> 00:05:13,520

the way it is um and we do have a

126

00:05:18,070 --> 00:05:16,639

blog this week um from

127

00:05:20,150 --> 00:05:18,080

uh charles lehrer it's called

128

00:05:20,790 --> 00:05:20,160

broadcasting from the ufo now he always

129

00:05:23,590 --> 00:05:20,800

puts

130

00:05:25,270 --> 00:05:23,600

the title ufo in all of his titles and

131

00:05:26,550 --> 00:05:25,280

that's my fault i told him to do that

132

00:05:28,950 --> 00:05:26,560

because

133

00:05:30,870 --> 00:05:28,960

if i put something up on youtube and it

134

00:05:32,150 --> 00:05:30,880

doesn't have the word ufo in the title

135

00:05:35,510 --> 00:05:32,160

for some reason

136

00:05:39,350 --> 00:05:35,520

um it it it doesn't get the

137

00:05:40,629 --> 00:05:39,360

uh the downloads and it's kind of funny

138

00:05:42,950 --> 00:05:40,639

but so he puts that

139

00:05:43,909 --> 00:05:42,960

the word ufo on all the titles and this

140

00:05:47,270 --> 00:05:43,919

is basically about

141

00:05:50,390 --> 00:05:47,280

um going back to the the wow signal

142

00:05:53,510 --> 00:05:50,400

um all the way from uh you know

143

00:05:55,670 --> 00:05:53,520

alleged signals that were picked up

144

00:05:57,189 --> 00:05:55,680

uh by extraterrestrial and things like

145

00:05:58,390 --> 00:05:57,199

that it's kind of an interesting vlog

146

00:06:00,710 --> 00:05:58,400

check it out

147

00:06:02,790 --> 00:06:00,720

and i think that will do it for me for

148

00:06:03,189 --> 00:06:02,800

now i am about ready to bring in my

149

00:06:05,830 --> 00:06:03,199

guest

150

00:06:07,830 --> 00:06:05,840

welcome to the show robert hi martin

151

00:06:09,189 --> 00:06:07,840

it's good to be back again

152

00:06:10,790 --> 00:06:09,199

yeah i'm trying to think it was like

153

00:06:11,830 --> 00:06:10,800

last year sometime you were on the show

154

00:06:15,189 --> 00:06:11,840

i believe right

155

00:06:17,189 --> 00:06:15,199

yeah i think so yeah on you have

156

00:06:18,390 --> 00:06:17,199

written a book you're always welcome on

157

00:06:20,870 --> 00:06:18,400

the show by the way uh

158

00:06:22,070 --> 00:06:20,880

always uh love you haven't uh love you

159

00:06:25,110 --> 00:06:22,080

on the show

160

00:06:27,990 --> 00:06:25,120

and uh and i think one of the top

161

00:06:28,870 --> 00:06:28,000

shows that i have on youtube as far as

162

00:06:30,629 --> 00:06:28,880

downloads

163

00:06:32,309 --> 00:06:30,639

is one with you in it talking about the

164

00:06:35,510 --> 00:06:32,319

nimitz case

165

00:06:38,550 --> 00:06:35,520

oh yeah we uh we did that show

166

00:06:40,629 --> 00:06:38,560

before the new york times uh right it

167

00:06:42,469 --> 00:06:40,639

was like the week before

168

00:06:43,830 --> 00:06:42,479

uh at least a week i think it may have

169

00:06:46,790 --> 00:06:43,840

been a month before

170

00:06:47,670 --> 00:06:46,800

yeah yeah and uh and that was just

171

00:06:50,950 --> 00:06:47,680

perfect timing

172

00:06:53,510 --> 00:06:50,960

so yeah as a matter of fact uh

173

00:06:54,070 --> 00:06:53,520

i have to give you credit martin because

174

00:06:57,029 --> 00:06:54,080

it was it

175

00:06:58,309 --> 00:06:57,039

because of your show that i found kevin

176

00:07:01,670 --> 00:06:58,319

day

177

00:07:03,189 --> 00:07:01,680

that's right yes first guy i

178

00:07:04,710 --> 00:07:03,199

he commented on the show and then you

179

00:07:07,110 --> 00:07:04,720

looked him up or something yeah

180

00:07:08,550 --> 00:07:07,120

exactly yeah he was watching your show

181

00:07:11,189 --> 00:07:08,560

and that's how i found him

182

00:07:13,110 --> 00:07:11,199

and i was already aware of the the

183

00:07:16,150 --> 00:07:13,120

sailors from the uss princeton

184

00:07:19,189 --> 00:07:16,160

but because i had monitored

185

00:07:20,870 --> 00:07:19,199

the princeton facebook site but i had uh

186

00:07:23,990 --> 00:07:20,880

not been able to get in touch with any

187

00:07:25,990 --> 00:07:24,000

of them until uh after i did your show

188

00:07:27,990 --> 00:07:26,000

and there's one more witness that just

189

00:07:29,350 --> 00:07:28,000

came forward see a lot of people will

190

00:07:30,070 --> 00:07:29,360

complain like why do you talk about

191

00:07:31,430 --> 00:07:30,080

these old

192

00:07:33,350 --> 00:07:31,440

sayings that one's not really that old

193

00:07:35,589 --> 00:07:33,360

2004's

194

00:07:38,070 --> 00:07:35,599

and the scope of things is not uh not

195

00:07:40,150 --> 00:07:38,080

that long ago as far as sightings go but

196

00:07:42,230 --> 00:07:40,160

i will tell you this that people are

197

00:07:44,950 --> 00:07:42,240

slowly still coming forward

198

00:07:46,309 --> 00:07:44,960

to this day and someone uh recently i

199

00:07:47,189 --> 00:07:46,319

think maybe two or three months ago

200

00:07:49,029 --> 00:07:47,199

they're going to be on the show

201  
00:07:51,270 --> 00:07:49,039  
eventually

202  
00:07:52,469 --> 00:07:51,280  
but came forward and yeah what do you

203  
00:07:54,469 --> 00:07:52,479  
think about that do you

204  
00:07:56,150 --> 00:07:54,479  
do you think that uh more and more

205  
00:07:57,670 --> 00:07:56,160  
people come forward or

206  
00:07:59,909 --> 00:07:57,680  
do you think that's going to be yet for

207  
00:08:02,070 --> 00:07:59,919  
a while uh i think

208  
00:08:03,990 --> 00:08:02,080  
you'll probably slowly have more and

209  
00:08:06,629 --> 00:08:04,000  
more people come forward

210  
00:08:07,830 --> 00:08:06,639  
uh the problem is you know once they get

211  
00:08:10,869 --> 00:08:07,840  
so much press

212  
00:08:12,390 --> 00:08:10,879  
like this is they've heard other

213  
00:08:15,909 --> 00:08:12,400

witnesses talk

214

00:08:18,150 --> 00:08:15,919

and so that that kind of shades their

215

00:08:19,430 --> 00:08:18,160

their testimony to a certain extent

216

00:08:21,830 --> 00:08:19,440

although uh

217

00:08:24,869 --> 00:08:21,840

you know if they're coming forward just

218

00:08:29,270 --> 00:08:24,879

to confirm that something happened

219

00:08:32,149 --> 00:08:29,280

then you know that's okay uh but it's

220

00:08:33,430 --> 00:08:32,159

it's harder to use the details of their

221

00:08:36,709 --> 00:08:33,440

testimony

222

00:08:37,350 --> 00:08:36,719

if uh once they've heard other witnesses

223

00:08:40,149 --> 00:08:37,360

talk

224

00:08:40,870 --> 00:08:40,159

i understand totally um you know that

225

00:08:42,709 --> 00:08:40,880

happens

226

00:08:44,230 --> 00:08:42,719

um in other sightings too you think of

227

00:08:46,949 --> 00:08:44,240

rendelsham forest

228

00:08:48,710 --> 00:08:46,959

um you know there's uh some people that

229

00:08:50,150 --> 00:08:48,720

magically all of a sudden put themselves

230

00:08:54,230 --> 00:08:50,160

there in the field

231

00:08:57,910 --> 00:08:54,240

um and i i get that but uh i think

232

00:08:58,790 --> 00:08:57,920

that if uh you know how do you vet

233

00:08:59,990 --> 00:08:58,800

someone like that

234

00:09:02,389 --> 00:09:00,000

that must be really hard because you

235

00:09:03,030 --> 00:09:02,399

can't they could actually have been on

236

00:09:05,110 --> 00:09:03,040

the ship

237

00:09:07,030 --> 00:09:05,120

during that time and and still know

238

00:09:08,870 --> 00:09:07,040

nothing i mean it's possible

239

00:09:10,790 --> 00:09:08,880

right right i mean because like for

240

00:09:13,590 --> 00:09:10,800

example i've got the log of the ship

241

00:09:15,670 --> 00:09:13,600

so i know who all was on the ship uh so

242

00:09:19,670 --> 00:09:15,680

they could have been on the ship

243

00:09:22,470 --> 00:09:19,680

um and you can determine that but

244

00:09:24,470 --> 00:09:22,480

it's it's just our memories are uh

245

00:09:27,829 --> 00:09:24,480

affected by what we hear

246

00:09:30,949 --> 00:09:27,839

and so once you it's it's best i mean

247

00:09:32,389 --> 00:09:30,959

best case situation is you identify your

248

00:09:34,070 --> 00:09:32,399

witnesses

249

00:09:37,509 --> 00:09:34,080

and you interview them before they've

250

00:09:39,750 --> 00:09:37,519

talked to each other yeah

251  
00:09:40,550 --> 00:09:39,760  
yeah and i don't know this later

252  
00:09:42,070 --> 00:09:40,560  
gentlemen um

253  
00:09:44,630 --> 00:09:42,080  
he has an unusual name i just can't

254  
00:09:47,190 --> 00:09:44,640  
think of it right now that came forward

255  
00:09:49,670 --> 00:09:47,200  
i i think dave beatty has done a lot of

256  
00:09:52,630 --> 00:09:49,680  
the work with these people

257  
00:09:54,870 --> 00:09:52,640  
as far as you know trying to um get

258  
00:09:57,350 --> 00:09:54,880  
their story

259  
00:09:58,949 --> 00:09:57,360  
but but again you know i understand what

260  
00:09:59,670 --> 00:09:58,959  
you're saying if you hear someone else's

261  
00:10:01,350 --> 00:09:59,680  
story

262  
00:10:03,670 --> 00:10:01,360  
unless you have a whole different take

263  
00:10:05,110 --> 00:10:03,680

or you have something that you're

264

00:10:08,710 --> 00:10:05,120

cooperating

265

00:10:11,910 --> 00:10:08,720

it's a tough one right yeah

266

00:10:13,829 --> 00:10:11,920

um but still i think it's uh i have

267

00:10:15,829 --> 00:10:13,839

said this uh a number of times i think

268

00:10:19,030 --> 00:10:15,839

it's one of the better cases

269

00:10:20,310 --> 00:10:19,040

that um in in this topic you know i'd

270

00:10:23,350 --> 00:10:20,320

have to say it's up in the

271

00:10:23,670 --> 00:10:23,360

top five at least oh i think so i think

272

00:10:30,550 --> 00:10:23,680

it's

273

00:10:33,190 --> 00:10:30,560

of history on this subject yeah

274

00:10:34,069 --> 00:10:33,200

and and you probably agree with me it's

275

00:10:35,750 --> 00:10:34,079

because of

276

00:10:37,990 --> 00:10:35,760

first of all it's military and then all

277

00:10:40,069 --> 00:10:38,000

the backup you know the radar

278

00:10:41,590 --> 00:10:40,079

and the two different types of radar and

279

00:10:44,870 --> 00:10:41,600

then the fl

280

00:10:49,190 --> 00:10:44,880

flr um video

281

00:10:51,910 --> 00:10:49,200

and supposedly a a high quality digital

282

00:10:54,150 --> 00:10:51,920

video that i would love to see along

283

00:10:58,150 --> 00:10:54,160

with a million other people

284

00:11:00,150 --> 00:10:58,160

yeah right yeah uh you think that

285

00:11:01,430 --> 00:11:00,160

you think there'll ever be a day that

286

00:11:05,030 --> 00:11:01,440

that type of video

287

00:11:07,910 --> 00:11:05,040

would be released you know that's a

288

00:11:10,470 --> 00:11:07,920

excellent question i mean personally i i

289

00:11:13,750 --> 00:11:10,480

don't see any national security issue

290

00:11:16,310 --> 00:11:13,760

involved so i don't see any reason why

291

00:11:18,470 --> 00:11:16,320

it shouldn't be released

292

00:11:20,389 --> 00:11:18,480

the same thing with the radar data i

293

00:11:23,269 --> 00:11:20,399

mean you can't release

294

00:11:24,310 --> 00:11:23,279

the nitty gritty details of the radar

295

00:11:27,670 --> 00:11:24,320

data because

296

00:11:30,069 --> 00:11:27,680

that you know that could compromise

297

00:11:30,550 --> 00:11:30,079

national security issues right because

298

00:11:33,190 --> 00:11:30,560

uh

299

00:11:35,430 --> 00:11:33,200

an adversary could figure out what our

300

00:11:38,630 --> 00:11:35,440

radar's capability

301  
00:11:39,829 --> 00:11:38,640  
uh is even though this is you know 15 16

302  
00:11:43,509 --> 00:11:39,839  
years ago

303  
00:11:44,630 --> 00:11:43,519  
yeah but there's nothing about the radar

304  
00:11:47,430 --> 00:11:44,640  
data

305  
00:11:48,710 --> 00:11:47,440  
that compromises national security if

306  
00:11:51,829 --> 00:11:48,720  
the question is

307  
00:11:55,829 --> 00:11:51,839  
how fast did the object go right

308  
00:11:59,110 --> 00:11:55,839  
or how fast did it accelerate

309  
00:12:00,230 --> 00:11:59,120  
those facts could be released by the

310  
00:12:03,030 --> 00:12:00,240  
military

311  
00:12:05,670 --> 00:12:03,040  
and those i see no reason why that

312  
00:12:08,790 --> 00:12:05,680  
should compromise national security

313  
00:12:11,350 --> 00:12:08,800

and if they already have footage out

314

00:12:12,949 --> 00:12:11,360

albeit it's very short i don't know how

315

00:12:14,870 --> 00:12:12,959

many seconds it is but it's not

316

00:12:16,310 --> 00:12:14,880

not very long and i also understand that

317

00:12:18,069 --> 00:12:16,320

was also

318

00:12:19,750 --> 00:12:18,079

shortened because of what you just

319

00:12:23,030 --> 00:12:19,760

mentioned you know uh

320

00:12:25,190 --> 00:12:23,040

classified uh information could you know

321

00:12:28,629 --> 00:12:25,200

they could somehow

322

00:12:30,790 --> 00:12:28,639

um figure out how to get

323

00:12:32,389 --> 00:12:30,800

uh i'm not sure what it was but i i

324

00:12:34,629 --> 00:12:32,399

heard lou elizondo

325

00:12:35,509 --> 00:12:34,639

kind of explain why they made the video

326  
00:12:38,389 --> 00:12:35,519  
short

327  
00:12:39,829 --> 00:12:38,399  
and it was really to curb any uh

328  
00:12:43,430 --> 00:12:39,839  
information getting up

329  
00:12:44,389 --> 00:12:43,440  
out there so like like you're talking

330  
00:12:46,550 --> 00:12:44,399  
about

331  
00:12:48,150 --> 00:12:46,560  
but um i don't know why that would be

332  
00:12:49,670 --> 00:12:48,160  
why the videos would have to be short

333  
00:12:50,150 --> 00:12:49,680  
what what difference that would make

334  
00:12:51,990 --> 00:12:50,160  
unless

335  
00:12:53,430 --> 00:12:52,000  
some type of readings up on the screen

336  
00:12:56,470 --> 00:12:53,440  
or something like that

337  
00:12:58,870 --> 00:12:56,480  
yeah i have no idea why that particular

338  
00:13:01,269 --> 00:12:58,880

one needed to be short

339

00:13:01,910 --> 00:13:01,279

i can't say i'm sure that it's it's a

340

00:13:04,949 --> 00:13:01,920

longer

341

00:13:07,590 --> 00:13:04,959

video not only had

342

00:13:09,750 --> 00:13:07,600

different individuals testified to that

343

00:13:11,829 --> 00:13:09,760

but the lieutenant commander

344

00:13:13,190 --> 00:13:11,839

who was there with fravor and that was

345

00:13:16,230 --> 00:13:13,200

lieutenant commander

346

00:13:19,350 --> 00:13:16,240

james slate he had a very

347

00:13:22,389 --> 00:13:19,360

good point and he said

348

00:13:22,790 --> 00:13:22,399

the way that's done it squeals up videos

349

00:13:30,230 --> 00:13:22,800

on

350

00:13:31,829 --> 00:13:30,240

last moment

351

00:13:34,150 --> 00:13:31,839

you just turn on the video when you

352

00:13:37,350 --> 00:13:34,160

leave the as you're leaving the ship

353

00:13:39,509 --> 00:13:37,360

and it stays on so there's no reason

354

00:13:40,790 --> 00:13:39,519

why there wouldn't be more video than

355

00:13:43,670 --> 00:13:40,800

what's seen

356

00:13:45,189 --> 00:13:43,680

yeah yeah well it'll it'll be

357

00:13:48,389 --> 00:13:45,199

interesting if anything else

358

00:13:51,750 --> 00:13:48,399

um comes out you know

359

00:13:54,870 --> 00:13:51,760

as far as as far as that goes

360

00:13:56,230 --> 00:13:54,880

i i really don't understand if they've

361

00:13:58,150 --> 00:13:56,240

already leaked

362

00:13:59,990 --> 00:13:58,160

or however that other video got out

363

00:14:02,470 --> 00:14:00,000

there what

364

00:14:03,910 --> 00:14:02,480

it can't be more earth-shattering you

365

00:14:05,509 --> 00:14:03,920

know maybe maybe it would be

366

00:14:07,910 --> 00:14:05,519

you could actually see a very clear

367

00:14:09,509 --> 00:14:07,920

object doing weird things you know maybe

368

00:14:11,990 --> 00:14:09,519

that's what their

369

00:14:13,350 --> 00:14:12,000

the hesitation is of i don't know you

370

00:14:21,269 --> 00:14:13,360

know

371

00:14:23,030 --> 00:14:21,279

air force

372

00:14:24,389 --> 00:14:23,040

is probably not going to disclose that

373

00:14:25,670 --> 00:14:24,399

they don't have any control over

374

00:14:28,389 --> 00:14:25,680

whatever it is

375

00:14:31,030 --> 00:14:28,399

that's uh in our skies right yeah that's

376

00:14:34,389 --> 00:14:31,040

a tough thing to admit

377

00:14:36,389 --> 00:14:34,399

yeah yeah um well

378

00:14:37,829 --> 00:14:36,399

isn't this interesting well i want to

379

00:14:40,949 --> 00:14:37,839

hear about um

380

00:14:42,790 --> 00:14:40,959

your your book and what was the genesis

381

00:14:45,829 --> 00:14:42,800

of uh writing that book

382

00:14:48,470 --> 00:14:45,839

okay so uh you know the first book that

383

00:14:51,590 --> 00:14:48,480

we wrote was ufos and government

384

00:14:52,230 --> 00:14:51,600

and uh that book was really directed

385

00:14:54,629 --> 00:14:52,240

towards

386

00:14:55,670 --> 00:14:54,639

the academic world so university

387

00:14:58,069 --> 00:14:55,680

students

388

00:14:58,949 --> 00:14:58,079

it's like 500 pages and it has a

389

00:15:01,990 --> 00:14:58,959  
thousand

390

00:15:04,949 --> 00:15:02,000  
references uh throughout the book

391

00:15:06,710 --> 00:15:04,959  
uh but this book and i've got it here

392

00:15:08,069 --> 00:15:06,720  
just so your viewers can see it so

393

00:15:10,310 --> 00:15:08,079  
that's kind of what the but this is a

394

00:15:12,550 --> 00:15:10,320  
hardback cover of the book

395

00:15:14,790 --> 00:15:12,560  
um and that's kind of what it looks

396

00:15:17,829 --> 00:15:14,800  
looks like on the inside

397

00:15:18,710 --> 00:15:17,839  
yeah it's uh it's got more photos than

398

00:15:20,470 --> 00:15:18,720  
that though

399

00:15:22,710 --> 00:15:20,480  
uh you know we've got various

400

00:15:23,509 --> 00:15:22,720  
photographs because kids like pictures

401  
00:15:27,590 --> 00:15:23,519  
right

402  
00:15:31,189 --> 00:15:30,310  
this book was geared towards ages 7 to

403  
00:15:32,790 --> 00:15:31,199  
12.

404  
00:15:34,550 --> 00:15:32,800  
and so there's a little story on what

405  
00:15:37,430 --> 00:15:34,560  
caused me to write it because i

406  
00:15:39,189 --> 00:15:37,440  
it's not like i decided a year ago okay

407  
00:15:42,629 --> 00:15:39,199  
i need i want to write a book for

408  
00:15:44,629 --> 00:15:42,639  
for kids i've got uh

409  
00:15:45,829 --> 00:15:44,639  
three grandkids and one of them who's

410  
00:15:48,710 --> 00:15:45,839  
seven years old

411  
00:15:51,030 --> 00:15:48,720  
he's the middle one um i was taking care

412  
00:15:53,189 --> 00:15:51,040  
of them back in january this year before

413  
00:15:56,470 --> 00:15:53,199

all this co-wood stuff started

414

00:15:57,509 --> 00:15:56,480

and so is um they all know that their

415

00:16:00,790 --> 00:15:57,519

grandfather

416

00:16:01,509 --> 00:16:00,800

you know has an interest in ufos um and

417

00:16:03,430 --> 00:16:01,519

all all

418

00:16:05,269 --> 00:16:03,440

of them are kind of science-minded and

419

00:16:07,509 --> 00:16:05,279

so the middle one

420

00:16:08,949 --> 00:16:07,519

he had checked out a book on ufos from

421

00:16:10,629 --> 00:16:08,959

his library

422

00:16:12,470 --> 00:16:10,639

and i guess he wanted to learn about it

423

00:16:14,949 --> 00:16:12,480

so i grabbed

424

00:16:16,069 --> 00:16:14,959

you know picked up the book and i looked

425

00:16:19,509 --> 00:16:16,079

at it

426  
00:16:23,110 --> 00:16:19,519  
and it just was not an appropriate book

427  
00:16:25,350 --> 00:16:23,120  
for little kids not only did i not

428  
00:16:26,230 --> 00:16:25,360  
agree with the information that was in

429  
00:16:29,350 --> 00:16:26,240  
the book

430  
00:16:32,310 --> 00:16:29,360  
but it had all these gray aliens

431  
00:16:33,829 --> 00:16:32,320  
and stories that would just frighten a

432  
00:16:36,550 --> 00:16:33,839  
kid to death

433  
00:16:37,749 --> 00:16:36,560  
so i told him i said his name's gavin so

434  
00:16:39,509 --> 00:16:37,759  
i said gavin

435  
00:16:42,069 --> 00:16:39,519  
just take this book back to the library

436  
00:16:44,629 --> 00:16:42,079  
do not read this book

437  
00:16:45,509 --> 00:16:44,639  
and i said i t i'll tell you what i'll

438  
00:16:48,949 --> 00:16:45,519

do

439

00:16:51,590 --> 00:16:48,959

i'll write you a book about ufos

440

00:16:52,949 --> 00:16:51,600

and so i promised him i would do that

441

00:16:56,150 --> 00:16:52,959

and so i decided okay

442

00:16:59,350 --> 00:16:56,160

so um the older grand

443

00:17:00,069 --> 00:16:59,360

child is uh nine so i said let me write

444

00:17:04,390 --> 00:17:00,079

something in

445

00:17:06,230 --> 00:17:04,400

for that age group and and for kids that

446

00:17:09,110 --> 00:17:06,240

are kind of science-minded

447

00:17:10,390 --> 00:17:09,120

to start with you know at that age kids

448

00:17:11,829 --> 00:17:10,400

don't really know if they're going to

449

00:17:14,069 --> 00:17:11,839

like science or not like

450

00:17:15,429 --> 00:17:14,079

science but that's when curiosity starts

451  
00:17:19,429 --> 00:17:15,439  
to kick in

452  
00:17:22,390 --> 00:17:19,439  
and so i wanted to write a book that

453  
00:17:23,669 --> 00:17:22,400  
is more than just about ufos it kind of

454  
00:17:27,270 --> 00:17:23,679  
teaches them

455  
00:17:30,549 --> 00:17:27,280  
a little bit about critical thinking uh

456  
00:17:32,230 --> 00:17:30,559  
how to see the world

457  
00:17:34,549 --> 00:17:32,240  
it kind of shows them that things aren't

458  
00:17:36,390 --> 00:17:34,559  
black and white that really the world is

459  
00:17:39,270 --> 00:17:36,400  
shades of gray

460  
00:17:39,750 --> 00:17:39,280  
and that that that's how you need to

461  
00:17:41,990 --> 00:17:39,760  
approach

462  
00:17:44,150 --> 00:17:42,000  
things in life so that's kind of what

463  
00:17:45,430 --> 00:17:44,160

got me started on writing the book so i

464

00:17:49,190 --> 00:17:45,440

started on it

465

00:17:50,070 --> 00:17:49,200

in probably in march and i completed the

466

00:17:52,710 --> 00:17:50,080

full book

467

00:17:54,310 --> 00:17:52,720

by september and then i published it

468

00:17:57,510 --> 00:17:54,320

about one week ago

469

00:17:59,430 --> 00:17:57,520

so it's just been published oh wow

470

00:18:01,510 --> 00:17:59,440

now um you know you mentioned the

471

00:18:05,430 --> 00:18:01,520

pictures what

472

00:18:08,470 --> 00:18:05,440

um what else you know as as you know

473

00:18:10,630 --> 00:18:08,480

everyone has a shorter attention span

474

00:18:12,230 --> 00:18:10,640

um especially with all the information

475

00:18:13,350 --> 00:18:12,240

and i blame it on you know technology

476

00:18:15,669 --> 00:18:13,360

and information

477

00:18:17,029 --> 00:18:15,679

just coming at you in every which way

478

00:18:20,070 --> 00:18:17,039

how do you hold

479

00:18:21,510 --> 00:18:20,080

the uh reader yeah and ages seven to

480

00:18:23,750 --> 00:18:21,520

twelve is that

481

00:18:24,710 --> 00:18:23,760

right yeah yeah this is age seven to

482

00:18:26,830 --> 00:18:24,720

twelve and

483

00:18:27,990 --> 00:18:26,840

you've got a good point martin i mean

484

00:18:31,510 --> 00:18:28,000

technopoly

485

00:18:32,870 --> 00:18:31,520

his uh i mean the average adult on

486

00:18:36,549 --> 00:18:32,880

youtube

487

00:18:39,830 --> 00:18:36,559

of one and a half

488

00:18:43,750 --> 00:18:39,840

minutes and then they're gone you know

489

00:18:45,270 --> 00:18:43,760

yeah so um and kids have even shorter

490

00:18:48,310 --> 00:18:45,280

attention spans right

491

00:18:51,270 --> 00:18:48,320

so i wrote the book to

492

00:18:51,830 --> 00:18:51,280

like for example i've got about a dozen

493

00:18:54,710 --> 00:18:51,840

different

494

00:18:55,990 --> 00:18:54,720

really interesting cases but i don't you

495

00:18:59,029 --> 00:18:56,000

know i don't do pages

496

00:19:02,470 --> 00:18:59,039

and pages of these cases i keep

497

00:19:05,590 --> 00:19:02,480

each case to three to five pages i

498

00:19:07,909 --> 00:19:05,600

throw in pictures whenever i can and i

499

00:19:10,630 --> 00:19:07,919

try to make it interesting to a kid

500

00:19:11,909 --> 00:19:10,640

so i'll say okay this happened and then

501  
00:19:14,470 --> 00:19:11,919  
i'll ask them a question

502  
00:19:16,710 --> 00:19:14,480  
so why do you think that happened or

503  
00:19:19,909 --> 00:19:16,720  
does it make sense that this happened

504  
00:19:20,390 --> 00:19:19,919  
or or go ask your parents about such and

505  
00:19:22,870 --> 00:19:20,400  
such

506  
00:19:24,150 --> 00:19:22,880  
and see what they think so i'm trying to

507  
00:19:27,669 --> 00:19:24,160  
get the the child

508  
00:19:31,110 --> 00:19:27,679  
to you know interact with the book

509  
00:19:34,230 --> 00:19:31,120  
um as well as you know his surroundings

510  
00:19:37,270 --> 00:19:34,240  
so that's kind of why how i wrote it to

511  
00:19:38,789 --> 00:19:37,280  
keep it at that age level and um do you

512  
00:19:42,950 --> 00:19:38,799  
think there's going to be any

513  
00:19:45,430 --> 00:19:42,960

um i don't want to say backlash but

514

00:19:46,549 --> 00:19:45,440

you know if if a parent picked this up

515

00:19:48,630 --> 00:19:46,559

and looked at it would

516

00:19:51,350 --> 00:19:48,640

you know would they say to the kid do

517

00:19:53,350 --> 00:19:51,360

you think the title of the book helps

518

00:19:54,789 --> 00:19:53,360

that so the parent wouldn't say hey you

519

00:19:57,110 --> 00:19:54,799

know this is what are you reading this

520

00:19:58,710 --> 00:19:57,120

silly stuff for

521

00:20:00,549 --> 00:19:58,720

you know you talk about the scientific

522

00:20:04,390 --> 00:20:00,559

perspective i think

523

00:20:06,310 --> 00:20:04,400

if the parent uh any parent right

524

00:20:07,990 --> 00:20:06,320

were to read the book i think they would

525

00:20:11,270 --> 00:20:08,000

find it interesting although it

526

00:20:12,230 --> 00:20:11,280

is written for a 7 to 12 year old age

527

00:20:14,870 --> 00:20:12,240

group

528

00:20:16,390 --> 00:20:14,880

but there's there's no strong

529

00:20:18,549 --> 00:20:16,400

conclusions drawn

530

00:20:20,390 --> 00:20:18,559

in the book right it just lays out

531

00:20:23,750 --> 00:20:20,400

here's what happened

532

00:20:26,390 --> 00:20:23,760

and then it asks the kid you know

533

00:20:29,029 --> 00:20:26,400

what do you think and it doesn't say

534

00:20:33,270 --> 00:20:29,039

here's the answer or there's the answer

535

00:20:35,669 --> 00:20:33,280

it just it asks them to use their own

536

00:20:37,270 --> 00:20:35,679

you know thinking process i'll give you

537

00:20:40,470 --> 00:20:37,280

an example so

538

00:20:41,350 --> 00:20:40,480

one of the cases i used was uh menville

539

00:20:43,510 --> 00:20:41,360

oregon

540

00:20:45,590 --> 00:20:43,520

yeah right so that's a you could write

541

00:20:48,870 --> 00:20:45,600

pages on that but it's only about

542

00:20:50,630 --> 00:20:48,880

four to five pages and for example i

543

00:20:53,029 --> 00:20:50,640

don't mention the city

544

00:20:55,110 --> 00:20:53,039

i mean what eight or nine year old cares

545

00:20:57,190 --> 00:20:55,120

at the name of the city was mcminnville

546

00:20:58,230 --> 00:20:57,200

plus it happened in a rural area anyway

547

00:21:01,350 --> 00:20:58,240

so

548

00:21:02,870 --> 00:21:01,360

uh but i did i start off and i just tell

549

00:21:04,710 --> 00:21:02,880

the story here's what happened

550

00:21:06,070 --> 00:21:04,720

and here's the pictures and they can

551  
00:21:08,070 --> 00:21:06,080  
look at the pictures

552  
00:21:10,310 --> 00:21:08,080  
and then i have a photograph of the

553  
00:21:13,510 --> 00:21:10,320  
camera that was used

554  
00:21:15,190 --> 00:21:13,520  
and then i tell them i do these little

555  
00:21:17,909 --> 00:21:15,200  
sidebars you know where i'll say

556  
00:21:19,510 --> 00:21:17,919  
uh back then there's no such thing as a

557  
00:21:21,830 --> 00:21:19,520  
digital camera

558  
00:21:23,590 --> 00:21:21,840  
these things had something called film

559  
00:21:26,070 --> 00:21:23,600  
and then then i say

560  
00:21:27,110 --> 00:21:26,080  
go to your parents or grandparents and

561  
00:21:30,310 --> 00:21:27,120  
ask them about

562  
00:21:31,510 --> 00:21:30,320  
cameras with film right because those

563  
00:21:34,310 --> 00:21:31,520

are the things that

564

00:21:34,630 --> 00:21:34,320

it's interesting for a kid to learn uh

565

00:21:37,190 --> 00:21:34,640

it

566

00:21:39,110 --> 00:21:37,200

exposes them to the past and how you

567

00:21:42,070 --> 00:21:39,120

know history was

568

00:21:42,789 --> 00:21:42,080

uh and and so at the like at the end of

569

00:21:44,870 --> 00:21:42,799

the book

570

00:21:45,990 --> 00:21:44,880

i discussed that some people feel that

571

00:21:48,789 --> 00:21:46,000

maybe

572

00:21:50,710 --> 00:21:48,799

uh the trent's who were the family that

573

00:21:51,669 --> 00:21:50,720

took the photographs that perhaps they

574

00:21:55,270 --> 00:21:51,679

hoaxed them

575

00:21:58,470 --> 00:21:55,280

right and and i also mentioned that

576

00:22:00,630 --> 00:21:58,480

um as far as we know the community

577

00:22:02,950 --> 00:22:00,640

around them said they weren't those

578

00:22:04,950 --> 00:22:02,960

they weren't that type of individual so

579

00:22:08,549 --> 00:22:04,960

then i just asked the kid in the book

580

00:22:11,190 --> 00:22:08,559

i said so what do you think did

581

00:22:12,789 --> 00:22:11,200

do you think they made it up and i

582

00:22:15,909 --> 00:22:12,799

conclude it by saying

583

00:22:17,830 --> 00:22:15,919

to this day um and i'm

584

00:22:19,830 --> 00:22:17,840

you know we can argue both sides of this

585

00:22:20,230 --> 00:22:19,840

question but to this day we really don't

586

00:22:22,950 --> 00:22:20,240

know

587

00:22:24,549 --> 00:22:22,960

absolutely if those are real photos or

588

00:22:27,750 --> 00:22:24,559

not

589

00:22:29,909 --> 00:22:27,760

right you know it's it's just uh

590

00:22:31,110 --> 00:22:29,919

i lay out the facts i don't really try

591

00:22:35,270 --> 00:22:31,120

to

592

00:22:36,549 --> 00:22:35,280

uh persuade you know the child one way

593

00:22:38,870 --> 00:22:36,559

or another

594

00:22:40,230 --> 00:22:38,880

i've had discussions with mark d'antonio

595

00:22:43,350 --> 00:22:40,240

about that

596

00:22:47,830 --> 00:22:43,360

you know those pictures and

597

00:22:50,549 --> 00:22:47,840

he he doesn't think they're right

598

00:22:51,750 --> 00:22:50,559

and and i don't this is one time a lot

599

00:22:54,710 --> 00:22:51,760

of times i'll agree with

600

00:22:56,470 --> 00:22:54,720

with mark but i didn't agree with him on

601  
00:22:59,669 --> 00:22:56,480  
why he didn't think they were right

602  
00:23:01,350 --> 00:22:59,679  
and i because i've looked

603  
00:23:02,789 --> 00:23:01,360  
real i mean maybe he has something he

604  
00:23:05,669 --> 00:23:02,799  
can look much

605  
00:23:06,310 --> 00:23:05,679  
closer than i could but he thinks he can

606  
00:23:10,710 --> 00:23:06,320  
see

607  
00:23:13,430 --> 00:23:10,720  
this the uh a hint of a line or like a

608  
00:23:14,310 --> 00:23:13,440  
fishing line or something yeah i don't

609  
00:23:16,470 --> 00:23:14,320  
know

610  
00:23:18,710 --> 00:23:16,480  
i don't see that at all and as a matter

611  
00:23:22,470 --> 00:23:18,720  
of fact a french group of

612  
00:23:24,390 --> 00:23:22,480  
uh francois luang who i know well

613  
00:23:25,909 --> 00:23:24,400

they actually use computers to do it and

614

00:23:28,470 --> 00:23:25,919

they they

615

00:23:29,510 --> 00:23:28,480

they can't see it visually but they feel

616

00:23:31,990 --> 00:23:29,520

like

617

00:23:33,830 --> 00:23:32,000

that statistically they could establish

618

00:23:36,310 --> 00:23:33,840

that it's a line there

619

00:23:37,830 --> 00:23:36,320

but then brad sparks i don't know if you

620

00:23:39,430 --> 00:23:37,840

know brad but

621

00:23:41,510 --> 00:23:39,440

he's an aeronautical engineer out in

622

00:23:44,630 --> 00:23:41,520

california he's gone through

623

00:23:47,110 --> 00:23:44,640

luange's report and says no here's all

624

00:23:50,710 --> 00:23:47,120

the mistakes and he lays them out

625

00:23:53,909 --> 00:23:50,720

so i think it's still up in the air um

626

00:23:54,390 --> 00:23:53,919

yeah about it yeah here's a question

627

00:23:57,669 --> 00:23:54,400

that came

628

00:23:58,470 --> 00:23:57,679

in um do you think a curriculum can be

629

00:24:01,350 --> 00:23:58,480

made around

630

00:24:02,470 --> 00:24:01,360

the book's core this is your book of

631

00:24:05,029 --> 00:24:02,480

course

632

00:24:06,070 --> 00:24:05,039

yes i think you could make a curriculum

633

00:24:09,269 --> 00:24:06,080

around it

634

00:24:11,029 --> 00:24:09,279

um i mean if i was going to teach a

635

00:24:14,070 --> 00:24:11,039

group of kids about it

636

00:24:14,789 --> 00:24:14,080

what i would do is i would lay out a

637

00:24:16,870 --> 00:24:14,799

case

638

00:24:19,590 --> 00:24:16,880

you know that occurred and then i would

639

00:24:21,750 --> 00:24:19,600

have the kids start

640

00:24:23,510 --> 00:24:21,760

i would just line up okay what's the

641

00:24:25,510 --> 00:24:23,520

positives and the negatives

642

00:24:27,510 --> 00:24:25,520

what are the reasons this may not be

643

00:24:28,470 --> 00:24:27,520

true and what are the reasons that it is

644

00:24:31,750 --> 00:24:28,480

true

645

00:24:34,630 --> 00:24:31,760

and have them list that right and

646

00:24:35,190 --> 00:24:34,640

and then have them discuss it um i think

647

00:24:40,310 --> 00:24:35,200

it's

648

00:24:43,750 --> 00:24:40,320

ufo topic is an excellent

649

00:24:45,350 --> 00:24:43,760

tool for kids to use and learn how to

650

00:24:48,470 --> 00:24:45,360

use

651  
00:24:49,430 --> 00:24:48,480  
critical thinking uh on both sides of it

652  
00:24:51,190 --> 00:24:49,440  
right

653  
00:24:53,110 --> 00:24:51,200  
you don't want on the one hand to just

654  
00:24:54,950 --> 00:24:53,120  
accept everything on the other hand you

655  
00:24:56,149 --> 00:24:54,960  
don't want to automatically reject

656  
00:24:59,029 --> 00:24:56,159  
everything

657  
00:25:00,470 --> 00:24:59,039  
right you know i wasn't even into ufos

658  
00:25:01,269 --> 00:25:00,480  
when i was a little kid and i can tell

659  
00:25:03,669 --> 00:25:01,279  
you that

660  
00:25:04,950 --> 00:25:03,679  
i would have been into that type of

661  
00:25:07,669 --> 00:25:04,960  
situation

662  
00:25:09,430 --> 00:25:07,679  
you know where um where you can look

663  
00:25:11,110 --> 00:25:09,440

into it and then you have

664

00:25:12,390 --> 00:25:11,120

like a debate about what it could be or

665

00:25:13,669 --> 00:25:12,400

something like that i would have been

666

00:25:15,990 --> 00:25:13,679

very interested

667

00:25:16,789 --> 00:25:16,000

in you know always like science-y type

668

00:25:17,909 --> 00:25:16,799

things and

669

00:25:19,830 --> 00:25:17,919

yeah i definitely would have been

670

00:25:21,830 --> 00:25:19,840

interested in that what are some of the

671

00:25:24,390 --> 00:25:21,840

other cases you talk about in the book

672

00:25:27,510 --> 00:25:24,400

oh one of the other cases i talk about

673

00:25:28,710 --> 00:25:27,520

there was a case in 2013 in ontario

674

00:25:31,909 --> 00:25:28,720

canada

675

00:25:35,430 --> 00:25:31,919

that involved a a scientist who actually

676

00:25:38,710 --> 00:25:35,440

i've met the guy in person he has a r

677

00:25:40,630 --> 00:25:38,720

d lab and he has contracts with the

678

00:25:43,510 --> 00:25:40,640

department of defense so he

679

00:25:44,070 --> 00:25:43,520

he's remained anonymous all these years

680

00:25:46,390 --> 00:25:44,080

but he

681

00:25:47,350 --> 00:25:46,400

and two other guys were out hunting in

682

00:25:49,669 --> 00:25:47,360

ontario

683

00:25:50,870 --> 00:25:49,679

is it this one right here right yes it's

684

00:25:54,149 --> 00:25:50,880

that case right there

685

00:25:55,830 --> 00:25:54,159

yeah uh why don't we go into the

686

00:25:57,990 --> 00:25:55,840

i appreciate you bringing this up as

687

00:26:00,070 --> 00:25:58,000

part of the but can we go into

688

00:26:02,230 --> 00:26:00,080

deep details about this case because i

689

00:26:04,149 --> 00:26:02,240

find it totally fascinating it is it's a

690

00:26:07,110 --> 00:26:04,159

very fascinating case

691

00:26:08,710 --> 00:26:07,120

um so yeah we could go into deep detail

692

00:26:12,310 --> 00:26:08,720

but before i do it

693

00:26:12,950 --> 00:26:12,320

here here's why i i i pick certain cases

694

00:26:15,269 --> 00:26:12,960

because i

695

00:26:17,110 --> 00:26:15,279

thought they would they had good

696

00:26:20,630 --> 00:26:17,120

components that were good for

697

00:26:24,630 --> 00:26:20,640

young kids right so there are no

698

00:26:28,789 --> 00:26:24,640

abduction stories in this book

699

00:26:35,430 --> 00:26:32,390

the but what was nice about this case

700

00:26:36,310 --> 00:26:35,440

is we've got some interesting drawings

701  
00:26:37,909 --> 00:26:36,320  
that been made

702  
00:26:40,070 --> 00:26:37,919  
so that you've got pictures for these

703  
00:26:42,470 --> 00:26:40,080  
kids

704  
00:26:44,630 --> 00:26:42,480  
the key witness is the scientists i

705  
00:26:47,430 --> 00:26:44,640  
think that's a valuable thing for

706  
00:26:50,390 --> 00:26:47,440  
you know kids to know that scientists

707  
00:26:53,350 --> 00:26:50,400  
have also observed these type of objects

708  
00:26:54,149 --> 00:26:53,360  
and then there's also electromagnetic

709  
00:26:57,110 --> 00:26:54,159  
effects

710  
00:26:57,990 --> 00:26:57,120  
that happen during this so i think it's

711  
00:27:00,710 --> 00:26:58,000  
good for the

712  
00:27:01,830 --> 00:27:00,720  
kids to think okay electromagnetic

713  
00:27:05,110 --> 00:27:01,840

effects

714

00:27:07,029 --> 00:27:05,120

what what is that uh what are examples

715

00:27:07,830 --> 00:27:07,039

of electromagnetism you know those kind

716

00:27:11,669 --> 00:27:07,840

of things

717

00:27:13,029 --> 00:27:11,679

and then lastly in this incident there's

718

00:27:17,190 --> 00:27:13,039

a time

719

00:27:20,310 --> 00:27:17,200

when they take out he takes out his gun

720

00:27:22,950 --> 00:27:20,320

and he's got a scope on it and the

721

00:27:24,950 --> 00:27:22,960

main witness who's a scientist he's not

722

00:27:26,070 --> 00:27:24,960

taking out the gun to shoot the object

723

00:27:29,110 --> 00:27:26,080

he's taking it out

724

00:27:32,950 --> 00:27:29,120

because he wants to he's got a 9x

725

00:27:35,510 --> 00:27:32,960

uh lens on it so he's trying to get a

726

00:27:38,549 --> 00:27:35,520

closer up look at the object

727

00:27:39,110 --> 00:27:38,559

well a couple of his his two buddies

728

00:27:43,190 --> 00:27:39,120

they say

729

00:27:44,710 --> 00:27:43,200

shoot it right which he doesn't yeah so

730

00:27:48,070 --> 00:27:44,720

i thought that's an interesting thing

731

00:27:50,549 --> 00:27:48,080

you know for kids to contemplate right

732

00:27:53,110 --> 00:27:50,559

is that a smart thing to do why should

733

00:27:55,750 --> 00:27:53,120

you do that or why should you not

734

00:27:57,750 --> 00:27:55,760

do that right it's all you know to get

735

00:28:00,789 --> 00:27:57,760

their creative juices going

736

00:28:03,350 --> 00:28:00,799

uh but to go back to the case

737

00:28:04,230 --> 00:28:03,360

the first time i ever heard about this

738

00:28:08,549 --> 00:28:04,240

case

739

00:28:13,669 --> 00:28:08,559  
was in 2015

740

00:28:20,470 --> 00:28:17,110  
and phil leach actually found the case

741

00:28:23,590 --> 00:28:20,480  
phil is a retired police investigator

742

00:28:26,630 --> 00:28:23,600  
in indiana and so he he wound up being

743

00:28:30,149 --> 00:28:26,640  
the guy that signed the case

744

00:28:33,830 --> 00:28:30,159  
and when

745

00:28:34,630 --> 00:28:33,840  
phil first got the case he contacted me

746

00:28:36,630 --> 00:28:34,640  
because after

747

00:28:37,669 --> 00:28:36,640  
he talked to the witness he felt like he

748

00:28:40,870 --> 00:28:37,679  
needed some

749

00:28:43,110 --> 00:28:40,880  
support on the case so i gave him

750

00:28:44,070 --> 00:28:43,120  
you know support and he explained the

751  
00:28:47,909 --> 00:28:44,080  
case to me

752  
00:28:50,950 --> 00:28:47,919  
and the first thing to me was

753  
00:28:54,389 --> 00:28:50,960  
wow is this really true

754  
00:28:56,470 --> 00:28:54,399  
right and so i was like okay i i'm

755  
00:28:57,990 --> 00:28:56,480  
i want to come up and meet the guy

756  
00:29:02,710 --> 00:28:58,000  
because i want to

757  
00:29:05,909 --> 00:29:02,720  
verify uh this guy is who he says he is

758  
00:29:09,510 --> 00:29:05,919  
and so i verified

759  
00:29:10,630 --> 00:29:09,520  
that he is a scientist he does have dod

760  
00:29:13,830 --> 00:29:10,640  
contracts

761  
00:29:17,350 --> 00:29:13,840  
he does have an r d lab he does have

762  
00:29:20,630 --> 00:29:17,360  
engineers that work for him

763  
00:29:24,070 --> 00:29:20,640

so this guy and he's got plenty of money

764

00:29:26,710 --> 00:29:24,080

this guy has no motivation

765

00:29:28,389 --> 00:29:26,720

to make up a ufo story right and there's

766

00:29:30,070 --> 00:29:28,399

just no motivation for it

767

00:29:33,350 --> 00:29:30,080

and he's never made one he's never

768

00:29:35,909 --> 00:29:33,360

reported one other than this instant

769

00:29:37,669 --> 00:29:35,919

so i went and met with him i was

770

00:29:40,870 --> 00:29:37,679

impressed by him

771

00:29:43,750 --> 00:29:40,880

um he has a number of patents

772

00:29:45,430 --> 00:29:43,760

um and that so that's what got me

773

00:29:48,870 --> 00:29:45,440

started in

774

00:29:52,070 --> 00:29:48,880

in doing the investigation now the guy

775

00:29:54,950 --> 00:29:52,080

the primary witness he actually wrote

776

00:29:56,310 --> 00:29:54,960

about a 40-page white paper on what

777

00:29:59,430 --> 00:29:56,320

happened

778

00:30:02,870 --> 00:29:59,440

really oh yeah so

779

00:30:05,110 --> 00:30:02,880

um and it's such a long case martin i'm

780

00:30:08,310 --> 00:30:05,120

not even sure where to start

781

00:30:11,750 --> 00:30:08,320

um i mean i can just tell your viewers

782

00:30:14,470 --> 00:30:11,760

basically what happened i guess sure

783

00:30:16,230 --> 00:30:14,480

so you've got these three guys are up in

784

00:30:18,230 --> 00:30:16,240

the wilderness of ontario

785

00:30:20,470 --> 00:30:18,240

i mean the nearest town was probably 20

786

00:30:23,029 --> 00:30:20,480

miles away

787

00:30:24,789 --> 00:30:23,039

they're in the wilderness the there is

788

00:30:26,470 --> 00:30:24,799

no cell phone coverage

789

00:30:28,630 --> 00:30:26,480

that tells you how far away they are

790

00:30:31,590 --> 00:30:28,640

from civilization

791

00:30:33,590 --> 00:30:31,600

um so they're out and they're hunting

792

00:30:37,269 --> 00:30:33,600

black bear

793

00:30:41,830 --> 00:30:37,279

so that's that's why they're there so

794

00:30:44,630 --> 00:30:41,840

um he uses his sony uh video recorder

795

00:30:45,990 --> 00:30:44,640

to video the black you know these black

796

00:30:49,190 --> 00:30:46,000

bears that they had

797

00:30:51,830 --> 00:30:49,200

shot etc

798

00:30:52,710 --> 00:30:51,840

and then they they put the bears in

799

00:30:55,029 --> 00:30:52,720

their trunk

800

00:30:56,710 --> 00:30:55,039

in their truck they've got a large uh

801  
00:30:59,509 --> 00:30:56,720  
dodge truck

802  
00:31:01,269 --> 00:30:59,519  
and they're driving to meet another

803  
00:31:03,990 --> 00:31:01,279  
party of hunters they're out there with

804  
00:31:09,110 --> 00:31:04,000  
them there's about six guys total

805  
00:31:12,710 --> 00:31:09,120  
so on the way to uh their destination

806  
00:31:15,509 --> 00:31:12,720  
the sitting in the back seat

807  
00:31:16,789 --> 00:31:15,519  
by himself in the truck is the primary

808  
00:31:19,590 --> 00:31:16,799  
witness the guy who's

809  
00:31:20,310 --> 00:31:19,600  
also a scientist and his two friends are

810  
00:31:23,750 --> 00:31:20,320  
in the

811  
00:31:24,630 --> 00:31:23,760  
driver's side passenger side he notices

812  
00:31:26,630 --> 00:31:24,640  
something

813  
00:31:28,070 --> 00:31:26,640

kind of out on the right hand side of

814

00:31:30,630 --> 00:31:28,080

the truck

815

00:31:31,110 --> 00:31:30,640

and he looks over there and he sees a

816

00:31:35,110 --> 00:31:31,120

bright

817

00:31:37,990 --> 00:31:35,120

thought was

818

00:31:38,630 --> 00:31:38,000

okay it's 9 30 at night i'm in the

819

00:31:42,389 --> 00:31:38,640

middle of

820

00:31:43,669 --> 00:31:42,399

nowhere what is a helicopter doing and

821

00:31:45,750 --> 00:31:43,679

why is it approaching us

822

00:31:47,990 --> 00:31:45,760

right i mean if you put yourself in his

823

00:31:50,870 --> 00:31:48,000

place that's not a comfortable

824

00:31:52,630 --> 00:31:50,880

feeling because you're wondering what

825

00:31:53,830 --> 00:31:52,640

the heck's a helicopter doing out here

826

00:31:57,590 --> 00:31:53,840

in the middle of

827

00:31:59,750 --> 00:31:57,600

nowhere right um so they're contin

828

00:32:00,710 --> 00:31:59,760

but he doesn't say anything he's just

829

00:32:03,190 --> 00:32:00,720

made mental note

830

00:32:04,870 --> 00:32:03,200

they're going down the road the light

831

00:32:06,070 --> 00:32:04,880

keeps getting closer and closer and

832

00:32:09,509 --> 00:32:06,080

brighter

833

00:32:11,909 --> 00:32:09,519

until it crosses in front of them

834

00:32:13,590 --> 00:32:11,919

and at that point in time it's clear to

835

00:32:16,789 --> 00:32:13,600

him this is not

836

00:32:20,070 --> 00:32:16,799

a helicopter and so the

837

00:32:21,669 --> 00:32:20,080

driver stops the truck so that the truck

838

00:32:24,789 --> 00:32:21,679

stops

839

00:32:26,710 --> 00:32:24,799

and they're looking at an object this is

840

00:32:29,350 --> 00:32:26,720

the shape of a barbell

841

00:32:29,990 --> 00:32:29,360

it's like two one disc here another disc

842

00:32:32,389 --> 00:32:30,000

here

843

00:32:33,509 --> 00:32:32,399

and you've got a bar connecting the two

844

00:32:37,190 --> 00:32:33,519

discs

845

00:32:40,070 --> 00:32:37,200

i mean that's as non-aerodynamic

846

00:32:41,430 --> 00:32:40,080

of an object as i can imagine you could

847

00:32:45,430 --> 00:32:41,440

create

848

00:32:48,710 --> 00:32:45,440

yeah and so he's looking at this object

849

00:32:49,669 --> 00:32:48,720

and he notices it's got a purple haze

850

00:32:52,149 --> 00:32:49,679

all around it

851

00:32:54,870 --> 00:32:52,159

so he feels like it's a plasma

852

00:32:58,549 --> 00:32:54,880

encircling the object

853

00:33:01,110 --> 00:32:58,559

the distance he estimates about 400 feet

854

00:33:02,230 --> 00:33:01,120

because there's there's trees everywhere

855

00:33:03,909 --> 00:33:02,240

and it's

856

00:33:06,230 --> 00:33:03,919

based on where it's at he knows that

857

00:33:09,029 --> 00:33:06,240

it's in the tree line

858

00:33:09,750 --> 00:33:09,039

so we know that it's so he knows that uh

859

00:33:12,310 --> 00:33:09,760

he gets out

860

00:33:13,190 --> 00:33:12,320

his uh first the first thing he does is

861

00:33:17,190 --> 00:33:13,200

he takes out

862

00:33:20,630 --> 00:33:17,200

his sony camera in his camera

863

00:33:22,950 --> 00:33:20,640

as soon as he turns it on it's on for a

864

00:33:26,549 --> 00:33:22,960

half a second and then it clicks off

865

00:33:29,269 --> 00:33:26,559

he does it again same thing

866

00:33:29,909 --> 00:33:29,279

then he grabs his cell phone motorola's

867

00:33:32,549 --> 00:33:29,919

cell phone

868

00:33:33,350 --> 00:33:32,559

see if he can take an image of the cell

869

00:33:39,350 --> 00:33:33,360

phone

870

00:33:40,789 --> 00:33:39,360

hot as if it was and it's acting as if

871

00:33:43,669 --> 00:33:40,799

it's just now booting up

872

00:33:45,509 --> 00:33:43,679

so cell phones not operating then they

873

00:33:49,110 --> 00:33:45,519

they have a motorola

874

00:33:50,549 --> 00:33:49,120

uh radio which they also grab because

875

00:33:52,230 --> 00:33:50,559

they want to talk

876  
00:33:54,470 --> 00:33:52,240  
to the other group that's out there

877  
00:33:58,470 --> 00:33:54,480  
somewhere well the

878  
00:34:03,190 --> 00:33:58,480  
motorola radio phone is dead

879  
00:34:06,470 --> 00:34:03,200  
so at that point in time um

880  
00:34:09,750 --> 00:34:06,480  
he says well okay i've got my rifle

881  
00:34:11,750 --> 00:34:09,760  
gun sight and i'll use that to at least

882  
00:34:12,790 --> 00:34:11,760  
look at the object closer so he gets it

883  
00:34:14,869 --> 00:34:12,800  
out and that's when

884  
00:34:16,550 --> 00:34:14,879  
you know his friends tell him to shoot

885  
00:34:17,430 --> 00:34:16,560  
and he says no we're not going to shoot

886  
00:34:20,470 --> 00:34:17,440  
it

887  
00:34:22,950 --> 00:34:20,480  
and he starts making detailed notes

888  
00:34:23,750 --> 00:34:22,960

and this guy makes extremely detailed

889

00:34:26,710 --> 00:34:23,760

notes

890

00:34:27,909 --> 00:34:26,720

in the paper that he sent me and i

891

00:34:31,270 --> 00:34:27,919

actually

892

00:34:34,550 --> 00:34:31,280

uh just to be safe i redid

893

00:34:35,430 --> 00:34:34,560

his calculations on the size of the

894

00:34:37,829 --> 00:34:35,440

object

895

00:34:39,270 --> 00:34:37,839

independent of the way he calculated it

896

00:34:41,589 --> 00:34:39,280

and i came out with the same number he

897

00:34:44,389 --> 00:34:41,599

did approximately 150 feet

898

00:34:45,190 --> 00:34:44,399

plus or minus 10 or 15 feet so this was

899

00:34:48,230 --> 00:34:45,200

a very

900

00:34:49,990 --> 00:34:48,240

large object the other interesting thing

901  
00:34:53,109 --> 00:34:50,000  
about the whole siding

902  
00:34:55,510 --> 00:34:53,119  
is that there are like sparklers being

903  
00:34:57,270 --> 00:34:55,520  
emitted from the object

904  
00:34:59,190 --> 00:34:57,280  
the sparklers don't come out of a

905  
00:35:01,030 --> 00:34:59,200  
certain end of the object like they do

906  
00:35:03,750 --> 00:35:01,040  
in a jet right where you have spark

907  
00:35:05,430 --> 00:35:03,760  
you you have your exhaust fumes coming

908  
00:35:09,670 --> 00:35:05,440  
out of the jet engine

909  
00:35:11,589 --> 00:35:09,680  
instead the sparklers come out of what

910  
00:35:12,870 --> 00:35:11,599  
the opposite direction of wherever the

911  
00:35:15,829 --> 00:35:12,880  
objects moving

912  
00:35:16,390 --> 00:35:15,839  
and this if you can imagine okay here is

913  
00:35:41,349 --> 00:35:16,400

a

914

00:35:43,109 --> 00:35:41,359

between

915

00:35:44,630 --> 00:35:43,119

and that's why i went up to visit him to

916

00:35:47,109 --> 00:35:44,640

verify all this

917

00:35:48,790 --> 00:35:47,119

so as this object's turning the

918

00:35:52,790 --> 00:35:48,800

sparklers always come out of

919

00:35:56,470 --> 00:35:52,800

the opposite direction as it moves

920

00:35:58,630 --> 00:35:56,480

of where it's moving towards um

921

00:36:00,790 --> 00:35:58,640

so that's you know the object this

922

00:36:02,150 --> 00:36:00,800

continues until the object moves out out

923

00:36:05,270 --> 00:36:02,160

of sight

924

00:36:06,150 --> 00:36:05,280

uh and then it goes higher up into the

925

00:36:09,910 --> 00:36:06,160

sky and

926

00:36:11,750 --> 00:36:09,920

uh disappears at a high rate of speed

927

00:36:14,069 --> 00:36:11,760

that's kind of the end of the of the

928

00:36:15,670 --> 00:36:14,079

story they always seem to disappear at a

929

00:36:19,510 --> 00:36:15,680

high rate of speed don't they

930

00:36:21,030 --> 00:36:19,520

yeah so many yeah now one thing he did

931

00:36:24,470 --> 00:36:21,040

do

932

00:36:28,870 --> 00:36:24,480

is once the object got farther away

933

00:36:32,470 --> 00:36:28,880

he tried to re-use his video camera

934

00:36:35,670 --> 00:36:32,480

and once it got i think he said about

935

00:36:38,150 --> 00:36:35,680

somewhere around 1200 1500 feet distance

936

00:36:41,190 --> 00:36:38,160

which is about a quarter mile

937

00:36:43,910 --> 00:36:41,200

his video camera came on well

938

00:36:44,390 --> 00:36:43,920

and he was able to video but he was not

939

00:36:48,230 --> 00:36:44,400

getting

940

00:36:51,430 --> 00:36:48,240

any he only got audio

941

00:36:53,829 --> 00:36:51,440

the video screen was was noise and

942

00:36:55,430 --> 00:36:53,839

i when i went to his place of business

943

00:36:59,349 --> 00:36:55,440

we actually hooked up

944

00:37:02,710 --> 00:36:59,359

his camera to a oscilloscope

945

00:37:05,750 --> 00:37:02,720

and you could see um

946

00:37:06,710 --> 00:37:05,760

you know the the red green blue color

947

00:37:09,430 --> 00:37:06,720

formations

948

00:37:11,190 --> 00:37:09,440

that should have been into the video

949

00:37:12,550 --> 00:37:11,200

camera but nothing was there

950

00:37:16,870 --> 00:37:12,560

because we could see it when he had

951  
00:37:20,310 --> 00:37:19,270  
but you could hear you could hear him

952  
00:37:23,430 --> 00:37:20,320  
talking

953  
00:37:24,230 --> 00:37:23,440  
with the other witnesses uh and so he

954  
00:37:26,470 --> 00:37:24,240  
still has

955  
00:37:28,230 --> 00:37:26,480  
the original camera he's got it locked

956  
00:37:31,109 --> 00:37:28,240  
in a safe

957  
00:37:31,430 --> 00:37:31,119  
uh and he's still working on it you know

958  
00:37:40,630 --> 00:37:31,440  
he

959  
00:37:42,710 --> 00:37:40,640  
it's almost like an intentional a

960  
00:37:45,829 --> 00:37:42,720  
malfunction

961  
00:37:47,910 --> 00:37:45,839  
you know it just seems like that well

962  
00:37:49,190 --> 00:37:47,920  
he i mean he had a good he has a good

963  
00:37:52,550 --> 00:37:49,200

theory on it which i

964

00:37:55,829 --> 00:37:52,560

would kind of i think a reasonable

965

00:37:58,069 --> 00:37:55,839

you know theory what he believes is

966

00:38:00,069 --> 00:37:58,079

in the beginning he was so close to it

967

00:38:03,109 --> 00:38:00,079

since there's a plasma you know he sees

968

00:38:07,030 --> 00:38:03,119

this plasma that's all around the object

969

00:38:08,870 --> 00:38:07,040

he suspects that it's emitting uh an em

970

00:38:10,790 --> 00:38:08,880

field that's so strong that it's

971

00:38:14,630 --> 00:38:10,800

interfering with his camera

972

00:38:16,310 --> 00:38:14,640

it's probably like uh inducing a current

973

00:38:18,310 --> 00:38:16,320

into the camera and the camera probably

974

00:38:21,349 --> 00:38:18,320

turns itself off to

975

00:38:23,030 --> 00:38:21,359

prevent damage to itself right so it's

976  
00:38:23,670 --> 00:38:23,040  
probably a safety mechanism in the

977  
00:38:26,870 --> 00:38:23,680  
camera

978  
00:38:30,310 --> 00:38:26,880  
once the object gets farther away

979  
00:38:33,430 --> 00:38:30,320  
like your em fields drop off

980  
00:38:36,790 --> 00:38:33,440  
by the inverse square law so

981  
00:38:37,910 --> 00:38:36,800  
it gets far enough away the field's

982  
00:38:40,790 --> 00:38:37,920  
going to get weaker

983  
00:38:41,829 --> 00:38:40,800  
and so he's able to turn his camera off

984  
00:38:45,589 --> 00:38:41,839  
on

985  
00:38:48,069 --> 00:38:45,599  
so the the camera's uh mechanism to

986  
00:38:48,870 --> 00:38:48,079  
keep you know an overloading currents

987  
00:38:50,630 --> 00:38:48,880  
working

988  
00:38:52,150 --> 00:38:50,640

but there's still enough current being

989

00:38:54,150 --> 00:38:52,160  
generated in the camera that's

990

00:38:56,790 --> 00:38:54,160  
interfering with the video system

991

00:38:58,310 --> 00:38:56,800  
that that was you know his theory wow

992

00:39:01,750 --> 00:38:58,320  
which is reasonable

993

00:39:04,630 --> 00:39:01,760  
i'm popping this up image up this

994

00:39:05,190 --> 00:39:04,640  
was uh similar to what someone called a

995

00:39:09,670 --> 00:39:05,200  
barbell

996

00:39:11,990 --> 00:39:09,680  
type ufo uh which was a real bizarre

997

00:39:12,710 --> 00:39:12,000  
sighting i think it was in the 1980s

998

00:39:16,310 --> 00:39:12,720  
this this

999

00:39:19,510 --> 00:39:16,320  
happened but also um someone commented

1000

00:39:20,630 --> 00:39:19,520  
that uh don ecker's show here right here

1001

00:39:22,069 --> 00:39:20,640

they're saying that uh one of the

1002

00:39:25,190 --> 00:39:22,079

regular colin

1003

00:39:28,550 --> 00:39:25,200

friends of uh don eckers says he he see

1004

00:39:29,829 --> 00:39:28,560

he has seen a dog bone shaped craft

1005

00:39:32,870 --> 00:39:29,839

which i would think is

1006

00:39:35,349 --> 00:39:32,880

you know similar to barbell yeah it's

1007

00:39:38,150 --> 00:39:35,359

sometimes i'll call a dumbbell a barbell

1008

00:39:41,270 --> 00:39:38,160

or a dog bone

1009

00:39:44,310 --> 00:39:41,280

and and actually i found it so

1010

00:39:46,950 --> 00:39:44,320

interesting right because myself

1011

00:39:47,910 --> 00:39:46,960

personally until that time i'd never

1012

00:39:51,270 --> 00:39:47,920

heard

1013

00:39:55,109 --> 00:39:51,280

of a barbell dog bone dumbbell

1014

00:39:55,670 --> 00:39:55,119

shape ufo but that got me interested so

1015

00:39:57,510 --> 00:39:55,680

i went

1016

00:39:59,190 --> 00:39:57,520

and started researching looking for

1017

00:40:02,550 --> 00:39:59,200

those specifically

1018

00:40:04,710 --> 00:40:02,560

and i've found since back going back

1019

00:40:07,990 --> 00:40:04,720

into the 1950s

1020

00:40:11,670 --> 00:40:08,000

about somewhere around 30 to 40

1021

00:40:13,990 --> 00:40:11,680

cases reported of that type shape

1022

00:40:16,069 --> 00:40:14,000

and the thing that's interesting about

1023

00:40:18,710 --> 00:40:16,079

that to me martin is right

1024

00:40:19,990 --> 00:40:18,720

some people like on uf on the flying

1025

00:40:22,390 --> 00:40:20,000

saucer disc

1026  
00:40:24,150 --> 00:40:22,400  
they say well that's just people they've

1027  
00:40:26,870 --> 00:40:24,160  
read about it in the news

1028  
00:40:27,589 --> 00:40:26,880  
so they're just kind of repeating what

1029  
00:40:29,589 --> 00:40:27,599  
they've heard

1030  
00:40:30,790 --> 00:40:29,599  
and it's their imagination running away

1031  
00:40:34,230 --> 00:40:30,800  
with them

1032  
00:40:37,829 --> 00:40:34,240  
but here you've got a very strange

1033  
00:40:38,870 --> 00:40:37,839  
shape which has not received a lot of

1034  
00:40:41,829 --> 00:40:38,880  
publicity

1035  
00:40:43,030 --> 00:40:41,839  
and yet you've got 30 to 40 cases

1036  
00:40:46,390 --> 00:40:43,040  
reported

1037  
00:40:50,309 --> 00:40:46,400  
of it over the last 50 to 60 years

1038  
00:40:52,309 --> 00:40:50,319

yeah yeah and you know when when someone

1039

00:40:53,750 --> 00:40:52,319

talks about uh a lot of temples

1040

00:40:56,790 --> 00:40:53,760

sometimes the subject

1041

00:40:59,109 --> 00:40:56,800

will come up you know why do you think

1042

00:41:00,069 --> 00:40:59,119

you know during this time there were

1043

00:41:03,430 --> 00:41:00,079

mostly disc

1044

00:41:06,630 --> 00:41:03,440

sightings and now there's uh you know

1045

00:41:08,710 --> 00:41:06,640

triangular sightings or or

1046

00:41:10,550 --> 00:41:08,720

and now you you put in something like

1047

00:41:11,910 --> 00:41:10,560

this or the orbs or

1048

00:41:13,910 --> 00:41:11,920

you know there's all all the different

1049

00:41:15,750 --> 00:41:13,920

types of things and you know

1050

00:41:18,390 --> 00:41:15,760

then there's the real unusual ones also

1051

00:41:21,510 --> 00:41:18,400

the square box type ones or

1052

00:41:23,670 --> 00:41:21,520

rectangular ones nothing seems

1053

00:41:24,950 --> 00:41:23,680

except for the discs and triangles

1054

00:41:27,990 --> 00:41:24,960

nothing seems to make

1055

00:41:28,550 --> 00:41:28,000

sense as far as aerodynamics but you

1056

00:41:29,910 --> 00:41:28,560

know

1057

00:41:32,309 --> 00:41:29,920

if you're traveling through space i

1058

00:41:33,670 --> 00:41:32,319

guess that's not needed if that's where

1059

00:41:36,150 --> 00:41:33,680

they're traveling from

1060

00:41:37,829 --> 00:41:36,160

well even the discs and the triangles

1061

00:41:40,230 --> 00:41:37,839

are not always

1062

00:41:41,829 --> 00:41:40,240

in in some of the good reports are not

1063

00:41:44,870 --> 00:41:41,839

always aerodynamic

1064

00:41:48,710 --> 00:41:44,880

and there have been uh several in

1065

00:41:51,270 --> 00:41:48,720

project blue book where military pilots

1066

00:41:52,950 --> 00:41:51,280

uh talked about a disc that what you

1067

00:41:55,030 --> 00:41:52,960

know it was traveling aerodynamic and

1068

00:41:55,670 --> 00:41:55,040

then it flipped up 90 degrees on the

1069

00:41:58,470 --> 00:41:55,680

side

1070

00:41:59,589 --> 00:41:58,480

and it's just traveling with maximum air

1071

00:42:02,309 --> 00:41:59,599

resistance

1072

00:42:02,710 --> 00:42:02,319

right the flat side going forward yeah

1073

00:42:05,670 --> 00:42:02,720

uh

1074

00:42:08,390 --> 00:42:05,680

and then triangles one of my favorite

1075

00:42:11,589 --> 00:42:08,400

cases happened up in your area in maine

1076

00:42:14,630 --> 00:42:11,599

um and it it was a

1077

00:42:17,430 --> 00:42:14,640

a triangle that before it took off it

1078

00:42:20,870 --> 00:42:17,440

just started spinning

1079

00:42:22,309 --> 00:42:20,880

i mean why would you do that

1080

00:42:24,470 --> 00:42:22,319

like you're throwing a horseshoe

1081

00:42:27,670 --> 00:42:24,480

spinning yeah yeah exactly

1082

00:42:28,870 --> 00:42:27,680

yeah strange wow so up in maine i never

1083

00:42:30,950 --> 00:42:28,880

heard of that one in particular

1084

00:42:33,190 --> 00:42:30,960

yeah that one happened uh it's either

1085

00:42:36,069 --> 00:42:33,200

2013 or 2015.

1086

00:42:37,349 --> 00:42:36,079

it was in augusta oh yeah your cat's an

1087

00:42:40,710 --> 00:42:37,359

hour away from me yeah

1088

00:42:44,550 --> 00:42:40,720

yeah and uh it was witnessed by

1089

00:42:47,430 --> 00:42:44,560

a uh a man who had a phd or has a phd

1090

00:42:48,870 --> 00:42:47,440

in mathematics and he was with his wife

1091

00:42:52,470 --> 00:42:48,880

three kids

1092

00:42:55,589 --> 00:42:52,480

and his wife was driving and

1093

00:42:58,630 --> 00:42:55,599

they were headed north i think it's

1094

00:43:01,670 --> 00:42:58,640

i-95 yeah out of

1095

00:43:04,870 --> 00:43:01,680

augusta and as they were headed north

1096

00:43:07,910 --> 00:43:04,880

they saw this triangular uh

1097

00:43:10,550 --> 00:43:07,920

object kind of like a pyramid and

1098

00:43:11,510 --> 00:43:10,560

it you know it had the typical three

1099

00:43:14,710 --> 00:43:11,520

white lights

1100

00:43:16,550 --> 00:43:14,720

on the corners and the object um

1101  
00:43:18,069 --> 00:43:16,560  
they they had to keep they were wanting

1102  
00:43:18,630 --> 00:43:18,079  
to turn around but they had to go about

1103  
00:43:21,109 --> 00:43:18,640  
a mile

1104  
00:43:22,390 --> 00:43:21,119  
two miles up and so they finally did

1105  
00:43:24,150 --> 00:43:22,400  
they turn around

1106  
00:43:26,630 --> 00:43:24,160  
and the object's still there and then

1107  
00:43:30,470 --> 00:43:26,640  
they see it moving

1108  
00:43:33,349 --> 00:43:30,480  
and as it starts to move uh it begins to

1109  
00:43:34,390 --> 00:43:33,359  
rotate and right before it rotates you

1110  
00:43:38,390 --> 00:43:34,400  
know the red light

1111  
00:43:42,630 --> 00:43:38,400  
on the bottom comes on and then it just

1112  
00:43:45,030 --> 00:43:42,640  
zips off and is gone in like two seconds

1113  
00:43:47,030 --> 00:43:45,040

so bizarre and a lot of them have the

1114

00:43:49,109 --> 00:43:47,040

lights this is another case

1115

00:43:50,069 --> 00:43:49,119

right here um it's not really a very

1116

00:43:51,910 --> 00:43:50,079

good picture

1117

00:43:53,990 --> 00:43:51,920

but you can see this is the polaroid

1118

00:43:56,870 --> 00:43:54,000

that was taken in australia that berman

1119

00:43:57,349 --> 00:43:56,880

or something case i forget uh that was

1120

00:44:01,510 --> 00:43:57,359

in

1121

00:44:03,829 --> 00:44:01,520

james fox uh video of his documentary

1122

00:44:05,190 --> 00:44:03,839

but that's another one that went up on

1123

00:44:08,710 --> 00:44:05,200

its side and just

1124

00:44:09,750 --> 00:44:08,720

took off you know at a high rate of

1125

00:44:12,870 --> 00:44:09,760

speed as

1126  
00:44:15,910 --> 00:44:12,880  
as uh as they always seem to do

1127  
00:44:17,349 --> 00:44:15,920  
and uh you know it's just crazy you know

1128  
00:44:20,309 --> 00:44:17,359  
because it's like

1129  
00:44:22,390 --> 00:44:20,319  
uh there's one that uh this was i

1130  
00:44:25,430 --> 00:44:22,400  
believe this was out of blue book also

1131  
00:44:28,069 --> 00:44:25,440  
um it was a officer in germany

1132  
00:44:29,910 --> 00:44:28,079  
and he was on um it wasn't an officer

1133  
00:44:30,950 --> 00:44:29,920  
it's like a sergeant he was on duty on

1134  
00:44:34,309 --> 00:44:30,960  
tower duty

1135  
00:44:37,589 --> 00:44:34,319  
and this triangle is coming towards him

1136  
00:44:38,710 --> 00:44:37,599  
and then it just starts like flipping

1137  
00:44:41,990 --> 00:44:38,720  
over

1138  
00:44:43,349 --> 00:44:42,000

as it's moving through the sky and you

1139

00:44:45,190 --> 00:44:43,359

know the first thing you ask is like

1140

00:44:46,950 --> 00:44:45,200

okay if you're making this up why would

1141

00:44:48,150 --> 00:44:46,960

you why would you make that up that is

1142

00:44:50,790 --> 00:44:48,160

so crazy

1143

00:44:51,190 --> 00:44:50,800

yeah so it makes you think you know

1144

00:44:53,510 --> 00:44:51,200

either

1145

00:44:54,550 --> 00:44:53,520

someone's making it up or it's real i i

1146

00:44:57,910 --> 00:44:54,560

just

1147

00:44:59,829 --> 00:44:57,920

i can't imagine um what type of

1148

00:45:04,470 --> 00:44:59,839

astronomical

1149

00:45:05,910 --> 00:45:04,480

body or aircraft or whatever would make

1150

00:45:07,829 --> 00:45:05,920

someone think

1151  
00:45:09,270 --> 00:45:07,839  
that they were looking at a triangle

1152  
00:45:13,829 --> 00:45:09,280  
that began to flip

1153  
00:45:17,349 --> 00:45:13,839  
over well i guess it goes back to

1154  
00:45:18,550 --> 00:45:17,359  
so many mysteries about this in the way

1155  
00:45:21,349 --> 00:45:18,560  
of

1156  
00:45:23,109 --> 00:45:21,359  
um you know there's never uh the

1157  
00:45:24,790 --> 00:45:23,119  
breaking of a sound barrier

1158  
00:45:27,190 --> 00:45:24,800  
uh when something shoots off real

1159  
00:45:29,510 --> 00:45:27,200  
quickly uh or when they pass between

1160  
00:45:30,470 --> 00:45:29,520  
different mediums like water and sky you

1161  
00:45:32,790 --> 00:45:30,480  
know things like that

1162  
00:45:33,990 --> 00:45:32,800  
yeah all these things that don't make

1163  
00:45:36,710 --> 00:45:34,000

any sense and if

1164

00:45:37,349 --> 00:45:36,720

if uh there's no broken sound barrier at

1165

00:45:41,430 --> 00:45:37,359

high rates

1166

00:45:45,750 --> 00:45:41,440

of you know well over the speed of sound

1167

00:45:49,109 --> 00:45:45,760

there they have uh a way of traveling

1168

00:45:51,990 --> 00:45:49,119

obviously that is not going to affect

1169

00:45:53,190 --> 00:45:52,000

the physics as we know it i guess well i

1170

00:45:55,829 --> 00:45:53,200

mean

1171

00:45:57,270 --> 00:45:55,839

it may still be physics as we know it

1172

00:45:59,109 --> 00:45:57,280

but

1173

00:46:00,630 --> 00:45:59,119

however they're doing it they don't

1174

00:46:02,390 --> 00:46:00,640

appear to be interacting with the

1175

00:46:04,630 --> 00:46:02,400

atmosphere

1176

00:46:06,630 --> 00:46:04,640

right because our understanding of

1177

00:46:07,510 --> 00:46:06,640

physics if if you're moving through the

1178

00:46:09,349 --> 00:46:07,520

atmosphere

1179

00:46:11,589 --> 00:46:09,359

at an extreme rate of speed there's

1180

00:46:13,670 --> 00:46:11,599

going to be a high amount of friction

1181

00:46:15,829 --> 00:46:13,680

in here generated and some of these

1182

00:46:18,230 --> 00:46:15,839

objects are moving so fast

1183

00:46:19,510 --> 00:46:18,240

that they should be a ball of fire

1184

00:46:21,990 --> 00:46:19,520

especially when you're in

1185

00:46:22,870 --> 00:46:22,000

in the lower atmosphere uh yet they're

1186

00:46:26,069 --> 00:46:22,880

not

1187

00:46:30,150 --> 00:46:28,630

going back to the physics they can't be

1188

00:46:32,950 --> 00:46:30,160

they can't be in the atmosphere

1189

00:46:34,710 --> 00:46:32,960

really right uh this is a better picture

1190

00:46:37,990 --> 00:46:34,720

of what i was talking about earlier

1191

00:46:40,470 --> 00:46:38,000

oh yeah that is better yeah so

1192

00:46:41,190 --> 00:46:40,480

i think gravity plays a part in that too

1193

00:46:45,750 --> 00:46:41,200

possibly

1194

00:46:48,390 --> 00:46:45,760

you know i mean defying gravity in a way

1195

00:46:49,670 --> 00:46:48,400

there just seems to be a lot of a lot of

1196

00:46:51,910 --> 00:46:49,680

uh

1197

00:46:53,190 --> 00:46:51,920

things that kind of all fit together

1198

00:46:56,230 --> 00:46:53,200

yeah well now

1199

00:46:59,510 --> 00:46:56,240

i'm not a physicist i'm a chemist but uh

1200

00:47:03,030 --> 00:46:59,520

i don't think anti-gravity is the answer

1201  
00:47:05,589 --> 00:47:03,040  
on any of this because for example

1202  
00:47:07,270 --> 00:47:05,599  
when we're in when you're in outer space

1203  
00:47:09,030 --> 00:47:07,280  
right if you just took

1204  
00:47:10,950 --> 00:47:09,040  
a saturn moon rocket and just stuck it

1205  
00:47:14,069 --> 00:47:10,960  
up in space

1206  
00:47:17,190 --> 00:47:14,079  
magically and there's no gravity there

1207  
00:47:19,750 --> 00:47:17,200  
right you can't get

1208  
00:47:20,950 --> 00:47:19,760  
extreme accelerations just because

1209  
00:47:23,670 --> 00:47:20,960  
there's no gravity

1210  
00:47:24,790 --> 00:47:23,680  
you still have the inertia that you have

1211  
00:47:27,910 --> 00:47:24,800  
to overcome

1212  
00:47:31,829 --> 00:47:27,920  
of the object itself

1213  
00:47:34,150 --> 00:47:31,839

so how that's done i have no idea but

1214

00:47:38,549 --> 00:47:34,160

eliminating gravity does not

1215

00:47:41,750 --> 00:47:38,559

allow you to rapidly accelerate

1216

00:47:44,309 --> 00:47:41,760

and some people will kind of try to

1217

00:47:45,670 --> 00:47:44,319

indicate that but to my knowledge that's

1218

00:47:47,910 --> 00:47:45,680

not the case at all

1219

00:47:50,790 --> 00:47:47,920

the only way i could think that you

1220

00:47:55,829 --> 00:47:50,800

could rapidly accelerate

1221

00:47:58,549 --> 00:47:55,839

is somehow you have to drive the inertia

1222

00:47:59,349 --> 00:47:58,559

of the object in question towards zero

1223

00:48:01,750 --> 00:47:59,359

right

1224

00:48:03,589 --> 00:48:01,760

so for example if you took a spaceship

1225

00:48:06,069 --> 00:48:03,599

and if it weighed nothing

1226

00:48:07,190 --> 00:48:06,079

i'm just just imagine you could make it

1227

00:48:10,150 --> 00:48:07,200

weigh nothing

1228

00:48:11,270 --> 00:48:10,160

well now i could shine a beam of light

1229

00:48:14,150 --> 00:48:11,280

on it

1230

00:48:15,589 --> 00:48:14,160

right and if the masses is basically

1231

00:48:17,829 --> 00:48:15,599

zero

1232

00:48:18,630 --> 00:48:17,839

the the photons and the beam of light

1233

00:48:21,990 --> 00:48:18,640

will impart

1234

00:48:24,390 --> 00:48:22,000

their speed and energy to that object

1235

00:48:27,190 --> 00:48:24,400

and suddenly it will accelerate at very

1236

00:48:30,069 --> 00:48:27,200

close to the speed of light

1237

00:48:32,309 --> 00:48:30,079

and that's kind of what these things uh

1238

00:48:33,430 --> 00:48:32,319

do they're accelerating at extreme

1239

00:48:35,990 --> 00:48:33,440

speeds so

1240

00:48:37,589 --> 00:48:36,000

i don't know how you do that that that's

1241

00:48:41,589 --> 00:48:37,599

a pure guess on my part

1242

00:48:44,470 --> 00:48:41,599

but i don't think anti-gravity does that

1243

00:48:46,470 --> 00:48:44,480

yeah yeah i've always wondered you know

1244

00:48:47,990 --> 00:48:46,480

i don't want to really get off on a

1245

00:48:49,990 --> 00:48:48,000

whole different topic but i've always

1246

00:48:53,270 --> 00:48:50,000

wondered how space travel

1247

00:48:55,910 --> 00:48:53,280

happens in space like

1248

00:48:57,030 --> 00:48:55,920

if space is empty how does it propel

1249

00:49:00,150 --> 00:48:57,040

itself

1250

00:49:02,390 --> 00:49:00,160

space

1251  
00:49:03,349 --> 00:49:02,400  
if there's if it's empty you know was it

1252  
00:49:05,910 --> 00:49:03,359  
pushing against

1253  
00:49:06,470 --> 00:49:05,920  
well yeah you know that's uh newton's

1254  
00:49:09,109 --> 00:49:06,480  
law of

1255  
00:49:09,670 --> 00:49:09,119  
if if here's my rocket and i'm kicking

1256  
00:49:12,870 --> 00:49:09,680  
out

1257  
00:49:13,750 --> 00:49:12,880  
propellant at this end then this side is

1258  
00:49:16,950 --> 00:49:13,760  
going to go

1259  
00:49:18,950 --> 00:49:16,960  
in the opposite direction the

1260  
00:49:21,990 --> 00:49:18,960  
the whole problem in a chemical rocket

1261  
00:49:23,190 --> 00:49:22,000  
is you cannot go in this direction any

1262  
00:49:24,870 --> 00:49:23,200  
faster

1263  
00:49:26,870 --> 00:49:24,880

than you're kicking stuff out in that

1264

00:49:30,950 --> 00:49:26,880

direction right

1265

00:49:33,990 --> 00:49:30,960

so if if the maximum speed you can kick

1266

00:49:36,630 --> 00:49:34,000

out this exhaust is 200

1267

00:49:37,589 --> 00:49:36,640

let's just say about i don't i don't

1268

00:49:39,670 --> 00:49:37,599

know the actual

1269

00:49:41,430 --> 00:49:39,680

number a physicist could tell you but

1270

00:49:42,470 --> 00:49:41,440

let's just say it's about 50 000 miles

1271

00:49:44,549 --> 00:49:42,480

an hour

1272

00:49:45,589 --> 00:49:44,559

well you'll never accelerate your rocket

1273

00:49:47,270 --> 00:49:45,599

ship beyond 50

1274

00:49:48,950 --> 00:49:47,280

000 miles an hour yeah i can understand

1275

00:49:52,309 --> 00:49:48,960

how that makes sense yeah right

1276

00:49:55,589 --> 00:49:52,319

the way we've done that

1277

00:49:56,549 --> 00:49:55,599

on some craft and it takes a very long

1278

00:49:59,750 --> 00:49:56,559

time

1279

00:50:02,630 --> 00:49:59,760

is they use an ion engine

1280

00:50:04,390 --> 00:50:02,640

so it's kicking out ions and they're

1281

00:50:07,670 --> 00:50:04,400

traveling it close to light

1282

00:50:09,430 --> 00:50:07,680

speed but it's just a few atoms right

1283

00:50:11,190 --> 00:50:09,440

i mean it's not a whole lot of atoms and

1284

00:50:12,790 --> 00:50:11,200

you got this mass see here's where

1285

00:50:14,790 --> 00:50:12,800

inertia comes into play

1286

00:50:16,390 --> 00:50:14,800

so you're having to shove this mass

1287

00:50:20,069 --> 00:50:16,400

through space

1288

00:50:23,190 --> 00:50:20,079

and given enough time right it'll keep

1289

00:50:25,430 --> 00:50:23,200

getting a little faster a little faster

1290

00:50:27,349 --> 00:50:25,440

and it will finally get at the same

1291

00:50:30,950 --> 00:50:27,359

speed the ions are kicking out

1292

00:50:34,470 --> 00:50:30,960

the back end but

1293

00:50:38,549 --> 00:50:34,480

imagine if if your ion ship there right

1294

00:50:40,710 --> 00:50:38,559

imagine if the front of it had zero mass

1295

00:50:41,990 --> 00:50:40,720

well now as these ions kick out the back

1296

00:50:45,190 --> 00:50:42,000

end he's going to

1297

00:50:47,430 --> 00:50:45,200

move forward very quickly

1298

00:50:49,589 --> 00:50:47,440

uh approaching speed of the speed of

1299

00:50:52,870 --> 00:50:49,599

light

1300

00:50:54,790 --> 00:50:52,880

um here's a a real time

1301  
00:50:56,870 --> 00:50:54,800  
a real life example i guess you might

1302  
00:51:00,069 --> 00:50:56,880  
see there's a a breakthrough

1303  
00:51:01,829 --> 00:51:00,079  
project it's called oh gosh i can't

1304  
00:51:02,950 --> 00:51:01,839  
remember the exact name of it but the

1305  
00:51:05,349 --> 00:51:02,960  
basic idea here

1306  
00:51:06,950 --> 00:51:05,359  
here's the whole idea is to get a very

1307  
00:51:11,349 --> 00:51:06,960  
small rocket

1308  
00:51:14,309 --> 00:51:11,359  
or a very small object to alpha centauri

1309  
00:51:16,790 --> 00:51:14,319  
in 20 years so it would be moving at 20

1310  
00:51:19,430 --> 00:51:16,800  
percent the speed of light

1311  
00:51:21,430 --> 00:51:19,440  
and the way they do that is rather than

1312  
00:51:23,829 --> 00:51:21,440  
have a big spaceship

1313  
00:51:25,030 --> 00:51:23,839

they're basically propelling a computer

1314

00:51:26,230 --> 00:51:25,040

chip

1315

00:51:28,390 --> 00:51:26,240

which you're talking about something

1316

00:51:31,349 --> 00:51:28,400

that only weighs a gram so the

1317

00:51:32,870 --> 00:51:31,359

is this the laser the laser thing right

1318

00:51:35,510 --> 00:51:32,880

yeah it's very low

1319

00:51:37,589 --> 00:51:35,520

and you put this giant sail connected to

1320

00:51:40,870 --> 00:51:37,599

this little computer chip

1321

00:51:41,990 --> 00:51:40,880

in essence and when the lasers hit that

1322

00:51:43,990 --> 00:51:42,000

sail

1323

00:51:45,589 --> 00:51:44,000

right the laser light is moving at the

1324

00:51:48,630 --> 00:51:45,599

speed of light

1325

00:51:52,230 --> 00:51:48,640

and normally that doesn't really move

1326  
00:51:53,670 --> 00:51:52,240  
anything right but because this chip is

1327  
00:51:56,549 --> 00:51:53,680  
so light

1328  
00:51:57,829 --> 00:51:56,559  
and the sail is like 100 nanometers in

1329  
00:52:01,109 --> 00:51:57,839  
thickness

1330  
00:52:02,230 --> 00:52:01,119  
it's actually able to shove that little

1331  
00:52:04,309 --> 00:52:02,240  
chip

1332  
00:52:07,030 --> 00:52:04,319  
to 20 percent of the speed of light and

1333  
00:52:10,950 --> 00:52:07,040  
i believe in 11 minutes

1334  
00:52:14,069 --> 00:52:10,960  
wow so that's a huge acceleration yeah

1335  
00:52:15,829 --> 00:52:14,079  
um but again that kind of goes back to

1336  
00:52:18,950 --> 00:52:15,839  
the thing of

1337  
00:52:20,069 --> 00:52:18,960  
you have to reduce the mass in order to

1338  
00:52:23,270 --> 00:52:20,079

be able to do these

1339

00:52:25,190 --> 00:52:23,280

types of rapid acceleration yeah i know

1340

00:52:26,549 --> 00:52:25,200

this show isn't just about

1341

00:52:28,150 --> 00:52:26,559

i feel like i want to keep asking

1342

00:52:30,069 --> 00:52:28,160

questions on this like what is the

1343

00:52:32,950 --> 00:52:30,079

difference between mass and gravity

1344

00:52:34,630 --> 00:52:32,960

you know or weight or weight and mess

1345

00:52:35,430 --> 00:52:34,640

but i think we probably ought to move on

1346

00:52:38,230 --> 00:52:35,440

because

1347

00:52:39,990 --> 00:52:38,240

and talk about that yeah um off air uh

1348

00:52:41,270 --> 00:52:40,000

we got about uh three minutes before we

1349

00:52:44,549 --> 00:52:41,280

go into a break

1350

00:52:47,750 --> 00:52:44,559

um and so let's just

1351  
00:52:49,349 --> 00:52:47,760  
wrap up um about talking about some

1352  
00:52:51,190 --> 00:52:49,359  
other cases that you have

1353  
00:52:52,470 --> 00:52:51,200  
in this book how many chapters did you

1354  
00:52:56,069 --> 00:52:52,480  
say there were

1355  
00:52:58,549 --> 00:52:56,079  
well i do about 11 or 12 cases well and

1356  
00:53:00,710 --> 00:52:58,559  
and each one's a chapter eight each one

1357  
00:53:03,589 --> 00:53:00,720  
is like three to five pages

1358  
00:53:05,349 --> 00:53:03,599  
yeah uh-huh and so i i don't break them

1359  
00:53:07,829 --> 00:53:05,359  
into individual chapters they're just

1360  
00:53:11,190 --> 00:53:07,839  
kind of continuous but i've got little

1361  
00:53:13,430 --> 00:53:11,200  
markers you know as you go through

1362  
00:53:14,549 --> 00:53:13,440  
some of the like the japanese airline

1363  
00:53:17,670 --> 00:53:14,559

case oh yeah

1364

00:53:21,030 --> 00:53:17,680

jay touch on them 16

1365

00:53:24,470 --> 00:53:21,040

20 something yeah yeah yeah so

1366

00:53:28,069 --> 00:53:24,480

i do that case um the four

1367

00:53:31,510 --> 00:53:28,079

uh what were they the

1368

00:53:34,710 --> 00:53:31,520

national guardsmen up in ohio

1369

00:53:37,349 --> 00:53:34,720

um that were in a helicopter

1370

00:53:38,549 --> 00:53:37,359

when they run into a large cigar-shaped

1371

00:53:39,910 --> 00:53:38,559

ufo

1372

00:53:41,589 --> 00:53:39,920

why don't we talk about that when we

1373

00:53:42,390 --> 00:53:41,599

have like i said we get we got a couple

1374

00:53:44,150 --> 00:53:42,400

minutes

1375

00:53:46,309 --> 00:53:44,160

because i'm not i i can't picture what

1376

00:53:50,069 --> 00:53:46,319

that one is oh okay

1377

00:53:52,790 --> 00:53:50,079

this one you know probably if i

1378

00:53:54,790 --> 00:53:52,800

mention the guys their name to you then

1379

00:53:58,549 --> 00:53:54,800

you may remember that case

1380

00:53:59,190 --> 00:53:58,559

but it it's um there's four national

1381

00:54:00,549 --> 00:53:59,200

guardsmen

1382

00:54:03,349 --> 00:54:00,559

and they're go they're taking a

1383

00:54:06,390 --> 00:54:03,359

helicopter back and they see this

1384

00:54:08,309 --> 00:54:06,400

uh light very far off

1385

00:54:10,150 --> 00:54:08,319

within just a few seconds the light is

1386

00:54:13,190 --> 00:54:10,160

suddenly right in front of them

1387

00:54:14,150 --> 00:54:13,200

and the captain who's flying uh the

1388

00:54:16,069 --> 00:54:14,160

helic who's

1389

00:54:18,230 --> 00:54:16,079

he's not he's the co-pilot of the

1390

00:54:19,589 --> 00:54:18,240

helicopter he takes the controls away

1391

00:54:22,150 --> 00:54:19,599

from the co-pilot

1392

00:54:23,190 --> 00:54:22,160

because he's decided that there's an

1393

00:54:26,069 --> 00:54:23,200

aircraft that's

1394

00:54:28,069 --> 00:54:26,079

going to hit them head-on this isn't the

1395

00:54:30,790 --> 00:54:28,079

coin cases yeah the coin case

1396

00:54:32,230 --> 00:54:30,800

okay and so that's the name i couldn't

1397

00:54:35,270 --> 00:54:32,240

recall

1398

00:54:37,990 --> 00:54:35,280

and so you know he he uh dives

1399

00:54:39,430 --> 00:54:38,000

as fast as canon helicopter which is you

1400

00:54:40,630 --> 00:54:39,440

know you can only do so much in a

1401  
00:54:42,390 --> 00:54:40,640  
helicopter

1402  
00:54:43,750 --> 00:54:42,400  
and all of a sudden this object's in

1403  
00:54:46,230 --> 00:54:43,760  
front of them

1404  
00:54:50,069 --> 00:54:46,240  
and it bathes their helicopter in a

1405  
00:54:56,230 --> 00:54:53,670  
and the windshield of the helicopter

1406  
00:54:58,390 --> 00:54:56,240  
that's all they see is the object

1407  
00:55:00,390 --> 00:54:58,400  
i mean it's filled up their entire

1408  
00:55:03,349 --> 00:55:00,400  
windshield so this thing is close

1409  
00:55:05,510 --> 00:55:03,359  
and it's large uh let me turn this thing

1410  
00:55:09,510 --> 00:55:05,520  
off so it doesn't ring

1411  
00:55:10,390 --> 00:55:09,520  
um i just think that's a very

1412  
00:55:12,630 --> 00:55:10,400  
interesting

1413  
00:55:14,309 --> 00:55:12,640

case that kids would kind of enjoy

1414

00:55:15,030 --> 00:55:14,319

because you know you've got good

1415

00:55:17,589 --> 00:55:15,040

witnesses

1416

00:55:18,950 --> 00:55:17,599

and it's it's so close to them right

1417

00:55:22,150 --> 00:55:18,960

imagine an object

1418

00:55:23,750 --> 00:55:22,160

so large that it fills up your entire

1419

00:55:26,710 --> 00:55:23,760

windshield

1420

00:55:28,230 --> 00:55:26,720

well yeah i mean how do you misinterpret

1421

00:55:29,510 --> 00:55:28,240

that

1422

00:55:31,430 --> 00:55:29,520

uh some people said oh they

1423

00:55:31,990 --> 00:55:31,440

misinterpreted uh they were looking at

1424

00:55:34,870 --> 00:55:32,000

venus

1425

00:55:37,670 --> 00:55:34,880

well no i don't think so so you know

1426

00:55:40,710 --> 00:55:37,680

either either those guys are idiots

1427

00:55:41,910 --> 00:55:40,720

or or there was something filling up

1428

00:55:44,630 --> 00:55:41,920

their full windshield

1429

00:55:46,150 --> 00:55:44,640

that's right and it's always poor venus

1430

00:55:49,109 --> 00:55:46,160

venus always gets blamed

1431

00:55:51,750 --> 00:55:49,119

yeah i mean even got blamed for having

1432

00:55:54,309 --> 00:55:51,760

phosphine on it not long ago so now

1433

00:55:55,589 --> 00:55:54,319

that's right that's right all right all

1434

00:55:57,030 --> 00:55:55,599

right everyone so we're going to be

1435

00:55:58,789 --> 00:55:57,040

right back right after

1436

00:56:00,069 --> 00:55:58,799

the break here and i'm going to play uh

1437

00:56:02,150 --> 00:56:00,079

since i've mentioned

1438

00:56:03,430 --> 00:56:02,160

his name a number of times i'm gonna

1439

00:56:05,670 --> 00:56:03,440

play james fox

1440

00:56:07,589 --> 00:56:05,680

um for you people over at youtube so

1441

00:56:11,589 --> 00:56:07,599

hang in everyone uh we'll be right back

1442

00:56:19,510 --> 00:56:13,030

i knew this was breaking news for the

1443

00:56:26,470 --> 00:56:22,710

we need to accept that we are not alone

1444

00:56:27,430 --> 00:56:26,480

in the universe the federal government

1445

00:56:31,030 --> 00:56:27,440

all these years

1446

00:56:34,390 --> 00:56:31,040

has covered up everything it's very very

1447

00:56:37,910 --> 00:56:36,630

there have been visitation crashed craft

1448

00:56:40,150 --> 00:56:37,920

material recovered

1449

00:56:44,069 --> 00:56:40,160

it was not anything from this earth all

1450

00:56:46,069 --> 00:56:44,079

i could do is keep a mouth shut

1451

00:56:47,990 --> 00:56:46,079

public has a right to know there's a

1452

00:56:50,470 --> 00:56:48,000

tremendous resistance

1453

00:56:53,109 --> 00:56:50,480

i guarantee every one of them knows that

1454

00:56:55,030 --> 00:56:53,119

this event happened

1455

00:56:57,349 --> 00:56:55,040

hiding these dark secrets even from

1456

00:56:59,109 --> 00:56:57,359

elected presidents

1457

00:57:02,150 --> 00:56:59,119

they came running up here in such a

1458

00:57:04,150 --> 00:57:02,160

panic child can't make it up

1459

00:57:07,109 --> 00:57:04,160

declassified government documents

1460

00:57:09,670 --> 00:57:07,119

confirm ongoing ufo incursions

1461

00:57:11,030 --> 00:57:09,680

at nuclear weapons sites are you saying

1462

00:57:13,670 --> 00:57:11,040

that there's some evidence that still

1463

00:57:15,270 --> 00:57:13,680

hasn't seen the light of day

1464

00:57:17,109 --> 00:57:15,280

i'm saying most of it hasn't seen the

1465

00:57:29,430 --> 00:57:17,119

light of day these things are

1466

00:57:37,109 --> 00:57:33,990

yes that video is uh available to stream

1467

00:57:38,150 --> 00:57:37,119

and uh i think it's femo is where you

1468

00:57:39,589 --> 00:57:38,160

want to get if you want to get the

1469

00:57:42,549 --> 00:57:39,599

extras with it

1470

00:57:44,630 --> 00:57:42,559

um it's still available out there uh i

1471

00:57:47,109 --> 00:57:44,640

highly recommend it it's a great

1472

00:57:49,030 --> 00:57:47,119

great movie um some people have said

1473

00:57:50,789 --> 00:57:49,040

well there's nothing new in it but i

1474

00:57:52,309 --> 00:57:50,799

um there's actually quite a few

1475

00:57:55,270 --> 00:57:52,319

different things that

1476  
00:57:56,470 --> 00:57:55,280  
i've learned um anyway we'll be coming

1477  
00:58:01,510 --> 00:57:56,480  
right back

1478  
00:58:01,520 --> 00:58:06,829  
about 40 seconds martin martin all right

1479  
00:58:10,710 --> 00:58:09,109  
thanks

1480  
00:58:12,390 --> 00:58:10,720  
might as well talk a little more during

1481  
00:58:15,910 --> 00:58:12,400  
the break here uh for youtube

1482  
00:58:20,470 --> 00:58:15,920  
next week um we have

1483  
00:58:22,390 --> 00:58:20,480  
uh melanie kirk dorfer

1484  
00:58:23,750 --> 00:58:22,400  
and she'll be on she was the one at the

1485  
00:58:28,150 --> 00:58:23,760  
berkshires ufo

1486  
00:58:31,109 --> 00:58:28,160  
so uh the woman who was a young girl

1487  
00:58:31,910 --> 00:58:31,119  
by the lake getting ice cream and uh all

1488  
00:58:34,150 --> 00:58:31,920

of a sudden she

1489

00:58:35,670 --> 00:58:34,160

vanished with her sister i believe from

1490

00:58:39,030 --> 00:58:35,680

the car she's got a great story i talked

1491

00:58:42,710 --> 00:58:41,910

here we go we're coming back yep in

1492

00:58:46,069 --> 00:58:42,720

three

1493

00:58:47,430 --> 00:58:46,079

two one go all right welcome back to the

1494

00:58:50,069 --> 00:58:47,440

show i'm martin wilshere

1495

00:58:51,349 --> 00:58:50,079

your host and uh coming right back we

1496

00:58:54,789 --> 00:58:51,359

have uh

1497

00:58:58,309 --> 00:58:54,799

uh robert powell welcome back robert

1498

00:59:00,630 --> 00:58:58,319

hi martin yeah um interesting

1499

00:59:01,430 --> 00:59:00,640

um that the coin case i always thought

1500

00:59:04,230 --> 00:59:01,440

that was

1501  
00:59:05,750 --> 00:59:04,240  
such a fascinating case and i remember

1502  
00:59:09,270 --> 00:59:05,760  
my friend lee spiegel

1503  
00:59:09,750 --> 00:59:09,280  
interviewed him on his uh he's got an

1504  
00:59:13,910 --> 00:59:09,760  
album

1505  
00:59:16,789 --> 00:59:13,920  
like that

1506  
00:59:18,390 --> 00:59:16,799  
we actually personally interviewed him

1507  
00:59:20,870 --> 00:59:18,400  
about that case

1508  
00:59:21,510 --> 00:59:20,880  
and uh you know i mean that that's

1509  
00:59:23,670 --> 00:59:21,520  
horrific

1510  
00:59:25,190 --> 00:59:23,680  
to have something like that happen you

1511  
00:59:27,270 --> 00:59:25,200  
you must think that's the end

1512  
00:59:29,030 --> 00:59:27,280  
i mean what else can you think in a case

1513  
00:59:29,910 --> 00:59:29,040

like that yeah i think i consider that

1514

00:59:33,510 --> 00:59:29,920

one of the top

1515

00:59:35,430 --> 00:59:33,520

10 cases also yeah and

1516

00:59:37,910 --> 00:59:35,440

what was the didn't they raise up like

1517

00:59:39,190 --> 00:59:37,920

so many feet in a very short period

1518

00:59:41,910 --> 00:59:39,200

i mean there's no way they could have

1519

00:59:45,190 --> 00:59:41,920

climbed as fast as that right

1520

00:59:46,230 --> 00:59:45,200

he noticed on his altimeter um after the

1521

00:59:49,349 --> 00:59:46,240

object had left

1522

00:59:51,589 --> 00:59:49,359

that he was like 1500 or 1900 feet

1523

00:59:53,990 --> 00:59:51,599

higher than he was

1524

00:59:55,270 --> 00:59:54,000

yeah and he had no explanation for how

1525

00:59:57,750 --> 00:59:55,280

that happened

1526  
00:59:59,589 --> 00:59:57,760  
yeah um i'm wondering why that wasn't

1527  
01:00:02,549 --> 00:59:59,599  
investigated more or was it heavily

1528  
01:00:04,230 --> 01:00:02,559  
investigated do you know

1529  
01:00:06,150 --> 01:00:04,240  
as far as i know it was not heavily

1530  
01:00:08,950 --> 01:00:06,160  
investigated

1531  
01:00:09,910 --> 01:00:08,960  
i mean talk about uh uh you know

1532  
01:00:13,190 --> 01:00:09,920  
national

1533  
01:00:15,670 --> 01:00:13,200  
security um issues yeah

1534  
01:00:16,549 --> 01:00:15,680  
i mean it was investigated a lot uh by

1535  
01:00:19,670 --> 01:00:16,559  
various

1536  
01:00:21,270 --> 01:00:19,680  
uh civilian investigators right

1537  
01:00:23,109 --> 01:00:21,280  
i think there's someone in kufos i can't

1538  
01:00:26,150 --> 01:00:23,119

remember her name she did a

1539

01:00:27,910 --> 01:00:26,160

a good report on it but

1540

01:00:30,069 --> 01:00:27,920

as far as i know it wasn't heavily

1541

01:00:32,309 --> 01:00:30,079

investigated by the military

1542

01:00:34,230 --> 01:00:32,319

did did he do a lot of talking on this

1543

01:00:35,829 --> 01:00:34,240

on that subject himself and was it

1544

01:00:38,630 --> 01:00:35,839

corroborated by

1545

01:00:40,630 --> 01:00:38,640

other people on the crew yes yeah the

1546

01:00:44,710 --> 01:00:40,640

the rest of the crew corroborated i mean

1547

01:00:49,750 --> 01:00:47,670

national guardsmen and what about the uh

1548

01:00:51,030 --> 01:00:49,760

helicopter itself did it sustain any

1549

01:00:53,510 --> 01:00:51,040

type of

1550

01:00:55,430 --> 01:00:53,520

uh issues from that not to my knowledge

1551

01:00:58,710 --> 01:00:55,440

i mean there may have been a

1552

01:01:01,270 --> 01:00:58,720

an issue with the compass on it that

1553

01:01:02,549 --> 01:01:01,280

may not have corrected itself i'm not

1554

01:01:05,030 --> 01:01:02,559

certain

1555

01:01:05,750 --> 01:01:05,040

but other than that i'm not aware of any

1556

01:01:08,950 --> 01:01:05,760

permanent

1557

01:01:09,990 --> 01:01:08,960

problem with the helicopter yeah yeah

1558

01:01:12,069 --> 01:01:10,000

that's something

1559

01:01:15,190 --> 01:01:12,079

um getting back to your book just a

1560

01:01:18,230 --> 01:01:15,200

couple more questions um

1561

01:01:21,430 --> 01:01:18,240

uh do you think that this

1562

01:01:23,670 --> 01:01:21,440

helps the um

1563

01:01:25,430 --> 01:01:23,680

the the person reading it the child or

1564

01:01:27,190 --> 01:01:25,440

even an older person reading it

1565

01:01:28,950 --> 01:01:27,200

do you think it helps guide them in a

1566

01:01:32,950 --> 01:01:28,960

direction where they're going to do

1567

01:01:35,030 --> 01:01:32,960

more research into the topic yeah

1568

01:01:37,589 --> 01:01:35,040

i try to bring as much science for that

1569

01:01:40,549 --> 01:01:37,599

age group as i can right you can't go

1570

01:01:41,430 --> 01:01:40,559

heavy into science at that age but you

1571

01:01:43,910 --> 01:01:41,440

can get their

1572

01:01:44,950 --> 01:01:43,920

curiosity going so like i explained to

1573

01:01:47,349 --> 01:01:44,960

them the difference

1574

01:01:48,789 --> 01:01:47,359

between for example facts and a

1575

01:01:51,990 --> 01:01:48,799

hypothesis

1576

01:01:54,470 --> 01:01:52,000

versus like a theory and so like um

1577

01:01:55,990 --> 01:01:54,480

i tell them you might have a hypothesis

1578

01:01:57,910 --> 01:01:56,000

that earthworms like

1579

01:01:59,589 --> 01:01:57,920

the shade so you can create an

1580

01:02:02,950 --> 01:01:59,599

experiment where

1581

01:02:05,589 --> 01:02:02,960

you you know divide up a box and

1582

01:02:07,910 --> 01:02:05,599

you count the earthworms you know when

1583

01:02:09,990 --> 01:02:07,920

it's the daytime which side are they on

1584

01:02:11,510 --> 01:02:10,000

or and how many are on the shaded side

1585

01:02:14,069 --> 01:02:11,520

you know so i give them an idea of how

1586

01:02:17,910 --> 01:02:14,079

that works

1587

01:02:19,430 --> 01:02:17,920

and also at the end of the book

1588

01:02:21,270 --> 01:02:19,440

i tell them if they want to learn more

1589

01:02:23,510 --> 01:02:21,280

about ufos

1590

01:02:25,270 --> 01:02:23,520

the first thing they should do is study

1591

01:02:28,549 --> 01:02:25,280

science in school

1592

01:02:30,870 --> 01:02:28,559

so that's well i i think we need more

1593

01:02:33,029 --> 01:02:30,880

kids that go into the field of science

1594

01:02:33,990 --> 01:02:33,039

so i said whether you like geology or

1595

01:02:35,910 --> 01:02:34,000

astronomy or

1596

01:02:40,309 --> 01:02:35,920

physics or chemistry doesn't make any

1597

01:02:42,549 --> 01:02:40,319

difference as long as you study science

1598

01:02:45,349 --> 01:02:42,559

you'll gain the right tools and

1599

01:02:47,510 --> 01:02:45,359

knowledge to learn more about ufos

1600

01:02:49,510 --> 01:02:47,520

and then i give them a list of books

1601  
01:02:51,190 --> 01:02:49,520  
that you know if they want something a

1602  
01:02:54,549 --> 01:02:51,200  
little more

1603  
01:02:57,270 --> 01:02:54,559  
meaty uh to learn because the idea here

1604  
01:03:01,029 --> 01:02:57,280  
is that this book just gets them going

1605  
01:03:03,190 --> 01:03:01,039  
yeah and then i list other books that

1606  
01:03:04,470 --> 01:03:03,200  
are more advanced that they could begin

1607  
01:03:08,870 --> 01:03:04,480  
to read

1608  
01:03:12,390 --> 01:03:08,880  
so that's kind of the idea on this

1609  
01:03:15,270 --> 01:03:12,400  
and did you like for instance um

1610  
01:03:16,069 --> 01:03:15,280  
let's say the coin helicopter case did

1611  
01:03:17,589 --> 01:03:16,079  
you have

1612  
01:03:19,750 --> 01:03:17,599  
like at the end of there for more

1613  
01:03:21,910 --> 01:03:19,760

information on this case

1614

01:03:22,870 --> 01:03:21,920

um you know go here or something like

1615

01:03:24,789 --> 01:03:22,880

anything like that

1616

01:03:26,390 --> 01:03:24,799

as far as you know most people get their

1617

01:03:28,309 --> 01:03:26,400

information from the internet

1618

01:03:30,309 --> 01:03:28,319

it's kind of a scary place sometimes to

1619

01:03:33,190 --> 01:03:30,319

get the right information that's true

1620

01:03:35,270 --> 01:03:33,200

um now what i i didn't do that i just

1621

01:03:37,750 --> 01:03:35,280

recommended specific books

1622

01:03:38,789 --> 01:03:37,760

yeah that they should go read and some

1623

01:03:40,950 --> 01:03:38,799

of those books

1624

01:03:42,230 --> 01:03:40,960

have the coin case for example our book

1625

01:03:45,510 --> 01:03:42,240

ufos and government

1626  
01:03:45,990 --> 01:03:45,520  
is one but i listed that one farther

1627  
01:03:49,510 --> 01:03:46,000  
down

1628  
01:03:51,270 --> 01:03:49,520  
because i wanted books that were uh

1629  
01:03:54,470 --> 01:03:51,280  
a little easier right because this is a

1630  
01:03:58,390 --> 01:03:54,480  
seven to eleven year old age group

1631  
01:04:02,150 --> 01:03:58,400  
uh so i list them from easiest to most

1632  
01:04:04,549 --> 01:04:02,160  
to more difficult and yeah

1633  
01:04:05,910 --> 01:04:04,559  
i like that that title um ufos in

1634  
01:04:09,029 --> 01:04:05,920  
government

1635  
01:04:10,390 --> 01:04:09,039  
and uh and that was uh also was that

1636  
01:04:13,510 --> 01:04:10,400  
science minded too for

1637  
01:04:14,309 --> 01:04:13,520  
the younger people as well uh ufos in

1638  
01:04:18,069 --> 01:04:14,319

government is

1639

01:04:21,270 --> 01:04:18,079

really directed towards a college age

1640

01:04:23,670 --> 01:04:21,280

kids yeah so it's uh like i said there's

1641

01:04:27,670 --> 01:04:23,680

over a thousand references

1642

01:04:29,990 --> 01:04:27,680

and it's written like a history book um

1643

01:04:30,789 --> 01:04:30,000

so it's it's very it's much more matter

1644

01:04:33,829 --> 01:04:30,799

of fact

1645

01:04:37,589 --> 01:04:33,839

and drier it's much drier than like

1646

01:04:39,750 --> 01:04:37,599

this book yeah yeah interesting wow

1647

01:04:41,750 --> 01:04:39,760

so let's uh let's shift gears a little

1648

01:04:44,870 --> 01:04:41,760

bit and let's talk about uh

1649

01:04:47,829 --> 01:04:44,880

the scu which you're involved and

1650

01:04:49,670 --> 01:04:47,839

and can you explain to the listener that

1651  
01:04:52,710 --> 01:04:49,680  
is unaware of exactly what that

1652  
01:04:53,670 --> 01:04:52,720  
is what it is and who's involved please

1653  
01:04:56,789 --> 01:04:53,680  
sure

1654  
01:04:58,069 --> 01:04:56,799  
so the scu stands for the scientific

1655  
01:05:01,910 --> 01:04:58,079  
coalition

1656  
01:05:05,910 --> 01:05:01,920  
uh of uap studies and

1657  
01:05:09,029 --> 01:05:05,920  
it was created in september of 2017

1658  
01:05:09,789 --> 01:05:09,039  
by myself and two other individuals it's

1659  
01:05:13,190 --> 01:05:09,799  
a

1660  
01:05:16,950 --> 01:05:13,200  
501c3 non-profit

1661  
01:05:19,750 --> 01:05:16,960  
today it has over 100 members

1662  
01:05:21,510 --> 01:05:19,760  
most of those members have science

1663  
01:05:24,309 --> 01:05:21,520

backgrounds

1664

01:05:29,349 --> 01:05:24,319

uh over half have advanced degrees

1665

01:05:35,029 --> 01:05:32,630

about 16 percent are from other

1666

01:05:38,710 --> 01:05:35,039

countries

1667

01:05:41,910 --> 01:05:38,720

we have members who are part of nasa

1668

01:05:42,549 --> 01:05:41,920

part of the european space agency uh we

1669

01:05:45,029 --> 01:05:42,559

have an ex

1670

01:05:45,670 --> 01:05:45,039

norad member uh we've got several

1671

01:05:52,470 --> 01:05:45,680

members

1672

01:05:58,950 --> 01:05:55,589

what else can i tell you about it um

1673

01:06:02,190 --> 01:05:58,960

i guess the key thing is

1674

01:06:03,430 --> 01:06:02,200

i think to understand that in our

1675

01:06:06,069 --> 01:06:03,440

organization

1676

01:06:07,349 --> 01:06:06,079

is a good example that people with

1677

01:06:09,349 --> 01:06:07,359

science background

1678

01:06:11,190 --> 01:06:09,359

backgrounds are interested in this

1679

01:06:15,589 --> 01:06:11,200

subject this is not

1680

01:06:19,270 --> 01:06:15,599

a subject that all scientists avoid

1681

01:06:23,670 --> 01:06:19,280

we have university professors in scu

1682

01:06:26,470 --> 01:06:23,680

that are part of our overall team

1683

01:06:27,670 --> 01:06:26,480

and we're over a hundred now and we

1684

01:06:31,029 --> 01:06:27,680

really didn't go out

1685

01:06:33,190 --> 01:06:31,039

trying to recruit people they find us

1686

01:06:35,109 --> 01:06:33,200

and then we have a board of directors

1687

01:06:38,470 --> 01:06:35,119

meeting every month

1688

01:06:42,470 --> 01:06:38,480

and whenever someone applies we review

1689

01:06:45,589 --> 01:06:42,480

you know their resume their view

1690

01:06:49,029 --> 01:06:45,599

on the uap subject and

1691

01:06:53,109 --> 01:06:49,039

you know we say you know yeah you're nay

1692

01:06:54,870 --> 01:06:53,119

and we're i think we're at 100 506

1693

01:06:56,870 --> 01:06:54,880

members right now

1694

01:06:57,990 --> 01:06:56,880

yeah i've gotten involved just in

1695

01:07:01,270 --> 01:06:58,000

helping with the

1696

01:07:02,710 --> 01:07:01,280

streams and uh the topics are just

1697

01:07:04,549 --> 01:07:02,720

fantastic

1698

01:07:05,750 --> 01:07:04,559

and i was uh thrilled that linda

1699

01:07:09,029 --> 01:07:05,760

zimmerman

1700

01:07:09,510 --> 01:07:09,039

um it became a a member of the team

1701

01:07:13,510 --> 01:07:09,520

there

1702

01:07:15,510 --> 01:07:13,520

as well yeah

1703

01:07:16,870 --> 01:07:15,520

the name brings a bell it's hard for me

1704

01:07:19,349 --> 01:07:16,880

to keep track of

1705

01:07:19,990 --> 01:07:19,359

yeah she's uh the one i can connected

1706

01:07:22,789 --> 01:07:20,000

you with

1707

01:07:24,069 --> 01:07:22,799

uh animal science right right right yeah

1708

01:07:26,470 --> 01:07:24,079

and actually

1709

01:07:28,630 --> 01:07:26,480

uh martin uh i've sent her a couple of

1710

01:07:30,789 --> 01:07:28,640

cases i just happened to run across

1711

01:07:32,309 --> 01:07:30,799

when i was going through some blue book

1712

01:07:35,109 --> 01:07:32,319

cases that were good

1713

01:07:36,390 --> 01:07:35,119

animal cases so i sent them to her yeah

1714

01:07:38,630 --> 01:07:36,400

yeah she liked that

1715

01:07:39,589 --> 01:07:38,640

another fascinating topic i mean there's

1716

01:07:41,670 --> 01:07:39,599

so many

1717

01:07:43,190 --> 01:07:41,680

when it when it when it comes to this

1718

01:07:46,309 --> 01:07:43,200

but um what are

1719

01:07:47,510 --> 01:07:46,319

some of the uh i know that uh like i

1720

01:07:50,710 --> 01:07:47,520

said i've helped uh

1721

01:07:53,829 --> 01:07:50,720

host uh some of the the the talks

1722

01:07:56,309 --> 01:07:53,839

but um what are some of the

1723

01:07:57,589 --> 01:07:56,319

scientific takes on this you know like

1724

01:07:59,270 --> 01:07:57,599

michael masters is

1725

01:08:01,670 --> 01:07:59,280

is very interesting the time travel

1726

01:08:02,710 --> 01:08:01,680

thing right he's part of that

1727

01:08:05,029 --> 01:08:02,720

and there are several people that have

1728

01:08:08,789 --> 01:08:05,039

been on this show kevin knuth

1729

01:08:09,750 --> 01:08:08,799

um and and many others but uh there's

1730

01:08:11,670 --> 01:08:09,760

there's all

1731

01:08:13,670 --> 01:08:11,680

all types of ways of looking at this

1732

01:08:17,030 --> 01:08:13,680

topic is

1733

01:08:20,229 --> 01:08:17,040

i mean within scu uh

1734

01:08:23,510 --> 01:08:20,239

there are um people across a

1735

01:08:24,789 --> 01:08:23,520

full range of their thoughts on the

1736

01:08:27,269 --> 01:08:24,799

topic

1737

01:08:28,630 --> 01:08:27,279

right i mean some people may think the

1738

01:08:31,749 --> 01:08:28,640

ep hypothesis

1739

01:08:33,110 --> 01:08:31,759

is the most likely you know others like

1740

01:08:36,309 --> 01:08:33,120

michael masters think

1741

01:08:40,470 --> 01:08:36,319

well perhaps time travel might be

1742

01:08:44,070 --> 01:08:40,480

the best explanation and

1743

01:08:45,990 --> 01:08:44,080

and this is important um within the icu

1744

01:08:47,910 --> 01:08:46,000

we understand what a hypothesis

1745

01:08:49,590 --> 01:08:47,920

is and it doesn't mean that we believe

1746

01:08:53,110 --> 01:08:49,600

that's necessarily true

1747

01:08:56,070 --> 01:08:53,120

right so when michael master says okay

1748

01:08:56,870 --> 01:08:56,080

you can explain this with time travel

1749

01:08:58,709 --> 01:08:56,880

he's saying

1750

01:08:59,990 --> 01:08:58,719

okay time travel could explain it but

1751

01:09:03,189 --> 01:09:00,000

he's not saying

1752

01:09:05,590 --> 01:09:03,199

that is the answer right and a lot

1753

01:09:07,430 --> 01:09:05,600

a lot of times in the public they don't

1754

01:09:10,550 --> 01:09:07,440

people don't always understand that

1755

01:09:11,030 --> 01:09:10,560

especially in the media if you say the

1756

01:09:13,749 --> 01:09:11,040

e.t

1757

01:09:15,590 --> 01:09:13,759

hypothesis they assume that you're

1758

01:09:16,870 --> 01:09:15,600

automatically saying there's little

1759

01:09:20,630 --> 01:09:16,880

green aliens

1760

01:09:23,669 --> 01:09:20,640

in the flying saucers well really

1761

01:09:26,789 --> 01:09:23,679

all the ep hypothesis says is

1762

01:09:29,269 --> 01:09:26,799

based on what we know of

1763

01:09:31,430 --> 01:09:29,279

extrasolar planets and what we know of

1764

01:09:34,789 --> 01:09:31,440

the universe

1765

01:09:37,829 --> 01:09:34,799

a hypothesis is that

1766

01:09:39,110 --> 01:09:37,839

that could be not that it is it could be

1767

01:09:43,749 --> 01:09:39,120

the origin

1768

01:09:47,269 --> 01:09:46,470

right um i don't know if you if you saw

1769

01:09:49,749 --> 01:09:47,279

this and

1770

01:09:50,950 --> 01:09:49,759

i didn't and i didn't see this in

1771

01:09:55,110 --> 01:09:50,960

particular

1772

01:09:58,470 --> 01:09:55,120

but uh i know that uh obama was asked

1773

01:10:00,630 --> 01:09:58,480

about ufos on

1774

01:10:01,990 --> 01:10:00,640

not uh with jimmy kimmel and i'm

1775

01:10:04,310 --> 01:10:02,000

wondering if this uh

1776

01:10:05,430 --> 01:10:04,320

is this a new uh interview with stephen

1777

01:10:08,550 --> 01:10:05,440

colbert

1778

01:10:10,630 --> 01:10:08,560

um did you happen to catch that no

1779

01:10:11,990 --> 01:10:10,640

i i didn't catch it so i can't really

1780

01:10:15,110 --> 01:10:12,000

comment on what he

1781

01:10:17,510 --> 01:10:15,120

said yeah uh but you know

1782

01:10:20,149 --> 01:10:17,520

for all politicians i don't think on

1783

01:10:22,790 --> 01:10:20,159

that subject they're ever going to

1784

01:10:25,350 --> 01:10:22,800

comment very uh concretely it's always

1785

01:10:27,189 --> 01:10:25,360

going to be uh

1786

01:10:28,870 --> 01:10:27,199

you know kind of a wishy-washy answer i

1787

01:10:32,070 --> 01:10:28,880

would suspect yeah

1788

01:10:35,110 --> 01:10:32,080

well when jimmy kimmel asked

1789

01:10:37,430 --> 01:10:35,120

obama uh what he thought

1790

01:10:39,110 --> 01:10:37,440

he goes if if i was sitting there you

1791

01:10:41,030 --> 01:10:39,120

know and then he's like

1792

01:10:42,550 --> 01:10:41,040

laughing how unlikely that would be in

1793

01:10:44,470 --> 01:10:42,560

the president's office

1794

01:10:46,149 --> 01:10:44,480

um the first thing he would do is find

1795

01:10:47,669 --> 01:10:46,159

out what's going on with ufos that's

1796

01:10:51,110 --> 01:10:47,679

what jimmy kimmel says to

1797

01:10:55,030 --> 01:10:51,120

to obama well a friend of the show

1798

01:10:57,030 --> 01:10:55,040

um ben hansen spent 40 some odd hours

1799

01:11:00,070 --> 01:10:57,040

going over that clip

1800

01:11:01,189 --> 01:11:00,080

to do body language with his training in

1801  
01:11:03,669 --> 01:11:01,199  
the fbi

1802  
01:11:04,229 --> 01:11:03,679  
uh obama's body language and he says

1803  
01:11:07,030 --> 01:11:04,239  
that he

1804  
01:11:08,630 --> 01:11:07,040  
was very uneasy and talking about it you

1805  
01:11:09,189 --> 01:11:08,640  
know basically you could see the rate of

1806  
01:11:12,310 --> 01:11:09,199  
uh

1807  
01:11:13,030 --> 01:11:12,320  
of the breath rate you know the the

1808  
01:11:16,550 --> 01:11:13,040  
possible

1809  
01:11:17,990 --> 01:11:16,560  
uh heartbeat rate rising and all that

1810  
01:11:19,830 --> 01:11:18,000  
shortness of breath you know things like

1811  
01:11:22,390 --> 01:11:19,840  
that when he was talking about the topic

1812  
01:11:23,430 --> 01:11:22,400  
yeah and i could believe that of course

1813  
01:11:25,830 --> 01:11:23,440

what you don't know is

1814

01:11:26,630 --> 01:11:25,840

why is he uneasy yeah is it because he

1815

01:11:28,390 --> 01:11:26,640

knows something

1816

01:11:29,830 --> 01:11:28,400

or is it because he knows well just

1817

01:11:31,990 --> 01:11:29,840

talking about this

1818

01:11:35,110 --> 01:11:32,000

subject is not good for my political

1819

01:11:39,990 --> 01:11:37,990

it could be it could be that exactly

1820

01:11:43,189 --> 01:11:40,000

it's very very true

1821

01:11:45,669 --> 01:11:43,199

yeah it's nothing uh

1822

01:11:46,229 --> 01:11:45,679

nothing that uh i i saw another question

1823

01:11:49,830 --> 01:11:46,239

here

1824

01:11:50,229 --> 01:11:49,840

nothing you can can get any firm answers

1825

01:11:53,430 --> 01:11:50,239

from

1826

01:11:54,950 --> 01:11:53,440

at all uh i can't there was another

1827

01:11:57,350 --> 01:11:54,960

question besides this one

1828

01:11:57,990 --> 01:11:57,360

have you ever found any ufo footage

1829

01:12:01,990 --> 01:11:58,000

interesting

1830

01:12:05,110 --> 01:12:02,000

yourself uh well to me the most

1831

01:12:09,189 --> 01:12:05,120

um i'll mention too one

1832

01:12:12,630 --> 01:12:09,199

is the nimitz video from 2004.

1833

01:12:15,350 --> 01:12:12,640

um i i find that one very interesting

1834

01:12:17,270 --> 01:12:15,360

but not because of just the video if all

1835

01:12:20,550 --> 01:12:17,280

we had was that video

1836

01:12:22,550 --> 01:12:20,560

then i would be like eh but you've got

1837

01:12:24,790 --> 01:12:22,560

so many witnesses

1838

01:12:26,950 --> 01:12:24,800

and you had an event that happened that

1839

01:12:30,630 --> 01:12:26,960

day that that makes the video much

1840

01:12:35,030 --> 01:12:30,640

more useful another video

1841

01:12:37,110 --> 01:12:35,040

is the 2013 aguadilla video

1842

01:12:39,590 --> 01:12:37,120

which we analyzed this is over puerto

1843

01:12:42,630 --> 01:12:39,600

rico yes i wanted to talk about that

1844

01:12:43,910 --> 01:12:42,640

because homeland security you spent a

1845

01:12:46,630 --> 01:12:43,920

lot of time on that one

1846

01:12:48,229 --> 01:12:46,640

can you can you uh bring that up and

1847

01:12:49,510 --> 01:12:48,239

just kind of go into detail on that if

1848

01:12:52,790 --> 01:12:49,520

you don't mind

1849

01:12:56,070 --> 01:12:52,800

sure so uh we gained we

1850

01:12:59,990 --> 01:12:56,080

um morgan beal who's part of the scu

1851

01:13:01,830 --> 01:13:00,000

also uh was able to obtain this video

1852

01:13:03,270 --> 01:13:01,840

uh it's a video that came from homeland

1853

01:13:05,750 --> 01:13:03,280

security

1854

01:13:07,830 --> 01:13:05,760

and apparently the video had just been

1855

01:13:10,870 --> 01:13:07,840

circulating within their offices

1856

01:13:13,110 --> 01:13:10,880

you know just passing it around and so

1857

01:13:15,590 --> 01:13:13,120

he got a copy of it

1858

01:13:16,630 --> 01:13:15,600

and what you see in the video initially

1859

01:13:19,350 --> 01:13:16,640

is not very

1860

01:13:20,709 --> 01:13:19,360

exciting i mean you just see this object

1861

01:13:24,229 --> 01:13:20,719

moving through the

1862

01:13:25,510 --> 01:13:24,239

the air and when i first saw it it's a

1863

01:13:28,550 --> 01:13:25,520

three minute video

1864

01:13:29,270 --> 01:13:28,560

you know i'm watching it so okay it's a

1865

01:13:33,669 --> 01:13:29,280

ir

1866

01:13:36,709 --> 01:13:33,679

video and then you see

1867

01:13:41,110 --> 01:13:36,719

uh the operator zoom in on it

1868

01:13:45,270 --> 01:13:41,120

and it it starts to go over the ocean

1869

01:13:47,750 --> 01:13:45,280

okay so and then it hits the water

1870

01:13:49,110 --> 01:13:47,760

and to the naked eye you don't even see

1871

01:13:51,750 --> 01:13:49,120

the water move it just

1872

01:13:52,390 --> 01:13:51,760

goes into the water and i was like okay

1873

01:13:56,149 --> 01:13:52,400

that's

1874

01:13:59,270 --> 01:13:56,159

out of the water

1875

01:14:01,669 --> 01:13:59,280

again there's no real splash uh yeah

1876

01:14:04,950 --> 01:14:01,679

there's the aguadilla video there

1877

01:14:07,030 --> 01:14:04,960

and i i'll just do a footnote here when

1878

01:14:08,870 --> 01:14:07,040

we went in and analyzed it in detail

1879

01:14:10,950 --> 01:14:08,880

there is movement in the water but it's

1880

01:14:14,310 --> 01:14:10,960

just my newt

1881

01:14:16,630 --> 01:14:14,320

okay so it comes out of the water

1882

01:14:18,070 --> 01:14:16,640

and then and here was the weirdest thing

1883

01:14:21,270 --> 01:14:18,080

of the whole video the thing

1884

01:14:24,149 --> 01:14:21,280

splits in half right and

1885

01:14:24,950 --> 01:14:24,159

when we i first saw that it was like wow

1886

01:14:28,149 --> 01:14:24,960

now that is

1887

01:14:30,149 --> 01:14:28,159

that is strange so

1888

01:14:31,750 --> 01:14:30,159

we spent a year and a half analyzing

1889

01:14:35,189 --> 01:14:31,760

this video

1890

01:14:36,630 --> 01:14:35,199

uh and i i took the video we broke it

1891

01:14:39,110 --> 01:14:36,640

out frame by frame

1892

01:14:40,229 --> 01:14:39,120

so you've got 30 frames for every second

1893

01:14:43,350 --> 01:14:40,239

of video

1894

01:14:45,669 --> 01:14:43,360

and when it splits right i'm i'm looking

1895

01:14:48,550 --> 01:14:45,679

at every individual frame

1896

01:14:50,550 --> 01:14:48,560

and i'm looking you get pixel values for

1897

01:14:52,790 --> 01:14:50,560

every pixel on that frame

1898

01:14:53,910 --> 01:14:52,800

so you've got a frame with thousands of

1899

01:14:57,830 --> 01:14:53,920

pixel values

1900

01:15:01,189 --> 01:14:57,840

the object itself at the time it split

1901

01:15:01,590 --> 01:15:01,199

consisted of about 35 pixels so there's

1902

01:15:03,270 --> 01:15:01,600

a

1903

01:15:06,310 --> 01:15:03,280

you know this isn't just two or three or

1904

01:15:09,990 --> 01:15:06,320

four pixels there's 35 pixels

1905

01:15:12,310 --> 01:15:10,000

and you get a value from 0 to 250.

1906

01:15:13,590 --> 01:15:12,320

so the bigger the number in this

1907

01:15:16,470 --> 01:15:13,600

particular video

1908

01:15:18,070 --> 01:15:16,480

the colder the smaller the number the

1909

01:15:20,950 --> 01:15:18,080

hotter

1910

01:15:21,830 --> 01:15:20,960

and whenever you follow this object

1911

01:15:24,229 --> 01:15:21,840

through the video

1912

01:15:24,950 --> 01:15:24,239

anywhere through it there's always a

1913

01:15:27,669 --> 01:15:24,960

core

1914

01:15:29,750 --> 01:15:27,679

within the object that's hotter than the

1915

01:15:32,950 --> 01:15:29,760

rest of the object so there's a core

1916

01:15:35,990 --> 01:15:32,960

heat area so as it's

1917

01:15:39,990 --> 01:15:36,000

uh as it's coming out of the water

1918

01:15:43,669 --> 01:15:40,000

you still see its heat area and

1919

01:15:44,950 --> 01:15:43,679

frame by frame the heat area begins to

1920

01:15:52,390 --> 01:15:44,960

expand

1921

01:15:55,030 --> 01:15:52,400

until it's roughly double its original

1922

01:15:58,470 --> 01:15:55,040

size so instead of 35 pixels

1923

01:16:00,870 --> 01:15:58,480

we're now looking at 70 pixels is this

1924

01:16:02,390 --> 01:16:00,880

up on the screen now for youtube is it

1925

01:16:04,070 --> 01:16:02,400

that that's it there if

1926

01:16:06,630 --> 01:16:04,080

if i remember where you're at on the

1927

01:16:10,070 --> 01:16:06,640

video that's uh

1928

01:16:10,950 --> 01:16:10,080

um let's see where you at on that i

1929

01:16:13,990 --> 01:16:10,960

would say that's

1930

01:16:16,709 --> 01:16:14,000

right before it

1931

01:16:18,870 --> 01:16:16,719

it starts to split in half i think but

1932

01:16:21,030 --> 01:16:18,880

i'm not positive at the moment

1933

01:16:22,149 --> 01:16:21,040

but it looks almost like a cluster in a

1934

01:16:23,669 --> 01:16:22,159

way

1935

01:16:25,270 --> 01:16:23,679

well yeah because you're looking at the

1936

01:16:28,390 --> 01:16:25,280

you're looking at about

1937

01:16:30,229 --> 01:16:28,400

60 70 pixels there if i say if you were

1938

01:16:32,390 --> 01:16:30,239

to increase the measurement so

1939

01:16:33,270 --> 01:16:32,400

the pixelation is mostly doing that

1940

01:16:36,470 --> 01:16:33,280

right

1941

01:16:39,910 --> 01:16:36,480

and so the object

1942

01:16:40,470 --> 01:16:39,920

uh like i said the heat area increases

1943

01:16:42,149 --> 01:16:40,480

right

1944

01:16:43,750 --> 01:16:42,159

and the object is doubled in size and

1945

01:16:45,430 --> 01:16:43,760

the heat area is double in size

1946

01:16:47,990 --> 01:16:45,440

the next thing that happened was really

1947

01:16:51,350 --> 01:16:48,000

weird is frame by frame

1948

01:16:53,030 --> 01:16:51,360

the the heat area starts to split apart

1949

01:16:54,630 --> 01:16:53,040

in the report i call it similar to

1950

01:16:58,070 --> 01:16:54,640

mitosis which in

1951

01:17:00,630 --> 01:16:58,080

biology is what a cell does right before

1952

01:17:03,830 --> 01:17:00,640

it splits into two cells

1953

01:17:05,189 --> 01:17:03,840

the nucleus uh splits and then the whole

1954

01:17:08,470 --> 01:17:05,199

cell splits

1955

01:17:12,310 --> 01:17:08,480

that's exactly what this looked like uh

1956

01:17:15,430 --> 01:17:12,320

so i i don't have an explanation

1957

01:17:17,270 --> 01:17:15,440

um now there's a lot of people who've

1958

01:17:20,470 --> 01:17:17,280

tried to explain it

1959

01:17:24,470 --> 01:17:20,480

for example they'll say well

1960

01:17:28,830 --> 01:17:24,480

that the object didn't really split

1961

01:17:31,910 --> 01:17:28,840

uh in half it it was a reflection

1962

01:17:32,950 --> 01:17:31,920

right uh and then another explanation

1963

01:17:36,550 --> 01:17:32,960

was

1964

01:17:38,790 --> 01:17:36,560

um oh the the object

1965

01:17:40,630 --> 01:17:38,800

uh there was really two objects and then

1966

01:17:44,390 --> 01:17:40,640

they just finally came apart

1967

01:17:45,910 --> 01:17:44,400

after three minutes right um

1968

01:17:47,510 --> 01:17:45,920

so there's all these ex but none of

1969

01:17:49,830 --> 01:17:47,520

those explanations are good

1970

01:17:50,709 --> 01:17:49,840

explanations for what you know what's

1971

01:17:53,669 --> 01:17:50,719

going on in

1972

01:17:55,030 --> 01:17:53,679

in the video because if for example take

1973

01:17:58,470 --> 01:17:55,040

if you had two objects

1974

01:18:01,910 --> 01:17:58,480

tied together that finally split

1975

01:18:03,590 --> 01:18:01,920

well for starters there was a full

1976

01:18:05,590 --> 01:18:03,600

three minutes almost three minutes of

1977

01:18:08,229 --> 01:18:05,600

video prior to that

1978

01:18:10,630 --> 01:18:08,239

and you never see i mean this is a high

1979

01:18:13,590 --> 01:18:10,640

quality military ir video

1980

01:18:15,830 --> 01:18:13,600

you never can separate the two objects i

1981

01:18:17,669 --> 01:18:15,840

mean they look like one object

1982

01:18:18,870 --> 01:18:17,679

until you get to this point and then

1983

01:18:21,189 --> 01:18:18,880

they split

1984

01:18:22,870 --> 01:18:21,199

you know that doesn't that doesn't make

1985

01:18:25,110 --> 01:18:22,880

sense

1986

01:18:26,550 --> 01:18:25,120

i mean we've looked at every possible

1987

01:18:29,510 --> 01:18:26,560

explanation

1988

01:18:30,870 --> 01:18:29,520

and we've never come up with any and

1989

01:18:33,750 --> 01:18:30,880

what about

1990

01:18:35,590 --> 01:18:33,760

speeds are erratic behavior besides the

1991

01:18:38,470 --> 01:18:35,600

water

1992

01:18:40,950 --> 01:18:38,480

the speed uh the highest speed it ever

1993

01:18:44,229 --> 01:18:40,960

gets to it's like 120 miles an hour

1994

01:18:47,189 --> 01:18:44,239

so the speed itself is not unusual

1995

01:18:48,870 --> 01:18:47,199

other than two things one this is at

1996

01:18:52,870 --> 01:18:48,880

night

1997

01:18:56,550 --> 01:18:52,880

and this object is moving

1998

01:18:59,910 --> 01:18:56,560

right near trees and telephone poles

1999

01:19:02,470 --> 01:18:59,920

at its speeds from 60 to 100 miles an

2000

01:19:06,070 --> 01:19:02,480

hour in the middle of the night

2001

01:19:08,790 --> 01:19:06,080

and it has no light source on it and

2002

01:19:10,149 --> 01:19:08,800

it's able to not impact anything i mean

2003

01:19:12,790 --> 01:19:10,159

that's

2004

01:19:13,750 --> 01:19:12,800

if you could imagine something at 30 to

2005

01:19:15,830 --> 01:19:13,760

40 feet

2006

01:19:18,229 --> 01:19:15,840

in altitude cruising through your

2007

01:19:18,950 --> 01:19:18,239

neighborhood at 80 to 100 miles an hour

2008

01:19:22,149 --> 01:19:18,960

at night

2009

01:19:23,750 --> 01:19:22,159

and not hitting anything um that that's

2010

01:19:25,669 --> 01:19:23,760

pretty good

2011

01:19:26,950 --> 01:19:25,679

uh the other thing that was unusual

2012

01:19:29,910 --> 01:19:26,960

about the speed

2013

01:19:30,470 --> 01:19:29,920

is that when it impacts the water

2014

01:19:33,830 --> 01:19:30,480

there's a

2015

01:19:37,110 --> 01:19:33,840

very slight reduction in speed it hit

2016

01:19:41,590 --> 01:19:37,120

the water at around 105 miles an hour

2017

01:19:43,750 --> 01:19:41,600

so we see it dropped to about 85

2018

01:19:45,110 --> 01:19:43,760

and then it continues to move at around

2019

01:19:47,189 --> 01:19:45,120

85

2020

01:19:48,149 --> 01:19:47,199

and before it when it comes out of the

2021

01:19:52,310 --> 01:19:48,159

water

2022

01:19:55,350 --> 01:19:52,320

then it's at around 65 but

2023

01:19:55,669 --> 01:19:55,360

you you don't see this big splash you

2024

01:19:58,229 --> 01:19:55,679

just

2025

01:19:59,510 --> 01:19:58,239

see a very faint water movement as it

2026

01:20:01,750 --> 01:19:59,520

goes in

2027

01:20:03,430 --> 01:20:01,760

and we thought okay a drone might be

2028

01:20:06,470 --> 01:20:03,440

able to do that

2029

01:20:09,590 --> 01:20:06,480

but what a drone can't do is come back

2030

01:20:11,270 --> 01:20:09,600

out of the water at high speed

2031

01:20:13,110 --> 01:20:11,280

right unless there's a rocket or

2032

01:20:15,030 --> 01:20:13,120

something like that right like an icbm

2033

01:20:17,910 --> 01:20:15,040

coming out of a submarine does that

2034

01:20:19,030 --> 01:20:17,920

but you've got a rocket propellant to

2035

01:20:21,510 --> 01:20:19,040

break through the water

2036

01:20:23,189 --> 01:20:21,520

and keep going up yeah there's there's

2037

01:20:24,229 --> 01:20:23,199

drones that will go into the water and

2038

01:20:26,229 --> 01:20:24,239

come back out

2039

01:20:27,350 --> 01:20:26,239

but they they kind of like float up to

2040

01:20:28,870 --> 01:20:27,360

the top and they

2041

01:20:30,550 --> 01:20:28,880

just bare and you know they finally

2042

01:20:31,990 --> 01:20:30,560

break the plane and then they get in the

2043

01:20:36,070 --> 01:20:32,000

atmosphere and start moving

2044

01:20:36,950 --> 01:20:36,080

again but i'm not aware of anything that

2045

01:20:38,390 --> 01:20:36,960

can just

2046

01:20:40,870 --> 01:20:38,400

move through the water at that speed and

2047

01:20:43,669 --> 01:20:40,880

just keep on going through the water

2048

01:20:44,830 --> 01:20:43,679

and what about propulsion did you see

2049

01:20:47,910 --> 01:20:44,840

any signs of

2050

01:20:50,229 --> 01:20:47,920

propulsion no there was no signs of

2051

01:20:53,990 --> 01:20:50,239

propulsion

2052

01:20:55,750 --> 01:20:54,000

that's such a bizarre case yeah and uh

2053

01:20:57,270 --> 01:20:55,760

and there were there was a was it like

2054

01:20:59,430 --> 01:20:57,280

did you say four of you that were

2055

01:21:01,270 --> 01:20:59,440

working on this for a year and a half

2056

01:21:03,510 --> 01:21:01,280

uh yeah there's four of us that worked

2057

01:21:05,750 --> 01:21:03,520

on it for about a year and a half

2058

01:21:07,110 --> 01:21:05,760

and it just basically comes down to

2059

01:21:09,510 --> 01:21:07,120

inconclusive

2060

01:21:11,350 --> 01:21:09,520

yeah we have no idea what that is the

2061

01:21:14,790 --> 01:21:11,360

only thing we can say

2062

01:21:16,950 --> 01:21:14,800

is we've eliminated every

2063

01:21:18,629 --> 01:21:16,960

possible explanation we could think of

2064

01:21:21,510 --> 01:21:18,639

from birds to drones

2065

01:21:22,470 --> 01:21:21,520

to balloons to what have you yeah and

2066

01:21:25,590 --> 01:21:22,480

what is that

2067

01:21:28,070 --> 01:21:25,600

what does the common

2068

01:21:29,350 --> 01:21:28,080

skeptic say do they bring up all those

2069

01:21:32,390 --> 01:21:29,360

things balloons because

2070

01:21:35,110 --> 01:21:32,400

i think i heard that myself the uh

2071

01:21:36,870 --> 01:21:35,120

the commons skeptic you know it changes

2072

01:21:38,550 --> 01:21:36,880

over time

2073

01:21:39,910 --> 01:21:38,560

so they started off with the balloon

2074

01:21:41,910 --> 01:21:39,920

theory

2075

01:21:43,350 --> 01:21:41,920

and then that didn't work too well

2076  
01:21:45,350 --> 01:21:43,360  
because

2077  
01:21:47,110 --> 01:21:45,360  
you've got a heat source the center area

2078  
01:21:50,470 --> 01:21:47,120  
is hotter than the rest

2079  
01:21:53,510 --> 01:21:50,480  
plus an infrared with uh

2080  
01:21:54,390 --> 01:21:53,520  
a balloon the bottom of the balloon is

2081  
01:21:56,310 --> 01:21:54,400  
gonna and we

2082  
01:21:57,830 --> 01:21:56,320  
demonstrated this by actually doing a

2083  
01:21:59,590 --> 01:21:57,840  
balloon test the bottom of the balloon

2084  
01:22:00,870 --> 01:21:59,600  
will be warmer and the top will be

2085  
01:22:04,709 --> 01:22:00,880  
colder that's because

2086  
01:22:07,189 --> 01:22:04,719  
infrared is reflecting the

2087  
01:22:09,510 --> 01:22:07,199  
basically black body radiation of the

2088  
01:22:11,990 --> 01:22:09,520

atmosphere so it's cold on top

2089

01:22:13,350 --> 01:22:12,000

and on the bottom it's reflecting heat

2090

01:22:16,470 --> 01:22:13,360

coming off the land

2091

01:22:18,310 --> 01:22:16,480

so it looks warmer on the bottom so

2092

01:22:20,550 --> 01:22:18,320

that was the first theory which that

2093

01:22:22,310 --> 01:22:20,560

didn't work so then the next theory

2094

01:22:24,390 --> 01:22:22,320

i think a lot of the skeptics came up

2095

01:22:26,229 --> 01:22:24,400

with was

2096

01:22:28,550 --> 01:22:26,239

let me back up martin i mean i'm a

2097

01:22:29,590 --> 01:22:28,560

skeptic these guys aren't skeptics

2098

01:22:31,590 --> 01:22:29,600

they're what i call the

2099

01:22:32,629 --> 01:22:31,600

bunkers in other words they they've

2100

01:22:35,350 --> 01:22:32,639

already decided

2101  
01:22:35,750 --> 01:22:35,360  
it can't be and so what do i have to do

2102  
01:22:37,990 --> 01:22:35,760  
to

2103  
01:22:39,030 --> 01:22:38,000  
say it can't be it's not an open-minded

2104  
01:22:42,390 --> 01:22:39,040  
approach

2105  
01:22:46,629 --> 01:22:42,400  
so so then it's okay must be two

2106  
01:22:48,790 --> 01:22:46,639  
uh lanterns right like chinese lanterns

2107  
01:22:51,350 --> 01:22:48,800  
tied together

2108  
01:22:52,550 --> 01:22:51,360  
and so they're they're flying through

2109  
01:22:55,270 --> 01:22:52,560  
and bear in mind the

2110  
01:22:55,990 --> 01:22:55,280  
wind speed this on this day is 15 miles

2111  
01:23:03,189 --> 01:22:56,000  
an hour

2112  
01:23:05,669 --> 01:23:03,199  
ever flown a chinese lander knows

2113  
01:23:07,110 --> 01:23:05,679

that i don't even think you could get it

2114

01:23:08,709 --> 01:23:07,120

off the ground

2115

01:23:10,470 --> 01:23:08,719

let alone keep it in the air because

2116

01:23:13,189 --> 01:23:10,480

what happens is these things are very

2117

01:23:14,149 --> 01:23:13,199

fragile and the wind is just going to

2118

01:23:16,149 --> 01:23:14,159

collapse it

2119

01:23:17,430 --> 01:23:16,159

and your candle is just going to drop to

2120

01:23:21,750 --> 01:23:17,440

the ground yeah

2121

01:23:23,910 --> 01:23:21,760

so uh there's there's no way you could

2122

01:23:25,830 --> 01:23:23,920

you know that that could explain is and

2123

01:23:27,590 --> 01:23:25,840

then and then but to make the theory go

2124

01:23:29,270 --> 01:23:27,600

further they say okay so

2125

01:23:31,030 --> 01:23:29,280

i've got these two chinese lanterns

2126

01:23:33,110 --> 01:23:31,040

they're stuck together

2127

01:23:34,149 --> 01:23:33,120

and then right when they get over the

2128

01:23:35,510 --> 01:23:34,159

ocean right

2129

01:23:37,830 --> 01:23:35,520

so when they're over the ocean the

2130

01:23:39,189 --> 01:23:37,840

plane's looking at them now they split

2131

01:23:42,470 --> 01:23:39,199

apart

2132

01:23:43,430 --> 01:23:42,480

and and but how about how did they go

2133

01:23:46,870 --> 01:23:43,440

into the ocean

2134

01:23:49,590 --> 01:23:46,880

oh okay well at first they said

2135

01:23:50,870 --> 01:23:49,600

uh clouds because clouds break you know

2136

01:23:54,070 --> 01:23:50,880

we'll stop ir

2137

01:23:55,189 --> 01:23:54,080

which is true and i said well i don't

2138

01:23:58,310 --> 01:23:55,199

think so because

2139

01:24:02,390 --> 01:23:58,320

i can see the way ocean waves so

2140

01:24:05,110 --> 01:24:02,400

how can the cloud you know block

2141

01:24:05,669 --> 01:24:05,120

the the object but not block the ocean

2142

01:24:07,990 --> 01:24:05,679

waves

2143

01:24:09,750 --> 01:24:08,000

right so then they came up the next one

2144

01:24:11,189 --> 01:24:09,760

they came up with this oh okay

2145

01:24:13,430 --> 01:24:11,199

the reason it looks like it went into

2146

01:24:15,510 --> 01:24:13,440

the water is because the camera just

2147

01:24:18,550 --> 01:24:15,520

lost its ability

2148

01:24:21,030 --> 01:24:18,560

uh to focus properly and so the object

2149

01:24:24,149 --> 01:24:21,040

just disappeared

2150

01:24:27,669 --> 01:24:24,159

right i mean it's just like one i

2151

01:24:31,350 --> 01:24:27,679

i mean for me it's almost like it's the

2152

01:24:33,830 --> 01:24:31,360

the flip side of people who will say

2153

01:24:35,350 --> 01:24:33,840

anything to say there's a little gray

2154

01:24:36,870 --> 01:24:35,360

alien here

2155

01:24:38,310 --> 01:24:36,880

right it doesn't matter what you say

2156

01:24:39,830 --> 01:24:38,320

they're going to have a reason why there

2157

01:24:41,270 --> 01:24:39,840

is a little gray alien

2158

01:24:43,510 --> 01:24:41,280

well these guys are the same thing

2159

01:24:44,870 --> 01:24:43,520

except it doesn't matter what you say

2160

01:24:46,629 --> 01:24:44,880

they're gonna have a reason why it

2161

01:24:49,910 --> 01:24:46,639

cannot be

2162

01:24:53,270 --> 01:24:49,920

even though their argument

2163

01:24:54,470 --> 01:24:53,280

is it's like waving a magic wand right i

2164

01:24:57,590 --> 01:24:54,480

mean what kind of argument

2165

01:24:59,510 --> 01:24:57,600

is it to say oh the camera just lost its

2166

01:25:00,629 --> 01:24:59,520

focusing ability that must be what it

2167

01:25:02,870 --> 01:25:00,639

was

2168

01:25:04,229 --> 01:25:02,880

because then five seconds later the

2169

01:25:05,830 --> 01:25:04,239

object comes out of the water so what

2170

01:25:08,790 --> 01:25:05,840

are you going to argue now

2171

01:25:10,790 --> 01:25:08,800

oh it got its focusing ability back oh

2172

01:25:11,510 --> 01:25:10,800

it disappeared again lost its focusing a

2173

01:25:14,629 --> 01:25:11,520

bit

2174

01:25:15,030 --> 01:25:14,639

i mean it's just like and if you had to

2175

01:25:18,629 --> 01:25:15,040

guess

2176

01:25:21,189 --> 01:25:18,639

how as far as distance in the water

2177

01:25:22,310 --> 01:25:21,199

how long was it in the water it was all

2178

01:25:24,390 --> 01:25:22,320

right water

2179

01:25:26,709 --> 01:25:24,400

for i think the longest time was maybe

2180

01:25:27,270 --> 01:25:26,719

seven or eight seconds and about how

2181

01:25:29,189 --> 01:25:27,280

many

2182

01:25:30,950 --> 01:25:29,199

would you say a hundred yards or

2183

01:25:32,470 --> 01:25:30,960

something oh that would have moved in

2184

01:25:35,590 --> 01:25:32,480

seven or eight seconds

2185

01:25:38,149 --> 01:25:35,600

yeah well let's see um oh

2186

01:25:39,990 --> 01:25:38,159

it's moving at 60 miles an hour that's a

2187

01:25:43,030 --> 01:25:40,000

mile a minute right so

2188

01:25:44,709 --> 01:25:43,040

a mile a minute is you don't have to try

2189

01:25:46,229 --> 01:25:44,719

to do the amount of seconds yeah about

2190

01:25:48,790 --> 01:25:46,239

500 feet

2191

01:25:49,830 --> 01:25:48,800

oh so it is yeah yeah how about that

2192

01:25:52,229 --> 01:25:49,840

interesting

2193

01:25:53,430 --> 01:25:52,239

and i saw that i actually watched that

2194

01:25:55,590 --> 01:25:53,440

video when it

2195

01:25:56,629 --> 01:25:55,600

when it goes into the water and that is

2196

01:25:58,629 --> 01:25:56,639

just baffling

2197

01:26:00,790 --> 01:25:58,639

yeah and you can actually see this video

2198

01:26:02,870 --> 01:26:00,800

up it's somewhere on youtube right

2199

01:26:06,310 --> 01:26:02,880

yeah yeah it's on youtube it's a google

2200

01:26:09,189 --> 01:26:06,320

uh aguadilla puerto rico

2201

01:26:10,390 --> 01:26:09,199

ufo homeland security it will they'll

2202

01:26:12,629 --> 01:26:10,400

pull it up

2203

01:26:14,149 --> 01:26:12,639

and what did the the homeland security

2204

01:26:17,430 --> 01:26:14,159

what did they

2205

01:26:19,430 --> 01:26:17,440

did they do their own investigation

2206

01:26:22,750 --> 01:26:19,440

uh oh before i answer that question

2207

01:26:25,350 --> 01:26:22,760

actually they can go to the scu website

2208

01:26:26,470 --> 01:26:25,360

explorescu.org and we've got it on our

2209

01:26:29,669 --> 01:26:26,480

website

2210

01:26:31,270 --> 01:26:29,679

yes that's right to youtube

2211

01:26:34,790 --> 01:26:31,280

and now as far as i know homeland

2212

01:26:37,030 --> 01:26:34,800

security did not never investigate it

2213

01:26:38,790 --> 01:26:37,040

wow isn't that interesting don't you

2214

01:26:39,590 --> 01:26:38,800

think that's another case that they

2215

01:26:43,110 --> 01:26:39,600

would really want to

2216

01:26:46,790 --> 01:26:43,120

find out you know it's really

2217

01:26:48,790 --> 01:26:46,800

it's like a sociological issue

2218

01:26:51,030 --> 01:26:48,800

with people in general i i don't think

2219

01:26:53,110 --> 01:26:51,040

it's a cover-up it's like

2220

01:26:55,350 --> 01:26:53,120

um because it they were passing it

2221

01:26:58,070 --> 01:26:55,360

around in their office right

2222

01:27:00,149 --> 01:26:58,080

like what is it wow we can't but no one

2223

01:27:02,390 --> 01:27:00,159

really investigated it

2224

01:27:03,669 --> 01:27:02,400

uh oh okay i'm gonna take this back

2225

01:27:05,910 --> 01:27:03,679

martin

2226

01:27:07,110 --> 01:27:05,920

when we first talked to them they did

2227

01:27:09,590 --> 01:27:07,120

they sent it

2228

01:27:11,350 --> 01:27:09,600

to the air force at quantico i believe

2229

01:27:15,030 --> 01:27:11,360

in quantico virginia

2230

01:27:16,790 --> 01:27:15,040

sent it to them and and the guy told us

2231

01:27:20,390 --> 01:27:16,800

that two weeks later

2232

01:27:21,990 --> 01:27:20,400

the air force sent back a reply uh

2233

01:27:23,750 --> 01:27:22,000

why don't you go talk to a ufo

2234

01:27:26,149 --> 01:27:23,760

organization really

2235

01:27:27,030 --> 01:27:26,159

i mean i was just like are you kidding

2236

01:27:30,390 --> 01:27:27,040

how about that

2237

01:27:32,470 --> 01:27:30,400

yeah that is that's really interesting

2238

01:27:34,709 --> 01:27:32,480

now maybe they really did investigate it

2239

01:27:35,270 --> 01:27:34,719

who knows and they just told those guys

2240

01:27:39,270 --> 01:27:35,280

that

2241

01:27:39,830 --> 01:27:39,280

possible but i think it's probably

2242

01:27:42,790 --> 01:27:39,840

likely

2243

01:27:43,350 --> 01:27:42,800

that's exactly what they said about that

2244

01:27:45,990 --> 01:27:43,360

wow

2245

01:27:46,550 --> 01:27:46,000

nothing worth it going uh to current

2246

01:27:49,030 --> 01:27:46,560

events

2247

01:27:49,590 --> 01:27:49,040

um i'm sure you saw this thing about in

2248

01:27:52,709 --> 01:27:49,600

the

2249

01:27:55,189 --> 01:27:52,719

showed up

2250

01:27:56,229 --> 01:27:55,199

oh yeah yeah i have so many emails i've

2251

01:27:59,430 --> 01:27:56,239

been getting from people

2252

01:28:01,590 --> 01:27:59,440

a lot of people are thinking it's aliens

2253

01:28:04,149 --> 01:28:01,600

i personally think it's and then it

2254

01:28:05,669 --> 01:28:04,159

showed up in bulgaria i believe it was

2255

01:28:08,550 --> 01:28:05,679

yeah that was a different looking not

2256

01:28:12,149 --> 01:28:08,560

bulgaria somewhere else uh poland maybe

2257

01:28:14,070 --> 01:28:12,159

i think it was poland uh anyway

2258

01:28:15,830 --> 01:28:14,080

uh so anyway somewhere else in the world

2259

01:28:18,709 --> 01:28:15,840

that showed up whether it's the same one

2260

01:28:19,510 --> 01:28:18,719

or not i think it's it was different oh

2261

01:28:22,390 --> 01:28:19,520

is it

2262

01:28:23,510 --> 01:28:22,400

i think someone's having some fun yeah

2263

01:28:25,510 --> 01:28:23,520

something i see you

2264

01:28:27,270 --> 01:28:25,520

talking about it and uh yeah it's kind

2265

01:28:29,750 --> 01:28:27,280

of a

2266

01:28:30,470 --> 01:28:29,760

yeah i i would think uh it would be a

2267

01:28:33,590 --> 01:28:30,480

great

2268

01:28:34,950 --> 01:28:33,600

art uh project or whatever to put

2269

01:28:35,750 --> 01:28:34,960

something out and hopefully it's

2270

01:28:38,550 --> 01:28:35,760

discovered

2271

01:28:40,070 --> 01:28:38,560

and if so they got all the media that

2272

01:28:41,669 --> 01:28:40,080

they could possibly ever want

2273

01:28:44,149 --> 01:28:41,679

out of that boy they got a lot of

2274

01:28:44,709 --> 01:28:44,159

mileage so here's a question that uh

2275

01:28:47,590 --> 01:28:44,719

came up

2276

01:28:49,430 --> 01:28:47,600

from uh stephen can ufos be using

2277

01:28:54,149 --> 01:28:49,440

technologies we have yet

2278

01:28:55,830 --> 01:28:54,159

to comprehend which explains ufo footage

2279

01:28:57,510 --> 01:28:55,840

i'm not sure about that last part of the

2280

01:29:01,910 --> 01:28:57,520

question but i would agree

2281

01:29:03,350 --> 01:29:01,920

uh ufos uh display technology which we

2282

01:29:05,669 --> 01:29:03,360

don't understand

2283

01:29:06,390 --> 01:29:05,679

um that doesn't mean it necessarily

2284

01:29:09,189 --> 01:29:06,400

violates

2285

01:29:10,550 --> 01:29:09,199

physics but right you know we don't

2286

01:29:13,590 --> 01:29:10,560

understand how

2287

01:29:14,629 --> 01:29:13,600

how it operates oh by the way um uh

2288

01:29:17,350 --> 01:29:14,639

thank you janiece

2289

01:29:19,430 --> 01:29:17,360

that's romania is where that thing ah

2290

01:29:21,750 --> 01:29:19,440

showed up okay we got close bulgaria and

2291

01:29:23,910 --> 01:29:21,760

poland we were all around

2292

01:29:25,750 --> 01:29:23,920

at least you got eastern europe right

2293

01:29:28,310 --> 01:29:25,760

yeah yeah that's right

2294

01:29:29,830 --> 01:29:28,320

i think i'm going to put up right now if

2295

01:29:31,590 --> 01:29:29,840

anyone wants to call in it's going to be

2296

01:29:34,229 --> 01:29:31,600

just a little bit different but

2297

01:29:35,669 --> 01:29:34,239

i will let bill know over he's going to

2298

01:29:38,070 --> 01:29:35,679

be screening

2299

01:29:39,510 --> 01:29:38,080

over a kgra radio he will take your call

2300

01:29:42,070 --> 01:29:39,520

and talk to you

2301  
01:29:42,629 --> 01:29:42,080  
and let me know that you were there so

2302  
01:29:49,430 --> 01:29:42,639  
uh

2303  
01:29:50,550 --> 01:29:49,440  
four seven two five four eight three and

2304  
01:29:51,910 --> 01:29:50,560  
bill is standing by

2305  
01:29:54,550 --> 01:29:51,920  
unfortunately i can't see when calls

2306  
01:29:58,790 --> 01:29:54,560  
come in but bill will let me know

2307  
01:30:01,990 --> 01:29:58,800  
um when that does happen now the same

2308  
01:30:02,550 --> 01:30:02,000  
gentleman or gentlemen and women that

2309  
01:30:06,149 --> 01:30:02,560  
you

2310  
01:30:09,830 --> 01:30:06,159  
actually did that study with um

2311  
01:30:10,550 --> 01:30:09,840  
for that puerto rican object whatever it

2312  
01:30:13,590 --> 01:30:10,560  
was

2313  
01:30:15,110 --> 01:30:13,600

did you in turn study something else i

2314

01:30:15,990 --> 01:30:15,120

mean this was sort of the beginning of

2315

01:30:18,070 --> 01:30:16,000

the scu

2316

01:30:20,870 --> 01:30:18,080

too wasn't it right that was the first

2317

01:30:23,430 --> 01:30:20,880

major case the svu did

2318

01:30:23,990 --> 01:30:23,440

then the next case that we did was the

2319

01:30:27,750 --> 01:30:24,000

uss

2320

01:30:33,270 --> 01:30:27,760

nimitz case and that took

2321

01:30:37,110 --> 01:30:35,149

i'm trying to remember the middle of

2322

01:30:39,830 --> 01:30:37,120

2016

2323

01:30:41,189 --> 01:30:39,840

is when i began sending foias to the

2324

01:30:44,950 --> 01:30:41,199

navy

2325

01:30:48,870 --> 01:30:44,960

uh and then that went on

2326

01:30:51,189 --> 01:30:48,880

um throughout 2017.

2327

01:30:52,629 --> 01:30:51,199

and and then i did the interview on your

2328

01:30:56,470 --> 01:30:52,639

show i think october

2329

01:31:00,470 --> 01:30:56,480

or november 2017. and then the

2330

01:31:02,590 --> 01:31:00,480

new york times uh their story came out i

2331

01:31:06,629 --> 01:31:02,600

think it was december 17

2332

01:31:07,669 --> 01:31:06,639

2017. yeah december 16 2017 right yeah

2333

01:31:10,709 --> 01:31:07,679

and we finally

2334

01:31:16,390 --> 01:31:10,719

finished the report and released it

2335

01:31:19,990 --> 01:31:16,400

i think it was in like august of 2018.

2336

01:31:24,550 --> 01:31:20,000

so that was about two years and in

2337

01:31:27,750 --> 01:31:24,560

in between when we talked in late 2017

2338

01:31:30,149 --> 01:31:27,760

and 2018 when you finished your report

2339

01:31:32,709 --> 01:31:30,159

was there a lot of a lot more things

2340

01:31:35,510 --> 01:31:32,719

that you uncovered

2341

01:31:36,149 --> 01:31:35,520

as far as like four years oh you mean

2342

01:31:39,510 --> 01:31:36,159

from

2343

01:31:43,030 --> 01:31:39,520

uh after years when i did your show yeah

2344

01:31:46,950 --> 01:31:43,040

well yeah there was quite a bit uh

2345

01:31:49,590 --> 01:31:46,960

because um in addition to uh

2346

01:31:52,070 --> 01:31:49,600

talking to kevin day right and i i

2347

01:31:54,870 --> 01:31:52,080

talked to kevin day martin before

2348

01:31:56,550 --> 01:31:54,880

any he ever got involved in facebook or

2349

01:31:58,550 --> 01:31:56,560

talked to other people so i yeah that

2350

01:32:01,990 --> 01:31:58,560

was a fresh interview of him

2351

01:32:04,149 --> 01:32:02,000

then i uh found gary voris

2352

01:32:05,189 --> 01:32:04,159

right uh i found him by actually going

2353

01:32:08,310 --> 01:32:05,199

on to uss

2354

01:32:11,590 --> 01:32:08,320

princeton facebook site

2355

01:32:14,229 --> 01:32:11,600

and if you go to my report like

2356

01:32:14,870 --> 01:32:14,239

whoever this new guy is you have you

2357

01:32:16,870 --> 01:32:14,880

could pull up

2358

01:32:18,149 --> 01:32:16,880

my report and do a google search on the

2359

01:32:21,189 --> 01:32:18,159

repo or do a search

2360

01:32:23,510 --> 01:32:21,199

for his name and you'll see if

2361

01:32:24,390 --> 01:32:23,520

if i had picked him up on facebook

2362

01:32:27,430 --> 01:32:24,400

because

2363

01:32:28,550 --> 01:32:27,440

i would say on facebook there were a

2364

01:32:31,590 --> 01:32:28,560

total

2365

01:32:32,629 --> 01:32:31,600

of seven to eight sailors talking about

2366

01:32:35,750 --> 01:32:32,639

that

2367

01:32:39,030 --> 01:32:35,760

back in 2009

2368

01:32:42,790 --> 01:32:39,040

to 10. and

2369

01:32:43,590 --> 01:32:42,800

and so i i basically uh messaged every

2370

01:32:46,390 --> 01:32:43,600

one of them

2371

01:32:46,950 --> 01:32:46,400

jerry boris was one that replied back to

2372

01:32:49,990 --> 01:32:46,960

me

2373

01:32:51,590 --> 01:32:50,000

and so i was able to interview him and

2374

01:32:53,270 --> 01:32:51,600

then there was another gentleman who

2375

01:32:55,510 --> 01:32:53,280

replied back to me

2376

01:32:58,950 --> 01:32:55,520

uh gosh i can't think of his name at the

2377

01:33:03,270 --> 01:33:01,189

he was one of the first witnesses and so

2378

01:33:05,750 --> 01:33:03,280

i interviewed him

2379

01:33:06,830 --> 01:33:05,760

and but there were two or three guys

2380

01:33:09,669 --> 01:33:06,840

there was a

2381

01:33:12,390 --> 01:33:09,679

cryptologist on there

2382

01:33:14,310 --> 01:33:12,400

uh really in the crypto group that was

2383

01:33:15,110 --> 01:33:14,320

talking about it but i never could get

2384

01:33:17,910 --> 01:33:15,120

him to

2385

01:33:19,590 --> 01:33:17,920

uh you know reply to me so that i could

2386

01:33:21,350 --> 01:33:19,600

interview him

2387

01:33:22,629 --> 01:33:21,360

but it was clear to me as soon as i saw

2388

01:33:26,390 --> 01:33:22,639

that facebook site

2389

01:33:30,229 --> 01:33:26,400

that you know this story had legs

2390

01:33:34,790 --> 01:33:30,239

as they say um

2391

01:33:37,669 --> 01:33:34,800

wow yeah you know the amazing thing is

2392

01:33:38,950 --> 01:33:37,679

you have the all these different ships

2393

01:33:41,430 --> 01:33:38,960

that had radar

2394

01:33:42,790 --> 01:33:41,440

that were capable of detecting this

2395

01:33:46,070 --> 01:33:42,800

object

2396

01:33:49,510 --> 01:33:46,080

um and yet all that data

2397

01:33:52,629 --> 01:33:49,520

it's just cubby holds somewhere

2398

01:33:54,950 --> 01:33:52,639

i know and uh how

2399

01:33:56,790 --> 01:33:54,960

i mean do you think do you think there's

2400

01:33:58,709 --> 01:33:56,800

still more doors to open do you think

2401

01:34:00,149 --> 01:33:58,719

that we'll we'll actually get more i'm

2402

01:34:01,030 --> 01:34:00,159

looking for the gentleman's name right

2403

01:34:09,110 --> 01:34:01,040

now

2404

01:34:12,310 --> 01:34:09,120

uh unless unless the navy releases

2405

01:34:13,590 --> 01:34:12,320

um the data i'm just not sure what more

2406

01:34:15,189 --> 01:34:13,600

can be done

2407

01:34:16,629 --> 01:34:15,199

with the case because in my mind there's

2408

01:34:19,189 --> 01:34:16,639

no doubt it happened

2409

01:34:20,870 --> 01:34:19,199

i think that's that's finished and

2410

01:34:24,950 --> 01:34:20,880

dusted as they say

2411

01:34:27,430 --> 01:34:24,960

the issue is could we get uh

2412

01:34:28,310 --> 01:34:27,440

data imagine if we could get their radar

2413

01:34:30,830 --> 01:34:28,320

data

2414

01:34:32,310 --> 01:34:30,840

that the uss is tracking this object

2415

01:34:35,030 --> 01:34:32,320

right

2416

01:34:36,070 --> 01:34:35,040

we could know the actual acceleration

2417

01:34:38,070 --> 01:34:36,080

numbers

2418

01:34:39,350 --> 01:34:38,080

we could know the exact speed the object

2419

01:34:41,109 --> 01:34:39,360

traveled at

2420

01:34:44,390 --> 01:34:41,119

and there might even be additional

2421

01:34:47,669 --> 01:34:44,400

information you could get

2422

01:34:50,950 --> 01:34:47,679

right um i know that the this uh

2423

01:34:53,350 --> 01:34:50,960

witness's first name is brian that's

2424

01:34:54,149 --> 01:34:53,360

that's all i have i don't know if that

2425

01:34:57,430 --> 01:34:54,159

yeah i don't

2426

01:35:00,550 --> 01:34:57,440

the report because there were like i

2427

01:35:02,229 --> 01:35:00,560

said eight or nine guys talking about it

2428

01:35:03,910 --> 01:35:02,239

and i was only able to get two of them

2429

01:35:06,390 --> 01:35:03,920

to reply to my

2430

01:35:06,950 --> 01:35:06,400

requests whoops i think we might let's

2431

01:35:10,070 --> 01:35:06,960

see

2432

01:35:12,830 --> 01:35:10,080

yeah uh we have someone ready

2433

01:35:14,550 --> 01:35:12,840

it looks like uh we have steve from

2434

01:35:18,229 --> 01:35:14,560

pasadena

2435

01:35:20,149 --> 01:35:18,239

uh on the line uh steve can you hear me

2436

01:35:23,189 --> 01:35:20,159

welcome to the show

2437

01:35:27,189 --> 01:35:23,199

thank you martin hi robert

2438

01:35:27,669 --> 01:35:27,199

hi steve uh hi uh my question is other

2439

01:35:30,870 --> 01:35:27,679

than

2440

01:35:34,070 --> 01:35:30,880

stanton friedman a nuclear physics

2441

01:35:34,709 --> 01:35:34,080

scientist why haven't scientists taken

2442

01:35:38,229 --> 01:35:34,719

up this

2443

01:35:42,229 --> 01:35:38,239

ufo phenomena and studied it why

2444

01:35:42,950 --> 01:35:42,239

we can't get science look at this well

2445

01:35:45,910 --> 01:35:42,960

actually

2446

01:35:47,350 --> 01:35:45,920

uh steve we are within the scu we have a

2447

01:35:49,270 --> 01:35:47,360

number of teams

2448

01:35:51,750 --> 01:35:49,280

uh that are looking at it i mean we've

2449

01:35:54,430 --> 01:35:51,760

got a number of physicists

2450

01:35:57,830 --> 01:35:54,440

that are within the scu as well as

2451

01:36:06,390 --> 01:36:01,030

so we're actually actively looking at it

2452

01:36:09,750 --> 01:36:06,400

the the problem is getting the real data

2453

01:36:12,390 --> 01:36:09,760

it's hard to to make a science report

2454

01:36:15,510 --> 01:36:12,400

based on purely witness data

2455

01:36:15,910 --> 01:36:15,520

what we really need is the uh you know

2456

01:36:21,189 --> 01:36:15,920

the

2457

01:36:25,669 --> 01:36:24,149

in any any uh any anything you'd like to

2458

01:36:27,669 --> 01:36:25,679

add to that

2459

01:36:29,910 --> 01:36:27,679

stephen uh just one more question if i

2460

01:36:30,950 --> 01:36:29,920

may do you believe that we have some

2461

01:36:35,350 --> 01:36:30,960

kind of uh

2462

01:36:39,830 --> 01:36:35,360

material that that that we have and

2463

01:36:41,910 --> 01:36:39,840

that's been studied that from a ufo

2464

01:36:43,430 --> 01:36:41,920

well you know that's not i can't say

2465

01:36:47,750 --> 01:36:43,440

absolutely that we don't

2466

01:36:51,030 --> 01:36:47,760

but i i seriously doubt it um

2467

01:36:52,070 --> 01:36:51,040

i just and that's just based on all the

2468

01:36:55,669 --> 01:36:52,080

research i've done

2469

01:36:59,990 --> 01:36:55,679

and all the reading i've done um

2470

01:37:02,550 --> 01:37:00,000

i i don't believe that we have in hand

2471

01:37:03,109 --> 01:37:02,560

um i mean okay i'm gonna take there

2472

01:37:05,990 --> 01:37:03,119

might be

2473

01:37:07,270 --> 01:37:06,000

like a piece of something right but i

2474

01:37:11,430 --> 01:37:07,280

don't believe we have

2475

01:37:14,790 --> 01:37:11,440

like it from roswell uh any technology

2476

01:37:16,950 --> 01:37:14,800

that we've uh got our hands on that we

2477

01:37:20,310 --> 01:37:16,960

tried to reverse engineer

2478

01:37:21,910 --> 01:37:20,320

is that what you meant the letter sir

2479

01:37:24,229 --> 01:37:21,920

and i just want to thank you for taking

2480

01:37:26,550 --> 01:37:24,239

this scientific approach

2481

01:37:27,750 --> 01:37:26,560

to this phenomenon because that's what

2482

01:37:30,870 --> 01:37:27,760

we really need

2483

01:37:31,430 --> 01:37:30,880

we need the minds behind this looking at

2484

01:37:34,550 --> 01:37:31,440

it

2485

01:37:36,709 --> 01:37:34,560

and uh thank you you're welcome

2486

01:37:37,590 --> 01:37:36,719

and we need the data so those minds can

2487

01:37:40,870 --> 01:37:37,600

analyze it

2488

01:37:43,189 --> 01:37:40,880

yeah thanks for the call steve

2489

01:37:45,030 --> 01:37:43,199

all right next we have john uh looks

2490

01:37:47,430 --> 01:37:45,040

like john's calling from new york hi

2491

01:37:50,149 --> 01:37:47,440

john welcome to the show

2492

01:37:52,390 --> 01:37:50,159

hello very good to talk to you martin i

2493

01:37:54,629 --> 01:37:52,400

watch your show all the time

2494

01:37:55,590 --> 01:37:54,639

well i've been interested in ufos all my

2495

01:37:57,350 --> 01:37:55,600

life and i

2496

01:37:59,990 --> 01:37:57,360

i don't know why maybe it's just the

2497

01:38:03,430 --> 01:38:00,000

thought of something different

2498

01:38:06,790 --> 01:38:03,440

but my question really is actually

2499

01:38:09,830 --> 01:38:06,800

toward bob lazar

2500

01:38:13,350 --> 01:38:09,840

and uh well bob's bizarre

2501

01:38:14,149 --> 01:38:13,360

he thinks he said now his stories

2502

01:38:17,350 --> 01:38:14,159

changed

2503

01:38:19,990 --> 01:38:17,360

now they said they dug up these ufos

2504

01:38:21,590 --> 01:38:20,000

and he never said that in the past about

2505

01:38:24,070 --> 01:38:21,600

digging up

2506

01:38:25,350 --> 01:38:24,080

ufos you know and then also a thing

2507

01:38:28,830 --> 01:38:25,360

about him as i always

2508

01:38:31,030 --> 01:38:28,840

questioned um he said he went to mit

2509

01:38:33,590 --> 01:38:31,040

right and

2510

01:38:34,709 --> 01:38:33,600

he never mentioned living in you know

2511

01:38:37,830 --> 01:38:34,719

massachusetts

2512

01:38:39,590 --> 01:38:37,840

he had to go there to go to mit

2513

01:38:42,390 --> 01:38:39,600

he never mentioned going there at all

2514

01:38:44,390 --> 01:38:42,400

ever i was just curious about that what

2515

01:38:47,350 --> 01:38:44,400

your thoughts were on that

2516

01:38:48,229 --> 01:38:47,360

well the yeah my main problem john i

2517

01:38:51,270 --> 01:38:48,239

guess with it

2518

01:38:55,510 --> 01:38:51,280

he claims that element 110

2519

01:38:58,709 --> 01:38:55,520

is what powers these uh ufos well

2520

01:39:03,109 --> 01:38:58,719

115. maybe it's

2521

01:39:06,550 --> 01:39:03,119

115 either way from from element 110

2522

01:39:08,629 --> 01:39:06,560

clear to element 115 those elements are

2523

01:39:12,149 --> 01:39:08,639

artificially produced

2524

01:39:13,350 --> 01:39:12,159

and they exist for usually a millisecond

2525

01:39:15,750 --> 01:39:13,360

or a microsecond

2526

01:39:17,910 --> 01:39:15,760

and then and then you lose and then they

2527

01:39:21,910 --> 01:39:17,920

begin to dissipate

2528

01:39:25,189 --> 01:39:24,149

that just doesn't make sense to me how

2529

01:39:28,790 --> 01:39:25,199

you could use

2530

01:39:30,950 --> 01:39:28,800

any of those as an energy source

2531

01:39:32,550 --> 01:39:30,960

yeah i i'd like to add something to it

2532

01:39:35,109 --> 01:39:32,560

because i always get in trouble

2533

01:39:36,870 --> 01:39:35,119

when it comes to bob lazar i always get

2534

01:39:40,070 --> 01:39:36,880

emails

2535

01:39:42,550 --> 01:39:40,080

after i talk uh about him

2536

01:39:43,430 --> 01:39:42,560

but um you know my my thought is uh to

2537

01:39:46,629 --> 01:39:43,440

your point

2538

01:39:50,229 --> 01:39:46,639

uh john and that is uh

2539

01:39:53,750 --> 01:39:50,239

he was at a public um like a conference

2540

01:39:53,990 --> 01:39:53,760

and people were asking him i i mentioned

2541

01:39:55,350 --> 01:39:54,000

this

2542

01:39:57,030 --> 01:39:55,360

on the show before but people were

2543

01:39:58,070 --> 01:39:57,040

asking him questions from the audience

2544

01:40:00,470 --> 01:39:58,080

and was live

2545

01:40:01,830 --> 01:40:00,480

he couldn't dodge the question and

2546

01:40:05,270 --> 01:40:01,840

someone said to him

2547

01:40:07,590 --> 01:40:05,280

okay uh bob you went to mit what was the

2548

01:40:10,550 --> 01:40:07,600

square right outside of mit

2549

01:40:12,709 --> 01:40:10,560

and anyone that's spent a day at mit

2550

01:40:15,990 --> 01:40:12,719

knows that it's kendall square

2551

01:40:19,910 --> 01:40:16,000

and uh he said uh i can't recall

2552

01:40:22,310 --> 01:40:19,920

so um that just to me right then and

2553

01:40:24,790 --> 01:40:22,320

there says he never set foot in mit

2554

01:40:25,910 --> 01:40:24,800

you know for any amount of time yeah

2555

01:40:29,910 --> 01:40:25,920

yeah

2556

01:40:31,510 --> 01:40:29,920

so i don't know beginning he started out

2557

01:40:33,109 --> 01:40:31,520

it was kind of believable then it went

2558

01:40:36,709 --> 01:40:33,119

downhill from there

2559

01:40:38,390 --> 01:40:36,719

and just started to get on my nerves

2560

01:40:40,310 --> 01:40:38,400

my question and a thought on your

2561

01:40:43,590 --> 01:40:40,320

thoughts

2562

01:40:46,550 --> 01:40:43,600

yeah much all right thanks for the call

2563

01:40:48,470 --> 01:40:46,560

so uh the lines open everyone and again

2564

01:40:51,669 --> 01:40:48,480

that that number is uh

2565

01:40:54,070 --> 01:40:51,679

8 5 five four seven two five four eight

2566

01:40:57,510 --> 01:40:54,080

three your call is welcome

2567

01:40:59,510 --> 01:40:57,520

and uh let's see uh

2568

01:41:03,430 --> 01:40:59,520

up looks like we got someone else uh

2569

01:41:08,870 --> 01:41:06,470

uh oh oh

2570

01:41:11,109 --> 01:41:08,880

he was trying to write me he messed up

2571

01:41:13,910 --> 01:41:11,119

he said noon on hold he meant to say no

2572

01:41:15,430 --> 01:41:13,920

one is on hold

2573

01:41:18,149 --> 01:41:15,440

so the other thing i can comment real

2574

01:41:19,109 --> 01:41:18,159

quick yeah martin on on reverse

2575

01:41:21,350 --> 01:41:19,119

engineering right

2576

01:41:22,470 --> 01:41:21,360

so i worked in the semiconductor field

2577

01:41:24,070 --> 01:41:22,480

and we reversed

2578

01:41:26,550 --> 01:41:24,080

engineered our competitors

2579

01:41:28,709 --> 01:41:26,560

microprocessors all the time

2580

01:41:29,910 --> 01:41:28,719

and let me tell you that is very

2581

01:41:32,550 --> 01:41:29,920

difficult

2582

01:41:33,830 --> 01:41:32,560

and that's a science right that's a

2583

01:41:36,950 --> 01:41:33,840

competitor who's

2584

01:41:39,910 --> 01:41:36,960

at the same level of understanding as us

2585

01:41:40,709 --> 01:41:39,920

and it takes us months to years imagine

2586

01:41:43,590 --> 01:41:40,719

taking

2587

01:41:43,990 --> 01:41:43,600

like an f-18 well not even that just

2588

01:41:46,629 --> 01:41:44,000

take

2589

01:41:48,470 --> 01:41:46,639

your cell phone yeah give it to the

2590

01:41:51,910 --> 01:41:48,480

greatest scientists

2591

01:41:54,070 --> 01:41:51,920

of 150 years ago yeah that

2592

01:41:56,709 --> 01:41:54,080

they would never reverse engineer it

2593

01:41:59,750 --> 01:41:56,719

would never happen

2594

01:42:01,430 --> 01:41:59,760

i i know i mean and you

2595

01:42:03,430 --> 01:42:01,440

you know i mean there's there are

2596

01:42:05,430 --> 01:42:03,440

theories you know people are saying

2597

01:42:07,030 --> 01:42:05,440

well there there's also some people that

2598

01:42:10,470 --> 01:42:07,040

actually do believe that there's

2599

01:42:13,590 --> 01:42:10,480

crash material and and that it's being

2600

01:42:14,709 --> 01:42:13,600

uh looked at um that was also in james

2601

01:42:18,149 --> 01:42:14,719

fox's

2602

01:42:21,510 --> 01:42:18,159

latest film um you know they didn't have

2603

01:42:22,470 --> 01:42:21,520

a material scientist actually analyze it

2604

01:42:25,669 --> 01:42:22,480

they had

2605

01:42:28,790 --> 01:42:25,679

um nolan over at stanford a

2606

01:42:31,590 --> 01:42:28,800

very good scientist but still not

2607

01:42:33,430 --> 01:42:31,600

exactly the right person to analyze it

2608

01:42:37,590 --> 01:42:33,440

so i i just

2609

01:42:39,189 --> 01:42:37,600

and even so what would make something

2610

01:42:41,109 --> 01:42:39,199

definitive that it's for

2611

01:42:43,350 --> 01:42:41,119

extraterrestrial just

2612

01:42:45,669 --> 01:42:43,360

to have some type of technology in the

2613

01:42:50,149 --> 01:42:45,679

fabrication that we can't

2614

01:42:52,550 --> 01:42:50,159

reproduce yeah i mean

2615

01:42:53,910 --> 01:42:52,560

even you know it's a bit to me it's a

2616

01:42:57,750 --> 01:42:53,920

big even

2617

01:43:00,229 --> 01:42:57,760

if uh we got our hands on a piece

2618

01:43:01,109 --> 01:43:00,239

of material that was built by another

2619

01:43:05,830 --> 01:43:01,119

civilization

2620

01:43:09,910 --> 01:43:07,750

there's nothing we could do with it at

2621

01:43:11,030 --> 01:43:09,920

the very most we might be able to

2622

01:43:14,229 --> 01:43:11,040

determine

2623

01:43:14,629 --> 01:43:14,239

yes this was not built here and then

2624

01:43:19,510 --> 01:43:14,639

that

2625

01:43:21,510 --> 01:43:19,520

and what else could you you can't say

2626

01:43:23,669 --> 01:43:21,520

so it's definitely alien there's no

2627

01:43:25,350 --> 01:43:23,679

definitive way to say this was

2628

01:43:27,590 --> 01:43:25,360

an alien made unless you had a whole

2629

01:43:31,750 --> 01:43:27,600

craft or at least uh what

2630

01:43:33,990 --> 01:43:31,760

exactly you'd need right

2631

01:43:36,790 --> 01:43:34,000

you'd need something like like a cell

2632

01:43:38,229 --> 01:43:36,800

phone or their communication device

2633

01:43:40,950 --> 01:43:38,239

or something like that that you could

2634

01:43:43,189 --> 01:43:40,960

clearly say i mean because

2635

01:43:44,390 --> 01:43:43,199

on elementary analysis you could

2636

01:43:49,109 --> 01:43:44,400

determine

2637

01:43:53,109 --> 01:43:49,119

that the isotope ratios of material

2638

01:43:55,270 --> 01:43:53,119

are not are foreign to this earth right

2639

01:43:56,229 --> 01:43:55,280

so but that's all it tells you it just

2640

01:43:58,229 --> 01:43:56,239

tells you

2641

01:43:59,430 --> 01:43:58,239

it does not appear to have been made

2642

01:44:04,229 --> 01:43:59,440

here

2643

01:44:09,030 --> 01:44:04,239

know i mean is it a piece of a meteorite

2644

01:44:11,830 --> 01:44:09,040

yeah a lost asteroid chunk

2645

01:44:12,870 --> 01:44:11,840

exactly well we have mike from

2646

01:44:16,950 --> 01:44:12,880

cincinnati

2647

01:44:20,950 --> 01:44:19,830

gentlemen hi um i'll ask my question and

2648

01:44:24,070 --> 01:44:20,960

then i'll take

2649

01:44:24,950 --> 01:44:24,080

the answer off air sure robert mentioned

2650

01:44:27,590 --> 01:44:24,960

the

2651

01:44:28,790 --> 01:44:27,600

puerto rican ufo hardly displaced any

2652

01:44:31,189 --> 01:44:28,800

water

2653

01:44:32,790 --> 01:44:31,199

when it entered the sea i'm wondering

2654

01:44:36,229 --> 01:44:32,800

about when it came back out

2655

01:44:39,189 --> 01:44:36,239

if it pulled any water behind it

2656

01:44:41,750 --> 01:44:39,199

interesting so thank you thank you thank

2657

01:44:45,270 --> 01:44:41,760

you for the call mike

2658

01:44:46,950 --> 01:44:45,280

now that's a good question mike uh

2659

01:44:49,270 --> 01:44:46,960

when it came out of the water there was

2660

01:44:49,510 --> 01:44:49,280

no water that was pulled up along with

2661

01:44:56,149 --> 01:44:49,520

it

2662

01:44:59,109 --> 01:44:56,159

was able to enter and leave the water

2663

01:45:00,950 --> 01:44:59,119

with just very minor disturbance of the

2664

01:45:04,229 --> 01:45:00,960

water

2665

01:45:07,030 --> 01:45:04,239

was any uh robert was any of the

2666

01:45:08,629 --> 01:45:07,040

uh well skeptics or debunkers as you

2667

01:45:11,990 --> 01:45:08,639

mentioned

2668

01:45:13,669 --> 01:45:12,000

trying to say that um the there was a

2669

01:45:16,629 --> 01:45:13,679

wave in front of it so it looked like it

2670

01:45:19,350 --> 01:45:16,639

went in the water

2671

01:45:19,669 --> 01:45:19,360

a wave in front no i haven't heard that

2672

01:45:21,990 --> 01:45:19,679

the

2673

01:45:23,590 --> 01:45:22,000

only two arguments i've heard to say did

2674

01:45:27,030 --> 01:45:23,600

not really go in the water

2675

01:45:30,070 --> 01:45:27,040

one is that you know the clouds

2676

01:45:33,430 --> 01:45:30,080

some cloud must have obscured the object

2677

01:45:34,950 --> 01:45:33,440

from the ir lens right yeah and then the

2678

01:45:39,430 --> 01:45:34,960

second argument was

2679

01:45:42,629 --> 01:45:39,440

that uh the camera just lost its ability

2680

01:45:44,790 --> 01:45:42,639

to resolve yeah the object at that point

2681

01:45:47,990 --> 01:45:44,800

in time yeah

2682

01:45:53,350 --> 01:45:48,000

so yeah nothing nothing definitive

2683

01:45:57,350 --> 01:45:53,360

uh now when the scu is actually

2684

01:45:57,990 --> 01:45:57,360

looking at a case um how do you go about

2685

01:46:00,870 --> 01:45:58,000

that i mean how

2686

01:46:01,750 --> 01:46:00,880

do you decide what case you're going to

2687

01:46:04,229 --> 01:46:01,760

take on and

2688

01:46:05,270 --> 01:46:04,239

and who are the people that get involved

2689

01:46:07,430 --> 01:46:05,280

within

2690

01:46:09,350 --> 01:46:07,440

um if they have some type of related

2691

01:46:10,950 --> 01:46:09,360

science background to what you're

2692

01:46:13,830 --> 01:46:10,960

looking at

2693

01:46:14,790 --> 01:46:13,840

yeah um well the first step is trying to

2694

01:46:17,669 --> 01:46:14,800

determine

2695

01:46:18,709 --> 01:46:17,679

is there enough data to make the case

2696

01:46:21,750 --> 01:46:18,719

worth

2697

01:46:22,950 --> 01:46:21,760

analyzing and most of the time the

2698

01:46:24,870 --> 01:46:22,960

answer is no so we

2699

01:46:27,669 --> 01:46:24,880

stop right there i'll give you an

2700

01:46:30,550 --> 01:46:27,679

example the 2015

2701  
01:46:31,350 --> 01:46:30,560  
videos right that you've seen uh that

2702  
01:46:35,669 --> 01:46:31,360  
ttsa

2703  
01:46:38,550 --> 01:46:35,679  
has released um that that's a very

2704  
01:46:40,709 --> 01:46:38,560  
uh interesting video you know because

2705  
01:46:43,669 --> 01:46:40,719  
you've got pilots talking

2706  
01:46:44,950 --> 01:46:43,679  
about you know what in the heck is that

2707  
01:46:48,310 --> 01:46:44,960  
right

2708  
01:46:50,470 --> 01:46:48,320  
but there's we don't have those pilots

2709  
01:46:54,390 --> 01:46:50,480  
testimony

2710  
01:46:58,229 --> 01:46:54,400  
and a video by itself

2711  
01:47:00,390 --> 01:46:58,239  
is similar to just testimony by itself

2712  
01:47:02,149 --> 01:47:00,400  
i mean you really need those both of

2713  
01:47:04,709 --> 01:47:02,159

those supporting each other

2714

01:47:05,189 --> 01:47:04,719

so we haven't really looked at the 2015

2715

01:47:07,830 --> 01:47:05,199

case

2716

01:47:09,590 --> 01:47:07,840

because there's just not enough

2717

01:47:12,950 --> 01:47:09,600

testimony supporting

2718

01:47:16,550 --> 01:47:12,960

exactly what was going on

2719

01:47:19,350 --> 01:47:16,560

i got it okay someone wanted to know

2720

01:47:21,590 --> 01:47:19,360

adam wanted to know why do you seem to

2721

01:47:25,109 --> 01:47:21,600

be unconvinced by any gravity as

2722

01:47:28,629 --> 01:47:25,119

propulsion for these craft because

2723

01:47:31,830 --> 01:47:28,639

um these craft exhibit uh when we

2724

01:47:34,790 --> 01:47:31,840

we did a paper on the nimitz case

2725

01:47:37,109 --> 01:47:34,800

and the accelerations went into hundreds

2726

01:47:40,229 --> 01:47:37,119

of g-forces

2727

01:47:44,149 --> 01:47:40,239

so that acceleration

2728

01:47:46,950 --> 01:47:44,159

is a function of the inertial mass

2729

01:47:49,590 --> 01:47:46,960

of an object and how fast it can

2730

01:47:51,189 --> 01:47:49,600

accelerate

2731

01:47:53,030 --> 01:47:51,199

you could take gravity out of the

2732

01:47:56,149 --> 01:47:53,040

equation right

2733

01:47:59,270 --> 01:47:56,159

i mean just make the earth disappear

2734

01:48:04,070 --> 01:47:59,280

you still can't accelerate

2735

01:48:07,910 --> 01:48:04,080

rapidly unless you've got

2736

01:48:09,430 --> 01:48:07,920

either number one a huge uh power supply

2737

01:48:13,270 --> 01:48:09,440

behind you

2738

01:48:14,950 --> 01:48:13,280

or number two your mass has been reduced

2739

01:48:16,950 --> 01:48:14,960

significantly

2740

01:48:19,189 --> 01:48:16,960

and so you're not having to accelerate a

2741

01:48:21,510 --> 01:48:19,199

large so

2742

01:48:23,189 --> 01:48:21,520

to me gravity has nothing to do with it

2743

01:48:26,310 --> 01:48:23,199

right all gravity does

2744

01:48:28,229 --> 01:48:26,320

our gravity is one g-force when

2745

01:48:31,030 --> 01:48:28,239

when you drop towards the earth you're

2746

01:48:35,030 --> 01:48:31,040

moving it one g

2747

01:48:35,990 --> 01:48:35,040

so and you know you could eliminate the

2748

01:48:39,270 --> 01:48:36,000

earth's gravity

2749

01:48:41,990 --> 01:48:39,280

all you're talking about is one g and

2750

01:48:44,229 --> 01:48:42,000

these things are displaying hundreds of

2751

01:48:47,910 --> 01:48:44,239

g forces

2752

01:48:51,109 --> 01:48:47,920

now is mass and displacement

2753

01:48:55,669 --> 01:48:53,430

uh i'm not sure all right i'm going to

2754

01:48:58,550 --> 01:48:55,679

say the object was about 40

2755

01:48:59,669 --> 01:48:58,560

i'm talking about the tic tac the object

2756

01:49:02,709 --> 01:48:59,679

was

2757

01:49:05,830 --> 01:49:02,719

somewhere around 40 to 45 feet

2758

01:49:08,229 --> 01:49:05,840

long right um and then you know it drops

2759

01:49:09,109 --> 01:49:08,239

from 60 000 feet down to a few feet

2760

01:49:12,709 --> 01:49:09,119

above

2761

01:49:15,350 --> 01:49:12,719

the ocean uh in in a matter of

2762

01:49:15,830 --> 01:49:15,360

i forget what it was 1.7 seconds or

2763

01:49:18,629 --> 01:49:15,840

something

2764

01:49:19,350 --> 01:49:18,639

yeah 0.78 seconds according to kevin day

2765

01:49:24,229 --> 01:49:19,360

so

2766

01:49:30,470 --> 01:49:27,270

the displacement the shape of 45 feet

2767

01:49:31,589 --> 01:49:30,480

but is that different than the mass of

2768

01:49:34,149 --> 01:49:31,599

45 feet

2769

01:49:35,189 --> 01:49:34,159

oh you know the weight say it could have

2770

01:49:38,790 --> 01:49:35,199

no weight and

2771

01:49:41,990 --> 01:49:38,800

and still displace that right its shape

2772

01:49:45,189 --> 01:49:42,000

controls how much air resistance yeah

2773

01:49:47,030 --> 01:49:45,199

right yes like even a balloon would have

2774

01:49:49,189 --> 01:49:47,040

air air resistance yes

2775

01:49:51,270 --> 01:49:49,199

but it's weight whether it weighs one

2776

01:49:53,669 --> 01:49:51,280

gram or weighs 40 000

2777

01:49:54,790 --> 01:49:53,679

pounds it's going to move towards the

2778

01:49:57,990 --> 01:49:54,800

earth with just

2779

01:50:00,070 --> 01:49:58,000

a force of one g yeah

2780

01:50:01,510 --> 01:50:00,080

independent that that's galileo's

2781

01:50:03,430 --> 01:50:01,520

experiment remember he drops

2782

01:50:04,870 --> 01:50:03,440

the feather in the yeah yeah and they'll

2783

01:50:07,270 --> 01:50:04,880

bubble in the vacuum

2784

01:50:09,750 --> 01:50:07,280

yeah right feather in the hammer oh you

2785

01:50:11,589 --> 01:50:09,760

can get rid of that gravity and

2786

01:50:14,149 --> 01:50:11,599

that to me that does not explain what

2787

01:50:16,870 --> 01:50:14,159

these craft are capable of doing

2788

01:50:18,229 --> 01:50:16,880

yeah and you mentioned earlier you know

2789

01:50:21,189 --> 01:50:18,239

some of these things

2790

01:50:22,310 --> 01:50:21,199

should have like a be a ball of flame is

2791

01:50:23,990 --> 01:50:22,320

this the case

2792

01:50:26,149 --> 01:50:24,000

with the nimitz should that have been a

2793

01:50:27,510 --> 01:50:26,159

ball of flame absolutely the speed of

2794

01:50:30,310 --> 01:50:27,520

that object

2795

01:50:31,430 --> 01:50:30,320

was well over 20 000 miles an hour at

2796

01:50:32,790 --> 01:50:31,440

low altitude

2797

01:50:34,870 --> 01:50:32,800

i mean it should have been like a

2798

01:50:35,589 --> 01:50:34,880

meteorite just not only would you have a

2799

01:50:37,990 --> 01:50:35,599

ball of

2800

01:50:40,790 --> 01:50:38,000

flame the atmosphere around it would be

2801  
01:50:41,830 --> 01:50:40,800  
just almost explosively moving away from

2802  
01:50:46,070 --> 01:50:41,840  
it

2803  
01:50:49,030 --> 01:50:46,080  
um right moving through the atmosphere

2804  
01:50:50,790 --> 01:50:49,040  
is there any constructed craft that we

2805  
01:50:51,990 --> 01:50:50,800  
could have that would take a g-force

2806  
01:50:55,430 --> 01:50:52,000  
like that

2807  
01:50:59,589 --> 01:50:55,440  
no no everything would fall apart yeah

2808  
01:51:03,830 --> 01:50:59,599  
an artillery shell has like 50 or 60 g's

2809  
01:51:07,189 --> 01:51:03,840  
uh an f-16 can handle i think around

2810  
01:51:10,709 --> 01:51:07,199  
14 or 15 g's

2811  
01:51:11,270 --> 01:51:10,719  
f-18 won't handle that much but like a

2812  
01:51:15,990 --> 01:51:11,280  
missile

2813  
01:51:18,070 --> 01:51:16,000

you know with a warhead on it or

2814

01:51:20,709 --> 01:51:18,080

something yeah it could handle more g's

2815

01:51:21,669 --> 01:51:20,719

i'm not sure how high a missile could

2816

01:51:24,629 --> 01:51:21,679

handle

2817

01:51:26,390 --> 01:51:24,639

uh i would i'm just guessing probably

2818

01:51:29,030 --> 01:51:26,400

around 50 g's but i don't

2819

01:51:29,910 --> 01:51:29,040

i don't know it's it's probably more of

2820

01:51:32,790 --> 01:51:29,920

a function

2821

01:51:34,229 --> 01:51:32,800

of the internal components and when your

2822

01:51:37,669 --> 01:51:34,239

internal components

2823

01:51:40,390 --> 01:51:37,679

get damaged from the g-forces wow

2824

01:51:42,550 --> 01:51:40,400

uh let's see this is a little this is a

2825

01:51:45,109 --> 01:51:42,560

quote on air resistance

2826  
01:51:46,390 --> 01:51:45,119  
um do you agree with the statement that

2827  
01:51:48,870 --> 01:51:46,400  
uh jeff put up there

2828  
01:51:49,430 --> 01:51:48,880  
does that make any sense to you um well

2829  
01:51:52,310 --> 01:51:49,440  
like

2830  
01:51:54,070 --> 01:51:52,320  
uh lasers the the reason you use they're

2831  
01:51:56,870 --> 01:51:54,080  
able to use high-powered lasers

2832  
01:51:57,669 --> 01:51:56,880  
is they do these very extremely rapid

2833  
01:52:01,350 --> 01:51:57,679  
bursts

2834  
01:52:04,790 --> 01:52:01,360  
where the first weight laser front uh

2835  
01:52:06,550 --> 01:52:04,800  
basically pulverizes the atmosphere

2836  
01:52:08,870 --> 01:52:06,560  
and then your main laser comes right

2837  
01:52:11,030 --> 01:52:08,880  
behind it and so that's how you're able

2838  
01:52:13,510 --> 01:52:11,040

to get a high power laser to

2839

01:52:15,750 --> 01:52:13,520

move through the atmosphere same thing

2840

01:52:19,030 --> 01:52:15,760

we do to look at stars with

2841

01:52:21,910 --> 01:52:19,040

with the newest telescopes is that a

2842

01:52:24,470 --> 01:52:21,920

laser light

2843

01:52:25,669 --> 01:52:24,480

basically causes the atmosphere to part

2844

01:52:29,589 --> 01:52:25,679

in that area

2845

01:52:32,709 --> 01:52:29,599

just it for a very brief moment in time

2846

01:52:35,030 --> 01:52:32,719

but you can't use it to like allow a jet

2847

01:52:37,109 --> 01:52:35,040

aircraft to fly through the atmosphere

2848

01:52:39,750 --> 01:52:37,119

without resistance

2849

01:52:41,030 --> 01:52:39,760

yeah that that's that when they do that

2850

01:52:42,550 --> 01:52:41,040

with a laser it's

2851  
01:52:44,950 --> 01:52:42,560  
i mean you're talking like i think it's

2852  
01:52:48,790 --> 01:52:44,960  
like in pico seconds

2853  
01:52:50,629 --> 01:52:48,800  
then the one laser flashes the next one

2854  
01:52:53,750 --> 01:52:50,639  
comes behind it

2855  
01:52:54,629 --> 01:52:53,760  
yeah i think there was a physicist named

2856  
01:52:59,270 --> 01:52:54,639  
mirabo

2857  
01:53:02,229 --> 01:52:59,280  
that have you heard that name

2858  
01:53:03,270 --> 01:53:02,239  
mirabeau uh that was talking about

2859  
01:53:07,589 --> 01:53:03,280  
propulsion

2860  
01:53:10,229 --> 01:53:07,599  
with plasma uh plasma

2861  
01:53:10,709 --> 01:53:10,239  
in front of it uh none of that rings a

2862  
01:53:14,470 --> 01:53:10,719  
bell

2863  
01:53:18,470 --> 01:53:15,990

because i may have that off a little bit

2864

01:53:19,669 --> 01:53:18,480

but we're going to wrap here in just uh

2865

01:53:22,709 --> 01:53:19,679

one minute so

2866

01:53:23,589 --> 01:53:22,719

just if you would uh tell people where

2867

01:53:27,350 --> 01:53:23,599

they can find

2868

01:53:28,629 --> 01:53:27,360

the book and it's on him is it on amazon

2869

01:53:30,229 --> 01:53:28,639

right it's on amazon

2870

01:53:31,990 --> 01:53:30,239

it's on barnes and noble there's a

2871

01:53:34,229 --> 01:53:32,000

hardback which i think is the nicest for

2872

01:53:37,589 --> 01:53:34,239

a gift or you can do paperback

2873

01:53:38,149 --> 01:53:37,599

it's also in kindle and if if someone

2874

01:53:41,189 --> 01:53:38,159

wanted an

2875

01:53:43,189 --> 01:53:41,199

autograph uh copy i can

2876

01:53:44,629 --> 01:53:43,199

i have a limited number of those but

2877

01:53:46,550 --> 01:53:44,639

they sent you an email

2878

01:53:47,830 --> 01:53:46,560

martin then you could forward it to me

2879

01:53:49,669 --> 01:53:47,840

and i could uh

2880

01:53:51,189 --> 01:53:49,679

work out with them to get them a audit

2881

01:53:52,709 --> 01:53:51,199

that sounds like a great idea

2882

01:53:54,390 --> 01:53:52,719

all right robert thank you so much

2883

01:53:56,790 --> 01:53:54,400

always fun talking to you yeah

2884

01:53:57,669 --> 01:53:56,800

same here martin all right take care all

2885

01:53:59,669 --> 01:53:57,679

right thank you

2886

01:54:01,270 --> 01:53:59,679

yeah bye all right everyone so that's it

2887

01:54:04,070 --> 01:54:01,280

for the show we'll be back

2888

01:54:06,629 --> 01:54:04,080

next week with melanie kirkendorfer from

2889

01:54:08,870 --> 01:54:06,639

the berkshires ufo should be a great one

2890

01:54:10,229 --> 01:54:08,880

thanks so much for listening and

2891

01:54:13,830 --> 01:54:10,239

remember everyone

2892

01:54:25,900 --> 01:54:13,840

to keep your eyes to the sky
