

**TIM
MCMILLAN**

**THE
DEBRIEF**

1
00:00:27,509 --> 00:00:16,640

[Music]

2
00:00:29,750 --> 00:00:28,390

hello everyone

3
00:00:32,229 --> 00:00:29,760

and welcome to the show i'm martin

4
00:00:34,630 --> 00:00:32,239

willis your host and thank you for being

5
00:00:36,870 --> 00:00:34,640

here it's a sunday afternoon

6
00:00:37,990 --> 00:00:36,880

and i really appreciate it and our guest

7
00:00:39,510 --> 00:00:38,000

is in germany

8
00:00:41,190 --> 00:00:39,520

and it's eight o'clock at night that's

9
00:00:43,030 --> 00:00:41,200

why he's on now

10
00:00:44,229 --> 00:00:43,040

and i wanted to get this ahead of our

11
00:00:46,389 --> 00:00:44,239

regular show

12
00:00:47,750 --> 00:00:46,399

uh which is usually on tuesdays and will

13
00:00:50,790 --> 00:00:47,760

be next week and

14

00:00:54,150 --> 00:00:50,800

so not next week but the following week

15

00:00:55,670 --> 00:00:54,160

uh jack silva will be on so this uh this

16

00:00:57,270 --> 00:00:55,680

podcast will be coming out at the normal

17

00:00:59,270 --> 00:00:57,280

time on tuesday nights

18

00:01:01,110 --> 00:00:59,280

and uh again i appreciate everyone that

19

00:01:04,310 --> 00:01:01,120

uh has shown up

20

00:01:06,469 --> 00:01:04,320

uh on the door here on on youtube

21

00:01:07,670 --> 00:01:06,479

and i'm really excited about our guest

22

00:01:10,830 --> 00:01:07,680

because uh

23

00:01:12,149 --> 00:01:10,840

i kept hearing about this website the

24

00:01:14,789 --> 00:01:12,159

debrief um

25

00:01:16,550 --> 00:01:14,799

and it was mysterious and launching on

26

00:01:19,910 --> 00:01:16,560

november 30th and

27

00:01:20,469 --> 00:01:19,920

and we're all waiting uh in the ufo

28

00:01:23,190 --> 00:01:20,479

field

29

00:01:24,830 --> 00:01:23,200

i a bunch of people were um emailing me

30

00:01:27,109 --> 00:01:24,840

from australia you name it from

31

00:01:30,469 --> 00:01:27,119

everywhere so the day comes

32

00:01:32,310 --> 00:01:30,479

on the 30th and uh

33

00:01:33,830 --> 00:01:32,320

the website is down i'm going to talk to

34

00:01:36,069 --> 00:01:33,840

him about it it crashed

35

00:01:38,149 --> 00:01:36,079

and it crashed over and over again a lot

36

00:01:41,429 --> 00:01:38,159

of anticipation on this

37

00:01:44,789 --> 00:01:41,439

so i like the way i heard tim

38

00:01:46,550 --> 00:01:44,799

put this uh disruptive technology

39

00:01:48,389 --> 00:01:46,560

that's so that's one of the things i

40

00:01:50,550 --> 00:01:48,399

want to report on

41

00:01:52,469 --> 00:01:50,560

and i think we're going to see more and

42

00:01:53,270 --> 00:01:52,479

more of that as time goes on and ufos

43

00:01:54,789 --> 00:01:53,280

are part of that

44

00:01:56,310 --> 00:01:54,799

that's kind of what they're they're

45

00:01:58,950 --> 00:01:56,320

reporting on

46

00:02:00,550 --> 00:01:58,960

um and you know there's there's been

47

00:02:03,510 --> 00:02:00,560

some harsh uh critics on

48

00:02:05,990 --> 00:02:03,520

some things uh for instance the mylar

49

00:02:09,589 --> 00:02:06,000

possible mylar balloon on one of the

50

00:02:11,750 --> 00:02:09,599

uh one of the articles and he makes no

51
00:02:13,990 --> 00:02:11,760
bones about he's putting the information

52
00:02:15,270 --> 00:02:14,000
out there he's not an expert it's up to

53
00:02:17,510 --> 00:02:15,280
the experts

54
00:02:19,430 --> 00:02:17,520
uh to check it out and come up with

55
00:02:22,229 --> 00:02:19,440
answers if they would like

56
00:02:23,670 --> 00:02:22,239
um he's not saying it's a ufo like he's

57
00:02:24,869 --> 00:02:23,680
more or less saying what is it that type

58
00:02:28,150 --> 00:02:24,879
of thing

59
00:02:30,229 --> 00:02:28,160
but anyway um we have a blog

60
00:02:31,430 --> 00:02:30,239
over on our website and that's podcast

61
00:02:34,710 --> 00:02:31,440
ufo

62
00:02:37,430 --> 00:02:34,720
and it is called as soon as i find it

63
00:02:39,190 --> 00:02:37,440

these are a weekly by charles lear he

64

00:02:39,910 --> 00:02:39,200

also does an audio blog that comes out

65

00:02:43,830 --> 00:02:39,920

usually

66

00:02:44,790 --> 00:02:43,840

on um on fridays ironically the name of

67

00:02:48,550 --> 00:02:44,800

the

68

00:02:50,470 --> 00:02:48,560

blog is called ufos and balloons

69

00:02:51,750 --> 00:02:50,480

and there's a lot of stories about ufos

70

00:02:55,190 --> 00:02:51,760

and balloons um

71

00:02:55,910 --> 00:02:55,200

uh going all the way back to the 1948

72

00:02:59,110 --> 00:02:55,920

the

73

00:03:02,830 --> 00:02:59,120

gorman dogfight and uh

74

00:03:05,589 --> 00:03:02,840

and uh there's some project uh blue book

75

00:03:06,790 --> 00:03:05,599

uh balloon cases and things like that

76

00:03:10,309 --> 00:03:06,800

it's very interesting

77

00:03:13,350 --> 00:03:10,319

another great blog by charles lear

78

00:03:14,949 --> 00:03:13,360

and so i also want to

79

00:03:16,550 --> 00:03:14,959

thank everyone that supports the show

80

00:03:18,869 --> 00:03:16,560

anyone can do that over at

81

00:03:20,070 --> 00:03:18,879

podcast ufo you can see the link to

82

00:03:21,990 --> 00:03:20,080

patreon

83

00:03:23,190 --> 00:03:22,000

and uh for two dollars or more a month

84

00:03:25,110 --> 00:03:23,200

or yearly pay

85

00:03:26,949 --> 00:03:25,120

payments you can do that as well i

86

00:03:27,750 --> 00:03:26,959

appreciate everyone that does support

87

00:03:29,350 --> 00:03:27,760

the show

88

00:03:32,949 --> 00:03:29,360

i appreciate everyone that listens to

89
00:03:34,949 --> 00:03:32,959
the show and uh coming up in a few weeks

90
00:03:36,390 --> 00:03:34,959
uh right before christmas i'm gonna give

91
00:03:38,149 --> 00:03:36,400
out some t-shirts

92
00:03:41,190 --> 00:03:38,159
and we do have t-shirts and merchandise

93
00:03:43,350 --> 00:03:41,200
available on our website as well

94
00:03:45,350 --> 00:03:43,360
and that's basically under merchandise

95
00:03:47,589 --> 00:03:45,360
tab on the website

96
00:03:48,949 --> 00:03:47,599
so our guest i am going to let him

97
00:03:50,229 --> 00:03:48,959
introduce himself he's a very

98
00:03:52,789 --> 00:03:50,239
interesting guy

99
00:03:54,149 --> 00:03:52,799
um again he's in germany he's been in

100
00:03:57,350 --> 00:03:54,159
law enforcement

101
00:04:00,470 --> 00:03:57,360
for over 16 years and here he is

102
00:04:02,550 --> 00:04:00,480
tim mcmillan welcome to the show tim

103
00:04:03,750 --> 00:04:02,560
hey martin how's it going good to be

104
00:04:07,110 --> 00:04:03,760
here yeah

105
00:04:08,710 --> 00:04:07,120
really glad uh really glad you were uh

106
00:04:10,550 --> 00:04:08,720
you know uh you wanted to come on the

107
00:04:12,470 --> 00:04:10,560
show and talk about

108
00:04:14,229 --> 00:04:12,480
what you're up to because uh you

109
00:04:15,190 --> 00:04:14,239
certainly caused quite a stir when that

110
00:04:18,629 --> 00:04:15,200
website

111
00:04:21,110 --> 00:04:18,639
went up yeah no thanks for having me on

112
00:04:21,990 --> 00:04:21,120
yeah whose idea was that to to launch it

113
00:04:24,230 --> 00:04:22,000

with uh

114

00:04:26,550 --> 00:04:24,240

you know on a time schedule like that

115

00:04:28,390 --> 00:04:26,560

that was brilliant

116

00:04:29,590 --> 00:04:28,400

it just kind of came about and i don't

117

00:04:31,510 --> 00:04:29,600

want to you know there's there was a lot

118

00:04:34,230 --> 00:04:31,520

of moving parts so this uh

119

00:04:34,710 --> 00:04:34,240

the debrief is really the brainchild of

120

00:04:37,430 --> 00:04:34,720

me

121

00:04:37,990 --> 00:04:37,440

um my good buddies mj banayas and micah

122

00:04:40,310 --> 00:04:38,000

hanks

123

00:04:42,070 --> 00:04:40,320

who i think you're familiar with both

124

00:04:44,390 --> 00:04:42,080

been on my show a few times sure

125

00:04:45,430 --> 00:04:44,400

yeah see i got to catch up to them then

126
00:04:48,070 --> 00:04:45,440
this was my first

127
00:04:48,870 --> 00:04:48,080
um but we you know we were good friends

128
00:04:51,909 --> 00:04:48,880
we're good friends

129
00:04:53,830 --> 00:04:51,919
outside of uh you know professional life

130
00:04:56,310 --> 00:04:53,840
and uh you know mike is a professional

131
00:04:57,590 --> 00:04:56,320
podcaster mj was working advice and

132
00:05:00,629 --> 00:04:57,600
popular mechanics swimming

133
00:05:03,830 --> 00:05:00,639
writing and um we

134
00:05:05,189 --> 00:05:03,840
kind of got you know we in

135
00:05:06,950 --> 00:05:05,199
talking and chatting and everything we

136
00:05:08,469 --> 00:05:06,960
would get frustrated because

137
00:05:10,710 --> 00:05:08,479
and ironically enough we didn't want to

138
00:05:13,110 --> 00:05:10,720

just cover the ufo subject but when we

139

00:05:14,629 --> 00:05:13,120

did cover the ufo subject

140

00:05:15,830 --> 00:05:14,639

we'd get frustrated because you know

141

00:05:16,950 --> 00:05:15,840

especially there were a lot of articles

142

00:05:19,430 --> 00:05:16,960

that me and mj

143

00:05:21,830 --> 00:05:19,440

teamed up together with or you know that

144

00:05:24,310 --> 00:05:21,840

i did myself maybe went out through vice

145

00:05:25,029 --> 00:05:24,320

somebody else and we put a lot of effort

146

00:05:26,469 --> 00:05:25,039

into it

147

00:05:28,150 --> 00:05:26,479

and frankly there were straight news

148

00:05:30,469 --> 00:05:28,160

articles that uh

149

00:05:31,590 --> 00:05:30,479

if the subject was anything but ufos you

150

00:05:33,430 --> 00:05:31,600

know it would

151
00:05:34,870 --> 00:05:33,440
be completely normal like you know they

152
00:05:37,189 --> 00:05:34,880
would be

153
00:05:38,469 --> 00:05:37,199
you know important articles but we would

154
00:05:39,830 --> 00:05:38,479
turn them in and then

155
00:05:41,749 --> 00:05:39,840
we would when we finally see them

156
00:05:42,629 --> 00:05:41,759
published they'd have a splashy punchy

157
00:05:45,350 --> 00:05:42,639
headline

158
00:05:46,390 --> 00:05:45,360
and uh like a picture of tom delong you

159
00:05:47,749 --> 00:05:46,400
know you remember you

160
00:05:49,670 --> 00:05:47,759
do an article on the the senate

161
00:05:51,029 --> 00:05:49,680
intelligence committee and then

162
00:05:53,990 --> 00:05:51,039
you see your article and there's you

163
00:05:57,590 --> 00:05:54,000

know tom delong's ufos are now being

164

00:05:59,350 --> 00:05:57,600

discussed in congress and you're like so

165

00:06:01,510 --> 00:05:59,360

uh you know we decided to do our own

166

00:06:04,070 --> 00:06:01,520

thing and uh

167

00:06:05,110 --> 00:06:04,080

the kind of uh when to launch and all of

168

00:06:07,830 --> 00:06:05,120

that good schedule

169

00:06:09,110 --> 00:06:07,840

stuff um we really this was supposed to

170

00:06:10,230 --> 00:06:09,120

be a soft launch

171

00:06:12,150 --> 00:06:10,240

just so you know we're supposed to be

172

00:06:14,469 --> 00:06:12,160

working out all the kinks from the you

173

00:06:15,990 --> 00:06:14,479

know the first of december until january

174

00:06:19,110 --> 00:06:16,000

when we really try to

175

00:06:22,550 --> 00:06:19,120

uh push the site but um things uh

176

00:06:24,230 --> 00:06:22,560

as you alluded to took off a tad uh

177

00:06:25,830 --> 00:06:24,240

ted crazier there's a little a little

178

00:06:26,870 --> 00:06:25,840

bigger than we expected at least in the

179

00:06:29,189 --> 00:06:26,880

first week

180

00:06:30,469 --> 00:06:29,199

that's for sure did you have to change

181

00:06:32,629 --> 00:06:30,479

anything about your

182

00:06:35,270 --> 00:06:32,639

your your server because your website

183

00:06:36,629 --> 00:06:35,280

kept crashing yep no and that was

184

00:06:38,950 --> 00:06:36,639

yeah the first two days actually

185

00:06:39,510 --> 00:06:38,960

november 30th and december 1st we were

186

00:06:42,629 --> 00:06:39,520

good

187

00:06:42,950 --> 00:06:42,639

um it was wednesday when i dropped the

188

00:06:49,990 --> 00:06:42,960

uh

189

00:06:53,189 --> 00:06:52,469

we got more traffic than we ever

190

00:06:55,110 --> 00:06:53,199

intended

191

00:06:56,309 --> 00:06:55,120

with that first article and people

192

00:06:58,390 --> 00:06:56,319

coming just

193

00:07:00,070 --> 00:06:58,400

flooding it instantly so actually yeah

194

00:07:02,629 --> 00:07:00,080

behind the scenes

195

00:07:04,550 --> 00:07:02,639

um you know people didn't realize it but

196

00:07:07,350 --> 00:07:04,560

we were frantically

197

00:07:08,950 --> 00:07:07,360

uh we actually brought in a new another

198

00:07:12,309 --> 00:07:08,960

friend of ours who's a you know

199

00:07:15,270 --> 00:07:12,319

our computer whiz our webmaster um

200

00:07:16,870 --> 00:07:15,280

who was able to come in and that's steve

201
00:07:17,670 --> 00:07:16,880
mcdaniel by the way the founder of

202
00:07:21,350 --> 00:07:17,680
skyhub

203
00:07:23,029 --> 00:07:21,360
um oh yeah steve's a great guy thank god

204
00:07:23,510 --> 00:07:23,039
bless him because you know those last

205
00:07:29,909 --> 00:07:23,520
from

206
00:07:30,629 --> 00:07:29,919
involved uh him and micah taking

207
00:07:33,510 --> 00:07:30,639
everything

208
00:07:35,670 --> 00:07:33,520
moving it on to a new server and uh

209
00:07:38,629 --> 00:07:35,680
admittedly i'm not the computer guy

210
00:07:39,909 --> 00:07:38,639
and so that's not easy i've done that

211
00:07:41,670 --> 00:07:39,919
yeah

212
00:07:43,270 --> 00:07:41,680
god bless them because they they've got

213
00:07:44,070 --> 00:07:43,280

it zipping now now we could handle

214

00:07:47,350 --> 00:07:44,080

anything but

215

00:07:49,270 --> 00:07:47,360

yeah those first days um

216

00:07:51,510 --> 00:07:49,280

they were rough and yeah it was it was

217

00:07:53,350 --> 00:07:51,520

rough especially when that uh

218

00:07:55,510 --> 00:07:53,360

the fast mover article came out and

219

00:07:55,909 --> 00:07:55,520

you're like oh but nobody can get

220

00:07:58,070 --> 00:07:55,919

through

221

00:07:59,589 --> 00:07:58,080

it was just there was a point where we

222

00:08:00,469 --> 00:07:59,599

thought we were facing a denial of

223

00:08:02,710 --> 00:08:00,479

service attack

224

00:08:04,070 --> 00:08:02,720

not because of the ufo topic but the day

225

00:08:06,790 --> 00:08:04,080

prior i had actually

226

00:08:08,950 --> 00:08:06,800

written an article about uh the

227

00:08:11,029 --> 00:08:08,960

assassination of the iranian

228

00:08:12,550 --> 00:08:11,039

nuclear scientists oh yeah so i was

229

00:08:13,830 --> 00:08:12,560

thinking oh god we're getting hit by

230

00:08:16,869 --> 00:08:13,840

iran

231

00:08:18,309 --> 00:08:16,879

pestering us yeah um and there was some

232

00:08:20,230 --> 00:08:18,319

slight evidence that that was going on

233

00:08:21,830 --> 00:08:20,240

but then we figured out uh

234

00:08:23,990 --> 00:08:21,840

there was some errors on our part and a

235

00:08:26,309 --> 00:08:24,000

lot of traffic on everybody else's part

236

00:08:27,110 --> 00:08:26,319

so luckily i think we've got it fixed

237

00:08:30,309 --> 00:08:27,120

now

238

00:08:32,389 --> 00:08:30,319

yeah hey if i uh um i want to go into

239

00:08:35,430 --> 00:08:32,399

one of these stories here but before

240

00:08:36,070 --> 00:08:35,440

before we do uh one thing i like to do

241

00:08:38,630 --> 00:08:36,080

here

242

00:08:39,589 --> 00:08:38,640

um and i think people like it i'm not

243

00:08:40,870 --> 00:08:39,599

sure

244

00:08:42,550 --> 00:08:40,880

but then as i like to hear about your

245

00:08:43,750 --> 00:08:42,560

background i know you have a background

246

00:08:46,230 --> 00:08:43,760

in law enforcement

247

00:08:46,790 --> 00:08:46,240

but actually i want to know more about

248

00:08:50,310 --> 00:08:46,800

you

249

00:08:53,269 --> 00:08:50,320

interested

250

00:08:55,030 --> 00:08:53,279

in this topic i know it's one of many

251

00:08:57,750 --> 00:08:55,040

but uh that you have an interest in

252

00:08:59,670 --> 00:08:57,760

but i'd like to hear that sure no no i i

253

00:09:03,750 --> 00:08:59,680

like long walks on the beach and uh

254

00:09:05,350 --> 00:09:03,760

uh i i everything i've ever done has

255

00:09:06,630 --> 00:09:05,360

either been by accident and it all

256

00:09:09,350 --> 00:09:06,640

centers on the fact that i

257

00:09:10,310 --> 00:09:09,360

am just captivated by mysteries i love

258

00:09:13,590 --> 00:09:10,320

solving mysteries

259

00:09:16,070 --> 00:09:13,600

and so um i've told people after a

260

00:09:17,190 --> 00:09:16,080

very you know coming uh very close to

261

00:09:19,430 --> 00:09:17,200

actually going to

262

00:09:20,790 --> 00:09:19,440

uh rabbanical school becoming a rabbi of

263

00:09:22,070 --> 00:09:20,800

all things whether people believe it or

264

00:09:24,470 --> 00:09:22,080

not

265

00:09:25,910 --> 00:09:24,480

uh i was in college to be i couldn't

266

00:09:27,350 --> 00:09:25,920

decide i want to be an astronomer or a

267

00:09:29,670 --> 00:09:27,360

research psychologist

268

00:09:30,710 --> 00:09:29,680

a research cognitive psychologist yeah

269

00:09:32,230 --> 00:09:30,720

because i thought those were the two

270

00:09:35,590 --> 00:09:32,240

biggest mysteries in the world

271

00:09:37,350 --> 00:09:35,600

a human mind in the universe and so uh

272

00:09:40,550 --> 00:09:37,360

of course that translated into me going

273

00:09:46,710 --> 00:09:43,910

at 21 years old and um that was

274

00:09:48,710 --> 00:09:46,720

uh um i actually just kind of shared

275

00:09:51,030 --> 00:09:48,720

that uh recently on another show but

276

00:09:52,470 --> 00:09:51,040

that was a result of uh two friends i

277

00:09:53,350 --> 00:09:52,480

had grown up with were actually i was

278

00:09:55,670 --> 00:09:53,360

home for summer

279

00:09:56,790 --> 00:09:55,680

during college and uh they were murdered

280

00:09:59,509 --> 00:09:56,800

during a home invasion

281

00:10:00,070 --> 00:09:59,519

and so it was just a really tragic event

282

00:10:02,310 --> 00:10:00,080

yeah

283

00:10:03,269 --> 00:10:02,320

that made me decide to go in law

284

00:10:03,829 --> 00:10:03,279

enforcement because i wanted to do

285

00:10:07,750 --> 00:10:03,839

something

286

00:10:10,069 --> 00:10:07,760

and so uh still ended up finishing my

287

00:10:10,870 --> 00:10:10,079

undergrad and tried to balance graduate

288

00:10:12,310 --> 00:10:10,880

school

289

00:10:13,590 --> 00:10:12,320

and policing but that that was a little

290

00:10:15,670 --> 00:10:13,600

difficult especially i got married

291

00:10:17,910 --> 00:10:15,680

started having kids

292

00:10:19,590 --> 00:10:17,920

but my kind of niche in law enforcement

293

00:10:22,870 --> 00:10:19,600

i did a little bit of everything

294

00:10:25,750 --> 00:10:22,880

but i was a violent crimes investigator

295

00:10:27,430 --> 00:10:25,760

but my primary kind of uh focus was

296

00:10:29,269 --> 00:10:27,440

always i stuck with my

297

00:10:30,829 --> 00:10:29,279

psychology background so i was a

298

00:10:33,430 --> 00:10:30,839

behavioral analyst

299

00:10:34,150 --> 00:10:33,440

um intelligence criminal intelligence

300

00:10:37,110 --> 00:10:34,160

analyst

301

00:10:40,230 --> 00:10:37,120

um which is a nice way of saying

302

00:10:43,509 --> 00:10:40,240

profiler now i was a certified profiler

303

00:10:45,030 --> 00:10:43,519

and um i used to teach classes at junk i

304

00:10:47,829 --> 00:10:45,040

was a certified instructor

305

00:10:49,509 --> 00:10:47,839

all kind of focusing on interviews and

306

00:10:51,990 --> 00:10:49,519

interrogations

307

00:10:54,069 --> 00:10:52,000

cognitive psychology all of this nicky

308

00:10:57,509 --> 00:10:54,079

neat little stuff like that

309

00:10:59,110 --> 00:10:57,519

until for about 16 years close to 17

310

00:11:02,790 --> 00:10:59,120

years i just had my fill

311

00:11:05,590 --> 00:11:02,800

and took early retirement and

312

00:11:06,230 --> 00:11:05,600

worked for a year at as a investigator

313

00:11:08,150 --> 00:11:06,240

and an

314

00:11:09,670 --> 00:11:08,160

intelligence analyst for a private law

315

00:11:11,590 --> 00:11:09,680

firm

316

00:11:12,949 --> 00:11:11,600

for my wife who's a kindergarten teacher

317

00:11:14,630 --> 00:11:12,959

for the department of defense of all

318

00:11:16,949 --> 00:11:14,640

things uh

319

00:11:17,670 --> 00:11:16,959

got an opportunity for us to move to

320

00:11:19,750 --> 00:11:17,680

germany

321

00:11:20,949 --> 00:11:19,760

um and so we kind of jumped to that so

322

00:11:22,150 --> 00:11:20,959

i've been living in germany now for

323

00:11:24,310 --> 00:11:22,160

about a year

324

00:11:25,350 --> 00:11:24,320

um and so now i just kind of work from

325

00:11:28,389 --> 00:11:25,360

home writing

326

00:11:31,910 --> 00:11:28,399

investigating full-time now

327

00:11:33,430 --> 00:11:31,920

now working the debrief you uh do you

328

00:11:34,870 --> 00:11:33,440

like germany

329

00:11:36,790 --> 00:11:34,880

sure yeah yeah no it's been a great

330

00:11:38,710 --> 00:11:36,800

experience uh yeah we're

331

00:11:39,910 --> 00:11:38,720

you know about 30 minutes from france

332

00:11:40,870 --> 00:11:39,920

belgium or luxembourg and every

333

00:11:44,230 --> 00:11:40,880

direction nice

334

00:11:44,630 --> 00:11:44,240

wow yes wonderful yes a lot a lot of

335

00:11:46,710 --> 00:11:44,640

great

336

00:11:48,470 --> 00:11:46,720

once uh the pandemic passes i think

337

00:11:51,590 --> 00:11:48,480

it'll be a lot more fun because

338

00:11:53,670 --> 00:11:51,600

exactly yeah i'd like to talk to you

339

00:11:55,269 --> 00:11:53,680

um thank you for that all that i'd like

340

00:11:55,750 --> 00:11:55,279

to talk to you about this article

341

00:11:57,750 --> 00:11:55,760

because

342

00:11:59,430 --> 00:11:57,760

i knew this really this is where

343

00:12:02,790 --> 00:11:59,440

everybody was sending me

344

00:12:03,269 --> 00:12:02,800

right off the bat um which which ended

345

00:12:05,590 --> 00:12:03,279

up

346

00:12:07,350 --> 00:12:05,600

this is what i told you off-air you know

347

00:12:10,150 --> 00:12:07,360

that i liked about your

348

00:12:11,670 --> 00:12:10,160

your response on this is you know you're

349

00:12:12,949 --> 00:12:11,680

just reporting this you're not you're

350

00:12:14,550 --> 00:12:12,959

not saying this is definitely an

351
00:12:17,430 --> 00:12:14,560
unexplained ufo

352
00:12:18,389 --> 00:12:17,440
you're just saying this is a ufo at this

353
00:12:21,030 --> 00:12:18,399
at this point

354
00:12:22,710 --> 00:12:21,040
and then people right away said hey you

355
00:12:23,670 --> 00:12:22,720
know they figured out it was the batman

356
00:12:26,629 --> 00:12:23,680
balloon

357
00:12:27,509 --> 00:12:26,639
now i'm not sure if that's if they're

358
00:12:31,670 --> 00:12:27,519
100

359
00:12:33,990 --> 00:12:31,680
what are your thoughts on that

360
00:12:36,389 --> 00:12:34,000
sure well and i mean honestly the the

361
00:12:38,230 --> 00:12:36,399
origins for that article in that photo

362
00:12:39,590 --> 00:12:38,240
started the day before with the fast

363
00:12:43,030 --> 00:12:39,600

movers article

364

00:12:44,230 --> 00:12:43,040

um and uh i don't know if you had a

365

00:12:45,829 --> 00:12:44,240

chance to read that one but that one

366

00:12:48,230 --> 00:12:45,839

that one was always the

367

00:12:50,389 --> 00:12:48,240

the big piece that was going to come out

368

00:12:52,870 --> 00:12:50,399

was the fast movers article

369

00:12:53,910 --> 00:12:52,880

and that's one where i reported on if

370

00:12:55,350 --> 00:12:53,920

you're looking at the site you probably

371

00:12:59,829 --> 00:12:55,360

have to go up there to defense

372

00:13:04,310 --> 00:13:01,430

scroll down and you should be able to

373

00:13:06,710 --> 00:13:04,320

find um

374

00:13:07,509 --> 00:13:06,720

sorry no no no problem you can find it

375

00:13:10,870 --> 00:13:07,519

in there

376

00:13:12,790 --> 00:13:10,880

um here we go all right

377

00:13:14,629 --> 00:13:12,800

right there there you go if you scroll

378

00:13:16,230 --> 00:13:14,639

down

379

00:13:17,750 --> 00:13:16,240

let's see yeah there you go the green

380

00:13:20,550 --> 00:13:17,760

ones movers transmit

381

00:13:22,069 --> 00:13:20,560

yeah so the origin of the photo was was

382

00:13:23,590 --> 00:13:22,079

this article i mean this was the big one

383

00:13:27,190 --> 00:13:23,600

that i was working on this is where

384

00:13:29,670 --> 00:13:27,200

i have you know found out

385

00:13:31,350 --> 00:13:29,680

about half a year ago um about the first

386

00:13:32,389 --> 00:13:31,360

intelligence memo that had been

387

00:13:34,389 --> 00:13:32,399

published and released to the

388

00:13:35,670 --> 00:13:34,399

intelligence community and then

389

00:13:36,150 --> 00:13:35,680

subsequently found out about the second

390

00:13:37,430 --> 00:13:36,160

one

391

00:13:39,350 --> 00:13:37,440

shortly after it was released in

392

00:13:40,870 --> 00:13:39,360

september

393

00:13:42,629 --> 00:13:40,880

along with getting the emails from the

394

00:13:45,350 --> 00:13:42,639

joint chiefs of staff

395

00:13:45,750 --> 00:13:45,360

and so we never intended to publish the

396

00:13:48,790 --> 00:13:45,760

photo

397

00:13:51,189 --> 00:13:48,800

at first and in fact uh you know people

398

00:13:54,230 --> 00:13:51,199

have been confused about this but

399

00:13:57,590 --> 00:13:54,240

we actually didn't have a releasable

400

00:14:01,189 --> 00:13:57,600

copy of that photo until

401
00:14:03,829 --> 00:14:01,199
this first article was published um

402
00:14:05,829 --> 00:14:03,839
i you know any copies that we had or any

403
00:14:09,110 --> 00:14:05,839
materials that we had beforehand

404
00:14:11,350 --> 00:14:09,120
were all to uh verify

405
00:14:12,550 --> 00:14:11,360
uh the credibility and and back up and

406
00:14:15,110 --> 00:14:12,560
substantiate

407
00:14:16,870 --> 00:14:15,120
uh these intelligence reports that have

408
00:14:18,629 --> 00:14:16,880
been issued out

409
00:14:20,069 --> 00:14:18,639
but they weren't releasable stuff it was

410
00:14:23,590 --> 00:14:20,079
always for

411
00:14:25,269 --> 00:14:23,600
just verifying uh that the information

412
00:14:26,389 --> 00:14:25,279
we'd be reporting on was correct because

413
00:14:29,430 --> 00:14:26,399

unfortunately

414

00:14:31,350 --> 00:14:29,440

everybody that i spoke to they are

415

00:14:32,550 --> 00:14:31,360

active uh you know they weren't supposed

416

00:14:34,150 --> 00:14:32,560

to be talking they are

417

00:14:36,470 --> 00:14:34,160

active members of the intelligence

418

00:14:38,069 --> 00:14:36,480

committee our intelligence community or

419

00:14:41,509 --> 00:14:38,079

department of defense

420

00:14:43,269 --> 00:14:41,519

and uh they or you know

421

00:14:44,949 --> 00:14:43,279

the the information they were describing

422

00:14:45,509 --> 00:14:44,959

were housed on various classified

423

00:14:46,629 --> 00:14:45,519

systems

424

00:14:48,870 --> 00:14:46,639

and so they weren't supposed to talk

425

00:14:50,150 --> 00:14:48,880

about it um so we didn't have anything

426

00:14:51,990 --> 00:14:50,160

we could share but then the following

427

00:14:52,629 --> 00:14:52,000

day after this article was published and

428

00:14:55,829 --> 00:14:52,639

this is the one

429

00:14:57,670 --> 00:14:55,839

that actually crashed us initially um

430

00:14:59,189 --> 00:14:57,680

i think we got we got things fairly

431

00:15:02,230 --> 00:14:59,199

working fairly good by the

432

00:15:04,470 --> 00:15:02,240

next day when we released a photo but uh

433

00:15:06,230 --> 00:15:04,480

after after initially publishing this

434

00:15:09,350 --> 00:15:06,240

article um

435

00:15:12,949 --> 00:15:09,360

a you know a civilian research

436

00:15:15,990 --> 00:15:12,959

ufo researcher messaged me and uh

437

00:15:18,069 --> 00:15:16,000

they shared a photo of a photo

438

00:15:19,670 --> 00:15:18,079

of that balloon photo that we released

439

00:15:22,710 --> 00:15:19,680

and said hey have you seen this

440

00:15:24,629 --> 00:15:22,720

well at that point um

441

00:15:26,069 --> 00:15:24,639

any bets that we had initially of stuff

442

00:15:27,030 --> 00:15:26,079

that we wouldn't release and in terms of

443

00:15:29,509 --> 00:15:27,040

that photo were off

444

00:15:30,550 --> 00:15:29,519

and so because it had leaked to the wild

445

00:15:33,030 --> 00:15:30,560

obviously

446

00:15:33,590 --> 00:15:33,040

and so then that that next morning you

447

00:15:36,150 --> 00:15:33,600

know so

448

00:15:37,829 --> 00:15:36,160

by the time we got that you know within

449

00:15:40,710 --> 00:15:37,839

six hours we released the balloon

450

00:15:42,410 --> 00:15:40,720

the quote balloon photo and uh kicked

451
00:15:46,629 --> 00:15:42,420
off balloon gate i guess

452
00:15:50,389 --> 00:15:48,389
so what are we looking at right now on

453
00:15:53,430 --> 00:15:50,399
this on the screen here

454
00:15:54,150 --> 00:15:53,440
sure now this video i included in in

455
00:15:55,990 --> 00:15:54,160
that initial

456
00:15:58,230 --> 00:15:56,000
article frankly i think is one of the

457
00:16:00,870 --> 00:15:58,240
most fascinating videos that's kind of

458
00:16:03,670 --> 00:16:00,880
uh been forgotten about or overlooked

459
00:16:06,870 --> 00:16:03,680
this video was initially shot in 1993

460
00:16:09,910 --> 00:16:06,880
in over nellis range over a portion

461
00:16:13,670 --> 00:16:09,920
you know which famously known as area 51

462
00:16:15,829 --> 00:16:13,680
although this was not filmed over what

463
00:16:17,030 --> 00:16:15,839

is that technically area 51 this is just

464

00:16:20,310 --> 00:16:17,040

the area

465

00:16:22,310 --> 00:16:20,320

um but this video i was a i i got a

466

00:16:23,829 --> 00:16:22,320

full this is the full 12-minute copy of

467

00:16:26,949 --> 00:16:23,839

this video and i got it from

468

00:16:30,550 --> 00:16:26,959

a good buddy of mine um nick cook

469

00:16:32,710 --> 00:16:30,560

wrote the hunt for zero point um

470

00:16:34,230 --> 00:16:32,720

out of the uk good friend of mine and

471

00:16:36,389 --> 00:16:34,240

and we had spoken

472

00:16:38,310 --> 00:16:36,399

last year and we were talking about the

473

00:16:39,749 --> 00:16:38,320

tic tac and all these things and

474

00:16:41,829 --> 00:16:39,759

he said you know there's a video from

475

00:16:44,790 --> 00:16:41,839

the 90s i remember that

476
00:16:45,430 --> 00:16:44,800
kind of reminds me of this and a year

477
00:16:47,990 --> 00:16:45,440
later

478
00:16:48,710 --> 00:16:48,000
he ended up finding the copy and sent it

479
00:16:52,710 --> 00:16:48,720
to me

480
00:16:54,230 --> 00:16:52,720
now this video i think um

481
00:16:56,069 --> 00:16:54,240
a very small portion of this video was

482
00:16:59,110 --> 00:16:56,079
actually shown on inside edition

483
00:17:02,629 --> 00:16:59,120
i think in the mid 90s about

484
00:17:04,710 --> 00:17:02,639
30 second clip of it but but the full

485
00:17:05,909 --> 00:17:04,720
entire 12-minute version of this video

486
00:17:07,909 --> 00:17:05,919
um

487
00:17:09,590 --> 00:17:07,919
there's not a lot of copies around there

488
00:17:10,549 --> 00:17:09,600

i think i may have found one other on

489

00:17:13,510 --> 00:17:10,559

youtube

490

00:17:14,390 --> 00:17:13,520

but uh since we had one i uploaded it

491

00:17:15,750 --> 00:17:14,400

and wanted to enter

492

00:17:17,990 --> 00:17:15,760

you know wanted to include it in this

493

00:17:21,029 --> 00:17:18,000

article um

494

00:17:21,429 --> 00:17:21,039

because it's interesting you know i

495

00:17:25,429 --> 00:17:21,439

think

496

00:17:26,949 --> 00:17:25,439

um the story behind how it came about

497

00:17:28,789 --> 00:17:26,959

and i acknowledge in the the kind of

498

00:17:32,390 --> 00:17:28,799

comments of that in the youtube

499

00:17:35,270 --> 00:17:32,400

there the video is they seem dubious

500

00:17:37,430 --> 00:17:35,280

they were you're looking at a recording

501
00:17:41,590 --> 00:17:37,440
of a screen monitor

502
00:17:44,150 --> 00:17:41,600
um by a mobile radar station

503
00:17:45,430 --> 00:17:44,160
in nellis range actually two separate

504
00:17:46,630 --> 00:17:45,440
ones about the midway point of this

505
00:17:49,750 --> 00:17:46,640
video it'll switch

506
00:17:53,029 --> 00:17:49,760
to the the second radar station

507
00:17:54,789 --> 00:17:53,039
um however what we're looking at i i

508
00:17:56,549 --> 00:17:54,799
don't think has ever

509
00:17:58,870 --> 00:17:56,559
i have not seen any satisfactory

510
00:18:01,270 --> 00:17:58,880
explanation and if you go to

511
00:18:03,110 --> 00:18:01,280
the um the comment section of the video

512
00:18:04,789 --> 00:18:03,120
uh there's some great links there was a

513
00:18:06,230 --> 00:18:04,799

gentleman whose name escapes me at the

514

00:18:09,909 --> 00:18:06,240

moment and i apologize

515

00:18:11,990 --> 00:18:09,919

who did a phenomenal analysis of it um

516

00:18:13,990 --> 00:18:12,000

going back to the mid 90s and so we'd be

517

00:18:17,590 --> 00:18:14,000

linked to all of his work

518

00:18:19,430 --> 00:18:17,600

but i'm not aware of anybody being able

519

00:18:22,630 --> 00:18:19,440

to kind of identify what this is

520

00:18:23,510 --> 00:18:22,640

and for me one of the things that really

521

00:18:26,710 --> 00:18:23,520

intrigues me

522

00:18:28,630 --> 00:18:26,720

is some of the movements by the

523

00:18:30,710 --> 00:18:28,640

object and especially i think when you

524

00:18:34,230 --> 00:18:30,720

first cut it on you might have noticed

525

00:18:35,430 --> 00:18:34,240

uh you you'll you'll think initially

526

00:18:38,549 --> 00:18:35,440

yeah there you go

527

00:18:41,750 --> 00:18:38,559

you see how it just jumps around yeah um

528

00:18:43,029 --> 00:18:41,760

that's not consistent that's not normal

529

00:18:46,150 --> 00:18:43,039

what you're seeing there

530

00:18:48,070 --> 00:18:46,160

um you know and it would be hard for

531

00:18:49,590 --> 00:18:48,080

like a drone to do something i mean

532

00:18:51,750 --> 00:18:49,600

my first thought is it looks like a

533

00:18:54,230 --> 00:18:51,760

drone i know this is the 1990s

534

00:18:55,510 --> 00:18:54,240

but then for anything to move like that

535

00:18:58,070 --> 00:18:55,520

it it

536

00:18:59,029 --> 00:18:58,080

unless it's the camera that's moving you

537

00:19:00,630 --> 00:18:59,039

know

538

00:19:02,310 --> 00:19:00,640

sure i thought it was the camera at

539

00:19:04,870 --> 00:19:02,320

first and some of the angles where

540

00:19:06,789 --> 00:19:04,880

the uh where the background is a little

541

00:19:09,430 --> 00:19:06,799

clearer you can actually kind of

542

00:19:11,430 --> 00:19:09,440

set your your position on the background

543

00:19:12,710 --> 00:19:11,440

uh and at one point there's a shot with

544

00:19:13,430 --> 00:19:12,720

the camera you can actually see the

545

00:19:16,710 --> 00:19:13,440

mountains

546

00:19:20,230 --> 00:19:16,720

of uh nellis range in the background

547

00:19:21,270 --> 00:19:20,240

and um so it's not the camera that's

548

00:19:24,549 --> 00:19:21,280

jumping around there

549

00:19:26,070 --> 00:19:24,559

and it's fascinating to me i mean it

550

00:19:28,150 --> 00:19:26,080

reminds me

551
00:19:29,750 --> 00:19:28,160
this was um probably one of the most

552
00:19:31,669 --> 00:19:29,760
compelling interviews when i

553
00:19:32,870 --> 00:19:31,679
early started getting interested in

554
00:19:35,510 --> 00:19:32,880
investigating this stuff

555
00:19:37,190 --> 00:19:35,520
when i spoke with one of the pilots

556
00:19:40,230 --> 00:19:37,200
during the nimitz incident

557
00:19:43,110 --> 00:19:40,240
um one of the commander framers wingmen

558
00:19:44,950 --> 00:19:43,120
who hasn't come forward oh really you

559
00:19:49,190 --> 00:19:44,960
actually spoke to that person

560
00:19:52,390 --> 00:19:49,200
yeah and uh uh had a great conversation

561
00:19:54,070 --> 00:19:52,400
and she uh you know one of the things in

562
00:19:55,590 --> 00:19:54,080
fact she was she was willing to go on

563
00:19:56,230 --> 00:19:55,600

the record and come out by the navy

564

00:19:58,870 --> 00:19:56,240

she's still

565

00:20:00,310 --> 00:19:58,880

uh actively in the us navy and so they

566

00:20:02,789 --> 00:20:00,320

they shot it down

567

00:20:04,070 --> 00:20:02,799

but um which is unfortunate because i

568

00:20:07,270 --> 00:20:04,080

think if people

569

00:20:08,950 --> 00:20:07,280

uh you've often heard her referred to in

570

00:20:10,950 --> 00:20:08,960

as the story's been told now as the new

571

00:20:13,510 --> 00:20:10,960

girl and these types of things but i

572

00:20:14,310 --> 00:20:13,520

i wish people could uh get an idea of

573

00:20:17,669 --> 00:20:14,320

what her

574

00:20:18,149 --> 00:20:17,679

her background is or you know her career

575

00:20:21,190 --> 00:20:18,159

from

576

00:20:23,029 --> 00:20:21,200

2004 to today because um

577

00:20:25,669 --> 00:20:23,039

wasn't that her first flight though or

578

00:20:27,909 --> 00:20:25,679

something like that something crazy

579

00:20:30,230 --> 00:20:27,919

she was she was about she was about a

580

00:20:31,750 --> 00:20:30,240

year out of flight school that was her

581

00:20:33,110 --> 00:20:31,760

first time being attached

582

00:20:34,789 --> 00:20:33,120

you know the process to be a fighter

583

00:20:35,830 --> 00:20:34,799

pilot is pretty lengthy and this was her

584

00:20:38,630 --> 00:20:35,840

first attachment

585

00:20:40,390 --> 00:20:38,640

to oh i see the operational fleet and

586

00:20:40,870 --> 00:20:40,400

getting ready for deployment but i mean

587

00:20:47,350 --> 00:20:40,880

she

588

00:20:48,950 --> 00:20:47,360

since the navy won't come out so i won't

589

00:20:51,350 --> 00:20:48,960

give too many details but she's done

590

00:20:53,190 --> 00:20:51,360

some pretty incredible things and

591

00:20:54,710 --> 00:20:53,200

including but not limited to

592

00:20:56,549 --> 00:20:54,720

and this is no javit commander favor

593

00:20:59,029 --> 00:20:56,559

because i think he's a great guy but

594

00:20:59,590 --> 00:20:59,039

out of that whole crew um she is the

595

00:21:02,070 --> 00:20:59,600

only one

596

00:21:03,830 --> 00:21:02,080

who who has actually spent boots on the

597

00:21:04,390 --> 00:21:03,840

ground time in a war zone for over a

598

00:21:07,750 --> 00:21:04,400

year

599

00:21:09,669 --> 00:21:07,760

she was in afghanistan and uh so she's a

600

00:21:12,549 --> 00:21:09,679

very very accomplished pilot and so

601
00:21:13,350 --> 00:21:12,559
for her testimony here years later it's

602
00:21:16,230 --> 00:21:13,360
very compelling

603
00:21:16,630 --> 00:21:16,240
but she one thing she told me that

604
00:21:18,630 --> 00:21:16,640
really

605
00:21:20,230 --> 00:21:18,640
unnerved her the most when they

606
00:21:21,510 --> 00:21:20,240
encountered that object

607
00:21:23,510 --> 00:21:21,520
and and i don't think it's something

608
00:21:24,710 --> 00:21:23,520
that commander fravor saw

609
00:21:26,710 --> 00:21:24,720
or it's definitely not something that

610
00:21:28,070 --> 00:21:26,720
he's hit on as you see there where it

611
00:21:31,350 --> 00:21:28,080
kind of jumps

612
00:21:34,630 --> 00:21:31,360
um was that when that she first saw

613
00:21:37,350 --> 00:21:34,640

the tic tac it was um

614

00:21:38,390 --> 00:21:37,360

bouncing around like uh you know almost

615

00:21:41,510 --> 00:21:38,400

like a house fly

616

00:21:42,710 --> 00:21:41,520

or a ping pong like yeah in a way

617

00:21:44,630 --> 00:21:42,720

it's funny you said that because in a

618

00:21:46,390 --> 00:21:44,640

way that's what this thing looked like

619

00:21:47,669 --> 00:21:46,400

uh that we were looking at it almost

620

00:21:50,310 --> 00:21:47,679

looked like a fly would

621

00:21:51,830 --> 00:21:50,320

would do yep yep you know that's that's

622

00:21:55,270 --> 00:21:51,840

exactly

623

00:21:58,549 --> 00:21:55,280

why i think that that video

624

00:22:00,230 --> 00:21:58,559

personally i think could be a an extreme

625

00:22:01,830 --> 00:22:00,240

it could be very much like the nimitz

626
00:22:02,070 --> 00:22:01,840
case where you've got one that leaked

627
00:22:05,110 --> 00:22:02,080
out

628
00:22:06,310 --> 00:22:05,120
many years earlier and was kind of just

629
00:22:08,310 --> 00:22:06,320
discredited and people didn't pay

630
00:22:09,590 --> 00:22:08,320
attention to it um

631
00:22:11,190 --> 00:22:09,600
but you could be looking at something

632
00:22:11,669 --> 00:22:11,200
very compelling because you can see

633
00:22:14,950 --> 00:22:11,679
there

634
00:22:15,909 --> 00:22:14,960
see the horizon didn't move that's not

635
00:22:19,029 --> 00:22:15,919
the camera

636
00:22:21,590 --> 00:22:19,039
yeah i see that now yeah um

637
00:22:22,950 --> 00:22:21,600
and i mean that's you know like i said

638
00:22:24,390 --> 00:22:22,960

my background's in but a lot of

639

00:22:27,830 --> 00:22:24,400

behavioral investigation

640

00:22:29,590 --> 00:22:27,840

and um so i assess things kind of from a

641

00:22:32,310 --> 00:22:29,600

human behavior standpoint

642

00:22:33,029 --> 00:22:32,320

and when you're designing aerospace

643

00:22:35,590 --> 00:22:33,039

platforms

644

00:22:36,549 --> 00:22:35,600

you're designing new technology it

645

00:22:38,470 --> 00:22:36,559

doesn't matter whether it's an

646

00:22:40,070 --> 00:22:38,480

autonomous drone or if you're designing

647

00:22:42,230 --> 00:22:40,080

a new stealth aircraft

648

00:22:43,270 --> 00:22:42,240

it's all going to function in something

649

00:22:46,390 --> 00:22:43,280

that makes sense

650

00:22:47,350 --> 00:22:46,400

to you or human beings because that's

651
00:22:49,190 --> 00:22:47,360
who's designing it

652
00:22:51,190 --> 00:22:49,200
um so when you see these kind of

653
00:22:52,390 --> 00:22:51,200
nonsensical movements it doesn't exactly

654
00:22:54,950 --> 00:22:52,400
make sense

655
00:22:56,470 --> 00:22:54,960
it doesn't comport with what we would

656
00:22:58,230 --> 00:22:56,480
design something so for me that's always

657
00:23:02,710 --> 00:22:58,240
been very very interesting

658
00:23:03,669 --> 00:23:02,720
um yeah that video itself is one i think

659
00:23:07,190 --> 00:23:03,679
we need to look at

660
00:23:09,510 --> 00:23:07,200
more somebody does yeah yeah that's

661
00:23:11,029 --> 00:23:09,520
they um that that is one that could

662
00:23:12,710 --> 00:23:11,039
really use some analysis

663
00:23:14,390 --> 00:23:12,720

on this one in this particular thing

664

00:23:17,350 --> 00:23:14,400

that we're showing here now this is

665

00:23:17,750 --> 00:23:17,360

what i heard about um from so many

666

00:23:20,310 --> 00:23:17,760

people

667

00:23:22,230 --> 00:23:20,320

was hey there's uh this was going around

668

00:23:24,310 --> 00:23:22,240

and the intelligence well

669

00:23:25,350 --> 00:23:24,320

quote unquote viral in the intelligence

670

00:23:29,190 --> 00:23:25,360

department

671

00:23:31,990 --> 00:23:29,200

um as a not this is a uh

672

00:23:32,710 --> 00:23:32,000

this is not uh the original picture this

673

00:23:35,990 --> 00:23:32,720

is uh

674

00:23:38,470 --> 00:23:36,000

someone uh it's a recreation a rendition

675

00:23:40,230 --> 00:23:38,480

of what was seen but from what i

676

00:23:42,789 --> 00:23:40,240

understood this thing

677

00:23:44,390 --> 00:23:42,799

now correct me if i'm wrong supposedly

678

00:23:46,470 --> 00:23:44,400

came up out of the atlantic

679

00:23:47,669 --> 00:23:46,480

or the ocean i'm not sure what atlantic

680

00:23:50,789 --> 00:23:47,679

pacific or whatever

681

00:23:53,190 --> 00:23:50,799

but came up out of the ocean and

682

00:23:54,630 --> 00:23:53,200

uh the pilot star took a picture of it

683

00:23:58,070 --> 00:23:54,640

and then it moved away

684

00:24:01,190 --> 00:23:58,080

like vertically on its side um is that

685

00:24:17,269 --> 00:24:01,200

is that kind of is it close that's

686

00:24:25,269 --> 00:24:21,190

provided by available uap task force um

687

00:24:28,549 --> 00:24:25,279

in late 2020 so a couple months ago

688

00:24:30,710 --> 00:24:28,559

and but this is not the other photo that

689

00:24:32,789 --> 00:24:30,720

we released the day later

690

00:24:35,110 --> 00:24:32,799

and indeed you're accurate there is that

691

00:24:38,310 --> 00:24:35,120

uh you know i was told by multiple

692

00:24:41,990 --> 00:24:38,320

people that uh you know

693

00:24:42,310 --> 00:24:42,000

what there was a uh a triangular object

694

00:24:45,110 --> 00:24:42,320

with

695

00:24:46,149 --> 00:24:45,120

rounded blunted corners uh just like

696

00:24:48,149 --> 00:24:46,159

what's shown there

697

00:24:49,590 --> 00:24:48,159

that dave beatty of uh the nimitz

698

00:24:51,350 --> 00:24:49,600

encounters who did that film

699

00:24:53,669 --> 00:24:51,360

has done phenomenal work research in the

700

00:24:54,630 --> 00:24:53,679

event is who who did that recreation for

701
00:24:56,549 --> 00:24:54,640
me

702
00:24:58,470 --> 00:24:56,559
um but exactly like what you see there

703
00:24:59,029 --> 00:24:58,480
so three bright white lights in each

704
00:25:03,430 --> 00:24:59,039
corner

705
00:25:05,830 --> 00:25:03,440
object supposedly

706
00:25:06,710 --> 00:25:05,840
emerged from underneath the ocean in

707
00:25:08,870 --> 00:25:06,720
fact that

708
00:25:12,070 --> 00:25:08,880
that recent intelligence assessment port

709
00:25:15,190 --> 00:25:12,080
was almost exclusively pertaining to

710
00:25:17,190 --> 00:25:15,200
transmedium or underwater vehicles

711
00:25:18,710 --> 00:25:17,200
you know see i think the uap task force

712
00:25:21,909 --> 00:25:18,720
was actually very much focused

713
00:25:25,269 --> 00:25:21,919

on this idea that potentially um

714

00:25:26,549 --> 00:25:25,279

you know ufos or uap may have not just a

715

00:25:28,710 --> 00:25:26,559

water connection but

716

00:25:29,669 --> 00:25:28,720

this may be some sort of transient

717

00:25:31,110 --> 00:25:29,679

staging area

718

00:25:33,909 --> 00:25:31,120

you know that there's a lot more going

719

00:25:37,669 --> 00:25:33,919

on in our ocean than we realize

720

00:25:39,430 --> 00:25:37,679

um and yeah i mean everybody

721

00:25:41,510 --> 00:25:39,440

who saw that assessment everybody who

722

00:25:44,710 --> 00:25:41,520

saw that photo

723

00:25:47,350 --> 00:25:44,720

was extremely taken back and um

724

00:25:48,470 --> 00:25:47,360

i thought it was just really really

725

00:25:51,029 --> 00:25:48,480

compelling

726

00:25:52,070 --> 00:25:51,039

uh for me and my side because that's

727

00:25:53,350 --> 00:25:52,080

what

728

00:25:56,310 --> 00:25:53,360

i've always told people i've never

729

00:25:59,269 --> 00:25:56,320

actually written an article about ufos

730

00:26:00,789 --> 00:25:59,279

other than i did write one in vice news

731

00:26:01,990 --> 00:26:00,799

about stanton friedman's archives

732

00:26:02,310 --> 00:26:02,000

because i thought stanton was a great

733

00:26:03,750 --> 00:26:02,320

guy

734

00:26:05,830 --> 00:26:03,760

i thought it was great that they were

735

00:26:07,830 --> 00:26:05,840

going through the process of archiving

736

00:26:09,430 --> 00:26:07,840

all of his materials but everything else

737

00:26:11,350 --> 00:26:09,440

in my real interest has always been

738

00:26:12,630 --> 00:26:11,360

national security and defense

739

00:26:13,909 --> 00:26:12,640

now i've written plenty of stories that

740

00:26:14,789 --> 00:26:13,919

happen to be national security and

741

00:26:18,070 --> 00:26:14,799

defense stories

742

00:26:19,350 --> 00:26:18,080

that happen to involve ufos and uh

743

00:26:21,430 --> 00:26:19,360

but that's kind of where my bread and

744

00:26:23,909 --> 00:26:21,440

butter is in

745

00:26:25,430 --> 00:26:23,919

where i'm most comfortable is in the

746

00:26:26,710 --> 00:26:25,440

kind of military and intelligence

747

00:26:29,750 --> 00:26:26,720

community

748

00:26:31,510 --> 00:26:29,760

um and so that article went viral

749

00:26:33,590 --> 00:26:31,520

i mean excuse me that photo and that

750

00:26:34,310 --> 00:26:33,600

assessment went viral amongst the intel

751
00:26:38,950 --> 00:26:34,320
community

752
00:26:40,950 --> 00:26:38,960
um which is really really incredible

753
00:26:42,789 --> 00:26:40,960
and that was everybody said that that it

754
00:26:45,909 --> 00:26:42,799
was incredible that they would have been

755
00:26:49,350 --> 00:26:45,919
disseminated like that and um

756
00:26:50,950 --> 00:26:49,360
they were stunned um because you know

757
00:26:52,470 --> 00:26:50,960
when you send something like that out as

758
00:26:52,950 --> 00:26:52,480
well this is going out to analysts

759
00:26:54,390 --> 00:26:52,960
across

760
00:26:56,310 --> 00:26:54,400
all sorts of different agencies it

761
00:26:57,669 --> 00:26:56,320
doesn't mean that they're necessarily

762
00:26:59,190 --> 00:26:57,679
part of the task force so that they're

763
00:27:00,950 --> 00:26:59,200

even going to do anything in the task

764

00:27:03,269 --> 00:27:00,960

force you just put it out

765

00:27:05,269 --> 00:27:03,279

so that analysts working in different

766

00:27:07,029 --> 00:27:05,279

intel areas

767

00:27:08,390 --> 00:27:07,039

are aware of different issues that are

768

00:27:10,710 --> 00:27:08,400

being looked at so in case

769

00:27:12,470 --> 00:27:10,720

you come across something you know maybe

770

00:27:13,110 --> 00:27:12,480

you're you're working counterterrorism

771

00:27:15,029 --> 00:27:13,120

and

772

00:27:16,310 --> 00:27:15,039

you happen to pick up some signals

773

00:27:17,750 --> 00:27:16,320

chatter about somebody talking about

774

00:27:20,870 --> 00:27:17,760

seeing a ufo

775

00:27:22,549 --> 00:27:20,880

you know in afghanistan you you where

776

00:27:24,389 --> 00:27:22,559

you might just discount that now you

777

00:27:26,149 --> 00:27:24,399

flag it and pass it along

778

00:27:27,590 --> 00:27:26,159

um that's the reason these assessments

779

00:27:30,310 --> 00:27:27,600

go out like this

780

00:27:31,190 --> 00:27:30,320

um but they were all i mean there was uh

781

00:27:33,350 --> 00:27:31,200

you know there's

782

00:27:34,630 --> 00:27:33,360

there's neighborhoods in especially

783

00:27:37,830 --> 00:27:34,640

around like santilli

784

00:27:39,190 --> 00:27:37,840

virginia area and maryland area where uh

785

00:27:40,310 --> 00:27:39,200

you know everybody in the neighborhood

786

00:27:42,310 --> 00:27:40,320

all your neighbors work

787

00:27:43,590 --> 00:27:42,320

somewhere nobody really works where they

788

00:27:44,789 --> 00:27:43,600

say they work or

789

00:27:47,510 --> 00:27:44,799

you know nobody talks about what they

790

00:27:49,510 --> 00:27:47,520

really do um but they're all

791

00:27:51,750 --> 00:27:49,520

you know somebody's either working for

792

00:27:53,269 --> 00:27:51,760

an intelligence or military contractors

793

00:27:56,310 --> 00:27:53,279

or working directly for the government

794

00:27:57,269 --> 00:27:56,320

and i had friends saying that uh and all

795

00:27:58,549 --> 00:27:57,279

of my neighbors

796

00:28:00,230 --> 00:27:58,559

are talking about it so it's really

797

00:28:02,230 --> 00:28:00,240

funny because it's one of these things

798

00:28:05,750 --> 00:28:02,240

you're talking about a community

799

00:28:07,269 --> 00:28:05,760

a very internal community so this is not

800

00:28:09,269 --> 00:28:07,279

where normally the public might hit

801
00:28:10,710 --> 00:28:09,279
facebook or twitter and start

802
00:28:13,029 --> 00:28:10,720
hey guess what i just saw it work they

803
00:28:14,389 --> 00:28:13,039
can't do that but the same level of kind

804
00:28:17,510 --> 00:28:14,399
of viral

805
00:28:18,630 --> 00:28:17,520
um news sharing went out amongst the

806
00:28:21,990 --> 00:28:18,640
intelligence community

807
00:28:22,870 --> 00:28:22,000
and still has frankly and so how do you

808
00:28:25,669 --> 00:28:22,880
hear about

809
00:28:26,149 --> 00:28:25,679
something like that well i mean it's not

810
00:28:28,710 --> 00:28:26,159
it's not

811
00:28:29,669 --> 00:28:28,720
top is it top secret i mean is it seek

812
00:28:32,630 --> 00:28:29,679
is it supposed to

813
00:28:33,190 --> 00:28:32,640

not be shared it's classified they're on

814

00:28:35,269 --> 00:28:33,200
classification

815

00:28:36,549 --> 00:28:35,279
it's classified and well yeah they're

816

00:28:38,470 --> 00:28:36,559
unclassified systems

817

00:28:40,549 --> 00:28:38,480
and uh everybody was pretty cautious

818

00:28:44,230 --> 00:28:40,559
nobody nobody shared anything with me

819

00:28:46,310 --> 00:28:44,240
that was um inherently classified

820

00:28:47,830 --> 00:28:46,320
uh what happens is these systems

821

00:28:49,590 --> 00:28:47,840
themselves are classified

822

00:28:51,909 --> 00:28:49,600
and in fact intelligence reports if you

823

00:28:55,590 --> 00:28:51,919
ever see them they have a little

824

00:28:56,950 --> 00:28:55,600
marker in each of the um each paragraph

825

00:28:59,110 --> 00:28:56,960
where it'll say u

826

00:29:01,269 --> 00:28:59,120

s or ts which lets you know so you can

827

00:29:03,110 --> 00:29:01,279

have a you have a classified memo that

828

00:29:05,269 --> 00:29:03,120

has unclassified

829

00:29:06,310 --> 00:29:05,279

paragraphs or top secret paragraphs that

830

00:29:10,549 --> 00:29:06,320

type of thing

831

00:29:13,750 --> 00:29:10,559

uh the y distribution of this it was not

832

00:29:15,909 --> 00:29:13,760

it was not top secret yeah so uh

833

00:29:19,110 --> 00:29:15,919

you know i found out about it ironically

834

00:29:22,710 --> 00:29:19,120

enough because um

835

00:29:27,750 --> 00:29:25,909

i kind of grew up you know my uncle

836

00:29:30,710 --> 00:29:27,760

worked for the joint chiefs of staff

837

00:29:31,110 --> 00:29:30,720

and uh yeah have a lot of family members

838

00:29:33,510 --> 00:29:31,120

who are

839

00:29:34,549 --> 00:29:33,520

in kind of the intel or military

840

00:29:36,070 --> 00:29:34,559

community

841

00:29:38,070 --> 00:29:36,080

so i kind of grew up in that world to be

842

00:29:38,549 --> 00:29:38,080

honest with you and still had you know

843

00:29:41,669 --> 00:29:38,559

through

844

00:29:42,870 --> 00:29:41,679

just law enforcement and we doing uh we

845

00:29:43,750 --> 00:29:42,880

did a lot i did a lot with the federal

846

00:29:44,630 --> 00:29:43,760

government and everything so i have a

847

00:29:47,350 --> 00:29:44,640

lot of friends

848

00:29:48,870 --> 00:29:47,360

out there let me put it that way and um

849

00:29:51,190 --> 00:29:48,880

when this stuff first started coming out

850

00:29:52,710 --> 00:29:51,200

people called me

851

00:29:54,710 --> 00:29:52,720

because they know they knew i had

852

00:29:56,950 --> 00:29:54,720

reported in popular mechanics and vice

853

00:29:59,110 --> 00:29:56,960

on this subject for the past year or so

854

00:30:01,029 --> 00:29:59,120

and it was very interesting because uh

855

00:30:03,830 --> 00:30:01,039

especially with the first memo

856

00:30:06,070 --> 00:30:03,840

it explicitly said it gave the prosaic

857

00:30:06,950 --> 00:30:06,080

list of things that potentially uap

858

00:30:09,909 --> 00:30:06,960

could examine

859

00:30:11,350 --> 00:30:09,919

or could represent uh you know

860

00:30:11,990 --> 00:30:11,360

everything that you can think of that we

861

00:30:15,029 --> 00:30:12,000

all

862

00:30:17,070 --> 00:30:15,039

would but it also explicitly said that

863

00:30:19,750 --> 00:30:17,080

the idea that these are

864

00:30:20,549 --> 00:30:19,760

extraterrestrial or non-human is being

865

00:30:22,549 --> 00:30:20,559

explored

866

00:30:24,310 --> 00:30:22,559

and that really freaked some people out

867

00:30:26,789 --> 00:30:24,320

wow absolutely

868

00:30:27,750 --> 00:30:26,799

yeah and so i got calls from people

869

00:30:29,430 --> 00:30:27,760

asking me

870

00:30:30,870 --> 00:30:29,440

so paul's from people i've known for a

871

00:30:31,909 --> 00:30:30,880

long time that work in these

872

00:30:34,230 --> 00:30:31,919

communities where they're not supposed

873

00:30:38,950 --> 00:30:34,240

to talk asking me hey

874

00:30:45,590 --> 00:30:42,389

and um yeah no no

875

00:30:49,029 --> 00:30:45,600

that's a 100 truth too and i said well

876

00:30:51,190 --> 00:30:49,039

it's news to me and so um there were

877

00:30:52,070 --> 00:30:51,200

definitely a lot of people that talked

878

00:30:55,510 --> 00:30:52,080

uh

879

00:30:58,110 --> 00:30:55,520

outside of church you might say however

880

00:30:59,669 --> 00:30:58,120

um i think everybody did so really

881

00:31:02,710 --> 00:30:59,679

responsibly

882

00:31:04,310 --> 00:31:02,720

but it was truly um

883

00:31:05,590 --> 00:31:04,320

based on the same kind of fascination i

884

00:31:06,950 --> 00:31:05,600

think captivates so many people to

885

00:31:09,269 --> 00:31:06,960

follow the ufo subject

886

00:31:11,350 --> 00:31:09,279

at all period is that you have a lot of

887

00:31:13,590 --> 00:31:11,360

people and that's the thing is that

888

00:31:14,870 --> 00:31:13,600

um there's some misnomers about the

889

00:31:16,549 --> 00:31:14,880

intelligence community

890

00:31:18,310 --> 00:31:16,559

you think it's james bond or you think

891

00:31:24,549 --> 00:31:18,320

it's jason bourne

892

00:31:28,870 --> 00:31:27,430

for the most part and uh and so these

893

00:31:30,070 --> 00:31:28,880

were people that this is you know

894

00:31:31,990 --> 00:31:30,080

a lot of them maybe had never even

895

00:31:33,990 --> 00:31:32,000

considered the subject besides

896

00:31:35,350 --> 00:31:34,000

just sci-fi and just interesting you

897

00:31:38,310 --> 00:31:35,360

know the

898

00:31:40,149 --> 00:31:38,320

movie um but when this stuff comes

899

00:31:42,470 --> 00:31:40,159

across in their professional

900

00:31:44,630 --> 00:31:42,480

life i mean it's kind of like you as a

901
00:31:46,950 --> 00:31:44,640
uh as an antiques appraiser

902
00:31:48,630 --> 00:31:46,960
uh martin if somebody handed you you

903
00:31:50,549 --> 00:31:48,640
know hey i've got this piece of the

904
00:31:51,990 --> 00:31:50,559
roswell wreckage can you assess it and

905
00:31:55,350 --> 00:31:52,000
you're like

906
00:31:56,310 --> 00:31:55,360
oh what this is real like you know like

907
00:31:57,269 --> 00:31:56,320
this realization

908
00:31:59,350 --> 00:31:57,279
something that you wouldn't have

909
00:32:00,070 --> 00:31:59,360
expected in in that facet of your life

910
00:32:03,509 --> 00:32:00,080
and so

911
00:32:07,669 --> 00:32:03,519
a lot of people were compelled by it um

912
00:32:08,870 --> 00:32:07,679
and then and i it just leaned a lot on

913
00:32:12,149 --> 00:32:08,880

my

914

00:32:12,789 --> 00:32:12,159

career in law enforcement investigations

915

00:32:15,430 --> 00:32:12,799

and just

916

00:32:17,350 --> 00:32:15,440

relationships that i'd had through both

917

00:32:18,789 --> 00:32:17,360

professional and personal connections

918

00:32:21,269 --> 00:32:18,799

over the years long before i

919

00:32:22,470 --> 00:32:21,279

started interviewing or discussing

920

00:32:25,110 --> 00:32:22,480

anything with ufos to

921

00:32:26,070 --> 00:32:25,120

just that's been my focus the past two

922

00:32:27,990 --> 00:32:26,080

years is digging in

923

00:32:29,430 --> 00:32:28,000

like what is the government know or

924

00:32:31,269 --> 00:32:29,440

what's going on right now

925

00:32:33,750 --> 00:32:31,279

and so i've been very fortunate to kind

926
00:32:37,269 --> 00:32:33,760
of gain some some good relationships

927
00:32:38,789 --> 00:32:37,279
um inside those

928
00:32:41,269 --> 00:32:38,799
those areas that are examining them

929
00:32:43,909 --> 00:32:41,279
right now so that's really awesome

930
00:32:44,310 --> 00:32:43,919
that's a that's a great contact uh by

931
00:32:46,870 --> 00:32:44,320
the way

932
00:32:48,310 --> 00:32:46,880
i did get uh i was in a house in

933
00:32:50,549 --> 00:32:48,320
massachusetts that had

934
00:32:51,509 --> 00:32:50,559
a piece of the plane that orville and

935
00:32:54,630 --> 00:32:51,519
wilbur

936
00:32:56,389 --> 00:32:54,640
wright flew called the wright flyer the

937
00:32:59,509 --> 00:32:56,399
first original plane that actually

938
00:33:00,789 --> 00:32:59,519

flew it was a piece and encased in

939

00:33:03,750 --> 00:33:00,799

plastic in their living room and they

940

00:33:05,029 --> 00:33:03,760

said can you appraise that

941

00:33:08,630 --> 00:33:05,039

so i had to try to figure out what the

942

00:33:12,549 --> 00:33:10,950

that's a tough one um so i told the

943

00:33:15,669 --> 00:33:12,559

people in chat that they could

944

00:33:17,190 --> 00:33:15,679

post questions in caps so please do

945

00:33:18,950 --> 00:33:17,200

and we have a number of them that came

946

00:33:21,269 --> 00:33:18,960

in so this one first

947

00:33:22,070 --> 00:33:21,279

do you think the real photo of this will

948

00:33:23,990 --> 00:33:22,080

get released

949

00:33:25,750 --> 00:33:24,000

i think that's the question i had too

950

00:33:27,430 --> 00:33:25,760

sure yeah yeah i think it's a question

951
00:33:28,070 --> 00:33:27,440
on everybody's mind and anybody to ask

952
00:33:29,590 --> 00:33:28,080
me and

953
00:33:31,190 --> 00:33:29,600
that's the tough spot that i'm in is

954
00:33:33,750 --> 00:33:31,200
that just like he said

955
00:33:37,509 --> 00:33:33,760
uh everything i reported on there you

956
00:33:39,509 --> 00:33:37,519
know i'm 100 confident everything we did

957
00:33:41,190 --> 00:33:39,519
i don't want to get into the incredible

958
00:33:42,710 --> 00:33:41,200
amount of detail that we did to validate

959
00:33:44,389 --> 00:33:42,720
sources and just make sure that we were

960
00:33:46,070 --> 00:33:44,399
sharing accurate information however

961
00:33:47,509 --> 00:33:46,080
none of it was official you know this

962
00:33:48,710 --> 00:33:47,519
was not an official release by the

963
00:33:51,430 --> 00:33:48,720

department of defense this is

964

00:33:52,630 --> 00:33:51,440

uh this is this is watergate this was

965

00:33:55,029 --> 00:33:52,640

you know us going out

966

00:33:56,230 --> 00:33:55,039

like uh woodward and bernstein tracking

967

00:34:00,630 --> 00:33:56,240

people down

968

00:34:02,549 --> 00:34:00,640

um and so unfortunately i don't you know

969

00:34:05,110 --> 00:34:02,559

the only photo that we had that we could

970

00:34:06,630 --> 00:34:05,120

have released we did so immediately as

971

00:34:08,069 --> 00:34:06,640

soon as we can release it and so

972

00:34:09,750 --> 00:34:08,079

there isn't any photo that we have that

973

00:34:13,030 --> 00:34:09,760

we can release um

974

00:34:15,270 --> 00:34:13,040

i certainly hope that um

975

00:34:16,710 --> 00:34:15,280

it will get released i certainly hope

976

00:34:18,470 --> 00:34:16,720

that you know i'd be lying if i didn't

977

00:34:19,349 --> 00:34:18,480

say part of my goal and when i reported

978

00:34:22,389 --> 00:34:19,359

on it

979

00:34:24,310 --> 00:34:22,399

um was to try to force that issue

980

00:34:25,589 --> 00:34:24,320

a little bit you know once it gets out

981

00:34:28,230 --> 00:34:25,599

there um

982

00:34:29,190 --> 00:34:28,240

more people can put pressure on it and

983

00:34:31,270 --> 00:34:29,200

uh yeah

984

00:34:32,790 --> 00:34:31,280

and they may they may do that and let me

985

00:34:36,310 --> 00:34:32,800

ask you this what

986

00:34:37,030 --> 00:34:36,320

if you had to speculate why um this

987

00:34:40,470 --> 00:34:37,040

would

988

00:34:42,230 --> 00:34:40,480

uh remain classified and not released

989

00:34:43,589 --> 00:34:42,240

if that's what it is if this photo is

990

00:34:45,109 --> 00:34:43,599

actually classified

991

00:34:47,270 --> 00:34:45,119

um do you think that's for security

992

00:34:50,470 --> 00:34:47,280

purposes why that i mean

993

00:34:51,990 --> 00:34:50,480

do you think that's why the case but not

994

00:34:53,589 --> 00:34:52,000

yes but not for the reasons that i think

995

00:34:55,990 --> 00:34:53,599

a lot of people realize and

996

00:34:57,190 --> 00:34:56,000

uh it's simply because if you're talking

997

00:34:59,910 --> 00:34:57,200

about i think there's a

998

00:35:00,790 --> 00:34:59,920

you know just a wealth of literature um

999

00:35:03,030 --> 00:35:00,800

that's already

1000

00:35:04,710 --> 00:35:03,040

in existence or eyewitness testimony you

1001
00:35:07,910 --> 00:35:04,720
name it where you have

1002
00:35:11,270 --> 00:35:07,920
um people that have seen these objects

1003
00:35:13,990 --> 00:35:11,280
uh ufos that are able to enter different

1004
00:35:16,310 --> 00:35:14,000
airspace including some that are just

1005
00:35:17,430 --> 00:35:16,320
uber restricted like our nuclear weapons

1006
00:35:21,109 --> 00:35:17,440
facilities

1007
00:35:22,470 --> 00:35:21,119
um with impunity i mean nobody

1008
00:35:24,150 --> 00:35:22,480
can stop them nobody can do anything

1009
00:35:26,630 --> 00:35:24,160
with it we don't even have

1010
00:35:27,990 --> 00:35:26,640
op sex to respond to this type of stuff

1011
00:35:29,510 --> 00:35:28,000
and so what you're talking about there's

1012
00:35:31,510 --> 00:35:29,520
you're talking about an unmitigated

1013
00:35:34,870 --> 00:35:31,520

vulnerability to national defense

1014

00:35:37,910 --> 00:35:34,880

and um it's it's a situation where

1015

00:35:39,670 --> 00:35:37,920

in the national defense world you have

1016

00:35:41,510 --> 00:35:39,680

no actionable intelligence is what it

1017

00:35:43,910 --> 00:35:41,520

means you don't know how to stop it

1018

00:35:45,750 --> 00:35:43,920

and therefore anything that is an

1019

00:35:46,069 --> 00:35:45,760

unmitigated risk to national security

1020

00:35:49,190 --> 00:35:46,079

you

1021

00:35:52,550 --> 00:35:49,200

don't talk about it period because

1022

00:35:54,790 --> 00:35:52,560

it uh not just because you know not that

1023

00:35:56,630 --> 00:35:54,800

that means that ufos could attack us

1024

00:35:58,150 --> 00:35:56,640

but rather you don't talk about your own

1025

00:35:59,750 --> 00:35:58,160

vulnerabilities because they could be

1026

00:36:02,710 --> 00:35:59,760

exploited by

1027

00:36:03,910 --> 00:36:02,720

you know terrestrial adversaries and so

1028

00:36:06,870 --> 00:36:03,920

i think that that's

1029

00:36:07,750 --> 00:36:06,880

one of the reasons that you see a lot of

1030

00:36:09,030 --> 00:36:07,760

the secrecy

1031

00:36:11,349 --> 00:36:09,040

to some degree especially when you talk

1032

00:36:12,870 --> 00:36:11,359

about stuff like this

1033

00:36:14,550 --> 00:36:12,880

because it was my understanding and

1034

00:36:15,030 --> 00:36:14,560

that's the thing is that no one shared

1035

00:36:16,150 --> 00:36:15,040

any

1036

00:36:18,150 --> 00:36:16,160

everything that was shared with me

1037

00:36:21,589 --> 00:36:18,160

whether it was by photo itself

1038

00:36:23,750 --> 00:36:21,599

or um in description was

1039

00:36:25,030 --> 00:36:23,760

uh materials in fact that that photo

1040

00:36:26,870 --> 00:36:25,040

there

1041

00:36:29,750 --> 00:36:26,880

is what's called a you know for official

1042

00:36:32,470 --> 00:36:29,760

use only so it's not even classified but

1043

00:36:35,510 --> 00:36:32,480

you can't classify something

1044

00:36:38,870 --> 00:36:35,520

it wasn't taken with a government system

1045

00:36:41,430 --> 00:36:38,880

so you can't protect sources or methods

1046

00:36:42,150 --> 00:36:41,440

but i think right now and i was able to

1047

00:36:44,710 --> 00:36:42,160

find out the

1048

00:36:45,829 --> 00:36:44,720

the uap task force has been given uh

1049

00:36:48,550 --> 00:36:45,839

what's called oca

1050

00:36:49,910 --> 00:36:48,560

original classic original classification

1051
00:36:51,750 --> 00:36:49,920
authority which means now they can

1052
00:36:54,230 --> 00:36:51,760
classify anything they want to

1053
00:36:55,829 --> 00:36:54,240
whether the people who filmed it or took

1054
00:36:57,109 --> 00:36:55,839
it classified it was irrelevant

1055
00:36:59,510 --> 00:36:57,119
they have the authority to classify it

1056
00:37:00,870 --> 00:36:59,520
themselves and um

1057
00:37:03,430 --> 00:37:00,880
so i think there's a lot of times that

1058
00:37:06,630 --> 00:37:03,440
they're kind of

1059
00:37:09,109 --> 00:37:06,640
making you know liberal use

1060
00:37:09,910 --> 00:37:09,119
of uh some of the requirements that are

1061
00:37:11,349 --> 00:37:09,920
in a set

1062
00:37:13,030 --> 00:37:11,359
that you have to have to classify

1063
00:37:15,990 --> 00:37:13,040

anything you can't just willy-nilly

1064

00:37:17,829 --> 00:37:16,000

classify whatever you want but uh there

1065

00:37:20,630 --> 00:37:17,839

is a kind of a there is a standard

1066

00:37:21,510 --> 00:37:20,640

under the executive order 13 256 that

1067

00:37:23,430 --> 00:37:21,520

says

1068

00:37:25,510 --> 00:37:23,440

uh you can classify intelligence

1069

00:37:30,310 --> 00:37:25,520

activities or foreign

1070

00:37:32,870 --> 00:37:30,320

uh hardware and so even if it's

1071

00:37:34,230 --> 00:37:32,880

we're going to define foreign as not

1072

00:37:36,230 --> 00:37:34,240

ours

1073

00:37:37,829 --> 00:37:36,240

so to be a broad definition you could

1074

00:37:40,550 --> 00:37:37,839

classify it um

1075

00:37:40,870 --> 00:37:40,560

but i think i share this sentiment that

1076

00:37:42,390 --> 00:37:40,880

uh

1077

00:37:44,069 --> 00:37:42,400

probably the the person who has that

1078

00:37:44,950 --> 00:37:44,079

question has probably you have and a lot

1079

00:37:49,109 --> 00:37:44,960

of people which

1080

00:37:51,270 --> 00:37:49,119

is there needs to be a middle ground

1081

00:37:52,310 --> 00:37:51,280

here like where can we reach a middle

1082

00:37:54,230 --> 00:37:52,320

ground where i don't

1083

00:37:55,750 --> 00:37:54,240

i respect the fact that you can't share

1084

00:37:58,550 --> 00:37:55,760

certain things because they

1085

00:37:59,109 --> 00:37:58,560

pose national security risk uh your

1086

00:38:02,470 --> 00:37:59,119

enemies

1087

00:38:03,750 --> 00:38:02,480

exploit them you don't want to give away

1088

00:38:05,349 --> 00:38:03,760

different capabilities that you have

1089

00:38:06,550 --> 00:38:05,359

that kind of thing i get that but i

1090

00:38:08,550 --> 00:38:06,560

think that the

1091

00:38:09,829 --> 00:38:08,560

uh that's always been why i've kind of

1092

00:38:12,069 --> 00:38:09,839

pushed on this area

1093

00:38:13,990 --> 00:38:12,079

uh is i think there has to be a middle

1094

00:38:16,150 --> 00:38:14,000

ground for me it's not always it's

1095

00:38:17,270 --> 00:38:16,160

really not it's been about ufos as much

1096

00:38:20,150 --> 00:38:17,280

as i think that

1097

00:38:21,910 --> 00:38:20,160

uh i do believe the american public has

1098

00:38:24,710 --> 00:38:21,920

a right to be informed

1099

00:38:26,390 --> 00:38:24,720

about the activities of government and

1100

00:38:28,310 --> 00:38:26,400

we know now because it's been announced

1101

00:38:30,230 --> 00:38:28,320

that there's a formal task force there

1102

00:38:32,710 --> 00:38:30,240

and so

1103

00:38:34,470 --> 00:38:32,720

you know in in a democracy government

1104

00:38:35,190 --> 00:38:34,480

functions by the informed consent of the

1105

00:38:38,230 --> 00:38:35,200

public and

1106

00:38:39,270 --> 00:38:38,240

the public can't make any kind of real

1107

00:38:40,470 --> 00:38:39,280

informed consent when they're not

1108

00:38:42,950 --> 00:38:40,480

informed in this issue

1109

00:38:44,870 --> 00:38:42,960

and so i think good or bad you know it

1110

00:38:47,430 --> 00:38:44,880

requires that and so

1111

00:38:50,310 --> 00:38:47,440

it's always been i have joked with both

1112

00:38:52,470 --> 00:38:50,320

pentagon spokespersons both people

1113

00:38:53,750 --> 00:38:52,480

who spoke to me on background people

1114

00:38:55,670 --> 00:38:53,760

that uh

1115

00:38:57,430 --> 00:38:55,680

in this and saying you know this is a

1116

00:39:00,150 --> 00:38:57,440

it's a very weird

1117

00:39:01,589 --> 00:39:00,160

uh system that is how kind of democracy

1118

00:39:03,589 --> 00:39:01,599

works where

1119

00:39:05,510 --> 00:39:03,599

i'm operating under the first amendment

1120

00:39:07,750 --> 00:39:05,520

to try to get info

1121

00:39:09,270 --> 00:39:07,760

you're trying to keep info secret but

1122

00:39:10,150 --> 00:39:09,280

yet we're both trying to uphold the

1123

00:39:12,390 --> 00:39:10,160

constitution

1124

00:39:13,589 --> 00:39:12,400

like we're both part of what makes it

1125

00:39:16,150 --> 00:39:13,599

all work

1126

00:39:16,630 --> 00:39:16,160

um and so i think i mean i i definitely

1127

00:39:19,190 --> 00:39:16,640

hope

1128

00:39:20,230 --> 00:39:19,200

that uh you know i have expressed that

1129

00:39:23,030 --> 00:39:20,240

to people

1130

00:39:23,990 --> 00:39:23,040

uh you know it as high as one could

1131

00:39:25,589 --> 00:39:24,000

imagine

1132

00:39:28,310 --> 00:39:25,599

well not as high as the president how

1133

00:39:29,990 --> 00:39:28,320

about that but but in below that uh i've

1134

00:39:32,470 --> 00:39:30,000

expressed that to people i thought

1135

00:39:33,910 --> 00:39:32,480

yeah i thought the president's was is

1136

00:39:36,390 --> 00:39:33,920

high too

1137

00:39:37,589 --> 00:39:36,400

right yes he's high in something he's

1138

00:39:39,270 --> 00:39:37,599

having something oh i'm gonna get i'm

1139

00:39:41,270 --> 00:39:39,280

gonna get email for that

1140

00:39:43,270 --> 00:39:41,280

yeah you're gonna get me now stay away

1141

00:39:45,109 --> 00:39:43,280

from politics but i understand exactly

1142

00:39:48,950 --> 00:39:45,119

where you're coming from there sir

1143

00:39:52,790 --> 00:39:48,960

uh but i've told people that i think

1144

00:39:55,030 --> 00:39:52,800

that you you know i think that if you

1145

00:39:56,230 --> 00:39:55,040

i've had great conversations with tons

1146

00:39:59,349 --> 00:39:56,240

of people who aren't

1147

00:40:02,550 --> 00:39:59,359

in the ufo community so professionals

1148

00:40:03,109 --> 00:40:02,560

um from all walks of life some of them

1149

00:40:05,910 --> 00:40:03,119

harvard

1150

00:40:07,910 --> 00:40:05,920

john hopkins professors one of them who

1151

00:40:09,990 --> 00:40:07,920

is a very distinguished individual

1152

00:40:11,829 --> 00:40:10,000

who's an epidemiologist has been called

1153

00:40:13,829 --> 00:40:11,839

on to quite frequently because of covid

1154

00:40:15,190 --> 00:40:13,839

that people wouldn't be surprised about

1155

00:40:17,510 --> 00:40:15,200

about this subject and so i think

1156

00:40:19,990 --> 00:40:17,520

there's interest in it it's not silly or

1157

00:40:22,390 --> 00:40:20,000

taboo that people want to hear

1158

00:40:23,990 --> 00:40:22,400

and i think that there's a good middle

1159

00:40:27,109 --> 00:40:24,000

ground there i think the idea of

1160

00:40:29,750 --> 00:40:27,119

examining it in an official level is

1161

00:40:31,270 --> 00:40:29,760

significant um but you've got to get

1162

00:40:32,150 --> 00:40:31,280

this middle ground where we know what's

1163

00:40:35,670 --> 00:40:32,160

going on

1164

00:40:38,710 --> 00:40:35,680

you know best example i give is you i

1165

00:40:39,510 --> 00:40:38,720

i don't need to know how china tried to

1166

00:40:41,430 --> 00:40:39,520

hack into

1167

00:40:43,510 --> 00:40:41,440

a computer i don't need to know how you

1168

00:40:45,349 --> 00:40:43,520

caught them okay these may be all things

1169

00:40:46,710 --> 00:40:45,359

that you need to protect so you can

1170

00:40:48,870 --> 00:40:46,720

catch somebody again

1171

00:40:49,990 --> 00:40:48,880

but i do know enough that that is a

1172

00:40:52,150 --> 00:40:50,000

potential threat so

1173

00:40:53,589 --> 00:40:52,160

when the government says hey we need to

1174

00:40:54,309 --> 00:40:53,599

invest x amount of money in cyber

1175

00:40:56,390 --> 00:40:54,319

security

1176

00:40:58,150 --> 00:40:56,400

as an informed citizen i can go no

1177

00:40:59,910 --> 00:40:58,160

that's a great idea that's a good plan

1178

00:41:02,309 --> 00:40:59,920

because i trust this and this and with

1179

00:41:04,150 --> 00:41:02,319

this topic i think

1180

00:41:07,349 --> 00:41:04,160

it's very unfortunate because i think

1181

00:41:09,750 --> 00:41:07,359

that if there was a little more

1182

00:41:11,670 --> 00:41:09,760

transparency and kind of just openness

1183

00:41:14,710 --> 00:41:11,680

there i think you would see more people

1184

00:41:16,550 --> 00:41:14,720

say hey okay you know i i'm

1185

00:41:18,950 --> 00:41:16,560

i think we need to examine it you know

1186

00:41:21,510 --> 00:41:18,960

and there would be less ridicule

1187

00:41:22,309 --> 00:41:21,520

yeah yeah all great stuff really

1188

00:41:26,550 --> 00:41:22,319

interesting

1189

00:41:28,230 --> 00:41:26,560

um so here's another question here um

1190

00:41:29,910 --> 00:41:28,240

this uh lee thought that pilots could

1191

00:41:32,790 --> 00:41:29,920

not carry mobile phones mil

1192

00:41:33,589 --> 00:41:32,800

uh on military maneuvers is this not the

1193

00:41:36,470 --> 00:41:33,599

case

1194

00:41:36,870 --> 00:41:36,480

and thanks then keep up the good work

1195

00:41:39,030 --> 00:41:36,880

yeah

1196

00:41:40,150 --> 00:41:39,040

well thank you thank you lee yes no i

1197

00:41:42,390 --> 00:41:40,160

i'll be honest with you

1198

00:41:43,990 --> 00:41:42,400

i can't speak with authority on that and

1199

00:41:45,750 --> 00:41:44,000

i haven't really investigated what's the

1200

00:41:49,109 --> 00:41:45,760

policy on that

1201
00:41:49,750 --> 00:41:49,119
uh other than i will say you know i came

1202
00:41:52,630 --> 00:41:49,760
from a very

1203
00:41:54,309 --> 00:41:52,640
a a very a professional very rigid and

1204
00:41:56,150 --> 00:41:54,319
there's policies for everything and just

1205
00:41:57,270 --> 00:41:56,160
like the dod so you have policies for

1206
00:41:59,109 --> 00:41:57,280
policies

1207
00:42:00,710 --> 00:41:59,119
um and one of the things they teach you

1208
00:42:01,829 --> 00:42:00,720
in command college when you i mean

1209
00:42:03,670 --> 00:42:01,839
because i was a lieutenant before i

1210
00:42:06,069 --> 00:42:03,680
retired so you go to command college and

1211
00:42:07,589 --> 00:42:06,079
it's funny because there's all these uh

1212
00:42:09,829 --> 00:42:07,599
there's all these rules and policies and

1213
00:42:12,390 --> 00:42:09,839

the first thing they teach you is that

1214

00:42:14,870 --> 00:42:12,400

there's always an informal policy that

1215

00:42:17,670 --> 00:42:14,880

supersedes your policy which means

1216

00:42:19,030 --> 00:42:17,680

how things really operate and how they

1217

00:42:21,910 --> 00:42:19,040

have to function

1218

00:42:23,109 --> 00:42:21,920

correctly because if you were so rigid

1219

00:42:24,550 --> 00:42:23,119

in that

1220

00:42:26,550 --> 00:42:24,560

and they teach you as a commander don't

1221

00:42:27,670 --> 00:42:26,560

you know if there's a no cell phone in

1222

00:42:29,829 --> 00:42:27,680

the cockpit rule

1223

00:42:31,349 --> 00:42:29,839

but listen guys stick it in their pocket

1224

00:42:33,030 --> 00:42:31,359

or whatever like are you gonna pat down

1225

00:42:34,390 --> 00:42:33,040

your pilots every flight is that what's

1226

00:42:36,630 --> 00:42:34,400

really important

1227

00:42:38,230 --> 00:42:36,640

and so i don't have the actual answer

1228

00:42:39,990 --> 00:42:38,240

other than it doesn't shock me that you

1229

00:42:41,190 --> 00:42:40,000

would have pilots that bring cell phones

1230

00:42:43,910 --> 00:42:41,200

or different things

1231

00:42:45,589 --> 00:42:43,920

uh there's plenty of instances where you

1232

00:42:46,470 --> 00:42:45,599

can go to instagram or youtube where you

1233

00:42:49,829 --> 00:42:46,480

see pilots that

1234

00:42:52,870 --> 00:42:49,839

bring uh um gopro cameras

1235

00:42:54,150 --> 00:42:52,880

and um you know that

1236

00:42:56,069 --> 00:42:54,160

i don't to me there's what is the

1237

00:42:58,470 --> 00:42:56,079

distinction between a gopro and

1238

00:42:59,430 --> 00:42:58,480

a uh a cell phone unless we're all

1239

00:43:00,630 --> 00:42:59,440

thinking

1240

00:43:01,910 --> 00:43:00,640

wait a minute you know when i fly

1241

00:43:03,750 --> 00:43:01,920

commercially they always tell me turn

1242

00:43:05,190 --> 00:43:03,760

off my phone or you know

1243

00:43:07,190 --> 00:43:05,200

i'm gonna crash this multi-million

1244

00:43:07,670 --> 00:43:07,200

dollar commercial jet if my phone's not

1245

00:43:10,870 --> 00:43:07,680

on

1246

00:43:16,069 --> 00:43:10,880

airplane mode um the

1247

00:43:20,230 --> 00:43:18,950

it all had to do with money and whatever

1248

00:43:23,430 --> 00:43:20,240

making money on

1249

00:43:24,550 --> 00:43:23,440

on the cell phone services right yes and

1250

00:43:25,990 --> 00:43:24,560

so and so i

1251
00:43:27,990 --> 00:43:26,000
the answer that you know is a long way

1252
00:43:29,750 --> 00:43:28,000
of saying i don't know the ideal policy

1253
00:43:31,750 --> 00:43:29,760
but the idea that pilots bring their

1254
00:43:33,510 --> 00:43:31,760
cell phones or gopros or anything of

1255
00:43:35,670 --> 00:43:33,520
that like in cockpits

1256
00:43:37,510 --> 00:43:35,680
it absolutely does happen it doesn't

1257
00:43:40,870 --> 00:43:37,520
surprise me or shocked me

1258
00:43:43,829 --> 00:43:40,880
and um i certainly could see that yeah

1259
00:43:45,910 --> 00:43:43,839
um has tim had have you had an eye on

1260
00:43:47,670 --> 00:43:45,920
either of these two report memos

1261
00:43:49,670 --> 00:43:47,680
floating around do you know what this

1262
00:43:52,069 --> 00:43:49,680
particular question means

1263
00:43:52,710 --> 00:43:52,079

yes i mean so i guess you're asking me

1264

00:43:55,829 --> 00:43:52,720

did i

1265

00:43:59,750 --> 00:43:55,839

actually physically see any of the

1266

00:44:03,349 --> 00:43:59,760

intelligence assessment reports um

1267

00:44:05,510 --> 00:44:03,359

the other thing i'll say is that um

1268

00:44:06,710 --> 00:44:05,520

everything we reported on is 100

1269

00:44:09,430 --> 00:44:06,720

accurate

1270

00:44:10,710 --> 00:44:09,440

uh i have no concerns qualms about that

1271

00:44:11,910 --> 00:44:10,720

you know that eventually whether it's

1272

00:44:14,230 --> 00:44:11,920

through freedom of information

1273

00:44:15,990 --> 00:44:14,240

quest you know if even if it's

1274

00:44:17,270 --> 00:44:16,000

classified it takes 25 years for

1275

00:44:19,910 --> 00:44:17,280

classification review

1276

00:44:22,150 --> 00:44:19,920

no doubts that that will come out um

1277

00:44:22,950 --> 00:44:22,160

beyond what we reported on there and in

1278

00:44:24,470 --> 00:44:22,960

terms of like

1279

00:44:26,550 --> 00:44:24,480

what did you see or what do you have and

1280

00:44:29,829 --> 00:44:26,560

all of that

1281

00:44:31,190 --> 00:44:29,839

because just like we said

1282

00:44:33,030 --> 00:44:31,200

we are talking about stuff that could

1283

00:44:36,069 --> 00:44:33,040

get people's careers in trouble

1284

00:44:38,390 --> 00:44:36,079

and uh it was frankly a crime

1285

00:44:39,910 --> 00:44:38,400

um you know reality winner a couple

1286

00:44:42,790 --> 00:44:39,920

years ago when she leaked

1287

00:44:43,910 --> 00:44:42,800

uh the actual memos and the intercept

1288

00:44:46,150 --> 00:44:43,920

printed those memos

1289

00:44:47,829 --> 00:44:46,160

you know with an hour of her uh then

1290

00:44:48,470 --> 00:44:47,839

printing those memos reality winner was

1291

00:44:51,270 --> 00:44:48,480

arrested

1292

00:44:53,349 --> 00:44:51,280

and uh i just saw friday she lost her

1293

00:44:56,630 --> 00:44:53,359

appeal and she's got six years in prison

1294

00:45:00,230 --> 00:44:56,640

five years in prison and so um

1295

00:45:01,430 --> 00:45:00,240

i know i have to also be very cautious

1296

00:45:03,510 --> 00:45:01,440

because whenever

1297

00:45:05,589 --> 00:45:03,520

people don't realize this but but you

1298

00:45:08,069 --> 00:45:05,599

know in a journalistic capacity

1299

00:45:10,069 --> 00:45:08,079

uh when you agree to deal with sources

1300

00:45:12,309 --> 00:45:10,079

under condition of anonymity

1301

00:45:13,190 --> 00:45:12,319

um first thing you have to do is say

1302

00:45:15,270 --> 00:45:13,200

well why

1303

00:45:17,270 --> 00:45:15,280

we have to have a valid reason and in

1304

00:45:17,990 --> 00:45:17,280

the all of these instances we understood

1305

00:45:20,470 --> 00:45:18,000

the valid reason

1306

00:45:21,750 --> 00:45:20,480

of why but then once we agree with that

1307

00:45:23,109 --> 00:45:21,760

we are legally bound

1308

00:45:24,790 --> 00:45:23,119

you know there's a supreme court case

1309

00:45:27,430 --> 00:45:24,800

ruling that says we can't

1310

00:45:28,950 --> 00:45:27,440

uh you know we have to protect the

1311

00:45:30,309 --> 00:45:28,960

identity of those sources and if those

1312

00:45:32,550 --> 00:45:30,319

identities sources

1313

00:45:34,550 --> 00:45:32,560

got out we would be held liable and so

1314

00:45:37,750 --> 00:45:34,560

it's it's really tricky

1315

00:45:39,750 --> 00:45:37,760

issue there um and and i

1316

00:45:40,870 --> 00:45:39,760

just so everybody knows i absolutely

1317

00:45:43,670 --> 00:45:40,880

detest being

1318

00:45:45,030 --> 00:45:43,680

cagey or evasive on anything i try to be

1319

00:45:47,349 --> 00:45:45,040

as

1320

00:45:49,109 --> 00:45:47,359

open and forth right on anything and

1321

00:45:51,750 --> 00:45:49,119

everything as i possibly can

1322

00:45:53,349 --> 00:45:51,760

um but with that one i'll just say that

1323

00:45:56,150 --> 00:45:53,359

i'm confident in everything that we

1324

00:45:57,990 --> 00:45:56,160

reported on

1325

00:46:00,470 --> 00:45:58,000

um you know it's funny when you

1326

00:46:02,069 --> 00:46:00,480

mentioned at the top of the show

1327

00:46:03,990 --> 00:46:02,079

that uh one of the things that bothered

1328

00:46:05,030 --> 00:46:04,000

you were the titles that uh the

1329

00:46:07,190 --> 00:46:05,040

headlines

1330

00:46:09,190 --> 00:46:07,200

that uh you'd write a great story in the

1331

00:46:12,550 --> 00:46:09,200

headline would be bizarre leslie

1332

00:46:13,430 --> 00:46:12,560

leslie kane uh i talked to her right

1333

00:46:17,190 --> 00:46:13,440

after the

1334

00:46:18,630 --> 00:46:17,200

the december 16 2017 article came out in

1335

00:46:20,390 --> 00:46:18,640

the new york times

1336

00:46:21,670 --> 00:46:20,400

and i said what's up with the title and

1337

00:46:22,790 --> 00:46:21,680

she says oh my god

1338

00:46:24,550 --> 00:46:22,800

she said that's the one thing they

1339

00:46:25,030 --> 00:46:24,560

picked their own titles it didn't you

1340

00:46:26,069 --> 00:46:25,040

know

1341

00:46:27,670 --> 00:46:26,079

i think it was blessed something like

1342

00:46:29,030 --> 00:46:27,680

black auroras or i can't remember

1343

00:46:32,470 --> 00:46:29,040

exactly what it was

1344

00:46:33,990 --> 00:46:32,480

but but she said that and she said also

1345

00:46:35,109 --> 00:46:34,000

on another article she said it really

1346

00:46:38,950 --> 00:46:35,119

frustrated her so

1347

00:46:40,829 --> 00:46:38,960

you're not alone in that uh no

1348

00:46:43,990 --> 00:46:40,839

i know leslie and ralph i've spoken to

1349

00:46:45,990 --> 00:46:44,000

them several times recently

1350

00:46:47,829 --> 00:46:46,000

actually interviewed ralph i'm trying to

1351
00:46:48,710 --> 00:46:47,839
get him back on again he's he's a great

1352
00:46:50,790 --> 00:46:48,720
guy

1353
00:46:52,630 --> 00:46:50,800
no no no both of them are and they so

1354
00:46:53,910 --> 00:46:52,640
they feel the pain i mean that's just

1355
00:46:55,589 --> 00:46:53,920
the nature of the beast when you work

1356
00:46:57,109 --> 00:46:55,599
for an outlet or another publication is

1357
00:46:59,190 --> 00:46:57,119
the editors choose to has i used to get

1358
00:47:00,630 --> 00:46:59,200
that all the time

1359
00:47:02,069 --> 00:47:00,640
you know i remember actually going back

1360
00:47:03,030 --> 00:47:02,079
to the stanton friedman article that i

1361
00:47:05,990 --> 00:47:03,040
did the in the

1362
00:47:07,109 --> 00:47:06,000
the the editor chose the headline it was

1363
00:47:10,150 --> 00:47:07,119

you know something like

1364

00:47:12,390 --> 00:47:10,160

uh you know there in the process of

1365

00:47:14,870 --> 00:47:12,400

archiving that the largest ufo

1366

00:47:16,470 --> 00:47:14,880

archive ever you know that was the thing

1367

00:47:18,230 --> 00:47:16,480

and so i got people like

1368

00:47:19,589 --> 00:47:18,240

who says it's the largest you know

1369

00:47:21,270 --> 00:47:19,599

people were mad because they felt like

1370

00:47:23,349 --> 00:47:21,280

they had a larger one and i'm like

1371

00:47:25,270 --> 00:47:23,359

you should have had the words saucer in

1372

00:47:27,270 --> 00:47:25,280

it because sam loved to use that

1373

00:47:28,549 --> 00:47:27,280

right you know i was like i didn't you

1374

00:47:31,750 --> 00:47:28,559

don't choose the headlines

1375

00:47:33,349 --> 00:47:31,760

and and unfortunately and

1376

00:47:35,430 --> 00:47:33,359

and i've kind of had to learn this now

1377

00:47:38,870 --> 00:47:35,440

as we run a media

1378

00:47:40,470 --> 00:47:38,880

organization is that um it's regretful

1379

00:47:42,069 --> 00:47:40,480

that at times that you do have to try to

1380

00:47:44,870 --> 00:47:42,079

get a headline that

1381

00:47:46,230 --> 00:47:44,880

captures somebody's attention you know

1382

00:47:49,270 --> 00:47:46,240

but we try to avoid click

1383

00:47:52,790 --> 00:47:49,280

bait by any means we try to take the

1384

00:47:54,470 --> 00:47:52,800

topic but make it interesting um yeah

1385

00:47:56,630 --> 00:47:54,480

next question that comes up here is

1386

00:47:59,670 --> 00:47:56,640

there anything else from fravor's

1387

00:48:03,190 --> 00:47:59,680

wing uh woman actually ring roman yes

1388

00:48:03,589 --> 00:48:03,200

um anything else in terms of that i

1389

00:48:07,750 --> 00:48:03,599

found

1390

00:48:09,430 --> 00:48:07,760

interesting is that uh yeah

1391

00:48:11,030 --> 00:48:09,440

they're like i mean do we know

1392

00:48:13,990 --> 00:48:11,040

everything that's

1393

00:48:15,510 --> 00:48:14,000

out there basically oh oh yeah yeah i i

1394

00:48:18,790 --> 00:48:15,520

feel like the gist of it is

1395

00:48:22,950 --> 00:48:18,800

and um and i have actually i've you know

1396

00:48:24,549 --> 00:48:22,960

whether it's in popular mechanics or um

1397

00:48:25,990 --> 00:48:24,559

other outlets that i've reported i think

1398

00:48:27,270 --> 00:48:26,000

somewhere i've pieced together

1399

00:48:28,309 --> 00:48:27,280

different pieces of the interviews that

1400

00:48:29,510 --> 00:48:28,319

i've had with her that i shared

1401

00:48:30,870 --> 00:48:29,520

everything that was important that i

1402

00:48:33,589 --> 00:48:30,880

think hadn't been reported

1403

00:48:34,309 --> 00:48:33,599

before including that kind of bouncing

1404

00:48:37,589 --> 00:48:34,319

around

1405

00:48:41,109 --> 00:48:37,599

like a um like a ping-pong ball

1406

00:48:42,309 --> 00:48:41,119

um and in fact for me you know

1407

00:48:44,870 --> 00:48:42,319

if you don't mind me getting really

1408

00:48:47,349 --> 00:48:44,880

nerdy for you uh martin

1409

00:48:48,950 --> 00:48:47,359

um but in cognitive psychology to me

1410

00:48:49,589 --> 00:48:48,960

that's something that's very fascinating

1411

00:48:52,630 --> 00:48:49,599

because

1412

00:48:53,270 --> 00:48:52,640

um in order to actually i mean this goes

1413

00:48:55,030 --> 00:48:53,280

into like

1414

00:48:57,270 --> 00:48:55,040

when people go oh it's secret technology

1415

00:48:59,030 --> 00:48:57,280

and i'm going yeah but there's just

1416

00:49:01,270 --> 00:48:59,040

lists i can give you down i'm not saying

1417

00:49:02,950 --> 00:49:01,280

it's not but we have to overcome and one

1418

00:49:05,750 --> 00:49:02,960

of those would be

1419

00:49:06,870 --> 00:49:05,760

uh the flash flicker rate and people

1420

00:49:07,829 --> 00:49:06,880

don't ever think about this but our

1421

00:49:09,510 --> 00:49:07,839

brains

1422

00:49:11,750 --> 00:49:09,520

you know we perceive our environment by

1423

00:49:12,710 --> 00:49:11,760

a flash flicker rate of about 60 flashes

1424

00:49:14,630 --> 00:49:12,720

per second

1425

00:49:16,790 --> 00:49:14,640

that's how we judge time that's how

1426

00:49:19,190 --> 00:49:16,800

reality is for us

1427

00:49:21,030 --> 00:49:19,200

a house fly has a much much much much

1428

00:49:22,950 --> 00:49:21,040

higher flash flicker rate

1429

00:49:24,390 --> 00:49:22,960

and so people the house 5 flies all

1430

00:49:25,190 --> 00:49:24,400

around and darts all around because it's

1431

00:49:28,150 --> 00:49:25,200

nuts

1432

00:49:30,710 --> 00:49:28,160

actually the house fly literally you is

1433

00:49:31,109 --> 00:49:30,720

working in a perennial kind of matrix

1434

00:49:33,030 --> 00:49:31,119

world

1435

00:49:34,950 --> 00:49:33,040

where everything's going we move much

1436

00:49:37,990 --> 00:49:34,960

slower to the house fly because he has a

1437

00:49:41,030 --> 00:49:38,000

higher flash flicker rate

1438

00:49:43,510 --> 00:49:41,040

or something yeah yeah and so these

1439

00:49:45,750 --> 00:49:43,520

objects bouncing around for me i'm going

1440

00:49:46,950 --> 00:49:45,760

well that means that something that uh

1441

00:49:49,510 --> 00:49:46,960

either artificially

1442

00:49:51,910 --> 00:49:49,520

or biologically is able to process

1443

00:49:52,549 --> 00:49:51,920

visually processed information at a much

1444

00:49:53,990 --> 00:49:52,559

much much

1445

00:49:56,549 --> 00:49:54,000

exponentially higher rate than human

1446

00:49:58,470 --> 00:49:56,559

beings and that's incredible um

1447

00:49:59,990 --> 00:49:58,480

and so that you know that key point

1448

00:50:02,549 --> 00:50:00,000

there is something i always point out

1449

00:50:03,910 --> 00:50:02,559

but um you know in terms of her and

1450

00:50:05,190 --> 00:50:03,920

other things that you know

1451

00:50:07,109 --> 00:50:05,200

and i reported on this in popular

1452

00:50:08,630 --> 00:50:07,119

mechanics i thought it was fascinating

1453

00:50:10,390 --> 00:50:08,640

because i hadn't heard it before i spoke

1454

00:50:14,470 --> 00:50:10,400

with her is that she

1455

00:50:16,710 --> 00:50:14,480

you know was invited uh back up to

1456

00:50:18,150 --> 00:50:16,720

the pentagon at various times to speak

1457

00:50:19,670 --> 00:50:18,160

with different people

1458

00:50:21,190 --> 00:50:19,680

and was shown stuff and said is this

1459

00:50:23,109 --> 00:50:21,200

what you saw is this what you saw is

1460

00:50:24,230 --> 00:50:23,119

this what you saw

1461

00:50:26,150 --> 00:50:24,240

in an effort to kind of go down the

1462

00:50:28,069 --> 00:50:26,160

laundry list of different

1463

00:50:29,589 --> 00:50:28,079

you know classified systems that maybe

1464

00:50:32,230 --> 00:50:29,599

they um

1465

00:50:33,910 --> 00:50:32,240

had that aren't publicly known at least

1466

00:50:37,030 --> 00:50:33,920

during those times maybe

1467

00:50:39,190 --> 00:50:37,040

and she said every time i was like no um

1468

00:50:40,390 --> 00:50:39,200

you know she expressed to me kind of the

1469

00:50:43,190 --> 00:50:40,400

frustration

1470

00:50:43,510 --> 00:50:43,200

uh she did testify in front of congress

1471

00:50:48,870 --> 00:50:43,520

and

1472

00:50:50,309 --> 00:50:48,880

getting her in trouble i don't think so

1473

00:50:50,630 --> 00:50:50,319

she didn't say this was off the record

1474

00:50:53,109 --> 00:50:50,640

but

1475

00:50:55,030 --> 00:50:53,119

uh you know she expressed frustration of

1476
00:50:57,030 --> 00:50:55,040
during some of those testimonies because

1477
00:50:58,710 --> 00:50:57,040
the congressional leadership looked at

1478
00:51:00,950 --> 00:50:58,720
her and was like

1479
00:51:02,549 --> 00:51:00,960
what did you see and i thought she put

1480
00:51:04,390 --> 00:51:02,559
it very

1481
00:51:07,109 --> 00:51:04,400
poetically true and she said that's not

1482
00:51:10,630 --> 00:51:07,119
my job you know i have

1483
00:51:13,829 --> 00:51:10,640
reported on what occurred 100

1484
00:51:16,630 --> 00:51:13,839
it was not in my recce or a recognition

1485
00:51:18,870 --> 00:51:16,640
book uh so it is not an aircraft both

1486
00:51:21,030 --> 00:51:18,880
foreign or domestic that we recognize

1487
00:51:22,390 --> 00:51:21,040
i have said everything i had to say in

1488
00:51:25,910 --> 00:51:22,400

terms of what it was

1489

00:51:27,109 --> 00:51:25,920

i don't know like that's somebody else's

1490

00:51:30,870 --> 00:51:27,119

job

1491

00:51:33,030 --> 00:51:30,880

and um but i think that

1492

00:51:34,230 --> 00:51:33,040

is interesting to see it that high of a

1493

00:51:36,790 --> 00:51:34,240

level the same thing that i think a lot

1494

00:51:38,069 --> 00:51:36,800

of ufo witnesses everywhere civilian

1495

00:51:39,190 --> 00:51:38,079

wives go through the same thing where

1496

00:51:41,190 --> 00:51:39,200

people are like yeah but

1497

00:51:42,950 --> 00:51:41,200

it was probably a plane or maybe it was

1498

00:51:45,990 --> 00:51:42,960

a seagull or

1499

00:51:46,870 --> 00:51:46,000

you know a dangling peanut um i was

1500

00:51:49,910 --> 00:51:46,880

trying to fit it in

1501
00:51:52,470 --> 00:51:49,920
box you know

1502
00:51:53,510 --> 00:51:52,480
and i think you know i had my personal

1503
00:51:56,710 --> 00:51:53,520
sighting

1504
00:51:58,150 --> 00:51:56,720
it was outside of my box and it was like

1505
00:52:00,549 --> 00:51:58,160
really caught my attention like

1506
00:52:01,510 --> 00:52:00,559
what the heck is this you know that that

1507
00:52:04,870 --> 00:52:01,520
that type of thing

1508
00:52:07,109 --> 00:52:04,880
and i think that's what happened and

1509
00:52:08,710 --> 00:52:07,119
yeah um so while we're at the slalom

1510
00:52:10,470 --> 00:52:08,720
we'll get back to the questions

1511
00:52:12,230 --> 00:52:10,480
um when we come back we're gonna just

1512
00:52:14,069 --> 00:52:12,240
take a two-minute break

1513
00:52:15,270 --> 00:52:14,079

um and by the way uh talking about

1514

00:52:17,750 --> 00:52:15,280

getting nerdy

1515

00:52:18,470 --> 00:52:17,760

each house flies eyes pair of eyes have

1516

00:52:20,790 --> 00:52:18,480

three to

1517

00:52:22,069 --> 00:52:20,800

six thousand uh simple eyes they're

1518

00:52:25,589 --> 00:52:22,079

called

1519

00:52:28,790 --> 00:52:25,599

yeah it's scary like what they see

1520

00:52:31,829 --> 00:52:28,800

they see like a million you know abs

1521

00:52:33,190 --> 00:52:31,839

absolutely i'm i'm so happy to hear you

1522

00:52:34,470 --> 00:52:33,200

say that because i was involved in some

1523

00:52:36,790 --> 00:52:34,480

of that research with a flash flicker

1524

00:52:39,829 --> 00:52:36,800

rate of flies where you realize holy cow

1525

00:52:41,349 --> 00:52:39,839

the fly you know uh possesses things so

1526

00:52:44,470 --> 00:52:41,359

yeah usually people are like what

1527

00:52:45,750 --> 00:52:44,480

so no kudos martin we need to hang out

1528

00:52:45,990 --> 00:52:45,760

more often we need to get a beer and

1529

00:52:49,430 --> 00:52:46,000

hang

1530

00:52:51,030 --> 00:52:49,440

out that's right yeah on

1531

00:52:53,270 --> 00:52:51,040

zoom like everyone's doing so we're

1532

00:52:55,829 --> 00:52:53,280

gonna run into play uh to break now

1533

00:52:58,230 --> 00:52:55,839

and uh what's it's gonna be two minutes

1534

00:53:01,510 --> 00:52:58,240

for everyone in this uh this is music by

1535

00:53:04,549 --> 00:53:01,520

he's written music for um for the show

1536

00:53:06,230 --> 00:53:04,559

it's carrie lloyd whitehouse in

1537

00:53:07,589 --> 00:53:06,240

ireland and he's written some nice music

1538

00:53:12,829 --> 00:53:07,599

this one in particular

1539

00:53:38,040 --> 00:53:14,520

children

1540

00:53:42,880 --> 00:53:40,829

[Music]

1541

00:53:58,970 --> 00:53:42,890

me

1542

00:54:22,829 --> 00:54:05,250

[Music]

1543

00:55:11,829 --> 00:54:36,829

so

1544

00:55:17,670 --> 00:55:15,030

wow that was peppy wasn't it yeah

1545

00:55:18,150 --> 00:55:17,680

i woke me up over here that was good

1546

00:55:20,309 --> 00:55:18,160

yeah

1547

00:55:22,150 --> 00:55:20,319

some really cool music for uh for movies

1548

00:55:23,910 --> 00:55:22,160

and things he's really great guys

1549

00:55:26,470 --> 00:55:23,920

been in touch when i first started this

1550

00:55:28,150 --> 00:55:26,480

uh this show so welcome back everyone uh

1551

00:55:30,069 --> 00:55:28,160

we have tim mcmillan

1552

00:55:31,390 --> 00:55:30,079

and all the way from germany and he's

1553

00:55:33,990 --> 00:55:31,400

talking about the

1554

00:55:35,430 --> 00:55:34,000

debrief.org make sure you do check that

1555

00:55:38,470 --> 00:55:35,440

out you're not going to crash it

1556

00:55:39,990 --> 00:55:38,480

anymore no we got things worked out now

1557

00:55:42,870 --> 00:55:40,000

yeah yeah

1558

00:55:43,190 --> 00:55:42,880

i know i i i moved to this this show

1559

00:55:46,710 --> 00:55:43,200

this

1560

00:55:48,230 --> 00:55:46,720

my show website became so uh i had so

1561

00:55:49,270 --> 00:55:48,240

much traffic on it that i ended up

1562

00:55:52,390 --> 00:55:49,280

having to put it on a

1563

00:55:53,910 --> 00:55:52,400

uh its own designated server and it took

1564

00:55:54,950 --> 00:55:53,920

over a year for them to straighten

1565

00:55:57,190 --> 00:55:54,960

things out

1566

00:55:58,390 --> 00:55:57,200

and then my wife's website website got

1567

00:56:01,910 --> 00:55:58,400

hacked last

1568

00:56:03,190 --> 00:56:01,920

february i lost 1500 pages and oh wow

1569

00:56:06,789 --> 00:56:03,200

but i don't care

1570

00:56:10,309 --> 00:56:06,799

it's it's it's simple now yeah i am

1571

00:56:11,990 --> 00:56:10,319

yeah yeah um so i would like to pop up

1572

00:56:14,390 --> 00:56:12,000

another question because i saw that we

1573

00:56:18,069 --> 00:56:14,400

have a bunch of questions coming in

1574

00:56:21,270 --> 00:56:18,079

and sure uh let's see right here

1575

00:56:25,030 --> 00:56:21,280

um unidentified wants to know uh this is

1576
00:56:28,800 --> 00:56:25,040
elise and uh he wants to know this first

1577
00:56:32,150 --> 00:56:28,810
photo that was leaked um

1578
00:56:35,510 --> 00:56:34,870
that was not actually leaked was it the

1579
00:56:38,390 --> 00:56:35,520
photo

1580
00:56:40,069 --> 00:56:38,400
i mean the rendition was something dave

1581
00:56:43,109 --> 00:56:40,079
uh beatty made up

1582
00:56:46,230 --> 00:56:43,119
correct i think he's a photo actually

1583
00:56:47,349 --> 00:56:46,240
no unless unless what's being discussed

1584
00:56:49,750 --> 00:56:47,359
there is the

1585
00:56:51,109 --> 00:56:49,760
uh the the photo we we published the

1586
00:56:54,470 --> 00:56:51,119
following day

1587
00:56:57,670 --> 00:56:54,480
um you know for for me yes

1588
00:56:59,109 --> 00:56:57,680

i mean the these were you know were used

1589

00:57:00,870 --> 00:56:59,119

you know in connection with other things

1590

00:57:02,549 --> 00:57:00,880

to verify the information

1591

00:57:04,630 --> 00:57:02,559

related to those intelligence assessment

1592

00:57:08,950 --> 00:57:04,640

reports however i understand

1593

00:57:10,549 --> 00:57:08,960

that um other than me telling you here's

1594

00:57:12,470 --> 00:57:10,559

what different sources said who

1595

00:57:14,470 --> 00:57:12,480

unfortunately i can't name because it

1596

00:57:16,549 --> 00:57:14,480

would cost them their jobs

1597

00:57:18,470 --> 00:57:16,559

um or say how those were connected in

1598

00:57:20,150 --> 00:57:18,480

the reports um i can understand how

1599

00:57:22,390 --> 00:57:20,160

anybody would go yeah but this doesn't

1600

00:57:25,190 --> 00:57:22,400

prove anything and i respect that

1601
00:57:25,990 --> 00:57:25,200
um for me you know we publish that photo

1602
00:57:28,549 --> 00:57:26,000
as soon as we

1603
00:57:30,069 --> 00:57:28,559
could and and this is i've stood behind

1604
00:57:30,710 --> 00:57:30,079
it what is shown in that photo i don't

1605
00:57:35,510 --> 00:57:30,720
know

1606
00:57:38,150 --> 00:57:35,520
much like so much in this topic

1607
00:57:39,750 --> 00:57:38,160
uh i can find pros and cons or points

1608
00:57:42,069 --> 00:57:39,760
and counterpoints to every argument

1609
00:57:45,270 --> 00:57:42,079
that's made about it

1610
00:57:48,390 --> 00:57:45,280
but i can say with 100 certainty that

1611
00:57:50,710 --> 00:57:48,400
it was a uap task force photo

1612
00:57:53,030 --> 00:57:50,720
or a photo that was given to them it was

1613
00:57:55,270 --> 00:57:53,040

a uap task force photo that was included

1614

00:57:56,789 --> 00:57:55,280

in an intelligence assessment portfolio

1615

00:57:59,349 --> 00:57:56,799

that was provided to

1616

00:58:01,430 --> 00:57:59,359

the different analysts uh the background

1617

00:58:03,270 --> 00:58:01,440

and information on that particular event

1618

00:58:05,510 --> 00:58:03,280

in which it was captured actually

1619

00:58:06,390 --> 00:58:05,520

wasn't discussed in in the assessments

1620

00:58:09,270 --> 00:58:06,400

that i'm aware of

1621

00:58:10,470 --> 00:58:09,280

or that i was told about so the

1622

00:58:12,309 --> 00:58:10,480

information behind that is

1623

00:58:13,910 --> 00:58:12,319

unknown you know i don't even have

1624

00:58:15,589 --> 00:58:13,920

anybody uh

1625

00:58:17,030 --> 00:58:15,599

you know that had seen those assessments

1626

00:58:20,630 --> 00:58:17,040

that could give me more

1627

00:58:22,549 --> 00:58:20,640

details on that event um and so

1628

00:58:24,069 --> 00:58:22,559

for me yes you know that was the big

1629

00:58:24,950 --> 00:58:24,079

thing and that's why we published it a

1630

00:58:27,030 --> 00:58:24,960

lot of people were like

1631

00:58:28,950 --> 00:58:27,040

why would you do this you ruined my life

1632

00:58:31,190 --> 00:58:28,960

it looks like a balloon and i was like

1633

00:58:33,270 --> 00:58:31,200

i never intended to ruin anybody's life

1634

00:58:35,990 --> 00:58:33,280

my thing is

1635

00:58:37,589 --> 00:58:36,000

totally about being objective and as

1636

00:58:38,789 --> 00:58:37,599

upfront as possible and i know that

1637

00:58:41,030 --> 00:58:38,799

didn't that sometimes it didn't make

1638

00:58:42,789 --> 00:58:41,040

people happy because they're like

1639

00:58:44,309 --> 00:58:42,799

yeah but it looks like a balloon it's

1640

00:58:47,109 --> 00:58:44,319

it's ruining the ufo

1641

00:58:48,309 --> 00:58:47,119

topic and if i can respond to that

1642

00:58:49,910 --> 00:58:48,319

martin

1643

00:58:50,950 --> 00:58:49,920

i want because this is i think this is

1644

00:58:51,750 --> 00:58:50,960

very important because i think people

1645

00:58:54,549 --> 00:58:51,760

have taken

1646

00:58:55,670 --> 00:58:54,559

so much they've put in so much into that

1647

00:58:57,349 --> 00:58:55,680

photo

1648

00:58:59,670 --> 00:58:57,359

and you know it's like i said when i was

1649

00:59:01,510 --> 00:58:59,680

in policing you

1650

00:59:02,710 --> 00:59:01,520

and we joked about this before we got on

1651
00:59:04,870 --> 00:59:02,720
the air

1652
00:59:06,789 --> 00:59:04,880
um i had people literally call our

1653
00:59:10,150 --> 00:59:06,799
agency call 9-1-1

1654
00:59:12,549 --> 00:59:10,160
to report their cable being out or their

1655
00:59:13,589 --> 00:59:12,559
somebody their circuit breaker was blown

1656
00:59:16,069 --> 00:59:13,599
true story

1657
00:59:17,910 --> 00:59:16,079
i also was you know the city that i

1658
00:59:20,150 --> 00:59:17,920
worked in had a violent crime rate 300

1659
00:59:22,870 --> 00:59:20,160
points higher than the city of chicago

1660
00:59:24,549 --> 00:59:22,880
it was very violent place i worked a lot

1661
00:59:26,950 --> 00:59:24,559
of shootings a lot of homicides

1662
00:59:29,349 --> 00:59:26,960
and so the spectrum of crimes that we

1663
00:59:32,390 --> 00:59:29,359

investigated or calls that we

1664

00:59:35,510 --> 00:59:32,400

looked into range from my cables out to

1665

00:59:40,069 --> 00:59:35,520

to homicide murder um

1666

00:59:42,230 --> 00:59:40,079

if you were to grab any one report

1667

00:59:43,510 --> 00:59:42,240

it could have been the cable out or it

1668

00:59:45,190 --> 00:59:43,520

could have been a homicide but either

1669

00:59:46,069 --> 00:59:45,200

way that one report is not going to be

1670

00:59:48,390 --> 00:59:46,079

reflective of the

1671

00:59:49,910 --> 00:59:48,400

totality of work that we did you're not

1672

00:59:50,630 --> 00:59:49,920

going to get a good representation of

1673

00:59:51,990 --> 00:59:50,640

the

1674

00:59:55,430 --> 00:59:52,000

what we did as an agency or as in

1675

00:59:58,829 --> 00:59:55,440

policing in general and so unfortunately

1676
00:59:59,990 --> 00:59:58,839
what we have is this one photo it does

1677
01:00:01,589 --> 01:00:00,000
not

1678
01:00:04,069 --> 01:00:01,599
mean that it's representative of

1679
01:00:06,549 --> 01:00:04,079
everything that the uop task force has

1680
01:00:08,069 --> 01:00:06,559
and frankly i said in the fast movers

1681
01:00:10,230 --> 01:00:08,079
article

1682
01:00:11,910 --> 01:00:10,240
there's no doubt in my mind that because

1683
01:00:13,030 --> 01:00:11,920
of the wide distribution anything that

1684
01:00:15,510 --> 01:00:13,040
was in in fact

1685
01:00:17,750 --> 01:00:15,520
top secret or any higher classification

1686
01:00:20,150 --> 01:00:17,760
authority because they were captured on

1687
01:00:21,510 --> 01:00:20,160
systems that may be compartmentalized

1688
01:00:23,270 --> 01:00:21,520

that type of thing that information

1689

01:00:26,230 --> 01:00:23,280

would not have been disseminated

1690

01:00:27,430 --> 01:00:26,240

but the us government has some really

1691

01:00:28,789 --> 01:00:27,440

cool stuff

1692

01:00:30,950 --> 01:00:28,799

and when it comes to reconnaissance

1693

01:00:34,870 --> 01:00:30,960

surveillance and all sorts of stuff

1694

01:00:36,390 --> 01:00:34,880

so uh you know i'm sure i i feel

1695

01:00:38,870 --> 01:00:36,400

i could say with a degree of high

1696

01:00:41,670 --> 01:00:38,880

confidence that there's there's

1697

01:00:41,990 --> 01:00:41,680

better data available to them and and i

1698

01:00:44,950 --> 01:00:42,000

always

1699

01:00:46,789 --> 01:00:44,960

point to if you kind of just want to use

1700

01:00:48,309 --> 01:00:46,799

bayesian logic here and just do

1701

01:00:51,349 --> 01:00:48,319

abductive logic

1702

01:00:53,190 --> 01:00:51,359

of known information the uh the

1703

01:00:55,349 --> 01:00:53,200

email exchange that we printed in that

1704

01:00:57,430 --> 01:00:55,359

fast mover article

1705

01:00:59,030 --> 01:00:57,440

between the the vice joint chiefs of

1706

01:01:00,710 --> 01:00:59,040

staff where you have the vice choice

1707

01:01:02,950 --> 01:01:00,720

vice chief of the navy recommending to

1708

01:01:06,069 --> 01:01:02,960

the vice chief of the air force

1709

01:01:08,789 --> 01:01:06,079

he's saying i recommend you get this

1710

01:01:10,630 --> 01:01:08,799

briefing i just received on

1711

01:01:12,870 --> 01:01:10,640

unidentified aerial phenomena no

1712

01:01:14,470 --> 01:01:12,880

ambiguity he spells it out

1713

01:01:16,230 --> 01:01:14,480

uh and acknowledges the secretary of the

1714

01:01:18,150 --> 01:01:16,240

navy receives that

1715

01:01:19,670 --> 01:01:18,160

um for anybody who's not been in the

1716

01:01:20,870 --> 01:01:19,680

military or has never been in the

1717

01:01:22,549 --> 01:01:20,880

pentagon world

1718

01:01:24,390 --> 01:01:22,559

i can tell you these are the highest

1719

01:01:27,589 --> 01:01:24,400

like these are the

1720

01:01:28,870 --> 01:01:27,599

tip of the spear these are the highest

1721

01:01:30,950 --> 01:01:28,880

individuals in the united states

1722

01:01:33,109 --> 01:01:30,960

military um

1723

01:01:35,349 --> 01:01:33,119

you don't waste their time with balloons

1724

01:01:38,230 --> 01:01:35,359

and you sure don't have one of them

1725

01:01:39,910 --> 01:01:38,240

who's only seen a balloon photo uh

1726

01:01:43,270 --> 01:01:39,920

recommend that his counterpart

1727

01:01:44,950 --> 01:01:43,280

receive the same briefing and you know

1728

01:01:46,390 --> 01:01:44,960

i was only able to get those because i

1729

01:01:48,230 --> 01:01:46,400

was just trolling

1730

01:01:49,589 --> 01:01:48,240

i sent out foias phishing people's

1731

01:01:53,670 --> 01:01:49,599

emails

1732

01:01:55,109 --> 01:01:53,680

people that contain the word uap and

1733

01:01:57,750 --> 01:01:55,119

that's what i got back

1734

01:01:59,190 --> 01:01:57,760

so uh i think a lot more emphasis has

1735

01:02:00,470 --> 01:01:59,200

been put on the photo than maybe

1736

01:02:03,829 --> 01:02:00,480

necessarily

1737

01:02:05,510 --> 01:02:03,839

uh the emphasis on that information or

1738

01:02:07,670 --> 01:02:05,520

the emphasis that

1739

01:02:08,950 --> 01:02:07,680

the article concluded with with general

1740

01:02:12,470 --> 01:02:08,960

uh

1741

01:02:14,150 --> 01:02:12,480

bruce mcclintock but in terms of what we

1742

01:02:16,230 --> 01:02:14,160

see in that photo right there

1743

01:02:17,990 --> 01:02:16,240

you know i think that i have seen some

1744

01:02:20,630 --> 01:02:18,000

really good analysis done

1745

01:02:21,510 --> 01:02:20,640

uh that doesn't surprise me in the least

1746

01:02:24,390 --> 01:02:21,520

i have said

1747

01:02:26,150 --> 01:02:24,400

you know i spent years training

1748

01:02:27,349 --> 01:02:26,160

investigators both federal and local

1749

01:02:29,510 --> 01:02:27,359

investigators

1750

01:02:30,870 --> 01:02:29,520

and yet there's times when i see people

1751

01:02:32,870 --> 01:02:30,880

in the ufo community

1752

01:02:34,390 --> 01:02:32,880

who it doesn't matter what subject just

1753

01:02:35,029 --> 01:02:34,400

happens to be ufos they could be looking

1754

01:02:37,829 --> 01:02:35,039

at

1755

01:02:39,510 --> 01:02:37,839

homicide there is every bit as good of

1756

01:02:41,190 --> 01:02:39,520

investigators as anybody ever worked

1757

01:02:43,349 --> 01:02:41,200

with or trained

1758

01:02:44,630 --> 01:02:43,359

um really incredible open source

1759

01:02:46,950 --> 01:02:44,640

investigation

1760

01:02:48,789 --> 01:02:46,960

and um so there's some great people out

1761

01:02:52,950 --> 01:02:48,799

there that i think will examine it uh

1762

01:02:56,069 --> 01:02:52,960

it is interesting i i uh i know that the

1763

01:02:57,190 --> 01:02:56,079

the batman balloon has been a leading

1764

01:02:59,270 --> 01:02:57,200

theory

1765

01:03:00,870 --> 01:02:59,280

um i will be honest and just give my

1766

01:03:03,589 --> 01:03:00,880

opinion i do not believe that is the

1767

01:03:06,710 --> 01:03:03,599

leading theory i do not believe that

1768

01:03:09,829 --> 01:03:06,720

it is a batman balloon be because

1769

01:03:11,670 --> 01:03:09,839

um i think what you see there

1770

01:03:12,870 --> 01:03:11,680

when don't be wrong when you're looking

1771

01:03:13,990 --> 01:03:12,880

at what we're looking at right now on

1772

01:03:16,549 --> 01:03:14,000

the screen

1773

01:03:18,230 --> 01:03:16,559

um if you put a batman balloon next to

1774

01:03:19,990 --> 01:03:18,240

it it it does look like

1775

01:03:21,829 --> 01:03:20,000

it it looks like it fits it to a team

1776

01:03:23,430 --> 01:03:21,839

the shape yeah um

1777

01:03:25,109 --> 01:03:23,440

i was trying to oh i've just found what

1778

01:03:26,230 --> 01:03:25,119

i was looking for and i'll pull it up in

1779

01:03:29,430 --> 01:03:26,240

just a second

1780

01:03:30,470 --> 01:03:29,440

but um but yeah but it's clear i mean is

1781

01:03:33,670 --> 01:03:30,480

this thing

1782

01:03:35,510 --> 01:03:33,680

is the batman balloon on one side i mean

1783

01:03:36,549 --> 01:03:35,520

you can see a little bit of some type of

1784

01:03:39,910 --> 01:03:36,559

design

1785

01:03:43,029 --> 01:03:39,920

but uh it doesn't look exactly

1786

01:03:43,990 --> 01:03:43,039

like it this is what well what's your

1787

01:03:46,069 --> 01:03:44,000

and what you're seeing there and

1788

01:03:47,910 --> 01:03:46,079

actually you've i've seen people do

1789

01:03:49,270 --> 01:03:47,920

analysis where they put it on top of it

1790

01:03:51,029 --> 01:03:49,280

or right next to it and you're like

1791

01:03:52,390 --> 01:03:51,039

say they people can suddenly start to

1792

01:03:54,309 --> 01:03:52,400

see batman

1793

01:03:56,789 --> 01:03:54,319

um what you're seeing there in my

1794

01:03:58,069 --> 01:03:56,799

opinion is something called paradolia

1795

01:04:00,470 --> 01:03:58,079

which is a um

1796

01:04:01,990 --> 01:04:00,480

i know exactly what you mean yeah yeah

1797

01:04:04,789 --> 01:04:02,000

you make up what you

1798

01:04:05,270 --> 01:04:04,799

it's actually goes back to our survival

1799

01:04:11,430 --> 01:04:05,280

in

1800

01:04:12,630 --> 01:04:11,440

how we try to identify you know someone

1801

01:04:15,750 --> 01:04:12,640

that's going to

1802

01:04:18,710 --> 01:04:15,760

you know uh eat us you know predators

1803

01:04:20,150 --> 01:04:18,720

yeah yes yep yeah you you and you can't

1804

01:04:21,750 --> 01:04:20,160

help it that's what i think is important

1805

01:04:23,029 --> 01:04:21,760

when people like no no it looks just

1806

01:04:24,390 --> 01:04:23,039

like it and i go

1807

01:04:26,390 --> 01:04:24,400

i understand that that's the way your

1808

01:04:28,069 --> 01:04:26,400

brain works um

1809

01:04:29,510 --> 01:04:28,079

when you put it next to it but but there

1810

01:04:32,870 --> 01:04:29,520

are mitigating factors

1811

01:04:34,710 --> 01:04:32,880

um that that for me and again my thing

1812

01:04:38,230 --> 01:04:34,720

is try to be as objective about it

1813

01:04:40,950 --> 01:04:38,240

as humanly possible that i can say

1814

01:04:42,630 --> 01:04:40,960

that's a good theory but i and i'm

1815

01:04:44,069 --> 01:04:42,640

perfectly content if that's what it

1816

01:04:45,750 --> 01:04:44,079

turns out being but i don't know that

1817

01:04:47,109 --> 01:04:45,760

there's been enough information

1818

01:04:48,470 --> 01:04:47,119

i don't know that there's enough public

1819

01:04:49,270 --> 01:04:48,480

information available to make that

1820

01:04:52,150 --> 01:04:49,280

conclusion as

1821

01:04:53,190 --> 01:04:52,160

is and and i think um we talked about

1822

01:04:55,750 --> 01:04:53,200

that off the air

1823

01:04:58,150 --> 01:04:55,760

it is at an altitude the people who saw

1824

01:04:59,589 --> 01:04:58,160

the reports approximated at 35 000 feet

1825

01:05:01,109 --> 01:04:59,599

i think it's much higher because you can

1826

01:05:01,829 --> 01:05:01,119

see the curvature of the earth in that

1827

01:05:05,190 --> 01:05:01,839

photograph

1828

01:05:07,670 --> 01:05:05,200

um right there yeah yeah and then and

1829

01:05:08,710 --> 01:05:07,680

you're you're right and you know at 7

1830

01:05:11,990 --> 01:05:08,720

000 feet most

1831

01:05:14,390 --> 01:05:12,000

mylar balloons will will blow up

1832

01:05:15,670 --> 01:05:14,400

or they will drop in altitude because

1833

01:05:17,829 --> 01:05:15,680

they'll lose pressure

1834

01:05:19,750 --> 01:05:17,839

uh i i think it's because they're

1835

01:05:22,789 --> 01:05:19,760

actually blowing up that they

1836

01:05:24,549 --> 01:05:22,799

drop altitude but i mean

1837

01:05:26,549 --> 01:05:24,559

i i couldn't find any records of

1838

01:05:27,349 --> 01:05:26,559

anything going above you know 20 000

1839

01:05:29,430 --> 01:05:27,359

feet or

1840

01:05:31,029 --> 01:05:29,440

even 10 000 feet i don't know have you

1841

01:05:33,589 --> 01:05:31,039

looked into that part of it

1842

01:05:35,990 --> 01:05:33,599

yes and not not in the commercial like

1843

01:05:37,750 --> 01:05:36,000

the party balloon the batman balloon no

1844

01:05:39,510 --> 01:05:37,760

because i think as you're seeing the

1845

01:05:41,270 --> 01:05:39,520

curvature of the earth and i encourage

1846

01:05:42,789 --> 01:05:41,280

anybody you can just just google search

1847

01:05:45,750 --> 01:05:42,799

just google image search

1848

01:05:47,510 --> 01:05:45,760

uh 30 000 feet in the air or 40 000 feet

1849

01:05:50,549 --> 01:05:47,520

in the air and see what the

1850

01:05:51,829 --> 01:05:50,559

the view you see from the earth and and

1851

01:05:53,670 --> 01:05:51,839

i think you'll see that what we're

1852

01:05:55,829 --> 01:05:53,680

looking at there is much more consistent

1853

01:05:57,510 --> 01:05:55,839

with it being 40 to between 40 to 45

1854

01:05:58,390 --> 01:05:57,520

thousand feet in altitude above sea

1855

01:06:01,270 --> 01:05:58,400

level

1856

01:06:03,670 --> 01:06:01,280

uh that f-18 in fact you can tell by the

1857

01:06:06,950 --> 01:06:03,680

model there it's it's an f-18

1858

01:06:09,510 --> 01:06:06,960

f model a double seater is um

1859

01:06:11,510 --> 01:06:09,520

it has a maximum ceiling of 55 000 feet

1860

01:06:15,589 --> 01:06:11,520

and so it can climb

1861

01:06:17,670 --> 01:06:15,599

um and you know i i

1862

01:06:20,950 --> 01:06:17,680

if it is a balloon and and don't get me

1863

01:06:22,710 --> 01:06:20,960

wrong just based on the photos itself

1864

01:06:25,190 --> 01:06:22,720

i think that saying it's a balloon is

1865

01:06:26,069 --> 01:06:25,200

that's a great analysis i wouldn't say

1866

01:06:28,710 --> 01:06:26,079

that anybody's

1867

01:06:29,750 --> 01:06:28,720

wrong here we are at 40 000 feet on this

1868

01:06:32,950 --> 01:06:29,760

view

1869

01:06:34,069 --> 01:06:32,960

yeah i mean that's you can see the this

1870

01:06:37,029 --> 01:06:34,079

one's higher

1871

01:06:38,470 --> 01:06:37,039

higher higher correct correct here's 40

1872

01:06:39,670 --> 01:06:38,480

000 feet you can't really see the

1873

01:06:41,829 --> 01:06:39,680

curvature

1874

01:06:44,150 --> 01:06:41,839

and then yet when you're looking at this

1875

01:06:46,710 --> 01:06:44,160

you can see the slight curvature

1876

01:06:48,470 --> 01:06:46,720

yeah i mean they may be maxing close to

1877

01:06:50,470 --> 01:06:48,480

which in itself you know

1878

01:06:53,029 --> 01:06:50,480

it kind of uh let's say it happens back

1879

01:06:54,069 --> 01:06:53,039

to the the the tragic mantel incident

1880

01:06:57,109 --> 01:06:54,079

where he went

1881

01:06:59,349 --> 01:06:57,119

uh above altitude with oxygen is that

1882

01:07:00,549 --> 01:06:59,359

something caused these pilots to pursue

1883

01:07:02,789 --> 01:07:00,559

it at potentially

1884

01:07:04,789 --> 01:07:02,799

close to the the maximum ceiling

1885

01:07:07,510 --> 01:07:04,799

capacity of that f-18

1886

01:07:07,990 --> 01:07:07,520

um that's that's you know so that's what

1887

01:07:10,230 --> 01:07:08,000

i mean

1888

01:07:11,589 --> 01:07:10,240

there's mitigating factors including the

1889

01:07:13,670 --> 01:07:11,599

pilot testimony that

1890

01:07:14,870 --> 01:07:13,680

that i think no matter what it shakes

1891

01:07:17,029 --> 01:07:14,880

out to be is fine

1892

01:07:18,069 --> 01:07:17,039

for me like if it's a balloon it's fine

1893

01:07:20,069 --> 01:07:18,079

um

1894

01:07:21,589 --> 01:07:20,079

and if that's the case i think it's also

1895

01:07:22,950 --> 01:07:21,599

very important that people recognize

1896

01:07:24,710 --> 01:07:22,960

that that

1897

01:07:27,910 --> 01:07:24,720

that doesn't dispel any other

1898

01:07:30,309 --> 01:07:27,920

information the uap task force may have

1899

01:07:32,390 --> 01:07:30,319

or has investigated because their

1900

01:07:34,710 --> 01:07:32,400

mission has always been stated

1901
01:07:35,670 --> 01:07:34,720
to investigate unknown aerial objects

1902
01:07:38,069 --> 01:07:35,680
that are in

1903
01:07:39,510 --> 01:07:38,079
military airspace that pose a threat if

1904
01:07:40,549 --> 01:07:39,520
that is a balloon and those pilots

1905
01:07:43,670 --> 01:07:40,559
couldn't identify

1906
01:07:46,150 --> 01:07:43,680
that is even a balloon is a threat

1907
01:07:47,109 --> 01:07:46,160
uh it is a potential safety hazard and

1908
01:07:49,589 --> 01:07:47,119
so

1909
01:07:51,190 --> 01:07:49,599
um it's interesting though and i

1910
01:07:53,750 --> 01:07:51,200
mentioned this to you off camera and i

1911
01:07:55,990 --> 01:07:53,760
just haven't had a chance to

1912
01:07:58,150 --> 01:07:56,000
kind of lay it out i mean we haven't

1913
01:07:59,589 --> 01:07:58,160

followed up on this because i think

1914

01:08:01,589 --> 01:07:59,599

uh especially when you're trying to run

1915

01:08:03,589 --> 01:08:01,599

a media outlet it's imperative that you

1916

01:08:04,950 --> 01:08:03,599

responsibly report and follow up so

1917

01:08:06,390 --> 01:08:04,960

instead of like coming out with every

1918

01:08:07,670 --> 01:08:06,400

little thing that comes up we want to

1919

01:08:10,230 --> 01:08:07,680

make sure we make the most

1920

01:08:11,589 --> 01:08:10,240

accurate appraisal we can but we're

1921

01:08:12,390 --> 01:08:11,599

still looking at it and one of those

1922

01:08:15,430 --> 01:08:12,400

involved

1923

01:08:18,470 --> 01:08:15,440

um maybe me getting copies

1924

01:08:21,749 --> 01:08:18,480

of all nearly 11

1925

01:08:25,510 --> 01:08:21,759

000 hazard reports filed by the u.s navy

1926

01:08:27,669 --> 01:08:25,520

in the last 16 years wow

1927

01:08:29,749 --> 01:08:27,679

you know people may remember these has

1928

01:08:32,070 --> 01:08:29,759

reports where they're called haz reps

1929

01:08:34,309 --> 01:08:32,080

the new york times and the war zone

1930

01:08:37,110 --> 01:08:34,319

reported on these in the spring

1931

01:08:38,309 --> 01:08:37,120

where they had those who ate supposed

1932

01:08:41,349 --> 01:08:38,319

uap

1933

01:08:42,789 --> 01:08:41,359

has reps well i got all of them i said i

1934

01:08:45,110 --> 01:08:42,799

want all of them i don't want you to

1935

01:08:48,550 --> 01:08:45,120

tell me what's uap i want to look

1936

01:08:51,349 --> 01:08:48,560

and um there were some balloon reports

1937

01:08:53,269 --> 01:08:51,359

and i will tell you that there was

1938

01:08:55,510 --> 01:08:53,279

significant

1939

01:08:57,430 --> 01:08:55,520

investigation of work done even in these

1940

01:08:59,430 --> 01:08:57,440

instances where you had pilots

1941

01:09:00,709 --> 01:08:59,440

who knew they saw a balloon like they

1942

01:09:02,229 --> 01:09:00,719

said this is a balloon we saw we

1943

01:09:03,430 --> 01:09:02,239

encountered this balloon in a restricted

1944

01:09:05,189 --> 01:09:03,440

airspace

1945

01:09:07,110 --> 01:09:05,199

uh still a significant amount of

1946

01:09:10,709 --> 01:09:07,120

investigation went into it

1947

01:09:13,430 --> 01:09:10,719

and there are no hazard reports

1948

01:09:15,030 --> 01:09:13,440

that coincide not only did they not

1949

01:09:16,870 --> 01:09:15,040

coincide with the dates that

1950

01:09:18,550 --> 01:09:16,880

this event was believed to have taken

1951

01:09:20,229 --> 01:09:18,560

place there are none that

1952

01:09:22,950 --> 01:09:20,239

are filed over the ocean involving

1953

01:09:25,749 --> 01:09:22,960

balloons so

1954

01:09:26,630 --> 01:09:25,759

you know at a minimum that would suggest

1955

01:09:29,030 --> 01:09:26,640

to me that there

1956

01:09:31,110 --> 01:09:29,040

it was at least some factors that led

1957

01:09:32,709 --> 01:09:31,120

these pilots to not believe

1958

01:09:34,149 --> 01:09:32,719

this was a balloon what those are i

1959

01:09:37,510 --> 01:09:34,159

don't know yet and

1960

01:09:38,870 --> 01:09:37,520

um you know it it might sound

1961

01:09:40,550 --> 01:09:38,880

strange to people because you're like

1962

01:09:40,950 --> 01:09:40,560

dude you just reported on all this stuff

1963

01:09:43,269 --> 01:09:40,960

that's

1964

01:09:44,470 --> 01:09:43,279

out of classified systems and everything

1965

01:09:46,390 --> 01:09:44,480

but i am kind of

1966

01:09:48,390 --> 01:09:46,400

i try to be very respectful to people's

1967

01:09:50,149 --> 01:09:48,400

professional careers and everything so

1968

01:09:51,990 --> 01:09:50,159

i'll be the first to admit thus far i

1969

01:09:52,950 --> 01:09:52,000

haven't started beating down doors at

1970

01:09:55,030 --> 01:09:52,960

air wings

1971

01:09:57,270 --> 01:09:55,040

you know trying to give me the pilot who

1972

01:10:00,390 --> 01:09:57,280

did this give me the pilot who did that

1973

01:10:03,590 --> 01:10:00,400

um because i you know in my experience

1974

01:10:04,550 --> 01:10:03,600

you're not usually i do better when i

1975

01:10:06,550 --> 01:10:04,560

come along

1976

01:10:08,070 --> 01:10:06,560

way after the fact and say hey i hear

1977

01:10:08,550 --> 01:10:08,080

you've been hounded by a lot of people i

1978

01:10:10,630 --> 01:10:08,560

bet

1979

01:10:11,830 --> 01:10:10,640

you know would you like to tell your

1980

01:10:15,189 --> 01:10:11,840

story now

1981

01:10:18,709 --> 01:10:15,199

um you know and hopefully people trust

1982

01:10:20,870 --> 01:10:18,719

that uh you know i always try to be

1983

01:10:23,350 --> 01:10:20,880

as honest and objective as humanly

1984

01:10:24,790 --> 01:10:23,360

possible whenever i tell somebody story

1985

01:10:26,149 --> 01:10:24,800

but yeah there you go that's that's a

1986

01:10:28,149 --> 01:10:26,159

has wrap you have on the screen right

1987

01:10:30,630 --> 01:10:28,159

there yeah it's hard to read though

1988

01:10:31,430 --> 01:10:30,640

but um yeah uh just to so someone can

1989

01:10:34,149 --> 01:10:31,440

get an idea

1990

01:10:36,229 --> 01:10:34,159

um there was another uh why don't i pop

1991

01:10:38,229 --> 01:10:36,239

in another question

1992

01:10:39,590 --> 01:10:38,239

and uh just navigating through different

1993

01:10:43,510 --> 01:10:39,600

things here uh

1994

01:10:45,910 --> 01:10:43,520

let's see this question is

1995

01:10:46,790 --> 01:10:45,920

uh this is going back to the nellis

1996

01:10:48,870 --> 01:10:46,800

video

1997

01:10:50,470 --> 01:10:48,880

that we showed earlier uh did anyone

1998

01:10:53,669 --> 01:10:50,480

ever come up with a

1999

01:10:57,030 --> 01:10:53,679

size for what they thought that might be

2000

01:10:58,229 --> 01:10:57,040

yeah i don't know no you know i don't

2001

01:11:01,990 --> 01:10:58,239

have an answer to that question

2002

01:11:05,430 --> 01:11:02,000

and i'll be the first to admit um

2003

01:11:08,310 --> 01:11:05,440

i'm not a quote-unquote ufo investigator

2004

01:11:10,229 --> 01:11:08,320

as much as i'm an investigator and i

2005

01:11:11,189 --> 01:11:10,239

you'll hear me say this a lot to people

2006

01:11:12,870 --> 01:11:11,199

is i i

2007

01:11:14,070 --> 01:11:12,880

i know my role i know what i know and i

2008

01:11:14,950 --> 01:11:14,080

don't know what i don't know and i

2009

01:11:18,070 --> 01:11:14,960

always try to stand

2010

01:11:19,590 --> 01:11:18,080

lane and and so like my lane is uh

2011

01:11:20,870 --> 01:11:19,600

i have good you know i've been able to

2012

01:11:22,390 --> 01:11:20,880

get some good connections and

2013

01:11:23,830 --> 01:11:22,400

relationships with people

2014

01:11:25,590 --> 01:11:23,840

inside the government who know a little

2015

01:11:26,310 --> 01:11:25,600

about this or a lot about this or

2016

01:11:27,910 --> 01:11:26,320

something

2017

01:11:29,510 --> 01:11:27,920

and so i try to work to get information

2018

01:11:30,550 --> 01:11:29,520

that came out of the public but when it

2019

01:11:33,669 --> 01:11:30,560

comes to those real

2020

01:11:35,669 --> 01:11:33,679

great analysis that people do um

2021

01:11:36,870 --> 01:11:35,679

often i turn to experts or either turn

2022

01:11:40,790 --> 01:11:36,880

to the people who are

2023

01:11:43,510 --> 01:11:40,800

doing it the the people like um oh gosh

2024

01:11:45,270 --> 01:11:43,520

uh i knew why is the name escaping me

2025

01:11:47,189 --> 01:11:45,280

but for mufon that does the

2026
01:11:48,390 --> 01:11:47,199
video announcement marcie antonio

2027
01:11:51,430 --> 01:11:48,400
antonio yes

2028
01:11:53,590 --> 01:11:51,440
we we spoke before my article um i

2029
01:11:56,149 --> 01:11:53,600
talked to him about his uso encounter

2030
01:11:57,110 --> 01:11:56,159
and um so people like that do a great

2031
01:12:00,390 --> 01:11:57,120
job

2032
01:12:01,830 --> 01:12:00,400
and um i'll be looking for that for me

2033
01:12:03,669 --> 01:12:01,840
and and people have probably seen it in

2034
01:12:06,310 --> 01:12:03,679
my articles i did it

2035
01:12:08,550 --> 01:12:06,320
with the an article that was published

2036
01:12:09,590 --> 01:12:08,560
in january in popular mechanics about

2037
01:12:12,149 --> 01:12:09,600
the nimitz event

2038
01:12:14,070 --> 01:12:12,159

i turn it over to experts i hand in to

2039

01:12:16,149 --> 01:12:14,080

somebody whose job it is i mean

2040

01:12:17,189 --> 01:12:16,159

it's the same thing i would have did as

2041

01:12:18,630 --> 01:12:17,199

a police investigator

2042

01:12:20,790 --> 01:12:18,640

i'd hand it to the forensics people i'd

2043

01:12:22,470 --> 01:12:20,800

hand it to whoever

2044

01:12:24,229 --> 01:12:22,480

to really assess that but i think it's a

2045

01:12:26,149 --> 01:12:24,239

great question i would love

2046

01:12:27,510 --> 01:12:26,159

to see more analysis done on that video

2047

01:12:30,709 --> 01:12:27,520

frankly yeah

2048

01:12:32,070 --> 01:12:30,719

yeah uh yeah and mark would be yeah

2049

01:12:34,070 --> 01:12:32,080

it would think that he would really

2050

01:12:37,189 --> 01:12:34,080

attack that one you know the uh

2051

01:12:39,430 --> 01:12:37,199

the scu did a really good job on some

2052

01:12:40,630 --> 01:12:39,440

on some videos it'd be great to see them

2053

01:12:43,270 --> 01:12:40,640

tackle that uh

2054

01:12:44,709 --> 01:12:43,280

so uh someone from the uk has this

2055

01:12:46,310 --> 01:12:44,719

question pj hughes

2056

01:12:48,470 --> 01:12:46,320

who's also been on the show stated that

2057

01:12:50,550 --> 01:12:48,480

the e2 hawkeye captured certain

2058

01:12:52,709 --> 01:12:50,560

frequencies from the tic tac

2059

01:12:55,350 --> 01:12:52,719

um do you have any more information on

2060

01:12:55,910 --> 01:12:55,360

that i don't i've spoken to pj about

2061

01:12:58,950 --> 01:12:55,920

that

2062

01:13:01,350 --> 01:12:58,960

and um you know you know he's

2063

01:13:02,630 --> 01:13:01,360

shared as much as he can because those

2064

01:13:04,790 --> 01:13:02,640

systems you know

2065

01:13:06,630 --> 01:13:04,800

may carry you know that's that's the

2066

01:13:07,830 --> 01:13:06,640

tough part with all of this

2067

01:13:09,910 --> 01:13:07,840

is that none of these systems were

2068

01:13:11,350 --> 01:13:09,920

designed to hunt ufos

2069

01:13:13,270 --> 01:13:11,360

they were designed for other military

2070

01:13:14,709 --> 01:13:13,280

purposes and so there's stuff that they

2071

01:13:17,030 --> 01:13:14,719

can't share

2072

01:13:18,630 --> 01:13:17,040

um and so i don't know particularly what

2073

01:13:22,390 --> 01:13:18,640

type of electronic

2074

01:13:25,430 --> 01:13:22,400

or signals data was recovered from that

2075

01:13:28,550 --> 01:13:25,440

i did speak to an individual

2076

01:13:30,310 --> 01:13:28,560

who uh i have talked about i'm trying to

2077

01:13:31,110 --> 01:13:30,320

see if i've written it in any articles

2078

01:13:33,750 --> 01:13:31,120

but but his

2079

01:13:34,630 --> 01:13:33,760

you know i've mentioned it before uh who

2080

01:13:38,790 --> 01:13:34,640

was

2081

01:13:40,149 --> 01:13:38,800

warfare officer on the uss princeton

2082

01:13:42,390 --> 01:13:40,159

during this event

2083

01:13:43,990 --> 01:13:42,400

and um i did speak to them they they're

2084

01:13:45,510 --> 01:13:44,000

out of the military now but they work

2085

01:13:47,430 --> 01:13:45,520

for another

2086

01:13:49,110 --> 01:13:47,440

aerospace company so they can't come

2087

01:13:50,470 --> 01:13:49,120

forward by name

2088

01:13:52,790 --> 01:13:50,480

but we did have a good chat and you know

2089

01:13:54,070 --> 01:13:52,800

for him he said it did not

2090

01:13:55,350 --> 01:13:54,080

in fact it was really interesting

2091

01:13:56,790 --> 01:13:55,360

interview because it added some other

2092

01:13:59,350 --> 01:13:56,800

dynamics that i don't think have been

2093

01:14:01,669 --> 01:13:59,360

out there because this was his job

2094

01:14:03,830 --> 01:14:01,679

and you know he pointed out to me that

2095

01:14:05,750 --> 01:14:03,840

they could only get returns on this

2096

01:14:06,709 --> 01:14:05,760

object from the princeton based on

2097

01:14:09,669 --> 01:14:06,719

surface returns

2098

01:14:12,390 --> 01:14:09,679

so passive radar systems and he

2099

01:14:14,149 --> 01:14:12,400

explained that when the spy-1 radar

2100

01:14:15,990 --> 01:14:14,159

was first getting them and they thought

2101
01:14:17,189 --> 01:14:16,000
that uh in garyvoy he's just talked

2102
01:14:19,110 --> 01:14:17,199
about this where

2103
01:14:20,790 --> 01:14:19,120
they took down the spy one which was a

2104
01:14:23,030 --> 01:14:20,800
brand new radar system

2105
01:14:24,630 --> 01:14:23,040
and uh you know just because they

2106
01:14:25,830 --> 01:14:24,640
thought it was malfunctioning

2107
01:14:28,070 --> 01:14:25,840
this gentleman told me that they

2108
01:14:30,470 --> 01:14:28,080
actually put up two other radar systems

2109
01:14:32,149 --> 01:14:30,480
to double check this you know two of the

2110
01:14:33,590 --> 01:14:32,159
previous iterations

2111
01:14:35,510 --> 01:14:33,600
and they could only get surface returns

2112
01:14:36,229 --> 01:14:35,520
they could not get signals or electronic

2113
01:14:39,110 --> 01:14:36,239

data

2114

01:14:40,550 --> 01:14:39,120

now that's from the princeton there's a

2115

01:14:42,229 --> 01:14:40,560

reason that the e2

2116

01:14:43,750 --> 01:14:42,239

hawkeye exist there's a reason we have

2117

01:14:44,709 --> 01:14:43,760

earlier warning planes and that's

2118

01:14:47,030 --> 01:14:44,719

because they have more

2119

01:14:48,709 --> 01:14:47,040

sophisticated systems to track data so

2120

01:14:50,550 --> 01:14:48,719

there is the potential exist

2121

01:14:52,390 --> 01:14:50,560

that the uh the airborne system could

2122

01:14:55,830 --> 01:14:52,400

have gotten better data

2123

01:14:56,870 --> 01:14:55,840

um but i haven't heard and pj's never

2124

01:15:00,390 --> 01:14:56,880

told me

2125

01:15:03,750 --> 01:15:00,400

anything or hinted at saying that

2126

01:15:06,070 --> 01:15:03,760

the signature data was consistent with

2127

01:15:07,590 --> 01:15:06,080

it being some type of known platform

2128

01:15:11,030 --> 01:15:07,600

both foreign or otherwise

2129

01:15:14,229 --> 01:15:11,040

so um i wish i had more for you

2130

01:15:15,189 --> 01:15:14,239

yeah uh uh have you even uh i'm gonna

2131

01:15:18,390 --> 01:15:15,199

bring this up uh

2132

01:15:21,910 --> 01:15:18,400

neil i'll ask this question um do

2133

01:15:23,189 --> 01:15:21,920

can you expand on the israel ex security

2134

01:15:25,110 --> 01:15:23,199

chief statements now

2135

01:15:26,630 --> 01:15:25,120

i someone said that i mean the first

2136

01:15:28,870 --> 01:15:26,640

thing i read was

2137

01:15:30,470 --> 01:15:28,880

intergalactic something and i go oh my

2138

01:15:32,470 --> 01:15:30,480

god this this has got to be

2139

01:15:34,630 --> 01:15:32,480

a hoax uh so i didn't read into it have

2140

01:15:36,630 --> 01:15:34,640

you read more on that

2141

01:15:37,750 --> 01:15:36,640

i did and here's why i was interested i

2142

01:15:38,310 --> 01:15:37,760

mean don't get me wrong when i first saw

2143

01:15:40,390 --> 01:15:38,320

it i thought

2144

01:15:41,430 --> 01:15:40,400

probably the same thing you did i went

2145

01:15:44,470 --> 01:15:41,440

oh dear lord

2146

01:15:47,990 --> 01:15:44,480

what is this silliness um but

2147

01:15:49,189 --> 01:15:48,000

it's very very fortunate because uh

2148

01:15:51,030 --> 01:15:49,199

when i was in policing in the state of

2149

01:15:52,790 --> 01:15:51,040

georgia we had a program called glee

2150

01:15:54,709 --> 01:15:52,800

which is the the georgia israeli law

2151
01:15:55,430 --> 01:15:54,719
enforcement exchange program so every

2152
01:15:57,590 --> 01:15:55,440
year

2153
01:15:58,790 --> 01:15:57,600
uh you had a set of uh law enforcement

2154
01:16:00,310 --> 01:15:58,800
commanders of different agencies in

2155
01:16:00,870 --> 01:16:00,320
georgia would go to israel for a week

2156
01:16:02,550 --> 01:16:00,880
and then

2157
01:16:04,950 --> 01:16:02,560
on the other half the year israeli

2158
01:16:08,390 --> 01:16:04,960
commanders would come in wow

2159
01:16:11,590 --> 01:16:08,400
yeah yeah really cool program yeah and

2160
01:16:14,630 --> 01:16:11,600
uh because i was the only probably still

2161
01:16:16,149 --> 01:16:14,640
am the only that ever uh you know was in

2162
01:16:17,669 --> 01:16:16,159
policing the state of georgia who who

2163
01:16:19,430 --> 01:16:17,679

spoke hebrew who was fleeing

2164

01:16:20,790 --> 01:16:19,440

in hebrew i got roped i was gonna say

2165

01:16:22,149 --> 01:16:20,800

that would be a stumbling block for the

2166

01:16:24,149 --> 01:16:22,159

exchange

2167

01:16:25,830 --> 01:16:24,159

right well and most everybody speaks

2168

01:16:27,189 --> 01:16:25,840

english but i spoke hebrew and so it was

2169

01:16:28,630 --> 01:16:27,199

nice i always got

2170

01:16:30,390 --> 01:16:28,640

tasked to these details but to make

2171

01:16:32,870 --> 01:16:30,400

great contacts in israel

2172

01:16:34,550 --> 01:16:32,880

and so uh after this all came out i kind

2173

01:16:36,149 --> 01:16:34,560

of was like jeez but then

2174

01:16:37,830 --> 01:16:36,159

and i heard about it i actually heard

2175

01:16:39,430 --> 01:16:37,840

about it from israeli friend

2176

01:16:40,870 --> 01:16:39,440

very early on like right after the

2177

01:16:43,990 --> 01:16:40,880

interview and i went

2178

01:16:45,910 --> 01:16:44,000

this is nuts and dismissed it then it

2179

01:16:47,110 --> 01:16:45,920

blew up in the english-speaking media

2180

01:16:49,750 --> 01:16:47,120

and i was like oh god

2181

01:16:51,590 --> 01:16:49,760

yeah it was everywhere yeah right and so

2182

01:16:52,630 --> 01:16:51,600

i asked some people i'm like what is the

2183

01:16:54,070 --> 01:16:52,640

deal with this

2184

01:16:56,229 --> 01:16:54,080

and it was interesting because they said

2185

01:16:59,350 --> 01:16:56,239

you know if english-speaking media

2186

01:17:02,709 --> 01:16:59,360

people are surprised by what was said

2187

01:17:05,750 --> 01:17:02,719

imagine us and israel are like i'm sorry

2188

01:17:07,189 --> 01:17:05,760

what because uh he

2189

01:17:08,709 --> 01:17:07,199

this was a this is actually a very

2190

01:17:10,950 --> 01:17:08,719

respected gentleman i mean my first

2191

01:17:13,110 --> 01:17:10,960

thoughts were he's nearly 90 years old

2192

01:17:14,550 --> 01:17:13,120

as any of us could experience you know

2193

01:17:16,310 --> 01:17:14,560

potential decline in middle

2194

01:17:18,390 --> 01:17:16,320

mental faculties my concern was is

2195

01:17:20,790 --> 01:17:18,400

somebody taking advantage of him

2196

01:17:22,470 --> 01:17:20,800

yeah but i i didn't get any indication

2197

01:17:24,950 --> 01:17:22,480

that was the sentence

2198

01:17:26,149 --> 01:17:24,960

and they said no he's highly respected

2199

01:17:29,350 --> 01:17:26,159

he's the grandfather of

2200

01:17:29,669 --> 01:17:29,360

israel's space program but they said in

2201

01:17:32,470 --> 01:17:29,679

the

2202

01:17:33,350 --> 01:17:32,480

general opinion is a um it's kind of

2203

01:17:37,030 --> 01:17:33,360

been well known

2204

01:17:39,510 --> 01:17:37,040

he's actually a a ufo

2205

01:17:40,950 --> 01:17:39,520

buff or let's say believer for a long

2206

01:17:42,310 --> 01:17:40,960

time he's been interested in this topic

2207

01:17:44,630 --> 01:17:42,320

for a long time

2208

01:17:45,750 --> 01:17:44,640

and so their kind of general assessment

2209

01:17:49,110 --> 01:17:45,760

of this was

2210

01:17:51,430 --> 01:17:49,120

is that they think he yeah you know

2211

01:17:52,310 --> 01:17:51,440

when he said that he was saying things

2212

01:17:55,430 --> 01:17:52,320

that he has

2213

01:17:57,990 --> 01:17:55,440

read in other places or been told by

2214

01:18:00,630 --> 01:17:58,000

other people not necessarily in

2215

01:18:04,070 --> 01:18:00,640

positions of a power or authority

2216

01:18:04,870 --> 01:18:04,080

and yet there may be a very good reason

2217

01:18:07,590 --> 01:18:04,880

why he would

2218

01:18:09,430 --> 01:18:07,600

believe these things in essence they

2219

01:18:11,270 --> 01:18:09,440

believe that during his time as a

2220

01:18:13,669 --> 01:18:11,280

security chief for israel

2221

01:18:14,630 --> 01:18:13,679

uh in the space program that he may have

2222

01:18:16,229 --> 01:18:14,640

been made aware

2223

01:18:18,149 --> 01:18:16,239

of things that the u.s government or

2224

01:18:19,910 --> 01:18:18,159

other governments haven't talked about

2225

01:18:20,870 --> 01:18:19,920

or kind of dismissed or this idea i

2226

01:18:22,310 --> 01:18:20,880

think

2227

01:18:24,229 --> 01:18:22,320

there's plenty of times we've heard that

2228

01:18:25,189 --> 01:18:24,239

the people in in the military say yeah

2229

01:18:27,669 --> 01:18:25,199

we catch

2230

01:18:28,870 --> 01:18:27,679

you know fast movers and fast walkers

2231

01:18:31,910 --> 01:18:28,880

you know these weird

2232

01:18:34,390 --> 01:18:31,920

stuff comes up all the time and so

2233

01:18:35,750 --> 01:18:34,400

i think that there's a little bit of

2234

01:18:37,990 --> 01:18:35,760

potential that he is

2235

01:18:39,590 --> 01:18:38,000

he is taking maybe he does have some

2236

01:18:39,990 --> 01:18:39,600

more tangible information that the us

2237

01:18:41,430 --> 01:18:40,000

government

2238

01:18:43,830 --> 01:18:41,440

knows more about this stuff or has

2239

01:18:45,750 --> 01:18:43,840

invested more in it and then also

2240

01:18:47,030 --> 01:18:45,760

i mean i was told he he's always had a

2241

01:18:48,550 --> 01:18:47,040

big imagination

2242

01:18:50,790 --> 01:18:48,560

and you know that's what's made him a

2243

01:18:51,430 --> 01:18:50,800

great in leading the israel space

2244

01:18:53,270 --> 01:18:51,440

program

2245

01:18:55,350 --> 01:18:53,280

you know people who believe we can get

2246

01:18:58,630 --> 01:18:55,360

off the ground are the ones who do

2247

01:19:01,510 --> 01:18:58,640

and so um i i haven't

2248

01:19:03,750 --> 01:19:01,520

found anyone who's you know and and

2249

01:19:07,110 --> 01:19:03,760

everyone i've i've spoken with

2250

01:19:08,870 --> 01:19:07,120

um in the us government if

2251

01:19:10,229 --> 01:19:08,880

such a thing as a galactic federation

2252

01:19:11,270 --> 01:19:10,239

exists they're different they've done a

2253

01:19:14,390 --> 01:19:11,280

great job

2254

01:19:16,630 --> 01:19:14,400

keeping that secret um that was star

2255

01:19:20,229 --> 01:19:16,640

wars wasn't it wasn't it star wars or

2256

01:19:21,990 --> 01:19:20,239

i i think harry potter yeah right

2257

01:19:23,990 --> 01:19:22,000

and it's one of these things where you

2258

01:19:25,030 --> 01:19:24,000

know it plays on our hopes and dreams

2259

01:19:26,870 --> 01:19:25,040

and what you know what i

2260

01:19:28,149 --> 01:19:26,880

that would be great you know i've told

2261

01:19:30,550 --> 01:19:28,159

people i have no

2262

01:19:31,910 --> 01:19:30,560

problem saying is that i'm very cautious

2263

01:19:32,950 --> 01:19:31,920

as to say what are my feelings or

2264

01:19:34,630 --> 01:19:32,960

opinions or

2265

01:19:36,310 --> 01:19:34,640

hopes and dreams as opposed to what i

2266

01:19:37,750 --> 01:19:36,320

put on which i just try

2267

01:19:39,350 --> 01:19:37,760

i try to present it just like it was a

2268

01:19:41,590 --> 01:19:39,360

case i was going to take to court

2269

01:19:42,790 --> 01:19:41,600

in policing and i'd swear on stand is

2270

01:19:46,070 --> 01:19:42,800

the truth

2271

01:19:50,070 --> 01:19:46,080

but if you talk about hopes and dreams

2272

01:19:51,669 --> 01:19:50,080

i hope all this stuff is alien because

2273

01:19:53,110 --> 01:19:51,679

human beings have this really distinct

2274

01:19:55,110 --> 01:19:53,120

ability that when we

2275

01:19:57,110 --> 01:19:55,120

know something's possible we end up

2276

01:19:57,990 --> 01:19:57,120

doing it and so i want to travel the

2277

01:20:00,470 --> 01:19:58,000

cosmos

2278

01:20:01,430 --> 01:20:00,480

i want to zip around the solar system

2279

01:20:03,830 --> 01:20:01,440

you know that i

2280

01:20:05,510 --> 01:20:03,840

i want to do that and so i hope it's

2281

01:20:09,030 --> 01:20:05,520

alien and so i don't know

2282

01:20:09,669 --> 01:20:09,040

how much if uh and his name escapes me

2283

01:20:12,950 --> 01:20:09,679

right now

2284

01:20:14,229 --> 01:20:12,960

i'm i think it's a psalm but he um

2285

01:20:16,310 --> 01:20:14,239

i don't know how much of that is kind of

2286

01:20:17,189 --> 01:20:16,320

his hopes and dreams mixed in with maybe

2287

01:20:20,470 --> 01:20:17,199

a little truth

2288

01:20:22,070 --> 01:20:20,480

in terms of the idea that indeed there's

2289

01:20:24,950 --> 01:20:22,080

uh there's definitely something more

2290

01:20:27,350 --> 01:20:24,960

legit to the idea of ufos

2291

01:20:29,110 --> 01:20:27,360

not representing being something very

2292

01:20:30,629 --> 01:20:29,120

complex that that

2293

01:20:31,990 --> 01:20:30,639

even some of the most sophisticated

2294

01:20:33,110 --> 01:20:32,000

militaries in the world don't have an

2295

01:20:36,470 --> 01:20:33,120

answer for it

2296

01:20:39,590 --> 01:20:36,480

right right um i was trying to

2297

01:20:40,310 --> 01:20:39,600

ask questions the chat's kind of messed

2298

01:20:42,629 --> 01:20:40,320

up a little bit i

2299

01:20:44,310 --> 01:20:42,639

i have one after this but uh all right

2300

01:20:46,470 --> 01:20:44,320

so this is by neil again

2301

01:20:48,310 --> 01:20:46,480

doesn't the highest chief of staff only

2302

01:20:50,790 --> 01:20:48,320

now being briefed mean

2303

01:20:51,910 --> 01:20:50,800

black budget programs and uap data has

2304

01:20:54,950 --> 01:20:51,920

never been

2305

01:20:56,310 --> 01:20:54,960

under their control which uh i believe

2306

01:20:58,790 --> 01:20:56,320

that is

2307

01:21:01,510 --> 01:20:58,800

so any of the you know any anything that

2308

01:21:04,550 --> 01:21:01,520

goes private is not under congressional

2309

01:21:06,709 --> 01:21:04,560

uh oversight basically right sure

2310

01:21:08,550 --> 01:21:06,719

i mean and that has always been the the

2311

01:21:09,750 --> 01:21:08,560

most intriguing aspect of all of this

2312

01:21:13,110 --> 01:21:09,760

and this is where

2313

01:21:14,070 --> 01:21:13,120

uh i'm willing to let's say jump into

2314

01:21:16,229 --> 01:21:14,080

the rabbit hole

2315

01:21:17,510 --> 01:21:16,239

of conspiracy to an extent of some

2316

01:21:20,629 --> 01:21:17,520

people

2317

01:21:24,070 --> 01:21:20,639

is that i mean twofold here is i

2318

01:21:25,510 --> 01:21:24,080

do and it's it's when you talk to some

2319

01:21:28,470 --> 01:21:25,520

of the people working in government

2320

01:21:29,990 --> 01:21:28,480

and everything who have been privy to

2321

01:21:31,510 --> 01:21:30,000

this type of stuff or there's

2322

01:21:32,870 --> 01:21:31,520

there's one individual i really really

2323

01:21:34,390 --> 01:21:32,880

pray i try to get him before this

2324

01:21:37,189 --> 01:21:34,400

article to come out on the record

2325

01:21:38,310 --> 01:21:37,199

um he won't i understand why at this

2326

01:21:41,910 --> 01:21:38,320

point in time

2327

01:21:43,590 --> 01:21:41,920

uh but he is a um he's a former senior

2328

01:21:44,310 --> 01:21:43,600

advisor to the white house for general

2329

01:21:47,350 --> 01:21:44,320

mattis

2330

01:21:49,030 --> 01:21:47,360

um he was briefed by louis lozando on

2331

01:21:51,030 --> 01:21:49,040

multiple occasions and so he was like

2332

01:21:54,310 --> 01:21:51,040

the first one who's like

2333

01:21:55,830 --> 01:21:54,320

and he point blank told me after um

2334

01:21:58,470 --> 01:21:55,840

the intercept article last year the

2335

01:22:00,310 --> 01:21:58,480

pentagon denied it he um

2336

01:22:01,510 --> 01:22:00,320

he said he called public affairs and was

2337

01:22:02,470 --> 01:22:01,520

like what the hell are you people

2338

01:22:04,629 --> 01:22:02,480

talking about

2339

01:22:05,990 --> 01:22:04,639

i was briefed by this i was read into

2340

01:22:10,070 --> 01:22:06,000

this why are you saying

2341

01:22:13,110 --> 01:22:10,080

this like i was there um

2342

01:22:14,629 --> 01:22:13,120

and so you know i i hear

2343

01:22:16,310 --> 01:22:14,639

this side of it and you learn the

2344

01:22:17,830 --> 01:22:16,320

bureaucratic side of it and one of the

2345

01:22:18,629 --> 01:22:17,840

things that was really compelling and

2346

01:22:21,910 --> 01:22:18,639

interesting for me

2347

01:22:24,390 --> 01:22:21,920

and him was because he was the man there

2348

01:22:25,910 --> 01:22:24,400

for mattis so you've heard louis lozando

2349

01:22:27,270 --> 01:22:25,920

say he quit out of frustration because

2350

01:22:28,950 --> 01:22:27,280

he couldn't get to mattis

2351

01:22:30,790 --> 01:22:28,960

well here you know here's the inner

2352

01:22:32,070 --> 01:22:30,800

circle him and two other advisors who

2353

01:22:33,510 --> 01:22:32,080

were the people being briefed who

2354

01:22:36,870 --> 01:22:33,520

weren't going to matter

2355

01:22:39,990 --> 01:22:36,880

and uh when i found out the reasons why

2356

01:22:40,550 --> 01:22:40,000

you you go oh god that makes perfect

2357

01:22:42,149 --> 01:22:40,560

sense

2358

01:22:43,990 --> 01:22:42,159

like there's not a conspiracy or cover

2359

01:22:46,550 --> 01:22:44,000

up you realize that uh

2360

01:22:48,870 --> 01:22:46,560

human beings are human beings as in in

2361

01:22:50,149 --> 01:22:48,880

2017 when this was going on you just

2362

01:22:52,470 --> 01:22:50,159

faced an entire presidential

2363

01:22:53,910 --> 01:22:52,480

administration change a administration

2364

01:22:56,709 --> 01:22:53,920

changed it was chaotic and

2365

01:22:58,470 --> 01:22:56,719

frankly never resumed anything that's

2366

01:23:01,510 --> 01:22:58,480

resembled

2367

01:23:02,870 --> 01:23:01,520

an effective government uh

2368

01:23:04,470 --> 01:23:02,880

for the preceding four years in my

2369

01:23:07,110 --> 01:23:04,480

opinion you had a lot i mean that was

2370

01:23:09,030 --> 01:23:07,120

lamented in my report were you

2371

01:23:10,310 --> 01:23:09,040

the somebody running the task force

2372

01:23:12,470 --> 01:23:10,320

saying you know

2373

01:23:13,830 --> 01:23:12,480

there's been you know four different

2374

01:23:15,430 --> 01:23:13,840

secretaries of the navy and

2375

01:23:17,030 --> 01:23:15,440

three different secretaries of defense

2376

01:23:18,070 --> 01:23:17,040

in this time we can't get on the same

2377

01:23:20,070 --> 01:23:18,080

page on anything because you're

2378

01:23:21,910 --> 01:23:20,080

constantly just briefing people

2379

01:23:23,669 --> 01:23:21,920

so you realize oh wow these these things

2380

01:23:25,430 --> 01:23:23,679

are mundane and i've always said in

2381

01:23:29,189 --> 01:23:25,440

terms of the

2382

01:23:31,590 --> 01:23:29,199

ufo quote cover-up maybe willful apathy

2383

01:23:32,310 --> 01:23:31,600

would be a good term because if you want

2384

01:23:35,669 --> 01:23:32,320

to tell

2385

01:23:36,149 --> 01:23:35,679

if you want me to believe that the idea

2386

01:23:38,229 --> 01:23:36,159

that

2387

01:23:39,590 --> 01:23:38,239

somebody who's got four stars on their

2388

01:23:41,510 --> 01:23:39,600

shoulder they have reached the

2389

01:23:43,110 --> 01:23:41,520

pinnacle of their career they're like

2390

01:23:44,790 --> 01:23:43,120

three four years from retirement

2391

01:23:47,110 --> 01:23:44,800

and they have arrived you know something

2392

01:23:48,470 --> 01:23:47,120

that started when they were in rotc at

2393

01:23:49,350 --> 01:23:48,480

high school and when they went to west

2394

01:23:52,229 --> 01:23:49,360

point like this

2395

01:23:52,550 --> 01:23:52,239

is it and you come to them and say you

2396

01:23:54,550 --> 01:23:52,560

know

2397

01:23:55,669 --> 01:23:54,560

sir ma'am here goes all this information

2398

01:23:57,510 --> 01:23:55,679

we got

2399

01:23:59,430 --> 01:23:57,520

this is nuts we don't know how to defend

2400

01:24:03,430 --> 01:23:59,440

it it's not attacking us

2401

01:24:05,830 --> 01:24:03,440

but it is i can absolutely

2402

01:24:06,950 --> 01:24:05,840

see somebody in that position going i

2403

01:24:09,910 --> 01:24:06,960

believe you

2404

01:24:10,229 --> 01:24:09,920

that sounds crazy and incredible and i'm

2405

01:24:12,629 --> 01:24:10,239

gonna

2406

01:24:15,430 --> 01:24:12,639

leave that for the next guy or girl i

2407

01:24:17,189 --> 01:24:15,440

think that's been going on since 1947

2408

01:24:18,550 --> 01:24:17,199

yes because it's just like i don't know

2409

01:24:21,350 --> 01:24:18,560

how like this is

2410

01:24:22,470 --> 01:24:21,360

not what my career was built on and

2411

01:24:24,629 --> 01:24:22,480

learning how to

2412

01:24:26,390 --> 01:24:24,639

attack or how to deal with and so i'm

2413

01:24:28,950 --> 01:24:26,400

going to leave it for somebody else

2414

01:24:29,990 --> 01:24:28,960

but at the same time i think there's

2415

01:24:31,669 --> 01:24:30,000

potential and we saw that

2416

01:24:33,590 --> 01:24:31,679

when i did the report in popular

2417

01:24:36,790 --> 01:24:33,600

mechanics on how awesome

2418

01:24:38,709 --> 01:24:36,800

was ran with with bass uh it was

2419

01:24:40,470 --> 01:24:38,719

fascinating that they ran it like what

2420

01:24:41,830 --> 01:24:40,480

i'm typically can

2421

01:24:43,350 --> 01:24:41,840

i'm familiar with are what's called

2422

01:24:44,229 --> 01:24:43,360

carve outs they're usually used in

2423

01:24:46,629 --> 01:24:44,239

covert

2424

01:24:47,430 --> 01:24:46,639

intelligence programs where you you form

2425

01:24:49,830 --> 01:24:47,440

an entire

2426

01:24:51,110 --> 01:24:49,840

shell company and you hide the true

2427

01:24:54,070 --> 01:24:51,120

purpose of the company

2428

01:24:55,669 --> 01:24:54,080

and what's actually going on and so the

2429

01:24:57,189 --> 01:24:55,679

actual product and work that you're

2430

01:24:59,669 --> 01:24:57,199

really interested in

2431

01:25:00,629 --> 01:24:59,679

is considered proprietary because

2432

01:25:02,870 --> 01:25:00,639

proprietary

2433

01:25:04,310 --> 01:25:02,880

is exempt from foia it's exempt from the

2434

01:25:07,270 --> 01:25:04,320

actual the federal government

2435

01:25:10,070 --> 01:25:07,280

is legally prevented from releasing

2436

01:25:12,310 --> 01:25:10,080

proprietary information

2437

01:25:14,070 --> 01:25:12,320

so they can't it belongs to those

2438

01:25:15,990 --> 01:25:14,080

companies but yet the information they

2439

01:25:19,030 --> 01:25:16,000

want is housing those companies

2440

01:25:20,310 --> 01:25:19,040

so there has been times in talking to

2441

01:25:21,270 --> 01:25:20,320

people and dealing with this that i

2442

01:25:24,470 --> 01:25:21,280

wonder

2443

01:25:26,709 --> 01:25:24,480

if at one point in time um

2444

01:25:27,990 --> 01:25:26,719

that considerable more information or

2445

01:25:30,629 --> 01:25:28,000

you hear people talk about

2446

01:25:32,229 --> 01:25:30,639

crash wreckage that type of stuff if

2447

01:25:34,470 --> 01:25:32,239

indeed that exists

2448

01:25:36,629 --> 01:25:34,480

i i truly believe that that was

2449

01:25:39,590 --> 01:25:36,639

something that for reasons i don't know

2450

01:25:41,910 --> 01:25:39,600

our reasons for extreme security was

2451

01:25:45,430 --> 01:25:41,920

transferred into private industry

2452

01:25:47,910 --> 01:25:45,440

uh personnel and uh you know

2453

01:25:49,270 --> 01:25:47,920

it's no secret i've mentioned this on

2454

01:25:50,790 --> 01:25:49,280

numerous occasions that

2455

01:25:52,229 --> 01:25:50,800

probably the prime suspect for me would

2456

01:25:53,590 --> 01:25:52,239

have been the atomic energy commission

2457

01:25:55,669 --> 01:25:53,600

which later became the department of

2458

01:25:58,629 --> 01:25:55,679

energy because it was a totally civilian

2459

01:26:01,590 --> 01:25:58,639

organic organization and so when it was

2460

01:26:04,390 --> 01:26:01,600

adopted as a federal organization

2461

01:26:06,070 --> 01:26:04,400

be very easy to just transfer that stuff

2462

01:26:08,629 --> 01:26:06,080

into a civilian component

2463

01:26:10,870 --> 01:26:08,639

and and so i wonder even with the modern

2464

01:26:11,590 --> 01:26:10,880

news when we see this we're like how can

2465

01:26:14,550 --> 01:26:11,600

the government

2466

01:26:15,270 --> 01:26:14,560

not know more or how can they not seem

2467

01:26:17,430 --> 01:26:15,280

like they know

2468

01:26:19,350 --> 01:26:17,440

more they've been involved with this for

2469

01:26:21,430 --> 01:26:19,360

so many years and i mean they've got

2470

01:26:22,790 --> 01:26:21,440

all these classified and sophisticated

2471

01:26:25,590 --> 01:26:22,800

systems

2472

01:26:27,030 --> 01:26:25,600

i wonder how much the government itself

2473

01:26:29,990 --> 01:26:27,040

is a bit hapless

2474

01:26:31,430 --> 01:26:30,000

to what potentially is being housed in

2475

01:26:34,870 --> 01:26:31,440

um

2476
01:26:38,070 --> 01:26:34,880
private industry they don't have access

2477
01:26:38,629 --> 01:26:38,080
and that's uh you know if indeed that's

2478
01:26:40,310 --> 01:26:38,639
the case

2479
01:26:42,310 --> 01:26:40,320
it opens up a whole it's kind of like

2480
01:26:43,510 --> 01:26:42,320
when they talk about the usos there's a

2481
01:26:47,110 --> 01:26:43,520
whole new

2482
01:26:49,350 --> 01:26:47,120
dynamic and component to this because

2483
01:26:50,550 --> 01:26:49,360
there is not the same oversight there is

2484
01:26:51,669 --> 01:26:50,560
not the same

2485
01:26:53,830 --> 01:26:51,679
as you want to talk about the men in

2486
01:26:55,590 --> 01:26:53,840
black or all of these different things

2487
01:26:57,910 --> 01:26:55,600
that people talk about harassment

2488
01:26:59,990 --> 01:26:57,920

counterintelligence disinfo

2489

01:27:02,470 --> 01:27:00,000

there's just tons and tons and tons of

2490

01:27:04,550 --> 01:27:02,480

regulation at the u.s government level

2491

01:27:06,310 --> 01:27:04,560

that make red tape and difficult private

2492

01:27:07,830 --> 01:27:06,320

industry

2493

01:27:09,990 --> 01:27:07,840

no problems they can do whatever they

2494

01:27:12,950 --> 01:27:10,000

want and so

2495

01:27:14,310 --> 01:27:12,960

do you think do you think the do you

2496

01:27:16,709 --> 01:27:14,320

think the government knows

2497

01:27:19,030 --> 01:27:16,719

a lot more than the rest of us or do you

2498

01:27:22,149 --> 01:27:19,040

think they know a little more or

2499

01:27:25,910 --> 01:27:22,159

not anything more than the rest of us

2500

01:27:28,950 --> 01:27:25,920

about what i think what is going on

2501

01:27:32,229 --> 01:27:28,960

i think they know a lot more i do

2502

01:27:34,709 --> 01:27:32,239

that doesn't mean that i say that in

2503

01:27:37,830 --> 01:27:34,719

saying i don't know that they know

2504

01:27:40,709 --> 01:27:37,840

what i think that um

2505

01:27:41,990 --> 01:27:40,719

they know a lot more in the sense that

2506

01:27:45,110 --> 01:27:42,000

um

2507

01:27:46,229 --> 01:27:45,120

where the average person maybe easily

2508

01:27:49,590 --> 01:27:46,239

dismisses this

2509

01:27:51,110 --> 01:27:49,600

as just a fringe topic and just kind of

2510

01:27:53,350 --> 01:27:51,120

yeah whatever i mean that that's

2511

01:27:55,189 --> 01:27:53,360

actually the the the social sentiment

2512

01:27:56,470 --> 01:27:55,199

that the topic adopted when blue book

2513

01:27:58,629 --> 01:27:56,480

was closed

2514

01:28:00,229 --> 01:27:58,639

is that oh yeah this is just foue you

2515

01:28:01,669 --> 01:28:00,239

know um

2516

01:28:03,270 --> 01:28:01,679

you know there's nothing to this and

2517

01:28:06,229 --> 01:28:03,280

anybody believes in that is just

2518

01:28:08,229 --> 01:28:06,239

you know on the fringe you know

2519

01:28:11,830 --> 01:28:08,239

criticized and stigmatized

2520

01:28:14,470 --> 01:28:11,840

um however nobody actually like

2521

01:28:15,510 --> 01:28:14,480

happened to mention that to whatever

2522

01:28:17,750 --> 01:28:15,520

these objects are

2523

01:28:19,030 --> 01:28:17,760

because it's very very fascinating to

2524

01:28:21,030 --> 01:28:19,040

look at kind of the data for the

2525

01:28:23,990 --> 01:28:21,040

civilian agencies who continued

2526

01:28:25,669 --> 01:28:24,000

examining this post 1969 because their

2527

01:28:27,669 --> 01:28:25,679

data is

2528

01:28:29,510 --> 01:28:27,679

totally consistent with what blue book

2529

01:28:31,030 --> 01:28:29,520

was saying in terms of unknowns

2530

01:28:33,030 --> 01:28:31,040

or myths of identifications of the

2531

01:28:36,470 --> 01:28:33,040

number sightings

2532

01:28:38,310 --> 01:28:36,480

so that's been consistent and so i think

2533

01:28:42,310 --> 01:28:38,320

that they know

2534

01:28:43,990 --> 01:28:42,320

more and i think that possibly i mean i

2535

01:28:45,990 --> 01:28:44,000

i would gather they probably know a lot

2536

01:28:49,189 --> 01:28:46,000

more in terms of

2537

01:28:51,590 --> 01:28:49,199

uh being able to really validate that

2538

01:28:53,350 --> 01:28:51,600

like this is really something going on

2539

01:28:55,030 --> 01:28:53,360

because of the some of the systems and

2540

01:28:56,950 --> 01:28:55,040

things that they have in place

2541

01:28:58,709 --> 01:28:56,960

that just the public doesn't have access

2542

01:29:02,229 --> 01:28:58,719

to um

2543

01:29:03,750 --> 01:29:02,239

yeah and then my mom the strange thing

2544

01:29:07,590 --> 01:29:03,760

about that

2545

01:29:11,669 --> 01:29:07,600

is um

2546

01:29:13,110 --> 01:29:11,679

how does it move then from one

2547

01:29:15,030 --> 01:29:13,120

uh let's say i don't want to say

2548

01:29:17,590 --> 01:29:15,040

generation but

2549

01:29:18,390 --> 01:29:17,600

let's just say i'm not gonna i'm not

2550

01:29:20,310 --> 01:29:18,400

saying this is

2551

01:29:22,550 --> 01:29:20,320

what happened but let's just say they

2552

01:29:26,310 --> 01:29:22,560

did have crash retrieval from

2553

01:29:28,229 --> 01:29:26,320

roswell back in 1947. how does

2554

01:29:31,430 --> 01:29:28,239

the uh what do you want to call the

2555

01:29:33,910 --> 01:29:31,440

chain of custody or how does

2556

01:29:35,110 --> 01:29:33,920

of the documents or whatever i mean it

2557

01:29:38,229 --> 01:29:35,120

just such a puzzle

2558

01:29:40,790 --> 01:29:38,239

i i never had any insight

2559

01:29:42,229 --> 01:29:40,800

thoughts on that well and and this is

2560

01:29:43,350 --> 01:29:42,239

what's interesting when you look at

2561

01:29:44,629 --> 01:29:43,360

extreme secrecy

2562

01:29:47,350 --> 01:29:44,639

in anything and so we're not talking

2563

01:29:49,270 --> 01:29:47,360

about ufos but in extreme secrecy we're

2564

01:29:50,709 --> 01:29:49,280

in terms of compartmentalization

2565

01:29:52,310 --> 01:29:50,719

uh a good example that i often tell

2566

01:29:53,350 --> 01:29:52,320

people to look at you can google search

2567

01:29:55,030 --> 01:29:53,360

it you'll get some little

2568

01:29:56,790 --> 01:29:55,040

limited information is look up something

2569

01:29:59,910 --> 01:29:56,800

called fog bank

2570

01:30:02,629 --> 01:29:59,920

like fog bank

2571

01:30:04,950 --> 01:30:02,639

fog bank is a still classified very top

2572

01:30:07,350 --> 01:30:04,960

secret substance used in

2573

01:30:08,709 --> 01:30:07,360

all of the united states nuclear weapons

2574

01:30:11,990 --> 01:30:08,719

whatever this component

2575

01:30:15,350 --> 01:30:12,000

is um is evidently a necessity in

2576

01:30:16,070 --> 01:30:15,360

u.s nuclear weapons um a couple of years

2577

01:30:17,510 --> 01:30:16,080

ago

2578

01:30:19,910 --> 01:30:17,520

you know somebody was like hey i think

2579

01:30:20,709 --> 01:30:19,920

we probably need to replace our fog bank

2580

01:30:23,910 --> 01:30:20,719

and our weapons

2581

01:30:27,590 --> 01:30:23,920

it's aging we've had it for a while

2582

01:30:30,709 --> 01:30:27,600

and the department of energy realized

2583

01:30:33,910 --> 01:30:30,719

holy crap none of us know how

2584

01:30:34,550 --> 01:30:33,920

to make fog bank none of us know exactly

2585

01:30:36,470 --> 01:30:34,560

what it is

2586

01:30:38,790 --> 01:30:36,480

because it was so uber classified you

2587

01:30:40,229 --> 01:30:38,800

had such a small group of people that

2588

01:30:41,910 --> 01:30:40,239

were working on it developed in the

2589

01:30:43,350 --> 01:30:41,920

first place the laboratories in which

2590

01:30:44,950 --> 01:30:43,360

they were developed were now closed

2591

01:30:47,350 --> 01:30:44,960

those individuals who originally worked

2592

01:30:48,629 --> 01:30:47,360

on it were either now had passed away or

2593

01:30:52,550 --> 01:30:48,639

were no longer in government

2594

01:30:54,709 --> 01:30:52,560

so you had this weird instance where

2595

01:30:57,189 --> 01:30:54,719

you know people are trying to figure out

2596

01:31:00,830 --> 01:30:57,199

what do we do for fog bank

2597

01:31:04,229 --> 01:31:00,840

um how do we make it and

2598

01:31:06,790 --> 01:31:04,239

uh that's a good example of how

2599

01:31:08,149 --> 01:31:06,800

extreme compartmentalized secrecy

2600

01:31:11,270 --> 01:31:08,159

frankly

2601

01:31:11,910 --> 01:31:11,280

um can get lost in the system for lack

2602

01:31:14,950 --> 01:31:11,920

of a better

2603

01:31:16,950 --> 01:31:14,960

term um i think

2604

01:31:17,990 --> 01:31:16,960

frank you know i'll be honest with you

2605

01:31:18,950 --> 01:31:18,000

uh

2606

01:31:21,189 --> 01:31:18,960

probably one of the most compelling

2607

01:31:22,390 --> 01:31:21,199

things that i heard and i've mentioned

2608

01:31:24,470 --> 01:31:22,400

this on another

2609

01:31:25,669 --> 01:31:24,480

uh program i never intended to put it

2610

01:31:28,550 --> 01:31:25,679

out publicly because

2611

01:31:30,310 --> 01:31:28,560

i always tell you it's just a good story

2612

01:31:32,390 --> 01:31:30,320

i don't have any proof behind it and i'm

2613

01:31:33,030 --> 01:31:32,400

very cautious to share stories because

2614

01:31:36,310 --> 01:31:33,040

they

2615

01:31:39,030 --> 01:31:36,320

can take a life of their own and kind of

2616

01:31:40,070 --> 01:31:39,040

the the stitch mutant narrative begins

2617

01:31:42,229 --> 01:31:40,080

to build and so i

2618

01:31:43,270 --> 01:31:42,239

continuously caveat this it's just a

2619

01:31:48,790 --> 01:31:43,280

story

2620

01:31:50,870 --> 01:31:48,800

while going through all the interviews

2621

01:31:52,550 --> 01:31:50,880

and talking a lot of people during the

2622

01:31:54,229 --> 01:31:52,560

the popular mechanics article i released

2623

01:31:56,830 --> 01:31:54,239

in february was

2624

01:31:58,070 --> 01:31:56,840

you know i was told that yeah the the

2625

01:32:04,709 --> 01:31:58,080

the

2626

01:32:08,229 --> 01:32:04,719

something uh you know in 1947

2627

01:32:09,830 --> 01:32:08,239

um there were occupants and i'm

2628

01:32:11,590 --> 01:32:09,840

giving exactly what was said to me so

2629

01:32:13,270 --> 01:32:11,600

i'm not paraphrasing or kind of take

2630

01:32:15,590 --> 01:32:13,280

i'm not trying to take anything away

2631

01:32:18,470 --> 01:32:15,600

here they said there were occupants

2632

01:32:18,709 --> 01:32:18,480

that these occupants um it was there was

2633

01:32:43,590 --> 01:32:18,719

a

2634

01:32:45,910 --> 01:32:43,600

component of this

2635

01:32:47,990 --> 01:32:45,920

was so beyond our own paradigm of

2636

01:32:50,470 --> 01:32:48,000

scientific understanding and knowledge

2637

01:32:52,229 --> 01:32:50,480

that the decision was made just like the

2638

01:32:55,590 --> 01:32:52,239

raiders of the lost ark

2639

01:32:58,470 --> 01:32:55,600

to put it up and just file it away

2640

01:32:59,510 --> 01:32:58,480

somewhere until until we reach the point

2641

01:33:01,189 --> 01:32:59,520

that we possess

2642

01:33:03,030 --> 01:33:01,199

the the scientific understanding and

2643

01:33:05,830 --> 01:33:03,040

knowledge to do something with it

2644

01:33:07,669 --> 01:33:05,840

uh that sounds crazy so you think it's

2645

01:33:10,790 --> 01:33:07,679

just like in raiders of the lost ark

2646

01:33:13,510 --> 01:33:10,800

and crates in some big warehouse it's

2647

01:33:15,110 --> 01:33:13,520

it sounds nuts but if you but but you

2648

01:33:17,430 --> 01:33:15,120

have to look at it in context and

2649

01:33:19,590 --> 01:33:17,440

realize that if indeed that's true

2650

01:33:21,189 --> 01:33:19,600

um you're looking at the the united

2651
01:33:22,149 --> 01:33:21,199
states we're in the middle of a cold war

2652
01:33:25,030 --> 01:33:22,159
with russia

2653
01:33:25,350 --> 01:33:25,040
and not sound like tom belong here uh

2654
01:33:27,510 --> 01:33:25,360
and

2655
01:33:29,430 --> 01:33:27,520
i'm not saying we found a life form but

2656
01:33:31,189 --> 01:33:29,440
where you know a cold war where you have

2657
01:33:33,350 --> 01:33:31,199
to mitigate

2658
01:33:35,430 --> 01:33:33,360
the the the money that you want to spend

2659
01:33:37,350 --> 01:33:35,440
on research and develop on something if

2660
01:33:39,110 --> 01:33:37,360
if you generally believe that you do not

2661
01:33:41,030 --> 01:33:39,120
possess the scientific

2662
01:33:42,870 --> 01:33:41,040
ability to really make a breakthrough

2663
01:33:44,229 --> 01:33:42,880

saying we could spend our entire defense

2664

01:33:45,030 --> 01:33:44,239

budget on this but we wouldn't

2665

01:33:46,550 --> 01:33:45,040

understand it

2666

01:33:48,470 --> 01:33:46,560

and while we're doing that russia is

2667

01:33:51,750 --> 01:33:48,480

building bombers russia's building

2668

01:33:52,470 --> 01:33:51,760

subs and so the decision is just kind of

2669

01:33:55,750 --> 01:33:52,480

made

2670

01:33:58,390 --> 01:33:55,760

let's shelve it uh that's not

2671

01:33:59,910 --> 01:33:58,400

crazy and in fact that happened when

2672

01:34:01,669 --> 01:33:59,920

when ben rich when they developed

2673

01:34:05,830 --> 01:34:01,679

stealth technology in the

2674

01:34:07,510 --> 01:34:05,840

late 1970s they um

2675

01:34:09,430 --> 01:34:07,520

you know they looked at it and said we

2676
01:34:10,550 --> 01:34:09,440
know it works but we don't understand

2677
01:34:12,229 --> 01:34:10,560
why yet

2678
01:34:13,669 --> 01:34:12,239
and so they had to make the decision do

2679
01:34:17,430 --> 01:34:13,679
we develop it

2680
01:34:19,669 --> 01:34:17,440
and not understanding how it works or

2681
01:34:21,030 --> 01:34:19,679
or do we just shelve it until we know

2682
01:34:23,990 --> 01:34:21,040
more and then run the risk

2683
01:34:25,030 --> 01:34:24,000
of uh an adversary developing stealth

2684
01:34:28,070 --> 01:34:25,040
technology first

2685
01:34:29,830 --> 01:34:28,080
so i mean these decisions of when you

2686
01:34:32,070 --> 01:34:29,840
make a breakthrough but maybe you don't

2687
01:34:33,750 --> 01:34:32,080
understand enough of it

2688
01:34:36,870 --> 01:34:33,760

that goes on and all of this stuff i

2689

01:34:39,189 --> 01:34:36,880

mean there's assuredly

2690

01:34:41,270 --> 01:34:39,199

an innumerable number of different types

2691

01:34:44,470 --> 01:34:41,280

of military platforms who have

2692

01:34:46,470 --> 01:34:44,480

made it to the proof of concept stage

2693

01:34:48,709 --> 01:34:46,480

one of them has been made they fly it

2694

01:34:50,870 --> 01:34:48,719

out to area 51 or

2695

01:34:52,550 --> 01:34:50,880

san clemente or somewhere show it off

2696

01:34:54,870 --> 01:34:52,560

and the military goes yeah that's pretty

2697

01:34:57,350 --> 01:34:54,880

cool but the cost risk you know what we

2698

01:35:00,070 --> 01:34:57,360

need in terms of global scale it's just

2699

01:35:00,550 --> 01:35:00,080

not beneficial to us and it gets tabled

2700

01:35:03,750 --> 01:35:00,560

shell

2701

01:35:06,629 --> 01:35:03,760

put away um you know

2702

01:35:08,070 --> 01:35:06,639

to bring out another day and so it this

2703

01:35:09,669 --> 01:35:08,080

actually happens a lot

2704

01:35:11,669 --> 01:35:09,679

in in the government research and

2705

01:35:13,510 --> 01:35:11,679

acquisitions um

2706

01:35:15,109 --> 01:35:13,520

not saying that that's what's happened

2707

01:35:16,709 --> 01:35:15,119

here but it'd be

2708

01:35:17,669 --> 01:35:16,719

when i heard that it was interesting

2709

01:35:19,910 --> 01:35:17,679

because i thought it was one of the

2710

01:35:21,830 --> 01:35:19,920

first times that maybe

2711

01:35:22,950 --> 01:35:21,840

i'd heard something that was the most

2712

01:35:25,189 --> 01:35:22,960

logical

2713

01:35:27,030 --> 01:35:25,199

that possibly you could recover

2714

01:35:28,629 --> 01:35:27,040

something and that would explain

2715

01:35:30,629 --> 01:35:28,639

kind of all the cover-up all this

2716

01:35:32,870 --> 01:35:30,639

different you know lack of discussion

2717

01:35:35,270 --> 01:35:32,880

and just weirdness because

2718

01:35:36,470 --> 01:35:35,280

um you know i i've been willing to say

2719

01:35:40,790 --> 01:35:36,480

on record you look at something

2720

01:35:44,070 --> 01:35:42,229

it's still interesting i don't think

2721

01:35:45,750 --> 01:35:44,080

i've found a good answer i don't think

2722

01:35:47,830 --> 01:35:45,760

that the uh

2723

01:35:49,750 --> 01:35:47,840

the mogul balloon answer i think doesn't

2724

01:35:52,310 --> 01:35:49,760

status

2725

01:35:54,550 --> 01:35:52,320

yeah yeah in fact the answer yeah there

2726

01:35:57,510 --> 01:35:54,560

there's there's a lot on that um

2727

01:35:58,229 --> 01:35:57,520

yeah yeah i i don't know exactly what to

2728

01:36:00,790 --> 01:35:58,239

think

2729

01:36:01,910 --> 01:36:00,800

of all that you know i mean i i i've

2730

01:36:05,510 --> 01:36:01,920

always wondered

2731

01:36:08,709 --> 01:36:05,520

as time you know has gone on

2732

01:36:09,990 --> 01:36:08,719

how much do they know uh where do they

2733

01:36:11,430 --> 01:36:10,000

know where they're coming from

2734

01:36:13,350 --> 01:36:11,440

you know that type of thing do you know

2735

01:36:14,149 --> 01:36:13,360

what they want the number one question

2736

01:36:16,229 --> 01:36:14,159

everyone

2737

01:36:17,750 --> 01:36:16,239

wants to know why why are they here what

2738

01:36:20,950 --> 01:36:17,760

do they want those are the

2739

01:36:23,990 --> 01:36:20,960

those are the big questions and uh

2740

01:36:25,270 --> 01:36:24,000

and are they right i mean we may not be

2741

01:36:28,629 --> 01:36:25,280

asking the wrong questions

2742

01:36:31,990 --> 01:36:30,470

yes that touches on two points that i

2743

01:36:32,870 --> 01:36:32,000

try to bring up every time i get a

2744

01:36:36,629 --> 01:36:32,880

chance which is

2745

01:36:39,430 --> 01:36:36,639

one um in my opinion and i've said this

2746

01:36:41,669 --> 01:36:39,440

is that the term ufo unidentified flying

2747

01:36:43,910 --> 01:36:41,679

saucer or object excuse me has always

2748

01:36:47,830 --> 01:36:43,920

been a hindrance to it because

2749

01:36:48,950 --> 01:36:47,840

um you know it is symbolic of the ufo

2750

01:36:52,310 --> 01:36:48,960

topic in general

2751

01:36:54,390 --> 01:36:52,320

if i were to ask you martin do ufos

2752

01:36:55,990 --> 01:36:54,400

fly you go yeah they're in the sky

2753

01:36:57,590 --> 01:36:56,000

they're flying around by a colloquial

2754

01:36:59,350 --> 01:36:57,600

definition you are right

2755

01:37:00,870 --> 01:36:59,360

but in terms of the principles of how we

2756

01:37:02,070 --> 01:37:00,880

understand flight and you talk about the

2757

01:37:03,590 --> 01:37:02,080

right the piece the wright brothers

2758

01:37:05,590 --> 01:37:03,600

plane

2759

01:37:07,189 --> 01:37:05,600

the b-21 raider that's under development

2760

01:37:08,229 --> 01:37:07,199

right now or the b2 stealth bomber

2761

01:37:09,270 --> 01:37:08,239

they're really cool

2762

01:37:11,270 --> 01:37:09,280

they wouldn't fly without these

2763

01:37:12,310 --> 01:37:11,280

sophisticated computer systems but the

2764

01:37:14,790 --> 01:37:12,320

principles of lift

2765

01:37:15,990 --> 01:37:14,800

angle attack drag propulsion that is the

2766

01:37:16,950 --> 01:37:16,000

exact same

2767

01:37:19,030 --> 01:37:16,960

as what you're looking at the wright

2768

01:37:20,229 --> 01:37:19,040

brothers they're not we haven't changed

2769

01:37:24,310 --> 01:37:20,239

the wheel and how we

2770

01:37:27,189 --> 01:37:24,320

achieve flight here um so you haven't

2771

01:37:28,229 --> 01:37:27,199

it's still the same exact principle but

2772

01:37:29,350 --> 01:37:28,239

some of these that are talking about

2773

01:37:31,350 --> 01:37:29,360

we're talking about something

2774

01:37:32,790 --> 01:37:31,360

totally different in terms of how

2775

01:37:36,070 --> 01:37:32,800

they're achieving

2776
01:37:39,350 --> 01:37:36,080
flight here and therefore these objects

2777
01:37:40,870 --> 01:37:39,360
are not flying by how we define flight

2778
01:37:42,629 --> 01:37:40,880
yeah especially when there's never a

2779
01:37:46,070 --> 01:37:42,639
sound barrier broken or you know

2780
01:37:48,870 --> 01:37:46,080
all kinds of you know all kinds of

2781
01:37:49,830 --> 01:37:48,880
yeah and so that to your point you just

2782
01:37:52,070 --> 01:37:49,840
made a mention

2783
01:37:54,470 --> 01:37:52,080
in research when you arrive at a

2784
01:37:55,990 --> 01:37:54,480
conclusion that is both yes and no

2785
01:37:58,470 --> 01:37:56,000
yes it is flying because they're in the

2786
01:37:59,189 --> 01:37:58,480
sky no it is not flying because it does

2787
01:38:02,950 --> 01:37:59,199
not

2788
01:38:05,189 --> 01:38:02,960

uh it comport with how we define flight

2789

01:38:06,550 --> 01:38:05,199

that means that the answer lies beyond

2790

01:38:08,310 --> 01:38:06,560

the hypothesis

2791

01:38:10,229 --> 01:38:08,320

so you haven't asked the right question

2792

01:38:11,750 --> 01:38:10,239

and i think that's still going on it's

2793

01:38:15,189 --> 01:38:11,760

70 years going

2794

01:38:16,950 --> 01:38:15,199

and so um i don't know i mean it's

2795

01:38:18,310 --> 01:38:16,960

and and understand people in government

2796

01:38:22,390 --> 01:38:18,320

are just human beings

2797

01:38:26,550 --> 01:38:22,400

yeah you know they may think they know

2798

01:38:29,430 --> 01:38:26,560

they may you know you think that

2799

01:38:31,189 --> 01:38:29,440

and the unknown is a scary thing imagine

2800

01:38:32,310 --> 01:38:31,199

not knowing but yet having at your

2801
01:38:35,189 --> 01:38:32,320
fingertips

2802
01:38:36,870 --> 01:38:35,199
the most like i can zoom in they wanted

2803
01:38:38,629 --> 01:38:36,880
to they could zoom in my window right

2804
01:38:40,470 --> 01:38:38,639
now and be listening to our conversation

2805
01:38:42,870 --> 01:38:40,480
but you have that technology

2806
01:38:44,149 --> 01:38:42,880
and then go just like the rest of us i

2807
01:38:45,669 --> 01:38:44,159
know it's real

2808
01:38:47,510 --> 01:38:45,679
but i don't know what the heck it is

2809
01:38:50,550 --> 01:38:47,520
like that's more scary to me

2810
01:38:52,149 --> 01:38:50,560
if so their side of it i i i don't know

2811
01:38:52,709 --> 01:38:52,159
but i think of it from that perspective

2812
01:38:56,070 --> 01:38:52,719
and think

2813
01:38:59,189 --> 01:38:56,080

uh that's kind of a chaotic position

2814

01:39:00,790 --> 01:38:59,199

we want them to know though really yeah

2815

01:39:02,870 --> 01:39:00,800

yeah we'd want to feel a little bit of

2816

01:39:05,109 --> 01:39:02,880

some type of safety in a way

2817

01:39:07,109 --> 01:39:05,119

what about people always bring up this

2818

01:39:09,510 --> 01:39:07,119

um when they're talking about

2819

01:39:10,790 --> 01:39:09,520

military they think the black the big

2820

01:39:13,030 --> 01:39:10,800

black triangles

2821

01:39:14,390 --> 01:39:13,040

not in particular like the well it's

2822

01:39:15,669 --> 01:39:14,400

hard to tell the size of the one that

2823

01:39:19,590 --> 01:39:15,679

was in that

2824

01:39:21,669 --> 01:39:19,600

rendition but the black triangles people

2825

01:39:23,109 --> 01:39:21,679

a lot of people are saying you know we

2826

01:39:25,350 --> 01:39:23,119
must have figured out how to do

2827

01:39:28,390 --> 01:39:25,360
anti-gravity and blah blah blah

2828

01:39:30,470 --> 01:39:28,400
uh it's military and even

2829

01:39:31,750 --> 01:39:30,480
even uh there was one particular guest i

2830

01:39:33,590 --> 01:39:31,760
had that

2831

01:39:35,350 --> 01:39:33,600
i said to him well you know some of them

2832

01:39:36,229 --> 01:39:35,360
have been reported to be up to a mile

2833

01:39:38,629 --> 01:39:36,239
wide even

2834

01:39:40,149 --> 01:39:38,639
larger possibly and where would they

2835

01:39:41,430 --> 01:39:40,159
house something like that and they had a

2836

01:39:42,310 --> 01:39:41,440
ques you know they had an answer for

2837

01:39:44,070 --> 01:39:42,320
everything

2838

01:39:46,229 --> 01:39:44,080

do you think that's possible that we

2839

01:39:48,310 --> 01:39:46,239

have these black triangles have anything

2840

01:39:50,550 --> 01:39:48,320

to do with military

2841

01:39:51,669 --> 01:39:50,560

i'm sure that some of the sightings that

2842

01:39:54,390 --> 01:39:51,679

people report

2843

01:39:55,109 --> 01:39:54,400

have to do with military platforms um

2844

01:39:57,750 --> 01:39:55,119

how much of

2845

01:39:59,030 --> 01:39:57,760

i don't know and and the reason there

2846

01:40:01,189 --> 01:39:59,040

begins to also we've

2847

01:40:02,550 --> 01:40:01,199

you got to examine the kind of aerospace

2848

01:40:05,910 --> 01:40:02,560

science behind it

2849

01:40:08,629 --> 01:40:05,920

and so if we had a anti-gravity

2850

01:40:10,310 --> 01:40:08,639

technology let's say um which is a

2851

01:40:11,910 --> 01:40:10,320

buzzword that by the way just

2852

01:40:14,070 --> 01:40:11,920

turns off all aerospace engineers and

2853

01:40:17,030 --> 01:40:14,080

scientists anti-gravity

2854

01:40:17,750 --> 01:40:17,040

poppycock um but it's the best term that

2855

01:40:20,470 --> 01:40:17,760

we have for

2856

01:40:21,590 --> 01:40:20,480

how to achieve propulsion like that um

2857

01:40:23,510 --> 01:40:21,600

you know the first question i would have

2858

01:40:25,830 --> 01:40:23,520

is why put that in a delta shaped wing

2859

01:40:27,430 --> 01:40:25,840

or a flying wing formation the reason

2860

01:40:29,830 --> 01:40:27,440

the stealth bomber is a flying wing and

2861

01:40:31,669 --> 01:40:29,840

these types of things is they hide the

2862

01:40:32,950 --> 01:40:31,679

engines to it inside the wings to cool

2863

01:40:34,070 --> 01:40:32,960

the exhaust it's part of the stealth

2864

01:40:36,629 --> 01:40:34,080

component to it

2865

01:40:38,310 --> 01:40:36,639

but if you have a means of achieving

2866

01:40:39,990 --> 01:40:38,320

lift and propulsion

2867

01:40:41,830 --> 01:40:40,000

you don't necessarily need any kind of

2868

01:40:45,350 --> 01:40:41,840

aerodynamic shape

2869

01:40:48,390 --> 01:40:45,360

in a flying wing pattern um

2870

01:40:49,830 --> 01:40:48,400

and so you know you could kind of again

2871

01:40:51,590 --> 01:40:49,840

you can always play the

2872

01:40:53,030 --> 01:40:51,600

what if what if what if you know if you

2873

01:40:55,189 --> 01:40:53,040

had a system that

2874

01:40:57,510 --> 01:40:55,199

sure is more advanced and maybe it's not

2875

01:40:58,870 --> 01:40:57,520

necessarily anti-gravity but it's got a

2876

01:41:01,910 --> 01:40:58,880

better means and then it

2877

01:41:04,390 --> 01:41:01,920

uses this flying wing shape uh

2878

01:41:06,470 --> 01:41:04,400

to almost act as a glider in in

2879

01:41:09,030 --> 01:41:06,480

high altitude situations much like the

2880

01:41:12,310 --> 01:41:09,040

u2 the u2 spy plane is just a big glider

2881

01:41:15,750 --> 01:41:12,320

um and that would make

2882

01:41:18,470 --> 01:41:15,760

sense um but but in truth

2883

01:41:19,990 --> 01:41:18,480

the the you know and how i'm familiar

2884

01:41:22,790 --> 01:41:20,000

with and all the known

2885

01:41:23,990 --> 01:41:22,800

methods of achieving flight the flying

2886

01:41:26,870 --> 01:41:24,000

wing and the delta

2887

01:41:29,030 --> 01:41:26,880

shape is not it's conducive for certain

2888

01:41:32,550 --> 01:41:29,040

platforms but it's not

2889

01:41:35,430 --> 01:41:32,560

the most stable uh flight pattern and in

2890

01:41:37,350 --> 01:41:35,440

fact uh you know when they lost a b2

2891

01:41:40,149 --> 01:41:37,360

a couple years ago in the philippines

2892

01:41:44,229 --> 01:41:40,159

they had a b2 that crashed on takeoff

2893

01:41:47,590 --> 01:41:46,390

that was because moisture got into a

2894

01:41:49,590 --> 01:41:47,600

system

2895

01:41:51,910 --> 01:41:49,600

because though it wouldn't fly without

2896

01:41:53,669 --> 01:41:51,920

these computers that that

2897

01:41:54,870 --> 01:41:53,679

helped stabilize it and do all these

2898

01:41:55,750 --> 01:41:54,880

different things to get it off the

2899

01:41:59,669 --> 01:41:55,760

ground

2900

01:42:01,030 --> 01:41:59,679

and so um that's a long way of saying

2901
01:42:01,590 --> 01:42:01,040
there's still more questions that i

2902
01:42:03,430 --> 01:42:01,600
would

2903
01:42:05,189 --> 01:42:03,440
want to know there because obviously if

2904
01:42:06,470 --> 01:42:05,199
it's not us well then why would somebody

2905
01:42:09,590 --> 01:42:06,480
else use this delta shape

2906
01:42:10,390 --> 01:42:09,600
you know i've had people share me their

2907
01:42:13,109 --> 01:42:10,400
theories

2908
01:42:14,229 --> 01:42:13,119
that that it has to do with energy

2909
01:42:15,669 --> 01:42:14,239
propulsion that it

2910
01:42:17,430 --> 01:42:15,679
actually what you're seeing with these

2911
01:42:19,030 --> 01:42:17,440
triangles or

2912
01:42:20,629 --> 01:42:19,040
you know three or more different

2913
01:42:23,510 --> 01:42:20,639

detached

2914

01:42:25,990 --> 01:42:23,520

probe like things that come together to

2915

01:42:27,669 --> 01:42:26,000

to form a shape for propulsion i don't

2916

01:42:30,470 --> 01:42:27,679

know if that's true

2917

01:42:31,750 --> 01:42:30,480

sounds like a good idea um but i do

2918

01:42:34,950 --> 01:42:31,760

believe i mean

2919

01:42:37,109 --> 01:42:34,960

i when i was still living in georgia i

2920

01:42:38,950 --> 01:42:37,119

lived directly over the flight line from

2921

01:42:41,270 --> 01:42:38,960

fort stewart to hunter army airfield

2922

01:42:43,270 --> 01:42:41,280

and the 160th night stalkers for this

2923

01:42:46,229 --> 01:42:43,280

army special operations wing

2924

01:42:47,990 --> 01:42:46,239

is there um before stewart a lot of

2925

01:42:48,550 --> 01:42:48,000

people don't realize is the largest land

2926

01:42:50,149 --> 01:42:48,560

mass

2927

01:42:53,189 --> 01:42:50,159

army base in the united states so

2928

01:42:55,189 --> 01:42:53,199

there's a lot of weird things out there

2929

01:42:56,629 --> 01:42:55,199

and i work night shift for the latter

2930

01:42:59,830 --> 01:42:56,639

part of my career and

2931

01:43:01,750 --> 01:42:59,840

i i can distinctly remember being

2932

01:43:03,750 --> 01:43:01,760

uh you know up at like three o'clock in

2933

01:43:04,470 --> 01:43:03,760

the morning and working in the garage or

2934

01:43:09,430 --> 01:43:04,480

something

2935

01:43:12,629 --> 01:43:09,440

and seeing two low-flying triangular

2936

01:43:14,470 --> 01:43:12,639

looking crafts coming across the flight

2937

01:43:15,350 --> 01:43:14,480

line following the ogichi river headed

2938

01:43:18,070 --> 01:43:15,360

out towards

2939

01:43:20,470 --> 01:43:18,080

the atlantic ocean in fact where the

2940

01:43:23,109 --> 01:43:20,480

roosevelt pilots in 2015

2941

01:43:24,709 --> 01:43:23,119

encountered their objects that was it

2942

01:43:27,750 --> 01:43:24,719

was a stone throw for my house the

2943

01:43:30,790 --> 01:43:27,760

atlantic was right there

2944

01:43:33,109 --> 01:43:30,800

now these looked interesting they i

2945

01:43:36,310 --> 01:43:33,119

think they probably were the rq

2946

01:43:37,990 --> 01:43:36,320

175 or ru 180 or an early variant of

2947

01:43:40,229 --> 01:43:38,000

that the new drones

2948

01:43:42,149 --> 01:43:40,239

um so but i never had any doubt they

2949

01:43:44,149 --> 01:43:42,159

weren't hours

2950

01:43:45,669 --> 01:43:44,159

but that says we do have some

2951
01:43:46,070 --> 01:43:45,679
interesting stuff that people don't know

2952
01:43:47,750 --> 01:43:46,080
about

2953
01:43:49,990 --> 01:43:47,760
and they do come out you know late at

2954
01:43:51,109 --> 01:43:50,000
night and fly this type of stuff so i

2955
01:43:54,149 --> 01:43:51,119
think

2956
01:43:55,430 --> 01:43:54,159
well yeah go ahead i'm sorry no i was

2957
01:43:56,870 --> 01:43:55,440
just gonna say i think i've always said

2958
01:43:57,830 --> 01:43:56,880
that i think there's a combination of

2959
01:44:00,149 --> 01:43:57,840
all of the above

2960
01:44:00,950 --> 01:44:00,159
i think there's i agree i agree with

2961
01:44:04,790 --> 01:44:00,960
that um

2962
01:44:07,030 --> 01:44:04,800
one of the things though why would that

2963
01:44:08,149 --> 01:44:07,040

well i i think someone tried to answer

2964

01:44:10,470 --> 01:44:08,159

this for me

2965

01:44:13,750 --> 01:44:10,480

and the question was why would these big

2966

01:44:16,709 --> 01:44:13,760

huge triangles fly over populated areas

2967

01:44:17,030 --> 01:44:16,719

if they were you know top secret and you

2968

01:44:20,070 --> 01:44:17,040

know

2969

01:44:21,430 --> 01:44:20,080

uh one of the an email i got from

2970

01:44:23,109 --> 01:44:21,440

someone

2971

01:44:24,790 --> 01:44:23,119

it's they said it's purposely because

2972

01:44:26,149 --> 01:44:24,800

they want to see who reports and why do

2973

01:44:28,790 --> 01:44:26,159

they report it as

2974

01:44:29,669 --> 01:44:28,800

and if they're reporting it as a ufo

2975

01:44:31,910 --> 01:44:29,679

then great

2976

01:44:33,030 --> 01:44:31,920

because this is top secret you know i

2977

01:44:36,229 --> 01:44:33,040

mean

2978

01:44:40,709 --> 01:44:36,239

uh i understand the logic if that

2979

01:44:44,310 --> 01:44:40,719

is it if it's true sure i mean that

2980

01:44:45,510 --> 01:44:44,320

you know maybe um i think the other

2981

01:44:46,790 --> 01:44:45,520

thing here then i always

2982

01:44:48,790 --> 01:44:46,800

tell people when when you want to

2983

01:44:50,310 --> 01:44:48,800

examine it from a classified technology

2984

01:44:52,709 --> 01:44:50,320

standpoint

2985

01:44:53,430 --> 01:44:52,719

uh so like i said we're here my wife

2986

01:44:56,470 --> 01:44:53,440

we're

2987

01:44:58,629 --> 01:44:56,480

at an air base here in germany uh our

2988

01:45:01,109 --> 01:44:58,639

air base here has about

2989

01:45:02,470 --> 01:45:01,119

you know i think six seven eight

2990

01:45:03,830 --> 01:45:02,480

thousand uh federal

2991

01:45:05,669 --> 01:45:03,840

employees and probably two or three

2992

01:45:07,590 --> 01:45:05,679

thousand civilian employees

2993

01:45:09,430 --> 01:45:07,600

uh there's a hospital there's a you know

2994

01:45:10,550 --> 01:45:09,440

grocery store there's the military

2995

01:45:13,750 --> 01:45:10,560

version of the walmart

2996

01:45:14,390 --> 01:45:13,760

the bx um schools i mean you name it it

2997

01:45:18,229 --> 01:45:14,400

is a

2998

01:45:20,790 --> 01:45:18,239

community size of 10 000 population um

2999

01:45:22,229 --> 01:45:20,800

so huge significant infrastructure i

3000

01:45:23,030 --> 01:45:22,239

don't even know what the budget is but

3001

01:45:27,270 --> 01:45:23,040

clearly in the

3002

01:45:29,270 --> 01:45:27,280

the millions that is for 24

3003

01:45:30,629 --> 01:45:29,280

f-16 fighter jets that's all that's here

3004

01:45:33,750 --> 01:45:30,639

amazing one fight

3005

01:45:36,629 --> 01:45:33,760

amazing wow

3006

01:45:37,030 --> 01:45:36,639

and is that considered a large base for

3007

01:45:39,830 --> 01:45:37,040

other

3008

01:45:40,870 --> 01:45:39,840

operations besides oh no no this is so

3009

01:45:43,350 --> 01:45:40,880

you're talking that

3010

01:45:44,229 --> 01:45:43,360

someone that has a a base that has a lot

3011

01:45:45,910 --> 01:45:44,239

more

3012

01:45:47,350 --> 01:45:45,920

equipment on it it's going to be much

3013

01:45:49,590 --> 01:45:47,360

more popular

3014

01:45:52,149 --> 01:45:49,600

oh god yes yeah you're fort stewart yes

3015

01:45:52,870 --> 01:45:52,159

i grew up on military bases or around

3016

01:45:56,830 --> 01:45:52,880

them and yes

3017

01:46:00,709 --> 01:45:56,840

this is this is tiny but i bring that up

3018

01:46:02,310 --> 01:46:00,719

24 planes think of all the logistics

3019

01:46:05,430 --> 01:46:02,320

necessary

3020

01:46:07,990 --> 01:46:05,440

where are those same types of logistics

3021

01:46:10,310 --> 01:46:08,000

and everything necessary to house

3022

01:46:12,709 --> 01:46:10,320

potentially classified aerospace

3023

01:46:14,550 --> 01:46:12,719

programs that have gone on for decades

3024

01:46:16,149 --> 01:46:14,560

i mean we put them in with sightings

3025

01:46:18,470 --> 01:46:16,159

like they where

3026

01:46:20,709 --> 01:46:18,480

where where is it where are they hiding

3027

01:46:22,470 --> 01:46:20,719

them i mean

3028

01:46:24,390 --> 01:46:22,480

well i can't believe we only have three

3029

01:46:25,109 --> 01:46:24,400

minutes left and so i thought this

3030

01:46:27,669 --> 01:46:25,119

question

3031

01:46:28,790 --> 01:46:27,679

from kevin was a appropriate one what's

3032

01:46:30,629 --> 01:46:28,800

coming next

3033

01:46:33,030 --> 01:46:30,639

i think he means up you know on your

3034

01:46:35,189 --> 01:46:33,040

your website debrief.org

3035

01:46:36,070 --> 01:46:35,199

cool well first of all hey kevin it is

3036

01:46:38,550 --> 01:46:36,080

great to

3037

01:46:40,390 --> 01:46:38,560

hear from you i know kevin from way back

3038

01:46:42,149 --> 01:46:40,400

you know kevin yeah he's great yeah yeah

3039

01:46:45,189 --> 01:46:42,159

yeah

3040

01:46:47,109 --> 01:46:45,199

he does and

3041

01:46:49,030 --> 01:46:47,119

and i apologize kevin i know i have

3042

01:46:50,550 --> 01:46:49,040

haven't gotten back to you in late but

3043

01:46:52,470 --> 01:46:50,560

now you see with the debrief

3044

01:46:54,070 --> 01:46:52,480

hopefully you understand the what i've

3045

01:46:55,189 --> 01:46:54,080

been busy to but now i'm glad to see

3046

01:46:56,550 --> 01:46:55,199

your name because i need to get back

3047

01:46:59,270 --> 01:46:56,560

with you we thought about some stuff

3048

01:47:00,390 --> 01:46:59,280

we need to get back to you anyway um

3049

01:47:04,629 --> 01:47:00,400

what's next

3050

01:47:06,390 --> 01:47:04,639

uh you know when it comes to

3051

01:47:08,149 --> 01:47:06,400

the debrief let's just say that i mean

3052

01:47:10,149 --> 01:47:08,159

we already we established that we said

3053

01:47:12,149 --> 01:47:10,159

we want to cover breakthrough science

3054

01:47:13,830 --> 01:47:12,159

and disruptive technology and so you're

3055

01:47:14,149 --> 01:47:13,840

going to see continuous stories coming

3056

01:47:17,510 --> 01:47:14,159

out

3057

01:47:19,109 --> 01:47:17,520

that uh you know examine a bias towards

3058

01:47:21,590 --> 01:47:19,119

future technology and things

3059

01:47:22,950 --> 01:47:21,600

and and give a venue to for people to

3060

01:47:25,270 --> 01:47:22,960

kind of see that kind of

3061

01:47:27,189 --> 01:47:25,280

reporting on that because we we think

3062

01:47:28,470 --> 01:47:27,199

that it's not just about reporting it

3063

01:47:30,390 --> 01:47:28,480

but it's also

3064

01:47:32,070 --> 01:47:30,400

twofold inspiring innovation and

3065

01:47:35,270 --> 01:47:32,080

technology and also

3066

01:47:37,030 --> 01:47:35,280

um you know people you know

3067

01:47:38,470 --> 01:47:37,040

asking people questions that relate to

3068

01:47:39,830 --> 01:47:38,480

the ethics and things that are involved

3069

01:47:40,629 --> 01:47:39,840

in technology so we can get ahead of

3070

01:47:42,470 --> 01:47:40,639

those curves

3071

01:47:43,910 --> 01:47:42,480

um now if you were talking about just

3072

01:47:47,990 --> 01:47:43,920

ufos

3073

01:47:49,510 --> 01:47:48,000

um i don't know yet uh

3074

01:47:51,109 --> 01:47:49,520

not that i'm hiding anything from it

3075

01:47:54,310 --> 01:47:51,119

i'll be honest with you this last

3076

01:47:56,709 --> 01:47:54,320

article took a lot of work that i

3077

01:47:58,550 --> 01:47:56,719

don't think people really recognize and

3078

01:48:01,510 --> 01:47:58,560

don't expect them to like that's not

3079

01:48:03,189 --> 01:48:01,520

i don't say that for for any reason

3080

01:48:06,870 --> 01:48:03,199

other than to just say

3081

01:48:10,149 --> 01:48:06,880

is very taxing and consuming um

3082

01:48:11,830 --> 01:48:10,159

and and so um

3083

01:48:14,149 --> 01:48:11,840

i never want to get a position where i'm

3084

01:48:14,550 --> 01:48:14,159

forcing ufo stories because i think

3085

01:48:16,310 --> 01:48:14,560

people

3086

01:48:18,310 --> 01:48:16,320

want to hear them because i think that's

3087

01:48:20,629 --> 01:48:18,320

people fall into traps

3088

01:48:21,669 --> 01:48:20,639

of shame i'm glad to hear you say that

3089

01:48:24,229 --> 01:48:21,679

because that

3090

01:48:24,950 --> 01:48:24,239

that is the downfall of a lot of really

3091

01:48:29,030 --> 01:48:24,960

good people

3092

01:48:32,070 --> 01:48:29,040

in this field like they become less

3093

01:48:33,669 --> 01:48:32,080

significant so they create um

3094

01:48:35,189 --> 01:48:33,679

i've just seen it happen so many times

3095

01:48:36,390 --> 01:48:35,199

unfortunately um

3096

01:48:38,629 --> 01:48:36,400

you know they they try to make

3097

01:48:41,990 --> 01:48:38,639

themselves you know more

3098

01:48:43,430 --> 01:48:42,000

important um and and

3099

01:48:45,109 --> 01:48:43,440

stretch the truth i should say or

3100

01:48:47,830 --> 01:48:45,119

whatever it is to

3101

01:48:49,270 --> 01:48:47,840

you know become pertinent but anyway i'm

3102

01:48:51,510 --> 01:48:49,280

glad to hear you say that

3103

01:48:52,709 --> 01:48:51,520

and uh but it's been a real pleasure i

3104

01:48:54,950 --> 01:48:52,719

really have uh

3105

01:48:57,189 --> 01:48:54,960

enjoyed talking to you today absolutely

3106

01:49:00,390 --> 01:48:57,199

anytime anything yeah anytime martin

3107

01:49:03,430 --> 01:49:00,400

great man great questions excellent

3108

01:49:06,149 --> 01:49:03,440

all right so you take care and talk soon

3109

01:49:07,669 --> 01:49:06,159

talk to you later bye all right so again

3110

01:49:11,669 --> 01:49:07,679

next week we do have

3111

01:49:15,910 --> 01:49:11,679

um coming up on this show we have uh

3112

01:49:19,669 --> 01:49:17,669

i can't remember what his deal was but

3113

01:49:20,950 --> 01:49:19,679

anyway i think it'll be a great show and

3114

01:49:23,270 --> 01:49:20,960

that's not

3115

01:49:24,550 --> 01:49:23,280

tuesday which is in two days that's a

3116

01:49:26,950 --> 01:49:24,560

week from tuesday

3117

01:49:28,070 --> 01:49:26,960

so just keep that in mind and everything

3118

01:49:30,790 --> 01:49:28,080

will be back

3119

01:49:31,750 --> 01:49:30,800

to normal by then and by the way uh i

3120

01:49:35,510 --> 01:49:31,760

just want to share

3121

01:49:38,709 --> 01:49:35,520

this because it is near um

3122

01:49:41,990 --> 01:49:38,719

it is near christmas so check this out

3123

01:49:46,390 --> 01:49:42,000

um this is our merchandise

3124

01:49:48,709 --> 01:49:46,400

and i'm not sure what's going on here

3125

01:49:50,070 --> 01:49:48,719

anyway we do have some t-shirts and all

3126

01:49:53,270 --> 01:49:50,080

kinds of good stuff

3127

01:49:55,270 --> 01:49:53,280

and you know check it out there uh

3128

01:49:56,470 --> 01:49:55,280

if you think about for maybe a christmas

3129

01:49:58,990 --> 01:49:56,480

present for yourself
