00:00:39,350 --> 00:00:36,880
just hunky dory um our guest

6
00:00:41,430 --> 00:00:39,360
this evening had a very strange

7
00:00:44,869 --> 00:00:41,440
encounter i heard him on another show

8
00:00:48,389 --> 00:00:44,879
and decided i'd reach out to him it was

9
00:00:49,590 --> 00:00:48,399
out at sea and it's bizarre the things

10
00:00:51,110 --> 00:00:49,600
that happened to him

11
00:00:53,270 --> 00:00:51,120
we're going to bring him in in just a

12
00:00:54,389 --> 00:00:53,280
second if you support the show thank you

13
00:00:57,990 --> 00:00:54,399

so much

14

00:00:59,110 --> 00:00:58,000

and uh our blog is a lot of people have

15

00:01:01,189 --> 00:00:59,120

already heard this

16

00:01:02,790 --> 00:01:01,199

uh but anyway check out our podcast

17

00:01:06,230 --> 00:01:02,800

ufo.com website

18

00:01:09,350 --> 00:01:06,240

everything is right there and for now

19

00:01:13,590 --> 00:01:09,360

we have uh we have neb

20

00:01:18,310 --> 00:01:16,870

welcome to the show good evening martin

21

00:01:19,429 --> 00:01:18,320

thank you very much for inviting me to

22

00:01:22,870 --> 00:01:19,439

23

00:01:25,030 --> 00:01:22,880

yeah yeah welcome yeah listening

24

00:01:26,789 --> 00:01:25,040

for a while oh you have been listening

25

00:01:29,109 --> 00:01:26,799

to shows yeah

26

00:01:30,469 --> 00:01:29,119

yeah sure you got some excellent uh

27

00:01:32,310 --> 00:01:30,479

celebrities and uh

28

00:01:33,910 --> 00:01:32,320

very well knowledgeable people in the

29

00:01:35,749 --> 00:01:33,920

field yeah

30

00:01:37,190 --> 00:01:35,759

whatever knowledge we can possibly have

31

00:01:39,190 --> 00:01:37,200

right um

32

00:01:40,469 --> 00:01:39,200

so if you would give your your

33

00:01:43,429 --> 00:01:40,479

background and um

34

00:01:44,630 --> 00:01:43,439

before this encounter even happened did

35

00:01:49,190 --> 00:01:44,640

you ever

36

00:01:54,469 --> 00:01:52,789

well in my childhood i had a strange

37

00:01:56,550 --> 00:01:54,479

nighttime experience

38

00:01:58,230 --> 00:01:56,560

which for a number of years i could not

39

00:02:00,149 --> 00:01:58,240

really explain or connected to the

40

00:02:03,590 --> 00:02:00,159

phenomenon in any way

41

00:02:05,510 --> 00:02:03,600

this happened in 1967

42

00:02:08,150 --> 00:02:05,520

in a country of croatia former

43

00:02:10,229 --> 00:02:08,160

yugoslavia where i was a child by the

44

00:02:12,949 --> 00:02:10,239

way i was born in belgrade serbia

45

00:02:15,430 --> 00:02:12,959

and uh as a baby my parents moved to

46

00:02:18,550 --> 00:02:15,440

bosnia a little town called

47

00:02:20,949 --> 00:02:18,560

and around 1965 my family my father

48

00:02:21,990 --> 00:02:20,959

we moved to zadar croatia this is where

49

00:02:25,070 --> 00:02:22,000

i grew up

50

00:02:26,229 --> 00:02:25,080

until immigrating to united states in

51

00:02:29,110 --> 00:02:26,239

1973

52

00:02:30,070 --> 00:02:29,120

during the regime of tito joseph bros

53

00:02:34,309 --> 00:02:30,080

tito

54

00:02:37,509 --> 00:02:34,319

communism so uh yeah

55

00:02:41,190 --> 00:02:37,519

once night in the summertime i can't

56

00:02:43,990 --> 00:02:41,200

recall uh a month or whenever

57

00:02:45,990 --> 00:02:44,000

i know it was summer i was sleeping with

58

00:02:48,830 --> 00:02:46,000

my father in a bedroom

59

00:02:50,070 --> 00:02:48,840

there was uh only us and his mother my

60

00:02:53,830 --> 00:02:50,080

grandmother

61

00:02:55,509 --> 00:02:53,840

in her own bedroom and for some strange

62

00:02:58,550 --> 00:02:55,519

reason i i walk up and i

63

00:02:59,750 --> 00:02:58,560

uh see myself sitting on a on the edge

64

00:03:02,949 --> 00:02:59,760

of a bed

65

00:03:05,990 --> 00:03:02,959

my father is snoring away and

66

00:03:07,110 --> 00:03:06,000

i don't know why why i'm up but i see

67

00:03:09,990 --> 00:03:07,120

this little uh

68

00:03:11,830 --> 00:03:10,000

figure it was shorter than me i was only

69

00:03:14,390 --> 00:03:11,840

eight years old at the time

70

00:03:16,470 --> 00:03:14,400

but quite short a four foot eight or

71

00:03:19,190 --> 00:03:16,480

something like a four foot nine

72

00:03:20,309 --> 00:03:19,200

and this thing uh woke up right right

73

00:03:22,470 --> 00:03:20,319

next to me

74

00:03:24,550 --> 00:03:22,480

and he kept looking at me i seen this

75

00:03:24,949 --> 00:03:24,560

dark liquidy black eyes and it's like

76

00:03:27,670 --> 00:03:24,959

seems

77

00:03:28,229 --> 00:03:27,680

seemed to be uh knowing everything about

78

00:03:30,630 --> 00:03:28,239

me and

79

00:03:32,630 --> 00:03:30,640

i had to follow it for some reason and

80

00:03:35,830 --> 00:03:32,640

started doing the strange

81

00:03:36,630 --> 00:03:35,840

dance up and down arms and uh next thing

82

00:03:39,990 --> 00:03:36,640

i know boom

83

00:03:42,550 --> 00:03:40,000

uh my next memory i'm in this little

84

00:03:43,750 --> 00:03:42,560

closet right next to bed it was a small

85

00:03:47,190 --> 00:03:43,760

bedroom

86

00:03:49,350 --> 00:03:47,200

and i can feel myself

87

00:03:51,270 --> 00:03:49,360

digging through the clothes and things

88

00:03:53,750 --> 00:03:51,280

are falling on me uh

89

00:03:55,509 --> 00:03:53,760

pants shoes belts whatever was saying in

90

00:03:58,550 --> 00:03:55,519

there was falling on me

91

00:04:00,390 --> 00:03:58,560

and my father woke up and uh asked me

92

00:04:01,750 --> 00:04:00,400

you know he held my shoulder and said

93

00:04:03,190 --> 00:04:01,760

what are you doing in that closet you

94

00:04:04,229 --> 00:04:03,200

know what what are you doing you sleep

95

00:04:07,030 --> 00:04:04,239

walking [h__h]

96

00:04:08,229 --> 00:04:07,040

dad i'm looking for those eyes that's

97

00:04:10,630 --> 00:04:08,239

all i remember

98

00:04:12,229 --> 00:04:10,640

and for for decades i had no no way of

99

00:04:14,470 --> 00:04:12,239

knowing if this was a

100

00:04:15,990 --> 00:04:14,480

real or what a bad dream he told me was

101
00:04:18,150 --> 00:04:16,000
a bad dream

102
00:04:19,270 --> 00:04:18,160
second experience like that i had

103
00:04:21,189 --> 00:04:19,280
following his death

104
00:04:23,350 --> 00:04:21,199
in buffalo new york where i lived for

105
00:04:24,390 --> 00:04:23,360
five years after detroit was the first

106
00:04:28,310 --> 00:04:24,400
town where we

107
00:04:30,390 --> 00:04:28,320
moved in 1973 and then uh i had another

108
00:04:34,469 --> 00:04:30,400
strange night experience like that in a

109
00:04:38,469 --> 00:04:34,479
in a house uh this one was uh

110
00:04:41,510 --> 00:04:38,479
again uh sleep paralysis

111
00:04:44,390 --> 00:04:41,520
and the house was an old stop

112
00:04:45,270 --> 00:04:44,400
style like wooden house like in buffalos

113
00:04:47,670 --> 00:04:45,280

they have you know with

114

00:04:49,909 --> 00:04:47,680

two stories it was a little balcony it

115

00:04:53,990 --> 00:04:49,919

was in the middle of a winter

116

00:04:56,870 --> 00:04:54,000

and my bed was facing a door

117

00:04:58,390 --> 00:04:56,880

balcony door with a window with venetian

118

00:05:00,950 --> 00:04:58,400

blinds

119

00:05:03,990 --> 00:05:00,960

and i'm waking up and i can't move i'm

120

00:05:06,550 --> 00:05:04,000

paralyzed and i see these uh

121

00:05:07,270 --> 00:05:06,560

two long clothes your fingers like going

122

00:05:11,830 --> 00:05:07,280

through the

123

00:05:14,950 --> 00:05:11,840

and there was two yellows

124

00:05:17,029 --> 00:05:14,960

eyes staring at me and i freaked off i

125

00:05:19,029 --> 00:05:17,039

finally woke up and i screamed and

126

00:05:20,550 --> 00:05:19,039

something ran towards me

127

00:05:22,550 --> 00:05:20,560

i heard some kind of staccato

128

00:05:24,150 --> 00:05:22,560

vocalization something very quick little

129

00:05:25,270 --> 00:05:24,160

footsteps or something then he was going

130

00:05:28,150 --> 00:05:25,280

i woke up and

131

00:05:30,469 --> 00:05:28,160

i was petrified i mean i uh turned all

132

00:05:33,670 --> 00:05:30,479

the lights on the house so there was a

133

00:05:34,990 --> 00:05:33,680

nobody there not some phantom and uh for

134

00:05:38,230 --> 00:05:35,000

a number of years uh

135

00:05:40,870 --> 00:05:38,240

1980s i think that's where communion

136

00:05:43,510 --> 00:05:40,880

came out with chris rieber's communion

137

00:05:44,870 --> 00:05:43,520

and i i saw that uh i saw that face and

138

00:05:47,350 --> 00:05:44,880

i own a book and i

139

00:05:48,629 --> 00:05:47,360

absolutely had to buy that book and

140

00:05:50,150 --> 00:05:48,639

believe it or not i couldn't finish

141

00:05:52,390 --> 00:05:50,160

reading it

142

00:05:53,590 --> 00:05:52,400

oh really let's throw it out i threw it

143

00:05:57,189 --> 00:05:53,600

away i didn't want it

144

00:05:58,950 --> 00:05:57,199

i didn't even want the book near me

145

00:06:01,830 --> 00:05:58,960

i bought the second book and many years

146

00:06:04,150 --> 00:06:01,840

later subsequently i finished reading it

147

00:06:06,870 --> 00:06:04,160

so at that time during most of my life

148

00:06:09,189 --> 00:06:06,880

before this actual experiences

149

00:06:10,790 --> 00:06:09,199

i had no way of knowing what it is i

150

00:06:12,390 --> 00:06:10,800

read a few books i read

151

00:06:14,230 --> 00:06:12,400

watched a few shows i watched the

152

00:06:17,350 --> 00:06:14,240

encounters of a third kind

153

00:06:19,430 --> 00:06:17,360

with jacques volley in your background

154

00:06:21,590 --> 00:06:19,440

so it was a fascinating story maybe it

155

00:06:23,270 --> 00:06:21,600

is maybe it isn't uh who knows you know

156

00:06:26,070 --> 00:06:23,280

it's something

157

00:06:27,909 --> 00:06:26,080

science fiction maybe i i had no idea

158

00:06:31,350 --> 00:06:27,919

until these events happen in the

159

00:06:32,390 --> 00:06:31,360

year 2000 yeah so yeah so let's talk

160

00:06:35,590 --> 00:06:32,400

about that

161

00:06:38,710 --> 00:06:35,600

um you how did how did this whole

162

00:06:42,550 --> 00:06:38,720

this whole sailing trip come about and

163

00:06:45,909 --> 00:06:42,560

and to begin with what was the adventure

164

00:06:46,550 --> 00:06:45,919

that you set out to do well zadar in

165

00:06:49,909 --> 00:06:46,560

croatia

166

00:06:52,309 --> 00:06:49,919

is on dalmatian coast adriatic coast

167

00:06:53,189 --> 00:06:52,319

and my father in the 60s he had a little

168

00:07:00,390 --> 00:06:53,199

motorboat

169

00:07:03,270 --> 00:07:00,400

it was a fantastic

170

00:07:04,629 --> 00:07:03,280

childhood couple years that i remember

171

00:07:06,950 --> 00:07:04,639

being on a boat so i

172

00:07:08,550 --> 00:07:06,960

really got to love for the ocean love

173

00:07:11,029 --> 00:07:08,560

for the sea

174

00:07:13,430 --> 00:07:11,039

and after my schooling which i finished

175

00:07:15,749 --> 00:07:13,440

in buffalo for commercial art

176

00:07:16,790 --> 00:07:15,759

i always had the desire to somehow to be

177

00:07:18,870 --> 00:07:16,800

an adventurer

178

00:07:20,790 --> 00:07:18,880

you know i read many books about sailors

179

00:07:24,710 --> 00:07:20,800

about

180

00:07:27,350 --> 00:07:24,720

columbus magellan

181

00:07:27,749 --> 00:07:27,360

expeditions around the world first sale

182

00:07:29,510 --> 00:07:27,759

you know

183

00:07:31,670 --> 00:07:29,520

many other individual sailors going

184

00:07:33,670 --> 00:07:31,680

places so it was something that you know

185

00:07:35,189 --> 00:07:33,680

they walked the memory of the childhood

186

00:07:38,309 --> 00:07:35,199

and desire to

187

00:07:41,029 --> 00:07:38,319

uh to get out of a mundane life and go

188

00:07:41,589 --> 00:07:41,039

go out hit the sea you know something

189

00:07:45,189 --> 00:07:41,599

new

190

00:07:49,270 --> 00:07:45,199

see the islands explore places so uh

191

00:07:52,469 --> 00:07:49,280

in 1989

192

00:07:55,189 --> 00:07:52,479

in 1981 i moved to phoenix arizona okay

193

00:07:56,629 --> 00:07:55,199

and uh california was very nearby so i

194

00:07:59,110 --> 00:07:56,639

used to go to a

195

00:07:59,749 --> 00:07:59,120

short trip to san diego and i see all

196

00:08:03,029 --> 00:07:59,759

the

197

00:08:04,869 --> 00:08:03,039

of jealous of people

198

00:08:06,390 --> 00:08:04,879

setting up sail and cruising at bay and

199

00:08:07,670 --> 00:08:06,400

you know you can see them out there in

200

00:08:10,469 --> 00:08:07,680

the open ocean

201
00:08:11,670 --> 00:08:10,479
so uh said i i i got to get a boat man

202
00:08:13,270 --> 00:08:11,680
this is

203
00:08:15,589 --> 00:08:13,280
one of these years i'm gonna have to do

204
00:08:16,950 --> 00:08:15,599
it get a i don't care what size it is as

205
00:08:17,670 --> 00:08:16,960
long as it's a you know nice looking

206
00:08:20,950 --> 00:08:17,680
little boat

207
00:08:25,029 --> 00:08:20,960
i'll do it so i saved up some money

208
00:08:27,189 --> 00:08:25,039
and then in 1989 i bought my first boat

209
00:08:28,150 --> 00:08:27,199
which i named after my father a little

210
00:08:31,909 --> 00:08:28,160
canadian slope

211
00:08:34,469 --> 00:08:31,919
26 footer it was called royal

212
00:08:35,909 --> 00:08:34,479
and i uh you know practiced sailing

213
00:08:37,750 --> 00:08:35,919

around the bay i

214

00:08:39,029 --> 00:08:37,760

was afraid a number of times you know

215

00:08:39,990 --> 00:08:39,039

there was a couple of storms that

216

00:08:43,029 --> 00:08:40,000

happened in between

217

00:08:45,350 --> 00:08:43,039

and uh but slowly or surely i i

218

00:08:47,110 --> 00:08:45,360

gather up all my equipment i bought the

219

00:08:49,350 --> 00:08:47,120

chains the

220

00:08:51,110 --> 00:08:49,360

the anchors what not and i was almost

221

00:08:53,590 --> 00:08:51,120

ready and i had a person

222

00:08:55,910 --> 00:08:53,600

that wanted to go sailing with me and

223

00:08:59,509 --> 00:08:55,920

somehow this idea of going to hawaii

224

00:09:02,470 --> 00:08:59,519

right away i mean that got spawned

225

00:09:03,190 --> 00:09:02,480

and uh anybody else who i talked to uh

226

00:09:05,350 --> 00:09:03,200

all this

227

00:09:06,630 --> 00:09:05,360

uh yeah i was just gonna say where did

228

00:09:10,070 --> 00:09:06,640

you depart where were you

229

00:09:13,750 --> 00:09:12,070

oh i'm departing from san diego i'm

230

00:09:16,550 --> 00:09:13,760

talking about my first boat

231

00:09:17,269 --> 00:09:16,560

yeah yeah i got i got i got uh-huh yeah

232

00:09:20,389 --> 00:09:17,279

yeah

233

00:09:22,310 --> 00:09:20,399

and uh well all the old

234

00:09:23,990 --> 00:09:22,320

old sailors told me you know learn

235

00:09:24,550 --> 00:09:24,000

something more go to mexico you know

236

00:09:26,389 --> 00:09:24,560

don't go

237

00:09:28,070 --> 00:09:26,399

into the ocean alone or even with

238

00:09:29,030 --> 00:09:28,080

somebody else it's too far you know

239

00:09:31,269 --> 00:09:29,040

don't go to hawaii

240

00:09:32,710 --> 00:09:31,279

it's a big trip so i said well i don't

241

00:09:33,110 --> 00:09:32,720

know i think about it so i thought about

242

00:09:37,190 --> 00:09:33,120

it

243

00:09:39,910 --> 00:09:37,200

anyway so me and my friend

244

00:09:41,829 --> 00:09:39,920

we took off we took him from los

245

00:09:43,269 --> 00:09:41,839

cronaros islands right off the off to

246

00:09:46,389 --> 00:09:43,279

san diego

247

00:09:47,190 --> 00:09:46,399

we left for a three-day trip into the

248

00:09:49,269 --> 00:09:47,200

open ocean

249

00:09:50,949 --> 00:09:49,279

and i i kind of got started swallowing

250

00:09:52,949 --> 00:09:50,959

apples you know what am i doing

251

00:09:54,870 --> 00:09:52,959

is this the right thing to do you know

252

00:09:55,350 --> 00:09:54,880

it's a huge ocean out here you know i

253

00:09:58,630 --> 00:09:55,360

don't know

254

00:10:00,310 --> 00:09:58,640

you know okay whatever you say you're

255

00:10:02,150 --> 00:10:00,320

the captain so

256

00:10:04,150 --> 00:10:02,160

if you turn around and you came back to

257

00:10:05,030 --> 00:10:04,160

san diego within a week or so the guy

258

00:10:08,310 --> 00:10:05,040

was gone

259

00:10:11,829 --> 00:10:08,320

and i couldn't find anybody to help me

260

00:10:13,910 --> 00:10:11,839

and uh hurricane season was upon us

261

00:10:15,750 --> 00:10:13,920

right you know coming coming along and i

262

00:10:16,230 --> 00:10:15,760

was wasting my supplies and said you

263

00:10:19,910 --> 00:10:16,240

know

264

00:10:22,710 --> 00:10:19,920

i want to do it let's forget let's do it

265

00:10:25,190 --> 00:10:22,720

so i took off again from coronados and i

266

00:10:29,269 --> 00:10:25,200

took off from hawaii from san diego

267

00:10:31,269 --> 00:10:29,279

and uh this took 52 days

268

00:10:32,949 --> 00:10:31,279

and i ship wrecked on the wrong island i

269

00:10:36,310 --> 00:10:32,959

was shooting from maui

270

00:10:38,949 --> 00:10:36,320

and i hit the big island of hawaii

271

00:10:39,990 --> 00:10:38,959

southernmost by mistake i made one

272

00:10:41,750 --> 00:10:40,000

degree

273

00:10:44,949 --> 00:10:41,760

navigational mistake going only by

274

00:10:46,870 --> 00:10:44,959

little plastic sextant

275

00:10:48,230 --> 00:10:46,880

probably probably hit the rocks and i

276

00:10:51,670 --> 00:10:48,240

would say by the

277

00:10:52,870 --> 00:10:51,680

u.s marines want to see that helicopter

278

00:10:55,829 --> 00:10:52,880

please

279

00:10:57,509 --> 00:10:55,839

yeah so a couple years later i bought a

280

00:10:59,430 --> 00:10:57,519

second boat i didn't take that one

281

00:11:00,790 --> 00:10:59,440

anywhere just live down in san diego for

282

00:11:08,470 --> 00:11:00,800

a while

283

00:11:11,269 --> 00:11:08,480

and then in 1998

284

00:11:12,310 --> 00:11:11,279

i i bought my last boat called it after

285

00:11:13,910 --> 00:11:12,320

my mother mira

286

00:11:15,670 --> 00:11:13,920

and this is where this is the boat in

287

00:11:19,030 --> 00:11:15,680

which these experiences

288

00:11:21,990 --> 00:11:19,040

and sightings took place on

289

00:11:23,990 --> 00:11:22,000

i was accompanied by a good friend whom

290

00:11:26,069 --> 00:11:24,000

i met in 1997

291

00:11:27,670 --> 00:11:26,079

a year or so prior to the purchase of

292

00:11:30,790 --> 00:11:27,680

the boat

293

00:11:32,949 --> 00:11:30,800

a navajo fellow donald begay he's from

294

00:11:36,230 --> 00:11:32,959

small town in northeastern

295

00:11:39,269 --> 00:11:36,240

arizona on the reservation called lukach

296

00:11:40,150 --> 00:11:39,279

he was fascinated and i heard my sailing

297

00:11:43,750 --> 00:11:40,160

stories i

298

00:11:46,790 --> 00:11:43,760

read some newspaper articles

299

00:11:49,030 --> 00:11:46,800

after my misfortune that came came about

300

00:11:50,389 --> 00:11:49,040

and he wanted to accompany me so i we

301
00:11:52,550 --> 00:11:50,399
went to san diego and

302
00:11:53,829 --> 00:11:52,560
he lived on the boat for a while and i i

303
00:11:57,590 --> 00:11:53,839
trained him

304
00:12:01,269 --> 00:11:57,600
he became quite a good sailor so

305
00:12:05,829 --> 00:12:01,279
in the in this in the fall of

306
00:12:09,110 --> 00:12:05,839
99 we took the boat down a coast to baja

307
00:12:10,790 --> 00:12:09,120
from san diego and checked it ensenada

308
00:12:12,230 --> 00:12:10,800
and made it all the way to the port of

309
00:12:14,790 --> 00:12:12,240
la paz this this

310
00:12:15,829 --> 00:12:14,800
journey took 47 days it was fantastic

311
00:12:21,990 --> 00:12:15,839
cruise i mean we stopped

312
00:12:25,190 --> 00:12:24,230
cedros island finally made it to la paz

313
00:12:28,470 --> 00:12:25,200

and this is

314

00:12:28,949 --> 00:12:28,480
from la paz capital of baja this is

315

00:12:32,870 --> 00:12:28,959
where these

316

00:12:36,829 --> 00:12:32,880
ufo experiences will start uh in april

317

00:12:43,110 --> 00:12:39,509
um we left the boat

318

00:12:44,470 --> 00:12:43,120
in in la paz for the winter around

319

00:12:47,269 --> 00:12:44,480
christmas season and

320

00:12:49,430 --> 00:12:47,279
donald left i secured a boat within

321

00:12:50,629 --> 00:12:49,440
about 10 days or so i i came back to

322

00:12:54,310 --> 00:12:50,639
phoenix and we spent

323

00:12:56,470 --> 00:12:54,320
christmas and new year's and uh

324

00:12:58,230 --> 00:12:56,480
i believe month or so i don't really

325

00:13:01,350 --> 00:12:58,240
remember right now

326

00:13:03,670 --> 00:13:01,360

how long but we made it back to uh

327

00:13:06,470 --> 00:13:03,680

we made it back to la paz together we

328

00:13:09,750 --> 00:13:06,480

took a bus down from san diego

329

00:13:13,030 --> 00:13:09,760

we made it back to la paz in

330

00:13:16,629 --> 00:13:13,040

sometimes in march of 2000

331

00:13:18,829 --> 00:13:16,639

and went to a two-week cruise to the

332

00:13:22,629 --> 00:13:18,839

island nearby

333

00:13:26,310 --> 00:13:22,639

um espirito santo

334

00:13:29,910 --> 00:13:26,320

it was fantastic came back and uh

335

00:13:32,870 --> 00:13:29,920

continued with preparations on and on

336

00:13:35,590 --> 00:13:32,880

april 8th of 2000 this is where we

337

00:13:39,670 --> 00:13:35,600

decided to go for hawaii and we actually

338

00:13:46,150 --> 00:13:42,710

the next next evening

339

00:13:50,069 --> 00:13:46,160

disability experiences started

340

00:13:51,350 --> 00:13:50,079

we were slowly sailing along the baja

341

00:13:54,389 --> 00:13:51,360

coast

342

00:13:57,750 --> 00:13:54,399

towards cabo san lucas we were

343

00:13:59,430 --> 00:13:57,760

the initial plan was to to stop in kabul

344

00:14:00,790 --> 00:13:59,440

and look look us for a couple of days

345

00:14:04,550 --> 00:14:00,800

and rest up a little bit

346

00:14:07,269 --> 00:14:04,560

on anchor and then take a take a hike to

347

00:14:09,750 --> 00:14:07,279

take a sail to all the way to big island

348

00:14:11,670 --> 00:14:09,760

but this time i had a gps

349

00:14:14,069 --> 00:14:11,680

far easier to find your find your

350

00:14:15,269 --> 00:14:14,079

location which came in really handy for

351

00:14:19,030 --> 00:14:15,279

for marking all these uh

352

00:14:21,990 --> 00:14:19,040

sightings uh

353

00:14:23,670 --> 00:14:22,000

so uh we're slowly slowly sailing very

354

00:14:25,829 --> 00:14:23,680

very little wind and the weather was

355

00:14:29,110 --> 00:14:25,839

pretty good you know spotty clouds

356

00:14:30,150 --> 00:14:29,120

we were south of uh isla ceraldo which

357

00:14:33,350 --> 00:14:30,160

is about

358

00:14:34,949 --> 00:14:33,360

one third of the way from la paz towards

359

00:14:38,069 --> 00:14:34,959

cabo san lucas you know you have to

360

00:14:41,350 --> 00:14:38,079

circumnavigate the peninsula

361

00:14:44,310 --> 00:14:41,360

donald was asleep he was late at night

362

00:14:46,470 --> 00:14:44,320

and he was asleep i was sitting outside

363

00:14:50,230 --> 00:14:46,480

slowly steering the boat

364

00:14:54,150 --> 00:14:50,240

slacking off you know the motor was off

365

00:14:56,870 --> 00:14:54,160

uh and i kept looking up i was kind of

366

00:14:58,629 --> 00:14:56,880

dozing off and hunched hunchback on my

367

00:15:01,829 --> 00:14:58,639

water carrying bladders

368

00:15:04,629 --> 00:15:01,839

we took a lot of extra water with us and

369

00:15:05,030 --> 00:15:04,639

i i and within this cloud i keep seeing

370

00:15:08,629 --> 00:15:05,040

these

371

00:15:11,189 --> 00:15:08,639

flashes it will come off

372

00:15:11,990 --> 00:15:11,199

come on come off come on and there was

373

00:15:14,389 --> 00:15:12,000

no rain there

374

00:15:16,230 --> 00:15:14,399

it was not lightning and i more or less

375

00:15:18,150 --> 00:15:16,240

expected to see a

376

00:15:20,470 --> 00:15:18,160

jetliner leaving the cloud you know

377

00:15:22,870 --> 00:15:20,480

going towards uh maybe it was a

378

00:15:24,710 --> 00:15:22,880

a flight from la paz to mazatlan but

379

00:15:26,389 --> 00:15:24,720

that never happened it was just the one

380

00:15:28,310 --> 00:15:26,399

the one location of the cloud that just

381

00:15:30,790 --> 00:15:28,320

kept happening not lightning

382

00:15:31,670 --> 00:15:30,800

very unusual but you know not seeing

383

00:15:34,470 --> 00:15:31,680

anything i

384

00:15:36,230 --> 00:15:34,480

didn't give it much thought you know

385

00:15:39,350 --> 00:15:36,240

morning came

386

00:15:42,870 --> 00:15:39,360

and don was about ready to uh

387

00:15:43,509 --> 00:15:42,880

take over your father we don't really

388

00:15:46,629 --> 00:15:43,519

left at

389

00:15:48,069 --> 00:15:46,639

that position you know maybe maybe 20

390

00:15:52,150 --> 00:15:48,079

miles or so i don't know

391

00:15:54,310 --> 00:15:52,160

right now and uh he finished breakfast

392

00:15:56,629 --> 00:15:54,320

and he was washing dishes and i i looked

393

00:16:00,150 --> 00:15:56,639

at i was still outside in the cockpit

394

00:16:03,430 --> 00:16:00,160

i looked up and uh i see this uh

395

00:16:05,030 --> 00:16:03,440

chrome sphere standing over us way up

396

00:16:06,790 --> 00:16:05,040

nothing else though baja is pretty

397

00:16:07,269 --> 00:16:06,800

desolate southern baja if you ever been

398

00:16:10,790 --> 00:16:07,279

there

399

00:16:12,870 --> 00:16:10,800

helicopters you will see a

400

00:16:15,030 --> 00:16:12,880

jetliner maybe you go into la paz or you

401
00:16:18,629 --> 00:16:15,040
know but it would be north of you

402
00:16:21,350 --> 00:16:18,639
uh chrome sphere

403
00:16:22,629 --> 00:16:21,360
and i more or less rub my eyes you know

404
00:16:24,389 --> 00:16:22,639
watch that by the time i

405
00:16:27,030 --> 00:16:24,399
it would seem to be surrounded by some

406
00:16:29,590 --> 00:16:27,040
kind of a little cloud little cloudlet

407
00:16:31,110 --> 00:16:29,600
but i looked looked back and it was gone

408
00:16:31,990 --> 00:16:31,120
what the cloudlet and the spear were

409
00:16:33,829 --> 00:16:32,000
going

410
00:16:35,749 --> 00:16:33,839
so this is a little bit odd you know i

411
00:16:37,590 --> 00:16:35,759
told don he just looked at me saying you

412
00:16:39,670 --> 00:16:37,600
know what we should start the engine now

413
00:16:42,150 --> 00:16:39,680

it's a good time to take off say okay

414

00:16:46,069 --> 00:16:42,160

let's start the engine yes i agree

415

00:16:50,230 --> 00:16:46,079

and then uh later on that afternoon

416

00:16:52,389 --> 00:16:50,240

in the area of cabo pulmo

417

00:16:53,350 --> 00:16:52,399

cabo puma a very nice uh right now i

418

00:16:55,350 --> 00:16:53,360

think there's a

419

00:16:56,710 --> 00:16:55,360

resort of some kind over there very

420

00:16:58,870 --> 00:16:56,720

small fishing village

421

00:17:00,550 --> 00:16:58,880

very mountainous in a you know in the

422

00:17:03,350 --> 00:17:00,560

background

423

00:17:04,230 --> 00:17:03,360

i almost bought two i see this uh

424

00:17:07,110 --> 00:17:04,240

orangish

425

00:17:08,710 --> 00:17:07,120

reddish object elongated just came

426

00:17:11,189 --> 00:17:08,720

behind the mountains and it kind of like

427

00:17:15,429 --> 00:17:11,199

a very jerky superb emotion

428

00:17:16,230 --> 00:17:15,439

it started uh it overflowed the area and

429

00:17:17,829 --> 00:17:16,240

flew back

430

00:17:20,069 --> 00:17:17,839

you know it was like a very very strange

431

00:17:22,150 --> 00:17:20,079

looking flight but uh

432

00:17:23,990 --> 00:17:22,160

i really don't know what it could have

433

00:17:26,949 --> 00:17:24,000

been anthony it could have been a

434

00:17:27,270 --> 00:17:26,959

you know parasailer it could be a flight

435

00:17:30,630 --> 00:17:27,280

uh

436

00:17:32,549 --> 00:17:30,640

kudos playing helicopter i i don't know

437

00:17:33,990 --> 00:17:32,559

so i really can't pinpoint this one as

438

00:17:37,190 --> 00:17:34,000

being a ufo but

439

00:17:38,870 --> 00:17:37,200

it was rather strange so nothing

440

00:17:39,510 --> 00:17:38,880

happened for for next two days other

441

00:17:43,029 --> 00:17:39,520

than we got

442

00:17:43,510 --> 00:17:43,039

caught in a storm uh near cabo salukas

443

00:17:45,270 --> 00:17:43,520

as

444

00:17:46,870 --> 00:17:45,280

you know when you're sailing near the

445

00:17:49,270 --> 00:17:46,880

capess uh

446

00:17:50,070 --> 00:17:49,280

you have the currents that hit each

447

00:17:53,190 --> 00:17:50,080

other in the

448

00:17:55,909 --> 00:17:53,200

wind change of the mountains and

449

00:17:58,390 --> 00:17:55,919

capess are usually very stormy so we got

450

00:17:59,190 --> 00:17:58,400

caught in a gale maybe between 40 to 50

451
00:18:01,830 --> 00:17:59,200
knots

452
00:18:03,669 --> 00:18:01,840
all night long i mean it was a very very

453
00:18:05,190 --> 00:18:03,679
it was a wake-up call you know

454
00:18:07,510 --> 00:18:05,200
when you're sitting at the aquifer for

455
00:18:08,950 --> 00:18:07,520
months you kind of get lazy you lose

456
00:18:11,669 --> 00:18:08,960
your sea legs and this will

457
00:18:12,630 --> 00:18:11,679
this will bring the fear fear into your

458
00:18:15,669 --> 00:18:12,640
spine you know

459
00:18:17,270 --> 00:18:15,679
yeah all night long so we got blown away

460
00:18:19,430 --> 00:18:17,280
maybe 30 miles uh

461
00:18:21,029 --> 00:18:19,440
after off to cabo and i could still see

462
00:18:21,590 --> 00:18:21,039
a cowboy in the distance and you know

463
00:18:23,590 --> 00:18:21,600

say let's

464

00:18:25,270 --> 00:18:23,600

let's just forget about cowboy let's

465

00:18:26,950 --> 00:18:25,280

let's let's take off uh

466

00:18:28,470 --> 00:18:26,960

let's follow the bitter pill and let's

467

00:18:30,390 --> 00:18:28,480

let's go to hawaii you know

468

00:18:32,310 --> 00:18:30,400

since we this is already our mission

469

00:18:35,830 --> 00:18:32,320

maybe we'll get there in a month or so

470

00:18:40,150 --> 00:18:35,840

so okay okay so

471

00:18:43,270 --> 00:18:40,160

that's where we took off and uh

472

00:18:45,190 --> 00:18:43,280

first day out first night out first day

473

00:18:48,549 --> 00:18:45,200

uh i talked to american ship

474

00:18:50,310 --> 00:18:48,559

there was a freighter going from panama

475

00:18:51,990 --> 00:18:50,320

towards los angeles some place and i

476
00:18:52,549 --> 00:18:52,000
talked to the captain he gave us a good

477
00:18:54,950 --> 00:18:52,559
weathering

478
00:18:56,390 --> 00:18:54,960
information said weather looks good you

479
00:18:57,190 --> 00:18:56,400
guys are doing just fine you know it'd

480
00:19:00,150 --> 00:18:57,200
be fine

481
00:19:02,230 --> 00:19:00,160
that night the first night out uh we

482
00:19:04,789 --> 00:19:02,240
were approached by a mexican frigate

483
00:19:06,390 --> 00:19:04,799
at night he just sneaked up on us and uh

484
00:19:08,070 --> 00:19:06,400
demanded uh demanding

485
00:19:10,870 --> 00:19:08,080
identification who are you where are you

486
00:19:12,549 --> 00:19:10,880
going so he's speaking perfect english

487
00:19:14,150 --> 00:19:12,559
so i gave my name give him the boat's

488
00:19:17,270 --> 00:19:14,160

name mira

489

00:19:19,669 --> 00:19:17,280

all my numbers passport numbers and said

490

00:19:21,430 --> 00:19:19,679

yeah we're going to hawaii

491

00:19:23,430 --> 00:19:21,440

have you seen a yellow boat be looking

492

00:19:25,590 --> 00:19:23,440

for this yellow boat and i said no we

493

00:19:27,750 --> 00:19:25,600

haven't seen anything

494

00:19:29,510 --> 00:19:27,760

so he let us go in the left there could

495

00:19:32,150 --> 00:19:29,520

have been an excuse you know for uh for

496

00:19:33,750 --> 00:19:32,160

uh approaching us so that's it it was

497

00:19:37,190 --> 00:19:33,760

the last uh

498

00:19:38,950 --> 00:19:37,200

last uh site of any kind of shipping

499

00:19:40,230 --> 00:19:38,960

there was one ship i think i've seen in

500

00:19:42,230 --> 00:19:40,240

the distance

501
00:19:43,990 --> 00:19:42,240
a week or so later you know some some

502
00:19:45,750 --> 00:19:44,000
tanker afraid of going someplace i don't

503
00:19:49,990 --> 00:19:45,760
know you could have been going north or

504
00:19:53,350 --> 00:19:50,000
i don't know uh but the

505
00:19:56,549 --> 00:19:53,360
very first night out after the

506
00:19:58,789 --> 00:19:56,559
mexican frequent leftists i believe see

507
00:20:00,390 --> 00:19:58,799
i got all these dates

508
00:20:02,789 --> 00:20:00,400
written in my notes which i started

509
00:20:04,390 --> 00:20:02,799
taking after a third sighting

510
00:20:06,470 --> 00:20:04,400
after third sighting or so out in the

511
00:20:09,430 --> 00:20:06,480
open ocean i decided to keep

512
00:20:10,149 --> 00:20:09,440
a log because my mind was already blown

513
00:20:11,830 --> 00:20:10,159

i mean you know

514

00:20:14,950 --> 00:20:11,840

something's going on you know when you

515

00:20:16,630 --> 00:20:14,960

see it like the chrome sphere or

516

00:20:18,230 --> 00:20:16,640

lightning you know you don't know what

517

00:20:21,430 --> 00:20:18,240

to think you know maybe it's my eyes

518

00:20:27,590 --> 00:20:24,470

i don't know first night out

519

00:20:30,230 --> 00:20:27,600

again very late at night donald's

520

00:20:32,390 --> 00:20:30,240

sleeping it was pretty clear

521

00:20:34,710 --> 00:20:32,400

and a little bit chilly it gets cold

522

00:20:37,430 --> 00:20:34,720

even though you're in a tropical cancer

523

00:20:39,430 --> 00:20:37,440

it gets cold at night you know you got

524

00:20:41,669 --> 00:20:39,440

to have your park on and

525

00:20:43,750 --> 00:20:41,679

oil skins and we had little black caps

526

00:20:46,470 --> 00:20:43,760

that that i bought at

527

00:20:48,149 --> 00:20:46,480

one of the marine channelers in san

528

00:20:50,470 --> 00:20:48,159

diego so we were pretty pretty well

529

00:20:53,990 --> 00:20:50,480

equipped we had a little radio

530

00:20:56,710 --> 00:20:54,000

uh vhf radio and we had an epirb in case

531

00:20:59,510 --> 00:20:56,720

of emergency you know if he sank or

532

00:21:00,470 --> 00:20:59,520

somebody had a medical problem or fire

533

00:21:03,350 --> 00:21:00,480

or something

534

00:21:05,350 --> 00:21:03,360

you call and the april will the signal

535

00:21:07,190 --> 00:21:05,360

will be activated and the satellites can

536

00:21:09,510 --> 00:21:07,200

hear it and they can zero in on you

537

00:21:10,549 --> 00:21:09,520

report this to the coast guard or navy

538

00:21:12,870 --> 00:21:10,559

whoever

539

00:21:15,110 --> 00:21:12,880

and then you can get some help you know

540

00:21:18,470 --> 00:21:15,120

if there's some ship nearby

541

00:21:21,990 --> 00:21:18,480

so i'm glad we had that this time and

542

00:21:26,549 --> 00:21:22,000

of course the gps so the first night

543

00:21:30,149 --> 00:21:26,559

again he's sleeping and i'm out

544

00:21:33,190 --> 00:21:30,159

i it was around midnight

545

00:21:35,190 --> 00:21:33,200

i got the time written down uh

546

00:21:37,029 --> 00:21:35,200

all of a sudden i way up in the sky i

547

00:21:43,590 --> 00:21:37,039

see this green neon light

548

00:21:47,110 --> 00:21:45,830

flying in a straight trajectory that he

549

00:21:50,630 --> 00:21:47,120

started hopping around

550

00:21:51,430 --> 00:21:50,640

like three little hops it was blinking

551
00:21:53,750 --> 00:21:51,440
blink blink blink

552
00:21:54,549 --> 00:21:53,760
and he you entered one cloud and he was

553
00:21:57,029 --> 00:21:54,559
gone

554
00:21:59,029 --> 00:21:57,039
i said oh this is a this is a little bit

555
00:22:02,149 --> 00:21:59,039
unusual here

556
00:22:05,270 --> 00:22:02,159
what's this i told don about it you know

557
00:22:09,110 --> 00:22:05,280
you just looked at me you know

558
00:22:09,830 --> 00:22:09,120
don he was about 30 32 years old at that

559
00:22:13,110 --> 00:22:09,840
time you know

560
00:22:16,390 --> 00:22:13,120
he is a pretty pretty decent individual

561
00:22:18,950 --> 00:22:16,400
very quiet there's not much of a talker

562
00:22:19,990 --> 00:22:18,960
and uh now can i just interrupt for a

563
00:22:22,230 --> 00:22:20,000

sec

564

00:22:23,590 --> 00:22:22,240

so yeah it sounds to me like you were

565

00:22:25,590 --> 00:22:23,600

taking shifts like

566

00:22:27,350 --> 00:22:25,600

you'd be up in the night during the

567

00:22:29,430 --> 00:22:27,360

night and then he would

568

00:22:31,590 --> 00:22:29,440

uh pilot the boat during the day is that

569

00:22:34,070 --> 00:22:31,600

kind of how that went

570

00:22:36,470 --> 00:22:34,080

yeah we had a soft steering gear and a

571

00:22:37,669 --> 00:22:36,480

wire wire on it broke so we already

572

00:22:40,149 --> 00:22:37,679

knew you know we couldn't so you had

573

00:22:42,470 --> 00:22:40,159

self steer

574

00:22:44,230 --> 00:22:42,480

ships anywhere between two to three four

575

00:22:45,350 --> 00:22:44,240

hours sometimes even eight hours

576

00:22:47,830 --> 00:22:45,360

depending

577

00:22:48,470 --> 00:22:47,840

how how well you felt you know uh you

578

00:22:52,149 --> 00:22:48,480

know

579

00:22:54,390 --> 00:22:52,159

you're up to it and usually

580

00:22:56,149 --> 00:22:54,400

usually after five days or so we were

581

00:22:58,950 --> 00:22:56,159

both so tired but nobody could

582

00:23:00,070 --> 00:22:58,960

uh steer anymore we just went below and

583

00:23:01,590 --> 00:23:00,080

passed out

584

00:23:03,510 --> 00:23:01,600

he left the boat in the heave to

585

00:23:06,470 --> 00:23:03,520

position which back when

586

00:23:08,870 --> 00:23:06,480

you back when the the jib and uh the

587

00:23:09,270 --> 00:23:08,880

boat kind of stops actually the divinity

588

00:23:11,350 --> 00:23:09,280

is

589

00:23:13,830 --> 00:23:11,360

the more stable you are and you're

590

00:23:15,990 --> 00:23:13,840

slowly drifting you you can estimate

591

00:23:17,430 --> 00:23:16,000

your your speed maybe at the half a knot

592

00:23:19,990 --> 00:23:17,440

130 or not

593

00:23:21,350 --> 00:23:20,000

and you know you can sleep 11 hours as

594

00:23:22,710 --> 00:23:21,360

long there's no shipping nothing to hit

595

00:23:24,710 --> 00:23:22,720

you you're perfectly safe

596

00:23:26,070 --> 00:23:24,720

you're much safer in the open open ocean

597

00:23:27,590 --> 00:23:26,080

than uh than

598

00:23:29,830 --> 00:23:27,600

doing a coastal cruising you know where

599

00:23:32,549 --> 00:23:29,840

there's boats you're fishing vessels or

600

00:23:33,270 --> 00:23:32,559

sure you know you're much safer out

601
00:23:34,789 --> 00:23:33,280
there

602
00:23:36,390 --> 00:23:34,799
no chance you're gonna hit anything you

603
00:23:37,990 --> 00:23:36,400
know so we slept

604
00:23:40,149 --> 00:23:38,000
and then in the morning you can just see

605
00:23:41,990 --> 00:23:40,159
how far you drifted and uh oh okay you

606
00:23:43,590 --> 00:23:42,000
get back into your line of position

607
00:23:45,669 --> 00:23:43,600
you have to draw a line of position if

608
00:23:48,549 --> 00:23:45,679
you're sailing between baja met

609
00:23:49,269 --> 00:23:48,559
or hawaii anywhere else and then you you

610
00:23:51,430 --> 00:23:49,279
are

611
00:23:53,110 --> 00:23:51,440
you oscillate you know a couple of days

612
00:23:54,470 --> 00:23:53,120
you're south of it and you climb north

613
00:23:56,230 --> 00:23:54,480

just to keep it in the middle you know

614

00:23:57,190 --> 00:23:56,240

kind of like a zigzagging but but you

615

00:24:01,190 --> 00:23:57,200

keep the aim

616

00:24:02,870 --> 00:24:01,200

up front right 270 270 west

617

00:24:04,630 --> 00:24:02,880

i didn't mean to get way off the ufo

618

00:24:07,909 --> 00:24:04,640

topic so

619

00:24:10,230 --> 00:24:07,919

so we can continue so yeah

620

00:24:11,750 --> 00:24:10,240

and uh so i the reason i asked that

621

00:24:14,470 --> 00:24:11,760

question i just wondered if he was

622

00:24:16,230 --> 00:24:14,480

out during the night as well and and uh

623

00:24:20,630 --> 00:24:16,240

but you're probably gonna tell us uh

624

00:24:22,789 --> 00:24:20,640

you know what he saw eventually

625

00:24:24,390 --> 00:24:22,799

what we saw was next uh the following

626

00:24:26,789 --> 00:24:24,400

night

627

00:24:28,230 --> 00:24:26,799

uh again both of us were in a cockpit

628

00:24:31,350 --> 00:24:28,240

this time

629

00:24:32,950 --> 00:24:31,360

and uh again about the same time

630

00:24:34,470 --> 00:24:32,960

i look up you see this seems to be

631

00:24:36,390 --> 00:24:34,480

happening right in the direction of your

632

00:24:37,750 --> 00:24:36,400

of your uh

633

00:24:39,669 --> 00:24:37,760

of your sight you know but you're

634

00:24:41,190 --> 00:24:39,679

looking it's not happening behind you or

635

00:24:41,990 --> 00:24:41,200

a top for you it's happening just where

636

00:24:44,549 --> 00:24:42,000

you're looking

637

00:24:45,430 --> 00:24:44,559

almost like to attract your attract to

638

00:24:48,789 --> 00:24:45,440

attract that

639

00:24:49,909 --> 00:24:48,799

attention to itself you know again this

640

00:24:52,789 --> 00:24:49,919

green blinker

641

00:24:54,470 --> 00:24:52,799

arrived and uh it was hopping around

642

00:24:56,710 --> 00:24:54,480

like it was looking for something like

643

00:24:57,909 --> 00:24:56,720

you could see what one one flash blink

644

00:24:58,470 --> 00:24:57,919

they would blink on the other part of

645

00:25:00,630 --> 00:24:58,480

the sky

646

00:25:01,750 --> 00:25:00,640

blink blink blink rockets circling us

647

00:25:04,950 --> 00:25:01,760

looking for something

648

00:25:08,630 --> 00:25:04,960

what the hell is this and then it it

649

00:25:10,230 --> 00:25:08,640

uh it climbed right above us maybe 80

650

00:25:13,830 --> 00:25:10,240

degrees

651
00:25:16,950 --> 00:25:13,840
above and it stopped

652
00:25:19,269 --> 00:25:16,960
then what happened next it just buried

653
00:25:21,350 --> 00:25:19,279
forever any any kind of a question in my

654
00:25:23,750 --> 00:25:21,360
mind or his mind

655
00:25:25,669 --> 00:25:23,760
that this was anything else other than

656
00:25:29,190 --> 00:25:25,679
something completely unknown

657
00:25:32,230 --> 00:25:29,200
actual ufo from that from from stopping

658
00:25:32,950 --> 00:25:32,240
where he stopped it made a 360 degree

659
00:25:36,470 --> 00:25:32,960
loop

660
00:25:37,510 --> 00:25:36,480
very quickly and he shot straight up

661
00:25:39,750 --> 00:25:37,520
into the space

662
00:25:41,110 --> 00:25:39,760
leaving a yellow trail behind it i'm out

663
00:25:42,870 --> 00:25:41,120

of here to pop

664

00:25:45,110 --> 00:25:42,880

and he was gone but this time he looked

665

00:25:47,909 --> 00:25:45,120

at each other don

666

00:25:49,190 --> 00:25:47,919

this is not from here this this is uh

667

00:25:51,190 --> 00:25:49,200

why is this happening and

668

00:25:53,750 --> 00:25:51,200

it's the second time third time you're

669

00:25:55,590 --> 00:25:53,760

seeing this uh what's going on here

670

00:25:57,750 --> 00:25:55,600

he couldn't give me any answer he looked

671

00:25:59,909 --> 00:25:57,760

at me he said i don't know what happened

672

00:26:01,430 --> 00:25:59,919

so at this point people vote like you

673

00:26:02,549 --> 00:26:01,440

know but you got to keep going there's

674

00:26:04,630 --> 00:26:02,559

no going back you know

675

00:26:06,630 --> 00:26:04,640

when you're going to go back and tell

676

00:26:10,149 --> 00:26:06,640

people i i saw your phone

677

00:26:12,470 --> 00:26:10,159

i'm scared to go now

678

00:26:13,190 --> 00:26:12,480

there's no going back there's no air

679

00:26:16,789 --> 00:26:13,200

traffic

680

00:26:19,590 --> 00:26:16,799

there's nothing to explain it you see

681

00:26:21,110 --> 00:26:19,600

uh out in the ocean there are no police

682

00:26:23,590 --> 00:26:21,120

lights there are no

683

00:26:24,310 --> 00:26:23,600

fireworks that there are no flares there

684

00:26:27,909 --> 00:26:24,320

no

685

00:26:29,909 --> 00:26:27,919

sometimes you see a plane very rarely

686

00:26:30,950 --> 00:26:29,919

you see but usually airplane usually you

687

00:26:33,110 --> 00:26:30,960

can see the

688

00:26:34,310 --> 00:26:33,120

controls that they leave you know high

689

00:26:35,830 --> 00:26:34,320

above maybe

690

00:26:37,669 --> 00:26:35,840

especially from that area there's

691

00:26:40,470 --> 00:26:37,679

nothing flying there

692

00:26:41,909 --> 00:26:40,480

except maybe from lax to tahiti there

693

00:26:46,310 --> 00:26:41,919

was a flight going

694

00:26:47,669 --> 00:26:46,320

to uh uh other than that

695

00:26:50,070 --> 00:26:47,679

they would not be on your on your

696

00:26:51,990 --> 00:26:50,080

trajectory yeah of course satellites

697

00:26:54,630 --> 00:26:52,000

satellites come up about nine o'clock

698

00:26:56,870 --> 00:26:54,640

and you you see it it goes behind it

699

00:26:58,870 --> 00:26:56,880

behind a shadow of earth and it's

700

00:26:59,909 --> 00:26:58,880

you know it's gone it's a great

701
00:27:02,149 --> 00:26:59,919

trajectory

702
00:27:03,269 --> 00:27:02,159

yeah these things were hopping around

703
00:27:06,470 --> 00:27:03,279

breaking out but

704
00:27:09,669 --> 00:27:06,480

it was something amazing

705
00:27:13,350 --> 00:27:09,679

this last one that we saw was fantastic

706
00:27:16,070 --> 00:27:13,360

then the following night this is when a

707
00:27:18,149 --> 00:27:16,080

real funny one happened again this this

708
00:27:20,950 --> 00:27:18,159

blinker returns only only this time it

709
00:27:23,110 --> 00:27:20,960

was a red color

710
00:27:24,310 --> 00:27:23,120

it came up it was it was green it was

711
00:27:27,269 --> 00:27:24,320

green before

712
00:27:27,830 --> 00:27:27,279

was it green the the the previous night

713
00:27:29,430 --> 00:27:27,840

or was

714

00:27:32,710 --> 00:27:29,440

what i don't remember you just saying a

715

00:27:36,870 --> 00:27:32,720

color of what you saw the last

716

00:27:38,789 --> 00:27:36,880

very bright neon green on two

717

00:27:41,350 --> 00:27:38,799

on two occasions the first night in the

718

00:27:44,149 --> 00:27:41,360

second night right since that was a

719

00:27:46,830 --> 00:27:44,159

hopper the second night was a three

720

00:27:49,830 --> 00:27:46,840

tango sixty degree loop

721

00:27:52,470 --> 00:27:49,840

yeah a little earlier this evening

722

00:27:54,470 --> 00:27:52,480

in the evening uh this time it was red

723

00:27:55,269 --> 00:27:54,480

again blink blink blink and it was

724

00:28:02,070 --> 00:27:55,279

falling

725

00:28:03,510 --> 00:28:02,080

uh flying it would stop and just kind of

726
00:28:07,269 --> 00:28:03,520
like a

727
00:28:10,149 --> 00:28:07,279
flitter down and uh again

728
00:28:11,510 --> 00:28:10,159
uh flying towards us and he stopped in

729
00:28:14,950 --> 00:28:11,520
the distance

730
00:28:17,510 --> 00:28:14,960
he was just standing there in a haze

731
00:28:18,630 --> 00:28:17,520
and uh this time you know what what the

732
00:28:22,149 --> 00:28:18,640
hell is this so you know

733
00:28:22,630 --> 00:28:22,159
what do i do i brought the binoculars

734
00:28:25,029 --> 00:28:22,640
out

735
00:28:26,230 --> 00:28:25,039
i tried to record it we had a little

736
00:28:29,269 --> 00:28:26,240
camera

737
00:28:32,789 --> 00:28:29,279
uh old rca type of uh

738
00:28:34,470 --> 00:28:32,799

a vcr recorder you

739

00:28:36,310 --> 00:28:34,480

actually put the tape in there you know

740

00:28:38,389 --> 00:28:36,320

you slap it in there and

741

00:28:39,909 --> 00:28:38,399

it was very unwieldy type of camera and

742

00:28:40,710 --> 00:28:39,919

especially with the boats moving with

743

00:28:42,950 --> 00:28:40,720

the waves

744

00:28:44,470 --> 00:28:42,960

it was very hard to capture anything so

745

00:28:45,510 --> 00:28:44,480

i tried that but nothing came in the

746

00:28:47,190 --> 00:28:45,520

viewfinder i

747

00:28:49,350 --> 00:28:47,200

grabbed the binoculars and it was red

748

00:28:50,870 --> 00:28:49,360

just sitting there so what do i do now

749

00:28:51,990 --> 00:28:50,880

you know what why is this stick looking

750

00:28:54,789 --> 00:28:52,000

at us

751
00:28:56,630 --> 00:28:54,799
so would you if you had to if you had to

752
00:28:59,909 --> 00:28:56,640
guess how far away it was

753
00:29:02,470 --> 00:28:59,919
do you have any idea how far away it was

754
00:29:03,269 --> 00:29:02,480
from you well over well over a mile

755
00:29:05,510 --> 00:29:03,279
uh-huh

756
00:29:09,269 --> 00:29:05,520
yeah well overall it was basically on

757
00:29:13,190 --> 00:29:12,389
you must well yeah to the closer the

758
00:29:15,350 --> 00:29:13,200
horizon

759
00:29:17,750 --> 00:29:15,360
yeah i see another show away from you

760
00:29:19,510 --> 00:29:17,760
you see see i don't know the size of it

761
00:29:21,430 --> 00:29:19,520
it's very hard to determine how big it

762
00:29:24,549 --> 00:29:21,440
was maybe it was something small

763
00:29:26,310 --> 00:29:24,559

medium size 20 feet wide i i had no way

764

00:29:29,510 --> 00:29:26,320

of knowing how big it

765

00:29:33,430 --> 00:29:29,520

how big that thing is so i uh

766

00:29:35,750 --> 00:29:33,440

i got on the radio channel 16 which is a

767

00:29:37,990 --> 00:29:35,760

hailing frequency ship to ship or ship

768

00:29:42,710 --> 00:29:38,000

to coast or coast guard whoever

769

00:29:44,870 --> 00:29:42,720

and i uh got a radio and i called them

770

00:29:45,909 --> 00:29:44,880

hello hello hello this is sailing vessel

771

00:29:48,789 --> 00:29:45,919

mira

772

00:29:49,669 --> 00:29:48,799

please identify yourself who are you

773

00:29:51,990 --> 00:29:49,679

what do you want

774

00:29:53,590 --> 00:29:52,000

you know do you have any questions you

775

00:29:55,909 --> 00:29:53,600

want to talk

776

00:29:57,190 --> 00:29:55,919

so i no answer and i tried a little

777

00:29:59,269 --> 00:29:57,200

spanish on you

778

00:30:01,029 --> 00:29:59,279

nothing a little bit of russian servo

779

00:30:05,029 --> 00:30:01,039

creation nothing

780

00:30:07,590 --> 00:30:05,039

so don tried to navajo no response

781

00:30:08,470 --> 00:30:07,600

all of a sudden this thing started

782

00:30:11,110 --> 00:30:08,480

moving

783

00:30:12,870 --> 00:30:11,120

and it slowly drifted away never to be

784

00:30:14,870 --> 00:30:12,880

seen

785

00:30:17,190 --> 00:30:14,880

so we had a couple of distance sightings

786

00:30:20,149 --> 00:30:17,200

like that all the way to hawaii

787

00:30:21,350 --> 00:30:20,159

wow this is a question you can see it

788

00:30:22,070 --> 00:30:21,360

actually you said you couldn't see

789

00:30:25,669 --> 00:30:22,080

anything

790

00:30:28,310 --> 00:30:25,679

there uh so uh richard was wondering

791

00:30:31,669 --> 00:30:28,320

if you could see the water was lit up

792

00:30:35,029 --> 00:30:31,679

underneath it did you ever see that

793

00:30:39,430 --> 00:30:35,039

did it light the water up no no no

794

00:30:42,789 --> 00:30:39,440

it was much higher in a sky i see okay

795

00:30:46,870 --> 00:30:42,799

no reflection okay all right

796

00:30:48,950 --> 00:30:46,880

so continue on so the voice continues

797

00:30:50,070 --> 00:30:48,960

and this is where i started uh keeping

798

00:30:53,830 --> 00:30:50,080

notes you know

799

00:30:56,389 --> 00:30:53,840

i got a whole specialized little book

800

00:30:58,630 --> 00:30:56,399

that i you know i kept the boating

801
00:30:59,830 --> 00:30:58,640
you know sailing sailing log you know

802
00:31:02,630 --> 00:30:59,840
what we ate where we

803
00:31:03,350 --> 00:31:02,640
are what's going on the memories from

804
00:31:06,149 --> 00:31:03,360
that day

805
00:31:06,870 --> 00:31:06,159
just to keep a record of our trip yeah

806
00:31:08,870 --> 00:31:06,880
so uh

807
00:31:10,870 --> 00:31:08,880
after these few sightings and i said i i

808
00:31:11,509 --> 00:31:10,880
need to uh try to remember as much as i

809
00:31:14,230 --> 00:31:11,519
can

810
00:31:14,870 --> 00:31:14,240
and try putting these things in a paper

811
00:31:17,269 --> 00:31:14,880
so i

812
00:31:18,789 --> 00:31:17,279
i recalled all the gps positions where

813
00:31:22,070 --> 00:31:18,799

these things happen

814

00:31:23,909 --> 00:31:22,080

and little drawings i made sometimes

815

00:31:27,269 --> 00:31:23,919

colored if i could

816

00:31:29,990 --> 00:31:27,279

you use green and red color you know

817

00:31:31,669 --> 00:31:30,000

just to otherwise that would be totally

818

00:31:33,269 --> 00:31:31,679

i would totally forget it i'm forgetting

819

00:31:34,710 --> 00:31:33,279

things right now after 20 years

820

00:31:36,630 --> 00:31:34,720

it's very hard to remember where you

821

00:31:39,110 --> 00:31:36,640

were at what happened exactly

822

00:31:40,389 --> 00:31:39,120

you know if you had one time one time

823

00:31:41,909 --> 00:31:40,399

sighting

824

00:31:44,389 --> 00:31:41,919

uh especially if it's something

825

00:31:45,029 --> 00:31:44,399

spectacular it will etch into your mind

826

00:31:47,830 --> 00:31:45,039

and you know

827

00:31:49,269 --> 00:31:47,840

you can uh you can you can develop on it

828

00:31:53,269 --> 00:31:49,279

talk about it uh you know

829

00:31:55,509 --> 00:31:53,279

uh explore it uh measure

830

00:31:57,029 --> 00:31:55,519

on land you know with these things it's

831

00:32:00,630 --> 00:31:57,039

very easy to forget

832

00:32:02,549 --> 00:32:00,640

so i i knew this is something unusual uh

833

00:32:03,750 --> 00:32:02,559

very anomalous and i i gotta start

834

00:32:06,710 --> 00:32:03,760

keeping these uh

835

00:32:09,509 --> 00:32:06,720

the notes so we had couple other

836

00:32:12,549 --> 00:32:09,519

sightings a distant type sightings

837

00:32:16,389 --> 00:32:12,559

except one maybe a week or so

838

00:32:19,110 --> 00:32:16,399

later see this voyage from la paz

839

00:32:20,310 --> 00:32:19,120

to heal over me landed took 35 days

840

00:32:23,590 --> 00:32:20,320

altogether

841

00:32:25,990 --> 00:32:23,600

a little faster than my my first trip

842

00:32:27,269 --> 00:32:26,000

by the way this was a 29-footer it was

843

00:32:30,549 --> 00:32:27,279

an old

844

00:32:33,830 --> 00:32:30,559

columbia defender deep keel boat i

845

00:32:35,509 --> 00:32:33,840

made it very seawardy so you know

846

00:32:36,870 --> 00:32:35,519

well supplied she moved pretty good you

847

00:32:39,269 --> 00:32:36,880

know but small boat

848

00:32:39,990 --> 00:32:39,279

takes itself slower than large yachts

849

00:32:42,470 --> 00:32:40,000

actually

850

00:32:43,669 --> 00:32:42,480

we were passed by one boat one sailboat

851

00:32:45,750 --> 00:32:43,679

in the middle of the ocean

852

00:32:47,830 --> 00:32:45,760

called giselle and we talked to the

853

00:32:51,509 --> 00:32:47,840

radio they had a ham radio and they

854

00:32:53,269 --> 00:32:51,519

conveyed my message from uh messaged

855

00:32:54,870 --> 00:32:53,279

back home to my mother that we were okay

856

00:32:58,070 --> 00:32:54,880

not to worry and all that so

857

00:33:00,149 --> 00:32:58,080

they left they left mexic they left

858

00:33:01,830 --> 00:33:00,159

mexico a couple of days

859

00:33:03,750 --> 00:33:01,840

behind us in the past us and they made

860

00:33:07,430 --> 00:33:03,760

it to hawaii maybe a week

861

00:33:09,190 --> 00:33:07,440

before i was jealous but yeah

862

00:33:11,190 --> 00:33:09,200

a little boat with two people you were a

863

00:33:13,750 --> 00:33:11,200

single person you know you gotta sleep

864

00:33:15,430 --> 00:33:13,760

he's just a slow slow slogging you know

865

00:33:19,190 --> 00:33:15,440

the weather is good

866

00:33:22,470 --> 00:33:19,200

so uh uh other anomalous sighting

867

00:33:23,029 --> 00:33:22,480

that that we both saw happen in the

868

00:33:24,549 --> 00:33:23,039

evening

869

00:33:26,630 --> 00:33:24,559

this wasn't a night sighting it was

870

00:33:29,750 --> 00:33:26,640

still some sunlight out

871

00:33:31,269 --> 00:33:29,760

uh there was some some wind earlier last

872

00:33:32,310 --> 00:33:31,279

few couple of days and you can see the

873

00:33:35,590 --> 00:33:32,320

clouds you know a

874

00:33:37,509 --> 00:33:35,600

huge weather front was moving and

875

00:33:39,110 --> 00:33:37,519

the clouds were torn up you know when

876

00:33:40,470 --> 00:33:39,120

you in the ocean once you enter the

877

00:33:42,710 --> 00:33:40,480

trades

878

00:33:43,830 --> 00:33:42,720

the skies change you know you you you

879

00:33:46,230 --> 00:33:43,840

almost look like you're

880

00:33:47,509 --> 00:33:46,240

somewhere someplace in jupiter you know

881

00:33:50,630 --> 00:33:47,519

a white puffy atomic

882

00:33:53,509 --> 00:33:50,640

bomb look in the column uh

883

00:33:54,310 --> 00:33:53,519

columns of clouds uh what's the name of

884

00:33:59,029 --> 00:33:54,320

those uh

885

00:34:01,990 --> 00:33:59,039

castellanos castellanos clouds

886

00:34:05,110 --> 00:34:02,000

and right on top of this huge bag of

887

00:34:08,710 --> 00:34:05,120

clouds there was a small cloudlet

888

00:34:09,909 --> 00:34:08,720

uh drifting along along with them by the

889

00:34:11,510 --> 00:34:09,919

top

890

00:34:13,750 --> 00:34:11,520

and i was looking that's a strange

891

00:34:15,510 --> 00:34:13,760

looking little cloudlet

892

00:34:17,430 --> 00:34:15,520

it was kind of boomerang shaped like a

893

00:34:18,310 --> 00:34:17,440

sausage you know but very smoke in

894

00:34:20,869 --> 00:34:18,320

comparison no

895

00:34:22,790 --> 00:34:20,879

there were no other such cloudless above

896

00:34:25,270 --> 00:34:22,800

this was the only one

897

00:34:28,310 --> 00:34:25,280

i see this little yellow light come out

898

00:34:32,470 --> 00:34:30,869

small yellow light just like a you know

899

00:34:34,550 --> 00:34:32,480

very lazy balloon-like

900

00:34:35,589 --> 00:34:34,560

fashion and it just flew out of that

901
00:34:37,990 --> 00:34:35,599
sausage

902
00:34:40,310 --> 00:34:38,000
and very soon there was a second light

903
00:34:41,669 --> 00:34:40,320
and it flew away someplace following the

904
00:34:45,030 --> 00:34:41,679
first one

905
00:34:46,470 --> 00:34:45,040
and then the cloud let the sausage cloud

906
00:34:49,190 --> 00:34:46,480
let turn around

907
00:34:50,389 --> 00:34:49,200
and it slowly drifted away against the

908
00:34:52,869 --> 00:34:50,399
wind

909
00:34:54,869 --> 00:34:52,879
it went behind the other other the huge

910
00:34:57,670 --> 00:34:54,879
back of the regular clouds

911
00:34:58,950 --> 00:34:57,680
was below it so i said this is this is

912
00:35:01,910 --> 00:34:58,960
really anomalous uh

913
00:35:02,710 --> 00:35:01,920

don this uh it just blew my mind again

914

00:35:07,589 --> 00:35:02,720

you know what

915

00:35:12,710 --> 00:35:10,790

maybe an a night before entering the

916

00:35:14,710 --> 00:35:12,720

waters of hawaii close to hilo we

917

00:35:17,030 --> 00:35:14,720

already knew where we where we were

918

00:35:19,349 --> 00:35:17,040

there was a lot very bright flash in the

919

00:35:22,790 --> 00:35:19,359

sky it was almost like saying goodbye

920

00:35:25,349 --> 00:35:22,800

and we finally made it to hilo after 35

921

00:35:28,550 --> 00:35:27,030

and let me just say before you before

922

00:35:31,190 --> 00:35:28,560

you move on i just wanted

923

00:35:32,230 --> 00:35:31,200

how was dawn's reaction you said he's

924

00:35:36,150 --> 00:35:32,240

very quiet

925

00:35:38,950 --> 00:35:36,160

or did he chime in and

926
00:35:39,750 --> 00:35:38,960
and tell you what what he his thoughts

927
00:35:43,510 --> 00:35:39,760
about it well

928
00:35:47,030 --> 00:35:45,510
oh you're just mostly like i don't know

929
00:35:48,230 --> 00:35:47,040
you know it was very it was like almost

930
00:35:50,710 --> 00:35:48,240
half scared you know

931
00:35:52,230 --> 00:35:50,720
i i don't know this is uh i really have

932
00:35:54,630 --> 00:35:52,240
no no answers you know

933
00:35:56,870 --> 00:35:54,640
what do you think so so i read something

934
00:35:57,190 --> 00:35:56,880
about ufos i watch few movies you know

935
00:36:05,430 --> 00:35:57,200
this

936
00:36:08,790 --> 00:36:05,440
not an aircraft of any

937
00:36:10,550 --> 00:36:08,800
any kind not a balloon um

938
00:36:12,230 --> 00:36:10,560

so we were both flabbergasted what it

939

00:36:14,870 --> 00:36:12,240

could be you know

940

00:36:16,150 --> 00:36:14,880

why why why is it happening you know he

941

00:36:18,310 --> 00:36:16,160

he told me hira

942

00:36:19,510 --> 00:36:18,320

he had some kind of experience in in his

943

00:36:22,069 --> 00:36:19,520

youth he was driving

944

00:36:23,750 --> 00:36:22,079

in the yamaha reservation and he saw

945

00:36:24,790 --> 00:36:23,760

something rather column of red lights

946

00:36:28,390 --> 00:36:24,800

very highway here

947

00:36:30,390 --> 00:36:28,400

you know this is the only thing he could

948

00:36:31,910 --> 00:36:30,400

help it you know we were both uh totally

949

00:36:34,630 --> 00:36:31,920

confused you know

950

00:36:35,430 --> 00:36:34,640

but the second sighting and the red one

951
00:36:38,630 --> 00:36:35,440
this is where it

952
00:36:41,270 --> 00:36:38,640
is etched in my mind i mean it's totally

953
00:36:42,630 --> 00:36:41,280
everything else you can tell me anybody

954
00:36:43,109 --> 00:36:42,640
can tell me maybe you didn't know you

955
00:36:45,829 --> 00:36:43,119
know

956
00:36:46,710 --> 00:36:45,839
there's no ufos there's no such thing

957
00:36:49,750 --> 00:36:46,720
it's a lie

958
00:36:54,069 --> 00:36:49,760
you know they are here it's

959
00:36:56,310 --> 00:36:54,079
it's real so uh

960
00:36:57,349 --> 00:36:56,320
we entered the port of hilo a little

961
00:36:59,589 --> 00:36:57,359
area called

962
00:37:00,550 --> 00:36:59,599
radio bay it's a commercial port a small

963
00:37:04,069 --> 00:37:00,560

commercial port

964

00:37:04,550 --> 00:37:04,079

there's some hotels in in the area and a

965

00:37:08,630 --> 00:37:04,560

small

966

00:37:11,910 --> 00:37:08,640

there

967

00:37:13,750 --> 00:37:11,920

and we had to uh we had to check in

968

00:37:15,270 --> 00:37:13,760

with the authorities even even though

969

00:37:17,910 --> 00:37:15,280

your american boat you're coming from

970

00:37:21,750 --> 00:37:17,920

mexico you got to check in to do the

971

00:37:24,310 --> 00:37:21,760

formalities customs and

972

00:37:24,790 --> 00:37:24,320

it was a very very simple thing to do so

973

00:37:26,790 --> 00:37:24,800

by the

974

00:37:28,950 --> 00:37:26,800

third day or so after we ate something

975

00:37:31,829 --> 00:37:28,960

we need to regain our lands

976

00:37:33,430 --> 00:37:31,839

land legs back you know that done i i

977

00:37:35,190 --> 00:37:33,440

kind of knew what to expect you know

978

00:37:37,829 --> 00:37:35,200

after you let's see for a number of

979

00:37:39,510 --> 00:37:37,839

weeks you know you get on a

980

00:37:40,710 --> 00:37:39,520

firm ground you can't walk you when

981

00:37:42,790 --> 00:37:40,720

you're walking around like a drunk you

982

00:37:44,550 --> 00:37:42,800

know so people are laughing at us

983

00:37:46,069 --> 00:37:44,560

poor thing it was it was falling all

984

00:37:49,990 --> 00:37:46,079

over the place you know

985

00:37:52,230 --> 00:37:50,000

yeah so you're so glad to see that so uh

986

00:37:54,790 --> 00:37:52,240

i uh i decided to do something about

987

00:37:57,510 --> 00:37:54,800

these sightings since i already had a

988

00:37:59,109 --> 00:37:57,520

number of notes compiled here in the log

989

00:38:01,270 --> 00:37:59,119

drawings and some video

990

00:38:03,750 --> 00:38:01,280

i i they were very there were some

991

00:38:05,750 --> 00:38:03,760

things flashing in the sky and i really

992

00:38:07,510 --> 00:38:05,760

see there's no background there's no

993

00:38:08,870 --> 00:38:07,520

land or mountains or houses that you

994

00:38:10,710 --> 00:38:08,880

could judge

995

00:38:11,990 --> 00:38:10,720

the movement you know it was just

996

00:38:16,790 --> 00:38:12,000

flashing there

997

00:38:19,750 --> 00:38:16,800

so but at least i had some video so i

998

00:38:20,550 --> 00:38:19,760

i walked up to the police station it was

999

00:38:23,270 --> 00:38:20,560

about uh

1000

00:38:24,950 --> 00:38:23,280

four or five in the afternoon and i

1001
00:38:27,430 --> 00:38:24,960
knocked in the window said yeah

1002
00:38:29,270 --> 00:38:27,440
can i talk to somebody here uh would you

1003
00:38:30,630 --> 00:38:29,280
know anybody who could be interested in

1004
00:38:33,190 --> 00:38:30,640
uh

1005
00:38:36,390 --> 00:38:33,200
taking a ufo report you know any person

1006
00:38:42,150 --> 00:38:38,150
investigator may want to talk to me

1007
00:38:45,589 --> 00:38:43,990
about three or three or four policemen

1008
00:38:46,310 --> 00:38:45,599
they came out and they were stickering

1009
00:38:48,310 --> 00:38:46,320
you know

1010
00:38:50,310 --> 00:38:48,320
we never got any kind of report like

1011
00:38:54,390 --> 00:38:50,320
this you know we know about some

1012
00:38:57,750 --> 00:38:55,990
we can't help you how about if you talk

1013
00:38:59,430 --> 00:38:57,760

to coast guard

1014

00:39:01,829 --> 00:38:59,440

yeah that's a good idea you know coast

1015

00:39:04,710 --> 00:39:01,839

guard they're in in charge of maritime

1016

00:39:06,390 --> 00:39:04,720

matters and they patrol the area they

1017

00:39:08,710 --> 00:39:06,400

could probably tell me something uh

1018

00:39:09,589 --> 00:39:08,720

or at least to take a report better than

1019

00:39:12,310 --> 00:39:09,599

the police

1020

00:39:14,950 --> 00:39:12,320

so yeah good idea thank you guys i will

1021

00:39:17,349 --> 00:39:14,960

so i i the next day i woke up to the

1022

00:39:18,710 --> 00:39:17,359

coast guard station and they were right

1023

00:39:21,750 --> 00:39:18,720

there in radio bay

1024

00:39:23,510 --> 00:39:21,760

and almost next to us woke up to the

1025

00:39:25,990 --> 00:39:23,520

office and the lady told me you know

1026

00:39:27,109 --> 00:39:26,000

you need to talk to captain uh kevin j

1027

00:39:28,550 --> 00:39:27,119

lopes

1028

00:39:30,390 --> 00:39:28,560

but unfortunately they are out in the

1029

00:39:32,470 --> 00:39:30,400

patrol right now and they will be back

1030

00:39:35,829 --> 00:39:32,480

within five days or so

1031

00:39:37,030 --> 00:39:35,839

a car named kiska it was stationed there

1032

00:39:39,190 --> 00:39:37,040

in hilo

1033

00:39:40,790 --> 00:39:39,200

so okay i can wait we'll be here maybe

1034

00:39:43,510 --> 00:39:40,800

about two weeks or so yeah

1035

00:39:47,190 --> 00:39:43,520

i'll wait no problem so finally the

1036

00:39:51,670 --> 00:39:49,829

so the next day in about 24 hours or so

1037

00:39:52,470 --> 00:39:51,680

i i don't recall the time it was

1038

00:39:54,069 --> 00:39:52,480

afternoon

1039

00:39:56,230 --> 00:39:54,079

i went in and they told me yes you can

1040

00:39:59,589 --> 00:39:56,240

talk to captain so i boarded kiska

1041

00:40:02,790 --> 00:39:59,599

they were waiting for me uh

1042

00:40:03,109 --> 00:40:02,800

captain lopes maybe in his 40s late 40s

1043

00:40:07,349 --> 00:40:03,119

tall

1044

00:40:09,829 --> 00:40:07,359

another officer there

1045

00:40:11,990 --> 00:40:09,839

with him and whose name i can't recall

1046

00:40:16,069 --> 00:40:12,000

and i didn't jot it down

1047

00:40:21,670 --> 00:40:19,190

galley the kitchen area we sat down i

1048

00:40:22,550 --> 00:40:21,680

i broke my laptop that left i didn't

1049

00:40:25,910 --> 00:40:22,560

have a laptop

1050

00:40:29,990 --> 00:40:25,920

i had to the camera well actually

1051

00:40:33,430 --> 00:40:30,000

they had a vcrcs back then yeah

1052

00:40:34,150 --> 00:40:33,440

you put up for the tape to watch it on

1053

00:40:37,670 --> 00:40:34,160

tv right

1054

00:40:39,349 --> 00:40:37,680

right that's what it was so you seen the

1055

00:40:40,470 --> 00:40:39,359

videos he didn't know what to tell me i

1056

00:40:42,150 --> 00:40:40,480

didn't know what to tell him you know

1057

00:40:43,750 --> 00:40:42,160

some flashes of lights that some lights

1058

00:40:45,829 --> 00:40:43,760

moving around

1059

00:40:47,190 --> 00:40:45,839

and uh he made a report he was very

1060

00:40:49,510 --> 00:40:47,200

serious

1061

00:40:51,030 --> 00:40:49,520

no joking no snickering uh he took the

1062

00:40:53,190 --> 00:40:51,040

report down

1063

00:40:54,550 --> 00:40:53,200

and he faxed it to the headquarters

1064

00:40:57,270 --> 00:40:54,560

coast guard headquarters

1065

00:40:58,550 --> 00:40:57,280

in honolulu and he gave me a copy of the

1066

00:41:00,790 --> 00:40:58,560

report

1067

00:41:01,910 --> 00:41:00,800

which by the way i posted in my book you

1068

00:41:03,589 --> 00:41:01,920

can find in the book and

1069

00:41:05,030 --> 00:41:03,599

all the other articles and it's been

1070

00:41:08,550 --> 00:41:05,040

mentioned

1071

00:41:12,390 --> 00:41:08,560

in the newspaper uh article about us uh

1072

00:41:15,510 --> 00:41:12,400

from uh uh from the fall of 2000

1073

00:41:17,030 --> 00:41:15,520

after our return to san francisco so

1074

00:41:18,710 --> 00:41:17,040

that was it you know we enjoyed we

1075

00:41:21,670 --> 00:41:18,720

enjoyed the islands we left hilo

1076

00:41:22,710 --> 00:41:21,680

we've been to maui anchored of lahaina

1077

00:41:25,430 --> 00:41:22,720

for a while

1078

00:41:27,270 --> 00:41:25,440

and my initial goal was to stay in the

1079

00:41:29,510 --> 00:41:27,280

islands for a while you know maybe work

1080

00:41:31,510 --> 00:41:29,520

in a

1081

00:41:33,430 --> 00:41:31,520

or else if he couldn't find a job he

1082

00:41:35,190 --> 00:41:33,440

could leave the boat in honolulu and

1083

00:41:35,990 --> 00:41:35,200

then fly back to arizona work for a

1084

00:41:38,470 --> 00:41:36,000

while fly

1085

00:41:39,349 --> 00:41:38,480

fly back to honolulu and continue to the

1086

00:41:41,910 --> 00:41:39,359

islands maybe

1087

00:41:42,470 --> 00:41:41,920

tahiti or new zealand something slowly

1088

00:41:46,309 --> 00:41:42,480

sailing

1089

00:41:46,710 --> 00:41:46,319

that was my pipe dream but it was not to

1090

00:41:49,430 --> 00:41:46,720

be

1091

00:41:50,870 --> 00:41:49,440

i found honolulu has changed just my

1092

00:41:53,910 --> 00:41:50,880

first voyage

1093

00:41:55,349 --> 00:41:53,920

far more red tape you know they put the

1094

00:41:57,270 --> 00:41:55,359

mooring balls right now no

1095

00:41:59,349 --> 00:41:57,280

no more free anchoring no more discs no

1096

00:42:01,750 --> 00:41:59,359

more debt you know you got to pay

1097

00:42:02,550 --> 00:42:01,760

only 90 days all these regulations were

1098

00:42:04,150 --> 00:42:02,560

set up so

1099

00:42:06,710 --> 00:42:04,160

i gave up an idea of staying on the

1100

00:42:08,630 --> 00:42:06,720

islands we went back to maui

1101
00:42:10,550 --> 00:42:08,640
stopped in lanai for a couple of days

1102
00:42:11,030 --> 00:42:10,560
and went back to maui to the same spot

1103
00:42:14,069 --> 00:42:11,040
we were at

1104
00:42:16,309 --> 00:42:14,079
by oak lahaina and

1105
00:42:17,990 --> 00:42:16,319
decided to make it back to san francisco

1106
00:42:21,270 --> 00:42:18,000
which would to be a

1107
00:42:22,870 --> 00:42:21,280
much longer voyage than coming in that

1108
00:42:24,150 --> 00:42:22,880
inbound wage

1109
00:42:26,390 --> 00:42:24,160
is that because of the winds and

1110
00:42:27,670 --> 00:42:26,400
currents

1111
00:42:29,589 --> 00:42:27,680
did you hear me is that because of the

1112
00:42:31,270 --> 00:42:29,599
winds and currents

1113
00:42:33,030 --> 00:42:31,280

well yeah you have the trades blowing

1114

00:42:35,270 --> 00:42:33,040

and then just north of trades

1115

00:42:36,630 --> 00:42:35,280

you have something called north pacific

1116

00:42:39,990 --> 00:42:36,640

uh north pacific

1117

00:42:41,430 --> 00:42:40,000

uh uh

1118

00:42:43,750 --> 00:42:41,440

well i don't want to get you off track

1119

00:42:46,470 --> 00:42:43,760

so yeah called

1120

00:42:48,550 --> 00:42:46,480

north pacific patch right now it's full

1121

00:42:49,589 --> 00:42:48,560

of garbage no pacific high pressure area

1122

00:42:52,710 --> 00:42:49,599

sorry yeah

1123

00:42:54,309 --> 00:42:52,720

uh this which is north of trades

1124

00:42:55,910 --> 00:42:54,319

and there's very little wind there and

1125

00:42:56,309 --> 00:42:55,920

it moves in the summer time it will it

1126
00:42:58,790 --> 00:42:56,319
would

1127
00:43:00,230 --> 00:42:58,800
move northward northward and what you

1128
00:43:01,030 --> 00:43:00,240
need to do when you're returning to san

1129
00:43:03,510 --> 00:43:01,040
francisco

1130
00:43:05,109 --> 00:43:03,520
we left from northernmost island kawaii

1131
00:43:10,309 --> 00:43:05,119
we were on kauai about 10

1132
00:43:15,349 --> 00:43:13,030
this you need to climb about 1000 or

1133
00:43:18,710 --> 00:43:15,359
1100 miles up to 38th

1134
00:43:21,750 --> 00:43:18,720
or 40th meridian parallel yeah catch the

1135
00:43:25,910 --> 00:43:24,390
sorry to catch the kuroshio current

1136
00:43:27,270 --> 00:43:25,920
japanese current which takes you

1137
00:43:32,069 --> 00:43:27,280
straight to california or

1138
00:43:34,390 --> 00:43:32,079

washington uh north america

1139

00:43:36,470 --> 00:43:34,400

so we spent some time on the islands

1140

00:43:37,990 --> 00:43:36,480

like i said in kauai it was fantastic we

1141

00:43:39,990 --> 00:43:38,000

met a lot of people and

1142

00:43:41,990 --> 00:43:40,000

i talked to some sailors about ufos

1143

00:43:46,150 --> 00:43:42,000

anybody seen anything there look at me

1144

00:43:53,589 --> 00:43:49,750

that's all i can do you know so we left

1145

00:43:56,150 --> 00:43:53,599

we left kauai in the morning

1146

00:43:57,670 --> 00:43:56,160

uh by late night it was the island was

1147

00:43:59,030 --> 00:43:57,680

already going there was nothing to see

1148

00:43:59,670 --> 00:43:59,040

we were still climbing the perfect

1149

00:44:02,950 --> 00:43:59,680

weather

1150

00:44:03,349 --> 00:44:02,960

very nice uh nice and warm open the full

1151

00:44:05,430 --> 00:44:03,359

sail

1152

00:44:06,950 --> 00:44:05,440

we were slugging along just just

1153

00:44:09,349 --> 00:44:06,960

beautifully

1154

00:44:11,109 --> 00:44:09,359

uh on the reach you're going to reach

1155

00:44:13,430 --> 00:44:11,119

because the wind's coming from the

1156

00:44:17,109 --> 00:44:13,440

coming from the east and your reach

1157

00:44:23,670 --> 00:44:20,710

fastest point of sail if you got

1158

00:44:25,270 --> 00:44:23,680

waves behind you it's still tougher or

1159

00:44:27,829 --> 00:44:25,280

in front of you you have to zigzag you

1160

00:44:29,829 --> 00:44:27,839

know into the wind

1161

00:44:33,589 --> 00:44:29,839

many terms i forgot after so many years

1162

00:44:36,870 --> 00:44:33,599

you know very many nautical terms

1163

00:44:40,150 --> 00:44:36,880

but the first night out guess what

1164

00:44:41,589 --> 00:44:40,160

the objects are around us again it was

1165

00:44:43,670 --> 00:44:41,599

almost like there something was waiting

1166

00:44:46,470 --> 00:44:43,680

for us

1167

00:44:47,349 --> 00:44:46,480

this time we saw two of them they would

1168

00:44:48,950 --> 00:44:47,359

come

1169

00:44:50,950 --> 00:44:48,960

from different directions in the sky

1170

00:44:53,190 --> 00:44:50,960

little yellow things and just

1171

00:44:55,109 --> 00:44:53,200

pass each other and sometimes they would

1172

00:44:56,950 --> 00:44:55,119

stop and make a

1173

00:44:58,550 --> 00:44:56,960

little circles around each other and

1174

00:45:00,870 --> 00:44:58,560

separate and fly back

1175

00:45:01,910 --> 00:45:00,880

in their own ways you know sometimes

1176

00:45:05,670 --> 00:45:01,920

there was one one

1177

00:45:08,710 --> 00:45:05,680

object and then number of days

1178

00:45:11,109 --> 00:45:08,720

out this is where something fantastic

1179

00:45:11,119 --> 00:45:15,829

i saw this light coming at us

1180

00:45:19,510 --> 00:45:18,470

very high up and i decided to do

1181

00:45:23,030 --> 00:45:19,520

something different

1182

00:45:26,550 --> 00:45:23,040

i grabbed my light my reflector light

1183

00:45:29,190 --> 00:45:26,560

search light half a million candle

1184

00:45:30,470 --> 00:45:29,200

power lights and i've shown it directly

1185

00:45:32,630 --> 00:45:30,480

in direction of the thing

1186

00:45:34,230 --> 00:45:32,640

of the object coming at us and he

1187

00:45:35,990 --> 00:45:34,240

stopped and flew back

1188

00:45:37,910 --> 00:45:36,000

it reversed it reversed his course and

1189

00:45:40,150 --> 00:45:37,920

there's a shot back where he came from

1190

00:45:41,510 --> 00:45:40,160

wow almost like it's almost like i

1191

00:45:44,950 --> 00:45:41,520

startled it

1192

00:45:47,030 --> 00:45:44,960

huh maybe

1193

00:45:49,030 --> 00:45:47,040

half an hour later the light is

1194

00:45:51,910 --> 00:45:49,040

returning

1195

00:45:54,230 --> 00:45:51,920

stops and it starts lighting up there

1196

00:45:56,069 --> 00:45:54,240

was a large circle of light like growing

1197

00:45:57,589 --> 00:45:56,079

like was like an explosion of light in a

1198

00:46:00,950 --> 00:45:57,599

circular explosion

1199

00:46:02,230 --> 00:46:00,960

and but this time i it gave me this was

1200

00:46:03,910 --> 00:46:02,240

something that was happening

1201
00:46:05,349 --> 00:46:03,920
not not the quick flashlight it was

1202
00:46:08,790 --> 00:46:05,359
going like like a

1203
00:46:11,510 --> 00:46:08,800
like a pie expanding i adobe wow

1204
00:46:13,109 --> 00:46:11,520
i i dove below and i grabbed my camera

1205
00:46:16,710 --> 00:46:13,119
and i was able to capture

1206
00:46:19,589 --> 00:46:16,720
maybe 15 16 seconds of that video

1207
00:46:20,790 --> 00:46:19,599
they contracted back to its shape to its

1208
00:46:25,349 --> 00:46:20,800
original size

1209
00:46:28,550 --> 00:46:27,670
let me ask you this you sent me a video

1210
00:46:34,390 --> 00:46:28,560
is that

1211
00:46:36,470 --> 00:46:34,400
you captured it it's just a very short

1212
00:46:39,190 --> 00:46:36,480
like few seconds it says

1213
00:46:40,150 --> 00:46:39,200

uh like orca or something like that on

1214

00:46:43,910 --> 00:46:40,160

it

1215

00:46:46,550 --> 00:46:43,920

what is that that was a different video

1216

00:46:48,550 --> 00:46:46,560

this one of the expanding lights and the

1217

00:46:50,710 --> 00:46:48,560

one the uh the short lights

1218

00:46:52,870 --> 00:46:50,720

the these two were analyzed by mufon

1219

00:46:55,829 --> 00:46:52,880

jeffrey sanyo after our return

1220

00:46:56,309 --> 00:46:55,839

to arizona i sent the materials to him

1221

00:47:00,950 --> 00:46:56,319

among

1222

00:47:03,670 --> 00:47:00,960

other exploratory uh efforts i made

1223

00:47:06,390 --> 00:47:03,680

uh no that one was very where the object

1224

00:47:10,630 --> 00:47:06,400

disappears instantaneously

1225

00:47:14,150 --> 00:47:12,550

instantaneous disappearances happen on

1226

00:47:17,109 --> 00:47:14,160

three occasions

1227

00:47:18,309 --> 00:47:17,119

uh but only one that i captured was in

1228

00:47:21,349 --> 00:47:18,319

full focus

1229

00:47:23,109 --> 00:47:21,359

enough for for uh sanyo to work with

1230

00:47:25,589 --> 00:47:23,119

i see so we specif we've seen this

1231

00:47:28,790 --> 00:47:25,599

maneuver about three times

1232

00:47:32,630 --> 00:47:28,800

uh so if uh did i

1233

00:47:34,870 --> 00:47:32,640

i i became i started thinking

1234

00:47:37,270 --> 00:47:34,880

that this was some kind of a response to

1235

00:47:40,069 --> 00:47:37,280

me blasting with a light earlier

1236

00:47:40,870 --> 00:47:40,079

yeah it's it was almost like somebody

1237

00:47:43,109 --> 00:47:40,880

was maybe

1238

00:47:44,309 --> 00:47:43,119

inside where an object looking at you

1239

00:47:46,230 --> 00:47:44,319

and you shine the light

1240

00:47:48,549 --> 00:47:46,240

it starts with them and they go back

1241

00:47:50,710 --> 00:47:48,559

they came back playfully

1242

00:47:52,309 --> 00:47:50,720

to retaliate look i got the light too

1243

00:47:53,910 --> 00:47:52,319

you know i can do the light too

1244

00:47:57,030 --> 00:47:53,920

it was almost some kind of a very

1245

00:48:00,069 --> 00:47:57,040

primitive communication going on

1246

00:48:01,750 --> 00:48:00,079

which it actually happened too uh

1247

00:48:03,510 --> 00:48:01,760

on a couple of occasions i exchanged

1248

00:48:06,150 --> 00:48:03,520

light light signals with

1249

00:48:06,630 --> 00:48:06,160

with objects they would come very high

1250

00:48:09,510 --> 00:48:06,640

out of

1251
00:48:11,750 --> 00:48:09,520
nowhere you know totally blacked out sky

1252
00:48:13,349 --> 00:48:11,760
you start seeing these flashes

1253
00:48:15,349 --> 00:48:13,359
so what i did i took my light and i

1254
00:48:17,430 --> 00:48:15,359
started pointing

1255
00:48:18,390 --> 00:48:17,440
towards where it came from two three

1256
00:48:19,990 --> 00:48:18,400
four times

1257
00:48:21,589 --> 00:48:20,000
one two three four one two three four

1258
00:48:23,270 --> 00:48:21,599
and he would answer one two three four

1259
00:48:25,910 --> 00:48:23,280
one two three four

1260
00:48:28,150 --> 00:48:25,920
he would be gone he said wow actually

1261
00:48:30,309 --> 00:48:28,160
communicated with ufo

1262
00:48:31,349 --> 00:48:30,319
uh can i just ask you something we're

1263
00:48:33,030 --> 00:48:31,359

losing you i

1264

00:48:34,470 --> 00:48:33,040

i can only see your glasses you have a

1265

00:48:39,589 --> 00:48:34,480

light that you can turn on

1266

00:48:45,829 --> 00:48:42,630

how's this that's better yeah

1267

00:48:50,630 --> 00:48:45,839

now we can see you too well yeah no

1268

00:48:50,640 --> 00:48:54,230

uh yeah uh

1269

00:49:00,630 --> 00:48:56,630

the closest sighting that we had

1270

00:49:04,470 --> 00:49:02,790

uh were again late at night both of us

1271

00:49:07,510 --> 00:49:04,480

were outside steering the boat

1272

00:49:09,990 --> 00:49:07,520

we had our engine was on

1273

00:49:11,829 --> 00:49:10,000

and i see a point of light high in the

1274

00:49:13,990 --> 00:49:11,839

sky

1275

00:49:17,750 --> 00:49:14,000

kind of going in our direction and it

1276

00:49:20,950 --> 00:49:17,760

started descending coming down

1277

00:49:22,950 --> 00:49:20,960

said uh well what is this dog

1278

00:49:25,109 --> 00:49:22,960

what's go what take a look at this thing

1279

00:49:27,910 --> 00:49:25,119

you know this is a little funny

1280

00:49:30,630 --> 00:49:27,920

and he started coming closer to us

1281

00:49:32,870 --> 00:49:30,640

actually descending and

1282

00:49:34,870 --> 00:49:32,880

seeing some flashing lights on

1283

00:49:39,829 --> 00:49:34,880

flickering lights

1284

00:49:43,670 --> 00:49:42,470

this was i cannot tell you the height

1285

00:49:46,069 --> 00:49:43,680

maybe

1286

00:49:47,750 --> 00:49:46,079

two three thousand feet but it was

1287

00:49:49,829 --> 00:49:47,760

something horseshoe shaped like a

1288

00:49:53,829 --> 00:49:49,839

horseshoe flying in reverse

1289

00:49:58,549 --> 00:49:57,109

at the at the nose part of it beginning

1290

00:50:02,069 --> 00:49:58,559

part of it

1291

00:50:05,109 --> 00:50:02,079

and some kind of a squarish light

1292

00:50:08,309 --> 00:50:05,119

in its stomach perfect square

1293

00:50:11,990 --> 00:50:08,319

lit up yellow lit up square and then

1294

00:50:14,390 --> 00:50:12,000

it flew and then i could see some kind

1295

00:50:18,870 --> 00:50:14,400

of a squarish light in the back

1296

00:50:21,990 --> 00:50:18,880

in this tail area and area rear

1297

00:50:22,950 --> 00:50:22,000

i the engine was on but i think i could

1298

00:50:27,349 --> 00:50:22,960

hear some kind of

1299

00:50:30,870 --> 00:50:27,359

uh some kind of a

1300

00:50:34,470 --> 00:50:30,880

noise some kind of a very very muted uh

1301
00:50:37,750 --> 00:50:34,480
raspy uh generator type sound

1302
00:50:39,670 --> 00:50:37,760
from it and then within a half a minute

1303
00:50:42,069 --> 00:50:39,680
or so there was another object

1304
00:50:43,990 --> 00:50:42,079
following in in the same trajectory

1305
00:50:48,230 --> 00:50:44,000
following the first one

1306
00:50:51,750 --> 00:50:48,240
same shape a horseshoe with a

1307
00:50:52,790 --> 00:50:51,760
square light on his stomach and a square

1308
00:50:56,230 --> 00:50:52,800
light in his back

1309
00:50:59,349 --> 00:50:56,240
but less maybe only two red lights

1310
00:51:02,470 --> 00:50:59,359
up front not four like the first one

1311
00:51:03,190 --> 00:51:02,480
uh and then they came back so all

1312
00:51:05,349 --> 00:51:03,200
together we

1313
00:51:06,309 --> 00:51:05,359

had three overflights if you if you

1314

00:51:09,990 --> 00:51:06,319

count two

1315

00:51:12,790 --> 00:51:10,000

two crafts that says six overflights

1316

00:51:14,309 --> 00:51:12,800

wow all right i have to i have to break

1317

00:51:16,710 --> 00:51:14,319

in for just a second here

1318

00:51:17,349 --> 00:51:16,720

uh for those of you on youtube uh hang

1319

00:51:20,710 --> 00:51:17,359

in

1320

00:51:23,430 --> 00:51:20,720

uh for kg r a radio thanks so much

1321

00:51:24,870 --> 00:51:23,440

uh we'll be back next week with melanie

1322

00:51:28,150 --> 00:51:24,880

uh kirkendorfer

1323

00:51:31,829 --> 00:51:28,160

kirkdorfer from the um

1324

00:51:33,349 --> 00:51:31,839

from the uh great barrington ufo signing

1325

00:51:39,510 --> 00:51:33,359

the berkshires ufo

1326

00:51:45,349 --> 00:51:43,349

and here we continue on here

1327

00:51:46,470 --> 00:51:45,359

so uh we're just gonna keep rolling here

1328

00:51:48,390 --> 00:51:46,480

on youtube

1329

00:51:51,430 --> 00:51:48,400

and uh so continue on i'm sorry i

1330

00:51:54,230 --> 00:51:51,440

interrupted you had to make that break

1331

00:51:55,349 --> 00:51:54,240

yeah so this was a this was a close

1332

00:51:57,670 --> 00:51:55,359

sighting there's been two

1333

00:51:59,109 --> 00:51:57,680

structured objects that flew over us

1334

00:52:02,829 --> 00:51:59,119

three times

1335

00:52:04,309 --> 00:52:02,839

made three over overflights now any

1336

00:52:05,829 --> 00:52:04,319

skeptic

1337

00:52:07,670 --> 00:52:05,839

would say you know why would this be

1338

00:52:10,069 --> 00:52:07,680

happening to you maybe you just seen

1339

00:52:11,510 --> 00:52:10,079

airplanes

1340

00:52:13,349 --> 00:52:11,520

now you tell me in the middle of the

1341

00:52:16,230 --> 00:52:13,359

ocean thousand miles offshore

1342

00:52:18,390 --> 00:52:16,240

what kind of interest with any kind of

1343

00:52:20,549 --> 00:52:18,400

airplane that's carrying passengers or a

1344

00:52:22,870 --> 00:52:20,559

military crew

1345

00:52:25,990 --> 00:52:22,880

be having in a blacked out little small

1346

00:52:28,069 --> 00:52:26,000

sailboat and how to find it at night

1347

00:52:29,589 --> 00:52:28,079

right i've talked i've talked to the

1348

00:52:32,069 --> 00:52:29,599

coast guard expert

1349

00:52:33,349 --> 00:52:32,079

about the very question i asked him how

1350

00:52:34,950 --> 00:52:33,359

would you if somebody's

1351

00:52:37,270 --> 00:52:34,960

in trouble how would you find a little

1352

00:52:39,670 --> 00:52:37,280

boat at night so it's impossible

1353

00:52:41,589 --> 00:52:39,680

yeah i mean you have what you have the

1354

00:52:41,990 --> 00:52:41,599

anchor lights i mean what else you r you

1355

00:52:44,710 --> 00:52:42,000

don't

1356

00:52:48,230 --> 00:52:44,720

run lights or do you run lights or if

1357

00:52:51,990 --> 00:52:50,549

if you see a ship coming you see uh once

1358

00:52:55,030 --> 00:52:52,000

you reach the 38th

1359

00:52:57,109 --> 00:52:55,040

then you enter the area a shipping lane

1360

00:52:58,150 --> 00:52:57,119

where tankers and freighters go

1361

00:53:00,710 --> 00:52:58,160

you want to get out of the shipping

1362

00:53:01,750 --> 00:53:00,720

lanes yeah almost like a highway yes

1363

00:53:03,750 --> 00:53:01,760

this is where you would

1364

00:53:05,349 --> 00:53:03,760

uh have your lights on or if you see a

1365

00:53:08,549 --> 00:53:05,359

ship because i don't have that much

1366

00:53:09,670 --> 00:53:08,559

uh uh battery power power i i have to i

1367

00:53:11,750 --> 00:53:09,680

have to uh

1368

00:53:12,950 --> 00:53:11,760

you have to run the motorcycle yeah yeah

1369

00:53:15,270 --> 00:53:12,960

right

1370

00:53:16,230 --> 00:53:15,280

so how would you find a blacked out sail

1371

00:53:18,309 --> 00:53:16,240

sailboat

1372

00:53:19,510 --> 00:53:18,319

and have the energy and desire to

1373

00:53:21,510 --> 00:53:19,520

descend from 50

1374

00:53:22,950 --> 00:53:21,520

000 feet to look for some little

1375

00:53:26,710 --> 00:53:22,960

sailboat at night

1376

00:53:28,230 --> 00:53:26,720

yeah you know it doesn't make any sense

1377

00:53:29,990 --> 00:53:28,240

so this is something that could find a

1378

00:53:33,750 --> 00:53:30,000

boat at night

1379

00:53:36,790 --> 00:53:33,760

and make these overpasses and then

1380

00:53:38,950 --> 00:53:36,800

once this once uh once i had the videos

1381

00:53:40,790 --> 00:53:38,960

analyzed by jeffrey sonia and blown up

1382

00:53:44,309 --> 00:53:40,800

you could see this uh

1383

00:53:47,510 --> 00:53:44,319

this shape of a horseshoe

1384

00:53:49,510 --> 00:53:47,520

looking from below uh

1385

00:53:50,549 --> 00:53:49,520

that roughly matches the object of

1386

00:53:55,030 --> 00:53:50,559

itself

1387

00:53:58,150 --> 00:53:56,950

the recording happened two days later

1388

00:54:00,630 --> 00:53:58,160

after after the

1389

00:54:01,589 --> 00:54:00,640

after the overflights so there's no way

1390

00:54:03,670 --> 00:54:01,599

for me to know

1391

00:54:06,069 --> 00:54:03,680

uh that this would show up as a

1392

00:54:09,030 --> 00:54:06,079

horseshoe

1393

00:54:11,510 --> 00:54:09,040

from the video you know this was year

1394

00:54:12,230 --> 00:54:11,520

2000 i never even seen a computer i

1395

00:54:17,430 --> 00:54:12,240

never

1396

00:54:22,390 --> 00:54:17,440

2002 i believe how to

1397

00:54:24,870 --> 00:54:22,400

how to make a email you know nothing

1398

00:54:25,589 --> 00:54:24,880

no bankrupt computers to fake anything

1399

00:54:28,309 --> 00:54:25,599

and uh

1400

00:54:30,470 --> 00:54:28,319

mufan has seen my tapes reporters in san

1401

00:54:33,109 --> 00:54:30,480

francisco have seen my tapes

1402

00:54:34,309 --> 00:54:33,119

so it is what it is you know how would

1403

00:54:37,030 --> 00:54:34,319

the horseshoe

1404

00:54:37,910 --> 00:54:37,040

show up on a video or something that i

1405

00:54:41,910 --> 00:54:37,920

already put in

1406

00:54:44,470 --> 00:54:41,920

uh in my log at sea you know

1407

00:54:46,549 --> 00:54:44,480

so right we've had some we've had some

1408

00:54:48,710 --> 00:54:46,559

questions pop up here in chat

1409

00:54:52,710 --> 00:54:48,720

um do you want me to get to them or do

1410

00:54:55,030 --> 00:54:52,720

you want to continue on

1411

00:54:56,870 --> 00:54:55,040

go ahead you can also all right here's

1412

00:54:59,030 --> 00:54:56,880

here's one

1413

00:55:01,270 --> 00:54:59,040

uh from rob wants to know if you can

1414

00:55:04,630 --> 00:55:01,280

describe one of the lights in detail

1415

00:55:06,150 --> 00:55:04,640

was the light at a point an orb an oval

1416

00:55:07,750 --> 00:55:06,160

i know you mentioned the horseshoe thing

1417

00:55:09,510 --> 00:55:07,760

but

1418

00:55:11,109 --> 00:55:09,520

in particular when you were seeing these

1419

00:55:13,030 --> 00:55:11,119

lights what did

1420

00:55:14,470 --> 00:55:13,040

did they look structured in any type of

1421

00:55:16,309 --> 00:55:14,480

way

1422

00:55:18,069 --> 00:55:16,319

the horses were structured objects there

1423

00:55:19,430 --> 00:55:18,079

was some some kind of a vehicle yeah

1424

00:55:21,109 --> 00:55:19,440

that definitely wasn't there was no

1425

00:55:22,230 --> 00:55:21,119

wings you know there was no underbelly

1426

00:55:24,150 --> 00:55:22,240

there just is

1427

00:55:25,270 --> 00:55:24,160

just this strange light that there were

1428

00:55:27,430 --> 00:55:25,280

like three

1429

00:55:29,910 --> 00:55:27,440

three lights leading towards it towards

1430

00:55:32,950 --> 00:55:29,920

the stomach there was a big square one

1431

00:55:36,230 --> 00:55:32,960

and uh the four of lights up front four

1432

00:55:36,870 --> 00:55:36,240

uh very kind of like a dimish damage but

1433

00:55:38,309 --> 00:55:36,880

they were red

1434

00:55:39,990 --> 00:55:38,319

they were not really bright but you

1435

00:55:43,190 --> 00:55:40,000

could see it was something like uh

1436

00:55:45,430 --> 00:55:43,200

flying over us you know uh other other

1437

00:55:48,710 --> 00:55:45,440

objects that we saw was just a regular

1438

00:55:51,750 --> 00:55:48,720

yellow yellow circle like orbs

1439

00:55:52,789 --> 00:55:51,760

or orb type of a thing okay it was much

1440

00:55:55,270 --> 00:55:52,799

higher in the sky

1441

00:55:56,309 --> 00:55:55,280

even and then sometimes it would flash

1442

00:55:58,870 --> 00:55:56,319

sometimes it would just

1443

00:56:01,030 --> 00:55:58,880

be almost like the camera flash of

1444

00:56:02,390 --> 00:56:01,040

camera flash cube coming from the sky

1445

00:56:04,789 --> 00:56:02,400

and usually those are the ones that

1446

00:56:07,589 --> 00:56:04,799

disappeared or the ones that i

1447

00:56:09,990 --> 00:56:07,599

made contact with lightspin and one of

1448

00:56:12,309 --> 00:56:10,000

them i i was able to capture

1449

00:56:14,789 --> 00:56:12,319

uh miss antennas to disappear you know

1450

00:56:16,630 --> 00:56:14,799

that was the most fascinating one later

1451
00:56:18,069 --> 00:56:16,640
now i'm going to play this little clip i

1452
00:56:18,710 --> 00:56:18,079
know you said you can't see anything

1453
00:56:20,230 --> 00:56:18,720
that i'm

1454
00:56:22,150 --> 00:56:20,240
playing on this side so if you hang on

1455
00:56:32,950 --> 00:56:22,160
just one second i'm going to play this

1456
00:56:36,150 --> 00:56:34,309
now that clip just showed something

1457
00:56:36,710 --> 00:56:36,160
coming in and out but you couldn't and

1458
00:56:38,230 --> 00:56:36,720
it kind of

1459
00:56:39,990 --> 00:56:38,240
moved funny but it could have been the

1460
00:56:41,750 --> 00:56:40,000
motion of the boat um

1461
00:56:44,390 --> 00:56:41,760
that was a clip you had sent me earlier

1462
00:56:46,630 --> 00:56:44,400
that said orca something like that

1463
00:56:47,990 --> 00:56:46,640

oh okay yeah the motion of the boat yes

1464

00:56:50,069 --> 00:56:48,000

the motion of the camera but not the

1465

00:56:50,630 --> 00:56:50,079

light itself the light disappears itself

1466

00:56:53,750 --> 00:56:50,640

you know

1467

00:56:55,349 --> 00:56:53,760

yeah the light disappeared yeah this

1468

00:56:57,589 --> 00:56:55,359

this is about jeffrey sanyo

1469

00:56:58,789 --> 00:56:57,599

mufon investigator whom i sent all these

1470

00:57:00,630 --> 00:56:58,799

things

1471

00:57:02,470 --> 00:57:00,640

found very anomalous said he said that

1472

00:57:05,109 --> 00:57:02,480

nothing could disappear like this

1473

00:57:07,750 --> 00:57:05,119

at this velocity because the speed of

1474

00:57:09,670 --> 00:57:07,760

the video frame is 1 30th of a second

1475

00:57:11,430 --> 00:57:09,680

in one frame it's here the next next

1476

00:57:14,710 --> 00:57:11,440

frame is totally gone

1477

00:57:16,150 --> 00:57:14,720

and what we did he sent me the report

1478

00:57:18,870 --> 00:57:16,160

and he didn't really develop much

1479

00:57:19,510 --> 00:57:18,880

into it other than other than tommy's

1480

00:57:22,150 --> 00:57:19,520

anomalous

1481

00:57:22,789 --> 00:57:22,160

he thought you know a skeptic would say

1482

00:57:25,670 --> 00:57:22,799

this is

1483

00:57:27,030 --> 00:57:25,680

merely going behind a reagan set but he

1484

00:57:29,670 --> 00:57:27,040

couldn't see the rigging and he

1485

00:57:30,390 --> 00:57:29,680

said he can't be explained otherwise so

1486

00:57:33,829 --> 00:57:30,400

uh

1487

00:57:35,030 --> 00:57:33,839

wanted to know where this thing

1488

00:57:36,789 --> 00:57:35,040

disappeared

1489

00:57:38,549 --> 00:57:36,799

but this happened later after our

1490

00:57:40,789 --> 00:57:38,559

arrival

1491

00:57:41,910 --> 00:57:40,799

yeah yeah so i want you to continue on

1492

00:57:43,030 --> 00:57:41,920

your journey

1493

00:57:45,829 --> 00:57:43,040

you're heading back towards san

1494

00:57:50,710 --> 00:57:47,270

that's where you were you were you were

1495

00:57:53,990 --> 00:57:53,349

yeah so we had a couple of settings like

1496

00:57:55,910 --> 00:57:54,000

that you know

1497

00:57:58,630 --> 00:57:55,920

you know by this time we were almost

1498

00:58:00,950 --> 00:57:58,640

like a ufo hunting team we were

1499

00:58:02,470 --> 00:58:00,960

scanning the skies but not colors were

1500

00:58:04,150 --> 00:58:02,480

ready camera was ready you know but

1501

00:58:05,430 --> 00:58:04,160

what's next you know what what

1502

00:58:07,670 --> 00:58:05,440

what's going to happen next you know are

1503

00:58:09,990 --> 00:58:07,680

they going to land or i've never seen

1504

00:58:12,390 --> 00:58:10,000

anything coming out of a water

1505

00:58:13,030 --> 00:58:12,400

uh none of those type of reports you

1506

00:58:15,430 --> 00:58:13,040

know

1507

00:58:16,150 --> 00:58:15,440

what time in a distance i've seen a a

1508

00:58:20,710 --> 00:58:16,160

green

1509

00:58:23,109 --> 00:58:20,720

distance closer to the surface of

1510

00:58:24,150 --> 00:58:23,119

the ocean but it was the only time so i

1511

00:58:25,349 --> 00:58:24,160

don't know i don't know if there's

1512

00:58:27,510 --> 00:58:25,359

anything below us or

1513

00:58:28,870 --> 00:58:27,520

coming out of water going into the water

1514

00:58:30,870 --> 00:58:28,880

nothing like that

1515

00:58:32,150 --> 00:58:30,880

nothing really close those horseshoes

1516

00:58:34,829 --> 00:58:32,160

were the closest

1517

00:58:37,349 --> 00:58:34,839

uh closest over flats or something

1518

00:58:40,870 --> 00:58:37,359

structured

1519

00:58:43,829 --> 00:58:40,880

but about 11 days

1520

00:58:44,789 --> 00:58:43,839

prior to our arrival something extremely

1521

00:58:47,990 --> 00:58:44,799

anomalous

1522

00:58:48,470 --> 00:58:48,000

happened that at that time i really

1523

00:58:55,510 --> 00:58:48,480

couldn't

1524

00:58:58,789 --> 00:58:55,520

proved to be a paramount

1525

00:59:03,270 --> 00:59:01,270

a strange dream that my friend donald

1526
00:59:05,030 --> 00:59:03,280
had

1527
00:59:06,710 --> 00:59:05,040
i was asleep and he was steering the

1528
00:59:09,829 --> 00:59:06,720
boat and this happened

1529
00:59:13,829 --> 00:59:09,839
very late at night between

1530
00:59:16,069 --> 00:59:13,839
july 26th and 27th

1531
00:59:18,150 --> 00:59:16,079
i was asleep and about five in the

1532
00:59:21,510 --> 00:59:18,160
morning it was my turn

1533
00:59:22,309 --> 00:59:21,520
to take over i wake up and make some

1534
00:59:25,109 --> 00:59:22,319
coffee and

1535
00:59:26,950 --> 00:59:25,119
uh he said he had a headache his eyes

1536
00:59:28,870 --> 00:59:26,960
were bloodshot he looked really tired

1537
00:59:31,430 --> 00:59:28,880
and he said he had a headache and two

1538
00:59:33,750 --> 00:59:31,440

spasms on his scalp

1539

00:59:35,670 --> 00:59:33,760

you say well you just just go below and

1540

00:59:36,710 --> 00:59:35,680

get some sleep to take an aspirin you

1541

00:59:38,470 --> 00:59:36,720

know and uh

1542

00:59:40,230 --> 00:59:38,480

sleep as long as you want to i'll be

1543

00:59:42,150 --> 00:59:40,240

okay you know whenever you wake up

1544

00:59:43,270 --> 00:59:42,160

get ready to eat something and you can

1545

00:59:45,510 --> 00:59:43,280

take over

1546

00:59:47,829 --> 00:59:45,520

so okay thank you you know he went to

1547

00:59:50,390 --> 00:59:47,839

sleep i was steering and

1548

00:59:51,910 --> 00:59:50,400

it was very chilly night and towards the

1549

00:59:53,750 --> 00:59:51,920

towards the morning of course

1550

00:59:55,430 --> 00:59:53,760

you get warmer you start taking your

1551

00:59:59,430 --> 00:59:55,440

your jackets off and

1552

01:00:01,510 --> 00:59:59,440

it was a very nice morning he uh

1553

01:00:03,349 --> 01:00:01,520

he wakes up you know kind of looking

1554

01:00:06,390 --> 01:00:03,359

staring at the space and

1555

01:00:08,630 --> 01:00:06,400

said nev i had this strange dream

1556

01:00:09,589 --> 01:00:08,640

i said well that's funny can you tell me

1557

01:00:11,829 --> 01:00:09,599

about it later

1558

01:00:13,510 --> 01:00:11,839

i said okay let me have some coffee so

1559

01:00:15,030 --> 01:00:13,520

you know it took a while you know kind

1560

01:00:16,390 --> 01:00:15,040

of moping around

1561

01:00:18,870 --> 01:00:16,400

said well can you tell me about the

1562

01:00:20,950 --> 01:00:18,880

dream he said well

1563

01:00:23,430 --> 01:00:20,960

i dreamt that i was back home you know

1564

01:00:26,630 --> 01:00:23,440

back home in my town lukakai

1565

01:00:30,069 --> 01:00:26,640

northern arizona four corners area

1566

01:00:32,390 --> 01:00:30,079

near canyon de shea a small community

1567

01:00:34,150 --> 01:00:32,400

uh i'm standing at night to be my

1568

01:00:35,589 --> 01:00:34,160

brother on this little hill near our

1569

01:00:37,910 --> 01:00:35,599

property

1570

01:00:39,109 --> 01:00:37,920

uh close to our hogan a traditional

1571

01:00:42,309 --> 01:00:39,119

navajo home a

1572

01:00:44,230 --> 01:00:42,319

sighted made of logs usually

1573

01:00:45,589 --> 01:00:44,240

usually they throw a dirt for the roof

1574

01:00:46,390 --> 01:00:45,599

and it's kind of like almost like a

1575

01:00:49,430 --> 01:00:46,400

little ufo

1576

01:00:51,990 --> 01:00:49,440

insides the doors always point to the

1577

01:00:54,870 --> 01:00:52,000

rising sun

1578

01:00:56,390 --> 01:00:54,880

in my dream i'm standing with my brother

1579

01:01:00,069 --> 01:00:56,400

if you see this huge

1580

01:01:03,190 --> 01:01:00,079

object full of lights coming down

1581

01:01:04,069 --> 01:01:03,200

and flying over our town it was almost

1582

01:01:07,430 --> 01:01:04,079

like a little

1583

01:01:11,190 --> 01:01:07,440

uh advertising lights in new york

1584

01:01:13,589 --> 01:01:11,200

you know bulbs changing uh flashing

1585

01:01:15,910 --> 01:01:13,599

and it flew over the town and he

1586

01:01:18,150 --> 01:01:15,920

ascended into the clouds slowly

1587

01:01:20,470 --> 01:01:18,160

and my brother in in his dream his

1588

01:01:24,069 --> 01:01:20,480

brothers passed away subsequently

1589

01:01:25,510 --> 01:01:24,079

at age 50. my brother said

1590

01:01:27,750 --> 01:01:25,520

he had to go away and look for this

1591

01:01:29,750 --> 01:01:27,760

cat's eyes

1592

01:01:32,309 --> 01:01:29,760

so well it's a strange dream don you

1593

01:01:36,710 --> 01:01:32,319

know this is really weird you know uh

1594

01:01:38,470 --> 01:01:36,720

but at the same time his dream

1595

01:01:43,190 --> 01:01:38,480

kind of made me think of the similar

1596

01:01:49,750 --> 01:01:46,870

and in this dream my personal dream

1597

01:01:51,270 --> 01:01:49,760

i was alone in my apartment and i'm

1598

01:01:53,349 --> 01:01:51,280

dreaming

1599

01:01:54,950 --> 01:01:53,359

was a very beautiful dream the skies

1600

01:01:56,549 --> 01:01:54,960

were blue and uh

1601
01:01:59,750 --> 01:01:56,559
all of a sudden the sky exploded with

1602
01:02:01,910 --> 01:01:59,760
ufos there were saucers there were

1603
01:02:04,710 --> 01:02:01,920
there were balls there were rockets

1604
01:02:06,230 --> 01:02:04,720
there were these little things and

1605
01:02:07,750 --> 01:02:06,240
all of a sudden they're all moving away

1606
01:02:11,109 --> 01:02:07,760
in my dream and this

1607
01:02:11,750 --> 01:02:11,119
type of crownish very vaguely shaped

1608
01:02:13,589 --> 01:02:11,760
object

1609
01:02:16,549 --> 01:02:13,599
almost like a mother ship is coming in

1610
01:02:19,029 --> 01:02:16,559
my dream and so wow look at that

1611
01:02:20,789 --> 01:02:19,039
the next thing i know i'm uh i'm

1612
01:02:21,589 --> 01:02:20,799
realizing i'm trying to wake up but

1613
01:02:25,270 --> 01:02:21,599

again i'm in

1614

01:02:28,470 --> 01:02:25,280

sleep paralysis i can't move

1615

01:02:30,789 --> 01:02:28,480

but i see somebody's my eyes are opening

1616

01:02:32,470 --> 01:02:30,799

and i realize in my room i'm in my room

1617

01:02:35,029 --> 01:02:32,480

it's very dark pitch black

1618

01:02:36,870 --> 01:02:35,039

but i can't move and there's somebody

1619

01:02:39,589 --> 01:02:36,880

standing in in a hallway

1620

01:02:40,150 --> 01:02:39,599

very close to my bed and looking at me

1621

01:02:41,750 --> 01:02:40,160

you know even

1622

01:02:42,950 --> 01:02:41,760

when you wake up and you had that kind

1623

01:02:45,109 --> 01:02:42,960

of a strange feeling that somebody's

1624

01:02:47,430 --> 01:02:45,119

staring at you

1625

01:02:48,870 --> 01:02:47,440

even even if it was a person staring at

1626

01:02:49,670 --> 01:02:48,880

you it was kind of a little scary you

1627

01:02:56,870 --> 01:02:49,680

know

1628

01:02:59,190 --> 01:02:56,880

like a like a torso it made a move

1629

01:03:01,510 --> 01:02:59,200

pointed upward and it just uh almost

1630

01:03:04,470 --> 01:03:01,520

looked like a ghost it very dark

1631

01:03:06,230 --> 01:03:04,480

it uh it sailed right to the ceiling so

1632

01:03:08,549 --> 01:03:06,240

his dream kind of reminded me of my

1633

01:03:09,829 --> 01:03:08,559

dream this is weird i think i might have

1634

01:03:11,910 --> 01:03:09,839

seen this uh

1635

01:03:13,190 --> 01:03:11,920

crown type of thing before i i don't

1636

01:03:15,029 --> 01:03:13,200

know weird

1637

01:03:16,309 --> 01:03:15,039

don i have to ask you something would

1638

01:03:20,470 --> 01:03:16,319

you please

1639

01:03:22,390 --> 01:03:20,480

our logbook before you forget it

1640

01:03:23,990 --> 01:03:22,400

said okay okay give me give me a minute

1641

01:03:25,990 --> 01:03:24,000

so you had some coffee

1642

01:03:28,230 --> 01:03:26,000

you sat down and took out a notebook and

1643

01:03:31,750 --> 01:03:28,240

a green and yellow paper

1644

01:03:33,990 --> 01:03:31,760

a yellow pen and a

1645

01:03:34,950 --> 01:03:34,000

ballpoint pen and this is what he drew

1646

01:03:37,109 --> 01:03:34,960

this is the original

1647

01:03:38,789 --> 01:03:37,119

i think you have a you have there in a

1648

01:03:41,589 --> 01:03:38,799

picture too

1649

01:03:44,069 --> 01:03:41,599

oh yes i have that yeah yeah this

1650

01:03:49,990 --> 01:03:48,230

yeah july 27th this is exactly from the

1651
01:03:51,990 --> 01:03:50,000
from the log here yeah it's a whole

1652
01:03:53,029 --> 01:03:52,000
little book i've got it right up on the

1653
01:03:54,710 --> 01:03:53,039
screen here

1654
01:03:56,069 --> 01:03:54,720
i know you can't see it but here it is

1655
01:03:58,069 --> 01:03:56,079
yep yeah

1656
01:03:59,430 --> 01:03:58,079
it took a little over a minute to do it

1657
01:04:00,470 --> 01:03:59,440
very quickly you know almost like

1658
01:04:02,309 --> 01:04:00,480
automatic you know

1659
01:04:04,230 --> 01:04:02,319
it was it turned out to be something oh

1660
01:04:05,589 --> 01:04:04,240
nice kind of design you said wow this is

1661
01:04:06,549 --> 01:04:05,599
weird you know you show this little

1662
01:04:08,710 --> 01:04:06,559
crown

1663
01:04:11,270 --> 01:04:08,720

flying towards the sky and he's outside

1664

01:04:14,549 --> 01:04:11,280

of his hogan looking up

1665

01:04:15,990 --> 01:04:14,559

uh uh on the other other part of our

1666

01:04:19,109 --> 01:04:16,000

diagram is she shows a

1667

01:04:23,190 --> 01:04:19,119

a circle with lines and some dots and uh

1668

01:04:26,390 --> 01:04:23,200

uh something crownish on top of it

1669

01:04:27,910 --> 01:04:26,400

so in his dream this this was supposed

1670

01:04:30,309 --> 01:04:27,920

to be an entire object

1671

01:04:30,950 --> 01:04:30,319

the bottom part he put he says this was

1672

01:04:32,789 --> 01:04:30,960

a bottom

1673

01:04:34,789 --> 01:04:32,799

says right on there it was supposed to

1674

01:04:38,230 --> 01:04:34,799

go underneath it underneath that

1675

01:04:43,829 --> 01:04:38,240

crown looking thing so this is weird

1676

01:04:47,430 --> 01:04:45,910

uh and i went underneath the bridge i

1677

01:04:49,430 --> 01:04:47,440

mean i have all these things in video

1678

01:04:52,870 --> 01:04:49,440

this is all very fine

1679

01:04:55,510 --> 01:04:52,880

uh an anchor of richardson bay

1680

01:04:56,549 --> 01:04:55,520

in marin county yeah san francisco i

1681

01:05:00,069 --> 01:04:56,559

used to live

1682

01:05:01,510 --> 01:05:00,079

in marin county here yeah i think you

1683

01:05:03,510 --> 01:05:01,520

mentioned that yeah

1684

01:05:04,630 --> 01:05:03,520

beautiful area very expensive oh yeah a

1685

01:05:06,549 --> 01:05:04,640

lot many are

1686

01:05:07,670 --> 01:05:06,559

many many artists there you know made

1687

01:05:09,750 --> 01:05:07,680

sailors

1688

01:05:11,910 --> 01:05:09,760

yeah and it's a very cold summer over

1689

01:05:16,069 --> 01:05:11,920

there it blows like hell

1690

01:05:19,750 --> 01:05:16,079

right so uh after we uh

1691

01:05:22,630 --> 01:05:19,760

again regain our land legs and uh

1692

01:05:24,309 --> 01:05:22,640

we wanted to uh do something about the

1693

01:05:25,750 --> 01:05:24,319

sightings i mean but this time i had a

1694

01:05:28,950 --> 01:05:25,760

couple of good videos and

1695

01:05:31,510 --> 01:05:28,960

even more more material in my logbook

1696

01:05:34,950 --> 01:05:33,270

you're back to civilization you know

1697

01:05:37,750 --> 01:05:34,960

fantastic

1698

01:05:39,589 --> 01:05:37,760

uh again i was looking for mufa and i

1699

01:05:40,950 --> 01:05:39,599

was looking for any kind of organization

1700

01:05:42,630 --> 01:05:40,960

that could help me and i really couldn't

1701

01:05:43,349 --> 01:05:42,640

find anything in yellow pages in san

1702

01:05:47,589 --> 01:05:43,359

francisco

1703

01:05:49,029 --> 01:05:47,599

local so so maybe some reporter would

1704

01:05:51,750 --> 01:05:49,039

know something

1705

01:05:52,870 --> 01:05:51,760

so i i got into the phone booth and uh

1706

01:05:55,510 --> 01:05:52,880

uh

1707

01:05:56,950 --> 01:05:55,520

open yellow pages this newspaper this tv

1708

01:06:00,390 --> 01:05:56,960

station this radio station

1709

01:06:02,230 --> 01:06:00,400

nobody uh nobody wanted to talk to me

1710

01:06:03,750 --> 01:06:02,240

sorry we are a chinese station we are a

1711

01:06:06,230 --> 01:06:03,760

christian station oh

1712

01:06:07,990 --> 01:06:06,240

we're we're out uh we are to lunch uh

1713

01:06:09,670 --> 01:06:08,000

you gotta talk to this guy

1714

01:06:11,109 --> 01:06:09,680

we'll be back i don't know monday or

1715

01:06:13,349 --> 01:06:11,119

something like that

1716

01:06:14,309 --> 01:06:13,359

so maybe about a dozen calls like that i

1717

01:06:18,069 --> 01:06:14,319

would just blow

1718

01:06:20,069 --> 01:06:18,079

blown off and finally a newspaper

1719

01:06:21,750 --> 01:06:20,079

called marin independent journal

1720

01:06:22,069 --> 01:06:21,760

answered they wanted to talk to me they

1721

01:06:24,950 --> 01:06:22,079

did

1722

01:06:25,510 --> 01:06:24,960

yeah i know the paper well yeah yeah

1723

01:06:27,910 --> 01:06:25,520

yeah

1724

01:06:29,029 --> 01:06:27,920

and they referred me to let me speak to

1725

01:06:32,390 --> 01:06:29,039

a lady named

1726

01:06:33,430 --> 01:06:32,400

uh jane fucher jane futcher fucher

1727

01:06:35,829 --> 01:06:33,440

something like that

1728

01:06:36,630 --> 01:06:35,839

and we made an appointment she said uh

1729

01:06:38,390 --> 01:06:36,640

we couldn't come

1730

01:06:40,630 --> 01:06:38,400

you can send a photographer to take your

1731

01:06:43,750 --> 01:06:40,640

pictures on a boat but she couldn't come

1732

01:06:45,589 --> 01:06:43,760

out of a security reasons okay fine so

1733

01:06:47,349 --> 01:06:45,599

can you come to the you come to our

1734

01:06:49,029 --> 01:06:47,359

offices so sure

1735

01:06:50,870 --> 01:06:49,039

so we made an appointment we bought what

1736

01:06:51,270 --> 01:06:50,880

spent there and it was fantastic we gave

1737

01:06:53,829 --> 01:06:51,280

it

1738

01:06:56,150 --> 01:06:53,839

we gave her the full report we showed

1739

01:06:58,150 --> 01:06:56,160

him all this materials and

1740

01:06:59,270 --> 01:06:58,160

she took the story down and she referred

1741

01:07:02,309 --> 01:06:59,280

me to uh

1742

01:07:06,390 --> 01:07:02,319

refer me to peter davenport

1743

01:07:07,910 --> 01:07:06,400

about him so he was the first ufologist

1744

01:07:11,190 --> 01:07:07,920

that i talked to

1745

01:07:13,510 --> 01:07:11,200

uh i promised to send him the copy of

1746

01:07:17,910 --> 01:07:13,520

the tapes once i made him

1747

01:07:19,670 --> 01:07:17,920

and uh uh copy from my notes

1748

01:07:21,589 --> 01:07:19,680

and he told me once she got to phoenix

1749

01:07:23,190 --> 01:07:21,599

because

1750

01:07:24,789 --> 01:07:23,200

we didn't know what to do we're going to

1751

01:07:26,150 --> 01:07:24,799

go back to san diego what do we do with

1752

01:07:27,270 --> 01:07:26,160

the boat you know we can't leave it

1753

01:07:30,230 --> 01:07:27,280

anchored here

1754

01:07:31,589 --> 01:07:30,240

so within a week or so we decided to uh

1755

01:07:34,470 --> 01:07:31,599

to leave it in storage

1756

01:07:36,069 --> 01:07:34,480

in alameda across the naval shipyard

1757

01:07:39,190 --> 01:07:36,079

over there there's a little

1758

01:07:41,750 --> 01:07:39,200

boatyard so i made arrangements and

1759

01:07:42,630 --> 01:07:41,760

the boat was yeah yeah it was there for

1760

01:07:44,390 --> 01:07:42,640

about two

1761

01:07:46,630 --> 01:07:44,400

years or so before we took it back to

1762

01:07:50,390 --> 01:07:46,640

mexico for a second time

1763

01:07:52,870 --> 01:07:50,400

in 2003. so

1764

01:07:54,390 --> 01:07:52,880

after some time after this meeting with

1765

01:07:58,390 --> 01:07:54,400

reporters

1766

01:08:02,549 --> 01:07:58,400

we uh we took a bus back to

1767

01:08:05,109 --> 01:08:02,559

to phoenix so just before you move on

1768

01:08:06,470 --> 01:08:05,119

i have the uh the article the marin

1769

01:08:09,349 --> 01:08:06,480

independent journal

1770

01:08:09,990 --> 01:08:09,359

article up on the screen so were you

1771

01:08:13,109 --> 01:08:10,000

after this

1772

01:08:13,510 --> 01:08:13,119

article came out did did this go into

1773

01:08:17,910 --> 01:08:13,520

any

1774

01:08:20,950 --> 01:08:17,920

of the story

1775

01:08:23,910 --> 01:08:20,960

no no calls no no

1776

01:08:25,030 --> 01:08:23,920

no efforts to reach me at all wow that's

1777

01:08:28,870 --> 01:08:25,040

unreal

1778

01:08:30,789 --> 01:08:28,880

yeah i think through mufan

1779

01:08:31,990 --> 01:08:30,799

i don't really recall how it happened i

1780

01:08:34,950 --> 01:08:32,000

i we got in

1781

01:08:35,269 --> 01:08:34,960

in phoenix once we were in phoenix fox

1782

01:08:41,510 --> 01:08:35,279

10

1783

01:08:42,070 --> 01:08:41,520

they wanted to talk to me i think mufon

1784

01:08:44,149 --> 01:08:42,080

gave

1785

01:08:45,510 --> 01:08:44,159

mufan told him about and that they sent

1786

01:08:47,910 --> 01:08:45,520

a reporter

1787

01:08:49,430 --> 01:08:47,920

to take uh to take the story down but

1788

01:08:52,470 --> 01:08:49,440

before that

1789

01:08:55,189 --> 01:08:52,480

uh davenport gave me a number for

1790

01:08:56,229 --> 01:08:55,199

for mufon in phoenix i think a man named

1791

01:08:58,229 --> 01:08:56,239

sylvester

1792

01:08:59,829 --> 01:08:58,239

was a director of arizona director at

1793

01:09:02,870 --> 01:08:59,839

that time

1794

01:09:05,990 --> 01:09:02,880

and uh he gave me a number for tom

1795

01:09:09,030 --> 01:09:06,000

king who was a videographer who actually

1796

01:09:09,910 --> 01:09:09,040

recorded some uh the phoenix lights

1797

01:09:13,590 --> 01:09:09,920

himself

1798

01:09:15,269 --> 01:09:13,600

among other people in 1997.

1799

01:09:16,709 --> 01:09:15,279

so i had the number for tom can get a

1800

01:09:19,189 --> 01:09:16,719

number for mufon

1801

01:09:20,229 --> 01:09:19,199

once we came back to phoenix see uh don

1802

01:09:22,309 --> 01:09:20,239

had to go back home

1803

01:09:24,470 --> 01:09:22,319

you know we waited for a couple of days

1804

01:09:25,669 --> 01:09:24,480

for mufan to send people over to take

1805

01:09:27,110 --> 01:09:25,679

the report then he went

1806

01:09:30,390 --> 01:09:27,120

i stayed in phoenix because that's where

1807

01:09:33,829 --> 01:09:30,400

i lived and uh that went back to lukach

1808

01:09:34,149 --> 01:09:33,839

so uh mufan sent out a team three-member

1809

01:09:38,630 --> 01:09:34,159

team

1810

01:09:40,789 --> 01:09:38,640

led by the name by a man named jim kelly

1811

01:09:42,789 --> 01:09:40,799

and he brought along judy warrens and

1812

01:09:45,349 --> 01:09:42,799

jason ingraham

1813

01:09:46,870 --> 01:09:45,359

judy warren was later to be a state

1814

01:09:50,309 --> 01:09:46,880

state director arizona

1815

01:09:53,430 --> 01:09:50,319

after semester and

1816

01:09:55,590 --> 01:09:53,440

jim kelly was a main investigator so

1817

01:09:57,189 --> 01:09:55,600

we filled out their form you know they

1818

01:09:57,590 --> 01:09:57,199

listened to us we gave them the copy of

1819

01:10:05,990 --> 01:09:57,600

the

1820

01:10:07,350 --> 01:10:06,000

i talked to ingraham and uh warrens

1821

01:10:09,830 --> 01:10:07,360

talked to don

1822

01:10:10,550 --> 01:10:09,840

so after a couple of days uh don goes

1823

01:10:12,070 --> 01:10:10,560

back home

1824

01:10:14,790 --> 01:10:12,080

i stayed in phoenix that was it you know

1825

01:10:17,830 --> 01:10:14,800

then later on the fox news came and

1826

01:10:20,709 --> 01:10:17,840

that story came about you know they made

1827

01:10:24,950 --> 01:10:20,719

a very nice little report maybe a

1828

01:10:26,709 --> 01:10:24,960

10-12 minute report uh but they left me

1829

01:10:28,470 --> 01:10:26,719

they left me office and the guy seen a

1830

01:10:29,030 --> 01:10:28,480

venus and this was just nothing else but

1831

01:10:31,030 --> 01:10:29,040

venus

1832

01:10:32,870 --> 01:10:31,040

that he captured the only show they won

1833

01:10:35,750 --> 01:10:32,880

one sub

1834

01:10:37,590 --> 01:10:35,760

so i i'm the strange guy in the boat

1835

01:10:40,229 --> 01:10:37,600

they see his venus that's about it

1836

01:10:41,910 --> 01:10:40,239

with some uh encounters of the third

1837

01:10:46,229 --> 01:10:41,920

kind music in the background

1838

01:10:49,270 --> 01:10:46,239

that was it uh yeah of course yeah

1839

01:10:50,709 --> 01:10:49,280

so this time i i kind of uh but

1840

01:10:53,030 --> 01:10:50,719

i was really intrigued with this and i

1841

01:10:55,669 --> 01:10:53,040

wanted to continue investigating

1842

01:10:59,750 --> 01:10:55,679

but uh on september 20th something

1843

01:11:02,709 --> 01:10:59,760

strange happened in lukaku

1844

01:11:04,709 --> 01:11:02,719

actually on september 23rd i get a call

1845

01:11:08,070 --> 01:11:04,719

from don

1846

01:11:12,070 --> 01:11:08,080

it says guess what neb i said what

1847

01:11:13,830 --> 01:11:12,080

i saw you foreign

1848

01:11:15,430 --> 01:11:13,840

but this time i'm a skeptic you know you

1849

01:11:18,950 --> 01:11:15,440

know what are you talking about

1850

01:11:20,709 --> 01:11:18,960

what you're for yeah me and my uh uh

1851

01:11:22,070 --> 01:11:20,719

niece and some other people we've seen

1852

01:11:27,350 --> 01:11:22,080

the ufo

1853

01:11:29,189 --> 01:11:27,360

and i took a picture of it i said no

1854

01:11:30,709 --> 01:11:29,199

are you serious yes i took three

1855

01:11:32,470 --> 01:11:30,719

pictures

1856

01:11:35,270 --> 01:11:32,480

with watts and i have a little i have a

1857

01:11:37,270 --> 01:11:35,280

little kodak throwaway camera

1858

01:11:39,110 --> 01:11:37,280

i said okay uh can you can you please

1859

01:11:39,990 --> 01:11:39,120

get this to me somehow you know okay can

1860

01:11:42,310 --> 01:11:40,000

you made it or

1861

01:11:44,390 --> 01:11:42,320

well i'll come down in a few days i said

1862

01:11:47,910 --> 01:11:44,400

okay good come down for a visit

1863

01:11:48,870 --> 01:11:47,920

so he comes down uh he he brings me the

1864

01:11:51,750 --> 01:11:48,880

uh

1865

01:11:52,550 --> 01:11:51,760

the camera and i took it to walgreens

1866

01:11:54,470 --> 01:11:52,560

myself

1867

01:11:56,390 --> 01:11:54,480

to have the video to have the pictures

1868

01:11:57,510 --> 01:11:56,400

developed there were three pictures that

1869

01:11:59,270 --> 01:11:57,520

came out

1870

01:12:00,950 --> 01:11:59,280

and one was totally blurry i couldn't do

1871

01:12:03,270 --> 01:12:00,960

anything with that about two of them

1872

01:12:05,189 --> 01:12:03,280

you could see a little a little whiter

1873

01:12:08,310 --> 01:12:05,199

spot there in a distance

1874

01:12:11,590 --> 01:12:08,320

in approximately the same location

1875

01:12:13,030 --> 01:12:11,600

as his dream was later on i found that

1876

01:12:15,669 --> 01:12:13,040

other people had seen it some

1877

01:12:16,790 --> 01:12:15,679

some knew him some of her friends some

1878

01:12:19,669 --> 01:12:16,800

some were not

1879

01:12:20,790 --> 01:12:19,679

they had seen a similar type of object

1880

01:12:22,470 --> 01:12:20,800

coming at night like

1881

01:12:24,390 --> 01:12:22,480

lighting up and falling down near the

1882

01:12:26,709 --> 01:12:24,400

mountain something anomalous some

1883

01:12:30,550 --> 01:12:26,719

strange lights that would blink out or

1884

01:12:32,630 --> 01:12:30,560

make a flying leaf maneuver

1885

01:12:35,510 --> 01:12:32,640

so something was going on and i was

1886

01:12:38,550 --> 01:12:35,520

fascinated by this picture

1887

01:12:41,030 --> 01:12:38,560

i i took it to uh to tom king you know

1888

01:12:43,910 --> 01:12:41,040

first uh don told me that the sighting

1889

01:12:45,590 --> 01:12:43,920

lasted for 40 minutes

1890

01:12:48,229 --> 01:12:45,600

he noticed he's standing in over the

1891

01:12:53,750 --> 01:12:48,239

mountains way up high in the sky

1892

01:12:57,750 --> 01:12:56,229

uh and he said he looked at it through

1893

01:12:59,910 --> 01:12:57,760

binoculars

1894

01:13:01,750 --> 01:12:59,920

he called out to his niece her name was

1895

01:13:04,070 --> 01:13:01,760

nina he they both came out

1896

01:13:04,790 --> 01:13:04,080

and they looked at the binoculars and

1897

01:13:06,870 --> 01:13:04,800

according

1898

01:13:08,630 --> 01:13:06,880

to both both him and her it was

1899

01:13:12,470 --> 01:13:08,640

something glass-like

1900

01:13:16,070 --> 01:13:12,480

or metallic uh reflecting lots of light

1901

01:13:17,590 --> 01:13:16,080

off of it and they said it lasted for 40

1902

01:13:21,030 --> 01:13:17,600

minutes or so before it

1903

01:13:24,950 --> 01:13:21,040

vanished so i took this

1904

01:13:30,470 --> 01:13:28,470

sailing videos tom king

1905

01:13:31,990 --> 01:13:30,480

and he put it in his back of computers

1906

01:13:33,590 --> 01:13:32,000

and he said i'll look into this

1907

01:13:35,030 --> 01:13:33,600

and say what about it's just a little

1908

01:13:36,149 --> 01:13:35,040

white dot and i said well don't worry

1909

01:13:38,229 --> 01:13:36,159

about it i can

1910

01:13:40,070 --> 01:13:38,239

my computer can find out what it is uh

1911

01:13:43,030 --> 01:13:40,080

uh what kind of values

1912

01:13:43,510 --> 01:13:43,040

is what he said you can read the values

1913

01:13:46,630 --> 01:13:43,520

of

1914

01:13:50,790 --> 01:13:46,640

was no

1915

01:13:54,229 --> 01:13:50,800

this is some kind of a ufo he said

1916

01:13:56,229 --> 01:13:54,239

there are no wings at all uh now

1917

01:13:58,950 --> 01:13:56,239

lukachuka is a very isolated little

1918

01:14:01,110 --> 01:13:58,960

community nothing flies there

1919

01:14:03,669 --> 01:14:01,120

i think uh there's a video in youtube

1920

01:14:05,430 --> 01:14:03,679

which shows a helicopter came a military

1921

01:14:07,110 --> 01:14:05,440

military helicopter came once and there

1922

01:14:09,189 --> 01:14:07,120

was a big event so there's no

1923

01:14:11,910 --> 01:14:09,199

helicopters there's no balloons

1924

01:14:14,070 --> 01:14:11,920

there's no uh tourist flights they're

1925

01:14:15,669 --> 01:14:14,080

all over candy shay and there's a small

1926

01:14:18,310 --> 01:14:15,679

airport in chin league

1927

01:14:19,910 --> 01:14:18,320

uh where they send that flight sit out

1928

01:14:22,070 --> 01:14:19,920

once in a while to uh

1929

01:14:23,669 --> 01:14:22,080

to show the canyon but nothing over

1930

01:14:26,870 --> 01:14:23,679

lukake which is good

1931

01:14:29,030 --> 01:14:26,880

30 miles or so north from there

1932

01:14:31,910 --> 01:14:29,040

only thing that you could see at night

1933

01:14:33,830 --> 01:14:31,920

or daytime are the jetliners you know

1934

01:14:36,550 --> 01:14:33,840

and nothing nothing would stop not even

1935

01:14:39,990 --> 01:14:36,560

a balloon would stop in the distance

1936

01:14:41,750 --> 01:14:40,000

and stand there for 40 minutes

1937

01:14:43,669 --> 01:14:41,760

you know can you think of something that

1938

01:14:49,510 --> 01:14:43,679

could just stop and stand there

1939

01:14:54,229 --> 01:14:52,229

that was weird so tom king couldn't

1940

01:14:57,910 --> 01:14:54,239

couldn't identify there's anything uh

1941

01:15:04,870 --> 01:15:02,790

it could be explained so

1942

01:15:06,709 --> 01:15:04,880

it took four years for me to to figure

1943

01:15:08,709 --> 01:15:06,719

out what what really happened you know

1944

01:15:10,790 --> 01:15:08,719

so in the meantime

1945

01:15:12,310 --> 01:15:10,800

i was already fascinated and uh through

1946

01:15:14,709 --> 01:15:12,320

mufan

1947

01:15:15,750 --> 01:15:14,719

i met this uh real great lady her name

1948

01:15:18,870 --> 01:15:15,760

was a uh

1949

01:15:22,229 --> 01:15:18,880

ruth mckinley hover she was a it was a

1950

01:15:24,149 --> 01:15:22,239

she was a professional psychologist and

1951

01:15:24,790 --> 01:15:24,159

she was connected with a group called

1952

01:15:29,910 --> 01:15:24,800

peer

1953

01:15:31,669 --> 01:15:29,920

people who were interested in abductions

1954

01:15:33,110 --> 01:15:31,679

you know now i don't remember any kind

1955

01:15:34,870 --> 01:15:33,120

of an abduction

1956

01:15:38,950 --> 01:15:34,880

missing time anything like that that

1957

01:15:40,550 --> 01:15:38,960

happened during this voyage or you know

1958

01:15:42,390 --> 01:15:40,560

i started connecting the childhood

1959

01:15:44,950 --> 01:15:42,400

episode to something that could be

1960

01:15:49,110 --> 01:15:44,960

anomalous maybe

1961

01:15:50,070 --> 01:15:49,120

but i couldn't piece things together you

1962

01:15:53,669 --> 01:15:50,080

know

1963

01:15:55,189 --> 01:15:53,679

so uh i started going through mufa and i

1964

01:15:57,430 --> 01:15:55,199

went to first meeting at the second

1965

01:15:58,870 --> 01:15:57,440

meeting and i met a lot of people i even

1966

01:16:01,830 --> 01:15:58,880

met bud hopkins

1967

01:16:02,790 --> 01:16:01,840

you know oh wow yeah i decided yeah i

1968

01:16:05,350 --> 01:16:02,800

met bud hopkins

1969

01:16:06,149 --> 01:16:05,360

we chatted for about 15 minutes in san

1970

01:16:09,189 --> 01:16:06,159

francisco

1971

01:16:12,149 --> 01:16:09,199

because my boat was still there and uh

1972

01:16:12,709 --> 01:16:12,159

ruth decided to meet us there they had

1973

01:16:15,189 --> 01:16:12,719

some

1974

01:16:16,950 --> 01:16:15,199

a huge uh international congress over

1975

01:16:19,910 --> 01:16:16,960

there a number of people showed up

1976

01:16:20,790 --> 01:16:19,920

linda molten was there i think about

1977

01:16:22,790 --> 01:16:20,800

hopkins and

1978

01:16:24,630 --> 01:16:22,800

ruth introduced me to hopkins you know

1979

01:16:26,709 --> 01:16:24,640

it was very memorable

1980

01:16:28,550 --> 01:16:26,719

uh you know very memorable moment in my

1981

01:16:30,950 --> 01:16:28,560

life

1982

01:16:32,470 --> 01:16:30,960

but that by that time i decided to write

1983

01:16:35,990 --> 01:16:32,480

this little book name named

1984

01:16:38,310 --> 01:16:36,000

uh followed in which i completely

1985

01:16:40,229 --> 01:16:38,320

laid out all these events perfectly you

1986

01:16:41,669 --> 01:16:40,239

know from the notes from the memories

1987

01:16:46,390 --> 01:16:41,679

from the videos

1988

01:16:50,709 --> 01:16:46,400

i really really investigated very hard

1989

01:16:52,149 --> 01:16:50,719

so at this time at that time actually

1990

01:16:54,310 --> 01:16:52,159

i didn't know what to think about the

1991

01:16:55,350 --> 01:16:54,320

phenomena you know i just took a popular

1992

01:16:56,630 --> 01:16:55,360

culture type of

1993

01:16:58,310 --> 01:16:56,640

idea that this is something

1994

01:16:59,430 --> 01:16:58,320

extraterrestrial somebody coming here

1995

01:17:03,189 --> 01:16:59,440

off and on

1996

01:17:04,550 --> 01:17:03,199

uh i watch some shows i watch the movies

1997

01:17:07,510 --> 01:17:04,560

i talk to people i

1998

01:17:09,590 --> 01:17:07,520

uh i i didn't know what kind of decision

1999

01:17:12,950 --> 01:17:09,600

to bring about this

2000

01:17:16,470 --> 01:17:12,960

but i wanted to investigate further

2001

01:17:20,229 --> 01:17:16,480

so uh knowing that root was very good

2002

01:17:22,630 --> 01:17:20,239

uh in investigator in his

2003

01:17:24,709 --> 01:17:22,640

her own group people who are so-called

2004

01:17:27,430 --> 01:17:24,719

experiencers

2005

01:17:28,310 --> 01:17:27,440

uh who had some kind of anomalous

2006

01:17:31,430 --> 01:17:28,320

experiences

2007

01:17:33,350 --> 01:17:31,440

abductions visitations spiritual

2008

01:17:37,350 --> 01:17:33,360

upheavals who knows what

2009

01:17:39,990 --> 01:17:37,360

so i i decided to undergo hypnosis with

2010

01:17:44,630 --> 01:17:43,110

so i came to her office one afternoon

2011

01:17:46,310 --> 01:17:44,640

uh you know i didn't think i was going

2012

01:17:46,950 --> 01:17:46,320

to get hypnotized you know this is not

2013

01:17:50,790 --> 01:17:46,960

you know

2014

01:17:53,830 --> 01:17:50,800

you can you can try

2015

01:17:56,070 --> 01:17:53,840

yeah so i uh she relaxed me pretty good

2016

01:17:58,310 --> 01:17:56,080

you know i started drifting off and

2017

01:17:59,270 --> 01:17:58,320

she said you guys are slowly sailing and

2018

01:18:02,630 --> 01:17:59,280

uh

2019

01:18:05,669 --> 01:18:02,640

the sky

2020

01:18:08,790 --> 01:18:05,679

and uh tell me what happens you know

2021

01:18:10,950 --> 01:18:08,800

what what's going on here you know and

2022

01:18:12,550 --> 01:18:10,960

i'm trying to follow her voice i'm

2023

01:18:14,790 --> 01:18:12,560

seeing myself in a boat

2024

01:18:17,030 --> 01:18:14,800

pretty soon i'm losing her voice it's

2025

01:18:20,870 --> 01:18:17,040

almost like in the background

2026

01:18:24,070 --> 01:18:20,880

and i find myself floating

2027

01:18:27,510 --> 01:18:24,080

i'm in the air somewhere in the air

2028

01:18:29,189 --> 01:18:27,520

it's night and and i see darling there's

2029

01:18:31,669 --> 01:18:29,199

ocean there's sea below me

2030

01:18:34,870 --> 01:18:31,679

but i can't see mira i can see the boat

2031

01:18:36,550 --> 01:18:34,880

where where am i doing in the sky

2032

01:18:40,310 --> 01:18:36,560

next thing i know i see the saucer

2033

01:18:42,149 --> 01:18:40,320

sticking out of a cloud

2034

01:18:43,669 --> 01:18:42,159

halfway and there's some little yellow

2035

01:18:46,310 --> 01:18:43,679

light right at the bottom of it

2036

01:18:47,830 --> 01:18:46,320

almost like oscillating so what is this

2037

01:18:50,229 --> 01:18:47,840

saucer doing here you know

2038

01:18:52,470 --> 01:18:50,239

what's going on and i'm kind of like

2039

01:18:55,189 --> 01:18:52,480

floating towards it

2040

01:18:57,189 --> 01:18:55,199

next thing i know boom i'm uh in some

2041

01:18:59,669 --> 01:18:57,199

kind of a little

2042

01:19:02,229 --> 01:18:59,679

crapped quarters like a little beige

2043

01:19:05,669 --> 01:19:02,239

type of room like a small car

2044

01:19:07,669 --> 01:19:05,679

a yellowish wall around me and uh

2045

01:19:09,270 --> 01:19:07,679

pretty soon this is transforming it's

2046

01:19:12,390 --> 01:19:09,280

trying to transform into some kind of a

2047

01:19:16,070 --> 01:19:15,590

black ceiling above me and a green neon

2048

01:19:20,470 --> 01:19:16,080

light

2049

01:19:22,630 --> 01:19:20,480

and i kind of feel some kind of

2050

01:19:24,390 --> 01:19:22,640

commotion around me something's going on

2051

01:19:25,669 --> 01:19:24,400

and by this time i almost had a heart

2052

01:19:28,149 --> 01:19:25,679

attack i mean i i

2053

01:19:30,470 --> 01:19:28,159

stopped you know i couldn't breathe i

2054

01:19:33,030 --> 01:19:30,480

was very excited and she started nab

2055

01:19:34,870 --> 01:19:33,040

relaxed relaxed i was screaming you know

2056

01:19:37,270 --> 01:19:34,880

she brought me out of he said you know

2057

01:19:38,709 --> 01:19:37,280

your mind doesn't want to go there so

2058

01:19:42,390 --> 01:19:38,719

okay

2059

01:19:45,110 --> 01:19:42,400

but within a week or so

2060

01:19:46,790 --> 01:19:45,120

i get the report from jeffrey sanyo

2061

01:19:48,070 --> 01:19:46,800

about the light that disappears this is

2062

01:19:50,390 --> 01:19:48,080

anomalous

2063

01:19:51,270 --> 01:19:50,400

this is all he said only thing you can

2064

01:19:54,870 --> 01:19:51,280

see

2065

01:19:55,590 --> 01:19:54,880

video you showed the thing disappearing

2066

01:19:57,270 --> 01:19:55,600

you know

2067

01:19:59,189 --> 01:19:57,280

you can watch the video a thousand times

2068

01:20:02,390 --> 01:19:59,199

over this is all it's ever going to do

2069

01:20:04,149 --> 01:20:02,400

okay so it didn't he didn't

2070

01:20:05,590 --> 01:20:04,159

enlarge it he didn't tell me much about

2071

01:20:08,390 --> 01:20:05,600

does that they can tell me other than

2072

01:20:11,510 --> 01:20:08,400

nothing can disappear it is fast

2073

01:20:13,750 --> 01:20:11,520

so okay what do we do with this

2074

01:20:15,510 --> 01:20:13,760

so who could help me nobody was

2075

01:20:16,870 --> 01:20:15,520

available i i tried to look to some

2076

01:20:18,629 --> 01:20:16,880

other people who helped me nobody had

2077

01:20:19,510 --> 01:20:18,639

the time everybody avoided me you know

2078

01:20:21,750 --> 01:20:19,520

nobody

2079

01:20:22,709 --> 01:20:21,760

everybody delayed i took a couple

2080

01:20:26,229 --> 01:20:22,719

investigators

2081

01:20:27,830 --> 01:20:26,239

in phoenix no help so what do i do with

2082

01:20:28,470 --> 01:20:27,840

this i want to know where the hell this

2083

01:20:31,030 --> 01:20:28,480

thing went

2084

01:20:33,430 --> 01:20:31,040

what is it you know i heard that things

2085

01:20:36,470 --> 01:20:33,440

could be blown up or cleaned up and uh

2086

01:20:37,030 --> 01:20:36,480

let's see what this is so i decided i

2087

01:20:39,189 --> 01:20:37,040

found one

2088

01:20:40,870 --> 01:20:39,199

studio in phoenix with the video

2089

01:20:43,430 --> 01:20:40,880

equipment uh

2090

01:20:44,790 --> 01:20:43,440

they didn't do any kind of a ufo and

2091

01:20:46,470 --> 01:20:44,800

analysis per se

2092

01:20:48,470 --> 01:20:46,480

they could just enlarge and stop the

2093

01:20:48,950 --> 01:20:48,480

frames and i asked him can you stop the

2094

01:20:51,270 --> 01:20:48,960

frame

2095

01:20:53,270 --> 01:20:51,280

can you clean it up so yeah we could do

2096

01:20:55,510 --> 01:20:53,280

that so it cost me about three hundred

2097

01:20:57,830 --> 01:20:55,520

dollars you know for maybe an hour or so

2098

01:20:58,550 --> 01:20:57,840

visitation to the studio they stopped

2099

01:21:00,550 --> 01:20:58,560

the frame

2100

01:21:03,030 --> 01:21:00,560

i said please clean it up blow it up

2101
01:21:05,830 --> 01:21:03,040
make it big and see what it looks like

2102
01:21:07,350 --> 01:21:05,840
and it shows a saucer i think you have

2103
01:21:09,430 --> 01:21:07,360
the picture there

2104
01:21:11,830 --> 01:21:09,440
oh this is the uh the real bright

2105
01:21:15,910 --> 01:21:11,840
picture

2106
01:21:19,270 --> 01:21:15,920
raw image of it the one below it

2107
01:21:21,669 --> 01:21:19,280
a little cleaner it's the saucer it came

2108
01:21:23,030 --> 01:21:21,679
yeah i'm gonna have to look for that

2109
01:21:23,910 --> 01:21:23,040
because i don't remember seeing that

2110
01:21:26,390 --> 01:21:23,920
picture but

2111
01:21:27,350 --> 01:21:26,400
but continue on i'm gonna open my email

2112
01:21:31,030 --> 01:21:27,360
and take a look

2113
01:21:32,229 --> 01:21:31,040

but go ahead yeah yeah so it showed a

2114

01:21:35,590 --> 01:21:32,239

saucer

2115

01:21:37,830 --> 01:21:35,600

and uh we promoted the video to where it

2116

01:21:40,550 --> 01:21:37,840

disappeared there's nothing

2117

01:21:41,110 --> 01:21:40,560

it's just black frame and he said does

2118

01:21:43,990 --> 01:21:41,120

that

2119

01:21:44,950 --> 01:21:44,000

tell you you know it's just this you

2120

01:21:48,070 --> 01:21:44,960

know

2121

01:21:50,390 --> 01:21:48,080

what are you gonna do with it

2122

01:21:51,110 --> 01:21:50,400

well can you take this frame after it

2123

01:21:54,790 --> 01:21:51,120

disappeared and

2124

01:21:56,870 --> 01:21:54,800

blow that up clean it up

2125

01:21:57,830 --> 01:21:56,880

so he gave me that there's there was

2126
01:22:00,229 --> 01:21:57,840
nothing there

2127
01:22:00,870 --> 01:22:00,239
but he gave me the frame but at that

2128
01:22:02,149 --> 01:22:00,880
time

2129
01:22:04,070 --> 01:22:02,159
that they were put on these little

2130
01:22:07,350 --> 01:22:04,080
floppy disks in

2131
01:22:08,390 --> 01:22:07,360
2001 or so at that time there was a

2132
01:22:10,790 --> 01:22:08,400
level of technology

2133
01:22:12,070 --> 01:22:10,800
there was a lot of little floppy disks

2134
01:22:13,990 --> 01:22:12,080
some younger people may not even

2135
01:22:17,030 --> 01:22:14,000
remember it

2136
01:22:18,629 --> 01:22:17,040
oh yeah yeah yeah floppy disks yeah you

2137
01:22:22,310 --> 01:22:18,639
gave me a floppy disk or

2138
01:22:26,070 --> 01:22:22,320

a saucer and a

2139

01:22:26,709 --> 01:22:26,080

frame after it so i i decided to figure

2140

01:22:29,030 --> 01:22:26,719

out you know

2141

01:22:30,870 --> 01:22:29,040

to look into where could this go what

2142

01:22:33,669 --> 01:22:30,880

why did it disappear

2143

01:22:34,550 --> 01:22:33,679

so i had a good friend who was very kind

2144

01:22:38,070 --> 01:22:34,560

of uh

2145

01:22:40,390 --> 01:22:38,080

very crafty with computers he put the

2146

01:22:40,870 --> 01:22:40,400

floppy disk in and we started magnifying

2147

01:22:43,910 --> 01:22:40,880

it

2148

01:22:46,070 --> 01:22:43,920

the one that was improved magnify

2149

01:22:48,149 --> 01:22:46,080

magnify magnified maybe a number of

2150

01:22:49,750 --> 01:22:48,159

levels of magnification becomes a little

2151
01:22:56,709 --> 01:22:49,760
white spot

2152
01:22:58,950 --> 01:22:56,719
elongated like the sorcerer before

2153
01:23:01,270 --> 01:22:58,960
so that you can estimate speed of the

2154
01:23:02,950 --> 01:23:01,280
video frame is one thirtieth of a second

2155
01:23:05,430 --> 01:23:02,960
and it moves it to velocity with speed

2156
01:23:08,310 --> 01:23:05,440
of light light is light 180

2157
01:23:08,709 --> 01:23:08,320
000 miles an hour so this thing from

2158
01:23:13,669 --> 01:23:08,719
being

2159
01:23:17,110 --> 01:23:13,679
took off at the speed of maybe

2160
01:23:19,750 --> 01:23:17,120
close to 60 200 miles

2161
01:23:23,910 --> 01:23:19,760
six six 200 miles an hour 1 30 to a

2162
01:23:28,550 --> 01:23:26,550
and then later on you know i have this

2163
01:23:31,030 --> 01:23:28,560

i'm saying this thing in hypnosis seeing

2164

01:23:33,110 --> 01:23:31,040

it's in the sorcerer's hypnosis

2165

01:23:34,470 --> 01:23:33,120

and there are reports of people seeing

2166

01:23:36,870 --> 01:23:34,480

saucers

2167

01:23:38,070 --> 01:23:36,880

or similar objects before during and

2168

01:23:40,709 --> 01:23:38,080

after our

2169

01:23:42,870 --> 01:23:40,719

experiences in hawaii and sailing so we

2170

01:23:45,189 --> 01:23:42,880

we got some back up there too

2171

01:23:46,830 --> 01:23:45,199

other people seeing it i found some some

2172

01:23:49,830 --> 01:23:46,840

reports

2173

01:23:53,590 --> 01:23:49,840

on

2174

01:23:54,390 --> 01:23:53,600

davenport site new fork you can go back

2175

01:23:57,510 --> 01:23:54,400

into

2176

01:23:59,830 --> 01:23:57,520

shapes and whatnot

2177

01:24:01,830 --> 01:23:59,840

and find a and find what people

2178

01:24:03,430 --> 01:24:01,840

approximately have seen around that time

2179

01:24:04,550 --> 01:24:03,440

so they were seen in mexico they were

2180

01:24:08,229 --> 01:24:04,560

saying california

2181

01:24:11,910 --> 01:24:08,239

they were seeing hawaii and uh

2182

01:24:15,189 --> 01:24:11,920

uh you know interesting fascinating yeah

2183

01:24:16,950 --> 01:24:15,199

hey well we're yeah

2184

01:24:18,629 --> 01:24:16,960

but we're right about at the end of the

2185

01:24:21,510 --> 01:24:18,639

show here is there anything you want to

2186

01:24:23,110 --> 01:24:21,520

wrap the story up with

2187

01:24:25,430 --> 01:24:23,120

well uh what i would like to say we

2188

01:24:27,830 --> 01:24:25,440

didn't have time to get into this and i

2189

01:24:29,350 --> 01:24:27,840

i plan to write a book about this later

2190

01:24:30,550 --> 01:24:29,360

i'm already compiling a lot of

2191

01:24:34,149 --> 01:24:30,560

information

2192

01:24:36,470 --> 01:24:34,159

uh his dream turned out to be a very

2193

01:24:37,750 --> 01:24:36,480

sophisticated type of a message from

2194

01:24:41,110 --> 01:24:37,760

beyond

2195

01:24:43,750 --> 01:24:41,120

some other kind of intelligence that was

2196

01:24:46,709 --> 01:24:43,760

activated for me finding this book about

2197

01:24:50,310 --> 01:24:46,719

the pueblo shields

2198

01:24:52,790 --> 01:24:50,320

in in which diagram that i saw

2199

01:24:53,669 --> 01:24:52,800

was very similar to what he drew and

2200

01:24:55,910 --> 01:24:53,679

that opened it

2201
01:24:57,669 --> 01:24:55,920
opened a whole new distance for me and

2202
01:24:58,310 --> 01:24:57,679
this is what i'm working on right now

2203
01:25:00,790 --> 01:24:58,320
and getting

2204
01:25:01,910 --> 01:25:00,800
deeper into the origins of the phenomena

2205
01:25:05,270 --> 01:25:01,920
itself

2206
01:25:05,830 --> 01:25:05,280
okay i'm popping up the two two images

2207
01:25:11,030 --> 01:25:05,840
one

2208
01:25:13,189 --> 01:25:11,040
another shield i know you can't see any

2209
01:25:15,270 --> 01:25:13,199
of the images but uh

2210
01:25:16,870 --> 01:25:15,280
but anyway i'm popping up the images you

2211
01:25:18,310 --> 01:25:16,880
sent me about the shield

2212
01:25:20,229 --> 01:25:18,320
so they're up on the screen now the

2213
01:25:23,750 --> 01:25:20,239

different the pueblo ones

2214

01:25:25,430 --> 01:25:23,760

uh as i'm showing right now and uh yeah

2215

01:25:26,149 --> 01:25:25,440

there are some similarities without a

2216

01:25:29,030 --> 01:25:26,159

doubt

2217

01:25:30,709 --> 01:25:29,040

yeah yeah but the problem is you know

2218

01:25:31,669 --> 01:25:30,719

usually on this show by the time i tell

2219

01:25:33,830 --> 01:25:31,679

the specific

2220

01:25:35,270 --> 01:25:33,840

actual sighting stories but the time is

2221

01:25:37,590 --> 01:25:35,280

over you know so so this is going to

2222

01:25:40,149 --> 01:25:37,600

have to be a subject for a new book

2223

01:25:41,270 --> 01:25:40,159

but already lots lots of intros about

2224

01:25:43,350 --> 01:25:41,280

the phenomena

2225

01:25:44,550 --> 01:25:43,360

and i personally do not think it's

2226

01:25:46,709 --> 01:25:44,560

extraterrestrial

2227

01:25:47,590 --> 01:25:46,719

it just doesn't jive with anything with

2228

01:25:50,870 --> 01:25:47,600

actual

2229

01:25:53,590 --> 01:25:50,880

it is something parapsychical that can be

2230

01:25:53,990 --> 01:25:53,600

physical and seen and recorded by many

2231

01:25:56,390 --> 01:25:54,000

people

2232

01:25:57,030 --> 01:25:56,400

at the same time there's other part to

2233

01:26:00,790 --> 01:25:57,040

it

2234

01:26:02,870 --> 01:26:00,800

some kind of a

2235

01:26:04,310 --> 01:26:02,880

no time environment and they can

2236

01:26:07,669 --> 01:26:04,320

actually almost like

2237

01:26:09,590 --> 01:26:07,679

putting a suit on putting a shirt on

2238

01:26:11,990 --> 01:26:09,600

climb into this technology and come out

2239

01:26:13,590 --> 01:26:12,000

come to this side of existence

2240

01:26:15,430 --> 01:26:13,600

and present themselves for a while and

2241

01:26:18,709 --> 01:26:15,440

they go back where they're from

2242

01:26:20,470 --> 01:26:18,719

there's a guy named that runs a radio

2243

01:26:21,590 --> 01:26:20,480

show you may want to contact him at some

2244

01:26:24,950 --> 01:26:21,600

point

2245

01:26:27,110 --> 01:26:24,960

his name is paul eno and he's in

2246

01:26:28,310 --> 01:26:27,120

the rhode island area the massachusetts

2247

01:26:31,270 --> 01:26:28,320

rhode island area

2248

01:26:31,830 --> 01:26:31,280

he does a show every sunday um yeah paul

2249

01:26:34,310 --> 01:26:31,840

you know

2250

01:26:36,070 --> 01:26:34,320

he kind of has the same theory along

2251
01:26:39,590 --> 01:26:36,080
with what you're saying here right now

2252
01:26:42,629 --> 01:26:39,600
uh he he he uh he thinks that um

2253
01:26:45,590 --> 01:26:42,639
there a lot of things are related but

2254
01:26:47,430 --> 01:26:45,600
almost like a uh another dimension or

2255
01:26:49,990 --> 01:26:47,440
something like that going on

2256
01:26:50,790 --> 01:26:50,000
but uh but anyway i i thank you so much

2257
01:26:52,390 --> 01:26:50,800
for uh

2258
01:26:54,709 --> 01:26:52,400
for your patience i'm really glad we

2259
01:26:55,270 --> 01:26:54,719
worked out the uh the bugs earlier we

2260
01:26:56,470 --> 01:26:55,280
got you

2261
01:26:58,709 --> 01:26:56,480
on the show i didn't think that was

2262
01:27:01,750 --> 01:26:58,719
going to happen for a while

2263
01:27:02,790 --> 01:27:01,760

but thank you so much thank you very

2264

01:27:05,030 --> 01:27:02,800
