#441

1
00:01:02,389 --> 00:00:25,220

[Music]

2
00:01:05,750 --> 00:01:04,070

isn't that just beautiful

3
00:01:07,270 --> 00:01:05,760

hello everyone welcome to the show i'm

4
00:01:09,109 --> 00:01:07,280

martin willis your host

5
00:01:10,870 --> 00:01:09,119

and we have an interesting guest he's

6
00:01:11,910 --> 00:01:10,880

got an amazing background his name is

7
00:01:14,789 --> 00:01:11,920

larry hancock he

8
00:01:16,390 --> 00:01:14,799

is joining us for the show this evening

9
00:01:18,149 --> 00:01:16,400

and we're going to get into his

10
00:01:18,789 --> 00:01:18,159

background his book that he wrote came

11
00:01:21,910 --> 00:01:18,799

out back

12
00:01:24,070 --> 00:01:21,920

in 2017 is called unidentified and

13
00:01:25,990 --> 00:01:24,080

that's before the series came out

14

00:01:28,469 --> 00:01:26,000

they took it from him unidentified the

15

00:01:31,830 --> 00:01:28,479

national intelligence view

16

00:01:32,630 --> 00:01:31,840

problem of ufos i love the way that's uh

17

00:01:34,390 --> 00:01:32,640

termed

18

00:01:36,550 --> 00:01:34,400

the ufo problem when you hear them

19

00:01:37,350 --> 00:01:36,560

talking that way all the way back into

20

00:01:43,990 --> 00:01:37,360

the

21

00:01:45,590 --> 00:01:44,000

um it's an interesting problem i don't

22

00:01:46,630 --> 00:01:45,600

know if we'll ever solve it but it

23

00:01:48,469 --> 00:01:46,640

should be uh

24

00:01:50,870 --> 00:01:48,479

something we're looking into and that's

25

00:01:53,510 --> 00:01:50,880

why i really love doing this show

26
00:01:54,069 --> 00:01:53,520
last week i made a mistake and uh that

27
00:01:56,389 --> 00:01:54,079
was i

28
00:01:57,749 --> 00:01:56,399
said uh the wrong blog the blog that

29
00:01:59,109 --> 00:01:57,759
came out last week and it's still up

30
00:02:01,510 --> 00:01:59,119
there for you to read

31
00:02:02,550 --> 00:02:01,520
is called ufo occupants of the 21st

32
00:02:06,069 --> 00:02:02,560
century

33
00:02:08,309 --> 00:02:06,079
and uh that's really interesting about

34
00:02:09,510 --> 00:02:08,319
how you know what people have reported

35
00:02:11,589 --> 00:02:09,520
that they're seeing you know the

36
00:02:14,710 --> 00:02:11,599
different forms and things like that

37
00:02:17,510 --> 00:02:14,720
over the years so uh actually of this

38
00:02:19,910 --> 00:02:17,520

uh century actually um so check that out

39

00:02:22,390 --> 00:02:19,920

that's over at podcastufo.com

40

00:02:23,910 --> 00:02:22,400

where all our blogs are i am reposting a

41

00:02:27,190 --> 00:02:23,920

blog that uh

42

00:02:30,150 --> 00:02:27,200

michael lauc wrote back in 2016.

43

00:02:30,790 --> 00:02:30,160

kind of has a kind of an extra meaning

44

00:02:32,710 --> 00:02:30,800

this week

45

00:02:34,470 --> 00:02:32,720

uh because of our guest next week i'll

46

00:02:38,550 --> 00:02:34,480

talk about that in a second but it's

47

00:02:41,030 --> 00:02:38,560

a repost of the 1973 pascagoula incident

48

00:02:41,990 --> 00:02:41,040

again by michael luck he wrote that and

49

00:02:45,030 --> 00:02:42,000

uh that

50

00:02:48,309 --> 00:02:45,040

is the blog that actually kind of

51
00:02:51,910 --> 00:02:48,319
had calvin parker come out of well

52
00:02:53,750 --> 00:02:51,920
he had not been on any interviews at all

53
00:02:55,509 --> 00:02:53,760
for something like 30 years and he

54
00:02:57,670 --> 00:02:55,519
reached out to me

55
00:02:58,949 --> 00:02:57,680
and uh i kept trying to verify make sure

56
00:03:01,509 --> 00:02:58,959
it was really him

57
00:03:02,949 --> 00:03:01,519
and uh he first time he actually showed

58
00:03:04,869 --> 00:03:02,959
up on a

59
00:03:07,110 --> 00:03:04,879
on any type of show and something like

60
00:03:08,790 --> 00:03:07,120
30 years was on our podcast

61
00:03:11,670 --> 00:03:08,800
i i do think it was the same year back

62
00:03:14,790 --> 00:03:11,680
in 2013 we've been in touch ever since

63
00:03:15,830 --> 00:03:14,800

i got to meet him and his wife wayne out

64

00:03:22,869 --> 00:03:15,840

in

65

00:03:26,229 --> 00:03:22,879

conversation he's actually very

66

00:03:28,949 --> 00:03:26,239

uh intelligent and very kind man and

67

00:03:30,710 --> 00:03:28,959

so he'll be joining us next week and but

68

00:03:34,149 --> 00:03:30,720

before he does

69

00:03:37,270 --> 00:03:34,159

he was recently in a discovery

70

00:03:40,070 --> 00:03:37,280

plus series called uh

71

00:03:41,670 --> 00:03:40,080

ufo witnesses it or something like that

72

00:03:42,309 --> 00:03:41,680

oh boy i don't have my notes in front of

73

00:03:45,030 --> 00:03:42,319

me

74

00:03:45,589 --> 00:03:45,040

but um we're going to have ben hansen on

75

00:03:49,030 --> 00:03:45,599

first

76

00:03:51,030 --> 00:03:49,040

who's actually the lead in that show

77

00:03:52,869 --> 00:03:51,040

he'll be on first for the hour and then

78

00:03:55,830 --> 00:03:52,879

calvin's going to join us

79

00:03:56,710 --> 00:03:55,840

and come right through to the whole end

80

00:03:58,309 --> 00:03:56,720

of the show so

81

00:03:59,990 --> 00:03:58,319

ben's going to be on for the first hour

82

00:04:02,070 --> 00:04:00,000

calvin is going to join

83

00:04:05,110 --> 00:04:02,080

us and beyond for the remainder of the

84

00:04:07,030 --> 00:04:05,120

show it's always fun uh talking to him

85

00:04:08,470 --> 00:04:07,040

and you know there's a lot of times

86

00:04:10,710 --> 00:04:08,480

people will say

87

00:04:12,710 --> 00:04:10,720

along the lines of you know these old

88

00:04:13,990 --> 00:04:12,720

cases why do you keep rehashing these

89

00:04:16,870 --> 00:04:14,000

old cases

90

00:04:18,229 --> 00:04:16,880

well his case has gotten so much

91

00:04:19,749 --> 00:04:18,239

publicity

92

00:04:22,870 --> 00:04:19,759

started out with this book and now

93

00:04:25,510 --> 00:04:22,880

there's a movie that's going to be made

94

00:04:27,110 --> 00:04:25,520

he's been on several feature television

95

00:04:29,430 --> 00:04:27,120

programs

96

00:04:31,110 --> 00:04:29,440

over the last several years and some

97

00:04:33,430 --> 00:04:31,120

verified witnesses have come

98

00:04:34,710 --> 00:04:33,440

have come forward that actually saw the

99

00:04:37,270 --> 00:04:34,720

craft across

100

00:04:39,430 --> 00:04:37,280

the river that night the pascagoula

101
00:04:41,350 --> 00:04:39,440
river so we're going to be talking about

102
00:04:43,270 --> 00:04:41,360
that and much more next week so stay

103
00:04:44,550 --> 00:04:43,280
tuned and this week

104
00:04:46,310 --> 00:04:44,560
our guest i'm going to bring him in

105
00:04:48,950 --> 00:04:46,320
right now

106
00:04:50,710 --> 00:04:48,960
welcome to the show larry hello martin

107
00:04:53,430 --> 00:04:50,720
it's good to be here

108
00:04:54,710 --> 00:04:53,440
yeah larry i always do this with uh with

109
00:04:57,749 --> 00:04:54,720
people that are new

110
00:04:59,670 --> 00:04:57,759
and uh new to my show i know you've been

111
00:05:02,629 --> 00:04:59,680
around you've been looking at this

112
00:05:04,070 --> 00:05:02,639
topic for a long time you have a really

113
00:05:06,790 --> 00:05:04,080

an intriguing background

114

00:05:08,150 --> 00:05:06,800

anthropology cultural anthropology i

115

00:05:11,189 --> 00:05:08,160

think is very fitting

116

00:05:13,909 --> 00:05:11,199

when it comes to this uh to this topic

117

00:05:16,070 --> 00:05:13,919

and uh now there's different studies of

118

00:05:18,710 --> 00:05:16,080

anthropology but cultural is

119

00:05:20,629 --> 00:05:18,720

is it along the lines of like sociology

120

00:05:22,230 --> 00:05:20,639

and things like that as well

121

00:05:24,150 --> 00:05:22,240

yes that's that's what it would be

122

00:05:25,029 --> 00:05:24,160

closest to in in terms of the other

123

00:05:28,310 --> 00:05:25,039

sciences it

124

00:05:31,749 --> 00:05:28,320

it focuses on the social

125

00:05:35,350 --> 00:05:31,759

impact cultural impact of of activities

126

00:05:36,070 --> 00:05:35,360

so it's but cultural anthropology has a

127

00:05:38,070 --> 00:05:36,080

much

128

00:05:40,870 --> 00:05:38,080

longer perspective generally than

129

00:05:43,909 --> 00:05:40,880

sociology does goes back much further

130

00:05:45,909 --> 00:05:43,919

yeah and uh are we basically

131

00:05:46,950 --> 00:05:45,919

i know this is a show about ufos but we

132

00:05:48,310 --> 00:05:46,960

basically

133

00:05:50,870 --> 00:05:48,320

sometimes i feel like we're slipping

134

00:05:54,150 --> 00:05:50,880

backwards and becoming more primitive

135

00:05:55,189 --> 00:05:54,160

as we move along here uh are we growing

136

00:05:56,950 --> 00:05:55,199

culturally do you

137

00:05:58,629 --> 00:05:56,960

do you think and you know i know we have

138

00:06:01,189 --> 00:05:58,639

more technology

139

00:06:02,469 --> 00:06:01,199

but uh we still seem to be very tribal

140

00:06:04,230 --> 00:06:02,479

and and

141

00:06:06,309 --> 00:06:04,240

you know i mean do you see any any

142

00:06:09,430 --> 00:06:06,319

movement forward in the human race and

143

00:06:09,830 --> 00:06:09,440

socially i would have to say recently it

144

00:06:11,830 --> 00:06:09,840

does

145

00:06:13,590 --> 00:06:11,840

look like backward rather than forward

146

00:06:15,510 --> 00:06:13,600

one one of the measures

147

00:06:17,590 --> 00:06:15,520

as far as cultural anthropology is

148

00:06:20,950 --> 00:06:17,600

concerned is

149

00:06:23,189 --> 00:06:20,960

overall objectivity uh

150

00:06:23,990 --> 00:06:23,199

interacting with the environment in a

151
00:06:27,430 --> 00:06:24,000
very

152
00:06:30,230 --> 00:06:27,440
objective positive manner not

153
00:06:30,790 --> 00:06:30,240
not diluting yourself with a lot of myth

154
00:06:34,390 --> 00:06:30,800
and

155
00:06:35,029 --> 00:06:34,400
uh you know we seem to be moving away

156
00:06:38,029 --> 00:06:35,039
from that

157
00:06:39,590 --> 00:06:38,039
the the anti-science the move towards

158
00:06:42,550 --> 00:06:39,600
anti-science

159
00:06:43,430 --> 00:06:42,560
the move not into fact checking is

160
00:06:46,870 --> 00:06:43,440
certainly

161
00:06:49,909 --> 00:06:46,880
a move back for most of western culture

162
00:06:52,309 --> 00:06:49,919
let's put it that way it's it's a break

163
00:06:55,749 --> 00:06:52,319

with the direction we were going

164

00:06:58,150 --> 00:06:55,759

yeah well i still think that we can

165

00:06:59,430 --> 00:06:58,160

in in a lot of ways there are segments

166

00:07:00,469 --> 00:06:59,440

of the population that are certainly

167

00:07:04,230 --> 00:07:00,479

moving forward and

168

00:07:06,950 --> 00:07:04,240

and and this topic is one that

169

00:07:08,550 --> 00:07:06,960

you know science has not taken seriously

170

00:07:11,510 --> 00:07:08,560

as you know forever

171

00:07:11,990 --> 00:07:11,520

and you're involved with the scu and uh

172

00:07:14,150 --> 00:07:12,000

that's

173

00:07:16,550 --> 00:07:14,160

you know a scientific look at this topic

174

00:07:18,870 --> 00:07:16,560

and but before we get into any of that

175

00:07:20,309 --> 00:07:18,880

and your book and all that um can you

176

00:07:22,070 --> 00:07:20,319

give a little background and your

177

00:07:24,230 --> 00:07:22,080

history and what actually

178

00:07:25,749 --> 00:07:24,240

got you interested in the ufo topic to

179

00:07:27,510 --> 00:07:25,759

begin with

180

00:07:29,350 --> 00:07:27,520

i as i mentioned before right we

181

00:07:31,110 --> 00:07:29,360

actually started the show one of the

182

00:07:33,029 --> 00:07:31,120

one of the things that goes into my

183

00:07:35,990 --> 00:07:33,039

background is the fact that i'm

184

00:07:37,589 --> 00:07:36,000

i first became involved and interested

185

00:07:41,110 --> 00:07:37,599

in ufos

186

00:07:44,070 --> 00:07:41,120

in the period 1964 1965

187

00:07:46,629 --> 00:07:44,080

when i was still in high school that was

188

00:07:49,270 --> 00:07:46,639

a very active period for ufos a lot of

189

00:07:52,230 --> 00:07:49,280

news coverage a lot of media coverage

190

00:07:53,830 --> 00:07:52,240

uh there were local incidents that you

191

00:07:54,469 --> 00:07:53,840

know you could follow in the press and

192

00:07:57,990 --> 00:07:54,479

that's

193

00:08:03,430 --> 00:07:58,000

as

194

00:08:06,070 --> 00:08:03,440

time i became involved with both apro

195

00:08:07,990 --> 00:08:06,080

and was a field investigator did a

196

00:08:11,110 --> 00:08:08,000

couple of at least small reports for

197

00:08:14,309 --> 00:08:11,120

apro and joined nycap as well

198

00:08:17,270 --> 00:08:14,319

and then moved away from it

199

00:08:17,749 --> 00:08:17,280

uh for a large part of my career which

200

00:08:19,909 --> 00:08:17,759

was

201
00:08:21,029 --> 00:08:19,919
an interesting mix of technology and

202
00:08:24,830 --> 00:08:21,039
marketing

203
00:08:28,070 --> 00:08:24,840
and then once i retired got back

204
00:08:29,670 --> 00:08:28,080
into history national security and

205
00:08:33,430 --> 00:08:29,680
decided to revisit

206
00:08:36,149 --> 00:08:33,440
the subject but um a very long history

207
00:08:37,990 --> 00:08:36,159
in following the subject of ufos

208
00:08:40,389 --> 00:08:38,000
uh the bookshelves behind me are

209
00:08:44,310 --> 00:08:40,399
primarily literature

210
00:08:47,750 --> 00:08:44,320
of various sorts on the ufo phenomena

211
00:08:51,269 --> 00:08:47,760
have read almost everything over a

212
00:08:53,829 --> 00:08:51,279
40-50 year period on ufos

213
00:08:55,990 --> 00:08:53,839

pretty deep background there yeah and

214

00:08:58,150 --> 00:08:56,000

now i get to ask this question

215

00:08:59,190 --> 00:08:58,160

quite often and i'm asking you off the

216

00:09:01,829 --> 00:08:59,200

cuff here

217

00:09:02,710 --> 00:09:01,839

um is there a particular book that you

218

00:09:05,350 --> 00:09:02,720

consider

219

00:09:07,990 --> 00:09:05,360

uh someone newly looking into this topic

220

00:09:10,310 --> 00:09:08,000

that would be a really go-to book

221

00:09:11,350 --> 00:09:10,320

i i there are a couple of books and

222

00:09:14,470 --> 00:09:11,360

interestingly

223

00:09:17,269 --> 00:09:14,480

um a couple of older books

224

00:09:18,710 --> 00:09:17,279

that i i i was kind of anticipating you

225

00:09:23,990 --> 00:09:18,720

might ask that

226

00:09:29,030 --> 00:09:24,000

um wow blind saucers

227

00:09:37,269 --> 00:09:32,150

who's the author uh

228

00:09:41,110 --> 00:09:37,279

amy michelle oh okay uh

229

00:09:45,190 --> 00:09:41,120

yes and it is a focus primarily on the

230

00:09:49,269 --> 00:09:45,200

the wave of ufo incidents across

231

00:09:52,470 --> 00:09:49,279

france in the 1954 and 1955 period

232

00:09:53,590 --> 00:09:52,480

yeah he does and and what is most

233

00:09:56,630 --> 00:09:53,600

interesting to me

234

00:09:57,990 --> 00:09:56,640

is he was one of the first to really try

235

00:10:00,550 --> 00:09:58,000

to do something

236

00:10:01,350 --> 00:10:00,560

that i refer to as pattern analysis he

237

00:10:03,990 --> 00:10:01,360

actually

238

00:10:05,990 --> 00:10:04,000

the book title refers to the the

239

00:10:09,110 --> 00:10:06,000

straight line mystery

240

00:10:09,910 --> 00:10:09,120

and he was exploring whether or not a

241

00:10:13,110 --> 00:10:09,920

particular

242

00:10:13,990 --> 00:10:13,120

different series of incidents on certain

243

00:10:17,350 --> 00:10:14,000

dates

244

00:10:20,310 --> 00:10:17,360

would reflect a path of a given

245

00:10:21,910 --> 00:10:20,320

ufo and whether you could track it

246

00:10:23,910 --> 00:10:21,920

whether you could plot it whether you

247

00:10:24,870 --> 00:10:23,920

could identify characteristics that you

248

00:10:27,910 --> 00:10:24,880

could match

249

00:10:29,990 --> 00:10:27,920

so it was a very scientific approach and

250

00:10:32,630 --> 00:10:30,000

it included both

251

00:10:33,990 --> 00:10:32,640

uh interestingly enough both aerial

252

00:10:37,110 --> 00:10:34,000

observations

253

00:10:40,710 --> 00:10:37,120

and landings and some encounters

254

00:10:42,949 --> 00:10:40,720

and it's it's one of the finest pieces

255

00:10:44,069 --> 00:10:42,959

of work on that on a whole body of

256

00:10:47,030 --> 00:10:44,079

incidents

257

00:10:48,630 --> 00:10:47,040

that just generally doesn't get a lot of

258

00:10:51,750 --> 00:10:48,640

discussion these days

259

00:10:53,750 --> 00:10:51,760

um another book

260

00:10:55,350 --> 00:10:53,760

that i would consider similar to that

261

00:10:58,310 --> 00:10:55,360

that doesn't get

262

00:10:59,990 --> 00:10:58,320

discussed nearly enough is night siege

263

00:11:03,190 --> 00:11:00,000

the hudson valley ufo

264

00:11:04,949 --> 00:11:03,200

sightings oh okay yes and

265

00:11:06,630 --> 00:11:04,959

the reason i bring that up is that's

266

00:11:09,590 --> 00:11:06,640

much more contemporary

267

00:11:11,750 --> 00:11:09,600

but it's also very detailed over a

268

00:11:15,750 --> 00:11:11,760

period of several years

269

00:11:17,990 --> 00:11:15,760

and again my interest is not in

270

00:11:19,990 --> 00:11:18,000

individual incidents per se it's whether

271

00:11:22,630 --> 00:11:20,000

or not you can develop a pattern of

272

00:11:26,069 --> 00:11:22,640

what's emerging in these activities

273

00:11:30,389 --> 00:11:26,079

and so it's interesting to jump from

274

00:11:32,389 --> 00:11:30,399

that 1954 the book was written in 1958

275

00:11:35,590 --> 00:11:32,399

to this that was written

276

00:11:38,069 --> 00:11:35,600

just a decade or so ago uh and

277

00:11:41,190 --> 00:11:38,079

look at two people that were looking for

278

00:11:43,269 --> 00:11:41,200

patterns in ufo incidents

279

00:11:44,310 --> 00:11:43,279

so those would be a couple that strike

280

00:11:47,190 --> 00:11:44,320

me yeah

281

00:11:50,550 --> 00:11:47,200

and who's the author of the last one oh

282

00:11:56,790 --> 00:11:54,230

um philip imbrago

283

00:11:58,949 --> 00:11:56,800

okay with bob pratt and it was

284

00:12:02,389 --> 00:11:58,959

introduced by dr heineck

285

00:12:05,430 --> 00:12:02,399

ah wow now did you ever

286

00:12:08,470 --> 00:12:05,440

meet dr heineck by chance

287

00:12:10,230 --> 00:12:08,480

i passed by dr heineck one time in the

288

00:12:12,150 --> 00:12:10,240

hallway in chicago

289

00:12:13,829 --> 00:12:12,160

but i did not introduce myself he

290

00:12:16,470 --> 00:12:13,839

appeared to be busy and

291

00:12:18,069 --> 00:12:16,480

i'm i'm kind of bashful that way so i

292

00:12:21,829 --> 00:12:18,079

know i never really

293

00:12:23,670 --> 00:12:21,839

met him well i've met two of his sons

294

00:12:25,910 --> 00:12:23,680

actually i'm sorry just one of his sons

295

00:12:26,550 --> 00:12:25,920

up i did a podcast with two of his sons

296

00:12:30,150 --> 00:12:26,560

but

297

00:12:31,670 --> 00:12:30,160

uh paul uh paul heineck is such a riot

298

00:12:35,110 --> 00:12:31,680

he's so much fun

299

00:12:37,110 --> 00:12:35,120

and uh real nice guy um so i read all of

300

00:12:39,670 --> 00:12:37,120

heinek's work and i think

301
00:12:41,829 --> 00:12:39,680
if you sweep aside everything else the

302
00:12:42,470 --> 00:12:41,839
one remark that i absolutely love from

303
00:12:45,030 --> 00:12:42,480
inec

304
00:12:46,949 --> 00:12:45,040
basically to paraphrase is one of the

305
00:12:50,829 --> 00:12:46,959
reasons we can't

306
00:12:53,670 --> 00:12:50,839
really deal with ufos that in any single

307
00:12:54,310 --> 00:12:53,680
incident the scientific community can

308
00:12:56,949 --> 00:12:54,320
come up

309
00:12:57,910 --> 00:12:56,959
with a reason why it would not be

310
00:13:00,150 --> 00:12:57,920
anomalous

311
00:13:02,470 --> 00:13:00,160
you know you just there's nothing you

312
00:13:03,829 --> 00:13:02,480
could do aside from part one and

313
00:13:05,509 --> 00:13:03,839

you know in front of them where they

314

00:13:07,910 --> 00:13:05,519

couldn't come up with an alternative

315

00:13:10,470 --> 00:13:07,920

explanation and heineck said that after

316

00:13:12,310 --> 00:13:10,480

of course after years and years of

317

00:13:14,629 --> 00:13:12,320

investigations themselves and i think

318

00:13:19,030 --> 00:13:14,639

you really will grasp the problem

319

00:13:22,389 --> 00:13:19,040

yeah yeah i remember one of the i've had

320

00:13:24,150 --> 00:13:22,399

dr seth shawstak on three times i think

321

00:13:25,829 --> 00:13:24,160

and the first time i remember i had him

322

00:13:28,949 --> 00:13:25,839

on i said how much

323

00:13:31,910 --> 00:13:28,959

evidence would you need to

324

00:13:33,430 --> 00:13:31,920

um agree that we're being visited from

325

00:13:33,990 --> 00:13:33,440

somewhere else you know what what type

326

00:13:36,949 --> 00:13:34,000

of evidence

327

00:13:37,350 --> 00:13:36,959

would you need and he he replied to me

328

00:13:40,230 --> 00:13:37,360

that

329

00:13:41,269 --> 00:13:40,240

he would need a wing of the smithsonian

330

00:13:43,430 --> 00:13:41,279

full of it

331

00:13:44,310 --> 00:13:43,440

that's what he said so i mean you're

332

00:13:46,870 --> 00:13:44,320

right i mean

333

00:13:48,389 --> 00:13:46,880

even if you know the proverbial landing

334

00:13:50,629 --> 00:13:48,399

on the white house lawn

335

00:13:52,150 --> 00:13:50,639

happened how many people would still you

336

00:13:53,590 --> 00:13:52,160

know question it not that why would they

337

00:13:57,269 --> 00:13:53,600

ever land there anyway but

338

00:13:59,030 --> 00:13:57,279

still if it was told by our

339

00:14:01,829 --> 00:13:59,040

government that yes

340

00:14:04,870 --> 00:14:01,839

um you know through nasa or something we

341

00:14:06,550 --> 00:14:04,880

found intelligent life you know perhaps

342

00:14:08,470 --> 00:14:06,560

people would be engaged that way but i

343

00:14:09,110 --> 00:14:08,480

mean just a random landing or something

344

00:14:11,269 --> 00:14:09,120

like that it's

345

00:14:12,710 --> 00:14:11,279

i don't know who knows there's always

346

00:14:14,870 --> 00:14:12,720

going to be this segment of

347

00:14:17,269 --> 00:14:14,880

the flat earthers you know whatever

348

00:14:20,310 --> 00:14:17,279

happens

349

00:14:23,110 --> 00:14:20,320

well and that's one of the reasons just

350

00:14:25,590 --> 00:14:23,120

why i moved off in a different direction

351

00:14:27,430 --> 00:14:25,600

in my own work to kind of say is

352

00:14:29,350 --> 00:14:27,440

is there a way that you can deal with

353

00:14:32,550 --> 00:14:29,360

this kind of a problem

354

00:14:35,590 --> 00:14:32,560

where you know you're never going to get

355

00:14:37,509 --> 00:14:35,600

enough evidence to

356

00:14:39,670 --> 00:14:37,519

you know convince everybody and draw a

357

00:14:40,389 --> 00:14:39,680

conclusion unless you have what you just

358

00:14:43,269 --> 00:14:40,399

said

359

00:14:44,150 --> 00:14:43,279

and that's what led me into something

360

00:14:48,629 --> 00:14:44,160

that's

361

00:14:51,430 --> 00:14:48,639

community called indications research

362

00:14:52,629 --> 00:14:51,440

which is quite interesting i got into

363

00:14:56,069 --> 00:14:52,639

it when i was doing

364

00:14:57,590 --> 00:14:56,079

a book titled surprise attack which

365

00:14:59,350 --> 00:14:57,600

deals with how the intelligence

366

00:15:02,310 --> 00:14:59,360

community forecast

367

00:15:04,230 --> 00:15:02,320

things like that and indications

368

00:15:06,150 --> 00:15:04,240

analysis is an interesting technique

369

00:15:08,550 --> 00:15:06,160

because the assumption is

370

00:15:10,389 --> 00:15:08,560

if you're talking about an adversary

371

00:15:13,670 --> 00:15:10,399

you're never going to have

372

00:15:16,230 --> 00:15:13,680

all the information you want before

373

00:15:18,949 --> 00:15:16,240

they do what you don't want so how do

374

00:15:22,949 --> 00:15:18,959

you treat it and there's actually a

375

00:15:24,629 --> 00:15:22,959

a body of a methodology that says how

376

00:15:26,629 --> 00:15:24,639

how can you deal with something where

377

00:15:28,870 --> 00:15:26,639

you can at least make an estimate of the

378

00:15:30,870 --> 00:15:28,880

situation

379

00:15:32,230 --> 00:15:30,880

if you can't have absolute proof how can

380

00:15:35,110 --> 00:15:32,240

you at least estimate

381

00:15:37,350 --> 00:15:35,120

what's what might happen and that's kind

382

00:15:39,749 --> 00:15:37,360

of the direction i've taken because i

383

00:15:41,670 --> 00:15:39,759

you know the air force was never going

384

00:15:43,590 --> 00:15:41,680

to find a single incident that would

385

00:15:45,430 --> 00:15:43,600

convince them

386

00:15:47,990 --> 00:15:45,440

we're probably never going to do that

387

00:15:51,110 --> 00:15:48,000

unless we have physical evidence

388

00:15:53,749 --> 00:15:51,120

so that was my decision to wrestle with

389

00:15:57,030 --> 00:15:53,759

the problem a different way

390

00:15:58,790 --> 00:15:57,040

so if i'm if i'm re remembering it right

391

00:16:01,110 --> 00:15:58,800

is it the twining member

392

00:16:02,949 --> 00:16:01,120

memo the twining memo where the they

393

00:16:06,230 --> 00:16:02,959

call it the estimate of the situation

394

00:16:09,269 --> 00:16:06,240

is that is that the one yeah yes

395

00:16:12,629 --> 00:16:09,279

and that is yeah go ahead that's

396

00:16:15,749 --> 00:16:12,639

standard intelligence community

397

00:16:18,470 --> 00:16:15,759

uh practice and usage and i mean

398

00:16:19,189 --> 00:16:18,480

normally the first thing the first thing

399

00:16:21,189 --> 00:16:19,199

when you do

400

00:16:22,790 --> 00:16:21,199

when you engage a new subject that

401
00:16:26,150 --> 00:16:22,800
you've been tasked with

402
00:16:27,350 --> 00:16:26,160
is to do a collections memo which tells

403
00:16:30,150 --> 00:16:27,360
everybody

404
00:16:30,790 --> 00:16:30,160
where to look what to look for go out

405
00:16:34,470 --> 00:16:30,800
and start

406
00:16:36,710 --> 00:16:34,480
collecting information and then in 1947

407
00:16:38,629 --> 00:16:36,720
that's exactly what air intelligence did

408
00:16:41,030 --> 00:16:38,639
they issued a collections memo

409
00:16:41,749 --> 00:16:41,040
and actually came up with a very solid

410
00:16:44,870 --> 00:16:41,759
profile

411
00:16:46,710 --> 00:16:44,880
by the end of 1947 they knew

412
00:16:48,069 --> 00:16:46,720
and put in writing exactly what they

413
00:16:51,189 --> 00:16:48,079

were looking for

414

00:16:53,509 --> 00:16:51,199

and then the result of that was supposed

415

00:16:55,590 --> 00:16:53,519

to be an estimate of the situation

416

00:16:57,990 --> 00:16:55,600

and actually the first estimate of the

417

00:17:01,189 --> 00:16:58,000

situation that the air force made

418

00:17:03,829 --> 00:17:01,199

was that these objects were real uh they

419

00:17:06,630 --> 00:17:03,839

could actually profile them in terms of

420

00:17:09,829 --> 00:17:06,640

flight characteristics and physical

421

00:17:12,230 --> 00:17:09,839

definition and that they assumed

422

00:17:12,870 --> 00:17:12,240

the estimated situation were it was a

423

00:17:16,870 --> 00:17:12,880

real

424

00:17:18,949 --> 00:17:16,880

were something that had to be taken

425

00:17:21,429 --> 00:17:18,959

seriously

426

00:17:23,510 --> 00:17:21,439

and you know that was so long ago 19

427

00:17:24,309 --> 00:17:23,520

wasn't that late 1947 when that was

428

00:17:25,909 --> 00:17:24,319

written

429

00:17:29,190 --> 00:17:25,919

i believe it was that was the year i was

430

00:17:31,590 --> 00:17:29,200

born so yes it was a long while ago

431

00:17:33,750 --> 00:17:31,600

that's how you gauge it yeah uh yeah you

432

00:17:37,110 --> 00:17:33,760

were born in the magical year huh

433

00:17:39,110 --> 00:17:37,120

yeah i was hopefully there's no meaning

434

00:17:43,110 --> 00:17:39,120

to that

435

00:17:45,750 --> 00:17:43,120

yeah you arrived when they did um so

436

00:17:48,230 --> 00:17:45,760

uh you call yourself or i saw in your

437

00:17:50,470 --> 00:17:48,240

bio that you call yourself a document

438

00:17:51,750 --> 00:17:50,480

geek or something like that or is that

439

00:17:54,230 --> 00:17:51,760

what it is

440

00:17:55,830 --> 00:17:54,240

yes and uh you want to talk a little bit

441

00:17:58,870 --> 00:17:55,840

about that

442

00:17:59,669 --> 00:17:58,880

yeah when i started uh actually a little

443

00:18:02,789 --> 00:17:59,679

bit before i

444

00:18:04,950 --> 00:18:02,799

entered retirement uh as a history buff

445

00:18:06,950 --> 00:18:04,960

as a history major also that was

446

00:18:08,710 --> 00:18:06,960

you mentioned cultural anthropology but

447

00:18:11,590 --> 00:18:08,720

it was also a history major

448

00:18:12,230 --> 00:18:11,600

um i've always been interested in

449

00:18:15,190 --> 00:18:12,240

history

450

00:18:16,230 --> 00:18:15,200

particularly of the 50s and 60s so when

451
00:18:18,150 --> 00:18:16,240
i retired

452
00:18:19,510 --> 00:18:18,160
before i even thought about writing

453
00:18:21,510 --> 00:18:19,520
anything there were two or three

454
00:18:24,950 --> 00:18:21,520
subjects i wanted to look into it

455
00:18:28,230 --> 00:18:24,960
of course including ufos and

456
00:18:32,150 --> 00:18:28,240
i became involved for years and years

457
00:18:35,510 --> 00:18:32,160
in foia work for your request but

458
00:18:36,470 --> 00:18:35,520
at that time for you freedom of

459
00:18:38,870 --> 00:18:36,480
information

460
00:18:41,029 --> 00:18:38,880
was difficult in itself and even going

461
00:18:41,750 --> 00:18:41,039
to the national archives was difficult

462
00:18:47,350 --> 00:18:41,760
this was

463
00:18:48,230 --> 00:18:47,360

the internet really became what it is

464

00:18:49,590 --> 00:18:48,240

now

465

00:18:51,430 --> 00:18:49,600

and the only way you could get

466

00:18:54,630 --> 00:18:51,440

information uh

467

00:18:57,270 --> 00:18:54,640

was to actually go to nara

468

00:18:58,549 --> 00:18:57,280

and dig into their files the national

469

00:19:02,070 --> 00:18:58,559

archives and

470

00:19:04,390 --> 00:19:02,080

and so i spent probably seven or eight

471

00:19:07,990 --> 00:19:04,400

years becoming very familiar with

472

00:19:11,110 --> 00:19:08,000

documents from the cia the fbi

473

00:19:14,150 --> 00:19:11,120

uh military intelligence just learning

474

00:19:18,310 --> 00:19:14,160

how to read documents and after reading

475

00:19:20,710 --> 00:19:18,320

oh probably 10 or 15 000 pages of

476

00:19:22,470 --> 00:19:20,720

documents it kind of became familiar

477

00:19:25,669 --> 00:19:22,480

with the various agencies

478

00:19:27,669 --> 00:19:25,679

how they wrote how they did reports how

479

00:19:30,470 --> 00:19:27,679

you could track reports so

480

00:19:31,430 --> 00:19:30,480

i did that before i ever ever thought

481

00:19:34,950 --> 00:19:31,440

about actually

482

00:19:37,990 --> 00:19:34,960

writing on any subject and i'm

483

00:19:40,950 --> 00:19:38,000

i'm a board member now of a foundation

484

00:19:41,750 --> 00:19:40,960

that houses close to two million

485

00:19:44,710 --> 00:19:41,760

documents

486

00:19:45,669 --> 00:19:44,720

online on various subjects from the 50s

487

00:19:48,470 --> 00:19:45,679

and 60s

488

00:19:51,190 --> 00:19:48,480

um so that i think that probably does

489

00:19:54,710 --> 00:19:51,200

make me a document geek

490

00:19:55,990 --> 00:19:54,720

um now this is just uh i'm curious

491

00:19:57,029 --> 00:19:56,000

because i don't know how these things

492

00:20:00,310 --> 00:19:57,039

work

493

00:20:04,070 --> 00:20:00,320

if you go into the national archives and

494

00:20:06,390 --> 00:20:04,080

are you able to access

495

00:20:07,190 --> 00:20:06,400

anything that's unclassified basically

496

00:20:10,390 --> 00:20:07,200

and if so

497

00:20:13,029 --> 00:20:10,400

is it redacted what you can access

498

00:20:13,750 --> 00:20:13,039

you can access anything anything there

499

00:20:17,549 --> 00:20:13,760

and and

500

00:20:21,669 --> 00:20:17,559

a a good deal of what it's got to be

501
00:20:23,669 --> 00:20:21,679
declassified and released when released

502
00:20:25,510 --> 00:20:23,679
and released the the agency that's

503
00:20:29,510 --> 00:20:25,520
holding it releases it and

504
00:20:32,390 --> 00:20:29,520
and quite frankly um a lot of things

505
00:20:33,990 --> 00:20:32,400
are released simply because not in the

506
00:20:36,310 --> 00:20:34,000
early years not in the 50s

507
00:20:38,630 --> 00:20:36,320
the 60s or 70s but towards the end of

508
00:20:41,990 --> 00:20:38,640
the last decade

509
00:20:42,950 --> 00:20:42,000
most agencies set up a a standard

510
00:20:45,669 --> 00:20:42,960
protocol

511
00:20:47,590 --> 00:20:45,679
you know these sorts of documents we

512
00:20:48,390 --> 00:20:47,600
will destroy after a certain period of

513
00:20:50,310 --> 00:20:48,400

time

514

00:20:51,830 --> 00:20:50,320

these sorts of documents will just go

515

00:20:53,590 --> 00:20:51,840

ahead and release to the national

516

00:20:55,669 --> 00:20:53,600

archives

517

00:20:57,190 --> 00:20:55,679

so what you find are those that are

518

00:20:59,350 --> 00:20:57,200

cleared and released

519

00:21:00,710 --> 00:20:59,360

and those are usually headquarters

520

00:21:02,710 --> 00:21:00,720

documents

521

00:21:04,789 --> 00:21:02,720

it's relatively easy to get a

522

00:21:07,350 --> 00:21:04,799

headquarters documents

523

00:21:09,270 --> 00:21:07,360

the problem is most of the field office

524

00:21:10,470 --> 00:21:09,280

documents that don't get referred to

525

00:21:12,230 --> 00:21:10,480

headquarters

526
00:21:13,510 --> 00:21:12,240
get destroyed at the end of the

527
00:21:15,590 --> 00:21:13,520
destruction period i mean

528
00:21:18,310 --> 00:21:15,600
at the end of the collection period

529
00:21:21,110 --> 00:21:18,320
because it's just too much paperwork

530
00:21:22,470 --> 00:21:21,120
but if something makes it to something

531
00:21:25,110 --> 00:21:22,480
makes it to

532
00:21:27,750 --> 00:21:25,120
the national archives due to a standards

533
00:21:31,510 --> 00:21:27,760
records release from the agency

534
00:21:33,990 --> 00:21:31,520
or because it was collected as part of

535
00:21:35,990 --> 00:21:34,000
a congressional investigation a

536
00:21:39,029 --> 00:21:36,000
congressional inquiry

537
00:21:41,029 --> 00:21:39,039
something where a whole batches of

538
00:21:41,909 --> 00:21:41,039

records were turned over to congress for

539

00:21:44,470 --> 00:21:41,919

a certain

540

00:21:47,669 --> 00:21:44,480

certain reason then those are all also

541

00:21:50,470 --> 00:21:47,679

normally sent to the national archives

542

00:21:51,430 --> 00:21:50,480

but once they're there now the only

543

00:21:53,830 --> 00:21:51,440

trick is

544

00:21:55,830 --> 00:21:53,840

of course as you imagine they're they

545

00:21:58,390 --> 00:21:55,840

actually are very helpful but you've got

546

00:21:59,909 --> 00:21:58,400

to know what you're looking for because

547

00:22:01,990 --> 00:21:59,919

they can't help you

548

00:22:03,270 --> 00:22:02,000

unless you can give and the same thing

549

00:22:05,590 --> 00:22:03,280

goes to for you

550

00:22:06,390 --> 00:22:05,600

you just really can't tell the

551
00:22:09,510 --> 00:22:06,400
government

552
00:22:11,190 --> 00:22:09,520
you know i want something

553
00:22:13,510 --> 00:22:11,200
in general terms because they're not

554
00:22:16,470 --> 00:22:13,520
going to be able to find it for you

555
00:22:19,350 --> 00:22:16,480
in any reasonable sense so if you can

556
00:22:22,549 --> 00:22:19,360
pretty well define it

557
00:22:23,590 --> 00:22:22,559
you know as to agency and year and

558
00:22:26,630 --> 00:22:23,600
subject

559
00:22:27,830 --> 00:22:26,640
then you can get it eventually now you

560
00:22:30,390 --> 00:22:27,840
know as you know john

561
00:22:31,190 --> 00:22:30,400
greenwald does a lot of work um on the

562
00:22:33,830 --> 00:22:31,200
black vault for

563
00:22:35,590 --> 00:22:33,840

the four years has since he was 17 years

564

00:22:38,710 --> 00:22:35,600

old which is pretty amazing

565

00:22:42,149 --> 00:22:38,720

and um as far as

566

00:22:44,070 --> 00:22:42,159

that work is that something that you

567

00:22:46,310 --> 00:22:44,080

continue to do or have you done that

568

00:22:50,149 --> 00:22:46,320

yourself

569

00:22:53,190 --> 00:22:50,159

i have i've not done that on ufos

570

00:22:56,070 --> 00:22:53,200

i've done it with other subjects i

571

00:22:57,750 --> 00:22:56,080

i've written on the cia and the fbi

572

00:23:00,149 --> 00:22:57,760

pretty extensively

573

00:23:02,549 --> 00:23:00,159

and i have collected a lot of those

574

00:23:05,669 --> 00:23:02,559

documents and released them

575

00:23:06,950 --> 00:23:05,679

some back in the old days on dvds quite

576

00:23:09,750 --> 00:23:06,960

frankly because the

577

00:23:10,789 --> 00:23:09,760

web wasn't available and then later on

578

00:23:13,270 --> 00:23:10,799

onto

579

00:23:15,350 --> 00:23:13,280

the website uh the mary farrell

580

00:23:16,149 --> 00:23:15,360

foundation is inside i was referring to

581

00:23:19,350 --> 00:23:16,159

but that

582

00:23:20,870 --> 00:23:19,360

that work was he has done ufo specific

583

00:23:22,710 --> 00:23:20,880

work my work has been in

584

00:23:25,990 --> 00:23:22,720

other areas with documents where i

585

00:23:28,630 --> 00:23:26,000

really collected them and released them

586

00:23:29,750 --> 00:23:28,640

i see i've looked at a lot of his

587

00:23:32,310 --> 00:23:29,760

material

588

00:23:33,350 --> 00:23:32,320

oh yeah we can't help it there's i don't

589

00:23:35,350 --> 00:23:33,360

even know

590

00:23:37,029 --> 00:23:35,360

i'm he's due to come on the show fairly

591

00:23:38,630 --> 00:23:37,039

soon i'm going to ask him how many

592

00:23:40,390 --> 00:23:38,640

if he had to guess how many documents he

593

00:23:43,110 --> 00:23:40,400

has how many servers

594

00:23:44,710 --> 00:23:43,120

he has full of documents so uh stephen

595

00:23:46,470 --> 00:23:44,720

asked this question can you see the

596

00:23:47,269 --> 00:23:46,480

underlying documents that were used to

597

00:23:50,470 --> 00:23:47,279

create

598

00:23:52,710 --> 00:23:50,480

the blue book of blue book reports

599

00:23:55,190 --> 00:23:52,720

do you absolutely exactly yeah yes you

600

00:23:57,830 --> 00:23:55,200

can and one of the things those are

601
00:23:59,110 --> 00:23:57,840
those are online and actually a great

602
00:24:01,909 --> 00:23:59,120
number of those i

603
00:24:03,269 --> 00:24:01,919
cite in the book unidentified because we

604
00:24:06,549 --> 00:24:03,279
can go back and actually

605
00:24:08,230 --> 00:24:06,559
look at the the original reports

606
00:24:09,750 --> 00:24:08,240
and there are two or three ways that you

607
00:24:11,669 --> 00:24:09,760
can look at that

608
00:24:13,909 --> 00:24:11,679
a lot of them are available through the

609
00:24:15,750 --> 00:24:13,919
nycap website

610
00:24:18,070 --> 00:24:15,760
a lot of them are available through the

611
00:24:21,350 --> 00:24:18,080
project 1947

612
00:24:25,350 --> 00:24:21,360
website so you can

613
00:24:28,549 --> 00:24:25,360

you can look at a 20-page

614

00:24:31,669 --> 00:24:28,559

report that was put together by

615

00:24:34,710 --> 00:24:31,679

perhaps a field officer and later on by

616

00:24:38,230 --> 00:24:34,720

somebody at the air force by blue book

617

00:24:38,870 --> 00:24:38,240

whether it was in sign or grudge or blue

618

00:24:40,870 --> 00:24:38,880

book

619

00:24:43,430 --> 00:24:40,880

you can look at those actual documents

620

00:24:44,230 --> 00:24:43,440

and and i've been doing a lot of those

621

00:24:46,710 --> 00:24:44,240

lately i've

622

00:24:48,470 --> 00:24:46,720

i'm involved in a couple of ongoing

623

00:24:51,029 --> 00:24:48,480

pride research projects

624

00:24:52,230 --> 00:24:51,039

and that's where we go we go back to

625

00:24:55,510 --> 00:24:52,240

those original

626

00:24:57,669 --> 00:24:55,520

incident documents how about that

627

00:25:00,149 --> 00:24:57,679

speaking of blue book i want to make a

628

00:25:01,990 --> 00:25:00,159

comment last week i ran a

629

00:25:03,669 --> 00:25:02,000

video clip and i'm going to run the

630

00:25:07,669 --> 00:25:03,679

remainder of it

631

00:25:09,830 --> 00:25:07,679

and it's basically uh two agents from

632

00:25:11,350 --> 00:25:09,840

project blue book being interviewed and

633

00:25:13,750 --> 00:25:11,360

someone wrote in the comments

634

00:25:14,789 --> 00:25:13,760

you know below it hey that that sounds

635

00:25:17,590 --> 00:25:14,799

like a cover-up and

636

00:25:19,269 --> 00:25:17,600

yes exactly that's what we're talking

637

00:25:22,070 --> 00:25:19,279

about so i'm going to bring that

638

00:25:23,830 --> 00:25:22,080

uh of the rest of that clip up um at our

639

00:25:26,470 --> 00:25:23,840

break at the top of the hour

640

00:25:28,789 --> 00:25:26,480

but my comment i mean my question to you

641

00:25:30,310 --> 00:25:28,799

is uh

642

00:25:32,549 --> 00:25:30,320

it's pretty obvious that there were

643

00:25:35,110 --> 00:25:32,559

other things that

644

00:25:36,950 --> 00:25:35,120

the government must have been looking at

645

00:25:39,669 --> 00:25:36,960

that really didn't have anything

646

00:25:40,310 --> 00:25:39,679

to do with uh project blue book in other

647

00:25:43,510 --> 00:25:40,320

words

648

00:25:45,190 --> 00:25:43,520

they went somewhere else um that's been

649

00:25:46,070 --> 00:25:45,200

a rumor and i don't know if it's true or

650

00:25:49,990 --> 00:25:46,080

not

651
00:25:52,630 --> 00:25:50,000
but if so if they did go some where else

652
00:25:53,190 --> 00:25:52,640
do you think documents will be uncovered

653
00:26:00,710 --> 00:25:53,200
to

654
00:26:01,269 --> 00:26:00,720
that there was something some part of

655
00:26:04,310 --> 00:26:01,279
the government

656
00:26:06,789 --> 00:26:04,320
researching other than blue book well

657
00:26:07,669 --> 00:26:06,799
certainly that we there were documents

658
00:26:10,470 --> 00:26:07,679
that went to

659
00:26:11,750 --> 00:26:10,480
air intelligence for example that didn't

660
00:26:13,750 --> 00:26:11,760
go to blue book

661
00:26:14,789 --> 00:26:13,760
and and even i write about some of that

662
00:26:17,269 --> 00:26:14,799
because you can

663
00:26:18,950 --> 00:26:17,279

you can find air intelligence memos that

664

00:26:19,669 --> 00:26:18,960

clearly blue book didn't know about i

665

00:26:22,070 --> 00:26:19,679

think

666

00:26:22,950 --> 00:26:22,080

probably one of the most spectacular

667

00:26:26,870 --> 00:26:22,960

documents

668

00:26:29,669 --> 00:26:26,880

is comes out of the army

669

00:26:31,909 --> 00:26:29,679

there were a lot of army and navy

670

00:26:35,350 --> 00:26:31,919

incidents that did not necessarily end

671

00:26:41,830 --> 00:26:38,470

the army did a series

672

00:26:44,710 --> 00:26:41,840

of scientific triangulated

673

00:26:46,950 --> 00:26:44,720

measurements uh compiled all these

674

00:26:49,029 --> 00:26:46,960

readings high quality stuff

675

00:26:50,630 --> 00:26:49,039

and tried to send it into the air force

676
00:26:52,230 --> 00:26:50,640
at that point in time

677
00:26:54,390 --> 00:26:52,240
which would have been in the project

678
00:26:56,070 --> 00:26:54,400
grudge error error

679
00:26:57,510 --> 00:26:56,080
they didn't really want to see that kind

680
00:27:00,789 --> 00:26:57,520
of information

681
00:27:02,870 --> 00:27:00,799
interestingly enough later it did end up

682
00:27:06,070 --> 00:27:02,880
at blue book through other channels

683
00:27:09,669 --> 00:27:06,080
but i guess the difficulty with all

684
00:27:12,549 --> 00:27:09,679
this is that if it ended up

685
00:27:14,070 --> 00:27:12,559
we would love to see navy reports from

686
00:27:15,909 --> 00:27:14,080
ships

687
00:27:18,549 --> 00:27:15,919
we don't find a lot of those you'd have

688
00:27:20,710 --> 00:27:18,559

to go back and find the navy log

689

00:27:22,710 --> 00:27:20,720

now the way to get that is actually to

690

00:27:24,789 --> 00:27:22,720

find the ship you're looking at

691

00:27:25,990 --> 00:27:24,799

and go back through and there are ways

692

00:27:28,389 --> 00:27:26,000

to search logs

693

00:27:30,470 --> 00:27:28,399

uh interestingly i just got through

694

00:27:34,070 --> 00:27:30,480

totally unrelated subject

695

00:27:36,870 --> 00:27:34,080

um proving something by going back to a

696

00:27:39,269 --> 00:27:36,880

navy log from 1961

697

00:27:40,470 --> 00:27:39,279

that showed that a super carrier was

698

00:27:43,590 --> 00:27:40,480

someplace it wasn't

699

00:27:46,070 --> 00:27:43,600

supposed to have been at a given time so

700

00:27:47,029 --> 00:27:46,080

there are ways there are ways to do that

701
00:27:48,789 --> 00:27:47,039
but you're not

702
00:27:50,470 --> 00:27:48,799
that's probably not something that

703
00:27:53,750 --> 00:27:50,480
you're going to find at nora

704
00:27:55,669 --> 00:27:53,760
the interesting thing is the navy

705
00:27:57,909 --> 00:27:55,679
there there are lots of places where you

706
00:28:00,950 --> 00:27:57,919
find information within the service

707
00:28:03,110 --> 00:28:00,960
with individual unit histories

708
00:28:05,830 --> 00:28:03,120
with individual ship histories or

709
00:28:08,630 --> 00:28:05,840
squadron histories in the air force

710
00:28:10,149 --> 00:28:08,640
but you really have to go in different

711
00:28:13,269 --> 00:28:10,159
directions to find them

712
00:28:14,070 --> 00:28:13,279
uh and and that's the most interesting

713
00:28:17,510 --> 00:28:14,080

thing now

714

00:28:19,110 --> 00:28:17,520

and and in many cases i the only reason

715

00:28:22,389 --> 00:28:19,120

i found that was because

716

00:28:23,029 --> 00:28:22,399

the naval historian uh gave me a lead on

717

00:28:27,909 --> 00:28:23,039

that one

718

00:28:29,990 --> 00:28:27,919

so yeah i think it is possible to find

719

00:28:31,190 --> 00:28:30,000

to find new things but you're not going

720

00:28:32,870 --> 00:28:31,200

to find them

721

00:28:35,909 --> 00:28:32,880

in the traditional places that we've

722

00:28:39,029 --> 00:28:35,919

been prospecting for decades now

723

00:28:40,630 --> 00:28:39,039

right right now as far as the navy you

724

00:28:43,190 --> 00:28:40,640

know when you think of

725

00:28:44,389 --> 00:28:43,200

the navy and encounters i think of the

726

00:28:46,389 --> 00:28:44,399

nimitz case

727

00:28:47,510 --> 00:28:46,399

but um you know and of course the the

728

00:28:50,149 --> 00:28:47,520

air force has

729

00:28:50,710 --> 00:28:50,159

you know over the years had encounters

730

00:28:53,430 --> 00:28:50,720

but

731

00:28:55,590 --> 00:28:53,440

other other navy are you aware of other

732

00:28:57,669 --> 00:28:55,600

navy encounters over the years

733

00:28:59,510 --> 00:28:57,679

maybe i'm just forgetting them oh

734

00:29:02,870 --> 00:28:59,520

absolutely again i write

735

00:29:06,389 --> 00:29:02,880

about a couple of them in the book uh

736

00:29:09,669 --> 00:29:06,399

one in the uh in the atlantic

737

00:29:13,430 --> 00:29:09,679

uh actually between florida and cuba

738

00:29:18,070 --> 00:29:13,440

where a navy carrier got overflown by

739

00:29:21,269 --> 00:29:18,080

a mac plus object

740

00:29:24,070 --> 00:29:21,279

multiple radar ship radar detected it

741

00:29:26,149 --> 00:29:24,080

ground radar detected it they sent an an

742

00:29:26,710 --> 00:29:26,159

interceptor after it it couldn't catch

743

00:29:29,110 --> 00:29:26,720

it

744

00:29:30,789 --> 00:29:29,120

and the end of the report actually

745

00:29:32,870 --> 00:29:30,799

interestingly

746

00:29:34,310 --> 00:29:32,880

speculates that it was a soviet

747

00:29:36,630 --> 00:29:34,320

reconnaissance flight

748

00:29:37,669 --> 00:29:36,640

over the carrier probably coming out of

749

00:29:41,110 --> 00:29:37,679

cuba

750

00:29:43,190 --> 00:29:41,120

um so there are there are not

751
00:29:45,269 --> 00:29:43,200
nearly as many as we would like for the

752
00:29:48,549 --> 00:29:45,279
navy um

753
00:29:51,190 --> 00:29:48,559
and it's it's unclear the navy never had

754
00:29:54,549 --> 00:29:51,200
a centralized reporting

755
00:29:56,950 --> 00:29:54,559
location like blue book um

756
00:29:57,669 --> 00:29:56,960
and so that way that they're much harder

757
00:29:59,590 --> 00:29:57,679
to find

758
00:30:01,350 --> 00:29:59,600
the people that are good at it did get

759
00:30:08,149 --> 00:30:01,360
out of ship records

760
00:30:11,190 --> 00:30:08,159
uh not out of some centralized navy file

761
00:30:14,310 --> 00:30:11,200
yeah and you know with

762
00:30:17,430 --> 00:30:14,320
in the case of the the nimitz

763
00:30:20,630 --> 00:30:17,440

for instance it i find it so strange

764

00:30:21,750 --> 00:30:20,640

that some of the people involved were

765

00:30:24,310 --> 00:30:21,760

told

766

00:30:25,190 --> 00:30:24,320

you know not to say anything at all and

767

00:30:27,990 --> 00:30:25,200

some people

768

00:30:28,470 --> 00:30:28,000

were left freely to talk about it it's

769

00:30:31,590 --> 00:30:28,480

kind of an

770

00:30:34,950 --> 00:30:31,600

odd situation in that way

771

00:30:38,310 --> 00:30:34,960

um actually i don't find it

772

00:30:39,590 --> 00:30:38,320

i don't find it as odd as as perhaps i

773

00:30:42,230 --> 00:30:39,600

might having

774

00:30:44,430 --> 00:30:42,240

seen all of these reports and documents

775

00:30:47,750 --> 00:30:44,440

because a lot of times the

776

00:30:50,870 --> 00:30:47,760

investigations and inquiries involve

777

00:30:53,750 --> 00:30:50,880

multiple groups and multiple agencies

778

00:30:54,789 --> 00:30:53,760

for example given the location of the

779

00:30:56,630 --> 00:30:54,799

nimitz

780

00:30:59,509 --> 00:30:56,640

it's very possible at least two

781

00:31:01,909 --> 00:30:59,519

different navy headquarters

782

00:31:06,070 --> 00:31:01,919

may have been aware of the incident no

783

00:31:10,710 --> 00:31:09,509

and the different agencies and services

784

00:31:13,110 --> 00:31:10,720

don't necessarily

785

00:31:14,470 --> 00:31:13,120

talk to each other nor do they have the

786

00:31:18,149 --> 00:31:14,480

same protocols

787

00:31:21,430 --> 00:31:18,159

uh given that that was offshore

788

00:31:24,950 --> 00:31:21,440

it's very possible that that homeland

789

00:31:26,070 --> 00:31:24,960

or even the cia could but they don't

790

00:31:28,310 --> 00:31:26,080

work together

791

00:31:30,230 --> 00:31:28,320

as much as you know people might think

792

00:31:32,630 --> 00:31:30,240

that they do it depends on where a

793

00:31:35,990 --> 00:31:32,640

particular incident report

794

00:31:38,630 --> 00:31:36,000

goes uh you know a message from

795

00:31:40,470 --> 00:31:38,640

from the nimitz went a message from its

796

00:31:43,190 --> 00:31:40,480

its headquarters went

797

00:31:45,190 --> 00:31:43,200

who saw it who sent out those people and

798

00:31:46,470 --> 00:31:45,200

what the investigators themselves were

799

00:31:50,070 --> 00:31:46,480

briefed to do

800

00:31:53,590 --> 00:31:50,080

um so

801
00:31:56,789 --> 00:31:53,600
if i hadn't seen so many instances of

802
00:31:57,830 --> 00:31:56,799
conflict conflicting agendas conflicting

803
00:32:01,830 --> 00:31:57,840
task

804
00:32:04,789 --> 00:32:01,840
tactics uh different protocols and play

805
00:32:06,470 --> 00:32:04,799
perhaps i'd be more shocked but i mean

806
00:32:08,070 --> 00:32:06,480
it's not that i can explain what

807
00:32:10,310 --> 00:32:08,080
happened on the nimbus but it

808
00:32:12,389 --> 00:32:10,320
doesn't strike me as all that peculiar

809
00:32:16,549 --> 00:32:12,399
given the history i've seen

810
00:32:19,990 --> 00:32:16,559
yeah it's funny you know um brazil

811
00:32:22,070 --> 00:32:20,000
uh no i'm sorry chile

812
00:32:24,230 --> 00:32:22,080
they their government works entirely

813
00:32:26,870 --> 00:32:24,240

together it doesn't matter what

814

00:32:29,029 --> 00:32:26,880

arm of the government is out there

815

00:32:29,750 --> 00:32:29,039

whether it's simply police or military

816

00:32:32,789 --> 00:32:29,760

or

817

00:32:35,110 --> 00:32:32,799

together

818

00:32:36,630 --> 00:32:35,120

which uh it seems really strange why a

819

00:32:39,669 --> 00:32:36,640

country wouldn't work together

820

00:32:41,669 --> 00:32:39,679

like that um you know because

821

00:32:43,029 --> 00:32:41,679

well for instance they actually take the

822

00:32:45,830 --> 00:32:43,039

ufo topic

823

00:32:47,590 --> 00:32:45,840

seriously there and work together to try

824

00:32:48,710 --> 00:32:47,600

to solve it which i think

825

00:32:50,870 --> 00:32:48,720

that would be really nice if that

826

00:32:54,950 --> 00:32:50,880

happened here

827

00:32:57,990 --> 00:32:54,960

i the problem is that r that requires

828

00:33:01,029 --> 00:32:58,000

what what is actually national tasking

829

00:33:02,389 --> 00:33:01,039

that requires somebody high enough up in

830

00:33:04,630 --> 00:33:02,399

the food chain

831

00:33:07,269 --> 00:33:04,640

uh say at the level in the us of the

832

00:33:10,630 --> 00:33:07,279

national security council

833

00:33:13,669 --> 00:33:10,640

issue a tasking order to

834

00:33:16,789 --> 00:33:13,679

the intelligence community listing this

835

00:33:20,070 --> 00:33:16,799

as a priority subject for collections

836

00:33:21,909 --> 00:33:20,080

and study and if that happens then they

837

00:33:23,029 --> 00:33:21,919

have the authority to go out and

838

00:33:26,470 --> 00:33:23,039

essentially

839

00:33:27,909 --> 00:33:26,480

require and demand information from

840

00:33:30,470 --> 00:33:27,919

everybody

841

00:33:31,909 --> 00:33:30,480

and then they they also if they're

842

00:33:34,310 --> 00:33:31,919

tasked doing that

843

00:33:36,470 --> 00:33:34,320

then it becomes a longer term subject

844

00:33:37,430 --> 00:33:36,480

which means they don't look at it report

845

00:33:40,630 --> 00:33:37,440

by report

846

00:33:43,110 --> 00:33:40,640

incident by incident they get into this

847

00:33:44,389 --> 00:33:43,120

indications and pattern analysis that i

848

00:33:47,269 --> 00:33:44,399

was talking about

849

00:33:47,909 --> 00:33:47,279

the problem with in the us as far as we

850

00:33:52,230 --> 00:33:47,919

can tell

851
00:33:56,389 --> 00:33:52,240
is that that only almost happened

852
00:33:58,870 --> 00:33:56,399
one time and that was back in 1952

853
00:34:00,870 --> 00:33:58,880
when the office of scientific

854
00:34:04,950 --> 00:34:00,880
intelligence at the cia

855
00:34:07,350 --> 00:34:04,960
actually recommended that the subject be

856
00:34:08,389 --> 00:34:07,360
elevated to the national security

857
00:34:11,430 --> 00:34:08,399
council

858
00:34:11,990 --> 00:34:11,440
and task as an intelligence priority i

859
00:34:13,589 --> 00:34:12,000
mean

860
00:34:15,589 --> 00:34:13,599
we tend to think of it well it's a

861
00:34:18,790 --> 00:34:15,599
priority if the air force is doing

862
00:34:20,950 --> 00:34:18,800
it it's but it's not really that's just

863
00:34:23,510 --> 00:34:20,960

the air force that doesn't

864

00:34:24,629 --> 00:34:23,520

that doesn't transfer to any other

865

00:34:26,550 --> 00:34:24,639

services

866

00:34:28,710 --> 00:34:26,560

or nor does it transfer to any other

867

00:34:31,349 --> 00:34:28,720

agencies um

868

00:34:32,149 --> 00:34:31,359

and that was the only point in time it

869

00:34:35,349 --> 00:34:32,159

almost got

870

00:34:38,230 --> 00:34:35,359

elevated to a national security tasking

871

00:34:39,190 --> 00:34:38,240

and that aborted with the robertson

872

00:34:43,270 --> 00:34:39,200

panel

873

00:34:46,790 --> 00:34:43,280

back in the 1952 time frame because

874

00:34:49,270 --> 00:34:46,800

the advisory committee that

875

00:34:51,030 --> 00:34:49,280

it has to go through this recommendation

876
00:34:53,430 --> 00:34:51,040
from the cia would have had to go

877
00:34:55,349 --> 00:34:53,440
through an intelligence advisory council

878
00:34:57,750 --> 00:34:55,359
to the nsc

879
00:34:59,349 --> 00:34:57,760
because the nsc is doesn't get

880
00:35:00,069 --> 00:34:59,359
everything it can't there's just too

881
00:35:02,710 --> 00:35:00,079
much

882
00:35:03,349 --> 00:35:02,720
and the advisory council determined they

883
00:35:05,589 --> 00:35:03,359
would not

884
00:35:07,190 --> 00:35:05,599
forward it from the cia and the air

885
00:35:10,069 --> 00:35:07,200
force wanted it

886
00:35:11,829 --> 00:35:10,079
the advisory council said we're not

887
00:35:13,910 --> 00:35:11,839
going to do this we're not going to put

888
00:35:16,310 --> 00:35:13,920

our reputations on the line unless you

889

00:35:20,150 --> 00:35:16,320

can get a scientific endorsement

890

00:35:23,670 --> 00:35:20,160

we need not your concerns

891

00:35:24,230 --> 00:35:23,680

we need the scientists to step in behind

892

00:35:27,349 --> 00:35:24,240

you and

893

00:35:29,510 --> 00:35:27,359

certify that this can be tasked the

894

00:35:31,990 --> 00:35:29,520

national intelligence community

895

00:35:33,589 --> 00:35:32,000

and that didn't happen which the whole

896

00:35:34,310 --> 00:35:33,599

thing wiped out at that point in time

897

00:35:37,349 --> 00:35:34,320

but that's

898

00:35:39,750 --> 00:35:37,359

as far as as far as we can tell that's

899

00:35:42,790 --> 00:35:39,760

why we've never really had

900

00:35:46,470 --> 00:35:42,800

a national intelligence tasking

901
00:35:48,710 --> 00:35:46,480
on ufos what was the exact

902
00:35:50,230 --> 00:35:48,720
thing that they were trying to do at

903
00:35:54,069 --> 00:35:50,240
that time

904
00:35:56,710 --> 00:35:54,079
what at that point in time after

905
00:35:57,510 --> 00:35:56,720
after the wave of sightings on the east

906
00:35:59,270 --> 00:35:57,520
coast

907
00:36:01,750 --> 00:35:59,280
and especially the incidents over

908
00:36:04,230 --> 00:36:01,760
washington dc i see

909
00:36:06,390 --> 00:36:04,240
president truman had actually called the

910
00:36:07,190 --> 00:36:06,400
meeting we don't have the details of the

911
00:36:09,990 --> 00:36:07,200
meeting

912
00:36:12,230 --> 00:36:10,000
but the interestingly enough the title

913
00:36:14,310 --> 00:36:12,240

of the memo

914

00:36:16,150 --> 00:36:14,320

that describe that mentions the meeting

915

00:36:19,030 --> 00:36:16,160

with the air force

916

00:36:20,550 --> 00:36:19,040

is called defense of the capital and

917

00:36:23,750 --> 00:36:20,560

apparently this was

918

00:36:25,109 --> 00:36:23,760

such concern that questions were asked

919

00:36:27,349 --> 00:36:25,119

with the air force

920

00:36:28,470 --> 00:36:27,359

air force intelligence and blue book did

921

00:36:30,310 --> 00:36:28,480

not come up

922

00:36:33,190 --> 00:36:30,320

with satisfactory answers for the

923

00:36:35,829 --> 00:36:33,200

president so he called the cia

924

00:36:36,630 --> 00:36:35,839

and said you know they can't give me an

925

00:36:40,550 --> 00:36:36,640

answer

926

00:36:44,230 --> 00:36:40,560

about three months study

927

00:36:47,270 --> 00:36:44,240

the cia concluded that there are there

928

00:36:48,630 --> 00:36:47,280

had been a wave of incidents in the

929

00:36:51,829 --> 00:36:48,640

southwestern u.s

930

00:36:52,870 --> 00:36:51,839

over the major atomic weapons complexes

931

00:37:00,710 --> 00:36:52,880

at

932

00:37:02,870 --> 00:37:00,720

uh los alamos they concluded

933

00:37:04,870 --> 00:37:02,880

that something serious was going on

934

00:37:06,230 --> 00:37:04,880

whether or not it was reconnaissance for

935

00:37:10,390 --> 00:37:06,240

first strike

936

00:37:12,470 --> 00:37:10,400

uh possibly and they in air intelligence

937

00:37:14,710 --> 00:37:12,480

agreed that there was something going on

938

00:37:17,270 --> 00:37:14,720

over the atomic weapons complex

939

00:37:19,349 --> 00:37:17,280

that represented a national threat and

940

00:37:22,069 --> 00:37:19,359

that's why both of them recommended it

941

00:37:24,310 --> 00:37:22,079

be elevated to the nsc

942

00:37:25,349 --> 00:37:24,320

well that's really interesting i would

943

00:37:26,790 --> 00:37:25,359

i'm going to bring this

944

00:37:28,550 --> 00:37:26,800

question up real quick and then i'd like

945

00:37:29,430 --> 00:37:28,560

to go back into something you just

946

00:37:31,990 --> 00:37:29,440

mentioned

947

00:37:33,510 --> 00:37:32,000

right after that that question again

948

00:37:36,710 --> 00:37:33,520

from stephen is there any

949

00:37:40,150 --> 00:37:36,720

where that archive ufo documents

950

00:37:43,270 --> 00:37:40,160

are circuited by date and incident

951
00:37:46,150 --> 00:37:43,280
uh yes nycap has them by year

952
00:37:46,630 --> 00:37:46,160
by year and month wow that's a nice

953
00:37:48,950 --> 00:37:46,640
that's nice

954
00:37:49,990 --> 00:37:48,960
if you look at the nycap chronology

955
00:37:52,310 --> 00:37:50,000
that's what you should

956
00:37:55,190 --> 00:37:52,320
search for is the nikep chronology i use

957
00:37:59,510 --> 00:37:57,030
okay this is what i'd like to talk about

958
00:38:01,589 --> 00:37:59,520
you mentioned weapon storage

959
00:38:03,589 --> 00:38:01,599
um there's a lot you know robert

960
00:38:06,310 --> 00:38:03,599
hastings does some really great work

961
00:38:07,349 --> 00:38:06,320
when it comes to all that um have you

962
00:38:10,150 --> 00:38:07,359
looked into that

963
00:38:12,310 --> 00:38:10,160

that particular topic yourself do you

964

00:38:15,349 --> 00:38:12,320

write about that in your book too

965

00:38:19,510 --> 00:38:15,359

that is my prime that's my primary focus

966

00:38:20,790 --> 00:38:19,520

in the book it does two things it looks

967

00:38:23,190 --> 00:38:20,800

at

968

00:38:25,750 --> 00:38:23,200

essentially the historical chronology of

969

00:38:28,870 --> 00:38:25,760

ufos in the intelligence community

970

00:38:32,230 --> 00:38:28,880

starting during world war ii you know

971

00:38:35,829 --> 00:38:32,240

through 1980 up to 1980

972

00:38:36,550 --> 00:38:35,839

and then it looks i posed the question

973

00:38:39,510 --> 00:38:36,560

of

974

00:38:40,950 --> 00:38:39,520

an intel an indication study that really

975

00:38:43,990 --> 00:38:40,960

asked the question

976
00:38:46,710 --> 00:38:44,000
was something going on over the atomic

977
00:38:48,870 --> 00:38:46,720
warfare complex

978
00:38:49,910 --> 00:38:48,880
which is of course what the cia and the

979
00:38:53,030 --> 00:38:49,920
air force thought

980
00:38:55,670 --> 00:38:53,040
back in 1952 was occurring

981
00:38:56,790 --> 00:38:55,680
so the rest of that book examines that

982
00:38:59,589 --> 00:38:56,800
question

983
00:39:01,670 --> 00:38:59,599
in terms of was there something going on

984
00:39:04,230 --> 00:39:01,680
and in particular

985
00:39:06,150 --> 00:39:04,240
was it anomalous in other words could it

986
00:39:08,390 --> 00:39:06,160
have been the soviet union

987
00:39:10,069 --> 00:39:08,400
or something basically is something

988
00:39:13,190 --> 00:39:10,079

going on

989

00:39:15,430 --> 00:39:13,200

that's that's strange and

990

00:39:17,030 --> 00:39:15,440

there's a pattern to it and could it

991

00:39:19,349 --> 00:39:17,040

have been an adversary

992

00:39:20,069 --> 00:39:19,359

or is it something we don't understand

993

00:39:22,150 --> 00:39:20,079

at all

994

00:39:23,430 --> 00:39:22,160

so that's that's what i do in the book

995

00:39:26,790 --> 00:39:23,440

but most recently

996

00:39:29,270 --> 00:39:26,800

i i've carried on that research and and

997

00:39:29,990 --> 00:39:29,280

i'm looking at a project right now

998

00:39:33,430 --> 00:39:30,000

that's

999

00:39:38,550 --> 00:39:33,440

components

1000

00:39:42,870 --> 00:39:38,560

warfare complex that includes the

1001
00:39:45,910 --> 00:39:42,880
radioactive materials manufacturing

1002
00:39:49,030 --> 00:39:45,920
the design and assembly locations

1003
00:39:51,670 --> 00:39:49,040
the weapons weapons production

1004
00:39:52,710 --> 00:39:51,680
sites weapon storage sites weapons

1005
00:39:55,349 --> 00:39:52,720
testing

1006
00:39:57,510 --> 00:39:55,359
and then detroit deployment of the

1007
00:40:00,870 --> 00:39:57,520
strategic weapons which

1008
00:40:04,390 --> 00:40:00,880
in the 50 was primarily megaton class

1009
00:40:08,470 --> 00:40:04,400
weapons at first at sac bases

1010
00:40:11,190 --> 00:40:08,480
then at icm bases

1011
00:40:12,390 --> 00:40:11,200
and with navy super carriers and so

1012
00:40:17,270 --> 00:40:12,400
that's

1013
00:40:18,230 --> 00:40:17,280

trying to put together a statistical

1014

00:40:20,550 --> 00:40:18,240

analysis

1015

00:40:21,349 --> 00:40:20,560

saying was there something really

1016

00:40:24,870 --> 00:40:21,359

anomalous

1017

00:40:27,910 --> 00:40:24,880

going on with ufo incidents at

1018

00:40:29,589 --> 00:40:27,920

over uh and even at ground level at the

1019

00:40:34,550 --> 00:40:29,599

atomic warfare complex

1020

00:40:35,910 --> 00:40:34,560

well that that that's all very

1021

00:40:40,069 --> 00:40:35,920

fascinating to me

1022

00:40:42,390 --> 00:40:40,079

and because for one thing

1023

00:40:43,349 --> 00:40:42,400

you know we know of the encounters where

1024

00:40:46,550 --> 00:40:43,359

you know robert

1025

00:40:49,510 --> 00:40:46,560

salas was involved in and

1026
00:40:51,270 --> 00:40:49,520
another one where the there were i think

1027
00:40:52,790 --> 00:40:51,280
six out of 12 of them were

1028
00:40:54,870 --> 00:40:52,800
deactivated and they all weren't

1029
00:40:57,510 --> 00:40:54,880
connected together and you know these

1030
00:40:58,870 --> 00:40:57,520
bizarre situations and and there was i

1031
00:41:01,430 --> 00:40:58,880
can't remember if it was

1032
00:41:02,710 --> 00:41:01,440
our country or russia where uh they were

1033
00:41:06,230 --> 00:41:02,720
in launch mode

1034
00:41:08,390 --> 00:41:06,240
uh um you know that and

1035
00:41:09,510 --> 00:41:08,400
somehow stopped that too but always

1036
00:41:12,950 --> 00:41:09,520
involving

1037
00:41:15,030 --> 00:41:12,960
you know something flying over uh that

1038
00:41:17,910 --> 00:41:15,040

that's always fascinating me but now

1039

00:41:19,030 --> 00:41:17,920

you are actually looking deeper into it

1040

00:41:20,790 --> 00:41:19,040

if it's not just

1041

00:41:22,470 --> 00:41:20,800

you know underground weapons that are

1042

00:41:24,230 --> 00:41:22,480

ready to launch there's

1043

00:41:26,309 --> 00:41:24,240

you're looking at all aspects of it

1044

00:41:28,630 --> 00:41:26,319

that's that's what i'm understanding

1045

00:41:30,630 --> 00:41:28,640

all the way from the manufacturing and

1046

00:41:33,109 --> 00:41:30,640

all the way up

1047

00:41:34,710 --> 00:41:33,119

and what i'm seeing is a progressive

1048

00:41:37,349 --> 00:41:34,720

pattern again

1049

00:41:37,829 --> 00:41:37,359

science requires that we we plot this

1050

00:41:40,870 --> 00:41:37,839

out

1051
00:41:42,150 --> 00:41:40,880
and do a statistical analysis but the

1052
00:41:44,309 --> 00:41:42,160
most interesting thing

1053
00:41:46,230 --> 00:41:44,319
and i discussed this in a bit in the

1054
00:41:48,309 --> 00:41:46,240
book because that was just an

1055
00:41:49,750 --> 00:41:48,319
initial impression i got when i did it

1056
00:41:51,589 --> 00:41:49,760
unidentified is

1057
00:41:53,109 --> 00:41:51,599
there's a progression there's a

1058
00:41:57,030 --> 00:41:53,119
progression of

1059
00:42:00,710 --> 00:41:57,040
ufo incidents from one type of

1060
00:42:01,670 --> 00:42:00,720
site to another first at the production

1061
00:42:05,510 --> 00:42:01,680
facilities

1062
00:42:09,270 --> 00:42:05,520
at oak ridge and hanford then moving on

1063
00:42:12,309 --> 00:42:09,280

to los alamos and sandia base

1064

00:42:13,829 --> 00:42:12,319

then moving on to the atomic weapons

1065

00:42:17,750 --> 00:42:13,839

storage sites

1066

00:42:21,270 --> 00:42:17,760

for example at uh fort hood

1067

00:42:23,109 --> 00:42:21,280

uh and then then moving on

1068

00:42:24,630 --> 00:42:23,119

this is a progression it's these things

1069

00:42:27,750 --> 00:42:24,640

show up there's a burst

1070

00:42:29,750 --> 00:42:27,760

of incidents over a few months or at

1071

00:42:32,790 --> 00:42:29,760

most a year or so

1072

00:42:34,390 --> 00:42:32,800

and then it's as if they found what they

1073

00:42:37,670 --> 00:42:34,400

needed to know

1074

00:42:41,349 --> 00:42:37,680

and moved on to another type of site and

1075

00:42:43,589 --> 00:42:41,359

and then it moves on to the initial icbm

1076
00:42:46,230 --> 00:42:43,599
sites but much earlier than you might

1077
00:42:48,870 --> 00:42:46,240
think it starts with

1078
00:42:51,270 --> 00:42:48,880
well it starts with the sac bases then

1079
00:42:54,550 --> 00:42:51,280
it moves on to the atlas sites

1080
00:42:57,589 --> 00:42:54,560
the titan sites and only later

1081
00:43:00,150 --> 00:42:57,599
to the minuteman sites

1082
00:43:02,230 --> 00:43:00,160
so it's it's a progression that occurs

1083
00:43:05,030 --> 00:43:02,240
over some 25 years

1084
00:43:06,069 --> 00:43:05,040
and if that if that pattern is

1085
00:43:09,030 --> 00:43:06,079
verifiable

1086
00:43:09,990 --> 00:43:09,040
it indicates something very serious

1087
00:43:12,069 --> 00:43:10,000
absolutely

1088
00:43:13,109 --> 00:43:12,079

hey we got the one and only uh jan

1089

00:43:16,309 --> 00:43:13,119

aldrich

1090

00:43:17,670 --> 00:43:16,319

is uh watching on facebook and he wants

1091

00:43:20,710 --> 00:43:17,680

to know is there an updated

1092

00:43:23,190 --> 00:43:20,720

uh copy of your book no i

1093

00:43:25,190 --> 00:43:23,200

i thought i would do an updated copy but

1094

00:43:27,270 --> 00:43:25,200

i'm waiting for these other studies to

1095

00:43:28,069 --> 00:43:27,280

gel so i can actually put the studies

1096

00:43:31,349 --> 00:43:28,079

into the book

1097

00:43:34,150 --> 00:43:31,359

i i had a i had a second manuscript

1098

00:43:35,030 --> 00:43:34,160

prepared and then it went no i need more

1099

00:43:38,150 --> 00:43:35,040

data

1100

00:43:41,670 --> 00:43:38,160

uh i i and by the way thanks jan

1101

00:43:42,950 --> 00:43:41,680

i i 1947 is fantastic

1102

00:43:45,589 --> 00:43:42,960

wouldn't have been able to do anything

1103

00:43:49,910 --> 00:43:49,030

um all right getting staying on the

1104

00:43:53,430 --> 00:43:49,920

topic

1105

00:43:55,510 --> 00:43:53,440

of that is it weapons only

1106

00:43:58,390 --> 00:43:55,520

or you know there's nuclear power plants

1107

00:44:01,510 --> 00:43:58,400

there's you know is there any other

1108

00:44:03,990 --> 00:44:01,520

you know nuclear related activity where

1109

00:44:07,349 --> 00:44:04,000

there's activity

1110

00:44:10,270 --> 00:44:07,359

power plants

1111

00:44:11,510 --> 00:44:10,280

but so far i have not seen it be

1112

00:44:14,550 --> 00:44:11,520

concentrated

1113

00:44:17,190 --> 00:44:14,560

and what you would call iterative

1114

00:44:18,150 --> 00:44:17,200

as as we see with the the complex for

1115

00:44:21,589 --> 00:44:18,160

example

1116

00:44:21,990 --> 00:44:21,599

you might see a visit over a nuclear

1117

00:44:25,190 --> 00:44:22,000

power

1118

00:44:27,510 --> 00:44:25,200

plant in new york state

1119

00:44:28,790 --> 00:44:27,520

and you might see another visit years

1120

00:44:31,829 --> 00:44:28,800

later

1121

00:44:33,990 --> 00:44:31,839

so you you get a report you know it's

1122

00:44:35,349 --> 00:44:34,000

yeah there are incidents associated with

1123

00:44:38,390 --> 00:44:35,359

them but when you compare

1124

00:44:40,710 --> 00:44:38,400

that to the incidents over

1125

00:44:43,109 --> 00:44:40,720

sandia base and the sandia weapon

1126

00:44:45,910 --> 00:44:43,119

storage area

1127

00:44:47,510 --> 00:44:45,920

the intensity the frequency is not

1128

00:44:51,430 --> 00:44:47,520

nearly the same

1129

00:44:54,710 --> 00:44:51,440

so wild speculation on my part but

1130

00:44:58,150 --> 00:44:54,720

obviously if you're looking for

1131

00:45:00,309 --> 00:44:58,160

nuclear sites you do have to do

1132

00:45:02,790 --> 00:45:00,319

some kind of scan of everything that's

1133

00:45:07,270 --> 00:45:02,800

emitting radiation to characterize

1134

00:45:10,390 --> 00:45:07,280

what type it is and so

1135

00:45:13,349 --> 00:45:10,400

the suggestion might be they scan

1136

00:45:15,510 --> 00:45:13,359

all sites and then focus on those

1137

00:45:18,390 --> 00:45:15,520

related to weapons

1138

00:45:20,550 --> 00:45:18,400

well you know so the first testing was

1139

00:45:23,990 --> 00:45:20,560

back in 1945

1140

00:45:25,589 --> 00:45:24,000

and uh and as i remember stanton

1141

00:45:28,309 --> 00:45:25,599

friedman used to say

1142

00:45:29,270 --> 00:45:28,319

uh whoops the kids found the matches and

1143

00:45:32,550 --> 00:45:29,280

uh you know that's

1144

00:45:34,150 --> 00:45:32,560

that's uh a possibly a reason i remember

1145

00:45:37,829 --> 00:45:34,160

asking robert hastings this

1146

00:45:40,790 --> 00:45:37,839

also is uh why do you think they

1147

00:45:41,510 --> 00:45:40,800

why do you think they're over the weapon

1148

00:45:43,190 --> 00:45:41,520

storage

1149

00:45:45,030 --> 00:45:43,200

and and why do you think they're getting

1150

00:45:45,670 --> 00:45:45,040

involved and i remember his answer was

1151

00:45:49,270 --> 00:45:45,680

something

1152

00:45:51,030 --> 00:45:49,280

like uh you know to so we can be

1153

00:45:52,309 --> 00:45:51,040

aware that we could destroy the world or

1154

00:45:55,190 --> 00:45:52,319

something like that i mean

1155

00:45:56,950 --> 00:45:55,200

it's all just speculation all of it is

1156

00:45:59,670 --> 00:45:56,960

but uh what are your thoughts on

1157

00:46:01,670 --> 00:45:59,680

the possibilities of why these things

1158

00:46:04,710 --> 00:46:01,680

are concentrated

1159

00:46:07,349 --> 00:46:04,720

well back to the cultural anthropology

1160

00:46:09,109 --> 00:46:07,359

that we talked before if you really

1161

00:46:11,190 --> 00:46:09,119

if you're if i'm interested in

1162

00:46:13,109 --> 00:46:11,200

characterizing any culture

1163

00:46:15,990 --> 00:46:13,119

obviously there are different aspects i

1164

00:46:18,390 --> 00:46:16,000

looked at but technology

1165

00:46:20,550 --> 00:46:18,400

is one of the most obvious where what

1166

00:46:21,030 --> 00:46:20,560

level of technology development do they

1167

00:46:24,790 --> 00:46:21,040

have

1168

00:46:28,470 --> 00:46:24,800

and obviously nuclear reactions

1169

00:46:31,190 --> 00:46:28,480

represent one of the most significant

1170

00:46:31,990 --> 00:46:31,200

move transition points that you could

1171

00:46:35,589 --> 00:46:32,000

possibly have

1172

00:46:37,910 --> 00:46:35,599

it's a tipping point and i i think

1173

00:46:40,150 --> 00:46:37,920

for anyone who's been a long time reader

1174

00:46:41,589 --> 00:46:40,160

of science fiction that's the tipping

1175

00:46:43,910 --> 00:46:41,599

point that's probably

1176

00:46:47,190 --> 00:46:43,920

more discussed in terms of cultural

1177

00:46:49,990 --> 00:46:47,200

development than anything else you know

1178

00:46:51,510 --> 00:46:50,000

it's always which way is the which way

1179

00:46:54,630 --> 00:46:51,520

is the race going to go

1180

00:46:56,309 --> 00:46:54,640

once they develop nuclear power are they

1181

00:46:57,510 --> 00:46:56,319

going to control it are they going to

1182

00:47:00,390 --> 00:46:57,520

use it

1183

00:47:01,030 --> 00:47:00,400

and you know that's part of the direct

1184

00:47:03,510 --> 00:47:01,040

you know the

1185

00:47:05,270 --> 00:47:03,520

the successor to the drake equation is

1186

00:47:06,069 --> 00:47:05,280

why don't we find more evidence of

1187

00:47:09,990 --> 00:47:06,079

intelligence

1188

00:47:12,230 --> 00:47:10,000

and the downside might be well uh

1189

00:47:13,190 --> 00:47:12,240

they learned how to do it and didn't do

1190

00:47:16,230 --> 00:47:13,200

it well

1191

00:47:17,030 --> 00:47:16,240

um and that kind of blows away the great

1192

00:47:20,069 --> 00:47:17,040

equation

1193

00:47:23,750 --> 00:47:20,079

um so but

1194

00:47:26,309 --> 00:47:23,760

my view to if if there is someone

1195

00:47:27,270 --> 00:47:26,319

from someone else monitoring cultural

1196

00:47:30,390 --> 00:47:27,280

development

1197

00:47:31,910 --> 00:47:30,400

that would be an obvious place to look

1198

00:47:34,390 --> 00:47:31,920

and the thing i think the thing that

1199

00:47:39,510 --> 00:47:34,400

strikes me is you can monitor

1200

00:47:41,990 --> 00:47:39,520

cultural development just by doing

1201

00:47:43,829 --> 00:47:42,000

periodic checks i mean quite frankly

1202

00:47:44,950 --> 00:47:43,839

that's the way anthropologists work you

1203

00:47:46,470 --> 00:47:44,960

don't have to be

1204

00:47:48,710 --> 00:47:46,480

there all the time you have

1205

00:47:51,190 --> 00:47:48,720

anthropologists go in over periods of

1206

00:47:53,109 --> 00:47:51,200

time and try to

1207

00:47:55,109 --> 00:47:53,119

assess the culture and then you look at

1208

00:47:57,190 --> 00:47:55,119

the history but if

1209

00:47:58,230 --> 00:47:57,200

if you're looking at technology

1210

00:48:00,470 --> 00:47:58,240

obviously

1211

00:48:02,630 --> 00:48:00,480

two points are real tipping points in

1212

00:48:05,750 --> 00:48:02,640

terms of acceleration

1213

00:48:07,190 --> 00:48:05,760

one is the production of electricity if

1214

00:48:09,670 --> 00:48:07,200

you've got that you know

1215

00:48:10,870 --> 00:48:09,680

things are going to accelerate very

1216

00:48:13,910 --> 00:48:10,880

quickly

1217

00:48:15,589 --> 00:48:13,920

once you are generating controlled

1218

00:48:17,910 --> 00:48:15,599

nuclear reactions

1219

00:48:18,710 --> 00:48:17,920

they're going to accelerate even more

1220

00:48:21,430 --> 00:48:18,720

quickly

1221

00:48:23,510 --> 00:48:21,440

so what i would expect to see is once

1222

00:48:24,230 --> 00:48:23,520

you hit that nuclear reaction tipping

1223

00:48:26,630 --> 00:48:24,240

point

1224

00:48:29,109 --> 00:48:26,640

there's a lot more concerted interest

1225

00:48:31,430 --> 00:48:29,119

over a short period of time

1226
00:48:32,790 --> 00:48:31,440
and then they do an assessment and they

1227
00:48:35,990 --> 00:48:32,800
may back off

1228
00:48:36,790 --> 00:48:36,000
but there's going to be a real a real

1229
00:48:39,270 --> 00:48:36,800
focus

1230
00:48:40,549 --> 00:48:39,280
and to some extent again speculation but

1231
00:48:42,630 --> 00:48:40,559
it appears that

1232
00:48:44,589 --> 00:48:42,640
to me that's what we saw in the period

1233
00:48:48,870 --> 00:48:44,599
of 1944 through

1234
00:48:50,790 --> 00:48:48,880
1954. um and one of the things you know

1235
00:48:52,790 --> 00:48:50,800
we have a real problem with

1236
00:48:54,230 --> 00:48:52,800
um because of the half-life and

1237
00:48:56,309 --> 00:48:54,240
everything is waste

1238
00:48:59,670 --> 00:48:56,319

you know nuclear waste is a major issue

1239

00:49:01,589 --> 00:48:59,680

and you know for our 100 years of use

1240

00:49:02,870 --> 00:49:01,599

people are going to have to protect the

1241

00:49:04,549 --> 00:49:02,880

nuclear waste for

1242

00:49:06,710 --> 00:49:04,559

you know hundreds of thousands of years

1243

00:49:07,510 --> 00:49:06,720

which is kind of ridiculous and selfish

1244

00:49:10,710 --> 00:49:07,520

i think

1245

00:49:11,910 --> 00:49:10,720

but i mean any any of your research have

1246

00:49:15,030 --> 00:49:11,920

anything to do with the

1247

00:49:17,750 --> 00:49:15,040

byproducts of nuclear um

1248

00:49:19,349 --> 00:49:17,760

yes interestingly enough um and

1249

00:49:20,549 --> 00:49:19,359

something there's been some excellent

1250

00:49:22,870 --> 00:49:20,559

papers written on

1251

00:49:23,910 --> 00:49:22,880

this that i cite in the book they don't

1252

00:49:27,430 --> 00:49:23,920

get talked about

1253

00:49:29,589 --> 00:49:27,440

much but the nuclear testing uh

1254

00:49:31,190 --> 00:49:29,599

we talked a lot about for example

1255

00:49:31,829 --> 00:49:31,200

missile sites or that sort of but

1256

00:49:35,349 --> 00:49:31,839

there's

1257

00:49:38,470 --> 00:49:35,359

that would indicate

1258

00:49:40,790 --> 00:49:38,480

ufos were very interested in tracking

1259

00:49:43,109 --> 00:49:40,800

the early atomic tests both in the south

1260

00:49:46,790 --> 00:49:43,119

pacific and in nevada

1261

00:49:50,630 --> 00:49:46,800

and not just tracking the

1262

00:49:54,150 --> 00:49:50,640

explosion but tracking the clouds

1263

00:49:57,030 --> 00:49:54,160

of radiation because you you find

1264

00:49:58,549 --> 00:49:57,040

ufos it's almost as if these things were

1265

00:50:00,950 --> 00:49:58,559

monitoring

1266

00:50:02,470 --> 00:50:00,960

how much and how much radiation was

1267

00:50:05,750 --> 00:50:02,480

drifting where

1268

00:50:06,470 --> 00:50:05,760

and and possibly even you know asking

1269

00:50:08,790 --> 00:50:06,480

themselves

1270

00:50:11,589 --> 00:50:08,800

question of do these people understand

1271

00:50:18,630 --> 00:50:15,349

yeah so yes from that standpoint and

1272

00:50:22,790 --> 00:50:18,640

in all honesty that might also explain

1273

00:50:26,069 --> 00:50:22,800

what appears to be a fairly low

1274

00:50:29,109 --> 00:50:26,079

frequency monitoring of the radiation

1275

00:50:31,190 --> 00:50:29,119

from the power plants uh one thing that

1276

00:50:33,829 --> 00:50:31,200

i would be

1277

00:50:34,549 --> 00:50:33,839

would love to see is whether there's any

1278

00:50:37,910 --> 00:50:34,559

difference

1279

00:50:38,950 --> 00:50:37,920

between ufo incidents at the different

1280

00:50:43,190 --> 00:50:38,960

type of plants

1281

00:50:47,270 --> 00:50:43,200

for example france with its

1282

00:50:50,150 --> 00:50:47,280

its program of breeder reactors

1283

00:50:52,390 --> 00:50:50,160

and reusing nuclear materials and

1284

00:50:54,309 --> 00:50:52,400

breeder reactors

1285

00:50:55,670 --> 00:50:54,319

is a totally different story than most

1286

00:50:57,589 --> 00:50:55,680

of what we're seeing in

1287

00:50:58,870 --> 00:50:57,599

most of the rest of the world as far as

1288

00:51:01,109 --> 00:50:58,880

atomic plants

1289

00:51:03,109 --> 00:51:01,119

uh i don't know that anyone's ever done

1290

00:51:06,630 --> 00:51:03,119

that kind of study

1291

00:51:08,069 --> 00:51:06,640

right right i do recall where i had

1292

00:51:10,309 --> 00:51:08,079

as we're having this conversation i do

1293

00:51:13,910 --> 00:51:10,319

recall that off

1294

00:51:15,510 --> 00:51:13,920

shore there of a plant

1295

00:51:17,589 --> 00:51:15,520

somewhere i can't remember where it was

1296

00:51:21,270 --> 00:51:17,599

but there was a sighting

1297

00:51:23,430 --> 00:51:21,280

of a uh a craft coming in by by a plant

1298

00:51:25,030 --> 00:51:23,440

where the water was being the cooler

1299

00:51:27,670 --> 00:51:25,040

water was uh

1300

00:51:28,950 --> 00:51:27,680

exchanged out out i don't know how far

1301

00:51:30,790 --> 00:51:28,960

out it is or whatever

1302

00:51:32,230 --> 00:51:30,800

but i did hear about that i don't know

1303

00:51:33,829 --> 00:51:32,240

maybe

1304

00:51:35,670 --> 00:51:33,839

five or six years ago something like

1305

00:51:36,710 --> 00:51:35,680

that i don't know if you've heard of

1306

00:51:39,109 --> 00:51:36,720

that one in particular

1307

00:51:40,870 --> 00:51:39,119

no that i have not heard of that one but

1308

00:51:42,630 --> 00:51:40,880

that makes sense because

1309

00:51:44,390 --> 00:51:42,640

again all you have to do and that sort

1310

00:51:46,309 --> 00:51:44,400

of thing is sampling you don't have to

1311

00:51:48,150 --> 00:51:46,319

be all there all the time you don't have

1312

00:51:51,349 --> 00:51:48,160

to generate a lot you just

1313

00:51:53,910 --> 00:51:51,359

uh i will say and and it's certainly

1314

00:51:54,390 --> 00:51:53,920

anthropomorphic to a certain extent but

1315

00:52:03,670 --> 00:51:54,400

in

1316

00:52:06,150 --> 00:52:03,680

security

1317

00:52:07,430 --> 00:52:06,160

to what i see in the terms of

1318

00:52:10,870 --> 00:52:07,440

reconnaissance

1319

00:52:14,230 --> 00:52:10,880

and surveillance as

1320

00:52:16,790 --> 00:52:14,240

as the earth went through its nuclear

1321

00:52:19,270 --> 00:52:16,800

development cycle for example

1322

00:52:21,270 --> 00:52:19,280

we know quite well at this point in time

1323

00:52:24,549 --> 00:52:21,280

what the united states did

1324

00:52:25,589 --> 00:52:24,559

to determine the soviet union's nuclear

1325

00:52:28,790 --> 00:52:25,599

capability

1326

00:52:32,630 --> 00:52:28,800

both in production and deployment

1327

00:52:34,790 --> 00:52:32,640

uh we then did the same thing to china

1328

00:52:35,670 --> 00:52:34,800

we then did the same thing to north

1329

00:52:37,829 --> 00:52:35,680

korea

1330

00:52:40,470 --> 00:52:37,839

and it's very interesting to map the

1331

00:52:44,069 --> 00:52:40,480

collection techniques that we used

1332

00:52:47,109 --> 00:52:44,079

back into the 1940s and 1950s

1333

00:52:49,190 --> 00:52:47,119

and and to so large extent they're quite

1334

00:52:52,069 --> 00:52:49,200

comparable

1335

00:52:53,270 --> 00:52:52,079

isn't that something that's amazing the

1336

00:52:56,150 --> 00:52:53,280

similarities

1337

00:52:58,150 --> 00:52:56,160

um we're about three minutes we're gonna

1338

00:52:58,870 --> 00:52:58,160

uh or less we're going to be going into

1339

00:53:00,710 --> 00:52:58,880

break

1340

00:53:02,069 --> 00:53:00,720

um so we want to make sure when we come

1341

00:53:05,910 --> 00:53:02,079

back we'll continue

1342

00:53:08,470 --> 00:53:05,920

uh whatever topic we leave off on um

1343

00:53:09,510 --> 00:53:08,480

so do do you think you're going to

1344

00:53:11,750 --> 00:53:09,520

actually have a

1345

00:53:13,670 --> 00:53:11,760

a book do you think you'll have enough

1346

00:53:17,109 --> 00:53:13,680

information to have a book

1347

00:53:21,510 --> 00:53:17,119

eventually about this nuclear

1348

00:53:22,790 --> 00:53:21,520

relation and ufos i i truly hope so if

1349

00:53:25,030 --> 00:53:22,800

we can get these

1350

00:53:28,549 --> 00:53:25,040

if we can conclude the studies that we

1351
00:53:31,270 --> 00:53:28,559
have underway now i think i could do

1352
00:53:32,230 --> 00:53:31,280
essentially do it another edition of an

1353
00:53:35,349 --> 00:53:32,240
identified

1354
00:53:38,549 --> 00:53:35,359
which would examine and

1355
00:53:41,270 --> 00:53:38,559
with data and numbers and and the whole

1356
00:53:42,870 --> 00:53:41,280
the whole question that would be ask the

1357
00:53:43,910 --> 00:53:42,880
question that we're asking in the study

1358
00:53:47,990 --> 00:53:43,920
is

1359
00:53:51,990 --> 00:53:48,000
complex

1360
00:53:53,750 --> 00:53:52,000
anomalous it does it is it like the rest

1361
00:53:55,750 --> 00:53:53,760
of the ufo sightings

1362
00:53:58,150 --> 00:53:55,760
one of the tools we use quite frankly

1363
00:53:58,950 --> 00:53:58,160

for control purposes we're using is ufo

1364

00:54:04,069 --> 00:53:58,960

cat

1365

00:54:07,589 --> 00:54:04,079

gigantic collection

1366

00:54:10,630 --> 00:54:07,599

of incidents the downside is

1367

00:54:12,790 --> 00:54:10,640

they're of widely differing quality

1368

00:54:14,230 --> 00:54:12,800

you know so you have to wrestle with

1369

00:54:15,109 --> 00:54:14,240

that but at least it gives you a

1370

00:54:18,150 --> 00:54:15,119

baseline so

1371

00:54:18,790 --> 00:54:18,160

i can say if i can look at three or four

1372

00:54:22,150 --> 00:54:18,800

places

1373

00:54:24,950 --> 00:54:22,160

in washington state on ufo cad

1374

00:54:26,069 --> 00:54:24,960

and plot the incidents and then look at

1375

00:54:29,510 --> 00:54:26,079

hanford

1376
00:54:30,710 --> 00:54:29,520
and plot the incidents both in time and

1377
00:54:34,309 --> 00:54:30,720
frequency

1378
00:54:36,870 --> 00:54:34,319
then i have at least a feeling

1379
00:54:39,910 --> 00:54:36,880
that something may or may not be

1380
00:54:42,470 --> 00:54:39,920
anomalous about the incidents at hanford

1381
00:54:43,990 --> 00:54:42,480
so yeah i think when we finish the work

1382
00:54:46,230 --> 00:54:44,000
another thing frankly

1383
00:54:47,990 --> 00:54:46,240
i want to do i don't know if the data

1384
00:54:51,270 --> 00:54:48,000
will allow me to do

1385
00:54:52,870 --> 00:54:51,280
i subjectively i have an impression that

1386
00:54:56,150 --> 00:54:52,880
ufos

1387
00:54:57,670 --> 00:54:56,160
over the atomic warfare complex were

1388
00:55:00,870 --> 00:54:57,680

more

1389

00:55:03,829 --> 00:55:00,880

evasive in other words they didn't

1390

00:55:05,589 --> 00:55:03,839

allow aircraft to approach them closely

1391

00:55:06,069 --> 00:55:05,599

they didn't allow themselves to be

1392

00:55:08,549 --> 00:55:06,079

observed

1393

00:55:09,190 --> 00:55:08,559

in daylight when they were tracked by

1394

00:55:12,150 --> 00:55:09,200

radar

1395

00:55:13,190 --> 00:55:12,160

they left and that that is different

1396

00:55:15,990 --> 00:55:13,200

from

1397

00:55:16,789 --> 00:55:16,000

the national population of aircraft

1398

00:55:20,549 --> 00:55:16,799

incidents

1399

00:55:23,829 --> 00:55:20,559

where quite frankly in the early days

1400

00:55:25,829 --> 00:55:23,839

ufos were not bashful at all

1401

00:55:27,589 --> 00:55:25,839

not only did they engage with

1402

00:55:29,990 --> 00:55:27,599

interceptors but they would

1403

00:55:31,030 --> 00:55:30,000

go out of their way to circle all sorts

1404

00:55:34,710 --> 00:55:31,040

of aircraft

1405

00:55:36,789 --> 00:55:34,720

and observe them and interact with them

1406

00:55:39,910 --> 00:55:36,799

but i don't think we're going to see

1407

00:55:43,109 --> 00:55:39,920

that over the atomic warfare facilities

1408

00:55:44,630 --> 00:55:43,119

and if that's true it's it's kind of

1409

00:55:47,750 --> 00:55:44,640

significant it's kind of like i

1410

00:55:47,990 --> 00:55:47,760

i don't you know i'm i'm gonna let you

1411

00:55:49,990 --> 00:55:48,000

see

1412

00:55:51,109 --> 00:55:50,000

me all over the place except where i'm

1413

00:55:54,309 --> 00:55:51,119

really interested

1414

00:55:55,990 --> 00:55:54,319

in well very good well

1415

00:55:57,670 --> 00:55:56,000

we need to go into break so hang in

1416

00:56:00,470 --> 00:55:57,680

there everyone over at

1417

00:56:10,470 --> 00:56:00,480

uh kgra radio we'll be right back right

1418

00:56:13,910 --> 00:56:12,870

uh what would you consider as a person

1419

00:56:16,549 --> 00:56:13,920

qualified to

1420

00:56:18,390 --> 00:56:16,559

interpret what we see well i consider

1421

00:56:21,670 --> 00:56:18,400

astronomers

1422

00:56:23,349 --> 00:56:21,680

a genuinely expert in their field

1423

00:56:25,109 --> 00:56:23,359

first of all they have a tremendous

1424

00:56:26,470 --> 00:56:25,119

advantage over the other physical

1425

00:56:28,069 --> 00:56:26,480

scientists

1426

00:56:30,230 --> 00:56:28,079

and that is that they have powerful

1427

00:56:31,910 --> 00:56:30,240

telescopes and photographic equipment

1428

00:56:33,750 --> 00:56:31,920

which confront very typically

1429

00:56:35,589 --> 00:56:33,760

do astronomical laboratories make any

1430

00:56:37,430 --> 00:56:35,599

contribution to the ufo

1431

00:56:39,589 --> 00:56:37,440

in a negative way they do because i've

1432

00:56:42,230 --> 00:56:39,599

never received the ufo report from the

1433

00:56:45,190 --> 00:56:43,670

well how about the tracking and

1434

00:56:46,069 --> 00:56:45,200

detection facilities of the air force

1435

00:56:48,710 --> 00:56:46,079

itself

1436

00:56:50,710 --> 00:56:48,720

how does this go well actually uh to

1437

00:56:51,030 --> 00:56:50,720

begin with the united states air force

1438

00:56:53,349 --> 00:56:51,040

is

1439

00:56:55,030 --> 00:56:53,359

charged by an act of congress with the

1440

00:56:56,789 --> 00:56:55,040

air defense of the united states and the

1441

00:56:58,230 --> 00:56:56,799

north american air defense command and

1442

00:57:01,270 --> 00:56:58,240

the air defense command

1443

00:57:02,630 --> 00:57:01,280

have space tracking facilities which are

1444

00:57:04,950 --> 00:57:02,640

constantly on the alert

1445

00:57:07,430 --> 00:57:04,960

24 hours a day we're interested in

1446

00:57:09,109 --> 00:57:07,440

anything that flies in our atmosphere

1447

00:57:11,670 --> 00:57:09,119

well how about ufo reports in other

1448

00:57:14,309 --> 00:57:11,680

countries how are they handled

1449

00:57:16,549 --> 00:57:14,319

actually occur worldwide however the

1450

00:57:17,750 --> 00:57:16,559

united states is the only country in the

1451
00:57:20,870 --> 00:57:17,760
world that

1452
00:57:22,309 --> 00:57:20,880
uh places as much emphasis on the

1453
00:57:24,390 --> 00:57:22,319
phenomenon

1454
00:57:26,549 --> 00:57:24,400
other countries place a burden of proof

1455
00:57:28,069 --> 00:57:26,559
in the observer

1456
00:57:30,789 --> 00:57:28,079
that would make your job a lot easier if

1457
00:57:35,829 --> 00:57:34,309
thank you colonel parker major clinton

1458
00:57:37,589 --> 00:57:35,839
i would like to close by reading a very

1459
00:57:40,069 --> 00:57:37,599
brief excerpt from the report of the air

1460
00:57:40,870 --> 00:57:40,079
force's scientific advisory board which

1461
00:57:42,870 --> 00:57:40,880
they made

1462
00:57:45,270 --> 00:57:42,880
recently upon completing a detailed

1463
00:57:47,670 --> 00:57:45,280

review of the subject of ufo

1464

00:57:49,990 --> 00:57:47,680

this is a statement the committee

1465

00:57:51,750 --> 00:57:50,000

concluded that in the 19 years since the

1466

00:57:53,430 --> 00:57:51,760

first ufo was cited

1467

00:57:55,510 --> 00:57:53,440

there has been no evidence that

1468

00:58:07,850 --> 00:57:55,520

unidentified flying objects

1469

00:58:40,990 --> 00:58:07,860

are a threat to our national security

1470

00:58:45,030 --> 00:58:41,000

[Music]

1471

00:58:53,990 --> 00:58:45,040

[Laughter]

1472

00:58:59,750 --> 00:58:57,190

all right uh here we are back and uh

1473

00:59:01,030 --> 00:58:59,760

thanks so much for our guest tonight is

1474

00:59:03,670 --> 00:59:01,040

larry hancock

1475

00:59:04,549 --> 00:59:03,680

and we were talking about the ufo

1476

00:59:07,109 --> 00:59:04,559

problem

1477

00:59:09,589 --> 00:59:07,119

i'd like to say that and uh weapon

1478

00:59:12,710 --> 00:59:09,599

storage and all that i do have a

1479

00:59:15,430 --> 00:59:12,720

uh kind of a follow along uh

1480

00:59:16,950 --> 00:59:15,440

question or whatever oppenheimer i think

1481

00:59:17,430 --> 00:59:16,960

that's how you pronounce his name you

1482

00:59:20,710 --> 00:59:17,440

know he

1483

00:59:22,710 --> 00:59:20,720

he thought at the time when

1484

00:59:23,990 --> 00:59:22,720

the first test went off that it's

1485

00:59:25,430 --> 00:59:24,000

possible i remember

1486

00:59:27,349 --> 00:59:25,440

learning this in high school and i heard

1487

00:59:30,150 --> 00:59:27,359

it recently again on

1488

00:59:31,349 --> 00:59:30,160

uh some documentary but he actually

1489

00:59:34,870 --> 00:59:31,359

thought it could

1490

00:59:35,589 --> 00:59:34,880

all the atoms in the entire world could

1491

00:59:38,150 --> 00:59:35,599

split

1492

00:59:39,670 --> 00:59:38,160

you know it could continue and he kind

1493

00:59:40,309 --> 00:59:39,680

of held his breath when the first test

1494

00:59:42,870 --> 00:59:40,319

went off

1495

00:59:44,549 --> 00:59:42,880

they didn't know they didn't know isn't

1496

00:59:46,470 --> 00:59:44,559

that such a scary thing that they took

1497

00:59:49,670 --> 00:59:46,480

that leap to uh

1498

00:59:51,510 --> 00:59:49,680

test the first one they didn't it's

1499

00:59:53,430 --> 00:59:51,520

actually interestingly uh i've been

1500

00:59:55,670 --> 00:59:53,440

reading a lot about

1501

00:59:57,190 --> 00:59:55,680

uh los alamos and those early

1502

00:59:59,190 --> 00:59:57,200

developments and

1503

01:00:01,510 --> 00:59:59,200

and the physics that was involved and

1504

01:00:03,589 --> 01:00:01,520

how how they reassured themselves that

1505

01:00:07,589 --> 01:00:03,599

they should at least go on and test it i

1506

01:00:10,470 --> 01:00:07,599

i one of the fascinating things is that

1507

01:00:11,109 --> 01:00:10,480

there was enough concern so that they

1508

01:00:16,470 --> 01:00:11,119

actually

1509

01:00:19,510 --> 01:00:16,480

built this gigantic iron vessel

1510

01:00:20,390 --> 01:00:19,520

and the plan was at one point in time

1511

01:00:22,950 --> 01:00:20,400

when they were

1512

01:00:25,270 --> 01:00:22,960

more and more uncertain about this that

1513

01:00:28,710 --> 01:00:25,280

they would conduct the initial explosion

1514

01:00:32,069 --> 01:00:28,720

inside this device to contain it

1515

01:00:34,230 --> 01:00:32,079

just in case and as it ended up they did

1516

01:00:37,510 --> 01:00:34,240

some more calculations and

1517

01:00:39,430 --> 01:00:37,520

and were more confident that

1518

01:00:41,030 --> 01:00:39,440

that it wasn't going to destroy the

1519

01:00:43,430 --> 01:00:41,040

earth but you know there was still a

1520

01:00:45,030 --> 01:00:43,440

percentage and they did not do that but

1521

01:00:47,589 --> 01:00:45,040

at one point that says

1522

01:00:49,109 --> 01:00:47,599

it was it was so concerning that they

1523

01:00:52,390 --> 01:00:49,119

were actually going to try

1524

01:00:56,470 --> 01:00:52,400

a test containment explosion and and

1525

01:01:00,710 --> 01:00:56,480

it's sadly enough it was there were

1526

01:01:03,670 --> 01:01:00,720

scientists who died at los alamos

1527

01:01:04,630 --> 01:01:03,680

through essentially tweaking the device

1528

01:01:07,670 --> 01:01:04,640

to see how much

1529

01:01:11,030 --> 01:01:07,680

radiation would be emitted

1530

01:01:12,230 --> 01:01:11,040

called referring to tweaking the

1531

01:01:14,309 --> 01:01:12,240

dragon's tail

1532

01:01:16,710 --> 01:01:14,319

and if you made a mistake and admit it

1533

01:01:17,349 --> 01:01:16,720

admitted too much radiation it was fatal

1534

01:01:19,670 --> 01:01:17,359

so

1535

01:01:21,589 --> 01:01:19,680

it was a very risky thing on a couple of

1536

01:01:25,030 --> 01:01:21,599

levels

1537

01:01:27,030 --> 01:01:25,040

wow i just

1538

01:01:28,309 --> 01:01:27,040

if they try to contain it it just seems

1539

01:01:31,510 --> 01:01:28,319

like it would just

1540

01:01:33,589 --> 01:01:31,520

make it even more a vicious explosion

1541

01:01:35,990 --> 01:01:33,599

you know

1542

01:01:36,870 --> 01:01:36,000

it does i'm not sure that the physicists

1543

01:01:39,990 --> 01:01:36,880

were ever

1544

01:01:42,470 --> 01:01:40,000

really enamored of that uh you remember

1545

01:01:44,630 --> 01:01:42,480

general gross was an engineer and there

1546

01:01:47,270 --> 01:01:44,640

were a lot of times when engineering

1547

01:01:50,630 --> 01:01:47,280

collided with the physics

1548

01:01:54,470 --> 01:01:50,640

right right and so they went on to test

1549

01:01:57,190 --> 01:01:54,480

and then uh we did have someone

1550

01:01:58,870 --> 01:01:57,200

write uh a question about that which you

1551

01:02:01,270 --> 01:01:58,880

know i understand

1552

01:02:02,870 --> 01:02:01,280

okay there it is right here and don want

1553

01:02:03,589 --> 01:02:02,880

to know why did they let the world get

1554

01:02:05,430 --> 01:02:03,599

away with

1555

01:02:07,270 --> 01:02:05,440

the nuclear weapons test i don't know

1556

01:02:09,750 --> 01:02:07,280

what they would have uh

1557

01:02:10,950 --> 01:02:09,760

they would have done i mean really if

1558

01:02:14,309 --> 01:02:10,960

you think about it

1559

01:02:17,990 --> 01:02:14,319

no one was talking about ufo reports

1560

01:02:20,710 --> 01:02:18,000

in 1945 19 i mean there

1561

01:02:21,990 --> 01:02:20,720

there were there were just incidences

1562

01:02:25,029 --> 01:02:22,000

here and there

1563

01:02:27,029 --> 01:02:25,039

but never what you think of as soon as

1564

01:02:30,150 --> 01:02:27,039

1947

1565

01:02:33,109 --> 01:02:30,160

sudden

1566

01:02:33,349 --> 01:02:33,119

there's uh incident after incident yeah

1567

01:02:38,950 --> 01:02:33,359

and

1568

01:02:39,990 --> 01:02:38,960

these things always evolve in an

1569

01:02:44,150 --> 01:02:40,000

iterative fashion

1570

01:02:47,270 --> 01:02:44,160

in 19 in 1947

1571

01:02:49,589 --> 01:02:47,280

and even back to 1945

1572

01:02:52,710 --> 01:02:49,599

there was a lot of debate as to whether

1573

01:02:55,750 --> 01:02:52,720

you could build what was called a super

1574

01:02:58,870 --> 01:02:55,760

a fusion weapon and that took

1575

01:03:00,630 --> 01:02:58,880

some years that was

1576

01:03:01,990 --> 01:03:00,640

if you were looking at the testing that

1577

01:03:04,870 --> 01:03:02,000

was going on and

1578

01:03:05,190 --> 01:03:04,880

what was happening there was you know

1579

01:03:13,510 --> 01:03:05,200

the

1580

01:03:15,589 --> 01:03:13,520

killers

1581

01:03:17,109 --> 01:03:15,599

it was only when you got into the fusion

1582

01:03:18,950 --> 01:03:17,119

class wethermans

1583

01:03:20,470 --> 01:03:18,960

and then later on into some of the

1584

01:03:22,710 --> 01:03:20,480

things that we didn't build

1585

01:03:25,270 --> 01:03:22,720

quite frankly that you were putting the

1586

01:03:29,109 --> 01:03:25,280

whole planet at risk

1587

01:03:30,470 --> 01:03:29,119

so you if you were looking at this from

1588

01:03:32,549 --> 01:03:30,480

the outside

1589

01:03:34,630 --> 01:03:32,559

you would not necessarily have assumed

1590

01:03:37,270 --> 01:03:34,640

that that step was going to be taken

1591

01:03:38,789 --> 01:03:37,280

in fact a lot of the scientists at the

1592

01:03:41,190 --> 01:03:38,799

time opposed that

1593

01:03:41,910 --> 01:03:41,200

and only a few supported it initially it

1594

01:03:43,750 --> 01:03:41,920

was

1595

01:03:45,430 --> 01:03:43,760

quite frankly when you go into the

1596

01:03:48,470 --> 01:03:45,440

history of

1597

01:03:51,510 --> 01:03:48,480

of the adversary relationship between

1598

01:03:54,710 --> 01:03:51,520

the u.s and the soviet union

1599

01:03:56,309 --> 01:03:54,720

it was a mirroring process where one

1600

01:03:58,230 --> 01:03:56,319

party felt that they had to build

1601
01:03:59,029 --> 01:03:58,240
something because the other wood built

1602
01:04:02,390 --> 01:03:59,039
it

1603
01:04:04,950 --> 01:04:02,400
that's not

1604
01:04:05,750 --> 01:04:04,960
insane but that's that's what really

1605
01:04:07,829 --> 01:04:05,760
happened and

1606
01:04:09,910 --> 01:04:07,839
nobody ever planned all of this and i'm

1607
01:04:12,230 --> 01:04:09,920
not even even sure that it would have

1608
01:04:15,750 --> 01:04:12,240
been anticipated that it would happen

1609
01:04:17,349 --> 01:04:15,760
but if if they were monitoring i think

1610
01:04:20,150 --> 01:04:17,359
that's why the monitoring would have

1611
01:04:22,710 --> 01:04:20,160
been so intense during those first

1612
01:04:23,270 --> 01:04:22,720
five to eight years because that's when

1613
01:04:25,510 --> 01:04:23,280

that step

1614

01:04:27,109 --> 01:04:25,520

is either going to be taken or it's not

1615

01:04:28,069 --> 01:04:27,119

going to be taken if you look at the

1616

01:04:31,190 --> 01:04:28,079

history of

1617

01:04:32,230 --> 01:04:31,200

of weapons control i mean there there

1618

01:04:35,910 --> 01:04:32,240

could have been

1619

01:04:38,950 --> 01:04:35,920

actual global nuclear weapons

1620

01:04:43,270 --> 01:04:38,960

control within the first few

1621

01:04:45,750 --> 01:04:43,280

post-war years that happened it didn't

1622

01:04:46,710 --> 01:04:45,760

yeah unfortunately now i think we can

1623

01:04:48,069 --> 01:04:46,720

blow ourselves up

1624

01:04:49,829 --> 01:04:48,079

i forget how many times i don't want to

1625

01:04:53,670 --> 01:04:49,839

know

1626

01:04:57,270 --> 01:04:53,680

that's a lot at the worst the worst case

1627

01:05:00,870 --> 01:04:57,280

there were 20 000 fusion

1628

01:05:04,069 --> 01:05:00,880

level strategic weapons 20

1629

01:05:06,630 --> 01:05:04,079

000 yes more than 10 000

1630

01:05:08,150 --> 01:05:06,640

in the u.s more than 10 000 in the

1631

01:05:11,270 --> 01:05:08,160

soviet union it's

1632

01:05:13,589 --> 01:05:11,280

it's insane in fact it's so insane and i

1633

01:05:14,630 --> 01:05:13,599

this i developed all of this in the book

1634

01:05:17,910 --> 01:05:14,640

i referred to

1635

01:05:19,109 --> 01:05:17,920

earlier called surprise attack um at the

1636

01:05:22,950 --> 01:05:19,119

end of world war

1637

01:05:25,750 --> 01:05:22,960

ii when everybody was concerned that

1638

01:05:26,390 --> 01:05:25,760

that stalin might just send the red army

1639

01:05:29,109 --> 01:05:26,400

across

1640

01:05:32,150 --> 01:05:29,119

europe which you could easily have done

1641

01:05:35,190 --> 01:05:32,160

uh to the channel at least

1642

01:05:37,109 --> 01:05:35,200

the u.s prepared a strategic bombing

1643

01:05:40,870 --> 01:05:37,119

plan to use to try to

1644

01:05:43,430 --> 01:05:40,880

interdict that at that point in time

1645

01:05:44,390 --> 01:05:43,440

it was felt that you could really stop

1646

01:05:49,750 --> 01:05:44,400

the

1647

01:05:52,150 --> 01:05:49,760

advance

1648

01:05:53,990 --> 01:05:52,160

and you would need maybe 50 fission

1649

01:05:57,829 --> 01:05:54,000

class weapons

1650

01:06:01,029 --> 01:05:57,839

those were the plans

1651
01:06:01,829 --> 01:06:01,039
a few years later when eisenhower was

1652
01:06:04,549 --> 01:06:01,839
elected

1653
01:06:09,270 --> 01:06:04,559
and he looked at the stockpile it's like

1654
01:06:12,470 --> 01:06:11,270
what are you going to do with them and

1655
01:06:16,549 --> 01:06:12,480
but yeah

1656
01:06:18,710 --> 01:06:16,559
you just it it's it's agonizing because

1657
01:06:21,270 --> 01:06:18,720
there's no use for all those weapons to

1658
01:06:24,069 --> 01:06:21,280
any anything other than

1659
01:06:24,950 --> 01:06:24,079
destroying you know the planet not the

1660
01:06:27,670 --> 01:06:24,960
planet but

1661
01:06:28,950 --> 01:06:27,680
uh yeah who's holding the bigger bat

1662
01:06:32,710 --> 01:06:28,960
that type of thing

1663
01:06:35,510 --> 01:06:32,720

um yeah and you know it it's so

1664

01:06:35,829 --> 01:06:35,520

unusual that how the whole thing works i

1665

01:06:39,029 --> 01:06:35,839

my

1666

01:06:42,150 --> 01:06:39,039

brother-in-law worked um at los alamos

1667

01:06:43,589 --> 01:06:42,160

and uh he was actually um under i forget

1668

01:06:44,829 --> 01:06:43,599

what it was but it had to do with

1669

01:06:47,589 --> 01:06:44,839

nuclear

1670

01:06:48,069 --> 01:06:47,599

and so he explained to me how you know

1671

01:06:50,470 --> 01:06:48,079

the

1672

01:06:52,150 --> 01:06:50,480

plutonium is unstable and you know how

1673

01:06:54,309 --> 01:06:52,160

you know being forced together

1674

01:06:55,190 --> 01:06:54,319

that's what it does the nuclear bomb is

1675

01:06:58,549 --> 01:06:55,200

a ball that

1676

01:06:59,270 --> 01:06:58,559

closes in on itself and until um it just

1677

01:07:01,990 --> 01:06:59,280

becomes

1678

01:07:02,710 --> 01:07:02,000

unstable and it the chain reaction

1679

01:07:05,270 --> 01:07:02,720

starts

1680

01:07:06,630 --> 01:07:05,280

it's really up i'm saying in layman's

1681

01:07:07,349 --> 01:07:06,640

term because that's how it was explained

1682

01:07:09,349 --> 01:07:07,359

to me

1683

01:07:11,510 --> 01:07:09,359

but it's uh it is amazing but one of the

1684

01:07:14,069 --> 01:07:11,520

questions i had for you okay so

1685

01:07:14,630 --> 01:07:14,079

there there there's obviously some

1686

01:07:17,990 --> 01:07:14,640

attention

1687

01:07:20,630 --> 01:07:18,000

being paid uh by encounters and

1688

01:07:21,990 --> 01:07:20,640

uh ufo sightings when it comes to

1689

01:07:24,630 --> 01:07:22,000

nuclear

1690

01:07:25,589 --> 01:07:24,640

in all different aspects what about

1691

01:07:29,349 --> 01:07:25,599

other weaponry

1692

01:07:33,829 --> 01:07:29,359

is it just nuclear

1693

01:07:37,670 --> 01:07:33,839

i i see no pattern not only with

1694

01:07:40,950 --> 01:07:37,680

i see no pattern over a long term

1695

01:07:41,349 --> 01:07:40,960

other than with not just nuclear but

1696

01:07:43,510 --> 01:07:41,359

with

1697

01:07:45,270 --> 01:07:43,520

fusion-class weapons what are referred

1698

01:07:47,190 --> 01:07:45,280

to as strategic weapons

1699

01:07:49,270 --> 01:07:47,200

you know initially of course when we

1700

01:07:51,190 --> 01:07:49,280

were just building the fission class

1701

01:07:53,990 --> 01:07:51,200

that's where we started with

1702

01:07:56,069 --> 01:07:54,000

it was all those nuclear sites but as as

1703

01:07:58,230 --> 01:07:56,079

time went on i mean at one point in time

1704

01:08:01,349 --> 01:07:58,240

i think we had

1705

01:08:02,309 --> 01:08:01,359

again i have the number in the book 8

1706

01:08:05,510 --> 01:08:02,319

000

1707

01:08:09,349 --> 01:08:05,520

or more tactical nuclear warheads

1708

01:08:13,549 --> 01:08:09,359

uh and that just means one to five

1709

01:08:16,709 --> 01:08:13,559

kilotons i mean we even had uh

1710

01:08:19,430 --> 01:08:16,719

anti-aircraft uh two

1711

01:08:21,829 --> 01:08:19,440

kiloton weapons it's it's always

1712

01:08:25,349 --> 01:08:21,839

fascinating to me it's like okay we had

1713

01:08:27,510 --> 01:08:25,359

a ring of nike hercules anti-aircraft

1714

01:08:30,950 --> 01:08:27,520

missiles around new york city

1715

01:08:33,669 --> 01:08:30,960

and we were going to launch two megaton

1716

01:08:34,950 --> 01:08:33,679

weapons to knock down soviet bombers who

1717

01:08:37,910 --> 01:08:34,960

were going to be

1718

01:08:39,510 --> 01:08:37,920

dropping two megaton i mean two sorry

1719

01:08:41,669 --> 01:08:39,520

two kelaton weapons on

1720

01:08:43,189 --> 01:08:41,679

new york city sort of like wait a minute

1721

01:08:46,470 --> 01:08:43,199

i brought the bombers down

1722

01:08:48,789 --> 01:08:46,480

but what did i just do to myself um

1723

01:08:49,990 --> 01:08:48,799

and we did that so there were there were

1724

01:08:52,870 --> 01:08:50,000

nuclear weapons

1725

01:08:54,470 --> 01:08:52,880

all over the place in terms of those

1726

01:08:58,229 --> 01:08:54,480

smaller

1727

01:09:01,990 --> 01:08:58,239

you know two kiloton class weapons

1728

01:09:05,030 --> 01:09:02,000

there's no pattern of ufo incidents

1729

01:09:05,990 --> 01:09:05,040

over those anti-aircraft sites what is

1730

01:09:09,349 --> 01:09:06,000

the difference between

1731

01:09:10,229 --> 01:09:09,359

a fusion and nuclear oh they're all

1732

01:09:14,950 --> 01:09:10,239

nuclear

1733

01:09:18,950 --> 01:09:14,960

much

1734

01:09:21,110 --> 01:09:18,960

lower level explosion than fusion

1735

01:09:22,789 --> 01:09:21,120

fusion takes you into the millions of

1736

01:09:25,510 --> 01:09:22,799

tons of tnt

1737

01:09:26,390 --> 01:09:25,520

fusion is thousands well fission okay

1738

01:09:29,349 --> 01:09:26,400

all right

1739

01:09:31,030 --> 01:09:29,359

um i i think uh yeah i misunderstood

1740

01:09:33,590 --> 01:09:31,040

fusion with fission

1741

01:09:34,149 --> 01:09:33,600

i mean the other way around yes but for

1742

01:09:37,189 --> 01:09:34,159

example

1743

01:09:39,669 --> 01:09:37,199

i mean there were all sorts of

1744

01:09:41,189 --> 01:09:39,679

air force bases that might have had

1745

01:09:43,269 --> 01:09:41,199

especially in europe might have had

1746

01:09:46,550 --> 01:09:43,279

tactical nuclear weapons

1747

01:09:48,789 --> 01:09:46,560

mean

1748

01:09:50,229 --> 01:09:48,799

you were talking you had essentially

1749

01:09:53,749 --> 01:09:50,239

nuclear hand grit

1750

01:09:56,870 --> 01:09:53,759

hand grenades and small satchel type

1751

01:09:59,669 --> 01:09:56,880

uh nuclear again all fission not the

1752

01:10:00,550 --> 01:09:59,679

the mega ton class all over the place

1753

01:10:03,910 --> 01:10:00,560

but it's

1754

01:10:05,430 --> 01:10:03,920

it's the air force that's the storage

1755

01:10:08,470 --> 01:10:05,440

sites the air force

1756

01:10:09,830 --> 01:10:08,480

uh weapons dumps the bomb dumps that

1757

01:10:13,270 --> 01:10:09,840

contain the strategic

1758

01:10:14,870 --> 01:10:13,280

fusion class weapons the icbms that had

1759

01:10:18,310 --> 01:10:14,880

the fusion class weapons

1760

01:10:20,630 --> 01:10:18,320

that's where we see very intrusive

1761

01:10:21,990 --> 01:10:20,640

ufo incidents and and when i'm talking

1762

01:10:24,550 --> 01:10:22,000

about truth

1763

01:10:26,229 --> 01:10:24,560

i mean it's it's fantastic to think that

1764

01:10:29,669 --> 01:10:26,239

at the sac bases

1765

01:10:32,950 --> 01:10:29,679

these things came down and descended

1766

01:10:35,750 --> 01:10:32,960

directly over the storage bunkers

1767

01:10:36,550 --> 01:10:35,760

where the fusion weapons were and just

1768

01:10:39,430 --> 01:10:36,560

basically

1769

01:10:39,750 --> 01:10:39,440

circled around the storage bunkers and

1770

01:10:42,630 --> 01:10:39,760

and

1771

01:10:44,550 --> 01:10:42,640

what's fascinating about that is we

1772

01:10:48,229 --> 01:10:44,560

could do nothing about it

1773

01:10:49,030 --> 01:10:48,239

the the incidents in in albuquerque and

1774

01:10:52,149 --> 01:10:49,040

then at the

1775

01:10:55,270 --> 01:10:52,159

bases up in the northern tier states

1776

01:10:57,189 --> 01:10:55,280

um the air police there's just

1777

01:10:58,709 --> 01:10:57,199

nothing we could ever do they would show

1778

01:11:01,750 --> 01:10:58,719

up they would go away

1779

01:11:04,070 --> 01:11:01,760

and you know actually

1780

01:11:06,550 --> 01:11:04,080

as i write in the book you were almost

1781

01:11:07,430 --> 01:11:06,560

hoping that it was a ufo because if it

1782

01:11:10,630 --> 01:11:07,440

wasn't

1783

01:11:13,910 --> 01:11:10,640

and if it was russians you just lost

1784

01:11:17,110 --> 01:11:13,920

yeah and you know okay

1785

01:11:18,070 --> 01:11:17,120

at minot where the icbm you know if that

1786

01:11:20,870 --> 01:11:18,080

was a

1787

01:11:21,430 --> 01:11:20,880

russian spasnets group special forces

1788

01:11:23,510 --> 01:11:21,440

group

1789

01:11:25,830 --> 01:11:23,520

that just demonstrated they can waltz

1790

01:11:28,550 --> 01:11:25,840

into wherever they wanted and

1791

01:11:30,470 --> 01:11:28,560

then leave whenever they wanted i'm

1792

01:11:32,229 --> 01:11:30,480

going for the ufos it's a much

1793

01:11:35,590 --> 01:11:32,239

preferable choice i think

1794

01:11:39,669 --> 01:11:35,600

yeah i have had charles halt

1795

01:11:43,350 --> 01:11:39,679

and other people on from raf bentwaters

1796

01:11:45,830 --> 01:11:43,360

and you know the the there was certainly

1797

01:11:49,669 --> 01:11:45,840

a beam shot down over the weapon storage

1798

01:11:51,189 --> 01:11:49,679

bunkers there um charles halt himself

1799

01:11:52,709 --> 01:11:51,199

cannot say publicly that there were

1800

01:11:54,870 --> 01:11:52,719

nuclear warheads there

1801
01:11:56,550 --> 01:11:54,880
but uh you know it's pretty pretty well

1802
01:11:59,350 --> 01:11:56,560
known that there was

1803
01:12:01,030 --> 01:11:59,360
um so there's another case did you look

1804
01:12:03,189 --> 01:12:01,040
into that one

1805
01:12:04,390 --> 01:12:03,199
yes i haven't and one of the fascinating

1806
01:12:06,070 --> 01:12:04,400
things about that and

1807
01:12:07,990 --> 01:12:06,080
but it makes sense when you think about

1808
01:12:09,910 --> 01:12:08,000
it certainly we know

1809
01:12:11,110 --> 01:12:09,920
because of the mission profile for

1810
01:12:15,510 --> 01:12:11,120
bentwaters

1811
01:12:17,830 --> 01:12:15,520
it would have had not strategic nuclear

1812
01:12:19,590 --> 01:12:17,840
weapons but there was a wing of fighter

1813
01:12:22,790 --> 01:12:19,600

bombers based there

1814

01:12:26,630 --> 01:12:22,800

what that was tasked with

1815

01:12:28,950 --> 01:12:26,640

um a nuclear mission they would have

1816

01:12:29,669 --> 01:12:28,960

gone against targets in in western

1817

01:12:32,390 --> 01:12:29,679

europa

1818

01:12:33,350 --> 01:12:32,400

um so they were tasked with a nuclear

1819

01:12:35,990 --> 01:12:33,360

mission

1820

01:12:37,430 --> 01:12:36,000

at the time of bent waters they were no

1821

01:12:41,590 --> 01:12:37,440

longer there

1822

01:12:44,709 --> 01:12:41,600

now the question is were the bombs there

1823

01:12:47,350 --> 01:12:44,719

and they may not have been but from a

1824

01:12:47,830 --> 01:12:47,360

surveillance reconnaissance sites you

1825

01:12:53,030 --> 01:12:47,840

know

1826

01:12:53,990 --> 01:12:53,040

to determine if they were there i've

1827

01:12:57,030 --> 01:12:54,000

actually tracked an

1828

01:13:00,390 --> 01:12:57,040

incident in new mexico

1829

01:13:02,950 --> 01:13:00,400

where a b-57 bomber wing

1830

01:13:04,390 --> 01:13:02,960

that had been tasked with nuclear

1831

01:13:06,870 --> 01:13:04,400

weapons delivery

1832

01:13:08,870 --> 01:13:06,880

had been moved out of new york state the

1833

01:13:12,470 --> 01:13:08,880

planes had been redeployed to

1834

01:13:12,950 --> 01:13:12,480

uh new mexico and you have a very low

1835

01:13:15,750 --> 01:13:12,960

level

1836

01:13:16,790 --> 01:13:15,760

incident where somebody is probing that

1837

01:13:19,510 --> 01:13:16,800

base

1838

01:13:21,270 --> 01:13:19,520

and it sort of makes you wonder are they

1839

01:13:22,950 --> 01:13:21,280

do they need to come back and go

1840

01:13:25,110 --> 01:13:22,960

well did they move the bombs to or did

1841

01:13:28,470 --> 01:13:25,120

they just move the air you know

1842

01:13:29,270 --> 01:13:28,480

how do how deep does this get how about

1843

01:13:32,390 --> 01:13:29,280

that

1844

01:13:35,669 --> 01:13:32,400

now the enola i think the enola gay

1845

01:13:38,790 --> 01:13:35,679

um the one that dropped on hiroshima

1846

01:13:42,709 --> 01:13:38,800

uh dropped the bomb and hiroshima was

1847

01:13:43,350 --> 01:13:42,719

that was uh nearby roswell wasn't it am

1848

01:13:47,030 --> 01:13:43,360

i getting that

1849

01:13:51,030 --> 01:13:47,040

wrong uh you the unit that

1850

01:13:51,830 --> 01:13:51,040

that bomb japan was staged off an island

1851

01:13:55,350 --> 01:13:51,840

in the pacific

1852

01:13:58,070 --> 01:13:55,360

after the war that those there were

1853

01:13:58,470 --> 01:13:58,080

actually only one squadron of what were

1854

01:14:02,390 --> 01:13:58,480

called

1855

01:14:06,630 --> 01:14:02,400

silver plate b-29s which were b35

1856

01:14:09,350 --> 01:14:06,640

b-29s that had been specifically carried

1857

01:14:11,270 --> 01:14:09,360

constructed or altered to carry the

1858

01:14:12,310 --> 01:14:11,280

nuclear weapons because the nuclear

1859

01:14:15,350 --> 01:14:12,320

weapons were much

1860

01:14:17,990 --> 01:14:15,360

bigger that the bomb bays had to be

1861

01:14:18,950 --> 01:14:18,000

redone the dropping mechanisms had to be

1862

01:14:22,709 --> 01:14:18,960

redone

1863

01:14:24,950 --> 01:14:22,719

those bombs were relocated to an air

1864

01:14:26,470 --> 01:14:24,960

sorry not the bombs the aircraft were

1865

01:14:29,590 --> 01:14:26,480

relocated to

1866

01:14:30,229 --> 01:14:29,600

a base outside of roswell interestingly

1867

01:14:32,470 --> 01:14:30,239

enough

1868

01:14:34,070 --> 01:14:32,480

there were never any atomic weapons

1869

01:14:38,189 --> 01:14:34,080

there those

1870

01:14:40,830 --> 01:14:38,199

those aircraft for the first uh

1871

01:14:44,070 --> 01:14:40,840

1945 through about

1872

01:14:47,030 --> 01:14:44,080

19 those

1873

01:14:48,870 --> 01:14:47,040

air any aircraft to be equipped to be

1874

01:14:51,830 --> 01:14:48,880

loaded with a nuclear bomb

1875

01:14:53,270 --> 01:14:51,840

had to fly to albuquerque to kirtland

1876

01:14:55,830 --> 01:14:53,280

air force base

1877

01:14:58,149 --> 01:14:55,840

and be loaded and then sent off on a

1878

01:15:01,189 --> 01:14:58,159

mission whether it was for testing

1879

01:15:03,270 --> 01:15:01,199

or an operational deployment all the

1880

01:15:03,990 --> 01:15:03,280

bombs up to that point in time were in

1881

01:15:07,990 --> 01:15:04,000

storage

1882

01:15:09,669 --> 01:15:08,000

at the sandia manzano weapons complex in

1883

01:15:12,070 --> 01:15:09,679

albuquerque which is

1884

01:15:12,790 --> 01:15:12,080

quite frankly why albuquerque has one of

1885

01:15:15,430 --> 01:15:12,800

the most

1886

01:15:17,110 --> 01:15:15,440

i won't say why it has what it appears

1887

01:15:20,630 --> 01:15:17,120

that it might have had

1888

01:15:23,750 --> 01:15:20,640

one of the most intense

1889

01:15:25,189 --> 01:15:23,760

series of ufo incidents specifically

1890

01:15:30,070 --> 01:15:25,199

over those bases

1891

01:15:33,750 --> 01:15:30,080

uh sandia paul benoit

1892

01:15:35,830 --> 01:15:33,760

yeah yeah because for three years that's

1893

01:15:36,790 --> 01:15:35,840

that's where all the bombs were

1894

01:15:40,390 --> 01:15:36,800

assembled

1895

01:15:43,110 --> 01:15:40,400

and that's where they were stockpiled

1896

01:15:44,470 --> 01:15:43,120

um you i'm sure you know quite a bit

1897

01:15:48,630 --> 01:15:44,480

about the paul bennowitz

1898

01:15:51,510 --> 01:15:48,640

you know situation back and uh at sandia

1899

01:15:53,270 --> 01:15:51,520

was it is it is that that was it that

1900

01:15:55,430 --> 01:15:53,280

place right there

1901

01:15:56,310 --> 01:15:55,440

oh that's why you got the book project

1902

01:15:59,110 --> 01:15:56,320

beta

1903

01:16:00,630 --> 01:15:59,120

which is an excellent excellent book um

1904

01:16:02,390 --> 01:16:00,640

that was uh wasn't that great that was

1905

01:16:02,870 --> 01:16:02,400

great bishop he was just on a few weeks

1906

01:16:06,550 --> 01:16:02,880

ago

1907

01:16:09,750 --> 01:16:06,560

yes excellent research yes

1908

01:16:10,790 --> 01:16:09,760

that was that is sandia base one of the

1909

01:16:12,709 --> 01:16:10,800

problems

1910

01:16:14,310 --> 01:16:12,719

of figuring out what's going on sandia

1911

01:16:17,590 --> 01:16:14,320

base is sandia has

1912

01:16:20,790 --> 01:16:17,600

hosted a great number of different types

1913

01:16:21,669 --> 01:16:20,800

of weapons development activities over

1914

01:16:25,510 --> 01:16:21,679

the years it's

1915

01:16:27,590 --> 01:16:25,520

it's always had some association with

1916

01:16:29,350 --> 01:16:27,600

nuclear weapons i remember i

1917

01:16:32,870 --> 01:16:29,360

i graduated from the university of

1918

01:16:35,990 --> 01:16:32,880

mexico and took a class in

1919

01:16:37,750 --> 01:16:36,000

basic atomics uh and we went out to

1920

01:16:39,830 --> 01:16:37,760

to the base and they gave us a cheer i

1921

01:16:41,430 --> 01:16:39,840

was i was much impressed because we

1922

01:16:42,870 --> 01:16:41,440

started walking around one of the

1923

01:16:45,189 --> 01:16:42,880

research labs

1924

01:16:45,990 --> 01:16:45,199

and kept wondering why the floor was so

1925

01:16:49,430 --> 01:16:46,000

bumpy

1926

01:16:50,310 --> 01:16:49,440

and it's like why why is this tile floor

1927

01:16:51,750 --> 01:16:50,320

two foot high

1928

01:16:53,910 --> 01:16:51,760

and they would say well that's because

1929

01:16:55,189 --> 01:16:53,920

somebody spilled some radioactive

1930

01:16:58,550 --> 01:16:55,199

material there

1931

01:16:59,590 --> 01:16:58,560

and we had to we had to pour lead on top

1932

01:17:02,070 --> 01:16:59,600

of it

1933

01:17:02,790 --> 01:17:02,080

oh wow yeah that's one way to take care

1934

01:17:04,390 --> 01:17:02,800

of it

1935

01:17:05,830 --> 01:17:04,400

you never know if somebody's pulling

1936

01:17:08,630 --> 01:17:05,840

your leg but it's like

1937

01:17:10,070 --> 01:17:08,640

okay maybe the tile's just coming up and

1938

01:17:13,430 --> 01:17:10,080

that's a good story but

1939

01:17:15,510 --> 01:17:13,440

yeah certainly got your attention

1940

01:17:19,110 --> 01:17:15,520

uh if they were looking for safety yeah

1941

01:17:22,870 --> 01:17:19,120

you bet i'll do whatever you tell me

1942

01:17:25,110 --> 01:17:22,880

but sandia base its mission

1943

01:17:26,790 --> 01:17:25,120

changed over the years in the first

1944

01:17:30,470 --> 01:17:26,800

years it was

1945

01:17:33,350 --> 01:17:30,480

an assembly base a storage compound

1946

01:17:34,950 --> 01:17:33,360

uh then it was the transfer point where

1947

01:17:37,270 --> 01:17:34,960

all the bombs were

1948

01:17:40,229 --> 01:17:37,280

offloaded that went to both the south

1949

01:17:43,430 --> 01:17:40,239

pacific and to nevada for the testing

1950

01:17:44,149 --> 01:17:43,440

it was never an operational sac base it

1951

01:17:46,550 --> 01:17:44,159

was a

1952

01:17:49,510 --> 01:17:46,560

logistics base and then after a certain

1953

01:17:51,510 --> 01:17:49,520

point they started moving all the

1954

01:17:53,750 --> 01:17:51,520

most many of the weapons out to field

1955

01:17:56,790 --> 01:17:53,760

locations

1956

01:17:57,350 --> 01:17:56,800

but by the time of the benowitz era

1957

01:18:00,390 --> 01:17:57,360

there was

1958

01:18:01,030 --> 01:18:00,400

a lot of other testing that was going on

1959

01:18:02,630 --> 01:18:01,040

there

1960

01:18:04,070 --> 01:18:02,640

having to do with the star wars

1961

01:18:06,950 --> 01:18:04,080

initiative

1962

01:18:08,070 --> 01:18:06,960

having to do with things ranging from

1963

01:18:11,270 --> 01:18:08,080

stealth

1964

01:18:14,390 --> 01:18:11,280
to adaptive optics

1965

01:18:16,390 --> 01:18:14,400
for satellite surveillance and and which

1966

01:18:17,350 --> 01:18:16,400
involves sending out coherent light

1967

01:18:20,790 --> 01:18:17,360
beams

1968

01:18:23,270 --> 01:18:20,800
uh and of course all that testing

1969

01:18:24,950 --> 01:18:23,280
was done at night because it's kind of

1970

01:18:27,750 --> 01:18:24,960
like area 51

1971

01:18:29,350 --> 01:18:27,760
you know that the other folks know where

1972

01:18:31,910 --> 01:18:29,360
you're doing these tests and

1973

01:18:33,189 --> 01:18:31,920
you either do it in the dark or you try

1974

01:18:35,270 --> 01:18:33,199
to frustrate their

1975

01:18:36,310 --> 01:18:35,280
satellite collections to some extent if

1976

01:18:39,750 --> 01:18:36,320

you can

1977

01:18:43,430 --> 01:18:39,760

um but so there was if you're asking

1978

01:18:45,030 --> 01:18:43,440

that is the sandia base it's just that

1979

01:18:46,950 --> 01:18:45,040

when you're talking about what was going

1980

01:18:50,790 --> 01:18:46,960

on at sandia you have to be pretty

1981

01:18:53,990 --> 01:18:53,430

um my i mentioned earlier that my

1982

01:18:56,790 --> 01:18:54,000

brother-in-law

1983

01:18:57,669 --> 01:18:56,800

worked at los alamos and they're very

1984

01:19:00,950 --> 01:18:57,679

involved with

1985

01:19:03,270 --> 01:19:00,960

things nuclear there um have

1986

01:19:05,350 --> 01:19:03,280

have people reported are you aware of if

1987

01:19:09,030 --> 01:19:05,360

people have reported

1988

01:19:12,149 --> 01:19:09,040

uh sightings over the labs there

1989

01:19:14,229 --> 01:19:12,159

at the from the well actually not only

1990

01:19:14,709 --> 01:19:14,239

have they reported sightings and i cover

1991

01:19:18,310 --> 01:19:14,719

this at

1992

01:19:22,070 --> 01:19:18,320

a pretty great length in the the book um

1993

01:19:25,430 --> 01:19:22,080

los alamos after basically after

1994

01:19:27,270 --> 01:19:25,440

hanford and oak ridge los alamos

1995

01:19:29,750 --> 01:19:27,280

did assemble the first weapons for

1996

01:19:31,110 --> 01:19:29,760

testing and did a lot of the design and

1997

01:19:33,910 --> 01:19:31,120

development work so

1998

01:19:35,430 --> 01:19:33,920

if you had the capability to track

1999

01:19:38,229 --> 01:19:35,440

atomic materials

2000

01:19:39,189 --> 01:19:38,239

to radiate radioactive productions if

2001

01:19:42,390 --> 01:19:39,199

you're

2002

01:19:43,110 --> 01:19:42,400

tracking u-238 or plutonium what you

2003

01:19:46,310 --> 01:19:43,120

notice

2004

01:19:48,870 --> 01:19:46,320

is that it's going to los alamos okay

2005

01:19:49,350 --> 01:19:48,880

so as that begins to happen there was a

2006

01:19:53,030 --> 01:19:49,360

whole

2007

01:19:56,149 --> 01:19:53,040

there was a host of ufo incidents

2008

01:20:00,470 --> 01:19:56,159

in and around los alamos so much

2009

01:20:03,750 --> 01:20:00,480

so that when the air force essentially

2010

01:20:05,350 --> 01:20:03,760

refused to take it seriously a number of

2011

01:20:08,830 --> 01:20:05,360

scientists

2012

01:20:11,750 --> 01:20:08,840

from los alamos set up their own

2013

01:20:13,590 --> 01:20:11,760

investigations unit and received the

2014

01:20:15,030 --> 01:20:13,600

authority to use some of the equipment

2015

01:20:18,310 --> 01:20:15,040

out of their labs

2016

01:20:19,669 --> 01:20:18,320

wow and and did some of the very first

2017

01:20:22,629 --> 01:20:19,679

correlation

2018

01:20:24,870 --> 01:20:22,639

of uf overflow ufo overflights to

2019

01:20:27,910 --> 01:20:24,880

radiation detection

2020

01:20:28,790 --> 01:20:27,920

uh there were only been three places

2021

01:20:32,310 --> 01:20:28,800

where that was

2022

01:20:35,430 --> 01:20:32,320

attempted uh with any kind of

2023

01:20:38,709 --> 01:20:35,440

structure one was at los alamos

2024

01:20:41,110 --> 01:20:38,719

and and it was verified repeatedly

2025

01:20:41,910 --> 01:20:41,120

when ufos passed over there was an

2026

01:20:44,629 --> 01:20:41,920

increase in

2027

01:20:45,110 --> 01:20:44,639

incident radiation the same thing was

2028

01:20:48,229 --> 01:20:45,120

done at

2029

01:20:50,149 --> 01:20:48,239

oak ridge and strangely enough

2030

01:20:52,149 --> 01:20:50,159

another incident of the same nature

2031

01:20:54,629 --> 01:20:52,159

nature occurred at palomar

2032

01:20:56,709 --> 01:20:54,639

which is a totally different story and

2033

01:21:00,550 --> 01:20:56,719

was a one-time one-off event

2034

01:21:02,390 --> 01:21:00,560

but it was repetitive at both los alamos

2035

01:21:05,189 --> 01:21:02,400

and at oak ridge

2036

01:21:05,750 --> 01:21:05,199

well what is uh what is palomar what

2037

01:21:08,470 --> 01:21:05,760

i've heard

2038

01:21:09,750 --> 01:21:08,480

oh they've heard the observatory oh oh

2039

01:21:12,870 --> 01:21:09,760

okay that's where i heard of that

2040

01:21:15,030 --> 01:21:12,880

yeah and the only only reason the only

2041

01:21:18,229 --> 01:21:15,040

reason it observed there is

2042

01:21:20,550 --> 01:21:18,239

as you can imagine you're they happen to

2043

01:21:23,669 --> 01:21:20,560

be running a series of exp

2044

01:21:28,229 --> 01:21:23,679

experiments for the navy on

2045

01:21:29,910 --> 01:21:28,239

uh and radioactive detection for various

2046

01:21:31,669 --> 01:21:29,920

reasons i won't go into that but

2047

01:21:33,830 --> 01:21:31,679

they just happen to have the equipment

2048

01:21:37,110 --> 01:21:33,840

set up and

2049

01:21:41,110 --> 01:21:37,120

it just happened to register

2050

01:21:44,390 --> 01:21:41,120

this when uh ufo passed over

2051
01:21:46,870 --> 01:21:44,400
but generally those sorts of radiation

2052
01:21:49,910 --> 01:21:46,880
detectors were not set up over the place

2053
01:21:50,550 --> 01:21:49,920
they were set up at los alamos and oak

2054
01:21:52,709 --> 01:21:50,560
ridge

2055
01:21:54,629 --> 01:21:52,719
because they were concerned about any

2056
01:21:56,709 --> 01:21:54,639
spike in radiation

2057
01:21:58,470 --> 01:21:56,719
that they couldn't explain because it

2058
01:22:00,870 --> 01:21:58,480
was suggested that they might have had a

2059
01:22:04,390 --> 01:22:00,880
materials leak or an accident

2060
01:22:04,870 --> 01:22:04,400
or whatever and so that was particularly

2061
01:22:08,070 --> 01:22:04,880
true

2062
01:22:10,070 --> 01:22:08,080
at oak ridge and the

2063
01:22:11,430 --> 01:22:10,080

the people at oak ridge actually

2064

01:22:15,270 --> 01:22:11,440

proposed

2065

01:22:17,510 --> 01:22:15,280

to the air force to set up and conduct

2066

01:22:19,350 --> 01:22:17,520

a very structured experimental

2067

01:22:21,510 --> 01:22:19,360

collection to prove

2068

01:22:24,070 --> 01:22:21,520

that their radiation spikes were coming

2069

01:22:24,950 --> 01:22:24,080

from the ufos that they were seeing pass

2070

01:22:27,830 --> 01:22:24,960

over

2071

01:22:28,629 --> 01:22:27,840

and the air force just that was during

2072

01:22:30,790 --> 01:22:28,639

the grudge

2073

01:22:32,470 --> 01:22:30,800

era of air force intelligence and they

2074

01:22:33,590 --> 01:22:32,480

just didn't want to hear it

2075

01:22:35,830 --> 01:22:33,600

i don't know if you were listening

2076

01:22:39,110 --> 01:22:35,840

during the break when the

2077

01:22:39,669 --> 01:22:39,120

uh the project blue book um was being

2078

01:22:43,430 --> 01:22:39,679

interviewed

2079

01:22:45,030 --> 01:22:43,440

and and uh the question was you know who

2080

01:22:47,270 --> 01:22:45,040

are your good observers and

2081

01:22:49,189 --> 01:22:47,280

he said well i would think that the best

2082

01:22:53,510 --> 01:22:49,199

observers would be astronomers and

2083

01:22:55,350 --> 01:22:53,520

we haven't had one single astronomer

2084

01:22:56,790 --> 01:22:55,360

you know report anything from any

2085

01:22:58,550 --> 01:22:56,800

observatory

2086

01:22:59,830 --> 01:22:58,560

and you think about it observatories

2087

01:23:01,270 --> 01:22:59,840

they're looking at you know

2088

01:23:03,590 --> 01:23:01,280

trying to look at planets but looking at

2089

01:23:05,270 --> 01:23:03,600

stars way way out there why would they

2090

01:23:08,629 --> 01:23:05,280

see a little teeny tiny

2091

01:23:11,590 --> 01:23:08,639

you know ufo if they're looking like

2092

01:23:12,550 --> 01:23:11,600

light years away yeah what i would have

2093

01:23:15,110 --> 01:23:12,560

loved to have done

2094

01:23:16,550 --> 01:23:15,120

just after he said that was to put up

2095

01:23:20,149 --> 01:23:16,560

the document

2096

01:23:23,030 --> 01:23:20,159

that heineck did because actually for

2097

01:23:24,310 --> 01:23:23,040

project sign heineck was asked

2098

01:23:26,470 --> 01:23:24,320

volunteered to

2099

01:23:27,669 --> 01:23:26,480

and was asked to go out and essentially

2100

01:23:30,870 --> 01:23:27,679

do a

2101
01:23:32,870 --> 01:23:30,880
covert survey of astronomers to find out

2102
01:23:34,390 --> 01:23:32,880
who believed and who had seen and so on

2103
01:23:37,669 --> 01:23:34,400
and so forth and he

2104
01:23:40,149 --> 01:23:37,679
he did interview i i think

2105
01:23:41,750 --> 01:23:40,159
50 or 60 astronomers and basically or

2106
01:23:43,830 --> 01:23:41,760
more and he made a report

2107
01:23:45,270 --> 01:23:43,840
we actually have that report back now i

2108
01:23:47,910 --> 01:23:45,280
mentioned it in the book

2109
01:23:49,750 --> 01:23:47,920
um and what he found out was that there

2110
01:23:52,709 --> 01:23:49,760
were a number of astronomers

2111
01:23:54,070 --> 01:23:52,719
who had seen ufos that that they

2112
01:23:56,149 --> 01:23:54,080
couldn't explain

2113
01:23:57,990 --> 01:23:56,159

there were another number of astronomers

2114

01:24:01,270 --> 01:23:58,000

that were very interested them

2115

01:24:02,070 --> 01:24:01,280

but to a person they said that it would

2116

01:24:04,310 --> 01:24:02,080

absolutely

2117

01:24:05,430 --> 01:24:04,320

kill their careers if they even

2118

01:24:07,110 --> 01:24:05,440

acknowledged that

2119

01:24:09,350 --> 01:24:07,120

and the only reason they would admit it

2120

01:24:10,550 --> 01:24:09,360

to him was he was another professional

2121

01:24:13,830 --> 01:24:10,560

astronomer

2122

01:24:15,830 --> 01:24:13,840

so i think if you if you kind of

2123

01:24:18,149 --> 01:24:15,840

distributed that memo where those nice

2124

01:24:21,669 --> 01:24:18,159

air force folks were talking it would

2125

01:24:24,470 --> 01:24:21,679

probably undercut their proposition

2126
01:24:26,149 --> 01:24:24,480
yes um i'm i'm texting alejandro right

2127
01:24:29,430 --> 01:24:26,159
now because i know he wrote a

2128
01:24:31,189 --> 01:24:29,440
a blog on that you know basically called

2129
01:24:33,030 --> 01:24:31,199
astronomers and ufos i was just looking

2130
01:24:35,990 --> 01:24:33,040
forward to see if i could pull that up

2131
01:24:37,110 --> 01:24:36,000
i could actually uh share that and i

2132
01:24:38,950 --> 01:24:37,120
remember when i

2133
01:24:40,550 --> 01:24:38,960
started doing the show right off the bat

2134
01:24:42,950 --> 01:24:40,560
early on um

2135
01:24:44,790 --> 01:24:42,960
in like 2012 or something like that i

2136
01:24:47,510 --> 01:24:44,800
was contacted by

2137
01:24:49,110 --> 01:24:47,520
a really nice gent he was involved in

2138
01:24:51,030 --> 01:24:49,120

the show for a little while

2139

01:24:52,229 --> 01:24:51,040

um but he passed away unfortunately but

2140

01:24:55,590 --> 01:24:52,239

he was a

2141

01:24:57,110 --> 01:24:55,600

amateur astronomer and he talks about

2142

01:24:59,430 --> 01:24:57,120

being out in the field

2143

01:25:00,709 --> 01:24:59,440

his story was he was out in the field

2144

01:25:02,310 --> 01:25:00,719

and he was

2145

01:25:04,310 --> 01:25:02,320

you know done for the night and walking

2146

01:25:05,910 --> 01:25:04,320

with his telescope over his shoulder

2147

01:25:09,270 --> 01:25:05,920

and he said all of a sudden this big

2148

01:25:11,590 --> 01:25:09,280

huge triangle looked like a mile wide

2149

01:25:12,310 --> 01:25:11,600

glided right over him without a sound

2150

01:25:14,310 --> 01:25:12,320

and so

2151
01:25:15,830 --> 01:25:14,320
he he started a website i forget what it

2152
01:25:16,790 --> 01:25:15,840
was called but it was something about

2153
01:25:19,830 --> 01:25:16,800
astronomer

2154
01:25:21,750 --> 01:25:19,840
like that you know he was an

2155
01:25:23,990 --> 01:25:21,760
amateur astronomer but he was he was

2156
01:25:24,790 --> 01:25:24,000
very involved he was on radio shows and

2157
01:25:27,750 --> 01:25:24,800
things

2158
01:25:29,350 --> 01:25:27,760
there's an excellent book and i didn't

2159
01:25:31,110 --> 01:25:29,360
pull it so i can't grab it it's on the

2160
01:25:34,790 --> 01:25:31,120
shelf back there about a

2161
01:25:36,470 --> 01:25:34,800
uh as an astronomer at well he was

2162
01:25:38,870 --> 01:25:36,480
teaching astronomy

2163
01:25:40,310 --> 01:25:38,880

at the university of a university in

2164

01:25:43,669 --> 01:25:40,320

missouri

2165

01:25:46,790 --> 01:25:43,679

and they had a ufo wave

2166

01:25:48,550 --> 01:25:46,800

in southeastern missouri and he actually

2167

01:25:50,790 --> 01:25:48,560

managed to convince his university to

2168

01:25:53,189 --> 01:25:50,800

let him put together a team

2169

01:25:56,229 --> 01:25:53,199

use some of the equipment and went out

2170

01:25:59,750 --> 01:25:56,239

and made a series of observations over

2171

01:26:02,629 --> 01:25:59,760

a couple of years and uh

2172

01:26:03,910 --> 01:26:02,639

one of the problems was that course most

2173

01:26:06,790 --> 01:26:03,920

of that was at night

2174

01:26:08,310 --> 01:26:06,800

and nighttime ufo observations are one

2175

01:26:12,790 --> 01:26:08,320

of the most difficult

2176
01:26:16,390 --> 01:26:12,800
to track and capture and quantify

2177
01:26:19,189 --> 01:26:16,400
just terribly challenging but

2178
01:26:21,030 --> 01:26:19,199
he reports all of that in the book but

2179
01:26:23,750 --> 01:26:21,040
to correspond to your point

2180
01:26:25,030 --> 01:26:23,760
the one that he did see up close is when

2181
01:26:27,110 --> 01:26:25,040
they were out setting up

2182
01:26:29,270 --> 01:26:27,120
equipment and while they were setting up

2183
01:26:29,990 --> 01:26:29,280
equipment he happened to look over his

2184
01:26:33,189 --> 01:26:30,000
shoulder

2185
01:26:36,310 --> 01:26:33,199
and he saw this gigantic delta fly

2186
01:26:39,270 --> 01:26:36,320
over at about 100 feet up in the air

2187
01:26:40,470 --> 01:26:39,280
so close that the a series of what

2188
01:26:42,390 --> 01:26:40,480

appeared to be

2189

01:26:43,830 --> 01:26:42,400

tail lights or something that would look

2190

01:26:46,390 --> 01:26:43,840

like tail lights

2191

01:26:48,149 --> 01:26:46,400

were visible on the rear of the craft

2192

01:26:48,790 --> 01:26:48,159

and they were so visible that you could

2193

01:26:50,950 --> 01:26:48,800

even see

2194

01:26:52,470 --> 01:26:50,960

that they were striated and you could

2195

01:26:54,550 --> 01:26:52,480

see the shape to them

2196

01:26:57,270 --> 01:26:54,560

but that's very much in line with what

2197

01:26:59,510 --> 01:26:57,280

you were saying it's an excellent book

2198

01:27:00,629 --> 01:26:59,520

what year approximately was that do you

2199

01:27:05,110 --> 01:27:00,639

remember

2200

01:27:08,550 --> 01:27:05,120

i think that would have been in the 80s

2201

01:27:10,149 --> 01:27:08,560

if i recall late 70s early 80s

2202

01:27:12,149 --> 01:27:10,159

that's another big question mark you

2203

01:27:13,030 --> 01:27:12,159

know i've had dave marlar on a bunch of

2204

01:27:16,709 --> 01:27:13,040

times and

2205

01:27:18,790 --> 01:27:16,719

he talks about you know the

2206

01:27:20,709 --> 01:27:18,800

the triangle ufo you know was his the

2207

01:27:24,070 --> 01:27:20,719

feature of the book he did

2208

01:27:27,350 --> 01:27:24,080

um and i'm going to pull up that article

2209

01:27:30,390 --> 01:27:27,360

uh of just to bring it up

2210

01:27:32,629 --> 01:27:30,400

so people can see it um on

2211

01:27:34,229 --> 01:27:32,639

on what alejandro wrote about that topic

2212

01:27:39,350 --> 01:27:34,239

which is really interesting

2213

01:27:41,189 --> 01:27:39,360

um but uh

2214

01:27:43,590 --> 01:27:41,199

oh god i can't believe i just lost my

2215

01:27:46,870 --> 01:27:43,600

train of thought

2216

01:27:49,350 --> 01:27:46,880

trying to get this article up here um

2217

01:27:51,590 --> 01:27:49,360

well just to comment another piece of

2218

01:27:55,350 --> 01:27:51,600

research i'm engaged in at the moment

2219

01:27:57,430 --> 01:27:55,360

uh with uh another

2220

01:27:59,350 --> 01:27:57,440

individual from scu is we're looking at

2221

01:28:01,350 --> 01:27:59,360

the characteristics

2222

01:28:03,350 --> 01:28:01,360

both the flight characteristics and the

2223

01:28:06,709 --> 01:28:03,360

physical characteristics

2224

01:28:10,629 --> 01:28:06,719

of ufos that are seen at

2225

01:28:13,270 --> 01:28:10,639

a close enough distance within

2226
01:28:14,950 --> 01:28:13,280
close enough so that you can visually

2227
01:28:17,669 --> 01:28:14,960
observe structure

2228
01:28:19,030 --> 01:28:17,679
and detail to the objects it's it's

2229
01:28:22,629 --> 01:28:19,040
within a mile

2230
01:28:24,629 --> 01:28:22,639
you know and we've been very so

2231
01:28:25,910 --> 01:28:24,639
we've gone through thousands and

2232
01:28:27,910 --> 01:28:25,920
thousands of report

2233
01:28:30,070 --> 01:28:27,920
reports and boiled it down to a few

2234
01:28:33,189 --> 01:28:30,080
hundred and we're doing a pattern

2235
01:28:35,910 --> 01:28:33,199
analysis on that to see if there are any

2236
01:28:37,990 --> 01:28:35,920
shifts in shape uh maneuvering

2237
01:28:41,110 --> 01:28:38,000
capability

2238
01:28:43,510 --> 01:28:41,120

and there definitely are some trends

2239

01:28:45,189 --> 01:28:43,520

in shape that is really strange and that

2240

01:28:46,390 --> 01:28:45,199

that that was basically the question i

2241

01:28:49,590 --> 01:28:46,400

was going to ask you

2242

01:28:51,750 --> 01:28:49,600

uh because it was in the 1980s and this

2243

01:28:54,149 --> 01:28:51,760

is alejandro's i'll just put that up

2244

01:28:56,310 --> 01:28:54,159

um so people can see it as well but so

2245

01:28:59,189 --> 01:28:56,320

that was in the 1980s and

2246

01:28:59,750 --> 01:28:59,199

you think of the way these things seem

2247

01:29:02,229 --> 01:28:59,760

to

2248

01:29:02,870 --> 01:29:02,239

work out it won't expand any more than

2249

01:29:05,910 --> 01:29:02,880

that

2250

01:29:08,550 --> 01:29:05,920

um but it

2251

01:29:10,390 --> 01:29:08,560

it's it's like there's um a year in a

2252

01:29:13,510 --> 01:29:10,400

model okay there's the discs

2253

01:29:14,950 --> 01:29:13,520

for a while and uh you know that seems

2254

01:29:17,830 --> 01:29:14,960

like a popular thing

2255

01:29:18,470 --> 01:29:17,840

and then it changes you know uh well a

2256

01:29:20,870 --> 01:29:18,480

lot of times

2257

01:29:21,750 --> 01:29:20,880

i'm not saying it changes directly but

2258

01:29:25,189 --> 01:29:21,760

people are

2259

01:29:27,910 --> 01:29:25,199

we're talking about um you know orbs and

2260

01:29:29,669 --> 01:29:27,920

and uh cigar shape you know the

2261

01:29:33,830 --> 01:29:29,679

different types of objects

2262

01:29:36,629 --> 01:29:33,840

and things along the way and uh

2263

01:29:38,470 --> 01:29:36,639

it is i i would be very interested in

2264

01:29:40,709 --> 01:29:38,480

what you find out when you do that

2265

01:29:42,550 --> 01:29:40,719

that type of study because uh one of the

2266

01:29:45,189 --> 01:29:42,560

things you just mentioned there was

2267

01:29:46,470 --> 01:29:45,199

the maneuverability and i never think

2268

01:29:48,470 --> 01:29:46,480

about anything

2269

01:29:49,990 --> 01:29:48,480

when it comes to that another thing that

2270

01:29:53,669 --> 01:29:50,000

i think is

2271

01:29:55,910 --> 01:29:53,679

a curiosity that people mention

2272

01:29:57,990 --> 01:29:55,920

most of the time they say the same thing

2273

01:30:01,110 --> 01:29:58,000

and with my own sighting as well

2274

01:30:02,390 --> 01:30:01,120

is uh no sound at all but then there's

2275

01:30:05,270 --> 01:30:02,400

the high pitched sound

2276

01:30:07,030 --> 01:30:05,280

there's uh you know like the arielle

2277

01:30:08,229 --> 01:30:07,040

school they heard a whistle what sounded

2278

01:30:09,990 --> 01:30:08,239

like a whistle

2279

01:30:11,590 --> 01:30:10,000

um there's the buzzing there's the

2280

01:30:13,590 --> 01:30:11,600

humming uh

2281

01:30:14,709 --> 01:30:13,600

all all the different uh things that

2282

01:30:16,870 --> 01:30:14,719

people hear

2283

01:30:18,870 --> 01:30:16,880

that's another thing and we're we're

2284

01:30:19,590 --> 01:30:18,880

wrestling that with my friend robert

2285

01:30:22,790 --> 01:30:19,600

powell

2286

01:30:23,990 --> 01:30:22,800

who i'm working with him on it he has

2287

01:30:25,910 --> 01:30:24,000

created a

2288

01:30:28,470 --> 01:30:25,920

we started out with a spreadsheet that

2289

01:30:30,310 --> 01:30:28,480

had like well 12 columns and i think we

2290

01:30:32,390 --> 01:30:30,320

ended up with a spreadsheet it has 50

2291

01:30:34,550 --> 01:30:32,400

columns or something like that

2292

01:30:36,590 --> 01:30:34,560

and so we're capturing all of those

2293

01:30:39,910 --> 01:30:36,600

effects whether it's

2294

01:30:43,189 --> 01:30:39,920

maneuverability acceleration

2295

01:30:46,790 --> 01:30:43,199

shape uh light lighting uh

2296

01:30:48,070 --> 01:30:46,800

sound em effects uh the whole range of

2297

01:30:50,149 --> 01:30:48,080

those things and

2298

01:30:52,550 --> 01:30:50,159

and it it's fascinating with the

2299

01:30:53,270 --> 01:30:52,560

statistical analysis is yet to be done

2300

01:30:54,709 --> 01:30:53,280

but we're

2301

01:30:56,790 --> 01:30:54,719

i think we're going to see some very

2302

01:30:58,470 --> 01:30:56,800

interesting things and there

2303

01:31:01,910 --> 01:30:58,480

one there is a there are a couple of

2304

01:31:04,390 --> 01:31:01,920

constants there are always discs disc

2305

01:31:06,070 --> 01:31:04,400

you just the discs never go away at some

2306

01:31:08,470 --> 01:31:06,080

level it's like okay

2307

01:31:09,430 --> 01:31:08,480

whether this is the economy model or

2308

01:31:12,470 --> 01:31:09,440

what this

2309

01:31:14,550 --> 01:31:12,480

is always there um well i saw

2310

01:31:15,590 --> 01:31:14,560

my disc had a pardon me i'll we'll get

2311

01:31:17,830 --> 01:31:15,600

right back to that

2312

01:31:19,669 --> 01:31:17,840

the disc that i saw had a light blue

2313

01:31:21,030 --> 01:31:19,679

glow around it and i heard someone else

2314

01:31:22,790 --> 01:31:21,040

say that once

2315

01:31:24,310 --> 01:31:22,800

i've only heard one other person say

2316

01:31:27,110 --> 01:31:24,320

that

2317

01:31:29,830 --> 01:31:27,120

but anyway glow is uh atmospheric

2318

01:31:31,510 --> 01:31:29,840

effects and there are several is is

2319

01:31:33,110 --> 01:31:31,520

definitely that's one that goes with

2320

01:31:35,110 --> 01:31:33,120

them the the lighting

2321

01:31:37,110 --> 01:31:35,120

interestingly enough the lighting

2322

01:31:37,590 --> 01:31:37,120

changes dramatically when you get into

2323

01:31:41,669 --> 01:31:37,600

the back

2324

01:31:44,070 --> 01:31:41,679

black triangles the black deltas

2325

01:31:45,669 --> 01:31:44,080

and then they're like the hudson river

2326

01:31:47,750 --> 01:31:45,679

valley

2327

01:31:49,910 --> 01:31:47,760

you never saw those before none of these

2328

01:31:51,430 --> 01:31:49,920

in the 40s none of these in the 50s none

2329

01:31:53,590 --> 01:31:51,440

of these in the 60s

2330

01:31:54,790 --> 01:31:53,600

and then suddenly when these things

2331

01:31:57,270 --> 01:31:54,800

start showing up

2332

01:31:59,189 --> 01:31:57,280

in new york near one of the most

2333

01:32:00,550 --> 01:31:59,199

populous cities in the world

2334

01:32:02,310 --> 01:32:00,560

these things are built and they're

2335

01:32:03,110 --> 01:32:02,320

described as like they're like a bridge

2336

01:32:05,270 --> 01:32:03,120

girder

2337

01:32:07,110 --> 01:32:05,280

they're totally non-aerodynamic they've

2338

01:32:08,709 --> 01:32:07,120

got things hanging down all over the

2339

01:32:09,430 --> 01:32:08,719

place they got struts they got

2340

01:32:11,669 --> 01:32:09,440

structures

2341

01:32:12,629 --> 01:32:11,679

and they're gigantic you could not miss

2342

01:32:14,550 --> 01:32:12,639

them

2343

01:32:16,629 --> 01:32:14,560

and you know at some point you begin to

2344

01:32:17,830 --> 01:32:16,639

wonder did they finally just get

2345

01:32:19,830 --> 01:32:17,840

frustrated

2346

01:32:21,669 --> 01:32:19,840

and like you know we've been trying to

2347

01:32:24,470 --> 01:32:21,679

get you people to notice us

2348

01:32:25,030 --> 01:32:24,480

what more do we need to do you know this

2349

01:32:28,550 --> 01:32:25,040

is

2350

01:32:30,390 --> 01:32:28,560

way there's

2351
01:32:31,830 --> 01:32:30,400
millions of people and we're here now

2352
01:32:32,629 --> 01:32:31,840
we're not going to go directly over the

2353
01:32:35,110 --> 01:32:32,639
city but we're

2354
01:32:39,030 --> 01:32:35,120
it's just like an intelligence test you

2355
01:32:42,470 --> 01:32:40,950
it's amazing yeah i mean i i have a

2356
01:32:43,430 --> 01:32:42,480
friend i've talked about this a few

2357
01:32:47,350 --> 01:32:43,440
times

2358
01:32:48,149 --> 01:32:47,360
where um he he what his sighting was was

2359
01:32:55,189 --> 01:32:48,159
a box

2360
01:32:55,910 --> 01:32:55,199
you know every side blinking and it just

2361
01:33:00,709 --> 01:32:55,920
hovered

2362
01:33:03,189 --> 01:33:00,719
below him because he was up

2363
01:33:04,310 --> 01:33:03,199

high in a uh a dormitory 17th floor i

2364

01:33:06,149 --> 01:33:04,320

think he said

2365

01:33:08,629 --> 01:33:06,159

and it was like below him and then it

2366

01:33:10,470 --> 01:33:08,639

shot off but i mean a box shape

2367

01:33:11,990 --> 01:33:10,480

and i've heard other people say you know

2368

01:33:13,750 --> 01:33:12,000

these weird

2369

01:33:15,030 --> 01:33:13,760

things but they don't come in trends

2370

01:33:17,510 --> 01:33:15,040

like you said

2371

01:33:19,270 --> 01:33:17,520

you know discs are pretty common or they

2372

01:33:22,790 --> 01:33:19,280

never went away

2373

01:33:26,629 --> 01:33:22,800

but then there's the delta the triangle

2374

01:33:28,790 --> 01:33:26,639

um as lee spiegel when he called uh

2375

01:33:30,390 --> 01:33:28,800

jay allen heineck told him to go

2376

01:33:32,870 --> 01:33:30,400

investigate this

2377

01:33:34,550 --> 01:33:32,880

um i think he said delta and then lee

2378

01:33:38,070 --> 01:33:34,560

spiegel says so i'm going down to look

2379

01:33:40,149 --> 01:33:38,080

at a dorito that's what he called it

2380

01:33:41,910 --> 01:33:40,159

and uh that was quite an encounter every

2381

01:33:42,629 --> 01:33:41,920

time i've had leon i had him to talk

2382

01:33:44,550 --> 01:33:42,639

about that one

2383

01:33:46,229 --> 01:33:44,560

in particular i mean police were

2384

01:33:47,990 --> 01:33:46,239

involved in everything

2385

01:33:50,950 --> 01:33:48,000

so well i think there's one thing that

2386

01:33:54,470 --> 01:33:50,960

we can say and i don't think robert will

2387

01:33:57,990 --> 01:33:54,480

subjectively my impression is twofold

2388

01:34:01,910 --> 01:33:58,000

from 1947

2389

01:34:04,310 --> 01:34:01,920
to current day um these things

2390

01:34:05,350 --> 01:34:04,320
whatever they are physical physical

2391

01:34:08,470 --> 01:34:05,360
object

2392

01:34:09,510 --> 01:34:08,480
uh do not have to be aerodynamic they

2393

01:34:13,510 --> 01:34:09,520
don't

2394

01:34:16,870 --> 01:34:13,520
the the bridge girder things

2395

01:34:19,270 --> 01:34:16,880
can accelerate just as quickly as the

2396

01:34:22,149 --> 01:34:19,280
disc you know there's there's no

2397

01:34:24,470 --> 01:34:22,159
aerodynamic and there's no change they

2398

01:34:26,750 --> 01:34:24,480
could accelerate

2399

01:34:28,149 --> 01:34:26,760
and go out of sight just as quickly in

2400

01:34:30,709 --> 01:34:28,159
1947

2401
01:34:32,709 --> 01:34:30,719
as they can now and one of the things

2402
01:34:35,189 --> 01:34:32,719
that troubles me about the nimitz

2403
01:34:37,110 --> 01:34:35,199
incident is everybody seems to think the

2404
01:34:40,390 --> 01:34:37,120
capabilities

2405
01:34:42,070 --> 01:34:40,400
of of the tic tacs

2406
01:34:43,910 --> 01:34:42,080
are something new and awesome and

2407
01:34:46,790 --> 01:34:43,920
impressive and i will say

2408
01:34:47,350 --> 01:34:46,800
no they're not they could do that same

2409
01:34:49,510 --> 01:34:47,360
thing

2410
01:34:51,430 --> 01:34:49,520
way back when and they could evade

2411
01:34:54,790 --> 01:34:51,440
interceptors

2412
01:34:58,830 --> 01:34:54,800
as far as

2413
01:35:01,270 --> 01:34:58,840

acceleration and maneuverability and

2414

01:35:02,629 --> 01:35:01,280

non-necessarily aerodynamic flight

2415

01:35:04,629 --> 01:35:02,639

characteristics

2416

01:35:06,390 --> 01:35:04,639

you have that from the very first

2417

01:35:07,910 --> 01:35:06,400

sightings on

2418

01:35:09,590 --> 01:35:07,920

well i remember hearing back in the

2419

01:35:12,070 --> 01:35:09,600

1960s they had

2420

01:35:13,990 --> 01:35:12,080

i want to say it was up off of canada or

2421

01:35:16,790 --> 01:35:14,000

something they clocked

2422

01:35:17,350 --> 01:35:16,800

a ufo on radar at over 20 000 miles an

2423

01:35:19,990 --> 01:35:17,360

hour

2424

01:35:20,390 --> 01:35:20,000

you know it was a long time ago there

2425

01:35:23,189 --> 01:35:20,400

was

2426

01:35:25,189 --> 01:35:23,199

actually a one of the few reports that

2427

01:35:27,990 --> 01:35:25,199

we have documented that made it to the

2428

01:35:31,189 --> 01:35:28,000

nsc the national security council

2429

01:35:33,830 --> 01:35:31,199

was a track of an object

2430

01:35:34,950 --> 01:35:33,840

going over the united states completely

2431

01:35:37,750 --> 01:35:34,960

over the u.s

2432

01:35:39,669 --> 01:35:37,760

from east to west which is kind of

2433

01:35:42,950 --> 01:35:39,679

interesting

2434

01:35:45,750 --> 01:35:42,960

at i think it was eighteen

2435

01:35:47,350 --> 01:35:45,760

thousand miles per hour it might be the

2436

01:35:49,669 --> 01:35:47,360

same one i'm talking about

2437

01:35:51,590 --> 01:35:49,679

could be the same one and and the and

2438

01:35:53,590 --> 01:35:51,600

the interesting thing was it's like

2439

01:35:56,629 --> 01:35:53,600

should we be worried about this

2440

01:35:58,390 --> 01:35:56,639

and the cia representative said well

2441

01:36:00,149 --> 01:35:58,400

we know the russians don't have anything

2442

01:36:03,590 --> 01:36:00,159

like that and everybody went

2443

01:36:06,629 --> 01:36:03,600

okay we're not worried uh oh

2444

01:36:09,430 --> 01:36:06,639

fine which gets back to

2445

01:36:10,550 --> 01:36:09,440

you know the track that you played

2446

01:36:13,510 --> 01:36:10,560

during the

2447

01:36:15,830 --> 01:36:13,520

intermission there about we have not

2448

01:36:18,709 --> 01:36:15,840

shown these things to be a threat

2449

01:36:20,629 --> 01:36:18,719

and therefore we can ignore them like we

2450

01:36:22,229 --> 01:36:20,639

won't really take them seriously until

2451

01:36:25,910 --> 01:36:22,239

they hurt us

2452

01:36:28,870 --> 01:36:25,920

so actually that was that was used as

2453

01:36:30,310 --> 01:36:28,880

that was used both in 1952 with the

2454

01:36:32,470 --> 01:36:30,320

robertson panel

2455

01:36:34,229 --> 01:36:32,480

and at the end of the whole blooper

2456

01:36:36,390 --> 01:36:34,239

project to say

2457

01:36:38,870 --> 01:36:36,400

you know we don't have to devote

2458

01:36:40,470 --> 01:36:38,880

resources to this because

2459

01:36:41,910 --> 01:36:40,480

we get all these reports and they've

2460

01:36:44,950 --> 01:36:41,920

never attacked us

2461

01:36:47,750 --> 01:36:44,960

i think it was 1953 the robertson panel

2462

01:36:48,229 --> 01:36:47,760

right yeah they tried to kick it off at

2463

01:36:51,510 --> 01:36:48,239

the

2464

01:36:53,990 --> 01:36:51,520

were actually going to make

2465

01:36:55,590 --> 01:36:54,000

the same thing happen with the nsc at

2466

01:36:57,590 --> 01:36:55,600

the end of 52

2467

01:36:58,629 --> 01:36:57,600

and then the robertson panel was

2468

01:37:02,149 --> 01:36:58,639

convened in

2469

01:37:06,070 --> 01:37:02,159

early 1953 and just shut it down

2470

01:37:10,310 --> 01:37:06,080

right right we have luke uh

2471

01:37:12,950 --> 01:37:10,320

calling from l.a lou welcome to the show

2472

01:37:13,910 --> 01:37:12,960

hey martin how you doing uh awesome show

2473

01:37:15,830 --> 01:37:13,920

as always

2474

01:37:17,430 --> 01:37:15,840

uh larry thank you for coming on the

2475

01:37:18,950 --> 01:37:17,440

show and and sharing

2476

01:37:21,030 --> 01:37:18,960

all the knowledge that you've put on the

2477

01:37:21,990 --> 01:37:21,040

table so far so i've been in and out of

2478

01:37:22,790 --> 01:37:22,000

the interview just because i've been

2479

01:37:24,709 --> 01:37:22,800

busy but

2480

01:37:25,990 --> 01:37:24,719

uh so forgive me if i ask you something

2481

01:37:28,070 --> 01:37:26,000

that you've already been asked but you

2482

01:37:28,629 --> 01:37:28,080

did say earlier that you were a document

2483

01:37:31,669 --> 01:37:28,639

geek

2484

01:37:34,310 --> 01:37:31,679

and i was curious to know

2485

01:37:35,430 --> 01:37:34,320

what is your favorite document that

2486

01:37:38,310 --> 01:37:35,440

you've come across

2487

01:37:40,390 --> 01:37:38,320

having to do with the topic of ufos um

2488

01:37:42,870 --> 01:37:40,400

and is that document publicly available

2489

01:37:45,350 --> 01:37:42,880

for people to see

2490

01:37:46,149 --> 01:37:45,360

yes my favorite documents actually and

2491

01:37:49,350 --> 01:37:46,159

this

2492

01:37:51,990 --> 01:37:49,360

because it has so much irony are the

2493

01:37:54,470 --> 01:37:52,000

documents the internal memoranda

2494

01:37:55,430 --> 01:37:54,480

within the air force between wright

2495

01:37:58,629 --> 01:37:55,440

patterson

2496

01:38:01,189 --> 01:37:58,639

and air intelligence in washington dc

2497

01:38:03,109 --> 01:38:01,199

uh they're they're basically the

2498

01:38:04,790 --> 01:38:03,119

internal study documents

2499

01:38:06,229 --> 01:38:04,800

where when they're taking the subject

2500

01:38:10,030 --> 01:38:06,239

very seriously back

2501
01:38:12,950 --> 01:38:10,040
from 1947 through

2502
01:38:14,229 --> 01:38:12,960
1952 1953 they're taking it very

2503
01:38:17,669 --> 01:38:14,239
seriously

2504
01:38:20,950 --> 01:38:17,679
and and the memoranda say

2505
01:38:23,030 --> 01:38:20,960
that and there are several estimates and

2506
01:38:24,310 --> 01:38:23,040
assessments saying that these things are

2507
01:38:26,950 --> 01:38:24,320
real

2508
01:38:27,669 --> 01:38:26,960
and they have to be taken seriously and

2509
01:38:32,390 --> 01:38:27,679
that they

2510
01:38:33,590 --> 01:38:32,400
be soviet reconnaissance and

2511
01:38:36,149 --> 01:38:33,600
surveillance

2512
01:38:37,109 --> 01:38:36,159
so those internal memories which we have

2513
01:38:39,830 --> 01:38:37,119

in which i i

2514

01:38:40,550 --> 01:38:39,840

cite in the book uh and give links to

2515

01:38:43,990 --> 01:38:40,560

them

2516

01:38:46,629 --> 01:38:44,000

um tell a totally different story

2517

01:38:47,430 --> 01:38:46,639

than the air force statements to the

2518

01:38:49,830 --> 01:38:47,440

public

2519

01:38:51,189 --> 01:38:49,840

as the one martin just paid played in

2520

01:38:54,229 --> 01:38:51,199

the intermission so

2521

01:38:56,550 --> 01:38:54,239

i think that's

2522

01:38:58,629 --> 01:38:56,560

when you compare the internal story to

2523

01:39:00,709 --> 01:38:58,639

the external story

2524

01:39:02,550 --> 01:39:00,719

those are some of my favorites my other

2525

01:39:03,030 --> 01:39:02,560

favorite that would really have to stand

2526

01:39:06,229 --> 01:39:03,040

out is

2527

01:39:10,870 --> 01:39:06,239

at oak ridge

2528

01:39:14,950 --> 01:39:14,070

radar stations around oak ridge observed

2529

01:39:18,229 --> 01:39:14,960

these really

2530

01:39:20,470 --> 01:39:18,239

mysterious tracks and the tracks would

2531

01:39:23,109 --> 01:39:20,480

come and they would be documented and

2532

01:39:24,629 --> 01:39:23,119

you can tell the radar operators are are

2533

01:39:26,870 --> 01:39:24,639

really concerned about them and they

2534

01:39:27,910 --> 01:39:26,880

finally badger wright patterson enough

2535

01:39:30,709 --> 01:39:27,920

to send

2536

01:39:31,750 --> 01:39:30,719

some some people down and they come down

2537

01:39:33,510 --> 01:39:31,760

and say well you guys

2538

01:39:34,950 --> 01:39:33,520

you really just you don't know what

2539

01:39:37,109 --> 01:39:34,960

you're talking about those

2540

01:39:40,550 --> 01:39:37,119

those things that you see on radar are

2541

01:39:42,950 --> 01:39:40,560

their their towers or their telephone

2542

01:39:46,229 --> 01:39:42,960

lines or their ground clutter

2543

01:39:47,189 --> 01:39:46,239

and um you know so we're gonna go home

2544

01:39:49,350 --> 01:39:47,199

and we're done

2545

01:39:51,669 --> 01:39:49,360

with this and so that memorandum is

2546

01:39:54,149 --> 01:39:51,679

available even the fbi there's a whole

2547

01:39:55,669 --> 01:39:54,159

set of fbi memoranda showing they're

2548

01:39:58,950 --> 01:39:55,679

concerned about it too

2549

01:40:01,990 --> 01:39:58,960

so the blue book guys go back home and

2550

01:40:05,030 --> 01:40:02,000

the local unit air force unit

2551

01:40:07,030 --> 01:40:05,040

internal memo says well you know

2552

01:40:08,709 --> 01:40:07,040

clearly they think we're pretty stupid

2553

01:40:11,750 --> 01:40:08,719

the question is if that's

2554

01:40:14,790 --> 01:40:11,760

if those radar reflections are come from

2555

01:40:18,550 --> 01:40:14,800

coming from stationary ground objects

2556

01:40:20,310 --> 01:40:18,560

why don't we see them all the time

2557

01:40:22,629 --> 01:40:20,320

why do they just you know they're here

2558

01:40:23,990 --> 01:40:22,639

now and then they

2559

01:40:25,669 --> 01:40:24,000

you know and they it's a very

2560

01:40:27,510 --> 01:40:25,679

interesting document because they're

2561

01:40:30,470 --> 01:40:27,520

defending themselves

2562

01:40:31,270 --> 01:40:30,480

and basically deconstructing this very

2563

01:40:35,109 --> 01:40:31,280

simplistic

2564

01:40:37,510 --> 01:40:35,119

wright patterson uh assessment so

2565

01:40:38,950 --> 01:40:37,520

those are kind of my i just happen to

2566

01:40:41,510 --> 01:40:38,960

like it when

2567

01:40:42,550 --> 01:40:41,520

various elements inside the service you

2568

01:40:45,750 --> 01:40:42,560

know just

2569

01:40:47,189 --> 01:40:45,760

are totally conflict with each other

2570

01:40:49,189 --> 01:40:47,199

that's great hey lou do you have

2571

01:40:51,030 --> 01:40:49,199

anything else

2572

01:40:52,629 --> 01:40:51,040

yeah just one more quick question if you

2573

01:40:55,510 --> 01:40:52,639

don't mind um

2574

01:40:57,189 --> 01:40:55,520

just do you think what is the

2575

01:40:59,189 --> 01:40:57,199

possibility that

2576
01:41:01,669 --> 01:40:59,199
that what we're dealing with as far as a

2577
01:41:03,910 --> 01:41:01,679
phenomenon is concerned is just

2578
01:41:05,350 --> 01:41:03,920
tech that we've figured out uh that

2579
01:41:08,189 --> 01:41:05,360
humans are figured out

2580
01:41:10,070 --> 01:41:08,199
but it is hidden on uh you know on a

2581
01:41:10,629 --> 01:41:10,080
military-industrial complex kind of

2582
01:41:12,550 --> 01:41:10,639
level

2583
01:41:14,310 --> 01:41:12,560
where it's special access programs where

2584
01:41:17,590 --> 01:41:14,320
not even the president can get to it

2585
01:41:18,550 --> 01:41:17,600
and we just haven't the technology's so

2586
01:41:20,629 --> 01:41:18,560
advanced

2587
01:41:21,990 --> 01:41:20,639
that we haven't been able to apply it to

2588
01:41:24,709 --> 01:41:22,000

everyday life they

2589

01:41:25,350 --> 01:41:24,719

just haven't figured out a way to apply

2590

01:41:27,350 --> 01:41:25,360

it to

2591

01:41:29,669 --> 01:41:27,360

other things other even militarily

2592

01:41:30,870 --> 01:41:29,679

speaking like if we've had this tech for

2593

01:41:32,870 --> 01:41:30,880

say 60 years

2594

01:41:33,990 --> 01:41:32,880

how come we haven't seen it applied to a

2595

01:41:36,790 --> 01:41:34,000

stealth fighter

2596

01:41:37,350 --> 01:41:36,800

or um or some other military tech where

2597

01:41:39,270 --> 01:41:37,360

we see

2598

01:41:41,910 --> 01:41:39,280

you know any of the characteristics that

2599

01:41:43,669 --> 01:41:41,920

these phenomena display

2600

01:41:45,830 --> 01:41:43,679

you know i i figured we would have seen

2601
01:41:47,430 --> 01:41:45,840
it in some kind of military tech but the

2602
01:41:49,350 --> 01:41:47,440
fact that we have it kind of

2603
01:41:50,709 --> 01:41:49,360
maybe tells me you know that it is

2604
01:41:51,830 --> 01:41:50,719
possibly human but we just haven't

2605
01:41:53,109 --> 01:41:51,840
figured out how to apply it

2606
01:41:54,870 --> 01:41:53,119
what do you think about that just out of

2607
01:41:57,669 --> 01:41:54,880
curiosity

2608
01:41:59,669 --> 01:41:57,679
i two things strike me about that and

2609
01:42:03,189 --> 01:41:59,679
one is the comment that i just made

2610
01:42:06,310 --> 01:42:03,199
that as far as the tech it had the same

2611
01:42:09,669 --> 01:42:06,320
capabilities back in 1947

2612
01:42:11,590 --> 01:42:09,679
that it does now you know it it's

2613
01:42:13,189 --> 01:42:11,600

you know it didn't get any better and

2614

01:42:17,189 --> 01:42:13,199

and it's been

2615

01:42:20,550 --> 01:42:17,199

displayed why would you if you had that

2616

01:42:24,149 --> 01:42:20,560

kind of technology in 1947 and 19

2617

01:42:25,910 --> 01:42:24,159

and and why in 1952 would you scare the

2618

01:42:28,870 --> 01:42:25,920

entire nation to death

2619

01:42:31,030 --> 01:42:28,880

by flying it over washington dc it's a

2620

01:42:33,590 --> 01:42:31,040

if you had that technology

2621

01:42:36,229 --> 01:42:33,600

and and we can model that i mean we do

2622

01:42:39,109 --> 01:42:36,239

know a lot about the stealth technology

2623

01:42:40,470 --> 01:42:39,119

that we developed and how we held it and

2624

01:42:42,790 --> 01:42:40,480

where we used it

2625

01:42:44,870 --> 01:42:42,800

and you know that was very advanced

2626
01:42:45,910 --> 01:42:44,880
technology and we now have the history

2627
01:42:48,709 --> 01:42:45,920
of that

2628
01:42:49,590 --> 01:42:48,719
and can map it against this uh ufo

2629
01:42:52,870 --> 01:42:49,600
phenomena

2630
01:42:56,310 --> 01:42:52,880
and it doesn't map when you've got that

2631
01:42:59,430 --> 01:42:56,320
that technology you operationalize it

2632
01:43:02,070 --> 01:42:59,440
and you keep it secret you don't

2633
01:43:03,270 --> 01:43:02,080
you don't fly it over your own atomic

2634
01:43:07,030 --> 01:43:03,280
weapons complex

2635
01:43:07,910 --> 01:43:07,040
you know uh it just that doesn't make

2636
01:43:10,629 --> 01:43:07,920
sense to me

2637
01:43:11,270 --> 01:43:10,639
so because the tech has not really

2638
01:43:13,990 --> 01:43:11,280

changed

2639

01:43:15,350 --> 01:43:14,000

because we have not operationalized it

2640

01:43:18,149 --> 01:43:15,360

and because we've

2641

01:43:19,590 --> 01:43:18,159

been using it we would have been using

2642

01:43:21,750 --> 01:43:19,600

it against our own

2643

01:43:22,870 --> 01:43:21,760

security facilities to no obvious

2644

01:43:25,750 --> 01:43:22,880

purpose

2645

01:43:28,709 --> 01:43:25,760

uh it doesn't make much sense to me that

2646

01:43:30,550 --> 01:43:28,719

it's something we have

2647

01:43:32,070 --> 01:43:30,560

yeah well you make some great points and

2648

01:43:32,550 --> 01:43:32,080

i appreciate you answering the questions

2649

01:43:34,790 --> 01:43:32,560

larry

2650

01:43:36,470 --> 01:43:34,800

uh a true gentleman and martin thank you

2651

01:43:39,590 --> 01:43:36,480

again uh awesome show

2652

01:43:41,669 --> 01:43:39,600

keep it great hey thanks thanks luke

2653

01:43:43,750 --> 01:43:41,679

take care

2654

01:43:45,189 --> 01:43:43,760

bye uh i should tell everyone the line

2655

01:43:48,950 --> 01:43:45,199

is open and for

2656

01:43:50,790 --> 01:43:48,960

those of you over kg r a a uh radio that

2657

01:43:54,950 --> 01:43:50,800

do not see the number up there it's

2658

01:43:56,870 --> 01:43:54,960

eight 855-472-5483

2659

01:43:59,109 --> 01:43:56,880

and bill is standing by and thank you

2660

01:44:01,030 --> 01:43:59,119

for that bill um

2661

01:44:02,950 --> 01:44:01,040

one of the the questions that comes to

2662

01:44:06,149 --> 01:44:02,960

mind for me

2663

01:44:08,709 --> 01:44:06,159

is uh when

2664

01:44:09,750 --> 01:44:08,719

you talk about these things take off

2665

01:44:12,149 --> 01:44:09,760

really fast

2666

01:44:13,910 --> 01:44:12,159

do people ever talk about triangles

2667

01:44:16,310 --> 01:44:13,920

taking shooting off i don't i never

2668

01:44:20,470 --> 01:44:16,320

really hear that

2669

01:44:23,350 --> 01:44:20,480

they do it's it's less

2670

01:44:25,510 --> 01:44:23,360

obvious but the the interesting thing is

2671

01:44:27,350 --> 01:44:25,520

the triangles

2672

01:44:29,270 --> 01:44:27,360

one of the things we've found and what

2673

01:44:31,750 --> 01:44:29,280

we've seen so far is this

2674

01:44:33,030 --> 01:44:31,760

extreme acceleration is not all that

2675

01:44:36,550 --> 01:44:33,040

common

2676

01:44:38,629 --> 01:44:36,560

it's it's there all the time but most

2677

01:44:40,790 --> 01:44:38,639

most observations especially the

2678

01:44:44,629 --> 01:44:40,800

close-up observations

2679

01:44:47,990 --> 01:44:44,639

are of relatively slow speed objects

2680

01:44:50,629 --> 01:44:48,000

that either just drift away they go over

2681

01:44:53,669 --> 01:44:50,639

the treetops they go out of sight

2682

01:44:56,870 --> 01:44:53,679

or they disappear and

2683

01:44:59,350 --> 01:44:56,880

literally or i would speculate

2684

01:45:00,390 --> 01:44:59,360

have it accelerated faster than the eye

2685

01:45:02,790 --> 01:45:00,400

can perceive

2686

01:45:03,750 --> 01:45:02,800

and that is true for all those objects

2687

01:45:05,910 --> 01:45:03,760

for every

2688

01:45:07,030 --> 01:45:05,920

shape of objects that i've seen so far

2689

01:45:09,270 --> 01:45:07,040

you can find

2690

01:45:10,870 --> 01:45:09,280

at least a handful of incidents of where

2691

01:45:13,750 --> 01:45:10,880

they appear to have that extreme

2692

01:45:14,790 --> 01:45:13,760

acceleration capability even the hudson

2693

01:45:17,990 --> 01:45:14,800

valley

2694

01:45:20,229 --> 01:45:18,000

bridge girder construct things um

2695

01:45:21,189 --> 01:45:20,239

so that that's one of the things that's

2696

01:45:23,669 --> 01:45:21,199

very puzzling

2697

01:45:24,629 --> 01:45:23,679

from a scientific standpoint because it

2698

01:45:28,229 --> 01:45:24,639

it suggests

2699

01:45:31,910 --> 01:45:28,239

that whatever the propulsion is

2700

01:45:34,229 --> 01:45:31,920

whatever is is irrespective of the shape

2701

01:45:34,550 --> 01:45:34,239

of the object itself or how massive it

2702

01:45:37,030 --> 01:45:34,560

is

2703

01:45:38,709 --> 01:45:37,040

because you might have thought well okay

2704

01:45:41,590 --> 01:45:38,719

if it's drone sized

2705

01:45:41,990 --> 01:45:41,600

if it's three feet it can do that but if

2706

01:45:44,790 --> 01:45:42,000

it's

2707

01:45:47,030 --> 01:45:44,800

a quarter mile long it can't that

2708

01:45:47,590 --> 01:45:47,040

distinction does not seem to hold yet

2709

01:45:49,270 --> 01:45:47,600

and

2710

01:45:50,950 --> 01:45:49,280

robert when you listen to this i know we

2711

01:45:51,990 --> 01:45:50,960

don't have the statistics plotted on

2712

01:45:55,270 --> 01:45:52,000

that so that was just

2713

01:45:57,189 --> 01:45:55,280

a you know an opinion i'll i'll follow

2714

01:46:00,149 --> 01:45:57,199

up on that but for now we have jan

2715

01:46:01,350 --> 01:46:00,159

aldrich on the line from connecticut jen

2716

01:46:05,750 --> 01:46:01,360

welcome to the show

2717

01:46:08,790 --> 01:46:05,760

good to have you on thank you

2718

01:46:11,990 --> 01:46:08,800

say uh i'd like to ask larry if he's uh

2719

01:46:13,669 --> 01:46:12,000

he's seen this it seems to me that

2720

01:46:16,470 --> 01:46:13,679

towards the end of blue book they took

2721

01:46:19,109 --> 01:46:16,480

away the intelligence

2722

01:46:19,590 --> 01:46:19,119

in other words heineken colonel friend

2723

01:46:22,470 --> 01:46:19,600

had

2724

01:46:24,870 --> 01:46:22,480

their goal is to get ufo project blue

2725

01:46:26,470 --> 01:46:24,880

book out of intelligence and in

2726

01:46:28,550 --> 01:46:26,480

research and development which they

2727

01:46:31,830 --> 01:46:28,560

succeeded in doing but

2728

01:46:35,350 --> 01:46:31,840

apparently it didn't change any policies

2729

01:46:39,990 --> 01:46:35,360

however after blue book

2730

01:46:42,550 --> 01:46:40,000

it seems that operations is

2731

01:46:44,470 --> 01:46:42,560

intruding into this area i'm not saying

2732

01:46:48,870 --> 01:46:44,480

that intelligence is

2733

01:46:48,880 --> 01:46:53,030

operations seems to be

2734

01:46:59,669 --> 01:46:56,070

the collection point for

2735

01:47:02,870 --> 01:46:59,679

ufos opera iii's

2736

01:47:04,550 --> 01:47:02,880

serious ins uh serious uh incident

2737

01:47:08,470 --> 01:47:04,560

reports and

2738

01:47:12,229 --> 01:47:08,480

this uh service

2739

01:47:15,830 --> 01:47:12,239

uh system is handed over to

2740

01:47:18,070 --> 01:47:15,840

uh operations um

2741

01:47:20,470 --> 01:47:18,080

have you looked at that at all yeah

2742

01:47:23,830 --> 01:47:20,480

that's absolutely my impression it's

2743

01:47:27,709 --> 01:47:23,840

it's just during i would say

2744

01:47:31,350 --> 01:47:27,719

through you know through 1953

2745

01:47:33,109 --> 01:47:31,360

1954 air intelligence was

2746

01:47:34,470 --> 01:47:33,119

involved right along with wright

2747

01:47:36,790 --> 01:47:34,480

patterson

2748

01:47:38,550 --> 01:47:36,800

and you know and sometimes air

2749

01:47:40,629 --> 01:47:38,560

intelligence was looking at it more

2750

01:47:43,669 --> 01:47:40,639

seriously than wright patterson was

2751

01:47:46,629 --> 01:47:43,679

uh during the grudge era i would say

2752

01:47:48,629 --> 01:47:46,639

air intelligence on occasion looked at

2753

01:47:51,109 --> 01:47:48,639

it more seriously and finally in

2754

01:47:52,870 --> 01:47:51,119

the initial phase of blue book wright

2755

01:47:54,550 --> 01:47:52,880

patterson and air intelligence were

2756

01:47:55,510 --> 01:47:54,560

hand-in-hand thinking it was something

2757

01:47:59,350 --> 01:47:55,520

serious

2758

01:48:02,229 --> 01:47:59,360

after robertson panel blue book became

2759

01:48:04,070 --> 01:48:02,239

um you know this dance it became a you

2760

01:48:05,669 --> 01:48:04,080

know we want to reassure the public

2761

01:48:07,430 --> 01:48:05,679

we're going to look at these incidents

2762

01:48:09,350 --> 01:48:07,440

one at a time and we're going to come up

2763

01:48:11,109 --> 01:48:09,360

with an explanation for

2764

01:48:14,070 --> 01:48:11,119

for each one and we're going to remove

2765

01:48:14,629 --> 01:48:14,080

it as being a psychological warfare

2766

01:48:17,590 --> 01:48:14,639

issue

2767

01:48:19,030 --> 01:48:17,600

we're going to remove it from you know

2768

01:48:22,229 --> 01:48:19,040

obstructing

2769

01:48:25,669 --> 01:48:22,239

reports of real threats and

2770

01:48:27,030 --> 01:48:25,679

that continued onward to me to the end

2771

01:48:29,430 --> 01:48:27,040

of blue book

2772

01:48:30,470 --> 01:48:29,440

and what really happened at the end of

2773

01:48:33,910 --> 01:48:30,480

blue book is

2774

01:48:37,990 --> 01:48:33,920

as you say it became operational

2775

01:48:40,790 --> 01:48:38,000

it it kind of service transitioned into

2776

01:48:42,629 --> 01:48:40,800

oprep reports and it became

2777

01:48:45,189 --> 01:48:42,639

it still was a matter of threat

2778

01:48:48,470 --> 01:48:45,199

reporting but it was threat reporting

2779

01:48:51,030 --> 01:48:48,480

inside the chains of command to the

2780

01:48:53,669 --> 01:48:51,040

you know to you the group's headquarters

2781

01:48:55,910 --> 01:48:53,679

to the group's operational headquarters

2782

01:48:58,229 --> 01:48:55,920

you know we have the reports out of this

2783

01:48:59,350 --> 01:48:58,239

the 70s that some of them that do go to

2784

01:49:01,910 --> 01:48:59,360

no red

2785

01:49:02,629 --> 01:49:01,920

some of them do go to the pentagon but

2786

01:49:05,669 --> 01:49:02,639

they're all

2787

01:49:08,870 --> 01:49:05,679

operational incident type reports

2788

01:49:11,430 --> 01:49:08,880

and they're as far as we can tell as far

2789

01:49:13,830 --> 01:49:11,440

as i can tell from the document chains

2790

01:49:17,270 --> 01:49:13,840

once they're they're resolved it's kind

2791

01:49:20,390 --> 01:49:17,280

of like the northern tier sightings once

2792

01:49:23,510 --> 01:49:20,400

the pentagon is satisfied that it's

2793

01:49:25,669 --> 01:49:23,520

not a actual threat it doesn't go

2794

01:49:28,470 --> 01:49:25,679

into an air intelligence study it

2795

01:49:29,030 --> 01:49:28,480

certainly doesn't go into up the chain

2796

01:49:30,950 --> 01:49:29,040

of con

2797

01:49:32,629 --> 01:49:30,960

command to higher level study and i

2798

01:49:35,350 --> 01:49:32,639

think that's where we set today

2799

01:49:36,149 --> 01:49:35,360

and i think that's looking at the navy

2800

01:49:39,350 --> 01:49:36,159

after

2801

01:49:42,470 --> 01:49:39,360

nimitz we're kind of back to that

2802

01:49:44,390 --> 01:49:42,480

threat reporting you know it's it's it's

2803

01:49:47,430 --> 01:49:44,400

not that they're ignoring it but if

2804

01:49:52,950 --> 01:49:47,440

it's just on a one-off basis uh

2805

01:49:57,270 --> 01:49:55,030

yeah i think we need to discuss this

2806

01:50:01,669 --> 01:49:57,280

sometime when we have time

2807

01:50:05,350 --> 01:50:01,679

sure jan i'm so glad you called in

2808

01:50:08,470 --> 01:50:05,360

nice nice to hear your voice okay

2809

01:50:11,270 --> 01:50:08,480

thank you all right take care

2810

01:50:12,149 --> 01:50:11,280

um one of the things i i should should

2811

01:50:14,550 --> 01:50:12,159

ask or

2812

01:50:16,310 --> 01:50:14,560

point out because uh you know i kind of

2813

01:50:17,510 --> 01:50:16,320

forget a lot of times that there's a lot

2814

01:50:19,189 --> 01:50:17,520

of new listeners

2815

01:50:21,109 --> 01:50:19,199

to the show and a lot of times they have

2816

01:50:23,270 --> 01:50:21,119

no idea what we're talking about

2817

01:50:25,109 --> 01:50:23,280

um when we talk about the robertson

2818

01:50:26,070 --> 01:50:25,119

panel now came up four or five times

2819

01:50:28,870 --> 01:50:26,080

tonight

2820

01:50:30,070 --> 01:50:28,880

and um i think if you would kind of for

2821

01:50:32,470 --> 01:50:30,080

the new listener

2822

01:50:33,510 --> 01:50:32,480

uh talk about really how they try to

2823

01:50:37,030 --> 01:50:33,520

destroy

2824

01:50:40,229 --> 01:50:37,040

the integrity of ufo sightings

2825

01:50:42,070 --> 01:50:40,239

in a nutshell if you could sure and

2826
01:50:44,310 --> 01:50:42,080
basically again at this point at the end

2827
01:50:46,950 --> 01:50:44,320
of 1952 with both

2828
01:50:49,750 --> 01:50:46,960
the air force and the office of

2829
01:50:51,910 --> 01:50:49,760
scientific intelligence within the cia

2830
01:50:53,589 --> 01:50:51,920
in agreement that this was a national

2831
01:50:56,950 --> 01:50:53,599
security issue

2832
01:51:00,310 --> 01:50:56,960
the cia director was persuaded

2833
01:51:02,390 --> 01:51:00,320
to send memoranda that proposed

2834
01:51:03,910 --> 01:51:02,400
taking this to the national security

2835
01:51:06,390 --> 01:51:03,920
council

2836
01:51:08,229 --> 01:51:06,400
the adviser intelligence advisory group

2837
01:51:09,830 --> 01:51:08,239
for the national security council

2838
01:51:11,910 --> 01:51:09,840

that's where it has to go first all this

2839

01:51:15,270 --> 01:51:11,920

stuff has to go through tears

2840

01:51:15,990 --> 01:51:15,280

i said you know we need scientific

2841

01:51:19,030 --> 01:51:16,000

endorsement

2842

01:51:21,270 --> 01:51:19,040

so you've told us this is a threat

2843

01:51:23,430 --> 01:51:21,280

but what we need to know from you

2844

01:51:25,109 --> 01:51:23,440

to know and for scientists to confirm is

2845

01:51:28,390 --> 01:51:25,119

that these are real

2846

01:51:30,390 --> 01:51:28,400

physical objects they're not unknown

2847

01:51:32,470 --> 01:51:30,400

scientific phenomena so if they'll

2848

01:51:35,030 --> 01:51:32,480

endorse that you've endorsed the thread

2849

01:51:37,669 --> 01:51:35,040

site if they'll endorse that they're

2850

01:51:38,709 --> 01:51:37,679

real artifacts essentially then we'll

2851
01:51:40,229 --> 01:51:38,719
take it up

2852
01:51:41,990 --> 01:51:40,239
the chain into the intelligence

2853
01:51:46,550 --> 01:51:42,000
community

2854
01:51:47,350 --> 01:51:46,560
to do that a panel was convened and

2855
01:51:49,350 --> 01:51:47,360
actually

2856
01:51:50,470 --> 01:51:49,360
i write about this at some length in the

2857
01:51:52,950 --> 01:51:50,480
book that

2858
01:51:53,990 --> 01:51:52,960
it was hard to recruit scientists as we

2859
01:51:56,070 --> 01:51:54,000
said earlier

2860
01:51:58,470 --> 01:51:56,080
martin we're talking about heineken

2861
01:51:59,430 --> 01:51:58,480
astronomers and scientists in general do

2862
01:52:01,589 --> 01:51:59,440
not want

2863
01:52:03,830 --> 01:52:01,599

their careers tarnished by this subject

2864

01:52:06,709 --> 01:52:03,840

so they really had to strong arm

2865

01:52:07,990 --> 01:52:06,719

about half a dozen scientists to get

2866

01:52:12,070 --> 01:52:08,000

them on a panel

2867

01:52:14,870 --> 01:52:12,080

it was a very mixed bag of scientists

2868

01:52:15,990 --> 01:52:14,880

out of different disciplines and the

2869

01:52:17,669 --> 01:52:16,000

fascinating thing about

2870

01:52:19,589 --> 01:52:17,679

it and they had to they had to jump

2871

01:52:21,910 --> 01:52:19,599

through some hoops to get them

2872

01:52:23,430 --> 01:52:21,920

the security clearances to look at what

2873

01:52:25,189 --> 01:52:23,440

the air force was going to bring in

2874

01:52:27,350 --> 01:52:25,199

front of them

2875

01:52:28,390 --> 01:52:27,360

the fascinating thing about it was when

2876
01:52:32,070 --> 01:52:28,400
the subject was

2877
01:52:34,390 --> 01:52:32,080
introduced to them their

2878
01:52:36,070 --> 01:52:34,400
assessment and their commentary and

2879
01:52:38,950 --> 01:52:36,080
their reports

2880
01:52:41,350 --> 01:52:38,960
really didn't have to do with the

2881
01:52:43,669 --> 01:52:41,360
physical nature of the objects

2882
01:52:45,030 --> 01:52:43,679
they got sidetracked because of the way

2883
01:52:48,070 --> 01:52:45,040
they were briefed

2884
01:52:50,149 --> 01:52:48,080
into a discussion of psychology and

2885
01:52:52,950 --> 01:52:50,159
psychological warfare

2886
01:52:53,750 --> 01:52:52,960
and essentially their report took the

2887
01:52:56,149 --> 01:52:53,760
position

2888
01:52:56,790 --> 01:52:56,159

that this was a psychological warfare

2889

01:52:59,510 --> 01:52:56,800

issue

2890

01:53:00,550 --> 01:52:59,520

now you're going to ask why did why did

2891

01:53:03,830 --> 01:53:00,560

you convene a

2892

01:53:07,350 --> 01:53:03,840

panel of physical scientists to

2893

01:53:10,149 --> 01:53:07,360

give a judgment on psychological warfare

2894

01:53:11,990 --> 01:53:10,159

exactly i hate to say this but we we hit

2895

01:53:14,709 --> 01:53:12,000

the bottom of our time we are totally

2896

01:53:17,030 --> 01:53:14,719

out so i i wanna and i wish you could

2897

01:53:19,109 --> 01:53:17,040

continue on with that because it's uh

2898

01:53:20,070 --> 01:53:19,119

it was fascinating uh the book is

2899

01:53:21,910 --> 01:53:20,080

unidentified

2900

01:53:23,750 --> 01:53:21,920

the national intelligence problem of

2901

01:53:26,470 --> 01:53:23,760

ufos and my guest

2902

01:53:26,790 --> 01:53:26,480

this night i've really really enjoyed it

2903

01:53:29,430 --> 01:53:26,800

is

2904

01:53:30,790 --> 01:53:29,440

larry hancock thank you so much larry

2905

01:53:32,550 --> 01:53:30,800

was a pleasure

2906

01:53:34,390 --> 01:53:32,560

all right really really enjoyable i

2907

01:53:38,070 --> 01:53:34,400

really really enjoyed it a lot

2908

01:53:39,669 --> 01:53:38,080

so uh talk to you later now take care

2909

01:53:41,990 --> 01:53:39,679

all right everyone so thank you so much

2910

01:53:43,830 --> 01:53:42,000

for uh listening and watching

2911

01:53:45,189 --> 01:53:43,840

and we'll be back again next week as i

2912

01:53:48,229 --> 01:53:45,199

mentioned with

2913

01:53:49,750 --> 01:53:48,239

um we have uh ben hansen

2914

01:53:51,510 --> 01:53:49,760

he's gonna be talking about his new

2915

01:53:54,629 --> 01:53:51,520

discovery show

2916

01:53:56,550 --> 01:53:54,639

and also with him later on is uh

2917

01:53:58,390 --> 01:53:56,560

calvin parker so it'll be a great show

2918

01:53:59,750 --> 01:53:58,400

thanks so much everyone stay safe

2919

01:54:12,660 --> 01:53:59,760

see you next week and remember to keep
