4
00:00:11,509 --> 00:00:09,040
in our last blog we looked at reports of

5
00:00:13,910 --> 00:00:11,519
21st century ufo occupants

6
00:00:15,669 --> 00:00:13,920
ufo researchers and investigators have

7
00:00:16,390 --> 00:00:15,679
given those that have a roughly human

8
00:00:18,790 --> 00:00:16,400
appearance

9
00:00:20,790 --> 00:00:18,800
the appropriate name humanoid these

10
00:00:22,950 --> 00:00:20,800
creatures seem to be biological

11
00:00:25,750 --> 00:00:22,960
but there have been occasional reports

12
00:00:28,550 --> 00:00:25,760
of robots accompanying ufo occupants

13
00:00:30,390 --> 00:00:28,560

the dramatic 1989 report comes from the

14

00:00:32,870 --> 00:00:30,400

city of verona in russia

15

00:00:33,910 --> 00:00:32,880

this involved a 9-12 foot tall humanoid

16

00:00:36,709 --> 00:00:33,920

with three eyes

17

00:00:38,549 --> 00:00:36,719

and a small box-shaped robot they both

18

00:00:40,310 --> 00:00:38,559

exited a banana-shaped craft

19

00:00:41,750 --> 00:00:40,320

and took a walk in a park in front of

20

00:00:43,350 --> 00:00:41,760

terrified onlookers

21

00:00:45,270 --> 00:00:43,360

the incident was reported by the

22

00:00:47,190 --> 00:00:45,280

official tas news agency

23

00:00:48,869 --> 00:00:47,200

picked up by the american press and

24

00:00:51,910 --> 00:00:48,879

featured in the october 11

25

00:00:53,750 --> 00:00:51,920

1989 new york times an incident that

26

00:00:55,990 --> 00:00:53,760

didn't get much attention from the press

27

00:00:56,869 --> 00:00:56,000

but did get a lot of attention from ufo

28

00:00:59,830 --> 00:00:56,879

investigators

29

00:01:01,189 --> 00:00:59,840

was reported in 1964. it involved

30

00:01:03,830 --> 00:01:01,199

humanoids and robots

31

00:01:05,429 --> 00:01:03,840

in cisco grove california that displayed

32

00:01:07,990 --> 00:01:05,439

actions far more hostile

33

00:01:08,630 --> 00:01:08,000

than a stroll in the park according to

34

00:01:11,350 --> 00:01:08,640

the report

35

00:01:13,429 --> 00:01:11,360

donald trump 28 was bow hunting with two

36

00:01:15,910 --> 00:01:13,439

friends in loch levens lakes region

37

00:01:17,070 --> 00:01:15,920

southeast of cisco grove on friday night

38

00:01:20,070 --> 00:01:17,080

september 4th

39

00:01:20,630 --> 00:01:20,080

1964. he became separated from his

40

00:01:22,789 --> 00:01:20,640

friends

41

00:01:24,789 --> 00:01:22,799

and as it became dark he decided it

42

00:01:27,030 --> 00:01:24,799

would be safer to remain where he was

43

00:01:29,109 --> 00:01:27,040

than to risk making his way back to camp

44

00:01:30,870 --> 00:01:29,119

in the darkness over rough terrain

45

00:01:33,109 --> 00:01:30,880

shrum found a tree in a protected

46

00:01:35,030 --> 00:01:33,119

location stood on a rock next to it

47

00:01:37,030 --> 00:01:35,040

and was just able to reach the lowest

48

00:01:39,109 --> 00:01:37,040

branch 12 feet above the ground

49

00:01:40,310 --> 00:01:39,119

he climbed up and fastened himself to a

50

00:01:42,389 --> 00:01:40,320

branch with his belt

51
00:01:45,030 --> 00:01:42,399
as he settled in he noticed a light

52
00:01:46,870 --> 00:01:45,040
moving below a nearby ridge to the north

53
00:01:48,230 --> 00:01:46,880
it was white and reminded shrum of a

54
00:01:50,630 --> 00:01:48,240
flashlight or lantern

55
00:01:52,550 --> 00:01:50,640
it moved westerly and bobbed up and down

56
00:01:53,990 --> 00:01:52,560
he then thought it might be a helicopter

57
00:01:56,230 --> 00:01:54,000
from the ranger station

58
00:01:57,510 --> 00:01:56,240
shrum jumped down from the tree hoping

59
00:01:59,749 --> 00:01:57,520
to attract attention

60
00:02:01,429 --> 00:01:59,759
he lit three fires on three rocks below

61
00:02:03,749 --> 00:02:01,439
the tree that were about ten

62
00:02:04,870 --> 00:02:03,759
feet apart he stood between two of the

63
00:02:06,870 --> 00:02:04,880

fires and waved

64

00:02:08,070 --> 00:02:06,880

the light stopped and then moved towards

65

00:02:10,469 --> 00:02:08,080

him when it was between

66

00:02:12,710 --> 00:02:10,479

50 and 60 yards away it stopped and

67

00:02:13,430 --> 00:02:12,720

hovered just above eye level between two

68

00:02:15,510 --> 00:02:13,440

trees

69

00:02:16,869 --> 00:02:15,520

he didn't see any shape associated with

70

00:02:18,710 --> 00:02:16,879

the light and there was no

71

00:02:20,949 --> 00:02:18,720

sound it occurred to him that he might

72

00:02:21,350 --> 00:02:20,959

be looking at a flying saucer but if he

73

00:02:25,910 --> 00:02:21,360

was

74

00:02:28,150 --> 00:02:25,920

and decided to get back up in the tree

75

00:02:30,390 --> 00:02:28,160

he threw his bow up and climbed he was

76
00:02:32,390 --> 00:02:30,400
clothed in camouflage from head to toe

77
00:02:34,070 --> 00:02:32,400
and stayed still in the dark in the hope

78
00:02:36,309 --> 00:02:34,080
that he would not be detectable by

79
00:02:38,150 --> 00:02:36,319
anything that might come looking for him

80
00:02:40,229 --> 00:02:38,160
the light then swept around him to the

81
00:02:40,949 --> 00:02:40,239
east and moved over a canyon to the

82
00:02:43,270 --> 00:02:40,959
south

83
00:02:45,750 --> 00:02:43,280
at this point besides the light shrum

84
00:02:48,229 --> 00:02:45,760
saw three vertical rectangular panels in

85
00:02:50,309 --> 00:02:48,239
a step down pattern with the light below

86
00:02:52,229 --> 00:02:50,319
shrum told an investigator that they

87
00:02:53,670 --> 00:02:52,239
shimmered like aluminum foil being

88
00:02:56,070 --> 00:02:53,680

shaken in front of a fire

89

00:02:58,470 --> 00:02:56,080

he saw no form that indicated the panels

90

00:03:00,630 --> 00:02:58,480

and light were part of a single craft

91

00:03:02,949 --> 00:03:00,640

after watching for four or five minutes

92

00:03:05,190 --> 00:03:02,959

he saw a flash in the second panel and a

93

00:03:07,509 --> 00:03:05,200

dark object with a blinking light on top

94

00:03:08,790 --> 00:03:07,519

came out and quickly descended into the

95

00:03:11,110 --> 00:03:08,800

underbrush below

96

00:03:12,229 --> 00:03:11,120

soon after he heard something crashing

97

00:03:14,070 --> 00:03:12,239

through the bushes

98

00:03:15,830 --> 00:03:14,080

after five minutes he saw a figure

99

00:03:18,229 --> 00:03:15,840

coming towards him that then stopped

100

00:03:20,309 --> 00:03:18,239

about 100 feet from the tree it was a

101
00:03:22,470 --> 00:03:20,319
humanoid and about five feet tall

102
00:03:24,229 --> 00:03:22,480
it had a light uniform with puffs around

103
00:03:26,949 --> 00:03:24,239
the joints a helmet or hood

104
00:03:27,589 --> 00:03:26,959
a dark face and eyes similar to welder's

105
00:03:29,910 --> 00:03:27,599
goggles

106
00:03:31,910 --> 00:03:29,920
that were big as silver dollars the

107
00:03:33,910 --> 00:03:31,920
creature was joined by another just like

108
00:03:35,589 --> 00:03:33,920
it and the two of them moved to the tree

109
00:03:35,910 --> 00:03:35,599
and then stood under it looking up at

110
00:03:37,990 --> 00:03:35,920
him

111
00:03:38,949 --> 00:03:38,000
he heard a cooing noise something like

112
00:03:40,949 --> 00:03:38,959
an owl would make

113
00:03:42,630 --> 00:03:40,959

come from what he thought was a ship up

114

00:03:43,509 --> 00:03:42,640

on the hill and the creatures seemed to

115

00:03:46,070 --> 00:03:43,519

respond to it

116

00:03:48,470 --> 00:03:46,080

as if it were a signal shrum then saw

117

00:03:50,630 --> 00:03:48,480

two large glowing orange red eyes

118

00:03:51,670 --> 00:03:50,640

coming towards him that lit up a face in

119

00:03:53,990 --> 00:03:51,680

a square jaw

120

00:03:55,750 --> 00:03:54,000

this creature was short and stocky and

121

00:03:58,149 --> 00:03:55,760

appeared to be a metal robot

122

00:04:00,229 --> 00:03:58,159

it moved under the tree and then stopped

123

00:04:00,470 --> 00:04:00,239

the humanoids continued to stare up in

124

00:04:02,390 --> 00:04:00,480

him

125

00:04:04,630 --> 00:04:02,400

the creatures remained motionless for a

126
00:04:05,110 --> 00:04:04,640
while until the robot moved one of the

127
00:04:06,869 --> 00:04:05,120
fires

128
00:04:09,110 --> 00:04:06,879
swept its arm through it and scattered

129
00:04:11,110 --> 00:04:09,120
the embers it then moved back to the

130
00:04:13,509 --> 00:04:11,120
tree put a hand up to its mouth

131
00:04:14,390 --> 00:04:13,519
and emitted a white vapor shrum didn't

132
00:04:16,310 --> 00:04:14,400
smell anything

133
00:04:18,390 --> 00:04:16,320
but when it got to him he gasped for

134
00:04:19,590 --> 00:04:18,400
breath lost consciousness and fell

135
00:04:21,430 --> 00:04:19,600
across his bow

136
00:04:23,749 --> 00:04:21,440
he came to and what he felt was a matter

137
00:04:24,469 --> 00:04:23,759
of minutes and started taking defensive

138
00:04:27,030 --> 00:04:24,479

action

139

00:04:27,590 --> 00:04:27,040

shrum had six or seven books of matches

140

00:04:29,350 --> 00:04:27,600

with him

141

00:04:30,870 --> 00:04:29,360

he lit one threw it down and the

142

00:04:33,270 --> 00:04:30,880

humanoids backed up

143

00:04:33,990 --> 00:04:33,280

this inspired him to go crazy with the

144

00:04:36,150 --> 00:04:34,000

fire

145

00:04:37,270 --> 00:04:36,160

he lit his hat and it blazed up rapidly

146

00:04:38,950 --> 00:04:37,280

due to his hair oil

147

00:04:41,430 --> 00:04:38,960

he threw that down and the creatures

148

00:04:43,510 --> 00:04:41,440

moved 50 to 75 feet away and stayed

149

00:04:46,390 --> 00:04:43,520

there at this point he noticed

150

00:04:48,230 --> 00:04:46,400

that the ship was now back up in the air

151

00:04:50,310 --> 00:04:48,240

as the fire died down the creatures

152

00:04:51,990 --> 00:04:50,320

approached and schrum began setting fire

153

00:04:52,469 --> 00:04:52,000

to everything he could and throwing it

154

00:04:54,710 --> 00:04:52,479

down

155

00:04:56,469 --> 00:04:54,720

he burned all of his camouflage all of

156

00:04:57,350 --> 00:04:56,479

the paper in his wallet including his

157

00:04:59,030 --> 00:04:57,360

hunting license

158

00:05:00,629 --> 00:04:59,040

and managed to light some of the brush

159

00:05:02,710 --> 00:05:00,639

below the tree shrum

160

00:05:04,230 --> 00:05:02,720

then dealt with the robot he took aim

161

00:05:06,230 --> 00:05:04,240

with his bow and shot it

162

00:05:07,670 --> 00:05:06,240

at that close range the arrow had the

163

00:05:09,830 --> 00:05:07,680

velocity of a bullet

164

00:05:11,270 --> 00:05:09,840

shrum saw a flash on impact and the

165

00:05:13,430 --> 00:05:11,280

robot was knocked back

166

00:05:15,110 --> 00:05:13,440

he shot two more arrows until the robot

167

00:05:16,950 --> 00:05:15,120

was backed up against a rock

168

00:05:19,270 --> 00:05:16,960

shrum climbed higher and re-secured

169

00:05:21,510 --> 00:05:19,280

himself the robot was joined by another

170

00:05:23,110 --> 00:05:21,520

and the two released more vapor which

171

00:05:25,110 --> 00:05:23,120

caused shrum the blackout

172

00:05:26,469 --> 00:05:25,120

when he came to he saw the humanoids

173

00:05:28,550 --> 00:05:26,479

trying to climb the tree

174

00:05:29,909 --> 00:05:28,560

shrum shook the tree and the humanoids

175

00:05:31,830 --> 00:05:29,919

got back on the ground

176

00:05:33,510 --> 00:05:31,840

this was repeated throughout the night

177

00:05:35,350 --> 00:05:33,520

and shrum got the impression that there

178

00:05:36,710 --> 00:05:35,360

were one or two more humanoids moving

179

00:05:38,870 --> 00:05:36,720

about in the brush

180

00:05:39,749 --> 00:05:38,880

finally the robots released a large

181

00:05:41,830 --> 00:05:39,759

amount of vapor

182

00:05:43,830 --> 00:05:41,840

that caused shrum to lose consciousness

183

00:05:45,909 --> 00:05:43,840

for an extended period of time

184

00:05:47,749 --> 00:05:45,919

when he came to all the creatures were

185

00:05:49,990 --> 00:05:47,759

gone with the sun coming up

186

00:05:51,909 --> 00:05:50,000

shrum made his way back to camp after

187

00:05:52,390 --> 00:05:51,919

burning most of his clothing he was left

188

00:05:54,950 --> 00:05:52,400

with just

189

00:05:56,390 --> 00:05:54,960

his t-shirt pants and shoes he arrived

190

00:05:58,790 --> 00:05:56,400

at camp cold and weak

191

00:05:59,670 --> 00:05:58,800

and his friend vincent alvarez made him

192

00:06:02,629 --> 00:05:59,680

some soup

193

00:06:04,950 --> 00:06:02,639

trum then slept for six hours the case

194

00:06:07,670 --> 00:06:04,960

came to light after shrum's wife judy

195

00:06:09,029 --> 00:06:07,680

contacted victor w killick a family

196

00:06:11,510 --> 00:06:09,039

friend who was in charge of the

197

00:06:13,430 --> 00:06:11,520

sacramento city college observatory

198

00:06:14,950 --> 00:06:13,440

kilik wrote a letter to the commander of

199

00:06:17,350 --> 00:06:14,960

mather air force base

200

00:06:18,070 --> 00:06:17,360

and shrum was interviewed on tape by two

201
00:06:20,550 --> 00:06:18,080
officers

202
00:06:22,390 --> 00:06:20,560
from mcclellan air force base the case

203
00:06:24,150 --> 00:06:22,400
was referred to project blue book

204
00:06:25,909 --> 00:06:24,160
and they concluded that shrum had

205
00:06:26,550 --> 00:06:25,919
encountered owls and other woodland

206
00:06:28,710 --> 00:06:26,560
creatures

207
00:06:31,350 --> 00:06:28,720
and that his story had a psychological

208
00:06:33,110 --> 00:06:31,360
basis an arrowhead was tested for trace

209
00:06:34,629 --> 00:06:33,120
metals and none were found

210
00:06:36,710 --> 00:06:34,639
the air force never returned the

211
00:06:37,909 --> 00:06:36,720
arrowhead and failed to contact schrum

212
00:06:40,390 --> 00:06:37,919
with their evaluation

213
00:06:41,029 --> 00:06:40,400

so judy shrum wrote a letter to donald

214

00:06:42,950 --> 00:06:41,039

kehoe

215

00:06:44,629 --> 00:06:42,960

director of the national investigations

216

00:06:46,950 --> 00:06:44,639

committee on aerial phenomena

217

00:06:48,070 --> 00:06:46,960

she became aware of kehoe and nycap

218

00:06:51,270 --> 00:06:48,080

after reading an article

219

00:06:52,150 --> 00:06:51,280

of his in the january 1965 issue of true

220

00:06:54,230 --> 00:06:52,160

magazine

221

00:06:55,749 --> 00:06:54,240

kehoe and nycap were notorious for

222

00:06:57,430 --> 00:06:55,759

avoiding occupant cases

223

00:06:59,510 --> 00:06:57,440

but they looked into shrum story and

224

00:07:00,790 --> 00:06:59,520

stuck with it until 1968

225

00:07:03,430 --> 00:07:00,800

when it was written up in a

226

00:07:05,589 --> 00:07:03,440

comprehensive report significantly

227

00:07:07,270 --> 00:07:05,599

isabelle davis who investigated the

228

00:07:09,029 --> 00:07:07,280

kelly hopkinsville incident that

229

00:07:11,189 --> 00:07:09,039

involved goblin-like creatures

230

00:07:12,070 --> 00:07:11,199

and ted blosher an avid humanoid

231

00:07:14,629 --> 00:07:12,080

investigator

232

00:07:16,950 --> 00:07:14,639

had both joined nycap during this period

233

00:07:19,670 --> 00:07:16,960

davis joined in 1966

234

00:07:21,670 --> 00:07:19,680

and blosher joined in 1968. they were

235

00:07:23,950 --> 00:07:21,680

the co-authors of the publication

236

00:07:25,189 --> 00:07:23,960

close encounters at kelly and others of

237

00:07:27,350 --> 00:07:25,199

1955.

238

00:07:28,629 --> 00:07:27,360

bloser wrote up an extensive report on

239

00:07:30,550 --> 00:07:28,639

trump's case

240

00:07:32,390 --> 00:07:30,560

in addition to nycap the aerial

241

00:07:34,950 --> 00:07:32,400

phenomena research organization

242

00:07:35,990 --> 00:07:34,960

investigated and apro founders jim and

243

00:07:38,230 --> 00:07:36,000

coral lorenzen

244

00:07:40,950 --> 00:07:38,240

called the case the most spectacular we

245

00:07:43,189 --> 00:07:40,960

have examined in their 1967 book

246

00:07:44,070 --> 00:07:43,199

flying saucer occupants which includes

247

00:07:49,350 --> 00:07:44,080

an account

248

00:07:50,150 --> 00:07:49,360

for the february 1967 issue of saga

249

00:07:52,550 --> 00:07:50,160

magazine

250

00:07:53,589 --> 00:07:52,560

in kiel's version shrum a painter at a

251

00:07:56,070 --> 00:07:53,599

missile factory

252

00:07:57,029 --> 00:07:56,080

is described as a u.s government

253

00:07:59,110 --> 00:07:57,039

scientist

254

00:08:01,110 --> 00:07:59,120

the most accurate version by far is

255

00:08:02,710 --> 00:08:01,120

blosher's report for nycap

256

00:08:04,869 --> 00:08:02,720

throughout their investigations the

257

00:08:07,189 --> 00:08:04,879

researchers managed to keep shrum's name

258

00:08:09,110 --> 00:08:07,199

confidential this case never appeared in

259

00:08:11,110 --> 00:08:09,120

the papers in spite of inquiries by

260

00:08:11,430 --> 00:08:11,120

reporters and the shrubs were happy for

261

00:08:13,029 --> 00:08:11,440

it

262

00:08:15,189 --> 00:08:13,039

people have had their reputations

263

00:08:27,960 --> 00:08:15,199

destroyed by reports that were far
