

#450

DARCY WEIR | STEPHEN BASSETT | GARY KING

1
00:00:06,680 --> 00:00:14,910
[Music]

2
00:00:14,920 --> 00:00:24,150
so

3
00:01:00,790 --> 00:00:33,470
[Music]

4
00:01:04,149 --> 00:01:02,950
hello and welcome to the show i'm martin

5
00:01:05,910 --> 00:01:04,159
willis your host

6
00:01:07,830 --> 00:01:05,920
and we have an exciting show for you

7
00:01:08,310 --> 00:01:07,840
tonight we thought we were going to have

8
00:01:10,230 --> 00:01:08,320
three

9
00:01:12,870 --> 00:01:10,240
guests no we're actually going to have

10
00:01:15,230 --> 00:01:12,880
four i'll talk about that in a second

11
00:01:16,789 --> 00:01:15,240
so i want to say welcome to show number

12
00:01:24,950 --> 00:01:16,799
450

13
00:01:26,070 --> 00:01:24,960

almost 10 years ago when i decided to do

14

00:01:29,590 --> 00:01:26,080

this show

15

00:01:32,390 --> 00:01:29,600

i contacted many people that

16

00:01:32,950 --> 00:01:32,400

i would find either on tv shows or

17

00:01:35,030 --> 00:01:32,960

youtube

18

00:01:37,350 --> 00:01:35,040

that were you know they were people

19

00:01:39,350 --> 00:01:37,360

their characters in the ufo field

20

00:01:40,789 --> 00:01:39,360

stan friedman you know people like that

21

00:01:44,069 --> 00:01:40,799

so um

22

00:01:46,149 --> 00:01:44,079

i contacted i reached out to um

23

00:01:48,149 --> 00:01:46,159

i can't remember how many maybe 30

24

00:01:51,670 --> 00:01:48,159

different people i could find

25

00:01:54,630 --> 00:01:51,680

and one person replied to me and said

26

00:01:55,510 --> 00:01:54,640

they would be my first guest on this

27

00:01:57,429 --> 00:01:55,520

show

28

00:01:59,190 --> 00:01:57,439

and that person is going to be on the

29

00:02:01,429 --> 00:01:59,200

show tonight steven bassett

30

00:02:02,709 --> 00:02:01,439

he was a guest on my first show it was

31

00:02:05,350 --> 00:02:02,719

pretty clunky

32

00:02:07,030 --> 00:02:05,360

um i got through it those were um half

33

00:02:08,229 --> 00:02:07,040

hour shows or one hour shows i can't

34

00:02:10,630 --> 00:02:08,239

even remember

35

00:02:11,750 --> 00:02:10,640

pre-recorded just audio you know that

36

00:02:14,229 --> 00:02:11,760

type of thing

37

00:02:15,670 --> 00:02:14,239

so steven batten bassett is going to be

38

00:02:19,430 --> 00:02:15,680

on um tonight

39

00:02:22,150 --> 00:02:19,440

and uh so is darcy weir filmmaker

40

00:02:22,710 --> 00:02:22,160

uh gary king and we're going to be

41

00:02:25,990 --> 00:02:22,720

talking

42

00:02:26,949 --> 00:02:26,000

about crop circles we also have an added

43

00:02:29,670 --> 00:02:26,959

guest

44

00:02:30,390 --> 00:02:29,680

and that is jim goodall um and he's been

45

00:02:33,670 --> 00:02:30,400

around for

46

00:02:35,750 --> 00:02:33,680

a long time knows his aircraft very well

47

00:02:36,710 --> 00:02:35,760

and a very interesting person he's

48

00:02:40,710 --> 00:02:36,720

joining us

49

00:02:44,070 --> 00:02:40,720

tonight and so uh as far as

50

00:02:49,030 --> 00:02:44,080

the uh blog this week

51
00:02:51,670 --> 00:02:49,040
it's called uh ufos over finland redux

52
00:02:53,350 --> 00:02:51,680
and it's kind of a review of ufos over

53
00:02:56,190 --> 00:02:53,360
finland charles lear wrote that

54
00:02:57,830 --> 00:02:56,200
so check that out over on our website

55
00:03:00,790 --> 00:02:57,840
podcastufo.com

56
00:03:01,670 --> 00:03:00,800
um hello over to the berkshires to a

57
00:03:03,670 --> 00:03:01,680
special guest

58
00:03:05,270 --> 00:03:03,680
i mean a special person over there just

59
00:03:08,470 --> 00:03:05,280
saying hi a shout out

60
00:03:10,229 --> 00:03:08,480
uh not so subtle and uh next week we

61
00:03:13,110 --> 00:03:10,239
have kathleen martin on

62
00:03:14,390 --> 00:03:13,120
and i think i'm going to bring and i

63
00:03:17,030 --> 00:03:14,400

will tell you about our

64

00:03:18,070 --> 00:03:17,040

we are shy one guest tonight but we are

65

00:03:20,229 --> 00:03:18,080

looking forward to him

66

00:03:22,309 --> 00:03:20,239

popping in any minute and that's steven

67

00:03:24,789 --> 00:03:22,319

bassett the one i was going on and on

68

00:03:26,390 --> 00:03:24,799

who helped me out he's not in but first

69

00:03:27,670 --> 00:03:26,400

of all before we bring in our guests i'm

70

00:03:28,789 --> 00:03:27,680

going to play the trailer that we're

71

00:03:32,280 --> 00:03:28,799

going to be talking about the movie

72

00:03:39,509 --> 00:03:32,290

tonight here it goes

73

00:03:43,110 --> 00:03:42,229

but you see it's easier to attack

74

00:03:45,990 --> 00:03:43,120

anybody who

75

00:03:47,910 --> 00:03:46,000

stand up and say this is true you'll

76
00:03:48,390 --> 00:03:47,920
love a good mystery and chances are

77
00:03:50,309 --> 00:03:48,400
you've seen

78
00:03:51,750 --> 00:03:50,319
pictures of crop circles that have

79
00:03:54,149 --> 00:03:51,760
popped up around the world

80
00:03:55,509 --> 00:03:54,159
in france it's vimy france some people

81
00:03:58,390 --> 00:03:55,519
have been traveling hundreds of

82
00:04:05,190 --> 00:04:01,429
to say

83
00:04:07,030 --> 00:04:05,200
and it has a message there and tells

84
00:04:09,270 --> 00:04:07,040
much pain but it's still time so

85
00:04:11,670 --> 00:04:09,280
immediately upon entering the formation

86
00:04:13,670 --> 00:04:11,680
looking to the left i noticed this whole

87
00:04:15,750 --> 00:04:13,680
swathe of rape laid down

88
00:04:17,749 --> 00:04:15,760

and the first stems that i look at i

89

00:04:19,990 --> 00:04:17,759

notice are not broken at the base

90

00:04:21,349 --> 00:04:20,000

people would fly over a field at noon

91

00:04:24,310 --> 00:04:21,359

and they'd come back at 12

92

00:04:25,430 --> 00:04:24,320

10 and they'd be at two three acre crops

93

00:04:27,590 --> 00:04:25,440

over there

94

00:04:28,710 --> 00:04:27,600

and doug and dave can't work that fast

95

00:04:30,950 --> 00:04:28,720

although it is true

96

00:04:32,870 --> 00:04:30,960

there are a few individual hoaxers who

97

00:04:35,350 --> 00:04:32,880

have created their own crop circles

98

00:04:37,430 --> 00:04:35,360

as an elaborate art form there's one

99

00:04:38,390 --> 00:04:37,440

video that seems to show one being built

100

00:04:40,390 --> 00:04:38,400

could be true

101
00:04:42,070 --> 00:04:40,400
since its first witnesses this

102
00:04:43,350 --> 00:04:42,080
phenomenon has always had the same

103
00:04:46,629 --> 00:04:43,360
resemblance

104
00:04:48,550 --> 00:04:46,639
conditions and no direct eyewitnesses

105
00:04:49,830 --> 00:04:48,560
to account for humans fashioning these

106
00:04:52,310 --> 00:04:49,840
extraordinarily most

107
00:05:06,390 --> 00:04:52,320
complex crop circles created in the

108
00:05:10,870 --> 00:05:08,629
the technology to induce such an to

109
00:05:13,520 --> 00:05:10,880
effective plant on a scale like this

110
00:05:21,270 --> 00:05:13,530
simply does not currently exist

111
00:05:26,390 --> 00:05:24,469
well here we are hi everyone

112
00:05:27,830 --> 00:05:26,400
uh so uh just if you're watching on

113
00:05:29,590 --> 00:05:27,840

youtube we have gary

114

00:05:31,189 --> 00:05:29,600

king up at the top and down in the

115

00:05:33,350 --> 00:05:31,199

bottom they're looking at the screen but

116

00:05:36,950 --> 00:05:33,360

not at the camera

117

00:05:39,990 --> 00:05:36,960

this is darcy weir and jim goodall so

118

00:05:41,909 --> 00:05:40,000

thank you all for joining us yeah thanks

119

00:05:44,390 --> 00:05:41,919

for having us

120

00:05:45,189 --> 00:05:44,400

yes uh that is a great film i got the

121

00:05:47,270 --> 00:05:45,199

one of hey

122

00:05:48,469 --> 00:05:47,280

look i i think we just have someone else

123

00:05:51,749 --> 00:05:48,479

here

124

00:05:53,029 --> 00:05:51,759

steven how are you steven glad to be

125

00:05:54,950 --> 00:05:53,039

with you hi

126

00:05:56,870 --> 00:05:54,960

i'm glad you're here i just gave you an

127

00:05:58,870 --> 00:05:56,880

a great introduction that you missed

128

00:06:00,150 --> 00:05:58,880

but it was i i just basically said that

129

00:06:01,270 --> 00:06:00,160

you're the only one that would show up

130

00:06:04,230 --> 00:06:01,280

on my show

131

00:06:05,590 --> 00:06:04,240

uh episode number one we're 450 episodes

132

00:06:08,629 --> 00:06:05,600

now stephen

133

00:06:10,070 --> 00:06:08,639

and you are on number one and i have a

134

00:06:13,270 --> 00:06:10,080

podcast and i've done

135

00:06:16,950 --> 00:06:13,280

one right an introductory and and so now

136

00:06:18,469 --> 00:06:16,960

i have 450 to catch up with you right

137

00:06:20,309 --> 00:06:18,479

it's going to be tough that's all right

138

00:06:23,189 --> 00:06:20,319

i'll be a guest anytime

139

00:06:23,830 --> 00:06:23,199

um but anyway uh thank you all for

140

00:06:25,350 --> 00:06:23,840

joining us

141

00:06:26,870 --> 00:06:25,360

and i don't even know how to start i'm

142

00:06:30,150 --> 00:06:26,880

really excited about tonight

143

00:06:31,749 --> 00:06:30,160

well first of all this i i you know

144

00:06:33,189 --> 00:06:31,759

when i first started and started looking

145

00:06:35,350 --> 00:06:33,199

into this i got to tell you that crop

146

00:06:37,830 --> 00:06:35,360

circles was something i was on

147

00:06:39,749 --> 00:06:37,840

the fence about totally on the fence

148

00:06:41,029 --> 00:06:39,759

about i i said what are they you know

149

00:06:42,870 --> 00:06:41,039

they're man-made you know and some of

150

00:06:46,070 --> 00:06:42,880

them are indeed man-made

151
00:06:48,309 --> 00:06:46,080
um but there are some uh i had a chance

152
00:06:51,990 --> 00:06:48,319
to interview nancy talbot

153
00:06:53,430 --> 00:06:52,000
at the blt research and uh after i spoke

154
00:06:55,029 --> 00:06:53,440
with her are you all right steve

155
00:06:56,790 --> 00:06:55,039
yeah i'm just fixing the camera guys

156
00:06:59,990 --> 00:06:56,800
hang on okay all right

157
00:07:03,189 --> 00:07:00,000
so uh i had i had the

158
00:07:03,510 --> 00:07:03,199
opportunity to interview nancy and after

159
00:07:14,390 --> 00:07:03,520
i

160
00:07:16,629 --> 00:07:14,400
who wants to start

161
00:07:17,430 --> 00:07:16,639
but i'd like for someone to explain the

162
00:07:20,550 --> 00:07:17,440
the

163
00:07:23,029 --> 00:07:20,560

physical things that happen

164

00:07:25,430 --> 00:07:23,039

on some of these crop circles that

165

00:07:27,189 --> 00:07:25,440

couldn't be done by someone trampling

166

00:07:29,029 --> 00:07:27,199

i don't know who wants to take that i'll

167

00:07:30,230 --> 00:07:29,039

i'll all start a little bit and then

168

00:07:34,070 --> 00:07:30,240

i'll hand it off to gary

169

00:07:38,710 --> 00:07:34,080

gary just to give a bit of intro on him

170

00:07:42,629 --> 00:07:38,720

um gary's been researching for over

171

00:07:44,390 --> 00:07:42,639

20 years over in the uk

172

00:07:47,029 --> 00:07:44,400

as we know he's not there right now he's

173

00:07:47,990 --> 00:07:47,039

working for jaime moussan down in mexico

174

00:07:51,029 --> 00:07:48,000

but

175

00:07:53,670 --> 00:07:51,039

uh while living in the uk he he's been

176
00:07:55,510 --> 00:07:53,680
researching them in person he's walked

177
00:07:57,350 --> 00:07:55,520
in over 900 different

178
00:07:58,710 --> 00:07:57,360
formations that have shown up over the

179
00:08:02,070 --> 00:07:58,720
years

180
00:08:05,270 --> 00:08:02,080
um he had a sort of anomalous

181
00:08:06,230 --> 00:08:05,280
ufo type event happen right in front of

182
00:08:09,270 --> 00:08:06,240
him

183
00:08:09,510 --> 00:08:09,280
um and then a massive crop circle show

184
00:08:13,270 --> 00:08:09,520
up

185
00:08:17,510 --> 00:08:13,280
that uh has been dubbed 777

186
00:08:21,189 --> 00:08:17,520
it happened on the 7th of july 2007

187
00:08:25,189 --> 00:08:21,199
and uh you know the things

188
00:08:28,070 --> 00:08:25,199

that we most notably know about

189

00:08:29,029 --> 00:08:28,080

the two hoaxers doug bauer and dave

190

00:08:31,589 --> 00:08:29,039

chorley

191

00:08:32,230 --> 00:08:31,599

who claimed to have made all the crop

192

00:08:35,269 --> 00:08:32,240

circles

193

00:08:37,110 --> 00:08:35,279

since the 70s to the 90s which is

194

00:08:39,509 --> 00:08:37,120

impossible

195

00:08:41,430 --> 00:08:39,519

they stated that they just did it with

196

00:08:43,350 --> 00:08:41,440

the wood board and a piece of rope and

197

00:08:46,389 --> 00:08:43,360

when you look at that kind of

198

00:08:49,190 --> 00:08:46,399

uh craftsmanship let's say

199

00:08:50,230 --> 00:08:49,200

that work leaves the stalks of the

200

00:08:53,509 --> 00:08:50,240

plants broken

201
00:08:57,110 --> 00:08:53,519
completely um and you know

202
00:09:01,190 --> 00:08:57,120
hence the crops don't keep growing uh

203
00:09:02,870 --> 00:09:01,200
the it also is not as symmetrical and

204
00:09:04,870 --> 00:09:02,880
perfect from above

205
00:09:06,790 --> 00:09:04,880
there are some formations that have been

206
00:09:09,350 --> 00:09:06,800
made by man you know uh

207
00:09:11,509 --> 00:09:09,360
national geographic for example did a

208
00:09:15,110 --> 00:09:11,519
very big debunker piece

209
00:09:18,150 --> 00:09:15,120
their own uh documentary trying to prove

210
00:09:21,430 --> 00:09:18,160
that all crop circles were made by men

211
00:09:24,550 --> 00:09:21,440
and they had a team of workers do this

212
00:09:27,750 --> 00:09:24,560
uh but they fast track

213
00:09:29,509 --> 00:09:27,760

the crop circle uh formation and show it

214

00:09:32,150 --> 00:09:29,519

from above they don't tell you

215

00:09:33,670 --> 00:09:32,160

how exactly long it took they did it

216

00:09:36,070 --> 00:09:33,680

during the day they didn't

217

00:09:38,470 --> 00:09:36,080

do it during the night and i think some

218

00:09:41,670 --> 00:09:38,480

of these incredibly complex

219

00:09:43,350 --> 00:09:41,680

formations these lips agroglyphs as uh

220

00:09:46,470 --> 00:09:43,360

steven bassett calls them

221

00:09:50,150 --> 00:09:46,480

have showed up um you know within

222

00:09:53,350 --> 00:09:50,160

minutes sometimes a few hours

223

00:09:55,990 --> 00:09:53,360

um until daylight comes up and

224

00:09:56,870 --> 00:09:56,000

people haven't seen any human footprints

225

00:09:59,750 --> 00:09:56,880

in them

226

00:10:00,389 --> 00:09:59,760

uh no tire tracks leading away from this

227

00:10:04,230 --> 00:10:00,399

the crop

228

00:10:05,590 --> 00:10:04,240

formation um basically no one to account

229

00:10:08,230 --> 00:10:05,600

for making them

230

00:10:08,870 --> 00:10:08,240

uh and they just come up with the

231

00:10:12,790 --> 00:10:08,880

daylight

232

00:10:14,150 --> 00:10:12,800

so under those certain conditions no

233

00:10:17,430 --> 00:10:14,160

one's been able to

234

00:10:19,990 --> 00:10:17,440

recreate some of these extremely complex

235

00:10:21,190 --> 00:10:20,000

formations that we we show some of in

236

00:10:24,630 --> 00:10:21,200

the documentary

237

00:10:27,670 --> 00:10:24,640

and gary what makes them so

238

00:10:29,269 --> 00:10:27,680

you know uh what's so notable

239

00:10:30,710 --> 00:10:29,279

about the ones that are man-made and

240

00:10:32,310 --> 00:10:30,720

then the ones that are

241

00:10:34,150 --> 00:10:32,320

obviously made by some other

242

00:10:36,470 --> 00:10:34,160

intelligence

243

00:10:38,230 --> 00:10:36,480

uh well the first thing is um the the

244

00:10:40,470 --> 00:10:38,240

condition of the crop when you walk into

245

00:10:42,949 --> 00:10:40,480

it you can almost immediately tell

246

00:10:44,870 --> 00:10:42,959

by the way that the crop has been laid

247

00:10:46,790 --> 00:10:44,880

if there's been a human agency if

248

00:10:49,590 --> 00:10:46,800

there's been people stepping across it

249

00:10:50,710 --> 00:10:49,600

with boards you see a consistent pattern

250

00:10:52,949 --> 00:10:50,720

of damage

251
00:10:55,030 --> 00:10:52,959
it's very easy to spot and there's

252
00:10:56,790 --> 00:10:55,040
scrape marks along the stems because

253
00:10:58,949 --> 00:10:56,800
the crop doesn't all fall down at once

254
00:11:00,710 --> 00:10:58,959
it sort of comes down and springs back

255
00:11:02,389 --> 00:11:00,720
up and then they scrape across it and

256
00:11:04,069 --> 00:11:02,399
press down again

257
00:11:06,310 --> 00:11:04,079
it's really easy to spot when we don't

258
00:11:08,310 --> 00:11:06,320
see that and when that's in the vast

259
00:11:11,269 --> 00:11:08,320
majority of cases you'll see

260
00:11:12,710 --> 00:11:11,279
that there's a volume to the crop which

261
00:11:14,790 --> 00:11:12,720
can be

262
00:11:16,470 --> 00:11:14,800
swirling along almost as if it's like

263
00:11:19,590 --> 00:11:16,480

water's gone through it it's

264

00:11:20,630 --> 00:11:19,600

it's like crashing up the sides and and

265

00:11:23,670 --> 00:11:20,640

so on

266

00:11:25,590 --> 00:11:23,680

and then and it's lifted off the ground

267

00:11:27,750 --> 00:11:25,600

and so what what i've done i've got

268

00:11:30,150 --> 00:11:27,760

pictures to to prove this is

269

00:11:31,829 --> 00:11:30,160

is that you see the damage come to the

270

00:11:34,470 --> 00:11:31,839

crop after people

271

00:11:36,389 --> 00:11:34,480

began to visit it so and they'll

272

00:11:38,550 --> 00:11:36,399

normally walk down one very thin

273

00:11:40,470 --> 00:11:38,560

line down the middle of say a one and a

274

00:11:42,389 --> 00:11:40,480

half meter avenue

275

00:11:44,949 --> 00:11:42,399

you go back three or four or five days

276
00:11:45,990 --> 00:11:44,959
later and you just see the crop where

277
00:11:48,230 --> 00:11:46,000
people have walked

278
00:11:49,670 --> 00:11:48,240
is dead and all the crop to the right

279
00:11:53,190 --> 00:11:49,680
and left hand sides of that

280
00:11:55,269 --> 00:11:53,200
is still alive and still voluminous so

281
00:11:57,190 --> 00:11:55,279
if somebody if if i'm expected to

282
00:11:59,350 --> 00:11:57,200
believe that just footsteps kill the

283
00:12:02,470 --> 00:11:59,360
crop within a couple of days

284
00:12:04,310 --> 00:12:02,480
then surely if that was the method under

285
00:12:06,310 --> 00:12:04,320
which the crop was laid down by

286
00:12:08,150 --> 00:12:06,320
pressing it down with boards after two

287
00:12:11,910 --> 00:12:08,160
or three days i would expect to see

288
00:12:15,190 --> 00:12:11,920

all of it dead just in the same fashion

289

00:12:15,509 --> 00:12:15,200

in terms of blt research nancy and levin

290

00:12:17,910 --> 00:12:15,519

good

291

00:12:20,470 --> 00:12:17,920

and burke did some absolutely great work

292

00:12:21,910 --> 00:12:20,480

in the 90s and into the 2000s

293

00:12:23,670 --> 00:12:21,920

where they pretty much showed

294

00:12:25,990 --> 00:12:23,680

consistently that

295

00:12:28,550 --> 00:12:26,000

there is three types of energy that's

296

00:12:32,150 --> 00:12:28,560

impacting the crop and the soil

297

00:12:33,990 --> 00:12:32,160

electricity microwaves and magnetism

298

00:12:36,150 --> 00:12:34,000

the electricity and the microwaves can

299

00:12:39,110 --> 00:12:36,160

be told detected

300

00:12:40,629 --> 00:12:39,120

through the crop um it's a bit like if

301
00:12:41,350 --> 00:12:40,639
you have an electric shock and you go

302
00:12:44,310 --> 00:12:41,360
and have a

303
00:12:45,750 --> 00:12:44,320
um one of those heart monitors put on it

304
00:12:46,949 --> 00:12:45,760
can tell you that you've had an electric

305
00:12:49,269 --> 00:12:46,959
shock and plants

306
00:12:50,870 --> 00:12:49,279
uh it can be detected the same way so

307
00:12:53,990 --> 00:12:50,880
far as i understand

308
00:12:56,550 --> 00:12:54,000
also if you put a stem of

309
00:12:57,750 --> 00:12:56,560
crop which has moisture inside it into a

310
00:12:59,990 --> 00:12:57,760
microwave

311
00:13:01,030 --> 00:13:00,000
and heat it up then what happens is the

312
00:13:03,350 --> 00:13:01,040
moisture inside

313
00:13:05,590 --> 00:13:03,360

tries to find an escape route it will

314

00:13:08,069 --> 00:13:05,600

elongate the nodes of the crop

315

00:13:09,110 --> 00:13:08,079

and then blow out expulsion cavities to

316

00:13:12,150 --> 00:13:09,120

let the steam out

317

00:13:15,269 --> 00:13:12,160

and we found that in vast majority of

318

00:13:17,829 --> 00:13:15,279

crop circles these expulsion cavities

319

00:13:19,509 --> 00:13:17,839

and the magnetism is detected through

320

00:13:21,269 --> 00:13:19,519

the soil

321

00:13:24,310 --> 00:13:21,279

iron is one of the most abundant is the

322

00:13:27,030 --> 00:13:24,320

most abundant element in the universe

323

00:13:27,750 --> 00:13:27,040

and there's always iron drops falling

324

00:13:29,910 --> 00:13:27,760

down from

325

00:13:32,069 --> 00:13:29,920

space onto the ground so if you take a

326

00:13:33,670 --> 00:13:32,079

sample of soil anywhere on the planet

327

00:13:37,190 --> 00:13:33,680

you will expect to find a certain

328

00:13:39,750 --> 00:13:37,200

percentage of iron within that sample

329

00:13:41,910 --> 00:13:39,760

what we find when we do an examination

330

00:13:44,629 --> 00:13:41,920

of the soil inside crop circles

331

00:13:46,310 --> 00:13:44,639

is that the control samples taken from

332

00:13:48,389 --> 00:13:46,320

outside compared to

333

00:13:49,670 --> 00:13:48,399

the controls taken from inside the crop

334

00:13:52,470 --> 00:13:49,680

circle show

335

00:13:53,350 --> 00:13:52,480

that the um inside of the crop circle

336

00:13:57,189 --> 00:13:53,360

has

337

00:13:59,750 --> 00:13:57,199

lots more iron and sometimes this ion

338

00:14:01,110 --> 00:13:59,760

is distributed almost in the same way

339

00:14:04,389 --> 00:14:01,120

that a light

340

00:14:06,470 --> 00:14:04,399

bulb in the center of a room distributes

341

00:14:08,470 --> 00:14:06,480

light it's sort of the inverse square

342

00:14:10,310 --> 00:14:08,480

law fades off as it goes away

343

00:14:12,310 --> 00:14:10,320

and so we see a distribution of iron

344

00:14:14,870 --> 00:14:12,320

that's more concentrated in the center

345

00:14:16,310 --> 00:14:14,880

and and less towards the outside of the

346

00:14:18,870 --> 00:14:16,320

formation

347

00:14:20,389 --> 00:14:18,880

so on two on two fronts there you're

348

00:14:21,670 --> 00:14:20,399

looking at the condition of the late

349

00:14:23,750 --> 00:14:21,680

crop

350

00:14:25,030 --> 00:14:23,760

i always bring in time frame because

351
00:14:26,710 --> 00:14:25,040
ninety percent of the crop circles

352
00:14:28,470 --> 00:14:26,720
ninety-five percent of them appear

353
00:14:30,230 --> 00:14:28,480
in four or five hours of darkness in the

354
00:14:33,350 --> 00:14:30,240
british summer time

355
00:14:33,990 --> 00:14:33,360
and with the scientific data to back it

356
00:14:35,750 --> 00:14:34,000
up that there

357
00:14:37,430 --> 00:14:35,760
are anomalous findings which we don't

358
00:14:38,870 --> 00:14:37,440
find in the controls

359
00:14:41,910 --> 00:14:38,880
then there's something to talk about

360
00:14:44,870 --> 00:14:41,920
that's from another agency

361
00:14:45,430 --> 00:14:44,880
well there is a the one thing i i know

362
00:14:48,550 --> 00:14:45,440
that

363
00:14:49,910 --> 00:14:48,560

no one sitting here today is saying and

364

00:14:52,470 --> 00:14:49,920

coming out and saying

365

00:14:53,829 --> 00:14:52,480

is that that these things are aliens no

366

00:14:57,670 --> 00:14:53,839

one's saying that for sure

367

00:14:59,350 --> 00:14:57,680

i i i think you know what uh

368

00:15:00,949 --> 00:14:59,360

maybe i'm wrong maybe one of you think

369

00:15:02,870 --> 00:15:00,959

that uh but

370

00:15:05,030 --> 00:15:02,880

i think what it is it's more of a

371

00:15:06,710 --> 00:15:05,040

question mark than anything else what is

372

00:15:09,910 --> 00:15:06,720

it that's doing these but

373

00:15:12,470 --> 00:15:09,920

this brings me to there was a film done

374

00:15:13,350 --> 00:15:12,480

and i'd like to play the film because um

375

00:15:16,069 --> 00:15:13,360

i had

376

00:15:17,030 --> 00:15:16,079

always been told it was just plain uh a

377

00:15:19,670 --> 00:15:17,040

hoax

378

00:15:20,949 --> 00:15:19,680

and then after watching your film i'm

379

00:15:22,949 --> 00:15:20,959

starting to think you know

380

00:15:24,949 --> 00:15:22,959

this maybe there really is something to

381

00:15:27,590 --> 00:15:24,959

this and i want one of you if you would

382

00:15:29,430 --> 00:15:27,600

to explain why this video that i'm going

383

00:15:31,030 --> 00:15:29,440

to play right now and i will have that

384

00:15:32,710 --> 00:15:31,040

in the show notes as well

385

00:15:34,870 --> 00:15:32,720

uh for those of you listening to the

386

00:15:35,509 --> 00:15:34,880

audio podcast i'll make sure i put it in

387

00:15:37,189 --> 00:15:35,519

there

388

00:15:43,350 --> 00:15:37,199

but i'm talking about this one right

389

00:15:48,389 --> 00:15:46,310

you can see where these things these

390

00:15:51,269 --> 00:15:48,399

orbs are going

391

00:15:53,590 --> 00:15:51,279

over this field and this was taken back

392

00:15:56,870 --> 00:15:53,600

in the 90s with the vhs

393

00:15:58,550 --> 00:15:56,880

camera video camera and

394

00:15:59,910 --> 00:15:58,560

as these things are floating back and

395

00:16:02,470 --> 00:15:59,920

forth um

396

00:16:03,269 --> 00:16:02,480

this crop circle is like showing up

397

00:16:05,430 --> 00:16:03,279

underneath it

398

00:16:07,030 --> 00:16:05,440

and which one of you would like to talk

399

00:16:10,550 --> 00:16:07,040

about that

400

00:16:11,910 --> 00:16:10,560

oh i'll go for it um i talk about this

401
00:16:14,710 --> 00:16:11,920
quite extensively in the

402
00:16:15,990 --> 00:16:14,720
in the film um because there was

403
00:16:17,430 --> 00:16:16,000
obviously a lot of controversy

404
00:16:18,629 --> 00:16:17,440
surrounding this event it was

405
00:16:21,269 --> 00:16:18,639
immediately

406
00:16:22,150 --> 00:16:21,279
claimed to be hoaxed and someone said

407
00:16:25,670 --> 00:16:22,160
that they was just

408
00:16:27,509 --> 00:16:25,680
animated um but what we had really was a

409
00:16:29,430 --> 00:16:27,519
19 year old kid that come over from

410
00:16:31,350 --> 00:16:29,440
australia to visit the crop circles who

411
00:16:34,310 --> 00:16:31,360
decided to do a night watch

412
00:16:36,389 --> 00:16:34,320
and he was awoken around 4am just as the

413
00:16:39,590 --> 00:16:36,399

lights coming up in summertime

414

00:16:41,509 --> 00:16:39,600

and he heard strange noises and he

415

00:16:43,350 --> 00:16:41,519

looked out and saw orbs flying around

416

00:16:45,030 --> 00:16:43,360

and filmed them

417

00:16:46,629 --> 00:16:45,040

at the time he didn't see the crop

418

00:16:48,389 --> 00:16:46,639

circle actually manifest

419

00:16:49,749 --> 00:16:48,399

it was only later when he subsequently

420

00:16:51,910 --> 00:16:49,759

showed the people

421

00:16:53,670 --> 00:16:51,920

at the hot spot for crop circles which

422

00:16:55,030 --> 00:16:53,680

was the barge in in those days he showed

423

00:16:57,189 --> 00:16:55,040

them the video and that's when it was

424

00:16:58,710 --> 00:16:57,199

seen that there was a crop circle there

425

00:17:00,389 --> 00:16:58,720

the crop circle wasn't there the night

426

00:17:01,749 --> 00:17:00,399

before and it was there the following

427

00:17:03,509 --> 00:17:01,759

morning

428

00:17:05,909 --> 00:17:03,519

it was a six-fold formation there were

429

00:17:07,990 --> 00:17:05,919

six arms off of a central circle

430

00:17:10,069 --> 00:17:08,000

but it had hidden within it implicit

431

00:17:11,750 --> 00:17:10,079

seven-fold geometry which is actually

432

00:17:13,590 --> 00:17:11,760

very difficult to do if

433

00:17:15,350 --> 00:17:13,600

you do a little bit of study on geometry

434

00:17:16,789 --> 00:17:15,360

to divide a circle by seven is more

435

00:17:17,990 --> 00:17:16,799

complicated than any of the other

436

00:17:21,110 --> 00:17:18,000

numbers because it's not a whole

437

00:17:24,630 --> 00:17:21,120

number um so the sophistication of the

438

00:17:28,150 --> 00:17:24,640

actual formation was was up there

439

00:17:31,270 --> 00:17:28,160

the the footage was analyzed by a

440

00:17:32,950 --> 00:17:31,280

laboratory in london

441

00:17:35,590 --> 00:17:32,960

and because it was handheld and as you

442

00:17:38,870 --> 00:17:35,600

mentioned because it was 1996 sort of

443

00:17:41,190 --> 00:17:38,880

mini dv camcorder technology um what you

444

00:17:42,870 --> 00:17:41,200

see is the horizon going up and down

445

00:17:44,950 --> 00:17:42,880

as the as the cameraman is kind of

446

00:17:48,070 --> 00:17:44,960

filming it he's moving like this

447

00:17:49,110 --> 00:17:48,080

but the balls of light stay consistently

448

00:17:51,750 --> 00:17:49,120

at the same height

449

00:17:54,710 --> 00:17:51,760

above the field and you can see it

450

00:17:56,390 --> 00:17:54,720

wobbling around there

451
00:17:58,150 --> 00:17:56,400
and so what that would mean with 25

452
00:18:00,549 --> 00:17:58,160
frames per second is that if somebody

453
00:18:03,430 --> 00:18:00,559
were to animate that they would have to

454
00:18:07,110 --> 00:18:03,440
paint on painstakingly these orbs

455
00:18:08,710 --> 00:18:07,120
uh and every frame um and keep it keep

456
00:18:11,029 --> 00:18:08,720
it all consistent and not show any

457
00:18:12,870 --> 00:18:11,039
artifacts which is actually

458
00:18:14,789 --> 00:18:12,880
well we we consulted some disney

459
00:18:16,310 --> 00:18:14,799
animators there was a film made by a

460
00:18:18,549 --> 00:18:16,320
norwegian filmmaker called terry

461
00:18:21,590 --> 00:18:18,559
toughness in 2004

462
00:18:25,830 --> 00:18:21,600
and he uh no 2006 sorry he

463
00:18:28,630 --> 00:18:25,840

contacted um some uh disney animators

464

00:18:30,150 --> 00:18:28,640

i i got my dears wrong it was 2004. and

465

00:18:31,669 --> 00:18:30,160

2004 he asked these

466

00:18:33,190 --> 00:18:31,679

disney animators look how difficult

467

00:18:34,070 --> 00:18:33,200

would it be to animate this and knock

468

00:18:35,590 --> 00:18:34,080

this up

469

00:18:37,350 --> 00:18:35,600

and they said well we'd need a couple of

470

00:18:40,070 --> 00:18:37,360

weeks and to be honest

471

00:18:41,750 --> 00:18:40,080

anyone with any film expertise would be

472

00:18:42,710 --> 00:18:41,760

able to notice it under analysis and

473

00:18:45,190 --> 00:18:42,720

scrutiny

474

00:18:46,390 --> 00:18:45,200

whereas the laboratories that we had the

475

00:18:48,789 --> 00:18:46,400

footage sent to

476

00:18:50,789 --> 00:18:48,799

confirmed that there were no artifacts

477

00:18:52,870 --> 00:18:50,799

and that this footage in their opinion

478

00:18:54,830 --> 00:18:52,880

was genuine and there were several film

479

00:18:56,870 --> 00:18:54,840

people consulted in england and in the

480

00:18:59,430 --> 00:18:56,880

us so

481

00:19:00,789 --> 00:18:59,440

what what it seems we have here is is an

482

00:19:01,990 --> 00:19:00,799

agency

483

00:19:03,909 --> 00:19:02,000

and if we don't know if it's

484

00:19:05,110 --> 00:19:03,919

extraterrestrial as you say there's

485

00:19:07,590 --> 00:19:05,120

there's a lot of belief that it is

486

00:19:08,310 --> 00:19:07,600

extraterrestrial but that we have orbs

487

00:19:10,310 --> 00:19:08,320

which we can

488

00:19:12,150 --> 00:19:10,320

speculate might be drones from a mother

489

00:19:13,750 --> 00:19:12,160

ship or something like that

490

00:19:15,430 --> 00:19:13,760

but these orbs have been seen very

491

00:19:16,870 --> 00:19:15,440

regularly in wiltshire for

492

00:19:19,190 --> 00:19:16,880

a number of years some of the hills are

493

00:19:20,630 --> 00:19:19,200

even named after these kind of orbs

494

00:19:24,470 --> 00:19:20,640

they're called golden ball hill

495

00:19:27,270 --> 00:19:24,480

and things like this and so um

496

00:19:28,710 --> 00:19:27,280

it seems in my view to be a genuine

497

00:19:30,230 --> 00:19:28,720

event which was obviously quickly

498

00:19:33,510 --> 00:19:30,240

stamped on and debunked by

499

00:19:34,950 --> 00:19:33,520

the usual characters but under closer

500

00:19:36,950 --> 00:19:34,960

scrutiny you can see that there's

501
00:19:40,950 --> 00:19:36,960
something to it

502
00:19:43,430 --> 00:19:40,960
yeah excellent and uh this image here

503
00:19:44,950 --> 00:19:43,440
is i think really wonderful i've seen

504
00:19:47,830 --> 00:19:44,960
this for a long time

505
00:19:49,310 --> 00:19:47,840
the mowing devil uh this was uh

506
00:19:52,390 --> 00:19:49,320
published back in

507
00:19:54,549 --> 00:19:52,400
1678 and uh

508
00:19:55,590 --> 00:19:54,559
i i know there's the the rumor that it

509
00:19:59,029 --> 00:19:55,600
had to do with

510
00:19:59,750 --> 00:19:59,039
um dispute with uh crops and things like

511
00:20:03,669 --> 00:19:59,760
that

512
00:20:05,350 --> 00:20:03,679
but um but it's a recorded in a way it's

513
00:20:08,230 --> 00:20:05,360

a recorded crop circle

514

00:20:08,710 --> 00:20:08,240

of some type or a lot of people are at

515

00:20:11,510 --> 00:20:08,720

least

516

00:20:13,750 --> 00:20:11,520

speculating that um i don't know if

517

00:20:15,590 --> 00:20:13,760

anyone wants to tackle that but also

518

00:20:18,390 --> 00:20:15,600

are there any other cases of that does

519

00:20:21,990 --> 00:20:18,400

anyone know of any other publications

520

00:20:25,270 --> 00:20:22,000

i'll just chime in that um we know

521

00:20:26,310 --> 00:20:25,280

in that article uh you know the other

522

00:20:29,510 --> 00:20:26,320

pages that

523

00:20:32,870 --> 00:20:29,520

came with that story that um

524

00:20:36,310 --> 00:20:32,880

people that were from the area

525

00:20:39,669 --> 00:20:36,320

had seen had sightings of

526

00:20:43,029 --> 00:20:39,679

what looked like orbs floating above the

527

00:20:43,830 --> 00:20:43,039

the farmland so uh the crops basically

528

00:20:46,390 --> 00:20:43,840

they saw

529

00:20:47,029 --> 00:20:46,400

what they called balls of fire but we

530

00:20:49,590 --> 00:20:47,039

would

531

00:20:50,470 --> 00:20:49,600

probably in modern times equate that to

532

00:20:53,830 --> 00:20:50,480

like some kind of

533

00:20:56,789 --> 00:20:53,840

orb ufo um i think what

534

00:20:58,310 --> 00:20:56,799

gary can you know tell you is that

535

00:21:01,190 --> 00:20:58,320

people ask all the time

536

00:21:02,070 --> 00:21:01,200

why why the uk you know why is that

537

00:21:05,350 --> 00:21:02,080

there's a

538

00:21:09,270 --> 00:21:05,360

long history of these glyphs

539

00:21:12,470 --> 00:21:09,280

showing up in the uk and um

540

00:21:15,830 --> 00:21:12,480

there's a long history of

541

00:21:19,190 --> 00:21:15,840

basically us modernizing the world

542

00:21:22,470 --> 00:21:19,200

from the uk and and fanning out around

543

00:21:23,430 --> 00:21:22,480

you know globally and so you know if you

544

00:21:26,390 --> 00:21:23,440

go back

545

00:21:27,669 --> 00:21:26,400

to when we really clear-cut the forest

546

00:21:29,750 --> 00:21:27,679

there and started

547

00:21:32,070 --> 00:21:29,760

modern farming that's where these

548

00:21:36,310 --> 00:21:32,080

massive crops were feeding

549

00:21:39,750 --> 00:21:36,320

all of the the uh europe and trading and

550

00:21:43,110 --> 00:21:39,760

uh folks were coming from around all of

551
00:21:50,070 --> 00:21:46,390
take their seeds and use these ancient

552
00:21:52,230 --> 00:21:50,080
areas like uh stonehenge for example

553
00:21:53,669 --> 00:21:52,240
uh they would leave them there for a

554
00:21:55,110 --> 00:21:53,679
certain amount of time and then take

555
00:21:57,430 --> 00:21:55,120
them back to their

556
00:21:58,549 --> 00:21:57,440
countries somewhere else in europe and

557
00:22:02,310 --> 00:21:58,559
plant and

558
00:22:05,430 --> 00:22:02,320
they would get higher um

559
00:22:08,549 --> 00:22:05,440
you know they would reap a higher

560
00:22:11,590 --> 00:22:08,559
crop from from those seeds

561
00:22:12,710 --> 00:22:11,600
because of some kind of energy in that

562
00:22:16,710 --> 00:22:12,720
area

563
00:22:17,750 --> 00:22:16,720

um but you know there's a continuity of

564

00:22:21,430 --> 00:22:17,760

messaging

565

00:22:24,149 --> 00:22:21,440

friend

566

00:22:26,070 --> 00:22:24,159

on facebook and then you message them on

567

00:22:26,789 --> 00:22:26,080

whatsapp and then you move that to text

568

00:22:28,070 --> 00:22:26,799

message

569

00:22:30,390 --> 00:22:28,080

you're going to annoy the hell out of

570

00:22:31,350 --> 00:22:30,400

them right but if we keep getting

571

00:22:34,630 --> 00:22:31,360

messages in

572

00:22:36,870 --> 00:22:34,640

one constant area

573

00:22:38,310 --> 00:22:36,880

this continuity where we can rely on a

574

00:22:41,029 --> 00:22:38,320

message coming back

575

00:22:42,870 --> 00:22:41,039

every single summer every single spring

576

00:22:45,669 --> 00:22:42,880

when the crops are coming up

577

00:22:46,789 --> 00:22:45,679

well then we know that there's this

578

00:22:49,510 --> 00:22:46,799

dialogue

579

00:22:50,789 --> 00:22:49,520

this this constant conversation that we

580

00:22:52,710 --> 00:22:50,799

can expect

581

00:22:54,630 --> 00:22:52,720

and you know just last year there was a

582

00:22:57,830 --> 00:22:54,640

covid 19

583

00:22:59,110 --> 00:22:57,840

glyph that showed up and uh gary king

584

00:23:02,549 --> 00:22:59,120

even did a

585

00:23:05,350 --> 00:23:02,559

analysis of that recently so

586

00:23:06,070 --> 00:23:05,360

you know it's not like it's not like

587

00:23:08,390 --> 00:23:06,080

these things

588

00:23:09,270 --> 00:23:08,400

ever stopped it's just that people

589

00:23:12,230 --> 00:23:09,280

bought

590

00:23:12,950 --> 00:23:12,240

the mainstream lie that they're all made

591

00:23:16,549 --> 00:23:12,960

by

592

00:23:17,110 --> 00:23:16,559

people and that's just completely untrue

593

00:23:19,029 --> 00:23:17,120

and

594

00:23:20,950 --> 00:23:19,039

yeah i would say that there is some kind

595

00:23:21,750 --> 00:23:20,960

of intelligence that's probably off

596

00:23:24,230 --> 00:23:21,760

world

597

00:23:25,350 --> 00:23:24,240

especially if you look at the arecibo

598

00:23:28,630 --> 00:23:25,360

reply

599

00:23:30,070 --> 00:23:28,640

that came in 2001 if you google chill

600

00:23:34,710 --> 00:23:30,080

bolton

601
00:23:37,190 --> 00:23:34,720
crop circle 2001 this is a

602
00:23:39,590 --> 00:23:37,200
point for point replied to the message

603
00:23:43,350 --> 00:23:39,600
we sent out with the arcebo

604
00:23:44,470 --> 00:23:43,360
uh telescope in 1974 carl sagan designed

605
00:23:52,470 --> 00:23:44,480
this

606
00:23:55,590 --> 00:23:52,480
have it up there

607
00:23:59,430 --> 00:23:55,600
a beautiful reply that shows their dna

608
00:24:01,029 --> 00:23:59,440
structure the um the bodily form that

609
00:24:04,149 --> 00:24:01,039
they have it shows

610
00:24:05,110 --> 00:24:04,159
their solar system and the planet that

611
00:24:08,630 --> 00:24:05,120
they inhabit

612
00:24:10,870 --> 00:24:08,640
and that it has three moons um

613
00:24:12,549 --> 00:24:10,880

it also shows at the very bottom that

614

00:24:16,390 --> 00:24:12,559

very strange

615

00:24:18,870 --> 00:24:16,400

sort of uh circle and then a bunch of

616

00:24:21,669 --> 00:24:18,880

emanating circles coming out of it we

617

00:24:25,669 --> 00:24:21,679

actually got in 2000

618

00:24:28,710 --> 00:24:25,679

just that image and

619

00:24:30,870 --> 00:24:28,720

that image is

620

00:24:32,870 --> 00:24:30,880

their diagram of the type of technology

621

00:24:35,430 --> 00:24:32,880

they use to send out

622

00:24:37,029 --> 00:24:35,440

their communications in space and it's a

623

00:24:41,029 --> 00:24:37,039

microwave

624

00:24:42,710 --> 00:24:41,039

um telescope we use just a

625

00:24:45,110 --> 00:24:42,720

radio wave telescope that's what the

626

00:24:48,149 --> 00:24:45,120

arecibo is it's not a microwave so

627

00:24:50,710 --> 00:24:48,159

our in our version of that which

628

00:24:51,750 --> 00:24:50,720

uh carl sagan sent out you can see our

629

00:24:54,070 --> 00:24:51,760

diagram

630

00:24:55,830 --> 00:24:54,080

and it's a totally different type of

631

00:24:59,269 --> 00:24:55,840

telescope technology

632

00:25:02,070 --> 00:24:59,279

but uh you know i think we

633

00:25:03,430 --> 00:25:02,080

we are being communicated with and some

634

00:25:04,789 --> 00:25:03,440

people would say

635

00:25:06,710 --> 00:25:04,799

you know well why aren't they just

636

00:25:10,470 --> 00:25:06,720

landing on the white house lawn

637

00:25:13,029 --> 00:25:10,480

why aren't they uh you know doing a

638

00:25:14,950 --> 00:25:13,039

intricate design right in front of

639

00:25:18,149 --> 00:25:14,960

buckingham palace

640

00:25:18,470 --> 00:25:18,159

um and the answer quite simply is and i

641

00:25:21,430 --> 00:25:18,480

mean

642

00:25:21,990 --> 00:25:21,440

i've got jim goodall sitting right next

643

00:25:25,029 --> 00:25:22,000

to me

644

00:25:29,269 --> 00:25:25,039

he's a aerospace uh

645

00:25:32,630 --> 00:25:29,279

historian and worked on the sr-71 here

646

00:25:32,640 --> 00:25:36,149

navigation installers

647

00:25:39,909 --> 00:25:38,149

he knows himself that there's a long

648

00:25:43,510 --> 00:25:39,919

history of

649

00:25:44,149 --> 00:25:43,520

our military shooting at ufos you've got

650

00:25:48,950 --> 00:25:44,159

the

651
00:25:51,590 --> 00:25:48,960
we unloaded

652
00:25:52,470 --> 00:25:51,600
hundreds of shells into the sky to try

653
00:25:54,789 --> 00:25:52,480
and take over

654
00:25:55,510 --> 00:25:54,799
take down a ufo that was floating over

655
00:25:57,669 --> 00:25:55,520
la

656
00:26:00,070 --> 00:25:57,679
we have the roswell new mexico crash

657
00:26:03,190 --> 00:26:00,080
that happened in 1947.

658
00:26:04,950 --> 00:26:03,200
um they have tried to land

659
00:26:07,830 --> 00:26:04,960
they have tried to like come here and

660
00:26:09,990 --> 00:26:07,840
and we're such a hostile race we've been

661
00:26:11,590 --> 00:26:10,000
constantly trying to take them down and

662
00:26:13,750 --> 00:26:11,600
possibly retrieving

663
00:26:14,710 --> 00:26:13,760

some craft that have gone down in

664

00:26:17,430 --> 00:26:14,720

history

665

00:26:18,390 --> 00:26:17,440

so if you look at crop circles this is a

666

00:26:21,430 --> 00:26:18,400

messaging

667

00:26:24,710 --> 00:26:21,440

that's peaceful um

668

00:26:26,630 --> 00:26:24,720

it doesn't require any landing it's only

669

00:26:30,149 --> 00:26:26,640

visible from above

670

00:26:30,630 --> 00:26:30,159

and it works its way into our newspapers

671

00:26:33,110 --> 00:26:30,640

and

672

00:26:34,390 --> 00:26:33,120

you know many articles online so

673

00:26:35,909 --> 00:26:34,400

eventually people

674

00:26:37,590 --> 00:26:35,919

hear about it and know about this

675

00:26:39,430 --> 00:26:37,600

messaging

676

00:26:41,669 --> 00:26:39,440

and it's kind of a loophole to get

677

00:26:45,430 --> 00:26:41,679

around the military and

678

00:26:48,549 --> 00:26:45,440

and you know the information filters

679

00:26:51,990 --> 00:26:48,559

yeah i put up there now the uh the virus

680

00:26:56,470 --> 00:26:52,000

uh crop circle but um you know what this

681

00:26:59,750 --> 00:26:56,480

going back to this one um the cha bolton

682

00:27:01,909 --> 00:26:59,760

uh one what a complicated i was when

683

00:27:04,070 --> 00:27:01,919

i was watching your your video the

684

00:27:07,750 --> 00:27:04,080

screeener with a friend the other night

685

00:27:10,950 --> 00:27:07,760

and what a complicated

686

00:27:12,870 --> 00:27:10,960

uh both of these crop circles are so so

687

00:27:14,549 --> 00:27:12,880

complicated i mean it would seem like it

688

00:27:16,390 --> 00:27:14,559

would take days

689

00:27:17,669 --> 00:27:16,400

to carefully construct something like

690

00:27:21,350 --> 00:27:17,679

this

691

00:27:24,389 --> 00:27:21,360

yes and um you'll notice there's two

692

00:27:26,950 --> 00:27:24,399

and what gary will say is it's not like

693

00:27:28,230 --> 00:27:26,960

just one crop circle shows up in the

694

00:27:29,990 --> 00:27:28,240

summer

695

00:27:32,389 --> 00:27:30,000

you know how many would you say can show

696

00:27:34,870 --> 00:27:32,399

up in one night gary

697

00:27:36,149 --> 00:27:34,880

the the most i've known um there was a

698

00:27:38,950 --> 00:27:36,159

report although i never

699

00:27:40,149 --> 00:27:38,960

independently verified this that 35 came

700

00:27:42,310 --> 00:27:40,159

in one night

701
00:27:43,990 --> 00:27:42,320
paul vigay and lucy pringle uh have

702
00:27:45,430 --> 00:27:44,000
information about that they

703
00:27:47,029 --> 00:27:45,440
talked about in an interview they gave

704
00:27:49,830 --> 00:27:47,039
many years ago

705
00:27:52,310 --> 00:27:49,840
in my own experience um i've had many

706
00:27:54,070 --> 00:27:52,320
many occasions where i've got up one day

707
00:27:55,990 --> 00:27:54,080
and there's been five new ones and then

708
00:27:58,310 --> 00:27:56,000
three the next day and two the day after

709
00:27:59,830 --> 00:27:58,320
that on 777

710
00:28:02,070 --> 00:27:59,840
when the croc circle appeared in front

711
00:28:03,430 --> 00:28:02,080
of me there were seven crop circles

712
00:28:05,750 --> 00:28:03,440
that night in addition to the one that

713
00:28:07,510 --> 00:28:05,760

appeared in front of me so it's not just

714

00:28:09,990 --> 00:28:07,520

this random now and again

715

00:28:11,350 --> 00:28:10,000

event um you're talking about something

716

00:28:13,029 --> 00:28:11,360

that's um

717

00:28:15,110 --> 00:28:13,039

much more prolific than most people are

718

00:28:16,630 --> 00:28:15,120

aware of

719

00:28:18,310 --> 00:28:16,640

well gary you just have to watch your

720

00:28:19,269 --> 00:28:18,320

mic it's making a little click noise

721

00:28:21,430 --> 00:28:19,279

when you move so

722

00:28:22,950 --> 00:28:21,440

sorry just uh just be cautious of that a

723

00:28:26,950 --> 00:28:22,960

little bit careful with that

724

00:28:28,230 --> 00:28:26,960

um so stephen um you're in the film a

725

00:28:30,549 --> 00:28:28,240

little bit here and there do you want to

726

00:28:33,750 --> 00:28:30,559

discuss what your part of uh

727

00:28:36,230 --> 00:28:33,760

of it was okay

728

00:28:37,350 --> 00:28:36,240

your involvement in in the film okay

729

00:28:39,750 --> 00:28:37,360

first uh

730

00:28:41,190 --> 00:28:39,760

i like to go on the record here all

731

00:28:45,190 --> 00:28:41,200

right

732

00:28:48,870 --> 00:28:45,200

i have not measurable

733

00:28:51,029 --> 00:28:48,880

not a measurable amount of doubt that

734

00:28:52,470 --> 00:28:51,039

most of the these aggregates are

735

00:28:56,149 --> 00:28:52,480

non-human-made

736

00:28:56,870 --> 00:28:56,159

period i think i arrived at that

737

00:29:01,029 --> 00:28:56,880

conclusion

738

00:29:06,070 --> 00:29:04,710

and there this this speaks to something

739

00:29:08,230 --> 00:29:06,080

important

740

00:29:09,350 --> 00:29:08,240

one of the ways the truth embargo has

741

00:29:12,149 --> 00:29:09,360

succeeded

742

00:29:14,549 --> 00:29:12,159

and all heavily backed government type

743

00:29:16,310 --> 00:29:14,559

propaganda succeeds

744

00:29:18,310 --> 00:29:16,320

uh they call it a big lie they call it

745

00:29:20,230 --> 00:29:18,320

the repetition

746

00:29:23,430 --> 00:29:20,240

all that but when the way it succeeds it

747

00:29:26,389 --> 00:29:23,440

convinces a very large number of people

748

00:29:28,389 --> 00:29:26,399

not to believe their own eyes not to

749

00:29:31,110 --> 00:29:28,399

believe

750

00:29:33,590 --> 00:29:31,120

their intellectual capability not to

751

00:29:37,269 --> 00:29:33,600

accept common sense

752

00:29:40,870 --> 00:29:37,279

but to simply

753

00:29:42,549 --> 00:29:40,880

repeat over and over again don't know

754

00:29:44,549 --> 00:29:42,559

hasn't been proven et cetera et cetera

755

00:29:47,430 --> 00:29:44,559

et cetera

756

00:29:48,630 --> 00:29:47,440

and so i just want to go on record there

757

00:29:52,149 --> 00:29:48,640

there are

758

00:29:54,630 --> 00:29:52,159

many aspects of the phenomena

759

00:29:55,990 --> 00:29:54,640

uh that have turned up more like pacific

760

00:29:58,230 --> 00:29:56,000

cases or what have you that

761

00:30:00,310 --> 00:29:58,240

that i have doubts about i have no

762

00:30:04,070 --> 00:30:00,320

doubts about aggregates

763

00:30:06,070 --> 00:30:04,080

now the reason that i

764

00:30:07,669 --> 00:30:06,080

i i the reason i'm in the films because

765

00:30:09,669 --> 00:30:07,679

darcy interviewed me but

766

00:30:12,149 --> 00:30:09,679

the reason i'm happy to be involved in

767

00:30:14,470 --> 00:30:12,159

his promotion and talk about it

768

00:30:15,830 --> 00:30:14,480

is not surprisingly not the

769

00:30:17,510 --> 00:30:15,840

phenomenology per se

770

00:30:19,750 --> 00:30:17,520

i'm not a researcher it's the

771

00:30:20,870 --> 00:30:19,760

exopolitics

772

00:30:22,870 --> 00:30:20,880

i might say what are the exo

773

00:30:26,149 --> 00:30:22,880

exo-political implications of

774

00:30:29,269 --> 00:30:26,159

aggregates what

775

00:30:31,269 --> 00:30:29,279

what's going on there they're

776

00:30:33,190 --> 00:30:31,279

a few and some are subtle some are not

777

00:30:35,590 --> 00:30:33,200

so subtle

778

00:30:37,750 --> 00:30:35,600

first and foremost there's their

779

00:30:40,789 --> 00:30:37,760

existence

780

00:30:43,750 --> 00:30:40,799

the fact that they're there at all

781

00:30:45,190 --> 00:30:43,760

someone went to the great trouble to put

782

00:30:47,350 --> 00:30:45,200

those down

783

00:30:49,190 --> 00:30:47,360

now in the case of humans and there have

784

00:30:50,549 --> 00:30:49,200

been a number of human gregor glyphs it

785

00:30:53,269 --> 00:30:50,559

was a lot of trouble

786

00:30:55,110 --> 00:30:53,279

in the case of extraterrestrials it

787

00:30:55,909 --> 00:30:55,120

takes about as long as it does to print

788

00:30:58,870 --> 00:30:55,919

out a

789

00:31:00,070 --> 00:30:58,880

four color print on your laserjet

790

00:31:01,669 --> 00:31:00,080

printer

791

00:31:03,509 --> 00:31:01,679

which we can do quite nicely if you've

792

00:31:06,389 --> 00:31:03,519

ever used it it's rather spectacular i

793

00:31:10,389 --> 00:31:06,399

still don't know how it works

794

00:31:13,669 --> 00:31:10,399

so why and why so long

795

00:31:15,269 --> 00:31:13,679

well here's a few points the modern

796

00:31:17,350 --> 00:31:15,279

phenomena of agriglyph starts around

797

00:31:19,590 --> 00:31:17,360

1990

798

00:31:21,269 --> 00:31:19,600

right around there there may have been

799

00:31:23,029 --> 00:31:21,279

some things before

800

00:31:25,110 --> 00:31:23,039

there may have been some ancient past

801
00:31:28,870 --> 00:31:25,120
but there's no question

802
00:31:29,990 --> 00:31:28,880
that in the 20th century it starts in

803
00:31:31,509 --> 00:31:30,000
1990

804
00:31:33,750 --> 00:31:31,519
because if that had been going on in

805
00:31:37,190 --> 00:31:33,760
1970 we would have known about it

806
00:31:40,389 --> 00:31:37,200
i assure you 1990 it all changes

807
00:31:41,430 --> 00:31:40,399
and we started seeing these aggregates

808
00:31:43,909 --> 00:31:41,440
but they were simple

809
00:31:45,350 --> 00:31:43,919
not complex and then we started to see a

810
00:31:46,630 --> 00:31:45,360
little more complicated and a little

811
00:31:50,149 --> 00:31:46,640
more complicated

812
00:31:52,149 --> 00:31:50,159
the numbers increased year after year

813
00:31:54,470 --> 00:31:52,159

after year

814

00:31:56,549 --> 00:31:54,480

not only that it became a worldwide

815

00:31:58,389 --> 00:31:56,559

phenomena

816

00:31:59,909 --> 00:31:58,399

many many thousands if not hundreds of

817

00:32:03,590 --> 00:31:59,919

thousands of people

818

00:32:06,310 --> 00:32:03,600

around the world have

819

00:32:07,669 --> 00:32:06,320

copies of agroglyphs pasted on the

820

00:32:10,470 --> 00:32:07,679

refrigerator or they buy

821

00:32:12,630 --> 00:32:10,480

books or they hang it on the wall it's a

822

00:32:14,789 --> 00:32:12,640

modern phenomena

823

00:32:18,070 --> 00:32:14,799

and naturally thousands of people

824

00:32:20,389 --> 00:32:18,080

started going to the uk on vacation

825

00:32:22,710 --> 00:32:20,399

just to see if they could see one being

826
00:32:23,830 --> 00:32:22,720
made or be there when they are made or

827
00:32:26,389 --> 00:32:23,840
walk out into one

828
00:32:27,990 --> 00:32:26,399
thousands of people they started

829
00:32:31,269 --> 00:32:28,000
bringing cameras

830
00:32:34,549 --> 00:32:31,279
and then sophisticated cameras

831
00:32:36,630 --> 00:32:34,559
and then uh infrared cameras

832
00:32:39,990 --> 00:32:36,640
they started bringing ultra lights so

833
00:32:43,430 --> 00:32:40,000
they could fly over the fields

834
00:32:47,830 --> 00:32:43,440
to see when they can find one or see one

835
00:32:51,110 --> 00:32:47,840
and god knows what else and they still

836
00:32:55,509 --> 00:32:51,120
put the aggregates down year after year

837
00:32:57,669 --> 00:32:55,519
this is not a

838
00:32:59,750 --> 00:32:57,679

natural phenomena more importantly it's

839

00:33:02,950 --> 00:32:59,760

not just casual

840

00:33:06,549 --> 00:33:02,960

so what's going on i believe that the

841

00:33:08,149 --> 00:33:06,559

the emergence of the agrolyphs in 1990

842

00:33:08,950 --> 00:33:08,159

were directly associated with a

843

00:33:11,430 --> 00:33:08,960

milestone

844

00:33:12,310 --> 00:33:11,440

20th century event the end of the cold

845

00:33:15,269 --> 00:33:12,320

war

846

00:33:16,149 --> 00:33:15,279

and supposedly the end of the high risk

847

00:33:19,269 --> 00:33:16,159

possibility

848

00:33:21,990 --> 00:33:19,279

of nuclear annihilation thanks to our

849

00:33:22,950 --> 00:33:22,000

wonderful politicians superb advanced

850

00:33:24,950 --> 00:33:22,960

thinking of

851

00:33:26,710 --> 00:33:24,960

governments around the world we're now

852

00:33:28,789 --> 00:33:26,720

in cold war two

853

00:33:30,789 --> 00:33:28,799

and the risk of nuclear war is greater

854

00:33:32,470 --> 00:33:30,799

now than it was in 1990 but that's

855

00:33:34,070 --> 00:33:32,480

another subject and you don't want me to

856

00:33:36,789 --> 00:33:34,080

go there

857

00:33:38,389 --> 00:33:36,799

and so as you go forward from 1990 these

858

00:33:41,430 --> 00:33:38,399

crop circles get more complicated

859

00:33:44,470 --> 00:33:41,440

more abundant more bold

860

00:33:45,190 --> 00:33:44,480

that sounds like a progression it sounds

861

00:33:47,669 --> 00:33:45,200

to me

862

00:33:49,430 --> 00:33:47,679

like a statement is being made of

863

00:33:50,950 --> 00:33:49,440

something without getting into any

864

00:33:53,669 --> 00:33:50,960

messages in the crop circles

865

00:33:54,950 --> 00:33:53,679

which given the uh the fantastic array

866

00:33:57,990 --> 00:33:54,960

of designs and everything

867

00:33:59,269 --> 00:33:58,000

anybody with a quality mine is going to

868

00:34:01,110 --> 00:33:59,279

be able to find some messages

869

00:34:03,830 --> 00:34:01,120

and more power to them i think it's

870

00:34:05,029 --> 00:34:03,840

great i have no idea what the messages

871

00:34:08,069 --> 00:34:05,039

of the circle are other than

872

00:34:10,389 --> 00:34:08,079

wonderful geometry and art but the

873

00:34:13,589 --> 00:34:10,399

message of their repeated

874

00:34:17,109 --> 00:34:13,599

presence and the escalating complexity

875

00:34:19,030 --> 00:34:17,119

it tells me that they're trying to say

876
00:34:19,829 --> 00:34:19,040
something and the most logical thing for

877
00:34:28,230 --> 00:34:19,839
me

878
00:34:29,750 --> 00:34:28,240
incredibly complicated circles out right

879
00:34:30,230 --> 00:34:29,760
off the bat boom there you go and then

880
00:34:32,470 --> 00:34:30,240
every year

881
00:34:33,669 --> 00:34:32,480
same thing pretty much move it around no

882
00:34:37,190 --> 00:34:33,679
no a progression

883
00:34:40,069 --> 00:34:37,200
well progressions go places where

884
00:34:42,069 --> 00:34:40,079
are they going i believe they're going

885
00:34:44,310 --> 00:34:42,079
we're going towards disclosure

886
00:34:46,550 --> 00:34:44,320
and that these agroglyphs are connected

887
00:34:49,510 --> 00:34:46,560
to the process of disclosure

888
00:34:50,310 --> 00:34:49,520

affecting our perceptions in other words

889

00:34:54,310 --> 00:34:50,320

the message

890

00:34:56,629 --> 00:34:54,320

is as many other messages are we're here

891

00:34:58,550 --> 00:34:56,639

we're doing this for a reason they're

892

00:35:00,550 --> 00:34:58,560

getting more complicated for a reason

893

00:35:02,550 --> 00:35:00,560

because it's going somewhere

894

00:35:04,390 --> 00:35:02,560

and i believe where that somewhere is is

895

00:35:07,430 --> 00:35:04,400

disclosure

896

00:35:09,190 --> 00:35:07,440

so that is an incredibly significant

897

00:35:12,630 --> 00:35:09,200

exopolitical

898

00:35:14,150 --> 00:35:12,640

uh possibility and then there's another

899

00:35:15,670 --> 00:35:14,160

aspect

900

00:35:17,750 --> 00:35:15,680

the extraterrestrials have the ability

901
00:35:20,310 --> 00:35:17,760
to do all manner of things like

902
00:35:22,630 --> 00:35:20,320
i'm sure we could never even list all of

903
00:35:26,150 --> 00:35:22,640
the things that et's could do

904
00:35:28,870 --> 00:35:26,160
if they so chose to do all right

905
00:35:29,670 --> 00:35:28,880
they don't do a lot their overall

906
00:35:33,430 --> 00:35:29,680
activity is

907
00:35:36,950 --> 00:35:33,440
relatively narrow a limited number of

908
00:35:40,310 --> 00:35:36,960
relatively consistent activities

909
00:35:44,390 --> 00:35:40,320
so this one is important because of the

910
00:35:48,069 --> 00:35:44,400
fact that it is so benign

911
00:35:49,910 --> 00:35:48,079
they are beautiful we love them we take

912
00:35:52,870 --> 00:35:49,920
pictures of them

913
00:35:54,630 --> 00:35:52,880

we we we talk wonderfully about them no

914

00:35:54,950 --> 00:35:54,640

i have no i've never had anybody go into

915

00:36:15,270 --> 00:35:54,960

a

916

00:36:16,950 --> 00:36:15,280

there's some crop loss but it's it's

917

00:36:20,069 --> 00:36:16,960

trivial

918

00:36:23,430 --> 00:36:20,079

wow that's an interesting message

919

00:36:25,270 --> 00:36:23,440

i don't see the board doing that so

920

00:36:29,190 --> 00:36:25,280

this tends to take a little edge off

921

00:36:32,150 --> 00:36:29,200

their presence that's very exopolitical

922

00:36:34,069 --> 00:36:32,160

so that's why i i'm interested that's

923

00:36:36,069 --> 00:36:34,079

why i follow it i'm aware of it the

924

00:36:38,150 --> 00:36:36,079

the overall coverage of crop circles or

925

00:36:39,589 --> 00:36:38,160

agroglyphs has dropped off substantially

926

00:36:41,109 --> 00:36:39,599

there are very few articles that turn up

927

00:36:42,150 --> 00:36:41,119

now even though they happen every year

928

00:36:45,190 --> 00:36:42,160

because it is now

929

00:36:46,950 --> 00:36:45,200

part of our culture and reality it's

930

00:36:51,670 --> 00:36:46,960

normal

931

00:36:53,670 --> 00:36:51,680

if there were no agroglyphs next year

932

00:36:56,390 --> 00:36:53,680

that would be big news people would be

933

00:36:59,430 --> 00:36:56,400

going what the hell is going on

934

00:37:00,550 --> 00:36:59,440

where are the agriglyphs right surely at

935

00:37:01,430 --> 00:37:00,560

least a human would have gotten out

936

00:37:02,630 --> 00:37:01,440

there and done one

937

00:37:04,950 --> 00:37:02,640

i don't think they're making them much

938

00:37:06,630 --> 00:37:04,960

anymore what would be the point

939

00:37:07,990 --> 00:37:06,640

for what nobody's it's not even being

940

00:37:10,630 --> 00:37:08,000

covered there's no money

941

00:37:12,870 --> 00:37:10,640

there's no fame it's not being covered

942

00:37:14,950 --> 00:37:12,880

like we got a pandemic going on

943

00:37:16,870 --> 00:37:14,960

any any group of kids out there doing a

944

00:37:18,230 --> 00:37:16,880

aggro glyph are idiots

945

00:37:20,150 --> 00:37:18,240

right they got to find a better use of

946

00:37:22,310 --> 00:37:20,160

their time that would be news

947

00:37:23,510 --> 00:37:22,320

but no every year the same it's become

948

00:37:29,430 --> 00:37:23,520

normal

949

00:37:32,790 --> 00:37:29,440

the disclosure process

950

00:37:34,870 --> 00:37:32,800

the confirmation

951
00:37:36,069 --> 00:37:34,880
confirmation will probably lead to open

952
00:37:39,109 --> 00:37:36,079
contact

953
00:37:42,069 --> 00:37:39,119
and so the more normal this seems

954
00:37:44,069 --> 00:37:42,079
the more accepting we are the more time

955
00:37:47,030 --> 00:37:44,079
we've had to adjust

956
00:37:47,510 --> 00:37:47,040
the easier it will go so that's my take

957
00:37:50,710 --> 00:37:47,520
on

958
00:37:53,829 --> 00:37:50,720
aggregates well hey thank you stephen

959
00:37:55,190 --> 00:37:53,839
um so the question up i'm

960
00:37:57,349 --> 00:37:55,200
kind of just throwing this out anyone

961
00:37:59,589 --> 00:37:57,359
can take it but why do you suppose

962
00:38:01,030 --> 00:37:59,599
you know we're talking usually in

963
00:38:02,870 --> 00:38:01,040

england and

964

00:38:04,310 --> 00:38:02,880

i know there are some in the united

965

00:38:05,910 --> 00:38:04,320

states but not too many

966

00:38:07,750 --> 00:38:05,920

and of course there's a lot of other

967

00:38:10,550 --> 00:38:07,760

land china uh

968

00:38:12,550 --> 00:38:10,560

russia i know there's a couple in in

969

00:38:13,990 --> 00:38:12,560

russia that have shown up but

970

00:38:16,470 --> 00:38:14,000

you never hear about china i just

971

00:38:19,190 --> 00:38:16,480

wondered if anyone wanted to tackle that

972

00:38:21,030 --> 00:38:19,200

gary sure it was um it's a question i've

973

00:38:22,550 --> 00:38:21,040

been asked many times i i did crop

974

00:38:25,910 --> 00:38:22,560

circle tours for

975

00:38:26,390 --> 00:38:25,920

10 years um and took many many different

976
00:38:28,310 --> 00:38:26,400
people

977
00:38:29,270 --> 00:38:28,320
uh to the crop circles and one question

978
00:38:29,990 --> 00:38:29,280
that would always come up was why

979
00:38:33,349 --> 00:38:30,000
workshop

980
00:38:35,190 --> 00:38:33,359
why why is it here so i looked into it

981
00:38:36,390 --> 00:38:35,200
um and it turns out that uh the

982
00:38:38,550 --> 00:38:36,400
salisbury plain

983
00:38:40,069 --> 00:38:38,560
um which forms the main body of i mean

984
00:38:41,190 --> 00:38:40,079
salisbury cathedral is where the magna

985
00:38:44,230 --> 00:38:41,200
carta is

986
00:38:44,870 --> 00:38:44,240
um it's the first area on the british

987
00:38:46,790 --> 00:38:44,880
isles

988
00:38:48,950 --> 00:38:46,800

that was cleared of trees to make way

989

00:38:51,190 --> 00:38:48,960

for farming so it's an important

990

00:38:53,589 --> 00:38:51,200

point in human history in terms of the

991

00:38:56,630 --> 00:38:53,599

british isles from when we transferred

992

00:38:58,710 --> 00:38:56,640

from hunter-gatherers to animal and crop

993

00:39:02,310 --> 00:38:58,720

husbandry

994

00:39:04,150 --> 00:39:02,320

and it's from those you know those early

995

00:39:06,870 --> 00:39:04,160

beginnings of growing crop

996

00:39:07,990 --> 00:39:06,880

those ancestors also built the stone

997

00:39:11,030 --> 00:39:08,000

circles

998

00:39:12,150 --> 00:39:11,040

um in that same area stonehenge breeze

999

00:39:14,069 --> 00:39:12,160

silvery hill

1000

00:39:15,190 --> 00:39:14,079

there's probably only about 25 percent

1001
00:39:18,069 --> 00:39:15,200
of the monuments

1002
00:39:18,870 --> 00:39:18,079
in existence today uh the romans came

1003
00:39:21,270 --> 00:39:18,880
and destroyed

1004
00:39:22,870 --> 00:39:21,280
almost 75 of them when they when they

1005
00:39:24,630 --> 00:39:22,880
occupied the land

1006
00:39:26,710 --> 00:39:24,640
um but there's still enough there for us

1007
00:39:29,430 --> 00:39:26,720
to know that human beings had

1008
00:39:30,790 --> 00:39:29,440
a massive predilection to building these

1009
00:39:33,829 --> 00:39:30,800
monuments

1010
00:39:37,510 --> 00:39:33,839
um and then we see the british empire

1011
00:39:39,349 --> 00:39:37,520
uh growing from its surplus of grain

1012
00:39:41,990 --> 00:39:39,359
uh the surplus of grain was the

1013
00:39:43,190 --> 00:39:42,000

beginnings of independent wealth and

1014

00:39:46,150 --> 00:39:43,200

land ownership

1015

00:39:47,109 --> 00:39:46,160

and from an in form a surplus of grain

1016

00:39:49,430 --> 00:39:47,119

we

1017

00:39:51,109 --> 00:39:49,440

moved on to take slaves and send them

1018

00:39:54,230 --> 00:39:51,119

out to the caribbean all in the

1019

00:39:57,270 --> 00:39:54,240

name of the commonwealth uh and become

1020

00:40:00,870 --> 00:39:57,280

the uh the most powerful

1021

00:40:04,230 --> 00:40:00,880

um empire in the empire race

1022

00:40:07,349 --> 00:40:04,240

that went on through those years and so

1023

00:40:09,349 --> 00:40:07,359

we can look at where we are today

1024

00:40:10,790 --> 00:40:09,359

in terms of we live in an economic

1025

00:40:15,829 --> 00:40:10,800

reality that's run

1026

00:40:18,150 --> 00:40:15,839

by money and know that its origins

1027

00:40:19,030 --> 00:40:18,160

as far as we are concerned from britain

1028

00:40:20,710 --> 00:40:19,040

and from the

1029

00:40:22,390 --> 00:40:20,720

influence of the english language and so

1030

00:40:25,589 --> 00:40:22,400

on has its origins

1031

00:40:27,430 --> 00:40:25,599

in that very location in wiltshire so if

1032

00:40:29,190 --> 00:40:27,440

the crop circles were

1033

00:40:32,150 --> 00:40:29,200

part of the crop circle message or

1034

00:40:32,950 --> 00:40:32,160

communication was for us to reflect upon

1035

00:40:35,750 --> 00:40:32,960

ourselves

1036

00:40:37,750 --> 00:40:35,760

where we've been where we are now and

1037

00:40:39,750 --> 00:40:37,760

what choices we could make to change the

1038

00:40:40,470 --> 00:40:39,760

potential future of where we are where

1039

00:40:42,309 --> 00:40:40,480

we're going

1040

00:40:44,950 --> 00:40:42,319

and farming plays a big role of that

1041

00:40:47,670 --> 00:40:44,960

with pesticides and monocultures and

1042

00:40:50,069 --> 00:40:47,680

how it's wiping out um you know a lot of

1043

00:40:52,030 --> 00:40:50,079

the bees and so on and so forth

1044

00:40:54,309 --> 00:40:52,040

then then it would be a brilliant way to

1045

00:40:57,349 --> 00:40:54,319

contextualize the message

1046

00:41:00,150 --> 00:40:57,359

to put these symbols in crops

1047

00:41:01,990 --> 00:41:00,160

in an area where farming began for the

1048

00:41:05,910 --> 00:41:02,000

most powerful empire

1049

00:41:07,430 --> 00:41:05,920

that run that ran the world up until now

1050

00:41:08,790 --> 00:41:07,440

i have a little different take on that

1051

00:41:12,150 --> 00:41:08,800

martin could i add mine

1052

00:41:14,230 --> 00:41:12,160

you bet yeah uh

1053

00:41:16,390 --> 00:41:14,240

i'm not aware that any agroglyphs

1054

00:41:19,430 --> 00:41:16,400

anywhere else in the world

1055

00:41:20,390 --> 00:41:19,440

even remotely compare to what is turned

1056

00:41:23,990 --> 00:41:20,400

up

1057

00:41:27,750 --> 00:41:24,000

in the uk fields

1058

00:41:29,430 --> 00:41:27,760

and because there is the world's a big

1059

00:41:31,510 --> 00:41:29,440

place

1060

00:41:33,670 --> 00:41:31,520

so if you want to get a couple of guys

1061

00:41:37,990 --> 00:41:33,680

together and go out and create a

1062

00:41:40,870 --> 00:41:38,000

agriglyph sand glyph whatever

1063

00:41:42,550 --> 00:41:40,880

take a week if it's remote enough take

1064

00:41:43,910 --> 00:41:42,560

all the time you need camp out have some

1065

00:41:46,829 --> 00:41:43,920

barbecues

1066

00:41:48,950 --> 00:41:46,839

so i i would i would somewhat

1067

00:41:52,550 --> 00:41:48,960

controversially suggest

1068

00:41:55,750 --> 00:41:52,560

that not a single agroglyph or

1069

00:41:57,750 --> 00:41:55,760

equivalent outside of the uk is e.t at

1070

00:42:01,349 --> 00:41:57,760

all

1071

00:42:02,710 --> 00:42:01,359

secondly i think there's two reasons why

1072

00:42:05,589 --> 00:42:02,720

the uk

1073

00:42:07,190 --> 00:42:05,599

won because in order to get the message

1074

00:42:09,270 --> 00:42:07,200

across they're trying to convey as i've

1075

00:42:11,750 --> 00:42:09,280

described it

1076
00:42:12,950 --> 00:42:11,760
one place is all you need you don't need

1077
00:42:14,470 --> 00:42:12,960
to do it anywhere else

1078
00:42:16,069 --> 00:42:14,480
just one place remember they're dealing

1079
00:42:16,550 --> 00:42:16,079
with the world they're dealing with this

1080
00:42:18,790 --> 00:42:16,560
globe

1081
00:42:20,950 --> 00:42:18,800
not with this nation or that nation or

1082
00:42:22,950 --> 00:42:20,960
anything else just need one location

1083
00:42:24,069 --> 00:42:22,960
you want the you want the focus to be

1084
00:42:27,270 --> 00:42:24,079
one place

1085
00:42:30,630 --> 00:42:27,280
so that the message is clear repeated

1086
00:42:30,950 --> 00:42:30,640
straightforward right uh and the second

1087
00:42:35,589 --> 00:42:30,960
is

1088
00:42:37,270 --> 00:42:35,599

ancient aliens fan and an ancient alien

1089

00:42:39,750 --> 00:42:37,280

alumnus i must say

1090

00:42:40,309 --> 00:42:39,760

uh yeah the entities have come down over

1091

00:42:43,670 --> 00:42:40,319

the many

1092

00:42:45,910 --> 00:42:43,680

millennia here and there

1093

00:42:47,430 --> 00:42:45,920

it's a big planet they didn't visit

1094

00:42:49,670 --> 00:42:47,440

everywhere

1095

00:42:50,630 --> 00:42:49,680

there are some notable areas where they

1096

00:42:53,510 --> 00:42:50,640

engaged

1097

00:42:54,150 --> 00:42:53,520

various times and we're finding evidence

1098

00:42:57,030 --> 00:42:54,160

of that

1099

00:42:59,190 --> 00:42:57,040

clearly and that will all get resolved

1100

00:42:59,430 --> 00:42:59,200

post-disclosure and george joseph locus

1101

00:43:01,589 --> 00:42:59,440

and

1102

00:43:03,430 --> 00:43:01,599

i think will probably toast along with

1103

00:43:05,349 --> 00:43:03,440

uh eric and many others

1104

00:43:06,790 --> 00:43:05,359

that they got a lot right not all of it

1105

00:43:10,710 --> 00:43:06,800

but a lot of it right

1106

00:43:14,470 --> 00:43:10,720

um and when you the nature of this the

1107

00:43:17,589 --> 00:43:14,480

stonehenge the circles and all of that

1108

00:43:19,190 --> 00:43:17,599

just compels me to think that this was a

1109

00:43:23,349 --> 00:43:19,200

place that they came down

1110

00:43:25,750 --> 00:43:23,359

and invested some time a long time ago

1111

00:43:26,470 --> 00:43:25,760

when the uk by the way was not an island

1112

00:43:28,470 --> 00:43:26,480

it was

1113

00:43:30,230 --> 00:43:28,480

simply an extension of europe land

1114

00:43:34,630 --> 00:43:30,240

bridge all the way over towards uh

1115

00:43:38,069 --> 00:43:34,640

you know the uh norway and so forth um

1116

00:43:40,550 --> 00:43:38,079

and there is a

1117

00:43:42,069 --> 00:43:40,560

these a lot of these uh artifacts we're

1118

00:43:44,150 --> 00:43:42,079

finding in that area

1119

00:43:45,670 --> 00:43:44,160

stem back to e.t connections and has

1120

00:43:48,710 --> 00:43:45,680

moved forward in time

1121

00:43:49,670 --> 00:43:48,720

many many many thousands of years in the

1122

00:43:50,790 --> 00:43:49,680

uh

1123

00:43:53,190 --> 00:43:50,800

in the lore and the myth and the

1124

00:43:55,990 --> 00:43:53,200

religions of the brits and so

1125

00:43:56,550 --> 00:43:56,000

in that sense uk has a special place

1126

00:43:58,230 --> 00:43:56,560

that

1127

00:44:00,230 --> 00:43:58,240

i don't know take a spot in south

1128

00:44:04,870 --> 00:44:00,240

america it doesn't have it

1129

00:44:07,670 --> 00:44:04,880

right america may not have it

1130

00:44:09,270 --> 00:44:07,680

we not may not have been one of the

1131

00:44:11,270 --> 00:44:09,280

places they decided to come down with

1132

00:44:12,870 --> 00:44:11,280

any significance any significance though

1133

00:44:14,069 --> 00:44:12,880

native americans do have a lot of

1134

00:44:15,670 --> 00:44:14,079

recollections

1135

00:44:19,349 --> 00:44:15,680

so perhaps there is but that's that's

1136

00:44:21,349 --> 00:44:19,359

kind of my take and i i like it because

1137

00:44:23,910 --> 00:44:21,359

i think if that proved to be true the uk

1138

00:44:25,270 --> 00:44:23,920

is going to have a lot of uh

1139

00:44:27,270 --> 00:44:25,280

well it's going to be very proud i'm

1140

00:44:29,349 --> 00:44:27,280

sure i mean their their legacy and

1141

00:44:31,030 --> 00:44:29,359

connection to this unfolding phenomenon

1142

00:44:33,589 --> 00:44:31,040

its ultimate resolution is going to be

1143

00:44:35,270 --> 00:44:33,599

very powerful i think and we may learn

1144

00:44:37,910 --> 00:44:35,280

more in detail

1145

00:44:39,990 --> 00:44:37,920

about the time when the ancient

1146

00:44:42,470 --> 00:44:40,000

ancestors of the modern brits

1147

00:44:43,510 --> 00:44:42,480

were directly engaging ets in some form

1148

00:44:47,510 --> 00:44:43,520

or fashion

1149

00:44:51,430 --> 00:44:47,520

and these huge numbers of

1150

00:44:54,470 --> 00:44:51,440

of stone circles uh i forgot how many

1151
00:44:57,349 --> 00:44:54,480
have been is a lot uh somehow date back

1152
00:45:01,990 --> 00:44:59,270
well here's a question that came in from

1153
00:45:02,710 --> 00:45:02,000
chat from anonymous rex yes they are

1154
00:45:04,710 --> 00:45:02,720
here but

1155
00:45:06,630 --> 00:45:04,720
what does all this mean in the contact

1156
00:45:10,150 --> 00:45:06,640
narrative does anyone want to tackle

1157
00:45:14,710 --> 00:45:12,309
as far as their what does this mean in

1158
00:45:18,230 --> 00:45:14,720
the crop circles as far as the

1159
00:45:21,190 --> 00:45:18,240
contact narrative contact with contact

1160
00:45:22,230 --> 00:45:21,200
with humans like abduction or contact in

1161
00:45:25,750 --> 00:45:22,240
the general

1162
00:45:27,990 --> 00:45:25,760
i i'm just i'm i'm just reading it as uh

1163
00:45:30,390 --> 00:45:28,000

the discussion how does this how does

1164

00:45:33,589 --> 00:45:30,400

this engage in discussion

1165

00:45:34,230 --> 00:45:33,599

um and anyone can tackle that i think

1166

00:45:38,870 --> 00:45:34,240

there's

1167

00:45:43,270 --> 00:45:38,880

um if we are to believe that

1168

00:45:46,309 --> 00:45:43,280

these messages are being uh

1169

00:45:49,589 --> 00:45:46,319

you know given to us because

1170

00:45:53,190 --> 00:45:49,599

somebody's watching us

1171

00:45:56,550 --> 00:45:53,200

um i think it's pretty safe to say

1172

00:45:59,270 --> 00:45:56,560

that there's concern

1173

00:46:01,190 --> 00:45:59,280

for our future and where we're going you

1174

00:46:02,230 --> 00:46:01,200

know gary talked about where we're going

1175

00:46:05,349 --> 00:46:02,240

where we've been

1176

00:46:08,390 --> 00:46:05,359

where we are um

1177

00:46:09,349 --> 00:46:08,400

it seems that whoever is trying to

1178

00:46:13,430 --> 00:46:09,359

interact with us

1179

00:46:15,990 --> 00:46:13,440

in this sort of contact form through

1180

00:46:17,430 --> 00:46:16,000

uh the clips and the crop circles

1181

00:46:19,829 --> 00:46:17,440

they're concerned

1182

00:46:23,109 --> 00:46:19,839

and uh there seems to be some kind of

1183

00:46:27,430 --> 00:46:26,150

i'll add i'll expand on that um

1184

00:46:29,430 --> 00:46:27,440

one of the things that's not really

1185

00:46:31,190 --> 00:46:29,440

thought about enough well

1186

00:46:33,109 --> 00:46:31,200

it i take that back one of the things

1187

00:46:34,870 --> 00:46:33,119

that someone like a political activist

1188

00:46:36,390 --> 00:46:34,880

or an exopla political activist would

1189

00:46:37,589 --> 00:46:36,400

think about that the researchers might

1190

00:46:41,349 --> 00:46:37,599

not

1191

00:46:45,670 --> 00:46:41,359

is this simple yet important

1192

00:46:48,630 --> 00:46:45,680

uh aspect when an et craft

1193

00:46:49,990 --> 00:46:48,640

came in at eighteen thousand i forget

1194

00:46:52,470 --> 00:46:50,000

how many miles an hour eight thousand

1195

00:46:55,990 --> 00:46:52,480

miles an hour and then just

1196

00:46:59,109 --> 00:46:56,000

just casually circled a test rocket

1197

00:46:59,510 --> 00:46:59,119

testing a nuclear warhead dummy and then

1198

00:47:01,270 --> 00:46:59,520

use

1199

00:47:03,829 --> 00:47:01,280

some sort of beam to knock that warhead

1200

00:47:06,150 --> 00:47:03,839

off the top of that missile

1201
00:47:07,030 --> 00:47:06,160
they knew they were being filmed they

1202
00:47:08,790 --> 00:47:07,040
might not have known

1203
00:47:10,069 --> 00:47:08,800
robert jacobs name but they knew they

1204
00:47:12,470 --> 00:47:10,079
were being filmed

1205
00:47:13,750 --> 00:47:12,480
they knew that's going to be seen when

1206
00:47:16,630 --> 00:47:13,760
e.t craft had flown

1207
00:47:18,550 --> 00:47:16,640
over the uh our sac bases in the midwest

1208
00:47:20,390 --> 00:47:18,560
like maelstrom and others

1209
00:47:22,390 --> 00:47:20,400
hovered there over the gate and then

1210
00:47:24,309 --> 00:47:22,400
turned the missiles off

1211
00:47:25,510 --> 00:47:24,319
i mean there was a reason they did that

1212
00:47:29,670 --> 00:47:25,520
but be assured

1213
00:47:32,549 --> 00:47:29,680

they knew they were being seen right

1214

00:47:33,190 --> 00:47:32,559

when they when they put the crop circles

1215

00:47:34,710 --> 00:47:33,200

down

1216

00:47:38,549 --> 00:47:34,720

they don't get seen but they know full

1217

00:47:41,030 --> 00:47:38,559

well what that means

1218

00:47:42,309 --> 00:47:41,040

the instances when et's have done things

1219

00:47:44,790 --> 00:47:42,319

which clearly

1220

00:47:46,309 --> 00:47:44,800

known that knew they would be seen there

1221

00:47:49,670 --> 00:47:46,319

is a fundamental message

1222

00:47:51,510 --> 00:47:49,680

there we are here

1223

00:47:53,910 --> 00:47:51,520

if you haven't figured it out let me

1224

00:47:56,069 --> 00:47:53,920

remind you we are here

1225

00:47:57,270 --> 00:47:56,079

and then again another month goes by for

1226

00:48:00,950 --> 00:47:57,280

we are here

1227

00:48:03,349 --> 00:48:00,960

over and over again for 70 years

1228

00:48:07,589 --> 00:48:03,359

when they fly over the nation's capital

1229

00:48:09,430 --> 00:48:07,599

for a number of days in july of 1952

1230

00:48:10,630 --> 00:48:09,440

it's possible that they were going out

1231

00:48:12,630 --> 00:48:10,640

for milk or

1232

00:48:13,829 --> 00:48:12,640

maybe they just needed to take a break

1233

00:48:17,109 --> 00:48:13,839

and that area was

1234

00:48:19,030 --> 00:48:17,119

whatever the hell they knew that huge

1235

00:48:20,710 --> 00:48:19,040

numbers of politicians and high-end

1236

00:48:23,990 --> 00:48:20,720

journalists would see that

1237

00:48:27,109 --> 00:48:24,000

and know they are here

1238

00:48:27,829 --> 00:48:27,119

and so this is non-trivial that's a

1239

00:48:29,670 --> 00:48:27,839

factor

1240

00:48:31,670 --> 00:48:29,680

i think in the case of the crop circles

1241

00:48:34,069 --> 00:48:31,680

it's really blatant

1242

00:48:36,069 --> 00:48:34,079

they fly they turn the nuclear weapons

1243

00:48:39,270 --> 00:48:36,079

off to send us a message that was a

1244

00:48:39,990 --> 00:48:39,280

pretty important task it had a start in

1245

00:48:43,270 --> 00:48:40,000

the beginning

1246

00:48:45,510 --> 00:48:43,280

and they've done it a number of times

1247

00:48:46,790 --> 00:48:45,520

the fact that we would see that film

1248

00:48:50,069 --> 00:48:46,800

that many cases

1249

00:48:51,750 --> 00:48:50,079

thus confirming they're here

1250

00:48:54,309 --> 00:48:51,760

secondary perhaps but in the case of the

1251
00:48:56,230 --> 00:48:54,319
crop circles

1252
00:48:58,549 --> 00:48:56,240
i think the only message there is we're

1253
00:49:00,150 --> 00:48:58,559
here and we're going to tell you over

1254
00:49:02,150 --> 00:49:00,160
and over again but we're going to do it

1255
00:49:05,750 --> 00:49:02,160
really nice and really sweet

1256
00:49:07,589 --> 00:49:05,760
okay and so why would the ets year after

1257
00:49:10,630 --> 00:49:07,599
year keep telling us we're here we're

1258
00:49:14,549 --> 00:49:12,870
because we will not acknowledge that

1259
00:49:15,510 --> 00:49:14,559
they're here and by we i mean the

1260
00:49:17,589 --> 00:49:15,520
governments

1261
00:49:19,430 --> 00:49:17,599
the ones that take our tax money the

1262
00:49:21,109 --> 00:49:19,440
ones that make us go to war

1263
00:49:23,109 --> 00:49:21,119

the ones that destroy the environment

1264

00:49:25,109 --> 00:49:23,119

and a thousand other damn things they do

1265

00:49:27,750 --> 00:49:25,119

which are destroying what

1266

00:49:29,270 --> 00:49:27,760

good we've created here they're telling

1267

00:49:32,390 --> 00:49:29,280

the governments

1268

00:49:36,069 --> 00:49:32,400

right we're here

1269

00:49:39,190 --> 00:49:36,079

and you need to acknowledge it

1270

00:49:41,270 --> 00:49:39,200

if they if that was irrelevant

1271

00:49:42,950 --> 00:49:41,280

they could have gone from we're here to

1272

00:49:46,150 --> 00:49:42,960

oh yeah we're here

1273

00:49:48,870 --> 00:49:46,160

anytime they wanted to they've had well

1274

00:49:50,950 --> 00:49:48,880

they've done it in the past but

1275

00:49:51,510 --> 00:49:50,960

revealing themselves to the egyptians

1276

00:49:55,030 --> 00:49:51,520

say

1277

00:49:57,670 --> 00:49:55,040

2000 bc is not the same thing is

1278

00:49:58,069 --> 00:49:57,680

as quote revealing themselves in in

1279

00:50:00,549 --> 00:49:58,079

whatever

1280

00:50:01,589 --> 00:50:00,559

fashion limited or otherwise to a global

1281

00:50:03,750 --> 00:50:01,599

civilization

1282

00:50:05,829 --> 00:50:03,760

of high technology with seven billion

1283

00:50:09,190 --> 00:50:05,839

people it is not the same thing

1284

00:50:11,589 --> 00:50:09,200

we are not egypt we're not

1285

00:50:13,829 --> 00:50:11,599

go back they tepi we're not any of that

1286

00:50:15,190 --> 00:50:13,839

we are in another world in fact we are

1287

00:50:18,309 --> 00:50:15,200

practically on the same

1288

00:50:21,349 --> 00:50:18,319

level of them in certain ways i think

1289

00:50:23,270 --> 00:50:21,359

i think um jim wants to chime in here

1290

00:50:24,790 --> 00:50:23,280

with his opinion on some of that stuff

1291

00:50:27,589 --> 00:50:24,800

so go ahead

1292

00:50:28,790 --> 00:50:27,599

there's a couple of things uh when you

1293

00:50:31,910 --> 00:50:28,800

say they're here

1294

00:50:33,430 --> 00:50:31,920

we say we've been saying it for 70 years

1295

00:50:35,270 --> 00:50:33,440

i have a friend i have a friend of mine

1296

00:50:35,990 --> 00:50:35,280

who works at for the national security

1297

00:50:38,790 --> 00:50:36,000

agency

1298

00:50:39,670 --> 00:50:38,800

you know she won't talk on the phone but

1299

00:50:40,870 --> 00:50:39,680

uh

1300

00:50:43,030 --> 00:50:40,880

i've known her for a whole bunch of

1301
00:50:43,910 --> 00:50:43,040
years and a while back i sent her an

1302
00:50:46,150 --> 00:50:43,920
email

1303
00:50:47,589 --> 00:50:46,160
do you believe in ufos and i got an

1304
00:50:52,069 --> 00:50:47,599
immediately

1305
00:50:54,150 --> 00:50:52,079
immediate response back and it said

1306
00:50:55,510 --> 00:50:54,160
have you seen one i said no i'm just

1307
00:50:57,430 --> 00:50:55,520
curious and he said

1308
00:50:58,870 --> 00:50:57,440
i can't say anything on this on this

1309
00:51:02,630 --> 00:50:58,880
platform i

1310
00:51:06,309 --> 00:51:02,640
email or even on the on the cell phone

1311
00:51:09,430 --> 00:51:06,319
he said she said but they're here

1312
00:51:10,230 --> 00:51:09,440
and the other the other uh item is ben

1313
00:51:13,190 --> 00:51:10,240

rich

1314

00:51:14,710 --> 00:51:13,200

the former president and general manager

1315

00:51:15,990 --> 00:51:14,720

of the lockheed skunk works we are

1316

00:51:19,430 --> 00:51:16,000

friends for

1317

00:51:21,510 --> 00:51:19,440

25 years and i spoke to him just before

1318

00:51:22,790 --> 00:51:21,520

he passed away at usc medical center in

1319

00:51:26,150 --> 00:51:22,800

the in the

1320

00:51:27,750 --> 00:51:26,160

late 90s and we're talking about a bunch

1321

00:51:30,549 --> 00:51:27,760

of other stuff we got to

1322

00:51:31,589 --> 00:51:30,559

to ufos and things that go bump in the

1323

00:51:34,549 --> 00:51:31,599

night

1324

00:51:36,549 --> 00:51:34,559

and this is directly from ben rich to me

1325

00:51:38,150 --> 00:51:36,559

and ben was kelly johnson's replacement

1326
00:51:40,950 --> 00:51:38,160
at the skunk works

1327
00:51:42,309 --> 00:51:40,960
ben told me he said jim we have things

1328
00:51:44,630 --> 00:51:42,319
out in the desert and he wasn't

1329
00:51:47,109 --> 00:51:44,640
referring to area 51

1330
00:51:47,670 --> 00:51:47,119
but we have things out in the desert

1331
00:51:51,349 --> 00:51:47,680
that is

1332
00:51:52,950 --> 00:51:51,359
50 years beyond what you can comprehend

1333
00:51:55,430 --> 00:51:52,960
not what you think you can build in 50

1334
00:51:56,790 --> 00:51:55,440
years but what you can comprehend in

1335
00:51:58,870 --> 00:51:56,800
other words

1336
00:52:00,230 --> 00:51:58,880
and he was referring to my imagination

1337
00:52:03,510 --> 00:52:00,240
not just the general

1338
00:52:03,990 --> 00:52:03,520

population and he said if you've seen

1339

00:52:07,030 --> 00:52:04,000

movies

1340

00:52:08,150 --> 00:52:07,040

like star trek or star wars we've been

1341

00:52:10,470 --> 00:52:08,160

there

1342

00:52:11,910 --> 00:52:10,480

done that or decided it wasn't worth the

1343

00:52:14,950 --> 00:52:11,920

effort

1344

00:52:15,670 --> 00:52:14,960

and just prior to that he had spoke at

1345

00:52:19,670 --> 00:52:15,680

usc

1346

00:52:20,390 --> 00:52:19,680

a ucla alumni aeronautical engineering

1347

00:52:24,710 --> 00:52:20,400

function

1348

00:52:28,390 --> 00:52:24,720

he was the keynote speaker and he said

1349

00:52:31,589 --> 00:52:28,400

we have the ability today to send

1350

00:52:33,270 --> 00:52:31,599

or take e.t home

1351
00:52:35,349 --> 00:52:33,280
but the government won't release the

1352
00:52:37,910 --> 00:52:35,359
information

1353
00:52:39,430 --> 00:52:37,920
so this is this is from the number one

1354
00:52:41,990 --> 00:52:39,440
premier

1355
00:52:43,990 --> 00:52:42,000
knows every dark secret when it comes to

1356
00:52:45,030 --> 00:52:44,000
aviation and things that go bump in the

1357
00:52:47,910 --> 00:52:45,040
night

1358
00:52:48,870 --> 00:52:47,920
for ben rich to state that publicly at

1359
00:52:51,750 --> 00:52:48,880
ucla

1360
00:52:53,670 --> 00:52:51,760
and then directly to me just before he

1361
00:52:56,390 --> 00:52:53,680
passed away

1362
00:52:59,030 --> 00:52:56,400
tells me that they're here they're here

1363
00:53:02,150 --> 00:52:59,040

they've been here on a regular basis

1364

00:53:02,870 --> 00:53:02,160

and the other the other thing i worked i

1365

00:53:07,030 --> 00:53:02,880

worked at kitt

1366

00:53:08,870 --> 00:53:07,040

peak national observatories as a docent

1367

00:53:10,230 --> 00:53:08,880

and i was there for a couple years and

1368

00:53:13,349 --> 00:53:10,240

just before i

1369

00:53:15,349 --> 00:53:13,359

left we had a meeting of all the

1370

00:53:17,990 --> 00:53:15,359

astronomers

1371

00:53:19,750 --> 00:53:18,000

all the technicians and all the docents

1372

00:53:21,750 --> 00:53:19,760

and support staff

1373

00:53:24,150 --> 00:53:21,760

now kit peek those of you who aren't

1374

00:53:27,910 --> 00:53:24,160

familiar with it it's about 50 miles due

1375

00:53:29,750 --> 00:53:27,920

west of of tucson there are 22 optical

1376

00:53:32,870 --> 00:53:29,760

telescopes up there

1377

00:53:36,630 --> 00:53:32,880

from a from a 12 inch to a

1378

00:53:39,750 --> 00:53:36,640

to a 4 meter the male uh telescope

1379

00:53:43,829 --> 00:53:39,760

plus two radio telescopes a

1380

00:53:47,030 --> 00:53:43,839

12 meter and a 25 meter radio telescope

1381

00:53:48,150 --> 00:53:47,040

one of the smaller telescopes the 2.1

1382

00:53:51,349 --> 00:53:48,160

meter

1383

00:53:54,549 --> 00:53:51,359

was remotely operated by caltech

1384

00:53:57,270 --> 00:53:54,559

for five years using adaptive optics

1385

00:53:58,470 --> 00:53:57,280

they were adjusting the the mirror one

1386

00:54:01,109 --> 00:53:58,480

of the mirrors

1387

00:54:03,030 --> 00:54:01,119

1200 times a second to eliminate

1388

00:54:05,990 --> 00:54:03,040

distortion

1389

00:54:07,109 --> 00:54:06,000

and in a small part of the milky way

1390

00:54:10,150 --> 00:54:07,119

they identified

1391

00:54:12,069 --> 00:54:10,160

8 000 exoplanets

1392

00:54:13,190 --> 00:54:12,079

fast forward to this meeting that i was

1393

00:54:19,750 --> 00:54:13,200

at

1394

00:54:20,150 --> 00:54:19,760

the uh astronomer had astronomers said

1395

00:54:21,670 --> 00:54:20,160

he just

1396

00:54:24,069 --> 00:54:21,680

had just returned from a major

1397

00:54:26,549 --> 00:54:24,079

conference on exoplanets

1398

00:54:28,390 --> 00:54:26,559

and they they have done calculations and

1399

00:54:28,790 --> 00:54:28,400

they and these are the scientists these

1400

00:54:31,670 --> 00:54:28,800

aren't

1401

00:54:33,589 --> 00:54:31,680

you know the the the wannabes or

1402

00:54:36,950 --> 00:54:33,599

whatever these are guys who really

1403

00:54:39,349 --> 00:54:36,960

you can see the edge of the universe

1404

00:54:41,750 --> 00:54:39,359

and he said based on our calculations we

1405

00:54:42,870 --> 00:54:41,760

estimate that for every star in the

1406

00:54:45,990 --> 00:54:42,880

universe

1407

00:54:49,270 --> 00:54:46,000

there's one and a half planets now just

1408

00:54:51,829 --> 00:54:49,280

think about that number for a second

1409

00:54:52,630 --> 00:54:51,839

and out of that incredible number of

1410

00:54:55,109 --> 00:54:52,640

planets

1411

00:54:56,069 --> 00:54:55,119

they calculate that there are

1412

00:55:00,309 --> 00:54:56,079

approximately

1413

00:55:04,230 --> 00:55:00,319

2 billion and that's with a b 2 billion

1414

00:55:07,589 --> 00:55:04,240

earth-like planets orbiting a similar

1415

00:55:11,589 --> 00:55:07,599

brown dwarf star as our sun

1416

00:55:13,750 --> 00:55:11,599

in an inhabitable zone with liquid water

1417

00:55:15,430 --> 00:55:13,760

and to quote jody foster's character in

1418

00:55:18,069 --> 00:55:15,440

the movie contact

1419

00:55:19,589 --> 00:55:18,079

if we're the only ones with a waste of

1420

00:55:21,990 --> 00:55:19,599

space

1421

00:55:23,109 --> 00:55:22,000

right well i could do a show with just

1422

00:55:25,670 --> 00:55:23,119

you jim

1423

00:55:26,710 --> 00:55:25,680

awesome uh so it's time for us to go

1424

00:55:28,549 --> 00:55:26,720

into the break

1425

00:55:30,390 --> 00:55:28,559

so we're gonna go into a three minute

1426

00:55:32,549 --> 00:55:30,400

and thirty second break

1427

00:55:33,990 --> 00:55:32,559

and during that break i'm going to play

1428

00:55:37,990 --> 00:55:34,000

a video that was

1429

00:55:41,190 --> 00:55:38,000

made by our guest gary king hackmanhill

1430

00:55:42,710 --> 00:55:41,200

in 2018 and for those of you over at

1431

00:55:46,829 --> 00:55:42,720

kgra radio

1432

00:55:46,839 --> 00:55:58,310

commercials

1433

00:58:36,950 --> 00:56:18,340

[Music]

1434

00:58:40,309 --> 00:58:39,510

i'm going to bring them all in one at a

1435

00:58:42,950 --> 00:58:40,319

time here

1436

00:58:43,910 --> 00:58:42,960

we have stephen bassett we have gary

1437

00:58:47,030 --> 00:58:43,920

king

1438

00:58:47,589 --> 00:58:47,040

darcy weir and jim goodall we're all

1439

00:58:50,230 --> 00:58:47,599

here

1440

00:58:51,270 --> 00:58:50,240

and thank you all for joining us uh that

1441

00:58:53,510 --> 00:58:51,280

was fascinating

1442

00:58:54,470 --> 00:58:53,520

uh jim at the end of what you were

1443

00:58:58,230 --> 00:58:54,480

talking about

1444

00:59:01,510 --> 00:58:58,240

uh so many interesting things um

1445

00:59:04,789 --> 00:59:01,520

so jim since you're the the last one

1446

00:59:07,270 --> 00:59:04,799

to talk i'd like to ask you um

1447

00:59:09,190 --> 00:59:07,280

what are your thoughts on you know this

1448

00:59:10,710 --> 00:59:09,200

is a topic you normally wouldn't talk

1449

00:59:14,150 --> 00:59:10,720

about crop circles i mean

1450

00:59:15,990 --> 00:59:14,160

do you have any opinion at all on them

1451
00:59:18,390 --> 00:59:16,000
i mean i i've seen i've seen some of the

1452
00:59:21,349 --> 00:59:18,400
videos of all of a sudden they appear or

1453
00:59:23,270 --> 00:59:21,359
the orbs are flying over

1454
00:59:24,390 --> 00:59:23,280
we don't have that ability they've been

1455
00:59:26,710 --> 00:59:24,400
talking about crop

1456
00:59:30,230 --> 00:59:26,720
circles for a long long time not just

1457
00:59:32,549 --> 00:59:30,240
not just the last 70 years

1458
00:59:34,069 --> 00:59:32,559
and the complexity of some of those

1459
00:59:35,670 --> 00:59:34,079
things there's no way

1460
00:59:38,710 --> 00:59:35,680
there's no way you could bring in a

1461
00:59:39,589 --> 00:59:38,720
hundred people with a diagram and and

1462
00:59:42,069 --> 00:59:39,599
have everything

1463
00:59:43,990 --> 00:59:42,079

all all you know charted out that you're

1464

00:59:45,349 --> 00:59:44,000

going to take this square and do this or

1465

00:59:49,349 --> 00:59:45,359

that

1466

00:59:52,069 --> 00:59:49,359

circles

1467

00:59:53,109 --> 00:59:52,079

is impossible it's impossible it's just

1468

00:59:56,710 --> 00:59:53,119

yeah

1469

01:00:00,150 --> 00:59:56,720

uh and and again i i

1470

01:00:03,510 --> 01:00:00,160

i go back to i go back to ben rich in

1471

01:00:05,510 --> 01:00:03,520

a letter that john and the late john

1472

01:00:08,789 --> 01:00:05,520

andrews from tester's model company

1473

01:00:11,510 --> 01:00:08,799

wrote ben rich and asked ben

1474

01:00:13,030 --> 01:00:11,520

do you believe in ufos and there's two

1475

01:00:14,630 --> 01:00:13,040

categories both man made an

1476

01:00:16,870 --> 01:00:14,640

extraterrestrial

1477

01:00:17,910 --> 01:00:16,880

and ben wrote back on his corporate

1478

01:00:21,109 --> 01:00:17,920

letterhead as

1479

01:00:23,190 --> 01:00:21,119

president of the lockheed skunk works

1480

01:00:25,430 --> 01:00:23,200

he said both kelly and i are firm

1481

01:00:27,829 --> 01:00:25,440

believers in both categories

1482

01:00:29,190 --> 01:00:27,839

we refer to ours as unfunded

1483

01:00:31,750 --> 01:00:29,200

opportunities

1484

01:00:33,430 --> 01:00:31,760

he said but beware there are there are

1485

01:00:37,109 --> 01:00:33,440

people who lead you astray

1486

01:00:39,589 --> 01:00:37,119

and possibly do you harm and

1487

01:00:40,710 --> 01:00:39,599

that was in june of 86 when he when he

1488

01:00:43,910 --> 01:00:40,720

wrote when

1489

01:00:45,510 --> 01:00:43,920

ben wrote him that sent him that letter

1490

01:00:48,109 --> 01:00:45,520

yeah interesting there's just there's

1491

01:00:51,910 --> 01:00:48,119

just too many i have a i have a

1492

01:00:55,190 --> 01:00:51,920

sr-71 pilot friend who chased one

1493

01:00:56,230 --> 01:00:55,200

and left him in the dust my old boss in

1494

01:00:59,270 --> 01:00:56,240

the minnesota air

1495

01:01:02,549 --> 01:00:59,280

guard chase one in an f-94

1496

01:01:05,190 --> 01:01:02,559

and every time they they turned on their

1497

01:01:07,349 --> 01:01:05,200

weapons radar all the electronics would

1498

01:01:10,549 --> 01:01:07,359

die

1499

01:01:13,589 --> 01:01:10,559

are they real yes are we alone

1500

01:01:16,309 --> 01:01:13,599

no we're not um and the other thing

1501
01:01:18,230 --> 01:01:16,319
and that we haven't mentioned is i knew

1502
01:01:19,990 --> 01:01:18,240
bob lazar before he went to work out in

1503
01:01:24,150 --> 01:01:20,000
the desert

1504
01:01:25,829 --> 01:01:24,160
and before he went to work out at s4

1505
01:01:29,030 --> 01:01:25,839
you couldn't put a gun to his head to

1506
01:01:31,030 --> 01:01:29,040
convince him that ufos were real

1507
01:01:32,710 --> 01:01:31,040
and i have a piece on that that i did

1508
01:01:36,230 --> 01:01:32,720
with darcy last night

1509
01:01:39,829 --> 01:01:36,240
and it's very telling

1510
01:01:42,710 --> 01:01:39,839
and i'm a hardware guy i'm not a ufo guy

1511
01:01:45,190 --> 01:01:42,720
i'm a hardware guy

1512
01:01:47,109 --> 01:01:45,200
and a technology guy and it's just

1513
01:01:48,150 --> 01:01:47,119

everything every all roads are leading

1514

01:01:50,950 --> 01:01:48,160

to the fact that

1515

01:01:52,630 --> 01:01:50,960

hey we're not alone and i honestly

1516

01:01:55,910 --> 01:01:52,640

believe i believe

1517

01:01:59,349 --> 01:01:55,920

before my time is up on this planet and

1518

01:02:03,270 --> 01:01:59,359

hopefully i live a long time i think

1519

01:02:05,510 --> 01:02:03,280

i think the time is coming very soon

1520

01:02:08,309 --> 01:02:05,520

that there's going to be a coming out

1521

01:02:12,390 --> 01:02:08,319

party so to speak

1522

01:02:13,910 --> 01:02:12,400

and we're in for some exciting times

1523

01:02:15,910 --> 01:02:13,920

assuming the world doesn't blow up in

1524

01:02:19,750 --> 01:02:15,920

the next 90 days

1525

01:02:21,829 --> 01:02:19,760

yeah yeah we'll see well

1526

01:02:22,789 --> 01:02:21,839

i would be remiss if i didn't mention

1527

01:02:27,190 --> 01:02:22,799

the fact that

1528

01:02:30,710 --> 01:02:27,200

i'm i'm not a bob lazar endorser

1529

01:02:33,750 --> 01:02:30,720

um you know i just i don't believe

1530

01:02:36,069 --> 01:02:33,760

bob lazar's story and you can certainly

1531

01:02:38,870 --> 01:02:36,079

convince me otherwise or try to

1532

01:02:39,270 --> 01:02:38,880

but i just i just don't i haven't bought

1533

01:02:41,910 --> 01:02:39,280

it

1534

01:02:44,309 --> 01:02:41,920

from the beginning and i i still i still

1535

01:02:46,870 --> 01:02:44,319

don't buy it

1536

01:02:48,549 --> 01:02:46,880

the way the way i met bob lazar i mean

1537

01:02:51,510 --> 01:02:48,559

if we want to completely

1538

01:02:53,109 --> 01:02:51,520

we won't we won't go down that road but

1539

01:02:54,630 --> 01:02:53,119

before he went to work at work out in

1540

01:02:59,589 --> 01:02:54,640

the desert

1541

01:03:03,349 --> 01:03:02,789

and we all know what happened after that

1542

01:03:08,230 --> 01:03:03,359

yeah

1543

01:03:09,430 --> 01:03:08,240

for over 30 years

1544

01:03:11,670 --> 01:03:09,440

and i'm gonna go i'm gonna go spend a

1545

01:03:13,910 --> 01:03:11,680

couple days with him this summer if

1546

01:03:15,430 --> 01:03:13,920

if the world will ever you know unlock

1547

01:03:19,029 --> 01:03:15,440

itself and let us travel

1548

01:03:20,870 --> 01:03:19,039

and move around yeah so yeah

1549

01:03:22,230 --> 01:03:20,880

we're getting we're getting toward that

1550

01:03:25,430 --> 01:03:22,240

um so

1551

01:03:27,510 --> 01:03:25,440

but anyway uh thank you for for all that

1552

01:03:28,549 --> 01:03:27,520

um i i do have a question just kind of

1553

01:03:31,829 --> 01:03:28,559

to throw it out to

1554

01:03:34,950 --> 01:03:31,839

to everyone here on on this has

1555

01:03:37,829 --> 01:03:34,960

anyone done any type of

1556

01:03:40,309 --> 01:03:37,839

research to see if there's any

1557

01:03:43,029 --> 01:03:40,319

consistency between crop circles

1558

01:03:44,069 --> 01:03:43,039

circles mathematically i'm talking i'm

1559

01:03:46,150 --> 01:03:44,079

not talking about

1560

01:03:47,829 --> 01:03:46,160

the consistency of what happens to the

1561

01:03:51,430 --> 01:03:47,839

plants or anything like that

1562

01:03:54,870 --> 01:03:51,440

but i mean with these geometric um

1563

01:03:56,309 --> 01:03:54,880

agroglyphs is there any math that can be

1564

01:03:59,510 --> 01:03:56,319

measured and compared

1565

01:03:59,990 --> 01:03:59,520

does anyone want to uh yeah talk about

1566

01:04:01,829 --> 01:04:00,000

that

1567

01:04:03,349 --> 01:04:01,839

yeah this is the gary this is this is

1568

01:04:06,390 --> 01:04:03,359

where we get on to talking about

1569

01:04:07,990 --> 01:04:06,400

you know some good stuff um most of the

1570

01:04:09,270 --> 01:04:08,000

conversation unfortunately gets held up

1571

01:04:11,750 --> 01:04:09,280

and does it are they real are they

1572

01:04:13,430 --> 01:04:11,760

man-made you know let's let's move on

1573

01:04:15,670 --> 01:04:13,440

but this is once you've overcome that

1574

01:04:17,029 --> 01:04:15,680

which i did in my in my research then

1575

01:04:18,230 --> 01:04:17,039

then you start to look at the juicy

1576

01:04:20,549 --> 01:04:18,240

stuff which is

1577

01:04:22,150 --> 01:04:20,559

what do the symbols mean man i i

1578

01:04:23,109 --> 01:04:22,160

personally think they're announcing much

1579

01:04:25,670 --> 01:04:23,119

more than

1580

01:04:27,190 --> 01:04:25,680

we hear because there's a dialogue and

1581

01:04:28,950 --> 01:04:27,200

there's categories

1582

01:04:31,750 --> 01:04:28,960

and as you as you mentioned one of the

1583

01:04:33,910 --> 01:04:31,760

categories is geometry which is

1584

01:04:35,349 --> 01:04:33,920

which is the language of form it is the

1585

01:04:37,750 --> 01:04:35,359

language of number

1586

01:04:39,109 --> 01:04:37,760

but number made visual geometry is

1587

01:04:41,029 --> 01:04:39,119

number in space so

1588

01:04:43,270 --> 01:04:41,039

triangle is three and a square is four

1589

01:04:46,150 --> 01:04:43,280

and so on so

1590

01:04:47,510 --> 01:04:46,160

what we found um is i mean i'll give you

1591

01:04:49,589 --> 01:04:47,520

one i'll give you one story there's

1592

01:04:51,589 --> 01:04:49,599

there's an abundance of of historical

1593

01:04:53,349 --> 01:04:51,599

mathematical solutions that have been

1594

01:04:56,309 --> 01:04:53,359

given to us in crop circles

1595

01:04:56,789 --> 01:04:56,319

which after consulting maths historians

1596

01:04:58,630 --> 01:04:56,799

we've

1597

01:05:00,390 --> 01:04:58,640

established that these have never been

1598

01:05:04,069 --> 01:05:00,400

solved in that way

1599

01:05:06,789 --> 01:05:04,079

or that accurately before in history so

1600

01:05:08,789 --> 01:05:06,799

we immediately know from the crop

1601

01:05:10,470 --> 01:05:08,799

circles that we've analyzed

1602

01:05:12,549 --> 01:05:10,480

that we've been given mathematical

1603

01:05:14,390 --> 01:05:12,559

solutions to an ancient puzzle called

1604

01:05:18,069 --> 01:05:14,400

squaring the circle

1605

01:05:20,390 --> 01:05:18,079

um in in ways which have never ever been

1606

01:05:21,990 --> 01:05:20,400

descript uh descriptive that accurately

1607

01:05:25,029 --> 01:05:22,000

before in history going right away

1608

01:05:28,390 --> 01:05:27,190

there's constant reference with any

1609

01:05:30,549 --> 01:05:28,400

pentagram you have

1610

01:05:32,069 --> 01:05:30,559

implicitly within the pentagram the

1611

01:05:34,549 --> 01:05:32,079

golden ratio

1612

01:05:35,430 --> 01:05:34,559

which is this magic ratio that we find

1613

01:05:37,829 --> 01:05:35,440

in nature

1614

01:05:38,630 --> 01:05:37,839

everywhere it's related to the fibonacci

1615

01:05:41,829 --> 01:05:38,640

sequence

1616

01:05:42,549 --> 01:05:41,839

which we find in ram's horns or the our

1617

01:05:44,549 --> 01:05:42,559

ear

1618

01:05:46,230 --> 01:05:44,559

or when we're born we have five teeth in

1619

01:05:49,190 --> 01:05:46,240

each quarter of our mouth which fall out

1620

01:05:52,390 --> 01:05:49,200

and replace by 80 the fibonacci sequence

1621

01:05:52,950 --> 01:05:52,400

and number moves through organic life

1622

01:05:59,270 --> 01:05:52,960

it's

1623

01:06:00,789 --> 01:05:59,280

so i believe we're being shown something

1624

01:06:02,870 --> 01:06:00,799

about um

1625

01:06:04,150 --> 01:06:02,880

what what our ancestors worked with and

1626

01:06:05,190 --> 01:06:04,160

toyed with his philosophers and

1627

01:06:07,990 --> 01:06:05,200

cosmologists

1628

01:06:10,150 --> 01:06:08,000

using geometry as a tool to explore if

1629

01:06:13,430 --> 01:06:10,160

there is an intelligent design

1630

01:06:15,990 --> 01:06:13,440

behind the universe because if we

1631

01:06:18,309 --> 01:06:16,000

if we move away from dogmatic religion

1632

01:06:20,069 --> 01:06:18,319

and just believing that there's a god

1633

01:06:22,789 --> 01:06:20,079

to actually knowing that there is

1634

01:06:25,190 --> 01:06:22,799

something mysterious which is

1635

01:06:27,029 --> 01:06:25,200

um intelligent which intelligently

1636

01:06:29,670 --> 01:06:27,039

designed the universe

1637

01:06:31,109 --> 01:06:29,680

then we we we wake up in a different

1638

01:06:33,589 --> 01:06:31,119

world than the one we're in now where

1639

01:06:35,349 --> 01:06:33,599

we're not so sure

1640

01:06:37,510 --> 01:06:35,359

and so the answer to your question is

1641

01:06:39,190 --> 01:06:37,520

yes mathematically on a number of

1642

01:06:40,630 --> 01:06:39,200

occasions and i'm always happy to go

1643

01:06:41,589 --> 01:06:40,640

through the details of those because i

1644

01:06:44,390 --> 01:06:41,599

just think it's

1645

01:06:46,069 --> 01:06:44,400

absolutely thrilling um there have been

1646

01:06:47,990 --> 01:06:46,079

solutions given to us

1647

01:06:49,750 --> 01:06:48,000

to mathematical problems which

1648

01:06:50,630 --> 01:06:49,760

historically have never been done that

1649

01:06:54,710 --> 01:06:50,640

accurately

1650

01:07:00,390 --> 01:06:58,470

interesting and what about

1651

01:07:02,230 --> 01:07:00,400

other parts of the world i mentioned

1652

01:07:04,150 --> 01:07:02,240

before i talked about

1653

01:07:05,349 --> 01:07:04,160

china does anyone because i know there's

1654

01:07:07,670 --> 01:07:05,359

some in russia

1655

01:07:08,470 --> 01:07:07,680

has anyone ever looked in you know china

1656

01:07:12,150 --> 01:07:08,480

has so much

1657

01:07:13,829 --> 01:07:12,160

vast land um open land as well

1658

01:07:15,430 --> 01:07:13,839

that you know people think of china's

1659

01:07:16,150 --> 01:07:15,440

just crowded but it's not there's a lot

1660

01:07:18,630 --> 01:07:16,160

of

1661

01:07:19,910 --> 01:07:18,640

beautiful land and crops and you know

1662

01:07:21,670 --> 01:07:19,920

there's

1663

01:07:24,549 --> 01:07:21,680

anything going on in china that we know

1664

01:07:25,990 --> 01:07:24,559

about or would we ever know about it

1665

01:07:27,750 --> 01:07:26,000

yeah this is the thing there's pyramids

1666

01:07:27,990 --> 01:07:27,760

in china but you can't get access to

1667

01:07:29,589 --> 01:07:28,000

them

1668

01:07:31,430 --> 01:07:29,599

i think we're talking about somewhere

1669

01:07:34,390 --> 01:07:31,440

that's heavily restricted

1670

01:07:34,950 --> 01:07:34,400

um there's been formations all over the

1671

01:07:37,029 --> 01:07:34,960

world

1672

01:07:38,470 --> 01:07:37,039

as you know and as steve pointed out it

1673

01:07:40,230 --> 01:07:38,480

could be that a lot of those are just

1674

01:07:41,750 --> 01:07:40,240

people who are going out and having a go

1675

01:07:42,710 --> 01:07:41,760

because they've seen what's coming up in

1676

01:07:44,870 --> 01:07:42,720

england because

1677

01:07:46,230 --> 01:07:44,880

they're not usually as complicated

1678

01:07:48,069 --> 01:07:46,240

they're not usually as

1679

01:07:50,230 --> 01:07:48,079

sophisticated as the ones we find in

1680

01:07:51,349 --> 01:07:50,240

england however i do believe that there

1681

01:07:54,069 --> 01:07:51,359

are some

1682

01:07:55,349 --> 01:07:54,079

and i mean the interest for me for

1683

01:07:56,950 --> 01:07:55,359

example i dinner i

1684

01:07:59,829 --> 01:07:56,960

dinner on saturday night with eight

1685

01:08:02,230 --> 01:07:59,839

military generals from here in mexico

1686

01:08:03,430 --> 01:08:02,240

and we had i'm actually having breakfast

1687

01:08:05,029 --> 01:08:03,440

with them next thursday as well they

1688

01:08:06,549 --> 01:08:05,039

want me to give them a presentation but

1689

01:08:09,510 --> 01:08:06,559

they have told me

1690

01:08:13,349 --> 01:08:09,520

that there are reports of crop circles

1691

01:08:16,789 --> 01:08:13,359

from the 1940s 1947 and 1954

1692

01:08:19,749 --> 01:08:16,799

in their military records simple circles

1693

01:08:21,430 --> 01:08:19,759

but it shows that this phenomenon of

1694

01:08:23,669 --> 01:08:21,440

crop circles

1695

01:08:25,430 --> 01:08:23,679

um has been around there's a wonderful

1696

01:08:25,910 --> 01:08:25,440

book on kindle that people can read

1697

01:08:27,510 --> 01:08:25,920

called

1698

01:08:29,749 --> 01:08:27,520

the history of crop circles written by

1699

01:08:31,269 --> 01:08:29,759

terry wilson who did exhaustive work

1700

01:08:33,430 --> 01:08:31,279

going right the way back to as you

1701

01:08:35,349 --> 01:08:33,440

showed 1678 with

1702

01:08:36,630 --> 01:08:35,359

the mowing devil and then robert plot at

1703

01:08:39,669 --> 01:08:36,640

oxford university

1704

01:08:42,229 --> 01:08:39,679

talked about it and i've got a bunch of

1705

01:08:43,749 --> 01:08:42,239

a bunch of i wrote an episode for 16

1706

01:08:45,510 --> 01:08:43,759

episodes for gaia tv and one of those

1707

01:08:48,070 --> 01:08:45,520

was on the history of crop circles

1708

01:08:50,229 --> 01:08:48,080

and i go through so many reports of

1709

01:08:51,590 --> 01:08:50,239

police being involved of fire being in

1710

01:08:52,789 --> 01:08:51,600

the fields and people running out

1711

01:08:54,709 --> 01:08:52,799

finding these circles

1712

01:08:56,309 --> 01:08:54,719

and so on so it's going to be very

1713

01:08:57,829 --> 01:08:56,319

interesting if these mexican generals

1714

01:08:58,630 --> 01:08:57,839

give me some files in the next couple of

1715

01:09:01,189 --> 01:08:58,640

weeks

1716

01:09:02,950 --> 01:09:01,199

which show that we've got um activity

1717

01:09:04,709 --> 01:09:02,960

going back into the 40s that they've got

1718

01:09:07,829 --> 01:09:04,719

on record

1719

01:09:11,189 --> 01:09:07,839

another another question is why

1720

01:09:11,669 --> 01:09:11,199

would you suppose um anyone can answer

1721

01:09:13,990 --> 01:09:11,679

this

1722

01:09:16,390 --> 01:09:14,000

why would you suppose that they would

1723

01:09:18,950 --> 01:09:16,400

have started out so simple

1724

01:09:19,990 --> 01:09:18,960

and then graduated to something like

1725

01:09:22,550 --> 01:09:20,000

this beautiful one up

1726

01:09:23,110 --> 01:09:22,560

on the screen i mean that's so intense

1727

01:09:25,269 --> 01:09:23,120

well

1728

01:09:27,110 --> 01:09:25,279

i i was i was taken to the crop circles

1729

01:09:28,789 --> 01:09:27,120

by a man who became my teacher for ten

1730

01:09:29,189 --> 01:09:28,799

years and he was very knowledgeable and

1731

01:09:31,349 --> 01:09:29,199

he

1732

01:09:32,870 --> 01:09:31,359

and i and i've sort of stuck with his

1733

01:09:34,390 --> 01:09:32,880

explanation that he gave me

1734

01:09:36,950 --> 01:09:34,400

it's a dialogue that started at the

1735

01:09:37,510 --> 01:09:36,960

beginning geometry as i've mentioned is

1736

01:09:40,070 --> 01:09:37,520

number

1737

01:09:41,510 --> 01:09:40,080

in space and so they started with the

1738

01:09:43,510 --> 01:09:41,520

simple circle

1739

01:09:45,990 --> 01:09:43,520

which represents one it represents what

1740

01:09:48,950 --> 01:09:46,000

they used to call the monad

1741

01:09:50,070 --> 01:09:48,960

now that simple circle is actually very

1742

01:09:52,390 --> 01:09:50,080

profound

1743

01:09:53,510 --> 01:09:52,400

and simple at the same time which i

1744

01:09:55,189 --> 01:09:53,520

think is absolutely brilliant if you

1745

01:09:56,870 --> 01:09:55,199

find something that's very simple and it

1746

01:09:59,189 --> 01:09:56,880

actually contains

1747

01:10:00,149 --> 01:09:59,199

profundity it's a remarkable and a

1748

01:10:02,310 --> 01:10:00,159

circle is that

1749

01:10:03,590 --> 01:10:02,320

the diameter of a circle is one side of

1750

01:10:06,790 --> 01:10:03,600

a square

1751
01:10:07,270 --> 01:10:06,800
and the circumference in relationship to

1752
01:10:10,470 --> 01:10:07,280
that

1753
01:10:12,310 --> 01:10:10,480
diameter is not a whole number so we've

1754
01:10:13,590 --> 01:10:12,320
got something which is finite which is

1755
01:10:16,229 --> 01:10:13,600
the diameter

1756
01:10:17,830 --> 01:10:16,239
taken as one and then the relationship

1757
01:10:19,590 --> 01:10:17,840
of the circumference to that one

1758
01:10:21,510 --> 01:10:19,600
is three point one four five nine two

1759
01:10:24,709 --> 01:10:21,520
six four blah blah blah on and on

1760
01:10:28,229 --> 01:10:24,719
infinity and so you've got

1761
01:10:30,310 --> 01:10:28,239
um a wholeness depicted in a circle no

1762
01:10:32,709 --> 01:10:30,320
matter how big or small

1763
01:10:34,149 --> 01:10:32,719

and you've also got infinity and its

1764

01:10:35,189 --> 01:10:34,159

relationship to something which is

1765

01:10:38,149 --> 01:10:35,199

finite which is us

1766

01:10:39,750 --> 01:10:38,159

we have a finite life and we just we did

1767

01:10:40,229 --> 01:10:39,760

we debate about whether or not we have a

1768

01:10:42,950 --> 01:10:40,239

soul

1769

01:10:43,350 --> 01:10:42,960

which goes on and is infinite um and so

1770

01:10:46,310 --> 01:10:43,360

there's

1771

01:10:47,110 --> 01:10:46,320

actually quite a lot of um and it's like

1772

01:10:49,510 --> 01:10:47,120

any symbol

1773

01:10:51,189 --> 01:10:49,520

okay symbols if you look up symbols i

1774

01:10:53,510 --> 01:10:51,199

went to university and studied

1775

01:10:55,030 --> 01:10:53,520

semiotics and language and communication

1776

01:10:55,669 --> 01:10:55,040

what you find with symbols is that they

1777

01:10:59,910 --> 01:10:55,679

are meant

1778

01:11:01,910 --> 01:10:59,920

to convey multi-level multi-layers

1779

01:11:04,070 --> 01:11:01,920

of of meaning anyone who's been in the

1780

01:11:05,350 --> 01:11:04,080

freemasons knows that every single part

1781

01:11:07,270 --> 01:11:05,360

of the symbols

1782

01:11:10,229 --> 01:11:07,280

contains different parts of the meaning

1783

01:11:11,910 --> 01:11:10,239

which you are eventually initiated into

1784

01:11:13,910 --> 01:11:11,920

to understand the deeper meanings behind

1785

01:11:15,189 --> 01:11:13,920

the symbol but they are meant to show us

1786

01:11:17,350 --> 01:11:15,199

something about the side of

1787

01:11:19,669 --> 01:11:17,360

life and the side of reality that we

1788

01:11:22,630 --> 01:11:19,679

can't see

1789

01:11:24,229 --> 01:11:22,640

and so we are talking about relating to

1790

01:11:25,830 --> 01:11:24,239

something which is metaphysical

1791

01:11:28,229 --> 01:11:25,840

something which is

1792

01:11:29,669 --> 01:11:28,239

unseen by us something that i believe

1793

01:11:31,510 --> 01:11:29,679

we've let go of

1794

01:11:33,189 --> 01:11:31,520

and that that's why i believe that you

1795

01:11:35,030 --> 01:11:33,199

if it's et's making the crop circulation

1796

01:11:36,149 --> 01:11:35,040

highly likely it could be a combination

1797

01:11:38,709 --> 01:11:36,159

of authors

1798

01:11:40,070 --> 01:11:38,719

that we are not in a in a position as i

1799

01:11:42,070 --> 01:11:40,080

think we used to be

1800

01:11:43,990 --> 01:11:42,080

when we made stone circles to

1801

01:11:47,030 --> 01:11:44,000

communicate with them

1802

01:11:48,950 --> 01:11:47,040

um because we've kind of gone so far

1803

01:11:51,270 --> 01:11:48,960

into the material realm

1804

01:11:52,950 --> 01:11:51,280

that we're just going to be going oh oh

1805

01:11:56,390 --> 01:11:52,960

they really are true then are they

1806

01:11:59,510 --> 01:11:56,400

how do we have a dialogue with um

1807

01:12:03,430 --> 01:11:59,520

with a species that communicates in a

1808

01:12:06,870 --> 01:12:05,110

and so that's why i believe that they're

1809

01:12:10,070 --> 01:12:06,880

trying to get us ready

1810

01:12:12,310 --> 01:12:10,080

for form of communication

1811

01:12:14,550 --> 01:12:12,320

very interesting this is a just i'm

1812

01:12:17,910 --> 01:12:14,560

going to post this up as a question

1813

01:12:19,510 --> 01:12:17,920

um it doesn't to me it wouldn't make

1814

01:12:20,950 --> 01:12:19,520

sense but i mean this is a question

1815

01:12:23,750 --> 01:12:20,960

someone's asking

1816

01:12:25,830 --> 01:12:23,760

could any of the circles that appear

1817

01:12:28,950 --> 01:12:25,840

precise be created by

1818

01:12:31,910 --> 01:12:28,960

coded robots

1819

01:12:33,030 --> 01:12:31,920

in conjunction with ground rollers used

1820

01:12:34,470 --> 01:12:33,040

by many farmers

1821

01:12:36,470 --> 01:12:34,480

i mean would someone go through all that

1822

01:12:38,390 --> 01:12:36,480

trouble well i don't think so i mean

1823

01:12:39,750 --> 01:12:38,400

i've said this before you know um

1824

01:12:41,830 --> 01:12:39,760

there's a lot of talk over the years

1825

01:12:43,910 --> 01:12:41,840

about it being military technology from

1826

01:12:46,149 --> 01:12:43,920

satellites that's been down but

1827

01:12:47,590 --> 01:12:46,159

i just can't see military generals

1828

01:12:48,790 --> 01:12:47,600

sitting around the table and deciding

1829

01:12:50,630 --> 01:12:48,800

that they're going to create the

1830

01:12:52,390 --> 01:12:50,640

technology to make pretty patterns in

1831

01:12:54,550 --> 01:12:52,400

fields to scare the life out of

1832

01:12:56,790 --> 01:12:54,560

saddam hussein and the like i think

1833

01:12:58,229 --> 01:12:56,800

they're much more predisposed to

1834

01:12:59,910 --> 01:12:58,239

creating more weapons of mass

1835

01:13:02,950 --> 01:12:59,920

destruction than they are

1836

01:13:05,750 --> 01:13:02,960

things that could make pretty patterns

1837

01:13:07,270 --> 01:13:05,760

um i suppose it's conceivable with ai

1838

01:13:08,950 --> 01:13:07,280

these days to create a computer that

1839

01:13:09,590 --> 01:13:08,960

would learn how to create a pattern in

1840

01:13:11,430 --> 01:13:09,600

the wheat

1841

01:13:13,189 --> 01:13:11,440

and some device that would roll down the

1842

01:13:16,550 --> 01:13:13,199

crop as it went around

1843

01:13:18,390 --> 01:13:16,560

but as it stands no the um

1844

01:13:19,910 --> 01:13:18,400

the crop circles are very rarely on flat

1845

01:13:22,950 --> 01:13:19,920

ground they're on

1846

01:13:24,709 --> 01:13:22,960

they're on uneven ground it often rains

1847

01:13:25,990 --> 01:13:24,719

and so when you walk into those fields

1848

01:13:27,830 --> 01:13:26,000

your feet are

1849

01:13:30,149 --> 01:13:27,840

they weigh about two pounds more because

1850

01:13:33,510 --> 01:13:30,159

they're covered in clay soil

1851
01:13:35,350 --> 01:13:33,520
um and and when so when you mark out

1852
01:13:35,910 --> 01:13:35,360
this crop circle if it's on uneven

1853
01:13:37,590 --> 01:13:35,920
ground

1854
01:13:39,270 --> 01:13:37,600
you're not going to be creating a circle

1855
01:13:40,149 --> 01:13:39,280
on the ground to make it look circular

1856
01:13:41,750 --> 01:13:40,159
from above

1857
01:13:43,590 --> 01:13:41,760
you're going to be creating an ellipsoid

1858
01:13:44,790 --> 01:13:43,600
shape an egg shape so that it looks

1859
01:13:46,550 --> 01:13:44,800
circular from above

1860
01:13:47,990 --> 01:13:46,560
to compensate for the topography of the

1861
01:13:51,189 --> 01:13:48,000
ground the

1862
01:13:53,910 --> 01:13:51,199
the complexity of what it would take

1863
01:13:55,270 --> 01:13:53,920

to simply flatten crop when you actually

1864

01:13:56,870 --> 01:13:55,280

look at it and start scratching your

1865

01:13:58,709 --> 01:13:56,880

head and talk to architects and people

1866

01:14:00,790 --> 01:13:58,719

who make things on the planet

1867

01:14:02,470 --> 01:14:00,800

they tell you that no this is not simple

1868

01:14:03,990 --> 01:14:02,480

and so there would have to be an awful

1869

01:14:05,350 --> 01:14:04,000

lot of research and development money

1870

01:14:06,550 --> 01:14:05,360

going into someone who wanted to build a

1871

01:14:08,870 --> 01:14:06,560

robot

1872

01:14:10,310 --> 01:14:08,880

um to make crop circles so i don't know

1873

01:14:11,270 --> 01:14:10,320

who put the money up

1874

01:14:15,669 --> 01:14:11,280

why would they do it they're not gonna

1875

01:14:18,630 --> 01:14:15,679

make me profit yeah i think um

1876

01:14:19,750 --> 01:14:18,640

ground-based robots is probably like not

1877

01:14:21,910 --> 01:14:19,760

the

1878

01:14:25,270 --> 01:14:21,920

right way to think about it i think if

1879

01:14:31,750 --> 01:14:28,550

you know think about the possible

1880

01:14:34,390 --> 01:14:31,760

ufo encounters that have happened around

1881

01:14:35,430 --> 01:14:34,400

these crop formations av as they've

1882

01:14:39,669 --> 01:14:35,440

shown up

1883

01:14:43,669 --> 01:14:39,679

uh orbs for example you could

1884

01:14:46,709 --> 01:14:43,679

pontificate or

1885

01:14:47,750 --> 01:14:46,719

elaborate on your question and say are

1886

01:14:51,590 --> 01:14:47,760

those

1887

01:14:53,990 --> 01:14:51,600

drones

1888

01:14:56,470 --> 01:14:54,000

are they some kind of artificial

1889

01:15:00,070 --> 01:14:56,480

intelligence that's been sent here

1890

01:15:00,630 --> 01:15:00,080

to do a specific job to create these

1891

01:15:03,430 --> 01:15:00,640

clips

1892

01:15:03,910 --> 01:15:03,440

and then go away possibly fade away or

1893

01:15:07,189 --> 01:15:03,920

or

1894

01:15:09,750 --> 01:15:07,199

return to where they came from

1895

01:15:11,470 --> 01:15:09,760

that that might be a possibility i think

1896

01:15:13,189 --> 01:15:11,480

artificial intelligence is an

1897

01:15:17,590 --> 01:15:13,199

inevitability

1898

01:15:21,430 --> 01:15:17,600

um in any technological races

1899

01:15:23,830 --> 01:15:21,440

um evolution you know we're getting

1900

01:15:26,310 --> 01:15:23,840

sophisticated automation now

1901

01:15:28,310 --> 01:15:26,320

sophisticated machine learning

1902

01:15:29,750 --> 01:15:28,320

artificial intelligence is all part of

1903

01:15:32,390 --> 01:15:29,760

that and

1904

01:15:33,350 --> 01:15:32,400

eventually it's going to be employed to

1905

01:15:35,830 --> 01:15:33,360

hopefully

1906

01:15:37,270 --> 01:15:35,840

do all kinds of incredible things for

1907

01:15:40,470 --> 01:15:37,280

mankind

1908

01:15:42,310 --> 01:15:40,480

um maybe what we're witnessing sometimes

1909

01:15:45,590 --> 01:15:42,320

when we see ufos

1910

01:15:48,790 --> 01:15:45,600

involves some form of ai

1911

01:15:51,270 --> 01:15:48,800

from uh you know

1912

01:15:51,990 --> 01:15:51,280

from another race or another

1913

01:15:54,709 --> 01:15:52,000

intelligence

1914

01:15:55,669 --> 01:15:54,719

that's out there trying to interact with

1915

01:15:58,310 --> 01:15:55,679

our planet

1916

01:15:59,590 --> 01:15:58,320

and you know it's very possible that

1917

01:16:02,310 --> 01:15:59,600

some of the

1918

01:16:04,310 --> 01:16:02,320

drones and such that we've seen that's

1919

01:16:07,350 --> 01:16:04,320

highly sophisticated

1920

01:16:09,110 --> 01:16:07,360

uh compared to you know the drone that

1921

01:16:12,229 --> 01:16:09,120

was around when this guy

1922

01:16:15,189 --> 01:16:12,239

was flying in this guy um

1923

01:16:17,590 --> 01:16:15,199

because there was a drone that was built

1924

01:16:21,590 --> 01:16:17,600

to be launched from the sr

1925

01:16:24,830 --> 01:16:21,600

71 uh jim actually did some work on that

1926

01:16:28,390 --> 01:16:24,840

drone it's called the d21

1927

01:16:32,229 --> 01:16:28,400

d21b d21 and

1928

01:16:35,910 --> 01:16:32,239

uh it looked like uh one of the rockets

1929

01:16:40,790 --> 01:16:35,920

solo rockets of the sr-21

1930

01:16:44,390 --> 01:16:40,800

um but that was in the 19 what 1970

1931

01:16:47,110 --> 01:16:44,400

1962 1962 is when

1932

01:16:48,630 --> 01:16:47,120

when the program began and when was it

1933

01:16:49,750 --> 01:16:48,640

fully operational like one of those

1934

01:16:54,149 --> 01:16:49,760

drones to fly

1935

01:16:57,430 --> 01:16:54,159

uh first launch over china uh was in 68

1936

01:16:59,510 --> 01:16:57,440

and last one was 71. 68 you know

1937

01:17:00,709 --> 01:16:59,520

and and if you just put that in

1938

01:17:03,189 --> 01:17:00,719

perspective

1939

01:17:04,630 --> 01:17:03,199

and maybe what ben rich had told him

1940

01:17:08,390 --> 01:17:04,640

that we have stuff that's

1941

01:17:11,590 --> 01:17:08,400

50 years beyond your comprehension um

1942

01:17:13,030 --> 01:17:11,600

you know operating and doing things for

1943

01:17:16,070 --> 01:17:13,040

us

1944

01:17:19,350 --> 01:17:16,080

the d21

1945

01:17:22,310 --> 01:17:19,360

was an example of a crude drone

1946

01:17:24,390 --> 01:17:22,320

that was highly classified and no one

1947

01:17:25,990 --> 01:17:24,400

even knew it was it existed until many

1948

01:17:28,950 --> 01:17:26,000

many years after

1949

01:17:29,510 --> 01:17:28,960

i'm sure there are things that the air

1950

01:17:32,709 --> 01:17:29,520

force

1951

01:17:36,709 --> 01:17:32,719

and the navy um

1952

01:17:38,310 --> 01:17:36,719

you know different uh military wings are

1953

01:17:40,709 --> 01:17:38,320

going to be using

1954

01:17:41,750 --> 01:17:40,719

uh today around the planet that we may

1955

01:17:47,590 --> 01:17:41,760

even see

1956

01:17:54,709 --> 01:17:51,430

when it comes to ufos in general

1957

01:17:57,030 --> 01:17:54,719

we may not be in charge i mean we may be

1958

01:17:59,270 --> 01:17:57,040

the united states of america

1959

01:18:01,110 --> 01:17:59,280

and maybe the reason why things have not

1960

01:18:03,990 --> 01:18:01,120

been made public

1961

01:18:04,229 --> 01:18:04,000

is because we and other countries such

1962

01:18:08,550 --> 01:18:04,239

as

1963

01:18:10,630 --> 01:18:08,560

you know the uk and in russia

1964

01:18:12,709 --> 01:18:10,640

maybe we were told by the entities

1965

01:18:16,070 --> 01:18:12,719

whoever they may be

1966

01:18:18,310 --> 01:18:16,080

is you're not ready for this yet

1967

01:18:20,550 --> 01:18:18,320

and the their crop circles are are

1968

01:18:22,070 --> 01:18:20,560

weight is they're sort of a calling card

1969

01:18:24,950 --> 01:18:22,080

or announcing

1970

01:18:26,310 --> 01:18:24,960

and maybe the more complex the crop

1971

01:18:29,430 --> 01:18:26,320

circles get

1972

01:18:32,790 --> 01:18:29,440

maybe the sooner that they're that

1973

01:18:34,149 --> 01:18:32,800

the creators of the cop crew crop

1974

01:18:36,550 --> 01:18:34,159

circles

1975

01:18:37,990 --> 01:18:36,560

are going to show their face you don't

1976

01:18:38,830 --> 01:18:38,000

have to excuse me i'm a little bit on

1977

01:18:42,229 --> 01:18:38,840

the

1978

01:18:43,910 --> 01:18:42,239

uh extremely painful side right now i

1979

01:18:45,590 --> 01:18:43,920

had total knee replacement about two

1980

01:18:49,189 --> 01:18:45,600

weeks ago

1981

01:18:49,510 --> 01:18:49,199

and oh dear wow yeah well i appreciate

1982

01:18:53,990 --> 01:18:49,520

you

1983

01:18:57,270 --> 01:18:54,000

tonight i really appreciate that

1984

01:19:00,630 --> 01:18:57,280

um and love love your input

1985

01:19:03,590 --> 01:19:00,640

um one of the the questions i that i

1986

01:19:05,510 --> 01:19:03,600

thought about um well actually i'm gonna

1987

01:19:07,189 --> 01:19:05,520

sort of put a little bit of a spoiler

1988

01:19:10,390 --> 01:19:07,199

out there on your movie

1989

01:19:11,910 --> 01:19:10,400

up on this i would say the most

1990

01:19:14,950 --> 01:19:11,920

convincing

1991

01:19:18,870 --> 01:19:14,960

part of your video is when

1992

01:19:21,350 --> 01:19:18,880

you show a crop circle one year

1993

01:19:22,229 --> 01:19:21,360

and then a planted crop over it the

1994

01:19:24,229 --> 01:19:22,239

following year

1995

01:19:26,229 --> 01:19:24,239

and there's a silhouette of that crop

1996

01:19:29,110 --> 01:19:26,239

circle because that says so much

1997

01:19:29,830 --> 01:19:29,120

does anyone want to talk about that

1998

01:19:32,870 --> 01:19:29,840

phantom

1999

01:19:33,510 --> 01:19:32,880

crop circle uh i think gary can talk

2000

01:19:37,189 --> 01:19:33,520

about that

2001

01:19:40,149 --> 01:19:37,199

for sure ahead gary

2002

01:19:42,470 --> 01:19:40,159

so um what we've found over the years is

2003

01:19:44,070 --> 01:19:42,480

that where a crop circle appears

2004

01:19:45,590 --> 01:19:44,080

the following year there's normally a

2005

01:19:47,270 --> 01:19:45,600

crop rotation so if you have

2006

01:19:50,390 --> 01:19:47,280

wheat one year the following year will

2007

01:19:54,229 --> 01:19:50,400

be canola or barley or something else

2008

01:19:56,550 --> 01:19:54,239

um you know i used to take sorties and

2009

01:19:57,510 --> 01:19:56,560

fly in microlights before drones came

2010

01:19:59,189 --> 01:19:57,520

out and

2011

01:20:01,189 --> 01:19:59,199

i used to do it every day i used to get

2012

01:20:03,669 --> 01:20:01,199

up and drive to the airport airfield and

2013

01:20:04,950 --> 01:20:03,679

jump in this you know model toy airplane

2014

01:20:07,510 --> 01:20:04,960

and put my life at risk

2015

01:20:08,310 --> 01:20:07,520

with the door off and fly a certain

2016

01:20:10,870 --> 01:20:08,320

route

2017

01:20:12,470 --> 01:20:10,880

every day um to see if there'd been a

2018

01:20:14,870 --> 01:20:12,480

new crop circle

2019

01:20:16,070 --> 01:20:14,880

and what what would find as the crop was

2020

01:20:17,990 --> 01:20:16,080

start to come up is that you'd see

2021

01:20:18,950 --> 01:20:18,000

ghosts what we call ghosts shadows of

2022

01:20:21,910 --> 01:20:18,960

crop circles that

2023

01:20:23,750 --> 01:20:21,920

were there the year before which is

2024

01:20:27,470 --> 01:20:23,760

interesting

2025

01:20:30,470 --> 01:20:27,480

and then you get some of them which are

2026

01:20:33,750 --> 01:20:30,480

absolutely perfect the best of which

2027

01:20:37,030 --> 01:20:33,760

i filmed uh two years ago i think um

2028

01:20:40,070 --> 01:20:37,040

i think it was in 2017 or 18 a huge

2029

01:20:43,750 --> 01:20:42,550

double tetrahedron crop circle came down

2030

01:20:45,110 --> 01:20:43,760

in wheat

2031

01:20:47,350 --> 01:20:45,120

and then the following year in about

2032

01:20:49,590 --> 01:20:47,360

april i went past the area

2033

01:20:51,830 --> 01:20:49,600

and it was perfectly replicated but this

2034

01:20:52,870 --> 01:20:51,840

year in canola the canola just hadn't

2035

01:20:55,350 --> 01:20:52,880

grown

2036

01:20:57,350 --> 01:20:55,360

where the crop circle was now there were

2037

01:20:59,510 --> 01:20:57,360

some interesting explanations which were

2038

01:21:02,310 --> 01:20:59,520

given for this

2039

01:21:04,149 --> 01:21:02,320

the best of which was that uh people

2040

01:21:06,149 --> 01:21:04,159

tread the seeds in when they visit crop

2041

01:21:09,350 --> 01:21:06,159

circles they tread the wheat seeds in

2042

01:21:10,390 --> 01:21:09,360

it which creates a root mat um and it

2043

01:21:11,830 --> 01:21:10,400

doesn't have

2044

01:21:13,590 --> 01:21:11,840

you know a couple of weeks after you a

2045

01:21:15,669 --> 01:21:13,600

crop soap has appeared you'll see great

2046

01:21:16,950 --> 01:21:15,679

green grass all over the base of it

2047

01:21:18,310 --> 01:21:16,960

because the grass shoots are coming

2048

01:21:19,750 --> 01:21:18,320

through from the tree seeds that have

2049

01:21:22,390 --> 01:21:19,760

been trodden in

2050

01:21:24,550 --> 01:21:22,400

um that creates a root map which doesn't

2051

01:21:26,790 --> 01:21:24,560

get a chance to fully mature because

2052

01:21:29,110 --> 01:21:26,800

it's inevitably towards the end of the

2053

01:21:32,229 --> 01:21:29,120

season where we don't have enough light

2054

01:21:34,070 --> 01:21:32,239

and the crop is harvested it dies off

2055

01:21:35,750 --> 01:21:34,080

but the root map remains beneath the

2056

01:21:37,830 --> 01:21:35,760

soil and the following year when the

2057

01:21:40,070 --> 01:21:37,840

plant farmer comes and puts a seed

2058

01:21:41,669 --> 01:21:40,080

usually a canola seed which is bigger

2059

01:21:41,990 --> 01:21:41,679

through and they drill them into the

2060

01:21:43,750 --> 01:21:42,000

ground

2061

01:21:45,750 --> 01:21:43,760

they drill it through the root map and

2062

01:21:48,149 --> 01:21:45,760

when that seed tries to grow

2063

01:21:49,430 --> 01:21:48,159

it's blocked in its path by the root map

2064

01:21:52,070 --> 01:21:49,440

which gives us this

2065

01:21:53,669 --> 01:21:52,080

shadow i like that explanation but

2066

01:21:56,149 --> 01:21:53,679

unfortunately it doesn't

2067

01:21:56,870 --> 01:21:56,159

cover all of what we see for example i

2068

01:22:01,030 --> 01:21:56,880

just did a

2069

01:22:04,229 --> 01:22:01,040

a show here on mexican tv

2070

01:22:04,629 --> 01:22:04,239

where um a colleague of mine nick bohr

2071

01:22:06,550 --> 01:22:04,639

in the

2072

01:22:11,350 --> 01:22:06,560

in england who photographs crop circles

2073

01:22:15,990 --> 01:22:13,750

and the ground it just snowed and the

2074

01:22:18,470 --> 01:22:16,000

whole landscape is white

2075

01:22:19,750 --> 01:22:18,480

except for the design of the crop circle

2076

01:22:22,950 --> 01:22:19,760

which has melted

2077

01:22:24,709 --> 01:22:22,960

now i've got pictures back from 2008

2078

01:22:26,390 --> 01:22:24,719

where we flew in february when the whole

2079

01:22:28,070 --> 01:22:26,400

landscape was covered in snow

2080

01:22:31,110 --> 01:22:28,080

and again another sort of double

2081

01:22:33,830 --> 01:22:31,120

tetrahedron complex geometry crop circle

2082

01:22:37,110 --> 01:22:33,840

is perfectly visible because the snow

2083

01:22:40,709 --> 01:22:37,120

was melted where the crop circle was

2084

01:22:42,470 --> 01:22:40,719

so there seems to be it seems reasonable

2085

01:22:45,750 --> 01:22:42,480

to suggest that there is some kind of

2086

01:22:48,950 --> 01:22:45,760

energy residue that's left over but

2087

01:22:51,750 --> 01:22:48,960

i need good scientists to who are not

2088

01:22:53,189 --> 01:22:51,760

um scared of any stigma that what will

2089

01:22:54,790 --> 01:22:53,199

happen to them with their peers if they

2090

01:22:55,669 --> 01:22:54,800

start off going and starting analyzing

2091

01:22:56,790 --> 01:22:55,679

crop circles

2092

01:22:59,110 --> 01:22:56,800

they're not going to get rubbish and

2093

01:23:00,470 --> 01:22:59,120

ruin their reputation to be prepared to

2094

01:23:03,270 --> 01:23:00,480

come out with me

2095

01:23:04,149 --> 01:23:03,280

and and examine the soil and see what

2096

01:23:09,830 --> 01:23:04,159

what's going on

2097

01:23:13,189 --> 01:23:09,840

with um with what causes this phenomenon

2098

01:23:16,390 --> 01:23:13,199

interesting um i would like to uh take

2099

01:23:19,350 --> 01:23:16,400

calls so uh we have bill

2100

01:23:20,149 --> 01:23:19,360

standing by screening calls and that

2101

01:23:22,629 --> 01:23:20,159
number

2102

01:23:23,430 --> 01:23:22,639
is up on the screen if you're on youtube

2103

01:23:27,830 --> 01:23:23,440
um

2104

01:23:29,910 --> 01:23:27,840
is 855-472-5483

2105

01:23:31,830 --> 01:23:29,920
um you can call in if you have a

2106

01:23:36,550 --> 01:23:31,840
question for any one of our guests

2107

01:23:43,350 --> 01:23:41,350
anyway as far as

2108

01:23:45,189 --> 01:23:43,360
i mean i think that is definitely

2109

01:23:49,669 --> 01:23:45,199
evidence for one thing

2110

01:23:52,390 --> 01:23:49,679
uh gary that someone is not doing these

2111

01:23:53,189 --> 01:23:52,400
by stamping with their feet i mean

2112

01:23:55,270 --> 01:23:53,199
there's an abundance

2113

01:23:56,310 --> 01:23:55,280

it's definitely some type of energy that

2114

01:23:58,550 --> 01:23:56,320

would

2115

01:24:00,149 --> 01:23:58,560

um you know persist or something that

2116

01:24:01,669 --> 01:24:00,159

would happen to make a change like that

2117

01:24:03,669 --> 01:24:01,679

it's not someone stamping

2118

01:24:05,669 --> 01:24:03,679

no i mean especially when they redo the

2119

01:24:07,750 --> 01:24:05,679

soil you know i mean they

2120

01:24:08,709 --> 01:24:07,760

they rototill the soil and and put in

2121

01:24:10,550 --> 01:24:08,719

new seeds and

2122

01:24:12,149 --> 01:24:10,560

and and all that i mean is it and it

2123

01:24:12,709 --> 01:24:12,159

will last like just for one year the

2124

01:24:14,229 --> 01:24:12,719

ghost

2125

01:24:16,390 --> 01:24:14,239

it can be two or three years that you'll

2126
01:24:17,350 --> 01:24:16,400
see this residual i've got many pictures

2127
01:24:21,590 --> 01:24:17,360
of

2128
01:24:24,390 --> 01:24:21,600
it's it's something else

2129
01:24:26,390 --> 01:24:24,400
which adds another little nugget to the

2130
01:24:28,229 --> 01:24:26,400
to the we don't know this is a mystery

2131
01:24:30,470 --> 01:24:28,239
and it can't be explained by guys with

2132
01:24:33,910 --> 01:24:30,480
boards category

2133
01:24:34,870 --> 01:24:33,920
now i saw in one video where you were

2134
01:24:37,990 --> 01:24:34,880
walking through

2135
01:24:40,070 --> 01:24:38,000
um a field of flowers that there was a

2136
01:24:43,110 --> 01:24:40,080
crop circle is that a common thing

2137
01:24:44,709 --> 01:24:43,120
yeah now so so the crop

2138
01:24:46,950 --> 01:24:44,719

comes up at different stages throughout

2139

01:24:47,830 --> 01:24:46,960

the season the first crop to appear in

2140

01:24:50,550 --> 01:24:47,840

the season

2141

01:24:51,350 --> 01:24:50,560

in around april is canola which has

2142

01:24:53,590 --> 01:24:51,360

these

2143

01:24:55,910 --> 01:24:53,600

it's a very thick plant thicker than

2144

01:24:58,149 --> 01:24:55,920

celery very brittle

2145

01:24:59,750 --> 01:24:58,159

and when it matures it it produces these

2146

01:25:02,550 --> 01:24:59,760

yellow flowers

2147

01:25:03,510 --> 01:25:02,560

um before it goes to seed and it's

2148

01:25:05,910 --> 01:25:03,520

beautiful

2149

01:25:08,629 --> 01:25:05,920

now when you walk into one of those the

2150

01:25:10,390 --> 01:25:08,639

the crop itself is above your shoulders

2151
01:25:12,149 --> 01:25:10,400
so you brush through these yellow

2152
01:25:14,709 --> 01:25:12,159
flowers you get completely

2153
01:25:16,629 --> 01:25:14,719
covered in yellow pollen because the

2154
01:25:17,590 --> 01:25:16,639
leaves the petals of the flowers are so

2155
01:25:19,669 --> 01:25:17,600
delicate

2156
01:25:20,870 --> 01:25:19,679
that just brushing past them trashes

2157
01:25:23,430 --> 01:25:20,880
them

2158
01:25:24,709 --> 01:25:23,440
and what you find in crop circles like i

2159
01:25:26,229 --> 01:25:24,719
appeared on the episode of ancient

2160
01:25:28,070 --> 01:25:26,239
aliens a few years ago

2161
01:25:30,790 --> 01:25:28,080
they had three guys go out and make one

2162
01:25:32,390 --> 01:25:30,800
in canola and they showed some fantastic

2163
01:25:34,149 --> 01:25:32,400

um anybody can watch this on youtube

2164

01:25:35,669 --> 01:25:34,159

it's called circles from the sky or

2165

01:25:37,750 --> 01:25:35,679

circles in the sky

2166

01:25:39,750 --> 01:25:37,760

uh the ancient aliens episode and you'll

2167

01:25:41,590 --> 01:25:39,760

see these three guys take four hours to

2168

01:25:43,350 --> 01:25:41,600

smash down the crop they recreated a

2169

01:25:46,310 --> 01:25:43,360

crop circle that had appeared

2170

01:25:47,669 --> 01:25:46,320

10 or so years before a relatively small

2171

01:25:50,310 --> 01:25:47,679

one as they always do

2172

01:25:50,790 --> 01:25:50,320

simple but when you look at what

2173

01:25:53,350 --> 01:25:50,800

happened

2174

01:25:55,030 --> 01:25:53,360

on the ground with what they achieved

2175

01:25:57,910 --> 01:25:55,040

with their boards and ropes

2176
01:25:59,830 --> 01:25:57,920
it's smashed all the flowers are broken

2177
01:26:02,070 --> 01:25:59,840
there's scrape marks up the stems

2178
01:26:03,990 --> 01:26:02,080
it's just it's just a mess you look at

2179
01:26:05,110 --> 01:26:04,000
the photographs of the original one that

2180
01:26:08,229 --> 01:26:05,120
appeared

2181
01:26:10,709 --> 01:26:08,239
in 2005 and there's just this sea of

2182
01:26:12,790 --> 01:26:10,719
undisturbed yellow flowers

2183
01:26:14,709 --> 01:26:12,800
now i've seen this from my own eyes many

2184
01:26:15,750 --> 01:26:14,719
times and when you walk into one of

2185
01:26:17,030 --> 01:26:15,760
these things it actually takes your

2186
01:26:19,910 --> 01:26:17,040
breath away because

2187
01:26:20,550 --> 01:26:19,920
as soon as i put my foot into that crop

2188
01:26:22,550 --> 01:26:20,560

circle

2189

01:26:24,709 --> 01:26:22,560

i'm damaging it and it's not damaged

2190

01:26:26,709 --> 01:26:24,719

when i get there

2191

01:26:28,310 --> 01:26:26,719

yeah that that is really that part's

2192

01:26:30,070 --> 01:26:28,320

really amazing

2193

01:26:33,189 --> 01:26:30,080

and let me ask you this does anything

2194

01:26:35,510 --> 01:26:33,199

ever like stand back up on its own and

2195

01:26:36,390 --> 01:26:35,520

and grow like it was never there yeah

2196

01:26:38,229 --> 01:26:36,400

well the crop

2197

01:26:40,310 --> 01:26:38,239

that's another factor is that the crop

2198

01:26:42,390 --> 01:26:40,320

isn't damaged in a genuine crop circle

2199

01:26:43,990 --> 01:26:42,400

it will it will because of phototropism

2200

01:26:45,990 --> 01:26:44,000

it will begin to grow back up to the

2201

01:26:48,950 --> 01:26:46,000

light and become more buoyant

2202

01:26:50,709 --> 01:26:48,960

but we have had a crop circle a lot of

2203

01:26:51,669 --> 01:26:50,719

people believe that some crop circles

2204

01:26:53,910 --> 01:26:51,679

come down

2205

01:26:54,870 --> 01:26:53,920

where they're a part of the design comes

2206

01:26:56,229 --> 01:26:54,880

one night

2207

01:26:58,390 --> 01:26:56,239

and then another part of the design

2208

01:26:59,990 --> 01:26:58,400

comes the next night sometimes it's been

2209

01:27:02,149 --> 01:27:00,000

over three nights

2210

01:27:05,110 --> 01:27:02,159

now as soon as that happens most people

2211

01:27:08,229 --> 01:27:05,120

dismiss it as man-made

2212

01:27:09,750 --> 01:27:08,239

now one of the um i know what year was

2213

01:27:12,070 --> 01:27:09,760

it it would have been

2214

01:27:12,950 --> 01:27:12,080

oh god my after 25 years my years get

2215

01:27:18,070 --> 01:27:12,960

vape but

2216

01:27:21,270 --> 01:27:18,080

it was about um 2011 i believe 2011

2217

01:27:24,470 --> 01:27:21,280

or 12. um this formation came down

2218

01:27:27,350 --> 01:27:24,480

and it was kind of like these lobsters

2219

01:27:30,070 --> 01:27:27,360

there were six lobsters

2220

01:27:33,189 --> 01:27:30,080

cut out into a circle in the wheat okay

2221

01:27:34,550 --> 01:27:33,199

the next night it was it was finished

2222

01:27:36,870 --> 01:27:34,560

now the interesting thing about that

2223

01:27:39,669 --> 01:27:36,880

crop circle is that where wheat was laid

2224

01:27:40,950 --> 01:27:39,679

down in the original crop circle it was

2225

01:27:42,709 --> 01:27:40,960

stood back up

2226

01:27:44,390 --> 01:27:42,719

when the design was finished the next

2227

01:27:47,510 --> 01:27:44,400

night which wow

2228

01:27:50,310 --> 01:27:47,520

you just can't do yeah

2229

01:27:52,629 --> 01:27:50,320

yeah um do you think there's or this

2230

01:27:55,270 --> 01:27:52,639

again it's a question for anyone

2231

01:27:57,189 --> 01:27:55,280

do you think other than blt research

2232

01:28:01,110 --> 01:27:57,199

which was actually funded by the

2233

01:28:04,149 --> 01:28:01,120

rockefeller um do you think that

2234

01:28:07,590 --> 01:28:04,159

science will take a serious look

2235

01:28:09,430 --> 01:28:07,600

at crop circles you know we have the scu

2236

01:28:11,110 --> 01:28:09,440

now which is the scientific coalition

2237

01:28:13,110 --> 01:28:11,120

for uap studies

2238

01:28:14,550 --> 01:28:13,120

uh people and there's many scientists in

2239

01:28:17,270 --> 01:28:14,560

that so there's a lot of

2240

01:28:19,110 --> 01:28:17,280

scientists or science-minded people

2241

01:28:21,669 --> 01:28:19,120

people with phds that are

2242

01:28:22,790 --> 01:28:21,679

actually taking the topic of ufos

2243

01:28:26,390 --> 01:28:22,800

seriously

2244

01:28:27,830 --> 01:28:26,400

before

2245

01:28:30,310 --> 01:28:27,840

do you think some of that might trickle

2246

01:28:32,709 --> 01:28:30,320

into the crop circles

2247

01:28:34,390 --> 01:28:32,719

i think once the stigma the stigma um

2248

01:28:37,189 --> 01:28:34,400

that is associated with

2249

01:28:37,910 --> 01:28:37,199

someone seriously uh connected with

2250

01:28:40,950 --> 01:28:37,920

science

2251

01:28:42,070 --> 01:28:40,960

um would undergo inevitably if they went

2252

01:28:43,510 --> 01:28:42,080

into it now they

2253

01:28:45,030 --> 01:28:43,520

they would have the ridicule of all

2254

01:28:45,830 --> 01:28:45,040

their peers and their family and so on

2255

01:28:48,390 --> 01:28:45,840

and may get

2256

01:28:49,189 --> 01:28:48,400

funding cut off and they may get other

2257

01:28:51,750 --> 01:28:49,199

issues

2258

01:28:53,910 --> 01:28:51,760

but if it's if if disclosure begins to

2259

01:28:55,669 --> 01:28:53,920

really happen and crop circles become a

2260

01:28:58,709 --> 01:28:55,679

part of that narrative

2261

01:29:00,709 --> 01:28:58,719

uh allowing people to i mean i

2262

01:29:02,390 --> 01:29:00,719

i believe it will happen in the last six

2263

01:29:03,830 --> 01:29:02,400

years johns hopkins and some of the

2264

01:29:05,590 --> 01:29:03,840

universities are doing very serious

2265

01:29:07,350 --> 01:29:05,600

research into psychedelics now

2266

01:29:10,070 --> 01:29:07,360

which of course was banned because of

2267

01:29:11,590 --> 01:29:10,080

the war on drugs and so on but now

2268

01:29:13,189 --> 01:29:11,600

it's really being shown even though

2269

01:29:14,709 --> 01:29:13,199

people have been saying for years

2270

01:29:16,790 --> 01:29:14,719

look this is something that can be used

2271

01:29:19,750 --> 01:29:16,800

as a therapy it's really being shown

2272

01:29:20,950 --> 01:29:19,760

with scientific data now to do that so

2273

01:29:23,350 --> 01:29:20,960

yes i hope so

2274

01:29:24,870 --> 01:29:23,360

and i really i really want it to happen

2275

01:29:26,149 --> 01:29:24,880

but i think at the moment we've still

2276

01:29:28,310 --> 01:29:26,159

got that problem with

2277

01:29:30,950 --> 01:29:28,320

with stigma and people being scared to

2278

01:29:32,950 --> 01:29:30,960

um put their name on the line with it

2279

01:29:35,189 --> 01:29:32,960

yeah yeah i have i have a question i

2280

01:29:37,510 --> 01:29:35,199

don't and i don't say i

2281

01:29:39,110 --> 01:29:37,520

crop circles are i find you incredibly

2282

01:29:43,030 --> 01:29:39,120

fascinating

2283

01:29:47,430 --> 01:29:43,040

and more has to be done has anybody

2284

01:29:50,629 --> 01:29:47,440

done a scientific core sample

2285

01:29:51,669 --> 01:29:50,639

going down maybe a meter within the crop

2286

01:29:55,350 --> 01:29:51,679

circle

2287

01:29:58,870 --> 01:29:55,360

do another core sample

2288

01:30:01,990 --> 01:29:58,880

and then have it chemically or

2289

01:30:02,229 --> 01:30:02,000

somehow analyze between the two what are

2290

01:30:06,390 --> 01:30:02,239

the

2291

01:30:09,430 --> 01:30:06,400

this dirt has

2292

01:30:11,830 --> 01:30:09,440

that's uh leaving a shadow the following

2293

01:30:12,950 --> 01:30:11,840

you know the following growing season wc

2294

01:30:14,950 --> 01:30:12,960

loving good

2295

01:30:16,470 --> 01:30:14,960

right william's i don't know i don't

2296

01:30:21,669 --> 01:30:16,480

know if he went down a meter

2297

01:30:23,270 --> 01:30:21,679

uh yeah but he did control

2298

01:30:24,709 --> 01:30:23,280

the science there's an abundance of

2299

01:30:25,990 --> 01:30:24,719

scientific work that's been done and it

2300

01:30:28,229 --> 01:30:26,000

hasn't really made

2301
01:30:29,669 --> 01:30:28,239
much of a difference in terms of people

2302
01:30:31,590 --> 01:30:29,679
accepting it as something which is a

2303
01:30:33,990 --> 01:30:31,600
genuinely mysterious phenomenon

2304
01:30:35,669 --> 01:30:34,000
unfortunately we demand science when

2305
01:30:37,510 --> 01:30:35,679
science comes along and actually gives

2306
01:30:38,950 --> 01:30:37,520
answers you realize that there's a whole

2307
01:30:40,870 --> 01:30:38,960
bunch of people who didn't want those

2308
01:30:42,390 --> 01:30:40,880
answers and so actually relevant

2309
01:30:44,070 --> 01:30:42,400
and it's not brought into the narrative

2310
01:30:44,790 --> 01:30:44,080
but there is an abundance of work that's

2311
01:30:47,189 --> 01:30:44,800
been done by

2312
01:30:49,030 --> 01:30:47,199
leaving good and birken over the years

2313
01:30:50,149 --> 01:30:49,040

the the soil was actually quite shallow

2314

01:30:52,470 --> 01:30:50,159

in wiltshire because

2315

01:30:53,189 --> 01:30:52,480

it's all on clay so if you dig down

2316

01:30:55,510 --> 01:30:53,199

about

2317

01:30:56,229 --> 01:30:55,520

what varies between six to twelve inches

2318

01:30:59,270 --> 01:30:56,239

you just hit

2319

01:31:01,110 --> 01:30:59,280

chalk um and there are lots and lots of

2320

01:31:02,870 --> 01:31:01,120

underwater aquifers

2321

01:31:04,390 --> 01:31:02,880

as a result of it being short because

2322

01:31:05,910 --> 01:31:04,400

there's all these caves and channels

2323

01:31:07,030 --> 01:31:05,920

which run under the fields

2324

01:31:08,470 --> 01:31:07,040

and some people have done some good

2325

01:31:10,070 --> 01:31:08,480

research with crop circles and where

2326

01:31:11,990 --> 01:31:10,080

they appear in relationship to those

2327

01:31:14,149 --> 01:31:12,000

locations

2328

01:31:15,189 --> 01:31:14,159

wow interesting what did williams see

2329

01:31:16,870 --> 01:31:15,199

levin good do

2330

01:31:18,950 --> 01:31:16,880

if you want to just kind of explain that

2331

01:31:22,629 --> 01:31:18,960

to uh jim here like

2332

01:31:23,430 --> 01:31:22,639

how did he find you know you even said

2333

01:31:26,470 --> 01:31:23,440

that he

2334

01:31:31,189 --> 01:31:26,480

patented a seed growth uh

2335

01:31:33,030 --> 01:31:31,199

technology crop circles yeah we so

2336

01:31:34,229 --> 01:31:33,040

so one of the things that crop circles

2337

01:31:37,030 --> 01:31:34,239

can appear

2338

01:31:38,629 --> 01:31:37,040

at any time during the maturation cycle

2339

01:31:41,350 --> 01:31:38,639

of the crop

2340

01:31:42,870 --> 01:31:41,360

and so what what he found was if he took

2341

01:31:44,709 --> 01:31:42,880

samples

2342

01:31:45,910 --> 01:31:44,719

from a crop circle which had appeared

2343

01:31:48,629 --> 01:31:45,920

early on in its

2344

01:31:49,830 --> 01:31:48,639

german that you saw maturation period

2345

01:31:51,510 --> 01:31:49,840

what inevitably

2346

01:31:53,669 --> 01:31:51,520

had happened is that the plants had

2347

01:31:56,470 --> 01:31:53,679

become very dehydrated and therefore the

2348

01:31:58,390 --> 01:31:56,480

seeds weren't viable

2349

01:32:00,470 --> 01:31:58,400

and similarly at the end of the

2350

01:32:01,430 --> 01:32:00,480

maturation cycle when the crops drying

2351
01:32:04,629 --> 01:32:01,440
out

2352
01:32:06,070 --> 01:32:04,639
more and the seeds don't

2353
01:32:07,830 --> 01:32:06,080
know when you plant the seeds they don't

2354
01:32:10,709 --> 01:32:07,840
grow however

2355
01:32:12,149 --> 01:32:10,719
he found a sweet spot in the middle of

2356
01:32:15,590 --> 01:32:12,159
that maturation period

2357
01:32:17,110 --> 01:32:15,600
where those energies which impact the

2358
01:32:19,350 --> 01:32:17,120
plants

2359
01:32:21,510 --> 01:32:19,360
have an effect that if you replant the

2360
01:32:24,550 --> 01:32:21,520
seeds you get five to ten times

2361
01:32:26,870 --> 01:32:24,560
more yield from those crops

2362
01:32:27,669 --> 01:32:26,880
without any fertilizers or anything like

2363
01:32:30,310 --> 01:32:27,679

that so

2364

01:32:32,709 --> 01:32:30,320

in order to test his theory he began a

2365

01:32:34,870 --> 01:32:32,719

series of lab experiments where he began

2366

01:32:36,550 --> 01:32:34,880

applying electrical impulses to plants

2367

01:32:40,550 --> 01:32:36,560

at different stages

2368

01:32:43,350 --> 01:32:40,560

of maturity and he found the sweet spot

2369

01:32:44,950 --> 01:32:43,360

and he found that he could increase the

2370

01:32:48,310 --> 01:32:44,960

yield of those crops

2371

01:32:51,110 --> 01:32:48,320

and patented the process so

2372

01:32:52,709 --> 01:32:51,120

i'm sure anybody listening is aware that

2373

01:32:54,550 --> 01:32:52,719

you can't get through a pattern officer

2374

01:32:56,870 --> 01:32:54,560

unless something works

2375

01:32:58,550 --> 01:32:56,880

and so for him to have discovered a

2376

01:33:00,550 --> 01:32:58,560

technology of applying electrical

2377

01:33:02,390 --> 01:33:00,560

impulses to seeds

2378

01:33:04,550 --> 01:33:02,400

and plant them and get more yield

2379

01:33:05,669 --> 01:33:04,560

putting potentially putting monsanto

2380

01:33:09,189 --> 01:33:05,679

out of business and selling more

2381

01:33:10,709 --> 01:33:09,199

fertilizer and patented that process

2382

01:33:13,830 --> 01:33:10,719

it's evidence that there's something

2383

01:33:16,149 --> 01:33:13,840

else going on at the very least

2384

01:33:17,669 --> 01:33:16,159

isn't that interesting we have a caller

2385

01:33:21,189 --> 01:33:17,679

um we have lauren

2386

01:33:23,110 --> 01:33:21,199

uh from in in connecticut that is

2387

01:33:25,510 --> 01:33:23,120

and she has a two-part question welcome

2388

01:33:27,910 --> 01:33:25,520

to the show lauren

2389

01:33:29,990 --> 01:33:27,920

yes thank you martin and i just want to

2390

01:33:31,270 --> 01:33:30,000

say that i enjoy your show very much i

2391

01:33:33,430 --> 01:33:31,280

like your

2392

01:33:34,950 --> 01:33:33,440

interviewing style where you allow the

2393

01:33:37,030 --> 01:33:34,960

guests to speak

2394

01:33:39,189 --> 01:33:37,040

and i appreciate this show that the

2395

01:33:40,149 --> 01:33:39,199

guests are fantastic i'm really enjoying

2396

01:33:43,750 --> 01:33:40,159

this

2397

01:33:47,350 --> 01:33:43,760

well thank you very much you're welcome

2398

01:33:49,350 --> 01:33:47,360

um my questions are um should i ask both

2399

01:33:51,910 --> 01:33:49,360

of them or one at a time

2400

01:33:53,830 --> 01:33:51,920

i just uh uh well let's do one at a time

2401
01:33:57,510 --> 01:33:53,840
that's fine

2402
01:34:00,310 --> 01:33:57,520
okay uh the first question is how many

2403
01:34:02,709 --> 01:34:00,320
if if there's any way to tell of the

2404
01:34:03,669 --> 01:34:02,719
crop circles are destroyed because the

2405
01:34:06,310 --> 01:34:03,679
farmers they

2406
01:34:07,750 --> 01:34:06,320
just don't want the hassle of people

2407
01:34:09,840 --> 01:34:07,760
finding out about

2408
01:34:12,790 --> 01:34:09,850
them

2409
01:34:15,270 --> 01:34:12,800
[Music]

2410
01:34:16,870 --> 01:34:15,280
it's about 10 every year we i know i

2411
01:34:18,149 --> 01:34:16,880
i've been around for many years i know

2412
01:34:20,470 --> 01:34:18,159
that a lot of the farmers

2413
01:34:21,910 --> 01:34:20,480

um i'm friends with them there are a

2414

01:34:23,910 --> 01:34:21,920

bunch of them are angry

2415

01:34:25,510 --> 01:34:23,920

or angry not so much about the crop

2416

01:34:27,430 --> 01:34:25,520

circles they're angry about people who

2417

01:34:28,950 --> 01:34:27,440

visit the fields and smoke inside their

2418

01:34:30,550 --> 01:34:28,960

fields and leave litter and

2419

01:34:32,470 --> 01:34:30,560

break down fences and walk through

2420

01:34:34,550 --> 01:34:32,480

standing crop but they're angry with the

2421

01:34:36,149 --> 01:34:34,560

visitors who don't pay due respect

2422

01:34:37,590 --> 01:34:36,159

and so they've got together with a bunch

2423

01:34:38,790 --> 01:34:37,600

of others and decided

2424

01:34:40,709 --> 01:34:38,800

if you get a crop circle we're going to

2425

01:34:43,830 --> 01:34:40,719

cut it out but it's about 10

2426

01:34:47,750 --> 01:34:43,840

every year interesting

2427

01:34:50,149 --> 01:34:47,760

okay yeah i was and that's what i meant

2428

01:34:50,870 --> 01:34:50,159

not so much that from the crop circle

2429

01:34:53,669 --> 01:34:50,880

itself but

2430

01:34:53,990 --> 01:34:53,679

yes people tend to be disrespectful

2431

01:34:56,390 --> 01:34:54,000

that's

2432

01:34:57,109 --> 01:34:56,400

for sure or there are a number of people

2433

01:35:00,229 --> 01:34:57,119

that do

2434

01:35:03,270 --> 01:35:00,239

um the second part of my question is

2435

01:35:06,870 --> 01:35:03,280

if the crops in the circles

2436

01:35:09,990 --> 01:35:06,880

are harvested is there any kind

2437

01:35:13,189 --> 01:35:10,000

of benefit or harm

2438

01:35:16,310 --> 01:35:13,199

to humans if they consume that grain or

2439

01:35:17,830 --> 01:35:16,320

whatever it was that was harvested

2440

01:35:19,590 --> 01:35:17,840

not that we know of i mean most of the

2441

01:35:21,750 --> 01:35:19,600

crop that gets laid down

2442

01:35:24,229 --> 01:35:21,760

it's a it's a little too low for the

2443

01:35:26,470 --> 01:35:24,239

blades of the harvester

2444

01:35:27,990 --> 01:35:26,480

because they can pick up rocks or they

2445

01:35:30,629 --> 01:35:28,000

can pick up any litter that's been

2446

01:35:32,709 --> 01:35:30,639

left by visitors so they tend to raise

2447

01:35:34,550 --> 01:35:32,719

the blades of the harvester up

2448

01:35:36,470 --> 01:35:34,560

and cut just a little higher therefore

2449

01:35:38,950 --> 01:35:36,480

they don't take the crop

2450

01:35:40,229 --> 01:35:38,960

from what's laid down inside the

2451

01:35:43,430 --> 01:35:40,239

formation they can only take the

2452

01:35:47,270 --> 01:35:43,440

standing stuff um

2453

01:35:50,229 --> 01:35:47,280

10 15 13 years 14 years ago 2008

2454

01:35:52,070 --> 01:35:50,239

i did a couple of tours for uh the

2455

01:35:53,510 --> 01:35:52,080

chairman of the bank of mexico

2456

01:35:55,350 --> 01:35:53,520

he came over and visited the crop

2457

01:35:57,590 --> 01:35:55,360

circles two years on the run

2458

01:35:58,629 --> 01:35:57,600

and one of the years he was there the

2459

01:36:02,390 --> 01:35:58,639

formation of them

2460

01:36:05,669 --> 01:36:02,400

of the of the aztec mask with feathers

2461

01:36:06,550 --> 01:36:05,679

appeared opposite silvery hill whilst he

2462

01:36:07,750 --> 01:36:06,560

was there

2463

01:36:09,990 --> 01:36:07,760

now he does a lot of work with

2464

01:36:12,149 --> 01:36:10,000

archaeologists and so on down in yucatan

2465

01:36:14,229 --> 01:36:12,159

and they've got jaguar reserve and they

2466

01:36:15,910 --> 01:36:14,239

fund archaeological gigs and so on

2467

01:36:17,990 --> 01:36:15,920

and so he was very interested that this

2468

01:36:21,510 --> 01:36:18,000

crop circle that's connected to him and

2469

01:36:22,950 --> 01:36:21,520

he believed um had appeared so got me to

2470

01:36:25,270 --> 01:36:22,960

buy all the wheat

2471

01:36:26,550 --> 01:36:25,280

i negotiated with the farmer and there's

2472

01:36:27,750 --> 01:36:26,560

a documentary that's been made about

2473

01:36:31,030 --> 01:36:27,760

this in norwegian

2474

01:36:32,550 --> 01:36:31,040

norway the norwegian tv covered it and i

2475

01:36:33,350 --> 01:36:32,560

negotiated with the farmer and he bought

2476

01:36:34,629 --> 01:36:33,360

all the wheat and i

2477

01:36:37,669 --> 01:36:34,639

and i said to him what do you want to do

2478

01:36:39,270 --> 01:36:37,679

with this week and he said well

2479

01:36:40,950 --> 01:36:39,280

we thought about he also owned the

2480

01:36:42,550 --> 01:36:40,960

biggest tortilla company

2481

01:36:44,310 --> 01:36:42,560

across america so i probably was going

2482

01:36:47,990 --> 01:36:44,320

to make some special tortillas with it

2483

01:36:48,629 --> 01:36:48,000

but um he said he primarily wanted to

2484

01:36:51,510 --> 01:36:48,639

keep it

2485

01:36:52,950 --> 01:36:51,520

safe because of new scientific

2486

01:36:54,629 --> 01:36:52,960

experiments which could

2487

01:36:57,430 --> 01:36:54,639

come in the future which we don't have

2488

01:36:59,270 --> 01:36:57,440

today which we could then get the wheat

2489

01:37:01,270 --> 01:36:59,280

and do some analysis on it to find

2490

01:37:03,109 --> 01:37:01,280

things which we're not able to find

2491

01:37:05,189 --> 01:37:03,119

today so he basically kept it for that

2492

01:37:09,030 --> 01:37:05,199

reason

2493

01:37:12,310 --> 01:37:10,870

thank you so much for your questions

2494

01:37:14,709 --> 01:37:12,320

lauren anything else that you can think

2495

01:37:17,750 --> 01:37:14,719

of while you're on

2496

01:37:21,430 --> 01:37:17,760

um nope that'll that'll do it for now so

2497

01:37:23,750 --> 01:37:21,440

thank you so much

2498

01:37:25,030 --> 01:37:23,760

sure thing thank you for the call and

2499

01:37:28,149 --> 01:37:25,040

your kind words

2500

01:37:31,430 --> 01:37:28,159

um there was a question here um

2501

01:37:35,270 --> 01:37:31,440

as far as is there any

2502

01:37:37,510 --> 01:37:35,280

collaboration between oh uh i i think

2503

01:37:39,669 --> 01:37:37,520

is there any you know connection between

2504

01:37:41,350 --> 01:37:39,679

crop circles and ufo sightings now we

2505

01:37:44,149 --> 01:37:41,360

talk about the orbs

2506

01:37:44,390 --> 01:37:44,159

but are there a lot of ufo sightings in

2507

01:37:51,189 --> 01:37:44,400

an

2508

01:37:52,310 --> 01:37:51,199

it seems to be more the case

2509

01:37:53,910 --> 01:37:52,320

historically

2510

01:37:56,390 --> 01:37:53,920

when i look back through the old records

2511

01:37:58,310 --> 01:37:56,400

and reports from 1940s and 50s

2512

01:38:00,390 --> 01:37:58,320

there seems to be a correlation between

2513

01:38:00,950 --> 01:38:00,400

ufo sightings and then a subsequent crop

2514

01:38:03,669 --> 01:38:00,960

circle

2515

01:38:05,990 --> 01:38:03,679

the westall incident in 1966 in

2516

01:38:07,669 --> 01:38:06,000

australia in the school

2517

01:38:10,229 --> 01:38:07,679

not a lot of people pay attention to it

2518

01:38:12,310 --> 01:38:10,239

but in addition to the fantastic ufo

2519

01:38:13,590 --> 01:38:12,320

sighting that over 400 students and

2520

01:38:14,950 --> 01:38:13,600

three teachers saw

2521

01:38:16,790 --> 01:38:14,960

there was a crop circle made at the

2522

01:38:17,590 --> 01:38:16,800

bottom of the field because the ufo went

2523

01:38:19,350 --> 01:38:17,600

down

2524

01:38:21,430 --> 01:38:19,360

landed and two children went and watched

2525

01:38:22,470 --> 01:38:21,440

the army come and stamp around inside

2526

01:38:26,390 --> 01:38:22,480

the crop circle

2527

01:38:29,430 --> 01:38:26,400

and then burn it out so

2528

01:38:31,669 --> 01:38:29,440

yes there is there is a correlation but

2529

01:38:33,910 --> 01:38:31,679

in modern day wheelchair which are

2530

01:38:35,910 --> 01:38:33,920

probably the most watched fields

2531

01:38:38,070 --> 01:38:35,920

in the world during summer time because

2532

01:38:41,750 --> 01:38:38,080

people have gone out trying to catch

2533

01:38:43,510 --> 01:38:41,760

crop circles being made there is only a

2534

01:38:45,030 --> 01:38:43,520

sort of anecdotal evidence there seems

2535

01:38:47,109 --> 01:38:45,040

to be appearances of crop circles

2536

01:38:49,109 --> 01:38:47,119

without

2537

01:38:51,270 --> 01:38:49,119

the sightings of ufos at the same time

2538

01:38:54,070 --> 01:38:51,280

as well

2539

01:38:55,270 --> 01:38:54,080

well another another thing that that

2540

01:38:58,070 --> 01:38:55,280

comes to mind is

2541

01:38:59,109 --> 01:38:58,080

i think it was uh stephen was talking

2542

01:39:01,910 --> 01:38:59,119

earlier

2543

01:39:03,109 --> 01:39:01,920

about uh you know why aren't these made

2544

01:39:06,550 --> 01:39:03,119

in

2545

01:39:09,990 --> 01:39:06,560

to make them or whatever

2546

01:39:13,270 --> 01:39:10,000

but are there places that are very very

2547

01:39:15,910 --> 01:39:13,280

remote that normally someone wouldn't

2548

01:39:16,790 --> 01:39:15,920

go there but someone flies over and sees

2549

01:39:18,709 --> 01:39:16,800

a crop circle

2550

01:39:21,510 --> 01:39:18,719

in a in a hidden area away from

2551

01:39:23,590 --> 01:39:21,520

everything does that ever happen

2552

01:39:24,950 --> 01:39:23,600

yeah i mean you know obviously some of

2553

01:39:27,189 --> 01:39:24,960

them they don't get discussed

2554

01:39:29,030 --> 01:39:27,199

uh bill don't get seen so so they

2555

01:39:32,229 --> 01:39:29,040

probably go unnoticed

2556

01:39:34,229 --> 01:39:32,239

um there was a sri yantra the indian

2557

01:39:35,510 --> 01:39:34,239

tree yantra that was carved into the

2558

01:39:38,390 --> 01:39:35,520

salt beds

2559

01:39:38,790 --> 01:39:38,400

in utah years ago and it was like a mile

2560

01:39:40,390 --> 01:39:38,800

long

2561

01:39:41,910 --> 01:39:40,400

now i never got to visit it but

2562

01:39:43,590 --> 01:39:41,920

apparently when you go there and you

2563

01:39:45,109 --> 01:39:43,600

tread on the salt flats the salt just

2564

01:39:46,709 --> 01:39:45,119

breaks through

2565

01:39:48,149 --> 01:39:46,719

that was interesting and he was in a

2566

01:39:49,910 --> 01:39:48,159

remote area and it could have been

2567

01:39:51,590 --> 01:39:49,920

something anomalous

2568

01:39:54,390 --> 01:39:51,600

um in the early days a lot of people

2569

01:39:56,470 --> 01:39:54,400

don't realize in the 70s a colleague of

2570

01:39:57,270 --> 01:39:56,480

mine john martino took a helicopter

2571

01:40:00,070 --> 01:39:57,280

flight

2572

01:40:01,910 --> 01:40:00,080

and there were literally hundreds and

2573

01:40:02,470 --> 01:40:01,920

hundreds of circles of all different

2574

01:40:04,629 --> 01:40:02,480

shapes

2575

01:40:05,830 --> 01:40:04,639

it was almost like somebody had flicked

2576

01:40:08,629 --> 01:40:05,840

a paintbrush

2577

01:40:09,270 --> 01:40:08,639

across the landscape and they were just

2578

01:40:12,870 --> 01:40:09,280

circles

2579

01:40:15,750 --> 01:40:12,880

all across fields wow um

2580

01:40:18,149 --> 01:40:15,760

yeah this there's a lot of wiltshire is

2581

01:40:19,669 --> 01:40:18,159

300 square miles there's probably at

2582

01:40:22,149 --> 01:40:19,679

least a quarter of a million different

2583

01:40:23,590 --> 01:40:22,159

individual fields probably more there's

2584

01:40:25,030 --> 01:40:23,600

not something you can monitor on a

2585

01:40:27,910 --> 01:40:25,040

regular basis

2586

01:40:29,030 --> 01:40:27,920

um and but most things farmers when you

2587

01:40:30,790 --> 01:40:29,040

speak to them

2588

01:40:32,470 --> 01:40:30,800

they'll say well if something happens on

2589

01:40:33,750 --> 01:40:32,480

my land i know about it people have

2590

01:40:35,510 --> 01:40:33,760

entered or if there's certainly others

2591

01:40:37,189 --> 01:40:35,520

the dogs are bark or

2592

01:40:38,790 --> 01:40:37,199

i mean there's there's been crop circles

2593

01:40:39,830 --> 01:40:38,800

inside that i mean i don't if you know

2594

01:40:41,189 --> 01:40:39,840

but military

2595

01:40:43,430 --> 01:40:41,199

uh the wheelchair is the biggest

2596

01:40:45,109 --> 01:40:43,440

military area in the uk there's a 26

2597

01:40:47,350 --> 01:40:45,119

square mile

2598

01:40:48,709 --> 01:40:47,360

exercise field a fake village where they

2599

01:40:50,390 --> 01:40:48,719

let off their tanks and

2600

01:40:52,229 --> 01:40:50,400

fly in their apaches and all that so

2601
01:40:54,790 --> 01:40:52,239
every summer there's a big show

2602
01:40:56,790 --> 01:40:54,800
and there have been crop circles inside

2603
01:41:00,629 --> 01:40:56,800
of the secure zone

2604
01:41:02,390 --> 01:41:00,639
ah really yeah which if you go in there

2605
01:41:05,750 --> 01:41:02,400
you're five minutes and it's like area

2606
01:41:09,189 --> 01:41:05,760
51 they'll be on you with guns

2607
01:41:11,510 --> 01:41:09,199
big signs you cannot enter

2608
01:41:12,229 --> 01:41:11,520
wow though that's a big question

2609
01:41:15,350 --> 01:41:12,239
something about

2610
01:41:20,149 --> 01:41:18,870
yeah jim any uh crop circles in area 51

2611
01:41:21,750 --> 01:41:20,159
in the desert

2612
01:41:23,750 --> 01:41:21,760
well first of all yeah they could make

2613
01:41:24,070 --> 01:41:23,760

one there you have to have something

2614

01:41:26,390 --> 01:41:24,080

that

2615

01:41:28,470 --> 01:41:26,400

grows out there and which is primarily

2616

01:41:29,830 --> 01:41:28,480

sagebrush

2617

01:41:31,510 --> 01:41:29,840

i've been out to the fence line at

2618

01:41:34,790 --> 01:41:31,520

tonopah test range in

2619

01:41:37,990 --> 01:41:34,800

area 51 80 times

2620

01:41:40,310 --> 01:41:38,000

over the last 45 years i've been doing

2621

01:41:42,950 --> 01:41:40,320

this forever

2622

01:41:44,470 --> 01:41:42,960

never encountered any anything that even

2623

01:41:47,830 --> 01:41:44,480

resembled a crop circle

2624

01:41:49,430 --> 01:41:47,840

in the desert yeah

2625

01:41:50,709 --> 01:41:49,440

i've been on the top of white sides

2626

01:41:52,550 --> 01:41:50,719

mountain where you can look down at

2627

01:41:54,310 --> 01:41:52,560

tipiku valley and you can see the whole

2628

01:41:57,350 --> 01:41:54,320

valley you can see

2629

01:42:01,750 --> 01:41:57,360

all of area 51 from up there

2630

01:42:04,229 --> 01:42:01,760

and there isn't enough vegetation

2631

01:42:06,229 --> 01:42:04,239

concentrated enough to grow to grow a

2632

01:42:09,270 --> 01:42:06,239

crop circle now they do have

2633

01:42:13,669 --> 01:42:09,280

uh irrigated circular

2634

01:42:16,790 --> 01:42:13,679

you know grains and alfalfa

2635

01:42:18,310 --> 01:42:16,800

stuff they grow out in the desert uh i

2636

01:42:19,750 --> 01:42:18,320

have never seen anything

2637

01:42:21,910 --> 01:42:19,760

and this is it you know this would be

2638

01:42:23,510 --> 01:42:21,920

near tonopah i've never

2639

01:42:25,030 --> 01:42:23,520

seen anything that would indicate that

2640

01:42:27,910 --> 01:42:25,040

there was a crop circle on

2641

01:42:29,189 --> 01:42:27,920

any of those and i've and i've looked i

2642

01:42:30,629 --> 01:42:29,199

mean i'm

2643

01:42:32,950 --> 01:42:30,639

you know i'm gonna when i go out in the

2644

01:42:33,669 --> 01:42:32,960

desert i'm looking up i'm looking down

2645

01:42:36,709 --> 01:42:33,679

i'm looking

2646

01:42:38,470 --> 01:42:36,719

everywhere you know for you

2647

01:42:41,350 --> 01:42:38,480

you can never tell what's gonna fly by

2648

01:42:45,189 --> 01:42:41,360

or fly over i had a

2649

01:42:48,470 --> 01:42:45,199

just today we saw him uh was that a

2650

01:42:50,950 --> 01:42:48,480

uh what kind of jet was that that

2651

01:42:52,950 --> 01:42:50,960

there were there were f-16s okay you

2652

01:42:55,430 --> 01:42:52,960

know flying but yeah

2653

01:42:57,830 --> 01:42:55,440

uh no i and i've looked and i've been on

2654

01:43:00,870 --> 01:42:57,840

some pretty high vantage points

2655

01:43:02,950 --> 01:43:00,880

i know when john andrews uh passed away

2656

01:43:03,910 --> 01:43:02,960

one of the things he asked john lear and

2657

01:43:08,390 --> 01:43:03,920

i to do would

2658

01:43:11,030 --> 01:43:08,400

would we dump his ashes over area 51

2659

01:43:11,910 --> 01:43:11,040

and which we did we took off from

2660

01:43:15,109 --> 01:43:11,920

mccarran

2661

01:43:18,550 --> 01:43:15,119

field there in las vegas we had a

2662

01:43:21,109 --> 01:43:18,560

bell jet ranger uh john and the pilot

2663

01:43:23,830 --> 01:43:21,119

were in the front i'm in the back

2664

01:43:25,510 --> 01:43:23,840

uh we're bouncing all over the sky

2665

01:43:28,070 --> 01:43:25,520

because there's about a 30 mile an hour

2666

01:43:28,550 --> 01:43:28,080

uh wind from the north i'm looking at

2667

01:43:31,510 --> 01:43:28,560

john

2668

01:43:33,510 --> 01:43:31,520

his eyes are at normal the the pilots

2669

01:43:35,590 --> 01:43:33,520

the pilot's eyes are in normal my eyes

2670

01:43:38,310 --> 01:43:35,600

are about as big as saucers

2671

01:43:39,189 --> 01:43:38,320

as we're bouncing around but we're you

2672

01:43:42,390 --> 01:43:39,199

know we got

2673

01:43:44,629 --> 01:43:42,400

as we came over the hancock summit

2674

01:43:46,149 --> 01:43:44,639

heading towards the north fenceline area

2675

01:43:50,149 --> 01:43:46,159

51

2676

01:43:53,669 --> 01:43:50,159

they sent up a beach 1900

2677

01:43:54,790 --> 01:43:53,679

as a military escort it came out of area

2678

01:43:55,990 --> 01:43:54,800

51

2679

01:43:57,990 --> 01:43:56,000

and we're we're sitting that we're

2680

01:44:00,709 --> 01:43:58,000

sitting out there about 3000 feet above

2681

01:44:03,910 --> 01:44:02,550

and you can see the whole area but i i

2682

01:44:06,550 --> 01:44:03,920

opened up the john

2683

01:44:07,669 --> 01:44:06,560

leer got on the radio and called he

2684

01:44:10,390 --> 01:44:07,679

knows the

2685

01:44:12,629 --> 01:44:10,400

frequency they monitor and it said

2686

01:44:14,310 --> 01:44:12,639

dreamland dreamland this is john lear

2687

01:44:16,950 --> 01:44:14,320

and jim goodall announcing that

2688

01:44:17,750 --> 01:44:16,960

john andrews is on final approach at 1-4

2689

01:44:20,950 --> 01:44:17,760

right

2690

01:44:22,149 --> 01:44:20,960

and with that i opened the door dumped

2691

01:44:24,870 --> 01:44:22,159

his asses out and

2692

01:44:25,830 --> 01:44:24,880

and they hit that 30 mile an hour north

2693

01:44:28,950 --> 01:44:25,840

wind and just

2694

01:44:29,350 --> 01:44:28,960

blew all his asses all over area 51 so

2695

01:44:35,750 --> 01:44:29,360

he

2696

01:44:39,109 --> 01:44:35,760

last wish uh fulfilled

2697

01:44:41,030 --> 01:44:39,119

interesting well uh jim uh yes a q

2698

01:44:42,629 --> 01:44:41,040

a question for you you know you

2699

01:44:46,870 --> 01:44:42,639

mentioned that

2700

01:44:49,669 --> 01:44:46,880

um ben rich said the things that he said

2701

01:44:50,629 --> 01:44:49,679

about the 50 years in advance this is

2702

01:44:54,070 --> 01:44:50,639

back in 19

2703

01:44:57,350 --> 01:44:54,080

in the 1990s and we have

2704

01:44:58,470 --> 01:44:57,360

advanced so much in technology since

2705

01:45:00,870 --> 01:44:58,480

that time

2706

01:45:01,590 --> 01:45:00,880

makes you really wonder what's going on

2707

01:45:04,870 --> 01:45:01,600

now

2708

01:45:06,870 --> 01:45:04,880

but also if they had that capability

2709

01:45:08,790 --> 01:45:06,880

um i the first thing i would think of

2710

01:45:09,350 --> 01:45:08,800

and it's an unfortunate thing to think

2711

01:45:12,229 --> 01:45:09,360

of

2712

01:45:13,270 --> 01:45:12,239

would be weaponry you know if they had

2713

01:45:15,590 --> 01:45:13,280

such advanced

2714

01:45:17,030 --> 01:45:15,600

capabilities to say go to the stars or

2715

01:45:18,149 --> 01:45:17,040

whatever

2716

01:45:19,510 --> 01:45:18,159

you would think that that would mean

2717

01:45:21,750 --> 01:45:19,520

that they would have real advanced

2718

01:45:24,149 --> 01:45:21,760

weapons and i'm just wondering why

2719

01:45:26,870 --> 01:45:24,159

or capabilities and travel at least you

2720

01:45:30,390 --> 01:45:26,880

know in our own on our own planet

2721

01:45:33,590 --> 01:45:30,400

um that were beyond our uh you know our

2722

01:45:35,590 --> 01:45:33,600

our enemies or other countries i'm just

2723

01:45:38,149 --> 01:45:35,600

wondering why we don't see more advanced

2724

01:45:41,430 --> 01:45:38,159

technology or as part of the ufos

2725

01:45:44,070 --> 01:45:41,440

that we see advanced technology

2726
01:45:45,430 --> 01:45:44,080
a good example of what we see or what we

2727
01:45:49,669 --> 01:45:45,440
don't see

2728
01:45:51,830 --> 01:45:49,679
i just finished the my 27th book it's on

2729
01:45:53,109 --> 01:45:51,840
first 75 years of the lockheed skunk

2730
01:45:56,310 --> 01:45:53,119
works

2731
01:45:57,430 --> 01:45:56,320
and there there are programs in there

2732
01:46:00,149 --> 01:45:57,440
that

2733
01:46:01,669 --> 01:46:00,159
i didn't hold on there are programs

2734
01:46:03,270 --> 01:46:01,679
there are programs

2735
01:46:05,830 --> 01:46:03,280
in there one of them is called senior

2736
01:46:08,629 --> 01:46:05,840
prom it was a

2737
01:46:10,790 --> 01:46:08,639
advanced tactical cruise missile and it

2738
01:46:11,669 --> 01:46:10,800

was in competition with the general

2739

01:46:15,350 --> 01:46:11,679

dynamics

2740

01:46:16,950 --> 01:46:15,360

acm 129 which was the nuclear-tipped

2741

01:46:19,510 --> 01:46:16,960

stealth cruise missile they actually

2742

01:46:26,149 --> 01:46:19,520

actually went into production

2743

01:46:29,430 --> 01:46:26,159

but crash um

2744

01:46:31,750 --> 01:46:29,440

the program is called senior prom

2745

01:46:33,270 --> 01:46:31,760

it has the last the last flight of a

2746

01:46:36,470 --> 01:46:33,280

senior prom

2747

01:46:40,229 --> 01:46:36,480

airplane or drone was almost

2748

01:46:40,709 --> 01:46:40,239

40 years ago and i have photographs of

2749

01:46:42,709 --> 01:46:40,719

it

2750

01:46:44,629 --> 01:46:42,719

and i couldn't i could not use them in

2751

01:46:50,390 --> 01:46:44,639

my skunk works book

2752

01:46:53,510 --> 01:46:52,950

there's good good video here on youtube

2753

01:46:58,310 --> 01:46:53,520

yes

2754

01:47:00,950 --> 01:46:58,320

yeah i couldn't you i couldn't use them

2755

01:47:01,350 --> 01:47:00,960

i was asked not to use them because i

2756

01:47:03,350 --> 01:47:01,360

said

2757

01:47:05,510 --> 01:47:03,360

if they were in the book they could not

2758

01:47:08,950 --> 01:47:05,520

be on lockheed property

2759

01:47:10,470 --> 01:47:08,960

because the images are still classified

2760

01:47:12,709 --> 01:47:10,480

right i said well i got them from ben

2761

01:47:15,830 --> 01:47:12,719

rich and he said they weren't classified

2762

01:47:18,070 --> 01:47:15,840

he said well times have

2763

01:47:22,550 --> 01:47:18,080

changed so here's a program the last

2764

01:47:25,350 --> 01:47:22,560

flight was like in 7273 time frame

2765

01:47:26,870 --> 01:47:25,360

that's pretty close to uh a long time

2766

01:47:29,830 --> 01:47:26,880

ago

2767

01:47:31,350 --> 01:47:29,840

and they're still classified and it's

2768

01:47:33,590 --> 01:47:31,360

it's nuts

2769

01:47:34,629 --> 01:47:33,600

my favorite airplane is is the a12

2770

01:47:36,310 --> 01:47:34,639

blackbird i

2771

01:47:39,030 --> 01:47:36,320

acquired one from the minnesota air

2772

01:47:44,550 --> 01:47:39,040

guard that airplane was operational

2773

01:47:46,550 --> 01:47:44,560

it flew from 1962 to june 21st 1968

2774

01:47:48,830 --> 01:47:46,560

and the program came to an end it was

2775

01:47:51,669 --> 01:47:48,840

taken over by the air force

2776

01:47:55,910 --> 01:47:51,679

sr-71 that program

2777

01:47:58,229 --> 01:47:55,920

was shut down and

2778

01:48:00,310 --> 01:47:58,239

you know they parked they you know they

2779

01:48:00,790 --> 01:48:00,320

pickled the airplanes and parked them

2780

01:48:03,669 --> 01:48:00,800

outside

2781

01:48:03,990 --> 01:48:03,679

after a couple years but it was retired

2782

01:48:08,149 --> 01:48:04,000

for

2783

01:48:11,109 --> 01:48:08,159

existence

2784

01:48:12,550 --> 01:48:11,119

of the a12 ox cart and the a12 is a

2785

01:48:15,669 --> 01:48:12,560

single place

2786

01:48:17,030 --> 01:48:15,679

cia operated blackbird

2787

01:48:19,270 --> 01:48:17,040

they fly a little bit higher a little

2788

01:48:21,990 --> 01:48:19,280

bit faster no weapons

2789

01:48:23,990 --> 01:48:22,000

no weapons it's it's it's smile you're

2790

01:48:26,390 --> 01:48:24,000

you're on candid camera type of

2791

01:48:27,270 --> 01:48:26,400

stuff it's a reconnaissance aircraft but

2792

01:48:29,430 --> 01:48:27,280

retired

2793

01:48:31,669 --> 01:48:29,440

for 20 years before they even announced

2794

01:48:33,510 --> 01:48:31,679

the existence of it

2795

01:48:36,550 --> 01:48:33,520

and the same with senior prom senior

2796

01:48:39,189 --> 01:48:36,560

prom it's been over 40 years

2797

01:48:39,910 --> 01:48:39,199

and there's nothing nothing released on

2798

01:48:43,669 --> 01:48:39,920

it except

2799

01:48:46,950 --> 01:48:43,679

uh what i've what i've had published

2800

01:48:49,990 --> 01:48:46,960

i did write the text i have about uh

2801

01:48:52,550 --> 01:48:50,000

2 800 words of uh text

2802

01:48:56,229 --> 01:48:52,560

describing the program they had 13

2803

01:48:57,990 --> 01:48:56,239

launches all of them were successful

2804

01:48:59,270 --> 01:48:58,000

but they went you know they lockheed

2805

01:49:01,750 --> 01:48:59,280

said

2806

01:49:02,550 --> 01:49:01,760

we can't if if you use that in a few and

2807

01:49:05,590 --> 01:49:02,560

a few other

2808

01:49:07,590 --> 01:49:05,600

uh photos i had of stuff that's still

2809

01:49:09,270 --> 01:49:07,600

classified

2810

01:49:11,669 --> 01:49:09,280

it said we couldn't have the book on our

2811

01:49:13,910 --> 01:49:11,679

property well i want lockheed to

2812

01:49:15,510 --> 01:49:13,920

promote the book i mean it is it is

2813

01:49:19,750 --> 01:49:15,520

there 75 years

2814

01:49:22,390 --> 01:49:19,760

and i cover i covered 43 programs

2815

01:49:24,790 --> 01:49:22,400

and it's it goes everything from the

2816

01:49:28,070 --> 01:49:24,800

xp-80 in 1943

2817

01:49:29,669 --> 01:49:28,080

and the most current project that is

2818

01:49:31,030 --> 01:49:29,679

absolutely fascinating especially in the

2819

01:49:33,189 --> 01:49:31,040

world where everybody wants to go

2820

01:49:36,870 --> 01:49:33,199

electric

2821

01:49:39,109 --> 01:49:36,880

is their compact fusion reactor but

2822

01:49:40,790 --> 01:49:39,119

that's for another day but the

2823

01:49:43,189 --> 01:49:40,800

technology

2824

01:49:43,830 --> 01:49:43,199

like you said like you said is moving it

2825

01:49:47,189 --> 01:49:43,840

that

2826

01:49:49,270 --> 01:49:47,199

at light speed and

2827

01:49:50,870 --> 01:49:49,280

there's a lot of indications underneath

2828

01:49:55,030 --> 01:49:50,880

in people in the know or

2829

01:49:57,830 --> 01:49:55,040

some of them are saying that the

2830

01:49:59,030 --> 01:49:57,840

the clock has started for full

2831

01:50:01,030 --> 01:49:59,040

disclosure

2832

01:50:02,390 --> 01:50:01,040

on when these you know when these guys

2833

01:50:05,189 --> 01:50:02,400

or whoever they are

2834

01:50:05,910 --> 01:50:05,199

decide to make make themselves public

2835

01:50:07,669 --> 01:50:05,920

and hopefully

2836

01:50:10,629 --> 01:50:07,679

hopefully it won't be like in the movie

2837

01:50:13,990 --> 01:50:10,639

mars attacks

2838

01:50:16,310 --> 01:50:14,000

hey hey uh jim jim what while i have you

2839

01:50:18,550 --> 01:50:16,320

on here take a look at the screen here

2840

01:50:18,790 --> 01:50:18,560

this was sent to me today from a friend

2841

01:50:21,750 --> 01:50:18,800

in

2842

01:50:22,229 --> 01:50:21,760

arizona and uh someone just also

2843

01:50:24,950 --> 01:50:22,239

mentioned

2844

01:50:25,910 --> 01:50:24,960

in the chat room what can make a an

2845

01:50:28,390 --> 01:50:25,920

angled

2846

01:50:29,109 --> 01:50:28,400

uh vapor trail you know from uh from a

2847

01:50:31,430 --> 01:50:29,119

jet

2848

01:50:33,430 --> 01:50:31,440

um this was sent to me like i said from

2849

01:50:36,390 --> 01:50:33,440

a friend in arizona that listens

2850

01:50:37,189 --> 01:50:36,400

to the show david um and do you think

2851

01:50:38,709 --> 01:50:37,199

that's just

2852

01:50:40,550 --> 01:50:38,719

the winds or something that made that

2853

01:50:42,950 --> 01:50:40,560

happen do you see what i'm talking about

2854

01:50:43,990 --> 01:50:42,960

it could it could be it could be wind

2855

01:50:47,510 --> 01:50:44,000

wind shear that

2856

01:50:50,870 --> 01:50:47,520

that would cause that uh the other thing

2857

01:50:52,950 --> 01:50:50,880

uh you don't know how far away it was

2858

01:50:54,550 --> 01:50:52,960

so it could have been a bank you know a

2859

01:50:56,790 --> 01:50:54,560

sharp bank turn

2860

01:50:58,870 --> 01:50:56,800

where you can't you can't see the you

2861

01:50:59,669 --> 01:50:58,880

know the the arc in the turn all you can

2862

01:51:01,350 --> 01:50:59,679

see is

2863

01:51:03,589 --> 01:51:01,360

this part there's a turn and then you

2864

01:51:06,310 --> 01:51:03,599

see this the you know the other part

2865

01:51:07,350 --> 01:51:06,320

the viewing angle yeah and you know

2866

01:51:10,709 --> 01:51:07,360

they're they're flying

2867

01:51:14,149 --> 01:51:10,719

f-16s f-35s and a-10s

2868

01:51:17,350 --> 01:51:14,159

uh over the skies of arizona

2869

01:51:19,109 --> 01:51:17,360

all the time so

2870

01:51:21,430 --> 01:51:19,119

that type of contrail would you know

2871

01:51:24,790 --> 01:51:21,440

that that wouldn't surprise me

2872

01:51:26,870 --> 01:51:24,800

um what was what would surprise me to

2873

01:51:29,910 --> 01:51:26,880

see something going

2874

01:51:30,629 --> 01:51:29,920

like a like a bat out of hades that you

2875

01:51:33,030 --> 01:51:30,639

you that

2876
01:51:35,430 --> 01:51:33,040
looks like something like that a person

2877
01:51:38,550 --> 01:51:35,440
could be in and all of a sudden

2878
01:51:40,149 --> 01:51:38,560
it makes a sharp 90 degree turn

2879
01:51:41,910 --> 01:51:40,159
yeah it turns around and heads back the

2880
01:51:43,750 --> 01:51:41,920
other direction now we have the

2881
01:51:47,589 --> 01:51:43,760
technology

2882
01:51:50,629 --> 01:51:47,599
uh to do that with like electronics

2883
01:51:51,669 --> 01:51:50,639
well we can pull we can pull 100 g's on

2884
01:51:59,430 --> 01:51:51,679
a

2885
01:52:01,430 --> 01:51:59,440
inside

2886
01:52:02,709 --> 01:52:01,440
so it could be unmanned it could be

2887
01:52:06,070 --> 01:52:02,719
something that that

2888
01:52:06,629 --> 01:52:06,080

can maneuver like that if it's if it's

2889

01:52:09,510 --> 01:52:06,639

ours

2890

01:52:10,229 --> 01:52:09,520

if it's theirs apparently there is

2891

01:52:16,950 --> 01:52:10,239

there's

2892

01:52:18,229 --> 01:52:16,960

or turning when you're making high-speed

2893

01:52:20,390 --> 01:52:18,239

turns

2894

01:52:21,350 --> 01:52:20,400

all right so just real quickly we were

2895

01:52:25,030 --> 01:52:21,360

out of time

2896

01:52:26,950 --> 01:52:25,040

uh i got so darcy just

2897

01:52:28,629 --> 01:52:26,960

quickly throw your film out there where

2898

01:52:30,709 --> 01:52:28,639

people can watch it and all that

2899

01:52:32,830 --> 01:52:30,719

sure uh if people want to see any of my

2900

01:52:35,510 --> 01:52:32,840

films they can go to

2901
01:52:38,870 --> 01:52:35,520
ocotejournies.com and i have the

2902
01:52:39,750 --> 01:52:38,880
film posters there uh you click on the

2903
01:52:41,990 --> 01:52:39,760
film poster

2904
01:52:43,189 --> 01:52:42,000
it'll take you through to a site to

2905
01:52:46,310 --> 01:52:43,199
stream the film

2906
01:52:47,030 --> 01:52:46,320
uh also i'll be speaking at the ufo mega

2907
01:52:50,870 --> 01:52:47,040
conference

2908
01:52:52,470 --> 01:52:50,880
in laughlin uh nevada coming up in june

2909
01:52:54,550 --> 01:52:52,480
so people want to see

2910
01:52:57,189 --> 01:52:54,560
my latest film i'll be premiering there

2911
01:52:59,510 --> 01:52:57,199
you uh secret space ufos

2912
01:53:00,310 --> 01:52:59,520
i'm currently making the sequel to that

2913
01:53:04,070 --> 01:53:00,320

with

2914

01:53:04,950 --> 01:53:04,080

jim here um please come and see me speak

2915

01:53:08,070 --> 01:53:04,960

about this stuff

2916

01:53:11,109 --> 01:53:08,080

and also the premiere for the film

2917

01:53:12,790 --> 01:53:11,119

excellent uh so steven bassett

2918

01:53:14,709 --> 01:53:12,800

just give out your website real quickly

2919

01:53:17,950 --> 01:53:14,719

we are out of time

2920

01:53:19,109 --> 01:53:17,960

paradigm research uh yeah

2921

01:53:20,950 --> 01:53:19,119

paradigmresearchgroup.org

2922

01:53:23,189 --> 01:53:20,960

follow uh paradigm research group on

2923

01:53:26,709 --> 01:53:23,199

twitter and facebook

2924

01:53:29,669 --> 01:53:26,719

and excellent thank you so much uh

2925

01:53:31,109 --> 01:53:29,679

you're on my first and on my 450th thank

2926

01:53:34,390 --> 01:53:31,119

you steven

2927

01:53:36,950 --> 01:53:34,400

okay all right and uh gary

2928

01:53:39,030 --> 01:53:36,960

real quick we are out of time okay uh

2929

01:53:39,589 --> 01:53:39,040

simple youtube and facebook against the

2930

01:53:41,430 --> 01:53:39,599

grain

2931

01:53:43,830 --> 01:53:41,440

those are my two facebook uh social

2932

01:53:45,589 --> 01:53:43,840

media that's where you can find me

2933

01:53:49,189 --> 01:53:45,599

all right okay thank you everyone it's

2934

01:53:53,510 --> 01:53:51,189

yeah excellent so next week we'll be

2935

01:54:13,260 --> 01:53:53,520

back with uh kathleen martin
