1
00:01:01,189 --> 00:00:23,700

[Music]

2
00:01:05,670 --> 00:01:03,349

hey everyone i'm martin willis your host

3
00:01:07,350 --> 00:01:05,680

and yes i'm on my boat we're going to

4
00:01:10,469 --> 00:01:07,360

call this the showboat

5
00:01:13,750 --> 00:01:10,479

tonight so hey i have a

6
00:01:15,429 --> 00:01:13,760

5g hot spot i have great internet on my

7
00:01:18,870 --> 00:01:15,439

boat i discovered the other day

8
00:01:19,910 --> 00:01:18,880

so here i am um and uh thunderstorms

9
00:01:23,109 --> 00:01:19,920

just went past

10
00:01:24,630 --> 00:01:23,119

us so uh a lobster boat went by a few

11
00:01:25,910 --> 00:01:24,640

minutes ago knocked over the camera so

12
00:01:27,670 --> 00:01:25,920

i'm going to keep my eyes out for that

13
00:01:30,230 --> 00:01:27,680

but those guys get up like at

14

00:01:32,069 --> 00:01:30,240

3am they're usually done long before now

15

00:01:34,550 --> 00:01:32,079

always depends on the tides and all that

16

00:01:36,230 --> 00:01:34,560

here we are off the coast of maine and

17

00:01:38,149 --> 00:01:36,240

the guests this evening i'm pretty

18

00:01:41,510 --> 00:01:38,159

excited about is chris lito

19

00:01:42,149 --> 00:01:41,520

lato and uh he is a former uh he's a

20

00:01:45,749 --> 00:01:42,159

retired

21

00:01:46,950 --> 00:01:45,759

lieutenant colonel uh f-16 pilot from

22

00:01:49,109 --> 00:01:46,960

the air force

23

00:01:50,469 --> 00:01:49,119

uh those are the uh single-seat uh

24

00:01:53,270 --> 00:01:50,479

planes i believe they are

25

00:01:54,469 --> 00:01:53,280

uh jets and he has used a lot of this

26

00:01:56,870 --> 00:01:54,479

equipment

27

00:01:58,469 --> 00:01:56,880

that the debunkers are talking about in

28

00:02:00,870 --> 00:01:58,479

the videos

29

00:02:03,109 --> 00:02:00,880

and he comes up with some real logical

30

00:02:05,910 --> 00:02:03,119

answers why their debunking

31

00:02:06,709 --> 00:02:05,920

uh is wrong so he debunks the debunkers

32

00:02:09,910 --> 00:02:06,719

i know

33

00:02:13,270 --> 00:02:09,920

he and chris i'm sorry mick west

34

00:02:16,390 --> 00:02:13,280

had a lot of back and forth going on

35

00:02:18,470 --> 00:02:16,400

um over some videos and actually it

36

00:02:20,150 --> 00:02:18,480

i think they both admitted that they

37

00:02:21,670 --> 00:02:20,160

were wrong about certain things so it

38

00:02:21,990 --> 00:02:21,680

should be a fascinating show tonight i'm

39

00:02:25,110 --> 00:02:22,000

really

40

00:02:26,390 --> 00:02:25,120

excited for it uh the blog this week is

41

00:02:57,990 --> 00:02:26,400

a

42

00:02:59,589 --> 00:02:58,000

my uh computer but don't worry we got it

43

00:03:01,910 --> 00:02:59,599

all figured out i have to if i have to

44

00:03:04,390 --> 00:03:01,920

jump over to my phone i'll do that

45

00:03:05,190 --> 00:03:04,400

and uh i hear a lobster boat going by i

46

00:03:07,350 --> 00:03:05,200

thought they were all done

47

00:03:08,790 --> 00:03:07,360

for the day so i got to get ready for

48

00:03:11,430 --> 00:03:08,800

the waves here in a little while but

49

00:03:13,509 --> 00:03:11,440

anyway the guest tonight again is chris

50

00:03:17,110 --> 00:03:13,519

plato he'll be coming right up

51
00:03:19,670 --> 00:03:17,120
um jeff bezos uh went to

52
00:03:20,550 --> 00:03:19,680
space uh today or yesterday i think it

53
00:03:23,110 --> 00:03:20,560
was

54
00:03:24,869 --> 00:03:23,120
successfully there and back so money can

55
00:03:27,670 --> 00:03:24,879
buy you about anything i guess

56
00:03:28,149 --> 00:03:27,680
but that's another fascinating step in

57
00:03:30,789 --> 00:03:28,159
uh

58
00:03:31,990 --> 00:03:30,799
in space um in space travel the future

59
00:03:33,589 --> 00:03:32,000
of it and

60
00:03:35,509 --> 00:03:33,599
uh what you can do i guess if you have a

61
00:03:37,750 --> 00:03:35,519
ton of money anyway that's

62
00:03:38,710 --> 00:03:37,760
it for uh my blabbing i'm gonna add

63
00:03:41,589 --> 00:03:38,720

chris right now

64

00:03:42,710 --> 00:03:41,599

hi chris welcome to the show hi great to

65

00:03:44,710 --> 00:03:42,720

be here

66

00:03:46,949 --> 00:03:44,720

yeah i've been watching your videos and

67

00:03:47,830 --> 00:03:46,959

uh i'm really i was really excited

68

00:03:50,309 --> 00:03:47,840

someone sent me a

69

00:03:51,350 --> 00:03:50,319

link uh right away when the first one

70

00:03:53,910 --> 00:03:51,360

you did went up and

71

00:03:55,429 --> 00:03:53,920

you got a lot of views right away and

72

00:03:58,710 --> 00:03:55,439

you made a lot of sense

73

00:03:59,030 --> 00:03:58,720

and so and you're looking pretty pretty

74

00:04:01,429 --> 00:03:59,040

uh

75

00:04:03,030 --> 00:04:01,439

deeply into this topic and um the last

76

00:04:04,550 --> 00:04:03,040

video you posted today

77

00:04:07,030 --> 00:04:04,560

you said you're going to do a deep dive

78

00:04:09,509 --> 00:04:07,040

into the nimitz case i'm pretty excited

79

00:04:10,949 --> 00:04:09,519

for your work on that but let's uh let's

80

00:04:11,190 --> 00:04:10,959

hear a little bit about your background

81

00:04:16,710 --> 00:04:11,200

and

82

00:04:19,990 --> 00:04:16,720

into looking at this

83

00:04:22,310 --> 00:04:20,000

into uaps um so actually i just fell

84

00:04:23,830 --> 00:04:22,320

into it to be honest

85

00:04:25,590 --> 00:04:23,840

really when i saw that video you know i

86

00:04:28,870 --> 00:04:25,600

made the first video was

87

00:04:31,189 --> 00:04:28,880

i think end of may and it was uh just

88

00:04:34,070 --> 00:04:31,199

looking at those three videos you know

89

00:04:35,909 --> 00:04:34,080

the flear go fast and gimbal

90

00:04:37,990 --> 00:04:35,919

and when they said it was legit you know

91

00:04:38,950 --> 00:04:38,000

declassified you know i watched it a few

92

00:04:43,189 --> 00:04:38,960

months

93

00:04:46,230 --> 00:04:43,199

previous to that and

94

00:04:47,270 --> 00:04:46,240

it like wouldn't my brain wouldn't let

95

00:04:49,670 --> 00:04:47,280

me

96

00:04:50,390 --> 00:04:49,680

process it it's kind of uh it took a few

97

00:04:51,749 --> 00:04:50,400

months and then

98

00:04:54,310 --> 00:04:51,759

and then i watched the end of may and

99

00:04:57,430 --> 00:04:54,320

that's really kind of when you see me

100

00:04:58,310 --> 00:04:57,440

even consider you know uaps in general

101
00:05:00,550 --> 00:04:58,320

or

102
00:05:02,749 --> 00:05:00,560

really anything supernatural you know

103
00:05:04,629 --> 00:05:02,759

i've always grown up

104
00:05:06,710 --> 00:05:04,639

anti-supernatural if you will you know i

105
00:05:08,550 --> 00:05:06,720

grew up in houston texas

106
00:05:10,070 --> 00:05:08,560

um you know i went to the air force

107
00:05:11,430 --> 00:05:10,080

academy so right out of

108
00:05:13,990 --> 00:05:11,440

right out of high school you know i

109
00:05:14,870 --> 00:05:14,000

applied um i honestly didn't think they

110
00:05:17,590 --> 00:05:14,880

would let me in

111
00:05:18,870 --> 00:05:17,600

to be honest uh but they did actually

112
00:05:20,629 --> 00:05:18,880

let me in the air force academy

113
00:05:22,469 --> 00:05:20,639

and everybody said it's this amazing

114

00:05:24,710 --> 00:05:22,479

opportunity and you know i was kind of a

115

00:05:26,629 --> 00:05:24,720

screw-up i felt like i was

116

00:05:28,469 --> 00:05:26,639

gonna be up to no good i guess after

117

00:05:30,550 --> 00:05:28,479

high school um

118

00:05:32,230 --> 00:05:30,560

and so i just wanted some discipline and

119

00:05:33,909 --> 00:05:32,240

it sounded like something

120

00:05:35,430 --> 00:05:33,919

non-standard you know growing up in

121

00:05:37,510 --> 00:05:35,440

houston i would

122

00:05:38,710 --> 00:05:37,520

i you know i just look around in the

123

00:05:40,710 --> 00:05:38,720

suburbs of houston

124

00:05:43,189 --> 00:05:40,720

and i would just see everyone's life you

125

00:05:45,590 --> 00:05:43,199

know and i just remember thinking

126

00:05:46,710 --> 00:05:45,600

i just don't want that you know i don't

127

00:05:50,230 --> 00:05:46,720

want you know

128

00:05:52,870 --> 00:05:50,240

i don't want the suburban house and

129

00:05:54,629 --> 00:05:52,880

you know the nine to five job and the

130

00:05:56,710 --> 00:05:54,639

sunday

131

00:05:58,390 --> 00:05:56,720

you know going to church and uh and all

132

00:06:01,590 --> 00:05:58,400

that stuff so for me it was a

133

00:06:01,990 --> 00:06:01,600

um i just wanted i wanted discipline i

134

00:06:03,590 --> 00:06:02,000

wanted

135

00:06:06,309 --> 00:06:03,600

something with meaning and something

136

00:06:07,830 --> 00:06:06,319

different i guess and um now did you

137

00:06:11,270 --> 00:06:07,840

have a private

138

00:06:14,629 --> 00:06:11,280

license ahead of that or

139

00:06:16,790 --> 00:06:14,639

do any flying ahead of that nothing um

140

00:06:18,950 --> 00:06:16,800

you know i so really i had a i had a

141

00:06:21,270 --> 00:06:18,960

buddy in my physics class in

142

00:06:22,390 --> 00:06:21,280

senior year of high school uh will

143

00:06:23,590 --> 00:06:22,400

mathis he's actually

144

00:06:24,870 --> 00:06:23,600

he's a commander i don't know if i

145

00:06:25,670 --> 00:06:24,880

should name him you know if his names

146

00:06:28,790 --> 00:06:25,680

are wrong

147

00:06:30,390 --> 00:06:28,800

uh but uh live tv uh so he was

148

00:06:31,590 --> 00:06:30,400

he's the commander i think now actually

149

00:06:32,870 --> 00:06:31,600

of a hornet squad and i haven't talked

150

00:06:34,950 --> 00:06:32,880

to him in years you know we basically

151

00:06:36,230 --> 00:06:34,960

lost touch after uh

152

00:06:38,309 --> 00:06:36,240

after high school but every day in

153

00:06:40,230 --> 00:06:38,319

physics class he would talk to me uh you

154

00:06:41,990 --> 00:06:40,240

know we were good buddies and

155

00:06:43,350 --> 00:06:42,000

he would talk about his dad went to

156

00:06:45,110 --> 00:06:43,360

annapolis and he

157

00:06:46,309 --> 00:06:45,120

um you know i think he was a he was a

158

00:06:48,710 --> 00:06:46,319

pilot i'm not sure if he's a fighter

159

00:06:50,469 --> 00:06:48,720

pilot actually but he explained the

160

00:06:53,110 --> 00:06:50,479

whole career the lifestyle

161

00:06:53,909 --> 00:06:53,120

you know you explain the pension uh you

162

00:06:56,150 --> 00:06:53,919

can fly these

163

00:06:57,510 --> 00:06:56,160

you know jets uh you can live this you

164

00:06:59,749 --> 00:06:57,520

know this lifestyle

165

00:07:00,790 --> 00:06:59,759

and by the way school is free it's

166

00:07:01,909 --> 00:07:00,800

amazing education

167

00:07:03,909 --> 00:07:01,919

everything you know so i was like sure

168

00:07:06,469 --> 00:07:03,919

i'll apply you know i threw my name in

169

00:07:07,830 --> 00:07:06,479

um you know i was in the top ten percent

170

00:07:09,430 --> 00:07:07,840

i was always you know my parents

171

00:07:11,670 --> 00:07:09,440

they said you had to get good grades and

172

00:07:13,830 --> 00:07:11,680

and you know i played sports so

173

00:07:15,990 --> 00:07:13,840

i wasn't like some slouch you know but

174

00:07:16,550 --> 00:07:16,000

um it was never like my dream to be a

175

00:07:20,230 --> 00:07:16,560

pilot

176

00:07:21,830 --> 00:07:20,240

or uh yeah which is

177

00:07:23,189 --> 00:07:21,840

i kind of feel bad you know because most

178

00:07:24,870 --> 00:07:23,199

people that come up to me are like hey

179

00:07:26,790 --> 00:07:24,880

what's it like you know is it amazing

180

00:07:29,749 --> 00:07:26,800

i'm like i mean yeah you know

181

00:07:31,589 --> 00:07:29,759

it's very stressful it's very hard

182

00:07:32,870 --> 00:07:31,599

there's many times it's very exciting

183

00:07:33,909 --> 00:07:32,880

you know i would say every day is

184

00:07:36,550 --> 00:07:33,919

literally

185

00:07:37,830 --> 00:07:36,560

you know 13 hours packed into 12. you

186

00:07:40,230 --> 00:07:37,840

know it's really

187

00:07:42,550 --> 00:07:40,240

you know you're eating lunch snickers

188

00:07:44,950 --> 00:07:42,560

most of the time

189

00:07:46,550 --> 00:07:44,960

so most of the people really want to

190

00:07:48,550 --> 00:07:46,560

have that job you know they

191

00:07:50,469 --> 00:07:48,560

they you know they clawed for it they

192

00:07:52,790 --> 00:07:50,479

tried their whole life

193

00:07:53,990 --> 00:07:52,800

uh but yeah i think that gave me an

194

00:07:56,629 --> 00:07:54,000

advantage actually

195

00:07:57,990 --> 00:07:56,639

um going into pilot training um because

196

00:07:59,189 --> 00:07:58,000

you get up to a certain level you know

197

00:08:01,909 --> 00:07:59,199

you see that with like

198

00:08:03,749 --> 00:08:01,919

intense you know high level sports uh

199

00:08:05,430 --> 00:08:03,759

and it really comes down it's all mental

200

00:08:07,430 --> 00:08:05,440

it's all metal you know you look at the

201
00:08:09,110 --> 00:08:07,440
the high level athletes which i i think

202
00:08:10,390 --> 00:08:09,120
you know being a fighter pilot or in is

203
00:08:11,270 --> 00:08:10,400
basically you're like you're in a high

204
00:08:13,270 --> 00:08:11,280
level

205
00:08:15,270 --> 00:08:13,280
sports team you know it's it's it's

206
00:08:16,950 --> 00:08:15,280
tribal it's uh

207
00:08:18,869 --> 00:08:16,960
you know you're in a brotherhood just

208
00:08:21,110 --> 00:08:18,879
like you're on any any sports team

209
00:08:21,909 --> 00:08:21,120
um you're just playing the stakes are a

210
00:08:24,230 --> 00:08:21,919
little bit higher

211
00:08:26,710 --> 00:08:24,240
you know or quite a bit higher uh but

212
00:08:28,550 --> 00:08:26,720
you get used to that after a while um

213
00:08:31,350 --> 00:08:28,560

but i think in pilot training because i

214

00:08:33,110 --> 00:08:31,360

didn't um

215

00:08:34,790 --> 00:08:33,120

maybe i didn't it wasn't my life stream

216

00:08:36,070 --> 00:08:34,800

i didn't care that much so i had an

217

00:08:37,750 --> 00:08:36,080

advantage where i was

218

00:08:39,990 --> 00:08:37,760

more relaxed i guess you know like i

219

00:08:41,589 --> 00:08:40,000

could uh i could be smoother under the

220

00:08:43,589 --> 00:08:41,599

pressure because

221

00:08:45,750 --> 00:08:43,599

you know if i failed it wasn't that as

222

00:08:47,430 --> 00:08:45,760

big a deal i guess you know um

223

00:08:49,030 --> 00:08:47,440

well they don't say they don't put they

224

00:08:51,350 --> 00:08:49,040

don't put just anyone in

225

00:08:53,509 --> 00:08:51,360

a multi-million dollar machine you know

226

00:08:54,630 --> 00:08:53,519

i mean you have a lot of responsibility

227

00:08:55,990 --> 00:08:54,640

they don't want to have they don't want

228

00:08:58,230 --> 00:08:56,000

to lose those so that you know i don't

229

00:09:01,190 --> 00:08:58,240

even know what those things cost in f16

230

00:09:01,670 --> 00:09:01,200

you know um but a ton of money and yeah

231

00:09:03,910 --> 00:09:01,680

i think

232

00:09:04,870 --> 00:09:03,920

it's 30 or 40 million they say and then

233

00:09:07,190 --> 00:09:04,880

it's you know however

234

00:09:08,070 --> 00:09:07,200

15 000 an hour i think to operator it's

235

00:09:09,829 --> 00:09:08,080

a lot so

236

00:09:11,910 --> 00:09:09,839

yeah i mean it's a lot you and that's

237

00:09:13,509 --> 00:09:11,920

the thing you know you look at all these

238

00:09:15,110 --> 00:09:13,519

these videos when the when people are

239

00:09:16,310 --> 00:09:15,120

asking well why didn't you think about

240

00:09:19,430 --> 00:09:16,320

the

241

00:09:20,710 --> 00:09:19,440

ryan graves and those guys and you see

242

00:09:22,150 --> 00:09:20,720

them ass like

243

00:09:24,070 --> 00:09:22,160

why weren't you considering this it's

244

00:09:25,509 --> 00:09:24,080

like you know we are doing a mission

245

00:09:27,190 --> 00:09:25,519

like a very serious mission it's not

246

00:09:28,710 --> 00:09:27,200

like uh

247

00:09:30,470 --> 00:09:28,720

you're just like okay what are we gonna

248

00:09:32,470 --> 00:09:30,480

do everybody when you show up you know

249

00:09:34,150 --> 00:09:32,480

okay let's go fly around and we're gonna

250

00:09:35,350 --> 00:09:34,160

take some pictures of stuff no it's like

251

00:09:37,350 --> 00:09:35,360

you know you've already been

252

00:09:39,110 --> 00:09:37,360

the week prior you know they've already

253

00:09:40,870 --> 00:09:39,120

decided what your mission is going to be

254

00:09:43,030 --> 00:09:40,880

and and that and by the way that was

255

00:09:44,870 --> 00:09:43,040

decided you know months prior based on

256

00:09:46,470 --> 00:09:44,880

the training program for the

257

00:09:48,070 --> 00:09:46,480

uh for the weapon system officer you

258

00:09:49,430 --> 00:09:48,080

know whoever is your your squadron

259

00:09:51,030 --> 00:09:49,440

weapons officer who's going to develop

260

00:09:53,030 --> 00:09:51,040

the training program you know

261

00:09:54,389 --> 00:09:53,040

everyone takes this stuff very very

262

00:09:56,150 --> 00:09:54,399

seriously you know you get into fighter

263

00:09:58,790 --> 00:09:56,160

squad and there's no uh

264

00:10:00,230 --> 00:09:58,800

uh yeah it's not like you're really

265

00:10:01,590 --> 00:10:00,240

there's a lot of joking around you know

266

00:10:03,829 --> 00:10:01,600

there's this culture of

267

00:10:05,269 --> 00:10:03,839

of messing around you know the 69 the

268

00:10:07,590 --> 00:10:05,279

420 all these

269

00:10:09,590 --> 00:10:07,600

all these little interior jokes but even

270

00:10:10,790 --> 00:10:09,600

those are taken very seriously you know

271

00:10:14,710 --> 00:10:10,800

it's a

272

00:10:20,230 --> 00:10:14,720

serious

273

00:10:21,350 --> 00:10:20,240

enjoyed many aspects of it very

274

00:10:24,790 --> 00:10:21,360

stressful as well

275

00:10:26,949 --> 00:10:24,800

and um yeah so that's basically yeah

276

00:10:27,910 --> 00:10:26,959

you know the typical uh commercial pilot

277

00:10:30,710 --> 00:10:27,920

you ask them

278

00:10:32,550 --> 00:10:30,720

what's it like and they say 12 000 hours

279

00:10:34,069 --> 00:10:32,560

of boredom for every 15 seconds of

280

00:10:36,069 --> 00:10:34,079

horror or something like that

281

00:10:37,509 --> 00:10:36,079

you know uh yeah that's their their

282

00:10:38,949 --> 00:10:37,519

answer to it um

283

00:10:40,949 --> 00:10:38,959

but but one of the things i do want to

284

00:10:42,949 --> 00:10:40,959

talk to you about um you

285

00:10:44,389 --> 00:10:42,959

if you're in an f-16 you're alone you

286

00:10:45,670 --> 00:10:44,399

don't have the whatever the weevo

287

00:10:47,910 --> 00:10:45,680

whatever they call the guy in the back

288

00:10:49,590 --> 00:10:47,920

or the person in the back woman or man

289

00:10:51,910 --> 00:10:49,600

you don't have the weapons operator in

290

00:10:55,509 --> 00:10:51,920

the back so you have to do

291

00:10:58,310 --> 00:10:55,519

everything yourself how

292

00:10:59,590 --> 00:10:58,320

how long i mean how intense is that to

293

00:11:02,150 --> 00:10:59,600

figure out how to

294

00:11:03,990 --> 00:11:02,160

do everything while you're in like to

295

00:11:05,030 --> 00:11:04,000

say if you're in a combat situation what

296

00:11:06,470 --> 00:11:05,040

type of training

297

00:11:08,790 --> 00:11:06,480

would you have to get for that and then

298

00:11:11,190 --> 00:11:08,800

i want to go into the equipment

299

00:11:12,069 --> 00:11:11,200

how it is similar to what these videos

300

00:11:15,350 --> 00:11:12,079

you have seen

301
00:11:15,670 --> 00:11:15,360
um you know what you had that you dealt

302
00:11:18,150 --> 00:11:15,680
with

303
00:11:19,430 --> 00:11:18,160
that uh you see that are that these

304
00:11:20,790 --> 00:11:19,440
videos are coming up

305
00:11:22,470 --> 00:11:20,800
they have the same equipment more or

306
00:11:24,630 --> 00:11:22,480
less right

307
00:11:25,509 --> 00:11:24,640
yeah so that's basically i flew my

308
00:11:26,870 --> 00:11:25,519
career

309
00:11:30,550 --> 00:11:26,880
starting kind of the same time you know

310
00:11:33,030 --> 00:11:30,560
i started flying f-16s in 2004

311
00:11:36,069 --> 00:11:33,040
so right when the nimitz you know videos

312
00:11:39,670 --> 00:11:36,079
effectively came out so the flir video

313
00:11:42,470 --> 00:11:39,680

is from 2004 and the equipment

314

00:11:44,230 --> 00:11:42,480

the internal equipment is is basically i

315

00:11:46,710 --> 00:11:44,240

would i would

316

00:11:48,949 --> 00:11:46,720

argue to guess exactly the same right um

317

00:11:51,750 --> 00:11:48,959

the internal pod equipment

318

00:11:52,550 --> 00:11:51,760

but they do modify it somewhat to deal

319

00:11:55,350 --> 00:11:52,560

with each

320

00:11:56,150 --> 00:11:55,360

aircraft you know the like on the floor

321

00:11:58,790 --> 00:11:56,160

video

322

00:11:59,670 --> 00:11:58,800

um and i do have uh some some pictures

323

00:12:02,470 --> 00:11:59,680

that i can show

324

00:12:03,990 --> 00:12:02,480

if you want to show as well um from the

325

00:12:06,069 --> 00:12:04,000

flare video but um

326

00:12:08,150 --> 00:12:06,079

yeah so there's it's it's essentially

327

00:12:11,269 --> 00:12:08,160

the exact same

328

00:12:12,949 --> 00:12:11,279

equipment is your it's called a flear

329

00:12:15,590 --> 00:12:12,959

pod they call a flare pod

330

00:12:16,550 --> 00:12:15,600

uh in the navy but we just called it a

331

00:12:18,629 --> 00:12:16,560

tardy pod

332

00:12:19,910 --> 00:12:18,639

so you know and then they go through

333

00:12:21,509 --> 00:12:19,920

advanced targeting pods you're always

334

00:12:24,629 --> 00:12:21,519

getting new upgrades

335

00:12:26,389 --> 00:12:24,639

uh in the navy and air force

336

00:12:28,629 --> 00:12:26,399

so they're always adding on new

337

00:12:30,629 --> 00:12:28,639

equipment but

338

00:12:32,389 --> 00:12:30,639

the actual equipment itself is exactly

339

00:12:33,829 --> 00:12:32,399

the same there's a there's a only a

340

00:12:35,110 --> 00:12:33,839

couple minor differences like on the

341

00:12:38,629 --> 00:12:35,120

flir video

342

00:12:40,550 --> 00:12:38,639

if you look in in the f-16 uh to get a

343

00:12:42,710 --> 00:12:40,560

reference of where the pod is actually

344

00:12:44,230 --> 00:12:42,720

pointing right because i i

345

00:12:45,750 --> 00:12:44,240

mentioned that in my video today the

346

00:12:47,030 --> 00:12:45,760

target pod really what it does is

347

00:12:50,150 --> 00:12:47,040

provide very accurate

348

00:12:53,110 --> 00:12:50,160

angle um and and passive

349

00:12:55,110 --> 00:12:53,120

so it passively tracks a target which is

350

00:12:56,230 --> 00:12:55,120

uh which is very dangerous right or very

351
00:12:58,629 --> 00:12:56,240
effective in a

352
00:12:59,910 --> 00:12:58,639
in a combat environment because they

353
00:13:00,870 --> 00:12:59,920
whatever you're tracking doesn't know

354
00:13:03,670 --> 00:13:00,880
that you're tracking it

355
00:13:05,030 --> 00:13:03,680
right so it's a passive tracking system

356
00:13:08,310 --> 00:13:05,040
but in the f-16

357
00:13:10,069 --> 00:13:08,320
we don't have the bearing

358
00:13:11,509 --> 00:13:10,079
in azimuth so we don't have the azimuth

359
00:13:14,069 --> 00:13:11,519
and bearing that you see

360
00:13:14,790 --> 00:13:14,079
on the floor scope so at the top it'll

361
00:13:17,990 --> 00:13:14,800
say a little

362
00:13:19,590 --> 00:13:18,000
one left or seven left that means it's

363
00:13:20,310 --> 00:13:19,600

the pot is pointing seven degrees to the

364

00:13:22,069 --> 00:13:20,320

left

365

00:13:23,509 --> 00:13:22,079

in the f-16 we actually don't have that

366

00:13:25,829 --> 00:13:23,519

number we have a little

367

00:13:27,190 --> 00:13:25,839

it's called an uh situational awareness

368

00:13:29,509 --> 00:13:27,200

dot and it's just a little

369

00:13:31,190 --> 00:13:29,519

square pixel that shows it's just a you

370

00:13:32,870 --> 00:13:31,200

know a visual representation of where

371

00:13:35,350 --> 00:13:32,880

the pod is looking

372

00:13:37,430 --> 00:13:35,360

i actually like the navy's setup better

373

00:13:39,829 --> 00:13:37,440

you know i think it's more accurate

374

00:13:41,990 --> 00:13:39,839

to do the the clear pointing um but that

375

00:13:44,069 --> 00:13:42,000

is the basic uh the targeting part

376

00:13:45,670 --> 00:13:44,079

and so when i saw those videos

377

00:13:47,430 --> 00:13:45,680

specifically

378

00:13:49,350 --> 00:13:47,440

i think it was the gimbal one but it was

379

00:13:52,310 --> 00:13:49,360

essentially mick west was on

380

00:13:52,710 --> 00:13:52,320

uh cnn i believe and he was saying that

381

00:13:56,790 --> 00:13:52,720

this

382

00:13:59,509 --> 00:13:56,800

airliner at

383

00:14:01,110 --> 00:13:59,519

range and it's just it's just so

384

00:14:03,350 --> 00:14:01,120

preposterous to me

385

00:14:05,189 --> 00:14:03,360

you know when i looked at the video that

386

00:14:07,189 --> 00:14:05,199

i had to speak up and that's really when

387

00:14:08,949 --> 00:14:07,199

i made that kind of inflammatory video

388

00:14:12,629 --> 00:14:08,959

against mick west

389

00:14:14,829 --> 00:14:12,639

and that is in many ways that's kind of

390

00:14:16,069 --> 00:14:14,839

propelled my you know whatever it

391

00:14:18,629 --> 00:14:16,079

basically

392

00:14:20,790 --> 00:14:18,639

that video went somewhat viral if you

393

00:14:22,150 --> 00:14:20,800

will i think chris mellon shared it

394

00:14:23,910 --> 00:14:22,160

uh because everybody's just kind of

395

00:14:25,269 --> 00:14:23,920

tired of mick west i think is my

396

00:14:30,310 --> 00:14:25,279

impression

397

00:14:32,550 --> 00:14:30,320

of the debunkers yeah yeah um uh

398

00:14:33,990 --> 00:14:32,560

you know you and i talked a bit off off

399

00:14:38,870 --> 00:14:34,000

air and i

400

00:14:41,750 --> 00:14:38,880

i mentioned to you that um i had

401
00:14:42,310 --> 00:14:41,760
you know basically i had mick west say

402
00:14:44,629 --> 00:14:42,320
that

403
00:14:45,910 --> 00:14:44,639
you know he agreed after he listened to

404
00:14:48,710 --> 00:14:45,920
kevin day

405
00:14:49,750 --> 00:14:48,720
that um it couldn't be you know a

406
00:14:51,829 --> 00:14:49,760
commercial

407
00:14:52,790 --> 00:14:51,839
plane and then two weeks later he was on

408
00:14:55,509 --> 00:14:52,800
another tv

409
00:14:59,030 --> 00:14:55,519
station saying that it was so even

410
00:15:02,870 --> 00:14:59,040
though he admitted he was wrong um

411
00:15:05,030 --> 00:15:02,880
he he kept he kept to it and what about

412
00:15:06,870 --> 00:15:05,040
your dealings with mick west because you

413
00:15:08,710 --> 00:15:06,880

two battled it out pretty good didn't

414

00:15:14,550 --> 00:15:08,720

you

415

00:15:16,310 --> 00:15:14,560

um

416

00:15:18,069 --> 00:15:16,320

actually so i did you know i didn't have

417

00:15:19,990 --> 00:15:18,079

a lot of communication set up so i was

418

00:15:21,750 --> 00:15:20,000

in new you so i retired in august

419

00:15:23,030 --> 00:15:21,760

right i basically spent like five months

420

00:15:25,189 --> 00:15:23,040

i was writing uh

421

00:15:26,550 --> 00:15:25,199

you know i wrote a book essentially that

422

00:15:28,949 --> 00:15:26,560

i'll hopefully publish

423

00:15:31,350 --> 00:15:28,959

you know maybe later later this year and

424

00:15:33,430 --> 00:15:31,360

then i just started youtubing end of

425

00:15:35,269 --> 00:15:33,440

november so it's really been about seven

426

00:15:37,430 --> 00:15:35,279

or eight months i hadn't had any

427

00:15:39,110 --> 00:15:37,440

infrastructure set up you know i'm just

428

00:15:41,430 --> 00:15:39,120

so happy i don't have a boss

429

00:15:43,030 --> 00:15:41,440

you know or any employees at this point

430

00:15:45,110 --> 00:15:43,040

you know i'm actually too

431

00:15:46,310 --> 00:15:45,120

able to do some meaningful work that i'm

432

00:15:47,910 --> 00:15:46,320

that i'm enjoying you know it's

433

00:15:50,230 --> 00:15:47,920

challenging

434

00:15:52,230 --> 00:15:50,240

and i don't have any employees uh or a

435

00:15:54,470 --> 00:15:52,240

boss so so that's excellent so we we

436

00:15:55,829 --> 00:15:54,480

actually never talked uh on twitter

437

00:15:57,509 --> 00:15:55,839

you know we never contacted me i didn't

438

00:15:58,790 --> 00:15:57,519

even have an email up you know even if

439

00:16:02,310 --> 00:15:58,800

he tried

440

00:16:03,269 --> 00:16:02,320

have you know just messaged me on

441

00:16:05,990 --> 00:16:03,279

twitter or something

442

00:16:08,790 --> 00:16:06,000

um yeah uh we have just by the way we

443

00:16:10,389 --> 00:16:08,800

have gary voorhees and uh in chat

444

00:16:12,629 --> 00:16:10,399

are you familiar with who he is on the

445

00:16:15,910 --> 00:16:12,639

he was on the princeton

446

00:16:17,430 --> 00:16:15,920

uh i've read his name actually um but

447

00:16:19,110 --> 00:16:17,440

you know honestly i just got into this

448

00:16:21,030 --> 00:16:19,120

six weeks ago so as far as

449

00:16:22,230 --> 00:16:21,040

many of the names you know just yeah i

450

00:16:25,189 --> 00:16:22,240

just uh got

451

00:16:27,189 --> 00:16:25,199

uh some essay on kevin day you know

452

00:16:30,710 --> 00:16:27,199

reasonable so i'm barely getting spun up

453

00:16:33,829 --> 00:16:30,720

uh on all this stuff no i don't know

454

00:16:36,230 --> 00:16:33,839

right well um i have uh

455

00:16:38,069 --> 00:16:36,240

i just have a situation here

456

00:16:39,829 --> 00:16:38,079

unfortunately someone called me a ludite

457

00:16:40,710 --> 00:16:39,839

and i understand that that's a guy with

458

00:16:43,829 --> 00:16:40,720

it has a lot of tech

459

00:16:47,269 --> 00:16:43,839

problems and uh

460

00:16:50,949 --> 00:16:47,279

today i'm on a boat and today i

461

00:16:53,990 --> 00:16:50,959

i tried a uh an inverter to uh

462

00:16:56,310 --> 00:16:54,000

charge my laptop anyway

463

00:16:57,269 --> 00:16:56,320

i'm down to 20 it's eating the battery

464

00:16:59,509 --> 00:16:57,279

quickly

465

00:17:00,710 --> 00:16:59,519

so uh bill i'm going to need you to come

466

00:17:03,189 --> 00:17:00,720

up because i can't

467

00:17:04,470 --> 00:17:03,199

run this thing i hate to say this live

468

00:17:07,270 --> 00:17:04,480

bill but i can't

469

00:17:08,230 --> 00:17:07,280

uh run this thing and get in on my phone

470

00:17:10,150 --> 00:17:08,240

at the same time

471

00:17:11,990 --> 00:17:10,160

i'm gonna have to have you come right in

472

00:17:14,309 --> 00:17:12,000

bill if you would

473

00:17:15,029 --> 00:17:14,319

i am here and it's great to see gary and

474

00:17:16,630 --> 00:17:15,039

chad and

475

00:17:18,069 --> 00:17:16,640

dave and all the folks that are hanging

476

00:17:19,909 --> 00:17:18,079

out in the chat room

477

00:17:22,150 --> 00:17:19,919

um all right i'm saying you gotta take

478

00:17:24,309 --> 00:17:22,160

over take over for now when you see me

479

00:17:26,710 --> 00:17:24,319

and bill bring me in okay

480

00:17:29,029 --> 00:17:26,720

so what was your take uh chris when this

481

00:17:29,510 --> 00:17:29,039

uap report did you do any research on it

482

00:17:30,870 --> 00:17:29,520

um

483

00:17:33,270 --> 00:17:30,880

on the background of it and the

484

00:17:35,110 --> 00:17:33,280

involvement of supposedly these cases

485

00:17:36,710 --> 00:17:35,120

that were involved

486

00:17:39,110 --> 00:17:36,720

what was your take on the whole uap

487

00:17:42,470 --> 00:17:39,120

report

488

00:17:45,190 --> 00:17:42,480

so yeah so i came into the whole uap in

489

00:17:48,150 --> 00:17:45,200

general nma like i said

490

00:17:49,590 --> 00:17:48,160

and then i got into the uap report i was

491

00:17:52,549 --> 00:17:49,600

i was very excited actually

492

00:17:53,909 --> 00:17:52,559

and i didn't know what to expect um it

493

00:17:55,350 --> 00:17:53,919

looks like you have

494

00:17:56,950 --> 00:17:55,360

a lot of people are really disappointed

495

00:18:00,549 --> 00:17:56,960

with the report that came out

496

00:18:02,870 --> 00:18:00,559

um i guess i had no expectations

497

00:18:04,470 --> 00:18:02,880

in in any sense uh but now i've been

498

00:18:06,390 --> 00:18:04,480

going back and you know looking through

499

00:18:07,190 --> 00:18:06,400

the old report so on my channel today i

500

00:18:09,350 --> 00:18:07,200

posted

501
00:18:11,029 --> 00:18:09,360
you know i found this uh a video i think

502
00:18:15,110 --> 00:18:11,039
a subscriber pointed out

503
00:18:17,990 --> 00:18:15,120
and um it was basically from 1952

504
00:18:18,950 --> 00:18:18,000
uh when they just had whatever you know

505
00:18:22,789 --> 00:18:18,960
ufo

506
00:18:24,789 --> 00:18:22,799
reportings over dc and it was the air

507
00:18:27,990 --> 00:18:24,799
force general major general sanford

508
00:18:30,870 --> 00:18:28,000
and he he gives a he gives his

509
00:18:31,430 --> 00:18:30,880
uh i guess you know words at a press

510
00:18:34,549 --> 00:18:31,440
conference

511
00:18:35,590 --> 00:18:34,559
about flying saucers and it sounds very

512
00:18:38,310 --> 00:18:35,600
similar to what

513
00:18:40,070 --> 00:18:38,320

what we're hearing today uh but i guess

514

00:18:42,230 --> 00:18:40,080

what's the benefit of what i

515

00:18:44,789 --> 00:18:42,240

was happy to see in the in the new

516

00:18:46,230 --> 00:18:44,799

report is they gave specific numbers

517

00:18:48,150 --> 00:18:46,240

right you know once once you give a

518

00:18:49,430 --> 00:18:48,160

number it's pretty hard to go back

519

00:18:50,950 --> 00:18:49,440

you know that's why you you know you

520

00:18:53,510 --> 00:18:50,960

don't give numbers and business dealings

521

00:18:55,270 --> 00:18:53,520

etc because once you say that number

522

00:18:57,430 --> 00:18:55,280

now they have something to hang on and

523

00:18:59,190 --> 00:18:57,440

so i was happy to see you know they that

524

00:19:02,150 --> 00:18:59,200

had to get approved

525

00:19:03,990 --> 00:19:02,160

you know everyone basically had to say

526

00:19:04,630 --> 00:19:04,000

you know yes you can send out that

527

00:19:06,710 --> 00:19:04,640

information

528

00:19:08,830 --> 00:19:06,720

and so from the uap report what i was

529

00:19:10,310 --> 00:19:08,840

really happy about was first you have

530

00:19:12,150 --> 00:19:10,320

the you have

531

00:19:14,310 --> 00:19:12,160

80 incidents where you have

532

00:19:15,350 --> 00:19:14,320

corroborating data so multiple sensors

533

00:19:17,830 --> 00:19:15,360

and i think this is

534

00:19:19,029 --> 00:19:17,840

just so key uh one of the points i want

535

00:19:21,909 --> 00:19:19,039

to bring up for this

536

00:19:22,789 --> 00:19:21,919

uh for this podcast is just multiple

537

00:19:24,870 --> 00:19:22,799

sensors

538

00:19:26,230 --> 00:19:24,880

you know because what can you trust

539

00:19:27,750 --> 00:19:26,240

really when it comes down to what what

540

00:19:29,909 --> 00:19:27,760

can you believe what can you trust and

541

00:19:31,830 --> 00:19:29,919

if it's just a video

542

00:19:33,830 --> 00:19:31,840

you know it's it just really limits

543

00:19:35,590 --> 00:19:33,840

limits your options you know but now if

544

00:19:37,590 --> 00:19:35,600

we have multiple sources if we have

545

00:19:39,190 --> 00:19:37,600

multiple sources of something

546

00:19:40,710 --> 00:19:39,200

it really knocks out all of the

547

00:19:43,190 --> 00:19:40,720

debunking claims you know

548

00:19:44,390 --> 00:19:43,200

it's you know if it's if it's hovering

549

00:19:46,630 --> 00:19:44,400

in 30 knots of wind

550

00:19:47,510 --> 00:19:46,640

it is not a balloon you know i know that

551
00:19:48,630 --> 00:19:47,520
you know

552
00:19:50,230 --> 00:19:48,640
there's certain things you can just

553
00:19:51,270 --> 00:19:50,240
knock out like i know it's not an

554
00:19:53,350 --> 00:19:51,280
airliner at

555
00:19:55,190 --> 00:19:53,360
you know 40 miles if i have a

556
00:19:57,909 --> 00:19:55,200
corroborating radar cut

557
00:19:59,669 --> 00:19:57,919
that shows it at five miles so it just

558
00:20:01,350 --> 00:19:59,679
immediately as soon as you have

559
00:20:03,110 --> 00:20:01,360
you know corroborating data from

560
00:20:06,470 --> 00:20:03,120
multiple sensors

561
00:20:10,070 --> 00:20:06,480
um then that just ups your your

562
00:20:11,190 --> 00:20:10,080
i guess the the water tightness of the

563
00:20:14,470 --> 00:20:11,200

case

564

00:20:15,350 --> 00:20:14,480

the public uh would love to get more of

565

00:20:17,110 --> 00:20:15,360

this information

566

00:20:18,789 --> 00:20:17,120

obviously a lot of this is classified

567

00:20:20,950 --> 00:20:18,799

for the obvious reasons

568

00:20:23,029 --> 00:20:20,960

and i think that's what the public is is

569

00:20:23,590 --> 00:20:23,039

cringing for they want that information

570

00:20:25,430 --> 00:20:23,600

so

571

00:20:27,270 --> 00:20:25,440

they get to see that there's multiple

572

00:20:29,350 --> 00:20:27,280

sources uh corrupt

573

00:20:31,029 --> 00:20:29,360

you know corroborating the what's going

574

00:20:32,870 --> 00:20:31,039

on and maybe

575

00:20:34,149 --> 00:20:32,880

just maybe that with everything that's

576

00:20:35,830 --> 00:20:34,159

going on this whole movement

577

00:20:37,270 --> 00:20:35,840

going forward because in the in the

578

00:20:39,430 --> 00:20:37,280

report it said that the

579

00:20:41,830 --> 00:20:39,440

the air force had little historic uh

580

00:20:44,070 --> 00:20:41,840

data on this which i find bizarre

581

00:20:45,669 --> 00:20:44,080

um going back decades uh project blue

582

00:20:48,230 --> 00:20:45,679

book and some of the other

583

00:20:50,230 --> 00:20:48,240

investigations but would you think that

584

00:20:52,710 --> 00:20:50,240

this will encourage

585

00:20:54,390 --> 00:20:52,720

pilots that are now active duty to come

586

00:20:57,110 --> 00:20:54,400

forward and speak about the things that

587

00:20:58,789 --> 00:20:57,120

they may be witnessing

588

00:21:00,630 --> 00:20:58,799

yeah without a doubt yeah without a

589

00:21:02,630 --> 00:21:00,640

doubt do you think so you know because i

590

00:21:04,230 --> 00:21:02,640

i mean i have you know i had very

591

00:21:05,750 --> 00:21:04,240

basically nothing to lose you know

592

00:21:08,549 --> 00:21:05,760

that's why i can

593

00:21:10,070 --> 00:21:08,559

i basically set it up where i don't i've

594

00:21:10,950 --> 00:21:10,080

gotten to a position in my life where i

595

00:21:14,390 --> 00:21:10,960

don't

596

00:21:16,149 --> 00:21:14,400

thinks you know and i've been able to

597

00:21:17,830 --> 00:21:16,159

make that happen

598

00:21:19,590 --> 00:21:17,840

you know and i praise it every day i'm

599

00:21:22,950 --> 00:21:19,600

like so happy uh

600

00:21:23,270 --> 00:21:22,960

you know i try and you know really just

601
00:21:25,350 --> 00:21:23,280
uh

602
00:21:27,510 --> 00:21:25,360
enjoy it enjoy the time i guess because

603
00:21:29,750 --> 00:21:27,520
i'm just waiting for it to end

604
00:21:30,549 --> 00:21:29,760
um but basically that's only only

605
00:21:32,870 --> 00:21:30,559
because i

606
00:21:34,310 --> 00:21:32,880
i have effectively nothing to lose

607
00:21:36,070 --> 00:21:34,320
essentially um

608
00:21:37,350 --> 00:21:36,080
that i'm able to speak you know and i

609
00:21:38,710 --> 00:21:37,360
don't uh

610
00:21:40,789 --> 00:21:38,720
i don't really fit in with the fighter

611
00:21:42,870 --> 00:21:40,799
world you know it's i'm not

612
00:21:44,149 --> 00:21:42,880
like an outcast or something but you

613
00:21:46,310 --> 00:21:44,159

know i wouldn't i wouldn't

614

00:21:47,669 --> 00:21:46,320

say i'm your standard fighter pilot you

615

00:21:49,350 --> 00:21:47,679

know if you will

616

00:21:50,789 --> 00:21:49,360

uh i think your standard fighter pilot

617

00:21:52,789 --> 00:21:50,799

is like lieutenant commander or

618

00:21:55,590 --> 00:21:52,799

commander fraber you know when i

619

00:21:57,510 --> 00:21:55,600

that's that's what he brought me over to

620

00:21:58,870 --> 00:21:57,520

to the to the the believing side or

621

00:21:59,430 --> 00:21:58,880

possible to believe you know i can't

622

00:22:01,990 --> 00:21:59,440

even

623

00:22:04,470 --> 00:22:02,000

actually say i believe um but it's a

624

00:22:06,789 --> 00:22:04,480

possibility now and i think before now

625

00:22:07,909 --> 00:22:06,799

before i saw fravor's interview with lex

626
00:22:09,750 --> 00:22:07,919
friedman

627
00:22:11,669 --> 00:22:09,760
it just wasn't a possibility you know

628
00:22:14,470 --> 00:22:11,679
and i've and i've seen that now

629
00:22:15,110 --> 00:22:14,480
with i've seen the bias get removed you

630
00:22:18,789 --> 00:22:15,120
know it's

631
00:22:21,750 --> 00:22:18,799
if you really just cannot imagine that

632
00:22:24,310 --> 00:22:21,760
that it is even possible that there

633
00:22:26,310 --> 00:22:24,320
could be alien life you know on earth

634
00:22:27,510 --> 00:22:26,320
um then it doesn't matter kind of what i

635
00:22:29,430 --> 00:22:27,520
can show you um

636
00:22:30,950 --> 00:22:29,440
you know until you experience it or

637
00:22:34,950 --> 00:22:30,960
something i think

638
00:22:37,110 --> 00:22:34,960

it's very difficult um i guess to

639

00:22:39,270 --> 00:22:37,120

to believe or to even think that it's a

640

00:22:41,750 --> 00:22:39,280

possibility you know so i would say

641

00:22:43,430 --> 00:22:41,760

uh but fravor did it you know and and

642

00:22:45,190 --> 00:22:43,440

although i don't have much to lose

643

00:22:46,710 --> 00:22:45,200

i have something to lose you know like

644

00:22:48,549 --> 00:22:46,720

i'm not gonna waste my time i don't you

645

00:22:51,830 --> 00:22:48,559

know i don't waste my effort

646

00:22:52,230 --> 00:22:51,840

um so fravor you know he convinced me

647

00:22:53,830 --> 00:22:52,240

because

648

00:22:57,350 --> 00:22:53,840

when i when i listen to that three-hour

649

00:22:59,830 --> 00:22:57,360

podcast you know the the things he says

650

00:23:01,430 --> 00:22:59,840

um you know i've lived it um i guess

651
00:23:03,590 --> 00:23:01,440
what a lot of people don't realize

652
00:23:05,270 --> 00:23:03,600
and i guess it's part and i tried to

653
00:23:07,190 --> 00:23:05,280
write it in my book

654
00:23:10,149 --> 00:23:07,200
is that you actually kind of mailed with

655
00:23:12,310 --> 00:23:10,159
these machines it's it's like a um

656
00:23:13,510 --> 00:23:12,320
it's it's one system so when you're when

657
00:23:16,230 --> 00:23:13,520
you're in a fighter

658
00:23:17,270 --> 00:23:16,240
you know the pilot is really at least in

659
00:23:19,830 --> 00:23:17,280
the older jets

660
00:23:20,789 --> 00:23:19,840
is the brains you know we're the pilot

661
00:23:22,950 --> 00:23:20,799
is to

662
00:23:24,630 --> 00:23:22,960
fuse the the information is really doing

663
00:23:25,909 --> 00:23:24,640

sensor fusion you know we talk about the

664

00:23:27,990 --> 00:23:25,919

fit generator fighter

665

00:23:29,190 --> 00:23:28,000

fifth generation fighters the f-22s

666

00:23:31,029 --> 00:23:29,200

f-35s

667

00:23:32,710 --> 00:23:31,039

this new capability they have is called

668

00:23:34,830 --> 00:23:32,720

sensor fusion is one of the

669

00:23:36,230 --> 00:23:34,840

one of the tenants of fifth generation

670

00:23:38,789 --> 00:23:36,240

fighting and

671

00:23:40,070 --> 00:23:38,799

and and really that is you're taking all

672

00:23:43,350 --> 00:23:40,080

of the information

673

00:23:43,830 --> 00:23:43,360

you know that these systems can fuse

674

00:23:45,669 --> 00:23:43,840

or

675

00:23:47,750 --> 00:23:45,679

can gather and then it's picking the

676
00:23:50,950 --> 00:23:47,760
most important information

677
00:23:51,830 --> 00:23:50,960
and and using that um and that's the

678
00:23:53,110 --> 00:23:51,840
sensor fusion

679
00:23:54,789 --> 00:23:53,120
and and that's really what the pilots

680
00:23:55,830 --> 00:23:54,799
did before and i think martin he asked

681
00:23:57,029 --> 00:23:55,840
at the beginning you know what does your

682
00:23:59,350 --> 00:23:57,039
training involve

683
00:24:00,549 --> 00:23:59,360
as you use up your training to use all

684
00:24:03,269 --> 00:24:00,559
these systems

685
00:24:04,070 --> 00:24:03,279
uh and that's really what it involves is

686
00:24:06,870 --> 00:24:04,080
interpreting

687
00:24:08,950 --> 00:24:06,880
the information from these systems and

688
00:24:10,870 --> 00:24:08,960

then understanding which system is

689

00:24:12,470 --> 00:24:10,880

the most important the right time and

690

00:24:15,350 --> 00:24:12,480

that's really sensor fusion

691

00:24:16,390 --> 00:24:15,360

uh it is really picking the critical

692

00:24:18,310 --> 00:24:16,400

sensor

693

00:24:20,230 --> 00:24:18,320

and in corroborating from multiple

694

00:24:21,830 --> 00:24:20,240

sensors you know

695

00:24:23,590 --> 00:24:21,840

if you look you also have the implement

696

00:24:24,230 --> 00:24:23,600

implementation um because they're doing

697

00:24:27,590 --> 00:24:24,240

it now

698

00:24:28,149 --> 00:24:27,600

with the ai uh aspect of it um you're

699

00:24:31,190 --> 00:24:28,159

gonna have

700

00:24:33,190 --> 00:24:31,200

actual wingmen that are ai

701
00:24:34,630 --> 00:24:33,200
drones that are going to do a lot of the

702
00:24:36,789 --> 00:24:34,640
work for the pilot

703
00:24:37,990 --> 00:24:36,799
maybe doing some uh reconnaissance ahead

704
00:24:40,870 --> 00:24:38,000
of them or

705
00:24:42,390 --> 00:24:40,880
as a support group so it's it is what

706
00:24:51,350 --> 00:24:42,400
you're saying is true because it almost

707
00:24:54,630 --> 00:24:52,870
it seems like it's more and more going

708
00:24:55,909 --> 00:24:54,640
to that direction but the one thing i

709
00:24:58,470 --> 00:24:55,919
will say about the pilots

710
00:24:59,990 --> 00:24:58,480
um in active service i'm sure because

711
00:25:02,549 --> 00:25:00,000
they're still on active duty

712
00:25:04,230 --> 00:25:02,559
a lot of this would be held behind

713
00:25:05,269 --> 00:25:04,240

closed doors classified setting because

714

00:25:08,390 --> 00:25:05,279

they're still

715

00:25:10,230 --> 00:25:08,400

um in service i don't see do you see

716

00:25:12,870 --> 00:25:10,240

this happening in public hearings with

717

00:25:14,470 --> 00:25:12,880

pilots that are currently on active duty

718

00:25:17,269 --> 00:25:14,480

participating in a public hearing or do

719

00:25:20,950 --> 00:25:17,279

you think it would be all classified

720

00:25:22,630 --> 00:25:20,960

i i mean i i don't know i i have uh

721

00:25:23,990 --> 00:25:22,640

i'm not sure i mean there shouldn't be

722

00:25:26,310 --> 00:25:24,000

anything that stops

723

00:25:28,070 --> 00:25:26,320

people from talking you know you can ask

724

00:25:29,909 --> 00:25:28,080

me a question and i'll just say look i

725

00:25:31,750 --> 00:25:29,919

you know i can't answer that you know i

726
00:25:35,830 --> 00:25:31,760
mean

727
00:25:38,149 --> 00:25:35,840
so it's really what is the motivation

728
00:25:40,310 --> 00:25:38,159
for it you know who is going to

729
00:25:41,590 --> 00:25:40,320
orient this you know i don't know if the

730
00:25:43,990 --> 00:25:41,600
military could actually

731
00:25:45,750 --> 00:25:44,000
physically stop a pilot from speaking if

732
00:25:46,870 --> 00:25:45,760
he wants to right if he's going to speak

733
00:25:49,669 --> 00:25:46,880
about something

734
00:25:50,789 --> 00:25:49,679
say he saw some uap right and he wants

735
00:25:52,230 --> 00:25:50,799
to go speak on

736
00:25:54,149 --> 00:25:52,240
let's say he wants to come on my channel

737
00:25:57,110 --> 00:25:54,159
you know i don't

738
00:25:58,789 --> 00:25:57,120

think the military can actually say can

739

00:26:00,549 --> 00:25:58,799

actually stop you i i mean i don't know

740

00:26:03,990 --> 00:26:00,559

i'm no lawyer or whatever

741

00:26:05,510 --> 00:26:04,000

um but i i guess they would have to give

742

00:26:07,190 --> 00:26:05,520

you an order

743

00:26:08,870 --> 00:26:07,200

you know don't you know don't go saying

744

00:26:10,549 --> 00:26:08,880

anything um

745

00:26:12,149 --> 00:26:10,559

but i don't know it's it's untrapped you

746

00:26:14,070 --> 00:26:12,159

know i think that was the kind of the

747

00:26:15,830 --> 00:26:14,080

the point is they didn't have a way to

748

00:26:17,110 --> 00:26:15,840

report any of this stuff

749

00:26:19,430 --> 00:26:17,120

right you know you're not even if you

750

00:26:20,549 --> 00:26:19,440

bring it up you know say you bring it up

751
00:26:23,190 --> 00:26:20,559
to your

752
00:26:24,950 --> 00:26:23,200
uh to someone in your squadron how would

753
00:26:26,630 --> 00:26:24,960
you report it

754
00:26:28,950 --> 00:26:26,640
the only way i can think is is through

755
00:26:30,390 --> 00:26:28,960
the safety channels

756
00:26:32,070 --> 00:26:30,400
uh but what if it's not a safety

757
00:26:34,310 --> 00:26:32,080
incident like you see this thing

758
00:26:35,990 --> 00:26:34,320
you know five miles away you have some

759
00:26:37,669 --> 00:26:36,000
gas to burn because you're waiting

760
00:26:39,190 --> 00:26:37,679
you know for the next engagement and so

761
00:26:41,990 --> 00:26:39,200
you like fly over there and try and

762
00:26:44,149 --> 00:26:42,000
check it out i could see that happening

763
00:26:45,269 --> 00:26:44,159

and then you see something i mean i

764

00:26:50,070 --> 00:26:45,279

don't know

765

00:26:51,669 --> 00:26:50,080

jurisdiction to say like you know you

766

00:26:54,549 --> 00:26:51,679

cannot talk

767

00:26:55,990 --> 00:26:54,559

i'm sure they do i'm sure they do well

768

00:26:57,430 --> 00:26:56,000

martin is back

769

00:26:58,870 --> 00:26:57,440

it's it was great having these three

770

00:26:59,669 --> 00:26:58,880

minutes with you chris and i just want

771

00:27:01,830 --> 00:26:59,679

to say

772

00:27:03,029 --> 00:27:01,840

on behalf of everyone at kgra and i'm

773

00:27:04,830 --> 00:27:03,039

sure a lot of the listeners

774

00:27:06,549 --> 00:27:04,840

thank you for your you're welcome

775

00:27:09,029 --> 00:27:06,559

service

776
00:27:09,830 --> 00:27:09,039
and god bless you and your family yeah

777
00:27:13,190 --> 00:27:09,840
thank you bill

778
00:27:15,909 --> 00:27:13,200
see you later you're welcome so

779
00:27:16,870 --> 00:27:15,919
uh yeah interesting uh i couldn't see a

780
00:27:19,269 --> 00:27:16,880
lot of that but

781
00:27:20,389 --> 00:27:19,279
i was backstage for a little bit of it

782
00:27:22,710 --> 00:27:20,399
and one of the

783
00:27:23,990 --> 00:27:22,720
things i i thought of while you two were

784
00:27:27,430 --> 00:27:24,000
talking is

785
00:27:29,590 --> 00:27:27,440
what about the um the ndas or the

786
00:27:31,029 --> 00:27:29,600
when things are classified you were it

787
00:27:32,549 --> 00:27:31,039
seems like you were talking about that

788
00:27:34,310 --> 00:27:32,559

i've always wondered about that because

789

00:27:35,830 --> 00:27:34,320

i think it's pretty interesting that

790

00:27:39,350 --> 00:27:35,840

david fravor

791

00:27:40,789 --> 00:27:39,360

can talk about what he saw yet other

792

00:27:43,430 --> 00:27:40,799

people that were involved in the same

793

00:27:45,750 --> 00:27:43,440

incident or supposedly can't talk about

794

00:27:49,029 --> 00:27:45,760

um some of the data stuff like that

795

00:27:51,190 --> 00:27:49,039

which i think is really bizarre

796

00:27:52,710 --> 00:27:51,200

yeah so i did i actually had a note for

797

00:27:55,909 --> 00:27:52,720

ndace you know there was a

798

00:27:57,190 --> 00:27:55,919

um lou elizondo uh he was on um theory

799

00:27:58,149 --> 00:27:57,200

of everything i don't know if you saw

800

00:28:02,070 --> 00:27:58,159

that

801
00:28:03,350 --> 00:28:02,080
there mick west you know we were talking

802
00:28:04,230 --> 00:28:03,360
about him he had a question you know why

803
00:28:05,990 --> 00:28:04,240
doesn't he

804
00:28:07,590 --> 00:28:06,000
just give up his nda you know if it's so

805
00:28:10,070 --> 00:28:07,600
critical

806
00:28:11,590 --> 00:28:10,080
uh and lou you know he's pretty offended

807
00:28:14,549 --> 00:28:11,600
i didn't know he actually gave up

808
00:28:16,149 --> 00:28:14,559
he gave up his pension he said yes uh

809
00:28:18,630 --> 00:28:16,159
that is a big deal i mean that is

810
00:28:19,190 --> 00:28:18,640
that is the carrot uh for the military

811
00:28:21,190 --> 00:28:19,200
you know i

812
00:28:23,029 --> 00:28:21,200
i probably wouldn't have stayed in 20

813
00:28:25,430 --> 00:28:23,039

years uh if it didn't have a pension

814

00:28:26,950 --> 00:28:25,440

um they kept giving me amazing

815

00:28:29,430 --> 00:28:26,960

assignments actually

816

00:28:30,389 --> 00:28:29,440

uh so i stayed in but he gave that up

817

00:28:32,549 --> 00:28:30,399

and

818

00:28:33,510 --> 00:28:32,559

what i want to mention is it's not like

819

00:28:36,710 --> 00:28:33,520

an nda

820

00:28:40,230 --> 00:28:36,720

in the uh in the civilian world

821

00:28:40,630 --> 00:28:40,240

you know you say ndas but you know i

822

00:28:43,190 --> 00:28:40,640

never

823

00:28:44,230 --> 00:28:43,200

remember signing an nda you know i

824

00:28:47,269 --> 00:28:44,240

signed

825

00:28:49,350 --> 00:28:47,279

i swore an oath you know like to defend

826

00:28:51,350 --> 00:28:49,360

uh the constitution i signed a lot of

827

00:28:51,750 --> 00:28:51,360

things saying i will never speak about

828

00:28:55,750 --> 00:28:51,760

this

829

00:28:58,630 --> 00:28:55,760

or um but

830

00:28:59,269 --> 00:28:58,640

mainly it's like it's it's stronger than

831

00:29:01,269 --> 00:28:59,279

an nda

832

00:29:03,190 --> 00:29:01,279

it is um you know we want anyone who's

833

00:29:05,190 --> 00:29:03,200

been in a combat if you go into a combat

834

00:29:07,430 --> 00:29:05,200

zone you get what's called siri

835

00:29:09,029 --> 00:29:07,440

level training you know um survival

836

00:29:12,310 --> 00:29:09,039

evasion resistance

837

00:29:13,350 --> 00:29:12,320

um uh and then whatever the is the last

838

00:29:16,389 --> 00:29:13,360

e is so sorry

839

00:29:19,269 --> 00:29:16,399

live stream uh so siri you actually get

840

00:29:20,710 --> 00:29:19,279

trained in pow training and so

841

00:29:22,310 --> 00:29:20,720

and that is classified we can't talk

842

00:29:24,710 --> 00:29:22,320

about that but i'll i'll tell you

843

00:29:26,230 --> 00:29:24,720

um you can guess what pow training

844

00:29:28,470 --> 00:29:26,240

involves you know and it probably

845

00:29:30,789 --> 00:29:28,480

involves practice powering

846

00:29:31,830 --> 00:29:30,799

uh and so this is part of the engage you

847

00:29:35,190 --> 00:29:31,840

know that's for a week

848

00:29:36,630 --> 00:29:35,200

training you know and so and you have

849

00:29:38,470 --> 00:29:36,640

friends that died

850

00:29:39,990 --> 00:29:38,480

you know and they didn't give up the

851
00:29:42,149 --> 00:29:40,000
information so it's like it's not

852
00:29:43,269 --> 00:29:42,159
about an nda it's it's it's stronger

853
00:29:46,710 --> 00:29:43,279
than an nda

854
00:29:50,070 --> 00:29:46,720
it is a it's like a blood pact

855
00:29:52,310 --> 00:29:50,080
um you know and we're just not gonna

856
00:29:54,710 --> 00:29:52,320
and especially any fighter pilots or any

857
00:29:56,389 --> 00:29:54,720
operators you know anyone who's had to

858
00:29:58,149 --> 00:29:56,399
you know at least put their life into

859
00:29:59,350 --> 00:29:58,159
someone else's hands in a combat

860
00:30:03,430 --> 00:29:59,360
environment or something

861
00:30:04,950 --> 00:30:03,440
um you're not just going to give that up

862
00:30:07,029 --> 00:30:04,960
is what i'm saying you know people can

863
00:30:09,190 --> 00:30:07,039

torture me and try and get information

864

00:30:11,750 --> 00:30:09,200

and i'm everyone breaks essentially

865

00:30:12,630 --> 00:30:11,760

supposedly everyone breaks but

866

00:30:17,430 --> 00:30:12,640

they're not going to get the right

867

00:30:20,870 --> 00:30:19,190

or i'm going to do my damndest not to

868

00:30:22,549 --> 00:30:20,880

let it happen you know it's so it's it's

869

00:30:24,070 --> 00:30:22,559

not like i'm just signing an nda you

870

00:30:26,389 --> 00:30:24,080

know i went to work at google

871

00:30:27,750 --> 00:30:26,399

you know and like i'm signing this nda

872

00:30:31,110 --> 00:30:27,760

no it is

873

00:30:32,950 --> 00:30:31,120

uh much more serious than that and he

874

00:30:34,149 --> 00:30:32,960

when i saw lou i was like yeah he's not

875

00:30:36,630 --> 00:30:34,159

he's not gonna break this

876

00:30:37,190 --> 00:30:36,640

you know like yeah he's just not gonna

877

00:30:38,870 --> 00:30:37,200

do it

878

00:30:40,630 --> 00:30:38,880

he already and he gave up his pension

879

00:30:43,190 --> 00:30:40,640

already like what more do you

880

00:30:44,310 --> 00:30:43,200

what more do you need and he yeah he

881

00:30:47,510 --> 00:30:44,320

really was upset

882

00:30:48,310 --> 00:30:47,520

um it was actually mick west that posed

883

00:30:51,190 --> 00:30:48,320

the question

884

00:30:51,750 --> 00:30:51,200

to him uh that was uh the person that

885

00:30:55,430 --> 00:30:51,760

the

886

00:30:57,669 --> 00:30:55,440

host read and uh when he read it uh

887

00:31:00,710 --> 00:30:57,679

lou got really upset he said are you

888

00:31:03,750 --> 00:31:00,720

going to come visit me every day in jail

889

00:31:03,990 --> 00:31:03,760

yes yeah are you gonna are you gonna pay

890

00:31:06,070 --> 00:31:04,000

my

891

00:31:07,269 --> 00:31:06,080

mortgage you know are you going to you

892

00:31:09,750 --> 00:31:07,279

know and all this stuff

893

00:31:10,710 --> 00:31:09,760

um so yeah he has you know he has a lot

894

00:31:12,630 --> 00:31:10,720

to lose

895

00:31:14,549 --> 00:31:12,640

um so let me just it's not that yeah

896

00:31:16,549 --> 00:31:14,559

it's more it's an honor integrity thing

897

00:31:19,190 --> 00:31:16,559

i guess i i i should put it that way

898

00:31:21,029 --> 00:31:19,200

yeah yeah yeah i i know that's kind of

899

00:31:24,070 --> 00:31:21,039

how it is the band of brothers

900

00:31:25,830 --> 00:31:24,080

um and and sisters um so

901
00:31:27,190 --> 00:31:25,840
have you while you were flying let me

902
00:31:30,389 --> 00:31:27,200
just ask you this

903
00:31:32,149 --> 00:31:30,399
um i i did speak to a uh and

904
00:31:34,549 --> 00:31:32,159
a pilot air force pilot one time that

905
00:31:36,149 --> 00:31:34,559
told me he had a ufo encounter for

906
00:31:38,549 --> 00:31:36,159
miles and miles and miles a green orb

907
00:31:40,870 --> 00:31:38,559
was following him but had you ever seen

908
00:31:42,630 --> 00:31:40,880
anything weird or had you ever heard of

909
00:31:45,269 --> 00:31:42,640
anyone personally

910
00:31:46,470 --> 00:31:45,279
um who talked about it and seeing

911
00:31:49,350 --> 00:31:46,480
anything

912
00:31:49,990 --> 00:31:49,360
yeah no you know negative to both

913
00:31:53,430 --> 00:31:50,000

questions

914

00:31:54,789 --> 00:31:53,440

you know i wish um

915

00:31:56,710 --> 00:31:54,799

again you're just you're just not

916

00:31:57,590 --> 00:31:56,720

looking for it you know if i took you on

917

00:32:00,630 --> 00:31:57,600

a fighter mission

918

00:32:03,590 --> 00:32:00,640

you know i think you'd be very

919

00:32:03,909 --> 00:32:03,600

your eyes would be open um you know it's

920

00:32:06,470 --> 00:32:03,919

just

921

00:32:07,430 --> 00:32:06,480

uh the the amount of uh thinking that's

922

00:32:09,590 --> 00:32:07,440

going on

923

00:32:10,710 --> 00:32:09,600

you know you're just sweating in the jet

924

00:32:12,149 --> 00:32:10,720

you know just just

925

00:32:13,509 --> 00:32:12,159

because you're looking at so many things

926
00:32:13,750 --> 00:32:13,519
you're thinking about so many things am

927
00:32:55,269 --> 00:32:13,760
i

928
00:32:56,870 --> 00:32:55,279
hatter

929
00:32:58,630 --> 00:32:56,880
yeah so like if you have to if you have

930
00:32:59,190 --> 00:32:58,640
to if a commercial airliner for instance

931
00:33:01,509 --> 00:32:59,200
has to

932
00:33:03,269 --> 00:33:01,519
change their uh direction of flight and

933
00:33:04,789 --> 00:33:03,279
it impacts some other thing it could

934
00:33:06,549 --> 00:33:04,799
cause a close pass or something you

935
00:33:08,710 --> 00:33:06,559
would have to file a hatter

936
00:33:10,310 --> 00:33:08,720
uh you know i've had it's happened a few

937
00:33:12,070 --> 00:33:10,320
times throughout my career just you know

938
00:33:12,950 --> 00:33:12,080

i heard about it uh someone was mad at

939

00:33:14,710 --> 00:33:12,960

the tower

940

00:33:16,470 --> 00:33:14,720

you know they they turned them into

941

00:33:17,350 --> 00:33:16,480

another another plane and they almost

942

00:33:19,750 --> 00:33:17,360

hit

943

00:33:20,870 --> 00:33:19,760

so they fired a hazardous air traffic

944

00:33:25,190 --> 00:33:20,880

report

945

00:33:27,909 --> 00:33:25,200

there was 11 of these

946

00:33:28,389 --> 00:33:27,919

which i also thought was was interesting

947

00:33:31,750 --> 00:33:28,399

because

948

00:33:34,549 --> 00:33:31,760

what that means is the pilots they

949

00:33:36,310 --> 00:33:34,559

either they decided to file it because

950

00:33:38,710 --> 00:33:36,320

they had to move or they were forced to

951
00:33:41,830 --> 00:33:38,720
file it because they came too close

952
00:33:43,110 --> 00:33:41,840
to one of these objects so those i'm

953
00:33:45,029 --> 00:33:43,120
really interested in those 11

954
00:33:47,350 --> 00:33:45,039
because that means they were probably

955
00:33:47,830 --> 00:33:47,360
visual uh you know visual means the

956
00:33:51,750 --> 00:33:47,840
pilot

957
00:33:53,669 --> 00:33:51,760
sees uh sees the object and

958
00:33:55,750 --> 00:33:53,679
that is kind of ambiguous in a few of

959
00:33:56,149 --> 00:33:55,760
these instances even like chad underwood

960
00:33:58,630 --> 00:33:56,159
you know

961
00:33:59,350 --> 00:33:58,640
i was researching today listening to

962
00:34:01,509 --> 00:33:59,360
some of his

963
00:34:02,389 --> 00:34:01,519

interviews on the nimitz uh when he

964

00:34:05,110 --> 00:34:02,399

filmed that flir

965

00:34:06,789 --> 00:34:05,120

interview or the flir video uh he

966

00:34:07,110 --> 00:34:06,799

actually never saw it with his eyes you

967

00:34:10,069 --> 00:34:07,120

know

968

00:34:11,510 --> 00:34:10,079

so that's why i'm like well did the

969

00:34:13,190 --> 00:34:11,520

pilot see it you know i have a question

970

00:34:15,270 --> 00:34:13,200

did the pilot see it

971

00:34:16,470 --> 00:34:15,280

uh another interesting point i didn't

972

00:34:19,430 --> 00:34:16,480

know from that uh

973

00:34:20,149 --> 00:34:19,440

that i found out today is that the other

974

00:34:23,589 --> 00:34:20,159

commander

975

00:34:25,829 --> 00:34:23,599

also saw it so in one of an interview

976
00:34:27,190 --> 00:34:25,839
i was just reading with chad underwood

977
00:34:28,869 --> 00:34:27,200
he said that um

978
00:34:30,230 --> 00:34:28,879
yeah he didn't see it with his eyes but

979
00:34:33,669 --> 00:34:30,240
he he does know that

980
00:34:35,750 --> 00:34:33,679
commander fraber saw it and uh the

981
00:34:37,030 --> 00:34:35,760
hornet commander who was out there i

982
00:34:39,030 --> 00:34:37,040
don't know who that was i mean

983
00:34:40,869 --> 00:34:39,040
i'm sure we could find it out sorry if i

984
00:34:43,190 --> 00:34:40,879
just outed him

985
00:34:44,389 --> 00:34:43,200
uh but chad underwood did already so

986
00:34:46,710 --> 00:34:44,399
that would be my question

987
00:34:47,990 --> 00:34:46,720
you know what did that guy see he's it

988
00:34:49,589 --> 00:34:48,000

so would that guy come

989

00:34:51,829 --> 00:34:49,599

out potentially you know and i hope

990

00:34:53,589 --> 00:34:51,839

maybe if enough people talk about it

991

00:34:55,829 --> 00:34:53,599

uh you know maybe they'll be willing to

992

00:34:57,670 --> 00:34:55,839

come on you know some channel like mine

993

00:34:59,270 --> 00:34:57,680

you know where i'm not gonna like uh

994

00:35:02,310 --> 00:34:59,280

you know hopefully i won't bring nick

995

00:35:03,510 --> 00:35:02,320

west there challenge it but maybe they

996

00:35:05,510 --> 00:35:03,520

would you know maybe they will

997

00:35:07,270 --> 00:35:05,520

so that would be the hope i think yes

998

00:35:09,270 --> 00:35:07,280

people will come out and i think it's

999

00:35:11,430 --> 00:35:09,280

it's commander fravor it's chris mellon

1000

00:35:13,190 --> 00:35:11,440

you know even jeremy corbell just the

1001
00:35:15,190 --> 00:35:13,200
people getting that information

1002
00:35:16,630 --> 00:35:15,200
declassified well here's here's a

1003
00:35:17,109 --> 00:35:16,640
question for you now that you brought up

1004
00:35:19,589 --> 00:35:17,119
jerry

1005
00:35:20,550 --> 00:35:19,599
jeremy corbell um he's been on the show

1006
00:35:24,150 --> 00:35:20,560
a few times but

1007
00:35:27,829 --> 00:35:24,160
the the question i have for you is

1008
00:35:31,109 --> 00:35:27,839
why is he getting these videos and

1009
00:35:31,670 --> 00:35:31,119
how how can he get these videos and the

1010
00:35:33,990 --> 00:35:31,680
person

1011
00:35:34,950 --> 00:35:34,000
giving him the videos not get into any

1012
00:35:38,069 --> 00:35:34,960
type of

1013
00:35:44,790 --> 00:35:41,750

i i don't know actually um

1014

00:35:47,670 --> 00:35:44,800

because it's interesting because the

1015

00:35:48,950 --> 00:35:47,680

military gets in a pickle right because

1016

00:35:51,349 --> 00:35:48,960

there's nothing in that video that's

1017

00:35:52,150 --> 00:35:51,359

classified right if you look at those

1018

00:35:54,390 --> 00:35:52,160

videos

1019

00:35:56,150 --> 00:35:54,400

there's nothing so that that bridge you

1020

00:35:58,150 --> 00:35:56,160

know at least the

1021

00:36:00,790 --> 00:35:58,160

what they're showing you know the flare

1022

00:36:02,390 --> 00:36:00,800

image uh that radar image which actually

1023

00:36:04,310 --> 00:36:02,400

is from the the spinning

1024

00:36:06,470 --> 00:36:04,320

it's not the c draft radar it's actually

1025

00:36:07,270 --> 00:36:06,480

that uh c marine radar actually i think

1026

00:36:08,950 --> 00:36:07,280

is is what's

1027

00:36:10,390 --> 00:36:08,960

actually that screen i think it's wrong

1028

00:36:13,510 --> 00:36:10,400

in my video

1029

00:36:15,270 --> 00:36:13,520

um but either way that that those

1030

00:36:16,710 --> 00:36:15,280

screens are not classified you know i

1031

00:36:18,630 --> 00:36:16,720

think they keep talking about this

1032

00:36:20,470 --> 00:36:18,640

information center the cic

1033

00:36:23,190 --> 00:36:20,480

you know the combat information center i

1034

00:36:25,829 --> 00:36:23,200

think that's like the brains of the ship

1035

00:36:26,950 --> 00:36:25,839

uh and so i think that is that's down in

1036

00:36:28,870 --> 00:36:26,960

the depths and that's where you're going

1037

00:36:30,310 --> 00:36:28,880

to get the c giraffe radar

1038

00:36:32,550 --> 00:36:30,320

you know you're going to get that'll be

1039

00:36:35,190 --> 00:36:32,560

classified i think so that video

1040

00:36:37,030 --> 00:36:35,200

you know is going to be too classified

1041

00:36:38,710 --> 00:36:37,040

to where anybody filming that now

1042

00:36:39,589 --> 00:36:38,720

because you're filming a classified

1043

00:36:41,030 --> 00:36:39,599

screen

1044

00:36:43,589 --> 00:36:41,040

or the information you're filming is

1045

00:36:45,349 --> 00:36:43,599

classified so that's where it's obvious

1046

00:36:47,349 --> 00:36:45,359

you're going to get in trouble

1047

00:36:49,349 --> 00:36:47,359

but now here these videos like jeremy

1048

00:36:51,589 --> 00:36:49,359

corbell has is there's nothing in the

1049

00:36:53,670 --> 00:36:51,599

video that's classified

1050

00:36:55,109 --> 00:36:53,680

so um so he must have some i haven't

1051
00:36:57,910 --> 00:36:55,119
spoken to him about it

1052
00:36:58,470 --> 00:36:57,920
but he must have some type of connection

1053
00:37:01,270 --> 00:36:58,480
where

1054
00:37:02,150 --> 00:37:01,280
people know his interests and they are

1055
00:37:04,390 --> 00:37:02,160
feeding him

1056
00:37:07,430 --> 00:37:04,400
this material when they realize that

1057
00:37:08,470 --> 00:37:07,440
it's not going to get them in trouble

1058
00:37:10,550 --> 00:37:08,480
i mean that's the only thing i can

1059
00:37:13,829 --> 00:37:10,560
figure out yeah

1060
00:37:15,510 --> 00:37:13,839
exactly um yeah honestly i don't know

1061
00:37:17,109 --> 00:37:15,520
obviously he has sources that

1062
00:37:19,750 --> 00:37:17,119
will trust him you know unless it's

1063
00:37:22,310 --> 00:37:19,760

fraudulent i i don't think it is

1064

00:37:23,990 --> 00:37:22,320

uh it looks it looks legit he has

1065

00:37:24,470 --> 00:37:24,000

sources that will trust him and maybe

1066

00:37:27,510 --> 00:37:24,480

there just

1067

00:37:29,190 --> 00:37:27,520

wasn't an outlet or they didn't feel

1068

00:37:30,710 --> 00:37:29,200

there was any other outlet you know

1069

00:37:33,109 --> 00:37:30,720

i was kind of surprised actually that

1070

00:37:34,390 --> 00:37:33,119

the the reaction i got

1071

00:37:36,390 --> 00:37:34,400

you know because i've been making all

1072

00:37:38,550 --> 00:37:36,400

you know videos for six months and i got

1073

00:37:41,190 --> 00:37:38,560

no real reaction with my videos

1074

00:37:41,829 --> 00:37:41,200

uh and then all of a sudden you know i

1075

00:37:43,990 --> 00:37:41,839

have this

1076
00:37:45,270 --> 00:37:44,000
huge spike you know getting all these

1077
00:37:47,589 --> 00:37:45,280
all these uh

1078
00:37:48,470 --> 00:37:47,599
all these hits if you will so i just

1079
00:37:51,109 --> 00:37:48,480
think there wasn't

1080
00:37:51,990 --> 00:37:51,119
there's not many people in the business

1081
00:37:53,589 --> 00:37:52,000
you know you know

1082
00:37:55,190 --> 00:37:53,599
it's not like i'm special like i haven't

1083
00:37:56,950 --> 00:37:55,200
even seen a uap you know i'm not even

1084
00:38:00,069 --> 00:37:56,960
one of the pilots or wizzos

1085
00:38:01,589 --> 00:38:00,079
uh that has seen anything uh it's just

1086
00:38:04,230 --> 00:38:01,599
i'm i'm actually making

1087
00:38:06,150 --> 00:38:04,240
videos about it or investigating it i

1088
00:38:08,870 --> 00:38:06,160

guess is the difference

1089

00:38:09,750 --> 00:38:08,880

yeah well you know you you said a lot of

1090

00:38:12,470 --> 00:38:09,760

things straight

1091

00:38:14,069 --> 00:38:12,480

and you know one of them i know for

1092

00:38:14,390 --> 00:38:14,079

instance today i watched the video that

1093

00:38:16,950 --> 00:38:14,400

you

1094

00:38:18,710 --> 00:38:16,960

published about six or seven hours ago

1095

00:38:21,750 --> 00:38:18,720

where you talked about

1096

00:38:22,230 --> 00:38:21,760

the tic tac and how it when it goes off

1097

00:38:23,510 --> 00:38:22,240

screen

1098

00:38:25,109 --> 00:38:23,520

a lot of people are saying well that's

1099

00:38:25,750 --> 00:38:25,119

the angle the camera the camera's moving

1100

00:38:28,390 --> 00:38:25,760

whatever

1101

00:38:30,470 --> 00:38:28,400

but you very clearly pointed out that

1102

00:38:32,950 --> 00:38:30,480

it's looking straight ahead

1103

00:38:34,630 --> 00:38:32,960

and that it's not it only moves like a

1104

00:38:36,069 --> 00:38:34,640

very small one percent or something like

1105

00:38:36,870 --> 00:38:36,079

that i don't even one degree or whatever

1106

00:38:41,510 --> 00:38:36,880

it is

1107

00:38:44,150 --> 00:38:41,520

and the thing does go off uh yeah yeah

1108

00:38:46,470 --> 00:38:44,160

yeah easily seen you know if you so mick

1109

00:38:48,069 --> 00:38:46,480

west he has a video uh where he

1110

00:38:48,870 --> 00:38:48,079

basically says it's just the camera

1111

00:38:50,630 --> 00:38:48,880

losing lock

1112

00:38:52,310 --> 00:38:50,640

right so the tardine pods are looking at

1113

00:38:53,990 --> 00:38:52,320

the object and

1114

00:38:56,150 --> 00:38:54,000

it's not really the object that's

1115

00:38:58,550 --> 00:38:56,160

zooming off the screen right it's the

1116

00:38:59,670 --> 00:38:58,560

the targeting pod is losing lock and

1117

00:39:01,349 --> 00:38:59,680

it's just going off

1118

00:39:03,109 --> 00:39:01,359

to the right right it's basically just

1119

00:39:05,349 --> 00:39:03,119

going off to the right

1120

00:39:06,950 --> 00:39:05,359

um but yes it's that's easily seen like

1121

00:39:08,870 --> 00:39:06,960

i was explaining the differences between

1122

00:39:10,550 --> 00:39:08,880

the f16 and f18

1123

00:39:12,150 --> 00:39:10,560

targeting pod we don't have that little

1124

00:39:13,910 --> 00:39:12,160

azimuth indicator you know

1125

00:39:15,589 --> 00:39:13,920

i'd have to look at this little pixel

1126

00:39:17,109 --> 00:39:15,599

dot you know and see it move but the

1127

00:39:19,670 --> 00:39:17,119

f-18 has that

1128

00:39:21,910 --> 00:39:19,680

and you can see just very clearly that

1129

00:39:24,230 --> 00:39:21,920

it doesn't move you know the camera

1130

00:39:25,990 --> 00:39:24,240

does not move i you know from the deep

1131

00:39:29,750 --> 00:39:26,000

dive i'll have to actually go in

1132

00:39:32,310 --> 00:39:29,760

and confirm that the field of view

1133

00:39:34,069 --> 00:39:32,320

of the targeting pod is not is greater

1134

00:39:37,349 --> 00:39:34,079

than one degree but i i'm

1135

00:39:38,230 --> 00:39:37,359

i'm pretty sure it is so i don't know if

1136

00:39:40,230 --> 00:39:38,240

you heard this but

1137

00:39:41,750 --> 00:39:40,240

um i was alerted to it the other day now

1138

00:39:44,230 --> 00:39:41,760

i didn't hear it personally

1139

00:39:45,910 --> 00:39:44,240

but a person i trust uh told me about it

1140

00:39:46,550 --> 00:39:45,920

a listener of the show that i've known a

1141

00:39:53,270 --> 00:39:46,560

long

1142

00:39:56,069 --> 00:39:53,280

there's a possibility of a 23 minute

1143

00:39:57,190 --> 00:39:56,079

video being released one of the things

1144

00:39:59,750 --> 00:39:57,200

that

1145

00:40:00,710 --> 00:39:59,760

um a lot of people bring up in these

1146

00:40:02,069 --> 00:40:00,720

videos is

1147

00:40:04,470 --> 00:40:02,079

well first of all they say they're very

1148

00:40:07,510 --> 00:40:04,480

blurry but

1149

00:40:09,109 --> 00:40:07,520

um it's just the type of um camera

1150

00:40:10,950 --> 00:40:09,119

that has captured it you know the

1151
00:40:11,910 --> 00:40:10,960
whatever whether it's you know the night

1152
00:40:16,230 --> 00:40:11,920
vision the fleur

1153
00:40:19,270 --> 00:40:16,240
or whatever but um this video supposedly

1154
00:40:20,309 --> 00:40:19,280
is going to be 23 minutes of uh more

1155
00:40:22,390 --> 00:40:20,319
than one uap

1156
00:40:25,589 --> 00:40:22,400
in a situation and hopefully we'll get

1157
00:40:28,150 --> 00:40:25,599
to see that sometime soon

1158
00:40:28,790 --> 00:40:28,160
yeah he's in that same podcast uh on

1159
00:40:31,190 --> 00:40:28,800
theory of

1160
00:40:33,109 --> 00:40:31,200
everything or theories of everything he

1161
00:40:34,710 --> 00:40:33,119
was very optimistic actually

1162
00:40:36,390 --> 00:40:34,720
on he said this next month would be

1163
00:40:39,109 --> 00:40:36,400

pretty interesting or very interesting

1164

00:40:39,510 --> 00:40:39,119

he said he said that before and you know

1165

00:40:43,349 --> 00:40:39,520

what

1166

00:40:45,109 --> 00:40:43,359

and it was he was saying something

1167

00:40:47,430 --> 00:40:45,119

to happen right right after he said that

1168

00:40:50,150 --> 00:40:47,440

so you know he has a really good insight

1169

00:40:50,550 --> 00:40:50,160

as you mentioned chris mellon as well so

1170

00:40:52,790 --> 00:40:50,560

yeah

1171

00:40:54,150 --> 00:40:52,800

i'm really glad that these people have

1172

00:40:56,790 --> 00:40:54,160

come forward you know

1173

00:40:58,950 --> 00:40:56,800

i will tell you this a few years ago you

1174

00:41:01,349 --> 00:40:58,960

wouldn't have paid any attention to this

1175

00:41:02,950 --> 00:41:01,359

um not this whole topic you know ever

1176
00:41:03,829 --> 00:41:02,960
since the new york times article came

1177
00:41:05,670 --> 00:41:03,839
out and

1178
00:41:07,270 --> 00:41:05,680
all those people did that work but you

1179
00:41:10,550 --> 00:41:07,280
know before that happened

1180
00:41:11,670 --> 00:41:10,560
um that has changed everything and made

1181
00:41:14,630 --> 00:41:11,680
people like you

1182
00:41:15,670 --> 00:41:14,640
actually feel more safer looking at this

1183
00:41:17,990 --> 00:41:15,680
topic without

1184
00:41:19,270 --> 00:41:18,000
the ridicule factor so much worrying

1185
00:41:23,910 --> 00:41:19,280
about it yeah 100

1186
00:41:25,670 --> 00:41:23,920
um yeah without a doubt i mean it's

1187
00:41:27,990 --> 00:41:25,680
it's really flavor so what i was saying

1188
00:41:30,069 --> 00:41:28,000

earlier is that um

1189

00:41:31,670 --> 00:41:30,079

you end up kind of melding with these

1190

00:41:34,390 --> 00:41:31,680

machines you know because you spend

1191

00:41:36,069 --> 00:41:34,400

thousands and thousands of hours uh

1192

00:41:37,270 --> 00:41:36,079

insane that's just flight hours you know

1193

00:41:40,630 --> 00:41:37,280

i have what

1194

00:41:42,230 --> 00:41:40,640

uh 1850 some odd flight hours

1195

00:41:44,550 --> 00:41:42,240

but for for every hour that i have

1196

00:41:47,910 --> 00:41:44,560

flying a fighter uh you know i have

1197

00:41:48,870 --> 00:41:47,920

one or two hours flying simulators yes

1198

00:41:50,790 --> 00:41:48,880

uh and again

1199

00:41:52,309 --> 00:41:50,800

all of it is using these systems you

1200

00:41:55,670 --> 00:41:52,319

know all you're focusing on

1201
00:41:58,630 --> 00:41:55,680
is uh how to use the the

1202
00:41:59,109 --> 00:41:58,640
fighting system uh to accomplish the

1203
00:42:01,030 --> 00:41:59,119
mission

1204
00:42:02,230 --> 00:42:01,040
right and and you do that through using

1205
00:42:04,069 --> 00:42:02,240
the targeting pod

1206
00:42:06,069 --> 00:42:04,079
through using these night vision goggles

1207
00:42:08,630 --> 00:42:06,079
through using the radar

1208
00:42:10,390 --> 00:42:08,640
and through using your own eyeballs so

1209
00:42:13,430 --> 00:42:10,400
what happens after a while though is

1210
00:42:16,630 --> 00:42:13,440
is this um you tend to meld

1211
00:42:19,670 --> 00:42:16,640
uh with with the machine so

1212
00:42:21,990 --> 00:42:19,680
i know it sounds i guess weird but

1213
00:42:23,430 --> 00:42:22,000

you can anticipate things and you so

1214

00:42:25,910 --> 00:42:23,440

when i see something

1215

00:42:26,710 --> 00:42:25,920

in the targeting pod uh it means more to

1216

00:42:28,069 --> 00:42:26,720

me i guess

1217

00:42:29,670 --> 00:42:28,079

you know it means more to me it's

1218

00:42:30,550 --> 00:42:29,680

because i'm used to looking through that

1219

00:42:31,589 --> 00:42:30,560

uh

1220

00:42:35,270 --> 00:42:31,599

i'm used to looking through that

1221

00:42:37,349 --> 00:42:35,280

spectrum if it makes sense um

1222

00:42:39,270 --> 00:42:37,359

yeah so you'll hear you know we hear the

1223

00:42:40,790 --> 00:42:39,280

radar so when radar hits a fighter when

1224

00:42:43,750 --> 00:42:40,800

radar hits my fighter

1225

00:42:43,990 --> 00:42:43,760

uh i can tell by the the frequency of

1226

00:42:47,109 --> 00:42:44,000

the

1227

00:42:48,309 --> 00:42:47,119

radar warning receiver what type of what

1228

00:42:49,910 --> 00:42:48,319

type of radar it is

1229

00:42:51,990 --> 00:42:49,920

you know i can tell if it's a friendly

1230

00:42:54,790 --> 00:42:52,000

fighter just by how it's hitting

1231

00:42:55,589 --> 00:42:54,800

uh how it's the the type of radio

1232

00:42:59,109 --> 00:42:55,599

frequency

1233

00:43:01,990 --> 00:42:59,119

goggles yeah

1234

00:43:02,950 --> 00:43:02,000

yeah oh i didn't mean to interrupt you

1235

00:43:05,670 --> 00:43:02,960

but

1236

00:43:07,670 --> 00:43:05,680

when you are locked on you know that

1237

00:43:09,670 --> 00:43:07,680

don't you you have all kinds of like

1238

00:43:12,230 --> 00:43:09,680

warnings going off that you have a lock

1239

00:43:15,270 --> 00:43:12,240

on correct

1240

00:43:17,109 --> 00:43:15,280

it depends it depends right so part of

1241

00:43:20,230 --> 00:43:17,119

it is is understanding how all these

1242

00:43:21,589 --> 00:43:20,240

systems interrelate um so sometimes you

1243

00:43:22,790 --> 00:43:21,599

have a lock but you don't have a lock

1244

00:43:24,470 --> 00:43:22,800

with all your systems

1245

00:43:27,190 --> 00:43:24,480

and that's what we see in the in these

1246

00:43:29,270 --> 00:43:27,200

videos which is also very confusing

1247

00:43:30,630 --> 00:43:29,280

because normally in the in these

1248

00:43:33,030 --> 00:43:30,640

targeting pod videos

1249

00:43:33,670 --> 00:43:33,040

you will also have a radar locked to it

1250

00:43:35,349 --> 00:43:33,680

right

1251
00:43:37,910 --> 00:43:35,359
because you're going to have all of your

1252
00:43:39,829 --> 00:43:37,920
sensors looking at the same target

1253
00:43:41,190 --> 00:43:39,839
and to identify it okay you can't split

1254
00:43:43,510 --> 00:43:41,200
up you can have your radar tracking

1255
00:43:46,550 --> 00:43:43,520
other things you can you can make it go

1256
00:43:48,150 --> 00:43:46,560
weird you know but uh uh generally you

1257
00:43:49,750 --> 00:43:48,160
want all of your sensors so i

1258
00:43:51,510 --> 00:43:49,760
what chad underwood said you know

1259
00:43:52,550 --> 00:43:51,520
basically when he went to to find the

1260
00:43:54,710 --> 00:43:52,560
tic tac

1261
00:43:56,550 --> 00:43:54,720
is the ship gave him a vector okay so

1262
00:43:57,670 --> 00:43:56,560
the ship was seeing it with its radar

1263
00:44:01,349 --> 00:43:57,680

i'm assuming the sp

1264

00:44:03,270 --> 00:44:01,359

y1 radar you know and then it told him

1265

00:44:04,710 --> 00:44:03,280

where to go so it gave him a vector to

1266

00:44:07,670 --> 00:44:04,720

intercept it

1267

00:44:09,349 --> 00:44:07,680

and then he used his radar uh and so he

1268

00:44:12,150 --> 00:44:09,359

painted it with his radar

1269

00:44:12,870 --> 00:44:12,160

and then he was able to tr to lock it

1270

00:44:15,030 --> 00:44:12,880

okay but

1271

00:44:16,470 --> 00:44:15,040

locking with your radar uh normally you

1272

00:44:18,069 --> 00:44:16,480

would just get a stable track

1273

00:44:19,990 --> 00:44:18,079

you know it'll show up you know i see a

1274

00:44:22,390 --> 00:44:20,000

little blip on my radar screen

1275

00:44:24,309 --> 00:44:22,400

i move the cursors with my left thumb

1276

00:44:25,349 --> 00:44:24,319

and then i team us forward to command a

1277

00:44:26,630 --> 00:44:25,359

lock it's different in the

1278

00:44:28,390 --> 00:44:26,640

in the hornet okay i was starting to

1279

00:44:30,390 --> 00:44:28,400

learn it in dcs

1280

00:44:31,589 --> 00:44:30,400

uh but then the radar will do its best

1281

00:44:34,710 --> 00:44:31,599

to try and

1282

00:44:36,950 --> 00:44:34,720

focus more energy onto that target

1283

00:44:38,790 --> 00:44:36,960

uh so that it can give a weapons quality

1284

00:44:40,870 --> 00:44:38,800

track okay because otherwise it's it's

1285

00:44:43,030 --> 00:44:40,880

just kind of tapping a target

1286

00:44:45,109 --> 00:44:43,040

so it's not spending all of its energy

1287

00:44:46,630 --> 00:44:45,119

just focusing on one single target it's

1288

00:44:48,470 --> 00:44:46,640

it's scanning through the sky so you

1289

00:44:51,190 --> 00:44:48,480

can't have like some wily

1290

00:44:52,870 --> 00:44:51,200

fighter come down low or something so

1291

00:44:54,710 --> 00:44:52,880

when you're commanding a lock

1292

00:44:56,390 --> 00:44:54,720

what you're really doing in that case is

1293

00:44:58,710 --> 00:44:56,400

you're telling the radar

1294

00:45:00,309 --> 00:44:58,720

to give you a weapons quality track tell

1295

00:45:03,270 --> 00:45:00,319

me exactly where this thing is just

1296

00:45:05,589 --> 00:45:03,280

stare at it with all of your energy

1297

00:45:07,349 --> 00:45:05,599

but with a tardy pod now which is what

1298

00:45:08,630 --> 00:45:07,359

what we see in all these videos you know

1299

00:45:11,829 --> 00:45:08,640

the flare one go fast

1300

00:45:14,150 --> 00:45:11,839

and gimbal um it has a passive lock

1301

00:45:16,630 --> 00:45:14,160

so it works it works different it

1302

00:45:17,589 --> 00:45:16,640

actually uses the screen so it uses just

1303

00:45:19,589 --> 00:45:17,599

the screen

1304

00:45:22,230 --> 00:45:19,599

to process the little pixels on the

1305

00:45:23,030 --> 00:45:22,240

screen and it tries to pick out a target

1306

00:45:25,750 --> 00:45:23,040

just based on

1307

00:45:26,069 --> 00:45:25,760

on its uh processing so for that it will

1308

00:45:28,870 --> 00:45:26,079

just

1309

00:45:30,230 --> 00:45:28,880

lock the little uh whatever is in its

1310

00:45:33,910 --> 00:45:30,240

processing to to do

1311

00:45:35,030 --> 00:45:33,920

a object tracking which is i think they

1312

00:45:37,510 --> 00:45:35,040

call it auto track

1313

00:45:39,670 --> 00:45:37,520

so he does initially chat underwood he

1314

00:45:41,349 --> 00:45:39,680

says he's able to lock it on radar

1315

00:45:43,750 --> 00:45:41,359

uh which is surprising although he does

1316

00:45:45,750 --> 00:45:43,760

say it actually goes from 50 feet up to

1317

00:45:46,630 --> 00:45:45,760

50 000 feet as well so he's seeing a lot

1318

00:45:49,670 --> 00:45:46,640

of erratic

1319

00:45:51,430 --> 00:45:49,680

altitude cuts on his on his radar

1320

00:45:54,150 --> 00:45:51,440

but either way they're able to lock it

1321

00:45:56,950 --> 00:45:54,160

and then get to within range to lock it

1322

00:45:58,870 --> 00:45:56,960

with the target pod

1323

00:45:59,990 --> 00:45:58,880

but what you'll see is they have no

1324

00:46:03,109 --> 00:46:00,000

range so it keeps

1325

00:46:04,950 --> 00:46:03,119

saying 99.9 uh ranging

1326
00:46:06,150 --> 00:46:04,960
uh normally that would tell you exactly

1327
00:46:08,069 --> 00:46:06,160
how far you are

1328
00:46:09,910 --> 00:46:08,079
to the target so the radar will either

1329
00:46:11,670 --> 00:46:09,920
tell you and then it'll in the f16

1330
00:46:14,790 --> 00:46:11,680
anyway it'll say it'll have a little

1331
00:46:18,069 --> 00:46:14,800
f next to the range so it'll say like f

1332
00:46:21,750 --> 00:46:18,079
3.4 miles and in my hud it'll come up

1333
00:46:23,430 --> 00:46:21,760
f 3.4 so i know that it comes that range

1334
00:46:24,790 --> 00:46:23,440
comes from my radar and i have a valid

1335
00:46:27,190 --> 00:46:24,800
radar track

1336
00:46:29,349 --> 00:46:27,200
um if it says something else now so it

1337
00:46:29,910 --> 00:46:29,359
probably it did not say or i know it

1338
00:46:32,390 --> 00:46:29,920

didn't say

1339

00:46:33,349 --> 00:46:32,400

f uh with a range because it didn't have

1340

00:46:35,109 --> 00:46:33,359

a range

1341

00:46:37,589 --> 00:46:35,119

uh and which is interesting because all

1342

00:46:40,390 --> 00:46:37,599

of these intercepts you'll notice

1343

00:46:42,150 --> 00:46:40,400

oh there's no range and so that means

1344

00:46:43,829 --> 00:46:42,160

the radar is not uh

1345

00:46:45,510 --> 00:46:43,839

either they couldn't get a lock which is

1346

00:46:49,270 --> 00:46:45,520

what they said in the nimitz

1347

00:46:51,510 --> 00:46:49,280

um or it it it uh denied their lock

1348

00:46:55,430 --> 00:46:51,520

broke their lock et cetera

1349

00:46:57,670 --> 00:46:55,440

interesting and and also you would

1350

00:46:59,190 --> 00:46:57,680

would you see yourself would you see a

1351
00:47:01,349 --> 00:46:59,200
transponder on another

1352
00:47:04,150 --> 00:47:01,359
craft or would that only be for

1353
00:47:06,309 --> 00:47:04,160
ground-based radar

1354
00:47:08,069 --> 00:47:06,319
uh it depends so if you have an

1355
00:47:12,390 --> 00:47:08,079
interrogator

1356
00:47:13,750 --> 00:47:12,400
times it depends on the aircraft

1357
00:47:15,670 --> 00:47:13,760
uh so basically if you have an

1358
00:47:17,910 --> 00:47:15,680
interrogator then you you push a little

1359
00:47:20,309 --> 00:47:17,920
button in the f-16 it's like a little

1360
00:47:22,069 --> 00:47:20,319
thumb left and it will interrogate

1361
00:47:23,750 --> 00:47:22,079
wherever your radar is looking so your

1362
00:47:23,990 --> 00:47:23,760
scan volume or your radar is usually

1363
00:47:25,589 --> 00:47:24,000

like

1364

00:47:27,349 --> 00:47:25,599

plus or minus 60 degrees you know it's

1365

00:47:29,829 --> 00:47:27,359

pretty much out in front of you

1366

00:47:31,109 --> 00:47:29,839

um it will scan through there and just

1367

00:47:33,190 --> 00:47:31,119

say hey

1368

00:47:34,150 --> 00:47:33,200

transponders out there you know give me

1369

00:47:38,069 --> 00:47:34,160

a hit back

1370

00:47:40,150 --> 00:47:38,079

and that will tell you uh what their iff

1371

00:47:41,190 --> 00:47:40,160

you know friendly or foe identification

1372

00:47:43,910 --> 00:47:41,200

friendlier foe

1373

00:47:44,710 --> 00:47:43,920

uh will come back as but normally you

1374

00:47:47,270 --> 00:47:44,720

have to

1375

00:47:48,790 --> 00:47:47,280

activate it um but it's an amazing tool

1376

00:47:49,190 --> 00:47:48,800

i mean if you have an interrogator it's

1377

00:47:52,470 --> 00:47:49,200

it's

1378

00:47:53,829 --> 00:47:52,480

radar in in

1379

00:47:55,030 --> 00:47:53,839

a civilian environment you know because

1380

00:47:57,510 --> 00:47:55,040

it tells me where all the where all the

1381

00:48:01,270 --> 00:47:57,520

civilian aircraft are so i don't

1382

00:48:04,309 --> 00:48:01,280

run into you guys you know basically um

1383

00:48:05,670 --> 00:48:04,319

now i i i do in this this when we

1384

00:48:07,829 --> 00:48:05,680

go into the second hour i wanted to talk

1385

00:48:09,190 --> 00:48:07,839

about specific videos but

1386

00:48:11,270 --> 00:48:09,200

and we're going in about seven minutes

1387

00:48:12,470 --> 00:48:11,280

we're going into our uh five-minute

1388

00:48:14,390 --> 00:48:12,480

break

1389

00:48:15,510 --> 00:48:14,400

and and this can be a little tricky i'm

1390

00:48:17,589 --> 00:48:15,520

on the phone here

1391

00:48:18,950 --> 00:48:17,599

um so but hopefully bill will be able to

1392

00:48:22,630 --> 00:48:18,960

pull that all off

1393

00:48:25,670 --> 00:48:24,549

i i have a friend lee spiegel was his

1394

00:48:28,950 --> 00:48:25,680

name

1395

00:48:33,030 --> 00:48:28,960

and he was researching years ago in the

1396

00:48:36,309 --> 00:48:33,040

air force academy flight school handbook

1397

00:48:39,990 --> 00:48:36,319

there was a chapter on unidentified

1398

00:48:41,030 --> 00:48:40,000

objects and i'm wondering do you recall

1399

00:48:44,630 --> 00:48:41,040

anything about that

1400

00:48:46,230 --> 00:48:44,640

in flight school because they did remove

1401
00:48:49,829 --> 00:48:46,240
it never

1402
00:48:51,670 --> 00:48:49,839
yeah never on it yeah and was that ever

1403
00:48:53,190 --> 00:48:51,680
talked about in flight school i mean

1404
00:48:56,230 --> 00:48:53,200
i mean it's not something you would

1405
00:48:58,630 --> 00:48:56,240
think about but would you think about it

1406
00:49:00,950 --> 00:48:58,640
no yeah i mean literally never thought

1407
00:49:03,349 --> 00:49:00,960
of it literally like i thought uh

1408
00:49:04,790 --> 00:49:03,359
you know i've heard i heard of roswell

1409
00:49:06,549 --> 00:49:04,800
um

1410
00:49:08,790 --> 00:49:06,559
i didn't really think anything of it you

1411
00:49:10,950 --> 00:49:08,800
know um i will say i had a

1412
00:49:12,710 --> 00:49:10,960
i had a chemistry teacher at the air

1413
00:49:15,109 --> 00:49:12,720

force academy

1414

00:49:15,990 --> 00:49:15,119

and he had said it was it was humans

1415

00:49:17,670 --> 00:49:16,000

that's all i remember

1416

00:49:19,109 --> 00:49:17,680

this is like the only encounter i ever

1417

00:49:21,190 --> 00:49:19,119

had in aliens is

1418

00:49:22,950 --> 00:49:21,200

he was a chemistry teacher and

1419

00:49:23,829 --> 00:49:22,960

supposedly he just said yeah yeah it's

1420

00:49:26,470 --> 00:49:23,839

humans he was

1421

00:49:27,829 --> 00:49:26,480

i don't know if he had but again this

1422

00:49:29,670 --> 00:49:27,839

was in 2000

1423

00:49:31,910 --> 00:49:29,680

how would he know it was still 50 years

1424

00:49:33,829 --> 00:49:31,920

before so

1425

00:49:36,470 --> 00:49:33,839

but nothing so no nothing about

1426

00:49:38,069 --> 00:49:36,480

unidentified flying objects

1427

00:49:40,309 --> 00:49:38,079

you know we're worried about like you

1428

00:49:44,069 --> 00:49:40,319

know chemical weapons training you know

1429

00:49:47,030 --> 00:49:44,079

am i wearing my chem mask correctly um

1430

00:49:48,710 --> 00:49:47,040

not failing you know passing emergency

1431

00:49:51,190 --> 00:49:48,720

procedures

1432

00:49:53,670 --> 00:49:51,200

all the mission elements never on on

1433

00:49:57,670 --> 00:49:53,680

ufos or uaps or

1434

00:49:59,589 --> 00:49:57,680

honestly up until up until six weeks ago

1435

00:50:01,109 --> 00:49:59,599

i honestly thought i i was in line with

1436

00:50:03,589 --> 00:50:01,119

the science community that

1437

00:50:04,390 --> 00:50:03,599

the universe is just too big based on

1438

00:50:05,750 --> 00:50:04,400

the size

1439

00:50:07,670 --> 00:50:05,760

that you know based on light speed

1440

00:50:10,069 --> 00:50:07,680

there's no way it is absolutely

1441

00:50:11,990 --> 00:50:10,079

impossible anything could get here

1442

00:50:13,589 --> 00:50:12,000

within you know a few hundreds thousands

1443

00:50:16,790 --> 00:50:13,599

at the minimum years

1444

00:50:18,950 --> 00:50:16,800

um so i just never considered it

1445

00:50:22,150 --> 00:50:18,960

you know as even a possibility it which

1446

00:50:24,630 --> 00:50:22,160

is kind of crazy i guess

1447

00:50:26,470 --> 00:50:24,640

it is and you know i mean one of the

1448

00:50:29,190 --> 00:50:26,480

things that i think is kind of

1449

00:50:30,150 --> 00:50:29,200

strange and i've heard someone else talk

1450

00:50:33,430 --> 00:50:30,160

about this

1451
00:50:36,790 --> 00:50:33,440
is um it seems like most of the media

1452
00:50:40,069 --> 00:50:36,800
out of this report spawned

1453
00:50:41,829 --> 00:50:40,079
headlines of it's not aliens

1454
00:50:43,670 --> 00:50:41,839
you know i talked about this last week

1455
00:50:45,270 --> 00:50:43,680
lawrence krauss

1456
00:50:46,790 --> 00:50:45,280
whatever it is it ain't aliens that was

1457
00:50:48,870 --> 00:50:46,800
the title of his um

1458
00:50:51,109 --> 00:50:48,880
but that seems like to be the focus and

1459
00:50:54,390 --> 00:50:51,119
they they never

1460
00:50:55,109 --> 00:50:54,400
said that there was no definitive no

1461
00:50:57,190 --> 00:50:55,119
that it's not

1462
00:50:58,630 --> 00:50:57,200
it's just that it might be something it

1463
00:51:01,270 --> 00:50:58,640

might be something else

1464

00:51:01,829 --> 00:51:01,280

you know so i don't understand where

1465

00:51:04,870 --> 00:51:01,839

everyone

1466

00:51:07,190 --> 00:51:04,880

got that attitude all of a sudden

1467

00:51:08,390 --> 00:51:07,200

that you know has nothing to do with

1468

00:51:10,630 --> 00:51:08,400

extraterrestrial

1469

00:51:11,510 --> 00:51:10,640

and i'm not saying that i know that it

1470

00:51:13,670 --> 00:51:11,520

does either

1471

00:51:15,270 --> 00:51:13,680

but i'm just saying that it's definitely

1472

00:51:16,069 --> 00:51:15,280

a possibility and it should be in the

1473

00:51:18,790 --> 00:51:16,079

running for the

1474

00:51:20,710 --> 00:51:18,800

totally unexplained things and uh you'll

1475

00:51:22,950 --> 00:51:20,720

see that coming up in a few minutes

1476
00:51:23,750 --> 00:51:22,960
um in a clip i'm going to run during the

1477
00:51:27,589 --> 00:51:23,760
break

1478
00:51:31,190 --> 00:51:27,599
but uh yeah that's what i saw is

1479
00:51:33,109 --> 00:51:31,200
chris mellon you know um in his recent

1480
00:51:33,750 --> 00:51:33,119
review that was his point his argument

1481
00:51:35,829 --> 00:51:33,760
is

1482
00:51:37,910 --> 00:51:35,839
that's all he was happy with the report

1483
00:51:40,549 --> 00:51:37,920
actually he was happy with the report

1484
00:51:42,309 --> 00:51:40,559
that they came out and but he was

1485
00:51:44,309 --> 00:51:42,319
unhappy with the the media

1486
00:51:45,510 --> 00:51:44,319
reaction and he said the media's

1487
00:51:49,190 --> 00:51:45,520
reaction is it's not

1488
00:51:50,710 --> 00:51:49,200

aliens which is not the case

1489

00:51:52,230 --> 00:51:50,720

i think i may have just gotten that

1490

00:51:53,670 --> 00:51:52,240

statement from

1491

00:51:55,270 --> 00:51:53,680

something i heard him say that kind of

1492

00:51:56,790 --> 00:51:55,280

made me think about it some more

1493

00:51:58,390 --> 00:51:56,800

that might have been where i first heard

1494

00:52:01,510 --> 00:51:58,400

someone talk about it yes

1495

00:52:02,870 --> 00:52:01,520

that was chris mellon right yeah he

1496

00:52:06,150 --> 00:52:02,880

wrote it in that uap

1497

00:52:08,390 --> 00:52:06,160

response uh in his letter

1498

00:52:09,990 --> 00:52:08,400

you know about the uap report uh he

1499

00:52:12,069 --> 00:52:10,000

basically says that that he's not happy

1500

00:52:14,390 --> 00:52:12,079

with the media's response

1501
00:52:16,230 --> 00:52:14,400
and that they just say it's not aliens

1502
00:52:18,390 --> 00:52:16,240
and his argument is

1503
00:52:20,790 --> 00:52:18,400
you know if it's if it's not us it's not

1504
00:52:21,829 --> 00:52:20,800
the russians or the chinese then you

1505
00:52:24,069 --> 00:52:21,839
know who is it

1506
00:52:25,349 --> 00:52:24,079
uh yeah that was kind of his point is

1507
00:52:30,069 --> 00:52:25,359
why is it off the table

1508
00:52:31,829 --> 00:52:30,079
you know i'm wondering if there's going

1509
00:52:34,549 --> 00:52:31,839
to be more funding uh

1510
00:52:35,109 --> 00:52:34,559
for the research of that or not um you

1511
00:52:36,950 --> 00:52:35,119
know we'll

1512
00:52:38,150 --> 00:52:36,960
we'll see what the future holds there

1513
00:52:40,230 --> 00:52:38,160

are some people

1514

00:52:41,510 --> 00:52:40,240

that uh think that it should be

1515

00:52:43,990 --> 00:52:41,520

researched

1516

00:52:45,510 --> 00:52:44,000

i don't think it shouldn't you know i

1517

00:52:47,430 --> 00:52:45,520

mean i think would be crazy if they

1518

00:52:50,150 --> 00:52:47,440

didn't put some money into

1519

00:52:51,510 --> 00:52:50,160

um what is what people are seeing out

1520

00:52:54,309 --> 00:52:51,520

there i mean

1521

00:52:55,430 --> 00:52:54,319

and it's not just the military um you

1522

00:52:57,109 --> 00:52:55,440

know i mean

1523

00:52:59,030 --> 00:52:57,119

that's what they're focusing on but it's

1524

00:53:00,470 --> 00:52:59,040

not just the military i mean

1525

00:53:02,390 --> 00:53:00,480

there's a there's a lot more people in

1526

00:53:04,390 --> 00:53:02,400

the world than military people

1527

00:53:05,990 --> 00:53:04,400

so um there's a lot of credible

1528

00:53:08,150 --> 00:53:06,000

witnesses all over that are

1529

00:53:09,190 --> 00:53:08,160

seeing something and i think it's i

1530

00:53:11,190 --> 00:53:09,200

think it just takes

1531

00:53:12,950 --> 00:53:11,200

the point where someone has to have a

1532

00:53:13,270 --> 00:53:12,960

sighting themselves before they realize

1533

00:53:15,990 --> 00:53:13,280

that

1534

00:53:16,630 --> 00:53:16,000

hey maybe there is something to this you

1535

00:53:18,390 --> 00:53:16,640

know

1536

00:53:20,309 --> 00:53:18,400

yeah exactly and and that's really what

1537

00:53:21,589 --> 00:53:20,319

i feel when i when i listen to the

1538

00:53:23,750 --> 00:53:21,599

fraver interview

1539

00:53:24,870 --> 00:53:23,760

is that's what i had is is i feel like i

1540

00:53:26,950 --> 00:53:24,880

was there

1541

00:53:28,870 --> 00:53:26,960

um because the way he explains it and

1542

00:53:30,309 --> 00:53:28,880

i've been in that same exact situation i

1543

00:53:33,349 --> 00:53:30,319

know everything he's talking about

1544

00:53:33,750 --> 00:53:33,359

um it's kind of like i was there you

1545

00:53:37,190 --> 00:53:33,760

know

1546

00:53:39,030 --> 00:53:37,200

and i'm seeing this uh as he sees it

1547

00:53:40,870 --> 00:53:39,040

um you know because you do so much chair

1548

00:53:42,630 --> 00:53:40,880

flying too when you're when we're flying

1549

00:53:44,390 --> 00:53:42,640

we cheer fly so much and

1550

00:53:45,829 --> 00:53:44,400

uh and so you're just always mentally

1551
00:53:48,230 --> 00:53:45,839
going through the processes

1552
00:53:50,069 --> 00:53:48,240
and so that was the difference for me so

1553
00:53:53,430 --> 00:53:50,079
i've never experienced

1554
00:53:54,950 --> 00:53:53,440
uh i will you know if the aliens want to

1555
00:53:56,950 --> 00:53:54,960
experience with me my email

1556
00:53:58,470 --> 00:53:56,960
is on you know it's on my youtube about

1557
00:53:59,910 --> 00:53:58,480
page

1558
00:54:01,990 --> 00:53:59,920
because i want to know and i want to

1559
00:54:03,990 --> 00:54:02,000
know like

1560
00:54:05,430 --> 00:54:04,000
but it's it's just it's disheartening it

1561
00:54:07,510 --> 00:54:05,440
is right because you look

1562
00:54:08,710 --> 00:54:07,520
i mean 69 years ago the air force was

1563
00:54:10,390 --> 00:54:08,720

saying essentially this

1564

00:54:13,109 --> 00:54:10,400

the same you know they they got radar

1565

00:54:15,750 --> 00:54:13,119

hits uh they launched the aircraft

1566

00:54:17,510 --> 00:54:15,760

and they looked and it was uh red and

1567

00:54:19,349 --> 00:54:17,520

orange lights

1568

00:54:21,430 --> 00:54:19,359

you know and they and they don't know

1569

00:54:22,950 --> 00:54:21,440

what it is uh but they're sure it's not

1570

00:54:25,190 --> 00:54:22,960

a menace to

1571

00:54:27,190 --> 00:54:25,200

us you know if if they don't know what

1572

00:54:28,150 --> 00:54:27,200

it is then how can they be sure that

1573

00:54:31,670 --> 00:54:28,160

it's not a

1574

00:54:33,349 --> 00:54:31,680

threat is my my biggest question

1575

00:54:35,990 --> 00:54:33,359

but they say it like straight face you

1576

00:54:37,750 --> 00:54:36,000

know and this is military people like

1577

00:54:39,670 --> 00:54:37,760

i guarantee any military person's like

1578

00:54:41,829 --> 00:54:39,680

no no i want to know what it is

1579

00:54:43,829 --> 00:54:41,839

you know i want to know what it is and

1580

00:54:45,589 --> 00:54:43,839

then i'll determine if it's a threat

1581

00:54:47,349 --> 00:54:45,599

but here they are now now the now the

1582

00:54:49,510 --> 00:54:47,359

military says well

1583

00:54:50,710 --> 00:54:49,520

we know it's not a threat uh but we have

1584

00:54:53,910 --> 00:54:50,720

no idea what it is

1585

00:54:54,230 --> 00:54:53,920

you know which is it's it's like you

1586

00:54:57,589 --> 00:54:54,240

said

1587

00:54:58,870 --> 00:54:57,599

69 years ago the same almost the same

1588

00:55:01,510 --> 00:54:58,880

thing is being said

1589

00:55:03,510 --> 00:55:01,520

you know i mean that's pretty ironic and

1590

00:55:04,950 --> 00:55:03,520

i saw that clip i've run that clip to on

1591

00:55:07,670 --> 00:55:04,960

this show before

1592

00:55:08,870 --> 00:55:07,680

um and it's very interesting so we're

1593

00:55:11,109 --> 00:55:08,880

gonna give it a go

1594

00:55:12,150 --> 00:55:11,119

bill i hope you're right on top of this

1595

00:55:14,870 --> 00:55:12,160

and uh

1596

00:55:15,670 --> 00:55:14,880

we have a five minute break and we have

1597

00:55:18,870 --> 00:55:15,680

a clip here

1598

00:55:22,150 --> 00:55:18,880

from the view of uh of uh

1599

00:55:23,750 --> 00:55:22,160

tyson um neil degrasse tyson

1600

00:55:25,829 --> 00:55:23,760

and i think you're gonna find it pretty

1601
00:55:27,510 --> 00:55:25,839
interesting and please uh wait for the

1602
00:55:28,150 --> 00:55:27,520
very last part make sure you listen to

1603
00:55:29,589 --> 00:55:28,160
that

1604
00:55:32,309 --> 00:55:29,599
so we're gonna go into the break right

1605
00:55:33,750 --> 00:55:32,319
now hang in there over at kgr radio

1606
00:55:39,109 --> 00:55:33,760
we'll be right back right after these

1607
00:55:42,710 --> 00:55:42,309
anticipated pentagon investigation found

1608
00:55:44,630 --> 00:55:42,720
no

1609
00:55:45,750 --> 00:55:44,640
evidence these ufos were alien

1610
00:55:47,349 --> 00:55:45,760
spacecraft

1611
00:55:49,270 --> 00:55:47,359
but they're not ruling out the

1612
00:55:51,670 --> 00:55:49,280
possibility either

1613
00:55:54,069 --> 00:55:51,680

so you have a whole chapter of your book

1614

00:55:55,349 --> 00:55:54,079

called are we alone in the universe so

1615

00:55:57,390 --> 00:55:55,359

i'm going to ask you

1616

00:56:00,230 --> 00:55:57,400

do you think these ufos are

1617

00:56:02,789 --> 00:56:00,240

extraterrestrial in nature

1618

00:56:05,190 --> 00:56:02,799

yeah so first of all um that book is a

1619

00:56:08,470 --> 00:56:05,200

collection of questions we have all had

1620

00:56:10,870 --> 00:56:08,480

about our place in the universe and top

1621

00:56:11,510 --> 00:56:10,880

two or three questions i'm ever asked

1622

00:56:14,950 --> 00:56:11,520

are

1623

00:56:17,430 --> 00:56:14,960

right at the center

1624

00:56:17,990 --> 00:56:17,440

of people's core of curiosity that's

1625

00:56:21,510 --> 00:56:18,000

first

1626
00:56:24,549 --> 00:56:21,520
second um the

1627
00:56:27,349 --> 00:56:24,559
the universe brims with mysteries and

1628
00:56:28,829 --> 00:56:27,359
we so want many of those mysteries to be

1629
00:56:31,109 --> 00:56:28,839
some

1630
00:56:33,190 --> 00:56:31,119
favored uh answer

1631
00:56:34,950 --> 00:56:33,200
that we might carry you see a light in

1632
00:56:38,309 --> 00:56:34,960
the sky you don't understand

1633
00:56:41,190 --> 00:56:38,319
gee i want that to be aliens visiting us

1634
00:56:41,910 --> 00:56:41,200
and so in science however you want you

1635
00:56:44,789 --> 00:56:41,920
look at

1636
00:56:45,349 --> 00:56:44,799
you you rank possibilities by likelihood

1637
00:56:47,670 --> 00:56:45,359
okay

1638
00:56:49,750 --> 00:56:47,680

these navy videos you have to ask if

1639

00:56:53,109 --> 00:56:49,760

they are aliens visiting

1640

00:56:55,030 --> 00:56:53,119

why are they only visiting

1641

00:56:56,390 --> 00:56:55,040

navy pilots how about the rest of

1642

00:56:59,910 --> 00:56:56,400

earth's surface

1643

00:57:02,309 --> 00:56:59,920

there are three billion smartphones

1644

00:57:03,589 --> 00:57:02,319

on this planet each one is a high

1645

00:57:07,349 --> 00:57:03,599

resolution color

1646

00:57:10,150 --> 00:57:07,359

camera and video recorder so

1647

00:57:11,349 --> 00:57:10,160

basically aliens invasions have been

1648

00:57:13,510 --> 00:57:11,359

crowdsourced

1649

00:57:16,309 --> 00:57:13,520

to the population of the planet if

1650

00:57:18,150 --> 00:57:16,319

anybody's any alien is landing anywhere

1651

00:57:19,750 --> 00:57:18,160

it's gonna look what else we have

1652

00:57:20,870 --> 00:57:19,760

already streamed that used to be rare

1653

00:57:23,109 --> 00:57:20,880

but we knew was happening

1654

00:57:25,430 --> 00:57:23,119

all right like police violence and all

1655

00:57:26,069 --> 00:57:25,440

of this if aliens landed you know we

1656

00:57:28,710 --> 00:57:26,079

would have it

1657

00:57:29,910 --> 00:57:28,720

it would be viral overnight but instead

1658

00:57:30,780 --> 00:57:29,920

they're cat videos

1659

00:57:34,390 --> 00:57:30,790

that go viral

1660

00:57:37,030 --> 00:57:34,400

[Laughter]

1661

00:57:38,549 --> 00:57:37,040

well neil knew nasa chief bill nelson

1662

00:57:40,870 --> 00:57:38,559

has said that they're launching their

1663

00:57:42,549 --> 00:57:40,880

own investigation into the ufos as well

1664

00:57:44,150 --> 00:57:42,559

and acknowledges they don't know what

1665

00:57:46,069 --> 00:57:44,160

they are either one theory is that the

1666

00:57:46,950 --> 00:57:46,079

ufos could be a foreign military

1667

00:57:48,390 --> 00:57:46,960

aircraft

1668

00:57:50,390 --> 00:57:48,400

according to the new york times china

1669

00:57:52,069 --> 00:57:50,400

and russia have both invested heavily in

1670

00:57:54,390 --> 00:57:52,079

supersonic technology

1671

00:57:56,630 --> 00:57:54,400

from what you've seen how likely is that

1672

00:58:00,150 --> 00:57:56,640

and does that theory trouble you

1673

00:58:00,789 --> 00:58:00,160

yeah so first of all the of the 600 700

1674

00:58:03,270 --> 00:58:00,799

billion

1675

00:58:04,549 --> 00:58:03,280

budget of the pentagon i would want some

1676
00:58:07,349 --> 00:58:04,559
fraction of that

1677
00:58:09,750 --> 00:58:07,359
to to check out the sky and and make

1678
00:58:12,150 --> 00:58:09,760
sure that there aren't threats

1679
00:58:13,910 --> 00:58:12,160
so i'm i'm happy to have learned that

1680
00:58:17,430 --> 00:58:13,920
there are government programs

1681
00:58:19,829 --> 00:58:17,440
investigating these no problem there um

1682
00:58:20,630 --> 00:58:19,839
by the way they could be foreign foreign

1683
00:58:22,950 --> 00:58:20,640
craft that

1684
00:58:24,069 --> 00:58:22,960
have achieved some level of aerodynamic

1685
00:58:26,069 --> 00:58:24,079
sophistication that

1686
00:58:27,430 --> 00:58:26,079
we have not i'm glad they're looking

1687
00:58:29,589 --> 00:58:27,440
into that totally

1688
00:58:31,750 --> 00:58:29,599

i have no problem with that now some of

1689

00:58:34,789 --> 00:58:31,760

it i think is not explained simply by

1690

00:58:36,390 --> 00:58:34,799

hypersonic technology this there's

1691

00:58:37,510 --> 00:58:36,400

behavior of these docs that's like i

1692

00:58:39,670 --> 00:58:37,520

don't know what that is

1693

00:58:42,230 --> 00:58:39,680

and you know my first thought is it's a

1694

00:58:45,270 --> 00:58:42,240

it's some kind of bug or malfunction

1695

00:58:46,390 --> 00:58:45,280

of the electronics okay that's that

1696

00:58:48,150 --> 00:58:46,400

would be my first thought

1697

00:58:50,950 --> 00:58:48,160

not we're being observed by intelligent

1698

00:58:52,950 --> 00:58:50,960

aliens from another planet

1699

00:58:54,710 --> 00:58:52,960

but that's me now there seems to be

1700

00:58:56,309 --> 00:58:54,720

growing bipartisan support for more

1701

00:58:58,470 --> 00:58:56,319

government funding for research

1702

00:59:00,309 --> 00:58:58,480

into ufos but as republican senator

1703

00:59:02,870 --> 00:59:00,319

marco rubio has pointed out

1704

00:59:04,950 --> 00:59:02,880

a stigma still exists around the issue

1705

00:59:06,069 --> 00:59:04,960

which can prompt giggles and eye rolls

1706

00:59:07,910 --> 00:59:06,079

on capitol hill

1707

00:59:09,589 --> 00:59:07,920

how do we convince lawmakers to think

1708

00:59:13,109 --> 00:59:09,599

less in terms of e.t

1709

00:59:16,069 --> 00:59:13,119

and more like contact or interstellar

1710

00:59:16,789 --> 00:59:16,079

yeah i think the way to destigmatize it

1711

00:59:19,510 --> 00:59:16,799

is

1712

00:59:21,030 --> 00:59:19,520

there are these things showing up in

1713

00:59:22,789 --> 00:59:21,040

military radar

1714

00:59:24,309 --> 00:59:22,799

and we don't know what they are anyone

1715

00:59:26,870 --> 00:59:24,319

who is curious say

1716

00:59:28,390 --> 00:59:26,880

let's go try to figure it out if you

1717

00:59:30,309 --> 00:59:28,400

lead with the idea

1718

00:59:31,589 --> 00:59:30,319

that we're being visited by aliens

1719

00:59:33,030 --> 00:59:31,599

that's

1720

00:59:34,870 --> 00:59:33,040

some people have that as their first

1721

00:59:35,910 --> 00:59:34,880

explanation for what they don't

1722

00:59:38,069 --> 00:59:35,920

understand

1723

00:59:39,670 --> 00:59:38,079

but for a skeptical scientist that would

1724

00:59:42,390 --> 00:59:39,680

probably be the last

1725

00:59:44,150 --> 00:59:42,400

explanation as carl sagan famously said

1726

00:59:46,950 --> 00:59:44,160

extraordinary claims

1727

00:59:48,630 --> 00:59:46,960

require extraordinary evidence not

1728

00:59:50,549 --> 00:59:48,640

monochromatic fuzzy

1729

00:59:56,870 --> 00:59:50,559

navy video of something that looks like

1730

01:00:01,190 --> 00:59:58,150

one of the great challenges in this

1731

01:00:04,230 --> 01:00:01,200

world is knowing enough about a subject

1732

01:00:07,910 --> 01:00:04,240

to think you're right but

1733

01:00:11,109 --> 01:00:07,920

not enough about the subject to know

1734

01:00:14,870 --> 01:00:14,549

all right welcome back um thank you bill

1735

01:00:19,030 --> 01:00:14,880

for

1736

01:00:21,349 --> 01:00:19,040

let's bring in there he is

1737

01:00:23,430 --> 01:00:21,359

brought him over we're back so i hope

1738

01:00:26,470 --> 01:00:23,440

you get a chance to listen to that

1739

01:00:28,470 --> 01:00:26,480

and kind of the irony of how

1740

01:00:30,549 --> 01:00:28,480

that little clip at the very end what do

1741

01:00:32,549 --> 01:00:30,559

you think about that

1742

01:00:34,549 --> 01:00:32,559

yeah i've seen neil degrasse tyson i've

1743

01:00:36,630 --> 01:00:34,559

watched a few of his

1744

01:00:39,670 --> 01:00:36,640

a few of his uh comments i guess on this

1745

01:00:41,030 --> 01:00:39,680

stuff i i don't know i mean i

1746

01:00:43,430 --> 01:00:41,040

i guess i didn't have any big

1747

01:00:45,990 --> 01:00:43,440

expectations for him to say

1748

01:00:47,349 --> 01:00:46,000

anything one way or the other you know

1749

01:00:51,270 --> 01:00:47,359

it is surprising he's

1750

01:00:53,589 --> 01:00:51,280

so that throws out that that example you

1751

01:00:55,109 --> 01:00:53,599

know this is just a radar he obviously

1752

01:00:57,430 --> 01:00:55,119

doesn't know

1753

01:00:59,190 --> 01:00:57,440

what he's talking about right i should

1754

01:00:59,750 --> 01:00:59,200

make a video you know like the mick west

1755

01:01:01,589 --> 01:00:59,760

one like

1756

01:01:03,349 --> 01:01:01,599

wrong you know neil degrasse tyson i'm

1757

01:01:06,309 --> 01:01:03,359

coming after you

1758

01:01:07,829 --> 01:01:06,319

uh exactly yeah i mean i agree he

1759

01:01:11,270 --> 01:01:07,839

doesn't seem to know

1760

01:01:12,630 --> 01:01:11,280

uh what he's talking about because he

1761

01:01:14,230 --> 01:01:12,640

should know it's not just one

1762

01:01:15,829 --> 01:01:14,240

sensor you know for that like i just

1763

01:01:18,549 --> 01:01:15,839

said so we had

1764

01:01:19,670 --> 01:01:18,559

for chad underwood you know you had the

1765

01:01:21,750 --> 01:01:19,680

the ship radar

1766

01:01:22,950 --> 01:01:21,760

you had the f-18s radar and then you

1767

01:01:25,589 --> 01:01:22,960

have the targeting pod

1768

01:01:28,549 --> 01:01:25,599

um so yeah i think he's he kind of comes

1769

01:01:31,510 --> 01:01:28,559

off to me as your standard

1770

01:01:33,109 --> 01:01:31,520

i would say civilian okay doesn't know

1771

01:01:34,549 --> 01:01:33,119

really anything about the military you

1772

01:01:35,670 --> 01:01:34,559

know and again i didn't know anything

1773

01:01:39,349 --> 01:01:35,680

about the military really

1774

01:01:42,470 --> 01:01:39,359

before i joined um but yeah

1775

01:01:44,150 --> 01:01:42,480

it's easy to assume that it's easy to

1776

01:01:44,950 --> 01:01:44,160

come up with a general stereotype of

1777

01:01:48,150 --> 01:01:44,960

what

1778

01:01:50,870 --> 01:01:48,160

military are

1779

01:01:51,990 --> 01:01:50,880

and then kind of what i enjoyed actually

1780

01:01:54,309 --> 01:01:52,000

being in the military and

1781

01:01:55,029 --> 01:01:54,319

living around the world was kind of what

1782

01:01:57,990 --> 01:01:55,039

i did was

1783

01:01:58,549 --> 01:01:58,000

was introduce america to other cultures

1784

01:02:01,750 --> 01:01:58,559

hopefully

1785

01:02:03,670 --> 01:02:01,760

for the better um is that

1786

01:02:06,230 --> 01:02:03,680

you change the stereotypes you know so i

1787

01:02:08,069 --> 01:02:06,240

think it's just i had no expectations he

1788

01:02:11,109 --> 01:02:08,079

has the same stereotype

1789

01:02:14,470 --> 01:02:11,119

i would expect from any other you know

1790

01:02:16,230 --> 01:02:14,480

man of science like i guess

1791

01:02:18,390 --> 01:02:16,240

but that is i think there is there is a

1792

01:02:19,589 --> 01:02:18,400

huge blind spot there is a huge blind

1793

01:02:22,309 --> 01:02:19,599

spot

1794

01:02:24,309 --> 01:02:22,319

uh especially in the astronomical level

1795

01:02:25,990 --> 01:02:24,319

you know when you when you go to the

1796

01:02:29,029 --> 01:02:26,000

using large telescopes when we're

1797

01:02:30,950 --> 01:02:29,039

looking out to to great distances

1798

01:02:32,230 --> 01:02:30,960

and it's it's just very new you know i

1799

01:02:34,630 --> 01:02:32,240

just want everybody to remember that you

1800

01:02:37,029 --> 01:02:34,640

know when did we even like start

1801
01:02:38,069 --> 01:02:37,039
when did we realize there was um you

1802
01:02:40,069 --> 01:02:38,079
know the kuiper belt

1803
01:02:41,670 --> 01:02:40,079
you know or i'm just throwing out these

1804
01:02:44,150 --> 01:02:41,680
random things but it's it's

1805
01:02:45,270 --> 01:02:44,160
it's come very soon you know and and i

1806
01:02:48,710 --> 01:02:45,280
believe we've kind of hit

1807
01:02:51,510 --> 01:02:48,720
a a stopping point in our physics

1808
01:02:52,390 --> 01:02:51,520
uh i've mentioned it um a little bit

1809
01:02:54,069 --> 01:02:52,400
before

1810
01:02:56,069 --> 01:02:54,079
but basically like on the video i

1811
01:02:58,950 --> 01:02:56,079
mentioned today was was dark energy

1812
01:03:01,190 --> 01:02:58,960
right if you look at at basically

1813
01:03:04,230 --> 01:03:01,200

current current physics now

1814

01:03:07,109 --> 01:03:04,240

and the whole time i grew up is

1815

01:03:09,190 --> 01:03:07,119

you know the universe is expanding uh

1816

01:03:11,270 --> 01:03:09,200

it's expanding at a faster rate this was

1817

01:03:14,390 --> 01:03:11,280

very surprising for everybody

1818

01:03:16,870 --> 01:03:14,400

uh and and basically galaxies move

1819

01:03:18,630 --> 01:03:16,880

uh the way they're moving there should

1820

01:03:20,789 --> 01:03:18,640

be like

1821

01:03:22,390 --> 01:03:20,799

at least twice the mass that there is in

1822

01:03:24,230 --> 01:03:22,400

these galaxies right

1823

01:03:25,910 --> 01:03:24,240

if galaxies are the way we understand

1824

01:03:27,349 --> 01:03:25,920

them to be gravity's the way we

1825

01:03:29,510 --> 01:03:27,359

understand

1826

01:03:31,109 --> 01:03:29,520

to be then these galaxies should

1827

01:03:32,630 --> 01:03:31,119

actually be spinning apart right all

1828

01:03:33,910 --> 01:03:32,640

this all these stars on the outside of

1829

01:03:35,829 --> 01:03:33,920

these galaxies should just be

1830

01:03:37,109 --> 01:03:35,839

expanding out because they're spinning

1831

01:03:39,910 --> 01:03:37,119

faster

1832

01:03:40,870 --> 01:03:39,920

than all of our math um takes into

1833

01:03:43,190 --> 01:03:40,880

account

1834

01:03:44,069 --> 01:03:43,200

and so what they do is they they just

1835

01:03:47,349 --> 01:03:44,079

add in this

1836

01:03:49,670 --> 01:03:47,359

other little like fudge factor right

1837

01:03:50,710 --> 01:03:49,680

they add in a fudge factor and they call

1838

01:03:53,190 --> 01:03:50,720

it dark energy

1839

01:03:54,789 --> 01:03:53,200

right yeah to make all their math work

1840

01:03:56,390 --> 01:03:54,799

to make their math work for how the

1841

01:04:00,309 --> 01:03:56,400

universe expands to

1842

01:04:03,670 --> 01:04:00,319

to to make all of these these very long

1843

01:04:05,190 --> 01:04:03,680

uh you know equations which have like 50

1844

01:04:06,230 --> 01:04:05,200

letters in them very few people in the

1845

01:04:08,390 --> 01:04:06,240

world i think even

1846

01:04:10,390 --> 01:04:08,400

really understand them the actual

1847

01:04:12,710 --> 01:04:10,400

equations and to make these equations

1848

01:04:13,589 --> 01:04:12,720

work they add in this fudge factor of

1849

01:04:17,109 --> 01:04:13,599

dark energy

1850

01:04:19,829 --> 01:04:17,119

and dark matter and the number is

1851

01:04:21,029 --> 01:04:19,839

ridiculous you know what is it 85 every

1852

01:04:21,430 --> 01:04:21,039

time it's like a different number you

1853

01:04:23,750 --> 01:04:21,440

know but

1854

01:04:26,549 --> 01:04:23,760

they're basically like 85 wrong i've

1855

01:04:28,870 --> 01:04:26,559

heard that recently

1856

01:04:30,470 --> 01:04:28,880

i heard 95 i went to look on wikipedia

1857

01:04:31,829 --> 01:04:30,480

like what is dark what do they think

1858

01:04:32,549 --> 01:04:31,839

actually dark matter makes up of the

1859

01:04:36,150 --> 01:04:32,559

universe

1860

01:04:41,029 --> 01:04:36,160

dark

1861

01:04:43,829 --> 01:04:41,039

matter

1862

01:04:45,430 --> 01:04:43,839

uh so i think that leaves like i can't

1863

01:04:46,150 --> 01:04:45,440

do math in public it's like eight

1864

01:04:48,230 --> 01:04:46,160

percent

1865

01:04:50,870 --> 01:04:48,240

of the universe is like actual real

1866

01:04:53,829 --> 01:04:50,880

matter that we understand and can uh

1867

01:04:55,589 --> 01:04:53,839

can interact with um which just is

1868

01:04:57,349 --> 01:04:55,599

preposterous to me you know preposterous

1869

01:04:58,950 --> 01:04:57,359

they you know imagine

1870

01:05:00,630 --> 01:04:58,960

you go to take a test you know and

1871

01:05:01,750 --> 01:05:00,640

they're like you got an eight you know

1872

01:05:03,670 --> 01:05:01,760

like

1873

01:05:05,190 --> 01:05:03,680

that's not going to pass you know a

1874

01:05:08,789 --> 01:05:05,200

physicist you're 90

1875

01:05:10,950 --> 01:05:08,799

you're 92 wrong you know um and so i

1876

01:05:14,150 --> 01:05:10,960

think there is a huge

1877

01:05:16,549 --> 01:05:14,160

gaping hole in in the whole realm of

1878

01:05:17,829 --> 01:05:16,559

our understanding of especially the

1879

01:05:19,510 --> 01:05:17,839

outer universe you know as you get

1880

01:05:19,910 --> 01:05:19,520

further away from what we can physically

1881

01:05:22,549 --> 01:05:19,920

touch

1882

01:05:23,190 --> 01:05:22,559

and what we can physically analyze uh it

1883

01:05:25,670 --> 01:05:23,200

just gets

1884

01:05:27,270 --> 01:05:25,680

it gets more and more difficult um and i

1885

01:05:28,870 --> 01:05:27,280

think we're at a definite point

1886

01:05:30,470 --> 01:05:28,880

um so i was reading something before

1887

01:05:32,630 --> 01:05:30,480

where um

1888

01:05:34,069 --> 01:05:32,640

if you look back at you know history i

1889

01:05:36,230 --> 01:05:34,079

guess of science

1890

01:05:37,750 --> 01:05:36,240

uh aristotle you know it's kind of like

1891

01:05:39,589 --> 01:05:37,760

the big first thinker

1892

01:05:41,109 --> 01:05:39,599

um and he came up with this very

1893

01:05:43,029 --> 01:05:41,119

effective model of how

1894

01:05:44,549 --> 01:05:43,039

the world works you know it was

1895

01:05:46,309 --> 01:05:44,559

basically based on everything they

1896

01:05:49,109 --> 01:05:46,319

understood at that time you know in

1897

01:05:51,109 --> 01:05:49,119

in our understanding of the universe you

1898

01:05:53,589 --> 01:05:51,119

know it was like you know there's fire

1899

01:05:54,150 --> 01:05:53,599

you know it's hot so it goes up uh you

1900

01:05:56,549 --> 01:05:54,160

know there's

1901

01:05:58,150 --> 01:05:56,559

liquids uh there's earth and then

1902

01:05:58,630 --> 01:05:58,160

there's animate matter you know i'm not

1903

01:06:20,710 --> 01:05:58,640

a

1904

01:06:22,950 --> 01:06:20,720

fire yes it will

1905

01:06:24,549 --> 01:06:22,960

it will get hot right if something's

1906

01:06:27,670 --> 01:06:24,559

hotter than something else it will

1907

01:06:30,630 --> 01:06:27,680

it will rise um so his his

1908

01:06:31,029 --> 01:06:30,640

model uh for the universe was correct

1909

01:06:34,150 --> 01:06:31,039

for the

1910

01:06:36,390 --> 01:06:34,160

that we had

1911

01:06:37,990 --> 01:06:36,400

uh but it was so correct that it lasted

1912

01:06:39,990 --> 01:06:38,000

for so long that they didn't

1913

01:06:41,510 --> 01:06:40,000

bother like looking into anything else

1914

01:06:43,829 --> 01:06:41,520

you know or they didn't have the need

1915

01:06:44,710 --> 01:06:43,839

you know until they came out with like

1916

01:06:47,670 --> 01:06:44,720

yeah

1917

01:06:48,710 --> 01:06:47,680

the newtonian same thing newton's you

1918

01:06:50,230 --> 01:06:48,720

know newton's laws

1919

01:06:52,549 --> 01:06:50,240

a lot of that's still used today but a

1920

01:06:55,990 --> 01:06:52,559

lot of it was inaccurate and used for

1921

01:06:57,510 --> 01:06:56,000

centuries you know yeah fascinating

1922

01:06:59,430 --> 01:06:57,520

it's not even that it's it's not

1923

01:06:59,990 --> 01:06:59,440

necessarily inaccurate right because if

1924

01:07:02,549 --> 01:07:00,000

you look

1925

01:07:03,349 --> 01:07:02,559

at newtonian so you go aristotle

1926

01:07:05,750 --> 01:07:03,359

essentially

1927

01:07:06,870 --> 01:07:05,760

and then you go into let's say newtonian

1928

01:07:11,430 --> 01:07:06,880

physics

1929

01:07:13,510 --> 01:07:11,440

basically the apple falls

1930

01:07:15,349 --> 01:07:13,520

uh that works very well for like orbital

1931

01:07:16,870 --> 01:07:15,359

mechanics you know so if you're talking

1932

01:07:18,950 --> 01:07:16,880

about making a spacecraft

1933

01:07:20,150 --> 01:07:18,960

which hopefully we can do i can do one

1934

01:07:22,789 --> 01:07:20,160

day is

1935

01:07:23,750 --> 01:07:22,799

it's just newtonian physics you know so

1936

01:07:25,750 --> 01:07:23,760

to get to the moon

1937

01:07:26,870 --> 01:07:25,760

we only needed newtonian physics that's

1938

01:07:28,789 --> 01:07:26,880

why everybody's like well how did you

1939

01:07:30,549 --> 01:07:28,799

get to the moon in 69 well

1940

01:07:32,470 --> 01:07:30,559

they had a lot of chalkboards you know

1941

01:07:34,150 --> 01:07:32,480

and they were really good at

1942

01:07:35,910 --> 01:07:34,160

newtonian math you know they were really

1943

01:07:39,349 --> 01:07:35,920

good at algebra uh

1944

01:07:40,829 --> 01:07:39,359

and all that stuff um but newtonian

1945

01:07:44,230 --> 01:07:40,839

physics will not get you

1946

01:07:45,750 --> 01:07:44,240

gps accuracy so what i talked about you

1947

01:07:47,270 --> 01:07:45,760

know with this targeting pod right when

1948

01:07:49,430 --> 01:07:47,280

you're talking about a targeting pod and

1949

01:07:52,069 --> 01:07:49,440

i get that level of accuracy when i'm

1950

01:07:54,390 --> 01:07:52,079

that level of pointing accuracy

1951

01:07:55,990 --> 01:07:54,400

you need einstein physics so you need

1952

01:07:59,990 --> 01:07:56,000

like electromagnetic

1953

01:08:03,029 --> 01:08:00,000

you need uh very very accurate inss

1954

01:08:04,870 --> 01:08:03,039

right that use laser laser gyros um

1955

01:08:07,270 --> 01:08:04,880

so you're not you know i can't drop a

1956

01:08:09,349 --> 01:08:07,280

bomb on your feet as it you know we said

1957

01:08:10,630 --> 01:08:09,359

uh from miles away with newtonian

1958

01:08:13,430 --> 01:08:10,640

physics you know

1959

01:08:13,750 --> 01:08:13,440

that's what we used in world war ii uh

1960

01:08:16,550 --> 01:08:13,760

and

1961

01:08:17,990 --> 01:08:16,560

this stuff about like mill sizing you

1962

01:08:18,390 --> 01:08:18,000

know what i'm like how do we mill size

1963

01:08:20,550 --> 01:08:18,400

um

1964

01:08:21,910 --> 01:08:20,560

that's like you know the basic bombing

1965

01:08:25,030 --> 01:08:21,920

is old school

1966

01:08:27,269 --> 01:08:25,040

uh military you know angles and gravity

1967

01:08:28,390 --> 01:08:27,279

you know gravity bombing gravity bombing

1968

01:08:31,189 --> 01:08:28,400

essentially

1969

01:08:32,550 --> 01:08:31,199

um and that's that's newtonian physics

1970

01:08:35,669 --> 01:08:32,560

so i just think we've hit

1971

01:08:37,510 --> 01:08:35,679

a stopping point um to where

1972

01:08:39,510 --> 01:08:37,520

we're waiting for the next einstein

1973

01:08:41,510 --> 01:08:39,520

essentially we're waiting for that next

1974

01:08:43,189 --> 01:08:41,520

uh we're waiting for the next

1975

01:08:44,870 --> 01:08:43,199

breakthrough

1976

01:08:47,110 --> 01:08:44,880

but as of now they're just kind of

1977

01:08:49,189 --> 01:08:47,120

talking bs essentially is

1978

01:08:50,550 --> 01:08:49,199

what i consider it you know they're

1979

01:08:52,630 --> 01:08:50,560

their numbers are way off

1980

01:08:54,070 --> 01:08:52,640

you know they have i honestly believe we

1981

01:08:55,829 --> 01:08:54,080

have no clue what we're looking at when

1982

01:08:56,950 --> 01:08:55,839

we look out into the universe and i

1983

01:08:59,910 --> 01:08:56,960

really uh

1984

01:09:00,870 --> 01:08:59,920

i do think that yeah i i think about

1985

01:09:03,669 --> 01:09:00,880

that type of things

1986

01:09:05,669 --> 01:09:03,679

uh those type of things quite a bit and

1987

01:09:09,349 --> 01:09:05,679

also that

1988

01:09:10,789 --> 01:09:09,359

if um we were to know what all this you

1989

01:09:13,349 --> 01:09:10,799

know this matter of

1990

01:09:15,269 --> 01:09:13,359

dark matter whatever if we were to

1991

01:09:16,709 --> 01:09:15,279

figure it out someday maybe we will but

1992

01:09:18,789 --> 01:09:16,719

the fact is that there's

1993

01:09:20,950 --> 01:09:18,799

research going into it tons of money

1994

01:09:23,430 --> 01:09:20,960

going into the research

1995

01:09:25,189 --> 01:09:23,440

and yet um they think it's impossible

1996

01:09:27,430 --> 01:09:25,199

that we may be visited

1997

01:09:28,630 --> 01:09:27,440

um from extraterrestrials and that it's

1998

01:09:32,070 --> 01:09:28,640

a silly thing too

1999

01:09:35,110 --> 01:09:32,080

because they they it can't be done and

2000

01:09:36,950 --> 01:09:35,120

so when i brought up that i had uh seth

2001

01:09:38,309 --> 01:09:36,960

shawstak on a couple of times here from

2002

01:09:40,789 --> 01:09:38,319

the seti um

2003

01:09:41,749 --> 01:09:40,799

institute and i asked him the question i

2004

01:09:45,269 --> 01:09:41,759

said so

2005

01:09:46,950 --> 01:09:45,279

you think ufos are kind of ridiculous

2006

01:09:49,910 --> 01:09:46,960

or whatever they are you know the hubcap

2007

01:09:52,870 --> 01:09:49,920

in the sky i can't remember what he said

2008

01:09:54,229 --> 01:09:52,880

but you but you think there's something

2009

01:09:54,790 --> 01:09:54,239

to dark matter and you think there's

2010

01:09:57,189 --> 01:09:54,800

something

2011

01:09:58,550 --> 01:09:57,199

to dark energy when you can't reach out

2012

01:10:00,310 --> 01:09:58,560

and touch it you know you say you need

2013

01:10:03,270 --> 01:10:00,320

to reach out and touch a ufo

2014

01:10:04,630 --> 01:10:03,280

you can't reach out and touch that no so

2015

01:10:05,350 --> 01:10:04,640

it's kind of an irony you can't even

2016

01:10:10,229 --> 01:10:05,360

detect it

2017

01:10:11,750 --> 01:10:10,239

they're literally saying there is this

2018

01:10:15,270 --> 01:10:11,760

there is this thing

2019

01:10:16,229 --> 01:10:15,280

that we can't interact with because it's

2020

01:10:18,550 --> 01:10:16,239

not real matter

2021

01:10:19,910 --> 01:10:18,560

that's that's what they're saying um

2022

01:10:21,750 --> 01:10:19,920

it's not even

2023

01:10:24,709 --> 01:10:21,760

yeah it's it's more like we we will

2024

01:10:26,070 --> 01:10:24,719

never be able to detect it ultimately

2025

01:10:27,830 --> 01:10:26,080

but you bring up a great point you're

2026

01:10:29,590 --> 01:10:27,840

right i mean look at all the evidence

2027

01:10:31,830 --> 01:10:29,600

you know if

2028

01:10:32,709 --> 01:10:31,840

and that's what the fravor really did is

2029

01:10:34,229 --> 01:10:32,719

i was

2030

01:10:35,910 --> 01:10:34,239

and it's still ongoing like i don't

2031

01:10:39,030 --> 01:10:35,920

fully believe that you know i said this

2032

01:10:39,830 --> 01:10:39,040

um i think it's a process for people to

2033

01:10:41,750 --> 01:10:39,840

kind of

2034

01:10:43,350 --> 01:10:41,760

go into this changing of your world view

2035

01:10:45,669 --> 01:10:43,360

um

2036

01:10:46,390 --> 01:10:45,679

but basically there is a lens you know

2037

01:10:48,630 --> 01:10:46,400

it

2038

01:10:50,870 --> 01:10:48,640

anyone who says they're not biased is is

2039

01:10:51,270 --> 01:10:50,880

is just literally wrong like physically

2040

01:10:53,430 --> 01:10:51,280

wrong

2041

01:10:54,950 --> 01:10:53,440

you know they're our brains will all put

2042

01:10:56,390 --> 01:10:54,960

a filter in front of us you know our

2043

01:10:57,510 --> 01:10:56,400

brains are processing all of our

2044

01:11:00,870 --> 01:10:57,520

information

2045

01:11:03,110 --> 01:11:00,880

um and as pilots again you become

2046

01:11:05,030 --> 01:11:03,120

very attuned to this uh of what your

2047

01:11:06,310 --> 01:11:05,040

brain is being brought you know what

2048

01:11:08,070 --> 01:11:06,320

information you're receiving what

2049

01:11:11,270 --> 01:11:08,080

information you're processing

2050

01:11:13,030 --> 01:11:11,280

and when it's wrong you know because

2051

01:11:14,950 --> 01:11:13,040

ultimately you could die or someone else

2052

01:11:15,910 --> 01:11:14,960

you could die so you become very attuned

2053

01:11:18,310 --> 01:11:15,920

to like uh

2054

01:11:19,270 --> 01:11:18,320

information that we're processing and

2055

01:11:22,790 --> 01:11:19,280

what you realize

2056

01:11:25,189 --> 01:11:22,800

i mean we're all biased at some point

2057

01:11:26,630 --> 01:11:25,199

uh but when fraver when i was able to i

2058

01:11:29,110 --> 01:11:26,640

guess

2059

01:11:30,310 --> 01:11:29,120

listen to his words and and imagine i

2060

01:11:33,350 --> 01:11:30,320

was there

2061

01:11:36,390 --> 01:11:33,360

uh it it made it possible

2062

01:11:38,229 --> 01:11:36,400

you know it made it possible in my brain

2063

01:11:39,590 --> 01:11:38,239

and with that now it's almost like a

2064

01:11:41,510 --> 01:11:39,600

filter is removed

2065

01:11:43,510 --> 01:11:41,520

and now when i go back and i look at old

2066

01:11:45,430 --> 01:11:43,520

cases you know i was looking at um

2067

01:11:47,510 --> 01:11:45,440

glenn davis have you seen that interview

2068

01:11:51,030 --> 01:11:47,520

it's uh it's in the national archives

2069

01:11:53,669 --> 01:11:51,040

uh he was a coroner in roswell

2070

01:11:54,229 --> 01:11:53,679

oh yes he was a contractor yeah it gives

2071

01:11:57,270 --> 01:11:54,239

a very

2072

01:12:01,030 --> 01:11:57,280

compelling um interview you know

2073

01:12:03,510 --> 01:12:01,040

uh why would this man lie about

2074

01:12:05,510 --> 01:12:03,520

you know these seeing these aliens with

2075

01:12:07,590 --> 01:12:05,520

such specific detail

2076

01:12:10,470 --> 01:12:07,600

and and and again if you know we put

2077

01:12:11,990 --> 01:12:10,480

people to death for witness testimony

2078

01:12:13,750 --> 01:12:12,000

but this is not good enough for these

2079

01:12:15,910 --> 01:12:13,760

scientists you know because

2080

01:12:17,910 --> 01:12:15,920

and yet dark energy you know they will

2081

01:12:20,149 --> 01:12:17,920

know here's another one i'm sure i'm

2082

01:12:23,990 --> 01:12:20,159

going to get heat for this one but

2083

01:12:26,630 --> 01:12:24,000

so they they literally claim to know

2084

01:12:27,830 --> 01:12:26,640

claim to know when the beginning of the

2085

01:12:30,229 --> 01:12:27,840

universe is

2086

01:12:30,950 --> 01:12:30,239

i mean just think about this right i

2087

01:12:32,470 --> 01:12:30,960

mean we can

2088

01:12:34,390 --> 01:12:32,480

half the people in america don't even

2089

01:12:35,830 --> 01:12:34,400

believe in evolution you know

2090

01:12:37,990 --> 01:12:35,840

or whatever the numbers it was

2091

01:12:39,669 --> 01:12:38,000

exceptionally high uh when i've looked

2092

01:12:41,990 --> 01:12:39,679

in the past but

2093

01:12:43,350 --> 01:12:42,000

and and we're here on the planet uh and

2094

01:12:45,189 --> 01:12:43,360

we can find evidence

2095

01:12:46,390 --> 01:12:45,199

you know um same thing we don't know

2096

01:12:48,229 --> 01:12:46,400

what these uaps are

2097

01:12:50,550 --> 01:12:48,239

right it's been 70 years we still can't

2098

01:12:52,550 --> 01:12:50,560

figure out what these uaps are

2099

01:12:54,229 --> 01:12:52,560

and yet our scientists say that they

2100

01:12:56,070 --> 01:12:54,239

know within a few

2101

01:12:57,830 --> 01:12:56,080

whatever million years that we know when

2102

01:13:00,070 --> 01:12:57,840

the beginning of the universe is

2103

01:13:01,669 --> 01:13:00,080

you know and yeah i don't know it's hard

2104

01:13:04,070 --> 01:13:01,679

for me to take them seriously

2105

01:13:05,430 --> 01:13:04,080

actually after that well i've take uh

2106

01:13:07,430 --> 01:13:05,440

i've asked that to every single

2107

01:13:09,189 --> 01:13:07,440

astronomer that i've had

2108

01:13:10,709 --> 01:13:09,199

on this show which has been quite a

2109

01:13:12,870 --> 01:13:10,719

number over the years

2110

01:13:14,790 --> 01:13:12,880

i've asked them do you think it's

2111

01:13:15,990 --> 01:13:14,800

possible that the big bang theory could

2112

01:13:19,510 --> 01:13:16,000

be wrong

2113

01:13:21,750 --> 01:13:19,520

and so far every one of them has said

2114

01:13:22,950 --> 01:13:21,760

uh no all the evidence that we have

2115

01:13:25,510 --> 01:13:22,960

points to that

2116

01:13:26,870 --> 01:13:25,520

and so and then the next question i

2117

01:13:30,630 --> 01:13:26,880

always ask them after that

2118

01:13:33,750 --> 01:13:30,640

is uh what do you think uh was before

2119

01:13:37,030 --> 01:13:33,760

the big bang you know just

2120

01:13:38,390 --> 01:13:37,040

what was what was before that and a lot

2121

01:13:39,110 --> 01:13:38,400

of them i think two or three of them

2122

01:13:41,830 --> 01:13:39,120

have said they

2123

01:13:42,310 --> 01:13:41,840

they think that is the beginning of time

2124

01:13:46,390 --> 01:13:42,320

which

2125

01:13:48,070 --> 01:13:46,400

um is another mind-boggling

2126
01:13:49,830 --> 01:13:48,080
and i'm sure the real answer whatever

2127
01:13:51,510 --> 01:13:49,840
the real answer may be is going to be

2128
01:13:54,390 --> 01:13:51,520
mind-boggling

2129
01:13:56,310 --> 01:13:54,400
you know yeah the whole big bang it

2130
01:13:58,790 --> 01:13:56,320
sounds too much to me like the

2131
01:14:00,310 --> 01:13:58,800
the end of the map just falls into you

2132
01:14:02,390 --> 01:14:00,320
know there's a waterfall

2133
01:14:04,070 --> 01:14:02,400
and it goes into like you know dragons

2134
01:14:05,350 --> 01:14:04,080
at the bottom

2135
01:14:07,189 --> 01:14:05,360
that's just what i see you know when

2136
01:14:08,229 --> 01:14:07,199
humans looked at when we looked out and

2137
01:14:10,550 --> 01:14:08,239
we saw like

2138
01:14:12,630 --> 01:14:10,560

the end of the the ocean you know we

2139

01:14:14,470 --> 01:14:12,640

just imagine oh it must just drop off

2140

01:14:16,070 --> 01:14:14,480

yeah not that we're on a ball right not

2141

01:14:16,550 --> 01:14:16,080

that it's uh we're on a curved surface

2142

01:14:21,110 --> 01:14:16,560

which

2143

01:14:22,229 --> 01:14:21,120

actually think that that is the reality

2144

01:14:23,430 --> 01:14:22,239

if you could imagine

2145

01:14:25,430 --> 01:14:23,440

you know you really thought the earth

2146

01:14:27,350 --> 01:14:25,440

was flat and all of a sudden everyone's

2147

01:14:29,750 --> 01:14:27,360

telling you it's round

2148

01:14:31,990 --> 01:14:29,760

you know it took 150 it did take 150

2149

01:14:34,070 --> 01:14:32,000

years for us to kind of

2150

01:14:36,470 --> 01:14:34,080

to humanity i guess to internalize this

2151
01:14:37,270 --> 01:14:36,480
maybe it just takes 150 years for us to

2152
01:14:41,189 --> 01:14:37,280
like

2153
01:14:44,229 --> 01:14:41,199
internalize alien life um

2154
01:14:44,550 --> 01:14:44,239
yeah well i i think there a lot of a lot

2155
01:14:47,669 --> 01:14:44,560
of

2156
01:14:48,870 --> 01:14:47,679
astrophysicists that have spoken to um

2157
01:14:51,910 --> 01:14:48,880
do believe there's

2158
01:14:54,470 --> 01:14:51,920
you know a really really strong chance

2159
01:14:54,950 --> 01:14:54,480
that there is intelligent life out there

2160
01:14:57,350 --> 01:14:54,960
um

2161
01:14:58,070 --> 01:14:57,360
but but they'll then they always follow

2162
01:15:00,390 --> 01:14:58,080
it up with

2163
01:15:01,350 --> 01:15:00,400

the distances they're too far to get

2164

01:15:03,750 --> 01:15:01,360

here

2165

01:15:05,189 --> 01:15:03,760

and the distances are totally vast i

2166

01:15:06,870 --> 01:15:05,199

totally understand that

2167

01:15:08,310 --> 01:15:06,880

but again we're talking about physics

2168

01:15:09,990 --> 01:15:08,320

maybe there's something

2169

01:15:12,070 --> 01:15:10,000

about physics that we haven't discovered

2170

01:15:14,709 --> 01:15:12,080

yet that can make the difference

2171

01:15:15,669 --> 01:15:14,719

i mean without a doubt um just look at

2172

01:15:19,189 --> 01:15:15,679

it this way so it

2173

01:15:19,750 --> 01:15:19,199

as you go smaller um the physics totally

2174

01:15:21,830 --> 01:15:19,760

changes

2175

01:15:23,510 --> 01:15:21,840

right so there's physics at our level

2176
01:15:24,149 --> 01:15:23,520
but now you go down to the size of an

2177
01:15:28,630 --> 01:15:24,159
ant

2178
01:15:30,630 --> 01:15:28,640
water droplet

2179
01:15:32,550 --> 01:15:30,640
so if you know you can trap an ant in a

2180
01:15:35,189 --> 01:15:32,560
water droplet right and now just

2181
01:15:36,790 --> 01:15:35,199
just the water tension on that little

2182
01:15:40,470 --> 01:15:36,800
water droplet

2183
01:15:42,790 --> 01:15:40,480
can trap that ant so basically you have

2184
01:15:44,070 --> 01:15:42,800
you have arguably the strongest creature

2185
01:15:46,070 --> 01:15:44,080
you know one of the strongest creatures

2186
01:15:47,830 --> 01:15:46,080
on on our planet essentially

2187
01:15:50,709 --> 01:15:47,840
for body weight and they can be trapped

2188
01:15:53,270 --> 01:15:50,719

by just a droplet of water

2189

01:15:53,910 --> 01:15:53,280

um because you know the physics at that

2190

01:15:56,310 --> 01:15:53,920

size

2191

01:15:57,669 --> 01:15:56,320

is is totally different you know your

2192

01:16:00,070 --> 01:15:57,679

hypertension

2193

01:16:01,270 --> 01:16:00,080

of the water is strong compared to an

2194

01:16:02,870 --> 01:16:01,280

ant whereas an ant

2195

01:16:04,470 --> 01:16:02,880

one of the strongest animals you know

2196

01:16:06,390 --> 01:16:04,480

has no problem

2197

01:16:07,750 --> 01:16:06,400

outside of that and that's just if you

2198

01:16:09,830 --> 01:16:07,760

go to that level so

2199

01:16:11,110 --> 01:16:09,840

now you go down even further and it gets

2200

01:16:12,950 --> 01:16:11,120

even weirder

2201

01:16:15,270 --> 01:16:12,960

right it gets it gets much weirder if we

2202

01:16:16,870 --> 01:16:15,280

go down to quantum physics

2203

01:16:19,350 --> 01:16:16,880

essentially the physics are totally

2204

01:16:21,110 --> 01:16:19,360

different you know if you look at

2205

01:16:22,550 --> 01:16:21,120

all your quantum physics is like it

2206

01:16:24,950 --> 01:16:22,560

literally is another world

2207

01:16:26,229 --> 01:16:24,960

you know so as we're peering down

2208

01:16:29,990 --> 01:16:26,239

further and further

2209

01:16:32,870 --> 01:16:30,000

into uh i call it another dimension

2210

01:16:33,750 --> 01:16:32,880

actually as you're looking down into the

2211

01:16:35,430 --> 01:16:33,760

quantum realm

2212

01:16:38,470 --> 01:16:35,440

i i believe you're looking into we're

2213

01:16:40,550 --> 01:16:38,480

looking into another dimension

2214

01:16:42,630 --> 01:16:40,560

and there is actually where the physics

2215

01:16:43,990 --> 01:16:42,640

are totally different

2216

01:16:45,990 --> 01:16:44,000

so now you you know you have two

2217

01:16:47,430 --> 01:16:46,000

particles you have the heisenberg

2218

01:16:49,750 --> 01:16:47,440

uncertainty principle right

2219

01:16:50,950 --> 01:16:49,760

anything you look at essentially as soon

2220

01:16:52,470 --> 01:16:50,960

as you look at it it does

2221

01:16:54,149 --> 01:16:52,480

it's not there anymore all right because

2222

01:16:55,990 --> 01:16:54,159

you stopped it there's so many weird

2223

01:16:59,830 --> 01:16:56,000

things quantum entanglement

2224

01:17:02,470 --> 01:16:59,840

uh just um just solid state physics

2225

01:17:03,350 --> 01:17:02,480

you know i don't think anyone really

2226

01:17:05,270 --> 01:17:03,360

understands

2227

01:17:06,950 --> 01:17:05,280

you know how a photon does not actually

2228

01:17:09,750 --> 01:17:06,960

go from one place to the next

2229

01:17:10,149 --> 01:17:09,760

or or an electron you know it doesn't go

2230

01:17:12,790 --> 01:17:10,159

from

2231

01:17:15,030 --> 01:17:12,800

one energy state of an atom and and

2232

01:17:16,229 --> 01:17:15,040

smoothly linearly go to the next energy

2233

01:17:17,910 --> 01:17:16,239

state

2234

01:17:19,510 --> 01:17:17,920

you know it jumps that's why it's called

2235

01:17:22,790 --> 01:17:19,520

quantum

2236

01:17:25,030 --> 01:17:22,800

so your physics literally

2237

01:17:27,030 --> 01:17:25,040

completely changes as we go smaller

2238

01:17:30,070 --> 01:17:27,040

right into the quantum realm

2239

01:17:32,310 --> 01:17:30,080

but now as we go bigger we ex we

2240

01:17:33,510 --> 01:17:32,320

expect this physics to be exactly the

2241

01:17:36,709 --> 01:17:33,520

same as what we are

2242

01:17:38,790 --> 01:17:36,719

what we have at this level and and

2243

01:17:40,709 --> 01:17:38,800

as you go slow as you go smaller it does

2244

01:17:42,790 --> 01:17:40,719

not make right it totally changes

2245

01:17:44,870 --> 01:17:42,800

so why do we expect as we go bigger that

2246

01:17:46,070 --> 01:17:44,880

the uh that the physics would be

2247

01:17:47,990 --> 01:17:46,080

would be the same you know it's

2248

01:17:49,189 --> 01:17:48,000

completely different any other any other

2249

01:17:50,390 --> 01:17:49,199

way so

2250

01:17:52,470 --> 01:17:50,400

that's what i would say out of it

2251

01:17:54,310 --> 01:17:52,480

exactly like that that's interesting

2252

01:17:55,990 --> 01:17:54,320

um so i want to talk about some of the

2253

01:17:58,950 --> 01:17:56,000

videos first of all

2254

01:18:00,070 --> 01:17:58,960

when you were looking at these videos as

2255

01:18:02,709 --> 01:18:00,080

a pilot

2256

01:18:03,110 --> 01:18:02,719

um what was your first were you shocked

2257

01:18:07,030 --> 01:18:03,120

by

2258

01:18:12,070 --> 01:18:09,510

yeah i mean it's the the video i made

2259

01:18:13,510 --> 01:18:12,080

was literally the

2260

01:18:15,110 --> 01:18:13,520

i was shocked in that video i wasn't

2261

01:18:17,270 --> 01:18:15,120

acting you know

2262

01:18:18,709 --> 01:18:17,280

basically late at night i'm filming the

2263

01:18:21,430 --> 01:18:18,719

video and i'm just like

2264

01:18:22,390 --> 01:18:21,440

and i watched lou elizondo and he's he's

2265

01:18:24,229 --> 01:18:22,400

on 60 minutes

2266

01:18:26,630 --> 01:18:24,239

and he said basically all the

2267

01:18:27,990 --> 01:18:26,640

capabilities these things had

2268

01:18:29,990 --> 01:18:28,000

and they said they were tracked by

2269

01:18:32,630 --> 01:18:30,000

multiple sources you know where that's

2270

01:18:34,390 --> 01:18:32,640

where that kind of cued me was

2271

01:18:36,070 --> 01:18:34,400

you know they've declassified this they

2272

01:18:40,470 --> 01:18:36,080

said it's been tracked by

2273

01:18:43,510 --> 01:18:40,480

multiple sources um and they have

2274

01:18:46,149 --> 01:18:43,520

a video as well plus along with with

2275

01:18:47,830 --> 01:18:46,159

fravor's account so

2276

01:18:49,189 --> 01:18:47,840

so for me honestly i'm still kind of

2277

01:18:50,870 --> 01:18:49,199

processing it you know for

2278

01:18:52,870 --> 01:18:50,880

for a week i just kind of just walked

2279

01:18:54,550 --> 01:18:52,880

around like outside you know just

2280

01:18:55,430 --> 01:18:54,560

looking up like man am i being followed

2281

01:18:57,350 --> 01:18:55,440

or something you know i

2282

01:18:59,669 --> 01:18:57,360

i don't know there is a weird mental

2283

01:19:01,990 --> 01:18:59,679

process as you go through this

2284

01:19:03,830 --> 01:19:02,000

um of seeing these videos but the

2285

01:19:04,310 --> 01:19:03,840

weirdest part was that gimbal video

2286

01:19:06,229 --> 01:19:04,320

right so

2287

01:19:07,990 --> 01:19:06,239

i'm you know i'm researching analyzing

2288

01:19:11,110 --> 01:19:08,000

the gimbal video for for for

2289

01:19:12,790 --> 01:19:11,120

my video and i and i i've seen it

2290

01:19:15,110 --> 01:19:12,800

i've watched that video so many times at

2291

01:19:16,630 --> 01:19:15,120

that point that i could see it you know

2292

01:19:18,470 --> 01:19:16,640

i could kind of see the image like i

2293

01:19:20,390 --> 01:19:18,480

said you kind of meld you know i it's in

2294

01:19:23,830 --> 01:19:20,400

infrared it looks blurry to you guys but

2295

01:19:25,110 --> 01:19:23,840

i see much more um and so i tried to

2296

01:19:26,390 --> 01:19:25,120

find a photo of it

2297

01:19:28,070 --> 01:19:26,400

you know i was like hey this is what i

2298

01:19:30,950 --> 01:19:28,080

think it looks like so i was looking

2299

01:19:32,790 --> 01:19:30,960

around on the internet to try and find

2300

01:19:34,149 --> 01:19:32,800

an actual image and i thought it'd be

2301
01:19:35,750 --> 01:19:34,159
easy you know i was like it looks like a

2302
01:19:37,510 --> 01:19:35,760
flying saucer you know like

2303
01:19:39,350 --> 01:19:37,520
the one you see everywhere but when i

2304
01:19:40,149 --> 01:19:39,360
started looking i couldn't find like a

2305
01:19:42,149 --> 01:19:40,159
drawing of it

2306
01:19:43,350 --> 01:19:42,159
there was no good drawing of this flying

2307
01:19:46,550 --> 01:19:43,360
sauce you know i was like no

2308
01:19:50,550 --> 01:19:46,560
no no you know so the only

2309
01:19:53,590 --> 01:19:50,560
the best actual picture of it was

2310
01:19:55,189 --> 01:19:53,600
you know from a 1952 photo

2311
01:19:57,510 --> 01:19:55,199
you know it's this black and white photo

2312
01:19:58,870 --> 01:19:57,520
it has the the flying saucer at an angle

2313
01:20:00,310 --> 01:19:58,880

there's like a tree i don't know maybe

2314

01:20:01,910 --> 01:20:00,320

it's a famous one

2315

01:20:04,149 --> 01:20:01,920

um and i was like that's it you know

2316

01:20:05,510 --> 01:20:04,159

that is that's what i'm seeing in the

2317

01:20:07,030 --> 01:20:05,520

gimbal and that like

2318

01:20:08,229 --> 01:20:07,040

that blew me away you know i just i just

2319

01:20:08,870 --> 01:20:08,239

couldn't believe it because i looked

2320

01:20:10,550 --> 01:20:08,880

through

2321

01:20:12,550 --> 01:20:10,560

for like 20 minutes i looked online you

2322

01:20:13,110 --> 01:20:12,560

know because you know as a creator

2323

01:20:14,149 --> 01:20:13,120

you're always

2324

01:20:16,229 --> 01:20:14,159

sometimes you're looking for these

2325

01:20:17,990 --> 01:20:16,239

random things yep

2326

01:20:19,510 --> 01:20:18,000

and i just couldn't find it i think what

2327

01:20:22,870 --> 01:20:19,520

you're describing there

2328

01:20:23,590 --> 01:20:22,880

is the billy meyer photo um which ends

2329

01:20:25,430 --> 01:20:23,600

up

2330

01:20:27,430 --> 01:20:25,440

being uh i mean it's a great looking

2331

01:20:28,790 --> 01:20:27,440

photo but i think i mean i'll have

2332

01:20:31,270 --> 01:20:28,800

you'll have to send it it's a faker

2333

01:20:32,070 --> 01:20:31,280

watch it be a fake you're like damn it

2334

01:20:35,430 --> 01:20:32,080

after this last

2335

01:20:38,070 --> 01:20:35,440

week i'm sure yeah yeah but

2336

01:20:38,790 --> 01:20:38,080

but um let's talk about um let's talk

2337

01:20:40,310 --> 01:20:38,800

about we have

2338

01:20:42,070 --> 01:20:40,320

we have about seven or eight minutes

2339

01:20:44,229 --> 01:20:42,080

we're going to start taking calls and i

2340

01:20:46,390 --> 01:20:44,239

do apologize tonight for the people

2341

01:20:48,070 --> 01:20:46,400

in chat i haven't been able to ask any

2342

01:20:49,189 --> 01:20:48,080

of your questions i apologize but you'll

2343

01:20:52,229 --> 01:20:49,199

get a chance to

2344

01:20:53,990 --> 01:20:52,239

call in in a few minutes coming up um

2345

01:20:55,590 --> 01:20:54,000

but uh and next week i should have a

2346

01:20:57,110 --> 01:20:55,600

power pack for my computer if i have to

2347

01:21:01,110 --> 01:20:57,120

be out here again at the boat

2348

01:21:02,709 --> 01:21:01,120

so um let's talk about how you analyze i

2349

01:21:05,590 --> 01:21:02,719

i watched your

2350

01:21:06,229 --> 01:21:05,600

on the omaha uh video the other day as

2351

01:21:09,510 --> 01:21:06,239

well

2352

01:21:11,750 --> 01:21:09,520

uh and out of all the videos that you

2353

01:21:14,070 --> 01:21:11,760

looked through and you tried to do your

2354

01:21:15,750 --> 01:21:14,080

work on what do you think is the most

2355

01:21:18,149 --> 01:21:15,760

astounding of all them that you've

2356

01:21:21,990 --> 01:21:18,159

looked at in these four or five videos

2357

01:21:27,030 --> 01:21:25,350

i guess for most astounding uh

2358

01:21:28,950 --> 01:21:27,040

i mean that so i was just looking again

2359

01:21:30,870 --> 01:21:28,960

at i originally kind of discounted the

2360

01:21:33,830 --> 01:21:30,880

flear video

2361

01:21:35,189 --> 01:21:33,840

um but then you know i i changed changed

2362

01:21:37,110 --> 01:21:35,199

my mind a little bit because you can

2363

01:21:40,149 --> 01:21:37,120

clearly see at the end

2364

01:21:42,070 --> 01:21:40,159

uh the maneuver that thing does is

2365

01:21:43,430 --> 01:21:42,080

we can we can't do that it just cannot

2366

01:21:45,189 --> 01:21:43,440

be done you know

2367

01:21:46,790 --> 01:21:45,199

i guess you could say the gimbal the

2368

01:21:48,790 --> 01:21:46,800

gimbal is unbelievable right like i just

2369

01:21:49,669 --> 01:21:48,800

said like it's a flying saucer i see it

2370

01:21:53,430 --> 01:21:49,679

levitating

2371

01:21:55,350 --> 01:21:53,440

but i guess like i guess you could

2372

01:21:57,110 --> 01:21:55,360

somehow like fake that maybe the end of

2373

01:21:59,830 --> 01:21:57,120

the day you have some

2374

01:22:00,310 --> 01:21:59,840

crap i don't know maybe i don't know i

2375

01:22:03,350 --> 01:22:00,320

don't know

2376

01:22:04,950 --> 01:22:03,360

uh it's not doing any like crazy ping

2377

01:22:06,950 --> 01:22:04,960

pong maneuvers that i would like to see

2378

01:22:08,229 --> 01:22:06,960

you know when fraver talks about this he

2379

01:22:09,990 --> 01:22:08,239

says it moves you know when he

2380

01:22:12,070 --> 01:22:10,000

originally talks about the tic tac he

2381

01:22:13,669 --> 01:22:12,080

says it moves without inertia

2382

01:22:15,350 --> 01:22:13,679

yeah you know and and i totally know

2383

01:22:17,189 --> 01:22:15,360

what that i think that would look like

2384

01:22:19,590 --> 01:22:17,199

you hold up you know a laser

2385

01:22:21,189 --> 01:22:19,600

uh like a laser pointer you know a cat

2386

01:22:23,030 --> 01:22:21,199

if you move that around it's almost like

2387

01:22:25,830 --> 01:22:23,040

these things are moving around

2388

01:22:28,070 --> 01:22:25,840

um almost like laser pointers are

2389

01:22:31,189 --> 01:22:28,080

bouncing around

2390

01:22:32,950 --> 01:22:31,199

um which again i've had a weird thought

2391

01:22:34,550 --> 01:22:32,960

it it you know i've thought a lot about

2392

01:22:37,669 --> 01:22:34,560

what these things

2393

01:22:39,830 --> 01:22:37,679

could possibly be and when i first heard

2394

01:22:41,510 --> 01:22:39,840

fravor

2395

01:22:43,030 --> 01:22:41,520

you know in the oppression i got

2396

01:22:45,590 --> 01:22:43,040

basically how the thing flew

2397

01:22:46,709 --> 01:22:45,600

my my initial impression was like

2398

01:22:49,030 --> 01:22:46,719

intergalactic

2399

01:22:51,110 --> 01:22:49,040

b like that's kind of what i thought you

2400

01:22:52,870 --> 01:22:51,120

know this it feels like a bee

2401

01:22:54,950 --> 01:22:52,880

that's just out there kind of foraging

2402

01:22:55,669 --> 01:22:54,960

around and then we get too close to it

2403

01:22:58,310 --> 01:22:55,679

and it like

2404

01:23:00,470 --> 01:22:58,320

just like flies off you know i don't

2405

01:23:02,070 --> 01:23:00,480

know if that's

2406

01:23:03,510 --> 01:23:02,080

if that's anyway the case but that's

2407

01:23:07,910 --> 01:23:03,520

kind of the impression i get

2408

01:23:10,229 --> 01:23:07,920

um is that i actually get what

2409

01:23:12,950 --> 01:23:10,239

it was reacting kind of like an insect

2410

01:23:14,950 --> 01:23:12,960

in a way it sounded like

2411

01:23:16,790 --> 01:23:14,960

yeah i don't know it and that's what i

2412

01:23:17,910 --> 01:23:16,800

guess i would expect alien life to be

2413

01:23:20,310 --> 01:23:17,920

like you know we always

2414

01:23:22,070 --> 01:23:20,320

we get these and that's where i kind of

2415

01:23:23,030 --> 01:23:22,080

thought i always discounted like the

2416

01:23:25,910 --> 01:23:23,040

gray alien

2417

01:23:27,590 --> 01:23:25,920

you know kind of uh argument is that

2418

01:23:29,910 --> 01:23:27,600

it's just too convenient you know it

2419

01:23:32,950 --> 01:23:29,920

just seems way too convenient

2420

01:23:36,149 --> 01:23:32,960

uh that alien life would would

2421

01:23:37,189 --> 01:23:36,159

even be remotely uh close to us you know

2422

01:23:39,189 --> 01:23:37,199

it would be shaped like

2423

01:23:40,709 --> 01:23:39,199

us or have the same eye you know you

2424

01:23:41,189 --> 01:23:40,719

could argue the grays are you know

2425

01:23:43,350 --> 01:23:41,199

whatever

2426

01:23:44,390 --> 01:23:43,360

very different but it was almost too

2427

01:23:47,990 --> 01:23:44,400

convenient for me

2428

01:23:49,990 --> 01:23:48,000

um to where i think it feels more like

2429

01:23:51,910 --> 01:23:50,000

a real alien life to have this kind of

2430

01:23:53,270 --> 01:23:51,920

thing that doesn't really interact with

2431

01:23:53,910 --> 01:23:53,280

us because it doesn't really know what

2432

01:23:56,950 --> 01:23:53,920

we are

2433

01:23:57,669 --> 01:23:56,960

um you know maybe it's not it doesn't

2434

01:24:00,229 --> 01:23:57,679

have all those

2435

01:24:01,830 --> 01:24:00,239

capabilities to to actually think maybe

2436

01:24:03,270 --> 01:24:01,840

it's you know maybe it isn't

2437

01:24:05,189 --> 01:24:03,280

super intelligent life maybe we're just

2438

01:24:08,709 --> 01:24:05,199

seeing you know life

2439

01:24:10,790 --> 01:24:08,719

you know alien life um yeah or

2440

01:24:12,149 --> 01:24:10,800

um you know the technology a lot of a

2441

01:24:14,629 --> 01:24:12,159

lot of people have when it

2442

01:24:16,070 --> 01:24:14,639

comes to the drones i mean when it comes

2443

01:24:18,390 --> 01:24:16,080

to the technology of

2444

01:24:19,510 --> 01:24:18,400

the uh things like the tic tac for

2445

01:24:22,470 --> 01:24:19,520

instance

2446

01:24:24,070 --> 01:24:22,480

uh and what it was doing ours you know

2447

01:24:26,310 --> 01:24:24,080

make this suggestion

2448

01:24:27,189 --> 01:24:26,320

that it could be yes it could be alien

2449

01:24:30,550 --> 01:24:27,199

technology

2450

01:24:31,910 --> 01:24:30,560

possibly and maybe it's a drone um which

2451

01:24:34,950 --> 01:24:31,920

i thought was an interesting

2452

01:24:37,270 --> 01:24:34,960

take on that you know and that yeah the

2453

01:24:40,229 --> 01:24:37,280

von neumann grooms yeah

2454

01:24:40,470 --> 01:24:40,239

yeah and then one of you know uh i when

2455

01:24:44,470 --> 01:24:40,480

i

2456

01:24:46,550 --> 01:24:44,480

when he was on the show

2457

01:24:48,070 --> 01:24:46,560

he suggested that if there was ever any

2458

01:24:50,310 --> 01:24:48,080

alien life here

2459

01:24:52,149 --> 01:24:50,320

coming here to visit it would have to be

2460

01:24:55,350 --> 01:24:52,159

technological like a drone

2461

01:24:58,070 --> 01:24:55,360

um because uh you know the the

2462

01:25:00,310 --> 01:24:58,080

time distance and you know the the

2463

01:25:03,270 --> 01:25:00,320

thousands of years that we take etc

2464

01:25:04,870 --> 01:25:03,280

and you know i mean there could be an

2465

01:25:06,550 --> 01:25:04,880

argument for that but again going back

2466

01:25:07,990 --> 01:25:06,560

there could be something about physics

2467

01:25:10,070 --> 01:25:08,000

as i said earlier that we haven't

2468

01:25:11,590 --> 01:25:10,080

figured out yet as well well i was

2469

01:25:13,830 --> 01:25:11,600

watching a recent uh

2470

01:25:15,430 --> 01:25:13,840

interview recently i'm sorry i can't

2471

01:25:17,350 --> 01:25:15,440

tell you exactly

2472

01:25:19,430 --> 01:25:17,360

but basically they were saying that the

2473

01:25:21,430 --> 01:25:19,440

the time dilation works both ways

2474

01:25:22,790 --> 01:25:21,440

so if you were to go say you were you

2475

01:25:26,310 --> 01:25:22,800

could travel at

2476

01:25:28,390 --> 01:25:26,320

a tenth the speed of light um so it

2477

01:25:29,910 --> 01:25:28,400

from an outside observer yes it would

2478

01:25:32,070 --> 01:25:29,920

take you say

2479

01:25:33,669 --> 01:25:32,080

20 000 years to reach whatever alpha

2480

01:25:35,830 --> 01:25:33,679

centauri you know

2481

01:25:36,790 --> 01:25:35,840

that's probably probably too much uh but

2482

01:25:39,270 --> 01:25:36,800

actually for you

2483

01:25:41,270 --> 01:25:39,280

it would only be like 30 or 40 years

2484

01:25:42,550 --> 01:25:41,280

because since you're traveling so fast

2485

01:25:45,910 --> 01:25:42,560

your time

2486

01:25:47,669 --> 01:25:45,920

it gets crunched essentially so for you

2487

01:25:49,669 --> 01:25:47,679

it's only like 30 or 40 years

2488

01:25:51,189 --> 01:25:49,679

you know so you know you could have that

2489

01:25:53,590 --> 01:25:51,199

these

2490

01:25:55,030 --> 01:25:53,600

let's say aliens even with our current

2491

01:25:56,629 --> 01:25:55,040

understanding of physics they're just

2492

01:25:59,510 --> 01:25:56,639

traveling very fast

2493

01:26:02,070 --> 01:25:59,520

one tenth the speed of light um and it

2494

01:26:03,510 --> 01:26:02,080

takes them 30 years to get here but now

2495

01:26:05,350 --> 01:26:03,520

you just say yeah i'm never going back

2496

01:26:08,550 --> 01:26:05,360

to my home planet

2497

01:26:09,350 --> 01:26:08,560

yeah um we could do that right we could

2498

01:26:11,590 --> 01:26:09,360

take a big ship

2499

01:26:13,430 --> 01:26:11,600

go it would take 30 years right you go

2500

01:26:15,750 --> 01:26:13,440

suspended animation

2501

01:26:17,430 --> 01:26:15,760

yeah it's 200 000 years back uh back on

2502

01:26:19,510 --> 01:26:17,440

earth but um

2503

01:26:25,030 --> 01:26:19,520

you know whatever moving to a new new

2504

01:26:31,990 --> 01:26:30,229

oh sorry uh i was panicking my uh

2505

01:26:33,910 --> 01:26:32,000

my inflatable was gone but it was just

2506

01:26:36,310 --> 01:26:33,920

it's around the other side of the boat

2507

01:26:37,030 --> 01:26:36,320

someone stole your uh your dinghy yeah

2508

01:26:38,310 --> 01:26:37,040

that's right

2509

01:26:40,790 --> 01:26:38,320

i'd be stranded out here on the boat

2510

01:26:42,550 --> 01:26:40,800

forever but i honestly i hope they

2511

01:26:42,950 --> 01:26:42,560

release a lot more information you know

2512

01:26:48,629 --> 01:26:42,960

i think

2513

01:26:51,510 --> 01:26:48,639

always release those targeting pod

2514

01:26:52,310 --> 01:26:51,520

videos i mean and if you look it's it's

2515

01:26:56,870 --> 01:26:52,320

they have the

2516

01:26:58,310 --> 01:26:56,880

when i flew i would start my tapes

2517

01:27:01,110 --> 01:26:58,320

you know we call them tapes because in

2518

01:27:02,629 --> 01:27:01,120

the past we used to use actual tape

2519

01:27:04,149 --> 01:27:02,639

um so you would have to actually turn

2520

01:27:05,590 --> 01:27:04,159

them off and turn them back on so right

2521

01:27:07,189 --> 01:27:05,600

before you go to an engagement you would

2522

01:27:07,990 --> 01:27:07,199

turn it on because your tape would run

2523

01:27:10,950 --> 01:27:08,000

out

2524

01:27:12,550 --> 01:27:10,960

but now we have digital tapes um so

2525

01:27:14,070 --> 01:27:12,560

maybe for the nimitz you know they don't

2526
01:27:15,030 --> 01:27:14,080
have that much time it sounds like they

2527
01:27:16,790 --> 01:27:15,040
had a lot more

2528
01:27:18,070 --> 01:27:16,800
but for the more recent like you know

2529
01:27:19,590 --> 01:27:18,080
the roosevelt

2530
01:27:21,270 --> 01:27:19,600
uh or the omaha if you know if there's

2531
01:27:21,830 --> 01:27:21,280
any planes that had any data from the

2532
01:27:23,830 --> 01:27:21,840
omaha

2533
01:27:25,510 --> 01:27:23,840
they're going to have their their tapes

2534
01:27:27,110 --> 01:27:25,520
running the whole time

2535
01:27:29,350 --> 01:27:27,120
you know that i would like to see the

2536
01:27:33,830 --> 01:27:29,360
next 20 seconds of that go fast

2537
01:27:35,510 --> 01:27:33,840
video i could clench it you know like

2538
01:27:37,030 --> 01:27:35,520

i wonder what happens because i know

2539

01:27:38,550 --> 01:27:37,040

they're they're merging you know they're

2540

01:27:40,390 --> 01:27:38,560

merging with this thing

2541

01:27:42,229 --> 01:27:40,400

so what happens after you know what what

2542

01:27:42,950 --> 01:27:42,239

does it do is it just continue did they

2543

01:27:45,350 --> 01:27:42,960

follow it

2544

01:27:47,590 --> 01:27:45,360

um you know these engagements are long

2545

01:27:49,110 --> 01:27:47,600

you know air engagements are

2546

01:27:51,189 --> 01:27:49,120

they're short but they're still several

2547

01:27:52,550 --> 01:27:51,199

minutes you know and

2548

01:27:53,990 --> 01:27:52,560

and these things aren't going fast you

2549

01:27:55,590 --> 01:27:54,000

look at the go fast thing it's going

2550

01:27:56,709 --> 01:27:55,600

like point eight mach like we can keep

2551

01:27:58,310 --> 01:27:56,719

up with that

2552

01:28:00,070 --> 01:27:58,320

so they could have easily followed this

2553

01:28:01,830 --> 01:28:00,080

thing for you know many many minutes

2554

01:28:03,669 --> 01:28:01,840

like 20 minutes 30 minutes until they

2555

01:28:06,470 --> 01:28:03,679

ran out of fuel

2556

01:28:07,669 --> 01:28:06,480

so hopefully yeah that's a strange thing

2557

01:28:11,030 --> 01:28:07,679

about because i've

2558

01:28:13,510 --> 01:28:11,040

i've talked about this before that

2559

01:28:14,070 --> 01:28:13,520

they're not um you know like for

2560

01:28:15,350 --> 01:28:14,080

instance

2561

01:28:16,870 --> 01:28:15,360

i know you're going to do the deep dive

2562

01:28:18,709 --> 01:28:16,880

into the nimitz and maybe i can help you

2563

01:28:22,149 --> 01:28:18,719

with that with some of the people i know

2564

01:28:22,950 --> 01:28:22,159

um but um we do have uh looks like we do

2565

01:28:24,709 --> 01:28:22,960

have a

2566

01:28:26,790 --> 01:28:24,719

we might have some calls coming in or we

2567

01:28:29,110 --> 01:28:26,800

may have a caller coming in soon

2568

01:28:30,870 --> 01:28:29,120

um and the numbers up on the screen

2569

01:28:31,590 --> 01:28:30,880

eight five five four seven two five four

2570

01:28:33,270 --> 01:28:31,600

eight three

2571

01:28:34,870 --> 01:28:33,280

the bill will be screening and they'll

2572

01:28:39,189 --> 01:28:34,880

be doing a lot of work tonight

2573

01:28:41,030 --> 01:28:39,199

um but um

2574

01:28:43,590 --> 01:28:41,040

uh i forget exactly the train of thought

2575

01:28:44,310 --> 01:28:43,600

i was on before i saw this whole screen

2576

01:28:47,990 --> 01:28:44,320

flash

2577

01:28:48,229 --> 01:28:48,000

around um do you remember exactly what i

2578

01:28:53,270 --> 01:28:48,239

was

2579

01:28:55,030 --> 01:28:53,280

i apologize for that uh with the

2580

01:28:58,550 --> 01:28:55,040

technical issues here

2581

01:28:59,910 --> 01:28:58,560

uh yeah i guess as far as i hope they

2582

01:29:01,990 --> 01:28:59,920

they've released more information i mean

2583

01:29:04,470 --> 01:29:02,000

that should be the

2584

01:29:05,110 --> 01:29:04,480

the primary goal you know we it's kind

2585

01:29:07,030 --> 01:29:05,120

of like

2586

01:29:08,550 --> 01:29:07,040

sharks with blood in the water i mean i

2587

01:29:10,870 --> 01:29:08,560

i kind of get that feeling i hope that's

2588

01:29:12,310 --> 01:29:10,880

the case because they

2589

01:29:14,390 --> 01:29:12,320

you know they said the f word in front

2590

01:29:16,070 --> 01:29:14,400

of mom you know they said we have this

2591

01:29:18,550 --> 01:29:16,080

data we have 80

2592

01:29:20,550 --> 01:29:18,560

cases of you know corroborated multiple

2593

01:29:22,470 --> 01:29:20,560

sensor data we have 11

2594

01:29:23,990 --> 01:29:22,480

you know we have 18 where it's actually

2595

01:29:25,910 --> 01:29:24,000

maneuvering crazy right so

2596

01:29:27,270 --> 01:29:25,920

the flare video what i finally finished

2597

01:29:30,070 --> 01:29:27,280

on is that's a that's

2598

01:29:31,030 --> 01:29:30,080

that's a dynamic maneuvering i think

2599

01:29:32,629 --> 01:29:31,040

they they say in

2600

01:29:34,390 --> 01:29:32,639

in the report basically it's doing

2601
01:29:35,430 --> 01:29:34,400
maneuvers that we can under we can't

2602
01:29:38,149 --> 01:29:35,440
understand and we can't

2603
01:29:39,510 --> 01:29:38,159
explain them um gimbal as well just

2604
01:29:41,510 --> 01:29:39,520
because it has no

2605
01:29:43,110 --> 01:29:41,520
uh it has no propulsion signs of

2606
01:29:45,350 --> 01:29:43,120
propulsion

2607
01:29:47,910 --> 01:29:45,360
yeah i mean that is that's got to be one

2608
01:29:49,830 --> 01:29:47,920
of the most puzzling things there's no

2609
01:29:51,030 --> 01:29:49,840
heat coming off of it there's no you

2610
01:29:53,189 --> 01:29:51,040
know propulsion or

2611
01:29:55,110 --> 01:29:53,199
no rotor wash or anything like that we

2612
01:29:58,629 --> 01:29:55,120
have a caller from virginia welcome to

2613
01:30:03,910 --> 01:30:01,510

hi thank you chris how are you great

2614

01:30:05,510 --> 01:30:03,920

yeah welcome

2615

01:30:07,270 --> 01:30:05,520

thank you for the interview um i just

2616

01:30:11,110 --> 01:30:07,280

wanted to ask you a question

2617

01:30:14,709 --> 01:30:11,120

about the radar and you mentioned

2618

01:30:17,669 --> 01:30:14,719

on your screen something about 99

2619

01:30:18,149 --> 01:30:17,679

and how it wasn't the the lock system

2620

01:30:20,470 --> 01:30:18,159

wasn't

2621

01:30:21,430 --> 01:30:20,480

able to lock in on the ufo and it was

2622

01:30:24,709 --> 01:30:21,440

saying something like

2623

01:30:25,430 --> 01:30:24,719

r99 my question is and i think that

2624

01:30:28,229 --> 01:30:25,440

means it's

2625

01:30:29,030 --> 01:30:28,239

jamming the radar signal so my question

2626

01:30:32,229 --> 01:30:29,040

is

2627

01:30:33,030 --> 01:30:32,239

how often would that occur when you're

2628

01:30:35,430 --> 01:30:33,040

flying your

2629

01:30:37,669 --> 01:30:35,440

uh the jet i mean how often would a

2630

01:30:39,110 --> 01:30:37,679

radar jam like that if you're locking in

2631

01:30:40,550 --> 01:30:39,120

on like a friendly

2632

01:30:42,310 --> 01:30:40,560

craft or something has that ever

2633

01:30:46,470 --> 01:30:42,320

happened to you before where the system

2634

01:30:49,830 --> 01:30:46,480

failed on you yeah i mean it happens

2635

01:30:50,950 --> 01:30:49,840

it happens a lot i wouldn't say um

2636

01:30:52,870 --> 01:30:50,960

i wouldn't say all the time but

2637

01:30:56,470 --> 01:30:52,880

especially if they're emitting energy

2638

01:30:57,270 --> 01:30:56,480

you know so uh so we have our radars

2639

01:30:59,030 --> 01:30:57,280

actually hop

2640

01:31:00,550 --> 01:30:59,040

you know they hop frequencies and that's

2641

01:31:03,750 --> 01:31:00,560

so they can be

2642

01:31:05,669 --> 01:31:03,760

against jamming right because you know

2643

01:31:06,950 --> 01:31:05,679

the best way to jam is i just put out an

2644

01:31:08,149 --> 01:31:06,960

always on your frequency

2645

01:31:10,070 --> 01:31:08,159

you know if we're talking right now and

2646

01:31:11,430 --> 01:31:10,080

i play loud radio uh

2647

01:31:13,270 --> 01:31:11,440

you know no one's going to be able to

2648

01:31:16,709 --> 01:31:13,280

hear what we're talking about um

2649

01:31:19,590 --> 01:31:16,719

so the radar and and it actually hops

2650

01:31:20,550 --> 01:31:19,600

um hops different frequencies um so but

2651

01:31:21,990 --> 01:31:20,560

what happens is

2652

01:31:23,350 --> 01:31:22,000

when we're fighting each other right

2653

01:31:24,070 --> 01:31:23,360

because we're always training against

2654

01:31:25,430 --> 01:31:24,080

each other

2655

01:31:27,510 --> 01:31:25,440

we're always getting co-channel

2656

01:31:29,270 --> 01:31:27,520

interference right so you're always

2657

01:31:33,030 --> 01:31:29,280

having an f-16 radar is

2658

01:31:35,590 --> 01:31:33,040

is is uh targeting an f-16

2659

01:31:37,110 --> 01:31:35,600

uh the radars will actually interfere so

2660

01:31:39,030 --> 01:31:37,120

what we do is we lock

2661

01:31:41,110 --> 01:31:39,040

we tell our we tell our red air so who's

2662

01:31:43,669 --> 01:31:41,120

training to be the red fighters

2663

01:31:44,709 --> 01:31:43,679

we tell them to to lock their radar into

2664

01:31:47,910 --> 01:31:44,719

a certain frequency

2665

01:31:52,149 --> 01:31:47,920

right and then we just avoid that one um

2666

01:31:54,390 --> 01:31:52,159

and so this it's it's common to get

2667

01:31:55,189 --> 01:31:54,400

radar interference you know like

2668

01:31:56,550 --> 01:31:55,199

anything else like

2669

01:31:58,470 --> 01:31:56,560

like calm interference you know you

2670

01:31:59,990 --> 01:31:58,480

listen to any any radio you hear that

2671

01:32:01,430 --> 01:32:00,000

stuff in the background so this is

2672

01:32:03,350 --> 01:32:01,440

it's all in the environment as well so

2673

01:32:03,750 --> 01:32:03,360

you have all this electromagnetic energy

2674

01:32:05,430 --> 01:32:03,760

just

2675

01:32:07,189 --> 01:32:05,440

in the environment as well that that the

2676

01:32:10,830 --> 01:32:07,199

radar has to deal with it

2677

01:32:17,430 --> 01:32:14,070

yeah um so the point is

2678

01:32:20,470 --> 01:32:17,440

it's still weird right because

2679

01:32:23,669 --> 01:32:20,480

i'm expecting uh i'm expecting to see a

2680

01:32:28,310 --> 01:32:23,679

range there if it's from an object

2681

01:32:31,750 --> 01:32:30,390

all it means i think all i really read

2682

01:32:33,990 --> 01:32:31,760

from this is that

2683

01:32:35,030 --> 01:32:34,000

the the radar energy that's that's

2684

01:32:38,390 --> 01:32:35,040

ending up back

2685

01:32:40,229 --> 01:32:38,400

into the radar has been modified

2686

01:32:41,910 --> 01:32:40,239

in some way that the radar doesn't

2687

01:32:43,910 --> 01:32:41,920

understand

2688

01:32:45,110 --> 01:32:43,920

and if the if the pulse right because

2689

01:32:45,669 --> 01:32:45,120

the radars they're going to send out

2690

01:32:48,229 --> 01:32:45,679

pulses

2691

01:32:49,110 --> 01:32:48,239

in a pulse train they send out in in

2692

01:32:51,189 --> 01:32:49,120

their frequency

2693

01:32:53,030 --> 01:32:51,199

they send it out it's a coded pulse

2694

01:32:55,510 --> 01:32:53,040

right so they know hey

2695

01:32:56,550 --> 01:32:55,520

my radar i send out five pulses right

2696

01:32:59,669 --> 01:32:56,560

and when it comes back

2697

01:33:02,229 --> 01:32:59,679

it has six pulses they're like ah

2698

01:33:03,030 --> 01:33:02,239

jamming right all the radar is saying is

2699

01:33:06,149 --> 01:33:03,040

that it doesn't

2700

01:33:08,470 --> 01:33:06,159

understand what it's receiving back

2701

01:33:09,510 --> 01:33:08,480

and it thinks the signal has been uh

2702

01:33:11,270 --> 01:33:09,520

messed with

2703

01:33:13,030 --> 01:33:11,280

so it could be you can receive this from

2704

01:33:16,229 --> 01:33:13,040

co-channel interference

2705

01:33:19,350 --> 01:33:16,239

um or you can receive it from the actual

2706

01:33:21,990 --> 01:33:19,360

energy being changed when it comes back

2707

01:33:23,830 --> 01:33:22,000

and that's more the impression i get it

2708

01:33:26,790 --> 01:33:23,840

i don't know if they're actively jamming

2709

01:33:28,709 --> 01:33:26,800

you know chad underwood says that

2710

01:33:30,470 --> 01:33:28,719

my own feeling from it is that it's just

2711

01:33:32,390 --> 01:33:30,480

not reflecting off of this stuff or it's

2712

01:33:34,550 --> 01:33:32,400

or it's changing it somehow it's

2713

01:33:35,990 --> 01:33:34,560

we're not getting a clean hit bouncing

2714

01:33:39,030 --> 01:33:36,000

off of something it's

2715

01:33:42,390 --> 01:33:39,040

it's being modified

2716

01:33:43,270 --> 01:33:42,400

well anything else caller that's just a

2717

01:33:46,470 --> 01:33:43,280

lot to take

2718

01:33:47,750 --> 01:33:46,480

no thank you everything you said because

2719

01:33:48,470 --> 01:33:47,760

i would find that answer to your

2720

01:33:50,709 --> 01:33:48,480

question

2721

01:33:52,229 --> 01:33:50,719

i mean you're just too no i mean you you

2722

01:33:54,310 --> 01:33:52,239

answered it but i mean that was just a

2723

01:33:56,229 --> 01:33:54,320

really complicated answer because

2724

01:33:58,310 --> 01:33:56,239

i mean i wanted you to just say i mean

2725

01:34:01,830 --> 01:33:58,320

you said at some point in there

2726

01:34:04,709 --> 01:34:01,840

that you expected it to

2727

01:34:05,830 --> 01:34:04,719

capture and when you said that but then

2728

01:34:08,870 --> 01:34:05,840

you also said

2729

01:34:10,629 --> 01:34:08,880

that it also hops and and i get

2730

01:34:13,030 --> 01:34:10,639

that but that's conflicting to me if

2731

01:34:15,430 --> 01:34:13,040

you're locked in and you have the range

2732

01:34:17,510 --> 01:34:15,440

why would it why would it be skipping i

2733

01:34:19,830 --> 01:34:17,520

mean you shouldn't say r99

2734

01:34:20,790 --> 01:34:19,840

right i mean it should lock in tell you

2735

01:34:23,910 --> 01:34:20,800

the distance

2736

01:34:26,790 --> 01:34:23,920

and then that's that it should

2737

01:34:27,189 --> 01:34:26,800

yeah it but it it doesn't do it every

2738

01:34:28,709 --> 01:34:27,199

time

2739

01:34:30,709 --> 01:34:28,719

but what i'm explaining trying to

2740

01:34:33,030 --> 01:34:30,719

explain is that

2741

01:34:33,990 --> 01:34:33,040

uh the the radar energy that went back

2742

01:34:37,270 --> 01:34:34,000

into the radar

2743

01:34:39,110 --> 01:34:37,280

was changed i mean that's what i that's

2744

01:34:41,030 --> 01:34:39,120

what i read from that

2745

01:34:42,629 --> 01:34:41,040

so i don't know underwood said it's from

2746

01:34:46,310 --> 01:34:42,639

jamming before

2747

01:34:49,189 --> 01:34:46,320

um and what's interesting to me is that

2748

01:34:51,109 --> 01:34:49,199

there's no radar uh in all of the

2749

01:34:53,750 --> 01:34:51,119

engagements you know underwood says that

2750

01:34:56,950 --> 01:34:53,760

he was able to get a lock to get there

2751

01:34:58,790 --> 01:34:56,960

um but what that tells me is that it's

2752

01:35:02,149 --> 01:34:58,800

difficult to track or it breaks

2753

01:35:03,189 --> 01:35:02,159

it breaks the locks all right well we

2754

01:35:06,070 --> 01:35:03,199

have another caller

2755

01:35:07,109 --> 01:35:06,080

thank thank you so much we have a couple

2756

01:35:08,950 --> 01:35:07,119

of callers online

2757

01:35:10,950 --> 01:35:08,960

and we have two coming up from north

2758

01:35:14,229 --> 01:35:10,960

carolina the first one is rich

2759

01:35:18,629 --> 01:35:14,239

welcome to the show rich

2760

01:35:22,070 --> 01:35:18,639

uh thank you uh this question made

2761

01:35:25,030 --> 01:35:22,080

this question can you hear me yes

2762

01:35:25,990 --> 01:35:25,040

thank you yeah this question may be

2763

01:35:28,709 --> 01:35:26,000

related to

2764

01:35:31,030 --> 01:35:28,719

uh what was already mentioned but in the

2765

01:35:31,750 --> 01:35:31,040

nine page report there was a mention

2766

01:35:34,470 --> 01:35:31,760

that there was

2767

01:35:37,350 --> 01:35:34,480

rf that were detected by some of the

2768

01:35:39,430 --> 01:35:37,360

military sensors that was emanating from

2769

01:35:41,430 --> 01:35:39,440

i forgot which of the objects or maybe

2770

01:35:42,790 --> 01:35:41,440

all of them is there any evidence that

2771

01:35:44,790 --> 01:35:42,800

you know of that

2772

01:35:47,030 --> 01:35:44,800

these objects were being controlled

2773

01:35:49,350 --> 01:35:47,040

externally as drones or

2774

01:35:50,790 --> 01:35:49,360

were communicating like when it was said

2775

01:35:52,790 --> 01:35:50,800

there's a whole fleet of them

2776

01:35:54,149 --> 01:35:52,800

was there any information that there was

2777

01:35:57,189 --> 01:35:54,159

electromagnetic

2778

01:36:00,390 --> 01:35:57,199

uh going back between the objects

2779

01:36:04,390 --> 01:36:02,390

i don't i haven't seen anything yeah i

2780

01:36:06,550 --> 01:36:04,400

can hear you

2781

01:36:10,229 --> 01:36:06,560

uh i haven't seen it before i haven't

2782

01:36:12,310 --> 01:36:10,239

seen any indication that um

2783

01:36:13,910 --> 01:36:12,320

you know or any knowledge that they're

2784

01:36:15,109 --> 01:36:13,920

like communicating with each other the

2785

01:36:16,790 --> 01:36:15,119

only thing i could see is like the

2786

01:36:19,350 --> 01:36:16,800

flashing you know if you look at like

2787

01:36:21,910 --> 01:36:19,360

jeremy corbell's the optical video

2788

01:36:22,950 --> 01:36:21,920

uh or the triangle video um it seems

2789

01:36:26,310 --> 01:36:22,960

like there's one

2790

01:36:27,430 --> 01:36:26,320

flashing uh and then there's two others

2791

01:36:29,030 --> 01:36:27,440

that are just sitting there

2792

01:36:30,470 --> 01:36:29,040

you know and so that seems interesting

2793

01:36:32,149 --> 01:36:30,480

to me like is

2794

01:36:34,470 --> 01:36:32,159

is that some form of communication

2795

01:36:35,910 --> 01:36:34,480

actually um

2796

01:36:38,709 --> 01:36:35,920

right and then like like i just

2797

01:36:39,510 --> 01:36:38,719

mentioned rf energy i looked as well

2798

01:36:41,270 --> 01:36:39,520

because

2799

01:36:43,189 --> 01:36:41,280

they don't they don't nail that down

2800

01:36:47,270 --> 01:36:43,199

anywhere uh all this

2801

01:36:47,280 --> 01:36:50,950

yeah they just say in a few

2802

01:36:54,149 --> 01:36:53,270

radar frequency energy is uh is being

2803

01:36:56,790 --> 01:36:54,159

emitted

2804

01:36:58,629 --> 01:36:56,800

so that could be what you're seeing from

2805

01:37:00,390 --> 01:36:58,639

that 99.9

2806

01:37:02,709 --> 01:37:00,400

uh so you're you're not getting that

2807

01:37:06,070 --> 01:37:05,510

exactly so the radar is receiving energy

2808

01:37:07,830 --> 01:37:06,080

is what it's

2809

01:37:09,669 --> 01:37:07,840

it's what it's saying right it was it's

2810

01:37:10,790 --> 01:37:09,679

attempting to arrange this thing and it

2811

01:37:12,470 --> 01:37:10,800

can't either with a

2812

01:37:14,470 --> 01:37:12,480

i didn't see a laser firing i still

2813

01:37:15,030 --> 01:37:14,480

haven't seen a laser valid laser ranging

2814

01:37:16,790 --> 01:37:15,040

either

2815

01:37:18,830 --> 01:37:16,800

which is also interesting to me right

2816

01:37:21,990 --> 01:37:18,840

yeah

2817

01:37:24,550 --> 01:37:22,000

um uh hopefully next month

2818

01:37:25,030 --> 01:37:24,560

i hope so yeah thanks for calling okay

2819

01:37:28,229 --> 01:37:25,040

thanks

2820

01:37:30,709 --> 01:37:28,239

i appreciate enjoying the show thank you

2821

01:37:32,830 --> 01:37:30,719

thank you rich now we have jonathan from

2822

01:37:34,790 --> 01:37:32,840

north carolina welcome to the show

2823

01:37:40,629 --> 01:37:34,800

jonathan

2824

01:37:47,030 --> 01:37:42,070

i wanted to get your thoughts on an

2825

01:37:47,040 --> 01:37:51,510

hello you hear me yes yeah which article

2826

01:37:55,350 --> 01:37:53,750

okay yeah and it was basically saying

2827

01:37:56,390 --> 01:37:55,360

like if you exclude some of the more

2828

01:37:58,149 --> 01:37:56,400

spectacular

2829

01:37:59,830 --> 01:37:58,159

incidents like the tic tac and others

2830

01:38:01,750 --> 01:37:59,840

where they have these you know amazing

2831

01:38:01,990 --> 01:38:01,760

flight characteristics but if you take

2832

01:38:03,990 --> 01:38:02,000

other

2833

01:38:06,070 --> 01:38:04,000

instances like the omaha event where

2834

01:38:08,709 --> 01:38:06,080

you're basically seeing these

2835

01:38:11,030 --> 01:38:08,719

lights in the sky that are hovering and

2836

01:38:11,669 --> 01:38:11,040

his hypothesis was basically these are

2837

01:38:14,310 --> 01:38:11,679

russians

2838

01:38:15,990 --> 01:38:14,320

for the chinese and my question was when

2839

01:38:17,910 --> 01:38:16,000

you were flying training missions

2840

01:38:19,750 --> 01:38:17,920

did you ever get briefings where people

2841

01:38:21,430 --> 01:38:19,760

would say hey we think it's likely

2842

01:38:22,870 --> 01:38:21,440

the chinese or russians are flying

2843

01:38:27,189 --> 01:38:22,880

little things out there

2844

01:38:29,030 --> 01:38:27,199

just be aware of them um

2845

01:38:30,950 --> 01:38:29,040

yeah i mean i i flew in europe i don't

2846

01:38:34,550 --> 01:38:30,960

remember a lot of specific

2847

01:38:35,109 --> 01:38:34,560

instances you know most of it would just

2848

01:38:37,189 --> 01:38:35,119

be

2849

01:38:39,270 --> 01:38:37,199

international waters right so anywhere

2850

01:38:43,350 --> 01:38:39,280

outside of 12 miles from

2851
01:38:45,430 --> 01:38:43,360
you know land it's free it's free waters

2852
01:38:48,149 --> 01:38:45,440
so all you have to do is put a little

2853
01:38:51,510 --> 01:38:48,159
chinese fishing trawler out there

2854
01:38:52,470 --> 01:38:51,520
uh or a soviet fishing boat you know and

2855
01:38:54,070 --> 01:38:52,480
now you can start

2856
01:38:57,350 --> 01:38:54,080
picking up all of our information and

2857
01:38:59,910 --> 01:38:57,360
you know listening to radio frequencies

2858
01:39:01,189 --> 01:38:59,920
so i'm sure without a doubt um you know

2859
01:39:01,669 --> 01:39:01,199
there's all these fishing boats out

2860
01:39:03,510 --> 01:39:01,679
there

2861
01:39:04,870 --> 01:39:03,520
you know greater than 12 miles off off

2862
01:39:07,750 --> 01:39:04,880
of land

2863
01:39:10,149 --> 01:39:07,760

um so i'm sure they're looking forward

2864

01:39:13,669 --> 01:39:11,910

okay i was just curious if you've ever

2865

01:39:16,629 --> 01:39:13,679

been made aware of that or if that was

2866

01:39:18,229 --> 01:39:16,639

something on your own's minds

2867

01:39:19,830 --> 01:39:18,239

yeah again i mean these these they're

2868

01:39:22,629 --> 01:39:19,840

not messing around you know the whole

2869

01:39:23,910 --> 01:39:22,639

the mission is is very uh intense

2870

01:39:26,470 --> 01:39:23,920

everyone on that

2871

01:39:28,550 --> 01:39:26,480

everyone in you know the military takes

2872

01:39:30,709 --> 01:39:28,560

it very seriously especially

2873

01:39:33,030 --> 01:39:30,719

the pilots you know and yeah all the

2874

01:39:34,229 --> 01:39:33,040

operators on the ships i mean

2875

01:39:36,229 --> 01:39:34,239

yeah and that's it right that's the

2876
01:39:37,350 --> 01:39:36,239
enemy russia china you know if anyone

2877
01:39:38,149 --> 01:39:37,360
didn't know that's who we're training

2878
01:39:40,390 --> 01:39:38,159
against

2879
01:39:41,750 --> 01:39:40,400
um so i'm pretty sure that's who we are

2880
01:39:44,550 --> 01:39:41,760
trying to watch

2881
01:39:46,790 --> 01:39:44,560
um you know and i'm sure right now our

2882
01:39:48,470 --> 01:39:46,800
intelligence agencies

2883
01:39:51,430 --> 01:39:48,480
are at least considering is could this

2884
01:39:52,870 --> 01:39:51,440
be you know russia or china

2885
01:39:54,550 --> 01:39:52,880
but in the report right they say it's

2886
01:39:58,390 --> 01:39:54,560
not so

2887
01:40:01,430 --> 01:39:58,400
obviously yeah they somehow know

2888
01:40:03,350 --> 01:40:01,440

um all right jonathan thanks so much for

2889

01:40:05,430 --> 01:40:03,360

the call

2890

01:40:06,470 --> 01:40:05,440

all right thank you yeah all right next

2891

01:40:08,149 --> 01:40:06,480

we have john

2892

01:40:10,950 --> 01:40:08,159

calling from california welcome to the

2893

01:40:13,669 --> 01:40:10,960

show john you're on the air

2894

01:40:15,590 --> 01:40:13,679

thank you martin hey chris uh thanks uh

2895

01:40:16,229 --> 01:40:15,600

thanks for uh coming on today i really

2896

01:40:18,229 --> 01:40:16,239

uh

2897

01:40:19,590 --> 01:40:18,239

enjoy your youtube videos and your

2898

01:40:21,750 --> 01:40:19,600

expert analysis

2899

01:40:22,870 --> 01:40:21,760

i just have a like an opinion question

2900

01:40:25,030 --> 01:40:22,880

for you because you're

2901

01:40:26,390 --> 01:40:25,040

your air force uh and you might have

2902

01:40:28,149 --> 01:40:26,400

been asked this before and i think you

2903

01:40:29,109 --> 01:40:28,159

touched on this briefly on one of your

2904

01:40:30,950 --> 01:40:29,119

videos but

2905

01:40:34,229 --> 01:40:30,960

the navy has come forward with a lot of

2906

01:40:36,790 --> 01:40:34,239

info over the last especially since 2017

2907

01:40:37,910 --> 01:40:36,800

how come the air force and your opinion

2908

01:40:40,629 --> 01:40:37,920

uh has been

2909

01:40:42,070 --> 01:40:40,639

you know pretty silent on on uaps uh do

2910

01:40:43,430 --> 01:40:42,080

you have that do you have an opinion on

2911

01:40:45,750 --> 01:40:43,440

that i mean uh

2912

01:40:47,030 --> 01:40:45,760

it just seems like uh you know they're

2913

01:40:49,270 --> 01:40:47,040

they're the ones that

2914

01:40:51,510 --> 01:40:49,280

protect our airways and these things are

2915

01:40:53,109 --> 01:40:51,520

in the air mainly so uh

2916

01:40:55,430 --> 01:40:53,119

do you have any opinion on things the

2917

01:40:57,590 --> 01:40:55,440

air force is awful quiet on this

2918

01:40:59,109 --> 01:40:57,600

it is yeah i mentioned the couple times

2919

01:41:01,990 --> 01:40:59,119

right i think chris mellon

2920

01:41:04,229 --> 01:41:02,000

in his first uh something he wrote oh it

2921

01:41:05,910 --> 01:41:04,239

was his expectations for the uap report

2922

01:41:08,229 --> 01:41:05,920

i remember i read that

2923

01:41:10,470 --> 01:41:08,239

and he mentioned that the air force

2924

01:41:12,709 --> 01:41:10,480

didn't even start a uap

2925

01:41:14,550 --> 01:41:12,719

you know process or uap reporting

2926

01:41:16,629 --> 01:41:14,560

process until november

2927

01:41:17,990 --> 01:41:16,639

2020. you know essentially when marco

2928

01:41:19,510 --> 01:41:18,000

rubio the senate intelligence

2929

01:41:22,070 --> 01:41:19,520

act said you know you have to do this

2930

01:41:23,910 --> 01:41:22,080

report that's when the air force started

2931

01:41:25,109 --> 01:41:23,920

uh and then he mentioned it again in

2932

01:41:27,669 --> 01:41:25,119

this most recent

2933

01:41:29,910 --> 01:41:27,679

his response to uap report when he said

2934

01:41:32,870 --> 01:41:29,920

you know bureaucratic uh

2935

01:41:33,109 --> 01:41:32,880

issues essentially or just are hurting

2936

01:41:35,350 --> 01:41:33,119

it

2937

01:41:36,470 --> 01:41:35,360

um i i you know i've been thinking about

2938

01:41:39,189 --> 01:41:36,480

that i have a couple

2939

01:41:40,390 --> 01:41:39,199

like theories again just uh guesses

2940

01:41:43,430 --> 01:41:40,400

essentially

2941

01:41:45,990 --> 01:41:43,440

um well the first thing is the navy

2942

01:41:47,910 --> 01:41:46,000

has amazing radar tech you know they

2943

01:41:50,950 --> 01:41:47,920

really have all the radars they have

2944

01:41:54,070 --> 01:41:50,960

you know we have airborne we have a wax

2945

01:41:55,270 --> 01:41:54,080

as well but a wax is a very it's an old

2946

01:41:56,470 --> 01:41:55,280

radar you know it

2947

01:41:58,070 --> 01:41:56,480

it's one of those things it's like

2948

01:41:59,270 --> 01:41:58,080

aristotle you know we were talking about

2949

01:42:02,310 --> 01:41:59,280

martin uh

2950

01:42:03,430 --> 01:42:02,320

he was uh the the a wax was so um

2951
01:42:05,830 --> 01:42:03,440
successful

2952
01:42:07,510 --> 01:42:05,840
that we haven't really upgraded it you

2953
01:42:08,229 --> 01:42:07,520
know so we've had the same kind of

2954
01:42:11,590 --> 01:42:08,239
spinning

2955
01:42:14,070 --> 01:42:11,600
um system i don't know 40 years

2956
01:42:15,830 --> 01:42:14,080
for the awax where if you look at the

2957
01:42:17,430 --> 01:42:15,840
navy so they have just

2958
01:42:19,109 --> 01:42:17,440
they have unbelievable assistant you

2959
01:42:20,390 --> 01:42:19,119
know they have aegis cruisers the

2960
01:42:23,910 --> 01:42:20,400
princeton

2961
01:42:25,270 --> 01:42:23,920
this spy one radar uh

2962
01:42:27,109 --> 01:42:25,280
i've worked with that actually i've

2963
01:42:28,790 --> 01:42:27,119

tried to attack aegis cruisers i was

2964

01:42:31,750 --> 01:42:28,800

running exercise my last job

2965

01:42:32,709 --> 01:42:31,760

um in nato where you try and attack an

2966

01:42:34,950 --> 01:42:32,719

aegis cruiser

2967

01:42:36,629 --> 01:42:34,960

which is a terrible idea right with with

2968

01:42:38,629 --> 01:42:36,639

uh with planes

2969

01:42:39,669 --> 01:42:38,639

um those things are really amazing and

2970

01:42:43,590 --> 01:42:39,679

so they have all these

2971

01:42:45,430 --> 01:42:43,600

upgraded radar technologies um

2972

01:42:47,109 --> 01:42:45,440

that that are that are actually pointing

2973

01:42:49,430 --> 01:42:47,119

them out you know you look at the nimitz

2974

01:42:50,229 --> 01:42:49,440

is they were vectored there from their

2975

01:42:52,310 --> 01:42:50,239

radar

2976

01:42:54,390 --> 01:42:52,320

when they had the new upgrade on their

2977

01:42:56,070 --> 01:42:54,400

navy radar so that that's one thing is

2978

01:42:57,510 --> 01:42:56,080

we just don't have those radar we don't

2979

01:43:02,709 --> 01:42:57,520

have those systems

2980

01:43:04,870 --> 01:43:02,719

um yeah and the second one is

2981

01:43:06,550 --> 01:43:04,880

i just to finish uh the second thing is

2982

01:43:07,590 --> 01:43:06,560

what i've also noticed is

2983

01:43:09,669 --> 01:43:07,600

you know if you look where they're

2984

01:43:11,270 --> 01:43:09,679

seeing these these uh these uap

2985

01:43:12,790 --> 01:43:11,280

sightings it's really around their

2986

01:43:15,030 --> 01:43:12,800

nuclear reactors

2987

01:43:16,390 --> 01:43:15,040

um you know the theodore roosevelt you

2988

01:43:17,990 --> 01:43:16,400

gotta remember these ships are out there

2989

01:43:19,270 --> 01:43:18,000

they're traveling around with nukes you

2990

01:43:20,950 --> 01:43:19,280

know running nukes you got these

2991

01:43:21,750 --> 01:43:20,960

submarines under the under the water

2992

01:43:23,750 --> 01:43:21,760

with nukes

2993

01:43:24,870 --> 01:43:23,760

and then you also have all the

2994

01:43:26,870 --> 01:43:24,880

supposedly

2995

01:43:28,550 --> 01:43:26,880

you know chris mellon was also he was

2996

01:43:29,270 --> 01:43:28,560

really adamant on that is what's up with

2997

01:43:33,270 --> 01:43:29,280

the

2998

01:43:35,430 --> 01:43:33,280

going offline

2999

01:43:36,310 --> 01:43:35,440

um so i think that may also be another

3000

01:43:39,189 --> 01:43:36,320

instance is

3001

01:43:39,990 --> 01:43:39,199

uh maybe they're drawn to these nuclear

3002

01:43:41,189 --> 01:43:40,000

reactors

3003

01:43:42,390 --> 01:43:41,199

you know maybe that's why they followed

3004

01:43:44,229 --> 01:43:42,400

the roosevelt because they're like hey

3005

01:43:47,350 --> 01:43:44,239

what are these people doing

3006

01:43:48,149 --> 01:43:47,360

um literally uh and so that that's

3007

01:43:51,750 --> 01:43:48,159

that's another

3008

01:43:53,350 --> 01:43:51,760

i mentioned in my last video the

3009

01:43:55,510 --> 01:43:53,360

the air force is just a bureaucratic

3010

01:43:57,510 --> 01:43:55,520

mess right now you know the

3011

01:43:58,790 --> 01:43:57,520

the last 10 years 10 years ago we were

3012

01:44:00,550 --> 01:43:58,800

the best uh

3013

01:44:02,390 --> 01:44:00,560

and then they cut like 20 percent of our

3014

01:44:04,310 --> 01:44:02,400

people and we said hey we're gonna fire

3015

01:44:07,430 --> 01:44:04,320

all of our admin administrators

3016

01:44:09,830 --> 01:44:07,440

and we're gonna do uh digital and

3017

01:44:11,750 --> 01:44:09,840

and it just it did not work it's just

3018

01:44:14,229 --> 01:44:11,760

been a total train wreck

3019

01:44:16,229 --> 01:44:14,239

so honestly our bureaucratic processes

3020

01:44:17,910 --> 01:44:16,239

in the air force are just a total train

3021

01:44:20,070 --> 01:44:17,920

wreck it would take it literally takes

3022

01:44:21,910 --> 01:44:20,080

like your four-star general to say hey

3023

01:44:23,669 --> 01:44:21,920

go do this and a lot of times they can't

3024

01:44:25,669 --> 01:44:23,679

make it happen

3025

01:44:27,990 --> 01:44:25,679

and so they have to keep trying so i

3026

01:44:31,430 --> 01:44:28,000

guess those three things if that answers

3027

01:44:33,189 --> 01:44:31,440

your question it certainly does chris

3028

01:44:35,350 --> 01:44:33,199

thanks so much for your clarity that's

3029

01:44:36,470 --> 01:44:35,360

uh those three things were excellent

3030

01:44:38,070 --> 01:44:36,480

answers and uh

3031

01:44:40,070 --> 01:44:38,080

keep doing the videos buddy we really

3032

01:44:41,109 --> 01:44:40,080

appreciate uh awesome no thanks for the

3033

01:44:43,510 --> 01:44:41,119

support thanks a lot

3034

01:44:44,709 --> 01:44:43,520

i appreciate it thanks mark yeah um

3035

01:44:47,109 --> 01:44:44,719

thank you for that

3036

01:44:49,189 --> 01:44:47,119

and uh for that call we have mike coming

3037

01:44:51,830 --> 01:44:49,199

up but just one minute i wanted to

3038

01:44:52,790 --> 01:44:51,840

have you if you would put out there how

3039

01:44:54,790 --> 01:44:52,800

people can see your

3040

01:44:56,470 --> 01:44:54,800

youtube channel it is i do believe i

3041

01:44:57,590 --> 01:44:56,480

have it in the in the show notes if not

3042

01:44:59,750 --> 01:44:57,600

it will be in

3043

01:45:01,189 --> 01:44:59,760

but um yeah it's uh chris lately your

3044

01:45:02,629 --> 01:45:01,199

name right

3045

01:45:04,470 --> 01:45:02,639

yeah i didn't want to like trying to

3046

01:45:05,030 --> 01:45:04,480

rebrand or something so i just went with

3047

01:45:09,270 --> 01:45:05,040

my name

3048

01:45:12,709 --> 01:45:09,280

which worked yeah yeah chris l-e-h-t-o

3049

01:45:14,470 --> 01:45:12,719

it's finished it's spelled the wrong way

3050

01:45:16,149 --> 01:45:14,480

i was considering changing it the h

3051

01:45:17,830 --> 01:45:16,159

comes before the t

3052

01:45:19,590 --> 01:45:17,840

yeah i'm just going to try and make i'm

3053

01:45:22,310 --> 01:45:19,600

trying to make more videos actually

3054

01:45:23,350 --> 01:45:22,320

you know it's um the deep analysis

3055

01:45:25,270 --> 01:45:23,360

videos are just

3056

01:45:26,550 --> 01:45:25,280

you know my brain hurts afterwards uh

3057

01:45:30,149 --> 01:45:26,560

but i'm trying just to get

3058

01:45:32,870 --> 01:45:30,159

just more uh make it more informal

3059

01:45:34,470 --> 01:45:32,880

i guess uh i just can't do a deep

3060

01:45:35,590 --> 01:45:34,480

analysis video every week and i'll go

3061

01:45:38,070 --> 01:45:35,600

crazy you know so

3062

01:45:39,350 --> 01:45:38,080

yeah yeah now we have a mike from long

3063

01:45:43,990 --> 01:45:39,360

island on the line

3064

01:45:46,310 --> 01:45:44,000

mike you're alive welcome to the show

3065

01:45:47,430 --> 01:45:46,320

how are you doing chris uh hey hi mike

3066

01:45:50,229 --> 01:45:47,440

welcome i'm the guy

3067

01:45:51,510 --> 01:45:50,239

i'm i'm the guy that sent you the uh

3068

01:45:54,390 --> 01:45:51,520

washington dc

3069

01:45:55,510 --> 01:45:54,400

info uh oh nice getting images thank you

3070

01:45:59,590 --> 01:45:55,520

what's your idea

3071

01:46:02,629 --> 01:45:59,600

i meant to uh give you props but thanks

3072

01:46:05,669 --> 01:46:02,639

yeah uh i know it was great that you uh

3073

01:46:06,550 --> 01:46:05,679

actually took a look at that and as a

3074

01:46:10,070 --> 01:46:06,560

newbie

3075

01:46:12,790 --> 01:46:10,080

in the u ufo area uh

3076

01:46:13,910 --> 01:46:12,800

you know there's an awful lot in this

3077

01:46:16,470 --> 01:46:13,920

field

3078

01:46:17,189 --> 01:46:16,480

uh that you can kind of go down rabbit

3079

01:46:20,149 --> 01:46:17,199

holes on

3080

01:46:22,149 --> 01:46:20,159

and just wondering at the moment with

3081

01:46:24,390 --> 01:46:22,159

your military background

3082

01:46:25,510 --> 01:46:24,400

and as a pilot you're looking at like

3083

01:46:27,750 --> 01:46:25,520

the nymph you know

3084

01:46:28,870 --> 01:46:27,760

the three videos the nimitz the go fast

3085

01:46:32,870 --> 01:46:28,880

the flear

3086

01:46:37,109 --> 01:46:32,880

uh but are you prepared

3087

01:46:39,830 --> 01:46:37,119

i'll say mentally prepared uh to

3088

01:46:42,070 --> 01:46:39,840

get into other areas uh and what i'm

3089

01:46:45,109 --> 01:46:42,080

thinking of is

3090

01:46:48,310 --> 01:46:45,119

in i would say from the

3091

01:46:51,350 --> 01:46:48,320

perspective of really

3092

01:46:54,390 --> 01:46:51,360

weird stuff there are

3093

01:46:58,149 --> 01:46:54,400

at least three very

3094

01:47:01,830 --> 01:46:58,159

close uh encounters uh

3095

01:47:04,629 --> 01:47:01,840

with actual beings cited one

3096

01:47:06,229 --> 01:47:04,639

and these are in james fox's documentary

3097

01:47:08,629 --> 01:47:06,239

the phenomenon

3098

01:47:11,830 --> 01:47:08,639

there's one in papua new guinea back in

3099

01:47:14,950 --> 01:47:11,840

the late 50s early 60s i recall

3100

01:47:16,870 --> 01:47:14,960

there's uh one in zimbabwe or rhodesia

3101

01:47:20,550 --> 01:47:16,880

as it was i think back then

3102

01:47:23,590 --> 01:47:20,560

at a school hundreds of

3103

01:47:25,990 --> 01:47:23,600

uh you know uh witnesses to this

3104

01:47:28,470 --> 01:47:26,000

uh and then there's another one in an

3105

01:47:32,390 --> 01:47:28,480

australian school

3106

01:47:33,910 --> 01:47:32,400

where there is a again dozens and dozens

3107

01:47:37,109 --> 01:47:33,920

if not a hundred

3108

01:47:40,709 --> 01:47:37,119

eyewitnesses to very close craft

3109

01:47:45,030 --> 01:47:40,719

you know like 50 yards away stationary

3110

01:47:47,270 --> 01:47:45,040

uh with uh beings associated with them

3111

01:47:49,430 --> 01:47:47,280

are you are you prepared to get into

3112

01:47:53,830 --> 01:47:49,440

that stuff

3113

01:47:56,550 --> 01:47:53,840

i mean i'm i'm preparing i'm preparing

3114

01:47:57,830 --> 01:47:56,560

well i may i interject something um yes

3115

01:48:00,629 --> 01:47:57,840

i think you are

3116

01:48:01,990 --> 01:48:00,639

from what i'm seeing so far uh i'm

3117

01:48:03,990 --> 01:48:02,000

seeing that you're

3118

01:48:05,830 --> 01:48:04,000

looking more into what you have an

3119

01:48:07,990 --> 01:48:05,840

expertise in

3120

01:48:09,189 --> 01:48:08,000

uh which is flying and the equipment

3121

01:48:12,070 --> 01:48:09,199

involved

3122

01:48:13,990 --> 01:48:12,080

and and not so much about the other

3123

01:48:15,910 --> 01:48:14,000

things i'm maybe i'm talking for you

3124

01:48:17,750 --> 01:48:15,920

maybe i'm totally out of character

3125

01:48:19,350 --> 01:48:17,760

but is that is that where that's where

3126

01:48:22,310 --> 01:48:19,360

i'm seeing you focus on it

3127

01:48:24,149 --> 01:48:22,320

i like the i think it's the most it's

3128

01:48:26,950 --> 01:48:24,159

the area where i can

3129

01:48:28,390 --> 01:48:26,960

i can contribute the most right i think

3130

01:48:31,669 --> 01:48:28,400

you know um

3131

01:48:33,990 --> 01:48:31,679

and it's the part i know you know like i

3132

01:48:36,390 --> 01:48:34,000

so from my perspective just what i

3133

01:48:37,990 --> 01:48:36,400

believe i guess at this point um

3134

01:48:39,430 --> 01:48:38,000

you know i believe what fraber says you

3135

01:48:40,470 --> 01:48:39,440

know i believe what he says i believe

3136

01:48:42,390 --> 01:48:40,480

what he saw

3137

01:48:43,910 --> 01:48:42,400

and so i'm really going from that angle

3138

01:48:47,109 --> 01:48:43,920

you know and so i i believe

3139

01:48:49,430 --> 01:48:47,119

that that incident happened

3140

01:48:50,470 --> 01:48:49,440

um and you know but then you start so

3141

01:48:52,310 --> 01:48:50,480

yeah i am

3142

01:48:54,709 --> 01:48:52,320

reading on the side you know i'm reading

3143

01:48:57,189 --> 01:48:54,719

several books you know healing

3144

01:49:00,310 --> 01:48:57,199

uh what are healing stories of abduction

3145

01:49:02,310 --> 01:49:00,320

you know i'm reading that um

3146

01:49:03,910 --> 01:49:02,320

and it yeah i mean it's it's crazy how

3147

01:49:05,590 --> 01:49:03,920

much evidence there is you know

3148

01:49:08,070 --> 01:49:05,600

but that's that's kind of the problem

3149

01:49:10,629 --> 01:49:08,080

that there is there's so much evidence

3150

01:49:11,109 --> 01:49:10,639

yeah that it's overwhelming so like you

3151

01:49:14,149 --> 01:49:11,119

you

3152

01:49:16,070 --> 01:49:14,159

i'm just walking along like i'm this

3153

01:49:18,149 --> 01:49:16,080

youtuber you know i'm retired just

3154

01:49:19,589 --> 01:49:18,159

living with my family you know i walk

3155

01:49:22,550 --> 01:49:19,599

into this uap

3156

01:49:23,669 --> 01:49:22,560

kind of discussion um and then you see

3157

01:49:26,070 --> 01:49:23,679

there's just so much

3158

01:49:27,030 --> 01:49:26,080

there's so much evidence behind um it's

3159

01:49:28,709 --> 01:49:27,040

either a zero

3160

01:49:31,270 --> 01:49:28,719

or a one you know it's like do you

3161

01:49:33,990 --> 01:49:31,280

believe do you believe or not

3162

01:49:36,149 --> 01:49:34,000

um and at this point i believe in the

3163

01:49:39,830 --> 01:49:36,159

fravor stuff i believe in the tic tac

3164

01:49:41,990 --> 01:49:39,840

um the omaha stuff is very compelling

3165

01:49:43,430 --> 01:49:42,000

so i'm just focusing on that you know

3166

01:49:44,229 --> 01:49:43,440

and i have my email i just you know

3167

01:49:46,709 --> 01:49:44,239

whatever

3168

01:49:48,470 --> 01:49:46,719

the aliens again uh they can reach me at

3169

01:49:51,510 --> 01:49:48,480

my email they know my youtube channel

3170

01:49:52,550 --> 01:49:51,520

uh yeah yeah we have one more call

3171

01:49:54,070 --> 01:49:52,560

thanks for that call

3172

01:49:56,070 --> 01:49:54,080

um just to let you know i was the first

3173

01:49:57,430 --> 01:49:56,080

one to interview um

3174

01:49:59,589 --> 01:49:57,440

thank you i was the first one to

3175

01:50:02,550 --> 01:49:59,599

interview chris mellon

3176

01:50:04,709 --> 01:50:02,560

and um on this topic and it was it was

3177

01:50:06,950 --> 01:50:04,719

very interesting and and basically chris

3178

01:50:08,629 --> 01:50:06,960

and now we're communicating a lot and

3179

01:50:09,990 --> 01:50:08,639

there was some

3180

01:50:11,830 --> 01:50:10,000

i want to say there were some rabbit

3181

01:50:13,589 --> 01:50:11,840

holes that he could have fallen into

3182

01:50:15,910 --> 01:50:13,599

in the very beginning when because it

3183

01:50:18,470 --> 01:50:15,920

doesn't matter how brilliant you are

3184

01:50:20,310 --> 01:50:18,480

um and and what you know you can still

3185

01:50:22,070 --> 01:50:20,320

fall into these things if you don't

3186

01:50:24,629 --> 01:50:22,080

if you haven't been around it long

3187

01:50:25,910 --> 01:50:24,639

enough so um you know i'll offer this

3188

01:50:28,790 --> 01:50:25,920

to you of course if you have any

3189

01:50:32,390 --> 01:50:28,800

questions i'd be glad to help um

3190

01:50:33,030 --> 01:50:32,400

in regards to the rabbit hole 400 464

3191

01:50:34,550 --> 01:50:33,040

shows because

3192

01:50:37,430 --> 01:50:34,560

we were talking before i kind of wanted

3193

01:50:38,229 --> 01:50:37,440

to ask how you've done it for so long i

3194

01:50:40,070 --> 01:50:38,239

mean yeah

3195

01:50:41,589 --> 01:50:40,080

i want to interview you i guess i don't

3196

01:50:43,350 --> 01:50:41,599

have time thank you

3197

01:50:45,030 --> 01:50:43,360

you're welcome to i'd be glad to come on

3198

01:50:45,510 --> 01:50:45,040

your you can interview me that would be

3199

01:50:47,990 --> 01:50:45,520

fun

3200

01:50:49,430 --> 01:50:48,000

so we have one more caller um we have

3201

01:50:53,030 --> 01:50:49,440

rob from florida

3202

01:50:53,910 --> 01:50:53,040

rob welcome to the show good evening

3203

01:50:55,669 --> 01:50:53,920

martin it's uh

3204

01:50:58,070 --> 01:50:55,679

great to talk to you and i was just in

3205

01:51:01,189 --> 01:50:58,080

maine enjoying your wonderful seafood

3206

01:51:02,629 --> 01:51:01,199

uh colonel uh welcome to the uap uh

3207

01:51:05,990 --> 01:51:02,639

community

3208

01:51:08,870 --> 01:51:06,000

yeah yeah thank you okay oh

3209

01:51:11,109 --> 01:51:08,880

you bet uh the question i have you know

3210

01:51:12,629 --> 01:51:11,119

uh commander fravor stated that the

3211

01:51:15,669 --> 01:51:12,639

minute they painted

3212

01:51:18,709 --> 01:51:15,679

that target with their radar that

3213

01:51:20,870 --> 01:51:18,719

they immediately were jammed and

3214

01:51:22,870 --> 01:51:20,880

the whizzo in his backseat are they able

3215

01:51:23,910 --> 01:51:22,880

to determine what frequencies they were

3216

01:51:27,270 --> 01:51:23,920

being jammed with

3217

01:51:33,830 --> 01:51:31,350

um so we couldn't tell

3218

01:51:35,669 --> 01:51:33,840

so the only the only thing so the radar

3219

01:51:38,709 --> 01:51:35,679

is a program with different

3220

01:51:39,189 --> 01:51:38,719

uh key processing right so they'll know

3221

01:51:41,030 --> 01:51:39,199

i was

3222

01:51:43,510 --> 01:51:41,040

actually electronic attack expert uh in

3223

01:51:45,350 --> 01:51:43,520

the aggressors you know so i was like

3224

01:51:47,189 --> 01:51:45,360

really deep into the the beeps and

3225

01:51:51,189 --> 01:51:47,199

squeaks um

3226

01:51:53,350 --> 01:51:51,199

but basically the radar it will have

3227

01:51:55,830 --> 01:51:53,360

cues you know built into the processing

3228

01:51:58,149 --> 01:51:55,840

to say okay if you see this

3229

01:51:58,950 --> 01:51:58,159

it means uh they're trying to use a

3230

01:52:00,550 --> 01:51:58,960

range gate

3231

01:52:02,550 --> 01:52:00,560

pull off on you they're trying to use a

3232

01:52:05,350 --> 01:52:02,560

program to

3233

01:52:06,550 --> 01:52:05,360

to to trick your radar in range you know

3234

01:52:08,629 --> 01:52:06,560

that's one way you

3235

01:52:11,109 --> 01:52:08,639

you tell the radar hey i'm not i'm not

3236

01:52:12,790 --> 01:52:11,119

10 miles away from you i'm 20 miles

3237

01:52:14,149 --> 01:52:12,800

and then now your radar's looking in the

3238

01:52:16,790 --> 01:52:14,159

wrong spot

3239

01:52:18,390 --> 01:52:16,800

or it changes an angle so it'll say hey

3240

01:52:19,189 --> 01:52:18,400

i'm not this angle from you i'm this

3241

01:52:22,709 --> 01:52:19,199

angle

3242

01:52:25,910 --> 01:52:22,719

um and so the radars they're programmed

3243

01:52:26,950 --> 01:52:25,920

when they see that it trips it um but

3244

01:52:29,990 --> 01:52:26,960

they're not that smart

3245

01:52:32,629 --> 01:52:30,000

especially not back in in 2004 so

3246

01:52:34,149 --> 01:52:32,639

i i think what it means is they don't

3247

01:52:35,830 --> 01:52:34,159

the radar does not understand

3248

01:52:37,910 --> 01:52:35,840

the pulse that came back the pulse that

3249

01:52:39,910 --> 01:52:37,920

came back was changed it's

3250

01:52:42,070 --> 01:52:39,920

it was either changed on purpose by the

3251

01:52:43,030 --> 01:52:42,080

object you know to denote like it they

3252

01:52:44,950 --> 01:52:43,040

jammed me

3253

01:52:46,550 --> 01:52:44,960

you know an act of war you know i would

3254

01:52:49,350 --> 01:52:46,560

j i would jam a russian aircraft

3255

01:52:51,430 --> 01:52:49,360

i thought you know uh but jamming uh

3256

01:52:53,830 --> 01:52:51,440

probably not actually

3257

01:52:55,750 --> 01:52:53,840

uh but jamming would mean that it it may

3258

01:52:58,310 --> 01:52:55,760

have just done it by accident or

3259

01:52:59,510 --> 01:52:58,320

just by the nature um you know if you

3260

01:53:01,589 --> 01:52:59,520

tried to lock

3261

01:53:02,629 --> 01:53:01,599

water it would give you a weird response

3262

01:53:04,310 --> 01:53:02,639

um

3263

01:53:07,109 --> 01:53:04,320

so i think that's it you you can't

3264

01:53:09,669 --> 01:53:07,119

confirm that it is jamming when they say

3265

01:53:12,070 --> 01:53:09,679

i was jammed what i actually read as an

3266

01:53:15,030 --> 01:53:12,080

electronic attack expert

3267

01:53:16,629 --> 01:53:15,040

is that the radar pulse was changed

3268

01:53:19,270 --> 01:53:16,639

that's all i know for sure

3269

01:53:20,470 --> 01:53:19,280

it's just it's very uh it's very

3270

01:53:23,669 --> 01:53:20,480

interesting

3271

01:53:27,350 --> 01:53:23,679

that there's no radar lock in any of the

3272

01:53:29,510 --> 01:53:27,360

videos and there's no laser ranging

3273

01:53:31,189 --> 01:53:29,520

um you know because if i don't have a

3274

01:53:32,070 --> 01:53:31,199

radar lock but i have a targeting pod

3275

01:53:33,589 --> 01:53:32,080

lock man i'm

3276

01:53:34,870 --> 01:53:33,599

squeezing that trigger to get a laser

3277

01:53:36,470 --> 01:53:34,880

you know i'm shooting a laser at this

3278

01:53:37,510 --> 01:53:36,480

thing for sure to get the range you know

3279

01:53:38,870 --> 01:53:37,520

because

3280

01:53:41,589 --> 01:53:38,880

you're basically if you don't know the

3281

01:53:43,510 --> 01:53:41,599

range you feel as a pilot like

3282

01:53:44,709 --> 01:53:43,520

i'm missing something you know um

3283

01:53:46,149 --> 01:53:44,719

something's missing something very

3284

01:53:48,310 --> 01:53:46,159

critical is missing

3285

01:53:49,589 --> 01:53:48,320

is the range so that's all i would say

3286

01:53:51,430 --> 01:53:49,599

is

3287

01:53:52,950 --> 01:53:51,440

the energy has been changed we don't

3288

01:53:55,030 --> 01:53:52,960

know if it's on purpose

3289

01:53:56,790 --> 01:53:55,040

the radar maybe it says it's on purpose

3290

01:53:59,350 --> 01:53:56,800

but it's really just some processing in

3291

01:54:02,310 --> 01:53:59,360

the radar that that could be incorrect

3292

01:54:05,109 --> 01:54:02,320

well we are at the end of our show so

3293

01:54:07,750 --> 01:54:05,119

rob thank you for the call

3294

01:54:09,270 --> 01:54:07,760

oh you better always a pleasure yeah

3295

01:54:10,149 --> 01:54:09,280

thanks rob sorry i hope that answered it

3296

01:54:13,189 --> 01:54:10,159

yeah

3297

01:54:14,870 --> 01:54:13,199

so much

3298

01:54:16,790 --> 01:54:14,880

uh chris it's been a real pleasure let's

3299

01:54:17,430 --> 01:54:16,800

keep in touch and again i'll be glad to

3300

01:54:19,109 --> 01:54:17,440

help you with

3301

01:54:20,950 --> 01:54:19,119

whatever questions you have that i can

3302

01:54:23,830 --> 01:54:20,960

help you with i'd be

3303

01:54:25,510 --> 01:54:23,840

very happy too a lot of people check out

3304

01:54:27,510 --> 01:54:25,520

your videos and i hope you keep

3305

01:54:28,790 --> 01:54:27,520

having the energy to do more because

3306

01:54:30,709 --> 01:54:28,800

they're really great

3307

01:54:31,830 --> 01:54:30,719

so yeah i appreciate all the support

3308

01:54:34,709 --> 01:54:31,840

from everybody i mean

3309

01:54:35,030 --> 01:54:34,719

it does help and yeah that it does help

3310

01:54:36,550 --> 01:54:35,040

so

3311

01:54:38,550 --> 01:54:36,560

i'll continue doing it you know if

3312

01:54:40,149 --> 01:54:38,560

people are if they're excited about it

3313

01:54:43,350 --> 01:54:40,159

then it does rub off you know

3314

01:54:44,709 --> 01:54:43,360

it rubs out right the uh the excitement

3315

01:54:46,629 --> 01:54:44,719

and it is tough getting like all the

3316

01:54:47,430 --> 01:54:46,639

haters but uh whatever i haven't gotten

3317

01:54:49,990 --> 01:54:47,440

many lately

3318

01:54:51,030 --> 01:54:50,000

so yeah yeah all right and uh next week

3319

01:54:52,950 --> 01:54:51,040

we have chris

3320

01:54:55,270 --> 01:54:52,960

spark on i said that by accident last

3321

01:54:57,430 --> 01:54:55,280

week but um i had the wrong chris

3322

01:54:59,189 --> 01:54:57,440

uh when i was talking so here we are out

3323

01:55:01,430 --> 01:54:59,199

in maine and thanks so much for

3324

01:55:03,430 --> 01:55:01,440

joining the show and we'll see you next

3325

01:55:23,810 --> 01:55:03,440

week and remember to keep your eyes
