

1
00:00:07,430 --> 00:00:06,309
all righty i have tony on the line tony

2
00:00:09,589 --> 00:00:07,440
welcome

3
00:00:12,070 --> 00:00:09,599
hi there martin um now you sent me an

4
00:00:13,270 --> 00:00:12,080
email saying you had a strange

5
00:00:14,709 --> 00:00:13,280
ufo

6
00:00:17,269 --> 00:00:14,719
uh sighting

7
00:00:20,630 --> 00:00:17,279
and it's it's one that

8
00:00:24,070 --> 00:00:20,640
uh it's so bizarre because a few days

9
00:00:25,589 --> 00:00:24,080
ago someone wrote me um

10
00:00:28,470 --> 00:00:25,599
that's in the military that said they

11
00:00:30,070 --> 00:00:28,480
had a cylinder vertical cylinder

12
00:00:32,549 --> 00:00:30,080
sighting just like what you're talking

13
00:00:34,709 --> 00:00:32,559

about but let's go into the details

14

00:00:36,630 --> 00:00:34,719

uh what uh when did how long ago did

15

00:00:39,990 --> 00:00:36,640

this happen and where and all that all

16

00:00:41,670 --> 00:00:40,000

that this was in march of uh 2018 is

17

00:00:44,069 --> 00:00:41,680

when it happened

18

00:00:46,869 --> 00:00:44,079

and and i mean months passed before i

19

00:00:48,790 --> 00:00:46,879

ever reported that to mufon

20

00:00:50,790 --> 00:00:48,800

or anything i never even researched it

21

00:00:52,790 --> 00:00:50,800

just it bothered me that i didn't know

22

00:00:55,029 --> 00:00:52,800

what i saw that day i

23

00:00:56,869 --> 00:00:55,039

looked at it myself and a coworker

24

00:00:58,470 --> 00:00:56,879

through binoculars

25

00:00:59,510 --> 00:00:58,480

and couldn't understand what we were

26
00:01:01,110 --> 00:00:59,520
looking at

27
00:01:03,430 --> 00:01:01,120
now i should i should point out to the

28
00:01:05,670 --> 00:01:03,440
person watching on on youtube or

29
00:01:07,590 --> 00:01:05,680
facebook or wherever it is that this is

30
00:01:09,910 --> 00:01:07,600
a picture of something you found that

31
00:01:11,429 --> 00:01:09,920
looked very similar but did you not have

32
00:01:13,670 --> 00:01:11,439
a chance to take a picture of it when

33
00:01:15,590 --> 00:01:13,680
you saw it or was it so small you could

34
00:01:17,749 --> 00:01:15,600
only see it in the binoculars yeah

35
00:01:19,590 --> 00:01:17,759
absolutely it was so it was it was

36
00:01:21,670 --> 00:01:19,600
probably my guess is somewhere around 20

37
00:01:23,830 --> 00:01:21,680
000 feet at altitude it was it was up

38
00:01:26,149 --> 00:01:23,840

there a little ways my phone i did take

39

00:01:28,550 --> 00:01:26,159

some pictures of my phone but the image

40

00:01:31,190 --> 00:01:28,560

at that point it just looks like a star

41

00:01:31,990 --> 00:01:31,200

it gave off so much light so much glint

42

00:01:33,830 --> 00:01:32,000

uh

43

00:01:36,069 --> 00:01:33,840

that it it that's basically all it

44

00:01:38,710 --> 00:01:36,079

showed up as on my phone what time of

45

00:01:40,630 --> 00:01:38,720

day or was it in the evening nope 2 30

46

00:01:43,030 --> 00:01:40,640

in the afternoon broad daylight

47

00:01:44,789 --> 00:01:43,040

uh aircraft landing at metro airport

48

00:01:46,550 --> 00:01:44,799

directly underneath it

49

00:01:49,190 --> 00:01:46,560

but the facility i'm a plant manager at

50

00:01:51,109 --> 00:01:49,200

a facility about four miles from uh

51
00:01:53,429 --> 00:01:51,119
metro airport in detroit

52
00:01:54,550 --> 00:01:53,439
and the airport's actually in romulus

53
00:01:57,030 --> 00:01:54,560
and uh

54
00:01:58,310 --> 00:01:57,040
it was directly over top of landing

55
00:02:00,950 --> 00:01:58,320
aircraft

56
00:02:02,709 --> 00:02:00,960
um i watched it come from the north

57
00:02:05,749 --> 00:02:02,719
slowly make a

58
00:02:08,229 --> 00:02:05,759
uh heading kind of southwest

59
00:02:09,589 --> 00:02:08,239
and i we watched this thing for probably

60
00:02:12,390 --> 00:02:09,599
30 minutes

61
00:02:14,470 --> 00:02:12,400
huh and i i stared out at it all out my

62
00:02:15,670 --> 00:02:14,480
office window originally and i i just

63
00:02:17,510 --> 00:02:15,680

couldn't understand what i was looking

64

00:02:18,949 --> 00:02:17,520

at so i grabbed my binoculars and i keep

65

00:02:20,550 --> 00:02:18,959

next to my desk

66

00:02:22,150 --> 00:02:20,560

and walked out took a look at it

67

00:02:23,190 --> 00:02:22,160

co-worker came over he was looking at it

68

00:02:24,070 --> 00:02:23,200

with me

69

00:02:26,070 --> 00:02:24,080

and

70

00:02:28,470 --> 00:02:26,080

i remember putting the binoculars

71

00:02:29,910 --> 00:02:28,480

multiple times to my eyes and i just

72

00:02:31,830 --> 00:02:29,920

kept putting them down going what if i

73

00:02:33,990 --> 00:02:31,840

didn't understand what i was seeing

74

00:02:35,430 --> 00:02:34,000

it made no sense to me because the wind

75

00:02:37,509 --> 00:02:35,440

was blowing

76

00:02:39,830 --> 00:02:37,519

directly to the east

77

00:02:41,509 --> 00:02:39,840

the aircraft were landing into the wind

78

00:02:43,990 --> 00:02:41,519

heading west and when they do that they

79

00:02:46,630 --> 00:02:44,000

passed directly over our facility

80

00:02:48,550 --> 00:02:46,640

and i couldn't we we both couldn't

81

00:02:50,070 --> 00:02:48,560

understand what we were seeing and it

82

00:02:51,190 --> 00:02:50,080

looked fairly large it looked like it

83

00:02:53,910 --> 00:02:51,200

may have been

84

00:02:56,390 --> 00:02:53,920

my guess is 100 foot in length at least

85

00:02:58,390 --> 00:02:56,400

oh so that's probably not a typical

86

00:03:00,550 --> 00:02:58,400

balloon uh one last thing do you think

87

00:03:02,949 --> 00:03:00,560

the airplanes that were landing actually

88

00:03:04,149 --> 00:03:02,959

saw this thing oh absolutely

89

00:03:05,830 --> 00:03:04,159

yep

90

00:03:08,550 --> 00:03:05,840

it was much higher in altitude but i bet

91

00:03:09,750 --> 00:03:08,560

they saw it and what i didn't add in was

92

00:03:11,589 --> 00:03:09,760

there was

93

00:03:14,470 --> 00:03:11,599

uh once i took down the binoculars when

94

00:03:16,309 --> 00:03:14,480

it was almost directly over our facility

95

00:03:18,470 --> 00:03:16,319

at probably 20 000 feet in altitude

96

00:03:19,670 --> 00:03:18,480

there was an f-16 that flew right next

97

00:03:22,149 --> 00:03:19,680

to it

98

00:03:23,589 --> 00:03:22,159

from the north to the south and i

99

00:03:26,550 --> 00:03:23,599

watched that thing go out to the south

100

00:03:28,149 --> 00:03:26,560

f-16 until i couldn't see it anymore

101

00:03:29,670 --> 00:03:28,159

and it passed right next to it so

102

00:03:32,070 --> 00:03:29,680

something was interested in what that

103

00:03:36,120 --> 00:03:32,080

was yeah interesting well thank you so
