00:00:45,350 --> 00:00:17,010

[Music]

2
00:00:48,869 --> 00:00:47,510

hello and welcome to the show i'm martin

3
00:00:51,510 --> 00:00:48,879

willis your host

4
00:00:53,480 --> 00:00:51,520

and i'm still out on the west coast um

5
00:00:55,510 --> 00:00:53,490

in california i'm in my old

6
00:00:58,069 --> 00:00:55,520

[Music]

7
00:01:00,229 --> 00:00:58,079

unbelievable i hit the wrong button i'm

8
00:01:02,549 --> 00:01:00,239

in my old stomping grounds uh where

9
00:01:03,990 --> 00:01:02,559

actually where i used to live for oh i

10
00:01:06,950 --> 00:01:04,000

don't know somewhere around eight or

11
00:01:09,510 --> 00:01:06,960

nine years and i'm in tiburon uh

12
00:01:11,750 --> 00:01:09,520

california which is uh

13
00:01:14,070 --> 00:01:11,760

in the san francisco bay area a

14

00:01:16,230 --> 00:01:14,080

beautiful place exploring uh

15

00:01:18,710 --> 00:01:16,240

old places i used to go and and having a

16

00:01:20,950 --> 00:01:18,720

wonderful time and uh meeting up with

17

00:01:24,469 --> 00:01:20,960

some old friends uh tomorrow meeting

18

00:01:26,230 --> 00:01:24,479

with my good friend dean aliotta who uh

19

00:01:29,190 --> 00:01:26,240

eventually he'll be on the show talking

20

00:01:32,789 --> 00:01:29,200

about a great uh docuseries that he has

21

00:01:33,830 --> 00:01:32,799

coming out um i've i've seen enough of

22

00:01:36,789 --> 00:01:33,840

it to tell you it's going to be

23

00:01:38,710 --> 00:01:36,799

fantastic so meeting with dean um

24

00:01:41,749 --> 00:01:38,720

tomorrow

25

00:01:42,950 --> 00:01:41,759

heading back east and then in uh

26

00:01:45,350 --> 00:01:42,960

november

27

00:01:48,469 --> 00:01:45,360

5th heading out to

28

00:01:50,789 --> 00:01:48,479

phoenix arizona to go to the mufon boot

29

00:01:51,910 --> 00:01:50,799

camp investigator boot camp and i'm

30

00:01:54,389 --> 00:01:51,920

going to be filming we're going to be

31

00:01:55,270 --> 00:01:54,399

doing a show from there as well

32

00:01:58,709 --> 00:01:55,280

so

33

00:02:01,590 --> 00:01:58,719

podcast ufo on the road that's what i am

34

00:02:05,109 --> 00:02:01,600

doing so the blog this week is called a

35

00:02:08,869 --> 00:02:05,119

ufo photographed in the italian alps

36

00:02:11,670 --> 00:02:08,879

and that is back in 1950

37

00:02:13,510 --> 00:02:11,680

and i do believe the bottom line uh it's

38

00:02:16,550 --> 00:02:13,520

a very interesting

39

00:02:18,790 --> 00:02:16,560

hoax image uh check out that blog by

40

00:02:21,830 --> 00:02:18,800

charles lear great great

41

00:02:24,150 --> 00:02:21,840

material as always my guest this evening

42

00:02:27,589 --> 00:02:24,160

alfred uh kiros

43

00:02:29,190 --> 00:02:27,599

and i think i have uh talked about this

44

00:02:32,470 --> 00:02:29,200

a number of times but if you're new or

45

00:02:35,670 --> 00:02:32,480

just started listening to the show

46

00:02:37,430 --> 00:02:35,680

i had an insurance broker many years ago

47

00:02:38,949 --> 00:02:37,440

i want to say it was

48

00:02:41,030 --> 00:02:38,959

about mid

49

00:02:44,070 --> 00:02:41,040

1990s

50

00:02:46,070 --> 00:02:44,080

and we were discussing we were done

51
00:02:47,270 --> 00:02:46,080
doing our business for an insurance

52
00:02:48,949 --> 00:02:47,280
policy

53
00:02:50,470 --> 00:02:48,959
and he was walking around the house we

54
00:02:52,630 --> 00:02:50,480
were just discussing different things

55
00:02:55,030 --> 00:02:52,640
and he said i had an interesting

56
00:02:57,030 --> 00:02:55,040
um i forget what he said an interesting

57
00:02:58,869 --> 00:02:57,040
position in the military during the

58
00:03:00,390 --> 00:02:58,879
vietnam war

59
00:03:02,470 --> 00:03:00,400
and so i said well

60
00:03:05,190 --> 00:03:02,480
well what did you do exactly and he said

61
00:03:08,550 --> 00:03:05,200
i was on part of a team on the air force

62
00:03:11,670 --> 00:03:08,560
investigating ufos during the war

63
00:03:13,270 --> 00:03:11,680

and uh at that time of course i didn't

64

00:03:14,070 --> 00:03:13,280

have the show and i

65

00:03:22,790 --> 00:03:14,080

i

66

00:03:25,750 --> 00:03:22,800

but

67

00:03:27,589 --> 00:03:25,760

um anyway uh so i asked some more and

68

00:03:29,509 --> 00:03:27,599

more about it and

69

00:03:30,830 --> 00:03:29,519

it was a real it was a fascinating

70

00:03:33,750 --> 00:03:30,840

conversation

71

00:03:35,670 --> 00:03:33,760

and i had the question that everyone

72

00:03:37,670 --> 00:03:35,680

seems to have and that is what are they

73

00:03:39,509 --> 00:03:37,680

doing what are they doing here if you

74

00:03:42,229 --> 00:03:39,519

think they're really here

75

00:03:44,550 --> 00:03:42,239

the question i did ask him is what does

76

00:03:47,509 --> 00:03:44,560

the government think they are

77

00:03:50,550 --> 00:03:47,519

and his answer was

78

00:03:53,190 --> 00:03:50,560

we are a petri dish

79

00:03:55,190 --> 00:03:53,200

and i thought that was uh a fascinating

80

00:03:57,270 --> 00:03:55,200

answer and i thought about it for a long

81

00:03:58,869 --> 00:03:57,280

time you know uh years later and when i

82

00:04:01,350 --> 00:03:58,879

started doing the show

83

00:04:03,830 --> 00:04:01,360

i tried to look him up i remember his

84

00:04:05,750 --> 00:04:03,840

his name was tom bowden

85

00:04:07,589 --> 00:04:05,760

and he was in

86

00:04:09,350 --> 00:04:07,599

new hampshire i believe

87

00:04:11,350 --> 00:04:09,360

and i've tried to find him because i'd

88

00:04:12,789 --> 00:04:11,360

love to have him back on the show and

89

00:04:14,229 --> 00:04:12,799

i've never been able to find out

90

00:04:16,550 --> 00:04:14,239

anything on the internet whatever

91

00:04:19,030 --> 00:04:16,560

happened to him but our guest this

92

00:04:21,830 --> 00:04:19,040

evening is going to be talking about

93

00:04:23,990 --> 00:04:21,840

encounters during the vietnam war and

94

00:04:25,350 --> 00:04:24,000

i'm really excited to talk to him about

95

00:04:27,830 --> 00:04:25,360

it's the first time

96

00:04:31,350 --> 00:04:27,840

that uh he is in a public venue speaking

97

00:04:33,749 --> 00:04:31,360

about this and thanks to kind of

98

00:04:36,310 --> 00:04:33,759

the ridicule factor kind of dissipating

99

00:04:38,629 --> 00:04:36,320

in the ufo topic um

100

00:04:42,310 --> 00:04:38,639

he was willing to speak about it and

101
00:04:44,790 --> 00:04:42,320
he's a professor emeritus of art and uh

102
00:04:46,469 --> 00:04:44,800
here he is alfred welcome to the show

103
00:04:48,870 --> 00:04:46,479
thank you so much glad to be on here

104
00:04:50,629 --> 00:04:48,880
martin thank you yes and you know i want

105
00:04:53,110 --> 00:04:50,639
to say thank you to the person that

106
00:04:55,110 --> 00:04:53,120
connected us and right now it's escaping

107
00:04:57,909 --> 00:04:55,120
my mind

108
00:05:00,150 --> 00:04:57,919
who was it robert frasconi he was the

109
00:05:02,790 --> 00:05:00,160
field investigator who was investigating

110
00:05:04,070 --> 00:05:02,800
a photograph i have taken in april of

111
00:05:05,590 --> 00:05:04,080
this year

112
00:05:07,590 --> 00:05:05,600
oh well we're definitely going to be

113
00:05:09,590 --> 00:05:07,600

talking about that too so thank you

114

00:05:10,550 --> 00:05:09,600

robert so much for connecting us

115

00:05:13,350 --> 00:05:10,560

together

116

00:05:15,670 --> 00:05:13,360

and so let's let's hear uh now when we

117

00:05:17,510 --> 00:05:15,680

were talking off air you mentioned

118

00:05:19,590 --> 00:05:17,520

that it was uh you didn't even like to

119

00:05:22,070 --> 00:05:19,600

admit that you were involved in the

120

00:05:24,790 --> 00:05:22,080

vietnam war because of the stigma you

121

00:05:26,870 --> 00:05:24,800

know you all came back from vietnam and

122

00:05:28,390 --> 00:05:26,880

you know you were in the sense where i

123

00:05:30,469 --> 00:05:28,400

am right now basically in the san

124

00:05:32,790 --> 00:05:30,479

francisco bay area and you had to keep

125

00:05:34,550 --> 00:05:32,800

it very quiet yeah

126

00:05:37,350 --> 00:05:34,560

well it was a period of time when there

127

00:05:40,070 --> 00:05:37,360

was a large anti-war

128

00:05:44,310 --> 00:05:40,080

protests going on here during the

129

00:05:46,469 --> 00:05:44,320

war i uh got out of the service in 1967

130

00:05:48,710 --> 00:05:46,479

and went right into art school

131

00:05:50,230 --> 00:05:48,720

and uh san francisco institute

132

00:05:53,430 --> 00:05:50,240

to study painting

133

00:05:54,950 --> 00:05:53,440

and um you you didn't bring it up uh if

134

00:05:56,870 --> 00:05:54,960

if you wanted to

135

00:05:58,790 --> 00:05:56,880

date young ladies you did not mention

136

00:06:01,350 --> 00:05:58,800

the fact that you were a veteran

137

00:06:03,510 --> 00:06:01,360

uh so for for a while there i used to

138

00:06:05,029 --> 00:06:03,520

have a lie and just tell people the

139

00:06:07,590 --> 00:06:05,039

people would ask because i was a little

140

00:06:09,110 --> 00:06:07,600

bit older than the rest of the freshmen

141

00:06:10,550 --> 00:06:09,120

and they would ask me uh what are you

142

00:06:12,790 --> 00:06:10,560

where were you what do you mean what

143

00:06:14,070 --> 00:06:12,800

what did you do before school and so i

144

00:06:16,230 --> 00:06:14,080

would tell them that i was studying at

145

00:06:18,710 --> 00:06:16,240

the university of southern nevada u.s

146

00:06:22,230 --> 00:06:20,309

they were from the west coast and they

147

00:06:24,230 --> 00:06:22,240

knew universities then i would say i was

148

00:06:26,710 --> 00:06:24,240

in southern nebraska i was studying

149

00:06:28,309 --> 00:06:26,720

oceanography

150

00:06:31,110 --> 00:06:28,319

that was the joke

151

00:06:32,950 --> 00:06:31,120

yeah so i i not i didn't mention it very

152

00:06:36,230 --> 00:06:32,960

very often that i was a veteran i

153

00:06:37,830 --> 00:06:36,240

probably about 1985 i finally came out

154

00:06:39,350 --> 00:06:37,840

and asserted the fact that i was a

155

00:06:40,790 --> 00:06:39,360

vietnam veteran

156

00:06:42,790 --> 00:06:40,800

yeah yeah

157

00:06:45,270 --> 00:06:42,800

and so i don't know if you want to jump

158

00:06:47,590 --> 00:06:45,280

right into but well i guess before we

159

00:06:49,110 --> 00:06:47,600

jump right into the topic i mean into

160

00:06:51,430 --> 00:06:49,120

your encounters

161

00:06:54,950 --> 00:06:51,440

um i want to ask you did you ever pay

162

00:06:57,510 --> 00:06:54,960

attention to the ufo topic prior to

163

00:06:59,749 --> 00:06:57,520

um the the first encounter

164

00:07:02,390 --> 00:06:59,759

well the only thing i remember seeing it

165

00:07:03,430 --> 00:07:02,400

was in the movie theater we saw a movie

166

00:07:07,510 --> 00:07:03,440

about

167

00:07:09,189 --> 00:07:07,520

the ufo the p-51 pilot that crashed

168

00:07:09,990 --> 00:07:09,199

chasing the ufo and it was just one of

169

00:07:12,710 --> 00:07:10,000

those

170

00:07:15,029 --> 00:07:12,720

uh news thing newsreel things that we

171

00:07:17,589 --> 00:07:15,039

saw on the movies that was about it

172

00:07:19,670 --> 00:07:17,599

that's all i knew about ufos and that in

173

00:07:22,309 --> 00:07:19,680

that sense and that was like i was about

174

00:07:24,550 --> 00:07:22,319

maybe in the fifth sixth grade

175

00:07:25,749 --> 00:07:24,560

so i didn't pay too much attention to it

176

00:07:28,390 --> 00:07:25,759

you know that was

177

00:07:30,870 --> 00:07:28,400

uh i was that was a period of time when

178

00:07:33,270 --> 00:07:30,880

there was all these uh flying saucer

179

00:07:35,749 --> 00:07:33,280

movies uh creatures from outer space and

180

00:07:37,110 --> 00:07:35,759

all that stuff was going on so we all

181

00:07:38,230 --> 00:07:37,120

thought it was all part of the hollywood

182

00:07:41,110 --> 00:07:38,240

thing you know

183

00:07:42,710 --> 00:07:41,120

yeah yeah um so do you want to now you

184

00:07:44,469 --> 00:07:42,720

had was it two

185

00:07:48,150 --> 00:07:44,479

we're to be talking about your

186

00:07:51,270 --> 00:07:49,350

that i was

187

00:07:53,430 --> 00:07:51,280

that i took in

188

00:07:55,430 --> 00:07:53,440

let's put it that way um

189

00:07:57,430 --> 00:07:55,440

the first incident happened we were in

190

00:07:59,589 --> 00:07:57,440

route we had just left midway island

191

00:08:02,150 --> 00:07:59,599

when we were in route to guam

192

00:08:04,710 --> 00:08:02,160

uh and i was on watch uh this was

193

00:08:07,350 --> 00:08:04,720

probably around the middle of january

194

00:08:10,950 --> 00:08:07,360

january i i figured it was probably

195

00:08:13,350 --> 00:08:10,960

around the 24th of january 1966.

196

00:08:16,230 --> 00:08:13,360

i was a quartermaster uh third class uh

197

00:08:18,710 --> 00:08:16,240

qm3 uh and the quartermaster on a ship

198

00:08:20,629 --> 00:08:18,720

uh steers the ship uh into the harbor

199

00:08:21,670 --> 00:08:20,639

out of the harbor alongside other ships

200

00:08:23,510 --> 00:08:21,680

etc

201
00:08:26,150 --> 00:08:23,520
and we do we're also the assistant

202
00:08:28,390 --> 00:08:26,160
navigator so we navigate the ship and

203
00:08:30,629 --> 00:08:28,400
that's our job uh when we're on watch is

204
00:08:32,469 --> 00:08:30,639
to make sure that the ship is on course

205
00:08:34,389 --> 00:08:32,479
and also we keep the ships logged and

206
00:08:37,430 --> 00:08:34,399
we're also the ship's weatherman

207
00:08:39,350 --> 00:08:37,440
so on this night i'm on the midwatch uh

208
00:08:41,909 --> 00:08:39,360
midnight to four

209
00:08:43,430 --> 00:08:41,919
the bridge crew consists of two lookouts

210
00:08:45,829 --> 00:08:43,440
a radio man

211
00:08:47,590 --> 00:08:45,839
uh the officer of the deck uh which is

212
00:08:49,590 --> 00:08:47,600
the senior officer the junior officer of

213
00:08:51,670 --> 00:08:49,600

the deck which is a junior officer

214

00:08:53,430 --> 00:08:51,680

the bosses made of the watch uh the

215

00:08:55,590 --> 00:08:53,440

messenger of the watch

216

00:08:57,670 --> 00:08:55,600

the steersman or the helmsman and the

217

00:09:00,070 --> 00:08:57,680

enunciator guy the guy that runs the

218

00:09:01,670 --> 00:09:00,080

engines forward and back and then myself

219

00:09:04,470 --> 00:09:01,680

the quartermaster the watch and my job

220

00:09:06,790 --> 00:09:04,480

is to maintain the ship stays on course

221

00:09:09,030 --> 00:09:06,800

and i'm taking fixes about every or

222

00:09:10,790 --> 00:09:09,040

every 45 minutes every every hour we

223

00:09:11,990 --> 00:09:10,800

have to have a fix

224

00:09:14,630 --> 00:09:12,000

and uh

225

00:09:16,710 --> 00:09:14,640

and we go from there so i had taken a

226

00:09:19,030 --> 00:09:16,720

break and usually uh

227

00:09:21,269 --> 00:09:19,040

at this point in time the sky was

228

00:09:23,190 --> 00:09:21,279

incredibly clear you get what is called

229

00:09:24,949 --> 00:09:23,200

the dome effect in the middle of the

230

00:09:26,870 --> 00:09:24,959

ocean in other words you have horizon to

231

00:09:27,910 --> 00:09:26,880

horizon stars

232

00:09:30,550 --> 00:09:27,920

so

233

00:09:32,470 --> 00:09:30,560

i would get my 7 by 50 binoculars i

234

00:09:34,470 --> 00:09:32,480

always had around my neck and i would

235

00:09:36,310 --> 00:09:34,480

just aim them straight up 90 degrees

236

00:09:37,350 --> 00:09:36,320

straight up and just look and just like

237

00:09:40,389 --> 00:09:37,360

realize

238

00:09:43,509 --> 00:09:40,399

how infinitely small we were in regard

239

00:09:45,829 --> 00:09:43,519

to the space that we were looking at and

240

00:09:48,310 --> 00:09:45,839

as i was looking at uh and with my

241

00:09:50,070 --> 00:09:48,320

binoculars i was looking at the stars

242

00:09:51,190 --> 00:09:50,080

and uh all of a sudden i noticed there

243

00:09:54,310 --> 00:09:51,200

was a

244

00:09:55,509 --> 00:09:54,320

a v formation five little white dots

245

00:09:56,790 --> 00:09:55,519

moving

246

00:09:59,750 --> 00:09:56,800

very slowly

247

00:10:01,750 --> 00:09:59,760

so almost like a satellite so i

248

00:10:03,590 --> 00:10:01,760

immediately chewed out the lookouts that

249

00:10:05,350 --> 00:10:03,600

were above the uh sitting on there

250

00:10:06,870 --> 00:10:05,360

they're standing on top of the bridge so

251
00:10:09,030 --> 00:10:06,880
i chewed them out because i you know i

252
00:10:10,230 --> 00:10:09,040
was a quartermaster's third class uh

253
00:10:12,550 --> 00:10:10,240
corporal

254
00:10:14,310 --> 00:10:12,560
in uh the army and i chewed them out i

255
00:10:15,910 --> 00:10:14,320
said you know why did you report those

256
00:10:17,590 --> 00:10:15,920
lines and they go what likes those up

257
00:10:19,430 --> 00:10:17,600
there that was right up there oh my god

258
00:10:21,750 --> 00:10:19,440
yeah yeah i said you're supposed to

259
00:10:23,430 --> 00:10:21,760
report those by the way so i informed

260
00:10:25,509 --> 00:10:23,440
the officer that we got a flight of

261
00:10:27,829 --> 00:10:25,519
aircraft probably aircraft

262
00:10:30,550 --> 00:10:27,839
uh heading for guam same way we are

263
00:10:33,269 --> 00:10:30,560

because we were in a northwesterly

264

00:10:35,430 --> 00:10:33,279

direction at the time so

265

00:10:37,350 --> 00:10:35,440

we just you know went through a regular

266

00:10:39,829 --> 00:10:37,360

rigable role where in other words center

267

00:10:41,190 --> 00:10:39,839

operating procedure we call a cic combat

268

00:10:42,630 --> 00:10:41,200

information center say hey what do you

269

00:10:44,150 --> 00:10:42,640

guys got on radar

270

00:10:46,069 --> 00:10:44,160

and he said oh you know i have nothing

271

00:10:48,230 --> 00:10:46,079

on radar i said well let's we're looking

272

00:10:50,630 --> 00:10:48,240

at five objects and they seem to be

273

00:10:52,150 --> 00:10:50,640

moving along uh

274

00:10:55,190 --> 00:10:52,160

pretty high up

275

00:10:57,190 --> 00:10:55,200

uh they're all they're in a v formation

276

00:10:58,790 --> 00:10:57,200

uh headed the same direction we are so

277

00:11:00,550 --> 00:10:58,800

that's why we assumed there was maybe a

278

00:11:01,590 --> 00:11:00,560

flight of b-52s and then we were

279

00:11:03,829 --> 00:11:01,600

wondering why they had their landing

280

00:11:05,190 --> 00:11:03,839

lights on or something but anyway

281

00:11:06,470 --> 00:11:05,200

so um

282

00:11:09,509 --> 00:11:06,480

at that point

283

00:11:11,030 --> 00:11:09,519

the radio the the radar the radar men

284

00:11:12,550 --> 00:11:11,040

say well why don't you contact guam

285

00:11:13,590 --> 00:11:12,560

we'll contact juan see what they've got

286

00:11:15,670 --> 00:11:13,600

coming in

287

00:11:17,750 --> 00:11:15,680

so they contacted guam air force base

288

00:11:19,110 --> 00:11:17,760

and guam reported back right away saying

289

00:11:20,949 --> 00:11:19,120

we don't have anybody coming in we don't

290

00:11:22,949 --> 00:11:20,959

know what you're looking at

291

00:11:26,710 --> 00:11:22,959

so they suggested at that point

292

00:11:29,190 --> 00:11:26,720

suggested uh they can't we contact

293

00:11:30,550 --> 00:11:29,200

tachikawa air force base in japan

294

00:11:32,710 --> 00:11:30,560

so

295

00:11:34,310 --> 00:11:32,720

the radar men contact chicago air force

296

00:11:36,230 --> 00:11:34,320

base and they say well okay we got these

297

00:11:38,310 --> 00:11:36,240

five things moving along and

298

00:11:40,069 --> 00:11:38,320

nobody seems to know what they are and

299

00:11:41,990 --> 00:11:40,079

touch car air force base responded with

300

00:11:44,069 --> 00:11:42,000

a negative saying we are nothing in the

301
00:11:46,870 --> 00:11:44,079
air we have we don't know what you guys

302
00:11:48,949 --> 00:11:46,880
are looking at so they recommended the

303
00:11:50,470 --> 00:11:48,959
third radar site which was in hong kong

304
00:11:52,710 --> 00:11:50,480
and they said the british radar british

305
00:11:54,230 --> 00:11:52,720
have the strongest radar in this area

306
00:11:56,790 --> 00:11:54,240
why don't you contact them see what

307
00:11:58,550 --> 00:11:56,800
they've got coming in okay so we contact

308
00:11:59,430 --> 00:11:58,560
the british

309
00:12:00,629 --> 00:11:59,440
nothing

310
00:12:02,230 --> 00:12:00,639
we said we don't know what you guys said

311
00:12:04,230 --> 00:12:02,240
look at it say we're getting the same

312
00:12:06,150 --> 00:12:04,240
response all the time so but this time

313
00:12:06,790 --> 00:12:06,160

we're all looking at these guys we're

314

00:12:09,350 --> 00:12:06,800

all

315

00:12:11,030 --> 00:12:09,360

there with our binoculars now we kept

316

00:12:12,629 --> 00:12:11,040

thinking if only they kept going

317

00:12:14,790 --> 00:12:12,639

straight and just kept going we would

318

00:12:16,870 --> 00:12:14,800

have just forgotten about it and logged

319

00:12:19,030 --> 00:12:16,880

in as uh five aircraft

320

00:12:20,389 --> 00:12:19,040

and that was minion

321

00:12:23,190 --> 00:12:20,399

but

322

00:12:24,629 --> 00:12:23,200

these were moving along and then all of

323

00:12:26,790 --> 00:12:24,639

a sudden

324

00:12:29,750 --> 00:12:26,800

they made a 90 degree turn i mean

325

00:12:31,829 --> 00:12:29,760

literally worm bam on I and then and

326

00:12:32,870 --> 00:12:31,839

then just took off i mean this just they

327

00:12:35,190 --> 00:12:32,880

just

328

00:12:37,110 --> 00:12:35,200

vanished i mean and we were i was

329

00:12:39,030 --> 00:12:37,120

yelling dead reckoning dead reckoning so

330

00:12:41,430 --> 00:12:39,040

i was looking towards the direction they

331

00:12:44,069 --> 00:12:41,440

went and they were gone

332

00:12:46,230 --> 00:12:44,079

so at that point we all kind of lowered

333

00:12:48,230 --> 00:12:46,240

our binoculars slowly and just kind of

334

00:12:49,670 --> 00:12:48,240

looked at each other and i just looked

335

00:12:51,590 --> 00:12:49,680

at the

336

00:12:54,069 --> 00:12:51,600

the operations officer who was the

337

00:12:56,310 --> 00:12:54,079

officer of the ood officer of the deck

338

00:12:58,790 --> 00:12:56,320

senior officer he was a full lieutenant

339

00:13:02,150 --> 00:12:58,800

and i said to him i said um

340

00:13:06,790 --> 00:13:02,160

how do i log that in uh what was that uh

341

00:13:09,670 --> 00:13:06,800

mach 20 mach 30 what speed was that that

342

00:13:11,430 --> 00:13:09,680

was a 90 degree turn with no hesitation

343

00:13:14,870 --> 00:13:11,440

they just

344

00:13:17,509 --> 00:13:14,880

uh did it out i mean there was no

345

00:13:19,030 --> 00:13:17,519

arcing of a turn an aircraft would arc

346

00:13:21,350 --> 00:13:19,040

these guys

347

00:13:23,590 --> 00:13:21,360

90 degrees uh sh just

348

00:13:25,110 --> 00:13:23,600

a shift changing direction

349

00:13:27,350 --> 00:13:25,120

and then just took off they just like

350

00:13:28,710 --> 00:13:27,360

vaporized just like vaporized

351
00:13:29,910 --> 00:13:28,720
they were gone

352
00:13:32,470 --> 00:13:29,920
so

353
00:13:34,629 --> 00:13:32,480
i just looked at the the officer of the

354
00:13:36,629 --> 00:13:34,639
deck and i said how do i log that in i

355
00:13:38,550 --> 00:13:36,639
said and he said uh gentlemen i believe

356
00:13:39,990 --> 00:13:38,560
you call those ufos

357
00:13:42,069 --> 00:13:40,000
so at that point i said do i have

358
00:13:43,829 --> 00:13:42,079
permission to log in as such he said log

359
00:13:46,069 --> 00:13:43,839
it in as you saw it quartermaster and i

360
00:13:48,389 --> 00:13:46,079
said i will log in as i saw

361
00:13:50,470 --> 00:13:48,399
things these four five objects

362
00:13:51,509 --> 00:13:50,480
making a 90 degree turn and then going

363
00:13:53,990 --> 00:13:51,519

at a

364

00:13:55,590 --> 00:13:54,000

fantastically high speed and the only

365

00:13:57,269 --> 00:13:55,600

thing the other thing the officer said

366

00:13:59,269 --> 00:13:57,279

at that point was

367

00:14:03,189 --> 00:13:59,279

gentlemen let us hope they are whoever

368

00:14:05,590 --> 00:14:03,199

they are they are on our side yeah

369

00:14:08,710 --> 00:14:05,600

so that was it so we logged i logged it

370

00:14:10,710 --> 00:14:08,720

in the funny part about this situation

371

00:14:13,110 --> 00:14:10,720

is i was the guy that when the ship's

372

00:14:15,670 --> 00:14:13,120

log was filled i was a guy that had a

373

00:14:17,910 --> 00:14:15,680

key to the ship's log blocker which was

374

00:14:19,509 --> 00:14:17,920

located in the focus of the destroyer

375

00:14:22,230 --> 00:14:19,519

that i was on

376

00:14:24,470 --> 00:14:22,240

and uh we would always put the logs in

377

00:14:26,470 --> 00:14:24,480

there and mark them the date when these

378

00:14:27,269 --> 00:14:26,480

filled out and everything else

379

00:14:29,590 --> 00:14:27,279

so

380

00:14:32,629 --> 00:14:29,600

i went into after i put the log away

381

00:14:34,870 --> 00:14:32,639

after the log was filled i put them away

382

00:14:37,430 --> 00:14:34,880

i went back into the ship's log because

383

00:14:39,910 --> 00:14:37,440

i wanted to take that page out in other

384

00:14:42,550 --> 00:14:39,920

words i wanted a souvenir because i i

385

00:14:44,870 --> 00:14:42,560

knew whatever we had witnessed

386

00:14:47,430 --> 00:14:44,880

was something very spectacular and

387

00:14:49,750 --> 00:14:47,440

something very very unusual and it's

388

00:14:52,870 --> 00:14:49,760

something that it was starting to alter

389

00:14:54,710 --> 00:14:52,880

my consciousness about what i was doing

390

00:14:55,509 --> 00:14:54,720

and what we were doing and things like

391

00:14:56,389 --> 00:14:55,519

that

392

00:14:59,750 --> 00:14:56,399

so

393

00:15:02,069 --> 00:14:59,760

when i went to go pilfer the page of

394

00:15:03,910 --> 00:15:02,079

that log the log was gone

395

00:15:04,629 --> 00:15:03,920

someone beat me too

396

00:15:06,310 --> 00:15:04,639

so

397

00:15:07,670 --> 00:15:06,320

and i wasn't about to go asking

398

00:15:09,910 --> 00:15:07,680

questions you know hey who took that

399

00:15:11,990 --> 00:15:09,920

long

400

00:15:13,990 --> 00:15:12,000

so i i figure

401
00:15:16,069 --> 00:15:14,000
it had to be an officer or someone else

402
00:15:18,710 --> 00:15:16,079
that had the key i was the only enlisted

403
00:15:20,550 --> 00:15:18,720
man that had a key to that locker

404
00:15:22,790 --> 00:15:20,560
and i believe the executive officer and

405
00:15:25,030 --> 00:15:22,800
another and the navigator uh which was

406
00:15:27,670 --> 00:15:25,040
an officer had the key to that to that

407
00:15:30,069 --> 00:15:27,680
locker so somebody saying the whole the

408
00:15:32,470 --> 00:15:30,079
whole log journal was gone the whole

409
00:15:34,870 --> 00:15:32,480
book the whole book

410
00:15:37,030 --> 00:15:34,880
wow and uh when something like that

411
00:15:38,790 --> 00:15:37,040
happens isn't that really like something

412
00:15:40,550 --> 00:15:38,800
major i mean

413
00:15:42,710 --> 00:15:40,560

well we uh

414

00:15:45,350 --> 00:15:42,720

we kept quiet about it and the reason we

415

00:15:46,470 --> 00:15:45,360

kept quiet uh uh we were afraid of

416

00:15:47,910 --> 00:15:46,480

ridicule

417

00:15:49,749 --> 00:15:47,920

and um

418

00:15:51,749 --> 00:15:49,759

and uh we didn't want to have any

419

00:15:53,910 --> 00:15:51,759

anybody ridiculing us

420

00:15:56,949 --> 00:15:53,920

and uh you know the the term did you see

421

00:15:58,949 --> 00:15:56,959

any little grievance into that kind of what

422

00:16:01,430 --> 00:15:58,959

would come up i believe i told one other

423

00:16:03,829 --> 00:16:01,440

navigator one other assistant navigator

424

00:16:06,470 --> 00:16:03,839

about it and he just laughed

425

00:16:07,509 --> 00:16:06,480

yeah so i figured okay we gotta

426
00:16:10,389 --> 00:16:07,519
zip it

427
00:16:12,230 --> 00:16:10,399
and yeah i mean there was uh

428
00:16:14,310 --> 00:16:12,240
let's see uh there are two lookouts the

429
00:16:16,629 --> 00:16:14,320
boats was made of the watch the two

430
00:16:18,790 --> 00:16:16,639
officers the messenger of the watch and

431
00:16:20,550 --> 00:16:18,800
myself and a radio men were the

432
00:16:21,350 --> 00:16:20,560
witnesses to this

433
00:16:23,110 --> 00:16:21,360
yeah

434
00:16:24,470 --> 00:16:23,120
and so

435
00:16:25,910 --> 00:16:24,480
when this thing

436
00:16:28,150 --> 00:16:25,920
you're you're

437
00:16:29,189 --> 00:16:28,160
you're kind of unsure

438
00:16:33,189 --> 00:16:29,199

how

439

00:16:35,430 --> 00:16:33,199

elevation

440

00:16:37,670 --> 00:16:35,440

we figured these were at satellite

441

00:16:40,470 --> 00:16:37,680

height we figured and we knew about

442

00:16:41,910 --> 00:16:40,480

satellites because we were aware of the

443

00:16:43,269 --> 00:16:41,920

echo satellite

444

00:16:46,150 --> 00:16:43,279

because

445

00:16:49,030 --> 00:16:46,160

okay go ahead well my question is echo

446

00:16:51,189 --> 00:16:49,040

satellite as a ruse for

447

00:16:52,949 --> 00:16:51,199

officers that were learning how to use

448

00:16:55,110 --> 00:16:52,959

a sextant

449

00:16:57,110 --> 00:16:55,120

in other words we knew the satellite was

450

00:16:59,269 --> 00:16:57,120

going to be over her head

451
00:17:00,150 --> 00:16:59,279
but let me ask you this would

452
00:17:02,150 --> 00:17:00,160
you

453
00:17:03,910 --> 00:17:02,160
would a radar

454
00:17:06,150 --> 00:17:03,920
go to that height to that level

455
00:17:07,909 --> 00:17:06,160
elevation

456
00:17:10,870 --> 00:17:07,919
that i don't know i did have to have

457
00:17:15,429 --> 00:17:10,880
some radar required we had a 300 range

458
00:17:18,069 --> 00:17:15,439
300 mile range uh long range radar i i

459
00:17:20,230 --> 00:17:18,079
believe it was 300 miles

460
00:17:22,309 --> 00:17:20,240
wow that tells you anything

461
00:17:24,230 --> 00:17:22,319
uh here's a question that came in a chat

462
00:17:26,470 --> 00:17:24,240
when the light shot off

463
00:17:27,990 --> 00:17:26,480

was the point of the v pointed in the

464

00:17:30,150 --> 00:17:28,000

direction of the movement and that's a

465

00:17:32,310 --> 00:17:30,160

very good question

466

00:17:35,110 --> 00:17:32,320

i'm pointed in the direction of the what

467

00:17:38,150 --> 00:17:35,120

of the v the forward v like aerial

468

00:17:40,630 --> 00:17:38,160

aerodynamically uh the point of the v it

469

00:17:42,230 --> 00:17:40,640

i mean they just went boom and the v

470

00:17:43,350 --> 00:17:42,240

always stayed

471

00:17:45,590 --> 00:17:43,360

the v

472

00:17:47,350 --> 00:17:45,600

to the front shifted just literally

473

00:17:48,789 --> 00:17:47,360

shifted like that yeah

474

00:17:51,029 --> 00:17:48,799

yeah they just

475

00:17:53,830 --> 00:17:51,039

i mean gone i have to tell you a funny

476

00:17:55,909 --> 00:17:53,840

thing that did happen in 1977

477

00:17:58,070 --> 00:17:55,919

i went to go see the movie star wars i

478

00:17:59,909 --> 00:17:58,080

was living in providence rhode island we

479

00:18:01,830 --> 00:17:59,919

went to see the movie star wars for the

480

00:18:04,789 --> 00:18:01,840

first time when it came out

481

00:18:08,710 --> 00:18:04,799

and there's a scene where han solo puts

482

00:18:11,110 --> 00:18:08,720

his spaceship into hyperdrive or yeah

483

00:18:12,710 --> 00:18:11,120

well when he did that

484

00:18:15,590 --> 00:18:12,720

i reacted

485

00:18:18,070 --> 00:18:15,600

and i i out loud and people in the

486

00:18:23,350 --> 00:18:21,110

shut up because i i i freaked i just

487

00:18:25,190 --> 00:18:23,360

like oh my god that's what those ufos

488

00:18:26,630 --> 00:18:25,200

did in 1966 they're getting into

489

00:18:28,470 --> 00:18:26,640

hyperspace

490

00:18:30,710 --> 00:18:28,480

and everybody was shh

491

00:18:33,110 --> 00:18:30,720

[h__\h] down

492

00:18:35,430 --> 00:18:33,120

and i was just so excited because that

493

00:18:37,590 --> 00:18:35,440

was what it looked like to me

494

00:18:40,150 --> 00:18:37,600

like these ufos so they made that 90

495

00:18:41,750 --> 00:18:40,160

return they just they just they didn't

496

00:18:43,510 --> 00:18:41,760

they didn't they just didn't turn and

497

00:18:45,830 --> 00:18:43,520

keep going they would they turned and

498

00:18:47,909 --> 00:18:45,840

took and got and they were gone i mean

499

00:18:49,750 --> 00:18:47,919

boom banished

500

00:18:51,430 --> 00:18:49,760

yeah this one freaked us all out because

501
00:18:53,190 --> 00:18:51,440
we just like i said we all just kind of

502
00:18:53,909 --> 00:18:53,200
loaded our binoculars really slowly and

503
00:18:55,669 --> 00:18:53,919
just

504
00:18:58,310 --> 00:18:55,679
looked at each other like okay did you

505
00:18:59,990 --> 00:18:58,320
just see what i just saw

506
00:19:00,870 --> 00:19:00,000
that kind of thing you know

507
00:19:02,230 --> 00:19:00,880
yeah

508
00:19:05,350 --> 00:19:02,240
and so

509
00:19:07,990 --> 00:19:05,360
um your other encounter was

510
00:19:09,190 --> 00:19:08,000
at close range am i do i have that right

511
00:19:10,549 --> 00:19:09,200
that's correct

512
00:19:11,590 --> 00:19:10,559
and that was a little bit different

513
00:19:14,150 --> 00:19:11,600

encounter

514

00:19:17,190 --> 00:19:14,160

uh we by this time we were off the coast

515

00:19:18,789 --> 00:19:17,200

of vietnam we uh we were maybe two three

516

00:19:21,110 --> 00:19:18,799

miles four miles five miles off the

517

00:19:24,470 --> 00:19:21,120

coast of vietnam we were conducting

518

00:19:26,710 --> 00:19:24,480

shorebirning off of the quang tree i

519

00:19:28,390 --> 00:19:26,720

believe is the area we were operating in

520

00:19:31,270 --> 00:19:28,400

just below the uh

521

00:19:34,070 --> 00:19:31,280

the dmz line the 17th parallel

522

00:19:37,350 --> 00:19:34,080

so we were moving back and forth

523

00:19:39,029 --> 00:19:37,360

awaiting waters from uh

524

00:19:41,750 --> 00:19:39,039

an aircraft there was a spotter plane

525

00:19:43,510 --> 00:19:41,760

flying over the area the ground area uh

526
00:19:46,710 --> 00:19:43,520
over the south vietnam area in contrary

527
00:19:47,830 --> 00:19:46,720
area uh we were waiting for sherman

528
00:19:51,110 --> 00:19:47,840
targets

529
00:19:53,190 --> 00:19:51,120
and um as we were cruising along i i was

530
00:19:55,510 --> 00:19:53,200
on the bridge i don't know why i don't

531
00:19:57,190 --> 00:19:55,520
remember if i wasn't on wash

532
00:19:59,350 --> 00:19:57,200
so i was probably conducting my normal

533
00:20:01,990 --> 00:19:59,360
duties on the bridge going around

534
00:20:05,029 --> 00:20:02,000
and uh we weren't we were maybe in a

535
00:20:07,190 --> 00:20:05,039
condition three battle stations so

536
00:20:08,630 --> 00:20:07,200
uh i do i wasn't at a battle station

537
00:20:10,149 --> 00:20:08,640
otherwise we weren't at full battle

538
00:20:11,909 --> 00:20:10,159

stations

539

00:20:14,230 --> 00:20:11,919

when one of the all of a sudden bright

540

00:20:18,149 --> 00:20:14,240

day it was sunny hot

541

00:20:19,830 --> 00:20:18,159

uh humid this is like about april 1966

542

00:20:21,430 --> 00:20:19,840

uh when all the sudden the lookouts

543

00:20:24,070 --> 00:20:21,440

started yelling there's a ball in the

544

00:20:25,909 --> 00:20:24,080

water there's something in the wall of

545

00:20:29,909 --> 00:20:25,919

a ball in the water silver ball in the

546

00:20:33,270 --> 00:20:29,919

water and this was about a oh maybe 175

547

00:20:35,190 --> 00:20:33,280

feet 100 feet safe i mean 100 yards 75

548

00:20:36,870 --> 00:20:35,200

yards in front of us

549

00:20:41,830 --> 00:20:36,880

so

550

00:20:43,270 --> 00:20:41,840

is slowed down and the captain is

551
00:20:45,029 --> 00:20:43,280
brought is called to the bridge the

552
00:20:46,710 --> 00:20:45,039
captain comes to the bridge

553
00:20:48,630 --> 00:20:46,720
and he says what's going on he says

554
00:20:51,590 --> 00:20:48,640
there's uh the lookouts report there's a

555
00:20:53,590 --> 00:20:51,600
silver ball in the water uh ahead of us

556
00:20:55,590 --> 00:20:53,600
so the captain said orders immediately

557
00:20:56,390 --> 00:20:55,600
turn the ship off

558
00:20:57,990 --> 00:20:56,400
so

559
00:20:59,510 --> 00:20:58,000
all everything all the systems go off

560
00:21:00,870 --> 00:20:59,520
and the ship's engines turned off

561
00:21:02,710 --> 00:21:00,880
everything's turned off pretty soon it

562
00:21:03,909 --> 00:21:02,720
gets really eerie because it's really

563
00:21:05,909 --> 00:21:03,919

silent

564

00:21:06,950 --> 00:21:05,919

and then the captain tells these two

565

00:21:09,750 --> 00:21:06,960

officers

566

00:21:12,390 --> 00:21:09,760

get into the safe and the safe was under

567

00:21:14,149 --> 00:21:12,400

the chart desk so i had a chart that's

568

00:21:16,310 --> 00:21:14,159

where i in the in the pilot house where

569

00:21:18,310 --> 00:21:16,320

i you know work on the char or we did

570

00:21:21,669 --> 00:21:18,320

our fixes

571

00:21:24,230 --> 00:21:21,679

uh and so we had the chart in our in our

572

00:21:26,470 --> 00:21:24,240

chart desk so they opened the safe and

573

00:21:28,830 --> 00:21:26,480

they bring out this huge book this huge

574

00:21:32,230 --> 00:21:28,840

notebook and i mean it says

575

00:21:34,070 --> 00:21:32,240

warsaw warsaw pack weapons and then it

576

00:21:35,190 --> 00:21:34,080

says top secret across and they said

577

00:21:37,029 --> 00:21:35,200

kiros

578

00:21:39,110 --> 00:21:37,039

yeah we all went by our last name so

579

00:21:41,270 --> 00:21:39,120

they said kiddos look away you only have

580

00:21:43,110 --> 00:21:41,280

a secret clearance this is a top secret

581

00:21:44,710 --> 00:21:43,120

thing so i had to turn my head away and

582

00:21:46,710 --> 00:21:44,720

not look at the book but you know i

583

00:21:49,430 --> 00:21:46,720

could look at it and they were they were

584

00:21:51,110 --> 00:21:49,440

looking through mines the mind mine area

585

00:21:52,950 --> 00:21:51,120

so they're looking to see what kind of

586

00:21:55,350 --> 00:21:52,960

mine it is because we thought at that

587

00:21:57,830 --> 00:21:55,360

point we thought it was a mine

588

00:21:58,870 --> 00:21:57,840

yes bobbing below the surface we're just

589

00:22:00,710 --> 00:21:58,880

bobbing

590

00:22:02,230 --> 00:22:00,720

so at that point the captain says uh

591

00:22:04,630 --> 00:22:02,240

we're not going to get near back the

592

00:22:07,270 --> 00:22:04,640

ship up slightly so we've got the ship

593

00:22:08,710 --> 00:22:07,280

up by this time you know the residual

594

00:22:11,029 --> 00:22:08,720

you know when we turn the ship off we're

595

00:22:12,630 --> 00:22:11,039

still moving so by this right captain

596

00:22:15,750 --> 00:22:12,640

says here we got it back to [h__h] because

597

00:22:17,029 --> 00:22:15,760

we were getting closer to this object

598

00:22:18,630 --> 00:22:17,039

so the captain said we don't want to

599

00:22:19,830 --> 00:22:18,640

deal with this nonsense we don't want to

600

00:22:21,029 --> 00:22:19,840

deal with this thing we don't know what

601
00:22:22,070 --> 00:22:21,039
it is

602
00:22:24,470 --> 00:22:22,080
so

603
00:22:26,390 --> 00:22:24,480
we call the helicopter uh we had an

604
00:22:27,909 --> 00:22:26,400
aircraft carrier in the area i forget

605
00:22:29,909 --> 00:22:27,919
which aircraft we were operating with

606
00:22:32,390 --> 00:22:29,919
maybe three aircraft carriers at the

607
00:22:35,750 --> 00:22:32,400
time one of the main ones were operating

608
00:22:37,190 --> 00:22:35,760
with was the enterprise well speaking of

609
00:22:39,190 --> 00:22:37,200
names here's a question here what was

610
00:22:40,789 --> 00:22:39,200
the name of that ship again

611
00:22:44,230 --> 00:22:40,799
the one you were on

612
00:22:45,430 --> 00:22:44,240
i was on the uss waterburn dd684

613
00:22:46,630 --> 00:22:45,440

witterberg

614

00:22:49,669 --> 00:22:46,640

wetterburn

615

00:22:51,430 --> 00:22:49,679

winterberg okay

616

00:22:53,669 --> 00:22:51,440

thank you oh

617

00:22:55,270 --> 00:22:53,679

there it is right there wetterberg i got

618

00:22:56,070 --> 00:22:55,280

it

619

00:22:59,590 --> 00:22:56,080

yeah

620

00:23:01,350 --> 00:22:59,600

it's uh what's your class 2100 2100

621

00:23:03,029 --> 00:23:01,360

fletcher class destroyer we still had

622

00:23:04,789 --> 00:23:03,039

our five gun mounts

623

00:23:06,870 --> 00:23:04,799

nice you had that book handy like that

624

00:23:09,669 --> 00:23:06,880

wow yeah that's uh the yearbook i worked

625

00:23:10,870 --> 00:23:09,679

on uh yeah for the the cruise it's our

626
00:23:13,430 --> 00:23:10,880
cruise book

627
00:23:15,350 --> 00:23:13,440
so consequently we all the helicopter

628
00:23:17,430 --> 00:23:15,360
comes in by this time we got

629
00:23:20,149 --> 00:23:17,440
the helicopter pilots on our radio so

630
00:23:22,710 --> 00:23:20,159
he's talking we can hear them

631
00:23:24,230 --> 00:23:22,720
so i started filming i got my i had an

632
00:23:26,310 --> 00:23:24,240
eight millimeter camera a regular eight

633
00:23:28,310 --> 00:23:26,320
millimeter camera so i started filming a

634
00:23:30,390 --> 00:23:28,320
little bit getting it going and the

635
00:23:32,149 --> 00:23:30,400
captain turns and sees me

636
00:23:33,909 --> 00:23:32,159
when the cavity says put that thing away

637
00:23:35,669 --> 00:23:33,919
you know i go yes sir

638
00:23:36,630 --> 00:23:35,679

i put the camera away so i got no

639

00:23:39,270 --> 00:23:36,640

footage

640

00:23:42,710 --> 00:23:39,280

of anything like because i just barely

641

00:23:45,110 --> 00:23:42,720

started when he's when he saw me and uh

642

00:23:48,830 --> 00:23:45,120

so the helicopter comes

643

00:23:52,310 --> 00:23:48,840

goes in front of us uh and lowers a um

644

00:23:54,710 --> 00:23:52,320

a cable or a some kind of a

645

00:23:57,510 --> 00:23:54,720

device down a long cable

646

00:23:58,390 --> 00:23:57,520

and it's some kind of sonar device and

647

00:24:00,470 --> 00:23:58,400

um

648

00:24:02,470 --> 00:24:00,480

he's describing it to us he's you know

649

00:24:04,070 --> 00:24:02,480

over the over the radio we're listening

650

00:24:05,669 --> 00:24:04,080

on the bridge we're listening to the

651
00:24:08,230 --> 00:24:05,679
broadcast on the bridge and he's saying

652
00:24:11,830 --> 00:24:08,240
it's a smooth ball silver six feet

653
00:24:13,669 --> 00:24:11,840
diameter no seams no markings no rivets

654
00:24:15,510 --> 00:24:13,679
it's totally smooth

655
00:24:18,310 --> 00:24:15,520
so he says doesn't seem to be doing

656
00:24:20,070 --> 00:24:18,320
anything so i said so i'm looking at

657
00:24:21,750 --> 00:24:20,080
this point i'm looking at the chart

658
00:24:23,990 --> 00:24:21,760
trying to figure you know and we had we

659
00:24:26,710 --> 00:24:24,000
were off the coast so

660
00:24:28,630 --> 00:24:26,720
there's a lot of shoals and weird

661
00:24:30,710 --> 00:24:28,640
the ground is kind of strange in fact we

662
00:24:31,590 --> 00:24:30,720
had to use some old french charts that

663
00:24:34,149 --> 00:24:31,600

showed

664

00:24:35,110 --> 00:24:34,159

uh sand sandy shoals and things like

665

00:24:35,909 --> 00:24:35,120

that

666

00:24:37,669 --> 00:24:35,919

so

667

00:24:39,430 --> 00:24:37,679

we're concerned about not running the

668

00:24:42,470 --> 00:24:39,440

ground a little bit

669

00:24:44,149 --> 00:24:42,480

uh so at this point the helicopter is

670

00:24:45,909 --> 00:24:44,159

lowering this thing and he's not getting

671

00:24:47,750 --> 00:24:45,919

anything out of the cabling doors he

672

00:24:49,830 --> 00:24:47,760

raises the cable up and he says we're

673

00:24:53,190 --> 00:24:49,840

going to try something

674

00:24:55,830 --> 00:24:53,200

so we were like what's he going to do

675

00:24:57,750 --> 00:24:55,840

also we realized he uh

676
00:24:59,909 --> 00:24:57,760
kind of puts the helicopter to one side

677
00:25:01,269 --> 00:24:59,919
a little bit and the side gunner opens

678
00:25:03,269 --> 00:25:01,279
fire

679
00:25:05,909 --> 00:25:03,279
so by this time we're seeing tracers

680
00:25:07,669 --> 00:25:05,919
flying off this thing so we're ducking

681
00:25:09,990 --> 00:25:07,679
down on the bulwark of the ship of the

682
00:25:12,070 --> 00:25:10,000
bridge we're like whoa this guy shoot

683
00:25:14,230 --> 00:25:12,080
this guy's doesn't realize these traces

684
00:25:15,669 --> 00:25:14,240
are flying all over the place and then

685
00:25:17,909 --> 00:25:15,679
all of a sudden the helicopter pilot

686
00:25:20,230 --> 00:25:17,919
itself starts yelling it took off it

687
00:25:22,710 --> 00:25:20,240
took off it took off and he's the

688
00:25:25,990 --> 00:25:22,720

helicopter goes into a spin

689

00:25:28,230 --> 00:25:26,000

and flies kind of like in the direction

690

00:25:31,430 --> 00:25:28,240

of where it took off so the captain

691

00:25:33,669 --> 00:25:31,440

immediately orders turn the ship back on

692

00:25:35,350 --> 00:25:33,679

sound general quarters this is not a

693

00:25:38,230 --> 00:25:35,360

drill we're going to general quarters

694

00:25:39,350 --> 00:25:38,240

set the asw anti-submarine warfare team

695

00:25:41,029 --> 00:25:39,360

in action

696

00:25:42,549 --> 00:25:41,039

so there's the bong bong bong we're

697

00:25:44,950 --> 00:25:42,559

going to general quarters we start

698

00:25:47,510 --> 00:25:44,960

chasing this thing

699

00:25:49,190 --> 00:25:47,520

uh we don't even know what it is uh so

700

00:25:50,390 --> 00:25:49,200

we think it's maybe some kind of

701
00:25:52,310 --> 00:25:50,400
transfer at this point they're

702
00:25:54,470 --> 00:25:52,320
discussing some kind of transponder

703
00:25:55,510 --> 00:25:54,480
device from a submarine

704
00:26:02,789 --> 00:25:55,520
so

705
00:26:06,070 --> 00:26:02,799
we searched for 72 hours which is

706
00:26:09,269 --> 00:26:06,080
standard operating procedure nothing

707
00:26:12,230 --> 00:26:09,279
zero nothing no submarines

708
00:26:14,789 --> 00:26:12,240
no there was nothing in the area it was

709
00:26:17,590 --> 00:26:14,799
clear water so we don't know what the

710
00:26:19,110 --> 00:26:17,600
heck it was and what it was doing there

711
00:26:21,909 --> 00:26:19,120
and

712
00:26:22,789 --> 00:26:21,919
pulled it

713
00:26:24,630 --> 00:26:22,799

because it

714

00:26:26,149 --> 00:26:24,640

it sounded like somebody has pulled it

715

00:26:27,590 --> 00:26:26,159

pulled it under water so that's why we

716

00:26:29,750 --> 00:26:27,600

thought we thought it was a summer rain

717

00:26:30,870 --> 00:26:29,760

because it went down

718

00:26:31,750 --> 00:26:30,880

when it

719

00:26:33,909 --> 00:26:31,760

so

720

00:26:35,350 --> 00:26:33,919

and we never i never saw it we never we

721

00:26:36,149 --> 00:26:35,360

never really saw it because it was you

722

00:26:37,750 --> 00:26:36,159

know

723

00:26:39,909 --> 00:26:37,760

under just under the surface of the

724

00:26:42,149 --> 00:26:39,919

water the lookouts just saw the shimmer

725

00:26:44,710 --> 00:26:42,159

of this this thing

726

00:26:46,789 --> 00:26:44,720

now we knew what mines looked like

727

00:26:48,870 --> 00:26:46,799

because we had encountered a world war

728

00:26:50,950 --> 00:26:48,880

ii mine and had one of our sharpshooters

729

00:26:52,630 --> 00:26:50,960

exploded

730

00:26:55,269 --> 00:26:52,640

now when this thing

731

00:26:56,870 --> 00:26:55,279

took off was there sonar in use or

732

00:26:59,510 --> 00:26:56,880

anything like that

733

00:27:01,269 --> 00:26:59,520

yeah we turned everything on

734

00:27:04,549 --> 00:27:01,279

at that point when that thing took off

735

00:27:06,549 --> 00:27:04,559

our sonar was our sonar operators or

736

00:27:09,029 --> 00:27:06,559

everything was on back on i mean it was

737

00:27:10,470 --> 00:27:09,039

like instantaneous thing went back on

738

00:27:11,909 --> 00:27:10,480

the ship we started the ship up

739

00:27:16,149 --> 00:27:11,919

everything

740

00:27:19,110 --> 00:27:16,159

yeah we went and the only question i had

741

00:27:21,750 --> 00:27:19,120

was the fact that the water

742

00:27:23,830 --> 00:27:21,760

we were in a kind of a shallow area and

743

00:27:25,990 --> 00:27:23,840

i i mentioned to one of the officers i

744

00:27:27,269 --> 00:27:26,000

don't know if a submarine can operate in

745

00:27:28,950 --> 00:27:27,279

this water

746

00:27:30,789 --> 00:27:28,960

this is kind of shallow air we're off

747

00:27:32,830 --> 00:27:30,799

the coast we're not we're not really in

748

00:27:35,669 --> 00:27:32,840

deep deep water

749

00:27:37,909 --> 00:27:35,679

so that was the only question i had and

750

00:27:38,950 --> 00:27:37,919

for this to this day i have no idea what

751
00:27:42,789 --> 00:27:38,960
it was

752
00:27:43,669 --> 00:27:42,799
almost kind of forgot about it a little

753
00:27:45,830 --> 00:27:43,679
bit

754
00:27:47,350 --> 00:27:45,840
and i even brought it up with a former

755
00:27:49,510 --> 00:27:47,360
shipmate of mine and asked do you

756
00:27:51,830 --> 00:27:49,520
remember the silver ball incident he

757
00:27:53,590 --> 00:27:51,840
said no i know it says yes because it

758
00:27:55,990 --> 00:27:53,600
was something that you know we didn't

759
00:27:58,710 --> 00:27:56,000
see anything so we figured

760
00:28:00,710 --> 00:27:58,720
it's a sight unseen

761
00:28:02,470 --> 00:28:00,720
wow well that that's something else i i

762
00:28:05,029 --> 00:28:02,480
wish there could have been some

763
00:28:06,470 --> 00:28:05,039

data showing you know with the speed

764

00:28:08,710 --> 00:28:06,480

that this thing

765

00:28:09,590 --> 00:28:08,720

had um

766

00:28:14,830 --> 00:28:09,600

um

767

00:28:18,470 --> 00:28:17,590

sure uh yeah i just i wish there was

768

00:28:19,830 --> 00:28:18,480

some

769

00:28:21,669 --> 00:28:19,840

data where they could have seen the

770

00:28:23,510 --> 00:28:21,679

speed of this thing traveling un

771

00:28:25,029 --> 00:28:23,520

underwater you know

772

00:28:27,430 --> 00:28:25,039

we don't know the helicopter pilot was

773

00:28:28,549 --> 00:28:27,440

the one that saw it took off oh you saw

774

00:28:30,950 --> 00:28:28,559

it take off

775

00:28:33,029 --> 00:28:30,960

did you

776

00:28:34,630 --> 00:28:33,039

so were you were actually watching at

777

00:28:37,350 --> 00:28:34,640

the time

778

00:28:40,149 --> 00:28:37,360

yes i was and did you see any wake in

779

00:28:41,510 --> 00:28:40,159

the water any movement in the water

780

00:28:43,190 --> 00:28:41,520

and the reason i'm bringing that up and

781

00:28:46,230 --> 00:28:43,200

i think it's your your answer is

782

00:28:48,549 --> 00:28:46,240

interesting because uh

783

00:28:51,269 --> 00:28:48,559

other accounts of what they call usos

784

00:28:54,470 --> 00:28:51,279

unidentified submerged submerged object

785

00:28:58,389 --> 00:28:54,480

or submersible uh whatever it is

786

00:29:00,070 --> 00:28:58,399

is that there's trans-medium movement

787

00:29:02,950 --> 00:29:00,080

without causing

788

00:29:04,630 --> 00:29:02,960

disturbance which is very very strange

789

00:29:06,230 --> 00:29:04,640

like for instance when these things are

790

00:29:08,389 --> 00:29:06,240

seen to go in or out of the water

791

00:29:11,110 --> 00:29:08,399

there's no splash

792

00:29:12,549 --> 00:29:11,120

and and they're also seen and i'm not

793

00:29:14,710 --> 00:29:12,559

i'm not saying this is what you saw i

794

00:29:15,350 --> 00:29:14,720

don't know what you saw but we don't

795

00:29:16,710 --> 00:29:15,360

know

796

00:29:19,430 --> 00:29:16,720

either

797

00:29:21,750 --> 00:29:19,440

when they travel underwater at high

798

00:29:22,630 --> 00:29:21,760

speeds it almost doesn't even make any

799

00:29:24,950 --> 00:29:22,640

sense

800

00:29:28,389 --> 00:29:24,960

how they can do that in in out in and

801
00:29:29,909 --> 00:29:28,399
out of the them the different mediums uh

802
00:29:31,190 --> 00:29:29,919
you know it's just like the

803
00:29:32,950 --> 00:29:31,200
i never forgot the words of the

804
00:29:35,430 --> 00:29:32,960
helicopter product because you know it

805
00:29:37,510 --> 00:29:35,440
just he he sounded scared i mean he

806
00:29:40,470 --> 00:29:37,520
sounded like he was you know yelling it

807
00:29:42,149 --> 00:29:40,480
took off it took off it was like wow and

808
00:29:44,230 --> 00:29:42,159
and he was turning his helicopter was

809
00:29:45,830 --> 00:29:44,240
you know going into us uh like a spin

810
00:29:47,990 --> 00:29:45,840
and we're like well

811
00:29:50,230 --> 00:29:48,000
what does he mean it took off

812
00:29:51,110 --> 00:29:50,240
we didn't see anything take off

813
00:29:56,789 --> 00:29:51,120

so

814

00:29:59,269 --> 00:29:56,799

under the water or it went on its own or

815

00:30:01,350 --> 00:29:59,279

we don't know we i i honestly have to

816

00:30:03,590 --> 00:30:01,360

say i really don't know

817

00:30:05,990 --> 00:30:03,600

whether it was pulled or went or it went

818

00:30:09,590 --> 00:30:06,000

on its own but whatever it was it went

819

00:30:12,230 --> 00:30:09,600

underwater and it took off can you

820

00:30:14,630 --> 00:30:12,240

can you explain again what exactly who

821

00:30:15,669 --> 00:30:14,640

who fired on this thing someone fired on

822

00:30:18,950 --> 00:30:15,679

it

823

00:30:19,669 --> 00:30:18,960

yeah

824

00:30:21,750 --> 00:30:19,679

and

825

00:30:23,510 --> 00:30:21,760

we couldn't believe it we just you know

826

00:30:24,310 --> 00:30:23,520

all of a sudden he just opened up the

827

00:30:25,990 --> 00:30:24,320

the

828

00:30:28,230 --> 00:30:26,000

door gunner just saw something just

829

00:30:29,110 --> 00:30:28,240

started shooting and uh like i said

830

00:30:31,190 --> 00:30:29,120

there was

831

00:30:32,630 --> 00:30:31,200

tracers they were flying off in the air

832

00:30:34,470 --> 00:30:32,640

it was like and all of a sudden we like

833

00:30:36,230 --> 00:30:34,480

freaked out a little bit but i remember

834

00:30:38,470 --> 00:30:36,240

ducking down behind the ball working

835

00:30:39,750 --> 00:30:38,480

like what is this guy doing

836

00:30:41,510 --> 00:30:39,760

well it's a wonder

837

00:30:44,389 --> 00:30:41,520

it's a wonder they would do that you're

838

00:30:46,630 --> 00:30:44,399

only 75 yards or so away and if this

839

00:30:47,909 --> 00:30:46,640

thing blew up i mean it seems like it

840

00:30:50,549 --> 00:30:47,919

could have caused some damage to the

841

00:30:52,710 --> 00:30:50,559

helicopter as well i mean

842

00:30:56,070 --> 00:30:52,720

it's kind of a strange reaction and i

843

00:30:58,310 --> 00:30:56,080

wonder oh you know this was uh

844

00:31:00,149 --> 00:30:58,320

we were off the coast of vietnam so you

845

00:31:02,630 --> 00:31:00,159

know yeah

846

00:31:05,269 --> 00:31:02,640

i guess i guess you had to take all the

847

00:31:07,110 --> 00:31:05,279

precautions and yeah so he's basically

848

00:31:09,190 --> 00:31:07,120

it sounds like he was if he thought it

849

00:31:10,389 --> 00:31:09,200

was a mine he was trying to blow it up

850

00:31:11,509 --> 00:31:10,399

yeah

851
00:31:15,190 --> 00:31:11,519
you know

852
00:31:17,509 --> 00:31:15,200
uh when they were looking through the

853
00:31:19,029 --> 00:31:17,519
warsaw pact book

854
00:31:20,549 --> 00:31:19,039
there was nothing

855
00:31:23,430 --> 00:31:20,559
of that

856
00:31:24,950 --> 00:31:23,440
description in the book

857
00:31:27,029 --> 00:31:24,960
and they let you know that they let you

858
00:31:28,389 --> 00:31:27,039
know that the oscars uh explain to

859
00:31:31,029 --> 00:31:28,399
explain to the captain there's nothing

860
00:31:32,789 --> 00:31:31,039
in the book there's no no smooth silver

861
00:31:35,110 --> 00:31:32,799
ball in the book

862
00:31:37,509 --> 00:31:35,120
yeah well the warsaw pack nations do not

863
00:31:39,830 --> 00:31:37,519

have a silver ball smooth silver ball

864

00:31:41,590 --> 00:31:39,840

with no seams or no spikes or anything

865

00:31:43,830 --> 00:31:41,600

just a smooth silver ball six foot

866

00:31:45,350 --> 00:31:43,840

diameter there was no such thing unless

867

00:31:48,950 --> 00:31:45,360

there was a new secret weapon we don't

868

00:31:50,389 --> 00:31:48,960

know we you know we're speculating now

869

00:31:52,870 --> 00:31:50,399

yeah yeah

870

00:31:56,389 --> 00:31:52,880

well there's there's there's so much uh

871

00:31:58,310 --> 00:31:56,399

speculation when it comes to this um and

872

00:31:59,909 --> 00:31:58,320

you know it wouldn't be surprising if

873

00:32:01,509 --> 00:31:59,919

you told me the thing rose up out of the

874

00:32:04,310 --> 00:32:01,519

water either you know i mean that that

875

00:32:07,350 --> 00:32:04,320

would have been quite spectacular and

876
00:32:10,310 --> 00:32:07,360
and uh so you search for 72 hours in the

877
00:32:12,070 --> 00:32:10,320
direction operating procedure is a 72

878
00:32:15,750 --> 00:32:12,080
hour search

879
00:32:18,230 --> 00:32:15,760
for three days we chased nothing

880
00:32:21,190 --> 00:32:18,240
and radar had nothing and

881
00:32:22,710 --> 00:32:21,200
we we kept going in circles literally

882
00:32:24,389 --> 00:32:22,720
zigzagging and doing all kinds of

883
00:32:25,669 --> 00:32:24,399
maneuvers

884
00:32:30,389 --> 00:32:25,679
thinking where this thing might have

885
00:32:32,149 --> 00:32:30,399
gone and nothing we turned up nothing

886
00:32:35,750 --> 00:32:32,159
and what was this

887
00:32:39,669 --> 00:32:35,760
what was this speculation

888
00:32:42,230 --> 00:32:39,679

uh submarine transponder device

889

00:32:43,509 --> 00:32:42,240

and with something submarine belong to a

890

00:32:45,669 --> 00:32:43,519

submarine

891

00:32:47,350 --> 00:32:45,679

oh i've seen it pulled it back down

892

00:32:48,549 --> 00:32:47,360

yeah that's what they thought i mean

893

00:32:50,470 --> 00:32:48,559

because

894

00:32:52,149 --> 00:32:50,480

no nobody was in us you know that was

895

00:32:54,149 --> 00:32:52,159

the i mean we were we're talking you

896

00:32:56,630 --> 00:32:54,159

know normal military

897

00:32:58,149 --> 00:32:56,640

kind of thinking you know okay you got a

898

00:32:59,830 --> 00:32:58,159

ball that's floating in the water who's

899

00:33:02,149 --> 00:32:59,840

balling well it has to belong to

900

00:33:04,230 --> 00:33:02,159

somebody it must belong to another

901
00:33:05,190 --> 00:33:04,240
another ship or something

902
00:33:07,350 --> 00:33:05,200
yeah

903
00:33:09,909 --> 00:33:07,360
we just didn't know what ship

904
00:33:11,909 --> 00:33:09,919
yeah yeah so it was one of those

905
00:33:13,430 --> 00:33:11,919
mysteries you know you you're left

906
00:33:14,630 --> 00:33:13,440
scratching your head and you go like

907
00:33:15,990 --> 00:33:14,640
okay

908
00:33:18,389 --> 00:33:16,000
what's next

909
00:33:21,029 --> 00:33:18,399
yeah yeah

910
00:33:22,950 --> 00:33:21,039
that's about it and uh and

911
00:33:25,430 --> 00:33:22,960
we to this day we don't know what we saw

912
00:33:27,590 --> 00:33:25,440
and then now again now with what's

913
00:33:29,669 --> 00:33:27,600

happening today with these little these

914

00:33:31,750 --> 00:33:29,679

uh sphere those spheres that are going

915

00:33:34,789 --> 00:33:31,760

into the water i'm starting to wonder

916

00:33:36,710 --> 00:33:34,799

was that one of those things or

917

00:33:39,190 --> 00:33:36,720

or what i don't know

918

00:33:41,830 --> 00:33:39,200

right right um there

919

00:33:43,830 --> 00:33:41,840

uh i had a friend

920

00:33:47,830 --> 00:33:43,840

um he's been on the show many times mark

921

00:33:49,909 --> 00:33:47,840

d'antonio and he was on a an excursion

922

00:33:51,269 --> 00:33:49,919

on a a

923

00:33:54,230 --> 00:33:51,279

submarine

924

00:33:56,389 --> 00:33:54,240

um as a guest because of some work that

925

00:33:58,070 --> 00:33:56,399

he did that was related to it

926
00:34:00,470 --> 00:33:58,080

and they had

927
00:34:02,710 --> 00:34:00,480

they had something moving that they

928
00:34:05,190 --> 00:34:02,720

called a fast mover that was they

929
00:34:07,190 --> 00:34:05,200

already had a term for it it was going

930
00:34:10,069 --> 00:34:07,200

over 200 knots

931
00:34:11,909 --> 00:34:10,079

and underwater and he figured this is i

932
00:34:14,950 --> 00:34:11,919

think it was he said it was in the 90s

933
00:34:16,629 --> 00:34:14,960

or maybe early 2000s you know we didn't

934
00:34:17,909 --> 00:34:16,639

have any technology that would do that

935
00:34:18,629 --> 00:34:17,919

speed

936
00:34:20,629 --> 00:34:18,639

and

937
00:34:24,149 --> 00:34:20,639

you know you think of

938
00:34:26,550 --> 00:34:24,159

the fastest ship at that time in 1966

939

00:34:27,349 --> 00:34:26,560

was the uss enterprise

940

00:34:29,109 --> 00:34:27,359

yeah

941

00:34:30,710 --> 00:34:29,119

carrier

942

00:34:32,950 --> 00:34:30,720

yeah whenever they would launch their

943

00:34:35,430 --> 00:34:32,960

place and there was areas in the in

944

00:34:38,069 --> 00:34:35,440

tonkin gulf where there was no wind so

945

00:34:40,869 --> 00:34:38,079

the aircraft carrier had to create wind

946

00:34:42,149 --> 00:34:40,879

oh wow at one time we chased that

947

00:34:45,829 --> 00:34:42,159

carrier

948

00:34:46,829 --> 00:34:45,839

he signaled back to us uh mike speed 60

949

00:34:50,629 --> 00:34:46,839

plus

950

00:34:53,109 --> 00:34:50,639

knots and we're going 25 almost 30 knots

951
00:34:54,149 --> 00:34:53,119
and we were popping rivets

952
00:34:56,869 --> 00:34:54,159
literally

953
00:34:58,790 --> 00:34:56,879
i was on a world war ii destroyer we're

954
00:34:59,750 --> 00:34:58,800
we're moving through the water at 30

955
00:35:02,470 --> 00:34:59,760
knots

956
00:35:03,750 --> 00:35:02,480
our ship was taking was rumbling we were

957
00:35:05,190 --> 00:35:03,760
in a rumble

958
00:35:06,630 --> 00:35:05,200
and by the time we caught up to the

959
00:35:07,430 --> 00:35:06,640
aircraft carrier they already launched

960
00:35:10,870 --> 00:35:07,440
their

961
00:35:11,990 --> 00:35:10,880
aircraft and were coming back

962
00:35:14,470 --> 00:35:12,000
i mean

963
00:35:17,670 --> 00:35:14,480

we we were they were going

964

00:35:20,550 --> 00:35:17,680

plus 60 knots on the water on the circle

965

00:35:22,470 --> 00:35:20,560

it takes so i remember reading an

966

00:35:25,510 --> 00:35:22,480

article one time about

967

00:35:28,069 --> 00:35:25,520

um boating you know like power boating

968

00:35:30,710 --> 00:35:28,079

so for every knot

969

00:35:33,109 --> 00:35:30,720

it takes so much more power and the

970

00:35:36,470 --> 00:35:33,119

higher you go out like if you want your

971

00:35:39,829 --> 00:35:36,480

your uh your motorboat to go 80 knots it

972

00:35:42,630 --> 00:35:39,839

takes an enormous amount of power

973

00:35:45,190 --> 00:35:42,640

once you get over like 40 knots to make

974

00:35:47,829 --> 00:35:45,200

it go higher so if you can picture

975

00:35:50,470 --> 00:35:47,839

something that is submerged

976
00:35:52,470 --> 00:35:50,480
traveling at two over 200 knots i mean

977
00:35:54,150 --> 00:35:52,480
it just seems like it would take

978
00:35:55,190 --> 00:35:54,160
uh you know

979
00:35:56,950 --> 00:35:55,200
rinsing

980
00:36:00,310 --> 00:35:56,960
and it takes an enormous amount of

981
00:36:01,829 --> 00:36:00,320
pressure around you know uh to make

982
00:36:04,470 --> 00:36:01,839
something like that happen the question

983
00:36:06,710 --> 00:36:04,480
that richard has here the tracer bullets

984
00:36:09,109 --> 00:36:06,720
were actually ricocheting off the object

985
00:36:11,589 --> 00:36:09,119
is that what that's so they were shot

986
00:36:14,630 --> 00:36:11,599
with tracer bullets

987
00:36:16,630 --> 00:36:14,640
so every other i think i forget what the

988
00:36:18,390 --> 00:36:16,640

what they

989

00:36:20,710 --> 00:36:18,400

polished load i i didn't know how they

990

00:36:22,069 --> 00:36:20,720

was loaded i mean we saw tracers and

991

00:36:23,670 --> 00:36:22,079

they were i mean there wasn't like a

992

00:36:25,829 --> 00:36:23,680

steady stream of tracer this was like

993

00:36:28,150 --> 00:36:25,839

maybe every five or six rounds or

994

00:36:29,430 --> 00:36:28,160

something in other words every once in a

995

00:36:31,349 --> 00:36:29,440

while you'd see a

996

00:36:32,310 --> 00:36:31,359

tracer shoot off

997

00:36:33,990 --> 00:36:32,320

that's what

998

00:36:35,670 --> 00:36:34,000

what scared us so we

999

00:36:38,470 --> 00:36:35,680

started to see the traces because you

1000

00:36:40,310 --> 00:36:38,480

know normally if you know maybe i i know

1001

00:36:41,349 --> 00:36:40,320

we carried 50 caliber machine guns on

1002

00:36:44,550 --> 00:36:41,359

our ship

1003

00:36:46,069 --> 00:36:44,560

um and i think there was maybe every six

1004

00:36:47,510 --> 00:36:46,079

rounds of tracer or something like that

1005

00:36:48,470 --> 00:36:47,520

i forget the

1006

00:36:50,550 --> 00:36:48,480

the

1007

00:36:52,630 --> 00:36:50,560

military tournament because i never had

1008

00:36:55,030 --> 00:36:52,640

to fire the machine guns i that wasn't

1009

00:36:57,270 --> 00:36:55,040

my job yeah

1010

00:36:59,829 --> 00:36:57,280

yeah um

1011

00:37:01,349 --> 00:36:59,839

well so these things happened

1012

00:37:03,030 --> 00:37:01,359

to you and

1013

00:37:06,230 --> 00:37:03,040

what was it like

1014

00:37:07,829 --> 00:37:06,240

um you know behind the scenes like did

1015

00:37:09,430 --> 00:37:07,839

for instance let's go back to the first

1016

00:37:10,470 --> 00:37:09,440

encounter

1017

00:37:13,190 --> 00:37:10,480

and

1018

00:37:14,150 --> 00:37:13,200

was like in the mess hall or whatever

1019

00:37:15,990 --> 00:37:14,160

was there

1020

00:37:18,390 --> 00:37:16,000

talk you know like hey what do you think

1021

00:37:20,230 --> 00:37:18,400

you bring it up let me bring it up

1022

00:37:22,390 --> 00:37:20,240

nobody was on the watch

1023

00:37:24,310 --> 00:37:22,400

brought it up because i think we were

1024

00:37:25,109 --> 00:37:24,320

afraid of ridicule

1025

00:37:27,510 --> 00:37:25,119

yeah

1026

00:37:30,069 --> 00:37:27,520

one of the things that you uh had to be

1027

00:37:32,310 --> 00:37:30,079

aware of uh when you're on a small well

1028

00:37:33,109 --> 00:37:32,320

a small ship where you got a crew of 250

1029

00:37:35,589 --> 00:37:33,119

men

1030

00:37:38,310 --> 00:37:35,599

uh or just destroyer and like i said

1031

00:37:39,430 --> 00:37:38,320

it's a flesh of class or 2100 class

1032

00:37:41,990 --> 00:37:39,440

destroyer

1033

00:37:43,589 --> 00:37:42,000

and um

1034

00:37:45,510 --> 00:37:43,599

there was a lot of harassment all the

1035

00:37:47,670 --> 00:37:45,520

time i mean if somebody got a dear john

1036

00:37:51,270 --> 00:37:47,680

letter everybody in the ship knew it and

1037

00:37:53,430 --> 00:37:51,280

you and that poor guy had for them for

1038

00:37:54,950 --> 00:37:53,440

about a month until somebody else

1039

00:37:57,589 --> 00:37:54,960

you could harass somebody else i mean

1040

00:38:00,390 --> 00:37:57,599

there was always that kind it was almost

1041

00:38:03,750 --> 00:38:02,390

right of passage kind of thing that she

1042

00:38:06,230 --> 00:38:03,760

would say

1043

00:38:08,230 --> 00:38:06,240

yeah i mean i remember for example for

1044

00:38:10,790 --> 00:38:08,240

myself i wrote a letter to my girlfriend

1045

00:38:13,270 --> 00:38:10,800

and then i threw it away and tore put it

1046

00:38:15,190 --> 00:38:13,280

in the garbage can my mistake was sorted

1047

00:38:16,630 --> 00:38:15,200

in the garbage can because then it was

1048

00:38:18,710 --> 00:38:16,640

pulled out by other crewmen and they

1049

00:38:21,109 --> 00:38:18,720

were they all had a section of the

1050

00:38:23,270 --> 00:38:21,119

letter it was right out loud in front of

1051

00:38:24,230 --> 00:38:23,280

other crewmen

1052

00:38:27,829 --> 00:38:24,240

oh

1053

00:38:30,069 --> 00:38:27,839

that's the kind of thing i'm talking

1054

00:38:32,470 --> 00:38:30,079

about that's the kind of talking about

1055

00:38:34,310 --> 00:38:32,480

that is so terrible you know

1056

00:38:36,470 --> 00:38:34,320

so my reaction to when they were reading

1057

00:38:37,990 --> 00:38:36,480

my letter i i i responded by saying

1058

00:38:39,349 --> 00:38:38,000

where'd you find the letter in the

1059

00:38:42,390 --> 00:38:39,359

garbage yeah that's where you guys were

1060

00:38:48,050 --> 00:38:44,150

yeah you had to learn how to throw it

1061

00:38:48,060 --> 00:38:53,109

[Music]

1062

00:38:56,550 --> 00:38:55,109

this this uh

1063

00:38:59,270 --> 00:38:56,560

this question is i don't know if you

1064

00:39:02,710 --> 00:38:59,280

even know it these m14 tracer of 50

1065

00:39:03,829 --> 00:39:02,720

caliber i have no idea

1066

00:39:05,750 --> 00:39:03,839

yeah

1067

00:39:07,349 --> 00:39:05,760

well um all right going back to the

1068

00:39:09,829 --> 00:39:07,359

first one i don't think it was a 50

1069

00:39:10,790 --> 00:39:09,839

caliber i do not think it was 50 caliber

1070

00:39:13,270 --> 00:39:10,800

okay

1071

00:39:16,069 --> 00:39:13,280

because the 50 machine gun is a pretty

1072

00:39:17,910 --> 00:39:16,079

heavy machine gun it's about 85 pounds

1073

00:39:19,910 --> 00:39:17,920

and the reason i know that is that i one

1074

00:39:21,030 --> 00:39:19,920

of my jobs when we went to general

1075

00:39:23,109 --> 00:39:21,040

quarters

1076

00:39:25,670 --> 00:39:23,119

we had a 50 machine gun that was

1077

00:39:27,670 --> 00:39:25,680

strapped to the side of our chart house

1078

00:39:28,630 --> 00:39:27,680

in other words our where we worked on

1079

00:39:30,950 --> 00:39:28,640

charts

1080

00:39:32,710 --> 00:39:30,960

our chart room and and my job when we

1081

00:39:34,390 --> 00:39:32,720

went to general corners was to take that

1082

00:39:37,030 --> 00:39:34,400

50 calorie machine gun that was strapped

1083

00:39:39,430 --> 00:39:37,040

to the wall throw it over my shoulder go

1084

00:39:41,430 --> 00:39:39,440

up the ladder to the bridge handed to

1085

00:39:43,190 --> 00:39:41,440

the gunners mates who were on top of the

1086

00:39:46,630 --> 00:39:43,200

bridge they had a machine gun mount on

1087

00:39:50,390 --> 00:39:48,310

wow that sounds

1088

00:39:52,150 --> 00:39:50,400

those things are probably pretty heavy

1089

00:39:53,670 --> 00:39:52,160

too

1090

00:39:59,030 --> 00:39:53,680

85 pounds

1091

00:40:01,910 --> 00:39:59,040

yeah yeah so when you're looking at this

1092

00:40:03,190 --> 00:40:01,920

let's talk about the first and encounter

1093

00:40:04,950 --> 00:40:03,200

um

1094

00:40:06,630 --> 00:40:04,960

yeah it's amazing that you just happened

1095

00:40:08,630 --> 00:40:06,640

to be looking up

1096

00:40:10,870 --> 00:40:08,640

and well it was it was uh

1097

00:40:14,230 --> 00:40:10,880

the thing i it was the way i relaxed you

1098

00:40:16,309 --> 00:40:14,240

know once i i did a fix and and and

1099

00:40:17,990 --> 00:40:16,319

showed the officer of the deck where we

1100

00:40:20,230 --> 00:40:18,000

were in the position of the ship how we

1101
00:40:22,069 --> 00:40:20,240
were doing did we need to change course

1102
00:40:23,510 --> 00:40:22,079
how was our drift and you know all these

1103
00:40:25,750 --> 00:40:23,520
kind of things that you do when you're

1104
00:40:27,430 --> 00:40:25,760
navigating uh what kind of drift do you

1105
00:40:29,030 --> 00:40:27,440
have do we have a following seat do we

1106
00:40:30,630 --> 00:40:29,040
only go in against the sea

1107
00:40:32,069 --> 00:40:30,640
uh are we doing good time or are we

1108
00:40:33,750 --> 00:40:32,079
gonna arrive when we're supposed to ride

1109
00:40:35,910 --> 00:40:33,760
because we were our job was to

1110
00:40:38,150 --> 00:40:35,920
rendezvous with some other destroyers

1111
00:40:41,670 --> 00:40:38,160
before we pulled into into one so we

1112
00:40:44,150 --> 00:40:41,680
could pull in as a uh in a column

1113
00:40:46,230 --> 00:40:44,160

so um

1114

00:40:48,950 --> 00:40:46,240

that was we were kind of operating by

1115

00:40:50,309 --> 00:40:48,960

ourselves so in in points of relaxing

1116

00:40:52,150 --> 00:40:50,319

you know uh

1117

00:40:53,990 --> 00:40:52,160

i would just get my predocuments and

1118

00:40:55,910 --> 00:40:54,000

look straight up and just i really

1119

00:40:57,030 --> 00:40:55,920

enjoyed that it was a lot of fun just

1120

00:41:00,069 --> 00:40:57,040

looking up

1121

00:41:01,589 --> 00:41:00,079

and seeing all the stars just just an

1122

00:41:04,150 --> 00:41:01,599

incredible view

1123

00:41:05,910 --> 00:41:04,160

and if anybody's ever seen that you'll

1124

00:41:07,430 --> 00:41:05,920

understand what i'm talking about when

1125

00:41:08,309 --> 00:41:07,440

you get the what it's called the dome

1126
00:41:09,190 --> 00:41:08,319
effect

1127
00:41:10,950 --> 00:41:09,200
yeah

1128
00:41:12,870 --> 00:41:10,960
being under a dome

1129
00:41:14,710 --> 00:41:12,880
yeah yeah so

1130
00:41:18,069 --> 00:41:14,720
moving boy you spotted

1131
00:41:20,150 --> 00:41:18,079
yeah i i did a i was doing other

1132
00:41:21,430 --> 00:41:20,160
other shows and i actually had the

1133
00:41:22,630 --> 00:41:21,440
pleasure of

1134
00:41:25,270 --> 00:41:22,640
meeting and

1135
00:41:27,589 --> 00:41:25,280
doing a interview with a

1136
00:41:29,270 --> 00:41:27,599
gentleman that was at the time i think

1137
00:41:31,109 --> 00:41:29,280
someone else has beat the record it's

1138
00:41:31,750 --> 00:41:31,119

not a record you want to beat and that

1139

00:41:34,790 --> 00:41:31,760

is

1140

00:41:38,150 --> 00:41:34,800

to be how long he was by himself

1141

00:41:40,870 --> 00:41:38,160

in a life uh raft you know trying to

1142

00:41:42,710 --> 00:41:40,880

survive until he was found and i forget

1143

00:41:44,309 --> 00:41:42,720

how many days it was it was all many

1144

00:41:45,750 --> 00:41:44,319

many many days

1145

00:41:48,470 --> 00:41:45,760

and so

1146

00:41:50,150 --> 00:41:48,480

um after i did the interview um of

1147

00:41:52,630 --> 00:41:50,160

course had nothing to do with ufos it

1148

00:41:55,270 --> 00:41:52,640

was completely about his survival which

1149

00:41:57,910 --> 00:41:55,280

was an amazing story all on its own it

1150

00:42:00,790 --> 00:41:57,920

was a book written about it um a drift

1151

00:42:03,349 --> 00:42:00,800

it was called but anyway um

1152

00:42:05,990 --> 00:42:03,359

so i said hey uh by the way

1153

00:42:08,710 --> 00:42:06,000

you know i do a show on ufos too

1154

00:42:10,710 --> 00:42:08,720

and i said you were out at sea in the

1155

00:42:12,550 --> 00:42:10,720

dark every night and you know you could

1156

00:42:15,430 --> 00:42:12,560

see all the stars and everything did you

1157

00:42:17,030 --> 00:42:15,440

ever see anything weird and he goes

1158

00:42:17,829 --> 00:42:17,040

yes

1159

00:42:20,710 --> 00:42:17,839

and

1160

00:42:22,950 --> 00:42:20,720

so i go like can you talk about you know

1161

00:42:24,630 --> 00:42:22,960

i try to get more information he's well

1162

00:42:26,390 --> 00:42:24,640

you know maybe another time i'll talk

1163

00:42:27,910 --> 00:42:26,400

about it you know that type of thing but

1164

00:42:31,430 --> 00:42:27,920

so yeah you're out there you have the

1165

00:42:33,349 --> 00:42:31,440

vast sky and you know if something

1166

00:42:35,109 --> 00:42:33,359

is going to happen it's kind of like you

1167

00:42:36,069 --> 00:42:35,119

think about commercial pilots you know

1168

00:42:40,150 --> 00:42:36,079

they have

1169

00:42:42,950 --> 00:42:40,160

it's clear you know you can see a big

1170

00:42:44,790 --> 00:42:42,960

range hundreds of miles in in all

1171

00:42:46,470 --> 00:42:44,800

directions you know

1172

00:42:48,790 --> 00:42:46,480

so yeah um

1173

00:42:50,390 --> 00:42:48,800

there's no way to tell exactly how the

1174

00:42:53,030 --> 00:42:50,400

high this thing is

1175

00:42:55,910 --> 00:42:53,040

um the radar thing is a little

1176

00:42:57,670 --> 00:42:55,920

uh murky to me because i'm i'm not sure

1177

00:43:00,230 --> 00:42:57,680

did you say that

1178

00:43:03,190 --> 00:43:00,240

they can see within 300 miles is that

1179

00:43:08,230 --> 00:43:05,030

it's a surface radar

1180

00:43:09,270 --> 00:43:08,240

surface radar yeah okay radars on the

1181

00:43:11,589 --> 00:43:09,280

ship are

1182

00:43:13,990 --> 00:43:11,599

are for well they had one air they had a

1183

00:43:16,710 --> 00:43:14,000

small there we have two radar devices on

1184

00:43:19,670 --> 00:43:16,720

the mast a small one on the very top and

1185

00:43:21,589 --> 00:43:19,680

then a large search radar uh right below

1186

00:43:23,750 --> 00:43:21,599

that one and i i don't know what their

1187

00:43:26,069 --> 00:43:23,760

full function i know that the bottom one

1188

00:43:27,829 --> 00:43:26,079

had a range of 300 but it was a surface

1189

00:43:29,349 --> 00:43:27,839

radar in other words they couldn't aim

1190

00:43:30,069 --> 00:43:29,359

it up

1191

00:43:31,670 --> 00:43:30,079

oh

1192

00:43:34,150 --> 00:43:31,680

now the other

1193

00:43:36,230 --> 00:43:34,160

this is why it was suggested to to uh

1194

00:43:37,589 --> 00:43:36,240

contact guam air force base to see who

1195

00:43:38,870 --> 00:43:37,599

they had coming in

1196

00:43:40,390 --> 00:43:38,880

yeah we thought it was the flight of

1197

00:43:41,430 --> 00:43:40,400

b52s

1198

00:43:43,990 --> 00:43:41,440

you know

1199

00:43:45,750 --> 00:43:44,000

i mean that was the issue reaction and i

1200

00:43:46,630 --> 00:43:45,760

mean we were real casual about that

1201
00:43:49,190 --> 00:43:46,640
there's

1202
00:43:51,670 --> 00:43:49,200
five five aircraft up there you know and

1203
00:43:53,030 --> 00:43:51,680
must be and we were you're casual very

1204
00:43:55,190 --> 00:43:53,040
quiet you know those must be a flight of

1205
00:43:57,030 --> 00:43:55,200
b52s

1206
00:43:58,630 --> 00:43:57,040
then you you know hey cic what do you

1207
00:44:00,630 --> 00:43:58,640
got you know

1208
00:44:02,790 --> 00:44:00,640
and it was then also then it changed you

1209
00:44:05,430 --> 00:44:02,800
know the also the focus started changing

1210
00:44:07,430 --> 00:44:05,440
and also when when when one said to

1211
00:44:09,430 --> 00:44:07,440
check with tachikawa air force base

1212
00:44:11,829 --> 00:44:09,440
something's going on here

1213
00:44:14,550 --> 00:44:11,839

and uh like i said we went through three

1214

00:44:15,510 --> 00:44:14,560

radar sites or three radar stations and

1215

00:44:16,550 --> 00:44:15,520

uh

1216

00:44:17,829 --> 00:44:16,560

they said we don't know what you're

1217

00:44:20,309 --> 00:44:17,839

looking at

1218

00:44:21,829 --> 00:44:20,319

so the three i'm just

1219

00:44:23,030 --> 00:44:21,839

gonna hang in here just a little bit on

1220

00:44:25,829 --> 00:44:23,040

the radar

1221

00:44:27,910 --> 00:44:25,839

so the different radar stations

1222

00:44:30,870 --> 00:44:27,920

what i'm trying to get at is

1223

00:44:32,550 --> 00:44:30,880

if there was an object up at possibly

1224

00:44:35,430 --> 00:44:32,560

satellite height because satellites can

1225

00:44:37,990 --> 00:44:35,440

go way way high but um

1226
00:44:39,190 --> 00:44:38,000
but possibly at say lower satellite

1227
00:44:40,710 --> 00:44:39,200
height

1228
00:44:42,710 --> 00:44:40,720
in elevation

1229
00:44:44,230 --> 00:44:42,720
are there radars that could capture

1230
00:44:45,990 --> 00:44:44,240
something like that that's what i was

1231
00:44:48,390 --> 00:44:46,000
trying to get at do you know

1232
00:44:50,870 --> 00:44:48,400
you're asking the wrong guy i

1233
00:44:53,190 --> 00:44:50,880
don't know i we were just following

1234
00:44:55,109 --> 00:44:53,200
procedure this is a

1235
00:44:56,710 --> 00:44:55,119
standard operating procedure you call

1236
00:44:58,069 --> 00:44:56,720
one person they say no you check for

1237
00:45:00,230 --> 00:44:58,079
this person okay we'll check with that

1238
00:45:01,510 --> 00:45:00,240

person yeah okay person says check on

1239

00:45:02,870 --> 00:45:01,520

that person okay we'll check on that

1240

00:45:04,630 --> 00:45:02,880

person that's what we were doing we were

1241

00:45:05,829 --> 00:45:04,640

just checking off

1242

00:45:09,990 --> 00:45:05,839

what we were going through the

1243

00:45:12,069 --> 00:45:10,000

procedures and uh and this you know um

1244

00:45:12,950 --> 00:45:12,079

we're thinking like a us military ship

1245

00:45:16,870 --> 00:45:12,960

we're

1246

00:45:18,550 --> 00:45:16,880

first we were ticketed casually because

1247

00:45:20,309 --> 00:45:18,560

it just looked like an aircraft or

1248

00:45:21,589 --> 00:45:20,319

aircraft flying along

1249

00:45:22,950 --> 00:45:21,599

but

1250

00:45:25,589 --> 00:45:22,960

when

1251
00:45:27,510 --> 00:45:25,599
the last radar said we don't know what

1252
00:45:29,510 --> 00:45:27,520
you're looking at that's when we all

1253
00:45:33,670 --> 00:45:29,520
were looking at them that's when we all

1254
00:45:37,910 --> 00:45:35,589
and the sensation

1255
00:45:40,950 --> 00:45:37,920
i don't know maybe i maybe it's just my

1256
00:45:42,550 --> 00:45:40,960
own feeling but the sensation was

1257
00:45:45,190 --> 00:45:42,560
they picked up that we were looking at

1258
00:45:47,030 --> 00:45:45,200
them or something and they decided to

1259
00:45:48,470 --> 00:45:47,040
change course all of a sudden

1260
00:45:49,510 --> 00:45:48,480
yeah

1261
00:45:51,030 --> 00:45:49,520
i mean

1262
00:45:52,550 --> 00:45:51,040
i've never seen anything maneuver like

1263
00:45:53,349 --> 00:45:52,560

that in my life

1264

00:45:54,870 --> 00:45:53,359

right

1265

00:45:56,710 --> 00:45:54,880

i've never seen anybody that could be

1266

00:45:58,390 --> 00:45:56,720

moving along and then make a 90-degree

1267

00:46:00,550 --> 00:45:58,400

turn without hesitation

1268

00:46:03,349 --> 00:46:00,560

and just

1269

00:46:05,349 --> 00:46:03,359

gone and i mean they were

1270

00:46:07,510 --> 00:46:05,359

gone like that would you say that they

1271

00:46:09,750 --> 00:46:07,520

were gone like in a streak or were they

1272

00:46:11,109 --> 00:46:09,760

gone like vanish

1273

00:46:13,750 --> 00:46:11,119

uh

1274

00:46:14,550 --> 00:46:13,760

both streak and vanish

1275

00:46:16,710 --> 00:46:14,560

yeah

1276

00:46:18,630 --> 00:46:16,720

they just like

1277

00:46:20,550 --> 00:46:18,640

zoomed out i mean

1278

00:46:24,069 --> 00:46:20,560

the minute they made that turn they were

1279

00:46:25,109 --> 00:46:24,079

they took off i mean they just like zap

1280

00:46:26,470 --> 00:46:25,119

and we

1281

00:46:28,630 --> 00:46:26,480

that's when i started yelling dead

1282

00:46:29,910 --> 00:46:28,640

breaking dead assuming that they would

1283

00:46:31,910 --> 00:46:29,920

appear

1284

00:46:33,430 --> 00:46:31,920

at a certain direction dead wrecking

1285

00:46:36,470 --> 00:46:33,440

means you you're following you're trying

1286

00:46:38,710 --> 00:46:36,480

to follow their direction

1287

00:46:40,870 --> 00:46:38,720

so you i was yelling dead wrecking dead

1288

00:46:42,390 --> 00:46:40,880

reckoning and we all kind of aimed our

1289

00:46:43,589 --> 00:46:42,400

binoculars where we thought they might

1290

00:46:44,950 --> 00:46:43,599

be next

1291

00:46:47,190 --> 00:46:44,960

but they were not

1292

00:46:49,589 --> 00:46:47,200

they were totally totally gone

1293

00:46:52,470 --> 00:46:49,599

yeah so did this thing did this thing

1294

00:46:54,150 --> 00:46:52,480

fly in the same structure v like you

1295

00:46:56,230 --> 00:46:54,160

never saw that change

1296

00:46:58,950 --> 00:46:56,240

like what i'm trying to ask you it

1297

00:47:00,150 --> 00:46:58,960

looked like possibly like a triangular

1298

00:47:05,670 --> 00:47:00,160

shape

1299

00:47:08,470 --> 00:47:05,680

it was a v they were uh they were a v

1300

00:47:10,950 --> 00:47:08,480

like this yeah so it's one two three

1301

00:47:12,950 --> 00:47:10,960

four five lights

1302

00:47:15,349 --> 00:47:12,960

yeah one point and two on the side

1303

00:47:17,430 --> 00:47:15,359

yeah now here's here's something someone

1304

00:47:19,510 --> 00:47:17,440

called in one time and posed a very good

1305

00:47:21,030 --> 00:47:19,520

question and that why would they have

1306

00:47:23,430 --> 00:47:21,040

lights

1307

00:47:25,990 --> 00:47:23,440

you know i'm i'm not i'm not asking that

1308

00:47:28,230 --> 00:47:26,000

question but i'm just saying that is a

1309

00:47:30,950 --> 00:47:28,240

very good question if if whatever it is

1310

00:47:32,150 --> 00:47:30,960

traveled whatever it is to get here and

1311

00:47:33,990 --> 00:47:32,160

it's like

1312

00:47:34,870 --> 00:47:34,000

way up there why would they bother to

1313

00:47:37,109 --> 00:47:34,880

have

1314

00:47:39,270 --> 00:47:37,119

lights they don't need lights but but

1315

00:47:40,230 --> 00:47:39,280

obviously these things seem to have

1316

00:47:43,190 --> 00:47:40,240

lights

1317

00:47:47,430 --> 00:47:45,270

five dots lit up

1318

00:47:49,829 --> 00:47:47,440

yeah it's almost like whatever it is is

1319

00:47:51,750 --> 00:47:49,839

not afraid that someone is seeing it and

1320

00:47:53,349 --> 00:47:51,760

it's almost like here i am

1321

00:47:58,230 --> 00:47:53,359

you can see

1322

00:48:03,270 --> 00:48:00,790

and i you know i think one of the

1323

00:48:04,069 --> 00:48:03,280

this is what like that

1324

00:48:06,630 --> 00:48:04,079

yeah

1325

00:48:08,069 --> 00:48:06,640

well i could tell you're an artist

1326

00:48:09,589 --> 00:48:08,079

yep

1327

00:48:12,630 --> 00:48:09,599

i can tell you are an artist if you can

1328

00:48:15,030 --> 00:48:12,640

draw that quickly and that evenly

1329

00:48:17,430 --> 00:48:15,040

well it's it was embedded in my mind i

1330

00:48:21,030 --> 00:48:17,440

mean it it really

1331

00:48:23,910 --> 00:48:21,040

it after that incident i was i have to

1332

00:48:26,069 --> 00:48:23,920

admit to you i was very pro

1333

00:48:27,750 --> 00:48:26,079

pro navy pro government bro everything

1334

00:48:29,109 --> 00:48:27,760

that when i was in the navy i mean we

1335

00:48:33,109 --> 00:48:29,119

were

1336

00:48:35,750 --> 00:48:33,119

this was why i was on my second tour uh

1337

00:48:37,990 --> 00:48:35,760

we were on our our second cruise to the

1338

00:48:41,349 --> 00:48:38,000

vietnam area vietnamese area

1339

00:48:43,349 --> 00:48:41,359

so we were very uh how should i say

1340

00:48:46,230 --> 00:48:43,359

positive about what we were doing i mean

1341

00:48:48,950 --> 00:48:46,240

we felt very positive there was no

1342

00:48:51,589 --> 00:48:48,960

we did have a one conscious objector on

1343

00:48:52,950 --> 00:48:51,599

the ship and he jumped off the ship uh

1344

00:48:54,710 --> 00:48:52,960

in a

1345

00:48:56,870 --> 00:48:54,720

serious situation

1346

00:48:57,829 --> 00:48:56,880

he jumped off the ship

1347

00:49:00,390 --> 00:48:57,839

yeah

1348

00:49:03,109 --> 00:49:00,400

like he was gone forever no no we picked

1349

00:49:04,390 --> 00:49:03,119

him up

1350

00:49:06,470 --> 00:49:04,400

oh my god

1351

00:49:07,589 --> 00:49:06,480

wow well i'll tell you the situation we

1352

00:49:10,309 --> 00:49:07,599

were uh

1353

00:49:12,549 --> 00:49:10,319

assisting uh vietnamese marines uh

1354

00:49:15,589 --> 00:49:12,559

landing where vietnamese marines were

1355

00:49:17,430 --> 00:49:15,599

conducting a landing on this beach area

1356

00:49:18,390 --> 00:49:17,440

and we were to provide gunfire support

1357

00:49:20,390 --> 00:49:18,400

for them

1358

00:49:22,470 --> 00:49:20,400

and um

1359

00:49:24,069 --> 00:49:22,480

so we're waiting for

1360

00:49:26,150 --> 00:49:24,079

i'm on the bridge at the time i was in

1361

00:49:27,349 --> 00:49:26,160

my battle station at that point uh we

1362

00:49:28,710 --> 00:49:27,359

switched our battle stations the

1363

00:49:29,990 --> 00:49:28,720

navigators were always switching their

1364

00:49:31,349 --> 00:49:30,000

battle stations sometimes we'll be on

1365

00:49:32,870 --> 00:49:31,359

the bridge we've been after steering

1366

00:49:34,870 --> 00:49:32,880

we'd be in the

1367

00:49:36,069 --> 00:49:34,880

secondary con we were always moving

1368

00:49:37,829 --> 00:49:36,079

around and just

1369

00:49:39,349 --> 00:49:37,839

give ourselves a little bit of variety

1370

00:49:42,309 --> 00:49:39,359

so this time i was on the bridge and we

1371

00:49:44,470 --> 00:49:42,319

were conducting this uh

1372

00:49:46,950 --> 00:49:44,480

these vietnamese marines landed on with

1373

00:49:49,030 --> 00:49:46,960

little boats and stuff and we were going

1374

00:49:52,150 --> 00:49:49,040

to go to gunfire support while we were

1375

00:49:54,309 --> 00:49:52,160

waiting for the orders for to open fire

1376

00:49:56,549 --> 00:49:54,319

uh we kept hearing somebody yelling i am

1377

00:49:58,390 --> 00:49:56,559

a conscientious objector i am against

1378

00:49:59,829 --> 00:49:58,400

the war of vietnam we're looking around

1379

00:50:01,589 --> 00:49:59,839

what the hell is that

1380

00:50:03,670 --> 00:50:01,599

who the hell is yelling finally somebody

1381

00:50:05,270 --> 00:50:03,680

said look up on the mask we looked up at

1382

00:50:07,109 --> 00:50:05,280

the mass and there's this guy at the

1383

00:50:09,190 --> 00:50:07,119

very top of the mass

1384

00:50:10,950 --> 00:50:09,200

and we're going slow

1385

00:50:12,870 --> 00:50:10,960

because we're on gunfire support so the

1386

00:50:14,950 --> 00:50:12,880

ship is yelling back and forth so the

1387

00:50:17,190 --> 00:50:14,960

mass is going like this

1388

00:50:19,990 --> 00:50:17,200

so i'm thinking or if that guy jumps the

1389

00:50:21,430 --> 00:50:20,000

wrong time he's going to hit the deck

1390

00:50:23,670 --> 00:50:21,440

right but you know he's going to have to

1391

00:50:25,430 --> 00:50:23,680

wait till the ship yells over the ocean

1392

00:50:27,349 --> 00:50:25,440

then he's going to have to do his jump

1393

00:50:30,549 --> 00:50:27,359

and that's what we want to jump too

1394

00:50:33,109 --> 00:50:30,559

that's a very high problem i thought

1395

00:50:35,109 --> 00:50:33,119

this you know i hope he jumps in deep

1396

00:50:37,829 --> 00:50:35,119

water hits deep water because there's a

1397

00:50:41,190 --> 00:50:37,839

lot of shoals we were in an area and

1398

00:50:42,549 --> 00:50:41,200

they showed the mark with bamboo sticks

1399

00:50:44,309 --> 00:50:42,559

sticking out the fishermen the

1400

00:50:45,990 --> 00:50:44,319

vietnamese fishermen have been sick

1401
00:50:48,630 --> 00:50:46,000
sticking out of the water

1402
00:50:51,270 --> 00:50:48,640
so we have to maneuver away from them

1403
00:50:54,309 --> 00:50:51,280
and so he jumped and

1404
00:50:56,309 --> 00:50:54,319
we had to call off what we were doing uh

1405
00:50:57,349 --> 00:50:56,319
to rescue him because now we had a man

1406
00:50:58,150 --> 00:50:57,359
overboard

1407
00:51:00,150 --> 00:50:58,160
right

1408
00:51:03,109 --> 00:51:00,160
so we rescued him brought him aboard the

1409
00:51:03,710 --> 00:51:03,119
ship people were really angry with him

1410
00:51:05,670 --> 00:51:03,720
it was

1411
00:51:07,349 --> 00:51:05,680
[Music]

1412
00:51:09,510 --> 00:51:07,359
some intended violence towards them

1413
00:51:11,750 --> 00:51:09,520

because we were in a combat situation

1414

00:51:13,190 --> 00:51:11,760

and here's this guy jumping off and

1415

00:51:15,030 --> 00:51:13,200

we've been waiting for this combat

1416

00:51:17,510 --> 00:51:15,040

situation for so long and finally here

1417

00:51:19,750 --> 00:51:17,520

we are getting into action and this guy

1418

00:51:22,230 --> 00:51:19,760

disrupts it by jumping off the ship

1419

00:51:23,829 --> 00:51:22,240

so captain broad they brought him up to

1420

00:51:25,670 --> 00:51:23,839

the bridge he's soaking wet the captain

1421

00:51:28,630 --> 00:51:25,680

looks at him he says you're lucky that

1422

00:51:30,710 --> 00:51:28,640

congress has not declared war

1423

00:51:32,390 --> 00:51:30,720

uh because if anything we would if this

1424

00:51:33,829 --> 00:51:32,400

was desertion under fire we would have

1425

00:51:36,549 --> 00:51:33,839

just shot him

1426

00:51:39,510 --> 00:51:36,559

geez wow this is under fire

1427

00:51:42,069 --> 00:51:39,520

wow uh going back uh to

1428

00:51:44,069 --> 00:51:42,079

here's the uh a question has your guest

1429

00:51:45,670 --> 00:51:44,079

had a sighting since we will talk about

1430

00:51:47,670 --> 00:51:45,680

that later after the break we're going

1431

00:51:50,870 --> 00:51:47,680

into the break here in just a couple of

1432

00:51:52,549 --> 00:51:50,880

minutes and it's a five minute break um

1433

00:51:55,109 --> 00:51:52,559

but uh

1434

00:51:57,109 --> 00:51:55,119

now you did i hear you say that there

1435

00:52:00,710 --> 00:51:57,119

was you knew someone else that also had

1436

00:52:03,349 --> 00:52:00,720

a uh an encounter during the war yeah

1437

00:52:04,790 --> 00:52:03,359

one of one of the navigators uh uh told

1438

00:52:07,349 --> 00:52:04,800

me that he

1439

00:52:09,510 --> 00:52:07,359

came down and woke me up

1440

00:52:11,990 --> 00:52:09,520

he was on watch and he said they were

1441

00:52:14,069 --> 00:52:12,000

looking at the the ground uh because you

1442

00:52:15,670 --> 00:52:14,079

know we'd watch the action at night we

1443

00:52:18,069 --> 00:52:15,680

we could watch the action at night you

1444

00:52:19,270 --> 00:52:18,079

know tracer's going back and forth uh

1445

00:52:20,230 --> 00:52:19,280

you know it's

1446

00:52:22,790 --> 00:52:20,240

uh

1447

00:52:24,710 --> 00:52:22,800

who that's the board and he said that

1448

00:52:27,190 --> 00:52:24,720

there was an amber light

1449

00:52:29,510 --> 00:52:27,200

that flicked went back and forth

1450

00:52:31,030 --> 00:52:29,520

was going back and forth an amber light

1451

00:52:33,109 --> 00:52:31,040

and then that the amber lot shot

1452

00:52:34,710 --> 00:52:33,119

straight up and took off

1453

00:52:37,829 --> 00:52:34,720

disappeared

1454

00:52:39,190 --> 00:52:37,839

wow so it's an amber light so i i said

1455

00:52:41,030 --> 00:52:39,200

well there's only

1456

00:52:43,030 --> 00:52:41,040

according to the us navy there's only

1457

00:52:46,870 --> 00:52:43,040

two kinds of

1458

00:52:48,630 --> 00:52:46,880

have amber lights

1459

00:52:50,630 --> 00:52:48,640

one is a submarine

1460

00:52:53,670 --> 00:52:50,640

and the other one is a hovercraft

1461

00:52:54,710 --> 00:52:53,680

hovercraft don't shoot straight up

1462

00:52:55,910 --> 00:52:54,720

yeah

1463

00:52:57,589 --> 00:52:55,920

so

1464

00:52:58,309 --> 00:52:57,599

he and he said it was the weirdest thing

1465

00:53:00,069 --> 00:52:58,319

man

1466

00:53:01,270 --> 00:53:00,079

kept going back and forth back and forth

1467

00:53:03,670 --> 00:53:01,280

really fast and then they're all going

1468

00:53:05,030 --> 00:53:03,680

to just like chew straight up

1469

00:53:07,510 --> 00:53:05,040

and i was like are you waking me up for

1470

00:53:11,510 --> 00:53:09,670

so what's up oh

1471

00:53:13,510 --> 00:53:11,520

so this happened on the same ship or

1472

00:53:15,270 --> 00:53:13,520

another ship that you were on

1473

00:53:17,910 --> 00:53:15,280

same same same time

1474

00:53:20,390 --> 00:53:17,920

yeah did you start to like question like

1475

00:53:23,349 --> 00:53:20,400

what the heck is going on here i mean

1476

00:53:26,309 --> 00:53:23,359

uh we did and you know ice had a

1477

00:53:30,710 --> 00:53:26,319

roommate who was first air cav

1478

00:53:32,710 --> 00:53:30,720

and he told me about a time

1479

00:53:34,710 --> 00:53:32,720

they were out in the field

1480

00:53:35,670 --> 00:53:34,720

because i told the story about the ufo

1481

00:53:37,829 --> 00:53:35,680

thing

1482

00:53:40,950 --> 00:53:37,839

and then he said you know

1483

00:53:43,670 --> 00:53:40,960

and the the funny thing is

1484

00:53:45,670 --> 00:53:43,680

we had provided uh gunfire support for

1485

00:53:47,670 --> 00:53:45,680

this for this uh

1486

00:53:49,829 --> 00:53:47,680

this first air cab in fact we have

1487

00:53:51,589 --> 00:53:49,839

provided shotgun support in other words

1488

00:53:54,950 --> 00:53:51,599

they were driving along what is highway

1489

00:53:57,270 --> 00:53:54,960

one in vietnam and we were going along

1490

00:53:59,990 --> 00:53:57,280

the water providing gunfire support

1491

00:54:01,829 --> 00:54:00,000

protecting them and he remembered

1492

00:54:04,069 --> 00:54:01,839

the number on my ship and wrote to me he

1493

00:54:05,829 --> 00:54:04,079

says is your ship number 684 and i wrote

1494

00:54:08,790 --> 00:54:05,839

back yeah that's my ship sorry you guys

1495

00:54:10,950 --> 00:54:08,800

were providing gunfire uh providing a

1496

00:54:13,030 --> 00:54:10,960

shotgun for us or you were writing

1497

00:54:13,910 --> 00:54:13,040

shotgun for us and i'm like wow it's

1498

00:54:18,390 --> 00:54:13,920

incident

1499

00:54:20,549 --> 00:54:18,400

talking this is after we got out of the

1500

00:54:22,870 --> 00:54:20,559

service he was my roommate when i was

1501
00:54:24,950 --> 00:54:22,880
going to our school and um we were

1502
00:54:26,549 --> 00:54:24,960
talking and he said you know what a

1503
00:54:28,549 --> 00:54:26,559
weird thing happened to us and i said

1504
00:54:30,630 --> 00:54:28,559
what was that he said we were on the

1505
00:54:31,910 --> 00:54:30,640
field it was at night and all of a

1506
00:54:34,230 --> 00:54:31,920
sudden this

1507
00:54:37,670 --> 00:54:34,240
big black thing

1508
00:54:40,390 --> 00:54:37,680
went over us real slow

1509
00:54:42,069 --> 00:54:40,400
and he said and the pressure he said all

1510
00:54:43,670 --> 00:54:42,079
of a sudden all of us just all of us

1511
00:54:46,309 --> 00:54:43,680
just laid down

1512
00:54:47,990 --> 00:54:46,319
oh my god and it just like went over us

1513
00:54:49,510 --> 00:54:48,000

and then it just passed

1514

00:54:52,309 --> 00:54:49,520

and it was i can't believe you're saying

1515

00:54:54,630 --> 00:54:52,319

this because it was a it was a dark

1516

00:54:56,710 --> 00:54:54,640

black thing he said it went over

1517

00:54:57,750 --> 00:54:56,720

he said he said we literally had to lay

1518

00:54:59,910 --> 00:54:57,760

down

1519

00:55:02,069 --> 00:54:59,920

yes this is uh this is really

1520

00:55:03,430 --> 00:55:02,079

fascinating because i have a guest from

1521

00:55:05,510 --> 00:55:03,440

australia

1522

00:55:08,549 --> 00:55:05,520

that is going to be talking you know

1523

00:55:11,510 --> 00:55:08,559

briefly um on my show

1524

00:55:13,349 --> 00:55:11,520

about something very similar she told me

1525

00:55:16,069 --> 00:55:13,359

the story about

1526

00:55:17,910 --> 00:55:16,079

years ago

1527

00:55:19,349 --> 00:55:17,920

that her and her grandmother were in

1528

00:55:21,030 --> 00:55:19,359

their garden

1529

00:55:23,430 --> 00:55:21,040

and this black

1530

00:55:24,950 --> 00:55:23,440

triangle floated very slowly over them

1531

00:55:26,789 --> 00:55:24,960

and made the pressure like they had to

1532

00:55:29,990 --> 00:55:26,799

go lay down on the ground

1533

00:55:33,670 --> 00:55:31,829

yeah yeah

1534

00:55:35,510 --> 00:55:33,680

you have to realize this is all the same

1535

00:55:36,309 --> 00:55:35,520

year 66

1536

00:55:38,549 --> 00:55:36,319

wow

1537

00:55:41,190 --> 00:55:38,559

well we have to go it's time for us to

1538

00:55:44,390 --> 00:55:41,200

go into commercial break and it's a

1539

00:55:47,190 --> 00:55:44,400

treat for those of you uh on youtube

1540

00:55:50,230 --> 00:55:47,200

and uh also on facebook watching

1541

00:55:52,390 --> 00:55:50,240

because we have a five minute clip

1542

00:55:55,190 --> 00:55:52,400

about a ufo sighting

1543

00:55:57,510 --> 00:55:55,200

um that happened outside of detroit and

1544

00:56:00,470 --> 00:55:57,520

it's pretty interesting so for those of

1545

00:56:09,510 --> 00:56:00,480

you over at kgr a radio we'll be right

1546

00:56:14,470 --> 00:56:12,950

all right so i'm with mark richard and

1547

00:56:16,069 --> 00:56:14,480

he had a sighting outside of the

1548

00:56:17,109 --> 00:56:16,079

building you're in right now you're

1549

00:56:19,829 --> 00:56:17,119

working

1550

00:56:21,910 --> 00:56:19,839

right now yes i'm actually i i live and

1551

00:56:24,069 --> 00:56:21,920

work in the uh building i'm the head of

1552

00:56:27,030 --> 00:56:24,079

maintenance for the apartment building

1553

00:56:29,990 --> 00:56:27,040

so uh my sighting actually happened

1554

00:56:31,670 --> 00:56:30,000

back in 2008 i don't have the exact date

1555

00:56:35,430 --> 00:56:31,680

but i think it was somewhere late

1556

00:56:37,589 --> 00:56:35,440

october early november of 2008

1557

00:56:39,670 --> 00:56:37,599

and can you explain exactly something

1558

00:56:42,549 --> 00:56:39,680

caught your eye out the window

1559

00:56:45,270 --> 00:56:42,559

yes uh i was working at the time i think

1560

00:56:47,190 --> 00:56:45,280

it was maybe around 2 p.m or so and uh

1561

00:56:48,390 --> 00:56:47,200

it was a bright sunny day not a cloud in

1562

00:56:50,470 --> 00:56:48,400

the sky

1563

00:56:51,910 --> 00:56:50,480

something kept reflecting light into my

1564

00:56:53,910 --> 00:56:51,920

eye every time i would look up from my

1565

00:56:55,910 --> 00:56:53,920

work this something out the window is

1566

00:56:57,349 --> 00:56:55,920

reflecting this light into my eye after

1567

00:56:58,789 --> 00:56:57,359

about the third or fourth time of this

1568

00:57:01,349 --> 00:56:58,799

happening i'm getting a little annoyed

1569

00:57:03,109 --> 00:57:01,359

and i walked over to the window uh this

1570

00:57:04,069 --> 00:57:03,119

old historic building we have huge

1571

00:57:05,030 --> 00:57:04,079

windows

1572

00:57:06,390 --> 00:57:05,040

uh

1573

00:57:08,069 --> 00:57:06,400

walked over to the window and i'm

1574

00:57:09,510 --> 00:57:08,079

looking at this thing i can see it i'm

1575

00:57:11,750 --> 00:57:09,520

in downtown detroit i've been here for

1576

00:57:13,190 --> 00:57:11,760

several years so i'm used to seeing

1577

00:57:14,470 --> 00:57:13,200

traffic copters i thought it was a

1578

00:57:16,870 --> 00:57:14,480

traffic copter it looked like it was

1579

00:57:19,270 --> 00:57:16,880

over the expressway out there maybe like

1580

00:57:22,309 --> 00:57:19,280

a mile and a half two miles out it was

1581

00:57:24,069 --> 00:57:22,319

out there a little ways um so i lay eyes

1582

00:57:24,950 --> 00:57:24,079

on this thing and pretty much as soon as

1583

00:57:27,190 --> 00:57:24,960

i do

1584

00:57:28,710 --> 00:57:27,200

it starts moving towards kind of my

1585

00:57:29,990 --> 00:57:28,720

general direction

1586

00:57:33,990 --> 00:57:30,000

and i'm still thinking at the time this

1587

00:57:35,750 --> 00:57:34,000

is a helicopter it's annoying uh

1588

00:57:37,750 --> 00:57:35,760

with the clip that this thing moved

1589

00:57:39,510 --> 00:57:37,760

towards me i'm starting to second guess

1590

00:57:41,589 --> 00:57:39,520

now is this a helicopter or not because

1591

00:57:43,109 --> 00:57:41,599

this thing was covering this mile and a

1592

00:57:47,430 --> 00:57:43,119

half two miles

1593

00:57:48,549 --> 00:57:47,440

very quickly within seconds it was

1594

00:57:50,309 --> 00:57:48,559

it was

1595

00:57:53,190 --> 00:57:50,319

outside of my building

1596

00:57:55,589 --> 00:57:53,200

and slowly coming towards me

1597

00:57:58,870 --> 00:57:55,599

uh to the point where this craft i've

1598

00:58:01,430 --> 00:57:58,880

got i'm now in full view of a craft

1599

00:58:04,069 --> 00:58:01,440

that is um hovering outside of my i'm on

1600

00:58:05,430 --> 00:58:04,079

the 13th story of an 18 story building

1601
00:58:08,870 --> 00:58:05,440
this thing's hovering outside of my

1602
00:58:11,670 --> 00:58:08,880
window it starts to rotate up

1603
00:58:13,589 --> 00:58:11,680
so that i it's now sort of 90 degrees to

1604
00:58:16,470 --> 00:58:13,599
me where i'm looking directly at the

1605
00:58:19,190 --> 00:58:16,480
bottom of this craft it's got three

1606
00:58:21,030 --> 00:58:19,200
large white lights on the bottom and a

1607
00:58:22,710 --> 00:58:21,040
smaller red light in the center that's

1608
00:58:25,109 --> 00:58:22,720
kind of pulsing

1609
00:58:28,069 --> 00:58:25,119
and this thing starts to

1610
00:58:31,030 --> 00:58:28,079
rotate clockwise and the three white

1611
00:58:32,870 --> 00:58:31,040
lights start flashing a pattern

1612
00:58:34,309 --> 00:58:32,880
and it's rotating and the pattern's

1613
00:58:35,589 --> 00:58:34,319

going a little bit faster and a little

1614

00:58:38,710 --> 00:58:35,599

bit faster

1615

00:58:41,990 --> 00:58:38,720

and then the outside edges of these

1616

00:58:43,510 --> 00:58:42,000

white lights start to flash in colors so

1617

00:58:45,430 --> 00:58:43,520

now i'm getting every color of the

1618

00:58:47,270 --> 00:58:45,440

rainbow it reminded me one of those

1619

00:58:48,470 --> 00:58:47,280

simon games from back in the 80s where

1620

00:58:50,870 --> 00:58:48,480

he tried to hit

1621

00:58:53,910 --> 00:58:50,880

hit the colors it was right something

1622

00:58:55,270 --> 00:58:53,920

like that as it's rotating and it's

1623

00:58:57,510 --> 00:58:55,280

speeding up

1624

00:59:01,030 --> 00:58:57,520

to by the time this thing was at full

1625

00:59:03,270 --> 00:59:01,040

bore it was just a blur of light

1626
00:59:04,870 --> 00:59:03,280
like the most vivid bright

1627
00:59:06,470 --> 00:59:04,880
colorful light

1628
00:59:09,270 --> 00:59:06,480
and um

1629
00:59:11,270 --> 00:59:09,280
at that point i kind of felt like i was

1630
00:59:14,390 --> 00:59:11,280
being sort of mesmerized or being kind

1631
00:59:16,390 --> 00:59:14,400
of drawn in mentally by this thing and

1632
00:59:18,710 --> 00:59:16,400
it made me pause and it made me sort of

1633
00:59:21,109 --> 00:59:18,720
put almost a mental block right there

1634
00:59:23,349 --> 00:59:21,119
where i said hold on what's what's going

1635
00:59:25,430 --> 00:59:23,359
on here this is obviously very strange

1636
00:59:26,309 --> 00:59:25,440
um i've never seen anything like this

1637
00:59:27,750 --> 00:59:26,319
before

1638
00:59:29,349 --> 00:59:27,760

and um

1639

00:59:31,190 --> 00:59:29,359

when i did that when i kind of put a

1640

00:59:33,349 --> 00:59:31,200

mental stop to it and kind of put the

1641

00:59:34,950 --> 00:59:33,359

brakes on things mentally uh the

1642

00:59:38,470 --> 00:59:34,960

flashing lights stopped

1643

00:59:41,190 --> 00:59:38,480

the the craft slowly rotated back down

1644

00:59:43,910 --> 00:59:41,200

to uh an upright position and it just

1645

00:59:47,030 --> 00:59:43,920

kind of floated off to my right hand

1646

00:59:48,390 --> 00:59:47,040

side and kind of floated around the

1647

00:59:49,349 --> 00:59:48,400

building to where i couldn't see it

1648

00:59:51,430 --> 00:59:49,359

anymore

1649

00:59:53,270 --> 00:59:51,440

i was expecting to see this thing shoot

1650

00:59:55,190 --> 00:59:53,280

off into space or something it never did

1651

00:59:57,349 --> 00:59:55,200

it just uh it just kind of floated off

1652

00:59:59,589 --> 00:59:57,359

slowly i tried to keep my eye on it for

1653

01:00:01,750 --> 00:59:59,599

as long as i could and once i lost sight

1654

01:00:04,950 --> 01:00:01,760

of it i actually ran down

1655

01:00:07,030 --> 01:00:04,960

to uh the street level to try to get

1656

01:00:08,470 --> 01:00:07,040

outside and get my eyes back on it but i

1657

01:00:09,670 --> 01:00:08,480

had lost it at that point and it was

1658

01:00:10,470 --> 01:00:09,680

gone

1659

01:00:12,549 --> 01:00:10,480

wow

1660

01:00:15,030 --> 01:00:12,559

well uh we're already up to four minutes

1661

01:00:16,630 --> 01:00:15,040

oh gosh that's okay well that's all

1662

01:00:18,390 --> 01:00:16,640

right uh we'll be running a little bit

1663

01:00:20,549 --> 01:00:18,400

longer of a commercial that day we'll

1664

01:00:22,870 --> 01:00:20,559

run it uh four minutes and 30 seconds

1665

01:00:25,030 --> 01:00:22,880

bill always likes it over at kgra when i

1666

01:00:26,630 --> 01:00:25,040

can run uh longer but we're out of time

1667

01:00:34,550 --> 01:00:26,640

now mark thank you so much that's a

1668

01:01:06,950 --> 01:00:49,000

[Music]

1669

01:01:06,960 --> 01:01:13,240

stand by martin

1670

01:01:19,270 --> 01:01:15,510

[Music]

1671

01:01:21,990 --> 01:01:19,280

in three two one go

1672

01:01:24,549 --> 01:01:22,000

all right welcome back uh bill probably

1673

01:01:26,789 --> 01:01:24,559

really liked that when i said that we

1674

01:01:28,710 --> 01:01:26,799

like he they like the long breaks over

1675

01:01:31,030 --> 01:01:28,720

at kgra radio

1676

01:01:34,470 --> 01:01:31,040

for the commercials but anyway uh back

1677

01:01:36,470 --> 01:01:34,480

with my guest uh alfred thank you alfred

1678

01:01:39,510 --> 01:01:36,480

again for uh talking about this it's

1679

01:01:41,750 --> 01:01:39,520

always i always enjoy people that

1680

01:01:43,990 --> 01:01:41,760

have never talked about this before and

1681

01:01:45,990 --> 01:01:44,000

it's something new and fresh

1682

01:01:48,150 --> 01:01:46,000

something very interesting actually the

1683

01:01:49,750 --> 01:01:48,160

last encounter you told me about this

1684

01:01:52,390 --> 01:01:49,760

black thing and then the pressure and

1685

01:01:55,430 --> 01:01:52,400

those people like push him to the ground

1686

01:01:58,230 --> 01:01:55,440

i think that's so fascinating because

1687

01:01:59,910 --> 01:01:58,240

um you're going back to 1966

1688

01:02:01,789 --> 01:01:59,920

and uh the woman that'll be on the show

1689

01:02:04,230 --> 01:02:01,799

i think we're going back to the late

1690

01:02:07,190 --> 01:02:04,240

1970s when she was young

1691

01:02:09,029 --> 01:02:07,200

and so these things you know p people

1692

01:02:11,029 --> 01:02:09,039

can say all they want about

1693

01:02:13,510 --> 01:02:11,039

you know secret military craft black

1694

01:02:16,630 --> 01:02:13,520

projects things like that but did could

1695

01:02:17,990 --> 01:02:16,640

they possibly possibly have had that

1696

01:02:20,309 --> 01:02:18,000

technology

1697

01:02:23,270 --> 01:02:20,319

starting in 1966

1698

01:02:25,349 --> 01:02:23,280

that would never be used by us in any

1699

01:02:27,270 --> 01:02:25,359

type of situation you know what what are

1700

01:02:30,309 --> 01:02:27,280

your thoughts on that

1701

01:02:32,470 --> 01:02:30,319

well uh i don't know i i it just makes

1702

01:02:34,630 --> 01:02:32,480

me wonder i mean i have read quite a bit

1703

01:02:36,309 --> 01:02:34,640

about the german technology and world

1704

01:02:38,069 --> 01:02:36,319

war ii and what they were working on and

1705

01:02:39,670 --> 01:02:38,079

of course you know there's speculation

1706

01:02:41,190 --> 01:02:39,680

that the germans that were developing

1707

01:02:43,349 --> 01:02:41,200

the ufo and

1708

01:02:45,349 --> 01:02:43,359

they read some accounts but they

1709

01:02:48,630 --> 01:02:45,359

actually flew a craft

1710

01:02:50,950 --> 01:02:48,640

uh in uh i believe it was in prague

1711

01:02:53,750 --> 01:02:50,960

uh czechoslovakia they flew a craft and

1712

01:02:56,069 --> 01:02:53,760

it went up to 2000 miles per hour but

1713

01:02:57,910 --> 01:02:56,079

all speculation we really don't know if

1714

01:03:00,630 --> 01:02:57,920

that really happened because they

1715

01:03:02,309 --> 01:03:00,640

destroyed all the records of that of

1716

01:03:03,589 --> 01:03:02,319

that uh craft because they didn't want

1717

01:03:04,789 --> 01:03:03,599

the russians to get a hold of it or

1718

01:03:05,990 --> 01:03:04,799

something like that

1719

01:03:08,670 --> 01:03:06,000

and then there's some people that

1720

01:03:11,270 --> 01:03:08,680

believe the uh ufos that were cited in

1721

01:03:14,069 --> 01:03:11,280

1946 the first ufo

1722

01:03:16,390 --> 01:03:14,079

where the term flying saucer was used uh

1723

01:03:19,349 --> 01:03:16,400

by that photo by the pilot in uh

1724

01:03:21,190 --> 01:03:19,359

washington i believe 47 right yeah yeah

1725

01:03:23,510 --> 01:03:21,200

and they

1726

01:03:26,230 --> 01:03:23,520

uh that there is some connection with

1727

01:03:28,630 --> 01:03:26,240

british intelligence that was working in

1728

01:03:31,190 --> 01:03:28,640

that area of british columbia i don't

1729

01:03:33,029 --> 01:03:31,200

know there's a lot of things i've read

1730

01:03:35,109 --> 01:03:33,039

and i've always read these things with a

1731

01:03:36,549 --> 01:03:35,119

grain of salt you know i kind of like

1732

01:03:38,470 --> 01:03:36,559

okay uh

1733

01:03:40,309 --> 01:03:38,480

do you have the even when i look at a

1734

01:03:43,029 --> 01:03:40,319

photograph i i

1735

01:03:45,430 --> 01:03:43,039

i i wonder about it i have to show you

1736

01:03:48,470 --> 01:03:45,440

what started this thing with with uh

1737

01:03:50,630 --> 01:03:48,480

with lufon and i was um

1738

01:03:54,470 --> 01:03:50,640

back in april of this year

1739

01:03:57,990 --> 01:03:54,480

um i'm an artist and i saw a cloud that

1740

01:04:00,309 --> 01:03:58,000

had this incredible yellowish tinge to

1741

01:04:02,710 --> 01:04:00,319

it and i said wow that is a really wild

1742

01:04:04,870 --> 01:04:02,720

yellow and it's so pale i wonder if i

1743

01:04:07,670 --> 01:04:04,880

can catch it with the camera so i went

1744

01:04:10,549 --> 01:04:07,680

and grabbed my camera and i shot a

1745

01:04:13,190 --> 01:04:10,559

picture of it can i show you the picture

1746

01:04:15,190 --> 01:04:13,200

uh oh yes matter of fact um you can send

1747

01:04:18,309 --> 01:04:15,200

the picture to me and i will put it in

1748

01:04:20,630 --> 01:04:18,319

the show notes permanently

1749

01:04:23,029 --> 01:04:20,640

go ahead and hold that up right now

1750

01:04:23,990 --> 01:04:23,039

here's the picture i took of the cloud

1751

01:04:27,990 --> 01:04:24,000

yep

1752

01:04:30,230 --> 01:04:28,000

uh i didn't notice anything until i

1753

01:04:33,270 --> 01:04:30,240

downloaded the camera

1754

01:04:35,190 --> 01:04:33,280

and saw this little black speck

1755

01:04:37,349 --> 01:04:35,200

i don't know if you can see it i can see

1756

01:04:38,309 --> 01:04:37,359

it yep you got to hold it up more but

1757

01:04:40,710 --> 01:04:38,319

yeah

1758

01:04:43,190 --> 01:04:40,720

and i saw that little black spark and i

1759

01:04:45,029 --> 01:04:43,200

go what the heck is that

1760

01:04:46,470 --> 01:04:45,039

i see that was i didn't see that i

1761

01:04:48,150 --> 01:04:46,480

didn't see it

1762

01:04:50,710 --> 01:04:48,160

when i took the photograph i didn't see

1763

01:04:53,670 --> 01:04:50,720

it the photograph was shot at five

1764

01:04:57,190 --> 01:04:53,680

sixths of a second i mean five six uh

1765

01:04:59,910 --> 01:04:57,200

focal uh uh opening was five sixth of

1766

01:05:01,029 --> 01:04:59,920

and the speed was one five hundredth of

1767

01:05:03,829 --> 01:05:01,039

a second

1768

01:05:05,510 --> 01:05:03,839

i took two photographs uh this one and

1769

01:05:07,750 --> 01:05:05,520

then a shot of zoom back and took

1770

01:05:09,910 --> 01:05:07,760

another shot but the second shot the

1771

01:05:11,670 --> 01:05:09,920

object is gone

1772

01:05:14,309 --> 01:05:11,680

so here's a

1773

01:05:16,390 --> 01:05:14,319

close-up of it

1774

01:05:18,549 --> 01:05:16,400

i can't see it it's got to come up

1775

01:05:20,870 --> 01:05:18,559

got to come up there you go

1776

01:05:23,750 --> 01:05:20,880

there okay

1777

01:05:25,910 --> 01:05:23,760

so um

1778

01:05:26,950 --> 01:05:25,920

so when you when when the investigator

1779

01:05:29,029 --> 01:05:26,960

came

1780

01:05:30,390 --> 01:05:29,039

um the person that connected us to

1781

01:05:33,109 --> 01:05:30,400

together

1782

01:05:35,029 --> 01:05:33,119

did did he rule out

1783

01:05:39,829 --> 01:05:35,039

i know this sounds really bizarre but

1784

01:05:42,710 --> 01:05:39,839

did he rule out either an insect or bird

1785

01:05:44,789 --> 01:05:42,720

no in fact they called it the the they

1786

01:05:48,549 --> 01:05:44,799

called it a blurfo

1787

01:05:53,109 --> 01:05:50,309

that's it i have never heard of that

1788

01:05:55,190 --> 01:05:53,119

term blurfolk and they sent me a long

1789

01:05:59,910 --> 01:05:55,200

explanation of what a blurful was it

1790

01:06:02,470 --> 01:06:01,589

and i and i looked at the photograph and

1791

01:06:05,270 --> 01:06:02,480

i said

1792

01:06:07,750 --> 01:06:05,280

that's got to be a really large insect

1793

01:06:09,029 --> 01:06:07,760

because that thing was further away than

1794

01:06:11,430 --> 01:06:09,039

the cloud

1795

01:06:13,510 --> 01:06:11,440

it almost seemed to be in the same

1796

01:06:17,029 --> 01:06:13,520

distance as the cloud

1797

01:06:18,470 --> 01:06:17,039

and both uh robert fresconi and i both

1798

01:06:21,829 --> 01:06:18,480

noticed that there was a kind of a

1799

01:06:22,789 --> 01:06:21,839

little trail a very very very slight

1800

01:06:25,589 --> 01:06:22,799

trail

1801
01:06:27,510 --> 01:06:25,599
uh behind this object and i said i don't

1802
01:06:29,589 --> 01:06:27,520
know what i what i photograph i didn't

1803
01:06:30,630 --> 01:06:29,599
see it i never saw the object this thing

1804
01:06:33,510 --> 01:06:30,640
was between

1805
01:06:36,630 --> 01:06:33,520
1 500th of a second so you know

1806
01:06:39,109 --> 01:06:36,640
beyond my high speed

1807
01:06:41,990 --> 01:06:39,119
so and uh that's what started this whole

1808
01:06:43,990 --> 01:06:42,000
thing so once we started i met with mr

1809
01:06:45,109 --> 01:06:44,000
right i met over the phone with mr

1810
01:06:47,510 --> 01:06:45,119
fresco

1811
01:06:50,230 --> 01:06:47,520
uh we started talking about it and then

1812
01:06:52,390 --> 01:06:50,240
he asked me if i had any other

1813
01:06:54,549 --> 01:06:52,400

other experiences and i told him about

1814

01:06:56,549 --> 01:06:54,559

my navy experiences and then he told me

1815

01:06:57,910 --> 01:06:56,559

you and that's how we got that's where

1816

01:06:58,870 --> 01:06:57,920

we are now

1817

01:07:01,430 --> 01:06:58,880

yeah

1818

01:07:03,670 --> 01:07:01,440

i i think um i think one of the most

1819

01:07:05,750 --> 01:07:03,680

interesting aspects of

1820

01:07:08,549 --> 01:07:05,760

your first encounter is that the ship's

1821

01:07:09,349 --> 01:07:08,559

log was missing after that

1822

01:07:12,630 --> 01:07:09,359

yeah

1823

01:07:14,710 --> 01:07:12,640

i thought it was very very strange that

1824

01:07:17,270 --> 01:07:14,720

somebody would take the ship's log

1825

01:07:18,789 --> 01:07:17,280

yeah i mean had that ever happened prior

1826

01:07:20,710 --> 01:07:18,799

or

1827

01:07:24,230 --> 01:07:20,720

had you ever noticed that happening at

1828

01:07:25,190 --> 01:07:24,240

any other time no no never ever

1829

01:07:27,190 --> 01:07:25,200

yeah

1830

01:07:29,029 --> 01:07:27,200

you know and we would

1831

01:07:31,109 --> 01:07:29,039

you know and the ship's laws were big

1832

01:07:32,789 --> 01:07:31,119

you know they're like about uh eight and

1833

01:07:33,750 --> 01:07:32,799

a half by fourteen

1834

01:07:35,910 --> 01:07:33,760

you know

1835

01:07:37,349 --> 01:07:35,920

pound and all that stuff and and on the

1836

01:07:39,109 --> 01:07:37,359

front you have a start date when you

1837

01:07:41,029 --> 01:07:39,119

start the log and

1838

01:07:42,950 --> 01:07:41,039

et cetera and you record everything in

1839

01:07:44,870 --> 01:07:42,960

the ship's lawn you know joe blow cut

1840

01:07:47,349 --> 01:07:44,880

his finger uh the corbin applied a

1841

01:07:49,270 --> 01:07:47,359

band-aid he's okay he went back to work

1842

01:07:51,349 --> 01:07:49,280

that kind of goes in the ship's lawn so

1843

01:07:53,829 --> 01:07:51,359

every little thing that goes on in the

1844

01:07:55,589 --> 01:07:53,839

ship is uh recorded so

1845

01:07:57,190 --> 01:07:55,599

yeah of course and that's just diary in

1846

01:08:00,470 --> 01:07:57,200

other words it's been that way for

1847

01:08:02,470 --> 01:08:00,480

centuries yeah you know and uh you know

1848

01:08:03,990 --> 01:08:02,480

so it is really odd

1849

01:08:06,069 --> 01:08:04,000

how that

1850

01:08:07,270 --> 01:08:06,079

that whole thing disappeared and you

1851

01:08:08,950 --> 01:08:07,280

never saw it

1852

01:08:11,510 --> 01:08:08,960

now let me ask you this so what do you

1853

01:08:13,750 --> 01:08:11,520

do get a new log and you start again

1854

01:08:15,750 --> 01:08:13,760

you know yeah once you finish the log

1855

01:08:17,910 --> 01:08:15,760

you put the end date on it for the the

1856

01:08:20,390 --> 01:08:17,920

last date on it you sign up and you sign

1857

01:08:22,309 --> 01:08:20,400

it you say okay this has been signed by

1858

01:08:23,669 --> 01:08:22,319

whoever finished the last log and then

1859

01:08:24,630 --> 01:08:23,679

you put the date and they say okay give

1860

01:08:28,709 --> 01:08:24,640

it to

1861

01:08:29,749 --> 01:08:28,719

put it in in the

1862

01:08:31,189 --> 01:08:29,759

log uh

1863

01:08:33,189 --> 01:08:31,199

locker

1864

01:08:36,149 --> 01:08:33,199

so then we've got a new log start new

1865

01:08:37,349 --> 01:08:36,159

log first date

1866

01:08:38,950 --> 01:08:37,359

so we have

1867

01:08:41,269 --> 01:08:38,960

you know new logs

1868

01:08:42,390 --> 01:08:41,279

ready to go so we never we would never

1869

01:08:43,349 --> 01:08:42,400

run out

1870

01:08:44,390 --> 01:08:43,359

right

1871

01:08:46,390 --> 01:08:44,400

and

1872

01:08:47,590 --> 01:08:46,400

what about the documentation of the

1873

01:08:49,030 --> 01:08:47,600

second

1874

01:08:50,870 --> 01:08:49,040

encounter

1875

01:08:52,470 --> 01:08:50,880

that was probably put in the ship's log

1876

01:08:54,470 --> 01:08:52,480

also i was not in charge of the ship's

1877

01:08:57,430 --> 01:08:54,480

log at that time somebody else was in

1878

01:08:59,829 --> 01:08:57,440

charge of writing that up yeah so

1879

01:09:01,910 --> 01:08:59,839

whoever was the quartermaster at that

1880

01:09:03,910 --> 01:09:01,920

time and i could there was

1881

01:09:05,030 --> 01:09:03,920

well there was like uh

1882

01:09:06,630 --> 01:09:05,040

four of us

1883

01:09:08,630 --> 01:09:06,640

there was a first class petty officer of

1884

01:09:11,189 --> 01:09:08,640

second class petty officer

1885

01:09:13,269 --> 01:09:11,199

two seamen and myself a third class

1886

01:09:15,829 --> 01:09:13,279

petty officer

1887

01:09:17,269 --> 01:09:15,839

and so it was either

1888

01:09:20,149 --> 01:09:17,279

uh it had to be one of the petty

1889

01:09:21,749 --> 01:09:20,159

officers that was writing the log so it

1890

01:09:23,269 --> 01:09:21,759

was either uh

1891

01:09:25,590 --> 01:09:23,279

the second class petty officer the first

1892

01:09:27,590 --> 01:09:25,600

class petty officer or myself and i was

1893

01:09:30,789 --> 01:09:27,600

at that that time i was not writing

1894

01:09:34,390 --> 01:09:32,789

okay so let's

1895

01:09:36,709 --> 01:09:34,400

now i'm just going to just change the

1896

01:09:38,390 --> 01:09:36,719

conversation a little bit so when you

1897

01:09:40,149 --> 01:09:38,400

so when you saw

1898

01:09:43,030 --> 01:09:40,159

this i'm asking about your personal

1899

01:09:45,030 --> 01:09:43,040

experience you saw this object

1900

01:09:46,789 --> 01:09:45,040

it seemed to appear to be at a very high

1901

01:09:48,789 --> 01:09:46,799

elevation but then all of a sudden it

1902

01:09:51,189 --> 01:09:48,799

did things you can't explain

1903

01:09:54,229 --> 01:09:51,199

and every and you were among many

1904

01:09:55,910 --> 01:09:54,239

witnesses that that saw this all saw it

1905

01:09:57,030 --> 01:09:55,920

happen at the same time

1906

01:09:58,390 --> 01:09:57,040

um

1907

01:10:00,070 --> 01:09:58,400

what was your

1908

01:10:02,950 --> 01:10:00,080

your um

1909

01:10:04,950 --> 01:10:02,960

aftermath thoughts about what you saw

1910

01:10:07,030 --> 01:10:04,960

like did you think wow you know maybe we

1911

01:10:09,110 --> 01:10:07,040

are being visited or

1912

01:10:10,630 --> 01:10:09,120

you know

1913

01:10:12,870 --> 01:10:10,640

did you think about it

1914

01:10:14,630 --> 01:10:12,880

i did i thought a lot about it really

1915

01:10:16,630 --> 01:10:14,640

like i said it altered my consciousness

1916

01:10:19,110 --> 01:10:16,640

it made me start to think i started to

1917

01:10:20,790 --> 01:10:19,120

think of who the heck was it

1918

01:10:22,630 --> 01:10:20,800

who are they

1919

01:10:24,550 --> 01:10:22,640

well and what are they doing and why are

1920

01:10:26,709 --> 01:10:24,560

they doing that and yeah were they

1921

01:10:27,750 --> 01:10:26,719

showing off i mean that was a reverse

1922

01:10:29,669 --> 01:10:27,760

reaction

1923

01:10:31,590 --> 01:10:29,679

these guys showing off

1924

01:10:32,470 --> 01:10:31,600

look what we can do

1925

01:10:34,630 --> 01:10:32,480

i mean

1926

01:10:36,390 --> 01:10:34,640

i don't know because you know i kept

1927

01:10:38,390 --> 01:10:36,400

thinking if they had kept going straight

1928

01:10:39,750 --> 01:10:38,400

if only they had kept going straight we

1929

01:10:41,590 --> 01:10:39,760

would have forgotten all about it we

1930

01:10:46,149 --> 01:10:41,600

were the ass oh somebody's aircraft they

1931

01:10:49,510 --> 01:10:47,990

and we would have forgotten about it but

1932

01:10:52,070 --> 01:10:49,520

that maneuver

1933

01:10:55,110 --> 01:10:52,080

that 90 degree turn and then just taking

1934

01:10:56,070 --> 01:10:55,120

off like that the way they did that's

1935

01:10:58,550 --> 01:10:56,080

what

1936

01:10:59,510 --> 01:10:58,560

was indelible in my mind and that kind

1937

01:11:01,590 --> 01:10:59,520

of like

1938

01:11:03,990 --> 01:11:01,600

what the hell was that

1939

01:11:05,669 --> 01:11:04,000

yeah because we all like i said we all

1940

01:11:07,590 --> 01:11:05,679

just looked at each other like did you

1941

01:11:09,830 --> 01:11:07,600

just see what i just saw or am i

1942

01:11:12,070 --> 01:11:09,840

dreaming you know it's kind of like

1943

01:11:13,830 --> 01:11:12,080

holy mackerel that's that's that was

1944

01:11:17,189 --> 01:11:13,840

start it was startling let's put it that

1945

01:11:19,030 --> 01:11:17,199

way yeah it's very uh unusual i mean we

1946

01:11:21,430 --> 01:11:19,040

were used to seeing jets we're used to

1947

01:11:22,229 --> 01:11:21,440

seeing other ships

1948

01:11:25,510 --> 01:11:22,239

yeah

1949

01:11:29,189 --> 01:11:25,520

so you know something that out does us

1950

01:11:30,500 --> 01:11:29,199

uh kind of made you feel like

1951

01:11:31,990 --> 01:11:30,510

yeah not alone

1952

01:11:34,070 --> 01:11:32,000

[Music]

1953

01:11:36,470 --> 01:11:34,080

whoever that is i like the like the off

1954

01:11:37,270 --> 01:11:36,480

they are this was the operations officer

1955

01:11:39,270 --> 01:11:37,280

okay

1956

01:11:41,430 --> 01:11:39,280

this is a full lieutenant in other words

1957

01:11:43,430 --> 01:11:41,440

in the army you would be a captain and

1958

01:11:45,350 --> 01:11:43,440

this was a straight

1959

01:11:47,669 --> 01:11:45,360

kind of arrow kind of guy this is the

1960

01:11:49,270 --> 01:11:47,679

kind of guy most officers on the ship

1961

01:11:50,950 --> 01:11:49,280

you saluted them in the morning and that

1962

01:11:52,550 --> 01:11:50,960

was it you were done saluting for the

1963

01:11:54,229 --> 01:11:52,560

rest of the day

1964

01:11:55,189 --> 01:11:54,239

this officer you had a salute every time

1965

01:11:57,270 --> 01:11:55,199

song

1966

01:11:59,430 --> 01:11:57,280

he was in an app i believe he was an

1967

01:12:00,790 --> 01:11:59,440

annapolis guy

1968

01:12:04,229 --> 01:12:00,800

you're serious

1969

01:12:05,990 --> 01:12:04,239

yeah very sick his demeanor changed

1970

01:12:08,550 --> 01:12:06,000

after that

1971

01:12:09,590 --> 01:12:08,560

he was not as serious anymore he started

1972

01:12:11,669 --> 01:12:09,600

to uh

1973

01:12:13,510 --> 01:12:11,679

smile a little more

1974

01:12:15,189 --> 01:12:13,520

i tell you his name i can even show you

1975

01:12:17,990 --> 01:12:15,199

a picture of the officer but i i don't

1976

01:12:19,590 --> 01:12:18,000

think i i should because i don't have

1977

01:12:22,630 --> 01:12:19,600

permission from that

1978

01:12:25,990 --> 01:12:22,640

gentleman to be showing this photograph

1979

01:12:27,910 --> 01:12:26,000

right right um so this question this is

1980

01:12:30,709 --> 01:12:27,920

another speculation could the v craft

1981

01:12:33,990 --> 01:12:30,719

have been one solid crap most most most

1982

01:12:35,990 --> 01:12:34,000

likely if it turned in an instant right

1983

01:12:38,390 --> 01:12:36,000

and the 90 degree angle then the

1984

01:12:39,430 --> 01:12:38,400

v-formation never changed right right

1985

01:12:40,310 --> 01:12:39,440

never

1986

01:12:41,990 --> 01:12:40,320

yeah

1987

01:12:43,350 --> 01:12:42,000

they went they were like this and they

1988

01:12:45,430 --> 01:12:43,360

went like that

1989

01:12:48,149 --> 01:12:45,440

right

1990

01:12:55,350 --> 01:12:48,159

and i mean not that slow

1991

01:12:59,189 --> 01:12:58,149

it was almost like an elongation

1992

01:13:00,630 --> 01:12:59,199

slightly

1993

01:13:01,990 --> 01:13:00,640

like when they took off

1994

01:13:07,669 --> 01:13:02,000

like

1995

01:13:08,790 --> 01:13:07,679

they were gone then they were all the

1996

01:13:10,070 --> 01:13:08,800

lights were gone

1997

01:13:13,990 --> 01:13:10,080

yeah

1998

01:13:16,470 --> 01:13:14,000

one how far

1999

01:13:18,070 --> 01:13:16,480

off shore were you at that point

2000

01:13:20,709 --> 01:13:18,080

well we're we were in the middle of the

2001

01:13:22,310 --> 01:13:20,719

ocean we were traveling from midway

2002

01:13:24,070 --> 01:13:22,320

island to guam

2003

01:13:26,709 --> 01:13:24,080

we're in a part of the ocean where the

2004

01:13:27,990 --> 01:13:26,719

charts are white because there's no land

2005

01:13:30,950 --> 01:13:28,000

so

2006

01:13:34,070 --> 01:13:30,960

in fact we were marking uh rocks we were

2007

01:13:37,110 --> 01:13:34,080

working with sonar at the time marking

2008

01:13:39,910 --> 01:13:38,870

in other words we're navigating and

2009

01:13:42,550 --> 01:13:39,920

actually

2010

01:13:43,990 --> 01:13:42,560

creating things for the charts

2011

01:13:45,910 --> 01:13:44,000

um you know things that are there you

2012

01:13:48,630 --> 01:13:45,920

know there's a rock was cited here in

2013

01:13:50,070 --> 01:13:48,640

1953 and so such you know things like

2014

01:13:53,669 --> 01:13:50,080

that would be on the chart and so we

2015

01:13:55,590 --> 01:13:53,679

were documenting uh new things too so we

2016

01:13:57,669 --> 01:13:55,600

could send it to the notice to mariners

2017

01:13:59,030 --> 01:13:57,679

the notice to mariners is the

2018

01:14:01,350 --> 01:13:59,040

international

2019

01:14:03,990 --> 01:14:01,360

um document that goes out to all ships

2020

01:14:06,070 --> 01:14:04,000

to see uh say a buoy's been moved 50

2021

01:14:08,070 --> 01:14:06,080

yards this way okay so they've said on

2022

01:14:10,630 --> 01:14:08,080

those merit oh so and so has been moved

2023

01:14:14,470 --> 01:14:10,640

this way or that way it's it's always

2024

01:14:15,669 --> 01:14:14,480

indicating any kind of uh uh

2025

01:14:17,110 --> 01:14:15,679

change in

2026

01:14:18,630 --> 01:14:17,120

in um

2027

01:14:21,030 --> 01:14:18,640

navigational markers or anything like

2028

01:14:23,110 --> 01:14:21,040

that so that was our job was always keep

2029

01:14:24,950 --> 01:14:23,120

our charts up to date so we were always

2030

01:14:27,510 --> 01:14:24,960

looking at notice to mariners

2031

01:14:28,950 --> 01:14:27,520

and correcting our charts all the time

2032

01:14:31,590 --> 01:14:28,960

we're correcting charts that was our

2033

01:14:33,510 --> 01:14:31,600

daily job correcting charts

2034

01:14:34,310 --> 01:14:33,520

making sure we were up today

2035

01:14:36,470 --> 01:14:34,320

right

2036

01:14:38,550 --> 01:14:36,480

uh bill uh that

2037

01:14:41,590 --> 01:14:38,560

the kgra radio

2038

01:14:42,709 --> 01:14:41,600

producer sent me a question for you i

2039

01:14:45,430 --> 01:14:42,719

wanted to know what you thought about

2040

01:14:47,430 --> 01:14:45,440

the military coming for not just

2041

01:14:48,630 --> 01:14:47,440

pilots but people like himself who

2042

01:14:49,910 --> 01:14:48,640

observed

2043

01:14:52,630 --> 01:14:49,920

um

2044

01:14:55,590 --> 01:14:52,640

things on naval vessels well it's about

2045

01:14:58,149 --> 01:14:55,600

time i think there's probably a lot more

2046

01:14:59,350 --> 01:14:58,159

out there and what i'm hoping with this

2047

01:15:01,110 --> 01:14:59,360

podcast

2048

01:15:03,030 --> 01:15:01,120

is that some of the witnesses that were

2049

01:15:06,310 --> 01:15:03,040

on the destroyer

2050

01:15:07,270 --> 01:15:06,320

v formation

2051

01:15:09,350 --> 01:15:07,280

will

2052

01:15:12,550 --> 01:15:09,360

start to acknowledge i mean you know

2053

01:15:15,430 --> 01:15:12,560

there was quite a few witnesses you know

2054

01:15:19,300 --> 01:15:15,440

there was two definitely two officers uh

2055

01:15:20,950 --> 01:15:19,310

uh a full lieutenant and a uh ensign uh

2056

01:15:22,709 --> 01:15:20,960

[Music]

2057

01:15:24,870 --> 01:15:22,719

junior officer of the deck

2058

01:15:27,510 --> 01:15:24,880

so i know

2059

01:15:28,470 --> 01:15:27,520

they all saw the same thing i saw

2060

01:15:30,470 --> 01:15:28,480

yeah

2061

01:15:33,189 --> 01:15:30,480

so i won't be maybe one of them will

2062

01:15:35,030 --> 01:15:33,199

remember it or remember the ball i i did

2063

01:15:37,110 --> 01:15:35,040

ask one of the other navigators if they

2064

01:15:39,669 --> 01:15:37,120

remember the ball incident he couldn't

2065

01:15:40,630 --> 01:15:39,679

remember yeah i'm just wondering you

2066

01:15:42,709 --> 01:15:40,640

know how

2067

01:15:45,110 --> 01:15:42,719

you know if if we if that's like

2068

01:15:45,990 --> 01:15:45,120

selective thinking or or you know i

2069

01:15:49,990 --> 01:15:46,000

don't know

2070

01:15:52,310 --> 01:15:50,000

that you know people would remember

2071

01:15:54,310 --> 01:15:52,320

us turning the ship off because that is

2072

01:15:56,470 --> 01:15:54,320

one of the eeriest feeling to have in

2073

01:15:58,390 --> 01:15:56,480

the middle of the middle of the water

2074

01:16:00,470 --> 01:15:58,400

and all of a sudden there's nothing you

2075

01:16:02,390 --> 01:16:00,480

have no engine you're used to the

2076

01:16:04,229 --> 01:16:02,400

the ship's sounds all the time the

2077

01:16:06,950 --> 01:16:04,239

engines are going right we're used to a

2078

01:16:08,630 --> 01:16:06,960

certain hum in the ship

2079

01:16:10,229 --> 01:16:08,640

and all you hear is the water lapping on

2080

01:16:12,630 --> 01:16:10,239

the side of the water out of the side of

2081

01:16:13,750 --> 01:16:12,640

the ship you kind of like really feel

2082

01:16:14,550 --> 01:16:13,760

eerie

2083

01:16:18,310 --> 01:16:14,560

yeah

2084

01:16:19,910 --> 01:16:18,320

you're not under power

2085

01:16:22,310 --> 01:16:19,920

you know i've heard of of people that

2086

01:16:24,950 --> 01:16:22,320

have had you know actual ufo encounters

2087

01:16:26,630 --> 01:16:24,960

and the people that they witnessed with

2088

01:16:28,070 --> 01:16:26,640

said they don't remember which is pretty

2089

01:16:28,870 --> 01:16:28,080

bizarre

2090

01:16:30,950 --> 01:16:28,880

you know

2091

01:16:32,470 --> 01:16:30,960

well it makes me wonder

2092

01:16:35,110 --> 01:16:32,480

if they

2093

01:16:36,070 --> 01:16:35,120

were in shock

2094

01:16:37,510 --> 01:16:36,080

they just

2095

01:16:38,790 --> 01:16:37,520

pushed that out of their mind they don't

2096

01:16:39,910 --> 01:16:38,800

want they don't want to remember it

2097

01:16:42,070 --> 01:16:39,920

because it

2098

01:16:44,630 --> 01:16:42,080

it is kind of a scary thing i mean you

2099

01:16:47,189 --> 01:16:44,640

know we were kind of a little i was a

2100

01:16:48,310 --> 01:16:47,199

little freaked out about it when you say

2101
01:16:50,310 --> 01:16:48,320
you know you just saw something they

2102
01:16:52,550 --> 01:16:50,320
make a 90-degree turn and

2103
01:16:53,510 --> 01:16:52,560
disappears

2104
01:16:55,110 --> 01:16:53,520
yeah

2105
01:16:57,669 --> 01:16:55,120
that's unusual

2106
01:17:00,310 --> 01:16:57,679
i i have seen other things like that

2107
01:17:02,149 --> 01:17:00,320
where i'll be looking

2108
01:17:03,669 --> 01:17:02,159
i tell people i'm a junior astronomer i

2109
01:17:05,669 --> 01:17:03,679
became a junior astronomer i have a

2110
01:17:07,189 --> 01:17:05,679
couple of telescopes already

2111
01:17:11,189 --> 01:17:07,199
uh and um

2112
01:17:14,070 --> 01:17:11,199
i have my standard 7x50 binoculars

2113
01:17:15,910 --> 01:17:14,080

that i still use and i have so often

2114

01:17:17,990 --> 01:17:15,920

we'll be looking at the sky and i'll see

2115

01:17:19,830 --> 01:17:18,000

something like a star and i'm wondering

2116

01:17:21,270 --> 01:17:19,840

what star is that i don't remember that

2117

01:17:23,830 --> 01:17:21,280

star being there

2118

01:17:25,590 --> 01:17:23,840

and all of a sudden it'll just go out

2119

01:17:27,270 --> 01:17:25,600

it'll be like stationary light and then

2120

01:17:29,270 --> 01:17:27,280

those that just goes out

2121

01:17:30,709 --> 01:17:29,280

and i go okay that's not a satellite i

2122

01:17:32,950 --> 01:17:30,719

know what satellites look like

2123

01:17:34,310 --> 01:17:32,960

satellites keep moving in one direction

2124

01:17:35,990 --> 01:17:34,320

they don't they don't maneuver

2125

01:17:39,189 --> 01:17:36,000

satellites do not maneuver

2126

01:17:40,790 --> 01:17:39,199

they don't change properly

2127

01:17:41,830 --> 01:17:40,800

they're in orbit

2128

01:17:43,510 --> 01:17:41,840

yeah

2129

01:17:45,590 --> 01:17:43,520

now i've heard i've had a few people

2130

01:17:47,270 --> 01:17:45,600

tell me that they've seen satellites and

2131

01:17:49,350 --> 01:17:47,280

then all of a sudden they'll

2132

01:17:51,430 --> 01:17:49,360

move jag off um

2133

01:17:54,550 --> 01:17:51,440

in one direction so

2134

01:17:55,830 --> 01:17:54,560

sometimes there's an atmospheric issues

2135

01:17:57,750 --> 01:17:55,840

that can make

2136

01:17:59,990 --> 01:17:57,760

you know the lights change colors and

2137

01:18:03,350 --> 01:18:00,000

blink and things like that which are the

2138

01:18:04,790 --> 01:18:03,360

earth too as the satellite you know goes

2139

01:18:06,790 --> 01:18:04,800

to the other side of the earth kind of

2140

01:18:08,950 --> 01:18:06,800

thing they'll they'll go out

2141

01:18:09,830 --> 01:18:08,960

oh yeah yeah that's all sun reflected

2142

01:18:11,669 --> 01:18:09,840

yeah

2143

01:18:14,470 --> 01:18:11,679

the sun even though that we don't see

2144

01:18:15,270 --> 01:18:14,480

the sun it's uh the reflection is still

2145

01:18:17,430 --> 01:18:15,280

um

2146

01:18:20,229 --> 01:18:17,440

yeah from the sun up there

2147

01:18:21,830 --> 01:18:20,239

and uh space junk two now i've never

2148

01:18:23,350 --> 01:18:21,840

seen any space junk but i've heard

2149

01:18:24,470 --> 01:18:23,360

people talk about it

2150

01:18:27,510 --> 01:18:24,480

and um

2151

01:18:29,830 --> 01:18:27,520

one one friend told me um

2152

01:18:32,630 --> 01:18:29,840

a story about being on the c

2153

01:18:34,310 --> 01:18:32,640

c five or c e five whatever it is has to

2154

01:18:36,310 --> 01:18:34,320

do with uh

2155

01:18:38,790 --> 01:18:36,320

stephen grier's uh

2156

01:18:41,270 --> 01:18:38,800

famous groups that he gets together and

2157

01:18:42,709 --> 01:18:41,280

to see ufos and they were they

2158

01:18:45,669 --> 01:18:42,719

the person believed they were actually

2159

01:18:47,750 --> 01:18:45,679

seeing space junk all the ufos were just

2160

01:18:49,990 --> 01:18:47,760

space junk which also supposedly

2161

01:18:51,750 --> 01:18:50,000

reflects from the sun

2162

01:18:52,790 --> 01:18:51,760

until it gets out of range of the the

2163

01:18:55,270 --> 01:18:52,800

sunbeam

2164

01:18:57,110 --> 01:18:55,280

but but if it's space junk then it

2165

01:18:59,510 --> 01:18:57,120

usually will be going in one direction

2166

01:19:01,750 --> 01:18:59,520

it won't be unless it's falling

2167

01:19:03,830 --> 01:19:01,760

you know falling

2168

01:19:05,830 --> 01:19:03,840

yeah like i said i've never

2169

01:19:06,870 --> 01:19:05,840

i've seen a lot of satellites but i've

2170

01:19:09,110 --> 01:19:06,880

never seen

2171

01:19:11,510 --> 01:19:09,120

what's that all right

2172

01:19:14,070 --> 01:19:11,520

doesn't maneuver

2173

01:19:17,030 --> 01:19:14,080

not that we know i'm not not not it's

2174

01:19:17,910 --> 01:19:17,040

not supposed to uh let's see

2175

01:19:19,430 --> 01:19:17,920

um

2176

01:19:24,390 --> 01:19:19,440

well someone was asking have you ever

2177

01:19:29,510 --> 01:19:26,550

whoops you there

2178

01:19:32,229 --> 01:19:29,520

uh oh looks like uh looks like alfred is

2179

01:19:35,669 --> 01:19:32,239

frozen i'm not really sure what happened

2180

01:19:37,110 --> 01:19:35,679

um let me take them out bring them back

2181

01:19:41,669 --> 01:19:37,120

in

2182

01:19:43,830 --> 01:19:41,679

here for a moment

2183

01:19:46,229 --> 01:19:43,840

um i'm gonna try to see if he'll come

2184

01:19:49,189 --> 01:19:46,239

back in but i right now i have to

2185

01:19:51,030 --> 01:19:49,199

remove him and uh bill i'm wondering if

2186

01:19:53,030 --> 01:19:51,040

you can hear me here if you can

2187

01:19:58,390 --> 01:19:53,040

uh come on the show for a couple minutes

2188

01:20:03,590 --> 01:20:01,030

let's see uh i don't know how to do that

2189

01:20:05,270 --> 01:20:03,600

so hopefully he'll be coming back in

2190

01:20:06,870 --> 01:20:05,280

uh

2191

01:20:08,070 --> 01:20:06,880

up he's gone

2192

01:20:10,149 --> 01:20:08,080

uh

2193

01:20:11,430 --> 01:20:10,159

bill are you able to talk a little bit

2194

01:20:14,709 --> 01:20:11,440

chat a little bit

2195

01:20:20,149 --> 01:20:17,830

i found him i find him fascinating and

2196

01:20:22,550 --> 01:20:20,159

just from my perspective i believe him

2197

01:20:24,149 --> 01:20:22,560

to be 100 authentic martin

2198

01:20:25,430 --> 01:20:24,159

yeah

2199

01:20:27,110 --> 01:20:25,440

i don't see why he wouldn't be you're

2200

01:20:29,430 --> 01:20:27,120

right i mean

2201

01:20:31,270 --> 01:20:29,440

you can body language says a lot about a

2202

01:20:32,470 --> 01:20:31,280

person not just their vote you know

2203

01:20:35,030 --> 01:20:32,480

speaking

2204

01:20:35,830 --> 01:20:35,040

yeah but you you can tell i mean he's

2205

01:20:37,350 --> 01:20:35,840

very

2206

01:20:39,830 --> 01:20:37,360

passionate about what he's discussing

2207

01:20:42,629 --> 01:20:39,840

and then when he went back

2208

01:20:45,430 --> 01:20:42,639

um and you you kind of changed the

2209

01:20:46,550 --> 01:20:45,440

perspective of the question kind of

2210

01:20:48,470 --> 01:20:46,560

he still

2211

01:20:50,390 --> 01:20:48,480

reiterated the same thing he said

2212

01:20:53,350 --> 01:20:50,400

earlier

2213

01:20:55,430 --> 01:20:53,360

yeah yeah you know

2214

01:20:56,790 --> 01:20:55,440

interesting really interesting cases he

2215

01:20:59,110 --> 01:20:56,800

was talking about

2216

01:21:00,870 --> 01:20:59,120

right and i wish that people would come

2217

01:21:02,390 --> 01:21:00,880

forward

2218

01:21:04,470 --> 01:21:02,400

it's too bad that those people that were

2219

01:21:05,990 --> 01:21:04,480

on the ship with him

2220

01:21:07,350 --> 01:21:06,000

um i don't know if they're still alive

2221

01:21:08,550 --> 01:21:07,360

you know if they're still in service

2222

01:21:10,790 --> 01:21:08,560

maybe that's the reason why they're not

2223

01:21:12,550 --> 01:21:10,800

coming forward

2224

01:21:13,910 --> 01:21:12,560

because they're still active duty i

2225

01:21:15,750 --> 01:21:13,920

don't know

2226

01:21:16,950 --> 01:21:15,760

they would be rather quite up there in

2227

01:21:18,790 --> 01:21:16,960

age but

2228

01:21:20,149 --> 01:21:18,800

um this is the vietnam

2229

01:21:22,470 --> 01:21:20,159

war era

2230

01:21:24,149 --> 01:21:22,480

right but i think it's important that

2231

01:21:25,590 --> 01:21:24,159

people like himself come forward so

2232

01:21:27,510 --> 01:21:25,600

maybe that would encourage others to

2233

01:21:29,510 --> 01:21:27,520

come forward as well

2234

01:21:31,350 --> 01:21:29,520

that's right that's right

2235

01:21:33,510 --> 01:21:31,360

bill i'm hearing feedback coming through

2236

01:21:35,110 --> 01:21:33,520

your speakers when coming back through

2237

01:21:37,590 --> 01:21:35,120

your mic i just had to mute you when i'm

2238

01:21:39,430 --> 01:21:37,600

when i'm talking so i think your your

2239

01:21:42,149 --> 01:21:39,440

speakers uh are a little bit loud there

2240

01:21:43,910 --> 01:21:42,159

or something so i'm just gonna you're

2241

01:21:46,470 --> 01:21:43,920

using a headset i don't know why i'm

2242

01:21:48,950 --> 01:21:46,480

hearing the feedback um anyway

2243

01:21:51,270 --> 01:21:48,960

here's a we're hoping that alfred comes

2244

01:21:53,990 --> 01:21:51,280

back on it appeared that his internet

2245

01:21:55,350 --> 01:21:54,000

did go out and there's a uh

2246

01:21:56,790 --> 01:21:55,360

a question here

2247

01:21:58,790 --> 01:21:56,800

martin did your sighting change

2248

01:22:01,430 --> 01:21:58,800

direction yes

2249

01:22:02,870 --> 01:22:01,440

um it did what happened ufo setting i

2250

01:22:04,229 --> 01:22:02,880

had

2251

01:22:06,870 --> 01:22:04,239

a bill i'm gonna have to mute you i

2252

01:22:09,350 --> 01:22:06,880

don't know why but the ufo sighting that

2253

01:22:11,750 --> 01:22:09,360

i had in uh carmel valley just drove

2254

01:22:13,189 --> 01:22:11,760

through there the other day

2255

01:22:15,510 --> 01:22:13,199

was

2256

01:22:16,790 --> 01:22:15,520

just a craft that went over in one

2257

01:22:19,590 --> 01:22:16,800

direction

2258

01:22:21,430 --> 01:22:19,600

and stopped and just stayed you know for

2259

01:22:23,750 --> 01:22:21,440

me at this point

2260

01:22:26,070 --> 01:22:23,760

trying to remember exactly how long

2261

01:22:27,350 --> 01:22:26,080

it stayed stationary

2262

01:22:29,830 --> 01:22:27,360

i'm gonna say

2263

01:22:32,709 --> 01:22:29,840

five seconds maybe and then it went off

2264

01:22:34,149 --> 01:22:32,719

on a a very straight angle toward

2265

01:22:36,470 --> 01:22:34,159

monterey from

2266

01:22:37,910 --> 01:22:36,480

uh from the direction i was in so yeah i

2267

01:22:39,910 --> 01:22:37,920

mean it changed directions but it was

2268

01:22:42,950 --> 01:22:39,920

going very slow the whole time and i i

2269

01:22:44,550 --> 01:22:42,960

can't judge the height of it so i can't

2270

01:22:47,110 --> 01:22:44,560

figure out exactly

2271

01:22:50,470 --> 01:22:49,189

how how far it was

2272

01:22:52,070 --> 01:22:50,480

anyway now

2273

01:22:53,270 --> 01:22:52,080

now do i still have that echo because i

2274

01:22:55,350 --> 01:22:53,280

kind of changed some settings on my

2275

01:22:58,310 --> 01:22:55,360

background yeah no we're all set now

2276

01:23:00,149 --> 01:22:58,320

thank you okay now what i saw

2277

01:23:01,590 --> 01:23:00,159

over my house

2278

01:23:03,430 --> 01:23:01,600

and i apologize to folks that are

2279

01:23:04,950 --> 01:23:03,440

watching i've had oral surgery so it's a

2280

01:23:06,950 --> 01:23:04,960

little tough for me to have a

2281

01:23:08,790 --> 01:23:06,960

conversation right now that's why martin

2282

01:23:10,070 --> 01:23:08,800

mentioned that before he brought me on

2283

01:23:12,790 --> 01:23:10,080

but um

2284

01:23:14,550 --> 01:23:12,800

what when i captured that over my house

2285

01:23:16,229 --> 01:23:14,560

it curved down

2286

01:23:18,830 --> 01:23:16,239

curved back up

2287

01:23:21,430 --> 01:23:18,840

curved a little to the right

2288

01:23:23,310 --> 01:23:21,440

stopped gone

2289

01:23:26,470 --> 01:23:23,320

i think that was swamp gas

2290

01:23:29,910 --> 01:23:26,480

[Laughter]

2291

01:23:31,990 --> 01:23:29,920

but i mean i will never say

2292

01:23:34,229 --> 01:23:32,000

it's extraterrestrial

2293

01:23:37,590 --> 01:23:34,239

or interdimensional

2294

01:23:39,189 --> 01:23:37,600

because it's unclear it was way up there

2295

01:23:41,430 --> 01:23:39,199

there's no way to discern what the

2296

01:23:43,750 --> 01:23:41,440

object was

2297

01:23:44,870 --> 01:23:43,760

and it could be a drone because you

2298

01:23:46,229 --> 01:23:44,880

mentioned something remember he

2299

01:23:47,830 --> 01:23:46,239

mentioned about satellites being

2300

01:23:50,550 --> 01:23:47,840

stationary

2301

01:23:52,790 --> 01:23:50,560

yeah or going in orbit

2302

01:23:54,709 --> 01:23:52,800

geosynchronous whatever

2303

01:23:57,750 --> 01:23:54,719

right now we know that under development

2304

01:23:59,750 --> 01:23:57,760

by the world powers let's just say

2305

01:24:01,590 --> 01:23:59,760

with the controlled hypersonic missiles

2306

01:24:03,590 --> 01:24:01,600

that are going on where they can

2307

01:24:06,390 --> 01:24:03,600

actually control

2308

01:24:07,750 --> 01:24:06,400

the traject trajectory of this

2309

01:24:10,550 --> 01:24:07,760

projectile

2310

01:24:12,470 --> 01:24:10,560

or whatever the platform they're using

2311

01:24:16,229 --> 01:24:12,480

i would not be surprised there's uh

2312

01:24:18,709 --> 01:24:16,239

drones that they're using in space also

2313

01:24:21,189 --> 01:24:18,719

satellites can move there are killer

2314

01:24:23,270 --> 01:24:21,199

satellites out there martin that they

2315

01:24:26,070 --> 01:24:23,280

can actually

2316

01:24:27,510 --> 01:24:26,080

connect and throw off other satellites

2317

01:24:29,510 --> 01:24:27,520

you can look it up

2318

01:24:30,950 --> 01:24:29,520

they call killer satellites

2319

01:24:32,870 --> 01:24:30,960

um they can move toward another

2320

01:24:35,270 --> 01:24:32,880

satellite to take it out

2321

01:24:35,990 --> 01:24:35,280

so just because we think that maybe you

2322

01:24:39,110 --> 01:24:36,000

know

2323

01:24:40,629 --> 01:24:39,120

a satellite goes in an orbit there

2324

01:24:42,470 --> 01:24:40,639

trust me you know they're doing all

2325

01:24:44,550 --> 01:24:42,480

kinds of stuff up there that the public

2326

01:24:46,950 --> 01:24:44,560

isn't aware of

2327

01:24:49,110 --> 01:24:46,960

that that very well that's kind of scary

2328

01:24:51,270 --> 01:24:49,120

it is but i'm just saying you have to

2329

01:24:53,430 --> 01:24:51,280

think about all the possibilities

2330

01:24:55,830 --> 01:24:53,440

my and i think a lot of people that are

2331

01:24:57,590 --> 01:24:55,840

watching right now would say we need to

2332

01:25:00,470 --> 01:24:57,600

deal with all the possible rational

2333

01:25:03,110 --> 01:25:00,480

explanations

2334

01:25:05,830 --> 01:25:03,120

before coming to a conclusion where

2335

01:25:09,270 --> 01:25:05,840

now we've eliminated all those

2336

01:25:11,270 --> 01:25:09,280

possibilities now what is it

2337

01:25:13,110 --> 01:25:11,280

right no and that's the things that need

2338

01:25:15,189 --> 01:25:13,120

to be investigated

2339

01:25:17,350 --> 01:25:15,199

but with all the stuff that all these

2340

01:25:19,189 --> 01:25:17,360

countries are testing right now

2341

01:25:21,510 --> 01:25:19,199

um i mean i'm just a person that

2342

01:25:24,149 --> 01:25:21,520

believes a lot of the stuff that we see

2343

01:25:26,550 --> 01:25:24,159

uh is natural phenomenon

2344

01:25:27,990 --> 01:25:26,560

uh man-made phenomenon

2345

01:25:31,669 --> 01:25:28,000

right um

2346

01:25:34,149 --> 01:25:31,679

and man-made in top-secret

2347

01:25:37,270 --> 01:25:34,159

experimental level

2348

01:25:41,189 --> 01:25:38,870

that's just my opinion

2349

01:25:42,870 --> 01:25:41,199

yeah but i'm sure there's a small

2350

01:25:44,470 --> 01:25:42,880

percentage

2351

01:25:47,510 --> 01:25:44,480

that fits under that category is

2352

01:25:51,510 --> 01:25:49,669

that's right um well while we're at this

2353

01:25:53,669 --> 01:25:51,520

junction i'm just going to say too i'm

2354

01:25:55,669 --> 01:25:53,679

not getting an email email or any

2355

01:25:58,870 --> 01:25:55,679

correspondence from

2356

01:26:00,709 --> 01:25:58,880

from um our guest i'm not sure if he's

2357

01:26:03,030 --> 01:26:00,719

coming back on if he's just you know his

2358

01:26:04,950 --> 01:26:03,040

internet's gone who knows i had a

2359

01:26:05,750 --> 01:26:04,960

situation where someone was on years ago

2360

01:26:08,790 --> 01:26:05,760

and

2361

01:26:10,709 --> 01:26:08,800

um that i think their house got struck

2362

01:26:12,390 --> 01:26:10,719

by lightning or something wow

2363

01:26:14,149 --> 01:26:12,400

and they were they were gone that was

2364

01:26:15,590 --> 01:26:14,159

definitely a government plan i'm sure

2365

01:26:18,390 --> 01:26:15,600

you know well he was i'll tell you one

2366

01:26:20,310 --> 01:26:18,400

thing he is a fascinating guest i agree

2367

01:26:22,709 --> 01:26:20,320

with pamela in chat

2368

01:26:25,590 --> 01:26:22,719

and i told you privately in chat i find

2369

01:26:28,390 --> 01:26:25,600

this discussion fascinating yeah

2370

01:26:30,870 --> 01:26:28,400

yeah i've always liked and and um

2371

01:26:33,270 --> 01:26:30,880

and by the way uh you know i have uh

2372

01:26:35,350 --> 01:26:33,280

some recordings already of people that

2373

01:26:37,750 --> 01:26:35,360

had a ufo encounter i like to run these

2374

01:26:40,149 --> 01:26:37,760

during the the breaks if you'd like to

2375

01:26:41,910 --> 01:26:40,159

uh if you'd like to email me and tell me

2376

01:26:42,870 --> 01:26:41,920

about your ufo encounter if i think we

2377

01:26:45,030 --> 01:26:42,880

can do

2378

01:26:49,030 --> 01:26:45,040

a clip about it i will do that and my

2379

01:26:51,910 --> 01:26:49,040

email address is martin podcast ufo.com

2380

01:26:53,990 --> 01:26:51,920

so also i got to say um the guests that

2381

01:26:55,510 --> 01:26:54,000

i was supposed to have uh for this

2382

01:26:58,149 --> 01:26:55,520

coming next week

2383

01:27:00,149 --> 01:26:58,159

i have not heard back from so

2384

01:27:01,990 --> 01:27:00,159

if you are curious what our guest is

2385

01:27:04,229 --> 01:27:02,000

going to be each week then all you have

2386

01:27:05,830 --> 01:27:04,239

to do is go to podcastufo.com

2387

01:27:09,270 --> 01:27:05,840

go over to the sidebar

2388

01:27:10,070 --> 01:27:09,280

and subscribe to our weekly newsletter

2389

01:27:12,390 --> 01:27:10,080

and

2390

01:27:16,149 --> 01:27:12,400

then each week you'll get a link to the

2391

01:27:18,790 --> 01:27:16,159

blog and a link to the guest information

2392

01:27:20,390 --> 01:27:18,800

so i'm not sure bill if our guest is

2393

01:27:22,709 --> 01:27:20,400

coming back or not

2394

01:27:25,189 --> 01:27:22,719

well if anybody i mean if you would like

2395

01:27:27,110 --> 01:27:25,199

to call in i can jump off and take your

2396

01:27:29,430 --> 01:27:27,120

calls if you have calls for martin

2397

01:27:30,790 --> 01:27:29,440

hopefully um yeah we can try you can

2398

01:27:32,390 --> 01:27:30,800

drive

2399

01:27:35,189 --> 01:27:32,400

his guest will come back and if his

2400

01:27:37,270 --> 01:27:35,199

guest comes back you can ask questions

2401

01:27:38,550 --> 01:27:37,280

whoops sorry about that bill that's all

2402

01:27:39,990 --> 01:27:38,560

right we're just hearing some echoing

2403

01:27:41,750 --> 01:27:40,000

again um

2404

01:27:43,270 --> 01:27:41,760

all right so what i'm going to do is i'm

2405

01:27:46,310 --> 01:27:43,280

going to put up here is the phone number

2406

01:27:49,310 --> 01:27:46,320

for anyone would like to call in um that

2407

01:27:51,590 --> 01:27:49,320

number is uh

2408

01:27:54,070 --> 01:27:51,600

855-472-5483 if you want to call in now

2409

01:27:55,430 --> 01:27:54,080

and talk about oh basically anything the

2410

01:27:59,030 --> 01:27:55,440

direction that

2411

01:28:00,229 --> 01:27:59,040

the ufo topic seems to be headed in

2412

01:28:02,629 --> 01:28:00,239

some people want to talk about

2413

01:28:05,590 --> 01:28:02,639

disclosure i have mixed feelings about

2414

01:28:08,390 --> 01:28:05,600

that that actual word uh i'm not really

2415

01:28:10,550 --> 01:28:08,400

sure wait now that you say that

2416

01:28:13,350 --> 01:28:10,560

wasn't tonight the night that they had

2417

01:28:15,510 --> 01:28:13,360

something at the national press club yes

2418

01:28:17,750 --> 01:28:15,520

that's correct um bill

2419

01:28:19,430 --> 01:28:17,760

bob salas who was on the show a while

2420

01:28:21,430 --> 01:28:19,440

back it is tonight i was trying to find

2421

01:28:23,430 --> 01:28:21,440

out more information about that just

2422

01:28:25,430 --> 01:28:23,440

before we went on the air and it's

2423

01:28:27,510 --> 01:28:25,440

supposed to be he's back in

2424

01:28:30,709 --> 01:28:27,520

is it where where's the national

2425

01:28:33,830 --> 01:28:30,719

washington dc yes i actually may have a

2426

01:28:35,430 --> 01:28:33,840

link to the live youtube stream

2427

01:28:36,790 --> 01:28:35,440

peter robinson

2428

01:28:39,590 --> 01:28:36,800

yeah i'm gonna send it to you this way

2429

01:28:43,189 --> 01:28:39,600

i'll put it in the private chat but um

2430

01:28:44,550 --> 01:28:43,199

peter robbins is the only person there

2431

01:28:48,709 --> 01:28:44,560

that is

2432

01:28:51,430 --> 01:28:48,719

technically in the field of ufology

2433

01:28:53,270 --> 01:28:51,440

but he sent me a link and i'll try to

2434

01:28:56,550 --> 01:28:53,280

pull it up while we're on the air and

2435

01:28:58,709 --> 01:28:56,560

then you could share it to that stream

2436

01:29:00,149 --> 01:28:58,719

yeah that sounds like a good idea yeah

2437

01:29:02,470 --> 01:29:00,159

and i think a lot of people would find

2438

01:29:04,310 --> 01:29:02,480

that fascinating

2439

01:29:05,110 --> 01:29:04,320

um not to watch

2440

01:29:06,390 --> 01:29:05,120

yeah

2441

01:29:08,709 --> 01:29:06,400

so i'll

2442

01:29:12,070 --> 01:29:08,719

i'll look it up i think

2443

01:29:13,830 --> 01:29:12,080

i may have it here it is

2444

01:29:15,750 --> 01:29:13,840

so i'm going to click on the link myself

2445

01:29:18,310 --> 01:29:15,760

so i can grab it

2446

01:29:20,229 --> 01:29:18,320

and i'm going to mute

2447

01:29:22,550 --> 01:29:20,239

so we don't hear it on the air oh my god

2448

01:29:25,030 --> 01:29:22,560

someone says they think i'm on the wacky

2449

01:29:27,110 --> 01:29:25,040

weed isn't that funny

2450

01:29:29,750 --> 01:29:27,120

well you know maybe that would help i

2451

01:29:32,070 --> 01:29:29,760

might try that uh next time but thank

2452

01:29:33,189 --> 01:29:32,080

you for that larry all right there is

2453

01:29:34,149 --> 01:29:33,199

the link

2454

01:29:37,830 --> 01:29:34,159

all right

2455

01:29:38,870 --> 01:29:37,840

it it was this morning actually martin

2456

01:29:42,149 --> 01:29:38,880

okay

2457

01:29:43,910 --> 01:29:42,159

but you can go there and watch it folks

2458

01:29:44,870 --> 01:29:43,920

all right i will um

2459

01:29:46,229 --> 01:29:44,880

let's see

2460

01:29:50,229 --> 01:29:46,239

how

2461

01:29:52,550 --> 01:29:50,239

skype this way you can no no that's fine

2462

01:29:54,310 --> 01:29:52,560

i have a i have an idea what to do but

2463

01:29:56,629 --> 01:29:54,320

uh okay um

2464

01:29:58,629 --> 01:29:56,639

but it was from 8 30 to 11 this morning

2465

01:29:59,990 --> 01:29:58,639

so it's two and a half hours

2466

01:30:02,070 --> 01:30:00,000

and

2467

01:30:03,830 --> 01:30:02,080

yeah we do have a caller so you can take

2468

01:30:07,110 --> 01:30:03,840

me off so

2469

01:30:09,910 --> 01:30:07,120

i do have a caller yes so

2470

01:30:11,590 --> 01:30:09,920

get me off so i can answer the phone

2471

01:30:13,189 --> 01:30:11,600

have a great night everybody all right

2472

01:30:15,110 --> 01:30:13,199

but i got to bring you back in when the

2473

01:30:16,870 --> 01:30:15,120

caller yeah i'll take myself off camera

2474

01:30:21,030 --> 01:30:16,880

all right

2475

01:30:22,870 --> 01:30:21,040

have a caller into the show

2476
01:30:25,590 --> 01:30:22,880
thank you for our patience i'm only can

2477
01:30:27,590 --> 01:30:25,600
only guess that somehow

2478
01:30:29,430 --> 01:30:27,600
um our

2479
01:30:31,430 --> 01:30:29,440
guest tonight lost his internet that's

2480
01:30:34,229 --> 01:30:31,440
unfortunate um it was a great

2481
01:30:37,110 --> 01:30:34,239
conversation i'll keep my eyes up open

2482
01:30:39,270 --> 01:30:37,120
to see if he comes back

2483
01:30:41,110 --> 01:30:39,280
and hopefully he will come back

2484
01:30:42,709 --> 01:30:41,120
but right now we have uh

2485
01:30:43,510 --> 01:30:42,719
someone bill is taking screening the

2486
01:30:47,350 --> 01:30:43,520
call

2487
01:30:52,070 --> 01:30:47,360
um that number again right up on the

2488
01:30:56,149 --> 01:30:54,550

was it harry or larry that said he

2489

01:30:57,350 --> 01:30:56,159

thought i was on the wacky weed but

2490

01:31:00,830 --> 01:30:57,360

anyway

2491

01:31:04,149 --> 01:31:00,840

um hopefully it was larry and we have

2492

01:31:05,990 --> 01:31:04,159

harry from louisiana welcome to the show

2493

01:31:08,709 --> 01:31:06,000

you're live all in

2494

01:31:10,149 --> 01:31:08,719

on that number again

2495

01:31:12,229 --> 01:31:10,159

472.

2496

01:31:15,910 --> 01:31:12,239

all right

2497

01:31:17,510 --> 01:31:15,920

have to happen uh harry you're gonna

2498

01:31:19,110 --> 01:31:17,520

have to mute your

2499

01:31:20,629 --> 01:31:19,120

show you're watching the show live

2500

01:31:23,510 --> 01:31:20,639

obviously

2501

01:31:25,110 --> 01:31:23,520

uh so hurray mute mute the show please

2502

01:31:27,189 --> 01:31:25,120

mute the show

2503

01:31:29,830 --> 01:31:27,199

and uh bella hopefully you can remember

2504

01:31:31,669 --> 01:31:29,840

to tell people to do

2505

01:31:34,709 --> 01:31:31,679

we got a couple calls but right now we

2506

01:31:36,229 --> 01:31:34,719

have uh how are you there

2507

01:31:38,229 --> 01:31:36,239

yeah i am yes

2508

01:31:40,310 --> 01:31:38,239

hi welcome to the show you have a

2509

01:31:42,390 --> 01:31:40,320

question or you want to talk about a

2510

01:31:45,830 --> 01:31:42,400

topic

2511

01:31:48,550 --> 01:31:45,840

i was uh interested in the uh triangle

2512

01:31:51,030 --> 01:31:48,560

ufos that forced the witnesses to the

2513

01:31:53,189 --> 01:31:51,040

ground uh i hadn't heard that uh before

2514

01:31:55,189 --> 01:31:53,199

and i'm interested in uh

2515

01:31:59,830 --> 01:31:55,199

knowing more about that

2516

01:32:02,629 --> 01:31:59,840

yeah well i would um now uh katie uh in

2517

01:32:05,750 --> 01:32:02,639

in australia as a person i know now it

2518

01:32:08,149 --> 01:32:05,760

was a triangle for her i couldn't get

2519

01:32:09,270 --> 01:32:08,159

the fact that when he said this black

2520

01:32:10,870 --> 01:32:09,280

object

2521

01:32:13,270 --> 01:32:10,880

this was during the vietnam war back in

2522

01:32:15,510 --> 01:32:13,280

1966 when it flew over the people on the

2523

01:32:18,070 --> 01:32:15,520

ground it forced them to the ground

2524

01:32:19,750 --> 01:32:18,080

um and that's something

2525

01:32:21,030 --> 01:32:19,760

he didn't really stay you know hopefully

2526
01:32:23,430 --> 01:32:21,040
he'll come back on but he didn't really

2527
01:32:24,870 --> 01:32:23,440
say the shape of that that craft

2528
01:32:26,950 --> 01:32:24,880
however katie

2529
01:32:29,189 --> 01:32:26,960
who will be on the show at some point is

2530
01:32:31,590 --> 01:32:29,199
going to go into detail about what she

2531
01:32:35,350 --> 01:32:31,600
saw over them

2532
01:32:37,750 --> 01:32:35,360
so yeah that that is a fascinating story

2533
01:32:40,149 --> 01:32:37,760
it is interesting i just went out online

2534
01:32:40,790 --> 01:32:40,159
a few minutes ago and was just looking

2535
01:32:42,790 --> 01:32:40,800
at

2536
01:32:44,870 --> 01:32:42,800
triangle ufo um

2537
01:32:46,709 --> 01:32:44,880
stories trying to see something uh

2538
01:32:48,310 --> 01:32:46,719

anything i could find about that i just

2539

01:32:50,950 --> 01:32:48,320

thought that was an interesting

2540

01:32:52,229 --> 01:32:50,960

kind of phenomenon uh associated with

2541

01:32:54,390 --> 01:32:52,239

that um

2542

01:32:57,030 --> 01:32:54,400

i'm just you know just it makes you

2543

01:32:59,510 --> 01:32:57,040

speculate about what could be

2544

01:33:01,590 --> 01:32:59,520

what what's you know what kind of uh

2545

01:33:03,030 --> 01:33:01,600

propulsion system or whatever could be

2546

01:33:04,709 --> 01:33:03,040

producing that

2547

01:33:06,550 --> 01:33:04,719

that effect but that's really

2548

01:33:10,229 --> 01:33:06,560

fascinating um

2549

01:33:12,870 --> 01:33:10,239

it almost seems like uh an anti-gravity

2550

01:33:14,550 --> 01:33:12,880

or something like that

2551

01:33:17,510 --> 01:33:14,560

well yeah that's kind of what i thought

2552

01:33:19,350 --> 01:33:17,520

but i i don't know that uh effect uh in

2553

01:33:21,430 --> 01:33:19,360

other reports i mean i'm

2554

01:33:23,030 --> 01:33:21,440

i may have heard it and just forgot but

2555

01:33:24,709 --> 01:33:23,040

it doesn't seem to be too common and

2556

01:33:28,950 --> 01:33:24,719

there have been a lot of

2557

01:33:30,550 --> 01:33:28,960

ufo reports over the uh many decades um

2558

01:33:33,189 --> 01:33:30,560

that would be interesting to like do a

2559

01:33:35,030 --> 01:33:33,199

search of of sightings or close-up

2560

01:33:36,709 --> 01:33:35,040

encounters that where people were

2561

01:33:39,590 --> 01:33:36,719

physically um

2562

01:33:42,390 --> 01:33:39,600

affected and maybe forced even to

2563

01:33:43,590 --> 01:33:42,400

to the ground by it that's uh yeah

2564

01:33:47,350 --> 01:33:43,600

yeah

2565

01:33:50,629 --> 01:33:47,360

i've ever heard that

2566

01:33:53,990 --> 01:33:50,639

and so yeah i think that that is uh

2567

01:33:55,590 --> 01:33:54,000

that is fascinating and uh so uh i'm

2568

01:33:57,910 --> 01:33:55,600

just hearing from my guests now just to

2569

01:34:00,310 --> 01:33:57,920

let everyone know uh i did hear back is

2570

01:34:03,430 --> 01:34:00,320

dr irina scott she's gonna be on next

2571

01:34:05,830 --> 01:34:03,440

week on next week's show so

2572

01:34:07,669 --> 01:34:05,840

have you ever um

2573

01:34:12,149 --> 01:34:07,679

harry have you ever looked into dave

2574

01:34:13,750 --> 01:34:12,159

marlar's great book on triangle ufos

2575

01:34:15,910 --> 01:34:13,760

i haven't looked in

2576

01:34:18,470 --> 01:34:15,920

into the i haven't seen the book

2577

01:34:21,430 --> 01:34:18,480

i was uh i think aware that there was a

2578

01:34:23,510 --> 01:34:21,440

book uh in fact just just now out online

2579

01:34:24,390 --> 01:34:23,520

i i noticed uh

2580

01:34:29,990 --> 01:34:24,400

uh

2581

01:34:32,390 --> 01:34:30,000

maybe i need to check that out and see

2582

01:34:34,550 --> 01:34:32,400

it's it's wonderful research now i i

2583

01:34:35,910 --> 01:34:34,560

talked to dave quite often but that's

2584

01:34:37,910 --> 01:34:35,920

something i've never

2585

01:34:40,149 --> 01:34:37,920

remembered to ask him about about the

2586

01:34:42,629 --> 01:34:40,159

pressure effect if any of these ufo

2587

01:34:45,510 --> 01:34:42,639

triangle ufos i have his book i mean i

2588

01:34:47,430 --> 01:34:45,520

could i suppose i could i have i have a

2589

01:34:49,830 --> 01:34:47,440

lot of books uh to read through but

2590

01:34:51,669 --> 01:34:49,840

that's one of them that you know from

2591

01:34:54,310 --> 01:34:51,679

the part that i did read i haven't i've

2592

01:34:57,590 --> 01:34:54,320

read part of it it's so well written and

2593

01:35:00,790 --> 01:34:57,600

documented and and uh great stuff uh you

2594

01:35:03,910 --> 01:35:00,800

don't hear a lot of triangle ufos

2595

01:35:05,510 --> 01:35:03,920

early on um but there are some there are

2596

01:35:07,669 --> 01:35:05,520

some encounters that go

2597

01:35:09,109 --> 01:35:07,679

back but just uh there's just very few

2598

01:35:11,109 --> 01:35:09,119

of them it seems like it's the vehicle

2599

01:35:12,709 --> 01:35:11,119

of choice these days i mean it seems

2600

01:35:14,070 --> 01:35:12,719

like there's a lot more

2601
01:35:15,350 --> 01:35:14,080
triangles and

2602
01:35:17,510 --> 01:35:15,360
than others

2603
01:35:18,629 --> 01:35:17,520
but uh we're stacked up we actually have

2604
01:35:23,030 --> 01:35:18,639
uh

2605
01:35:25,189 --> 01:35:23,040
anything up terry okay

2606
01:35:27,109 --> 01:35:25,199
well just very quickly i've for a long

2607
01:35:29,590 --> 01:35:27,119
time i've been wanting to see a panel

2608
01:35:31,830 --> 01:35:29,600
convened

2609
01:35:33,430 --> 01:35:31,840
to discuss

2610
01:35:34,790 --> 01:35:33,440
whether or not

2611
01:35:37,510 --> 01:35:34,800
you know the government

2612
01:35:39,109 --> 01:35:37,520
might have actually acquired technology

2613
01:35:39,990 --> 01:35:39,119

over the decades that would allow them

2614

01:35:40,870 --> 01:35:40,000

to

2615

01:35:43,990 --> 01:35:40,880

have

2616

01:35:45,430 --> 01:35:44,000

anti-gravity uh craft um

2617

01:35:47,030 --> 01:35:45,440

i uh

2618

01:35:49,189 --> 01:35:47,040

you know all the money that goes into

2619

01:35:51,109 --> 01:35:49,199

black projects they must have

2620

01:35:53,270 --> 01:35:51,119

explored that and i'd love to see a

2621

01:35:56,070 --> 01:35:53,280

panel like physicists and aerospace

2622

01:35:57,669 --> 01:35:56,080

people just speculate uh i mean there's

2623

01:35:59,030 --> 01:35:57,679

nothing that i know of in the private

2624

01:35:59,830 --> 01:35:59,040

sector that

2625

01:36:08,310 --> 01:35:59,840

that

2626

01:36:09,350 --> 01:36:08,320

private sector i would just wonder if if

2627

01:36:11,109 --> 01:36:09,360

um

2628

01:36:12,629 --> 01:36:11,119

experts could speculate about whether

2629

01:36:14,550 --> 01:36:12,639

the government might have focused enough

2630

01:36:16,149 --> 01:36:14,560

money to have actually produced

2631

01:36:17,270 --> 01:36:16,159

that kind of thing because that that

2632

01:36:18,870 --> 01:36:17,280

would be

2633

01:36:21,750 --> 01:36:18,880

technology that would maybe explain a

2634

01:36:22,629 --> 01:36:21,760

lot of these things away as as ours and

2635

01:36:24,790 --> 01:36:22,639

not

2636

01:36:26,470 --> 01:36:24,800

from somewhere else um

2637

01:36:28,790 --> 01:36:26,480

i can understand though

2638

01:36:32,310 --> 01:36:28,800

if they are trying to keep it secret

2639

01:36:34,229 --> 01:36:32,320

because i mean it would be such a

2640

01:36:36,390 --> 01:36:34,239

you know it would be such a step ahead

2641

01:36:38,550 --> 01:36:36,400

of everyone else if we actually had

2642

01:36:41,189 --> 01:36:38,560

something like that i mean and also you

2643

01:36:43,750 --> 01:36:41,199

can think of all the uses we could have

2644

01:36:46,709 --> 01:36:43,760

if we actually had that type of thing

2645

01:36:49,030 --> 01:36:46,719

available to us uh the energy that well

2646

01:36:51,109 --> 01:36:49,040

i don't know what type of energy it

2647

01:36:53,430 --> 01:36:51,119

takes to create the

2648

01:36:55,830 --> 01:36:53,440

uh you know the any gravity if it's not

2649

01:36:58,070 --> 01:36:55,840

a lot of energy perhaps travel could be

2650

01:37:00,550 --> 01:36:58,080

completely revolutionary you know in the

2651
01:37:03,350 --> 01:37:00,560
future so but anyway we've got four

2652
01:37:05,590 --> 01:37:03,360
people now online waiting to talk thank

2653
01:37:08,870 --> 01:37:05,600
you i enjoyed talking to you all right

2654
01:37:11,910 --> 01:37:08,880
all right harry take care thank you

2655
01:37:15,990 --> 01:37:11,920
all right next uh we have william from

2656
01:37:18,709 --> 01:37:16,000
florida william you're live on the air

2657
01:37:20,950 --> 01:37:18,719
hi martin good evening good evening

2658
01:37:21,990 --> 01:37:20,960
thanks for calling

2659
01:37:24,070 --> 01:37:22,000
thank you

2660
01:37:26,390 --> 01:37:24,080
um

2661
01:37:29,510 --> 01:37:26,400
i had the opportunity to

2662
01:37:32,709 --> 01:37:29,520
install a security system

2663
01:37:35,350 --> 01:37:32,719

you know cameras and dvr

2664

01:37:37,990 --> 01:37:35,360

at my house

2665

01:37:40,470 --> 01:37:38,000

and next door

2666

01:37:44,709 --> 01:37:40,480

i put a few cameras on the roof and

2667

01:37:44,719 --> 01:37:49,990

um what are you

2668

01:37:54,390 --> 01:37:52,070

more than just visible light like it'd

2669

01:37:57,030 --> 01:37:54,400

be infrared and ultraviolet

2670

01:37:58,550 --> 01:37:57,040

uh can i just ask you something

2671

01:38:01,109 --> 01:37:58,560

sure

2672

01:38:03,910 --> 01:38:01,119

are you on speakerphone

2673

01:38:07,750 --> 01:38:03,920

no no i'm not let me just let me check

2674

01:38:10,950 --> 01:38:09,109

bad connection

2675

01:38:12,149 --> 01:38:10,960

uh well it was fading in and out so i

2676

01:38:13,990 --> 01:38:12,159

wonder if you just make sure you can

2677

01:38:17,030 --> 01:38:14,000

speak into the mouthpiece and continue

2678

01:38:19,830 --> 01:38:17,040

on if you would okay let me go to a

2679

01:38:23,109 --> 01:38:19,840

different play of the house

2680

01:38:24,070 --> 01:38:23,119

so it's receptive a little spotty

2681

01:38:26,070 --> 01:38:24,080

yeah

2682

01:38:28,229 --> 01:38:26,080

okay can you hear me now

2683

01:38:31,750 --> 01:38:28,239

yeah but it is fading in and out so

2684

01:38:32,870 --> 01:38:31,760

go ahead though okay um

2685

01:38:35,030 --> 01:38:32,880

so

2686

01:38:37,270 --> 01:38:35,040

what i noticed

2687

01:38:39,430 --> 01:38:37,280

was um

2688

01:38:41,990 --> 01:38:39,440

the dvr has a

2689

01:38:45,189 --> 01:38:42,000

recording log and it puts a watermark on

2690

01:38:47,590 --> 01:38:45,199

a 24-hour type of display

2691

01:38:50,550 --> 01:38:47,600

so you can see whatever motion sensed by

2692

01:38:52,229 --> 01:38:50,560

any of the cameras

2693

01:38:54,790 --> 01:38:52,239

and

2694

01:38:56,470 --> 01:38:54,800

what i was noticing occasionally

2695

01:38:57,669 --> 01:38:56,480

this would happen maybe once a week or

2696

01:38:59,750 --> 01:38:57,679

so

2697

01:39:01,830 --> 01:38:59,760

but every sunday i'd sit down

2698

01:39:04,310 --> 01:39:01,840

sit my coffee and

2699

01:39:07,189 --> 01:39:04,320

look at look at what you know what went

2700

01:39:09,510 --> 01:39:07,199

through the yard or went over the house

2701
01:39:11,030 --> 01:39:09,520
and many times it was helicopters and

2702
01:39:13,910 --> 01:39:11,040
planes

2703
01:39:16,390 --> 01:39:13,920
and um and so i was seeing these

2704
01:39:18,310 --> 01:39:16,400
balls of light going across the sky

2705
01:39:21,030 --> 01:39:18,320
occasionally

2706
01:39:23,030 --> 01:39:21,040
um some were closer some were further up

2707
01:39:25,590 --> 01:39:23,040
some i saw on a v pattern like you were

2708
01:39:27,510 --> 01:39:25,600
talking about earlier with the guy from

2709
01:39:28,229 --> 01:39:27,520
the vietnam

2710
01:39:29,590 --> 01:39:28,239
war

2711
01:39:31,830 --> 01:39:29,600
and um

2712
01:39:34,229 --> 01:39:31,840
yeah and so very amazing so what i ended

2713
01:39:35,910 --> 01:39:34,239

up doing was i took a satellite dish

2714

01:39:38,149 --> 01:39:35,920

and hacked it out

2715

01:39:39,189 --> 01:39:38,159

i put a high gain microphone in it

2716

01:39:42,390 --> 01:39:39,199

instead

2717

01:39:44,390 --> 01:39:42,400

and aimed it straight up also

2718

01:39:46,709 --> 01:39:44,400

now when i had it hooked to the stereo i

2719

01:39:47,590 --> 01:39:46,719

could really crank it up

2720

01:39:49,189 --> 01:39:47,600

and

2721

01:39:50,790 --> 01:39:49,199

these balls of light would never make

2722

01:39:53,669 --> 01:39:50,800

any noise

2723

01:39:56,470 --> 01:39:53,679

completely silent

2724

01:39:58,070 --> 01:39:56,480

the um planes and

2725

01:39:59,590 --> 01:39:58,080

you know helicopters of course made

2726

01:40:01,830 --> 01:39:59,600
noise like i could even hear the

2727

01:40:03,669 --> 01:40:01,840
jetliners that looked like a speck in

2728

01:40:05,109 --> 01:40:03,679
the sky

2729

01:40:06,870 --> 01:40:05,119
going over

2730

01:40:08,149 --> 01:40:06,880
and it was it was good security for the

2731

01:40:09,430 --> 01:40:08,159
house because i could hear everything in

2732

01:40:12,149 --> 01:40:09,440
the neighborhood as well because it

2733

01:40:13,910 --> 01:40:12,159
would pick up anything that was

2734

01:40:16,790 --> 01:40:13,920
reflected around the neighborhood audio

2735

01:40:22,390 --> 01:40:20,310
but yeah and so on occasions

2736

01:40:23,830 --> 01:40:22,400
i had some of these balls of light that

2737

01:40:24,709 --> 01:40:23,840
were so

2738

01:40:25,830 --> 01:40:24,719

close

2739

01:40:27,189 --> 01:40:25,840

to

2740

01:40:29,109 --> 01:40:27,199

the yard

2741

01:40:31,270 --> 01:40:29,119

that you could actually see the heat

2742

01:40:33,270 --> 01:40:31,280

trail coming off of them

2743

01:40:36,149 --> 01:40:33,280

and the heat is displayed

2744

01:40:38,550 --> 01:40:36,159

at night the image it makes the image

2745

01:40:45,030 --> 01:40:41,750

on this type of wide spectrum camera

2746

01:40:47,590 --> 01:40:45,040

but um on this ones that were close

2747

01:40:50,790 --> 01:40:47,600

i could actually see a heat trail

2748

01:40:51,910 --> 01:40:50,800

behind it almost looking like you know a

2749

01:40:53,350 --> 01:40:51,920

mane of

2750

01:40:55,350 --> 01:40:53,360

of white hair

2751

01:40:57,990 --> 01:40:55,360

you know with the wind blowing

2752

01:41:00,550 --> 01:40:58,000

and and you could see this ball just

2753

01:41:02,470 --> 01:41:00,560

slowly moving across

2754

01:41:04,390 --> 01:41:02,480

over the house

2755

01:41:06,950 --> 01:41:04,400

and uh and so

2756

01:41:09,590 --> 01:41:06,960

my camera system my dvr was picking the

2757

01:41:10,709 --> 01:41:09,600

stuff up and putting a watermark on my

2758

01:41:12,229 --> 01:41:10,719

recorder

2759

01:41:13,669 --> 01:41:12,239

so what i'm basically trying to tell

2760

01:41:15,590 --> 01:41:13,679

everybody is

2761

01:41:17,350 --> 01:41:15,600

anybody can do this

2762

01:41:19,590 --> 01:41:17,360

yeah they're there all the time it's

2763

01:41:21,910 --> 01:41:19,600

just a matter of looking in the right

2764

01:41:24,470 --> 01:41:21,920

spectrums usually they're

2765

01:41:25,990 --> 01:41:24,480

not able to be seen with a naked eye and

2766

01:41:28,790 --> 01:41:26,000

and that's why some people can see them

2767

01:41:30,470 --> 01:41:28,800

and other people can't

2768

01:41:33,189 --> 01:41:30,480

oh that's interesting one of the things

2769

01:41:36,229 --> 01:41:33,199

i was going to ask you but you kind of

2770

01:41:37,830 --> 01:41:36,239

answered the question was that if uh is

2771

01:41:39,990 --> 01:41:37,840

there an airport nearby and could these

2772

01:41:42,070 --> 01:41:40,000

be landing lights but you said you

2773

01:41:44,470 --> 01:41:42,080

didn't you can hear things from the

2774

01:41:46,709 --> 01:41:44,480

airliners going overhead nothing from

2775

01:41:47,750 --> 01:41:46,719

these but did these things travel in the

2776

01:41:52,709 --> 01:41:47,760

same

2777

01:41:55,270 --> 01:41:52,719

no no not at all all different

2778

01:41:57,669 --> 01:41:55,280

directions some i actually saw coming

2779

01:42:00,149 --> 01:41:57,679

straight down out of the sky

2780

01:42:01,910 --> 01:42:00,159

and they appeared to like enlarge as

2781

01:42:04,390 --> 01:42:01,920

they got closer

2782

01:42:06,950 --> 01:42:04,400

and then they would go back up

2783

01:42:12,790 --> 01:42:10,709

horizontally others would be vertical

2784

01:42:16,070 --> 01:42:12,800

so are you saying this is not in it's

2785

01:42:18,310 --> 01:42:16,080

not in the visible spectrum

2786

01:42:21,270 --> 01:42:18,320

many times they're not

2787

01:42:23,830 --> 01:42:21,280

now and i have seen a few on occasion

2788

01:42:25,350 --> 01:42:23,840

uh with my own eyes

2789

01:42:27,030 --> 01:42:25,360

but

2790

01:42:29,510 --> 01:42:27,040

i don't think that all of these that

2791

01:42:31,510 --> 01:42:29,520

were going across the sky

2792

01:42:32,950 --> 01:42:31,520

could be seen by the general public

2793

01:42:34,550 --> 01:42:32,960

because

2794

01:42:35,750 --> 01:42:34,560

i'm certain that that i would have heard

2795

01:42:38,070 --> 01:42:35,760

about it from

2796

01:42:39,590 --> 01:42:38,080

neighbors and other people

2797

01:42:41,270 --> 01:42:39,600

i even had friends that would call me

2798

01:42:43,109 --> 01:42:41,280

occasionally and say hey

2799

01:42:45,430 --> 01:42:43,119

you know there's something

2800

01:42:48,149 --> 01:42:45,440

coming in your direction

2801
01:42:50,149 --> 01:42:48,159
and uh i was never able to to catch what

2802
01:42:52,629 --> 01:42:50,159
they saw or if they saw something the

2803
01:42:54,950 --> 01:42:52,639
night before i would go back and

2804
01:42:58,390 --> 01:42:54,960
on the dvr you know and look at it from

2805
01:43:01,030 --> 01:42:58,400
the night before play playing it back

2806
01:43:03,990 --> 01:43:01,040
so i i tried to confirm what people saw

2807
01:43:04,950 --> 01:43:04,000
but never never was able to catch

2808
01:43:06,950 --> 01:43:04,960
you know

2809
01:43:08,070 --> 01:43:06,960
the same direction

2810
01:43:09,990 --> 01:43:08,080
so

2811
01:43:11,750 --> 01:43:10,000
my cameras were probably zoomed in to

2812
01:43:15,030 --> 01:43:11,760
about

2813
01:43:17,590 --> 01:43:15,040

maybe uh 10 time magnification

2814

01:43:20,390 --> 01:43:17,600

uh so i wasn't really heavily zoomed to

2815

01:43:21,990 --> 01:43:20,400

see something close up but but yet when

2816

01:43:23,590 --> 01:43:22,000

you do that then you lose your field of

2817

01:43:27,830 --> 01:43:23,600

view

2818

01:43:31,669 --> 01:43:30,390

and so i ended up with probably two

2819

01:43:35,830 --> 01:43:31,679

dozen

2820

01:43:38,149 --> 01:43:35,840

um occurrences that i ended up saving

2821

01:43:39,510 --> 01:43:38,159

and uh was always you know great

2822

01:43:41,750 --> 01:43:39,520

entertainment for friends that would

2823

01:43:44,629 --> 01:43:41,760

come over or family we would sit there

2824

01:43:46,229 --> 01:43:44,639

and play this stuff back and

2825

01:43:48,229 --> 01:43:46,239

and uh

2826

01:43:49,669 --> 01:43:48,239

everybody was just you know

2827

01:43:51,590 --> 01:43:49,679

thumbs down and nobody knew what to

2828

01:43:53,590 --> 01:43:51,600

really think

2829

01:43:56,229 --> 01:43:53,600

well i'm wondering if this is if you

2830

01:43:59,990 --> 01:43:56,239

would be able to send me one of those

2831

01:44:02,709 --> 01:44:00,000

videos if you'd be willing to do that

2832

01:44:04,709 --> 01:44:02,719

uh yeah yeah yeah i'd be willing to do

2833

01:44:08,790 --> 01:44:04,719

that

2834

01:44:10,790 --> 01:44:08,800

right now

2835

01:44:14,390 --> 01:44:10,800

if i would have your permission to just

2836

01:44:17,430 --> 01:44:14,400

put it up uh on on youtube with a

2837

01:44:18,870 --> 01:44:17,440

unlisted and then put the link to it in

2838

01:44:21,510 --> 01:44:18,880

the show notes so people that are

2839

01:44:23,430 --> 01:44:21,520

listening to the show only can uh take a

2840

01:44:26,390 --> 01:44:23,440

peek at it

2841

01:44:28,790 --> 01:44:26,400

right right right well let's can we talk

2842

01:44:31,430 --> 01:44:28,800

uh later after the call talk later after

2843

01:44:33,430 --> 01:44:31,440

and what you need to do if you would um

2844

01:44:35,430 --> 01:44:33,440

because i have things going on this

2845

01:44:37,910 --> 01:44:35,440

evening it's early here in california

2846

01:44:40,629 --> 01:44:37,920

where i am but i need you to email me at

2847

01:44:42,390 --> 01:44:40,639

podcastmartinetpodcastufo.com

2848

01:44:45,750 --> 01:44:42,400

but william thank you so much for the

2849

01:44:48,310 --> 01:44:45,760

call it's been fascinating thank you

2850

01:44:51,510 --> 01:44:48,320

thank you and that was martin at what

2851
01:44:53,430 --> 01:44:51,520
podcast ufo.com

2852
01:44:57,189 --> 01:44:53,440
got it thanks

2853
01:45:03,430 --> 01:45:00,629
all right next we have stephen calling

2854
01:45:06,629 --> 01:45:03,440
from michigan stephen welcome to the

2855
01:45:11,750 --> 01:45:08,070
stephen are you there welcome to the

2856
01:45:17,910 --> 01:45:15,189
um all right so let's jump over to

2857
01:45:21,270 --> 01:45:17,920
chris from houston

2858
01:45:23,270 --> 01:45:21,280
chris are you there welcome to the show

2859
01:45:25,189 --> 01:45:23,280
hey martin hey thanks for uh having me

2860
01:45:27,030 --> 01:45:25,199
on i've called him three times now i

2861
01:45:29,430 --> 01:45:27,040
think and each time it's been a pleasure

2862
01:45:31,109 --> 01:45:29,440
so thank you for having me i had two

2863
01:45:33,270 --> 01:45:31,119

questions um

2864

01:45:36,070 --> 01:45:33,280

i just finished watching the skinwalker

2865

01:45:40,950 --> 01:45:36,080

ranch documentary by jeremy corbell

2866

01:45:43,430 --> 01:45:41,990

oh good

2867

01:45:46,470 --> 01:45:43,440

that's what i thought i was like i'll

2868

01:45:49,590 --> 01:45:46,480

roll with it thank you

2869

01:45:49,600 --> 01:45:53,669

all right uh

2870

01:45:58,870 --> 01:45:55,510

am i missing something here i didn't

2871

01:46:02,709 --> 01:45:58,880

quite catch that

2872

01:46:04,550 --> 01:46:02,719

martin can you hear me i can yes

2873

01:46:05,910 --> 01:46:04,560

okay i think we got the names mixed up

2874

01:46:06,790 --> 01:46:05,920

on the call but i can go ahead with my

2875

01:46:09,270 --> 01:46:06,800

question

2876

01:46:11,350 --> 01:46:09,280

all right what's your name

2877

01:46:13,830 --> 01:46:11,360

it's steve from grand rapids michigan oh

2878

01:46:15,590 --> 01:46:13,840

yes i did i did try you and uh i guess

2879

01:46:16,709 --> 01:46:15,600

you weren't uh connected at the time

2880

01:46:19,350 --> 01:46:16,719

steve uh

2881

01:46:21,270 --> 01:46:19,360

welcome to the show so anyway move uh we

2882

01:46:24,470 --> 01:46:21,280

can move right along here tell tell me

2883

01:46:26,310 --> 01:46:24,480

what it is that happened yeah yeah so i

2884

01:46:28,629 --> 01:46:26,320

i just uh finished watching the

2885

01:46:31,109 --> 01:46:28,639

skinwalker ranch documentary by jeremy

2886

01:46:33,109 --> 01:46:31,119

corbell and it was interesting

2887

01:46:35,189 --> 01:46:33,119

you know with the phd scientist guys

2888

01:46:37,189 --> 01:46:35,199

there for over 20 years they kept

2889

01:46:38,709 --> 01:46:37,199

talking about how the phenomenon they

2890

01:46:40,629 --> 01:46:38,719

were trying to capture

2891

01:46:42,950 --> 01:46:40,639

almost knew exactly where like camera

2892

01:46:44,790 --> 01:46:42,960

positions would be it would always pop

2893

01:46:46,470 --> 01:46:44,800

off just like right off of the camera

2894

01:46:48,229 --> 01:46:46,480

frame so you can never capture it and

2895

01:46:50,229 --> 01:46:48,239

you can never see it and it was

2896

01:46:52,629 --> 01:46:50,239

interesting they always said that it was

2897

01:46:54,310 --> 01:46:52,639

it did not want itself to be revealed so

2898

01:46:56,470 --> 01:46:54,320

you know i watched the new york times

2899

01:46:59,109 --> 01:46:56,480

come out with these these videos

2900

01:47:00,709 --> 01:46:59,119

from uh the feds and they're i think

2901

01:47:03,669 --> 01:47:00,719

they're amazing but clearly they're not

2902

01:47:05,430 --> 01:47:03,679

it's not that that golden image that can

2903

01:47:06,870 --> 01:47:05,440

convince the world you know of the

2904

01:47:09,109 --> 01:47:06,880

reality of the phenomenon and we've

2905

01:47:11,669 --> 01:47:09,119

never had an image like that so i wanted

2906

01:47:13,350 --> 01:47:11,679

you to maybe come and speculate on

2907

01:47:15,669 --> 01:47:13,360

you know if you ever will get a chance

2908

01:47:17,830 --> 01:47:15,679

to see that or if you

2909

01:47:19,910 --> 01:47:17,840

just i guess speculating against or

2910

01:47:21,350 --> 01:47:19,920

about like when they appear and when

2911

01:47:23,109 --> 01:47:21,360

they allow themselves to be viewed and

2912

01:47:25,030 --> 01:47:23,119

if we'll ever see the full extent and

2913

01:47:26,870 --> 01:47:25,040

last quick question martin is when i go

2914

01:47:29,830 --> 01:47:26,880

to youtube and you're looking for ufo

2915

01:47:31,910 --> 01:47:29,840

videos i swear the algorithms they don't

2916

01:47:33,750 --> 01:47:31,920

they give you news stories they don't i

2917

01:47:35,669 --> 01:47:33,760

know there's more videos and images out

2918

01:47:38,070 --> 01:47:35,679

there and i'm wondering if you have any

2919

01:47:39,910 --> 01:47:38,080

ideas or thoughts on other platforms or

2920

01:47:42,149 --> 01:47:39,920

easier ways to access

2921

01:47:43,750 --> 01:47:42,159

the massive amount of media that i know

2922

01:47:45,270 --> 01:47:43,760

is out there and just feel that it's

2923

01:47:46,229 --> 01:47:45,280

being suppressed thank you i appreciate

2924

01:47:48,310 --> 01:47:46,239

it

2925

01:47:50,070 --> 01:47:48,320

uh yeah thank you uh

2926

01:47:53,590 --> 01:47:50,080

you asked a number of questions there

2927

01:47:55,750 --> 01:47:53,600

but uh get as far as the youtube goes i

2928

01:47:58,229 --> 01:47:55,760

i'm i'm not you know there's some really

2929

01:48:00,550 --> 01:47:58,239

good channels out there i actually think

2930

01:48:02,390 --> 01:48:00,560

that chris leto is doing a very good job

2931

01:48:04,550 --> 01:48:02,400

but he's doing it mostly on

2932

01:48:05,510 --> 01:48:04,560

you know his experience and military

2933

01:48:07,910 --> 01:48:05,520

experience

2934

01:48:11,189 --> 01:48:07,920

john greenwald has a great you youtube

2935

01:48:14,790 --> 01:48:11,199

channel um the black vault um and there

2936

01:48:19,350 --> 01:48:14,800

are a number of them we have a

2937

01:48:21,270 --> 01:48:19,360

the ufo of the celebrity review uh louis

2938

01:48:24,070 --> 01:48:21,280

yemez um

2939

01:48:25,750 --> 01:48:24,080

a fun guy he is he's got a great show

2940

01:48:28,950 --> 01:48:25,760

he's trying to do some really good work

2941

01:48:31,430 --> 01:48:28,960

so yeah it's hard as far as searching

2942

01:48:32,790 --> 01:48:31,440

searching a word you know word search is

2943

01:48:34,709 --> 01:48:32,800

very difficult because you're going to

2944

01:48:36,790 --> 01:48:34,719

come across all kinds of

2945

01:48:37,990 --> 01:48:36,800

you know bogus things and things like

2946

01:48:40,390 --> 01:48:38,000

that

2947

01:48:42,550 --> 01:48:40,400

so it's tough you got to choose your

2948

01:48:45,590 --> 01:48:42,560

sources carefully when you're looking

2949

01:48:47,030 --> 01:48:45,600

into this topic so uh thank you uh thank

2950

01:48:48,950 --> 01:48:47,040

you for the call sorry i couldn't answer

2951

01:48:52,310 --> 01:48:48,960

it all i'm trying to get some people in

2952

01:48:54,470 --> 01:48:52,320

here and next is uh actually a friend a

2953

01:48:55,590 --> 01:48:54,480

friend of the show as well linda

2954

01:48:58,070 --> 01:48:55,600

zimmerman

2955

01:49:00,550 --> 01:48:58,080

linda welcome to the show

2956

01:49:02,470 --> 01:49:00,560

oh thank you martin how are you

2957

01:49:03,750 --> 01:49:02,480

great i'm so glad you called in how are

2958

01:49:13,830 --> 01:49:03,760

you

2959

01:49:16,950 --> 01:49:13,840

from a ufo yeah i have heard that with

2960

01:49:19,510 --> 01:49:16,960

several witnesses but the earliest case

2961

01:49:25,189 --> 01:49:19,520

i've been able to find was actually

2962

01:49:29,109 --> 01:49:27,669

fascinating case a medical student was

2963

01:49:32,390 --> 01:49:29,119

walking home

2964

01:49:34,870 --> 01:49:32,400

and a 40-foot glowing disc

2965

01:49:37,430 --> 01:49:34,880

uh descended to about a hundred foot

2966

01:49:39,750 --> 01:49:37,440

altitude he felt heat

2967

01:49:43,189 --> 01:49:39,760

and the pressure was so strong it

2968

01:49:45,750 --> 01:49:43,199

literally knocked him to his knees

2969

01:49:48,870 --> 01:49:45,760

and when it took off he was able to

2970

01:49:52,229 --> 01:49:48,880

stand up and he said the distinct odor

2971

01:49:53,030 --> 01:49:52,239

of sulfur was in the air

2972

01:49:55,189 --> 01:49:53,040

so

2973

01:49:56,709 --> 01:49:55,199

i thought you might be interested in

2974

01:49:58,550 --> 01:49:56,719

this case

2975

01:49:59,750 --> 01:49:58,560

definitely doesn't that's something i

2976

01:50:01,270 --> 01:49:59,760

never heard of

2977

01:50:03,669 --> 01:50:01,280

i don't know if i've ever heard of any

2978

01:50:07,189 --> 01:50:03,679

encounter ever that there was like a

2979

01:50:08,830 --> 01:50:07,199

sulfur smell that's pretty bizarre

2980

01:50:12,229 --> 01:50:08,840

very

2981

01:50:13,990 --> 01:50:12,239

rare yeah yeah and the pressure thing i

2982

01:50:15,589 --> 01:50:14,000

mean we can only speculate but it makes

2983

01:50:17,990 --> 01:50:15,599

me wonder

2984

01:50:20,629 --> 01:50:18,000

what was the effect on

2985

01:50:23,030 --> 01:50:20,639

other biological

2986

01:50:25,589 --> 01:50:23,040

things in the area like you know i mean

2987

01:50:28,070 --> 01:50:25,599

trees plants um

2988

01:50:30,790 --> 01:50:28,080

dogs uh you know was it

2989

01:50:33,109 --> 01:50:30,800

i i mean is there any accounting of that

2990

01:50:36,629 --> 01:50:33,119

i mean though i'm i'm sure when you're

2991

01:50:39,430 --> 01:50:36,639

going all the way back to that 1929

2992

01:50:41,430 --> 01:50:39,440

i think that's what you said uh

2993

01:50:43,589 --> 01:50:41,440

details are probably not in there like

2994

01:50:46,310 --> 01:50:43,599

that

2995

01:50:49,430 --> 01:50:46,320

not the and plus he was walking on uh

2996

01:50:50,790 --> 01:50:49,440

euclid street uh in oak park which

2997

01:50:53,910 --> 01:50:50,800

probably

2998

01:50:55,030 --> 01:50:53,920

was more urban i think

2999

01:50:57,510 --> 01:50:55,040

um

3000

01:50:59,910 --> 01:50:57,520

but yet there should have been trees but

3001
01:51:02,149 --> 01:50:59,920
he didn't he didn't say anything about

3002
01:51:04,229 --> 01:51:02,159
about that but uh

3003
01:51:06,950 --> 01:51:04,239
to me it sounds that there's there's

3004
01:51:09,030 --> 01:51:06,960
some sort of field this craft is

3005
01:51:10,470 --> 01:51:09,040
generating perhaps it has to do with

3006
01:51:11,510 --> 01:51:10,480
propulsion

3007
01:51:17,189 --> 01:51:11,520
or

3008
01:51:18,470 --> 01:51:17,199
front of the craft to to push someone to

3009
01:51:20,629 --> 01:51:18,480
the ground

3010
01:51:22,310 --> 01:51:20,639
that has to be

3011
01:51:24,149 --> 01:51:22,320
very strong

3012
01:51:26,550 --> 01:51:24,159
i would think so and it also makes me

3013
01:51:28,149 --> 01:51:26,560

wonder if there was a sound issue like a

3014

01:51:32,709 --> 01:51:28,159

lot of people say that

3015

01:51:38,550 --> 01:51:35,589

you know initially heard humming like

3016

01:51:42,790 --> 01:51:38,560

turbines he said

3017

01:51:45,270 --> 01:51:42,800

um didn't mention any any silence uh

3018

01:51:47,669 --> 01:51:45,280

after that but uh

3019

01:51:50,310 --> 01:51:47,679

you know between the pressure the heat

3020

01:51:51,910 --> 01:51:50,320

the sulfur smell this

3021

01:51:54,390 --> 01:51:51,920

this is um

3022

01:51:55,830 --> 01:51:54,400

this was a remarkable case

3023

01:51:57,510 --> 01:51:55,840

definitely

3024

01:51:59,109 --> 01:51:57,520

linda thank you so much for the call

3025

01:52:00,709 --> 01:51:59,119

it's always always great to talk to you

3026

01:52:03,270 --> 01:52:00,719

and always nice to see you when that

3027

01:52:04,070 --> 01:52:03,280

happens so thank you

3028

01:52:07,270 --> 01:52:04,080

yes

3029

01:52:09,030 --> 01:52:07,280

glad to uh share that so take care all

3030

01:52:11,910 --> 01:52:09,040

right you too bye-bye

3031

01:52:14,550 --> 01:52:11,920

bye now uh we have just one more call we

3032

01:52:17,189 --> 01:52:14,560

only got a few minutes uh chris uh

3033

01:52:19,750 --> 01:52:17,199

waiting patiently in houston texas chris

3034

01:52:22,149 --> 01:52:19,760

welcome to the show

3035

01:52:24,310 --> 01:52:22,159

hi hi martin hi hi bill

3036

01:52:26,310 --> 01:52:24,320

yeah thanks for thanks for being on hold

3037

01:52:28,950 --> 01:52:26,320

all that time sorry about that

3038

01:52:31,030 --> 01:52:28,960

no problem no phone um i'm i'm not

3039

01:52:34,629 --> 01:52:31,040

calling with a personal siding this time

3040

01:52:35,669 --> 01:52:34,639

um i'm calling to uh just mention a note

3041

01:52:37,910 --> 01:52:35,679

about the

3042

01:52:41,830 --> 01:52:37,920

uh the lights uh question that keeps

3043

01:52:46,149 --> 01:52:41,840

coming up why use um

3044

01:52:48,550 --> 01:52:46,159

uh navigation lights on a um aircraft so

3045

01:52:50,550 --> 01:52:48,560

if you if you're not there's nothing you

3046

01:52:53,830 --> 01:52:50,560

don't want people to see you well i

3047

01:52:56,470 --> 01:52:53,840

think you one thing that keeps every

3048

01:52:59,430 --> 01:52:56,480

time i hear this like this occurs to me

3049

01:53:00,950 --> 01:52:59,440

uh that it why do we use lights on our

3050

01:53:03,750 --> 01:53:00,960

aircraft

3051
01:53:05,830 --> 01:53:03,760
it's not for aliens to see us it's for

3052
01:53:07,589 --> 01:53:05,840
other humans to see us

3053
01:53:09,109 --> 01:53:07,599
it's for people on the ground to see us

3054
01:53:11,830 --> 01:53:09,119
and specifically for other people in the

3055
01:53:13,830 --> 01:53:11,840
air to see us so doesn't it make

3056
01:53:17,510 --> 01:53:13,840
perfectly good common sense

3057
01:53:21,189 --> 01:53:17,520
that if you are a biological organism

3058
01:53:23,510 --> 01:53:21,199
with optical visual systems that um

3059
01:53:25,350 --> 01:53:23,520
operate in

3060
01:53:26,470 --> 01:53:25,360
what we share which is the visible light

3061
01:53:29,990 --> 01:53:26,480
spectrum

3062
01:53:32,629 --> 01:53:30,000
that if you have other craft in the area

3063
01:53:35,430 --> 01:53:32,639

that you would be running lights

3064

01:53:37,030 --> 01:53:35,440

to afford not for anybody on the ground

3065

01:53:39,669 --> 01:53:37,040

not for any of the observers or

3066

01:53:41,750 --> 01:53:39,679

witnesses but for your other

3067

01:53:43,750 --> 01:53:41,760

team members who are also in the air

3068

01:53:45,430 --> 01:53:43,760

with you or on the ground

3069

01:53:47,669 --> 01:53:45,440

i mean it's a little bit it should be a

3070

01:53:48,470 --> 01:53:47,679

little bit of a you know scary thought

3071

01:53:51,189 --> 01:53:48,480

but

3072

01:53:53,109 --> 01:53:51,199

it does make sense doesn't it that if if

3073

01:53:54,470 --> 01:53:53,119

you're if you're

3074

01:53:55,669 --> 01:53:54,480

if you have aircraft

3075

01:53:57,510 --> 01:53:55,679

that are there

3076

01:53:59,910 --> 01:53:57,520

aircraft spacecraft

3077

01:54:01,270 --> 01:53:59,920

and you operate in a visual light

3078

01:54:03,430 --> 01:54:01,280

spectrum

3079

01:54:04,950 --> 01:54:03,440

then you it makes sense to put lights on

3080

01:54:06,870 --> 01:54:04,960

your aircraft whether you're human

3081

01:54:09,430 --> 01:54:06,880

non-human wherever you're from i mean

3082

01:54:11,830 --> 01:54:09,440

yeah and i'm afraid i'm afraid they'll

3083

01:54:13,750 --> 01:54:11,840

christmas and use lights

3084

01:54:16,310 --> 01:54:13,760

we're out of time chris i hate to say it

3085

01:54:18,470 --> 01:54:16,320

but um yeah that is it's quite hard you

3086

01:54:20,709 --> 01:54:18,480

know and it's also hard not to think in

3087

01:54:23,030 --> 01:54:20,719

human terms but you did just mention you

3088

01:54:24,229 --> 01:54:23,040

know maybe whoever they are

3089

01:54:27,030 --> 01:54:24,239

needs the same thing and that's a

3090

01:54:29,030 --> 01:54:27,040

possibility i i don't really know but i

3091

01:54:31,109 --> 01:54:29,040

i appreciate your your thoughts on that

3092

01:54:32,470 --> 01:54:31,119

that was uh that's very good thanks so

3093

01:54:34,550 --> 01:54:32,480

much creatures at the bottom of the

3094

01:54:36,390 --> 01:54:34,560

ocean use lights

3095

01:54:39,430 --> 01:54:36,400

for each other not for us good good

3096

01:54:41,030 --> 01:54:39,440

point all right take care thanks a lot

3097

01:54:42,629 --> 01:54:41,040

all right all right everyone so thank

3098

01:54:44,629 --> 01:54:42,639

you so much for hanging in with us

3099

01:54:46,229 --> 01:54:44,639

that's too bad we lost our guests but um

3100

01:54:48,070 --> 01:54:46,239

i do want to thank all the callers that

3101

01:54:50,229 --> 01:54:48,080

called in and helped us go through the

3102

01:54:52,310 --> 01:54:50,239

show i want to also thank bill for

3103

01:54:54,629 --> 01:54:52,320

helping out and next week

3104

01:54:56,629 --> 01:54:54,639

we just found out we have dr irena scott

3105

01:54:58,070 --> 01:54:56,639

should be a great show thanks so much

3106

01:55:00,600 --> 01:54:58,080

everyone and remember to keep your eyes

3107

01:55:09,910 --> 01:55:00,610

to the sky
