

MICAH HANKS

#502

1
00:00:52,630 --> 00:00:24,300

[Music]

2
00:00:56,790 --> 00:00:54,310
hello and welcome to the show i'm martin

3
00:00:58,470 --> 00:00:56,800
willis your host and i'm on the road as

4
00:01:00,869 --> 00:00:58,480
you can see behind me

5
00:01:02,310 --> 00:01:00,879
and down in florida and

6
00:01:03,510 --> 00:01:02,320
uh with my son having a nice little

7
00:01:06,230 --> 00:01:03,520
vacation

8
00:01:08,390 --> 00:01:06,240
and the uh guest micah hanks he's

9
00:01:09,109 --> 00:01:08,400
probably 10 times more tech savvy than

10
00:01:11,270 --> 00:01:09,119
me

11
00:01:13,670 --> 00:01:11,280
but he hasn't been able to get on stream

12
00:01:16,630 --> 00:01:13,680
yard where i have message every which

13
00:01:19,429 --> 00:01:16,640

way messages every which way to him to

14

00:01:21,670 --> 00:01:19,439

uh call in our phone line and uh

15

00:01:23,590 --> 00:01:21,680

hopefully he'll catch that message

16

00:01:25,749 --> 00:01:23,600

uh through email and we've been trying

17

00:01:27,749 --> 00:01:25,759

every which way but but for now i just

18

00:01:29,990 --> 00:01:27,759

thought i'd show you because uh this has

19

00:01:32,149 --> 00:01:30,000

nothing to do with ufos but

20

00:01:34,789 --> 00:01:32,159

who doesn't like

21

00:01:37,990 --> 00:01:34,799

manatees

22

00:01:43,510 --> 00:01:41,429

and uh this is a a cow a minute cow down

23

00:01:46,550 --> 00:01:43,520

in florida in the warm springs they're

24

00:01:47,670 --> 00:01:46,560

such gentle beautiful beings

25

00:01:49,990 --> 00:01:47,680

and

26

00:01:52,069 --> 00:01:50,000

uh their skin feels like an elephant

27

00:01:53,510 --> 00:01:52,079

looks like elephant too but check this

28

00:01:55,670 --> 00:01:53,520

out right here if you're watching live

29

00:01:57,109 --> 00:01:55,680

here look at the little baby calf or the

30

00:01:58,870 --> 00:01:57,119

calf i should just say

31

00:02:00,950 --> 00:01:58,880

coming up to mummy and then getting a

32

00:02:03,190 --> 00:02:00,960

little breath of fresh air

33

00:02:04,469 --> 00:02:03,200

now isn't that sweet doesn't that make

34

00:02:08,150 --> 00:02:04,479

all your

35

00:02:11,510 --> 00:02:08,160

your anxiety go away and everything

36

00:02:13,430 --> 00:02:11,520

uh anyway uh got to swim with them and

37

00:02:15,750 --> 00:02:13,440

uh so that was a lot of fun

38

00:02:18,630 --> 00:02:15,760

and i'm gonna we're gonna hope that

39

00:02:20,869 --> 00:02:18,640

micah comes in but uh for now i just

40

00:02:23,589 --> 00:02:20,879

just a couple of announcements uh we

41

00:02:25,430 --> 00:02:23,599

have a new blog as always

42

00:02:27,589 --> 00:02:25,440

and uh let me just pull that up it's

43

00:02:30,390 --> 00:02:27,599

called a ufo abduction

44

00:02:31,350 --> 00:02:30,400

and sergio pontois

45

00:02:33,589 --> 00:02:31,360

uh

46

00:02:36,869 --> 00:02:33,599

that was my attempt

47

00:02:38,070 --> 00:02:36,879

at french uh thanks to a friend sent me

48

00:02:40,630 --> 00:02:38,080

some phonic

49

00:02:42,229 --> 00:02:40,640

uh translation of that uh so just a

50

00:02:43,670 --> 00:02:42,239

couple of things i do want to thank

51
00:02:45,830 --> 00:02:43,680
everyone that listens to the show

52
00:02:47,430 --> 00:02:45,840
everyone that helps out anyone can do

53
00:02:50,070 --> 00:02:47,440
that all you have to do is go over to

54
00:02:51,830 --> 00:02:50,080
podcastufo.com

55
00:02:53,110 --> 00:02:51,840
you'll see our patreon page there to

56
00:02:55,509 --> 00:02:53,120
support the show

57
00:02:57,910 --> 00:02:55,519
and again our all our blogs are over

58
00:03:01,190 --> 00:02:57,920
there on that page we do have an archive

59
00:03:04,309 --> 00:03:01,200
of many many of our 500

60
00:03:06,149 --> 00:03:04,319
audio podcasts so that you can access a

61
00:03:08,630 --> 00:03:06,159
lot of them through that

62
00:03:12,070 --> 00:03:08,640
website also

63
00:03:13,589 --> 00:03:12,080

just another announcement uh may 3rd

64

00:03:16,949 --> 00:03:13,599

check your calendar because we're going

65

00:03:19,270 --> 00:03:16,959

to be at james fox at his new home over

66

00:03:21,910 --> 00:03:19,280

in vermont and we're going to be filming

67

00:03:23,430 --> 00:03:21,920

a show live on site that should be a lot

68

00:03:25,030 --> 00:03:23,440

of fun may 3rd

69

00:03:27,030 --> 00:03:25,040

should be a great show

70

00:03:28,869 --> 00:03:27,040

and uh bill i think i'm going to call

71

00:03:29,910 --> 00:03:28,879

you in and we're just going to hope that

72

00:03:35,670 --> 00:03:29,920

uh

73

00:03:38,229 --> 00:03:35,680

i'm don't you agree he's like a super

74

00:03:40,789 --> 00:03:38,239

tech savvy guy he is he's like super

75

00:03:44,390 --> 00:03:40,799

geeky he's a brilliant individual he is

76

00:03:46,390 --> 00:03:44,400

a very person i know and uh

77

00:03:47,750 --> 00:03:46,400

did you say something on a bunker he's

78

00:03:49,670 --> 00:03:47,760

in a bunker

79

00:03:52,309 --> 00:03:49,680

that was a joke right no no that's what

80

00:03:54,869 --> 00:03:52,319

his show uh live from the bunker oh i

81

00:03:56,229 --> 00:03:54,879

see i see so maybe that's the problem i

82

00:03:58,949 --> 00:03:56,239

don't know if he's literally in the bug

83

00:04:01,589 --> 00:03:58,959

but he does his own show so we this is a

84

00:04:03,750 --> 00:04:01,599

total mystery uh why he's not able he

85

00:04:04,869 --> 00:04:03,760

does a lot of stream yard shows which i

86

00:04:07,350 --> 00:04:04,879

am using

87

00:04:09,750 --> 00:04:07,360

so uh i'm not really sure uh what what

88

00:04:11,670 --> 00:04:09,760

is going on with that but uh hopefully

89

00:04:13,270 --> 00:04:11,680

we'll you you've got your eyes right

90

00:04:14,710 --> 00:04:13,280

there on the telephone right you should

91

00:04:16,870 --> 00:04:14,720

be able to get those

92

00:04:19,110 --> 00:04:16,880

and on skype since i sent him a message

93

00:04:21,110 --> 00:04:19,120

hopefully he'll see that on his skype

94

00:04:23,430 --> 00:04:21,120

yeah so yeah

95

00:04:25,350 --> 00:04:23,440

so uh what i what are we gonna talk

96

00:04:28,790 --> 00:04:25,360

about we got some time to film

97

00:04:30,790 --> 00:04:28,800

how how about uh ufos you know i have

98

00:04:32,629 --> 00:04:30,800

someone wrote me recently and you know

99

00:04:34,150 --> 00:04:32,639

they kind of a lot of people miss

100

00:04:35,830 --> 00:04:34,160

the first part of the show that i used

101

00:04:37,670 --> 00:04:35,840

to do with alejandro

102

00:04:40,230 --> 00:04:37,680

you know we'd always cover the latest

103

00:04:41,590 --> 00:04:40,240

breaking news and uh me being on

104

00:04:42,950 --> 00:04:41,600

vacation i haven't really been paying

105

00:04:44,950 --> 00:04:42,960

attention to be honest with you so i

106

00:04:46,950 --> 00:04:44,960

have no idea what's going on and it's

107

00:04:47,670 --> 00:04:46,960

not your job to pay attention but have

108

00:04:49,670 --> 00:04:47,680

you

109

00:04:53,030 --> 00:04:49,680

actually my focus has been on getting

110

00:04:54,790 --> 00:04:53,040

ready for prime push in a few weeks

111

00:04:56,469 --> 00:04:54,800

oh kind bush yes that's another thing

112

00:04:59,430 --> 00:04:56,479

well let's talk about that that's coming

113

00:05:02,390 --> 00:04:59,440

up june 3rd yeah you'll be there

114

00:05:03,749 --> 00:05:02,400

i'll be there yes june 3rd and who's

115

00:05:06,310 --> 00:05:03,759

going to be there for speakers we've got

116

00:05:08,469 --> 00:05:06,320

lee Spiegel again yep he's the keynote

117

00:05:13,749 --> 00:05:08,479

uh bob sparing the international

118

00:05:18,710 --> 00:05:16,629

is that from new york new york state

119

00:05:19,909 --> 00:05:18,720

what's that where is he from

120

00:05:22,230 --> 00:05:19,919

where's bob

121

00:05:25,430 --> 00:05:22,240

i think bob's coming from pennsylvania i

122

00:05:28,230 --> 00:05:25,440

see huh then show la costa uh who does

123

00:05:29,270 --> 00:05:28,240

all the data research oh yeah sightings

124

00:05:33,029 --> 00:05:29,280

cases

125

00:05:34,710 --> 00:05:33,039

yeah uh well done i mean in depth

126

00:05:36,550 --> 00:05:34,720

when she does her books she's going to

127

00:05:38,469 --> 00:05:36,560

be speaking as well she's traveling from

128

00:05:40,310 --> 00:05:38,479

i think ohio she used to live in new

129

00:05:43,430 --> 00:05:40,320

york and i believe she would now move to

130

00:05:46,790 --> 00:05:43,440

ohio yeah and we got katie grobowski at

131

00:05:48,950 --> 00:05:46,800

the state director for colorado mufon

132

00:05:50,230 --> 00:05:48,960

and of course our good friend mark

133

00:05:53,110 --> 00:05:50,240

d'antonio

134

00:05:55,350 --> 00:05:53,120

oh mark's gonna be there again again

135

00:05:57,430 --> 00:05:55,360

mark yeah but he does a great job martin

136

00:06:00,150 --> 00:05:57,440

he does i know he does

137

00:06:02,070 --> 00:06:00,160

oh i love mark he's he's awesome uh he

138

00:06:05,749 --> 00:06:02,080

came up in a conversation today between

139

00:06:08,070 --> 00:06:05,759

my son and i we're we we did a astronomy

140

00:06:09,029 --> 00:06:08,080

trivia my son took astronomy in in

141

00:06:11,430 --> 00:06:09,039

college

142

00:06:14,070 --> 00:06:11,440

and uh his professor always german

143

00:06:16,070 --> 00:06:14,080

professor always started the classes

144

00:06:18,309 --> 00:06:16,080

with the moody blues song i can't

145

00:06:20,629 --> 00:06:18,319

remember exactly how he said it but um

146

00:06:21,909 --> 00:06:20,639

he remembered that and that so my sons

147

00:06:23,350 --> 00:06:21,919

listened to a little bit of moody blues

148

00:06:26,950 --> 00:06:23,360

along the way because of that but he

149

00:06:29,749 --> 00:06:26,960

aced the class so we did astronomy uh

150

00:06:31,990 --> 00:06:29,759

trivia between him and i and uh

151
00:06:33,350 --> 00:06:32,000
i didn't exactly win i'll just put it

152
00:06:34,469 --> 00:06:33,360
that way

153
00:06:36,950 --> 00:06:34,479
well i did

154
00:06:39,510 --> 00:06:36,960
i've been looking at some equipment and

155
00:06:42,230 --> 00:06:39,520
you know i do sky watches yes

156
00:06:45,270 --> 00:06:42,240
i have the sony a7s iii which is a great

157
00:06:46,950 --> 00:06:45,280
camera martin very expensive yes yeah

158
00:06:49,589 --> 00:06:46,960
well not as expensive but what i'm about

159
00:06:52,230 --> 00:06:49,599
to tell you i've been looking i know

160
00:06:54,790 --> 00:06:52,240
someone who's uh a dealer for certain

161
00:06:56,070 --> 00:06:54,800
equipment that they have for ships for

162
00:07:00,150 --> 00:06:56,080
yachts

163
00:07:03,270 --> 00:07:00,160

oh wow and they have a device it's a

164

00:07:04,790 --> 00:07:03,280

flear camera for the vessels

165

00:07:07,110 --> 00:07:04,800

isn't that i thought those were used

166

00:07:08,550 --> 00:07:07,120

just on those are used

167

00:07:09,510 --> 00:07:08,560

you can use one

168

00:07:14,870 --> 00:07:09,520

on

169

00:07:17,189 --> 00:07:14,880

actually sell them for people with

170

00:07:19,589 --> 00:07:17,199

vessels with private yachts

171

00:07:21,430 --> 00:07:19,599

but the price is range you're ready for

172

00:07:23,749 --> 00:07:21,440

this anywhere from

173

00:07:26,150 --> 00:07:23,759

say 4 000

174

00:07:29,510 --> 00:07:26,160

to 109 000.

175

00:07:33,670 --> 00:07:31,430

so what it is it's got an encasement

176

00:07:36,070 --> 00:07:33,680

obviously it's made for outdoors

177

00:07:38,469 --> 00:07:36,080

um i would have to get a converter to

178

00:07:41,270 --> 00:07:38,479

convert the power run a cable on the top

179

00:07:43,749 --> 00:07:41,280

of my house it would be a fixed mount

180

00:07:45,990 --> 00:07:43,759

they have um and i can control it with a

181

00:07:47,270 --> 00:07:46,000

joystick inside the house

182

00:07:49,350 --> 00:07:47,280

but

183

00:07:51,749 --> 00:07:49,360

the one option of the camera is it's

184

00:07:54,390 --> 00:07:51,759

fixed

185

00:07:55,909 --> 00:07:54,400

there's another option where it can move

186

00:07:57,510 --> 00:07:55,919

pretty much anywhere you wanted you're

187

00:07:59,510 --> 00:07:57,520

going to have to have one so you can

188

00:08:01,350 --> 00:07:59,520

move it right i mean i would i would

189

00:08:02,390 --> 00:08:01,360

just put

190

00:08:04,390 --> 00:08:02,400

yeah you know

191

00:08:06,950 --> 00:08:04,400

big dollars oh is this something

192

00:08:08,790 --> 00:08:06,960

is this hot merchandise or is it legal

193

00:08:10,950 --> 00:08:08,800

no it's legal it's like i said it's made

194

00:08:13,270 --> 00:08:10,960

for vessels i know i'm just teasing you

195

00:08:16,150 --> 00:08:13,280

man just but it would be a heck of a

196

00:08:18,150 --> 00:08:16,160

thing to have here in the hudson valley

197

00:08:19,909 --> 00:08:18,160

for observation of

198

00:08:22,070 --> 00:08:19,919

aerial phenomenon

199

00:08:23,589 --> 00:08:22,080

yeah you had something you

200

00:08:25,430 --> 00:08:23,599

fly over the house i remember you were

201
00:08:26,469 --> 00:08:25,440
doing a skywatch and something was

202
00:08:28,629 --> 00:08:26,479
pretty weird

203
00:08:29,830 --> 00:08:28,639
what was the uh what did it do did it

204
00:08:30,790 --> 00:08:29,840
like turn

205
00:08:32,630 --> 00:08:30,800
like

206
00:08:34,389 --> 00:08:32,640
it was going through the streamline you

207
00:08:36,149 --> 00:08:34,399
don't have to try to get it

208
00:08:38,310 --> 00:08:36,159
okay but you know

209
00:08:40,630 --> 00:08:38,320
the camera was pointed straight up but

210
00:08:43,670 --> 00:08:40,640
this was an older camera system this is

211
00:08:46,230 --> 00:08:43,680
when i first started in 2013

212
00:08:49,430 --> 00:08:46,240
i took uh samsung

213
00:08:51,910 --> 00:08:49,440

what was scb2000 it's a surveillance cam

214

00:08:53,990 --> 00:08:51,920

a cc tv camera

215

00:08:55,990 --> 00:08:54,000

and then i took the ir filter out of it

216

00:08:56,870 --> 00:08:56,000

to make it more like a night vision a

217

00:08:59,829 --> 00:08:56,880

more

218

00:09:01,509 --> 00:08:59,839

uh higher resolution for light

219

00:09:03,190 --> 00:09:01,519

at night

220

00:09:06,310 --> 00:09:03,200

so it was a cloudy night

221

00:09:08,310 --> 00:09:06,320

but there was uh breaks in the clouds

222

00:09:10,230 --> 00:09:08,320

and i captured something now it's

223

00:09:11,670 --> 00:09:10,240

curving it i'm going to just go to do it

224

00:09:12,790 --> 00:09:11,680

like this but remember the camera is

225

00:09:13,829 --> 00:09:12,800

looking straight up so it will be

226

00:09:17,430 --> 00:09:13,839

curving

227

00:09:18,389 --> 00:09:17,440

like in the sky above but it came down

228

00:09:20,150 --> 00:09:18,399

went up

229

00:09:22,870 --> 00:09:20,160

stopped for a split second

230

00:09:25,190 --> 00:09:22,880

had three points that were illuminated

231

00:09:26,870 --> 00:09:25,200

two smaller in the back one larger one

232

00:09:29,430 --> 00:09:26,880

in the front so it kind of formed the

233

00:09:30,550 --> 00:09:29,440

triangle and then it went

234

00:09:31,910 --> 00:09:30,560

gone

235

00:09:34,389 --> 00:09:31,920

wow

236

00:09:36,870 --> 00:09:34,399

now i've heard many different theories

237

00:09:38,550 --> 00:09:36,880

from people that i respect

238

00:09:40,870 --> 00:09:38,560

but i just don't know what that was

239

00:09:42,389 --> 00:09:40,880

martin and yeah like all right well you

240

00:09:44,470 --> 00:09:42,399

just said who you respect so i'm

241

00:09:46,949 --> 00:09:44,480

guessing you showed it to

242

00:09:48,470 --> 00:09:46,959

mark d'antonio and what did mark what

243

00:09:51,350 --> 00:09:48,480

did mark have because mark usually has

244

00:09:52,710 --> 00:09:51,360

an explanation for any bizarre looking

245

00:09:54,310 --> 00:09:52,720

thing that's out there

246

00:09:55,670 --> 00:09:54,320

his explanation

247

00:09:57,350 --> 00:09:55,680

it could have been

248

00:10:00,949 --> 00:09:57,360

something that was coming into our

249

00:10:02,310 --> 00:10:00,959

atmosphere and deflected back it skipped

250

00:10:04,550 --> 00:10:02,320

the atmosphere in other words and went

251
00:10:06,790 --> 00:10:04,560
back out but martin

252
00:10:10,069 --> 00:10:06,800
this thing curved

253
00:10:12,389 --> 00:10:10,079
it did not go any linear direction it

254
00:10:15,670 --> 00:10:12,399
curved

255
00:10:17,990 --> 00:10:15,680
and it stopped for a second

256
00:10:20,069 --> 00:10:18,000
and it had three points of light and

257
00:10:21,829 --> 00:10:20,079
which i say that carefully because i

258
00:10:23,110 --> 00:10:21,839
believe it's propulsion if it's

259
00:10:25,030 --> 00:10:23,120
artificial

260
00:10:26,150 --> 00:10:25,040
you know in nature not

261
00:10:26,870 --> 00:10:26,160
natural

262
00:10:28,790 --> 00:10:26,880
so

263
00:10:30,470 --> 00:10:28,800

that's my guess

264

00:10:31,670 --> 00:10:30,480

now i can pull it up people can reach

265

00:10:32,949 --> 00:10:31,680

their own conclusions but they got to

266

00:10:35,910 --> 00:10:32,959

remember

267

00:10:37,670 --> 00:10:35,920

this was taken on

268

00:10:39,350 --> 00:10:37,680

one of these old

269

00:10:59,350 --> 00:10:39,360

s

270

00:11:00,630 --> 00:10:59,360

um

271

00:11:02,310 --> 00:11:00,640

because that's the only way we're gonna

272

00:11:03,750 --> 00:11:02,320

see the features

273

00:11:06,630 --> 00:11:03,760

it can be anything it could be a

274

00:11:07,990 --> 00:11:06,640

military craft it could be a drone

275

00:11:11,509 --> 00:11:08,000

i don't know

276

00:11:13,030 --> 00:11:11,519

and

277

00:11:14,630 --> 00:11:13,040

i just can't come up with some type of

278

00:11:16,069 --> 00:11:14,640

an answer to tell me

279

00:11:17,350 --> 00:11:16,079

otherwise

280

00:11:19,269 --> 00:11:17,360

and would you believe it i don't know

281

00:11:20,790 --> 00:11:19,279

what's been going on lately i don't know

282

00:11:22,230 --> 00:11:20,800

if this has anything to do with anything

283

00:11:24,470 --> 00:11:22,240

that's going on

284

00:11:27,110 --> 00:11:24,480

but um i've been having some serious

285

00:11:30,870 --> 00:11:27,120

issues with connecting to websites have

286

00:11:32,630 --> 00:11:30,880

you or any kind of um

287

00:11:34,470 --> 00:11:32,640

browser issues going on because it's

288

00:11:36,630 --> 00:11:34,480

been happening to me

289

00:11:38,550 --> 00:11:36,640

no uh are you talking about like right

290

00:11:39,750 --> 00:11:38,560

now are you talking about in general

291

00:11:41,430 --> 00:11:39,760

like right now i'm trying to go to my

292

00:11:43,829 --> 00:11:41,440

youtube page

293

00:11:45,990 --> 00:11:43,839

and it's giving me a hard time and you

294

00:11:47,750 --> 00:11:46,000

know me i have a great system here but i

295

00:11:49,670 --> 00:11:47,760

think i managed to get through so let me

296

00:11:51,670 --> 00:11:49,680

see if i can pull this video up

297

00:11:53,829 --> 00:11:51,680

and i know in the meanwhile since we're

298

00:11:57,829 --> 00:11:53,839

uh yeah yeah hopefully in the meanwhile

299

00:11:59,670 --> 00:11:57,839

i'm going to let's see uh let me share

300

00:12:01,509 --> 00:11:59,680

let me share another

301
00:12:04,389 --> 00:12:01,519
another i found mine

302
00:12:06,069 --> 00:12:04,399
yeah oops i gotta make sure that's oh we

303
00:12:08,310 --> 00:12:06,079
someone is saying that they're going to

304
00:12:10,470 --> 00:12:08,320
call micah so

305
00:12:11,750 --> 00:12:10,480
that would be nice if you can please do

306
00:12:14,150 --> 00:12:11,760
yep all right

307
00:12:16,629 --> 00:12:14,160
i've got my screen ready to share so i'm

308
00:12:18,230 --> 00:12:16,639
going to share you can get permission

309
00:12:19,590 --> 00:12:18,240
once all right i'm waiting waiting to

310
00:12:21,509 --> 00:12:19,600
hear that

311
00:12:25,910 --> 00:12:21,519
all right

312
00:12:27,910 --> 00:12:25,920
now folks this is looped zoomed in

313
00:12:28,870 --> 00:12:27,920

um it's looped

314

00:12:32,710 --> 00:12:28,880

all right

315

00:12:35,910 --> 00:12:33,670

that

316

00:12:37,509 --> 00:12:35,920

so it's curving blinking yeah yeah

317

00:12:39,750 --> 00:12:37,519

curving down curving back up look for

318

00:12:41,910 --> 00:12:39,760

the curve here see how that curve yeah

319

00:12:44,310 --> 00:12:41,920

right there and then i'll try to freeze

320

00:12:46,389 --> 00:12:44,320

it it's really hard

321

00:12:48,389 --> 00:12:46,399

it's hard to get that

322

00:12:50,389 --> 00:12:48,399

now did you see this with your

323

00:12:53,910 --> 00:12:50,399

did you see this with your naked eye or

324

00:12:55,269 --> 00:12:53,920

no just yeah so that's it

325

00:12:56,470 --> 00:12:55,279

yeah i don't know what the heck that is

326

00:12:58,550 --> 00:12:56,480

mine

327

00:13:01,190 --> 00:12:58,560

well someone suggested it was swamp gas

328

00:13:03,910 --> 00:13:01,200

but i i i don't think i don't think so

329

00:13:07,030 --> 00:13:03,920

but yeah but yeah that's what i captured

330

00:13:09,829 --> 00:13:07,040

in 2014 in the hudson valley

331

00:13:11,030 --> 00:13:09,839

and the hudson valley for those of

332

00:13:12,470 --> 00:13:11,040

you that

333

00:13:14,710 --> 00:13:12,480

uh listeners that

334

00:13:16,710 --> 00:13:14,720

don't know there's so many things or

335

00:13:18,550 --> 00:13:16,720

have purportedly

336

00:13:20,629 --> 00:13:18,560

been going on there for

337

00:13:24,310 --> 00:13:20,639

how long back

338

00:13:27,030 --> 00:13:24,320

decades i was talking to lou alizando

339

00:13:28,310 --> 00:13:27,040

and i told him i showed him this clip

340

00:13:29,910 --> 00:13:28,320

and he said i said it's been going off

341

00:13:31,670 --> 00:13:29,920

the day he goes bill it's been going on

342

00:13:34,389 --> 00:13:31,680

for longer than that

343

00:13:35,670 --> 00:13:34,399

has he actually looked into that area i

344

00:13:36,949 --> 00:13:35,680

don't know i didn't ask him that

345

00:13:38,710 --> 00:13:36,959

question but

346

00:13:40,710 --> 00:13:38,720

martin there's people that see stuff up

347

00:13:42,629 --> 00:13:40,720

here all the time

348

00:13:44,150 --> 00:13:42,639

and that's what put pine bush on the map

349

00:13:45,430 --> 00:13:44,160

because of all the supposed sightings

350

00:13:46,949 --> 00:13:45,440

that people experiences that what they

351

00:13:48,710 --> 00:13:46,959

were having there

352

00:13:50,230 --> 00:13:48,720

and i'm not just that i mean there's so

353

00:13:51,269 --> 00:13:50,240

many other things going on there too

354

00:13:53,110 --> 00:13:51,279

which is

355

00:13:53,910 --> 00:13:53,120

really really strange

356

00:13:55,670 --> 00:13:53,920

yes

357

00:13:57,350 --> 00:13:55,680

you know so if you remember but when i

358

00:13:59,590 --> 00:13:57,360

was out there last year

359

00:14:02,310 --> 00:13:59,600

i had uh a friend

360

00:14:04,150 --> 00:14:02,320

that i had remembered had stayed in in

361

00:14:05,350 --> 00:14:04,160

that area during when all those things

362

00:14:07,509 --> 00:14:05,360

were happening

363

00:14:09,110 --> 00:14:07,519

uh when when there was uh i guess you

364

00:14:11,430 --> 00:14:09,120

would call it a flap

365

00:14:13,990 --> 00:14:11,440

and uh so i called

366

00:14:15,829 --> 00:14:14,000

and she basically said that

367

00:14:18,790 --> 00:14:15,839

there was do you remember the story

368

00:14:20,629 --> 00:14:18,800

there was like a being in the uh

369

00:14:22,470 --> 00:14:20,639

in the woods and everybody was seeing

370

00:14:24,470 --> 00:14:22,480

this thing when she was she wasn't

371

00:14:26,949 --> 00:14:24,480

expecting to see anything

372

00:14:28,230 --> 00:14:26,959

and it whatever it was

373

00:14:30,790 --> 00:14:28,240

uh

374

00:14:33,430 --> 00:14:30,800

she thought she's she described it as it

375

00:14:34,389 --> 00:14:33,440

looked like it was uh gray

376

00:14:36,870 --> 00:14:34,399

you know

377

00:14:39,030 --> 00:14:36,880

um and all these people the cameras and

378

00:14:40,550 --> 00:14:39,040

every there they were there to film like

379

00:14:41,910 --> 00:14:40,560

a possible sighting

380

00:14:43,189 --> 00:14:41,920

and she just happened to look over and

381

00:14:44,389 --> 00:14:43,199

there was some type of being now it

382

00:14:46,230 --> 00:14:44,399

could have been someone

383

00:14:48,230 --> 00:14:46,240

in my opinion this is just my opinion it

384

00:14:49,910 --> 00:14:48,240

could have been someone playing a game

385

00:14:51,990 --> 00:14:49,920

on them too you know that could have

386

00:14:53,110 --> 00:14:52,000

been something like that

387

00:14:56,150 --> 00:14:53,120

um

388

00:14:59,030 --> 00:14:56,160

in some type of uh i don't know

389

00:15:18,870 --> 00:14:59,040

alien costume i don't know i don't know

390

00:15:23,750 --> 00:15:20,629

oh i've got a lot of film of them like

391

00:15:25,910 --> 00:15:23,760

munching along the bottom

392

00:15:28,310 --> 00:15:25,920

obviously snorkeling yes you can't dive

393

00:15:30,389 --> 00:15:28,320

around them you have to snorkel yeah so

394

00:15:32,310 --> 00:15:30,399

but um they when they're eating i'm

395

00:15:34,069 --> 00:15:32,320

telling you it's all business but when

396

00:15:35,430 --> 00:15:34,079

they're not eating like these were

397

00:15:37,590 --> 00:15:35,440

they'll come right up to you nose to

398

00:15:40,230 --> 00:15:37,600

nose and they're a lot of fun a lot of

399

00:15:42,230 --> 00:15:40,240

fun to play with now i've spoken to a

400

00:15:44,470 --> 00:15:42,240

lieutenant here

401
00:15:46,310 --> 00:15:44,480
yeah for the town of police

402
00:15:49,189 --> 00:15:46,320
and of course

403
00:15:51,110 --> 00:15:49,199
the famous line off the record

404
00:15:53,509 --> 00:15:51,120
because i asked this does not sound like

405
00:15:56,710 --> 00:15:53,519
a manatee story to me but no you're

406
00:15:57,509 --> 00:15:56,720
guessing yeah okay it's ufo but

407
00:16:21,590 --> 00:15:57,519
i

408
00:16:22,550 --> 00:16:21,600
stuff well he sees he actually told me

409
00:16:28,470 --> 00:16:22,560
one

410
00:16:32,470 --> 00:16:29,749
wow

411
00:16:33,910 --> 00:16:32,480
now this is a true story i was in sears

412
00:16:37,509 --> 00:16:33,920
getting my car

413
00:16:39,509 --> 00:16:37,519

an oil change right here where i live

414

00:16:40,470 --> 00:16:39,519

and there was a guy that was sitting

415

00:16:42,389 --> 00:16:40,480

there

416

00:16:44,150 --> 00:16:42,399

waiting for his vehicle

417

00:16:45,269 --> 00:16:44,160

and i had you know a paranormal looking

418

00:16:47,030 --> 00:16:45,279

shirt on

419

00:16:48,230 --> 00:16:47,040

and he goes are you interested in that

420

00:16:51,030 --> 00:16:48,240

stuff and then i ran into the whole

421

00:16:52,069 --> 00:16:51,040

thing about you know kj and all that

422

00:16:54,069 --> 00:16:52,079

and

423

00:16:55,670 --> 00:16:54,079

he goes i have a story for you i was

424

00:16:58,069 --> 00:16:55,680

like really and i can get him on your

425

00:17:00,870 --> 00:16:58,079

show martin um

426

00:17:03,670 --> 00:17:00,880

if you want but he doesn't do video

427

00:17:04,789 --> 00:17:03,680

he's a retired new york state

428

00:17:07,909 --> 00:17:04,799

parks

429

00:17:10,309 --> 00:17:07,919

department police officer

430

00:17:12,069 --> 00:17:10,319

and this happened in the 80s

431

00:17:15,110 --> 00:17:12,079

he was on duty

432

00:17:16,470 --> 00:17:15,120

he was on the taconic parkway

433

00:17:18,630 --> 00:17:16,480

and

434

00:17:20,870 --> 00:17:18,640

he pulled over to the side because he

435

00:17:23,270 --> 00:17:20,880

noticed a light above him

436

00:17:24,949 --> 00:17:23,280

he said it was the size of a stadium

437

00:17:25,990 --> 00:17:24,959

martin

438

00:17:28,150 --> 00:17:26,000

and

439

00:17:29,990 --> 00:17:28,160

oh he was in awe he was outside the

440

00:17:33,669 --> 00:17:30,000

vehicle looking up at this thing and

441

00:17:35,190 --> 00:17:33,679

then he heard the chatter on the radio

442

00:17:36,789 --> 00:17:35,200

come this thing

443

00:17:39,430 --> 00:17:36,799

they were coming from the north there

444

00:17:40,710 --> 00:17:39,440

was a police officer's uh

445

00:17:42,950 --> 00:17:40,720

patrol cars

446

00:17:44,630 --> 00:17:42,960

racing down the taconic from the north

447

00:17:47,110 --> 00:17:44,640

coming to autumn

448

00:17:49,750 --> 00:17:47,120

chasing this thing

449

00:17:51,510 --> 00:17:49,760

then it it went boom gone it was heading

450

00:17:53,510 --> 00:17:51,520

south and they continued to chase it

451

00:17:54,789 --> 00:17:53,520

just like out of the movie it's like out

452

00:17:56,870 --> 00:17:54,799

of almost like close to countries where

453

00:17:59,430 --> 00:17:56,880

they're chasing the thing

454

00:18:01,110 --> 00:17:59,440

and he never reported he never reported

455

00:18:02,630 --> 00:18:01,120

it because they're afraid of being

456

00:18:04,870 --> 00:18:02,640

ridiculed

457

00:18:07,430 --> 00:18:04,880

put in for psyche vows

458

00:18:09,750 --> 00:18:07,440

yeah this is what happens

459

00:18:11,750 --> 00:18:09,760

um or happened i don't think it's gonna

460

00:18:13,909 --> 00:18:11,760

i don't think we're gonna see it as much

461

00:18:16,470 --> 00:18:13,919

i hope not yeah i mean i think the

462

00:18:17,350 --> 00:18:16,480

stigma is kind of softening

463

00:18:20,230 --> 00:18:17,360

you know

464

00:18:22,070 --> 00:18:20,240

i mean it obviously is but how much will

465

00:18:24,630 --> 00:18:22,080

it you know i mean because there's only

466

00:18:27,190 --> 00:18:24,640

a certain percentage of people out there

467

00:18:28,950 --> 00:18:27,200

that even pay attention to this topic

468

00:18:30,630 --> 00:18:28,960

when it comes up on the news or anything

469

00:18:32,870 --> 00:18:30,640

there you know other

470

00:18:35,750 --> 00:18:32,880

most people are just you know think it's

471

00:18:37,750 --> 00:18:35,760

nothing to think about it's impossible

472

00:18:38,470 --> 00:18:37,760

so it's nothing to worry about or think

473

00:18:39,270 --> 00:18:38,480

about

474

00:18:40,150 --> 00:18:39,280

well

475

00:18:42,710 --> 00:18:40,160

when

476
00:18:45,190 --> 00:18:42,720
um travis walton was here a couple years

477
00:18:47,669 --> 00:18:45,200
ago along with tom reed swift pine bush

478
00:18:48,630 --> 00:18:47,679
ufo festival fair

479
00:18:50,710 --> 00:18:48,640
um

480
00:18:53,029 --> 00:18:50,720
mark was there there was a few others

481
00:18:56,070 --> 00:18:53,039
fox news was here

482
00:18:57,990 --> 00:18:56,080
tucker carlson sent the crew to cover it

483
00:19:01,110 --> 00:18:58,000
if there's one person in mainstream

484
00:19:02,870 --> 00:19:01,120
media that does do a lot of coverage of

485
00:19:04,789 --> 00:19:02,880
this topic

486
00:19:06,310 --> 00:19:04,799
i have to give credit to tucker carlson

487
00:19:08,630 --> 00:19:06,320
because he does

488
00:19:12,230 --> 00:19:08,640

yeah i'm sure there's others

489

00:19:15,830 --> 00:19:12,240

but i mean he does put it up on his show

490

00:19:16,710 --> 00:19:15,840

he he had lou elizondo on uh last week

491

00:19:18,950 --> 00:19:16,720

right

492

00:19:21,029 --> 00:19:18,960

yeah or the week before yes i saw that

493

00:19:23,990 --> 00:19:21,039

yeah yeah the week before yeah so

494

00:19:25,669 --> 00:19:24,000

i mean at least there's some mainstream

495

00:19:27,669 --> 00:19:25,679

media that's doing it and that's

496

00:19:29,350 --> 00:19:27,679

important to get it out there whether

497

00:19:31,029 --> 00:19:29,360

you agree or disagree with the

498

00:19:33,990 --> 00:19:31,039

individual oh we got a phone call coming

499

00:19:38,950 --> 00:19:34,000

in i'm gonna mute it could be micah

500

00:19:42,950 --> 00:19:41,110

and well so hang in there everyone and

501
00:19:45,430 --> 00:19:42,960
thank you for being patient

502
00:19:46,710 --> 00:19:45,440
we're we're just uh killing some time

503
00:19:49,270 --> 00:19:46,720
here

504
00:19:50,630 --> 00:19:49,280
chatting about bill is smiling so that's

505
00:19:54,630 --> 00:19:50,640
a good sign

506
00:19:55,669 --> 00:19:54,640
it looks like uh it's a possibility

507
00:19:58,310 --> 00:19:55,679
uh oh

508
00:20:01,029 --> 00:19:58,320
did i just see him shake his head

509
00:20:03,270 --> 00:20:01,039
no he's laughing so uh hang in there

510
00:20:04,149 --> 00:20:03,280
michael will be on in just a moment uh

511
00:20:08,230 --> 00:20:04,159
oh

512
00:20:12,149 --> 00:20:09,990
all right so

513
00:20:14,789 --> 00:20:12,159

so the individual thought that that

514

00:20:17,750 --> 00:20:14,799

number was for myker and they called me

515

00:20:19,350 --> 00:20:17,760

so but i thanked her oh i said i see

516

00:20:20,390 --> 00:20:19,360

because i did put the number up on the

517

00:20:22,390 --> 00:20:20,400

board

518

00:20:25,029 --> 00:20:22,400

and said if anyone knows

519

00:20:26,870 --> 00:20:25,039

um if anyone knows micah's number call

520

00:20:28,789 --> 00:20:26,880

him and i put that number and tell him

521

00:20:31,029 --> 00:20:28,799

to call this number so that's that's

522

00:20:32,470 --> 00:20:31,039

where that is i also have uh someone

523

00:20:34,549 --> 00:20:32,480

else just text me

524

00:20:37,270 --> 00:20:34,559

and said that they will um they will

525

00:20:39,430 --> 00:20:37,280

attempt to reach him okay

526
00:20:40,310 --> 00:20:39,440
uh okay

527
00:20:42,870 --> 00:20:40,320
so

528
00:20:43,909 --> 00:20:42,880
anyway um getting back to

529
00:20:45,430 --> 00:20:43,919
since we're

530
00:20:47,430 --> 00:20:45,440
up hey

531
00:20:49,830 --> 00:20:47,440
there's an internet outage

532
00:20:51,750 --> 00:20:49,840
okay i'm i'm hearing from him right now

533
00:20:54,230 --> 00:20:51,760
can you fill a little gap bill and talk

534
00:20:56,390 --> 00:20:54,240
about whatever you want yeah so

535
00:20:59,669 --> 00:20:56,400
i actually um

536
00:21:02,789 --> 00:20:59,679
what got me all interested in ufology

537
00:21:04,870 --> 00:21:02,799
was i had a sighting in 1995 in new york

538
00:21:07,669 --> 00:21:04,880

city of all places

539

00:21:09,110 --> 00:21:07,679

it was june 10th

540

00:21:10,710 --> 00:21:09,120

they were showing of all things

541

00:21:13,029 --> 00:21:10,720

pocahontas

542

00:21:16,470 --> 00:21:13,039

in central park and i lived in the

543

00:21:17,750 --> 00:21:16,480

northern area in the bronx

544

00:21:20,149 --> 00:21:17,760

right on the border of westchester

545

00:21:22,070 --> 00:21:20,159

county and i was looking out my window

546

00:21:24,549 --> 00:21:22,080

because i loved thunderstorms i loved

547

00:21:25,909 --> 00:21:24,559

weather i wanted to become a weatherman

548

00:21:27,750 --> 00:21:25,919

growing up

549

00:21:29,430 --> 00:21:27,760

and i seen

550

00:21:31,430 --> 00:21:29,440

something similar to what's behind me

551
00:21:32,950 --> 00:21:31,440
right there on the left side

552
00:21:35,350 --> 00:21:32,960
on my left

553
00:21:37,669 --> 00:21:35,360
but it was boomerang or triangular made

554
00:21:38,789 --> 00:21:37,679
no noise and it went right over and it

555
00:21:39,830 --> 00:21:38,799
was heading

556
00:21:41,669 --> 00:21:39,840
toward

557
00:21:43,830 --> 00:21:41,679
the fireworks display that was happening

558
00:21:45,110 --> 00:21:43,840
at about 11 o'clock at night i guess

559
00:21:46,230 --> 00:21:45,120
just to let you know pay attention to

560
00:21:48,310 --> 00:21:46,240
your phone too

561
00:21:49,750 --> 00:21:48,320
because mike micah should be calling it

562
00:21:52,310 --> 00:21:49,760
i've got screens also that show me all

563
00:21:53,270 --> 00:21:52,320

right all right sure yeah

564

00:21:55,990 --> 00:21:53,280

so

565

00:21:58,710 --> 00:21:56,000

i reported it to peter davenport

566

00:22:00,310 --> 00:21:58,720

new fork at the time

567

00:22:02,710 --> 00:22:00,320

he got back to me a few days later an

568

00:22:04,149 --> 00:22:02,720

email bill you're not alone many seen it

569

00:22:06,870 --> 00:22:04,159

from here we go we got a phone call

570

00:22:09,430 --> 00:22:06,880

coming in i'm going to mute yep okay

571

00:22:11,350 --> 00:22:09,440

so that was uh micah just

572

00:22:13,909 --> 00:22:11,360

had my skype from

573

00:22:15,029 --> 00:22:13,919

now micah hanks was on the show the

574

00:22:18,789 --> 00:22:15,039

first time

575

00:22:19,590 --> 00:22:18,799

i'm thinking it was 2012.

576

00:22:21,430 --> 00:22:19,600

so

577

00:22:23,270 --> 00:22:21,440

we're talking about 10 years ago

578

00:22:25,510 --> 00:22:23,280

somewhere around there it was on first

579

00:22:27,350 --> 00:22:25,520

now bill's smiling more this time so i'm

580

00:22:29,350 --> 00:22:27,360

pretty sure that's micah hanks on the

581

00:22:31,270 --> 00:22:29,360

phone so again i want to thank you for

582

00:22:33,830 --> 00:22:31,280

your patience everyone

583

00:22:36,149 --> 00:22:33,840

and i think we're about

584

00:22:38,310 --> 00:22:36,159

i'm trying to read lips trying to see

585

00:22:40,470 --> 00:22:38,320

what bill's saying

586

00:22:42,549 --> 00:22:40,480

uh-oh that wasn't hanging up okay here

587

00:22:46,149 --> 00:22:42,559

he comes

588

00:22:49,909 --> 00:22:48,230

uh we're muted or something bill we

589

00:22:51,669 --> 00:22:49,919

don't hear anything

590

00:22:54,149 --> 00:22:51,679

yeah because i had it on you okay all

591

00:22:56,310 --> 00:22:54,159

right he's ready to go so um you have to

592

00:22:58,630 --> 00:22:56,320

keep me on the screen i'm going to

593

00:23:01,270 --> 00:22:58,640

yeah i know stop the camera change the

594

00:23:03,430 --> 00:23:01,280

name and let's bring him on so i'm going

595

00:23:04,950 --> 00:23:03,440

to bring him on right now

596

00:23:08,390 --> 00:23:04,960

micah

597

00:23:12,549 --> 00:23:08,400

greetings

598

00:23:16,070 --> 00:23:14,470

can you hear me okay micah apparently

599

00:23:17,750 --> 00:23:16,080

there is a area

600

00:23:20,710 --> 00:23:17,760

yeah it seems that there's an area-wide

601
00:23:22,710 --> 00:23:20,720
uh outage where i am right now and so i

602
00:23:24,789 --> 00:23:22,720
finally managed to connect to the 4g and

603
00:23:26,630 --> 00:23:24,799
call in uh there's a bit of a delay but

604
00:23:29,029 --> 00:23:26,640
that's better than nothing right

605
00:23:31,029 --> 00:23:29,039
yes uh you know it's not i don't i don't

606
00:23:32,789 --> 00:23:31,039
hear it on my end

607
00:23:34,390 --> 00:23:32,799
which is good but you are you're getting

608
00:23:37,350 --> 00:23:34,400
a delayed i don't know if you'd like to

609
00:23:39,190 --> 00:23:37,360
try to call back in and perhaps uh why

610
00:23:43,430 --> 00:23:39,200
don't you do that give a give a ring

611
00:23:47,909 --> 00:23:45,830
you want to do that stand by all right

612
00:23:50,070 --> 00:23:47,919
sure

613
00:23:51,750 --> 00:23:50,080

all right yeah so i just received uh

614

00:23:55,269 --> 00:23:51,760

just before micah

615

00:23:57,669 --> 00:23:55,279

came on he did uh he did

616

00:23:58,630 --> 00:23:57,679

text me on skype and again he hasn't

617

00:24:01,590 --> 00:23:58,640

been

618

00:24:03,990 --> 00:24:01,600

we haven't talked on skype since like

619

00:24:06,390 --> 00:24:04,000

i don't know almost 10 years but luckily

620

00:24:09,269 --> 00:24:06,400

he had my name on there still and came

621

00:24:11,029 --> 00:24:09,279

in and and he will come back in just a

622

00:24:14,310 --> 00:24:11,039

minute here

623

00:24:15,990 --> 00:24:14,320

uh so we won't have any open lines uh

624

00:24:17,909 --> 00:24:16,000

yeah unfortunately well i can you know i

625

00:24:19,750 --> 00:24:17,919

can't on my side because i i have a

626
00:24:20,870 --> 00:24:19,760
number for that as well

627
00:24:22,549 --> 00:24:20,880
alrighty

628
00:24:24,630 --> 00:24:22,559
so i've got everything all set for mike

629
00:24:26,870 --> 00:24:24,640
and hopefully you can tell there's some

630
00:24:27,909 --> 00:24:26,880
kind of an issue going on yeah because

631
00:24:29,110 --> 00:24:27,919
there was

632
00:24:31,029 --> 00:24:29,120
i heard it

633
00:24:33,669 --> 00:24:31,039
yeah definitely

634
00:24:37,830 --> 00:24:33,679
and yeah he had some type of major

635
00:24:43,669 --> 00:24:40,470
internet outage in his area so he's

636
00:24:45,590 --> 00:24:43,679
connected with uh on his phone but it's

637
00:24:47,510 --> 00:24:45,600
not it's not really working through the

638
00:24:49,110 --> 00:24:47,520

uh traditional way but he should be

639

00:24:50,789 --> 00:24:49,120

calling right back

640

00:24:52,710 --> 00:24:50,799

so yeah they when i'll just continue

641

00:24:54,710 --> 00:24:52,720

until he calls back but so it was seen

642

00:24:57,830 --> 00:24:54,720

from new york up the hudson river into

643

00:25:00,789 --> 00:24:57,840

canada that was in 95.

644

00:25:01,990 --> 00:25:00,799

and then i was vacationing in mount talk

645

00:25:03,350 --> 00:25:02,000

long island

646

00:25:04,710 --> 00:25:03,360

actually i love that place that's where

647

00:25:06,950 --> 00:25:04,720

i go fishing and i've been going there

648

00:25:08,549 --> 00:25:06,960

since i was a child

649

00:25:09,990 --> 00:25:08,559

and um

650

00:25:12,149 --> 00:25:10,000

i was on the beach

651
00:25:13,590 --> 00:25:12,159
and as a joke literally as a joke i took

652
00:25:16,390 --> 00:25:13,600
a flashlight and said i'm gonna call the

653
00:25:18,230 --> 00:25:16,400
aliens you know ping young and foolish

654
00:25:20,549 --> 00:25:18,240
and saying things like that but oddly

655
00:25:22,470 --> 00:25:20,559
enough ten seconds later the entire

656
00:25:25,669 --> 00:25:22,480
uh sky

657
00:25:27,590 --> 00:25:25,679
colors red blue you name it green just

658
00:25:29,990 --> 00:25:27,600
started to flash my mother was there she

659
00:25:31,830 --> 00:25:30,000
runs to the hotel room in fear

660
00:25:33,510 --> 00:25:31,840
and we're all standing there in awe

661
00:25:35,510 --> 00:25:33,520
because it was unbelievable what we were

662
00:25:38,710 --> 00:25:35,520
seeing on a clear night no aurora this

663
00:25:40,549 --> 00:25:38,720

far down south it was stunning no heat

664

00:25:43,029 --> 00:25:40,559

lightning no way

665

00:25:44,789 --> 00:25:43,039

um and then a gentleman came uh after

666

00:25:46,549 --> 00:25:44,799

the event was over that lasted about

667

00:25:47,990 --> 00:25:46,559

like 15 minutes

668

00:25:50,549 --> 00:25:48,000

and he goes i don't want to sound like

669

00:25:54,230 --> 00:25:50,559

i'm crazy but have you been watching the

670

00:25:55,990 --> 00:25:54,240

sky i said yeah we've seen it he goes

671

00:25:57,430 --> 00:25:56,000

because i thought i was going crazy and

672

00:25:59,110 --> 00:25:57,440

i can't tell anybody to tell them folk

673

00:26:01,269 --> 00:25:59,120

because they'd never believed me but at

674

00:26:03,830 --> 00:26:01,279

least i know you all seen it and

675

00:26:05,430 --> 00:26:03,840

martin it was incredible here he comes

676
00:26:06,710 --> 00:26:05,440
let's get him right on

677
00:26:12,549 --> 00:26:06,720
all right

678
00:26:14,230 --> 00:26:12,559
okay excellent i thank you bill

679
00:26:16,230 --> 00:26:14,240
how's that now micah how's the uh

680
00:26:17,430 --> 00:26:16,240
feedback

681
00:26:19,029 --> 00:26:17,440
all right i think we're a little better

682
00:26:21,510 --> 00:26:19,039
now how am i coming through loud and

683
00:26:24,470 --> 00:26:21,520
clear hopefully loud and clear welcome

684
00:26:25,269 --> 00:26:24,480
to the show micah uh thank you for uh

685
00:26:27,269 --> 00:26:25,279
for

686
00:26:29,029 --> 00:26:27,279
persevering and coming through this way

687
00:26:30,870 --> 00:26:29,039
uh better than you know the phone line

688
00:26:32,310 --> 00:26:30,880

is definitely better than nothing and i

689

00:26:35,110 --> 00:26:32,320

was kind of joking at the beginning of

690

00:26:37,029 --> 00:26:35,120

the show i said i think that micah is

691

00:26:39,430 --> 00:26:37,039

probably 10 times more technological

692

00:26:41,190 --> 00:26:39,440

than i am and i don't know he's not here

693

00:26:43,590 --> 00:26:41,200

i don't know what's going on but anyway

694

00:26:45,510 --> 00:26:43,600

i'm glad glad we uh sorted that out and

695

00:26:48,230 --> 00:26:45,520

you made it thanks so much for uh like i

696

00:26:49,510 --> 00:26:48,240

said for uh i'm glad you saved my number

697

00:26:52,789 --> 00:26:49,520

on skype because

698

00:26:55,510 --> 00:26:52,799

hasn't it been a long long long time

699

00:26:57,669 --> 00:26:55,520

since you've been on the show

700

00:26:59,110 --> 00:26:57,679

well it's certainly been a while and i

701
00:27:01,590 --> 00:26:59,120
think maybe the first time you ever had

702
00:27:03,269 --> 00:27:01,600
me on the program it probably was via

703
00:27:04,149 --> 00:27:03,279
phone now these days were used to stream

704
00:27:05,909 --> 00:27:04,159
yard

705
00:27:08,070 --> 00:27:05,919
and you know all these wonderful

706
00:27:09,909 --> 00:27:08,080
technological advantages that we now

707
00:27:12,310 --> 00:27:09,919
have with video streaming and everything

708
00:27:14,549 --> 00:27:12,320
but apparently tonight and keep in mind

709
00:27:16,070 --> 00:27:14,559
i am coming to you live from curitiba in

710
00:27:18,230 --> 00:27:16,080
southern brazil that might be part of

711
00:27:20,149 --> 00:27:18,240
the problem i'm a continent away

712
00:27:21,830 --> 00:27:20,159
but normally the internet is very good

713
00:27:23,430 --> 00:27:21,840

here i use it every day i'm doing

714

00:27:25,430 --> 00:27:23,440

interviews with people myself i've got

715

00:27:26,870 --> 00:27:25,440

another interview tomorrow i hadn't had

716

00:27:28,230 --> 00:27:26,880

this problem but tonight they actually

717

00:27:30,549 --> 00:27:28,240

just informed us that there is a

718

00:27:32,230 --> 00:27:30,559

city-wide outage and so we've been

719

00:27:33,669 --> 00:27:32,240

scrambling to try and get back on the

720

00:27:35,430 --> 00:27:33,679

old way so you know what when the

721

00:27:37,590 --> 00:27:35,440

internet fails us the phone lines have

722

00:27:39,350 --> 00:27:37,600

been working for a century and they work

723

00:27:41,510 --> 00:27:39,360

tonight

724

00:27:44,630 --> 00:27:41,520

wow so are you down in brazil on

725

00:27:49,990 --> 00:27:47,669

not exactly uh in fact i'm i'm here

726

00:27:52,950 --> 00:27:50,000

pursuing some uap research uh you know

727

00:27:54,789 --> 00:27:52,960

aj javard is probably the best

728

00:27:56,710 --> 00:27:54,799

uh ufologist

729

00:27:59,350 --> 00:27:56,720

here in brazil and he of course is the

730

00:28:01,990 --> 00:27:59,360

publisher of heaviest ufo or the ufo

731

00:28:03,990 --> 00:28:02,000

brazilian ufo magazine uh but aj just

732

00:28:06,230 --> 00:28:04,000

recently put on a conference and uh we

733

00:28:08,389 --> 00:28:06,240

attended that uh just a couple of weeks

734

00:28:10,310 --> 00:28:08,399

ago tomorrow night i'm joining him and a

735

00:28:11,830 --> 00:28:10,320

local politician because there have been

736

00:28:14,149 --> 00:28:11,840

some significant developments down here

737

00:28:17,430 --> 00:28:14,159

martin in fact uh the brazilian senate

738

00:28:20,310 --> 00:28:17,440

is right now pushing to hold hearings on

739

00:28:22,070 --> 00:28:20,320

the uap subject in a formal capacity and

740

00:28:23,830 --> 00:28:22,080

this is definitely something that sort

741

00:28:25,190 --> 00:28:23,840

of mirrors some of the developments

742

00:28:26,870 --> 00:28:25,200

we've been seeing in the united states

743

00:28:29,430 --> 00:28:26,880

over the last few years

744

00:28:31,590 --> 00:28:29,440

excellent well you know that james fox

745

00:28:33,190 --> 00:28:31,600

movie is coming out about that i can

746

00:28:35,029 --> 00:28:33,200

never pronounce the name of the place

747

00:28:37,669 --> 00:28:35,039

but do you know where where i'm talking

748

00:28:40,070 --> 00:28:37,679

about i i believe it's i

749

00:28:42,789 --> 00:28:40,080

believe it's brazil yes

750

00:28:46,549 --> 00:28:42,799

yeah it is yes it's virginia vargas here

751

00:28:49,430 --> 00:28:48,070

and of course the incident is usually

752

00:28:51,830 --> 00:28:49,440

associated with the

753

00:28:53,990 --> 00:28:51,840

uh the place of the name itself but you

754

00:28:55,830 --> 00:28:54,000

know again even beyond the virginia

755

00:28:56,710 --> 00:28:55,840

thing and again james has really become

756

00:28:59,029 --> 00:28:56,720

kind of

757

00:29:00,470 --> 00:28:59,039

uh you know focused in recent months on

758

00:29:02,470 --> 00:29:00,480

that case and that's something that goes

759

00:29:04,149 --> 00:29:02,480

all the way back to his days you know

760

00:29:06,789 --> 00:29:04,159

doing television they actually had been

761

00:29:07,830 --> 00:29:06,799

looking into that uh that case back then

762

00:29:09,430 --> 00:29:07,840

as well

763

00:29:11,110 --> 00:29:09,440

and he's really kind of maintained an

764

00:29:12,470 --> 00:29:11,120

interest in that but i mean brazil has a

765

00:29:15,110 --> 00:29:12,480

very long history of involvement with

766

00:29:16,950 --> 00:29:15,120

uap going back to the 1950s

767

00:29:18,549 --> 00:29:16,960

the brazilian air force came out and

768

00:29:20,310 --> 00:29:18,559

officially said

769

00:29:23,269 --> 00:29:20,320

there are objects of unknown providence

770

00:29:25,510 --> 00:29:23,279

in our skies i believe that was in 1954.

771

00:29:27,750 --> 00:29:25,520

in around 1977 the

772

00:29:31,190 --> 00:29:27,760

brazilian air force uh was actually

773

00:29:33,430 --> 00:29:31,200

engaged in a short-term investigation

774

00:29:35,830 --> 00:29:33,440

called opera saw pratu which essentially

775

00:29:37,510 --> 00:29:35,840

translates to mean operation plate or

776

00:29:39,110 --> 00:29:37,520

operation saucer

777

00:29:40,789 --> 00:29:39,120

and this was to look at cases that

778

00:29:42,470 --> 00:29:40,799

involve not only sightings of anomalous

779

00:29:44,389 --> 00:29:42,480

aerial vehicles or what people described

780

00:29:46,149 --> 00:29:44,399

as being those lights in the sky things

781

00:29:48,230 --> 00:29:46,159

like this sometimes discs sometimes

782

00:29:50,230 --> 00:29:48,240

ovoid shapes kind of like your tic tac

783

00:29:52,230 --> 00:29:50,240

everybody hears about so much these days

784

00:29:53,909 --> 00:29:52,240

but also there were injuries that were

785

00:29:56,310 --> 00:29:53,919

allegedly associated with some of these

786

00:29:57,909 --> 00:29:56,320

sightings of uap uh there was a reporter

787

00:29:59,750 --> 00:29:57,919

for the national enquirer back then

788

00:30:01,590 --> 00:29:59,760

named bob pratt who actually came to

789

00:30:03,190 --> 00:30:01,600

brazil many times kind of like i'm doing

790

00:30:05,430 --> 00:30:03,200

now and he spent a lot of time

791

00:30:07,269 --> 00:30:05,440

interviewing locals who described these

792

00:30:08,710 --> 00:30:07,279

you know very unsettling occurrences

793

00:30:10,549 --> 00:30:08,720

where they were you know sometimes

794

00:30:12,389 --> 00:30:10,559

struck by a beam of light that emanated

795

00:30:14,470 --> 00:30:12,399

from these objects and it sometimes left

796

00:30:15,909 --> 00:30:14,480

a little scar or a lesion on the skin so

797

00:30:17,750 --> 00:30:15,919

that was part of what the brazilian air

798

00:30:20,230 --> 00:30:17,760

force also looked into back in

799

00:30:21,830 --> 00:30:20,240

back in the 1970s and so you know many

800

00:30:23,350 --> 00:30:21,840

decades later it's interesting to see

801
00:30:25,110 --> 00:30:23,360
that the brazilian senate is now saying

802
00:30:26,070 --> 00:30:25,120
hey we need to hold hearings we've been

803
00:30:27,830 --> 00:30:26,080
you know keeping up with what's

804
00:30:29,590 --> 00:30:27,840
happening up there in the united states

805
00:30:32,070 --> 00:30:29,600
this is very much still an issue and it

806
00:30:33,990 --> 00:30:32,080
has been for some time

807
00:30:36,149 --> 00:30:34,000
that's right and you know

808
00:30:39,029 --> 00:30:36,159
in south america that the chilean

809
00:30:39,909 --> 00:30:39,039
government also is taking this topic has

810
00:30:41,669 --> 00:30:39,919
been

811
00:30:44,310 --> 00:30:41,679
for a number of years taking this topic

812
00:30:46,070 --> 00:30:44,320
totally seriously and i love the the way

813
00:30:47,830 --> 00:30:46,080

that the fact that they have

814

00:30:49,590 --> 00:30:47,840

their military involved their police

815

00:30:50,470 --> 00:30:49,600

departments their scientists everyone's

816

00:30:52,310 --> 00:30:50,480

involved

817

00:30:54,789 --> 00:30:52,320

in in taking a very serious look at the

818

00:30:59,350 --> 00:30:57,269

indeed yes uh there was of course a uh

819

00:31:00,710 --> 00:30:59,360

some disputed this this footage and in

820

00:31:03,190 --> 00:31:00,720

my opinion i would say that it was most

821

00:31:05,350 --> 00:31:03,200

likely an aircraft of some kind too

822

00:31:07,110 --> 00:31:05,360

that meaning a conventional aircraft but

823

00:31:10,310 --> 00:31:07,120

there was a widely circulated video a

824

00:31:12,470 --> 00:31:10,320

few years ago that purported to show uap

825

00:31:14,310 --> 00:31:12,480

and the chilean uh military had been

826

00:31:17,029 --> 00:31:14,320

trying to identify with what this object

827

00:31:18,870 --> 00:31:17,039

was that's right you know i think that

828

00:31:20,549 --> 00:31:18,880

there are some good explanations for

829

00:31:21,830 --> 00:31:20,559

some of these videos like that one and

830

00:31:23,350 --> 00:31:21,840

then there are some of these pieces of

831

00:31:25,350 --> 00:31:23,360

footage that we've seen in recent years

832

00:31:27,029 --> 00:31:25,360

that are you know maybe not entirely

833

00:31:29,190 --> 00:31:27,039

unexplainable but they're a little more

834

00:31:30,710 --> 00:31:29,200

on the anomalous side to me i think the

835

00:31:32,230 --> 00:31:30,720

question is you know very much still

836

00:31:34,549 --> 00:31:32,240

open the verdict is out as to what

837

00:31:36,870 --> 00:31:34,559

exactly the objects in these pieces of

838

00:31:37,909 --> 00:31:36,880

footage you know may be and what their

839

00:31:39,350 --> 00:31:37,919

provenance

840

00:31:40,710 --> 00:31:39,360

ultimately will prove to be but again

841

00:31:43,269 --> 00:31:40,720

that really is kind of what has

842

00:31:45,509 --> 00:31:43,279

reinvigorated the uap debate since uh

843

00:31:47,509 --> 00:31:45,519

2017 i think

844

00:31:49,029 --> 00:31:47,519

yes definitely and

845

00:31:51,269 --> 00:31:49,039

that particular case you're talking

846

00:31:53,110 --> 00:31:51,279

about i'm very familiar with that um

847

00:31:55,190 --> 00:31:53,120

because i was kind of involved in that

848

00:31:58,870 --> 00:31:55,200

one in particular when that first came

849

00:32:00,470 --> 00:31:58,880

out and um to mick west

850

00:32:02,710 --> 00:32:00,480

credit and a lot of people don't want to

851

00:32:05,110 --> 00:32:02,720

give him any credit for anything uh

852

00:32:07,269 --> 00:32:05,120

because you know he's he's uh

853

00:32:09,190 --> 00:32:07,279

calls himself a skeptic but you know a

854

00:32:11,909 --> 00:32:09,200

lot of what he does is he's you know

855

00:32:14,470 --> 00:32:11,919

tries to be the debunker of ufos

856

00:32:16,310 --> 00:32:14,480

in general and that one he got right

857

00:32:17,909 --> 00:32:16,320

a lot of them he doesn't get right but

858

00:32:21,110 --> 00:32:17,919

that one in particular i remember

859

00:32:23,430 --> 00:32:21,120

sending the uh information to leslie

860

00:32:25,269 --> 00:32:23,440

kane and saying you better pass this

861

00:32:28,389 --> 00:32:25,279

along to jose lei

862

00:32:31,269 --> 00:32:28,399

jose lai and tell him uh this looks like

863

00:32:33,750 --> 00:32:31,279

a very good answer for this you know

864

00:32:36,710 --> 00:32:33,760

this unidentified object uh video

865

00:32:38,789 --> 00:32:36,720

footage um and you know they came around

866

00:32:40,389 --> 00:32:38,799

and said oh my goodness you know their

867

00:32:42,549 --> 00:32:40,399

scientists couldn't crack it or whatever

868

00:32:43,750 --> 00:32:42,559

whoever was looking at it the military

869

00:32:46,470 --> 00:32:43,760

no one could

870

00:32:48,789 --> 00:32:46,480

understand exactly uh what was going on

871

00:32:51,990 --> 00:32:48,799

but he had it perfectly laid out to an

872

00:32:54,389 --> 00:32:52,000

aircraft that was exactly in you know in

873

00:32:56,710 --> 00:32:54,399

the that area which was about 50 miles

874

00:32:58,710 --> 00:32:56,720

away from where it was filmed that

875

00:33:00,710 --> 00:32:58,720

particular exactly at that particular

876

00:33:03,990 --> 00:33:00,720

time and the heat signature of it

877

00:33:06,149 --> 00:33:04,000

turning you know away from the camera uh

878

00:33:08,389 --> 00:33:06,159

did look very mysterious and that's the

879

00:33:10,630 --> 00:33:08,399

thing with you know modern technology

880

00:33:13,830 --> 00:33:10,640

these new uh cameras and the new

881

00:33:16,630 --> 00:33:13,840

technology we have can oftentimes

882

00:33:18,630 --> 00:33:16,640

um you know have a mistaken object

883

00:33:20,870 --> 00:33:18,640

because we're just not really used to

884

00:33:22,870 --> 00:33:20,880

what we're seeing with these different

885

00:33:25,110 --> 00:33:22,880

you know signatures so

886

00:33:26,630 --> 00:33:25,120

but that one in particular i do remember

887

00:33:29,190 --> 00:33:26,640

when that happened that was sort of a

888

00:33:30,950 --> 00:33:29,200

black eye because it was something that

889

00:33:32,710 --> 00:33:30,960

was taken real seriously and was

890

00:33:36,230 --> 00:33:32,720

actually published as

891

00:33:40,149 --> 00:33:36,240

uh you know a uap uh video and uh that

892

00:33:41,350 --> 00:33:40,159

that particular one did not pan out

893

00:33:45,350 --> 00:33:41,360

but

894

00:33:47,909 --> 00:33:45,360

course a lot of these ufo or you know

895

00:33:49,909 --> 00:33:47,919

ufo videos and different kinds of you

896

00:33:51,110 --> 00:33:49,919

know incidents involving purported uap

897

00:33:52,950 --> 00:33:51,120

from over the years

898

00:33:55,590 --> 00:33:52,960

many of them probably have

899

00:33:57,350 --> 00:33:55,600

explanations even if those explanations

900

00:33:59,669 --> 00:33:57,360

eluded us at the time the incident

901
00:34:01,430 --> 00:33:59,679
occurred or the video was made and again

902
00:34:04,230 --> 00:34:01,440
i think that the one thing that will

903
00:34:06,870 --> 00:34:04,240
help uh ufology i still you know

904
00:34:08,790 --> 00:34:06,880
interchangeably use ufo and uap i i'm

905
00:34:10,389 --> 00:34:08,800
not particularly preferential toward

906
00:34:11,990 --> 00:34:10,399
either one one i recognize as a

907
00:34:14,310 --> 00:34:12,000
historical term we've used for a long

908
00:34:15,669 --> 00:34:14,320
time that everybody knows uap it's

909
00:34:16,550 --> 00:34:15,679
actually been in use for quite a while

910
00:34:17,430 --> 00:34:16,560
too

911
00:34:19,270 --> 00:34:17,440
but

912
00:34:20,470 --> 00:34:19,280
nowadays people tend to prefer that they

913
00:34:22,230 --> 00:34:20,480

seem to think that this kind of helps

914

00:34:23,510 --> 00:34:22,240

remove some of the old stigma attached

915

00:34:24,869 --> 00:34:23,520

to ufo

916

00:34:26,950 --> 00:34:24,879

you know whatever that may be the case

917

00:34:29,669 --> 00:34:26,960

but i think that what we should do as

918

00:34:31,510 --> 00:34:29,679

ufologists or ua peologists

919

00:34:33,589 --> 00:34:31,520

is learn to accept that when we can

920

00:34:34,950 --> 00:34:33,599

debunk a video and we can explain a case

921

00:34:36,869 --> 00:34:34,960

that's actually a good thing because

922

00:34:38,550 --> 00:34:36,879

that yes remove

923

00:34:40,710 --> 00:34:38,560

some of the information that you know

924

00:34:42,790 --> 00:34:40,720

helps us once we have that that core

925

00:34:44,790 --> 00:34:42,800

that fundamental anomalous data that at

926
00:34:46,389 --> 00:34:44,800
the end of the day cannot be identified

927
00:34:47,909 --> 00:34:46,399
that's where we can narrow our focus to

928
00:34:49,589 --> 00:34:47,919
we can you know turn it toward and we

929
00:34:51,589 --> 00:34:49,599
can try to understand and resolve those

930
00:34:52,950 --> 00:34:51,599
cases maybe one day we will but for the

931
00:34:54,869 --> 00:34:52,960
time being i do think that there's still

932
00:34:57,349 --> 00:34:54,879
that kind of residual that small

933
00:34:59,270 --> 00:34:57,359
percentage that remains anomalous

934
00:35:01,270 --> 00:34:59,280
i do and i think that's you're right

935
00:35:03,829 --> 00:35:01,280
that's you know that's what's important

936
00:35:06,630 --> 00:35:03,839
are the ones that can't be explained

937
00:35:07,750 --> 00:35:06,640
even in contemporary ways like you just

938
00:35:10,310 --> 00:35:07,760

mentioned

939

00:35:12,230 --> 00:35:10,320

a lot of things you know what is it um

940

00:35:15,030 --> 00:35:12,240

project blue book maybe that

941

00:35:16,710 --> 00:35:15,040

701 that they could not explain

942

00:35:17,750 --> 00:35:16,720

uh there's a percentage of that that

943

00:35:19,670 --> 00:35:17,760

there is

944

00:35:21,990 --> 00:35:19,680

you know uh answers for and probably can

945

00:35:23,750 --> 00:35:22,000

be figured out but not you know the the

946

00:35:25,270 --> 00:35:23,760

ti so much time has gone by at this

947

00:35:27,030 --> 00:35:25,280

point

948

00:35:29,190 --> 00:35:27,040

um but yeah i was just having this

949

00:35:31,270 --> 00:35:29,200

conversation yesterday i i like when

950

00:35:33,430 --> 00:35:31,280

things are

951
00:35:35,430 --> 00:35:33,440
when there is an explanation because

952
00:35:37,589 --> 00:35:35,440
that take that one and you know check it

953
00:35:39,829 --> 00:35:37,599
off and move on to to the ones that

954
00:35:41,750 --> 00:35:39,839
aren't explainable

955
00:35:43,030 --> 00:35:41,760
certainly you know maybe part of the

956
00:35:44,630 --> 00:35:43,040
problem though is that you know and

957
00:35:46,870 --> 00:35:44,640
again with respect to the skeptics

958
00:35:48,390 --> 00:35:46,880
because they perform a very necessary

959
00:35:49,589 --> 00:35:48,400
function in this community i think you

960
00:35:51,030 --> 00:35:49,599
would agree martin based on what you

961
00:35:53,190 --> 00:35:51,040
just said and you know i have a lot of

962
00:35:54,790 --> 00:35:53,200
respect for you know mix analysis but i

963
00:35:56,630 --> 00:35:54,800

don't always agree

964

00:35:57,990 --> 00:35:56,640

with all of his conclusions

965

00:35:59,910 --> 00:35:58,000

and you know i think that that's the

966

00:36:02,550 --> 00:35:59,920

issue is that when there is more

967

00:36:04,230 --> 00:36:02,560

information forthcoming that refutes

968

00:36:05,589 --> 00:36:04,240

some of the data that we are looking at

969

00:36:08,230 --> 00:36:05,599

or dealing with you know we have to be

970

00:36:09,990 --> 00:36:08,240

willing even as skeptics to say okay

971

00:36:11,910 --> 00:36:10,000

i have to revise my approach and my

972

00:36:13,109 --> 00:36:11,920

hypothesis may be somewhat flawed that

973

00:36:14,870 --> 00:36:13,119

doesn't mean that it's going to be you

974

00:36:16,230 --> 00:36:14,880

know completely out to wash but i mean

975

00:36:17,430 --> 00:36:16,240

i've got to try and take a different

976

00:36:19,109 --> 00:36:17,440

approach

977

00:36:20,470 --> 00:36:19,119

and what we saw in recent days you know

978

00:36:22,790 --> 00:36:20,480

there was a document released received

979

00:36:24,390 --> 00:36:22,800

by john greenwald of the black vault of

980

00:36:25,990 --> 00:36:24,400

course very few in the audience out

981

00:36:27,750 --> 00:36:26,000

there are not going to know who you know

982

00:36:29,430 --> 00:36:27,760

john greenwald is the incredible work

983

00:36:32,069 --> 00:36:29,440

he's done for decades

984

00:36:34,790 --> 00:36:32,079

but he received this pilot brief

985

00:36:37,030 --> 00:36:34,800

that is describing testimony provided by

986

00:36:38,870 --> 00:36:37,040

the weapons systems officer

987

00:36:40,550 --> 00:36:38,880

at the time of what appears to be quite

988

00:36:41,750 --> 00:36:40,560

obviously based on the data in this

989

00:36:44,150 --> 00:36:41,760

brief

990

00:36:46,069 --> 00:36:44,160

the gimbal footage as it's known this

991

00:36:48,069 --> 00:36:46,079

being the object that at least in the

992

00:36:49,750 --> 00:36:48,079

footage appears to be rotating now there

993

00:36:51,190 --> 00:36:49,760

have been a lot of different

994

00:36:52,710 --> 00:36:51,200

questions about whether the object's

995

00:36:55,270 --> 00:36:52,720

really rotating whether that's actually

996

00:36:56,950 --> 00:36:55,280

just a lens on the atlear targeting pod

997

00:36:59,589 --> 00:36:56,960

uh provided by the raytheon company that

998

00:37:01,349 --> 00:36:59,599

the fa-18s are using with the navy and

999

00:37:02,870 --> 00:37:01,359

that were in use at that time fairly new

1000

00:37:05,589 --> 00:37:02,880

technology at the time that this video

1001
00:37:08,310 --> 00:37:05,599
was made back and i guess in early 2015

1002
00:37:09,109 --> 00:37:08,320
but with this pilot brief it provides

1003
00:37:12,390 --> 00:37:09,119
some

1004
00:37:14,550 --> 00:37:12,400
additional details that the video alone

1005
00:37:16,310 --> 00:37:14,560
could not convey those include that the

1006
00:37:17,430 --> 00:37:16,320
weapon systems officer and the pilot

1007
00:37:19,109 --> 00:37:17,440
said that they were coming in they

1008
00:37:20,470 --> 00:37:19,119
initially thought that this object that

1009
00:37:22,710 --> 00:37:20,480
they observed

1010
00:37:25,270 --> 00:37:22,720
might be part of a training exercise

1011
00:37:27,430 --> 00:37:25,280
this was actually something that was

1012
00:37:29,349 --> 00:37:27,440
being produced probably electronically

1013
00:37:30,950 --> 00:37:29,359

as part of a training operation but they

1014

00:37:33,109 --> 00:37:30,960

determined pretty quickly that it wasn't

1015

00:37:35,270 --> 00:37:33,119

they were able to detect this object

1016

00:37:36,470 --> 00:37:35,280

in the airspace they were able to lock

1017

00:37:37,910 --> 00:37:36,480

on film it

1018

00:37:40,069 --> 00:37:37,920

and observe it as it was moving near the

1019

00:37:42,230 --> 00:37:40,079

uss theodore roosevelt so what's

1020

00:37:45,270 --> 00:37:42,240

interesting about this additional

1021

00:37:46,310 --> 00:37:45,280

information provided by the wso is that

1022

00:37:47,589 --> 00:37:46,320

now

1023

00:37:48,630 --> 00:37:47,599

rather than just being a video and

1024

00:37:50,069 --> 00:37:48,640

everybody's saying well we don't know

1025

00:37:52,870 --> 00:37:50,079

what that is and without any additional

1026
00:37:54,550 --> 00:37:52,880
context we'll never know well we're now

1027
00:37:56,390 --> 00:37:54,560
moving toward maybe getting some of that

1028
00:37:58,870 --> 00:37:56,400
additional context and so the question

1029
00:38:00,470 --> 00:37:58,880
now must be raised if the weapon systems

1030
00:38:01,670 --> 00:38:00,480
officer and the pilot said yeah we

1031
00:38:03,510 --> 00:38:01,680
watched this object come into the

1032
00:38:05,109 --> 00:38:03,520
airspace we tracked it we were able to

1033
00:38:06,790 --> 00:38:05,119
get a clear lock on it we were able to

1034
00:38:08,790 --> 00:38:06,800
quickly determine that this was not part

1035
00:38:10,630 --> 00:38:08,800
of the training exercise with the compux

1036
00:38:11,670 --> 00:38:10,640
that was going on there at the time off

1037
00:38:13,349 --> 00:38:11,680
the east coast they were near

1038
00:38:14,630 --> 00:38:13,359

jacksonville when this occurred

1039

00:38:17,030 --> 00:38:14,640

if we can rule out some of those

1040

00:38:19,349 --> 00:38:17,040

questions or whether we can add i guess

1041

00:38:21,829 --> 00:38:19,359

these details to the information we now

1042

00:38:23,510 --> 00:38:21,839

have about this footage again mick west

1043

00:38:25,910 --> 00:38:23,520

has put forward the hypothesis that this

1044

00:38:28,390 --> 00:38:25,920

is probably the flare from two distant

1045

00:38:30,150 --> 00:38:28,400

jets yes that's why you don't really

1046

00:38:31,510 --> 00:38:30,160

he's much more than just this kind of

1047

00:38:33,750 --> 00:38:31,520

amorphous shape he said that's the

1048

00:38:35,030 --> 00:38:33,760

result of the flare of these jets but

1049

00:38:37,349 --> 00:38:35,040

you know if this is the information that

1050

00:38:39,589 --> 00:38:37,359

the pilot and the wso are giving us can

1051
00:38:41,510 --> 00:38:39,599
we be so sure necessarily that that is

1052
00:38:43,430 --> 00:38:41,520
the best explanation any longer for this

1053
00:38:44,950 --> 00:38:43,440
footage i'm not so sure it is so again

1054
00:38:46,550 --> 00:38:44,960
to me this is one of these instances

1055
00:38:48,310 --> 00:38:46,560
martin where i would say the verdict is

1056
00:38:50,950 --> 00:38:48,320
very much still out

1057
00:38:52,630 --> 00:38:50,960
right and now there's uh chris alito i

1058
00:38:55,190 --> 00:38:52,640
don't know if you're familiar with who

1059
00:38:57,109 --> 00:38:55,200
chris is but he's done a lot of work on

1060
00:38:59,910 --> 00:38:57,119
that basically

1061
00:39:02,550 --> 00:38:59,920
he calls it you know jokingly debunking

1062
00:39:05,910 --> 00:39:02,560
the debunkers um but he comes up because

1063
00:39:09,030 --> 00:39:05,920

he's very familiar with the systems um

1064

00:39:10,950 --> 00:39:09,040

he's an f-16 uh pilot retired a young

1065

00:39:13,910 --> 00:39:10,960

guy um and by the way he's going to be

1066

00:39:16,790 --> 00:39:13,920

on back on the show here on april 26th

1067

00:39:19,990 --> 00:39:16,800

tuesday april 26th so chris basically

1068

00:39:22,470 --> 00:39:20,000

has gone through that um almost frame by

1069

00:39:25,589 --> 00:39:22,480

frame and explained that there is no

1070

00:39:27,750 --> 00:39:25,599

explanation for what is seen you know

1071

00:39:30,310 --> 00:39:27,760

about by all the readings and everything

1072

00:39:31,670 --> 00:39:30,320

that he can have access to he really

1073

00:39:34,870 --> 00:39:31,680

thinks that that there really is

1074

00:39:36,470 --> 00:39:34,880

something to that particular uh that

1075

00:39:39,109 --> 00:39:36,480

particular video

1076

00:39:42,470 --> 00:39:39,119

so but i i do i have heard of

1077

00:39:44,550 --> 00:39:42,480

all types of variants on that um and you

1078

00:39:46,630 --> 00:39:44,560

know like i do agree the jury's still

1079

00:39:47,829 --> 00:39:46,640

out on that particular one

1080

00:39:49,109 --> 00:39:47,839

um

1081

00:39:52,550 --> 00:39:49,119

as far as

1082

00:39:54,710 --> 00:39:52,560

the other ones go i also heard that the

1083

00:39:57,190 --> 00:39:54,720

what's called the go fast

1084

00:39:59,589 --> 00:39:57,200

is uh is like a drone lock and that's a

1085

00:40:02,470 --> 00:39:59,599

very it would be a very high speed

1086

00:40:04,710 --> 00:40:02,480

uh a very fast drone if that's the case

1087

00:40:07,670 --> 00:40:04,720

i don't know if you've heard anything

1088

00:40:11,190 --> 00:40:09,190

you know there are again a lot of

1089

00:40:13,270 --> 00:40:11,200

different opinions that have been

1090

00:40:15,190 --> 00:40:13,280

expressed one of them being that and i

1091

00:40:16,150 --> 00:40:15,200

think it's mick west who has argued that

1092

00:40:17,670 --> 00:40:16,160

really

1093

00:40:19,349 --> 00:40:17,680

what we're seeing is an object that's

1094

00:40:20,950 --> 00:40:19,359

barely moving it's not close to the

1095

00:40:23,829 --> 00:40:20,960

surface of the water like it appears to

1096

00:40:25,349 --> 00:40:23,839

be in the video this is all a illusion i

1097

00:40:27,430 --> 00:40:25,359

think you may refer to this as parallax

1098

00:40:29,589 --> 00:40:27,440

effect but i'm not 100 certain about

1099

00:40:31,510 --> 00:40:29,599

that i know that he refers to this as an

1100

00:40:33,349 --> 00:40:31,520

optical illusion that is produced

1101

00:40:34,870 --> 00:40:33,359

uh by the footage

1102

00:40:36,790 --> 00:40:34,880

and it gives the impression of a very

1103

00:40:38,150 --> 00:40:36,800

fast-moving object but now

1104

00:40:40,630 --> 00:40:38,160

you know a natural question that comes

1105

00:40:41,990 --> 00:40:40,640

to mind in that regard is the pilots in

1106

00:40:45,910 --> 00:40:42,000

the video

1107

00:40:47,670 --> 00:40:45,920

the information that we need to be able

1108

00:40:50,150 --> 00:40:47,680

to discern exactly what the object is we

1109

00:40:51,910 --> 00:40:50,160

do have some clues from what the pilots

1110

00:40:54,309 --> 00:40:51,920

can be overheard describing and they are

1111

00:40:55,829 --> 00:40:54,319

saying things like did you did you box

1112

00:40:57,030 --> 00:40:55,839

that did you get that wow look at it go

1113

00:40:58,630 --> 00:40:57,040

you know and they're saying things that

1114

00:41:00,470 --> 00:40:58,640

seem to be indicative

1115

00:41:02,069 --> 00:41:00,480

of from their perspective aboard their

1116

00:41:04,069 --> 00:41:02,079

aircraft this thing appears to be moving

1117

00:41:05,109 --> 00:41:04,079

quickly to them now again that doesn't

1118

00:41:06,870 --> 00:41:05,119

mean that they aren't going to be

1119

00:41:08,870 --> 00:41:06,880

susceptible to an optical illusion just

1120

00:41:10,790 --> 00:41:08,880

like you or i might be when we're

1121

00:41:11,990 --> 00:41:10,800

watching that footage but the fact that

1122

00:41:13,510 --> 00:41:12,000

they were in the aircraft at that time

1123

00:41:15,349 --> 00:41:13,520

spotted the object were attempting to

1124

00:41:16,870 --> 00:41:15,359

track it and then were able to get a

1125

00:41:18,230 --> 00:41:16,880

lock on so that they could film it and

1126
00:41:19,990 --> 00:41:18,240
now we see the famous footage of what

1127
00:41:20,870 --> 00:41:20,000
appears to be a very quickly moving

1128
00:41:22,710 --> 00:41:20,880
object

1129
00:41:24,870 --> 00:41:22,720
you know that seems to be evidential to

1130
00:41:26,790 --> 00:41:24,880
me of the fact that the pilots at the

1131
00:41:28,069 --> 00:41:26,800
time the footage was made

1132
00:41:30,470 --> 00:41:28,079
were aware of something that they

1133
00:41:33,109 --> 00:41:30,480
perceived as moving pretty quickly to

1134
00:41:34,550 --> 00:41:33,119
and you know again that is a little less

1135
00:41:36,069 --> 00:41:34,560
that would make me less inclined to

1136
00:41:37,990 --> 00:41:36,079
think that this was necessarily just a

1137
00:41:40,230 --> 00:41:38,000
you know slow moving or an almost still

1138
00:41:42,630 --> 00:41:40,240

object that due to the fact that the

1139

00:41:44,550 --> 00:41:42,640

f-18 is flying very quickly

1140

00:41:46,470 --> 00:41:44,560

it gives the impression of a fast-moving

1141

00:41:48,790 --> 00:41:46,480

object you know they seem to think it

1142

00:41:50,309 --> 00:41:48,800

was fast-moving also and furthermore

1143

00:41:52,150 --> 00:41:50,319

they were having to try and lock onto

1144

00:41:53,829 --> 00:41:52,160

this you know with their tracking pod

1145

00:41:55,670 --> 00:41:53,839

which is of course designed to be able

1146

00:41:56,470 --> 00:41:55,680

to lock onto a moving object and follow

1147

00:41:58,470 --> 00:41:56,480

it

1148

00:42:00,630 --> 00:41:58,480

uh you know so that to me seems to

1149

00:42:02,150 --> 00:42:00,640

indicate not only was this object moving

1150

00:42:04,550 --> 00:42:02,160

but it was moving pretty quickly like

1151
00:42:05,990 --> 00:42:04,560
the pilots described now again maybe

1152
00:42:07,910 --> 00:42:06,000
there isn't enough information to be

1153
00:42:10,069 --> 00:42:07,920
able to really tell exactly what this

1154
00:42:11,750 --> 00:42:10,079
footage shows but what we could hope for

1155
00:42:13,510 --> 00:42:11,760
is that additional information such as

1156
00:42:15,750 --> 00:42:13,520
the likes of this pilot brief that just

1157
00:42:17,349 --> 00:42:15,760
recently was released by a foia request

1158
00:42:18,710 --> 00:42:17,359
to john greenwald you know these may

1159
00:42:19,750 --> 00:42:18,720
help us piece together some of these

1160
00:42:21,270 --> 00:42:19,760
elements

1161
00:42:22,950 --> 00:42:21,280
on down the road now

1162
00:42:24,870 --> 00:42:22,960
there's of course that third piece of

1163
00:42:26,390 --> 00:42:24,880

video that wasn't filmed in 2015 with

1164

00:42:28,790 --> 00:42:26,400

the folks there aboard the roosevelt

1165

00:42:30,790 --> 00:42:28,800

here we have the famous nimitz incident

1166

00:42:32,390 --> 00:42:30,800

pilot chad underwood who i believe now

1167

00:42:33,430 --> 00:42:32,400

is actually commander chad chad

1168

00:42:34,870 --> 00:42:33,440

underwood but

1169

00:42:37,589 --> 00:42:34,880

chad underwood goes out there he films

1170

00:42:39,270 --> 00:42:37,599

this thing what you see in the footage

1171

00:42:40,790 --> 00:42:39,280

again when he gets a good firm lock on

1172

00:42:42,150 --> 00:42:40,800

it and he zooms in and he's changing

1173

00:42:44,069 --> 00:42:42,160

through the different camera you know

1174

00:42:45,750 --> 00:42:44,079

filters and the actual uh you know the

1175

00:42:47,589 --> 00:42:45,760

aperture actually zooms in and you get a

1176
00:42:49,829 --> 00:42:47,599
pretty tight lock on that object and you

1177
00:42:51,910 --> 00:42:49,839
can see it i mean it looks essentially

1178
00:42:53,829 --> 00:42:51,920
like what uh commander fravor had

1179
00:42:55,589 --> 00:42:53,839
described along with pilot uh alex

1180
00:42:57,109 --> 00:42:55,599
dietrich when they went out there during

1181
00:42:58,309 --> 00:42:57,119
that intercept attempt you know they are

1182
00:42:59,750 --> 00:42:58,319
they're vectored out there and they say

1183
00:43:01,510 --> 00:42:59,760
that they see this thing they like into

1184
00:43:03,430 --> 00:43:01,520
being a tic tac

1185
00:43:05,030 --> 00:43:03,440
at least what's in the foot what we see

1186
00:43:07,270 --> 00:43:05,040
in that video grainy though it is

1187
00:43:09,109 --> 00:43:07,280
distorted though it is you know low res

1188
00:43:12,550 --> 00:43:09,119

though that is it still seems at least

1189

00:43:13,990 --> 00:43:12,560

superficially to match their description

1190

00:43:15,349 --> 00:43:14,000

and something that is very important i

1191

00:43:17,589 --> 00:43:15,359

think is that we have to look back

1192

00:43:18,390 --> 00:43:17,599

through ufological history and recognize

1193

00:43:23,190 --> 00:43:18,400

that

1194

00:43:25,510 --> 00:43:23,200

tic-tac but these egg-shaped or ovoid or

1195

00:43:27,510 --> 00:43:25,520

cylindrical or cigar-shaped many

1196

00:43:30,309 --> 00:43:27,520

different names over the years but these

1197

00:43:32,069 --> 00:43:30,319

descriptions have been with us at least

1198

00:43:33,910 --> 00:43:32,079

since the 1940s martin you know for

1199

00:43:35,510 --> 00:43:33,920

instance there was a very interesting

1200

00:43:38,790 --> 00:43:35,520

file that actually i think turned up

1201
00:43:40,390 --> 00:43:38,800
maybe both in the fbi and the cia files

1202
00:43:42,150 --> 00:43:40,400
but it actually came from a civilian

1203
00:43:44,630 --> 00:43:42,160
source it was published back in the

1204
00:43:46,069 --> 00:43:44,640
1950s it involved a test of skyhook

1205
00:43:48,950 --> 00:43:46,079
balloons that was occurring i believe at

1206
00:43:50,630 --> 00:43:48,960
white sands back in 19 it was april of

1207
00:43:52,470 --> 00:43:50,640
1948

1208
00:43:54,710 --> 00:43:52,480
and as they were doing the test they

1209
00:43:56,790 --> 00:43:54,720
were training little telescopes little

1210
00:43:58,069 --> 00:43:56,800
telescopes they were using on what they

1211
00:44:00,950 --> 00:43:58,079
thought was the balloon and then they

1212
00:44:01,910 --> 00:44:00,960
are suddenly aware of this object moving

1213
00:44:03,270 --> 00:44:01,920

through and they say that's not our

1214

00:44:05,190 --> 00:44:03,280

balloon that thing's moving far too

1215

00:44:06,630 --> 00:44:05,200

quickly and so they're armed with these

1216

00:44:09,270 --> 00:44:06,640

telescopes they are able to train their

1217

00:44:10,309 --> 00:44:09,280

scope on this moving object and at the

1218

00:44:11,589 --> 00:44:10,319

speed it's moving it's a little

1219

00:44:13,430 --> 00:44:11,599

difficult to follow it but they got a

1220

00:44:15,829 --> 00:44:13,440

fairly good look at it what do they

1221

00:44:17,670 --> 00:44:15,839

describe it as a oval shaped you know

1222

00:44:18,630 --> 00:44:17,680

light colored object that's moving very

1223

00:44:20,309 --> 00:44:18,640

quickly

1224

00:44:22,230 --> 00:44:20,319

obviously not the skyhook balloon that

1225

00:44:25,109 --> 00:44:22,240

they were actually following

1226

00:44:27,349 --> 00:44:25,119

this was at least as far as a good

1227

00:44:29,750 --> 00:44:27,359

documented case and this was actually

1228

00:44:32,309 --> 00:44:29,760

featured by nycap in their

1229

00:44:34,069 --> 00:44:32,319

publication the ufo evidence which at

1230

00:44:36,470 --> 00:44:34,079

that time was essentially what they

1231

00:44:39,190 --> 00:44:36,480

considered to be the best most reputable

1232

00:44:40,790 --> 00:44:39,200

ufo data informed by witness sightings

1233

00:44:42,950 --> 00:44:40,800

and other collected information that was

1234

00:44:44,550 --> 00:44:42,960

on hand and available at that time this

1235

00:44:46,870 --> 00:44:44,560

was published back in the 1960s i

1236

00:44:48,470 --> 00:44:46,880

believe but that case appears early in

1237

00:44:49,990 --> 00:44:48,480

the record because it is one of the

1238

00:44:52,150 --> 00:44:50,000

earliest one of the best recorded

1239

00:44:54,309 --> 00:44:52,160

sightings and also of interest to us

1240

00:44:57,109 --> 00:44:54,319

today very similar in the description of

1241

00:44:59,270 --> 00:44:57,119

the object to the famous nimitz incident

1242

00:45:01,589 --> 00:44:59,280

and it's not the only one this object

1243

00:45:03,430 --> 00:45:01,599

this general shape as far as ufology

1244

00:45:05,270 --> 00:45:03,440

goes has been recorded for many decades

1245

00:45:06,950 --> 00:45:05,280

so you know this is something that's of

1246

00:45:08,950 --> 00:45:06,960

interest to me if we try to look at

1247

00:45:11,109 --> 00:45:08,960

these cases like 2004 in the nimitz

1248

00:45:12,710 --> 00:45:11,119

incident and say well maybe china's out

1249

00:45:14,870 --> 00:45:12,720

there maybe russia

1250

00:45:16,710 --> 00:45:14,880

and that's actually a possibility some

1251
00:45:18,550 --> 00:45:16,720
of these modern uap incidents very well

1252
00:45:21,030 --> 00:45:18,560
could involve uh you know foreign

1253
00:45:22,550 --> 00:45:21,040
adversarial technologies uh aviation

1254
00:45:23,829 --> 00:45:22,560
journalist tai ragaway has made a very

1255
00:45:25,670 --> 00:45:23,839
compelling argument that some of these

1256
00:45:28,069 --> 00:45:25,680
may actually be low-level technologies

1257
00:45:30,550 --> 00:45:28,079
that are attempting to try and gauge the

1258
00:45:32,470 --> 00:45:30,560
efficacy of our radar systems and other

1259
00:45:33,670 --> 00:45:32,480
technologies in use by these carrier

1260
00:45:35,109 --> 00:45:33,680
strike groups

1261
00:45:36,710 --> 00:45:35,119
but when we look back through history

1262
00:45:38,870 --> 00:45:36,720
and we say okay back in the 40s or the

1263
00:45:40,630 --> 00:45:38,880

50s when people saw an anomalous object

1264

00:45:43,510 --> 00:45:40,640

that was very similar in description was

1265

00:45:45,670 --> 00:45:43,520

that the soviet union was that china was

1266

00:45:47,589 --> 00:45:45,680

any state actor including the united

1267

00:45:49,829 --> 00:45:47,599

states that had a technology like that

1268

00:45:52,230 --> 00:45:49,839

at that time the simple answer

1269

00:45:53,510 --> 00:45:52,240

none that are known and if anybody did

1270

00:45:55,349 --> 00:45:53,520

we have to rewrite the history of

1271

00:45:56,630 --> 00:45:55,359

aviation folks

1272

00:45:58,069 --> 00:45:56,640

not only that

1273

00:46:01,349 --> 00:45:58,079

you know they would be used during

1274

00:46:03,109 --> 00:46:01,359

wartime i mean why wouldn't they

1275

00:46:08,069 --> 00:46:03,119

i mean if we had that that type of

1276

00:46:11,750 --> 00:46:09,589

well certainly again this is a very

1277

00:46:13,670 --> 00:46:11,760

important question if this technology

1278

00:46:15,430 --> 00:46:13,680

was an experimental development that

1279

00:46:16,870 --> 00:46:15,440

occurred as far back as the 40s or even

1280

00:46:19,190 --> 00:46:16,880

as more you know let's say it was as

1281

00:46:20,470 --> 00:46:19,200

recently as the 1970s or 80s

1282

00:46:22,470 --> 00:46:20,480

you know would we not have seen this

1283

00:46:23,990 --> 00:46:22,480

deployed during the gulf war you know

1284

00:46:25,109 --> 00:46:24,000

would this not have been deployed at

1285

00:46:27,030 --> 00:46:25,119

some point would this not have been

1286

00:46:28,630 --> 00:46:27,040

revealed just like the b2 spirit you

1287

00:46:30,390 --> 00:46:28,640

know the stealth bomber

1288

00:46:32,790 --> 00:46:30,400

just like any other

1289

00:46:34,710 --> 00:46:32,800

once secret technologies again the u2

1290

00:46:37,109 --> 00:46:34,720

that was used back in the 1950s you know

1291

00:46:38,950 --> 00:46:37,119

the cold war spy plane technology

1292

00:46:41,430 --> 00:46:38,960

these you know aircraft cooked up out

1293

00:46:43,589 --> 00:46:41,440

there at groom lake and actually flown

1294

00:46:45,589 --> 00:46:43,599

and used for aerial reconnaissance of

1295

00:46:47,510 --> 00:46:45,599

the soviet union during the cold war

1296

00:46:48,950 --> 00:46:47,520

eventually we learned about those too

1297

00:46:50,390 --> 00:46:48,960

and you know that brings to mind martin

1298

00:46:52,390 --> 00:46:50,400

the very interesting conversation i had

1299

00:46:53,990 --> 00:46:52,400

a few years ago with robert schaefer uh

1300

00:46:55,990 --> 00:46:54,000

the noted skeptic

1301
00:46:58,470 --> 00:46:56,000
you know i'd asked him one time i said

1302
00:47:00,309 --> 00:46:58,480
do you think that there are are earthly

1303
00:47:02,550 --> 00:47:00,319
technologies that might account for some

1304
00:47:04,309 --> 00:47:02,560
of these sightings he said no no

1305
00:47:05,990 --> 00:47:04,319
i don't think so because if that were

1306
00:47:08,390 --> 00:47:06,000
the case those technologies would have

1307
00:47:10,550 --> 00:47:08,400
been revealed to us by now so again

1308
00:47:11,829 --> 00:47:10,560
robert is right there with us if these

1309
00:47:13,349 --> 00:47:11,839
were ours

1310
00:47:14,950 --> 00:47:13,359
that would have been revealed most

1311
00:47:16,870 --> 00:47:14,960
likely these wouldn't have remained

1312
00:47:19,589 --> 00:47:16,880
secret there would have been some

1313
00:47:21,109 --> 00:47:19,599

operational use and there would thereby

1314

00:47:23,270 --> 00:47:21,119

have been reporting on this or it would

1315

00:47:25,270 --> 00:47:23,280

have been declassified or disclosed to

1316

00:47:26,790 --> 00:47:25,280

the public as other aviation

1317

00:47:29,109 --> 00:47:26,800

developments now again that's a bit of a

1318

00:47:30,549 --> 00:47:29,119

supposition on our part the broader

1319

00:47:31,990 --> 00:47:30,559

point i'm trying to emphasize is that

1320

00:47:34,069 --> 00:47:32,000

essentially exactly what you and i are

1321

00:47:36,870 --> 00:47:34,079

discussing and making a i think a fairly

1322

00:47:38,549 --> 00:47:36,880

logical likely argument for skeptics has

1323

00:47:39,990 --> 00:47:38,559

said the same thing too

1324

00:47:41,670 --> 00:47:40,000

now where we would differ is that he

1325

00:47:43,910 --> 00:47:41,680

would say those really anomalous

1326
00:47:45,510 --> 00:47:43,920
sounding aircraft are no misperceptions

1327
00:47:47,750 --> 00:47:45,520
some are hoaxes some are natural

1328
00:47:49,829 --> 00:47:47,760
phenomena but they're misidentified no

1329
00:47:51,829 --> 00:47:49,839
you or i might say well maybe there's

1330
00:47:53,190 --> 00:47:51,839
something more to it but what's really

1331
00:47:54,309 --> 00:47:53,200
again this coming back to the recent

1332
00:47:56,390 --> 00:47:54,319
videos

1333
00:47:58,150 --> 00:47:56,400
you know the 2004 footage appears to

1334
00:48:00,069 --> 00:47:58,160
show an object that's very similar not

1335
00:48:02,069 --> 00:48:00,079
only to what the pilot said that they'd

1336
00:48:04,069 --> 00:48:02,079
encountered that day but also that the

1337
00:48:05,670 --> 00:48:04,079
history of ufology shows us that people

1338
00:48:07,829 --> 00:48:05,680

have actually said they've encountered

1339

00:48:09,990 --> 00:48:07,839

for many decades on many occasions so

1340

00:48:11,829 --> 00:48:10,000

here again we have to ask ourselves if

1341

00:48:13,510 --> 00:48:11,839

this is a phenomenon that people have

1342

00:48:15,990 --> 00:48:13,520

described seeing we now have footage

1343

00:48:17,589 --> 00:48:16,000

that appears to correlate with a modern

1344

00:48:19,670 --> 00:48:17,599

sighting of one of these and by military

1345

00:48:20,950 --> 00:48:19,680

service men and women no less can we

1346

00:48:23,030 --> 00:48:20,960

really continue to say these are just

1347

00:48:25,030 --> 00:48:23,040

hoaxes misperceptions you know celestial

1348

00:48:27,109 --> 00:48:25,040

phenomena and what have you what appears

1349

00:48:28,870 --> 00:48:27,119

in that video indistinct though it may

1350

00:48:30,630 --> 00:48:28,880

be it looks pretty interesting and it

1351

00:48:32,829 --> 00:48:30,640

looks a lot like the history of ufology

1352

00:48:35,109 --> 00:48:32,839

and what it has told us about now for

1353

00:48:38,230 --> 00:48:35,119

decades right you know in the you know

1354

00:48:41,349 --> 00:48:38,240

the first frustrating part has been

1355

00:48:42,710 --> 00:48:41,359

um when i've been listening along uh the

1356

00:48:44,069 --> 00:48:42,720

last you know 10 years that i've been

1357

00:48:45,349 --> 00:48:44,079

doing this show

1358

00:48:48,870 --> 00:48:45,359

uh when

1359

00:48:51,910 --> 00:48:48,880

people will talk about the technology

1360

00:48:54,150 --> 00:48:51,920

that they're seeing and and only state

1361

00:48:56,470 --> 00:48:54,160

it as if it's been around for the last

1362

00:48:58,549 --> 00:48:56,480

few years only and not

1363

00:49:01,030 --> 00:48:58,559

go back and look at historical cases

1364

00:49:03,270 --> 00:49:01,040

that's the one thing about what the uh

1365

00:49:05,990 --> 00:49:03,280

task force was doing i believe they

1366

00:49:08,069 --> 00:49:06,000

wouldn't look at anything before i can't

1367

00:49:10,790 --> 00:49:08,079

remember the date but it was sometime in

1368

00:49:13,510 --> 00:49:10,800

the 2000s uh they were not going to look

1369

00:49:15,829 --> 00:49:13,520

at anything historic uh earlier than

1370

00:49:17,030 --> 00:49:15,839

that because they said the technology

1371

00:49:19,750 --> 00:49:17,040

for the data

1372

00:49:21,190 --> 00:49:19,760

wasn't is not available uh enough to

1373

00:49:23,750 --> 00:49:21,200

give a really clear picture of what's

1374

00:49:23,760 --> 00:49:26,549

so uh

1375

00:49:31,349 --> 00:49:28,549

yeah i'm sorry go ahead martin no no i i

1376

00:49:33,750 --> 00:49:31,359

was basically just finishing up uh

1377

00:49:35,589 --> 00:49:33,760

so that you know they it's too bad it's

1378

00:49:37,349 --> 00:49:35,599

the old case of throwing you know the

1379

00:49:39,750 --> 00:49:37,359

baby out with the bathwater not taking a

1380

00:49:41,510 --> 00:49:39,760

look at the historical cases i believe i

1381

00:49:44,710 --> 00:49:41,520

spoke with that the last time lou

1382

00:49:46,069 --> 00:49:44,720

alexander was on on the show and he more

1383

00:49:48,470 --> 00:49:46,079

or less agreed

1384

00:49:50,630 --> 00:49:48,480

um with that that there should be

1385

00:49:52,309 --> 00:49:50,640

historic cases looked into with the data

1386

00:49:55,270 --> 00:49:52,319

that

1387

00:49:58,309 --> 00:49:55,280

does exist

1388

00:49:59,990 --> 00:49:58,319

just to make the case that if these

1389

00:50:00,790 --> 00:50:00,000

technologies were

1390

00:50:03,829 --> 00:50:00,800

um

1391

00:50:06,870 --> 00:50:03,839

available back in 1965 then why haven't

1392

00:50:08,470 --> 00:50:06,880

we seen them if there are adversaries or

1393

00:50:12,230 --> 00:50:08,480

some you know black project the

1394

00:50:13,910 --> 00:50:12,240

government has or something

1395

00:50:16,069 --> 00:50:13,920

yeah certainly you know again i think

1396

00:50:18,390 --> 00:50:16,079

that the sort of i think it might be

1397

00:50:20,230 --> 00:50:18,400

fair to call it a fixation

1398

00:50:22,390 --> 00:50:20,240

that people have on the modern cases to

1399

00:50:23,750 --> 00:50:22,400

your point it does seem to have a lot to

1400

00:50:28,309 --> 00:50:23,760

do

1401

00:50:29,589 --> 00:50:28,319

with the idea that in the early 2000s

1402

00:50:31,750 --> 00:50:29,599

our navy

1403

00:50:33,829 --> 00:50:31,760

and of course the air force ii and other

1404

00:50:35,510 --> 00:50:33,839

branches of the military began to update

1405

00:50:37,190 --> 00:50:35,520

their equipment

1406

00:50:39,190 --> 00:50:37,200

and this is worthy of some discussion

1407

00:50:41,190 --> 00:50:39,200

here actually because i've seen many

1408

00:50:43,589 --> 00:50:41,200

seth showstack you know has

1409

00:50:44,870 --> 00:50:43,599

rightly asked what is it about our navy

1410

00:50:46,309 --> 00:50:44,880

aircraft you know why do they keep

1411

00:50:47,990 --> 00:50:46,319

seeing these things

1412

00:50:50,630 --> 00:50:48,000

well one of the reasons seems to have

1413

00:50:53,109 --> 00:50:50,640

been the fact that in the early 2000s

1414

00:50:55,349 --> 00:50:53,119

the navy had just updated not only their

1415

00:50:56,950 --> 00:50:55,359

fa-18 fighter craft

1416

00:50:58,790 --> 00:50:56,960

with the targeting pod we were

1417

00:51:01,109 --> 00:50:58,800

discussing earlier the raytheon's at

1418

00:51:02,870 --> 00:51:01,119

flear but they also had updated their

1419

00:51:05,670 --> 00:51:02,880

radar systems you know they no longer

1420

00:51:08,390 --> 00:51:05,680

had a machine controlled directional

1421

00:51:10,710 --> 00:51:08,400

radar they actually now have these

1422

00:51:12,710 --> 00:51:10,720

phased array radars also built by

1423

00:51:15,270 --> 00:51:12,720

raytheon that are able to very quickly

1424

00:51:17,910 --> 00:51:15,280

scan electronically and cover a much

1425

00:51:20,150 --> 00:51:17,920

wider scope of the you know the area

1426

00:51:22,150 --> 00:51:20,160

around them than the earlier actually

1427

00:51:23,829 --> 00:51:22,160

this was based on 1980s technology

1428

00:51:25,109 --> 00:51:23,839

radars that they've been equipped with

1429

00:51:26,790 --> 00:51:25,119

before that

1430

00:51:29,589 --> 00:51:26,800

most of those upgrades according to my

1431

00:51:30,950 --> 00:51:29,599

understanding began in around 2007

1432

00:51:32,710 --> 00:51:30,960

and then you know over the course of the

1433

00:51:33,829 --> 00:51:32,720

next several years as they were updating

1434

00:51:34,950 --> 00:51:33,839

these and these fleets were being

1435

00:51:36,309 --> 00:51:34,960

deployed

1436

00:51:37,670 --> 00:51:36,319

people had pointed out and obviously

1437

00:51:39,349 --> 00:51:37,680

actually these updates had occurred a

1438

00:51:41,750 --> 00:51:39,359

little earlier in the case of the nimitz

1439

00:51:44,549 --> 00:51:41,760

incident because that was in 2004 but

1440

00:51:46,870 --> 00:51:44,559

case in point they had recently upgraded

1441

00:51:49,349 --> 00:51:46,880

again the uss princeton has its spy one

1442

00:51:50,950 --> 00:51:49,359

bravo you know radar you can see the uh

1443

00:51:52,710 --> 00:51:50,960

in the footage if you or or if you look

1444

00:51:54,470 --> 00:51:52,720

at photographs of the princeton you'll

1445

00:51:56,630 --> 00:51:54,480

see this kind of hexagonal pad on the

1446

00:51:58,230 --> 00:51:56,640

front of the ship now i'm no expert in

1447

00:51:59,670 --> 00:51:58,240

these military technologies there are

1448

00:52:01,589 --> 00:51:59,680

many people out there who are tai

1449

00:52:03,349 --> 00:52:01,599

ragaway who i mentioned of the war zone

1450

00:52:05,030 --> 00:52:03,359

is certainly one of them you know and i

1451

00:52:06,549 --> 00:52:05,040

also spoke with the servicemen you

1452

00:52:07,990 --> 00:52:06,559

probably have as well of course gary

1453

00:52:09,750 --> 00:52:08,000

voorhees kevin day and people who

1454

00:52:11,030 --> 00:52:09,760

actually served on board the princeton

1455

00:52:12,390 --> 00:52:11,040

i've talked with him about this a bit

1456

00:52:14,790 --> 00:52:12,400

too but the point is is that these

1457

00:52:16,470 --> 00:52:14,800

upgrades had occurred fairly recently

1458

00:52:17,829 --> 00:52:16,480

and mentioning the war zone there for a

1459

00:52:19,670 --> 00:52:17,839

moment they were the first actually to

1460

00:52:21,349 --> 00:52:19,680

report on the fact that hey you know

1461

00:52:22,950 --> 00:52:21,359

what it was right after these upgrades

1462

00:52:24,549 --> 00:52:22,960

occurred and they were equipped with

1463

00:52:25,910 --> 00:52:24,559

these new radar systems these new

1464

00:52:27,910 --> 00:52:25,920

tracking pods and there were certain

1465

00:52:29,510 --> 00:52:27,920

other technologies too

1466

00:52:31,190 --> 00:52:29,520

that's when they start observing these

1467

00:52:33,829 --> 00:52:31,200

objects and they start picking up things

1468

00:52:35,430 --> 00:52:33,839

which again one might make the argument

1469

00:52:37,670 --> 00:52:35,440

they had been there

1470

00:52:39,349 --> 00:52:37,680

yeah so long but now they were equipped

1471

00:52:41,430 --> 00:52:39,359

to detect these things and you know a

1472

00:52:42,710 --> 00:52:41,440

historical corollary for this martin

1473

00:52:43,829 --> 00:52:42,720

goes all the way back to the second

1474

00:52:49,190 --> 00:52:43,839

world war

1475

00:52:50,790 --> 00:52:49,200

united states canada germany and then

1476

00:52:52,470 --> 00:52:50,800

shortly thereafter other nations too

1477

00:52:55,910 --> 00:52:52,480

britain of course also they began to

1478

00:52:57,910 --> 00:52:55,920

institute radar systems in wartime and

1479

00:52:59,349 --> 00:52:57,920

this new technology

1480

00:53:00,630 --> 00:52:59,359

essentially accompanies what when we

1481

00:53:02,309 --> 00:53:00,640

start seeing first of all actually

1482

00:53:04,390 --> 00:53:02,319

during the theater over europe and also

1483

00:53:05,910 --> 00:53:04,400

over the portions of the pacific these

1484

00:53:08,150 --> 00:53:05,920

accounts involving sightings of

1485

00:53:09,990 --> 00:53:08,160

so-called foo fighters and what have you

1486

00:53:11,829 --> 00:53:10,000

and it was in the years after the second

1487

00:53:13,990 --> 00:53:11,839

world war once the conflict was over

1488

00:53:15,589 --> 00:53:14,000

with we really start seeing not only

1489

00:53:17,430 --> 00:53:15,599

people saying they see things in the sky

1490

00:53:19,190 --> 00:53:17,440

but now we can also corroborate those

1491

00:53:21,190 --> 00:53:19,200

visual sightings with this new

1492

00:53:22,390 --> 00:53:21,200

technology these radar systems

1493

00:53:23,910 --> 00:53:22,400

for a long time there have been people

1494

00:53:25,670 --> 00:53:23,920

who have tried to argue the first

1495

00:53:27,670 --> 00:53:25,680

appearances of the ufos occur right

1496

00:53:29,670 --> 00:53:27,680

after we use nuclear weapons well you

1497

00:53:31,030 --> 00:53:29,680

know if we take into account the foo

1498

00:53:32,710 --> 00:53:31,040

fighter sightings

1499

00:53:35,109 --> 00:53:32,720

that's not necessarily true if those

1500

00:53:36,470 --> 00:53:35,119

represent ufo technologies some of those

1501
00:53:38,870 --> 00:53:36,480
sightings occurred well before they were

1502
00:53:40,670 --> 00:53:38,880
use of nuclear weapons and this whole

1503
00:53:43,109 --> 00:53:40,680
idea that was kind of you know the

1504
00:53:44,549 --> 00:53:43,119
proliferated for years that the

1505
00:53:46,309 --> 00:53:44,559
the intelligence the phenomena whatever

1506
00:53:47,670 --> 00:53:46,319
it is it was drawn to our use of nuclear

1507
00:53:49,510 --> 00:53:47,680
technologies

1508
00:53:51,910 --> 00:53:49,520
there's there's definitely some good

1509
00:53:54,870 --> 00:53:51,920
information that's suggestive of

1510
00:53:57,270 --> 00:53:54,880
the fact that uap are drawn to nuclear

1511
00:53:58,309 --> 00:53:57,280
sites facilities uh you know aircraft

1512
00:54:00,069 --> 00:53:58,319
carriers

1513
00:54:01,750 --> 00:54:00,079

that's definitely a component in all

1514

00:54:03,270 --> 00:54:01,760

this that we could talk about but i

1515

00:54:05,829 --> 00:54:03,280

don't think that we should say that that

1516

00:54:07,589 --> 00:54:05,839

is where the modern ufology as we know

1517

00:54:09,109 --> 00:54:07,599

it really begins i would say

1518

00:54:10,950 --> 00:54:09,119

technologically that's when we were

1519

00:54:12,710 --> 00:54:10,960

beginning to be equipped to be able to

1520

00:54:14,309 --> 00:54:12,720

determine that there were objects in the

1521

00:54:17,190 --> 00:54:14,319

sky people had said they'd seen things

1522

00:54:18,710 --> 00:54:17,200

for decades maybe centuries before that

1523

00:54:20,710 --> 00:54:18,720

and again that gets a little further

1524

00:54:23,030 --> 00:54:20,720

back in time you go far enough back it's

1525

00:54:25,190 --> 00:54:23,040

harder to corroborate those historical

1526
00:54:26,870 --> 00:54:25,200
accounts but there certainly are some

1527
00:54:28,870 --> 00:54:26,880
accounts involving anomalous aerial

1528
00:54:31,109 --> 00:54:28,880
phenomena throughout the ages that at

1529
00:54:32,790 --> 00:54:31,119
least bear similarity to some of the

1530
00:54:34,309 --> 00:54:32,800
modern accounts and it's intriguing to

1531
00:54:36,069 --> 00:54:34,319
entertain that idea that maybe these

1532
00:54:39,030 --> 00:54:36,079
represent certain phenomena that have

1533
00:54:40,950 --> 00:54:39,040
been with us much longer i totally agree

1534
00:54:43,829 --> 00:54:40,960
and that that is something i've come up

1535
00:54:45,910 --> 00:54:43,839
with uh in my thoughts as well

1536
00:54:47,670 --> 00:54:45,920
that you know perhaps it's

1537
00:54:49,430 --> 00:54:47,680
it's not that uh

1538
00:54:52,870 --> 00:54:49,440

you know we're just seeing these

1539

00:54:54,470 --> 00:54:52,880

because they're just here now it's only

1540

00:54:56,549 --> 00:54:54,480

uh we're seeing these because we have

1541

00:54:59,589 --> 00:54:56,559

the technology to see these things

1542

00:55:00,710 --> 00:54:59,599

differently than we ever had before so i

1543

00:55:26,150 --> 00:55:00,720

i

1544

00:55:28,470 --> 00:55:26,160

haven't seen before and you know many

1545

00:55:30,470 --> 00:55:28,480

times i've we i've mentioned on this

1546

00:55:32,470 --> 00:55:30,480

program too we only see

1547

00:55:34,470 --> 00:55:32,480

physically see in a very small spectrum

1548

00:55:36,309 --> 00:55:34,480

of what is out there and we don't may

1549

00:55:37,990 --> 00:55:36,319

not even have

1550

00:55:39,910 --> 00:55:38,000

the idea how to

1551

00:55:42,710 --> 00:55:39,920

uh have you know create equipment that

1552

00:55:44,710 --> 00:55:42,720

can see completely where we can't

1553

00:55:48,549 --> 00:55:44,720

you know because we may not understand

1554

00:55:50,069 --> 00:55:48,559

you know the the waves or whatever it is

1555

00:55:52,549 --> 00:55:50,079

well you know again we when we look at

1556

00:55:54,870 --> 00:55:52,559

some of these modern accounts what we

1557

00:55:56,710 --> 00:55:54,880

are often hearing about are sightings of

1558

00:55:58,630 --> 00:55:56,720

things that occurred either they were

1559

00:55:59,910 --> 00:55:58,640

seen through you know the actual cockpit

1560

00:56:02,069 --> 00:55:59,920

display they were observed through

1561

00:56:04,230 --> 00:56:02,079

infrared but they were more difficult to

1562

00:56:05,990 --> 00:56:04,240

discern visually if it weren't for the

1563

00:56:07,750 --> 00:56:06,000

radar or the infrared systems on board

1564

00:56:09,510 --> 00:56:07,760

these aircraft these objects might not

1565

00:56:10,549 --> 00:56:09,520

have been discerned at all so that is a

1566

00:56:13,109 --> 00:56:10,559

compelling

1567

00:56:14,870 --> 00:56:13,119

element to all this and i make no claims

1568

00:56:16,230 --> 00:56:14,880

as to what the provenance is you know

1569

00:56:18,230 --> 00:56:16,240

these phenomena how long they've been

1570

00:56:20,710 --> 00:56:18,240

around again we're entertaining some

1571

00:56:23,510 --> 00:56:20,720

ideas here but one might speculate that

1572

00:56:25,430 --> 00:56:23,520

the fact that the technology has helped

1573

00:56:27,750 --> 00:56:25,440

to augment human perception of the

1574

00:56:29,750 --> 00:56:27,760

phenomenon may indicate that this could

1575

00:56:31,670 --> 00:56:29,760

have been around for far longer and that

1576

00:56:33,829 --> 00:56:31,680

we've just been limited in how much data

1577

00:56:35,750 --> 00:56:33,839

we've been able to collect

1578

00:56:37,589 --> 00:56:35,760

right and i know you go all the way back

1579

00:56:39,670 --> 00:56:37,599

to you know we can't say the cave

1580

00:56:40,870 --> 00:56:39,680

paintings are accurate we don't know it

1581

00:56:43,109 --> 00:56:40,880

could have been

1582

00:56:44,390 --> 00:56:43,119

uh you know they're they're it may have

1583

00:56:47,030 --> 00:56:44,400

been their

1584

00:56:49,270 --> 00:56:47,040

their idea of what a god was or whatever

1585

00:56:51,030 --> 00:56:49,280

you know some people argue that the gods

1586

00:56:53,270 --> 00:56:51,040

are coming from the sky those are aliens

1587

00:56:54,230 --> 00:56:53,280

but you know who knows you know it's you

1588

00:56:58,630 --> 00:56:54,240

can't

1589

00:57:00,309 --> 00:56:58,640

time and see where these you know

1590

00:57:02,549 --> 00:57:00,319

drawings and think cave drawings were

1591

00:57:05,910 --> 00:57:02,559

coming from either

1592

00:57:08,069 --> 00:57:05,920

um but you're down in an area right now

1593

00:57:11,589 --> 00:57:08,079

where there's a lot of early history

1594

00:57:13,109 --> 00:57:11,599

human history and uh and that whole you

1595

00:57:16,150 --> 00:57:13,119

know central and south america is

1596

00:57:17,270 --> 00:57:16,160

fascinating to me can you talk about uh

1597

00:57:19,190 --> 00:57:17,280

you mentioned that you're doing some

1598

00:57:21,349 --> 00:57:19,200

interviews can you talk about

1599

00:57:23,349 --> 00:57:21,359

um any particular cases that you're

1600

00:57:27,670 --> 00:57:23,359

researching or anything along those

1601
00:57:30,470 --> 00:57:27,680
lines or people you're speaking with

1602
00:57:32,309 --> 00:57:30,480
uh yeah i can and uh briefly i know that

1603
00:57:34,309 --> 00:57:32,319
of course you and i both share an uh

1604
00:57:35,670 --> 00:57:34,319
interest in archaeology martin and so

1605
00:57:36,950 --> 00:57:35,680
it's it's great that you mentioned the

1606
00:57:39,109 --> 00:57:36,960
fact that there's a long history of

1607
00:57:41,349 --> 00:57:39,119
human uh involvement in south america

1608
00:57:42,710 --> 00:57:41,359
because i had the pleasure of talking a

1609
00:57:45,670 --> 00:57:42,720
while back with

1610
00:57:47,670 --> 00:57:45,680
um tom dillahey of vanderbilt university

1611
00:57:49,670 --> 00:57:47,680
and he was the archaeologist that led

1612
00:57:52,470 --> 00:57:49,680
the excavations at a site called

1613
00:57:54,870 --> 00:57:52,480

monteverde in chile and that of course

1614

00:57:56,950 --> 00:57:54,880

is a site that was first recognized for

1615

00:57:59,030 --> 00:57:56,960

being earlier than what we recognized as

1616

00:58:01,030 --> 00:57:59,040

clovis there are actually radiocarbon

1617

00:58:03,109 --> 00:58:01,040

dates there from multiberry b

1618

00:58:04,870 --> 00:58:03,119

they go back in excess of 30 000 years

1619

00:58:06,230 --> 00:58:04,880

so as you mentioned yes

1620

00:58:08,630 --> 00:58:06,240

humans have been here on the south

1621

00:58:10,230 --> 00:58:08,640

american continent for a very long time

1622

00:58:11,349 --> 00:58:10,240

that raises some intriguing questions

1623

00:58:13,510 --> 00:58:11,359

but they're beyond the scope of what

1624

00:58:14,789 --> 00:58:13,520

we're discussing tonight as far as uav

1625

00:58:16,470 --> 00:58:14,799

here in brazil

1626
00:58:17,750 --> 00:58:16,480
uh you know last september i was down

1627
00:58:20,230 --> 00:58:17,760
here in brazil

1628
00:58:22,470 --> 00:58:20,240
again or that was my original

1629
00:58:24,789 --> 00:58:22,480
trip i'm here again now and uh we

1630
00:58:27,670 --> 00:58:24,799
visited the chapada dos villaderos which

1631
00:58:28,950 --> 00:58:27,680
is a unesco world heritage site it's you

1632
00:58:30,309 --> 00:58:28,960
know again most people when they think

1633
00:58:32,069 --> 00:58:30,319
of brazil

1634
00:58:34,390 --> 00:58:32,079
they think of you know the amazon

1635
00:58:35,510 --> 00:58:34,400
rainforest shabbatos viaderos is very

1636
00:58:38,150 --> 00:58:35,520
different

1637
00:58:40,230 --> 00:58:38,160
it actually more closely resembles

1638
00:58:42,870 --> 00:58:40,240

the african savannah

1639

00:58:45,349 --> 00:58:42,880

but there are these really beautiful

1640

00:58:47,510 --> 00:58:45,359

uh river systems and waterfalls all

1641

00:58:50,549 --> 00:58:47,520

throughout the shapada

1642

00:58:52,309 --> 00:58:50,559

and it's also known for its abundance of

1643

00:58:53,910 --> 00:58:52,319

quartz quartz crystal in you know

1644

00:58:55,190 --> 00:58:53,920

various parts especially around these

1645

00:58:56,390 --> 00:58:55,200

waterfalls and you can get out there in

1646

00:58:57,910 --> 00:58:56,400

the water and you can kind of run your

1647

00:58:59,270 --> 00:58:57,920

hands through the stone

1648

00:59:01,670 --> 00:58:59,280

and you'll see all these beautiful you

1649

00:59:03,030 --> 00:59:01,680

know shaped uh crystals that come up in

1650

00:59:05,510 --> 00:59:03,040

in your hand that have been hewn over

1651
00:59:06,630 --> 00:59:05,520
time and that are kind of revealed by

1652
00:59:08,870 --> 00:59:06,640
the water

1653
00:59:10,470 --> 00:59:08,880
beautiful area but of course also in

1654
00:59:12,230 --> 00:59:10,480
addition to its natural beauty there are

1655
00:59:14,549 --> 00:59:12,240
many stories

1656
00:59:16,150 --> 00:59:14,559
of sightings of aerial phenomenon to

1657
00:59:17,750 --> 00:59:16,160
give a couple of examples the brazilian

1658
00:59:19,829 --> 00:59:17,760
ufo magazine that i mentioned earlier

1659
00:59:21,990 --> 00:59:19,839
published by aj giavard

1660
00:59:23,589 --> 00:59:22,000
described a case from shapada a number

1661
00:59:25,589 --> 00:59:23,599
of years ago where there was a group

1662
00:59:27,270 --> 00:59:25,599
that had actually gone to the side

1663
00:59:28,870 --> 00:59:27,280

and one of the nearby towns is called

1664

00:59:30,390 --> 00:59:28,880

alto parisu

1665

00:59:32,069 --> 00:59:30,400

and i've actually stayed for a few days

1666

00:59:33,190 --> 00:59:32,079

in alto parisu and we spoke with some of

1667

00:59:34,549 --> 00:59:33,200

the locals who had had their own

1668

00:59:36,390 --> 00:59:34,559

encounters i'll get to that in a moment

1669

00:59:37,990 --> 00:59:36,400

but the article was describing a tour

1670

00:59:39,910 --> 00:59:38,000

group from that site

1671

00:59:41,990 --> 00:59:39,920

and they had gone out to this location

1672

00:59:42,950 --> 00:59:42,000

and one of the uh women who was with the

1673

00:59:46,230 --> 00:59:42,960

tour

1674

00:59:47,109 --> 00:59:46,240

suddenly vanished nobody could find her

1675

00:59:48,549 --> 00:59:47,119

and

1676
00:59:49,990 --> 00:59:48,559
they spend several minutes looking for

1677
00:59:51,829 --> 00:59:50,000
her and then they say you know she's

1678
00:59:53,349 --> 00:59:51,839
just gone they go and they get the local

1679
00:59:55,270 --> 00:59:53,359
police and they bring the police out and

1680
00:59:57,030 --> 00:59:55,280
then after i think more than an hour

1681
00:59:58,950 --> 00:59:57,040
they finally find the woman she comes

1682
01:00:01,109 --> 00:59:58,960
stumbling up toward

1683
01:00:03,589 --> 01:00:01,119
the tour group she's a little you know

1684
01:00:05,990 --> 01:00:03,599
battered and bruised looking

1685
01:00:06,950 --> 01:00:06,000
but she's okay and they said where were

1686
01:00:08,870 --> 01:00:06,960
you

1687
01:00:10,710 --> 01:00:08,880
and she said all i know is that i came

1688
01:00:13,349 --> 01:00:10,720

to right over there and she points to an

1689

01:00:15,829 --> 01:00:13,359

area just a few maybe 100 yards away and

1690

01:00:17,990 --> 01:00:15,839

she says the last thing i remember

1691

01:00:19,510 --> 01:00:18,000

was there being a very bright light and

1692

01:00:21,510 --> 01:00:19,520

i walked toward it

1693

01:00:22,549 --> 01:00:21,520

and then she vanished and and right

1694

01:00:23,670 --> 01:00:22,559

there in the midst of all these other

1695

01:00:25,349 --> 01:00:23,680

people

1696

01:00:26,870 --> 01:00:25,359

now there were numerous locations in

1697

01:00:28,870 --> 01:00:26,880

shapada which by the way you have to

1698

01:00:29,829 --> 01:00:28,880

hire a guide to actually be able to go

1699

01:00:31,510 --> 01:00:29,839

in there

1700

01:00:34,789 --> 01:00:31,520

and one of the areas that we went down

1701

01:00:37,109 --> 01:00:34,799

into our guide was telling us all about

1702

01:00:38,950 --> 01:00:37,119

how one night driving his pickup home

1703

01:00:42,150 --> 01:00:38,960

back to alto pariso where he actually

1704

01:00:44,390 --> 01:00:42,160

lives he said he was followed by a blue

1705

01:00:45,349 --> 01:00:44,400

kind of orb of light that descended from

1706

01:00:48,789 --> 01:00:45,359

the sky

1707

01:00:50,309 --> 01:00:48,799

uh reached a level over the highway uh

1708

01:00:52,950 --> 01:00:50,319

that it kind of

1709

01:00:54,710 --> 01:00:52,960

you know maintained and it kept a pace

1710

01:00:56,710 --> 01:00:54,720

with his truck as it followed him down

1711

01:00:58,150 --> 01:00:56,720

the road and it followed him almost all

1712

01:01:00,549 --> 01:00:58,160

the way to alta pariso and then turned

1713

01:01:02,470 --> 01:01:00,559

off before he actually reached the town

1714

01:01:03,589 --> 01:01:02,480

but what he told us was that many of the

1715

01:01:05,109 --> 01:01:03,599

locals have had these kinds of

1716

01:01:06,789 --> 01:01:05,119

experiences there are certain

1717

01:01:09,510 --> 01:01:06,799

superstitions you know everybody

1718

01:01:11,750 --> 01:01:09,520

interprets things a lot differently

1719

01:01:13,030 --> 01:01:11,760

from what you probably think

1720

01:01:14,789 --> 01:01:13,040

many people actually in the town

1721

01:01:17,270 --> 01:01:14,799

embraced this and this was a big shock

1722

01:01:18,630 --> 01:01:17,280

to me i got to the town thinking oh okay

1723

01:01:20,549 --> 01:01:18,640

you know it will be interesting if

1724

01:01:22,390 --> 01:01:20,559

anybody talks at all about

1725

01:01:23,510 --> 01:01:22,400

these alleged ufo sightings at this

1726

01:01:25,670 --> 01:01:23,520

place

1727

01:01:27,829 --> 01:01:25,680

but we got there at night the next day

1728

01:01:30,789 --> 01:01:27,839

we go out and as we're walking around

1729

01:01:32,789 --> 01:01:30,799

town there are i mean shops that are

1730

01:01:34,870 --> 01:01:32,799

called you know the alia nisianas this

1731

01:01:36,789 --> 01:01:34,880

is alien in brazilian portuguese you

1732

01:01:38,470 --> 01:01:36,799

know the alien end there's a bed and

1733

01:01:40,069 --> 01:01:38,480

breakfast that has a flying saucer out

1734

01:01:41,349 --> 01:01:40,079

front there's a restaurant called area

1735

01:01:43,910 --> 01:01:41,359

51.

1736

01:01:45,109 --> 01:01:43,920

so yes i would liken it very much to

1737

01:01:47,670 --> 01:01:45,119

roswell

1738

01:01:49,030 --> 01:01:47,680

sedona arizona they very much embrace

1739

01:01:51,190 --> 01:01:49,040

the culture

1740

01:01:53,589 --> 01:01:51,200

and the whole in fact certain aspects of

1741

01:01:55,109 --> 01:01:53,599

american ufology as well but what's

1742

01:01:57,029 --> 01:01:55,119

particularly interesting to me about

1743

01:01:58,870 --> 01:01:57,039

that martin is that you know i've heard

1744

01:02:01,109 --> 01:01:58,880

commentators try to say that you know

1745

01:02:02,390 --> 01:02:01,119

ufos are a phenomenon that primarily

1746

01:02:04,630 --> 01:02:02,400

only occur in the western world

1747

01:02:06,630 --> 01:02:04,640

especially the united states this is a

1748

01:02:08,150 --> 01:02:06,640

culture-bound phenomenon why don't

1749

01:02:10,390 --> 01:02:08,160

people see ufos in other parts of the

1750

01:02:11,829 --> 01:02:10,400

world look i've got news for you there's

1751

01:02:13,349 --> 01:02:11,839

as much interest there's as much

1752

01:02:15,589 --> 01:02:13,359

cultural significance and there are as

1753

01:02:17,029 --> 01:02:15,599

many sightings and historical data in

1754

01:02:20,870 --> 01:02:17,039

the support of these kinds of sightings

1755

01:02:22,230 --> 01:02:20,880

in brazil as any place i've visited

1756

01:02:23,990 --> 01:02:22,240

excellent wow

1757

01:02:26,549 --> 01:02:24,000

uh yeah i

1758

01:02:29,029 --> 01:02:26,559

it's it sounds fascinating sounds like

1759

01:02:30,549 --> 01:02:29,039

uh you know you mentioned the word you

1760

01:02:31,910 --> 01:02:30,559

mentioned the

1761

01:02:33,029 --> 01:02:31,920

geological

1762

01:02:34,710 --> 01:02:33,039

um

1763

01:02:37,670 --> 01:02:34,720

aspect

1764

01:02:39,270 --> 01:02:37,680

that's featured in that area as quartz

1765

01:02:41,670 --> 01:02:39,280

and i find that

1766

01:02:44,230 --> 01:02:41,680

very interesting because you it just

1767

01:02:47,109 --> 01:02:44,240

seems to be one of the

1768

01:02:49,750 --> 01:02:47,119

things that often comes up in an area

1769

01:02:52,390 --> 01:02:49,760

where they consider like a hot spot

1770

01:02:55,670 --> 01:02:52,400

um you know it's not just quartz but a

1771

01:02:56,870 --> 01:02:55,680

lot of times you know like a high um you

1772

01:02:58,950 --> 01:02:56,880

know copper

1773

01:03:02,309 --> 01:02:58,960

uh content in the area or veins of

1774

01:03:04,630 --> 01:03:02,319

copper and things like that um and so i

1775

01:03:08,549 --> 01:03:04,640

i find this this thing about quartz what

1776

01:03:12,309 --> 01:03:10,549

yes it is i find that interesting also

1777

01:03:14,630 --> 01:03:12,319

because again i'm a longtime student of

1778

01:03:17,670 --> 01:03:14,640

william r corliss and uh you know the

1779

01:03:19,589 --> 01:03:17,680

idea that there are natural geophysical

1780

01:03:21,109 --> 01:03:19,599

phenomena that produce

1781

01:03:22,870 --> 01:03:21,119

what have variously been described as

1782

01:03:23,589 --> 01:03:22,880

nocturnal lights all different kinds of

1783

01:03:25,430 --> 01:03:23,599

yeah

1784

01:03:27,750 --> 01:03:25,440

and things along those lines

1785

01:03:30,150 --> 01:03:27,760

uh but uh one of those hot spots that

1786

01:03:32,230 --> 01:03:30,160

you're talking about is brown mountain

1787

01:03:34,470 --> 01:03:32,240

north carolina right yes you know i

1788

01:03:36,710 --> 01:03:34,480

spent many many years went down to brown

1789

01:03:39,349 --> 01:03:36,720

mountain the the uh the uh elusive and

1790

01:03:41,349 --> 01:03:39,359

enigmatic dr krazinski my host

1791

01:03:43,190 --> 01:03:41,359

down here in brazil actually came up to

1792

01:03:45,990 --> 01:03:43,200

the united states and visited

1793

01:03:47,349 --> 01:03:46,000

and uh we went down to uh brown mountain

1794

01:03:48,710 --> 01:03:47,359

and i've taken many people there over

1795

01:03:50,789 --> 01:03:48,720

the years david weatherly of course a

1796

01:03:52,150 --> 01:03:50,799

lot of researchers have joined me there

1797

01:03:54,470 --> 01:03:52,160

i may have even appeared in a couple of

1798

01:03:55,990 --> 01:03:54,480

documentaries at that location but i

1799

01:03:58,309 --> 01:03:56,000

bring it up here because

1800

01:04:00,150 --> 01:03:58,319

not only are there earth lights as some

1801

01:04:02,390 --> 01:04:00,160

have called them or ufos you know

1802

01:04:03,190 --> 01:04:02,400

anomalous aerial phenomena that are seen

1803

01:04:11,029 --> 01:04:03,200

there

1804

01:04:13,990 --> 01:04:11,039

proper

1805

01:04:15,430 --> 01:04:14,000

with geologists and you know we not only

1806

01:04:17,270 --> 01:04:15,440

see a lot of quartz there's also a lot

1807

01:04:19,430 --> 01:04:17,280

of granite there are

1808

01:04:21,750 --> 01:04:19,440

uh you know what appear to be traces of

1809

01:04:24,150 --> 01:04:21,760

you know magnetic uh or at least you

1810

01:04:25,510 --> 01:04:24,160

know uh particles in the in the dust and

1811

01:04:26,789 --> 01:04:25,520

the soil samples that we took that are

1812

01:04:28,950 --> 01:04:26,799

responsive

1813

01:04:30,870 --> 01:04:28,960

to magnets but then again any number of

1814

01:04:32,390 --> 01:04:30,880

you know you know traces of iron and you

1815

01:04:35,270 --> 01:04:32,400

know other kinds of you know natural

1816

01:04:36,789 --> 01:04:35,280

metallic deposits could account for that

1817

01:04:39,270 --> 01:04:36,799

but i mean one thing that you see more

1818

01:04:41,510 --> 01:04:39,280

than anything else geologically is

1819

01:04:42,870 --> 01:04:41,520

courts and there have been a lot of uh

1820

01:04:44,309 --> 01:04:42,880

theories over the years that have been

1821

01:04:46,710 --> 01:04:44,319

proposed by those who are more the

1822

01:04:48,870 --> 01:04:46,720

natural proponents of of uap and again

1823

01:04:50,789 --> 01:04:48,880

this kind of echoes sort of what we see

1824

01:04:51,829 --> 01:04:50,799

in the project condone report from the

1825

01:04:53,990 --> 01:04:51,839

uk

1826
01:04:57,430 --> 01:04:54,000
which had been the genesis in modern

1827
01:04:59,270 --> 01:04:57,440
times for the u.s military's use of uap

1828
01:05:00,789 --> 01:04:59,280
they actually state that we borrowed

1829
01:05:02,309 --> 01:05:00,799
that from the uk

1830
01:05:04,630 --> 01:05:02,319
well as in the project condone report

1831
01:05:06,069 --> 01:05:04,640
where they say uap are real but we think

1832
01:05:09,029 --> 01:05:06,079
that these are natural they're probably

1833
01:05:11,029 --> 01:05:09,039
plasmas and one theory for the mechanism

1834
01:05:13,349 --> 01:05:11,039
that may allow for the appearances of

1835
01:05:15,109 --> 01:05:13,359
these plasmas is that in the quartz

1836
01:05:16,309 --> 01:05:15,119
being piezoelectric

1837
01:05:17,990 --> 01:05:16,319
is able to

1838
01:05:19,670 --> 01:05:18,000

produce once it's under pressure it's

1839

01:05:21,910 --> 01:05:19,680

able to produce electrical

1840

01:05:23,670 --> 01:05:21,920

uh you know energy essentially like for

1841

01:05:25,589 --> 01:05:23,680

instance a simple example is you can

1842

01:05:27,109 --> 01:05:25,599

take two pieces of quartz

1843

01:05:28,870 --> 01:05:27,119

and if you go into a dark room and rub

1844

01:05:30,069 --> 01:05:28,880

them together you'll see little sparks

1845

01:05:32,150 --> 01:05:30,079

and you'll sometimes actually see the

1846

01:05:34,150 --> 01:05:32,160

quartz rocks you know glow

1847

01:05:36,390 --> 01:05:34,160

uh this looks very strange but it's

1848

01:05:38,950 --> 01:05:36,400

simply just it's this piezoelectric

1849

01:05:40,789 --> 01:05:38,960

process uh property that the quartz has

1850

01:05:42,230 --> 01:05:40,799

and i don't know what the mechanism

1851
01:05:44,390 --> 01:05:42,240
would be that would allow for these you

1852
01:05:46,230 --> 01:05:44,400
know self-contained luminous orbs about

1853
01:05:47,750 --> 01:05:46,240
the size of a basketball or a beach ball

1854
01:05:49,510 --> 01:05:47,760
to occur but people do report seeing

1855
01:05:51,349 --> 01:05:49,520
these kinds of things at brown mountain

1856
01:05:52,309 --> 01:05:51,359
hostile in norway is another one i think

1857
01:05:53,589 --> 01:05:52,319
uh

1858
01:05:55,109 --> 01:05:53,599
there's another location we have of

1859
01:05:56,549 --> 01:05:55,119
course the famous marfa lights down

1860
01:05:59,270 --> 01:05:56,559
there in texas

1861
01:06:00,630 --> 01:05:59,280
um there's another case uh or a location

1862
01:06:02,950 --> 01:06:00,640
like this in arkansas where people

1863
01:06:05,109 --> 01:06:02,960

describe what they variously refer to as

1864

01:06:07,750 --> 01:06:05,119

ghost lights you know spook lights uh

1865

01:06:09,270 --> 01:06:07,760

you know swamp gas things like this now

1866

01:06:10,870 --> 01:06:09,280

i don't think they're swamp gas by any

1867

01:06:13,750 --> 01:06:10,880

means that's kind of a dirty word in the

1868

01:06:15,829 --> 01:06:13,760

history of ufology yeah along

1869

01:06:18,390 --> 01:06:15,839

the hart way but i do think that

1870

01:06:20,390 --> 01:06:18,400

geophysical phenomena of an electrical

1871

01:06:22,950 --> 01:06:20,400

variety could account for some of these

1872

01:06:24,870 --> 01:06:22,960

uap sightings and what you picked up on

1873

01:06:26,390 --> 01:06:24,880

there martin is exactly what i thought

1874

01:06:27,750 --> 01:06:26,400

when we visited shapada i thought you

1875

01:06:29,910 --> 01:06:27,760

know with the abundance of courts in

1876

01:06:31,750 --> 01:06:29,920

this region there's a pretty good case

1877

01:06:33,910 --> 01:06:31,760

to be made that the phenomena people see

1878

01:06:35,670 --> 01:06:33,920

and describe you know is similar enough

1879

01:06:37,190 --> 01:06:35,680

to hasselin or brown mountain and maybe

1880

01:06:39,910 --> 01:06:37,200

there is some sort of geophysical

1881

01:06:41,910 --> 01:06:39,920

phenomena that's occurring here as well

1882

01:06:43,990 --> 01:06:41,920

yes i did a i did a show a while back

1883

01:06:47,109 --> 01:06:44,000

with someone that did a documentary on

1884

01:06:48,309 --> 01:06:47,119

on brown mountain um and i i thought it

1885

01:06:50,390 --> 01:06:48,319

was very interesting at the time but

1886

01:06:53,910 --> 01:06:50,400

that was several years ago but when you

1887

01:06:56,230 --> 01:06:53,920

were there did you actually witness um

1888

01:06:58,789 --> 01:06:56,240

did you witness lights when you were

1889

01:07:02,309 --> 01:07:01,109

on a couple of occasions i've observed

1890

01:07:04,470 --> 01:07:02,319

you know what you might call

1891

01:07:05,910 --> 01:07:04,480

illuminations but

1892

01:07:07,910 --> 01:07:05,920

you when you go down there and you talk

1893

01:07:09,270 --> 01:07:07,920

to the locals everyone who claims to

1894

01:07:11,270 --> 01:07:09,280

have seen the brown mountain lights

1895

01:07:13,190 --> 01:07:11,280

describes seeing it differently

1896

01:07:14,870 --> 01:07:13,200

one of the most compelling accounts i

1897

01:07:16,710 --> 01:07:14,880

ever received was actually from a

1898

01:07:19,270 --> 01:07:16,720

firefighter who would back in the early

1899

01:07:22,069 --> 01:07:19,280

2000s that he'd been on duty and that it

1900

01:07:23,670 --> 01:07:22,079

was uh christmas eve several uh

1901

01:07:25,990 --> 01:07:23,680

firefighters who were traveling up and

1902

01:07:28,390 --> 01:07:26,000

down 181 highway 181 which goes right

1903

01:07:29,910 --> 01:07:28,400

alongside the brown mountain overlook

1904

01:07:31,589 --> 01:07:29,920

he said that they'd all

1905

01:07:33,190 --> 01:07:31,599

seen what they described as looking

1906

01:07:34,870 --> 01:07:33,200

almost like

1907

01:07:36,390 --> 01:07:34,880

sheet lightning if you have ever seen

1908

01:07:38,150 --> 01:07:36,400

that those quick kind of flashes in the

1909

01:07:40,470 --> 01:07:38,160

sky especially during you know the

1910

01:07:41,990 --> 01:07:40,480

summertime humid summer nights you see

1911

01:07:44,069 --> 01:07:42,000

those quick kind of flashes off in the

1912

01:07:45,829 --> 01:07:44,079

distance he said something that looked

1913

01:07:47,589 --> 01:07:45,839

almost like that but moving sort of

1914

01:07:48,950 --> 01:07:47,599

across the surface of the mountain at

1915

01:07:51,670 --> 01:07:48,960

ground level

1916

01:07:53,190 --> 01:07:51,680

is what many of them observed uh and he

1917

01:07:55,029 --> 01:07:53,200

said you know i know for a fact that the

1918

01:07:56,309 --> 01:07:55,039

so-called brown mountain lights exist

1919

01:07:57,910 --> 01:07:56,319

but he says a lot of people come up here

1920

01:07:59,430 --> 01:07:57,920

and act like they're ufos say they're

1921

01:08:00,710 --> 01:07:59,440

intelligent say they've communicated

1922

01:08:01,510 --> 01:08:00,720

with the lights and all this stuff he

1923

01:08:03,029 --> 01:08:01,520

says

1924

01:08:04,630 --> 01:08:03,039

that's just people playing brown

1925

01:08:06,950 --> 01:08:04,640

mountain lights but he says i can assure

1926

01:08:09,430 --> 01:08:06,960

you as a firefighter several people in

1927

01:08:10,870 --> 01:08:09,440

our unit that night who are all working

1928

01:08:12,150 --> 01:08:10,880

we all saw those lights and they're

1929

01:08:13,349 --> 01:08:12,160

nothing like what are popularly

1930

01:08:14,789 --> 01:08:13,359

described

1931

01:08:16,789 --> 01:08:14,799

but then there are some who actually do

1932

01:08:18,550 --> 01:08:16,799

describe aerial phenomena

1933

01:08:19,990 --> 01:08:18,560

charles braswell is a photographer from

1934

01:08:21,990 --> 01:08:20,000

down in charlotte north carolina who

1935

01:08:23,590 --> 01:08:22,000

spent i mean years going up there and

1936

01:08:25,590 --> 01:08:23,600

he's gotten some of the most compelling

1937

01:08:27,189 --> 01:08:25,600

photographs that i've ever seen

1938

01:08:29,910 --> 01:08:27,199

of alleged

1939

01:08:32,470 --> 01:08:29,920

luminous aerial phenomena that occurs at

1940

01:08:34,309 --> 01:08:32,480

night i also have to mention the

1941

01:08:36,070 --> 01:08:34,319

photography of my friend bill fox and

1942

01:08:38,550 --> 01:08:36,080

the late bob ashmore

1943

01:08:40,390 --> 01:08:38,560

uh bill and bob and i have spent many

1944

01:08:42,870 --> 01:08:40,400

years going up there and sadly uh last

1945

01:08:44,470 --> 01:08:42,880

year bob ashmore passed away but

1946

01:08:46,470 --> 01:08:44,480

bob and bill of course are long-time

1947

01:08:47,990 --> 01:08:46,480

citizen scientists bob also formerly

1948

01:08:48,630 --> 01:08:48,000

worked at bell laboratories and they had

1949

01:08:52,550 --> 01:08:48,640

a

1950

01:08:54,630 --> 01:08:52,560

hobby they would come come down on the

1951

01:08:56,390 --> 01:08:54,640

summers you know and everything and uh

1952

01:08:57,910 --> 01:08:56,400

they get to come down twice a year the

1953

01:08:59,349 --> 01:08:57,920

first trip is to bring their wives down

1954

01:09:00,709 --> 01:08:59,359

for shopping and then the second time is

1955

01:09:02,630 --> 01:09:00,719

to come down hike around and try and see

1956

01:09:04,630 --> 01:09:02,640

the brown mountain lights but

1957

01:09:06,229 --> 01:09:04,640

bob and bill and i spent many many

1958

01:09:08,470 --> 01:09:06,239

evenings up there at brown mountain with

1959

01:09:10,950 --> 01:09:08,480

cameras telescopes things they got some

1960

01:09:13,110 --> 01:09:10,960

good photographs sadly i have not had

1961

01:09:15,510 --> 01:09:13,120

that sighting so to answer your question

1962

01:09:17,430 --> 01:09:15,520

that full-on well that's indisputably

1963

01:09:19,430 --> 01:09:17,440

one of the brown mountain lights

1964

01:09:20,789 --> 01:09:19,440

i haven't had that sighting but a

1965

01:09:23,189 --> 01:09:20,799

gentleman who i interviewed a number of

1966

01:09:24,870 --> 01:09:23,199

years ago saw something perhaps even

1967

01:09:27,349 --> 01:09:24,880

more extraordinary at brown mountain he

1968

01:09:30,550 --> 01:09:27,359

had gone up there to the famous overlook

1969

01:09:32,470 --> 01:09:30,560

at uh wiseman's view and he was trying

1970

01:09:33,829 --> 01:09:32,480

to observe the lights and he said there

1971

01:09:35,669 --> 01:09:33,839

was another family up there that night

1972

01:09:36,950 --> 01:09:35,679

from charlotte north carolina and they'd

1973

01:09:39,910 --> 01:09:36,960

been chatting and he said all of a

1974

01:09:42,550 --> 01:09:39,920

sudden what came into view

1975

01:09:45,189 --> 01:09:42,560

startled him he said there was a large

1976

01:09:47,110 --> 01:09:45,199

distinctly triangular shaped aircraft

1977

01:09:48,789 --> 01:09:47,120

moving completely silently it was very

1978

01:09:50,630 --> 01:09:48,799

large he estimated it was about the size

1979

01:09:52,229 --> 01:09:50,640

of a football field uh with this

1980

01:09:53,990 --> 01:09:52,239

distinct kind of leading edge and he

1981

01:09:55,590 --> 01:09:54,000

said this thing silently just drifted

1982

01:09:57,510 --> 01:09:55,600

over the linville gorge

1983

01:09:59,910 --> 01:09:57,520

and he said you know i wish after the

1984

01:10:01,750 --> 01:09:59,920

fact that this family from charlotte and

1985

01:10:03,990 --> 01:10:01,760

i had exchanged information because they

1986

01:10:06,229 --> 01:10:04,000

all saw it we all marveled at what this

1987

01:10:08,149 --> 01:10:06,239

big triangle was flying over the lumbal

1988

01:10:09,750 --> 01:10:08,159

gorge now

1989

01:10:11,030 --> 01:10:09,760

what does that sound like martin i mean

1990

01:10:13,350 --> 01:10:11,040

you and i have heard these stories for

1991

01:10:15,189 --> 01:10:13,360

years of these so-called black triangles

1992

01:10:17,030 --> 01:10:15,199

right those reports really really

1993

01:10:19,510 --> 01:10:17,040

interest me but i've never heard of one

1994

01:10:21,990 --> 01:10:19,520

being seen at brown mountain before that

1995

01:10:23,990 --> 01:10:22,000

yeah yeah and it's funny how many people

1996

01:10:25,510 --> 01:10:24,000

describe them the size of a football

1997

01:10:27,189 --> 01:10:25,520

field or more

1998

01:10:28,550 --> 01:10:27,199

i mean it's it's almost like every time

1999

01:10:30,630 --> 01:10:28,560

you hear the same

2000

01:10:33,750 --> 01:10:30,640

the same thing or you know

2001

01:10:35,270 --> 01:10:33,760

um or or even larger than that

2002

01:10:37,110 --> 01:10:35,280

pretty amazing

2003

01:10:38,630 --> 01:10:37,120

yeah that's a consistent that's a very

2004

01:10:39,430 --> 01:10:38,640

consistent feature of these sightings

2005

01:10:41,910 --> 01:10:39,440

you know i mean again there was the

2006

01:10:43,669 --> 01:10:41,920

famous belgium wave from back in the

2007

01:10:45,510 --> 01:10:43,679

early 1990s

2008

01:10:47,830 --> 01:10:45,520

but a lot of researchers have taken

2009

01:10:49,270 --> 01:10:47,840

interest in those black triangle reports

2010

01:10:50,950 --> 01:10:49,280

i mean for a time the federation of

2011

01:10:53,750 --> 01:10:50,960

american scientists

2012

01:10:55,350 --> 01:10:53,760

had several pages online devoted to what

2013

01:10:58,550 --> 01:10:55,360

they called mystery aircraft and they've

2014

01:11:00,310 --> 01:10:58,560

been collecting a lot of reports of what

2015

01:11:03,110 --> 01:11:00,320

were variously called everything from

2016

01:11:04,870 --> 01:11:03,120

the big wing to the black triangles

2017

01:11:05,990 --> 01:11:04,880

uh there were a lot of different names a

2018

01:11:08,149 --> 01:11:06,000

lot of different theories about what

2019

01:11:09,669 --> 01:11:08,159

these things might have been greg pope

2020

01:11:11,910 --> 01:11:09,679

who had been a writer for popular

2021

01:11:13,270 --> 01:11:11,920

mechanics back in the 1990s

2022

01:11:15,270 --> 01:11:13,280

did a lot of research going out there

2023

01:11:16,470 --> 01:11:15,280

the antelope valley and and interviewing

2024

01:11:17,590 --> 01:11:16,480

people about what they had said that

2025

01:11:18,950 --> 01:11:17,600

they'd seen

2026

01:11:20,470 --> 01:11:18,960

one of the theories at that time had

2027

01:11:23,189 --> 01:11:20,480

been that some of these large aircraft

2028

01:11:24,470 --> 01:11:23,199

were actually a large aerial radar

2029

01:11:26,229 --> 01:11:24,480

reflector

2030

01:11:28,550 --> 01:11:26,239

kind of a kind of a technology rather

2031

01:11:29,990 --> 01:11:28,560

than being so much a actual aircraft

2032

01:11:31,830 --> 01:11:30,000

another theory had been that these are

2033

01:11:34,550 --> 01:11:31,840

an aircraft and that there's some kind

2034

01:11:37,270 --> 01:11:34,560

of a platform blimp uh perhaps used uh

2035

01:11:40,310 --> 01:11:37,280

you know for stealth purposes uh in in

2036

01:11:42,310 --> 01:11:40,320

service to or to coordinate with fighter

2037

01:11:45,510 --> 01:11:42,320

aircraft now if these had ever been

2038

01:11:47,110 --> 01:11:45,520

deployed for for use during combat

2039

01:11:48,390 --> 01:11:47,120

coming back to our earlier point i think

2040

01:11:50,229 --> 01:11:48,400

a lot of people would describe having

2041

01:11:51,750 --> 01:11:50,239

seen these large triangles

2042

01:11:52,870 --> 01:11:51,760

i've actually only heard a couple of

2043

01:11:54,709 --> 01:11:52,880

stories

2044

01:11:57,430 --> 01:11:54,719

of triangular aircraft

2045

01:11:58,950 --> 01:11:57,440

seen in wartime uh one friend of mine

2046

01:12:00,229 --> 01:11:58,960

who had actually uh served in

2047

01:12:01,590 --> 01:12:00,239

afghanistan

2048

01:12:02,950 --> 01:12:01,600

he had said of all places he was

2049

01:12:04,950 --> 01:12:02,960

actually at the latrine one night and

2050

01:12:07,110 --> 01:12:04,960

he'd been standing out there and he said

2051

01:12:08,790 --> 01:12:07,120

he looked up and he

2052

01:12:11,110 --> 01:12:08,800

saw and

2053

01:12:12,709 --> 01:12:11,120

what he perceived as being silent

2054

01:12:14,870 --> 01:12:12,719

uh but it was a triangular shaped

2055

01:12:16,950 --> 01:12:14,880

aircraft that passed directly over him

2056

01:12:18,790 --> 01:12:16,960

uh in the direction of the nearby city

2057

01:12:20,470 --> 01:12:18,800

uh and i asked him i said could you hear

2058

01:12:22,149 --> 01:12:20,480

any noise and he said well

2059

01:12:24,229 --> 01:12:22,159

i couldn't but you know we had

2060

01:12:25,990 --> 01:12:24,239

generators and things running out there

2061

01:12:27,430 --> 01:12:26,000

and it might have been difficult for me

2062

01:12:29,350 --> 01:12:27,440

to discern whether or not this object

2063

01:12:32,149 --> 01:12:29,360

made any noise but he said i mean i'm

2064

01:12:34,070 --> 01:12:32,159

going to tell you we saw aircraft coming

2065

01:12:35,430 --> 01:12:34,080

in and out you know this area all the

2066

01:12:37,350 --> 01:12:35,440

time and i've never seen anything like

2067

01:12:38,950 --> 01:12:37,360

that and then there was a similar report

2068

01:12:40,470 --> 01:12:38,960

that was indicated to me by a military

2069

01:12:42,229 --> 01:12:40,480

uh i think he was actually part of

2070

01:12:44,630 --> 01:12:42,239

military police who said he'd observed a

2071

01:12:46,870 --> 01:12:44,640

craft like this one night

2072

01:12:47,669 --> 01:12:46,880

and that he only got a very brief look

2073

01:12:48,950 --> 01:12:47,679

at it

2074

01:12:51,350 --> 01:12:48,960

brought it to the attention of a couple

2075

01:12:52,870 --> 01:12:51,360

of nearby guards and plane clothes

2076

01:12:54,070 --> 01:12:52,880

uh who when he brought it to their

2077

01:12:58,470 --> 01:12:54,080

attention they said we didn't see

2078

01:13:02,470 --> 01:13:00,470

yeah one of the you know one of the

2079

01:13:05,669 --> 01:13:02,480

things when you think about the triangle

2080

01:13:07,270 --> 01:13:05,679

and and what you uh i've heard this the

2081

01:13:09,669 --> 01:13:07,280

the thought that it could be some type

2082

01:13:11,430 --> 01:13:09,679

of blimp but it wouldn't make to me it

2083

01:13:13,270 --> 01:13:11,440

wouldn't make any sense

2084

01:13:15,910 --> 01:13:13,280

to have a blimp in the shape of a

2085

01:13:18,390 --> 01:13:15,920

triangle i wouldn't see what advantage

2086

01:13:22,070 --> 01:13:18,400

that would have unless i'm missing

2087

01:13:23,270 --> 01:13:22,080

something and uh and and why

2088

01:13:24,310 --> 01:13:23,280

uh

2089

01:13:28,390 --> 01:13:24,320

you know

2090

01:13:30,310 --> 01:13:28,400

when you're talking about this size

2091

01:13:32,790 --> 01:13:30,320

uh when something doesn't have to be

2092

01:13:34,470 --> 01:13:32,800

flat and and wide you know where would

2093

01:13:36,149 --> 01:13:34,480

you how would you put something like

2094

01:13:38,550 --> 01:13:36,159

that in the hangar you know when it

2095

01:13:41,750 --> 01:13:38,560

comes to that size yeah

2096

01:13:44,709 --> 01:13:43,030

certainly i do know that there was a

2097

01:13:47,590 --> 01:13:44,719

rand corporation study that was

2098

01:13:49,189 --> 01:13:47,600

conducted on air ships and blimps i have

2099

01:13:50,790 --> 01:13:49,199

not been able to find that report in

2100

01:13:52,790 --> 01:13:50,800

fact i'm not sure that that was ever

2101

01:13:55,189 --> 01:13:52,800

made publicly available

2102

01:13:56,550 --> 01:13:55,199

uh but uh actually i sorry i don't think

2103

01:13:57,830 --> 01:13:56,560

that was a rand corporation study that

2104

01:13:59,669 --> 01:13:57,840

may have actually been conducted by

2105

01:14:03,350 --> 01:13:59,679

another group but i've i've been trying

2106

01:14:05,110 --> 01:14:03,360

to get a copy of this report for years

2107

01:14:07,510 --> 01:14:05,120

but to the point of

2108

01:14:09,189 --> 01:14:07,520

the blimp argument again i'm more

2109

01:14:11,030 --> 01:14:09,199

inclined to think that

2110

01:14:11,990 --> 01:14:11,040

our military might use certain kinds of

2111

01:14:13,590 --> 01:14:12,000

stealth

2112

01:14:15,669 --> 01:14:13,600

technologies that have not been publicly

2113

01:14:16,950 --> 01:14:15,679

disclosed for various reasons then i am

2114

01:14:19,110 --> 01:14:16,960

to think

2115

01:14:21,750 --> 01:14:19,120

that the sightings of these so-called

2116

01:14:24,470 --> 01:14:21,760

giant triangles the black triangles are

2117

01:14:25,990 --> 01:14:24,480

simply your average everyday blimp uh

2118

01:14:28,149 --> 01:14:26,000

you know i have communicated over the

2119

01:14:30,630 --> 01:14:28,159

years a little with uh brian dunning of

2120

01:14:33,270 --> 01:14:30,640

the skeptoid podcast and i like brock

2121

01:14:34,470 --> 01:14:33,280

yeah nice guy but right he's tried to

2122

01:14:35,990 --> 01:14:34,480

argue that

2123

01:14:38,550 --> 01:14:36,000

uh the famous saint clair county

2124

01:14:40,630 --> 01:14:38,560

illinois sightings from back in 2000

2125

01:14:43,110 --> 01:14:40,640

which david marler as you know has just

2126
01:14:45,910 --> 01:14:43,120
done incredible work investigating those

2127
01:14:50,149 --> 01:14:48,229
this is the main argument that brian has

2128
01:14:51,590 --> 01:14:50,159
tried to present is that this was just

2129
01:14:52,630 --> 01:14:51,600
one of the american airship companies

2130
01:14:54,550 --> 01:14:52,640
blimps

2131
01:14:56,709 --> 01:14:54,560
uh that was out there giving a guided

2132
01:14:58,229 --> 01:14:56,719
vip tour that night and i'm asking of

2133
01:15:00,870 --> 01:14:58,239
course you know well who was taking a

2134
01:15:02,470 --> 01:15:00,880
vip tour at 3 a.m where is the flat log

2135
01:15:05,510 --> 01:15:02,480
that shows that it was anybody taking a

2136
01:15:07,590 --> 01:15:05,520
vip tour at 3 a.m and furthermore why

2137
01:15:09,590 --> 01:15:07,600
did you know all these police from i

2138
01:15:11,110 --> 01:15:09,600

think the millstead county and then the

2139

01:15:12,310 --> 01:15:11,120

shiloh police department and there were

2140

01:15:13,990 --> 01:15:12,320

several other municipal police

2141

01:15:15,590 --> 01:15:14,000

departments with officers that were

2142

01:15:17,750 --> 01:15:15,600

involved in observing this object that

2143

01:15:20,070 --> 01:15:17,760

night i think david marlar has

2144

01:15:21,669 --> 01:15:20,080

chronicled this in his book uh

2145

01:15:23,669 --> 01:15:21,679

triangular ufos an estimate of the

2146

01:15:25,510 --> 01:15:23,679

situation which everybody should go and

2147

01:15:26,950 --> 01:15:25,520

check out but again if you read that

2148

01:15:28,790 --> 01:15:26,960

book and you read the accounts given by

2149

01:15:31,270 --> 01:15:28,800

the officers yet again they all describe

2150

01:15:33,430 --> 01:15:31,280

a distinctly triangular aircraft yet

2151

01:15:35,669 --> 01:15:33,440

again about the size of a football field

2152

01:15:38,390 --> 01:15:35,679

it was very large made very little sound

2153

01:15:41,189 --> 01:15:38,400

it had three lights one at each corner

2154

01:15:43,350 --> 01:15:41,199

and also was capable of drifting along

2155

01:15:45,030 --> 01:15:43,360

very slowly and then sudden acceleration

2156

01:15:47,270 --> 01:15:45,040

almost kind of like if you've ever seen

2157

01:15:48,229 --> 01:15:47,280

a water bug on the surface of a pond

2158

01:15:49,590 --> 01:15:48,239

where they'll kind of speed up and

2159

01:15:51,030 --> 01:15:49,600

they'll move along and they'll glide and

2160

01:15:52,070 --> 01:15:51,040

then they'll kind of come to a slow stop

2161

01:15:54,630 --> 01:15:52,080

and they'll hover for a minute and then

2162

01:15:56,550 --> 01:15:54,640

they'll move again very quickly

2163

01:15:59,030 --> 01:15:56,560

these triangular craft are sometimes

2164

01:16:01,270 --> 01:15:59,040

described as kind of moving in bursts

2165

01:16:04,630 --> 01:16:01,280

like that and whatever it is that these

2166

01:16:06,390 --> 01:16:04,640

objects are that also sounds very unlike

2167

01:16:08,070 --> 01:16:06,400

a typical blimp

2168

01:16:09,990 --> 01:16:08,080

if indeed they are capable of the kind

2169

01:16:11,590 --> 01:16:10,000

of maneuvers that some have described

2170

01:16:13,189 --> 01:16:11,600

seeing them do so

2171

01:16:14,950 --> 01:16:13,199

again i'm open to the idea that maybe we

2172

01:16:17,430 --> 01:16:14,960

have some kind of technology like this

2173

01:16:19,990 --> 01:16:17,440

we don't always necessarily immediately

2174

01:16:21,510 --> 01:16:20,000

need to leap to the conclusion therefore

2175

01:16:23,430 --> 01:16:21,520

aliens right but

2176

01:16:25,669 --> 01:16:23,440

i'm also

2177

01:16:27,189 --> 01:16:25,679

i'm not very i'm not very inclined to

2178

01:16:29,750 --> 01:16:27,199

say that this was just a conventional

2179

01:16:32,229 --> 01:16:29,760

blimp and if it was i mean show me a

2180

01:16:34,630 --> 01:16:32,239

good record of the flight logs giving me

2181

01:16:35,830 --> 01:16:34,640

good data that really strongly supports

2182

01:16:37,430 --> 01:16:35,840

that conclusion because all the

2183

01:16:39,830 --> 01:16:37,440

eyewitness testimony seems to go in

2184

01:16:42,870 --> 01:16:39,840

exactly the opposite direction

2185

01:16:46,870 --> 01:16:42,880

uh micah i've have uh and i was having

2186

01:16:49,430 --> 01:16:46,880

trouble at this hotel with uh internet

2187

01:16:52,790 --> 01:16:49,440

but unfortunately i've run out of data

2188

01:16:54,950 --> 01:16:52,800

on my uh on my on my phone

2189

01:16:57,430 --> 01:16:54,960

so i like you it was using my phone and

2190

01:16:58,950 --> 01:16:57,440

i just got to notice i'm gonna have to

2191

01:17:00,950 --> 01:16:58,960

uh jump out for a minute but you'll

2192

01:17:02,550 --> 01:17:00,960

still be live here and i'm wondering if

2193

01:17:04,870 --> 01:17:02,560

you can tell people a little bit about

2194

01:17:07,430 --> 01:17:04,880

your show and how they can catch it

2195

01:17:10,709 --> 01:17:07,440

and uh and then i will uh

2196

01:17:12,550 --> 01:17:10,719

i'll be back as soon as i can

2197

01:17:14,390 --> 01:17:12,560

absolutely and i'm glad i'm not the only

2198

01:17:15,990 --> 01:17:14,400

one who's been experiencing trouble uh

2199

01:17:18,149 --> 01:17:16,000

you know my tech support crew here

2200

01:17:19,750 --> 01:17:18,159

tonight did a marvelous job getting us

2201

01:17:22,390 --> 01:17:19,760

back on the line and i got to thank

2202

01:17:25,430 --> 01:17:22,400

rafael and danny uh who are here tonight

2203

01:17:28,390 --> 01:17:25,440

who who made that happen because we had

2204

01:17:29,669 --> 01:17:28,400

obviously an area-wide outage and those

2205

01:17:31,350 --> 01:17:29,679

who think that the men in black are

2206

01:17:32,390 --> 01:17:31,360

exclusive to the united states think

2207

01:17:33,990 --> 01:17:32,400

again

2208

01:17:35,990 --> 01:17:34,000

but all kidding aside you know my

2209

01:17:38,630 --> 01:17:36,000

program is the mecca hanks program

2210

01:17:40,950 --> 01:17:38,640

you can find that at micah hanks.com

2211

01:17:43,270 --> 01:17:40,960

forward slash podcast i actually produce

2212

01:17:44,550 --> 01:17:43,280

a lot of different podcasts and there

2213

01:17:46,149 --> 01:17:44,560

are four of them right now plus

2214

01:17:47,189 --> 01:17:46,159

subscriber shows that i produce for

2215

01:17:48,790 --> 01:17:47,199

everybody

2216

01:17:50,470 --> 01:17:48,800

um and that in addition to what i'm

2217

01:17:51,830 --> 01:17:50,480

doing over there at the debrief.org

2218

01:17:53,110 --> 01:17:51,840

which is something else that i'm pretty

2219

01:17:55,430 --> 01:17:53,120

well known for these days i'm the

2220

01:17:57,590 --> 01:17:55,440

editor-in-chief and also a contributor

2221

01:18:00,149 --> 01:17:57,600

also the newsletter writer for the

2222

01:18:01,910 --> 01:18:00,159

debrief and this is endeavor

2223

01:18:04,950 --> 01:18:01,920

that i've undertaken recently with tim

2224

01:18:07,270 --> 01:18:04,960

mcmillan and mj binayas

2225

01:18:09,030 --> 01:18:07,280

not exclusively uap but we do do a lot

2226

01:18:11,270 --> 01:18:09,040

of uap reporting same deal with the

2227

01:18:12,950 --> 01:18:11,280

micah hanks program it's not only a

2228

01:18:15,669 --> 01:18:12,960

program that deals with uap but there

2229

01:18:17,910 --> 01:18:15,679

have been i mean almost every week

2230

01:18:20,709 --> 01:18:17,920

significant developments with this topic

2231

01:18:23,110 --> 01:18:20,719

and so i've really in recent years

2232

01:18:24,470 --> 01:18:23,120

shifted my focus over onto that and so

2233

01:18:25,750 --> 01:18:24,480

when folks go online and they find the

2234

01:18:28,310 --> 01:18:25,760

mike hanks program you can hear that

2235

01:18:29,990 --> 01:18:28,320

right here on kgra by the way

2236

01:18:33,110 --> 01:18:30,000

it's a program that you're going to hear

2237

01:18:35,030 --> 01:18:33,120

a lot of analysis a lot of discussions

2238

01:18:38,830 --> 01:18:35,040

about this topic that's so familiar to

2239

01:18:43,110 --> 01:18:41,189

ufo not sure if martin's back yet so we

2240

01:18:45,590 --> 01:18:43,120

could just talk a little bit yes

2241

01:18:48,470 --> 01:18:45,600

no no i just came back um hopefully this

2242

01:18:49,350 --> 01:18:48,480

is working you can hear me okay

2243

01:18:51,910 --> 01:18:49,360

sure

2244

01:18:54,870 --> 01:18:51,920

yeah okay absolutely i'm pretty glad not

2245

01:18:56,070 --> 01:18:54,880

only me being affected tonight

2246

01:18:58,390 --> 01:18:56,080

right

2247

01:19:00,709 --> 01:18:58,400

um so i i've got a couple of questions

2248

01:19:01,750 --> 01:19:00,719

that have come up in chat and um i'd

2249

01:19:03,510 --> 01:19:01,760

like to

2250

01:19:05,350 --> 01:19:03,520

uh ask them because tonight since you're

2251

01:19:06,830 --> 01:19:05,360

using that phone line hopefully i'm

2252

01:19:08,229 --> 01:19:06,840

coming through clear

2253

01:19:09,110 --> 01:19:08,239

enough um

2254

01:19:10,630 --> 01:19:09,120

uh

2255

01:19:12,149 --> 01:19:10,640

let's see since we can't use the phone

2256

01:19:13,510 --> 01:19:12,159

line i'm asking anyone that has

2257

01:19:15,830 --> 01:19:13,520

questions if you want to just put them

2258

01:19:18,070 --> 01:19:15,840

in all caps that would be good so

2259

01:19:22,070 --> 01:19:18,080

richard wanted to know uh is the goal of

2260

01:19:24,310 --> 01:19:22,080

ufology to mainstream the study of ufos

2261

01:19:26,790 --> 01:19:24,320

if so what is the methodology to achieve

2262

01:19:27,750 --> 01:19:26,800

this any thoughts on that micah

2263

01:19:29,830 --> 01:19:27,760

okay

2264

01:19:31,669 --> 01:19:29,840

so the question is is is the goal to

2265

01:19:33,510 --> 01:19:31,679

bring ufology into the mainstream and if

2266

01:19:34,830 --> 01:19:33,520

so how do we do that well

2267

01:19:38,310 --> 01:19:34,840

i would say

2268

01:19:40,390 --> 01:19:38,320

that you know yes the idea is to bring

2269

01:19:42,310 --> 01:19:40,400

ufology into the mainstream the problem

2270

01:19:43,990 --> 01:19:42,320

with that though

2271

01:19:45,990 --> 01:19:44,000

i'm a musician and

2272

01:19:48,390 --> 01:19:46,000

everybody who has ever played in a rock

2273

01:19:50,149 --> 01:19:48,400

band uh probably knows what it's like

2274

01:19:51,510 --> 01:19:50,159

you know when there's this cool new band

2275

01:19:53,030 --> 01:19:51,520

on the scene

2276

01:19:54,950 --> 01:19:53,040

and you go see that band and you're like

2277

01:19:56,550 --> 01:19:54,960

wow this is my band you get to hang out

2278

01:19:59,669 --> 01:19:56,560

with the band members

2279

01:20:01,030 --> 01:19:59,679

uh you know and if that band is lucky

2280

01:20:02,470 --> 01:20:01,040

and they strike it big and they get a

2281

01:20:03,750 --> 01:20:02,480

record deal and then you you can't go

2282

01:20:04,950 --> 01:20:03,760

hang out with your buddies at the bar

2283

01:20:07,030 --> 01:20:04,960

anymore you know they're touring and

2284

01:20:09,350 --> 01:20:07,040

playing you know big arenas

2285

01:20:10,709 --> 01:20:09,360

then the the fans who were once you know

2286

01:20:11,990 --> 01:20:10,719

the local supporters of that band

2287

01:20:14,629 --> 01:20:12,000

they're like oh well now we're really

2288

01:20:17,189 --> 01:20:14,639

disappointed they sold out

2289

01:20:18,470 --> 01:20:17,199

and i'm afraid that when ufology

2290

01:20:19,750 --> 01:20:18,480

if it goes into the mainstream you

2291

01:20:21,350 --> 01:20:19,760

probably see where i'm going with this

2292

01:20:22,550 --> 01:20:21,360

if you apology

2293

01:20:24,709 --> 01:20:22,560

which has been something that there's

2294

01:20:26,229 --> 01:20:24,719

sort of been kind of a counter culture

2295

01:20:28,310 --> 01:20:26,239

that surrounds it you know people who go

2296

01:20:30,709 --> 01:20:28,320

to conferences and who you know put put

2297

01:20:32,390 --> 01:20:30,719

up you know tables at these conferences

2298

01:20:34,550 --> 01:20:32,400

in the vendor rooms and they sell books

2299

01:20:36,229 --> 01:20:34,560

and they and actually i enjoy that a lot

2300

01:20:38,390 --> 01:20:36,239

of people do i've always enjoyed that

2301

01:20:40,550 --> 01:20:38,400

sort of cultural side of this but as

2302

01:20:42,790 --> 01:20:40,560

soon as this becomes a thing which as in

2303

01:20:44,709 --> 01:20:42,800

recent years we have begun to see

2304

01:20:47,030 --> 01:20:44,719

where the u.s navy comes out and says

2305

01:20:48,790 --> 01:20:47,040

we've got videos the pentagon comes out

2306

01:20:50,629 --> 01:20:48,800

and it officially

2307

01:20:52,310 --> 01:20:50,639

authorizes the release of these videos

2308

01:20:54,629 --> 01:20:52,320

so as to help try and clear the air and

2309

01:20:56,790 --> 01:20:54,639

say yes these things are ours yes these

2310

01:20:59,990 --> 01:20:56,800

objects are unidentified

2311

01:21:01,590 --> 01:21:00,000

and then we establish this aoi msg right

2312

01:21:03,430 --> 01:21:01,600

this airborne object identification

2313

01:21:07,510 --> 01:21:03,440

management and synchronization group

2314

01:21:10,629 --> 01:21:09,270

yeah i love that one i mean it just

2315

01:21:12,390 --> 01:21:10,639

rolls right off the tongue but but the

2316

01:21:13,910 --> 01:21:12,400

point is again that you know as soon as

2317

01:21:16,070 --> 01:21:13,920

government really makes this a thing and

2318

01:21:17,430 --> 01:21:16,080

now everybody's like finally

2319

01:21:19,910 --> 01:21:17,440

finally they're taking this subject

2320

01:21:21,910 --> 01:21:19,920

seriously and now no longer

2321

01:21:23,750 --> 01:21:21,920

are those civilian ufo researchers the

2322

01:21:25,189 --> 01:21:23,760

ones in the spotlight everybody wants to

2323

01:21:26,709 --> 01:21:25,199

hear what the government officials have

2324

01:21:28,550 --> 01:21:26,719

to say about this

2325

01:21:31,750 --> 01:21:28,560

and there are still some you know old

2326

01:21:33,830 --> 01:21:31,760

guard ufo ufo researchers uh who have

2327

01:21:36,310 --> 01:21:33,840

maintained a presence and who you know

2328

01:21:37,990 --> 01:21:36,320

the the analysis and the feedback that

2329

01:21:40,470 --> 01:21:38,000

they provide is as relevant as ever if

2330

01:21:41,910 --> 01:21:40,480

not more so but everybody i think can

2331

01:21:43,350 --> 01:21:41,920

acknowledge that there's been a bit of a

2332

01:21:44,310 --> 01:21:43,360

shift toward you know if it ain't coming

2333

01:21:46,550 --> 01:21:44,320

from the government we don't want to

2334

01:21:48,790 --> 01:21:46,560

hear about it it's not news unless it

2335

01:21:50,229 --> 01:21:48,800

was the leaked document that somebody

2336

01:21:51,910 --> 01:21:50,239

either got through foia or if it was

2337

01:21:53,830 --> 01:21:51,920

official announcement or proclamation

2338

01:21:55,990 --> 01:21:53,840

from the dod via a press statement that

2339

01:21:57,669 --> 01:21:56,000

appeared at defense.gov you know that

2340

01:21:59,350 --> 01:21:57,679

seems to be where everybody's focus is

2341

01:22:01,750 --> 01:21:59,360

but again we look back to history and

2342

01:22:03,189 --> 01:22:01,760

folks this has happened before

2343

01:22:04,709 --> 01:22:03,199

project blue book under the u.s air

2344

01:22:06,870 --> 01:22:04,719

force was the longest-running government

2345

01:22:08,629 --> 01:22:06,880

systematic study that looked at uap yes

2346

01:22:10,950 --> 01:22:08,639

we are maybe more equipped to study this

2347

01:22:13,750 --> 01:22:10,960

with better technology than in years

2348

01:22:16,550 --> 01:22:13,760

past but again i doubt that we're

2349

01:22:18,709 --> 01:22:16,560

probably going to solve this and resolve

2350

01:22:20,390 --> 01:22:18,719

the lingering questions about uap i

2351

01:22:21,510 --> 01:22:20,400

think if anything what we'll see more of

2352

01:22:23,110 --> 01:22:21,520

right now

2353

01:22:24,709 --> 01:22:23,120

is simply going to be an acknowledgement

2354

01:22:26,950 --> 01:22:24,719

that hey you know what people military

2355

01:22:28,550 --> 01:22:26,960

service men and women civilians alike

2356

01:22:29,990 --> 01:22:28,560

had said that they'd been seeing in our

2357

01:22:32,310 --> 01:22:30,000

skies yeah now

2358

01:22:34,550 --> 01:22:32,320

we have a better idea on the fact that

2359

01:22:36,950 --> 01:22:34,560

these objects exist but we're really no

2360

01:22:38,709 --> 01:22:36,960

closer to determining their provenance

2361

01:22:40,709 --> 01:22:38,719

but again in terms of how do we do this

2362

01:22:42,070 --> 01:22:40,719

and and what happens when we do this

2363

01:22:43,910 --> 01:22:42,080

when we bring upology into the

2364

01:22:46,390 --> 01:22:43,920

mainstream first i think there has to be

2365

01:22:48,149 --> 01:22:46,400

that acknowledgement i think that in

2366

01:22:50,390 --> 01:22:48,159

order to do this we have to continue to

2367

01:22:52,149 --> 01:22:50,400

try and leverage certain pressure on

2368

01:22:53,590 --> 01:22:52,159

lawmakers in washington you know reach

2369

01:22:55,189 --> 01:22:53,600

out to your elected officials your

2370

01:22:57,030 --> 01:22:55,199

senators your congressmen and women let

2371

01:22:59,590 --> 01:22:57,040

them know that this is important to you

2372

01:23:01,590 --> 01:22:59,600

you know support the efforts of civilian

2373

01:23:03,990 --> 01:23:01,600

organizations scientific groups my

2374

01:23:05,590 --> 01:23:04,000

friend dr avi loeb of course and the

2375

01:23:07,030 --> 01:23:05,600

galileo project

2376

01:23:09,110 --> 01:23:07,040

this is something that is absolutely

2377

01:23:11,189 --> 01:23:09,120

necessary because as avi has said the

2378

01:23:12,310 --> 01:23:11,199

skies aren't classified and even if the

2379

01:23:14,310 --> 01:23:12,320

government isn't going to release all

2380

01:23:15,910 --> 01:23:14,320

the data it collects when scientists are

2381

01:23:17,510 --> 01:23:15,920

taking this seriously and actively

2382

01:23:18,629 --> 01:23:17,520

pursuing trying to collect data on it

2383

01:23:19,910 --> 01:23:18,639

themselves

2384

01:23:21,270 --> 01:23:19,920

again there's less likelihood that

2385

01:23:23,270 --> 01:23:21,280

that's going to be withheld from the

2386

01:23:25,750 --> 01:23:23,280

general public so those are ways that i

2387

01:23:27,750 --> 01:23:25,760

think we can continue to really leverage

2388

01:23:30,310 --> 01:23:27,760

the kind of momentum we've seen in

2389

01:23:31,590 --> 01:23:30,320

recent years i hope that continues but

2390

01:23:32,709 --> 01:23:31,600

there's going to be that bittersweet

2391

01:23:33,990 --> 01:23:32,719

side of it where a lot of people are

2392

01:23:36,709 --> 01:23:34,000

going to feel like their favorite band

2393

01:23:38,790 --> 01:23:36,719

sold out and the ufo subject that was

2394

01:23:40,790 --> 01:23:38,800

their subject at their conferences that

2395

01:23:43,590 --> 01:23:40,800

they went to every summer it may not be

2396

01:23:45,430 --> 01:23:43,600

that for them any longer but i hope that

2397

01:23:46,870 --> 01:23:45,440

the trade-off will be for the better and

2398

01:23:48,470 --> 01:23:46,880

that we'll finally begin to get some

2399

01:23:49,750 --> 01:23:48,480

clarity and some attention put on a

2400

01:23:51,270 --> 01:23:49,760

subject that many people have been

2401

01:23:52,950 --> 01:23:51,280

pushing for that kind of attention for

2402

01:23:54,790 --> 01:23:52,960

for years

2403

01:23:56,870 --> 01:23:54,800

i agree and there's been a lot of

2404

01:23:58,070 --> 01:23:56,880

attacks on certain people that have

2405

01:23:59,750 --> 01:23:58,080

tried to move

2406

01:24:01,830 --> 01:23:59,760

the needle forward

2407

01:24:03,669 --> 01:24:01,840

you know just because of exactly what

2408

01:24:05,990 --> 01:24:03,679

you're saying you know there's

2409

01:24:07,910 --> 01:24:06,000

egos involved there's

2410

01:24:09,990 --> 01:24:07,920

there's a division

2411

01:24:11,510 --> 01:24:10,000

out there and you know nothing you can

2412

01:24:14,470 --> 01:24:11,520

really do about that it seems like

2413

01:24:17,750 --> 01:24:14,480

that's follows about every aspect of our

2414

01:24:18,870 --> 01:24:17,760

society anyway um get another question

2415

01:24:21,110 --> 01:24:18,880

up here

2416

01:24:24,629 --> 01:24:21,120

uh by someone that likes you

2417

01:24:26,790 --> 01:24:24,639

so um what could be the reason ufos are

2418

01:24:28,070 --> 01:24:26,800

visible to only a few people sometimes

2419

01:24:31,350 --> 01:24:28,080

despite

2420

01:24:35,030 --> 01:24:31,360

appearing in a fairly populated area

2421

01:24:39,910 --> 01:24:37,270

yeah it's it's always nice to hear that

2422

01:24:40,629 --> 01:24:39,920

somebody does still like me

2423

01:24:42,790 --> 01:24:40,639

but

2424

01:24:44,790 --> 01:24:42,800

uh you know there's there are a lot of

2425

01:24:46,790 --> 01:24:44,800

different uh and again that's another

2426

01:24:49,990 --> 01:24:46,800

funny thing about all this is that

2427

01:24:51,350 --> 01:24:50,000

uh as a reporter as as again i dread to

2428

01:24:53,189 --> 01:24:51,360

call myself a journalist but i guess

2429

01:24:54,149 --> 01:24:53,199

that is what i do and i used to work in

2430

01:24:56,470 --> 01:24:54,159

radio

2431

01:24:58,149 --> 01:24:56,480

i've tried to credibly report on this

2432

01:24:59,430 --> 01:24:58,159

subject for more than a decade myself

2433

01:25:01,110 --> 01:24:59,440

going all the way back to my days

2434

01:25:02,070 --> 01:25:01,120

working in terrestrial radio and now the

2435

01:25:04,709 --> 01:25:02,080

team and i

2436

01:25:07,030 --> 01:25:04,719

continue to try and uh you know work in

2437

01:25:08,870 --> 01:25:07,040

that sphere with the debrief but you're

2438

01:25:10,790 --> 01:25:08,880

always going to have people that if you

2439

01:25:12,390 --> 01:25:10,800

are attempting to report credibly on

2440

01:25:14,310 --> 01:25:12,400

this subject they say what's your really

2441

01:25:15,750 --> 01:25:14,320

motiva you know your real modus operandi

2442

01:25:17,430 --> 01:25:15,760

why are you uh

2443

01:25:18,870 --> 01:25:17,440

are you a dis info agent you know and we

2444

01:25:20,550 --> 01:25:18,880

joke about that a lot but i mean a lot

2445

01:25:21,750 --> 01:25:20,560

of people do actually believe that so i

2446

01:25:23,030 --> 01:25:21,760

really appreciate the people who still

2447

01:25:25,270 --> 01:25:23,040

support me

2448

01:25:27,750 --> 01:25:25,280

but it's worth the question you know why

2449

01:25:29,910 --> 01:25:27,760

might some people see something

2450

01:25:32,070 --> 01:25:29,920

and uh and others might not

2451

01:25:33,750 --> 01:25:32,080

this is interesting too because

2452

01:25:36,950 --> 01:25:33,760

there is some literature that's

2453

01:25:39,270 --> 01:25:36,960

suggestive of some people maybe having

2454

01:25:41,350 --> 01:25:39,280

uh and again i refer again to the work

2455

01:25:43,270 --> 01:25:41,360

of william r corliss who documented all

2456

01:25:45,430 --> 01:25:43,280

kinds of anomalous phenomena in nature

2457

01:25:46,950 --> 01:25:45,440

including biological nature and also

2458

01:25:48,629 --> 01:25:46,960

anomalous

2459

01:25:49,510 --> 01:25:48,639

observations you know with regard to

2460

01:25:51,669 --> 01:25:49,520

humans

2461

01:25:55,430 --> 01:25:51,679

there is at least some data that

2462

01:25:58,629 --> 01:25:55,440

supports people who have a a deeper

2463

01:26:01,350 --> 01:25:58,639

capability i guess to perceive light

2464

01:26:02,709 --> 01:26:01,360

in near darkness than other people do

2465

01:26:04,070 --> 01:26:02,719

and one

2466

01:26:05,510 --> 01:26:04,080

theory i mean this is entirely

2467

01:26:07,669 --> 01:26:05,520

speculative but we might

2468

01:26:09,270 --> 01:26:07,679

hypothesize that some some people

2469

01:26:11,750 --> 01:26:09,280

actually possess

2470

01:26:13,910 --> 01:26:11,760

a better ability to perceive you know in

2471

01:26:15,830 --> 01:26:13,920

near darkness they may have even be able

2472

01:26:17,990 --> 01:26:15,840

to perceive you know closer to the

2473

01:26:19,750 --> 01:26:18,000

infrared spectrum now again that's not

2474

01:26:22,709 --> 01:26:19,760

the visible blood band of life that's

2475

01:26:24,310 --> 01:26:22,719

not the the actual spectrum that humans

2476

01:26:25,189 --> 01:26:24,320

have evolved to be able to operate in

2477

01:26:26,709 --> 01:26:25,199

but

2478

01:26:29,270 --> 01:26:26,719

if we were to speculate that some people

2479

01:26:32,149 --> 01:26:29,280

had a limited ability to perceive

2480

01:26:33,990 --> 01:26:32,159

more in that area of the electromagnetic

2481

01:26:35,110 --> 01:26:34,000

spectra that we're talking about the

2482

01:26:38,229 --> 01:26:35,120

infrared

2483

01:26:40,310 --> 01:26:38,239

that might explain some people's alleged

2484

01:26:41,350 --> 01:26:40,320

ability to see objects where others

2485

01:26:43,590 --> 01:26:41,360

cannot

2486

01:26:45,750 --> 01:26:43,600

and again i reference the navy videos

2487

01:26:48,149 --> 01:26:45,760

where pilots in many cases if you refer

2488

01:26:50,550 --> 01:26:48,159

to the 2019 new york times article where

2489

01:26:52,310 --> 01:26:50,560

ryan graves and other servicemen and

2490

01:26:54,149 --> 01:26:52,320

women were quoted

2491

01:26:55,990 --> 01:26:54,159

talking about how you know a couple

2492

01:26:57,510 --> 01:26:56,000

times these things were seen but more

2493

01:26:59,669 --> 01:26:57,520

often than not people only saw them in

2494

01:27:01,270 --> 01:26:59,679

the infrared that seems to indicate one

2495

01:27:03,189 --> 01:27:01,280

of a couple of things either these are

2496

01:27:05,830 --> 01:27:03,199

objects that are by virtue of their

2497

01:27:07,830 --> 01:27:05,840

design or whatever they may be

2498

01:27:09,990 --> 01:27:07,840

they operate and they appear only in the

2499

01:27:12,470 --> 01:27:10,000

infrared or they appear to and this

2500

01:27:15,189 --> 01:27:12,480

seems to be the opinion of the military

2501

01:27:17,669 --> 01:27:15,199

that these things are capable of uh

2502

01:27:19,669 --> 01:27:17,679

using signal management and other kinds

2503

01:27:21,990 --> 01:27:19,679

of again what we would call i think in

2504

01:27:23,830 --> 01:27:22,000

sci-fi parlance cloaking technologies

2505

01:27:25,189 --> 01:27:23,840

but i prefer signal management because

2506

01:27:27,430 --> 01:27:25,199

what it appears to be is some kind of

2507

01:27:28,950 --> 01:27:27,440

electromagnetic

2508

01:27:30,550 --> 01:27:28,960

technology

2509

01:27:31,990 --> 01:27:30,560

used we can only speculate about what it

2510

01:27:35,030 --> 01:27:32,000

is and how it might work but it is used

2511

01:27:37,030 --> 01:27:35,040

to you know make them less visible both

2512

01:27:39,110 --> 01:27:37,040

in the visible spectrum and also it's to

2513

01:27:41,430 --> 01:27:39,120

help them be you know able to evade

2514

01:27:45,990 --> 01:27:41,440

radar a little better they are able to

2515

01:27:47,750 --> 01:27:46,000

uh perhaps even jam or or or confuse

2516

01:27:49,830 --> 01:27:47,760

equipment technologies that would be

2517

01:27:51,110 --> 01:27:49,840

used to detect these objects

2518

01:27:52,950 --> 01:27:51,120

these are all things these are all

2519

01:27:55,750 --> 01:27:52,960

characteristics that some uap have been

2520

01:27:58,310 --> 01:27:55,760

observed doing by our military as

2521

01:28:00,310 --> 01:27:58,320

related in the odni report from last

2522

01:28:02,149 --> 01:28:00,320

summer and again the frustrating part is

2523

01:28:05,030 --> 01:28:02,159

that we don't have specifics on what

2524

01:28:07,510 --> 01:28:05,040

kinds of of you know frequency and

2525

01:28:10,070 --> 01:28:07,520

signals management specifically is being

2526

01:28:12,310 --> 01:28:10,080

done most of that's redacted and i will

2527

01:28:13,910 --> 01:28:12,320

here again call attention to the recent

2528

01:28:15,350 --> 01:28:13,920

release by john greenwald of the

2529

01:28:17,110 --> 01:28:15,360

classified version of that report that

2530

01:28:19,110 --> 01:28:17,120

he managed to get just a little longer

2531

01:28:20,709 --> 01:28:19,120

than the one that we all saw last summer

2532

01:28:22,470 --> 01:28:20,719

but there's still a lot more information

2533

01:28:24,310 --> 01:28:22,480

in there i'm hoping in the future we can

2534

01:28:25,910 --> 01:28:24,320

get some of those redactions removed but

2535

01:28:27,590 --> 01:28:25,920

again the broader point is if some of

2536

01:28:30,070 --> 01:28:27,600

these objects are capable of operating

2537

01:28:32,709 --> 01:28:30,080

primarily in the infrared and that the

2538

01:28:33,910 --> 01:28:32,719

human eye is incapable of seeing them

2539

01:28:35,590 --> 01:28:33,920

you know whether they are natural

2540

01:28:36,790 --> 01:28:35,600

whether they are technological whatever

2541

01:28:38,870 --> 01:28:36,800

they may be

2542

01:28:40,390 --> 01:28:38,880

that might be one reason why some people

2543

01:28:42,149 --> 01:28:40,400

claim hey you know i actually saw a

2544

01:28:43,750 --> 01:28:42,159

light i saw an object it was faint but

2545

01:28:45,510 --> 01:28:43,760

there was something in the sky when a

2546

01:28:47,510 --> 01:28:45,520

person next to him might say i didn't

2547

01:28:50,470 --> 01:28:47,520

see anything

2548

01:28:52,870 --> 01:28:50,480

right no that happens a lot you do hear

2549

01:28:55,270 --> 01:28:52,880

you do hear a lot of times where

2550

01:28:57,430 --> 01:28:55,280

you know people be standing side by side

2551
01:28:59,350 --> 01:28:57,440
and like look do you see that or or

2552
01:29:00,709 --> 01:28:59,360
they'll see two different entirely

2553
01:29:02,149 --> 01:29:00,719
different things

2554
01:29:03,590 --> 01:29:02,159
which is another

2555
01:29:05,669 --> 01:29:03,600
another one of the mysteries out there

2556
01:29:07,669 --> 01:29:05,679
if you ask me

2557
01:29:09,270 --> 01:29:07,679
it is and i'll briefly just add martin

2558
01:29:10,790 --> 01:29:09,280
that i mean some would also say and i

2559
01:29:12,550 --> 01:29:10,800
think that this is at least worthy of

2560
01:29:14,070 --> 01:29:12,560
entertaining i try not to get too too

2561
01:29:15,350 --> 01:29:14,080
speculative when we're talking about

2562
01:29:16,390 --> 01:29:15,360
these things you know just the facts

2563
01:29:18,070 --> 01:29:16,400

ma'am but

2564

01:29:20,149 --> 01:29:18,080

there is the consciousness side of this

2565

01:29:22,229 --> 01:29:20,159

where some might argue that well

2566

01:29:24,149 --> 01:29:22,239

maybe being able to see these objects

2567

01:29:26,790 --> 01:29:24,159

requires a you know a shift of your

2568

01:29:29,189 --> 01:29:26,800

perspective or even your consciousness

2569

01:29:31,590 --> 01:29:29,199

there are the anecdotes about you know

2570

01:29:35,030 --> 01:29:31,600

the indigenous americans who first

2571

01:29:36,950 --> 01:29:35,040

encountered europeans and sometimes they

2572

01:29:39,669 --> 01:29:36,960

didn't perceive

2573

01:29:40,870 --> 01:29:39,679

their large sailing vessels

2574

01:29:42,149 --> 01:29:40,880

of course as being sailing vessels

2575

01:29:43,750 --> 01:29:42,159

because they never encountered anything

2576

01:29:46,550 --> 01:29:43,760

like that now that may be

2577

01:29:48,709 --> 01:29:46,560

uh you know somewhat not just anecdotal

2578

01:29:50,629 --> 01:29:48,719

but it actually may be

2579

01:29:52,470 --> 01:29:50,639

you know an entire misperception of of

2580

01:29:54,709 --> 01:29:52,480

the accounts that were given by people

2581

01:29:56,550 --> 01:29:54,719

at that period you know when contact

2582

01:29:58,870 --> 01:29:56,560

between europe and the new world first

2583

01:30:01,350 --> 01:29:58,880

occurred but you know again the idea

2584

01:30:03,510 --> 01:30:01,360

that a person whose frame of reference

2585

01:30:04,870 --> 01:30:03,520

is so far outside of the technology that

2586

01:30:07,270 --> 01:30:04,880

they're observing that they don't

2587

01:30:09,270 --> 01:30:07,280

observe it and even witness it and and

2588

01:30:11,750 --> 01:30:09,280

perceive it as being a technology is

2589

01:30:13,590 --> 01:30:11,760

compelling to me and you do hear that

2590

01:30:15,350 --> 01:30:13,600

argument raised from time to time if we

2591

01:30:16,790 --> 01:30:15,360

were really to see an alien spaceship i

2592

01:30:19,030 --> 01:30:16,800

see neil degrasse tyson and people all

2593

01:30:21,510 --> 01:30:19,040

the time saying oh come on guys we would

2594

01:30:23,750 --> 01:30:21,520

know a spaceship if we saw one i have to

2595

01:30:25,990 --> 01:30:23,760

say would we really are we really so

2596

01:30:27,830 --> 01:30:26,000

sure we would recognize

2597

01:30:29,910 --> 01:30:27,840

such an advanced technology if it were

2598

01:30:32,310 --> 01:30:29,920

entering our atmosphere i mean it might

2599

01:30:33,990 --> 01:30:32,320

be perceived in a number of ways and in

2600

01:30:35,590 --> 01:30:34,000

fact if it's far enough outside of our

2601
01:30:36,950 --> 01:30:35,600
frame of reference it may be perceived

2602
01:30:38,470 --> 01:30:36,960
as oh i didn't really see that and

2603
01:30:40,390 --> 01:30:38,480
people just discount it which is

2604
01:30:41,350 --> 01:30:40,400
precisely what many do with ufos isn't

2605
01:30:44,070 --> 01:30:41,360
it

2606
01:30:45,830 --> 01:30:44,080
right right i have sort of a

2607
01:30:47,590 --> 01:30:45,840
oh i don't want to say love hate

2608
01:30:50,229 --> 01:30:47,600
relationship i don't want to use that

2609
01:30:52,390 --> 01:30:50,239
but i have kind of you know

2610
01:30:55,510 --> 01:30:52,400
back and forth thoughts about neil

2611
01:30:57,910 --> 01:30:55,520
degrasse tyson i was actually looking

2612
01:30:59,910 --> 01:30:57,920
to go see him he's going to be in boston

2613
01:31:01,910 --> 01:30:59,920

in september and i thought well you know

2614

01:31:03,590 --> 01:31:01,920

a friend of mine and i were thinking

2615

01:31:05,430 --> 01:31:03,600

about and maybe even my son as well

2616

01:31:07,910 --> 01:31:05,440

thinking about going to see him and then

2617

01:31:09,669 --> 01:31:07,920

i saw the minimum tickets

2618

01:31:12,790 --> 01:31:09,679

were 106

2619

01:31:15,430 --> 01:31:12,800

excuse me it's not a rock band

2620

01:31:17,030 --> 01:31:15,440

i don't i don't understand where he gets

2621

01:31:20,070 --> 01:31:17,040

off uh

2622

01:31:22,390 --> 01:31:20,080

and maybe he can fill a stadium at 106

2623

01:31:23,350 --> 01:31:22,400

plus some seats are 300 something

2624

01:31:27,510 --> 01:31:23,360

dollars

2625

01:31:31,189 --> 01:31:29,590

i i did put up a clip

2626

01:31:33,669 --> 01:31:31,199

smart

2627

01:31:35,430 --> 01:31:33,679

yeah he's as close to a rock star as far

2628

01:31:36,870 --> 01:31:35,440

as physicists go he's about as close to

2629

01:31:39,510 --> 01:31:36,880

being a rock star as you could get isn't

2630

01:31:41,830 --> 01:31:39,520

he so i mean i guess so

2631

01:31:44,470 --> 01:31:41,840

i guess so yeah but you know i mean as

2632

01:31:48,149 --> 01:31:44,480

far as his close-mindedness

2633

01:31:49,910 --> 01:31:48,159

on the ufa ufo topic you know i put

2634

01:31:52,709 --> 01:31:49,920

together a little clip that's on my

2635

01:31:55,189 --> 01:31:52,719

channel somewhere where he basically is

2636

01:31:55,990 --> 01:31:55,199

saying you know that um

2637

01:31:58,870 --> 01:31:56,000

when

2638

01:31:59,750 --> 01:31:58,880

science and science you have to know

2639

01:32:04,390 --> 01:31:59,760

when

2640

01:32:06,629 --> 01:32:04,400

understand or you don't know but he

2641

01:32:09,270 --> 01:32:06,639

doesn't he he goes and makes these

2642

01:32:11,830 --> 01:32:09,280

claims that you know why is it only

2643

01:32:13,910 --> 01:32:11,840

military or seeing you know ufos that

2644

01:32:15,910 --> 01:32:13,920

type of thing so he can be in my opinion

2645

01:32:17,590 --> 01:32:15,920

he can be rather arrogant and not

2646

01:32:18,950 --> 01:32:17,600

open-minded like a scientist should be

2647

01:32:21,990 --> 01:32:18,960

when it comes to

2648

01:32:25,030 --> 01:32:22,000

um what people are seeing for ufos uaps

2649

01:32:28,790 --> 01:32:26,870

indeed well you know i'll just point out

2650

01:32:30,950 --> 01:32:28,800

i have gone i've seen him talk i like

2651
01:32:32,870 --> 01:32:30,960
neil i appreciate what he does as far as

2652
01:32:35,590 --> 01:32:32,880
you know uh science

2653
01:32:37,669 --> 01:32:35,600
uh you know as a science communicator i

2654
01:32:38,870 --> 01:32:37,679
appreciate what he does but when i see

2655
01:32:41,270 --> 01:32:38,880
people

2656
01:32:43,750 --> 01:32:41,280
asking him on on you know the mainstream

2657
01:32:45,430 --> 01:32:43,760
media shows on the in the news cycles

2658
01:32:47,189 --> 01:32:45,440
about ufos

2659
01:32:49,430 --> 01:32:47,199
i have to step back and ask you know how

2660
01:32:50,950 --> 01:32:49,440
is he or why is he supposed to be any

2661
01:32:53,030 --> 01:32:50,960
more an expert

2662
01:32:54,229 --> 01:32:53,040
on this purported anomalous aerial

2663
01:32:56,149 --> 01:32:54,239

phenomena

2664

01:32:58,070 --> 01:32:56,159

than anybody else i mean because he's

2665

01:32:59,990 --> 01:32:58,080

and i i think it was allison camaro that

2666

01:33:00,950 --> 01:33:00,000

actually said at one point but you look

2667

01:33:02,629 --> 01:33:00,960

it through it you know you look at the

2668

01:33:03,990 --> 01:33:02,639

sky through a telescope so you are an

2669

01:33:06,149 --> 01:33:04,000

expert on this

2670

01:33:07,830 --> 01:33:06,159

to which he responded no

2671

01:33:09,910 --> 01:33:07,840

i'm not an expert on this he says i'm

2672

01:33:11,030 --> 01:33:09,920

glad our military is looking into it

2673

01:33:12,310 --> 01:33:11,040

because they're the very ones who need

2674

01:33:14,310 --> 01:33:12,320

to be looking at these things if these

2675

01:33:16,070 --> 01:33:14,320

things are in our airspace our military

2676

01:33:17,430 --> 01:33:16,080

aircraft are encountering these things i

2677

01:33:18,950 --> 01:33:17,440

want the military looking at them but he

2678

01:33:20,790 --> 01:33:18,960

said no that's not what i do i study

2679

01:33:22,629 --> 01:33:20,800

stars they're way out there

2680

01:33:24,390 --> 01:33:22,639

and you know to his point

2681

01:33:26,550 --> 01:33:24,400

he what he's really saying is no i'm not

2682

01:33:28,550 --> 01:33:26,560

a ufo expert and if there are objects we

2683

01:33:30,950 --> 01:33:28,560

can't identify let's let the military

2684

01:33:33,189 --> 01:33:30,960

look at those but to your point martin

2685

01:33:34,709 --> 01:33:33,199

there have been many instances where

2686

01:33:36,709 --> 01:33:34,719

neil has said things like you know if

2687

01:33:39,110 --> 01:33:36,719

these fuzzy videos are the best that

2688

01:33:40,310 --> 01:33:39,120

we've got i ain't impressed

2689

01:33:41,750 --> 01:33:40,320

well let's break that down really

2690

01:33:44,310 --> 01:33:41,760

quickly this is some of the most

2691

01:33:46,310 --> 01:33:44,320

sophisticated tracking equipment in use

2692

01:33:48,310 --> 01:33:46,320

by our military right now

2693

01:33:51,830 --> 01:33:48,320

and they claim that they are using this

2694

01:33:53,830 --> 01:33:51,840

technology to track and to film objects

2695

01:33:55,750 --> 01:33:53,840

that are very fast they are very

2696

01:33:57,430 --> 01:33:55,760

difficult to detect let alone to lock

2697

01:33:58,629 --> 01:33:57,440

onto into film

2698

01:34:00,790 --> 01:33:58,639

if indeed we are looking at a

2699

01:34:03,590 --> 01:34:00,800

significantly advanced technology that

2700

01:34:05,910 --> 01:34:03,600

makes itself very unavailable to the

2701

01:34:07,990 --> 01:34:05,920

best technology that we have

2702

01:34:09,510 --> 01:34:08,000

those aren't little fuzzy unimpressive

2703

01:34:10,950 --> 01:34:09,520

videos to me those are some of the most

2704

01:34:12,390 --> 01:34:10,960

important videos that have ever ever

2705

01:34:14,149 --> 01:34:12,400

been made and again when they were

2706

01:34:16,229 --> 01:34:14,159

released officially

2707

01:34:17,990 --> 01:34:16,239

by the dod in april of 2020 and they

2708

01:34:19,830 --> 01:34:18,000

referred to them as historical navy

2709

01:34:21,430 --> 01:34:19,840

videos i think that's a great way to

2710

01:34:23,030 --> 01:34:21,440

describe them i think one day we will

2711

01:34:25,189 --> 01:34:23,040

look back on those three videos that you

2712

01:34:26,709 --> 01:34:25,199

and i have talked about so much tonight

2713

01:34:28,229 --> 01:34:26,719

and we will recognize them as being

2714

01:34:29,350 --> 01:34:28,239

historic in the sense that they were the

2715

01:34:31,910 --> 01:34:29,360

first

2716

01:34:34,550 --> 01:34:31,920

albeit an imperfect and a fairly crude

2717

01:34:35,750 --> 01:34:34,560

attempt but they were a first attempt at

2718

01:34:37,590 --> 01:34:35,760

filming

2719

01:34:39,430 --> 01:34:37,600

and observing a phenomenon that people

2720

01:34:41,590 --> 01:34:39,440

have claimed to see for quite a while

2721

01:34:42,629 --> 01:34:41,600

and that in the future i hope with any

2722

01:34:44,629 --> 01:34:42,639

luck we're going to learn a whole lot

2723

01:34:47,189 --> 01:34:44,639

more about

2724

01:34:49,109 --> 01:34:47,199

right um you know this probably

2725

01:34:50,550 --> 01:34:49,119

well according to you i'm sure you've

2726

01:34:52,310 --> 01:34:50,560

heard this as you

2727

01:34:53,270 --> 01:34:52,320

you you really pay attention to the

2728

01:34:55,189 --> 01:34:53,280

topic

2729

01:34:57,990 --> 01:34:55,199

but um you know the supposedly there's

2730

01:35:00,310 --> 01:34:58,000

this 23-minute video that we're all

2731

01:35:02,629 --> 01:35:00,320

going to get to see where i thought it

2732

01:35:05,350 --> 01:35:02,639

was going to be last year but eventually

2733

01:35:07,270 --> 01:35:05,360

um that lou elizondo is pretty certain

2734

01:35:08,950 --> 01:35:07,280

that you know we're going to be seeing

2735

01:35:09,990 --> 01:35:08,960

at some point and i'll be very

2736

01:35:11,910 --> 01:35:10,000

interested

2737

01:35:14,390 --> 01:35:11,920

in seeing that and that has to do with

2738

01:35:16,310 --> 01:35:14,400

multiple ufos and you know so because

2739

01:35:17,910 --> 01:35:16,320

what we have so far these little clips

2740

01:35:19,669 --> 01:35:17,920

that are what i don't know how many

2741

01:35:21,910 --> 01:35:19,679

seconds long but not long

2742

01:35:23,109 --> 01:35:21,920

and according to

2743

01:35:24,470 --> 01:35:23,119

um

2744

01:35:26,629 --> 01:35:24,480

what i've

2745

01:35:27,590 --> 01:35:26,639

have heard the reason we don't see more

2746

01:35:29,910 --> 01:35:27,600

of those

2747

01:35:31,590 --> 01:35:29,920

is because it might reveal something you

2748

01:35:32,629 --> 01:35:31,600

know top secret and maybe the way we're

2749

01:35:33,830 --> 01:35:32,639

capturing

2750

01:35:36,470 --> 01:35:33,840

um

2751

01:35:38,149 --> 01:35:36,480

or whatever there's something

2752

01:35:40,149 --> 01:35:38,159

supposedly that has to do with why we're

2753

01:35:43,990 --> 01:35:40,159

only seeing such

2754

01:35:48,709 --> 01:35:46,950

yeah and there are some issues with that

2755

01:35:49,750 --> 01:35:48,719

uh which again to your point i've heard

2756

01:35:52,390 --> 01:35:49,760

a lot of these

2757

01:35:54,070 --> 01:35:52,400

i've heard virtually every one of these

2758

01:35:55,510 --> 01:35:54,080

claims that there are longer versions of

2759

01:35:56,870 --> 01:35:55,520

the videos that we know about and then

2760

01:35:58,709 --> 01:35:56,880

that there are entirely other videos

2761

01:35:59,990 --> 01:35:58,719

that we haven't heard anything about

2762

01:36:01,350 --> 01:36:00,000

i don't doubt that there are lots of

2763

01:36:02,870 --> 01:36:01,360

videos out there you know but part of

2764

01:36:05,750 --> 01:36:02,880

the problem is

2765

01:36:07,669 --> 01:36:05,760

i guess knowing what to ask for

2766

01:36:09,350 --> 01:36:07,679

knowing what to look for

2767

01:36:11,270 --> 01:36:09,360

i mean even if you if you work within

2768

01:36:12,709 --> 01:36:11,280

government you have to know what to go

2769

01:36:13,790 --> 01:36:12,719

looking for

2770

01:36:15,830 --> 01:36:13,800

and then there is you know a

2771

01:36:17,109 --> 01:36:15,840

declassification process that you know

2772

01:36:18,629 --> 01:36:17,119

one is supposed to go through but of

2773

01:36:20,390 --> 01:36:18,639

course what was ultimately determined

2774

01:36:22,629 --> 01:36:20,400

about the current existing three navy

2775

01:36:24,390 --> 01:36:22,639

videos is they were unclassified for

2776

01:36:26,070 --> 01:36:24,400

special use only and there wasn't any

2777

01:36:27,109 --> 01:36:26,080

problem with them ultimately having been

2778

01:36:28,149 --> 01:36:27,119

released

2779

01:36:29,510 --> 01:36:28,159

although there were various

2780

01:36:30,870 --> 01:36:29,520

investigations when they were first

2781

01:36:32,950 --> 01:36:30,880

released by the new york times i think

2782

01:36:35,590 --> 01:36:32,960

the air force office of special

2783

01:36:37,270 --> 01:36:35,600

investigations first got into the game

2784

01:36:38,950 --> 01:36:37,280

they looked at these videos to try to

2785

01:36:40,870 --> 01:36:38,960

determine if there were any technologies

2786

01:36:43,189 --> 01:36:40,880

or sensitive you know

2787

01:36:44,629 --> 01:36:43,199

equipment or capabilities

2788

01:36:47,109 --> 01:36:44,639

uh

2789

01:36:49,590 --> 01:36:47,119

with the equipment used in the footage

2790

01:36:51,189 --> 01:36:49,600

and it's in its uh you know capture that

2791

01:36:53,350 --> 01:36:51,199

were being revealed by the footage

2792

01:36:54,870 --> 01:36:53,360

itself they determined

2793

01:36:57,109 --> 01:36:54,880

nothing sensitive was being released

2794

01:36:58,790 --> 01:36:57,119

these videos weren't classified

2795

01:37:01,350 --> 01:36:58,800

and eventually and it took them until

2796

01:37:03,270 --> 01:37:01,360

2020 but again the dod did eventually

2797

01:37:04,629 --> 01:37:03,280

authorize them for release and at that

2798

01:37:06,070 --> 01:37:04,639

time

2799

01:37:07,510 --> 01:37:06,080

they said in the official pentagon

2800

01:37:10,070 --> 01:37:07,520

statement which is still on the dod

2801

01:37:11,750 --> 01:37:10,080

website that this is to help clear up

2802

01:37:12,790 --> 01:37:11,760

questions about whether these videos are

2803

01:37:13,990 --> 01:37:12,800

real

2804

01:37:15,830 --> 01:37:14,000

or whether they're a link to your

2805

01:37:18,310 --> 01:37:15,840

versions of the videos

2806

01:37:19,830 --> 01:37:18,320

now again i spoke with gary voorhees

2807

01:37:21,350 --> 01:37:19,840

about this and he said you know they're

2808

01:37:23,510 --> 01:37:21,360

in the uh

2809

01:37:25,750 --> 01:37:23,520

you know the command center the

2810

01:37:27,510 --> 01:37:25,760

what they call i guess is it the coc i

2811

01:37:29,270 --> 01:37:27,520

think they call it uh on board the

2812

01:37:30,310 --> 01:37:29,280

princeton he said that when fraver and

2813

01:37:31,750 --> 01:37:30,320

then flew out there and they were

2814

01:37:32,870 --> 01:37:31,760

attempting to actually engage this

2815

01:37:34,390 --> 01:37:32,880

object

2816

01:37:35,590 --> 01:37:34,400

he said that you know i mean we were all

2817

01:37:36,870 --> 01:37:35,600

watching the video and he said i

2818

01:37:37,830 --> 01:37:36,880

remember there being a link to your

2819

01:37:39,590 --> 01:37:37,840

video

2820

01:37:41,350 --> 01:37:39,600

another gentleman who i spoke to who on

2821

01:37:43,830 --> 01:37:41,360

the record came on my program ryan

2822

01:37:45,350 --> 01:37:43,840

waggle uh he also said i recall being in

2823

01:37:46,550 --> 01:37:45,360

there uh he said i was doing other

2824

01:37:47,910 --> 01:37:46,560

things in the room at the time but he

2825

01:37:49,109 --> 01:37:47,920

said there was clearly a video he says

2826

01:37:50,390 --> 01:37:49,119

it wasn't just that little clip that

2827

01:37:52,390 --> 01:37:50,400

everybody's seen on youtube there was a

2828

01:37:54,709 --> 01:37:52,400

much lengthier video

2829

01:37:56,229 --> 01:37:54,719

and i even asked uh lieutenant ryan uh

2830

01:37:58,070 --> 01:37:56,239

wiggled i mean do you do you think it

2831

01:38:00,149 --> 01:37:58,080

could have been on replay or on loop and

2832

01:38:01,750 --> 01:38:00,159

he said i couldn't tell you because he

2833

01:38:03,510 --> 01:38:01,760

said we all had so many different jobs

2834

01:38:05,109 --> 01:38:03,520

and things we were doing on the ship

2835

01:38:06,629 --> 01:38:05,119

that wasn't my focus at the time but he

2836

01:38:07,750 --> 01:38:06,639

said i clearly remember that footage

2837

01:38:09,510 --> 01:38:07,760

being played

2838

01:38:11,669 --> 01:38:09,520

gary voorhees on the other hand said no

2839

01:38:13,750 --> 01:38:11,679

it was definitely a lengthier video he

2840

01:38:16,149 --> 01:38:13,760

had initially told me he thought that

2841

01:38:17,510 --> 01:38:16,159

that was actually not the at floor

2842

01:38:18,870 --> 01:38:17,520

footage that we're all familiar with but

2843

01:38:20,950 --> 01:38:18,880

this was actually what's called the link

2844

01:38:23,109 --> 01:38:20,960

six uh or uh

2845

01:38:25,030 --> 01:38:23,119

i think actually the leaks the link 16

2846

01:38:27,030 --> 01:38:25,040

but he had after

2847

01:38:28,470 --> 01:38:27,040

initially telling me that he said

2848

01:38:30,229 --> 01:38:28,480

actually i don't think that's the

2849

01:38:32,229 --> 01:38:30,239

footage that wouldn't have been in use

2850

01:38:33,189 --> 01:38:32,239

on the system that we had at that time

2851

01:38:34,790 --> 01:38:33,199

and therefore i couldn't have been

2852

01:38:37,189 --> 01:38:34,800

observing it through that

2853

01:38:38,870 --> 01:38:37,199

so the footage i saw must have been the

2854

01:38:40,229 --> 01:38:38,880

footage that everyone has seen but he

2855

01:38:41,590 --> 01:38:40,239

said i distinctly remember there being a

2856

01:38:43,109 --> 01:38:41,600

longer version

2857

01:38:44,709 --> 01:38:43,119

so a lot of people have said that people

2858

01:38:45,910 --> 01:38:44,719

have also talked about the radar bridge

2859

01:38:47,270 --> 01:38:45,920

from the princeton that were taken by

2860

01:38:50,310 --> 01:38:47,280

two men in plainclothes who came on

2861

01:38:51,990 --> 01:38:50,320

board the ship and took the radar data

2862

01:38:53,510 --> 01:38:52,000

christian lambricht last point i'll make

2863

01:38:54,790 --> 01:38:53,520

here about the videos at least and

2864

01:38:56,550 --> 01:38:54,800

information about the nimitz thing that

2865

01:38:58,870 --> 01:38:56,560

we haven't seen christian lambricht who

2866

01:39:00,149 --> 01:38:58,880

is again another very diligent foyer

2867

01:39:03,189 --> 01:39:00,159

researcher

2868

01:39:05,109 --> 01:39:03,199

of many years but he got the foia back

2869

01:39:07,270 --> 01:39:05,119

which stated to him that you know naval

2870

01:39:08,870 --> 01:39:07,280

intelligence does have

2871

01:39:10,950 --> 01:39:08,880

another piece of footage

2872

01:39:12,470 --> 01:39:10,960

related to the nimitz incident but that

2873

01:39:13,830 --> 01:39:12,480

is currently not

2874

01:39:15,910 --> 01:39:13,840

eligible for release due to its

2875

01:39:17,270 --> 01:39:15,920

classification status

2876

01:39:19,109 --> 01:39:17,280

in not so many words i'm not quoting

2877

01:39:20,390 --> 01:39:19,119

directly from the foia response that he

2878

01:39:21,669 --> 01:39:20,400

received but they did say essentially

2879

01:39:23,510 --> 01:39:21,679

there's a video we have but we can't

2880

01:39:25,750 --> 01:39:23,520

release that so

2881

01:39:27,830 --> 01:39:25,760

whatever form it may take whichever one

2882

01:39:30,070 --> 01:39:27,840

mr elizondo is referring to i've spoken

2883

01:39:31,910 --> 01:39:30,080

with lou a bit uh and i don't doubt that

2884

01:39:32,950 --> 01:39:31,920

if lou says there is a video that one

2885

01:39:35,189 --> 01:39:32,960

exists

2886

01:39:37,270 --> 01:39:35,199

but i wonder

2887

01:39:39,270 --> 01:39:37,280

about that other footage related to the

2888

01:39:43,109 --> 01:39:39,280

nimitz will we ever see that will it

2889

01:39:47,189 --> 01:39:44,149

right

2890

01:39:49,830 --> 01:39:47,199

yes yeah i i spoke with gary about that

2891

01:39:52,470 --> 01:39:49,840

as well i'm going to try to play this

2892

01:39:54,470 --> 01:39:52,480

video hopefully the audio will play with

2893

01:39:56,790 --> 01:39:54,480

it this was the neil degrasse

2894

01:40:03,669 --> 01:39:56,800

tyson um kind of the irony and here it

2895

01:40:08,950 --> 01:40:06,629

anticipated pentagon investigation found

2896

01:40:11,350 --> 01:40:08,960

no evidence these ufos were alien

2897

01:40:13,510 --> 01:40:11,360

spacecraft but they're not ruling out

2898

01:40:15,830 --> 01:40:13,520

the possibility either

2899

01:40:18,229 --> 01:40:15,840

so you have a whole chapter of your book

2900

01:40:20,470 --> 01:40:18,239

called are we alone in the universe so

2901

01:40:24,390 --> 01:40:20,480

i'm going to ask you do you think these

2902

01:40:26,310 --> 01:40:24,400

ufos are extraterrestrial in nature

2903

01:40:27,910 --> 01:40:26,320

yeah so first of all

2904

01:40:31,030 --> 01:40:27,920

that book is a collection of questions

2905

01:40:33,830 --> 01:40:31,040

we have all had about our place in the

2906

01:40:36,709 --> 01:40:33,840

universe and top two or three questions

2907

01:40:39,270 --> 01:40:36,719

i'm ever asked are are we alone in the

2908

01:40:41,669 --> 01:40:39,280

universe so this is right at the center

2909

01:40:44,229 --> 01:40:41,679

of people's core of curiosity that's

2910

01:40:45,270 --> 01:40:44,239

first second um

2911

01:40:51,189 --> 01:40:45,280

the

2912

01:40:52,430 --> 01:40:51,199

and we so want many of those mysteries

2913

01:40:54,229 --> 01:40:52,440

to be some

2914

01:40:57,109 --> 01:40:54,239

avored

2915

01:40:59,109 --> 01:40:57,119

uh answer that we might carry you see a

2916

01:41:02,790 --> 01:40:59,119

light in the sky you don't understand

2917

01:41:05,510 --> 01:41:02,800

gee i want that to be aliens visiting us

2918

01:41:08,149 --> 01:41:05,520

and so in science however you want you

2919

01:41:10,629 --> 01:41:08,159

look at you you rank possibilities by

2920

01:41:13,030 --> 01:41:10,639

likelihood okay these navy

2921

01:41:14,390 --> 01:41:13,040

videos you have to ask if they are

2922

01:41:16,790 --> 01:41:14,400

aliens visiting

2923

01:41:19,430 --> 01:41:16,800

why are they only

2924

01:41:20,870 --> 01:41:19,440

visiting navy pilots how about the rest

2925

01:41:22,229 --> 01:41:20,880

of earth's surface

2926

01:41:25,750 --> 01:41:22,239

there are three

2927

01:41:28,310 --> 01:41:25,760

billion smartphones on this planet each

2928

01:41:31,750 --> 01:41:28,320

one is a high resolution color camera

2929

01:41:33,030 --> 01:41:31,760

and video recorder so

2930

01:41:35,669 --> 01:41:33,040

basically

2931

01:41:37,750 --> 01:41:35,679

aliens invasions have been crowdsourced

2932

01:41:40,709 --> 01:41:37,760

to the population of the planet if

2933

01:41:42,470 --> 01:41:40,719

anybody's any alien is landing anywhere

2934

01:41:43,990 --> 01:41:42,480

it's gonna look what else we have

2935

01:41:46,149 --> 01:41:44,000

already streamed that used to be rare

2936

01:41:48,709 --> 01:41:46,159

but we knew was happening all right like

2937

01:41:50,550 --> 01:41:48,719

police violence and all this if aliens

2938

01:41:53,030 --> 01:41:50,560

landed you know we would have it it

2939

01:41:54,550 --> 01:41:53,040

would be viral overnight but instead

2940

01:41:55,440 --> 01:41:54,560

their cat videos

2941

01:42:00,229 --> 01:41:55,450

would go viral

2942

01:42:02,629 --> 01:42:00,239

[Laughter]

2943

01:42:03,669 --> 01:42:02,639

nasa chief bill nelson has said

2944

01:42:05,830 --> 01:42:03,679

that they're launching their own

2945

01:42:07,430 --> 01:42:05,840

investigation into the ufos as well and

2946

01:42:09,189 --> 01:42:07,440

acknowledges they don't know what they

2947

01:42:11,430 --> 01:42:09,199

are either one theory is that the ufos

2948

01:42:12,950 --> 01:42:11,440

could be a foreign military aircraft

2949

01:42:14,870 --> 01:42:12,960

according to new york times china and

2950

01:42:17,109 --> 01:42:14,880

russia have both invested heavily in

2951
01:42:19,350 --> 01:42:17,119
supersonic technology from what you've

2952
01:42:21,030 --> 01:42:19,360
seen how likely is that and does that

2953
01:42:24,550 --> 01:42:21,040
theory trouble you

2954
01:42:26,870 --> 01:42:24,560
yeah so first of all the of the 600 700

2955
01:42:29,669 --> 01:42:26,880
billion dollar budget of the pentagon

2956
01:42:32,629 --> 01:42:29,679
i would want some fraction of that to to

2957
01:42:35,910 --> 01:42:32,639
check out the sky and and make sure that

2958
01:42:37,350 --> 01:42:35,920
there aren't threats so i'm i'm happy to

2959
01:42:39,990 --> 01:42:37,360
have learned that there are government

2960
01:42:41,830 --> 01:42:40,000
programs investigating these no problem

2961
01:42:44,229 --> 01:42:41,840
there um

2962
01:42:46,629 --> 01:42:44,239
by the way they could be foreign foreign

2963
01:42:48,790 --> 01:42:46,639

craft that have achieved some level of

2964

01:42:51,189 --> 01:42:48,800

aerodynamic sophistication that we have

2965

01:42:52,229 --> 01:42:51,199

not i'm glad they're looking into that

2966

01:42:54,310 --> 01:42:52,239

totally

2967

01:42:56,790 --> 01:42:54,320

i have no problem with that now some of

2968

01:42:59,669 --> 01:42:56,800

it i think is not explained simply by

2969

01:43:01,430 --> 01:42:59,679

hypersonic technology um there's there's

2970

01:43:03,270 --> 01:43:01,440

behavior of these dots that i don't know

2971

01:43:05,430 --> 01:43:03,280

what that is and you know my first

2972

01:43:06,790 --> 01:43:05,440

thought is it's a it's some kind of bug

2973

01:43:08,709 --> 01:43:06,800

or malfunction

2974

01:43:10,470 --> 01:43:08,719

of the electronics

2975

01:43:12,229 --> 01:43:10,480

okay that's that would be my first

2976

01:43:16,470 --> 01:43:12,239

thought not we're being observed by

2977

01:43:20,149 --> 01:43:18,470

now there seems to be growing bipartisan

2978

01:43:22,550 --> 01:43:20,159

support for more government funding for

2979

01:43:25,030 --> 01:43:22,560

research into ufos but as republican

2980

01:43:27,270 --> 01:43:25,040

senator marco rubio has pointed out a

2981

01:43:29,350 --> 01:43:27,280

stigma still exists around the issue

2982

01:43:31,350 --> 01:43:29,360

which can prompt giggles and eye rolls

2983

01:43:33,990 --> 01:43:31,360

on capitol hill how do we convince

2984

01:43:37,510 --> 01:43:34,000

lawmakers to think less in terms of e.t

2985

01:43:39,030 --> 01:43:37,520

and more like contact or interstellar

2986

01:43:41,189 --> 01:43:39,040

yeah i think

2987

01:43:43,910 --> 01:43:41,199

the way to destigmatize it is

2988

01:43:46,229 --> 01:43:43,920

there are these things showing up in

2989

01:43:49,030 --> 01:43:46,239

military radar and we don't know what

2990

01:43:50,790 --> 01:43:49,040

they are anyone who is curious say let's

2991

01:43:53,109 --> 01:43:50,800

go try to figure it out

2992

01:43:56,149 --> 01:43:53,119

if you lead with the idea that we're

2993

01:43:57,590 --> 01:43:56,159

being visited by aliens that's

2994

01:43:59,350 --> 01:43:57,600

some people have that as their first

2995

01:44:00,390 --> 01:43:59,360

explanation for what they don't

2996

01:44:02,550 --> 01:44:00,400

understand

2997

01:44:05,270 --> 01:44:02,560

but for a skeptical scientist that would

2998

01:44:08,629 --> 01:44:05,280

probably be the last explanation as carl

2999

01:44:10,950 --> 01:44:08,639

sagan famously said extraordinary claims

3000

01:44:14,310 --> 01:44:10,960

require extraordinary evidence

3001
01:44:21,350 --> 01:44:14,320
not monochromatic fuzzy navy video of

3002
01:44:25,669 --> 01:44:22,709
one of the great challenges in this

3003
01:44:28,229 --> 01:44:25,679
world is knowing enough about a subject

3004
01:44:31,750 --> 01:44:28,239
to think you're right

3005
01:44:39,350 --> 01:44:31,760
but not enough about the subject

3006
01:44:43,669 --> 01:44:41,590
well there you go

3007
01:44:45,590 --> 01:44:43,679
i played that

3008
01:44:47,510 --> 01:44:45,600
so a lot of that kind of

3009
01:44:50,550 --> 01:44:47,520
reflected what you mentioned earlier

3010
01:44:53,830 --> 01:44:52,470
it did and martin if i can just you know

3011
01:44:55,830 --> 01:44:53,840
cover a few of the points right there

3012
01:44:57,030 --> 01:44:55,840
again that very last one you know

3013
01:44:58,390 --> 01:44:57,040

about

3014

01:45:00,070 --> 01:44:58,400

not knowing enough to know that you're

3015

01:45:01,669 --> 01:45:00,080

wrong

3016

01:45:03,669 --> 01:45:01,679

i would say that one of the great

3017

01:45:05,750 --> 01:45:03,679

paradoxes about ufo research is when

3018

01:45:08,149 --> 01:45:05,760

people come on radio programs like this

3019

01:45:10,870 --> 01:45:08,159

and say you know i'm a ufo researcher

3020

01:45:13,510 --> 01:45:10,880

and an expert on this phenomenon look if

3021

01:45:14,830 --> 01:45:13,520

we still call them unidentified

3022

01:45:17,030 --> 01:45:14,840

right flying objects if they're

3023

01:45:19,270 --> 01:45:17,040

unidentified how can anybody really be

3024

01:45:21,430 --> 01:45:19,280

an expert now you or i might be an

3025

01:45:23,270 --> 01:45:21,440

expert in the cultural dialogue about

3026

01:45:25,510 --> 01:45:23,280

these or the history of purported

3027

01:45:27,030 --> 01:45:25,520

sightings or you know even an expert in

3028

01:45:28,790 --> 01:45:27,040

speculations about them you know

3029

01:45:31,669 --> 01:45:28,800

computer scientists and physicists like

3030

01:45:33,430 --> 01:45:31,679

jacques valet have laboriously tried to

3031

01:45:35,030 --> 01:45:33,440

catalog information and look for

3032

01:45:36,629 --> 01:45:35,040

statistical trends that can help us

3033

01:45:38,229 --> 01:45:36,639

discern things i would dare say that

3034

01:45:39,510 --> 01:45:38,239

someone like valet

3035

01:45:40,950 --> 01:45:39,520

when it comes to everything from the

3036

01:45:43,990 --> 01:45:40,960

science to the myth and the culture of

3037

01:45:45,669 --> 01:45:44,000

uap studies spanning several decades

3038

01:45:47,590 --> 01:45:45,679

he's probably one of the closest to

3039

01:45:49,189 --> 01:45:47,600

being an expert of anybody that we have

3040

01:45:51,109 --> 01:45:49,199

he mark rodiger

3041

01:45:52,870 --> 01:45:51,119

and a few others too who you know again

3042

01:45:55,189 --> 01:45:52,880

have both certain qualifications but

3043

01:45:56,550 --> 01:45:55,199

have also been in it for a while but

3044

01:45:57,990 --> 01:45:56,560

at the end of the day

3045

01:46:01,030 --> 01:45:58,000

there are limitations to how much

3046

01:46:03,430 --> 01:46:01,040

expertise we ufo experts can have now

3047

01:46:06,470 --> 01:46:03,440

all of that said neil degrasse tyson is

3048

01:46:08,390 --> 01:46:06,480

probably a little less equipped when it

3049

01:46:10,709 --> 01:46:08,400

comes to the knowledge base that some of

3050

01:46:12,950 --> 01:46:10,719

those ufo researchers have even though

3051

01:46:14,709 --> 01:46:12,960

he is more well-equipped than the

3052

01:46:17,189 --> 01:46:14,719

average bear and maybe even the average

3053

01:46:18,550 --> 01:46:17,199

scientist when it comes to having a

3054

01:46:20,310 --> 01:46:18,560

knowledge of the physics and the

3055

01:46:22,390 --> 01:46:20,320

fundamentals of the work the workings of

3056

01:46:24,790 --> 01:46:22,400

the universe and and thereby has a

3057

01:46:26,629 --> 01:46:24,800

scientific toolkit i.e the scientific

3058

01:46:28,470 --> 01:46:26,639

method and knows how to apply that when

3059

01:46:30,149 --> 01:46:28,480

he's looking at things but by the same

3060

01:46:31,910 --> 01:46:30,159

token then he falls back on that tired

3061

01:46:34,870 --> 01:46:31,920

argument that we've heard and again with

3062

01:46:36,390 --> 01:46:34,880

respect both he and seth shostak say

3063

01:46:37,990 --> 01:46:36,400

well maybe these are just

3064

01:46:39,669 --> 01:46:38,000

bugs in the camera

3065

01:46:41,750 --> 01:46:39,679

first and foremost let's point out that

3066

01:46:44,310 --> 01:46:41,760

these objects as was referred to in the

3067

01:46:46,310 --> 01:46:44,320

odni report last june

3068

01:46:48,149 --> 01:46:46,320

are sometimes both seen in videos but

3069

01:46:49,669 --> 01:46:48,159

also tracked on radar sometimes there

3070

01:46:51,590 --> 01:46:49,679

are other sensor systems that are

3071

01:46:54,149 --> 01:46:51,600

capable of detecting these satellite

3072

01:46:57,990 --> 01:46:54,159

images appear to depict uap as a was

3073

01:46:59,350 --> 01:46:58,000

related by former dni john ratcliffe

3074

01:47:01,109 --> 01:46:59,360

back a couple of years ago and that was

3075

01:47:03,030 --> 01:47:01,119

with a bit of controversy too because

3076

01:47:04,950 --> 01:47:03,040

some had said specifically

3077

01:47:06,790 --> 01:47:04,960

uh lewis gideon krauss writing from the

3078

01:47:08,870 --> 01:47:06,800

new yorker that intelligence officials

3079

01:47:10,950 --> 01:47:08,880

he spoke with had wished maybe that mr

3080

01:47:12,550 --> 01:47:10,960

ratcliff hadn't said so much about

3081

01:47:13,510 --> 01:47:12,560

the satellite images involving these

3082

01:47:14,550 --> 01:47:13,520

things

3083

01:47:16,310 --> 01:47:14,560

but we look at all the different

3084

01:47:17,750 --> 01:47:16,320

agencies that contributed to the odni

3085

01:47:19,030 --> 01:47:17,760

report you know it wasn't just a couple

3086

01:47:21,189 --> 01:47:19,040

of people up there at the office of

3087

01:47:22,950 --> 01:47:21,199

naval intelligence we had the navy yes

3088

01:47:25,030 --> 01:47:22,960

we did have some input limited though it

3089

01:47:27,430 --> 01:47:25,040

was by the air force and again uh

3090

01:47:29,430 --> 01:47:27,440

christopher mellon has really uh

3091

01:47:31,430 --> 01:47:29,440

complained about that and really put out

3092

01:47:34,390 --> 01:47:31,440

what i consider a tour de force there at

3093

01:47:36,229 --> 01:47:34,400

thedebrief.org in an article that he did

3094

01:47:38,470 --> 01:47:36,239

for us asking why is the air force

3095

01:47:40,550 --> 01:47:38,480

essentially a wall in the uap question

3096

01:47:42,950 --> 01:47:40,560

but we also had the military i mean we

3097

01:47:45,109 --> 01:47:42,960

had the faa we had national geospatial

3098

01:47:46,629 --> 01:47:45,119

intelligence we had the nro the fbi the

3099

01:47:48,950 --> 01:47:46,639

cia even though they were probably

3100

01:47:51,830 --> 01:47:48,960

redacted that was one of the agencies

3101
01:47:53,350 --> 01:47:51,840
that uh i suspect was probably behind a

3102
01:47:54,470 --> 01:47:53,360
short redaction in that classified

3103
01:47:56,550 --> 01:47:54,480
version of the report that john

3104
01:47:58,310 --> 01:47:56,560
greenwald got the other day the point is

3105
01:48:00,149 --> 01:47:58,320
there were a lot of agencies supplying

3106
01:48:01,990 --> 01:48:00,159
data let's not forget the nsa too by the

3107
01:48:02,870 --> 01:48:02,000
way and some others that i haven't

3108
01:48:04,550 --> 01:48:02,880
mentioned

3109
01:48:06,470 --> 01:48:04,560
a lot of agencies were supplying data

3110
01:48:09,990 --> 01:48:06,480
that they have on uap that probably came

3111
01:48:11,189 --> 01:48:10,000
from multiple sensor systems guys

3112
01:48:12,950 --> 01:48:11,199
even though

3113
01:48:15,109 --> 01:48:12,960

it's incomplete the information that we

3114

01:48:16,950 --> 01:48:15,119

have okay they haven't given us all the

3115

01:48:18,470 --> 01:48:16,960

details on what sensor systems have

3116

01:48:20,790 --> 01:48:18,480

collected these things but i'm pretty

3117

01:48:22,629 --> 01:48:20,800

sure that we can glean from all that

3118

01:48:23,990 --> 01:48:22,639

but these aren't just bugs and cameras

3119

01:48:25,430 --> 01:48:24,000

okay

3120

01:48:28,229 --> 01:48:25,440

and some of the most sophisticated

3121

01:48:30,629 --> 01:48:28,239

tracking capabilities at the disposal of

3122

01:48:33,350 --> 01:48:30,639

our military are picking these things up

3123

01:48:34,790 --> 01:48:33,360

but again paradoxically neil seems to

3124

01:48:37,189 --> 01:48:34,800

come back around and say you know with

3125

01:48:38,950 --> 01:48:37,199

all these hypersonics developments note

3126

01:48:40,390 --> 01:48:38,960

that the reporter they refer to them as

3127

01:48:42,229 --> 01:48:40,400

supersonics honey these things go a

3128

01:48:44,070 --> 01:48:42,239

little faster than that neil got it

3129

01:48:45,430 --> 01:48:44,080

right when he said hypersonics yeah he

3130

01:48:46,709 --> 01:48:45,440

says i hope that there are people

3131

01:48:48,229 --> 01:48:46,719

looking at these things and let's hope

3132

01:48:50,629 --> 01:48:48,239

our foreign adversaries don't have these

3133

01:48:52,310 --> 01:48:50,639

and aren't using them look russia

3134

01:48:54,629 --> 01:48:52,320

during this terrible

3135

01:48:56,470 --> 01:48:54,639

uh situation in ukraine that's unfolded

3136

01:48:58,470 --> 01:48:56,480

in recent days that my good buddy tim

3137

01:48:59,990 --> 01:48:58,480

mcmillan's done an incredible job

3138

01:49:01,990 --> 01:49:00,000

reporting on for the debrief in recent

3139

01:49:03,990 --> 01:49:02,000

days but when they did roll out what

3140

01:49:05,669 --> 01:49:04,000

they claimed were hypersonics weapons

3141

01:49:07,109 --> 01:49:05,679

many defense experts came out and said

3142

01:49:08,950 --> 01:49:07,119

we're not so sure

3143

01:49:10,390 --> 01:49:08,960

and again what we've seen based on

3144

01:49:12,550 --> 01:49:10,400

russia's performance and their attempt

3145

01:49:14,950 --> 01:49:12,560

at invading ukraine was that if they've

3146

01:49:17,270 --> 01:49:14,960

got advanced technologies they certainly

3147

01:49:18,390 --> 01:49:17,280

on our aren't on par with what navy

3148

01:49:19,830 --> 01:49:18,400

officers and others are claiming that

3149

01:49:22,470 --> 01:49:19,840

they're encountering during these uap

3150

01:49:23,830 --> 01:49:22,480

incidents so again with all the data

3151

01:49:26,390 --> 01:49:23,840

that we have in front of us i'm not

3152

01:49:28,070 --> 01:49:26,400

convinced by the arguments by neil tyson

3153

01:49:29,750 --> 01:49:28,080

and others but these are just bugs in

3154

01:49:32,149 --> 01:49:29,760

the camera or maybe russia or china

3155

01:49:33,510 --> 01:49:32,159

playing around some of them might be

3156

01:49:35,030 --> 01:49:33,520

but there are certainly other instances

3157

01:49:36,709 --> 01:49:35,040

that seem to represent something far

3158

01:49:39,189 --> 01:49:36,719

more anomalous

3159

01:49:40,709 --> 01:49:39,199

micah we're uh we're just about out of

3160

01:49:42,950 --> 01:49:40,719

time here just right right about a

3161

01:49:45,109 --> 01:49:42,960

minute left now when i was gone when i

3162

01:49:47,350 --> 01:49:45,119

had to switch my internet

3163

01:49:48,870 --> 01:49:47,360

did you talk about the debrief

3164

01:49:50,870 --> 01:49:48,880

because if not throw it throw it out

3165

01:49:53,430 --> 01:49:50,880

there real quickly because you're you're

3166

01:49:56,070 --> 01:49:53,440

a monumental aspect of how that became

3167

01:49:58,550 --> 01:49:56,080

formed and now what a great website that

3168

01:50:01,189 --> 01:49:58,560

isn't i'm so sorry that i forgot to ask

3169

01:50:05,270 --> 01:50:01,199

you about that tonight so you got like

3170

01:50:08,310 --> 01:50:06,950

we we've had plugins on the table and

3171

01:50:09,750 --> 01:50:08,320

yes i did mention it but i'll mention

3172

01:50:12,149 --> 01:50:09,760

again you know i mean there's the

3173

01:50:14,070 --> 01:50:12,159

debrief.org where you can follow my

3174

01:50:15,669 --> 01:50:14,080

reporting and that of tim mcmillan and

3175

01:50:17,589 --> 01:50:15,679

all the other fine writers who are

3176

01:50:18,950 --> 01:50:17,599

contributors there tim mj and i of

3177

01:50:20,350 --> 01:50:18,960

course co-founded that and then there's

3178

01:50:22,950 --> 01:50:20,360

my podcast which you can find at

3179

01:50:24,870 --> 01:50:22,960

micahanks.com forward slash podcast

3180

01:50:27,109 --> 01:50:24,880

where i speak about these subjects just

3181

01:50:28,790 --> 01:50:27,119

about every week so martin listen i know

3182

01:50:30,390 --> 01:50:28,800

we weren't on our optimal phone lines

3183

01:50:31,669 --> 01:50:30,400

tonight let's do this again sooner

3184

01:50:33,510 --> 01:50:31,679

rather than later and i'll have a good

3185

01:50:35,990 --> 01:50:33,520

internet connection i promise

3186

01:50:38,629 --> 01:50:36,000

all right thanks so much micah it's been

3187

01:50:40,070 --> 01:50:38,639

a real pleasure take care

3188

01:50:41,830 --> 01:50:40,080

my pleasure

3189

01:50:43,510 --> 01:50:41,840

all right all right everyone so next

3190

01:50:45,750 --> 01:50:43,520

week we'll be back with chad and ulta

3191

01:50:47,669 --> 01:50:45,760

dillard and we are totally out of time

3192

01:50:51,080 --> 01:50:47,679

thank you very much and remember to keep

3193

01:51:00,400 --> 01:50:51,090

your eyes to the sky
