

A close-up portrait of Chris Lehto, a man with short brown hair and blue eyes, wearing a green hoodie. He is looking slightly to the right of the camera with a neutral expression. The background is dark with some light spots, possibly a night sky or a dark room with lights.

CHRIS LEHTO

#504

1
00:00:06,470 --> 00:00:04,230
uh so i have retired f-16 pilot uh chris

2
00:00:09,509 --> 00:00:06,480
lato on i can't wait to talk to him he

3
00:00:13,030 --> 00:00:09,519
was on this show back in last july he

4
00:00:15,829 --> 00:00:13,040
has been kicking ufo or a uap butt ever

5
00:00:18,310 --> 00:00:15,839
since so i can't wait to have him on the

6
00:00:21,670 --> 00:00:18,320
show and discuss what he has been up to

7
00:00:23,509 --> 00:00:21,680
in the last several weeks uh tomorrow at

8
00:00:26,310 --> 00:00:23,519
this very same time right here on

9
00:00:28,550 --> 00:00:26,320
youtube and facebook and

10
00:00:30,630 --> 00:00:28,560
i think twitch yes

11
00:00:31,750 --> 00:00:30,640
i'm going to be talking about history

12
00:00:33,430 --> 00:00:31,760
channel's

13
00:00:36,549 --> 00:00:33,440

season premiere

14

00:00:38,709 --> 00:00:36,559

of the skin the mystery what is it the

15

00:00:40,950 --> 00:00:38,719

secret of skinwalker ranch that's the

16

00:00:43,510 --> 00:00:40,960

name of it and i have uh the owner of

17

00:00:45,510 --> 00:00:43,520

the ranch brandon fugle and the lead

18

00:00:47,430 --> 00:00:45,520

scientists eric bard they're both going

19

00:00:49,270 --> 00:00:47,440

to be on eric's going to be

20

00:00:52,150 --> 00:00:49,280

talking to us right from the skin watch

21

00:00:53,830 --> 00:00:52,160

walker ranch itself so check that out

22

00:00:56,470 --> 00:00:53,840

that's tomorrow night and that's also

23

00:00:58,869 --> 00:00:56,480

going out in the podcast feed as as

24

00:01:00,389 --> 00:00:58,879

usual a few weeks ago i mentioned a

25

00:01:02,869 --> 00:01:00,399

friend of the show started a podcast

26

00:01:06,630 --> 00:01:02,879

called nightmare houses and that's

27

00:01:09,910 --> 00:01:06,640

coming to kgra radio as well at 1 00 a.m

28

00:01:11,590 --> 00:01:09,920

et saturdays so that's for all you night

29

00:01:13,590 --> 00:01:11,600

owls out there people on the west coast

30

00:01:16,230 --> 00:01:13,600

check that out i have the link to that

31

00:01:19,350 --> 00:01:16,240

down in the show notes and down in the

32

00:01:21,830 --> 00:01:19,360

youtube uh text so check that out the

33

00:01:23,590 --> 00:01:21,840

latest one is called breeznoll

34

00:01:24,950 --> 00:01:23,600

it's a place in connecticut and what a

35

00:01:27,190 --> 00:01:24,960

story that is you gotta check that

36

00:01:30,310 --> 00:01:27,200

podcast out next week

37

00:01:32,069 --> 00:01:30,320

we're gonna be at james fox compound in

38

00:01:33,590 --> 00:01:32,079

vermont and we're gonna be talking about

39

00:01:36,630 --> 00:01:33,600

his latest

40

00:01:39,749 --> 00:01:36,640

film called the uh vargina

41

00:01:41,429 --> 00:01:39,759

uh crash it and it's a heck of a i

42

00:01:42,469 --> 00:01:41,439

checked that out i was lucky enough to

43

00:01:43,350 --> 00:01:42,479

see the

44

00:01:46,310 --> 00:01:43,360

um

45

00:01:47,670 --> 00:01:46,320

to see the final cut of that and he just

46

00:01:50,389 --> 00:01:47,680

has to tune it up a little bit it's

47

00:01:52,870 --> 00:01:50,399

going to be a great movie oh speaking of

48

00:01:55,429 --> 00:01:52,880

who we have on tonight on the 17th of

49

00:01:58,149 --> 00:01:55,439

may i also have uh air force fighter

50

00:01:59,910 --> 00:01:58,159

pilot sean cahill he'll be on the show

51
00:02:02,950 --> 00:01:59,920
i've just given that out there now since

52
00:02:05,990 --> 00:02:02,960
i have chris on and okay this week's

53
00:02:09,430 --> 00:02:06,000
blog is a ufo creature report from kofu

54
00:02:12,150 --> 00:02:09,440
japan part two so we already had that

55
00:02:14,390 --> 00:02:12,160
first one up last week and that gets

56
00:02:16,470 --> 00:02:14,400
turned into an audio blog that's also

57
00:02:19,990 --> 00:02:16,480
put in the podcast feed

58
00:02:23,030 --> 00:02:20,000
and uh one last thing um i never like to

59
00:02:25,030 --> 00:02:23,040
talk about money or money issues but i

60
00:02:26,949 --> 00:02:25,040
have noticed that our patreon for some

61
00:02:29,110 --> 00:02:26,959
reason maybe i said something wrong i'm

62
00:02:31,509 --> 00:02:29,120
not sure but our subscription level has

63
00:02:33,670 --> 00:02:31,519

gone way down like a

64

00:02:35,589 --> 00:02:33,680

quarter of what it used to be so uh

65

00:02:37,670 --> 00:02:35,599

we're we're just barely in the black so

66

00:02:41,949 --> 00:02:37,680

if anyone wants to help out you can see

67

00:02:45,030 --> 00:02:41,959

our patreon uh support page over at

68

00:02:47,750 --> 00:02:45,040

podcastufo.com it's also down in the uh

69

00:02:50,070 --> 00:02:47,760

the link below in the youtube channel so

70

00:02:52,229 --> 00:02:50,080

um i do appreciate i greatly appreciate

71

00:02:54,070 --> 00:02:52,239

everyone that does support the show and

72

00:02:56,470 --> 00:02:54,080

anyone can do that for two dollars or

73

00:02:58,949 --> 00:02:56,480

more a month um and i do appreciate

74

00:03:01,509 --> 00:02:58,959

every single listener okay that is

75

00:03:03,430 --> 00:03:01,519

enough housekeeping and

76
00:03:04,710 --> 00:03:03,440
i'm bringing in our guests chris welcome

77
00:03:06,869 --> 00:03:04,720
back

78
00:03:08,550 --> 00:03:06,879
i'm happy to be here man i just signed

79
00:03:10,949 --> 00:03:08,560
up for your patreon

80
00:03:11,910 --> 00:03:10,959
oh wow it worked already

81
00:03:14,229 --> 00:03:11,920
yes

82
00:03:16,790 --> 00:03:14,239
you should put some higher uh thing it's

83
00:03:18,869 --> 00:03:16,800
five dollars is the most we can get uh

84
00:03:21,509 --> 00:03:18,879
oh no no it goes it's okay it goes up

85
00:03:24,309 --> 00:03:21,519
yeah yeah yeah but uh yeah we'll talk

86
00:03:26,630 --> 00:03:24,319
about a higher thing later

87
00:03:28,309 --> 00:03:26,640
anyway happy to be here man i i

88
00:03:29,990 --> 00:03:28,319

yeah i remember that show about that was

89

00:03:31,270 --> 00:03:30,000

my first real live show i remember it

90

00:03:33,270 --> 00:03:31,280

clearly

91

00:03:35,190 --> 00:03:33,280

yeah i think i'll never forget it yeah

92

00:03:36,949 --> 00:03:35,200

really kind of uh

93

00:03:39,350 --> 00:03:36,959

i remember getting the the request you

94

00:03:41,190 --> 00:03:39,360

know to go on the ufo show you and uh

95

00:03:44,229 --> 00:03:41,200

initially i was like you know i don't

96

00:03:46,630 --> 00:03:44,239

know no it's all about ufos i'm

97

00:03:48,550 --> 00:03:46,640

i'm not a ufo guy you know

98

00:03:50,149 --> 00:03:48,560

i remember that but that but i but i did

99

00:03:52,390 --> 00:03:50,159

it and i'm and i'm happy i did you know

100

00:03:54,550 --> 00:03:52,400

i think you've really helped kind of uh

101
00:03:56,550 --> 00:03:54,560
mentored me in the in ways you know i

102
00:03:58,550 --> 00:03:56,560
appreciate it well yeah and i was really

103
00:04:00,149 --> 00:03:58,560
lucky enough to be on your your stream

104
00:04:01,589 --> 00:04:00,159
one time that was yeah that helps a lot

105
00:04:03,509 --> 00:04:01,599
yeah i was like

106
00:04:05,190 --> 00:04:03,519
yeah that was cool yeah yeah it was

107
00:04:07,429 --> 00:04:05,200
great i learned a ton yeah i was really

108
00:04:09,910 --> 00:04:07,439
happy to ask you the questions

109
00:04:12,789 --> 00:04:09,920
yeah right right so i noticed uh you

110
00:04:14,869 --> 00:04:12,799
quickly surpassed all my youtube

111
00:04:16,949 --> 00:04:14,879
subscribers as far as numbers go you've

112
00:04:18,550 --> 00:04:16,959
done very well you're getting a lot of

113
00:04:21,509 --> 00:04:18,560

people paying attention to you've found

114

00:04:23,430 --> 00:04:21,519

a lot of work and you talk about great

115

00:04:25,590 --> 00:04:23,440

physics things too i'm really into a lot

116

00:04:27,909 --> 00:04:25,600

of that stuff and like the double slit

117

00:04:30,629 --> 00:04:27,919

thing and you know the consciousness

118

00:04:32,870 --> 00:04:30,639

consciousness i hope we get into that

119

00:04:35,110 --> 00:04:32,880

topic a little bit some point at some

120

00:04:37,990 --> 00:04:35,120

point this evening because that really

121

00:04:41,110 --> 00:04:38,000

is such a mystery you know i've tried to

122

00:04:42,950 --> 00:04:41,120

understand all of that and i think after

123

00:04:45,270 --> 00:04:42,960

watching your video i understood a

124

00:04:47,909 --> 00:04:45,280

little bit more than i did

125

00:04:49,909 --> 00:04:47,919

um in other words if you just quickly in

126
00:04:52,150 --> 00:04:49,919
a nutshell if you can for those who are

127
00:04:55,430 --> 00:04:52,160
not familiar with the double slit

128
00:04:58,110 --> 00:04:55,440
theory how that works is so so bizarre

129
00:05:01,189 --> 00:04:58,120
it's so bizarre yeah it's uh so i guess

130
00:05:04,070 --> 00:05:01,199
1801 that's thomas young

131
00:05:05,990 --> 00:05:04,080
he's in he's in the uk in england and he

132
00:05:09,110 --> 00:05:06,000
did this experiment where he just had

133
00:05:11,510 --> 00:05:09,120
two slits cut into into a wall

134
00:05:13,990 --> 00:05:11,520
and then he held up a light behind it

135
00:05:16,070 --> 00:05:14,000
and it basically what he proved is that

136
00:05:17,749 --> 00:05:16,080
light acts like a wave you know before

137
00:05:19,830 --> 00:05:17,759
that they were saying they didn't know

138
00:05:22,310 --> 00:05:19,840

if it was particle or wave

139

00:05:24,390 --> 00:05:22,320

um and so he did that experiment and

140

00:05:26,390 --> 00:05:24,400

because there's two slits right so the

141

00:05:28,070 --> 00:05:26,400

light goes through one slit and it goes

142

00:05:30,230 --> 00:05:28,080

to the other and if you imagine water

143

00:05:31,909 --> 00:05:30,240

going through just a a

144

00:05:32,950 --> 00:05:31,919

a wave you know if you imagine it's

145

00:05:35,189 --> 00:05:32,960

water

146

00:05:36,230 --> 00:05:35,199

um on the outside you'll have a wave

147

00:05:38,390 --> 00:05:36,240

pattern

148

00:05:39,990 --> 00:05:38,400

right like if you drop uh

149

00:05:41,909 --> 00:05:40,000

rocks into a pond you know you get a

150

00:05:43,510 --> 00:05:41,919

wave pattern now well what happens is

151

00:05:45,350 --> 00:05:43,520

those two slits

152

00:05:47,909 --> 00:05:45,360

it's like dropping two rocks in a pond

153

00:05:49,909 --> 00:05:47,919

and now you get what's called uh

154

00:05:51,990 --> 00:05:49,919

interference right so you have a

155

00:05:54,230 --> 00:05:52,000

cooperative interference or destructive

156

00:05:56,230 --> 00:05:54,240

constructive interference or destructive

157

00:05:58,790 --> 00:05:56,240

interference where they add together you

158

00:06:01,110 --> 00:05:58,800

know so waves can add together

159

00:06:03,510 --> 00:06:01,120

and so what happens is it gives you this

160

00:06:05,029 --> 00:06:03,520

wave pattern on the wall where the

161

00:06:06,629 --> 00:06:05,039

you'll kind of get these different bands

162

00:06:08,710 --> 00:06:06,639

of light

163

00:06:10,629 --> 00:06:08,720

you know many youtubers have done

164

00:06:13,590 --> 00:06:10,639

amazing videos you know veritasium has

165

00:06:15,270 --> 00:06:13,600

done a great video uh explaining it um

166

00:06:17,350 --> 00:06:15,280

and it's really interesting when it when

167

00:06:20,390 --> 00:06:17,360

i guess to think about that you know

168

00:06:22,070 --> 00:06:20,400

that way light that we that we see

169

00:06:24,469 --> 00:06:22,080

uh you know it comes through and it and

170

00:06:27,830 --> 00:06:24,479

it acts acts like a wave it's just uh

171

00:06:30,550 --> 00:06:27,840

very very crazy um so then they but also

172

00:06:32,309 --> 00:06:30,560

the consciousness is what

173

00:06:34,710 --> 00:06:32,319

can change something

174

00:06:36,870 --> 00:06:34,720

the fact that we are observing that is

175

00:06:39,189 --> 00:06:36,880

the most bizarre part of the whole thing

176

00:06:42,150 --> 00:06:39,199

yep exactly there's other things like

177

00:06:44,150 --> 00:06:42,160

that too in quantum physics that once

178

00:06:45,670 --> 00:06:44,160

observed it's totally different and it

179

00:06:46,950 --> 00:06:45,680

doesn't matter how far away it's

180

00:06:48,390 --> 00:06:46,960

observed from

181

00:06:50,870 --> 00:06:48,400

so it just

182

00:06:53,510 --> 00:06:50,880

it's really head scratching yeah the in

183

00:06:55,430 --> 00:06:53,520

so the the head scratcher is

184

00:06:57,670 --> 00:06:55,440

um that made sense you know back in the

185

00:07:00,790 --> 00:06:57,680

day he just had a big light

186

00:07:03,430 --> 00:07:00,800

uh well as time went on so the the 1920s

187

00:07:06,230 --> 00:07:03,440

basically we have machines now where we

188

00:07:08,870 --> 00:07:06,240

can just shoot one electron

189

00:07:11,510 --> 00:07:08,880

you know so it's much more refined so

190

00:07:12,390 --> 00:07:11,520

now they sh they shot one electron

191

00:07:14,150 --> 00:07:12,400

um

192

00:07:15,430 --> 00:07:14,160

through one of the holes right there's

193

00:07:16,950 --> 00:07:15,440

only shooting one it can't go through

194

00:07:19,909 --> 00:07:16,960

both slits

195

00:07:21,749 --> 00:07:19,919

and what they found was is

196

00:07:23,589 --> 00:07:21,759

they would get the same pattern that

197

00:07:25,749 --> 00:07:23,599

same wave pattern against the wall right

198

00:07:27,510 --> 00:07:25,759

so even one electron was somehow

199

00:07:29,670 --> 00:07:27,520

interfering with itself

200

00:07:32,070 --> 00:07:29,680

right and which that alone doesn't make

201
00:07:33,830 --> 00:07:32,080
sense so so then they they thought well

202
00:07:35,510 --> 00:07:33,840
which hole does it go through you know

203
00:07:36,790 --> 00:07:35,520
which of the slits

204
00:07:38,230 --> 00:07:36,800
and this is where the consciousness

205
00:07:41,110 --> 00:07:38,240
comes in because if if you put a

206
00:07:43,749 --> 00:07:41,120
detector right behind one of the slits

207
00:07:45,990 --> 00:07:43,759
uh what happens is now you know which

208
00:07:48,390 --> 00:07:46,000
slit it goes through

209
00:07:50,070 --> 00:07:48,400
and so what happens is it it doesn't it

210
00:07:52,550 --> 00:07:50,080
doesn't act like a wave anymore it acts

211
00:07:54,550 --> 00:07:52,560
like a particle and it'll basically like

212
00:07:56,710 --> 00:07:54,560
you shoot a gun normally you know if you

213
00:07:58,390 --> 00:07:56,720

shoot the electrons like guns

214

00:08:00,309 --> 00:07:58,400

if you don't look which slit it goes

215

00:08:02,150 --> 00:08:00,319

through it looks like a wave

216

00:08:04,309 --> 00:08:02,160

right but now if you try and figure out

217

00:08:05,430 --> 00:08:04,319

which slit it goes through it's a

218

00:08:07,110 --> 00:08:05,440

particle

219

00:08:08,629 --> 00:08:07,120

so that's where if you try and observe

220

00:08:10,950 --> 00:08:08,639

what happens if you try and figure out

221

00:08:12,869 --> 00:08:10,960

the the true information

222

00:08:14,869 --> 00:08:12,879

it seems to like the the wave function

223

00:08:16,550 --> 00:08:14,879

collapse the probability

224

00:08:18,869 --> 00:08:16,560

function which is really what quantum

225

00:08:20,790 --> 00:08:18,879

mechanics is you know the

226

00:08:21,589 --> 00:08:20,800

schrodinger equation basically gives you

227

00:08:29,270 --> 00:08:21,599

the

228

00:08:30,710 --> 00:08:29,280

doesn't actually behave like a particle

229

00:08:32,709 --> 00:08:30,720

until we look at it and that's where the

230

00:08:35,430 --> 00:08:32,719

consciousness comes in and now is it is

231

00:08:37,190 --> 00:08:35,440

it basically are are we mentally able to

232

00:08:39,829 --> 00:08:37,200

affect this where does it come in that

233

00:08:42,310 --> 00:08:39,839

it why does it turn into a particle uh

234

00:08:44,630 --> 00:08:42,320

is you know yeah and that that can

235

00:08:47,670 --> 00:08:44,640

happen with the one of the experiments

236

00:08:49,110 --> 00:08:47,680

like even if it's online and someone is

237

00:08:51,030 --> 00:08:49,120

thinking about it

238

00:08:52,630 --> 00:08:51,040

it you know five thousand i think they

239

00:08:54,230 --> 00:08:52,640

did five thousand experiments with

240

00:08:56,870 --> 00:08:54,240

people it doesn't matter where they're

241

00:08:59,190 --> 00:08:56,880

calling in from or watching it from it

242

00:09:01,030 --> 00:08:59,200

could be on mars it doesn't matter

243

00:09:02,710 --> 00:09:01,040

you know it's still it does the same

244

00:09:04,790 --> 00:09:02,720

thing which is totally bizarre and the

245

00:09:06,310 --> 00:09:04,800

intangible entanglement thing is another

246

00:09:07,750 --> 00:09:06,320

thing that's really bizarre but we're

247

00:09:09,430 --> 00:09:07,760

not really here to talk about all that

248

00:09:11,750 --> 00:09:09,440

but it's still really fun

249

00:09:13,990 --> 00:09:11,760

fun really i think it's interesting i'm

250

00:09:15,990 --> 00:09:14,000

i'm interested in it because

251
00:09:17,670 --> 00:09:16,000
uh for one thing it's been baffling

252
00:09:20,230 --> 00:09:17,680
scientists you know for hundreds of

253
00:09:21,829 --> 00:09:20,240
years uh you know and i have seen some

254
00:09:22,550 --> 00:09:21,839
there are some youtube videos i i need

255
00:09:26,070 --> 00:09:22,560
to

256
00:09:29,430 --> 00:09:26,080
not really

257
00:09:30,949 --> 00:09:29,440
you know or something like we're just

258
00:09:32,230 --> 00:09:30,959
we're just reading the results wrong for

259
00:09:35,110 --> 00:09:32,240
hundreds of years

260
00:09:37,430 --> 00:09:35,120
um but for me it's interesting because

261
00:09:38,389 --> 00:09:37,440
it leads into the realm of remote

262
00:09:40,550 --> 00:09:38,399
viewing

263
00:09:42,070 --> 00:09:40,560

right it leads into the realm of

264

00:09:43,990 --> 00:09:42,080

telekinetics

265

00:09:45,829 --> 00:09:44,000

right it leads into the realm of

266

00:09:47,430 --> 00:09:45,839

transferring information through some

267

00:09:50,150 --> 00:09:47,440

other medium

268

00:09:51,990 --> 00:09:50,160

right i mean if you can if say say the

269

00:09:52,870 --> 00:09:52,000

the results are true like you just

270

00:09:54,630 --> 00:09:52,880

mentioned

271

00:09:56,310 --> 00:09:54,640

and just by thinking about an experiment

272

00:09:57,910 --> 00:09:56,320

really focusing on it

273

00:09:59,190 --> 00:09:57,920

we can affect it

274

00:10:01,110 --> 00:09:59,200

then you're proving that there's some

275

00:10:02,550 --> 00:10:01,120

other there's some other medium at least

276

00:10:04,630 --> 00:10:02,560

that we can communicate through you know

277

00:10:07,110 --> 00:10:04,640

there's something else besides

278

00:10:07,910 --> 00:10:07,120

uh electromagnetic waves

279

00:10:09,750 --> 00:10:07,920

yeah

280

00:10:11,590 --> 00:10:09,760

and that would go and and that's what

281

00:10:12,949 --> 00:10:11,600

excites me about uaps or it seems some

282

00:10:13,990 --> 00:10:12,959

there's something there to me it seems

283

00:10:16,389 --> 00:10:14,000

like

284

00:10:17,750 --> 00:10:16,399

right and uh you know i mean

285

00:10:19,190 --> 00:10:17,760

i've talked about it many times there's

286

00:10:20,710 --> 00:10:19,200

a connection between

287

00:10:23,350 --> 00:10:20,720

everything somehow and everything's

288

00:10:25,590 --> 00:10:23,360

vibration you know that whole thing of

289

00:10:28,790 --> 00:10:25,600

you know you can't really touch matter

290

00:10:30,790 --> 00:10:28,800

um you know it's so bizarre and uh yeah

291

00:10:31,590 --> 00:10:30,800

all that stuff i mean i know the show is

292

00:10:33,590 --> 00:10:31,600

on

293

00:10:35,190 --> 00:10:33,600

ufos uap and i'd like to talk to you a

294

00:10:37,990 --> 00:10:35,200

little bit about that are you

295

00:10:41,750 --> 00:10:38,000

hesitant to use the term ufo

296

00:10:44,150 --> 00:10:41,760

or i i see you you use uap a lot um you

297

00:10:45,509 --> 00:10:44,160

know i mean is it the the stigma thing

298

00:10:47,269 --> 00:10:45,519

or does it matter one way or the other

299

00:10:48,069 --> 00:10:47,279

with you

300

00:10:53,110 --> 00:10:48,079

um

301
00:10:55,590 --> 00:10:53,120
the uap term doesn't seem as common like

302
00:10:58,069 --> 00:10:55,600
i still have to explain it a lot

303
00:10:59,190 --> 00:10:58,079
yeah um and so if mark you know you

304
00:11:00,470 --> 00:10:59,200
mentioned you're trying to bring money

305
00:11:02,230 --> 00:11:00,480
in you're trying to bring funds you know

306
00:11:04,710 --> 00:11:02,240
i'm trying to we're trying to

307
00:11:06,230 --> 00:11:04,720
create this giant project um

308
00:11:07,509 --> 00:11:06,240
so if you don't know what you're talking

309
00:11:09,430 --> 00:11:07,519
about i don't know maybe it's an

310
00:11:11,590 --> 00:11:09,440
advantage or not not a discipline i find

311
00:11:13,670 --> 00:11:11,600
myself sometimes i don't care to use it

312
00:11:16,230 --> 00:11:13,680
you know i use ufo you know when you

313
00:11:18,470 --> 00:11:16,240

first sent me that email it was a stigma

314

00:11:20,150 --> 00:11:18,480

you know i was like well i'm not a ufo

315

00:11:21,509 --> 00:11:20,160

person am i you know i didn't i never

316

00:11:22,790 --> 00:11:21,519

thought of myself you know it's going on

317

00:11:24,150 --> 00:11:22,800

ufo shows

318

00:11:27,829 --> 00:11:24,160

specifically

319

00:11:30,150 --> 00:11:27,839

um so i but but now i think it's just a

320

00:11:31,590 --> 00:11:30,160

term uh that has less baggage i guess

321

00:11:32,470 --> 00:11:31,600

but to me it's it's interchangeable i

322

00:11:35,350 --> 00:11:32,480

guess

323

00:11:37,430 --> 00:11:35,360

yeah yeah i remember um when i first

324

00:11:39,110 --> 00:11:37,440

reached out to you you did

325

00:11:40,949 --> 00:11:39,120

uh your video is something like i'm

326

00:11:41,350 --> 00:11:40,959

debunking the

327

00:11:44,550 --> 00:11:41,360

it debunkers

328

00:11:46,710 --> 00:11:44,560

basically mick west's uh opinion on the

329

00:11:48,389 --> 00:11:46,720

gimbal ufo video i think that's what it

330

00:11:51,030 --> 00:11:48,399

was then yeah and you went into great

331

00:11:53,990 --> 00:11:51,040

detail about that so uh but you've done

332

00:11:57,030 --> 00:11:54,000

a lot of great work um out there and has

333

00:11:59,269 --> 00:11:57,040

it been enjoyable um rewarding

334

00:12:00,710 --> 00:11:59,279

yeah i mean definitely super rewarding

335

00:12:02,150 --> 00:12:00,720

um

336

00:12:04,470 --> 00:12:02,160

it's a lot of

337

00:12:06,069 --> 00:12:04,480

it's it's very enjoyable

338

00:12:08,949 --> 00:12:06,079

it's more rewarding than enjoyable i

339

00:12:11,829 --> 00:12:08,959

guess so i put it you know i'm just uh

340

00:12:13,430 --> 00:12:11,839

extremely curious uh i and i and i do

341

00:12:15,670 --> 00:12:13,440

actually really want to know you know in

342

00:12:17,190 --> 00:12:15,680

my in my free time i think i would

343

00:12:19,030 --> 00:12:17,200

search out for this stuff if i didn't

344

00:12:20,949 --> 00:12:19,040

have a youtube channel you know i would

345

00:12:22,949 --> 00:12:20,959

i would be what i can i watch those

346

00:12:24,470 --> 00:12:22,959

videos on the weekends you know saturday

347

00:12:28,629 --> 00:12:24,480

morning i like watching crazy

348

00:12:30,710 --> 00:12:28,639

quantum videos or ufo you know stories

349

00:12:32,710 --> 00:12:30,720

yeah yeah yeah i'm guilty of all that

350

00:12:34,949 --> 00:12:32,720

myself so uh

351

00:12:37,750 --> 00:12:34,959

so what are just if you would go over

352

00:12:38,790 --> 00:12:37,760

some of the the videos that you've done

353

00:12:41,030 --> 00:12:38,800

some of the

354

00:12:42,790 --> 00:12:41,040

um you know i i think i want to say that

355

00:12:45,750 --> 00:12:42,800

you've kind of made a few breakthroughs

356

00:12:47,990 --> 00:12:45,760

along the way on of certain videos

357

00:12:51,750 --> 00:12:48,000

you've done and if you can a little bit

358

00:12:54,949 --> 00:12:51,760

of refresher um what you think about

359

00:12:57,110 --> 00:12:54,959

the gimbal ufo videos that's out there

360

00:12:58,870 --> 00:12:57,120

and uh have you looked into a lot of

361

00:13:01,030 --> 00:12:58,880

other ones as well

362

00:13:02,949 --> 00:13:01,040

since that time

363

00:13:06,069 --> 00:13:02,959

yeah i've looked um there hasn't been

364

00:13:08,150 --> 00:13:06,079

too many navy releases you know um

365

00:13:09,670 --> 00:13:08,160

what's what kind of brought me to the

366

00:13:11,750 --> 00:13:09,680

next level this year it seems like it

367

00:13:13,750 --> 00:13:11,760

goes in jumps you mentioned the youtube

368

00:13:16,069 --> 00:13:13,760

growth and everything uh it seems like

369

00:13:18,150 --> 00:13:16,079

this was the introduction of you know

370

00:13:20,949 --> 00:13:18,160

better flying videos

371

00:13:22,150 --> 00:13:20,959

and related to the navy uh the uh off

372

00:13:24,150 --> 00:13:22,160

the east coast

373

00:13:25,110 --> 00:13:24,160

you know kind of the

374

00:13:31,110 --> 00:13:25,120

the

375

00:13:33,350 --> 00:13:31,120

those kind of photos are really

376

00:13:34,710 --> 00:13:33,360

interesting it was it was cool to get uh

377

00:13:37,110 --> 00:13:34,720

because you you know i could map it out

378

00:13:39,269 --> 00:13:37,120

to kind of and i could confirm it was

379

00:13:42,310 --> 00:13:39,279

inside an f-18 and then the navy

380

00:13:44,389 --> 00:13:42,320

confirmed that these uh images were

381

00:13:46,790 --> 00:13:44,399

legit essentially you know so

382

00:13:48,389 --> 00:13:46,800

the providence was really good

383

00:13:49,750 --> 00:13:48,399

so i did like that but it seems like we

384

00:13:51,910 --> 00:13:49,760

haven't really gotten anything else you

385

00:13:53,990 --> 00:13:51,920

know like no other

386

00:13:55,189 --> 00:13:54,000

no other major releases that i can think

387

00:13:58,550 --> 00:13:55,199

of for

388

00:14:01,590 --> 00:13:58,560

for navy stuff you know um

389

00:14:04,069 --> 00:14:01,600

right well um you now i saw you were on

390

00:14:06,389 --> 00:14:04,079

the show range fellers yeah you were on

391

00:14:07,829 --> 00:14:06,399

a show with luella sundo was that and

392

00:14:09,590 --> 00:14:07,839

but there were other people involved

393

00:14:11,189 --> 00:14:09,600

what what was the situation there at

394

00:14:13,189 --> 00:14:11,199

that time

395

00:14:17,110 --> 00:14:13,199

uh it was a round table on artist and

396

00:14:19,509 --> 00:14:17,120

tony's show with alexei nowitzki

397

00:14:21,670 --> 00:14:19,519

yeah so it's uh we do round tables

398

00:14:23,829 --> 00:14:21,680

basically we meet uh maybe every few

399

00:14:25,670 --> 00:14:23,839

weeks and we just chat basically we're

400

00:14:27,509 --> 00:14:25,680

just having long-form discussions on

401
00:14:31,189 --> 00:14:27,519
whatever comes to our mind

402
00:14:33,350 --> 00:14:31,199
uh you know alexa is uh he does a party

403
00:14:35,829 --> 00:14:33,360
his physics background

404
00:14:39,189 --> 00:14:35,839
um but basically he has this

405
00:14:41,430 --> 00:14:39,199
very interesting um but novel

406
00:14:43,030 --> 00:14:41,440
theory of the universe essentially you

407
00:14:45,110 --> 00:14:43,040
know basically how we're you mentioned

408
00:14:46,949 --> 00:14:45,120
the vibrations so that's kind of alexa's

409
00:14:48,389 --> 00:14:46,959
thing is um

410
00:14:50,710 --> 00:14:48,399
basically we're all related in

411
00:14:53,269 --> 00:14:50,720
vibrational uh

412
00:14:54,710 --> 00:14:53,279
levels basically i could explain it but

413
00:14:56,710 --> 00:14:54,720

it sounds like

414

00:14:59,030 --> 00:14:56,720

we would talk about something else

415

00:15:00,710 --> 00:14:59,040

uh yeah yeah but that was it yeah and

416

00:15:03,030 --> 00:15:00,720

yeah lou was on that that's the only

417

00:15:05,189 --> 00:15:03,040

time i've really uh come you know talk

418

00:15:07,269 --> 00:15:05,199

with lou uh it's very interesting i mean

419

00:15:09,350 --> 00:15:07,279

i was very impressed i mean he he

420

00:15:11,269 --> 00:15:09,360

answered question or he asked many of

421

00:15:12,949 --> 00:15:11,279

the questions actually kind of drove

422

00:15:15,189 --> 00:15:12,959

drove the whole interview

423

00:15:17,110 --> 00:15:15,199

and did drive my thinking in you know

424

00:15:18,710 --> 00:15:17,120

different ways and had me kind of

425

00:15:21,750 --> 00:15:18,720

question question some assumptions you

426
00:15:22,470 --> 00:15:21,760
know i just held which i appreciate

427
00:15:25,030 --> 00:15:22,480
right

428
00:15:27,750 --> 00:15:25,040
and you did a show on um

429
00:15:29,189 --> 00:15:27,760
let's see the debrief did a story i

430
00:15:31,189 --> 00:15:29,199
think it was called sex and lies and

431
00:15:33,990 --> 00:15:31,199
ufos or something like that and you did

432
00:15:36,150 --> 00:15:34,000
a show on that and uh i hadn't really

433
00:15:38,949 --> 00:15:36,160
read through the debrief um article

434
00:15:42,069 --> 00:15:38,959
until i until i watched your

435
00:15:42,949 --> 00:15:42,079
video and uh but but you saw a lot of

436
00:15:44,310 --> 00:15:42,959
what

437
00:15:45,749 --> 00:15:44,320
goes on

438
00:15:48,470 --> 00:15:45,759

firsthand

439

00:15:49,829 --> 00:15:48,480
in the in the past and uh and and

440

00:15:51,590 --> 00:15:49,839
similar people

441

00:15:53,590 --> 00:15:51,600
with that uh

442

00:15:56,310 --> 00:15:53,600
whatever you want to call it i know what

443

00:15:57,110 --> 00:15:56,320
you termed it in your own video

444

00:15:59,670 --> 00:15:57,120
yes

445

00:16:00,949 --> 00:15:59,680
but uh but but you there is a lot of

446

00:16:03,189 --> 00:16:00,959
that there is some of that in the

447

00:16:05,030 --> 00:16:03,199
military and i know that just from you

448

00:16:06,949 --> 00:16:05,040
know people friends of mine

449

00:16:08,629 --> 00:16:06,959
um so you have to kind of

450

00:16:10,790 --> 00:16:08,639
you have to deal with that

451
00:16:11,910 --> 00:16:10,800
and and choose what what to do with it

452
00:16:13,670 --> 00:16:11,920
but uh

453
00:16:16,150 --> 00:16:13,680
yeah you have to remember this i mean

454
00:16:18,150 --> 00:16:16,160
those people got to that position you

455
00:16:20,069 --> 00:16:18,160
know it's not easy

456
00:16:22,069 --> 00:16:20,079
it's very very hard

457
00:16:23,030 --> 00:16:22,079
to be a general is extremely hard you

458
00:16:23,990 --> 00:16:23,040
know

459
00:16:25,990 --> 00:16:24,000
um

460
00:16:29,189 --> 00:16:26,000
so just getting to that position takes a

461
00:16:30,310 --> 00:16:29,199
certain type of person you know that

462
00:16:32,949 --> 00:16:30,320
uh

463
00:16:34,870 --> 00:16:32,959

yeah they they're hardcore you know they

464

00:16:36,550 --> 00:16:34,880

devote everything to that

465

00:16:38,949 --> 00:16:36,560

their whole life essentially you know

466

00:16:40,710 --> 00:16:38,959

it's devoted to that and it's and i also

467

00:16:42,230 --> 00:16:40,720

i tried to relate and yeah i was fired

468

00:16:42,550 --> 00:16:42,240

up in that and

469

00:16:43,670 --> 00:16:42,560

um

470

00:16:45,749 --> 00:16:43,680

[Music]

471

00:16:47,189 --> 00:16:45,759

people are people you know i don't think

472

00:16:49,430 --> 00:16:47,199

i would do anything necessarily

473

00:16:51,269 --> 00:16:49,440

different or i i can't say that you or

474

00:16:52,389 --> 00:16:51,279

me would do anything different i i would

475

00:16:54,389 --> 00:16:52,399

hope so

476

00:16:55,670 --> 00:16:54,399

um but you have to remember you're under

477

00:16:57,829 --> 00:16:55,680

so much

478

00:17:00,069 --> 00:16:57,839

pressure from the system you know that's

479

00:17:02,470 --> 00:17:00,079

really my belief is that you're just

480

00:17:04,870 --> 00:17:02,480

you're just a a small piece of a very

481

00:17:06,230 --> 00:17:04,880

very large giant system

482

00:17:07,909 --> 00:17:06,240

and so

483

00:17:10,470 --> 00:17:07,919

i don't know i don't think it lets them

484

00:17:11,750 --> 00:17:10,480

out of making those those decisions

485

00:17:12,710 --> 00:17:11,760

you know this they have to live with

486

00:17:14,789 --> 00:17:12,720

them

487

00:17:16,630 --> 00:17:14,799

right i think

488

00:17:17,909 --> 00:17:16,640

you know it we shouldn't be surprised

489

00:17:20,710 --> 00:17:17,919

you know we shouldn't be surprised when

490

00:17:22,150 --> 00:17:20,720

the war you know the worst kickoff

491

00:17:24,470 --> 00:17:22,160

you know it's they have always kicked

492

00:17:26,309 --> 00:17:24,480

off you know i think we should we should

493

00:17:28,390 --> 00:17:26,319

just sigh and say look we you know how

494

00:17:30,870 --> 00:17:28,400

can we stop this but you know the shock

495

00:17:33,029 --> 00:17:30,880

and surprise is just i don't know it's

496

00:17:36,470 --> 00:17:33,039

kind of funny i guess yeah

497

00:17:38,230 --> 00:17:36,480

uh this uh comes up here from rnr your

498

00:17:39,590 --> 00:17:38,240

review of the turkey ufo video was a

499

00:17:42,950 --> 00:17:39,600

game changer

500

00:17:44,310 --> 00:17:42,960

um wow cool so anyway uh when he showed

501
00:17:46,549 --> 00:17:44,320
people and his family that's that's

502
00:17:48,470 --> 00:17:46,559
pretty awesome so yeah the the turkey

503
00:17:50,150 --> 00:17:48,480
ufo i think i was on your show about

504
00:17:52,710 --> 00:17:50,160
that time when you were

505
00:17:55,110 --> 00:17:52,720
looking into that and so that's that's

506
00:17:57,270 --> 00:17:55,120
been kind of a controversial

507
00:17:59,909 --> 00:17:57,280
uh you know some people have claimed

508
00:18:02,789 --> 00:17:59,919
that it's an a camera anomaly but it's

509
00:18:05,669 --> 00:18:02,799
just it's really a bizarre image i'm

510
00:18:10,470 --> 00:18:07,350
while you're talking

511
00:18:13,350 --> 00:18:10,480
uh what what well first of all what it

512
00:18:15,029 --> 00:18:13,360
after all your work you did on that

513
00:18:19,430 --> 00:18:15,039

what do you think what's your general

514

00:18:23,190 --> 00:18:21,350

my general consensus is i'm still not

515

00:18:26,070 --> 00:18:23,200

sure i guess

516

00:18:27,430 --> 00:18:26,080

you know i i do want to go

517

00:18:29,669 --> 00:18:27,440

it's just weird to me that it just

518

00:18:32,150 --> 00:18:29,679

stopped as well you know it's like there

519

00:18:33,830 --> 00:18:32,160

was 2007 they had the mass sightings in

520

00:18:36,630 --> 00:18:33,840

the summer in turkey you know up by

521

00:18:39,510 --> 00:18:36,640

istanbul uh then there's 2008 again they

522

00:18:41,350 --> 00:18:39,520

had mass sightings in in the same area

523

00:18:43,510 --> 00:18:41,360

and then 2009

524

00:18:46,070 --> 00:18:43,520

uh they had all the videos uh but really

525

00:18:48,390 --> 00:18:46,080

from one guy yalman

526

00:18:53,590 --> 00:18:50,549

up on the screen there for those of you

527

00:18:55,830 --> 00:18:53,600

watching uh watching live now

528

00:18:57,990 --> 00:18:55,840

that was just one picture but if you

529

00:19:00,230 --> 00:18:58,000

look in if you focus in it almost looks

530

00:19:01,909 --> 00:19:00,240

like two heads right in the very center

531

00:19:03,590 --> 00:19:01,919

and there are pictures of that i'm gonna

532

00:19:05,590 --> 00:19:03,600

see if i can find one

533

00:19:07,830 --> 00:19:05,600

of that that looks it does kind of look

534

00:19:08,830 --> 00:19:07,840

like two beings but i mean so that was

535

00:19:13,350 --> 00:19:08,840

all from

536

00:19:15,510 --> 00:19:13,360

one one particular camera or one

537

00:19:16,390 --> 00:19:15,520

yeah so he he's a night guard

538

00:19:18,230 --> 00:19:16,400

and

539

00:19:19,660 --> 00:19:18,240

it's right he he was basically a guard

540

00:19:20,789 --> 00:19:19,670

for one of these um

541

00:19:22,950 --> 00:19:20,799

[Music]

542

00:19:24,390 --> 00:19:22,960

uh tatil koyu what is that a vacation

543

00:19:25,510 --> 00:19:24,400

village

544

00:19:27,430 --> 00:19:25,520

and uh

545

00:19:29,270 --> 00:19:27,440

i hope to go there this summer actually

546

00:19:30,390 --> 00:19:29,280

i met some turks just at this last

547

00:19:32,150 --> 00:19:30,400

conference

548

00:19:34,390 --> 00:19:32,160

actually uh europeans that moved to

549

00:19:35,909 --> 00:19:34,400

turkey and they were like yeah come you

550

00:19:37,590 --> 00:19:35,919

know we'll help you

551
00:19:38,870 --> 00:19:37,600
you know we can help you out and i asked

552
00:19:40,230 --> 00:19:38,880
him is it safe and everything they said

553
00:19:42,310 --> 00:19:40,240
yeah so it's

554
00:19:43,990 --> 00:19:42,320
i'll hopefully i i think i'll go

555
00:19:45,350 --> 00:19:44,000
this summer and try and track that guy

556
00:19:47,590 --> 00:19:45,360
down yalman

557
00:19:49,669 --> 00:19:47,600
um but basically he's able to zoom in

558
00:19:54,150 --> 00:19:49,679
over the over the

559
00:19:55,909 --> 00:19:54,160
uh the boss first there and he has this

560
00:19:57,990 --> 00:19:55,919
extra doubling

561
00:19:59,669 --> 00:19:58,000
uh some sort of lens on the end that can

562
00:20:01,909 --> 00:19:59,679
actually double it again so it's like

563
00:20:02,630 --> 00:20:01,919

zoomed in 400 times so it's quite zoomed

564

00:20:04,630 --> 00:20:02,640

in

565

00:20:05,750 --> 00:20:04,640

ah yep

566

00:20:07,909 --> 00:20:05,760

and yeah

567

00:20:09,350 --> 00:20:07,919

yeah you look up there now yeah yeah

568

00:20:12,630 --> 00:20:09,360

look at it looks

569

00:20:13,350 --> 00:20:12,640

they sure look like

570

00:20:14,950 --> 00:20:13,360

two

571

00:20:19,270 --> 00:20:14,960

beings don't they

572

00:20:21,110 --> 00:20:19,280

and uh uh also they move they move or

573

00:20:22,470 --> 00:20:21,120

they have moved in the in the video it

574

00:20:25,029 --> 00:20:22,480

would be awful hard to fake something

575

00:20:27,110 --> 00:20:25,039

like that but um like you say the jury's

576

00:20:28,789 --> 00:20:27,120

still out on on that yeah because i when

577

00:20:30,470 --> 00:20:28,799

i zoomed in i you know i used my

578

00:20:34,149 --> 00:20:30,480

computer and i um

579

00:20:36,310 --> 00:20:34,159

stabilized it and i zoomed way in and

580

00:20:38,310 --> 00:20:36,320

you know for the for the several seconds

581

00:20:39,510 --> 00:20:38,320

i could get it stabilized i couldn't see

582

00:20:41,110 --> 00:20:39,520

any movement

583

00:20:43,110 --> 00:20:41,120

i didn't see real obvious movement yeah

584

00:20:45,750 --> 00:20:43,120

like the they were like moving around or

585

00:20:47,669 --> 00:20:45,760

talking or anything or it just like like

586

00:20:49,510 --> 00:20:47,679

stationary which kind of

587

00:20:50,470 --> 00:20:49,520

just i don't know maybe is something

588

00:20:53,029 --> 00:20:50,480

weird but

589

00:20:54,789 --> 00:20:53,039

i mean it it's it hasn't been fully

590

00:20:56,390 --> 00:20:54,799

debunked as far as i know it hasn't been

591

00:20:58,070 --> 00:20:56,400

debunked you know the biggest argument

592

00:20:59,510 --> 00:20:58,080

is it's a cruise ship that's what they

593

00:21:01,510 --> 00:20:59,520

said on metabunk

594

00:21:02,710 --> 00:21:01,520

on their website and that just took off

595

00:21:03,669 --> 00:21:02,720

right so then everyone's like it's

596

00:21:06,630 --> 00:21:03,679

cruise ship

597

00:21:08,789 --> 00:21:06,640

um but it you know i have one example in

598

00:21:10,390 --> 00:21:08,799

there in my video is is the moon right

599

00:21:12,870 --> 00:21:10,400

so they have it in

600

00:21:14,870 --> 00:21:12,880

uh in relation to the moon

601
00:21:17,430 --> 00:21:14,880
which it was the the phase of the moon

602
00:21:19,110 --> 00:21:17,440
you can get by the by the video as well

603
00:21:20,230 --> 00:21:19,120
and it matches the date and it matches

604
00:21:22,230 --> 00:21:20,240
the time

605
00:21:24,070 --> 00:21:22,240
and so based off of that the moon is 14

606
00:21:26,230 --> 00:21:24,080
degrees above the horizon

607
00:21:27,190 --> 00:21:26,240
and that makes the actual

608
00:21:28,390 --> 00:21:27,200
uh

609
00:21:29,590 --> 00:21:28,400
object

610
00:21:31,430 --> 00:21:29,600
ship or whatever you want to call it

611
00:21:33,590 --> 00:21:31,440
seven degrees above the horizon so if

612
00:21:34,950 --> 00:21:33,600
it's seven degrees above the horizon

613
00:21:36,789 --> 00:21:34,960

i mean there's no way it can be a cruise

614

00:21:38,070 --> 00:21:36,799

ship i mean it you'd have to be miles

615

00:21:41,590 --> 00:21:38,080

off the planet

616

00:21:43,909 --> 00:21:41,600

right yeah exactly yeah yeah and so it

617

00:21:45,510 --> 00:21:43,919

if assuming that's correct and i don't

618

00:21:48,070 --> 00:21:45,520

see how it isn't you know there was some

619

00:21:50,230 --> 00:21:48,080

i was looking on mick west's site and he

620

00:21:53,190 --> 00:21:50,240

was saying that uh

621

00:21:54,630 --> 00:21:53,200

this could be a mast of a ship and

622

00:21:56,950 --> 00:21:54,640

but it doesn't doesn't seem to make

623

00:21:58,870 --> 00:21:56,960

sense to me it looks like uh it look

624

00:22:00,149 --> 00:21:58,880

what he says is a mast of a ship clearly

625

00:22:02,230 --> 00:22:00,159

looks like a

626

00:22:04,950 --> 00:22:02,240

a light post a lamppost that they have

627

00:22:06,710 --> 00:22:04,960

all around that area you know so

628

00:22:08,950 --> 00:22:06,720

it seems like it's seven degrees above

629

00:22:10,549 --> 00:22:08,960

the horizon unless so then that would

630

00:22:12,950 --> 00:22:10,559

lead me to believe is

631

00:22:15,110 --> 00:22:12,960

uh if it is not real then it's like just

632

00:22:17,270 --> 00:22:15,120

an elaborate hoax

633

00:22:19,029 --> 00:22:17,280

you know which would really suck

634

00:22:20,870 --> 00:22:19,039

it would really suck yeah now the thing

635

00:22:22,310 --> 00:22:20,880

i hear about that because when i talk to

636

00:22:24,230 --> 00:22:22,320

you the reason i talk to you is because

637

00:22:25,430 --> 00:22:24,240

you had interviewed uh

638

00:22:27,830 --> 00:22:25,440

roger lear

639

00:22:31,190 --> 00:22:27,840

yeah and he he was there and he said he

640

00:22:32,710 --> 00:22:31,200

was there through the telescope you know

641

00:22:33,909 --> 00:22:32,720

i looked through the telescope and i saw

642

00:22:35,590 --> 00:22:33,919

this thing

643

00:22:36,870 --> 00:22:35,600

and to me i mean

644

00:22:39,510 --> 00:22:36,880

are we just not going to believe all

645

00:22:41,110 --> 00:22:39,520

these people that say that i don't know

646

00:22:42,789 --> 00:22:41,120

i i would like to know if there's other

647

00:22:45,430 --> 00:22:42,799

people involved

648

00:22:46,549 --> 00:22:45,440

also you know i mean he was one person i

649

00:22:49,029 --> 00:22:46,559

spoke with

650

00:22:51,350 --> 00:22:49,039

but are you know i mean what is the

651
00:22:54,070 --> 00:22:51,360
james melson i heard james mason was

652
00:22:55,590 --> 00:22:54,080
there which is interesting because i i

653
00:22:56,630 --> 00:22:55,600
think he's going to

654
00:23:01,669 --> 00:22:56,640
the

655
00:23:02,630 --> 00:23:01,679
27 may that i'm that i'm speaking at as

656
00:23:04,070 --> 00:23:02,640
well

657
00:23:06,149 --> 00:23:04,080
oh let's talk about that where is that

658
00:23:08,310 --> 00:23:06,159
going to be i should put that up behind

659
00:23:09,350 --> 00:23:08,320
actually it's uh so that's vernal utah

660
00:23:11,350 --> 00:23:09,360
this is gonna be the first conference

661
00:23:13,990 --> 00:23:11,360
i've gone to i'm excited man it's it's

662
00:23:16,070 --> 00:23:14,000
pumped the speaker list is totally full

663
00:23:17,350 --> 00:23:16,080

uh we have travis taylor heavy lobes

664

00:23:20,470 --> 00:23:17,360

gonna be there

665

00:23:22,950 --> 00:23:20,480

uh i'll be there in a group we will have

666

00:23:25,590 --> 00:23:22,960

uh some disclosure for sure stuff coming

667

00:23:27,990 --> 00:23:25,600

out there's gonna be the cousin brothers

668

00:23:29,909 --> 00:23:28,000

they're uh gonna have a video

669

00:23:31,990 --> 00:23:29,919

or i guess a new documentary that

670

00:23:34,870 --> 00:23:32,000

they're releasing

671

00:23:38,310 --> 00:23:34,880

so that'll be in vernal utah 2729 may

672

00:23:40,549 --> 00:23:38,320

megacon it's mega disclosure megacon oh

673

00:23:41,990 --> 00:23:40,559

i wish i'd known that about about that

674

00:23:44,789 --> 00:23:42,000

prior um

675

00:23:47,269 --> 00:23:44,799

in advance um it might be something

676

00:23:54,870 --> 00:23:47,279

i would be uh willing to come out to now

677

00:23:58,950 --> 00:23:57,350

they're not from that youtube channel

678

00:24:01,590 --> 00:23:58,960

are they no they make they make

679

00:24:03,350 --> 00:24:01,600

documentaries um i think it was about

680

00:24:04,549 --> 00:24:03,360

yeah i'm not sure who was in it but

681

00:24:06,789 --> 00:24:04,559

maybe maybe

682

00:24:07,990 --> 00:24:06,799

oh okay somebody

683

00:24:09,990 --> 00:24:08,000

oh

684

00:24:11,029 --> 00:24:10,000

all right

685

00:24:12,470 --> 00:24:11,039

i don't know

686

00:24:14,310 --> 00:24:12,480

i haven't heard of him but

687

00:24:15,990 --> 00:24:14,320

i know abby loeb will be there we have

688

00:24:17,590 --> 00:24:16,000

an event planned uh the first day we're

689

00:24:19,110 --> 00:24:17,600

gonna have an event related to this uh

690

00:24:20,789 --> 00:24:19,120

this project

691

00:24:22,950 --> 00:24:20,799

oh yeah let's talk about the the project

692

00:24:25,350 --> 00:24:22,960

yeah i hope that'll be cool yeah so yeah

693

00:24:27,990 --> 00:24:25,360

what is the project exactly yeah so the

694

00:24:30,470 --> 00:24:28,000

project uh so basic the question is you

695

00:24:32,390 --> 00:24:30,480

know what's the number one place or what

696

00:24:35,430 --> 00:24:32,400

where would you actually invest to

697

00:24:36,789 --> 00:24:35,440

actually get some of this evidence made

698

00:24:38,470 --> 00:24:36,799

you know what's

699

00:24:39,990 --> 00:24:38,480

say you're out there you want to invest

700

00:24:41,269 --> 00:24:40,000

you want to you want to put your money

701
00:24:42,630 --> 00:24:41,279
where your mouth is or your mouth where

702
00:24:44,070 --> 00:24:42,640
your money is

703
00:24:46,549 --> 00:24:44,080
and

704
00:24:51,669 --> 00:24:46,559
help move the needle you know help find

705
00:24:54,630 --> 00:24:52,950
what would i do

706
00:24:55,990 --> 00:24:54,640
yeah

707
00:24:57,669 --> 00:24:56,000
uh

708
00:24:59,110 --> 00:24:57,679
in in what way what

709
00:25:01,510 --> 00:24:59,120
you mean i guess

710
00:25:04,070 --> 00:25:01,520
where's a place where uap enthusiasts

711
00:25:07,029 --> 00:25:04,080
can come together and discuss projects

712
00:25:08,390 --> 00:25:07,039
and actually work on finding science

713
00:25:11,029 --> 00:25:08,400

you know because if you look at if you

714

00:25:11,830 --> 00:25:11,039

look at our our science now

715

00:25:14,070 --> 00:25:11,840

um

716

00:25:15,990 --> 00:25:14,080

it's all organized it's all based on

717

00:25:17,750 --> 00:25:16,000

funding that they can receive that's

718

00:25:19,430 --> 00:25:17,760

right yeah all these scientists are like

719

00:25:21,510 --> 00:25:19,440

why guys why didn't you why aren't you

720

00:25:23,909 --> 00:25:21,520

looking at uaps and they're always like

721

00:25:25,750 --> 00:25:23,919

funding you know so it's

722

00:25:27,350 --> 00:25:25,760

but then you look at okay well let's say

723

00:25:30,390 --> 00:25:27,360

i have funding

724

00:25:33,269 --> 00:25:30,400

right let's say i want to fund science

725

00:25:35,430 --> 00:25:33,279

you know where can you give it you know

726

00:25:38,230 --> 00:25:35,440

i guess you could send a galileo project

727

00:25:39,830 --> 00:25:38,240

you could you could uh give it to uapx

728

00:25:42,950 --> 00:25:39,840

right i'm sure they could they could use

729

00:25:44,149 --> 00:25:42,960

it you know but then um

730

00:25:45,830 --> 00:25:44,159

yeah there's there's just all these

731

00:25:47,269 --> 00:25:45,840

communities right there's no one place

732

00:25:48,230 --> 00:25:47,279

where you can really

733

00:25:50,549 --> 00:25:48,240

like

734

00:25:51,750 --> 00:25:50,559

orient the community towards a goal

735

00:25:54,870 --> 00:25:51,760

you know there's all these barrett

736

00:25:57,350 --> 00:25:54,880

projects going around right yeah so

737

00:25:59,510 --> 00:25:57,360

that's that's the point is basically

738

00:26:01,190 --> 00:25:59,520

why we partnered with

739

00:26:02,710 --> 00:26:01,200

some big groups or

740

00:26:05,269 --> 00:26:02,720

names in the space

741

00:26:06,710 --> 00:26:05,279

and basically to create a community

742

00:26:08,870 --> 00:26:06,720

where

743

00:26:11,269 --> 00:26:08,880

scientists can be there and we can bring

744

00:26:13,510 --> 00:26:11,279

the funding together

745

00:26:15,669 --> 00:26:13,520

and and that's it you know now does it

746

00:26:16,870 --> 00:26:15,679

happen is the galileo project part of

747

00:26:22,830 --> 00:26:16,880

this

748

00:26:25,830 --> 00:26:22,840

friendly competitor to the galileo

749

00:26:27,190 --> 00:26:25,840

project i see and how's that going to

750

00:26:28,710 --> 00:26:27,200

launch and how's that going to work

751
00:26:32,789 --> 00:26:28,720
exactly

752
00:26:35,029 --> 00:26:32,799
yes so we have some exciting plans

753
00:26:37,269 --> 00:26:35,039
that i can't that i can't relay or get

754
00:26:39,590 --> 00:26:37,279
in trouble from my team is basically how

755
00:26:41,750 --> 00:26:39,600
it works but i will say

756
00:26:44,070 --> 00:26:41,760
the megacon disclosure will be the first

757
00:26:45,350 --> 00:26:44,080
kind of big uh big notice on what we're

758
00:26:47,190 --> 00:26:45,360
releasing

759
00:26:49,190 --> 00:26:47,200
all right so

760
00:26:50,710 --> 00:26:49,200
i guess guess what i'm going to have to

761
00:26:53,110 --> 00:26:50,720
ask you to do

762
00:26:55,029 --> 00:26:53,120
is uh to get back in touch with me after

763
00:26:56,870 --> 00:26:55,039

that and i'll put information into the

764

00:26:59,590 --> 00:26:56,880

show notes of this show

765

00:27:01,350 --> 00:26:59,600

so people can check back uh okay well i

766

00:27:03,430 --> 00:27:01,360

can show i mean i can give you a teaser

767

00:27:05,269 --> 00:27:03,440

here of uh if they want

768

00:27:07,990 --> 00:27:05,279

yeah are you gonna share a screen or

769

00:27:09,669 --> 00:27:08,000

something yeah let me share that sure

770

00:27:11,269 --> 00:27:09,679

and by the way your videos are really

771

00:27:13,350 --> 00:27:11,279

good you have all kinds of things going

772

00:27:15,750 --> 00:27:13,360

on in those

773

00:27:17,990 --> 00:27:15,760

for the youtube videos yes you do a

774

00:27:20,230 --> 00:27:18,000

really good job with that so all right

775

00:27:21,590 --> 00:27:20,240

so what do we got here

776

00:27:22,530 --> 00:27:21,600

so this is it this is all we're giving

777

00:27:24,710 --> 00:27:22,540

away right now

778

00:27:25,590 --> 00:27:24,720

[Laughter]

779

00:27:27,350 --> 00:27:25,600

okay

780

00:27:29,029 --> 00:27:27,360

for those who stick the truth of

781

00:27:30,870 --> 00:27:29,039

revolution's begun it all starts with

782

00:27:32,070 --> 00:27:30,880

42.

783

00:27:36,070 --> 00:27:32,080

and um

784

00:27:38,710 --> 00:27:36,080

yep you can log here at uapsociety.com

785

00:27:41,190 --> 00:27:38,720

uh and we'll send updates or my patreon

786

00:27:42,630 --> 00:27:41,200

my patreons so one benefit i give them

787

00:27:45,669 --> 00:27:42,640

is um

788

00:27:47,990 --> 00:27:45,679

they get first access to everything

789

00:27:49,830 --> 00:27:48,000

so that's it here we have a douglas

790

00:27:51,190 --> 00:27:49,840

adams

791

00:27:53,029 --> 00:27:51,200

quote here i may not have gone where i

792

00:27:55,269 --> 00:27:53,039

intended to go but i think i've ended up

793

00:27:58,870 --> 00:27:55,279

where i needed to be douglas adams yeah

794

00:27:59,830 --> 00:27:58,880

i like that one that's good yeah so true

795

00:28:02,230 --> 00:27:59,840

yeah

796

00:28:04,870 --> 00:28:02,240

all right well uh let's see whoops i'm

797

00:28:07,269 --> 00:28:04,880

trying to uh no you did it thank you

798

00:28:11,510 --> 00:28:07,279

yeah but actually the i mean what we're

799

00:28:13,430 --> 00:28:11,520

trying to do is leverage web 3.0

800

00:28:15,269 --> 00:28:13,440

which is really all the technology

801
00:28:17,830 --> 00:28:15,279
that's coming on board right now

802
00:28:19,269 --> 00:28:17,840
with blockchain technology

803
00:28:21,990 --> 00:28:19,279
we want to use

804
00:28:24,230 --> 00:28:22,000
decentralized storage

805
00:28:26,230 --> 00:28:24,240
that can't be destroyed essentially so

806
00:28:27,590 --> 00:28:26,240
if you want to save files for many many

807
00:28:29,590 --> 00:28:27,600
years and make sure that they are

808
00:28:30,470 --> 00:28:29,600
verifiable if you want to confirm

809
00:28:33,430 --> 00:28:30,480
evidence

810
00:28:35,430 --> 00:28:33,440
uh if you want to fund experiments

811
00:28:37,750 --> 00:28:35,440
if you want to write proposals to get

812
00:28:40,149 --> 00:28:37,760
funded for experiments

813
00:28:42,630 --> 00:28:40,159

so it's just it's like

814

00:28:44,630 --> 00:28:42,640

is this sort of like an open source also

815

00:28:46,149 --> 00:28:44,640

type of thing the whole goal is to get

816

00:28:48,310 --> 00:28:46,159

open source evidence like that is the

817

00:28:49,190 --> 00:28:48,320

whole goal to find the truth with open

818

00:28:51,590 --> 00:28:49,200

source

819

00:28:52,389 --> 00:28:51,600

everybody funds it and the but but the

820

00:28:54,389 --> 00:28:52,399

one

821

00:28:56,149 --> 00:28:54,399

agreement is the information has to be

822

00:28:58,789 --> 00:28:56,159

open source at some point i think we'll

823

00:29:00,710 --> 00:28:58,799

delay it maybe like a week or two

824

00:29:02,149 --> 00:29:00,720

for you know peop for people that are

825

00:29:04,470 --> 00:29:02,159

invested in the project they can get

826

00:29:06,470 --> 00:29:04,480

access to information sooner

827

00:29:08,149 --> 00:29:06,480

but that's the idea to bring together

828

00:29:10,950 --> 00:29:08,159

the science the scientists already there

829

00:29:12,630 --> 00:29:10,960

you know uapx at any moment could go do

830

00:29:13,669 --> 00:29:12,640

probably some pretty sweet project you

831

00:29:16,149 --> 00:29:13,679

know

832

00:29:18,149 --> 00:29:16,159

um and we could fund it with this or

833

00:29:19,190 --> 00:29:18,159

someone could fund even just one trip

834

00:29:20,470 --> 00:29:19,200

you know they say we're going to go to

835

00:29:22,630 --> 00:29:20,480

hester land

836

00:29:23,750 --> 00:29:22,640

you know they have all the crazy guys

837

00:29:25,110 --> 00:29:23,760

they're going to run out there with all

838

00:29:27,510 --> 00:29:25,120

this equipment and they have tons of

839

00:29:29,750 --> 00:29:27,520

equipment you know they they go to

840

00:29:31,430 --> 00:29:29,760

skimwalker ranch you know

841

00:29:33,830 --> 00:29:31,440

we don't have to go to skinwalker ranch

842

00:29:35,190 --> 00:29:33,840

you know we could pay pay somebody uh

843

00:29:37,029 --> 00:29:35,200

yeah you're actually going to be out

844

00:29:39,350 --> 00:29:37,039

that's not where you're going is not far

845

00:29:41,830 --> 00:29:39,360

from there right yes yes so we'll go to

846

00:29:43,269 --> 00:29:41,840

blind frog ranch that's actually um yeah

847

00:29:45,669 --> 00:29:43,279

who's supporting it

848

00:29:47,909 --> 00:29:45,679

well i'm gonna i'm going to ask uh the

849

00:29:50,310 --> 00:29:47,919

owner of skinwalker ranch something

850

00:29:52,630 --> 00:29:50,320

tomorrow off air we'll see what he says

851

00:29:55,909 --> 00:29:52,640

um i would love to do a show from

852

00:29:57,510 --> 00:29:55,919

skidmarker ranch i don't know but uh i'm

853

00:29:59,590 --> 00:29:57,520

going to quickly change the subject and

854

00:30:02,149 --> 00:29:59,600

put this up here so this is a question

855

00:30:04,389 --> 00:30:02,159

to you um from another u.s

856

00:30:05,590 --> 00:30:04,399

air force vet please ask chris to

857

00:30:08,230 --> 00:30:05,600

comment

858

00:30:10,310 --> 00:30:08,240

uh uap don't seem to interact with

859

00:30:11,510 --> 00:30:10,320

atmosphere mock

860

00:30:13,909 --> 00:30:11,520

uh as

861

00:30:17,110 --> 00:30:13,919

mac he meant to say mock or show

862

00:30:19,269 --> 00:30:17,120

inertial mass also the trans medium

863

00:30:21,269 --> 00:30:19,279

definitely not ours what is your comment

864

00:30:24,230 --> 00:30:21,279

on that

865

00:30:25,510 --> 00:30:24,240

i mean it certainly seems what all the

866

00:30:26,710 --> 00:30:25,520

from all the stuff we're getting from

867

00:30:28,549 --> 00:30:26,720

lou

868

00:30:30,070 --> 00:30:28,559

you know they haven't released any more

869

00:30:32,710 --> 00:30:30,080

information

870

00:30:35,269 --> 00:30:32,720

but what we've seen is yeah there's the

871

00:30:38,070 --> 00:30:35,279

the key thing is there's no sound

872

00:30:39,430 --> 00:30:38,080

i know that's so weird

873

00:30:41,669 --> 00:30:39,440

it is

874

00:30:43,590 --> 00:30:41,679

it really is you know i i mentioned to

875

00:30:45,750 --> 00:30:43,600

this while i was on the mufon show they

876

00:30:48,470 --> 00:30:45,760

asked me about my ufo sighting

877

00:30:50,950 --> 00:30:48,480

and the number one weirdest thing

878

00:30:53,029 --> 00:30:50,960

for me in my ufo sighting was that

879

00:30:55,430 --> 00:30:53,039

this thing is moving it's stopping and

880

00:30:56,710 --> 00:30:55,440

moving again and there's absolutely no

881

00:30:58,070 --> 00:30:56,720

sound it's

882

00:30:59,990 --> 00:30:58,080

dead quiet

883

00:31:03,509 --> 00:31:00,000

and that was the most eerie part of my

884

00:31:05,669 --> 00:31:03,519

sighting and i i never knew

885

00:31:07,110 --> 00:31:05,679

uh you know i went years before i ever

886

00:31:09,509 --> 00:31:07,120

heard someone else say oh yeah and it

887

00:31:12,070 --> 00:31:09,519

made no sound that is kind of a common

888

00:31:14,230 --> 00:31:12,080

denominator you know between a lot of

889

00:31:15,990 --> 00:31:14,240

ufo sightings you rarely hear every once

890

00:31:18,070 --> 00:31:16,000

in a while here someone will say oh yes

891

00:31:19,269 --> 00:31:18,080

it made a humming noise or a buzzing

892

00:31:21,590 --> 00:31:19,279

noise or

893

00:31:23,830 --> 00:31:21,600

or high pitch noise something like that

894

00:31:26,070 --> 00:31:23,840

but it's really rare it's really rare

895

00:31:27,669 --> 00:31:26,080

that they make any sound at all bizarre

896

00:31:29,590 --> 00:31:27,679

i was surprised by that yeah i remember

897

00:31:29,850 --> 00:31:29,600

actually talking about that on your show

898

00:31:31,029 --> 00:31:29,860

um

899

00:31:32,630 --> 00:31:31,039

[Music]

900

00:31:34,549 --> 00:31:32,640

i i remember being surprised that

901
00:31:37,269 --> 00:31:34,559
they're all

902
00:31:39,190 --> 00:31:37,279
no sound you know there's or i i don't

903
00:31:41,350 --> 00:31:39,200
know i remember uh nick pope he said

904
00:31:43,269 --> 00:31:41,360
that uh they get a humming sound a deep

905
00:31:45,029 --> 00:31:43,279
bass humming sound from

906
00:31:47,430 --> 00:31:45,039
if you're close to it

907
00:31:48,950 --> 00:31:47,440
yeah or some object you did i asked what

908
00:31:50,149 --> 00:31:48,960
type he said a large triangle or

909
00:31:52,870 --> 00:31:50,159
something like that

910
00:31:54,630 --> 00:31:52,880
yeah yeah no i've heard i've also heard

911
00:31:56,470 --> 00:31:54,640
that about a triangle

912
00:31:57,990 --> 00:31:56,480
i from someone that claims they

913
00:31:58,950 --> 00:31:58,000

witnessed one and they felt pressure

914

00:32:01,190 --> 00:31:58,960

from it

915

00:32:03,909 --> 00:32:01,200

and they also said that there was a

916

00:32:05,350 --> 00:32:03,919

ah like a humming a very low humming

917

00:32:07,590 --> 00:32:05,360

noise

918

00:32:11,110 --> 00:32:07,600

yeah so the no sound and the

919

00:32:12,789 --> 00:32:11,120

trans-dimensional the no mock

920

00:32:14,310 --> 00:32:12,799

yeah it all seems like it's not really

921

00:32:16,630 --> 00:32:14,320

there it's like a light that's where i

922

00:32:18,070 --> 00:32:16,640

was thinking maybe it's like a wave

923

00:32:19,590 --> 00:32:18,080

you know

924

00:32:22,149 --> 00:32:19,600

um and then

925

00:32:23,190 --> 00:32:22,159

but and that's how it can just move

926
00:32:25,190 --> 00:32:23,200

freely

927
00:32:26,549 --> 00:32:25,200

you know like light light is like a wave

928
00:32:29,110 --> 00:32:26,559

it can just move

929
00:32:30,630 --> 00:32:29,120

freely um you know can't go through hard

930
00:32:31,750 --> 00:32:30,640

objects the certain objects can't go

931
00:32:33,029 --> 00:32:31,760

through but

932
00:32:34,710 --> 00:32:33,039

um

933
00:32:36,630 --> 00:32:34,720

yeah but and then

934
00:32:38,870 --> 00:32:36,640

when you hear about it

935
00:32:40,470 --> 00:32:38,880

causing some sort of sound

936
00:32:41,990 --> 00:32:40,480

then it doesn't fit you know then it's

937
00:32:43,669 --> 00:32:42,000

kind of weird so maybe that's where

938
00:32:45,830 --> 00:32:43,679

we're seeing different types of of

939

00:32:47,430 --> 00:32:45,840

vehicles or different at least different

940

00:32:50,549 --> 00:32:47,440

types of propulsion

941

00:32:51,750 --> 00:32:50,559

yeah no i i think we probably are i mean

942

00:32:53,590 --> 00:32:51,760

from what i've

943

00:32:55,590 --> 00:32:53,600

heard all over these years that i've

944

00:32:56,630 --> 00:32:55,600

been doing this is people are seeing

945

00:32:57,509 --> 00:32:56,640

different

946

00:32:59,669 --> 00:32:57,519

things

947

00:33:01,590 --> 00:32:59,679

um and occasionally two people be

948

00:33:02,470 --> 00:33:01,600

standing together and see a different

949

00:33:04,870 --> 00:33:02,480

thing

950

00:33:05,909 --> 00:33:04,880

which which may go back to

951
00:33:09,509 --> 00:33:05,919
um

952
00:33:11,830 --> 00:33:09,519
the consciousness type of situation

953
00:33:13,750 --> 00:33:11,840
the interaction somehow

954
00:33:15,669 --> 00:33:13,760
and i don't know can you explain what

955
00:33:16,950 --> 00:33:15,679
your thoughts i mean i've been asked

956
00:33:17,669 --> 00:33:16,960
many times

957
00:33:20,549 --> 00:33:17,679
on

958
00:33:22,870 --> 00:33:20,559
you know from emails and listeners like

959
00:33:24,549 --> 00:33:22,880
uh what is the consciousness connection

960
00:33:25,909 --> 00:33:24,559
and i i've never been able to quite

961
00:33:28,070 --> 00:33:25,919
explain that

962
00:33:30,230 --> 00:33:28,080
um what do you how do you think that

963
00:33:33,669 --> 00:33:30,240

consciousness may play a role

964

00:33:35,830 --> 00:33:33,679

when it comes to people seeing a ufo

965

00:33:38,710 --> 00:33:35,840

or uap

966

00:33:40,310 --> 00:33:38,720

well i guess it's um

967

00:33:41,990 --> 00:33:40,320

it's related to kind of what you said is

968

00:33:45,110 --> 00:33:42,000

where you have two people

969

00:33:46,710 --> 00:33:45,120

and they they see different things

970

00:33:49,029 --> 00:33:46,720

i think it was in lakotsky's book you

971

00:33:51,110 --> 00:33:49,039

know skim walkers of the pentagon where

972

00:33:53,750 --> 00:33:51,120

he's he was there i think on the ranch

973

00:33:57,830 --> 00:33:53,760

and he saw basically some uap in another

974

00:34:02,310 --> 00:34:00,310

so for me it relates to that that other

975

00:34:05,029 --> 00:34:02,320

pathway there's some other pathway where

976

00:34:07,509 --> 00:34:05,039

we can receive information

977

00:34:09,589 --> 00:34:07,519

and if you think about consciousness

978

00:34:12,550 --> 00:34:09,599

it's just a crazy concept in itself you

979

00:34:16,069 --> 00:34:12,560

know before i was here i was

980

00:34:18,310 --> 00:34:16,079

where was i you know and then if i

981

00:34:21,190 --> 00:34:18,320

why am i able to see what's going on and

982

00:34:23,750 --> 00:34:21,200

experience this uh if i'm going to die

983

00:34:25,510 --> 00:34:23,760

right like how can i experience this now

984

00:34:27,270 --> 00:34:25,520

if i'm going to be nothing

985

00:34:28,869 --> 00:34:27,280

at some point in the future you know and

986

00:34:29,589 --> 00:34:28,879

i was nothing before

987

00:34:30,310 --> 00:34:29,599

right

988

00:34:31,589 --> 00:34:30,320

so

989

00:34:33,510 --> 00:34:31,599

i've always just been kind of enamored

990

00:34:34,869 --> 00:34:33,520

with with consciousness and it's in its

991

00:34:36,790 --> 00:34:34,879

uh case

992

00:34:38,629 --> 00:34:36,800

it's just a crazy thing but uh how it

993

00:34:40,470 --> 00:34:38,639

relates to uaps is it would be this

994

00:34:42,069 --> 00:34:40,480

other maybe pathway of information

995

00:34:43,909 --> 00:34:42,079

exchange

996

00:34:47,510 --> 00:34:43,919

you know if there is telekinetic

997

00:34:49,589 --> 00:34:47,520

pathways if there is um

998

00:34:51,750 --> 00:34:49,599

yeah if you can affect things with your

999

00:34:53,190 --> 00:34:51,760

mind mentally then it shows that we're

1000

00:34:54,950 --> 00:34:53,200

more than just our

1001
00:34:56,950 --> 00:34:54,960
our bodies i guess and then that would

1002
00:34:58,550 --> 00:34:56,960
that would could go some way to

1003
00:35:00,950 --> 00:34:58,560
explaining some of these

1004
00:35:04,230 --> 00:35:00,960
these uh weird events you know the high

1005
00:35:07,430 --> 00:35:05,990
yeah that's why i've also heard after

1006
00:35:09,829 --> 00:35:07,440
talking to leslie kane you know i

1007
00:35:12,710 --> 00:35:09,839
interviewed her as well and she's did

1008
00:35:14,550 --> 00:35:12,720
that whole study on surviving death

1009
00:35:16,550 --> 00:35:14,560
and so for her she thought there was

1010
00:35:17,910 --> 00:35:16,560
clearly a connection between uaps and

1011
00:35:20,550 --> 00:35:17,920
consciousness

1012
00:35:23,349 --> 00:35:20,560
and so for her in it was

1013
00:35:25,670 --> 00:35:23,359

she said that uh whitley strieber

1014

00:35:27,910 --> 00:35:25,680

he wrote in his book he wrote that

1015

00:35:30,310 --> 00:35:27,920

when people see uaps

1016

00:35:32,310 --> 00:35:30,320

they will often see ghosts as well and

1017

00:35:33,829 --> 00:35:32,320

the vice versa if people when people

1018

00:35:37,109 --> 00:35:33,839

supposedly see ghosts

1019

00:35:39,910 --> 00:35:37,119

uh they see uaps so there's

1020

00:35:41,990 --> 00:35:39,920

she was she's very you know or not

1021

00:35:43,670 --> 00:35:42,000

confident but she when i interviewed her

1022

00:35:45,589 --> 00:35:43,680

she was yeah really interested in that

1023

00:35:48,069 --> 00:35:45,599

connection

1024

00:35:50,550 --> 00:35:48,079

yeah um yeah i have heard of things like

1025

00:35:51,589 --> 00:35:50,560

that and and it doesn't stop there you

1026

00:35:53,829 --> 00:35:51,599

know i mean

1027

00:35:54,790 --> 00:35:53,839

it gets into the crypto stuff too you

1028

00:35:56,950 --> 00:35:54,800

know

1029

00:35:58,470 --> 00:35:56,960

people talk about bigfoot i've had

1030

00:36:00,230 --> 00:35:58,480

people talk about that

1031

00:36:02,470 --> 00:36:00,240

um you know there's a lot of weird

1032

00:36:03,910 --> 00:36:02,480

things happening all at once

1033

00:36:05,990 --> 00:36:03,920

um i

1034

00:36:07,750 --> 00:36:06,000

talked now and then with paul eno he

1035

00:36:09,990 --> 00:36:07,760

does a radio show

1036

00:36:13,750 --> 00:36:10,000

uh down around rhode island somewhere

1037

00:36:16,950 --> 00:36:13,760

and uh providence i think and he

1038

00:36:18,310 --> 00:36:16,960

um his thought is that everything is

1039

00:36:21,430 --> 00:36:18,320

connected

1040

00:36:23,710 --> 00:36:21,440

ufos bigfoot ghosts anything paranormal

1041

00:36:26,630 --> 00:36:23,720

is connected and he thinks it's all

1042

00:36:28,790 --> 00:36:26,640

interdimensional and you know i gotta

1043

00:36:29,990 --> 00:36:28,800

say that's as good of an answer as any

1044

00:36:33,109 --> 00:36:30,000

answer

1045

00:36:34,870 --> 00:36:33,119

that you could have i have no idea

1046

00:36:36,790 --> 00:36:34,880

and you know the one thing that does

1047

00:36:39,109 --> 00:36:36,800

when it gets back to

1048

00:36:40,710 --> 00:36:39,119

um i had someone on the show uh a

1049

00:36:43,750 --> 00:36:40,720

scientist was on the show that's saying

1050

00:36:46,790 --> 00:36:43,760

that we manifest this that's what we're

1051
00:36:48,630 --> 00:36:46,800
doing we're manifesting a ufo and so i

1052
00:36:51,109 --> 00:36:48,640
questioned him i said okay what about

1053
00:36:53,190 --> 00:36:51,119
the phoenix lights there are thousands

1054
00:36:55,510 --> 00:36:53,200
and thousands of witnesses and what

1055
00:36:57,430 --> 00:36:55,520
about tinley park uh you know many

1056
00:37:00,790 --> 00:36:57,440
hundreds of witnesses things like that

1057
00:37:02,710 --> 00:37:00,800
in chicago and uh many there's many mass

1058
00:37:04,630 --> 00:37:02,720
sightings i don't really remember what

1059
00:37:08,630 --> 00:37:04,640
his

1060
00:37:10,470 --> 00:37:08,640
he had some reply that really made

1061
00:37:14,550 --> 00:37:10,480
people in the chat room go get angry i

1062
00:37:17,829 --> 00:37:14,560
forget what it was but anyway uh but

1063
00:37:19,910 --> 00:37:17,839

how how would that work if we're our

1064

00:37:22,630 --> 00:37:19,920

consciousness is how these things

1065

00:37:24,550 --> 00:37:22,640

somehow manifest

1066

00:37:28,870 --> 00:37:24,560

when it's a mass sighting

1067

00:37:33,910 --> 00:37:32,390

yeah i don't see you know i think

1068

00:37:35,670 --> 00:37:33,920

i mean i've been so then i've been

1069

00:37:37,190 --> 00:37:35,680

researching once you get into the

1070

00:37:39,510 --> 00:37:37,200

consciousness you know once you pull the

1071

00:37:40,950 --> 00:37:39,520

thread on the consciousness

1072

00:37:42,630 --> 00:37:40,960

it's like the woo you know everybody's

1073

00:37:43,829 --> 00:37:42,640

like stay away from the woo you know but

1074

00:37:45,349 --> 00:37:43,839

then

1075

00:37:48,310 --> 00:37:45,359

there's a lot of woo

1076

00:37:50,150 --> 00:37:48,320

uh in the subject i don't know what yeah

1077

00:37:52,470 --> 00:37:50,160

yeah i mean i saw a ufo that's kind of

1078

00:37:54,310 --> 00:37:52,480

woo guys you know um i just want to

1079

00:37:56,870 --> 00:37:54,320

throw that out there you know but

1080

00:37:57,910 --> 00:37:56,880

whatever there's everybody has a line

1081

00:38:00,150 --> 00:37:57,920

um yeah

1082

00:38:01,270 --> 00:38:00,160

yeah but when you start pulling back the

1083

00:38:03,430 --> 00:38:01,280

consciousness

1084

00:38:05,190 --> 00:38:03,440

uh you know what i what i think is that

1085

00:38:07,510 --> 00:38:05,200

we're all i think we could agree that

1086

00:38:09,280 --> 00:38:07,520

it's a shared experience

1087

00:38:10,870 --> 00:38:09,290

you know we're all seeing um

1088

00:38:12,870 --> 00:38:10,880

[Music]

1089

00:38:15,829 --> 00:38:12,880

we're all different

1090

00:38:17,510 --> 00:38:15,839

at least entities in this dimension of a

1091

00:38:20,310 --> 00:38:17,520

shared experience

1092

00:38:22,550 --> 00:38:20,320

uh and and so in that case

1093

00:38:24,630 --> 00:38:22,560

uh i think if you had that's why i

1094

00:38:26,630 --> 00:38:24,640

really like the mass sightings

1095

00:38:28,630 --> 00:38:26,640

you know i was i've been trying to look

1096

00:38:30,710 --> 00:38:28,640

into phoenix lights more

1097

00:38:33,430 --> 00:38:30,720

um but right now i'm in the looking at

1098

00:38:35,190 --> 00:38:33,440

crop circles or trying to

1099

00:38:37,510 --> 00:38:35,200

um but the mass sightings is really

1100

00:38:39,670 --> 00:38:37,520

interesting to me because i

1101

00:38:41,990 --> 00:38:39,680

yeah that doesn't work right you can

1102

00:38:43,510 --> 00:38:42,000

always say it's one source that person

1103

00:38:45,750 --> 00:38:43,520

you know they were on drugs they were

1104

00:38:47,829 --> 00:38:45,760

crazy you know or that camera has glare

1105

00:38:49,430 --> 00:38:47,839

in it you know but now you have two now

1106

00:38:51,670 --> 00:38:49,440

you have two cameras and you're like oh

1107

00:38:53,990 --> 00:38:51,680

geez you know what about two people all

1108

00:38:54,710 --> 00:38:54,000

right well they were both on drugs okay

1109

00:38:56,630 --> 00:38:54,720

yeah

1110

00:38:58,870 --> 00:38:56,640

you know once you get more sources it

1111

00:39:00,230 --> 00:38:58,880

does knock that out you know

1112

00:39:01,430 --> 00:39:00,240

yeah um

1113

00:39:03,030 --> 00:39:01,440

yeah and

1114

00:39:05,430 --> 00:39:03,040

so i don't know it's it's it's quite

1115

00:39:07,990 --> 00:39:05,440

interesting to me um but it it would

1116

00:39:10,150 --> 00:39:08,000

mean there's another pathway if anything

1117

00:39:13,589 --> 00:39:10,160

my study of ueps is

1118

00:39:16,390 --> 00:39:13,599

um it's opened my eyes to or my mind i

1119

00:39:18,069 --> 00:39:16,400

guess to to looking for more

1120

00:39:20,390 --> 00:39:18,079

more things you know we don't know

1121

00:39:22,230 --> 00:39:20,400

nearly as much as we think we know yes

1122

00:39:24,550 --> 00:39:22,240

but by finding that out just just

1123

00:39:26,710 --> 00:39:24,560

proving that pathway even if we don't

1124

00:39:28,230 --> 00:39:26,720

solve the uap phenomena you know we

1125

00:39:30,550 --> 00:39:28,240

don't figure out what the phenomena is

1126

00:39:31,670 --> 00:39:30,560

we still improve our understanding

1127

00:39:33,430 --> 00:39:31,680

um

1128

00:39:34,870 --> 00:39:33,440

yeah so that's why it's also exciting

1129

00:39:35,829 --> 00:39:34,880

for me why else i love the subject you

1130

00:39:39,190 --> 00:39:35,839

know i love

1131

00:39:42,550 --> 00:39:39,200

progressing

1132

00:39:44,710 --> 00:39:42,560

i love pointing out hypocrisy

1133

00:39:46,630 --> 00:39:44,720

and um and i would love to find you know

1134

00:39:48,069 --> 00:39:46,640

find the truth and maybe just if

1135

00:39:50,310 --> 00:39:48,079

anything to give us more understanding

1136

00:39:52,069 --> 00:39:50,320

about the universe right if it's so if

1137

00:39:53,430 --> 00:39:52,079

it it sounds like it's very difficult to

1138

00:39:55,910 --> 00:39:53,440

know what it is

1139

00:39:58,230 --> 00:39:55,920

it's very elusive right it's been 80

1140

00:40:00,310 --> 00:39:58,240

years yeah we still don't have any good

1141

00:40:03,430 --> 00:40:00,320

photos really i mean

1142

00:40:06,069 --> 00:40:03,440

you don't have any super clear video

1143

00:40:07,990 --> 00:40:06,079

however you cut it that's weird you know

1144

00:40:10,870 --> 00:40:08,000

yeah um and then are we going to be you

1145

00:40:11,990 --> 00:40:10,880

know with great cgi getting better and

1146

00:40:13,910 --> 00:40:12,000

better all the time we're going to be

1147

00:40:15,750 --> 00:40:13,920

able to trust what we see in the future

1148

00:40:19,349 --> 00:40:15,760

it's going to be awful hard

1149

00:40:22,870 --> 00:40:19,359

you know to to figure it out um you know

1150

00:40:25,430 --> 00:40:22,880

if cgi can at one time be

1151

00:40:27,430 --> 00:40:25,440

unprovable that it's cgi that'll be

1152

00:40:29,030 --> 00:40:27,440

tough and and we're heading in that

1153

00:40:31,349 --> 00:40:29,040

direction really

1154

00:40:33,190 --> 00:40:31,359

so um i had an interesting comment i was

1155

00:40:36,230 --> 00:40:33,200

speaking with a friend last night and

1156

00:40:38,870 --> 00:40:36,240

she said uh wherever we are

1157

00:40:40,470 --> 00:40:38,880

in time we're at the top of our

1158

00:40:43,270 --> 00:40:40,480

technological

1159

00:40:45,430 --> 00:40:43,280

you know crest no matter where we are

1160

00:40:46,950 --> 00:40:45,440

yeah well you go down i mean you do go

1161

00:40:49,190 --> 00:40:46,960

down yeah there has been there's been

1162

00:40:51,670 --> 00:40:49,200

slip backs like the you know during the

1163

00:40:53,109 --> 00:40:51,680

egyptians you know the romans they had

1164

00:40:54,309 --> 00:40:53,119

they were doing brain surgery and then

1165

00:40:57,030 --> 00:40:54,319

there was a

1166

00:40:58,950 --> 00:40:57,040

yeah a step back you know from there so

1167

00:41:00,950 --> 00:40:58,960

we forgot to go to the moon we forgot

1168

00:41:03,589 --> 00:41:00,960

how right really you know we went how

1169

00:41:06,710 --> 00:41:03,599

many twelve sixty nine fifty two years

1170

00:41:08,150 --> 00:41:06,720

ago well fifty what is it i can't wet it

1171

00:41:11,430 --> 00:41:08,160

i mean i can't do quick math like that

1172

00:41:13,190 --> 00:41:11,440

but uh i think 53 years ago i guess so

1173

00:41:15,109 --> 00:41:13,200

yeah um

1174

00:41:16,150 --> 00:41:15,119

i know that that is a really bizarre

1175

00:41:18,150 --> 00:41:16,160

thing

1176

00:41:20,230 --> 00:41:18,160

isn't it you know they the computer

1177

00:41:22,230 --> 00:41:20,240

power of what they had back then was a

1178

00:41:24,950 --> 00:41:22,240

key fob on a

1179

00:41:26,790 --> 00:41:24,960

on a car today that that's how much you

1180

00:41:28,950 --> 00:41:26,800

know that's what they compare it to

1181

00:41:30,710 --> 00:41:28,960

it's really amazing if you if you really

1182

00:41:32,390 --> 00:41:30,720

think about what they had and how they

1183

00:41:35,190 --> 00:41:32,400

were able to do that it's quite it's

1184

00:41:38,150 --> 00:41:35,200

almost like a miracle it's quite amazing

1185

00:41:39,829 --> 00:41:38,160

yeah it is and what um

1186

00:41:41,510 --> 00:41:39,839

but when you get into space once you get

1187

00:41:43,990 --> 00:41:41,520

out of the atmosphere the atmosphere

1188

00:41:45,510 --> 00:41:44,000

really confuses a lot of things

1189

00:41:47,910 --> 00:41:45,520

it's difficult to deal with it but once

1190

00:41:49,109 --> 00:41:47,920

you get into space actually

1191

00:41:50,950 --> 00:41:49,119

you don't have to deal with all the

1192

00:41:52,630 --> 00:41:50,960

atmosphere stuff so lasers can work

1193

00:41:54,630 --> 00:41:52,640

really well now

1194

00:41:57,829 --> 00:41:54,640

that's one idea

1195

00:42:00,069 --> 00:41:57,839

is basically to put lasers in space

1196

00:42:02,870 --> 00:42:00,079

on satellites we can put them on like

1197

00:42:04,630 --> 00:42:02,880

make a big laser interferometer

1198

00:42:06,550 --> 00:42:04,640

uh test for gravity waves you can listen

1199

00:42:08,630 --> 00:42:06,560

for gravity waves

1200

00:42:10,790 --> 00:42:08,640

but not not you're not talking weapons

1201
00:42:12,950 --> 00:42:10,800
like laser weapons no that's the whole

1202
00:42:14,470 --> 00:42:12,960
point is that's what pisses me off you

1203
00:42:16,150 --> 00:42:14,480
know it's like all the

1204
00:42:18,150 --> 00:42:16,160
i went to these last two conferences i

1205
00:42:19,670 --> 00:42:18,160
went to a conference in lisbon and one

1206
00:42:22,790 --> 00:42:19,680
in paris for

1207
00:42:24,950 --> 00:42:22,800
uh non-fungible uh tokens so crypto you

1208
00:42:26,630 --> 00:42:24,960
know i love crypto um

1209
00:42:28,630 --> 00:42:26,640
yeah i think it's the next it is the

1210
00:42:30,950 --> 00:42:28,640
next internet web 3.0 i would bet my

1211
00:42:33,270 --> 00:42:30,960
life right now that um the decentralized

1212
00:42:35,109 --> 00:42:33,280
internet is is going to be it and it's

1213
00:42:37,430 --> 00:42:35,119

going to be blockchain technology

1214

00:42:39,430 --> 00:42:37,440

with nfts overlaid on it you know you're

1215

00:42:42,069 --> 00:42:39,440

talking a foreign language to me i'm

1216

00:42:44,150 --> 00:42:42,079

sorry i say all these things i would i

1217

00:42:46,230 --> 00:42:44,160

would like to know more about it um you

1218

00:42:47,990 --> 00:42:46,240

know i mean it would be fascinating but

1219

00:42:49,750 --> 00:42:48,000

yeah i have yeah no idea what you're

1220

00:42:51,829 --> 00:42:49,760

talking about yeah

1221

00:42:54,470 --> 00:42:51,839

he said i have heard about i've heard

1222

00:42:57,190 --> 00:42:54,480

about these auctions where some things

1223

00:42:58,470 --> 00:42:57,200

have gone at auction for crazy money and

1224

00:43:01,270 --> 00:42:58,480

and

1225

00:43:03,990 --> 00:43:01,280

was it non what's it called non-fungible

1226

00:43:08,309 --> 00:43:04,000

yeah nfts is like the buzzword it's it's

1227

00:43:10,550 --> 00:43:08,319

one small piece of the technology puzzle

1228

00:43:13,030 --> 00:43:10,560

um and it's so easy to make them and

1229

00:43:14,950 --> 00:43:13,040

sell them um that

1230

00:43:16,630 --> 00:43:14,960

basically there's a thousand ten

1231

00:43:17,910 --> 00:43:16,640

thousand projects that come up every day

1232

00:43:20,309 --> 00:43:17,920

you know and there's there's probably

1233

00:43:22,230 --> 00:43:20,319

nothing behind them actually

1234

00:43:24,870 --> 00:43:22,240

you know it's it's like a 99 it's like

1235

00:43:26,710 --> 00:43:24,880

1999 in san francisco

1236

00:43:28,550 --> 00:43:26,720

basically you have you have this new

1237

00:43:31,510 --> 00:43:28,560

technology that comes out everybody sees

1238

00:43:32,950 --> 00:43:31,520

it um understands that it's breakthrough

1239

00:43:34,790 --> 00:43:32,960

but now they're trying to find these use

1240

00:43:37,109 --> 00:43:34,800

cases for it

1241

00:43:39,030 --> 00:43:37,119

but it's it's very good it'll bring in

1242

00:43:41,750 --> 00:43:39,040

what it'll bring in is it'll vary it

1243

00:43:43,750 --> 00:43:41,760

verifies trust digitally

1244

00:43:45,430 --> 00:43:43,760

so you can verify that something's

1245

00:43:47,829 --> 00:43:45,440

digitally valid

1246

00:43:51,109 --> 00:43:47,839

um and and if you think that nobody can

1247

00:43:52,950 --> 00:43:51,119

nobody can put a virus to it or

1248

00:43:55,750 --> 00:43:52,960

change it somehow

1249

00:43:57,190 --> 00:43:55,760

so it no like i mean how secure is

1250

00:43:58,150 --> 00:43:57,200

secure

1251
00:44:00,390 --> 00:43:58,160
it's

1252
00:44:03,430 --> 00:44:00,400
more secure than anything we've had in

1253
00:44:06,950 --> 00:44:03,440
the history of humans

1254
00:44:09,030 --> 00:44:06,960
history of humans yeah wow

1255
00:44:11,349 --> 00:44:09,040
yeah we'll have to talk about that yeah

1256
00:44:13,270 --> 00:44:11,359
yeah yeah like that's the thing like

1257
00:44:14,790 --> 00:44:13,280
that's all the the mining that they're

1258
00:44:16,150 --> 00:44:14,800
using on bitcoin

1259
00:44:18,950 --> 00:44:16,160
that's

1260
00:44:20,870 --> 00:44:18,960
that is that whole network is using all

1261
00:44:23,510 --> 00:44:20,880
of its processing power so that you

1262
00:44:25,589 --> 00:44:23,520
can't defeat it and that's all it does

1263
00:44:27,109 --> 00:44:25,599

it does it does database management it's

1264

00:44:29,030 --> 00:44:27,119

just a database

1265

00:44:30,630 --> 00:44:29,040

but it it verifies the hell out of that

1266

00:44:32,390 --> 00:44:30,640

database with thousands and thousands of

1267

00:44:35,430 --> 00:44:32,400

computers all around the world so the

1268

00:44:38,230 --> 00:44:35,440

nsa can't crack it you know wow

1269

00:44:40,390 --> 00:44:38,240

wow that's nsa can't crack it well i ha

1270

00:44:41,510 --> 00:44:40,400

i had bought a like a 100 worth of

1271

00:44:42,790 --> 00:44:41,520

bitcoin

1272

00:44:48,790 --> 00:44:42,800

way back

1273

00:44:51,109 --> 00:44:48,800

enough to like it's uh astonishing what

1274

00:44:52,550 --> 00:44:51,119

happened to it you know

1275

00:44:53,670 --> 00:44:52,560

yeah do you still have it or did you

1276

00:44:55,910 --> 00:44:53,680

keep it i do

1277

00:44:58,470 --> 00:44:55,920

still have it oh cool yeah yeah

1278

00:45:00,390 --> 00:44:58,480

i haven't checked on in a long time but

1279

00:45:02,309 --> 00:45:00,400

yeah i wish i had more bitcoin yeah it

1280

00:45:03,510 --> 00:45:02,319

well it's just one form of the

1281

00:45:04,790 --> 00:45:03,520

technology

1282

00:45:06,470 --> 00:45:04,800

it's like the

1283

00:45:09,109 --> 00:45:06,480

the one trick pony you know that's all

1284

00:45:11,829 --> 00:45:09,119

it does is it burns tons of energy to

1285

00:45:14,150 --> 00:45:11,839

secure the network so that nobody can

1286

00:45:15,589 --> 00:45:14,160

can break it essentially

1287

00:45:17,589 --> 00:45:15,599

but there's many now they're making

1288

00:45:20,790 --> 00:45:17,599

hundreds of other blockchains

1289

00:45:22,150 --> 00:45:20,800

that are much faster much cheaper but

1290

00:45:23,750 --> 00:45:22,160

they don't have nearly the security

1291

00:45:25,270 --> 00:45:23,760

obviously you know that's all bitcoin

1292

00:45:27,030 --> 00:45:25,280

had it's a database you know where are

1293

00:45:28,470 --> 00:45:27,040

the ones and zeros

1294

00:45:30,630 --> 00:45:28,480

and that's it

1295

00:45:32,390 --> 00:45:30,640

that's it but now you

1296

00:45:34,069 --> 00:45:32,400

the security aspect of it what people

1297

00:45:35,910 --> 00:45:34,079

don't understand is

1298

00:45:38,870 --> 00:45:35,920

um

1299

00:45:42,150 --> 00:45:38,880

as long as you do a few simple things

1300

00:45:43,750 --> 00:45:42,160

to secure your assets it's way way safer

1301

00:45:46,390 --> 00:45:43,760

it's way more secure

1302

00:45:47,910 --> 00:45:46,400

right but like you we just don't you

1303

00:45:50,630 --> 00:45:47,920

don't know what that is yet like you

1304

00:45:51,750 --> 00:45:50,640

wouldn't send your credit card uh you

1305

00:45:53,349 --> 00:45:51,760

wouldn't send all your credit card

1306

00:45:54,950 --> 00:45:53,359

numbers to

1307

00:45:56,790 --> 00:45:54,960

somebody you don't trust

1308

00:45:58,550 --> 00:45:56,800

right along with your address you

1309

00:46:00,309 --> 00:45:58,560

wouldn't send them all the information

1310

00:46:02,230 --> 00:46:00,319

but you would send it to a vendor in

1311

00:46:04,230 --> 00:46:02,240

order to buy something

1312

00:46:05,349 --> 00:46:04,240

right so you this to you is obvious

1313

00:46:07,270 --> 00:46:05,359

you're like yeah of course i would send

1314

00:46:09,109 --> 00:46:07,280

it to that person right but but you

1315

00:46:11,430 --> 00:46:09,119

wouldn't send it to the unscrupulous

1316

00:46:12,950 --> 00:46:11,440

person so you know how what to hide you

1317

00:46:13,990 --> 00:46:12,960

know you know not to give away the three

1318

00:46:15,030 --> 00:46:14,000

little numbers on the back of your

1319

00:46:16,390 --> 00:46:15,040

credit card

1320

00:46:18,309 --> 00:46:16,400

right but try and explain that to your

1321

00:46:19,750 --> 00:46:18,319

kids it's going to take years to explain

1322

00:46:21,349 --> 00:46:19,760

the credit system

1323

00:46:23,109 --> 00:46:21,359

you know to kids

1324

00:46:24,390 --> 00:46:23,119

so it's not it's not like it's more

1325

00:46:26,470 --> 00:46:24,400

difficult

1326

00:46:28,390 --> 00:46:26,480

it's the same level of complexity it's

1327

00:46:29,910 --> 00:46:28,400

quite easy it's open source you know

1328

00:46:31,270 --> 00:46:29,920

that's why it's open source that's why

1329

00:46:34,630 --> 00:46:31,280

they can't crack it

1330

00:46:36,150 --> 00:46:34,640

um so yeah it's definitely coming um

1331

00:46:37,430 --> 00:46:36,160

yeah you already have bitcoin you have

1332

00:46:39,990 --> 00:46:37,440

more than me so you're you're on your

1333

00:46:41,750 --> 00:46:40,000

way well yeah well a little but i think

1334

00:46:43,750 --> 00:46:41,760

we can use it that's what i'm saying we

1335

00:46:44,550 --> 00:46:43,760

can use the technology

1336

00:46:46,710 --> 00:46:44,560

um

1337

00:46:49,109 --> 00:46:46,720

to to break through you know it's

1338

00:46:50,470 --> 00:46:49,119

disruptive technology it's disruptive it

1339

00:46:51,910 --> 00:46:50,480

is going to disrupt the hell out of

1340

00:46:54,150 --> 00:46:51,920

everything like i promise like it's

1341

00:46:56,550 --> 00:46:54,160

going to disrupt um so

1342

00:46:59,190 --> 00:46:56,560

i want to get in at the ground level

1343

00:47:01,270 --> 00:46:59,200

um and orient it the movement or

1344

00:47:03,190 --> 00:47:01,280

whatever towards towards science because

1345

00:47:05,109 --> 00:47:03,200

right now all i thought i didn't see any

1346

00:47:06,630 --> 00:47:05,119

there was no mention of science science

1347

00:47:08,069 --> 00:47:06,640

at the last two conferences i was at

1348

00:47:10,230 --> 00:47:08,079

there's nothing they didn't talk about

1349

00:47:11,910 --> 00:47:10,240

education they didn't talk about science

1350

00:47:15,030 --> 00:47:11,920

uh all they talked about was you know

1351
00:47:16,950 --> 00:47:15,040
finance sports play to earn

1352
00:47:19,190 --> 00:47:16,960
pay to earn games you know different

1353
00:47:20,309 --> 00:47:19,200
types of games casinos

1354
00:47:21,829 --> 00:47:20,319
you know there was

1355
00:47:24,309 --> 00:47:21,839
after a while i was like going crazy

1356
00:47:25,589 --> 00:47:24,319
like i wanted to kind of make a scene

1357
00:47:27,270 --> 00:47:25,599
you know and be like hey guys where's

1358
00:47:28,230 --> 00:47:27,280
the science but i was there as a media

1359
00:47:29,750 --> 00:47:28,240
writer

1360
00:47:31,910 --> 00:47:29,760
uh you know i didn't want to be like the

1361
00:47:33,670 --> 00:47:31,920
media guy that got in free and then just

1362
00:47:35,349 --> 00:47:33,680
starts chanting decide you know

1363
00:47:37,990 --> 00:47:35,359

decentralized science that's what i want

1364

00:47:40,230 --> 00:47:38,000

to create decide ah hey well that's

1365

00:47:41,829 --> 00:47:40,240

interesting uh this this guy makes a

1366

00:47:43,990 --> 00:47:41,839

really good point as far as stepping

1367

00:47:46,230 --> 00:47:44,000

back you know going backwards in history

1368

00:47:48,390 --> 00:47:46,240

the burning of the alexandria library

1369

00:47:50,630 --> 00:47:48,400

that was like an uh caesar's time i

1370

00:47:51,910 --> 00:47:50,640

believe like a thousand year history was

1371

00:47:53,829 --> 00:47:51,920

burned or something like that if i

1372

00:47:55,190 --> 00:47:53,839

remember right something like that but

1373

00:47:58,150 --> 00:47:55,200

uh yeah

1374

00:48:00,069 --> 00:47:58,160

that's true oh my god can you imagine so

1375

00:48:02,549 --> 00:48:00,079

uh i want to there's a question up here

1376

00:48:05,109 --> 00:48:02,559

are you aware of the 23 minute video i

1377

00:48:06,630 --> 00:48:05,119

tried to to last time i had lou on the

1378

00:48:09,190 --> 00:48:06,640

show i tried to get him to talk about

1379

00:48:10,710 --> 00:48:09,200

that did did have you spoke to him

1380

00:48:12,630 --> 00:48:10,720

anymore about that then

1381

00:48:15,030 --> 00:48:12,640

no i've only talking to lou that one

1382

00:48:16,390 --> 00:48:15,040

time you know which yeah

1383

00:48:18,309 --> 00:48:16,400

which is probably good you know because

1384

00:48:19,670 --> 00:48:18,319

he has a top secret he still has a

1385

00:48:22,069 --> 00:48:19,680

security clearance

1386

00:48:23,589 --> 00:48:22,079

and he's talking to me i don't and yeah

1387

00:48:25,829 --> 00:48:23,599

i don't know couldn't just cause issues

1388

00:48:27,990 --> 00:48:25,839

so i think he's just kind of avoided

1389

00:48:29,430 --> 00:48:28,000

you know direct online

1390

00:48:31,829 --> 00:48:29,440

yeah he hasn't

1391

00:48:33,430 --> 00:48:31,839

wait a minute i've got uh okay i've got

1392

00:48:34,790 --> 00:48:33,440

someone that needs to be booted out i

1393

00:48:36,790 --> 00:48:34,800

don't have uh

1394

00:48:38,870 --> 00:48:36,800

i don't have my

1395

00:48:40,870 --> 00:48:38,880

uh let me get this someone's trying to

1396

00:48:43,030 --> 00:48:40,880

put webcams up there

1397

00:48:46,950 --> 00:48:43,040

sorry about that everyone i i don't have

1398

00:48:49,430 --> 00:48:46,960

my uh moderator in there tonight so

1399

00:48:51,030 --> 00:48:49,440

please be kind to me um so here's

1400

00:48:52,309 --> 00:48:51,040

another question up here

1401
00:48:53,349 --> 00:48:52,319
yeah i'll answer it while you're looking

1402
00:48:55,750 --> 00:48:53,359
at it

1403
00:48:57,910 --> 00:48:55,760
let's see martin willis live shows chris

1404
00:48:59,270 --> 00:48:57,920
from jln chris mentioned the catskill's

1405
00:49:01,910 --> 00:48:59,280
book does he have a comment on the

1406
00:49:03,990 --> 00:49:01,920
connection that's discovered between uap

1407
00:49:07,510 --> 00:49:04,000
and paranormal events or the hitchhiker

1408
00:49:10,390 --> 00:49:07,520
phenomena until people experienced

1409
00:49:12,950 --> 00:49:10,400
yeah i'm going to blind frog ranch

1410
00:49:14,549 --> 00:49:12,960
you know that's in the vernal valley

1411
00:49:16,950 --> 00:49:14,559
i talked to another guy who was going

1412
00:49:18,549 --> 00:49:16,960
there and they invited me up there you

1413
00:49:20,630 --> 00:49:18,559

know and initially i was like

1414

00:49:22,069 --> 00:49:20,640

i had to think about it

1415

00:49:23,270 --> 00:49:22,079

uh and

1416

00:49:24,950 --> 00:49:23,280

where was that

1417

00:49:27,430 --> 00:49:24,960

it's in the vernal it's right next to

1418

00:49:28,630 --> 00:49:27,440

skinwalker ranch blind frog ranch when

1419

00:49:29,430 --> 00:49:28,640

are you going there when you're out

1420

00:49:31,109 --> 00:49:29,440

there

1421

00:49:33,030 --> 00:49:31,119

yeah geez i might have to make an

1422

00:49:34,950 --> 00:49:33,040

emergency trip out there i don't know if

1423

00:49:37,030 --> 00:49:34,960

you come man

1424

00:49:39,190 --> 00:49:37,040

we have to get you in

1425

00:49:41,190 --> 00:49:39,200

to meet my plus one

1426

00:49:42,150 --> 00:49:41,200

uh actually electricity is already my

1427

00:49:44,309 --> 00:49:42,160

plus one

1428

00:49:45,910 --> 00:49:44,319

yeah i'll be dragging someone along with

1429

00:49:47,829 --> 00:49:45,920

it it's pretty far from

1430

00:49:49,990 --> 00:49:47,839

from maine though it's pretty far yeah i

1431

00:49:51,829 --> 00:49:50,000

know that would be awesome i feel like i

1432

00:49:53,750 --> 00:49:51,839

feel like doing a lot of traveling

1433

00:49:55,510 --> 00:49:53,760

lately so i've been doing a lot of that

1434

00:49:57,030 --> 00:49:55,520

and i'm enjoying it a lot

1435

00:49:59,190 --> 00:49:57,040

so yeah you should come out i think it'd

1436

00:50:01,910 --> 00:49:59,200

be awesome um

1437

00:50:03,510 --> 00:50:01,920

but uh let's see i was answering uh

1438

00:50:05,510 --> 00:50:03,520

yeah hitchhiker effect

1439

00:50:08,150 --> 00:50:05,520

so i had to think about it um because

1440

00:50:10,710 --> 00:50:08,160

yeah i mean after reading that book

1441

00:50:13,430 --> 00:50:10,720

i had another partner i was working with

1442

00:50:16,470 --> 00:50:13,440

behind the scenes anonymously

1443

00:50:19,030 --> 00:50:16,480

um and he actually quit because

1444

00:50:21,270 --> 00:50:19,040

yeah he started seeing orange orbs

1445

00:50:23,990 --> 00:50:21,280

uh you know he saw him at like his work

1446

00:50:25,190 --> 00:50:24,000

and he saw him back at his house

1447

00:50:26,950 --> 00:50:25,200

and so

1448

00:50:28,549 --> 00:50:26,960

yeah i mean and then after read that

1449

00:50:30,230 --> 00:50:28,559

book you're like great you know it's

1450

00:50:32,549 --> 00:50:30,240

this contagious effect it's going to

1451

00:50:34,390 --> 00:50:32,559

affect your family

1452

00:50:36,390 --> 00:50:34,400

so yeah i think you have to consider it

1453

00:50:38,309 --> 00:50:36,400

you know if you're in this field

1454

00:50:40,710 --> 00:50:38,319

so yeah you know i mean had a i had a

1455

00:50:42,390 --> 00:50:40,720

long time researcher on i don't know a

1456

00:50:43,990 --> 00:50:42,400

few months ago and he basically said he

1457

00:50:45,109 --> 00:50:44,000

got away from this because of things

1458

00:50:47,510 --> 00:50:45,119

happening

1459

00:50:49,589 --> 00:50:47,520

and he's kind of dipping his toe back in

1460

00:50:50,630 --> 00:50:49,599

the water a little bit

1461

00:50:53,030 --> 00:50:50,640

you know

1462

00:50:55,109 --> 00:50:53,040

so um yeah

1463

00:50:56,549 --> 00:50:55,119

luckily i haven't had anything

1464

00:50:58,710 --> 00:50:56,559

i've had a few times where i thought i

1465

00:51:00,710 --> 00:50:58,720

saw a ufo but it ended up being

1466

00:51:01,990 --> 00:51:00,720

something else which is fine with me i'd

1467

00:51:06,390 --> 00:51:02,000

rather

1468

00:51:09,190 --> 00:51:06,400

you know um

1469

00:51:12,309 --> 00:51:09,200

i really don't want to i i want to be

1470

00:51:15,829 --> 00:51:12,319

darn sure that i'm seeing a ufo

1471

00:51:18,309 --> 00:51:15,839

before i say publicly i'm seeing a ufo

1472

00:51:20,549 --> 00:51:18,319

you know what i mean so and and one of

1473

00:51:23,670 --> 00:51:20,559

them i'm going to see if i kept it here

1474

00:51:25,109 --> 00:51:23,680

is so bizarre i hope i kept it on here

1475

00:51:27,349 --> 00:51:25,119

um

1476

00:51:29,910 --> 00:51:27,359

because it looks

1477

00:51:32,549 --> 00:51:29,920

it looked just exactly

1478

00:51:34,390 --> 00:51:32,559

um shoot oh yes i have it right here

1479

00:51:36,309 --> 00:51:34,400

here it goes at first when you're

1480

00:51:38,309 --> 00:51:36,319

looking at it it looks like a ufo then

1481

00:51:42,309 --> 00:51:38,319

it looks like two and this was down to

1482

00:51:44,069 --> 00:51:42,319

miami um i don't know in february

1483

00:51:45,510 --> 00:51:44,079

okay there it goes

1484

00:51:47,670 --> 00:51:45,520

you can see it kind of looks like a

1485

00:51:49,109 --> 00:51:47,680

saucer right and it's hard to see it's

1486

00:51:50,470 --> 00:51:49,119

kind of small

1487

00:51:52,790 --> 00:51:50,480

but

1488

00:51:57,349 --> 00:51:52,800

and then you start to see

1489

00:51:58,470 --> 00:51:57,359

two and about right here

1490

00:52:00,790 --> 00:51:58,480

uh

1491

00:52:04,470 --> 00:52:00,800

where'd it go okay there it comes back

1492

00:52:06,630 --> 00:52:04,480

as two you can see the two right there

1493

00:52:09,349 --> 00:52:06,640

um barely see

1494

00:52:12,710 --> 00:52:09,359

two but anyway that ended up being a

1495

00:52:15,670 --> 00:52:12,720

plane pulling a banner behind it

1496

00:52:17,190 --> 00:52:15,680

and it was just the angles of it turning

1497

00:52:19,349 --> 00:52:17,200

and that's why for a while it looked

1498

00:52:23,190 --> 00:52:19,359

like two ufos

1499

00:52:25,990 --> 00:52:23,200

so and that was i mean i i got uh

1500

00:52:27,670 --> 00:52:26,000

in miami up on this ship and i'm looking

1501
00:52:30,470 --> 00:52:27,680
out and i said oh my god i'm here two

1502
00:52:33,030 --> 00:52:30,480
minutes and i'm seeing a ufo

1503
00:52:34,549 --> 00:52:33,040
and uh but i really don't want to come

1504
00:52:36,470 --> 00:52:34,559
out and say that i

1505
00:52:38,309 --> 00:52:36,480
you know i want to be i i feel like

1506
00:52:40,069 --> 00:52:38,319
there's a credibility factor here and i

1507
00:52:41,990 --> 00:52:40,079
really don't want to

1508
00:52:44,150 --> 00:52:42,000
go down the road of uh

1509
00:52:46,230 --> 00:52:44,160
saying i'm seeing ufo when it can be

1510
00:52:48,790 --> 00:52:46,240
explained i'd rather it be explained if

1511
00:52:53,589 --> 00:52:50,870
and what if it's ufo though would you

1512
00:52:54,470 --> 00:52:53,599
would you be happy you filmed it

1513
00:52:57,190 --> 00:52:54,480

uh

1514

00:53:00,470 --> 00:52:57,200

if i was absolutely unable to

1515

00:53:02,150 --> 00:53:00,480

um you know say what it was uh and then

1516

00:53:04,790 --> 00:53:02,160

nobody else could help me with it like

1517

00:53:06,549 --> 00:53:04,800

uh there's mark d'antonio from mufon

1518

00:53:09,109 --> 00:53:06,559

he's a video analyst

1519

00:53:11,190 --> 00:53:09,119

uh for a mufon and he helps me quite a

1520

00:53:14,870 --> 00:53:11,200

bit i had another experience

1521

00:53:17,030 --> 00:53:14,880

um when i thought for sure i was seeing

1522

00:53:18,870 --> 00:53:17,040

something crazy and

1523

00:53:20,950 --> 00:53:18,880

he said it looks like it could be a

1524

00:53:22,790 --> 00:53:20,960

drone even though there was high winds

1525

00:53:25,750 --> 00:53:22,800

or whatever it looked like it could be a

1526

00:53:28,630 --> 00:53:25,760

drone and i totally agree it's i have

1527

00:53:29,910 --> 00:53:28,640

really put that in the drone category so

1528

00:53:31,829 --> 00:53:29,920

um yeah

1529

00:53:33,829 --> 00:53:31,839

if something is complete i mean i would

1530

00:53:36,390 --> 00:53:33,839

love to see when i'm always looking the

1531

00:53:38,309 --> 00:53:36,400

the one thing my first sighting has done

1532

00:53:40,230 --> 00:53:38,319

for me it keeps me looking in the sky

1533

00:53:41,670 --> 00:53:40,240

all the time i'm always looking up

1534

00:53:42,710 --> 00:53:41,680

you know other people may be looking at

1535

00:53:45,750 --> 00:53:42,720

their phone

1536

00:53:46,710 --> 00:53:45,760

but i'm looking up a lot of the time and

1537

00:53:50,710 --> 00:53:46,720

uh

1538

00:53:53,030 --> 00:53:50,720

it's it is kind of interesting with

1539

00:53:54,790 --> 00:53:53,040

uh you know the comment you hear a lot

1540

00:53:56,630 --> 00:53:54,800

out there is okay how come we don't

1541

00:53:59,430 --> 00:53:56,640

really have any really good videos if

1542

00:54:00,710 --> 00:53:59,440

there's nine billion phones out there i

1543

00:54:02,309 --> 00:54:00,720

don't know if there's that many but

1544

00:54:05,190 --> 00:54:02,319

there's quite a few

1545

00:54:07,510 --> 00:54:05,200

so or can i share my screen oh please do

1546

00:54:08,630 --> 00:54:07,520

yes i saw you were doing something

1547

00:54:11,349 --> 00:54:08,640

yeah have you

1548

00:54:13,190 --> 00:54:11,359

uh do you know about sky 360

1549

00:54:15,589 --> 00:54:13,200

i do not

1550

00:54:17,349 --> 00:54:15,599

okay cool this is um

1551
00:54:19,349 --> 00:54:17,359
this is one of the companies we're

1552
00:54:21,030 --> 00:54:19,359
partnering with so this is are you

1553
00:54:22,230 --> 00:54:21,040
talking about your your the thing that

1554
00:54:23,510 --> 00:54:22,240
you're doing now

1555
00:54:25,990 --> 00:54:23,520
yeah the thing i'm not supposed to talk

1556
00:54:27,589 --> 00:54:26,000
a lot about right

1557
00:54:30,790 --> 00:54:27,599
but i will because i think it's

1558
00:54:32,630 --> 00:54:30,800
important um this is sky360.org

1559
00:54:36,390 --> 00:54:32,640
it's citizen science

1560
00:54:38,390 --> 00:54:36,400
out of austria so it's non-profit

1561
00:54:40,309 --> 00:54:38,400
um and so basically

1562
00:54:42,870 --> 00:54:40,319
what they want to do is put up these

1563
00:54:48,390 --> 00:54:42,880

camera systems

1564

00:54:50,309 --> 00:54:48,400

the globe the goal is 150 000 systems

1565

00:54:53,270 --> 00:54:50,319

around around the world

1566

00:54:55,750 --> 00:54:53,280

wow um and basically

1567

00:54:58,230 --> 00:54:55,760

this is just the initial so this is a

1568

00:54:59,349 --> 00:54:58,240

fish-eye lens you see this is all the way

1569

00:55:00,549 --> 00:54:59,359

around

1570

00:55:02,150 --> 00:55:00,559

oh so

1571

00:55:03,430 --> 00:55:02,160

is that why we're seeing like the cloud

1572

00:55:06,230 --> 00:55:03,440

in a curvature

1573

00:55:08,950 --> 00:55:06,240

yep so this is one fish-eye lens you know

1574

00:55:10,069 --> 00:55:08,960

it sees the whole sky

1575

00:55:12,630 --> 00:55:10,079

yep

1576

00:55:14,309 --> 00:55:12,640

and the goal and i'll just play this

1577

00:55:16,870 --> 00:55:14,319

here you'll see there's the uap here

1578

00:55:19,109 --> 00:55:16,880

this is from one in houston

1579

00:55:22,549 --> 00:55:19,119

on this date

1580

00:55:24,870 --> 00:55:22,559

um and you'll see it stops here right

1581

00:55:28,150 --> 00:55:24,880

and then it'll it'll start moving again

1582

00:55:32,390 --> 00:55:29,990

so this was uh

1583

00:55:35,510 --> 00:55:32,400

now for those of you listening to audio

1584

00:55:37,430 --> 00:55:35,520

um i uh chris if you would send me the

1585

00:55:41,230 --> 00:55:37,440

link to this website and i'll put this

1586

00:55:48,470 --> 00:55:45,109

sky360.org.org okay sky360.org

1587

00:55:51,349 --> 00:55:48,480

for those of you listening audio uh

1588

00:55:54,470 --> 00:55:51,359

yeah so in that in that this one

1589

00:55:58,549 --> 00:55:56,789

what type of uh backup systems do they

1590

00:55:59,910 --> 00:55:58,559

have as far as

1591

00:56:03,510 --> 00:55:59,920

other things that this could be

1592

00:56:05,430 --> 00:56:03,520

explained to explain to be

1593

00:56:07,670 --> 00:56:05,440

do they have i mean the only thing i can

1594

00:56:11,670 --> 00:56:07,680

think of is that it's some sort of drone

1595

00:56:13,750 --> 00:56:11,680

you know because if it's in space um

1596

00:56:15,190 --> 00:56:13,760

you know it how does it stop and then

1597

00:56:16,950 --> 00:56:15,200

start moving again in space i don't

1598

00:56:18,230 --> 00:56:16,960

understand that

1599

00:56:20,390 --> 00:56:18,240

um

1600

00:56:22,230 --> 00:56:20,400

oh this is in space actually

1601
00:56:24,150 --> 00:56:22,240
no no so we don't know how far away it

1602
00:56:26,230 --> 00:56:24,160
is that's the problem so i'll go back so

1603
00:56:27,829 --> 00:56:26,240
this is basically in houston you have an

1604
00:56:29,589 --> 00:56:27,839
enclosure and maybe i'll just go back

1605
00:56:30,470 --> 00:56:29,599
here and explain a little bit

1606
00:56:33,030 --> 00:56:30,480
all right

1607
00:56:36,710 --> 00:56:33,040
i can get out of this full-size

1608
00:56:38,630 --> 00:56:36,720
yep if we have an enclosure here

1609
00:56:40,710 --> 00:56:38,640
this thing all right

1610
00:56:42,950 --> 00:56:40,720
so this is one in one enclosure they're

1611
00:56:44,870 --> 00:56:42,960
trying to put 150 000 of these around

1612
00:56:46,710 --> 00:56:44,880
the world so wow we're designing them

1613
00:56:48,150 --> 00:56:46,720

now yeah i'm i've been working with them

1614

00:56:50,549 --> 00:56:48,160

richard hoff

1615

00:56:51,910 --> 00:56:50,559

i interviewed them on my channel and so

1616

00:56:53,589 --> 00:56:51,920

what we're seeing here is that is a

1617

00:56:54,870 --> 00:56:53,599

fisheye

1618

00:56:57,349 --> 00:56:54,880

uh image

1619

00:56:59,510 --> 00:56:57,359

it's called material out of this

1620

00:57:02,230 --> 00:56:59,520

right and what what needs to happen is

1621

00:57:04,950 --> 00:57:02,240

to train the ai using that material you

1622

00:57:07,589 --> 00:57:04,960

just saw and that'll that'll lead in

1623

00:57:10,390 --> 00:57:07,599

this point to zoom this is a spin around

1624

00:57:11,349 --> 00:57:10,400

zoom in camera right so this will zoom

1625

00:57:13,349 --> 00:57:11,359

in

1626
00:57:15,589 --> 00:57:13,359
and get that hd

1627
00:57:16,870 --> 00:57:15,599
video that everybody's talking about you

1628
00:57:19,430 --> 00:57:16,880
know

1629
00:57:21,670 --> 00:57:19,440
and so the idea is it's

1630
00:57:23,990 --> 00:57:21,680
you put this system out it's designed to

1631
00:57:24,829 --> 00:57:24,000
be able to see the iss

1632
00:57:27,910 --> 00:57:24,839
up

1633
00:57:32,390 --> 00:57:27,920
here and then

1634
00:57:37,750 --> 00:57:35,109
like i just showed you right

1635
00:57:40,390 --> 00:57:37,760
yep it'll see something weird

1636
00:57:42,230 --> 00:57:40,400
and the ai will say hey

1637
00:57:45,349 --> 00:57:42,240
look over here and the other camera will

1638
00:57:48,549 --> 00:57:45,359

zoom in and zoom in on this thing

1639

00:57:50,470 --> 00:57:48,559

um and so the the the strength will be

1640

00:57:52,549 --> 00:57:50,480

first you get that hd image right and

1641

00:57:54,950 --> 00:57:52,559

this this should be doing it all all the

1642

00:57:57,829 --> 00:57:54,960

time you know 24 7.

1643

00:57:59,430 --> 00:57:57,839

but if we get two two or more systems in

1644

00:58:01,750 --> 00:57:59,440

houston for instance if you put another

1645

00:58:02,630 --> 00:58:01,760

system in houston now we can triangulate

1646

00:58:04,710 --> 00:58:02,640

this

1647

00:58:06,950 --> 00:58:04,720

would you need a road

1648

00:58:09,349 --> 00:58:06,960

two systems or three systems

1649

00:58:12,230 --> 00:58:09,359

well to triangulate just like your eyes

1650

00:58:14,789 --> 00:58:12,240

you need two i see but if we get three

1651
00:58:17,910 --> 00:58:14,799
it's just gonna make the solution better

1652
00:58:20,069 --> 00:58:17,920
now what about the uh inclement weather

1653
00:58:21,670 --> 00:58:20,079
and the fisheye lens and all that how

1654
00:58:22,789 --> 00:58:21,680
does that yeah so that you're always

1655
00:58:25,430 --> 00:58:22,799
going to have those issues you know

1656
00:58:27,510 --> 00:58:25,440
you're going to have to deal with clouds

1657
00:58:29,990 --> 00:58:27,520
but i'm talking about what about snow

1658
00:58:32,549 --> 00:58:30,000
rain heavy rain things like that i mean

1659
00:58:34,789 --> 00:58:32,559
exactly that well that's why so what we

1660
00:58:36,870 --> 00:58:34,799
would do is is basically get interested

1661
00:58:39,349 --> 00:58:36,880
people right so interested people

1662
00:58:41,510 --> 00:58:39,359
universities uap groups those types of

1663
00:58:43,670 --> 00:58:41,520

things around the world

1664

00:58:46,230 --> 00:58:43,680

that want to put these systems together

1665

00:58:48,870 --> 00:58:46,240

and monitor them you know knock the snow

1666

00:58:51,829 --> 00:58:48,880

off basically care for them

1667

00:58:54,309 --> 00:58:51,839

um but the idea is we would provide the

1668

00:58:55,910 --> 00:58:54,319

funding at least for some of these

1669

00:58:57,990 --> 00:58:55,920

you know for as many as for as many as

1670

00:59:01,030 --> 00:58:58,000

we can like if there's a uap community

1671

00:59:03,109 --> 00:59:01,040

in in la you know a uap group and

1672

00:59:05,510 --> 00:59:03,119

they're like we'll put out five

1673

00:59:07,750 --> 00:59:05,520

give us you know twenty five thousand

1674

00:59:10,630 --> 00:59:07,760

dollars and we can put up five of these

1675

00:59:13,430 --> 00:59:10,640

systems now we can cover all of la you

1676
00:59:14,950 --> 00:59:13,440
know we cover all of la uh with nine

1677
00:59:17,510 --> 00:59:14,960
systems i believe

1678
00:59:19,750 --> 00:59:17,520
now tell me will this have a central

1679
00:59:20,870 --> 00:59:19,760
uh accessibility

1680
00:59:23,030 --> 00:59:20,880
um

1681
00:59:26,069 --> 00:59:23,040
for so anyone can can

1682
00:59:28,309 --> 00:59:26,079
is this another open situation

1683
00:59:29,430 --> 00:59:28,319
yeah it's non-nonprofit so basically the

1684
00:59:31,750 --> 00:59:29,440
hardware

1685
00:59:33,910 --> 00:59:31,760
uh right now they're developing the the

1686
00:59:35,990 --> 00:59:33,920
hardware that you can order

1687
00:59:38,789 --> 00:59:36,000
and you just order it on

1688
00:59:40,390 --> 00:59:38,799

amazon global

1689

00:59:42,710 --> 00:59:40,400

and then you develop and then you

1690

00:59:45,589 --> 00:59:42,720

download the software which is

1691

00:59:47,430 --> 00:59:45,599

right now is being developed on for free

1692

00:59:49,190 --> 00:59:47,440

on github

1693

00:59:52,069 --> 00:59:49,200

but that's really what we need is we

1694

00:59:53,430 --> 00:59:52,079

need the software ai uh

1695

00:59:55,109 --> 00:59:53,440

integration

1696

00:59:56,549 --> 00:59:55,119

yeah there's a number of people that

1697

00:59:57,349 --> 00:59:56,559

have been trying to do this sort of

1698

00:59:59,430 --> 00:59:57,359

thing

1699

01:00:01,910 --> 00:59:59,440

you know my friend chris o'brien has

1700

01:00:05,030 --> 01:00:01,920

been working on something like this

1701

01:00:07,190 --> 01:00:05,040

is it bob skyhub is uh no that's um i

1702

01:00:08,230 --> 01:00:07,200

know who you're you're thinking of

1703

01:00:11,030 --> 01:00:08,240

um

1704

01:00:14,309 --> 01:00:11,040

uh two or three times i'm trying to

1705

01:00:15,750 --> 01:00:14,319

think okay his name's uh escaping me

1706

01:00:19,910 --> 01:00:15,760

right now i can't can't remember who it

1707

01:00:21,589 --> 01:00:19,920

is but uh a great great guy i there's uh

1708

01:00:23,990 --> 01:00:21,599

three or four people that i know that

1709

01:00:26,549 --> 01:00:24,000

are involved in that one i'm not sure

1710

01:00:29,190 --> 01:00:26,559

what chris o'brien's is called also mark

1711

01:00:30,309 --> 01:00:29,200

d'antonio who i mentioned earlier is a

1712

01:00:33,349 --> 01:00:30,319

mufon

1713

01:00:35,109 --> 01:00:33,359

you know uh video analyst he has one

1714

01:00:37,589 --> 01:00:35,119

he's been working on

1715

01:00:38,789 --> 01:00:37,599

for uh quite a few years

1716

01:00:40,870 --> 01:00:38,799

um so

1717

01:00:42,789 --> 01:00:40,880

uh all all really you know i mean the

1718

01:00:44,950 --> 01:00:42,799

more the better as far as i'm concerned

1719

01:00:45,750 --> 01:00:44,960

you're talking 150 000 of these out

1720

01:00:47,589 --> 01:00:45,760

there

1721

01:00:49,829 --> 01:00:47,599

that's what he's aiming for yeah that's

1722

01:00:51,430 --> 01:00:49,839

richard's aiming for it's awesome um

1723

01:00:54,549 --> 01:00:51,440

we're going to well the idea is

1724

01:00:57,109 --> 01:00:54,559

yeah you can do it at your house um he's

1725

01:00:59,510 --> 01:00:57,119

right now they're developing it up to

1726

01:01:01,510 --> 01:00:59,520

it's one to five thousand dollars

1727

01:01:03,349 --> 01:01:01,520

you know so let's say you you want to do

1728

01:01:04,950 --> 01:01:03,359

it for a thousand dollars

1729

01:01:07,910 --> 01:01:04,960

you could buy the lower system but it's

1730

01:01:10,470 --> 01:01:07,920

much harder to to design a system

1731

01:01:11,829 --> 01:01:10,480

that works at a thousand dollars um so

1732

01:01:13,750 --> 01:01:11,839

right now you know i think they're

1733

01:01:15,589 --> 01:01:13,760

working on the five thousand dollar

1734

01:01:17,270 --> 01:01:15,599

system and then once that fully

1735

01:01:18,870 --> 01:01:17,280

developed with the software now they can

1736

01:01:21,589 --> 01:01:18,880

upload it um

1737

01:01:23,829 --> 01:01:21,599

yeah so i just one last thing is as you

1738

01:01:25,670 --> 01:01:23,839

notice here this is developed this whole

1739

01:01:27,430 --> 01:01:25,680

these systems here right so now they can

1740

01:01:30,150 --> 01:01:27,440

triangulate

1741

01:01:33,109 --> 01:01:30,160

are developed to be able to see the iss

1742

01:01:34,789 --> 01:01:33,119

just to as a benchmark

1743

01:01:36,950 --> 01:01:34,799

so what you can do is if you have a

1744

01:01:39,109 --> 01:01:36,960

system already developed here you can

1745

01:01:40,470 --> 01:01:39,119

turn it around and put it somewhere into

1746

01:01:42,710 --> 01:01:40,480

a satellite

1747

01:01:46,230 --> 01:01:42,720

and now you can do it from the other

1748

01:01:47,670 --> 01:01:46,240

side right it should all be

1749

01:01:49,270 --> 01:01:47,680

at least the hardware should work the

1750

01:01:51,750 --> 01:01:49,280

problem is the software because now we

1751
01:01:53,430 --> 01:01:51,760
need new material because your material

1752
01:01:55,589 --> 01:01:53,440
that you're looking at you need to train

1753
01:01:57,270 --> 01:01:55,599
your ai against is not just open sky

1754
01:01:59,829 --> 01:01:57,280
with a few clouds you know now it's like

1755
01:02:01,349 --> 01:01:59,839
the ground you have tons of different

1756
01:02:02,870 --> 01:02:01,359
it's a whole different ball game to deal

1757
01:02:04,950 --> 01:02:02,880
with looking down

1758
01:02:07,029 --> 01:02:04,960
um right but you know maybe we just aim

1759
01:02:09,029 --> 01:02:07,039
it maybe we aim it straight out you know

1760
01:02:11,589 --> 01:02:09,039
maybe we're not we don't need to look

1761
01:02:13,829 --> 01:02:11,599
down you know maybe we're gonna orient

1762
01:02:15,510 --> 01:02:13,839
it so it's looking um

1763
01:02:17,029 --> 01:02:15,520

for any uaps entering the atmosphere or

1764

01:02:19,510 --> 01:02:17,039

something

1765

01:02:22,309 --> 01:02:19,520

i see so um so

1766

01:02:23,349 --> 01:02:22,319

is it is does this thing have like a a

1767

01:02:26,630 --> 01:02:23,359

motion

1768

01:02:29,430 --> 01:02:26,640

activation or is it on all the time

1769

01:02:31,109 --> 01:02:29,440

yeah so the idea is it's on all the time

1770

01:02:33,029 --> 01:02:31,119

running this um

1771

01:02:35,029 --> 01:02:33,039

like you saw that image you saw this is

1772

01:02:37,430 --> 01:02:35,039

searching all the time right it's a

1773

01:02:39,910 --> 01:02:37,440

night vision camera it's near ir you

1774

01:02:41,510 --> 01:02:39,920

know it's not it's uh it can see in the

1775

01:02:44,309 --> 01:02:41,520

day and night

1776

01:02:46,309 --> 01:02:44,319

um and then the ai is really important

1777

01:02:47,910 --> 01:02:46,319

just to say hey where does it need to

1778

01:02:50,309 --> 01:02:47,920

look because there's always some there's

1779

01:02:51,910 --> 01:02:50,319

birds there's bugs you know inspects

1780

01:02:52,870 --> 01:02:51,920

always flying across like all the things

1781

01:02:54,230 --> 01:02:52,880

you have to worry about when you're

1782

01:02:57,109 --> 01:02:54,240

analyzing a video you know what would

1783

01:02:59,750 --> 01:02:57,119

mick west say this is um so you have to

1784

01:03:00,789 --> 01:02:59,760

analyze that out but it will point out

1785

01:03:03,109 --> 01:03:00,799

to this

1786

01:03:05,670 --> 01:03:03,119

and this has a spinning mechanism in

1787

01:03:08,549 --> 01:03:05,680

here okay it's like this uh designed

1788

01:03:10,069 --> 01:03:08,559

engineer it can spin fully constantly if

1789

01:03:11,829 --> 01:03:10,079

it needs to right you don't want to spin

1790

01:03:14,390 --> 01:03:11,839

it all the time obviously

1791

01:03:15,270 --> 01:03:14,400

but it will spin and then it has a zoom

1792

01:03:16,950 --> 01:03:15,280

in

1793

01:03:19,430 --> 01:03:16,960

zoom camera now

1794

01:03:20,470 --> 01:03:19,440

that can zoom in and get us like the hd

1795

01:03:22,870 --> 01:03:20,480

video

1796

01:03:27,109 --> 01:03:22,880

um that we want this is that's the whole

1797

01:03:32,630 --> 01:03:28,630

yeah no no i think that i think it's

1798

01:03:34,870 --> 01:03:32,640

actually a a really good idea now i had

1799

01:03:38,630 --> 01:03:34,880

someone on the show way back

1800

01:03:40,870 --> 01:03:38,640

at some point that was talking about uh

1801

01:03:43,109 --> 01:03:40,880

the cubesat launch

1802

01:03:45,750 --> 01:03:43,119

and people investing in that have you

1803

01:03:49,430 --> 01:03:45,760

ever heard about that whole situation

1804

01:03:52,069 --> 01:03:49,440

that's i kind of in in uh and talks

1805

01:03:54,390 --> 01:03:52,079

about that you know we're researching it

1806

01:03:55,910 --> 01:03:54,400

yep it costs around 350 000 to launch a

1807

01:03:58,470 --> 01:03:55,920

cubesat

1808

01:04:00,789 --> 01:03:58,480

you can also buy little you don't you

1809

01:04:02,549 --> 01:04:00,799

can get on larger satellites

1810

01:04:03,990 --> 01:04:02,559

that you can just rent like a little

1811

01:04:06,549 --> 01:04:04,000

spot you know

1812

01:04:08,309 --> 01:04:06,559

you can rent the looking down or

1813

01:04:10,150 --> 01:04:08,319

looking up

1814

01:04:11,270 --> 01:04:10,160

you can actually rent space on a

1815

01:04:13,910 --> 01:04:11,280

satellite

1816

01:04:18,470 --> 01:04:15,670

that seems actually really good that

1817

01:04:20,710 --> 01:04:18,480

seems like a really good idea

1818

01:04:23,109 --> 01:04:20,720

that if someone if someone can train i

1819

01:04:24,470 --> 01:04:23,119

don't know if these things are stable or

1820

01:04:26,710 --> 01:04:24,480

if they rotate

1821

01:04:28,950 --> 01:04:26,720

but um it seems like

1822

01:04:30,630 --> 01:04:28,960

you could put some equipment on

1823

01:04:31,910 --> 01:04:30,640

um that would

1824

01:04:34,789 --> 01:04:31,920

really

1825

01:04:37,270 --> 01:04:34,799

get some information it would seem

1826

01:04:40,710 --> 01:04:37,280

yeah i mean these are so this is real

1827

01:04:42,549 --> 01:04:40,720

uaps you know captured by these uh by

1828

01:04:44,870 --> 01:04:42,559

this site

1829

01:04:47,109 --> 01:04:44,880

you know if you imagine we have just if

1830

01:04:49,349 --> 01:04:47,119

we just had one more

1831

01:04:51,589 --> 01:04:49,359

you know in houston at that time and

1832

01:04:52,950 --> 01:04:51,599

then we can correlate so the point is if

1833

01:04:54,710 --> 01:04:52,960

you put out one of these systems right

1834

01:04:55,589 --> 01:04:54,720

if we send the money

1835

01:04:57,670 --> 01:04:55,599

um

1836

01:05:00,069 --> 01:04:57,680

then you have to put it on the system it

1837

01:05:01,589 --> 01:05:00,079

has to be open source you know

1838

01:05:03,430 --> 01:05:01,599

and so

1839

01:05:06,230 --> 01:05:03,440

it will we can correlate it and now we

1840

01:05:07,589 --> 01:05:06,240

could say how far away this is

1841

01:05:10,150 --> 01:05:07,599

right because the problem is i can't

1842

01:05:12,069 --> 01:05:10,160

tell you it could be a drone maybe

1843

01:05:13,910 --> 01:05:12,079

you know a few thousand feet up just

1844

01:05:14,789 --> 01:05:13,920

blinking drone somebody putting it out

1845

01:05:15,670 --> 01:05:14,799

there

1846

01:05:17,990 --> 01:05:15,680

um

1847

01:05:20,069 --> 01:05:18,000

or it could be you know if it's 10 miles

1848

01:05:22,870 --> 01:05:20,079

away now that makes a big difference

1849

01:05:25,750 --> 01:05:22,880

right how high this thing is so this

1850

01:05:28,710 --> 01:05:25,760

this uh circle that i'm looking at how

1851

01:05:31,109 --> 01:05:28,720

many miles would you say that is in and

1852

01:05:33,109 --> 01:05:31,119

this is the moon i think right that's

1853

01:05:36,069 --> 01:05:33,119

like the moon there's venus you know so

1854

01:05:37,349 --> 01:05:36,079

this is there's a building here and then

1855

01:05:39,109 --> 01:05:37,359

it looks all the way over so you're

1856

01:05:41,270 --> 01:05:39,119

looking at the whole sky right now the

1857

01:05:43,349 --> 01:05:41,280

whole sky looking at the whole sky like

1858

01:05:44,950 --> 01:05:43,359

if you were if you were there yourself

1859

01:05:45,990 --> 01:05:44,960

looking up you're looking at the entire

1860

01:05:47,990 --> 01:05:46,000

sky

1861

01:05:49,270 --> 01:05:48,000

yeah through like a fisheye lens you

1862

01:05:51,029 --> 01:05:49,280

know what a fisheye lens yeah like

1863

01:05:52,549 --> 01:05:51,039

here's a crane yeah so i can see the

1864

01:05:54,789 --> 01:05:52,559

right side there's some you know there's

1865

01:05:56,710 --> 01:05:54,799

a storm over here going on and i can see

1866

01:05:57,670 --> 01:05:56,720

the left side where that uap thing just

1867

01:05:59,910 --> 01:05:57,680

flew

1868

01:06:01,109 --> 01:05:59,920

yeah so you can see the whole sky here

1869

01:06:02,710 --> 01:06:01,119

the problem is

1870

01:06:04,549 --> 01:06:02,720

is you can't really break out any

1871

01:06:06,950 --> 01:06:04,559

details you know yes

1872

01:06:08,710 --> 01:06:06,960

because your sensor it's all related to

1873

01:06:10,230 --> 01:06:08,720

the optics which really relates down to

1874

01:06:11,670 --> 01:06:10,240

the sensor size

1875

01:06:14,230 --> 01:06:11,680

and we don't really have any good

1876

01:06:16,789 --> 01:06:14,240

infrared sensor technology just because

1877

01:06:18,470 --> 01:06:16,799

it's not so popular um you know

1878

01:06:20,069 --> 01:06:18,480

we have much better optical cameras

1879

01:06:22,150 --> 01:06:20,079

because we make millions and millions of

1880

01:06:24,390 --> 01:06:22,160

them for our cell phones and our cameras

1881

01:06:26,390 --> 01:06:24,400

and everything but infrared sensors are

1882

01:06:28,390 --> 01:06:26,400

very are very hard to get

1883

01:06:30,390 --> 01:06:28,400

so that's why they're really expensive i

1884

01:06:32,710 --> 01:06:30,400

could almost foresee a second generation

1885

01:06:36,230 --> 01:06:32,720

or third generation of something like

1886

01:06:39,190 --> 01:06:36,240

this having a single camera with a

1887

01:06:41,349 --> 01:06:39,200

telephoto lens that would focus in ai

1888

01:06:43,829 --> 01:06:41,359

into a moving object

1889

01:06:48,069 --> 01:06:43,839

that that's it yeah that's our

1890

01:06:49,910 --> 01:06:48,079

that's the idea so this basically the ai

1891

01:06:52,470 --> 01:06:49,920

right that we're that we that we need to

1892

01:06:54,549 --> 01:06:52,480

train using this material

1893

01:06:55,510 --> 01:06:54,559

you would say okay ignore this it's the

1894

01:06:58,069 --> 01:06:55,520

moon

1895

01:06:59,190 --> 01:06:58,079

you know uh ignore this because it is

1896

01:07:02,309 --> 01:06:59,200

clouds

1897

01:07:04,069 --> 01:07:02,319

right but now this

1898

01:07:06,789 --> 01:07:04,079

is something weird

1899

01:07:08,549 --> 01:07:06,799

so we can't identify that so zoom in on

1900

01:07:10,789 --> 01:07:08,559

this and that's where it would tell the

1901

01:07:13,109 --> 01:07:10,799

zoom camera look at this angle you know

1902

01:07:14,950 --> 01:07:13,119

this azimuth this elevation

1903

01:07:15,829 --> 01:07:14,960

um and it would track it

1904

01:07:19,589 --> 01:07:15,839

yeah

1905

01:07:21,750 --> 01:07:19,599

that could be super powerful and and

1906

01:07:23,910 --> 01:07:21,760

that's just yeah

1907

01:07:26,230 --> 01:07:23,920

this is the first generation so we we

1908

01:07:29,430 --> 01:07:26,240

just uh keep keep improving it until we

1909

01:07:31,270 --> 01:07:29,440

find the truth yeah

1910

01:07:33,190 --> 01:07:31,280

or until we get at least we can get more

1911

01:07:34,470 --> 01:07:33,200

evidence i think everyone whether

1912

01:07:37,109 --> 01:07:34,480

however you look at it we can get more

1913

01:07:39,270 --> 01:07:37,119

evidence and for these systems now

1914

01:07:41,190 --> 01:07:39,280

in order to identify something

1915

01:07:42,870 --> 01:07:41,200

um or in order to call something

1916

01:07:45,910 --> 01:07:42,880

unidentified you have to try and

1917

01:07:47,670 --> 01:07:45,920

identify it as everything else right

1918

01:07:49,430 --> 01:07:47,680

um so you can use these systems for

1919

01:07:51,190 --> 01:07:49,440

regular science

1920

01:07:53,190 --> 01:07:51,200

right you can use it for to track bird

1921

01:07:55,750 --> 01:07:53,200

migrations if that's what you're into or

1922

01:07:58,710 --> 01:07:55,760

you want to track star you know meteors

1923

01:07:59,910 --> 01:07:58,720

you can track uh meteor impacts

1924

01:08:01,990 --> 01:07:59,920

um so

1925

01:08:03,309 --> 01:08:02,000

we can get a lot of other data for this

1926

01:08:06,470 --> 01:08:03,319

you know the actual

1927

01:08:08,950 --> 01:08:06,480

sky360.org is for citizen science

1928

01:08:10,870 --> 01:08:08,960

um but ultimately it's towards finding

1929

01:08:12,390 --> 01:08:10,880

unidentified aerial phenomena is i you

1930

01:08:14,309 --> 01:08:12,400

know i know richard i think he's

1931

01:08:15,829 --> 01:08:14,319

organized towards that but in order to

1932

01:08:17,189 --> 01:08:15,839

do that you need to get all this other

1933

01:08:18,470 --> 01:08:17,199

science

1934

01:08:19,669 --> 01:08:18,480

so we can still use it still be

1935

01:08:20,550 --> 01:08:19,679

beneficial

1936

01:08:22,229 --> 01:08:20,560

yeah

1937

01:08:24,550 --> 01:08:22,239

i you know you have to go

1938

01:08:26,870 --> 01:08:24,560

along the lines of guilty until proven

1939

01:08:29,030 --> 01:08:26,880

innocent and innocent would only mean

1940

01:08:32,309 --> 01:08:29,040

that it's unidentified you know you have

1941

01:08:34,070 --> 01:08:32,319

to look constantly try to play devil's

1942

01:08:36,229 --> 01:08:34,080

advocate of every which way of what it

1943

01:08:38,950 --> 01:08:36,239

is now when i'm looking at this i'm

1944

01:08:40,789 --> 01:08:38,960

seeing a steady flashing light which

1945

01:08:42,630 --> 01:08:40,799

would make me think that

1946

01:08:44,149 --> 01:08:42,640

you know unless this is doing really

1947

01:08:47,990 --> 01:08:44,159

strange maneuvers

1948

01:08:49,990 --> 01:08:48,000

that it's probably some type of uh

1949

01:08:52,309 --> 01:08:50,000

either aircraft or

1950

01:08:53,829 --> 01:08:52,319

like you said drone something like that

1951

01:08:55,430 --> 01:08:53,839

um

1952

01:08:58,709 --> 01:08:55,440

you see the way that light is strobing

1953

01:09:00,630 --> 01:08:58,719

isn't that typical for an aircraft

1954

01:09:02,630 --> 01:09:00,640

yeah there's another i think earlier in

1955

01:09:04,550 --> 01:09:02,640

this this one there is an aircraft if

1956

01:09:06,630 --> 01:09:04,560

you look there's one here

1957

01:09:09,669 --> 01:09:06,640

this is a aircraft

1958

01:09:10,470 --> 01:09:09,679

oh i see wow it looks a lot bigger

1959

01:09:15,189 --> 01:09:10,480

yeah

1960

01:09:17,110 --> 01:09:15,199

huh

1961

01:09:18,309 --> 01:09:17,120

interesting wow

1962

01:09:20,390 --> 01:09:18,319

yeah

1963

01:09:22,309 --> 01:09:20,400

well i wish uh that

1964

01:09:24,550 --> 01:09:22,319

that's that's another interesting

1965

01:09:26,229 --> 01:09:24,560

thought and i think one of the things

1966

01:09:28,789 --> 01:09:26,239

that would really help this

1967

01:09:31,269 --> 01:09:28,799

um compared to other situations that

1968

01:09:33,430 --> 01:09:31,279

i've listened to people explain

1969

01:09:36,309 --> 01:09:33,440

that this is going to have a numbers

1970

01:09:38,070 --> 01:09:36,319

thing if you actually do get 150 000 of

1971

01:09:39,829 --> 01:09:38,080

these things out there

1972

01:09:41,430 --> 01:09:39,839

um i mean that's

1973

01:09:44,229 --> 01:09:41,440

that's ambitious

1974

01:09:47,669 --> 01:09:44,239

but yeah yeah super ambitious yeah

1975

01:09:48,789 --> 01:09:47,679

but if you do um you know there's a lot

1976

01:09:50,950 --> 01:09:48,799

of times

1977

01:09:52,309 --> 01:09:50,960

when i've been out looking for meteors

1978

01:09:54,870 --> 01:09:52,319

or something i

1979

01:09:57,110 --> 01:09:54,880

have this silly thought i wonder if you

1980

01:09:58,870 --> 01:09:57,120

could have a camera here for the last

1981

01:10:00,070 --> 01:09:58,880

thousand years what you would see go

1982

01:10:02,229 --> 01:10:00,080

overhead

1983

01:10:03,430 --> 01:10:02,239

and um you know i think of things like

1984

01:10:05,430 --> 01:10:03,440

that just

1985

01:10:09,350 --> 01:10:05,440

because i do and

1986

01:10:11,110 --> 01:10:09,360

um this kind of is going to do that

1987

01:10:13,590 --> 01:10:11,120

you know it's going to have a lot of uh

1988

01:10:15,430 --> 01:10:13,600

eyes up into the sky which is

1989

01:10:17,510 --> 01:10:15,440

uh

1990

01:10:19,669 --> 01:10:17,520

i think a great idea

1991

01:10:22,229 --> 01:10:19,679

yeah i love it's open source you know

1992

01:10:23,990 --> 01:10:22,239

yeah anyone can look at it and would

1993

01:10:26,070 --> 01:10:24,000

that mean that anyone can look at it

1994

01:10:28,229 --> 01:10:26,080

even if they don't have

1995

01:10:30,870 --> 01:10:28,239

money invested

1996

01:10:33,910 --> 01:10:30,880

yes yeah definitely the whole point is

1997

01:10:36,070 --> 01:10:33,920

open source so get the information

1998

01:10:38,630 --> 01:10:36,080

the whole point is open source you know

1999

01:10:40,390 --> 01:10:38,640

i i think maybe if we need to some size

2000

01:10:41,590 --> 01:10:40,400

make it more profitable because

2001

01:10:44,070 --> 01:10:41,600

the bottom line if something's

2002

01:10:47,110 --> 01:10:44,080

profitable it's going to happen

2003

01:10:49,030 --> 01:10:47,120

you know the pro things that don't if

2004

01:10:51,830 --> 01:10:49,040

it's profitable it needs to be stopped

2005

01:10:53,750 --> 01:10:51,840

by some force of government or

2006

01:10:56,229 --> 01:10:53,760

movement you know it has to be stopped

2007

01:10:58,470 --> 01:10:56,239

um so we i want to make it profitable in

2008

01:11:00,310 --> 01:10:58,480

some way if in that may take you know

2009

01:11:01,669 --> 01:11:00,320

delaying the information slightly if

2010

01:11:03,189 --> 01:11:01,679

there's some benefit to citizen

2011

01:11:05,270 --> 01:11:03,199

scientists because i know there is a lot

2012

01:11:07,350 --> 01:11:05,280

of benefit to meteors

2013

01:11:11,510 --> 01:11:07,360

you know if you can actually uh track

2014

01:11:12,709 --> 01:11:11,520

down where a meteor impacts the ground

2015

01:11:14,950 --> 01:11:12,719

they're very

2016

01:11:17,590 --> 01:11:14,960

valuable yes they are yeah i think it

2017

01:11:19,430 --> 01:11:17,600

was thousands of dollars per gram yeah

2018

01:11:20,790 --> 01:11:19,440

you can get it's pretty easy to get 20

2019

01:11:23,189 --> 01:11:20,800

grand for uh

2020

01:11:25,510 --> 01:11:23,199

media right

2021

01:11:27,350 --> 01:11:25,520

you know yeah 20 grand i i heard much

2022

01:11:29,030 --> 01:11:27,360

more right 300 no but i mean for a

2023

01:11:30,630 --> 01:11:29,040

little media right you can hold it in

2024

01:11:33,510 --> 01:11:30,640

your hand you can get 20 grand for it

2025

01:11:34,950 --> 01:11:33,520

i've heard that um and i've i've been at

2026

01:11:37,110 --> 01:11:34,960

a house i'm not going to say who it is

2027

01:11:38,390 --> 01:11:37,120

but he's a ufo researcher we have

2028

01:11:39,510 --> 01:11:38,400

several of them and some of them are

2029

01:11:41,510 --> 01:11:39,520

pretty big

2030

01:11:42,470 --> 01:11:41,520

he's been collecting for a very long

2031

01:11:44,870 --> 01:11:42,480

time

2032

01:11:47,110 --> 01:11:44,880

pretty amazing to see them

2033

01:11:48,790 --> 01:11:47,120

yeah they're big money i guess um

2034

01:11:50,870 --> 01:11:48,800

they're big money you can tell basically

2035

01:11:52,550 --> 01:11:50,880

how they enter where they came from

2036

01:11:53,669 --> 01:11:52,560

uh where they're formed

2037

01:11:56,550 --> 01:11:53,679

you know if they came from the asteroid

2038

01:11:58,229 --> 01:11:56,560

belt some of them come from mars

2039

01:12:00,870 --> 01:11:58,239

yeah there's there's already american

2040

01:12:01,990 --> 01:12:00,880

meteor society they have a program like

2041

01:12:07,430 --> 01:12:02,000

this

2042

01:12:09,110 --> 01:12:07,440

all they need is where's the giant rock

2043

01:12:11,189 --> 01:12:09,120

going you know they're not trying to get

2044

01:12:13,910 --> 01:12:11,199

the hd video

2045

01:12:16,630 --> 01:12:13,920

yeah um and they have we need real time

2046

01:12:19,430 --> 01:12:16,640

uh we need real-time processing

2047

01:12:21,110 --> 01:12:19,440

also because we need to cue the ai onto

2048

01:12:22,630 --> 01:12:21,120

this one sensor and that's why they're

2049

01:12:25,910 --> 01:12:22,640

using one sensor you can get higher

2050

01:12:27,750 --> 01:12:25,920

resolution and less ai processing

2051
01:12:28,790 --> 01:12:27,760
so we're going to use this one sensor to

2052
01:12:31,350 --> 01:12:28,800
cue

2053
01:12:32,950 --> 01:12:31,360
the hd you know zoom in camera but it's

2054
01:12:34,229 --> 01:12:32,960
got to be real time

2055
01:12:36,630 --> 01:12:34,239
so that's kind of where that's where the

2056
01:12:38,390 --> 01:12:36,640
ai is coming in we're really kind of

2057
01:12:40,149 --> 01:12:38,400
like the cutting edge stuff but all this

2058
01:12:42,229 --> 01:12:40,159
is you know this is all doable

2059
01:12:43,350 --> 01:12:42,239
technology you know really the one

2060
01:12:44,470 --> 01:12:43,360
little thing we got to get through is

2061
01:12:46,950 --> 01:12:44,480
the ai

2062
01:12:49,030 --> 01:12:46,960
which is tough but ai is coming along so

2063
01:12:50,870 --> 01:12:49,040

fast and

2064

01:12:53,030 --> 01:12:50,880

the the experts i've talked to say yeah

2065

01:12:55,350 --> 01:12:53,040

it's it's doable for sure yeah i mean

2066

01:12:56,310 --> 01:12:55,360

you only have to train it one time for

2067

01:12:59,510 --> 01:12:56,320

one

2068

01:13:01,430 --> 01:12:59,520

you know situation type of thing so it

2069

01:13:02,709 --> 01:13:01,440

can be done but it's it's still a lot of

2070

01:13:05,350 --> 01:13:02,719

hours i'm sure

2071

01:13:06,790 --> 01:13:05,360

tons and tons yeah i think you as far as

2072

01:13:08,709 --> 01:13:06,800

i understand it you need the exact

2073

01:13:10,149 --> 01:13:08,719

material you know we have to use this

2074

01:13:13,030 --> 01:13:10,159

sensor

2075

01:13:15,750 --> 01:13:13,040

uh to train the ai neural network

2076

01:13:18,149 --> 01:13:15,760

um so yeah it's gonna take it takes time

2077

01:13:20,229 --> 01:13:18,159

it's gonna take energy but we have you

2078

01:13:22,229 --> 01:13:20,239

know the people are doing it and

2079

01:13:23,990 --> 01:13:22,239

yeah he does everything he has a patreon

2080

01:13:26,950 --> 01:13:24,000

sky360 but really it's just going to

2081

01:13:28,630 --> 01:13:26,960

sky360.org on their discord is really

2082

01:13:29,590 --> 01:13:28,640

how they organize and so you can go

2083

01:13:31,590 --> 01:13:29,600

there you can just say hey i'm

2084

01:13:33,270 --> 01:13:31,600

interested i want to get involved and

2085

01:13:34,950 --> 01:13:33,280

then you know you got to kind of read up

2086

01:13:37,270 --> 01:13:34,960

and see where you can fit in but yeah

2087

01:13:39,430 --> 01:13:37,280

they're it's team grassroots engineers

2088

01:13:40,470 --> 01:13:39,440

man so cool i love it so nerdy and so

2089

01:13:41,990 --> 01:13:40,480

cool

2090

01:13:43,030 --> 01:13:42,000

maybe i should put one on my boat this

2091

01:13:45,189 --> 01:13:43,040

summer

2092

01:13:46,630 --> 01:13:45,199

i would i want to put it on oil derricks

2093

01:13:48,870 --> 01:13:46,640

i think that would be sweet i think that

2094

01:13:50,229 --> 01:13:48,880

would be a great idea actually yeah yeah

2095

01:13:52,390 --> 01:13:50,239

could you imagine away from the light

2096

01:13:53,590 --> 01:13:52,400

pollution

2097

01:13:55,669 --> 01:13:53,600

all right are you going to pull this

2098

01:13:57,750 --> 01:13:55,679

screen down yeah sorry i didn't i didn't

2099

01:13:59,510 --> 01:13:57,760

that's all right so we have um we have a

2100

01:14:03,830 --> 01:13:59,520

question up here going all the way back

2101

01:14:07,350 --> 01:14:03,840

to you mentioned remote viewing which uh

2102

01:14:09,110 --> 01:14:07,360

i think is pretty interesting because uh

2103

01:14:10,149 --> 01:14:09,120

there seems to be something to that

2104

01:14:12,229 --> 01:14:10,159

let's see

2105

01:14:15,110 --> 01:14:12,239

uh ask chris if he's aware of high level

2106

01:14:16,390 --> 01:14:15,120

remote viewing group's focus on crypto

2107

01:14:18,470 --> 01:14:16,400

are you familiar with this particular

2108

01:14:22,229 --> 01:14:18,480

one

2109

01:14:23,830 --> 01:14:22,239

i haven't focuses on run by dick algar

2110

01:14:25,510 --> 01:14:23,840

and daz smith

2111

01:14:27,350 --> 01:14:25,520

no i haven't heard

2112

01:14:29,830 --> 01:14:27,360

that's a shame what do they do they

2113

01:14:32,390 --> 01:14:29,840

remote view uh the future

2114

01:14:34,470 --> 01:14:32,400

i don't know i don't know

2115

01:14:35,910 --> 01:14:34,480

i was thinking think of this um i

2116

01:14:36,870 --> 01:14:35,920

mentioned um

2117

01:14:39,270 --> 01:14:36,880

uh

2118

01:14:41,510 --> 01:14:39,280

so bitcoin the way it works is each

2119

01:14:43,669 --> 01:14:41,520

computer it's mining for a certain

2120

01:14:45,430 --> 01:14:43,679

random number inside of a very large

2121

01:14:48,870 --> 01:14:45,440

group of random numbers right that's

2122

01:14:49,830 --> 01:14:48,880

called a 256 hash or sha however to say

2123

01:14:51,510 --> 01:14:49,840

it

2124

01:14:53,270 --> 01:14:51,520

i was thinking though if you could use

2125

01:14:56,229 --> 01:14:53,280

remote viewing

2126
01:14:57,910 --> 01:14:56,239
right and you could tell your computer

2127
01:15:00,310 --> 01:14:57,920
uh which

2128
01:15:01,110 --> 01:15:00,320
like bottom third middle third or upper

2129
01:15:02,149 --> 01:15:01,120
third

2130
01:15:03,590 --> 01:15:02,159
of that

2131
01:15:06,229 --> 01:15:03,600
number to look for you know could the

2132
01:15:07,510 --> 01:15:06,239
computers have an advantage

2133
01:15:13,669 --> 01:15:07,520
um

2134
01:15:15,750 --> 01:15:13,679
you know if it's possible remote viewing

2135
01:15:19,189 --> 01:15:15,760
human remote viewing

2136
01:15:20,470 --> 01:15:19,199
in conjunction with the computer to

2137
01:15:22,950 --> 01:15:20,480
get the answer

2138
01:15:24,790 --> 01:15:22,960

to break through cryptological uh things

2139

01:15:26,470 --> 01:15:24,800

would that be possible to remote view

2140

01:15:28,630 --> 01:15:26,480

whatever number's coming up next so that

2141

01:15:31,030 --> 01:15:28,640

that bitcoin uh

2142

01:15:33,189 --> 01:15:31,040

you know would actually that minor

2143

01:15:35,510 --> 01:15:33,199

uh will get the answer faster

2144

01:15:36,550 --> 01:15:35,520

they could i could hurt them do that

2145

01:15:40,149 --> 01:15:36,560

um

2146

01:15:42,070 --> 01:15:40,159

doing really well

2147

01:15:44,310 --> 01:15:42,080

yeah yeah uh

2148

01:15:46,390 --> 01:15:44,320

let's see have you seen i saw this

2149

01:15:48,630 --> 01:15:46,400

documentary years ago what the bleep do

2150

01:15:50,870 --> 01:15:48,640

we know did you ever see that

2151

01:15:52,709 --> 01:15:50,880

no i haven't oh it's really fascinating

2152

01:15:54,070 --> 01:15:52,719

and i don't know how that relates to any

2153

01:15:55,990 --> 01:15:54,080

of this i'm just looking through

2154

01:15:58,550 --> 01:15:56,000

questions and thank you for those who

2155

01:16:01,510 --> 01:15:58,560

put them in caps someone said martin do

2156

01:16:04,870 --> 01:16:01,520

a video when you're there i am here by

2157

01:16:06,149 --> 01:16:04,880

the way this is me hello i am here uh

2158

01:16:08,149 --> 01:16:06,159

maybe someone thought this is a

2159

01:16:09,990 --> 01:16:08,159

pre-record or not or or something like

2160

01:16:11,590 --> 01:16:10,000

that um

2161

01:16:12,709 --> 01:16:11,600

and what do you think about someone

2162

01:16:14,870 --> 01:16:12,719

wants to know what do you think about

2163

01:16:17,510 --> 01:16:14,880

the tic tac video

2164

01:16:20,070 --> 01:16:17,520

in general you did a lot of work on that

2165

01:16:21,110 --> 01:16:20,080

yeah i've done many many videos gone

2166

01:16:23,510 --> 01:16:21,120

into

2167

01:16:24,550 --> 01:16:23,520

i think too much depth actually i think

2168

01:16:25,669 --> 01:16:24,560

um

2169

01:16:28,070 --> 01:16:25,679

i think people have gotten wrapped

2170

01:16:29,590 --> 01:16:28,080

around the axle of like is it rotating

2171

01:16:32,310 --> 01:16:29,600

is it glare you know they've been able

2172

01:16:33,510 --> 01:16:32,320

to kind of describe the the narrative

2173

01:16:35,590 --> 01:16:33,520

you know um

2174

01:16:37,270 --> 01:16:35,600

but i i would i might actually make a

2175

01:16:40,390 --> 01:16:37,280

video about it this week

2176
01:16:41,990 --> 01:16:40,400
is and the pilot testimony to me is some

2177
01:16:44,950 --> 01:16:42,000
of the best

2178
01:16:47,590 --> 01:16:44,960
um for david fravor and alex dietrich to

2179
01:16:49,350 --> 01:16:47,600
listen to both of them talk about it

2180
01:16:51,750 --> 01:16:49,360
i don't think it gets better than that

2181
01:16:54,070 --> 01:16:51,760
really i mean

2182
01:16:55,910 --> 01:16:54,080
as a fellow pilot you must have respect

2183
01:16:57,590 --> 01:16:55,920
for that i would think

2184
01:16:59,750 --> 01:16:57,600
that's what really turned me on to this

2185
01:17:01,110 --> 01:16:59,760
whole subject was fravor's initial

2186
01:17:02,709 --> 01:17:01,120
interview

2187
01:17:04,310 --> 01:17:02,719
that was it i mean he gave that

2188
01:17:06,310 --> 01:17:04,320

interview and i like felt like i was

2189

01:17:07,830 --> 01:17:06,320

there you know seeing it

2190

01:17:10,070 --> 01:17:07,840

it was amazing and yeah i mean the other

2191

01:17:11,750 --> 01:17:10,080

three combined people um

2192

01:17:13,590 --> 01:17:11,760

i guess what's been interesting to me on

2193

01:17:14,630 --> 01:17:13,600

the on the whole tic tac

2194

01:17:17,030 --> 01:17:14,640

is

2195

01:17:18,390 --> 01:17:17,040

the i guess the bigger picture on it you

2196

01:17:20,870 --> 01:17:18,400

know if you listen to kevin day they

2197

01:17:22,149 --> 01:17:20,880

they were tracking them from space

2198

01:17:24,390 --> 01:17:22,159

uh they picked him up with the

2199

01:17:26,149 --> 01:17:24,400

anti-ballistic missile defense system

2200

01:17:27,590 --> 01:17:26,159

and so that's how they knew they were

2201
01:17:29,430 --> 01:17:27,600
seeing these things they thought maybe

2202
01:17:31,590 --> 01:17:29,440
there's very context and then they came

2203
01:17:34,149 --> 01:17:31,600
down from 80 000 feet remember that

2204
01:17:35,669 --> 01:17:34,159
that's the radar the navy spy one radar

2205
01:17:38,310 --> 01:17:35,679
it could you could see

2206
01:17:40,709 --> 01:17:38,320
you know up to 80 000 feet

2207
01:17:42,950 --> 01:17:40,719
and so they tracked these from space

2208
01:17:44,790 --> 01:17:42,960
right in groups of i think they said 15

2209
01:17:46,550 --> 01:17:44,800
to 20 contacts

2210
01:17:49,030 --> 01:17:46,560
uh and then they go to 80 000 feet and

2211
01:17:51,189 --> 01:17:49,040
then go to 28 000 feet

2212
01:17:53,510 --> 01:17:51,199
and then goes you know sea level back up

2213
01:17:55,910 --> 01:17:53,520

to 28 000 they also say they just they

2214

01:17:59,270 --> 01:17:55,920

would track south you know just directly

2215

01:18:01,030 --> 01:17:59,280

south at 28 000 feet at 100 knots

2216

01:18:03,110 --> 01:18:01,040

you know it's just and 100 knots is very

2217

01:18:05,030 --> 01:18:03,120

slow for anything you can't stay

2218

01:18:06,870 --> 01:18:05,040

airborne i mean i think you have to go

2219

01:18:08,870 --> 01:18:06,880

over that in a small plane i used to fly

2220

01:18:10,709 --> 01:18:08,880

a little bit um yeah i think you have to

2221

01:18:11,990 --> 01:18:10,719

go like 120 or something like that i

2222

01:18:12,950 --> 01:18:12,000

can't remember what it is to stay

2223

01:18:15,990 --> 01:18:12,960

airborne

2224

01:18:18,630 --> 01:18:16,000

but 100 knots is too slow

2225

01:18:21,830 --> 01:18:18,640

yeah it's because at 18 000 feet there's

2226

01:18:23,830 --> 01:18:21,840

half as much air right right yep so

2227

01:18:25,669 --> 01:18:23,840

yeah if you go up to 28 000 feet there's

2228

01:18:27,189 --> 01:18:25,679

less than a quarter as much air than

2229

01:18:28,950 --> 01:18:27,199

there is at sea level

2230

01:18:29,990 --> 01:18:28,960

yeah you know that i assume there's less

2231

01:18:33,110 --> 01:18:30,000

than a quarter

2232

01:18:35,110 --> 01:18:33,120

uh yeah quite a bit less and so

2233

01:18:36,950 --> 01:18:35,120

you can't just go 100 you can't just go

2234

01:18:38,790 --> 01:18:36,960

100 knots because there's not enough air

2235

01:18:40,149 --> 01:18:38,800

to hold you up the way our planes work

2236

01:18:41,590 --> 01:18:40,159

you know because we create lift by

2237

01:18:43,750 --> 01:18:41,600

moving through the air

2238

01:18:46,149 --> 01:18:43,760

but if there's not enough air there

2239

01:18:47,830 --> 01:18:46,159

you have to actually go faster

2240

01:18:49,590 --> 01:18:47,840

to maintain the same amount of lift and

2241

01:18:51,110 --> 01:18:49,600

that's why the mach number does the

2242

01:18:53,030 --> 01:18:51,120

whole weird right because mach doesn't

2243

01:18:54,070 --> 01:18:53,040

matter uh your altitude right it somehow

2244

01:18:55,189 --> 01:18:54,080

gets around the compression i can't

2245

01:18:57,750 --> 01:18:55,199

remember

2246

01:18:59,430 --> 01:18:57,760

um but yeah so that's it so at 28 000

2247

01:19:01,189 --> 01:18:59,440

feet there's just not enough air to only

2248

01:19:02,630 --> 01:19:01,199

go 100 knots that that's what's really

2249

01:19:04,630 --> 01:19:02,640

weird you know that's why helicopters

2250

01:19:06,390 --> 01:19:04,640

can't go very high if you helicopters

2251

01:19:07,910 --> 01:19:06,400

cannot i think

2252

01:19:09,830 --> 01:19:07,920

the highest helicopter has maybe gone to

2253

01:19:11,750 --> 01:19:09,840

40 000 feet at the most

2254

01:19:13,990 --> 01:19:11,760

um and that's you know they can't rescue

2255

01:19:15,669 --> 01:19:14,000

people off off uh mount everest you know

2256

01:19:17,270 --> 01:19:15,679

you're screwed on mount everest they're

2257

01:19:18,390 --> 01:19:17,280

it's it's because helicopters can't get

2258

01:19:20,550 --> 01:19:18,400

to you

2259

01:19:22,149 --> 01:19:20,560

you know so yeah they can't get up

2260

01:19:24,070 --> 01:19:22,159

nothing can get up there at that low

2261

01:19:25,270 --> 01:19:24,080

speed is is very surprising except for

2262

01:19:26,709 --> 01:19:25,280

like a balloon right if you're doing

2263

01:19:29,669 --> 01:19:26,719

like a that's like the weather balloon

2264

01:19:31,990 --> 01:19:29,679

yeah uh it's very hard to to uh to d

2265

01:19:35,110 --> 01:19:32,000

debunk is the weather balloon

2266

01:19:37,750 --> 01:19:35,120

um yeah so if if

2267

01:19:39,990 --> 01:19:37,760

the as as a pilot yourself

2268

01:19:42,550 --> 01:19:40,000

knowing that you break i forget exactly

2269

01:19:45,270 --> 01:19:42,560

what the speed of sound is 714 miles an

2270

01:19:48,630 --> 01:19:45,280

hour or something like that

2271

01:19:51,430 --> 01:19:48,640

at the sea level it's i think 650 650

2272

01:19:53,590 --> 01:19:51,440

miles per hour but up in the air it's

2273

01:19:55,990 --> 01:19:53,600

but at 28 000 feet it's only gonna be

2274

01:19:57,350 --> 01:19:56,000

like um

2275

01:19:59,590 --> 01:19:57,360

450.

2276

01:20:02,149 --> 01:19:59,600

oh is that how that works so so anyway

2277

01:20:04,390 --> 01:20:02,159

when you're talking about these tic tacs

2278

01:20:07,189 --> 01:20:04,400

um shooting at that type of speed and

2279

01:20:08,950 --> 01:20:07,199

there's no sound barrier what do you

2280

01:20:11,510 --> 01:20:08,960

make of something like that

2281

01:20:13,669 --> 01:20:11,520

some people are saying a hologram thing

2282

01:20:15,030 --> 01:20:13,679

you know um what are your thoughts about

2283

01:20:16,830 --> 01:20:15,040

the hologram thing and how could a

2284

01:20:19,110 --> 01:20:16,840

hologram show up on

2285

01:20:21,030 --> 01:20:19,120

radar that's the biggest gotcha yeah the

2286

01:20:24,229 --> 01:20:21,040

hologram can't show up on radar that

2287

01:20:27,030 --> 01:20:24,239

that we understand how that would work

2288

01:20:28,229 --> 01:20:27,040

so that's why the multiple contacts yeah

2289

01:20:29,910 --> 01:20:28,239

see you know people seeing it from

2290

01:20:30,830 --> 01:20:29,920

different directions and if we see it in

2291

01:20:33,030 --> 01:20:30,840

different

2292

01:20:34,550 --> 01:20:33,040

spectrums of the electromagnetic

2293

01:20:35,669 --> 01:20:34,560

spectrum you know if you see it in

2294

01:20:37,669 --> 01:20:35,679

infrared

2295

01:20:39,510 --> 01:20:37,679

uh and you see it optically and you see

2296

01:20:40,790 --> 01:20:39,520

it with radar

2297

01:20:42,550 --> 01:20:40,800

it really seems like something's there

2298

01:20:43,990 --> 01:20:42,560

you know especially radar i mean well i

2299

01:20:45,669 --> 01:20:44,000

guess everything has to bounce the light

2300

01:20:48,310 --> 01:20:45,679

waves back

2301
01:20:49,830 --> 01:20:48,320
but radar yeah it bounces back

2302
01:20:51,669 --> 01:20:49,840
and so what are your thoughts about not

2303
01:20:54,870 --> 01:20:51,679
breaking the sound barrier what what do

2304
01:21:00,470 --> 01:20:57,669
i mean it's that it breaks my mind yeah

2305
01:21:01,910 --> 01:21:00,480
it doesn't break because how does it uh

2306
01:21:03,350 --> 01:21:01,920
because not breaking the sound barrier

2307
01:21:04,229 --> 01:21:03,360
like i mentioned earlier you know no

2308
01:21:09,669 --> 01:21:04,239
sound

2309
01:21:11,270 --> 01:21:09,679
reason you have this mock you know is

2310
01:21:12,870 --> 01:21:11,280
because the air molecules get pushed

2311
01:21:14,390 --> 01:21:12,880
against each other

2312
01:21:16,229 --> 01:21:14,400
you know they're getting pushed against

2313
01:21:18,709 --> 01:21:16,239

each other so fast

2314

01:21:20,950 --> 01:21:18,719

um that it creates this this shock wave

2315

01:21:23,110 --> 01:21:20,960

like a pocket or something right

2316

01:21:24,790 --> 01:21:23,120

yeah basically the the sound cannot

2317

01:21:26,310 --> 01:21:24,800

travel fast enough to get out of your

2318

01:21:28,149 --> 01:21:26,320

way you know if you're going the speed

2319

01:21:29,030 --> 01:21:28,159

of sound right you're yelling it can't

2320

01:21:30,950 --> 01:21:29,040

get

2321

01:21:32,470 --> 01:21:30,960

you can't yell fast enough

2322

01:21:34,790 --> 01:21:32,480

for it to get out of the way so so when

2323

01:21:35,830 --> 01:21:34,800

you yell it just builds up that yell

2324

01:21:37,510 --> 01:21:35,840

just builds up you know if you're

2325

01:21:39,270 --> 01:21:37,520

running the speed of sound

2326

01:21:41,990 --> 01:21:39,280

um the yell will just build up and that

2327

01:21:43,910 --> 01:21:42,000

will create this uh shock wave

2328

01:21:45,750 --> 01:21:43,920

essentially it's a

2329

01:21:46,950 --> 01:21:45,760

and so it really that's what it's caused

2330

01:21:48,629 --> 01:21:46,960

by is

2331

01:21:50,550 --> 01:21:48,639

something pushing through the air so the

2332

01:21:52,149 --> 01:21:50,560

air being moved out of the way

2333

01:21:54,070 --> 01:21:52,159

uh in a

2334

01:21:55,990 --> 01:21:54,080

you know it's being pushed

2335

01:21:57,990 --> 01:21:56,000

but when there's no sound and there's no

2336

01:21:59,830 --> 01:21:58,000

shock wave

2337

01:22:01,590 --> 01:21:59,840

it's if it is moving the air out of the

2338

01:22:03,910 --> 01:22:01,600

way it's putting it back with it with

2339

01:22:05,910 --> 01:22:03,920

zero really kind of change

2340

01:22:08,310 --> 01:22:05,920

you know it's sliding sliding through it

2341

01:22:10,629 --> 01:22:08,320

or sliding around it or it's acting like

2342

01:22:11,830 --> 01:22:10,639

a light you know yeah it acts like a

2343

01:22:13,669 --> 01:22:11,840

wave that's what i was kind of

2344

01:22:15,110 --> 01:22:13,679

considering is it's more like a wave

2345

01:22:16,149 --> 01:22:15,120

where

2346

01:22:17,910 --> 01:22:16,159

um

2347

01:22:19,270 --> 01:22:17,920

yeah it passes through

2348

01:22:20,950 --> 01:22:19,280

it's not acting like a particle where

2349

01:22:23,189 --> 01:22:20,960

you can run into it because waves you

2350

01:22:25,189 --> 01:22:23,199

can stack you know i can you can put two

2351

01:22:27,350 --> 01:22:25,199

lights together that's why we use fiber

2352

01:22:28,790 --> 01:22:27,360

optic cables you know it's just so much

2353

01:22:30,790 --> 01:22:28,800

more effective

2354

01:22:33,590 --> 01:22:30,800

because you can just keep stacking light

2355

01:22:35,270 --> 01:22:33,600

you can just make the light more intense

2356

01:22:36,550 --> 01:22:35,280

because light can stack it acts like a

2357

01:22:37,990 --> 01:22:36,560

wave

2358

01:22:40,550 --> 01:22:38,000

but if you're using particles yeah you

2359

01:22:44,229 --> 01:22:40,560

can't do that so it's almost like

2360

01:22:46,070 --> 01:22:44,239

no sound no pushing through the air it

2361

01:22:47,590 --> 01:22:46,080

feels like a wave to me or yeah like

2362

01:22:49,430 --> 01:22:47,600

light we think of it like light is how

2363

01:22:51,110 --> 01:22:49,440

you would describe it you know

2364

01:22:52,470 --> 01:22:51,120

but then

2365

01:22:54,790 --> 01:22:52,480

it seems like it's particle right it's

2366

01:22:56,390 --> 01:22:54,800

bounce bouncing off of it so it's it's

2367

01:22:58,709 --> 01:22:56,400

acting like both you know again we're

2368

01:23:00,629 --> 01:22:58,719

back to uh quantum mechanics it's a wave

2369

01:23:03,430 --> 01:23:00,639

it's particle i don't know i can't tell

2370

01:23:05,430 --> 01:23:03,440

yeah but i i love the mystery of

2371

01:23:08,790 --> 01:23:05,440

of the whole thing actually

2372

01:23:10,950 --> 01:23:08,800

it makes it so so interesting in general

2373

01:23:12,629 --> 01:23:10,960

um here's a question and by the way

2374

01:23:14,629 --> 01:23:12,639

we're going to be opening the lines the

2375

01:23:16,950 --> 01:23:14,639

phone lines here let me just make sure

2376

01:23:17,910 --> 01:23:16,960

yep bill is okay

2377

01:23:19,510 --> 01:23:17,920

so we're going to be opening up the

2378

01:23:22,390 --> 01:23:19,520

phone lines here in just a minute a

2379

01:23:23,830 --> 01:23:22,400

question here um have you figured out

2380

01:23:25,110 --> 01:23:23,840

that there are several non-human

2381

01:23:27,030 --> 01:23:25,120

intelligence

2382

01:23:28,310 --> 01:23:27,040

living in our oceans that's that's

2383

01:23:29,990 --> 01:23:28,320

something

2384

01:23:31,590 --> 01:23:30,000

let's talk a little bit about i mean not

2385

01:23:33,669 --> 01:23:31,600

in that in particular i mean you're

2386

01:23:35,510 --> 01:23:33,679

welcome to answer that but i mean the

2387

01:23:37,030 --> 01:23:35,520

ocean's another part of it and here you

2388

01:23:39,590 --> 01:23:37,040

are a navy guy

2389

01:23:42,390 --> 01:23:39,600

um yeah well i was air force but yeah oh

2390

01:23:45,030 --> 01:23:42,400

oh i'm sorry i'm sorry sorry

2391

01:23:46,709 --> 01:23:45,040

you're totally right i am so embarrassed

2392

01:23:48,870 --> 01:23:46,719

yeah i know that's the worst thing i

2393

01:23:50,950 --> 01:23:48,880

could say to an air force guy i'm sorry

2394

01:23:53,750 --> 01:23:50,960

um but um

2395

01:23:54,000 --> 01:23:53,760

i know this rivalry between yeah yeah

2396

01:23:56,470 --> 01:23:54,010

yeah

2397

01:23:58,629 --> 01:23:56,480

[Laughter]

2398

01:24:01,590 --> 01:23:58,639

uh yeah i'll be hearing about this for a

2399

01:24:03,910 --> 01:24:01,600

while let me do it

2400

01:24:06,629 --> 01:24:03,920

but anyway uh

2401

01:24:08,790 --> 01:24:06,639

so what are your thoughts about you know

2402

01:24:10,709 --> 01:24:08,800

the intermedia

2403

01:24:13,189 --> 01:24:10,719

it can go in and i mean it's kind of the

2404

01:24:15,510 --> 01:24:13,199

same thing as this the

2405

01:24:16,870 --> 01:24:15,520

the shock wave it's a very similar thing

2406

01:24:19,430 --> 01:24:16,880

it can just go

2407

01:24:21,430 --> 01:24:19,440

through the the media without any

2408

01:24:23,270 --> 01:24:21,440

slowing down a parent slowing down or

2409

01:24:26,229 --> 01:24:23,280

anything or splash

2410

01:24:27,910 --> 01:24:26,239

just another strange

2411

01:24:29,510 --> 01:24:27,920

really strange thing

2412

01:24:32,709 --> 01:24:29,520

yeah i've seen i guess the only two i've

2413

01:24:34,550 --> 01:24:32,719

really investigated was the aguadilla so

2414

01:24:36,709 --> 01:24:34,560

the puerto rico yeah yeah that's an

2415

01:24:38,470 --> 01:24:36,719

interesting one probably the best video

2416

01:24:41,110 --> 01:24:38,480

of this you know going in the water and

2417

01:24:43,350 --> 01:24:41,120

then it's split splits yeah

2418

01:24:45,270 --> 01:24:43,360

that's a great video i mean that yeah

2419

01:24:47,430 --> 01:24:45,280

that's a that's a really good um really

2420

01:24:48,950 --> 01:24:47,440

good one the scu did an amazing report

2421

01:24:52,390 --> 01:24:48,960

on that that's kind of the start of the

2422

01:24:55,350 --> 01:24:52,400

scu was on that particular was it yes

2423

01:24:56,950 --> 01:24:55,360

that was a great yeah that really was a

2424

01:24:59,189 --> 01:24:56,960

yeah i started investigating it and then

2425

01:25:01,669 --> 01:24:59,199

i i was doing this the calculations

2426
01:25:03,590 --> 01:25:01,679
between the gps lat long suit this super

2427
01:25:05,510 --> 01:25:03,600
painful calculation i was like oh man

2428
01:25:07,510 --> 01:25:05,520
this is going to suck and then i found

2429
01:25:09,350 --> 01:25:07,520
their report i was like thank god they

2430
01:25:11,590 --> 01:25:09,360
had they had done all they did already

2431
01:25:13,030 --> 01:25:11,600
difficult stuff yeah i was like oh man

2432
01:25:15,110 --> 01:25:13,040
yeah it's a lot easier to look at it and

2433
01:25:15,910 --> 01:25:15,120
be like okay yeah that is correct you

2434
01:25:18,070 --> 01:25:15,920
know

2435
01:25:19,830 --> 01:25:18,080
um then it is to just crunch through all

2436
01:25:21,110 --> 01:25:19,840
these numbers so i was very happy that

2437
01:25:23,590 --> 01:25:21,120
one and the

2438
01:25:24,830 --> 01:25:23,600

uh the catalina islands one

2439

01:25:28,629 --> 01:25:24,840

um in

2440

01:25:30,390 --> 01:25:28,639

2019 yeah with the uh okay omaha it was

2441

01:25:31,910 --> 01:25:30,400

the omaha ship

2442

01:25:33,510 --> 01:25:31,920

that's right jeremy corbell released

2443

01:25:35,669 --> 01:25:33,520

those three videos yeah that was like

2444

01:25:37,270 --> 01:25:35,679

someone's video camera someone's phone

2445

01:25:39,030 --> 01:25:37,280

camera or something

2446

01:25:40,629 --> 01:25:39,040

yeah i guess it was the viper team the

2447

01:25:42,229 --> 01:25:40,639

visual reconnaissance teams that they

2448

01:25:44,390 --> 01:25:42,239

send out you know if something weird

2449

01:25:47,110 --> 01:25:44,400

happens i guess uh and they video it in

2450

01:25:48,709 --> 01:25:47,120

the in the bridge uh and it's that orb

2451
01:25:50,790 --> 01:25:48,719
going you know the black and white video

2452
01:25:53,750 --> 01:25:50,800
and the orb goes underwater

2453
01:25:54,950 --> 01:25:53,760
uh yes here's to

2454
01:25:57,189 --> 01:25:54,960
those are the only two i've really

2455
01:25:59,030 --> 01:25:57,199
investigated you know it seems like not

2456
01:26:00,709 --> 01:25:59,040
much information has been out but i hear

2457
01:26:03,590 --> 01:26:00,719
all these crazy stories i hear all these

2458
01:26:06,149 --> 01:26:03,600
crazy rumors you know of things moving

2459
01:26:07,910 --> 01:26:06,159
really fast underwater like large things

2460
01:26:09,030 --> 01:26:07,920
or coming out of the ocean you know you

2461
01:26:11,510 --> 01:26:09,040
hear about these

2462
01:26:12,550 --> 01:26:11,520
uh a giant triangle right that's that's

2463
01:26:13,990 --> 01:26:12,560

probably one of the more interesting

2464

01:26:17,110 --> 01:26:14,000

ones i would love to see

2465

01:26:19,910 --> 01:26:17,120

um is in 2019

2466

01:26:21,510 --> 01:26:19,920

in the classified report that went out

2467

01:26:23,669 --> 01:26:21,520

the intelligence classified report that

2468

01:26:25,830 --> 01:26:23,679

went out before the

2469

01:26:28,550 --> 01:26:25,840

uh 25 june

2470

01:26:31,430 --> 01:26:29,830

it was a year before that there was a

2471

01:26:33,669 --> 01:26:31,440

2019

2472

01:26:34,830 --> 01:26:33,679

uh intelligence

2473

01:26:36,870 --> 01:26:34,840

i guess

2474

01:26:39,270 --> 01:26:36,880

classified i don't know what they call

2475

01:26:41,590 --> 01:26:39,280

it but it went viral did do you hear

2476
01:26:43,910 --> 01:26:41,600
about that i did yeah

2477
01:26:45,750 --> 01:26:43,920
yeah in that actual uh

2478
01:26:47,110 --> 01:26:45,760
another debrief article

2479
01:26:49,350 --> 01:26:47,120
mentions that

2480
01:26:51,189 --> 01:26:49,360
but no pictures seen yet

2481
01:26:53,030 --> 01:26:51,199
no picture yeah but in the class that

2482
01:26:54,709 --> 01:26:53,040
what they said is the

2483
01:26:56,870 --> 01:26:54,719
several people he talked to several

2484
01:26:57,910 --> 01:26:56,880
witnesses or people that saw the who

2485
01:26:59,910 --> 01:26:57,920
read it

2486
01:27:01,430 --> 01:26:59,920
said that the the best picture was this

2487
01:27:02,310 --> 01:27:01,440
triangle coming out of the ocean you

2488
01:27:05,189 --> 01:27:02,320

know right

2489

01:27:08,149 --> 01:27:05,199

i would love to see that so um you know

2490

01:27:09,990 --> 01:27:08,159

it makes you wonder if

2491

01:27:13,669 --> 01:27:10,000

that is being viewed by these people

2492

01:27:15,510 --> 01:27:13,679

that are involved in this new task force

2493

01:27:17,510 --> 01:27:15,520

um you know if they see a picture like

2494

01:27:18,870 --> 01:27:17,520

that isn't that pretty convincing that

2495

01:27:22,470 --> 01:27:18,880

would seem like that would be a very

2496

01:27:26,709 --> 01:27:24,390

seems like it i mean yeah because what

2497

01:27:29,270 --> 01:27:26,719

we've we haven't seen any true form yet

2498

01:27:30,870 --> 01:27:29,280

you know i mean the tic tac

2499

01:27:32,629 --> 01:27:30,880

yeah

2500

01:27:36,229 --> 01:27:32,639

how else would you describe a tic tac

2501

01:27:38,470 --> 01:27:36,239

you know it's smooth round you know um

2502

01:27:40,709 --> 01:27:38,480

but i guess you could say that it's

2503

01:27:43,590 --> 01:27:40,719

oh it's nothing really or it's just

2504

01:27:45,270 --> 01:27:43,600

blurry or it's kind of roundish

2505

01:27:47,189 --> 01:27:45,280

you know but if it's just a triangle you

2506

01:27:50,070 --> 01:27:47,199

know if it's a large triangle and it has

2507

01:27:51,270 --> 01:27:50,080

clearly fined orbs at each point at each

2508

01:27:53,110 --> 01:27:51,280

apex

2509

01:27:54,390 --> 01:27:53,120

you know there's water coming off of it

2510

01:27:55,990 --> 01:27:54,400

as it comes out of the ocean i don't

2511

01:27:57,669 --> 01:27:56,000

know that would be pretty

2512

01:27:59,669 --> 01:27:57,679

pretty convincing to me i don't know how

2513

01:28:01,189 --> 01:27:59,679

you else you would explain that yeah

2514

01:28:03,110 --> 01:28:01,199

maybe why they haven't shown it you know

2515

01:28:05,350 --> 01:28:03,120

because that hasn't come out i was we've

2516

01:28:07,430 --> 01:28:05,360

seen some other photos but not that one

2517

01:28:09,590 --> 01:28:07,440

yeah i wonder why

2518

01:28:11,430 --> 01:28:09,600

you know

2519

01:28:13,270 --> 01:28:11,440

you have to think their motive

2520

01:28:15,830 --> 01:28:13,280

is for

2521

01:28:18,390 --> 01:28:15,840

security reasons you know to to keep

2522

01:28:19,510 --> 01:28:18,400

anything like that out but i wonder what

2523

01:28:21,990 --> 01:28:19,520

would be

2524

01:28:23,830 --> 01:28:22,000

the security implication of showing a

2525

01:28:25,270 --> 01:28:23,840

picture of something like that would

2526

01:28:28,950 --> 01:28:25,280

that be that we couldn't protect

2527

01:28:30,950 --> 01:28:28,960

ourselves from it i mean what would be

2528

01:28:33,270 --> 01:28:30,960

what some why would that be withheld is

2529

01:28:35,830 --> 01:28:33,280

what i'm getting at

2530

01:28:36,790 --> 01:28:35,840

because uh they have no answer for what

2531

01:28:39,030 --> 01:28:36,800

it is

2532

01:28:41,030 --> 01:28:39,040

perhaps that's it

2533

01:28:47,350 --> 01:28:41,040

i think of it more as just what's their

2534

01:28:50,870 --> 01:28:48,870

you know there's there's no benefit to

2535

01:28:52,709 --> 01:28:50,880

the government

2536

01:28:54,709 --> 01:28:52,719

okay that's a good point because they

2537

01:28:55,990 --> 01:28:54,719

already have all the info

2538

01:28:57,590 --> 01:28:56,000

or they think they have all the info at

2539

01:28:58,550 --> 01:28:57,600

least you know

2540

01:29:00,310 --> 01:28:58,560

um

2541

01:29:02,229 --> 01:29:00,320

and so if they want it why why would

2542

01:29:03,830 --> 01:29:02,239

they release it so that's why i think it

2543

01:29:06,149 --> 01:29:03,840

really needs to be driven you know

2544

01:29:07,750 --> 01:29:06,159

congress is very effective

2545

01:29:09,510 --> 01:29:07,760

because they you know they have to be

2546

01:29:11,189 --> 01:29:09,520

asked i think

2547

01:29:12,709 --> 01:29:11,199

you know they're not just going to

2548

01:29:13,590 --> 01:29:12,719

walk around and be like i think we

2549

01:29:15,270 --> 01:29:13,600

should

2550

01:29:17,350 --> 01:29:15,280

release this information that's

2551

01:29:19,270 --> 01:29:17,360

classified and you know

2552

01:29:21,669 --> 01:29:19,280

controversial just out into the public

2553

01:29:23,430 --> 01:29:21,679

space you know i think it's exactly the

2554

01:29:25,510 --> 01:29:23,440

opposite

2555

01:29:27,990 --> 01:29:25,520

well we have a caller uh let's take our

2556

01:29:29,189 --> 01:29:28,000

caller here um i would like to also know

2557

01:29:31,510 --> 01:29:29,199

you know i mean

2558

01:29:33,110 --> 01:29:31,520

if if they do have this

2559

01:29:34,550 --> 01:29:33,120

very clear picture of this coming out of

2560

01:29:37,030 --> 01:29:34,560

the water

2561

01:29:39,350 --> 01:29:37,040

wait uh hang on just a minute we got

2562

01:29:41,430 --> 01:29:39,360

let me mute this

2563

01:29:42,870 --> 01:29:41,440

if we do ha if they do happen to have

2564

01:29:44,629 --> 01:29:42,880

that picture of this thing coming right

2565

01:29:45,510 --> 01:29:44,639

out of the water those are they very

2566

01:29:46,950 --> 01:29:45,520

clear

2567

01:29:49,830 --> 01:29:46,960

right out of the water i know it's from

2568

01:29:52,629 --> 01:29:49,840

an f-18 and reportedly he saw it come

2569

01:29:54,790 --> 01:29:52,639

out of the water oh i got it but still

2570

01:29:57,990 --> 01:29:54,800

you just it makes you wonder does the

2571

01:30:00,070 --> 01:29:58,000

government know more about this

2572

01:30:01,510 --> 01:30:00,080

of what they are is that's the big

2573

01:30:03,750 --> 01:30:01,520

question do they know what they are and

2574

01:30:07,030 --> 01:30:03,760

what they want do they know any more

2575

01:30:09,590 --> 01:30:07,040

about that than we do i'm just i want

2576

01:30:11,430 --> 01:30:09,600

your thoughts on that before i take this

2577

01:30:14,149 --> 01:30:11,440

caller uh frank thanks for calling and

2578

01:30:17,030 --> 01:30:14,159

hang in there we'll get right to you

2579

01:30:19,110 --> 01:30:17,040

i mean to me it sounds like no

2580

01:30:20,709 --> 01:30:19,120

um i think they they obviously know more

2581

01:30:21,830 --> 01:30:20,719

than we know i think they have a lot

2582

01:30:23,110 --> 01:30:21,840

more evidence

2583

01:30:25,590 --> 01:30:23,120

but i think it's been so

2584

01:30:27,350 --> 01:30:25,600

compartmentalized and

2585

01:30:28,950 --> 01:30:27,360

broken up into different little parts

2586

01:30:30,629 --> 01:30:28,960

and sections that

2587

01:30:32,870 --> 01:30:30,639

you know i think there's quite very few

2588

01:30:35,350 --> 01:30:32,880

people that even know how much

2589

01:30:36,550 --> 01:30:35,360

information the government actually even

2590

01:30:39,189 --> 01:30:36,560

knows

2591

01:30:41,750 --> 01:30:39,199

yeah yeah but well i i'm i'm more or

2592

01:30:43,510 --> 01:30:41,760

less with you there on all that really

2593

01:30:45,590 --> 01:30:43,520

and that's what lou says it's all he

2594

01:30:47,030 --> 01:30:45,600

said it's basically understanding that's

2595

01:30:48,870 --> 01:30:47,040

what we need now

2596

01:30:50,070 --> 01:30:48,880

yeah i think it would be we can get a

2597

01:30:51,590 --> 01:30:50,080

lot quicker to understanding if they

2598

01:30:53,910 --> 01:30:51,600

would give us the evidence that they

2599

01:30:56,390 --> 01:30:53,920

have right you know or at least some of

2600

01:30:58,709 --> 01:30:56,400

it like yeah release something more it i

2601

01:31:00,790 --> 01:30:58,719

mean it sounds like they will um

2602

01:31:02,390 --> 01:31:00,800

it seems like it's taking a long time

2603

01:31:04,790 --> 01:31:02,400

yeah the three qu the three main

2604

01:31:06,390 --> 01:31:04,800

questions what are they why are they

2605

01:31:08,070 --> 01:31:06,400

here what do they want

2606

01:31:09,350 --> 01:31:08,080

you know those are that would be all

2607

01:31:12,709 --> 01:31:09,360

nice to

2608

01:31:14,790 --> 01:31:12,719

one of those three

2609

01:31:16,870 --> 01:31:14,800

yes or for all three of them all right

2610

01:31:18,629 --> 01:31:16,880

we have uh frank calling from south

2611

01:31:22,390 --> 01:31:18,639

texas frank you are live on the air

2612

01:31:25,750 --> 01:31:24,390

frankie there

2613

01:31:29,830 --> 01:31:25,760

frank

2614

01:31:32,149 --> 01:31:29,840

we can't hear you i got him yeah i guess

2615

01:31:36,470 --> 01:31:34,950

all right frank we uh i don't bill can

2616

01:31:38,229 --> 01:31:36,480

you hear me i don't know what's going on

2617

01:31:40,149 --> 01:31:38,239

but we're not hearing frank we heard him

2618

01:31:41,830 --> 01:31:40,159

before with a whole bunch of background

2619

01:31:43,030 --> 01:31:41,840

now we don't hear anything

2620

01:31:45,510 --> 01:31:43,040

bill i don't know if that's anything

2621

01:31:47,110 --> 01:31:45,520

you're doing

2622

01:31:49,110 --> 01:31:47,120

um

2623

01:31:51,830 --> 01:31:49,120

he's trying to get him on but yeah i

2624

01:31:54,550 --> 01:31:51,840

it's it's awful hard to know

2625

01:31:56,229 --> 01:31:54,560

uh frank just jump in if you if you uh

2626
01:31:58,149 --> 01:31:56,239
are back on there

2627
01:32:00,669 --> 01:31:58,159
and the line is open anyone else want to

2628
01:32:05,750 --> 01:32:00,679
call that number is

2629
01:32:10,310 --> 01:32:08,550
i remember when all the way back in 2011

2630
01:32:11,110 --> 01:32:10,320
when i started this show

2631
01:32:21,669 --> 01:32:11,120
i

2632
01:32:23,830 --> 01:32:21,679
government probably knows

2633
01:32:26,390 --> 01:32:23,840
something more about this

2634
01:32:29,350 --> 01:32:26,400
or something along those lines

2635
01:32:33,430 --> 01:32:30,229
frank

2636
01:32:35,910 --> 01:32:34,950
he's going to watch this later and just

2637
01:32:37,430 --> 01:32:35,920
okay

2638
01:32:39,270 --> 01:32:37,440

hey frank

2639

01:32:42,790 --> 01:32:39,280

i think we hear your voice frank we need

2640

01:32:45,189 --> 01:32:44,070

all right i'm going to have to bump you

2641

01:32:48,229 --> 01:32:45,199

out

2642

01:32:50,149 --> 01:32:48,239

sorry frank your last chance

2643

01:32:52,070 --> 01:32:50,159

i'm going to guess

2644

01:32:54,229 --> 01:32:52,080

i still don't hear

2645

01:32:55,750 --> 01:32:54,239

anything oh he's not hearing us bill

2646

01:32:58,070 --> 01:32:55,760

that's what it is he's not hearing us

2647

01:33:03,030 --> 01:33:01,270

so uh bill uh we may have to uh take

2648

01:33:06,790 --> 01:33:03,040

care of that in the uh phone line

2649

01:33:08,470 --> 01:33:06,800

somehow uh how it goes on kgra but uh so

2650

01:33:09,189 --> 01:33:08,480

bill just so you know he's not hearing

2651

01:33:10,950 --> 01:33:09,199

us

2652

01:33:12,229 --> 01:33:10,960

uh sorry about that frank

2653

01:33:13,910 --> 01:33:12,239

i don't know if we'll get that ironed

2654

01:33:15,830 --> 01:33:13,920

out or not uh for now i'm gonna take

2655

01:33:17,270 --> 01:33:15,840

down the phone number probably shouldn't

2656

01:33:21,350 --> 01:33:17,280

take any calls until that gets

2657

01:33:24,709 --> 01:33:23,350

but

2658

01:33:26,709 --> 01:33:24,719

all right here's here's the other

2659

01:33:29,110 --> 01:33:26,719

question for you so we don't know

2660

01:33:30,550 --> 01:33:29,120

whether or not anyone knows any more

2661

01:33:33,430 --> 01:33:30,560

than

2662

01:33:36,229 --> 01:33:33,440

uh then we know do you think there'll

2663

01:33:38,790 --> 01:33:36,239

ever be a time in our society

2664

01:33:40,550 --> 01:33:38,800

down the road let me before i finish

2665

01:33:42,470 --> 01:33:40,560

this question i'm gonna

2666

01:33:44,950 --> 01:33:42,480

backtrack a little bit

2667

01:33:47,110 --> 01:33:44,960

and just say that i watched a video back

2668

01:33:49,270 --> 01:33:47,120

in the 1950s

2669

01:33:51,189 --> 01:33:49,280

and this guy he looks like he's about 70

2670

01:33:55,189 --> 01:33:51,199

years old then he goes i just want to

2671

01:33:59,750 --> 01:33:57,910

so uh do you think that'll that day will

2672

01:34:01,590 --> 01:33:59,760

ever come do you think we'll ever you

2673

01:34:03,430 --> 01:34:01,600

know i don't want to use the disclosure

2674

01:34:05,830 --> 01:34:03,440

word but i want to use the word do you

2675

01:34:07,590 --> 01:34:05,840

think the day will ever come

2676
01:34:08,550 --> 01:34:07,600
that we'll know what these things are

2677
01:34:12,149 --> 01:34:08,560
that were

2678
01:34:16,790 --> 01:34:14,229
i hope so i think so

2679
01:34:18,709 --> 01:34:16,800
i don't you know i last

2680
01:34:21,350 --> 01:34:18,719
before this time this time last year i

2681
01:34:22,149 --> 01:34:21,360
would have said no never

2682
01:34:24,149 --> 01:34:22,159
you know

2683
01:34:25,510 --> 01:34:24,159
so i think it's changing so fast i think

2684
01:34:27,990 --> 01:34:25,520
we're moving in

2685
01:34:28,950 --> 01:34:28,000
the this is the information age

2686
01:34:32,229 --> 01:34:28,960
you know

2687
01:34:33,669 --> 01:34:32,239
yeah if it's true and if it's there

2688
01:34:35,110 --> 01:34:33,679

they're not going to be able to

2689

01:34:36,229 --> 01:34:35,120

keep it secret

2690

01:34:37,910 --> 01:34:36,239

this is not good we're in the

2691

01:34:40,470 --> 01:34:37,920

information age you know

2692

01:34:42,229 --> 01:34:40,480

yeah uh you think so you would think so

2693

01:34:44,070 --> 01:34:42,239

i'm going to try another another call

2694

01:34:46,390 --> 01:34:44,080

and see if bill was able to fix that

2695

01:34:47,990 --> 01:34:46,400

this is steve from washington state

2696

01:34:52,229 --> 01:34:48,000

steve you are live on the air welcome to

2697

01:34:52,239 --> 01:34:55,830

steve can you hear me

2698

01:35:00,709 --> 01:34:57,750

no dice

2699

01:35:02,310 --> 01:35:00,719

yeah we got you can you hear us

2700

01:35:06,229 --> 01:35:02,320

all right guys i'm not hearing you at

2701

01:35:07,990 --> 01:35:06,239

all yeah i'm sorry all right well uh

2702

01:35:10,390 --> 01:35:08,000

tell uh bill

2703

01:35:12,229 --> 01:35:10,400

bill thanks steve and uh sorry about

2704

01:35:13,270 --> 01:35:12,239

that everyone uh

2705

01:35:15,910 --> 01:35:13,280

there's something wrong with the phone

2706

01:35:17,350 --> 01:35:15,920

line we tested it earlier uh it seemed

2707

01:35:19,430 --> 01:35:17,360

to work fine but that's

2708

01:35:21,109 --> 01:35:19,440

that's the way it goes sorry about that

2709

01:35:22,390 --> 01:35:21,119

everyone um

2710

01:35:25,430 --> 01:35:22,400

and

2711

01:35:27,510 --> 01:35:25,440

so you know it would be nice to know but

2712

01:35:30,229 --> 01:35:27,520

i'm not really sure if

2713

01:35:32,149 --> 01:35:30,239

if that's necessary and you know maybe

2714

01:35:34,070 --> 01:35:32,159

it's a bunch of different things too

2715

01:35:36,550 --> 01:35:34,080

maybe we might get an explanation for

2716

01:35:38,870 --> 01:35:36,560

one thing but there may be other things

2717

01:35:41,830 --> 01:35:38,880

involved that we may not even be able to

2718

01:35:43,910 --> 01:35:41,840

understand how do you like that

2719

01:35:45,270 --> 01:35:43,920

yeah i hope not uh

2720

01:35:47,030 --> 01:35:45,280

that's

2721

01:35:48,870 --> 01:35:47,040

yeah i was talking would rather rather

2722

01:35:50,550 --> 01:35:48,880

be squidding uh

2723

01:35:52,149 --> 01:35:50,560

last night and he was saying that it may

2724

01:35:54,390 --> 01:35:52,159

be just unknowable you know that we

2725

01:35:56,709 --> 01:35:54,400

can't know it

2726
01:35:58,550 --> 01:35:56,719
i yeah i tend to think that we're gonna

2727
01:36:00,709 --> 01:35:58,560
when i talked to leslie kane

2728
01:36:01,590 --> 01:36:00,719
she said it's much more complex than

2729
01:36:05,030 --> 01:36:01,600
than

2730
01:36:07,030 --> 01:36:05,040
know i kept asking her what do you think

2731
01:36:08,870 --> 01:36:07,040
she trying to avoid the question

2732
01:36:10,310 --> 01:36:08,880
um but i kind of got yeah she always

2733
01:36:11,669 --> 01:36:10,320
does try to voice she doesn't never

2734
01:36:15,109 --> 01:36:11,679
wants to say

2735
01:36:16,310 --> 01:36:15,119
she's very careful

2736
01:36:18,070 --> 01:36:16,320
yeah

2737
01:36:19,910 --> 01:36:18,080
or i guess she doesn't

2738
01:36:21,510 --> 01:36:19,920

i i guess lu said the same thing he's

2739

01:36:23,669 --> 01:36:21,520

like it doesn't really matter what i

2740

01:36:25,350 --> 01:36:23,679

think it's what i can show or actually

2741

01:36:26,310 --> 01:36:25,360

prove or

2742

01:36:28,870 --> 01:36:26,320

um

2743

01:36:30,709 --> 01:36:28,880

yeah convince other people so but yes

2744

01:36:32,790 --> 01:36:30,719

she's definitely not convinced maybe

2745

01:36:34,870 --> 01:36:32,800

maybe herself but her point was it's

2746

01:36:35,669 --> 01:36:34,880

much more complex i think she'll find

2747

01:36:37,910 --> 01:36:35,679

that

2748

01:36:40,470 --> 01:36:37,920

it's related to life after death she was

2749

01:36:41,510 --> 01:36:40,480

studying life after death and right yeah

2750

01:36:43,990 --> 01:36:41,520

yes

2751
01:36:45,910 --> 01:36:44,000
she just thinks it's way more complex so

2752
01:36:47,669 --> 01:36:45,920
i think it'll be a

2753
01:36:48,790 --> 01:36:47,679
we will learn

2754
01:36:51,189 --> 01:36:48,800
you know

2755
01:36:53,910 --> 01:36:51,199
facts as we go it'll be a learning

2756
01:36:55,350 --> 01:36:53,920
process of expanding that's why i'm also

2757
01:36:57,910 --> 01:36:55,360
widening my net you know what i'm

2758
01:37:00,229 --> 01:36:57,920
looking at um i'm not just analyzing you

2759
01:37:01,830 --> 01:37:00,239
know the gimbal did it did it uh did it

2760
01:37:04,390 --> 01:37:01,840
rotate or not you know because i think

2761
01:37:05,750 --> 01:37:04,400
that's it's useful

2762
01:37:07,830 --> 01:37:05,760
but i almost think we're kind of past

2763
01:37:09,510 --> 01:37:07,840

that at this point where now it's

2764

01:37:11,350 --> 01:37:09,520

all right what is this thing what can we

2765

01:37:12,950 --> 01:37:11,360

learn about it

2766

01:37:15,270 --> 01:37:12,960

so i i think we i think it'll be a

2767

01:37:16,390 --> 01:37:15,280

gradual learning process just to some

2768

01:37:17,430 --> 01:37:16,400

end

2769

01:37:19,030 --> 01:37:17,440

um

2770

01:37:20,229 --> 01:37:19,040

yeah we'll see we'll see how it goes but

2771

01:37:21,830 --> 01:37:20,239

that's not normally how it works right

2772

01:37:23,910 --> 01:37:21,840

normally disruptive information just

2773

01:37:24,790 --> 01:37:23,920

flips everything on its head

2774

01:37:26,149 --> 01:37:24,800

yeah

2775

01:37:27,350 --> 01:37:26,159

like uh people always say about the

2776

01:37:28,550 --> 01:37:27,360

white house line i don't think that's

2777

01:37:29,590 --> 01:37:28,560

ever going to happen why would they

2778

01:37:31,430 --> 01:37:29,600

choose that

2779

01:37:34,629 --> 01:37:31,440

uh that wouldn't be

2780

01:37:37,270 --> 01:37:34,639

anyway uh benevolent

2781

01:37:39,590 --> 01:37:37,280

malevolent that is the other question is

2782

01:37:42,390 --> 01:37:39,600

uh you know you hear occasionally you

2783

01:37:45,350 --> 01:37:42,400

hear things uh about

2784

01:37:46,870 --> 01:37:45,360

um you know issues with people's health

2785

01:37:49,510 --> 01:37:46,880

people were hurt you know things like

2786

01:37:51,990 --> 01:37:49,520

that but for the most part i would think

2787

01:37:53,430 --> 01:37:52,000

that if whatever it is is here from

2788

01:37:54,950 --> 01:37:53,440

whatever they're

2789

01:37:58,629 --> 01:37:54,960

coming from

2790

01:38:00,709 --> 01:37:58,639

certainly do a lot more damage than has

2791

01:38:02,870 --> 01:38:00,719

been done i would think

2792

01:38:05,109 --> 01:38:02,880

you know if we're the like the ant hill

2793

01:38:06,629 --> 01:38:05,119

and their uh higher intelligence like us

2794

01:38:08,790 --> 01:38:06,639

walking by

2795

01:38:10,149 --> 01:38:08,800

could kick the sand a little bit and

2796

01:38:12,149 --> 01:38:10,159

yeah

2797

01:38:13,270 --> 01:38:12,159

you see a lot well you hear terrible

2798

01:38:15,510 --> 01:38:13,280

stories from

2799

01:38:17,430 --> 01:38:15,520

experiencers you know they're kind of

2800

01:38:20,470 --> 01:38:17,440

like plagued their whole lives and you

2801

01:38:21,590 --> 01:38:20,480

know passes down genetics

2802

01:38:24,470 --> 01:38:21,600

um well

2803

01:38:26,870 --> 01:38:24,480

yeah well right right but it doesn't it

2804

01:38:28,950 --> 01:38:26,880

doesn't seem necessarily uh

2805

01:38:30,950 --> 01:38:28,960

malevolent i guess

2806

01:38:33,750 --> 01:38:30,960

it almost just seems like

2807

01:38:36,870 --> 01:38:33,760

force of nature you know um

2808

01:38:40,390 --> 01:38:36,880

i guess is a tornado malevolent or is it

2809

01:38:46,390 --> 01:38:41,990

yeah i mean there's no

2810

01:38:47,430 --> 01:38:46,400

uh i guess motive for the tornado

2811

01:38:48,790 --> 01:38:47,440

but it

2812

01:38:50,550 --> 01:38:48,800

destroys your whole town and kills

2813

01:38:52,629 --> 01:38:50,560

everyone you know you know or

2814

01:38:53,590 --> 01:38:52,639

just as an example but

2815

01:38:55,189 --> 01:38:53,600

um

2816

01:38:58,470 --> 01:38:55,199

it seems like it's more of a force of

2817

01:38:59,669 --> 01:38:58,480

nature i guess is my impression but yeah

2818

01:39:01,990 --> 01:38:59,679

you know we're going to give frank

2819

01:39:04,070 --> 01:39:02,000

another try we'll get one more try bill

2820

01:39:06,229 --> 01:39:04,080

says give him one more try frank you are

2821

01:39:07,669 --> 01:39:06,239

on the line from south texas do you hear

2822

01:39:08,870 --> 01:39:07,679

me

2823

01:39:11,669 --> 01:39:08,880

yes i do

2824

01:39:13,990 --> 01:39:11,679

you can hear us now all right hi frank

2825

01:39:17,189 --> 01:39:14,000

welcome to that's right sorry about that

2826

01:39:19,030 --> 01:39:17,199

yeah you got a question for our guest

2827

01:39:21,430 --> 01:39:19,040

yeah sometimes

2828

01:39:23,669 --> 01:39:21,440

he works sometimes

2829

01:39:30,790 --> 01:39:23,679

but uh chris

2830

01:39:33,669 --> 01:39:32,870

you're welcome man yeah you're welcome

2831

01:39:37,669 --> 01:39:33,679

okay

2832

01:39:44,790 --> 01:39:37,679

so basically with the different

2833

01:39:49,430 --> 01:39:45,910

i

2834

01:39:51,430 --> 01:39:49,440

uh

2835

01:39:53,350 --> 01:39:51,440

bob lazar talked about when he was

2836

01:39:56,229 --> 01:39:53,360

working on the crest that he was working

2837

01:39:57,669 --> 01:39:56,239

on that there's a way to

2838

01:40:01,030 --> 01:39:57,679

the way he's describing it almost sounds

2839

01:40:04,229 --> 01:40:01,040

like he's aiming at gravity well and the

2840

01:40:06,629 --> 01:40:04,239

crap that you're in falls into that well

2841

01:40:09,910 --> 01:40:06,639

so it doesn't matter what

2842

01:40:11,109 --> 01:40:09,920

what media you're in whether it's air

2843

01:40:12,310 --> 01:40:11,119

space

2844

01:40:13,990 --> 01:40:12,320

water

2845

01:40:16,709 --> 01:40:14,000

it just takes it takes you from one

2846

01:40:19,669 --> 01:40:16,719

point to the other so you're basically

2847

01:40:22,550 --> 01:40:19,679

existing out of space time and therefore

2848

01:40:24,310 --> 01:40:22,560

you're not subject to sonic booms

2849

01:40:26,709 --> 01:40:24,320

i mean have you thought have you all

2850

01:40:29,270 --> 01:40:26,719

thought about that

2851

01:40:31,910 --> 01:40:29,280

yeah i do i mean um

2852

01:40:33,750 --> 01:40:31,920

i've i know lazar is controversial you

2853

01:40:36,470 --> 01:40:33,760

know he's a controversial guy i don't

2854

01:40:37,590 --> 01:40:36,480

believe in him yeah so i know martin

2855

01:40:39,830 --> 01:40:37,600

doesn't

2856

01:40:41,590 --> 01:40:39,840

and i

2857

01:40:42,550 --> 01:40:41,600

you know i trust martin i don't know but

2858

01:40:45,590 --> 01:40:42,560

uh

2859

01:40:46,870 --> 01:40:45,600

very interesting how he talks about that

2860

01:40:48,950 --> 01:40:46,880

yeah i mean

2861

01:40:52,550 --> 01:40:48,960

the concept uh

2862

01:40:54,070 --> 01:40:52,560

it doesn't it seems to make sense i mean

2863

01:40:55,750 --> 01:40:54,080

when you're able to

2864

01:40:58,149 --> 01:40:55,760

i mean i've actually

2865

01:40:59,510 --> 01:40:58,159

years back i actually got to see a what

2866

01:41:02,550 --> 01:40:59,520

i thought it was a shooting star making

2867

01:41:05,910 --> 01:41:02,560

a 90 degree turn at a 45 degree turn

2868

01:41:07,350 --> 01:41:05,920

and realized it was a big star

2869

01:41:09,350 --> 01:41:07,360

cool and

2870

01:41:12,709 --> 01:41:09,360

the the way you're able to defeat

2871

01:41:13,830 --> 01:41:12,719

inertia is to be outside of space time

2872

01:41:15,350 --> 01:41:13,840

and so

2873

01:41:16,629 --> 01:41:15,360

that's how i figure

2874

01:41:18,470 --> 01:41:16,639

that these

2875

01:41:20,950 --> 01:41:18,480

this phenomena is

2876

01:41:22,390 --> 01:41:20,960

being being able to do what it does

2877

01:41:24,709 --> 01:41:22,400

is that

2878

01:41:26,709 --> 01:41:24,719

it it's

2879

01:41:29,030 --> 01:41:26,719

the way i'm thinking about is shooting a

2880

01:41:29,990 --> 01:41:29,040

gravity well in whatever direction and

2881

01:41:36,229 --> 01:41:30,000

you're

2882

01:41:38,629 --> 01:41:36,239

physics as we know them

2883

01:41:41,430 --> 01:41:38,639

yeah exactly he says um

2884

01:41:42,470 --> 01:41:41,440

salvatore pais i was also looking at his

2885

01:41:44,790 --> 01:41:42,480

patents

2886

01:41:46,149 --> 01:41:44,800

which are which are very interesting and

2887

01:41:48,470 --> 01:41:46,159

they were kind of similar so i don't

2888

01:41:50,709 --> 01:41:48,480

know where actually where he got the the

2889

01:41:51,750 --> 01:41:50,719

ideas for it uh but

2890

01:41:53,750 --> 01:41:51,760

you know my

2891

01:41:55,830 --> 01:41:53,760

rudimentary understanding

2892

01:41:57,030 --> 01:41:55,840

of it is that uh at least lazar said

2893

01:41:58,629 --> 01:41:57,040

that you can

2894

01:42:01,510 --> 01:41:58,639

use a wave guide

2895

01:42:03,189 --> 01:42:01,520

to aim the gravity waves just like

2896

01:42:05,669 --> 01:42:03,199

microwaves

2897

01:42:08,149 --> 01:42:05,679

uh right yeah back in that time when you

2898

01:42:10,950 --> 01:42:08,159

know 89 i guess when he said that i

2899

01:42:12,629 --> 01:42:10,960

believe is 89 um they hadn't invented or

2900

01:42:15,030 --> 01:42:12,639

they hadn't found gravity waves yet

2901
01:42:16,709 --> 01:42:15,040
right we hadn't actually observed them

2902
01:42:19,030 --> 01:42:16,719
with our scientific instruments but

2903
01:42:20,709 --> 01:42:19,040
they'd been postulated for many years

2904
01:42:21,430 --> 01:42:20,719
you know i think i think einstein talked

2905
01:42:24,470 --> 01:42:21,440
about

2906
01:42:26,790 --> 01:42:24,480
uh gravity waves being possible um

2907
01:42:28,790 --> 01:42:26,800
at least i know they were they were

2908
01:42:30,229 --> 01:42:28,800
postulated for many decades previously

2909
01:42:32,149 --> 01:42:30,239
so

2910
01:42:34,950 --> 01:42:32,159
he could have come up with that you know

2911
01:42:37,590 --> 01:42:34,960
from some sort of science fiction

2912
01:42:40,070 --> 01:42:37,600
book i guess well

2913
01:42:46,070 --> 01:42:40,080

as it turns out science seems to follow

2914

01:42:50,790 --> 01:42:47,750

yeah i mean that would be it right and

2915

01:42:54,390 --> 01:42:50,800

so what they found in 2015 at the ligo

2916

01:42:56,950 --> 01:42:54,400

is that uh wherever it is montana

2917

01:42:58,790 --> 01:42:56,960

anyway that what they found is that

2918

01:43:00,390 --> 01:42:58,800

there are gravity waves they detected

2919

01:43:02,149 --> 01:43:00,400

them i mentioned with the laser martin

2920

01:43:03,590 --> 01:43:02,159

you know it's talking about the it's an

2921

01:43:05,590 --> 01:43:03,600

interferometer

2922

01:43:07,430 --> 01:43:05,600

basically just shoot a laser down a long

2923

01:43:09,510 --> 01:43:07,440

hallway four kilometers

2924

01:43:11,350 --> 01:43:09,520

and then you time it when it comes back

2925

01:43:12,950 --> 01:43:11,360

and so they have two long hallways 90

2926

01:43:14,470 --> 01:43:12,960

degrees apart

2927

01:43:16,470 --> 01:43:14,480

and the laser should come back at the

2928

01:43:18,229 --> 01:43:16,480

exact same time right

2929

01:43:20,790 --> 01:43:18,239

but if they don't now you can say

2930

01:43:22,149 --> 01:43:20,800

there's gravity waves um

2931

01:43:23,590 --> 01:43:22,159

and so they prove that that's what i was

2932

01:43:26,070 --> 01:43:23,600

talking about in space right because in

2933

01:43:27,750 --> 01:43:26,080

space the reason they put it it is four

2934

01:43:29,590 --> 01:43:27,760

kilometers is they have to suck out the

2935

01:43:31,910 --> 01:43:29,600

air to make it a vacuum but in space now

2936

01:43:34,470 --> 01:43:31,920

we can do it like a thousand kilometers

2937

01:43:35,830 --> 01:43:34,480

um maybe make it even uh

2938

01:43:37,510 --> 01:43:35,840

you know try and listen you know

2939

01:43:39,590 --> 01:43:37,520

actually listen to see if if we're

2940

01:43:41,109 --> 01:43:39,600

receiving any any uh

2941

01:43:42,390 --> 01:43:41,119

transmissions you know that at that

2942

01:43:43,430 --> 01:43:42,400

wavelength

2943

01:43:46,390 --> 01:43:43,440

but yeah no i think it's very

2944

01:43:48,950 --> 01:43:46,400

interesting and salvatore pais his his

2945

01:43:51,350 --> 01:43:48,960

uh high

2946

01:43:53,270 --> 01:43:51,360

high frequency gravity wave generator

2947

01:43:55,510 --> 01:43:53,280

that's what it is that's what he does to

2948

01:43:56,709 --> 01:43:55,520

actually excite the outside of the craft

2949

01:44:00,709 --> 01:43:56,719

um

2950

01:44:01,430 --> 01:44:00,719

exactly and also why i was interested in

2951
01:44:05,270 --> 01:44:01,440
that

2952
01:44:06,870 --> 01:44:05,280
some other way to transmit

2953
01:44:09,270 --> 01:44:06,880
information at least

2954
01:44:11,910 --> 01:44:09,280
than what we can see what we know

2955
01:44:17,590 --> 01:44:15,430
i guess being able to have a

2956
01:44:19,270 --> 01:44:17,600
your your

2957
01:44:21,830 --> 01:44:19,280
significant other

2958
01:44:25,350 --> 01:44:21,840
cells on the other end of the universe

2959
01:44:26,550 --> 01:44:25,360
correct is that what you're referring to

2960
01:44:29,189 --> 01:44:26,560
um

2961
01:44:30,950 --> 01:44:29,199
i don't know i guess be harder to get

2962
01:44:32,629 --> 01:44:30,960
i don't know

2963
01:44:37,030 --> 01:44:32,639

be able to

2964

01:44:40,709 --> 01:44:39,350

exactly yep so that would that would

2965

01:44:41,910 --> 01:44:40,719

show

2966

01:44:44,870 --> 01:44:41,920

uh and

2967

01:44:46,870 --> 01:44:44,880

we're considering um actual

2968

01:44:48,470 --> 01:44:46,880

scientific experiments to prove that

2969

01:44:50,470 --> 01:44:48,480

right to find that that would be part of

2970

01:44:52,950 --> 01:44:50,480

this we're looking for evidence of uaps

2971

01:44:55,270 --> 01:44:52,960

as well but i think you can do many

2972

01:44:56,790 --> 01:44:55,280

cheaper experiments to actually go

2973

01:44:58,709 --> 01:44:56,800

you know for this

2974

01:45:00,229 --> 01:44:58,719

psychic connection because it we all

2975

01:45:02,390 --> 01:45:00,239

have a brain

2976

01:45:04,070 --> 01:45:02,400

you know so we can all do so we can all

2977

01:45:05,910 --> 01:45:04,080

participate maybe in some of these in

2978

01:45:07,590 --> 01:45:05,920

these experiments if we do like a mass

2979

01:45:08,629 --> 01:45:07,600

experiment to prove the psychic

2980

01:45:09,910 --> 01:45:08,639

connection

2981

01:45:11,270 --> 01:45:09,920

yeah you can

2982

01:45:12,870 --> 01:45:11,280

just shows there's more than we know

2983

01:45:13,830 --> 01:45:12,880

which obviously there's more than we

2984

01:45:15,350 --> 01:45:13,840

know

2985

01:45:17,750 --> 01:45:15,360

yeah

2986

01:45:20,950 --> 01:45:17,760

well

2987

01:45:23,270 --> 01:45:20,960

put in my uh my question or two uh

2988

01:45:24,149 --> 01:45:23,280

i'm really thankful for the conversation

2989

01:45:26,390 --> 01:45:24,159

thank you

2990

01:45:28,550 --> 01:45:26,400

thanks a lot thanks frank and that's all

2991

01:45:30,870 --> 01:45:28,560

the time we have for uh calls this

2992

01:45:33,189 --> 01:45:30,880

evening yeah i think it's it's really

2993

01:45:35,189 --> 01:45:33,199

interesting and i think you know i think

2994

01:45:37,350 --> 01:45:35,199

we know very very

2995

01:45:39,750 --> 01:45:37,360

i say this probably too much

2996

01:45:41,750 --> 01:45:39,760

very little about what's really going on

2997

01:45:43,030 --> 01:45:41,760

around us we know just a little tiny

2998

01:45:45,430 --> 01:45:43,040

fragment

2999

01:45:47,030 --> 01:45:45,440

of what there is to know that's uh

3000

01:45:49,030 --> 01:45:47,040

probably right in front of us and we

3001
01:45:51,830 --> 01:45:49,040
just can't

3002
01:45:54,149 --> 01:45:51,840
figure out what it is and that includes

3003
01:45:54,950 --> 01:45:54,159
uaps as well

3004
01:45:58,709 --> 01:45:54,960
so

3005
01:46:00,310 --> 01:45:58,719
know wrapping up the show we've got

3006
01:46:02,390 --> 01:46:00,320
about you know three and a half minutes

3007
01:46:03,350 --> 01:46:02,400
or something like that so if you would

3008
01:46:05,750 --> 01:46:03,360
um

3009
01:46:07,990 --> 01:46:05,760
talk about how people can find your

3010
01:46:10,229 --> 01:46:08,000
youtube channel it's down in the notes

3011
01:46:13,189 --> 01:46:10,239
of the show notes as well as down

3012
01:46:15,109 --> 01:46:13,199
on the uh youtube and facebook uh down

3013
01:46:16,870 --> 01:46:15,119

in there on the text of the program all

3014

01:46:18,950 --> 01:46:16,880

you have to do is click on that link but

3015

01:46:20,629 --> 01:46:18,960

uh go over some of the shows some of the

3016

01:46:23,270 --> 01:46:20,639

if you can i don't know if you can pull

3017

01:46:25,430 --> 01:46:23,280

up your site right there yeah talk about

3018

01:46:26,950 --> 01:46:25,440

some of the titles and some of the shows

3019

01:46:29,669 --> 01:46:26,960

you have in the last few minutes we have

3020

01:46:31,750 --> 01:46:29,679

here and don't forget everyone next week

3021

01:46:33,990 --> 01:46:31,760

i'm going to be over at james fox

3022

01:46:36,470 --> 01:46:34,000

compound over in vermont and we're going

3023

01:46:37,669 --> 01:46:36,480

to be filming live doing the show live

3024

01:46:39,430 --> 01:46:37,679

right there

3025

01:46:41,910 --> 01:46:39,440

and uh should be

3026

01:46:43,270 --> 01:46:41,920

should be a lot of fun uh that's a high

3027

01:46:45,030 --> 01:46:43,280

energy guy right there i'll tell you

3028

01:46:46,629 --> 01:46:45,040

james fox

3029

01:46:53,030 --> 01:46:46,639

so

3030

01:46:54,550 --> 01:46:53,040

hey actually all i have is uh this

3031

01:46:56,149 --> 01:46:54,560

it's kind of tricky sometimes to find

3032

01:46:58,310 --> 01:46:56,159

your channels but you have you did a

3033

01:47:01,830 --> 01:46:58,320

show on dark matter which i really oh

3034

01:47:03,910 --> 01:47:01,840

here we go i liked a lot uh you know i

3035

01:47:07,030 --> 01:47:03,920

think it's really funny that uh a lot of

3036

01:47:09,510 --> 01:47:07,040

people that are skeptical or have been

3037

01:47:11,590 --> 01:47:09,520

for instance i've had uh seth shawsak on

3038

01:47:15,030 --> 01:47:11,600

i think three times on this show and

3039

01:47:16,390 --> 01:47:15,040

he's very skeptical about any part of

3040

01:47:18,390 --> 01:47:16,400

the uh

3041

01:47:19,430 --> 01:47:18,400

you know uaps ufos whatever you want to

3042

01:47:20,950 --> 01:47:19,440

call them

3043

01:47:23,030 --> 01:47:20,960

but yet you know he thinks there's

3044

01:47:24,310 --> 01:47:23,040

really something to dark matter

3045

01:47:26,790 --> 01:47:24,320

and yeah

3046

01:47:28,950 --> 01:47:26,800

and it's a thing that we can't

3047

01:47:31,109 --> 01:47:28,960

physically see touch there's the only

3048

01:47:32,390 --> 01:47:31,119

evidence we have is the reactionary

3049

01:47:33,430 --> 01:47:32,400

things that are happening out in the

3050

01:47:36,870 --> 01:47:33,440

universe

3051

01:47:38,229 --> 01:47:36,880

that's really it so this is uh this is

3052

01:47:40,070 --> 01:47:38,239

and 95

3053

01:47:41,590 --> 01:47:40,080

it's not even that there's a little bit

3054

01:47:43,990 --> 01:47:41,600

of dark matter

3055

01:47:45,990 --> 01:47:44,000

you know yeah it's like uh

3056

01:47:49,430 --> 01:47:46,000

no there's eighty percent of what we see

3057

01:47:52,149 --> 01:47:49,440

is dark matter or seven i think it's 73

3058

01:47:53,590 --> 01:47:52,159

or if i have that of all right is that

3059

01:47:55,270 --> 01:47:53,600

what it is

3060

01:47:58,550 --> 01:47:55,280

yeah and then the other 20 something

3061

01:48:01,750 --> 01:47:58,560

percent is dark energy

3062

01:48:03,669 --> 01:48:01,760

so it's really just 90 it's 95

3063

01:48:05,990 --> 01:48:03,679

of the stuff we we don't know what it is

3064

01:48:07,669 --> 01:48:06,000

isn't that crazy yeah yeah and they

3065

01:48:09,510 --> 01:48:07,679

don't they don't

3066

01:48:11,830 --> 01:48:09,520

they don't think their models are wrong

3067

01:48:13,590 --> 01:48:11,840

you know right it's like yeah if you if

3068

01:48:15,510 --> 01:48:13,600

you try to do google maps on a flat

3069

01:48:17,430 --> 01:48:15,520

earth you know basically i bet you're

3070

01:48:22,870 --> 01:48:17,440

going to be 95 off you probably won't

3071

01:48:27,270 --> 01:48:25,189

but yeah these yeah so i make uh i've

3072

01:48:28,870 --> 01:48:27,280

been making these fighter pilot videos

3073

01:48:31,590 --> 01:48:28,880

essentially um

3074

01:48:33,750 --> 01:48:31,600

what i use digital combat simulator is a

3075

01:48:35,270 --> 01:48:33,760

free to use yeah i love that yeah that's

3076

01:48:37,030 --> 01:48:35,280

super cool it feels like you're really

3077

01:48:38,229 --> 01:48:37,040

flying in that thing

3078

01:48:39,910 --> 01:48:38,239

it feels like you're really flying in

3079

01:48:42,229 --> 01:48:39,920

that thing man when you're flying it i

3080

01:48:44,149 --> 01:48:42,239

do enjoy it you know i'd miss flying

3081

01:48:45,750 --> 01:48:44,159

uh i bet you do i retired a couple years

3082

01:48:46,870 --> 01:48:45,760

ago and so it's cool to get back in the

3083

01:48:49,430 --> 01:48:46,880

jet and

3084

01:48:52,149 --> 01:48:49,440

yeah yeah it's fun um

3085

01:48:53,910 --> 01:48:52,159

yeah and talk to elizondo

3086

01:48:56,310 --> 01:48:53,920

uh leslie keane so i have a few

3087

01:48:58,310 --> 01:48:56,320

interviews over there um she's amazing

3088

01:49:00,870 --> 01:48:58,320

lizzie kane

3089

01:49:03,750 --> 01:49:00,880

there's yours right oh yeah

3090

01:49:05,109 --> 01:49:03,760

yeah yeah um you know getting back to

3091

01:49:06,470 --> 01:49:05,119

yeah we have just a minute here but

3092

01:49:07,910 --> 01:49:06,480

getting back to

3093

01:49:09,990 --> 01:49:07,920

to flying

3094

01:49:13,189 --> 01:49:10,000

i can't imagine how exciting that must

3095

01:49:14,870 --> 01:49:13,199

be so exciting to have the acceleration

3096

01:49:16,950 --> 01:49:14,880

and to be able to have that at your

3097

01:49:18,550 --> 01:49:16,960

command oh my god that that would be

3098

01:49:19,589 --> 01:49:18,560

such a dream to be able to do something

3099

01:49:20,470 --> 01:49:19,599

like that

3100

01:49:22,629 --> 01:49:20,480

yeah

3101

01:49:24,550 --> 01:49:22,639

it i mean the the simulators these days

3102

01:49:26,790 --> 01:49:24,560

are amazing really amazing yeah i mean

3103

01:49:28,390 --> 01:49:26,800

it's exactly it it looks exactly you

3104

01:49:30,790 --> 01:49:28,400

know you can't simulate the feel and the

3105

01:49:33,910 --> 01:49:30,800

g's and all that and the sweating and

3106

01:49:35,350 --> 01:49:33,920

the anxiety you know but uh

3107

01:49:37,750 --> 01:49:35,360

but you can simulate everything else

3108

01:49:39,910 --> 01:49:37,760

looks the same the the switch is almost

3109

01:49:41,270 --> 01:49:39,920

exactly the same it's it's cool yeah how

3110

01:49:43,109 --> 01:49:41,280

would you check it out

3111

01:49:45,109 --> 01:49:43,119

we have to wrap so thanks so much and

3112

01:49:46,870 --> 01:49:45,119

remember next week james fox tomorrow

3113

01:49:49,430 --> 01:49:46,880

night skin walker ranch same time right

3114

01:49:51,589 --> 01:49:49,440

here on youtube thank you very much it's

3115

01:49:52,950 --> 01:49:51,599

always a pleasure talking to you

3116

01:49:54,470 --> 01:49:52,960

and thank you martin thanks everybody

3117

01:49:55,830 --> 01:49:54,480

who's here thanks for being here you bet

3118

01:49:56,790 --> 01:49:55,840

and you're always welcome on the show

3119

01:49:58,310 --> 01:49:56,800

take care

3120

01:50:01,930 --> 01:49:58,320

all right everyone so keep your eyes to

3121

01:50:11,270 --> 01:50:01,940

the sky and we'll see you next week
