ROJAS**

#509

1
00:00:20,060 --> 00:00:04,420
foreign

2
00:00:58,869 --> 00:00:29,200
[Music]

3
00:01:05,450 --> 00:01:02,869
host and I have one of my favorites on

4
00:01:07,990 --> 00:01:05,460
with me this evening a very good friend

5
00:01:11,210 --> 00:01:08,000
of mine Alejandro Rojas

6
00:01:13,010 --> 00:01:11,220
he has been we've been on together each

7
00:01:16,550 --> 00:01:13,020
other's shows for years

8
00:01:18,950 --> 00:01:16,560
and uh I helped him with news on his

9
00:01:21,710 --> 00:01:18,960
open minds broadcast and he helped me

10
00:01:23,870 --> 00:01:21,720
for many years uh he got covet came

11
00:01:25,190 --> 00:01:23,880
along he got super busy he's been kind

12
00:01:28,550 --> 00:01:25,200
of out of it a little bit for a while

13
00:01:31,190 --> 00:01:28,560

and uh it's my pleasure to be talking to

14

00:01:32,810 --> 00:01:31,200

him tonight and he is right back into it

15

00:01:35,929 --> 00:01:32,820

again we're going to be talking about

16

00:01:38,030 --> 00:01:35,939

all of that and the blog this week is

17

00:01:41,149 --> 00:01:38,040

called it's quite an unusual title I

18

00:01:43,249 --> 00:01:41,159

have to say French hairy dwarfs and what

19

00:01:45,770 --> 00:01:43,259

what's its

20

00:01:49,310 --> 00:01:45,780

um well this is by Charles learness

21

00:01:51,649 --> 00:01:49,320

actually chapter seven in his book uh

22

00:01:53,090 --> 00:01:51,659

that has just been released and he's

23

00:01:54,170 --> 00:01:53,100

going to be on in a couple weeks and

24

00:01:55,190 --> 00:01:54,180

we're going to be talking about that

25

00:01:57,830 --> 00:01:55,200

book but

26

00:02:00,170 --> 00:01:57,840

basically he was inspired after doing

27

00:02:02,510 --> 00:02:00,180

all these blogs to write his own book

28

00:02:04,969 --> 00:02:02,520

and it's already being really well

29

00:02:07,429 --> 00:02:04,979

received he's going to be on several

30

00:02:09,290 --> 00:02:07,439

shows not just this one but

31

00:02:12,589 --> 00:02:09,300

coast to coast and a few others so I'm

32

00:02:15,410 --> 00:02:12,599

really happy uh for him about that

33

00:02:16,790 --> 00:02:15,420

and let's see what do we have here in

34

00:02:19,550 --> 00:02:16,800

this side private chat I think

35

00:02:21,770 --> 00:02:19,560

everything's okay so uh

36

00:02:23,150 --> 00:02:21,780

again Alejandro will be on with us in

37

00:02:25,610 --> 00:02:23,160

just a minute I do want to thank

38

00:02:27,949 --> 00:02:25,620

everyone that supports the show that

39

00:02:29,570 --> 00:02:27,959

means a great deal to me I do appreciate

40

00:02:32,030 --> 00:02:29,580

every single listener if you're

41

00:02:35,449 --> 00:02:32,040

interested in supporting a show just go

42

00:02:37,369 --> 00:02:35,459

over to podcast ufo.com and you'll see

43

00:02:38,869 --> 00:02:37,379

support the show there's a met at the

44

00:02:40,850 --> 00:02:38,879

menu bar on the top

45

00:02:45,290 --> 00:02:40,860

and I'm going to be actually a speaker

46

00:02:47,030 --> 00:02:45,300

this weekend at Pine Bush and I'm really

47

00:02:49,610 --> 00:02:47,040

looking forward to being there anyway

48

00:02:51,710 --> 00:02:49,620

and um last minute

49

00:02:55,070 --> 00:02:51,720

um one of the speakers for health

50

00:02:58,369 --> 00:02:55,080

reasons couldn't couldn't you know uh do

51
00:03:00,530 --> 00:02:58,379
his uh his topic so I was asked to speak

52
00:03:01,970 --> 00:03:00,540
I'm really looking forward to that so if

53
00:03:05,570 --> 00:03:01,980
you're there and you'll listen to the

54
00:03:08,809 --> 00:03:05,580
show please please do say hi so and uh

55
00:03:10,009 --> 00:03:08,819
the other alternative to that is the SCU

56
00:03:13,070 --> 00:03:10,019
conference I'm going to be talking to

57
00:03:14,750 --> 00:03:13,080
Alejandro about that and I really do

58
00:03:17,330 --> 00:03:14,760
want to get to that hopefully next year

59
00:03:19,970 --> 00:03:17,340
they won't fall on the same weekend but

60
00:03:22,070 --> 00:03:19,980
here I am bringing in my buddy Alejandro

61
00:03:25,130 --> 00:03:22,080
welcome

62
00:03:27,309 --> 00:03:25,140
hello I was just busy uh talking smack

63
00:03:29,809 --> 00:03:27,319

about Pine Bush in the chat there

64

00:03:32,570 --> 00:03:29,819

telling people they got to go to SCU but

65

00:03:34,789 --> 00:03:32,580

of course oh a lot of our great friends

66

00:03:37,130 --> 00:03:34,799

are gonna be in Pine Bush but they're

67

00:03:39,530 --> 00:03:37,140

going to be the less educated

68

00:03:42,830 --> 00:03:39,540

because they're gonna miss out on the

69

00:03:45,470 --> 00:03:42,840

SCU oh yes we're messing with you guys

70

00:03:47,690 --> 00:03:45,480

yeah yeah yeah yeah great to great to

71

00:03:49,670 --> 00:03:47,700

see you um that was fun I went out there

72

00:03:52,369 --> 00:03:49,680

and I had a little visit with you this

73

00:03:55,729 --> 00:03:52,379

is uh you and I a little picture here oh

74

00:03:58,130 --> 00:03:55,739

yeah yeah that was a fun day yeah fun

75

00:04:00,550 --> 00:03:58,140

couple days we had but anyway it's

76

00:04:03,949 --> 00:04:00,560

always good to see you and I get email

77

00:04:07,009 --> 00:04:03,959

every week where's Alejandro what's he

78

00:04:09,229 --> 00:04:07,019

up to you know what yeah blah blah blah

79

00:04:10,369 --> 00:04:09,239

so why don't you tell everyone what

80

00:04:12,229 --> 00:04:10,379

you've been up to I know you've been

81

00:04:13,610 --> 00:04:12,239

working and you've been working hours

82

00:04:15,949 --> 00:04:13,620

per day

83

00:04:18,590 --> 00:04:15,959

it's so funny because I look like such a

84

00:04:20,569 --> 00:04:18,600

mess right now um but that's because I

85

00:04:23,629 --> 00:04:20,579

am deep in the trenches and really I am

86

00:04:27,230 --> 00:04:23,639

back in the trenches uh more behind the

87

00:04:29,330 --> 00:04:27,240

scenes right now in the UAP world so

88

00:04:31,550 --> 00:04:29,340

um yeah I am back I'm working for a

89

00:04:33,890 --> 00:04:31,560

software company that's creating a UAP

90

00:04:36,530 --> 00:04:33,900

app there'll be more coming up on that

91

00:04:38,450 --> 00:04:36,540

uh later on really they're kind of like

92

00:04:40,070 --> 00:04:38,460

they say working in stealth mode as they

93

00:04:42,770 --> 00:04:40,080

get their app rolling and essentially

94

00:04:45,890 --> 00:04:42,780

I'm their content guy so I'm developing

95

00:04:48,230 --> 00:04:45,900

uh kind of a Wikipedia for UAP

96

00:04:50,870 --> 00:04:48,240

that I am extremely excited about

97

00:04:54,590 --> 00:04:50,880

because uh we have some excellent

98

00:04:56,990 --> 00:04:54,600

writers and they uh the pieces are great

99

00:04:58,310 --> 00:04:57,000

I think that this Wikipedia is going to

100

00:05:02,510 --> 00:04:58,320

be

101

00:05:04,189 --> 00:05:02,520

comes to investigating

102

00:05:06,170 --> 00:05:04,199

um the serious side of this topic

103

00:05:08,689 --> 00:05:06,180

because we've just got a lot of great

104

00:05:11,330 --> 00:05:08,699

information and much better takes and

105

00:05:12,189 --> 00:05:11,340

more comprehensive information

106

00:05:15,469 --> 00:05:12,199

um

107

00:05:17,450 --> 00:05:15,479

so is this someone's brain child that

108

00:05:20,450 --> 00:05:17,460

basically reached out to you

109

00:05:22,249 --> 00:05:20,460

yeah really uh it's great this was a

110

00:05:25,249 --> 00:05:22,259

group a lot of the people there's so

111

00:05:27,950 --> 00:05:25,259

there's a lot of money being put into uh

112

00:05:29,990 --> 00:05:27,960

this topic in certain areas

113

00:05:31,370 --> 00:05:30,000

um and people with money uh and people

114

00:05:33,770 --> 00:05:31,380

in the mainstream are trying to figure

115

00:05:35,749 --> 00:05:33,780

out you know what to do in this and and

116

00:05:37,129 --> 00:05:35,759

that's good and bad you know there are a

117

00:05:38,930 --> 00:05:37,139

lot of people and we've talked about

118

00:05:41,150 --> 00:05:38,940

this before Martin

119

00:05:42,770 --> 00:05:41,160

um and a lot of people get really upset

120

00:05:44,870 --> 00:05:42,780

you know we definitely have heard it

121

00:05:46,670 --> 00:05:44,880

when we charge for

122

00:05:48,770 --> 00:05:46,680

um products or charge for our

123

00:05:51,650 --> 00:05:48,780

information but we have to so for

124

00:05:54,230 --> 00:05:51,660

instance you know uh open minds was very

125

00:05:56,330 --> 00:05:54,240

very popular really out of the podcasts

126
00:05:58,129 --> 00:05:56,340
out there and the websites you know we

127
00:06:00,290 --> 00:05:58,139
were getting tons of hits tons of

128
00:06:01,730 --> 00:06:00,300
listens you know I won't say even some

129
00:06:04,189 --> 00:06:01,740
of our friends are talking about oh I

130
00:06:06,170 --> 00:06:04,199
just hit this Milestone we hit that a

131
00:06:09,590 --> 00:06:06,180
long time ago it opened right but I

132
00:06:11,629 --> 00:06:09,600
remember you yeah the point was that it

133
00:06:14,210 --> 00:06:11,639
just even at that level it was hard to

134
00:06:16,790 --> 00:06:14,220
monetize it uh at a level that wasn't

135
00:06:18,710 --> 00:06:16,800
too high and to keep your listeners and

136
00:06:20,990 --> 00:06:18,720
viewers and and I don't blame viewers

137
00:06:23,629 --> 00:06:21,000
I've always been of the mind to try to

138
00:06:25,909 --> 00:06:23,639

provide as much uh free content as

139

00:06:28,909 --> 00:06:25,919

possible and you know when I started

140

00:06:31,129 --> 00:06:28,919

doing this a couple decades ago even the

141

00:06:33,230 --> 00:06:31,139

news you know wasn't charging nobody you

142

00:06:35,090 --> 00:06:33,240

know the news was free they were you

143

00:06:36,529 --> 00:06:35,100

know relying off of like the sales of

144

00:06:38,570 --> 00:06:36,539

their print media and stuff like that

145

00:06:40,610 --> 00:06:38,580

but things have changed a lot and now

146

00:06:42,170 --> 00:06:40,620

even your local Outlet is probably

147

00:06:45,050 --> 00:06:42,180

charging you a few bucks to read the

148

00:06:46,670 --> 00:06:45,060

news which is really frustrating but at

149

00:06:48,770 --> 00:06:46,680

the same time we can't do what we do and

150

00:06:51,650 --> 00:06:48,780

provide this information without uh

151
00:06:53,510 --> 00:06:51,660
monetizing it and as this topic becomes

152
00:06:55,550 --> 00:06:53,520
monetized and more and more money is

153
00:06:57,710 --> 00:06:55,560
thrown at it a lot of people get upset

154
00:06:59,270 --> 00:06:57,720
they get worried about that but that is

155
00:07:01,070 --> 00:06:59,280
actually a good thing

156
00:07:02,990 --> 00:07:01,080
um no doubt I mean if you look at any

157
00:07:05,330 --> 00:07:03,000
topic out there that is very popular

158
00:07:07,490 --> 00:07:05,340
tons of money is thrown at it that's the

159
00:07:09,589 --> 00:07:07,500
nature of it good and bad because of

160
00:07:11,330 --> 00:07:09,599
course you have you'll have maybe Disney

161
00:07:13,550 --> 00:07:11,340
theme park it's going to come up with a

162
00:07:16,909 --> 00:07:13,560
UAP theme and you know it'll probably be

163
00:07:19,129 --> 00:07:16,919

based on kind of the silly stuff you

164

00:07:20,870 --> 00:07:19,139

know or are fictionalized which gets

165

00:07:22,969 --> 00:07:20,880

frustrating or you know kind of like

166

00:07:24,650 --> 00:07:22,979

what happened to Project Blue Book TV

167

00:07:26,689 --> 00:07:24,660

show was definitely very fictionalized

168

00:07:28,850 --> 00:07:26,699

to make it more fun that sort of thing

169

00:07:30,950 --> 00:07:28,860

happens but at the same time money gets

170

00:07:34,129 --> 00:07:30,960

thrown or money is available for more

171

00:07:36,350 --> 00:07:34,139

serious uh stuff so these people are

172

00:07:38,450 --> 00:07:36,360

trying to come in and and look at both

173

00:07:41,870 --> 00:07:38,460

sides of things and the more serious

174

00:07:44,570 --> 00:07:41,880

side of things are shy to work with UFO

175

00:07:45,890 --> 00:07:44,580

researchers and uh really it was because

176

00:07:47,390 --> 00:07:45,900

they were trying to work with a

177

00:07:49,129 --> 00:07:47,400

mainstream journalist who was just like

178

00:07:51,050 --> 00:07:49,139

hey I get all my stuff from this guy

179

00:07:52,249 --> 00:07:51,060

that's who you need to talk to because I

180

00:07:53,869 --> 00:07:52,259

couldn't have done this without them and

181

00:07:56,089 --> 00:07:53,879

you're not going to be able to do this

182

00:07:58,309 --> 00:07:56,099

without an expert and so that's how I

183

00:08:00,529 --> 00:07:58,319

came about it and they ended up agreeing

184

00:08:02,749 --> 00:08:00,539

and hiring me to do this content which

185

00:08:05,809 --> 00:08:02,759

is great because yeah I'm able to do it

186

00:08:07,430 --> 00:08:05,819

uh at a more informed level to make sure

187

00:08:11,210 --> 00:08:07,440

that our pieces are very comprehensive

188

00:08:13,070 --> 00:08:11,220

and no doubt when we launch you know our

189

00:08:14,390 --> 00:08:13,080

pieces there's going to be experts on

190

00:08:16,249 --> 00:08:14,400

certain cases that are going to say hey

191

00:08:18,589 --> 00:08:16,259

you forgot this or you forgot that oh

192

00:08:20,689 --> 00:08:18,599

yeah expecting that but but I'm not I'm

193

00:08:22,249 --> 00:08:20,699

looking for it as well because you know

194

00:08:24,230 --> 00:08:22,259

we'll make sure and keep it up to date

195

00:08:25,850 --> 00:08:24,240

as we get that sort of information but

196

00:08:27,770 --> 00:08:25,860

the researchers I have that's what's

197

00:08:29,629 --> 00:08:27,780

beautiful I'm providing them with a

198

00:08:31,610 --> 00:08:29,639

bunch of research on the topics they're

199

00:08:33,409 --> 00:08:31,620

writing about so stuff that I think

200

00:08:35,690 --> 00:08:33,419

needs to be in the piece but they're

201
00:08:37,909 --> 00:08:35,700
doing their own research as well and

202
00:08:40,190 --> 00:08:37,919
finding even more and I certainly don't

203
00:08:41,930 --> 00:08:40,200
want them to take my take I want to make

204
00:08:43,250 --> 00:08:41,940
sure this is unbiased and have their own

205
00:08:47,750 --> 00:08:43,260
take

206
00:08:50,090 --> 00:08:47,760
um because you know some of the less uh

207
00:08:52,250 --> 00:08:50,100
credible cases you know are going to be

208
00:08:55,070 --> 00:08:52,260
difficult to stand on their own but the

209
00:08:56,570 --> 00:08:55,080
better cases of course are are just you

210
00:08:57,829 --> 00:08:56,580
know the head shakers the ones where you

211
00:08:59,269 --> 00:08:57,839
read them and look at it and you're like

212
00:09:01,610 --> 00:08:59,279
what the heck this is this is

213
00:09:05,810 --> 00:09:01,620

extraordinary with all of the references

214

00:09:07,550 --> 00:09:05,820

attached to it yeah so now so yeah yeah

215

00:09:09,769 --> 00:09:07,560

how can let's see I'm just trying to

216

00:09:12,350 --> 00:09:09,779

figure out how this thing will work you

217

00:09:15,350 --> 00:09:12,360

say it's an app so it's an app that

218

00:09:17,030 --> 00:09:15,360

anyone can have on their smartphone and

219

00:09:19,790 --> 00:09:17,040

then this app is going to be information

220

00:09:22,490 --> 00:09:19,800

like updated constantly type of thing is

221

00:09:24,590 --> 00:09:22,500

that yeah so the app itself

222

00:09:26,570 --> 00:09:24,600

um is going to be a sightings based app

223

00:09:28,910 --> 00:09:26,580

and really they've they've put out a

224

00:09:31,370 --> 00:09:28,920

Blog about this

225

00:09:32,810 --> 00:09:31,380

um and I could share it in the chat

226

00:09:34,850 --> 00:09:32,820

actually

227

00:09:36,470 --> 00:09:34,860

um so people can look at it which kind

228

00:09:38,930 --> 00:09:36,480

of describes who they are you can also

229

00:09:41,870 --> 00:09:38,940

uh share it on the screen too

230

00:09:44,449 --> 00:09:41,880

oh okay yeah let me do that yeah

231

00:09:46,610 --> 00:09:44,459

that makes sense and um I can also put

232

00:09:48,590 --> 00:09:46,620

that into the show notes I'd be glad to

233

00:09:51,769 --> 00:09:48,600

do that as well

234

00:09:53,810 --> 00:09:51,779

you know put it in the chat here but uh

235

00:09:55,310 --> 00:09:53,820

really and the reason I'm sharing this

236

00:09:58,430 --> 00:09:55,320

is this is all the information that

237

00:10:00,350 --> 00:09:58,440

we've shared thus far

238

00:10:02,930 --> 00:10:00,360

um share

239

00:10:05,030 --> 00:10:02,940

and also I want to talk to you about you

240

00:10:07,069 --> 00:10:05,040

know the good and the bad of because

241

00:10:10,130 --> 00:10:07,079

there's always you know for a reaction

242

00:10:12,710 --> 00:10:10,140

there's a reaction type of thing so

243

00:10:16,250 --> 00:10:12,720

um the good well the very good thing I

244

00:10:18,290 --> 00:10:16,260

think you know in my opinion is that of

245

00:10:25,069 --> 00:10:18,300

this topic is

246

00:10:27,350 --> 00:10:25,079

like rolling down snowball rolling

247

00:10:29,389 --> 00:10:27,360

downhill it's a

248

00:10:31,190 --> 00:10:29,399

people are taking serious science is

249

00:10:32,750 --> 00:10:31,200

taking it more serious we had the

250

00:10:35,030 --> 00:10:32,760

hearing we could talk a little bit about

251

00:10:38,030 --> 00:10:35,040

that too and

252

00:10:40,910 --> 00:10:38,040

it's all good I don't know so that's the

253

00:10:44,210 --> 00:10:40,920

what what is the name of this app

254

00:10:45,949 --> 00:10:44,220

yeah so uh yeah to wrap up Enigma Labs

255

00:10:47,870 --> 00:10:45,959

is kind of the company

256

00:10:49,430 --> 00:10:47,880

um the app name hasn't been necessarily

257

00:10:51,530 --> 00:10:49,440

determined

258

00:10:53,030 --> 00:10:51,540

um and all this is just saying that that

259

00:10:55,490 --> 00:10:53,040

we're coming out with a nap right now

260

00:10:57,710 --> 00:10:55,500

we're working stealthily uh it justifies

261

00:11:00,350 --> 00:10:57,720

the importance of doing this but

262

00:11:01,970 --> 00:11:00,360

essentially it's going to be

263

00:11:05,210 --> 00:11:01,980

um

264

00:11:11,810 --> 00:11:09,410

uh a signing app so uh okay it's going

265

00:11:14,389 --> 00:11:11,820

to be similar to an app called citizen

266

00:11:15,769 --> 00:11:14,399

uh just because there there's some loose

267

00:11:17,389 --> 00:11:15,779

affiliation but a lot of people are out

268

00:11:18,829 --> 00:11:17,399

there oh these are the people and some

269

00:11:20,329 --> 00:11:18,839

people are out there saying these are

270

00:11:22,970 --> 00:11:20,339

the people who made citizen that's not

271

00:11:25,670 --> 00:11:22,980

true there's maybe uh one or two similar

272

00:11:26,690 --> 00:11:25,680

people uh but uh this is totally

273

00:11:29,150 --> 00:11:26,700

different

274

00:11:31,730 --> 00:11:29,160

see we've already got is this a cash

275

00:11:33,230 --> 00:11:31,740

grab or should we pay for the truth see

276

00:11:35,090 --> 00:11:33,240

those kind of comments are

277

00:11:37,069 --> 00:11:35,100

counterproductive and they're they're

278

00:11:39,410 --> 00:11:37,079

silly and and you guys gotta I think

279

00:11:41,150 --> 00:11:39,420

people gotta realize what topic out

280

00:11:43,970 --> 00:11:41,160

there

281

00:11:46,730 --> 00:11:43,980

um do you get information about

282

00:11:48,110 --> 00:11:46,740

for free practically at all anymore

283

00:11:49,850 --> 00:11:48,120

you don't

284

00:11:51,410 --> 00:11:49,860

um well that that is kind of like a

285

00:11:53,810 --> 00:11:51,420

that's kind of like the double-edged

286

00:11:56,990 --> 00:11:53,820

sword of of what has happened you know

287

00:11:59,870 --> 00:11:57,000

with the internet and what you know

288

00:12:03,170 --> 00:11:59,880

there are so many things that people can

289

00:12:04,970 --> 00:12:03,180

you know get for free and then it was

290

00:12:07,490 --> 00:12:04,980

it's been a real hard move look at the

291

00:12:10,250 --> 00:12:07,500

music industry for one you know they had

292

00:12:13,009 --> 00:12:10,260

to move from you know this platform

293

00:12:16,129 --> 00:12:13,019

where you'd be paying for vinyl you know

294

00:12:18,410 --> 00:12:16,139

records or tapes or CDs or whatever and

295

00:12:20,569 --> 00:12:18,420

then all of a sudden it becomes I'm

296

00:12:23,690 --> 00:12:20,579

trying to remember the name of that uh

297

00:12:25,850 --> 00:12:23,700

Napster what was that yeah Napster but

298

00:12:27,530 --> 00:12:25,860

the issue the the kind of the with this

299

00:12:29,870 --> 00:12:27,540

field and I think this is a problem that

300

00:12:30,470 --> 00:12:29,880

people don't realize especially with you

301
00:12:32,530 --> 00:12:30,480
know

302
00:12:35,389 --> 00:12:32,540
um Grassroots type of efforts like this

303
00:12:38,629 --> 00:12:35,399
you need there this is the time when

304
00:12:40,310 --> 00:12:38,639
people need money the most because you

305
00:12:43,069 --> 00:12:40,320
have to have resources to do this

306
00:12:45,170 --> 00:12:43,079
research without resources This research

307
00:12:47,269 --> 00:12:45,180
is not going to happen well that's why

308
00:12:49,730 --> 00:12:47,279
science has not taken it Sarah seriously

309
00:12:51,590 --> 00:12:49,740
for exactly without money it's not going

310
00:12:54,170 --> 00:12:51,600
to happen period

311
00:12:56,269 --> 00:12:54,180
um and without money we can't do what we

312
00:12:57,530 --> 00:12:56,279
do without money I couldn't do and

313
00:12:59,329 --> 00:12:57,540

that's where I was essentially getting

314

00:13:02,389 --> 00:12:59,339

at I couldn't do what I do that's why

315

00:13:04,910 --> 00:13:02,399

open minds went off because people like

316

00:13:07,190 --> 00:13:04,920

you welcome to the show are unwilling to

317

00:13:08,870 --> 00:13:07,200

help us do the work that we do and if

318

00:13:11,090 --> 00:13:08,880

you're unwilling to do the work that we

319

00:13:13,490 --> 00:13:11,100

do don't be surprised if it goes away

320

00:13:16,129 --> 00:13:13,500

and if you're not willing to help out

321

00:13:17,449 --> 00:13:16,139

monetarily then do some research and do

322

00:13:19,550 --> 00:13:17,459

your own show and get your own

323

00:13:21,470 --> 00:13:19,560

information out there because that's

324

00:13:24,230 --> 00:13:21,480

really what it's it and that may sound

325

00:13:26,389 --> 00:13:24,240

harsh but it's the true reality if that

326

00:13:28,490 --> 00:13:26,399

you know nothing's going to happen if

327

00:13:30,710 --> 00:13:28,500

Nobody Does it and nobody can do

328

00:13:32,509 --> 00:13:30,720

anything without money so the things

329

00:13:35,210 --> 00:13:32,519

that are typically free out there people

330

00:13:37,370 --> 00:13:35,220

put money towards for open minds the

331

00:13:39,410 --> 00:13:37,380

owner of open minds probably spent at

332

00:13:42,110 --> 00:13:39,420

least a million dollars of his own money

333

00:13:44,870 --> 00:13:42,120

and that's a big chunk of his own money

334

00:13:46,430 --> 00:13:44,880

sure he's he's got a million dollars but

335

00:13:48,470 --> 00:13:46,440

he had to spend a million dollars of his

336

00:13:50,629 --> 00:13:48,480

own own money so you people could get

337

00:13:52,490 --> 00:13:50,639

that open minds information that is

338

00:13:55,009 --> 00:13:52,500

still out there today and I've

339

00:13:57,230 --> 00:13:55,019

demonetized everything to make sure

340

00:13:59,930 --> 00:13:57,240

everybody can get something so there you

341

00:14:01,790 --> 00:13:59,940

go if we don't have some rich person who

342

00:14:03,769 --> 00:14:01,800

is able to spend a million dollars we

343

00:14:05,750 --> 00:14:03,779

don't have anything at all or people

344

00:14:07,610 --> 00:14:05,760

like you who are dedicated to spending

345

00:14:08,990 --> 00:14:07,620

your own time and money to do this or

346

00:14:10,610 --> 00:14:09,000

people might like me because that's what

347

00:14:12,530 --> 00:14:10,620

I did for for many many years and

348

00:14:15,170 --> 00:14:12,540

continue to do

349

00:14:16,490 --> 00:14:15,180

um so so that's the thing now this app I

350

00:14:18,650 --> 00:14:16,500

think there's going to be a free version

351

00:14:20,269 --> 00:14:18,660

I don't think the month the the side of

352

00:14:22,129 --> 00:14:20,279

everything's been figured out they'll be

353

00:14:23,750 --> 00:14:22,139

but most like most apps there's a free

354

00:14:26,810 --> 00:14:23,760

version and then there's things that you

355

00:14:29,150 --> 00:14:26,820

pay for inside uh so that will be

356

00:14:31,730 --> 00:14:29,160

available but otherwise yeah the website

357

00:14:33,069 --> 00:14:31,740

and and or Wikipedia you know we're just

358

00:14:35,930 --> 00:14:33,079

going to have a lot of great information

359

00:14:37,610 --> 00:14:35,940

and uh sorry if you're not willing to

360

00:14:39,350 --> 00:14:37,620

pay a dollar or two to to get that

361

00:14:40,910 --> 00:14:39,360

information then you're just not gonna

362

00:14:42,889 --> 00:14:40,920

get it and that's the way the world

363

00:14:45,050 --> 00:14:42,899

works and I think that's what is

364

00:14:47,090 --> 00:14:45,060

important uh with this field a lot of

365

00:14:48,290 --> 00:14:47,100

people love to Rally against it

366

00:14:50,810 --> 00:14:48,300

shouldn't be this way it shouldn't be

367

00:14:53,150 --> 00:14:50,820

that way the hearing should be like this

368

00:14:54,889 --> 00:14:53,160

this should be like that well the world

369

00:14:57,350 --> 00:14:54,899

is the way the world is we can either

370

00:14:59,750 --> 00:14:57,360

learn how to operate in it and operate

371

00:15:01,790 --> 00:14:59,760

in an efficient and effectively to make

372

00:15:03,650 --> 00:15:01,800

things happen or we can just sit and

373

00:15:04,850 --> 00:15:03,660

complain about how things work and not

374

00:15:06,230 --> 00:15:04,860

get anywhere

375

00:15:09,410 --> 00:15:06,240

um but people like you and I of course

376

00:15:12,590 --> 00:15:09,420

choose to move forward so uh and without

377

00:15:14,449 --> 00:15:12,600

UAP or without enable Labs hiring me to

378

00:15:16,790 --> 00:15:14,459

do this full-time I wouldn't be able to

379

00:15:18,470 --> 00:15:16,800

jump back in and now I am back in

380

00:15:20,030 --> 00:15:18,480

luckily because now I'm working for this

381

00:15:22,250 --> 00:15:20,040

company that allows me to do UAP

382

00:15:24,050 --> 00:15:22,260

research and look into uaps that's what

383

00:15:26,870 --> 00:15:24,060

they want me to do they've hired me for

384

00:15:28,250 --> 00:15:26,880

my expertise it's also allowed me to get

385

00:15:30,769 --> 00:15:28,260

back involved with the scientific

386

00:15:32,389 --> 00:15:30,779

Coalition for UAP studies so I'm back on

387

00:15:34,430 --> 00:15:32,399

the board with them that's great I

388

00:15:36,170 --> 00:15:34,440

helped found that group and I'm also

389

00:15:38,569 --> 00:15:36,180

heading up their their public relations

390

00:15:40,490 --> 00:15:38,579

so we're doing a lot right now to get

391

00:15:43,490 --> 00:15:40,500

information out which I'm sure we'll

392

00:15:46,310 --> 00:15:43,500

cover yeah I I recently of I don't know

393

00:15:48,769 --> 00:15:46,320

maybe a month or so ago I mentioned that

394

00:15:51,410 --> 00:15:48,779

my the show was pretty close to going

395

00:15:54,650 --> 00:15:51,420

into the red in a little bit you know so

396

00:15:56,090 --> 00:15:54,660

I I don't like that and uh so some

397

00:15:57,290 --> 00:15:56,100

people actually I do want to thank the

398

00:15:59,509 --> 00:15:57,300

people that

399

00:16:02,269 --> 00:15:59,519

um went to bat and uh and brought it

400

00:16:04,910 --> 00:16:02,279

back up you know so I I never did this

401
00:16:08,030 --> 00:16:04,920
show for money you know I I did it for

402
00:16:09,590 --> 00:16:08,040
the excitement the the knowledge

403
00:16:12,170 --> 00:16:09,600
um you know if I didn't have my other

404
00:16:14,810 --> 00:16:12,180
thing going on you know I I wouldn't be

405
00:16:16,370 --> 00:16:14,820
able to I wouldn't be able to survive I

406
00:16:19,009 --> 00:16:16,380
I don't I wouldn't be able to pay my

407
00:16:21,769 --> 00:16:19,019
electric bill on this you know and

408
00:16:24,050 --> 00:16:21,779
you're in a position I think that and I

409
00:16:25,430 --> 00:16:24,060
think this is important too that most of

410
00:16:27,889 --> 00:16:25,440
the people we see involved with this

411
00:16:29,749 --> 00:16:27,899
doing a lot of the research are retired

412
00:16:31,730 --> 00:16:29,759
that's when you go while you go to like

413
00:16:33,410 --> 00:16:31,740

a conference and you see so many older

414

00:16:35,569 --> 00:16:33,420

people because they don't have the time

415

00:16:37,910 --> 00:16:35,579

to kind of spend so much time in their

416

00:16:39,530 --> 00:16:37,920

interest until they're retired right so

417

00:16:41,509 --> 00:16:39,540

there are a lot of people in their

418

00:16:43,790 --> 00:16:41,519

middle ages in their 30s and 40s who

419

00:16:45,650 --> 00:16:43,800

have family who have a career and they

420

00:16:47,090 --> 00:16:45,660

have a hard time dedicating time and

421

00:16:49,189 --> 00:16:47,100

effort into this but there are some some

422

00:16:51,530 --> 00:16:49,199

people like you who do that and I think

423

00:16:54,290 --> 00:16:51,540

that it's great when people you know

424

00:16:56,389 --> 00:16:54,300

they choose to and you know and I'm sure

425

00:16:59,090 --> 00:16:56,399

many people identify with this they

426

00:17:01,970 --> 00:16:59,100

often choose to uh struggle with their

427

00:17:03,769 --> 00:17:01,980

significant other about balancing their

428

00:17:05,569 --> 00:17:03,779

interests in this topic and getting

429

00:17:07,549 --> 00:17:05,579

involved with that and making time for

430

00:17:10,010 --> 00:17:07,559

it because a lot of us are significant

431

00:17:13,610 --> 00:17:10,020

others I'm extremely lucky because mine

432

00:17:15,590 --> 00:17:13,620

is very into this topic but um you know

433

00:17:17,689 --> 00:17:15,600

um my only issue is she's pulling me for

434

00:17:20,090 --> 00:17:17,699

time to help her out or I've got these

435

00:17:22,309 --> 00:17:20,100

other things to do as well so we have a

436

00:17:24,110 --> 00:17:22,319

different kind of struggle that way but

437

00:17:26,210 --> 00:17:24,120

um you know I think people identify with

438

00:17:28,309 --> 00:17:26,220

that it it's it's a lot to be able to

439

00:17:30,470 --> 00:17:28,319

dedicate time to this and a lot of

440

00:17:33,169 --> 00:17:30,480

resources are necessary to make

441

00:17:35,029 --> 00:17:33,179

um real discoveries I never I never

442

00:17:37,490 --> 00:17:35,039

really talk about my personal life too

443

00:17:40,070 --> 00:17:37,500

much on the show but I will say that uh

444

00:17:41,930 --> 00:17:40,080

I can I can tell you guys all about

445

00:17:43,570 --> 00:17:41,940

Martin's personal life so if anybody has

446

00:17:49,190 --> 00:17:43,580

questions put them in the chat and

447

00:17:51,470 --> 00:17:49,200

thanks buddy no so uh well basically I

448

00:17:54,289 --> 00:17:51,480

was with a girlfriend for a long time

449

00:17:56,990 --> 00:17:54,299

many years and she did not like me doing

450

00:17:58,789 --> 00:17:57,000

this show and she always tried to talk

451

00:18:00,350 --> 00:17:58,799

me out into quitting

452

00:18:03,470 --> 00:18:00,360

so

453

00:18:06,770 --> 00:18:03,480

um that relationship ended last year and

454

00:18:08,810 --> 00:18:06,780

so anyway that's uh just something I I'm

455

00:18:11,750 --> 00:18:08,820

putting out there that that was that was

456

00:18:13,909 --> 00:18:11,760

difficult that was difficult to do the

457

00:18:15,710 --> 00:18:13,919

show when I would get the constant eye

458

00:18:17,750 --> 00:18:15,720

roll and the you know why are you doing

459

00:18:21,770 --> 00:18:17,760

this and you know that that type of

460

00:18:23,930 --> 00:18:21,780

thing and but anyway uh moving on uh I

461

00:18:26,630 --> 00:18:23,940

would like to talk about there's a lot

462

00:18:29,150 --> 00:18:26,640

of talk well I I do want to talk about

463

00:18:30,650 --> 00:18:29,160

the SCU seu in in the conference and all

464

00:18:32,870 --> 00:18:30,660

that we can get to that we have quite a

465

00:18:34,250 --> 00:18:32,880

bit of time here but there's a lot of

466

00:18:38,510 --> 00:18:34,260

talk going

467

00:18:40,190 --> 00:18:38,520

on in the UFO field about this

468

00:18:42,169 --> 00:18:40,200

information is right this information

469

00:18:43,909 --> 00:18:42,179

isn't right

470

00:18:46,610 --> 00:18:43,919

um and I know that you're you really

471

00:18:49,430 --> 00:18:46,620

like to figure out what what is true and

472

00:18:50,150 --> 00:18:49,440

not true out there

473

00:18:51,830 --> 00:18:50,160

um

474

00:18:54,950 --> 00:18:51,840

do you want to discuss any of that

475

00:18:57,470 --> 00:18:54,960

what's sure I'll discuss whatever you

476

00:19:00,130 --> 00:18:57,480

want buddy okay

477

00:19:03,830 --> 00:19:00,140

um well I don't know

478

00:19:06,830 --> 00:19:03,840

what I watched some things you know that

479

00:19:10,090 --> 00:19:06,840

people have sent to me and you know I

480

00:19:12,590 --> 00:19:10,100

know there was uh there's the atip

481

00:19:15,650 --> 00:19:12,600

controversy and all that and the money

482

00:19:17,690 --> 00:19:15,660

that was funded and then the um the

483

00:19:19,549 --> 00:19:17,700

skinwalker Pentagon what is the name of

484

00:19:21,529 --> 00:19:19,559

that book that George Knapp Baskin

485

00:19:23,990 --> 00:19:21,539

Walker and The Skin Walkers at the

486

00:19:25,549 --> 00:19:24,000

Pentagon at the Pentagon so I want to

487

00:19:27,169 --> 00:19:25,559

discuss all that so we can kind of

488

00:19:31,190 --> 00:19:27,179

straighten some things out because it's

489

00:19:34,310 --> 00:19:31,200

great it's fuzzy it's fuzzy fuzzy to me

490

00:19:37,490 --> 00:19:34,320

and you know um you know I heard these

491

00:19:39,350 --> 00:19:37,500

things about Lou Elizondo uh I love the

492

00:19:41,330 --> 00:19:39,360

guy I think he's really if it wasn't for

493

00:19:42,890 --> 00:19:41,340

him a lot of things would have never

494

00:19:44,690 --> 00:19:42,900

happened

495

00:19:47,750 --> 00:19:44,700

um but you know there's there's a lot

496

00:19:49,850 --> 00:19:47,760

going on and uh I'm still in touch with

497

00:19:51,830 --> 00:19:49,860

him through his wife Jennifer and all

498

00:19:54,169 --> 00:19:51,840

that but uh he's he's kind of taken it

499

00:19:56,330 --> 00:19:54,179

easy right now

500

00:19:58,610 --> 00:19:56,340

um as far as talking on podcasts and

501
00:20:01,070 --> 00:19:58,620
things like that yeah

502
00:20:02,930 --> 00:20:01,080
yeah so I guess I would want to know

503
00:20:04,250 --> 00:20:02,940
specifically what your concern was

504
00:20:05,930 --> 00:20:04,260
because there is so many people talking

505
00:20:08,630 --> 00:20:05,940
about different things

506
00:20:11,930 --> 00:20:08,640
um yeah I guess you know Lou Alexander

507
00:20:14,750 --> 00:20:11,940
did his last podcast just recently

508
00:20:16,610 --> 00:20:14,760
um the the one before his last uh was

509
00:20:19,010 --> 00:20:16,620
with need to know with Bryce Abel and

510
00:20:22,250 --> 00:20:19,020
and Ross Colbert which was a great

511
00:20:25,190 --> 00:20:22,260
interview and uh and I what I think was

512
00:20:27,590 --> 00:20:25,200
great about that interview too is they

513
00:20:29,270 --> 00:20:27,600

had similar views on certain things like

514

00:20:31,430 --> 00:20:29,280

the Wilson document

515

00:20:33,770 --> 00:20:31,440

um oh I want to hear about that because

516

00:20:35,990 --> 00:20:33,780

I I've never believed in that myself

517

00:20:38,029 --> 00:20:36,000

yeah neither have I but lose into it

518

00:20:39,169 --> 00:20:38,039

lose into it and so are that group of

519

00:20:42,350 --> 00:20:39,179

guys so

520

00:20:45,049 --> 00:20:42,360

um okay so I don't know I think the

521

00:20:47,090 --> 00:20:45,059

controversy kind of arises to people not

522

00:20:50,149 --> 00:20:47,100

reading my reporting

523

00:20:51,590 --> 00:20:50,159

not to be do that but I mean we've been

524

00:20:53,630 --> 00:20:51,600

talking about this for a long time and

525

00:20:56,390 --> 00:20:53,640

and I've tried to be clear about how

526

00:20:59,690 --> 00:20:56,400

atip and ASAP started uh what was what

527

00:21:01,909 --> 00:20:59,700

and who was who and you know as you and

528

00:21:03,890 --> 00:21:01,919

I discussed you know I'm a huge fan of

529

00:21:05,870 --> 00:21:03,900

Leslie Kane I listened to your recent

530

00:21:07,250 --> 00:21:05,880

interview with her um it's great that

531

00:21:08,810 --> 00:21:07,260

you got her and of course she was

532

00:21:10,490 --> 00:21:08,820

insightful

533

00:21:13,310 --> 00:21:10,500

um and I think talking about real world

534

00:21:15,529 --> 00:21:13,320

issues which is really important uh so

535

00:21:17,210 --> 00:21:15,539

it's good that you had her but uh you

536

00:21:19,909 --> 00:21:17,220

know that story from the New York Times

537

00:21:22,370 --> 00:21:19,919

in December of 2017 was not complete and

538

00:21:24,230 --> 00:21:22,380

it didn't tell the full story uh I think

539

00:21:26,930 --> 00:21:24,240

she'll argue that well it's hard to tell

540

00:21:28,909 --> 00:21:26,940

the full story in just one article and

541

00:21:30,890 --> 00:21:28,919

make it out and really get the bang for

542

00:21:32,690 --> 00:21:30,900

your buck that you want and and I agree

543

00:21:34,190 --> 00:21:32,700

with her I do get that

544

00:21:35,830 --> 00:21:34,200

um and then uh there was some

545

00:21:39,049 --> 00:21:35,840

controversy brought up though because

546

00:21:41,390 --> 00:21:39,059

you know they went to Brian Bender of

547

00:21:43,730 --> 00:21:41,400

Politico and Leslie Kane of uh at the

548

00:21:47,630 --> 00:21:43,740

same or around the same period of time

549

00:21:49,490 --> 00:21:47,640

to pitch this story to them and uh and

550

00:21:52,490 --> 00:21:49,500

Brian Benders came out the same day

551
00:21:54,590 --> 00:21:52,500
right but uh and he he said you know he

552
00:21:55,970 --> 00:21:54,600
was just making the point that

553
00:21:57,590 --> 00:21:55,980
um you know and I've been making this

554
00:22:00,110 --> 00:21:57,600
point and kind of been getting up beaten

555
00:22:02,630 --> 00:22:00,120
up by it also and and John Greenwall

556
00:22:06,110 --> 00:22:02,640
makes this point a lot which is that you

557
00:22:09,230 --> 00:22:06,120
know these guys are not Gods they're not

558
00:22:12,049 --> 00:22:09,240
you know Immortal omnipotent beings when

559
00:22:14,029 --> 00:22:12,059
it comes to the tsa group they're great

560
00:22:15,590 --> 00:22:14,039
what they did is extraordinary uh

561
00:22:18,049 --> 00:22:15,600
there's no doubt about that and I

562
00:22:20,750 --> 00:22:18,059
there's I'm huge fans of them I mean I

563
00:22:21,950 --> 00:22:20,760

mean what they've done I think is really

564

00:22:24,049 --> 00:22:21,960

important

565

00:22:26,690 --> 00:22:24,059

um but just because they say something

566

00:22:28,510 --> 00:22:26,700

it's not gospel if Lou Elizondo says

567

00:22:31,490 --> 00:22:28,520

there's a crash UFO and

568

00:22:34,850 --> 00:22:31,500

materials that doesn't mean you know

569

00:22:36,890 --> 00:22:34,860

that's a 100 certainty if luolis under

570

00:22:38,450 --> 00:22:36,900

sets a Wilson documents are real you

571

00:22:40,070 --> 00:22:38,460

know he's got to prove it just like

572

00:22:41,210 --> 00:22:40,080

anything else he's got to prove what

573

00:22:43,070 --> 00:22:41,220

he's saying

574

00:22:45,289 --> 00:22:43,080

um I think some of the problems that

575

00:22:46,970 --> 00:22:45,299

came in early on with me and and others

576

00:22:49,909 --> 00:22:46,980

when mainstream is they were saying we

577

00:22:51,049 --> 00:22:49,919

were you know reporting on things that

578

00:22:52,850 --> 00:22:51,059

Lou Elizondo was saying without

579

00:22:55,909 --> 00:22:52,860

verifying them just believing every

580

00:22:57,529 --> 00:22:55,919

thing he says that's not true at all uh

581

00:22:59,630 --> 00:22:57,539

every single one of the reporters that

582

00:23:01,370 --> 00:22:59,640

was getting criticized such as Leslie or

583

00:23:04,250 --> 00:23:01,380

or uh

584

00:23:06,590 --> 00:23:04,260

Brian Bender were verifying what they

585

00:23:08,090 --> 00:23:06,600

were saying with other groups and that

586

00:23:09,529 --> 00:23:08,100

was confirmed and some of the people

587

00:23:12,169 --> 00:23:09,539

that this information was getting

588

00:23:13,850 --> 00:23:12,179

verified with were Harry Reid who

589

00:23:15,830 --> 00:23:13,860

started the program

590

00:23:18,770 --> 00:23:15,840

um his you know Integrity is very high

591

00:23:22,610 --> 00:23:18,780

having been you know uh such an

592

00:23:26,029 --> 00:23:22,620

important Senator and and you know

593

00:23:28,430 --> 00:23:26,039

others were like Bigelow himself or or

594

00:23:30,830 --> 00:23:28,440

Dr Eric Davis or Dr Hal putoff who were

595

00:23:32,870 --> 00:23:30,840

contractors uh that were contracted for

596

00:23:34,510 --> 00:23:32,880

the program so all of these people were

597

00:23:37,610 --> 00:23:34,520

backing up a lot of this information

598

00:23:39,110 --> 00:23:37,620

Brian kind of Bender came out yeah but

599

00:23:41,210 --> 00:23:39,120

you guys didn't give me the full story

600

00:23:44,630 --> 00:23:41,220

in the beginning he said that recently

601
00:23:46,310 --> 00:23:44,640
which is true Elizondo the 22 million

602
00:23:50,029 --> 00:23:46,320
dollars that was spent did not

603
00:23:52,909 --> 00:23:50,039
technically go to atip a program uh or

604
00:23:56,029 --> 00:23:52,919
maybe a better term would be portfolio

605
00:23:58,010 --> 00:23:56,039
um on the UAP topic that's inaccurate

606
00:23:59,570 --> 00:23:58,020
even though that's what's being reported

607
00:24:02,570 --> 00:23:59,580
and that's what the media keeps

608
00:24:04,789 --> 00:24:02,580
reporting to this day the 22 million

609
00:24:07,010 --> 00:24:04,799
dollars went to a program called ASAP

610
00:24:10,190 --> 00:24:07,020
the advanced Aerospace weapon system

611
00:24:11,930 --> 00:24:10,200
application program ASAP was developed

612
00:24:13,610 --> 00:24:11,940
and now we have this completely

613
00:24:17,269 --> 00:24:13,620

confirmed even though I've been writing

614

00:24:19,909 --> 00:24:17,279

about this since 2017 because I knew and

615

00:24:21,169 --> 00:24:19,919

I'll explain how I knew but uh now it's

616

00:24:23,510 --> 00:24:21,179

been confirmed because his book

617

00:24:27,230 --> 00:24:23,520

Skinwalker at the Pentagon has come out

618

00:24:30,230 --> 00:24:27,240

which was mostly written by uh lachaski

619

00:24:32,269 --> 00:24:30,240

who was a Dia agent who started and ran

620

00:24:34,970 --> 00:24:32,279

ASAP he was in charge of it the

621

00:24:36,710 --> 00:24:34,980

oversight of it and comb kellehar who

622

00:24:39,289 --> 00:24:36,720

was a lead scientist and then George

623

00:24:41,269 --> 00:24:39,299

Knapp who is a reporter of course he's

624

00:24:43,430 --> 00:24:41,279

very familiar with Bigelow and all the

625

00:24:45,049 --> 00:24:43,440

people that were involved with it

626
00:24:46,130 --> 00:24:45,059
um and I mentioned Bigelow and bigolero

627
00:24:49,310 --> 00:24:46,140
space because they were the ones

628
00:24:51,409 --> 00:24:49,320
contracted by ASAP to do the work why

629
00:24:52,850 --> 00:24:51,419
did I know once I found out that bass

630
00:24:55,070 --> 00:24:52,860
was involved that this was more than

631
00:24:57,070 --> 00:24:55,080
UFOs because we all know what bass has

632
00:24:59,090 --> 00:24:57,080
been up to Bass has been investigating

633
00:25:01,130 --> 00:24:59,100
Skinwalker Ranch and a lot of the

634
00:25:03,649 --> 00:25:01,140
Paranormal around that and we've heard

635
00:25:05,930 --> 00:25:03,659
them say we are also looking at other

636
00:25:08,149 --> 00:25:05,940
locations where there are paranormal

637
00:25:09,649 --> 00:25:08,159
occurrences so they were looking at you

638
00:25:13,190 --> 00:25:09,659

know all the stuff that was in this book

639

00:25:14,870 --> 00:25:13,200

Skinwalker uh the Skinwalker Ranch book

640

00:25:17,930 --> 00:25:14,880

that George Knapp and call me

641

00:25:20,269 --> 00:25:17,940

kellerhardt had written in 2005 which is

642

00:25:22,730 --> 00:25:20,279

actually what got lachaski interested in

643

00:25:24,649 --> 00:25:22,740

looking at Skinwalker as a ranch and in

644

00:25:27,169 --> 00:25:24,659

that book they described these wolf-like

645

00:25:29,870 --> 00:25:27,179

creatures these portals uh Bigfoot type

646

00:25:32,330 --> 00:25:29,880

phenomena cattle mutilation and that's

647

00:25:35,090 --> 00:25:32,340

what was investigated and in the book

648

00:25:37,070 --> 00:25:35,100

skinwalkers at the Pentagon lachaski at

649

00:25:38,930 --> 00:25:37,080

all you know confirmed this is what they

650

00:25:41,750 --> 00:25:38,940

were looking at they were looking at it

651

00:25:44,029 --> 00:25:41,760

mostly from kind of a valet type of

652

00:25:46,669 --> 00:25:44,039

perspective which is that you can't look

653

00:25:48,110 --> 00:25:46,679

at the UAP phenomena on its own you have

654

00:25:50,210 --> 00:25:48,120

to include all the other paranormal

655

00:25:52,490 --> 00:25:50,220

stuff that's kind of wrapped around it

656

00:25:53,930 --> 00:25:52,500

and you know there are people who report

657

00:25:56,630 --> 00:25:53,940

these other type of sightings and

658

00:25:58,610 --> 00:25:56,640

occurrences with UAP that was their

659

00:26:01,070 --> 00:25:58,620

justification what's interesting though

660

00:26:02,870 --> 00:26:01,080

with that 22 million dollar paranormal

661

00:26:04,909 --> 00:26:02,880

investigation which is what I call it

662

00:26:06,769 --> 00:26:04,919

because I think that's more accurate is

663

00:26:09,769 --> 00:26:06,779

that they determined all of this was

664

00:26:12,110 --> 00:26:09,779

real and lachaski in the book confirms

665

00:26:13,970 --> 00:26:12,120

he also believes all of the this

666

00:26:17,049 --> 00:26:13,980

weirdness all this paranormal phenomena

667

00:26:19,190 --> 00:26:17,059

was real so uh that was a bit

668

00:26:22,610 --> 00:26:19,200

controversial because people took what

669

00:26:25,190 --> 00:26:22,620

Brian Bender said uh kind of to

670

00:26:26,870 --> 00:26:25,200

to the nth degree saying look Brian's

671

00:26:28,549 --> 00:26:26,880

saying that that Elizondo and all these

672

00:26:30,769 --> 00:26:28,559

guys are liars and Brian's saying no no

673

00:26:33,529 --> 00:26:30,779

I'm not saying that at all I'm just

674

00:26:35,269 --> 00:26:33,539

saying that you know not everybody is a

675

00:26:38,090 --> 00:26:35,279

hundred percent honest or clear in this

676

00:26:39,649 --> 00:26:38,100

not everybody uh everybody has their own

677

00:26:42,409 --> 00:26:39,659

agenda and they're going to just share

678

00:26:44,450 --> 00:26:42,419

the part of the story or have their own

679

00:26:46,970 --> 00:26:44,460

spin on things and that was his point

680

00:26:49,250 --> 00:26:46,980

not to say that they're Liars but that

681

00:26:51,289 --> 00:26:49,260

to say that hey they're going to share

682

00:26:52,730 --> 00:26:51,299

information in a perspective that's

683

00:26:54,409 --> 00:26:52,740

helpful to them

684

00:26:58,549 --> 00:26:54,419

um and we have to be cognizant of that

685

00:27:00,649 --> 00:26:58,559

and nobody's uh you know

686

00:27:02,269 --> 00:27:00,659

um innocent when it comes completely

687

00:27:04,310 --> 00:27:02,279

innocent when it comes to just being

688

00:27:07,310 --> 00:27:04,320

straight with all the information out so

689

00:27:09,169 --> 00:27:07,320

that's what he was trying to say

690

00:27:11,269 --> 00:27:09,179

um he and Elizondo get along great and

691

00:27:14,810 --> 00:27:11,279

talk often so I know that they talked

692

00:27:16,370 --> 00:27:14,820

that out too because um uh so so they're

693

00:27:17,090 --> 00:27:16,380

good with it you know

694

00:27:19,669 --> 00:27:17,100

um

695

00:27:21,710 --> 00:27:19,679

so so let's talk a little bit about skin

696

00:27:24,169 --> 00:27:21,720

workers so they're there on the ranch

697

00:27:26,510 --> 00:27:24,179

they're exploring everything that's

698

00:27:29,690 --> 00:27:26,520

happening and and I understand why why

699

00:27:31,730 --> 00:27:29,700

would you like to say why would you you

700

00:27:34,750 --> 00:27:31,740

know sit and wait for a UFO of a

701

00:27:38,029 --> 00:27:34,760

bigfoots coming out of a portal

702

00:27:39,889 --> 00:27:38,039

and not do anything about that so it

703

00:27:42,710 --> 00:27:39,899

kind of just like whatever it is appears

704

00:27:45,169 --> 00:27:42,720

there and happens there or or or was at

705

00:27:47,870 --> 00:27:45,179

that time when they were doing that that

706

00:27:50,090 --> 00:27:47,880

research so they were there were they

707

00:27:53,029 --> 00:27:50,100

actually at the ranch involved in that

708

00:27:54,950 --> 00:27:53,039

study that uh John Alexander was in and

709

00:27:57,289 --> 00:27:54,960

all that

710

00:28:00,230 --> 00:27:57,299

um which one do you are you referring no

711

00:28:02,149 --> 00:28:00,240

I'm I'm John uh Bigelow had John

712

00:28:05,269 --> 00:28:02,159

Alexander in this group and I can't

713

00:28:07,789 --> 00:28:05,279

remember I had a oh okay yeah so early

714

00:28:09,830 --> 00:28:07,799

in the 90s Bigelow had started the

715

00:28:12,529 --> 00:28:09,840

National Institute of Discovery Sciences

716

00:28:15,169 --> 00:28:12,539

uh his first when he got involved with

717

00:28:17,930 --> 00:28:15,179

this in the 90s he was trying to kind of

718

00:28:21,529 --> 00:28:17,940

give money to researchers

719

00:28:23,570 --> 00:28:21,539

um and he also was coalescing uh you

720

00:28:26,029 --> 00:28:23,580

know UFO research groups to try to get

721

00:28:28,010 --> 00:28:26,039

them to work together uh an organization

722

00:28:29,690 --> 00:28:28,020

was actually called the fund for UFO

723

00:28:31,430 --> 00:28:29,700

research

724

00:28:34,490 --> 00:28:31,440

food for

725

00:28:36,950 --> 00:28:34,500

this group was essentially got money

726

00:28:37,570 --> 00:28:36,960

from Bigelow and a couple of other

727

00:28:40,430 --> 00:28:37,580

um

728

00:28:41,930 --> 00:28:40,440

financiers and their job was to kind of

729

00:28:43,970 --> 00:28:41,940

dispense that money and and work

730

00:28:46,070 --> 00:28:43,980

together with mufon and other groups so

731

00:28:48,049 --> 00:28:46,080

they can all work together

732

00:28:50,570 --> 00:28:48,059

and that didn't really happen that well

733

00:28:51,830 --> 00:28:50,580

and eventually Bigelow decided I just

734

00:28:53,529 --> 00:28:51,840

need to start my own scientific

735

00:28:56,269 --> 00:28:53,539

investigation group called The National

736

00:28:58,310 --> 00:28:56,279

Institute of Discovery Sciences needs

737

00:29:00,889 --> 00:28:58,320

for short that's right he had John

738

00:29:04,010 --> 00:29:00,899

Alexander help him get people together

739

00:29:06,289 --> 00:29:04,020

and that's really what tied together the

740

00:29:08,990 --> 00:29:06,299

what I would call Men Who Stare at Goats

741

00:29:11,630 --> 00:29:09,000

uh contingency and the Bigelow

742

00:29:13,730 --> 00:29:11,640

contingency because John Alexander if

743

00:29:16,070 --> 00:29:13,740

you've read that book Men Who Stare at

744

00:29:19,130 --> 00:29:16,080

Goats was was a part of that whole you

745

00:29:21,010 --> 00:29:19,140

know era where the Army General

746

00:29:23,330 --> 00:29:21,020

um rigglestein

747

00:29:26,570 --> 00:29:23,340

bradentonstein I forget his name but he

748

00:29:28,669 --> 00:29:26,580

was trying to uh you know use psychic

749

00:29:30,710 --> 00:29:28,679

phenomena and look at paranormal stuff

750

00:29:33,289 --> 00:29:30,720

and take it seriously and seeing how the

751
00:29:35,389 --> 00:29:33,299
Army could better themselves uh by using

752
00:29:37,730 --> 00:29:35,399
this phenomena and it was made fun of in

753
00:29:39,590 --> 00:29:37,740
a movie by that name Men Who Stare at

754
00:29:41,750 --> 00:29:39,600
Goats and there's a non-fiction book

755
00:29:44,810 --> 00:29:41,760
written about that but John knew those

756
00:29:46,789 --> 00:29:44,820
people uh which is kind of the Arena

757
00:29:49,130 --> 00:29:46,799
where how put off comes from and Dr Eric

758
00:29:52,190 --> 00:29:49,140
Davis and he connected all of these

759
00:29:53,630 --> 00:29:52,200
people with Bigelow and they they ran

760
00:29:57,070 --> 00:29:53,640
with this National Institute of

761
00:30:01,250 --> 00:29:57,080
Discovery Sciences group that folded

762
00:30:03,830 --> 00:30:01,260
not soon not long too long before uh

763
00:30:06,289 --> 00:30:03,840

bass Started up uh what's interesting is

764

00:30:09,289 --> 00:30:06,299

uh you know Alexander was left out of

765

00:30:11,029 --> 00:30:09,299

the bass era and uh I know from my

766

00:30:13,190 --> 00:30:11,039

interviews he kind of felt like uh hey

767

00:30:15,169 --> 00:30:13,200

why did you leave me out I have my own

768

00:30:16,850 --> 00:30:15,179

Theory and I'll share you my theory

769

00:30:18,230 --> 00:30:16,860

because this gets to some of the other

770

00:30:19,730 --> 00:30:18,240

important aspects like the Wilson

771

00:30:20,930 --> 00:30:19,740

document

772

00:30:22,190 --> 00:30:20,940

um is that

773

00:30:24,529 --> 00:30:22,200

you know

774

00:30:26,090 --> 00:30:24,539

John Alexander Was An Inspector General

775

00:30:28,789 --> 00:30:26,100

that's extremely important because

776

00:30:32,149 --> 00:30:28,799

that's kind of a judge when it comes to

777

00:30:34,250 --> 00:30:32,159

uh you know the army or any other agency

778

00:30:37,130 --> 00:30:34,260

these are the people who know the rules

779

00:30:39,169 --> 00:30:37,140

and enforce the rules so if you need

780

00:30:41,330 --> 00:30:39,179

someone to you know you need to go to

781

00:30:42,889 --> 00:30:41,340

someone to figure out what the rules are

782

00:30:45,409 --> 00:30:42,899

if the rules have been broken you go to

783

00:30:47,090 --> 00:30:45,419

An Inspector General that's why you know

784

00:30:49,730 --> 00:30:47,100

this Harry Reid stuff this stuff about

785

00:30:52,130 --> 00:30:49,740

elizondo's boss getting in trouble and

786

00:30:54,289 --> 00:30:52,140

elizonda going to the IG to file a

787

00:30:55,909 --> 00:30:54,299

complaint against his old boss that's

788

00:30:58,310 --> 00:30:55,919

where they go is to the Inspector

789

00:30:59,810 --> 00:30:58,320

General so that's what John Alexander

790

00:31:02,810 --> 00:30:59,820

did so he knows the rules and

791

00:31:05,810 --> 00:31:02,820

regulations and and so when there are

792

00:31:07,669 --> 00:31:05,820

claims of these black projects or other

793

00:31:09,590 --> 00:31:07,679

things which would fly in the face of

794

00:31:12,169 --> 00:31:09,600

rules and regulations that are checked

795

00:31:14,930 --> 00:31:12,179

for everything that the Army does he's

796

00:31:17,210 --> 00:31:14,940

like hey look I was one of the guys I

797

00:31:19,310 --> 00:31:17,220

was one of The Gatekeepers and that's

798

00:31:20,389 --> 00:31:19,320

not going you know I don't see that at

799

00:31:22,250 --> 00:31:20,399

all

800

00:31:25,370 --> 00:31:22,260

um he's also more grounded when it comes

801
00:31:27,950 --> 00:31:25,380
to you know those sort of issues so I

802
00:31:30,490 --> 00:31:27,960
think it was a bit of a wet blanket

803
00:31:33,590 --> 00:31:30,500
um in their perspective as my only

804
00:31:36,590 --> 00:31:33,600
possible explanation for that

805
00:31:38,690 --> 00:31:36,600
um so for instance John Alexander feels

806
00:31:40,549 --> 00:31:38,700
that he can definitely debunk the Wilson

807
00:31:43,009 --> 00:31:40,559
documents he was there during that

808
00:31:45,590 --> 00:31:43,019
period of time as well he knew Wilson

809
00:31:48,409 --> 00:31:45,600
very well they were part of the same

810
00:31:50,570 --> 00:31:48,419
organization Alexander lives in Las

811
00:31:53,029 --> 00:31:50,580
Vegas Nevada and they're part of the

812
00:31:57,769 --> 00:31:53,039
same organization that Wilson allegedly

813
00:32:00,289 --> 00:31:57,779

came to Las Vegas too when he uh met

814

00:32:02,870 --> 00:32:00,299

with Dr Eric Davis in these alleged

815

00:32:05,029 --> 00:32:02,880

notes the Wilson documents and John

816

00:32:07,610 --> 00:32:05,039

Alexander confirms that Wilson was not

817

00:32:10,250 --> 00:32:07,620

in town during that weekend during that

818

00:32:11,990 --> 00:32:10,260

event because uh he you know he wasn't

819

00:32:13,730 --> 00:32:12,000

part of that event there was an event

820

00:32:15,950 --> 00:32:13,740

that weekend but that Wilson was not

821

00:32:20,810 --> 00:32:15,960

part of it so he's adamant and a number

822

00:32:23,029 --> 00:32:20,820

of other uh procedural things why that

823

00:32:26,389 --> 00:32:23,039

document is not legitimate that's right

824

00:32:27,830 --> 00:32:26,399

he's very against it however you know

825

00:32:30,289 --> 00:32:27,840

listening to the need to know interview

826
00:32:32,570 --> 00:32:30,299
the other day Lou Elizondo seems to be

827
00:32:34,549 --> 00:32:32,580
think there's something there and I do

828
00:32:37,009 --> 00:32:34,559
know that uh some of the other people

829
00:32:39,289 --> 00:32:37,019
inside of you know the bass group also

830
00:32:40,970 --> 00:32:39,299
think there's something there so it

831
00:32:43,370 --> 00:32:40,980
shows where you know there's a

832
00:32:45,110 --> 00:32:43,380
disconnect there in in how they feel

833
00:32:46,909 --> 00:32:45,120
things work and and what's going on

834
00:32:48,950 --> 00:32:46,919
behind the scenes do you think that'll

835
00:32:51,590 --> 00:32:48,960
ever be resolved

836
00:32:53,509 --> 00:32:51,600
no the Wilson document right

837
00:32:55,130 --> 00:32:53,519
this is what's weird with me for the

838
00:32:57,169 --> 00:32:55,140

Wilson documents is I don't understand

839

00:32:58,850 --> 00:32:57,179

even when Elizondo says oh they're going

840

00:33:02,630 --> 00:32:58,860

to look into what are they going to look

841

00:33:06,110 --> 00:33:02,640

into as far as I know I think the it's a

842

00:33:07,549 --> 00:33:06,120

dead issue because Admiral Wilson first

843

00:33:10,009 --> 00:33:07,559

of all he's already in the past said

844

00:33:13,250 --> 00:33:10,019

this isn't true this never happened more

845

00:33:14,630 --> 00:33:13,260

recently Billy Cox again uh a writer for

846

00:33:16,070 --> 00:33:14,640

the Sarasota times I don't think he

847

00:33:17,509 --> 00:33:16,080

writes for him anymore but he blocks

848

00:33:19,250 --> 00:33:17,519

once in a while but he interviewed

849

00:33:22,549 --> 00:33:19,260

Wilson again and asked more specific

850

00:33:25,130 --> 00:33:22,559

questions in Wilson was like no it just

851

00:33:27,950 --> 00:33:25,140

never happened if I were to be given

852

00:33:30,889 --> 00:33:27,960

immunity I would definitely go talk on

853

00:33:32,810 --> 00:33:30,899

the stand uh on a hearing but I wouldn't

854

00:33:35,509 --> 00:33:32,820

have anything to say about this alleged

855

00:33:39,350 --> 00:33:35,519

incident because it just didn't happen

856

00:33:41,630 --> 00:33:39,360

um so I think he's being as honest and

857

00:33:44,090 --> 00:33:41,640

so if you've got you've you've got

858

00:33:46,549 --> 00:33:44,100

nobody backing the document you have

859

00:33:49,370 --> 00:33:46,559

Mitchell who says he was aware of it he

860

00:33:51,710 --> 00:33:49,380

saw it but it doesn't mean he but he

861

00:33:53,330 --> 00:33:51,720

doesn't have any proof that it happened

862

00:33:55,669 --> 00:33:53,340

um you have Eric Davis who isn't coming

863

00:33:56,570 --> 00:33:55,679

forward who's the alleged writer of the

864

00:33:59,450 --> 00:33:56,580

notes

865

00:34:01,669 --> 00:33:59,460

um but let's say he did come forward uh

866

00:34:02,570 --> 00:34:01,679

then this is going to be

867

00:34:05,210 --> 00:34:02,580

um

868

00:34:07,669 --> 00:34:05,220

his word against the Admirals and I'm

869

00:34:10,430 --> 00:34:07,679

sorry as much as I really like Davis and

870

00:34:12,230 --> 00:34:10,440

I don't think Davis is a liar but um his

871

00:34:13,909 --> 00:34:12,240

word would not stand up against an

872

00:34:16,069 --> 00:34:13,919

Admirals and how are you going to push

873

00:34:19,430 --> 00:34:16,079

this where what are you going to do I

874

00:34:22,550 --> 00:34:19,440

just don't know how what action can be

875

00:34:24,169 --> 00:34:22,560

taken uh moving forward on this so I

876

00:34:28,250 --> 00:34:24,179

don't know that anything

877

00:34:31,550 --> 00:34:28,260

will or can come of it really right and

878

00:34:34,190 --> 00:34:31,560

I you know these things so badly too

879

00:34:35,450 --> 00:34:34,200

it does uh that's I remember when I

880

00:34:37,190 --> 00:34:35,460

looked through it and it's been over a

881

00:34:41,329 --> 00:34:37,200

year that I looked actually looked

882

00:34:42,409 --> 00:34:41,339

through it but uh I do remember that and

883

00:34:44,569 --> 00:34:42,419

um

884

00:34:47,329 --> 00:34:44,579

I mean the conversation found a weird

885

00:34:49,369 --> 00:34:47,339

and convoluted and it's like not a

886

00:34:51,589 --> 00:34:49,379

professional conversation I can't

887

00:34:54,649 --> 00:34:51,599

imagine if I had a conversation like

888

00:34:56,270 --> 00:34:54,659

that with an an admiral I'd be like I

889

00:34:58,970 --> 00:34:56,280

wouldn't even buy it I'd be like this

890

00:35:01,010 --> 00:34:58,980

guy's nuts right doesn't even make any

891

00:35:03,829 --> 00:35:01,020

sense I mean it starts with this

892

00:35:06,230 --> 00:35:03,839

argument of him getting livid over this

893

00:35:08,210 --> 00:35:06,240

his name being associated with any of

894

00:35:11,630 --> 00:35:08,220

this at all and this is the first time

895

00:35:13,790 --> 00:35:11,640

he's met this guy uh who is supposedly

896

00:35:16,130 --> 00:35:13,800

Eric Davis and then he spills the beans

897

00:35:18,770 --> 00:35:16,140

on everything after he was upset that

898

00:35:21,109 --> 00:35:18,780

anybody was talking about this at all it

899

00:35:23,750 --> 00:35:21,119

just makes no sense it's so crazy and

900

00:35:26,450 --> 00:35:23,760

wild I just don't know how it can go

901
00:35:28,190 --> 00:35:26,460
anywhere this all came about

902
00:35:31,190 --> 00:35:28,200
um I think I have this right there was a

903
00:35:33,410 --> 00:35:31,200
Australian researcher and Dr Edgar

904
00:35:35,569 --> 00:35:33,420
Mitchell's estate looking through his

905
00:35:37,490 --> 00:35:35,579
files and he found this that's what I

906
00:35:40,970 --> 00:35:37,500
remember recalling about how it came

907
00:35:43,010 --> 00:35:40,980
about but I do want to say things as an

908
00:35:45,109 --> 00:35:43,020
appraiser I'm in a state all the time

909
00:35:47,089 --> 00:35:45,119
and appraising things that sometimes

910
00:35:52,190 --> 00:35:47,099
documents or antique documents mostly

911
00:35:55,490 --> 00:35:52,200
but I was in an FBI agent's estate and

912
00:35:57,710 --> 00:35:55,500
he was in China and his China Foot

913
00:36:00,470 --> 00:35:57,720

Locker when it was open was full of

914

00:36:03,349 --> 00:36:00,480

documents and there I found mj-12

915

00:36:05,569 --> 00:36:03,359

documents you know copies of them right

916

00:36:07,069 --> 00:36:05,579

and I remember calling Stan Friedman I

917

00:36:08,750 --> 00:36:07,079

said is this bizarre or what but they

918

00:36:10,490 --> 00:36:08,760

can just end up in someone's estate

919

00:36:14,270 --> 00:36:10,500

maybe they have an interest in UFOs

920

00:36:16,730 --> 00:36:14,280

maybe they whatever it is but these

921

00:36:20,390 --> 00:36:16,740

things just because they're in an estate

922

00:36:23,390 --> 00:36:20,400

and and an estate doesn't make them more

923

00:36:26,089 --> 00:36:23,400

viable it doesn't change really anything

924

00:36:27,470 --> 00:36:26,099

because maybe it was someone that gave

925

00:36:29,930 --> 00:36:27,480

it to him he thought it was interesting

926
00:36:32,690 --> 00:36:29,940
and tucked it away otherwise you know

927
00:36:34,970 --> 00:36:32,700
why wouldn't he have exposed it back

928
00:36:37,730 --> 00:36:34,980
then and so right and you run across

929
00:36:39,890 --> 00:36:37,740
this in the CIA and FBI Files

930
00:36:42,050 --> 00:36:39,900
um and in this case now these Wilson

931
00:36:44,270 --> 00:36:42,060
documents are part of the record of this

932
00:36:46,450 --> 00:36:44,280
here hearing that doesn't give them any

933
00:36:49,190 --> 00:36:46,460
more validity at all

934
00:36:51,290 --> 00:36:49,200
but uh

935
00:36:52,849 --> 00:36:51,300
but I and you know I want to answer a

936
00:36:55,490 --> 00:36:52,859
couple questions one person would said

937
00:36:58,130 --> 00:36:55,500
they haven't been debunked that oh let

938
00:37:00,109 --> 00:36:58,140

me let me some documentary I would

939

00:37:02,210 --> 00:37:00,119

disagree with that they've totally been

940

00:37:04,490 --> 00:37:02,220

debunked I mean when you go to when the

941

00:37:07,069 --> 00:37:04,500

only person involved is on the record

942

00:37:09,290 --> 00:37:07,079

saying this did not happen that's a

943

00:37:10,970 --> 00:37:09,300

debunking and I think that's a strong

944

00:37:13,370 --> 00:37:10,980

debunking

945

00:37:16,069 --> 00:37:13,380

um and it's not and I think that's where

946

00:37:18,470 --> 00:37:16,079

people are confused it's not on them to

947

00:37:23,089 --> 00:37:18,480

prove this didn't happen it's on us to

948

00:37:26,390 --> 00:37:23,099

prove it did happen yeah and to you know

949

00:37:28,130 --> 00:37:26,400

request any action of this Admiral to do

950

00:37:30,109 --> 00:37:28,140

anything to even address them at all

951
00:37:31,849 --> 00:37:30,119
what she's done on his own I don't think

952
00:37:34,250 --> 00:37:31,859
we have any business to do that without

953
00:37:36,050 --> 00:37:34,260
any proof or evidence

954
00:37:38,569 --> 00:37:36,060
um I think that's harassing this poor

955
00:37:40,730 --> 00:37:38,579
guy and I think it's just it's I think

956
00:37:42,890 --> 00:37:40,740
we need more proof than this goofy note

957
00:37:44,329 --> 00:37:42,900
that No One's Gonna admit to ownership

958
00:37:47,630 --> 00:37:44,339
of

959
00:37:49,849 --> 00:37:47,640
um you know I can't imagine even if I

960
00:37:52,430 --> 00:37:49,859
was backing it I can't imagine where you

961
00:37:54,890 --> 00:37:52,440
would go with it or where it can even go

962
00:37:55,910 --> 00:37:54,900
and the sad part about it is if anyone

963
00:37:58,849 --> 00:37:55,920

like

964

00:38:01,670 --> 00:37:58,859

uh this Wilson is going Admiral Wilson

965

00:38:03,410 --> 00:38:01,680

is going to deny it the first thing that

966

00:38:05,210 --> 00:38:03,420

comes out of everyone's mouth is of

967

00:38:07,490 --> 00:38:05,220

course he's going to deny it he's lying

968

00:38:10,250 --> 00:38:07,500

he's covering it up you know that that

969

00:38:13,310 --> 00:38:10,260

is what you hear and he there's no way

970

00:38:15,410 --> 00:38:13,320

no way to uh win in that situation

971

00:38:17,150 --> 00:38:15,420

exactly and when it comes down to his or

972

00:38:20,150 --> 00:38:17,160

he said or she said that's the only

973

00:38:22,370 --> 00:38:20,160

place it can go and and he said she said

974

00:38:23,870 --> 00:38:22,380

battle you know he's gonna win he's an

975

00:38:26,930 --> 00:38:23,880

admiral

976

00:38:28,790 --> 00:38:26,940

um and nobody has any proof that what he

977

00:38:31,190 --> 00:38:28,800

said it didn't occur you know there's

978

00:38:32,329 --> 00:38:31,200

there's zero proof that

979

00:38:35,510 --> 00:38:32,339

um

980

00:38:36,470 --> 00:38:35,520

that he's lying about this so unless

981

00:38:38,510 --> 00:38:36,480

someone came up with something

982

00:38:39,770 --> 00:38:38,520

convincing

983

00:38:42,770 --> 00:38:39,780

um that's what I keep saying you know

984

00:38:44,569 --> 00:38:42,780

and and I really for Davis to say hope

985

00:38:47,270 --> 00:38:44,579

he doesn't come out and talk about this

986

00:38:49,609 --> 00:38:47,280

because it would hurt his career and if

987

00:38:51,470 --> 00:38:49,619

he does come out and talk about this

988

00:38:53,210 --> 00:38:51,480

and and this would be the best scenario

989

00:38:55,490 --> 00:38:53,220

he better have his receipts he better

990

00:38:57,470 --> 00:38:55,500

have some evidence and if he does come

991

00:38:59,270 --> 00:38:57,480

out and talk about this and has evidence

992

00:39:01,130 --> 00:38:59,280

of course that would be exciting and

993

00:39:03,349 --> 00:39:01,140

that would be great because we could go

994

00:39:05,390 --> 00:39:03,359

somewhere with it at that point but I

995

00:39:08,450 --> 00:39:05,400

think he's kind of enjoying him not

996

00:39:09,890 --> 00:39:08,460

talking about it I think so too because

997

00:39:11,930 --> 00:39:09,900

you know he's working for a company

998

00:39:13,550 --> 00:39:11,940

called the Aerospace corporation which

999

00:39:16,430 --> 00:39:13,560

is a think tank

1000

00:39:19,010 --> 00:39:16,440

um an aerospace Think Tank uh and a lot

1001

00:39:20,990 --> 00:39:19,020

of what they do is very sensitive

1002

00:39:23,089 --> 00:39:21,000

and they've told them don't talk about

1003

00:39:24,050 --> 00:39:23,099

this he's even said I can't talk about

1004

00:39:26,390 --> 00:39:24,060

this

1005

00:39:29,510 --> 00:39:26,400

so um

1006

00:39:31,790 --> 00:39:29,520

for that reason so you know him talking

1007

00:39:34,490 --> 00:39:31,800

about addressing it at all is him

1008

00:39:37,490 --> 00:39:34,500

um you know putting his career on the

1009

00:39:39,410 --> 00:39:37,500

line and um unless he has a good re

1010

00:39:40,910 --> 00:39:39,420

unless he can prove something you know

1011

00:39:42,410 --> 00:39:40,920

it would be terrible if he had to come

1012

00:39:45,230 --> 00:39:42,420

out and say something and then nothing

1013

00:39:46,609 --> 00:39:45,240

happens and he damaged his career over

1014

00:39:49,609 --> 00:39:46,619

something like this and it's happened

1015

00:39:53,329 --> 00:39:49,619

before Edgar Fouche uh was a scientist

1016

00:39:56,270 --> 00:39:53,339

who brat about like all this tr3b crap

1017

00:39:59,810 --> 00:39:56,280

and um he was given fake information in

1018

00:40:02,690 --> 00:39:59,820

fact he was early on given a a stealth

1019

00:40:06,230 --> 00:40:02,700

bomber picture and was told this is the

1020

00:40:08,470 --> 00:40:06,240

tr-3b that was completely false he got

1021

00:40:12,290 --> 00:40:08,480

in trouble though for sharing it because

1022

00:40:16,309 --> 00:40:12,300

he like Eric Davis had classifications

1023

00:40:19,130 --> 00:40:16,319

and worked in on classified projects but

1024

00:40:21,650 --> 00:40:19,140

if you're given something and told this

1025

00:40:24,190 --> 00:40:21,660

is classified you cannot share that

1026
00:40:26,809 --> 00:40:24,200
whether it's real or not in this case

1027
00:40:28,250 --> 00:40:26,819
the stealth bomber or the stealth

1028
00:40:30,530 --> 00:40:28,260
fighter that he got a picture of

1029
00:40:32,450 --> 00:40:30,540
obviously was not a tr3b so that was

1030
00:40:35,329 --> 00:40:32,460
false but he still got in trouble

1031
00:40:36,890 --> 00:40:35,339
because they said even if it's false you

1032
00:40:39,410 --> 00:40:36,900
don't know whether it's classified or

1033
00:40:41,569 --> 00:40:39,420
not you can't share that that is

1034
00:40:42,890 --> 00:40:41,579
breaking your oath to

1035
00:40:44,390 --> 00:40:42,900
um you know keep classified information

1036
00:40:47,990 --> 00:40:44,400
classified

1037
00:40:52,010 --> 00:40:48,000
so uh so that's the other danger okay

1038
00:40:54,589 --> 00:40:52,020

the tr3b I had someone call me from New

1039

00:40:58,010 --> 00:40:54,599

York state that said I understand you

1040

00:41:00,770 --> 00:40:58,020

are the expert on the tr3pm I said I

1041

00:41:04,370 --> 00:41:00,780

have no idea that that is

1042

00:41:06,589 --> 00:41:04,380

that is that a rumor that I mean I guess

1043

00:41:08,150 --> 00:41:06,599

uh Michael a rumor that you're attached

1044

00:41:10,250 --> 00:41:08,160

to it no no

1045

00:41:12,410 --> 00:41:10,260

that it's real

1046

00:41:14,870 --> 00:41:12,420

oh yeah there's a huge rumor in fact I

1047

00:41:17,030 --> 00:41:14,880

think you know the the the rule of thumb

1048

00:41:19,309 --> 00:41:17,040

out in the UFO Community is that it's

1049

00:41:20,690 --> 00:41:19,319

real I think that a lot of people you

1050

00:41:23,329 --> 00:41:20,700

know whenever you talk about triangular

1051

00:41:25,370 --> 00:41:23,339

UFOs oh that's a tr3b which is a

1052

00:41:27,530 --> 00:41:25,380

dangerous and uh

1053

00:41:29,630 --> 00:41:27,540

perspective because then people blow it

1054

00:41:31,849 --> 00:41:29,640

off and they don't pay attention uh

1055

00:41:35,210 --> 00:41:31,859

triangle UFOs are obviously a great

1056

00:41:38,150 --> 00:41:35,220

mystery and um they're not tr3b in fact

1057

00:41:40,130 --> 00:41:38,160

I'm skeptical there is ever been a tr3b

1058

00:41:43,670 --> 00:41:40,140

even if there was maybe there is a

1059

00:41:45,349 --> 00:41:43,680

prototype maybe but probably not the if

1060

00:41:47,809 --> 00:41:45,359

you look at the background it's just

1061

00:41:51,109 --> 00:41:47,819

rumor and hearsay type of stuff there's

1062

00:41:52,670 --> 00:41:51,119

zero evidence that there is a real tr3b

1063

00:41:56,390 --> 00:41:52,680

um I don't think that there was a real

1064

00:41:58,130 --> 00:41:56,400

tr3b uh really the the I think there'd

1065

00:41:59,750 --> 00:41:58,140

be two experts Michael Stratton on the

1066

00:42:02,210 --> 00:41:59,760

pro side that's what I was thinking yeah

1067

00:42:05,329 --> 00:42:02,220

because he was friends and then uh David

1068

00:42:06,829 --> 00:42:05,339

Marler on the con side David Marler of

1069

00:42:09,170 --> 00:42:06,839

course being the specialist on

1070

00:42:10,910 --> 00:42:09,180

triangular UFOs and he did a great talk

1071

00:42:12,890 --> 00:42:10,920

actually in Arizona just a couple

1072

00:42:14,690 --> 00:42:12,900

weekends ago I was there and hopefully

1073

00:42:17,329 --> 00:42:14,700

they'll let me a lot of times they let

1074

00:42:18,650 --> 00:42:17,339

me post uh on YouTube some of the

1075

00:42:20,630 --> 00:42:18,660

lectures and I'm gonna see if I can post

1076

00:42:24,050 --> 00:42:20,640

this one because he did a great job he

1077

00:42:26,569 --> 00:42:24,060

was like okay tr3b best case you know

1078

00:42:30,410 --> 00:42:26,579

started in the 80s well let me show you

1079

00:42:33,109 --> 00:42:30,420

all the triangle sightings prior to 1975

1080

00:42:35,270 --> 00:42:33,119

right and they were you know he had an

1081

00:42:36,710 --> 00:42:35,280

abundance of extraordinary craft in fact

1082

00:42:38,990 --> 00:42:36,720

many

1083

00:42:40,670 --> 00:42:39,000

um credible cases in which you know as a

1084

00:42:44,630 --> 00:42:40,680

triangle with the light configuration

1085

00:42:46,309 --> 00:42:44,640

people ascribed to the tr-3b so I think

1086

00:42:49,790 --> 00:42:46,319

he you know can demonstrate this

1087

00:42:52,730 --> 00:42:49,800

phenomenon of these particular type of

1088

00:42:56,089 --> 00:42:52,740

triangular craft even pre-date

1089

00:42:57,650 --> 00:42:56,099

um this potential tr3b so he addresses

1090

00:42:59,329 --> 00:42:57,660

that in a great manner

1091

00:43:01,849 --> 00:42:59,339

um really wonderful talk all of his

1092

00:43:03,770 --> 00:43:01,859

talks are great yeah I think the world

1093

00:43:05,690 --> 00:43:03,780

of him yeah I'd like to hear that talk

1094

00:43:08,210 --> 00:43:05,700

myself you know I mean yeah you will

1095

00:43:10,910 --> 00:43:08,220

love it so I'll get that online or if

1096

00:43:12,950 --> 00:43:10,920

I'm sure she's gonna let me post it yeah

1097

00:43:16,250 --> 00:43:12,960

yeah all right so going back to what

1098

00:43:17,990 --> 00:43:16,260

we're talking about the uh the

1099

00:43:20,329 --> 00:43:18,000

controversy

1100

00:43:24,710 --> 00:43:20,339

about atip

1101
00:43:28,730 --> 00:43:24,720
um so evidently atip did was not funded

1102
00:43:30,290 --> 00:43:28,740
does that mean that that was more of a

1103
00:43:32,930 --> 00:43:30,300
hobby

1104
00:43:35,630 --> 00:43:32,940
so here's the confusion and this is

1105
00:43:36,890 --> 00:43:35,640
where it is really confusing and this is

1106
00:43:39,770 --> 00:43:36,900
why

1107
00:43:41,690 --> 00:43:39,780
this is kind of uh kind of plays to

1108
00:43:44,030 --> 00:43:41,700
Brian Bender's complaint about not

1109
00:43:46,910 --> 00:43:44,040
getting the full story because a lot of

1110
00:43:50,270 --> 00:43:46,920
this confusion is because a lot of

1111
00:43:52,250 --> 00:43:50,280
details was left out and now we get this

1112
00:43:54,290 --> 00:43:52,260
detail but we can also see that not

1113
00:43:55,790 --> 00:43:54,300

everybody's on the same page and that's

1114

00:43:57,410 --> 00:43:55,800

what is kind of the root of the

1115

00:43:59,630 --> 00:43:57,420

frustration of people like John

1116

00:44:02,329 --> 00:43:59,640

Greenwald he's like whose version of

1117

00:44:03,770 --> 00:44:02,339

this should I listen to

1118

00:44:06,349 --> 00:44:03,780

um I would kind of argue though that

1119

00:44:09,170 --> 00:44:06,359

that's a bit in the weeds

1120

00:44:11,569 --> 00:44:09,180

that it's it's important and interesting

1121

00:44:13,550 --> 00:44:11,579

to know but it doesn't negate the big

1122

00:44:15,349 --> 00:44:13,560

picture and the big picture right now I

1123

00:44:17,990 --> 00:44:15,359

think is more important

1124

00:44:20,690 --> 00:44:18,000

um which is this so

1125

00:44:23,210 --> 00:44:20,700

ASAP I just talked about how ASAP was

1126

00:44:25,609 --> 00:44:23,220

his paranormal project and it was hidden

1127

00:44:27,050 --> 00:44:25,619

Reed and the others didn't want it

1128

00:44:29,290 --> 00:44:27,060

getting out that they were doing working

1129

00:44:33,069 --> 00:44:29,300

on this paranormal investing 22

1130

00:44:36,589 --> 00:44:33,079

paranormal investigation so when read

1131

00:44:38,930 --> 00:44:36,599

first started you know wrote a memo

1132

00:44:42,829 --> 00:44:38,940

where he wanted it to get sap access

1133

00:44:44,569 --> 00:44:42,839

which is special project access

1134

00:44:46,970 --> 00:44:44,579

um and that's essentially the the

1135

00:44:48,710 --> 00:44:46,980

correct term for a black project so he

1136

00:44:51,109 --> 00:44:48,720

wanted it to be a black project not just

1137

00:44:53,329 --> 00:44:51,119

to hide what they were doing but more so

1138

00:44:55,309 --> 00:44:53,339

to get access to other sap programs

1139

00:44:57,890 --> 00:44:55,319

other black projects

1140

00:45:00,530 --> 00:44:57,900

um he was denied but in that memo

1141

00:45:02,750 --> 00:45:00,540

instead of using the term ASAP for the

1142

00:45:05,150 --> 00:45:02,760

name of the group he used the term atip

1143

00:45:06,190 --> 00:45:05,160

Advanced Aerospace threat identification

1144

00:45:09,770 --> 00:45:06,200

program

1145

00:45:11,870 --> 00:45:09,780

which was essentially a nickname that he

1146

00:45:13,309 --> 00:45:11,880

and lachaski had come up with and we

1147

00:45:15,470 --> 00:45:13,319

know more about the details from the

1148

00:45:17,390 --> 00:45:15,480

lachaski book now the skinwalkers at the

1149

00:45:19,370 --> 00:45:17,400

Pentagon so they came up with this

1150

00:45:22,069 --> 00:45:19,380

nickname a tip because they didn't want

1151

00:45:24,770 --> 00:45:22,079

people to know about ASAP and they put

1152

00:45:27,890 --> 00:45:24,780

that in the memo so atip the first time

1153

00:45:31,010 --> 00:45:27,900

the term was used was as a nickname for

1154

00:45:34,609 --> 00:45:31,020

ASAP to kind of hide what ASAP was up to

1155

00:45:37,490 --> 00:45:34,619

was time moved on Elizondo joins the

1156

00:45:39,770 --> 00:45:37,500

program in about 2009 and this is when

1157

00:45:42,410 --> 00:45:39,780

ASAP is going away this is when ASAP

1158

00:45:44,990 --> 00:45:42,420

funding is ending and

1159

00:45:49,550 --> 00:45:45,000

um they decided Well let's continue this

1160

00:45:52,790 --> 00:45:49,560

portfolio uh of UAP military sightings

1161

00:45:55,370 --> 00:45:52,800

under the turn under the name atip and

1162

00:45:57,890 --> 00:45:55,380

that's what we'll do because by this

1163

00:45:59,930 --> 00:45:57,900

time the name ASAP had gotten out there

1164

00:46:01,490 --> 00:45:59,940

according to Lou there were a lot of

1165

00:46:03,050 --> 00:46:01,500

religious fundamentalists who were

1166

00:46:04,430 --> 00:46:03,060

scared of the weird paranormal stuff

1167

00:46:06,170 --> 00:46:04,440

they were looking into and they didn't

1168

00:46:08,210 --> 00:46:06,180

want him to

1169

00:46:11,390 --> 00:46:08,220

um after actually Harry Reid put out

1170

00:46:13,550 --> 00:46:11,400

that memo with atip in it lachaski says

1171

00:46:15,589 --> 00:46:13,560

in the book that the ASAP name and their

1172

00:46:17,450 --> 00:46:15,599

what they were doing got out there by

1173

00:46:19,190 --> 00:46:17,460

essentially people detractors people who

1174

00:46:20,510 --> 00:46:19,200

didn't like what they're doing let

1175

00:46:23,329 --> 00:46:20,520

everybody know hey look what these

1176

00:46:28,849 --> 00:46:23,339

goofballs are up to so ASAP had to kind

1177

00:46:30,829 --> 00:46:28,859

of go away and so what uh Lou and what

1178

00:46:33,290 --> 00:46:30,839

they had decided to do was keep looking

1179

00:46:35,390 --> 00:46:33,300

at these military UAP sightings so

1180

00:46:39,170 --> 00:46:35,400

that's what Lou inherited the money was

1181

00:46:42,230 --> 00:46:39,180

gone atip was not funded but it's more

1182

00:46:44,630 --> 00:46:42,240

accurate to call it a portfolio and this

1183

00:46:47,569 --> 00:46:44,640

is you know where Lou and and Nick Pope

1184

00:46:51,890 --> 00:46:47,579

kind of have a similar problem this is a

1185

00:46:54,290 --> 00:46:53,390

um and it's files that they're looking

1186

00:46:56,450 --> 00:46:54,300

into

1187

00:46:58,190 --> 00:46:56,460

a lot of people ascribe the name project

1188

00:47:01,190 --> 00:46:58,200

or program

1189

00:47:03,050 --> 00:47:01,200

um which are descriptive terms in what

1190

00:47:04,849 --> 00:47:03,060

they were doing it was a project it was

1191

00:47:07,010 --> 00:47:04,859

technically in general terms a project

1192

00:47:09,170 --> 00:47:07,020

that they were working on but it wasn't

1193

00:47:12,770 --> 00:47:09,180

a technical program or project that was

1194

00:47:14,750 --> 00:47:12,780

receiving any direct funding it was a

1195

00:47:17,150 --> 00:47:14,760

bit of a passion project but it's more

1196

00:47:19,609 --> 00:47:17,160

along the lines of uh you know like we

1197

00:47:22,490 --> 00:47:19,619

see on TV a lot of times where uh

1198

00:47:24,049 --> 00:47:22,500

detective is got his heart in a case and

1199

00:47:26,390 --> 00:47:24,059

he doesn't want to let it go he wants to

1200

00:47:28,430 --> 00:47:26,400

find the bad guy and the boss says all

1201

00:47:30,770 --> 00:47:28,440

right detective I'll let you keep

1202

00:47:33,290 --> 00:47:30,780

working on that but don't forget your

1203

00:47:35,690 --> 00:47:33,300

other responsibilities it's that sort of

1204

00:47:38,030 --> 00:47:35,700

thing it was the type of thing and I've

1205

00:47:40,309 --> 00:47:38,040

seen letters from Lou where it is

1206

00:47:43,549 --> 00:47:40,319

something you're assigned to so he was

1207

00:47:46,309 --> 00:47:43,559

assigned to this atip portfolio and so

1208

00:47:48,109 --> 00:47:46,319

were others and so it was a real working

1209

00:47:50,030 --> 00:47:48,119

kind of

1210

00:47:51,950 --> 00:47:50,040

project even though it's not technically

1211

00:47:54,770 --> 00:47:51,960

a project the more accurate term is a

1212

00:47:57,410 --> 00:47:54,780

portfolio that's the term that um Brian

1213

00:48:00,109 --> 00:47:57,420

Bender uses and it's a term that you

1214

00:48:02,150 --> 00:48:00,119

often hear it's just portfolio is kind

1215

00:48:05,569 --> 00:48:02,160

of confusing for the public so portfolio

1216

00:48:07,910 --> 00:48:05,579

often gets replaced by project by the

1217

00:48:10,190 --> 00:48:07,920

media or by people speaking to it

1218

00:48:13,370 --> 00:48:10,200

because Nick Pope was the same there was

1219

00:48:15,710 --> 00:48:13,380

no technical UFO desk but he was working

1220

00:48:17,750 --> 00:48:15,720

at the desk that received the UFO files

1221

00:48:20,150 --> 00:48:17,760

so Nick Polk was working on those UFO

1222

00:48:22,190 --> 00:48:20,160

files people complain oh he says he was

1223

00:48:25,130 --> 00:48:22,200

working on the UFO project or the UFO

1224

00:48:26,690 --> 00:48:25,140

desk those didn't exist true but how is

1225

00:48:28,910 --> 00:48:26,700

he supposed to describe what he worked

1226

00:48:31,309 --> 00:48:28,920

on him or Lou and you know it they're

1227

00:48:32,930 --> 00:48:31,319

not the ones that so it's a semantics

1228

00:48:35,510 --> 00:48:32,940

thing but I think the best way to call

1229

00:48:38,030 --> 00:48:35,520

it was a portfolio so it was something

1230

00:48:40,490 --> 00:48:38,040

he could uh probably spend as much for

1231

00:48:42,410 --> 00:48:40,500

as little time as he wanted on it but he

1232

00:48:44,270 --> 00:48:42,420

definitely it was a real thing that he

1233

00:48:46,730 --> 00:48:44,280

and others were working on and they were

1234

00:48:49,069 --> 00:48:46,740

also coordinating with others on as well

1235

00:48:50,690 --> 00:48:49,079

and that's been confirmed

1236

00:48:52,609 --> 00:48:50,700

um it's been confirmed in this leading

1237

00:48:53,930 --> 00:48:52,619

here latest hearing they confirmed atip

1238

00:48:55,430 --> 00:48:53,940

was a real thing

1239

00:48:57,410 --> 00:48:55,440

um and we've confirmed that you know

1240

00:49:00,530 --> 00:48:57,420

through several different Outlets of

1241

00:49:03,470 --> 00:49:00,540

what uh that atip was real uh and that

1242

00:49:05,990 --> 00:49:03,480

Lou was truly you know assigned to this

1243

00:49:08,150 --> 00:49:06,000

this is something he was assigned to

1244

00:49:10,309 --> 00:49:08,160

um and that he was working so when you

1245

00:49:12,290 --> 00:49:10,319

hear like the the basement podcast or

1246

00:49:15,170 --> 00:49:12,300

something like that where when Green

1247

00:49:18,290 --> 00:49:15,180

Street is basically saying that Lou

1248

00:49:20,569 --> 00:49:18,300

didn't have anything to do with

1249

00:49:22,630 --> 00:49:20,579

with it basically

1250

00:49:25,970 --> 00:49:22,640

um he in fact

1251
00:49:28,370 --> 00:49:25,980
was working something it just wasn't a

1252
00:49:32,150 --> 00:49:28,380
funded program

1253
00:49:35,329 --> 00:49:32,160
right he was working a portfolio and yep

1254
00:49:37,670 --> 00:49:35,339
Martin says hi but uh

1255
00:49:40,430 --> 00:49:37,680
a portfolio yeah it's just like anything

1256
00:49:42,650 --> 00:49:40,440
you know if you're on um if you're

1257
00:49:45,950 --> 00:49:42,660
someone who's working on let's say

1258
00:49:47,210 --> 00:49:45,960
several Accounts at your work uh or if

1259
00:49:49,430 --> 00:49:47,220
you're in law enforcement and you're

1260
00:49:50,990 --> 00:49:49,440
working on several cases it's the same

1261
00:49:53,750 --> 00:49:51,000
thing you've got an account I'm working

1262
00:49:55,370 --> 00:49:53,760
five different accounts uh one of them's

1263
00:49:57,290 --> 00:49:55,380

the Johnson account it's the same thing

1264

00:50:00,710 --> 00:49:57,300

you know elizondo's doing all this

1265

00:50:03,829 --> 00:50:00,720

camera intelligence uh for uh you know

1266

00:50:06,109 --> 00:50:03,839

terrorism but he's got this one UAP case

1267

00:50:08,390 --> 00:50:06,119

that he's also working on our file that

1268

00:50:10,069 --> 00:50:08,400

he's working on and that file includes a

1269

00:50:12,230 --> 00:50:10,079

bunch of different cases that they're

1270

00:50:13,849 --> 00:50:12,240

working so it's along those lines and it

1271

00:50:15,710 --> 00:50:13,859

is kind of confusing to describe

1272

00:50:18,170 --> 00:50:15,720

although

1273

00:50:22,190 --> 00:50:18,180

and and so what Green Street is talking

1274

00:50:23,329 --> 00:50:22,200

to though is that this game between the

1275

00:50:24,109 --> 00:50:23,339

DIA

1276

00:50:28,190 --> 00:50:24,119

um

1277

00:50:30,349 --> 00:50:28,200

you know people the the demon the the

1278

00:50:32,690 --> 00:50:30,359

bad person the person who's gotten kind

1279

00:50:35,690 --> 00:50:32,700

of deemed as the enemy of ufology as

1280

00:50:41,569 --> 00:50:35,700

this Susan go who is uh the pr person

1281

00:50:45,049 --> 00:50:43,190

and you know they've been putting out

1282

00:50:47,450 --> 00:50:45,059

some spurious information information

1283

00:50:48,650 --> 00:50:47,460

that is misleading or just outright

1284

00:50:52,250 --> 00:50:48,660

false

1285

00:50:55,130 --> 00:50:52,260

um disparaging Lou or his Association uh

1286

00:50:57,589 --> 00:50:55,140

or assignment to any of this and that's

1287

00:50:59,809 --> 00:50:57,599

been the struggle and according to Lou

1288

00:51:01,970 --> 00:50:59,819

this is all mostly due to his boss is

1289

00:51:04,670 --> 00:51:01,980

Harry Reid who has just kind of relieved

1290

00:51:06,589 --> 00:51:04,680

of his responsibilities recently

1291

00:51:10,130 --> 00:51:06,599

um he said he was really against this

1292

00:51:12,170 --> 00:51:10,140

Lou seemed to not trust him and so he

1293

00:51:14,930 --> 00:51:12,180

didn't share you know what he's doing on

1294

00:51:16,609 --> 00:51:14,940

uaps with this and and Lou said that's

1295

00:51:18,650 --> 00:51:16,619

where a lot of this blowback has come

1296

00:51:20,030 --> 00:51:18,660

from as well as you know people just not

1297

00:51:22,730 --> 00:51:20,040

being happy with him coming out and

1298

00:51:25,130 --> 00:51:22,740

talking about this so uh Green Street

1299

00:51:27,349 --> 00:51:25,140

has kind of said hey you know the DIA

1300

00:51:30,829 --> 00:51:27,359

makes some good points we don't see any

1301

00:51:32,270 --> 00:51:30,839

proof of some of these other aspects of

1302

00:51:34,309 --> 00:51:32,280

this program

1303

00:51:37,190 --> 00:51:34,319

um so what's going on here

1304

00:51:38,569 --> 00:51:37,200

um and he's also saying you know uh Lou

1305

00:51:41,510 --> 00:51:38,579

has not just said the same thing as

1306

00:51:43,670 --> 00:51:41,520

lachaski or to as Eric Davis and so for

1307

00:51:46,910 --> 00:51:43,680

into what I mean by that is I've

1308

00:51:48,170 --> 00:51:46,920

interviewed Lou and Eric Davis on this

1309

00:51:50,569 --> 00:51:48,180

topic

1310

00:51:52,910 --> 00:51:50,579

these anybody else have this problem

1311

00:51:54,530 --> 00:51:52,920

with these yeah Pros don't see in your

1312

00:51:57,109 --> 00:51:54,540

ear but anyway

1313

00:52:00,109 --> 00:51:57,119

uh Davis had told me

1314

00:52:02,750 --> 00:52:00,119

atip was a name that Harry Reid made up

1315

00:52:04,490 --> 00:52:02,760

and he got the name wrong of the program

1316

00:52:06,230 --> 00:52:04,500

and that was his perspective as a

1317

00:52:07,190 --> 00:52:06,240

contractor that's what he thought

1318

00:52:12,049 --> 00:52:07,200

happened

1319

00:52:14,270 --> 00:52:12,059

I asked Lou Lou said well

1320

00:52:19,730 --> 00:52:17,450

that Harry Reid had used the term I

1321

00:52:21,530 --> 00:52:19,740

can't remember exactly what Lou had said

1322

00:52:23,150 --> 00:52:21,540

to be honest right now but it was a

1323

00:52:25,370 --> 00:52:23,160

little different than what lachaski had

1324

00:52:27,049 --> 00:52:25,380

said so there are differences but I

1325

00:52:29,930 --> 00:52:27,059

think those differences are from their

1326

00:52:32,030 --> 00:52:29,940

different perspectives you know Lou

1327

00:52:34,549 --> 00:52:32,040

wasn't in the meeting when they chose in

1328

00:52:36,770 --> 00:52:34,559

their name essentially so he only has

1329

00:52:38,690 --> 00:52:36,780

what he thinks was the reason that they

1330

00:52:42,230 --> 00:52:38,700

chose the name and I think that's what

1331

00:52:44,809 --> 00:52:42,240

happens a lot but also

1332

00:52:46,130 --> 00:52:44,819

um it's a little bit of parsing words no

1333

00:52:48,170 --> 00:52:46,140

doubt

1334

00:52:50,109 --> 00:52:48,180

um saying hey Lou said this but he said

1335

00:52:52,970 --> 00:52:50,119

this here

1336

00:52:55,130 --> 00:52:52,980

Green Street is translating those as

1337

00:52:57,470 --> 00:52:55,140

completely opposite

1338

00:52:59,809 --> 00:52:57,480

um so he sees deception whereas someone

1339

00:53:02,030 --> 00:52:59,819

like me sees just different verbiage

1340

00:53:04,069 --> 00:53:02,040

being used and that there is a

1341

00:53:06,410 --> 00:53:04,079

connection typically

1342

00:53:09,230 --> 00:53:06,420

um and that's where kind of these issues

1343

00:53:11,510 --> 00:53:09,240

are I'm much less quick to say these

1344

00:53:13,549 --> 00:53:11,520

guys are lying or deceiving people I

1345

00:53:15,770 --> 00:53:13,559

think that they're just describing

1346

00:53:17,270 --> 00:53:15,780

things as best as they can in that if

1347

00:53:19,970 --> 00:53:17,280

you actually had a conversation and get

1348

00:53:21,470 --> 00:53:19,980

together which typically they have a

1349

00:53:24,470 --> 00:53:21,480

reason as to why they used whatever

1350

00:53:26,930 --> 00:53:24,480

verbiage they use

1351

00:53:29,569 --> 00:53:26,940

well well it's all interesting and and

1352

00:53:30,950 --> 00:53:29,579

you know I watched uh green Street's the

1353

00:53:32,630 --> 00:53:30,960

basement

1354

00:53:35,569 --> 00:53:32,640

um whatever it's called podcast or

1355

00:53:39,290 --> 00:53:35,579

office whatever basement office and

1356

00:53:41,089 --> 00:53:39,300

I was more confused than anything else

1357

00:53:43,490 --> 00:53:41,099

when I got yeah

1358

00:53:45,950 --> 00:53:43,500

you know and and here's the unfortunate

1359

00:53:50,390 --> 00:53:45,960

thing with what Green Street has been up

1360

00:53:52,060 --> 00:53:50,400

to is I feel that maybe he could build a

1361

00:53:52,609 --> 00:53:52,070

good case for

1362

00:53:53,329 --> 00:53:52,619

[Music]

1363

00:53:56,990 --> 00:53:53,339

um

1364

00:54:00,530 --> 00:53:57,000

potential deception going on and you

1365

00:54:02,390 --> 00:54:00,540

know potential uh misleading terms in

1366

00:54:04,130 --> 00:54:02,400

that hey they said this once and they

1367

00:54:06,470 --> 00:54:04,140

said this another time

1368

00:54:09,109 --> 00:54:06,480

um there might be some cases like that

1369

00:54:11,210 --> 00:54:09,119

of which then you can ask directly why

1370

00:54:11,990 --> 00:54:11,220

did you say this at this time and this

1371

00:54:16,309 --> 00:54:12,000

time

1372

00:54:17,829 --> 00:54:16,319

but a lot of his videos also full of

1373

00:54:20,750 --> 00:54:17,839

things that are just

1374

00:54:22,790 --> 00:54:20,760

misrepresentations or falsehoods

1375

00:54:24,589 --> 00:54:22,800

themselves I think there's a lot of

1376

00:54:26,870 --> 00:54:24,599

misleading

1377

00:54:28,670 --> 00:54:26,880

um stuff in that video and so it's

1378

00:54:30,970 --> 00:54:28,680

unfortunately because green Street's

1379

00:54:32,809 --> 00:54:30,980

doing a lot of what he's accusing

1380

00:54:35,450 --> 00:54:32,819

Elizondo of doing where he's

1381

00:54:37,549 --> 00:54:35,460

misrepresenting a lot of and I think he

1382

00:54:38,990 --> 00:54:37,559

knows because there are certainly things

1383

00:54:41,750 --> 00:54:39,000

that I've conversed with him on Twitter

1384

00:54:43,309 --> 00:54:41,760

where he took the take that is

1385

00:54:44,329 --> 00:54:43,319

inaccurate

1386

00:54:47,690 --> 00:54:44,339

um

1387

00:54:49,730 --> 00:54:47,700

and so it's that's always unfortunate I

1388

00:54:51,650 --> 00:54:49,740

I so I I think you need to take green

1389

00:54:52,970 --> 00:54:51,660

Street's information with a huge grain

1390

00:54:54,530 --> 00:54:52,980

of salt

1391

00:54:57,589 --> 00:54:54,540

um

1392

00:54:59,750 --> 00:54:57,599

right well there's uh I was just gonna

1393

00:55:01,069 --> 00:54:59,760

see if I could pull up this

1394

00:55:05,870 --> 00:55:01,079

letter

1395

00:55:07,730 --> 00:55:05,880

I mean by that um

1396

00:55:11,990 --> 00:55:07,740

that that's one thing that he never he

1397

00:55:14,569 --> 00:55:12,000

never brought up in that video is when

1398

00:55:16,549 --> 00:55:14,579

Harry Reid confirmed

1399

00:55:18,829 --> 00:55:16,559

uh I had it here but I can't seem to

1400

00:55:20,870 --> 00:55:18,839

find it oh right right and that's the

1401

00:55:23,510 --> 00:55:20,880

other thing yeah we have an abundance of

1402

00:55:24,829 --> 00:55:23,520

evidence and I think that you know and

1403

00:55:26,510 --> 00:55:24,839

and this is where people are kind of

1404

00:55:28,730 --> 00:55:26,520

getting confused too

1405

00:55:32,030 --> 00:55:28,740

journalists don't typically rely much on

1406

00:55:34,490 --> 00:55:32,040

foia because foia takes forever

1407

00:55:37,010 --> 00:55:34,500

um so for instance I made an uh a

1408

00:55:41,329 --> 00:55:37,020

request like many others for the ASAP

1409

00:55:44,089 --> 00:55:41,339

DAC docs uh years ago soon you know as

1410

00:55:47,030 --> 00:55:44,099

soon as we knew the name ASAP many of us

1411

00:55:50,089 --> 00:55:47,040

put in foyers we went to ASAP docs we

1412

00:55:52,490 --> 00:55:50,099

just got those a couple months ago and

1413

00:55:55,130 --> 00:55:52,500

it seems like a lot are missing but the

1414

00:55:57,829 --> 00:55:55,140

point is it took years for those to get

1415

00:55:59,270 --> 00:55:57,839

out you can't wait years for a story so

1416

00:56:02,089 --> 00:55:59,280

what do you do as a journalist you

1417

00:56:05,089 --> 00:56:02,099

develop sources people like Elizondo

1418

00:56:07,069 --> 00:56:05,099

read melon you go to the first hand

1419

00:56:09,530 --> 00:56:07,079

people who were there first-hand

1420

00:56:11,630 --> 00:56:09,540

Witnesses and you ask them firsthand

1421

00:56:15,770 --> 00:56:11,640

Witnesses in those this case are Harry

1422

00:56:18,410 --> 00:56:15,780

Reid the contractors uh Bigelow how put

1423

00:56:21,230 --> 00:56:18,420

off Eric Davis these are the first

1424

00:56:23,030 --> 00:56:21,240

person let's ask you who ran it these

1425

00:56:25,490 --> 00:56:23,040

are the first person in the know people

1426

00:56:26,930 --> 00:56:25,500

they're the ones you ask and all of

1427

00:56:30,770 --> 00:56:26,940

these people have confirmed what

1428

00:56:33,170 --> 00:56:30,780

Elizondo saying so um maybe Elizondo

1429

00:56:34,970 --> 00:56:33,180

isn't clear about some of the aspects

1430

00:56:37,250 --> 00:56:34,980

they're complaining about but when it

1431

00:56:39,470 --> 00:56:37,260

comes to the big picture and the Big

1432

00:56:41,930 --> 00:56:39,480

Ticket items that have been reported on

1433

00:56:42,589 --> 00:56:41,940

you know he's been accurate

1434

00:56:44,210 --> 00:56:42,599

um

1435

00:56:46,430 --> 00:56:44,220

and so

1436

00:56:50,990 --> 00:56:46,440

I think that's what's important

1437

00:56:52,549 --> 00:56:51,000

right no no I agree I agree with you so

1438

00:56:56,569 --> 00:56:52,559

um yeah and they're the only other thing

1439

00:56:59,750 --> 00:56:56,579

that I heard a lot was that

1440

00:57:01,609 --> 00:56:59,760

um the time the times were off

1441

00:57:04,069 --> 00:57:01,619

when the program was supposed to start

1442

00:57:05,990 --> 00:57:04,079

you know maybe that's that maybe that

1443

00:57:11,390 --> 00:57:06,000

was a simple error or whatever but that

1444

00:57:15,410 --> 00:57:13,370

when where I kind of

1445

00:57:19,609 --> 00:57:15,420

um

1446

00:57:23,210 --> 00:57:19,619

think that the critics have everything

1447

00:57:25,370 --> 00:57:23,220

completely wrong and lachaski talks

1448

00:57:27,770 --> 00:57:25,380

about this in his book as well

1449

00:57:31,309 --> 00:57:27,780

you know they're talking about you know

1450

00:57:34,370 --> 00:57:31,319

timing as to when the program started

1451
00:57:37,010 --> 00:57:34,380
versus when the contract request went

1452
00:57:40,130 --> 00:57:37,020
out and when Bigelow was hired there's

1453
00:57:42,589 --> 00:57:40,140
nothing abnormal about any of that at

1454
00:57:44,809 --> 00:57:42,599
all because it's very clearly laid out

1455
00:57:47,809 --> 00:57:44,819
and like lachaski says they keep talking

1456
00:57:50,690 --> 00:57:47,819
about how you know ASAP was in existence

1457
00:57:54,049 --> 00:57:50,700
for a period of time before bass was

1458
00:57:55,309 --> 00:57:54,059
hired so what they and that ASAP had

1459
00:57:58,370 --> 00:57:55,319
staff

1460
00:58:00,950 --> 00:57:58,380
of course they did this is a Dia project

1461
00:58:03,829 --> 00:58:00,960
when the project gets started you need

1462
00:58:07,970 --> 00:58:03,839
to hire some people to figure out the

1463
00:58:10,309 --> 00:58:07,980

project to put together the request

1464

00:58:12,530 --> 00:58:10,319

um for bids from contractors and then

1465

00:58:14,750 --> 00:58:12,540

get that out there so and now we know

1466

00:58:17,030 --> 00:58:14,760

from lachaski's book there was even some

1467

00:58:18,170 --> 00:58:17,040

work being done that lachaski had that

1468

00:58:21,109 --> 00:58:18,180

Nimitz

1469

00:58:23,390 --> 00:58:21,119

document that George Knapp leaked uh

1470

00:58:25,670 --> 00:58:23,400

created during that period of time right

1471

00:58:28,250 --> 00:58:25,680

when OSAP started so there was work

1472

00:58:30,049 --> 00:58:28,260

going on that lachaski was doing even

1473

00:58:32,630 --> 00:58:30,059

before they got Bigelow on as a

1474

00:58:34,970 --> 00:58:32,640

contractor you know some people have

1475

00:58:37,730 --> 00:58:34,980

called it a sweetheart deal Bender even

1476

00:58:40,069 --> 00:58:37,740

calls it that but I think people get

1477

00:58:43,549 --> 00:58:40,079

misconstrue that and it's a sweetheart

1478

00:58:46,309 --> 00:58:43,559

deal but what was that the gift the gift

1479

00:58:48,589 --> 00:58:46,319

to Bass was not 22 million dollars

1480

00:58:50,690 --> 00:58:48,599

according to Bigelow he actually had to

1481

00:58:52,370 --> 00:58:50,700

spend more than 22 dollars something

1482

00:58:54,530 --> 00:58:52,380

like 10 million of his own dollars

1483

00:58:56,329 --> 00:58:54,540

because 22 wasn't enough and I believe

1484

00:58:58,309 --> 00:58:56,339

him because he's always spent a lot of

1485

00:58:59,329 --> 00:58:58,319

money on this but yes

1486

00:59:02,210 --> 00:58:59,339

um

1487

00:59:04,910 --> 00:59:02,220

what the gift was was the opportunity to

1488

00:59:07,190 --> 00:59:04,920

do this official government paranormal

1489

00:59:09,349 --> 00:59:07,200

project and who else would have done it

1490

00:59:11,210 --> 00:59:09,359

they're trying to say that this was you

1491

00:59:12,950 --> 00:59:11,220

know this kind of pork belly project

1492

00:59:13,849 --> 00:59:12,960

type of thing

1493

00:59:15,650 --> 00:59:13,859

um

1494

00:59:18,470 --> 00:59:15,660

but I don't think there's any evidence

1495

00:59:21,589 --> 00:59:18,480

of that uh they there could be evidence

1496

00:59:23,690 --> 00:59:21,599

of you know kind of a sweetheart deal to

1497

00:59:25,609 --> 00:59:23,700

give Bigelow that this paranormal

1498

00:59:27,950 --> 00:59:25,619

project but that's what these guys

1499

00:59:30,349 --> 00:59:27,960

wanted to do in the first place and I

1500

00:59:33,829 --> 00:59:30,359

think you know Harry Reid's job is to

1501
00:59:35,870 --> 00:59:33,839
represent his his constituents and I

1502
00:59:37,970 --> 00:59:35,880
think that certainly if we did a poll

1503
00:59:39,890 --> 00:59:37,980
right here but I think if you did a poll

1504
00:59:41,390 --> 00:59:39,900
with the American public and asked hey

1505
00:59:43,609 --> 00:59:41,400
do you want the government to at least

1506
00:59:46,130 --> 00:59:43,619
have a small program where they're

1507
00:59:49,130 --> 00:59:46,140
looking into the Paranormal I think most

1508
00:59:50,750 --> 00:59:49,140
people would say yes you know I think a

1509
00:59:52,250 --> 00:59:50,760
lot of people are into ghosts and all of

1510
00:59:55,789 --> 00:59:52,260
these other things and would like

1511
00:59:58,370 --> 00:59:55,799
something like this so I I don't see you

1512
01:00:01,490 --> 00:59:58,380
know this is this big

1513
01:00:03,829 --> 01:00:01,500

kind of pork belly handshake type of

1514

01:00:05,510 --> 01:00:03,839

thing that people are talking about and

1515

01:00:07,309 --> 01:00:05,520

even when they talk about the contract

1516

01:00:09,890 --> 01:00:07,319

itself saying it was custom made for

1517

01:00:12,950 --> 01:00:09,900

Bigelow that Bigelow started up his bass

1518

01:00:15,109 --> 01:00:12,960

group to win that contract before the

1519

01:00:16,370 --> 01:00:15,119

contract was even out there or before

1520

01:00:18,950 --> 01:00:16,380

you know

1521

01:00:21,349 --> 01:00:18,960

um the bid was out true but of course

1522

01:00:23,750 --> 01:00:21,359

he's going to have early notification

1523

01:00:26,510 --> 01:00:23,760

that the project started because you

1524

01:00:29,150 --> 01:00:26,520

know he was requested by this Dia agent

1525

01:00:30,589 --> 01:00:29,160

in I believe it was 2005 to go visit the

1526

01:00:32,990 --> 01:00:30,599

ranch because this guy read the book

1527

01:00:34,870 --> 01:00:33,000

that guy came to the ranch had his own

1528

01:00:38,809 --> 01:00:34,880

paranormal experience

1529

01:00:42,349 --> 01:00:38,819

lachaski and then started ASAP so

1530

01:00:44,089 --> 01:00:42,359

Bigelow was in the conversation from the

1531

01:00:47,390 --> 01:00:44,099

beginning and it was all about

1532

01:00:48,950 --> 01:00:47,400

researching a ranch that he owned so of

1533

01:00:50,750 --> 01:00:48,960

course he's going to be in the loop on

1534

01:00:52,490 --> 01:00:50,760

what's going on and that this is coming

1535

01:00:54,950 --> 01:00:52,500

down the pike

1536

01:00:58,549 --> 01:00:54,960

um other companies did have the

1537

01:01:00,829 --> 01:00:58,559

opportunity to bid for this project but

1538

01:01:04,789 --> 01:01:00,839

who's going to bid for a paranormal

1539

01:01:06,470 --> 01:01:04,799

investigation when uh of a ranch when

1540

01:01:09,770 --> 01:01:06,480

you're you're bidding against the guy

1541

01:01:12,410 --> 01:01:09,780

who owns the ranch who also has an

1542

01:01:15,650 --> 01:01:12,420

entire Aerospace organization who he's

1543

01:01:16,670 --> 01:01:15,660

willing to to put into this as well you

1544

01:01:17,870 --> 01:01:16,680

know you're going to lose you're going

1545

01:01:19,549 --> 01:01:17,880

to lose to the guy with the more

1546

01:01:22,010 --> 01:01:19,559

knowledge and and this happens where

1547

01:01:25,430 --> 01:01:22,020

companies have proprietary technologies

1548

01:01:27,950 --> 01:01:25,440

that and they're contracted to

1549

01:01:30,589 --> 01:01:27,960

um for whatever those proprietary

1550

01:01:32,030 --> 01:01:30,599

proprietary assets are and they're not

1551

01:01:34,670 --> 01:01:32,040

going to give up their proprietary

1552

01:01:36,170 --> 01:01:34,680

assets to Lockheed because they won the

1553

01:01:39,109 --> 01:01:36,180

contract no that's not going to happen

1554

01:01:42,170 --> 01:01:39,119

so it often the bidder with the

1555

01:01:44,030 --> 01:01:42,180

proprietary whatever ever it is is a

1556

01:01:46,010 --> 01:01:44,040

winner for that reason they're the only

1557

01:01:49,609 --> 01:01:46,020

ones who can do it

1558

01:01:51,349 --> 01:01:49,619

um so so I don't think I don't there's a

1559

01:01:54,289 --> 01:01:51,359

little bit of smoke I don't see really

1560

01:01:58,309 --> 01:01:54,299

any fires though and I think the biggest

1561

01:02:01,609 --> 01:01:58,319

indicator is the DIA has obviously been

1562

01:02:03,710 --> 01:02:01,619

um challenging Elizondo and and the

1563

01:02:06,650 --> 01:02:03,720

group and they have not raised any

1564

01:02:08,210 --> 01:02:06,660

concerns I think that if the DIA had an

1565

01:02:09,410 --> 01:02:08,220

issue with any of this we would hear

1566

01:02:10,849 --> 01:02:09,420

from it

1567

01:02:13,250 --> 01:02:10,859

um and one of the biggest pieces of

1568

01:02:15,190 --> 01:02:13,260

evidence of that is that uh they

1569

01:02:17,650 --> 01:02:15,200

launched that Air Force OSI

1570

01:02:20,630 --> 01:02:17,660

investigation about the videos

1571

01:02:22,130 --> 01:02:20,640

essentially saying look these videos Lou

1572

01:02:24,470 --> 01:02:22,140

wasn't supposed to put those out let's

1573

01:02:26,809 --> 01:02:24,480

you know investigate this and

1574

01:02:29,210 --> 01:02:26,819

potentially bust them on it and it

1575

01:02:31,490 --> 01:02:29,220

turned out that Lou was not that the

1576

01:02:32,870 --> 01:02:31,500

videos were not classified so there

1577

01:02:35,150 --> 01:02:32,880

wasn't a problem with Lou putting those

1578

01:02:37,609 --> 01:02:35,160

out so well he didn't actually put them

1579

01:02:40,010 --> 01:02:37,619

out the very first time though right

1580

01:02:44,270 --> 01:02:40,020

because wasn't there that German company

1581

01:02:47,270 --> 01:02:44,280

that the the the gimbal one was released

1582

01:02:51,289 --> 01:02:47,280

in you know years ahead yeah the the

1583

01:02:53,750 --> 01:02:51,299

that one was released soon after it was

1584

01:02:57,770 --> 01:02:53,760

available hmm

1585

01:02:59,870 --> 01:02:57,780

um it's a mystery who did that uh from

1586

01:03:01,789 --> 01:02:59,880

behind the scenes uh I guess there are

1587

01:03:04,430 --> 01:03:01,799

people in the military know who it was

1588

01:03:06,950 --> 01:03:04,440

and

1589

01:03:09,529 --> 01:03:06,960

it was just someone who was upset

1590

01:03:12,109 --> 01:03:09,539

so from what I understand it was someone

1591

01:03:14,510 --> 01:03:12,119

who was upset about the ridicule who was

1592

01:03:17,270 --> 01:03:14,520

essentially saying look this happened

1593

01:03:19,430 --> 01:03:17,280

and it was real here's the video and

1594

01:03:22,789 --> 01:03:19,440

that's why they put it out and I believe

1595

01:03:25,309 --> 01:03:22,799

you know it then was reviewed by a

1596

01:03:27,349 --> 01:03:25,319

a military blog

1597

01:03:28,970 --> 01:03:27,359

um and that's how I first came many of

1598

01:03:31,910 --> 01:03:28,980

us first were aware about the Nimitz

1599

01:03:34,789 --> 01:03:31,920

incident and uh and that person probably

1600

01:03:36,650 --> 01:03:34,799

knew who leaked it as well and was

1601
01:03:38,750 --> 01:03:36,660
probably alerted by that person to write

1602
01:03:41,210 --> 01:03:38,760
that story but essentially yeah that was

1603
01:03:43,309 --> 01:03:41,220
somebody and and uh from you know

1604
01:03:45,710 --> 01:03:43,319
listening to your interview with Sean

1605
01:03:48,770 --> 01:03:45,720
Cahill recently you know he was talking

1606
01:03:50,990 --> 01:03:48,780
about how that video was available to

1607
01:03:53,210 --> 01:03:51,000
everybody and everybody on the ship or

1608
01:03:55,010 --> 01:03:53,220
at least in the Nimitz carrier strike

1609
01:03:58,010 --> 01:03:55,020
group it sounds like

1610
01:04:00,289 --> 01:03:58,020
um we're watching that video and

1611
01:04:02,750 --> 01:04:00,299
um aware of it so any one of those

1612
01:04:05,029 --> 01:04:02,760
people could have recorded it with their

1613
01:04:07,549 --> 01:04:05,039

phone and that's what I think happened

1614

01:04:11,150 --> 01:04:07,559

and then released it so that one was

1615

01:04:13,430 --> 01:04:11,160

released but you know early on it was

1616

01:04:14,750 --> 01:04:13,440

leaked and that person could have gotten

1617

01:04:15,890 --> 01:04:14,760

in trouble maybe they won't at this

1618

01:04:18,529 --> 01:04:15,900

point

1619

01:04:20,210 --> 01:04:18,539

um but that's a sticky subject but uh

1620

01:04:21,410 --> 01:04:20,220

that person has not gotten in trouble as

1621

01:04:23,270 --> 01:04:21,420

far as I know

1622

01:04:26,390 --> 01:04:23,280

then after that the New York Times

1623

01:04:28,789 --> 01:04:26,400

leaked the uh videos one of the big

1624

01:04:30,710 --> 01:04:28,799

arguments John Greenwald has is that

1625

01:04:32,329 --> 01:04:30,720

obviously you know they're saying the

1626
01:04:34,370 --> 01:04:32,339
New York Times got those from Elizondo

1627
01:04:36,230 --> 01:04:34,380
and Elizondo said that's not the case so

1628
01:04:38,930 --> 01:04:36,240
was Leslie Kane

1629
01:04:40,309 --> 01:04:38,940
um and Chris Mellon finally came out all

1630
01:04:42,170 --> 01:04:40,319
of these in my interviews where they've

1631
01:04:44,210 --> 01:04:42,180
denied these or come out and then Chris

1632
01:04:46,309 --> 01:04:44,220
Mellon came out and said I was the one

1633
01:04:50,029 --> 01:04:46,319
who put out that video I'm not sure if I

1634
01:04:52,549 --> 01:04:50,039
bent any rules and if I did tough I want

1635
01:04:54,049 --> 01:04:52,559
this topic is more important and I was

1636
01:04:55,130 --> 01:04:54,059
willing to bend rules to make this

1637
01:04:57,049 --> 01:04:55,140
happen

1638
01:04:58,910 --> 01:04:57,059

um and he's you know very Unapologetic

1639

01:05:01,609 --> 01:04:58,920

about it which I appreciate to be honest

1640

01:05:04,849 --> 01:05:01,619

I think um I really appreciate what he

1641

01:05:06,170 --> 01:05:04,859

did and I think you know I I don't

1642

01:05:10,430 --> 01:05:06,180

so

1643

01:05:11,930 --> 01:05:10,440

Elizondo says he didn't provide them

1644

01:05:14,750 --> 01:05:11,940

Chris melon has come out and said he

1645

01:05:16,609 --> 01:05:14,760

provided them to the times but now you

1646

01:05:19,849 --> 01:05:16,619

know they're arguing well Elizondo did

1647

01:05:20,930 --> 01:05:19,859

provide them to tsa for tsa to make

1648

01:05:24,890 --> 01:05:20,940

money

1649

01:05:27,109 --> 01:05:24,900

I don't know uh you know tsa was a uh

1650

01:05:29,150 --> 01:05:27,119

public benefit Corporation is what it

1651

01:05:32,150 --> 01:05:29,160

was called which is similar to a

1652

01:05:33,710 --> 01:05:32,160

non-profit but not quite but still you

1653

01:05:34,609 --> 01:05:33,720

know it's a it's a

1654

01:05:36,829 --> 01:05:34,619

um

1655

01:05:38,510 --> 01:05:36,839

corporation which has to provide like

1656

01:05:41,210 --> 01:05:38,520

education

1657

01:05:43,609 --> 01:05:41,220

um and things to the public

1658

01:05:46,549 --> 01:05:43,619

um and I think that's the intention and

1659

01:05:48,950 --> 01:05:46,559

always has been the intention of tsa I

1660

01:05:50,270 --> 01:05:48,960

don't think PTSA was ever really about

1661

01:05:51,650 --> 01:05:50,280

money

1662

01:05:53,210 --> 01:05:51,660

um especially when you're talking about

1663

01:05:56,569 --> 01:05:53,220

the majority of the people who ran

1664

01:05:58,190 --> 01:05:56,579

started tsa didn't need money I mean

1665

01:06:00,349 --> 01:05:58,200

the two major players were probably Tom

1666

01:06:04,069 --> 01:06:00,359

Delong and Chris Mellon and

1667

01:06:07,970 --> 01:06:04,079

um Tom DeLong is is doing well uh and

1668

01:06:09,650 --> 01:06:07,980

melon yeah and melon melon family yeah

1669

01:06:11,270 --> 01:06:09,660

the melon family is not going to need

1670

01:06:13,549 --> 01:06:11,280

money for a long long time in fact

1671

01:06:17,470 --> 01:06:13,559

they're I think lending money to Nations

1672

01:06:19,490 --> 01:06:17,480

who are needing money so yeah yeah

1673

01:06:20,870 --> 01:06:19,500

I'm going to take we're going to take a

1674

01:06:23,210 --> 01:06:20,880

one minute break here I'm going to play

1675

01:06:25,730 --> 01:06:23,220

uh this is uh

1676

01:06:28,970 --> 01:06:25,740

basically a little commercial here two

1677

01:06:31,370 --> 01:06:28,980

books one for uh Ralph lumenthal and one

1678

01:06:33,470 --> 01:06:31,380

for our blogger who writes the art and

1679

01:06:34,849 --> 01:06:33,480

is also does the audio blog for this

1680

01:06:37,370 --> 01:06:34,859

1686

01:06:51,470 --> 01:06:49,140

consciously impaired you risked it all

1687

01:06:54,650 --> 01:06:51,480

to investigate human encounters with

1688

01:06:57,289 --> 01:06:54,660

aliens the believer alien encounters

1689

01:07:00,109 --> 01:06:57,299

hard science and the passion of John

1690

01:07:01,970 --> 01:07:00,119

Mack written by award-winning former New

1691

01:07:04,130 --> 01:07:01,980

wandering

1701

01:07:38,450 --> 01:07:36,539

by Charles Lair New York USA the Flying

available on Amazon from June 2022 the

Flying Saucer investigators flying disc

1705

01:07:54,890 --> 01:07:51,049

yeah I'm really glad Charles wrote that

1706

01:07:58,309 --> 01:07:54,900

that book he's been writing blogs for uh

1707

01:08:00,650 --> 01:07:58,319

for three or four years here and he's

1708

01:08:02,569 --> 01:08:00,660

been really great at it and he does some

1709

01:08:04,309 --> 01:08:02,579

really deep research I saw a couple

1710

01:08:06,289 --> 01:08:04,319

questions in here I don't know if you've

1711

01:08:10,430 --> 01:08:06,299

looked through the chat at all but one

1712

01:08:13,549 --> 01:08:11,750

oh

1713

01:08:14,990 --> 01:08:13,559

um that when we we don't know someone

1714

01:08:17,209 --> 01:08:15,000

wanted to know who the guy was to say

1715

01:08:19,490 --> 01:08:17,219

hey look at the ASA that was a pilot we

1716

01:08:21,530 --> 01:08:19,500

have no idea who that was that would be

1717

01:08:24,110 --> 01:08:21,540

really interesting though if we

1718

01:08:25,729 --> 01:08:24,120

eventually got to know who those Pilots

1719

01:08:31,130 --> 01:08:25,739

were

1720

01:08:32,749 --> 01:08:31,140

I don't know how I didn't even see me uh

1721

01:08:33,829 --> 01:08:32,759

posting that comment it was that was by

1722

01:08:35,149 --> 01:08:33,839

accident

1723

01:08:37,849 --> 01:08:35,159

um

1724

01:08:40,070 --> 01:08:37,859

but we can address that though I would

1725

01:08:42,169 --> 01:08:40,080

like to address that one oh I didn't

1726

01:08:44,030 --> 01:08:42,179

even see it all right what was the

1727

01:08:45,709 --> 01:08:44,040

question yeah

1728

01:08:47,450 --> 01:08:45,719

um he said I think two things can be

1729

01:08:48,950 --> 01:08:47,460

true about Lou he is furthering the

1730

01:08:51,470 --> 01:08:48,960

topic and he's shutting down specific

1731

01:08:54,709 --> 01:08:51,480

people for reasons unknown to the public

1732

01:08:56,630 --> 01:08:54,719

I don't agree with the second part

1733

01:08:57,829 --> 01:08:56,640

um not that he's not shutting down

1734

01:09:00,950 --> 01:08:57,839

people

1735

01:09:02,930 --> 01:09:00,960

um he is and I think that uh you know I

1736

01:09:05,269 --> 01:09:02,940

don't know Martin's better at staying

1737

01:09:08,329 --> 01:09:05,279

out of the The Fray than I am

1738

01:09:10,970 --> 01:09:08,339

um but still you know I think I I'm

1739

01:09:13,370 --> 01:09:10,980

there a lot less than most and I think

1740

01:09:14,870 --> 01:09:13,380

that Elizondo needs to learn to and he

1741

01:09:16,729 --> 01:09:14,880

has now because he's gotten off of

1742

01:09:18,950 --> 01:09:16,739

social media unfortunately he's not

1743

01:09:21,110 --> 01:09:18,960

doing any more podcasts right now

1744

01:09:23,630 --> 01:09:21,120

um because he's just had enough but he

1745

01:09:26,269 --> 01:09:23,640

he you know and I've talked to him a lot

1746

01:09:27,950 --> 01:09:26,279

about this it's hard for him and it's

1747

01:09:29,630 --> 01:09:27,960

it's just like with celebrities you know

1748

01:09:32,630 --> 01:09:29,640

they get beat up on social media and

1749

01:09:34,910 --> 01:09:32,640

they get really it has an emotional uh

1750

01:09:36,769 --> 01:09:34,920

effect on them and it's it's had an

1751

01:09:38,930 --> 01:09:36,779

effect on him and it and it really

1752

01:09:41,510 --> 01:09:38,940

frustrates him and hurts him

1753

01:09:43,849 --> 01:09:41,520

um and he doesn't totally understand it

1754

01:09:46,010 --> 01:09:43,859

um even some of these people that are

1755

01:09:47,630 --> 01:09:46,020

good researchers like Greenwald I think

1756

01:09:50,269 --> 01:09:47,640

he acknowledges greenwald's a great

1757

01:09:52,309 --> 01:09:50,279

researcher but I think you know his what

1758

01:09:56,030 --> 01:09:52,319

he feels is he doesn't understand is how

1759

01:09:57,709 --> 01:09:56,040

being immensely he's attacked and he

1760

01:09:59,990 --> 01:09:57,719

feels that you know he's negatively

1761

01:10:01,850 --> 01:10:00,000

attacked as opposed to people just kind

1762

01:10:04,250 --> 01:10:01,860

of trying to genuinely ask questions

1763

01:10:05,810 --> 01:10:04,260

because he's I think in his mind and I

1764

01:10:07,189 --> 01:10:05,820

believe him coming from a place where he

1765

01:10:09,290 --> 01:10:07,199

wants to help

1766

01:10:12,530 --> 01:10:09,300

um so he he's really frustrated by all

1767

01:10:14,630 --> 01:10:12,540

of that so I the people he is canceling

1768

01:10:17,510 --> 01:10:14,640

are shutting down I don't think it's a

1769

01:10:19,130 --> 01:10:17,520

mystery at all uh of why he's doing that

1770

01:10:20,510 --> 01:10:19,140

to to these people he's doing it too

1771

01:10:24,169 --> 01:10:20,520

because they're typically people that

1772

01:10:25,910 --> 01:10:24,179

have been uh very negative towards him

1773

01:10:28,130 --> 01:10:25,920

um perhaps a better way to address that

1774

01:10:31,790 --> 01:10:28,140

is to ignore them or to address them

1775

01:10:34,370 --> 01:10:31,800

directly uh but um you know I think

1776

01:10:36,350 --> 01:10:34,380

people cannot understand if people are

1777

01:10:38,270 --> 01:10:36,360

attacking you and calling you a liar

1778

01:10:42,530 --> 01:10:38,280

you'd be frustrated especially if you're

1779

01:10:45,110 --> 01:10:42,540

doing your best to to help yeah well uh

1780

01:10:47,209 --> 01:10:45,120

Leslie Kane said last week that that

1781

01:10:49,189 --> 01:10:47,219

hearing probably wouldn't have happened

1782

01:10:53,030 --> 01:10:49,199

in Washington if it wasn't for him and

1783

01:10:55,790 --> 01:10:53,040

Chris melon exactly exactly we we

1784

01:10:59,750 --> 01:10:55,800

wouldn't be where we are without Chris's

1785

01:11:01,250 --> 01:10:59,760

game plan and lose uh participation in

1786

01:11:02,030 --> 01:11:01,260

that plan

1787

01:11:04,550 --> 01:11:02,040

um

1788

01:11:08,750 --> 01:11:04,560

I mean him coming out

1789

01:11:12,410 --> 01:11:08,760

and you know retiring

1790

01:11:13,189 --> 01:11:12,420

putting his career and his you know

1791

01:11:15,950 --> 01:11:13,199

um

1792

01:11:17,990 --> 01:11:15,960

livelihood on the line to come out for

1793

01:11:19,669 --> 01:11:18,000

this topic and to push it forward and

1794

01:11:21,830 --> 01:11:19,679

he's still doing that he's still putting

1795

01:11:25,189 --> 01:11:21,840

his career in his livelihood on the line

1796

01:11:29,090 --> 01:11:25,199

every day that he's sticking to you know

1797

01:11:31,070 --> 01:11:29,100

being this kind of UAP activist and um I

1798

01:11:33,649 --> 01:11:31,080

don't think anybody can argue that he's

1799

01:11:35,870 --> 01:11:33,659

not one of if not the most influential

1800

01:11:37,030 --> 01:11:35,880

person right now you know pushing all

1801

01:11:39,290 --> 01:11:37,040

this forward

1802

01:11:40,430 --> 01:11:39,300

he certainly had a lot of high demand

1803

01:11:43,189 --> 01:11:40,440

after the hearing and we're going to

1804

01:11:45,229 --> 01:11:43,199

talk about that in a little bit right

1805

01:11:46,970 --> 01:11:45,239

here is another question going back to

1806

01:11:48,890 --> 01:11:46,980

the Wilson document do you think they

1807

01:11:50,570 --> 01:11:48,900

will follow up on the Wilson document

1808

01:11:53,570 --> 01:11:50,580

and speak to its validity in the next

1809

01:11:56,570 --> 01:11:53,580

public hearing or will it stay in the

1810

01:11:59,990 --> 01:11:56,580

Sci-Fi level in your opinion I think at

1811

01:12:02,689 --> 01:12:00,000

skiff level meaning uh classified level

1812

01:12:03,950 --> 01:12:02,699

I don't think so I think yes sorry my

1813

01:12:05,810 --> 01:12:03,960

guess is going to be they're going to

1814

01:12:07,669 --> 01:12:05,820

come out and say we asked uh Wilson

1815

01:12:10,669 --> 01:12:07,679

about it he said there was nothing to it

1816

01:12:12,410 --> 01:12:10,679

we couldn't find anything more uh and

1817

01:12:13,850 --> 01:12:12,420

they'll move on I think they'll debunk

1818

01:12:16,010 --> 01:12:13,860

it and move on

1819

01:12:18,229 --> 01:12:16,020

um I just don't see there's nothing

1820

01:12:20,270 --> 01:12:18,239

actionable there you know if you use

1821

01:12:22,850 --> 01:12:20,280

that term I mean I would just challenge

1822

01:12:24,590 --> 01:12:22,860

people to read that document but from

1823

01:12:28,070 --> 01:12:24,600

this perspective not whether you think

1824

01:12:29,090 --> 01:12:28,080

it's real or not but if you were

1825

01:12:31,010 --> 01:12:29,100

um you know

1826

01:12:33,470 --> 01:12:31,020

let's say

1827

01:12:37,189 --> 01:12:33,480

a government employee and you're like

1828

01:12:39,110 --> 01:12:37,199

wow I just got this Intel how do I act

1829

01:12:40,850 --> 01:12:39,120

on it I think that you'd find that

1830

01:12:43,250 --> 01:12:40,860

there's not much to act on there's not

1831

01:12:46,189 --> 01:12:43,260

much you can do if at the very first

1832

01:12:48,410 --> 01:12:46,199

level you're getting shut down there's

1833

01:12:51,290 --> 01:12:48,420

there's not much more you can do and

1834

01:12:53,209 --> 01:12:51,300

I've always said this this document and

1835

01:12:54,770 --> 01:12:53,219

it's a very

1836

01:12:56,689 --> 01:12:54,780

I don't want to offend anybody but I

1837

01:12:58,729 --> 01:12:56,699

really feel it's a very amateurish way

1838

01:13:01,610 --> 01:12:58,739

to go about

1839

01:13:04,310 --> 01:13:01,620

um trying to make anything of what the

1840

01:13:06,950 --> 01:13:04,320

document says the document itself even

1841

01:13:10,189 --> 01:13:06,960

if you believe it to be real is not a

1842

01:13:12,169 --> 01:13:10,199

Smoking Gun by any means it's it's just

1843

01:13:14,870 --> 01:13:12,179

a tool to point you in the right

1844

01:13:17,030 --> 01:13:14,880

direction on where to hopefully look and

1845

01:13:18,530 --> 01:13:17,040

find those smoking guns

1846

01:13:21,830 --> 01:13:18,540

um and that's what people need to do

1847

01:13:23,630 --> 01:13:21,840

it's lazy and it's ineffective just to

1848

01:13:26,630 --> 01:13:23,640

throw it out there and say look here you

1849

01:13:28,729 --> 01:13:26,640

go this solves everything and I think

1850

01:13:29,930 --> 01:13:28,739

that it's just another example of the

1851

01:13:32,209 --> 01:13:29,940

amateurish

1852

01:13:35,090 --> 01:13:32,219

uh

1853

01:13:37,250 --> 01:13:35,100

and I would say it can be spun a silly

1854

01:13:38,450 --> 01:13:37,260

way you follow just go about this and I

1855

01:13:40,490 --> 01:13:38,460

think that's what's going to happen I

1856

01:13:43,550 --> 01:13:40,500

think it's going to be used as yet

1857

01:13:45,470 --> 01:13:43,560

another example of how

1858

01:13:47,689 --> 01:13:45,480

um DFO communities silly and shouldn't

1859

01:13:50,450 --> 01:13:47,699

be listened to I mean that's what we had

1860

01:13:53,090 --> 01:13:50,460

in the first hearing when they invoke

1861

01:13:55,729 --> 01:13:53,100

Jeremy corbell's name at the beginning

1862

01:13:57,950 --> 01:13:55,739

of the hearing and then they show the

1863

01:14:01,250 --> 01:13:57,960

video that he has been pushing as a UAP

1864

01:14:04,010 --> 01:14:01,260

a genuine UAP and debunk it you know

1865

01:14:07,010 --> 01:14:04,020

that was uh everything they do is in is

1866

01:14:10,010 --> 01:14:07,020

for a reason and they did that to poo

1867

01:14:12,350 --> 01:14:10,020

poo Jeremy Corbell and his followers and

1868

01:14:15,229 --> 01:14:12,360

the people like him that's because there

1869

01:14:17,209 --> 01:14:15,239

were drones and that was the the right

1870

01:14:19,310 --> 01:14:17,219

is that the one yeah they were drones

1871

01:14:22,430 --> 01:14:19,320

they were yep so they were drones and

1872

01:14:24,770 --> 01:14:22,440

that was uh the lens in the uh in the

1873

01:14:26,330 --> 01:14:24,780

night camera yeah and a lot of us myself

1874

01:14:27,950 --> 01:14:26,340

I never spoke to it because I didn't

1875

01:14:30,250 --> 01:14:27,960

feel it was a very good video at all I

1876

01:14:34,130 --> 01:14:30,260

felt it obviously was was

1877

01:14:36,290 --> 01:14:34,140

not a UAP because

1878

01:14:37,270 --> 01:14:36,300

um every point of light is triangle

1879

01:14:40,729 --> 01:14:37,280

shaped

1880

01:14:43,189 --> 01:14:40,739

and some of those are stars so that

1881

01:14:44,390 --> 01:14:43,199

means it's an effect of the camera

1882

01:14:46,010 --> 01:14:44,400

um you know and those of us who have

1883

01:14:47,570 --> 01:14:46,020

been looking at these videos for decades

1884

01:14:49,850 --> 01:14:47,580

and I'm not an expert I don't call

1885

01:14:51,470 --> 01:14:49,860

myself an expert but you know I can at

1886

01:14:53,990 --> 01:14:51,480

least pick up on that having looked at

1887

01:14:55,550 --> 01:14:54,000

these videos for so many years I can

1888

01:14:58,189 --> 01:14:55,560

pick up what are the obvious you know

1889

01:15:00,350 --> 01:14:58,199

kind of tips as to whether this video

1890

01:15:03,050 --> 01:15:00,360

should be looked into further or not I

1891

01:15:04,010 --> 01:15:03,060

didn't feel that video deserved it

1892

01:15:05,630 --> 01:15:04,020

um

1893

01:15:07,070 --> 01:15:05,640

but that's what they did with that

1894

01:15:08,990 --> 01:15:07,080

that's why they brought that up and

1895

01:15:11,209 --> 01:15:09,000

that's why that was an issue what else

1896

01:15:13,729 --> 01:15:11,219

did they do they said this is what it's

1897

01:15:15,890 --> 01:15:13,739

like when we get a real video they were

1898

01:15:18,350 --> 01:15:15,900

trying to say there's very little data

1899

01:15:20,270 --> 01:15:18,360

oh yes to sure showed that and they

1900

01:15:22,250 --> 01:15:20,280

showed that terrible video where there's

1901

01:15:24,110 --> 01:15:22,260

just one screen they have to have better

1902

01:15:25,729 --> 01:15:24,120

stuff than that oh they've definitely

1903

01:15:28,790 --> 01:15:25,739

got better stuff but why would they show

1904

01:15:31,790 --> 01:15:28,800

this one to because like they said this

1905

01:15:35,870 --> 01:15:31,800

is the type of stuff we have so that

1906

01:15:37,910 --> 01:15:35,880

video can easily be passed off as air

1907

01:15:39,830 --> 01:15:37,920

clutter you know this term that they

1908

01:15:42,050 --> 01:15:39,840

were using and I think that's their

1909

01:15:43,910 --> 01:15:42,060

strategy still I think that's what the

1910

01:15:46,310 --> 01:15:43,920

take is where everybody's a little off

1911

01:15:49,850 --> 01:15:46,320

on the hearings the hearings were not

1912

01:15:52,270 --> 01:15:49,860

about what was said in the hearings what

1913

01:15:54,649 --> 01:15:52,280

do the hearings

1914

01:15:59,030 --> 01:15:54,659

Effectiveness and what went on with the

1915

01:16:02,090 --> 01:15:59,040

hearings all went on back backstage it

1916

01:16:05,330 --> 01:16:02,100

all went on in the public side but you

1917

01:16:08,330 --> 01:16:05,340

know the hearings were a tool to get the

1918

01:16:10,550 --> 01:16:08,340

dod to do what Congress wanted and it

1919

01:16:12,169 --> 01:16:10,560

worked that's why the hearings went the

1920

01:16:15,470 --> 01:16:12,179

way they were

1921

01:16:17,510 --> 01:16:15,480

um they essentially if you look at the

1922

01:16:19,729 --> 01:16:17,520

history you have John Kirby a couple

1923

01:16:21,290 --> 01:16:19,739

weeks coming out ago saying that you

1924

01:16:24,290 --> 01:16:21,300

know we're doing what they want we're

1925

01:16:26,990 --> 01:16:24,300

coalescing the reports and we're getting

1926

01:16:29,930 --> 01:16:27,000

all the agencies invested

1927

01:16:32,689 --> 01:16:29,940

um and you know we're moving forward on

1928

01:16:35,630 --> 01:16:32,699

this that's burned you know Brian Bender

1929

01:16:37,550 --> 01:16:35,640

to write that article in Politico where

1930

01:16:39,410 --> 01:16:37,560

essentially the Congress people were

1931

01:16:41,570 --> 01:16:39,420

like that's not what we asked you to do

1932

01:16:43,550 --> 01:16:41,580

and that's not enough people like

1933

01:16:46,130 --> 01:16:43,560

gillibrand is saying we're asking you to

1934

01:16:49,310 --> 01:16:46,140

collect reports and to investigate these

1935

01:16:50,630 --> 01:16:49,320

reports you know not just collect them

1936

01:16:52,850 --> 01:16:50,640

we want you to scientifically

1937

01:16:54,410 --> 01:16:52,860

investigate these reports and she said

1938

01:16:57,169 --> 01:16:54,420

we want you to look at historical

1939

01:16:59,450 --> 01:16:57,179

information as well yeah so she was

1940

01:17:01,010 --> 01:16:59,460

telling him a whole set of things that

1941

01:17:03,290 --> 01:17:01,020

were in that bill that they want that

1942

01:17:04,910 --> 01:17:03,300

pass that they wanted them to do so as

1943

01:17:06,350 --> 01:17:04,920

soon as that article came out and then

1944

01:17:08,630 --> 01:17:06,360

they announced that the hearings were

1945

01:17:10,490 --> 01:17:08,640

coming uh you know a couple days before

1946

01:17:12,590 --> 01:17:10,500

the hearings John Kirby comes out and

1947

01:17:14,570 --> 01:17:12,600

says we're going to do everything that

1948

01:17:17,689 --> 01:17:14,580

she wants us to do or they want us to do

1949

01:17:20,030 --> 01:17:17,699

we're going to do investigations so they

1950

01:17:22,010 --> 01:17:20,040

they change their tune so essentially

1951

01:17:24,050 --> 01:17:22,020

right there they disarmed the Congress

1952

01:17:26,270 --> 01:17:24,060

because the Congress the point of the

1953

01:17:27,950 --> 01:17:26,280

hearings was to come at them and

1954

01:17:29,930 --> 01:17:27,960

publicly kind of grieve their their

1955

01:17:31,310 --> 01:17:29,940

issues hey we asked you to do all of

1956

01:17:34,010 --> 01:17:31,320

this but you're saying you're only going

1957

01:17:35,630 --> 01:17:34,020

to do that well right up front they were

1958

01:17:37,610 --> 01:17:35,640

like okay you win we'll do everything

1959

01:17:39,229 --> 01:17:37,620

you want so the hearings were really

1960

01:17:40,910 --> 01:17:39,239

friendly and nice because the hearings

1961

01:17:42,229 --> 01:17:40,920

were like okay here's what we're going

1962

01:17:43,910 --> 01:17:42,239

to do we're going to do everything you

1963

01:17:46,090 --> 01:17:43,920

want this is going to be great we're

1964

01:17:48,229 --> 01:17:46,100

going to do this we're going to do that

1965

01:17:50,209 --> 01:17:48,239

Elizondo makes the point that well they

1966

01:17:51,709 --> 01:17:50,219

only have two people how are they going

1967

01:17:53,450 --> 01:17:51,719

to do all this stuff with two people I

1968

01:17:56,270 --> 01:17:53,460

mean they must have horse issue they

1969

01:17:59,030 --> 01:17:56,280

must have uh staff as well wouldn't you

1970

01:18:00,830 --> 01:17:59,040

think exactly well they don't but

1971

01:18:02,689 --> 01:18:00,840

they're going to need it and we don't

1972

01:18:04,310 --> 01:18:02,699

know what their budget is like but you

1973

01:18:06,290 --> 01:18:04,320

know Alexander is making the point uh

1974

01:18:08,390 --> 01:18:06,300

the UAP task force only had two people

1975

01:18:09,830 --> 01:18:08,400

if this new group is only going to have

1976

01:18:11,209 --> 01:18:09,840

two people it's not going to be able to

1977

01:18:13,250 --> 01:18:11,219

do that long list of things they're

1978

01:18:14,750 --> 01:18:13,260

going to say they're going to do so how

1979

01:18:16,430 --> 01:18:14,760

are they going to accomplish those

1980

01:18:17,750 --> 01:18:16,440

things and those are the type of

1981

01:18:20,810 --> 01:18:17,760

questions do you think needs to happen

1982

01:18:22,610 --> 01:18:20,820

is this like window dressing you know I

1983

01:18:25,070 --> 01:18:22,620

mean do you think well I think that's

1984

01:18:27,410 --> 01:18:25,080

what the Gia is trying to do so the DIA

1985

01:18:30,229 --> 01:18:27,420

is still trying to say okay we're gonna

1986

01:18:31,729 --> 01:18:30,239

do everything you want us to do we don't

1987

01:18:34,250 --> 01:18:31,739

think we're going to find much but we'll

1988

01:18:37,010 --> 01:18:34,260

do it but they're still I think trying

1989

01:18:38,570 --> 01:18:37,020

to de-escalate the whole situation and

1990

01:18:40,209 --> 01:18:38,580

they're dragging their feet because I

1991

01:18:42,709 --> 01:18:40,219

think what they think

1992

01:18:44,930 --> 01:18:42,719

historically these sort of things have

1993

01:18:46,550 --> 01:18:44,940

been flashed in the pan the public is

1994

01:18:48,830 --> 01:18:46,560

really interested in the topic for a

1995

01:18:50,750 --> 01:18:48,840

period of time but then that topic just

1996

01:18:53,149 --> 01:18:50,760

like on everything you know plummets

1997

01:18:55,310 --> 01:18:53,159

after a period of time and then they'll

1998

01:18:57,890 --> 01:18:55,320

be off their back so they're on our back

1999

01:18:59,990 --> 01:18:57,900

right now but they'll forget about this

2000

01:19:01,570 --> 01:19:00,000

and they'll leave us alone shortly I

2001

01:19:04,010 --> 01:19:01,580

think that's what the point being yeah

2002

01:19:05,990 --> 01:19:04,020

exactly they have a great point so if if

2003

01:19:07,790 --> 01:19:06,000

you were them and you wanted this monkey

2004

01:19:09,890 --> 01:19:07,800

off the back you could see how this is a

2005

01:19:12,890 --> 01:19:09,900

good strategy and it's a strategy that

2006

01:19:15,169 --> 01:19:12,900

may work it's just up to us to try to

2007

01:19:17,810 --> 01:19:15,179

help keep this momentum going to educate

2008

01:19:20,450 --> 01:19:17,820

lawmakers and people in the task force

2009

01:19:23,030 --> 01:19:20,460

because there are people like elizondo's

2010

01:19:24,830 --> 01:19:23,040

colleagues who are in these task forces

2011

01:19:26,990 --> 01:19:24,840

and they're into this topic big time

2012

01:19:29,390 --> 01:19:27,000

they're trying to educate themselves now

2013

01:19:30,950 --> 01:19:29,400

a lot of these Anonymous people that

2014

01:19:32,870 --> 01:19:30,960

we'll find in our Twitter are actually

2015

01:19:35,750 --> 01:19:32,880

people that are in the inside trying to

2016

01:19:37,610 --> 01:19:35,760

get information and so we have to inform

2017

01:19:39,770 --> 01:19:37,620

people and this is where I get really

2018

01:19:41,630 --> 01:19:39,780

disappointed with the UFO Community kind

2019

01:19:43,189 --> 01:19:41,640

of doubling down on the crazy and not

2020

01:19:45,169 --> 01:19:43,199

really paying attention to what matters

2021

01:19:47,630 --> 01:19:45,179

the stupid Wilson documents or anything

2022

01:19:49,370 --> 01:19:47,640

like that the Wilson documents cannot

2023

01:19:51,709 --> 01:19:49,380

help us they can you know if they

2024

01:19:53,630 --> 01:19:51,719

continue to just make fun of us and

2025

01:19:55,850 --> 01:19:53,640

debunk everything that's just going to

2026

01:19:58,010 --> 01:19:55,860

show the public yeah these UFO guys

2027

01:20:00,290 --> 01:19:58,020

never did really have ever anything you

2028

01:20:02,570 --> 01:20:00,300

know the dod's right so what we have to

2029

01:20:04,669 --> 01:20:02,580

do is be more careful about this go back

2030

01:20:07,850 --> 01:20:04,679

to the basics and we have to be

2031

01:20:10,790 --> 01:20:07,860

proactive and friendly we have to you

2032

01:20:12,649 --> 01:20:10,800

know contact our our officials and

2033

01:20:14,930 --> 01:20:12,659

people in the government and be helpful

2034

01:20:16,550 --> 01:20:14,940

say we want to help you we want to

2035

01:20:18,590 --> 01:20:16,560

provide you information here's some

2036

01:20:20,330 --> 01:20:18,600

information look at this look at that

2037

01:20:22,010 --> 01:20:20,340

you know that's what's going to be more

2038

01:20:23,990 --> 01:20:22,020

effective is calling them and saying

2039

01:20:26,030 --> 01:20:24,000

thank you for looking into this that's

2040

01:20:27,649 --> 01:20:26,040

going to go much further than just

2041

01:20:29,830 --> 01:20:27,659

acting crazy because just ask acting

2042

01:20:32,870 --> 01:20:29,840

crazy is going to

2043

01:20:34,910 --> 01:20:32,880

make this all go away more quickly and

2044

01:20:37,610 --> 01:20:34,920

it'll serve the the people who want it

2045

01:20:40,129 --> 01:20:37,620

to go away exactly hang on just a second

2046

01:20:43,129 --> 01:20:40,139

I do have to address this uh Mario Woods

2047

01:20:46,010 --> 01:20:43,139

was going to be on this week and uh but

2048

01:20:48,310 --> 01:20:46,020

he's had some health issues so uh that's

2049

01:20:51,890 --> 01:20:48,320

when I called my good buddy Alejandro

2050

01:20:53,870 --> 01:20:51,900

Rojas so he hopefully he'll be back uh

2051

01:20:56,270 --> 01:20:53,880

he'll be on the show on the 21st we'll

2052

01:21:00,110 --> 01:20:56,280

see if he's in good shape by then

2053

01:21:02,750 --> 01:21:00,120

uh but oh you know so when you're you're

2054

01:21:05,270 --> 01:21:02,760

talking about how

2055

01:21:08,090 --> 01:21:05,280

all of this goes

2056

01:21:13,910 --> 01:21:08,100

um you know it's just it really is kind

2057

01:21:15,669 --> 01:21:13,920

of uh amazing though how

2058

01:21:18,890 --> 01:21:15,679

um

2059

01:21:20,030 --> 01:21:18,900

so few people knew that this hearing

2060

01:21:21,830 --> 01:21:20,040

happened

2061

01:21:23,570 --> 01:21:21,840

I don't know if you I mean in the public

2062

01:21:26,570 --> 01:21:23,580

you know a lot of people I've talked to

2063

01:21:28,189 --> 01:21:26,580

out and about hey did you hear you know

2064

01:21:31,310 --> 01:21:28,199

about the hearing the public hearing and

2065

01:21:32,510 --> 01:21:31,320

the what no uh you know it's it's there

2066

01:21:35,149 --> 01:21:32,520

are a few people I've talked to that

2067

01:21:36,770 --> 01:21:35,159

have heard it but but it's a lot less

2068

01:21:40,129 --> 01:21:36,780

than I was hoping it seems like the

2069

01:21:42,590 --> 01:21:40,139

mainstream media didn't do much uh have

2070

01:21:44,750 --> 01:21:42,600

much of a job with it and if I was

2071

01:21:46,669 --> 01:21:44,760

involved in the Main Street stream media

2072

01:21:50,090 --> 01:21:46,679

I would think the government is doing a

2073

01:21:52,729 --> 01:21:50,100

hearing on UFOs that's big it seems but

2074

01:21:55,729 --> 01:21:52,739

they did do a lot I think every major

2075

01:21:58,990 --> 01:21:55,739

Outlet had a story or two

2076

01:22:03,229 --> 01:21:59,000

um CNN I had at least two I can think of

2077

01:22:05,810 --> 01:22:03,239

New York Times had one at least

2078

01:22:08,689 --> 01:22:05,820

um the hill has had one and then also

2079

01:22:11,090 --> 01:22:08,699

posted an opinion piece from Chris uh

2080

01:22:13,010 --> 01:22:11,100

melon today so I I don't think it's the

2081

01:22:16,430 --> 01:22:13,020

media's fault it's the public interest

2082

01:22:19,490 --> 01:22:16,440

and I think that's what you know we need

2083

01:22:22,129 --> 01:22:19,500

to be grounded on a little bit here too

2084

01:22:25,070 --> 01:22:22,139

um you know I just posted today how BTS

2085

01:22:29,330 --> 01:22:25,080

was uh that that Korean pop group was at

2086

01:22:31,370 --> 01:22:29,340

the Washington uh in DC uh during the

2087

01:22:34,010 --> 01:22:31,380

press conference this morning and it was

2088

01:22:37,129 --> 01:22:34,020

the most full that that pest conference

2089

01:22:38,930 --> 01:22:37,139

room has ever been they said so that's

2090

01:22:40,729 --> 01:22:38,940

what the public is interested in and

2091

01:22:43,250 --> 01:22:40,739

that's what we have to consider is what

2092

01:22:45,709 --> 01:22:43,260

the public interest is and where there

2093

01:22:47,750 --> 01:22:45,719

is interest in how much that interest is

2094

01:22:49,850 --> 01:22:47,760

because you know there's a big interest

2095

01:22:52,910 --> 01:22:49,860

in the UAP topic

2096

01:22:56,209 --> 01:22:52,920

um but I think only I'm finding a small

2097

01:23:00,770 --> 01:22:56,219

percentage maybe 10 to 20 percent if not

2098

01:23:03,290 --> 01:23:00,780

less are into factual data and about

2099

01:23:06,050 --> 01:23:03,300

this topic most people are really into

2100

01:23:09,530 --> 01:23:06,060

The Sensational and the possibility and

2101
01:23:11,149 --> 01:23:09,540
the imagination partially because I

2102
01:23:14,270 --> 01:23:11,159
don't think that our field has done a

2103
01:23:16,310 --> 01:23:14,280
great job you know sharing facts uh it's

2104
01:23:18,709 --> 01:23:16,320
been mostly speculation and of course

2105
01:23:20,570 --> 01:23:18,719
the entertainment picks up the picks it

2106
01:23:23,030 --> 01:23:20,580
up and then they do all the speculation

2107
01:23:25,550 --> 01:23:23,040
the television shows right now are for

2108
01:23:28,250 --> 01:23:25,560
the most part awful they're terrible

2109
01:23:30,530 --> 01:23:28,260
they're they're just really they're not

2110
01:23:32,330 --> 01:23:30,540
on par with the truth at all and I get

2111
01:23:34,310 --> 01:23:32,340
calls from these producers all the time

2112
01:23:36,110 --> 01:23:34,320
and they never want to stick with the

2113
01:23:38,750 --> 01:23:36,120

facts they could care less about the

2114

01:23:41,090 --> 01:23:38,760

facts I've been on I've been interviewed

2115

01:23:43,070 --> 01:23:41,100

I'm going to be kind of begging on these

2116

01:23:44,930 --> 01:23:43,080

guys but it's true I've been interviewed

2117

01:23:47,510 --> 01:23:44,940

maybe two or three times by Ancient

2118

01:23:49,669 --> 01:23:47,520

Aliens and my Clips only make a few

2119

01:23:51,649 --> 01:23:49,679

seconds why because I'm typically

2120

01:23:53,570 --> 01:23:51,659

debunking the stuff and offering you

2121

01:23:55,790 --> 01:23:53,580

know information that is countered to

2122

01:23:57,350 --> 01:23:55,800

the kind of exciting story

2123

01:23:59,270 --> 01:23:57,360

um so like Stephen here is saying most

2124

01:24:02,330 --> 01:23:59,280

people are into the folklore she's

2125

01:24:04,070 --> 01:24:02,340

exactly correct and and in a way it's a

2126

01:24:06,169 --> 01:24:04,080

little bit not their fault in that some

2127

01:24:07,910 --> 01:24:06,179

of these mythologies out there

2128

01:24:11,229 --> 01:24:07,920

um that are really big you really gotta

2129

01:24:13,729 --> 01:24:11,239

dig to be able to figure out the root of

2130

01:24:15,830 --> 01:24:13,739

those stories and unfortunately many

2131

01:24:18,410 --> 01:24:15,840

times they're they're spurious as we

2132

01:24:20,450 --> 01:24:18,420

know or very dubious so

2133

01:24:22,550 --> 01:24:20,460

um it's tough out there so I always

2134

01:24:25,129 --> 01:24:22,560

think you know of who our audience is

2135

01:24:28,490 --> 01:24:25,139

and for at least the SCU and I think

2136

01:24:31,070 --> 01:24:28,500

very much so I found for my show and I

2137

01:24:33,410 --> 01:24:31,080

think yours are the mainstream are the

2138

01:24:35,510 --> 01:24:33,420

serious people because I found

2139

01:24:37,370 --> 01:24:35,520

um you know lately that a lot of these

2140

01:24:40,189 --> 01:24:37,380

military people these task force people

2141

01:24:42,290 --> 01:24:40,199

uh media people who are trying to figure

2142

01:24:44,330 --> 01:24:42,300

out what's going on they were listening

2143

01:24:46,070 --> 01:24:44,340

to my podcasts and they were reading my

2144

01:24:49,610 --> 01:24:46,080

website and they're also I think

2145

01:24:51,410 --> 01:24:49,620

listening to your podcast and so they're

2146

01:24:54,530 --> 01:24:51,420

they're listening to those few Outlets

2147

01:24:56,090 --> 01:24:54,540

that do try to stick to the facts and

2148

01:24:59,810 --> 01:24:56,100

you know those type of people very

2149

01:25:02,510 --> 01:24:59,820

quickly can identify the speculation

2150

01:25:04,870 --> 01:25:02,520

um and so first of all welcome to all of

2151
01:25:08,510 --> 01:25:04,880
you new people who are looking for more

2152
01:25:09,890 --> 01:25:08,520
careful information but uh yeah

2153
01:25:12,169 --> 01:25:09,900
you know yeah that's right and that's

2154
01:25:14,450 --> 01:25:12,179
what we have to remember there are there

2155
01:25:16,910 --> 01:25:14,460
are new people all the time I get

2156
01:25:19,189 --> 01:25:16,920
contacted all the time on the show by

2157
01:25:22,669 --> 01:25:19,199
people that are just starting to look

2158
01:25:25,250 --> 01:25:22,679
into the topic which I think is great so

2159
01:25:27,950 --> 01:25:25,260
um the presenters well I don't want to

2160
01:25:31,129 --> 01:25:27,960
skip around too much right here okay but

2161
01:25:32,810 --> 01:25:31,139
I uh but I do I do want to take a little

2162
01:25:33,950 --> 01:25:32,820
bit of a break because I do want to talk

2163
01:25:36,229 --> 01:25:33,960

about

2164

01:25:39,169 --> 01:25:36,239

um something that you text me on the

2165

01:25:41,450 --> 01:25:39,179

other night and uh whoops

2166

01:25:43,129 --> 01:25:41,460

let's see let me get that up here

2167

01:25:48,950 --> 01:25:43,139

and

2168

01:25:52,129 --> 01:25:48,960

right here

2169

01:25:54,830 --> 01:25:52,139

uh this came out and I'm telling you

2170

01:25:57,830 --> 01:25:54,840

it's uh I've been getting a lot of

2171

01:25:58,970 --> 01:25:57,840

feedback about the the new film that it

2172

01:26:01,189 --> 01:25:58,980

has dropped

2173

01:26:02,990 --> 01:26:01,199

um a few weeks ago so many people

2174

01:26:05,750 --> 01:26:03,000

absolutely love this

2175

01:26:09,470 --> 01:26:05,760

this story and I just got contacted uh

2176

01:26:12,169 --> 01:26:09,480

today from uh uh or yesterday I think it

2177

01:26:14,030 --> 01:26:12,179

was from Deb Coyle she is the woman that

2178

01:26:17,450 --> 01:26:14,040

was on the show that had a South African

2179

01:26:20,270 --> 01:26:17,460

encounter herself back in the 1970s and

2180

01:26:22,250 --> 01:26:20,280

she is uh she rented it she's going to

2181

01:26:24,890 --> 01:26:22,260

sit down with her husband and watch it

2182

01:26:28,850 --> 01:26:24,900

um but it really means a lot to a lot of

2183

01:26:33,050 --> 01:26:28,860

people because of the way Randall did

2184

01:26:35,629 --> 01:26:33,060

this movie he did he did it about people

2185

01:26:37,490 --> 01:26:35,639

and I think it's very good it was very

2186

01:26:39,649 --> 01:26:37,500

good

2187

01:26:41,750 --> 01:26:39,659

I can't speak highly enough about the

2188

01:26:43,910 --> 01:26:41,760

movie and it kind of goes back to and

2189

01:26:46,610 --> 01:26:43,920

this is Ariel phenomena

2190

01:26:48,169 --> 01:26:46,620

um and it kind of goes back to

2191

01:26:51,169 --> 01:26:48,179

um the question earlier where people

2192

01:26:53,570 --> 01:26:51,179

complaining about spending money and the

2193

01:26:55,970 --> 01:26:53,580

rental fee for this video is expensive

2194

01:26:59,450 --> 01:26:55,980

it's twenty dollars but I'm telling you

2195

01:27:01,550 --> 01:26:59,460

people do it don't complain do it this

2196

01:27:03,470 --> 01:27:01,560

is one of those things where don't

2197

01:27:06,050 --> 01:27:03,480

complain about a twenty dollar rental

2198

01:27:09,410 --> 01:27:06,060

for a film that is important as this and

2199

01:27:11,209 --> 01:27:09,420

not only that they wanted to release it

2200

01:27:14,510 --> 01:27:11,219

um through like Netflix or one of those

2201
01:27:16,729 --> 01:27:14,520
bigger outlets and they couldn't like at

2202
01:27:18,649 --> 01:27:16,739
the last minute that fell through and

2203
01:27:20,209 --> 01:27:18,659
then they looked at their original edit

2204
01:27:21,470 --> 01:27:20,219
they edit they did themselves and

2205
01:27:23,149 --> 01:27:21,480
they're like you know what this is too

2206
01:27:24,830 --> 01:27:23,159
good we don't want to edit it because

2207
01:27:26,270 --> 01:27:24,840
they had to highly edit it to get it

2208
01:27:27,890 --> 01:27:26,280
through this mainstream distributor

2209
01:27:29,689 --> 01:27:27,900
they're like we don't want to edit it

2210
01:27:32,149 --> 01:27:29,699
it's good as it is so they decided to

2211
01:27:34,910 --> 01:27:32,159
distribute themselves so they're doing

2212
01:27:37,070 --> 01:27:34,920
this all on their own risking you know

2213
01:27:39,110 --> 01:27:37,080

not getting money back if you look at

2214

01:27:41,810 --> 01:27:39,120

this this movie took something like I

2215

01:27:43,669 --> 01:27:41,820

think I met Randy 13 years ago and he

2216

01:27:45,410 --> 01:27:43,679

first got me excited about this movie 13

2217

01:27:48,410 --> 01:27:45,420

and a half years he had into the movie

2218

01:27:50,510 --> 01:27:48,420

I've been so flipping excited and we all

2219

01:27:53,270 --> 01:27:50,520

have been waiting for this film forever

2220

01:27:54,250 --> 01:27:53,280

that I started to think it'll never come

2221

01:27:56,330 --> 01:27:54,260

out

2222

01:27:57,229 --> 01:27:56,340

it's probably going to be a mess because

2223

01:27:59,330 --> 01:27:57,239

they're going to have to throw it

2224

01:28:01,490 --> 01:27:59,340

together but when you see the list of

2225

01:28:04,490 --> 01:28:01,500

donors just tons that list goes on

2226

01:28:06,050 --> 01:28:04,500

forever at the last of the film that's

2227

01:28:08,209 --> 01:28:06,060

what he had to do is go out there and

2228

01:28:11,750 --> 01:28:08,219

get money from people I mean you can't

2229

01:28:14,030 --> 01:28:11,760

share information and a big platform

2230

01:28:16,189 --> 01:28:14,040

without money so

2231

01:28:18,830 --> 01:28:16,199

um it's worth the twenty dollars please

2232

01:28:21,410 --> 01:28:18,840

go spend the twenty dollars they deserve

2233

01:28:24,649 --> 01:28:21,420

it the film is

2234

01:28:28,250 --> 01:28:24,659

I was floored from beginning to end and

2235

01:28:30,290 --> 01:28:28,260

it was first of all the subject is a

2236

01:28:32,930 --> 01:28:30,300

really important topic I mean the case

2237

01:28:36,169 --> 01:28:32,940

is is a great case

2238

01:28:38,870 --> 01:28:36,179

um but the filmmaking is superb the

2239

01:28:41,629 --> 01:28:38,880

filmmaking is just excellent no matter

2240

01:28:45,050 --> 01:28:41,639

the topic so not only is the filmmaking

2241

01:28:47,990 --> 01:28:45,060

it's it's in it really pulls you in to

2242

01:28:50,390 --> 01:28:48,000

the emotion you really get a strong

2243

01:28:53,570 --> 01:28:50,400

feeling of the people involved because

2244

01:28:55,729 --> 01:28:53,580

they do it's such a human film yes it is

2245

01:28:57,830 --> 01:28:55,739

which makes sense because Randy's like a

2246

01:28:59,990 --> 01:28:57,840

big teddy bear he's a big kind of

2247

01:29:02,570 --> 01:29:00,000

emotional person yes

2248

01:29:04,550 --> 01:29:02,580

um and it's just beautiful it's

2249

01:29:06,770 --> 01:29:04,560

absolutely beautiful I cannot say enough

2250

01:29:08,750 --> 01:29:06,780

for the movie you must go see it you

2251
01:29:11,870 --> 01:29:08,760
must support it and it's the right movie

2252
01:29:15,110 --> 01:29:11,880
at the right time because it is aliens

2253
01:29:18,709 --> 01:29:15,120
kind of you know yeah I know yeah it's

2254
01:29:22,129 --> 01:29:18,719
not where you go typically but it's um

2255
01:29:25,070 --> 01:29:22,139
uh it it does it in a credible way and

2256
01:29:27,770 --> 01:29:25,080
you know it opens up you know now that

2257
01:29:29,149 --> 01:29:27,780
we know UFOs are real

2258
01:29:30,890 --> 01:29:29,159
um there's some

2259
01:29:33,830 --> 01:29:30,900
other things that we've got to consider

2260
01:29:35,990 --> 01:29:33,840
here that are that are pretty uh heavy

2261
01:29:38,510 --> 01:29:36,000
and that's I think what this introduces

2262
01:29:40,370 --> 01:29:38,520
so I think it's a it's just a beautiful

2263
01:29:43,310 --> 01:29:40,380

film whether or not you even believe

2264

01:29:45,530 --> 01:29:43,320

that aliens were involved at all or that

2265

01:29:47,510 --> 01:29:45,540

it was mistaken identity I think you

2266

01:29:50,149 --> 01:29:47,520

can't help but uh fall in love with all

2267

01:29:51,350 --> 01:29:50,159

the characters and then it's the best

2268

01:29:53,810 --> 01:29:51,360

coverage

2269

01:29:55,430 --> 01:29:53,820

of John Mack's life and career that I've

2270

01:29:57,890 --> 01:29:55,440

ever seen yes

2271

01:30:00,350 --> 01:29:57,900

um yeah it's so good it really is and

2272

01:30:02,810 --> 01:30:00,360

that's really when I saw that those

2273

01:30:05,810 --> 01:30:02,820

those films used to be on YouTube and

2274

01:30:07,970 --> 01:30:05,820

there's they disappeared and oh really

2275

01:30:10,729 --> 01:30:07,980

yeah I had not been able to find them

2276

01:30:13,850 --> 01:30:10,739

and so but I mean it was very

2277

01:30:16,070 --> 01:30:13,860

comprehensive uh in the amount of the

2278

01:30:18,410 --> 01:30:16,080

interviews that he had on there it was

2279

01:30:21,890 --> 01:30:18,420

just really really wonderful and you

2280

01:30:25,550 --> 01:30:21,900

know Randall Nickerson is highly in debt

2281

01:30:29,050 --> 01:30:25,560

on making this movie highly in debt yes

2282

01:30:31,070 --> 01:30:29,060

so give them forty dollars yeah

2283

01:30:33,890 --> 01:30:31,080

it would take them a lot a lot of years

2284

01:30:35,750 --> 01:30:33,900

to pull out of it so but he he did it he

2285

01:30:38,450 --> 01:30:35,760

once he got involved in it you know his

2286

01:30:41,090 --> 01:30:38,460

if anyone takes a look at his Wildlife

2287

01:30:43,250 --> 01:30:41,100

photography online it's amazing I mean

2288

01:30:45,950 --> 01:30:43,260

he is just that he's so fussy about

2289

01:30:48,350 --> 01:30:45,960

everything he does and uh all b-roll

2290

01:30:49,970 --> 01:30:48,360

with the elephants and the wildlife all

2291

01:30:52,450 --> 01:30:49,980

through the movie and you really get a

2292

01:30:55,910 --> 01:30:52,460

sense that you're there and

2293

01:30:58,669 --> 01:30:55,920

it's just beautiful yeah right so anyway

2294

01:31:01,250 --> 01:30:58,679

I hope some people will uh spend a

2295

01:31:04,370 --> 01:31:01,260

little bit of money on that and you're

2296

01:31:06,169 --> 01:31:04,380

going to really be happy that you did so

2297

01:31:08,209 --> 01:31:06,179

um and um neither one of us are getting

2298

01:31:10,370 --> 01:31:08,219

paid for saying this we just both think

2299

01:31:12,530 --> 01:31:10,380

it's an important film

2300

01:31:16,490 --> 01:31:12,540

um yeah it's beautiful I cannot be more

2301
01:31:18,830 --> 01:31:16,500
proud and it ends with the UFO Congress

2302
01:31:21,709 --> 01:31:18,840
that's right I kind of think of

2303
01:31:24,110 --> 01:31:21,719
important moment kind of the climax is

2304
01:31:27,290 --> 01:31:24,120
Emily trim speaking at the UFO Congress

2305
01:31:30,350 --> 01:31:27,300
a few years ago you were there right I

2306
01:31:33,169 --> 01:31:30,360
was there yeah it was and I say this it

2307
01:31:35,330 --> 01:31:33,179
was probably one of the most amazing

2308
01:31:37,669 --> 01:31:35,340
moments I ever experienced at the

2309
01:31:39,250 --> 01:31:37,679
conference because everybody was just

2310
01:31:43,129 --> 01:31:39,260
quiet everyone

2311
01:31:46,790 --> 01:31:43,139
was a paper people were crying people

2312
01:31:49,250 --> 01:31:46,800
were crying I think it was just amazing

2313
01:31:50,750 --> 01:31:49,260

Standing Ovation when she finished

2314

01:31:53,030 --> 01:31:50,760

because you know it was coming from her

2315

01:31:54,649 --> 01:31:53,040

heart every bit of it was it's funny

2316

01:31:57,590 --> 01:31:54,659

because I was working with Randy for a

2317

01:32:01,010 --> 01:31:57,600

while to get him our video files of her

2318

01:32:02,930 --> 01:32:01,020

talk and they were huge so it took us a

2319

01:32:04,850 --> 01:32:02,940

long time I had to put him on a drive I

2320

01:32:06,410 --> 01:32:04,860

think and mail them to him and then he's

2321

01:32:08,330 --> 01:32:06,420

and I was like sorry it took me so long

2322

01:32:09,530 --> 01:32:08,340

he's like oh that's okay

2323

01:32:10,970 --> 01:32:09,540

um and then a couple weeks later he's

2324

01:32:14,030 --> 01:32:10,980

like we actually found some footage that

2325

01:32:16,250 --> 01:32:14,040

we took that we like better but uh I

2326

01:32:18,709 --> 01:32:16,260

like the footage they use because it's

2327

01:32:20,149 --> 01:32:18,719

more personal it's like right there with

2328

01:32:24,709 --> 01:32:20,159

her

2329

01:32:27,890 --> 01:32:24,719

perspective and then you see the people

2330

01:32:30,890 --> 01:32:27,900

stand up it was great yeah yeah that was

2331

01:32:32,810 --> 01:32:30,900

really something uh this is uh

2332

01:32:36,050 --> 01:32:32,820

we're going to be talking about this now

2333

01:32:38,629 --> 01:32:36,060

if we can the what's coming up for you

2334

01:32:40,430 --> 01:32:38,639

so these are the speakers that are there

2335

01:32:42,290 --> 01:32:40,440

at this conference and let's talk about

2336

01:32:43,310 --> 01:32:42,300

that conference what exactly can we

2337

01:32:46,610 --> 01:32:43,320

expect

2338

01:32:48,649 --> 01:32:46,620

yeah I think that uh what I really love

2339

01:32:49,910 --> 01:32:48,659

about what we're doing right now is it's

2340

01:32:53,629 --> 01:32:49,920

so important

2341

01:32:54,770 --> 01:32:53,639

um we have we really are you know

2342

01:32:57,850 --> 01:32:54,780

getting

2343

01:33:01,010 --> 01:32:57,860

um a lot of uh

2344

01:33:02,270 --> 01:33:01,020

contacts uh and that's what I've been

2345

01:33:03,530 --> 01:33:02,280

busy with like when you're talking about

2346

01:33:05,990 --> 01:33:03,540

talking with people who didn't know

2347

01:33:07,189 --> 01:33:06,000

about the hearing I've been just all

2348

01:33:09,350 --> 01:33:07,199

about the hearings and getting

2349

01:33:12,050 --> 01:33:09,360

information ready and getting

2350

01:33:14,390 --> 01:33:12,060

information to lawmakers and that's what

2351
01:33:16,189 --> 01:33:14,400
we've been busy with and I think that's

2352
01:33:17,990 --> 01:33:16,199
what's really exciting about the

2353
01:33:20,570 --> 01:33:18,000
scientific Coalition for UAP studies

2354
01:33:22,010 --> 01:33:20,580
because we're doing what the task force

2355
01:33:23,570 --> 01:33:22,020
wants to do

2356
01:33:26,030 --> 01:33:23,580
and

2357
01:33:28,430 --> 01:33:26,040
um an example would be you know we're

2358
01:33:31,430 --> 01:33:28,440
going to be showing that the uapx data

2359
01:33:32,990 --> 01:33:31,440
because the uapx this group who was

2360
01:33:34,729 --> 01:33:33,000
featured in the Terran the sky

2361
01:33:36,770 --> 01:33:34,739
documentary

2362
01:33:38,870 --> 01:33:36,780
um they are the science guys are also

2363
01:33:40,910 --> 01:33:38,880

part of SCU so they're going to be

2364

01:33:43,310 --> 01:33:40,920

presenting the science of what they

2365

01:33:44,209 --> 01:33:43,320

actually captured and that tear in the

2366

01:33:45,229 --> 01:33:44,219

sky

2367

01:33:50,750 --> 01:33:45,239

um

2368

01:33:53,570 --> 01:33:50,760

right so that's going to be really

2369

01:33:56,750 --> 01:33:53,580

exciting now that that was some type of

2370

01:33:58,910 --> 01:33:56,760

phenomenon in the in the sky I saw the

2371

01:34:00,530 --> 01:33:58,920

movie I saw the screener when it when I

2372

01:34:03,350 --> 01:34:00,540

was given that

2373

01:34:05,570 --> 01:34:03,360

um and you know we we both know the

2374

01:34:09,470 --> 01:34:05,580

people that were involved Kevin knuth

2375

01:34:11,090 --> 01:34:09,480

and uh uh Matthew uh I can never

2376

01:34:13,310 --> 01:34:11,100

remember how to pronounce it Matthews

2377

01:34:17,090 --> 01:34:13,320

yes

2378

01:34:20,270 --> 01:34:17,100

um yeah Altman uh or Chris Altman and uh

2379

01:34:22,250 --> 01:34:20,280

well Dave Altman uh another guy right

2380

01:34:26,689 --> 01:34:22,260

how many people

2381

01:34:30,050 --> 01:34:26,699

um Gary Voorhees I mean uh Kevin day and

2382

01:34:31,729 --> 01:34:30,060

I know that I the guy who runs Osiris a

2383

01:34:33,410 --> 01:34:31,739

lot of great people a lot and I know I'm

2384

01:34:35,090 --> 01:34:33,420

missing a lot of the really cool key

2385

01:34:37,010 --> 01:34:35,100

people so you'll have to go check out

2386

01:34:38,810 --> 01:34:37,020

uapx

2387

01:34:41,390 --> 01:34:38,820

um a great group it's really cool they

2388

01:34:44,209 --> 01:34:41,400

did this and it's kind of nerdy in the

2389

01:34:45,850 --> 01:34:44,219

film is UFO nerdy which I'm glad because

2390

01:34:48,229 --> 01:34:45,860

that's what I

2391

01:34:49,790 --> 01:34:48,239

so it's cool to see these guys using

2392

01:34:51,229 --> 01:34:49,800

their attack I could see how other

2393

01:34:53,030 --> 01:34:51,239

people might be a little bored with it

2394

01:34:55,609 --> 01:34:53,040

but yeah they caught this weird anomaly

2395

01:34:59,270 --> 01:34:55,619

in the sky they called Wormhole like in

2396

01:35:01,550 --> 01:34:59,280

the film but later on they uh put out a

2397

01:35:03,530 --> 01:35:01,560

uh a newsletter or a press release

2398

01:35:06,709 --> 01:35:03,540

saying they're actually now saying it's

2399

01:35:09,050 --> 01:35:06,719

an anomalous weather uh artifact or you

2400

01:35:11,090 --> 01:35:09,060

know oh is that what it was some sort of

2401
01:35:13,669 --> 01:35:11,100
anomalous weather phenomena but our

2402
01:35:15,229 --> 01:35:13,679
point is and my point is that that's the

2403
01:35:17,689 --> 01:35:15,239
importance of scientifically studying

2404
01:35:19,970 --> 01:35:17,699
this field is that uaps are not one

2405
01:35:23,030 --> 01:35:19,980
thing they're many many things and no

2406
01:35:24,350 --> 01:35:23,040
doubt that many of the things UAP are

2407
01:35:27,169 --> 01:35:24,360
are

2408
01:35:29,270 --> 01:35:27,179
typical terrestrial phenomena that is

2409
01:35:31,310 --> 01:35:29,280
not extraordinary but stuff we haven't

2410
01:35:33,229 --> 01:35:31,320
discovered before and that's what

2411
01:35:34,669 --> 01:35:33,239
science is all about

2412
01:35:37,250 --> 01:35:34,679
um it's one of the things that NASA

2413
01:35:39,530 --> 01:35:37,260

talks about sure you know maybe we're

2414

01:35:42,050 --> 01:35:39,540

we're not on Mars yet but all along the

2415

01:35:44,689 --> 01:35:42,060

way we're creating new technologies and

2416

01:35:46,609 --> 01:35:44,699

discovering new science uh as we do what

2417

01:35:48,229 --> 01:35:46,619

we do and that's where the importance

2418

01:35:50,209 --> 01:35:48,239

one of the important points we got to

2419

01:35:52,370 --> 01:35:50,219

push forward I think with UAP scientific

2420

01:35:54,649 --> 01:35:52,380

investigation is we're going to find out

2421

01:35:56,629 --> 01:35:54,659

what some of these Mysteries are and

2422

01:35:58,910 --> 01:35:56,639

many of them are going to be natural

2423

01:36:01,430 --> 01:35:58,920

phenomena we just haven't discovered yet

2424

01:36:04,070 --> 01:36:01,440

so if these guys discover some anomalous

2425

01:36:06,229 --> 01:36:04,080

weather phenomena that can make a hole

2426

01:36:08,870 --> 01:36:06,239

open up in the clouds and then close

2427

01:36:11,870 --> 01:36:08,880

again along with some like sprinkling

2428

01:36:13,070 --> 01:36:11,880

kind of phosphorus lights I mean first

2429

01:36:15,530 --> 01:36:13,080

of all it's fun to look at it's

2430

01:36:17,390 --> 01:36:15,540

incredible second of all they're making

2431

01:36:18,890 --> 01:36:17,400

a discovery they're making a scientific

2432

01:36:20,510 --> 01:36:18,900

discovery

2433

01:36:23,629 --> 01:36:20,520

um about something we didn't know about

2434

01:36:26,510 --> 01:36:23,639

before and so that's why scientific

2435

01:36:28,129 --> 01:36:26,520

investigation of UAP is so important

2436

01:36:29,750 --> 01:36:28,139

yeah I mean they certainly have the

2437

01:36:31,970 --> 01:36:29,760

equipment there didn't they that was

2438

01:36:33,830 --> 01:36:31,980

that was something else yeah they could

2439

01:36:35,570 --> 01:36:33,840

have you know too bad they couldn't have

2440

01:36:37,550 --> 01:36:35,580

stayed there for a year

2441

01:36:40,070 --> 01:36:37,560

you know yeah instead of just for a week

2442

01:36:41,810 --> 01:36:40,080

or whatever however long it was yeah a

2443

01:36:43,310 --> 01:36:41,820

project like that they're lucky they

2444

01:36:46,129 --> 01:36:43,320

caught anything

2445

01:36:47,990 --> 01:36:46,139

um right okay I know yeah yeah we've

2446

01:36:49,850 --> 01:36:48,000

done UFO hunting and that's one of the

2447

01:36:51,470 --> 01:36:49,860

problems that UFO hunting shows are so

2448

01:36:53,270 --> 01:36:51,480

hard because they want to capture

2449

01:36:55,490 --> 01:36:53,280

something and that's what's funny it's

2450

01:36:57,350 --> 01:36:55,500

easier to go to a ghost hunt and

2451

01:36:59,270 --> 01:36:57,360

potentially capture something that it is

2452

01:37:00,890 --> 01:36:59,280

like a UAP hunting

2453

01:37:03,410 --> 01:37:00,900

um because you know it's it's hard to

2454

01:37:05,510 --> 01:37:03,420

just it's just far and few between that

2455

01:37:07,729 --> 01:37:05,520

people you know capture something in the

2456

01:37:10,129 --> 01:37:07,739

sky that's real you know there are

2457

01:37:12,350 --> 01:37:10,139

people who will talk about money ask you

2458

01:37:14,209 --> 01:37:12,360

to spend three thousand dollars to go

2459

01:37:16,070 --> 01:37:14,219

out in the woods with them and they'll

2460

01:37:18,050 --> 01:37:16,080

tell you everything in the sky as a UFO

2461

01:37:20,990 --> 01:37:18,060

and then when you say no that's a plane

2462

01:37:24,290 --> 01:37:21,000

they'll just tell you uh well UFOs can

2463

01:37:26,870 --> 01:37:24,300

disguise themselves as planes you know

2464

01:37:28,010 --> 01:37:26,880

um sure you could do that every day and

2465

01:37:30,709 --> 01:37:28,020

I think you probably know who I'm

2466

01:37:32,689 --> 01:37:30,719

talking about but um I know you're a big

2467

01:37:34,550 --> 01:37:32,699

fan yeah but uh

2468

01:37:36,530 --> 01:37:34,560

but you know when it comes to the real

2469

01:37:40,250 --> 01:37:36,540

stuff that's that's harder to come by

2470

01:37:44,689 --> 01:37:40,260

yes yes I think um I'm gonna try to take

2471

01:37:46,850 --> 01:37:44,699

a call now this is um this is my just to

2472

01:37:50,810 --> 01:37:46,860

let everyone know this is my own phone

2473

01:37:53,689 --> 01:37:50,820

and uh so I will be we will not have a

2474

01:37:55,850 --> 01:37:53,699

screen so please be good and uh if

2475

01:37:57,290 --> 01:37:55,860

you're not go ahead go ahead oh just

2476

01:37:58,910 --> 01:37:57,300

while you're doing that I'll address one

2477

01:38:00,830 --> 01:37:58,920

of the questions someone said Alejandra

2478

01:38:02,450 --> 01:38:00,840

you need a zip code citing alert so

2479

01:38:04,850 --> 01:38:02,460

folks will go outside and look and

2480

01:38:06,770 --> 01:38:04,860

photograph that's what we're doing this

2481

01:38:08,390 --> 01:38:06,780

app is going to be coming out in a

2482

01:38:10,910 --> 01:38:08,400

couple months

2483

01:38:12,649 --> 01:38:10,920

um but it's gonna be super cool I

2484

01:38:15,229 --> 01:38:12,659

everybody's been trying to build a nap

2485

01:38:17,689 --> 01:38:15,239

ttsa was trying to build an app

2486

01:38:19,250 --> 01:38:17,699

um we've got their data and more uh in

2487

01:38:21,290 --> 01:38:19,260

our app to be honest I don't know all

2488

01:38:24,229 --> 01:38:21,300

the data tsa have so I can't say that

2489

01:38:26,209 --> 01:38:24,239

for sure but I suspect we have what they

2490

01:38:28,430 --> 01:38:26,219

had and more um in our app so you're

2491

01:38:30,770 --> 01:38:28,440

gonna have historical sightings but more

2492

01:38:32,930 --> 01:38:30,780

than that it's a real-time interactive

2493

01:38:34,910 --> 01:38:32,940

thing so you'll get an alert if there's

2494

01:38:37,010 --> 01:38:34,920

a sighting near you so you can go

2495

01:38:38,510 --> 01:38:37,020

outside and get a picture of video

2496

01:38:40,669 --> 01:38:38,520

yourself

2497

01:38:42,109 --> 01:38:40,679

um and then that way we can yeah it's

2498

01:38:44,689 --> 01:38:42,119

super exciting because that way we can

2499

01:38:47,149 --> 01:38:44,699

triangulate right it's got some of it's

2500

01:38:48,950 --> 01:38:47,159

got I I would say well I think I could

2501
01:38:51,709 --> 01:38:48,960
say this because there is no under it's

2502
01:38:53,870 --> 01:38:51,719
got the most advanced AI associated with

2503
01:38:57,649 --> 01:38:53,880
it to be able to look at the attributes

2504
01:39:00,050 --> 01:38:57,659
of the signing to determine its veracity

2505
01:39:02,209 --> 01:39:00,060
um also and so you can do a bunch of

2506
01:39:03,830 --> 01:39:02,219
different correlations So speaking of

2507
01:39:05,209 --> 01:39:03,840
our conference one exciting thing that

2508
01:39:08,450 --> 01:39:05,219
we're doing that I'm working on right

2509
01:39:10,070 --> 01:39:08,460
now we have an intention study uh that

2510
01:39:12,229 --> 01:39:10,080
the SC is conducting and you'll find out

2511
01:39:14,629 --> 01:39:12,239
some more about this but what we've done

2512
01:39:16,810 --> 01:39:14,639
is we've taken we've scrubbed all the

2513
01:39:18,649 --> 01:39:16,820

sightings and I'm talking about

2514

01:39:21,410 --> 01:39:18,659

well-researched and investigated

2515

01:39:23,450 --> 01:39:21,420

sightings which mostly comprise of Blue

2516

01:39:24,830 --> 01:39:23,460

Book sightings why are those the most

2517

01:39:26,750 --> 01:39:24,840

important because these are the

2518

01:39:28,430 --> 01:39:26,760

government-owned sightings

2519

01:39:31,850 --> 01:39:28,440

um very credible which are you know

2520

01:39:33,830 --> 01:39:31,860

typically lawmakers military uh law

2521

01:39:35,450 --> 01:39:33,840

enforcement and I mean by police you

2522

01:39:38,810 --> 01:39:35,460

know where there's multiple Witnesses

2523

01:39:41,629 --> 01:39:38,820

some telemetry gathered we've boiled it

2524

01:39:43,550 --> 01:39:41,639

down to around 600 cases and so then

2525

01:39:46,250 --> 01:39:43,560

we're looking at the patterns on those

2526

01:39:50,090 --> 01:39:46,260

to determine what can we determine about

2527

01:39:52,310 --> 01:39:50,100

the intentions of whatever these uh what

2528

01:39:54,830 --> 01:39:52,320

these are cases where they've been

2529

01:39:57,709 --> 01:39:54,840

demonstrated you know uh technology

2530

01:40:00,050 --> 01:39:57,719

beyond what we have and what we've

2531

01:40:02,390 --> 01:40:00,060

discovered so far first we looked at

2532

01:40:04,310 --> 01:40:02,400

nuclear sites right because it's

2533

01:40:06,169 --> 01:40:04,320

supposedly that's where they are and

2534

01:40:08,270 --> 01:40:06,179

I've always been suspicious do we really

2535

01:40:10,010 --> 01:40:08,280

know that just because we have a lot of

2536

01:40:12,050 --> 01:40:10,020

documents that show that doesn't mean we

2537

01:40:13,609 --> 01:40:12,060

know that the only reason we have these

2538

01:40:15,770 --> 01:40:13,619

documents is because they're foailable

2539

01:40:17,510 --> 01:40:15,780

aren't the other UAP ones aren't

2540

01:40:18,590 --> 01:40:17,520

foailable at least we don't know how to

2541

01:40:20,209 --> 01:40:18,600

get them

2542

01:40:22,070 --> 01:40:20,219

um John Greenwald of course has gotten

2543

01:40:24,649 --> 01:40:22,080

some but not all

2544

01:40:27,410 --> 01:40:24,659

um so when we ran our study we found

2545

01:40:31,609 --> 01:40:27,420

that actually there isn't more sightings

2546

01:40:33,709 --> 01:40:31,619

in the uh for sac and ICBM silos where

2547

01:40:35,270 --> 01:40:33,719

like Maelstrom happened and stuff like

2548

01:40:38,209 --> 01:40:35,280

that of course there are these important

2549

01:40:40,550 --> 01:40:38,219

singular cases like Maelstrom that need

2550

01:40:42,350 --> 01:40:40,560

to be analyzed and considered but what

2551

01:40:44,149 --> 01:40:42,360

we did find

2552

01:40:46,550 --> 01:40:44,159

and what we were basing this up against

2553

01:40:49,010 --> 01:40:46,560

were some controls one control was

2554

01:40:53,750 --> 01:40:49,020

military sites that were nearby another

2555

01:40:55,669 --> 01:40:53,760

control is uh population areas nearby

2556

01:40:57,890 --> 01:40:55,679

um to see you know are there more

2557

01:40:59,770 --> 01:40:57,900

sightings in the nearby military sites

2558

01:41:03,290 --> 01:40:59,780

are there more sightings than the nearby

2559

01:41:05,390 --> 01:41:03,300

uh population groups what we did find is

2560

01:41:06,709 --> 01:41:05,400

that there was a statistically different

2561

01:41:08,870 --> 01:41:06,719

pattern

2562

01:41:11,629 --> 01:41:08,880

when it came to UFO sightings over

2563

01:41:13,910 --> 01:41:11,639

nuclear facilities but the where the

2564

01:41:18,350 --> 01:41:13,920

facilities where the increases are where

2565

01:41:21,550 --> 01:41:18,360

was there were significantly

2566

01:41:24,950 --> 01:41:21,560

um more sightings were actually

2567

01:41:28,370 --> 01:41:24,960

production and weapons assembly

2568

01:41:30,709 --> 01:41:28,380

facilities so I mean what we're starting

2569

01:41:32,450 --> 01:41:30,719

to see is if this is actually showing

2570

01:41:35,930 --> 01:41:32,460

something it's more along the lines of

2571

01:41:39,350 --> 01:41:35,940

there's an interest in our technology uh

2572

01:41:42,290 --> 01:41:39,360

and our development of Technology not

2573

01:41:45,050 --> 01:41:42,300

our deployment but the development so in

2574

01:41:47,930 --> 01:41:45,060

the areas where these new technologies

2575

01:41:50,209 --> 01:41:47,940

are being developed or ramped up that's

2576

01:41:52,430 --> 01:41:50,219

where you see more sightings I think

2577

01:41:56,270 --> 01:41:52,440

that is really terribly interesting

2578

01:42:02,270 --> 01:41:58,910

it makes sense

2579

01:42:05,270 --> 01:42:02,280

if there is a third party involved

2580

01:42:07,250 --> 01:42:05,280

especially an exotic third party you

2581

01:42:10,850 --> 01:42:07,260

know these are the real ways in how you

2582

01:42:12,470 --> 01:42:10,860

gain insight into what they're up to and

2583

01:42:14,629 --> 01:42:12,480

that's what's exciting to me about it

2584

01:42:16,970 --> 01:42:14,639

because really it's painting this

2585

01:42:18,770 --> 01:42:16,980

picture that perhaps and more work needs

2586

01:42:20,990 --> 01:42:18,780

to be done we're going to release all of

2587

01:42:24,290 --> 01:42:21,000

our data including our databases what

2588

01:42:26,930 --> 01:42:24,300

cases we use why we use the cases that

2589

01:42:28,970 --> 01:42:26,940

we used so everybody can scrutinize and

2590

01:42:30,590 --> 01:42:28,980

certainly people will Mick West for

2591

01:42:32,270 --> 01:42:30,600

example probably his have his own take

2592

01:42:33,709 --> 01:42:32,280

that'll be completely different than

2593

01:42:35,990 --> 01:42:33,719

ours yeah

2594

01:42:38,090 --> 01:42:36,000

um no doubt the the bunkers out there

2595

01:42:40,430 --> 01:42:38,100

will spin it the way they want to spin

2596

01:42:43,010 --> 01:42:40,440

it but still I think the data speaks for

2597

01:42:44,990 --> 01:42:43,020

itself that there's something there

2598

01:42:47,390 --> 01:42:45,000

um because we use traditional methods

2599

01:42:48,830 --> 01:42:47,400

the same methods the uip task force

2600

01:42:52,430 --> 01:42:48,840

would go about this that's what we're

2601
01:42:54,830 --> 01:42:52,440
doing and so um I think that's extremely

2602
01:42:56,149 --> 01:42:54,840
significant that's great we have a we

2603
01:42:59,030 --> 01:42:56,159
have a call I'm going to give this a try

2604
01:43:00,410 --> 01:42:59,040
we have Ron calling from Florida Ron

2605
01:43:02,750 --> 01:43:00,420
welcome to the show

2606
01:43:05,149 --> 01:43:02,760
thank you Martin it's always great to be

2607
01:43:07,669 --> 01:43:05,159
on your show and Alejandro uh we always

2608
01:43:10,490 --> 01:43:07,679
enjoy hearing from you and uh thank you

2609
01:43:12,530 --> 01:43:10,500
for the work that you're doing a

2610
01:43:14,689 --> 01:43:12,540
New Mexico and Arizona

2611
01:43:16,609 --> 01:43:14,699
speaking Roswell on a week in Tucson and

2612
01:43:19,189 --> 01:43:16,619
two weeks of Phoenix and Albuquerque and

2613
01:43:20,930 --> 01:43:19,199

then went down to Sakara so uh we had a

2614

01:43:23,570 --> 01:43:20,940

good time out there that's a fun trip

2615

01:43:25,189 --> 01:43:23,580

lots of cool White Sands and Holloman

2616

01:43:26,629 --> 01:43:25,199

lots of cool stuff to see there am I

2617

01:43:28,370 --> 01:43:26,639

coming through all right Jonas yeah you

2618

01:43:30,530 --> 01:43:28,380

are yeah do you have a question for uh

2619

01:43:32,990 --> 01:43:30,540

do you have a question I do yeah you

2620

01:43:36,109 --> 01:43:33,000

know as far as this hearing the other

2621

01:43:37,970 --> 01:43:36,119

day I think we're moving forward nicely

2622

01:43:42,109 --> 01:43:37,980

on that it's going to be a glacial

2623

01:43:44,870 --> 01:43:42,119

progress uh I also you know the dni is

2624

01:43:46,550 --> 01:43:44,880

not used to giving out information to

2625

01:43:48,350 --> 01:43:46,560

the public

2626

01:43:54,709 --> 01:43:48,360

fully expect them to play rope-a-dope

2627

01:43:59,209 --> 01:43:57,470

walking and of this hearing in in

2628

01:44:01,550 --> 01:43:59,219

general do you feel that we're moving

2629

01:44:04,310 --> 01:44:01,560

forward nicely

2630

01:44:07,129 --> 01:44:04,320

I would say we're moving forward I would

2631

01:44:09,830 --> 01:44:07,139

say that uh I agree with you and and

2632

01:44:12,169 --> 01:44:09,840

perhaps I should have been a little less

2633

01:44:13,669 --> 01:44:12,179

naive than you were uh because I think

2634

01:44:16,910 --> 01:44:13,679

the term that you use that it moves

2635

01:44:19,310 --> 01:44:16,920

glacially is is accurate and I was a

2636

01:44:21,830 --> 01:44:19,320

little surprised at how far they had

2637

01:44:23,990 --> 01:44:21,840

gotten but I think you know it goes back

2638

01:44:26,270 --> 01:44:24,000

to what I had mentioned before that you

2639

01:44:28,550 --> 01:44:26,280

know just by having the hearings it gave

2640

01:44:30,410 --> 01:44:28,560

it sent the message Congress wanted to

2641

01:44:32,450 --> 01:44:30,420

send so by the time we got to the

2642

01:44:34,850 --> 01:44:32,460

hearing we got this sanitized nice back

2643

01:44:36,709 --> 01:44:34,860

and forth as opposed to Congress saying

2644

01:44:38,510 --> 01:44:36,719

hey do this and the D.I saying no we

2645

01:44:39,830 --> 01:44:38,520

don't want to you know the DIA was

2646

01:44:41,870 --> 01:44:39,840

saying right off the bat yeah we'll do

2647

01:44:44,209 --> 01:44:41,880

whatever you want but the problem I

2648

01:44:47,149 --> 01:44:44,219

think that arose was just how far along

2649

01:44:49,030 --> 01:44:47,159

they are which is at Step Zero you know

2650

01:44:53,030 --> 01:44:49,040

they're not even close to as far as

2651

01:44:54,169 --> 01:44:53,040

Elizondo seemed to be with atip so I

2652

01:44:55,550 --> 01:44:54,179

think that's where it's important it

2653

01:44:58,729 --> 01:44:55,560

seems like I don't know if they just

2654

01:45:01,189 --> 01:44:58,739

didn't listen to his input or what but

2655

01:45:04,669 --> 01:45:01,199

um you know some big alarms were such as

2656

01:45:07,370 --> 01:45:04,679

not to know about or or be prepared to

2657

01:45:08,689 --> 01:45:07,380

share anything about Usos makes no sense

2658

01:45:10,850 --> 01:45:08,699

this whole thing's supposed to be about

2659

01:45:12,770 --> 01:45:10,860

transparency but they don't want to tell

2660

01:45:15,950 --> 01:45:12,780

us anything about Usos one of the top

2661

01:45:18,109 --> 01:45:15,960

topics another one was the nuclear issue

2662

01:45:20,030 --> 01:45:18,119

because of course myself and I know

2663

01:45:22,250 --> 01:45:20,040

Chris Mellon uh because we got his

2664

01:45:24,229 --> 01:45:22,260

information too that he was sharing uh

2665

01:45:26,270 --> 01:45:24,239

we're sharing that this is a big area of

2666

01:45:27,890 --> 01:45:26,280

concern especially for safety which

2667

01:45:30,470 --> 01:45:27,900

seems to be what they say they're all

2668

01:45:31,850 --> 01:45:30,480

about Safety and Security that was

2669

01:45:35,030 --> 01:45:31,860

shocking that they didn't know anything

2670

01:45:36,649 --> 01:45:35,040

about the nuclear uh relationship so it

2671

01:45:37,970 --> 01:45:36,659

just shows that they're they're just

2672

01:45:40,010 --> 01:45:37,980

starting

2673

01:45:41,810 --> 01:45:40,020

um and I think Leslie Kane in your

2674

01:45:45,050 --> 01:45:41,820

interview uh

2675

01:45:47,270 --> 01:45:45,060

backed up by elizondo's interview with a

2676

01:45:49,129 --> 01:45:47,280

need to know just demonstrates these

2677

01:45:51,470 --> 01:45:49,139

guys are at step one so you're right

2678

01:45:52,790 --> 01:45:51,480

it's it's showing progress which is

2679

01:45:55,250 --> 01:45:52,800

great

2680

01:45:57,229 --> 01:45:55,260

um and I agree with Hal and with Leslie

2681

01:45:59,330 --> 01:45:57,239

and you know for people like us who have

2682

01:46:01,910 --> 01:45:59,340

been really pushing this forward and

2683

01:46:04,729 --> 01:46:01,920

Reporting on this and being made fun of

2684

01:46:06,410 --> 01:46:04,739

to get it on the record all across the

2685

01:46:08,990 --> 01:46:06,420

board that this is a real phenomena to

2686

01:46:12,169 --> 01:46:09,000

take seriously that's a huge deal that's

2687

01:46:13,669 --> 01:46:12,179

a huge win for all of us

2688

01:46:15,109 --> 01:46:13,679

um we may to be disappointed that

2689

01:46:16,910 --> 01:46:15,119

they're not further along but to your

2690

01:46:18,950 --> 01:46:16,920

point at least we know it it will

2691

01:46:21,890 --> 01:46:18,960

continue to move further we just got to

2692

01:46:24,950 --> 01:46:21,900

keep on them that's for sure so overall

2693

01:46:27,410 --> 01:46:24,960

a big positive surprise that they hadn't

2694

01:46:29,149 --> 01:46:27,420

made practically if no progress at all

2695

01:46:31,430 --> 01:46:29,159

but you know that's what we're doing

2696

01:46:34,370 --> 01:46:31,440

behind the scenes to hopefully help prod

2697

01:46:37,310 --> 01:46:34,380

them along and I can't say we've had

2698

01:46:39,350 --> 01:46:37,320

some success and um we'll share more

2699

01:46:41,390 --> 01:46:39,360

about the successes we're having in the

2700

01:46:43,669 --> 01:46:41,400

near future but we've gotten people's

2701

01:46:45,290 --> 01:46:43,679

attention on the hill and we're we're

2702

01:46:47,930 --> 01:46:45,300

getting them information such as the

2703

01:46:50,870 --> 01:46:47,940

information I just reviewed

2704

01:46:53,870 --> 01:46:50,880

excellent all right Hey Ron thank you

2705

01:46:57,830 --> 01:46:56,209

take care

2706

01:47:00,109 --> 01:46:57,840

well I'm not sure quite sure what

2707

01:47:02,390 --> 01:47:00,119

happened with the volume on that but but

2708

01:47:04,910 --> 01:47:02,400

uh it worked I could hear you could hear

2709

01:47:06,169 --> 01:47:04,920

him okay so yeah uh I'll probably won't

2710

01:47:08,570 --> 01:47:06,179

take any more calls because of that

2711

01:47:10,490 --> 01:47:08,580

because I it just didn't seem to work

2712

01:47:11,810 --> 01:47:10,500

very well

2713

01:47:14,530 --> 01:47:11,820

uh

2714

01:47:17,030 --> 01:47:14,540

so when are you

2715

01:47:18,350 --> 01:47:17,040

sorry a second I think okay I wasn't

2716

01:47:20,090 --> 01:47:18,360

sure if the dog just came home from

2717

01:47:22,550 --> 01:47:20,100

getting washed I was checking them out

2718

01:47:24,850 --> 01:47:22,560

okay so it's always exciting when the

2719

01:47:28,430 --> 01:47:24,860

doctor comes home from getting washed

2720

01:47:30,950 --> 01:47:28,440

yeah so you're heading down to to

2721

01:47:34,070 --> 01:47:30,960

Alabama where this is taking place now

2722

01:47:35,510 --> 01:47:34,080

yeah is that available to see is that

2723

01:47:38,270 --> 01:47:35,520

going to be available to see on a stream

2724

01:47:40,970 --> 01:47:38,280

of any kind yes we're sold out when it

2725

01:47:42,649 --> 01:47:40,980

comes to seats so uh unfortunately if

2726

01:47:44,629 --> 01:47:42,659

you haven't bought a seat yet uh you

2727

01:47:47,390 --> 01:47:44,639

won't get one but we it's limited space

2728

01:47:50,209 --> 01:47:47,400

to be honest at the venue that we're at

2729

01:47:52,970 --> 01:47:50,219

um but you can watch online so you can

2730

01:47:56,629 --> 01:47:52,980

go to the website and get a streaming uh

2731

01:47:58,310 --> 01:47:56,639

option and we use so SCU uses the same

2732

01:48:00,830 --> 01:47:58,320

technology that we use at the UFO

2733

01:48:02,629 --> 01:48:00,840

Congress and if you've watched UFO

2734

01:48:05,689 --> 01:48:02,639

Congress streaming you'll know that it

2735

01:48:09,669 --> 01:48:05,699

comes off impeccably with zero to no

2736

01:48:12,590 --> 01:48:09,679

technical issues oh there he is

2737

01:48:14,450 --> 01:48:12,600

you can see the dog next to the UFO

2738

01:48:17,030 --> 01:48:14,460

there everybody always loves to see the

2739

01:48:20,390 --> 01:48:17,040

UFO oh yeah there's the doggy all right

2740

01:48:22,070 --> 01:48:20,400

it's waving hey buddy great little guy

2741

01:48:24,470 --> 01:48:22,080

but um

2742

01:48:27,109 --> 01:48:24,480

yeah so you can watch it online as well

2743

01:48:29,990 --> 01:48:27,119

and uh the cool thing is that that app

2744

01:48:31,729 --> 01:48:30,000

that we use works so good I mean

2745

01:48:33,229 --> 01:48:31,739

um you know everybody typically has

2746

01:48:34,669 --> 01:48:33,239

great experience with it so don't worry

2747

01:48:38,209 --> 01:48:34,679

about having problems the other cool

2748

01:48:38,990 --> 01:48:38,219

thing is that once the uh videos you

2749

01:48:41,689 --> 01:48:39,000

know

2750

01:48:43,490 --> 01:48:41,699

done it's just like Zoom it's recorded

2751

01:48:45,109 --> 01:48:43,500

so you can watch it at any time after

2752

01:48:48,709 --> 01:48:45,119

the event

2753

01:48:50,689 --> 01:48:48,719

yeah that's excellent and

2754

01:48:52,910 --> 01:48:50,699

um Ryan Graves

2755

01:48:54,709 --> 01:48:52,920

yes yeah I've I've had some

2756

01:48:56,330 --> 01:48:54,719

conversations with him he was he was

2757

01:48:58,790 --> 01:48:56,340

going to try to be on

2758

01:49:01,550 --> 01:48:58,800

before this this conference and never

2759

01:49:02,990 --> 01:49:01,560

never made it on in the last week he uh

2760

01:49:06,050 --> 01:49:03,000

he was going to be on with Leslie Kane

2761

01:49:09,050 --> 01:49:06,060

but couldn't make it on but uh his story

2762

01:49:11,209 --> 01:49:09,060

is is quite incredible what do you think

2763

01:49:12,950 --> 01:49:11,219

about

2764

01:49:14,510 --> 01:49:12,960

um just a couple of questions and if

2765

01:49:16,790 --> 01:49:14,520

it's only because I was talking to a

2766

01:49:20,149 --> 01:49:16,800

friend that's involved in UFOs that are

2767

01:49:22,189 --> 01:49:20,159

very balanced uh person and he made a

2768

01:49:24,530 --> 01:49:22,199

good point he said if these things were

2769

01:49:26,570 --> 01:49:24,540

showing up every single day

2770

01:49:29,149 --> 01:49:26,580

um why wasn't there more you know

2771

01:49:31,550 --> 01:49:29,159

filming or investigation of them and

2772

01:49:34,430 --> 01:49:31,560

this isn't that long ago you know this

2773

01:49:36,370 --> 01:49:34,440

is 2014 or something 15 or something

2774

01:49:38,750 --> 01:49:36,380

like that

2775

01:49:40,189 --> 01:49:38,760

yeah you know I think that's a really

2776

01:49:43,250 --> 01:49:40,199

good question

2777

01:49:44,570 --> 01:49:43,260

um I think that we heard from

2778

01:49:46,250 --> 01:49:44,580

um

2779

01:49:49,490 --> 01:49:46,260

you know

2780

01:49:51,050 --> 01:49:49,500

who was speaking to this recently I

2781

01:49:53,330 --> 01:49:51,060

can't remember but essentially they were

2782

01:49:55,550 --> 01:49:53,340

essentially saying that um

2783

01:49:59,149 --> 01:49:55,560

it was on I think Sean Cahill spoke to

2784

01:50:01,790 --> 01:49:59,159

this on your interview uh where he was

2785

01:50:04,310 --> 01:50:01,800

saying that you know it's just so weird

2786

01:50:06,709 --> 01:50:04,320

and it's not like coming close it's not

2787

01:50:09,770 --> 01:50:06,719

doing anything threatening that people

2788

01:50:11,450 --> 01:50:09,780

just blow it off to some kind of radar

2789

01:50:13,729 --> 01:50:11,460

problem or something like that so they

2790

01:50:16,149 --> 01:50:13,739

don't think of these weird things and I

2791

01:50:20,030 --> 01:50:16,159

think that you know it's a tough sell

2792

01:50:22,669 --> 01:50:20,040

but uh but what Sean Cahill was saying

2793

01:50:24,830 --> 01:50:22,679

and trying to tell people is what John

2794

01:50:28,129 --> 01:50:24,840

Alexander has been saying for decades

2795

01:50:30,530 --> 01:50:28,139

now and which we experience as as UFO

2796

01:50:32,810 --> 01:50:30,540

investigators which is that you know

2797

01:50:35,750 --> 01:50:32,820

when you talk to a military person

2798

01:50:37,370 --> 01:50:35,760

especially but even law enforcement and

2799

01:50:38,689 --> 01:50:37,380

they tell you about a UFO sighting

2800

01:50:40,490 --> 01:50:38,699

they've had and you say did you report

2801

01:50:41,990 --> 01:50:40,500

that they're like hell no I didn't

2802

01:50:44,149 --> 01:50:42,000

report that

2803

01:50:46,129 --> 01:50:44,159

um you know I've spoke to I had a

2804

01:50:47,990 --> 01:50:46,139

similar story to Sean Cahill's too I

2805

01:50:50,629 --> 01:50:48,000

spoke to one radar operator who worked

2806

01:50:53,870 --> 01:50:50,639

on the do line there you know up on the

2807

01:50:55,370 --> 01:50:53,880

in the Navy and they kept having these

2808

01:50:57,770 --> 01:50:55,380

when they turned on their Radars where

2809

01:50:59,810 --> 01:50:57,780

it would go higher than usual they kept

2810

01:51:01,490 --> 01:50:59,820

getting these weird signatures you know

2811

01:51:04,850 --> 01:51:01,500

these things flying around like super

2812

01:51:06,050 --> 01:51:04,860

fast and this was Franklin Carter uh was

2813

01:51:07,310 --> 01:51:06,060

the name of this gentleman and they

2814

01:51:09,169 --> 01:51:07,320

would call him up because he was a radar

2815

01:51:11,209 --> 01:51:09,179

guy they would say Carter we got another

2816

01:51:13,550 --> 01:51:11,219

Carter contact can you come take a look

2817

01:51:15,050 --> 01:51:13,560

so he'd have to run up there and he'd

2818

01:51:16,790 --> 01:51:15,060

say no everything looked seems to be

2819

01:51:19,490 --> 01:51:16,800

looking right so they would log it and

2820

01:51:21,589 --> 01:51:19,500

move on eventually they had all this

2821

01:51:23,750 --> 01:51:21,599

headache where you know people are

2822

01:51:25,850 --> 01:51:23,760

saying are you sure it's in your Radar's

2823

01:51:28,729 --> 01:51:25,860

not screwed up they send Engineers to go

2824

01:51:30,770 --> 01:51:28,739

look they said The Radars were fine So

2825

01:51:32,629 --> 01:51:30,780

eventually they solved the problem by

2826

01:51:36,470 --> 01:51:32,639

just adjusting the radar so it didn't go

2827

01:51:38,870 --> 01:51:36,480

so high and uh the problem solved but

2828

01:51:40,310 --> 01:51:38,880

Franklin would ask you know it seems

2829

01:51:42,350 --> 01:51:40,320

like we're the only ones that they're

2830

01:51:43,790 --> 01:51:42,360

getting mad at about this you know and

2831

01:51:45,649 --> 01:51:43,800

he asked his colleagues on the other

2832

01:51:47,330 --> 01:51:45,659

ships aren't you guys seeing these

2833

01:51:48,589 --> 01:51:47,340

things and they all said of course we

2834

01:51:50,750 --> 01:51:48,599

see these things but we don't report

2835

01:51:53,209 --> 01:51:50,760

them we're not crazy we don't want that

2836

01:51:56,209 --> 01:51:53,219

headache so that's been the case all

2837

01:51:59,689 --> 01:51:56,219

long it it is more of a case of

2838

01:52:02,990 --> 01:51:59,699

ignorance and bumbling and just really

2839

01:52:04,850 --> 01:52:03,000

screwing up that the military ignores

2840

01:52:06,169 --> 01:52:04,860

these important things because they're

2841

01:52:08,209 --> 01:52:06,179

too weird

2842

01:52:10,310 --> 01:52:08,219

um you know when Sean Cahill had said

2843

01:52:11,750 --> 01:52:10,320

this and I heard a similar thing you

2844

01:52:13,609 --> 01:52:11,760

know what you hear a similar thing over

2845

01:52:15,890 --> 01:52:13,619

and over again and it makes me kind of

2846

01:52:17,689 --> 01:52:15,900

think of like a ghost let's say there's

2847

01:52:20,450 --> 01:52:17,699

a sh there's a ghost on the ship the

2848

01:52:22,250 --> 01:52:20,460

Nimitz has a ghost and sometimes they

2849

01:52:24,169 --> 01:52:22,260

see the ghost what would they do with

2850

01:52:25,729 --> 01:52:24,179

that they would probably just like oh my

2851
01:52:28,189 --> 01:52:25,739
gosh that's crazy they wouldn't record

2852
01:52:30,050 --> 01:52:28,199
it or anything or do anything they'd be

2853
01:52:32,270 --> 01:52:30,060
just like well supposedly some of these

2854
01:52:34,430 --> 01:52:32,280
goofballs see a ghost on the ship and

2855
01:52:36,169 --> 01:52:34,440
that would be it I think that it seemed

2856
01:52:37,790 --> 01:52:36,179
really they treat the UFOs thing the

2857
01:52:41,350 --> 01:52:37,800
same if they think it's a UFO if they

2858
01:52:47,089 --> 01:52:43,910
to argue that a little bit a ghost is

2859
01:52:49,550 --> 01:52:47,099
not a possible threat right you know

2860
01:52:51,109 --> 01:52:49,560
right this guy if these things are in

2861
01:52:53,390 --> 01:52:51,119
the sky they could be a threat in many

2862
01:52:55,310 --> 01:52:53,400
ways but that's the promise that these

2863
01:52:58,010 --> 01:52:55,320

people are

2864

01:53:01,850 --> 01:52:58,020

um interpreting this as a non-threat

2865

01:53:04,910 --> 01:53:01,860

and and that's the issue and um but even

2866

01:53:07,550 --> 01:53:04,920

the military as and justifiably in a way

2867

01:53:09,890 --> 01:53:07,560

has called this a non-threat because if

2868

01:53:12,050 --> 01:53:09,900

the scenario is there's objects out

2869

01:53:13,729 --> 01:53:12,060

there that seem to be observing us but

2870

01:53:15,890 --> 01:53:13,739

they don't bother us

2871

01:53:17,510 --> 01:53:15,900

that could technically be a non-threat

2872

01:53:19,430 --> 01:53:17,520

and that's the argument the Air Force

2873

01:53:20,450 --> 01:53:19,440

had in the past with blue book is that

2874

01:53:22,129 --> 01:53:20,460

these aren't a threat they're not

2875

01:53:23,810 --> 01:53:22,139

messing with us

2876
01:53:26,330 --> 01:53:23,820
um they're probably nothing but it's not

2877
01:53:27,910 --> 01:53:26,340
a threat it's not a national and that's

2878
01:53:30,410 --> 01:53:27,920
why this threat

2879
01:53:33,169 --> 01:53:30,420
terminology is so important not to

2880
01:53:34,669 --> 01:53:33,179
demonize aliens but to demonstrate

2881
01:53:36,950 --> 01:53:34,679
there's a real reason why the military

2882
01:53:39,050 --> 01:53:36,960
needs to take this serious that's why

2883
01:53:41,030 --> 01:53:39,060
the threat dialogue comes

2884
01:53:43,010 --> 01:53:41,040
um this whole conspiracy about people

2885
01:53:46,550 --> 01:53:43,020
trying to demonize aliens is just

2886
01:53:48,350 --> 01:53:46,560
completely ridiculous and it does not

2887
01:53:50,570 --> 01:53:48,360
that people aren't trying to understand

2888
01:53:52,729 --> 01:53:50,580

how this really works and what the

2889

01:53:54,350 --> 01:53:52,739

military is up to that's why the threat

2890

01:53:56,270 --> 01:53:54,360

dialogue is so important because if we

2891

01:53:58,070 --> 01:53:56,280

can't demonstrate this is a threat the

2892

01:54:00,109 --> 01:53:58,080

military is not going to care should

2893

01:54:01,490 --> 01:54:00,119

they care I think you know certainly the

2894

01:54:03,770 --> 01:54:01,500

people involved are arguing that they

2895

01:54:05,450 --> 01:54:03,780

should and to your point you know

2896

01:54:07,189 --> 01:54:05,460

something like this happening could have

2897

01:54:09,470 --> 01:54:07,199

been a threat but they ignored it they

2898

01:54:12,290 --> 01:54:09,480

had a blind spot to these anomalous

2899

01:54:15,350 --> 01:54:12,300

readings on their radar

2900

01:54:17,870 --> 01:54:15,360

um because of the taboo around this

2901

01:54:21,010 --> 01:54:17,880

topic which is irrational and just

2902

01:54:23,570 --> 01:54:21,020

ridiculous so um and always happens

2903

01:54:25,609 --> 01:54:23,580

Alejandra we have to end it here we have

2904

01:54:28,189 --> 01:54:25,619
