

DR. JACQUES VALLÉE

#523

1
00:00:01,740 --> 00:00:06,820
foreign

2
00:01:01,990 --> 00:00:24,310
[Music]

3
00:01:05,810 --> 00:01:04,070
and welcome to the show I'm Martin

4
00:01:07,310 --> 00:01:05,820
Willis your host I'm really excited

5
00:01:10,550 --> 00:01:07,320
about tonight we have the one and only

6
00:01:13,250 --> 00:01:10,560
Jacques Valley on tonight and he'll be

7
00:01:15,950 --> 00:01:13,260
talking about his uh his latest book

8
00:01:18,230 --> 00:01:15,960
it's called Uh Trinity the best kept

9
00:01:23,149 --> 00:01:18,240
secret and I actually had no idea that

10
00:01:25,190 --> 00:01:23,159
there was a supposed UFO crash in 1945

11
00:01:28,910 --> 00:01:25,200
you know you always think of the modern

12
00:01:31,730 --> 00:01:28,920
UFO era as starting in 1947 so this is

13
00:01:34,670 --> 00:01:31,740

really fascinating I started reading the

14

00:01:36,410 --> 00:01:34,680

book and uh it's really really good in

15

00:01:38,990 --> 00:01:36,420

just the forward in the book I thought

16

00:01:41,270 --> 00:01:39,000

was very well written as well uh

17

00:01:43,910 --> 00:01:41,280

tomorrow night uh we have we're going to

18

00:01:45,889 --> 00:01:43,920

be right here on YouTube and Facebook

19

00:01:48,649 --> 00:01:45,899

um with the everything else show that

20

00:01:50,690 --> 00:01:48,659

will be with Nick Redfern he has uh

21

00:01:53,090 --> 00:01:50,700

thoughts on the possibility of how the

22

00:01:55,730 --> 00:01:53,100

pyramids were built he's a pro prolific

23

00:01:58,789 --> 00:01:55,740

writer he's written so many books and

24

00:02:01,609 --> 00:01:58,799

this one is on that theory his idea on

25

00:02:02,870 --> 00:02:01,619

that just a few things we have a lot of

26

00:02:04,490 --> 00:02:02,880

things coming up I'm pretty excited

27

00:02:08,029 --> 00:02:04,500

about first of all

28

00:02:09,889 --> 00:02:08,039

on October 3rd I'll be up in Nova Scotia

29

00:02:10,910 --> 00:02:09,899

at shag Harbor at the conference up

30

00:02:12,410 --> 00:02:10,920

there I'm going to be one of the

31

00:02:13,490 --> 00:02:12,420

speakers up there I'm pretty excited

32

00:02:17,089 --> 00:02:13,500

about that

33

00:02:20,030 --> 00:02:17,099

and uh recently I'm honored that the

34

00:02:21,729 --> 00:02:20,040

producers of the Ariel phenomenon asked

35

00:02:24,890 --> 00:02:21,739

Randall Nickerson

36

00:02:28,190 --> 00:02:24,900

who he would want at a live Premiere

37

00:02:32,869 --> 00:02:28,200

Theater premiere of the movie coming out

38

00:02:34,850 --> 00:02:32,879

that's October 8th and he said I'll only

39

00:02:37,670 --> 00:02:34,860

have one person and that's Martin Willis

40

00:02:40,550 --> 00:02:37,680

so I'm very honored that I'm going to be

41

00:02:42,410 --> 00:02:40,560

there live it's going to be October 8th

42

00:02:44,990 --> 00:02:42,420

which is a Saturday evening so it'll be

43

00:02:47,570 --> 00:02:45,000

a different night I won't be on kgra

44

00:02:49,910 --> 00:02:47,580

radio but I will be on YouTube Facebook

45

00:02:52,550 --> 00:02:49,920

and all that and of course it'll go out

46

00:02:54,110 --> 00:02:52,560

as a podcast there's going to be a lot

47

00:02:57,470 --> 00:02:54,120

of very interesting people there it

48

00:03:00,589 --> 00:02:57,480

should be a lot of fun and uh there's

49

00:03:04,550 --> 00:03:00,599

some people that are flying out I know

50

00:03:07,330 --> 00:03:04,560

for instance that Selma citic is flying

51
00:03:10,309 --> 00:03:07,340
out and if maybe some other people

52
00:03:11,690 --> 00:03:10,319
and they'll join us so that should be a

53
00:03:14,149 --> 00:03:11,700
lot of fun really looking forward to

54
00:03:16,369 --> 00:03:14,159
things coming up uh the second week in

55
00:03:19,009 --> 00:03:16,379
October I will be out in Phoenix Arizona

56
00:03:20,869 --> 00:03:19,019
at the international UFO Congress and if

57
00:03:22,130 --> 00:03:20,879
you plan on attending and you're going

58
00:03:24,050 --> 00:03:22,140
to be out there I'm going to try to do a

59
00:03:26,570 --> 00:03:24,060
live Round Table out there like I

60
00:03:29,330 --> 00:03:26,580
usually do and just throw me an email at

61
00:03:33,890 --> 00:03:29,340
Martin Willis at I'm sorry Martin at

62
00:03:35,630 --> 00:03:33,900
podcast ufo.com and I will uh we'll make

63
00:03:38,449 --> 00:03:35,640

arrangements and we'll get together and

64

00:03:40,309 --> 00:03:38,459

it should be a lot of fun so without any

65

00:03:42,289 --> 00:03:40,319

further delay I'm bringing in Jacques

66

00:03:45,470 --> 00:03:42,299

welcome to the show Jacques

67

00:03:48,110 --> 00:03:45,480

thank you I delighted to be here again

68

00:03:49,789 --> 00:03:48,120

yeah that's right it was uh I think it

69

00:03:53,149 --> 00:03:49,799

was about three years ago last time we

70

00:03:55,009 --> 00:03:53,159

spoke uh always a pleasure that has

71

00:03:57,410 --> 00:03:55,019

happened in three years oh my goodness

72

00:03:59,270 --> 00:03:57,420

hasn't it yeah especially lately I mean

73

00:04:01,970 --> 00:03:59,280

it just seems like

74

00:04:04,910 --> 00:04:01,980

like the snowball going down the hill in

75

00:04:06,710 --> 00:04:04,920

the UFO world it's it's really great and

76

00:04:09,170 --> 00:04:06,720

that must be really

77

00:04:12,110 --> 00:04:09,180

um something for you to see since you've

78

00:04:14,690 --> 00:04:12,120

been at this for such a long time

79

00:04:16,789 --> 00:04:14,700

um to see all the changes and the fact

80

00:04:19,610 --> 00:04:16,799

that science may take this a little more

81

00:04:24,469 --> 00:04:19,620

seriously than they ever did yes and

82

00:04:27,050 --> 00:04:24,479

that's uh it's a profound feeling when I

83

00:04:30,350 --> 00:04:27,060

think of all the Pioneers in this

84

00:04:32,990 --> 00:04:30,360

research who are my mentors like Dr

85

00:04:37,189 --> 00:04:33,000

heineck and and they made me shell and

86

00:04:41,090 --> 00:04:37,199

many others uh who I'll not alive now to

87

00:04:45,590 --> 00:04:41,100

see the time when the stigma is removed

88

00:04:49,430 --> 00:04:45,600

I mean no this is a the subject is

89

00:04:53,450 --> 00:04:49,440

accepted in polite company which it

90

00:04:56,150 --> 00:04:53,460

wasn't you know just three years ago so

91

00:04:56,990 --> 00:04:56,160

I'm gratified to have lived long enough

92

00:05:03,710 --> 00:04:57,000

to

93

00:05:07,670 --> 00:05:03,720

participate in this with uh but there is

94

00:05:11,090 --> 00:05:07,680

a lot of work to do and as as you know

95

00:05:16,150 --> 00:05:11,100

I'm doing right now I'm only doing three

96

00:05:20,290 --> 00:05:16,160

things to try to help some of it is

97

00:05:25,550 --> 00:05:20,300

publishing the data we have on materials

98

00:05:29,330 --> 00:05:25,560

and I've been doing most of that with Dr

99

00:05:33,050 --> 00:05:29,340

Nolan at Stanford Dr Gary Nolan

100

00:05:36,350 --> 00:05:33,060

um and uh we as you may know we have

101
00:05:38,990 --> 00:05:36,360
published the first paper which is

102
00:05:41,689 --> 00:05:39,000
really the first fully reviewed

103
00:05:45,230 --> 00:05:41,699
scientific paper on

104
00:05:49,550 --> 00:05:45,240
um a UFO materials and UFOs as as

105
00:05:51,590 --> 00:05:49,560
physics accepted in a prime uh journal

106
00:05:54,590 --> 00:05:51,600
the international Journal

107
00:05:57,529 --> 00:05:54,600
so we we hope that this is going to open

108
00:05:59,930 --> 00:05:57,539
uh an Avenue or Boulevard for other

109
00:06:03,050 --> 00:05:59,940
people for our colleagues to be able to

110
00:06:05,150 --> 00:06:03,060
publish now because we've sort of broken

111
00:06:07,029 --> 00:06:05,160
The Log Jam

112
00:06:11,230 --> 00:06:07,039
right

113
00:06:15,469 --> 00:06:11,240

the uh the other thing that I'm

114

00:06:19,610 --> 00:06:15,479

still doing is uh of course working with

115

00:06:22,150 --> 00:06:19,620

the cnes in France the the center you

116

00:06:26,390 --> 00:06:22,160

know the French Center for space studies

117

00:06:30,590 --> 00:06:26,400

has had a an investigation a small small

118

00:06:34,730 --> 00:06:30,600

project but very active in France for a

119

00:06:38,990 --> 00:06:34,740

long time for over 30 years and so I'm

120

00:06:41,529 --> 00:06:39,000

participating in in their work and you

121

00:06:46,249 --> 00:06:41,539

know as you know a lot of

122

00:06:48,909 --> 00:06:46,259

cases classic cases in France like the

123

00:06:52,490 --> 00:06:48,919

valence or case for example

124

00:06:55,370 --> 00:06:52,500

that that are in their fives and where

125

00:06:57,469 --> 00:06:55,380

we continue to do to do research on

126
00:06:58,450 --> 00:06:57,479
cases there

127
00:07:01,670 --> 00:06:58,460
um

128
00:07:04,129 --> 00:07:01,680
the another thing that I've done is of

129
00:07:06,529 --> 00:07:04,139
course to be part of the the project

130
00:07:08,529 --> 00:07:06,539
initiated by Mr bigorow by Robert

131
00:07:10,809 --> 00:07:08,539
Bigelow

132
00:07:15,770 --> 00:07:10,819
that became

133
00:07:18,350 --> 00:07:15,780
known as bass a Bigelow Aerospace space

134
00:07:21,529 --> 00:07:18,360
studies and

135
00:07:23,930 --> 00:07:21,539
um there is a lot of confusion about

136
00:07:27,710 --> 00:07:23,940
what we did

137
00:07:31,430 --> 00:07:27,720
um but I'm I'm hoping that eventually

138
00:07:33,950 --> 00:07:31,440

what we published what we we gave to the

139

00:07:36,409 --> 00:07:33,960

the sponsor will be published and will

140

00:07:39,050 --> 00:07:36,419

be will be accessible because there was

141

00:07:42,589 --> 00:07:39,060

a lot of a lot of good work done there

142

00:07:45,350 --> 00:07:42,599

that people don't know about and all the

143

00:07:47,170 --> 00:07:45,360

quarrels and all the discussions have

144

00:07:51,050 --> 00:07:47,180

been on

145

00:07:54,710 --> 00:07:51,060

relatively you know small things and the

146

00:07:57,170 --> 00:07:54,720

main contribution hasn't been fully

147

00:07:58,369 --> 00:07:57,180

realized so the main contribution of

148

00:08:00,589 --> 00:07:58,379

that project

149

00:08:03,830 --> 00:08:00,599

uh it's a period that the project was

150

00:08:06,770 --> 00:08:03,840

stopped after two years but maybe other

151
00:08:07,869 --> 00:08:06,780
people can pick up what we did and carry

152
00:08:11,930 --> 00:08:07,879
it further

153
00:08:13,550 --> 00:08:11,940
out of what we did was to build the and

154
00:08:17,869 --> 00:08:13,560
that's something I'm very proud of

155
00:08:20,749 --> 00:08:17,879
because I was the the designer of the

156
00:08:23,029 --> 00:08:20,759
project and the manager of the project

157
00:08:26,749 --> 00:08:23,039
at the beginning Israel launchers

158
00:08:29,150 --> 00:08:26,759
database actually a data warehouse of a

159
00:08:32,529 --> 00:08:29,160
number of databases from all over the

160
00:08:36,949 --> 00:08:32,539
world that is now

161
00:08:41,149 --> 00:08:36,959
at a single structural level and

162
00:08:44,530 --> 00:08:41,159
available for AI we we had designed the

163
00:08:49,009 --> 00:08:44,540

AI component and have not had time to

164

00:08:51,949 --> 00:08:49,019

really exercise it but this was

165

00:08:54,949 --> 00:08:51,959

probably and as you know part of that is

166

00:08:56,509 --> 00:08:54,959

still classified but this is probably

167

00:09:00,230 --> 00:08:56,519

the largest

168

00:09:03,470 --> 00:09:00,240

uh activity that the project was

169

00:09:05,870 --> 00:09:03,480

involved in and I'm I'm hoping that this

170

00:09:08,930 --> 00:09:05,880

will see the light of day sometimes

171

00:09:11,150 --> 00:09:08,940

because it can be used by by other

172

00:09:14,150 --> 00:09:11,160

groups within the government and

173

00:09:18,949 --> 00:09:14,160

eventually by you know by other research

174

00:09:21,230 --> 00:09:18,959

groups if uh if if it's allowed so this

175

00:09:24,710 --> 00:09:21,240

is really what I've been what I've been

176

00:09:26,030 --> 00:09:24,720

doing and it's coming to light little by

177

00:09:30,230 --> 00:09:26,040

little

178

00:09:34,730 --> 00:09:30,240

and of course you know the investigation

179

00:09:38,150 --> 00:09:34,740

um with Paola Harris at uh Trinity

180

00:09:41,810 --> 00:09:38,160

and we just published the the new

181

00:09:45,970 --> 00:09:41,820

edition of it because we we found new

182

00:09:51,590 --> 00:09:45,980

Witnesses and we've been able to extend

183

00:09:53,269 --> 00:09:51,600

the the investigation uh into uh more of

184

00:09:55,550 --> 00:09:53,279

the details of what really happened

185

00:09:57,230 --> 00:09:55,560

there and what happened after the

186

00:10:00,710 --> 00:09:57,240

initial incident

187

00:10:03,470 --> 00:10:00,720

wow that that is you know it often

188

00:10:06,829 --> 00:10:03,480

happens when something comes out

189

00:10:08,870 --> 00:10:06,839

and then the word gets out there and

190

00:10:10,670 --> 00:10:08,880

that happens like with any type of film

191

00:10:13,190 --> 00:10:10,680

or anything on any type of case and all

192

00:10:15,290 --> 00:10:13,200

of a sudden all these people feel you

193

00:10:17,509 --> 00:10:15,300

know uh like they can come forward and

194

00:10:19,370 --> 00:10:17,519

talk about their experience and that's

195

00:10:21,470 --> 00:10:19,380

that happened with the Pascagoula case

196

00:10:23,150 --> 00:10:21,480

recently someone had came forward and

197

00:10:27,050 --> 00:10:23,160

that was I believe that was all the way

198

00:10:31,790 --> 00:10:27,060

back in 1973 something like that

199

00:10:35,389 --> 00:10:31,800

yes I I never stopped working on on a

200

00:10:40,009 --> 00:10:35,399

case if it's a primary case exactly for

201
00:10:44,150 --> 00:10:40,019
what what you said that new items come

202
00:10:45,590 --> 00:10:44,160
up but in in the case of Trinity it it's

203
00:10:49,030 --> 00:10:45,600
a little bit special because the

204
00:10:53,530 --> 00:10:49,040
witnesses never spoke for 60 years right

205
00:10:57,889 --> 00:10:53,540
they were for two reasons one is that

206
00:11:02,389 --> 00:10:57,899
they they felt that what they had seen

207
00:11:03,290 --> 00:11:02,399
was very personal was very intimate for

208
00:11:05,690 --> 00:11:03,300
them

209
00:11:08,509 --> 00:11:05,700
the other thing is that they grew up

210
00:11:10,730 --> 00:11:08,519
remember they were kids at the time they

211
00:11:14,389 --> 00:11:10,740
grew up in the environment of World War

212
00:11:17,569 --> 00:11:14,399
II where if you saw something you didn't

213
00:11:19,370 --> 00:11:17,579

talk about it right and if but if you

214

00:11:22,490 --> 00:11:19,380

saw a crash what you saw an accident

215

00:11:25,370 --> 00:11:22,500

when you were the first there you had to

216

00:11:27,350 --> 00:11:25,380

bring help to the pilot or to to the

217

00:11:30,410 --> 00:11:27,360

people who are involved and that's

218

00:11:33,230 --> 00:11:30,420

that's what what happened to them when

219

00:11:36,170 --> 00:11:33,240

that very strange object crashed on

220

00:11:38,569 --> 00:11:36,180

their land and many people have trouble

221

00:11:40,910 --> 00:11:38,579

you know in the first edition

222

00:11:42,350 --> 00:11:40,920

and maybe it's my fault

223

00:11:45,230 --> 00:11:42,360

um

224

00:11:48,530 --> 00:11:45,240

you know Paula had gathered all that

225

00:11:51,350 --> 00:11:48,540

information and so on and when I wrote

226

00:11:54,829 --> 00:11:51,360

the book and when I started working with

227

00:11:58,009 --> 00:11:54,839

her I worked primarily with the data

228

00:12:01,009 --> 00:11:58,019

from the two kids and people you know

229

00:12:03,829 --> 00:12:01,019

well-intentioned critics

230

00:12:06,949 --> 00:12:03,839

um I would I will uh assume that there

231

00:12:08,810 --> 00:12:06,959

are well intentioned said look at this

232

00:12:10,790 --> 00:12:08,820

you know a seven-year-old and a

233

00:12:13,730 --> 00:12:10,800

nine-year-old what do they know you know

234

00:12:16,129 --> 00:12:13,740

about aerodynamics and about all this

235

00:12:18,710 --> 00:12:16,139

they probably saw something strange when

236

00:12:21,230 --> 00:12:18,720

they made up the story well those two

237

00:12:23,449 --> 00:12:21,240

kids were very bright the reason they

238

00:12:26,810 --> 00:12:23,459

were there pending the ranch was that

239

00:12:30,350 --> 00:12:26,820

this was uh actually it happened just

240

00:12:33,050 --> 00:12:30,360

one month after the explosion of the

241

00:12:36,050 --> 00:12:33,060

book the first book you know at White

242

00:12:38,810 --> 00:12:36,060

Sands at Trinity at the Trinity site

243

00:12:39,710 --> 00:12:38,820

which was still at that point completely

244

00:12:42,230 --> 00:12:39,720

Secret

245

00:12:44,090 --> 00:12:42,240

and the of course your bomb was in

246

00:12:47,810 --> 00:12:44,100

secret anymore

247

00:12:49,730 --> 00:12:47,820

um Japan had just surrendered

248

00:12:51,829 --> 00:12:49,740

but all the

249

00:12:54,470 --> 00:12:51,839

fighting people were still in uniform

250

00:12:57,350 --> 00:12:54,480

they were Americans were scattered in

251
00:12:58,910 --> 00:12:57,360
all over the Pacific or over Europe and

252
00:13:01,910 --> 00:12:58,920
so on

253
00:13:06,710 --> 00:13:01,920
um people had not come home yet had not

254
00:13:09,410 --> 00:13:06,720
been demilitarized so you know the kids

255
00:13:11,509 --> 00:13:09,420
were running a lot of things and those

256
00:13:14,150 --> 00:13:11,519
two kids were taking care of the Revenge

257
00:13:17,449 --> 00:13:14,160
taking care of the cattle they had

258
00:13:20,269 --> 00:13:17,459
binoculars to to track you know the the

259
00:13:24,350 --> 00:13:20,279
cows to read the brands and so on to

260
00:13:26,269 --> 00:13:24,360
make sure no animal had been stolen they

261
00:13:29,090 --> 00:13:26,279
were there on that particular day

262
00:13:31,310 --> 00:13:29,100
because our account one of the cows was

263
00:13:34,129 --> 00:13:31,320

going to have a calf and they wanted to

264

00:13:36,530 --> 00:13:34,139

make sure that both the the calf and the

265

00:13:38,810 --> 00:13:36,540

mother were okay and they had to report

266

00:13:42,410 --> 00:13:38,820

that to their father so they are there

267

00:13:45,250 --> 00:13:42,420

with their horses so very large Ranch by

268

00:13:49,069 --> 00:13:45,260

now I know I know very well

269

00:13:54,230 --> 00:13:49,079

that research was initiated Again by by

270

00:13:57,610 --> 00:13:54,240

Paula when she by accident she read an

271

00:14:01,009 --> 00:13:57,620

article in a small local paper

272

00:14:05,030 --> 00:14:01,019

and she contacted she contacted the

273

00:14:07,310 --> 00:14:05,040

people when uh just about 10 years ago

274

00:14:11,210 --> 00:14:07,320

when they came out with the stone they

275

00:14:15,290 --> 00:14:11,220

had been silent since 1945. so this

276

00:14:18,710 --> 00:14:15,300

reset the the start of really the the

277

00:14:21,710 --> 00:14:18,720

modern era of UFOs two years before

278

00:14:24,290 --> 00:14:21,720

Roosevelt now two years before Roswell

279

00:14:26,150 --> 00:14:24,300

there was no Air Force there were

280

00:14:28,790 --> 00:14:26,160

airplanes and they were pilots but it

281

00:14:32,829 --> 00:14:28,800

was the Army Air Force they were army

282

00:14:35,689 --> 00:14:32,839

uniforms uh and army army equipment

283

00:14:38,810 --> 00:14:35,699

there were no flying saucers but term did

284

00:14:40,970 --> 00:14:38,820

not exist you know can I found out is

285

00:14:45,290 --> 00:14:40,980

going to invent the term two years from

286

00:14:47,870 --> 00:14:45,300

now okay and uh so there was no

287

00:14:50,689 --> 00:14:47,880

framework for what they saw also what

288

00:14:54,050 --> 00:14:50,699

they saw was not a disc it was not a

289

00:14:57,949 --> 00:14:54,060

saucer it was they called it the novel

290

00:15:01,150 --> 00:14:57,959

cattle of course yeah everybody in New

291

00:15:06,170 --> 00:15:01,160

Mexico spoke English and Spanish

292

00:15:09,350 --> 00:15:06,180

and these two kids grew up in uh in the

293

00:15:11,509 --> 00:15:09,360

Spanish-speaking families so

294

00:15:13,370 --> 00:15:11,519

um it's been a fascinating study and

295

00:15:16,310 --> 00:15:13,380

it's not over

296

00:15:18,530 --> 00:15:16,320

because we found new Witnesses and

297

00:15:20,829 --> 00:15:18,540

that's what the new edition of the book

298

00:15:23,870 --> 00:15:20,839

is is all about

299

00:15:26,629 --> 00:15:23,880

excellent and when these people come

300

00:15:27,650 --> 00:15:26,639

forward I mean that's a that's a long

301

00:15:31,370 --> 00:15:27,660

time

302

00:15:33,590 --> 00:15:31,380

60 years did any of them make any

303

00:15:36,290 --> 00:15:33,600

records or drawings or anything like

304

00:15:38,990 --> 00:15:36,300

that you know contemporary with the

305

00:15:48,470 --> 00:15:44,629

yes and the we I asked um Jose but he

306

00:15:51,249 --> 00:15:48,480

had to draw it again for me and uh the

307

00:15:54,170 --> 00:15:51,259

the his drawing is in is in the book

308

00:15:57,410 --> 00:15:54,180

they the main thing they did was to

309

00:15:59,949 --> 00:15:57,420

measure it very carefully the thing was

310

00:16:04,670 --> 00:15:59,959

very large it was a size of two trucks

311

00:16:08,990 --> 00:16:04,680

to uh fraud 150s you know put together

312

00:16:11,449 --> 00:16:09,000

but it was 15 feet high so

313

00:16:14,329 --> 00:16:11,459

you know the the idea that this was

314

00:16:16,850 --> 00:16:14,339

contrived as a host

315

00:16:19,970 --> 00:16:16,860

um which is a night of course an idea we

316

00:16:22,850 --> 00:16:19,980

considered uh doesn't doesn't really

317

00:16:24,829 --> 00:16:22,860

hold water and it doesn't hold water for

318

00:16:26,689 --> 00:16:24,839

other reasons and are even more

319

00:16:34,129 --> 00:16:26,699

important but

320

00:16:36,350 --> 00:16:34,139

um we argued uh without ways in which we

321

00:16:38,810 --> 00:16:36,360

could find out what their weight was and

322

00:16:41,090 --> 00:16:38,820

we could in fact get an estimate of the

323

00:16:44,150 --> 00:16:41,100

weight from the equipment that the Army

324

00:16:46,790 --> 00:16:44,160

brought to the site which was

325

00:16:50,150 --> 00:16:46,800

um you know a very large truck with a

326

00:16:52,670 --> 00:16:50,160

platform the kind of track platform is

327

00:16:56,210 --> 00:16:52,680

called a lowboy and that's a kind of

328

00:16:58,069 --> 00:16:56,220

army truck that carries two tanks so

329

00:17:00,650 --> 00:16:58,079

they knew they had an idea of the weight

330

00:17:04,669 --> 00:17:00,660

of that tank they also brought a special

331

00:17:08,090 --> 00:17:04,679

crane to lift it and to put it sideways

332

00:17:10,189 --> 00:17:08,100

on the platform of a truck because if

333

00:17:14,090 --> 00:17:10,199

they put it upright it was egg shaped

334

00:17:17,150 --> 00:17:14,100

that if they put it in the long the long

335

00:17:21,130 --> 00:17:17,160

diameter it couldn't pass under the

336

00:17:23,569 --> 00:17:21,140

bridge on their Highway okay so

337

00:17:25,549 --> 00:17:23,579

that's when the kids had the opportunity

338

00:17:29,270 --> 00:17:25,559

to look at the underside of the object

339

00:17:33,350 --> 00:17:29,280

and realized it had no visible means of

340

00:17:35,210 --> 00:17:33,360

propulsion now when they saw the object

341

00:17:37,909 --> 00:17:35,220

crash

342

00:17:40,909 --> 00:17:37,919

it hit a communication Tower

343

00:17:43,669 --> 00:17:40,919

and this is where I put the emphasis in

344

00:17:45,049 --> 00:17:43,679

on the new edition the first witness is

345

00:17:48,650 --> 00:17:45,059

not the kids

346

00:17:52,250 --> 00:17:48,660

the first witness is a bomber pilot the

347

00:17:54,409 --> 00:17:52,260

experienced model pilot named Bradley we

348

00:17:57,169 --> 00:17:54,419

are all t-h-y

349

00:17:59,690 --> 00:17:57,179

he was coming in for for a landing with

350

00:18:02,090 --> 00:17:59,700

a barber a B-25

351

00:18:05,810 --> 00:18:02,100

uh two engine bomber

352

00:18:07,010 --> 00:18:05,820

uh the bombers had bombed Japan during

353

00:18:09,529 --> 00:18:07,020

the war

354

00:18:12,710 --> 00:18:09,539

not not the ones who dropped the bomb

355

00:18:15,890 --> 00:18:12,720

but the ones who were used during the at

356

00:18:17,950 --> 00:18:15,900

the beginning of the war and uh he comes

357

00:18:22,010 --> 00:18:17,960

in for a landing at Alamogordo

358

00:18:25,310 --> 00:18:22,020

Alamogordo Tower asked him to look at

359

00:18:28,730 --> 00:18:25,320

the communication Tower which is sitting

360

00:18:31,430 --> 00:18:28,740

on that ranch on the Padilla on the

361

00:18:34,730 --> 00:18:31,440

Padilla right and because they've lost

362

00:18:37,610 --> 00:18:34,740

communication with that Tower is one of

363

00:18:39,890 --> 00:18:37,620

three towers that direct airplanes

364

00:18:42,289 --> 00:18:39,900

including civilian airplanes around

365

00:18:45,110 --> 00:18:42,299

White Sands and they've lost

366

00:18:47,510 --> 00:18:45,120

communication with it so he circles that

367

00:18:50,870 --> 00:18:47,520

Tower and sees that the tower has been

368

00:18:53,930 --> 00:18:50,880

hit by something the tower is bent he

369

00:18:57,049 --> 00:18:53,940

reports that and then he reports when he

370

00:18:59,450 --> 00:18:57,059

sees smoke that the vegetation is on

371

00:19:03,529 --> 00:18:59,460

fire and there is an egg-shaped object

372

00:19:06,970 --> 00:19:03,539

that has quote crashed in the in the

373

00:19:10,490 --> 00:19:06,980

underbrush which there is mostly

374

00:19:14,930 --> 00:19:10,500

Cactus and small palm trees and so on

375

00:19:17,630 --> 00:19:14,940

and he sees two kids so he places the

376

00:19:19,970 --> 00:19:17,640

kids at the site in his report to

377

00:19:22,490 --> 00:19:19,980

Alamogordo so this is very different

378

00:19:24,590 --> 00:19:22,500

from Roswell I mean Roswell is very

379

00:19:26,630 --> 00:19:24,600

important of course in fact this

380

00:19:29,810 --> 00:19:26,640

validates Roswell

381

00:19:32,750 --> 00:19:29,820

but Roswell is two years later at

382

00:19:35,390 --> 00:19:32,760

Roswell there is no witness

383

00:19:39,610 --> 00:19:35,400

there is a big thunderstorm something

384

00:19:42,650 --> 00:19:39,620

crashes on the ranch the the military is

385

00:19:47,450 --> 00:19:42,660

alerted they looked for they looked for

386

00:19:50,210 --> 00:19:47,460

it and then a Rancher rides out to you

387

00:19:53,930 --> 00:19:50,220

know to that property and finds a debris

388

00:19:56,930 --> 00:19:53,940

the next day or the day after okay here

389

00:19:58,789 --> 00:19:56,940

we have the witnesses there watching the

390

00:20:03,049 --> 00:19:58,799

thing fall

391

00:20:04,909 --> 00:20:03,059

um the the pilot lands at Alamogordo

392

00:20:08,510 --> 00:20:04,919

the two kids

393

00:20:09,830 --> 00:20:08,520

go to see if they can help because

394

00:20:14,390 --> 00:20:09,840

that's

395

00:20:16,850 --> 00:20:14,400

you know I've had to to me the the whole

396

00:20:19,730 --> 00:20:16,860

investigation has been

397

00:20:21,909 --> 00:20:19,740

you know somewhat emotional because it

398

00:20:26,090 --> 00:20:21,919

has made me realize

399

00:20:28,909 --> 00:20:26,100

what the second world war you know was

400

00:20:31,250 --> 00:20:28,919

from the United States point of view but

401

00:20:34,669 --> 00:20:31,260

I know it very well from the French

402

00:20:38,510 --> 00:20:34,679

point of view because I was born in 1939

403

00:20:41,570 --> 00:20:38,520

the first year of the war uh by the end

404

00:20:44,450 --> 00:20:41,580

of the war in 45 I was old enough to

405

00:20:48,350 --> 00:20:44,460

understand what was going on and to see

406

00:20:51,350 --> 00:20:48,360

you know German batteries you know uh

407

00:20:53,090 --> 00:20:51,360

shutting down American planes so again I

408

00:20:56,630 --> 00:20:53,100

could see the planes fall I could see

409

00:20:59,570 --> 00:20:56,640

the parachutes and I could see the uh

410

00:21:02,570 --> 00:20:59,580

you know the pilots being shot in the

411

00:21:05,510 --> 00:21:02,580

air on the parachutes and so on though

412

00:21:07,270 --> 00:21:05,520

there was no place to hide where I was

413

00:21:11,270 --> 00:21:07,280

and

414

00:21:14,690 --> 00:21:11,280

so seeing the the sequelier of the war

415

00:21:19,430 --> 00:21:14,700

and learning about what happened in 1945

416

00:21:22,490 --> 00:21:19,440

in New Mexico uh at White Sands when all

417

00:21:24,950 --> 00:21:22,500

these Geniuses in physics and I you know

418

00:21:28,789 --> 00:21:24,960

I've read I've learned what they what

419

00:21:32,090 --> 00:21:28,799

they did uh in you know in my training

420

00:21:34,490 --> 00:21:32,100

in science I mean you know Enrico Fermi

421

00:21:36,890 --> 00:21:34,500

Oppenheimer all these people are you

422

00:21:41,570 --> 00:21:36,900

know Legends in in physics in American

423

00:21:45,230 --> 00:21:41,580

physics in worm physics so uh to be able

424

00:21:47,810 --> 00:21:45,240

to go to the place where they had lunch

425

00:21:50,149 --> 00:21:47,820

when they were preparing the bomb and to

426

00:21:53,470 --> 00:21:50,159

be to be able to visit the site you know

427

00:21:57,830 --> 00:21:53,480

was was an incredible experience

428

00:22:01,669 --> 00:21:57,840

so this is real this is not a joke this

429

00:22:03,789 --> 00:22:01,679

is not two kids dreaming uh the two kids

430

00:22:07,490 --> 00:22:03,799

did actually a very good job of

431

00:22:11,049 --> 00:22:07,500

describing the object measuring it they

432

00:22:14,750 --> 00:22:11,059

actually paste it uh when the the

433

00:22:18,950 --> 00:22:14,760

soldiers were you know out having lunch

434

00:22:20,110 --> 00:22:18,960

at the local uh the little local eating

435

00:22:24,230 --> 00:22:20,120

place

436

00:22:29,210 --> 00:22:24,240

they they took every opportunity to look

437

00:22:32,409 --> 00:22:29,220

at the craft the the father of Mr

438

00:22:34,549 --> 00:22:32,419

Padilla Faustino Padilla went inside

439

00:22:39,970 --> 00:22:34,559

Guided by the kids

440

00:22:44,510 --> 00:22:39,980

with a state patrol State officer

441

00:22:47,149 --> 00:22:44,520

when they came out they set the kids

442

00:22:49,549 --> 00:22:47,159

down and they said

443

00:22:53,149 --> 00:22:49,559

nobody talks about us

444

00:22:55,490 --> 00:22:53,159

this is not for us this doesn't belong

445

00:22:59,270 --> 00:22:55,500

you know it fell on our property

446

00:23:01,909 --> 00:22:59,280

it fell on the ranch but this is this

447

00:23:04,370 --> 00:23:01,919

stays within our family you don't talk

448

00:23:06,890 --> 00:23:04,380

in class you don't talk to your buddies

449

00:23:09,710 --> 00:23:06,900

you know this is serious this is for the

450

00:23:13,669 --> 00:23:09,720

Army to do something about it

451
00:23:17,230 --> 00:23:13,679
the next day an army officer comes to

452
00:23:21,409 --> 00:23:17,240
the home of Mr Padilla

453
00:23:23,110 --> 00:23:21,419
and says Senor no of course I speak in

454
00:23:26,510 --> 00:23:23,120
Spanish

455
00:23:29,390 --> 00:23:26,520
most of the people there you know spoke

456
00:23:32,149 --> 00:23:29,400
indifferently Spanish or English but

457
00:23:33,350 --> 00:23:32,159
their mother language was usually

458
00:23:39,950 --> 00:23:33,360
Spanish

459
00:23:42,529 --> 00:23:39,960
the father and says we are going to need

460
00:23:45,769 --> 00:23:42,539
to cut your friends

461
00:23:48,110 --> 00:23:45,779
the father says there is an opening in

462
00:23:50,510 --> 00:23:48,120
my fence I mean that's where there's a

463
00:23:53,510 --> 00:23:50,520

general truck you know goes in and out

464

00:23:54,230 --> 00:23:53,520

when we take the cows out

465

00:23:57,470 --> 00:23:54,240

um

466

00:23:59,750 --> 00:23:57,480

and the the officer says it's not big

467

00:24:02,570 --> 00:23:59,760

enough for the truck

468

00:24:05,570 --> 00:24:02,580

but we're going to give you a nice you

469

00:24:09,169 --> 00:24:05,580

know nice barrier we'll we'll do it it

470

00:24:10,490 --> 00:24:09,179

will be really clean and will bring a

471

00:24:14,990 --> 00:24:10,500

tractor

472

00:24:17,690 --> 00:24:15,000

to build a new road to where that thing

473

00:24:18,890 --> 00:24:17,700

fell because the object didn't just

474

00:24:21,710 --> 00:24:18,900

scratch

475

00:24:24,950 --> 00:24:21,720

this is not it's that if you want to

476
00:24:28,490 --> 00:24:24,960
call into a crash call it a controlled

477
00:24:32,570 --> 00:24:28,500
crash it it hit the tower

478
00:24:36,289 --> 00:24:32,580
it kept it kept its Integrity so it was

479
00:24:40,669 --> 00:24:36,299
still x-shaped and so it lost one panel

480
00:24:41,930 --> 00:24:40,679
the one apparently metallic panel but it

481
00:24:47,409 --> 00:24:41,940
it then

482
00:24:50,630 --> 00:24:47,419
uh landed and it dug a an Avenue

483
00:24:54,049 --> 00:24:50,640
a a Boulevard down the hill

484
00:24:57,590 --> 00:24:54,059
uh digging it up by about six inches of

485
00:24:59,930 --> 00:24:57,600
of dirt as it plowed down the hill for

486
00:25:02,210 --> 00:24:59,940
about half a mile wow and then it

487
00:25:04,789 --> 00:25:02,220
stopped the middle turn apparently under

488
00:25:07,430 --> 00:25:04,799

power so this is not a crush you know an

489

00:25:10,190 --> 00:25:07,440

airplane hitting that Tower then you

490

00:25:13,250 --> 00:25:10,200

know you can see the the traces of the

491

00:25:15,289 --> 00:25:13,260

tower it's a gigantic Tower uh an

492

00:25:18,409 --> 00:25:15,299

airplane would have broken up into

493

00:25:21,710 --> 00:25:18,419

little pieces that thing kept going and

494

00:25:24,169 --> 00:25:21,720

it stopped apparently under control

495

00:25:27,350 --> 00:25:24,179

um so now the Army has to bring a truck

496

00:25:30,409 --> 00:25:27,360

they come in first with Jeeps just to

497

00:25:33,350 --> 00:25:30,419

clean up the the bushes and so on and

498

00:25:36,110 --> 00:25:33,360

pick up blue species unfortunately

499

00:25:39,590 --> 00:25:36,120

because we'd like we'd like to find some

500

00:25:44,090 --> 00:25:39,600

and fertilizer but

501
00:25:47,269 --> 00:25:44,100
um it uh at after they build the gate

502
00:25:50,149 --> 00:25:47,279
they bring in you know an 18-wheeler

503
00:25:53,750 --> 00:25:50,159
with a lowboy that could carry two tanks

504
00:25:56,210 --> 00:25:53,760
and they bring a crane so that tells you

505
00:25:59,930 --> 00:25:56,220
that this is not a plywood little

506
00:26:02,390 --> 00:25:59,940
balloon that somebody built as a joke uh

507
00:26:04,730 --> 00:26:02,400
I don't think anybody was drinking you

508
00:26:07,549 --> 00:26:04,740
know around the Trinity site one month

509
00:26:09,470 --> 00:26:07,559
after the first nuclear explosion right

510
00:26:13,430 --> 00:26:09,480
right exactly when you're talking about

511
00:26:15,409 --> 00:26:13,440
how far that that trench when it does

512
00:26:18,470 --> 00:26:15,419
sound like something that weighed a

513
00:26:21,950 --> 00:26:18,480

great deal and had quite a velocity to

514

00:26:24,169 --> 00:26:21,960

uh make that type of uh gouge in the

515

00:26:27,049 --> 00:26:24,179

earth like that uh one of the things

516

00:26:28,190 --> 00:26:27,059

that comes to mind though is they loaded

517

00:26:30,649 --> 00:26:28,200

this thing up

518

00:26:33,289 --> 00:26:30,659

they put it somewhere and what would you

519

00:26:35,029 --> 00:26:33,299

be your best guess where it would be and

520

00:26:37,010 --> 00:26:35,039

do you think it still exists today

521

00:26:38,269 --> 00:26:37,020

somewhere

522

00:26:39,409 --> 00:26:38,279

well

523

00:26:42,169 --> 00:26:39,419

um

524

00:26:45,409 --> 00:26:42,179

all I can do is is guess because the

525

00:26:48,049 --> 00:26:45,419

other side of the story is you know

526

00:26:51,130 --> 00:26:48,059

there has been no official record of

527

00:26:55,730 --> 00:26:51,140

this that has been published

528

00:26:57,909 --> 00:26:55,740

so the the reason the question is where

529

00:27:01,610 --> 00:26:57,919

would they how and and

530

00:27:05,230 --> 00:27:01,620

where would they have taken it

531

00:27:07,669 --> 00:27:05,240

well it's now on the lowboy

532

00:27:11,210 --> 00:27:07,679

the the soldiers have done their job

533

00:27:13,490 --> 00:27:11,220

they go have you know a final meal at

534

00:27:17,090 --> 00:27:13,500

the local local little restaurant which

535

00:27:19,610 --> 00:27:17,100

is about five five or ten miles away

536

00:27:22,549 --> 00:27:19,620

uh they come back they take the truck

537

00:27:25,070 --> 00:27:22,559

and they drive to Trinity

538

00:27:27,470 --> 00:27:25,080

um we know that because that's what the

539

00:27:30,110 --> 00:27:27,480

reason they put the object on the side

540

00:27:32,630 --> 00:27:30,120

so they could go under the under the

541

00:27:35,389 --> 00:27:32,640

overpass and then on the way to the

542

00:27:37,490 --> 00:27:35,399

Trinity site which is the most logical

543

00:27:41,570 --> 00:27:37,500

thing because the soldiers who were

544

00:27:45,169 --> 00:27:41,580

there were you know young kids 18 or 20

545

00:27:47,350 --> 00:27:45,179

year olds who probably had not been at

546

00:27:50,029 --> 00:27:47,360

at the front

547

00:27:52,430 --> 00:27:50,039

and they were there God just guarding

548

00:27:54,769 --> 00:27:52,440

the Trinity site but they had no

549

00:27:57,590 --> 00:27:54,779

business after they recovered the thing

550

00:28:00,649 --> 00:27:57,600

they had no business dealing with it so

551

00:28:02,570 --> 00:28:00,659

the the track goes to Trinity

552

00:28:05,570 --> 00:28:02,580

it wouldn't stay there because there's

553

00:28:08,330 --> 00:28:05,580

nothing there for to study it

554

00:28:10,029 --> 00:28:08,340

it would probably have been taken to Los

555

00:28:12,529 --> 00:28:10,039

Alamos

556

00:28:13,450 --> 00:28:12,539

and for all I knew it was still big

557

00:28:15,950 --> 00:28:13,460

there

558

00:28:17,570 --> 00:28:15,960

that would be the place to take it

559

00:28:20,029 --> 00:28:17,580

because they would have

560

00:28:23,510 --> 00:28:20,039

it would have been immediately brought

561

00:28:26,389 --> 00:28:23,520

to the attention of the physics labs and

562

00:28:27,529 --> 00:28:26,399

the you know the biological Labs at Los

563

00:28:31,549 --> 00:28:27,539

Alamos

564

00:28:33,130 --> 00:28:31,559

that were equipped to to deal with you

565

00:28:36,529 --> 00:28:33,140

know pretty much anything

566

00:28:37,669 --> 00:28:36,539

uh in in physics that could come to

567

00:28:40,010 --> 00:28:37,679

their attention

568

00:28:43,430 --> 00:28:40,020

from Los Alamos

569

00:28:47,210 --> 00:28:43,440

uh we don't we really don't know where

570

00:28:51,049 --> 00:28:47,220

it if it was broken about

571

00:28:54,070 --> 00:28:51,059

you know taken to different Labs uh in

572

00:28:57,190 --> 00:28:54,080

in my own career in in science and in

573

00:28:59,289 --> 00:28:57,200

investment I've met a number of people

574

00:29:01,090 --> 00:28:59,299

uh you know

575

00:29:04,549 --> 00:29:01,100

some

576
00:29:08,049 --> 00:29:04,559
leading engineers at IBM who told me

577
00:29:11,149 --> 00:29:08,059
that they had been asked

578
00:29:14,210 --> 00:29:11,159
John and this is this would have been in

579
00:29:18,529 --> 00:29:14,220
the 60s and 70s had been asked to look

580
00:29:20,870 --> 00:29:18,539
at at samples at residuals of metal and

581
00:29:23,230 --> 00:29:20,880
so on and so we know some of it would

582
00:29:26,950 --> 00:29:23,240
have gone through IBM certainly to Lucky

583
00:29:30,409 --> 00:29:26,960
probably to Mattel and then you know

584
00:29:33,529 --> 00:29:30,419
some of the leading companies where the

585
00:29:37,250 --> 00:29:33,539
the government had secure facilities and

586
00:29:39,830 --> 00:29:37,260
secure contracts with with Scientists

587
00:29:43,070 --> 00:29:39,840
were you know eminent scientists in

588
00:29:44,510 --> 00:29:43,080

their own world who could look at the uh

589

00:29:49,010 --> 00:29:44,520

the IBM

590

00:29:52,789 --> 00:29:49,020

Chief scientist uh and he was a one of

591

00:29:56,230 --> 00:29:52,799

the leading he's dead now so I can I can

592

00:30:00,470 --> 00:29:56,240

talk about that conversation but he was

593

00:30:04,310 --> 00:30:00,480

really one of the leading uh physicists

594

00:30:07,010 --> 00:30:04,320

who gave us magnetic memory IBM was a

595

00:30:07,870 --> 00:30:07,020

reader magnetic memory for many many

596

00:30:10,070 --> 00:30:07,880

years

597

00:30:13,789 --> 00:30:10,080

revolutionizing computer science field

598

00:30:14,769 --> 00:30:13,799

with Magnetic memory and he would have

599

00:30:18,169 --> 00:30:14,779

been

600

00:30:20,450 --> 00:30:18,179

he was an extraordinary researcher than

601
00:30:23,269 --> 00:30:20,460
inventor he would have been the logical

602
00:30:26,810 --> 00:30:23,279
person to look at some of the materials

603
00:30:28,930 --> 00:30:26,820
the material from Trinity we just don't

604
00:30:33,889 --> 00:30:28,940
know where it would have gone but

605
00:30:37,250 --> 00:30:33,899
one of the kids the seven-year-old when

606
00:30:40,250 --> 00:30:37,260
he grew up moved to Washington State

607
00:30:43,010 --> 00:30:40,260
and became involved in politics in in

608
00:30:45,549 --> 00:30:43,020
Washington state and

609
00:30:51,889 --> 00:30:45,559
um was

610
00:30:55,250 --> 00:30:51,899
was was involved in uh the the the the

611
00:30:58,430 --> 00:30:55,260
politics there at a time when the

612
00:31:01,430 --> 00:30:58,440
governor Dixie Lee Ray was running for

613
00:31:04,310 --> 00:31:01,440

re-election or for election Victory Ray

614

00:31:08,090 --> 00:31:04,320

as you may know was herself was a

615

00:31:12,350 --> 00:31:08,100

physicist she became the director

616

00:31:13,810 --> 00:31:12,360

um of the atomic energy Commission

617

00:31:22,190 --> 00:31:13,820

and

618

00:31:27,110 --> 00:31:22,200

since she had worked grossly with Remy

619

00:31:30,289 --> 00:31:27,120

Remy Baker who was the the kid the

620

00:31:33,730 --> 00:31:30,299

seven-year-old kid uh I I find it hard

621

00:31:37,750 --> 00:31:33,740

to think of these two witnesses as kids

622

00:31:41,450 --> 00:31:37,760

for sure because I you know I I

623

00:31:44,630 --> 00:31:41,460

interacted with what they did as as old

624

00:31:45,710 --> 00:31:44,640

men and again they hadn't spoken for 60

625

00:31:48,289 --> 00:31:45,720

years

626
00:31:53,029 --> 00:31:48,299
uh so all this came out when they were

627
00:31:57,529 --> 00:31:53,039
you know they were older men

628
00:32:01,370 --> 00:31:57,539
um she uh went to a safe

629
00:32:05,509 --> 00:32:01,380
and showed him the report

630
00:32:10,370 --> 00:32:05,519
about the uh the Trinity case

631
00:32:12,289 --> 00:32:10,380
so he was able to get some

632
00:32:14,930 --> 00:32:12,299
comfort that

633
00:32:17,509 --> 00:32:14,940
you know the the thing had been taken

634
00:32:19,009 --> 00:32:17,519
care of the thing was but it was

635
00:32:22,909 --> 00:32:19,019
classified

636
00:32:25,009 --> 00:32:22,919
we also know from completely unrelated

637
00:32:29,750 --> 00:32:25,019
case

638
00:32:33,470 --> 00:32:29,760

in 1952 as you know the literature UFO

639

00:32:36,350 --> 00:32:33,480

literature is is very clear in 1952

640

00:32:41,090 --> 00:32:36,360

there was a big wave of

641

00:32:43,730 --> 00:32:41,100

um aircraft that were of spacecraft or

642

00:32:46,730 --> 00:32:43,740

UFOs that were intercepted over

643

00:32:49,370 --> 00:32:46,740

Washington including over the Pentagon

644

00:32:53,090 --> 00:32:49,380

and so on were intercepted by Navy

645

00:32:54,710 --> 00:32:53,100

Fighters and by Air Force Riders what

646

00:32:57,289 --> 00:32:54,720

isn't

647

00:32:59,990 --> 00:32:57,299

really known and I don't know why

648

00:33:03,110 --> 00:33:00,000

because I I know it that I found it

649

00:33:05,990 --> 00:33:03,120

somewhere is that one of the fighters

650

00:33:09,430 --> 00:33:06,000

was allowed to shoot

651
00:33:13,549 --> 00:33:09,440
at a time when the one of these objects

652
00:33:16,070 --> 00:33:13,559
there were discs actually from all in

653
00:33:20,450 --> 00:33:16,080
the direction of the White House or the

654
00:33:24,649 --> 00:33:20,460
you know secure space of the Washington

655
00:33:25,930 --> 00:33:24,659
um and uh he shot off a piece of it so

656
00:33:30,529 --> 00:33:25,940
where it fell

657
00:33:33,590 --> 00:33:30,539
uh it was a search for and the peace was

658
00:33:35,230 --> 00:33:33,600
recovered part of it was turned over to

659
00:33:38,210 --> 00:33:35,240
the Canadian project

660
00:33:42,950 --> 00:33:38,220
Canadian UFO research project which was

661
00:33:45,470 --> 00:33:42,960
an official government research study

662
00:33:47,750 --> 00:33:45,480
and the officer who

663
00:33:48,710 --> 00:33:47,760

took it there and gave it to the

664

00:33:52,909 --> 00:33:48,720
director

665

00:33:56,149 --> 00:33:52,919
said that in the United States that

666

00:34:00,169 --> 00:33:56,159
subject of recovery of materials

667

00:34:03,470 --> 00:34:00,179
from UFOs was classified higher than the

668

00:34:05,750 --> 00:34:03,480
atom bar and this was and he stated that

669

00:34:07,549 --> 00:34:05,760
you know in an interview to to

670

00:34:10,669 --> 00:34:07,559
journalists in Canada

671

00:34:13,010 --> 00:34:10,679
so that is Again part of the record this

672

00:34:15,409 --> 00:34:13,020
is not something that anybody has

673

00:34:19,430 --> 00:34:15,419
invented this is part of the record

674

00:34:22,730 --> 00:34:19,440
so that would explain why

675

00:34:26,869 --> 00:34:22,740
uh number one the kids never spoke

676

00:34:28,690 --> 00:34:26,879

number two the atomic energy commission

677

00:34:32,030 --> 00:34:28,700

never spoke either

678

00:34:33,609 --> 00:34:32,040

because it would be still would be

679

00:34:36,730 --> 00:34:33,619

classified

680

00:34:38,810 --> 00:34:36,740

in a part of a classification system

681

00:34:42,109 --> 00:34:38,820

that most people with security

682

00:34:44,629 --> 00:34:42,119

clearances have no access namely the

683

00:34:47,030 --> 00:34:44,639

atomic secrets the atomic secrets are

684

00:34:52,250 --> 00:34:47,040

managed in our country

685

00:34:55,609 --> 00:34:52,260

in a separate branch of the the secrecy

686

00:34:59,150 --> 00:34:55,619

you know apparatus a sequencing system

687

00:35:00,010 --> 00:34:59,160

the the you know confidential secret top

688

00:35:03,829 --> 00:35:00,020

secret

689

00:35:06,109 --> 00:35:03,839

sap and all that is is one type of

690

00:35:09,050 --> 00:35:06,119

secret that's within the executive

691

00:35:11,690 --> 00:35:09,060

branch and primarily to the Pentagon

692

00:35:13,970 --> 00:35:11,700

that other you know uh Advocate about

693

00:35:16,609 --> 00:35:13,980

this as well then there is a separate

694

00:35:19,550 --> 00:35:16,619

system for the state department which is

695

00:35:22,130 --> 00:35:19,560

referring intelligence secrets that

696

00:35:24,890 --> 00:35:22,140

don't really need to go to the president

697

00:35:27,890 --> 00:35:24,900

and unless there is a specific reason

698

00:35:31,490 --> 00:35:27,900

for it that they are segregated for good

699

00:35:35,390 --> 00:35:31,500

reasons and then the atomic secrets are

700

00:35:37,250 --> 00:35:35,400

RP and Q sequence for which most people

701
00:35:40,690 --> 00:35:37,260
with the top secret clearance in the

702
00:35:44,690 --> 00:35:40,700
Pentagon don't have don't need to have

703
00:35:46,970 --> 00:35:44,700
that particular clearance so

704
00:35:51,109 --> 00:35:46,980
um many of the people I've met in the

705
00:35:54,349 --> 00:35:51,119
course of the atip bass project you know

706
00:35:57,650 --> 00:35:54,359
all of us had uh sequence for the time

707
00:36:00,589 --> 00:35:57,660
of the study but all the people I spoke

708
00:36:02,810 --> 00:36:00,599
there including people who had high you

709
00:36:04,430 --> 00:36:02,820
know currencies had never heard of

710
00:36:07,370 --> 00:36:04,440
Trinity

711
00:36:09,890 --> 00:36:07,380
because they they didn't have access to

712
00:36:13,550 --> 00:36:09,900
the they didn't have a need to know

713
00:36:16,930 --> 00:36:13,560

in the nuclear barrier

714

00:36:21,050 --> 00:36:16,940

right well you must be a little bit

715

00:36:23,270 --> 00:36:21,060

encouraged by while the Mandate for next

716

00:36:26,510 --> 00:36:23,280

year for the uh I'm trying to remember

717

00:36:29,329 --> 00:36:26,520

what the new the new acronym is for the

718

00:36:33,650 --> 00:36:29,339

government uh uh

719

00:36:35,810 --> 00:36:33,660

what's that yeah but uh but you must be

720

00:36:38,870 --> 00:36:35,820

encouraged because they're now going to

721

00:36:42,770 --> 00:36:38,880

look into historical cases which is very

722

00:36:45,470 --> 00:36:42,780

encouraging because I mean yes and I'm

723

00:36:48,950 --> 00:36:45,480

ready and willing to

724

00:36:50,990 --> 00:36:48,960

that assist to any sources that I have I

725

00:36:52,790 --> 00:36:51,000

have access to

726

00:36:55,790 --> 00:36:52,800

um again

727

00:36:58,849 --> 00:36:55,800

a number of us as you know in in the UFO

728

00:37:02,510 --> 00:36:58,859

Community have done uh research that

729

00:37:05,089 --> 00:37:02,520

went into these these databases uh you

730

00:37:07,390 --> 00:37:05,099

know organizations like Newfound have

731

00:37:11,089 --> 00:37:07,400

done that for a long time

732

00:37:12,550 --> 00:37:11,099

I think many of the throwing fives you

733

00:37:16,569 --> 00:37:12,560

know would be available

734

00:37:20,569 --> 00:37:16,579

if they care to to look at foreign data

735

00:37:23,270 --> 00:37:20,579

and uh you know I'm I'm very encouraged

736

00:37:25,609 --> 00:37:23,280

that suddenly that the stigma has been

737

00:37:29,270 --> 00:37:25,619

removed yes

738

00:37:31,069 --> 00:37:29,280

um so so along that line someone is

739

00:37:33,170 --> 00:37:31,079

asking here there's people putting in

740

00:37:35,089 --> 00:37:33,180

questions in chat I'll try to get to

741

00:37:37,310 --> 00:37:35,099

them a couple of them here and someone

742

00:37:39,650 --> 00:37:37,320

want me to ask you if you had secrets

743

00:37:43,390 --> 00:37:39,660

you can't talk about

744

00:37:48,890 --> 00:37:43,400

well um yeah I mean that's that's uh

745

00:37:52,490 --> 00:37:48,900

that's clear uh I'm I I cannot I'm at

746

00:37:55,250 --> 00:37:52,500

the end of a project like bass so which

747

00:37:58,849 --> 00:37:55,260

was called 80 but atip was just a

748

00:38:02,930 --> 00:37:58,859

nickname but essentially the you know

749

00:38:08,270 --> 00:38:02,940

the project we did in Las Vegas uh run

750

00:38:11,050 --> 00:38:08,280

by Mr Bigelow in a small group that

751
00:38:15,109 --> 00:38:11,060
to my knowledge has remained classified

752
00:38:17,329 --> 00:38:15,119
except for a few a few things that have

753
00:38:19,569 --> 00:38:17,339
been published under

754
00:38:23,990 --> 00:38:19,579
after review

755
00:38:27,710 --> 00:38:24,000
uh by Dr colb Keller you know the the

756
00:38:29,930 --> 00:38:27,720
book about the the Pentagon you know and

757
00:38:50,470 --> 00:38:29,940
the

758
00:38:54,650 --> 00:38:50,480
it's

759
00:38:58,069 --> 00:38:54,660
suddenly the largest you know 260 000

760
00:39:02,810 --> 00:38:58,079
cases from all over the world that came

761
00:39:06,410 --> 00:39:02,820
in part from my own old five from France

762
00:39:09,109 --> 00:39:06,420
and South America and other places that

763
00:39:11,510 --> 00:39:09,119

that I brought into the project and I

764

00:39:14,569 --> 00:39:11,520

still have those so I mean some of the

765

00:39:18,650 --> 00:39:14,579

data has come from the outside from the

766

00:39:21,470 --> 00:39:18,660

civilian civilian fires and some of it

767

00:39:25,030 --> 00:39:21,480

was developed internally by the project

768

00:39:28,310 --> 00:39:25,040

itself so that um

769

00:39:30,109 --> 00:39:28,320

you know some of it some of the the

770

00:39:31,310 --> 00:39:30,119

computer science data about the

771

00:39:35,270 --> 00:39:31,320

architecture

772

00:39:38,329 --> 00:39:35,280

is is still classified but

773

00:39:41,150 --> 00:39:38,339

um we never had the chance to get into

774

00:39:44,089 --> 00:39:41,160

what I really wanted to do which was the

775

00:39:48,170 --> 00:39:44,099

AI development on top of the data

776

00:39:51,650 --> 00:39:48,180

warehouse it it's not one fly you cannot

777

00:39:55,310 --> 00:39:51,660

do it as one five because the the

778

00:39:58,790 --> 00:39:55,320

characteristics of every environment are

779

00:40:02,270 --> 00:39:58,800

different you know the the ratio of

780

00:40:05,270 --> 00:40:02,280

explainable cases against

781

00:40:07,329 --> 00:40:05,280

truly unknown cases is going to be

782

00:40:10,550 --> 00:40:07,339

different if you're talking about Pilots

783

00:40:12,349 --> 00:40:10,560

or if you're talking about civilians or

784

00:40:16,010 --> 00:40:12,359

if you're talking about instruments and

785

00:40:17,809 --> 00:40:16,020

so on so those have to be kept in stove

786

00:40:19,790 --> 00:40:17,819

types that are parallel

787

00:40:23,089 --> 00:40:19,800

and then there is a structure a design

788

00:40:25,849 --> 00:40:23,099

that carries across all the stove bikes

789

00:40:29,170 --> 00:40:25,859

on which we could you know eventually

790

00:40:32,870 --> 00:40:29,180

the project was to First

791

00:40:35,630 --> 00:40:32,880

analyze everything to to clean up the

792

00:40:38,329 --> 00:40:35,640

entire database because right now it's

793

00:40:41,510 --> 00:40:38,339

compromised with things that are errors

794

00:40:44,990 --> 00:40:41,520

we we know that we know that more than

795

00:40:47,510 --> 00:40:45,000

half of the data that is reported is an

796

00:40:49,849 --> 00:40:47,520

error it could be the Moon Rising for

797

00:40:52,730 --> 00:40:49,859

the fog or it could be you know a very

798

00:40:56,329 --> 00:40:52,740

high altitude aircraft that that's

799

00:40:58,970 --> 00:40:56,339

mistaken for UFO and so on so those uh

800

00:41:02,470 --> 00:40:58,980

those are still there and you know it's

801
00:41:06,130 --> 00:41:02,480
a very painstaking job to

802
00:41:09,589 --> 00:41:06,140
clean up those data the data warehouse

803
00:41:13,190 --> 00:41:09,599
and that only then can you build a

804
00:41:16,730 --> 00:41:13,200
decent level of AI on top of it which is

805
00:41:18,650 --> 00:41:16,740
what what our team was ready to do but

806
00:41:22,010 --> 00:41:18,660
the as you know the project stopped

807
00:41:25,370 --> 00:41:22,020
after two years so that resource which

808
00:41:27,109 --> 00:41:25,380
is really a you know an American

809
00:41:31,550 --> 00:41:27,119
treasure

810
00:41:33,109 --> 00:41:31,560
uh developed by something like 25 or 30

811
00:41:35,390 --> 00:41:33,119
people

812
00:41:38,270 --> 00:41:35,400
you know it's not a small project over

813
00:41:41,390 --> 00:41:38,280

two years so there is at least 16

814

00:41:43,089 --> 00:41:41,400
million years of work that has gone into

815

00:41:47,089 --> 00:41:43,099
that

816

00:41:49,790 --> 00:41:47,099
and uh you know I I assume it's

817

00:41:52,910 --> 00:41:49,800
preserved and is

818

00:41:55,849 --> 00:41:52,920
there may be some work on ongoing from

819

00:41:58,550 --> 00:41:55,859
other contractors of the of the defense

820

00:42:01,430 --> 00:41:58,560
department and I'm not critical but

821

00:42:03,829 --> 00:42:01,440
beyond that I cannot talk about exactly

822

00:42:05,630 --> 00:42:03,839
what we did but if I did it would be

823

00:42:08,450 --> 00:42:05,640
very boring you know I mean there was no

824

00:42:10,849 --> 00:42:08,460
you know we didn't capture in the live

825

00:42:13,849 --> 00:42:10,859
alien they pledged but what your

826

00:42:16,970 --> 00:42:13,859

listener wants to know yeah well you

827

00:42:19,010 --> 00:42:16,980

know it is you think about it it's kind

828

00:42:20,390 --> 00:42:19,020

of a shame that you used the term a

829

00:42:21,829 --> 00:42:20,400

couple of times we'll never see the

830

00:42:23,870 --> 00:42:21,839

light of day or may see the light of day

831

00:42:26,630 --> 00:42:23,880

and that makes me think of all the way

832

00:42:31,910 --> 00:42:26,640

back to this avocado shaped crash in

833

00:42:35,390 --> 00:42:31,920

1945 and all these supposed crashed if

834

00:42:37,550 --> 00:42:35,400

if they do exist and it's being kind of

835

00:42:41,270 --> 00:42:37,560

held away from Humanity you know top

836

00:42:44,210 --> 00:42:41,280

secret yes but still it's like uh these

837

00:42:46,010 --> 00:42:44,220

Treasures are being you know concealed

838

00:42:47,650 --> 00:42:46,020

and I I don't think it does anyone any

839

00:42:52,130 --> 00:42:47,660

any good

840

00:42:55,630 --> 00:42:52,140

well yes but um that's where the power

841

00:42:59,089 --> 00:42:55,640

of the computer comes in as you know

842

00:43:02,569 --> 00:42:59,099

like training in my early careers in

843

00:43:04,550 --> 00:43:02,579

computer science and AI so you start

844

00:43:08,210 --> 00:43:04,560

looking for correlations

845

00:43:10,430 --> 00:43:08,220

and what is striking to me about the

846

00:43:12,309 --> 00:43:10,440

Trinity case you know I'll try to show

847

00:43:15,829 --> 00:43:12,319

this to you from the book

848

00:43:17,690 --> 00:43:15,839

there are two other cases that are like

849

00:43:22,550 --> 00:43:17,700

the Trinity case

850

00:43:25,790 --> 00:43:22,560

there is a case in valencol in France

851
00:43:29,690 --> 00:43:25,800
where the object was egg shaped and

852
00:43:32,510 --> 00:43:29,700
there were two short creatures and there

853
00:43:33,829 --> 00:43:32,520
is of course a Socorro case which is

854
00:43:38,750 --> 00:43:33,839
also

855
00:43:41,750 --> 00:43:38,760
not a disc but it is a an egg-shaped

856
00:43:42,650 --> 00:43:41,760
object an oval object and as you can see

857
00:43:44,530 --> 00:43:42,660
there

858
00:43:49,370 --> 00:43:44,540
in

859
00:43:53,349 --> 00:43:49,380
the um

860
00:43:57,710 --> 00:43:53,359
not only is a shape similar but the

861
00:44:01,609 --> 00:43:57,720
occupants are similar as well now in the

862
00:44:04,790 --> 00:44:01,619
case of Trinity the two kids saw

863
00:44:07,730 --> 00:44:04,800

they come close to try to help what they

864

00:44:11,150 --> 00:44:07,740

think are the pilots there is no pilot

865

00:44:13,250 --> 00:44:11,160

there are three strong creatures that

866

00:44:16,010 --> 00:44:13,260

are the above the size of the kids they

867

00:44:19,250 --> 00:44:16,020

are about you know three feet tall

868

00:44:23,390 --> 00:44:19,260

they breathe our air they have two eyes

869

00:44:27,109 --> 00:44:23,400

the small nose a small mouth

870

00:44:30,890 --> 00:44:27,119

um so they they look a little bit like

871

00:44:33,170 --> 00:44:30,900

insects they look a little bit like you

872

00:44:34,790 --> 00:44:33,180

know what which streamer describes in

873

00:44:37,069 --> 00:44:34,800

this book

874

00:44:41,569 --> 00:44:37,079

um but they are dwarf

875

00:44:44,870 --> 00:44:41,579

size and they breathe our air they seem

876
00:44:47,210 --> 00:44:44,880
to be in great trauma they move around

877
00:44:50,809 --> 00:44:47,220
the next day they are not there we don't

878
00:44:51,890 --> 00:44:50,819
know if they escape during the night or

879
00:44:54,349 --> 00:44:51,900
if

880
00:44:57,109 --> 00:44:54,359
you know the there was a report to

881
00:44:59,569 --> 00:44:57,119
Alamogordo so maybe they sent a couple

882
00:45:02,870 --> 00:44:59,579
of guys with the Jeep to find out what

883
00:45:05,870 --> 00:45:02,880
was going on they may have captured the

884
00:45:08,510 --> 00:45:05,880
beings we we never see them again the

885
00:45:12,109 --> 00:45:08,520
the two kids are going to be there for

886
00:45:15,050 --> 00:45:12,119
the next 10 days following the recovery

887
00:45:17,630 --> 00:45:15,060
they hide in the bushes it's fascinating

888
00:45:19,550 --> 00:45:17,640

for them I mean remember when you were a

889

00:45:22,030 --> 00:45:19,560

nine-year-old wouldn't you have been

890

00:45:26,210 --> 00:45:22,040

fascinated to see something like that

891

00:45:27,470 --> 00:45:26,220

on your land so uh they are watching

892

00:45:33,050 --> 00:45:27,480

this

893

00:45:36,230 --> 00:45:33,060

that there is no no more mention of

894

00:45:38,630 --> 00:45:36,240

the entities or the aliens if you want

895

00:45:41,990 --> 00:45:38,640

to call their names except in an

896

00:45:45,349 --> 00:45:42,000

unrelated or in maybe in a related case

897

00:45:48,050 --> 00:45:45,359

in the neighborhood later on but but as

898

00:45:49,069 --> 00:45:48,060

far as the site itself we never see them

899

00:45:53,030 --> 00:45:49,079

again

900

00:45:56,230 --> 00:45:53,040

but in Socorro which is a case I know

901
00:45:59,829 --> 00:45:56,240
well because I I worked on it

902
00:46:02,450 --> 00:45:59,839
with Dr heinek at the time

903
00:46:06,490 --> 00:46:02,460
they were as you know there were two

904
00:46:09,730 --> 00:46:06,500
entities there were two small dwarfs

905
00:46:12,470 --> 00:46:09,740
about three feet high

906
00:46:15,470 --> 00:46:12,480
who were breathing our hair and they

907
00:46:17,210 --> 00:46:15,480
look at Lani Zamora and then they

908
00:46:19,970 --> 00:46:17,220
re-enter the thing and the thing takes

909
00:46:23,569 --> 00:46:19,980
off okay and the material values

910
00:46:26,510 --> 00:46:23,579
material is recovered and I go into I

911
00:46:29,089 --> 00:46:26,520
I've updated that case in Trinity

912
00:46:31,250 --> 00:46:29,099
because you indeed you were talking

913
00:46:34,370 --> 00:46:31,260

about you know you should never give up

914

00:46:36,890 --> 00:46:34,380

on a case you should always look for new

915

00:46:40,430 --> 00:46:36,900

things that happen well new things have

916

00:46:42,890 --> 00:46:40,440

happened in fact in the case of Socorro

917

00:46:45,530 --> 00:46:42,900

new things have come to light that had

918

00:46:48,589 --> 00:46:45,540

never been published before and we know

919

00:46:52,190 --> 00:46:48,599

it was not a hoax we know it was not a

920

00:46:55,250 --> 00:46:52,200

joke we know that materials were

921

00:46:57,770 --> 00:46:55,260

recovered and materials were in fact get

922

00:47:02,089 --> 00:46:57,780

secreted and hidden away

923

00:47:05,210 --> 00:47:02,099

so and then there is a running sort case

924

00:47:06,650 --> 00:47:05,220

I've I've gone to valensol I've met the

925

00:47:10,130 --> 00:47:06,660

witness

926
00:47:13,670 --> 00:47:10,140
what we remember as a French Farmer in

927
00:47:17,170 --> 00:47:13,680
the midi of the south of France he goes

928
00:47:20,450 --> 00:47:17,180
into his field because this is in July

929
00:47:23,569 --> 00:47:20,460
1965. it's going to be very hot during

930
00:47:25,609 --> 00:47:23,579
the day if you've been in the south of

931
00:47:27,410 --> 00:47:25,619
France you know you know in the summer

932
00:47:32,089 --> 00:47:27,420
it's very very hot

933
00:47:34,490 --> 00:47:32,099
and so he he wants to water you know his

934
00:47:36,890 --> 00:47:34,500
field and he wants to do some work

935
00:47:39,170 --> 00:47:36,900
before it gets too hot

936
00:47:40,069 --> 00:47:39,180
he gets there and he sees his overall

937
00:47:43,490 --> 00:47:40,079
object

938
00:47:46,309 --> 00:47:43,500

that he thinks from a distance is a some

939

00:47:48,770 --> 00:47:46,319

sort of helicopter of a French army and

940

00:47:51,470 --> 00:47:48,780

he's going to tell them you know I know

941

00:47:54,530 --> 00:47:51,480

no no uncertain words but they they are

942

00:47:57,950 --> 00:47:54,540

not allowed to you know to land in a

943

00:47:58,910 --> 00:47:57,960

private field where something is being

944

00:48:02,809 --> 00:47:58,920

grown

945

00:48:05,569 --> 00:48:02,819

uh and then when as he comes closer two

946

00:48:08,510 --> 00:48:05,579

things happen first he realizes that

947

00:48:11,990 --> 00:48:08,520

there are dwarf you know that the thing

948

00:48:13,750 --> 00:48:12,000

is not a helicopter that it it's resting

949

00:48:19,370 --> 00:48:13,760

on on four legs

950

00:48:23,569 --> 00:48:19,380

and the two entities the two pilots are

951
00:48:27,349 --> 00:48:23,579
human looking now dwarf and they breathe

952
00:48:30,470 --> 00:48:27,359
our hair so you have three cases now you

953
00:48:34,490 --> 00:48:30,480
can argue about Trinity because you know

954
00:48:37,250 --> 00:48:34,500
Paula and I are the the ones who brought

955
00:48:39,790 --> 00:48:37,260
the case by the way it had been

956
00:48:43,010 --> 00:48:39,800
researched before by a couple of other

957
00:48:45,470 --> 00:48:43,020
ufologists in the U.S but we were the

958
00:48:48,530 --> 00:48:45,480
first ones to document the whole case

959
00:48:51,829 --> 00:48:48,540
and first power line she brought me in

960
00:48:55,069 --> 00:48:51,839
for the the assessment of the traces in

961
00:48:55,849 --> 00:48:55,079
American Hills the

962
00:49:00,349 --> 00:48:55,859
um

963
00:49:02,510 --> 00:49:00,359

so that you know that that case is comes

964

00:49:03,589 --> 00:49:02,520

from our research but the other two

965

00:49:07,970 --> 00:49:03,599

cases

966

00:49:10,849 --> 00:49:07,980

are verified by state and Military

967

00:49:14,990 --> 00:49:10,859

authorities in both cases you know in

968

00:49:18,829 --> 00:49:15,000

Socorro there was White Sands there was

969

00:49:20,809 --> 00:49:18,839

the local police there was the FBI which

970

00:49:24,230 --> 00:49:20,819

happened to be there on completely

971

00:49:27,230 --> 00:49:24,240

unrelated things but the FBI helped in

972

00:49:29,329 --> 00:49:27,240

securing the data and then there was the

973

00:49:31,670 --> 00:49:29,339

Air Force there were several levels of

974

00:49:35,089 --> 00:49:31,680

the Air Force and of course Dr heinek

975

00:49:36,710 --> 00:49:35,099

himself went there so there was a

976

00:49:39,530 --> 00:49:36,720

complete investigation by different

977

00:49:43,609 --> 00:49:39,540

agencies this is not you know in the

978

00:49:46,069 --> 00:49:43,619

flags of some amateur group you know not

979

00:49:48,910 --> 00:49:46,079

to mean that amateur groups cannot do a

980

00:49:52,250 --> 00:49:48,920

good study but here you have three

981

00:49:55,549 --> 00:49:52,260

complementary Studies by agencies of the

982

00:49:56,569 --> 00:49:55,559

US government or by local you know state

983

00:50:00,410 --> 00:49:56,579

government

984

00:50:03,650 --> 00:50:00,420

in Valentine there were five agencies of

985

00:50:06,170 --> 00:50:03,660

the French government that investigated

986

00:50:08,809 --> 00:50:06,180

the case separately you know the police

987

00:50:11,450 --> 00:50:08,819

and the Air Force the French

988

00:50:15,890 --> 00:50:11,460

intelligence and even the French Customs

989

00:50:18,410 --> 00:50:15,900

so I asked why the customs and I learned

990

00:50:22,430 --> 00:50:18,420

something very interesting that that

991

00:50:25,130 --> 00:50:22,440

area was often used by helicopters

992

00:50:27,890 --> 00:50:25,140

that were doing illegal traffic with

993

00:50:30,470 --> 00:50:27,900

Switzerland if you want to take all your

994

00:50:33,349 --> 00:50:30,480

gold I assume you have lots of goals

995

00:50:36,010 --> 00:50:33,359

that you're hiding oh yes you take it to

996

00:50:39,710 --> 00:50:36,020

Switzerland like I do

997

00:50:42,650 --> 00:50:39,720

Switzerland uh and you're French you

998

00:50:44,390 --> 00:50:42,660

hire a helicopter that can take it to a

999

00:50:47,089 --> 00:50:44,400

bank over there of course that doesn't

1000

00:50:50,569 --> 00:50:47,099

work anymore because with Swiss have you

1001
00:50:54,230 --> 00:50:50,579
know shut down that traffic but in those

1002
00:50:57,710 --> 00:50:54,240
days 1965 uh you know the Customs were

1003
00:51:01,370 --> 00:50:57,720
chasing those illegal you know transfers

1004
00:51:02,329 --> 00:51:01,380
of currency or documents or anything

1005
00:51:05,630 --> 00:51:02,339
else

1006
00:51:08,809 --> 00:51:05,640
so they had in fact they had authority

1007
00:51:11,390 --> 00:51:08,819
to to investigate and they took one look

1008
00:51:14,450 --> 00:51:11,400
at the data and they they could see that

1009
00:51:18,950 --> 00:51:14,460
it was no no helicopter anybody has ever

1010
00:51:21,650 --> 00:51:18,960
built for one thing the the witness

1011
00:51:25,849 --> 00:51:21,660
described it and described it to me when

1012
00:51:28,190 --> 00:51:25,859
I I followed the investigation and met a

1013
00:51:32,690 --> 00:51:28,200

number of other people in the area who

1014

00:51:36,530 --> 00:51:32,700

knew about those cases he said it

1015

00:51:41,210 --> 00:51:36,540

took off and then it it went up and it

1016

00:51:44,390 --> 00:51:41,220

vanished it didn't just go off in the

1017

00:51:47,990 --> 00:51:44,400

distance in the sky it just went over 50

1018

00:51:50,329 --> 00:51:48,000

feet you know in the air and vanished

1019

00:51:55,069 --> 00:51:50,339

so so much for all the theories about

1020

00:51:56,990 --> 00:51:55,079

you know special propulsions the

1021

00:52:00,710 --> 00:51:57,000

propulsion must be very special because

1022

00:52:03,530 --> 00:52:00,720

in the Trinity case on the last day when

1023

00:52:05,569 --> 00:52:03,540

the object was on the side the two kids

1024

00:52:08,329 --> 00:52:05,579

thought hey you know that's the

1025

00:52:11,329 --> 00:52:08,339

opportunity to find out what makes it

1026

00:52:15,790 --> 00:52:11,339

work so they see the underside the

1027

00:52:19,430 --> 00:52:15,800

underside is and remember

1028

00:52:22,609 --> 00:52:19,440

Mr Padilla Jose Padilla went inside the

1029

00:52:24,890 --> 00:52:22,619

object at the end and I asked him what

1030

00:52:25,790 --> 00:52:24,900

the floor was like well the floor was

1031

00:52:32,329 --> 00:52:25,800

flat

1032

00:52:35,390 --> 00:52:32,339

maybe two or three feet under the floor

1033

00:52:40,309 --> 00:52:35,400

where an engine couldn't be but there

1034

00:52:42,950 --> 00:52:40,319

was no opening and under the avocado you

1035

00:52:46,370 --> 00:52:42,960

know it was smooth there were a couple

1036

00:52:50,089 --> 00:52:46,380

of metal bumps but there was no opening

1037

00:52:53,750 --> 00:52:50,099

there was no jet there was no propeller

1038

00:52:55,430 --> 00:52:53,760

amazing I hate I hate to do this but we

1039

00:52:57,049 --> 00:52:55,440

are right at the end of the hour and we

1040

00:52:59,750 --> 00:52:57,059

have there's another show coming right

1041

00:53:01,910 --> 00:52:59,760

up so uh yeah hold your book up if you

1042

00:53:05,089 --> 00:53:01,920

would for everyone and the name of it is

1043

00:53:07,130 --> 00:53:05,099

Trinity the best kept secret shock it's

1044

00:53:10,309 --> 00:53:07,140

always a pleasure to speak with you and

1045

00:53:15,530 --> 00:53:10,319

it says your meticulous research reveals

1046

00:53:18,710 --> 00:53:15,540

how alien technology has been concealed

1047

00:53:20,690 --> 00:53:18,720

okay because now we know something we

1048

00:53:24,290 --> 00:53:20,700

didn't know you know a couple of years

1049

00:53:26,089 --> 00:53:24,300

ago that this was in fact technology it

1050

00:53:28,490 --> 00:53:26,099

was very very frequency

1051
00:53:30,829 --> 00:53:28,500
very good thank you so much and that

1052
00:53:32,569 --> 00:53:30,839
link is right in the show notes and on

1053
00:53:33,650 --> 00:53:32,579
the website thank you you need to take

1054
00:53:35,270 --> 00:53:33,660
care now

1055
00:53:36,890 --> 00:53:35,280
okay all right

1056
00:53:38,870 --> 00:53:36,900
all right everyone so that's it for the

1057
00:53:40,970 --> 00:53:38,880
show thank you so much and again that

1058
00:53:42,950 --> 00:53:40,980
book is right on the website and my

1059
00:53:45,109 --> 00:53:42,960
website's down right now I'm gonna look

1060
00:53:47,390 --> 00:53:45,119
into that but thank you all uh for

1061
00:53:49,190 --> 00:53:47,400
listening and watching and we'll be back

1062
00:53:50,260 --> 00:53:49,200
next week and remember to keep your eyes

1063
00:54:00,790 --> 00:53:50,270

to the sky
