1  
00:00:11,599 --> 00:00:18,650  
thank you

4  
00:01:13,030 --> 00:00:50,420  
[Music]

5  
00:01:17,210 --> 00:01:16,010  
listeners welcome to this week's show at

6  
00:01:19,850 --> 00:01:17,220  
this moment some of you might be

7  
00:01:22,010 --> 00:01:19,860  
wondering who the hell is this guy me

8  
00:01:24,230 --> 00:01:22,020  
Dean aliero and what have they done with

9  
00:01:26,210 --> 00:01:24,240  
your host of 10 Years sir Martin Willis

10  
00:01:28,429 --> 00:01:26,220  
well let me explain

11  
00:01:31,130 --> 00:01:28,439  
a few days ago I received a text from

12  
00:01:33,289 --> 00:01:31,140  
Martin saying two things one he had to

13  
00:01:35,090 --> 00:01:33,299

have heart surgery and two would I fill

14

00:01:37,490 --> 00:01:35,100

in for him on his podcast while he

15

00:01:38,990 --> 00:01:37,500

recovered I had hoped the text was a

16

00:01:40,249 --> 00:01:39,000

joke since the idea of Martin needing

17

00:01:41,929 --> 00:01:40,259

the heart is kind of like the Tin Man

18

00:01:43,609 --> 00:01:41,939

needing the heart Martin's heart is one

19

00:01:45,590 --> 00:01:43,619

of the biggest I know of

20

00:01:47,569 --> 00:01:45,600

um well as you can see he wasn't joking

21

00:01:49,969 --> 00:01:47,579

and I can tell you his surgery was a

22

00:01:51,950 --> 00:01:49,979

great success however I'm not so sure

23

00:01:53,630 --> 00:01:51,960

about the gender reassignment surgery he

24

00:01:56,030 --> 00:01:53,640

scheduled simultaneously

25

00:01:58,010 --> 00:01:56,040

but smart ass jokes like that one is why

26

00:02:00,530 --> 00:01:58,020

I'm guessing Martin tapped me to fill in

27

00:02:02,690 --> 00:02:00,540

for him to amuse himself while he uh

28

00:02:05,510 --> 00:02:02,700

gets better and hopefully entertain his

29

00:02:07,249 --> 00:02:05,520

smart wonderful listeners as well so for

30

00:02:09,229 --> 00:02:07,259

those of you who don't know me I'm a

31

00:02:12,470 --> 00:02:09,239

filmmaker I made the first found footage

32

00:02:14,510 --> 00:02:12,480

film The McPherson tape and the UPN

33

00:02:16,670 --> 00:02:14,520

remake alien abduction instantly County

34

00:02:19,930 --> 00:02:16,680

both of which happened to be about you

35

00:02:23,449 --> 00:02:19,940

guessed it UFO aliens in general

36

00:02:25,309 --> 00:02:23,459

then about four years ago I spoke at my

37

00:02:27,229 --> 00:02:25,319

film's 25th anniversary at the

38

00:02:29,150 --> 00:02:27,239

international UFO Congress convention

39

00:02:31,729 --> 00:02:29,160

which by the way tickets for this

40

00:02:36,830 --> 00:02:31,739

month's Congress are 20 off with this

41

00:02:39,350 --> 00:02:36,840

code and this is Owen capitals i u f o c

42

00:02:40,790 --> 00:02:39,360

20

43

00:02:43,610 --> 00:02:40,800

um since my appearance at the convention

44

00:02:45,650 --> 00:02:43,620

I got sucked into the proverbial UFO

45

00:02:47,809 --> 00:02:45,660

rabbit hole and spent the last 14 years

46

00:02:50,630 --> 00:02:47,819

working on an epic three-part science

47

00:02:52,850 --> 00:02:50,640

documentary series about yes UFO and

48

00:02:54,410 --> 00:02:52,860

aliens this is a Premiere series and

49

00:02:56,630 --> 00:02:54,420

we'll be coming out next year here and I

50

00:02:59,570 --> 00:02:56,640

promise you it'll be a whole new take on

51  
00:03:01,610 --> 00:02:59,580  
the UFO phenomenon but right now I'd

52  
00:03:03,470 --> 00:03:01,620  
like to introduce Our Guest who's also

53  
00:03:06,290 --> 00:03:03,480  
in my new documentary and who was

54  
00:03:08,869 --> 00:03:06,300  
patient zero in the now famous Navy Tic

55  
00:03:11,210 --> 00:03:08,879  
Tac UFO encounter Navy Senior Chief

56  
00:03:14,570 --> 00:03:11,220  
operations radar specialist Kevin day

57  
00:03:16,910 --> 00:03:14,580  
was getting ready to retire when I'm

58  
00:03:18,710 --> 00:03:16,920  
literally his last real world intercept

59  
00:03:21,050 --> 00:03:18,720  
he saw something on his radar

60  
00:03:23,869 --> 00:03:21,060  
instrumentation that was not normal to

61  
00:03:27,290 --> 00:03:23,879  
say the least Kevin welcome aboard sir

62  
00:03:29,869 --> 00:03:27,300  
thank you Dean in my um my heart my

63  
00:03:31,729 --> 00:03:29,879

Goodwill goes out to Martin today I hope

64

00:03:34,190 --> 00:03:31,739

he recovers well

65

00:03:36,949 --> 00:03:34,200

yeah I um I got a chance to speak with

66

00:03:39,110 --> 00:03:36,959

them since his uh surgery and uh his

67

00:03:41,089 --> 00:03:39,120

humor is still intact so yeah and if

68

00:03:43,430 --> 00:03:41,099

he's listening if he's listening tonight

69

00:03:45,890 --> 00:03:43,440

hey Martin hang in there brother

70

00:03:48,589 --> 00:03:45,900

hang in there absolutely

71

00:03:50,089 --> 00:03:48,599

um so Kevin first of all how are you we

72

00:03:51,410 --> 00:03:50,099

haven't spoke I mean we checked in

73

00:03:53,869 --> 00:03:51,420

before we were going to do the podcast

74

00:03:55,190 --> 00:03:53,879

but we haven't really spoke since uh I

75

00:03:58,190 --> 00:03:55,200

put you in front of my camera and

76  
00:03:59,750 --> 00:03:58,200  
interrogated you how are you you know I

77  
00:04:02,270 --> 00:03:59,760  
have to tell you do you know I've never

78  
00:04:05,869 --> 00:04:02,280  
been a religious person but there's not

79  
00:04:08,210 --> 00:04:05,879  
a day goes by that I don't thank God

80  
00:04:09,949 --> 00:04:08,220  
and many times a day too for what

81  
00:04:12,890 --> 00:04:09,959  
happened in the journey that I

82  
00:04:15,770 --> 00:04:12,900  
that I went on to get here

83  
00:04:18,129 --> 00:04:15,780  
it's awesome beyond words

84  
00:04:20,330 --> 00:04:18,139  
well I'm looking forward

85  
00:04:22,009 --> 00:04:20,340  
into that

86  
00:04:23,629 --> 00:04:22,019  
um but first I have to back up a little

87  
00:04:25,070 --> 00:04:23,639  
bit and ask you a question that I'm sure

88  
00:04:26,930 --> 00:04:25,080

you get asked a lot

89

00:04:28,370 --> 00:04:26,940

um because you're part of the Navy Elite

90

00:04:30,770 --> 00:04:28,380

Top Gun program

91

00:04:33,650 --> 00:04:30,780

I need to ask you

92

00:04:37,430 --> 00:04:33,660

how tall is Tom Cruise like five nine

93

00:04:39,170 --> 00:04:37,440

five six five one you know I've um never

94

00:04:40,730 --> 00:04:39,180

met him in person but I've heard he's

95

00:04:42,050 --> 00:04:40,740

about five nine and a half something

96

00:04:44,570 --> 00:04:42,060

like that

97

00:04:47,210 --> 00:04:44,580

actually sat next to him at a screening

98

00:04:49,550 --> 00:04:47,220

of I think it was night and day and um

99

00:04:53,090 --> 00:04:49,560

I'm gonna go with five five for 400 uh

100

00:04:55,610 --> 00:04:53,100

Trebek five five okay

101

00:04:59,450 --> 00:04:55,620

yeah he's probably about five seven

102

00:05:01,490 --> 00:04:59,460

um but anyway go ahead yeah um so here I

103

00:05:04,070 --> 00:05:01,500

I'd kind of like to

104

00:05:07,850 --> 00:05:04,080

go back to um

105

00:05:10,129 --> 00:05:07,860

who before the Tic Tac encounter I I

106

00:05:11,510 --> 00:05:10,139

kind of am curious and I didn't get a

107

00:05:13,129 --> 00:05:11,520

chance to ask you this when we did the

108

00:05:15,170 --> 00:05:13,139

documentary

109

00:05:18,290 --> 00:05:15,180

um what what made you want to get into

110

00:05:21,950 --> 00:05:18,300

the Navy in the first place

111

00:05:24,710 --> 00:05:21,960

well in throughout High School I was I

112

00:05:26,870 --> 00:05:24,720

wasn't a nerd but I wasn't like a real

113

00:05:28,129 --> 00:05:26,880

popular kid but I was always a kid in

114

00:05:29,689 --> 00:05:28,139

search and rescue and I like to go

115

00:05:32,510 --> 00:05:29,699

camping and stuff like that all the time

116

00:05:35,629 --> 00:05:32,520

outdoors guy and I was on the search and

117

00:05:37,010 --> 00:05:35,639

rescue team so I graduated and I kind of

118

00:05:38,510 --> 00:05:37,020

kicked around for a while and I you know

119

00:05:40,430 --> 00:05:38,520

what

120

00:05:42,230 --> 00:05:40,440

um and I was an exchange student right

121

00:05:44,090 --> 00:05:42,240

after high school I went to Australia so

122

00:05:46,010 --> 00:05:44,100

it kind of wetted my appetite to travel

123

00:05:48,110 --> 00:05:46,020

so I said you know what I'm going to

124

00:05:49,790 --> 00:05:48,120

join the Navy and go see the world and

125

00:05:52,670 --> 00:05:49,800

if I like it I'll stay and if I don't

126

00:05:54,110 --> 00:05:52,680

I'll go back to college or something

127

00:05:56,870 --> 00:05:54,120

and that's how that's how I ended up

128

00:05:59,629 --> 00:05:56,880

joining and I'm happy I did I'll tell

129

00:06:02,749 --> 00:05:59,639

you that had an awesome career

130

00:06:05,870 --> 00:06:02,759

when you join did you specifically seek

131

00:06:06,590 --> 00:06:05,880

out the radar department or were there

132

00:06:07,610 --> 00:06:06,600

other

133

00:06:11,450 --> 00:06:07,620

um

134

00:06:14,930 --> 00:06:11,460

kind of considering first how did you

135

00:06:16,310 --> 00:06:14,940

end up well you know when when a person

136

00:06:18,770 --> 00:06:16,320

goes into

137

00:06:21,230 --> 00:06:18,780

um the Navy into boot camp you're that

138

00:06:23,749 --> 00:06:21,240

person is evaluated from the start based

139

00:06:25,249 --> 00:06:23,759

on your education level and um all kinds

140

00:06:27,350 --> 00:06:25,259

of stuff in your performance and boot

141

00:06:28,909 --> 00:06:27,360

camp and everything and at the end of

142

00:06:30,409 --> 00:06:28,919

all that you're offered some choices so

143

00:06:33,409 --> 00:06:30,419

what do you want to do

144

00:06:35,450 --> 00:06:33,419

and at that point I did choose um the

145

00:06:37,730 --> 00:06:35,460

operation specialist rating it sounded

146

00:06:40,430 --> 00:06:37,740

very interesting to me and I pursued it

147

00:06:43,070 --> 00:06:40,440

and I ended up going to operations

148

00:06:47,090 --> 00:06:43,080

specialist a school right out of boot

149

00:06:48,170 --> 00:06:47,100

camp and it was during the height of the

150

00:06:48,890 --> 00:06:48,180

Reagan

151  
00:06:51,290 --> 00:06:48,900  
um

152  
00:06:52,790 --> 00:06:51,300  
build up and there was a three classes

153  
00:06:56,450 --> 00:06:52,800  
going on and there was two day classes

154  
00:06:58,430 --> 00:06:56,460  
and night classes 90 kids 90 of us

155  
00:07:00,529 --> 00:06:58,440  
and

156  
00:07:02,029 --> 00:07:00,539  
there was a thing called the honor grad

157  
00:07:04,249 --> 00:07:02,039  
and if you got the undergrad position

158  
00:07:06,230 --> 00:07:04,259  
you got to pick your orders were you

159  
00:07:07,550 --> 00:07:06,240  
what ship you got to or where you're you

160  
00:07:09,529 --> 00:07:07,560  
know where you're gonna go

161  
00:07:11,570 --> 00:07:09,539  
because the orders become available they

162  
00:07:14,330 --> 00:07:11,580  
disperse this out into the fleet

163  
00:07:16,370 --> 00:07:14,340

and I was able to graduate number one

164

00:07:19,670 --> 00:07:16,380

out of 90 people

165

00:07:23,029 --> 00:07:19,680

wow I got I got to choose orders and I

166

00:07:24,770 --> 00:07:23,039

chose the Vincennes out of um San Diego

167

00:07:26,089 --> 00:07:24,780

cg-49

168

00:07:30,710 --> 00:07:26,099

and

169

00:07:32,089 --> 00:07:30,720

have to I mean since I brought it up it

170

00:07:33,469 --> 00:07:32,099

was my very first deployment because

171

00:07:35,390 --> 00:07:33,479

there's people listening that are going

172

00:07:38,270 --> 00:07:35,400

to wonder

173

00:07:40,430 --> 00:07:38,280

um had nothing to do with it

174

00:07:41,510 --> 00:07:40,440

you know I was I was there and I was

175

00:07:43,129 --> 00:07:41,520

standing right because my general

176

00:07:45,589 --> 00:07:43,139

quarter station had me right behind the

177

00:07:47,029 --> 00:07:45,599

captain on a station called jobs it was

178

00:07:48,770 --> 00:07:47,039

a navigation station

179

00:07:51,710 --> 00:07:48,780

and I was there right behind him when he

180

00:07:54,290 --> 00:07:51,720

turned the key to shoot down the Airbus

181

00:07:56,029 --> 00:07:54,300

and that that moment that moment changed

182

00:07:58,189 --> 00:07:56,039

me because I decided then I was going to

183

00:08:00,409 --> 00:07:58,199

become the best damn air defense watch

184

00:08:01,909 --> 00:08:00,419

standard the Navy's ever produced

185

00:08:03,469 --> 00:08:01,919

because I never wanted to see that

186

00:08:06,710 --> 00:08:03,479

happen again

187

00:08:08,930 --> 00:08:06,720

so I dedicated my life to protecting

188

00:08:11,870 --> 00:08:08,940

commercial airliners

189

00:08:13,670 --> 00:08:11,880

wow

190

00:08:17,749 --> 00:08:13,680

um so you kind of got thrown to the deep

191

00:08:21,249 --> 00:08:17,759

end pretty quick it sounds like yeah

192

00:08:25,189 --> 00:08:21,259

did so you're working in this Division

193

00:08:27,409 --> 00:08:25,199

and you're you're now in it so so when

194

00:08:31,430 --> 00:08:27,419

did you officially become someone that's

195

00:08:32,870 --> 00:08:31,440

you know full on doing you know radar uh

196

00:08:34,670 --> 00:08:32,880

instrumentation

197

00:08:35,870 --> 00:08:34,680

uh you're you know from the from the

198

00:08:38,329 --> 00:08:35,880

moment you first joined you're doing

199

00:08:40,250 --> 00:08:38,339

radar I mean you got usually if you're

200

00:08:42,649 --> 00:08:40,260

not porting starboard which is you know

201  
00:08:44,389 --> 00:08:42,659  
eight on eight off eight on it oh it

202  
00:08:46,250 --> 00:08:44,399  
never stops or there's three sections

203  
00:08:48,170 --> 00:08:46,260  
but when you're up in combat information

204  
00:08:51,050 --> 00:08:48,180  
center you are sitting behind a radar

205  
00:08:52,610 --> 00:08:51,060  
scope usually yeah and the way it's set

206  
00:08:54,710 --> 00:08:52,620  
up you got the surface side and you got

207  
00:08:56,990 --> 00:08:54,720  
the errors side that's kind of separated

208  
00:08:58,550 --> 00:08:57,000  
but we talked to each other on the

209  
00:09:00,290 --> 00:08:58,560  
common net

210  
00:09:02,570 --> 00:09:00,300  
and so we can coordinate stuff

211  
00:09:04,610 --> 00:09:02,580  
especially the front table where the

212  
00:09:06,470 --> 00:09:04,620  
Tactical action officer and the captain

213  
00:09:08,030 --> 00:09:06,480

sit so they can coordinate everything

214

00:09:09,590 --> 00:09:08,040

and fight the ship if they have to fight

215

00:09:11,990 --> 00:09:09,600

the strike room

216

00:09:15,230 --> 00:09:12,000

so from the moment you arrive you are

217

00:09:16,850 --> 00:09:15,240

operating radar and one of the reasons

218

00:09:18,230 --> 00:09:16,860

why I chose the Vincennes because it was

219

00:09:19,070 --> 00:09:18,240

one of the first ships with the Spy

220

00:09:25,610 --> 00:09:19,080

system

221

00:09:28,610 --> 00:09:25,620

so all three of my ships in the Navy

222

00:09:31,370 --> 00:09:28,620

were spy ships so I had when the Tic Tac

223

00:09:33,769 --> 00:09:31,380

encounters went down I had 15 and a half

224

00:09:36,410 --> 00:09:33,779

years of actual sea time behind that

225

00:09:38,090 --> 00:09:36,420

radar system so that by the time you got

226

00:09:39,949 --> 00:09:38,100

to do that when I went at the combat

227

00:09:42,230 --> 00:09:39,959

information center and we were getting

228

00:09:43,670 --> 00:09:42,240

ready it was several days before we were

229

00:09:45,590 --> 00:09:43,680

going to do a major air defense exercise

230

00:09:47,449 --> 00:09:45,600

off the coast and the Air Wing wasn't

231

00:09:50,269 --> 00:09:47,459

even out there with us yet

232

00:09:52,970 --> 00:09:50,279

and we'd seen these weird contacts or up

233

00:09:56,030 --> 00:09:52,980

off um Catalina Island and they came

234

00:09:57,970 --> 00:09:56,040

down from lower low earth over about 80

235

00:10:00,230 --> 00:09:57,980

000 feet stationed at 28 000 feet

236

00:10:02,570 --> 00:10:00,240

tracked through our operation area and

237

00:10:04,250 --> 00:10:02,580

all faded off the radar on all the ships

238

00:10:07,329 --> 00:10:04,260

that were out there right up right above

239

00:10:10,430 --> 00:10:07,339

Guadalupe island off of Mexico well um

240

00:10:13,009 --> 00:10:10,440

we're moving all over the operating area

241

00:10:14,750 --> 00:10:13,019

and these things all disappeared off the

242

00:10:16,910 --> 00:10:14,760

the same spot coming through for a

243

00:10:18,350 --> 00:10:16,920

second Kevin go ahead

244

00:10:20,509 --> 00:10:18,360

um what I really want to hear is

245

00:10:22,310 --> 00:10:20,519

something that that I don't know that

246

00:10:24,230 --> 00:10:22,320

you've kind of spoken to

247

00:10:26,990 --> 00:10:24,240

um before which is

248

00:10:29,030 --> 00:10:27,000

um I'm curious the emotional timeline

249

00:10:30,350 --> 00:10:29,040

well even let me back up just a beat

250

00:10:33,949 --> 00:10:30,360

before then

251  
00:10:34,670 --> 00:10:33,959  
um before the Tic Tac encounter

252  
00:10:38,030 --> 00:10:34,680  
um

253  
00:10:40,790 --> 00:10:38,040  
what was your opinion on UFOs uaps

254  
00:10:42,650 --> 00:10:40,800  
aliens what was your your take on that

255  
00:10:44,870 --> 00:10:42,660  
did you you know

256  
00:10:48,829 --> 00:10:44,880  
I was probably the least likely person

257  
00:10:52,370 --> 00:10:48,839  
to ever find these on radar

258  
00:10:54,949 --> 00:10:52,380  
um I wasn't I'd never seen any on radar

259  
00:10:57,410 --> 00:10:54,959  
I'd never seen anything anomalous in my

260  
00:10:58,670 --> 00:10:57,420  
entire time in the Navy not that I was

261  
00:11:01,009 --> 00:10:58,680  
close-minded to it I've been listening

262  
00:11:03,050 --> 00:11:01,019  
to Coast to Coast AM since I can

263  
00:11:04,970 --> 00:11:03,060

remember you know for many many many

264

00:11:08,150 --> 00:11:04,980

many years with Art Bell

265

00:11:10,550 --> 00:11:08,160

so I've always had an interest

266

00:11:13,069 --> 00:11:10,560

um but I was never a UFO guy especially

267

00:11:14,690 --> 00:11:13,079

with my job I had to be pretty sober and

268

00:11:16,490 --> 00:11:14,700

straight stick when it came to radar

269

00:11:20,210 --> 00:11:16,500

operation right and

270

00:11:21,050 --> 00:11:20,220

get the job done so this was a first for

271

00:11:23,269 --> 00:11:21,060

me

272

00:11:24,350 --> 00:11:23,279

as I'm sure it was for everyone else or

273

00:11:26,509 --> 00:11:24,360

a lot

274

00:11:28,329 --> 00:11:26,519

sure everything else has stood around

275

00:11:31,310 --> 00:11:28,339

stunned when it happened

276

00:11:33,250 --> 00:11:31,320

you were open you were you were kind of

277

00:11:35,389 --> 00:11:33,260

interested

278

00:11:37,250 --> 00:11:35,399

and when it's right in your face you

279

00:11:40,190 --> 00:11:37,260

can't you don't have any other choice to

280

00:11:42,350 --> 00:11:40,200

be open to it now right so so let me ask

281

00:11:44,750 --> 00:11:42,360

you now when I take you to the moment

282

00:11:47,150 --> 00:11:44,760

that you're looking at your radar

283

00:11:48,470 --> 00:11:47,160

yeah and something shows up and right

284

00:11:50,509 --> 00:11:48,480

away you're thinking okay these are

285

00:11:52,850 --> 00:11:50,519

contacts that we have I'm guessing

286

00:11:54,230 --> 00:11:52,860

you're like is this one of the ours or

287

00:11:57,829 --> 00:11:54,240

is this

288

00:12:00,410 --> 00:11:57,839

um you know an ally or Worse what take

289

00:12:03,829 --> 00:12:00,420

me through the discovery of that first

290

00:12:05,509 --> 00:12:03,839

of all are you are you seated that

291

00:12:08,269 --> 00:12:05,519

moment what time was it

292

00:12:10,970 --> 00:12:08,279

the the way I was well not I but the way

293

00:12:13,310 --> 00:12:10,980

we were processing this within the um

294

00:12:16,610 --> 00:12:13,320

internal confines of the ship

295

00:12:18,350 --> 00:12:16,620

is we at the time thought it was totally

296

00:12:20,030 --> 00:12:18,360

civilian related and they didn't even

297

00:12:22,310 --> 00:12:20,040

know we were down here

298

00:12:24,050 --> 00:12:22,320

however they were if if that was the

299

00:12:25,970 --> 00:12:24,060

case it was supposed to have been

300

00:12:28,250 --> 00:12:25,980

published in the notice to air Mariners

301  
00:12:29,449 --> 00:12:28,260  
so we okay that's them and they're doing

302  
00:12:31,550 --> 00:12:29,459  
their thing and we don't need to worry

303  
00:12:33,410 --> 00:12:31,560  
about it that was missing

304  
00:12:35,329 --> 00:12:33,420  
however comma

305  
00:12:36,889 --> 00:12:35,339  
um we weren't that concerned because we

306  
00:12:38,569 --> 00:12:36,899  
all the ships out there were tracking

307  
00:12:40,730 --> 00:12:38,579  
them on The Radars and we were reporting

308  
00:12:43,129 --> 00:12:40,740  
the data back to the beach

309  
00:12:44,690 --> 00:12:43,139  
so whoever wanted it had it back on the

310  
00:12:46,069 --> 00:12:44,700  
beach

311  
00:12:50,170 --> 00:12:46,079  
and

312  
00:12:52,730 --> 00:12:50,180  
um there was no air there was no

313  
00:12:53,690 --> 00:12:52,740

aircraft on the Nimitz we weren't flying

314

00:12:56,509 --> 00:12:53,700

yet

315

00:12:59,990 --> 00:12:56,519

and they came off they descended from

316

00:13:02,389 --> 00:13:00,000

low low earth orbit 80 000 feet down to

317

00:13:03,889 --> 00:13:02,399

28 000 feet track South right through

318

00:13:07,430 --> 00:13:03,899

the operating area

319

00:13:09,769 --> 00:13:07,440

until the day the night um

320

00:13:11,750 --> 00:13:09,779

the early morning of the 14th Air Wing

321

00:13:12,889 --> 00:13:11,760

flags and bar 13th Air Wing flies on

322

00:13:15,410 --> 00:13:12,899

board and we're getting ready for their

323

00:13:17,449 --> 00:13:15,420

defense exercise on the 14th

324

00:13:19,490 --> 00:13:17,459

and that's when I be Kevin day became

325

00:13:20,750 --> 00:13:19,500

concerned because I didn't want to run

326

00:13:22,310 --> 00:13:20,760

into one of these things so Captain

327

00:13:23,629 --> 00:13:22,320

Smith comes down to combat I said Hey

328

00:13:26,269 --> 00:13:23,639

sir you know we've been tracking these

329

00:13:28,490 --> 00:13:26,279

things I highly recommend we intercept

330

00:13:32,449 --> 00:13:28,500

one I don't want to run into one I don't

331

00:13:37,069 --> 00:13:34,190

um so you're saying tracking these

332

00:13:39,850 --> 00:13:37,079

things in your mind what are these

333

00:13:43,670 --> 00:13:39,860

things have you made the crossover to

334

00:13:45,949 --> 00:13:43,680

USD no I'm no no no not not even close

335

00:13:48,829 --> 00:13:45,959

I'm thinking there's some civilian

336

00:13:50,329 --> 00:13:48,839

uh test project of some kind

337

00:13:52,210 --> 00:13:50,339

because you got to remember they had

338

00:13:55,129 --> 00:13:52,220

they're going real estate

339

00:13:57,410 --> 00:13:55,139

the only thing weird about them

340

00:13:59,210 --> 00:13:57,420

what was that I said uh just letting the

341

00:14:00,290 --> 00:13:59,220

listeners know that that's your wind

342

00:14:04,069 --> 00:14:00,300

chimes

343

00:14:06,230 --> 00:14:04,079

um okay yeah clanking away there was

344

00:14:08,150 --> 00:14:06,240

nothing UAP about him at the time you

345

00:14:09,829 --> 00:14:08,160

got to remember these we were off the

346

00:14:13,629 --> 00:14:09,839

coast they were going real slow and they

347

00:14:17,870 --> 00:14:16,129

we technically call them unknown error

348

00:14:19,490 --> 00:14:17,880

contacts that's the actual name for them

349

00:14:21,410 --> 00:14:19,500

okay and they're moving slow enough that

350

00:14:23,569 --> 00:14:21,420

you thought at that moment that these

351

00:14:25,370 --> 00:14:23,579

are these could be balloons right

352

00:14:26,930 --> 00:14:25,380

I never thought they were balloons

353

00:14:29,449 --> 00:14:26,940

personally

354

00:14:31,610 --> 00:14:29,459

what did you think that it's moving well

355

00:14:34,069 --> 00:14:31,620

because I had good radar I had the

356

00:14:35,449 --> 00:14:34,079

highest possible track quality on these

357

00:14:37,610 --> 00:14:35,459

things the entire time the highest

358

00:14:39,650 --> 00:14:37,620

possible radar quality if you will

359

00:14:41,449 --> 00:14:39,660

because before we even brought down we

360

00:14:42,889 --> 00:14:41,459

even brought down the systems just in

361

00:14:44,990 --> 00:14:42,899

case it was a

362

00:14:46,310 --> 00:14:45,000

malfunction and all the ships brought

363

00:14:47,689 --> 00:14:46,320

down the system we brought all the

364

00:14:50,030 --> 00:14:47,699

systems back up and we were tracking

365

00:14:52,790 --> 00:14:50,040

them even better now so you re-bit this

366

00:14:54,889 --> 00:14:52,800

is reboot booted the system tracks the

367

00:14:57,650 --> 00:14:54,899

over the course of the if I had to add

368

00:14:59,710 --> 00:14:57,660

up between around the the 10th and say

369

00:15:02,329 --> 00:14:59,720

the 20th 10 days

370

00:15:03,710 --> 00:15:02,339

all the different groups we've that we

371

00:15:05,750 --> 00:15:03,720

tracked it was about 100 of these

372

00:15:08,210 --> 00:15:05,760

contacts total if you added it all they

373

00:15:10,009 --> 00:15:08,220

appear between five and ten at a time on

374

00:15:11,449 --> 00:15:10,019

different days different times if you

375

00:15:13,310 --> 00:15:11,459

added them all up they're about 100 of

376

00:15:15,410 --> 00:15:13,320

them okay so maybe that maybe the

377

00:15:18,470 --> 00:15:15,420

balloon thing was a mick West

378

00:15:20,870 --> 00:15:18,480

um theory that snuck in yeah well you

379

00:15:23,329 --> 00:15:20,880

know what my mind's opened okay it's a

380

00:15:24,769 --> 00:15:23,339

possible three or what happened next uh

381

00:15:27,170 --> 00:15:24,779

kind of rolls out pretty much all of

382

00:15:28,910 --> 00:15:27,180

that anyway so you've got these context

383

00:15:31,250 --> 00:15:28,920

you want to go take a look so at this

384

00:15:33,650 --> 00:15:31,260

moment it's still possibly Prozac

385

00:15:36,530 --> 00:15:33,660

right okay so that's what I'm thinking

386

00:15:37,910 --> 00:15:36,540

yeah Mr want to run into one safety of

387

00:15:40,009 --> 00:15:37,920

flight I'm thinking you know I'm

388

00:15:42,650 --> 00:15:40,019

concerned about safety or flight and

389

00:15:44,210 --> 00:15:42,660

there's about to be was this before or

390

00:15:46,009 --> 00:15:44,220

after actually you know what I think we

391

00:15:49,310 --> 00:15:46,019

missed a beat because it was the night

392

00:15:52,189 --> 00:15:49,320

before when you reached out to Sean

393

00:15:53,689 --> 00:15:52,199

Cahill is that correct and said hey get

394

00:15:56,449 --> 00:15:53,699

the big eyes

395

00:15:58,269 --> 00:15:56,459

on this and oh yeah we were he was up he

396

00:16:01,790 --> 00:15:58,279

was standing watch on the bridge

397

00:16:03,290 --> 00:16:01,800

let's talk about that even me I would I

398

00:16:05,650 --> 00:16:03,300

would go up to combat and I'd get the

399

00:16:08,750 --> 00:16:05,660

bearing in range to a group

400

00:16:11,269 --> 00:16:08,760

and I'd find him on I'd find him on the

401  
00:16:13,129 --> 00:16:11,279  
uh big eye binoculars oh there it is but

402  
00:16:14,810 --> 00:16:13,139  
the the ship watch standards were seeing

403  
00:16:16,910 --> 00:16:14,820  
them all the time of course

404  
00:16:19,370 --> 00:16:16,920  
but I was down a combat information

405  
00:16:20,689 --> 00:16:19,380  
center most of the time so yeah Sean was

406  
00:16:22,730 --> 00:16:20,699  
getting

407  
00:16:25,250 --> 00:16:22,740  
um feeds on where they were when he was

408  
00:16:28,850 --> 00:16:25,260  
standing watch yep and he said something

409  
00:16:31,430 --> 00:16:28,860  
to the effect by the way John Sean Sean

410  
00:16:34,370 --> 00:16:31,440  
Cahill is great people by the way Sean

411  
00:16:35,629 --> 00:16:34,380  
is the man Sean is yes definitely good

412  
00:16:38,090 --> 00:16:35,639  
people

413  
00:16:40,910 --> 00:16:38,100

um so Sean said something to the effect

414

00:16:42,889 --> 00:16:40,920

of what am I looking at

415

00:16:45,110 --> 00:16:42,899

and he was a little more colorful I

416

00:16:46,610 --> 00:16:45,120

think than that when he was looking up

417

00:16:49,009 --> 00:16:46,620

because you didn't tell him anything you

418

00:16:52,430 --> 00:16:49,019

said hey can you get eyes on this tell

419

00:16:54,829 --> 00:16:52,440

me what his his um communique was to you

420

00:16:56,990 --> 00:16:54,839

uh you know I probably don't remember

421

00:16:59,150 --> 00:16:57,000

well enough to sit here and tell lies

422

00:17:01,550 --> 00:16:59,160

about it now but

423

00:17:03,470 --> 00:17:01,560

you know at the time I think everyone

424

00:17:06,530 --> 00:17:03,480

was thinking there was these were still

425

00:17:08,990 --> 00:17:06,540

prosaic until the moment when Commander

426

00:17:11,630 --> 00:17:09,000

fast Eagle fight intercepted

427

00:17:14,270 --> 00:17:11,640

that's when everything changed that

428

00:17:16,490 --> 00:17:14,280

moment everything changed okay so let's

429

00:17:18,169 --> 00:17:16,500

take now let's move back to Captain so

430

00:17:20,510 --> 00:17:18,179

you you tell your captain hey I think

431

00:17:21,470 --> 00:17:20,520

it's a good idea to get on this and he

432

00:17:23,990 --> 00:17:21,480

says

433

00:17:27,110 --> 00:17:24,000

do it you're right Senior Chief

434

00:17:28,429 --> 00:17:27,120

intercept and Visually ID vid it so I'm

435

00:17:30,190 --> 00:17:28,439

like hell yeah because that's what I

436

00:17:32,630 --> 00:17:30,200

wanted all along right so

437

00:17:33,590 --> 00:17:32,640

during all this of course the air Wing's

438

00:17:35,810 --> 00:17:33,600

launching off because we're getting

439

00:17:38,150 --> 00:17:35,820

ready to set up our for the air defense

440

00:17:40,850 --> 00:17:38,160

exercise I was going to pre-position

441

00:17:42,950 --> 00:17:40,860

uh different flights on these combat Air

442

00:17:43,490 --> 00:17:42,960

Patrol points between

443

00:17:45,470 --> 00:17:43,500

um

444

00:17:47,029 --> 00:17:45,480

between us out here and the ocean and

445

00:17:48,890 --> 00:17:47,039

the notional threat on the beach right

446

00:17:51,230 --> 00:17:48,900

we're going to play war

447

00:17:52,610 --> 00:17:51,240

so fast equal zero one happens the

448

00:17:54,230 --> 00:17:52,620

launch it was happened to be Commander

449

00:17:55,909 --> 00:17:54,240

fraver he always did that he was that

450

00:17:57,590 --> 00:17:55,919

kind of guy another one of the best damn

451  
00:17:59,870 --> 00:17:57,600  
Pilots any of you've ever produced by

452  
00:18:02,330 --> 00:17:59,880  
the way so we can't control them we said

453  
00:18:05,750 --> 00:18:02,340  
Can X exercise real real tasking he says

454  
00:18:07,190 --> 00:18:05,760  
Roger so we we Vector him I'm standing

455  
00:18:09,289 --> 00:18:07,200  
you know we got the

456  
00:18:10,970 --> 00:18:09,299  
the air side Everyone's Watching radar

457  
00:18:12,830 --> 00:18:10,980  
but I'm the senior guy and I'm doing

458  
00:18:14,990 --> 00:18:12,840  
training and everything analysis all

459  
00:18:16,370 --> 00:18:15,000  
that so I'm on a long I'm on a headset

460  
00:18:18,409 --> 00:18:16,380  
with a long cord and I'm walking in

461  
00:18:20,690 --> 00:18:18,419  
between watch stations and the actual

462  
00:18:23,029 --> 00:18:20,700  
air controller is right below me right

463  
00:18:24,950 --> 00:18:23,039

so he takes control of them and we point

464

00:18:27,890 --> 00:18:24,960

him to where this the closest object is

465

00:18:29,570 --> 00:18:27,900

and as soon as he's in the this what we

466

00:18:31,310 --> 00:18:29,580

call the merge plot position which is

467

00:18:33,110 --> 00:18:31,320

the same object on the radar and the

468

00:18:34,730 --> 00:18:33,120

same vertical piece of sky

469

00:18:37,850 --> 00:18:34,740

that object or whatever the hell it was

470

00:18:40,070 --> 00:18:37,860

Dean drops from 28 000 feet down to the

471

00:18:42,890 --> 00:18:40,080

surface of the water I found out the

472

00:18:46,930 --> 00:18:42,900

morning the next day in .78 seconds

473

00:18:49,390 --> 00:18:46,940

wow less than a second no Sonic booms

474

00:18:52,130 --> 00:18:49,400

simultaneously while fravers out there

475

00:18:55,370 --> 00:18:52,140

basically playing with this thing dog

476

00:18:57,049 --> 00:18:55,380

fighting almost uh yeah yeah so now when

477

00:18:59,029 --> 00:18:57,059

you're seeing this do that

478

00:19:00,650 --> 00:18:59,039

I just I'm really curious the moment

479

00:19:02,930 --> 00:19:00,660

when you go

480

00:19:06,049 --> 00:19:02,940

oh I guess I can swear on this oh

481

00:19:09,710 --> 00:19:06,059

right right then right then right and

482

00:19:11,630 --> 00:19:09,720

then and even more amazing right so he

483

00:19:13,190 --> 00:19:11,640

gets down there he chases it down and

484

00:19:15,049 --> 00:19:13,200

the thing like you said does a little

485

00:19:16,549 --> 00:19:15,059

dog fight with him and all of a sudden

486

00:19:19,610 --> 00:19:16,559

this object whatever it was and this is

487

00:19:21,110 --> 00:19:19,620

his words not mine it disappears right

488

00:19:23,270 --> 00:19:21,120

in front of him

489

00:19:25,250 --> 00:19:23,280

that's that's what he said

490

00:19:27,650 --> 00:19:25,260

and we're sitting on back on the ships

491

00:19:29,210 --> 00:19:27,660

and we're watching this object and it it

492

00:19:32,870 --> 00:19:29,220

it disappeared right in front of him and

493

00:19:35,090 --> 00:19:32,880

reappeared on Fast Eagle zero ones that

494

00:19:36,650 --> 00:19:35,100

assigned count combat Air Patrol station

495

00:19:39,350 --> 00:19:36,660

and remember there I think we had seven

496

00:19:41,870 --> 00:19:39,360

of them but it went to theirs to their

497

00:19:43,730 --> 00:19:41,880

cap yeah they didn't go to anyone else's

498

00:19:45,049 --> 00:19:43,740

it went to their assigned are you

499

00:19:47,510 --> 00:19:45,059

hearing on your colleagues are you

500

00:19:49,789 --> 00:19:47,520

hearing favor as well yeah we haven't

501

00:19:51,650 --> 00:19:49,799

been the speaker in fact when he did the

502

00:19:53,810 --> 00:19:51,660

intercept when he when he became to the

503

00:19:56,450 --> 00:19:53,820

merge plot on the speaker all of a

504

00:19:59,390 --> 00:19:56,460

sudden we hear oh my God oh my God I'm

505

00:20:03,049 --> 00:19:59,400

engaged I'm engaged just like that

506

00:20:08,770 --> 00:20:03,059

yeah so at that moment he was shocked

507

00:20:15,350 --> 00:20:11,930

so are you thinking at this moment oh my

508

00:20:18,409 --> 00:20:15,360

God we're tracking one of these uaps

509

00:20:20,270 --> 00:20:18,419

which I probably knew as a UFO not UAP

510

00:20:22,970 --> 00:20:20,280

yeah

511

00:20:26,090 --> 00:20:22,980

um oh my God we have one of these things

512

00:20:27,830 --> 00:20:26,100

so were you kind of when you started to

513

00:20:29,690 --> 00:20:27,840

suspect that that was happening was was

514

00:20:32,930 --> 00:20:29,700

you know were you just kind of going oh

515

00:20:34,430 --> 00:20:32,940

God please let this be something wild

516

00:20:35,870 --> 00:20:34,440

like this were you thinking were you

517

00:20:38,630 --> 00:20:35,880

hoping a little bit right before it

518

00:20:40,669 --> 00:20:38,640

became clear that it was something else

519

00:20:42,770 --> 00:20:40,679

you know what I was thinking probably at

520

00:20:44,270 --> 00:20:42,780

the moment I was thinking oh dear God

521

00:20:45,070 --> 00:20:44,280

please don't let this thing get mad at

522

00:20:50,210 --> 00:20:45,080

us

523

00:20:53,570 --> 00:20:51,590

no we're out there in a training

524

00:20:55,430 --> 00:20:53,580

environment with no ornaments at all

525

00:20:57,590 --> 00:20:55,440

because we don't want to kill people and

526

00:20:59,510 --> 00:20:57,600

Break Stuff accidentally right so in

527

00:21:02,210 --> 00:20:59,520

training we never have that stuff unless

528

00:21:04,070 --> 00:21:02,220

we're doing a scheduled fireworks or

529

00:21:05,990 --> 00:21:04,080

something right it's different we're not

530

00:21:08,330 --> 00:21:06,000

doing that we're out here

531

00:21:10,909 --> 00:21:08,340

doing the air defense exercise

532

00:21:12,909 --> 00:21:10,919

so even if we had wanted to defend

533

00:21:16,310 --> 00:21:12,919

ourselves

534

00:21:19,909 --> 00:21:16,320

and so it's displaying such an awesome

535

00:21:21,950 --> 00:21:19,919

level of power that you quickly realize

536

00:21:24,169 --> 00:21:21,960

um you know we've shown up to a uh a

537

00:21:28,190 --> 00:21:24,179

gunfight with a knife there you go good

538

00:21:31,730 --> 00:21:28,200

way to put it yep yeah okay and then so

539

00:21:33,950 --> 00:21:31,740

now it is what it is now it's kind of

540

00:21:36,409 --> 00:21:33,960

like okay so at this point on I'm just

541

00:21:38,210 --> 00:21:36,419

curious what is your emotional like what

542

00:21:40,190 --> 00:21:38,220

is a timeline so you get that how are

543

00:21:42,590 --> 00:21:40,200

you feeling emotionally are you telling

544

00:21:44,149 --> 00:21:42,600

are you you know conversing with with

545

00:21:45,529 --> 00:21:44,159

your other operators and stuff or with

546

00:21:48,230 --> 00:21:45,539

the captain is everyone kind of on the

547

00:21:51,049 --> 00:21:48,240

page that oh my God he's now engaged

548

00:21:52,730 --> 00:21:51,059

with something that's out of the the

549

00:21:55,370 --> 00:21:52,740

book I forgot what is the name of the

550

00:21:57,649 --> 00:21:55,380

book that has all the aeronautical um

551

00:21:59,450 --> 00:21:57,659

James pennison talks about it there's a

552

00:22:01,010 --> 00:21:59,460

book that has all of them like you're

553

00:22:03,830 --> 00:22:01,020

pretty well versed with everything every

554

00:22:08,090 --> 00:22:03,840

kind of error there's lots of books yeah

555

00:22:10,370 --> 00:22:08,100

yeah so when it's no longer in that book

556

00:22:12,049 --> 00:22:10,380

what what are you what do you guys what

557

00:22:13,850 --> 00:22:12,059

is a communication like the private

558

00:22:15,470 --> 00:22:13,860

communication between you you guys as

559

00:22:17,570 --> 00:22:15,480

this is going on the stuff that you

560

00:22:21,049 --> 00:22:17,580

cover the mic and go blah blah blah blah

561

00:22:23,810 --> 00:22:21,059

holy well you know what um

562

00:22:24,669 --> 00:22:23,820

to be totally honest about it

563

00:22:26,930 --> 00:22:24,679

um

564

00:22:28,490 --> 00:22:26,940

although we were all highly trained in

565

00:22:31,010 --> 00:22:28,500

what we did and stuff all of us had our

566

00:22:32,990 --> 00:22:31,020

individuals Specialties and jobs

567

00:22:33,890 --> 00:22:33,000

beyond that we were just regular normal

568

00:22:36,409 --> 00:22:33,900

people

569

00:22:38,090 --> 00:22:36,419

with normal we take kids to school get

570

00:22:40,130 --> 00:22:38,100

them there on time and go to work try to

571

00:22:41,270 --> 00:22:40,140

get there on time or just like anyone

572

00:22:43,730 --> 00:22:41,280

else right

573

00:22:46,370 --> 00:22:43,740

so our reaction after this was probably

574

00:22:47,990 --> 00:22:46,380

very similar to the reaction on a bus

575

00:22:51,649 --> 00:22:48,000

full of people

576

00:22:53,270 --> 00:22:51,659

that you know the average is any other

577

00:22:55,310 --> 00:22:53,280

average person seeing these things you

578

00:22:57,529 --> 00:22:55,320

know the post the post um

579

00:23:00,370 --> 00:22:57,539

effect of it if you will the post

580

00:23:02,510 --> 00:23:00,380

effects Yes

581

00:23:06,590 --> 00:23:02,520

actually yeah the post effects about

582

00:23:09,590 --> 00:23:06,600

this is pretty cool stuff yeah so

583

00:23:12,610 --> 00:23:09,600

um so as as like Dr John Mack calls it

584

00:23:15,669 --> 00:23:12,620

ontological shock

585

00:23:19,789 --> 00:23:15,679

Molly Davis yeah

586

00:23:21,409 --> 00:23:19,799

and into that and especially for you

587

00:23:24,610 --> 00:23:21,419

guys I feel for you more than any other

588

00:23:28,010 --> 00:23:24,620

eyewitnesses on the planet because

589

00:23:30,710 --> 00:23:28,020

you're going through this shock

590

00:23:33,230 --> 00:23:30,720

defending indeed indeed if I could if I

591

00:23:34,850 --> 00:23:33,240

could stop either real quick and if if I

592

00:23:36,830 --> 00:23:34,860

do get the opportunity and I'm I'm

593

00:23:38,870 --> 00:23:36,840

called to serve and go before Congress

594

00:23:41,270 --> 00:23:38,880

and give my testimony what you just said

595

00:23:44,210 --> 00:23:41,280

is one of the key things I want to say

596

00:23:49,070 --> 00:23:46,490

when this thing happened and I went on

597

00:23:50,630 --> 00:23:49,080

and I went to DOD and I started screwing

598

00:23:52,909 --> 00:23:50,640

it all up because I couldn't really deal

599

00:23:54,770 --> 00:23:52,919

with this so I wrote I wrote that short

600

00:23:57,110 --> 00:23:54,780

story to see her and published it in

601  
00:23:58,490 --> 00:23:57,120  
sailor's Anthology just in case and I

602  
00:24:00,890 --> 00:23:58,500  
published it in the Library of Congress

603  
00:24:02,870 --> 00:24:00,900  
and in February 2009

604  
00:24:04,430 --> 00:24:02,880  
just in case this story ever became

605  
00:24:05,870 --> 00:24:04,440  
public that my little book would be

606  
00:24:07,070 --> 00:24:05,880  
proof it really happened and I went on

607  
00:24:09,710 --> 00:24:07,080  
with life

608  
00:24:11,270 --> 00:24:09,720  
and I started to change man I ended up

609  
00:24:13,370 --> 00:24:11,280  
in the wilderness out here if you can

610  
00:24:15,110 --> 00:24:13,380  
believe that I went from Top Gun DOD guy

611  
00:24:16,610 --> 00:24:15,120  
and I'm living in the freaking

612  
00:24:18,610 --> 00:24:16,620  
Wilderness and everyone around me is

613  
00:24:21,409 --> 00:24:18,620

like what in the hell happened to Kevin

614

00:24:23,690 --> 00:24:21,419

my entire family was convinced they had

615

00:24:26,570 --> 00:24:23,700

gone insane but what actually had

616

00:24:28,970 --> 00:24:26,580

happened to me is I became obsessed

617

00:24:30,890 --> 00:24:28,980

with this notion that I could find the

618

00:24:32,390 --> 00:24:30,900

source to a family gold mining claim the

619

00:24:34,430 --> 00:24:32,400

100 year old claim we still have in the

620

00:24:37,370 --> 00:24:34,440

family 160 Acres

621

00:24:40,190 --> 00:24:37,380

and boy howdy did I

622

00:24:42,590 --> 00:24:40,200

sorry I say I think I sent you my

623

00:24:45,470 --> 00:24:42,600

research you did I want to unpack this

624

00:24:47,390 --> 00:24:45,480

yeah well just to finish it off for

625

00:24:50,270 --> 00:24:47,400

those if there's anyone out there who

626  
00:24:53,270 --> 00:24:50,280  
still hasn't heard the Tic Tac encounter

627  
00:24:57,289 --> 00:24:53,280  
um at this point forever comes back

628  
00:25:00,409 --> 00:24:57,299  
commander fraver and he's he didn't have

629  
00:25:03,289 --> 00:25:00,419  
any recording devices uh to the level

630  
00:25:05,810 --> 00:25:03,299  
that that everyone was interested in in

631  
00:25:08,270 --> 00:25:05,820  
capturing footage of and so Chad

632  
00:25:09,350 --> 00:25:08,280  
Underwood he goes out he heads out and

633  
00:25:12,770 --> 00:25:09,360  
he gets

634  
00:25:17,149 --> 00:25:12,780  
the footage that we see now

635  
00:25:19,610 --> 00:25:17,159  
um so he's able to record that and now

636  
00:25:21,049 --> 00:25:19,620  
it's you guys have confirmation from

637  
00:25:23,930 --> 00:25:21,059  
what I understand the next day you were

638  
00:25:25,850 --> 00:25:23,940

able to see a snippet low grade because

639

00:25:27,830 --> 00:25:25,860

it was compressed it's supposed to be on

640

00:25:29,750 --> 00:25:27,840

the server so you could get it

641

00:25:31,070 --> 00:25:29,760

um and then there were there is and this

642

00:25:33,950 --> 00:25:31,080

has been going on forever the talk about

643

00:25:35,750 --> 00:25:33,960

a longer section of footage

644

00:25:38,269 --> 00:25:35,760

um but the thing I want to touch about

645

00:25:41,750 --> 00:25:38,279

before we get into the aftermath of this

646

00:25:43,370 --> 00:25:41,760

is um that you didn't see anyone come on

647

00:25:45,110 --> 00:25:43,380

board there's a lot of rumors of people

648

00:25:46,490 --> 00:25:45,120

like Men In Black someone all of a

649

00:25:49,070 --> 00:25:46,500

sudden shows up and takes the bricks as

650

00:25:53,269 --> 00:25:49,080

they call them takes the hard drives

651  
00:25:54,830 --> 00:25:53,279  
it just was gone it was removed from all

652  
00:25:58,010 --> 00:25:54,840  
the communications that you guys had

653  
00:25:59,450 --> 00:25:58,020  
even was removed correct

654  
00:26:01,909 --> 00:25:59,460  
um

655  
00:26:03,890 --> 00:26:01,919  
my my personal experience with what

656  
00:26:05,990 --> 00:26:03,900  
happened was the next morning because I

657  
00:26:08,330 --> 00:26:06,000  
was a major I was a primary message

658  
00:26:10,130 --> 00:26:08,340  
writer for the ship you know operational

659  
00:26:11,450 --> 00:26:10,140  
messages I would draft them and then I

660  
00:26:12,830 --> 00:26:11,460  
would route them up the chain of command

661  
00:26:14,269 --> 00:26:12,840  
the captain would release them they'd

662  
00:26:16,010 --> 00:26:14,279  
become message traffic

663  
00:26:17,269 --> 00:26:16,020

so I went up to combat

664

00:26:18,169 --> 00:26:17,279

um combat information instead of the

665

00:26:19,789 --> 00:26:18,179

next morning I was going to write an

666

00:26:20,870 --> 00:26:19,799

after action report on what happened the

667

00:26:23,330 --> 00:26:20,880

day before

668

00:26:25,789 --> 00:26:23,340

and the computer tech comes up I said

669

00:26:27,890 --> 00:26:25,799

hey uh hit after Voorhees I'd like to

670

00:26:29,930 --> 00:26:27,900

see the data on everything because so I

671

00:26:33,169 --> 00:26:29,940

can write a message like we always do

672

00:26:35,330 --> 00:26:33,179

and he pulls me aside real real calmly

673

00:26:37,789 --> 00:26:35,340

and he was emotional this is Gary Gary

674

00:26:38,990 --> 00:26:37,799

Voorhees yeah he was emotional I said

675

00:26:40,970 --> 00:26:39,000

what's wrong man

676  
00:26:43,370 --> 00:26:40,980  
he said you're not going to believe this

677  
00:26:45,110 --> 00:26:43,380  
here Chief I said what he said somebody

678  
00:26:46,850 --> 00:26:45,120  
came on board our ship last night and

679  
00:26:52,070 --> 00:26:46,860  
took everything

680  
00:26:52,080 --> 00:26:57,289  
why is this hitting you so hard Kevin

681  
00:27:03,649 --> 00:26:59,870  
it just brings back some cool memories

682  
00:27:06,049 --> 00:27:03,659  
and I'm so freaking blessed to have had

683  
00:27:07,430 --> 00:27:06,059  
this journey you won't even believe it

684  
00:27:11,510 --> 00:27:07,440  
and

685  
00:27:13,250 --> 00:27:11,520  
I say that I want to get back to the

686  
00:27:16,370 --> 00:27:13,260  
point I was making

687  
00:27:18,409 --> 00:27:16,380  
this thing changes you and it profoundly

688  
00:27:20,990 --> 00:27:18,419

changed me and I've sent in my research

689

00:27:22,669 --> 00:27:21,000

and that that just for the listeners uh

690

00:27:24,890 --> 00:27:22,679

NASA itself is interested in my

691

00:27:27,649 --> 00:27:24,900

geological research right off the coast

692

00:27:29,510 --> 00:27:27,659

out here in on in the kelmiopsis

693

00:27:32,870 --> 00:27:29,520

wilderness

694

00:27:34,850 --> 00:27:32,880

um it's ancient it's a 157 million year

695

00:27:36,769 --> 00:27:34,860

old um spreading arcs from the mid-ocean

696

00:27:38,570 --> 00:27:36,779

spreading arcs in this loaded full of

697

00:27:40,909 --> 00:27:38,580

rare Earth elements

698

00:27:42,710 --> 00:27:40,919

and I found it yeah I described it and I

699

00:27:44,450 --> 00:27:42,720

found it but anyway let me get back let

700

00:27:46,669 --> 00:27:44,460

me get back to my point real real quick

701  
00:27:48,529 --> 00:27:46,679  
real quick when this was happening I

702  
00:27:51,110 --> 00:27:48,539  
didn't know that I was being changing my

703  
00:27:52,850 --> 00:27:51,120  
fear is if there was a mass encounter

704  
00:27:54,529 --> 00:27:52,860  
and everybody on the planet started

705  
00:27:57,049 --> 00:27:54,539  
changing like Kevin they did and no one

706  
00:27:58,970 --> 00:27:57,059  
knew what the hell was happening that

707  
00:28:01,610 --> 00:27:58,980  
might not end so well

708  
00:28:04,370 --> 00:28:01,620  
that's a boy there needs to be education

709  
00:28:07,250 --> 00:28:04,380  
about this that's my message before

710  
00:28:09,470 --> 00:28:07,260  
Congress we need to start public

711  
00:28:11,570 --> 00:28:09,480  
education about what can happen if you

712  
00:28:13,970 --> 00:28:11,580  
contact these things and don't be afraid

713  
00:28:16,070 --> 00:28:13,980

because the contact will make you better

714

00:28:17,810 --> 00:28:16,080

you'll get new Inspirations you'll get

715

00:28:20,690 --> 00:28:17,820

new talents to go with it you'll get new

716

00:28:22,430 --> 00:28:20,700

Hub sessions you'll get new create it

717

00:28:23,990 --> 00:28:22,440

changes you in a better way but if you

718

00:28:26,630 --> 00:28:24,000

don't know it's happening

719

00:28:28,789 --> 00:28:26,640

it can end up not well for you like it

720

00:28:30,710 --> 00:28:28,799

has a many many many many people

721

00:28:32,630 --> 00:28:30,720

throughout time

722

00:28:35,630 --> 00:28:32,640

it didn't end up

723

00:28:36,950 --> 00:28:35,640

it's it's interesting for for me as

724

00:28:38,990 --> 00:28:36,960

someone who

725

00:28:40,390 --> 00:28:39,000

I've actually I'm emotional because it's

726

00:28:43,130 --> 00:28:40,400

important

727

00:28:45,409 --> 00:28:43,140

well you you were able to to kind of

728

00:28:46,909 --> 00:28:45,419

take it on in a way that if you're

729

00:28:48,890 --> 00:28:46,919

feeling this way and you're someone

730

00:28:51,350 --> 00:28:48,900

who's trained for emergency situations

731

00:28:53,750 --> 00:28:51,360

and and situations that are not planned

732

00:28:55,370 --> 00:28:53,760

that's that's all your your training is

733

00:28:57,409 --> 00:28:55,380

is for when the you know what hits the

734

00:28:59,090 --> 00:28:57,419

fan how to unplug it

735

00:29:01,130 --> 00:28:59,100

um or turn it down

736

00:29:03,470 --> 00:29:01,140

um then I get you being able to take in

737

00:29:05,149 --> 00:29:03,480

the weight of that for for me speaking

738

00:29:07,669 --> 00:29:05,159

for myself I'm someone who's never seen

739

00:29:09,610 --> 00:29:07,679

a UFO that I'm aware of

740

00:29:12,950 --> 00:29:09,620

um and um

741

00:29:14,690 --> 00:29:12,960

and I find that it's still it's the

742

00:29:16,789 --> 00:29:14,700

ultimate question you don't have to have

743

00:29:20,330 --> 00:29:16,799

been an experiencer

744

00:29:22,190 --> 00:29:20,340

um to to appreciate the fact that um you

745

00:29:23,690 --> 00:29:22,200

know we are not alone or to see in other

746

00:29:25,789 --> 00:29:23,700

people's faces I mean

747

00:29:28,010 --> 00:29:25,799

when I interviewed you this is I think

748

00:29:29,630 --> 00:29:28,020

2019

749

00:29:31,490 --> 00:29:29,640

um my background had been doing crime

750

00:29:33,470 --> 00:29:31,500

shows and I've done like a thousand

751  
00:29:35,450 --> 00:29:33,480  
interviews and from interviewing you

752  
00:29:36,470 --> 00:29:35,460  
know perps victims

753  
00:29:42,830 --> 00:29:36,480  
um

754  
00:29:44,210 --> 00:29:42,840  
get a BS detector after a while and one

755  
00:29:46,250 --> 00:29:44,220  
of the things that really blew me away

756  
00:29:47,210 --> 00:29:46,260  
is that I'm staring down looking at you

757  
00:29:49,610 --> 00:29:47,220  
guys

758  
00:29:51,529 --> 00:29:49,620  
and not a blip is going off

759  
00:29:54,769 --> 00:29:51,539  
and I almost feel like through osmosis

760  
00:29:56,269 --> 00:29:54,779  
I'm feeling your reality and even that

761  
00:29:59,029 --> 00:29:56,279  
was

762  
00:30:00,950 --> 00:29:59,039  
um palpable in a way that I remember

763  
00:30:03,649 --> 00:30:00,960

telling my girlfriend ali

764

00:30:04,970 --> 00:30:03,659

um when I came back from the convention

765

00:30:06,230 --> 00:30:04,980

the international UFO Congress

766

00:30:09,889 --> 00:30:06,240

convention I said

767

00:30:12,289 --> 00:30:09,899

I can't argue I can't find you know um

768

00:30:14,810 --> 00:30:12,299

workarounds or as we said prosaic

769

00:30:16,130 --> 00:30:14,820

explanations for this so I I have to

770

00:30:19,370 --> 00:30:16,140

look at the evidence and I'm not a

771

00:30:20,450 --> 00:30:19,380

debunker or or a skeptic more so I'm an

772

00:30:22,669 --> 00:30:20,460

analyst

773

00:30:24,529 --> 00:30:22,679

I need to look at the data and then you

774

00:30:26,389 --> 00:30:24,539

know and basically so far over the past

775

00:30:28,010 --> 00:30:26,399

four years since I've been working you

776

00:30:29,269 --> 00:30:28,020

know on this Doc and meeting great

777

00:30:30,529 --> 00:30:29,279

people like you and the whole wonderful

778

00:30:33,230 --> 00:30:30,539

UFO community

779

00:30:36,350 --> 00:30:33,240

I have been presented with data backed

780

00:30:39,289 --> 00:30:36,360

up over and over and and then timing

781

00:30:42,590 --> 00:30:39,299

that with what happened with um uh you

782

00:30:45,529 --> 00:30:42,600

know in in December unless the Keynes

783

00:30:48,409 --> 00:30:45,539

um wonderful article on Rob Blumenthal

784

00:30:49,970 --> 00:30:48,419

um it it it's a whole new world and so

785

00:30:53,930 --> 00:30:49,980

you guys were the kind of the Vanguard

786

00:30:55,490 --> 00:30:53,940

in a way and so what I what I feel from

787

00:30:58,370 --> 00:30:55,500

you and and what we've talked about

788

00:31:00,289 --> 00:30:58,380

beforehand is how this does change you

789

00:31:02,510 --> 00:31:00,299

and it doesn't just change you like it

790

00:31:05,269 --> 00:31:02,520

opens up your mind but you're saying

791

00:31:06,950 --> 00:31:05,279

you're purporting to to say that this

792

00:31:09,590 --> 00:31:06,960

feels like

793

00:31:12,049 --> 00:31:09,600

um you almost have kind of Clairvoyance

794

00:31:13,610 --> 00:31:12,059

into certain interests

795

00:31:16,490 --> 00:31:13,620

that you had that you did not have

796

00:31:19,430 --> 00:31:16,500

before if you can Define that for us I

797

00:31:21,710 --> 00:31:19,440

would describe it as a clarity

798

00:31:24,169 --> 00:31:21,720

because when I did my geological

799

00:31:26,630 --> 00:31:24,179

research I I didn't have a geology

800

00:31:28,490 --> 00:31:26,640

background but somehow I was able to

801  
00:31:30,049 --> 00:31:28,500  
describe the geomorphology of those

802  
00:31:31,970 --> 00:31:30,059  
mountains and how the landslides

803  
00:31:33,230 --> 00:31:31,980  
occurred in a way that no one had ever

804  
00:31:36,110 --> 00:31:33,240  
done it

805  
00:31:39,909 --> 00:31:36,120  
and I I even had a

806  
00:31:44,870 --> 00:31:42,889  
very senior geologist come back and say

807  
00:31:46,909 --> 00:31:44,880  
Hey Kevin your ability to read geology

808  
00:31:48,769 --> 00:31:46,919  
is incredible

809  
00:31:50,090 --> 00:31:48,779  
what makes you want to jump on this

810  
00:31:51,590 --> 00:31:50,100  
mystery because it is a mystery it's

811  
00:31:52,850 --> 00:31:51,600  
been around forever what made you want

812  
00:31:54,669 --> 00:31:52,860  
to jump on it

813  
00:31:57,470 --> 00:31:54,679

on what

814

00:32:01,010 --> 00:31:57,480

theological that the bald eagle uh

815

00:32:02,269 --> 00:32:01,020

survey because well because my this

816

00:32:04,370 --> 00:32:02,279

thing changes you and at the time I

817

00:32:05,810 --> 00:32:04,380

didn't realize it I just had always had

818

00:32:08,029 --> 00:32:05,820

an interest in that because my family

819

00:32:10,909 --> 00:32:08,039

was back there and spent a lot of years

820

00:32:13,370 --> 00:32:10,919

back there so I want I wanted to go back

821

00:32:15,409 --> 00:32:13,380

I had I became possessed with the idea

822

00:32:17,029 --> 00:32:15,419

and when I was back there my grandfather

823

00:32:18,350 --> 00:32:17,039

had told me something that I started

824

00:32:20,690 --> 00:32:18,360

thinking about he said Kevin you don't

825

00:32:22,310 --> 00:32:20,700

understand I said what sir they said we

826

00:32:25,190 --> 00:32:22,320

weren't we weren't gold padding and

827

00:32:27,110 --> 00:32:25,200

Mining um nuggets and to kill my type

828

00:32:29,090 --> 00:32:27,120

bench gravel stuff we we were actually

829

00:32:31,450 --> 00:32:29,100

getting gold dust and it was so fine we

830

00:32:35,389 --> 00:32:31,460

probably lost more than we ever found

831

00:32:37,310 --> 00:32:35,399

so tell me about what this is exactly

832

00:32:39,409 --> 00:32:37,320

and then you can it's a pleasure mining

833

00:32:40,909 --> 00:32:39,419

claim it's 168 your place reminding

834

00:32:43,430 --> 00:32:40,919

claim with a couple creeps going through

835

00:32:46,250 --> 00:32:43,440

it out in the wilderness

836

00:32:48,409 --> 00:32:46,260

for mining gold certain yeah it was a

837

00:32:50,750 --> 00:32:48,419

gold mining claim yeah okay so just a

838

00:32:52,190 --> 00:32:50,760

gold mining so I started thinking about

839

00:32:54,230 --> 00:32:52,200

down there and I'm thinking Gold Dust

840

00:32:56,570 --> 00:32:54,240

right so I I put two and two together

841

00:32:58,250 --> 00:32:56,580

and I figured out that our mining claim

842

00:32:59,510 --> 00:32:58,260

is actually associated with a much

843

00:33:01,130 --> 00:32:59,520

larger geology called the

844

00:33:03,830 --> 00:33:01,140

josephinofiolite

845

00:33:06,110 --> 00:33:03,840

and what an opioid is

846

00:33:07,549 --> 00:33:06,120

is normally at the spreading arcs when

847

00:33:09,110 --> 00:33:07,559

those it's really heavy ground because

848

00:33:11,990 --> 00:33:09,120

there's hydrothermal vents and there's

849

00:33:14,090 --> 00:33:12,000

they're laying layers of minerals and

850

00:33:15,590 --> 00:33:14,100

when that that heavy ground goes towards

851

00:33:17,450 --> 00:33:15,600

continental plates they usually gets

852

00:33:19,549 --> 00:33:17,460

subducted because they're so darn heavy

853

00:33:21,590 --> 00:33:19,559

right but when they get stuck on dry

854

00:33:23,210 --> 00:33:21,600

land it's called an opiod and that's

855

00:33:24,889 --> 00:33:23,220

what we got here and it goes from

856

00:33:27,470 --> 00:33:24,899

Northern California to Southern

857

00:33:30,289 --> 00:33:27,480

Washington as far as I can tell

858

00:33:33,049 --> 00:33:30,299

and it's likely loaded with trillions

859

00:33:36,049 --> 00:33:33,059

with a capital t a rare earth

860

00:33:37,789 --> 00:33:36,059

I'm not talking billions and and I base

861

00:33:39,789 --> 00:33:37,799

and I base that just on the type of

862

00:33:42,769 --> 00:33:39,799

geology it is remember what this is

863

00:33:45,110 --> 00:33:42,779

hydrothermal vents spreading Arts laying

864

00:33:47,389 --> 00:33:45,120

down mineral deposits based on the type

865

00:33:49,430 --> 00:33:47,399

of geology and the size of it

866

00:33:51,889 --> 00:33:49,440

this could easily be one of the largest

867

00:33:53,149 --> 00:33:51,899

now minable and I'll tell you how

868

00:33:56,690 --> 00:33:53,159

minable now

869

00:33:58,430 --> 00:33:56,700

deposits ever found on the planet so to

870

00:34:00,590 --> 00:33:58,440

kind of bring it all up to speed

871

00:34:03,289 --> 00:34:00,600

um time went on

872

00:34:05,450 --> 00:34:03,299

um this whole story broke the deer moon

873

00:34:07,549 --> 00:34:05,460

mission came out with Elon Musk and um

874

00:34:09,050 --> 00:34:07,559

ew out of Japan they're going to take a

875

00:34:11,629 --> 00:34:09,060

SpaceX flight around the mood and come

876

00:34:14,030 --> 00:34:11,639

home and they offered a civilian seat so

877

00:34:16,369 --> 00:34:14,040

I said what the hell I'll apply and so I

878

00:34:19,609 --> 00:34:16,379

send them all the research that I sent

879

00:34:21,710 --> 00:34:19,619

you and I and I with the suggestion hey

880

00:34:23,089 --> 00:34:21,720

using your new tunneling boring

881

00:34:25,629 --> 00:34:23,099

technology that you're using to put

882

00:34:28,250 --> 00:34:25,639

those tunnels in from LA to Las Vegas

883

00:34:31,010 --> 00:34:28,260

you might repurpose them and actually

884

00:34:33,530 --> 00:34:31,020

mine this opio-like formation from below

885

00:34:35,510 --> 00:34:33,540

the grout and never touch the wilderness

886

00:34:37,849 --> 00:34:35,520

and I was I was outside the house four

887

00:34:39,950 --> 00:34:37,859

days later and I noticed a really weird

888

00:34:41,270 --> 00:34:39,960

jet going back and forth back and forth

889

00:34:43,849 --> 00:34:41,280

back and forth a little over the right

890

00:34:46,609 --> 00:34:43,859

over the Wilderness what the hell

891

00:34:48,950 --> 00:34:46,619

never happens it turned out to be it was

892

00:34:51,710 --> 00:34:48,960

a nasty flight on a geodetic mission I

893

00:34:55,190 --> 00:34:51,720

swear to God really they checked out my

894

00:34:56,990 --> 00:34:55,200

research man interesting timing yep well

895

00:35:00,050 --> 00:34:57,000

it's not it's not a mystery what

896

00:35:02,810 --> 00:35:00,060

happened here is it no

897

00:35:05,210 --> 00:35:02,820

so I think it's pretty clear yeah so

898

00:35:07,310 --> 00:35:05,220

where are you at right now that's the

899

00:35:09,530 --> 00:35:07,320

good news is it encounters with these

900

00:35:10,910 --> 00:35:09,540

things and I'm not saying that

901  
00:35:12,829 --> 00:35:10,920  
um

902  
00:35:14,930 --> 00:35:12,839  
one of the researchers that told me like

903  
00:35:16,490 --> 00:35:14,940  
this he said Kevin think about it like

904  
00:35:18,890 --> 00:35:16,500  
this there could be 20 people on the

905  
00:35:22,190 --> 00:35:18,900  
bridge of the ship and everyone sees the

906  
00:35:23,870 --> 00:35:22,200  
UFO but only one of them's affected

907  
00:35:26,030 --> 00:35:23,880  
that's just the nature of it some people

908  
00:35:27,069 --> 00:35:26,040  
are affected profoundly and some people

909  
00:35:29,329 --> 00:35:27,079  
aren't

910  
00:35:31,910 --> 00:35:29,339  
and I don't have the answer I don't know

911  
00:35:33,050 --> 00:35:31,920  
but I do know it can change you

912  
00:35:36,589 --> 00:35:33,060  
profoundly

913  
00:35:38,329 --> 00:35:36,599

because I and here's my fear what if

914

00:35:39,950 --> 00:35:38,339

there was a mass sighting

915

00:35:41,630 --> 00:35:39,960

all over the planet a lot once and

916

00:35:43,310 --> 00:35:41,640

everyone on the planet started changing

917

00:35:45,589 --> 00:35:43,320

and no one knew why

918

00:35:48,170 --> 00:35:45,599

and maybe not even maybe not just humans

919

00:35:50,150 --> 00:35:48,180

because what I think happens is I think

920

00:35:52,430 --> 00:35:50,160

the vibration of these things Tunes up

921

00:35:54,050 --> 00:35:52,440

the synapses in our brains and that's

922

00:35:55,609 --> 00:35:54,060

where the new talents and abilities and

923

00:35:57,950 --> 00:35:55,619

ideas come from because our brains

924

00:36:01,730 --> 00:35:57,960

improve function

925

00:36:03,349 --> 00:36:01,740

in existing things within us are now we

926

00:36:05,329 --> 00:36:03,359

can now see them and we can use them now

927

00:36:09,290 --> 00:36:05,339

but what if the same thing happened to

928

00:36:15,109 --> 00:36:12,710

well Dr Linda um the brain maybe gets

929

00:36:16,970 --> 00:36:15,119

tuned up by these maybe I don't know Dr

930

00:36:18,650 --> 00:36:16,980

Linda Zimmerman

931

00:36:21,470 --> 00:36:18,660

um she

932

00:36:23,150 --> 00:36:21,480

um discovered that uh animals are

933

00:36:26,089 --> 00:36:23,160

greatly affected by this and because

934

00:36:28,069 --> 00:36:26,099

they they seem to have yeah precognition

935

00:36:30,470 --> 00:36:28,079

when it comes to like they know when

936

00:36:32,390 --> 00:36:30,480

their Master is coming home

937

00:36:35,210 --> 00:36:32,400

um the owner's coming home you know

938

00:36:37,910 --> 00:36:35,220

blocks minutes away sometimes the

939

00:36:40,490 --> 00:36:37,920

Childtime is yep yeah there are stories

940

00:36:43,550 --> 00:36:40,500

of she tells us great story of at a toll

941

00:36:45,770 --> 00:36:43,560

booth this guy who shows up at work that

942

00:36:49,430 --> 00:36:45,780

told both worker and he looks out and he

943

00:36:51,230 --> 00:36:49,440

sees all of these dead rabbits that are

944

00:36:53,270 --> 00:36:51,240

in this Meadow and he's looking at them

945

00:36:55,910 --> 00:36:53,280

all and he's wondering how what what

946

00:36:57,470 --> 00:36:55,920

took these rabbits out

947

00:36:59,450 --> 00:36:57,480

and then all of a sudden he hears this

948

00:37:01,790 --> 00:36:59,460

this like vibration and he looks up and

949

00:37:03,950 --> 00:37:01,800

he sees there's a craft

950

00:37:07,310 --> 00:37:03,960

and he's looking at this thing and it

951  
00:37:10,310 --> 00:37:07,320  
slowly flies over Glides over disappears

952  
00:37:13,370 --> 00:37:10,320  
and one by one the rabbits all get up

953  
00:37:16,490 --> 00:37:13,380  
and hop away

954  
00:37:18,109 --> 00:37:16,500  
wow so it is an insane story and she's

955  
00:37:19,849 --> 00:37:18,119  
got several stories like that she

956  
00:37:22,310 --> 00:37:19,859  
actually has a book that covers uh

957  
00:37:26,410 --> 00:37:22,320  
covers that so we're all everything

958  
00:37:32,450 --> 00:37:28,510  
whales too

959  
00:37:34,310 --> 00:37:32,460  
yeah when this happened in November

960  
00:37:35,810 --> 00:37:34,320  
for I had this odd feeling there was

961  
00:37:38,210 --> 00:37:35,820  
some connection with the whales when the

962  
00:37:39,530 --> 00:37:38,220  
Tic Tac thing was going down and I I

963  
00:37:41,270 --> 00:37:39,540

didn't share it with anyone it was just

964

00:37:42,770 --> 00:37:41,280

on my mind because

965

00:37:44,270 --> 00:37:42,780

I used to like to watch the wells

966

00:37:46,609 --> 00:37:44,280

because I spent so much time out there

967

00:37:48,770 --> 00:37:46,619

right you know at that time of year so I

968

00:37:50,510 --> 00:37:48,780

was thinking it was just a natural thing

969

00:37:52,490 --> 00:37:50,520

especially when uh Commander friends

970

00:37:54,109 --> 00:37:52,500

that comes on the radio and says uh

971

00:37:55,730 --> 00:37:54,119

Charlie we may have a downed air crafter

972

00:37:56,770 --> 00:37:55,740

that's when they saw the disturbance in

973

00:37:59,270 --> 00:37:56,780

the water

974

00:38:01,069 --> 00:37:59,280

still don't know what it was Tic Tacs

975

00:38:03,589 --> 00:38:01,079

like darting all around the top of it

976

00:38:05,510 --> 00:38:03,599

right so we we left that out but what

977

00:38:07,010 --> 00:38:05,520

what Commander flavor was going out to

978

00:38:08,750 --> 00:38:07,020

initially look at was it looked like it

979

00:38:10,910 --> 00:38:08,760

appeared that there was a down craft in

980

00:38:13,250 --> 00:38:10,920

the water yeah it was kind of a cross

981

00:38:14,810 --> 00:38:13,260

structure we're like oh man so we start

982

00:38:16,550 --> 00:38:14,820

we started activating all of our search

983

00:38:18,230 --> 00:38:16,560

and rescue procedures and everything and

984

00:38:20,329 --> 00:38:18,240

then he comes back says disregard

985

00:38:21,950 --> 00:38:20,339

disregard some some sort of sea life

986

00:38:23,750 --> 00:38:21,960

yeah

987

00:38:25,130 --> 00:38:23,760

so so you were talking about the whales

988

00:38:27,829 --> 00:38:25,140

so you feel like the whales were

989

00:38:31,609 --> 00:38:27,839

affected I do yeah that's well that's my

990

00:38:32,690 --> 00:38:31,619

personal speculation that yeah I do you

991

00:38:35,210 --> 00:38:32,700

were talking about

992

00:38:36,530 --> 00:38:35,220

um brains being vibrated by these I

993

00:38:37,910 --> 00:38:36,540

think the whales who have such a big

994

00:38:40,310 --> 00:38:37,920

head you know so

995

00:38:42,290 --> 00:38:40,320

they probably know him better than we do

996

00:38:43,730 --> 00:38:42,300

probably because

997

00:38:45,290 --> 00:38:43,740

um you know they're just going about

998

00:38:46,790 --> 00:38:45,300

their life and they're traveling much

999

00:38:49,190 --> 00:38:46,800

more out there I mean I mean the fact is

1000

00:38:52,250 --> 00:38:49,200

for me you know and I've been an

1001  
00:38:53,270 --> 00:38:52,260  
armchair you know a researcher if you

1002  
00:38:54,890 --> 00:38:53,280  
will

1003  
00:38:57,349 --> 00:38:54,900  
um at this before the last four years

1004  
00:39:00,950 --> 00:38:57,359  
before I got sucked into the rabbit hole

1005  
00:39:03,050 --> 00:39:00,960  
um no one really considered the water

1006  
00:39:04,810 --> 00:39:03,060  
and going under the water and that these

1007  
00:39:07,730 --> 00:39:04,820  
you know under underwater submersibles

1008  
00:39:09,349 --> 00:39:07,740  
are reported you know just as much by

1009  
00:39:11,569 --> 00:39:09,359  
those who are in there I think they call

1010  
00:39:15,290 --> 00:39:11,579  
them fast Runners

1011  
00:39:16,910 --> 00:39:15,300  
um and um you know astronomer uh uh Mark

1012  
00:39:19,609 --> 00:39:16,920  
dantonio has a great story about being

1013  
00:39:22,190 --> 00:39:19,619

on a sub when they you know encountered

1014

00:39:23,510 --> 00:39:22,200

one of those and and that's a whole

1015

00:39:26,569 --> 00:39:23,520

other thing when you know when you look

1016

00:39:28,550 --> 00:39:26,579

at the world and you say okay well you

1017

00:39:30,109 --> 00:39:28,560

know most of it's covered with water so

1018

00:39:32,450 --> 00:39:30,119

what is going underneath there the only

1019

00:39:34,370 --> 00:39:32,460

thing that I'm confused about

1020

00:39:36,710 --> 00:39:34,380

um and maybe uh you know you have an

1021

00:39:39,349 --> 00:39:36,720

opinion or Mark d'antonio has an opinion

1022

00:39:41,390 --> 00:39:39,359

on it is how are these things moving

1023

00:39:42,790 --> 00:39:41,400

in the water so fast faster than a

1024

00:39:45,530 --> 00:39:42,800

torpedo

1025

00:39:48,349 --> 00:39:45,540

I'm glad you asked about this because in

1026  
00:39:51,770 --> 00:39:48,359  
2004 when this thing went from right in

1027  
00:39:53,450 --> 00:39:51,780  
front of fast Eagle to the cap station

1028  
00:39:55,430 --> 00:39:53,460  
I think that was a message to be

1029  
00:39:57,770 --> 00:39:55,440  
understood later

1030  
00:40:00,230 --> 00:39:57,780  
and it just so happens that I was the

1031  
00:40:02,150 --> 00:40:00,240  
one that perhaps maybe understood that

1032  
00:40:05,089 --> 00:40:02,160  
message later because when we were off

1033  
00:40:07,970 --> 00:40:05,099  
SoCal when we filmed the terrorist guy

1034  
00:40:10,490 --> 00:40:07,980  
with Caroline Corey our intent was we

1035  
00:40:12,109 --> 00:40:10,500  
were up on that roof we had uh Quantum

1036  
00:40:13,849 --> 00:40:12,119  
physicists we had the some of the Top

1037  
00:40:16,069 --> 00:40:13,859  
Gear on the planet to find these things

1038  
00:40:18,349 --> 00:40:16,079

we had trained observers we had a film

1039

00:40:20,270 --> 00:40:18,359

crew Our intention was to find and

1040

00:40:21,589 --> 00:40:20,280

record this stuff and guess what

1041

00:40:24,230 --> 00:40:21,599

happened

1042

00:40:25,370 --> 00:40:24,240

they showed up with bells on and you've

1043

00:40:27,190 --> 00:40:25,380

if you've seen the movie you know what

1044

00:40:30,829 --> 00:40:27,200

I'm talking about a terror in the sky

1045

00:40:33,349 --> 00:40:30,839

so I I think intention itself

1046

00:40:34,609 --> 00:40:33,359

is the missing link here and so I

1047

00:40:36,530 --> 00:40:34,619

started thinking about that okay

1048

00:40:38,690 --> 00:40:36,540

intention

1049

00:40:40,609 --> 00:40:38,700

and let me I have a question

1050

00:40:43,010 --> 00:40:40,619

and this is where this is where my my

1051  
00:40:45,470 --> 00:40:43,020  
thought analysis has drawn me to

1052  
00:40:47,329 --> 00:40:45,480  
we all described to the Big Bang

1053  
00:40:49,210 --> 00:40:47,339  
I mean pretty much I was pretty

1054  
00:40:52,250 --> 00:40:49,220  
confident to say that most science

1055  
00:40:53,630 --> 00:40:52,260  
thinks there was a big bang but I have a

1056  
00:40:54,589 --> 00:40:53,640  
question about the big bang and I'm not

1057  
00:40:57,770 --> 00:40:54,599  
going to talk I'm not talking about

1058  
00:41:00,890 --> 00:40:57,780  
religion this is a physics question it

1059  
00:41:03,589 --> 00:41:00,900  
truly is was the Big Bang intentional or

1060  
00:41:07,430 --> 00:41:03,599  
was it unintentional

1061  
00:41:08,089 --> 00:41:07,440  
right so in my opinion

1062  
00:41:10,730 --> 00:41:08,099  
um

1063  
00:41:13,310 --> 00:41:10,740

it it's it always

1064

00:41:15,770 --> 00:41:13,320

it always seems here's my point here's

1065

00:41:18,290 --> 00:41:15,780

my point before you answer that sure

1066

00:41:20,089 --> 00:41:18,300

I have to assign it 50 50 because if

1067

00:41:22,910 --> 00:41:20,099

someone knows the answer please stand up

1068

00:41:25,130 --> 00:41:22,920

and say hey it's 51.49 or whatever and

1069

00:41:26,990 --> 00:41:25,140

you know I'll I'll entertain it but

1070

00:41:29,450 --> 00:41:27,000

until that happens it's 50 50. now

1071

00:41:34,069 --> 00:41:29,460

listen now given that there's a 50

1072

00:41:35,030 --> 00:41:34,079

chance that our universe is an intended

1073

00:41:39,050 --> 00:41:35,040

universe

1074

00:41:41,150 --> 00:41:39,060

what might that look like and and in the

1075

00:41:43,609 --> 00:41:41,160

case with not intention itself have had

1076

00:41:47,030 --> 00:41:43,619

to have survived the Big Bang to become

1077

00:41:49,310 --> 00:41:47,040

a fundamental Force just like gravity

1078

00:41:50,750 --> 00:41:49,320

well when you say strong and weak

1079

00:41:52,910 --> 00:41:50,760

nuclear force

1080

00:41:56,089 --> 00:41:52,920

you know I could name all the forces

1081

00:41:59,030 --> 00:41:56,099

I think intention became a force in both

1082

00:42:00,650 --> 00:41:59,040

Newtonian and non and non-Newtonian

1083

00:42:02,630 --> 00:42:00,660

and that's what these things are

1084

00:42:03,950 --> 00:42:02,640

engineered from they're engineered from

1085

00:42:05,329 --> 00:42:03,960

a school of physics we didn't know

1086

00:42:06,890 --> 00:42:05,339

anything about

1087

00:42:09,410 --> 00:42:06,900

they're they're engineered from the

1088

00:42:11,390 --> 00:42:09,420

school of physics is based on intention

1089

00:42:13,310 --> 00:42:11,400

so if you're saying that this is all

1090

00:42:15,950 --> 00:42:13,320

based on intention the Big Bang Yeah and

1091

00:42:18,829 --> 00:42:15,960

what you're really talking about is

1092

00:42:21,109 --> 00:42:18,839

um uh you're talking about a Divine

1093

00:42:24,589 --> 00:42:21,119

intelligence I'm saying Divine but in

1094

00:42:27,170 --> 00:42:24,599

intelligence that that intended intended

1095

00:42:29,089 --> 00:42:27,180

this to to be created this to be

1096

00:42:31,370 --> 00:42:29,099

experienced in the physical world

1097

00:42:32,930 --> 00:42:31,380

because remember we've got all these

1098

00:42:34,130 --> 00:42:32,940

different worlds where there's the you

1099

00:42:37,069 --> 00:42:34,140

know the astral plain different

1100

00:42:39,829 --> 00:42:37,079

dimensions Etc so for the one that we're

1101  
00:42:41,870 --> 00:42:39,839  
in I'm always curious what about the

1102  
00:42:44,690 --> 00:42:41,880  
other Universe next to us or the other

1103  
00:42:47,630 --> 00:42:44,700  
dimension next to us is that that also

1104  
00:42:49,190 --> 00:42:47,640  
have that better on experience but I

1105  
00:42:52,190 --> 00:42:49,200  
like to believe I mean if you're asking

1106  
00:42:54,890 --> 00:42:52,200  
me my personal belief is that um I don't

1107  
00:42:57,050 --> 00:42:54,900  
think anything happens by accident

1108  
00:42:59,210 --> 00:42:57,060  
um I feel like

1109  
00:43:01,069 --> 00:42:59,220  
basically what we're looking at here is

1110  
00:43:02,990 --> 00:43:01,079  
something that we've all agreed on a

1111  
00:43:04,970 --> 00:43:03,000  
chair looks like this a hat looks like

1112  
00:43:07,069 --> 00:43:04,980  
this you look like that we're

1113  
00:43:09,410 --> 00:43:07,079

experiencing this

1114

00:43:11,210 --> 00:43:09,420

um and you know then the question is why

1115

00:43:13,670 --> 00:43:11,220

that's what I always followed up with so

1116

00:43:18,109 --> 00:43:13,680

I'm curious for you why

1117

00:43:22,370 --> 00:43:20,450

you know I used to when this

1118

00:43:24,829 --> 00:43:22,380

for there was a there was a short time

1119

00:43:26,690 --> 00:43:24,839

when I used to ask why me I mean I was

1120

00:43:29,210 --> 00:43:26,700

just a watch standard you know what the

1121

00:43:31,790 --> 00:43:29,220

hell what I didn't choose to do this to

1122

00:43:35,390 --> 00:43:31,800

happen to me but after a while I stopped

1123

00:43:37,550 --> 00:43:35,400

asking why and now I ask how instead

1124

00:43:40,010 --> 00:43:37,560

How can I

1125

00:43:41,930 --> 00:43:40,020

help to bring the truth out

1126

00:43:43,809 --> 00:43:41,940

from this point forward that's what I'm

1127

00:43:46,069 --> 00:43:43,819

focused on Dean

1128

00:43:48,290 --> 00:43:46,079

and one of my one of my recommendations

1129

00:43:50,630 --> 00:43:48,300

my recommendations before Congress given

1130

00:43:53,569 --> 00:43:50,640

the opportunity is public education

1131

00:43:55,910 --> 00:43:53,579

about this thing the the need for site

1132

00:43:58,430 --> 00:43:55,920

field team science teams to go out and I

1133

00:44:00,230 --> 00:43:58,440

and there's I have a special mission in

1134

00:44:01,550 --> 00:44:00,240

mind for that I want to talk to you

1135

00:44:03,230 --> 00:44:01,560

offline

1136

00:44:08,089 --> 00:44:03,240

and

1137

00:44:09,589 --> 00:44:08,099

people people keep asking Kevin you're

1138

00:44:11,150 --> 00:44:09,599

going to ask for conversation you lost

1139

00:44:12,170 --> 00:44:11,160

the second career out of this man you

1140

00:44:14,329 --> 00:44:12,180

lost you

1141

00:44:16,849 --> 00:44:14,339

you lost a wife of 25 years and on and

1142

00:44:18,170 --> 00:44:16,859

on and on you asked for something and I

1143

00:44:21,230 --> 00:44:18,180

said nope

1144

00:44:23,450 --> 00:44:21,240

as a matter of fact my my goal is to

1145

00:44:25,370 --> 00:44:23,460

bury the hatchet on this for everyone

1146

00:44:28,130 --> 00:44:25,380

let's finally bury the hatchet on this

1147

00:44:29,690 --> 00:44:28,140

so it's okay to talk about

1148

00:44:32,390 --> 00:44:29,700

um and the reason why I feel that way

1149

00:44:34,550 --> 00:44:32,400

Dean because I Kevin D I cannot point to

1150

00:44:36,770 --> 00:44:34,560

anyone in government and say they cause

1151  
00:44:37,730 --> 00:44:36,780  
me harm or just saying that they cause

1152  
00:44:39,950 --> 00:44:37,740  
me harm

1153  
00:44:42,890 --> 00:44:39,960  
therefore they owe me something

1154  
00:44:44,630 --> 00:44:42,900  
I can't do that honestly I can't there's

1155  
00:44:46,370 --> 00:44:44,640  
no way God's green earth I'm going to

1156  
00:44:47,990 --> 00:44:46,380  
demand something from my government that

1157  
00:44:50,089 --> 00:44:48,000  
I don't deserve

1158  
00:44:53,569 --> 00:44:50,099  
okay copy that I'm going to ask a

1159  
00:44:56,930 --> 00:44:53,579  
question here that has come up as well

1160  
00:44:58,609 --> 00:44:56,940  
um yeah yeah in 54 minutes um it's it's

1161  
00:45:00,230 --> 00:44:58,619  
very hard to cover we're just starting

1162  
00:45:01,849 --> 00:45:00,240  
to like cut it well let's do it again

1163  
00:45:03,589 --> 00:45:01,859

yeah let's do it again

1164

00:45:05,390 --> 00:45:03,599

um here's a question from Ray Nash he

1165

00:45:07,750 --> 00:45:05,400

says do you usually have submarines

1166

00:45:10,130 --> 00:45:07,760

during this training phase and if yes

1167

00:45:12,650 --> 00:45:10,140

did they pick up anything that's a good

1168

00:45:16,790 --> 00:45:14,750

ask the question one more time the

1169

00:45:19,250 --> 00:45:16,800

question was were there submarines as

1170

00:45:20,630 --> 00:45:19,260

part of this exercise are in that in

1171

00:45:23,390 --> 00:45:20,640

that general area that's what's

1172

00:45:26,329 --> 00:45:23,400

happening they pick up anything yes the

1173

00:45:29,450 --> 00:45:26,339

answer is yes yep really what are they

1174

00:45:34,190 --> 00:45:31,370

I don't know for certainty but I believe

1175

00:45:36,410 --> 00:45:34,200

the data was taken for that too

1176

00:45:38,690 --> 00:45:36,420

yeah but I don't I don't I don't have

1177

00:45:40,550 --> 00:45:38,700

that did you talk to them and find out

1178

00:45:44,569 --> 00:45:40,560

what what they might have recorded and

1179

00:45:50,329 --> 00:45:46,870

um form of what is in the form of uh

1180

00:45:52,010 --> 00:45:50,339

radar well knowing the reason is because

1181

00:45:55,430 --> 00:45:52,020

at the time we didn't

1182

00:45:57,770 --> 00:45:55,440

think anything had gone into the water

1183

00:46:00,170 --> 00:45:57,780

the object stayed about 50 feet above

1184

00:46:01,790 --> 00:46:00,180

the water and then took off it never

1185

00:46:03,710 --> 00:46:01,800

actually went into the water as far as

1186

00:46:05,690 --> 00:46:03,720

we could tell on radar

1187

00:46:07,910 --> 00:46:05,700

it wasn't our situational awareness that

1188

00:46:09,410 --> 00:46:07,920

anything had gone in the water so sonar

1189

00:46:11,870 --> 00:46:09,420

wasn't really a

1190

00:46:13,490 --> 00:46:11,880

a part of the um

1191

00:46:14,750 --> 00:46:13,500

what was that you know the script that

1192

00:46:18,710 --> 00:46:14,760

was playing out

1193

00:46:21,050 --> 00:46:18,720

the equation yeah so

1194

00:46:24,170 --> 00:46:21,060

um I want to ask you

1195

00:46:26,569 --> 00:46:24,180

um you had said in May of 2020 um you

1196

00:46:29,510 --> 00:46:26,579

stated on Alejandro rojas's showdown of

1197

00:46:33,829 --> 00:46:29,520

Geeks that you and the UAP tax team

1198

00:46:36,050 --> 00:46:33,839

um uapx Team uh suspected there might be

1199

00:46:37,730 --> 00:46:36,060

a pattern of these crafts appearing in

1200

00:46:41,210 --> 00:46:37,740

the same southern California coast

1201

00:46:43,370 --> 00:46:41,220

airspace at the same time did you get a

1202

00:46:45,050 --> 00:46:43,380

chance to prove this hypothesis um you

1203

00:46:47,270 --> 00:46:45,060

know why do you think that these objects

1204

00:46:49,790 --> 00:46:47,280

would return to the same location the

1205

00:46:51,770 --> 00:46:49,800

same time of the year yours was November

1206

00:46:55,270 --> 00:46:51,780

so maybe it was because Thanksgiving

1207

00:46:58,190 --> 00:46:55,280

Black Friday sale type of thing

1208

00:47:00,710 --> 00:46:58,200

good question I love that

1209

00:47:02,390 --> 00:47:00,720

I love essential humor

1210

00:47:03,950 --> 00:47:02,400

um well we picked November because

1211

00:47:06,530 --> 00:47:03,960

that's when the Tic Tac thing went down

1212

00:47:08,270 --> 00:47:06,540

November and and I had convinced enough

1213

00:47:10,010 --> 00:47:08,280

of us that there was some something to

1214

00:47:11,750 --> 00:47:10,020

do with the whales

1215

00:47:14,089 --> 00:47:11,760

and there was nothing there was nothing

1216

00:47:15,530 --> 00:47:14,099

beyond that in terms of brilliant idea

1217

00:47:17,569 --> 00:47:15,540

or anything that I mean that's the

1218

00:47:19,790 --> 00:47:17,579

reason why we chose November

1219

00:47:22,130 --> 00:47:19,800

so when you came back did did it work

1220

00:47:24,589 --> 00:47:22,140

did you see not only

1221

00:47:27,410 --> 00:47:24,599

um these contacts these these uaps but

1222

00:47:30,589 --> 00:47:27,420

were they in the same Maneuvers were

1223

00:47:31,390 --> 00:47:30,599

they the same amount of them

1224

00:47:33,950 --> 00:47:31,400

um

1225

00:47:36,890 --> 00:47:33,960

well you you've seen that Caroline

1226

00:47:38,870 --> 00:47:36,900

Corey's movie tearing this guy

1227

00:47:41,210 --> 00:47:38,880

um we were set up and we had a team on

1228

00:47:43,790 --> 00:47:41,220

Catalina Island we had a team over there

1229

00:47:46,550 --> 00:47:43,800

on the beach on the you know a flat roof

1230

00:47:48,650 --> 00:47:46,560

on the house right there on the beach

1231

00:47:50,450 --> 00:47:48,660

constant ungodly amount to rent by the

1232

00:47:52,430 --> 00:47:50,460

way and also going to get a report from

1233

00:47:54,589 --> 00:47:52,440

Catalina I got something I got something

1234

00:47:58,550 --> 00:47:54,599

everyone comes running up we we get

1235

00:48:00,530 --> 00:47:58,560

everything up and um a hole opens up in

1236

00:48:04,309 --> 00:48:00,540

the sky literally

1237

00:48:08,030 --> 00:48:04,319

in five objects that we got on radar

1238

00:48:11,870 --> 00:48:10,430

yep and that's why that's why the name

1239

00:48:13,569 --> 00:48:11,880

of this movie is called the terror in

1240

00:48:15,950 --> 00:48:13,579

this guy yeah

1241

00:48:18,410 --> 00:48:15,960

I mean people are calling it a wormhole

1242

00:48:20,450 --> 00:48:18,420

but I don't I mean we of course we don't

1243

00:48:22,609 --> 00:48:20,460

know you tell me what it was I don't

1244

00:48:25,210 --> 00:48:22,619

know yeah they showed up they showed up

1245

00:48:28,730 --> 00:48:25,220

for us yep yeah

1246

00:48:31,250 --> 00:48:28,740

a great demonstration I know and oh by

1247

00:48:33,530 --> 00:48:31,260

the way let me let me we had a Quantum

1248

00:48:37,309 --> 00:48:33,540

physicist on that roof with us we have

1249

00:48:39,530 --> 00:48:37,319

600 600 plus hours of data

1250

00:48:41,990 --> 00:48:39,540

of what happened that's currently being

1251  
00:48:44,270 --> 00:48:42,000  
analyzed in their academic papers that

1252  
00:48:45,890 --> 00:48:44,280  
are now being written and hopefully will

1253  
00:48:49,069 --> 00:48:45,900  
be out before too long

1254  
00:48:51,230 --> 00:48:49,079  
about what we found well speaking of of

1255  
00:48:53,990 --> 00:48:51,240  
coming out to the public

1256  
00:48:57,109 --> 00:48:54,000  
um I hear I hear tales that there's

1257  
00:48:59,210 --> 00:48:57,119  
another UFO Congressional hearing coming

1258  
00:49:01,250 --> 00:48:59,220  
and that someone that we know might be

1259  
00:49:02,030 --> 00:49:01,260  
going talking about

1260  
00:49:03,589 --> 00:49:02,040  
yeah

1261  
00:49:05,510 --> 00:49:03,599  
um Michael Hall

1262  
00:49:08,270 --> 00:49:05,520  
um our attorney from

1263  
00:49:09,710 --> 00:49:08,280

uh uapx days is my pro bono attorney

1264

00:49:12,410 --> 00:49:09,720

he's in direct contact with

1265

00:49:15,829 --> 00:49:12,420

representative Carson's office

1266

00:49:19,550 --> 00:49:15,839

and um I'm hopeful that I'll be called

1267

00:49:20,930 --> 00:49:19,560

to testify at the next round now be

1268

00:49:22,910 --> 00:49:20,940

mindful that it's gonna it's probably

1269

00:49:24,470 --> 00:49:22,920

not gonna be it's gonna be um later

1270

00:49:25,910 --> 00:49:24,480

rather than sooner because of everything

1271

00:49:27,950 --> 00:49:25,920

that's going on with elections and all

1272

00:49:29,569 --> 00:49:27,960

the other stuff that's happening now and

1273

00:49:31,190 --> 00:49:29,579

I think that's the right answer I mean

1274

00:49:33,349 --> 00:49:31,200

let's take our time and do this right

1275

00:49:35,809 --> 00:49:33,359

get the right people up there and not

1276

00:49:37,370 --> 00:49:35,819

make a circus out of it you know and get

1277

00:49:43,990 --> 00:49:37,380

to the bottom of this with some decent

1278

00:49:49,130 --> 00:49:46,910

do I look like I'm lying to you man

1279

00:49:51,829 --> 00:49:49,140

enough in any way shape or form man this

1280

00:49:54,950 --> 00:49:51,839

thing happened and it it changes you it

1281

00:49:58,069 --> 00:49:54,960

it can change it doesn't change everyone

1282

00:50:00,890 --> 00:49:58,079

but it can change you profoundly so what

1283

00:50:02,690 --> 00:50:00,900

are you hoping that the the theme of

1284

00:50:04,309 --> 00:50:02,700

this second meeting

1285

00:50:06,710 --> 00:50:04,319

uh I think I think there will be

1286

00:50:09,170 --> 00:50:06,720

legislation in it in addition to the

1287

00:50:11,450 --> 00:50:09,180

Whistleblower legislation that just got

1288

00:50:12,950 --> 00:50:11,460

passed which is awesome

1289

00:50:14,990 --> 00:50:12,960

I don't know if everyone's heard about

1290

00:50:16,670 --> 00:50:15,000

that but it protects people coming out

1291

00:50:18,890 --> 00:50:16,680

say hey I saw UFO while they're at work

1292

00:50:20,329 --> 00:50:18,900

you know that type of stuff yeah you

1293

00:50:23,690 --> 00:50:20,339

know they won't lose their job out of it

1294

00:50:27,109 --> 00:50:23,700

like certain other people have

1295

00:50:30,170 --> 00:50:27,119

so in addition I mean that's a good way

1296

00:50:32,990 --> 00:50:30,180

but I want three things I want um

1297

00:50:35,510 --> 00:50:33,000

funding for education

1298

00:50:37,130 --> 00:50:35,520

let's we got to educate the planet on

1299

00:50:38,990 --> 00:50:37,140

what's about to happen

1300

00:50:41,210 --> 00:50:39,000

in my view

1301  
00:50:44,030 --> 00:50:41,220  
I think it's about to happen I and why I

1302  
00:50:46,609 --> 00:50:44,040  
don't know but I I know how we can get

1303  
00:50:48,770 --> 00:50:46,619  
ready for it let's educate people that's

1304  
00:50:52,069 --> 00:50:48,780  
what I want and number two I want

1305  
00:50:54,470 --> 00:50:52,079  
funding for uh field teams for doing

1306  
00:50:56,990 --> 00:50:54,480  
more data collection let's go out and

1307  
00:50:59,390 --> 00:50:57,000  
figure out what the hell this is

1308  
00:51:01,790 --> 00:50:59,400  
and be real about it let's sober up and

1309  
00:51:04,370 --> 00:51:01,800  
figure out put our pants on buckle up

1310  
00:51:06,589 --> 00:51:04,380  
and get it done right and number three I

1311  
00:51:09,170 --> 00:51:06,599  
want to bury the hatchet

1312  
00:51:10,490 --> 00:51:09,180  
I want to make it okay to talk about if

1313  
00:51:13,010 --> 00:51:10,500

you haven't experience that you don't

1314

00:51:15,190 --> 00:51:13,020

have to feel shy anymore

1315

00:51:17,809 --> 00:51:15,200

you're taking the kids to school

1316

00:51:19,670 --> 00:51:17,819

and you and your kids see this thing

1317

00:51:20,990 --> 00:51:19,680

that you can't explain in the car now

1318

00:51:23,030 --> 00:51:21,000

guess what you can go home and talk

1319

00:51:26,530 --> 00:51:23,040

about it without everyone in the

1320

00:51:31,490 --> 00:51:29,030

necessarily you know

1321

00:51:32,569 --> 00:51:31,500

yeah that's what I want three simple

1322

00:51:35,990 --> 00:51:32,579

things

1323

00:51:37,849 --> 00:51:36,000

so I'm curious how we're going to be

1324

00:51:39,950 --> 00:51:37,859

able to track

1325

00:51:42,349 --> 00:51:39,960

um the difference between open

1326  
00:51:44,329 --> 00:51:42,359  
communication between Witnesses where

1327  
00:51:46,370 --> 00:51:44,339  
there's no ridicule and uh and no

1328  
00:51:48,109 --> 00:51:46,380  
repercussions I'm curious how we're

1329  
00:51:49,490 --> 00:51:48,119  
going to track that we're you know going

1330  
00:51:51,710 --> 00:51:49,500  
to track those reports that come in I

1331  
00:51:54,410 --> 00:51:51,720  
know that John Greenwald will be doing

1332  
00:51:56,750 --> 00:51:54,420  
foia's left and right if if you know

1333  
00:51:58,970 --> 00:51:56,760  
well we have other we have other um

1334  
00:52:00,770 --> 00:51:58,980  
people protection laws in place like

1335  
00:52:02,690 --> 00:52:00,780  
sexual harassment policy and stuff like

1336  
00:52:04,370 --> 00:52:02,700  
that this would probably be enforced

1337  
00:52:07,849 --> 00:52:04,380  
along the same type of law you know same

1338  
00:52:10,069 --> 00:52:07,859

way it would take someone um to file

1339

00:52:11,569 --> 00:52:10,079

file a complaint and then it goes you

1340

00:52:14,450 --> 00:52:11,579

know goes through the process and that

1341

00:52:18,049 --> 00:52:14,460

just like any other

1342

00:52:20,870 --> 00:52:18,059

um Personnel policy in law yeah that's

1343

00:52:22,730 --> 00:52:20,880

how I see it would play out

1344

00:52:24,410 --> 00:52:22,740

yep

1345

00:52:27,170 --> 00:52:24,420

um do you think that there's a an

1346

00:52:29,390 --> 00:52:27,180

alternate universe where

1347

00:52:32,329 --> 00:52:29,400

Kevin day doesn't see this

1348

00:52:34,250 --> 00:52:32,339

doesn't have this experience

1349

00:52:36,109 --> 00:52:34,260

um and

1350

00:52:38,150 --> 00:52:36,119

and how does that

1351

00:52:39,710 --> 00:52:38,160

factor in how much of this has has

1352

00:52:41,089 --> 00:52:39,720

changed you like did you feel like you

1353

00:52:42,890 --> 00:52:41,099

were on a trajectory and all of a sudden

1354

00:52:45,770 --> 00:52:42,900

it changed and

1355

00:52:46,849 --> 00:52:45,780

well um my thoughts on Alternate

1356

00:52:49,490 --> 00:52:46,859

universes

1357

00:52:51,650 --> 00:52:49,500

I have to imagine that if if intention

1358

00:52:53,569 --> 00:52:51,660

caused the big bang and it created our

1359

00:52:56,630 --> 00:52:53,579

our universe

1360

00:52:59,690 --> 00:52:56,640

there's at least a 50 50 chance that an

1361

00:53:03,109 --> 00:52:59,700

alternate one was created to

1362

00:53:05,089 --> 00:53:03,119

so I I have to say 50 50 chance

1363

00:53:07,250 --> 00:53:05,099

what you just asked me is true

1364

00:53:08,750 --> 00:53:07,260

because I don't know otherwise yeah but

1365

00:53:10,549 --> 00:53:08,760

I have a reason

1366

00:53:13,130 --> 00:53:10,559

I have a way to think that it could be

1367

00:53:14,930 --> 00:53:13,140

possible by what I've shown you

1368

00:53:15,890 --> 00:53:14,940

yeah because it all goes back to

1369

00:53:17,690 --> 00:53:15,900

intention

1370

00:53:19,549 --> 00:53:17,700

that's the answer that's the missing

1371

00:53:22,910 --> 00:53:19,559

Linker

1372

00:53:24,530 --> 00:53:22,920

these things are because they're they're

1373

00:53:27,950 --> 00:53:24,540

aware how in the hell are these things

1374

00:53:31,069 --> 00:53:27,960

aware you know and and intent an

1375

00:53:32,349 --> 00:53:31,079

intention based object explains that

1376

00:53:35,030 --> 00:53:32,359

yeah

1377

00:53:37,790 --> 00:53:35,040

and looked at him

1378

00:53:40,010 --> 00:53:37,800

because like uh gravity has gravitons

1379

00:53:41,569 --> 00:53:40,020

the force carrier for gravity is

1380

00:53:45,650 --> 00:53:41,579

gravitons

1381

00:53:48,589 --> 00:53:45,660

or so similarly the force carrier for

1382

00:53:50,930 --> 00:53:48,599

intention would be in intentatons

1383

00:53:54,109 --> 00:53:50,940

all right we need another hour

1384

00:53:56,150 --> 00:53:54,119

um we need to wrap up and do a part two

1385

00:53:58,309 --> 00:53:56,160

brother but um it's been so great

1386

00:54:00,890 --> 00:53:58,319

talking with you uh especially again

1387

00:54:02,270 --> 00:54:00,900

thanks for having me this new Venture of

1388

00:54:04,010 --> 00:54:02,280

yours very excited about it please keep

1389

00:54:04,970 --> 00:54:04,020

us posted thank you Kim for saving it

1390

00:54:07,309 --> 00:54:04,980

for us

1391

00:54:09,290 --> 00:54:07,319

yeah she said she saved our butts on

1392

00:54:10,790 --> 00:54:09,300

that one we hey for everyone listen We

1393

00:54:13,130 --> 00:54:10,800

Made It by three minutes getting online

1394

00:54:15,410 --> 00:54:13,140

so

1395

00:54:17,750 --> 00:54:15,420

Kevin thank you again my friend I love

1396

00:54:19,970 --> 00:54:17,760

you man love you brother wish the best

1397

00:54:25,809 --> 00:54:19,980

of luck we'll talk soon all right bye

1398

00:54:30,230 --> 00:54:28,430

all right so

1399

00:54:33,410 --> 00:54:30,240

um thank you everyone for uh for

1400

00:54:37,849 --> 00:54:33,420

listening and uh and for being a patient

1401

00:54:40,670 --> 00:54:37,859

as I um host my first podcast and um

1402

00:54:42,950 --> 00:54:40,680

looking forward to uh um giving you more

1403

00:54:45,710 --> 00:54:42,960

updates on uh Martin and how he's doing

1404

00:54:47,750 --> 00:54:45,720

but um he seems to be doing fine he was

1405

00:54:49,609 --> 00:54:47,760

watching the show and and doing his own

1406

00:54:52,670 --> 00:54:49,619

commentary on it

1407

00:54:55,250 --> 00:54:52,680

um and so uh love you Martin uh Bill

1408

00:54:57,890 --> 00:54:55,260

thank you so much brother uh appreciate

1409

00:55:00,290 --> 00:54:57,900

it as well and uh we're gonna sign off

1410

00:55:02,990 --> 00:55:00,300

uh right now and so uh the next time I

1411

00:55:06,290 --> 00:55:03,000

see you guys is going to be actually in

1412

00:55:10,910 --> 00:55:06,300

um Northampton Massachusetts for

1413

00:55:13,069 --> 00:55:10,920

um uh for Randy Nickerson's premiere of

1414

00:55:14,990 --> 00:55:13,079

aerial phenomenon there may still be

1415

00:55:16,790 --> 00:55:15,000

tickets for that available as well so

1416

00:55:18,710 --> 00:55:16,800

that's a Friday and Saturday night we're

1417

00:55:20,630 --> 00:55:18,720

going to be filming there

1418

00:55:24,230 --> 00:55:20,640

um it'll be Saturday probably East Coast

1419

00:55:25,190 --> 00:55:24,240

time around 8 50 9 p.m that's going to

1420

00:55:26,510 --> 00:55:25,200

be great because there's going to be a

1421

00:55:28,430 --> 00:55:26,520

panel there

1422

00:55:31,730 --> 00:55:28,440

um Whitley Streiber is going to be uh

1423

00:55:35,390 --> 00:55:31,740

zoomed in and um a few other folks and

1424

00:55:37,490 --> 00:55:35,400

some surprises so um thanks again and

1425

00:55:39,850 --> 00:55:37,500

keep watching the skies

1426

00:55:49,170 --> 00:55:39,860

bye
