[Music]

5
00:00:52,729 --> 00:00:49,910
I'm your guest host Dean alietto today

6
00:00:53,690 --> 00:00:52,739
we are being visited sorry I have to go

7
00:00:55,189 --> 00:00:53,700
there

8
00:00:57,709 --> 00:00:55,199
um by someone who's no stranger to

9
00:01:00,770 --> 00:00:57,719
podcast UFO listeners UFO researcher

10
00:01:03,049 --> 00:01:00,780
Alejandro Rojas Alejandra has been a

11
00:01:06,050 --> 00:01:03,059
voice of reason in the enigmatic field

12
00:01:07,910 --> 00:01:06,060
of UFO's operating summer between UFO

13
00:01:09,530 --> 00:01:07,920

Advocate and that guy who tells kids

14

00:01:12,649 --> 00:01:09,540

that there's no Santa Claus because the

15

00:01:14,870 --> 00:01:12,659

evidence just is too flawed Alejandro is

16

00:01:18,050 --> 00:01:14,880

also the head of research and content at

17

00:01:20,630 --> 00:01:18,060

Enigma Labs which is uh he's building a

18

00:01:23,270 --> 00:01:20,640

repository for cataloging scoring and

19

00:01:26,450 --> 00:01:23,280

crowdsourcing UFO incidences as well as

20

00:01:28,910 --> 00:01:26,460

exposing hoaxes he's also the Consulting

21

00:01:30,950 --> 00:01:28,920

producer on my upcoming docu-series and

22

00:01:33,050 --> 00:01:30,960

today he's going to give us the exciting

23

00:01:34,810 --> 00:01:33,060

highlights from the just completed

24

00:01:37,130 --> 00:01:34,820

International UFO Congress convention

25

00:01:39,830 --> 00:01:37,140

also this week don't forget to check out

26

00:01:43,609 --> 00:01:39,840

Charles lair's blog which will be behind

27

00:01:46,429 --> 00:01:43,619

the scenes of UFO cover-ups but before

28

00:01:48,530 --> 00:01:46,439

we begin and pull out Mr Rojas there's

29

00:01:50,569 --> 00:01:48,540

someone special who I know Dave Altman's

30

00:01:52,789 --> 00:01:50,579

gonna be very excited about uh who'd

31

00:01:54,649 --> 00:01:52,799

like to say hi back with a stronger

32

00:01:56,330 --> 00:01:54,659

heart your hostess with the mostest

33

00:02:01,130 --> 00:01:56,340

ladies and gentlemen and all pronouns in

34

00:02:04,249 --> 00:02:01,140

between we bring you Martin Willis 2.0

35

00:02:06,590 --> 00:02:04,259

thank you yes I'm all rebuilt and

36

00:02:08,870 --> 00:02:06,600

um I'm really feeling good you know but

37

00:02:11,690 --> 00:02:08,880

I I gotta tell you as my friend Phil

38

00:02:12,470 --> 00:02:11,700

says some can no longer be a shirtless

39

00:02:15,589 --> 00:02:12,480

model

40

00:02:17,210 --> 00:02:15,599

ah so it was kind of slow anyway so you

41

00:02:18,650 --> 00:02:17,220

know what door closes a window opens

42

00:02:21,110 --> 00:02:18,660

that's right

43

00:02:24,110 --> 00:02:21,120

no uh I do want to say to everyone out

44

00:02:26,089 --> 00:02:24,120

there the outpouring that I've had the

45

00:02:28,250 --> 00:02:26,099

hundreds of emails have had from people

46

00:02:31,250 --> 00:02:28,260

and the messages in all different ways

47

00:02:33,410 --> 00:02:31,260

thank you so much for your kind words of

48

00:02:34,430 --> 00:02:33,420

uh I I think it really helped me through

49

00:02:35,990 --> 00:02:34,440

everyone

50

00:02:39,110 --> 00:02:36,000

um because

51
00:02:42,050 --> 00:02:39,120
um I I don't know I I I'm in I improve

52
00:02:44,809 --> 00:02:42,060
so quickly after the surgery and we'll

53
00:02:48,050 --> 00:02:44,819
say next week I'm going to be on with um

54
00:02:51,170 --> 00:02:48,060
with you and uh John Burroughs I'm I'm

55
00:02:54,290 --> 00:02:51,180
not cognitive 100 but I'm I'm really

56
00:02:56,270 --> 00:02:54,300
getting there quickly uh and and every

57
00:02:58,309 --> 00:02:56,280
which way so

58
00:03:01,970 --> 00:02:58,319
um it's been it's been quite a journey

59
00:03:04,729 --> 00:03:01,980
and I I uh hope no one has to go through

60
00:03:06,110 --> 00:03:04,739
what I did um that's listening you're

61
00:03:07,430 --> 00:03:06,120
talking about the heart surgery are you

62
00:03:08,930 --> 00:03:07,440
talking about having to listen to me for

63
00:03:11,830 --> 00:03:08,940

three weeks oh yeah that was the worst

64

00:03:16,610 --> 00:03:15,050

I also want to say thank you Dean

65

00:03:19,670 --> 00:03:16,620

um I had thought about

66

00:03:22,309 --> 00:03:19,680

um you know I I never skipped a week and

67

00:03:23,990 --> 00:03:22,319

when I had to get rushed to the hospital

68

00:03:26,809 --> 00:03:24,000

and all that

69

00:03:29,210 --> 00:03:26,819

um I posted I'm sorry no show this week

70

00:03:30,710 --> 00:03:29,220

without any reason why and then I

71

00:03:32,330 --> 00:03:30,720

thought well what I'm what am I going to

72

00:03:35,690 --> 00:03:32,340

do it's going to be at least a month

73

00:03:38,270 --> 00:03:35,700

before I come back should I just have no

74

00:03:40,789 --> 00:03:38,280

shows and then

75

00:03:43,369 --> 00:03:40,799

um I thought uh I thought of Alejandro

76

00:03:45,170 --> 00:03:43,379

and you both at the same time but

77

00:03:48,350 --> 00:03:45,180

Alejandro I know had the UFO Congress

78

00:03:50,649 --> 00:03:48,360

coming up and then you have been such a

79

00:03:53,509 --> 00:03:50,659

great friend these last number of years

80

00:03:56,390 --> 00:03:53,519

that I reached out to you and you said

81

00:03:57,949 --> 00:03:56,400

sure and uh what a guy you are thank you

82

00:03:59,750 --> 00:03:57,959

so much

83

00:04:02,210 --> 00:03:59,760

that's that's the aliens right there

84

00:04:04,729 --> 00:04:02,220

saying they agree 100

85

00:04:06,470 --> 00:04:04,739

um I uh I really appreciate

86

00:04:08,630 --> 00:04:06,480

um the opportunity and also your

87

00:04:10,789 --> 00:04:08,640

listeners are phenomenal and I know a

88

00:04:13,070 --> 00:04:10,799

good chunk of them so that's just been

89

00:04:15,710 --> 00:04:13,080

you know fantastic to uh to be an

90

00:04:18,710 --> 00:04:15,720

extension of you Martin in any way I can

91

00:04:21,050 --> 00:04:18,720

and um so I'm just really really happy

92

00:04:23,330 --> 00:04:21,060

to see you looking so great thank you

93

00:04:25,790 --> 00:04:23,340

cheeks look even Rosy well that was

94

00:04:27,350 --> 00:04:25,800

makeup but yeah that's it yeah I was in

95

00:04:29,810 --> 00:04:27,360

makeup for a little while before yeah

96

00:04:31,850 --> 00:04:29,820

but anyway

97

00:04:32,990 --> 00:04:31,860

um so I'm gonna be back next week Dean

98

00:04:35,689 --> 00:04:33,000

and I are going to do the show together

99

00:04:38,270 --> 00:04:35,699

and then I'm gonna baby step my way back

100

00:04:40,310 --> 00:04:38,280

to doing uh so with John Burroughs next

101
00:04:42,469 --> 00:04:40,320
week and uh James Fox the week after

102
00:04:44,570 --> 00:04:42,479
I'll be on my own then hopefully the

103
00:04:46,550 --> 00:04:44,580
training wheels will be off but anyway

104
00:04:49,129 --> 00:04:46,560
all right you have a great show tonight

105
00:04:52,670 --> 00:04:49,139
with Alejandro thank you brother be well

106
00:04:55,370 --> 00:04:52,680
talk soon take care thanks

107
00:04:57,409 --> 00:04:55,380
all right so here we go here is

108
00:04:59,450 --> 00:04:57,419
Alejandro

109
00:05:02,150 --> 00:04:59,460
it's me

110
00:05:04,670 --> 00:05:02,160
good I'm glad it's not someone else

111
00:05:07,370 --> 00:05:04,680
how are you man I'm doing pretty good

112
00:05:11,629 --> 00:05:07,380
always it's great to see Martin because

113
00:05:13,189 --> 00:05:11,639

uh you know if he really had if it

114

00:05:14,870 --> 00:05:13,199

had been worse there would have been

115

00:05:17,330 --> 00:05:14,880

kind of a string of heart attacks I

116

00:05:18,950 --> 00:05:17,340

definitely when I got that text that he

117

00:05:21,409 --> 00:05:18,960

was headed to the hospital had my own

118

00:05:24,230 --> 00:05:21,419

heart palpitations

119

00:05:27,290 --> 00:05:24,240

um it was it was a scary moment thank

120

00:05:29,810 --> 00:05:27,300

God that he's doing doing so well yeah

121

00:05:31,909 --> 00:05:29,820

well um you guys have always been an

122

00:05:36,409 --> 00:05:31,919

awesome uh tag team with this as well

123

00:05:38,029 --> 00:05:36,419

and so um I I kind of feel like it's a

124

00:05:40,670 --> 00:05:38,039

community that that came together and

125

00:05:41,990 --> 00:05:40,680

rallied behind him and uh you know 10

126

00:05:45,409 --> 00:05:42,000

years is a long time and you've been at

127

00:05:47,450 --> 00:05:45,419

this a long time as well so um yeah

128

00:05:50,029 --> 00:05:47,460

we're here we are we are back here we

129

00:05:52,670 --> 00:05:50,039

are now you did forget one of my titles

130

00:05:55,490 --> 00:05:52,680

because I've got so many but I gotta add

131

00:05:58,670 --> 00:05:55,500

this one just because I'm so proud of it

132

00:06:01,010 --> 00:05:58,680

and the team but also a board member and

133

00:06:03,590 --> 00:06:01,020

the director of PR for the scientific

134

00:06:06,890 --> 00:06:03,600

Coalition for UAP studies I did

135

00:06:10,129 --> 00:06:06,900

organization also known as the SCU now

136

00:06:12,469 --> 00:06:10,139

you did have to fit in a couple witty uh

137

00:06:14,270 --> 00:06:12,479

jokes there and I I really appreciate

138

00:06:15,650 --> 00:06:14,280

them they're very funny

139

00:06:18,529 --> 00:06:15,660

um thank you for that

140

00:06:20,210 --> 00:06:18,539

great thank you I appreciate that

141

00:06:23,450 --> 00:06:20,220

um yeah I was going to talk about that

142

00:06:25,850 --> 00:06:23,460

but first I want to kind of I guess just

143

00:06:28,370 --> 00:06:25,860

Dive Right into you're fresh from

144

00:06:29,870 --> 00:06:28,380

finishing this year's

145

00:06:31,969 --> 00:06:29,880

um International UFO Congress convention

146

00:06:34,670 --> 00:06:31,979

what's unique about this one is that you

147

00:06:38,150 --> 00:06:34,680

had been shut down for two years

148

00:06:40,969 --> 00:06:38,160

yeah and just on the last one was 2019.

149

00:06:43,189 --> 00:06:40,979

so this is your first in person so let's

150

00:06:45,890 --> 00:06:43,199

start off with that what was that like

151
00:06:47,870 --> 00:06:45,900
it was great it was much smaller because

152
00:06:50,629 --> 00:06:47,880
uh you know

153
00:06:53,990 --> 00:06:50,639
Karen who owns the conference wanted to

154
00:06:56,870 --> 00:06:54,000
do a 2022 conference but you know covid

155
00:06:59,510 --> 00:06:56,880
wasn't over uh you know many will argue

156
00:07:03,529 --> 00:06:59,520
we're still not out of the woods but

157
00:07:06,290 --> 00:07:03,539
um so it was on hold uh it was kind of

158
00:07:08,689 --> 00:07:06,300
last minute so she kind of had to put

159
00:07:10,909 --> 00:07:08,699
together things very quickly and uh

160
00:07:13,189 --> 00:07:10,919
luckily she did which meant for a little

161
00:07:15,650 --> 00:07:13,199
bit of a smaller group but it was kind

162
00:07:18,409 --> 00:07:15,660
of nice because it was more intimate you

163
00:07:19,790 --> 00:07:18,419

know at the SCU our our meetings are

164

00:07:22,070 --> 00:07:19,800

pretty small

165

00:07:24,409 --> 00:07:22,080

um but it's you know you have much more

166

00:07:27,110 --> 00:07:24,419

of an opportunity to to mingle with

167

00:07:30,409 --> 00:07:27,120

people and one of the great things that

168

00:07:33,770 --> 00:07:30,419

I was skeptical of uh that Karen Dead uh

169

00:07:37,309 --> 00:07:33,780

was have a costume party Halloween dance

170

00:07:40,430 --> 00:07:37,319

Ball but it turned out to be so much fun

171

00:07:43,129 --> 00:07:40,440

I mean we danced for hours with James

172

00:07:46,610 --> 00:07:43,139

you know with Randy Nickerson who else

173

00:07:49,490 --> 00:07:46,620

Travis Walton was on the dance floor

174

00:07:51,230 --> 00:07:49,500

um Katie page was out there the whole

175

00:07:53,749 --> 00:07:51,240

time so

176

00:07:56,089 --> 00:07:53,759

um I can't remember but there were a

177

00:07:58,129 --> 00:07:56,099

full dance floor of partying it was it

178

00:08:01,309 --> 00:07:58,139

was just so much fun so you'll have to

179

00:08:03,469 --> 00:08:01,319

ask James about that when you have show

180

00:08:05,990 --> 00:08:03,479

um but it was first time he did but let

181

00:08:07,730 --> 00:08:06,000

alone the speakers go ahead sorry oh

182

00:08:10,010 --> 00:08:07,740

that he did come dressed as one of the

183

00:08:12,830 --> 00:08:10,020

Men in Black but he forgot his black tie

184

00:08:15,050 --> 00:08:12,840

so he's kind of a casual that's right

185

00:08:16,909 --> 00:08:15,060

he had the shades on it was funny

186

00:08:18,890 --> 00:08:16,919

because he had the nice suit and the

187

00:08:21,230 --> 00:08:18,900

shades and everybody thought he would he

188

00:08:24,950 --> 00:08:21,240

was like a rock star or maybe like a

189

00:08:27,710 --> 00:08:24,960

Hollywood guy or James nobody was quite

190

00:08:30,469 --> 00:08:27,720

sure or all the above no one was quite

191

00:08:32,870 --> 00:08:30,479

sure what he was going with uh I think

192

00:08:35,449 --> 00:08:32,880

the last thing people thought was Men in

193

00:08:37,550 --> 00:08:35,459

Black as he's uh always got that huge

194

00:08:40,730 --> 00:08:37,560

smile and he looks too friendly to be a

195

00:08:42,649 --> 00:08:40,740

a man in Black so but uh he was looking

196

00:08:45,889 --> 00:08:42,659

good that's for sure

197

00:08:47,990 --> 00:08:45,899

so what were some of the uh

198

00:08:50,990 --> 00:08:48,000

well just just walk me through what it

199

00:08:54,530 --> 00:08:51,000

was like to to walk into the the um

200

00:08:56,449 --> 00:08:54,540

because you're in Arizona which which um

201

00:08:58,970 --> 00:08:56,459

uh location you're at now was it the

202

00:09:00,710 --> 00:08:58,980

same one that I went to in 2019 no it

203

00:09:02,509 --> 00:09:00,720

was a different uh venue it was a

204

00:09:05,389 --> 00:09:02,519

different hotel with a lake so it was

205

00:09:08,269 --> 00:09:05,399

really uh you know in a park so it was

206

00:09:10,250 --> 00:09:08,279

really nice the hotel is short staffed

207

00:09:13,370 --> 00:09:10,260

so they didn't have

208

00:09:16,250 --> 00:09:13,380

um food and luckily there were some

209

00:09:17,509 --> 00:09:16,260

local food trucks who we kind of said

210

00:09:19,670 --> 00:09:17,519

hey you know we've got a lot of people

211

00:09:20,930 --> 00:09:19,680

at this conference if you want to you

212

00:09:22,910 --> 00:09:20,940

know make sure you're over there during

213

00:09:25,370 --> 00:09:22,920

lunch and dinner and they did so it was

214

00:09:26,870 --> 00:09:25,380

kind of a food truck conference as well

215

00:09:30,050 --> 00:09:26,880

which is actually a lot of fun because

216

00:09:31,790 --> 00:09:30,060

everybody loves food trucks so nice uh

217

00:09:34,009 --> 00:09:31,800

and they had great food so that made it

218

00:09:36,050 --> 00:09:34,019

kind of different and fun

219

00:09:38,269 --> 00:09:36,060

um you know and and it added to kind of

220

00:09:40,910 --> 00:09:38,279

that intimacy and you know what's great

221

00:09:42,889 --> 00:09:40,920

about a smaller venue is you just you

222

00:09:45,829 --> 00:09:42,899

spend a lot more time with the speakers

223

00:09:47,810 --> 00:09:45,839

you know you're amongst them uh you

224

00:09:50,449 --> 00:09:47,820

don't have to scramble to get to talk to

225

00:09:52,070 --> 00:09:50,459

them uh you know so you really get to

226

00:09:54,889 --> 00:09:52,080

have a lot more conversation and

227

00:09:57,050 --> 00:09:54,899

interaction with the speakers and so so

228

00:09:58,730 --> 00:09:57,060

that's a lot of fun

229

00:10:00,650 --> 00:09:58,740

um but otherwise you know the speakers

230

00:10:03,829 --> 00:10:00,660

we had were excellent there were a lot

231

00:10:06,769 --> 00:10:03,839

of great talks um like a hang stuck Dr

232

00:10:09,650 --> 00:10:06,779

Michael Masters Katie page like I talked

233

00:10:11,030 --> 00:10:09,660

about earlier John Ramirez uh who I

234

00:10:13,670 --> 00:10:11,040

didn't know most of these people have

235

00:10:15,530 --> 00:10:13,680

known for years uh John Ramirez who you

236

00:10:19,310 --> 00:10:15,540

know is kind of new to seeing former CIA

237

00:10:21,230 --> 00:10:19,320

uh official he broke down kind of uh all

238

00:10:23,329 --> 00:10:21,240

the different government agencies that

239

00:10:26,329 --> 00:10:23,339

are involved and kind of helped people

240

00:10:28,370 --> 00:10:26,339

understand the legislation

241

00:10:30,829 --> 00:10:28,380

um that's coming up and what agencies

242

00:10:33,230 --> 00:10:30,839

will be involved and how

243

00:10:35,210 --> 00:10:33,240

um so that was very educational and

244

00:10:37,850 --> 00:10:35,220

interesting we were very lucky to have

245

00:10:39,769 --> 00:10:37,860

him I'm in the combination with him and

246

00:10:41,269 --> 00:10:39,779

Brian Bender you know a senior National

247

00:10:43,850 --> 00:10:41,279

correspondent

248

00:10:48,050 --> 00:10:43,860

um for Politico someone who's also very

249

00:10:51,650 --> 00:10:48,060

plugged in to DC uh military and the

250

00:10:53,210 --> 00:10:51,660

lawmaker side uh or as John Ramirez put

251

00:10:55,670 --> 00:10:53,220

it the executive

252

00:11:00,110 --> 00:10:55,680

um and the um

253

00:11:02,930 --> 00:11:00,120

uh Congressional uh branches uh

254

00:11:05,210 --> 00:11:02,940

it was very helpful uh to really get a

255

00:11:07,610 --> 00:11:05,220

lot of insight I think that you can't

256

00:11:10,069 --> 00:11:07,620

get anywhere else other than Maybe

257

00:11:12,470 --> 00:11:10,079

podcasts like this

258

00:11:15,350 --> 00:11:12,480

um into what's going on right now and

259

00:11:17,690 --> 00:11:15,360

there's a lot of nuance there's a lot of

260

00:11:20,569 --> 00:11:17,700

it's very complicated and I think people

261

00:11:22,850 --> 00:11:20,579

like to boil it down too this is drip

262

00:11:24,769 --> 00:11:22,860

disclosure and

263

00:11:28,730 --> 00:11:24,779

um I think that that does this word that

264

00:11:31,310 --> 00:11:28,740

gets thrown out there but uh you know

265

00:11:33,949 --> 00:11:31,320

and it's an idea that you know like

266

00:11:36,769 --> 00:11:33,959

there's some kind of Secret cabal in an

267

00:11:38,569 --> 00:11:36,779

office that's planning all of this and

268

00:11:40,190 --> 00:11:38,579

really if you look at the details and

269

00:11:42,710 --> 00:11:40,200

actually do the research and break it

270

00:11:45,050 --> 00:11:42,720

down that's not what's going on at all

271

00:11:47,870 --> 00:11:45,060

and the reason that I really like to

272

00:11:49,370 --> 00:11:47,880

focus on what's really going on is

273

00:11:52,790 --> 00:11:49,380

because there's a lot of people that are

274

00:11:55,550 --> 00:11:52,800

involved with what's gone on and it um

275

00:11:58,130 --> 00:11:55,560

kind of undermines the importance of the

276

00:12:01,009 --> 00:11:58,140

work that people like uh Chris Mellon or

277

00:12:01,970 --> 00:12:01,019

Louise Elizondo Louise Alexander of

278

00:12:04,009 --> 00:12:01,980

course being the guy who ran the

279

00:12:06,350 --> 00:12:04,019

Pentagon program and Chris melon being

280

00:12:08,870 --> 00:12:06,360

someone who's worked in government and

281

00:12:10,009 --> 00:12:08,880

intelligence even for you know the house

282

00:12:11,090 --> 00:12:10,019

committee

283

00:12:13,130 --> 00:12:11,100

um

284

00:12:15,170 --> 00:12:13,140

and has worked on Black Project or at

285

00:12:17,750 --> 00:12:15,180

least oversight of black projects you

286

00:12:20,150 --> 00:12:17,760

know it undermines the the important

287

00:12:22,370 --> 00:12:20,160

work that they did to really get us to

288

00:12:25,670 --> 00:12:22,380

this point of openness

289

00:12:28,190 --> 00:12:25,680

yeah well um it's it's interesting

290

00:12:31,910 --> 00:12:28,200

because as opposed to even when I went

291

00:12:34,610 --> 00:12:31,920

there the first time which was 2018.

292

00:12:36,290 --> 00:12:34,620

there's this this feeling of kind of

293

00:12:38,630 --> 00:12:36,300

legitimacy

294

00:12:41,150 --> 00:12:38,640

that that was just starting because

295

00:12:44,269 --> 00:12:41,160

literally the festival was was around

296

00:12:46,129 --> 00:12:44,279

February when I went to Convention and

297

00:12:48,470 --> 00:12:46,139

that was you know just a short three

298

00:12:50,509 --> 00:12:48,480

months after 2017 but it hadn't really

299

00:12:52,790 --> 00:12:50,519

reverberated it it kind of build and

300

00:12:56,750 --> 00:12:52,800

became the Juggernaut that it was later

301

00:12:59,690 --> 00:12:56,760

on but um in 2019 a year later I felt

302

00:13:02,569 --> 00:12:59,700

again I felt like wow this is now kind

303

00:13:04,009 --> 00:13:02,579

of um you know I felt like people were

304

00:13:05,030 --> 00:13:04,019

throwing their shoulders back a little

305

00:13:07,370 --> 00:13:05,040

bit more like we're feeling a little

306

00:13:10,190 --> 00:13:07,380

more proud you know that that we've been

307

00:13:11,870 --> 00:13:10,200

at this for a while and and yes this is

308

00:13:14,210 --> 00:13:11,880

now legit what we've been telling you

309

00:13:17,150 --> 00:13:14,220

all along may actually be kind of true

310

00:13:18,290 --> 00:13:17,160

and so when you're in that situation you

311

00:13:19,730 --> 00:13:18,300

have people that are coming out like

312

00:13:21,530 --> 00:13:19,740

John Ramirez

313

00:13:22,730 --> 00:13:21,540

uh that's someone that I really want to

314

00:13:24,710 --> 00:13:22,740

talk to

315

00:13:27,650 --> 00:13:24,720

um and and I want to hear how his was

316

00:13:29,569 --> 00:13:27,660

there but um did you get a sense of of

317

00:13:31,850 --> 00:13:29,579

that can you do you feel like you you're

318

00:13:32,990 --> 00:13:31,860

you can see how it's charted how the

319

00:13:34,550 --> 00:13:33,000

people have changed or the guest

320

00:13:36,050 --> 00:13:34,560

speakers or the new people coming in

321

00:13:40,370 --> 00:13:36,060

since

322

00:13:42,170 --> 00:13:40,380

uh 2017 and and yeah I mean John Ramirez

323

00:13:43,970 --> 00:13:42,180

and Brian Bender are two examples of

324

00:13:46,250 --> 00:13:43,980

people that have gotten involved since

325

00:13:49,009 --> 00:13:46,260

2017.

326

00:13:54,170 --> 00:13:49,019

um and to your point it brings an air of

327

00:13:57,470 --> 00:13:54,180

credibility uh and uh be

328

00:14:00,530 --> 00:13:57,480

not just credibility but I mean both of

329

00:14:04,370 --> 00:14:00,540

these individuals have full-on tackled

330

00:14:07,670 --> 00:14:04,380

this topic uh and try to understand kind

331

00:14:10,310 --> 00:14:07,680

of how it it's operating how you know

332

00:14:12,350 --> 00:14:10,320

it's disseminating

333

00:14:14,210 --> 00:14:12,360

um through the government and how they

334

00:14:15,350 --> 00:14:14,220

are reacting

335

00:14:16,730 --> 00:14:15,360

um because I think that's very

336

00:14:20,329 --> 00:14:16,740

interesting and they're they're both

337

00:14:23,150 --> 00:14:20,339

feeling unencumbered you know by stigma

338

00:14:24,050 --> 00:14:23,160

to do that what's really important I

339

00:14:26,930 --> 00:14:24,060

think

340

00:14:29,329 --> 00:14:26,940

no doubt you know Brian was able to talk

341

00:14:32,150 --> 00:14:29,339

about at first how how kind of strange

342

00:14:35,329 --> 00:14:32,160

it was and how he was kind of pushing

343

00:14:37,670 --> 00:14:35,339

the envelope at Politico by continuing

344

00:14:39,949 --> 00:14:37,680

to cover this topic but it was in his

345

00:14:42,110 --> 00:14:39,959

wheelhouse it was legit because you know

346

00:14:44,509 --> 00:14:42,120

he was covering what Congress people

347

00:14:46,310 --> 00:14:44,519

were saying um you know and their their

348

00:14:48,050 --> 00:14:46,320

briefings that they were getting these

349

00:14:49,490 --> 00:14:48,060

briefings and their reactions to the

350

00:14:51,710 --> 00:14:49,500

briefings

351
00:14:53,990 --> 00:14:51,720
um and then John you know coming in kind

352
00:14:56,389 --> 00:14:54,000
of as a retiree kind of feeling more

353
00:14:59,569 --> 00:14:56,399
done and explaining everything that's

354
00:15:01,069 --> 00:14:59,579
going on so uh or at least from his

355
00:15:03,290 --> 00:15:01,079
perspective

356
00:15:05,750 --> 00:15:03,300
um you know we didn't have before so

357
00:15:08,449 --> 00:15:05,760
it's really interesting and you know

358
00:15:10,009 --> 00:15:08,459
what's important about this is that we

359
00:15:11,870 --> 00:15:10,019
do have

360
00:15:15,590 --> 00:15:11,880
um government agencies getting involved

361
00:15:18,829 --> 00:15:15,600
uh really including NASA and right now

362
00:15:21,230 --> 00:15:18,839
kind of in a um

363
00:15:23,689 --> 00:15:21,240

analysis mode they're trying to

364

00:15:25,550 --> 00:15:23,699

understand the landscape you know how

365

00:15:27,170 --> 00:15:25,560

they'll get involved and what they'll do

366

00:15:30,710 --> 00:15:27,180

and how they'll analyze things and

367

00:15:33,590 --> 00:15:30,720

there's so many difficult aspects to it

368

00:15:35,569 --> 00:15:33,600

um and you know to speak to that and one

369

00:15:38,509 --> 00:15:35,579

of the things John talked about is this

370

00:15:42,350 --> 00:15:38,519

kind of evolution of groups so you know

371

00:15:44,689 --> 00:15:42,360

we had from ASAP to

372

00:15:46,910 --> 00:15:44,699

and I'm gonna just go through these this

373

00:15:49,250 --> 00:15:46,920

alphabet so without explaining them if

374

00:15:51,829 --> 00:15:49,260

that's okay uh at first just because to

375

00:15:56,269 --> 00:15:51,839

show how there's many of them from ASAP

376

00:15:59,689 --> 00:15:56,279

to atip to the UAP task force or uaptf

377

00:16:01,910 --> 00:15:59,699

and then to uh kind of what has been

378

00:16:05,090 --> 00:16:01,920

referred to as aim stock which had its

379

00:16:06,829 --> 00:16:05,100

own couple of acronyms a new one that

380

00:16:09,050 --> 00:16:06,839

was introduced in the Congressional

381

00:16:11,030 --> 00:16:09,060

hearings a few months ago and then of

382

00:16:13,310 --> 00:16:11,040

course now we're at this new acronym

383

00:16:16,250 --> 00:16:13,320

arrow and we're seeing in the

384

00:16:18,710 --> 00:16:16,260

legislation other names and titles and

385

00:16:23,750 --> 00:16:18,720

perhaps even other acronyms will pop out

386

00:16:25,850 --> 00:16:23,760

so really it demonstrates I think uh how

387

00:16:27,829 --> 00:16:25,860

uh you know there's so much activity

388

00:16:30,650 --> 00:16:27,839

going on like how do we handle this what

389

00:16:33,650 --> 00:16:30,660

do we do where do we put this group

390

00:16:35,569 --> 00:16:33,660

um where does it fit and I think what

391

00:16:37,189 --> 00:16:35,579

people don't realize is you know that

392

00:16:40,610 --> 00:16:37,199

this is a sensitive topic for the

393

00:16:43,370 --> 00:16:40,620

military in that they uh there's got to

394

00:16:45,889 --> 00:16:43,380

be some amount of secrecy uh for example

395

00:16:47,629 --> 00:16:45,899

let's say you're a guy you know uh an

396

00:16:50,329 --> 00:16:47,639

unidentified as Spider let's say the

397

00:16:52,730 --> 00:16:50,339

Nimitz case uh and then unidentified

398

00:16:55,730 --> 00:16:52,740

spotted you don't know what it is you

399

00:16:57,290 --> 00:16:55,740

don't know uh how it's being propelled

400

00:16:59,329 --> 00:16:57,300

um you don't know whose it is if it

401
00:17:01,730 --> 00:16:59,339
demonstrates a technology that has some

402
00:17:03,590 --> 00:17:01,740
sort of intelligence behind it

403
00:17:05,390 --> 00:17:03,600
um you know your first assumption needs

404
00:17:07,669 --> 00:17:05,400
to be it's an adversary a human

405
00:17:10,909 --> 00:17:07,679
adversary so you need to do the research

406
00:17:12,770 --> 00:17:10,919
and the work to figure out if that's the

407
00:17:15,230 --> 00:17:12,780
case and if it is the case how do we get

408
00:17:17,569 --> 00:17:15,240
one how do we back engineer it from what

409
00:17:20,510 --> 00:17:17,579
we've seen and then once you get to the

410
00:17:22,669 --> 00:17:20,520
point and this is the hard part where

411
00:17:25,150 --> 00:17:22,679
and how do you get to the point to say

412
00:17:28,970 --> 00:17:25,160
that that's not human

413
00:17:31,669 --> 00:17:28,980

and you're going to want to be one

414

00:17:33,650 --> 00:17:31,679

thousand percent sure that that is not

415

00:17:35,930 --> 00:17:33,660

Chinese or Russian before you say it's

416

00:17:37,610 --> 00:17:35,940

not Chinese or Russian because there's

417

00:17:40,549 --> 00:17:37,620

whole this whole counterintelligence

418

00:17:43,070 --> 00:17:40,559

world and that's why this is fitting

419

00:17:47,090 --> 00:17:43,080

into the intelligence Arena right now

420

00:17:49,070 --> 00:17:47,100

because you know we if let's say we did

421

00:17:51,169 --> 00:17:49,080

find out it's Chinese we don't want to

422

00:17:52,970 --> 00:17:51,179

tell the Chinese that we've spotted one

423

00:17:56,330 --> 00:17:52,980

of their devices and we're figuring out

424

00:17:57,650 --> 00:17:56,340

what it is you know Alejandro I'm sorry

425

00:17:59,750 --> 00:17:57,660

I'm going to pause you work we've been

426

00:18:01,789 --> 00:17:59,760

having a little bit of mic issues and

427

00:18:02,450 --> 00:18:01,799

you're getting pixelated

428

00:18:04,130 --> 00:18:02,460

um

429

00:18:06,049 --> 00:18:04,140

and so as soon as I say that you start

430

00:18:08,930 --> 00:18:06,059

to look a little bit better but we might

431

00:18:10,970 --> 00:18:08,940

have to have you call back in because

432

00:18:12,409 --> 00:18:10,980

it's not just your mic it's the image

433

00:18:15,289 --> 00:18:12,419

and everything

434

00:18:16,909 --> 00:18:15,299

um go ahead and try it now

435

00:18:18,950 --> 00:18:16,919

hello

436

00:18:20,690 --> 00:18:18,960

there you go okay we're working out

437

00:18:23,750 --> 00:18:20,700

otherwise we may need to get you closer

438

00:18:25,570 --> 00:18:23,760

to the router yeah yeah we're good okay

439

00:18:28,490 --> 00:18:25,580

sorry go ahead you were talking about uh

440

00:18:32,270 --> 00:18:28,500

yeah I've got full bars here

441

00:18:35,150 --> 00:18:32,280

okay four bars baby yeah but yeah uh so

442

00:18:36,830 --> 00:18:35,160

yeah so um where was I so yeah you know

443

00:18:39,890 --> 00:18:36,840

even if we do know it's Chinese or

444

00:18:41,390 --> 00:18:39,900

Russian we don't want them to say that

445

00:18:43,130 --> 00:18:41,400

so

446

00:18:45,650 --> 00:18:43,140

um

447

00:18:47,870 --> 00:18:45,660

so there's just there's a lot of nuance

448

00:18:51,470 --> 00:18:47,880

a lot of difficulty there that's why I

449

00:18:53,990 --> 00:18:51,480

think you know it becomes difficult for

450

00:18:56,150 --> 00:18:54,000

the military to share a lot of detail

451

00:18:58,669 --> 00:18:56,160

and figure out what to share

452

00:19:00,710 --> 00:18:58,679

but the benefit of what's going on and

453

00:19:02,930 --> 00:19:00,720

where I think we really need to pay

454

00:19:06,110 --> 00:19:02,940

attention is the science that's what's

455

00:19:08,690 --> 00:19:06,120

so exciting about SCU and NASA getting

456

00:19:11,150 --> 00:19:08,700

involved is that science by its nature

457

00:19:13,250 --> 00:19:11,160

is transparent whatever the conspiracy

458

00:19:15,230 --> 00:19:13,260

theorists may feel

459

00:19:18,049 --> 00:19:15,240

um you know science doesn't work without

460

00:19:20,270 --> 00:19:18,059

transparency when you write a paper and

461

00:19:22,789 --> 00:19:20,280

I think this goes uh you know back to

462

00:19:26,270 --> 00:19:22,799

the Ukraine or even some of the ASAP

463

00:19:29,630 --> 00:19:26,280

material when you are making an argument

464

00:19:33,770 --> 00:19:29,640

a scientific argument that you know this

465

00:19:35,570 --> 00:19:33,780

metal is unusual or that we're spotting

466

00:19:37,850 --> 00:19:35,580

UFOs

467

00:19:40,250 --> 00:19:37,860

um you write a paper that makes the

468

00:19:42,950 --> 00:19:40,260

strongest scientific argument then you

469

00:19:45,950 --> 00:19:42,960

release that paper and it gets credit

470

00:19:48,350 --> 00:19:45,960

get scrutinized by your peers that's how

471

00:19:50,570 --> 00:19:48,360

it works so when Abby Loeb is

472

00:19:52,190 --> 00:19:50,580

scrutinizing the Ukrainian paper that's

473

00:19:54,350 --> 00:19:52,200

his job that's what he's supposed to do

474

00:19:56,930 --> 00:19:54,360

that's how science work that's his duty

475

00:19:58,610 --> 00:19:56,940

as a scientist

476
00:20:00,890 --> 00:19:58,620
um and you know what we're watching

477
00:20:02,690 --> 00:20:00,900
there is science doing its work and and

478
00:20:04,490 --> 00:20:02,700
you know maybe this is a good precursor

479
00:20:07,130 --> 00:20:04,500
because in the future there's going to

480
00:20:08,630 --> 00:20:07,140
be continuous continue to be UAP Papers

481
00:20:11,029 --> 00:20:08,640
written and of course you're going to

482
00:20:13,549 --> 00:20:11,039
have a lot of uh enthusiasts for saying

483
00:20:15,049 --> 00:20:13,559
hey that's definitely a UFO

484
00:20:16,850 --> 00:20:15,059
um but uh you know why are these

485
00:20:18,169 --> 00:20:16,860
scientists saying it's not well you got

486
00:20:21,169 --> 00:20:18,179
to read the paper and look at the

487
00:20:22,730 --> 00:20:21,179
details and see what they're arguing and

488
00:20:24,409 --> 00:20:22,740

you know that's how science works and

489

00:20:25,970 --> 00:20:24,419

that's where we're really gonna I think

490

00:20:28,310 --> 00:20:25,980

make exciting

491

00:20:31,370 --> 00:20:28,320

um discoveries because as that process

492

00:20:34,789 --> 00:20:31,380

goes on there will be those cases that

493

00:20:36,710 --> 00:20:34,799

will be more difficult to explain and

494

00:20:39,529 --> 00:20:36,720

that's when we'll have a consensus that

495

00:20:42,049 --> 00:20:39,539

hey guys this really is a weird case we

496

00:20:43,730 --> 00:20:42,059

really don't know what this one is

497

00:20:46,250 --> 00:20:43,740

um and then you're gonna be you know

498

00:20:49,250 --> 00:20:46,260

that establishes a scientific

499

00:20:51,730 --> 00:20:49,260

um you know um well they call it like a

500

00:20:54,470 --> 00:20:51,740

theory or a theorem but that establishes

501
00:20:57,409 --> 00:20:54,480
that uh we've got a genuine mystery on

502
00:21:00,710 --> 00:20:57,419
our hands yeah some of the things that

503
00:21:03,770 --> 00:21:00,720
that I keep coming back to again and

504
00:21:06,350 --> 00:21:03,780
again is um like as an example Randy

505
00:21:08,150 --> 00:21:06,360
nickerson's on a Punk podcast and

506
00:21:10,669 --> 00:21:08,160
there's this guy who is a scientist on

507
00:21:13,130 --> 00:21:10,679
it and he talks about you know Dave

508
00:21:16,490 --> 00:21:13,140
fraver and and these other Pilots that

509
00:21:19,789 --> 00:21:16,500
have seen these um these crafts craft

510
00:21:20,390 --> 00:21:19,799
and he says the scientist said

511
00:21:23,390 --> 00:21:20,400
um

512
00:21:25,370 --> 00:21:23,400
you know these guys meaning fraver and

513
00:21:26,510 --> 00:21:25,380

Pilots you know they're not scientists

514

00:21:27,409 --> 00:21:26,520

so they don't really know what they're

515

00:21:29,630 --> 00:21:27,419

saying

516

00:21:30,890 --> 00:21:29,640

and my question if I'd been there would

517

00:21:34,909 --> 00:21:30,900

have been

518

00:21:36,110 --> 00:21:34,919

are you a pilot Mr scientist or you're

519

00:21:37,549 --> 00:21:36,120

not a pilot

520

00:21:39,230 --> 00:21:37,559

so you've never been up there and you

521

00:21:42,770 --> 00:21:39,240

don't know the difference between 250

522

00:21:44,930 --> 00:21:42,780

yards and you know 2.5 miles

523

00:21:47,390 --> 00:21:44,940

so it's it's kind of like some people

524

00:21:49,850 --> 00:21:47,400

are trying to take ownership of this

525

00:21:51,169 --> 00:21:49,860

like like as Neil deGrasse Tyson he

526
00:21:53,149 --> 00:21:51,179
seems to project

527
00:21:54,710 --> 00:21:53,159
when these things are real

528
00:21:57,649 --> 00:21:54,720
I'll let you know

529
00:21:59,750 --> 00:21:57,659
until then just assume that you know

530
00:22:01,070 --> 00:21:59,760
these are just unique little sightings

531
00:22:02,450 --> 00:22:01,080
people there's so much stuff we don't

532
00:22:04,549 --> 00:22:02,460
know about the universe blah blah and

533
00:22:07,730 --> 00:22:04,559
everything else gets thrown in

534
00:22:10,430 --> 00:22:07,740
um and so I feel like when we're talking

535
00:22:13,370 --> 00:22:10,440
about a government like the USA power

536
00:22:15,470 --> 00:22:13,380
government that says it isn't us and it

537
00:22:16,549 --> 00:22:15,480
isn't our adversaries and it's not our

538
00:22:19,430 --> 00:22:16,559

allies

539

00:22:20,810 --> 00:22:19,440

that's a clear statement that is like a

540

00:22:22,250 --> 00:22:20,820

conscious decision to do that's not

541

00:22:25,190 --> 00:22:22,260

something that as you know is thrown out

542

00:22:28,370 --> 00:22:25,200

lightly and so the conspiracy theorists

543

00:22:30,289 --> 00:22:28,380

may you know pull up a bowl of this and

544

00:22:32,630 --> 00:22:30,299

Chow Down and say well

545

00:22:35,270 --> 00:22:32,640

now that they've figured out how to

546

00:22:36,289 --> 00:22:35,280

create technology that flies around like

547

00:22:38,450 --> 00:22:36,299

this

548

00:22:40,010 --> 00:22:38,460

it's the perfect you know moment to say

549

00:22:42,890 --> 00:22:40,020

what you're going to be seeing from now

550

00:22:44,750 --> 00:22:42,900

on we are all identifying it as UFO it

551
00:22:45,770 --> 00:22:44,760
has nothing to do with us

552
00:22:48,289 --> 00:22:45,780
um so if it's something that's

553
00:22:50,750 --> 00:22:48,299
weaponized if one of these UFOs start to

554
00:22:55,070 --> 00:22:50,760
drop something and we see something you

555
00:22:57,590 --> 00:22:55,080
know where they're doing destruction

556
00:22:59,450 --> 00:22:57,600
for me that that's when I go okay now we

557
00:23:02,029 --> 00:22:59,460
might have a a thread there in the

558
00:23:04,010 --> 00:23:02,039
conspiracy theory but until then it

559
00:23:06,470 --> 00:23:04,020
seems like they're asking for for help

560
00:23:08,810 --> 00:23:06,480
and and you know more importantly when I

561
00:23:11,270 --> 00:23:08,820
look at these people that are testifying

562
00:23:12,409 --> 00:23:11,280
everything I'm going okay that was last

563
00:23:15,590 --> 00:23:12,419

gym

564

00:23:17,570 --> 00:23:15,600

and maybe you can answer this last June

565

00:23:20,029 --> 00:23:17,580

we had the hearing the US Congress

566

00:23:21,470 --> 00:23:20,039

hearing so since the ridicule factor

567

00:23:23,990 --> 00:23:21,480

which was mentioned four times has been

568

00:23:26,029 --> 00:23:24,000

removed where are we now are we seeing

569

00:23:28,250 --> 00:23:26,039

any more footage coming from our

570

00:23:29,690 --> 00:23:28,260

servicemen and service women that we

571

00:23:31,490 --> 00:23:29,700

didn't see before because of the

572

00:23:32,990 --> 00:23:31,500

ridicule factor and how is that going up

573

00:23:34,850 --> 00:23:33,000

because I would still think that would

574

00:23:38,230 --> 00:23:34,860

be filtered through the government

575

00:23:41,390 --> 00:23:38,240

through the you know their superiors

576

00:23:43,490 --> 00:23:41,400

so uh as far as video and that's kind of

577

00:23:46,669 --> 00:23:43,500

what I mean too uh with the secrecy

578

00:23:49,090 --> 00:23:46,679

Factor so John Greenwald you know I sent

579

00:23:51,830 --> 00:23:49,100

him Freedom of Information

580

00:23:54,830 --> 00:23:51,840

work lately where he got the Navy to

581

00:23:57,409 --> 00:23:54,840

admit we do have 22 other UAP videos

582

00:23:59,330 --> 00:23:57,419

however we're not releasing them you're

583

00:24:01,430 --> 00:23:59,340

never going to see him was kind of the

584

00:24:03,710 --> 00:24:01,440

message that he got

585

00:24:05,870 --> 00:24:03,720

um will we never see them who knows it

586

00:24:08,870 --> 00:24:05,880

would take uh Congress can certainly say

587

00:24:11,510 --> 00:24:08,880

show that to the public but you know

588

00:24:14,450 --> 00:24:11,520

what happens like in the last hearings

589

00:24:16,370 --> 00:24:14,460

under the classified or the secret you

590

00:24:18,529 --> 00:24:16,380

know closed doors section of the

591

00:24:20,450 --> 00:24:18,539

hearings is the military saying look

592

00:24:22,730 --> 00:24:20,460

we've got these videos here's why we

593

00:24:24,049 --> 00:24:22,740

can't show these to the public and you

594

00:24:26,270 --> 00:24:24,059

know and then it's up to the Congress

595

00:24:29,210 --> 00:24:26,280

people to decide uh whether they're

596

00:24:32,570 --> 00:24:29,220

going to take that expert opinions of

597

00:24:35,330 --> 00:24:32,580

the people uh giving them information or

598

00:24:38,029 --> 00:24:35,340

you know work towards sharing

599

00:24:40,070 --> 00:24:38,039

information with the public now what's

600

00:24:42,169 --> 00:24:40,080

interesting is even Chris Mellon who I

601
00:24:44,029 --> 00:24:42,179
mentioned earlier had earlier said

602
00:24:46,850 --> 00:24:44,039
Congress you really need to tackle this

603
00:24:48,950 --> 00:24:46,860
albeit it's classified information and

604
00:24:51,230 --> 00:24:48,960
it'll probably have to be behind closed

605
00:24:54,409 --> 00:24:51,240
doors and then you know people like

606
00:24:56,750 --> 00:24:54,419
Jilla brand came forward and said no uh

607
00:24:59,390 --> 00:24:56,760
we will have them look at it but we want

608
00:25:02,930 --> 00:24:59,400
a public-facing portion of this as well

609
00:25:04,430 --> 00:25:02,940
and so they asked for the report another

610
00:25:07,310 --> 00:25:04,440
report supposed to come in the next

611
00:25:09,890 --> 00:25:07,320
couple of weeks we'll see what happens

612
00:25:12,289 --> 00:25:09,900
um so they've kind of had to say no we

613
00:25:15,590 --> 00:25:12,299

want to share stuff publicly so we may

614

00:25:18,770 --> 00:25:15,600

see or may not see those videos but um

615

00:25:19,789 --> 00:25:18,780

it will kind of be a struggle there

616

00:25:22,190 --> 00:25:19,799

um

617

00:25:24,289 --> 00:25:22,200

on that end I guess to answer the

618

00:25:25,370 --> 00:25:24,299

question there

619

00:25:27,169 --> 00:25:25,380

um

620

00:25:29,390 --> 00:25:27,179

yeah I think that answers your question

621

00:25:31,250 --> 00:25:29,400

right yeah yeah I mean I'm always

622

00:25:32,870 --> 00:25:31,260

wondering

623

00:25:35,450 --> 00:25:32,880

what is that footage that they can't

624

00:25:37,610 --> 00:25:35,460

show us Does it include a radar system

625

00:25:39,669 --> 00:25:37,620

in the foreground you know in the shot

626
00:25:41,930 --> 00:25:39,679
because it's video what is it because

627
00:25:48,590 --> 00:25:41,940
even today

628
00:25:51,950 --> 00:25:48,600
underneath the craft rivets and all yeah

629
00:25:53,210 --> 00:25:51,960
photo our video so for me I look at that

630
00:25:54,590 --> 00:25:53,220
and I go well the only people that would

631
00:25:56,390 --> 00:25:54,600
probably have that who are flying around

632
00:25:59,570 --> 00:25:56,400
the airspace a hell of a lot and do have

633
00:26:01,370 --> 00:25:59,580
high-end technology to monitor this

634
00:26:06,169 --> 00:26:01,380
is our government

635
00:26:09,529 --> 00:26:06,179
but exactly I I really kind of not not

636
00:26:11,269 --> 00:26:09,539
to to say well it's just this but I do

637
00:26:13,610 --> 00:26:11,279
wonder how much of this my feeling is

638
00:26:16,130 --> 00:26:13,620

that the agenda has always been probably

639

00:26:17,390 --> 00:26:16,140

uh controlled and always will be by

640

00:26:20,870 --> 00:26:17,400

those who are visiting doing the

641

00:26:22,130 --> 00:26:20,880

drive-bys and um and so it seems like

642

00:26:24,649 --> 00:26:22,140

they're controlling the footage I mean

643

00:26:26,390 --> 00:26:24,659

we don't hear of schoolyards yeah that

644

00:26:28,549 --> 00:26:26,400

are having these Mass sightings anymore

645

00:26:31,310 --> 00:26:28,559

and yeah maybe that's because kids have

646

00:26:33,529 --> 00:26:31,320

cell phones why is that I think you make

647

00:26:35,870 --> 00:26:33,539

a really good point um you know a lot of

648

00:26:37,970 --> 00:26:35,880

the Skeptics will say you know why is

649

00:26:40,490 --> 00:26:37,980

the footage so terrible why don't we

650

00:26:43,190 --> 00:26:40,500

have that data and

651
00:26:45,110 --> 00:26:43,200
um I would argue that you know we don't

652
00:26:46,789 --> 00:26:45,120
know about the nature of the phenomena

653
00:26:49,070 --> 00:26:46,799
or those controlling it if there's

654
00:26:51,230 --> 00:26:49,080
intelli and intelligence behind it

655
00:26:53,870 --> 00:26:51,240
especially one that is much further

656
00:26:56,210 --> 00:26:53,880
Beyond us I would imagine they would

657
00:26:58,490 --> 00:26:56,220
also understand the importance of making

658
00:27:01,190 --> 00:26:58,500
sure we don't get enough data that if

659
00:27:03,590 --> 00:27:01,200
they don't want to share uh you know

660
00:27:06,409 --> 00:27:03,600
enough data where we can make a

661
00:27:08,330 --> 00:27:06,419
conclusion that about them then they can

662
00:27:10,850 --> 00:27:08,340
operate in a manner in which we don't

663
00:27:12,890 --> 00:27:10,860

gather that data and I'm starting to use

664

00:27:15,289 --> 00:27:12,900

that term and I want to get kind of get

665

00:27:17,029 --> 00:27:15,299

back to your earlier question about data

666

00:27:20,149 --> 00:27:17,039

because that's what it really is all

667

00:27:22,549 --> 00:27:20,159

about Gathering that data and to your

668

00:27:24,289 --> 00:27:22,559

point earlier you said a scientist who

669

00:27:26,870 --> 00:27:24,299

said you know a pilot's just a pilot

670

00:27:29,870 --> 00:27:26,880

that's going a little far but he kind of

671

00:27:32,269 --> 00:27:29,880

has a little bit of a of a of a argument

672

00:27:34,990 --> 00:27:32,279

there in that you know what everybody's

673

00:27:37,610 --> 00:27:35,000

doing is gathering data scientific

674

00:27:39,789 --> 00:27:37,620

analysis of that data is different

675

00:27:41,750 --> 00:27:39,799

depending on who's looking at it

676

00:27:43,490 --> 00:27:41,760

scientists will look at the data

677

00:27:45,230 --> 00:27:43,500

differently than intelligence will look

678

00:27:47,269 --> 00:27:45,240

at it which will look at it differently

679

00:27:48,830 --> 00:27:47,279

than journalists will look at it with

680

00:27:50,330 --> 00:27:48,840

when you're a scientist you need

681

00:27:53,210 --> 00:27:50,340

scientific data you need something

682

00:27:55,490 --> 00:27:53,220

physical to work with that's why you

683

00:27:57,890 --> 00:27:55,500

know people even though some ufologists

684

00:27:59,269 --> 00:27:57,900

get mad that's why Abby Loeb is like I'm

685

00:28:00,590 --> 00:27:59,279

throwing out everything you guys have

686

00:28:03,230 --> 00:28:00,600

done because it's not good enough and

687

00:28:05,510 --> 00:28:03,240

I've got to do my own when it's there's

688

00:28:07,490 --> 00:28:05,520

a scientific perspective he's exactly

689

00:28:09,470 --> 00:28:07,500

right you know to your point you made

690

00:28:11,210 --> 00:28:09,480

earlier the government's the only one

691

00:28:13,970 --> 00:28:11,220

that has these systems that can really

692

00:28:15,710 --> 00:28:13,980

gather all this information that would

693

00:28:17,870 --> 00:28:15,720

be necessary for scientists but that's

694

00:28:20,510 --> 00:28:17,880

classified so scientists don't have

695

00:28:23,750 --> 00:28:20,520

access to it so groups like Abby Loeb or

696

00:28:25,850 --> 00:28:23,760

uapx are looking at how do we use tools

697

00:28:27,649 --> 00:28:25,860

that can gather more information so if

698

00:28:30,890 --> 00:28:27,659

you saw that movie tear in the sky where

699

00:28:32,870 --> 00:28:30,900

those upx guys have a roof full of

700

00:28:35,149 --> 00:28:32,880

different equipment and that's what you

701
00:28:38,090 --> 00:28:35,159
need so if something flies over a video

702
00:28:39,950 --> 00:28:38,100
is not enough you need IR you need to

703
00:28:42,710 --> 00:28:39,960
scan it with radio you need to see if

704
00:28:44,810 --> 00:28:42,720
it's emitting any radiation you need to

705
00:28:47,029 --> 00:28:44,820
really try to gather as much scientific

706
00:28:49,490 --> 00:28:47,039
data about that citing as possible to

707
00:28:52,070 --> 00:28:49,500
make any conclusions or figure something

708
00:28:53,930 --> 00:28:52,080
out so that's what Abby Lopes doing too

709
00:28:56,450 --> 00:28:53,940
they're using systems that have never

710
00:28:58,390 --> 00:28:56,460
been used for this before now it's

711
00:29:01,310 --> 00:28:58,400
different when you get to intelligence

712
00:29:04,190 --> 00:29:01,320
when uh the military is looking at this

713
00:29:05,930 --> 00:29:04,200

from a military perspective they're

714

00:29:07,789 --> 00:29:05,940

looking at two things they're looking at

715

00:29:10,070 --> 00:29:07,799

how do we exploit these technologies

716

00:29:11,690 --> 00:29:10,080

that we're seeing and also how do we do

717

00:29:14,930 --> 00:29:11,700

what is the nature of them how do we

718

00:29:16,850 --> 00:29:14,940

defend ourselves so in that Arena the

719

00:29:19,130 --> 00:29:16,860

pilot testimony is going to be extremely

720

00:29:21,110 --> 00:29:19,140

important you know because this is an

721

00:29:23,630 --> 00:29:21,120

expert this is someone who's trained to

722

00:29:26,090 --> 00:29:23,640

observe who's and that's that's data

723

00:29:28,789 --> 00:29:26,100

that they will be able to use more and

724

00:29:30,950 --> 00:29:28,799

the scientific Arena that the pilot can

725

00:29:33,710 --> 00:29:30,960

give them pointers say here here's what

726

00:29:36,769 --> 00:29:33,720

I saw and will be able to run some

727

00:29:38,450 --> 00:29:36,779

numbers like say okay if it did what he

728

00:29:41,630 --> 00:29:38,460

said it did this is the sort of energy

729

00:29:47,029 --> 00:29:41,640

it would need this is sort of uh but you

730

00:29:49,669 --> 00:29:47,039

know he's not a um uh a machine that can

731

00:29:52,130 --> 00:29:49,679

that input and output that data so there

732

00:29:53,870 --> 00:29:52,140

is a limited use that a scientists can

733

00:29:55,610 --> 00:29:53,880

use for it but then when it comes to

734

00:29:58,430 --> 00:29:55,620

journalism when you're writing for the

735

00:30:01,070 --> 00:29:58,440

general public you know then it's a even

736

00:30:03,950 --> 00:30:01,080

more compelling because it's expert this

737

00:30:06,590 --> 00:30:03,960

this pilot you know uh and I think

738

00:30:08,769 --> 00:30:06,600

that's where most of us are is chasing a

739

00:30:11,630 --> 00:30:08,779

large tic hack shaped object that can

740

00:30:14,090 --> 00:30:11,640

outclass his you know all of our jet

741

00:30:16,490 --> 00:30:14,100

fighters and really you know we'd be

742

00:30:18,950 --> 00:30:16,500

screwed if this thing attacked

743

00:30:21,049 --> 00:30:18,960

um you know first of all military has to

744

00:30:22,490 --> 00:30:21,059

assume that could be a threat

745

00:30:24,529 --> 00:30:22,500

um people get mad though the threat

746

00:30:27,889 --> 00:30:24,539

narrative it's such a

747

00:30:30,169 --> 00:30:27,899

um it's a lack of understanding of how

748

00:30:33,289 --> 00:30:30,179

the military looks at and has to look at

749

00:30:36,470 --> 00:30:33,299

at this the military isn't here to look

750

00:30:39,409 --> 00:30:36,480

for friends the military is here for to

751

00:30:42,409 --> 00:30:39,419

defend us against foes you know

752

00:30:46,490 --> 00:30:42,419

um so so that's why the military is is

753

00:30:49,370 --> 00:30:46,500

using that threat um kind of perspective

754

00:30:50,930 --> 00:30:49,380

um that's their job to do that so you

755

00:30:53,810 --> 00:30:50,940

know it's going to be different across

756

00:30:57,110 --> 00:30:53,820

all of those different Arenas yeah um we

757

00:30:59,029 --> 00:30:57,120

have a question Dr Richard uh asks how

758

00:31:02,210 --> 00:30:59,039

did the government become the be-all and

759

00:31:05,630 --> 00:31:02,220

end-all of UFO investigation

760

00:31:07,190 --> 00:31:05,640

um and I mean first blush that I don't I

761

00:31:09,529 --> 00:31:07,200

don't think they are but I think when

762

00:31:11,269 --> 00:31:09,539

the government steps in it it somehow

763

00:31:12,889 --> 00:31:11,279

gets official because now they're

764

00:31:14,510 --> 00:31:12,899

recognizing it even though we've

765

00:31:17,149 --> 00:31:14,520

recognized it for you know for

766

00:31:19,130 --> 00:31:17,159

essentially 70 years plus

767

00:31:20,930 --> 00:31:19,140

what do you what's your take on that I

768

00:31:21,590 --> 00:31:20,940

would say a couple things

769

00:31:24,769 --> 00:31:21,600

um

770

00:31:26,210 --> 00:31:24,779

first of all uh

771

00:31:28,130 --> 00:31:26,220

there's

772

00:31:29,810 --> 00:31:28,140

they have more capability one of the

773

00:31:32,210 --> 00:31:29,820

things that we've had a problem with in

774

00:31:34,789 --> 00:31:32,220

this field is a lack of resources

775

00:31:36,830 --> 00:31:34,799

there's very little money

776

00:31:38,990 --> 00:31:36,840

um and there's very little expertise and

777

00:31:41,269 --> 00:31:39,000

those experts that we do have have

778

00:31:43,070 --> 00:31:41,279

limited resource and time they can't do

779

00:31:46,010 --> 00:31:43,080

this during their day job you know

780

00:31:47,750 --> 00:31:46,020

they're doing it on off times so

781

00:31:49,310 --> 00:31:47,760

um like groups like The SCU you know

782

00:31:51,110 --> 00:31:49,320

it'll take us a couple years to write a

783

00:31:52,730 --> 00:31:51,120

paper because people are doing this on

784

00:31:54,529 --> 00:31:52,740

the weekend or when they can get time

785

00:31:56,570 --> 00:31:54,539

here or there you know a couple hours a

786

00:31:58,909 --> 00:31:56,580

week to work on a paper as opposed to

787

00:32:00,830 --> 00:31:58,919

being able to do it all day long the

788

00:32:03,889 --> 00:32:00,840

government has resources so if they look

789

00:32:06,049 --> 00:32:03,899

into this just like the government is

790

00:32:08,269 --> 00:32:06,059

you know what looks into a lot of

791

00:32:10,669 --> 00:32:08,279

experimental drugs Cancer drugs things

792

00:32:12,649 --> 00:32:10,679

like this because it's something that

793

00:32:14,990 --> 00:32:12,659

corporate uh the corporate world can't

794

00:32:17,870 --> 00:32:15,000

do or won't do because there's no

795

00:32:19,690 --> 00:32:17,880

profits associated with it

796

00:32:21,710 --> 00:32:19,700

um and you know that's the the

797

00:32:23,090 --> 00:32:21,720

capitalistic world the corporation is

798

00:32:24,409 --> 00:32:23,100

going to get involved unless they can

799

00:32:26,269 --> 00:32:24,419

make some money

800

00:32:27,649 --> 00:32:26,279

um from from that Arena so that's why

801
00:32:29,630 --> 00:32:27,659
you get the government involved with

802
00:32:32,330 --> 00:32:29,640
this kind of research who else is going

803
00:32:34,250 --> 00:32:32,340
to do it I I wouldn't I wouldn't say

804
00:32:35,690 --> 00:32:34,260
they're the end-all BL but they're

805
00:32:38,570 --> 00:32:35,700
definitely

806
00:32:40,730 --> 00:32:38,580
um uh it there's just a lot of people I

807
00:32:43,010 --> 00:32:40,740
would say it's the individuals who

808
00:32:45,529 --> 00:32:43,020
decide whether or not the government is

809
00:32:47,330 --> 00:32:45,539
the end-all be-all and most individuals

810
00:32:49,130 --> 00:32:47,340
currently I think do look for the

811
00:32:50,690 --> 00:32:49,140
government for answers on this doesn't

812
00:32:53,090 --> 00:32:50,700
have to be that way and maybe it won't

813
00:32:55,669 --> 00:32:53,100

in the future maybe organizations like

814

00:32:58,669 --> 00:32:55,679

you will get more gravitized so for

815

00:33:01,669 --> 00:32:58,679

example you know who if seti heard a

816

00:33:04,430 --> 00:33:01,679

signal and study scientists said this is

817

00:33:06,529 --> 00:33:04,440

a genuine extraterrestrial signal from a

818

00:33:09,830 --> 00:33:06,539

civilization outside of our own

819

00:33:11,870 --> 00:33:09,840

who are people going to listen to seti

820

00:33:14,810 --> 00:33:11,880

or the government if the government says

821

00:33:16,190 --> 00:33:14,820

and I don't think so I think seti is who

822

00:33:17,570 --> 00:33:16,200

people are going to listen to these are

823

00:33:20,029 --> 00:33:17,580

the scientists who have been skeptical

824

00:33:22,430 --> 00:33:20,039

the entire time you know this I think

825

00:33:24,350 --> 00:33:22,440

that's an example and if we do have an

826
00:33:26,450 --> 00:33:24,360
independent organization to come come

827
00:33:29,029 --> 00:33:26,460
out and say we've confirmed you know

828
00:33:30,710 --> 00:33:29,039
this is a technology that is beyond our

829
00:33:32,750 --> 00:33:30,720
own check out these videos and their

830
00:33:35,630 --> 00:33:32,760
scientific analysis of that video like

831
00:33:37,430 --> 00:33:35,640
SEO hopefully we'll have the gravitas or

832
00:33:39,649 --> 00:33:37,440
some organization could have the

833
00:33:42,169 --> 00:33:39,659
gravitas outside the organization or

834
00:33:44,269 --> 00:33:42,179
government to say you know this is real

835
00:33:46,850 --> 00:33:44,279
and and people will listen

836
00:33:48,950 --> 00:33:46,860
yeah it's it's something that is kind of

837
00:33:51,409 --> 00:33:48,960
like I looked at it as oh that's nice

838
00:33:52,669 --> 00:33:51,419

that the government endorses the

839

00:33:54,649 --> 00:33:52,679

existence

840

00:33:56,870 --> 00:33:54,659

we already kind of have a pretty clear

841

00:33:58,490 --> 00:33:56,880

understanding of how the government's

842

00:34:00,909 --> 00:33:58,500

involvement has been in the past nothing

843

00:34:04,190 --> 00:34:00,919

really changed from that statement right

844

00:34:05,750 --> 00:34:04,200

the the one thing that they released was

845

00:34:07,190 --> 00:34:05,760

I think six frames something like that

846

00:34:08,570 --> 00:34:07,200

something going by a cod pick really

847

00:34:10,550 --> 00:34:08,580

fast and then

848

00:34:12,589 --> 00:34:10,560

the congressman ended up going behind

849

00:34:15,649 --> 00:34:12,599

closed doors and and they might have

850

00:34:17,690 --> 00:34:15,659

seen something that you know that that

851
00:34:20,389 --> 00:34:17,700
is uh you know much more miraculous than

852
00:34:22,790 --> 00:34:20,399
that so I I I'm kind of looking at it

853
00:34:25,129 --> 00:34:22,800
and again you look at the math it's just

854
00:34:27,169 --> 00:34:25,139
you know do we have uh you know more

855
00:34:29,030 --> 00:34:27,179
sticks in this pile than we did before I

856
00:34:30,589 --> 00:34:29,040
don't I don't know I think when I think

857
00:34:32,930 --> 00:34:30,599
of any advances that are going to be

858
00:34:36,230 --> 00:34:32,940
done it'll be done by civilians or will

859
00:34:38,990 --> 00:34:36,240
be done by think tanks like SCU you have

860
00:34:42,349 --> 00:34:39,000
all these great people but as an example

861
00:34:44,570 --> 00:34:42,359
Randall Nickerson cannot

862
00:34:46,790 --> 00:34:44,580
um like if he wants to put

863
00:34:47,690 --> 00:34:46,800

some if someone wants to put cameras on

864

00:34:49,270 --> 00:34:47,700

their plane

865

00:34:51,290 --> 00:34:49,280

and be able to go out themselves

866

00:34:52,970 --> 00:34:51,300

high-tech cameras that you can buy that

867

00:34:55,190 --> 00:34:52,980

have infrared everything else you can't

868

00:34:58,310 --> 00:34:55,200

do that if you're going to do that you

869

00:35:00,470 --> 00:34:58,320

have to re-license your plane as a

870

00:35:01,910 --> 00:35:00,480

different type of uh vehicle and you

871

00:35:03,710 --> 00:35:01,920

have to get certain permits and all this

872

00:35:04,970 --> 00:35:03,720

stuff it's a big pain in the ass because

873

00:35:06,770 --> 00:35:04,980

they don't want this to fall off your

874

00:35:08,750 --> 00:35:06,780

plane and you know and drop down and

875

00:35:11,089 --> 00:35:08,760

hurt someone right but but there's

876

00:35:13,190 --> 00:35:11,099

certain things where you know that would

877

00:35:14,810 --> 00:35:13,200

be a great you know you could certainly

878

00:35:16,430 --> 00:35:14,820

put it on a boat if you're looking for

879

00:35:18,170 --> 00:35:16,440

you know something under the water under

880

00:35:19,970 --> 00:35:18,180

underwater submersibles or a night which

881

00:35:22,130 --> 00:35:19,980

is what SCU is doing

882

00:35:24,530 --> 00:35:22,140

but it's kind of hard for the average

883

00:35:26,150 --> 00:35:24,540

you know person UFO researcher UFO

884

00:35:28,130 --> 00:35:26,160

Enthusiast who wants to do that who

885

00:35:29,990 --> 00:35:28,140

wants to be out there

886

00:35:32,089 --> 00:35:30,000

um and so as a technology gets better

887

00:35:34,609 --> 00:35:32,099

and better I feel like that's gonna

888

00:35:38,450 --> 00:35:34,619

that's gonna come out this this is not

889

00:35:40,490 --> 00:35:38,460

owned by the government anymore you know

890

00:35:41,630 --> 00:35:40,500

um you know Holloman and all those other

891

00:35:44,569 --> 00:35:41,640

stories

892

00:35:45,770 --> 00:35:44,579

you know about uh crafts landing and

893

00:35:48,109 --> 00:35:45,780

stuff

894

00:35:51,109 --> 00:35:48,119

um I think if that were to happen

895

00:35:52,910 --> 00:35:51,119

you know uh today I think that you know

896

00:35:54,890 --> 00:35:52,920

I think it's susceptible to being

897

00:35:56,810 --> 00:35:54,900

captured but at the same time it's not

898

00:35:58,430 --> 00:35:56,820

and everyone's got cell phones and stuff

899

00:36:01,430 --> 00:35:58,440

and granted everyone's looking down like

900

00:36:03,410 --> 00:36:01,440

this right not looking up but

901
00:36:05,990 --> 00:36:03,420
in your estimation

902
00:36:07,250 --> 00:36:06,000
do you feel like you know what SCU and

903
00:36:08,569 --> 00:36:07,260
some of the other organizations do you

904
00:36:09,890 --> 00:36:08,579
feel like they're going to be making a a

905
00:36:10,970 --> 00:36:09,900
dent here or do you feel like the

906
00:36:12,410 --> 00:36:10,980
government's going to give us a little

907
00:36:13,370 --> 00:36:12,420
bit more and show us some more footage

908
00:36:18,530 --> 00:36:13,380
and

909
00:36:20,270 --> 00:36:18,540
things first I do want to address Dr

910
00:36:21,950 --> 00:36:20,280
Richard I saw his follow-up we don't

911
00:36:24,530 --> 00:36:21,960
have resources but haven't we without

912
00:36:26,630 --> 00:36:24,540
government a mass proof proof of

913
00:36:28,910 --> 00:36:26,640

visitation over 70 years no I don't

914

00:36:30,650 --> 00:36:28,920

think so at all I think that we've got

915

00:36:32,750 --> 00:36:30,660

anecdotal information I don't think we

916

00:36:35,329 --> 00:36:32,760

have proof of that if we had proof the

917

00:36:37,490 --> 00:36:35,339

conversation would be much different

918

00:36:39,530 --> 00:36:37,500

um I think there's a couple things I

919

00:36:42,290 --> 00:36:39,540

think that uh

920

00:36:43,970 --> 00:36:42,300

given that the government does have to

921

00:36:45,829 --> 00:36:43,980

kind of

922

00:36:48,050 --> 00:36:45,839

um worry about the classification of

923

00:36:51,230 --> 00:36:48,060

information one of the things that they

924

00:36:53,150 --> 00:36:51,240

can do is fund science

925

00:36:56,690 --> 00:36:53,160

um you know for instance work together

926

00:36:58,970 --> 00:36:56,700

with SCU and and NASA is a good start or

927

00:37:01,250 --> 00:36:58,980

maybe fund or help give funding to other

928

00:37:02,810 --> 00:37:01,260

organizations who are more openly and

929

00:37:05,510 --> 00:37:02,820

more transparent kind of looking into

930

00:37:06,530 --> 00:37:05,520

this topic I think that would be a huge

931

00:37:08,510 --> 00:37:06,540

help

932

00:37:10,910 --> 00:37:08,520

um that then we don't have to worry

933

00:37:12,890 --> 00:37:10,920

about that classified kind of side of

934

00:37:15,410 --> 00:37:12,900

things so uh that's another thing

935

00:37:16,849 --> 00:37:15,420

government can do to help uh which is

936

00:37:17,990 --> 00:37:16,859

important

937

00:37:19,370 --> 00:37:18,000

um so there are things that the

938

00:37:21,410 --> 00:37:19,380

government can do to help that we need

939

00:37:22,970 --> 00:37:21,420

to ask them to do which a lot of our

940

00:37:25,609 --> 00:37:22,980

Congress people are doing and and we

941

00:37:27,290 --> 00:37:25,619

need to encourage them to do so a lot of

942

00:37:29,750 --> 00:37:27,300

people in fact John Ramirez made the

943

00:37:31,670 --> 00:37:29,760

point that it's not the individual

944

00:37:35,030 --> 00:37:31,680

Congressman that you want to talk to

945

00:37:37,670 --> 00:37:35,040

it's the actual committees so sending

946

00:37:38,750 --> 00:37:37,680

messages to the Committees um especially

947

00:37:40,250 --> 00:37:38,760

the committee the armed services

948

00:37:42,290 --> 00:37:40,260

committees

949

00:37:44,930 --> 00:37:42,300

um to let them know you know we've got

950

00:37:47,150 --> 00:37:44,940

to uh we need to continue this sort of

951
00:37:49,130 --> 00:37:47,160
research to figure this out

952
00:37:50,750 --> 00:37:49,140
um

953
00:37:53,630 --> 00:37:50,760
I think that does that answer your

954
00:37:55,430 --> 00:37:53,640
question yeah I think so

955
00:37:57,710 --> 00:37:55,440
um so I do want to get back to some of

956
00:37:59,210 --> 00:37:57,720
the highlights uh one of the things

957
00:38:02,089 --> 00:37:59,220
um that was really exciting is that

958
00:38:04,010 --> 00:38:02,099
Randall Nickerson won the researcher UFO

959
00:38:06,230 --> 00:38:04,020
researcher of the year

960
00:38:09,050 --> 00:38:06,240
um that's fantastic and so if you can

961
00:38:12,589 --> 00:38:09,060
kind of uh talk about

962
00:38:14,750 --> 00:38:12,599
yeah I mean I like I keep saying those

963
00:38:17,750 --> 00:38:14,760

of us who have known Randall Nickerson

964

00:38:20,329 --> 00:38:17,760

uh ha and what he's been up to have been

965

00:38:22,310 --> 00:38:20,339

waiting this movie for over a decade

966

00:38:25,970 --> 00:38:22,320

and you know no clue what we're gonna

967

00:38:28,370 --> 00:38:25,980

get knowing that he's done a lot of work

968

00:38:30,890 --> 00:38:28,380

now that we've got the movie if people

969

00:38:32,750 --> 00:38:30,900

haven't seen aerial phenomena I for one

970

00:38:35,109 --> 00:38:32,760

I think I talked to you maybe the day

971

00:38:39,770 --> 00:38:35,119

after I saw it I gave you a call to say

972

00:38:43,370 --> 00:38:39,780

wow you know I was so impressed by that

973

00:38:44,870 --> 00:38:43,380

movie not just the content of the UFO

974

00:38:48,230 --> 00:38:44,880

research or the research done on the

975

00:38:50,150 --> 00:38:48,240

case but also as a filmmaker

976

00:38:51,829 --> 00:38:50,160

um you know the the heart and soul

977

00:38:54,290 --> 00:38:51,839

that's in there it's emotional and

978

00:38:55,730 --> 00:38:54,300

you're following you know Emily trim's

979

00:38:57,770 --> 00:38:55,740

Journey

980

00:39:00,710 --> 00:38:57,780

um as she goes back to for the first

981

00:39:03,190 --> 00:39:00,720

time back to to at the Ariel school you

982

00:39:05,270 --> 00:39:03,200

know now living in Canada and

983

00:39:07,849 --> 00:39:05,280

re-experiences everything and talks to

984

00:39:10,670 --> 00:39:07,859

old friends and teachers

985

00:39:13,670 --> 00:39:10,680

um it's just an amazing movie so it's a

986

00:39:17,630 --> 00:39:13,680

great amount of UFO research coupled

987

00:39:20,870 --> 00:39:17,640

with a unique and creative and emotional

988

00:39:23,390 --> 00:39:20,880

and very deep presentation of that

989

00:39:25,970 --> 00:39:23,400

material so that's why I felt you know

990

00:39:27,470 --> 00:39:25,980

it was Karen's idea Karen is the one who

991

00:39:29,870 --> 00:39:27,480

came up with who should win and I was

992

00:39:33,230 --> 00:39:29,880

like heck yeah you know just I agreed

993

00:39:36,290 --> 00:39:33,240

with her so um and I I yeah absolutely

994

00:39:39,829 --> 00:39:36,300

deserving so beautiful movie

995

00:39:42,170 --> 00:39:39,839

um and uh to have him there it was funny

996

00:39:43,970 --> 00:39:42,180

because we gave him a call we were we

997

00:39:46,910 --> 00:39:43,980

were at you know the award dinner was

998

00:39:48,710 --> 00:39:46,920

starting and he wasn't in the room so

999

00:39:49,970 --> 00:39:48,720

Karen came the calling center or you're

1000

00:39:52,370 --> 00:39:49,980

coming to dinner aren't you and he said

1001
00:39:54,650 --> 00:39:52,380
yeah when is it and she said now and he

1002
00:39:56,510 --> 00:39:54,660
said oh my gosh let me get down there so

1003
00:39:58,730 --> 00:39:56,520
he came down and he made it luckily a

1004
00:40:00,589 --> 00:39:58,740
few minutes before we I gave him the

1005
00:40:02,150 --> 00:40:00,599
award and it was one of the shortest

1006
00:40:03,290 --> 00:40:02,160
acceptance speech because he was just

1007
00:40:05,089 --> 00:40:03,300
kind of

1008
00:40:08,450 --> 00:40:05,099
um you know speechless he didn't know

1009
00:40:10,849 --> 00:40:08,460
what to say uh which was great so I you

1010
00:40:12,650 --> 00:40:10,859
know we're happy to honor him uh we

1011
00:40:14,690 --> 00:40:12,660
ended the show unfortunately we had a

1012
00:40:16,550 --> 00:40:14,700
little bit of technical difficulties but

1013
00:40:17,870 --> 00:40:16,560

um it worked out where we actually

1014

00:40:19,069 --> 00:40:17,880

interviewed

1015

00:40:23,630 --> 00:40:19,079

um

1016

00:40:27,290 --> 00:40:23,640

Karen interviewed via uh Zoom uh Emily

1017

00:40:29,109 --> 00:40:27,300

trim and LaSalle uh I'm hopefully I'm

1018

00:40:32,870 --> 00:40:29,119

saying her name right but she's the girl

1019

00:40:35,089 --> 00:40:32,880

at weisel exactly she's the one who you

1020

00:40:37,010 --> 00:40:35,099

see in the video so much that little

1021

00:40:39,530 --> 00:40:37,020

girl who's talking about the creatures

1022

00:40:41,329 --> 00:40:39,540

and her drawings and and the sense that

1023

00:40:43,490 --> 00:40:41,339

she was getting with them

1024

00:40:45,770 --> 00:40:43,500

um really really cute so it was

1025

00:40:48,349 --> 00:40:45,780

wonderful to have them there and have

1026
00:40:50,270 --> 00:40:48,359
their input and the last you know at the

1027
00:40:54,050 --> 00:40:50,280
end of the interview they were saying

1028
00:40:58,130 --> 00:40:54,060
you know about how uh grateful they were

1029
00:41:00,230 --> 00:40:58,140
for Randy and the film and uh how great

1030
00:41:04,250 --> 00:41:00,240
it was to work with him

1031
00:41:06,410 --> 00:41:04,260
um so yeah so we're really happy to uh

1032
00:41:10,910 --> 00:41:06,420
do that yeah

1033
00:41:14,089 --> 00:41:10,920
um also uh I should mention that I got a

1034
00:41:17,150 --> 00:41:14,099
chance to see uh well I had seen the

1035
00:41:21,410 --> 00:41:17,160
first cut of James Fox's uh moment of

1036
00:41:23,510 --> 00:41:21,420
contact and was just going

1037
00:41:26,270 --> 00:41:23,520
you know well here comes the second shot

1038
00:41:27,710 --> 00:41:26,280

over the Bow by Fox

1039

00:41:29,750 --> 00:41:27,720

um and what was unique about this one is

1040

00:41:31,069 --> 00:41:29,760

that it's a follow doc you know where

1041

00:41:33,470 --> 00:41:31,079

it's one story and you're following it

1042

00:41:35,030 --> 00:41:33,480

all the way through uh even though you

1043

00:41:37,430 --> 00:41:35,040

know James had worked on this story

1044

00:41:39,530 --> 00:41:37,440

years ago couldn't fit it into the

1045

00:41:43,069 --> 00:41:39,540

phenomena and then it became its own

1046

00:41:46,550 --> 00:41:43,079

thing and um he did one of his premieres

1047

00:41:48,349 --> 00:41:46,560

at at uh the international UFO Congress

1048

00:41:49,430 --> 00:41:48,359

convention I'm curious what the reaction

1049

00:41:51,410 --> 00:41:49,440

was there and then I'll tell you what

1050

00:41:53,870 --> 00:41:51,420

the reaction was last night for the Los

1051

00:41:55,069 --> 00:41:53,880

Angeles Premiere that we had here

1052

00:41:58,250 --> 00:41:55,079

um yeah

1053

00:42:00,290 --> 00:41:58,260

you know it was great I think that um oh

1054

00:42:01,609 --> 00:42:00,300

look there's some pictures oh wow look

1055

00:42:03,829 --> 00:42:01,619

at that I wonder where that picture came

1056

00:42:06,589 --> 00:42:03,839

from that's great anyway yeah I think

1057

00:42:09,170 --> 00:42:06,599

with uh the movie

1058

00:42:10,609 --> 00:42:09,180

um I really like like this follow kind

1059

00:42:12,829 --> 00:42:10,619

of you and I have talked about this

1060

00:42:16,010 --> 00:42:12,839

before and kind of debated the best way

1061

00:42:19,370 --> 00:42:16,020

to do it or not and for this movie in

1062

00:42:22,430 --> 00:42:19,380

particular I really like following James

1063

00:42:25,730 --> 00:42:22,440

um he's a very charismatic you know

1064

00:42:28,370 --> 00:42:25,740

person he's fun to know James is to love

1065

00:42:30,470 --> 00:42:28,380

James so of course I think an audience

1066

00:42:33,109 --> 00:42:30,480

is going to really enjoy following him

1067

00:42:36,410 --> 00:42:33,119

and his reactions because his reactions

1068

00:42:38,450 --> 00:42:36,420

are are great he's uh he's so friendly

1069

00:42:41,170 --> 00:42:38,460

and he laughs and his reactions are so

1070

00:42:44,150 --> 00:42:41,180

genuine and you know you really get it

1071

00:42:46,849 --> 00:42:44,160

and even at the Times where he's

1072

00:42:48,470 --> 00:42:46,859

frustrated because he's like wait you

1073

00:42:49,790 --> 00:42:48,480

know we need to talk this to this guy

1074

00:42:51,710 --> 00:42:49,800

and they're like no it's not gonna

1075

00:42:53,510 --> 00:42:51,720

happen and hopefully I'm not revealing

1076
00:42:54,829 --> 00:42:53,520
too much when you know there's even a

1077
00:42:56,569 --> 00:42:54,839
guy we gotta get out of here they're

1078
00:42:58,609 --> 00:42:56,579
gonna shoot us you know type of

1079
00:43:01,609 --> 00:42:58,619
situation you said people just didn't

1080
00:43:03,050 --> 00:43:01,619
want to talk and uh and he's like oh man

1081
00:43:05,210 --> 00:43:03,060
but we got to get in there because you

1082
00:43:07,250 --> 00:43:05,220
know he's he's flown out there and done

1083
00:43:09,890 --> 00:43:07,260
so much uh but he talked to a lot of

1084
00:43:12,470 --> 00:43:09,900
people and you know it's it's a case

1085
00:43:13,970 --> 00:43:12,480
where it's based off of anecdotal

1086
00:43:15,290 --> 00:43:13,980
information

1087
00:43:17,630 --> 00:43:15,300
um so it's a case where you're just like

1088
00:43:20,809 --> 00:43:17,640

I don't know you know this alleged alien

1089

00:43:24,650 --> 00:43:20,819

but there's nothing like talking to the

1090

00:43:27,290 --> 00:43:24,660

witnesses firsthand and uh they're very

1091

00:43:29,990 --> 00:43:27,300

very compelling you know they they have

1092

00:43:32,089 --> 00:43:30,000

emotion around what they saw every

1093

00:43:34,490 --> 00:43:32,099

witness you know all the main witnesses

1094

00:43:37,250 --> 00:43:34,500

that we know of are there or their

1095

00:43:39,170 --> 00:43:37,260

family to share or end the or their

1096

00:43:42,770 --> 00:43:39,180

family to share kind of their

1097

00:43:45,050 --> 00:43:42,780

experiences so it's very compelling I

1098

00:43:46,790 --> 00:43:45,060

mean it's one of these they get under my

1099

00:43:48,530 --> 00:43:46,800

skin in fact you know I do a lecture on

1100

00:43:50,750 --> 00:43:48,540

strange alien cases where they're good

1101

00:43:53,089 --> 00:43:50,760

cases you know we've got a documentary I

1102

00:43:54,650 --> 00:43:53,099

think that's one of the best on um if we

1103

00:43:56,930 --> 00:43:54,660

can call it that it's mostly interviews

1104

00:43:59,870 --> 00:43:56,940

with with the three Witnesses of the

1105

00:44:01,790 --> 00:43:59,880

Allagash case another one where they

1106

00:44:04,250 --> 00:44:01,800

they had they claim these weird

1107

00:44:06,349 --> 00:44:04,260

experiences but it's just so dang

1108

00:44:08,150 --> 00:44:06,359

compelling so

1109

00:44:10,849 --> 00:44:08,160

um I I liked it I thought it was great

1110

00:44:13,849 --> 00:44:10,859

uh I think it's the type of movie that's

1111

00:44:16,250 --> 00:44:13,859

really going to um do well with

1112

00:44:17,710 --> 00:44:16,260

audiences yeah

1113

00:44:20,990 --> 00:44:17,720

um it was great to see on the big screen

1114

00:44:22,069 --> 00:44:21,000

uh as well they actually moved the

1115

00:44:25,490 --> 00:44:22,079

screening

1116

00:44:27,050 --> 00:44:25,500

because in the theater complex there's

1117

00:44:29,809 --> 00:44:27,060

14 theaters in there and they moved it

1118

00:44:31,010 --> 00:44:29,819

to the the main theater because there

1119

00:44:34,849 --> 00:44:31,020

were so many people that showed up and

1120

00:44:36,290 --> 00:44:34,859

they realized we underestimated and so

1121

00:44:37,550 --> 00:44:36,300

um the funny part was that all of us had

1122

00:44:39,410 --> 00:44:37,560

our seats and we go to sit down we're

1123

00:44:41,450 --> 00:44:39,420

like wait a second you're now sitting on

1124

00:44:44,030 --> 00:44:41,460

the other side of the aisle I'm here and

1125

00:44:47,089 --> 00:44:44,040

then everyone just find your seat and it

1126

00:44:48,650 --> 00:44:47,099

all worked out but um it's it's

1127

00:44:51,290 --> 00:44:48,660

interesting because

1128

00:44:54,410 --> 00:44:51,300

you look at something like this and

1129

00:44:55,730 --> 00:44:54,420

again you know the term Smoking Gun gets

1130

00:44:58,970 --> 00:44:55,740

thrown around I've thrown it around

1131

00:45:01,430 --> 00:44:58,980

plenty myself yeah Smoking Gun ideally

1132

00:45:04,490 --> 00:45:01,440

is evidence that you can hold up and say

1133

00:45:05,870 --> 00:45:04,500

this is not from here here's why a b and

1134

00:45:12,650 --> 00:45:05,880

c

1135

00:45:15,349 --> 00:45:12,660

my on my butt here looking at something

1136

00:45:18,530 --> 00:45:15,359

like moment of content or of contact is

1137

00:45:21,950 --> 00:45:18,540

that you have these people that

1138

00:45:24,050 --> 00:45:21,960

if if um if witness testimony

1139

00:45:26,089 --> 00:45:24,060

can be considered evidence

1140

00:45:28,910 --> 00:45:26,099

then we have evidence of the highest

1141

00:45:31,490 --> 00:45:28,920

caliber and that film and in Randy's

1142

00:45:33,290 --> 00:45:31,500

film Randall's film and other films and

1143

00:45:35,089 --> 00:45:33,300

so it's kind of like it feels like we've

1144

00:45:37,730 --> 00:45:35,099

gone as far as as we can and when you

1145

00:45:40,069 --> 00:45:37,740

see the movie and you see how close

1146

00:45:41,690 --> 00:45:40,079

we get to getting to the people that

1147

00:45:43,250 --> 00:45:41,700

have that truth and stuff and ultimately

1148

00:45:44,510 --> 00:45:43,260

it's still you know can we get our hands

1149

00:45:47,329 --> 00:45:44,520

in the video

1150

00:45:49,309 --> 00:45:47,339

and so um yeah and they mentioned that

1151
00:45:52,069 --> 00:45:49,319
the producers you know you know I think

1152
00:45:54,710 --> 00:45:52,079
about that you make a really good point

1153
00:45:56,630 --> 00:45:54,720
there and I think that that's why people

1154
00:45:58,430 --> 00:45:56,640
feel that this field people who have

1155
00:46:00,170 --> 00:45:58,440
been in this field and the longer they

1156
00:46:03,170 --> 00:46:00,180
stay in this field feel that it's been

1157
00:46:05,210 --> 00:46:03,180
stagnant because when it comes to

1158
00:46:08,150 --> 00:46:05,220
anecdotal information or witness

1159
00:46:12,050 --> 00:46:08,160
testimony we've been at that threshold

1160
00:46:15,050 --> 00:46:12,060
of excellent testimony since the

1161
00:46:20,030 --> 00:46:15,060
beginning I mean blue book is Chuck full

1162
00:46:23,150 --> 00:46:20,040
of military and lawmakers who chase UFOs

1163
00:46:26,630 --> 00:46:23,160

I mean and these are people who know we

1164

00:46:29,390 --> 00:46:26,640

even have Lockheed Skunk Works guys

1165

00:46:32,089 --> 00:46:29,400

um Engineers the top engineers in the

1166

00:46:33,470 --> 00:46:32,099

60s seeing UFOs and saying you know we

1167

00:46:35,510 --> 00:46:33,480

know better than the Air Force which

1168

00:46:37,970 --> 00:46:35,520

they do in many ways they're the guys

1169

00:46:39,710 --> 00:46:37,980

who taught the Air Force guys some of

1170

00:46:42,109 --> 00:46:39,720

these professors and things

1171

00:46:43,490 --> 00:46:42,119

um you know we've had excellent witness

1172

00:46:46,010 --> 00:46:43,500

testimony

1173

00:46:47,870 --> 00:46:46,020

um for for decades now but we haven't

1174

00:46:51,050 --> 00:46:47,880

had the science

1175

00:46:53,030 --> 00:46:51,060

um really after 1969 I would say you

1176

00:46:55,970 --> 00:46:53,040

know if you read books like especially

1177

00:46:57,470 --> 00:46:55,980

invisible college or others there was

1178

00:46:58,849 --> 00:46:57,480

kind of this you know what we're not

1179

00:47:01,190 --> 00:46:58,859

going to get there with the science we

1180

00:47:03,950 --> 00:47:01,200

just don't have the resources scientific

1181

00:47:06,410 --> 00:47:03,960

Community doesn't want to do it and we

1182

00:47:08,569 --> 00:47:06,420

had this law for decades where people

1183

00:47:11,630 --> 00:47:08,579

weren't really pursuing the science so

1184

00:47:13,550 --> 00:47:11,640

much um now it's a new world now it's a

1185

00:47:17,329 --> 00:47:13,560

new world for many reasons one of those

1186

00:47:20,270 --> 00:47:17,339

being that citizen scientists are much

1187

00:47:22,190 --> 00:47:20,280

more empowered with technology the

1188

00:47:25,250 --> 00:47:22,200

technologies that may have taken an

1189

00:47:28,550 --> 00:47:25,260

entire aircraft you know in the past now

1190

00:47:30,770 --> 00:47:28,560

are in our phone so we have a lot more

1191

00:47:33,670 --> 00:47:30,780

resources to do the citizen science so I

1192

00:47:36,650 --> 00:47:33,680

think this is a an arena where we can

1193

00:47:38,809 --> 00:47:36,660

gather stronger and better evidence and

1194

00:47:40,670 --> 00:47:38,819

will and I think you know what's

1195

00:47:42,950 --> 00:47:40,680

exciting about this time and and this is

1196

00:47:46,010 --> 00:47:42,960

why I have no

1197

00:47:47,450 --> 00:47:46,020

um you know reservations when I'm

1198

00:47:49,790 --> 00:47:47,460

talking to scientists or government

1199

00:47:52,550 --> 00:47:49,800

officials or others saying that you know

1200

00:47:55,370 --> 00:47:52,560

we can get more I have absolutely

1201
00:47:56,990 --> 00:47:55,380
certainty that we can gather more these

1202
00:47:59,450 --> 00:47:57,000
are genuine Mysteries that need to be

1203
00:48:01,069 --> 00:47:59,460
discovered even if some of these things

1204
00:48:03,109 --> 00:48:01,079
that we discover are mundane like the

1205
00:48:05,690 --> 00:48:03,119
weather anomaly they got in tear in the

1206
00:48:07,730 --> 00:48:05,700
sky it's an area of science that has not

1207
00:48:10,670 --> 00:48:07,740
been examined where there will be

1208
00:48:11,930 --> 00:48:10,680
discoveries made and the potential when

1209
00:48:13,490 --> 00:48:11,940
especially when you have even the

1210
00:48:15,410 --> 00:48:13,500
military saying some of these

1211
00:48:18,710 --> 00:48:15,420
Technologies don't seem to be human

1212
00:48:20,870 --> 00:48:18,720
made the potential for uh where we could

1213
00:48:22,790 --> 00:48:20,880

go of course is is extremely exciting

1214

00:48:25,010 --> 00:48:22,800

yeah it seems like if I were to break it

1215

00:48:27,950 --> 00:48:25,020

down into three stages like

1216

00:48:29,569 --> 00:48:27,960

um Jalen heinek's uh you know Close

1217

00:48:31,010 --> 00:48:29,579

Encounters for a second Third Kind the

1218

00:48:33,589 --> 00:48:31,020

first one I would say is testimony

1219

00:48:35,930 --> 00:48:33,599

second one would be footage

1220

00:48:38,809 --> 00:48:35,940

that would be really compelling

1221

00:48:41,930 --> 00:48:38,819

but as we know and I know as a filmmaker

1222

00:48:44,690 --> 00:48:41,940

having done two Alien films uh those

1223

00:48:47,750 --> 00:48:44,700

things can be faked so then the third

1224

00:48:50,150 --> 00:48:47,760

one which is to me is that smoke and gun

1225

00:48:52,010 --> 00:48:50,160

words it's tangible evidence where the

1226
00:48:53,690 --> 00:48:52,020
scientists can have a field day they can

1227
00:48:55,609 --> 00:48:53,700
sit down it's Thanksgiving and they can

1228
00:48:57,650 --> 00:48:55,619
just Chow on it and and look at it from

1229
00:49:00,410 --> 00:48:57,660
all different angles and quantify

1230
00:49:02,569 --> 00:49:00,420
everything and so it kind of feels like

1231
00:49:05,829 --> 00:49:02,579
we're ping-ponging back and forth

1232
00:49:09,770 --> 00:49:05,839
between the witness evidence if you will

1233
00:49:11,390 --> 00:49:09,780
and the the video evidence with the Tic

1234
00:49:13,069 --> 00:49:11,400
Tac footage and stuff still haven't

1235
00:49:14,630 --> 00:49:13,079
gotten there officially I know some

1236
00:49:16,910 --> 00:49:14,640
people have said well this is some meta

1237
00:49:19,490 --> 00:49:16,920
material and stuff like that

1238
00:49:22,010 --> 00:49:19,500

um but it it feels like

1239

00:49:23,870 --> 00:49:22,020

it hasn't been peer-reviewed yet I mean

1240

00:49:27,589 --> 00:49:23,880

it's not been it's in the early stage

1241

00:49:29,990 --> 00:49:27,599

yeah so um I guess my question to you is

1242

00:49:33,589 --> 00:49:30,000

you know do you feel that

1243

00:49:35,510 --> 00:49:33,599

that maybe mankind which sounds so

1244

00:49:40,010 --> 00:49:35,520

stupid womankind humankind let's say

1245

00:49:42,829 --> 00:49:40,020

humankind human kindness yeah is um

1246

00:49:44,450 --> 00:49:42,839

will they be able to take that in were

1247

00:49:46,609 --> 00:49:44,460

they you know what what do they need

1248

00:49:47,809 --> 00:49:46,619

across the board because there's a huge

1249

00:49:49,250 --> 00:49:47,819

amount of people you look at the polls

1250

00:49:51,349 --> 00:49:49,260

and stuff where they say they believe in

1251

00:49:53,089 --> 00:49:51,359

this and everything but but

1252

00:49:55,730 --> 00:49:53,099

where were you

1253

00:49:58,790 --> 00:49:55,740

what what is what's like for you yeah

1254

00:50:00,530 --> 00:49:58,800

that's an interesting question because

1255

00:50:02,450 --> 00:50:00,540

um and it gets back to the question of

1256

00:50:04,370 --> 00:50:02,460

some of the comments you know the

1257

00:50:06,670 --> 00:50:04,380

questions we are being asked earlier we

1258

00:50:10,069 --> 00:50:06,680

do have proof we do have evidence

1259

00:50:11,690 --> 00:50:10,079

it depends on what your threshold is uh

1260

00:50:13,910 --> 00:50:11,700

we don't have scientific proof or

1261

00:50:16,250 --> 00:50:13,920

evidence or I shouldn't say that we do

1262

00:50:19,250 --> 00:50:16,260

have I I would say some evidence but not

1263

00:50:21,470 --> 00:50:19,260

that compiles enough to to be proof yet

1264

00:50:23,390 --> 00:50:21,480

but hopefully we're Gathering that we're

1265

00:50:26,210 --> 00:50:23,400

working on Gathering that and we'll get

1266

00:50:29,150 --> 00:50:26,220

there but for individuals you know that

1267

00:50:30,650 --> 00:50:29,160

varies and we've seen over the years of

1268

00:50:32,930 --> 00:50:30,660

course with these polls with the

1269

00:50:34,849 --> 00:50:32,940

American public that they're seeing more

1270

00:50:37,430 --> 00:50:34,859

and more evidence and they're seeing

1271

00:50:39,170 --> 00:50:37,440

enough to convince them and you know

1272

00:50:41,510 --> 00:50:39,180

that's what the politicians are betting

1273

00:50:43,490 --> 00:50:41,520

on that they're hey more than 50 percent

1274

00:50:46,670 --> 00:50:43,500

of the public seems to be convinced this

1275

00:50:47,990 --> 00:50:46,680

is a thing so we as politicians which is

1276

00:50:49,910 --> 00:50:48,000

their job

1277

00:50:52,250 --> 00:50:49,920

ought to be pushing this and getting

1278

00:50:54,650 --> 00:50:52,260

this move this forward which is what's

1279

00:50:56,270 --> 00:50:54,660

happening so so the public is getting

1280

00:50:59,270 --> 00:50:56,280

enough

1281

00:51:01,250 --> 00:50:59,280

um but uh you know that's where it gets

1282

00:51:03,230 --> 00:51:01,260

into like those Arenas that I had talked

1283

00:51:05,510 --> 00:51:03,240

about when and where was that for a

1284

00:51:07,849 --> 00:51:05,520

defense I think that's a big question

1285

00:51:09,829 --> 00:51:07,859

right now because now we know and that

1286

00:51:11,809 --> 00:51:09,839

was one of the things Elizondo and and

1287

00:51:14,150 --> 00:51:11,819

melon were trying to do is push the

1288

00:51:15,950 --> 00:51:14,160

military into admitting that they take

1289

00:51:17,809 --> 00:51:15,960

up seriously and they have been

1290

00:51:19,609 --> 00:51:17,819

investigating them some of the things

1291

00:51:22,130 --> 00:51:19,619

we've known as researchers for a long

1292

00:51:23,990 --> 00:51:22,140

time but we what we don't know is what

1293

00:51:26,569 --> 00:51:24,000

they've done and what they've gathered

1294

00:51:28,190 --> 00:51:26,579

and what was it that convinced them and

1295

00:51:29,930 --> 00:51:28,200

pushed them over to the Tipping Point

1296

00:51:31,430 --> 00:51:29,940

you know those are some interesting

1297

00:51:34,069 --> 00:51:31,440

questions

1298

00:51:36,109 --> 00:51:34,079

um so so yeah there's there's a variety

1299

00:51:37,549 --> 00:51:36,119

of different thresholds that all mean

1300

00:51:41,270 --> 00:51:37,559

different things

1301

00:51:43,730 --> 00:51:41,280

yeah I I I'm looking at the comments

1302

00:51:44,870 --> 00:51:43,740

here uh as we're going and a lot yeah

1303

00:51:46,549 --> 00:51:44,880

and a lot of people are saying we do

1304

00:51:48,589 --> 00:51:46,559

have that evidence we do well the

1305

00:51:51,410 --> 00:51:48,599

evidence I'm talking about is evidence

1306

00:51:53,390 --> 00:51:51,420

of either craft where we can you know

1307

00:51:56,150 --> 00:51:53,400

see it whether it's broken up whatever

1308

00:51:57,349 --> 00:51:56,160

our bodies and I'm not saying well we do

1309

00:52:00,349 --> 00:51:57,359

have that evidence that the government

1310

00:52:02,450 --> 00:52:00,359

has that what I I'm not talking about

1311

00:52:04,790 --> 00:52:02,460

that whether that's real or not I'm

1312

00:52:08,089 --> 00:52:04,800

talking about being able to go to the

1313

00:52:10,370 --> 00:52:08,099

Smithsonian exactly on displays on on

1314

00:52:12,710 --> 00:52:10,380

display see these these beans or see

1315

00:52:16,849 --> 00:52:12,720

this material yeah or or see it being

1316

00:52:18,290 --> 00:52:16,859

studied when that happens then then end

1317

00:52:21,530 --> 00:52:18,300

a discussion because you know there are

1318

00:52:23,990 --> 00:52:21,540

the debunkers exactly exactly and and

1319

00:52:26,030 --> 00:52:24,000

that's what I'm focused on that's when

1320

00:52:28,250 --> 00:52:26,040

I'm pushing what I think is The Cutting

1321

00:52:30,170 --> 00:52:28,260

Edge of ufology because we can talk

1322

00:52:32,030 --> 00:52:30,180

about evidence oh we've got proof we can

1323

00:52:33,770 --> 00:52:32,040

have got evidence everybody in the chat

1324

00:52:35,630 --> 00:52:33,780

could say that if they wanted that

1325

00:52:38,030 --> 00:52:35,640

doesn't move the needle that doesn't get

1326

00:52:42,109 --> 00:52:38,040

us to the Smithsonian so what we're

1327

00:52:43,910 --> 00:52:42,119

focused on at SCU and at Enigma Labs is

1328

00:52:46,370 --> 00:52:43,920

getting into this Smithsonian getting

1329

00:52:49,790 --> 00:52:46,380

that level and working with Scientists

1330

00:52:51,650 --> 00:52:49,800

at work with this this Smithsonian to

1331

00:52:53,870 --> 00:52:51,660

get involved which some are willing to

1332

00:52:55,849 --> 00:52:53,880

do so

1333

00:52:57,710 --> 00:52:55,859

um you know that's what I'm focused on

1334

00:53:00,109 --> 00:52:57,720

right now and we're and what everybody

1335

00:53:03,890 --> 00:53:00,119

should be excited to hear is that we're

1336

00:53:06,470 --> 00:53:03,900

making ground there big strides there so

1337

00:53:08,870 --> 00:53:06,480

you know we're at an incredible time

1338

00:53:11,510 --> 00:53:08,880

right now where people I think will

1339

00:53:13,609 --> 00:53:11,520

begin to see this sort of Science and

1340

00:53:16,069 --> 00:53:13,619

see and and this is the route to the

1341

00:53:18,410 --> 00:53:16,079

Smithsonian and I'm confident that we'll

1342

00:53:20,930 --> 00:53:18,420

we'll be getting there you know

1343

00:53:23,150 --> 00:53:20,940

um we're on the path so

1344

00:53:25,970 --> 00:53:23,160

um you know hopefully people that can

1345

00:53:28,910 --> 00:53:25,980

convince people to uh support us science

1346

00:53:31,609 --> 00:53:28,920

is slow but uh that's where we're moving

1347

00:53:33,589 --> 00:53:31,619

but it's a juggernaut because once it

1348

00:53:37,430 --> 00:53:33,599

crashes that threshold there's no going

1349

00:53:40,430 --> 00:53:37,440

back yeah the um I feel like we kind of

1350

00:53:42,410 --> 00:53:40,440

to have to be in the moment with all of

1351
00:53:44,150 --> 00:53:42,420
this which is what you know we're doing

1352
00:53:46,130 --> 00:53:44,160
right now and and the listeners are

1353
00:53:48,170 --> 00:53:46,140
doing is they're you know disseminating

1354
00:53:49,849 --> 00:53:48,180
the stuff hopefully

1355
00:53:53,450 --> 00:53:49,859
um whoever they're listening to is

1356
00:53:54,890 --> 00:53:53,460
someone who is you know uh uh viable in

1357
00:53:55,670 --> 00:53:54,900
a way over there telling you they got a

1358
00:53:58,069 --> 00:53:55,680
rap

1359
00:54:01,430 --> 00:53:58,079
they got a rep as we as we get close to

1360
00:54:05,089 --> 00:54:01,440
uh kgra

1361
00:54:08,329 --> 00:54:05,099
um and and so um I guess before we wrap

1362
00:54:09,829 --> 00:54:08,339
here my question uh for you is um you

1363
00:54:12,349 --> 00:54:09,839

know I always say you know what's down

1364

00:54:14,930 --> 00:54:12,359

the hole what's down the hallway uh

1365

00:54:17,450 --> 00:54:14,940

mankind when will we be ready

1366

00:54:19,490 --> 00:54:17,460

you know for oh yeah when will we be

1367

00:54:21,530 --> 00:54:19,500

ready I think we're pretty ready uh

1368

00:54:22,790 --> 00:54:21,540

personally and of course that question

1369

00:54:25,250 --> 00:54:22,800

does

1370

00:54:29,690 --> 00:54:25,260

um uh depend on what the information

1371

00:54:32,569 --> 00:54:29,700

that's revealed is but I think we are uh

1372

00:54:34,490 --> 00:54:32,579

uh close to ready

1373

00:54:36,710 --> 00:54:34,500

um and you know I think there's

1374

00:54:37,910 --> 00:54:36,720

different studies that show that one of

1375

00:54:39,890 --> 00:54:37,920

the studies I do this talk called

1376

00:54:41,750 --> 00:54:39,900

religion and UFOs and one of the studies

1377

00:54:44,870 --> 00:54:41,760

I love is this one that Ted Peters did

1378

00:54:46,970 --> 00:54:44,880

did where he did an inventory on whether

1379

00:54:50,450 --> 00:54:46,980

uh the discovery of extraterrestrial

1380

00:54:53,630 --> 00:54:50,460

life will affect your religious views or

1381

00:54:56,450 --> 00:54:53,640

your priest religious views or your

1382

00:54:58,130 --> 00:54:56,460

religious institution and pretty much

1383

00:55:00,290 --> 00:54:58,140

they said it's not going to affect me

1384

00:55:03,589 --> 00:55:00,300

May

1385

00:55:05,510 --> 00:55:03,599

um affect you know father Johnson

1386

00:55:07,910 --> 00:55:05,520

um it probably will affect the Vatican

1387

00:55:10,670 --> 00:55:07,920

or you know whatever your religious at

1388

00:55:12,950 --> 00:55:10,680

the religion may be but it's not going

1389

00:55:14,870 --> 00:55:12,960

to affect me and they all had this story

1390

00:55:17,030 --> 00:55:14,880

that it'll probably affect you know if

1391

00:55:18,950 --> 00:55:17,040

I'm a Catholic it'll probably affect the

1392

00:55:20,510 --> 00:55:18,960

Jews and the Buddhists but it you know

1393

00:55:22,609 --> 00:55:20,520

uh the Catholics are going to be fine

1394

00:55:24,049 --> 00:55:22,619

and the Buddhists are like oh man the

1395

00:55:25,970 --> 00:55:24,059

Jews and the Catholics are going to

1396

00:55:30,290 --> 00:55:25,980

freak out but we Buddhists will be fine

1397

00:55:31,549 --> 00:55:30,300

so everybody had the idea that you know

1398

00:55:33,410 --> 00:55:31,559

everybody else is going to have a

1399

00:55:35,750 --> 00:55:33,420

problem but I'm not so what does that

1400

00:55:37,609 --> 00:55:35,760

mean most people feel they're not going

1401

00:55:38,930 --> 00:55:37,619

to have a problem when this sort of

1402

00:55:41,750 --> 00:55:38,940

Revelation

1403

00:55:43,730 --> 00:55:41,760

um comes true so there's a guy I know

1404

00:55:45,650 --> 00:55:43,740

Franklin Carter who used to say you know

1405

00:55:47,030 --> 00:55:45,660

even if something like that happens

1406

00:55:49,010 --> 00:55:47,040

you're still gonna have to go to work

1407

00:55:50,990 --> 00:55:49,020

the next day you're still going to have

1408

00:55:53,109 --> 00:55:51,000

to pay your bills we're still going to

1409

00:55:55,430 --> 00:55:53,119

need to focus on their everyday lives

1410

00:55:56,690 --> 00:55:55,440

but certainly things will be different

1411

00:55:58,490 --> 00:55:56,700

so

1412

00:56:00,589 --> 00:55:58,500

um I think that was really interesting

1413

00:56:01,970 --> 00:56:00,599

so I think that where now we just need

1414

00:56:04,190 --> 00:56:01,980

to get there now we need to discover

1415

00:56:06,650 --> 00:56:04,200

what's going on and for those of you who

1416

00:56:08,329 --> 00:56:06,660

do believe we are being visited you know

1417

00:56:10,910 --> 00:56:08,339

this is the sort of work that's going to

1418

00:56:13,430 --> 00:56:10,920

be needed to get us all there

1419

00:56:14,750 --> 00:56:13,440

um and to continue to move us all in

1420

00:56:16,790 --> 00:56:14,760

that direction

1421

00:56:18,710 --> 00:56:16,800

yeah it's it's kind of frustrating

1422

00:56:21,109 --> 00:56:18,720

because you look at just the past four

1423

00:56:23,690 --> 00:56:21,119

or five years of what we've gone through

1424

00:56:26,870 --> 00:56:23,700

you know in America

1425

00:56:29,030 --> 00:56:26,880

um alone a lot of change a lot of um

1426

00:56:30,710 --> 00:56:29,040

upheaval

1427

00:56:34,010 --> 00:56:30,720

um you know we're still kind of getting

1428

00:56:36,230 --> 00:56:34,020

our bearings and so when I think of like

1429

00:56:39,290 --> 00:56:36,240

the perfect utopian

1430

00:56:41,270 --> 00:56:39,300

um uh communication you know that the

1431

00:56:43,430 --> 00:56:41,280

Stanley Kubrick communication that we

1432

00:56:47,150 --> 00:56:43,440

would have with these beings on a global

1433

00:56:49,970 --> 00:56:47,160

you know scale I I wonder are are we

1434

00:56:51,650 --> 00:56:49,980

mature enough are we ready for that and

1435

00:56:54,049 --> 00:56:51,660

and to answer that question I always

1436

00:56:55,370 --> 00:56:54,059

kind of refer to you know what are we

1437

00:56:57,829 --> 00:56:55,380

going to be doing you know when we get

1438

00:56:59,930 --> 00:56:57,839

to when we become Advanced and we've

1439

00:57:01,790 --> 00:56:59,940

transcended everything all of our you

1440

00:57:04,069 --> 00:57:01,800

know pettiness and everything you know

1441

00:57:05,990 --> 00:57:04,079

can we then you know communicate but

1442

00:57:07,609 --> 00:57:06,000

when I think of them coming here the

1443

00:57:09,410 --> 00:57:07,619

only thing that I worry about religion

1444

00:57:12,049 --> 00:57:09,420

with regards to religion is if they come

1445

00:57:13,910 --> 00:57:12,059

here and they say oh there is no God or

1446

00:57:19,750 --> 00:57:13,920

because that's going to get asked are

1447

00:57:24,650 --> 00:57:22,970

yeah and then um you know but

1448

00:57:27,349 --> 00:57:24,660

experiences will say no they're they're

1449

00:57:29,270 --> 00:57:27,359

Spiritual Beings just like all of us but

1450

00:57:30,410 --> 00:57:29,280

unless they're coming here to say we're

1451

00:57:32,569 --> 00:57:30,420

going to put you on a whole different

1452

00:57:34,849 --> 00:57:32,579

program we have a whole different uh

1453

00:57:37,190 --> 00:57:34,859

theory on life which I don't think

1454

00:57:38,990 --> 00:57:37,200

that's uh I don't think that would be

1455

00:57:40,670 --> 00:57:39,000

their agenda if they you know even have

1456

00:57:42,349 --> 00:57:40,680

an agenda they may not even have an

1457

00:57:43,250 --> 00:57:42,359

agenda we always think they're going to

1458

00:57:44,450 --> 00:57:43,260

come and either they're going to take

1459

00:57:46,190 --> 00:57:44,460

everything or they're going to give us

1460

00:57:47,450 --> 00:57:46,200

technology which we're going to

1461

00:57:50,990 --> 00:57:47,460

weaponize

1462

00:57:53,750 --> 00:57:51,000

so you know a lot of scientists use that

1463

00:57:55,849 --> 00:57:53,760

analogy that we wouldn't

1464

00:57:58,490 --> 00:57:55,859

um we don't bother you know we would be

1465

00:58:00,349 --> 00:57:58,500

like ants to them so that's why they

1466

00:58:02,809 --> 00:58:00,359

don't wouldn't care about us but we

1467

00:58:05,569 --> 00:58:02,819

research ants let's take that an analogy

1468

00:58:08,630 --> 00:58:05,579

further we do care about ants you know

1469

00:58:11,569 --> 00:58:08,640

we do research um send people to keep

1470

00:58:13,430 --> 00:58:11,579

them as as as pets yeah there is such a

1471

00:58:14,809 --> 00:58:13,440

thing as entomology where people take

1472

00:58:16,790 --> 00:58:14,819

courses

1473

00:58:19,309 --> 00:58:16,800

um and they do research them we don't

1474

00:58:21,950 --> 00:58:19,319

give them money you know necessarily we

1475

00:58:24,530 --> 00:58:21,960

don't like support or try to enhance

1476

00:58:27,109 --> 00:58:24,540

their uh environments we do try to

1477

00:58:29,210 --> 00:58:27,119

protect I guess if it came to it we may

1478

00:58:33,230 --> 00:58:29,220

try to protect them

1479

00:58:35,270 --> 00:58:33,240

um but in that example kind of there is

1480

00:58:36,309 --> 00:58:35,280

some sort of interaction just not that

1481

00:58:39,049 --> 00:58:36,319

deep

1482

00:58:40,670 --> 00:58:39,059

of an interaction and you know what's

1483

00:58:43,250 --> 00:58:40,680

great about scientists getting involved

1484

00:58:47,210 --> 00:58:43,260

I love this uh paper or this talk that

1485

00:58:51,170 --> 00:58:47,220

Kevin knuth um scientists out of Albany

1486

00:58:54,170 --> 00:58:51,180

um SUNY did uh he's a he's you know his

1487

00:58:56,089 --> 00:58:54,180

I'm his I'm a big fan of Kevin knuth

1488

00:58:58,609 --> 00:58:56,099

he's an astrophysicist and he's really

1489

00:59:01,190 --> 00:58:58,619

tackled this field he's part of SCU and

1490

00:59:04,250 --> 00:59:01,200

uapx I love the guy and he does this

1491

00:59:06,650 --> 00:59:04,260

great talk about time like right now

1492

00:59:09,049 --> 00:59:06,660

with the technology that we have we can

1493

00:59:10,609 --> 00:59:09,059

travel build devices that travel at a

1494

00:59:11,870 --> 00:59:10,619

fraction of the speed of light you know

1495

00:59:13,970 --> 00:59:11,880

some of them are kind of bigger

1496

00:59:15,770 --> 00:59:13,980

fractions and the closer we get to the

1497

00:59:18,349 --> 00:59:15,780

speed of light the bigger the time

1498

00:59:19,910 --> 00:59:18,359

difference is so if there's a group that

1499

00:59:22,190 --> 00:59:19,920

leaves at you know three quarters of

1500

00:59:23,450 --> 00:59:22,200

speed of light there we're never going

1501
00:59:24,710 --> 00:59:23,460
to see him again because the time's

1502
00:59:26,930 --> 00:59:24,720
going to be so different when they get

1503
00:59:29,930 --> 00:59:26,940
back we're going to be gone but he talks

1504
00:59:32,510 --> 00:59:29,940
about how if you have a an armada that

1505
00:59:35,089 --> 00:59:32,520
flies together or even if some leave but

1506
00:59:37,309 --> 00:59:35,099
they meet do calculations to meet at a

1507
00:59:39,410 --> 00:59:37,319
certain point and travel at a certain

1508
00:59:41,990 --> 00:59:39,420
speed then they won't have those time

1509
00:59:43,910 --> 00:59:42,000
differences but if there is a group like

1510
00:59:45,710 --> 00:59:43,920
this maybe one would Branch off and go

1511
00:59:47,569 --> 00:59:45,720
visit the Earth

1512
00:59:50,870 --> 00:59:47,579
um and then go visit somewhere else and

1513
00:59:52,609 --> 00:59:50,880

come back to them a day they might come

1514

00:59:54,770 --> 00:59:52,619

back to visit the earth a day later to

1515

00:59:57,349 --> 00:59:54,780

them but to us a thousand years have

1516

00:59:59,270 --> 00:59:57,359

passed and if that's the case why would

1517

01:00:00,710 --> 00:59:59,280

they interact with us if you know when

1518

01:00:02,569 --> 01:00:00,720

they leave and come back it's going to

1519

01:00:04,849 --> 01:00:02,579

be a whole new ball game or a different

1520

01:00:06,770 --> 01:00:04,859

species or at least certainly a

1521

01:00:09,730 --> 01:00:06,780

different civilization well certainly

1522

01:00:12,950 --> 01:00:09,740

Michael Masters uh his whole uh

1523

01:00:16,010 --> 01:00:12,960

Masters thesis uh is isn't that that

1524

01:00:17,870 --> 01:00:16,020

they are us um from the future but again

1525

01:00:20,390 --> 01:00:17,880

I I always kind of um

1526

01:00:23,210 --> 01:00:20,400

come back to the idea when I when I hear

1527

01:00:24,770 --> 01:00:23,220

and to quote Jean valet you know he's

1528

01:00:26,510 --> 01:00:24,780

going to be very disappointed if aliens

1529

01:00:28,670 --> 01:00:26,520

turn out to be nothing but you know

1530

01:00:30,890 --> 01:00:28,680

beings from another planet

1531

01:00:33,530 --> 01:00:30,900

um I think yeah it's probably all the

1532

01:00:36,589 --> 01:00:33,540

above but when I think of travel and

1533

01:00:39,650 --> 01:00:36,599

having to go at the speed of of light

1534

01:00:41,990 --> 01:00:39,660

um that seems very that seems like um

1535

01:00:43,789 --> 01:00:42,000

it's a combustible engine

1536

01:00:47,089 --> 01:00:43,799

when when we should be talking about

1537

01:00:49,549 --> 01:00:47,099

something that is much more high-tech in

1538

01:00:52,069 --> 01:00:49,559

the sense that the way that people see

1539

01:00:53,870 --> 01:00:52,079

these craft and the way they at aerial

1540

01:00:57,650 --> 01:00:53,880

School the way they saw the beans they

1541

01:00:59,210 --> 01:00:57,660

seem to be relocating in in space

1542

01:01:01,250 --> 01:00:59,220

so they're here and then they're here

1543

01:01:02,750 --> 01:01:01,260

then they're here but when you Stitch it

1544

01:01:05,450 --> 01:01:02,760

together it's like this movement that's

1545

01:01:06,950 --> 01:01:05,460

happening and so it feels like they're

1546

01:01:09,049 --> 01:01:06,960

able when I remember meeting with

1547

01:01:10,089 --> 01:01:09,059

Alejandra or excuse me not you hey

1548

01:01:14,030 --> 01:01:10,099

that's me

1549

01:01:16,309 --> 01:01:14,040

uh the other uh Lou Elizondo

1550

01:01:17,990 --> 01:01:16,319

um okay that's mixed up all the time all

1551
01:01:21,589 --> 01:01:18,000
the time identical sometimes I've had

1552
01:01:24,410 --> 01:01:21,599
people call me alizando have they so

1553
01:01:25,789 --> 01:01:24,420
they mix the hybrid yeah well I remember

1554
01:01:27,829 --> 01:01:25,799
we were talking about that and he was

1555
01:01:29,990 --> 01:01:27,839
saying how you know he was mentioning as

1556
01:01:31,490 --> 01:01:30,000
as we all know how time gets folded and

1557
01:01:34,069 --> 01:01:31,500
everything and how you can do that and

1558
01:01:37,250 --> 01:01:34,079
I've always had a theory and and Lou was

1559
01:01:38,630 --> 01:01:37,260
a a green um uh with it as well that it

1560
01:01:39,589 --> 01:01:38,640
doesn't matter what these crafts are

1561
01:01:43,010 --> 01:01:39,599
made of

1562
01:01:45,349 --> 01:01:43,020
that's that's just a way to hold what is

1563
01:01:47,750 --> 01:01:45,359

being propelled you know it's a way to

1564

01:01:50,630 --> 01:01:47,760

to hold it and so it just feels like

1565

01:01:52,309 --> 01:01:50,640

until we can get outside of our physics

1566

01:01:54,410 --> 01:01:52,319

that's why whenever I think of a really

1567

01:01:56,690 --> 01:01:54,420

effective Think Tank has to have sci-fi

1568

01:01:58,549 --> 01:01:56,700

writers because these are the ones that

1569

01:02:00,410 --> 01:01:58,559

don't adhere to well these are the rules

1570

01:02:03,410 --> 01:02:00,420

we must use these tools it's like no no

1571

01:02:07,309 --> 01:02:03,420

we can do exactly that's what's great

1572

01:02:08,990 --> 01:02:07,319

about sci-fi uh you know sci-fi is such

1573

01:02:11,150 --> 01:02:09,000

a great reference for this field because

1574

01:02:14,030 --> 01:02:11,160

people have done that out of the box

1575

01:02:16,549 --> 01:02:14,040

thinking so you have so many very

1576

01:02:18,950 --> 01:02:16,559

creative scenarios out there some of

1577

01:02:20,390 --> 01:02:18,960

which may be right oh look at H.D Wells

1578

01:02:22,910 --> 01:02:20,400

he predicted that we were gonna have

1579

01:02:24,829 --> 01:02:22,920

rockets that had stages I said I mean

1580

01:02:28,430 --> 01:02:24,839

genius all right so we have someone here

1581

01:02:30,970 --> 01:02:28,440

Bo who uh thank you Beau for the

1582

01:02:34,430 --> 01:02:30,980

patronage here and by the way please uh

1583

01:02:36,289 --> 01:02:34,440

send if you will folks uh contribute um

1584

01:02:39,589 --> 01:02:36,299

if you like this show

1585

01:02:41,809 --> 01:02:39,599

um so he says saw Alejandro on Greenwald

1586

01:02:44,690 --> 01:02:41,819

how do you two reconcile differences

1587

01:02:48,230 --> 01:02:44,700

over Elizondo I will let you

1588

01:02:50,870 --> 01:02:48,240

for the most part we don't

1589

01:02:53,750 --> 01:02:50,880

um you know uh we have we disagree about

1590

01:02:56,270 --> 01:02:53,760

quite a few things there but uh

1591

01:02:59,569 --> 01:02:56,280

Greenwald and I just like all of my

1592

01:03:03,109 --> 01:02:59,579

colleagues uh even you and I not to the

1593

01:03:05,809 --> 01:03:03,119

same degree I guess but we all disagree

1594

01:03:07,910 --> 01:03:05,819

um and actually our perspective is yours

1595

01:03:11,089 --> 01:03:07,920

Brian and Martins are pretty close I

1596

01:03:14,690 --> 01:03:11,099

think but you know we all disagree on

1597

01:03:16,970 --> 01:03:14,700

things sometimes largely I mean I'm not

1598

01:03:19,010 --> 01:03:16,980

really into Ancient Aliens even I was

1599

01:03:21,770 --> 01:03:19,020

actually interviewing for the show once

1600

01:03:23,329 --> 01:03:21,780

again uh for the third time in two

1601

01:03:25,970 --> 01:03:23,339

months I think

1602

01:03:28,670 --> 01:03:25,980

um I think last time I visited you and

1603

01:03:31,670 --> 01:03:28,680

Cali when I when I was on there but um

1604

01:03:33,650 --> 01:03:31,680

you know I I don't agree with a lot of

1605

01:03:34,789 --> 01:03:33,660

the stuff on the show and they tell the

1606

01:03:36,049 --> 01:03:34,799

producers that when they do the

1607

01:03:38,390 --> 01:03:36,059

interview

1608

01:03:39,230 --> 01:03:38,400

um I'm really good friends with

1609

01:03:42,950 --> 01:03:39,240

um

1610

01:03:44,750 --> 01:03:42,960

ah I'm good friends with several people

1611

01:03:46,190 --> 01:03:44,760

on that show who talk about the Ancient

1612

01:03:48,289 --> 01:03:46,200

Aliens theories

1613

01:03:50,510 --> 01:03:48,299

um and but they're still friends of mine

1614

01:03:53,089 --> 01:03:50,520

you know it's okay to disagree and

1615

01:03:56,450 --> 01:03:53,099

become friends now those two of course

1616

01:03:58,490 --> 01:03:56,460

do not get along currently

1617

01:03:59,990 --> 01:03:58,500

um and they really get under their each

1618

01:04:02,270 --> 01:04:00,000

other's skin and it's kind of funny

1619

01:04:05,329 --> 01:04:02,280

because this guy referenced my last

1620

01:04:07,430 --> 01:04:05,339

appearance on Greenwald and I I you know

1621

01:04:10,609 --> 01:04:07,440

I would agree with Greenwald and I'd

1622

01:04:14,210 --> 01:04:10,619

have a little criticism of Lou in that

1623

01:04:16,190 --> 01:04:14,220

um Greenwald has some points in that you

1624

01:04:18,230 --> 01:04:16,200

know it's fair for him to ask for

1625

01:04:20,150 --> 01:04:18,240

clarify question clarification on

1626

01:04:22,970 --> 01:04:20,160

questions that aren't clarified sure

1627

01:04:25,789 --> 01:04:22,980

it's completely fair for him to do that

1628

01:04:29,210 --> 01:04:25,799

um and you know I think Elizondo has

1629

01:04:31,430 --> 01:04:29,220

reacted at times you know him and or

1630

01:04:33,770 --> 01:04:31,440

some of his colleagues kind of attacking

1631

01:04:34,609 --> 01:04:33,780

people on UFO Twitter

1632

01:04:36,650 --> 01:04:34,619

um

1633

01:04:38,990 --> 01:04:36,660

and I don't think that's wise and the

1634

01:04:41,750 --> 01:04:39,000

reason I laugh is because I preach this

1635

01:04:43,849 --> 01:04:41,760

don't let people get under your skin and

1636

01:04:45,289 --> 01:04:43,859

then on Greenwald you know it like for

1637

01:04:47,030 --> 01:04:45,299

the guy who saw it and anybody else

1638

01:04:49,490 --> 01:04:47,040

there was a question that was asked that

1639

01:04:51,170 --> 01:04:49,500

really got under my skin and I even got

1640

01:04:53,809 --> 01:04:51,180

a little embarrassed and apologized

1641

01:04:55,970 --> 01:04:53,819

because I had a big reaction so we're

1642

01:04:58,849 --> 01:04:55,980

all prone to that you know it's

1643

01:05:01,849 --> 01:04:58,859

difficult on and and social media these

1644

01:05:03,470 --> 01:05:01,859

days because uh we've got stars who are

1645

01:05:06,049 --> 01:05:03,480

dropping coming on and off of social

1646

01:05:08,270 --> 01:05:06,059

media all the time some of them feeling

1647

01:05:10,670 --> 01:05:08,280

depressed some of them even

1648

01:05:13,130 --> 01:05:10,680

contemplating suicide or committing

1649

01:05:15,289 --> 01:05:13,140

suicide over what goes on on social

1650

01:05:17,630 --> 01:05:15,299

media so it's it's hard to put yourself

1651
01:05:19,730 --> 01:05:17,640
out there on social media because even

1652
01:05:22,849 --> 01:05:19,740
if you decide you know what I'm going to

1653
01:05:24,349 --> 01:05:22,859
start writing some blogs uh about UFOs

1654
01:05:26,930 --> 01:05:24,359
and I'm going to share them on my

1655
01:05:29,809 --> 01:05:26,940
Twitter you're gonna get tons of hate

1656
01:05:32,030 --> 01:05:29,819
it's sad it's wrong it couldn't happen

1657
01:05:34,549 --> 01:05:32,040
but it does and we all react in

1658
01:05:37,609 --> 01:05:34,559
different ways so in that way I'm I'm

1659
01:05:40,069 --> 01:05:37,619
pathetic or sympathetic to Lou and him

1660
01:05:42,650 --> 01:05:40,079
getting really upset about people

1661
01:05:44,930 --> 01:05:42,660
um you know attacking him and a lot of

1662
01:05:47,329 --> 01:05:44,940
greenwald's people attack him and like

1663
01:05:50,150 --> 01:05:47,339

John and I talked about on the show John

1664

01:05:53,569 --> 01:05:50,160

had his camp and I had my camp and they

1665

01:05:56,030 --> 01:05:53,579

were attacking each other and and John

1666

01:05:58,609 --> 01:05:56,040

and I you know got in that arguments

1667

01:06:00,109 --> 01:05:58,619

over it and didn't talk for a while and

1668

01:06:01,970 --> 01:06:00,119

you know we never want to go back to

1669

01:06:04,670 --> 01:06:01,980

that we were buddies we love each other

1670

01:06:06,349 --> 01:06:04,680

we've been doing this for techie so long

1671

01:06:08,630 --> 01:06:06,359

you know

1672

01:06:10,490 --> 01:06:08,640

um and so I'm glad that John and I uh

1673

01:06:13,549 --> 01:06:10,500

are not talking and we're buddies again

1674

01:06:15,530 --> 01:06:13,559

I never want that to end and we just

1675

01:06:17,390 --> 01:06:15,540

agree to disagree sometimes

1676
01:06:18,710 --> 01:06:17,400
so what you're saying is that you think

1677
01:06:20,270 --> 01:06:18,720
that this should all be settled with a

1678
01:06:22,549 --> 01:06:20,280
sock of manure

1679
01:06:23,930 --> 01:06:22,559
yeah at 20 Paces

1680
01:06:25,549 --> 01:06:23,940
um it's interesting because you're

1681
01:06:28,010 --> 01:06:25,559
keeping it reading behind the between

1682
01:06:29,270 --> 01:06:28,020
the lines I I know you I know you that

1683
01:06:32,089 --> 01:06:29,280
well

1684
01:06:34,069 --> 01:06:32,099
um it's interesting because you see

1685
01:06:36,529 --> 01:06:34,079
um you know you you see all these people

1686
01:06:39,710 --> 01:06:36,539
that come out that are doing that are

1687
01:06:41,630 --> 01:06:39,720
progressing The Narrative of UFOs and

1688
01:06:44,870 --> 01:06:41,640

certainly I can't think of anyone who

1689

01:06:47,390 --> 01:06:44,880

you know left such a crater as um Lou

1690

01:06:49,250 --> 01:06:47,400

Elizondo did with getting out that the

1691

01:06:51,349 --> 01:06:49,260

the material all the footage and

1692

01:06:53,569 --> 01:06:51,359

everything and uh and the work that he

1693

01:06:55,970 --> 01:06:53,579

did and then you will have people who

1694

01:06:58,250 --> 01:06:55,980

it's like okay well he's getting a

1695

01:07:00,170 --> 01:06:58,260

little too much love so we're gonna find

1696

01:07:02,569 --> 01:07:00,180

other areas and and we're going to

1697

01:07:05,930 --> 01:07:02,579

attack him attack him being human

1698

01:07:09,170 --> 01:07:05,940

right which for me I I a lot of those

1699

01:07:11,569 --> 01:07:09,180

those things just seem to me kind of

1700

01:07:13,309 --> 01:07:11,579

petty in the big picture and so if

1701
01:07:15,890 --> 01:07:13,319
you're really going to Discount someone

1702
01:07:17,210 --> 01:07:15,900
are you going to discount them 100 are

1703
01:07:19,849 --> 01:07:17,220
you going to say no no just for the

1704
01:07:21,529 --> 01:07:19,859
purposes of my own argument and so I

1705
01:07:22,549 --> 01:07:21,539
kind of feel like

1706
01:07:25,130 --> 01:07:22,559
um

1707
01:07:26,990 --> 01:07:25,140
you know you've you've been out in the

1708
01:07:29,329 --> 01:07:27,000
in the arena longer than I have I've

1709
01:07:31,130 --> 01:07:29,339
been kind of you know for several years

1710
01:07:32,750 --> 01:07:31,140
been able to to play in the back uh

1711
01:07:35,690 --> 01:07:32,760
field with my films and everything and

1712
01:07:37,309 --> 01:07:35,700
but I I feel at the same time

1713
01:07:39,410 --> 01:07:37,319

you know you look at it you kind of go I

1714

01:07:41,809 --> 01:07:39,420

guess it just comes with the territory

1715

01:07:44,450 --> 01:07:41,819

and so to take any of this personal and

1716

01:07:47,809 --> 01:07:44,460

to look at it as that's a reflection

1717

01:07:49,130 --> 01:07:47,819

um you know I I feel as uh you you're

1718

01:07:51,109 --> 01:07:49,140

never going to win that and you don't

1719

01:07:54,950 --> 01:07:51,119

want to agree I made the joke when you

1720

01:07:57,109 --> 01:07:54,960

and um you and and uh and Martin when I

1721

01:07:59,569 --> 01:07:57,119

was there like one or two times ago on

1722

01:08:01,309 --> 01:07:59,579

on podcast UFO I made the joke I said I

1723

01:08:05,390 --> 01:08:01,319

don't trust anyone that has like a five

1724

01:08:06,829 --> 01:08:05,400

on their podcasts you know score I look

1725

01:08:10,370 --> 01:08:06,839

for someone that's got somewhere between

1726

01:08:12,470 --> 01:08:10,380

a 4.3 and a four point you know six

1727

01:08:15,470 --> 01:08:12,480

seven that that's the range where it

1728

01:08:17,510 --> 01:08:15,480

should set then then you know not

1729

01:08:19,610 --> 01:08:17,520

everyone is happy but you're telling

1730

01:08:21,890 --> 01:08:19,620

truth because truths are going to have

1731

01:08:24,349 --> 01:08:21,900

enemies and friends yeah that's just how

1732

01:08:26,150 --> 01:08:24,359

it is that's a really I think that's a

1733

01:08:29,090 --> 01:08:26,160

really really great Point

1734

01:08:30,890 --> 01:08:29,100

um and uh you know we both have met and

1735

01:08:34,130 --> 01:08:30,900

and hung out with Elizondo and his

1736

01:08:36,410 --> 01:08:34,140

humanness is uh I think

1737

01:08:39,650 --> 01:08:36,420

um endearing you know

1738

01:08:41,329 --> 01:08:39,660

um in a way it certainly at times even

1739

01:08:43,910 --> 01:08:41,339

during those times that John and I were

1740

01:08:45,829 --> 01:08:43,920

arguing makes me feel like protective to

1741

01:08:47,930 --> 01:08:45,839

be honest because you you know when he

1742

01:08:49,970 --> 01:08:47,940

first came out and got this and then his

1743

01:08:52,370 --> 01:08:49,980

kids are being affected and seeing this

1744

01:08:54,169 --> 01:08:52,380

terrible stuff on social media about him

1745

01:08:57,530 --> 01:08:54,179

you know that's awful you're like look

1746

01:08:59,390 --> 01:08:57,540

at what this guy has done for this field

1747

01:09:01,550 --> 01:08:59,400

um and people attacking him like this

1748

01:09:03,890 --> 01:09:01,560

it's it's certainly not I don't think

1749

01:09:08,870 --> 01:09:03,900

something he expected and it's not

1750

01:09:10,789 --> 01:09:08,880

deserved yeah I watched miragemen for

1751

01:09:11,930 --> 01:09:10,799

the second or third time recently I

1752

01:09:14,510 --> 01:09:11,940

think it's always good to see it every

1753

01:09:17,090 --> 01:09:14,520

once in a while just to see how

1754

01:09:19,610 --> 01:09:17,100

um you know the the other side of this

1755

01:09:23,150 --> 01:09:19,620

and how boy when you really want to

1756

01:09:25,450 --> 01:09:23,160

believe something and you're into it how

1757

01:09:27,650 --> 01:09:25,460

um you can give over so much of yourself

1758

01:09:29,030 --> 01:09:27,660

and how you really have to you know I

1759

01:09:31,189 --> 01:09:29,040

always joke I have one foot in the

1760

01:09:32,930 --> 01:09:31,199

rabbit hole and the UFO rabbit Hall I

1761

01:09:34,849 --> 01:09:32,940

don't want to go full rabbit hole that's

1762

01:09:36,410 --> 01:09:34,859

a good idea

1763

01:09:39,169 --> 01:09:36,420

but yeah yeah

1764

01:09:41,090 --> 01:09:39,179

I mean yeah that whole

1765

01:09:43,309 --> 01:09:41,100

yeah and that's what's tough and you

1766

01:09:45,169 --> 01:09:43,319

know for for a lot of people and I think

1767

01:09:46,970 --> 01:09:45,179

that's part of what happens too for a

1768

01:09:48,709 --> 01:09:46,980

lot of people that's fine they've got

1769

01:09:51,650 --> 01:09:48,719

their day jobs that have nothing to do

1770

01:09:54,590 --> 01:09:51,660

with this they can go rabbit hole diving

1771

01:09:56,510 --> 01:09:54,600

all they want and they can you know have

1772

01:09:58,010 --> 01:09:56,520

all of these ideas but for those of us

1773

01:10:02,090 --> 01:09:58,020

that are

1774

01:10:03,650 --> 01:10:02,100

really literally professional ufologists

1775

01:10:06,229 --> 01:10:03,660

um we have to be more careful we got to

1776

01:10:08,930 --> 01:10:06,239

be having a thought towards moving the

1777

01:10:11,090 --> 01:10:08,940

ball forward you know and and how that's

1778

01:10:13,790 --> 01:10:11,100

done and we all take different ideas on

1779

01:10:14,870 --> 01:10:13,800

how to do that John with foia you know

1780

01:10:16,130 --> 01:10:14,880

Lou

1781

01:10:18,650 --> 01:10:16,140

um with working with these government

1782

01:10:20,930 --> 01:10:18,660

agencies fortunate for him he he's got a

1783

01:10:23,030 --> 01:10:20,940

background with those agencies and you

1784

01:10:25,729 --> 01:10:23,040

know for seu for example tackling the

1785

01:10:30,169 --> 01:10:25,739

science or with Enigma Labs tackling the

1786

01:10:32,689 --> 01:10:30,179

data analysis uh um but um you know we

1787

01:10:34,910 --> 01:10:32,699

all got to focus on that area but all of

1788

01:10:37,490 --> 01:10:34,920

us have our mind towards moving that

1789

01:10:40,070 --> 01:10:37,500

ball forward and all of us you know at

1790

01:10:43,070 --> 01:10:40,080

times every different area makes these

1791

01:10:45,950 --> 01:10:43,080

strides that benefit all of us so I

1792

01:10:48,890 --> 01:10:45,960

think people need to be less uh

1793

01:10:52,010 --> 01:10:48,900

inclusive and or exclusive and be more

1794

01:10:54,050 --> 01:10:52,020

inclusive you know appreciate that uh

1795

01:10:56,030 --> 01:10:54,060

everyone's heart is in the right place

1796

01:10:57,530 --> 01:10:56,040

uh and they're moving the ball in the

1797

01:11:01,610 --> 01:10:57,540

right place except for the charlatans

1798

01:11:03,290 --> 01:11:01,620

and that you know and and support all of

1799

01:11:05,330 --> 01:11:03,300

the different research even if you don't

1800

01:11:06,830 --> 01:11:05,340

think that's going to be you know that's

1801
01:11:08,510 --> 01:11:06,840
not your cup of tea and you're not going

1802
01:11:11,870 --> 01:11:08,520
to pay attention you know watch every

1803
01:11:13,669 --> 01:11:11,880
podcast in that Arena that's fine but um

1804
01:11:15,530 --> 01:11:13,679
also you don't have to be adversarial

1805
01:11:17,570 --> 01:11:15,540
towards them you can support them and

1806
01:11:20,390 --> 01:11:17,580
say you know go for it

1807
01:11:22,790 --> 01:11:20,400
um I hope that brings you I hope the uh

1808
01:11:25,550 --> 01:11:22,800
abduction research brings them you know

1809
01:11:28,010 --> 01:11:25,560
and that feel towards uh some

1810
01:11:31,310 --> 01:11:28,020
discoveries it's not the arena that I

1811
01:11:33,110 --> 01:11:31,320
work on or have time to work in but I I

1812
01:11:35,810 --> 01:11:33,120
wish them the best you know

1813
01:11:38,510 --> 01:11:35,820

that's why I I've really been parking at

1814

01:11:41,030 --> 01:11:38,520

the last um four years is with the

1815

01:11:42,530 --> 01:11:41,040

experiencers and going to support groups

1816

01:11:44,630 --> 01:11:42,540

and and

1817

01:11:46,550 --> 01:11:44,640

um and you know these are the front line

1818

01:11:49,370 --> 01:11:46,560

people and in my opinion again if we're

1819

01:11:51,770 --> 01:11:49,380

talking stage one which is you know

1820

01:11:53,570 --> 01:11:51,780

um the witness evidence but a lot of

1821

01:11:55,970 --> 01:11:53,580

them have their own physical evidence on

1822

01:11:57,890 --> 01:11:55,980

you know marks on their bodies Etc

1823

01:11:59,390 --> 01:11:57,900

um but it's also I think someone I think

1824

01:12:03,430 --> 01:11:59,400

everyone needs to kind of remember that

1825

01:12:07,010 --> 01:12:03,440

no one makes money researching UFOs

1826

01:12:09,649 --> 01:12:07,020

it doesn't happen unless you're tied in

1827

01:12:11,030 --> 01:12:09,659

with an organization that is actively

1828

01:12:13,490 --> 01:12:11,040

going out there and has to pull together

1829

01:12:14,930 --> 01:12:13,500

funding and grants Etc it's not like a

1830

01:12:17,930 --> 01:12:14,940

job that you get out of college and you

1831

01:12:19,550 --> 01:12:17,940

go oh I'll go to this firm right and so

1832

01:12:22,010 --> 01:12:19,560

I always say you know these are people

1833

01:12:24,169 --> 01:12:22,020

that have to go through like the same

1834

01:12:26,870 --> 01:12:24,179

thing that non-profits go through in

1835

01:12:29,930 --> 01:12:26,880

order to to really get in and Advance

1836

01:12:31,550 --> 01:12:29,940

this and so you've done both you've done

1837

01:12:32,570 --> 01:12:31,560

it where it's been this hobby thing and

1838

01:12:34,850 --> 01:12:32,580

then you've done it where you've turned

1839

01:12:37,010 --> 01:12:34,860

it into this profession and so you know

1840

01:12:40,250 --> 01:12:37,020

my question is you know how how has that

1841

01:12:42,590 --> 01:12:40,260

worked and has it changed you in any way

1842

01:12:44,149 --> 01:12:42,600

since you first got interested in this

1843

01:12:47,750 --> 01:12:44,159

film yeah you know when it was

1844

01:12:49,729 --> 01:12:47,760

Grassroots I was very nice and I loved

1845

01:12:52,850 --> 01:12:49,739

everyone but would I work for the

1846

01:12:55,070 --> 01:12:52,860

corporate world I'm figuring out how I

1847

01:12:57,229 --> 01:12:55,080

could take advantage and exploit every

1848

01:13:01,310 --> 01:12:57,239

other person good that's good just

1849

01:13:02,689 --> 01:13:01,320

kidding oh oh you're no you're like yeah

1850

01:13:06,290 --> 01:13:02,699

no

1851
01:13:09,530 --> 01:13:06,300
um we're being silly again but um

1852
01:13:12,649 --> 01:13:09,540
has it changed me no you know I am I've

1853
01:13:14,570 --> 01:13:12,659
been extremely fortunate in that you

1854
01:13:16,729 --> 01:13:14,580
know the last company I worked for was

1855
01:13:18,950 --> 01:13:16,739
put together by John Rayo

1856
01:13:20,270 --> 01:13:18,960
um just some guy who decided to spend a

1857
01:13:21,709 --> 01:13:20,280
lot of money to figure out what's going

1858
01:13:24,050 --> 01:13:21,719
on with this field did we figure out

1859
01:13:26,510 --> 01:13:24,060
what's going on no but I think that we

1860
01:13:29,090 --> 01:13:26,520
did provide a lot of great information

1861
01:13:31,490 --> 01:13:29,100
especially by taking a journalistic

1862
01:13:33,530 --> 01:13:31,500
perspective and you know we were able to

1863
01:13:35,330 --> 01:13:33,540

make a lot of inroad with traditional

1864

01:13:37,010 --> 01:13:35,340

and mainstream science

1865

01:13:40,729 --> 01:13:37,020

um I've got a website out where at least

1866

01:13:43,610 --> 01:13:40,739

I've got a partial list of the different

1867

01:13:46,430 --> 01:13:43,620

um um you know network television or

1868

01:13:48,350 --> 01:13:46,440

news network uh or news outlets that

1869

01:13:50,630 --> 01:13:48,360

work with us and and it's a long list

1870

01:13:52,250 --> 01:13:50,640

you know that's how Elizondo found out

1871

01:13:54,830 --> 01:13:52,260

about us is that we're recovering this

1872

01:13:56,590 --> 01:13:54,840

in a credible manner or how I started to

1873

01:13:59,750 --> 01:13:56,600

work with Brian Bender out of Politico

1874

01:14:01,850 --> 01:13:59,760

so uh that was you know I I think that

1875

01:14:04,370 --> 01:14:01,860

was great I have John was at the

1876

01:14:06,050 --> 01:14:04,380

conference actually uh he's uh you know

1877

01:14:07,250 --> 01:14:06,060

I'll be forever grateful for him for

1878

01:14:10,310 --> 01:14:07,260

that

1879

01:14:13,189 --> 01:14:10,320

um now I'm working for a company uh

1880

01:14:15,830 --> 01:14:13,199

essentially a tech startup company

1881

01:14:18,290 --> 01:14:15,840

um and these are Tech startup people

1882

01:14:20,630 --> 01:14:18,300

um kind of from the tech Arena and they

1883

01:14:23,689 --> 01:14:20,640

are you know figure hey we need to

1884

01:14:25,729 --> 01:14:23,699

resolve this mystery how do we do it and

1885

01:14:27,649 --> 01:14:25,739

they're working with you know all of the

1886

01:14:29,570 --> 01:14:27,659

same big players in this field to say

1887

01:14:31,729 --> 01:14:29,580

what do you need

1888

01:14:34,970 --> 01:14:31,739

um and what we've all needed for a long

1889

01:14:37,250 --> 01:14:34,980

time is a large database where we can

1890

01:14:39,410 --> 01:14:37,260

put all of our data together and then

1891

01:14:43,130 --> 01:14:39,420

Analyze That tools to analyze it and

1892

01:14:44,570 --> 01:14:43,140

using machine learning and AI to do that

1893

01:14:47,149 --> 01:14:44,580

analysis

1894

01:14:49,689 --> 01:14:47,159

um so that's what we're doing and on in

1895

01:14:52,910 --> 01:14:49,699

that you know uh people can go to Enigma

1896

01:14:56,030 --> 01:14:52,920

labs.io that's our website and we just

1897

01:14:58,729 --> 01:14:56,040

literally just yesterday posted about

1898

01:15:01,310 --> 01:14:58,739

three quarters of

1899

01:15:04,010 --> 01:15:01,320

um about 75 or so articles well maybe

1900

01:15:06,950 --> 01:15:04,020

about half of the uh what I've been

1901

01:15:08,810 --> 01:15:06,960

working on which is getting a lot out of

1902

01:15:11,810 --> 01:15:08,820

great writers freelance writers in this

1903

01:15:13,490 --> 01:15:11,820

field to write kind of Wikipedia style

1904

01:15:16,189 --> 01:15:13,500

you know

1905

01:15:19,070 --> 01:15:16,199

um articles or I would say

1906

01:15:21,770 --> 01:15:19,080

on all of the different exciting cases

1907

01:15:23,450 --> 01:15:21,780

uh organizations and groups

1908

01:15:25,850 --> 01:15:23,460

um to write kind of neutral

1909

01:15:27,410 --> 01:15:25,860

comprehensive articles to educate all of

1910

01:15:29,870 --> 01:15:27,420

these people that are getting involved

1911

01:15:32,870 --> 01:15:29,880

on the history of this topic and I think

1912

01:15:34,729 --> 01:15:32,880

that's really extremely important

1913

01:15:37,250 --> 01:15:34,739

um so that you know all of these people

1914

01:15:39,530 --> 01:15:37,260

coming in can have a place to go to to

1915

01:15:41,689 --> 01:15:39,540

read up okay what has been done and by

1916

01:15:43,910 --> 01:15:41,699

who and so they can understand these

1917

01:15:46,130 --> 01:15:43,920

people their motivations what they've

1918

01:15:48,830 --> 01:15:46,140

gone through and how many of these

1919

01:15:53,689 --> 01:15:48,840

people are highly highly credible like

1920

01:15:55,550 --> 01:15:53,699

Dr heineck or Dr valet or

1921

01:15:58,310 --> 01:15:55,560

um you know any of these other

1922

01:16:02,270 --> 01:15:58,320

characters that have been doing great

1923

01:16:04,550 --> 01:16:02,280

work over the years so um

1924

01:16:07,370 --> 01:16:04,560

so yeah so I'm really excited about that

1925

01:16:10,310 --> 01:16:07,380

and um and to be honest we've got this

1926

01:16:12,770 --> 01:16:10,320

post blog post called transparency for

1927

01:16:15,229 --> 01:16:12,780

the data privacy for the people because

1928

01:16:18,110 --> 01:16:15,239

we're very protective over our employees

1929

01:16:20,689 --> 01:16:18,120

because people already know who I am but

1930

01:16:22,970 --> 01:16:20,699

uh we don't want

1931

01:16:24,350 --> 01:16:22,980

um the Elizondo or the big low effect to

1932

01:16:27,350 --> 01:16:24,360

happen you know when these people come

1933

01:16:29,270 --> 01:16:27,360

in and get demonized and attacked um you

1934

01:16:31,370 --> 01:16:29,280

know we don't want um so we're

1935

01:16:33,229 --> 01:16:31,380

protective and most of them you won't

1936

01:16:35,390 --> 01:16:33,239

find out who they are and unless I guess

1937

01:16:38,149 --> 01:16:35,400

they decide to or down the road

1938

01:16:39,770 --> 01:16:38,159

um that happens but uh most of our staff

1939

01:16:40,669 --> 01:16:39,780

are keeping their names Anonymous in

1940

01:16:43,729 --> 01:16:40,679

that

1941

01:16:47,030 --> 01:16:43,739

um and to protect them from this sort of

1942

01:16:48,770 --> 01:16:47,040

thing so uh but it's exciting and I've

1943

01:16:50,090 --> 01:16:48,780

always said this with seu when people

1944

01:16:52,010 --> 01:16:50,100

have complained because some of our

1945

01:16:54,050 --> 01:16:52,020

scientists at SCU for over the years

1946

01:16:55,910 --> 01:16:54,060

have remained Anonymous and some people

1947

01:16:58,010 --> 01:16:55,920

have said oh they should be out and it's

1948

01:17:00,350 --> 01:16:58,020

like well you know what would you rather

1949

01:17:01,729 --> 01:17:00,360

have their name or their expertise I

1950

01:17:03,770 --> 01:17:01,739

would rather have their expertise

1951

01:17:05,390 --> 01:17:03,780

because with their expertise we have

1952

01:17:07,550 --> 01:17:05,400

chemists we have you know

1953

01:17:10,070 --> 01:17:07,560

anthropologists we have

1954

01:17:12,410 --> 01:17:10,080

um uh geologists we have a lot more

1955

01:17:14,510 --> 01:17:12,420

scientists involved

1956

01:17:17,270 --> 01:17:14,520

um if they can feel secure in that it's

1957

01:17:20,450 --> 01:17:17,280

not going to affect their careers and uh

1958

01:17:22,370 --> 01:17:20,460

the taboo hasn't gone so over the years

1959

01:17:24,169 --> 01:17:22,380

hopefully we can completely get rid of

1960

01:17:27,290 --> 01:17:24,179

that taboo and then people won't feel

1961

01:17:29,390 --> 01:17:27,300

like they have to remain anonymous to

1962

01:17:30,830 --> 01:17:29,400

work in this field but I would rather

1963

01:17:32,870 --> 01:17:30,840

have the people working in this field

1964

01:17:35,330 --> 01:17:32,880

than not so

1965

01:17:37,189 --> 01:17:35,340

um it's exciting it's really exciting I

1966

01:17:38,750 --> 01:17:37,199

think we're making great strides I hope

1967

01:17:41,330 --> 01:17:38,760

people go look at the site and see what

1968

01:17:43,250 --> 01:17:41,340

we're up to over the next few months

1969

01:17:44,870 --> 01:17:43,260

they're going to see more and more and I

1970

01:17:48,530 --> 01:17:44,880

think what we're going to be known for

1971

01:17:51,110 --> 01:17:48,540

is uh data analysis and providing tools

1972

01:17:53,510 --> 01:17:51,120

to researchers even citizen scientists

1973

01:17:55,970 --> 01:17:53,520

even the people listening to podcasts

1974

01:17:59,390 --> 01:17:55,980

now you're going to have tools largely

1975

01:18:01,370 --> 01:17:59,400

free tools at your fingertips to do more

1976

01:18:02,810 --> 01:18:01,380

research than we've ever been able to do

1977

01:18:04,729 --> 01:18:02,820

before

1978

01:18:07,490 --> 01:18:04,739

um so I'm really really excited about it

1979

01:18:10,550 --> 01:18:07,500

well just speaking for myself I can't do

1980

01:18:12,649 --> 01:18:10,560

all the research that SCU is doing and

1981

01:18:13,970 --> 01:18:12,659

so I'm really grateful for them being

1982

01:18:17,090 --> 01:18:13,980

out there and the work that you're doing

1983

01:18:19,490 --> 01:18:17,100

with them I I'm kind of like I you know

1984

01:18:21,410 --> 01:18:19,500

if I can you know chip in and you know

1985

01:18:25,070 --> 01:18:21,420

donate

1986

01:18:27,169 --> 01:18:25,080

um I will sure and and so and yeah and

1987

01:18:29,330 --> 01:18:27,179

we we can talk about um we can tell them

1988

01:18:31,070 --> 01:18:29,340

where they can go for that again

1989

01:18:33,470 --> 01:18:31,080

um but my feeling is these people are

1990

01:18:34,850 --> 01:18:33,480

doing this they're they're doing you

1991

01:18:36,410 --> 01:18:34,860

know the work out there that we'd like

1992

01:18:39,229 --> 01:18:36,420

to see be done I'm not gonna

1993

01:18:40,490 --> 01:18:39,239

particularly ask you know who exactly is

1994

01:18:42,229 --> 01:18:40,500

doing that because some people you know

1995

01:18:44,149 --> 01:18:42,239

some mad scientists like to work in

1996

01:18:46,250 --> 01:18:44,159

their lab and not be known and we have

1997

01:18:48,890 --> 01:18:46,260

to kind of respect that process right as

1998

01:18:52,550 --> 01:18:48,900

well we're not mad yeah oh they're not

1999

01:18:55,250 --> 01:18:52,560

they're just we're not mad that's a joke

2000

01:18:57,470 --> 01:18:55,260

from yes from uh Network Young

2001

01:18:59,930 --> 01:18:57,480

Frankenstein I think oh was it Young

2002

01:19:01,910 --> 01:18:59,940

Frankenstein we're not a mad scientist

2003

01:19:07,610 --> 01:19:01,920

was always saying when he was ever he

2004

01:19:14,090 --> 01:19:11,030

um so uh what is next for uh Alejandro

2005

01:19:16,850 --> 01:19:14,100

as we uh wrap up here what do you yeah

2006

01:19:18,669 --> 01:19:16,860

what is next I think people can go to uh

2007

01:19:21,590 --> 01:19:18,679

like I said

2008

01:19:23,390 --> 01:19:21,600

enigmablogs.io to see what I'm up to and

2009

01:19:25,070 --> 01:19:23,400

see the articles that I've I've put

2010

01:19:27,530 --> 01:19:25,080

together or had people put together

2011

01:19:28,729 --> 01:19:27,540

we've got a lot of Freelancers and I

2012

01:19:31,370 --> 01:19:28,739

want to use their names right now just

2013

01:19:33,410 --> 01:19:31,380

in case uh I don't think they would yeah

2014

01:19:34,790 --> 01:19:33,420

there you go I don't think you would

2015

01:19:35,689 --> 01:19:34,800

want to

2016

01:19:37,250 --> 01:19:35,699

um

2017

01:19:38,750 --> 01:19:37,260

you know we've allowed them they could

2018

01:19:40,910 --> 01:19:38,760

share their names if they want so we'll

2019

01:19:42,169 --> 01:19:40,920

see I would leave that up to them but

2020

01:19:43,850 --> 01:19:42,179

some of the great people in the field

2021

01:19:45,229 --> 01:19:43,860

and then some freelance writers maybe

2022

01:19:47,570 --> 01:19:45,239

you've never heard of who are just

2023

01:19:49,189 --> 01:19:47,580

excellent researchers and writers so I

2024

01:19:51,770 --> 01:19:49,199

think people will really enjoy those

2025

01:19:53,870 --> 01:19:51,780

articles like any article that's the

2026

01:19:56,270 --> 01:19:53,880

thing that I found with open minds the

2027

01:19:58,970 --> 01:19:56,280

more neutral our article was the more

2028

01:20:01,130 --> 01:19:58,980

controversial it was because then both

2029

01:20:03,410 --> 01:20:01,140

sides are like that doesn't represent

2030

01:20:05,810 --> 01:20:03,420

you know how real this is and Skeptics

2031

01:20:07,550 --> 01:20:05,820

are like that doesn't represent how fake

2032

01:20:09,890 --> 01:20:07,560

this is but that's kind of a fun thing

2033

01:20:12,169 --> 01:20:09,900

because I think that uh all of this will

2034

01:20:13,850 --> 01:20:12,179

generate a lot of conversation

2035

01:20:15,050 --> 01:20:13,860

um back and forth and and we'll see how

2036

01:20:17,450 --> 01:20:15,060

that goes

2037

01:20:20,390 --> 01:20:17,460

um so what I guess from our perspective

2038

01:20:22,910 --> 01:20:20,400

we will try to remain uh neutral and I

2039

01:20:26,390 --> 01:20:22,920

think I have a pretty good thumb on on

2040

01:20:29,450 --> 01:20:26,400

neutrality in this field so um luckily I

2041

01:20:30,709 --> 01:20:29,460

get to be the determiner for uh that

2042

01:20:32,930 --> 01:20:30,719

when it comes to these articles and I

2043

01:20:36,470 --> 01:20:32,940

think people agree uh so go take a look

2044

01:20:39,610 --> 01:20:36,480

and then of course at explore SCU dot

2045

01:20:42,470 --> 01:20:39,620

org where the SEO is doing work explore

2046

01:20:44,689 --> 01:20:42,480

scu.org we're doing lots of cool stuff

2047

01:20:46,669 --> 01:20:44,699

we've got a lot of studies going on but

2048

01:20:49,070 --> 01:20:46,679

one of the really exciting things that

2049

01:20:52,850 --> 01:20:49,080

we've been doing in the background is on

2050

01:20:55,130 --> 01:20:52,860

networking and introducing people so

2051

01:20:57,050 --> 01:20:55,140

um you know a lot of a big deal was made

2052

01:21:00,290 --> 01:20:57,060

about some of the people at our uh

2053

01:21:02,990 --> 01:21:00,300

conference like uh space force and some

2054

01:21:04,669 --> 01:21:03,000

other agencies where we're at our

2055

01:21:07,729 --> 01:21:04,679

conference to kind of see what are these

2056

01:21:11,390 --> 01:21:07,739

scientists up to and the SCU you'll have

2057

01:21:14,209 --> 01:21:11,400

to remember are people who are

2058

01:21:16,729 --> 01:21:14,219

scientists who some of whom have worked

2059

01:21:18,350 --> 01:21:16,739

on government projects some of whom who

2060

01:21:21,229 --> 01:21:18,360

worked on OS app you know people like

2061

01:21:22,490 --> 01:21:21,239

Eric Davis or Hal put off or or other

2062

01:21:24,709 --> 01:21:22,500

scientists who are part of our

2063

01:21:26,090 --> 01:21:24,719

organization so that's why it's a good

2064

01:21:28,310 --> 01:21:26,100

place for them to go because these are

2065

01:21:30,290 --> 01:21:28,320

the people they either would have hired

2066

01:21:32,450 --> 01:21:30,300

for these projects or have hired for

2067

01:21:35,570 --> 01:21:32,460

these projects so they get to come and

2068

01:21:37,729 --> 01:21:35,580

network and see what we're up to I think

2069

01:21:40,010 --> 01:21:37,739

you know we're very proud of being able

2070

01:21:41,930 --> 01:21:40,020

to network people together and our

2071

01:21:44,689 --> 01:21:41,940

Nimitz paper has gotten a lot of

2072

01:21:47,149 --> 01:21:44,699

attention uh Agudilla case papers

2073

01:21:49,490 --> 01:21:47,159

gotten a lot of attention and uh we're

2074

01:21:51,470 --> 01:21:49,500

continuing to write more papers and do

2075

01:21:53,330 --> 01:21:51,480

more uh analysis

2076

01:21:55,550 --> 01:21:53,340

um and in fact

2077

01:21:58,310 --> 01:21:55,560

at Enigma Labs we're working closely

2078

01:22:00,709 --> 01:21:58,320

with SCU so we hope to have some joint

2079

01:22:02,689 --> 01:22:00,719

projects coming out where you know we

2080

01:22:04,149 --> 01:22:02,699

can provide some machine learning and

2081

01:22:08,709 --> 01:22:04,159

have our computers

2082

01:22:11,630 --> 01:22:08,719

analyze cases uh you know ingest uh

2083

01:22:13,669 --> 01:22:11,640

thousands and thousands of cases and

2084

01:22:15,890 --> 01:22:13,679

then analyze them and then let

2085

01:22:17,450 --> 01:22:15,900

scientists know here's the data set of

2086

01:22:19,310 --> 01:22:17,460

good cases that you want to pay

2087

01:22:21,110 --> 01:22:19,320

attention to that we can do some

2088

01:22:23,270 --> 01:22:21,120

correlations to figure out what's going

2089

01:22:25,310 --> 01:22:23,280

on and then that's when the scientists

2090

01:22:27,950 --> 01:22:25,320

take over and some of the manual work

2091

01:22:29,750 --> 01:22:27,960

has to start and uh you know we've got

2092

01:22:32,149 --> 01:22:29,760

data scientists on our team that are

2093

01:22:34,550 --> 01:22:32,159

working with seu so that's really fun

2094

01:22:36,169 --> 01:22:34,560

because now I feel like you know in the

2095

01:22:38,570 --> 01:22:36,179

background we've already become part of

2096

01:22:43,669 --> 01:22:38,580

that uh scientific Community that's

2097

01:22:45,430 --> 01:22:43,679

working on UAP studies and uh and so

2098

01:22:47,630 --> 01:22:45,440

we're going to be able to you know

2099

01:22:49,850 --> 01:22:47,640

customize our tools for those

2100

01:22:52,550 --> 01:22:49,860

researchers so they can make even more

2101
01:22:55,370 --> 01:22:52,560
discoveries more quickly and hopefully

2102
01:22:56,930 --> 01:22:55,380
bigger discoveries in the future and I

2103
01:23:00,229 --> 01:22:56,940
really feel that we're going to be able

2104
01:23:02,750 --> 01:23:00,239
to provide the tools to make some really

2105
01:23:04,310 --> 01:23:02,760
uh significant discoveries in the near

2106
01:23:05,270 --> 01:23:04,320
future

2107
01:23:08,870 --> 01:23:05,280
um

2108
01:23:11,630 --> 01:23:08,880
briefly as we wrap up here what what you

2109
01:23:14,209 --> 01:23:11,640
guys are doing with Enigma Labs is

2110
01:23:16,790 --> 01:23:14,219
putting together a database

2111
01:23:19,010 --> 01:23:16,800
um Jacques valet's also got a database I

2112
01:23:22,610 --> 01:23:19,020
don't know if his database how readily

2113
01:23:23,510 --> 01:23:22,620

available that is but also we're working

2114

01:23:26,090 --> 01:23:23,520

with him

2115

01:23:27,830 --> 01:23:26,100

okay that's great so yeah that answers

2116

01:23:29,870 --> 01:23:27,840

that okay because I was yeah because

2117

01:23:32,810 --> 01:23:29,880

then everyone's you know working from

2118

01:23:34,910 --> 01:23:32,820

the same resources same you know Hub

2119

01:23:36,890 --> 01:23:34,920

basically Network where you can do that

2120

01:23:38,689 --> 01:23:36,900

in addition to when the new cases come

2121

01:23:40,189 --> 01:23:38,699

in you can look at algorithms and go

2122

01:23:42,649 --> 01:23:40,199

well this kind of fits this and also

2123

01:23:43,970 --> 01:23:42,659

fits that what can we learn exactly and

2124

01:23:46,070 --> 01:23:43,980

you know that's what we've done at the

2125

01:23:48,169 --> 01:23:46,080

SCU we've worked we've been open and we

2126

01:23:50,450 --> 01:23:48,179

work with everyone and uh you know

2127

01:23:52,550 --> 01:23:50,460

that's what I've brought to Enigma Labs

2128

01:23:55,250 --> 01:23:52,560

as uh the head of research and content

2129

01:23:56,689 --> 01:23:55,260

is my number one goal is you know let's

2130

01:23:58,910 --> 01:23:56,699

talk to the people who have been doing

2131

01:24:01,130 --> 01:23:58,920

this for decades let's talk to the

2132

01:24:03,950 --> 01:24:01,140

Jacque valleys and mark radikers the

2133

01:24:06,050 --> 01:24:03,960

David marlers the class you know in

2134

01:24:08,450 --> 01:24:06,060

Sweden you know let's talk to all of

2135

01:24:11,270 --> 01:24:08,460

these people get their input get their

2136

01:24:13,250 --> 01:24:11,280

involvement and work together to

2137

01:24:15,770 --> 01:24:13,260

um you know all work in the same

2138

01:24:17,450 --> 01:24:15,780

direction and work together on all of

2139

01:24:19,790 --> 01:24:17,460

this and that's what we're doing and so

2140

01:24:22,130 --> 01:24:19,800

it's it's really exciting

2141

01:24:23,330 --> 01:24:22,140

um and uh you know I want to do all of

2142

01:24:26,030 --> 01:24:23,340

these people proud I want to provide

2143

01:24:28,550 --> 01:24:26,040

them with the sort of data and

2144

01:24:30,950 --> 01:24:28,560

information they want in the manner they

2145

01:24:34,669 --> 01:24:30,960

need it and so that's what we're working

2146

01:24:36,530 --> 01:24:34,679

hard to do great well um the one thing

2147

01:24:38,330 --> 01:24:36,540

that I feel like I would love to see

2148

01:24:41,030 --> 01:24:38,340

inserted into this and I feel like

2149

01:24:42,470 --> 01:24:41,040

you're really really good at is uh

2150

01:24:44,030 --> 01:24:42,480

because many a time I've come to you and

2151

01:24:46,010 --> 01:24:44,040

I've said hey so I just heard this thing

2152

01:24:47,270 --> 01:24:46,020

blah blah and you go yeah I heard the

2153

01:24:50,450 --> 01:24:47,280

same thing so here's the problem with

2154

01:24:52,250 --> 01:24:50,460

that and I'm like Ah that's right and so

2155

01:24:55,430 --> 01:24:52,260

the one thing that I always hearken back

2156

01:24:57,350 --> 01:24:55,440

to is I had a really great teacher

2157

01:25:01,250 --> 01:24:57,360

um who who taught us

2158

01:25:04,310 --> 01:25:01,260

um truth is dynamic on many levels

2159

01:25:06,470 --> 01:25:04,320

it's it's never just that one thing it

2160

01:25:08,510 --> 01:25:06,480

by its existence there are other things

2161

01:25:10,850 --> 01:25:08,520

that that relates and other people take

2162

01:25:12,110 --> 01:25:10,860

it in differently it's you know colors

2163

01:25:14,930 --> 01:25:12,120

people don't you know you've got

2164

01:25:17,030 --> 01:25:14,940

someone's colorblind and sounds Etc so

2165

01:25:20,030 --> 01:25:17,040

we all kind of have to create a little

2166

01:25:22,910 --> 01:25:20,040

space for that truth being Dynamic

2167

01:25:25,250 --> 01:25:22,920

that's a great point you know because I

2168

01:25:27,830 --> 01:25:25,260

talked about journalists intelligence

2169

01:25:30,770 --> 01:25:27,840

and scientists work with all the with

2170

01:25:34,130 --> 01:25:30,780

the data differently but one key is that

2171

01:25:37,189 --> 01:25:34,140

data the better the the results are

2172

01:25:40,010 --> 01:25:37,199

going to be better with pure data and

2173

01:25:43,189 --> 01:25:40,020

all of those Arenas need to make sure to

2174

01:25:46,510 --> 01:25:43,199

have a strong commitment to truth and

2175

01:25:49,910 --> 01:25:46,520

facts and not a strong commitment to

2176
01:25:51,649 --> 01:25:49,920
predisposed ideas about the topic and

2177
01:25:55,310 --> 01:25:51,659
you know the longer that I've been

2178
01:25:57,350 --> 01:25:55,320
involved the less I have had Set uh

2179
01:25:59,570 --> 01:25:57,360
opinions and ideas about what's going on

2180
01:26:01,010 --> 01:25:59,580
because they serve no purpose except for

2181
01:26:03,350 --> 01:26:01,020
me to get disappointed down the road

2182
01:26:05,870 --> 01:26:03,360
when I I find out I'm wrong you know so

2183
01:26:08,689 --> 01:26:05,880
it's better just to purely follow the

2184
01:26:10,370 --> 01:26:08,699
data and purely stick to the facts and

2185
01:26:12,410 --> 01:26:10,380
then put those together and see what

2186
01:26:14,410 --> 01:26:12,420
they build and the story that they build

2187
01:26:16,790 --> 01:26:14,420
will be the truth and it'll be you know

2188
01:26:19,250 --> 01:26:16,800

science I think is a little better on

2189

01:26:21,110 --> 01:26:19,260

this but uh it'll be you know our

2190

01:26:23,629 --> 01:26:21,120

reality as it is which is what we're

2191

01:26:26,090 --> 01:26:23,639

trying to figure out and um and we got

2192

01:26:27,110 --> 01:26:26,100

to have a little bit of faith and and I

2193

01:26:30,110 --> 01:26:27,120

think we can have that through

2194

01:26:32,090 --> 01:26:30,120

experience that whatever the answer uh

2195

01:26:33,890 --> 01:26:32,100

whatever the truth we put together it's

2196

01:26:36,350 --> 01:26:33,900

going to be fascinating it's going to be

2197

01:26:39,110 --> 01:26:36,360

incredible and we're going to

2198

01:26:39,830 --> 01:26:39,120

um all be enriched by that information I

2199

01:26:42,110 --> 01:26:39,840

think

2200

01:26:44,750 --> 01:26:42,120

I agree 100 and that's a perfect note to

2201

01:26:47,750 --> 01:26:44,760

leave on Alejandro thank you so much say

2202

01:26:50,570 --> 01:26:47,760

hi to Karen and um continued success

2203

01:26:52,370 --> 01:26:50,580

with dude so many things that uh you're

2204

01:26:54,470 --> 01:26:52,380

you're working on and I know they're

2205

01:26:55,669 --> 01:26:54,480

benefiting as much as you are so look

2206

01:26:57,530 --> 01:26:55,679

forward to seeing you next time in

2207

01:27:00,649 --> 01:26:57,540

person and

2208

01:27:02,930 --> 01:27:00,659

um thank you everyone for uh for tuning

2209

01:27:05,510 --> 01:27:02,940

in uh next week again we have John

2210

01:27:08,390 --> 01:27:05,520

Burroughs who will be here and I will be

2211

01:27:11,209 --> 01:27:08,400

um uh hosting with um Martin Martin

2212

01:27:13,790 --> 01:27:11,219

hopefully will be back 100 I'm expecting

2213

01:27:15,649 --> 01:27:13,800

he will and uh again thank you everyone

2214

01:27:16,750 --> 01:27:15,659

for checking out the show and we will

2215

01:27:22,850 --> 01:27:16,760

see you next week

2216

01:27:22,860 --> 01:27:28,020

thank you
