00:00:55,750 --> 00:00:04,070

[Music]

2
00:01:01,970 --> 00:00:58,850

hello and welcome to the show on Martin

3
00:01:07,609 --> 00:01:01,980

willischer host and we have a long time

4
00:01:10,490 --> 00:01:07,619

friend uh decades long uh ufologist UFO

5
00:01:12,890 --> 00:01:10,500

researchers in the Chicago area Sam

6
00:01:15,890 --> 00:01:12,900

moranto he was actually one of the first

7
00:01:19,310 --> 00:01:15,900

guests that I had I don't know maybe 10

8
00:01:21,770 --> 00:01:19,320

or 20 in my show when I asked him on and

9
00:01:23,450 --> 00:01:21,780

we've been in touch ever since and he's

10
00:01:27,890 --> 00:01:23,460

a great guy looking forward to talking

11
00:01:31,330 --> 00:01:27,900

to him tonight our blog uh this week is

12
00:01:33,890 --> 00:01:31,340

uh another one in the uh the abduction

13
00:01:36,730 --> 00:01:33,900

researchers you know the type that type

14

00:01:40,550 --> 00:01:36,740

of theme that's uh one more coming up

15

00:01:43,370 --> 00:01:40,560

and uh that's by Charles Lear he does a

16

00:01:45,649 --> 00:01:43,380

a great job as always and this one in

17

00:01:47,810 --> 00:01:45,659

particular is about

18

00:01:49,370 --> 00:01:47,820

um Woods I'm trying to remember her

19

00:01:53,569 --> 00:01:49,380

first name

20

00:01:55,670 --> 00:01:53,579

um she was a Emma Woods uh the Emma

21

00:01:58,730 --> 00:01:55,680

Woods case very very famous

22

00:02:00,469 --> 00:01:58,740

anyway this is all about that and uh

23

00:02:02,690 --> 00:02:00,479

what people went through trying to

24

00:02:05,450 --> 00:02:02,700

investigate what she was uh talking

25

00:02:09,229 --> 00:02:05,460

about what happened to her uh back then

26

00:02:11,029 --> 00:02:09,239

so uh that's it for this week's Blog the

27

00:02:13,729 --> 00:02:11,039

audio blogs are put in every week so

28

00:02:16,309 --> 00:02:13,739

they're in the podcast feed and in the

29

00:02:18,949 --> 00:02:16,319

YouTube feed as well and thank you for

30

00:02:21,770 --> 00:02:18,959

Charles for that and uh he may be

31

00:02:24,589 --> 00:02:21,780

writing another book and uh I know that

32

00:02:26,449 --> 00:02:24,599

his first one uh a lot of people that

33

00:02:28,910 --> 00:02:26,459

listen to the show really enjoyed it a

34

00:02:30,650 --> 00:02:28,920

lot so uh we'll know more about that and

35

00:02:33,229 --> 00:02:30,660

that would be another year perhaps by

36

00:02:34,309 --> 00:02:33,239

the time he gets that done but anyway I

37

00:02:36,410 --> 00:02:34,319

want to thank everyone that helps

38

00:02:40,010 --> 00:02:36,420

support the show anyone can do that it's

39

00:02:41,690 --> 00:02:40,020

over at podcast ufo.com and I think I'm

40

00:02:43,190 --> 00:02:41,700

ready to bring in our guest we're going

41

00:02:45,530 --> 00:02:43,200

to be talking about all sorts of things

42

00:02:49,550 --> 00:02:45,540

Sam welcome to the show

43

00:02:52,070 --> 00:02:49,560

well it's a pleasure to be back and it's

44

00:02:53,930 --> 00:02:52,080

it's been too darn long my friend it's

45

00:02:57,470 --> 00:02:53,940

been too darn long we haven't even had a

46

00:02:59,270 --> 00:02:57,480

chance to talk I know I know in I

47

00:03:01,970 --> 00:02:59,280

remember you were at one time you were

48

00:03:05,089 --> 00:03:01,980

on like every other week for a while

49

00:03:06,770 --> 00:03:05,099

yeah seems like yeah I wasn't really

50

00:03:08,449 --> 00:03:06,780

that much but it was a lot you were on a

51
00:03:10,970 --> 00:03:08,459
lot and it's but it's always it's always

52
00:03:13,670 --> 00:03:10,980
fun to have you on and and uh we have

53
00:03:16,670 --> 00:03:13,680
you know it's it's funny uh the last few

54
00:03:18,170 --> 00:03:16,680
years we've seen so many changes and

55
00:03:19,790 --> 00:03:18,180
that's kind of what we want to you know

56
00:03:22,309 --> 00:03:19,800
we thought would be a good topic to

57
00:03:24,050 --> 00:03:22,319
touch on uh of course you know you you

58
00:03:26,210 --> 00:03:24,060
did a lot of great research over the

59
00:03:29,690 --> 00:03:26,220
years and we can touch on all that

60
00:03:33,170 --> 00:03:29,700
someone uh mentioned the O'Hare case uh

61
00:03:35,869 --> 00:03:33,180
2007 uh Gate C 17. I remember a little

62
00:03:38,869 --> 00:03:35,879
details about it but you look deeply

63
00:03:41,990 --> 00:03:38,879

into that and uh you know before we move

64

00:03:44,530 --> 00:03:42,000

on from that I I have said on this uh

65

00:03:47,570 --> 00:03:44,540

show before about that particular case

66

00:03:50,990 --> 00:03:47,580

where it seems to me that someone

67

00:03:53,750 --> 00:03:51,000

retired at this point and now with the

68

00:03:55,850 --> 00:03:53,760

stigma of UFOs being much less than it

69

00:03:57,770 --> 00:03:55,860

used to be and uh people are coming

70

00:03:59,390 --> 00:03:57,780

forward more and more I'm surprised

71

00:04:00,770 --> 00:03:59,400

nobody's talking about that have you

72

00:04:02,990 --> 00:04:00,780

heard anything

73

00:04:05,449 --> 00:04:03,000

yes I have strangely enough a couple

74

00:04:07,630 --> 00:04:05,459

years ago that way I've been about I'm

75

00:04:11,809 --> 00:04:07,640

trying to think here it had been about

76

00:04:14,750 --> 00:04:11,819

2018. uh I was speaking up north at a um

77

00:04:17,090 --> 00:04:14,760

before a group and a Gentleman pulled me

78

00:04:20,090 --> 00:04:17,100

aside afterwards and he says you know I

79

00:04:22,610 --> 00:04:20,100

was a manager uh that would handle

80

00:04:25,310 --> 00:04:22,620

luggage security

81

00:04:28,790 --> 00:04:25,320

and I was between Gates the The

82

00:04:29,930 --> 00:04:28,800

Concourse C and B when I heard all this

83

00:04:32,390 --> 00:04:29,940

chatter

84

00:04:34,790 --> 00:04:32,400

so they were trying to rush through some

85

00:04:36,890 --> 00:04:34,800

uh some baggage and they needed to get

86

00:04:39,050 --> 00:04:36,900

it cleared so he was busy paying

87

00:04:40,909 --> 00:04:39,060

attention to that and he couldn't get up

88

00:04:45,290 --> 00:04:40,919

there to see what was going on outside

89

00:04:47,090 --> 00:04:45,300

so what he did is he called on on the uh

90

00:04:49,430 --> 00:04:47,100

um maybe it was a cell phone or

91

00:04:51,469 --> 00:04:49,440

something different uh where he was able

92

00:04:54,350 --> 00:04:51,479

to talk to one of his friends was a

93

00:04:58,310 --> 00:04:54,360

manager on the B con course who was

94

00:05:01,550 --> 00:04:58,320

giving him uh the you know the the move

95

00:05:04,189 --> 00:05:01,560

by move uh what was going on up there he

96

00:05:05,990 --> 00:05:04,199

was saying it and and you know sure

97

00:05:08,749 --> 00:05:06,000

enough everything he was saying was

98

00:05:10,909 --> 00:05:08,759

played out exactly as other people

99

00:05:13,010 --> 00:05:10,919

explained to him he says that thing was

100

00:05:16,249 --> 00:05:13,020

absolutely there it sat there over the

101
00:05:18,670 --> 00:05:16,259
Concourse and it shot up leaving the

102
00:05:22,370 --> 00:05:18,680
gaping hole in the sky as we've heard

103
00:05:26,390 --> 00:05:22,380
and as you recall my witness in

104
00:05:29,810 --> 00:05:26,400
particular was referred to as JH in the

105
00:05:33,950 --> 00:05:29,820
um technical report uh number 10 at the

106
00:05:37,129 --> 00:05:33,960
a narcap site she had mentioned that she

107
00:05:38,870 --> 00:05:37,139
had seen it shoot through the sky and

108
00:05:41,390 --> 00:05:38,880
when it done when it did that it was

109
00:05:43,730 --> 00:05:41,400
that little bit it was a a sharp angle

110
00:05:46,730 --> 00:05:43,740
so it wasn't directly straight up as a

111
00:05:50,029 --> 00:05:46,740
little bit of an angle and that when it

112
00:05:52,189 --> 00:05:50,039
happened people were gasping and and

113
00:05:55,249 --> 00:05:52,199

making sounds and like they were

114

00:05:58,370 --> 00:05:55,259

startled uh screeching I think is one

115

00:06:01,490 --> 00:05:58,380

term she also used that people were so

116

00:06:04,969 --> 00:06:01,500

startled by that and it left left this

117

00:06:08,469 --> 00:06:04,979

gaping hole mind you this is 6 000 feet

118

00:06:12,409 --> 00:06:08,479

of cloud cover that it shot through

119

00:06:16,330 --> 00:06:12,419

instantaneously to a blue sky above

120

00:06:20,150 --> 00:06:16,340

now balloons don't do that

121

00:06:21,529 --> 00:06:20,160

yeah we can we can cross balloon off on

122

00:06:22,909 --> 00:06:21,539

that list

123

00:06:23,450 --> 00:06:22,919

um but

124

00:06:25,670 --> 00:06:23,460

um

125

00:06:27,370 --> 00:06:25,680

so I wonder about how many people

126
00:06:30,050 --> 00:06:27,380
witness this

127
00:06:32,150 --> 00:06:30,060
I know uh you know Kurt the Kurt Russell

128
00:06:33,890 --> 00:06:32,160
thing no and um William I'm confusing

129
00:06:36,469 --> 00:06:33,900
that with the Phoenix Lights

130
00:06:38,450 --> 00:06:36,479
um but I wonder how many people saw that

131
00:06:40,010 --> 00:06:38,460
from the sky

132
00:06:41,870 --> 00:06:40,020
well

133
00:06:45,529 --> 00:06:41,880
yeah that's a good point that's a good

134
00:06:47,510 --> 00:06:45,539
point there were there was a um uh an

135
00:06:49,070 --> 00:06:47,520
individual who was flying in who made a

136
00:06:53,090 --> 00:06:49,080
report

137
00:06:58,189 --> 00:06:55,249
gosh I'm trying to think now

138
00:07:01,129 --> 00:06:58,199

Robert Powell and it was given to me and

139

00:07:03,950 --> 00:07:01,139

I have that uh in my collection and the

140

00:07:07,010 --> 00:07:03,960

the husband it was the husband

141

00:07:09,050 --> 00:07:07,020

of a military personnel so he filed a

142

00:07:09,950 --> 00:07:09,060

report and they actually had seen

143

00:07:12,790 --> 00:07:09,960

something

144

00:07:16,129 --> 00:07:12,800

uh in the sky while they were coming in

145

00:07:17,510 --> 00:07:16,139

now the other thing is there were other

146

00:07:19,070 --> 00:07:17,520

people there have been other people

147

00:07:22,850 --> 00:07:19,080

coming forward

148

00:07:25,490 --> 00:07:22,860

and uh a good friend of ours another

149

00:07:28,430 --> 00:07:25,500

person in the field is supposed to

150

00:07:30,110 --> 00:07:28,440

introduce me to some folks who are

151
00:07:32,409 --> 00:07:30,120
pilots that are are willing to come

152
00:07:35,629 --> 00:07:32,419
forward now and talk about that event

153
00:07:38,870 --> 00:07:35,639
they were warned by the way Pilots were

154
00:07:42,290 --> 00:07:38,880
warned that something was seen and that

155
00:07:44,629 --> 00:07:42,300
they did alter the of light patterns

156
00:07:47,990 --> 00:07:44,639
they didn't stop the flight patterns

157
00:07:50,150 --> 00:07:48,000
from coming in but it it did change its

158
00:07:52,670 --> 00:07:50,160
uh the format it did change and a

159
00:07:54,770 --> 00:07:52,680
warning went out so that did take place

160
00:07:57,770 --> 00:07:54,780
that object sat there for about 20

161
00:08:00,950 --> 00:07:57,780
minutes over the sea Concourse it was

162
00:08:04,189 --> 00:08:00,960
seen by well over a hundred people so it

163
00:08:07,909 --> 00:08:04,199

does classify as the category that I

164

00:08:12,969 --> 00:08:07,919

love to work on mass sightings right now

165

00:08:17,809 --> 00:08:12,979

the FCC did they uh that is

166

00:08:20,450 --> 00:08:17,819

FAA pardon me the employee here the FAA

167

00:08:24,409 --> 00:08:20,460

something in some right about that um

168

00:08:26,749 --> 00:08:24,419

did it seems to me you know this is such

169

00:08:28,610 --> 00:08:26,759

an endangerment a life

170

00:08:30,230 --> 00:08:28,620

you know it seems like they would have

171

00:08:32,269 --> 00:08:30,240

taken that more seriously I know they

172

00:08:34,130 --> 00:08:32,279

didn't want to talk about it

173

00:08:36,290 --> 00:08:34,140

um do you think that attitude has

174

00:08:40,010 --> 00:08:36,300

changed Now with uh the way things are

175

00:08:41,990 --> 00:08:40,020

going with the FAA yes I mean I would

176

00:08:44,209 --> 00:08:42,000

say it has changed

177

00:08:47,750 --> 00:08:44,219

um just to give some sort of background

178

00:08:50,509 --> 00:08:47,760

in history of ual that was United

179

00:08:52,790 --> 00:08:50,519

Airlines was uh that was their kind you

180

00:08:54,530 --> 00:08:52,800

know there or there and that was their

181

00:08:57,410 --> 00:08:54,540

personnel and plane that was there going

182

00:08:59,449 --> 00:08:57,420

to North Carolina uh they had just

183

00:09:03,110 --> 00:08:59,459

gotten out of bankruptcy that February

184

00:09:06,610 --> 00:09:03,120

as I recall so uh they may may have not

185

00:09:09,470 --> 00:09:06,620

wanted been no uh noted as being the

186

00:09:11,810 --> 00:09:09,480

Extraterrestrial Airlines so I think

187

00:09:15,230 --> 00:09:11,820

that was one of the reasons it was a

188

00:09:18,250 --> 00:09:15,240

concern uh of just getting over one hump

189

00:09:23,030 --> 00:09:18,260

not into and you know get into another

190

00:09:25,190 --> 00:09:23,040

scenario but no I they're getting people

191

00:09:29,269 --> 00:09:25,200

to do that they're they're getting

192

00:09:30,730 --> 00:09:29,279

Pilots to to give reports that's

193

00:09:38,329 --> 00:09:30,740

happening

194

00:09:41,150 --> 00:09:38,339

have a ancient interesting question

195

00:09:44,269 --> 00:09:41,160

should I take that sure yes go ahead

196

00:09:48,290 --> 00:09:44,279

okay did each eyewitness on the ground

197

00:09:51,650 --> 00:09:48,300

see the cloud cut uh at least those

198

00:09:54,350 --> 00:09:51,660

individuals in that area and that wasn't

199

00:09:56,509 --> 00:09:54,360

the second course that was from the

200

00:09:59,269 --> 00:09:56,519

international Concourse that they were

201

00:10:02,570 --> 00:09:59,279

that my witness was seeing that but it

202

00:10:05,269 --> 00:10:02,580

had been confirmed by everybody that was

203

00:10:07,730 --> 00:10:05,279

watching it at that time that would have

204

00:10:11,990 --> 00:10:07,740

been able to see that so this wasn't

205

00:10:16,190 --> 00:10:12,000

just one or two people uh the my witness

206

00:10:19,850 --> 00:10:16,200

by the way was a her background is a

207

00:10:23,590 --> 00:10:19,860

military brat her father was a uh a

208

00:10:26,269 --> 00:10:23,600

captain of a helicopter

209

00:10:29,870 --> 00:10:26,279

wing for the Navy

210

00:10:32,030 --> 00:10:29,880

and she grew up at various locations she

211

00:10:34,790 --> 00:10:32,040

knew military jargon in fact she was

212

00:10:38,210 --> 00:10:34,800

very good explaining stuff uh as far as

213

00:10:41,150 --> 00:10:38,220

the detail uh in military jargon and

214

00:10:44,630 --> 00:10:41,160

then what was interesting about it is

215

00:10:46,730 --> 00:10:44,640

the person that she was with was a

216

00:10:49,009 --> 00:10:46,740

doctor from Bulgaria

217

00:10:51,710 --> 00:10:49,019

and she the two of them were there with

218

00:10:54,410 --> 00:10:51,720

with uh reading glasses and they were

219

00:10:58,130 --> 00:10:54,420

holding them at an angle so they could

220

00:11:00,769 --> 00:10:58,140

get a better View and that's when it

221

00:11:03,290 --> 00:11:00,779

shot through the the clouds but they

222

00:11:05,810 --> 00:11:03,300

were there waiting for a friend of

223

00:11:07,430 --> 00:11:05,820

theirs who was an American Airlines

224

00:11:10,750 --> 00:11:07,440

pilot

225

00:11:13,490 --> 00:11:10,760

and he was he flew in on United Airlines

226

00:11:16,069 --> 00:11:13,500

and when he got off they pulled him

227

00:11:18,949 --> 00:11:16,079

aside and they asked them uh there were

228

00:11:21,530 --> 00:11:18,959

there was personnel there asking him if

229

00:11:23,269 --> 00:11:21,540

by any chance he's seen anything and he

230

00:11:26,630 --> 00:11:23,279

had no clue what on Earth they're

231

00:11:30,230 --> 00:11:26,640

talking about so when he when he got

232

00:11:32,690 --> 00:11:30,240

outside and and he talked to her he said

233

00:11:34,009 --> 00:11:32,700

you have to come forward because she

234

00:11:37,790 --> 00:11:34,019

said there were people taking

235

00:11:40,610 --> 00:11:37,800

photographs videos were being uh made

236

00:11:44,509 --> 00:11:40,620

and we need to have people come forward

237

00:11:46,310 --> 00:11:44,519

so he was the one that encouraged her to

238

00:11:50,690 --> 00:11:46,320

come forward

239

00:11:53,389 --> 00:11:50,700

and I met her through Above Top Secret

240

00:11:56,690 --> 00:11:53,399

um I had gotten a hold of Mark over

241

00:11:59,090 --> 00:11:56,700

there from Above Top Secret and asked

242

00:12:02,030 --> 00:11:59,100

him uh if this person would be kind

243

00:12:04,490 --> 00:12:02,040

enough to contact me he gave her my

244

00:12:07,970 --> 00:12:04,500

email address along with a few other

245

00:12:09,470 --> 00:12:07,980

folks my witness actually spoke to three

246

00:12:14,509 --> 00:12:09,480

people

247

00:12:16,850 --> 00:12:14,519

um Dr Haynes also and also uh

248

00:12:20,389 --> 00:12:16,860

to Linda Moulton Howe

249

00:12:22,730 --> 00:12:20,399

and I interviewed her three times and

250

00:12:25,970 --> 00:12:22,740

unfortunately appears that she had she

251
00:12:28,210 --> 00:12:25,980
had passed away soon after February of

252
00:12:31,310 --> 00:12:28,220
that year hmm

253
00:12:32,930 --> 00:12:31,320
well so there was actually some photos

254
00:12:36,170 --> 00:12:32,940
and

255
00:12:38,329 --> 00:12:36,180
video but have they ever surfaced that

256
00:12:41,569 --> 00:12:38,339
you're aware of some of the photos did

257
00:12:43,790 --> 00:12:41,579
focus of uh come you know come to the

258
00:12:47,329 --> 00:12:43,800
Forefront uh some of them were were

259
00:12:49,970 --> 00:12:47,339
obviously hoaxes and they were and they

260
00:12:53,870 --> 00:12:49,980
were analyzed the one in particular that

261
00:12:57,530 --> 00:12:53,880
I think is is genuine is the one that uh

262
00:13:01,329 --> 00:12:57,540
uh I've I've shown a few times uh it's

263
00:13:05,690 --> 00:13:01,339

also the one that Mike my um uh witness

264

00:13:08,170 --> 00:13:05,700

and her her friend say looks exactly

265

00:13:11,449 --> 00:13:08,180

like what they had seen and by the way

266

00:13:14,690 --> 00:13:11,459

what's also interesting about her uh

267

00:13:17,449 --> 00:13:14,700

analysis is that she was trying to

268

00:13:19,250 --> 00:13:17,459

consider what was the composition of

269

00:13:21,710 --> 00:13:19,260

this in other words what sort of

270

00:13:23,810 --> 00:13:21,720

material was this that she was looking

271

00:13:26,509 --> 00:13:23,820

at and by the way it was moving in a

272

00:13:28,970 --> 00:13:26,519

counterclockwise Direction and as as

273

00:13:32,329 --> 00:13:28,980

what it appeared like but she felt that

274

00:13:34,250 --> 00:13:32,339

it had it almost had a surface that that

275

00:13:37,069 --> 00:13:34,260

could have been something more along the

276

00:13:40,310 --> 00:13:37,079

line of a ceramic so just to give you an

277

00:13:42,110 --> 00:13:40,320

idea how how her uh her thought pattern

278

00:13:45,430 --> 00:13:42,120

was moving along

279

00:13:48,470 --> 00:13:45,440

and I find that interesting

280

00:13:50,269 --> 00:13:48,480

and just for the person that I always

281

00:13:52,310 --> 00:13:50,279

have to keep in mind there's new people

282

00:13:55,430 --> 00:13:52,320

listening all the time this happened

283

00:13:58,129 --> 00:13:55,440

back in 2017 what time of the year was

284

00:14:01,790 --> 00:13:58,139

that this was actually

285

00:14:06,490 --> 00:14:01,800

um 2007 I mean yeah it was November the

286

00:14:09,290 --> 00:14:06,500

7th 2006 at approximately 2006. yes

287

00:14:11,569 --> 00:14:09,300

let's see the no it's hard it's easy to

288

00:14:15,710 --> 00:14:11,579

get mixed up because it was the seventh

289

00:14:18,290 --> 00:14:15,720

of November and it was 2006 but it

290

00:14:21,650 --> 00:14:18,300

didn't break remember it didn't break

291

00:14:25,610 --> 00:14:21,660

until they started covering it on the

292

00:14:27,290 --> 00:14:25,620

news and in the uh Tribune which would

293

00:14:30,230 --> 00:14:27,300

have been January

294

00:14:32,629 --> 00:14:30,240

so um I didn't even know about it in

295

00:14:35,930 --> 00:14:32,639

fact the night that that had happened I

296

00:14:37,430 --> 00:14:35,940

was on the phone with Dave marlar and I

297

00:14:39,590 --> 00:14:37,440

was we were having a conversation

298

00:14:42,129 --> 00:14:39,600

because we were supposed to get and we

299

00:14:45,470 --> 00:14:42,139

did we got together that uh that weekend

300

00:14:48,410 --> 00:14:45,480

because I was taking over the estate

301

00:14:51,350 --> 00:14:48,420

director uh position for mufon and he

302

00:14:53,990 --> 00:14:51,360

was going to be moving out of town so uh

303

00:14:56,689 --> 00:14:54,000

he was on the phone with me and I got we

304

00:14:58,970 --> 00:14:56,699

got interrupted uh because Peter

305

00:15:02,110 --> 00:14:58,980

Davenport was calling Dave

306

00:15:05,329 --> 00:15:02,120

and he didn't even fill me in

307

00:15:07,910 --> 00:15:05,339

why he called him you know basically

308

00:15:10,310 --> 00:15:07,920

yeah he had so much on his mind at the

309

00:15:13,009 --> 00:15:10,320

time plus at that point

310

00:15:16,069 --> 00:15:13,019

um uh Davenport was really trying to

311

00:15:19,430 --> 00:15:16,079

keep it uh keep it quiet because the two

312

00:15:22,069 --> 00:15:19,440

individuals that contacted him contacted

313

00:15:23,629 --> 00:15:22,079

them while they were at work and he was

314

00:15:27,290 --> 00:15:23,639

very con they were very concerned about

315

00:15:30,050 --> 00:15:27,300

losing their jobs so and then of course

316

00:15:33,410 --> 00:15:30,060

the point person was going to be Richard

317

00:15:35,810 --> 00:15:33,420

Haynes dick Haynes so uh Peter talked to

318

00:15:37,730 --> 00:15:35,820

me I we we talked about it and I got a

319

00:15:40,610 --> 00:15:37,740

hold of Rodger guard actually Rodger

320

00:15:42,470 --> 00:15:40,620

called me Mark radiger from kufos you

321

00:15:44,990 --> 00:15:42,480

know we're good very good friends yeah

322

00:15:46,910 --> 00:15:45,000

and uh he says why aren't we on this why

323

00:15:47,990 --> 00:15:46,920

aren't we working on this like oh I

324

00:15:51,170 --> 00:15:48,000

don't even know what all you're talking

325

00:15:53,269 --> 00:15:51,180

about and he fills me in and I call

326

00:15:55,009 --> 00:15:53,279

Marley goes yeah well I forgot to tell

327

00:15:58,009 --> 00:15:55,019

you here I was down there by his house

328

00:16:01,069 --> 00:15:58,019

in Edwardsville at the time and he

329

00:16:02,930 --> 00:16:01,079

forgot all about this you know but he

330

00:16:06,110 --> 00:16:02,940

wasn't filled in

331

00:16:09,530 --> 00:16:06,120

um on all the detail neither were he or

332

00:16:12,550 --> 00:16:09,540

we until uh the ball started rolling and

333

00:16:17,210 --> 00:16:12,560

you know halkovich who did file foyers

334

00:16:20,090 --> 00:16:17,220

and so did uh Haynes Dr Haynes and Bill

335

00:16:22,730 --> 00:16:20,100

Puckett in fact he did a most of the the

336

00:16:26,329 --> 00:16:22,740

filings very good uh filings for lawyers

337

00:16:28,610 --> 00:16:26,339

so we did get the radar data

338

00:16:30,530 --> 00:16:28,620

uh didn't things the information didn't

339

00:16:32,990 --> 00:16:30,540

come in as quick as they thought it

340

00:16:35,269 --> 00:16:33,000

would it trickled in and

341

00:16:37,550 --> 00:16:35,279

um as far as people that I spoke to I

342

00:16:39,949 --> 00:16:37,560

spoke to I think it's four people right

343

00:16:41,629 --> 00:16:39,959

now is where I'm up to but I hope to

344

00:16:43,910 --> 00:16:41,639

have some more

345

00:16:46,670 --> 00:16:43,920

all right so I'd like to change gears

346

00:16:50,210 --> 00:16:46,680

here because uh we wanted to kick around

347

00:16:52,370 --> 00:16:50,220

a couple of Hot Topics tonight and one

348

00:16:55,550 --> 00:16:52,380

of them is uh and this is more or less

349

00:16:57,650 --> 00:16:55,560

your idea your idea is uh do you feel

350

00:17:01,449 --> 00:16:57,660

that we're on the brink of making some

351

00:17:04,970 --> 00:17:01,459

sense on the uip UFO topic

352

00:17:06,530 --> 00:17:04,980

or are we just getting LED or pushed

353

00:17:08,329 --> 00:17:06,540

through another Rabbit Hole so to speak

354

00:17:11,270 --> 00:17:08,339

I mean you've seen these things happen

355

00:17:13,549 --> 00:17:11,280

similar over the years where uh there

356

00:17:15,409 --> 00:17:13,559

seems to be uh it seems to be talked

357

00:17:17,750 --> 00:17:15,419

about in more of a public forum and then

358

00:17:20,090 --> 00:17:17,760

bang the condent committee comes along

359

00:17:22,610 --> 00:17:20,100

or something like that happens and says

360

00:17:24,409 --> 00:17:22,620

nothing to see here do you think how do

361

00:17:27,530 --> 00:17:24,419

you feel things are going in general

362

00:17:30,110 --> 00:17:27,540

well and people think well this is was

363

00:17:31,850 --> 00:17:30,120

this all planned is this all I don't

364

00:17:35,270 --> 00:17:31,860

know but I could tell you emotionally

365

00:17:39,529 --> 00:17:35,280

how it what it does it uh when you have

366

00:17:45,350 --> 00:17:39,539

say for instance in January we have this

367

00:17:49,909 --> 00:17:45,360

um this this uh you know back room uh

368

00:17:53,450 --> 00:17:49,919

closed session of the uh special select

369

00:17:56,029 --> 00:17:53,460

committee on intelligence uh and all of

370

00:17:58,390 --> 00:17:56,039

a sudden they're getting briefings on

371

00:18:00,710 --> 00:17:58,400

from people we know which gave some

372

00:18:04,510 --> 00:18:00,720

incredible briefings

373

00:18:10,070 --> 00:18:04,520

and all of a sudden we get the report

374

00:18:13,850 --> 00:18:10,080

out the sanitize report uh from uh from

375

00:18:16,850 --> 00:18:13,860

the uh you know from from this process

376

00:18:19,909 --> 00:18:16,860

and everything and uh the end result is

377

00:18:22,070 --> 00:18:19,919

a matter of what a few weeks later we

378

00:18:24,049 --> 00:18:22,080

have this Chinese balloon being called a

379

00:18:26,470 --> 00:18:24,059

UFO in the sky

380

00:18:30,409 --> 00:18:26,480

taking taking

381

00:18:32,690 --> 00:18:30,419

uh the the media in all sorts of

382

00:18:36,289 --> 00:18:32,700

directions which I thought was a little

383

00:18:37,970 --> 00:18:36,299

bit over the over the edge for what they

384

00:18:40,789 --> 00:18:37,980

should be covering I I thought it was

385

00:18:44,029 --> 00:18:40,799

the coverage was too hype and they kept

386

00:18:46,430 --> 00:18:44,039

on using the term UFO in there and here

387

00:18:49,610 --> 00:18:46,440

my buddy takes a picture of it yeah that

388

00:18:52,310 --> 00:18:49,620

one how on Earth you know I mean

389

00:18:55,130 --> 00:18:52,320

will you talk about synchronicity man

390

00:18:57,950 --> 00:18:55,140

that is just unbelievable for most

391

00:19:00,110 --> 00:18:57,960

people uh have heard me say this but if

392

00:19:02,390 --> 00:19:00,120

you if you're just listening to the show

393

00:19:03,950 --> 00:19:02,400

and didn't listen to the Past show I

394

00:19:06,529 --> 00:19:03,960

happened to get out of a car right

395

00:19:09,049 --> 00:19:06,539

underneath the Chinese balloon I took

396

00:19:12,049 --> 00:19:09,059

this picture and videos and I had

397

00:19:13,850 --> 00:19:12,059

absolutely no idea I was in in Myrtle

398

00:19:17,270 --> 00:19:13,860

Beach I had no idea that this thing had

399

00:19:20,090 --> 00:19:17,280

floated over that way it was just

400

00:19:23,810 --> 00:19:20,100

totally totally uh totally shocked

401
00:19:25,490 --> 00:19:23,820
here's another uh looking at it all out

402
00:19:29,210 --> 00:19:25,500
and when it gets over the ocean they're

403
00:19:34,970 --> 00:19:32,510
fighter jets coming to look at it from I

404
00:19:38,090 --> 00:19:34,980
had I had no idea what was going on you

405
00:19:39,590 --> 00:19:38,100
know I mean it just it was just a fun

406
00:19:43,310 --> 00:19:39,600
coincidence

407
00:19:46,789 --> 00:19:43,320
it's a crazy event and it's crazy but

408
00:19:48,950 --> 00:19:46,799
here we have this going on and were you

409
00:19:52,730 --> 00:19:48,960
shocked when they start calling it using

410
00:19:54,470 --> 00:19:52,740
the terminology UFO or UAP well the um

411
00:19:57,169 --> 00:19:54,480
when the they're shooting down the

412
00:19:59,630 --> 00:19:57,179
others that's when they started calling

413
00:20:01,970 --> 00:19:59,640

them you know they're unidentified they

414

00:20:03,890 --> 00:20:01,980

shot down an unidentified objects and

415

00:20:05,870 --> 00:20:03,900

you know almost like the Roswell thing

416

00:20:08,630 --> 00:20:05,880

you know the Army Air Force shoots down

417

00:20:10,669 --> 00:20:08,640

flying disc you know like these little

418

00:20:12,490 --> 00:20:10,679

blips get out there these and I don't

419

00:20:16,610 --> 00:20:12,500

know how many people made their

420

00:20:18,710 --> 00:20:16,620

headlines you know for click bait I

421

00:20:19,669 --> 00:20:18,720

don't know but they sure did you know I

422

00:20:22,789 --> 00:20:19,679

don't know what the government was

423

00:20:24,650 --> 00:20:22,799

actually saying or not saying they were

424

00:20:26,330 --> 00:20:24,660

but you know it's kind of funny how the

425

00:20:29,210 --> 00:20:26,340

whole we're not hearing much about it or

426

00:20:30,770 --> 00:20:29,220

what they were the others I know one was

427

00:20:31,970 --> 00:20:30,780

some type of science project or

428

00:20:34,549 --> 00:20:31,980

something

429

00:20:35,930 --> 00:20:34,559

um which it was kind of a joke that uh

430

00:20:37,669 --> 00:20:35,940

my friend was talking about that's

431

00:20:39,710 --> 00:20:37,679

probably what it was and ends up one of

432

00:20:41,510 --> 00:20:39,720

them was but um

433

00:20:44,270 --> 00:20:41,520

we're not hearing about the other two

434

00:20:45,529 --> 00:20:44,280

that are you know there's really it's

435

00:20:49,810 --> 00:20:45,539

kind of quiet

436

00:20:53,750 --> 00:20:49,820

yeah and here we had a we had a uh awac

437

00:20:56,330 --> 00:20:53,760

out over the uh area in fact uh

438

00:20:57,409 --> 00:20:56,340

in Illinois over Lake Michigan into

439

00:21:00,169 --> 00:20:57,419

Huron

440

00:21:02,990 --> 00:21:00,179

and see these are areas where we do have

441

00:21:05,870 --> 00:21:03,000

high incidence of UFO activity going

442

00:21:07,909 --> 00:21:05,880

back for the longest period of time

443

00:21:09,830 --> 00:21:07,919

um in fact there's another case that I

444

00:21:12,409 --> 00:21:09,840

hopefully will break

445

00:21:16,610 --> 00:21:12,419

in the year a year or so

446

00:21:18,830 --> 00:21:16,620

um going back to 1971 but we also had U2

447

00:21:21,169 --> 00:21:18,840

planes flying around

448

00:21:24,350 --> 00:21:21,179

um there were helicopters in that area

449

00:21:25,190 --> 00:21:24,360

where the thing was the object was shot

450

00:21:29,770 --> 00:21:25,200

down

451

00:21:32,570 --> 00:21:29,780

uh Canadian and uh U.S

452

00:21:34,250 --> 00:21:32,580

Coast Guard so the bottom line is there

453

00:21:36,950 --> 00:21:34,260

was a lot of activity going on for a

454

00:21:39,289 --> 00:21:36,960

while for and concern for just a

455

00:21:42,049 --> 00:21:39,299

potential balloon there we got a nice

456

00:21:45,590 --> 00:21:42,059

awac yeah and you know we see them every

457

00:21:48,710 --> 00:21:45,600

once in a while not much but then you

458

00:21:52,909 --> 00:21:48,720

too I mean really uh for what is

459

00:21:54,529 --> 00:21:52,919

supposedly a balloon so I I'm a little

460

00:21:57,470 --> 00:21:54,539

concerned about that and they couldn't

461

00:22:01,570 --> 00:21:57,480

find it Well which that in that would be

462

00:22:03,529 --> 00:22:01,580

common if it is a genuine UAP UFO

463

00:22:05,810 --> 00:22:03,539

they're going to be hard to shoot down

464

00:22:08,570 --> 00:22:05,820

you could shoot them down and we have

465

00:22:11,570 --> 00:22:08,580

the technology that I think can do that

466

00:22:14,450 --> 00:22:11,580

but it's not the easiest thing to do now

467

00:22:16,850 --> 00:22:14,460

the one up in Alaska remember that one

468

00:22:18,950 --> 00:22:16,860

the one that's supposedly like a Tic Tac

469

00:22:20,810 --> 00:22:18,960

and it's on the ice you can't recover

470

00:22:23,570 --> 00:22:20,820

that come on

471

00:22:25,730 --> 00:22:23,580

what I mean that one in particular is

472

00:22:27,770 --> 00:22:25,740

kind of bizarre yeah that is if it's on

473

00:22:30,470 --> 00:22:27,780

the ice sure you could recover it you

474

00:22:33,710 --> 00:22:30,480

would think so yeah I mean they have

475

00:22:35,330 --> 00:22:33,720

these things called helicopters yes it

476

00:22:38,750 --> 00:22:35,340

seems like it would be kind of a

477

00:22:40,310 --> 00:22:38,760

no-brainer but yeah yeah so do you think

478

00:22:41,810 --> 00:22:40,320

um I I have noticed too and you

479

00:22:43,909 --> 00:22:41,820

mentioned this in the little note that

480

00:22:46,370 --> 00:22:43,919

you sent me about how the key players

481

00:22:47,990 --> 00:22:46,380

from the past kind of taken a back seat

482

00:22:50,690 --> 00:22:48,000

in some sense to the many new

483

00:22:52,490 --> 00:22:50,700

personalities I agree with that I see I

484

00:22:54,409 --> 00:22:52,500

see a lot of new personalities I have no

485

00:22:55,730 --> 00:22:54,419

idea where these people came from and

486

00:22:57,350 --> 00:22:55,740

all of a sudden they're hot on the topic

487

00:22:59,930 --> 00:22:57,360

of UFOs and they're plastered all over

488

00:23:02,930 --> 00:22:59,940

the TV and you know and all that and um

489

00:23:04,789 --> 00:23:02,940

and it's it's it's very interesting I'm

490

00:23:07,850 --> 00:23:04,799

really glad that more people are getting

491

00:23:10,070 --> 00:23:07,860

in into the the subject though I mean

492

00:23:12,950 --> 00:23:10,080

that's the really positive part of this

493

00:23:14,690 --> 00:23:12,960

whole thing absolutely you know being in

494

00:23:17,450 --> 00:23:14,700

a lot of these people who are who

495

00:23:20,690 --> 00:23:17,460

basically have been front and center and

496

00:23:23,230 --> 00:23:20,700

and cornered you know the market per se

497

00:23:26,570 --> 00:23:23,240

okay and what would what could be a cat

498

00:23:29,090 --> 00:23:26,580

a cottage in a industry in some people's

499

00:23:31,430 --> 00:23:29,100

eyes instead of something a little more

500

00:23:34,010 --> 00:23:31,440

dedicated and and I could understand

501
00:23:37,130 --> 00:23:34,020
that but the bottom line is we need more

502
00:23:40,430 --> 00:23:37,140
individuals we need more qualified

503
00:23:43,250 --> 00:23:40,440
people coming forward as as you know

504
00:23:45,590 --> 00:23:43,260
investigative researchers in addition to

505
00:23:48,830 --> 00:23:45,600
I'm so happy we're getting the

506
00:23:50,870 --> 00:23:48,840
whistleblowers per se and the uh

507
00:23:53,930 --> 00:23:50,880
individuals that that have been quiet

508
00:23:59,149 --> 00:23:53,940
for years about this the subject matter

509
00:24:01,610 --> 00:23:59,159
what we do we need is to have maybe a

510
00:24:06,590 --> 00:24:01,620
long talk with the people who are trying

511
00:24:09,830 --> 00:24:06,600
to distract and basically bait Us in the

512
00:24:12,470 --> 00:24:09,840
media uh as you can see Neil Tyson

513
00:24:14,870 --> 00:24:12,480

DeGrasse uh I don't know putting his

514

00:24:18,649 --> 00:24:14,880

names and put those three names in a

515

00:24:21,169 --> 00:24:18,659

proper order but uh uh he's uh you know

516

00:24:24,950 --> 00:24:21,179

a person with three and that's wild

517

00:24:28,549 --> 00:24:24,960

um but that's common you know uh the the

518

00:24:32,390 --> 00:24:28,559

thing here is he keeps talking about the

519

00:24:34,669 --> 00:24:32,400

only Navy Pilots which is not the case

520

00:24:37,850 --> 00:24:34,679

and then he keeps talking about the

521

00:24:40,070 --> 00:24:37,860

crowdfunding of people with with cell

522

00:24:43,669 --> 00:24:40,080

phones and they're not getting anything

523

00:24:46,990 --> 00:24:43,679

except blurry blurry photographs I want

524

00:24:49,789 --> 00:24:47,000

to see blurry because they're moving

525

00:24:53,350 --> 00:24:49,799

okay and the weather thing is if they're

526

00:24:57,590 --> 00:24:53,360

genuinely using anti-gravidic uh

527

00:25:00,350 --> 00:24:57,600

propulsion or technology uh something

528

00:25:03,049 --> 00:25:00,360

that's uh affecting the gravity it's

529

00:25:06,350 --> 00:25:03,059

it's it's very likely going to affect

530

00:25:08,870 --> 00:25:06,360

the Optics or photons or at least the um

531

00:25:09,649 --> 00:25:08,880

uh the atmosphere around it so in other

532

00:25:11,930 --> 00:25:09,659

words

533

00:25:14,990 --> 00:25:11,940

no this is what we've been seeing

534

00:25:17,149 --> 00:25:15,000

especially with digital format

535

00:25:20,029 --> 00:25:17,159

and uh when you get that absolutely

536

00:25:22,430 --> 00:25:20,039

perfect photo in a digital format you

537

00:25:24,890 --> 00:25:22,440

really have to be uh concerned about

538

00:25:26,409 --> 00:25:24,900

that the quality of the authenticity of

539

00:25:34,370 --> 00:25:26,419

that

540

00:25:35,210 --> 00:25:34,380

I don't know since when

541

00:25:38,149 --> 00:25:35,220

um

542

00:25:41,330 --> 00:25:38,159

people have declared that uh Neil

543

00:25:44,870 --> 00:25:41,340

deGrasse Tyson is a UFO expert but he

544

00:25:46,669 --> 00:25:44,880

seems to be on all of these shows you

545

00:25:49,310 --> 00:25:46,679

know just saying that they're you know

546

00:25:52,870 --> 00:25:49,320

there's nothing to it basically and yeah

547

00:25:56,210 --> 00:25:52,880

it is it is uh uh

548

00:25:58,850 --> 00:25:56,220

it's discouraging because you know he

549

00:26:01,789 --> 00:25:58,860

gets so much press and so you know I

550

00:26:05,510 --> 00:26:01,799

mean so much exposure and so many people

551
00:26:07,430 --> 00:26:05,520
listen to what he says and uh uh you

552
00:26:08,450 --> 00:26:07,440
know he's not he's not talking like a

553
00:26:10,549 --> 00:26:08,460
scientist

554
00:26:13,090 --> 00:26:10,559
when he's discussing these things he's

555
00:26:15,710 --> 00:26:13,100
just uh you know doing this by

556
00:26:16,669 --> 00:26:15,720
proclamation as Stanton Friedman used to

557
00:26:19,130 --> 00:26:16,679
say

558
00:26:21,769 --> 00:26:19,140
and that's not what a scientist would

559
00:26:24,830 --> 00:26:21,779
would do uh you've heard a lot of people

560
00:26:26,450 --> 00:26:24,840
in the military for instance some big

561
00:26:28,370 --> 00:26:26,460
names and they'd come forward and they

562
00:26:30,409 --> 00:26:28,380
say well we don't know what it is so

563
00:26:33,110 --> 00:26:30,419

we're referring to it as an object at

564

00:26:34,789 --> 00:26:33,120

this point and that's proper if they

565

00:26:37,010 --> 00:26:34,799

don't know what it is and it appears to

566

00:26:38,990 --> 00:26:37,020

be an object and heck you know we're

567

00:26:41,750 --> 00:26:39,000

talking NORAD Nora can pick up something

568

00:26:44,210 --> 00:26:41,760

the size of a a golf ball up there in

569

00:26:47,090 --> 00:26:44,220

you know in outer space if need be if

570

00:26:49,909 --> 00:26:47,100

they and they do to monitor uh all the

571

00:26:51,649 --> 00:26:49,919

nonsense of the the debris up there we

572

00:26:54,070 --> 00:26:51,659

have so much garbage floating up in

573

00:26:57,649 --> 00:26:54,080

outer space from satellites and whatever

574

00:26:59,990 --> 00:26:57,659

but the thing is he he they keep falsely

575

00:27:02,870 --> 00:27:00,000

throwing out this information the other

576

00:27:06,950 --> 00:27:02,880

thing is Navy Pilots they always refer

577

00:27:09,289 --> 00:27:06,960

to Navy Pilots as if somehow a Navy

578

00:27:12,230 --> 00:27:09,299

pilot is a lesser pilot than some other

579

00:27:16,070 --> 00:27:12,240

type of pilot when you reiterate it that

580

00:27:20,029 --> 00:27:16,080

much and uh learn a little bit about Top

581

00:27:22,669 --> 00:27:20,039

Gun my friend right okay yeah Navy

582

00:27:25,370 --> 00:27:22,679

Pilots all right Navy and Marine pilots

583

00:27:29,870 --> 00:27:25,380

are Kick-Ass get it in your head they're

584

00:27:31,909 --> 00:27:29,880

excellent and fravor is Top Gun okay

585

00:27:34,310 --> 00:27:31,919

he's a graduate from Top Gun I think was

586

00:27:37,549 --> 00:27:34,320

an instructor for a while too so I mean

587

00:27:40,909 --> 00:27:37,559

these people are not idiots yeah last I

588

00:27:44,090 --> 00:27:40,919

heard he never flew an f-1816 or for

589

00:27:47,810 --> 00:27:44,100

that for what I uh whatever I know even

590

00:27:51,110 --> 00:27:47,820

a a kite I don't know but uh

591

00:27:53,750 --> 00:27:51,120

um you don't go pushing people around or

592

00:27:55,070 --> 00:27:53,760

making people like that sound like they

593

00:27:57,529 --> 00:27:55,080

don't know what they're talking about

594

00:28:00,830 --> 00:27:57,539

and the other thing is we're not talking

595

00:28:04,390 --> 00:28:00,840

he never mentions motion these things

596

00:28:08,750 --> 00:28:04,400

move at god-awful speeds

597

00:28:11,630 --> 00:28:08,760

we have technology that is so Advanced

598

00:28:14,210 --> 00:28:11,640

and yet he talks about the web telescope

599

00:28:16,970 --> 00:28:14,220

and we can't see any aliens out there

600

00:28:19,250 --> 00:28:16,980

sure all that's time lapse and it's and

601
00:28:21,289 --> 00:28:19,260
it's and they're filtered and everything

602
00:28:25,250 --> 00:28:21,299
else and they're not looking for aliens

603
00:28:26,810 --> 00:28:25,260
they're looking for Galaxies my God how

604
00:28:29,029 --> 00:28:26,820
imbecilic

605
00:28:32,330 --> 00:28:29,039
right right speaking of that next week's

606
00:28:34,490 --> 00:28:32,340
guest is Carol olsiliac I don't know how

607
00:28:38,090 --> 00:28:34,500
to pronounce his name properly but he

608
00:28:40,190 --> 00:28:38,100
was on the uh USS Ronald Reagan uh

609
00:28:41,630 --> 00:28:40,200
during uh UFO encounters he's on next

610
00:28:44,090 --> 00:28:41,640
week so that should be pretty

611
00:28:47,330 --> 00:28:44,100
interesting fantastic

612
00:28:50,870 --> 00:28:47,340
yeah yeah I actually spoke to a guy uh

613
00:28:53,690 --> 00:28:50,880

who was on the who had a UFO sighting on

614

00:28:56,390 --> 00:28:53,700

the first uh nuclear uh submarine of

615

00:28:59,930 --> 00:28:56,400

course or not submarine but uh aircraft

616

00:29:01,190 --> 00:28:59,940

carrier which was the um uh of all

617

00:29:01,970 --> 00:29:01,200

things

618

00:29:05,930 --> 00:29:01,980

um

619

00:29:08,450 --> 00:29:05,940

a night when it was it 1959 or 60

620

00:29:10,310 --> 00:29:08,460

I think it was uh the Enterprise what

621

00:29:12,590 --> 00:29:10,320

I'm trying to think the year it was um

622

00:29:15,590 --> 00:29:12,600

it was commission I think it was 59 or

623

00:29:18,350 --> 00:29:15,600

60. it came back from its World cruise I

624

00:29:21,169 --> 00:29:18,360

know in 62 because I was there in

625

00:29:23,510 --> 00:29:21,179

Seattle on the deck uh when they had

626

00:29:26,750 --> 00:29:23,520

their big party it came back from their

627

00:29:29,750 --> 00:29:26,760

world cruise but uh this gentleman said

628

00:29:31,250 --> 00:29:29,760

when he was out on the deck he had seen

629

00:29:34,850 --> 00:29:31,260

something

630

00:29:37,570 --> 00:29:34,860

back at the ship so he goes back and

631

00:29:40,789 --> 00:29:37,580

looks and lower than the ship itself

632

00:29:43,909 --> 00:29:40,799

right above the water line basically

633

00:29:46,250 --> 00:29:43,919

trailing them was a UFO and and this

634

00:29:49,130 --> 00:29:46,260

wasn't the first time it had been a

635

00:29:52,010 --> 00:29:49,140

common occurrence so back to paying

636

00:29:54,649 --> 00:29:52,020

attention to what type of objects or

637

00:29:56,870 --> 00:29:54,659

ships or locations anything with a

638

00:29:59,690 --> 00:29:56,880

nuclear signature

639

00:30:03,289 --> 00:29:59,700

um you know here's something of Interest

640

00:30:08,210 --> 00:30:03,299

or Peak star curiosity not balloons I'm

641

00:30:12,110 --> 00:30:10,430

oh okay I want to I want to pop this

642

00:30:13,970 --> 00:30:12,120

opinion up here

643

00:30:15,230 --> 00:30:13,980

um ufology has made no progress since

644

00:30:18,169 --> 00:30:15,240

seven years shouldn't there be a

645

00:30:20,230 --> 00:30:18,179

discussion about methodology what what

646

00:30:22,970 --> 00:30:20,240

type of methodology

647

00:30:25,070 --> 00:30:22,980

could be done

648

00:30:27,590 --> 00:30:25,080

in favor of

649

00:30:29,090 --> 00:30:27,600

making progress you know there are

650

00:30:31,370 --> 00:30:29,100

people out there trying to do scientific

651
00:30:34,130 --> 00:30:31,380
equipment there's several people that

652
00:30:36,769 --> 00:30:34,140
are engaged in that even um Avi Loeb and

653
00:30:39,049 --> 00:30:36,779
the uh Galileo project and

654
00:30:41,510 --> 00:30:39,059
um you know Mark dantonios and has

655
00:30:43,310 --> 00:30:41,520
something going on and there's there's

656
00:30:44,690 --> 00:30:43,320
several more

657
00:30:47,149 --> 00:30:44,700
um so

658
00:30:49,310 --> 00:30:47,159
um and then there's that crowd-sourced

659
00:30:51,350 --> 00:30:49,320
situation now I gotta have Alejandro

660
00:30:53,510 --> 00:30:51,360
Rojas back on soon he's involved in

661
00:30:55,310 --> 00:30:53,520
something so I mean there's so much out

662
00:30:57,350 --> 00:30:55,320
there I mean we are I think we are

663
00:30:59,330 --> 00:30:57,360

trying to change things in the

664

00:31:01,610 --> 00:30:59,340

technology that we have

665

00:31:03,529 --> 00:31:01,620

um to gear it toward discovering more

666

00:31:04,490 --> 00:31:03,539

and more what these things are what do

667

00:31:07,970 --> 00:31:04,500

you think Sam

668

00:31:10,610 --> 00:31:07,980

well after 70 years we we have more than

669

00:31:12,769 --> 00:31:10,620

enough anecdotal evidence and by the way

670

00:31:15,169 --> 00:31:12,779

the vast majority of reports we get you

671

00:31:18,889 --> 00:31:15,179

know 90 some percent of what we get is

672

00:31:22,750 --> 00:31:18,899

identified and uh I'm I'm fortunate to

673

00:31:25,970 --> 00:31:22,760

be uh part of the uh photo analysis team

674

00:31:27,529 --> 00:31:25,980

and uh uh there are four of us and

675

00:31:32,570 --> 00:31:27,539

there's going to be more and of course

676

00:31:34,430 --> 00:31:32,580

Marx uh been involved for ages and so we

677

00:31:36,669 --> 00:31:34,440

really tear this stuff apart and of

678

00:31:39,049 --> 00:31:36,679

course what we see is more ifos

679

00:31:42,409 --> 00:31:39,059

misidentifications of of many different

680

00:31:44,870 --> 00:31:42,419

things and gosh you know we have more

681

00:31:47,269 --> 00:31:44,880

objects being put in the sky these star

682

00:31:50,210 --> 00:31:47,279

links Etc but as far as from a

683

00:31:53,029 --> 00:31:50,220

scientific uh point of view this is

684

00:31:56,110 --> 00:31:53,039

something I've been as you know for ages

685

00:31:58,970 --> 00:31:56,120

pushing and pushing the scientific uh

686

00:32:02,149 --> 00:31:58,980

method uh or creating a scientific

687

00:32:05,330 --> 00:32:02,159

method bringing ufology into the world

688

00:32:09,350 --> 00:32:05,340

of being something recognized as science

689

00:32:12,610 --> 00:32:09,360

not pseudo in any which way or form but

690

00:32:15,169 --> 00:32:12,620

genuinely science and

691

00:32:18,230 --> 00:32:15,179

this is something that that needs to be

692

00:32:20,870 --> 00:32:18,240

addressed and is being addressed uh but

693

00:32:22,970 --> 00:32:20,880

in in many instances it just remains

694

00:32:25,190 --> 00:32:22,980

entertainment unfortunately

695

00:32:28,190 --> 00:32:25,200

and there's a comfort level in that and

696

00:32:30,289 --> 00:32:28,200

I think that plays into the hand of uh

697

00:32:33,049 --> 00:32:30,299

keeping this that day from people

698

00:32:34,250 --> 00:32:33,059

believe me that is a huge component of

699

00:32:35,529 --> 00:32:34,260

it

700

00:32:38,930 --> 00:32:35,539

um

701

00:32:41,269 --> 00:32:38,940

I you were talking earlier about you

702

00:32:43,909 --> 00:32:41,279

know the people that we know were

703

00:32:46,130 --> 00:32:43,919

interviewed and testified or interview

704

00:32:49,909 --> 00:32:46,140

interviewed at least

705

00:32:52,490 --> 00:32:49,919

um by the Pentagon and uh Bob Salas is

706

00:32:56,269 --> 00:32:52,500

one of those people about the Maelstrom

707

00:32:58,310 --> 00:32:56,279

Air Force Base case and uh I I I'm

708

00:33:01,010 --> 00:32:58,320

really happy to hear because you know

709

00:33:05,210 --> 00:33:01,020

when they last year when they had that

710

00:33:07,370 --> 00:33:05,220

uh Congressional meeting about UAP

711

00:33:10,130 --> 00:33:07,380

they weren't the the board that was

712

00:33:13,370 --> 00:33:10,140

working on that they had no idea of

713

00:33:15,769 --> 00:33:13,380

about any of these nuclear incidents in

714

00:33:19,549 --> 00:33:15,779

the past and I mean if that's not if

715

00:33:20,509 --> 00:33:19,559

that's not uh you know security uh you

716

00:33:26,210 --> 00:33:20,519

know

717

00:33:28,070 --> 00:33:26,220

that is that that is the peak that is

718

00:33:31,490 --> 00:33:28,080

the highest degree of of National

719

00:33:35,389 --> 00:33:31,500

Security when it comes to uh you know

720

00:33:37,909 --> 00:33:35,399

our Arsenal being compromised and not

721

00:33:39,950 --> 00:33:37,919

just our airspace like O'Hare was a

722

00:33:42,350 --> 00:33:39,960

compromise of Class B airspace that's

723

00:33:46,730 --> 00:33:42,360

frightening enough you know we the the

724

00:33:49,610 --> 00:33:46,740

concern of uh a safety of flight is huge

725

00:33:53,269 --> 00:33:49,620

and this has always been a concern

726

00:33:54,590 --> 00:33:53,279

um I've dealt with enough of ATC uh

727

00:33:57,470 --> 00:33:54,600

Personnel in fact one of my

728

00:33:59,509 --> 00:33:57,480

investigators was an ATC uh retired

729

00:34:03,409 --> 00:33:59,519

personnel and he had a sighting in

730

00:34:07,430 --> 00:34:03,419

Puerto Rico that was incredible and that

731

00:34:10,609 --> 00:34:07,440

was viewed by uh multiple members of of

732

00:34:12,589 --> 00:34:10,619

his uh staff

733

00:34:15,109 --> 00:34:12,599

so I mean this was

734

00:34:17,210 --> 00:34:15,119

this was something that inspired him so

735

00:34:20,149 --> 00:34:17,220

we have safety of flight National

736

00:34:23,690 --> 00:34:20,159

Security in the sense of from a military

737

00:34:25,849 --> 00:34:23,700

point of view and uh nuclear arsenals

738

00:34:28,490 --> 00:34:25,859

and that's where I hope to if I have

739

00:34:31,310 --> 00:34:28,500

enough courage and do it properly bring

740

00:34:32,750 --> 00:34:31,320

something out within the course of a

741

00:34:34,730 --> 00:34:32,760

year or two

742

00:34:37,250 --> 00:34:34,740

um as long as I don't get whacked in the

743

00:34:40,310 --> 00:34:37,260

process would be along the lines of

744

00:34:44,510 --> 00:34:40,320

something really important

745

00:34:47,089 --> 00:34:44,520

um is this is a very serious matter and

746

00:34:48,829 --> 00:34:47,099

I think people have to realize these

747

00:34:51,710 --> 00:34:48,839

events do take place

748

00:34:53,629 --> 00:34:51,720

and as far as getting back to the

749

00:34:56,450 --> 00:34:53,639

science you know

750

00:34:59,329 --> 00:34:56,460

um we hear so many of these so-called

751
00:35:02,390 --> 00:34:59,339
Skeptics and they're they're cynics that

752
00:35:03,770 --> 00:35:02,400
to be skepticals fine but most of these

753
00:35:07,670 --> 00:35:03,780
people are cynics

754
00:35:09,589 --> 00:35:07,680
and uh uh playing into the hand of of uh

755
00:35:10,670 --> 00:35:09,599
keeping this at Bay from the General

756
00:35:13,370 --> 00:35:10,680
Public

757
00:35:15,470 --> 00:35:13,380
but uh as far as physical trace evidence

758
00:35:17,750 --> 00:35:15,480
and they want an ashtray well we have a

759
00:35:20,030 --> 00:35:17,760
hell of a lot more than ashtrays there

760
00:35:24,290 --> 00:35:20,040
are some 6 000 physical trace evidence

761
00:35:28,550 --> 00:35:24,300
cases and uh that information needs to

762
00:35:32,290 --> 00:35:28,560
go before the uh select committee uh on

763
00:35:36,710 --> 00:35:32,300

intelligence for Congress

764

00:35:40,010 --> 00:35:36,720

right uh the last week I had uh Julie

765

00:35:44,450 --> 00:35:40,020

Olson on who had you know supposed some

766

00:35:46,970 --> 00:35:44,460

type of evidence that uh appeared where

767

00:35:48,349 --> 00:35:46,980

she saw these things shoot out of uh a

768

00:35:50,930 --> 00:35:48,359

UFO

769

00:35:53,210 --> 00:35:50,940

um and she has that object and I've been

770

00:35:56,150 --> 00:35:53,220

trying there's no follow-up yet for the

771

00:35:58,430 --> 00:35:56,160

listeners but I've been trying to uh get

772

00:36:00,650 --> 00:35:58,440

a hold of Gary Nolan on that particular

773

00:36:04,010 --> 00:36:00,660

thing and not that he's a metallurgist

774

00:36:06,890 --> 00:36:04,020

it's just that he's a safe place to get

775

00:36:10,069 --> 00:36:06,900

this thing started and haven't looked at

776

00:36:14,569 --> 00:36:10,079

yes now I've had uh here we may recall

777

00:36:18,170 --> 00:36:14,579

the um uh the case I had or the car they

778

00:36:20,930 --> 00:36:18,180

got they made there's been a few shows

779

00:36:23,810 --> 00:36:20,940

on it or the side of the car looked like

780

00:36:26,690 --> 00:36:23,820

it was hit by so yeah yeah okay it's

781

00:36:29,210 --> 00:36:26,700

called the Lake Cook uh car incident

782

00:36:32,710 --> 00:36:29,220

and that was back in November it was

783

00:36:37,010 --> 00:36:32,720

November the 8th I believe of

784

00:36:39,589 --> 00:36:37,020

2008 that it took place anyways

785

00:36:42,349 --> 00:36:39,599

um the evidence there was brought to a

786

00:36:45,890 --> 00:36:42,359

lab and somebody came in saying that

787

00:36:47,870 --> 00:36:45,900

they were to retrieve it and used and

788

00:36:49,849 --> 00:36:47,880

supposed to have some other tests there

789

00:36:53,150 --> 00:36:49,859

was nobody supposed to be in there they

790

00:36:55,490 --> 00:36:53,160

took that evidence then when I went to

791

00:36:57,670 --> 00:36:55,500

retreat the side of the car that was

792

00:37:00,589 --> 00:36:57,680

available to me

793

00:37:03,290 --> 00:37:00,599

uh I went there and the manager said it

794

00:37:05,810 --> 00:37:03,300

was in the back in the in the shop and

795

00:37:09,530 --> 00:37:05,820

that they would bring it up there uh he

796

00:37:12,349 --> 00:37:09,540

came back looking very puzzled and um

797

00:37:14,810 --> 00:37:12,359

this was back there for a while and he

798

00:37:16,670 --> 00:37:14,820

says uh well it's not there I go what do

799

00:37:19,490 --> 00:37:16,680

you mean it's not there and he says I

800

00:37:21,829 --> 00:37:19,500

can't really discuss this anymore a

801
00:37:25,849 --> 00:37:21,839
gentleman came in here said that he was

802
00:37:27,770 --> 00:37:25,859
you and it was given to them and that's

803
00:37:32,630 --> 00:37:27,780
it it's gone

804
00:37:37,370 --> 00:37:32,640
so I mean even if you give evidence to

805
00:37:38,990 --> 00:37:37,380
somebody doesn't mean it's going to be a

806
00:37:41,210 --> 00:37:39,000
um

807
00:37:43,490 --> 00:37:41,220
it's going to be looked at unless they

808
00:37:46,010 --> 00:37:43,500
can assure it some way or form at the

809
00:37:49,810 --> 00:37:46,020
degree of security that they aren't

810
00:37:52,790 --> 00:37:49,820
going to be threatened or compromised

811
00:37:54,710 --> 00:37:52,800
or that it's going to be lifted one way

812
00:37:56,510 --> 00:37:54,720
or another with without their knowledge

813
00:37:59,270 --> 00:37:56,520

replaced

814

00:38:01,790 --> 00:37:59,280

hmm so in that particular case did the

815

00:38:04,609 --> 00:38:01,800

car's driver have any health effects

816

00:38:07,370 --> 00:38:04,619

no health effects but I there is and I

817

00:38:10,370 --> 00:38:07,380

love that question because her mental

818

00:38:13,910 --> 00:38:10,380

state was really why in the first place

819

00:38:16,550 --> 00:38:13,920

the case end up in my lap and that the

820

00:38:20,089 --> 00:38:16,560

case was from narcat was from excuse me

821

00:38:23,210 --> 00:38:20,099

new Fork uh Peter Davenport received the

822

00:38:26,630 --> 00:38:23,220

case the mother of this this young lady

823

00:38:29,990 --> 00:38:26,640

called because she thought it was

824

00:38:32,390 --> 00:38:30,000

something potentially demonic

825

00:38:34,430 --> 00:38:32,400

um what was very interesting is that

826

00:38:35,390 --> 00:38:34,440

side of the car was all if you took a

827

00:38:40,310 --> 00:38:35,400

beer can

828

00:38:42,470 --> 00:38:40,320

and have it all collapse like that

829

00:38:46,790 --> 00:38:42,480

that's what it looked like there was no

830

00:38:50,450 --> 00:38:46,800

transfer the the sheen of the paint was

831

00:38:53,990 --> 00:38:50,460

dull only in that area the

832

00:38:57,770 --> 00:38:54,000

um the the driver's side mirror

833

00:38:59,870 --> 00:38:57,780

had been broken off she heard that when

834

00:39:01,550 --> 00:38:59,880

she was driving and her car was moved to

835

00:39:04,730 --> 00:39:01,560

the center lane she couldn't figure out

836

00:39:06,470 --> 00:39:04,740

what happened she heard the sound and

837

00:39:08,089 --> 00:39:06,480

and she looked for in the rearview

838

00:39:10,790 --> 00:39:08,099

mirror there was no rear view mirror she

839

00:39:12,530 --> 00:39:10,800

pulls over the side a side street and

840

00:39:16,069 --> 00:39:12,540

looks on the whole side of the car is

841

00:39:18,650 --> 00:39:16,079

all smashed in and the and the the

842

00:39:19,849 --> 00:39:18,660

mirrors hanging there with the back of

843

00:39:23,569 --> 00:39:19,859

it broken

844

00:39:25,609 --> 00:39:23,579

so mind you something was uh strong

845

00:39:29,329 --> 00:39:25,619

enough and powerful enough and fast

846

00:39:32,030 --> 00:39:29,339

enough to take and move that mirror into

847

00:39:35,270 --> 00:39:32,040

the a-pillar which is which surrounds

848

00:39:38,270 --> 00:39:35,280

your windshield it hit the a pillar left

849

00:39:41,329 --> 00:39:38,280

a deep indentation in there now that's

850

00:39:43,550 --> 00:39:41,339

the strongest part of the of the the car

851

00:39:45,470 --> 00:39:43,560

it's the roll cage and the car yeah if

852

00:39:48,650 --> 00:39:45,480

the car rolls on its roof that supports

853

00:39:51,470 --> 00:39:48,660

it correct and it left this huge

854

00:39:54,589 --> 00:39:51,480

indentation by plastic well plastic

855

00:39:58,910 --> 00:39:54,599

isn't as strong as metal so to increase

856

00:40:01,130 --> 00:39:58,920

that you have to increase velocity to

857

00:40:03,770 --> 00:40:01,140

equal matter the the strength of the

858

00:40:06,530 --> 00:40:03,780

matter so the velocity had been pretty

859

00:40:08,630 --> 00:40:06,540

intense and she was driving some 40

860

00:40:10,910 --> 00:40:08,640

miles an hour when this happened

861

00:40:12,650 --> 00:40:10,920

uh the police officer picked it up and

862

00:40:14,390 --> 00:40:12,660

he kept on Flipping it over and

863

00:40:16,550 --> 00:40:14,400

scratching his head trying to figure out

864

00:40:18,109 --> 00:40:16,560

how could this happen and the Glass

865

00:40:21,109 --> 00:40:18,119

isn't even broken

866

00:40:24,349 --> 00:40:21,119

not even a scratch there was no transfer

867

00:40:25,550 --> 00:40:24,359

anywheres on that car showing a type of

868

00:40:28,490 --> 00:40:25,560

impact

869

00:40:31,910 --> 00:40:28,500

there was nothing seen so from my point

870

00:40:35,150 --> 00:40:31,920

of view I couldn't say it was a UFO all

871

00:40:37,970 --> 00:40:35,160

I could say is something unseen uh by

872

00:40:42,109 --> 00:40:37,980

the witness did transpire there was

873

00:40:44,569 --> 00:40:42,119

cause and effect by something and uh I

874

00:40:46,670 --> 00:40:44,579

could just leave it like that

875

00:40:48,530 --> 00:40:46,680

um something weird transpired but I

876

00:40:51,470 --> 00:40:48,540

can't say it was a UFO

877

00:40:53,750 --> 00:40:51,480

it was some sort of energy there was

878

00:40:56,569 --> 00:40:53,760

cause and effect

879

00:40:58,490 --> 00:40:56,579

here's a uh interesting

880

00:41:01,069 --> 00:40:58,500

um question I don't know about public

881

00:41:03,710 --> 00:41:01,079

debates we've tried to get them together

882

00:41:06,890 --> 00:41:03,720

one of them was actually with Neil

883

00:41:10,490 --> 00:41:06,900

deGrasse Tyson someone wanted to to uh

884

00:41:12,470 --> 00:41:10,500

debate him but um I don't know how much

885

00:41:15,230 --> 00:41:12,480

progress the debates in the past have

886

00:41:20,650 --> 00:41:15,240

made before you know I remember Stanton

887

00:41:27,710 --> 00:41:24,410

had a debate I think there was uh uh

888

00:41:31,010 --> 00:41:27,720

Philip Glass and someone else had a

889

00:41:33,890 --> 00:41:31,020

debate I don't know if they moved seem

890

00:41:35,930 --> 00:41:33,900

to move things forward uh you know I

891

00:41:37,730 --> 00:41:35,940

don't know I think what would really

892

00:41:40,069 --> 00:41:37,740

move things forward as if we were

893

00:41:43,010 --> 00:41:40,079

allowed to bring forth the information

894

00:41:44,990 --> 00:41:43,020

that is kept at Bay

895

00:41:48,770 --> 00:41:45,000

that would just

896

00:41:50,630 --> 00:41:48,780

put it to just finish it but that's not

897

00:41:53,690 --> 00:41:50,640

going to happen because this is above

898

00:41:56,750 --> 00:41:53,700

and beyond you could see just in the way

899

00:42:00,530 --> 00:41:56,760

things have been handled uh recently it

900

00:42:03,109 --> 00:42:00,540

it is above and beyond uh top secret and

901
00:42:06,170 --> 00:42:03,119
it is a matter of National Security and

902
00:42:08,750 --> 00:42:06,180
has always been more so you remember

903
00:42:11,569 --> 00:42:08,760
understand something National Security

904
00:42:13,670 --> 00:42:11,579
is the preservation of status quoil the

905
00:42:16,550 --> 00:42:13,680
powers that are are the first time in

906
00:42:19,670 --> 00:42:16,560
history able to Monitor and maintain

907
00:42:21,710 --> 00:42:19,680
that position so why would they forfeit

908
00:42:24,829 --> 00:42:21,720
it and the other thing is any sort of

909
00:42:30,470 --> 00:42:24,839
Revelation to anything other that that

910
00:42:32,870 --> 00:42:30,480
may be a threat to a um let's say a

911
00:42:34,250 --> 00:42:32,880
paradigm shift which is really going to

912
00:42:36,770 --> 00:42:34,260
shake things up

913
00:42:39,589 --> 00:42:36,780

I think this is testing the water in

914

00:42:42,230 --> 00:42:39,599

some way uh you have these objects are

915

00:42:45,349 --> 00:42:42,240

being seen and they were supposedly shot

916

00:42:47,450 --> 00:42:45,359

down they're in the news for a while yes

917

00:42:49,730 --> 00:42:47,460

there's a lot of noise talk you know

918

00:42:52,849 --> 00:42:49,740

talking about it nobody jumped off a

919

00:42:56,930 --> 00:42:52,859

bridge or out of a you know a 20 store

920

00:42:59,150 --> 00:42:56,940

building the market didn't collapse so

921

00:43:03,130 --> 00:42:59,160

you know it isn't fear that's driving

922

00:43:06,829 --> 00:43:03,140

this there's something else

923

00:43:10,790 --> 00:43:06,839

right right well it'll be interesting to

924

00:43:13,490 --> 00:43:10,800

see as time goes on you know what what

925

00:43:14,809 --> 00:43:13,500

will happen you know I I don't know you

926
00:43:17,630 --> 00:43:14,819
know I have I have mixed feelings about

927
00:43:18,589 --> 00:43:17,640
it all I have mixed feelings that

928
00:43:20,630 --> 00:43:18,599
um

929
00:43:22,250 --> 00:43:20,640
I'd like to see that we're going to make

930
00:43:24,829 --> 00:43:22,260
some progress with the government

931
00:43:27,650 --> 00:43:24,839
involved and looking into these things I

932
00:43:30,050 --> 00:43:27,660
just don't know what the transparency is

933
00:43:31,370 --> 00:43:30,060
going to be especially at a point if

934
00:43:34,670 --> 00:43:31,380
they discover

935
00:43:37,790 --> 00:43:34,680
actually discover things and find out

936
00:43:39,230 --> 00:43:37,800
things that we don't know at this point

937
00:43:41,390 --> 00:43:39,240
um what we're actually going to learn

938
00:43:43,730 --> 00:43:41,400

about it because they could put in about

939

00:43:46,730 --> 00:43:43,740

anything under the umbrella of national

940

00:43:48,589 --> 00:43:46,740

security at this point I think if we

941

00:43:50,510 --> 00:43:48,599

were to make a prediction as far as

942

00:43:54,050 --> 00:43:50,520

what's going to happen we're going to

943

00:43:57,609 --> 00:43:54,060

see the release of of new technology

944

00:44:01,309 --> 00:43:57,619

in the world of what may be perceived as

945

00:44:04,130 --> 00:44:01,319

uaps or UFOs advancements

946

00:44:07,849 --> 00:44:04,140

and that's going to come forward I think

947

00:44:10,430 --> 00:44:07,859

slowly but surely and the reason why is

948

00:44:10,970 --> 00:44:10,440

I don't think it's just

949

00:44:14,569 --> 00:44:10,980

um

950

00:44:17,450 --> 00:44:14,579

our our let's say our contractors that

951
00:44:21,109 --> 00:44:17,460
have made advancements but also other

952
00:44:23,150 --> 00:44:21,119
countries uh made advancements now we

953
00:44:25,609 --> 00:44:23,160
keep hearing I just heard the other day

954
00:44:28,309 --> 00:44:25,619
Eric Weinstein talk about that there's

955
00:44:30,970 --> 00:44:28,319
no way this technology could be you know

956
00:44:34,069 --> 00:44:30,980
even closely you know made

957
00:44:37,010 --> 00:44:34,079
here on Earth from what he understands

958
00:44:41,089 --> 00:44:37,020
of of physics and His Brilliant man uh

959
00:44:42,950 --> 00:44:41,099
mathematical physicists and others I

960
00:44:45,230 --> 00:44:42,960
don't know if that's the case in point I

961
00:44:47,329 --> 00:44:45,240
have a very strong more than a strong

962
00:44:50,329 --> 00:44:47,339
feeling I have

963
00:44:53,030 --> 00:44:50,339

a good inkling that this technology or a

964

00:44:56,170 --> 00:44:53,040

percentage of or something similar has

965

00:45:00,410 --> 00:44:56,180

been in our grasp or the grips of

966

00:45:03,589 --> 00:45:02,329

right right well

967

00:45:04,970 --> 00:45:03,599

um you know they're not

968

00:45:07,970 --> 00:45:04,980

the

969

00:45:09,890 --> 00:45:07,980

um when you hear like a Skeptics a

970

00:45:13,030 --> 00:45:09,900

skeptic's version of what these things

971

00:45:16,550 --> 00:45:13,040

are that we're seeing today they always

972

00:45:19,010 --> 00:45:16,560

have amnesia or do not know about what

973

00:45:22,309 --> 00:45:19,020

has been seen in the past you know many

974

00:45:25,550 --> 00:45:22,319

decades ago with a similar you know

975

00:45:28,309 --> 00:45:25,560

activity similar you know responses and

976

00:45:30,710 --> 00:45:28,319

and travel and and uh you know the 90

977

00:45:31,609 --> 00:45:30,720

degree angles at five thousand miles an

978

00:45:33,170 --> 00:45:31,619

hour

979

00:45:35,930 --> 00:45:33,180

um you know that type of thing have been

980

00:45:38,690 --> 00:45:35,940

spotted since the 60s you know 50s

981

00:45:41,630 --> 00:45:38,700

actually so it's uh

982

00:45:45,349 --> 00:45:41,640

it they they never want to keep that you

983

00:45:46,550 --> 00:45:45,359

know uh when they're debating or they're

984

00:45:48,890 --> 00:45:46,560

out there and they're they're talking

985

00:45:51,170 --> 00:45:48,900

about that it has to be our technology

986

00:45:53,630 --> 00:45:51,180

or on here on Earth

987

00:45:55,849 --> 00:45:53,640

um you know that's that's what that no

988

00:45:58,849 --> 00:45:55,859

one seems to confront them on that part

989

00:46:00,170 --> 00:45:58,859

of it yeah the historical and people ask

990

00:46:03,650 --> 00:46:00,180

me all the time what is the best

991

00:46:06,230 --> 00:46:03,660

evidence so if Dr Richard there if I

992

00:46:08,270 --> 00:46:06,240

could we're in a debate I would say the

993

00:46:11,270 --> 00:46:08,280

best evidence is the historical

994

00:46:13,010 --> 00:46:11,280

perspective it can't be erased and the

995

00:46:16,790 --> 00:46:13,020

historical perspective what I'm talking

996

00:46:20,809 --> 00:46:16,800

about precedes anything that is that is

997

00:46:24,230 --> 00:46:20,819

the uh we considered the manic uh

998

00:46:26,210 --> 00:46:24,240

the the period of time or Machinery was

999

00:46:29,870 --> 00:46:26,220

even involved I'm talking all the way

1000

00:46:32,870 --> 00:46:29,880

back to the 1500s and well beyond that

1001
00:46:35,569 --> 00:46:32,880
there are depictions of things on cave

1002
00:46:38,270 --> 00:46:35,579
drawings again their depictions that

1003
00:46:40,430 --> 00:46:38,280
resemble and possibly uh represent

1004
00:46:42,770 --> 00:46:40,440
something similar to this but we don't

1005
00:46:46,010 --> 00:46:42,780
know the thing is you can't discount

1006
00:46:49,430 --> 00:46:46,020
that you can't say that's evidence but

1007
00:46:52,370 --> 00:46:49,440
it's something there now in the 15th

1008
00:46:55,069 --> 00:46:52,380
century you can and even earlier than

1009
00:46:59,690 --> 00:46:55,079
that a very good book wanders in the Sky

1010
00:47:01,309 --> 00:46:59,700
by Scott albeck and and Jacques valet if

1011
00:47:03,650 --> 00:47:01,319
you get your hands on that you read

1012
00:47:07,430 --> 00:47:03,660
those historical perspective historical

1013
00:47:12,170 --> 00:47:07,440

accounts it gives you a perspective on

1014

00:47:14,450 --> 00:47:12,180

this phenomena that it has a uh it has

1015

00:47:17,870 --> 00:47:14,460

been around long enough that it has a

1016

00:47:21,470 --> 00:47:17,880

pedigree of being genuine and it cannot

1017

00:47:23,990 --> 00:47:21,480

be dismissed so are we looking at the

1018

00:47:25,730 --> 00:47:24,000

same thing you betcha it may be a little

1019

00:47:27,650 --> 00:47:25,740

bit different it's just different eyes

1020

00:47:32,150 --> 00:47:27,660

and different ways of saying the same

1021

00:47:35,450 --> 00:47:32,160

thing again Naman glaciers uh you know

1022

00:47:39,230 --> 00:47:35,460

it's flaming chariots it's uh

1023

00:47:41,270 --> 00:47:39,240

um one thing or another UFOs UAP

1024

00:47:45,050 --> 00:47:41,280

um ghost ships

1025

00:47:47,870 --> 00:47:45,060

um the area the Airship phenomena of a

1026
00:47:52,670 --> 00:47:47,880
very good very good series of uh studies

1027
00:47:54,829 --> 00:47:52,680
there the 1896 and 97 much of those 1500

1028
00:47:57,290 --> 00:47:54,839
reports when you read them and you get

1029
00:47:59,390 --> 00:47:57,300
past the bunk there are there was Goofy

1030
00:48:02,510 --> 00:47:59,400
stuff going on but you read those

1031
00:48:05,870 --> 00:48:02,520
reports and you see that they do match

1032
00:48:08,329 --> 00:48:05,880
the characteristics and and of things

1033
00:48:11,809 --> 00:48:08,339
that have been seen uh you know

1034
00:48:14,089 --> 00:48:11,819
throughout history and currently so uh

1035
00:48:16,790 --> 00:48:14,099
no the bottom line is the historical

1036
00:48:19,309 --> 00:48:16,800
perspective cannot be dismissed and I'm

1037
00:48:23,109 --> 00:48:19,319
tired of hearing that all this phenomena

1038
00:48:26,390 --> 00:48:23,119

took place and 19 1947

1039

00:48:31,250 --> 00:48:26,400

you know by Kenneth Arnold and that was

1040

00:48:33,530 --> 00:48:31,260

it that's the birth of uh of the UFO era

1041

00:48:36,470 --> 00:48:33,540

call it whatever you want this stuff's

1042

00:48:39,410 --> 00:48:36,480

been around since the Advent of human

1043

00:48:40,970 --> 00:48:39,420

wreck recorded history this is a really

1044

00:48:43,670 --> 00:48:40,980

fun thing Sam I don't know if you've

1045

00:48:46,990 --> 00:48:43,680

ever seen this but this is the uh Simon

1046

00:48:50,990 --> 00:48:47,000

Perkins Diary of

1047

00:48:53,450 --> 00:48:51,000

1796. this is uh October 12th and they

1048

00:48:57,710 --> 00:48:53,460

talk about basically some ships in the

1049

00:49:01,010 --> 00:48:57,720

sky uh people on them you know and uh

1050

00:49:03,589 --> 00:49:01,020

and and in this description here it will

1051

00:49:04,790 --> 00:49:03,599

it'll go deep into uh what they look

1052

00:49:07,370 --> 00:49:04,800

like

1053

00:49:08,809 --> 00:49:07,380

um and it wasn't of the imagination it

1054

00:49:11,030 --> 00:49:08,819

was saying here

1055

00:49:13,329 --> 00:49:11,040

um but anyway it's a great uh article

1056

00:49:18,410 --> 00:49:13,339

anyone can look that up uh Perkins diary

1057

00:49:20,089 --> 00:49:18,420

October 12 1796 uh UFO that's uh you can

1058

00:49:22,849 --> 00:49:20,099

find that online which I think is

1059

00:49:24,950 --> 00:49:22,859

fascinating it is it is yeah the thing

1060

00:49:25,609 --> 00:49:24,960

is you stop what it would disturb I

1061

00:49:27,050 --> 00:49:25,619

think

1062

00:49:28,970 --> 00:49:27,060

uh

1063

00:49:31,550 --> 00:49:28,980

I think Stephen Greer came up with a

1064

00:49:33,410 --> 00:49:31,560

great line it said the disclosure of

1065

00:49:35,750 --> 00:49:33,420

this the Revelation you know as far as

1066

00:49:37,970 --> 00:49:35,760

that goes call it whatever you want is

1067

00:49:41,390 --> 00:49:37,980

only going to change everything and I

1068

00:49:43,490 --> 00:49:41,400

think that is a problem if you can't

1069

00:49:46,609 --> 00:49:43,500

maintain the control

1070

00:49:48,290 --> 00:49:46,619

we have a problem and that's why I think

1071

00:49:51,170 --> 00:49:48,300

these people that are showing up today

1072

00:49:53,870 --> 00:49:51,180

in this field are very manageable

1073

00:49:55,730 --> 00:49:53,880

because they have something at stake to

1074

00:49:59,089 --> 00:49:55,740

lose and if you have something to lose

1075

00:50:01,309 --> 00:49:59,099

you can be managed hmm

1076

00:50:04,190 --> 00:50:01,319

yeah well

1077

00:50:07,130 --> 00:50:04,200

um I don't I don't know what what do you

1078

00:50:09,170 --> 00:50:07,140

think would change if all of a sudden

1079

00:50:10,790 --> 00:50:09,180

well just to let you know we're about

1080

00:50:13,550 --> 00:50:10,800

four minutes we'll have about four

1081

00:50:15,829 --> 00:50:13,560

minutes left so um it went really fast

1082

00:50:18,109 --> 00:50:15,839

as usual so what do you think would

1083

00:50:21,770 --> 00:50:18,119

change like if all of a sudden tomorrow

1084

00:50:24,170 --> 00:50:21,780

there was uh and a huge amount of

1085

00:50:26,290 --> 00:50:24,180

evidence that could not be denied that

1086

00:50:28,730 --> 00:50:26,300

we are being visited by

1087

00:50:30,470 --> 00:50:28,740

extraterrestrials or even if it was

1088

00:50:32,930 --> 00:50:30,480

interdimensional or something like that

1089

00:50:34,730 --> 00:50:32,940

but anyway what do you think would

1090

00:50:36,410 --> 00:50:34,740

change if we had so much evidence that

1091

00:50:39,349 --> 00:50:36,420

couldn't be denied

1092

00:50:41,750 --> 00:50:39,359

uh very little quite honestly as far as

1093

00:50:44,030 --> 00:50:41,760

the the individual themselves very

1094

00:50:46,250 --> 00:50:44,040

little the conversations would be

1095

00:50:49,130 --> 00:50:46,260

interesting at the coffee you know the

1096

00:50:52,609 --> 00:50:49,140

coffee uh uh uh getting coffee at your

1097

00:50:55,370 --> 00:50:52,619

at work but beyond that I think it would

1098

00:50:58,250 --> 00:50:55,380

take so it would take some time to set

1099

00:51:01,130 --> 00:50:58,260

in and then things are going to react it

1100

00:51:04,089 --> 00:51:01,140

that definitely will react I would say

1101

00:51:06,890 --> 00:51:04,099

the the biggest group would be Academia

1102

00:51:09,410 --> 00:51:06,900

they would have the hardest part because

1103

00:51:12,109 --> 00:51:09,420

all of a sudden their Eiffel Towers have

1104

00:51:15,410 --> 00:51:12,119

been shaken that there's something out

1105

00:51:19,130 --> 00:51:15,420

there that is smarter than than them and

1106

00:51:22,549 --> 00:51:19,140

our science needs to be uh rethought you

1107

00:51:25,309 --> 00:51:22,559

know that Newtonian physics isn't it

1108

00:51:28,609 --> 00:51:25,319

isn't everything and that uh

1109

00:51:30,589 --> 00:51:28,619

you know the bottom line is it's a lot

1110

00:51:32,930 --> 00:51:30,599

greater than what we could ever imagine

1111

00:51:33,950 --> 00:51:32,940

and that's all right what's wrong with

1112

00:51:43,970 --> 00:51:33,960

that

1113

00:51:46,130 --> 00:51:43,980

the average person is going to move on

1114

00:51:49,010 --> 00:51:46,140

to their daily activities because they

1115

00:51:51,230 --> 00:51:49,020

everyone's looking to survive and you

1116

00:51:53,809 --> 00:51:51,240

know and and you know about the next

1117

00:51:55,670 --> 00:51:53,819

paycheck or whatever it is

1118

00:51:58,790 --> 00:51:55,680

um you know I think that things would

1119

00:52:01,010 --> 00:51:58,800

change but not in a point where you know

1120

00:52:02,510 --> 00:52:01,020

it's going to disrupt the world I don't

1121

00:52:03,190 --> 00:52:02,520

believe

1122

00:52:07,010 --> 00:52:03,200

um

1123

00:52:09,770 --> 00:52:07,020

unless there was a problem unless these

1124

00:52:13,130 --> 00:52:09,780

were mean-spirited beings in some way

1125

00:52:14,210 --> 00:52:13,140

that Were Somehow threatening but um if

1126

00:52:15,829 --> 00:52:14,220

so

1127

00:52:18,290 --> 00:52:15,839

you know that certainly would change

1128

00:52:20,990 --> 00:52:18,300

everything but I think it was just the

1129

00:52:23,030 --> 00:52:21,000

fact that we are being visited and these

1130

00:52:25,309 --> 00:52:23,040

are actually beings from say another

1131

00:52:26,630 --> 00:52:25,319

planet something like that and we don't

1132

00:52:29,030 --> 00:52:26,640

know and we don't know where they're

1133

00:52:30,650 --> 00:52:29,040

from interdimensional you know the time

1134

00:52:32,690 --> 00:52:30,660

there's so many different things and

1135

00:52:34,609 --> 00:52:32,700

years ago I always told you it was it's

1136

00:52:36,710 --> 00:52:34,619

a multiplicity of phenomenon we're

1137

00:52:39,370 --> 00:52:36,720

running short on time here and I know

1138

00:52:42,170 --> 00:52:39,380

that this discussion can go on for hours

1139

00:52:43,670 --> 00:52:42,180

but uh I'd like to close up here in my

1140

00:52:46,190 --> 00:52:43,680

end just say thank you very much for

1141

00:52:48,230 --> 00:52:46,200

having me back on I love your audience I

1142

00:52:51,170 --> 00:52:48,240

love being on talking with my friend

1143

00:52:55,430 --> 00:52:51,180

here about the subject of uh that

1144

00:52:57,589 --> 00:52:55,440

occupies 99 of my time yeah yeah a lot

1145

00:52:59,150 --> 00:52:57,599

of my time as well thank you Sam so much

1146

00:53:00,770 --> 00:52:59,160

it's always been it's always a pleasure

1147

00:53:03,290 --> 00:53:00,780

you're a good friend and thank you for

1148

00:53:05,150 --> 00:53:03,300

coming on again you're most welcome all

1149

00:53:07,190 --> 00:53:05,160

right bye

1150

00:53:10,309 --> 00:53:07,200

all right everyone so that's it for the

1151

00:53:14,049 --> 00:53:10,319

show thank you so much for tuning in uh

1152

00:53:16,670 --> 00:53:14,059

next week we have uh Carl oswiss

1153

00:53:18,049 --> 00:53:16,680

I don't know how exactly how to

1154

00:53:22,430 --> 00:53:18,059

pronounce his last name I'm gonna find

1155

00:53:26,410 --> 00:53:22,440

out and uh he is someone that was on the

1156

00:53:30,530 --> 00:53:26,420

uh USS Ronald Reagan I believe it was uh

1157

00:53:32,890 --> 00:53:30,540

2000 it's in the 2000s when they had uh

1158

00:53:35,569 --> 00:53:32,900

their UFO encounters and that's plural

1159

00:53:38,510 --> 00:53:35,579

and uh so we'll be talking to him about

1160

00:53:40,190 --> 00:53:38,520

that and a lot more thank you all

1161

00:53:40,930 --> 00:53:40,200

um and remember to keep your eyes to the

1162

00:53:42,830 --> 00:53:40,940

sky

1163

00:53:52,150 --> 00:53:42,840

thank you
