

# UFOs Over Muchalls, Scotland

📅 March 25, 2023    👤 admin

by Charles Lear, author of "The Flying Saucer Investigators."

Tom Moir

People react to UFO encounters in different ways. Some are profoundly moved, some are terrified, some take them in stride, and some become fascinated. Tom Moir, a young man in the Aberdeenshire village of Muchalls, Scotland, was moved to become an investigator after his sighting in 1971, and he spent three decades videotaping UFOs in his area that he said were showing up on a regular basis. He came to believe they were monitoring him and his neighbors and this disturbed him to the point where he ended up moving thousands of miles away to Auckland, New Zealand.

Lear people react to UFO Encounters in

5  
00:00:46,310 --> 00:00:43,680  
different ways some are profoundly moved

6  
00:00:48,950 --> 00:00:46,320  
some are terrified some take them in

7  
00:00:50,930 --> 00:00:48,960  
stride and some become fascinated Tom

8  
00:00:53,510 --> 00:00:50,940  
Moyer a young man in the aberdeenshire

9  
00:00:55,189 --> 00:00:53,520  
village of McCall's Scotland was moved

10  
00:00:57,830 --> 00:00:55,199  
to become an investigator after his

11  
00:01:00,350 --> 00:00:57,840  
sighting in 1971 and he spent three

12  
00:01:02,389 --> 00:01:00,360  
decades videotaping UFOs in his area

13  
00:01:05,030 --> 00:01:02,399

that he said were showing up on a

14

00:01:07,010 --> 00:01:05,040

regular basis he came to believe they

15

00:01:08,929 --> 00:01:07,020

were monitoring him and his neighbors

16

00:01:10,789 --> 00:01:08,939

and this Disturbed him to the point

17

00:01:12,850 --> 00:01:10,799

where he ended up moving thousands of

18

00:01:16,429 --> 00:01:12,860

miles away to Auckland New Zealand

19

00:01:19,969 --> 00:01:16,439

Moyer's story appears in the 1998 book

20

00:01:22,490 --> 00:01:19,979

by Ron Halliday UFO Scotland Moyer is

21

00:01:24,830 --> 00:01:22,500

identified in the book as Tom McClintock

22

00:01:27,469 --> 00:01:24,840

according to Halliday Tom was walking

23

00:01:30,590 --> 00:01:27,479

home from a bus stop near his home after

24

00:01:33,050 --> 00:01:30,600

his weekly violin lesson on his right he

25

00:01:35,749 --> 00:01:33,060

noticed a red pulsating light another

26  
00:01:38,330 --> 00:01:35,759  
identical one appeared on his left and

27  
00:01:40,069 --> 00:01:38,340  
then a third he was not scared but

28  
00:01:42,350 --> 00:01:40,079  
rather curious as to what they were

29  
00:01:44,870 --> 00:01:42,360  
doing one of the lights then came down

30  
00:01:46,370 --> 00:01:44,880  
until it was just above the ground it

31  
00:01:48,590 --> 00:01:46,380  
was then that a brightly glowing

32  
00:01:51,230 --> 00:01:48,600  
creature dressed in a long gown suddenly

33  
00:01:53,270 --> 00:01:51,240  
appeared Tom moved towards it and the

34  
00:01:55,730 --> 00:01:53,280  
creature disappeared according to

35  
00:01:58,010 --> 00:01:55,740  
Halliday Tom told his story as soon as

36  
00:01:59,450 --> 00:01:58,020  
he got home and he and his sister went

37  
00:02:01,609 --> 00:01:59,460  
back out to see if they could see

38  
00:02:03,950 --> 00:02:01,619

anything when they got to the end of the

39

00:02:06,230 --> 00:02:03,960

road a red light appeared it came

40

00:02:08,389 --> 00:02:06,240

towards them and then hovered over their

41

00:02:11,089 --> 00:02:08,399

heads the only detail they could make

42

00:02:13,010 --> 00:02:11,099

out was a small ring of Lights the UFO

43

00:02:15,949 --> 00:02:13,020

then moved over some nearby Hills

44

00:02:19,250 --> 00:02:15,959

holiday reports that Tom had other

45

00:02:21,890 --> 00:02:19,260

sightings including one in 1988 where he

46

00:02:23,930 --> 00:02:21,900

saw another red pulsating light on this

47

00:02:26,089 --> 00:02:23,940

occasion he was able to make out an

48

00:02:28,430 --> 00:02:26,099

object behind it that was flat topped

49

00:02:30,770 --> 00:02:28,440

drum shaped and had diamond-shaped

50

00:02:33,530 --> 00:02:30,780

facets on its circumference it went

51  
00:02:36,110 --> 00:02:33,540  
behind a hill and a white-colored Halo

52  
00:02:38,869 --> 00:02:36,120  
appeared flashed that then disappeared

53  
00:02:42,350 --> 00:02:38,879  
over three decades later Moyer's story

54  
00:02:44,509 --> 00:02:42,360  
appeared in the January 12 2005 Aberdeen

55  
00:02:46,309 --> 00:02:44,519  
press and journal after he'd told his

56  
00:02:49,610 --> 00:02:46,319  
story For an upcoming episode of

57  
00:02:52,670 --> 00:02:49,620  
grampian TV's Beyond explanation at this

58  
00:02:55,430 --> 00:02:52,680  
point Moore is 44 in living in Auckland

59  
00:02:57,530 --> 00:02:55,440  
New Zealand the article headlined aliens

60  
00:02:59,630 --> 00:02:57,540  
forced me to flee the country says

61  
00:03:01,850 --> 00:02:59,640  
Varsity lecturer begins with the

62  
00:03:05,150 --> 00:03:01,860  
information that Moore had fled McCall's

63  
00:03:07,250 --> 00:03:05,160

because he was plagued by UFOs that he

64

00:03:09,830 --> 00:03:07,260

believed were monitoring his every move

65

00:03:11,990 --> 00:03:09,840

Moore explained that he didn't have a

66

00:03:14,089 --> 00:03:12,000

choice and that while he was intrigued

67

00:03:16,309 --> 00:03:14,099

by the lights he was also frightened by

68

00:03:18,530 --> 00:03:16,319

them he said that he'd had no sightings

69

00:03:20,750 --> 00:03:18,540

in New Zealand in this version of

70

00:03:22,910 --> 00:03:20,760

Maura's story As Told by him for this

71

00:03:25,130 --> 00:03:22,920

article he was coming home from a piano

72

00:03:27,470 --> 00:03:25,140

lesson when he saw the lights he

73

00:03:29,690 --> 00:03:27,480

described seeing lights afterwards that

74

00:03:31,970 --> 00:03:29,700

appeared at the same time every night of

75

00:03:34,009 --> 00:03:31,980

the week from then on he believed they

76

00:03:36,710 --> 00:03:34,019

were controlled either automatically or

77

00:03:39,949 --> 00:03:36,720

by some intelligence more is described

78

00:03:42,470 --> 00:03:39,959

as an electronics engineer with BSC and

79

00:03:45,410 --> 00:03:42,480

PhD degrees who has published more than

80

00:03:47,449 --> 00:03:45,420

50 papers he told the reporter that he

81

00:03:49,910 --> 00:03:47,459

started using a video camera to capture

82

00:03:52,070 --> 00:03:49,920

the lights and explained it was me doing

83

00:03:54,430 --> 00:03:52,080

the gathering this time instead of

84

00:03:57,110 --> 00:03:54,440

someone Gathering the information on me

85

00:03:59,449 --> 00:03:57,120

Mora shows up in an article covering a

86

00:04:02,570 --> 00:03:59,459

different mystery known as the Auckland

87

00:04:04,430 --> 00:04:02,580

hum the article by Stephen Hutchin was

88

00:04:06,949 --> 00:04:04,440

posted on the Sydney Morning Herald

89

00:04:10,009 --> 00:04:06,959

website and is headlined Mystery noise

90

00:04:11,990 --> 00:04:10,019

is a real Humdinger Moyer described at

91

00:04:14,330 --> 00:04:12,000

this point as a computer engineer at

92

00:04:16,310 --> 00:04:14,340

Massey University's Institute of

93

00:04:19,009 --> 00:04:16,320

information and mathematical Sciences

94

00:04:20,930 --> 00:04:19,019

have been taking reports from people who

95

00:04:23,510 --> 00:04:20,940

said they could hear the hum and had

96

00:04:26,270 --> 00:04:23,520

tested four of them of these three

97

00:04:29,150 --> 00:04:26,280

centered in around 56 Hertz while one

98

00:04:32,090 --> 00:04:29,160

was inconclusive according to Hutchin Dr

99

00:04:34,790 --> 00:04:32,100

Moore was working with Dr fakhro Alam

100

00:04:37,310 --> 00:04:34,800

and they had been approached by about 30

101  
00:04:39,710 --> 00:04:37,320  
supper hours since mid-august of that

102  
00:04:41,930 --> 00:04:39,720  
year all of whom were from the Northern

103  
00:04:44,570 --> 00:04:41,940  
parts of Auckland with the help of one

104  
00:04:47,510 --> 00:04:44,580  
of them Moyer created a simulation of

105  
00:04:50,030 --> 00:04:47,520  
the noise Moore's UFO experience is not

106  
00:04:52,430 --> 00:04:50,040  
mentioned in this article Moyer was

107  
00:04:56,629 --> 00:04:52,440  
featured recently in an article written

108  
00:04:59,629 --> 00:04:56,639  
by Jamie saunderson posted June 24 2022

109  
00:05:02,330 --> 00:04:59,639  
on the Aberdeen live website headline

110  
00:05:04,930 --> 00:05:02,340  
academic who saw UFOs during childhood

111  
00:05:07,969 --> 00:05:04,940  
in aberdeenshire recalls encounters

112  
00:05:11,090 --> 00:05:07,979  
saunderson describes more as seeing UFOs

113  
00:05:13,189 --> 00:05:11,100

so regularly he got bored of them at

114

00:05:14,749 --> 00:05:13,199

this point he's identified as an

115

00:05:17,330 --> 00:05:14,759

engineering professor at Auckland

116

00:05:20,629 --> 00:05:17,340

University of Technology and author of

117

00:05:22,790 --> 00:05:20,639

160 Publications Moore's work on the

118

00:05:25,070 --> 00:05:22,800

Auckland hum is mentioned but he is

119

00:05:27,830 --> 00:05:25,080

described as having recorded it rather

120

00:05:29,810 --> 00:05:27,840

than having created a simulation in this

121

00:05:31,490 --> 00:05:29,820

version of his story he is said to be

122

00:05:33,770 --> 00:05:31,500

coming home from school on the night of

123

00:05:36,290 --> 00:05:33,780

his first sighting regarding the UFO

124

00:05:38,390 --> 00:05:36,300

activity after that more is quoted

125

00:05:40,490 --> 00:05:38,400

saying they'd be there every night of

126

00:05:42,830 --> 00:05:40,500

the week almost like clockwork in the

127

00:05:44,930 --> 00:05:42,840

same area in my later years when I used

128

00:05:47,510 --> 00:05:44,940

to watch them I used to get bored

129

00:05:49,249 --> 00:05:47,520

because it was so routine Morris said he

130

00:05:51,710 --> 00:05:49,259

came to believe that there wasn't anyone

131

00:05:53,510 --> 00:05:51,720

in the UFOs because it would be too

132

00:05:55,490 --> 00:05:53,520

boring for them to do what they were

133

00:05:57,290 --> 00:05:55,500

doing every night and therefore they

134

00:05:59,510 --> 00:05:57,300

must be machines using artificial

135

00:06:01,490 --> 00:05:59,520

intelligence to gather information on

136

00:06:03,830 --> 00:06:01,500

people there is no mention of more

137

00:06:05,930 --> 00:06:03,840

fleeing England and the article ends

138

00:06:08,029 --> 00:06:05,940

with him quoted as saying one of my

139

00:06:10,550 --> 00:06:08,039

ambitions is to go back and have another

140

00:06:13,189 --> 00:06:10,560

look according to another aberdeenshire

141

00:06:17,629 --> 00:06:13,199

live article by saunderson posted June

142

00:06:20,150 --> 00:06:17,639

24 2022 headlined sleepy aberdeenshire

143

00:06:23,029 --> 00:06:20,160

Village considered a UFO Hot Spot

144

00:06:25,550 --> 00:06:23,039

Scottish ufologist and author Malcolm

145

00:06:28,370 --> 00:06:25,560

Robinson declared that McCall's was

146

00:06:30,590 --> 00:06:28,380

indeed a UFO hotspot Moore's first

147

00:06:34,249 --> 00:06:30,600

sighting which appears in Robinson's

148

00:06:37,730 --> 00:06:34,259

2011 book UFO Case Files of Scotland Vol

149

00:06:39,830 --> 00:06:37,740

2 his described as an example however

150

00:06:42,469 --> 00:06:39,840

according to saunderson sightings

151

00:06:44,570 --> 00:06:42,479

reports died down by the time Robinson's

152

00:06:47,570 --> 00:06:44,580

book was published and Robinson is

153

00:06:49,610 --> 00:06:47,580

quoted as saying today McCall's as far

154

00:06:52,309 --> 00:06:49,620

as we are led to believe sees very

155

00:06:54,230 --> 00:06:52,319

little in the way of UFO reports and we

156

00:06:57,469 --> 00:06:54,240

can but wonder why

157

00:07:11,910 --> 00:06:57,479

Charles Lear is the author of The Flying
