

1  
00:00:03,290 --> 00:00:01,880  
in our continuing effort to put humans

2  
00:00:05,420 --> 00:00:03,300  
in space we just launched a new secret

3  
00:00:06,980 --> 00:00:05,430  
initiative named project Astro beta now

4  
00:00:09,200 --> 00:00:06,990  
through Astra beta we hope to identify a

5  
00:00:11,030 --> 00:00:09,210  
world suitable for colonization then

6  
00:00:12,740 --> 00:00:11,040  
we'll initiate a trial settlement before

7  
00:00:14,839 --> 00:00:12,750  
we go full scale and green light a full

8  
00:00:16,279 --> 00:00:14,849  
colony we've had to scale back on a few

9  
00:00:19,310 --> 00:00:16,289  
things due to budget cuts including

10  
00:00:20,900 --> 00:00:19,320  
personnel and frankly technology but we

11  
00:00:23,000 --> 00:00:20,910  
are making do with what we have and we

12  
00:00:32,749 --> 00:00:23,010  
are completely confident in our people

13  
00:00:37,569 --> 00:00:32,759
