

PILOTS

ENCOUNTERING

UFOS

1  
00:00:27,779 --> 00:00:11,320

[Music]

2  
00:00:30,450 --> 00:00:27,789  
greetings everyone and welcome to

3  
00:00:31,890 --> 00:00:30,460  
spacing out I'm Jason McClellan and I'm

4  
00:00:33,869 --> 00:00:31,900  
marine Ellsbury thanks so much for

5  
00:00:35,360 --> 00:00:33,879  
joining us later in the show we'll be

6  
00:00:38,460 --> 00:00:35,370  
joined by military and aviation

7  
00:00:39,810 --> 00:00:38,470  
journalist Tyler Rogo a he's going to

8  
00:00:41,580 --> 00:00:39,820  
talk about something you've probably

9  
00:00:43,380 --> 00:00:41,590  
seen in the news lately which is all

10  
00:00:45,360 --> 00:00:43,390  
those UFO encounters that pilots have

11  
00:00:47,100 --> 00:00:45,370  
been having but first we've got our

12  
00:00:56,330 --> 00:00:47,110  
drinks in hand so let's jump into the

13  
00:01:01,350 --> 00:00:59,370

we believe all news good or bad is

14

00:01:03,950 --> 00:01:01,360

better when paired with a good beverage

15

00:01:06,990 --> 00:01:03,960

so Lauren what are you drinking today

16

00:01:09,780 --> 00:01:07,000

so this is an inappropriate glassware

17

00:01:12,510 --> 00:01:09,790

for what I'm drinking but I'm drinking

18

00:01:15,510 --> 00:01:12,520

possibly the dirtiest ever martini in a

19

00:01:18,090 --> 00:01:15,520

in a water glass because I have recently

20

00:01:20,340 --> 00:01:18,100

moved and I don't know where my martini

21

00:01:22,680 --> 00:01:20,350

glasses are but you know well that's a

22

00:01:24,810 --> 00:01:22,690

that's a good excuse and I guess if

23

00:01:27,090 --> 00:01:24,820

you're going to be drinking a dirty

24

00:01:29,249 --> 00:01:27,100

martini you should be drinking it in

25

00:01:31,890 --> 00:01:29,259

inappropriate glassware it's a clean

26  
00:01:33,930 --> 00:01:31,900  
glass at least clean glass is good yeah

27  
00:01:36,180 --> 00:01:33,940  
well I'm drinking the most man that the

28  
00:01:39,210 --> 00:01:36,190  
manliest drink that I think I've had on

29  
00:01:46,139 --> 00:01:39,220  
the show and that is this very pink

30  
00:01:49,680 --> 00:01:46,149  
drink very balanced yes so this is so

31  
00:01:52,950 --> 00:01:49,690  
home infused vodka with blueberries and

32  
00:01:56,100 --> 00:01:52,960  
basil which is very good and also some

33  
00:01:59,760 --> 00:01:56,110  
home squeezed lemon juice so it's very

34  
00:02:02,490 --> 00:01:59,770  
tart but refreshing because it's like 93

35  
00:02:06,180 --> 00:02:02,500  
degrees where I am rainy and cold here

36  
00:02:07,949 --> 00:02:06,190  
so that's not fair cheers Cheers I'm

37  
00:02:10,230 --> 00:02:07,959  
just glad you are also drinking out of

38  
00:02:12,540 --> 00:02:10,240

some you know crazy water glass here

39

00:02:14,430 --> 00:02:12,550

exactly we had we had to do it up with

40

00:02:16,620 --> 00:02:14,440

our incorrect with our inappropriate

41

00:02:19,470 --> 00:02:16,630

glassware absolutely

42

00:02:21,809 --> 00:02:19,480

first we're revisiting that story we

43

00:02:25,680 --> 00:02:21,819

covered quite heavily back in 2013 a

44

00:02:27,660 --> 00:02:25,690

tiny story a tiny story that's right

45

00:02:30,240 --> 00:02:27,670

we're talking about our little friend

46

00:02:32,520 --> 00:02:30,250

adda the tiny humanoid discovered in the

47

00:02:34,800 --> 00:02:32,530

Atacama Desert back in 2003 by a

48

00:02:37,980 --> 00:02:34,810

treasure hunter adda was the focus of

49

00:02:40,410 --> 00:02:37,990

the 2013 crowdfunded documentary Sirius

50

00:02:42,690 --> 00:02:40,420

which was produced by JD Sarafine and

51  
00:02:44,880 --> 00:02:42,700  
focused on the work of dr. Steven Greer

52  
00:02:47,010 --> 00:02:44,890  
while the movie was being filmed dr.

53  
00:02:48,960 --> 00:02:47,020  
Gary Nolan at Genesis at the department

54  
00:02:50,400 --> 00:02:48,970  
of microbiology and immunology at

55  
00:02:52,470 --> 00:02:50,410  
Stanford University School of Medicine

56  
00:02:55,050 --> 00:02:52,480  
contacted Greer and Sarafine and offered

57  
00:02:57,600 --> 00:02:55,060  
to sequence the beans DNA his initial

58  
00:03:00,120 --> 00:02:57,610  
findings were that it was 92 percent of

59  
00:03:02,040 --> 00:03:00,130  
a match to a normal human misleading

60  
00:03:03,930 --> 00:03:02,050  
comments by both the filmmakers and the

61  
00:03:06,150 --> 00:03:03,940  
media taking Nolan's findings out of

62  
00:03:09,030 --> 00:03:06,160  
context led many to believe that this

63  
00:03:11,490 --> 00:03:09,040

was a mummified extraterrestrial being

64

00:03:14,069 --> 00:03:11,500

after the film Nolan went on to spent

65

00:03:16,830 --> 00:03:14,079

four years with a team of 10 scientists

66

00:03:19,470 --> 00:03:16,840

to research the mutations that might be

67

00:03:20,789 --> 00:03:19,480

causing these anomalies the findings

68

00:03:23,509 --> 00:03:20,799

from the study were recently published

69

00:03:25,580 --> 00:03:23,519

in the journal genome research and

70

00:03:29,399 --> 00:03:25,590

concluded that this highly unusual

71

00:03:32,009 --> 00:03:29,409

specimen was that of a fetal female with

72

00:03:34,640 --> 00:03:32,019

gene mutations and a highly unusual bone

73

00:03:37,199 --> 00:03:34,650

disorder causing premature ossification

74

00:03:39,119 --> 00:03:37,209

Nolan's findings could vastly improve

75

00:03:40,349 --> 00:03:39,129

the understanding of such mutations and

76

00:03:42,330 --> 00:03:40,359

provide a picture of how this could

77

00:03:44,550 --> 00:03:42,340

enable drugs for rapid bone healing and

78

00:03:46,860 --> 00:03:44,560

give us a greater understanding of rare

79

00:03:49,860 --> 00:03:46,870

and unique disorders like Addis what is

80

00:03:52,440 --> 00:03:49,870

this case finally closed some would say

81

00:03:54,659 --> 00:03:52,450

no Greer recently appeared on the Carol

82

00:03:57,899 --> 00:03:54,669

rosin show on a segment called the

83

00:04:00,240 --> 00:03:57,909

Stanford Atacama cover-up he gets a

84

00:04:02,879 --> 00:04:00,250

lengthy rebuttal to Nolan's findings and

85

00:04:04,679 --> 00:04:02,889

alleges that the story is not over nor

86

00:04:05,699 --> 00:04:04,689

does he plan to give up on it anytime

87

00:04:07,470 --> 00:04:05,709

soon

88

00:04:09,210 --> 00:04:07,480

wherever you stand on the matter I think

89

00:04:10,830 --> 00:04:09,220

we could all agree that Adam needs a

90

00:04:12,929 --> 00:04:10,840

little break from the poking and the

91

00:04:15,899 --> 00:04:12,939

prodding and should likely be returned

92

00:04:17,670 --> 00:04:15,909

to her home the desert in Chile summer

93

00:04:19,740 --> 00:04:17,680

is quickly approaching and that means

94

00:04:22,290 --> 00:04:19,750

all sorts of UFO conferences and other

95

00:04:24,089 --> 00:04:22,300

events are almost upon us there are so

96

00:04:25,589 --> 00:04:24,099

many UFO related events happening all

97

00:04:27,750 --> 00:04:25,599

the time but there are quite a few

98

00:04:29,399 --> 00:04:27,760

conferences in the summer here are some

99

00:04:31,379 --> 00:04:29,409

that you might want to check out the

100

00:04:33,899 --> 00:04:31,389

mick minimums UFO festival takes place

101  
00:04:36,240 --> 00:04:33,909  
in McMinnville Oregon May 17th through

102  
00:04:38,370 --> 00:04:36,250  
the 19th investigative journalist George

103  
00:04:40,110 --> 00:04:38,380  
Knapp and investigative filmmaker Jeremy

104  
00:04:41,939 --> 00:04:40,120  
Korbel will be among the speakers at

105  
00:04:43,469 --> 00:04:41,949  
this year's event contact in the desert

106  
00:04:46,529 --> 00:04:43,479  
takes place in Indian Wells California

107  
00:04:49,080 --> 00:04:46,539  
this year June 1st through 4th this

108  
00:04:51,810 --> 00:04:49,090  
large event features tons of speakers

109  
00:04:53,969 --> 00:04:51,820  
including Richard Dolan Nick Pope a

110  
00:04:56,939 --> 00:04:53,979  
bunch of guys from ancient aliens and

111  
00:04:58,620 --> 00:04:56,949  
most importantly our buddy Jeremy Korbel

112  
00:05:00,719 --> 00:04:58,630  
and don't forget the Roswell UFO

113  
00:05:03,360 --> 00:05:00,729

festival taking place in where else

114

00:05:05,520 --> 00:05:03,370

Roswell this year's event is happening

115

00:05:07,529 --> 00:05:05,530

July 6 through the 8th and they're still

116

00:05:09,930 --> 00:05:07,539

working on the details but Roswell is

117

00:05:12,540 --> 00:05:09,940

always all sorts of weird and weird is

118

00:05:14,189 --> 00:05:12,550

good and last but not least we're

119

00:05:16,290 --> 00:05:14,199

excited to announce that rogue planet is

120

00:05:18,690 --> 00:05:16,300

once again going to be at Denver Comic

121

00:05:20,610 --> 00:05:18,700

Con we'll be presenting a few panels and

122

00:05:21,549 --> 00:05:20,620

details will be on our rogue planet

123

00:05:23,889 --> 00:05:21,559

Facebook group in the

124

00:05:24,759 --> 00:05:23,899

coming weeks yeah we can stop to figure

125

00:05:26,739 --> 00:05:24,769

that out but we're gonna have some

126

00:05:28,299 --> 00:05:26,749

really cool stuff and super excited to

127

00:05:30,669 --> 00:05:28,309

be going back to Denver we have a great

128

00:05:33,249 --> 00:05:30,679

time in Denver and I don't know we

129

00:05:35,499 --> 00:05:33,259

talked about it but it's so much fun

130

00:05:38,589 --> 00:05:35,509

last year Maureen our panel on real life

131

00:05:39,939 --> 00:05:38,599

x-files was so much fun last year yeah

132

00:05:42,189 --> 00:05:39,949

it was great it was sold out and so

133

00:05:44,109 --> 00:05:42,199

we're really hoping to sort of carry on

134

00:05:48,099 --> 00:05:44,119

the momentum and hopefully people are

135

00:05:50,739 --> 00:05:48,109

still as starved for the UFO and

136

00:05:52,209 --> 00:05:50,749

paranormal topics because you know

137

00:05:55,509 --> 00:05:52,219

there's there's not a lot of that in

138

00:05:57,549 --> 00:05:55,519

this sort of event usually and but this

139

00:05:59,889 --> 00:05:57,559

year there will be and a lot has

140

00:06:03,369 --> 00:05:59,899

happened in the world of UFO since last

141

00:06:05,259 --> 00:06:03,379

year absolutely um you know we have I

142

00:06:06,969 --> 00:06:05,269

guess I shouldn't announce who else is

143

00:06:08,349 --> 00:06:06,979

going to be there I almost did but well

144

00:06:11,159 --> 00:06:08,359

to keep it top secret but we'll just say

145

00:06:14,709 --> 00:06:11,169

there are other people that will be

146

00:06:17,679 --> 00:06:14,719

presenting topics of similar matter yeah

147

00:06:20,049 --> 00:06:17,689

that's going to be very awesome and we

148

00:06:22,689 --> 00:06:20,059

hope as well that we'll be able to

149

00:06:25,769 --> 00:06:22,699

either do a live episode of spacing out

150

00:06:28,509 --> 00:06:25,779

there or something we'll keep you posted

151  
00:06:30,609 --> 00:06:28,519  
and see what happens but but yeah I'm

152  
00:06:32,019 --> 00:06:30,619  
definitely excited for this year I'm a

153  
00:06:35,169 --> 00:06:32,029  
little bummed you know we talked about

154  
00:06:36,579 --> 00:06:35,179  
these other UFO events that Jeremy

155  
00:06:38,709 --> 00:06:36,589  
corbels gonna be speaking with George

156  
00:06:42,249 --> 00:06:38,719  
Knapp at the McMinnville UFO festival

157  
00:06:45,339 --> 00:06:42,259  
which is not that crazy of a drive from

158  
00:06:47,979 --> 00:06:45,349  
me I'm in Seattle so but unfortunately

159  
00:06:49,959 --> 00:06:47,989  
they already have plans I cannot get out

160  
00:06:51,399 --> 00:06:49,969  
of that weekend so I'm gonna miss it but

161  
00:06:53,649 --> 00:06:51,409  
I'm missing all these events this year

162  
00:06:56,049 --> 00:06:53,659  
yeah it's a bummer I really wanted to

163  
00:06:59,709 --> 00:06:56,059

get up to McMinnville to be fun with

164

00:07:01,509 --> 00:06:59,719

George Neff and Jeremy there but yeah

165

00:07:03,159 --> 00:07:01,519

it's it's interesting and and we

166

00:07:05,469 --> 00:07:03,169

mentioned with how much has happened

167

00:07:08,519 --> 00:07:05,479

since last year's since you know when we

168

00:07:12,009 --> 00:07:08,529

were in Denver in the UFO world you know

169

00:07:15,039 --> 00:07:12,019

largely in part credit to to the stars

170

00:07:17,499 --> 00:07:15,049

Academy for sort of busting the the

171

00:07:20,709 --> 00:07:17,509

governments the Pentagon's UFO program

172

00:07:23,409 --> 00:07:20,719

wide open and with that there's been you

173

00:07:27,669 --> 00:07:23,419

know trickling of videos and stuff here

174

00:07:29,619 --> 00:07:27,679

and there and a lot of research coming

175

00:07:31,209 --> 00:07:29,629

out now and people involved with to the

176  
00:07:33,069 --> 00:07:31,219  
Stars there's so many people involved it

177  
00:07:34,840 --> 00:07:33,079  
to the Stars and one of those people is

178  
00:07:38,350 --> 00:07:34,850  
dr. Gary Nolan

179  
00:07:41,470 --> 00:07:38,360  
so you know person revisiting this this

180  
00:07:43,600 --> 00:07:41,480  
old add a case you know it's funny to

181  
00:07:45,880 --> 00:07:43,610  
see I'm glad it made news again I'm glad

182  
00:07:49,510 --> 00:07:45,890  
that dr. Gary Nolan continued the

183  
00:07:52,900 --> 00:07:49,520  
research on this and put it to bed as it

184  
00:07:57,820 --> 00:07:52,910  
needed to be but personally his findings

185  
00:08:00,250 --> 00:07:57,830  
you know are the same the main main

186  
00:08:03,100 --> 00:08:00,260  
punchline remains the same as it always

187  
00:08:07,860 --> 00:08:03,110  
was and he's all yea human this is a

188  
00:08:10,810 --> 00:08:07,870

weird human but human absolutely and and

189

00:08:15,370 --> 00:08:10,820

you know I'm on the side of course we're

190

00:08:18,010 --> 00:08:15,380

personally for me I am more on to side

191

00:08:21,730 --> 00:08:18,020

with Gary Nolan then then career I

192

00:08:26,200 --> 00:08:21,740

listen to a very brief portion of his

193

00:08:28,300 --> 00:08:26,210

interview on Carol rosin show and so I

194

00:08:29,680 --> 00:08:28,310

can't talk really because I didn't

195

00:08:32,980 --> 00:08:29,690

listen to the whole thing but I did hear

196

00:08:34,600 --> 00:08:32,990

him talking about some things and you

197

00:08:36,909 --> 00:08:34,610

they were coming out now

198

00:08:38,680 --> 00:08:36,919

Gary Nolan's results were showing you

199

00:08:41,760 --> 00:08:38,690

know this looked like everyone was

200

00:08:44,350 --> 00:08:41,770

saying this was probably a really old

201  
00:08:45,670 --> 00:08:44,360  
find this mummy was from a long time ago

202  
00:08:48,070 --> 00:08:45,680  
but now they're saying is probably only

203  
00:08:49,630 --> 00:08:48,080  
forty years old and I did hear Greer

204  
00:08:54,210 --> 00:08:49,640  
saying a hundred to one hundred and

205  
00:08:57,390 --> 00:08:54,220  
forty on Rosen's program and going on in

206  
00:09:01,470 --> 00:08:57,400  
trying to scientifically or medically

207  
00:09:03,490 --> 00:09:01,480  
refute all of his statements so

208  
00:09:05,830 --> 00:09:03,500  
obviously this is one of those things

209  
00:09:07,420 --> 00:09:05,840  
where people are gonna believe what they

210  
00:09:10,420 --> 00:09:07,430  
want to believe we see this all the time

211  
00:09:12,790 --> 00:09:10,430  
with every case so because this study

212  
00:09:14,470 --> 00:09:12,800  
has come out it's closed the door for

213  
00:09:16,810 --> 00:09:14,480

settled the case for many of us I think

214

00:09:19,710 --> 00:09:16,820

but there is also going to be a ton of

215

00:09:22,600 --> 00:09:19,720

people that still are you know this is a

216

00:09:25,660 --> 00:09:22,610

convoluted free free to believe I'm not

217

00:09:27,430 --> 00:09:25,670

I'm not judging like I said I didn't

218

00:09:28,780 --> 00:09:27,440

watch the the interview of people want

219

00:09:31,540 --> 00:09:28,790

to there they're more than welcome to

220

00:09:33,570 --> 00:09:31,550

but but yeah it was a unique thing

221

00:09:37,090 --> 00:09:33,580

because there were these obvious

222

00:09:39,490 --> 00:09:37,100

extremely visible mutations and they

223

00:09:42,250 --> 00:09:39,500

weren't sure if it was some rare form of

224

00:09:45,370 --> 00:09:42,260

dwarfism or what was going on because

225

00:09:47,110 --> 00:09:45,380

the bone density was appeared to be that

226

00:09:47,700 --> 00:09:47,120

of like a six to eight year old child at

227

00:09:51,110 --> 00:09:47,710

that time there

228

00:09:54,720 --> 00:09:51,120

yes yeah and so us of all the just the

229

00:09:58,530 --> 00:09:54,730

huge massive mutations going on it made

230

00:10:01,350 --> 00:09:58,540

even the you know basic details you know

231

00:10:03,390 --> 00:10:01,360

very difficult to to conclude anything

232

00:10:04,350 --> 00:10:03,400

back when they were initially reporting

233

00:10:06,060 --> 00:10:04,360

findings or

234

00:10:08,360 --> 00:10:06,070

you know what their studies were

235

00:10:11,250 --> 00:10:08,370

revealed they said it was a male

236

00:10:14,040 --> 00:10:11,260

absolutely yeah and it's interesting

237

00:10:16,260 --> 00:10:14,050

because we did cover this on spacing out

238

00:10:20,010 --> 00:10:16,270

way back in the day when series was

239

00:10:22,050 --> 00:10:20,020

first about to be released right and you

240

00:10:24,900 --> 00:10:22,060

know I actually kind of went and

241

00:10:27,600 --> 00:10:24,910

rewatched a little bit of that the other

242

00:10:32,250 --> 00:10:27,610

week and you do yeah you call it a boy

243

00:10:35,280 --> 00:10:32,260

so but yeah so the female they found the

244

00:10:38,010 --> 00:10:35,290

white chromosome and went from there and

245

00:10:41,460 --> 00:10:38,020

the you know the the massive amount of

246

00:10:43,620 --> 00:10:41,470

mutations that this is basically this is

247

00:10:47,160 --> 00:10:43,630

an extremely incredible medical find

248

00:10:49,050 --> 00:10:47,170

yeah and hopefully this provides a lot

249

00:10:51,750 --> 00:10:49,060

of really valuable research into these

250

00:10:57,180 --> 00:10:51,760

types of disorders and we can understand

251  
00:10:59,670 --> 00:10:57,190  
this sort of diseases and in Auto

252  
00:11:01,560 --> 00:10:59,680  
currencies better yeah for sure

253  
00:11:04,050 --> 00:11:01,570  
I think it's highly valuable and like

254  
00:11:05,900 --> 00:11:04,060  
you said I mean I like with UFOs or

255  
00:11:08,250 --> 00:11:05,910  
anything else we encourage people to

256  
00:11:09,630 --> 00:11:08,260  
take the information do their own

257  
00:11:12,090 --> 00:11:09,640  
research they can make up their own

258  
00:11:13,620 --> 00:11:12,100  
minds are going to anyway but you don't

259  
00:11:14,580 --> 00:11:13,630  
have to believe Gary Nolan but look at

260  
00:11:15,840 --> 00:11:14,590  
his credentials and look at the

261  
00:11:17,970 --> 00:11:15,850  
credentials of the people who did the

262  
00:11:20,610 --> 00:11:17,980  
studies I think it's pretty valuable to

263  
00:11:21,990 --> 00:11:20,620

look at that absolutely it's now time

264

00:11:24,090 --> 00:11:22,000

for our interview with aviation

265

00:11:26,580 --> 00:11:24,100

journalist and editor of timings the war

266

00:11:28,860 --> 00:11:26,590

zone tyler rogue away tyler we've been

267

00:11:30,480 --> 00:11:28,870

wanting to talk with you for a while so

268

00:11:32,580 --> 00:11:30,490

we're really excited to have you on

269

00:11:35,310 --> 00:11:32,590

today welcome to the show hey good to be

270

00:11:38,370 --> 00:11:35,320

with you guys well you know specifically

271

00:11:39,930 --> 00:11:38,380

today i mean there are plenty of things

272

00:11:40,950 --> 00:11:39,940

to talk about for sure because some

273

00:11:44,100 --> 00:11:40,960

interesting things have been happening

274

00:11:46,620 --> 00:11:44,110

but specifically really want to get into

275

00:11:49,770 --> 00:11:46,630

this story that you wrote back in

276  
00:11:53,790 --> 00:11:49,780  
november about an incident that occurred

277  
00:11:55,410 --> 00:11:53,800  
on october twenty-fifth 2017 well then

278  
00:11:57,720 --> 00:11:55,420  
in northern california and oregon really

279  
00:12:00,410 --> 00:11:57,730  
and that was about this encounter this

280  
00:12:04,940 --> 00:12:00,420  
incident that occurred but

281  
00:12:09,080 --> 00:12:04,950  
commercial air traffic an unidentified

282  
00:12:11,570 --> 00:12:09,090  
object in the sky and the scrambling of

283  
00:12:13,490 --> 00:12:11,580  
fighter jets so we've discussed that a

284  
00:12:15,470 --> 00:12:13,500  
little bit on this show but if you

285  
00:12:18,940 --> 00:12:15,480  
wouldn't mind kind of give us an

286  
00:12:21,320 --> 00:12:18,950  
overview of what that incident was sure

287  
00:12:24,770 --> 00:12:21,330  
yeah so you know in the aft late

288  
00:12:27,170 --> 00:12:24,780

afternoon around 4 o'clock on the 25th

289

00:12:29,000 --> 00:12:27,180

of October it was good weather actually

290

00:12:32,570 --> 00:12:29,010

over the northwest which is rare yeah

291

00:12:35,420 --> 00:12:32,580

I'm here is beautiful and a air traffic

292

00:12:37,580 --> 00:12:35,430

controller from Oakland Center saw on

293

00:12:40,130 --> 00:12:37,590

his radar scope an intruder which means

294

00:12:41,930 --> 00:12:40,140

that it doesn't have any it's you know

295

00:12:43,490 --> 00:12:41,940

not squat well it it potentially

296

00:12:46,190 --> 00:12:43,500

squawked a code meaning it's sent out

297

00:12:47,570 --> 00:12:46,200

trans pounder code for a moment but you

298

00:12:50,540 --> 00:12:47,580

know it's tough to tell with other

299

00:12:53,000 --> 00:12:50,550

traffic but that was confusion or what

300

00:12:55,850 --> 00:12:53,010

we're still up in the air about that but

301  
00:12:57,560 --> 00:12:55,860  
this thing was moving really fast and we

302  
00:12:59,180 --> 00:12:57,570  
have all the tapes now the controllers

303  
00:13:01,700 --> 00:12:59,190  
talking and the you know everything else

304  
00:13:03,080 --> 00:13:01,710  
and you can tell this was like something

305  
00:13:05,060 --> 00:13:03,090  
they hadn't seen before

306  
00:13:06,710 --> 00:13:05,070  
especially over you know Oakland Center

307  
00:13:09,350 --> 00:13:06,720  
controls a massive amount of airspace

308  
00:13:10,730 --> 00:13:09,360  
and they got military operating areas

309  
00:13:12,470 --> 00:13:10,740  
and everything else they deal with and

310  
00:13:15,020 --> 00:13:12,480  
you know transient traffic so they see a

311  
00:13:16,730 --> 00:13:15,030  
lot of stuff you know so it's

312  
00:13:18,830 --> 00:13:16,740  
interesting the response was strange but

313  
00:13:21,650 --> 00:13:18,840

eventually this thing was heading on a

314

00:13:23,690 --> 00:13:21,660

southern route at very high speed over

315

00:13:26,930 --> 00:13:23,700

Northern California took a very hard

316

00:13:29,420 --> 00:13:26,940

left turn to the north and then it

317

00:13:31,510 --> 00:13:29,430

disappeared totally went off radar it

318

00:13:34,520 --> 00:13:31,520

was not sending out any transponder

319

00:13:36,980 --> 00:13:34,530

transmissions it was not talking to air

320

00:13:38,300 --> 00:13:36,990

traffic control so it was what they

321

00:13:41,360 --> 00:13:38,310

called Nord oh it didn't have any

322

00:13:44,000 --> 00:13:41,370

communications beyond just being a

323

00:13:45,740 --> 00:13:44,010

primary target at one period of time but

324

00:13:48,020 --> 00:13:45,750

after that it disappeared so now this

325

00:13:51,860 --> 00:13:48,030

thing was just gone and so that and that

326

00:13:53,570 --> 00:13:51,870

in of itself is weird right yeah I mean

327

00:13:55,310 --> 00:13:53,580

here's the deal and people you know

328

00:13:58,460 --> 00:13:55,320

think of radar as sort of like this

329

00:14:00,740 --> 00:13:58,470

monolithic you know system that can see

330

00:14:02,990 --> 00:14:00,750

everything it's very persistent and it

331

00:14:04,940 --> 00:14:03,000

isn't you know different things can

332

00:14:07,220 --> 00:14:04,950

happen in the atmosphere and you know

333

00:14:10,490 --> 00:14:07,230

the quality of actual system itself the

334

00:14:12,950 --> 00:14:10,500

angle to the target the Doppler effect a

335

00:14:16,730 --> 00:14:12,960

bunch of different things can go into

336

00:14:18,830 --> 00:14:16,740

how an object appears on radar right so

337

00:14:20,480 --> 00:14:18,840

but the problem is is that happens

338

00:14:22,460 --> 00:14:20,490

transiently that that's it that's a

339

00:14:24,200 --> 00:14:22,470

moment in time where something will

340

00:14:25,670 --> 00:14:24,210

disappear because of its angle or

341

00:14:27,830 --> 00:14:25,680

because the atmosphericics you know

342

00:14:30,950 --> 00:14:27,840

scenario whatever and then it reappears

343

00:14:33,530 --> 00:14:30,960

moments later ya know so so at this

344

00:14:37,460 --> 00:14:33,540

point in the story this is already an

345

00:14:39,680 --> 00:14:37,470

interesting incident oh yeah yeah you go

346

00:14:42,380 --> 00:14:39,690

to my website adhere controllers and

347

00:14:44,420 --> 00:14:42,390

they're like wow okay you know they're

348

00:14:46,460 --> 00:14:44,430

there they don't you can tell that they

349

00:14:50,270 --> 00:14:46,470

have not dealt with this a lot yes

350

00:14:52,250 --> 00:14:50,280

something that's fairly new and so yeah

351  
00:14:54,230 --> 00:14:52,260  
it event eventually you know they they

352  
00:14:55,940 --> 00:14:54,240  
got the idea you can tell that this

353  
00:14:59,000 --> 00:14:55,950  
thing merged with air kind of air

354  
00:15:00,500 --> 00:14:59,010  
traffic and Northern California up to

355  
00:15:02,360 --> 00:15:00,510  
Seattle there's kind of a corridor that

356  
00:15:03,890 --> 00:15:02,370  
goes down the Willamette Valley and

357  
00:15:06,920 --> 00:15:03,900  
there's a lot of air traffic going back

358  
00:15:08,300 --> 00:15:06,930  
and forth that's a big air transport

359  
00:15:09,770 --> 00:15:08,310  
corridor so there's a lot of stuff going

360  
00:15:12,950 --> 00:15:09,780  
on up there

361  
00:15:15,140 --> 00:15:12,960  
and then we get into the scenario where

362  
00:15:19,010 --> 00:15:15,150  
kind of around the border there of

363  
00:15:21,950 --> 00:15:19,020

Southern Oregon around Crater Lake the

364

00:15:25,190 --> 00:15:21,960

air traffic controllers start asking

365

00:15:27,740 --> 00:15:25,200

pilots hey do you see something off

366

00:15:30,590 --> 00:15:27,750

you're you know eleven o'clock you're

367

00:15:32,720 --> 00:15:30,600

two o'clock because we kind of and you

368

00:15:35,090 --> 00:15:32,730

know had a target for a moment or you

369

00:15:37,100 --> 00:15:35,100

know we can't see it now but maybe it's

370

00:15:39,320 --> 00:15:37,110

airspace pilots don't get that a lot so

371

00:15:41,600 --> 00:15:39,330

then I'm kind of you know weirded out by

372

00:15:43,370 --> 00:15:41,610

it a little bit themselves but they all

373

00:15:45,170 --> 00:15:43,380

there's about three aircraft that

374

00:15:47,060 --> 00:15:45,180

reported seeing it and not just for a

375

00:15:49,700 --> 00:15:47,070

moment you know Oh flash by us or

376

00:15:52,250 --> 00:15:49,710

something like that this went on for we

377

00:15:55,280 --> 00:15:52,260

have at least 30 40 minutes a tape of

378

00:15:58,070 --> 00:15:55,290

this occurring and it went pretty much

379

00:16:00,680 --> 00:15:58,080

up the wall I'm at Valley and then those

380

00:16:04,190 --> 00:16:00,690

airliners that were watching it and they

381

00:16:07,640 --> 00:16:04,200

couldn't make out what it was that

382

00:16:09,200 --> 00:16:07,650

couldn't tell if it was what airline or

383

00:16:12,020 --> 00:16:09,210

you know anything like that no defining

384

00:16:16,820 --> 00:16:12,030

features aside from being white hmm in

385

00:16:19,340 --> 00:16:16,830

in color or in tone and you know one of

386

00:16:21,920 --> 00:16:19,350

the pilots in the we actually FOIA at

387

00:16:24,740 --> 00:16:21,930

Fort Freedom of Information Act quest we

388

00:16:26,450 --> 00:16:24,750

got a bunch of information including the

389

00:16:26,780 --> 00:16:26,460

telephone according to the interviews

390

00:16:34,370 --> 00:16:26,790

the

391

00:16:37,010 --> 00:16:34,380

of it he said who's asked you know was

392

00:16:38,660 --> 00:16:37,020

it small was a big what was it they said

393

00:16:42,890 --> 00:16:38,670

this was no Learjet this was a big

394

00:16:45,350 --> 00:16:42,900

aircraft that we are looking at as far

395

00:16:47,990 --> 00:16:45,360

as what type nobody can make it out it

396

00:16:50,600 --> 00:16:48,000

was just a large from what we can tell

397

00:16:53,810 --> 00:16:50,610

from all this information it was just a

398

00:16:55,820 --> 00:16:53,820

large dot or speck out there that was

399

00:16:57,530 --> 00:16:55,830

white in nature so eventually these

400

00:17:01,040 --> 00:16:57,540

airplanes that were kind of watching

401  
00:17:03,230 --> 00:17:01,050  
this thing descended into Portland OR

402  
00:17:05,090 --> 00:17:03,240  
went on to a different direction so they

403  
00:17:08,060 --> 00:17:05,100  
lost sight of it and the sunset Sun was

404  
00:17:10,940 --> 00:17:08,070  
going down at this time and right in

405  
00:17:13,490 --> 00:17:10,950  
that kind of that moment was when the

406  
00:17:16,190 --> 00:17:13,500  
f-15s out of Portland were scrambled to

407  
00:17:17,960 --> 00:17:16,200  
look for this aircraft or this object or

408  
00:17:21,620 --> 00:17:17,970  
whatever this thing was and what did

409  
00:17:23,360 --> 00:17:21,630  
they find you know the you know very

410  
00:17:25,010 --> 00:17:23,370  
advanced aircraft now their new radar

411  
00:17:27,350 --> 00:17:25,020  
systems and electro-optical targeting

412  
00:17:29,780 --> 00:17:27,360  
system so they're good and they trained

413  
00:17:32,800 --> 00:17:29,790

constantly on this exact mission you

414

00:17:35,600 --> 00:17:32,810

know going out and fine identifying

415

00:17:39,380 --> 00:17:35,610

aircraft for the noble eagle or a coma

416

00:17:40,760 --> 00:17:39,390

and defense type mission so and in the

417

00:17:42,530 --> 00:17:40,770

tapes that we got to which is so

418

00:17:44,510 --> 00:17:42,540

interesting it's an unprecedented view

419

00:17:47,020 --> 00:17:44,520

and this sort of the back end of what

420

00:17:49,130 --> 00:17:47,030

happens when something like this occurs

421

00:17:50,900 --> 00:17:49,140

we get a lot of talk between the

422

00:17:53,540 --> 00:17:50,910

military the western air defense sector

423

00:17:58,130 --> 00:17:53,550

that controls that airspace it's part of

424

00:18:01,910 --> 00:17:58,140

NORAD and the FAA and you know it took a

425

00:18:03,470 --> 00:18:01,920

while for them to get those f-15s up and

426  
00:18:05,390 --> 00:18:03,480  
even when they went after they went up

427  
00:18:06,920 --> 00:18:05,400  
and it was all done and said there was

428  
00:18:08,540 --> 00:18:06,930  
also a lot of confusion of who actually

429  
00:18:10,460 --> 00:18:08,550  
ordered the scramble so there's a lot of

430  
00:18:12,350 --> 00:18:10,470  
stuff going on in this that we found out

431  
00:18:14,270 --> 00:18:12,360  
you know since the story were first

432  
00:18:18,290 --> 00:18:14,280  
developed but the bottom line for your

433  
00:18:21,830 --> 00:18:18,300  
for your viewers is that even with all

434  
00:18:24,790 --> 00:18:21,840  
this information that we have we still

435  
00:18:27,770 --> 00:18:24,800  
don't know what this was we have no clue

436  
00:18:29,480 --> 00:18:27,780  
it was moving faster than the airline

437  
00:18:31,610 --> 00:18:29,490  
traffic around it it doesn't mean that

438  
00:18:35,090 --> 00:18:31,620

was going Mach five or something it was

439

00:18:39,650 --> 00:18:35,100

but it was outpacing the 737 that were

440

00:18:40,250 --> 00:18:39,660

traveling up in crews so we know it was

441

00:18:42,620 --> 00:18:40,260

had

442

00:18:45,320 --> 00:18:42,630

good performance whatever it was we know

443

00:18:48,950 --> 00:18:45,330

it was large and we know it was white in

444

00:18:51,230 --> 00:18:48,960

color and that's all we know and you did

445

00:18:53,750 --> 00:18:51,240

such a great job with the FOIA requests

446

00:18:55,820 --> 00:18:53,760

and you know obtaining these audio

447

00:18:58,730 --> 00:18:55,830

recordings and I'm sure some people a

448

00:19:01,039 --> 00:18:58,740

lot of people probably listening to that

449

00:19:02,269 --> 00:19:01,049

would be a little bored but I don't know

450

00:19:05,480 --> 00:19:02,279

about you but that is some of the most

451

00:19:07,580 --> 00:19:05,490

thrilling audio to listen to just

452

00:19:10,370 --> 00:19:07,590

hearing this all unfold and from many

453

00:19:12,639 --> 00:19:10,380

different angles - oh it totally is and

454

00:19:14,659 --> 00:19:12,649

and you know I'm not a I don't report on

455

00:19:17,090 --> 00:19:14,669

unidentified flying objects you know I'm

456

00:19:19,970 --> 00:19:17,100

a defense reporter right so I'm in this

457

00:19:21,980 --> 00:19:19,980

for a different reason I I you know I I

458

00:19:24,440 --> 00:19:21,990

don't think anybody in aerospace or

459

00:19:27,440 --> 00:19:24,450

defense if they told you oh I know

460

00:19:30,110 --> 00:19:27,450

interest in the you know UFO kind of

461

00:19:32,120 --> 00:19:30,120

history and lore I could never believe

462

00:19:34,310 --> 00:19:32,130

that because you know that's obviously

463

00:19:36,169 --> 00:19:34,320

intriguing for anybody that loves flight

464

00:19:38,570 --> 00:19:36,179

or any you know spaceflight or anything

465

00:19:40,039 --> 00:19:38,580

like that but with this particular deal

466

00:19:43,870 --> 00:19:40,049

is so interesting because we have really

467

00:19:47,360 --> 00:19:43,880

hard evidence and we have you know

468

00:19:49,580 --> 00:19:47,370

pilots trained people radar operators

469

00:19:50,870 --> 00:19:49,590

western air defense sector all trying to

470

00:19:53,509 --> 00:19:50,880

look for this and try to figure out what

471

00:19:57,409 --> 00:19:53,519

this thing is and towards the end of all

472

00:19:59,990 --> 00:19:57,419

this you know couple hours of audio that

473

00:20:01,580 --> 00:20:00,000

we got we actually have the conversation

474

00:20:03,680 --> 00:20:01,590

between the Seattle Center air traffic

475

00:20:05,899 --> 00:20:03,690

control manager and the quality

476  
00:20:10,039 --> 00:20:05,909  
assurance department at the FAA like the

477  
00:20:11,629 --> 00:20:10,049  
phone call and I you can tell from these

478  
00:20:13,730 --> 00:20:11,639  
people that the quality assurance group

479  
00:20:15,409 --> 00:20:13,740  
that they get any crazy thing that

480  
00:20:17,000 --> 00:20:15,419  
happens weird thing every day that

481  
00:20:20,149 --> 00:20:17,010  
happens in the airspace they hear about

482  
00:20:22,070 --> 00:20:20,159  
it mm-hmm okay that's our job and even

483  
00:20:24,289 --> 00:20:22,080  
they don't know how to deal with this

484  
00:20:29,779 --> 00:20:24,299  
right that was shocking you know and

485  
00:20:31,970 --> 00:20:29,789  
yeah it's not like unidentified objects

486  
00:20:33,740 --> 00:20:31,980  
aren't common they they are common and

487  
00:20:36,649 --> 00:20:33,750  
pilots report these things quite

488  
00:20:40,220 --> 00:20:36,659

frequently but an incident like this

489

00:20:43,070 --> 00:20:40,230

with multiple in air sightings and

490

00:20:46,250 --> 00:20:43,080

conversations with the ground made it

491

00:20:48,049 --> 00:20:46,260

kind of a more special incident and you

492

00:20:50,620 --> 00:20:48,059

you you said it exactly right I mean

493

00:20:53,590 --> 00:20:50,630

it's it's kind of surprising and

494

00:20:56,170 --> 00:20:53,600

and shocking how unprepared it seemed

495

00:20:59,170 --> 00:20:56,180

that people were with the procedures and

496

00:21:02,290 --> 00:20:59,180

how to deal with this yeah that that's

497

00:21:04,150 --> 00:21:02,300

my takeaway - you know I just

498

00:21:05,830 --> 00:21:04,160

considering that like I say a lot of

499

00:21:08,470 --> 00:21:05,840

stuff happens in the everyday you know

500

00:21:10,570 --> 00:21:08,480

outside of like any sort of sightings or

501  
00:21:13,150 --> 00:21:10,580  
anything just weird crap happens you

502  
00:21:15,280 --> 00:21:13,160  
know pilots get lost and they end up in

503  
00:21:16,780 --> 00:21:15,290  
military operating areas it's a they

504  
00:21:18,760 --> 00:21:16,790  
have to scramble fighters and Air Force

505  
00:21:20,200 --> 00:21:18,770  
One or the Air Force ones on the ground

506  
00:21:22,450 --> 00:21:20,210  
somewhere there's a you know airplane

507  
00:21:26,140 --> 00:21:22,460  
strays so we have all these things that

508  
00:21:27,550 --> 00:21:26,150  
happen on a daily basis but they kept

509  
00:21:29,410 --> 00:21:27,560  
saying and they were they were thinking

510  
00:21:31,120 --> 00:21:29,420  
oh I'm being recorded here this is just

511  
00:21:33,130 --> 00:21:31,130  
normal conversations that we had a FOIA

512  
00:21:36,190 --> 00:21:33,140  
and get the recordings of you know this

513  
00:21:40,150 --> 00:21:36,200

is a phone not radio not on the open

514

00:21:41,590 --> 00:21:40,160

source at the time so you know yeah they

515

00:21:45,100 --> 00:21:41,600

were really you can tell that this was a

516

00:21:47,440 --> 00:21:45,110

very unique event and the level of

517

00:21:51,880 --> 00:21:47,450

detail and the length that it occurred

518

00:21:53,110 --> 00:21:51,890

over were like I say unique and so

519

00:21:54,550 --> 00:21:53,120

that's why we kind of followed it

520

00:21:57,370 --> 00:21:54,560

through to the point where it is today

521

00:21:59,740 --> 00:21:57,380

but even after all you know all of this

522

00:22:03,370 --> 00:21:59,750

work that we put into it and and kind of

523

00:22:05,320 --> 00:22:03,380

you know looking deeper usually there's

524

00:22:07,270 --> 00:22:05,330

an explanation right you can say listen

525

00:22:09,610 --> 00:22:07,280

this is what I do for a living I debunk

526

00:22:11,110 --> 00:22:09,620

stuff you know you say you know listen

527

00:22:13,000 --> 00:22:11,120

you guys don't understand the military

528

00:22:15,910 --> 00:22:13,010

operates in this area this and that I

529

00:22:17,050 --> 00:22:15,920

mean there's a couple things a smuggler

530

00:22:18,910 --> 00:22:17,060

you know but you're not gonna really

531

00:22:20,470 --> 00:22:18,920

have an airplane disappear on radar for

532

00:22:23,230 --> 00:22:20,480

that period of time if it's the Learjet

533

00:22:24,940 --> 00:22:23,240

that's stolen okay so that doesn't make

534

00:22:28,120 --> 00:22:24,950

any sense really now that we what we

535

00:22:30,120 --> 00:22:28,130

know at the time maybe possibly you know

536

00:22:32,830 --> 00:22:30,130

somebody going up to Canada or whatever

537

00:22:35,200 --> 00:22:32,840

but you know that doesn't really sound a

538

00:22:36,730 --> 00:22:35,210

good match the only thing that you know

539

00:22:38,890 --> 00:22:36,740

people ask me like what what do you

540

00:22:41,860 --> 00:22:38,900

think it is and I said well on the

541

00:22:45,240 --> 00:22:41,870

spectrum of what's out there we do know

542

00:22:47,500 --> 00:22:45,250

that unmanned systems are being tested

543

00:22:51,190 --> 00:22:47,510

you know we've seen quite a few of them

544

00:22:56,050 --> 00:22:51,200

already the higher end of it is they're

545

00:22:58,480 --> 00:22:56,060

stealthy flying wings that allow that

546

00:23:00,220 --> 00:22:58,490

you know the penetrate into any enemy

547

00:23:03,790 --> 00:23:00,230

airspace undetected for periods of time

548

00:23:04,450 --> 00:23:03,800

and surveil over enemy airspace this is

549

00:23:07,150 --> 00:23:04,460

an operational

550

00:23:09,160 --> 00:23:07,160

ability to rq-170 it will fell right

551  
00:23:12,040 --> 00:23:09,170  
through the Iranians hands in 2011 we

552  
00:23:14,740 --> 00:23:12,050  
all saw those images yeah you know that

553  
00:23:16,660 --> 00:23:14,750  
that may be straight off a range in

554  
00:23:18,880 --> 00:23:16,670  
Northern Nevada the Fallon ranges are

555  
00:23:21,280 --> 00:23:18,890  
there it's actually happened before like

556  
00:23:23,560 --> 00:23:21,290  
I say they're raining incident but you

557  
00:23:25,900 --> 00:23:23,570  
know it has to end up somewhere right

558  
00:23:27,610 --> 00:23:25,910  
yeah so with that that's kind of a

559  
00:23:29,290 --> 00:23:27,620  
missing link as well and you know then

560  
00:23:30,940 --> 00:23:29,300  
people say oh it's a secret airplane

561  
00:23:32,980 --> 00:23:30,950  
that they're moving from area 51 well

562  
00:23:35,220 --> 00:23:32,990  
that's not how they do it they don't

563  
00:23:38,890 --> 00:23:35,230

they don't go in broad daylight and

564

00:23:41,860 --> 00:23:38,900

streak out all the FAA have the military

565

00:23:43,630 --> 00:23:41,870

scramble jets after them you know it

566

00:23:45,640 --> 00:23:43,640

makes no sense for them and that's

567

00:23:48,250 --> 00:23:45,650

historically they have never done

568

00:23:50,380 --> 00:23:48,260

anything like that then move a secretive

569

00:23:52,570 --> 00:23:50,390

asset they just call it a Gulfstream

570

00:23:56,020 --> 00:23:52,580

five and do it at night nobody knows the

571

00:23:58,630 --> 00:23:56,030

difference right so so we really don't

572

00:24:01,720 --> 00:23:58,640

know what what the deal is there mystery

573

00:24:02,950 --> 00:24:01,730

unsolved I mean we heard them say that

574

00:24:05,950 --> 00:24:02,960

you know somebody's gonna go through

575

00:24:07,180 --> 00:24:05,960

this with a fine-tooth comb for sure do

576

00:24:09,940 --> 00:24:07,190

you think we'll hear any more do you

577

00:24:11,410 --> 00:24:09,950

think we've heard all that will be

578

00:24:14,410 --> 00:24:11,420

allowed to be released about whatever

579

00:24:16,030 --> 00:24:14,420

happened well you know the weird thing

580

00:24:18,010 --> 00:24:16,040

with these stories what I found out just

581

00:24:19,510 --> 00:24:18,020

in my time doing this sort of thing is

582

00:24:22,750 --> 00:24:19,520

they kind of have a life of their own

583

00:24:24,790 --> 00:24:22,760

and usually they'll sit you know for a

584

00:24:26,950 --> 00:24:24,800

period of time and then maybe somebody

585

00:24:29,230 --> 00:24:26,960

that was involved at the time that had

586

00:24:31,210 --> 00:24:29,240

retired or whatever's today I was there

587

00:24:33,670 --> 00:24:31,220

this was the rumor I heard you know or

588

00:24:36,220 --> 00:24:33,680

you know we actually looked into this

589

00:24:38,470 --> 00:24:36,230

farther and you know more and you should

590

00:24:42,370 --> 00:24:38,480

maybe look in this direction so I can't

591

00:24:44,230 --> 00:24:42,380

say that it you know it's done we

592

00:24:46,840 --> 00:24:44,240

definitely try to get what we could out

593

00:24:48,820 --> 00:24:46,850

of the FAA you can tell there's it

594

00:24:50,890 --> 00:24:48,830

seemed like they didn't have much more

595

00:24:53,040 --> 00:24:50,900

to report yeah they interviewed the

596

00:24:55,810 --> 00:24:53,050

pilots I mean what else are you gonna do

597

00:25:00,060 --> 00:24:55,820

but we've got to remember this we don't

598

00:25:03,760 --> 00:25:00,070

have access to NORAD's

599

00:25:06,550 --> 00:25:03,770

information they're not you can't fly

600

00:25:08,140 --> 00:25:06,560

yet NORAD it's except yeah so you know

601  
00:25:09,880 --> 00:25:08,150  
maybe they haven't a better intelligence

602  
00:25:11,200 --> 00:25:09,890  
assessment on what happened that we

603  
00:25:14,290 --> 00:25:11,210  
don't know about but that's just

604  
00:25:16,540 --> 00:25:14,300  
speculation yeah well something you did

605  
00:25:17,770 --> 00:25:16,550  
really well I thought in your story

606  
00:25:19,539 --> 00:25:17,780  
about this was

607  
00:25:21,820 --> 00:25:19,549  
you know being a being a responsible

608  
00:25:25,150 --> 00:25:21,830  
journalist and you know putting out

609  
00:25:27,909 --> 00:25:25,160  
suggesting the the possible explanations

610  
00:25:29,799 --> 00:25:27,919  
for what this thing was and then based

611  
00:25:31,720 --> 00:25:29,809  
on your experience and and various

612  
00:25:35,080 --> 00:25:31,730  
reasons why those were unlikely

613  
00:25:37,240 --> 00:25:35,090

explanations yeah I think you know like

614

00:25:39,159 --> 00:25:37,250

I said I try to debunking it I can and

615

00:25:42,490 --> 00:25:39,169

there's no good fit you know there's no

616

00:25:44,860 --> 00:25:42,500

good fit there's no good fit and so I

617

00:25:46,120 --> 00:25:44,870

think putting that forward and you know

618

00:25:47,830 --> 00:25:46,130

everybody's gonna read this and think

619

00:25:49,600 --> 00:25:47,840

UFO I mean they're not you know I'm

620

00:25:50,980 --> 00:25:49,610

saying it's murder culture so right you

621

00:25:53,440 --> 00:25:50,990

don't have to go out and say that put it

622

00:25:56,950 --> 00:25:53,450

in people's faces now what did change

623

00:25:59,350 --> 00:25:56,960

was we we published this on like I think

624

00:26:02,350 --> 00:25:59,360

November 13th or 15th or something like

625

00:26:04,330 --> 00:26:02,360

that I you know a month later we get the

626  
00:26:05,950 --> 00:26:04,340  
threat assessment that broke from the

627  
00:26:07,899 --> 00:26:05,960  
Pentagon that they've been looking at

628  
00:26:10,659 --> 00:26:07,909  
this and that they have videotapes yeah

629  
00:26:12,880 --> 00:26:10,669  
of you know the f-18s dough down off the

630  
00:26:15,730 --> 00:26:12,890  
Baja coast that saw that flying tic-tac

631  
00:26:18,720 --> 00:26:15,740  
thing and you know we know that there's

632  
00:26:22,720 --> 00:26:18,730  
been a program ongoing that's not

633  
00:26:24,580 --> 00:26:22,730  
necessarily about exploitation of any

634  
00:26:27,100 --> 00:26:24,590  
you know there's the claim isn't super

635  
00:26:30,549 --> 00:26:27,110  
high it's more of a threat assessment

636  
00:26:32,320 --> 00:26:30,559  
right so my that that kind of changed

637  
00:26:34,720 --> 00:26:32,330  
the story totally and being much more

638  
00:26:36,789 --> 00:26:34,730

plausible to have a more open mind about

639

00:26:38,620 --> 00:26:36,799

what this could have been but also that

640

00:26:40,539 --> 00:26:38,630

maybe that the Defense Department did

641

00:26:41,710 --> 00:26:40,549

look into this more than then we know

642

00:26:43,750 --> 00:26:41,720

right

643

00:26:45,669 --> 00:26:43,760

and that's still another story that's

644

00:26:47,529 --> 00:26:45,679

gonna be ongoing you know the the threat

645

00:26:48,909 --> 00:26:47,539

assessment thing we still don't know

646

00:26:51,970 --> 00:26:48,919

everything about really what that

647

00:26:53,470 --> 00:26:51,980

program was right you know a lot yeah

648

00:26:56,590 --> 00:26:53,480

but we don't know where it went

649

00:26:59,020 --> 00:26:56,600

you know supposedly shut down and we get

650

00:27:02,140 --> 00:26:59,030

multiple reports now that it didn't and

651  
00:27:04,330 --> 00:27:02,150  
for me as a as a defense guy I mean that

652  
00:27:08,169 --> 00:27:04,340  
is you know regardless of where the

653  
00:27:10,779 --> 00:27:08,179  
origin a thing comes from if it's deemed

654  
00:27:12,460 --> 00:27:10,789  
a threat or needs to be looked at and

655  
00:27:15,850 --> 00:27:12,470  
examined in that way you know it's

656  
00:27:17,590 --> 00:27:15,860  
relevant so it changed it changed the

657  
00:27:21,190 --> 00:27:17,600  
story quite a bit when that came out

658  
00:27:23,909 --> 00:27:21,200  
yeah yeah and you did you did the same

659  
00:27:26,620 --> 00:27:23,919  
thing to with your your story about the

660  
00:27:29,890 --> 00:27:26,630  
the Learjet and the the Airbus over

661  
00:27:31,080 --> 00:27:29,900  
southern Arizona right February 24th

662  
00:27:33,419 --> 00:27:31,090  
that incident

663  
00:27:35,100 --> 00:27:33,429

you know suggesting possible well I

664

00:27:37,200 --> 00:27:35,110

guess they did write the the pilots

665

00:27:41,370 --> 00:27:37,210

themselves suggested or asked if it

666

00:27:44,039 --> 00:27:41,380

could be a Google loon balloon yeah

667

00:27:47,039 --> 00:27:44,049

yeah they were I mean there was multiple

668

00:27:49,680 --> 00:27:47,049

guys on that channel pilots and somebody

669

00:27:51,149 --> 00:27:49,690

kept saying UFO right it was funny yeah

670

00:27:53,580 --> 00:27:51,159

the thing with the radio traffic we

671

00:27:55,169 --> 00:27:53,590

don't know exactly who's talking at what

672

00:27:57,720 --> 00:27:55,179

time you can kind of tell by their calls

673

00:28:00,860 --> 00:27:57,730

you know and their IDs and you try to

674

00:28:03,870 --> 00:28:00,870

extrapolate but there's a lot of kind of

675

00:28:07,140 --> 00:28:03,880

let's put it on for Milan the frequency

676

00:28:12,180 --> 00:28:07,150

at that time so there's that was being

677

00:28:14,820 --> 00:28:12,190

suggested multiple times I can just tell

678

00:28:16,649 --> 00:28:14,830

you this on that story that people that

679

00:28:21,330 --> 00:28:16,659

are involved with it still are kind of

680

00:28:23,970 --> 00:28:21,340

weirded out by what they saw and you

681

00:28:26,100 --> 00:28:23,980

know with that particular deal oh I got

682

00:28:29,760 --> 00:28:26,110

that from a you know an anonymous source

683

00:28:31,830 --> 00:28:29,770

came to me with had heard that no while

684

00:28:34,950 --> 00:28:31,840

they were flying in the area a very good

685

00:28:36,480 --> 00:28:34,960

source and said hey this is so weird we

686

00:28:38,730 --> 00:28:36,490

couldn't listen to it for the whole time

687

00:28:42,720 --> 00:28:38,740

because we were transiting out of that

688

00:28:44,430 --> 00:28:42,730

radio range but you should jump in and

689

00:28:47,789 --> 00:28:44,440

if you can maybe see what if what the

690

00:28:48,210 --> 00:28:47,799

deal was there yeah and you know FAA was

691

00:28:50,370 --> 00:28:48,220

great

692

00:28:52,380 --> 00:28:50,380

Ill called Albuquerque Center and they

693

00:28:53,850 --> 00:28:52,390

have a there guy there was fantastic in

694

00:28:56,100 --> 00:28:53,860

fact we didn't have to go through FOIA

695

00:28:59,610 --> 00:28:56,110

for that he just released the tapes he's

696

00:29:02,909 --> 00:28:59,620

like hey you know this happened but at

697

00:29:06,270 --> 00:29:02,919

the time the the operations manager can

698

00:29:09,180 --> 00:29:06,280

even know about it so that was kind of

699

00:29:12,090 --> 00:29:09,190

odd because you got an object in the

700

00:29:13,500 --> 00:29:12,100

flight levels that could you know you're

701  
00:29:14,549 --> 00:29:13,510  
talking about even if it's standing

702  
00:29:16,440 --> 00:29:14,559  
still up there

703  
00:29:18,750 --> 00:29:16,450  
that's a closure rate of five hundred

704  
00:29:22,890 --> 00:29:18,760  
miles an hour for an aircraft you know

705  
00:29:24,240 --> 00:29:22,900  
it could do extreme damage you think

706  
00:29:27,750 --> 00:29:24,250  
that there would be some sort of report

707  
00:29:29,520 --> 00:29:27,760  
that that thing was seen right from what

708  
00:29:31,409 --> 00:29:29,530  
we we could tell there isn't now we're

709  
00:29:34,770 --> 00:29:31,419  
looking we're doing a FOIA request on

710  
00:29:37,890 --> 00:29:34,780  
that as well but but yeah two pilots saw

711  
00:29:40,529 --> 00:29:37,900  
it the Learjet was heading you know it

712  
00:29:42,960 --> 00:29:40,539  
was heading east over kind of just south

713  
00:29:44,850 --> 00:29:42,970

of Tucson or - excuse me Phoenix there

714

00:29:46,620 --> 00:29:44,860

between the

715

00:29:50,370 --> 00:29:46,630

Phoenix and kind of the border of New

716

00:29:53,610 --> 00:29:50,380

Mexico you know it's there up at 37,000

717

00:29:56,820 --> 00:29:53,620

feet and there's actually an agressor

718

00:29:59,940 --> 00:29:56,830

Learjet that they do Phoenix there they

719

00:30:01,440 --> 00:29:59,950

do a lot of work with the military and

720

00:30:04,200 --> 00:30:01,450

track that's their primary contract

721

00:30:07,049 --> 00:30:04,210

there they fly as missiles simulate

722

00:30:09,720 --> 00:30:07,059

missile attack runs on ships okay so the

723

00:30:11,310 --> 00:30:09,730

pilots these guys have seen everything I

724

00:30:13,260 --> 00:30:11,320

mean they're not just your standard

725

00:30:15,950 --> 00:30:13,270

airline pilot that's been busting around

726

00:30:20,430 --> 00:30:15,960

people these guys have do very

727

00:30:23,580 --> 00:30:20,440

unstandardized in for the military in in

728

00:30:26,460 --> 00:30:23,590

restricted ranges working in sensitive

729

00:30:29,370 --> 00:30:26,470

the sensitive technologies etc so this

730

00:30:31,020 --> 00:30:29,380

isn't just you know some guy that came

731

00:30:35,220 --> 00:30:31,030

at a fight at school and is flying you

732

00:30:37,470 --> 00:30:35,230

know a you know a right seat in a q400

733

00:30:42,230 --> 00:30:37,480

prop plane or something this is a unique

734

00:30:44,760 --> 00:30:42,240

set of individuals in this aircraft and

735

00:30:47,789 --> 00:30:44,770

you know they saw this thing pass over

736

00:30:50,100 --> 00:30:47,799

them that was you know like that

737

00:30:53,250 --> 00:30:50,110

high-speed a couple thousand feet above

738

00:30:54,240 --> 00:30:53,260

them and it was odd-looking

739

00:30:57,480 --> 00:30:54,250

you know we don't know the exact

740

00:31:00,390 --> 00:30:57,490

description but you know he couldn't put

741

00:31:02,039 --> 00:31:00,400

an ID an ID on it now you're a pilot you

742

00:31:05,340 --> 00:31:02,049

see a big just a round object that's

743

00:31:07,380 --> 00:31:05,350

kind of clear or has you know has some

744

00:31:09,000 --> 00:31:07,390

reflection to it I think you just say ah

745

00:31:10,770 --> 00:31:09,010

you know it's probably a weather balloon

746

00:31:13,590 --> 00:31:10,780

it really is and they do get launched

747

00:31:16,020 --> 00:31:13,600

every day I know they're up there they

748

00:31:19,289 --> 00:31:16,030

have to ascend all the way up and then

749

00:31:22,710 --> 00:31:19,299

they fall so you know they carry you

750

00:31:24,930 --> 00:31:22,720

know small payloads so and they don't

751

00:31:26,250 --> 00:31:24,940

have they're not trapped a lot of the

752

00:31:30,030 --> 00:31:26,260

time you know if they're under certain

753

00:31:32,909 --> 00:31:30,040

weight they don't need to be didn't seem

754

00:31:34,950 --> 00:31:32,919

like that was it yeah yeah you know and

755

00:31:37,080 --> 00:31:34,960

then the air traffic controller who is

756

00:31:40,620 --> 00:31:37,090

just cold as ice during this whole

757

00:31:44,039 --> 00:31:40,630

period of time he had another an

758

00:31:48,570 --> 00:31:44,049

airliner built you know I believe his

759

00:31:50,370 --> 00:31:48,580

American Airlines both behind him say

760

00:31:52,650 --> 00:31:50,380

hey this thing kind of doing the same

761

00:31:54,919 --> 00:31:52,660

course this thing was spotted keep an

762

00:31:57,960 --> 00:31:54,929

eye out and it flew right over the top

763

00:31:59,490 --> 00:31:57,970

and on that second time you know there

764

00:32:01,410 --> 00:31:59,500

a lot more conversation about what it

765

00:32:03,960 --> 00:32:01,420

maybe was and you mentioned the somebody

766

00:32:06,150 --> 00:32:03,970

mentioned at google blue and immediately

767

00:32:09,720 --> 00:32:06,160

said yeah now that wasn't it yeah you

768

00:32:11,700 --> 00:32:09,730

know now the military super active in

769

00:32:14,400 --> 00:32:11,710

that area super active yeah there you

770

00:32:16,650 --> 00:32:14,410

have white sands to the east you have

771

00:32:19,950 --> 00:32:16,660

tons of military operating areas in

772

00:32:21,480 --> 00:32:19,960

southern Arizona well like I say wow you

773

00:32:23,430 --> 00:32:21,490

know middle of the day you're doing that

774

00:32:24,140 --> 00:32:23,440

at 40,000 feet it doesn't make a lot of

775

00:32:28,170 --> 00:32:24,150

sense to me

776

00:32:30,360 --> 00:32:28,180

yeah and on that topic I mean you

777

00:32:33,660 --> 00:32:30,370

specialize in military and aviation you

778

00:32:35,820 --> 00:32:33,670

know just how many different projects

779

00:32:37,590 --> 00:32:35,830

and military is is working on that did

780

00:32:39,450 --> 00:32:37,600

we even know about and others that have

781

00:32:42,780 --> 00:32:39,460

been rumored just so many of these

782

00:32:44,340 --> 00:32:42,790

drones these unmanned drones that exist

783

00:32:46,310 --> 00:32:44,350

that we're not used to seeing because

784

00:32:48,090 --> 00:32:46,320

they haven't been released publicly

785

00:32:49,740 --> 00:32:48,100

pilots probably aren't used to seeing

786

00:32:52,560 --> 00:32:49,750

them because they're not something they

787

00:32:55,140 --> 00:32:52,570

would ordinarily on a regular day during

788

00:32:57,330 --> 00:32:55,150

their their normal course of flying so

789

00:32:59,940 --> 00:32:57,340

they're the skies are filled with all

790

00:33:02,310 --> 00:32:59,950

sorts of things that you know look

791

00:33:06,420 --> 00:33:02,320

confusing to a witness and we typically

792

00:33:08,520 --> 00:33:06,430

regard pilots as as being better UFO

793

00:33:09,570 --> 00:33:08,530

witnesses because you know they spend

794

00:33:11,880 --> 00:33:09,580

their time in the air they know what

795

00:33:12,840 --> 00:33:11,890

things look like what normal things look

796

00:33:14,480 --> 00:33:12,850

like in the air so when there's

797

00:33:17,400 --> 00:33:14,490

something that they don't recognize

798

00:33:18,690 --> 00:33:17,410

that's a little more credible than

799

00:33:20,460 --> 00:33:18,700

somebody just on the ground saying

800

00:33:23,490 --> 00:33:20,470

something that's not used to things in

801  
00:33:25,680 --> 00:33:23,500  
the sky but that being said yeah I mean

802  
00:33:29,100 --> 00:33:25,690  
you're posting stuff all the time about

803  
00:33:30,960 --> 00:33:29,110  
all these different drones and and new

804  
00:33:38,460 --> 00:33:30,970  
new craft that are being built all the

805  
00:33:41,460 --> 00:33:38,470  
time we have really don't know what has

806  
00:33:44,070 --> 00:33:41,470  
been developed in the last 50 years we

807  
00:33:47,310 --> 00:33:44,080  
have we get a few things they get to

808  
00:33:50,400 --> 00:33:47,320  
classified really there have been like a

809  
00:33:53,520 --> 00:33:50,410  
handful like for over the last 35 years

810  
00:33:55,560 --> 00:33:53,530  
that have been Declassified right that

811  
00:33:57,330 --> 00:33:55,570  
have been tested that are strictly tests

812  
00:33:59,730 --> 00:33:57,340  
you know articles everything else mm-hmm

813  
00:34:01,170 --> 00:33:59,740

and those things look very strange to a

814

00:34:03,720 --> 00:34:01,180

person that doesn't know what they're

815

00:34:05,700 --> 00:34:03,730

looking at so I mean if you look at a

816

00:34:07,200 --> 00:34:05,710

flying wing look at the b2 for instance

817

00:34:09,480 --> 00:34:07,210

if that thing is flying on its knife

818

00:34:11,669 --> 00:34:09,490

edge are you looking at it from a you

819

00:34:14,549 --> 00:34:11,679

know an angle that is not a head

820

00:34:16,409 --> 00:34:14,559

or from a platform upper or lower view

821

00:34:18,599 --> 00:34:16,419

point yeah it looks like a flying saucer

822

00:34:22,020 --> 00:34:18,609

it's literally that that's what it looks

823

00:34:26,309 --> 00:34:22,030

like so I mean there's a lot of that out

824

00:34:28,079 --> 00:34:26,319

there let's just put it this way we have

825

00:34:30,680 --> 00:34:28,089

a tiny tip of the iceberg we know what

826

00:34:33,149 --> 00:34:30,690

has been tested things stay classified

827

00:34:35,129 --> 00:34:33,159

oftentimes for very little reason for a

828

00:34:37,889 --> 00:34:35,139

very long period of time sometimes never

829

00:34:39,059 --> 00:34:37,899

come out of the black a lot of times

830

00:34:40,260 --> 00:34:39,069

like you know when these things are

831

00:34:41,849 --> 00:34:40,270

tested and they're done with them

832

00:34:43,790 --> 00:34:41,859

they'll literally bury them in the

833

00:34:48,569 --> 00:34:43,800

desert where they were tested you know

834

00:34:52,230 --> 00:34:48,579

it means actually in the ground so you

835

00:34:54,059 --> 00:34:52,240

know it's something that and we and you

836

00:34:56,010 --> 00:34:54,069

can imagine how far the technology has

837

00:34:58,380 --> 00:34:56,020

come on a very high-end experimental

838

00:35:01,680 --> 00:34:58,390

level compared to where we were you know

839

00:35:04,140 --> 00:35:01,690

25 years ago when the f-117 was uh you

840

00:35:06,839 --> 00:35:04,150

know cutting edge or 30 years ago yeah

841

00:35:11,220 --> 00:35:06,849

so we're talking you know a lot of times

842

00:35:13,770 --> 00:35:11,230

even I think the most well versed person

843

00:35:14,970 --> 00:35:13,780

in this field wouldn't really know what

844

00:35:16,799 --> 00:35:14,980

they're looking at potentially depending

845

00:35:21,180 --> 00:35:16,809

on what the technology they were viewing

846

00:35:22,950 --> 00:35:21,190

was that being said I gotta be honest

847

00:35:25,109 --> 00:35:22,960

with you I mean I with the like with the

848

00:35:26,730 --> 00:35:25,119

UFO thing and the whole ufology

849

00:35:29,309 --> 00:35:26,740

community I think they just do so much

850

00:35:32,510 --> 00:35:29,319

more harm than good to themselves I mean

851

00:35:36,720 --> 00:35:32,520

I've said this on other radio shows and

852

00:35:38,339 --> 00:35:36,730

interviews you know I mean there's I get

853

00:35:41,160 --> 00:35:38,349

stuff sent to me all the time I mean

854

00:35:43,980 --> 00:35:41,170

every day and none of them usually

855

00:35:46,440 --> 00:35:43,990

they're just so plainly debunk Abul it's

856

00:35:47,940 --> 00:35:46,450

by people that just want so bad to have

857

00:35:50,609 --> 00:35:47,950

seen something or be part of this

858

00:35:52,079 --> 00:35:50,619

phenomenon and it's and they really

859

00:35:53,609 --> 00:35:52,089

they're not looking for you to tell them

860

00:35:55,220 --> 00:35:53,619

what it is they're looking for you to

861

00:35:57,990 --> 00:35:55,230

tell them what they think it is

862

00:36:00,240 --> 00:35:58,000

militantly yeah we're and now literally

863

00:36:01,650 --> 00:36:00,250

right back eight sorry man I've seen

864

00:36:04,170 --> 00:36:01,660

that a million times in my camera

865

00:36:07,200 --> 00:36:04,180

you know this that's just anomaly that's

866

00:36:12,210 --> 00:36:07,210

this that I or not convinced you know

867

00:36:13,980 --> 00:36:12,220

and it'll blow up at you you know so the

868

00:36:16,020 --> 00:36:13,990

reality is for how good is like hey

869

00:36:17,579 --> 00:36:16,030

listen on a scientific level you have a

870

00:36:19,530 --> 00:36:17,589

certain amount of these things that have

871

00:36:22,440 --> 00:36:19,540

happened over the you know the course of

872

00:36:24,660 --> 00:36:22,450

human history that are really

873

00:36:25,620 --> 00:36:24,670

unexplained and I'm great sourcing that

874

00:36:27,630 --> 00:36:25,630

multiple people

875

00:36:29,579 --> 00:36:27,640

involved and I think you know it's

876

00:36:31,890 --> 00:36:29,589

really like anything that would happen

877

00:36:34,319 --> 00:36:31,900

it's worth understanding or at least

878

00:36:36,120 --> 00:36:34,329

better trying to dissect really what it

879

00:36:38,220 --> 00:36:36,130

could have been or what we're

880

00:36:42,089 --> 00:36:38,230

experiencing right there are some mental

881

00:36:44,999 --> 00:36:42,099

phenomenon or whatever and you know

882

00:36:46,829 --> 00:36:45,009

instead it's it's just so over the top

883

00:36:48,930 --> 00:36:46,839

and you know it's a good business for

884

00:36:50,670 --> 00:36:48,940

some people everything else meanwhile

885

00:36:52,019 --> 00:36:50,680

you have the United States government

886

00:36:53,960 --> 00:36:52,029

that's paying to actually look into this

887

00:36:57,990 --> 00:36:53,970

this so there is some realistic

888

00:36:59,519 --> 00:36:58,000

reality to this mm-hmm so yeah III

889

00:37:01,650 --> 00:36:59,529

always encourage people that are

890

00:37:06,450 --> 00:37:01,660

interested in this you know we're part

891

00:37:08,999 --> 00:37:06,460

of you know the in UFOs or in anything

892

00:37:11,279 --> 00:37:09,009

like this the unknown on that level just

893

00:37:13,980 --> 00:37:11,289

to be a super hardcore skeptic

894

00:37:15,569 --> 00:37:13,990

you know don't don't play in to just

895

00:37:16,740 --> 00:37:15,579

everywhere everything this guy is it

896

00:37:18,390 --> 00:37:16,750

everything's a drone that the

897

00:37:20,519 --> 00:37:18,400

government's you know watching you and

898

00:37:22,829 --> 00:37:20,529

everything is a flying saucer but those

899

00:37:25,859 --> 00:37:22,839

reports that really do matter like that

900

00:37:28,140 --> 00:37:25,869

f-18 that you know saw that recorded

901  
00:37:30,450 --> 00:37:28,150  
that object over the off the Baja

902  
00:37:32,339 --> 00:37:30,460  
Peninsula or like you know this thing

903  
00:37:34,920 --> 00:37:32,349  
over Orion right that we've just

904  
00:37:37,200 --> 00:37:34,930  
discussed you know that way you can

905  
00:37:39,299 --> 00:37:37,210  
really hammer on those issues and make a

906  
00:37:41,819 --> 00:37:39,309  
case but otherwise it's just it's being

907  
00:37:43,349 --> 00:37:41,829  
lost in in fiction you know that's right

908  
00:37:45,569 --> 00:37:43,359  
people laugh at it

909  
00:37:47,099 --> 00:37:45,579  
like it's like it's nothing and at the

910  
00:37:48,990 --> 00:37:47,109  
same time I'm so interested in it

911  
00:37:51,539 --> 00:37:49,000  
because everybody who sends me something

912  
00:37:53,460 --> 00:37:51,549  
at the same time or anything I see the

913  
00:37:55,499 --> 00:37:53,470

person that says oh my gosh UFO that

914

00:37:57,509 --> 00:37:55,509

very well could be a clandestine program

915

00:37:57,690 --> 00:37:57,519

that I've never seen I can identify you

916

00:38:01,529 --> 00:37:57,700

know

917

00:38:03,839 --> 00:38:01,539

so anyway complicated subject but yeah

918

00:38:06,230 --> 00:38:03,849

yeah I'm a firm believer that a subject

919

00:38:10,289 --> 00:38:06,240

as strange as as UFOs

920

00:38:12,499 --> 00:38:10,299

it requires approaching it with cautious

921

00:38:17,099 --> 00:38:12,509

skepticism absolutely responsible

922

00:38:18,359 --> 00:38:17,109

skepticism yeah I mean it does and

923

00:38:20,339 --> 00:38:18,369

there's a lot of fun you can have with

924

00:38:22,380 --> 00:38:20,349

it too I mean there's a lot of fun you

925

00:38:24,539 --> 00:38:22,390

know more lighthearted you can look at

926

00:38:26,549 --> 00:38:24,549

little kind of like legends you know the

927

00:38:28,710 --> 00:38:26,559

stuff that that you know people talk

928

00:38:32,670 --> 00:38:28,720

about that have largely been disproven

929

00:38:34,620 --> 00:38:32,680

you know but I see a lot of people then

930

00:38:36,660 --> 00:38:34,630

are kind of movers and shakers in this

931

00:38:38,309 --> 00:38:36,670

world it seems like that you see on

932

00:38:38,970 --> 00:38:38,319

History Channel or whatever they get at

933

00:38:41,609 --> 00:38:38,980

least

934

00:38:45,090 --> 00:38:41,619

getting a lot of coverage personally

935

00:38:47,099 --> 00:38:45,100

right a lot of play and you know they

936

00:38:48,960 --> 00:38:47,109

like interview people old man that say

937

00:38:50,790 --> 00:38:48,970

that they were part of some project and

938

00:38:52,920 --> 00:38:50,800

you know they play into it and they

939

00:38:54,180 --> 00:38:52,930

didn't put it forward as certain fact

940

00:38:57,090 --> 00:38:54,190

and it's just full of holes

941

00:38:58,950 --> 00:38:57,100

it's full of time issues with the

942

00:39:03,330 --> 00:38:58,960

timeline that don't make any sense and I

943

00:39:05,250 --> 00:39:03,340

just would really like I think now if to

944

00:39:07,859 --> 00:39:05,260

make to move this board in a positive

945

00:39:10,760 --> 00:39:07,869

way people should really be start to

946

00:39:13,920 --> 00:39:10,770

take on a skeptical level you know of

947

00:39:17,820 --> 00:39:13,930

viewing this and that way that that

948

00:39:19,440 --> 00:39:17,830

point zero one of a hundred percent can

949

00:39:21,240 --> 00:39:19,450

really be examined and looked on a

950

00:39:24,510 --> 00:39:21,250

scientific level and without being

951  
00:39:28,349 --> 00:39:24,520  
laughed at right exactly yeah that's a

952  
00:39:30,990 --> 00:39:28,359  
big hurdle yeah a big hurdle so I gotta

953  
00:39:34,550 --> 00:39:31,000  
say when you posted your article with

954  
00:39:39,000 --> 00:39:34,560  
the photos of the the X 44 a yeah that's

955  
00:39:40,950 --> 00:39:39,010  
reminded me of something I mean I

956  
00:39:45,330 --> 00:39:40,960  
certainly covered it a few times over

957  
00:39:48,630 --> 00:39:45,340  
the years but back when the the X 40

958  
00:39:51,710 --> 00:39:48,640  
yeah the x-47b was making headlines back

959  
00:39:54,270 --> 00:39:51,720  
in like 2012 and you know it been

960  
00:39:56,730 --> 00:39:54,280  
photographed being transported during

961  
00:39:58,859 --> 00:39:56,740  
the night and where was that it was

962  
00:40:00,150 --> 00:39:58,869  
Maryland yeah Maryland and then some

963  
00:40:01,830 --> 00:40:00,160

other people took a picture of it

964

00:40:04,260 --> 00:40:01,840

somewhere and claimed that it was

965

00:40:06,690 --> 00:40:04,270

outside area 51 or something but that

966

00:40:08,220 --> 00:40:06,700

thing you know with how its it's wings

967

00:40:10,770 --> 00:40:08,230

were positioned in transport and it was

968

00:40:12,780 --> 00:40:10,780

wrapped up it had a saucer like

969

00:40:15,390 --> 00:40:12,790

appearance and people were crazy for

970

00:40:18,450 --> 00:40:15,400

that was that was the movie from the

971

00:40:21,270 --> 00:40:18,460

from the 80s why did the navigator yeah

972

00:40:23,580 --> 00:40:21,280

yeah you know and immediately when that

973

00:40:25,109 --> 00:40:23,590

came up I did my best guys next 47 bees

974

00:40:27,210 --> 00:40:25,119

being transport across the United States

975

00:40:29,849 --> 00:40:27,220

you're gonna see pictures of this from

976  
00:40:33,030 --> 00:40:29,859  
you know basically Southern California

977  
00:40:35,609 --> 00:40:33,040  
all the way to pack scribbler Naval Air

978  
00:40:37,500 --> 00:40:35,619  
Station Pax River so get used to it yeah

979  
00:40:39,450 --> 00:40:37,510  
but yeah it does average person is like

980  
00:40:41,430 --> 00:40:39,460  
oh my gosh this is exactly like what I

981  
00:40:44,880 --> 00:40:41,440  
saw in an 80s movie about you know

982  
00:40:47,400 --> 00:40:44,890  
flying saucers you know but really it

983  
00:40:48,810 --> 00:40:47,410  
could take a very small Kris research on

984  
00:40:51,270 --> 00:40:48,820  
the Internet to know exactly what that

985  
00:40:52,710 --> 00:40:51,280  
was yeah but you know that's kind of

986  
00:40:54,540 --> 00:40:52,720  
that that in itself

987  
00:40:56,220 --> 00:40:54,550  
aircraft you know that thing moved

988  
00:40:57,980 --> 00:40:56,230

across the nation it's been did all

989

00:41:00,210 --> 00:40:57,990

these things landed on a carrier

990

00:41:03,000 --> 00:41:00,220

operated from a carrier refueled

991

00:41:04,590 --> 00:41:03,010

autonomously from a tanker that's kind

992

00:41:07,380 --> 00:41:04,600

of when I say there's so much out there

993

00:41:09,600 --> 00:41:07,390

that you know is is being uh tested that

994

00:41:10,950 --> 00:41:09,610

we don't get to see that technology is

995

00:41:12,510 --> 00:41:10,960

buried you talk to the Air Force about

996

00:41:15,270 --> 00:41:12,520

an unmanned combat air vehicle like that

997

00:41:18,330 --> 00:41:15,280

biggest breakthrough since the jet

998

00:41:21,690 --> 00:41:18,340

engine okay in a many different ways

999

00:41:22,320 --> 00:41:21,700

this thing can outperform man fighter

1000

00:41:23,970 --> 00:41:22,330

man

1001  
00:41:25,890 --> 00:41:23,980  
tactical aircraft in a lot of different

1002  
00:41:28,350 --> 00:41:25,900  
ways yeah you know they act like it

1003  
00:41:30,480 --> 00:41:28,360  
doesn't exist it's like a dirty word so

1004  
00:41:33,210 --> 00:41:30,490  
you know they have their in those things

1005  
00:41:36,900 --> 00:41:33,220  
look you know very alien they they don't

1006  
00:41:40,290 --> 00:41:36,910  
look like an f-16 or even an even f-117

1007  
00:41:41,430 --> 00:41:40,300  
right they look very different but we're

1008  
00:41:43,470 --> 00:41:41,440  
gonna see more that's gonna change

1009  
00:41:46,170 --> 00:41:43,480  
because as that technology continues to

1010  
00:41:47,400 --> 00:41:46,180  
migrate into the mainstream and and you

1011  
00:41:50,490 --> 00:41:47,410  
know eventually it will be an

1012  
00:41:52,470 --> 00:41:50,500  
operational capability people will be

1013  
00:41:55,230 --> 00:41:52,480

able to you know get used to knowing

1014

00:41:56,850 --> 00:41:55,240

what those are in the air so that that

1015

00:41:58,020 --> 00:41:56,860

will change but yeah they're it's an

1016

00:42:01,620 --> 00:41:58,030

interesting thing

1017

00:42:03,480 --> 00:42:01,630

I just and that's like kind of like oh

1018

00:42:06,600 --> 00:42:03,490

there's a craft that I don't know what

1019

00:42:09,000 --> 00:42:06,610

it is it looks weird a trailer okay

1020

00:42:09,870 --> 00:42:09,010

this is a UFO boom and and that media

1021

00:42:12,330 --> 00:42:09,880

hurts it

1022

00:42:15,150 --> 00:42:12,340

they hurt because they hurt the whole

1023

00:42:18,690 --> 00:42:15,160

deal because it is better for a local

1024

00:42:20,790 --> 00:42:18,700

news station to call it unknown and a

1025

00:42:23,550 --> 00:42:20,800

mystery than it is to just figure out

1026

00:42:26,130 --> 00:42:23,560

quickly what it is it's a lot less

1027

00:42:27,780 --> 00:42:26,140

interesting when the Navy is moving a

1028

00:42:31,080 --> 00:42:27,790

test airplane then this is fully

1029

00:42:33,660 --> 00:42:31,090

Declassified to naval test facility on

1030

00:42:37,860 --> 00:42:33,670

the East Coast than it is we don't know

1031

00:42:39,900 --> 00:42:37,870

xxx mystery yeah you know well talking

1032

00:42:42,090 --> 00:42:39,910

about the stuff that's in in the sky

1033

00:42:43,740 --> 00:42:42,100

that you know we don't know there's

1034

00:42:45,150 --> 00:42:43,750

plenty of stuff in space too and and

1035

00:42:47,880 --> 00:42:45,160

even something that people should be

1036

00:42:50,430 --> 00:42:47,890

familiar with by now the ISS like that

1037

00:42:52,020 --> 00:42:50,440

still throws people off a lot of people

1038

00:42:53,340 --> 00:42:52,030

haven't seen the ISS what it looks like

1039

00:42:55,320 --> 00:42:53,350

when it's doing a pass over

1040

00:42:57,540 --> 00:42:55,330

right now we're throwing in like the

1041

00:43:00,360 --> 00:42:57,550

x-37b and other things that are going on

1042

00:43:02,610 --> 00:43:00,370

in space I mean it just well space is

1043

00:43:05,820 --> 00:43:02,620

the future battlefield it's happening

1044

00:43:06,600 --> 00:43:05,830

now it's our our potential enemies are

1045

00:43:09,360 --> 00:43:06,610

working

1046

00:43:14,580 --> 00:43:09,370

day and night to deny us access or at

1047

00:43:16,350 --> 00:43:14,590

least the overwhelming capabilities that

1048

00:43:20,910 --> 00:43:16,360

we have in space for our warfighters

1049

00:43:25,460 --> 00:43:20,920

that includes GPS and so we're getting

1050

00:43:27,990 --> 00:43:25,470

into the area where counter satellite

1051  
00:43:31,020 --> 00:43:28,000  
capabilities are becoming a mainstream

1052  
00:43:32,820 --> 00:43:31,030  
idea as opposed to sort of something

1053  
00:43:35,640 --> 00:43:32,830  
that was you know ten years ago it was

1054  
00:43:37,290 --> 00:43:35,650  
sort of hmm kind of on the on the dark

1055  
00:43:38,790 --> 00:43:37,300  
side of things that weren't really

1056  
00:43:40,110 --> 00:43:38,800  
talked about and I'm not talking about a

1057  
00:43:41,250 --> 00:43:40,120  
missile that can shoot down a satellite

1058  
00:43:44,850 --> 00:43:41,260  
that's not that's an anti-satellite

1059  
00:43:48,150 --> 00:43:44,860  
weapon I'm talking about other

1060  
00:43:51,900 --> 00:43:48,160  
satellites that can maneuver or space

1061  
00:43:54,570 --> 00:43:51,910  
platforms and can disable blind Jam

1062  
00:43:56,370 --> 00:43:54,580  
disrupt the capability of enemy

1063  
00:43:59,670 --> 00:43:56,380

satellites even temporarily No

1064

00:44:01,230 --> 00:43:59,680

so you're talking about these types of

1065

00:44:05,070 --> 00:44:01,240

craft will be able to maneuver you know

1066

00:44:07,350 --> 00:44:05,080

and and have less predictable orbits you

1067

00:44:09,420 --> 00:44:07,360

know so even some of our people that

1068

00:44:11,370 --> 00:44:09,430

really watch the skies you know and love

1069

00:44:13,260 --> 00:44:11,380

to track satellites and things they'll

1070

00:44:14,580 --> 00:44:13,270

probably start seeing some pretty some

1071

00:44:17,010 --> 00:44:14,590

pretty unique stuff in fact they already

1072

00:44:19,110 --> 00:44:17,020

have yeah and they don't you know they

1073

00:44:21,510 --> 00:44:19,120

for years they have but it's gonna

1074

00:44:24,480 --> 00:44:21,520

become a very mainstream capability for

1075

00:44:26,790 --> 00:44:24,490

not just America but you know China and

1076

00:44:29,190 --> 00:44:26,800

Russia they're already all over this so

1077

00:44:31,410 --> 00:44:29,200

space is gonna really be a changing

1078

00:44:33,570 --> 00:44:31,420

place for us in the next 10 years have

1079

00:44:36,540 --> 00:44:33,580

you speculated at all about what you

1080

00:44:38,220 --> 00:44:36,550

think the x-37b has been up to you know

1081

00:44:39,960 --> 00:44:38,230

we know some of the the payloads that

1082

00:44:41,970 --> 00:44:39,970

have been launched but mostly it's been

1083

00:44:44,790 --> 00:44:41,980

classified right right

1084

00:44:46,920 --> 00:44:44,800

yeah I mean you got this a truck size of

1085

00:44:50,550 --> 00:44:46,930

like a Ford f-150 truck bed to play with

1086

00:44:52,530 --> 00:44:50,560

yeah to put something in and then the

1087

00:44:54,240 --> 00:44:52,540

idea that I from what I understand about

1088

00:44:57,630 --> 00:44:54,250

the system and you know we've reported

1089

00:44:59,310 --> 00:44:57,640

on it for years now is you know it it's

1090

00:45:02,280 --> 00:44:59,320

not just about the payload they're

1091

00:45:05,820 --> 00:45:02,290

trying out other technologies as well

1092

00:45:08,340 --> 00:45:05,830

you know especially maneuvering

1093

00:45:11,760 --> 00:45:08,350

technologies everything else up there

1094

00:45:14,400 --> 00:45:11,770

so you know I don't know I mean I the

1095

00:45:17,580 --> 00:45:14,410

guess is as much as anybody else I would

1096

00:45:19,020 --> 00:45:17,590

imagine it's nothing that we probably

1097

00:45:20,339 --> 00:45:19,030

haven't already talked about in this

1098

00:45:22,229 --> 00:45:20,349

this interview

1099

00:45:24,920 --> 00:45:22,239

as far as what's going on in space you

1100

00:45:27,059 --> 00:45:24,930

know a deploying small satellites

1101

00:45:31,620 --> 00:45:27,069

experimental payloads that have to do

1102

00:45:33,870 --> 00:45:31,630

with multi spectral payloads and or you

1103

00:45:38,130 --> 00:45:33,880

know radar payloads and being able to

1104

00:45:41,219 --> 00:45:38,140

more easily maneuver change orbit and so

1105

00:45:42,870 --> 00:45:41,229

yeah the rebut that the x-37 is sort of

1106

00:45:44,940 --> 00:45:42,880

like you know that's like a canary in

1107

00:45:46,769 --> 00:45:44,950

the coal mine that has shown us the

1108

00:45:49,559 --> 00:45:46,779

change that we're seeing even on the

1109

00:45:51,920 --> 00:45:49,569

unclassified side now because the

1110

00:45:54,989 --> 00:45:51,930

military now DARPA is openly working on a

1111

00:45:58,140 --> 00:45:54,999

two-stage to orbit space plane system to

1112

00:46:00,150 --> 00:45:58,150

launch you know it rapidly launch

1113

00:46:01,859 --> 00:46:00,160

anything they want into space that's up

1114

00:46:04,559 --> 00:46:01,869

to I don't know 10,000 pounds or

1115

00:46:07,039 --> 00:46:04,569

whatever and then you have multiple

1116

00:46:09,809 --> 00:46:07,049

other applications and that technology

1117

00:46:11,219 --> 00:46:09,819

being able to like I say this this anti

1118

00:46:15,779 --> 00:46:11,229

satellite technology is happening so

1119

00:46:19,019 --> 00:46:15,789

quickly and it's it's Massa sizing in

1120

00:46:21,210 --> 00:46:19,029

space you know much faster than I think

1121

00:46:25,170 --> 00:46:21,220

many predicted especially amongst our

1122

00:46:27,809 --> 00:46:25,180

adversaries that maybe not even

1123

00:46:30,150 --> 00:46:27,819

defending the satellites that we have or

1124

00:46:32,160 --> 00:46:30,160

making them less easy easily too easy to

1125

00:46:34,469 --> 00:46:32,170

be tracked but being able to actually

1126

00:46:36,180 --> 00:46:34,479

just replace them quickly with other

1127

00:46:38,969 --> 00:46:36,190

technologies so if you lose one you can

1128

00:46:41,489 --> 00:46:38,979

rapidly get another one up in an orbit

1129

00:46:44,640 --> 00:46:41,499

that's gonna be a huge part and that

1130

00:46:47,099 --> 00:46:44,650

includes not just what's up there maybe

1131

00:46:49,319 --> 00:46:47,109

people see things you know like you know

1132

00:46:52,200 --> 00:46:49,329

small lights in the sky or people that

1133

00:46:54,140 --> 00:46:52,210

track near-earth objects from orbital

1134

00:46:56,849 --> 00:46:54,150

objects but that's going to be

1135

00:46:59,130 --> 00:46:56,859

mothership aircraft carrying rocket

1136

00:47:01,229 --> 00:46:59,140

payloads over public areas that go out

1137

00:47:03,690 --> 00:47:01,239

to sea they're gonna see the launch of

1138

00:47:05,609 --> 00:47:03,700

these of these missiles you know at

1139

00:47:07,589 --> 00:47:05,619

different times that are gonna people

1140

00:47:09,479 --> 00:47:07,599

are gonna think oh my gosh what is this

1141

00:47:15,029 --> 00:47:09,489

thing a sky at sunset

1142

00:47:19,229 --> 00:47:15,039

so aviation and its relationship with

1143

00:47:22,799 --> 00:47:19,239

with space flight and space and the

1144

00:47:26,339 --> 00:47:22,809

ability for us to access orbit is

1145

00:47:28,170 --> 00:47:26,349

changing and with that the average Joe

1146

00:47:29,849 --> 00:47:28,180

on the ground is gonna be seeing things

1147

00:47:31,559 --> 00:47:29,859

they probably haven't seen before in

1148

00:47:33,990 --> 00:47:31,569

areas that they haven't seen before

1149

00:47:41,070 --> 00:47:36,330

yes for sure right the private space

1150

00:47:43,560 --> 00:47:41,080

explosion is is awesome it's giving us a

1151

00:47:46,770 --> 00:47:43,570

lot - a lot to sit back and watch for

1152

00:47:49,260 --> 00:47:46,780

sure yeah I mean I you know I'm still I

1153

00:47:50,490 --> 00:47:49,270

was a critic of it early on yeah it's

1154

00:47:52,110 --> 00:47:50,500

great I mean it's really the

1155

00:47:54,000 --> 00:47:52,120

government's funded it so I'm yeah

1156

00:47:57,000 --> 00:47:54,010

absolutely you know I it's kind of

1157

00:47:59,040 --> 00:47:57,010

people kind of a weird idea of this and

1158

00:48:00,900 --> 00:47:59,050

I don't really see a marketplace as you

1159

00:48:03,600 --> 00:48:00,910

know just exploding like they say it is

1160

00:48:05,040 --> 00:48:03,610

but listen the price for admission was

1161

00:48:08,040 --> 00:48:05,050

good enough for me

1162

00:48:10,110 --> 00:48:08,050

just seeing SpaceX plan those two pieces

1163

00:48:13,350 --> 00:48:10,120

man that was simultaneously that was so

1164

00:48:15,600 --> 00:48:13,360

rad that was right for me you know that

1165

00:48:18,480 --> 00:48:15,610

was right out of a science fiction movie

1166

00:48:20,040 --> 00:48:18,490

yeah so yeah there's some and that's

1167

00:48:22,320 --> 00:48:20,050

something like that's totally new right

1168

00:48:25,020 --> 00:48:22,330

here you're now returning your first

1169

00:48:28,950 --> 00:48:25,030

stage back you know from launch right

1170

00:48:31,050 --> 00:48:28,960

into reusable so all these things are

1171

00:48:34,470 --> 00:48:31,060

changing and on top of it you have our

1172

00:48:36,780 --> 00:48:34,480

adversaries that are building now like

1173

00:48:39,920 --> 00:48:36,790

hypersonics are becoming a very and

1174

00:48:41,550 --> 00:48:39,930

Piper for your listeners or viewers

1175

00:48:45,030 --> 00:48:41,560

hypersonics or something that's moving

1176

00:48:46,830 --> 00:48:45,040

faster than about Mach 5 Mach 6 okay so

1177

00:48:50,250 --> 00:48:46,840

this is double the speed of the sr-71

1178

00:48:52,080 --> 00:48:50,260

blackbird hypersonics are becoming kind

1179

00:48:54,210 --> 00:48:52,090

of like the new super weapon that that

1180

00:48:57,900 --> 00:48:54,220

adversaries and the United States are

1181

00:48:59,460 --> 00:48:57,910

rapidly trying to develop and mainly

1182

00:49:01,170 --> 00:48:59,470

it's because it really can beat any

1183

00:49:02,910 --> 00:49:01,180

defense system it can beat a missile

1184

00:49:05,550 --> 00:49:02,920

defense system it's within the

1185

00:49:10,590 --> 00:49:05,560

atmosphere and it's very flexible it's

1186

00:49:12,330 --> 00:49:10,600

very fast you know and so all that's

1187

00:49:14,070 --> 00:49:12,340

gonna take testing as well and that's

1188

00:49:15,750 --> 00:49:14,080

gonna change what people are gonna see

1189

00:49:17,820 --> 00:49:15,760

in the sky and everything else so I

1190

00:49:19,850 --> 00:49:17,830

guess what I'm getting at for the person

1191

00:49:22,430 --> 00:49:19,860

that's into what you know or just

1192

00:49:25,200 --> 00:49:22,440

interested in watching the sky and and

1193

00:49:28,620 --> 00:49:25,210

ufos or all these other different topics

1194

00:49:30,420 --> 00:49:28,630

that kind of relate to it that the

1195

00:49:32,820 --> 00:49:30,430

things that we've been so used the

1196

00:49:36,150 --> 00:49:32,830

status quo of what we see on a daily

1197

00:49:37,530 --> 00:49:36,160

basis is changing now in the sky and

1198

00:49:39,420 --> 00:49:37,540

keep that in mind

1199

00:49:41,130 --> 00:49:39,430

when you see something or when you see

1200

00:49:43,680 --> 00:49:41,140

somebody say hey look at this this is

1201

00:49:46,650 --> 00:49:43,690

definitely you know from from you know

1202

00:49:47,760 --> 00:49:46,660

Zordon and and you know this is a lizard

1203

00:49:51,120 --> 00:49:47,770

people are coming

1204

00:49:52,770 --> 00:49:51,130

you know be the skeptic because because

1205

00:49:55,320 --> 00:49:52,780

that's gonna help when we actually see

1206

00:49:57,210 --> 00:49:55,330

something that matters for us to really

1207

00:49:59,160 --> 00:49:57,220

investigate it whether it's a you know

1208

00:50:01,020 --> 00:49:59,170

origin of terrestrial or

1209

00:50:03,600 --> 00:50:01,030

extraterrestrial doesn't matter just

1210

00:50:05,640 --> 00:50:03,610

knowing what we're seeing matters yeah

1211

00:50:07,440 --> 00:50:05,650

and that and it's gonna become a much

1212

00:50:10,380 --> 00:50:07,450

bigger deal for the government too

1213

00:50:12,720 --> 00:50:10,390

because these same things I'm talking

1214

00:50:15,270 --> 00:50:12,730

about our peer states developing these

1215

00:50:17,700 --> 00:50:15,280

weapon systems hypersonics stealth

1216

00:50:19,050 --> 00:50:17,710

aircraft now are proliferating right

1217

00:50:21,900 --> 00:50:19,060

throughout the world

1218

00:50:25,910 --> 00:50:21,910

Russia and China now have multiple

1219

00:50:28,260 --> 00:50:25,920

models which China does Russia has one

1220

00:50:30,990 --> 00:50:28,270

the government is gonna be much more

1221

00:50:34,200 --> 00:50:31,000

interested in what it's what people are

1222

00:50:37,080 --> 00:50:34,210

seeing and what it's observing in

1223

00:50:39,510 --> 00:50:37,090

different areas on all different levels

1224

00:50:44,280 --> 00:50:39,520

as this cold war that we're entering it

1225

00:50:47,190 --> 00:50:44,290

too sadly enough heats up so it's a good

1226

00:50:52,230 --> 00:50:47,200

time to be into the subject but it's

1227

00:50:53,940 --> 00:50:52,240

also a really it's really needed that

1228

00:50:56,100 --> 00:50:53,950

people that are to be skeptical what

1229

00:50:57,750 --> 00:50:56,110

they're saying and try to read team it

1230

00:50:59,610 --> 00:50:57,760

and think of all the things that is

1231

00:51:01,410 --> 00:50:59,620

first before making huge claims so we

1232

00:51:03,480 --> 00:51:01,420

can actually understand what what's

1233

00:51:06,060 --> 00:51:03,490

happening the world around us there's so

1234

00:51:08,340 --> 00:51:06,070

much happening at such a rapid pace you

1235

00:51:10,890 --> 00:51:08,350

know it's it's difficult and people are

1236

00:51:12,540 --> 00:51:10,900

slow at you know getting used to all the

1237

00:51:17,880 --> 00:51:12,550

things that are flying around I mean

1238

00:51:20,070 --> 00:51:17,890

we're still the kind of flood of private

1239

00:51:21,390 --> 00:51:20,080

drone usage you know the quad copters

1240

00:51:24,420 --> 00:51:21,400

and things like that seems like so long

1241

00:51:26,550 --> 00:51:24,430

ago but still people see drones in the

1242

00:51:29,370 --> 00:51:26,560

sky and are very confused by what

1243

00:51:31,380 --> 00:51:29,380

they're seeing hey I remember like three

1244

00:51:33,330 --> 00:51:31,390

years ago I was on a barbecue at a

1245

00:51:35,160 --> 00:51:33,340

friend's house and they're in a very

1246

00:51:38,040 --> 00:51:35,170

urban area down you know we're near

1247

00:51:40,500 --> 00:51:38,050

where I live and that - these things pop

1248

00:51:44,160 --> 00:51:40,510

up in the sky you know that are all lit

1249

00:51:45,570 --> 00:51:44,170

up yeah and look totally in it for and I

1250

00:51:47,640 --> 00:51:45,580

this is supposed to be what I do for a

1251

00:51:49,530 --> 00:51:47,650

living right I mean and for a moment I

1252

00:51:51,450 --> 00:51:49,540

said oh my god what am I looking at yeah

1253

00:51:53,340 --> 00:51:51,460

this is before it kind of became

1254

00:51:55,410 --> 00:51:53,350

wherever you know if Toys R Us selling

1255

00:51:57,300 --> 00:51:55,420

down those drones some kids but you know

1256

00:51:58,770 --> 00:51:57,310

at that moment and I just immediately

1257

00:52:01,319 --> 00:51:58,780

said oh yeah it's just a hobby copter

1258

00:52:03,150 --> 00:52:01,329

there's lights on it okay but

1259

00:52:05,999 --> 00:52:03,160

you know even for me it took me a moment

1260

00:52:08,640 --> 00:52:06,009

to say whoa you know what what the heck

1261

00:52:10,859 --> 00:52:08,650

is this because that's exactly what

1262

00:52:12,180 --> 00:52:10,869

we're supposed to think is abnormal and

1263

00:52:13,769 --> 00:52:12,190

and and especially something that's

1264

00:52:15,660 --> 00:52:13,779

hovering and moving in a weird direction

1265

00:52:17,789 --> 00:52:15,670

at night you don't have any depth

1266

00:52:19,859 --> 00:52:17,799

perception you don't have any idea of

1267

00:52:23,940 --> 00:52:19,869

really it's Pertino its relation to the

1268

00:52:25,769 --> 00:52:23,950

to the ground on distance so yeah it is

1269

00:52:27,089 --> 00:52:25,779

all changing that's a great point just

1270

00:52:30,420 --> 00:52:27,099

for hobby drugs or something you can buy

1271

00:52:32,160 --> 00:52:30,430

for a few hundred dollars can ten years

1272

00:52:36,059 --> 00:52:32,170

ago look like something totally out of

1273

00:52:37,529 --> 00:52:36,069

this world to people right you know so

1274

00:52:39,390 --> 00:52:37,539

yeah it's definitely becoming a more

1275

00:52:42,059 --> 00:52:39,400

let's say at a more target rich

1276

00:52:44,489 --> 00:52:42,069

environment but it's it's decoys

1277

00:52:45,989 --> 00:52:44,499

everywhere from what really are things

1278

00:52:49,199 --> 00:52:45,999

that don't make sense

1279

00:52:51,269 --> 00:52:49,209

and you know and don't have an answer to

1280

00:52:52,799 --> 00:52:51,279

and and the part of that too is like the

1281

00:52:54,900 --> 00:52:52,809

obsession with bases you know military

1282

00:52:56,849 --> 00:52:54,910

bases I a lot of times like when I'm

1283

00:53:00,180 --> 00:52:56,859

just going through different stuff the

1284

00:53:02,039 --> 00:53:00,190

area of Defense coverage and ufology

1285

00:53:03,959 --> 00:53:02,049

sort of blends together based on a

1286

00:53:06,269 --> 00:53:03,969

Google search at times you come across

1287

00:53:07,709 --> 00:53:06,279

different things and there's a lot of

1288

00:53:10,109 --> 00:53:07,719

people that will point every military

1289

00:53:11,849 --> 00:53:10,119

base hmm and say oh there's this this

1290

00:53:14,370 --> 00:53:11,859

secret they're doing this there they're

1291

00:53:16,170 --> 00:53:14,380

doing that I've been on most those all

1292

00:53:18,719 --> 00:53:16,180

over most those bases there's nothing

1293

00:53:20,489 --> 00:53:18,729

like that happening there's no there's

1294

00:53:22,170 --> 00:53:20,499

no secret squirrel stuff happening at

1295

00:53:24,180 --> 00:53:22,180

the Air National Guard base in Fresno

1296

00:53:27,329 --> 00:53:24,190

you know what I mean it's just not at

1297

00:53:29,009 --> 00:53:27,339

all happening there there's there's weed

1298

00:53:31,709 --> 00:53:29,019

have areas for that we have

1299

00:53:34,469 --> 00:53:31,719

installations that specialize in dealing

1300

00:53:35,880 --> 00:53:34,479

with those projects and once again it

1301  
00:53:38,609 --> 00:53:35,890  
kind of goes back to everybody wanting

1302  
00:53:40,769 --> 00:53:38,619  
to have story instead of instead of just

1303  
00:53:43,739 --> 00:53:40,779  
you know being amazed with the few great

1304  
00:53:45,630 --> 00:53:43,749  
stories we have it's just so much

1305  
00:53:47,819 --> 00:53:45,640  
disinformation that it's hard to cut

1306  
00:53:49,049 --> 00:53:47,829  
through it you know and honestly the

1307  
00:53:50,699 --> 00:53:49,059  
Defense Department seems to agree

1308  
00:53:52,640 --> 00:53:50,709  
because they're they spend millions of

1309  
00:53:54,420 --> 00:53:52,650  
dollars for researching this recently

1310  
00:53:56,999 --> 00:53:54,430  
yeah that's right

1311  
00:53:58,769 --> 00:53:57,009  
so let me jump in to UFOs just for a

1312  
00:54:02,779 --> 00:53:58,779  
minute and the UFO community that we've

1313  
00:54:05,699 --> 00:54:02,789

talked about I know one thing that has

1314

00:54:08,219 --> 00:54:05,709

certain certain groups within the UFO

1315

00:54:09,989 --> 00:54:08,229

community have really been passionate

1316

00:54:13,259 --> 00:54:09,999

about and latched on to for years and

1317

00:54:13,829 --> 00:54:13,269

years claiming that the military has

1318

00:54:16,709 --> 00:54:13,839

this sea

1319

00:54:19,049 --> 00:54:16,719

it's tr-3b are you familiar with the tio

1320

00:54:22,819 --> 00:54:19,059

very much so I would love to hear what

1321

00:54:25,950 --> 00:54:22,829

you have to say about the tr-3b great so

1322

00:54:28,200 --> 00:54:25,960

that's one of those places that we just

1323

00:54:30,630 --> 00:54:28,210

discussed where we have the kind of hard

1324

00:54:33,229 --> 00:54:30,640

defense coverage no even whether you

1325

00:54:35,579 --> 00:54:33,239

like it or not spill into sort of this

1326

00:54:38,700 --> 00:54:35,589

unknowing let's put it category right

1327

00:54:41,969 --> 00:54:38,710

now of almost that you know UFO level or

1328

00:54:43,339 --> 00:54:41,979

whatever you want to call it so I mean

1329

00:54:46,049 --> 00:54:43,349

what you're talking about here is

1330

00:54:48,690 --> 00:54:46,059

anti-gravity you know flying triangle

1331

00:54:51,749 --> 00:54:48,700

that has ability to generate massive

1332

00:54:53,880 --> 00:54:51,759

amounts of energy to build it has to or

1333

00:54:56,190 --> 00:54:53,890

some sort of field you know and it kind

1334

00:54:58,709 --> 00:54:56,200

of goes back to the bob lazar stuff and

1335

00:55:02,779 --> 00:54:58,719

you know all that sort of background

1336

00:55:05,880 --> 00:55:02,789

it's I'd say it's kind of where the UFO

1337

00:55:09,499 --> 00:55:05,890

let's you know lexicon or Lord enters

1338

00:55:11,880 --> 00:55:09,509

into area 51 okay let's put it that way

1339

00:55:14,940 --> 00:55:11,890

I'm gonna say this straight off I have

1340

00:55:17,489 --> 00:55:14,950

never seen one bit of credible

1341

00:55:20,370 --> 00:55:17,499

information that area 51 does anything

1342

00:55:24,809 --> 00:55:20,380

else but test aircraft that are made

1343

00:55:26,670 --> 00:55:24,819

man-made that are not you know soup-like

1344

00:55:29,430 --> 00:55:26,680

of alien nature okay let's have it that

1345

00:55:30,569 --> 00:55:29,440

way this thing some people you know it

1346

00:55:32,039 --> 00:55:30,579

seems that some people claim that it's

1347

00:55:36,150 --> 00:55:32,049

it's man-made it's like a Lockheed

1348

00:55:37,620 --> 00:55:36,160

Martin project or something when it all

1349

00:55:39,630 --> 00:55:37,630

comes down to some sort of like

1350

00:55:41,700 --> 00:55:39,640

anti-gravity capability that was you

1351

00:55:44,640 --> 00:55:41,710

know maybe has been tested now I cannot

1352

00:55:46,529 --> 00:55:44,650

tell you definitively that that doesn't

1353

00:55:48,420 --> 00:55:46,539

exist there's never there's never been

1354

00:55:51,329 --> 00:55:48,430

experiments and anti-gravity propulsion

1355

00:55:54,089 --> 00:55:51,339

I think it'd be presumptuous for me to

1356

00:55:55,559 --> 00:55:54,099

say that on many levels in fact there's

1357

00:55:58,940 --> 00:55:55,569

may be some evidence to point to the

1358

00:56:02,609 --> 00:55:58,950

opposite direction at the same time I

1359

00:56:04,589 --> 00:56:02,619

can't say that this thing has does exist

1360

00:56:07,589 --> 00:56:04,599

or a dozen there or anything else I

1361

00:56:09,870 --> 00:56:07,599

don't think it does because I just don't

1362

00:56:14,819 --> 00:56:09,880

think that we're their capability wise

1363

00:56:16,529 --> 00:56:14,829

at all but others will argue that these

1364

00:56:19,140 --> 00:56:16,539

things get buried for a lot of reasons

1365

00:56:22,049 --> 00:56:19,150

and you know some of it has to do with

1366

00:56:23,989 --> 00:56:22,059

everything from like you know the

1367

00:56:27,150 --> 00:56:23,999

potential for the technology to change

1368

00:56:29,130 --> 00:56:27,160

the reliance on fossil fuels

1369

00:56:30,680 --> 00:56:29,140

yeah you know everything else and I

1370

00:56:33,620 --> 00:56:30,690

think those are arguments that are are

1371

00:56:37,380 --> 00:56:33,630

worth having

1372

00:56:41,010 --> 00:56:37,390

definitely I mean I've talked to people

1373

00:56:43,680 --> 00:56:41,020

in that worlds and there is a lot of

1374

00:56:46,320 --> 00:56:43,690

incredible technology that is likely

1375

00:56:48,540 --> 00:56:46,330

just wrapped up in deep classification

1376

00:56:49,860 --> 00:56:48,550

that we'll probably never see the light

1377

00:56:52,980 --> 00:56:49,870

of day until it's developed

1378

00:56:55,890 --> 00:56:52,990

independently in the commercial world

1379

00:56:59,820 --> 00:56:55,900

for other reasons okay so I think that's

1380

00:57:01,950 --> 00:56:59,830

fair to say for people now there's been

1381

00:57:04,230 --> 00:57:01,960

a lot of sightings of this type of thing

1382

00:57:07,800 --> 00:57:04,240

like and I remember Belgium people said

1383

00:57:09,740 --> 00:57:07,810

that they were seeing them usually three

1384

00:57:13,730 --> 00:57:09,750

lights and a big one in the center

1385

00:57:19,110 --> 00:57:13,740

cetera here's what I do have to say okay

1386

00:57:21,560 --> 00:57:19,120

tr3 the tr3 is an there's there's

1387

00:57:25,530 --> 00:57:21,570

actually two different aircraft at tr3

1388

00:57:28,230 --> 00:57:25,540

that i talked about as a potential

1389

00:57:31,680 --> 00:57:28,240

aircraft that has existed is a

1390

00:57:35,220 --> 00:57:31,690

reconnaissance aircraft and potentially

1391

00:57:38,100 --> 00:57:35,230

electronic warfare aircraft that was and

1392

00:57:41,400 --> 00:57:38,110

yeah that was developed you know in the

1393

00:57:45,210 --> 00:57:41,410

late 80s early 90s and deployed in very

1394

00:57:48,780 --> 00:57:45,220

small numbers for a period of time that

1395

00:57:53,490 --> 00:57:48,790

aircraft is known widely in the defense

1396

00:57:55,440 --> 00:57:53,500

circles as Black Manta it would have a

1397

00:57:58,220 --> 00:57:55,450

very similar plan form to what we're

1398

00:58:00,660 --> 00:57:58,230

talking about it's not an antigravity

1399

00:58:04,140 --> 00:58:00,670

vehicle it's an airplane you know it

1400

00:58:06,540 --> 00:58:04,150

just looks different and that aircraft

1401

00:58:08,400 --> 00:58:06,550

there's lots of different spottings and

1402

00:58:10,710 --> 00:58:08,410

really there's a whole beyond what

1403

00:58:13,530 --> 00:58:10,720

people have seen about it there's a

1404

00:58:15,510 --> 00:58:13,540

whole in the lineage of what what is

1405

00:58:19,470 --> 00:58:15,520

like persistent surveillance over enemy

1406

00:58:22,200 --> 00:58:19,480

territory reconnaissance changed for the

1407

00:58:25,560 --> 00:58:22,210

Air Force dramatically in the late or

1408

00:58:27,690 --> 00:58:25,570

late 70s early 80s before then it's

1409

00:58:29,880 --> 00:58:27,700

about the you - it's about satellites

1410

00:58:31,110 --> 00:58:29,890

it's about the sr-71 blackbird mainly

1411

00:58:33,600 --> 00:58:31,120

right for strategic time and

1412

00:58:35,790 --> 00:58:33,610

connaissance what those things do is

1413

00:58:37,350 --> 00:58:35,800

they fly over they take a picture or

1414

00:58:40,940 --> 00:58:37,360

they take readings at a moment of time

1415

00:58:45,890 --> 00:58:40,950

it is a snapshot device okay

1416

00:58:51,680 --> 00:58:45,900

whereas in the early 80s an aircraft

1417

00:58:54,329 --> 00:58:51,690

named tacit blue made by Northrop

1418

00:58:58,740 --> 00:58:54,339

stealth aircraft that was able to fill

1419

00:59:01,079 --> 00:58:58,750

the massive radar and use data links

1420

00:59:02,760 --> 00:59:01,089

that were hard to intercept by the enemy

1421

00:59:04,829 --> 00:59:02,770

name they couldn't really detect where

1422

00:59:06,270 --> 00:59:04,839

emissions were coming from so they

1423

00:59:08,790 --> 00:59:06,280

couldn't detect the aircraft in the

1424

00:59:10,950 --> 00:59:08,800

airspace even by its own emissions even

1425

00:59:13,829 --> 00:59:10,960

though it was also incredibly hard to

1426

00:59:15,990 --> 00:59:13,839

spot by radar this aircraft and this is

1427

00:59:17,940 --> 00:59:16,000

all known all Declassified you know you

1428

00:59:21,630 --> 00:59:17,950

can read all about it tacit blue also

1429

00:59:25,050 --> 00:59:21,640

called the whale this aircraft proved

1430

00:59:28,920 --> 00:59:25,060

that you can send a surveillance system

1431

00:59:31,020 --> 00:59:28,930

with high-powered emitters like a radar

1432

00:59:32,940 --> 00:59:31,030

and data links which have to do with

1433

00:59:34,770 --> 00:59:32,950

unmanned systems it's how you would

1434

00:59:36,930 --> 00:59:34,780

control unmanned system and pass

1435

00:59:38,790 --> 00:59:36,940

information off that aircraft to the

1436

00:59:41,160 --> 00:59:38,800

ground or around the world for

1437

00:59:44,069 --> 00:59:41,170

exploitation it was proven that that

1438

00:59:46,680 --> 00:59:44,079

system could persist over enemy

1439

00:59:50,120 --> 00:59:46,690

territory for long periods of time and

1440

00:59:53,280 --> 00:59:50,130

get a much sweeter grade of intelligence

1441

00:59:54,839 --> 00:59:53,290

then a blackbird could or satellite knew

1442

00:59:58,710 --> 00:59:54,849

that it just takes a picture readings in

1443

01:00:03,300 --> 00:59:58,720

a moment in time okay that that

1444

01:00:07,230 --> 01:00:03,310

revolution and surveillance came later

1445

01:00:10,079 --> 01:00:07,240

on as stealth progressed we didn't see

1446

01:00:13,559 --> 01:00:10,089

that appear as an actual operational

1447

01:00:16,500 --> 01:00:13,569

aircraft until the rq-170 first appeared

1448

01:00:21,390 --> 01:00:16,510

in Kandahar Afghanistan in the late

1449

01:00:24,750 --> 01:00:21,400

2000s okay we did that that it was like

1450

01:00:27,030 --> 01:00:24,760

you know decades before that incredible

1451  
01:00:29,910 --> 01:00:27,040  
capability was supposedly operationally

1452  
01:00:33,690 --> 01:00:29,920  
fielded in a different fashion but the

1453  
01:00:39,800 --> 01:00:33,700  
same idea yeah there is a huge gap

1454  
01:00:42,660 --> 01:00:39,810  
between tacit blue and that rq-170 that

1455  
01:00:45,180 --> 01:00:42,670  
obviously the Air Force was very

1456  
01:00:47,430 --> 01:00:45,190  
interested in in that capability and

1457  
01:00:48,720 --> 01:00:47,440  
filming it but we don't have and we have

1458  
01:00:52,349 --> 01:00:48,730  
no program that did it

1459  
01:00:54,299 --> 01:00:52,359  
it's like it just went away and so the

1460  
01:00:56,670 --> 01:00:54,309  
tr3 that the black man

1461  
01:00:58,529 --> 01:00:56,680  
that I talked about or an aircraft

1462  
01:01:00,209 --> 01:00:58,539  
similar to it would have been a

1463  
01:01:02,189 --> 01:01:00,219

penetrating reconnaissance and

1464

01:01:03,689 --> 01:01:02,199

electronic warfare aircraft that would

1465

01:01:06,870 --> 01:01:03,699

have been manned that would have bridged

1466

01:01:09,299 --> 01:01:06,880

that gap between tacit blue and the RQ

1467

01:01:12,089 --> 01:01:09,309

and seventy that we see today that

1468

01:01:14,609 --> 01:01:12,099

aircraft had been flying in the 90s it

1469

01:01:16,439 --> 01:01:14,619

would have been you know deployed to

1470

01:01:19,289 --> 01:01:16,449

operational theatres in the Middle East

1471

01:01:21,779 --> 01:01:19,299

and it would have done everything from

1472

01:01:24,719 --> 01:01:21,789

battle damage assessment and worked with

1473

01:01:27,359 --> 01:01:24,729

potentially the f-117 or stealth attack

1474

01:01:29,609 --> 01:01:27,369

aircraft to also provide maybe

1475

01:01:31,229 --> 01:01:29,619

electronic warfare for deployed so it

1476

01:01:33,329 --> 01:01:31,239

can help make those aircraft more

1477

01:01:35,429 --> 01:01:33,339

survivable so we don't know if it

1478

01:01:37,349 --> 01:01:35,439

existed there's a lot of rumors about it

1479

01:01:41,759 --> 01:01:37,359

but like I say what we do know is that

1480

01:01:44,189 --> 01:01:41,769

there's a gap okay and I believe that an

1481

01:01:49,140 --> 01:01:44,199

aircraft like that would be something

1482

01:01:53,069 --> 01:01:49,150

that people would very easily look at

1483

01:01:55,259 --> 01:01:53,079

and say oh my gosh that is like nothing

1484

01:01:59,339 --> 01:01:55,269

I've ever seen it's a you know a fine

1485

01:02:00,599 --> 01:01:59,349

wedge maybe that could have easily I

1486

01:02:05,219 --> 01:02:00,609

think it could have easily been

1487

01:02:08,910 --> 01:02:05,229

construed as this other tr-3b craft that

1488

01:02:12,539 --> 01:02:08,920

you know we have less of a at least a

1489

01:02:14,789 --> 01:02:12,549

historical reason for it existing and

1490

01:02:17,900 --> 01:02:14,799

you know a background for it to actually

1491

01:02:19,919 --> 01:02:17,910

come into play so they do line up

1492

01:02:21,509 --> 01:02:19,929

timeline when this thing started to

1493

01:02:23,969 --> 01:02:21,519

appear and kind of when this here this

1494

01:02:26,429 --> 01:02:23,979

actual aircraft or this you know more

1495

01:02:29,759 --> 01:02:26,439

vikas's should say less exotic aircraft

1496

01:02:30,509 --> 01:02:29,769

who could have been flying and so that's

1497

01:02:31,979 --> 01:02:30,519

something to keep in mind

1498

01:02:33,239 --> 01:02:31,989

and there's other and not just the

1499

01:02:36,779 --> 01:02:33,249

sightings that we've seen there's a

1500

01:02:39,329 --> 01:02:36,789

crash in the UK where at the base over

1501

01:02:41,910 --> 01:02:39,339

there where connect kinetic is based

1502

01:02:44,249 --> 01:02:41,920

where they do all the testing that you

1503

01:02:48,059 --> 01:02:44,259

can read about that very well could have

1504

01:02:50,279 --> 01:02:48,069

been this similar aircraft so something

1505

01:02:51,959 --> 01:02:50,289

to think about that you know there was a

1506

01:02:54,319 --> 01:02:51,969

very similar project that potentially

1507

01:02:56,549 --> 01:02:54,329

existed it's still highly classified huh

1508

01:02:58,289 --> 01:02:56,559

that could have looked very much like

1509

01:02:59,849 --> 01:02:58,299

something like we've been described but

1510

01:03:02,339 --> 01:02:59,859

it wouldn't have been an antigravity

1511

01:03:03,660 --> 01:03:02,349

machine anything like this mhm you know

1512

01:03:06,209 --> 01:03:03,670

it would have been something much more

1513

01:03:06,860 --> 01:03:06,219

you know less exotic but it still look

1514

01:03:09,770 --> 01:03:06,870

interesting

1515

01:03:11,450 --> 01:03:09,780

it looks similar yeah oh that's cool all

1516

01:03:14,750 --> 01:03:11,460

right I got one more question for you

1517

01:03:18,610 --> 01:03:14,760

I'll let you go but you mentioned how

1518

01:03:20,930 --> 01:03:18,620

you're contacted constantly with various

1519

01:03:23,240 --> 01:03:20,940

UFO sighting reports and things people

1520

01:03:27,380 --> 01:03:23,250

wanting you to to tell them what they've

1521

01:03:29,630 --> 01:03:27,390

seen what is the most fascinating or I

1522

01:03:32,240 --> 01:03:29,640

guess intriguing report you've ever

1523

01:03:33,800 --> 01:03:32,250

received you know it hasn't been

1524

01:03:36,770 --> 01:03:33,810

something that was sent to me okay you

1525

01:03:39,260 --> 01:03:36,780

know I have somebody that I have no and

1526

01:03:41,390 --> 01:03:39,270

you know I some people I know

1527

01:03:44,000 --> 01:03:41,400

saw something in the eighties that to

1528

01:03:46,850 --> 01:03:44,010

this day and I really don't want to get

1529

01:03:48,350 --> 01:03:46,860

into it but to this day is the most

1530

01:03:50,540 --> 01:03:48,360

amazing report I've ever heard from

1531

01:03:51,860 --> 01:03:50,550

people that never watched Star Trek they

1532

01:03:53,720 --> 01:03:51,870

have no interest in ending like this

1533

01:03:56,330 --> 01:03:53,730

nothing that you know they're they've

1534

01:03:58,850 --> 01:03:56,340

got no in fact it was a very big burden

1535

01:04:00,950 --> 01:03:58,860

to them I think more than it was an

1536

01:04:03,260 --> 01:04:00,960

incredible experience where maybe you or

1537

01:04:05,930 --> 01:04:03,270

I would have loved it regardless of you

1538

01:04:08,780 --> 01:04:05,940

know the fear of seeing something that

1539

01:04:10,310 --> 01:04:08,790

was unexplained but you know so that's

1540

01:04:12,170 --> 01:04:10,320

maybe that's really the only thing that

1541

01:04:15,440 --> 01:04:12,180

I've known anybody that personally that

1542

01:04:18,200 --> 01:04:15,450

has had something that was very unique

1543

01:04:21,410 --> 01:04:18,210

now I get stuff a lot of people that see

1544

01:04:25,300 --> 01:04:21,420

stuff in the sky a lot of conclusions of

1545

01:04:28,760 --> 01:04:25,310

notes like I say military bases nearby

1546

01:04:30,710 --> 01:04:28,770

you know when I let's put it this way

1547

01:04:33,080 --> 01:04:30,720

then when I wrote the piece on the

1548

01:04:35,780 --> 01:04:33,090

aircraft when I put that together the on

1549

01:04:38,870 --> 01:04:35,790

the aircraft October 25th deal that we

1550

01:04:41,420 --> 01:04:38,880

discussed previously yeah that came off

1551  
01:04:43,730 --> 01:04:41,430  
of people that kind of I knew in the

1552  
01:04:45,740 --> 01:04:43,740  
northwest here that are in the aviation

1553  
01:04:47,030 --> 01:04:45,750  
world that said hey kind of heard rumors

1554  
01:04:49,100 --> 01:04:47,040  
that this sort of happened

1555  
01:04:51,110 --> 01:04:49,110  
bits and pieces maybe there's an

1556  
01:04:53,330 --> 01:04:51,120  
airplane there's a scramble with f-15s

1557  
01:04:55,280 --> 01:04:53,340  
and I didn't even think twice of it I

1558  
01:04:58,130 --> 01:04:55,290  
didn't look into it cuz I hear that all

1559  
01:05:01,310 --> 01:04:58,140  
the time right you know and I came

1560  
01:05:02,690 --> 01:05:01,320  
across a reddit thread of pilots and air

1561  
01:05:04,400 --> 01:05:02,700  
traffic controllers that were involved

1562  
01:05:07,040 --> 01:05:04,410  
potentially in that matched what I'd

1563  
01:05:10,040 --> 01:05:07,050

heard in pieces right all sudden it was

1564

01:05:11,750 --> 01:05:10,050

sort of you know corroborated at least

1565

01:05:14,690 --> 01:05:11,760

on it's like a social media level which

1566

01:05:16,730 --> 01:05:14,700

is a very low bar okay yeah but that's

1567

01:05:18,530 --> 01:05:16,740

how its that spurred me to go and

1568

01:05:20,580 --> 01:05:18,540

actually look into this and then go to

1569

01:05:22,740 --> 01:05:20,590

the FAA go through all the steps DeMille

1570

01:05:26,070 --> 01:05:22,750

Terry to get to where we we eventually

1571

01:05:30,420 --> 01:05:26,080

got yeah so the majority of them are not

1572

01:05:33,180 --> 01:05:30,430

are are just you know they're just Chuck

1573

01:05:34,860 --> 01:05:33,190

a couple of them I mean some people done

1574

01:05:36,930 --> 01:05:34,870

their own FOIA is and come up with some

1575

01:05:40,500 --> 01:05:36,940

interesting stuff they saw aircraft or

1576

01:05:42,570 --> 01:05:40,510

fighter aircraft following object and

1577

01:05:44,760 --> 01:05:42,580

you know they've actually got responses

1578

01:05:47,730 --> 01:05:44,770

from inconclusive radar returns and

1579

01:05:49,860 --> 01:05:47,740

things so there's some of that I get a

1580

01:05:53,670 --> 01:05:49,870

lot of black helicopter stuff sure I

1581

01:05:55,770 --> 01:05:53,680

mean it endless stuff about oh my gosh

1582

01:05:59,100 --> 01:05:55,780

black helicopters I see him all the time

1583

01:06:01,320 --> 01:05:59,110

did it I mean listen like the hundred

1584

01:06:03,630 --> 01:06:01,330

sixth are the 160th special operations

1585

01:06:05,340 --> 01:06:03,640

here regiment are the guys that are kind

1586

01:06:07,350 --> 01:06:05,350

of the top of the line for the army you

1587

01:06:09,990 --> 01:06:07,360

know and for all Special Operations they

1588

01:06:12,150 --> 01:06:10,000

fly charcoal black helicopters you know

1589

01:06:13,590 --> 01:06:12,160

they train everywhere they train all

1590

01:06:15,840 --> 01:06:13,600

over they train in urban environments

1591

01:06:17,550 --> 01:06:15,850

mm-hmm you know they'll go to urban if I

1592

01:06:18,960 --> 01:06:17,560

date I mean you can look up Denver and

1593

01:06:21,420 --> 01:06:18,970

see them flying around it spooked a

1594

01:06:23,250 --> 01:06:21,430

bunch of people listen it's just a

1595

01:06:26,550 --> 01:06:23,260

military capability they're not doing

1596

01:06:28,230 --> 01:06:26,560

anything more than training for you know

1597

01:06:30,510 --> 01:06:28,240

what they do and what they do is they

1598

01:06:32,700 --> 01:06:30,520

fight they go and kill bad guys I mean

1599

01:06:34,020 --> 01:06:32,710

they have a hard pretty hardcore job at

1600

01:06:36,060 --> 01:06:34,030

that they're busy doing that they're not

1601  
01:06:38,130 --> 01:06:36,070  
busy million cows or anything else

1602  
01:06:42,360 --> 01:06:38,140  
they're the busy training for those

1603  
01:06:43,770 --> 01:06:42,370  
capabilities so you know a lot of times

1604  
01:06:46,440 --> 01:06:43,780  
it's always an object that's seen and

1605  
01:06:47,940 --> 01:06:46,450  
then a helicopter peers but then you

1606  
01:06:50,370 --> 01:06:47,950  
look at it doesn't make any sense what

1607  
01:06:51,960 --> 01:06:50,380  
they're saying so I you know I just had

1608  
01:06:54,200 --> 01:06:51,970  
one just you know that we're on the

1609  
01:06:56,940 --> 01:06:54,210  
topic of like hoaxes or maybe

1610  
01:07:01,620 --> 01:06:56,950  
misunderstandings or whatever sure I saw

1611  
01:07:04,680 --> 01:07:01,630  
a image was sent to me of a very unique

1612  
01:07:06,240 --> 01:07:04,690  
looking swing wing bomber looking

1613  
01:07:10,470 --> 01:07:06,250

aircraft that was supposedly spotted in

1614

01:07:12,720 --> 01:07:10,480

South Carolina you know it was a very

1615

01:07:15,000 --> 01:07:12,730

unique looking picture I look through it

1616

01:07:16,980 --> 01:07:15,010

with my with my editing you know my

1617

01:07:19,080 --> 01:07:16,990

photo mm-hmm knowledge and I'm just not

1618

01:07:21,540 --> 01:07:19,090

incredible but I could work Photoshop a

1619

01:07:23,670 --> 01:07:21,550

bit to see if there's any real quick

1620

01:07:26,130 --> 01:07:23,680

signs that there is any issues with the

1621

01:07:27,570 --> 01:07:26,140

image and that didn't show up and so I

1622

01:07:29,310 --> 01:07:27,580

just put it on Twitter and said hey guys

1623

01:07:30,930 --> 01:07:29,320

this is probably a hoax but what do you

1624

01:07:32,190 --> 01:07:30,940

think you know I've all but bunch of

1625

01:07:34,530 --> 01:07:32,200

Defense people fall I mean everything

1626

01:07:36,380 --> 01:07:34,540

else and you know it

1627

01:07:38,310 --> 01:07:36,390

we went through people were pretty

1628

01:07:39,810 --> 01:07:38,320

stunned by it they were like oh that

1629

01:07:42,300 --> 01:07:39,820

looks you know like this like that

1630

01:07:43,710 --> 01:07:42,310

everybody was engaged trying to figure

1631

01:07:46,700 --> 01:07:43,720

out about what it was yeah

1632

01:07:49,350 --> 01:07:46,710

and one guy puts up a clip from a

1633

01:07:51,750 --> 01:07:49,360

documentary really well done little

1634

01:07:53,850 --> 01:07:51,760

documentary about the supersonic

1635

01:07:57,120 --> 01:07:53,860

transport that was Boeing designed in

1636

01:07:59,160 --> 01:07:57,130

the 60s and found the exact clip that

1637

01:08:00,990 --> 01:07:59,170

this guy who swore to me that this was

1638

01:08:02,460 --> 01:08:01,000

this this and this and you know

1639

01:08:05,760 --> 01:08:02,470

obviously I didn't take it I knew that

1640

01:08:08,420 --> 01:08:05,770

this was probably not real that's why I

1641

01:08:10,950 --> 01:08:08,430

put it in ask people what they thought

1642

01:08:13,080 --> 01:08:10,960

you know and I go back to the guy and I

1643

01:08:14,400 --> 01:08:13,090

say hey man what why I wasn't even mad

1644

01:08:17,130 --> 01:08:14,410

because I know nuts exist

1645

01:08:19,829 --> 01:08:17,140

you know I said but what's the what's

1646

01:08:21,390 --> 01:08:19,839

the get out of this for me like what you

1647

01:08:23,220 --> 01:08:21,400

know I mean yeah I'd even make that

1648

01:08:25,440 --> 01:08:23,230

article on or anything I just was gonna

1649

01:08:28,559 --> 01:08:25,450

get debunked yeah and I get crazy

1650

01:08:30,930 --> 01:08:28,569

talking back just just not even like the

1651

01:08:33,480 --> 01:08:30,940

guy went from being able to discuss

1652

01:08:34,800 --> 01:08:33,490

normal conversation with people to just

1653

01:08:38,370 --> 01:08:34,810

random crazy talk

1654

01:08:39,840 --> 01:08:38,380

people have their motivations I'm

1655

01:08:42,030 --> 01:08:39,850

telling you this they have their

1656

01:08:44,250 --> 01:08:42,040

motivations they want to put they want

1657

01:08:48,030 --> 01:08:44,260

to see something they want to be they

1658

01:08:50,880 --> 01:08:48,040

want attention they want to be I don't

1659

01:08:53,940 --> 01:08:50,890

know if it I don't understand it but I

1660

01:08:56,520 --> 01:08:53,950

do understand that exists and I just saw

1661

01:08:59,160 --> 01:08:56,530

all your viewers please don't feed them

1662

01:09:01,470 --> 01:08:59,170

you know try to debunk it put it out

1663

01:09:04,200 --> 01:09:01,480

there you know and say hey how can we

1664

01:09:06,270 --> 01:09:04,210

debunk this don't say hey isn't this is

1665

01:09:07,950 --> 01:09:06,280

proof that this this is happening and

1666

01:09:09,870 --> 01:09:07,960

they're all around us and you know

1667

01:09:13,079 --> 01:09:09,880

there's this extrapolation that rolls

1668

01:09:16,740 --> 01:09:13,089

out I think that everybody would be

1669

01:09:18,780 --> 01:09:16,750

better off in that in both any sort of

1670

01:09:21,059 --> 01:09:18,790

scientific level or any looking at any

1671

01:09:23,309 --> 01:09:21,069

sort of object in the sky or trying to

1672

01:09:25,530 --> 01:09:23,319

figure out what is happening that world

1673

01:09:28,020 --> 01:09:25,540

around us if they were skeptics first

1674

01:09:30,329 --> 01:09:28,030

and tried to find the when those people

1675

01:09:33,450 --> 01:09:30,339

are proven to be a hoax and they've they

1676

01:09:35,520 --> 01:09:33,460

perpetuated it knowingly ostracize them

1677

01:09:38,099 --> 01:09:35,530

don't give them don't feed them because

1678

01:09:40,140 --> 01:09:38,109

that those same guys are being paid

1679

01:09:43,260 --> 01:09:40,150

money to go on History Channel and going

1680

01:09:46,260 --> 01:09:43,270

on these ridiculous programs that that

1681

01:09:48,269 --> 01:09:46,270

go out and put a bunch of stuff into

1682

01:09:51,180 --> 01:09:48,279

normal people's heads that aren't act

1683

01:09:53,910 --> 01:09:51,190

and it reads the chances of us finding

1684

01:09:56,040 --> 01:09:53,920

out real information that can change

1685

01:09:58,110 --> 01:09:56,050

maybe you know the course of human

1686

01:10:00,240 --> 01:09:58,120

events okay who knows yeah that's right

1687

01:10:02,400 --> 01:10:00,250

so that's all you know that's my case

1688

01:10:04,020 --> 01:10:02,410

and it's not just me you know it's the

1689

01:10:05,820 --> 01:10:04,030

it's the United States Department of

1690

01:10:07,700 --> 01:10:05,830

fence that agrees this is something that

1691

01:10:11,490 --> 01:10:07,710

they're interested yeah that's very true

1692

01:10:14,520 --> 01:10:11,500

Tyler you do fantastic work and you know

1693

01:10:16,800 --> 01:10:14,530

the Oregon UFO story was just you know

1694

01:10:22,710 --> 01:10:16,810

absolute fun to listen through that

1695

01:10:24,630 --> 01:10:22,720

audio so thank you for sure your your

1696

01:10:26,880 --> 01:10:24,640

journalism your responsible journalism

1697

01:10:28,470 --> 01:10:26,890

and your diving and doing the FOIA to

1698

01:10:30,930 --> 01:10:28,480

get that information because that's such

1699

01:10:32,370 --> 01:10:30,940

a fascinating case but you do good work

1700

01:10:34,050 --> 01:10:32,380

where can people go what's the best

1701

01:10:37,140 --> 01:10:34,060

place for people to go to follow what

1702

01:10:39,390 --> 01:10:37,150

you do really simple it's the war zone

1703

01:10:42,030 --> 01:10:39,400

calm they'll take the rights of my

1704

01:10:43,470 --> 01:10:42,040

particular page and you can go look

1705

01:10:46,080 --> 01:10:43,480

through our articles what we do every

1706

01:10:48,180 --> 01:10:46,090

day and happy to have your viewers and

1707

01:10:50,220 --> 01:10:48,190

listeners come on over and listen if you

1708

01:10:52,140 --> 01:10:50,230

in it don't be afraid to send me an

1709

01:10:55,110 --> 01:10:52,150

email you know I love to chat or you

1710

01:10:56,790 --> 01:10:55,120

know if you do see something happy to

1711

01:10:59,370 --> 01:10:56,800

look at it for you but just keep in mind

1712

01:11:01,320 --> 01:10:59,380

I'm not you know I'm not there to be a

1713

01:11:03,840 --> 01:11:01,330

cheerleader I'm there to tell you that

1714

01:11:06,390 --> 01:11:03,850

it's it's either nothing or I don't know

1715

01:11:08,460 --> 01:11:06,400

or maybe I can't identify it but you

1716

01:11:10,590 --> 01:11:08,470

know I'm not there to perpetuate any

1717

01:11:14,670 --> 01:11:10,600

sort of hoaxes or you know anything like

1718

01:11:15,990 --> 01:11:14,680

that you're somebody with specific

1719

01:11:18,750 --> 01:11:16,000

knowledge and that's a valuable tool

1720

01:11:20,130 --> 01:11:18,760

right and I'm but I'm happy that I love

1721

01:11:22,590 --> 01:11:20,140

to talk to people I love to talk to my

1722

01:11:24,150 --> 01:11:22,600

readers and you know happy to engage on

1723

01:11:26,160 --> 01:11:24,160

that level and and hopefully we can get

1724

01:11:28,380 --> 01:11:26,170

it's more information about what's going

1725

01:11:30,330 --> 01:11:28,390

on and on all different levels and like

1726

01:11:32,490 --> 01:11:30,340

I say this this DoD thing was a big

1727

01:11:34,320 --> 01:11:32,500

break for the for all of this and

1728

01:11:36,600 --> 01:11:34,330

hopefully we can learn more in the

1729

01:11:38,700 --> 01:11:36,610

future it might just be a matter of time

1730

01:11:40,080 --> 01:11:38,710

yeah well said well thank you so much

1731

01:11:40,650 --> 01:11:40,090

for hanging out today Tyler we really

1732

01:11:42,330 --> 01:11:40,660

appreciate it

1733

01:11:43,740 --> 01:11:42,340

hey no worries have a good one and

1734

01:11:45,090 --> 01:11:43,750

thanks for talking I appreciate it

1735

01:11:46,200 --> 01:11:45,100

thanks again to Tyler for taking the

1736

01:11:49,230 --> 01:11:46,210

time to talk with us about these

1737

01:11:50,880 --> 01:11:49,240

fascinating UFO encounters if you

1738

01:11:52,800 --> 01:11:50,890

haven't listened to any of it I

1739

01:11:55,200 --> 01:11:52,810

encourage you to go to the war zone calm

1740

01:11:58,140 --> 01:11:55,210

and listen to some of the audio from

1741

01:11:59,940 --> 01:11:58,150

either of these incidents let's all for

1742

01:12:01,620 --> 01:11:59,950

this episode of spacing out let us know

1743

01:12:01,920 --> 01:12:01,630

if you enjoyed today's show by liking

1744

01:12:03,600 --> 01:12:01,930

the up

1745

01:12:05,820 --> 01:12:03,610

it on YouTube and leaving us your

1746

01:12:08,640 --> 01:12:05,830

comments in the section below you can

1747

01:12:11,130 --> 01:12:08,650

also download our UFO podcast unknown on

1748

01:12:14,910 --> 01:12:11,140

Apple podcast or listen at rogue planet

1749

01:12:16,620 --> 01:12:14,920

TV slash unknown we also invite you to

1750

01:12:18,180 --> 01:12:16,630

join us in our rogue planet Facebook

1751  
01:12:20,700 --> 01:12:18,190  
group where we post things related to

1752  
01:12:22,230 --> 01:12:20,710  
spacing out and wrote planet this group

1753  
01:12:24,210 --> 01:12:22,240  
is an easy place for you to interact

1754  
01:12:25,950 --> 01:12:24,220  
with us join in on the conversation and

1755  
01:12:27,870 --> 01:12:25,960  
all the things we talk about in this

1756  
01:12:30,210 --> 01:12:27,880  
show we've also just launched the rogue

1757  
01:12:31,860 --> 01:12:30,220  
planet store you can go to storage rogue

1758  
01:12:33,420 --> 01:12:31,870  
planet dot TV and check out all the

1759  
01:12:35,100 --> 01:12:33,430  
t-shirts and other offerings we have

1760  
01:12:37,560 --> 01:12:35,110  
there and we'll be sure to add new

1761  
01:12:39,600 --> 01:12:37,570  
products frequently our website rogue

1762  
01:12:41,670 --> 01:12:39,610  
planet TV is where you can go for all

1763  
01:12:44,310 --> 01:12:41,680

the latest UFO related news and other

1764

01:12:47,220 --> 01:12:44,320

strange content and follow us on twitter

1765

01:12:50,130 --> 01:12:47,230

at rope line at HQ our email address is

1766

01:12:52,110 --> 01:12:50,140

contact at rogue planet TV but if you

1767

01:12:54,300 --> 01:12:52,120

like to send us letters gifts or

1768

01:12:57,030 --> 01:12:54,310

anything else by mail you can do that

1769

01:12:59,850 --> 01:12:57,040

too just send it to rogue planet at 1934

1770

01:13:03,420 --> 01:12:59,860

East Camelback Road number 120 Phoenix

1771

01:13:04,920 --> 01:13:03,430

Arizona eight five zero one six thanks

1772

01:13:07,320 --> 01:13:04,930

again for joining us today I'm Maureen
