

BIOLOGIC

1
00:00:06,540 --> 00:00:00,170
there

2
00:00:09,020 --> 00:00:06,550
[Music]

3
00:00:09,380 --> 00:00:09,030
[Applause]

4
00:00:20,670 --> 00:00:09,390
[Music]

5
00:00:29,560 --> 00:00:23,019
greetings citizens and welcome to

6
00:00:36,790 --> 00:00:32,080
I'm Jason McClellan thanks for hanging

7
00:00:40,810 --> 00:00:36,800
out with me as you probably assumed I

8
00:00:43,060 --> 00:00:40,820
love talking about UFOs as someone who

9
00:00:45,280 --> 00:00:43,070
is incredibly fascinated by strange

10
00:00:48,820 --> 00:00:45,290
things and the mysteries of the universe

11
00:00:51,310 --> 00:00:48,830
I'm constantly intrigued by the UFO

12
00:00:54,490 --> 00:00:51,320
phenomenon for the most part the

13
00:00:57,579 --> 00:00:54,500

established pop-culture idea of a UFO is

14

00:00:59,369 --> 00:00:57,589

a physical spacecraft piloted by someone

15

00:01:02,350 --> 00:00:59,379

from an extraterrestrial civilization

16

00:01:04,450 --> 00:01:02,360

but plenty of researchers and authors

17

00:01:10,469 --> 00:01:04,460

have explored additional possibilities

18

00:01:13,960 --> 00:01:10,479

too now of course UFO doesn't mean

19

00:01:16,990 --> 00:01:13,970

extraterrestrial a UFO by definition is

20

00:01:18,580 --> 00:01:17,000

something simply that's in the sky and

21

00:01:20,910 --> 00:01:18,590

can't be identified at the time it's

22

00:01:23,139 --> 00:01:20,920

seen when we consider an

23

00:01:24,850 --> 00:01:23,149

extraterrestrial explanation for a UFO

24

00:01:27,490 --> 00:01:24,860

sighting however some of the

25

00:01:29,790 --> 00:01:27,500

alternatives to piloted spacecraft that

26

00:01:32,440 --> 00:01:29,800

researchers have put forward are

27

00:01:34,929 --> 00:01:32,450

extraterrestrial drones some sort of

28

00:01:38,350 --> 00:01:34,939

remotely controlled alien reconnaissance

29

00:01:41,770 --> 00:01:38,360

vehicle an intelligent flying robot

30

00:01:44,469 --> 00:01:41,780

alien and even a variation on the idea

31

00:01:47,830 --> 00:01:44,479

of a piloted craft a spaceship flown by

32

00:01:50,770 --> 00:01:47,840

someone but not originating or even

33

00:01:54,460 --> 00:01:50,780

fully existing in our dimension some of

34

00:01:58,109 --> 00:01:54,470

the ideas are a bit complex and probably

35

00:02:01,660 --> 00:01:58,119

a bit of a stretch but you never know

36

00:02:05,560 --> 00:02:01,670

however one idea that is quite

37

00:02:08,620 --> 00:02:05,570

conceivable in my opinion is the idea

38

00:02:10,870 --> 00:02:08,630

that some UFOs might be life forms that

39

00:02:15,100 --> 00:02:10,880

live in the sky you might think that

40

00:02:16,930 --> 00:02:15,110

sounds a little out there but think

41

00:02:19,539 --> 00:02:16,940

about this scientists have identified

42

00:02:21,819 --> 00:02:19,549

roughly 2 million species of life on

43

00:02:23,740 --> 00:02:21,829

Earth and scientists estimate that

44

00:02:25,810 --> 00:02:23,750

millions more out there waiting to be

45

00:02:28,660 --> 00:02:25,820

discovered the International Institute

46

00:02:31,750 --> 00:02:28,670

for species exploration says that

47

00:02:34,690 --> 00:02:31,760

approximately 18,000 new species are

48

00:02:37,300 --> 00:02:34,700

identified every year yeah I know there

49

00:02:39,250 --> 00:02:37,310

are a lot of remote jungle locations

50

00:02:42,159 --> 00:02:39,260

where lots of new life is discovered

51
00:02:43,089 --> 00:02:42,169
every year but my mind always goes to

52
00:02:45,940 --> 00:02:43,099
the ocean

53
00:02:49,149 --> 00:02:45,950
that's just an entire alien world right

54
00:02:52,989 --> 00:02:49,159
here on our own planet seventy percent

55
00:02:55,209 --> 00:02:52,999
of our world is covered by ocean and get

56
00:02:58,089 --> 00:02:55,219
this according to the National Oceanic

57
00:03:01,599 --> 00:02:58,099
and Atmospheric Administration we've

58
00:03:04,509 --> 00:03:01,609
only explored approximately 20% of the

59
00:03:07,929 --> 00:03:04,519
ocean that's just incredible to think

60
00:03:11,050 --> 00:03:07,939
about that 80% of that immense water

61
00:03:15,039 --> 00:03:11,060
world that covers 70% of our planet is a

62
00:03:17,050 --> 00:03:15,049
big unknown so back to the idea that our

63
00:03:20,409 --> 00:03:17,060

skies could be home to some type of life

64

00:03:22,569 --> 00:03:20,419

it's safe to assume that there are many

65

00:03:25,089 --> 00:03:22,579

more life forms inhabiting this planet

66

00:03:27,670 --> 00:03:25,099

that have yet to be discovered with this

67

00:03:30,250 --> 00:03:27,680

assumption that our planet contains many

68

00:03:32,470 --> 00:03:30,260

undiscovered creatures it becomes easier

69

00:03:35,709 --> 00:03:32,480

to entertain the possibility that some

70

00:03:39,610 --> 00:03:35,719

UFOs in the sky could be undiscovered

71

00:03:42,039 --> 00:03:39,620

life-forms this isn't a new idea author

72

00:03:44,140 --> 00:03:42,049

and historian Trevor James constable is

73

00:03:46,599 --> 00:03:44,150

certainly a pioneer of the theory that

74

00:03:49,420 --> 00:03:46,609

many UFOs are actually living beings or

75

00:03:52,869 --> 00:03:49,430

sky creatures as he calls them in his

76
00:03:55,119 --> 00:03:52,879
book sky creatures living UFOs constable

77
00:03:57,219 --> 00:03:55,129
details the research he conducted on

78
00:04:00,819 --> 00:03:57,229
these creatures and describes them as

79
00:04:04,059 --> 00:04:00,829
quote amoeba-like life-forms existing in

80
00:04:05,920 --> 00:04:04,069
the plasma state being a UFO researcher

81
00:04:09,429 --> 00:04:05,930
and someone who enjoys skywatching

82
00:04:12,369 --> 00:04:09,439
i've spent considerable time steering up

83
00:04:15,490 --> 00:04:12,379
into the vast open sky I've certainly

84
00:04:17,949 --> 00:04:15,500
seen lots of peculiar things and I

85
00:04:21,339 --> 00:04:17,959
consider myself pretty lucky to have

86
00:04:24,159 --> 00:04:21,349
seen a dozen or so weird aerial objects

87
00:04:25,659 --> 00:04:24,169
that I couldn't identify have I ever

88
00:04:28,270 --> 00:04:25,669

seen something that I thought could be

89

00:04:35,430 --> 00:04:28,280

some sort of atmospheric being well

90

00:04:41,680 --> 00:04:39,730

in January of 2009 I went to Mexico City

91

00:04:44,350 --> 00:04:41,690

to investigate a photographer named

92

00:04:46,840 --> 00:04:44,360

Arturo Robles Hill who routinely

93

00:04:49,660 --> 00:04:46,850

photographed incredible looking things

94

00:04:52,060 --> 00:04:49,670

in the sky most commonly these things

95

00:04:53,140 --> 00:04:52,070

that look like snakes or worms as they

96

00:04:57,910 --> 00:04:53,150

wiggle through the sky

97

00:05:00,130 --> 00:04:57,920

now to most people myself included most

98

00:05:03,010 --> 00:05:00,140

of these look like obvious balloon

99

00:05:05,350 --> 00:05:03,020

arches you know dozens and dozens of

100

00:05:08,350 --> 00:05:05,360

helium-filled balloons tethered together

101
00:05:11,410 --> 00:05:08,360
to form fun columns or arches used at

102
00:05:14,110 --> 00:05:11,420
weddings and parties things like that at

103
00:05:16,000 --> 00:05:14,120
the time this photographer was on the

104
00:05:18,700 --> 00:05:16,010
payroll of high-profile

105
00:05:21,120 --> 00:05:18,710
TV journalists Jaime Masson who is a

106
00:05:23,950 --> 00:05:21,130
controversial figure in the UFO field

107
00:05:28,120 --> 00:05:23,960
because of this connection people were

108
00:05:29,980 --> 00:05:28,130
even more skeptical of these photos so I

109
00:05:32,380 --> 00:05:29,990
was excited to go spend some time with

110
00:05:34,680 --> 00:05:32,390
Arturo to see if I could get a sense of

111
00:05:37,780 --> 00:05:34,690
whether this guy was participating in

112
00:05:40,000 --> 00:05:37,790
sensationalizing balloon photos or if he

113
00:05:42,430 --> 00:05:40,010

was really lucky enough to see truly

114

00:05:43,060 --> 00:05:42,440

mysterious aerial phenomena on a regular

115

00:05:46,030 --> 00:05:43,070

basis

116

00:05:48,190 --> 00:05:46,040

I arrived at Arturo's home early in the

117

00:05:50,170 --> 00:05:48,200

morning and we made our way to the

118

00:05:51,670 --> 00:05:50,180

building's rooftop that's where he

119

00:05:55,030 --> 00:05:51,680

claimed to observe all the mysterious

120

00:05:58,000 --> 00:05:55,040

objects in the sky I was incredibly

121

00:06:00,340 --> 00:05:58,010

fortunate to have it my disposal some

122

00:06:03,880 --> 00:06:00,350

pretty kick-ass equipment that included

123

00:06:06,640 --> 00:06:03,890

a Nikon d3x a 24 and a half megapixel

124

00:06:09,190 --> 00:06:06,650

digital SLR camera which was Nikon's

125

00:06:12,100 --> 00:06:09,200

flagship camera at the time and a

126
00:06:15,070 --> 00:06:12,110
monstrous Sigma ultra telephoto zoom

127
00:06:19,330 --> 00:06:15,080
lens if something wanted to show up I

128
00:06:21,550 --> 00:06:19,340
was ready to photograph it hours of sky

129
00:06:24,520 --> 00:06:21,560
watching past with nothing but a steady

130
00:06:26,050 --> 00:06:24,530
stream of airline traffic in the sky if

131
00:06:29,080 --> 00:06:26,060
you've never done any serious guy

132
00:06:32,470 --> 00:06:29,090
watching it's pretty boring and requires

133
00:06:34,720 --> 00:06:32,480
a hell of a lot of patience I really was

134
00:06:38,200 --> 00:06:34,730
about to give up but then I heard Arturo

135
00:06:40,270 --> 00:06:38,210
shout I see something I didn't see what

136
00:06:42,940 --> 00:06:40,280
he was pointing at so I grabbed some

137
00:06:46,210 --> 00:06:42,950
binoculars and with the binoculars I

138
00:06:47,029 --> 00:06:46,220

could see something but it was barely

139

00:06:50,600 --> 00:06:47,039

visible

140

00:06:53,209 --> 00:06:50,610

so it was time to break out the big guns

141

00:06:55,639 --> 00:06:53,219

I jumped behind the camera and tried to

142

00:06:57,829 --> 00:06:55,649

point it in the direction of the UFO I

143

00:07:00,139 --> 00:06:57,839

have to mention this about the camera

144

00:07:03,499 --> 00:07:00,149

setup remember how I said the signal

145

00:07:05,659 --> 00:07:03,509

lens was monstrous I don't think what

146

00:07:07,399 --> 00:07:05,669

you're imagining when I say that can

147

00:07:10,339 --> 00:07:07,409

come close to how big this length

148

00:07:14,389 --> 00:07:10,349

actually was this lens weighed more than

149

00:07:16,760 --> 00:07:14,399

34 pounds and was more than 28 inches

150

00:07:20,299 --> 00:07:16,770

long it looked more like a military

151
00:07:22,579 --> 00:07:20,309
weapon than a camera lens so because of

152
00:07:25,429 --> 00:07:22,589
its size I needed help operating the

153
00:07:27,769 --> 00:07:25,439
camera set up one person to control and

154
00:07:30,379 --> 00:07:27,779
aim the lens on the tripod and one to

155
00:07:32,119 --> 00:07:30,389
control the shutter on the camera when I

156
00:07:35,059 --> 00:07:32,129
jumped behind the camera I focused the

157
00:07:37,790 --> 00:07:35,069
lens and began snapping photos when I

158
00:07:40,519 --> 00:07:37,800
saw on the cameras monitor was unlike

159
00:07:44,480 --> 00:07:40,529
anything I had ever seen before

160
00:07:48,290 --> 00:07:44,490
I could clearly see this extremely high

161
00:07:50,749 --> 00:07:48,300
altitude object on the screen and what

162
00:07:54,019 --> 00:07:50,759
it look like to me was a jellyfish

163
00:07:56,540 --> 00:07:54,029

swimming through the sky this thing was

164

00:08:00,920 --> 00:07:56,550

translucent and it changed both shape

165

00:08:04,489 --> 00:08:00,930

and color yellow white red green and

166

00:08:06,499 --> 00:08:04,499

blue the yellow and white pulsing colors

167

00:08:08,860 --> 00:08:06,509

were likely just the sun's reflection

168

00:08:11,689 --> 00:08:08,870

off this white object as it moved and

169

00:08:14,869 --> 00:08:11,699

yeah you can see other colors and

170

00:08:18,170 --> 00:08:14,879

reflections too but it looked incredible

171

00:08:21,110 --> 00:08:18,180

in real time this UFO was spherical in

172

00:08:25,070 --> 00:08:21,120

shape and had an appendage that looked

173

00:08:27,049 --> 00:08:25,080

like a fiery glowing tail the sphere

174

00:08:31,029 --> 00:08:27,059

portion of the UFO looked like it had

175

00:08:33,829 --> 00:08:31,039

vanes or like a cranial membrane which

176

00:08:37,309 --> 00:08:33,839

definitely added to its biological

177

00:08:40,670 --> 00:08:37,319

parents this thing moved through the sky

178

00:08:42,740 --> 00:08:40,680

and was only visible for a moment the

179

00:08:46,040 --> 00:08:42,750

translucent object faded outta

180

00:08:48,050 --> 00:08:46,050

visibility right before my eyes becoming

181

00:08:49,639 --> 00:08:48,060

completely transparent and just

182

00:08:53,189 --> 00:08:49,649

disappearing

183

00:08:56,310 --> 00:08:53,199

to this day I can't fully explain what I

184

00:08:58,499 --> 00:08:56,320

observed in the sky above Mexico City it

185

00:09:01,170 --> 00:08:58,509

certainly led me to explore the

186

00:09:04,800 --> 00:09:01,180

possibility that Trevor James constable

187

00:09:07,110 --> 00:09:04,810

sky critters exist though I included

188

00:09:09,120 --> 00:09:07,120

this story and its accompanying photos

189

00:09:13,559 --> 00:09:09,130

in the now-defunct

190

00:09:16,530 --> 00:09:13,569

open minds magazine back in 2010 when I

191

00:09:21,210 --> 00:09:16,540

look at those photos today all I can see

192

00:09:24,689 --> 00:09:21,220

is a research balloon it really does

193

00:09:26,699 --> 00:09:24,699

look like a research balloon and most of

194

00:09:29,490 --> 00:09:26,709

the movements and behavior I observed

195

00:09:34,319 --> 00:09:29,500

are pretty consistent with research

196

00:09:37,499 --> 00:09:34,329

balloons mostly but although I

197

00:09:40,040 --> 00:09:37,509

acknowledge this I can't completely

198

00:09:42,780 --> 00:09:40,050

ignore what I saw with my own eyes

199

00:09:47,009 --> 00:09:42,790

seeing this high altitude object up

200

00:09:51,180 --> 00:09:47,019

close in real time man the photos just

201
00:09:54,960 --> 00:09:51,190
don't do it justice that being said

202
00:09:58,340 --> 00:09:54,970
again I think the best explanation for

203
00:10:03,329 --> 00:09:58,350
what I photograph that day was a balloon

204
00:10:05,519 --> 00:10:03,339
but as an objective researcher I always

205
00:10:08,960 --> 00:10:05,529
keep an open mind and leave the door

206
00:10:10,819 --> 00:10:08,970
open for other possibilities

207
00:10:14,939 --> 00:10:10,829
what about Arturo

208
00:10:17,400 --> 00:10:14,949
well my hours of staring at the sky on

209
00:10:20,370 --> 00:10:17,410
that rooftop on his building in Mexico

210
00:10:24,300 --> 00:10:20,380
City gave me time to get to know Arturo

211
00:10:27,990 --> 00:10:24,310
just a little bit and I've got to say I

212
00:10:30,480 --> 00:10:28,000
really have no way of knowing how honest

213
00:10:33,230 --> 00:10:30,490

the guy is or if he is the type of

214

00:10:36,870 --> 00:10:33,240

person who would perpetrate a hoax I

215

00:10:39,889 --> 00:10:36,880

just know that he seemed like a humble

216

00:10:43,769 --> 00:10:39,899

kind man who was soft-spoken and

217

00:10:46,980 --> 00:10:43,779

friendly I got the impression that he

218

00:10:50,910 --> 00:10:46,990

was genuinely mystified and curious

219

00:10:52,770 --> 00:10:50,920

about the things he photographed as for

220

00:10:54,570 --> 00:10:52,780

life in the sky

221

00:10:56,540 --> 00:10:54,580

you bet I believe there's some type of

222

00:11:00,180 --> 00:10:56,550

undiscovered creatures in our atmosphere

223

00:11:02,910 --> 00:11:00,190

we live on a big strange planet and

224

00:11:07,860 --> 00:11:02,920

there's still so much we don't know

225

00:11:09,900 --> 00:11:07,870

about it that's all for this episode of

226

00:11:12,420 --> 00:11:09,910

unknown I'd love to hear your thoughts

227

00:11:14,670 --> 00:11:12,430
