The

SWINWALKER

Debrief

1
00:00:00,440 --> 00:00:38,640

[Music]

2
00:00:42,460 --> 00:00:40,780

welcome to the skinwalker debrief I'm

3
00:00:44,410 --> 00:00:42,470

your host TJ Ella and I'm also one of

4
00:00:46,450 --> 00:00:44,420

the executive producers of the new TV

5
00:00:47,380 --> 00:00:46,460

series on history called the secret of

6
00:00:49,720 --> 00:00:47,390

skinwalker ranch

7
00:00:51,730 --> 00:00:49,730

I'm joyed each week by Jason McCullen

8
00:00:54,310 --> 00:00:51,740

and Marine Ellsbury and together we'll

9
00:00:56,320 --> 00:00:54,320

dissect each episode of the series and

10
00:00:58,240 --> 00:00:56,330

bring you some behind-the-scenes look

11
00:01:00,550 --> 00:00:58,250

tat stuff the more information and a

12
00:01:02,979 --> 00:01:00,560

little bit more insight so you can feel

13
00:01:05,460 --> 00:01:02,989

jealous like to be at the ranch or not

14

00:01:07,630 --> 00:01:05,470

I'd love you want to be there but anyway

15

00:01:09,460 --> 00:01:07,640

Jason's been exploring all the strange

16

00:01:12,010 --> 00:01:09,470

for more than a decade he's appeared on

17

00:01:14,859 --> 00:01:12,020

that geo sci-fi history and is the

18

00:01:16,530 --> 00:01:14,869

author of only weirdos see UFOs in

19

00:01:18,640 --> 00:01:16,540

introduction to the public's

20

00:01:20,859 --> 00:01:18,650

misperception of unidentified aerial

21

00:01:22,990 --> 00:01:20,869

phenomenon and extraterrestrial life

22

00:01:24,820 --> 00:01:23,000

Green is a journalist research and

23

00:01:26,920 --> 00:01:24,830

podcaster specializing in the anomalous

24

00:01:29,020 --> 00:01:26,930

she started a docu-series uncovering

25

00:01:30,969 --> 00:01:29,030

aliens on Animal Planet and served as

26

00:01:34,749 --> 00:01:30,979

the ambassador for science channels are

27

00:01:37,210 --> 00:01:34,759

real own initiative so this week these

28

00:01:39,160 --> 00:01:37,220

two are gonna help me like every week go

29

00:01:42,280 --> 00:01:39,170

through the latest episode of the

30

00:01:43,990 --> 00:01:42,290

secretive skinwalker ranch now this

31

00:01:46,870 --> 00:01:44,000

week's episode is called night visions

32

00:01:48,670 --> 00:01:46,880

and I guess it's kind of you know

33

00:01:50,500 --> 00:01:48,680

self-explanatory it's night vision so

34

00:01:52,149 --> 00:01:50,510

it's gonna be you're gonna see the stuff

35

00:01:55,090 --> 00:01:52,159

they're gonna see at night and a bunch

36

00:01:56,710 --> 00:01:55,100

of other things so I don't know where we

37

00:01:59,560 --> 00:01:56,720

should pick this up how you guys want to

38

00:02:01,990 --> 00:01:59,570

discuss this but I'm thinking the best

39

00:02:04,870 --> 00:02:02,000

way would be to talk about you know

40

00:02:06,520 --> 00:02:04,880

start at the beginning you know they

41

00:02:08,880 --> 00:02:06,530

recapped in the beginning of the episode

42

00:02:12,130 --> 00:02:08,890

you know episode starts and they recap

43

00:02:13,630 --> 00:02:12,140

what happened when last week you know

44

00:02:16,120 --> 00:02:13,640

bad things happen when you dig the first

45

00:02:20,229 --> 00:02:16,130

episode and they left us with the

46

00:02:24,039 --> 00:02:20,239

cliffhanger the case is a case yes

47

00:02:25,870 --> 00:02:24,049

what's in the case how many times did

48

00:02:29,620 --> 00:02:25,880

you see that mean was in the box with

49

00:02:32,020 --> 00:02:29,630

bread for the week so come on you guys

50

00:02:34,420 --> 00:02:32,030

tell me what like what did you think was

51
00:02:36,670 --> 00:02:34,430
in the case and what was your reactions

52
00:02:38,500 --> 00:02:36,680
when you saw what actually when you

53
00:02:41,210 --> 00:02:38,510
opened it up and what it really was okay

54
00:02:44,450 --> 00:02:41,220
so when I meant

55
00:02:48,290 --> 00:02:44,460
and my thoughts on what might be in the

56
00:02:51,110 --> 00:02:48,300
case last weekend your mic cut out I had

57
00:02:56,120 --> 00:02:51,120
said that I thought it was probably some

58
00:02:58,610 --> 00:02:56,130
sort of anomalous metal and and it

59
00:03:03,770 --> 00:02:58,620
appears that is what it actually is

60
00:03:07,700 --> 00:03:03,780
however I as we discussed previous to

61
00:03:10,430 --> 00:03:07,710
this recording did not realize that what

62
00:03:14,270 --> 00:03:10,440
was in the box was displayed as as the

63
00:03:18,940 --> 00:03:14,280

magnet that was been in the intro scene

64

00:03:24,800 --> 00:03:18,950

so for me it kind of went over my head I

65

00:03:29,120 --> 00:03:24,810

I think I don't understand it quite yet

66

00:03:31,790 --> 00:03:29,130

of why that was in a super secure

67

00:03:35,120 --> 00:03:31,800

location and where it was found and why

68

00:03:39,260 --> 00:03:35,130

it was pushed that way so I would love

69

00:03:41,090 --> 00:03:39,270

feedback on that nice um Jason what did

70

00:03:44,510 --> 00:03:41,100

you think when when the case was opened

71

00:03:46,550 --> 00:03:44,520

and we saw the magnet you know of course

72

00:03:49,670 --> 00:03:46,560

I as they were talking I was thinking

73

00:03:51,680 --> 00:03:49,680

hmm perhaps there's a really strong

74

00:03:53,449 --> 00:03:51,690

magnet in the case but then we saw the

75

00:03:55,750 --> 00:03:53,459

magnet I thought there must be something

76

00:03:59,330 --> 00:03:55,760

else under the magnet because that's

77

00:04:01,640 --> 00:03:59,340

come or it's just a round magnet in this

78

00:04:03,320 --> 00:04:01,650

Pelican case why is it under Pelican

79

00:04:05,900 --> 00:04:03,330

case and why is this why does this

80

00:04:08,449 --> 00:04:05,910

change every you you have a very big

81

00:04:10,490 --> 00:04:08,459

problem with Pelican cases last week you

82

00:04:15,440 --> 00:04:10,500

were like I don't understand that's my

83

00:04:18,530 --> 00:04:15,450

problem with it I guess what is it with

84

00:04:20,090 --> 00:04:18,540

Pelican cases man well Pelican cases I

85

00:04:23,450 --> 00:04:20,100

think they're just they should be used

86

00:04:25,790 --> 00:04:23,460

for certain things at first I don't I

87

00:04:27,920 --> 00:04:25,800

don't know it's not like helican cases

88

00:04:30,469 --> 00:04:27,930

is shielding anything from from the

89

00:04:32,390 --> 00:04:30,479

magnet either so see you know we should

90

00:04:35,360 --> 00:04:32,400

probably asked Eric I wonder if he did

91

00:04:36,830 --> 00:04:35,370

have it lined with something no why was

92

00:04:39,530 --> 00:04:36,840

it in that Pelican case I mean maybe he

93

00:04:41,000 --> 00:04:39,540

did um I can always go for storing

94

00:04:44,630 --> 00:04:41,010

everything though so I'm they are

95

00:04:47,690 --> 00:04:44,640

looking really cool so what's really

96

00:04:50,000 --> 00:04:47,700

interesting about that that magnet you

97

00:04:52,370 --> 00:04:50,010

know that has always been one of the

98

00:04:54,230 --> 00:04:52,380

things that they've noticed you know the

99

00:04:54,860 --> 00:04:54,240

electromagnetic energy that's on their

100

00:04:56,750 --> 00:04:54,870

ranch

101
00:04:58,370 --> 00:04:56,760
I mean an Eric goes into that a little

102
00:05:00,740 --> 00:04:58,380
bit about he thinks there could be

103
00:05:05,390 --> 00:05:00,750
something generating that underneath I

104
00:05:09,770 --> 00:05:05,400
meet the ranch now the funny story I

105
00:05:13,580 --> 00:05:09,780
believe one of the phones on it on the

106
00:05:15,860 --> 00:05:13,590
table was mine my old phone because

107
00:05:18,409 --> 00:05:15,870
while I was out there that happened to

108
00:05:21,260 --> 00:05:18,419
my phone my phone bricked battery died

109
00:05:25,670 --> 00:05:21,270
called screen turned pink at first this

110
00:05:29,300 --> 00:05:25,680
is was my old Galaxy s8 the screen

111
00:05:31,550 --> 00:05:29,310
turned pink and no idea why I kept doing

112
00:05:32,570 --> 00:05:31,560
it and then my battery died at one point

113
00:05:36,170 --> 00:05:32,580

and that was it

114

00:05:39,140 --> 00:05:36,180

couldn't get it back on we charged it we

115

00:05:41,780 --> 00:05:39,150

tried everything and then he took it

116

00:05:43,190 --> 00:05:41,790

apart in about four months it took in

117

00:05:45,650 --> 00:05:43,200

the jump started and he got it going

118

00:05:48,620 --> 00:05:45,660

again but he you know was telling me how

119

00:05:50,030 --> 00:05:48,630

it was super so fried and he was asking

120

00:05:51,730 --> 00:05:50,040

me if I could put it in a microwave and

121

00:05:54,440 --> 00:05:51,740

that's my hell's this ridiculous stuff

122

00:05:55,969 --> 00:05:54,450

but now I think he you know when he

123

00:05:57,950 --> 00:05:55,979

pulled that magnet on it was like ah

124

00:06:00,740 --> 00:05:57,960

because he had always theorized that

125

00:06:03,200 --> 00:06:00,750

there was something you know there was

126

00:06:04,640 --> 00:06:03,210

some kind of magnetism affecting things

127

00:06:07,730 --> 00:06:04,650

on the ranch which would explain a lot

128

00:06:09,650 --> 00:06:07,740

of the phenomenon like film being erased

129

00:06:11,240 --> 00:06:09,660

in the past you know I mean that was a

130

00:06:13,790 --> 00:06:11,250

big thing people would always lose

131

00:06:15,350 --> 00:06:13,800

footage well you know if you had it's

132

00:06:16,700 --> 00:06:15,360

kind of like the old devices that you

133

00:06:19,190 --> 00:06:16,710

were taking the blockbuster you know you

134

00:06:20,990 --> 00:06:19,200

go over the tapes the magnets eternally

135

00:06:23,210 --> 00:06:21,000

plug it in turn on the magnet and erase

136

00:06:26,270 --> 00:06:23,220

the tapes well I guess that had happened

137

00:06:30,770 --> 00:06:26,280

to a lot of people over the years so at

138

00:06:32,810 --> 00:06:30,780

at on the ranch and yeah so and one of

139

00:06:35,120 --> 00:06:32,820

the things that 11th I saw on Twitter a

140

00:06:37,129 --> 00:06:35,130

lot were people asking why no digging

141

00:06:38,900 --> 00:06:37,139

right I mean well I mean just we can go

142

00:06:43,219 --> 00:06:38,910

you know talk about that for three hours

143

00:06:47,210 --> 00:06:43,229

but Eric from my conversations with him

144

00:06:49,760 --> 00:06:47,220

is very he's very committed to doing

145

00:06:51,529 --> 00:06:49,770

observational science so he does not

146

00:06:53,960 --> 00:06:51,539

want to disturb anything he wants to be

147

00:06:55,520 --> 00:06:53,970

quiet and watch that's kind of the way

148

00:06:57,590 --> 00:06:55,530

he wanted to approach things watch and

149

00:07:01,070 --> 00:06:57,600

record watch and record so that's why

150

00:07:04,040 --> 00:07:01,080

any you know he lays it out pretty

151
00:07:05,630 --> 00:07:04,050
pretty pretty well for everyone but it's

152
00:07:07,540 --> 00:07:05,640
hard for people to understand like

153
00:07:10,390 --> 00:07:07,550
observational science isn't a sexy

154
00:07:11,050 --> 00:07:10,400
it's not you know necessarily doing cool

155
00:07:13,930 --> 00:07:11,060
stuff

156
00:07:17,830 --> 00:07:13,940
it's literally sitting and watching for

157
00:07:20,800 --> 00:07:17,840
a long time and hoping that's something

158
00:07:22,600 --> 00:07:20,810
you can something so that was kind of

159
00:07:26,050 --> 00:07:22,610
where uh you know his head was at the

160
00:07:28,480 --> 00:07:26,060
time and I think you know I think Brian

161
00:07:30,250 --> 00:07:28,490
I'm gonna laid it out like look when you

162
00:07:32,890 --> 00:07:30,260
can't dig there's you know there are

163
00:07:34,390 --> 00:07:32,900

risk factors here and let's just exhaust

164

00:07:36,340 --> 00:07:34,400

all these options first but I think we

165

00:07:38,080 --> 00:07:36,350

can do above the ground before you know

166

00:07:41,500 --> 00:07:38,090

we were doing thing and so I'm glad to

167

00:07:43,000 --> 00:07:41,510

see that you know he kind of went that

168

00:07:45,130 --> 00:07:43,010

way as opposed to people just all of a

169

00:07:50,260 --> 00:07:45,140

sudden pulling out shovels and digging

170

00:07:55,540 --> 00:07:50,270

you know you know yeah I think that's a

171

00:07:57,580 --> 00:07:55,550

very wise point Jason and I happen to be

172

00:08:02,140 --> 00:07:57,590

able to talk to our friend who is an

173

00:08:05,230 --> 00:08:02,150

inner disciplinary scientist geologist

174

00:08:06,940 --> 00:08:05,240

basically recently and we kind of he

175

00:08:09,000 --> 00:08:06,950

actually used to work for a big low

176
00:08:12,370 --> 00:08:09,010
aerospace so it's kind of a weird time

177
00:08:15,700 --> 00:08:12,380
however we asked him about his thoughts

178
00:08:17,560 --> 00:08:15,710
on the geology of the ranch and what's

179
00:08:21,850 --> 00:08:17,570
going on there and it was kind of

180
00:08:25,240 --> 00:08:21,860
interesting because I mean we first we

181
00:08:28,120 --> 00:08:25,250
projected the idea of you know when when

182
00:08:32,530 --> 00:08:28,130
we looked at Episode one we had that the

183
00:08:35,290 --> 00:08:32,540
ranch lit up on the ridge yeah he was

184
00:08:38,080 --> 00:08:35,300
talking about different heat and mineral

185
00:08:42,580 --> 00:08:38,090
things that maybe could attribute to

186
00:08:43,930 --> 00:08:42,590
that but then it got very much more

187
00:08:48,670 --> 00:08:43,940
interesting when we talked about

188
00:08:51,280 --> 00:08:48,680

dissecting possible minerals uranium and

189

00:08:54,850 --> 00:08:51,290

poisoning and what would that look like

190

00:08:59,890 --> 00:08:54,860

for bovine life and and for human life

191

00:09:03,670 --> 00:08:59,900

and I think there was no answer however

192

00:09:07,510 --> 00:09:03,680

there was some potential clues that

193

00:09:11,320 --> 00:09:07,520

would elicit like the idea that maybe we

194

00:09:14,530 --> 00:09:11,330

should dig in some sort of fashion but

195

00:09:18,680 --> 00:09:14,540

not really dig because this is not

196

00:09:21,110 --> 00:09:18,690

looking good for people Alan so

197

00:09:24,920 --> 00:09:21,120

I'm not sure how to accomplish that what

198

00:09:28,220 --> 00:09:24,930

I'm saying is that I feel like geology

199

00:09:30,559 --> 00:09:28,230

is a super big clue to everything that's

200

00:09:33,949 --> 00:09:30,569

going on and that we need to figure out

201
00:09:37,160 --> 00:09:33,959
the right way to dissect it in that

202
00:09:38,809 --> 00:09:37,170
manner I think that's pretty uh that's

203
00:09:41,389 --> 00:09:38,819
pretty reasonable assumptions I mean

204
00:09:44,840 --> 00:09:41,399
those that seems like I think that that

205
00:09:47,470 --> 00:09:44,850
is what people are kind of understanding

206
00:09:49,970 --> 00:09:47,480
it's not the woowoo there's something

207
00:09:51,650 --> 00:09:49,980
actually going on here that they're

208
00:09:53,030 --> 00:09:51,660
going to get to the bottom of it using a

209
00:09:55,309 --> 00:09:53,040
scientific event using the scientific

210
00:09:58,040 --> 00:09:55,319
method and as opposed to just people

211
00:10:00,050 --> 00:09:58,050
jumping to conclusions and I loved

212
00:10:02,030 --> 00:10:00,060
watching this progress and unfold

213
00:10:03,740 --> 00:10:02,040

because then we go into you know so that

214

00:10:06,050 --> 00:10:03,750

was our kind of recap of the last

215

00:10:07,579 --> 00:10:06,060

episode and now we're into night visions

216

00:10:10,819 --> 00:10:07,589

which is a current episode and you know

217

00:10:13,730 --> 00:10:10,829

it starts right off with you know okay

218

00:10:15,920 --> 00:10:13,740

they they are now actually done with the

219

00:10:19,160 --> 00:10:15,930

talking and let's get into some action

220

00:10:21,319 --> 00:10:19,170

and right now right away you don't Tom

221

00:10:22,879 --> 00:10:21,329

and Travis are just driving along and

222

00:10:24,290 --> 00:10:22,889

next thing you know they're getting a

223

00:10:26,090 --> 00:10:24,300

call that hey you got to come up here

224

00:10:26,990 --> 00:10:26,100

and see what's going on and it's not

225

00:10:28,670 --> 00:10:27,000

because you have to see something

226

00:10:31,840 --> 00:10:28,680

floating in the sky or see something

227

00:10:34,040 --> 00:10:31,850

crazy happening it's because something

228

00:10:36,050 --> 00:10:34,050

geological is going on there's some kind

229

00:10:38,660 --> 00:10:36,060

of anomalous thing happening here that

230

00:10:40,999 --> 00:10:38,670

are you know our sensors are picking up

231

00:10:44,120 --> 00:10:41,009

it's not people just you know not it's

232

00:10:46,100 --> 00:10:44,130

not like you are a an organic you know

233

00:10:48,110 --> 00:10:46,110

detector it's not like oh I'm getting

234

00:10:50,900 --> 00:10:48,120

goose bumps no we have devices that are

235

00:10:52,249 --> 00:10:50,910

picking these things up and so you know

236

00:10:54,860 --> 00:10:52,259

starts off right away like okay let's

237

00:10:56,929 --> 00:10:54,870

get into the action and I like the fact

238

00:10:58,730 --> 00:10:56,939

that those guys got in and now you have

239

00:11:01,100 --> 00:10:58,740

specialists with tools like what were

240

00:11:03,019 --> 00:11:01,110

your take on on this I mean did you want

241

00:11:04,819 --> 00:11:03,029

to see us any more of this less of this

242

00:11:07,460 --> 00:11:04,829

like how did you feel when you saw them

243

00:11:09,499 --> 00:11:07,470

going into it well I loved it I mean I

244

00:11:12,710 --> 00:11:09,509

you know when Travis suggested that

245

00:11:14,530 --> 00:11:12,720

doing the the the testing over over the

246

00:11:19,009 --> 00:11:14,540

entire ranch you know the whole property

247

00:11:21,139 --> 00:11:19,019

getting the scientific readings you know

248

00:11:22,999 --> 00:11:21,149

that was really exciting that is very

249

00:11:25,639 --> 00:11:23,009

useful information and it gives you you

250

00:11:27,980 --> 00:11:25,649

know a good good baseline and a good

251
00:11:29,329 --> 00:11:27,990
overview of what's happening all over

252
00:11:31,220 --> 00:11:29,339
the ranch I mean I don't even know how

253
00:11:32,780 --> 00:11:31,230
they accomplished that if they even did

254
00:11:34,640 --> 00:11:32,790
really

255
00:11:36,440 --> 00:11:34,650
everywhere on the ranch I mean you're

256
00:11:38,450 --> 00:11:36,450
talking about 400 plus acres that's a

257
00:11:40,520 --> 00:11:38,460
lot of area to cover but I thought that

258
00:11:42,650 --> 00:11:40,530
was rad when they they cited decided to

259
00:11:44,270 --> 00:11:42,660
pull these teams out and go out and get

260
00:11:46,070 --> 00:11:44,280
readings because that's one of the

261
00:11:48,470 --> 00:11:46,080
biggest things and again we saw last

262
00:11:51,830 --> 00:11:48,480
week on the first episode getting

263
00:11:53,720 --> 00:11:51,840

unusual spikes you know getting a you

264

00:11:56,330 --> 00:11:53,730

know microwave radiation things like

265

00:11:58,460 --> 00:11:56,340

that too so to go out and test the

266

00:12:00,050 --> 00:11:58,470

entire ranch you know I was really

267

00:12:01,760 --> 00:12:00,060

excited when I heard that right from the

268

00:12:03,260 --> 00:12:01,770

start I mean this is what people have

269

00:12:05,690 --> 00:12:03,270

wanted to do forever right this is kind

270

00:12:07,280 --> 00:12:05,700

of it Brandon's like he goes big all the

271

00:12:10,670 --> 00:12:07,290

time so Murray what were you gonna say

272

00:12:14,450 --> 00:12:10,680

oh it's just well ate go big or go home

273

00:12:16,790 --> 00:12:14,460

as you were saying for Brandon but yeah

274

00:12:19,670 --> 00:12:16,800

I mean I think I think that's the most

275

00:12:22,700 --> 00:12:19,680

important thing we can do is the more

276

00:12:26,300 --> 00:12:22,710

acreage we can do on the ranch and and

277

00:12:29,720 --> 00:12:26,310

testing and and see what sort of aspects

278

00:12:32,210 --> 00:12:29,730

come from that but I also want to stress

279

00:12:34,760 --> 00:12:32,220

that it's not just the ranches this area

280

00:12:38,750 --> 00:12:34,770

so it's like the ute reservation in the

281

00:12:42,170 --> 00:12:38,760

surrounding area so what is happening

282

00:12:47,060 --> 00:12:42,180

just in these areas let's test that and

283

00:12:50,000 --> 00:12:47,070

so yes going out and trying to sort of

284

00:12:52,670 --> 00:12:50,010

read the meter all over the places is

285

00:12:54,410 --> 00:12:52,680

the best thing we could do and it's

286

00:12:56,030 --> 00:12:54,420

gonna be weird and we don't really know

287

00:12:58,610 --> 00:12:56,040

what's gonna happen but we should least

288

00:12:59,630 --> 00:12:58,620

try right I mean they did a great you

289

00:13:01,880 --> 00:12:59,640

know they gave a little bit of the back

290

00:13:04,970 --> 00:13:01,890

story of you know the the Navajo newts

291

00:13:06,290 --> 00:13:04,980

and the you know the history of the

292

00:13:08,900 --> 00:13:06,300

skinwalker or the legend of the

293

00:13:10,670 --> 00:13:08,910

skinwalker and then Tom starts to talk a

294

00:13:13,850 --> 00:13:10,680

little bit about you know his injuries

295

00:13:15,920 --> 00:13:13,860

again and then so this is something I

296

00:13:18,800 --> 00:13:15,930

don't I'm not at all familiar with and

297

00:13:21,560 --> 00:13:18,810

have no knowledge of really but they

298

00:13:23,150 --> 00:13:21,570

talks about shadow figures now do you

299

00:13:24,680 --> 00:13:23,160

guys what are your thoughts on these

300

00:13:30,170 --> 00:13:24,690

like what do you know about shadow

301

00:13:33,020 --> 00:13:30,180

figures uh well I mean I measure this

302

00:13:37,190 --> 00:13:33,030

along I teach you up for a big topic but

303

00:13:39,440 --> 00:13:37,200

yeah I I'm not gonna pretend like I have

304

00:13:41,030 --> 00:13:39,450

extreme knowledge on shadow figures but

305

00:13:44,270 --> 00:13:41,040

I have written about them in the past

306

00:13:45,780 --> 00:13:44,280

and there is a lot of high in with

307

00:13:49,220 --> 00:13:45,790

shadow figures

308

00:13:55,320 --> 00:13:49,230

alleged abduction alien abductions and

309

00:13:59,190 --> 00:13:55,330

sleep paralysis and that's about as far

310

00:14:01,710 --> 00:13:59,200

as I can say of knowing about what

311

00:14:05,460 --> 00:14:01,720

shadow figures are and I know that it's

312

00:14:08,370 --> 00:14:05,470

projected a lot in the ranch and I think

313

00:14:13,050 --> 00:14:08,380

again and this is something that we'd

314

00:14:15,990 --> 00:14:13,060

want to look into in regards to uranium

315

00:14:18,090 --> 00:14:16,000

poisoning and other things to rule out

316

00:14:21,360 --> 00:14:18,100

I'm not saying that what people see on

317

00:14:25,110 --> 00:14:21,370

the ranch is false I am saying let's

318

00:14:27,390 --> 00:14:25,120

rule that out because a lot of the

319

00:14:33,510 --> 00:14:27,400

shadow figure in the voices and things

320

00:14:37,380 --> 00:14:33,520

like that could potentially and you know

321

00:14:39,960 --> 00:14:37,390

I say that very loosely you related to

322

00:14:43,590 --> 00:14:39,970

some sort of geological thing and if

323

00:14:46,530 --> 00:14:43,600

that is what the case is then we're

324

00:14:48,990 --> 00:14:46,540

looking at a whole different scenario if

325

00:14:53,660 --> 00:14:49,000

it's not then we're looking at something

326

00:14:57,830 --> 00:14:53,670

super anomalous that is happening so um

327

00:15:01,230 --> 00:14:57,840

yeah shadow figures are typically

328

00:15:06,150 --> 00:15:01,240

something that pops up again like I

329

00:15:08,970 --> 00:15:06,160

mentioned with the sleep paralysis issue

330

00:15:11,010 --> 00:15:08,980

so and they will appear in the bedroom

331

00:15:12,630 --> 00:15:11,020

no have there been reports of that on

332

00:15:13,650 --> 00:15:12,640

the ranch in the past like I said is

333

00:15:14,640 --> 00:15:13,660

that kind of something that's been

334

00:15:18,210 --> 00:15:14,650

documented in the past

335

00:15:20,250 --> 00:15:18,220

Desiree oh I don't know I died I don't

336

00:15:23,610 --> 00:15:20,260

know I know I've experienced it

337

00:15:26,970 --> 00:15:23,620

personally and I I know other people

338

00:15:28,890 --> 00:15:26,980

that have but okay so you can't just

339

00:15:33,420 --> 00:15:28,900

throw that out there not eggs oh so you

340

00:15:36,090 --> 00:15:33,430

have yeah but I mean it's something I've

341

00:15:40,340 --> 00:15:36,100

researched pretty extensively because I

342

00:15:43,740 --> 00:15:40,350

have dealt with sleep paralysis like

343

00:15:46,380 --> 00:15:43,750

intensely and it's it's a lot of alien

344

00:15:51,150 --> 00:15:46,390

stuff and and shadow figures and things

345

00:15:54,090 --> 00:15:51,160

like that so for me I've a tribute that

346

00:15:57,690 --> 00:15:54,100

to sleep paralysis maybe it's not that

347

00:15:59,130 --> 00:15:57,700

but I like I like to think that because

348

00:16:00,960 --> 00:15:59,140

I

349

00:16:05,519 --> 00:16:00,970

to deal with that Jason what about you

350

00:16:08,040 --> 00:16:05,529

you can add to the shadow figure so I

351
00:16:11,460 --> 00:16:08,050
can't point to anything specifically but

352
00:16:13,290 --> 00:16:11,470
I do want to say I do believe that you

353
00:16:14,850 --> 00:16:13,300
know as there are cases of this being

354
00:16:20,610 --> 00:16:14,860
reported on the ranch and in the area

355
00:16:23,160 --> 00:16:20,620
but it's also sort of there's a little

356
00:16:26,100 --> 00:16:23,170
bit of the skinwalker lower there as

357
00:16:29,340 --> 00:16:26,110
well you know a skinwalker is described

358
00:16:31,650 --> 00:16:29,350
in in very many ways you know and that

359
00:16:33,840 --> 00:16:31,660
the shadow figure goes along with the

360
00:16:36,420 --> 00:16:33,850
the the shape-shifting the changing and

361
00:16:39,840 --> 00:16:36,430
as sort of being in a sort of non

362
00:16:42,990 --> 00:16:39,850
defined form and things like that so it

363
00:16:47,190 --> 00:16:43,000

could be attributed to - the skinwalker

364

00:16:50,759 --> 00:16:47,200

phenomenon as well okay um tea tree I

365

00:16:52,650 --> 00:16:50,769

will I will tell you there is this case

366

00:16:55,019 --> 00:16:52,660

and Jason I don't know if you remember

367

00:16:57,120 --> 00:16:55,029

this I I don't know if it was clifford

368

00:17:01,530 --> 00:16:57,130

mahooty or one of the other Navajo

369

00:17:05,309 --> 00:17:01,540

Rangers that shared this but they told

370

00:17:08,850 --> 00:17:05,319

the story about driving on the Navajo

371

00:17:13,289 --> 00:17:08,860

reservation in their cart and they had a

372

00:17:15,990 --> 00:17:13,299

skinwalker running fast like some sort

373

00:17:18,329 --> 00:17:16,000

of beast running faster than the car in

374

00:17:21,659 --> 00:17:18,339

the desert in the middle of the night

375

00:17:24,419 --> 00:17:21,669

right next to them and it's a scariest

376

00:17:27,090 --> 00:17:24,429

story I've ever heard in my life and

377

00:17:32,880 --> 00:17:27,100

it's super insane and these are credible

378

00:17:34,530 --> 00:17:32,890

like you know officials yeah I remember

379

00:17:36,270 --> 00:17:34,540

who told that story I remember hearing

380

00:17:38,430 --> 00:17:36,280

anyways you remember hearing it it was

381

00:17:43,919 --> 00:17:38,440

probably the Navajo Rangers but I think

382

00:17:46,230 --> 00:17:43,929

that's what it was yeah now the so Tommy

383

00:17:48,659 --> 00:17:46,240

knows he's he's telling me it's about

384

00:17:51,270 --> 00:17:48,669

the the shadow figures and then he goes

385

00:17:52,440 --> 00:17:51,280

back into his injury you know gives a

386

00:17:56,520 --> 00:17:52,450

little bit gives us a little bit more

387

00:17:58,350 --> 00:17:56,530

insight into his injuries and and then I

388

00:18:00,659 --> 00:17:58,360

don't think it stops him though from

389

00:18:03,270 --> 00:18:00,669

running headfirst into whatever

390

00:18:05,070 --> 00:18:03,280

dangerous thing is happening because

391

00:18:07,230 --> 00:18:05,080

they run right up you know right up the

392

00:18:09,450 --> 00:18:07,240

hill and there's a sinkhole and it's

393

00:18:11,340 --> 00:18:09,460

like hey let's go let's go stick our

394

00:18:12,180 --> 00:18:11,350

heads in there like what's going on in

395

00:18:15,509 --> 00:18:12,190

that thing

396

00:18:17,850 --> 00:18:15,519

so I mean you know - Tom's credit to

397

00:18:19,950 --> 00:18:17,860

Tom's credit it's like this kind of

398

00:18:21,330 --> 00:18:19,960

stuff doesn't really scare him I mean

399

00:18:23,039 --> 00:18:21,340

he's the one who's taking the brunt of

400

00:18:24,360 --> 00:18:23,049

all of this from you know as opposed to

401
00:18:27,600 --> 00:18:24,370
anybody else's who's out there right now

402
00:18:31,110 --> 00:18:27,610
and I think that seeing Travis kind of

403
00:18:33,330 --> 00:18:31,120
react when he you know when they do come

404
00:18:35,580 --> 00:18:33,340
up on this thing this not the stink hole

405
00:18:39,119 --> 00:18:35,590
the sink hole when they do come up on

406
00:18:40,590 --> 00:18:39,129
the sink hole and Travis has a you know

407
00:18:44,190 --> 00:18:40,600
physical reactions to it I guess it's

408
00:18:45,629 --> 00:18:44,200
it's kind of like okay the viewers are

409
00:18:48,180 --> 00:18:45,639
there watching this and seeing this

410
00:18:50,159 --> 00:18:48,190
happen and knowing that we have

411
00:18:52,560 --> 00:18:50,169
measurements that are we have devices

412
00:18:55,080 --> 00:18:52,570
that are detecting something and now

413
00:18:58,230 --> 00:18:55,090

he's responding as well but he does

414

00:19:00,930 --> 00:18:58,240

refer them as transient the transient

415

00:19:04,789 --> 00:19:00,940

spikes so it's not like being saying

416

00:19:07,379 --> 00:19:04,799

like he's caught in confined space now

417

00:19:09,629 --> 00:19:07,389

there are a lot of so because Tom does

418

00:19:11,159 --> 00:19:09,639

mention there's a lot of other people

419

00:19:14,009 --> 00:19:11,169

that have experienced this stuff and is

420

00:19:16,169 --> 00:19:14,019

this is it specific to that sinkhole or

421

00:19:18,690 --> 00:19:16,179

is that does that happen in other places

422

00:19:22,499 --> 00:19:18,700

do you guys know have you heard any

423

00:19:24,990 --> 00:19:22,509

anything else like that personally I

424

00:19:27,769 --> 00:19:25,000

think that there's a lot of talk about

425

00:19:31,440 --> 00:19:27,779

magnetism and how it affects people's

426

00:19:36,539 --> 00:19:31,450

physical being so I would say that that

427

00:19:40,470 --> 00:19:36,549

happens a lot however I cannot specify a

428

00:19:42,869 --> 00:19:40,480

location or anything else so Jason maybe

429

00:19:45,659 --> 00:19:42,879

you can if I don't know if you remember

430

00:19:47,700 --> 00:19:45,669

any specific location no no no certainly

431

00:19:48,749 --> 00:19:47,710

certainly with the with the ranch you

432

00:19:50,519 --> 00:19:48,759

know this is the first I've heard about

433

00:19:52,950 --> 00:19:50,529

that that little cave that little

434

00:19:54,480 --> 00:19:52,960

sinkhole so I think the other stories of

435

00:19:58,440 --> 00:19:54,490

people experiencing that on the ranch

436

00:20:00,869 --> 00:19:58,450

have been in other locations yeah it was

437

00:20:03,570 --> 00:20:00,879

cool I mean it worked out really well on

438

00:20:06,659 --> 00:20:03,580

the show because you know they happen to

439

00:20:08,730 --> 00:20:06,669

have a team there with equipment you

440

00:20:11,070 --> 00:20:08,740

know to be able to to measure things as

441

00:20:13,049 --> 00:20:11,080

this stuff was happening so you know

442

00:20:15,600 --> 00:20:13,059

that was fortuitous and it was you know

443

00:20:17,789 --> 00:20:15,610

really good for them to be able to to

444

00:20:20,909 --> 00:20:17,799

measure things like oxygen and and also

445

00:20:22,919 --> 00:20:20,919

to be able to rule out things they were

446

00:20:24,800 --> 00:20:22,929

looking for there like hazardous things

447

00:20:26,560 --> 00:20:24,810

like asbestos and other things

448

00:20:29,390 --> 00:20:26,570

could be naturally occurring in the area

449

00:20:31,820 --> 00:20:29,400

but TJ I think you need to fill us in

450

00:20:34,250 --> 00:20:31,830

because from what we saw in this episode

451
00:20:36,950 --> 00:20:34,260
it looked like nobody actually like

452
00:20:42,740 --> 00:20:36,960
really ventured into the cave did people

453
00:20:45,770 --> 00:20:42,750
venture in so and or was it just yeah

454
00:20:47,780 --> 00:20:45,780
right so you know we're getting there

455
00:20:51,530 --> 00:20:47,790
things are moving forward I'm in the

456
00:20:54,110 --> 00:20:51,540
show I can tell you that well before any

457
00:20:58,240 --> 00:20:54,120
of this happened I actually had almost

458
00:21:01,100 --> 00:20:58,250
the exact same reaction to that whole I

459
00:21:03,020 --> 00:21:01,110
I just didn't stop when you get into the

460
00:21:05,600 --> 00:21:03,030
first entryway I kind of stuck my head

461
00:21:10,970 --> 00:21:05,610
in and try to take a look into the

462
00:21:12,260 --> 00:21:10,980
darker part of it and I ended up I had a

463
00:21:14,510 --> 00:21:12,270

lot of the same reactions that Travis

464

00:21:16,850 --> 00:21:14,520

did I think he refers to his head being

465

00:21:21,050 --> 00:21:16,860

swimmy I didn't say the word swimmy but

466

00:21:23,920 --> 00:21:21,060

I I definitely felt that I also ended up

467

00:21:28,940 --> 00:21:23,930

being sick for like the next nine months

468

00:21:30,650 --> 00:21:28,950

after being in that in that cave I kept

469

00:21:32,540 --> 00:21:30,660

calling it but if they're calling it you

470

00:21:36,260 --> 00:21:32,550

know sinkhole I was referred to as cave

471

00:21:39,410 --> 00:21:36,270

and so he met sinkhole I ended up I must

472

00:21:42,550 --> 00:21:39,420

have now knowing what we know now with

473

00:21:45,940 --> 00:21:42,560

those guys measuring what was in the air

474

00:21:48,110 --> 00:21:45,950

you know maybe I hadn't nailed something

475

00:21:50,510 --> 00:21:48,120

because I had some kind of respiratory

476

00:21:52,190 --> 00:21:50,520

illness for a very long time doctors

477

00:21:56,450 --> 00:21:52,200

were stumped I went back to New York

478

00:21:58,760 --> 00:21:56,460

City I mean I probably had seen no less

479

00:22:02,810 --> 00:21:58,770

than three doctors I had gone an entire

480

00:22:06,080 --> 00:22:02,820

lung they had done the method chlorine

481

00:22:08,270 --> 00:22:06,090

challenge tests on me number of

482

00:22:09,140 --> 00:22:08,280

different tests and no one could figure

483

00:22:12,650 --> 00:22:09,150

out what it was

484

00:22:15,880 --> 00:22:12,660

and it just would not subside I was

485

00:22:18,260 --> 00:22:15,890

seriously sick for nine months and then

486

00:22:21,260 --> 00:22:18,270

just as quickly as it came on it was

487

00:22:24,170 --> 00:22:21,270

gone and I was fine after a certain

488

00:22:26,240 --> 00:22:24,180

period of time but so I mean I did have

489

00:22:29,990 --> 00:22:26,250

the I had a lot of the similar

490

00:22:32,510 --> 00:22:30,000

experiences that the Travis had and so I

491

00:22:34,790 --> 00:22:32,520

can speak to that that's you know at

492

00:22:37,940 --> 00:22:34,800

least at least now they know that there

493

00:22:38,269 --> 00:22:37,950

were spikes in in the VOCs that volatile

494

00:22:43,580 --> 00:22:38,279

or

495

00:22:46,659 --> 00:22:43,590

compounds that are there but yeah I just

496

00:22:48,889 --> 00:22:46,669

didn't necessarily know that then so

497

00:22:52,039 --> 00:22:48,899

again one of those things that's very

498

00:22:55,249 --> 00:22:52,049

interesting looking at whether magnetism

499

00:22:58,609 --> 00:22:55,259

has something to do with why you all

500

00:23:01,729 --> 00:22:58,619

were getting so sick and we don't know

501
00:23:05,330 --> 00:23:01,739
and so super interesting but but the

502
00:23:08,299 --> 00:23:05,340
same thing with Thomas and you mmm is we

503
00:23:11,269 --> 00:23:08,309
have doctors that are saying we cannot

504
00:23:15,379 --> 00:23:11,279
explain what is happening where one of

505
00:23:18,829 --> 00:23:15,389
my doctors one is far saying that she

506
00:23:21,109 --> 00:23:18,839
would refer to whatever I had as alien

507
00:23:21,589 --> 00:23:21,119
like you don't want to say that come on

508
00:23:26,379 --> 00:23:21,599
really

509
00:23:28,999 --> 00:23:26,389
oh did you know yeah it was it was in

510
00:23:33,409 --> 00:23:29,009
something I didn't know at the time and

511
00:23:34,969 --> 00:23:33,419
so I went back in New York and not when

512
00:23:37,700 --> 00:23:34,979
they tested me when you go get blood

513
00:23:39,709 --> 00:23:37,710

tests and whatnot they ask you in the in

514

00:23:40,999 --> 00:23:39,719

the u.s. like have you been in certain

515

00:23:42,440 --> 00:23:41,009

areas because I guess there are

516

00:23:44,899 --> 00:23:42,450

different blood tests that they would

517

00:23:47,259 --> 00:23:44,909

run on you if you had been in like the

518

00:23:49,669 --> 00:23:47,269

southwest or northeast or whatever and

519

00:23:52,279 --> 00:23:49,679

there were none of the labs in the area

520

00:23:55,639 --> 00:23:52,289

that were able to do the tests that were

521

00:23:57,829 --> 00:23:55,649

that would have been more revealing for

522

00:24:00,079 --> 00:23:57,839

things that I could have contracted or

523

00:24:02,989 --> 00:24:00,089

you know inhaled or whatever if I was in

524

00:24:05,479 --> 00:24:02,999

south western part of the u.s. so it was

525

00:24:06,829 --> 00:24:05,489

just interesting to know that like why I

526
00:24:08,389 --> 00:24:06,839
thought a blood test for blood test you

527
00:24:11,869 --> 00:24:08,399
know I didn't realize it was just very

528
00:24:14,419 --> 00:24:11,879
specific like regionally speaking they

529
00:24:15,979 --> 00:24:14,429
went to be specific but it was and so

530
00:24:17,239 --> 00:24:15,989
yes she was like oh this you know we

531
00:24:19,789 --> 00:24:17,249
can't test for it I don't know what it

532
00:24:22,820 --> 00:24:19,799
is know maybe it's alien and yeah little

533
00:24:27,200 --> 00:24:22,830
did she know where I was I'm not saying

534
00:24:36,769 --> 00:24:27,210
it's alien you know anyway Swimming Hall

535
00:24:40,129 --> 00:24:36,779
on skinwalker ranch from Travis his I

536
00:24:41,899 --> 00:24:40,139
feel very what he was really Eddie let

537
00:24:44,149 --> 00:24:41,909
me happy

538
00:24:46,099 --> 00:24:44,159

so you know go back to the magnetism so

539

00:24:48,259 --> 00:24:46,109

then right after he pops out of there

540

00:24:49,759 --> 00:24:48,269

you know the all of a sudden where the

541

00:24:51,890 --> 00:24:49,769

first thing he says his batteries of his

542

00:24:53,870 --> 00:24:51,900

phone or dead and then you know

543

00:24:56,990 --> 00:24:53,880

one of the technicians their phone just

544

00:25:00,110 --> 00:24:57,000

shut off and back to this magnetism like

545

00:25:01,520 --> 00:25:00,120

you know what is causing you know these

546

00:25:03,370 --> 00:25:01,530

batteries to drain and it's not just

547

00:25:06,380 --> 00:25:03,380

specific to the wrench that happens on

548

00:25:08,330 --> 00:25:06,390

I've heard of that so often when any one

549

00:25:10,280 --> 00:25:08,340

deals with anything in the paranormal

550

00:25:12,860 --> 00:25:10,290

realm and I could say paranormal because

551
00:25:14,630 --> 00:25:12,870
it's because everyone's now lumping

552
00:25:17,600 --> 00:25:14,640
things in like aliens and ghosts and

553
00:25:19,400 --> 00:25:17,610
whatever it's not paranormal I'm just

554
00:25:22,780 --> 00:25:19,410
referring to it as paranormal I may not

555
00:25:24,980 --> 00:25:22,790
be using it you know it's correctly but

556
00:25:26,690 --> 00:25:24,990
yeah what is it like what do people

557
00:25:28,880 --> 00:25:26,700
think that is like what are the theories

558
00:25:34,040 --> 00:25:28,890
behind the batteries being drained all

559
00:25:38,420 --> 00:25:34,050
the time I think there's a lot of

560
00:25:41,000 --> 00:25:38,430
different theories about what what

561
00:25:42,920 --> 00:25:41,010
drains batteries and and how it's like a

562
00:25:46,210 --> 00:25:42,930
life force sucking out the energy

563
00:25:50,200 --> 00:25:46,220

however I think that the magnetism

564

00:25:53,180 --> 00:25:50,210

aspect is is probably more accurate and

565

00:25:57,140 --> 00:25:53,190

what is happening there to drain

566

00:26:01,730 --> 00:25:57,150

batteries let's dive into that instead

567

00:26:03,560 --> 00:26:01,740

the idea of of that a ghost or someone

568

00:26:07,760 --> 00:26:03,570

else is trying to drain your energy

569

00:26:08,570 --> 00:26:07,770

force right and so I love this I love

570

00:26:11,090 --> 00:26:08,580

that we're having these conversations

571

00:26:13,130 --> 00:26:11,100

because these are topics that people

572

00:26:15,170 --> 00:26:13,140

have kind of danced around the edge of

573

00:26:17,450 --> 00:26:15,180

for such a long time when it comes to

574

00:26:19,190 --> 00:26:17,460

anything ghosts related or alien related

575

00:26:22,760 --> 00:26:19,200

quote-unquote and really because related

576

00:26:23,990 --> 00:26:22,770

I think paranormal people tend to just

577

00:26:26,180 --> 00:26:24,000

dance around this and now that these

578

00:26:29,240 --> 00:26:26,190

guys are bringing in legit equipment I

579

00:26:31,640 --> 00:26:29,250

mean you know when the moving out of the

580

00:26:33,350 --> 00:26:31,650

episode like going to the next you know

581

00:26:35,630 --> 00:26:33,360

right away like to the next block and

582

00:26:37,250 --> 00:26:35,640

when I say block it's when you when

583

00:26:39,410 --> 00:26:37,260

you're watching a television show most

584

00:26:41,900 --> 00:26:39,420

shows are presented in blocks like a

585

00:26:44,600 --> 00:26:41,910

block B Block C Block D block and so a

586

00:26:47,060 --> 00:26:44,610

block is pretty much the the space

587

00:26:49,070 --> 00:26:47,070

between the commercials so before the

588

00:26:52,130 --> 00:26:49,080

first break that's the a block and then

589

00:26:54,890 --> 00:26:52,140

the B Block and so on so right you know

590

00:26:56,540 --> 00:26:54,900

in that same block than you you got them

591

00:26:58,550 --> 00:26:56,550

getting ready to go camping and they

592

00:27:00,170 --> 00:26:58,560

break out you know Travis just starts

593

00:27:02,150 --> 00:27:00,180

rattling off all the types of equipment

594

00:27:05,270 --> 00:27:02,160

that they have and so now you're talking

595

00:27:08,270 --> 00:27:05,280

about approaching these these whoo

596

00:27:10,520 --> 00:27:08,280

ish kind of theories with legit science

597

00:27:11,810 --> 00:27:10,530

and so hopefully if you continue that in

598

00:27:14,570 --> 00:27:11,820

this path you know you're going to start

599

00:27:16,310 --> 00:27:14,580

seeing more and more answers and at

600

00:27:18,530 --> 00:27:16,320

least narrowing out narrowing it down

601
00:27:20,210 --> 00:27:18,540
the things that isn't I mean does that

602
00:27:21,350 --> 00:27:20,220
seem like we're you know you would want

603
00:27:24,320 --> 00:27:21,360
to go with this

604
00:27:26,060 --> 00:27:24,330
yeah and you know my my initial thought

605
00:27:28,100 --> 00:27:26,070
when I saw them setting up was that as a

606
00:27:34,570 --> 00:27:28,110
badass camping trip that's how I want to

607
00:27:39,260 --> 00:27:37,400
matching camping gear so it was one of

608
00:27:47,030 --> 00:27:39,270
those things where it's like government

609
00:27:50,390 --> 00:27:47,040
sponsored camping with their little

610
00:27:53,240 --> 00:27:50,400
purple chairs and everything and I was

611
00:27:59,060 --> 00:27:53,250
like oh do y'all got there they're cute

612
00:28:02,600 --> 00:27:59,070
little camping gear like actually going

613
00:28:08,030 --> 00:28:02,610

camping awesome I love it do it that's

614

00:28:09,050 --> 00:28:08,040

the best way to analyze anything it is I

615

00:28:10,820 --> 00:28:09,060

mean did you see that satellite dish

616

00:28:13,730 --> 00:28:10,830

like they did we're just setting stuff

617

00:28:15,140 --> 00:28:13,740

up and yeah I've never been camping with

618

00:28:19,400 --> 00:28:15,150

anybody who brought their own satellite

619

00:28:21,830 --> 00:28:19,410

dish I'm a bit neither or television you

620

00:28:24,140 --> 00:28:21,840

know and I mean and that and the net

621

00:28:26,030 --> 00:28:24,150

goes to you know the next like both

622

00:28:27,230 --> 00:28:26,040

besides that you can see Eric's set up a

623

00:28:28,550 --> 00:28:27,240

little bit more in the command center

624

00:28:31,520 --> 00:28:28,560

and they kind of touch on the fact that

625

00:28:33,620 --> 00:28:31,530

you know that place is just covered I

626

00:28:36,440 --> 00:28:33,630

mean there there is just constant

627

00:28:38,360 --> 00:28:36,450

monitoring of everything like every nook

628

00:28:40,700 --> 00:28:38,370

and cranny of that place and so that

629

00:28:43,730 --> 00:28:40,710

kind of leads to this is why you don't

630

00:28:45,500 --> 00:28:43,740

go to skinwalker ranch because there's

631

00:28:46,790 --> 00:28:45,510

always going to be somebody watching you

632

00:28:49,040 --> 00:28:46,800

and you know as students you break that

633

00:28:51,950 --> 00:28:49,050

perimeter you're on camera you know it's

634

00:28:54,650 --> 00:28:51,960

a big brother big brother is watching a

635

00:28:56,000 --> 00:28:54,660

science guy you know so you know we get

636

00:28:58,550 --> 00:28:56,010

to see a little bit of Eric's you know

637

00:29:00,320 --> 00:28:58,560

Eric stood up and then you know this is

638

00:29:01,460 --> 00:29:00,330

where it becomes this is the kind of

639

00:29:05,480 --> 00:29:01,470

stuff I feel like people have been

640

00:29:06,770 --> 00:29:05,490

waiting to see you know the breaking me

641

00:29:08,660 --> 00:29:06,780

out the big guns like breaking out the

642

00:29:10,010 --> 00:29:08,670

big toys and it's like okay we're doing

643

00:29:12,110 --> 00:29:10,020

laser experiments you're doing beam

644

00:29:14,720 --> 00:29:12,120

tracking you're you know these guys are

645

00:29:16,850 --> 00:29:14,730

setting up 60 inch televisions in the

646

00:29:19,399 --> 00:29:16,860

middle of a field

647

00:29:22,789 --> 00:29:19,409

to use as a monitor so they can see at

648

00:29:24,680 --> 00:29:22,799

nighttime so now were your thoughts on

649

00:29:26,840 --> 00:29:24,690

that like what did you what did you take

650

00:29:28,789 --> 00:29:26,850

away from all of the seams with the

651

00:29:32,240 --> 00:29:28,799

infrared stuff in the light the

652

00:29:34,610 --> 00:29:32,250

experiment with lasers uh so um like I

653

00:29:38,480 --> 00:29:34,620

was mentioning earlier we talked with

654

00:29:41,200 --> 00:29:38,490

our geologist friend Ben McGee and he

655

00:29:45,049 --> 00:29:41,210

had mentioned something about like the

656

00:29:47,810 --> 00:29:45,059

if the Sun is hitting the ridge at a

657

00:29:51,519 --> 00:29:47,820

certain way would heat up the minerals

658

00:29:59,409 --> 00:29:51,529

in the ridge - then this you possibly

659

00:30:04,129 --> 00:30:02,480

that we're seeing and and I'm super

660

00:30:07,070 --> 00:30:04,139

curious about that I'm not saying that's

661

00:30:11,180 --> 00:30:07,080

the right answer I'm just saying it was

662

00:30:15,350 --> 00:30:11,190

a very interesting point and I wonder if

663

00:30:17,870 --> 00:30:15,360

that explains that specific light up

664

00:30:19,669 --> 00:30:17,880

incident so we're not there was

665

00:30:21,980 --> 00:30:19,679

something I would I wasn't aware of

666

00:30:25,250 --> 00:30:21,990

these white disks on the mountain do you

667

00:30:26,930 --> 00:30:25,260

did you catch that yeah like what do you

668

00:30:27,440 --> 00:30:26,940

have any idea what that is what those

669

00:30:29,090 --> 00:30:27,450

were

670

00:30:31,879 --> 00:30:29,100

I have no idea is gonna be something

671

00:30:33,919 --> 00:30:31,889

with the very large breakup of the

672

00:30:35,269 --> 00:30:33,929

mountain of the ridge but yeah they

673

00:30:38,269 --> 00:30:35,279

didn't they didn't really go into that

674

00:30:40,100 --> 00:30:38,279

right I'm curious and you know it's like

675

00:30:41,570 --> 00:30:40,110

that's something I love Ben by the way

676

00:30:43,220 --> 00:30:41,580

Ben is awesome I mean I've talked to him

677

00:30:45,080 --> 00:30:43,230

a few times like I still want to do

678

00:30:47,810 --> 00:30:45,090

something you know find a way to work

679

00:30:49,370 --> 00:30:47,820

with him at some point but he's I'd love

680

00:30:51,860 --> 00:30:49,380

to know what his take on that is like if

681

00:30:54,169 --> 00:30:51,870

he had any insight as to what kind of

682

00:30:57,230 --> 00:30:54,179

minerals would it have to be or what

683

00:31:05,090 --> 00:30:57,240

kind are produced that kind of you know

684

00:31:05,899 --> 00:31:05,100

glowing no he would jump on yeah I mean

685

00:31:08,870 --> 00:31:05,909

we create havoc

686

00:31:12,409 --> 00:31:08,880

another big brain yeah I think so much

687

00:31:15,950 --> 00:31:12,419

so much is really related to the geology

688

00:31:17,840 --> 00:31:15,960

of the ranch I feel as well as the the

689

00:31:20,330 --> 00:31:17,850

microwave radiation and those are two

690

00:31:24,019 --> 00:31:20,340

things that Ben is an expert in both of

691

00:31:26,250 --> 00:31:24,029

those fields yeah so we kind of Jason

692

00:31:29,270 --> 00:31:26,260

and I did our little podcasts on

693

00:31:32,010 --> 00:31:29,280

the Sunday and we talked to him about

694

00:31:34,890 --> 00:31:32,020

radiation and whether the radiation

695

00:31:37,290 --> 00:31:34,900

fallout could explain some of the things

696

00:31:39,300 --> 00:31:37,300

happening on the ranch because he is a

697

00:31:43,860 --> 00:31:39,310

radiation expert

698

00:31:47,760 --> 00:31:43,870

he works for nest which is the nuclear

699

00:31:57,770 --> 00:31:47,770

emergency Jason what's the rest of the

700

00:32:05,330 --> 00:32:02,220

STDs a super smart dude he's smarter

701
00:32:08,880 --> 00:32:05,340
than me and he had some very interesting

702
00:32:13,230 --> 00:32:08,890
ideas in like how that would affect the

703
00:32:18,000 --> 00:32:13,240
bovine population and also people and

704
00:32:20,010 --> 00:32:18,010
weather I mean we tried to kind of dance

705
00:32:28,310 --> 00:32:20,020
on the subject of what would have caused

706
00:32:31,440 --> 00:32:28,320
Tom's cerebral sort of swelling who say

707
00:32:34,500 --> 00:32:31,450
yeah but do you have any insight to the

708
00:32:37,400 --> 00:32:34,510
evany you know theories no he kind of

709
00:32:40,350 --> 00:32:37,410
like projected maybe that it was

710
00:32:43,710 --> 00:32:40,360
possible for some of the like

711
00:32:45,840 --> 00:32:43,720
hallucinate in when I say hallucinations

712
00:32:47,130 --> 00:32:45,850
I mean this is like a projected theory

713
00:32:49,950 --> 00:32:47,140

we don't know that people are who

714

00:32:54,560 --> 00:32:49,960

loosely maybe on the ranch this is if

715

00:33:00,150 --> 00:32:54,570

that was the cost that it was due to

716

00:33:03,660 --> 00:33:00,160

weird magnetism and others sort of

717

00:33:07,140 --> 00:33:03,670

puller things on the ranch which which

718

00:33:12,030 --> 00:33:07,150

is why we're seeing this like uranium or

719

00:33:13,980 --> 00:33:12,040

not uranium poisoning dig or not dig I

720

00:33:15,660 --> 00:33:13,990

mean times the first one that questioned

721

00:33:17,760 --> 00:33:15,670

I mean even the last you know this

722

00:33:20,490 --> 00:33:17,770

episode even says I don't know if I was

723

00:33:23,010 --> 00:33:20,500

hearing the voices in my head you know

724

00:33:26,160 --> 00:33:23,020

like or was I actually hearing voices I

725

00:33:28,530 --> 00:33:26,170

mean he's he's you know tom is really

726

00:33:31,020 --> 00:33:28,540

grounded and he's he approaches us you

727

00:33:32,460 --> 00:33:31,030

know very you know very level-headed

728

00:33:33,930 --> 00:33:32,470

he's not he hasn't jumped any

729

00:33:35,299 --> 00:33:33,940

conclusions you know he's like yeah I

730

00:33:37,100 --> 00:33:35,309

don't know I

731

00:33:39,590 --> 00:33:37,110

doctor I'm just can tell you what I'm

732

00:33:41,330 --> 00:33:39,600

experiencing and hopefully a doctor can

733

00:33:43,430 --> 00:33:41,340

figure you know they'll be able to tell

734

00:33:45,710 --> 00:33:43,440

me or give me answers and I mean that's

735

00:33:47,090 --> 00:33:45,720

a big thing it seems it's not that it

736

00:33:47,930 --> 00:33:47,100

seems I mean it is it's a big thing they

737

00:33:49,970 --> 00:33:47,940

want answers

738

00:33:52,039 --> 00:33:49,980

you know you mean this guy something you

739

00:33:53,210 --> 00:33:52,049

hit on you know and then watching this

740

00:33:53,690 --> 00:33:53,220

episode it looks like something hit him

741

00:33:55,220 --> 00:33:53,700

again

742

00:33:57,860 --> 00:33:55,230

and I don't mean like punched him hit

743

00:34:00,529 --> 00:33:57,870

him I mean something you know something

744

00:34:03,560 --> 00:34:00,539

physically I don't know yeah I guess so

745

00:34:06,379 --> 00:34:03,570

to get him yeah and and that's why I am

746

00:34:09,250 --> 00:34:06,389

so careful to say like I'm not saying

747

00:34:12,500 --> 00:34:09,260

people are hallucinating I'm saying that

748

00:34:15,319 --> 00:34:12,510

there is this potential that can we

749

00:34:17,589 --> 00:34:15,329

figure out what is this like poisoning

750

00:34:19,250 --> 00:34:17,599

happening to people that people are

751

00:34:21,680 --> 00:34:19,260

hallucinating

752

00:34:24,740 --> 00:34:21,690

direwolves on the property or is that

753

00:34:26,149 --> 00:34:24,750

not a thing no I I don't know that's a

754

00:34:29,030 --> 00:34:26,159

good question and maybe we'll get some

755

00:34:34,639 --> 00:34:29,040

answers mm-hmm you have to keep tuning

756

00:34:35,930 --> 00:34:34,649

in I was really excited with the camping

757

00:34:37,129 --> 00:34:35,940

scene when they busted everything out

758

00:34:40,089 --> 00:34:37,139

and started trying to conduct

759

00:34:42,829 --> 00:34:40,099

experiments and something that struck me

760

00:34:44,599 --> 00:34:42,839

you know something that probably was was

761

00:34:48,139 --> 00:34:44,609

a little frustrating to to some viewers

762

00:34:50,540 --> 00:34:48,149

but it's something that we're aware of

763

00:34:54,109 --> 00:34:50,550

and that is looking at some of this cool

764

00:34:56,899 --> 00:34:54,119

stuff like the infrared cameras and the

765

00:34:58,819 --> 00:34:56,909

other visual tools they were using they

766

00:35:01,099 --> 00:34:58,829

don't always come out so well on TV

767

00:35:03,800 --> 00:35:01,109

right you need to be there and be

768

00:35:06,740 --> 00:35:03,810

actually looking at the tools in use

769

00:35:08,900 --> 00:35:06,750

because on TV a lot of times what looks

770

00:35:11,420 --> 00:35:08,910

really cool in real life looking at

771

00:35:12,800 --> 00:35:11,430

those those instruments in use on TV it

772

00:35:13,910 --> 00:35:12,810

just looks like a bunch of static and

773

00:35:17,450 --> 00:35:13,920

you know I don't understand what they're

774

00:35:19,940 --> 00:35:17,460

looking at so you know that happens on

775

00:35:21,290 --> 00:35:19,950

TV that's the unfortunate thing but at

776

00:35:22,670 --> 00:35:21,300

the same time it's exciting you sort of

777

00:35:24,290 --> 00:35:22,680

get the sense and they did a good job of

778

00:35:26,990 --> 00:35:24,300

filling people and to let us know what

779

00:35:28,730 --> 00:35:27,000

what was happening but you know that

780

00:35:30,650 --> 00:35:28,740

that's just something that comes with

781

00:35:32,540 --> 00:35:30,660

with the territory of using both a night

782

00:35:35,050 --> 00:35:32,550

vision you know infrared those types of

783

00:35:39,170 --> 00:35:35,060

tools don't really translate well to TV

784

00:35:42,740 --> 00:35:39,180

so here's something no this I'm sure

785

00:35:46,010 --> 00:35:42,750

freaked a lot of people out that well

786

00:35:47,030 --> 00:35:46,020

kind of just fast-forward past the growl

787

00:35:48,600 --> 00:35:47,040

in the background

788

00:35:52,320 --> 00:35:48,610

did you guys hear the growl

789

00:35:54,810 --> 00:35:52,330

like come on I mean again this is this

790

00:35:56,970 --> 00:35:54,820

is legit this is what was picked up like

791

00:35:59,280 --> 00:35:56,980

knowing there's no like there's no PA

792

00:36:00,150 --> 00:35:59,290

there with a ground a PA is a production

793

00:36:01,710 --> 00:36:00,160

assistant there's no production

794

00:36:04,830 --> 00:36:01,720

assistant you know with a growling

795

00:36:07,530 --> 00:36:04,840

machine or playing growling sounds the

796

00:36:11,210 --> 00:36:07,540

cameras picked up legit growl and there

797

00:36:14,910 --> 00:36:11,220

are animals there but I mean that's a

798

00:36:16,560 --> 00:36:14,920

sound you know I would be very I would

799

00:36:18,150 --> 00:36:16,570

be scared I mean I feel like those guys

800

00:36:19,140 --> 00:36:18,160

handled it pretty well I don't know if I

801
00:36:23,400 --> 00:36:19,150
would have been able to handle it that

802
00:36:28,110 --> 00:36:23,410
well somebody was hungry I need to

803
00:36:30,780 --> 00:36:28,120
rewatch it because I saw all the Twitter

804
00:36:34,110 --> 00:36:30,790
comments about that and I had missed it

805
00:36:36,750 --> 00:36:34,120
and I think that for sure if I saw or

806
00:36:39,780 --> 00:36:36,760
heard a growl on a ranch like that I'd

807
00:36:43,530 --> 00:36:39,790
be scared shitless yeah I definitely

808
00:36:45,690 --> 00:36:43,540
would and then the thing that I really

809
00:36:47,940 --> 00:36:45,700
loved and I'm glad people other people

810
00:36:51,210 --> 00:36:47,950
got to see it because this was one of

811
00:36:54,420 --> 00:36:51,220
the most fascinating things to me about

812
00:36:57,180 --> 00:36:54,430
about that place was the infrared lights

813
00:37:01,170 --> 00:36:57,190

that do you do not see with your naked

814

00:37:03,330 --> 00:37:01,180

eye but the first time Eric showed that

815

00:37:05,490 --> 00:37:03,340

to me it's like he's like you see that

816

00:37:09,000 --> 00:37:05,500

and I was like yeah yeah you know I see

817

00:37:11,490 --> 00:37:09,010

it on the screen and he's like um yeah

818

00:37:13,380 --> 00:37:11,500

that's not really there what do you mean

819

00:37:15,240 --> 00:37:13,390

then he goes you can't see that with

820

00:37:17,790 --> 00:37:15,250

your naked eye and it was kind of like

821

00:37:19,890 --> 00:37:17,800

I'll come on man seriously and now other

822

00:37:22,160 --> 00:37:19,900

people get to see you're witnessing that

823

00:37:25,800 --> 00:37:22,170

firsthand like there's something

824

00:37:27,840 --> 00:37:25,810

pointing out of the ground it's not it's

825

00:37:31,500 --> 00:37:27,850

you know it's not pointing at the ground

826

00:37:33,090 --> 00:37:31,510

it's going wait like upward and at one

827

00:37:34,560 --> 00:37:33,100

point it's tracking something it looks

828

00:37:36,510 --> 00:37:34,570

as if it's pointing and tracking

829

00:37:39,450 --> 00:37:36,520

something in the sky as for their

830

00:37:41,100 --> 00:37:39,460

comments on the show I mean what do you

831

00:37:43,460 --> 00:37:41,110

guys think like have you ever heard of

832

00:37:46,410 --> 00:37:43,470

anything like that before

833

00:37:49,680 --> 00:37:46,420

TJ I think that's a really really good

834

00:37:54,930 --> 00:37:49,690

aspect to talk about because I have

835

00:37:58,980 --> 00:37:54,940

literally no brass you know I can't

836

00:38:01,020 --> 00:37:58,990

rationalize a beam shooting up in the

837

00:38:02,400 --> 00:38:01,030

middle of nowhere for right so the road

838

00:38:05,760 --> 00:38:02,410

yeah from the ground

839

00:38:09,150 --> 00:38:05,770

so I mean as in Episode one you know

840

00:38:10,980 --> 00:38:09,160

kind of made the comment about their car

841

00:38:16,440 --> 00:38:10,990

dealership or something over there

842

00:38:20,460 --> 00:38:16,450

there's not and I I don't have any

843

00:38:21,900 --> 00:38:20,470

answer Jason take it I don't know no I

844

00:38:23,640 --> 00:38:21,910

mean that's a that's a good way to say

845

00:38:26,400 --> 00:38:23,650

it there's so many unknowns and it's

846

00:38:28,350 --> 00:38:26,410

certainly not being an expert in in IR

847

00:38:30,690 --> 00:38:28,360

technology and how that works you know

848

00:38:33,660 --> 00:38:30,700

what else could possibly explain you

849

00:38:36,810 --> 00:38:33,670

know what it's picking up you know it

850

00:38:38,940 --> 00:38:36,820

could be some some other sort of signal

851

00:38:40,710 --> 00:38:38,950

you know that it that it can see like

852

00:38:42,240 --> 00:38:40,720

something like a you know a cellular

853

00:38:44,460 --> 00:38:42,250

signal or something like that

854

00:38:47,640 --> 00:38:44,470

I don't know oh that's interesting but

855

00:38:49,830 --> 00:38:47,650

also another possibility that we've seen

856

00:38:51,450 --> 00:38:49,840

a lot in in other types of videos and

857

00:38:54,090 --> 00:38:51,460

probably not here because the ranch is

858

00:38:55,770 --> 00:38:54,100

more remote and certainly everybody on

859

00:38:58,890 --> 00:38:55,780

the ranch would have been accounted for

860

00:39:01,080 --> 00:38:58,900

but you know if there is a car something

861

00:39:03,510 --> 00:39:01,090

driving in the distance you know and you

862

00:39:05,160 --> 00:39:03,520

happen to get a little bit of the

863

00:39:06,750 --> 00:39:05,170

headlight headlights reflecting off

864

00:39:09,330 --> 00:39:06,760

something or or you know hitting the

865

00:39:11,850 --> 00:39:09,340

lens you know and refracting a different

866

00:39:13,080 --> 00:39:11,860

way and just casting a beam you wouldn't

867

00:39:14,370 --> 00:39:13,090

necessarily see the car if it's coming

868

00:39:16,380 --> 00:39:14,380

around the ridge or something and that

869

00:39:18,810 --> 00:39:16,390

that would cause some weird movement of

870

00:39:20,700 --> 00:39:18,820

a light pillar you know sometimes we see

871

00:39:21,900 --> 00:39:20,710

that with videos but in the case of

872

00:39:24,150 --> 00:39:21,910

where where this was occurring that's

873

00:39:26,100 --> 00:39:24,160

probably only had to be the case yeah I

874

00:39:27,990 --> 00:39:26,110

know from my experience being there like

875

00:39:31,170 --> 00:39:28,000

I know exactly where that where they

876

00:39:33,150 --> 00:39:31,180

were and there's no you're not there's

877

00:39:35,190 --> 00:39:33,160

there's nothing there there's no cars

878

00:39:39,150 --> 00:39:35,200

car headlights that are going to hit

879

00:39:42,660 --> 00:39:39,160

that I mean that direction it just

880

00:39:51,620 --> 00:39:46,020

I think that that makes sense more with

881

00:39:55,740 --> 00:39:51,630

the [h__\h] what's the Texas mark fo light

882

00:40:00,240 --> 00:39:55,750

great cetera like there is some definite

883

00:40:03,480 --> 00:40:00,250

case for headlights to be certain

884

00:40:06,990 --> 00:40:03,490

aspects with that in this case yeah it

885

00:40:09,770 --> 00:40:07,000

seems weird that the the lights are

886

00:40:14,100 --> 00:40:09,780

projecting and that way but I don't know

887

00:40:16,030 --> 00:40:14,110

how to answer that honestly like I think

888

00:40:19,840 --> 00:40:16,040

I'm still a little confused

889

00:40:22,780 --> 00:40:19,850

however I'm not saying that there's not

890

00:40:24,520 --> 00:40:22,790

a rational explanation for it so what

891

00:40:25,960 --> 00:40:24,530

got me about that never wanted to ask

892

00:40:28,150 --> 00:40:25,970

the two of you in particular because

893

00:40:30,220 --> 00:40:28,160

you've had a lot of experience you know

894

00:40:33,280 --> 00:40:30,230

being the Scully and Scully here that

895

00:40:36,070 --> 00:40:33,290

you want to believe I mean you know more

896

00:40:38,800 --> 00:40:36,080

historical cases and whatnot than I

897

00:40:40,360 --> 00:40:38,810

would and have you you know has there

898

00:40:41,740 --> 00:40:40,370

been anything reported like that besides

899

00:40:43,740 --> 00:40:41,750

though the lights you just mentioned but

900

00:40:45,940 --> 00:40:43,750

I have not heard of anything like that

901
00:40:48,640 --> 00:40:45,950
where people are just randomly seeing

902
00:40:50,590 --> 00:40:48,650
infrared lights shooting up from the

903
00:40:53,650 --> 00:40:50,600
ground like that just seems odd to me

904
00:40:55,090 --> 00:40:53,660
and certainly it's more odd because not

905
00:40:58,030 --> 00:40:55,100
a lot of people haven't Fred cameras

906
00:40:59,500 --> 00:40:58,040
right above it you know is a normal

907
00:41:01,240 --> 00:40:59,510
thing that a lot of people are used to

908
00:41:04,510 --> 00:41:01,250
using and seeing what things look like

909
00:41:08,500 --> 00:41:04,520
on infrared maybe not anymore anyway

910
00:41:09,760 --> 00:41:08,510
because I remember back in my day back

911
00:41:11,770 --> 00:41:09,770
in the 90s when you'd buy a little

912
00:41:14,470 --> 00:41:11,780
camcorder those things all had that

913
00:41:16,930 --> 00:41:14,480

infrared setting and now it's you know

914

00:41:18,280 --> 00:41:16,940

it's a high-end item to have infrared on

915

00:41:20,170 --> 00:41:18,290

your camera but back then it's like oh

916

00:41:21,820 --> 00:41:20,180

when you're making videos as a kid

917

00:41:23,110 --> 00:41:21,830

you're like oh don't need incredible

918

00:41:24,670 --> 00:41:23,120

health mode and you would put the thing

919

00:41:26,740 --> 00:41:24,680

then it turns green and you're like oh

920

00:41:30,670 --> 00:41:26,750

you know that was your that was your

921

00:41:34,210 --> 00:41:30,680

superhero moment so I mean so you know

922

00:41:35,920 --> 00:41:34,220

after we out in that field and then they

923

00:41:39,100 --> 00:41:35,930

learn that last microwave experiment and

924

00:41:43,510 --> 00:41:39,110

then you know it happens again then Tom

925

00:41:45,520 --> 00:41:43,520

again reaches back and you know it's

926
00:41:48,520 --> 00:41:45,530
almost as if his injury to his head has

927
00:41:50,410 --> 00:41:48,530
been recreated and it's funny because

928
00:41:53,320 --> 00:41:50,420
they weren't digging this time no one

929
00:41:56,230 --> 00:41:53,330
who was digging anything the poor Tom I

930
00:41:58,330 --> 00:41:56,240
mean no it's it wasn't like somebody ran

931
00:41:59,590 --> 00:41:58,340
up and hit him I mean there's a whole

932
00:42:01,360 --> 00:41:59,600
bunch of people around him there's

933
00:42:03,910 --> 00:42:01,370
camera crews it's like you're pretty

934
00:42:06,790 --> 00:42:03,920
insulated so you're not alone and nobody

935
00:42:09,610 --> 00:42:06,800
saw anything happened to you but you

936
00:42:13,270 --> 00:42:09,620
can't deny the the mark on your head so

937
00:42:14,770 --> 00:42:13,280
I just it's beyond me I mean is I think

938
00:42:17,730 --> 00:42:14,780

we had a lot of everyone there but I

939

00:42:20,080 --> 00:42:17,740

mean wait what are the theories here I

940

00:42:22,540 --> 00:42:20,090

think that's the same thing that we've

941

00:42:23,900 --> 00:42:22,550

been saying where it is potential to be

942

00:42:27,829 --> 00:42:23,910

some sort of magnetic

943

00:42:29,329 --> 00:42:27,839

thing and it does not shock me to have

944

00:42:33,400 --> 00:42:29,339

that be something that would affect

945

00:42:40,670 --> 00:42:33,410

somebody's mental and/or physical health

946

00:42:43,250 --> 00:42:40,680

because [h__\h] happens all the time so at

947

00:42:46,750 --> 00:42:43,260

this point in time I could see like if

948

00:42:51,620 --> 00:42:46,760

he was diving down and the you know

949

00:42:54,859 --> 00:42:51,630

magnetism is so high that he's having

950

00:42:59,059 --> 00:42:54,869

problems functioning mm-hmm

951

00:43:01,400 --> 00:42:59,069

that that steam at normal levels in

952

00:43:05,299 --> 00:43:01,410

projects all over the world so this is

953

00:43:07,180 --> 00:43:05,309

not super shocking with it that you know

954

00:43:09,770 --> 00:43:07,190

it seems now they have multiple

955

00:43:12,440 --> 00:43:09,780

anomalies happening you have Magnus you

956

00:43:13,880 --> 00:43:12,450

have the you know Tom with a magnus and

957

00:43:16,220 --> 00:43:13,890

you had the microwave because they're

958

00:43:18,170 --> 00:43:16,230

doing the microwave testing and then you

959

00:43:19,579 --> 00:43:18,180

have some kind of glowing rocks I mean

960

00:43:21,710 --> 00:43:19,589

so you have you have a number of things

961

00:43:24,289 --> 00:43:21,720

at play here so it's gonna be

962

00:43:26,960 --> 00:43:24,299

interesting to see where that goes I

963

00:43:29,990 --> 00:43:26,970

mean I think people are gonna be very

964

00:43:31,279 --> 00:43:30,000

happy with but you know together they're

965

00:43:33,109 --> 00:43:31,289

gonna enjoy the journey I can tell you

966

00:43:40,010 --> 00:43:33,119

that I miss talking about the the green

967

00:43:44,089 --> 00:43:40,020

laser okay so yes the laser so thoughts

968

00:43:46,039 --> 00:43:44,099

on laser so I have thoughts but you know

969

00:43:48,559 --> 00:43:46,049

that that's the one thing that I really

970

00:43:51,260 --> 00:43:48,569

wish I would have been there for because

971

00:43:54,470 --> 00:43:51,270

I'm sure being there in person I would

972

00:43:55,880 --> 00:43:54,480

be more perplexed had I been there but

973

00:43:58,160 --> 00:43:55,890

you know just from my limited

974

00:44:01,490 --> 00:43:58,170

perspective being a viewer watching a TV

975

00:44:04,640 --> 00:44:01,500

show to me seeing what that laser was

976

00:44:06,740 --> 00:44:04,650

doing looked precisely like just

977

00:44:10,069 --> 00:44:06,750

reflection on the lens just lens glare

978

00:44:12,140 --> 00:44:10,079

yeah because the the double the the

979

00:44:15,950 --> 00:44:12,150

second daughter whatever was moving

980

00:44:17,630 --> 00:44:15,960

exactly in response to where the laser

981

00:44:20,390 --> 00:44:17,640

was moving it was kind of dancing around

982

00:44:22,160 --> 00:44:20,400

just like lens flare would do but it's

983

00:44:23,960 --> 00:44:22,170

right you know they were there if they

984

00:44:26,059 --> 00:44:23,970

they saw something different I don't

985

00:44:29,599 --> 00:44:26,069

know but that was mine when I saw that

986

00:44:31,279 --> 00:44:29,609

do it with you I with you because I mean

987

00:44:32,990 --> 00:44:31,289

and I think that they they must have

988

00:44:33,950 --> 00:44:33,000

those guys obviously know what they're

989

00:44:36,440 --> 00:44:33,960

you know they know what they're looking

990

00:44:37,590 --> 00:44:36,450

at and I'm sure they it must have

991

00:44:38,760 --> 00:44:37,600

appeared different to them be

992

00:44:41,700 --> 00:44:38,770

because it was immediately that's

993

00:44:43,680 --> 00:44:41,710

recognizable the same way to me so I

994

00:44:47,010 --> 00:44:43,690

don't think like just like you don't see

995

00:44:49,320 --> 00:44:47,020

the IR footage as well on a when you're

996

00:44:50,880 --> 00:44:49,330

looking at a screen with a camera maybe

997

00:44:53,670 --> 00:44:50,890

the camera wasn't doing that justice as

998

00:44:55,890 --> 00:44:53,680

well you know that's just kind of where

999

00:45:00,270 --> 00:44:55,900

I was what I was thinking but that does

1000

00:45:03,810 --> 00:45:00,280

not I mean the power still goes out on

1001
00:45:06,780 --> 00:45:03,820
it which is just again like come on man

1002
00:45:08,280 --> 00:45:06,790
I get that's another one of those the

1003
00:45:12,090 --> 00:45:08,290
batteries getting drained I mean that's

1004
00:45:14,760 --> 00:45:12,100
just kind of a common a common thing you

1005
00:45:19,110 --> 00:45:14,770
know like I'm like when I was out when I

1006
00:45:21,360 --> 00:45:19,120
was out there one of the times you know

1007
00:45:24,360 --> 00:45:21,370
we had I had a drone we had a drone that

1008
00:45:28,260 --> 00:45:24,370
just went haywire drone battery like the

1009
00:45:30,810 --> 00:45:28,270
drone just dies and then it kind of

1010
00:45:33,390 --> 00:45:30,820
boots up you know kind of gets back up

1011
00:45:35,490 --> 00:45:33,400
so you think we could take off but then

1012
00:45:37,410 --> 00:45:35,500
the camera starts to get well just going

1013
00:45:39,660 --> 00:45:37,420

nuts and it doesn't make any sense it

1014

00:45:41,580 --> 00:45:39,670

just completely gets disoriented and it

1015

00:45:42,990 --> 00:45:41,590

becomes useless it becomes just a you

1016

00:45:46,050 --> 00:45:43,000

know a paperweight with blake the

1017

00:45:48,540 --> 00:45:46,060

propellers on it very expensive one but

1018

00:45:50,280 --> 00:45:48,550

you know we've had a lot of those things

1019

00:45:53,010 --> 00:45:50,290

i mean sound or sounded like we used to

1020

00:45:55,230 --> 00:45:53,020

have sound issues all the time you know

1021

00:45:57,240 --> 00:45:55,240

we were first trying to get things so

1022

00:46:00,450 --> 00:45:57,250

not this before these guys are out there

1023

00:46:03,390 --> 00:46:00,460

now but i mean your first approaching

1024

00:46:05,700 --> 00:46:03,400

this it was there are a lot of these

1025

00:46:07,170 --> 00:46:05,710

types of things happening so it's kind

1026

00:46:09,450 --> 00:46:07,180

of good to know

1027

00:46:11,760 --> 00:46:09,460

in a sense that it's consistent that

1028

00:46:14,220 --> 00:46:11,770

it's not just oh them or you know or

1029

00:46:17,220 --> 00:46:14,230

just you it's it really is a consistent

1030

00:46:19,800 --> 00:46:17,230

thing that happens so that's kind of you

1031

00:46:21,090 --> 00:46:19,810

know you don't have to work too hard to

1032

00:46:24,720 --> 00:46:21,100

recreate those things it just going to

1033

00:46:27,930 --> 00:46:24,730

happen so I think for the general public

1034

00:46:31,890 --> 00:46:27,940

something that would be relevant to

1035

00:46:35,130 --> 00:46:31,900

mention is that when Coulomb

1036

00:46:39,170 --> 00:46:35,140

tell her and George Knapp we're doing

1037

00:46:42,210 --> 00:46:39,180

their nits research that they had

1038

00:46:47,250 --> 00:46:42,220

cameras and things that also would go

1039

00:46:50,040 --> 00:46:47,260

down and granted these were were way

1040

00:46:53,190 --> 00:46:50,050

less high-tech and

1041

00:46:55,520 --> 00:46:53,200

they they would have something set up

1042

00:46:58,080 --> 00:46:55,530

with duct tape

1043

00:47:01,110 --> 00:46:58,090

you know holding the camera up in a

1044

00:47:03,510 --> 00:47:01,120

certain corner of the ranch and it would

1045

00:47:07,280 --> 00:47:03,520

go the next day and it would be totally

1046

00:47:12,090 --> 00:47:07,290

destroyed and the camera was like I'm

1047

00:47:13,170 --> 00:47:12,100

blacked out or something so so this is

1048

00:47:15,900 --> 00:47:13,180

not yeah

1049

00:47:18,150 --> 00:47:15,910

like whether the technology is super

1050

00:47:20,970 --> 00:47:18,160

high-tech or whether it was back in the

1051
00:47:24,630 --> 00:47:20,980
day like there is something going on and

1052
00:47:24,990 --> 00:47:24,640
whether it's its magnetism or something

1053
00:47:30,120 --> 00:47:25,000
else

1054
00:47:31,920 --> 00:47:30,130
shutting off technology and I think

1055
00:47:34,740 --> 00:47:31,930
that's one of the most important places

1056
00:47:36,240 --> 00:47:34,750
that we need to research and it isn't I

1057
00:47:38,550 --> 00:47:36,250
mean you guys got to see firsthand you

1058
00:47:40,680 --> 00:47:38,560
know from this last episode Eric isn't

1059
00:47:43,380 --> 00:47:40,690
screwing around I mean there's cameras

1060
00:47:45,270 --> 00:47:43,390
upon cameras upon cameras it's like you

1061
00:47:46,920 --> 00:47:45,280
were saying last week Jason like you

1062
00:47:50,760 --> 00:47:46,930
know having redundancy or having a

1063
00:47:52,410 --> 00:47:50,770

camera on the camera it's like yes that

1064

00:47:53,880 --> 00:47:52,420

is happening like I mean you could see

1065

00:47:56,810 --> 00:47:53,890

it when he was standing in the booth you

1066

00:48:00,090 --> 00:47:56,820

know you're looking at like a wall of

1067

00:48:02,310 --> 00:48:00,100

monitors because I love it there's yeah

1068

00:48:04,440 --> 00:48:02,320

he's not screwing around and they're all

1069

00:48:06,330 --> 00:48:04,450

different light spectrums and he's like

1070

00:48:09,480 --> 00:48:06,340

you know he just wants to get to the

1071

00:48:11,190 --> 00:48:09,490

bottom of this stuff so yeah I mean it's

1072

00:48:13,020 --> 00:48:11,200

great I think I think they're living up

1073

00:48:15,030 --> 00:48:13,030

to the expectations and the tech front

1074

00:48:16,470 --> 00:48:15,040

like people always wanted these tech all

1075

00:48:18,300 --> 00:48:16,480

these toys to be out there and you know

1076

00:48:21,210 --> 00:48:18,310

what they're there Brandon is like yep

1077

00:48:22,890 --> 00:48:21,220

well you know go big or go home man he's

1078

00:48:25,020 --> 00:48:22,900

going big cuz that's what he does and

1079

00:48:27,420 --> 00:48:25,030

like I said before like he's not going

1080

00:48:30,450 --> 00:48:27,430

to fail like there will be there will be

1081

00:48:32,310 --> 00:48:30,460

results coming out of this I'm confident

1082

00:48:34,890 --> 00:48:32,320

whether it's now whether it's five years

1083

00:48:36,600 --> 00:48:34,900

from now things are things are moving so

1084

00:48:38,190 --> 00:48:36,610

and I'm only saying I'm only saying it

1085

00:48:41,430 --> 00:48:38,200

that big because I can't tell you if

1086

00:48:45,810 --> 00:48:41,440

it's now or if it's five years of now so

1087

00:48:48,930 --> 00:48:45,820

what are you saying I think we're all on

1088

00:48:50,880 --> 00:48:48,940

the like this is good and let's move

1089

00:48:54,270 --> 00:48:50,890

forward it's going to be slow because

1090

00:48:57,350 --> 00:48:54,280

it's TV but everyone take patience and

1091

00:49:01,830 --> 00:48:57,360

let's see what what happens because

1092

00:49:02,470 --> 00:49:01,840

clearly Brandon is investing in actually

1093

00:49:05,080 --> 00:49:02,480

trying to

1094

00:49:07,990 --> 00:49:05,090

get some results for us and for the rest

1095

00:49:11,740 --> 00:49:08,000

of us that's awesome yes now Jason I

1096

00:49:13,720 --> 00:49:11,750

know that we have to you have two ways

1097

00:49:16,990 --> 00:49:13,730

for people to kind of write in or send

1098

00:49:19,090 --> 00:49:17,000

in questions and then we're gonna read a

1099

00:49:20,470 --> 00:49:19,100

couple right now but because a lot of

1100

00:49:22,450 --> 00:49:20,480

stuff we talked about you know I'd love

1101

00:49:24,099 --> 00:49:22,460

to get people's feedback on what they

1102

00:49:26,080 --> 00:49:24,109

were like what they think or what their

1103

00:49:28,270 --> 00:49:26,090

ideas were or you know what other

1104

00:49:29,859 --> 00:49:28,280

theories there are out there like for

1105

00:49:31,150 --> 00:49:29,869

the infrared stuff coming from out of

1106

00:49:32,680 --> 00:49:31,160

the ground like maybe it's stuff that we

1107

00:49:34,450 --> 00:49:32,690

just don't you know we're not aware of

1108

00:49:37,210 --> 00:49:34,460

like maybe Ben would be like oh yeah

1109

00:49:39,250 --> 00:49:37,220

that's yeah okay

1110

00:49:40,840 --> 00:49:39,260

so if I mean people have ideas or

1111

00:49:43,900 --> 00:49:40,850

theories or information that we don't

1112

00:49:46,210 --> 00:49:43,910

have you know scientific stuff that we

1113

00:49:48,490 --> 00:49:46,220

can use that'd be great please but you

1114

00:49:49,930 --> 00:49:48,500

have so it's what the first one is the

1115

00:49:52,570 --> 00:49:49,940

email addresses the contact at rogue

1116

00:49:56,200 --> 00:49:52,580

planet TV and then the other is on

1117

00:49:58,690 --> 00:49:56,210

Twitter at skinwalker pod so you know

1118

00:50:02,940 --> 00:49:58,700

feel free to reach out we'd love to hear

1119

00:50:06,700 --> 00:50:02,950

from you guys and girls and you know any

1120

00:50:09,520 --> 00:50:06,710

anything any feedback comments questions

1121

00:50:10,810 --> 00:50:09,530

we'd love it and so Jason we pulled a

1122

00:50:14,109 --> 00:50:10,820

couple from this week right a couple

1123

00:50:16,300 --> 00:50:14,119

that we got from online I I think you

1124

00:50:17,590 --> 00:50:16,310

had a couple of questions that we I

1125

00:50:19,810 --> 00:50:17,600

don't know where they came from it was a

1126

00:50:22,180 --> 00:50:19,820

twitter or was it youtube do you

1127

00:50:24,700 --> 00:50:22,190

remember I think one was Twitter one was

1128

00:50:26,730 --> 00:50:24,710

YouTube yeah oh okay there you go well

1129

00:50:29,140 --> 00:50:26,740

so I mean the only ones I'd seen was

1130

00:50:32,800 --> 00:50:29,150

least two here that was the first one

1131

00:50:35,770 --> 00:50:32,810

says what so hello I'm interested if the

1132

00:50:38,230 --> 00:50:35,780

team has had any sightings of Bigfoot

1133

00:50:39,970 --> 00:50:38,240

during their time there not that I'm

1134

00:50:42,730 --> 00:50:39,980

aware of and do either of you guys know

1135

00:50:44,820 --> 00:50:42,740

has there been anything historically

1136

00:50:48,570 --> 00:50:44,830

where people have said they have seen

1137

00:50:51,880 --> 00:50:48,580

Bigfoot's on the ranch I mean

1138

00:50:55,590 --> 00:50:51,890

historically I think I can say that yes

1139

00:51:00,160 --> 00:50:55,600

there has been sightings reported but I

1140

00:51:02,650 --> 00:51:00,170

I cannot be very specific on that okay

1141

00:51:05,260 --> 00:51:02,660

and then the other was are there gonna

1142

00:51:06,730 --> 00:51:05,270

be any static cameras put around the

1143

00:51:08,770 --> 00:51:06,740

properties of the public in the stream

1144

00:51:11,470 --> 00:51:08,780

in the footage well funny you say that

1145

00:51:14,530 --> 00:51:11,480

because I was it right before the first

1146

00:51:16,750 --> 00:51:14,540

episode they had done their first live

1147

00:51:17,770 --> 00:51:16,760

stream so

1148

00:51:20,860 --> 00:51:17,780

it seemed like it was a pretty

1149

00:51:24,040 --> 00:51:20,870

successful test and you know whatever

1150

00:51:26,170 --> 00:51:24,050

those results of that of that were then

1151

00:51:27,670 --> 00:51:26,180

I think if it turned out to be positive

1152

00:51:30,220 --> 00:51:27,680

for them I would imagine that you would

1153

00:51:32,980 --> 00:51:30,230

see more of that it's just something I

1154

00:51:35,860 --> 00:51:32,990

know info on but yeah it seems cool like

1155

00:51:39,640 --> 00:51:35,870

did you see oh no you didn't see the the

1156

00:51:43,270 --> 00:51:39,650

triangle I didn't see a lot at night

1157

00:51:45,220 --> 00:51:43,280

no but yeah yeah I would assume that

1158

00:51:48,430 --> 00:51:45,230

that's going to happen I would be

1159

00:51:51,790 --> 00:51:48,440

surprised if it doesn't and yeah but I

1160

00:51:54,760 --> 00:51:51,800

mean who knows right I mean it's more

1161

00:51:56,410 --> 00:51:54,770

eyes exactly I'm glad you brought that

1162

00:51:59,320 --> 00:51:56,420

up because that had always been one of

1163

00:52:01,990 --> 00:51:59,330

his you know his sticking points like

1164

00:52:03,340 --> 00:52:02,000

the more people the more eyeballs that

1165

00:52:06,910 --> 00:52:03,350

we can get on this the better like the

1166

00:52:09,850 --> 00:52:06,920

more crowds well yeah he used to call

1167

00:52:12,220 --> 00:52:09,860

him was a biological sensors he would

1168

00:52:14,230 --> 00:52:12,230

call things here's like you know the

1169

00:52:15,910 --> 00:52:14,240

cows their biological sensors you know

1170

00:52:18,130 --> 00:52:15,920

humans their biological sensors like

1171

00:52:20,260 --> 00:52:18,140

they're pretty much just you know you

1172

00:52:22,450 --> 00:52:20,270

picked up information and they relay it

1173

00:52:24,250 --> 00:52:22,460

but they don't so they give you zeros

1174

00:52:26,790 --> 00:52:24,260

and ones they might scream or they might

1175

00:52:29,140 --> 00:52:26,800

laugh or they might do something else so

1176
00:52:30,880 --> 00:52:29,150
you know that mean the more the merrier

1177
00:52:32,530 --> 00:52:30,890
you know and I think that it would

1178
00:52:34,330 --> 00:52:32,540
definitely help kind of like sunny

1179
00:52:39,490 --> 00:52:34,340
remembers so yeah yeah that's exactly

1180
00:52:43,990 --> 00:52:39,500
what I was gonna say home-study has

1181
00:52:46,420 --> 00:52:44,000
asked programmers to join in help sort

1182
00:52:48,580 --> 00:52:46,430
of put their bandwidth forward to search

1183
00:52:51,040 --> 00:52:48,590
for extraterrestrial life in a same damn

1184
00:52:57,670 --> 00:52:51,050
thing yes that's a way that they just

1185
00:52:58,870 --> 00:52:57,680
closed that down breaking our hearts no

1186
00:53:00,940 --> 00:52:58,880
well you know what that's a good thing

1187
00:53:02,680 --> 00:53:00,950
because now all of those computers that

1188
00:53:06,100 --> 00:53:02,690

were being used for that can be used for

1189

00:53:07,300 --> 00:53:06,110

the rash mmm you can you know kind of

1190

00:53:08,860 --> 00:53:07,310

how do you get all of those people to

1191

00:53:10,210 --> 00:53:08,870

say oh wow because there was a lot of

1192

00:53:13,780 --> 00:53:10,220

them man I know they used to keep a

1193

00:53:15,280 --> 00:53:13,790

record number of people participating in

1194

00:53:18,010 --> 00:53:15,290

that I mean I can't certain how many

1195

00:53:19,810 --> 00:53:18,020

random people over the years you know

1196

00:53:21,550 --> 00:53:19,820

through our UFO career that would would

1197

00:53:23,710 --> 00:53:21,560

come up and and they weren't you know

1198

00:53:25,570 --> 00:53:23,720

really UFO people but they were casually

1199

00:53:27,849 --> 00:53:25,580

interested they were more more nerds

1200

00:53:29,799 --> 00:53:27,859

than specific UFO

1201
00:53:31,960 --> 00:53:29,809
nerds and they just thought it was cool

1202
00:53:34,599 --> 00:53:31,970
they're all yeah I like geeky computer

1203
00:53:37,539 --> 00:53:34,609
stuff and hey aliens that's cool sure

1204
00:53:41,620 --> 00:53:37,549
why not the background of their computer

1205
00:53:44,140 --> 00:53:41,630
all right well I think what the lesson

1206
00:53:46,930 --> 00:53:44,150
that is learned from this is we need to

1207
00:53:49,210 --> 00:53:46,940
have a nice little sheet explaining how

1208
00:53:51,670 --> 00:53:49,220
people can get involved and how they

1209
00:53:52,509 --> 00:53:51,680
could do it and then use them to our

1210
00:53:54,519 --> 00:53:52,519
advantage

1211
00:53:57,400 --> 00:53:54,529
hey you know I mean it's not something

1212
00:53:59,620 --> 00:53:57,410
out of the ordinary I mean and so and

1213
00:54:02,499 --> 00:53:59,630

we'll we'll make the well before we go

1214

00:54:04,150 --> 00:54:02,509

into the owl and the so next week the

1215

00:54:05,890 --> 00:54:04,160

previews we saw some of the previews we

1216

00:54:09,130 --> 00:54:05,900

saw the drone so it looks like we're

1217

00:54:10,870 --> 00:54:09,140

gonna have our first drone interactions

1218

00:54:15,880 --> 00:54:10,880

here I think people have been wanting to

1219

00:54:17,229 --> 00:54:15,890

see that for a super long time and were

1220

00:54:18,400 --> 00:54:17,239

they setting up like another transmitter

1221

00:54:20,440 --> 00:54:18,410

I believe they were setting up some

1222

00:54:21,999 --> 00:54:20,450

transmitters or something something they

1223

00:54:23,880 --> 00:54:22,009

were setting up some kind of power I

1224

00:54:26,529 --> 00:54:23,890

think it was some kind of power source

1225

00:54:28,539 --> 00:54:26,539

which I think people are gonna be

1226

00:54:32,319 --> 00:54:28,549

interested in seeing this up it's kind

1227

00:54:35,979 --> 00:54:32,329

of cool and now I guess the big the big

1228

00:54:38,019 --> 00:54:35,989

tease the big news is next week we're

1229

00:54:42,910 --> 00:54:38,029

going to have the one and only dragon

1230

00:54:45,640 --> 00:54:42,920

joining us for our third episode so you

1231

00:54:47,289 --> 00:54:45,650

know you have questions please send them

1232

00:54:50,319 --> 00:54:47,299

in I know dragons gonna be interested in

1233

00:54:53,079 --> 00:54:50,329

talking to people um he's looking

1234

00:54:54,489 --> 00:54:53,089

forward to it and you know I think this

1235

00:54:56,140 --> 00:54:54,499

would be a good start to kind of slowly

1236

00:54:58,229 --> 00:54:56,150

get the cast in here and you know see if

1237

00:55:03,220 --> 00:54:58,239

how many guys we can get on here and and

1238

00:55:05,680 --> 00:55:03,230

talk to and let you guys grill and yeah

1239

00:55:08,410 --> 00:55:05,690

be nice no of course of course in a

1240

00:55:10,900 --> 00:55:08,420

respectful way of course yeah yes so

1241

00:55:13,509 --> 00:55:10,910

basic drills dragon in a respectful way

1242

00:55:15,789 --> 00:55:13,519

what should we what should i prep them

1243

00:55:17,289 --> 00:55:15,799

for what should we tell them you know

1244

00:55:23,160 --> 00:55:17,299

what do people want to know most all the

1245

00:55:30,279 --> 00:55:27,599

who are the aliens and what did they do

1246

00:55:34,390 --> 00:55:30,289

know so yeah next week dragon will be

1247

00:55:35,859 --> 00:55:34,400

joining us and but until then you know

1248

00:55:38,559 --> 00:55:35,869

this is this has been great you guys

1249

00:55:40,599 --> 00:55:38,569

again I really appreciate you doing this

1250

00:55:41,530 --> 00:55:40,609

with me and you know bringing this to

1251
00:55:42,640 --> 00:55:41,540
people

1252
00:55:45,070 --> 00:55:42,650
without you guys I wouldn't be able to

1253
00:55:47,830 --> 00:55:45,080
do this so thank you this is our

1254
00:55:51,100 --> 00:55:47,840
pleasure yeah we love doing this and you

1255
00:55:54,250 --> 00:55:51,110
know it for people who I mean this show

1256
00:55:57,370 --> 00:55:54,260
could be consumed in multiple ways it's

1257
00:55:59,020 --> 00:55:57,380
both a video and an audio show so

1258
00:56:00,190 --> 00:55:59,030
depending on how you're listening to the

1259
00:56:02,380 --> 00:56:00,200
show you might not have known that

1260
00:56:04,930 --> 00:56:02,390
there's an other way to consume the show

1261
00:56:08,230 --> 00:56:04,940
but it is an audio podcast which you can

1262
00:56:10,480 --> 00:56:08,240
get and subscribe to on both Apple

1263
00:56:13,120 --> 00:56:10,490

podcasts and Google podcasts now and

1264

00:56:16,300 --> 00:56:13,130

it's also it's available as a video show

1265

00:56:21,580 --> 00:56:16,310

on YouTube excellent but we look

1266

00:56:23,590 --> 00:56:21,590

prettier check out the YouTube channel

1267

00:56:28,420 --> 00:56:23,600

some of us look prettier on the the

1268

00:56:31,800 --> 00:56:28,430

audio podcast that would be me no the I

1269

00:56:33,970 --> 00:56:31,810

know so I wanted to put out there to

1270

00:56:35,470 --> 00:56:33,980

that and you know it's funny I've

1271

00:56:39,880 --> 00:56:35,480

already had people reaching out to me on

1272

00:56:41,620 --> 00:56:39,890

Twitter that are they have interesting

1273

00:56:43,540 --> 00:56:41,630

interesting stories interesting

1274

00:56:46,920 --> 00:56:43,550

locations like I've already gotten a

1275

00:56:49,690 --> 00:56:46,930

handful of people just kind of randomly

1276

00:56:51,610 --> 00:56:49,700

hi you know I'm doing this you know it's

1277

00:56:53,140 --> 00:56:51,620

like wait what you know they I've been

1278

00:56:54,730 --> 00:56:53,150

looking for you for six years so thank

1279

00:56:58,030 --> 00:56:54,740

you know we're all of a sudden you're

1280

00:56:59,350 --> 00:56:58,040

showing up now so please you know keep

1281

00:57:00,490 --> 00:56:59,360

all this stuff coming like we want to

1282

00:57:02,680 --> 00:57:00,500

communicate we want to hear from people

1283

00:57:06,000 --> 00:57:02,690

you know I think that this is a great

1284

00:57:08,800 --> 00:57:06,010

opportunity because this has been such a

1285

00:57:10,840 --> 00:57:08,810

secretive place for so long that it's

1286

00:57:12,430 --> 00:57:10,850

now we're we're kind of opening the door

1287

00:57:14,290 --> 00:57:12,440

I mean we've got people from the cast

1288

00:57:15,910 --> 00:57:14,300

coming on I mean I'm I'm here to answer

1289

00:57:17,260 --> 00:57:15,920

questions as well like let's share this

1290

00:57:18,990 --> 00:57:17,270

information that's kind of open the door

1291

00:57:22,180 --> 00:57:19,000

together and let everyone kind of see

1292

00:57:24,190 --> 00:57:22,190

you know and as long as Brandon wants to

1293

00:57:27,130 --> 00:57:24,200

keep doing it then you know great let's

1294

00:57:32,640 --> 00:57:27,140

let's go for the ride man I'm in you

1295

00:57:36,550 --> 00:57:32,650

know so anyway that's enough email so I

1296

00:57:40,060 --> 00:57:36,560

cannot stress enough that I don't have

1297

00:57:41,770 --> 00:57:40,070

answers to your telepathic dreams that

1298

00:57:54,640 --> 00:57:41,780

you are having because I'm getting a lot

1299

00:57:54,960 --> 00:57:54,650

of emails right now it kind of questions

1300

00:57:56,850 --> 00:57:54,970

you

1301

00:58:01,020 --> 00:57:56,860

dragon can we can ask dragon maybe he

1302

00:58:03,960 --> 00:58:01,030

has haters you know maybe maybe does he

1303

00:58:06,390 --> 00:58:03,970

knows all yes well we'll see it I'm

1304

00:58:08,790 --> 00:58:06,400

gonna be curious to see where where he's

1305

00:58:10,350 --> 00:58:08,800

gonna be calling in from so that might

1306

00:58:16,070 --> 00:58:10,360

be another surprise that I think people

1307

00:58:19,020 --> 00:58:16,080

will really enjoy the scenery good stuff

1308

00:58:20,700 --> 00:58:19,030

calling in from homestead too and he's

1309

00:58:23,280 --> 00:58:20,710

gonna give us a little surprise

1310

00:58:24,840 --> 00:58:23,290

Oh that'd be crazy yeah that's one scary

1311

00:58:26,430 --> 00:58:24,850

place man I'm all set well in the

1312

00:58:33,390 --> 00:58:26,440

background and it's actually just Eric's

1313

00:58:34,800 --> 00:58:33,400

stomach with a sandwich well this is

1314

00:58:35,850 --> 00:58:34,810

great guys thank you very much and so

1315

00:58:38,790 --> 00:58:35,860

next week

1316

00:58:41,040 --> 00:58:38,800

you know same same thing we'll have

1317

00:58:44,190 --> 00:58:41,050

dragon and please enjoy the show Tuesday

1318

00:58:45,480 --> 00:58:44,200

night at ten o'clock on the history 9

1319

00:58:48,110 --> 00:58:45,490

o'clock central 10 o'clock Eastern

1320

00:58:52,550 --> 00:58:48,120

history secrets of the skinwalker ranch
