The

SWINWALKER

Debrief

1
00:00:00,440 --> 00:00:39,330

[Music]

2
00:00:43,750 --> 00:00:41,500

welcome to the skinwalker debrief I'm

3
00:00:45,280 --> 00:00:43,760

your host TJ Allard and I'm also one of

4
00:00:47,170 --> 00:00:45,290

the executive producers on the new

5
00:00:48,670 --> 00:00:47,180

television series on history called the

6
00:00:51,160 --> 00:00:48,680

secret of skinwalker ranch

7
00:00:53,170 --> 00:00:51,170

I'm joined each week by Jason McCullen

8
00:00:55,240 --> 00:00:53,180

and Maureen Elsberry and together we'll

9
00:00:56,860 --> 00:00:55,250

dissect each episode and give you a

10
00:00:59,170 --> 00:00:56,870

little bit more insight and background

11
00:01:00,670 --> 00:00:59,180

into the show Jason's been exploring all

12
00:01:03,340 --> 00:01:00,680

things strange for more than a decade

13
00:01:05,260 --> 00:01:03,350

he's appeared on Nat Geo sci-fi and

14

00:01:08,380 --> 00:01:05,270

history and he's the author of only

15

00:01:10,150 --> 00:01:08,390

weirdos see UFOs an introduction to the

16

00:01:12,070 --> 00:01:10,160

public misperception of unidentified

17

00:01:14,350 --> 00:01:12,080

aerial phenomenon and extraterrestrial

18

00:01:16,090 --> 00:01:14,360

life marine is a journalist researcher

19

00:01:18,359 --> 00:01:16,100

and podcaster specializing in the

20

00:01:20,680 --> 00:01:18,369

anomalous she starred in the docu-series

21

00:01:22,960 --> 00:01:20,690

uncovering aliens on Animal Planet and

22

00:01:24,760 --> 00:01:22,970

served as an ambassador for the science

23

00:01:28,300 --> 00:01:24,770

channels are we alone initiative and

24

00:01:31,210 --> 00:01:28,310

tonight our special guest is none other

25

00:01:34,600 --> 00:01:31,220

than Bryant dragon Arnold head of

26

00:01:36,820 --> 00:01:34,610

security at skinwalker ranch all right

27

00:01:41,560 --> 00:01:36,830

thank you for joining us or should we

28

00:01:43,090 --> 00:01:41,570

call you dragon which is it you can call

29

00:01:47,969 --> 00:01:43,100

me whatever you'd like

30

00:01:52,630 --> 00:01:50,460

much worse than either of those things

31

00:01:55,300 --> 00:01:52,640

all right I'm sure a lot of people want

32

00:02:00,010 --> 00:01:55,310

to know can you tell us how you got the

33

00:02:02,260 --> 00:02:00,020

nickname dragon well it's an interesting

34

00:02:04,810 --> 00:02:02,270

story you know it's not a stepbrothers

35

00:02:06,760 --> 00:02:04,820

type thing where I introduce myself my

36

00:02:09,460 --> 00:02:06,770

name is Bryant that called me dragon you

37

00:02:13,330 --> 00:02:09,470

know that type of a thing it actually

38

00:02:16,539 --> 00:02:13,340

came from someone that has quite an

39

00:02:19,710 --> 00:02:16,549

online presence and I've been

40

00:02:23,880 --> 00:02:19,720

enthusiastic arrange for a long time and

41

00:02:26,289 --> 00:02:23,890

when Brandon took over ownership he

42

00:02:29,250 --> 00:02:26,299

actually got permission to actually be

43

00:02:33,130 --> 00:02:29,260

on the ranch without dress passing and

44

00:02:35,350 --> 00:02:33,140

came on and you know I greeted him at

45

00:02:37,720 --> 00:02:35,360

the gate and he went on his way and

46

00:02:39,640 --> 00:02:37,730

apparently from what I understand there

47

00:02:43,030 --> 00:02:39,650

was a former security guard under the

48

00:02:45,850 --> 00:02:43,040

Bigelow era that some some former

49

00:02:46,960 --> 00:02:45,860

military guy that had code name dragon

50

00:02:49,360 --> 00:02:46,970

and so

51
00:02:53,470 --> 00:02:49,370
as he was cruising down the road of the

52
00:02:56,200 --> 00:02:53,480
ranch he said you know that dragon and I

53
00:03:00,360 --> 00:02:56,210
guess whoever was with just affirmed it

54
00:03:05,020 --> 00:03:00,370
so he went on his online presence and

55
00:03:07,360 --> 00:03:05,030
said yeah you know that dragon guy kind

56
00:03:09,220 --> 00:03:07,370
of a jerk and he was kind of you know

57
00:03:11,830 --> 00:03:09,230
standoffish and everything well I mean

58
00:03:13,900 --> 00:03:11,840
it's not I kind of have the resting

59
00:03:20,530 --> 00:03:13,910
[h__\h] thing going on most of the

60
00:03:22,540 --> 00:03:20,540
time so anyway he started you know he

61
00:03:23,500 --> 00:03:22,550
talked about it and then other people

62
00:03:25,060 --> 00:03:23,510
chimed in

63
00:03:27,040 --> 00:03:25,070

you know online and started telling

64

00:03:29,590 --> 00:03:27,050

stories about how they'd been run off

65

00:03:33,100 --> 00:03:29,600

the property by me wielding guns and

66

00:03:35,470 --> 00:03:33,110

things like that and so Brandon loving

67

00:03:37,900 --> 00:03:35,480

that whole narrative started calling me

68

00:03:41,800 --> 00:03:37,910

dragon and referred to me as that too

69

00:03:43,780 --> 00:03:41,810

many people and including you know the

70

00:03:45,310 --> 00:03:43,790

people that ended up producing the

71

00:03:49,030 --> 00:03:45,320

television show I mean I know that's how

72

00:03:50,979 --> 00:03:49,040

each a was introduced to me was and and

73

00:03:54,580 --> 00:03:50,989

it's funny because it's like I am who

74

00:03:56,710 --> 00:03:54,590

are you talking about I guess so anyway

75

00:03:58,210 --> 00:03:56,720

he loved it started calling me that and

76

00:04:00,520 --> 00:03:58,220

it's stuck and you know and then during

77

00:04:02,500 --> 00:04:00,530

production Travis I mean let's be honest

78

00:04:05,500 --> 00:04:02,510

Bryant Arnold doesn't really roll off

79

00:04:07,660 --> 00:04:05,510

the tongue like dragon does so you know

80

00:04:09,850 --> 00:04:07,670

I wish there was a much cooler badass

81

00:04:12,160 --> 00:04:09,860

story but that's pretty much how it came

82

00:04:14,080 --> 00:04:12,170

to be and it's just stuck and so that's

83

00:04:15,820 --> 00:04:14,090

what we are I think it's a good

84

00:04:17,500 --> 00:04:15,830

reflection to say that like you didn't

85

00:04:20,199 --> 00:04:17,510

make it up yourself and I think that's

86

00:04:25,000 --> 00:04:20,209

what so many people call me dragon you

87

00:04:27,159 --> 00:04:25,010

know yeah oh I know I've seen I took a I

88

00:04:29,590 --> 00:04:27,169

took a real beating after the first

89

00:04:31,830 --> 00:04:29,600

episode and I'm like look I didn't give

90

00:04:33,940 --> 00:04:31,840

myself a nickname right it just

91

00:04:36,940 --> 00:04:33,950

organically happened and that's where

92

00:04:39,280 --> 00:04:36,950

we're at so we'll go with it hey it

93

00:04:40,840 --> 00:04:39,290

works man it works I think I said I

94

00:04:43,870 --> 00:04:40,850

think you know this is something you

95

00:04:44,460 --> 00:04:43,880

just heck with it make t-shirts and sell

96

00:04:49,120 --> 00:04:44,470

them

97

00:04:52,330 --> 00:04:49,130

dragon done get some sort of treasure

98

00:04:54,820 --> 00:04:52,340

pile a but of mysterious things that

99

00:04:57,880 --> 00:04:54,830

then have some sort of dragon t-shirt it

100

00:05:00,550 --> 00:04:57,890

would be oh my god like hoarding like

101

00:05:03,490 --> 00:05:00,560

circling out like Smaug

102

00:05:06,490 --> 00:05:03,500

alien spools underneath you and no

103

00:05:11,230 --> 00:05:06,500

military gear you're all hired to get my

104

00:05:14,440 --> 00:05:11,240

swag for the next day so bright where

105

00:05:16,300 --> 00:05:14,450

are you right now I am in the command

106

00:05:20,409 --> 00:05:16,310

center coming live from skinwalker ranch

107

00:05:23,110 --> 00:05:20,419

so yep took a little bit of a break from

108

00:05:24,400 --> 00:05:23,120

chasing people off and we've had a lot

109

00:05:27,670 --> 00:05:24,410

of people ever since the show's aired

110

00:05:29,320 --> 00:05:27,680

that are very curious and you know it's

111

00:05:33,370 --> 00:05:29,330

kind of a blessing and a curse at the

112

00:05:36,219 --> 00:05:33,380

same time but yeah I was excited you

113

00:05:38,110 --> 00:05:36,229

know I appreciate our friendship BJ and

114

00:05:40,030 --> 00:05:38,120

so you know I was more than happy to

115

00:05:41,920 --> 00:05:40,040

join them and talk about stuff like this

116

00:05:44,409 --> 00:05:41,930

and and I've enjoyed the first two

117

00:05:46,629 --> 00:05:44,419

episodes I've you know I've watched both

118

00:05:48,400 --> 00:05:46,639

of your podcast I mean both your weld

119

00:05:52,330 --> 00:05:48,410

the youtube version of it of the first

120

00:05:57,610 --> 00:05:52,340

two and they seem like solid folks and

121

00:06:00,730 --> 00:05:57,620

so they are nice they definitely are of

122

00:06:02,740 --> 00:06:00,740

course um no it's it's really appreciate

123

00:06:05,170 --> 00:06:02,750

you know you're joining us I know that

124

00:06:08,230 --> 00:06:05,180

you know maybe Jason amore don't know of

125

00:06:10,360 --> 00:06:08,240

course I do know I think this is great

126

00:06:11,860 --> 00:06:10,370

you know I think we'd love that you know

127

00:06:14,350 --> 00:06:11,870

just let's keep this going let's let's

128

00:06:15,610 --> 00:06:14,360

hope this just continues and we just

129

00:06:18,610 --> 00:06:15,620

keep bringing you on you know whenever

130

00:06:21,940 --> 00:06:18,620

we can and you know that's it's awesome

131

00:06:23,020 --> 00:06:21,950

I just so let's do this so what we did

132

00:06:26,320 --> 00:06:23,030

last weekend what we'll do

133

00:06:30,310 --> 00:06:26,330

again I think kind of recapping what

134

00:06:31,810 --> 00:06:30,320

what happened at the end of week two so

135

00:06:33,550 --> 00:06:31,820

for those who don't know when I say week

136

00:06:35,290 --> 00:06:33,560

two I mean the television show on

137

00:06:37,810 --> 00:06:35,300

history the secret of seeing Walker

138

00:06:39,670 --> 00:06:37,820

ranch so last week's episode week two is

139

00:06:41,770 --> 00:06:39,680

called night vision and so what we'll do

140

00:06:43,120 --> 00:06:41,780

is every week we kind of go and recap

141

00:06:46,180 --> 00:06:43,130

what had happened in the previous week

142

00:06:48,610 --> 00:06:46,190

and so a couple of you know big points

143

00:06:51,990 --> 00:06:48,620

that I picked out of last week's recap

144

00:06:54,340 --> 00:06:52,000

would be like so the glow in the Flickr

145

00:06:57,700 --> 00:06:54,350

so I mean those things are kind of

146

00:06:59,170 --> 00:06:57,710

amazing to me and I don't know what you

147

00:07:01,029 --> 00:06:59,180

guys think I'd love to hear some some

148

00:07:03,070 --> 00:07:01,039

thoughts and opinions on what what you

149

00:07:05,440 --> 00:07:03,080

guys think that stuff is and I know we

150

00:07:08,620 --> 00:07:05,450

can get insight from Brian as well so

151
00:07:10,450 --> 00:07:08,630
you guys think maybe some thoughts I'm

152
00:07:13,480 --> 00:07:10,460
still stuck on a lot of the geology

153
00:07:14,030 --> 00:07:13,490
stuff so until we get to the root of

154
00:07:16,670 --> 00:07:14,040
that I

155
00:07:18,650 --> 00:07:16,680
but my mind is kind of stuck in that

156
00:07:21,740 --> 00:07:18,660
kind of route there's got to be some

157
00:07:24,790 --> 00:07:21,750
sort of natural geological explanation

158
00:07:26,810 --> 00:07:24,800
for what is causing different sorts of

159
00:07:28,460 --> 00:07:26,820
anomalies I mean it's a little different

160
00:07:33,800 --> 00:07:28,470
when you have like a full beam of light

161
00:07:35,810 --> 00:07:33,810
coming down but yeah so I'm still like

162
00:07:38,480 --> 00:07:35,820
let's let's dig into that geology but

163
00:07:40,580 --> 00:07:38,490

Jason what do you what do you think yeah

164

00:07:44,630 --> 00:07:40,590

same as last week I mean it's it's some

165

00:07:46,610 --> 00:07:44,640

weird stuff and yeah we have some other

166

00:07:48,950 --> 00:07:46,620

potential avenues to explore with

167

00:07:50,480 --> 00:07:48,960

geology like Maureen said but when it

168

00:07:53,620 --> 00:07:50,490

comes down to it a lot of the stuff is

169

00:07:55,760 --> 00:07:53,630

just plainly weird as [h__h]

170

00:07:59,620 --> 00:07:55,770

dragon can you give us any insight into

171

00:08:05,260 --> 00:07:59,630

the weird as [h__h] aspect of things I

172

00:08:08,870 --> 00:08:05,270

agree I mean nice you have amongst our

173

00:08:10,610 --> 00:08:08,880

scientists you know three PhDs and bunch

174

00:08:12,200 --> 00:08:10,620

of stuff and they're kind of saying you

175

00:08:14,690 --> 00:08:12,210

know the same type of thing what are you

176
00:08:16,340 --> 00:08:14,700
doing that you know if I go when I quote

177
00:08:19,940 --> 00:08:16,350
Travis by going to a southern accent I

178
00:08:21,800 --> 00:08:19,950
can't help it because understandable

179
00:08:27,950 --> 00:08:21,810
I'll you know the whole time he was here

180
00:08:30,680 --> 00:08:27,960
with it but yeah it's I I think it's a

181
00:08:32,620 --> 00:08:30,690
combination of things I think that you

182
00:08:36,170 --> 00:08:32,630
know why do you into Basin of all places

183
00:08:38,270 --> 00:08:36,180
I mean because it's not just skinwalker

184
00:08:40,490 --> 00:08:38,280
range I mean the basin itself I mean

185
00:08:43,460 --> 00:08:40,500
it's got the nickname of UFO Ali really

186
00:08:45,020 --> 00:08:43,470
because of so many different occurrences

187
00:08:46,850 --> 00:08:45,030
and things like that and it is just that

188
00:08:48,560 --> 00:08:46,860

it's a basin I mean if you look at it

189

00:08:52,700 --> 00:08:48,570

areally it almost looks like a big

190

00:08:55,310 --> 00:08:52,710

satellite dish mm-hmm and so I know that

191

00:08:59,750 --> 00:08:55,320

there are some minerals and elements

192

00:09:02,560 --> 00:08:59,760

here that are found really only here and

193

00:09:04,910 --> 00:09:02,570

then very other few places on earth like

194

00:09:08,090 --> 00:09:04,920

to get too technical I've listened to

195

00:09:10,730 --> 00:09:08,100

scientists way too much but there's an

196

00:09:13,460 --> 00:09:10,740

element called asphalt ium which is what

197

00:09:16,010 --> 00:09:13,470

is used for all of your asphalt pavement

198

00:09:20,930 --> 00:09:16,020

roads and things like that and this

199

00:09:23,360 --> 00:09:20,940

Basin is like the main deposited on well

200

00:09:25,250 --> 00:09:23,370

Frank and it's you know one of those

201
00:09:27,440 --> 00:09:25,260
things where I don't know if it has

202
00:09:30,260 --> 00:09:27,450
something to do with that along with you

203
00:09:32,570 --> 00:09:30,270
the base in using itself almost like a

204
00:09:35,090 --> 00:09:32,580
lens or something focusing energy or

205
00:09:36,740 --> 00:09:35,100
whatever it may be I don't know exactly

206
00:09:40,670 --> 00:09:36,750
you know it's stuff that we've we've

207
00:09:42,860 --> 00:09:40,680
speculated on but uh you know I don't

208
00:09:45,500 --> 00:09:42,870
think that Maureen is off either that I

209
00:09:46,790 --> 00:09:45,510
think a lot of I think a lot of elements

210
00:09:48,920 --> 00:09:46,800
have had to come together and I would

211
00:09:50,320 --> 00:09:48,930
say that probably the geology has a big

212
00:09:53,120 --> 00:09:50,330
part in that

213
00:09:54,380 --> 00:09:53,130

absolutely I think Maureen hit it last

214

00:09:56,000 --> 00:09:54,390

week she touched on that right marine

215

00:09:58,040 --> 00:09:56,010

you mentioned about the whole basin not

216

00:10:00,800 --> 00:09:58,050

just the ranch great and I think that's

217

00:10:03,200 --> 00:10:00,810

so important to acknowledge and tell

218

00:10:05,330 --> 00:10:03,210

people because the stuffs been going on

219

00:10:07,960 --> 00:10:05,340

around that area for a long time and

220

00:10:11,540 --> 00:10:07,970

it's not centered to like some random

221

00:10:14,150 --> 00:10:11,550

pics and fences that were put up in a

222

00:10:15,680 --> 00:10:14,160

certain area and then deemed a ranch you

223

00:10:17,180 --> 00:10:15,690

know it's it's something bigger than

224

00:10:20,320 --> 00:10:17,190

that so it's always good to point that

225

00:10:23,240 --> 00:10:20,330

out in my opinion well and you know

226

00:10:25,160 --> 00:10:23,250

possibly an explanation is if you look

227

00:10:27,350 --> 00:10:25,170

at the basin and where the ranch sits it

228

00:10:29,870 --> 00:10:27,360

almost sits dead center of the Uintah

229

00:10:32,330 --> 00:10:29,880

Basin it's you know so who knows maybe

230

00:10:35,840 --> 00:10:32,340

that's why this particular piece of

231

00:10:38,570 --> 00:10:35,850

property seems to be you know a focal

232

00:10:41,570 --> 00:10:38,580

point but I think it's also because it

233

00:10:43,460 --> 00:10:41,580

has been owned privately and studied so

234

00:10:45,230 --> 00:10:43,470

there there could be all this stuff

235

00:10:46,700 --> 00:10:45,240

happening all over the place but it

236

00:10:50,990 --> 00:10:46,710

doesn't get the notoriety that they're

237

00:10:53,270 --> 00:10:51,000

in so yeah I mean I think that you you

238

00:10:57,620 --> 00:10:53,280

preservation areas surrounding it a lot

239

00:11:00,500 --> 00:10:57,630

of it so why they're much more you know

240

00:11:03,200 --> 00:11:00,510

private and believe about their own

241

00:11:05,480 --> 00:11:03,210

culture and studies and and it's amazing

242

00:11:07,040 --> 00:11:05,490

but they're not gonna be pulling a ton

243

00:11:09,950 --> 00:11:07,050

of scientific equipment onto their

244

00:11:14,750 --> 00:11:09,960

property because that's not you know

245

00:11:16,010 --> 00:11:14,760

native ways so know right I mean I don't

246

00:11:18,260 --> 00:11:16,020

want to get too far away from the

247

00:11:20,090 --> 00:11:18,270

previous episodes but I'm actually I was

248

00:11:22,220 --> 00:11:20,100

just thinking of it and Dragon you know

249

00:11:24,230 --> 00:11:22,230

you brought it up don't dragon see how

250

00:11:28,370 --> 00:11:24,240

even stuck calling dragon I'm so used to

251

00:11:31,940 --> 00:11:28,380

it over though it's ours not used to it

252

00:11:33,530 --> 00:11:31,950

right um so I wanted you know we were

253

00:11:35,750 --> 00:11:33,540

talking about this and something that

254

00:11:38,660 --> 00:11:35,760

you could shed some light on I didn't

255

00:11:41,720 --> 00:11:38,670

want to you know you talked in detail

256

00:11:44,929 --> 00:11:41,730

about it before but the case

257

00:11:52,359 --> 00:11:44,939

can you tell us about the case and the

258

00:11:55,460 --> 00:11:52,369

night no that's not that's not be kicks

259

00:12:01,239 --> 00:11:55,470

raise a black Pelican case I know the

260

00:12:04,039 --> 00:12:01,249

dates and loves Pelican cases yeah so

261

00:12:06,979 --> 00:12:04,049

that really is that was kind of the

262

00:12:09,199 --> 00:12:06,989

question you know obviously the first

263

00:12:11,299 --> 00:12:09,209

episode left everyone wondering what was

264

00:12:14,869 --> 00:12:11,309

in the case and what they opened it up

265

00:12:17,720 --> 00:12:14,879

and it was some people wah wah a magnet

266

00:12:20,119 --> 00:12:17,730

right the fact of the matter is that

267

00:12:22,819 --> 00:12:20,129

Pelican case has nothing to do as far as

268

00:12:24,619 --> 00:12:22,829

like you know a dramatic reveal I mean

269

00:12:27,939 --> 00:12:24,629

it turned out that way on the TV show

270

00:12:31,099 --> 00:12:27,949

but that magnet that's in there that

271

00:12:32,599 --> 00:12:31,109

neodymium magnet or rare earth magnet

272

00:12:36,349 --> 00:12:32,609

for people that you know don't know the

273

00:12:40,069 --> 00:12:36,359

technical term it is extremely dangerous

274

00:12:43,159 --> 00:12:40,079

and powerful I was talking to Eric bard

275

00:12:46,039 --> 00:12:43,169

our principal investigator about it and

276

00:12:48,590 --> 00:12:46,049

I and I mentioned to him that was one of

277

00:12:50,599 --> 00:12:48,600

the big questions and he actually if we

278

00:12:53,659 --> 00:12:50,609

caught C's Eric he said let me put it

279

00:12:56,329 --> 00:12:53,669

this way that thing is dangerous if you

280

00:12:59,659 --> 00:12:56,339

attach that to a piece of iron the force

281

00:13:02,210 --> 00:12:59,669

it takes to remove that is over 1,700

282

00:13:04,849 --> 00:13:02,220

pounds of pulling force and the thing is

283

00:13:07,279 --> 00:13:04,859

is we have to so you saw in the episode

284

00:13:08,929 --> 00:13:07,289

when he kind of gave the demonstration

285

00:13:11,720 --> 00:13:08,939

with the phone and things like that yes

286

00:13:13,519 --> 00:13:11,730

that one in that aluminum jig so that he

287

00:13:14,329 --> 00:13:13,529

could you know manipulate it correctly

288

00:13:17,150 --> 00:13:14,339

and like that

289

00:13:19,609 --> 00:13:17,160

if those two magnets came together first

290

00:13:20,539 --> 00:13:19,619

off if anyone's body parts was in

291

00:13:22,579 --> 00:13:20,549

between that it would absolutely

292

00:13:24,319 --> 00:13:22,589

pulverize them and if they stuck

293

00:13:27,289 --> 00:13:24,329

together you'd never get them apart ever

294

00:13:28,669 --> 00:13:27,299

so like for example I mean if I wanted

295

00:13:30,199 --> 00:13:28,679

to play a really bad prank on you and

296

00:13:30,679 --> 00:13:30,209

stuck it to your car you'd never get it

297

00:13:34,999 --> 00:13:30,689

off

298

00:13:37,189 --> 00:13:35,009

and so yeah I won't so we're safe there

299

00:13:38,689 --> 00:13:37,199

but I'm just saying ultimately at the

300

00:13:41,179 --> 00:13:38,699

end of the day the reason it is in that

301
00:13:42,949 --> 00:13:41,189
case with all that insulation is because

302
00:13:46,220 --> 00:13:42,959
it is dangerous I can take my car keys

303
00:13:47,929 --> 00:13:46,230
and hold it over the top of the case and

304
00:13:51,169 --> 00:13:47,939
it'll suck my hand down onto the even

305
00:13:54,559 --> 00:13:51,179
the key in my case so it's strictly a

306
00:13:55,610 --> 00:13:54,569
safety thing plus we have so much

307
00:13:56,780 --> 00:13:55,620
electronic equip

308
00:13:59,570 --> 00:13:56,790
around here and you know what batteries

309
00:14:01,760 --> 00:13:59,580
do - we like Tommy right so yeah I mean

310
00:14:03,019 --> 00:14:01,770
at the end of the day Eric told me is

311
00:14:06,110 --> 00:14:03,029
like if I would add a bigger case I

312
00:14:08,630 --> 00:14:06,120
would have had it in that that's how he

313
00:14:13,340 --> 00:14:08,640

would have answered - I think you just

314

00:14:15,950 --> 00:14:13,350

maybe but but anyway yeah so I mean

315

00:14:18,530 --> 00:14:15,960

really I know that a lot of people were

316

00:14:20,660 --> 00:14:18,540

like you have this it's it's a magnet

317

00:14:22,550 --> 00:14:20,670

for heaven's sake but no it is an

318

00:14:24,290 --> 00:14:22,560

extremely extremely powerful magnet you

319

00:14:26,570 --> 00:14:24,300

could pick up a refrigerator with it was

320

00:14:29,200 --> 00:14:26,580

attached to something so really it was a

321

00:14:31,940 --> 00:14:29,210

safety protocol more than anything and

322

00:14:34,160 --> 00:14:31,950

you know that kind of I guess hopefully

323

00:14:35,990 --> 00:14:34,170

answers the whole pelican oh definitely

324

00:14:38,150 --> 00:14:36,000

I think that's gonna answer a lot of

325

00:14:39,710 --> 00:14:38,160

questions that were out there I mean I

326

00:14:44,390 --> 00:14:39,720

feel like that was a pretty pretty good

327

00:14:45,230 --> 00:14:44,400

answer yeah I mean I never I had you

328

00:14:46,280 --> 00:14:45,240

know I didn't wanna throw it out there

329

00:14:47,720 --> 00:14:46,290

but it's like I think that a lot of

330

00:14:49,460 --> 00:14:47,730

people didn't think of that as a

331

00:14:53,030 --> 00:14:49,470

potential thing so thank you for

332

00:14:55,880 --> 00:14:53,040

cleaning it up I appreciate that so you

333

00:14:57,170 --> 00:14:55,890

know we magnet now we got besides the

334

00:14:59,840 --> 00:14:57,180

flicker and glow we talked about

335

00:15:03,019 --> 00:14:59,850

potentially you know geological that

336

00:15:04,940 --> 00:15:03,029

damn beam the beam that you can't see

337

00:15:05,360 --> 00:15:04,950

with your eyes but you can see it in

338

00:15:07,790 --> 00:15:05,370

infrared

339

00:15:09,320 --> 00:15:07,800

come on you guys like give me thoughts

340

00:15:11,120 --> 00:15:09,330

what do you guys think I have no

341

00:15:13,430 --> 00:15:11,130

explanation for that to be honest I I

342

00:15:17,840 --> 00:15:13,440

could make something up but it would be

343

00:15:19,640 --> 00:15:17,850

total [h__\h] so I don't want to Jason

344

00:15:21,920 --> 00:15:19,650

what do you think yeah I mean we

345

00:15:25,160 --> 00:15:21,930

speculated last week but I I I've got

346

00:15:26,870 --> 00:15:25,170

nothing nothing I mean you know from an

347

00:15:28,820 --> 00:15:26,880

investigator's standpoint you always

348

00:15:30,610 --> 00:15:28,830

want to physically be there you want to

349

00:15:33,560 --> 00:15:30,620

experience it for yourself because

350

00:15:35,810 --> 00:15:33,570

experiencing makes it real for you you

351

00:15:38,030 --> 00:15:35,820

know it's easy for people watching a TV

352

00:15:40,040 --> 00:15:38,040

show you know for me being a spectator

353

00:15:42,290 --> 00:15:40,050

right now and seeing something and

354

00:15:44,180 --> 00:15:42,300

thinking oh yeah well it could be this

355

00:15:45,860 --> 00:15:44,190

this or this I wasn't there you know

356

00:15:47,750 --> 00:15:45,870

these guys are there and this isn't the

357

00:15:49,850 --> 00:15:47,760

only time that they've seen it right so

358

00:15:51,890 --> 00:15:49,860

I mean for somebody who hasn't

359

00:15:53,269 --> 00:15:51,900

experienced that personally you know I

360

00:15:56,900 --> 00:15:53,279

think that would change everything for

361

00:15:59,630 --> 00:15:56,910

me in terms of you know how much weight

362

00:16:02,600 --> 00:15:59,640

I give it and how how like bizarre it is

363

00:16:04,640 --> 00:16:02,610

to me and how how just confounded I am

364

00:16:06,590 --> 00:16:04,650

and just as a spectator I'm already that

365

00:16:09,350 --> 00:16:06,600

way so I've got

366

00:16:12,079 --> 00:16:09,360

and I think so a question because I

367

00:16:15,069 --> 00:16:12,089

haven't like watched the video a million

368

00:16:18,799 --> 00:16:15,079

times or anything was it was it pretty

369

00:16:22,100 --> 00:16:18,809

even in size or did it expand or either

370

00:16:24,019 --> 00:16:22,110

at the top or the bottom anywhere right

371

00:16:26,720 --> 00:16:24,029

you want answer that yes sure

372

00:16:28,879 --> 00:16:26,730

so um you know fortunately I watched

373

00:16:31,040 --> 00:16:28,889

last week's and some of your you know

374

00:16:33,679 --> 00:16:31,050

theories on what it was which no we're

375

00:16:36,949 --> 00:16:33,689

good and we've had to debunk so many

376

00:16:40,249 --> 00:16:36,959

crazy light effects on the ranch due to

377

00:16:41,929 --> 00:16:40,259

you know traffic in the distance or you

378

00:16:44,090 --> 00:16:41,939

know people with flashlights and saints

379

00:16:47,540 --> 00:16:44,100

and things like that or used-car Lots I

380

00:16:49,730 --> 00:16:47,550

think someone was yeah Travis when it

381

00:16:52,549 --> 00:16:49,740

showed that graphic of that beating so

382

00:16:54,619 --> 00:16:52,559

this one actually the way that it it

383

00:16:58,160 --> 00:16:54,629

appeared on the infrared was if it was

384

00:17:00,290 --> 00:16:58,170

coming from right near kind of where the

385

00:17:02,629 --> 00:17:00,300

Homestead number two is which is around

386

00:17:06,289 --> 00:17:02,639

the corner which there's no possible way

387

00:17:07,610 --> 00:17:06,299

there's any traffic over there so you

388

00:17:12,019 --> 00:17:07,620

know the whole headlight reflection

389

00:17:14,240 --> 00:17:12,029

thing and not not a thing and in it it

390

00:17:16,549 --> 00:17:14,250

seemed like it was a very uniform with

391

00:17:18,350 --> 00:17:16,559

it didn't you know it didn't seem like

392

00:17:21,980 --> 00:17:18,360

it was wider at the bottom or at the top

393

00:17:23,809 --> 00:17:21,990

and and appeared as if it was coming

394

00:17:27,139 --> 00:17:23,819

from the ground going up I mean Travis

395

00:17:28,760 --> 00:17:27,149

used you know I think he used the

396

00:17:32,600 --> 00:17:28,770

terminology it looks like it's tracking

397

00:17:35,269 --> 00:17:32,610

something you know I don't I don't know

398

00:17:39,110 --> 00:17:35,279

you know what he was thinking when up

399

00:17:41,960 --> 00:17:39,120

but they definitely had them had all of

400

00:17:43,549 --> 00:17:41,970

us including the scientists absolutely

401
00:17:48,740 --> 00:17:43,559
stumped as to what it could be and they

402
00:17:50,120 --> 00:17:48,750
reviewed that footage over that's the

403
00:17:55,340 --> 00:17:50,130
thing I love about Eric bard

404
00:17:57,260 --> 00:17:55,350
is he wants to debunk everything does

405
00:18:00,260 --> 00:17:57,270
and foremost because he's like before

406
00:18:03,039 --> 00:18:00,270
he'll put anything out there as unusual

407
00:18:06,590 --> 00:18:03,049
or strange he is gonna go through

408
00:18:09,110 --> 00:18:06,600
painstakingly just effort look I mean a

409
00:18:12,649 --> 00:18:09,120
ton of effort to try and bunk what it is

410
00:18:15,440 --> 00:18:12,659
I mean you should see what a snowflake

411
00:18:17,930 --> 00:18:15,450
being blown in the wind under infrared

412
00:18:19,880 --> 00:18:17,940
light looks like you would swear it is

413
00:18:22,730 --> 00:18:19,890

like the most spectacular

414

00:18:24,440 --> 00:18:22,740

you fo you know or the thing every fact

415

00:18:26,780 --> 00:18:24,450

we've even you know we've called them

416

00:18:29,450 --> 00:18:26,790

snores because there's so many of them

417

00:18:32,240 --> 00:18:29,460

let's but light snowflake under infrared

418

00:18:34,790 --> 00:18:32,250

and so it's taking a lot of you know

419

00:18:37,670 --> 00:18:34,800

learning what is actually there and

420

00:18:41,000 --> 00:18:37,680

natural versus things that we absolutely

421

00:18:44,180 --> 00:18:41,010

have gone through everything to try and

422

00:18:46,930 --> 00:18:44,190

figure out what it is before we say okay

423

00:18:49,940 --> 00:18:46,940

that it's strain or that's unusual

424

00:18:51,890 --> 00:18:49,950

because you know how it is how many

425

00:18:55,340 --> 00:18:51,900

times have you seen dirt on a camera

426

00:18:56,720 --> 00:18:55,350

lens if people swear this always Jason

427

00:18:58,610 --> 00:18:56,730

and I can definitely attest to that

428

00:19:02,210 --> 00:18:58,620

because we've dealt with that our whole

429

00:19:03,800 --> 00:19:02,220

career in this field and we used to get

430

00:19:05,600 --> 00:19:03,810

called slowly and slowly because they'd

431

00:19:07,790 --> 00:19:05,610

yell at us for debunking but it's the

432

00:19:09,800 --> 00:19:07,800

same thing it's ruling out what it could

433

00:19:12,170 --> 00:19:09,810

possibly be before you decide it's

434

00:19:13,520 --> 00:19:12,180

something anomalous right and and Eric

435

00:19:15,170 --> 00:19:13,530

doesn't play around like you know I

436

00:19:16,730 --> 00:19:15,180

always say Eric you're curmudgeon like

437

00:19:18,860 --> 00:19:16,740

he just wants to throw cold water on

438

00:19:26,780 --> 00:19:18,870

every every theory that there is and we

439

00:19:28,670 --> 00:19:26,790

call him the angry little elf nope I'll

440

00:19:31,790 --> 00:19:28,680

never forget I was home for the holidays

441

00:19:33,650 --> 00:19:31,800

and that that one and they had calling

442

00:19:35,660 --> 00:19:33,660

it an iconic image because I loved that

443

00:19:37,610 --> 00:19:35,670

one image where the infrared light is

444

00:19:40,040 --> 00:19:37,620

coming you know straight up and what I

445

00:19:42,230 --> 00:19:40,050

found so fascinating is that there's no

446

00:19:43,970 --> 00:19:42,240

bleed from that light and what I mean by

447

00:19:46,130 --> 00:19:43,980

that is not dissipating it doesn't get

448

00:19:49,070 --> 00:19:46,140

lesser as it kind of goes outward it's

449

00:19:50,510 --> 00:19:49,080

literally it looks like a beam and I was

450

00:19:53,090 --> 00:19:50,520

visiting or I was home for the holidays

451
00:19:55,310 --> 00:19:53,100
and he sent me that picture this is

452
00:19:58,010 --> 00:19:55,320
December 23rd so it's like he's like

453
00:20:00,410 --> 00:19:58,020
look at this I'm looking at this this

454
00:20:02,690 --> 00:20:00,420
tower and I was like okay cool you know

455
00:20:05,360 --> 00:20:02,700
what is it he's like you're naked I

456
00:20:07,700 --> 00:20:05,370
can't see that I think wait what and

457
00:20:09,890 --> 00:20:07,710
then it becomes this no way and so I

458
00:20:11,570 --> 00:20:09,900
think it frustrated him a lot at that

459
00:20:13,610 --> 00:20:11,580
time like you know when the date stamp

460
00:20:15,170 --> 00:20:13,620
is on there there was real time like he

461
00:20:17,450 --> 00:20:15,180
definitely had gotten frustrated from

462
00:20:19,190 --> 00:20:17,460
that and I know that he spent a lot of

463
00:20:22,970 --> 00:20:19,200

time you know get into the bottom of

464

00:20:27,160 --> 00:20:22,980

that but he's uh yeah angry I loved it I

465

00:20:30,230 --> 00:20:27,170

had I had nerd that one from him that's

466

00:20:33,260 --> 00:20:30,240

probably gonna be angry or elf because I

467

00:20:38,450 --> 00:20:33,270

shouted dragon versus

468

00:20:41,120 --> 00:20:38,460

in Grinnell the things like a t-shirt he

469

00:20:42,590 --> 00:20:41,130

is just he's one of my favorite people

470

00:20:45,590 --> 00:20:42,600

and one of the smartest people I've ever

471

00:20:47,510 --> 00:20:45,600

met I mean it's it's unbelievable so

472

00:20:51,790 --> 00:20:47,520

we're lucky really lucky to have him

473

00:20:54,590 --> 00:20:51,800

because of that very reason he is 100%

474

00:20:57,650 --> 00:20:54,600

you know his mantra and you've heard it

475

00:20:59,630 --> 00:20:57,660

before is I'm not here to believe or

476

00:21:02,840 --> 00:20:59,640

disbelieve I'm here to observe him

477

00:21:06,170 --> 00:21:02,850

before anything out there

478

00:21:08,900 --> 00:21:06,180

ever he is gonna go through every last

479

00:21:10,610 --> 00:21:08,910

way of proving it to be something normal

480

00:21:13,610 --> 00:21:10,620

before he's even willing to say that's

481

00:21:16,460 --> 00:21:13,620

even interesting your story interesting

482

00:21:18,680 --> 00:21:16,470

yet for him to say interesting that's a

483

00:21:20,120 --> 00:21:18,690

big step like a lot of times would be

484

00:21:22,070 --> 00:21:20,130

like and he'll try to explain things

485

00:21:24,470 --> 00:21:22,080

away and it's like okay well you used

486

00:21:26,510 --> 00:21:24,480

that thing called science no it's that

487

00:21:29,180 --> 00:21:26,520

you know that you explained it but uh

488

00:21:31,310 --> 00:21:29,190

and I was I was saying it before and I'm

489

00:21:33,320 --> 00:21:31,320

sure you'd heard it yeah right like you

490

00:21:34,850 --> 00:21:33,330

know he is a really good way of saying

491

00:21:36,620 --> 00:21:34,860

of breaking things down so people can

492

00:21:38,180 --> 00:21:36,630

understand and we'll get more of that I

493

00:21:40,060 --> 00:21:38,190

feel like you know you're gonna see more

494

00:21:42,740 --> 00:21:40,070

of Eric's personality that way come out

495

00:21:44,060 --> 00:21:42,750

you know he's just genuinely awesome I

496

00:21:48,500 --> 00:21:44,070

mean I can't say enough good things

497

00:21:50,960 --> 00:21:48,510

about him so it's uh yeah I mean I just

498

00:21:54,890 --> 00:21:50,970

say so many things and it's like I can't

499

00:21:59,480 --> 00:21:54,900

yet it's anyway you know I've probably

500

00:22:01,960 --> 00:21:59,490

already said stuff is you can name text

501
00:22:07,040 --> 00:22:01,970
messages right now from Brandon I'm not

502
00:22:09,260 --> 00:22:07,050
nice so if anyone if you lose power or

503
00:22:11,740 --> 00:22:09,270
anything kind of like I did in in our

504
00:22:17,690 --> 00:22:11,750
first episode you know we might know why

505
00:22:21,230 --> 00:22:17,700
just assume it's been shut down the

506
00:22:24,290 --> 00:22:21,240
thing is as Brandon is you know I've

507
00:22:27,560 --> 00:22:24,300
known Brandon for 28 years and you know

508
00:22:32,360 --> 00:22:27,570
what he is so excited and he genuinely

509
00:22:33,980 --> 00:22:32,370
is excited yeah you allow people to see

510
00:22:36,620 --> 00:22:33,990
what's going on the range because it was

511
00:22:38,960 --> 00:22:36,630
such you know it's his passion it's his

512
00:22:40,910 --> 00:22:38,970
toy he doesn't you know he's not out for

513
00:22:42,200 --> 00:22:40,920

monetary gain or anything he doesn't

514

00:22:44,810 --> 00:22:42,210

need it

515

00:22:47,200 --> 00:22:44,820

it literally is his science project and

516

00:22:49,299 --> 00:22:47,210

I've I've I've told him

517

00:22:51,279 --> 00:22:49,309

on many occasions he's like the most

518

00:22:53,349 --> 00:22:51,289

successful 17 year old kid I've ever met

519

00:22:55,089 --> 00:22:53,359

because that's his passion and

520

00:22:57,070 --> 00:22:55,099

excitement for things like this so

521

00:23:00,519 --> 00:22:57,080

that's you know that's what's been cool

522

00:23:02,320 --> 00:23:00,529

and yeah he's all about you know what if

523

00:23:03,789 --> 00:23:02,330

we actually find stuff we want people to

524

00:23:05,859 --> 00:23:03,799

know about it we're not gonna hide it

525

00:23:08,109 --> 00:23:05,869

away or you know that's what we're here

526

00:23:10,060 --> 00:23:08,119

for and he's been super genuine about a

527

00:23:12,039 --> 00:23:10,070

lot of this stuff and I remember you

528

00:23:13,419 --> 00:23:12,049

know first first conversations that had

529

00:23:15,489 --> 00:23:13,429

with him it was like you want to share

530

00:23:18,009 --> 00:23:15,499

like he really wanted to share his

531

00:23:19,989 --> 00:23:18,019

journey in the exploration with other

532

00:23:21,879 --> 00:23:19,999

people I mean as opposed it's the

533

00:23:23,499 --> 00:23:21,889

complete opposite of the Bigelow era

534

00:23:25,299 --> 00:23:23,509

where it was just like know that me

535

00:23:27,789 --> 00:23:25,309

hoard all the data and keep it to myself

536

00:23:28,930 --> 00:23:27,799

Brennan is like look you know I want

537

00:23:30,969 --> 00:23:28,940

other people to join me on this journey

538

00:23:32,799 --> 00:23:30,979

and I and I was really impressed with

539

00:23:34,599 --> 00:23:32,809

the fact that like here's someone who

540

00:23:36,940 --> 00:23:34,609

has the resources to do something that

541

00:23:38,829 --> 00:23:36,950

millions of people would love to know

542

00:23:41,079 --> 00:23:38,839

the answer to or love to do go out there

543

00:23:42,759 --> 00:23:41,089

and those kick-ass camping trips with

544

00:23:45,009 --> 00:23:42,769

like you know tens of thousands worth of

545

00:23:46,329 --> 00:23:45,019

dollars worth of gear it's like he's

546

00:23:48,159 --> 00:23:46,339

doing it and he's sharing that with

547

00:23:50,469 --> 00:23:48,169

people and it's like I think people

548

00:23:52,269 --> 00:23:50,479

really appreciate that fact and I know

549

00:23:54,219 --> 00:23:52,279

that people talk about it on television

550

00:23:57,219 --> 00:23:54,229

and it's it's you know it's manufactured

551
00:23:59,469 --> 00:23:57,229
no it's not so one of the great things I

552
00:24:02,589 --> 00:23:59,479
want to tell people when developing the

553
00:24:04,209 --> 00:24:02,599
show what was so great was what is

554
00:24:06,759 --> 00:24:04,219
happening at the ranch was happening

555
00:24:09,249 --> 00:24:06,769
regardless if a television show

556
00:24:11,109 --> 00:24:09,259
happening so this was going on there was

557
00:24:13,659 --> 00:24:11,119
no TV show happening they were doing

558
00:24:16,060 --> 00:24:13,669
this already and that's why this show

559
00:24:18,759 --> 00:24:16,070
really got the interest of network

560
00:24:20,349 --> 00:24:18,769
because it's genuine it's there's no

561
00:24:22,180 --> 00:24:20,359
casting there's nothing like that it was

562
00:24:24,399 --> 00:24:22,190
like oh we could just plug in some

563
00:24:26,529 --> 00:24:24,409

cameras and film what they're doing well

564

00:24:28,269 --> 00:24:26,539

then [h__h] this is great they're doing

565

00:24:30,669 --> 00:24:28,279

all the hard work we're just videotaping

566

00:24:32,349 --> 00:24:30,679

stuff so all of this was already

567

00:24:33,759 --> 00:24:32,359

happening and I think that's something

568

00:24:36,129 --> 00:24:33,769

that's really important to get out there

569

00:24:38,169 --> 00:24:36,139

like this is not this wasn't cast this

570

00:24:39,579 --> 00:24:38,179

wasn't put together and we drink right

571

00:24:42,609 --> 00:24:39,589

you could have tested this and Jason

572

00:24:45,459 --> 00:24:42,619

please yeah yes I I can't because I was

573

00:24:46,930 --> 00:24:45,469

called a really bad actor half know like

574

00:24:49,930 --> 00:24:46,940

well that's good that's good

575

00:24:55,479 --> 00:24:49,940

because that is not what I have that's a

576
00:24:56,769 --> 00:24:55,489
very good compliment yeah right but no

577
00:24:58,060 --> 00:24:56,779
sharing this with people so people can

578
00:25:00,180 --> 00:24:58,070
actually see what's going on it's kind

579
00:25:02,399 --> 00:25:00,190
of it's it's kind of Awesome it

580
00:25:04,619 --> 00:25:02,409
number four so well and that kind of

581
00:25:08,519 --> 00:25:04,629
lends to the fact it's been our little

582
00:25:11,039 --> 00:25:08,529
core group from the beginning you know I

583
00:25:12,990 --> 00:25:11,049
know there's been questions as to you

584
00:25:14,999 --> 00:25:13,000
know why is the security guy sitting at

585
00:25:17,490 --> 00:25:15,009
the table talking about this kind of

586
00:25:20,039 --> 00:25:17,500
stuff and science well just because I

587
00:25:20,909 --> 00:25:20,049
mean we all pitch in and do pretty much

588
00:25:23,100 --> 00:25:20,919

everything

589

00:25:25,350 --> 00:25:23,110

I mean we're small you know we're a

590

00:25:27,149 --> 00:25:25,360

small group we're really tight we call

591

00:25:28,919 --> 00:25:27,159

ourselves the ranch family no you guys

592

00:25:32,700 --> 00:25:28,929

are a rich family you're her family and

593

00:25:34,320 --> 00:25:32,710

I you know we all wear you know

594

00:25:36,960 --> 00:25:34,330

different hats depending on what's

595

00:25:38,669 --> 00:25:36,970

needed mine happens to be black and I

596

00:25:40,860 --> 00:25:38,679

have the quote title of head of security

597

00:25:44,310 --> 00:25:40,870

because that's you know part of what I

598

00:25:46,080 --> 00:25:44,320

do but you know setting up equipment and

599

00:25:49,169 --> 00:25:46,090

helping with scientific experiments back

600

00:25:51,330 --> 00:25:49,179

just today I was hoping Eric you know

601
00:25:52,230 --> 00:25:51,340
try and figure out something that he's

602
00:25:54,119 --> 00:25:52,240
trying to do with some of the

603
00:25:55,889 --> 00:25:54,129
surveillance you know to help out and

604
00:25:57,990 --> 00:25:55,899
and add another element to things and

605
00:26:03,570 --> 00:25:58,000
things like that it's just we all pitch

606
00:26:06,299 --> 00:26:03,580
in and you know I've told TJ this the

607
00:26:10,019 --> 00:26:06,309
one thing that Brandon values more in

608
00:26:12,269 --> 00:26:10,029
this world then you know finances or

609
00:26:14,759 --> 00:26:12,279
whatever is you know there's it's two

610
00:26:16,080 --> 00:26:14,769
things trust and loyalty and he wants

611
00:26:19,230 --> 00:26:16,090
people he can trust and he knows they're

612
00:26:21,149 --> 00:26:19,240
loyal to him and so you know I like I

613
00:26:24,480 --> 00:26:21,159

said I've known I've known him for

614

00:26:27,539 --> 00:26:24,490

better part of my life and he trusts me

615

00:26:32,430 --> 00:26:27,549

and he gave me the mandate and said

616

00:26:34,999 --> 00:26:32,440

don't let people dig so that's I took a

617

00:26:38,669 --> 00:26:35,009

beating for that one too I know so so in

618

00:26:39,930 --> 00:26:38,679

the first episode I was thinking we

619

00:26:41,399 --> 00:26:39,940

could get into this stuff at the end but

620

00:26:42,930 --> 00:26:41,409

since you just brought it up you know at

621

00:26:44,820 --> 00:26:42,940

the end of this episode but no no this

622

00:26:47,700 --> 00:26:44,830

is great so tell us about that like that

623

00:26:49,560 --> 00:26:47,710

was not a that wasn't you know you were

624

00:26:51,810 --> 00:26:49,570

watching his back right he told you no

625

00:26:53,789 --> 00:26:51,820

digging and you were just doing I don't

626

00:26:55,499 --> 00:26:53,799

think I said like this is this is your

627

00:26:58,289 --> 00:26:55,509

job to uphold these you know his

628

00:26:59,999 --> 00:26:58,299

mandates I mean it wasn't like it was

629

00:27:01,680 --> 00:27:00,009

again it's not something manufactured

630

00:27:02,909 --> 00:27:01,690

like the legit you know suppose you

631

00:27:05,430 --> 00:27:02,919

didn't watch people a day because people

632

00:27:07,529 --> 00:27:05,440

got hurt as we see the thing about is

633

00:27:11,310 --> 00:27:07,539

anyone that knows me am like the least

634

00:27:13,640 --> 00:27:11,320

superstitious person you'll and so I

635

00:27:16,190 --> 00:27:13,650

came home of the ranch I

636

00:27:18,800 --> 00:27:16,200

I would like I'd like to say I was kind

637

00:27:21,350 --> 00:27:18,810

of an agnostic toward all of this stuff

638

00:27:24,800 --> 00:27:21,360

I told Brandon he was crazy I'm like

639

00:27:26,180 --> 00:27:24,810

you're buying 512 acres of bench are you

640

00:27:28,310 --> 00:27:26,190

in a basin and you don't even own a pair

641

00:27:31,430 --> 00:27:28,320

of jeans to wear out there I mean he

642

00:27:37,580 --> 00:27:31,440

literally little gently does or seekers

643

00:27:38,990 --> 00:27:37,590

and and so you know I said sure you know

644

00:27:42,140 --> 00:27:39,000

I'll go out and help you out do some

645

00:27:44,360 --> 00:27:42,150

things and so on and so forth and so you

646

00:27:47,180 --> 00:27:44,370

know I didn't really know a bunch of

647

00:27:50,470 --> 00:27:47,190

stories about the ranch or necessarily

648

00:27:52,790 --> 00:27:50,480

think that it was a thing but you know

649

00:27:54,770 --> 00:27:52,800

experiencing what happened with Tom and

650

00:27:56,540 --> 00:27:54,780

then you know the previous you know

651
00:28:00,350 --> 00:27:56,550
narrative that came along with things

652
00:28:02,660 --> 00:28:00,360
and you know I just kind of took it for

653
00:28:04,490 --> 00:28:02,670
his word you need to keep people in line

654
00:28:06,560 --> 00:28:04,500
and one of the things that you know

655
00:28:08,060 --> 00:28:06,570
could cause trouble is you know digging

656
00:28:10,370 --> 00:28:08,070
and you know one other element that

657
00:28:12,170 --> 00:28:10,380
people don't talk about is you know

658
00:28:15,320 --> 00:28:12,180
we're surrounded by Native American land

659
00:28:18,050 --> 00:28:15,330
fears and this wasn't always owned

660
00:28:19,790 --> 00:28:18,060
privately you know prior to you know the

661
00:28:21,710 --> 00:28:19,800
Meijer and things like that I'm sure

662
00:28:25,580 --> 00:28:21,720
that you know the Native Americans

663
00:28:27,500 --> 00:28:25,590

roamed so out of respect for that too

664

00:28:29,030 --> 00:28:27,510

I mean we don't know necessarily what's

665

00:28:30,830 --> 00:28:29,040

underneath the ground there could be you

666

00:28:33,130 --> 00:28:30,840

know graves there could be all different

667

00:28:36,560 --> 00:28:33,140

that's why we really want to try to use

668

00:28:38,750 --> 00:28:36,570

non-invasive things as opposed to hey

669

00:28:40,160 --> 00:28:38,760

we're going to go out and big holes

670

00:28:42,370 --> 00:28:40,170

because they said that that's what

671

00:28:45,020 --> 00:28:42,380

triggers crazy stuff to happen so you

672

00:28:47,330 --> 00:28:45,030

combine all those things and the mandate

673

00:28:49,130 --> 00:28:47,340

that look you're gonna get a lot of

674

00:28:50,660 --> 00:28:49,140

these guys that are excited and want to

675

00:28:53,480 --> 00:28:50,670

go do a whole bunch of stuff but I need

676

00:28:56,210 --> 00:28:53,490

you to kind of be the bad guy if you

677

00:28:58,250 --> 00:28:56,220

will and keep everyone in line because I

678

00:29:00,020 --> 00:28:58,260

don't want people getting hurt first and

679

00:29:01,940 --> 00:29:00,030

foremost and the liability that goes

680

00:29:04,340 --> 00:29:01,950

along with that everything else so it's

681

00:29:06,200 --> 00:29:04,350

kind of where that all came from Jason

682

00:29:08,720 --> 00:29:06,210

Maureen like is this something that you

683

00:29:10,130 --> 00:29:08,730

would say I mean is unprecedented in the

684

00:29:12,830 --> 00:29:10,140

fact that someone is sharing like this

685

00:29:14,780 --> 00:29:12,840

the brand and sharing these experiments

686

00:29:16,190 --> 00:29:14,790

and whatnot or is there kind of

687

00:29:17,330 --> 00:29:16,200

something he can look to or we can look

688

00:29:18,640 --> 00:29:17,340

to to say like okay here's the

689

00:29:21,590 --> 00:29:18,650

precedents that's been set in the past

690

00:29:23,150 --> 00:29:21,600

about people sharing info and whatnot or

691

00:29:25,640 --> 00:29:23,160

is this kind of a unique situation I

692

00:29:27,830 --> 00:29:25,650

think no I I think that it's all over

693

00:29:29,630 --> 00:29:27,840

the board so you have a lot of people

694

00:29:32,500 --> 00:29:29,640

or on the side where they want to share

695

00:29:34,610 --> 00:29:32,510

all the info and are excited to do so in

696

00:29:36,440 --> 00:29:34,620

sometimes to a fault where they're

697

00:29:38,180 --> 00:29:36,450

presenting information that hasn't been

698

00:29:40,940 --> 00:29:38,190

reviewed and it's not very scientific

699

00:29:43,159 --> 00:29:40,950

and that's a huge problem and then you

700

00:29:46,010 --> 00:29:43,169

have situations like you mentioned with

701
00:29:48,440 --> 00:29:46,020
Bigelow and I actually saw some people

702
00:29:51,289 --> 00:29:48,450
asking about this based on this last

703
00:29:53,750 --> 00:29:51,299
episode where at the intro you say are

704
00:29:55,700 --> 00:29:53,760
somebody the narrator says Bigelow never

705
00:29:57,590 --> 00:29:55,710
found anything or something like that

706
00:29:59,810 --> 00:29:57,600
and then you go to Todd which is yeah we

707
00:30:02,269 --> 00:29:59,820
all know it's not necessarily true but

708
00:30:04,070 --> 00:30:02,279
then it goes on to say later he just or

709
00:30:05,840 --> 00:30:04,080
I think Brandon even said it like he

710
00:30:07,250 --> 00:30:05,850
just wouldn't share that information we

711
00:30:09,799 --> 00:30:07,260
don't know what happened with a lot of

712
00:30:13,190 --> 00:30:09,809
that and that's that's more of the story

713
00:30:14,990 --> 00:30:13,200

as Bigelow is kind of tends to hold that

714

00:30:17,899 --> 00:30:15,000

information onto his own and we know

715

00:30:21,200 --> 00:30:17,909

that for both his aerospace company and

716

00:30:23,330 --> 00:30:21,210

andrew skinwalker ranch as well so it's

717

00:30:24,799 --> 00:30:23,340

not that nobody would ever share data

718

00:30:26,930 --> 00:30:24,809

there's plenty of people that you

719

00:30:28,730 --> 00:30:26,940

research this kind of thing that share

720

00:30:31,340 --> 00:30:28,740

all of their findings very well

721

00:30:34,220 --> 00:30:31,350

documented and scientifically but yeah

722

00:30:37,399 --> 00:30:34,230

it's it's just it's a it's a you know

723

00:30:41,810 --> 00:30:37,409

ball game I guess you could say we live

724

00:30:43,700 --> 00:30:41,820

in a society no Jason what do you think

725

00:30:45,289 --> 00:30:43,710

of it we in on this like come on I mean

726

00:30:46,880 --> 00:30:45,299

I know you you were very analytical as

727

00:30:48,950 --> 00:30:46,890

well like you are always breaking stuff

728

00:30:51,710 --> 00:30:48,960

down and sometimes when I talk with

729

00:30:54,529 --> 00:30:51,720

Jason by the way I makes me feel like

730

00:30:56,810 --> 00:30:54,539

he's not listening because he doesn't

731

00:30:58,070 --> 00:30:56,820

respond and like do head nods or

732

00:31:02,870 --> 00:30:58,080

anything like that or smile or like

733

00:31:05,180 --> 00:31:02,880

uh-huh well just looks like it's funny

734

00:31:07,700 --> 00:31:05,190

because he looks at you like yeah dude

735

00:31:09,110 --> 00:31:07,710

yep like wait what

736

00:31:12,200 --> 00:31:09,120

I wasn't even asking a yes-or-no

737

00:31:13,639 --> 00:31:12,210

question I understand you have no idea

738

00:31:18,430 --> 00:31:13,649

the conversations that's going on in my

739

00:31:20,659 --> 00:31:18,440

head you don't want my keys no no I mean

740

00:31:22,880 --> 00:31:20,669

certainly with skinwalker with with the

741

00:31:24,350 --> 00:31:22,890

ranch itself you know this is this is

742

00:31:26,870 --> 00:31:24,360

fantastic this is something new that we

743

00:31:29,560 --> 00:31:26,880

haven't haven't had before you know we

744

00:31:32,899 --> 00:31:29,570

sort of got some layers peeled back with

745

00:31:35,210 --> 00:31:32,909

George Knapp and Colin Kelleher to a

746

00:31:38,480 --> 00:31:35,220

very limited degree you know because

747

00:31:39,930 --> 00:31:38,490

they were bound by NTAs they were

748

00:31:41,659 --> 00:31:39,940

restricted from what information

749

00:31:44,450 --> 00:31:41,669

they shared and even in recent years

750

00:31:47,399 --> 00:31:44,460

when partnering up with Jeremy Korb

751
00:31:49,710 --> 00:31:47,409
George was able to get a little more of

752
00:31:52,409 --> 00:31:49,720
his stuff out about the ranch but even

753
00:31:55,919 --> 00:31:52,419
that still he was heavily restricted on

754
00:31:57,570 --> 00:31:55,929
what he could share so now Brandon just

755
00:31:59,549 --> 00:31:57,580
wants to get this information out wants

756
00:32:01,710 --> 00:31:59,559
to share with everybody but at the same

757
00:32:04,470 --> 00:32:01,720
time seems to be doing it responsibly I

758
00:32:07,340 --> 00:32:04,480
like that and like Brian said with

759
00:32:10,320 --> 00:32:07,350
people on the team that have been

760
00:32:14,279 --> 00:32:10,330
selected for their skill sets and people

761
00:32:18,440 --> 00:32:14,289
like Eric who are not there to push

762
00:32:21,149 --> 00:32:18,450
forward you know the lure of the ranch

763
00:32:23,970 --> 00:32:21,159

people are there to find answers to find

764

00:32:25,919 --> 00:32:23,980

the truth so that's really good to see

765

00:32:28,499 --> 00:32:25,929

and from an investigation standpoint

766

00:32:31,860 --> 00:32:28,509

this is kind of you know unusual when it

767

00:32:34,110 --> 00:32:31,870

comes to the world of a paranormal right

768

00:32:35,279 --> 00:32:34,120

well I mean this is great I just I love

769

00:32:37,590 --> 00:32:35,289

that we're able to talk about this more

770

00:32:40,409 --> 00:32:37,600

openly than people I seem to have and

771

00:32:42,690 --> 00:32:40,419

doing in the past but you know I want to

772

00:32:44,879 --> 00:32:42,700

mean we could talk for god we can go on

773

00:32:47,879 --> 00:32:44,889

for hours honestly good we should

774

00:32:49,409 --> 00:32:47,889

probably get two episodes move on three

775

00:32:51,269 --> 00:32:49,419

I mean this is just the Libyan kind

776

00:32:53,970 --> 00:32:51,279

episode three all right and we've been

777

00:32:56,070 --> 00:32:53,980

chatty chatter send over here so alright

778

00:32:58,110 --> 00:32:56,080

so we come to episode three starts off

779

00:33:00,450 --> 00:32:58,120

and you know you got you got there the

780

00:33:01,860 --> 00:33:00,460

flashback of the you know where they saw

781

00:33:03,810 --> 00:33:01,870

in the glow and the flicker and the beam

782

00:33:07,259 --> 00:33:03,820

and then Tom's injury so we come back

783

00:33:09,539 --> 00:33:07,269

into the Vblock where we have you know

784

00:33:11,850 --> 00:33:09,549

Tom talking about his injuries and you

785

00:33:14,490 --> 00:33:11,860

know he he go he talks about you know

786

00:33:15,990 --> 00:33:14,500

shadow people or you know what he had

787

00:33:19,649 --> 00:33:16,000

seen they kind of reference that stuff

788

00:33:22,080 --> 00:33:19,659

and then he comes back like he comes

789

00:33:25,200 --> 00:33:22,090

back from the hospital I mean I don't

790

00:33:28,289 --> 00:33:25,210

want to get too much into the reactions

791

00:33:30,360 --> 00:33:28,299

that we had had because there's there's

792

00:33:31,649 --> 00:33:30,370

a lot of backstory there and and Bryant

793

00:33:32,850 --> 00:33:31,659

you and I had spoken about this there's

794

00:33:35,749 --> 00:33:32,860

a lot of backstory that goes on there

795

00:33:38,190 --> 00:33:35,759

that we really just gloss over in

796

00:33:40,440 --> 00:33:38,200

because we haven't really developed or

797

00:33:42,899 --> 00:33:40,450

given people a lot of insight into Jim

798

00:33:44,610 --> 00:33:42,909

Morse and Jim like I think I had said in

799

00:33:45,930 --> 00:33:44,620

Episode one like Jim like my son calls

800

00:33:48,299 --> 00:33:45,940

it you saw my mom and I saw my son

801
00:33:50,869 --> 00:33:48,309
earlier like you know my son calls him

802
00:33:53,310 --> 00:33:50,879
Uncle Jim like Jim's one of the boys

803
00:33:54,960 --> 00:33:53,320
right exactly like he's one of

804
00:33:56,940 --> 00:33:54,970
biggest hearted people and you know it's

805
00:33:59,789 --> 00:33:56,950
like manda and just see what happens to

806
00:34:02,399 --> 00:33:59,799
him and to see his reaction and we have

807
00:34:04,440 --> 00:34:02,409
yet to have a any kind of explanation as

808
00:34:06,330 --> 00:34:04,450
to why he did I don't want to go too

809
00:34:07,710 --> 00:34:06,340
deep into that but they like Brian said

810
00:34:08,940 --> 00:34:07,720
there are family these guys aren't a

811
00:34:10,919 --> 00:34:08,950
family they love each other they know

812
00:34:13,169 --> 00:34:10,929
each other for years it's like they all

813
00:34:15,950 --> 00:34:13,179

got each other's backs and so you know

814

00:34:18,629 --> 00:34:15,960

just getting past that part like the the

815

00:34:19,829 --> 00:34:18,639

that tight connections and all that we

816

00:34:23,339 --> 00:34:19,839

got it now

817

00:34:24,750 --> 00:34:23,349

Tom's injuries he seems to be okay um

818

00:34:26,909 --> 00:34:24,760

but he's definitely scared definitely

819

00:34:27,990 --> 00:34:26,919

spooked from it and I know Brian you

820

00:34:30,930 --> 00:34:28,000

could probably give us some insight into

821

00:34:33,450 --> 00:34:30,940

that you know what was going on with him

822

00:34:34,859 --> 00:34:33,460

when he came back and even the night of

823

00:34:36,210 --> 00:34:34,869

like the night out like when you had to

824

00:34:39,809 --> 00:34:36,220

take him I mean will you guys wealth

825

00:34:42,389 --> 00:34:39,819

room in the room in the vehicle and just

826

00:34:43,889 --> 00:34:42,399

kind of like took off like what was

827

00:34:45,530 --> 00:34:43,899

going on like give us some insight that

828

00:34:49,260 --> 00:34:45,540

we didn't see on the show if you could

829

00:34:51,419 --> 00:34:49,270

well I mean I know they talk they give a

830

00:34:52,950 --> 00:34:51,429

brief description of Palms injury but I

831

00:34:55,800 --> 00:34:52,960

mean it was it truly was

832

00:35:00,150 --> 00:34:55,810

life-threatening so his original you

833

00:35:02,040 --> 00:35:00,160

know initial injury and it was you know

834

00:35:05,059 --> 00:35:02,050

a scary thing and so the fact that even

835

00:35:08,630 --> 00:35:05,069

wanted to come back onto the ranch was

836

00:35:11,670 --> 00:35:08,640

surprising to pretty much everybody but

837

00:35:16,559 --> 00:35:11,680

I'm just kind of a head first into

838

00:35:19,920 --> 00:35:16,569

things type of a guy and so you know

839

00:35:22,349 --> 00:35:19,930

after having met Travis and talked about

840

00:35:24,660 --> 00:35:22,359

you know with digging and Toms injury

841

00:35:26,490 --> 00:35:24,670

and everything and and I looked at as

842

00:35:30,300 --> 00:35:26,500

yeah that's in the past type of thing so

843

00:35:33,120 --> 00:35:30,310

the fact that we were out there and you

844

00:35:34,829 --> 00:35:33,130

know tom was a tough dude I just want

845

00:35:37,050 --> 00:35:34,839

you guys to know that he is one of the

846

00:35:39,900 --> 00:35:37,060

he's the one of the toughest guys that I

847

00:35:41,250 --> 00:35:39,910

know I mean that guy is like scary

848

00:35:43,640 --> 00:35:41,260

sometimes because he'll go running

849

00:35:45,660 --> 00:35:43,650

headlong into whatever he's also like

850

00:35:48,300 --> 00:35:45,670

martial art or see a black belt don't

851
00:35:50,370 --> 00:35:48,310
know but is it Taekwon taekwondo jujitsu

852
00:35:59,550 --> 00:35:50,380
I can't remember if Tommy so he's he's

853
00:36:05,640 --> 00:35:59,560
the actual dragon yes getting a bad

854
00:36:07,020 --> 00:36:05,650
connection now no no no Tom's he really

855
00:36:08,520 --> 00:36:07,030
is and we

856
00:36:11,730 --> 00:36:08,530
rely on him heavily for all kinds of

857
00:36:14,040 --> 00:36:11,740
stuff so the fact that he would you know

858
00:36:16,200 --> 00:36:14,050
it scared him bad enough because he did

859
00:36:18,570 --> 00:36:16,210
he start felt I really think that we

860
00:36:20,370 --> 00:36:18,580
were holding that reflector board and I

861
00:36:23,190 --> 00:36:20,380
don't know if that focused the RF you

862
00:36:24,690 --> 00:36:23,200
know it's all speculation as far as what

863
00:36:26,370 --> 00:36:24,700

trigger I think it's kind of like the

864

00:36:28,260 --> 00:36:26,380

way I look at it is you know once

865

00:36:30,120 --> 00:36:28,270

somebody is injured like say a knee or

866

00:36:32,280 --> 00:36:30,130

something you're way more susceptible to

867

00:36:34,080 --> 00:36:32,290

that type of an injury again and it

868

00:36:35,610 --> 00:36:34,090

affects some people differently so you

869

00:36:37,770 --> 00:36:35,620

know the fact that he started

870

00:36:39,960 --> 00:36:37,780

complaining and that he had pain in the

871

00:36:40,560 --> 00:36:39,970

back of his head it was like okay all

872

00:36:41,850 --> 00:36:40,570

bets are off

873

00:36:42,990 --> 00:36:41,860

we're getting you out of here because

874

00:36:44,130 --> 00:36:43,000

we're not going to stick around and see

875

00:36:45,780 --> 00:36:44,140

what happens I don't care what's going

876

00:36:48,420 --> 00:36:45,790

on I don't care if there's a TV show

877

00:36:51,480 --> 00:36:48,430

filming I don't care we're seeing crazy

878

00:36:55,470 --> 00:36:51,490

things we're getting you straight away

879

00:36:57,780 --> 00:36:55,480

out of here and so you know you could

880

00:37:00,120 --> 00:36:57,790

tell it scared him a little bit and and

881

00:37:02,610 --> 00:37:00,130

so you know we got him out of there as

882

00:37:05,760 --> 00:37:02,620

quickly as possible I'm glad that you

883

00:37:08,670 --> 00:37:05,770

know it didn't he didn't have a much

884

00:37:10,980 --> 00:37:08,680

longer exposure because I'm you know I

885

00:37:13,440 --> 00:37:10,990

begin to wonder the actor did his first

886

00:37:15,570 --> 00:37:13,450

injury if he maybe felt something was

887

00:37:18,300 --> 00:37:15,580

just like yeah whatever you know so

888

00:37:20,730 --> 00:37:18,310

luckily he was you know willing to say

889

00:37:22,260 --> 00:37:20,740

you know what something's not right

890

00:37:25,560 --> 00:37:22,270

I need to get out of here because I know

891

00:37:27,090 --> 00:37:25,570

it startled him because he literally you

892

00:37:29,160 --> 00:37:27,100

know he talks about to this day he still

893

00:37:31,350 --> 00:37:29,170

has you know side effects from his

894

00:37:32,760 --> 00:37:31,360

original injury and you know I'll let

895

00:37:37,200 --> 00:37:32,770

him talk about that kind of stuff right

896

00:37:40,440 --> 00:37:37,210

not my place but yeah it was it was

897

00:37:42,180 --> 00:37:40,450

definitely a scary thing and you know we

898

00:37:44,040 --> 00:37:42,190

wanted to get him out of there as

899

00:37:46,260 --> 00:37:44,050

quickly as possible and then you know

900

00:37:48,330 --> 00:37:46,270

what they didn't show is you know when

901
00:37:49,710 --> 00:37:48,340
we had him back here in the command

902
00:37:51,480 --> 00:37:49,720
center he was like no I think if I just

903
00:37:55,110 --> 00:37:51,490
lay down for a little bit all the time

904
00:37:58,830 --> 00:37:55,120
you know I think I'll be fine and we

905
00:38:01,320 --> 00:37:58,840
just said no you've got and luckily you

906
00:38:05,490 --> 00:38:01,330
know Jim Cigala was there and Jim was

907
00:38:07,410 --> 00:38:05,500
brought in you know initially to take a

908
00:38:08,850 --> 00:38:07,420
look at Tom's injuries because just the

909
00:38:10,560 --> 00:38:08,860
normal medical doctors didn't have an

910
00:38:14,010 --> 00:38:10,570
explanation for what happened to him so

911
00:38:16,950 --> 00:38:14,020
it was definitely a scary thing and it

912
00:38:19,470 --> 00:38:16,960
was it was an emotional thing for all of

913
00:38:20,730 --> 00:38:19,480

us you know and you know as you touched

914

00:38:22,680 --> 00:38:20,740

on TJ

915

00:38:24,330 --> 00:38:22,690

Tom and Jim have a really tight

916

00:38:26,310 --> 00:38:24,340

relationship they're like almost like a

917

00:38:28,130 --> 00:38:26,320

brother or a father-son type of

918

00:38:30,270 --> 00:38:28,140

relationship and at the end of the day

919

00:38:31,950 --> 00:38:30,280

Tom would have never even been part of

920

00:38:35,250 --> 00:38:31,960

this had Jim not decided to stay at

921

00:38:38,010 --> 00:38:35,260

Tom's motel when he first was you know

922

00:38:39,630 --> 00:38:38,020

helping Brandon you know launching this

923

00:38:41,580 --> 00:38:39,640

sort of thing and met him found out he

924

00:38:43,680 --> 00:38:41,590

was a contractor I had a skill set and

925

00:38:46,680 --> 00:38:43,690

brought him out so he feels a little bit

926

00:38:48,390 --> 00:38:46,690

even more responsible just due to the

927

00:38:50,940 --> 00:38:48,400

fact that he exposed Tom to the ranch in

928

00:38:52,320 --> 00:38:50,950

the first place and so you know there

929

00:38:53,910 --> 00:38:52,330

was a lot of that emotion that was shown

930

00:38:57,359 --> 00:38:53,920

because that was the first he heard of

931

00:38:59,310 --> 00:38:57,369

it and so yeah it was and I want to

932

00:39:00,660 --> 00:38:59,320

leave it open like because well for

933

00:39:02,250 --> 00:39:00,670

those well we already even said it yet

934

00:39:05,790 --> 00:39:02,260

but Tom will be here with us next week

935

00:39:07,290 --> 00:39:05,800

and I Jimin I've been going back and

936

00:39:09,090 --> 00:39:07,300

forth so hopefully we can get something

937

00:39:10,890 --> 00:39:09,100

scheduled where Jim can can get on here

938

00:39:12,600 --> 00:39:10,900

as well and tell us because I don't want

939

00:39:14,460 --> 00:39:12,610

to speak for them I want them to tell

940

00:39:16,140 --> 00:39:14,470

their stories on their own but thank you

941

00:39:19,140 --> 00:39:16,150

I mean I'm glad you were able to you

942

00:39:21,210 --> 00:39:19,150

know give us some insight into it I

943

00:39:22,560 --> 00:39:21,220

appreciate that and I think it's gonna

944

00:39:24,600 --> 00:39:22,570

got to go a long way people are gonna

945

00:39:25,470 --> 00:39:24,610

you know understand there's people here

946

00:39:27,660 --> 00:39:25,480

these aren't says it's not just

947

00:39:31,140 --> 00:39:27,670

television show these are real people

948

00:39:32,550 --> 00:39:31,150

it's is this really happening and uh one

949

00:39:33,690 --> 00:39:32,560

thing before we go on keep moving

950

00:39:35,340 --> 00:39:33,700

forward like the one thing that really

951
00:39:37,140 --> 00:39:35,350
gets me and I'm sure you know Jason

952
00:39:39,210 --> 00:39:37,150
Marina you guys have seen us before you

953
00:39:41,790 --> 00:39:39,220
know it's like one of the big comments

954
00:39:43,470 --> 00:39:41,800
you see online a lot is that well if

955
00:39:45,060 --> 00:39:43,480
there was something that really happened

956
00:39:48,270 --> 00:39:45,070
something important well we'd know about

957
00:39:51,690 --> 00:39:48,280
it by now it'd be in the news and what I

958
00:39:54,840 --> 00:39:51,700
always want to tell these people is they

959
00:39:56,970 --> 00:39:54,850
are you aware of what an NDA is like if

960
00:39:58,560 --> 00:39:56,980
this got to the news people may not work

961
00:40:01,470 --> 00:39:58,570
again you know television is a very

962
00:40:03,090 --> 00:40:01,480
small industry and if you're the one

963
00:40:04,200 --> 00:40:03,100

who's got a big mouth and starts talking

964

00:40:05,400 --> 00:40:04,210

guess what you're not doing anymore

965

00:40:07,560 --> 00:40:05,410

you're not working

966

00:40:10,020 --> 00:40:07,570

no one's gonna trust you or hire you so

967

00:40:11,550 --> 00:40:10,030

to all those naysayers that are saying

968

00:40:13,320 --> 00:40:11,560

this is oh well we would know about it

969

00:40:14,700 --> 00:40:13,330

if it wasn't poor no you wouldn't know

970

00:40:17,430 --> 00:40:14,710

about it if it was important because

971

00:40:19,380 --> 00:40:17,440

people are talking about it that's their

972

00:40:21,120 --> 00:40:19,390

job you know if Bryant you know this

973

00:40:23,640 --> 00:40:21,130

like we've talked about this before you

974

00:40:25,620 --> 00:40:23,650

know my kids are loving I have three

975

00:40:26,910 --> 00:40:25,630

boys and they're loving this show

976
00:40:29,790 --> 00:40:26,920
because they actually get to see what's

977
00:40:31,640 --> 00:40:29,800
going on they've asked me and I really

978
00:40:33,950 --> 00:40:31,650
same thing you know I'm under a strict

979
00:40:35,540 --> 00:40:33,960
non-disclosure agreement

980
00:40:37,819 --> 00:40:35,550
I haven't even been able to tell my

981
00:40:40,700 --> 00:40:37,829
closest you know my people might give

982
00:40:41,930 --> 00:40:40,710
things like that so right if it leaks

983
00:40:43,490 --> 00:40:41,940
out if it gets out then you know what

984
00:40:45,410 --> 00:40:43,500
it's kind of like ah there's

985
00:40:46,609 --> 00:40:45,420
repercussions to that and so I want

986
00:40:50,329 --> 00:40:46,619
people understand this is a real thing

987
00:40:51,740 --> 00:40:50,339
so you know as we go on so we get you

988
00:40:53,690 --> 00:40:51,750

know hopefully we'll get you know Tom

989

00:40:55,130 --> 00:40:53,700

and Tom of ether next week and hopefully

990

00:40:57,470 --> 00:40:55,140

get you in here to talk more about that

991

00:40:58,819 --> 00:40:57,480

but so I want to go to this because this

992

00:41:01,130 --> 00:40:58,829

is something that just happened and it

993

00:41:02,870 --> 00:41:01,140

has happened in the past and so we were

994

00:41:05,299 --> 00:41:02,880

continuing on with the show and we get

995

00:41:06,770 --> 00:41:05,309

to the B Block and so we have a drone

996

00:41:08,960 --> 00:41:06,780

and you making a comment you know it's

997

00:41:11,210 --> 00:41:08,970

35,000 dollar drone it's not a joke this

998

00:41:14,809 --> 00:41:11,220

is a real thing this is the big boys

999

00:41:16,599 --> 00:41:14,819

toys and the batteries died it or I'm

1000

00:41:19,609 --> 00:41:16,609

sorry no we can't get a signal right um

1001
00:41:21,680 --> 00:41:19,619
yes you guys so we talked about this I

1002
00:41:23,240 --> 00:41:21,690
asked maureen last week the guys Jason's

1003
00:41:25,549 --> 00:41:23,250
well you know like what is the theory

1004
00:41:27,920 --> 00:41:25,559
behind this and it's not I don't want to

1005
00:41:30,799 --> 00:41:27,930
go to the oh it's somebody's sucking

1006
00:41:32,839 --> 00:41:30,809
here so or some entity sucking the

1007
00:41:34,670 --> 00:41:32,849
energy out of the batteries I don't want

1008
00:41:36,410 --> 00:41:34,680
to make that jumped I mean I understand

1009
00:41:38,809 --> 00:41:36,420
people want to keep that open mind and

1010
00:41:40,160 --> 00:41:38,819
stuff but like what you know you guys

1011
00:41:42,140 --> 00:41:40,170
have said to me like maybe it's

1012
00:41:44,690 --> 00:41:42,150
geological maybe it's you know magnetic

1013
00:41:46,280 --> 00:41:44,700

whatever but um please can you guys like

1014

00:41:47,450 --> 00:41:46,290

speak to this for me I mean all of you I

1015

00:41:50,079 --> 00:41:47,460

want to hear what everyone has to say

1016

00:41:53,359 --> 00:41:50,089

about this seriously

1017

00:42:02,480 --> 00:41:53,369

Jason there's nothing I've got nothing

1018

00:42:04,099 --> 00:42:02,490

new to add because Jason I feel like I

1019

00:42:06,200 --> 00:42:04,109

want to put one of those river when you

1020

00:42:07,370 --> 00:42:06,210

were kids when I was a kid anyway they

1021

00:42:08,450 --> 00:42:07,380

used to have those strips you would put

1022

00:42:10,579 --> 00:42:08,460

across your forehead they would tell

1023

00:42:12,829 --> 00:42:10,589

your temperature remember like that was

1024

00:42:14,569 --> 00:42:12,839

before people did like the laser beam

1025

00:42:16,039 --> 00:42:14,579

thing or the under the tongue where

1026

00:42:18,140 --> 00:42:16,049

they're talking I'm like I want to put

1027

00:42:19,309 --> 00:42:18,150

that on Jason you could see what he's

1028

00:42:21,170 --> 00:42:19,319

thinking like a like one of those

1029

00:42:22,700 --> 00:42:21,180

scrollers like in the bottom of the

1030

00:42:24,470 --> 00:42:22,710

screen like this is what Jason's

1031

00:42:25,520 --> 00:42:24,480

thinking he's not gonna tell us but he's

1032

00:42:26,920 --> 00:42:25,530

just as what's going through his mind

1033

00:42:29,150 --> 00:42:26,930

right now and you just did it again

1034

00:42:33,520 --> 00:42:29,160

please tell us what's going on in this

1035

00:42:35,450 --> 00:42:33,530

hamster wheel thing of yours well

1036

00:42:37,670 --> 00:42:35,460

there's there's a lot going on in my

1037

00:42:39,980 --> 00:42:37,680

head no not not really not much

1038

00:42:41,900 --> 00:42:39,990

happening right now but you know to your

1039

00:42:44,720 --> 00:42:41,910

point we we we discussed this last week

1040

00:42:45,550 --> 00:42:44,730

and and the theories you know range from

1041

00:42:50,140 --> 00:42:45,560

thing

1042

00:42:53,500 --> 00:42:50,150

like the microwave radiation to to

1043

00:42:56,410 --> 00:42:53,510

something with EF frequencies you know

1044

00:42:58,770 --> 00:42:56,420

it could be any number of things but you

1045

00:43:01,540 --> 00:42:58,780

know as someone personally who hasn't

1046

00:43:03,460 --> 00:43:01,550

tested electronics and seeing what these

1047

00:43:05,020 --> 00:43:03,470

different types of frequencies do to

1048

00:43:06,640 --> 00:43:05,030

electronics I don't know if that's a

1049

00:43:07,630 --> 00:43:06,650

possibility I just know those are things

1050

00:43:11,800 --> 00:43:07,640

that have been thrown out there before

1051
00:43:13,630 --> 00:43:11,810
and with batteries draining in and

1052
00:43:15,340 --> 00:43:13,640
equipment failure it's not always

1053
00:43:17,620 --> 00:43:15,350
consistent it's not already the same

1054
00:43:19,300 --> 00:43:17,630
thing it's not always batteries draining

1055
00:43:21,490 --> 00:43:19,310
every time it's not batteries fully

1056
00:43:23,530 --> 00:43:21,500
draining its things shutting off it's

1057
00:43:24,190 --> 00:43:23,540
things not operating as they're supposed

1058
00:43:26,440 --> 00:43:24,200
to

1059
00:43:29,500 --> 00:43:26,450
with the drone we saw the connectivity

1060
00:43:32,770 --> 00:43:29,510
issue it's just all the things that

1061
00:43:35,740 --> 00:43:32,780
don't happen in a consistent manner so

1062
00:43:38,320 --> 00:43:35,750
from a scientific standpoint it's almost

1063
00:43:40,750 --> 00:43:38,330

impossible to be able to test because

1064

00:43:42,820 --> 00:43:40,760

you can't repeat it I mean there was a

1065

00:43:45,040 --> 00:43:42,830

lot of people that mentioned on the fact

1066

00:43:47,440 --> 00:43:45,050

of but there was a drone filming the

1067

00:43:49,930 --> 00:43:47,450

drone and how come that one didn't die

1068

00:43:52,720 --> 00:43:49,940

so like Jason mentioned you know it's

1069

00:43:55,480 --> 00:43:52,730

not across the board with everything and

1070

00:43:59,230 --> 00:43:55,490

and taking a test of that test our drone

1071

00:44:02,440 --> 00:43:59,240

diet yeah you're also out in the middle

1072

00:44:05,590 --> 00:44:02,450

of nowhere and there's a lot of crazy

1073

00:44:07,930 --> 00:44:05,600

stuff that can just happen in general I

1074

00:44:09,970 --> 00:44:07,940

believe with with electronics when

1075

00:44:12,430 --> 00:44:09,980

you're out in the boonies and even

1076
00:44:16,180 --> 00:44:12,440
though you've got a very sweet it seems

1077
00:44:18,940 --> 00:44:16,190
like I I'm not gonna jump to conclusions

1078
00:44:21,040 --> 00:44:18,950
on what the sort of Wi-Fi setup is to

1079
00:44:23,050 --> 00:44:21,050
attach all those Bluetooth cameras

1080
00:44:24,970 --> 00:44:23,060
everywhere around the ranch

1081
00:44:28,510 --> 00:44:24,980
you could probably fill us in on that

1082
00:44:31,270 --> 00:44:28,520
but that has got to be a lot of energy

1083
00:44:32,800 --> 00:44:31,280
and craziness going on in some sort of

1084
00:44:36,040 --> 00:44:32,810
big net or something

1085
00:44:39,250 --> 00:44:36,050
Oh actually yeah tell us about that yes

1086
00:44:42,490 --> 00:44:39,260
we have painstakingly had to hardwire

1087
00:44:45,370 --> 00:44:42,500
everything in because just you know

1088
00:44:48,310 --> 00:44:45,380

trying to get a Wi-Fi signal in you know

1089

00:44:52,270 --> 00:44:48,320

to travel around through everything it's

1090

00:44:54,220 --> 00:44:52,280

it's not very good so you know I I'm

1091

00:44:58,300 --> 00:44:54,230

hardwired in here because I mean we do

1092

00:44:59,410 --> 00:44:58,310

have Wi-Fi in here but you know for some

1093

00:45:01,390 --> 00:44:59,420

reason sometimes it just

1094

00:45:03,940 --> 00:45:01,400

up and down all the time so you know

1095

00:45:06,549 --> 00:45:03,950

we've had the hardwire all of our

1096

00:45:09,160 --> 00:45:06,559

equipment which is even worse than just

1097

00:45:10,990 --> 00:45:09,170

in Italy the wireless signal to do it

1098

00:45:12,670 --> 00:45:11,000

you know from from a stand web but it's

1099

00:45:14,319 --> 00:45:12,680

much more stable because we want to be

1100

00:45:16,450 --> 00:45:14,329

able to make sure that it's not affected

1101
00:45:18,190 --> 00:45:16,460
because you know all those RF signals

1102
00:45:21,280 --> 00:45:18,200
and radio waves and all that kind of

1103
00:45:24,640 --> 00:45:21,290
craziness just messes and and you

1104
00:45:25,870 --> 00:45:24,650
there's not I mean and you know TJ can

1105
00:45:29,740 --> 00:45:25,880
attest to this because he's been out

1106
00:45:32,020 --> 00:45:29,750
here you can get maybe a bar of cell

1107
00:45:33,579 --> 00:45:32,030
signal if the wind is blowing it's weird

1108
00:45:34,990 --> 00:45:33,589
but like if the wind is blowing a

1109
00:45:36,700 --> 00:45:35,000
certain direction you actually can get a

1110
00:45:39,339 --> 00:45:36,710
bar cell service otherwise it's it's a

1111
00:45:42,280 --> 00:45:39,349
dead zone it's just there's no cell

1112
00:45:43,569 --> 00:45:42,290
phone repeaters anywhere near and so you

1113
00:45:45,789 --> 00:45:43,579

know that's why we have to use radios

1114

00:45:48,069 --> 00:45:45,799

and everything like that because you

1115

00:45:49,809 --> 00:45:48,079

just can't not you know there's no

1116

00:45:52,150 --> 00:45:49,819

there's no connectivity there and that

1117

00:45:54,789 --> 00:45:52,160

and that's that really is the strange

1118

00:45:57,609 --> 00:45:54,799

thing because you're right I mean you

1119

00:46:01,750 --> 00:45:57,619

just had it up in the air and you know

1120

00:46:03,579 --> 00:46:01,760

that drone speaking to the drone and you

1121

00:46:05,349 --> 00:46:03,589

know took a scope of all you know the

1122

00:46:06,970 --> 00:46:05,359

field and everything like that and then

1123

00:46:11,020 --> 00:46:06,980

of course we get over in your homestead

1124

00:46:12,789 --> 00:46:11,030

to the stupid thing won't connect and

1125

00:46:15,460 --> 00:46:12,799

it's such a transient thing that's the

1126

00:46:17,380 --> 00:46:15,470

frustrating thing about whatever it is

1127

00:46:19,809 --> 00:46:17,390

that's here is it it's transient it's

1128

00:46:21,789 --> 00:46:19,819

one thing if it's always there and you

1129

00:46:24,640 --> 00:46:21,799

can go research what's causing it to be

1130

00:46:27,099 --> 00:46:24,650

there but it'll be there one day or one

1131

00:46:29,200 --> 00:46:27,109

minute or one hour or whatever and then

1132

00:46:30,819 --> 00:46:29,210

it's gone and then it shows up again and

1133

00:46:34,480 --> 00:46:30,829

you can go back to study it and you get

1134

00:46:37,450 --> 00:46:34,490

absolutely nothing and you know you even

1135

00:46:40,420 --> 00:46:37,460

saw it in the episode with the RF meter

1136

00:46:42,490 --> 00:46:40,430

in in what we termed the sinkhole you

1137

00:46:46,030 --> 00:46:42,500

know it's kind of a ground cave that

1138

00:46:47,410 --> 00:46:46,040

goes down sometimes it's there and

1139

00:46:48,789 --> 00:46:47,420

sometimes it's not and that's really it

1140

00:46:50,710 --> 00:46:48,799

been the most frustrating thing to the

1141

00:46:52,420 --> 00:46:50,720

scientists is kind of like well I'd

1142

00:46:54,250 --> 00:46:52,430

really like to study it but I don't know

1143

00:46:56,200 --> 00:46:54,260

when the hell it's gonna be here right

1144

00:46:58,990 --> 00:46:56,210

and that feeds into the idea of it being

1145

00:47:01,299 --> 00:46:59,000

an intelligent something like something

1146

00:47:02,620 --> 00:47:01,309

that is kind of reactionary and and you

1147

00:47:05,230 --> 00:47:02,630

know reacting to what you are doing

1148

00:47:07,990 --> 00:47:05,240

which goes against all you know you know

1149

00:47:09,549 --> 00:47:08,000

common kind of logic but it's it's true

1150

00:47:11,260 --> 00:47:09,559

I mean I've witnessed it you witnessed

1151

00:47:12,970 --> 00:47:11,270

it we're starting to see a bit of a bit

1152

00:47:14,620 --> 00:47:12,980

more of it on the show

1153

00:47:16,690 --> 00:47:14,630

and we're gonna we're going to I mean as

1154

00:47:18,609 --> 00:47:16,700

we get down into that cave and there's

1155

00:47:20,050 --> 00:47:18,619

other things I mean you know I'm not

1156

00:47:21,609 --> 00:47:20,060

giving anything away that you can't see

1157

00:47:23,740 --> 00:47:21,619

in a title of an episode if you look it

1158

00:47:26,410 --> 00:47:23,750

up you know it's not it's not like we're

1159

00:47:27,820 --> 00:47:26,420

giving any secrets but so it is

1160

00:47:30,430 --> 00:47:27,830

something transient is something that

1161

00:47:33,609 --> 00:47:30,440

you know we studying is happening and so

1162

00:47:36,430 --> 00:47:33,619

here so you know more tech issues at

1163

00:47:40,060 --> 00:47:36,440

homes it to like you know Bryant you

1164

00:47:42,010 --> 00:47:40,070

were just saying it's not necessarily a

1165

00:47:44,050 --> 00:47:42,020

thing at homestead to because it can

1166

00:47:45,940 --> 00:47:44,060

follow you or a can shift and go into

1167

00:47:49,330 --> 00:47:45,950

any other area the of the ranch at any

1168

00:47:52,480 --> 00:47:49,340

point but then you know we decide to

1169

00:47:55,150 --> 00:47:52,490

well the chair is like hey let's use

1170

00:47:57,640 --> 00:47:55,160

math if math is the way to go let's do

1171

00:47:59,380 --> 00:47:57,650

some facts and figures and you know like

1172

00:48:00,790 --> 00:47:59,390

do some math and figure out what the

1173

00:48:03,580 --> 00:48:00,800

hell to do and so he breaks out a coffee

1174

00:48:04,870 --> 00:48:03,590

can and then we got a lot of [h__\h]

1175

00:48:06,280 --> 00:48:04,880

there's a lot of [h__\h] online about this

1176

00:48:08,200 --> 00:48:06,290

guy using the coffee came from the 70s

1177

00:48:10,180 --> 00:48:08,210

and yet you got thirty four thousand

1178

00:48:13,030 --> 00:48:10,190

dollar drone coffee care from the 70s

1179

00:48:16,330 --> 00:48:13,040

how does this work together so you

1180

00:48:18,970 --> 00:48:16,340

couldn't even find a coffee can stop

1181

00:48:20,650 --> 00:48:18,980

hold on that answers all of Twitter's

1182

00:48:24,190 --> 00:48:20,660

questions he couldn't even find a

1183

00:48:25,870 --> 00:48:24,200

friggin coffee can okay it was I don't

1184

00:48:28,030 --> 00:48:25,880

know where I think it ended up being

1185

00:48:29,980 --> 00:48:28,040

dried beans that they ended up buying a

1186

00:48:31,690 --> 00:48:29,990

can of and dumped those because they

1187

00:48:33,640 --> 00:48:31,700

literally he wanted a metal can and you

1188

00:48:38,890 --> 00:48:33,650

couldn't he's you know couldn't find a

1189

00:48:40,599 --> 00:48:38,900

coffee can so I mean you know Jason no

1190

00:48:42,310 --> 00:48:40,609

it's not useless at all and and I think

1191

00:48:44,260 --> 00:48:42,320

like Jason marine you know I was just

1192

00:48:45,520 --> 00:48:44,270

about to ask you guys like see these

1193

00:48:47,770 --> 00:48:45,530

kind of things that are happening and

1194

00:48:49,510 --> 00:48:47,780

yes it looks analog sort of speak you

1195

00:48:50,800 --> 00:48:49,520

know this is you know they using the

1196

00:48:53,530 --> 00:48:50,810

coffee can as opposed to this friggin

1197

00:48:55,150 --> 00:48:53,540

drone but what precedence has been set

1198

00:48:58,330 --> 00:48:55,160

like has anyone seen any this kind of

1199

00:48:59,830 --> 00:48:58,340

stuff happening that they've other than

1200

00:49:02,140 --> 00:48:59,840

some crazy YouTube videos where you see

1201
00:49:03,280 --> 00:49:02,150
randoms like can somebody speak to this

1202
00:49:04,960 --> 00:49:03,290
can somebody please tell me because I

1203
00:49:07,240 --> 00:49:04,970
don't know and love for the history of

1204
00:49:10,330 --> 00:49:07,250
the studies this kind of suggests this

1205
00:49:12,340 --> 00:49:10,340
happens or hasn't happened please I

1206
00:49:14,170 --> 00:49:12,350
don't have a lot of knowledge of it all

1207
00:49:17,080 --> 00:49:14,180
I could think about was the fact that a

1208
00:49:20,290 --> 00:49:17,090
lot of people you know either use like a

1209
00:49:22,090 --> 00:49:20,300
Pringle cane or a glass to create a

1210
00:49:24,580 --> 00:49:22,100
radio with your cell phone and sort of

1211
00:49:26,230 --> 00:49:24,590
amplify a single signal in a certain way

1212
00:49:27,849 --> 00:49:26,240
so

1213
00:49:29,470 --> 00:49:27,859

that's all I thought about was like okay

1214

00:49:31,030 --> 00:49:29,480

I guess that makes sense why that would

1215

00:49:33,280 --> 00:49:31,040

like closed off certain areas and you

1216

00:49:37,540 --> 00:49:33,290

could then sort of narrow your focus

1217

00:49:39,940 --> 00:49:37,550

down Jason please like certainly on this

1218

00:49:42,790 --> 00:49:39,950

well this is this is the advantage of

1219

00:49:44,859 --> 00:49:42,800

having scientists work on you know the

1220

00:49:48,280 --> 00:49:44,869

research right because you're trying

1221

00:49:50,500 --> 00:49:48,290

things and yes it's a TV show but at the

1222

00:49:53,020 --> 00:49:50,510

same time you're doing something and

1223

00:49:55,450 --> 00:49:53,030

then you have an idea you work with what

1224

00:49:57,310 --> 00:49:55,460

you have and you try to try to rig

1225

00:49:59,370 --> 00:49:57,320

something together to see if you can get

1226
00:50:02,650 --> 00:49:59,380
you know the results you're looking for

1227
00:50:04,420 --> 00:50:02,660
yeah it's nice when you've got all the

1228
00:50:07,829 --> 00:50:04,430
gear that you could possibly want to

1229
00:50:11,589 --> 00:50:07,839
conduct an experiment a perfect way or a

1230
00:50:13,210 --> 00:50:11,599
you know a laboratory way but when

1231
00:50:16,329 --> 00:50:13,220
you're out in the field and things are

1232
00:50:17,980 --> 00:50:16,339
happening it helps to have people who

1233
00:50:19,870 --> 00:50:17,990
are familiar with what they're looking

1234
00:50:22,450 --> 00:50:19,880
for and the ways in which you can go

1235
00:50:24,430 --> 00:50:22,460
about possibly you know getting some

1236
00:50:27,430 --> 00:50:24,440
data to work with and so that was kind

1237
00:50:29,770 --> 00:50:27,440
of fun seeing Travis work that way with

1238
00:50:33,240 --> 00:50:29,780

the team and just kind of make something

1239

00:50:37,540 --> 00:50:36,190

think and then to rush out and get

1240

00:50:39,970 --> 00:50:37,550

the really expensive equipment that

1241

00:50:41,890 --> 00:50:39,980

would do somewhere well and we're I mean

1242

00:50:44,740 --> 00:50:41,900

we're located in the UN to base in

1243

00:50:49,690 --> 00:50:44,750

England so if you want to wait five days

1244

00:50:52,359 --> 00:50:49,700

for Amazon it's not like you can run

1245

00:50:54,099 --> 00:50:52,369

down to a local even electronics store

1246

00:51:01,410 --> 00:50:54,109

and it's not like Amazon's gonna have

1247

00:51:05,530 --> 00:51:03,520

Jemez but there's some good bowling and

1248

00:51:08,079 --> 00:51:05,540

some burgers and fries break down the

1249

00:51:10,540 --> 00:51:08,089

street that's the closest thing but no

1250

00:51:12,520 --> 00:51:10,550

honestly the best thing in and I'm glad

1251
00:51:16,750 --> 00:51:12,530
you touched on that is you know Travis

1252
00:51:18,339 --> 00:51:16,760
is I mean I teased him because he used

1253
00:51:20,680 --> 00:51:18,349
to have an old show they told me about

1254
00:51:24,910 --> 00:51:20,690
called Rocket City rednecks where the

1255
00:51:26,890 --> 00:51:24,920
end of his other PhDs from Alabama would

1256
00:51:28,680 --> 00:51:26,900
do all these crazy experiments with you

1257
00:51:30,849 --> 00:51:28,690
know whatever they could find

1258
00:51:33,250 --> 00:51:30,859
type of a thing I said now you know this

1259
00:51:34,540 --> 00:51:33,260
is not rocket city rednecks right you

1260
00:51:36,099 --> 00:51:34,550
know what he was breaking that stuff out

1261
00:51:40,170 --> 00:51:36,109
but that's the beauty of it too is

1262
00:51:42,420 --> 00:51:40,180
because he can take you know basic items

1263
00:51:45,030 --> 00:51:42,430

and you know has made a career out of

1264

00:51:47,910 --> 00:51:45,040

being able to do that type of thing and

1265

00:51:49,650 --> 00:51:47,920

and utilize what he has available in

1266

00:51:51,950 --> 00:51:49,660

order to you know to test things out it

1267

00:51:54,059 --> 00:51:51,960

was blue him and we saw it throughout

1268

00:51:56,460 --> 00:51:54,069

you know the time that he was here with

1269

00:51:59,549 --> 00:51:56,470

us there's a lot maybe said for

1270

00:52:01,859 --> 00:51:59,559

macgyvering that [h__h] yeah MacGyver that

1271

00:52:03,750 --> 00:52:01,869

right and I've called Eric many times of

1272

00:52:06,780 --> 00:52:03,760

like you know your MacGyver with a

1273

00:52:09,329 --> 00:52:06,790

Raspberry Pi Arduino and a soldering

1274

00:52:10,620 --> 00:52:09,339

iron that's pretty much what you are and

1275

00:52:12,440 --> 00:52:10,630

for those don't know that's just like

1276
00:52:15,750 --> 00:52:12,450
nerd speak and you want to Google that

1277
00:52:18,120 --> 00:52:15,760
but yeah so he said yeah macgyvering

1278
00:52:19,710 --> 00:52:18,130
[h__h] is the way to go especially with

1279
00:52:21,870 --> 00:52:19,720
these guys out here never seen yeah

1280
00:52:25,020 --> 00:52:21,880
we're gonna gloss over some stuff anyway

1281
00:52:27,599 --> 00:52:25,030
moving on to the alright when I kept

1282
00:52:29,640 --> 00:52:27,609
calling the node I put down was balloon

1283
00:52:31,890 --> 00:52:29,650
fail so we come back you know we're in

1284
00:52:32,910 --> 00:52:31,900
the d-block of the show now so it's you

1285
00:52:34,980 --> 00:52:32,920
know we're almost at the end of the show

1286
00:52:36,990 --> 00:52:34,990
well I mean halfway through it right and

1287
00:52:40,650 --> 00:52:37,000
so we're like alright we put this first

1288
00:52:42,200 --> 00:52:40,660

balloon up and then it was fail so what

1289

00:52:44,490 --> 00:52:42,210

do you guys think you like what worthy

1290

00:52:46,230 --> 00:52:44,500

what could have caused this why is this

1291

00:52:48,900 --> 00:52:46,240

happening with you what was done wrong

1292

00:52:50,220 --> 00:52:48,910

and then Brian please give us a you know

1293

00:52:55,950 --> 00:52:50,230

you can give us inside of what happened

1294

00:53:00,630 --> 00:52:55,960

on the ground anyone oh sorry sorry so

1295

00:53:02,849 --> 00:53:00,640

uh you alert so this is actually

1296

00:53:05,370 --> 00:53:02,859

interesting for me because I have gotten

1297

00:53:10,020 --> 00:53:05,380

to play with weather balloons in a UFO

1298

00:53:11,640 --> 00:53:10,030

investigative research and I just kept

1299

00:53:14,700 --> 00:53:11,650

waiting I don't know you guys can

1300

00:53:18,410 --> 00:53:14,710

probably tell me did any of them blow up

1301
00:53:23,490 --> 00:53:18,420
on you before that is not on camera

1302
00:53:26,250 --> 00:53:23,500
maybe maybe but so I wasn't there you

1303
00:53:28,410 --> 00:53:26,260
know during that part caleb was there I

1304
00:53:30,839 --> 00:53:28,420
was off with air doing some other stuff

1305
00:53:34,770 --> 00:53:30,849
that I'm sure will show up later on yes

1306
00:53:37,440 --> 00:53:34,780
enough but no no one blue one out okay

1307
00:53:40,890 --> 00:53:37,450
in Italy so there was no major injuries

1308
00:53:42,870 --> 00:53:40,900
as far as the blowout and you know DJ

1309
00:53:45,870 --> 00:53:42,880
the first fail that was the freaking

1310
00:53:47,460 --> 00:53:45,880
wind picked up blew that sucker you know

1311
00:53:49,859 --> 00:53:47,470
you have them tethered and you have it

1312
00:53:51,720 --> 00:53:49,869
tied with you know different lines and

1313
00:53:53,640 --> 00:53:51,730

everything like that and that one the

1314

00:53:54,030 --> 00:53:53,650

cool thing was is when it took off in

1315

00:53:56,100 --> 00:53:54,040

the air

1316

00:53:58,050 --> 00:53:56,110

and flattened out I can only imagine

1317

00:53:59,370 --> 00:53:58,060

what the locals around we're thinking

1318

00:54:01,590 --> 00:53:59,380

what's happening because it looked

1319

00:54:04,890 --> 00:54:01,600

really amazing you know the whole

1320

00:54:06,990 --> 00:54:04,900

weather foe phenomenon type of thing you

1321

00:54:08,550 --> 00:54:07,000

know I've seen you know footage of what

1322

00:54:10,830 --> 00:54:08,560

it looked like when that being flattened

1323

00:54:12,210 --> 00:54:10,840

in the wind and and took off but you

1324

00:54:14,820 --> 00:54:12,220

know the first one that was just

1325

00:54:16,560 --> 00:54:14,830

strictly that was his weather that's an

1326

00:54:18,150 --> 00:54:16,570

I think that's another thing that like

1327

00:54:21,060 --> 00:54:18,160

we said last week with things not

1328

00:54:23,640 --> 00:54:21,070

translating well on TV I mean on TV you

1329

00:54:25,140 --> 00:54:23,650

see this giant balloon and they're

1330

00:54:27,300 --> 00:54:25,150

talking oh the winds picking up

1331

00:54:29,460 --> 00:54:27,310

oh yeah the wind's really picking up but

1332

00:54:31,500 --> 00:54:29,470

you know you really don't see that on TV

1333

00:54:33,210 --> 00:54:31,510

you're not there to experience the wind

1334

00:54:36,570 --> 00:54:33,220

and see how that's affecting the balloon

1335

00:54:37,800 --> 00:54:36,580

so you know that's definitely yeah I

1336

00:54:39,690 --> 00:54:37,810

definitely knew that's what was

1337

00:54:42,990 --> 00:54:39,700

happening was the wind but you really

1338

00:54:44,490 --> 00:54:43,000

couldn't see that on TV and I think

1339

00:54:47,610 --> 00:54:44,500

that's that's what I was trying to

1340

00:54:48,870 --> 00:54:47,620

attest to is these are finicky I people

1341

00:54:50,940 --> 00:54:48,880

think Oh weather balloons have been

1342

00:54:54,000 --> 00:54:50,950

around forever but there was very

1343

00:54:55,950 --> 00:54:54,010

fragile the one I saw blew up in to

1344

00:54:59,070 --> 00:54:55,960

researchers face left white powder all

1345

00:55:01,650 --> 00:54:59,080

over their faces and they were safe so I

1346

00:55:03,720 --> 00:55:01,660

was laughing very hard but you know

1347

00:55:05,610 --> 00:55:03,730

they're very hard to deal with and

1348

00:55:07,890 --> 00:55:05,620

they're fragile and the wind like you

1349

00:55:11,070 --> 00:55:07,900

said can just easily destroy a whole

1350

00:55:13,200 --> 00:55:11,080

experiment so not surprising to me at

1351

00:55:17,250 --> 00:55:13,210

all I know how they work I think it's

1352

00:55:20,130 --> 00:55:17,260

when we get more into the the 10,000

1353

00:55:21,960 --> 00:55:20,140

plus feet range where where it starts

1354

00:55:24,330 --> 00:55:21,970

getting an interesting and you can

1355

00:55:28,650 --> 00:55:24,340

expand more on on that sort of end of

1356

00:55:30,480 --> 00:55:28,660

the experiments right so you know what

1357

00:55:36,330 --> 00:55:30,490

let's go to blue number two all right so

1358

00:55:41,390 --> 00:55:36,340

one yeah the wind number two so what's

1359

00:55:43,950 --> 00:55:41,400

uh okay it just so happens that the the

1360

00:55:48,090 --> 00:55:43,960

calculations that they figured out are

1361

00:55:50,250 --> 00:55:48,100

the exact altitude that the balloon kind

1362

00:55:53,160 --> 00:55:50,260

of disappears well since you're stopped

1363

00:55:55,530 --> 00:55:53,170

working and it just [h__h] just okay I

1364

00:55:59,040 --> 00:55:55,540

don't know where it happened so tell us

1365

00:56:00,780 --> 00:55:59,050

about the alright I asked him this

1366

00:56:03,450 --> 00:56:00,790

before and I can't we didn't talk about

1367

00:56:06,000 --> 00:56:03,460

it in too much detail but um where's

1368

00:56:07,250 --> 00:56:06,010

balloon number two that is a good

1369

00:56:09,950 --> 00:56:07,260

question

1370

00:56:12,380 --> 00:56:09,960

if anyone watching this knows and as the

1371

00:56:14,630 --> 00:56:12,390

equipment that was on it we would love

1372

00:56:17,900 --> 00:56:14,640

you can have all the equipment we just

1373

00:56:20,390 --> 00:56:17,910

want the data off of it honestly though

1374

00:56:22,880 --> 00:56:20,400

it was you know and they they tried to

1375

00:56:25,340 --> 00:56:22,890

illustrate that a little bit in the

1376

00:56:28,040 --> 00:56:25,350

episode but I mean it had the GPS

1377

00:56:29,720 --> 00:56:28,050

tracker at a homing beacon had all that

1378

00:56:33,170 --> 00:56:29,730

different kind of stuff along with you

1379

00:56:38,380 --> 00:56:33,180

know various other items of equipment

1380

00:56:42,170 --> 00:56:38,390

and it hit where it stops tracking on

1381

00:56:43,820 --> 00:56:42,180

you know everything that we had and it

1382

00:56:46,490 --> 00:56:43,830

happened to be at about ten thousand

1383

00:56:48,849 --> 00:56:46,500

feet which is you know roughly about

1384

00:56:52,250 --> 00:56:48,859

five thousand feet above the ranch which

1385

00:56:55,340 --> 00:56:52,260

Travis's yarn and and measuring stick

1386

00:56:57,830 --> 00:56:55,350

apparently you know pointed out as where

1387

00:56:59,510 --> 00:56:57,840

he wanted to search so that's strange

1388

00:57:00,920 --> 00:56:59,520

but yeah we to this day we don't know

1389

00:57:01,550 --> 00:57:00,930

what happened to the boy it's never

1390

00:57:03,740 --> 00:57:01,560

shown up

1391

00:57:07,520 --> 00:57:03,750

it's see I think something good with

1392

00:57:10,130 --> 00:57:07,530

this with this episode we saw with the

1393

00:57:12,830 --> 00:57:10,140

balloon and the disappearance of the

1394

00:57:15,470 --> 00:57:12,840

balloon as well as with the the drone

1395

00:57:18,590 --> 00:57:15,480

malfunction it was great to see that

1396

00:57:21,280 --> 00:57:18,600

with both of these fails that aren't

1397

00:57:24,050 --> 00:57:21,290

really fails because they're amazing

1398

00:57:27,109 --> 00:57:24,060

we're done by outside people by these

1399

00:57:28,430 --> 00:57:27,119

third-party sources who are essentially

1400

00:57:30,349 --> 00:57:28,440

experts in what they do right they're

1401
00:57:32,840 --> 00:57:30,359
very familiar with what they were doing

1402
00:57:34,490 --> 00:57:32,850
at the time the drone operator that was

1403
00:57:35,840 --> 00:57:34,500
his drone it's not something he went and

1404
00:57:37,370 --> 00:57:35,850
bought at Best Buy and he just opened

1405
00:57:39,560 --> 00:57:37,380
the box and didn't know how to use it

1406
00:57:42,410 --> 00:57:39,570
like that's his drone it knows how to

1407
00:57:44,870 --> 00:57:42,420
use I used it many times he's a pro that

1408
00:57:47,780 --> 00:57:44,880
guy was me dirt from he was pissed

1409
00:57:49,760 --> 00:57:47,790
because you've never had an issue he

1410
00:57:51,230 --> 00:57:49,770
told us you know what I you know he's

1411
00:57:53,240 --> 00:57:51,240
worked he works for the fire department

1412
00:57:54,950 --> 00:57:53,250
in Los Angeles and stuff he's like I've

1413
00:57:58,400 --> 00:57:54,960

thrown that I've flown that thing

1414

00:58:00,349 --> 00:57:58,410

through buildings that are full of rebar

1415

00:58:03,320 --> 00:58:00,359

and concrete and everything and I've

1416

00:58:05,480 --> 00:58:03,330

never had a disconnection with you know

1417

00:58:07,609 --> 00:58:05,490

what the thing he's like this thing is

1418

00:58:08,750 --> 00:58:07,619

state-of-the-art thirty five thousand

1419

00:58:13,220 --> 00:58:08,760

dollars I don't know how many times he

1420

00:58:15,650 --> 00:58:13,230

said that to me but you know it was

1421

00:58:18,170 --> 00:58:15,660

frustrating to him and you know he was

1422

00:58:20,650 --> 00:58:18,180

not he was not thrilled by the fact that

1423

00:58:23,300 --> 00:58:20,660

he was brought all the way out

1424

00:58:25,430 --> 00:58:23,310

basically we were able to utilize them

1425

00:58:27,770 --> 00:58:25,440

for maybe 30 minutes and then we sat and

1426

00:58:29,690 --> 00:58:27,780

inked around for hours and hours to try

1427

00:58:34,010 --> 00:58:29,700

and get the thing to connect and never

1428

00:58:35,450 --> 00:58:34,020

could understand a thing yeah of course

1429

00:58:37,940 --> 00:58:35,460

it's not like he's in on anything this

1430

00:58:39,020 --> 00:58:37,950

is just night the way it was but the

1431

00:58:40,310 --> 00:58:39,030

same thing same thing with the balloon

1432

00:58:41,990 --> 00:58:40,320

right I mean this is somebody who's very

1433

00:58:43,370 --> 00:58:42,000

familiar with weather balloons they've

1434

00:58:45,050 --> 00:58:43,380

covered that on the show his guide

1435

00:58:47,420 --> 00:58:45,060

launched several balloons he's very

1436

00:58:50,810 --> 00:58:47,430

familiar with the gear on the balloon

1437

00:58:52,640 --> 00:58:50,820

said it never failed before now it

1438

00:58:53,870 --> 00:58:52,650

failed right so there was no I think

1439

00:58:56,060 --> 00:58:53,880

that was really valuable to have in the

1440

00:58:57,770 --> 00:58:56,070

investigation absolutely and the it

1441

00:59:00,200 --> 00:58:57,780

blown them you know in all kinds of

1442

00:59:03,410 --> 00:59:00,210

weather and you know up to 10,000 feet

1443

00:59:07,130 --> 00:59:03,420

you know and you know much higher than

1444

00:59:11,920 --> 00:59:07,140

where they were and I can't remember and

1445

00:59:17,480 --> 00:59:15,380

Travis said did he agree oh yeah if I

1446

00:59:20,840 --> 00:59:17,490

remember correctly you know again I

1447

00:59:22,700 --> 00:59:20,850

wasn't there for the you know firsthand

1448

00:59:25,130 --> 00:59:22,710

stuff I've only seen footage of it and

1449

00:59:27,950 --> 00:59:25,140

you can go on you but he was dumbfounded

1450

00:59:29,510 --> 00:59:27,960

he was done yeah like so the hundred

1451

00:59:31,400 --> 00:59:29,520

thousand foot thing so there was a time

1452

00:59:32,960 --> 00:59:31,410

few years back where there was a number

1453

00:59:35,420 --> 00:59:32,970

of YouTube videos that were coming out

1454

00:59:37,130 --> 00:59:35,430

where people were flying those balloons

1455

00:59:39,530 --> 00:59:37,140

two hundred thousand feet and then with

1456

00:59:41,900 --> 00:59:39,540

the GPS and a geo tracking they would

1457

00:59:44,510 --> 00:59:41,910

get the curvature of the earth on camera

1458

00:59:46,040 --> 00:59:44,520

which is super cool and then the balloon

1459

00:59:46,520 --> 00:59:46,050

would pop and it would come back down to

1460

00:59:48,530 --> 00:59:46,530

the ground

1461

00:59:49,940 --> 00:59:48,540

you know parachute would come up and

1462

00:59:52,610 --> 00:59:49,950

then they would go and try to find where

1463

00:59:54,050 --> 00:59:52,620

these things were so yes those things

1464

00:59:56,720 --> 00:59:54,060

have been active to a hundred thousand

1465

00:59:59,420 --> 00:59:56,730

feet multiple times and what I feel is

1466

01:00:01,490 --> 00:59:59,430

really cool about this you got Derek

1467

01:00:02,930 --> 01:00:01,500

from Hot Shots right so that's the

1468

01:00:04,970 --> 01:00:02,940

company's name that you know came out

1469

01:00:08,150 --> 01:00:04,980

and did the drone stuff and then with

1470

01:00:11,740 --> 01:00:08,160

with this with Travis's friend you know

1471

01:00:14,300 --> 01:00:11,750

he's from what University of Alabama

1472

01:00:16,250 --> 01:00:14,310

yeah Huntsville Ala right Matt Turner

1473

01:00:19,400 --> 01:00:16,260

dr. Matt Turner so these are people like

1474

01:00:22,490 --> 01:00:19,410

in case you're wondering Google is a

1475

01:00:23,960 --> 01:00:22,500

tool you can use to Google them and then

1476

01:00:25,370 --> 01:00:23,970

reach out to them on social media

1477

01:00:27,380 --> 01:00:25,380

there's nothing that's stopping you from

1478

01:00:28,790 --> 01:00:27,390

asking them questions directly they're

1479

01:00:31,070 --> 01:00:28,800

not hiding anything there's no

1480

01:00:32,920 --> 01:00:31,080

conspiracy here these are guys with a

1481

01:00:34,370 --> 01:00:32,930

business and obviously it's like hey if

1482

01:00:35,990 --> 01:00:34,380

we're going on the

1483

01:00:38,510 --> 01:00:36,000

so we want people to understand our

1484

01:00:41,180 --> 01:00:38,520

business is XYZ you know whatever it is

1485

01:00:42,440 --> 01:00:41,190

so there I'm sure that if you ask these

1486

01:00:43,880 --> 01:00:42,450

people questions they're going to give

1487

01:00:46,250 --> 01:00:43,890

you straight-up answers just like

1488

01:00:47,420 --> 01:00:46,260

Brian's doing right now which which I

1489

01:00:50,120 --> 01:00:47,430

really love I feel like you know you

1490

01:00:51,920 --> 01:00:50,130

gave a direct line to these guys and so

1491

01:00:54,890 --> 01:00:51,930

take advantage of this kind of what I'm

1492

01:00:57,650 --> 01:00:54,900

saying and you know I don't I know we're

1493

01:01:00,770 --> 01:00:57,660

going on and on here and I just the last

1494

01:01:02,180 --> 01:01:00,780

thing we should probably touch on since

1495

01:01:04,970 --> 01:01:02,190

we can't buy that balloon and you know

1496

01:01:10,160 --> 01:01:04,980

if you have seen this balloon please

1497

01:01:13,250 --> 01:01:10,170

contact us but the you know the next the

1498

01:01:14,920 --> 01:01:13,260

teaser the next episode is have been my

1499

01:01:18,470 --> 01:01:14,930

notes in my head are like bones

1500

01:01:20,390 --> 01:01:18,480

exclamation point yeah you know so we're

1501

01:01:22,010 --> 01:01:20,400

moving on to the the T's in the next

1502

01:01:23,780 --> 01:01:22,020

episode the last block of the show and

1503

01:01:26,840 --> 01:01:23,790

they're digging with it they're looking

1504

01:01:29,450 --> 01:01:26,850

with the camera so what's going on in

1505

01:01:30,710 --> 01:01:29,460

this in the walls like why is this

1506

01:01:34,130 --> 01:01:30,720

happening the walls and why did they

1507

01:01:36,370 --> 01:01:34,140

cover they cover it up and so to speak I

1508

01:01:40,400 --> 01:01:36,380

mean what year was that that particular

1509

01:01:41,630 --> 01:01:40,410

house built I'm curious of mm-hmm bridge

1510

01:01:45,980 --> 01:01:41,640

you know that I don't know if the top my

1511

01:01:50,570 --> 01:01:45,990

head I wouldn't say it was in the 30s

1512

01:01:52,310 --> 01:01:50,580

action okay thank you did you stir it

1513

01:01:53,630 --> 01:01:52,320

mean it's the newest structure there

1514

01:01:55,970 --> 01:01:53,640

obviously except for the command center

1515

01:01:57,590 --> 01:01:55,980

and what's not and I don't I don't want

1516

01:01:59,240 --> 01:01:57,600

to say that this is because clearly

1517

01:02:00,410 --> 01:01:59,250

there's there's something within the

1518

01:02:02,090 --> 01:02:00,420

walls that seems like it's a little

1519

01:02:04,820 --> 01:02:02,100

weird obviously we don't know what it is

1520

01:02:08,120 --> 01:02:04,830

right now but the house I grew up is

1521

01:02:10,280 --> 01:02:08,130

built in 1910 and we had the same thing

1522

01:02:13,160 --> 01:02:10,290

happen where we found a totally sealed

1523

01:02:15,860 --> 01:02:13,170

off room that was not on the blueprints

1524

01:02:18,380 --> 01:02:15,870

that had no entrance no exit it was just

1525

01:02:24,380 --> 01:02:18,390

walled off eventually became my

1526

01:02:26,570 --> 01:02:24,390

childhood bedroom yeah but so anyways

1527

01:02:28,910 --> 01:02:26,580

I'm just curious because when I wash it

1528

01:02:30,980 --> 01:02:28,920

that's immediately what I thought of not

1529

01:02:33,860 --> 01:02:30,990

in the basement it was in the upstairs

1530

01:02:36,910 --> 01:02:33,870

level but I'm wondering if that was more

1531

01:02:40,370 --> 01:02:36,920

common in that time period in the early

1532

01:02:42,230 --> 01:02:40,380

part of the century where that would

1533

01:02:44,360 --> 01:02:42,240

just happen and they kind of realized oh

1534

01:02:46,580 --> 01:02:44,370

we we're just gonna you know build up

1535

01:02:47,600 --> 01:02:46,590

this space or whether it's something

1536

01:02:49,460 --> 01:02:47,610

entire

1537

01:02:51,500 --> 01:02:49,470

more mysterious and somebody killed

1538

01:02:53,780 --> 01:02:51,510

somebody and burn the body and then

1539

01:02:57,200 --> 01:02:53,790

blocked off the wall but that's such a

1540

01:03:01,790 --> 01:02:57,210

small unless that's somewhere there's

1541

01:03:03,050 --> 01:03:01,800

more bones or something so I want to

1542

01:03:04,460 --> 01:03:03,060

know is there is this a common thing

1543

01:03:05,690 --> 01:03:04,470

like is this happened in the past you

1544

01:03:07,130 --> 01:03:05,700

know at these times I was like you're

1545

01:03:08,270 --> 01:03:07,140

saying Jason you were gonna say

1546

01:03:11,240 --> 01:03:08,280

something I'm sorry I cut you off

1547

01:03:14,890 --> 01:03:11,250

go ahead oh I was gonna say you know

1548

01:03:17,720 --> 01:03:14,900

when I was watching it I literally said

1549

01:03:21,440 --> 01:03:17,730

this is horror movie [h__h] right before

1550

01:03:23,000 --> 01:03:21,450

Travis said the same thing yes I think a

1551
01:03:24,830 --> 01:03:23,010
lot of people were thinking that I mean

1552
01:03:26,150 --> 01:03:24,840
in my head I'm just thinking like you

1553
01:03:28,490 --> 01:03:26,160
know put the lotion in the basket or you

1554
01:03:29,900 --> 01:03:28,500
get the hose exactly whenever I walk in

1555
01:03:32,630 --> 01:03:29,910
that basement that's exactly what I

1556
01:03:34,300 --> 01:03:32,640
think right yep I mean how are they

1557
01:03:37,160 --> 01:03:34,310
living there like how are they able to

1558
01:03:42,200 --> 01:03:37,170
live in there you like it not be freaked

1559
01:03:43,760 --> 01:03:42,210
out all the time right oh I don't know I

1560
01:03:44,780 --> 01:03:43,770
haven't really gotten to know them very

1561
01:03:48,080 --> 01:03:44,790
much of the show we haven't really

1562
01:03:50,420 --> 01:03:48,090
talked too much about them yeah and they

1563
01:03:52,250 --> 01:03:50,430

and they haven't been here all that long

1564

01:03:53,960 --> 01:03:52,260

we had an elderly couple here previously

1565

01:03:58,340 --> 01:03:53,970

that I won't get into all that different

1566

01:04:00,410 --> 01:03:58,350

kind of sure like yeah it's it's

1567

01:04:02,570 --> 01:04:00,420

definitely one of those places that was

1568

01:04:05,240 --> 01:04:02,580

that it just seems strange because it's

1569

01:04:08,420 --> 01:04:05,250

just you know as you saw it's a big

1570

01:04:10,430 --> 01:04:08,430

concrete box it doesn't seem like it has

1571

01:04:12,710 --> 01:04:10,440

any purpose and so I guess that's what

1572

01:04:14,720 --> 01:04:12,720

kind of you know keep the interest and

1573

01:04:15,530 --> 01:04:14,730

made Tom want to go punch a hole in it

1574

01:04:17,330 --> 01:04:15,540

to see what it was

1575

01:04:20,810 --> 01:04:17,340

first I must have put your hole in it

1576

01:04:22,340 --> 01:04:20,820

and this is the same the same house

1577

01:04:23,750 --> 01:04:22,350

where like this when the Sherman's

1578

01:04:26,630 --> 01:04:23,760

arrived that there were locks on

1579

01:04:28,820 --> 01:04:26,640

everything which I mean that that that

1580

01:04:30,950 --> 01:04:28,830

was part of a huge part of their story

1581

01:04:33,920 --> 01:04:30,960

when they expressed it back in the day

1582

01:04:35,840 --> 01:04:33,930

and which is super mysterious and and

1583

01:04:39,110 --> 01:04:35,850

having a lot of what is alleged as

1584

01:04:41,240 --> 01:04:39,120

poltergeist activity in terms of the

1585

01:04:42,680 --> 01:04:41,250

groceries coming out of the cabinets

1586

01:04:44,660 --> 01:04:42,690

after they put them in and things like

1587

01:04:47,690 --> 01:04:44,670

that so this is really curious I'm

1588

01:04:50,300 --> 01:04:47,700

digging this storyline because I'm very

1589

01:04:52,040 --> 01:04:50,310

curious at what's happening and what's

1590

01:04:55,670 --> 01:04:52,050

causing that kind of stuff even if it's

1591

01:04:57,440 --> 01:04:55,680

something normal or what was happening

1592

01:05:01,550 --> 01:04:57,450

or whether it was malicious human

1593

01:05:04,850 --> 01:05:01,560

actions so I'm up for the tea

1594

01:05:06,110 --> 01:05:04,860

nice so what would you guys want to see

1595

01:05:10,010 --> 01:05:06,120

happen next like you want to spend more

1596

01:05:13,820 --> 01:05:10,020

time in the in the dungeon so to speak

1597

01:05:16,970 --> 01:05:13,830

or I mean is it something worth getting

1598

01:05:18,950 --> 01:05:16,980

into more in-depth do you think I thank

1599

01:05:20,630 --> 01:05:18,960

you how does it sort of answer you got

1600

01:05:23,750 --> 01:05:20,640

to do some testing on whatever is in

1601

01:05:26,840 --> 01:05:23,760

there to figure out what it is nice well

1602

01:05:30,500 --> 01:05:26,850

yeah right I love the stoic face it's

1603

01:05:31,640 --> 01:05:30,510

perfect so the net you know again I want

1604

01:05:33,200 --> 01:05:31,650

to get some questions because we get a

1605

01:05:35,780 --> 01:05:33,210

lot of questions from the magical

1606

01:05:37,460 --> 01:05:35,790

internet this week but also you know

1607

01:05:39,230 --> 01:05:37,470

there is this thing that's going to

1608

01:05:43,090 --> 01:05:39,240

happen next week's episode and it's a

1609

01:05:45,830 --> 01:05:43,100

freaking rocket they decide so the the

1610

01:05:48,140 --> 01:05:45,840

what was that the redneck what was the

1611

01:05:50,390 --> 01:05:48,150

show I'm sorry yeah Rocksteady rednecks

1612

01:05:52,550 --> 01:05:50,400

I've never watched it but he told me all

1613

01:05:54,560 --> 01:05:52,560

about it yes so you know he living

1614

01:05:57,500 --> 01:05:54,570

living up to the name he built the

1615

01:05:59,840 --> 01:05:57,510

rocket so what do you guys think that

1616

01:06:01,580 --> 01:05:59,850

the rocket idea is for what's behind the

1617

01:06:03,140 --> 01:06:01,590

idea of the rocket I wanna know if you

1618

01:06:04,940 --> 01:06:03,150

guys have an idea and then I feel like

1619

01:06:08,330 --> 01:06:04,950

people on online are gonna chime in on

1620

01:06:11,360 --> 01:06:08,340

that well we know what the idea is but

1621

01:06:14,990 --> 01:06:11,370

it's a good idea or not I have my doubts

1622

01:06:17,240 --> 01:06:15,000

but you know it's it's along the same

1623

01:06:20,540 --> 01:06:17,250

lines of the weather balloon test but to

1624

01:06:23,180 --> 01:06:20,550

you know go to his magic magical peak

1625

01:06:28,280 --> 01:06:23,190

where he thinks this this signal is

1626
01:06:31,730 --> 01:06:28,290
coming from to get the test equipment

1627
01:06:35,750 --> 01:06:31,740
more directly targeted to this area with

1628
01:06:37,400 --> 01:06:35,760
a rocket and I don't know I I think

1629
01:06:38,870 --> 01:06:37,410
there are better ways to do it but I

1630
01:06:41,600 --> 01:06:38,880
want to see the rocket happen before I

1631
01:06:44,540 --> 01:06:41,610
do course go see a rocket he's a rocket

1632
01:06:46,970 --> 01:06:44,550
scientist exactly yeah so he's using the

1633
01:06:49,520 --> 01:06:46,980
skills absolutely the rocket science

1634
01:06:53,810 --> 01:06:49,530
he's gonna deliver the payload one way

1635
01:06:55,490 --> 01:06:53,820
or another I want to know though and I

1636
01:06:57,680 --> 01:06:55,500
hope people online you know anyone who

1637
01:07:00,170 --> 01:06:57,690
listens to this or watches this I would

1638
01:07:02,390 --> 01:07:00,180

love to know thoughts on it are there

1639

01:07:05,930 --> 01:07:02,400

anything atmospherically speaking that

1640

01:07:07,010 --> 01:07:05,940

happened between 5,000 and 6,000 feet or

1641

01:07:09,380 --> 01:07:07,020

is there something that everyone was

1642

01:07:10,520 --> 01:07:09,390

kind of overlooking that or just be and

1643

01:07:12,020 --> 01:07:10,530

not to say that they don't know what

1644

01:07:14,090 --> 01:07:12,030

they're talking about but maybe it's

1645

01:07:14,870 --> 01:07:14,100

just not in their specialty be somebody

1646

01:07:16,430 --> 01:07:14,880

has some real ins

1647

01:07:18,829 --> 01:07:16,440

like I know Ben you know we talked about

1648

01:07:20,870 --> 01:07:18,839

Ben McGee last week you know he had some

1649

01:07:22,789 --> 01:07:20,880

insight into some things that I think a

1650

01:07:24,440 --> 01:07:22,799

lot of people just kind of glossed over

1651

01:07:26,029 --> 01:07:24,450

so I'd love to know if people have any

1652

01:07:27,829 --> 01:07:26,039

ideas like is there something that

1653

01:07:29,900 --> 01:07:27,839

happens in that atmospheric range that

1654

01:07:31,249 --> 01:07:29,910

we're just not aware of please you know

1655

01:07:33,789 --> 01:07:31,259

send that send that info and we love

1656

01:07:36,559 --> 01:07:33,799

love to know about it and talk about it

1657

01:07:38,599 --> 01:07:36,569

but so now I gotta get to this stuff

1658

01:07:40,309 --> 01:07:38,609

because right there's some really there

1659

01:07:43,490 --> 01:07:40,319

are some questions here that I think

1660

01:07:45,289 --> 01:07:43,500

you're gonna enjoy answering and and you

1661

01:07:47,930 --> 01:07:45,299

guys Maureen Jason please chime in man

1662

01:07:49,190 --> 01:07:47,940

look you know that's we can totally you

1663

01:07:51,620 --> 01:07:49,200

know poke Bryant with sticks like hey

1664

01:07:55,970 --> 01:07:51,630

man tell us about this tell us about

1665

01:07:57,620 --> 01:07:55,980

guns and on that note so I you know will

1666

01:08:00,039 --> 01:07:57,630

you get so this is a question that

1667

01:08:01,940 --> 01:08:00,049

received on Twitter directly someone

1668

01:08:04,759 --> 01:08:01,950

says it's me directly and they were

1669

01:08:08,150 --> 01:08:04,769

saying we'll draggy get a better firearm

1670

01:08:12,890 --> 01:08:08,160

for the team's protection like a Benelli

1671

01:08:18,249 --> 01:08:12,900

super 90 shotgun an ak-47 or a Franchi

1672

01:08:24,590 --> 01:08:18,259

spas-12 I don't know what that means

1673

01:08:26,570 --> 01:08:24,600

thank you you know those are all nice

1674

01:08:28,189 --> 01:08:26,580

guns you know the guy knows his weapons

1675

01:08:31,579 --> 01:08:28,199

there's no getting around that

1676

01:08:34,849 --> 01:08:31,589

I you know I'm I'm really happy with

1677

01:08:37,249 --> 01:08:34,859

what I have you know I I pray to god I

1678

01:08:39,530 --> 01:08:37,259

don't ever have to use them because you

1679

01:08:42,590 --> 01:08:39,540

know that's the last thing I want to

1680

01:08:44,870 --> 01:08:42,600

have to do but you know they're kind of

1681

01:08:47,809 --> 01:08:44,880

one of those things that you know for

1682

01:08:50,090 --> 01:08:47,819

the protection of of whoever's here and

1683

01:08:51,620 --> 01:08:50,100

myself and whatnot you know it's it's

1684

01:08:53,629 --> 01:08:51,630

just one of those things but yeah you

1685

01:08:55,129 --> 01:08:53,639

know hey if he wants to hook me up with

1686

01:08:57,320 --> 01:08:55,139

those guns I'd be more than happy to use

1687

01:09:00,349 --> 01:08:57,330

those in service to protection of the

1688

01:09:02,780 --> 01:09:00,359

people on the ranch nice nice and that

1689

01:09:06,499 --> 01:09:02,790

was from Dan from Twitter actually and

1690

01:09:09,260 --> 01:09:06,509

then I got so Maureen Jason and I kind

1691

01:09:12,260 --> 01:09:09,270

of you know people send stuff all during

1692

01:09:15,289 --> 01:09:12,270

the week and he kind of I created all

1693

01:09:19,519 --> 01:09:15,299

put together and we had what what else

1694

01:09:21,169 --> 01:09:19,529

the someone asked I'm sorry Ryan asks

1695

01:09:24,229 --> 01:09:21,179

curious about Brian's personal

1696

01:09:26,840 --> 01:09:24,239

experience with trespassers or instances

1697

01:09:27,920 --> 01:09:26,850

in and around the property how often do

1698

01:09:30,260 --> 01:09:27,930

people breach secure

1699

01:09:34,010 --> 01:09:30,270

and what protocols might they have when

1700

01:09:38,600 --> 01:09:34,020

dealing with this yeah that's a tough

1701
01:09:40,160 --> 01:09:38,610
one because you know fortunately you

1702
01:09:42,320 --> 01:09:40,170
know a lot of people are very respectful

1703
01:09:44,990 --> 01:09:42,330
and they're curious and their curiosity

1704
01:09:46,670 --> 01:09:45,000
brings them to you know near the front

1705
01:09:48,500 --> 01:09:46,680
gate where we have big signs that says

1706
01:09:51,110 --> 01:09:48,510
don't pass here you'll be trespassing

1707
01:09:52,790 --> 01:09:51,120
they'll stop maybe take a picture turn

1708
01:09:54,890 --> 01:09:52,800
around and you know and leave

1709
01:09:58,400 --> 01:09:54,900
unfortunately there are people that feel

1710
01:10:01,310 --> 01:09:58,410
like it's their right because they're an

1711
01:10:03,410 --> 01:10:01,320
enthusiast of something that they can

1712
01:10:05,540 --> 01:10:03,420
you know break laws and trespass because

1713
01:10:07,160 --> 01:10:05,550

they want to see what's going on or have

1714

01:10:09,710 --> 01:10:07,170

an experience or whatever it is and so

1715

01:10:11,900 --> 01:10:09,720

yeah there's been times where you know

1716

01:10:16,430 --> 01:10:11,910

we've certainly had to you know chase

1717

01:10:19,640 --> 01:10:16,440

people off it's never really gotten too

1718

01:10:21,410 --> 01:10:19,650

terribly escalated you know most the

1719

01:10:23,300 --> 01:10:21,420

time if they see themselves you know if

1720

01:10:27,800 --> 01:10:23,310

see someone coming they say beat beat

1721

01:10:30,380 --> 01:10:27,810

and run away and the good thing as far

1722

01:10:33,470 --> 01:10:30,390

as the protocols go is you guys have

1723

01:10:37,310 --> 01:10:33,480

seen a little bit of Caleb Caleb bent

1724

01:10:39,170 --> 01:10:37,320

it's kind of really you know he's he's

1725

01:10:41,420 --> 01:10:39,180

really my right-hand guy he's a really

1726

01:10:43,400 --> 01:10:41,430

smart guy but he's also happens to be a

1727

01:10:46,760 --> 01:10:43,410

deputy with one of the local sheriff

1728

01:10:48,500 --> 01:10:46,770

municipalities and so you know it's nice

1729

01:10:50,810 --> 01:10:48,510

to have that resource where he's in

1730

01:10:53,570 --> 01:10:50,820

contact with law enforcement and you

1731

01:10:56,660 --> 01:10:53,580

know he legally you know has the ability

1732

01:10:59,810 --> 01:10:56,670

you know to take action and and so you

1733

01:11:01,550 --> 01:10:59,820

know we we really try to be nice to

1734

01:11:03,590 --> 01:11:01,560

people as long as they're nice to us and

1735

01:11:05,990 --> 01:11:03,600

and express the fact that you know what

1736

01:11:07,850 --> 01:11:06,000

you're not supposed to be here we've got

1737

01:11:09,830 --> 01:11:07,860

a lot of important things going on and

1738

01:11:11,800 --> 01:11:09,840

you don't realize the impact you're

1739

01:11:14,570 --> 01:11:11,810

having on the scientific research and

1740

01:11:16,280 --> 01:11:14,580

you know it's dangerous here and we

1741

01:11:17,860 --> 01:11:16,290

don't know what's going on and so you

1742

01:11:21,320 --> 01:11:17,870

know for the most part people are

1743

01:11:24,920 --> 01:11:21,330

respectful but you know as I mentioned

1744

01:11:26,150 --> 01:11:24,930

earlier as more notoriety has come to it

1745

01:11:28,370 --> 01:11:26,160

with the TV show there's a lot more

1746

01:11:30,020 --> 01:11:28,380

people that are curious and upon quite

1747

01:11:32,690 --> 01:11:30,030

as respectful and I I just hope that

1748

01:11:34,730 --> 01:11:32,700

they will realize that it's not just a

1749

01:11:36,650 --> 01:11:34,740

matter of us wanting to hide things

1750

01:11:38,750 --> 01:11:36,660

because it's not doing that it's a

1751

01:11:41,060 --> 01:11:38,760

matter of it's messing with the science

1752

01:11:41,720 --> 01:11:41,070

it's first and foremost because we have

1753

01:11:43,430 --> 01:11:41,730

all kinds of

1754

01:11:46,400 --> 01:11:43,440

and when there's a human element added

1755

01:11:48,590 --> 01:11:46,410

you have to go vet that out as well as

1756

01:11:53,330 --> 01:11:48,600

you know you don't want people getting

1757

01:11:56,660 --> 01:11:53,340

injured or hurt here the lack don't it I

1758

01:11:58,600 --> 01:11:56,670

mean you guys what you know I'm sorry

1759

01:12:01,610 --> 01:11:58,610

Jason and Maureen when I say you guys

1760

01:12:04,400 --> 01:12:01,620

and I keep referring to you both of you

1761

01:12:05,990 --> 01:12:04,410

when it comes to you know UFO specialty

1762

01:12:08,720 --> 01:12:06,000

like expertise because I don't have that

1763

01:12:10,970 --> 01:12:08,730

so what would you say you know is to

1764

01:12:12,590 --> 01:12:10,980

draw for people to kind of do this I

1765

01:12:15,440 --> 01:12:12,600

mean are they thinking that they're

1766

01:12:17,330 --> 01:12:15,450

gonna like solve the case or what is the

1767

01:12:18,620 --> 01:12:17,340

draw for people to kind of you know go

1768

01:12:22,520 --> 01:12:18,630

on private property and say hey I

1769

01:12:24,170 --> 01:12:22,530

deserve to be here too I'm a fan so I

1770

01:12:25,670 --> 01:12:24,180

have to apologize it sounds like there's

1771

01:12:30,290 --> 01:12:25,680

a wolf behind me because the neighbor's

1772

01:12:32,150 --> 01:12:30,300

dog is like how I heard it oh you're

1773

01:12:35,750 --> 01:12:32,160

covering that's on the ranch that's on

1774

01:12:39,200 --> 01:12:35,760

the right Mike

1775

01:12:42,500 --> 01:12:39,210

so anyways before there's any conspiracy

1776

01:12:45,350 --> 01:12:42,510

theory coming out of the internet so

1777

01:12:48,680 --> 01:12:45,360

yeah I think we've all been really drawn

1778

01:12:51,860 --> 01:12:48,690

to the ranch ever since George Knapp but

1779

01:12:53,690 --> 01:12:51,870

kind of released his book and we got a

1780

01:12:57,110 --> 01:12:53,700

hint of this and it was like wow there's

1781

01:13:00,350 --> 01:12:57,120

this one place that all this phenomenon

1782

01:13:02,420 --> 01:13:00,360

is happening and so yeah we've always

1783

01:13:03,920 --> 01:13:02,430

wanted to go to the ranch because it's

1784

01:13:06,260 --> 01:13:03,930

something that's intrigued us that we've

1785

01:13:08,960 --> 01:13:06,270

studied that you want to see for

1786

01:13:10,580 --> 01:13:08,970

yourself you know what is causing it and

1787

01:13:13,760 --> 01:13:10,590

look into it and research so that's

1788

01:13:15,860 --> 01:13:13,770

basically I think what sends everyone I

1789

01:13:20,180 --> 01:13:15,870

mean I I'm not the kind of person that

1790

01:13:22,430 --> 01:13:20,190

would actually go and try to trespass on

1791

01:13:24,560 --> 01:13:22,440

private property like that but a lot of

1792

01:13:27,920 --> 01:13:24,570

people are if they go you know it's like

1793

01:13:30,050 --> 01:13:27,930

the people that are really no offense

1794

01:13:31,910 --> 01:13:30,060

people who do this but the people who

1795

01:13:34,280 --> 01:13:31,920

are really stupid and try to trespass on

1796

01:13:36,950 --> 01:13:34,290

area 51 that's a little difference a

1797

01:13:39,050 --> 01:13:36,960

military base however you know they're

1798

01:13:40,729 --> 01:13:39,060

drawn to it and they know the danger but

1799

01:13:42,710 --> 01:13:40,739

they want to go anyways because they

1800

01:13:44,870 --> 01:13:42,720

want to say they've done it and they've

1801

01:13:49,040 --> 01:13:44,880

been there so I think in terms of UFO

1802

01:13:53,090 --> 01:13:49,050

research yeah it's just the curiosity is

1803

01:13:54,819 --> 01:13:53,100

there so people have been trying to get

1804

01:13:57,849 --> 01:13:54,829

on the ranch for ever since you know

1805

01:13:59,199 --> 01:13:57,859

before when Bigelow basically has been

1806

01:14:02,469 --> 01:13:59,209

running the property that's when I think

1807

01:14:03,909 --> 01:14:02,479

a lot of it started happening but it's

1808

01:14:08,020 --> 01:14:03,919

not surprising and now like you said

1809

01:14:10,119 --> 01:14:08,030

it's it's even bigger now so Jason dive

1810

01:14:11,619 --> 01:14:10,129

into the psyche of you know people who

1811

01:14:13,719 --> 01:14:11,629

are interested for me like tell me what

1812

01:14:16,000 --> 01:14:13,729

you think I mean this is it's it's human

1813

01:14:18,549 --> 01:14:16,010

nature it's curiosity you know people

1814

01:14:21,849 --> 01:14:18,559

people are curious and certainly people

1815

01:14:25,029 --> 01:14:21,859

who are drawn to the unknown to to

1816

01:14:28,359 --> 01:14:25,039

mysterious phenomenon mister mysterious

1817

01:14:31,810 --> 01:14:28,369

phenomena they you know they can go to

1818

01:14:34,119 --> 01:14:31,820

places where you know they've read or

1819

01:14:36,549 --> 01:14:34,129

heard from other people that it happens

1820

01:14:38,109 --> 01:14:36,559

with some regularity or it you know when

1821

01:14:40,540 --> 01:14:38,119

they have a physical place they can go

1822

01:14:41,319 --> 01:14:40,550

to to maybe get a glimpse of something

1823

01:14:43,779 --> 01:14:41,329

strange

1824

01:14:46,689 --> 01:14:43,789

you know that's there's an appeal there

1825

01:14:48,549 --> 01:14:46,699

whereas you know if you want to see a

1826

01:14:51,369 --> 01:14:48,559

UFO what do you do I always tell people

1827

01:14:52,659 --> 01:14:51,379

look up but three people looking for

1828

01:14:55,149 --> 01:14:52,669

more than that they want to go to a

1829

01:14:57,310 --> 01:14:55,159

place a site of high strangeness you

1830

01:14:59,020 --> 01:14:57,320

know I see the appeal I really do but

1831

01:15:01,750 --> 01:14:59,030

it's the same same sort of thing that

1832

01:15:02,919 --> 01:15:01,760

draws people to hotels that are

1833

01:15:05,139 --> 01:15:02,929

allegedly haunted

1834

01:15:07,060 --> 01:15:05,149

you know people looking for that that

1835

01:15:09,399 --> 01:15:07,070

connection to the unknown to be able to

1836

01:15:11,379 --> 01:15:09,409

experience that for themselves you know

1837

01:15:13,000 --> 01:15:11,389

that's that these places give that to

1838

01:15:15,699 --> 01:15:13,010

them and places like Maureen mentioned

1839

01:15:17,139 --> 01:15:15,709

area 51 and in skinwalker ranch these

1840

01:15:19,359 --> 01:15:17,149

places that are off-limits

1841

01:15:21,459 --> 01:15:19,369

you know for some that's even more more

1842

01:15:23,290 --> 01:15:21,469

thrilling or going to be able to go and

1843

01:15:25,569 --> 01:15:23,300

maybe get a glimpse of somewhere they're

1844

01:15:28,119 --> 01:15:25,579

not allowed to be you always want what

1845

01:15:30,310 --> 01:15:28,129

you can't have right all right I mean

1846

01:15:33,669 --> 01:15:30,320

for the record so people understand area

1847

01:15:36,099 --> 01:15:33,679

51 is an active military base right you

1848

01:15:39,099 --> 01:15:36,109

guys get that no one's getting in area

1849

01:15:40,719 --> 01:15:39,109

51 I know we could keep going for a

1850

01:15:42,060 --> 01:15:40,729

while with a lot of these questions but

1851

01:15:45,609 --> 01:15:42,070

I was a couple I really wanted to read

1852

01:15:47,829 --> 01:15:45,619

that came from email and one of them is

1853

01:15:49,629 --> 01:15:47,839

from someone named natty who says I have

1854

01:15:52,089 --> 01:15:49,639

one question and my eleven-year-old

1855

01:15:53,379 --> 01:15:52,099

daughter has another question and I

1856

01:15:55,750 --> 01:15:53,389

really want to read this because I love

1857

01:15:57,129 --> 01:15:55,760

the fact that an 11 year old is watching

1858

01:15:58,209 --> 01:15:57,139

this an 11 year old her 11 year old

1859

01:16:00,129 --> 01:15:58,219

daughter is watching this I think that's

1860

01:16:03,969 --> 01:16:00,139

great that's all please keep keep

1861

01:16:07,419 --> 01:16:03,979

watching so the question she has is you

1862

01:16:08,770 --> 01:16:07,429

all have mentioned the ranch behaves in

1863

01:16:11,500 --> 01:16:08,780

a certain way can you allow

1864

01:16:12,340 --> 01:16:11,510

Reitan exactly what that means and then

1865

01:16:13,750 --> 01:16:12,350

I'll going to tell you the other

1866

01:16:15,790 --> 01:16:13,760

question so you can lead into it if

1867

01:16:17,140 --> 01:16:15,800

you'd like and she says her 11 year old

1868

01:16:19,710 --> 01:16:17,150

daughter's question is what is the

1869

01:16:22,000 --> 01:16:19,720

biggest danger at the ranch humans

1870

01:16:25,150 --> 01:16:22,010

trespassers wild animals or the

1871

01:16:29,830 --> 01:16:25,160

paranormal Brian please know they're

1872

01:16:31,410 --> 01:16:29,840

both good questions so as far as the

1873

01:16:36,130 --> 01:16:31,420

ranch behaving I know that that was

1874

01:16:39,280 --> 01:16:36,140

mentioned early on I think really what

1875

01:16:42,490 --> 01:16:39,290

that comes down to is it's almost like a

1876

01:16:44,620 --> 01:16:42,500

curiosity level with whatever the

1877

01:16:51,030 --> 01:16:44,630

phenomenon is here I mean we'll use that

1878

01:16:54,100 --> 01:16:51,040

term because we don't know what it is it

1879

01:16:58,770 --> 01:16:54,110

interacts differently with different

1880

01:17:02,290 --> 01:16:58,780

people and it's almost like it seems

1881

01:17:04,630 --> 01:17:02,300

that when someone knew or somebody that

1882

01:17:08,730 --> 01:17:04,640

comes in with and other stuff really

1883

01:17:12,700 --> 01:17:08,740

crazy but like a cavalier or you know

1884

01:17:15,940 --> 01:17:12,710

the wrong attitude if you will I it

1885

01:17:17,020 --> 01:17:15,950

seems to react differently to those

1886

01:17:19,060 --> 01:17:17,030

people and those are the kind of the

1887

01:17:22,210 --> 01:17:19,070

people that are messed with a little bit

1888

01:17:26,170 --> 01:17:22,220

more that have you know shown injury or

1889

01:17:28,450 --> 01:17:26,180

illness or whatever it is and when

1890

01:17:30,180 --> 01:17:28,460

there's new people it's almost like hey

1891

01:17:33,730 --> 01:17:30,190

there's something new here to play with

1892

01:17:35,080 --> 01:17:33,740

so the activity bumps up seems to bump

1893

01:17:36,790 --> 01:17:35,090

up again sometimes it doesn't always

1894

01:17:40,240 --> 01:17:36,800

happen I mean it took forever

1895

01:17:42,130 --> 01:17:40,250

I four-year I mean for a good stretch

1896

01:17:43,570 --> 01:17:42,140

before I ever had anything sort of

1897

01:17:44,950 --> 01:17:43,580

experience that I couldn't just chalk up

1898

01:17:46,690 --> 01:17:44,960

to his own I was kind of a little

1899

01:17:48,910 --> 01:17:46,700

different but I can you know I haven't I

1900

01:17:51,250 --> 01:17:48,920

have an explanation for that it took a

1901

01:17:54,190 --> 01:17:51,260

long time whereas other people have come

1902

01:17:57,430 --> 01:17:54,200

you know for a one-time visit and ended

1903

01:17:59,020 --> 01:17:57,440

up in you know having all kinds of weird

1904

01:18:00,430 --> 01:17:59,030

things happen so I could attest to that

1905

01:18:02,140 --> 01:18:00,440

because every time I was out there I

1906

01:18:03,940 --> 01:18:02,150

would come back to New York or back to

1907

01:18:06,460 --> 01:18:03,950

East Coast and I had something going on

1908

01:18:07,630 --> 01:18:06,470

that I think the ranch kept up playing

1909

01:18:11,170 --> 01:18:07,640

games with me and I know that sounds

1910

01:18:12,730 --> 01:18:11,180

weird to say but I mean I doctors take

1911

01:18:16,570 --> 01:18:12,740

a look at okay I can't explain that so

1912

01:18:18,760 --> 01:18:16,580

good luck with that right great so yeah

1913

01:18:20,170 --> 01:18:18,770

it's strange it's weird even hearing

1914

01:18:22,060 --> 01:18:20,180

that come out of my mouth to the place

1915

01:18:22,630 --> 01:18:22,070

you know it's a place but whatever it is

1916

01:18:25,150 --> 01:18:22,640

it's going on

1917

01:18:26,770 --> 01:18:25,160

there's definitely different people have

1918

01:18:28,390 --> 01:18:26,780

different reactions and it almost seems

1919

01:18:29,860 --> 01:18:28,400

like it does have a personality in fact

1920

01:18:32,650 --> 01:18:29,870

it almost has like a split personality

1921

01:18:37,690 --> 01:18:32,660

some days it's the most wonderful place

1922

01:18:40,180 --> 01:18:37,700

and I feel amazing like it's the

1923

01:18:41,080 --> 01:18:40,190

greatest feeling I kits hard to explain

1924

01:18:44,260 --> 01:18:41,090

how much I love it

1925

01:18:46,180 --> 01:18:44,270

and there's other days where all the

1926

01:18:48,610 --> 01:18:46,190

hair on my body will stand on end and I

1927

01:18:51,690 --> 01:18:48,620

just want to get away so it's almost as

1928

01:18:54,220 --> 01:18:51,700

if it's you know I don't know if it's

1929

01:18:55,900 --> 01:18:54,230

you know warring factions whatever you

1930

01:18:57,460 --> 01:18:55,910

want to call it it's just some it does

1931

01:18:58,920 --> 01:18:57,470

definitely have a personality and it

1932

01:19:01,990 --> 01:18:58,930

reacts differently to different people

1933

01:19:04,360 --> 01:19:02,000

only that and then the second question I

1934

01:19:10,960 --> 01:19:04,370

think was what's the biggest threat or

1935

01:19:13,180 --> 01:19:10,970

the biggest danger yes um gosh she says

1936

01:19:15,820 --> 01:19:13,190

what's the biggest danger on the ranch

1937

01:19:20,800 --> 01:19:15,830

humans trespassers wild animals or the

1938

01:19:23,260 --> 01:19:20,810

paranormal um can I just say yes yes

1939

01:19:26,530 --> 01:19:23,270

because you know it's a great system it

1940

01:19:27,760 --> 01:19:26,540

depends on the human it depends on what

1941

01:19:29,650 --> 01:19:27,770

animals would come across and we have

1942

01:19:31,300 --> 01:19:29,660

massive mountain lions and rattlesnakes

1943

01:19:33,850 --> 01:19:31,310

and stuff like that people wonder why I

1944

01:19:35,560 --> 01:19:33,860

carry a shotgun it's not necessarily for

1945

01:19:39,100 --> 01:19:35,570

people but there's stuff here that will

1946

01:19:42,130 --> 01:19:39,110

eat you and you know and then obviously

1947

01:19:43,690 --> 01:19:42,140

be unknown you know things that like

1948

01:19:45,070 --> 01:19:43,700

have happened to Tom and other people

1949

01:19:48,010 --> 01:19:45,080

that have been associated with the ranch

1950

01:19:50,800 --> 01:19:48,020

so yeah it's a mean to pinpoint the most

1951

01:19:52,690 --> 01:19:50,810

danger I guess it depends on the day and

1952

01:19:56,230 --> 01:19:52,700

and what's out there in front of you so

1953

01:19:57,400 --> 01:19:56,240

that's a good question I mean you know

1954

01:19:58,510 --> 01:19:57,410

I'm sure there's a lot of other

1955

01:20:00,640 --> 01:19:58,520

questions that people want to have

1956

01:20:02,290 --> 01:20:00,650

answers to and I mean I would love to

1957

01:20:03,850 --> 01:20:02,300

you know talk to you all night and I'm

1958

01:20:05,320 --> 01:20:03,860

sure we all would mean we could just sit

1959

01:20:07,420 --> 01:20:05,330

here for hours again and just keep

1960

01:20:09,760 --> 01:20:07,430

asking you questions but I feel like you

1961

01:20:11,200 --> 01:20:09,770

know we should let you go and kind of we

1962

01:20:12,820 --> 01:20:11,210

can chop up any answer any other

1963

01:20:14,320 --> 01:20:12,830

questions that come you know we can

1964

01:20:15,730 --> 01:20:14,330

definitely get them and hopefully you

1965

01:20:18,160 --> 01:20:15,740

know please if would you like to come

1966

01:20:19,870 --> 01:20:18,170

back on with us some other time yeah if

1967

01:20:21,490 --> 01:20:19,880

you're not tired of me yet you know you

1968

01:20:23,790 --> 01:20:21,500

guys are great you've been it's it's

1969

01:20:26,260 --> 01:20:23,800

been nice to be able to because I guess

1970

01:20:29,260 --> 01:20:26,270

that's the best thing about this is

1971

01:20:32,800 --> 01:20:29,270

being able to you know explain a little

1972

01:20:34,930 --> 01:20:32,810

bit because what is edited in a one-hour

1973

01:20:36,609 --> 01:20:34,940

you know whatever what do they have like

1974

01:20:41,879 --> 01:20:36,619

40 minutes of TV and that

1975

01:20:44,919 --> 01:20:41,889

time you know 51:46 typically yeah yeah

1976

01:20:47,049 --> 01:20:44,929

I'll leave that to you but it's nice to

1977

01:20:48,850 --> 01:20:47,059

be able to give a little bit insight you

1978

01:20:50,949 --> 01:20:48,860

know not it's a defending there but you

1979

01:20:53,350 --> 01:20:50,959

know I'm I know people are curious and I

1980

01:20:55,000 --> 01:20:53,360

would rather you know be able to at

1981

01:20:56,739 --> 01:20:55,010

least explain things as opposed to just

1982

01:20:58,600 --> 01:20:56,749

have a whole bunch of speculation that's

1983

01:21:00,520 --> 01:20:58,610

you know bounces back and forth so yeah

1984

01:21:01,659 --> 01:21:00,530

if you if you have me back yeah I'd be

1985

01:21:05,290 --> 01:21:01,669

happy to you guys are great

1986

01:21:07,060 --> 01:21:05,300

I appreciate the opportunity it's great

1987

01:21:08,379 --> 01:21:07,070

I mean you had thank you for the talk

1988

01:21:10,299 --> 01:21:08,389

Brent this is awesome I mean seriously

1989

01:21:12,879 --> 01:21:10,309

we appreciate it and I know you guys

1990

01:21:14,859 --> 01:21:12,889

Jason Allen Maureen feel the same way

1991

01:21:16,839 --> 01:21:14,869

like well no I can't say that I can

1992

01:21:18,729 --> 01:21:16,849

speak for you guys now absolutely you

1993

01:21:21,100 --> 01:21:18,739

feel the same way it's always great

1994

01:21:23,799 --> 01:21:21,110

getting that other perspective because I

1995

01:21:26,049 --> 01:21:23,809

mean Jason I had both had experience on

1996

01:21:28,629 --> 01:21:26,059

on the other end where where we've had

1997

01:21:30,729 --> 01:21:28,639

to explain 45 edited minutes of TV as

1998

01:21:33,040 --> 01:21:30,739

well and you and it's always good to

1999

01:21:36,699 --> 01:21:33,050

hear from the people of yeah you're

2000

01:21:40,299 --> 01:21:36,709

getting a very edited clip of many weeks

2001

01:21:42,310 --> 01:21:40,309

and years of research so yeah it's

2002

01:21:45,489 --> 01:21:42,320

fascinating to hear your point of view

2003

01:21:48,729 --> 01:21:45,499

so thank you for being willing to talk

2004

01:21:50,799 --> 01:21:48,739

to us oh I'm happy to like I said TJ's

2005

01:21:53,799 --> 01:21:50,809

you know I consider him a friend you

2006

01:21:57,279 --> 01:21:53,809

know he's he's a big reason why the TV

2007

01:21:59,409 --> 01:21:57,289

show even happened I mean he was he was

2008

01:22:02,169 --> 01:21:59,419

the thorns you know he was the burr

2009

01:22:05,199 --> 01:22:02,179

under the saddle if you will they kept

2010

01:22:08,229 --> 01:22:05,209

going and you know it turned out and you

2011

01:22:10,600 --> 01:22:08,239

know I yeah so I'm happy and you guys

2012

01:22:11,350 --> 01:22:10,610

are great and you know I'm happy to talk

2013

01:22:14,619 --> 01:22:11,360

to you guys anything

2014

01:22:17,290 --> 01:22:14,629

thank you Sam reduce again very cool

2015

01:22:19,330 --> 01:22:17,300

so I mean think again I'm glad you were

2016

01:22:21,399 --> 01:22:19,340

able to you know spend the time with us

2017

01:22:23,199 --> 01:22:21,409

and so if people have other questions

2018

01:22:24,399 --> 01:22:23,209

you know you can there's two ways to

2019

01:22:26,350 --> 01:22:24,409

reach a sense of right now and this

2020

01:22:29,500 --> 01:22:26,360

jason has some other ones he hasn't told

2021

01:22:30,399 --> 01:22:29,510

me about yeah you can email at Jason you

2022

01:22:33,699 --> 01:22:30,409

know what why don't you give the info

2023

01:22:36,459 --> 01:22:33,709

about where people can send in from it -

2024

01:22:39,250 --> 01:22:36,469

yeah sure so the easiest is is email so

2025

01:22:42,100 --> 01:22:39,260

contact at rogue planet TV can always

2026

01:22:44,020 --> 01:22:42,110

email us there any questions about the

2027

01:22:46,000 --> 01:22:44,030

most recent episode or just anything in

2028

01:22:48,040 --> 01:22:46,010

general about skinwalker ranch or

2029

01:22:48,760 --> 01:22:48,050

anything mysterious at all we love

2030

01:22:51,430 --> 01:22:48,770

hearing

2031

01:22:53,200 --> 01:22:51,440

about personal stories or just any

2032

01:22:54,730 --> 01:22:53,210

question about anything strange we love

2033

01:22:57,070 --> 01:22:54,740

that so send anything our way it

2034

01:23:00,100 --> 01:22:57,080

contacted Red Planet TV you can always

2035

01:23:02,440 --> 01:23:00,110

hit us up at Twitter too at skinwalker

2036

01:23:04,360 --> 01:23:02,450

pod so those are the best places to send

2037

01:23:06,490 --> 01:23:04,370

us questions each week but we're all

2038

01:23:09,250 --> 01:23:06,500

individually on social media too so feel

2039

01:23:11,140 --> 01:23:09,260

free to hit us up on on Facebook or our

2040

01:23:14,110 --> 01:23:11,150

individual Twitter's as well absolutely

2041

01:23:15,640 --> 01:23:14,120

and so on next week's episode of the

2042

01:23:18,490 --> 01:23:15,650

CdeBaca debrief we're talking about

2043

01:23:19,840 --> 01:23:18,500

episode 4 of the secretive skinwalker

2044

01:23:22,030 --> 01:23:19,850

ranch on in history and all I got to

2045

01:23:23,200 --> 01:23:22,040

make sure the plug is in there and the

2046

01:23:25,540 --> 01:23:23,210

title of that show is called high

2047

01:23:27,970 --> 01:23:25,550

strangeness and so next week our guest

2048

01:23:31,180 --> 01:23:27,980

will be none other than Thomas Winterton

2049

01:23:33,310 --> 01:23:31,190

the ranch superintendent so Thomas will

2050

01:23:35,890 --> 01:23:33,320

be here just just like dragon I'm sorry

2051

01:23:37,180 --> 01:23:35,900

just like Bryant again thank you you

2052

01:23:39,460 --> 01:23:37,190

know please if you have any questions or

2053

01:23:42,040 --> 01:23:39,470

whatever send them our way and you know

2054

01:23:43,540 --> 01:23:42,050

hopefully Tom be just as open as Brian

2055

01:23:45,970 --> 01:23:43,550

is to answering all this stuff I mean I

2056

01:23:48,310 --> 01:23:45,980

know he will be what I'm just saying but

2057

01:23:50,770 --> 01:23:48,320

yes thank you all for joining us and we

2058

01:23:52,790 --> 01:23:50,780

hope you tune in next week so make sure

2059

01:24:17,069 --> 01:23:52,800

you don't sit

2060

01:24:18,690 --> 01:24:17,079
