SKINWALKER

Debrief

1
00:00:00,440 --> 00:00:39,510

[Music]

2
00:00:43,870 --> 00:00:41,950

welcome to the skinwalker debrief I'm

3
00:00:46,600 --> 00:00:43,880

your host TJ Allard and I'm one of the

4
00:00:48,790 --> 00:00:46,610

executive producers of the new hit TV

5
00:00:49,870 --> 00:00:48,800

series on history called the secret of

6
00:00:52,600 --> 00:00:49,880

skinwalker ranch

7
00:00:55,090 --> 00:00:52,610

I'm joined each week by Jason McClellan

8
00:00:57,100 --> 00:00:55,100

and Maureen Elsberry and together we'll

9
00:00:59,890 --> 00:00:57,110

dissect each episode to give you more

10
00:01:02,080 --> 00:00:59,900

insight into the show jason has been

11
00:01:03,640 --> 00:01:02,090

exploring all the strange for more than

12
00:01:06,000 --> 00:01:03,650

a decade he's appeared on that geo

13
00:01:09,910 --> 00:01:06,010

sci-fi history and he's the author of

14

00:01:11,950 --> 00:01:09,920

only weirdo see UFOs introduction to the

15

00:01:14,200 --> 00:01:11,960

public's misperception of unidentified

16

00:01:16,359 --> 00:01:14,210

aerial phenomenon and extraterrestrial

17

00:01:18,490 --> 00:01:16,369

life Maureen is a journalist researcher

18

00:01:20,260 --> 00:01:18,500

and podcaster specializing in the

19

00:01:22,570 --> 00:01:20,270

anomalous she started the docu-series

20

00:01:24,400 --> 00:01:22,580

uncovering aliens on Animal Planet and

21

00:01:26,370 --> 00:01:24,410

had served as the ambassador for science

22

00:01:30,280 --> 00:01:26,380

channels are we alone initiative and

23

00:01:32,290 --> 00:01:30,290

tonight our special guest is none other

24

00:01:32,740 --> 00:01:32,300

than the superintendent of skinwalker

25

00:01:35,710 --> 00:01:32,750

ranch

26

00:01:38,649 --> 00:01:35,720

Thomas Winterton Thomas thank you for

27

00:01:41,470 --> 00:01:38,659

joining us thank you for inviting me I'm

28

00:01:43,270 --> 00:01:41,480

happy to be here this is awesome and so

29

00:01:45,970 --> 00:01:43,280

should we call you Thomas or Tom what do

30

00:01:47,950 --> 00:01:45,980

you prefer I tell people if I get Thomas

31

00:01:49,810 --> 00:01:47,960

Tommy or Tom I feel pretty good about

32

00:01:51,790 --> 00:01:49,820

myself it's the four-letter ones that I

33

00:01:54,480 --> 00:01:51,800

try to avoid so anything that you're

34

00:01:58,030 --> 00:01:54,490

comfortable with awesome that is great

35

00:02:00,310 --> 00:01:58,040

so the I think just give you the rundown

36

00:02:02,260 --> 00:02:00,320

the show I mean you you kind of listened

37

00:02:04,030 --> 00:02:02,270

and checked it out the what we'll do

38

00:02:06,610 --> 00:02:04,040

just so people who are listening and

39

00:02:07,719 --> 00:02:06,620

watching follow along we'll go through

40

00:02:11,320 --> 00:02:07,729

each of the blocks of the television

41

00:02:13,660 --> 00:02:11,330

show and so what blocks are in the TV

42

00:02:14,949 --> 00:02:13,670

world so it's the space between the

43

00:02:17,140 --> 00:02:14,959

commercials so the actual content the

44

00:02:19,690 --> 00:02:17,150

show and there's an a block through F

45

00:02:21,610 --> 00:02:19,700

block and the secret skinwalker ranch so

46

00:02:23,650 --> 00:02:21,620

we'll just hit a point or two of each

47

00:02:25,509 --> 00:02:23,660

block talk with Thomas about them

48

00:02:26,740 --> 00:02:25,519

we'll talk amongst ourselves and we'll

49

00:02:28,509 --> 00:02:26,750

get to some questions from you guys

50

00:02:30,699 --> 00:02:28,519

because this week we have a lot of them

51
00:02:33,550 --> 00:02:30,709
so first off what we normally do as well

52
00:02:37,240 --> 00:02:33,560
recap the last episode and now that we

53
00:02:39,400 --> 00:02:37,250
have you here Thomas to speak about some

54
00:02:41,110 --> 00:02:39,410
of the stuff it would be it'll be great

55
00:02:42,880 --> 00:02:41,120
to kind of hear some elaboration on what

56
00:02:45,430 --> 00:02:42,890
what happened in the previous episode

57
00:02:47,140 --> 00:02:45,440
which was looking down and I am I think

58
00:02:51,339 --> 00:02:47,150
one of the first things was

59
00:02:53,320 --> 00:02:51,349
where is a transmitter that was the

60
00:02:55,240 --> 00:02:53,330
number one thing so what what happened

61
00:02:57,250 --> 00:02:55,250
that last episode looking down

62
00:03:00,850 --> 00:02:57,260
why don't you kind of tell us what you

63
00:03:02,440 --> 00:03:00,860

remember from from that episode well you

64

00:03:05,470 --> 00:03:02,450

know that whole experiment with the

65

00:03:07,119 --> 00:03:05,480

weather balloon was I love watching

66

00:03:08,860 --> 00:03:07,129

these scientists because it seems like

67

00:03:11,020 --> 00:03:08,870

every experiment we do they just become

68

00:03:13,330 --> 00:03:11,030

more and more baffled for every answer

69

00:03:16,180 --> 00:03:13,340

we get we have ten more questions and

70

00:03:19,000 --> 00:03:16,190

with this weather balloon we have we had

71

00:03:20,710 --> 00:03:19,010

more than one transmitter on it two

72

00:03:22,569 --> 00:03:20,720

different types and you'll have to

73

00:03:25,539 --> 00:03:22,579

forgive me I don't know you know all the

74

00:03:27,309 --> 00:03:25,549

details about the two but the durable

75

00:03:31,390 --> 00:03:27,319

one the one that matt has used

76

00:03:34,300 --> 00:03:31,400

repeatedly he said it never fails him it

77

00:03:38,319 --> 00:03:34,310

quit transponding right there that magic

78

00:03:41,979 --> 00:03:38,329

little mark that we had estimated

79

00:03:44,259 --> 00:03:41,989

through our triangulation when they got

80

00:03:45,910 --> 00:03:44,269

to that point it just stopped

81

00:03:47,949 --> 00:03:45,920

transmitting now the other one we did

82

00:03:50,589 --> 00:03:47,959

get another beep or two off of it but we

83

00:03:55,259 --> 00:03:50,599

mean we searched and searched and

84

00:03:58,960 --> 00:03:55,269

searched and we never found that balloon

85

00:04:01,479 --> 00:03:58,970

you know the scientists when you as you

86

00:04:03,309 --> 00:04:01,489

go up these signals they the way that

87

00:04:04,750 --> 00:04:03,319

Travis was explaining it to us and I

88

00:04:06,430 --> 00:04:04,760

love that's one of the things I love

89

00:04:08,860 --> 00:04:06,440
about this show is you know my

90

00:04:10,960 --> 00:04:08,870
background business and then obviously I

91

00:04:12,819 --> 00:04:10,970
grew up in the ranching community I'm

92

00:04:15,400 --> 00:04:12,829
familiar with those things but this

93

00:04:19,420 --> 00:04:15,410
science part it's been a blast learning

94

00:04:21,580 --> 00:04:19,430
from Travis and Eric and dr. Sagawa and

95

00:04:23,890 --> 00:04:21,590
having them explained to us why these

96

00:04:26,200 --> 00:04:23,900
things are significant sometimes we see

97

00:04:28,240 --> 00:04:26,210
things happening on you know as things

98

00:04:30,159 --> 00:04:28,250
are happening they're baffled and and

99

00:04:32,820 --> 00:04:30,169
the rest of us are like what what what's

100

00:04:35,290 --> 00:04:32,830
the significance of this and so you know

101
00:04:36,400 --> 00:04:35,300
when it cut to these signals that we're

102
00:04:38,170 --> 00:04:36,410
seeing the reason that they're saying

103
00:04:39,339 --> 00:04:38,180
they're off Earth is that the

104
00:04:41,409 --> 00:04:39,349
measurements are indicating they're

105
00:04:43,120 --> 00:04:41,419
getting stronger as they go up and a lot

106
00:04:47,620 --> 00:04:43,130
of the signals that we we are seeing

107
00:04:51,400 --> 00:04:47,630
they hug the ground and they don't they

108
00:04:53,830 --> 00:04:51,410
get weaker as you go up and so all of

109
00:04:56,290 --> 00:04:53,840
the tests that we've done so far seem to

110
00:04:58,330 --> 00:04:56,300
indicate that the higher we go that the

111
00:04:59,950 --> 00:04:58,340
stronger these signals become which is

112
00:05:01,020 --> 00:04:59,960
the opposite of what they would expect

113
00:05:02,730 --> 00:05:01,030

to see and

114

00:05:04,490 --> 00:05:02,740

this year unless you're obviously you

115

00:05:06,750 --> 00:05:04,500

know going up towards the cell tower but

116

00:05:08,700 --> 00:05:06,760

the other baffling thing is is that

117

00:05:10,560 --> 00:05:08,710

we're not in the middle of the city the

118

00:05:12,450 --> 00:05:10,570

levels that we're seeing we're in the

119

00:05:14,370 --> 00:05:12,460

middle of nowhere where we can't even

120

00:05:16,680 --> 00:05:14,380

really pick up a cell phone signal and

121

00:05:18,360 --> 00:05:16,690

so to measure the type of signals that

122

00:05:20,100 --> 00:05:18,370

we're getting is baffling to them as

123

00:05:22,650 --> 00:05:20,110

well because it's so no more

124

00:05:24,870 --> 00:05:22,660

so Jason marine so what they were

125

00:05:26,970 --> 00:05:24,880

experiencing as the signals were going

126
00:05:29,790 --> 00:05:26,980
you know they were getting higher have

127
00:05:32,970 --> 00:05:29,800
you guys had any other encounters or or

128
00:05:34,910 --> 00:05:32,980
cases that you remember that there's

129
00:05:38,220 --> 00:05:34,920
been measurements or anything like that

130
00:05:40,020 --> 00:05:38,230
from your years of experience that would

131
00:05:43,110 --> 00:05:40,030
require so much deep diving into my

132
00:05:44,160 --> 00:05:43,120
memory yeah too much I don't know if

133
00:05:47,040 --> 00:05:44,170
there was something that is common

134
00:05:49,980 --> 00:05:47,050
uncommon you know you just one of those

135
00:05:51,570 --> 00:05:49,990
like could it be yeah it's from my

136
00:05:54,500 --> 00:05:51,580
perspective it's pretty uncommon and

137
00:05:57,300 --> 00:05:54,510
certainly a reason for that is because

138
00:06:00,210 --> 00:05:57,310

this type of testing doesn't really

139

00:06:03,870 --> 00:06:00,220

occur that often so you know the ranch

140

00:06:07,500 --> 00:06:03,880

is positioned pretty uniquely to be able

141

00:06:09,270 --> 00:06:07,510

to to have scientists on-site to do

142

00:06:10,560 --> 00:06:09,280

these types of experiments it's not

143

00:06:13,650 --> 00:06:10,570

something that you see in a lot of

144

00:06:17,340 --> 00:06:13,660

paranormal research so it's really cool

145

00:06:19,230 --> 00:06:17,350

to see awesome and then so let's go

146

00:06:21,750 --> 00:06:19,240

right into the current episode high

147

00:06:23,250 --> 00:06:21,760

strangeness and you know first off we

148

00:06:26,250 --> 00:06:23,260

come right into it and you guys are

149

00:06:27,660 --> 00:06:26,260

already digging under the house and you

150

00:06:29,430 --> 00:06:27,670

get a little background into that that

151
00:06:32,220 --> 00:06:29,440
house and the creeks and the knocking

152
00:06:35,070 --> 00:06:32,230
and then you find bones and bone

153
00:06:36,210 --> 00:06:35,080
fragments ashes in a room so tell us

154
00:06:38,280 --> 00:06:36,220
what's going through everyone's mind

155
00:06:42,420 --> 00:06:38,290
there I mean like what were the reports

156
00:06:43,920 --> 00:06:42,430
coming from that house and did you find

157
00:06:46,590 --> 00:06:43,930
anything you get any evidence or any

158
00:06:48,600 --> 00:06:46,600
information about what you found yeah so

159
00:06:51,390 --> 00:06:48,610
what drew our attention there in the

160
00:06:52,650 --> 00:06:51,400
first place is not only did Tom and

161
00:06:54,780 --> 00:06:52,660
Candice who'd been there living there

162
00:06:57,870 --> 00:06:54,790
just a couple months at the time that we

163
00:06:59,430 --> 00:06:57,880

did this but the the previous caretakers

164

00:07:01,950 --> 00:06:59,440

that were in there and the Sherman's all

165

00:07:03,180 --> 00:07:01,960

reported hearing strange sounds and you

166

00:07:05,340 --> 00:07:03,190

know I've seen some of the comments like

167

00:07:07,680 --> 00:07:05,350

oh you know water heaters pop right you

168

00:07:10,800 --> 00:07:07,690

know furnaces well I want to be crystal

169

00:07:15,240 --> 00:07:10,810

clear that when we say the we're hearing

170

00:07:15,600 --> 00:07:15,250

strange sounds on the show strange for

171

00:07:17,129 --> 00:07:15,610

us

172

00:07:20,070 --> 00:07:17,139

sounds that we have not been able to

173

00:07:21,600 --> 00:07:20,080

identify their origin right we've

174

00:07:24,029 --> 00:07:21,610

already ruled out the furnace we've

175

00:07:25,559 --> 00:07:24,039

ruled out the water heater we've we've

176
00:07:28,110 --> 00:07:25,569
gone through the checklist of things

177
00:07:30,089 --> 00:07:28,120
that it could be very first and then

178
00:07:32,040 --> 00:07:30,099
after we've checked all those those

179
00:07:34,850 --> 00:07:32,050
boxes and we still can't identify what

180
00:07:38,429 --> 00:07:34,860
it is then it becomes a strange sound

181
00:07:40,559 --> 00:07:38,439
and so we're hearing these strange

182
00:07:43,170 --> 00:07:40,569
sounds some strange vibrations that are

183
00:07:44,689 --> 00:07:43,180
coming over the last couple of years

184
00:07:46,980 --> 00:07:44,699
we've had some really interesting

185
00:07:49,320 --> 00:07:46,990
vibrations that we've picked up on the

186
00:07:55,350 --> 00:07:49,330
infrasonic and and then also with the

187
00:07:58,740 --> 00:07:55,360
audio and our first thought there was

188
00:08:00,990 --> 00:07:58,750

you and a basin is got a lot of oil a

189

00:08:02,580 --> 00:08:01,000

lot of energy extraction here so the

190

00:08:04,110 --> 00:08:02,590

first thought line of thought is is that

191

00:08:07,140 --> 00:08:04,120

we must be picking up the vibrations

192

00:08:08,550 --> 00:08:07,150

from drilling you know there we do a lot

193

00:08:11,279 --> 00:08:08,560

of horizontal drilling here so they'll

194

00:08:13,649 --> 00:08:11,289

go out for a mile two miles laterally

195

00:08:16,529 --> 00:08:13,659

and so we thought that that's what we

196

00:08:20,640 --> 00:08:16,539

are picking up the problem is is that as

197

00:08:22,619 --> 00:08:20,650

we start going deeper into this we're

198

00:08:25,320 --> 00:08:22,629

able to rule out that drilling is the

199

00:08:27,779 --> 00:08:25,330

origin of this as we start you know

200

00:08:30,029 --> 00:08:27,789

lining it up with the drilling schedules

201
00:08:32,040 --> 00:08:30,039
and and what's going on with around us

202
00:08:32,880 --> 00:08:32,050
and so we have these strange sounds

203
00:08:35,880 --> 00:08:32,890
coming from the basement

204
00:08:39,060 --> 00:08:35,890
and as we go down there investigate I

205
00:08:41,130 --> 00:08:39,070
was I was drawn to the cement wall here

206
00:08:43,500 --> 00:08:41,140
and what's interesting is that the floor

207
00:08:44,790 --> 00:08:43,510
joist I'm a general contractor so

208
00:08:46,560 --> 00:08:44,800
anytime you have a cement wall usually

209
00:08:48,180 --> 00:08:46,570
it's a load-bearing wall and you've got

210
00:08:50,699 --> 00:08:48,190
the joist resting on top of it as a

211
00:08:52,920 --> 00:08:50,709
bearing point and when I notice about

212
00:08:54,720 --> 00:08:52,930
this is that the floor choices are about

213
00:08:57,870 --> 00:08:54,730

you know six eight inches above the

214

00:08:59,550 --> 00:08:57,880

cement they don't make contact so then

215

00:09:02,730 --> 00:08:59,560

I'm thinking it's a retaining wall but

216

00:09:04,620 --> 00:09:02,740

the choices go so did this room really

217

00:09:07,319 --> 00:09:04,630

does sit almost in the middle of the

218

00:09:09,810 --> 00:09:07,329

house and so it's got house all the way

219

00:09:13,189 --> 00:09:09,820

around it on the front the back and the

220

00:09:17,250 --> 00:09:13,199

two sides so I was looking up above

221

00:09:19,050 --> 00:09:17,260

between the Joyce's and the cement I'm

222

00:09:21,480 --> 00:09:19,060

thinking that's really peculiar that

223

00:09:23,310 --> 00:09:21,490

there would be a cement like there's

224

00:09:25,050 --> 00:09:23,320

obviously some type of room right here

225

00:09:28,499 --> 00:09:25,060

because you can see across the top of it

226

00:09:30,269 --> 00:09:28,509

that there that it's cement ceiling

227

00:09:33,449 --> 00:09:30,279

and so then the thought from the

228

00:09:35,639 --> 00:09:33,459

scientists comes well it's possible that

229

00:09:37,499 --> 00:09:35,649

if this is a fully encased cement room

230

00:09:40,230 --> 00:09:37,509

it could act like a resonance chamber

231

00:09:42,449 --> 00:09:40,240

which you have you know sounds traveling

232

00:09:44,970 --> 00:09:42,459

long distances through the ground can be

233

00:09:47,220 --> 00:09:44,980

amplified in this room and maybe that's

234

00:09:49,980 --> 00:09:47,230

the source of the sound that the

235

00:09:51,900 --> 00:09:49,990

residents are hearing and so I went

236

00:09:53,460 --> 00:09:51,910

ahead and took a drill and punched a

237

00:09:55,040 --> 00:09:53,470

little hole so that we could see just

238

00:09:58,379 --> 00:09:55,050

exactly what we were dealing with and

239

00:09:59,519 --> 00:09:58,389

you you know it was fun that the viewers

240

00:10:01,110 --> 00:09:59,529

actually got to see us that was the

241

00:10:03,540 --> 00:10:01,120

first time that we had been able to put

242

00:10:05,160 --> 00:10:03,550

a camera or anything in there so they

243

00:10:06,870 --> 00:10:05,170

were witnessing with us as the first

244

00:10:10,259 --> 00:10:06,880

time that we really were getting to see

245

00:10:13,980 --> 00:10:10,269

what was inside and we have this this

246

00:10:15,809 --> 00:10:13,990

concrete room and then obviously you see

247

00:10:19,949 --> 00:10:15,819

that pile of debris now the interesting

248

00:10:21,840 --> 00:10:19,959

thing about this debris is is the the

249

00:10:23,939 --> 00:10:21,850

hole was not there long enough for that

250

00:10:26,639 --> 00:10:23,949

debris to be something that fallen in

251
00:10:28,439 --> 00:10:26,649
from the outside it was far enough into

252
00:10:30,360 --> 00:10:28,449
the tank it wasn't directly below the

253
00:10:32,280 --> 00:10:30,370
hole I I mean I really had to stretch my

254
00:10:35,999 --> 00:10:32,290
arm in there far to get the camera right

255
00:10:40,259 --> 00:10:36,009
above it and and then the rest of the

256
00:10:42,240 --> 00:10:40,269
tank was basically spotless I mean I I

257
00:10:43,710 --> 00:10:42,250
don't even recall seeing any spider webs

258
00:10:45,240 --> 00:10:43,720
or anything I mean this thing was pretty

259
00:10:49,220 --> 00:10:45,250
silt off and then there's this this

260
00:10:52,379 --> 00:10:49,230
little pile of debris so that was odd

261
00:10:54,420 --> 00:10:52,389
you know I've heard people commenting or

262
00:10:57,360 --> 00:10:54,430
read comments like oh it could be a

263
00:10:59,009 --> 00:10:57,370

cistern well it could be the problem

264

00:11:01,559 --> 00:10:59,019

with that so there's a cistern over by

265

00:11:04,170 --> 00:11:01,569

Homestead - Thomas - cistern is so

266

00:11:07,259 --> 00:11:04,180

people understand that people won't know

267

00:11:11,429 --> 00:11:07,269

a cistern is yeah so it's just a it's

268

00:11:14,910 --> 00:11:11,439

basically a water tank the lemon terms

269

00:11:18,329 --> 00:11:14,920

is this is water tank there is one pipe

270

00:11:19,170 --> 00:11:18,339

that comes in on the back of this it

271

00:11:22,530 --> 00:11:19,180

doesn't go anywhere

272

00:11:24,179 --> 00:11:22,540

and so it's possible that was a cistern

273

00:11:25,829 --> 00:11:24,189

but if that's the case I don't know how

274

00:11:27,420 --> 00:11:25,839

they plan on getting water in or out

275

00:11:30,179 --> 00:11:27,430

there's not a there's not like a pipe at

276

00:11:32,309 --> 00:11:30,189

the bottom to draw water out of and you

277

00:11:36,030 --> 00:11:32,319

there's just no access to this thing so

278

00:11:40,139 --> 00:11:36,040

it's baffling and these bones and this

279

00:11:41,760 --> 00:11:40,149

debris that we saw you could say well

280

00:11:44,100 --> 00:11:41,770

maybe a mouse got in there and

281

00:11:48,840 --> 00:11:44,110

but what you'd find then would be an

282

00:11:53,190 --> 00:11:48,850

intact skeleton right like yeah it does

283

00:11:56,880 --> 00:11:53,200

we're pretty mashed up and look like

284

00:11:58,260 --> 00:11:56,890

they'd been crushed up actually so how

285

00:12:00,240 --> 00:11:58,270

that how something could just crawl in

286

00:12:01,770 --> 00:12:00,250

there and die and and us find it the way

287

00:12:04,050 --> 00:12:01,780

that it was it just didn't make any

288

00:12:05,040 --> 00:12:04,060

sense yeah there was an animal skeleton

289

00:12:06,330 --> 00:12:05,050

where everything would have decomposed

290

00:12:08,490 --> 00:12:06,340

and you would just have a skeleton and

291

00:12:10,710 --> 00:12:08,500

just to let people know and then don't

292

00:12:12,990 --> 00:12:10,720

get chasing more thoughts on this the

293

00:12:14,700 --> 00:12:13,000

when Thomas was saying they know every

294

00:12:16,230 --> 00:12:14,710

sound or they've identified the sound so

295

00:12:18,420 --> 00:12:16,240

Eric when I was out there Eric had

296

00:12:21,450 --> 00:12:18,430

showed me a number of times he basically

297

00:12:23,940 --> 00:12:21,460

has a signature an audio signature of

298

00:12:25,470 --> 00:12:23,950

every sound that could possibly be

299

00:12:27,030 --> 00:12:25,480

happening from the vibrations of the

300

00:12:29,400 --> 00:12:27,040

poles he knows what that audio wave

301

00:12:31,800 --> 00:12:29,410

looks like when a cars driving on you

302

00:12:32,940 --> 00:12:31,810

know one of the four by fours whatever

303

00:12:34,710 --> 00:12:32,950

are driving on the ranch he knows with

304

00:12:35,880 --> 00:12:34,720

that how do waves look like so it's

305

00:12:39,090 --> 00:12:35,890

almost like he has a book like oh yeah

306

00:12:41,670 --> 00:12:39,100

that is a oh that's you know you know

307

00:12:42,720 --> 00:12:41,680

Tom's car so he knows everything that's

308

00:12:43,740 --> 00:12:42,730

going on there so that's what he's

309

00:12:45,270 --> 00:12:43,750

saying that if they don't know what it

310

00:12:46,800 --> 00:12:45,280

is then that's where they explore but

311

00:12:47,190 --> 00:12:46,810

you guys what do you think about about

312

00:12:48,900 --> 00:12:47,200

this

313

00:12:50,610 --> 00:12:48,910

give me some thoughts what your thoughts

314

00:12:53,970 --> 00:12:50,620

on need the tank The Roommate

315

00:12:56,880 --> 00:12:53,980

I shared a little bit last week about

316

00:12:58,770 --> 00:12:56,890

how it seemed like possibly that was

317

00:13:00,750 --> 00:12:58,780

something that was more normally

318

00:13:03,180 --> 00:13:00,760

occurring back in the the time the house

319

00:13:07,100 --> 00:13:03,190

was built and I'm not saying that from

320

00:13:10,710 --> 00:13:07,110

direct you know knowledge in terms of

321

00:13:13,290 --> 00:13:10,720

contractor side of things and honestly

322

00:13:15,030 --> 00:13:13,300

like the the pile now the more I think

323

00:13:16,740 --> 00:13:15,040

about it the more I thought well it

324

00:13:18,240 --> 00:13:16,750

reminds me of and I don't know how this

325

00:13:20,610 --> 00:13:18,250

would get in here at this sentence gonna

326

00:13:23,280 --> 00:13:20,620

sound crazy but it reminded me of like a

327

00:13:24,810 --> 00:13:23,290

disintegrated owl pellet that would have

328

00:13:28,710 --> 00:13:24,820

a ton of bones in it but I don't know

329

00:13:30,810 --> 00:13:28,720

where the pipe leads you away what is it

330

00:13:32,550 --> 00:13:30,820

I decide what I don't know what an owl

331

00:13:35,700 --> 00:13:32,560

pellet is what is that it's basically

332

00:13:37,530 --> 00:13:35,710

the digestion of an owl little have a

333

00:13:41,730 --> 00:13:37,540

ton of little tiny bones in it another

334

00:13:43,890 --> 00:13:41,740

hair and fur that you know we used to

335

00:13:45,180 --> 00:13:43,900

have to dissect them in high school and

336

00:13:48,150 --> 00:13:45,190

when they fall apart

337

00:13:50,370 --> 00:13:48,160

it looks kind of like that the mess that

338

00:13:54,240 --> 00:13:50,380

was found in there but again what would

339

00:13:55,500 --> 00:13:54,250

an owl pellet in a concrete box so I

340

00:13:57,270 --> 00:13:55,510

have no idea

341

00:13:59,990 --> 00:13:57,280

what it is but I was intrigued and I

342

00:14:03,480 --> 00:14:00,000

will say I saw today a lot of people

343

00:14:05,160 --> 00:14:03,490

were commenting about the what looked

344

00:14:08,910 --> 00:14:05,170

like a coin in there and I'm assuming

345

00:14:11,910 --> 00:14:08,920

that that that was put in there by you

346

00:14:14,360 --> 00:14:11,920

Thomas or Travis or for some reason so I

347

00:14:18,960 --> 00:14:14,370

probably I would yeah I would I would

348

00:14:21,120 --> 00:14:18,970

for our audience yeah so when when we

349

00:14:22,770 --> 00:14:21,130

first put the camera in there it was

350

00:14:24,090 --> 00:14:22,780

impossible when we found that pile it

351
00:14:26,700 --> 00:14:24,100
was impossible we could tell they were

352
00:14:27,870 --> 00:14:26,710
bones but that camera was so interesting

353
00:14:30,570 --> 00:14:27,880
that it was it was hard to get a

354
00:14:32,340 --> 00:14:30,580
perspective on what size we were looking

355
00:14:34,530 --> 00:14:32,350
at so I actually reached in there and

356
00:14:38,550 --> 00:14:34,540
dropped a quarter so that it could give

357
00:14:40,560 --> 00:14:38,560
us reference as to what she's seeing so

358
00:14:41,850 --> 00:14:40,570
it was we I did drop it in there and it

359
00:14:43,950 --> 00:14:41,860
was just purely there so that we could

360
00:14:47,640 --> 00:14:43,960
get an idea of what size we were looking

361
00:14:50,730 --> 00:14:47,650
at right yeah so I think I think it's

362
00:14:52,650 --> 00:14:50,740
mysterious and interesting and and why

363
00:14:54,630 --> 00:14:52,660

it's there and whether it was just

364

00:14:57,660 --> 00:14:54,640

somebody doing a really bad job of

365

00:15:01,080 --> 00:14:57,670

sealing up a cistern and forgetting to

366

00:15:02,640 --> 00:15:01,090

put the actual functioning way to get

367

00:15:04,940 --> 00:15:02,650

the water out or it's something much

368

00:15:08,760 --> 00:15:04,950

more mysterious is is very curious and

369

00:15:11,070 --> 00:15:08,770

Jason what about you well I think what

370

00:15:12,780 --> 00:15:11,080

if it was a mouse I mean obviously it

371

00:15:17,790 --> 00:15:12,790

spontaneously combusted I mean that

372

00:15:20,190 --> 00:15:17,800

explains it yeah I mean it's it's so

373

00:15:22,790 --> 00:15:20,200

bizarre you talking about the old

374

00:15:25,590 --> 00:15:22,800

construction and and you know old houses

375

00:15:27,900 --> 00:15:25,600

it's not uncommon to have these weird

376

00:15:30,300 --> 00:15:27,910

random rooms that through different

377

00:15:32,490 --> 00:15:30,310

construction phases over over the years

378

00:15:35,910 --> 00:15:32,500

you know rooms get closed off but this

379

00:15:37,560 --> 00:15:35,920

one is just so so weird so I like it

380

00:15:40,350 --> 00:15:37,570

because I mean it keeps you going

381

00:15:42,350 --> 00:15:40,360

throughout the well last episode on this

382

00:15:45,270 --> 00:15:42,360

episode I mean it's it's very mysterious

383

00:15:47,880 --> 00:15:45,280

so I liked it I don't know how to

384

00:15:51,390 --> 00:15:47,890

explain it but something I did like in

385

00:15:53,640 --> 00:15:51,400

that part of the story was this week we

386

00:15:55,770 --> 00:15:53,650

got to meet the residents they're a

387

00:15:57,180 --> 00:15:55,780

little more right TJ you teased that

388

00:15:59,580 --> 00:15:57,190

last week that we hadn't really been

389

00:16:01,860 --> 00:15:59,590

introduced to them yet but this week we

390

00:16:04,020 --> 00:16:01,870

got to got to know more about them so

391

00:16:06,180 --> 00:16:04,030

that was cool get their backstory and

392

00:16:07,650 --> 00:16:06,190

and Thomas I did see some comments

393

00:16:09,480 --> 00:16:07,660

people were saying that it could have

394

00:16:12,300 --> 00:16:09,490

been a fallout shelter

395

00:16:17,100 --> 00:16:12,310

is that do you know anything about that

396

00:16:18,929 --> 00:16:17,110

like is can you rule that out well the

397

00:16:23,699 --> 00:16:18,939

only thing that I would rule that out

398

00:16:25,559 --> 00:16:23,709

with is again the the only hole into

399

00:16:30,809 --> 00:16:25,569

this place was like an inch and a half

400

00:16:33,420 --> 00:16:30,819

diameter pipe so that there was no

401
00:16:37,860 --> 00:16:33,430
access even getting inside like there

402
00:16:40,470 --> 00:16:37,870
just was no way to access this so which

403
00:16:42,480 --> 00:16:40,480
is surfing in the fact that if you look

404
00:16:49,139 --> 00:16:42,490
at the construction of it the formed

405
00:16:50,730 --> 00:16:49,149
construction it's worded like I know

406
00:16:51,240 --> 00:16:50,740
from experience you got to pull those

407
00:16:54,389 --> 00:16:51,250
out

408
00:16:55,650 --> 00:16:54,399
right right right okay I'm sure we're

409
00:16:57,569 --> 00:16:55,660
gonna get we're gonna circle back to

410
00:16:58,769 --> 00:16:57,579
that in the in the series I mean that

411
00:17:00,929 --> 00:16:58,779
we're not just gonna leave that hanging

412
00:17:03,389 --> 00:17:00,939
out there eventually we'll get we'll

413
00:17:06,569 --> 00:17:03,399

come back to that that topic just so

414

00:17:08,340 --> 00:17:06,579

let's keep moving on solo one more I

415

00:17:12,809 --> 00:17:08,350

heard I saw several people comment like

416

00:17:14,880 --> 00:17:12,819

why didn't you guys call the police that

417

00:17:17,579 --> 00:17:14,890

they were not human bones and so

418

00:17:19,949 --> 00:17:17,589

therefore we could rule that out there

419

00:17:22,829 --> 00:17:19,959

you go so there I love that you've been

420

00:17:25,620 --> 00:17:22,839

able to squash about 74 conspiracy

421

00:17:28,439 --> 00:17:25,630

theories in 30 seconds thank you for

422

00:17:30,090 --> 00:17:28,449

clearing a lot of that up so move it on

423

00:17:32,669 --> 00:17:30,100

let's go to the the B block of the show

424

00:17:34,649 --> 00:17:32,679

and this is the bait pens and bringing

425

00:17:35,940 --> 00:17:34,659

the cattle and so then we get a little

426

00:17:38,909 --> 00:17:35,950

bit of the backstory they don't bring in

427

00:17:40,950 --> 00:17:38,919

these cattle and so why and without that

428

00:17:42,870 --> 00:17:40,960

I'm liking this is as we're going

429

00:17:43,770 --> 00:17:42,880

through this you know there's a lot of

430

00:17:45,060 --> 00:17:43,780

questions that we're not just gonna

431

00:17:46,560 --> 00:17:45,070

we're not gonna be able to get to

432

00:17:47,880 --> 00:17:46,570

because we've gotten so many from the

433

00:17:49,470 --> 00:17:47,890

audience and thank you guys for sending

434

00:17:50,520 --> 00:17:49,480

all this stuff in and please just you

435

00:17:53,549 --> 00:17:50,530

know if you're listening keep on sending

436

00:17:55,260 --> 00:17:53,559

stuff we're gonna have more Q&A with the

437

00:17:57,899 --> 00:17:55,270

cast and we're gonna keep this going but

438

00:17:59,880 --> 00:17:57,909

there's a bringing these cattle in like

439

00:18:03,180 --> 00:17:59,890

so why aren't there cattle on the ranch

440

00:18:04,770 --> 00:18:03,190

normally is it a cattle ranch is it not

441

00:18:07,200 --> 00:18:04,780

a cattle ranch can you explain why the

442

00:18:08,430 --> 00:18:07,210

art cattle or are there cattle I mean I

443

00:18:09,480 --> 00:18:08,440

know but I want Thomas to kind of get

444

00:18:13,919 --> 00:18:09,490

get into it a little bit more

445

00:18:16,890 --> 00:18:13,929

specifically okay you know I can't speak

446

00:18:19,889 --> 00:18:16,900

to what was done before we came on I can

447

00:18:22,730 --> 00:18:19,899

tell you that neither Brandon nor myself

448

00:18:26,240 --> 00:18:22,740

are interested in owning any cows

449

00:18:28,639 --> 00:18:26,250

around and I personally hate cows world

450

00:18:32,480 --> 00:18:28,649

but that being said they do serve a

451
00:18:33,950 --> 00:18:32,490
useful purpose and we found there's a

452
00:18:37,190 --> 00:18:33,960
couple of different reasons behind our

453
00:18:40,549 --> 00:18:37,200
logic first of all you have to feed them

454
00:18:42,110 --> 00:18:40,559
and by the time you put 40 head of cows

455
00:18:44,450 --> 00:18:42,120
on that ranch all summer

456
00:18:45,740 --> 00:18:44,460
they've grubbed it down pretty good and

457
00:18:48,980 --> 00:18:45,750
you don't want to over graze it because

458
00:18:50,750 --> 00:18:48,990
then you're hurting the land and we

459
00:18:52,639 --> 00:18:50,760
don't want to have to buy feed and feed

460
00:18:56,000 --> 00:18:52,649
them through the winter so it's easier

461
00:18:58,130 --> 00:18:56,010
for us to find a local rancher that that

462
00:19:00,529 --> 00:18:58,140
can come in and lease that bring his

463
00:19:02,840 --> 00:19:00,539

cows on we don't have to be responsible

464

00:19:04,580 --> 00:19:02,850

for for owning them and take you know

465

00:19:06,950 --> 00:19:04,590

vaccinating and branding them and all

466

00:19:09,440 --> 00:19:06,960

the things that go with cows but we get

467

00:19:11,889 --> 00:19:09,450

the benefit of making sure that ranch is

468

00:19:15,620 --> 00:19:11,899

cared for both from an environmental

469

00:19:18,950 --> 00:19:15,630

aspect you know we live in a very dry

470

00:19:21,350 --> 00:19:18,960

climate and so you get grass that's

471

00:19:23,539 --> 00:19:21,360

three feet tall that's dry and it just

472

00:19:25,549 --> 00:19:23,549

takes one spark and though you the whole

473

00:19:27,950 --> 00:19:25,559

place just goes up and so the cows help

474

00:19:29,930 --> 00:19:27,960

us keep it from becoming a fire hazard

475

00:19:32,990 --> 00:19:29,940

so we bring them on in the spring when

476

00:19:35,120 --> 00:19:33,000

the grass is sufficient to to be able to

477

00:19:37,519 --> 00:19:35,130

support the herd and then we take them

478

00:19:39,740 --> 00:19:37,529

off in the fall when they've grazed it

479

00:19:41,330 --> 00:19:39,750

down and then the other reason obviously

480

00:19:43,940 --> 00:19:41,340

we got science in there there's

481

00:19:46,279 --> 00:19:43,950

obviously lots of stories of mutilations

482

00:19:49,010 --> 00:19:46,289

that have taken place on the ranch and

483

00:19:50,810 --> 00:19:49,020

so we we want to have cows out there

484

00:19:53,779 --> 00:19:50,820

it's part of the narrative you know and

485

00:19:56,240 --> 00:19:53,789

and as much as PETA does not want me to

486

00:19:58,789 --> 00:19:56,250

say that we're looking for animals to be

487

00:20:00,409 --> 00:19:58,799

harmd for us to get into the bottom of

488

00:20:02,779 --> 00:20:00,419

this it would be nice to catch something

489

00:20:04,490 --> 00:20:02,789

in the act where we could be able to

490

00:20:06,620 --> 00:20:04,500

look at it scientifically and figure out

491

00:20:11,750 --> 00:20:06,630

what's going on which may or may not be

492

00:20:13,880 --> 00:20:11,760

happening later on in the season so so

493

00:20:17,659 --> 00:20:13,890

there's that and then obviously animals

494

00:20:20,000 --> 00:20:17,669

seem to have a sixth sense and you know

495

00:20:21,769 --> 00:20:20,010

the classic example is this latest

496

00:20:24,169 --> 00:20:21,779

episode when the rockets are firing off

497

00:20:27,289 --> 00:20:24,179

what are the animals doing not only

498

00:20:29,600 --> 00:20:27,299

during that but before and so we watch

499

00:20:31,970 --> 00:20:29,610

them very closely do they do they stick

500

00:20:34,820 --> 00:20:31,980

to one part of the ranch more than they

501
00:20:36,990 --> 00:20:34,830
go to another part when we start picking

502
00:20:39,810 --> 00:20:37,000
up RF signals say over at home

503
00:20:41,490 --> 00:20:39,820
to where the cows did they even our

504
00:20:43,380 --> 00:20:41,500
before are they still there

505
00:20:47,100 --> 00:20:43,390
so we like to watch the cattle very

506
00:20:48,450 --> 00:20:47,110
closely and monitor to see if somehow

507
00:20:51,480 --> 00:20:48,460
their biosensors are picking up

508
00:20:53,399 --> 00:20:51,490
something that can either validate what

509
00:20:58,649 --> 00:20:53,409
we're picking up on the science or if

510
00:21:01,919 --> 00:20:58,659
there's you know no you know if they

511
00:21:05,880 --> 00:21:01,929
line up and the other bringing other

512
00:21:07,470 --> 00:21:05,890
people's cattle on to is we keep talking

513
00:21:09,120 --> 00:21:07,480

about how the ranch behaves when we

514

00:21:12,630 --> 00:21:09,130

bring somebody new on our and I know

515

00:21:16,289 --> 00:21:12,640

that sounds crazy but scientifically I

516

00:21:18,299 --> 00:21:16,299

mean we can show that there seems to be

517

00:21:20,760 --> 00:21:18,309

a trend that when somebody new or

518

00:21:22,770 --> 00:21:20,770

something new comes on the ranch we see

519

00:21:25,770 --> 00:21:22,780

a spike in anomalous events that take

520

00:21:28,200 --> 00:21:25,780

place so in in every aspect that seems

521

00:21:30,480 --> 00:21:28,210

like a behavior that you know that's

522

00:21:31,919 --> 00:21:30,490

what I call it so by bringing new cattle

523

00:21:33,480 --> 00:21:31,929

not keeping the same cattle on the ranch

524

00:21:36,840 --> 00:21:33,490

all the time it also gives us the

525

00:21:39,779 --> 00:21:36,850

opportunity to we bring on different

526
00:21:42,510 --> 00:21:39,789
Hertz every summer with the hopes that

527
00:21:45,779 --> 00:21:42,520
we can keep things mixed up a little bit

528
00:21:47,940 --> 00:21:45,789
that's open question about the cows how

529
00:21:50,340 --> 00:21:47,950
long what was the time span here from

530
00:21:52,529 --> 00:21:50,350
the time the cows were brought on to the

531
00:21:55,169 --> 00:21:52,539
ranch to win you started observing them

532
00:21:57,090 --> 00:21:55,179
doing this odd behavior of huddling

533
00:22:00,510 --> 00:21:57,100
together and running to the the corners

534
00:22:02,460 --> 00:22:00,520
together that is an excellent question I

535
00:22:05,310 --> 00:22:02,470
you know I don't know if I can actually

536
00:22:08,520 --> 00:22:05,320
answer that about getting in trouble

537
00:22:10,230 --> 00:22:08,530
with TJ guide me here yeah yeah let's

538
00:22:11,010 --> 00:22:10,240

there enough you know there's there's

539

00:22:13,620 --> 00:22:11,020

some answers that are going to be

540

00:22:17,130 --> 00:22:13,630

revealed so that will kind of get those

541

00:22:18,029 --> 00:22:17,140

answers will come in time and Maureen I

542

00:22:19,529 --> 00:22:18,039

know you know we've talked about the

543

00:22:21,960 --> 00:22:19,539

literature before and the stories before

544

00:22:24,029 --> 00:22:21,970

yeah does do from what you've seen on

545

00:22:26,930 --> 00:22:24,039

the show does that kind of correspond

546

00:22:30,510 --> 00:22:26,940

with what you know of of the kettle's

547

00:22:32,100 --> 00:22:30,520

behavior on the ranch um you know I

548

00:22:34,020 --> 00:22:32,110

don't I don't know about the running

549

00:22:36,570 --> 00:22:34,030

around and I actually my question was

550

00:22:39,090 --> 00:22:36,580

the same as Jason's as well so I'll back

551
00:22:40,799 --> 00:22:39,100
away from that um no but I do have some

552
00:22:45,000 --> 00:22:40,809
theories that I can't get to yet because

553
00:22:46,620 --> 00:22:45,010
we're not in the right block but yeah

554
00:22:49,080 --> 00:22:46,630
you know it was it was a lot of weird

555
00:22:50,790 --> 00:22:49,090
behavior where the huddling you know

556
00:22:53,370 --> 00:22:50,800
even it was mentioned

557
00:22:54,600 --> 00:22:53,380
the story I mentioned a few episodes ago

558
00:22:56,970 --> 00:22:54,610
and then it was mentioned in this one

559
00:22:59,700 --> 00:22:56,980
was and I think they were actually bowls

560
00:23:02,870 --> 00:22:59,710
prized bowls that were crammed a second

561
00:23:04,980 --> 00:23:02,880
later it worked this tiny little trailer

562
00:23:06,990 --> 00:23:04,990
that made no sense and they were looking

563
00:23:09,000 --> 00:23:07,000

around for these these bowls everywhere

564

00:23:11,010 --> 00:23:09,010

like they were just here and to find

565

00:23:14,340 --> 00:23:11,020

them mashed up in the trailer was

566

00:23:17,280 --> 00:23:14,350

completely like eviscerated because you

567

00:23:19,920 --> 00:23:17,290

cram three large animals into a small

568

00:23:22,110 --> 00:23:19,930

trailer you're gonna see some damage but

569

00:23:24,750 --> 00:23:22,120

yeah I mean there there was obviously a

570

00:23:27,180 --> 00:23:24,760

lot of history of the cattle mutilation

571

00:23:30,210 --> 00:23:27,190

as well but I I don't specifically know

572

00:23:32,220 --> 00:23:30,220

about the herding behavior and the the

573

00:23:33,810 --> 00:23:32,230

prancing in the field which is kind of

574

00:23:36,210 --> 00:23:33,820

why I was wondering Jason's questions

575

00:23:37,980 --> 00:23:36,220

myself but you know what I just thought

576

00:23:41,280 --> 00:23:37,990

the way that I can answer it without

577

00:23:43,530 --> 00:23:41,290

giving anything away so we had this

578

00:23:45,960 --> 00:23:43,540

particular herd of cows on the ranch for

579

00:23:49,470 --> 00:23:45,970

the entire summer basically right clear

580

00:23:52,620 --> 00:23:49,480

we took them off I think right early

581

00:23:54,960 --> 00:23:52,630

November so we have a really really good

582

00:23:57,990 --> 00:23:54,970

baseline sample to compare that behavior

583

00:24:01,080 --> 00:23:58,000

that we saw on TV to both you know

584

00:24:03,150 --> 00:24:01,090

leading up to that and then also a huge

585

00:24:05,730 --> 00:24:03,160

sample afterwards and I will tell you

586

00:24:08,580 --> 00:24:05,740

that for the most part out of out of the

587

00:24:10,830 --> 00:24:08,590

three yeah the three herds that we've

588

00:24:12,750 --> 00:24:10,840

had on the ranch that was probably the

589

00:24:14,730 --> 00:24:12,760

calmest heard that we've had on there

590

00:24:15,660 --> 00:24:14,740

they were we didn't have any problems

591

00:24:20,490 --> 00:24:15,670

with them all summer

592

00:24:23,700 --> 00:24:20,500

they were very calm and so the behavior

593

00:24:26,880 --> 00:24:23,710

that we witnessed on the episode was

594

00:24:29,880 --> 00:24:26,890

very out of the ordinary for that reason

595

00:24:31,740 --> 00:24:29,890

now the the trailer that was there that

596

00:24:33,180 --> 00:24:31,750

we see on the show I know that we

597

00:24:34,830 --> 00:24:33,190

mentioned the the house and how there

598

00:24:38,220 --> 00:24:34,840

was locks on both sides of the doors and

599

00:24:40,320 --> 00:24:38,230

that trailer is that the same one that

600

00:24:45,060 --> 00:24:40,330

was there do you know during the during

601
00:24:46,590 --> 00:24:45,070
the duct period I'm pretty sure it is in

602
00:24:49,350 --> 00:24:46,600
fact that the Corral's have been built

603
00:24:52,320 --> 00:24:49,360
around it and so it'd be really hard to

604
00:24:54,420 --> 00:24:52,330
bring it in after the fact so I'm I'm

605
00:24:56,430 --> 00:24:54,430
pretty positive that that would be the

606
00:25:00,540 --> 00:24:56,440
same structure that they had crammed

607
00:25:01,680 --> 00:25:00,550
themselves into ya know in the next the

608
00:25:03,840 --> 00:25:01,690
next block this is kind of where we're

609
00:25:06,090 --> 00:25:03,850
starting to get to be the

610
00:25:08,010 --> 00:25:06,100
science of things with the Rockets and

611
00:25:11,360 --> 00:25:08,020
it might notice I'm like rockets what

612
00:25:13,740 --> 00:25:11,370
the f so we finally get some Rockets and

613
00:25:15,450 --> 00:25:13,750

you know Travis later you know the way

614

00:25:18,390 --> 00:25:15,460

he kind of refers to it and you guys

615

00:25:19,860 --> 00:25:18,400

kind of see kind of create a new phrase

616

00:25:21,570 --> 00:25:19,870

and I wanted to start a hashtag online

617

00:25:23,789 --> 00:25:21,580

called digging up because I thought

618

00:25:26,340 --> 00:25:23,799

there was a really cool idea because you

619

00:25:28,470 --> 00:25:26,350

start poking upward and previously it's

620

00:25:30,299 --> 00:25:28,480

like don't dig but no whatever clarify

621

00:25:31,860 --> 00:25:30,309

it if you met dig up or dig down and now

622

00:25:34,320 --> 00:25:31,870

that you're digging up there's stuff

623

00:25:35,789 --> 00:25:34,330

happening once you tell us about the

624

00:25:38,399 --> 00:25:35,799

experiments that we're kind of going on

625

00:25:40,649 --> 00:25:38,409

at the time and I know one of the

626

00:25:42,180 --> 00:25:40,659

rockets didn't quite make it just like

627

00:25:42,810 --> 00:25:42,190

the balloon didn't quite make it and it

628

00:25:47,310 --> 00:25:42,820

was never found

629

00:25:49,440 --> 00:25:47,320

right yeah so you could easily say that

630

00:25:53,640 --> 00:25:49,450

every experiment that we have done that

631

00:25:58,200 --> 00:25:53,650

starts to poke upwards we have had quite

632

00:26:00,450 --> 00:25:58,210

a number of different anomalies take

633

00:26:02,760 --> 00:26:00,460

place while that was take you know like

634

00:26:05,640 --> 00:26:02,770

with the OP the hot air balloon the hot

635

00:26:07,350 --> 00:26:05,650

air balloon the weather balloon you know

636

00:26:11,130 --> 00:26:07,360

interesting thing about that was the one

637

00:26:13,830 --> 00:26:11,140

that we let go and just let float away

638

00:26:17,840 --> 00:26:13,840

when we release that we actually had a

639

00:26:20,669 --> 00:26:17,850

pretty good westerly breeze going and I

640

00:26:21,990 --> 00:26:20,679

commented when we were doing it I hoped

641

00:26:24,810 --> 00:26:22,000

that the balloon could get to altitude

642

00:26:26,430 --> 00:26:24,820

before it reached Colorado because we're

643

00:26:29,159 --> 00:26:26,440

really wanting to get readings there on

644

00:26:32,130 --> 00:26:29,169

the ranch and with the BRIT the breeze

645

00:26:33,539 --> 00:26:32,140

was actually pretty brisk and so you

646

00:26:34,740 --> 00:26:33,549

know that there's a like a million

647

00:26:36,510 --> 00:26:34,750

things that happen on skinwalker ranch

648

00:26:38,700 --> 00:26:36,520

that you look and you're like yeah

649

00:26:41,669 --> 00:26:38,710

there's probably nothing to it but then

650

00:26:43,890 --> 00:26:41,679

on the other hand we released balloon

651
00:26:46,799 --> 00:26:43,900
and rather than taking that westerly

652
00:26:49,440 --> 00:26:46,809
breeze grabbing it and taking it off

653
00:26:51,840 --> 00:26:49,450
property it almost floats to the north

654
00:26:53,700 --> 00:26:51,850
and it goes literally right through the

655
00:26:56,700 --> 00:26:53,710
center of where we had triangulated I

656
00:26:58,770 --> 00:26:56,710
mean it was it had to been within 100

657
00:27:00,899 --> 00:26:58,780
feet of the dead center where we were

658
00:27:01,950 --> 00:27:00,909
trying elating I you know his little

659
00:27:05,220 --> 00:27:01,960
things like that that are very

660
00:27:06,690 --> 00:27:05,230
fascinating to me as to why the why he

661
00:27:08,279 --> 00:27:06,700
didn't take Kerry with the breeze and

662
00:27:10,200 --> 00:27:08,289
just head to the west maybe it got up

663
00:27:11,669 --> 00:27:10,210

and there's a North North breeze but

664

00:27:13,740 --> 00:27:11,679

almost like it was pulled that way

665

00:27:15,659 --> 00:27:13,750

almost like a yeah I was like it was

666

00:27:17,130 --> 00:27:15,669

funneled up there we're watching in it

667

00:27:19,560 --> 00:27:17,140

and it just heads right up for

668

00:27:21,210 --> 00:27:19,570

that very point when on the ground and

669

00:27:22,830 --> 00:27:21,220

now I understand like the winds aloft

670

00:27:24,930 --> 00:27:22,840

could be doing different things than the

671

00:27:26,310 --> 00:27:24,940

winds on the ground but you know the

672

00:27:28,170 --> 00:27:26,320

winds on the ground were definitely

673

00:27:31,080 --> 00:27:28,180

going to the west and the balloon took

674

00:27:33,360 --> 00:27:31,090

off and went to the north and so that

675

00:27:36,720 --> 00:27:33,370

was interesting then you get the Rockets

676
00:27:39,110 --> 00:27:36,730
and we fire off the first rocket and

677
00:27:41,640 --> 00:27:39,120
obviously the chute doesn't open and

678
00:27:45,060 --> 00:27:41,650
it's kind of funny that was Jim sigalas

679
00:27:48,420 --> 00:27:45,070
personal spectrum analyzer and he was

680
00:27:52,710 --> 00:27:48,430
kind of upset he's like maybe this is

681
00:27:54,600 --> 00:27:52,720
personal one support but the others were

682
00:27:56,250 --> 00:27:54,610
successful and what they did is they

683
00:27:59,910 --> 00:27:56,260
allowed us to get up to a higher

684
00:28:01,500 --> 00:27:59,920
altitude and get a reading for you know

685
00:28:05,450 --> 00:28:01,510
a short period of time but we're able to

686
00:28:07,980 --> 00:28:05,460
launch several of them and repeat you

687
00:28:11,400 --> 00:28:07,990
repeat the experiment and get the same

688
00:28:14,310 --> 00:28:11,410

results which is important and and it

689

00:28:16,920 --> 00:28:14,320

also reminds me that the interesting

690

00:28:18,360 --> 00:28:16,930

thing about these type of experiments is

691

00:28:20,040 --> 00:28:18,370

is that one thing we've been able to

692

00:28:24,510 --> 00:28:20,050

prove is that they're transient they're

693

00:28:25,770 --> 00:28:24,520

not there all the time so right that's

694

00:28:27,740 --> 00:28:25,780

notorious ranches notorious for that

695

00:28:30,750 --> 00:28:27,750

like the the phenomenon is is transient

696

00:28:34,200 --> 00:28:30,760

from what from everything we know of it

697

00:28:35,910 --> 00:28:34,210

at this point so the the Rockets how

698

00:28:37,920 --> 00:28:35,920

many would you say where we're launched

699

00:28:39,180 --> 00:28:37,930

throughout the Attic that time period

700

00:28:41,220 --> 00:28:39,190

because it you know on the show you

701
00:28:43,050 --> 00:28:41,230
don't get to see and I want to make this

702
00:28:44,520 --> 00:28:43,060
clear a lot of people criticize like oh

703
00:28:46,530 --> 00:28:44,530
well it doesn't look like the timing

704
00:28:48,150 --> 00:28:46,540
matched or the date the timestamp was

705
00:28:50,460 --> 00:28:48,160
wrong or there's only one rocket or

706
00:28:52,770 --> 00:28:50,470
there's a link well this is TV and so

707
00:28:56,040 --> 00:28:52,780
people have to understand like for every

708
00:28:57,780 --> 00:28:56,050
the formula is typically one minute well

709
00:28:59,460 --> 00:28:57,790
nowadays it's even longer so it used to

710
00:29:01,410 --> 00:28:59,470
be one minute of content for every 60

711
00:29:03,780 --> 00:29:01,420
minutes filmed I think that's even

712
00:29:05,490 --> 00:29:03,790
pushed longer now so meaning if you got

713
00:29:06,690 --> 00:29:05,500

a camera running for and I don't know

714

00:29:08,430 --> 00:29:06,700

what the ratio is here but let's just

715

00:29:10,500 --> 00:29:08,440

say it's four hours so every four hours

716

00:29:12,690 --> 00:29:10,510

you're getting one minute for the show

717

00:29:14,700 --> 00:29:12,700

so yet understand it's all condensed and

718

00:29:16,110 --> 00:29:14,710

just because the timelines don't

719

00:29:17,970 --> 00:29:16,120

necessarily match up in the show doesn't

720

00:29:20,070 --> 00:29:17,980

mean that it was faked or staged or

721

00:29:21,720 --> 00:29:20,080

anything it's the editing process did

722

00:29:22,680 --> 00:29:21,730

you want to make that clear because I

723

00:29:25,380 --> 00:29:22,690

know there's lot of questions about it

724

00:29:27,810 --> 00:29:25,390

no I'm not wait and it's it's also

725

00:29:30,600 --> 00:29:27,820

something to that we I've seen some

726

00:29:32,340 --> 00:29:30,610

criticisms on on the comments of all

727

00:29:34,830 --> 00:29:32,350

is that how you guys really handled

728

00:29:37,289 --> 00:29:34,840

those you know meters with the coffee

729

00:29:39,260 --> 00:29:37,299

cans or or the laser you know you're up

730

00:29:41,880 --> 00:29:39,270

there for 30 seconds trying to work on

731

00:29:43,320 --> 00:29:41,890

if that's a great point if you

732

00:29:46,110 --> 00:29:43,330

matter-of-fact with can't be seen with

733

00:29:48,480 --> 00:29:46,120

that laser like one-minute work setting

734

00:29:49,860 --> 00:29:48,490

up the camping gear and they go up on

735

00:29:51,299 --> 00:29:49,870

the hill on the next minute

736

00:29:53,310 --> 00:29:51,309

dragons sitting there saying we got a

737

00:29:55,890 --> 00:29:53,320

hurry the sun's coming up like when the

738

00:29:57,660 --> 00:29:55,900

laser went down we spent a lot of time

739

00:30:00,450 --> 00:29:57,670

trying to get that stupid thing to work

740

00:30:02,820 --> 00:30:00,460

every you know we've tried the batteries

741

00:30:06,419 --> 00:30:02,830

we try we tried everything and and it is

742

00:30:08,580 --> 00:30:06,429

time-consuming and look hours hours of

743

00:30:11,340 --> 00:30:08,590

time not minutes hours at the end of the

744

00:30:13,530 --> 00:30:11,350

day you want sexy right and so sometimes

745

00:30:15,870 --> 00:30:13,540

science doesn't provide the sexiest

746

00:30:17,340 --> 00:30:15,880

shots and there were even times to like

747

00:30:20,010 --> 00:30:17,350

you'll see time stamps on the cameras

748

00:30:22,770 --> 00:30:20,020

where when we're dealing with RF signals

749

00:30:25,470 --> 00:30:22,780

well we've got cameras going we've got

750

00:30:28,409 --> 00:30:25,480

microphone audio equipment going they

751
00:30:30,570 --> 00:30:28,419
produce signals themselves and so when

752
00:30:32,100 --> 00:30:30,580
we're picking up these anomalies there

753
00:30:34,289 --> 00:30:32,110
were times where the scientists would

754
00:30:36,120 --> 00:30:34,299
make them turn everything off because we

755
00:30:38,190 --> 00:30:36,130
had to differentiate between what we

756
00:30:41,159 --> 00:30:38,200
were producing and what we were picking

757
00:30:43,320 --> 00:30:41,169
up from whatever it was we were picking

758
00:30:45,600 --> 00:30:43,330
up up and and they didn't want that

759
00:30:47,730 --> 00:30:45,610
interference from the camera equipment

760
00:30:49,140 --> 00:30:47,740
and microphone equipment so obviously if

761
00:30:50,460 --> 00:30:49,150
you got to take the cameras down for a

762
00:30:52,169 --> 00:30:50,470
few minutes so that they can get a

763
00:30:54,450 --> 00:30:52,179

bearing on what's going on without the

764

00:30:57,510 --> 00:30:54,460

interference from all of this outside

765

00:30:58,799 --> 00:30:57,520

the stuff we're producing when you bring

766

00:30:59,909 --> 00:30:58,809

them up there's going to be a difference

767

00:31:02,010 --> 00:30:59,919

the shadows are gonna be in a different

768

00:31:04,440 --> 00:31:02,020

place and so forth so absolutely there's

769

00:31:06,840 --> 00:31:04,450

a lot of production that goes in to God

770

00:31:11,070 --> 00:31:06,850

your TV script your TV show is screwing

771

00:31:13,169 --> 00:31:11,080

up the science TJ right come on science

772

00:31:14,669 --> 00:31:13,179

damn it no science and the [h__h] out of

773

00:31:16,260 --> 00:31:14,679

stuff and if you know science

774

00:31:18,930 --> 00:31:16,270

observational science takes a long time

775

00:31:20,220 --> 00:31:18,940

and you know you you have to wait and

776

00:31:23,190 --> 00:31:20,230

wait and wait and you might get that one

777

00:31:25,500 --> 00:31:23,200

second of content and just you know

778

00:31:27,750 --> 00:31:25,510

can't stress enough nothing is staged

779

00:31:29,190 --> 00:31:27,760

this is what's happening it just takes a

780

00:31:30,570 --> 00:31:29,200

long time to get this stuff so he said

781

00:31:32,190 --> 00:31:30,580

shadows might be off things might be

782

00:31:34,110 --> 00:31:32,200

different then you didn't you would

783

00:31:35,700 --> 00:31:34,120

think in the time timeline but it is in

784

00:31:37,440 --> 00:31:35,710

fact really what had happened Maureen I

785

00:31:39,270 --> 00:31:37,450

know you wanted to comment on something

786

00:31:39,810 --> 00:31:39,280

was this the block you wanted to comment

787

00:31:42,900 --> 00:31:39,820

on

788

00:31:43,670 --> 00:31:42,910

well you haven't gotten to the the UFO

789

00:31:45,470 --> 00:31:43,680

yet

790

00:31:50,870 --> 00:31:45,480

screw it let's go so next we come back

791

00:31:53,000 --> 00:31:50,880

and it's our youth Oh Oh Miley worry

792

00:31:54,710 --> 00:31:53,010

worry what do you want it's like I want

793

00:31:56,930 --> 00:31:54,720

I'm going to leave this one lead the

794

00:31:59,300 --> 00:31:56,940

charge here did you thought well cuz I

795

00:32:00,980 --> 00:31:59,310

just you know I find it interesting and

796

00:32:04,040 --> 00:32:00,990

before anybody jumps down my throat

797

00:32:05,870 --> 00:32:04,050

saying that I'm being too much of a

798

00:32:07,940 --> 00:32:05,880

debunker cuz I'm not trying to debunk it

799

00:32:11,660 --> 00:32:07,950

it's unidentified I don't know what it

800

00:32:13,400 --> 00:32:11,670

is but I do have some like basic project

801
00:32:16,520 --> 00:32:13,410
Bluebook theories that it's interesting

802
00:32:19,730 --> 00:32:16,530
that it does behave a bit like ball

803
00:32:21,230 --> 00:32:19,740
lightning and but you know it's I

804
00:32:24,700 --> 00:32:21,240
understand it's a beautiful sunny day

805
00:32:28,400 --> 00:32:24,710
that's not been unknown to happen so I

806
00:32:30,080 --> 00:32:28,410
had a theory that that maybe if there

807
00:32:32,060 --> 00:32:30,090
was some sort of I don't know if you've

808
00:32:34,970 --> 00:32:32,070
gone in too heavy into a meteorological

809
00:32:38,720 --> 00:32:34,980
data for that time period if there was

810
00:32:41,240 --> 00:32:38,730
some sort of electric current going

811
00:32:44,810 --> 00:32:41,250
through the sky at that time that would

812
00:32:47,060 --> 00:32:44,820
also kind of maybe possibly relate to

813
00:32:50,210 --> 00:32:47,070

gamma hits and then freak out the cows

814

00:32:52,160 --> 00:32:50,220

so that was kind of my thought it is

815

00:32:53,870 --> 00:32:52,170

great we have Thomas to address this ya

816

00:32:55,490 --> 00:32:53,880

know Thomas what do you think what do

817

00:32:57,140 --> 00:32:55,500

you think of Murray's theory and tell us

818

00:32:58,060 --> 00:32:57,150

about the whole experience what was what

819

00:33:02,600 --> 00:32:58,070

was happening

820

00:33:06,020 --> 00:33:02,610

it was like ah yeah so we we saw it

821

00:33:10,640 --> 00:33:06,030

multiple times and the interesting thing

822

00:33:13,370 --> 00:33:10,650

was is that look I don't think that

823

00:33:16,400 --> 00:33:13,380

anyone can say 100% definitively it was

824

00:33:18,620 --> 00:33:16,410

this or as that so your theory I think

825

00:33:20,440 --> 00:33:18,630

it has to be in play until you can prove

826

00:33:24,470 --> 00:33:20,450

otherwise

827

00:33:27,320 --> 00:33:24,480

that being said I'll just say that when

828

00:33:31,100 --> 00:33:27,330

we went back and analyzed the footage

829

00:33:36,920 --> 00:33:31,110

closer we were able to pick up

830

00:33:39,020 --> 00:33:36,930

additional ones and I'd you know it's

831

00:33:40,760 --> 00:33:39,030

hard because we're at four and we're

832

00:33:42,380 --> 00:33:40,770

getting there we're getting the rest of

833

00:33:44,270 --> 00:33:42,390

them so I don't know if they're like

834

00:33:46,460 --> 00:33:44,280

gonna circle back and show additional

835

00:33:47,600 --> 00:33:46,470

I've told some people let's get eight

836

00:33:49,640 --> 00:33:47,610

out and then I'll know what I could say

837

00:33:51,110 --> 00:33:49,650

what I can't so let me say this before

838

00:33:53,870 --> 00:33:51,120

we keep going let's to say this so we

839

00:33:56,509 --> 00:33:53,880

you know what happens we know well you

840

00:33:58,430 --> 00:33:56,519

know but we know what happens and

841

00:34:00,529 --> 00:33:58,440

I think that if we continue to get

842

00:34:02,419 --> 00:34:00,539

people to watch the show and we go to

843

00:34:05,209 --> 00:34:02,429

season 2 I think we're gonna get a lot

844

00:34:07,339 --> 00:34:05,219

more answer so this is watch the show

845

00:34:09,289 --> 00:34:07,349

Tuesday nights 10 o'clock except for

846

00:34:11,839 --> 00:34:09,299

this this week they'll be back on May

847

00:34:12,980 --> 00:34:11,849

5th Seco de Mayo so we can get some more

848

00:34:14,750 --> 00:34:12,990

answers from Thomas because I think

849

00:34:16,579 --> 00:34:14,760

we're going to get to that we do circle

850

00:34:18,319 --> 00:34:16,589

back to stuff but it's on I think

851
00:34:20,569 --> 00:34:18,329
without giving out too much info Thomas

852
00:34:24,139 --> 00:34:20,579
I think I mean you kind of vaguely

853
00:34:26,419 --> 00:34:24,149
described yes there's it has to be

854
00:34:29,089 --> 00:34:26,429
identified before we say it's

855
00:34:30,409 --> 00:34:29,099
unidentified or has to be unidentified

856
00:34:33,409 --> 00:34:30,419
until we say it is identified I should

857
00:34:35,510 --> 00:34:33,419
say I mean that's just just one one

858
00:34:39,220 --> 00:34:35,520
theory because I am NOT a scientist it

859
00:34:43,159 --> 00:34:39,230
was just one ball park ball I was

860
00:34:45,919 --> 00:34:43,169
speaking to that that a week before we

861
00:34:47,389 --> 00:34:45,929
saw that that the week before he caught

862
00:34:50,000 --> 00:34:47,399
that I was actually with another

863
00:34:52,519 --> 00:34:50,010

individual and we were out on the south

864

00:34:55,730 --> 00:34:52,529

side we looked up there was a contrail

865

00:34:57,609 --> 00:34:55,740

across the sky from a jet and literally

866

00:35:00,440 --> 00:34:57,619

saw a craft that looked almost identical

867

00:35:03,079 --> 00:35:00,450

why I'm calling it a craft right I saw

868

00:35:06,130 --> 00:35:03,089

an object that looked identical to what

869

00:35:08,660 --> 00:35:06,140

we saw with what we showed on episode 4

870

00:35:12,620 --> 00:35:08,670

then actually darted out from the

871

00:35:15,589 --> 00:35:12,630

contrail and was there for maybe 2

872

00:35:17,059 --> 00:35:15,599

seconds and then darted back in moved

873

00:35:19,190 --> 00:35:17,069

back behind the contra where you

874

00:35:21,470 --> 00:35:19,200

couldn't see so I don't know what the

875

00:35:23,750 --> 00:35:21,480

behavior of what it is you're speaking

876

00:35:26,210 --> 00:35:23,760

of but I do know like it came out an

877

00:35:28,519 --> 00:35:26,220

inch from the contrail up in this guy

878

00:35:30,260 --> 00:35:28,529

and then it then it moved back in and it

879

00:35:36,859 --> 00:35:30,270

was really ratchet Jay so are your

880

00:35:40,460 --> 00:35:36,869

thoughts but you know it's it's it's

881

00:35:42,200 --> 00:35:40,470

incredibly fascinating to see on the

882

00:35:46,039 --> 00:35:42,210

screen what it does with it's

883

00:35:48,109 --> 00:35:46,049

disappearing behavior it's also

884

00:35:50,299 --> 00:35:48,119

fascinating that there were multiple

885

00:35:53,089 --> 00:35:50,309

witnesses there who all saw the same

886

00:35:55,190 --> 00:35:53,099

thing right so this is these are great

887

00:35:57,500 --> 00:35:55,200

things and many who are scientists so

888

00:35:59,599 --> 00:35:57,510

you know you've got really good things

889

00:36:02,329 --> 00:35:59,609

here that you don't typically get with

890

00:36:04,940 --> 00:36:02,339

the UFO sighting you also captured it on

891

00:36:07,640 --> 00:36:04,950

video something that you can go back and

892

00:36:10,250 --> 00:36:07,650

analyze plus you've got Eric with all of

893

00:36:11,870 --> 00:36:10,260

the gadgets going on in the control room

894

00:36:13,100 --> 00:36:11,880

and checking flight data and all of

895

00:36:15,620 --> 00:36:13,110

these things to rule out other

896

00:36:18,680 --> 00:36:15,630

possibilities so you're really set up

897

00:36:20,840 --> 00:36:18,690

here with an unusual situation when it

898

00:36:25,610 --> 00:36:20,850

comes to UFO sightings to be able to

899

00:36:27,410 --> 00:36:25,620

rule out the possible identity other

900

00:36:29,660 --> 00:36:27,420

identities for these things right and

901
00:36:30,710 --> 00:36:29,670
your left with with more mystery I mean

902
00:36:33,170 --> 00:36:30,720
when you start feeling about the layers

903
00:36:35,180 --> 00:36:33,180
so I like it I'm hoping we get to see

904
00:36:37,070 --> 00:36:35,190
more with that because we've got a lot

905
00:36:40,190 --> 00:36:37,080
of data to work with Here I am a

906
00:36:41,600 --> 00:36:40,200
question for you sorry real quick is do

907
00:36:43,100 --> 00:36:41,610
you feel I know the Sun was in

908
00:36:44,930 --> 00:36:43,110
everyone's eyes so it was very hard to

909
00:36:48,680 --> 00:36:44,940
see do you feel like it was more of a

910
00:36:49,990 --> 00:36:48,690
like solid metallic sort of look or do

911
00:36:52,490 --> 00:36:50,000
you think it was more translucent

912
00:36:54,890 --> 00:36:52,500
translucent cuz I know over the course

913
00:36:57,410 --> 00:36:54,900

of the years this is a very frequently

914

00:37:01,040 --> 00:36:57,420

reported type of UFO but also there's

915

00:37:02,510 --> 00:37:01,050

been a biological UFOs what that people

916

00:37:04,340 --> 00:37:02,520

call them reported where they're more

917

00:37:05,600 --> 00:37:04,350

like the same shape and they kind of

918

00:37:07,610 --> 00:37:05,610

have that look but they're they look

919

00:37:11,870 --> 00:37:07,620

seem like they're more translucent and

920

00:37:14,570 --> 00:37:11,880

moving like an entity almost yeah so my

921

00:37:15,830 --> 00:37:14,580

personal opinion what I saw I'm not

922

00:37:19,970 --> 00:37:15,840

gonna speak for the other individuals

923

00:37:23,690 --> 00:37:19,980

but for my interpretation what I saw it

924

00:37:25,250 --> 00:37:23,700

was more translucent nice so I mean what

925

00:37:27,260 --> 00:37:25,260

I really like is the fact that you know

926

00:37:29,510 --> 00:37:27,270

you have this this object you see or

927

00:37:30,890 --> 00:37:29,520

these objects and we see them as well

928

00:37:32,810 --> 00:37:30,900

well you see them at least twice on

929

00:37:35,270 --> 00:37:32,820

camera and they're different ones so

930

00:37:37,100 --> 00:37:35,280

going from the D block to the e block I

931

00:37:39,230 --> 00:37:37,110

mean what I love is you guys just press

932

00:37:40,760 --> 00:37:39,240

on with like let's shoot more rockets

933

00:37:42,800 --> 00:37:40,770

let's get more data let's just continue

934

00:37:44,600 --> 00:37:42,810

what we're doing and not stop and like

935

00:37:46,400 --> 00:37:44,610

oh my god we saw this let's all go

936

00:37:48,620 --> 00:37:46,410

inside and watch no you had a job to do

937

00:37:50,390 --> 00:37:48,630

I mean a lot of people you're fascinated

938

00:37:52,490 --> 00:37:50,400

by this and people would be in awe I

939

00:37:53,960 --> 00:37:52,500

mean I know when I've seen stuff or if I

940

00:37:54,830 --> 00:37:53,970

had seen that there I'd be like okay I'm

941

00:37:57,170 --> 00:37:54,840

done with the rock and Sysco see what

942

00:38:00,140 --> 00:37:57,180

this was but so your guys credit like

943

00:38:03,530 --> 00:38:00,150

hey you kept going and it happened more

944

00:38:06,050 --> 00:38:03,540

I mean there were more yeah right I love

945

00:38:07,880 --> 00:38:06,060

your nut you know having I mean in

946

00:38:09,650 --> 00:38:07,890

Travis Eddy so look stuffs happening now

947

00:38:11,960 --> 00:38:09,660

so now we want to get our stuff up but

948

00:38:13,850 --> 00:38:11,970

because it's there so that was really

949

00:38:15,650 --> 00:38:13,860

cool to see and I feel like I have to

950

00:38:18,260 --> 00:38:15,660

come to Travis's defense here a little

951
00:38:22,040 --> 00:38:18,270
bit because you know some people are

952
00:38:24,770 --> 00:38:22,050
hating on his UFO phrasing but

953
00:38:26,990 --> 00:38:24,780
you know as jarring as that sounds and I

954
00:38:30,170 --> 00:38:27,000
will never use that term that is the

955
00:38:31,190 --> 00:38:30,180
correct pronunciation of UFO is it

956
00:38:33,530 --> 00:38:31,200
really I'd ever do that

957
00:38:35,780 --> 00:38:33,540
yeah Captain Edward ruppelt who coined

958
00:38:38,390 --> 00:38:35,790
the term UFO from the Air Force's

959
00:38:41,450 --> 00:38:38,400
Project Blue Book specified that that's

960
00:38:42,200 --> 00:38:41,460
how you pronounce UFO it's UFO that's

961
00:38:44,180 --> 00:38:42,210
awesome

962
00:38:45,740 --> 00:38:44,190
leave it to Travis to be the only one

963
00:38:50,270 --> 00:38:45,750

who can pronounce it easy I think that

964

00:39:00,830 --> 00:38:50,280

was more of a southern thing but nobody

965

00:39:03,530 --> 00:39:00,840

telling that so the next the next

966

00:39:04,490 --> 00:39:03,540

barrage of rockets and the you know

967

00:39:06,859 --> 00:39:04,500

they're going off you're collecting data

968

00:39:10,370 --> 00:39:06,869

and then another one shows up just like

969

00:39:11,690 --> 00:39:10,380

again and Dragan starts to feel ill did

970

00:39:13,600 --> 00:39:11,700

anyone else feel that what was going on

971

00:39:19,400 --> 00:39:13,610

and didn't need anyone else's sensors

972

00:39:25,010 --> 00:39:19,410

react yeah so when he indicated that he

973

00:39:26,660 --> 00:39:25,020

was filling a little bit off uh like the

974

00:39:28,609 --> 00:39:26,670

rest of us I at least I could count for

975

00:39:29,960 --> 00:39:28,619

myself and I know a couple the others

976

00:39:32,000 --> 00:39:29,970

were there you automatically start

977

00:39:35,630 --> 00:39:32,010

looking at your own like whoa am i doing

978

00:39:37,190 --> 00:39:35,640

anything weird and to my knowledge he

979

00:39:41,480 --> 00:39:37,200

was the only one that was really

980

00:39:43,849 --> 00:39:41,490

reacting that way at that point so you

981

00:39:46,609 --> 00:39:43,859

know I personally didn't feel anything

982

00:39:48,440 --> 00:39:46,619

which is nice for a change yeah he

983

00:39:50,480 --> 00:39:48,450

seemed like he was he was probably the

984

00:39:52,940 --> 00:39:50,490

most shocked and flabbergasted out of

985

00:39:55,550 --> 00:39:52,950

everyone about seeing it so I think yeah

986

00:39:58,310 --> 00:39:55,560

that probably could cause a big spike in

987

00:40:00,380 --> 00:39:58,320

the heart rate I'm not sure about the

988

00:40:04,609 --> 00:40:00,390

nausea but but I could see like he

989

00:40:05,810 --> 00:40:04,619

seemed to be the most taken aback none

990

00:40:07,670 --> 00:40:05,820

of this kind of the cats out of the bag

991

00:40:10,070 --> 00:40:07,680

you know we'll get him back on here to

992

00:40:12,190 --> 00:40:10,080

get a little insight you know we can

993

00:40:14,330 --> 00:40:12,200

into his experience it'll be awesome so

994

00:40:17,170 --> 00:40:14,340

Jason what do you think of the the

995

00:40:19,730 --> 00:40:17,180

centers I mean like you said earlier the

996

00:40:23,240 --> 00:40:19,740

how unusual it is because you have all

997

00:40:24,920 --> 00:40:23,250

of this this tech going and personally I

998

00:40:25,820 --> 00:40:24,930

don't know and you guys correct me if

999

00:40:27,320 --> 00:40:25,830

I'm wrong but I don't know of any other

1000

00:40:29,240 --> 00:40:27,330

sightings that have this kind of

1001
00:40:32,410 --> 00:40:29,250
corroborating data around it like this

1002
00:40:35,240 --> 00:40:32,420
does this amount of evidence or data

1003
00:40:37,970 --> 00:40:35,250
that they're collecting and we

1004
00:40:39,740 --> 00:40:37,980
as the viewers or there's not the people

1005
00:40:41,150 --> 00:40:39,750
that are actually there are getting to

1006
00:40:42,380 --> 00:40:41,160
see this like normally when something

1007
00:40:44,000 --> 00:40:42,390
like this happens people claim there's

1008
00:40:45,560 --> 00:40:44,010
this that any other but we don't know

1009
00:40:47,810 --> 00:40:45,570
that's true like here we are witnessing

1010
00:40:49,790 --> 00:40:47,820
it so I mean Jason I wanna know what you

1011
00:40:51,050 --> 00:40:49,800
think what your thoughts are on on this

1012
00:40:52,310 --> 00:40:51,060
because it's kind of a unique you know

1013
00:40:54,620 --> 00:40:52,320

like you said it's unique situation but

1014

00:40:57,620 --> 00:40:54,630

is there anything else that even is

1015

00:40:59,810 --> 00:40:57,630

close to this did you know you're right

1016

00:41:02,360 --> 00:40:59,820

I mean it is an incredibly exciting

1017

00:41:04,910 --> 00:41:02,370

thing to sort of be an audience member

1018

00:41:07,520 --> 00:41:04,920

and experience this to go on the journey

1019

00:41:09,770 --> 00:41:07,530

with the team there as as they're

1020

00:41:13,670 --> 00:41:09,780

discovering this in and acquiring data

1021

00:41:15,920 --> 00:41:13,680

at the same time it's it's highly

1022

00:41:18,890 --> 00:41:15,930

unusual there are other cases that do

1023

00:41:22,150 --> 00:41:18,900

have sort of a wealth of of data points

1024

00:41:24,200 --> 00:41:22,160

to work with those are typically like

1025

00:41:27,770 --> 00:41:24,210

sightings that involve commercial

1026

00:41:31,280 --> 00:41:27,780

aircraft or military aircraft and even

1027

00:41:33,350 --> 00:41:31,290

those you know UFO yeah so with these

1028

00:41:35,420 --> 00:41:33,360

you get you know sometimes you get video

1029

00:41:39,880 --> 00:41:35,430

from military sources but you certainly

1030

00:41:43,310 --> 00:41:39,890

get air traffic control data and and the

1031

00:41:45,860 --> 00:41:43,320

the audio dialogue that happens between

1032

00:41:47,510 --> 00:41:45,870

planes and ground control while they're

1033

00:41:49,520 --> 00:41:47,520

trying to work out these sightings and

1034

00:41:51,410 --> 00:41:49,530

they're calculating positioning and and

1035

00:41:52,820 --> 00:41:51,420

altitude and things like that where

1036

00:41:54,800 --> 00:41:52,830

they've got multiple data points to work

1037

00:41:57,350 --> 00:41:54,810

with but it really doesn't happen that

1038

00:42:00,440 --> 00:41:57,360

often certainly not when you've got the

1039

00:42:03,140 --> 00:42:00,450

video to go along with it you know from

1040

00:42:04,730 --> 00:42:03,150

from the ground vantage point so I mean

1041

00:42:06,470 --> 00:42:04,740

this is really cool and like I said I

1042

00:42:09,050 --> 00:42:06,480

mean having all these data points I'm

1043

00:42:11,230 --> 00:42:09,060

exciting excited to see you know what

1044

00:42:14,480 --> 00:42:11,240

comes of it now before we move on

1045

00:42:16,100 --> 00:42:14,490

because Jay Thomas I mean you know Jason

1046

00:42:17,750 --> 00:42:16,110

and Maureen have a at least a lot more

1047

00:42:19,670 --> 00:42:17,760

experience than I do in this in this

1048

00:42:21,980 --> 00:42:19,680

realm and I kind of defer to then a lot

1049

00:42:25,760 --> 00:42:21,990

of times and I know you as well like you

1050

00:42:27,290 --> 00:42:25,770

weren't a you know a UFO buff or you

1051
00:42:30,410 --> 00:42:27,300
know it wasn't something that you were

1052
00:42:32,630 --> 00:42:30,420
actively seeking out but for the two of

1053
00:42:34,430 --> 00:42:32,640
you if and and I think that this is

1054
00:42:36,620 --> 00:42:34,440
gonna play to a lot of questions that

1055
00:42:38,660 --> 00:42:36,630
we'll get to later but if there was

1056
00:42:41,240 --> 00:42:38,670
another piece of information that you

1057
00:42:42,500 --> 00:42:41,250
could have acquired during this what

1058
00:42:44,150 --> 00:42:42,510
would it be I want to hear what both of

1059
00:42:45,380 --> 00:42:44,160
you as I say like what would be that one

1060
00:42:48,860 --> 00:42:45,390
other piece that could kind of round

1061
00:42:50,690 --> 00:42:48,870
this out and make you be like holy [h__h]

1062
00:42:52,160 --> 00:42:50,700
this is what this is what I've been

1063
00:42:54,230 --> 00:42:52,170

wanting to see like what would have been

1064

00:42:55,940 --> 00:42:54,240

besides somebody opening a window and

1065

00:42:58,190 --> 00:42:55,950

being like hey what's up out of the the

1066

00:43:00,500 --> 00:42:58,200

youth oh what what other pieces don't

1067

00:43:04,040 --> 00:43:00,510

start saying that I'm just I'm obviously

1068

00:43:05,930 --> 00:43:04,050

I'm features here the but what would

1069

00:43:08,030 --> 00:43:05,940

that other that other piece of info be

1070

00:43:09,770 --> 00:43:08,040

that you guys would say hey you know out

1071

00:43:11,720 --> 00:43:09,780

of all our experience it would be great

1072

00:43:13,730 --> 00:43:11,730

if we had this because I know Eric would

1073

00:43:15,260 --> 00:43:13,740

love to know this kind of infill as well

1074

00:43:16,820 --> 00:43:15,270

I mean it's something that these guys

1075

00:43:18,290 --> 00:43:16,830

will process and potentially you know

1076

00:43:20,870 --> 00:43:18,300

can implement if if they think it's

1077

00:43:22,790 --> 00:43:20,880

necessary or useful I mean I think

1078

00:43:25,070 --> 00:43:22,800

there's there's a lot of different

1079

00:43:26,600 --> 00:43:25,080

things that would be helpful to have but

1080

00:43:29,030 --> 00:43:26,610

I'm sure that a lot of this we're just

1081

00:43:30,710 --> 00:43:29,040

not seen now so I don't really want to

1082

00:43:32,690 --> 00:43:30,720

answer that question without seeing like

1083

00:43:37,430 --> 00:43:32,700

a full report of the scientific study

1084

00:43:40,810 --> 00:43:37,440

done personally okay I feel like Jason's

1085

00:43:43,550 --> 00:43:40,820

gonna say yeah ditto ditto

1086

00:43:45,140 --> 00:43:43,560

that's that's the the smart move here I

1087

00:43:47,510 --> 00:43:45,150

mean we know that there's so much more

1088

00:43:50,060 --> 00:43:47,520

going on with this investigation that we

1089

00:43:52,700 --> 00:43:50,070

haven't seen yet so it's hard to comment

1090

00:43:54,800 --> 00:43:52,710

on but something like I just mentioned

1091

00:43:57,620 --> 00:43:54,810

along the same lines is you know there

1092

00:43:59,920 --> 00:43:57,630

was other air traffic in the sky at the

1093

00:44:02,830 --> 00:43:59,930

same time so with some of these

1094

00:44:05,630 --> 00:44:02,840

sightings that happen that involve

1095

00:44:07,070 --> 00:44:05,640

commercial air traffic you know it's

1096

00:44:08,450 --> 00:44:07,080

interesting it would it would be

1097

00:44:10,850 --> 00:44:08,460

interesting in this case to have been

1098

00:44:13,400 --> 00:44:10,860

able to communicate with that plane and

1099

00:44:15,620 --> 00:44:13,410

see if they were able to visually sight

1100

00:44:20,570 --> 00:44:15,630

anything perspective yeah I totally

1101
00:44:23,660 --> 00:44:20,580
forgot I wrote down that question this

1102
00:44:26,360 --> 00:44:23,670
other jet to see if you saw anything so

1103
00:44:27,920 --> 00:44:26,370
thanks Jason Thomas so going into the

1104
00:44:29,540 --> 00:44:27,930
next block this is the part where you

1105
00:44:30,800 --> 00:44:29,550
guys are all sitting around the F block

1106
00:44:32,150 --> 00:44:30,810
you're sitting around you start

1107
00:44:33,260 --> 00:44:32,160
discussing the data you know you're

1108
00:44:34,940 --> 00:44:33,270
going over stuff you're in the command

1109
00:44:39,770 --> 00:44:34,950
center and speaking to what they were

1110
00:44:40,850 --> 00:44:39,780
both just saying Jason marine what what

1111
00:44:42,110 --> 00:44:40,860
was going through people's minds what

1112
00:44:43,850 --> 00:44:42,120
were the reactions that we didn't get to

1113
00:44:45,350 --> 00:44:43,860

see and if you want to address anything

1114

00:44:46,790 --> 00:44:45,360

that we just talked about like in terms

1115

00:44:49,550 --> 00:44:46,800

of other data points that were not aware

1116

00:44:51,290 --> 00:44:49,560

of or the the air traffic control like

1117

00:44:52,940 --> 00:44:51,300

you know these criticisms that people

1118

00:44:54,560 --> 00:44:52,950

have thrown out online like hey it could

1119

00:44:55,940 --> 00:44:54,570

have been this could've been that just

1120

00:44:57,410 --> 00:44:55,950

because you don't have the tail number

1121

00:44:59,660 --> 00:44:57,420

doesn't mean that it wasn't an aircraft

1122

00:45:00,800 --> 00:44:59,670

not all aircraft has if it's military

1123

00:45:03,680 --> 00:45:00,810

you may not have a tail

1124

00:45:06,680 --> 00:45:03,690

on it so what do you think what can you

1125

00:45:11,600 --> 00:45:06,690

say about this stuff yeah so we actually

1126
00:45:17,150 --> 00:45:11,610
have multiple different sources that we

1127
00:45:18,830 --> 00:45:17,160
use to identify aircraft both on we have

1128
00:45:21,080 --> 00:45:18,840
a transponder both on the ranch and then

1129
00:45:23,270 --> 00:45:21,090
we have we subscribe to other services

1130
00:45:25,940 --> 00:45:23,280
as well that provide that information

1131
00:45:28,340 --> 00:45:25,950
and so we always are looking at multiple

1132
00:45:31,790 --> 00:45:28,350
sources to try to identify and the right

1133
00:45:33,830 --> 00:45:31,800
like they're matter of fact we see it

1134
00:45:36,740 --> 00:45:33,840
quite often where we will see aircraft

1135
00:45:41,150 --> 00:45:36,750
come across the airspace that do not

1136
00:45:42,710 --> 00:45:41,160
they're not transponding now can you do

1137
00:45:45,170 --> 00:45:42,720
a quick tell us about that I know that

1138
00:45:47,180 --> 00:45:45,180

Eric is his own transponder right the

1139

00:45:48,140 --> 00:45:47,190

transponder I mean I will get him to

1140

00:45:49,400 --> 00:45:48,150

talk about it as well but the

1141

00:45:50,240 --> 00:45:49,410

transponder that you guys are using one

1142

00:45:53,120 --> 00:45:50,250

of them anyway

1143

00:45:56,840 --> 00:45:53,130

to ping to ping the tail numbers it's he

1144

00:45:58,060 --> 00:45:56,850

built that yeah I'm not sure Eric's like

1145

00:46:02,030 --> 00:45:58,070

the MacGyver of

1146

00:46:04,820 --> 00:46:02,040

this guy literally can pull stuff out

1147

00:46:06,590 --> 00:46:04,830

and make fit he is one of most brilliant

1148

00:46:08,540 --> 00:46:06,600

human beings I've ever been around and

1149

00:46:10,880 --> 00:46:08,550

he is a guy that literally so

1150

00:46:13,940 --> 00:46:10,890

well-versed in so many any areas that I

1151
00:46:17,300 --> 00:46:13,950
mean he I go in that lab and watch him

1152
00:46:20,060 --> 00:46:17,310
put together equipment and sensors and

1153
00:46:21,860 --> 00:46:20,070
different things he'll buy sensor then

1154
00:46:23,810 --> 00:46:21,870
he'll he'll find things he doesn't like

1155
00:46:27,260 --> 00:46:23,820
about it I'll tear apart modify it and

1156
00:46:30,440 --> 00:46:27,270
test it but I mean he's really that way

1157
00:46:31,340 --> 00:46:30,450
so I did to talk to him next week we're

1158
00:46:33,350 --> 00:46:31,350
gonna have it so everyone knows it

1159
00:46:34,610 --> 00:46:33,360
actually to be on the show next week and

1160
00:46:36,260 --> 00:46:34,620
we're gonna start taking questions for

1161
00:46:37,910 --> 00:46:36,270
him but you know we'll let him speak to

1162
00:46:39,920 --> 00:46:37,920
that stuff but go on tell us about you

1163
00:46:41,420 --> 00:46:39,930

know what you were saying about the

1164

00:46:43,940 --> 00:46:41,430

aircraft you you've seen other aircraft

1165

00:46:46,160 --> 00:46:43,950

without tails numbers I mean we have

1166

00:46:49,090 --> 00:46:46,170

seen other aircraft come across the

1167

00:46:53,930 --> 00:46:49,100

airspace that are not sending out a

1168

00:46:55,400 --> 00:46:53,940

transponding signal that does happen so

1169

00:46:57,500 --> 00:46:55,410

you always have to take that into

1170

00:46:59,420 --> 00:46:57,510

account so then the next thing that you

1171

00:47:01,940 --> 00:46:59,430

have to look at and this is really what

1172

00:47:03,590 --> 00:47:01,950

starts throwing us off is well is it if

1173

00:47:06,320 --> 00:47:03,600

it's an aircraft and obviously it's

1174

00:47:08,900 --> 00:47:06,330

going to be moving and behaving like an

1175

00:47:12,260 --> 00:47:08,910

aircraft whether it's a helicopter or a

1176
00:47:14,780 --> 00:47:12,270
plane and so what was nice about the one

1177
00:47:18,080 --> 00:47:14,790
sighting that we had is we actually had

1178
00:47:20,930 --> 00:47:18,090
aircraft right there next to it to to

1179
00:47:22,940 --> 00:47:20,940
place it against and so then you're

1180
00:47:25,460 --> 00:47:22,950
looking at the movement behavior of it

1181
00:47:28,220 --> 00:47:25,470
and that's you know Travis had a hard

1182
00:47:30,020 --> 00:47:28,230
time I originally thought it was a plane

1183
00:47:34,070 --> 00:47:30,030
I thought that what we were seeing was

1184
00:47:36,590 --> 00:47:34,080
maybe the Sun glinting off of a jet I've

1185
00:47:38,810 --> 00:47:36,600
seen it before and and it does look

1186
00:47:44,270 --> 00:47:38,820
similar but the behavior and the and the

1187
00:47:46,180 --> 00:47:44,280
movement of it was not it wasn't didn't

1188
00:47:49,160 --> 00:47:46,190

lean to that theory it was an aircraft

1189

00:47:51,950 --> 00:47:49,170

okay at least not a plane that that

1190

00:47:54,710 --> 00:47:51,960

travels and behaves the way that what

1191

00:47:56,000 --> 00:47:54,720

we'd expect to see okay so now you guys

1192

00:47:57,170 --> 00:47:56,010

are sitting in the in the room and

1193

00:47:59,390 --> 00:47:57,180

you're obviously having that discussion

1194

00:48:01,850 --> 00:47:59,400

and then talking about the I think it

1195

00:48:05,030 --> 00:48:01,860

was Travis mentioned that this is like a

1196

00:48:06,380 --> 00:48:05,040

big deal like a big Aven deal that you

1197

00:48:08,930 --> 00:48:06,390

have a relationship between the gamma

1198

00:48:11,020 --> 00:48:08,940

measurements is that it was that correct

1199

00:48:13,970 --> 00:48:11,030

I didn't wanna I don't want to speak

1200

00:48:15,860 --> 00:48:13,980

yeah you know what made this really

1201
00:48:18,440 --> 00:48:15,870
spectacular is obviously you've got the

1202
00:48:20,420 --> 00:48:18,450
eyewitnesses and they hate for us to

1203
00:48:21,740 --> 00:48:20,430
ever refer to the guys behind the camera

1204
00:48:23,360 --> 00:48:21,750
it's like I think they called the fourth

1205
00:48:25,670 --> 00:48:23,370
curtain right we're not supposed to be

1206
00:48:27,440 --> 00:48:25,680
that for third the fourth way yeah there

1207
00:48:29,600 --> 00:48:27,450
was way more witnesses than just us

1208
00:48:30,980 --> 00:48:29,610
standing out there on camera you had you

1209
00:48:32,660 --> 00:48:30,990
had a lot of individuals on the

1210
00:48:36,260 --> 00:48:32,670
production side of things that witnessed

1211
00:48:39,410 --> 00:48:36,270
it too and so there was a lot of

1212
00:48:41,180 --> 00:48:39,420
eyewitnesses and then you you have the

1213
00:48:45,680 --> 00:48:41,190

cattle and I'll tell you

1214

00:48:47,360 --> 00:48:45,690

the cattles behavior before we were

1215

00:48:48,950 --> 00:48:47,370

firing rockets off and they didn't even

1216

00:48:51,050 --> 00:48:48,960

seem to care matter of fact the one

1217

00:48:52,550 --> 00:48:51,060

rocket we fired off it came down right

1218

00:48:54,980 --> 00:48:52,560

in the middle of the herd at one point

1219

00:48:58,070 --> 00:48:54,990

and they didn't even acknowledge that it

1220

00:49:01,630 --> 00:48:58,080

was there like and and so the behavior

1221

00:49:03,950 --> 00:49:01,640

of the herd was very out of the ordinary

1222

00:49:05,420 --> 00:49:03,960

then you start looking at the data on

1223

00:49:08,540 --> 00:49:05,430

all of the equipment that we put up

1224

00:49:11,660 --> 00:49:08,550

there the gamma and the RF everything

1225

00:49:15,800 --> 00:49:11,670

seemed to be just registering high

1226
00:49:18,980 --> 00:49:15,810
anomalous peaks during that time period

1227
00:49:20,690 --> 00:49:18,990
right there and with the Rockets it when

1228
00:49:22,520 --> 00:49:20,700
we start analyzing it it did look like

1229
00:49:24,790 --> 00:49:22,530
it correspondent with the altitude of

1230
00:49:27,070 --> 00:49:24,800
the rocket which would indicate that

1231
00:49:28,960 --> 00:49:27,080
again altitude was planting into the

1232
00:49:31,060 --> 00:49:28,970
intensity that we were measuring some of

1233
00:49:32,620 --> 00:49:31,070
these things and so it was gamma right

1234
00:49:35,860 --> 00:49:32,630
is that correct yes

1235
00:49:37,210 --> 00:49:35,870
so all I think about one of them all I

1236
00:49:38,710 --> 00:49:37,220
think of this is the Hulk when I think

1237
00:49:40,750 --> 00:49:38,720
gamma rays right you think gamma then

1238
00:49:42,580 --> 00:49:40,760

that was there you know the mutation or

1239

00:49:44,350 --> 00:49:42,590

whatever so Jason marine what do you

1240

00:49:46,210 --> 00:49:44,360

know about that I mean is that isn't a

1241

00:49:48,250 --> 00:49:46,220

common thing that that the gamma

1242

00:49:49,840 --> 00:49:48,260

measurement has that ever been noticed

1243

00:49:52,450 --> 00:49:49,850

before they either of you are aware of

1244

00:49:54,910 --> 00:49:52,460

is that something that has been measured

1245

00:49:56,440 --> 00:49:54,920

that I you know of or I haven't heard it

1246

00:49:58,090 --> 00:49:56,450

mentioned than any yeses not that I can

1247

00:49:59,170 --> 00:49:58,100

think of I was kind of thinking like it

1248

00:50:01,030 --> 00:49:59,180

was gonna be like it I don't know but I

1249

00:50:03,610 --> 00:50:01,040

always feel like these could be those

1250

00:50:04,960 --> 00:50:03,620

questions where you're like you guys

1251
00:50:06,970 --> 00:50:04,970
know the answers to this like yeah that

1252
00:50:09,070 --> 00:50:06,980
was from a blah blah blah blah and

1253
00:50:10,930 --> 00:50:09,080
so you know I kind of want to make sure

1254
00:50:12,970 --> 00:50:10,940
that we at least cover that potential

1255
00:50:14,530 --> 00:50:12,980
too if you get so I don't want to skip

1256
00:50:16,570 --> 00:50:14,540
over something if you if you know

1257
00:50:19,930 --> 00:50:16,580
something about this that we're not

1258
00:50:21,400 --> 00:50:19,940
diving into and then I know you know you

1259
00:50:23,980 --> 00:50:21,410
guys Travis it was kind of a an

1260
00:50:26,680 --> 00:50:23,990
awakening for him like a because he was

1261
00:50:28,420 --> 00:50:26,690
just like I can't believe it you know he

1262
00:50:29,590 --> 00:50:28,430
wasn't expecting any of this did anyone

1263
00:50:31,690 --> 00:50:29,600

else on the team have that kind of

1264

00:50:33,880 --> 00:50:31,700

reaction like I mean you guys have all

1265

00:50:36,670 --> 00:50:33,890

had your your experiences but like what

1266

00:50:37,510 --> 00:50:36,680

about dr. Sagawa what was his you know

1267

00:50:40,720 --> 00:50:37,520

you don't really get much of his

1268

00:50:44,110 --> 00:50:40,730

reaction to it I see you smile Thomas

1269

00:50:49,000 --> 00:50:44,120

what were your thoughts yeah no I think

1270

00:50:50,170 --> 00:50:49,010

I think everybody in the room was there

1271

00:50:51,820 --> 00:50:50,180

was some of us in there that felt

1272

00:50:54,760 --> 00:50:51,830

validated and then there was some of us

1273

00:50:57,970 --> 00:50:54,770

that felt I know for Travis this was

1274

00:51:00,340 --> 00:50:57,980

definitely something new same with

1275

00:51:02,170 --> 00:51:00,350

dragon you know up to this point dragon

1276

00:51:05,260 --> 00:51:02,180

and I'll let him speak more for himself

1277

00:51:07,870 --> 00:51:05,270

but hadn't had any kind of these

1278

00:51:10,780 --> 00:51:07,880

experiences before and so trying to

1279

00:51:12,700 --> 00:51:10,790

process what they just saw and and you

1280

00:51:14,800 --> 00:51:12,710

know the good thing about it is though

1281

00:51:19,180 --> 00:51:14,810

and even though I've had experiences at

1282

00:51:22,300 --> 00:51:19,190

this point you still you still keep

1283

00:51:25,090 --> 00:51:22,310

going back and and double-checking did I

1284

00:51:26,680 --> 00:51:25,100

really see what I thought I saw and that

1285

00:51:29,610 --> 00:51:26,690

discussion in that room we were actually

1286

00:51:35,080 --> 00:51:29,620

in that room for a long time analyzing

1287

00:51:37,930 --> 00:51:35,090

ours and so and part of it was simply

1288

00:51:38,560 --> 00:51:37,940

because we just keep looking at each

1289

00:51:40,270 --> 00:51:38,570

other saying

1290

00:51:43,570 --> 00:51:40,280

did we really see what we thought we saw

1291

00:51:45,250 --> 00:51:43,580

and then you look at the data and you

1292

00:51:49,000 --> 00:51:45,260

just keep shaking your head so it was a

1293

00:51:54,070 --> 00:51:49,010

fun room to be in and dr. sagall is very

1294

00:51:55,510 --> 00:51:54,080

I think he's very measured and yet he

1295

00:51:57,340 --> 00:51:55,520

doesn't get too high or too low he's

1296

00:51:59,020 --> 00:51:57,350

just he's very measured guy at least the

1297

00:52:01,180 --> 00:51:59,030

time that we were around him so that's

1298

00:52:04,150 --> 00:52:01,190

why I spot smile when you you ask about

1299

00:52:06,250 --> 00:52:04,160

him because I think the ranch could be

1300

00:52:09,790 --> 00:52:06,260

on fire and he would still be very much

1301
00:52:11,830 --> 00:52:09,800
and very yeah yes technically that is on

1302
00:52:14,020 --> 00:52:11,840
fire and that's burning and we'll walk

1303
00:52:16,180 --> 00:52:14,030
steadily over here this way exit in

1304
00:52:18,130 --> 00:52:16,190
single file yeah I think that's

1305
00:52:19,360 --> 00:52:18,140
personality has been kind of established

1306
00:52:21,900 --> 00:52:19,370
or at least it's becoming established

1307
00:52:25,780 --> 00:52:21,910
what am I missing you guys what other

1308
00:52:29,020 --> 00:52:25,790
points are there that were not talking

1309
00:52:30,340 --> 00:52:29,030
about in that that scene that I know

1310
00:52:32,260 --> 00:52:30,350
Eric was looking at the he was looking

1311
00:52:33,910 --> 00:52:32,270
at the flight data recorder people

1312
00:52:36,580 --> 00:52:33,920
criticized that again saying the time

1313
00:52:39,070 --> 00:52:36,590

didn't match on that and again all I can

1314

00:52:40,390 --> 00:52:39,080

tell you it's editing so if the times

1315

00:52:42,730 --> 00:52:40,400

don't match that might be a shot from

1316

00:52:45,100 --> 00:52:42,740

earlier that people were using and it it

1317

00:52:47,050 --> 00:52:45,110

does it's it's illustrating exactly what

1318

00:52:49,720 --> 00:52:47,060

is happening so it's not meant for you

1319

00:52:51,010 --> 00:52:49,730

to kind of timestamp that the last shot

1320

00:52:53,050 --> 00:52:51,020

we got out that may not have been as

1321

00:52:56,980 --> 00:52:53,060

good so you're putting that in there and

1322

00:52:59,860 --> 00:52:56,990

it's just to give you in imply what it

1323

00:53:01,360 --> 00:52:59,870

is that they're analyzing so you have to

1324

00:53:03,610 --> 00:53:01,370

kind of go with the magic of television

1325

00:53:05,770 --> 00:53:03,620

at times but just knowing again it's

1326
00:53:08,800 --> 00:53:05,780
still real there's nothing that's kind

1327
00:53:13,000 --> 00:53:08,810
of fabricated but the trend think of

1328
00:53:14,520 --> 00:53:13,010
what else we saw in that scene I know

1329
00:53:17,140 --> 00:53:14,530
Travis was there that was where his

1330
00:53:18,700 --> 00:53:17,150
digging up comment game that was when

1331
00:53:20,530 --> 00:53:18,710
that was mentioned and I just thought

1332
00:53:23,530 --> 00:53:20,540
like wow that's got to be that's a

1333
00:53:26,410 --> 00:53:23,540
t-shirt man digging up poke in the sky

1334
00:53:37,780 --> 00:53:26,420
bear yeah that's poking the what the sky

1335
00:53:39,700 --> 00:53:37,790
bear all right okay the sky bear you

1336
00:53:42,100 --> 00:53:39,710
know Eric I've been speaking with Erica

1337
00:53:44,260 --> 00:53:42,110
Mena speak with all you guys in Eric I

1338
00:53:46,570 --> 00:53:44,270

think he'll be able to kind of enlighten

1339

00:53:48,250 --> 00:53:46,580

us a bit more on and what it was but I

1340

00:53:50,410 --> 00:53:48,260

saw a question a lot Thomas knew at BO

1341

00:53:51,569 --> 00:53:50,420

the answer the camera was that one of

1342

00:53:53,430 --> 00:53:51,579

the ranch cameras

1343

00:53:56,699 --> 00:53:53,440

that we're looking at the footage of or

1344

00:53:58,410 --> 00:53:56,709

is it one of the cruise cameras I didn't

1345

00:53:59,670 --> 00:53:58,420

get a I didn't have a chance to clarify

1346

00:54:03,180 --> 00:53:59,680

before we came on

1347

00:54:05,549 --> 00:54:03,190

what's the Erica or Jason I mean I think

1348

00:54:07,410 --> 00:54:05,559

they say on the on the show remember

1349

00:54:10,289 --> 00:54:07,420

talking about it I think he says that it

1350

00:54:12,449 --> 00:54:10,299

Eric had it mounted somewhere should I

1351
00:54:14,489 --> 00:54:12,459
thought that on the show so I believe we

1352
00:54:16,799 --> 00:54:14,499
picked it up on both and if you go back

1353
00:54:18,329 --> 00:54:16,809
and look the when we're very first

1354
00:54:20,579 --> 00:54:18,339
watching it if you see it's kind of

1355
00:54:22,589 --> 00:54:20,589
shaky a little bit I believe that was

1356
00:54:25,920 --> 00:54:22,599
the camera that they were holding the

1357
00:54:31,069 --> 00:54:25,930
actual production cameras and then we

1358
00:54:33,959 --> 00:54:31,079
obviously go back into the commit center

1359
00:54:36,719 --> 00:54:33,969
command room the control room sorry and

1360
00:54:38,489 --> 00:54:36,729
and at that point we're looking at

1361
00:54:40,650 --> 00:54:38,499
footage that came from the surveillance

1362
00:54:43,380 --> 00:54:40,660
cameras okay I mean yeah because she's

1363
00:54:48,029 --> 00:54:43,390

pretty awesome to have multiple shots &

1364

00:54:49,739 --> 00:54:48,039

angles yep and in the yeah I mean you

1365

00:54:51,329 --> 00:54:49,749

can see that shot clearly somebody pans

1366

00:54:52,680 --> 00:54:51,339

up with that camera that's why it looked

1367

00:54:54,959 --> 00:54:52,690

like it was a handheld so it wasn't

1368

00:54:56,569 --> 00:54:54,969

control he map you almost like missed

1369

00:54:59,729 --> 00:54:56,579

the zoom but they got it which is great

1370

00:55:01,019 --> 00:54:59,739

so I mean so you know that's basically

1371

00:55:02,849 --> 00:55:01,029

where we left off at the you know the

1372

00:55:04,709 --> 00:55:02,859

end that the show and then we start

1373

00:55:06,719 --> 00:55:04,719

teasing for the next week and again so

1374

00:55:09,630 --> 00:55:06,729

people know or we're off for the next

1375

00:55:12,359 --> 00:55:09,640

week and we come back on the fifth but

1376

00:55:14,309 --> 00:55:12,369

you can see from the the previews the

1377

00:55:17,309 --> 00:55:14,319

super tease going into the you know the

1378

00:55:18,809 --> 00:55:17,319

next episode talk about GPR they talk

1379

00:55:21,630 --> 00:55:18,819

about the two-story structure

1380

00:55:23,609 --> 00:55:21,640

potentially you know what do you guys

1381

00:55:25,019 --> 00:55:23,619

think Thomas talk to talk to what we're

1382

00:55:27,029 --> 00:55:25,029

gonna see what are you gonna see him

1383

00:55:30,599 --> 00:55:27,039

come back but you could tell us without

1384

00:55:34,049 --> 00:55:30,609

giving away too much like yeah I will

1385

00:55:37,259 --> 00:55:34,059

say out of all look episode four was

1386

00:55:40,229 --> 00:55:37,269

awesome I mean we saw a UFO their UFO

1387

00:55:43,559 --> 00:55:40,239

you've done we collected we collected

1388

00:55:46,739 --> 00:55:43,569

some great data so for was a great

1389

00:55:51,749 --> 00:55:46,749

episode but I think as far as like the

1390

00:55:54,329 --> 00:55:51,759

actual substance v is the one I'm the

1391

00:55:56,160 --> 00:55:54,339

most excited about over the antenna out

1392

00:55:58,559 --> 00:55:56,170

of the entire season everything that

1393

00:56:00,390 --> 00:55:58,569

takes place I think that some of the

1394

00:56:02,729 --> 00:56:00,400

stuff that will be revealed in Episode

1395

00:56:05,100 --> 00:56:02,739

five is some of the most meaningful and

1396

00:56:08,190 --> 00:56:05,110

significant data that

1397

00:56:09,420 --> 00:56:08,200

or indication of what we're picking up

1398

00:56:12,450 --> 00:56:09,430

at the ranch that will release all

1399

00:56:14,640 --> 00:56:12,460

season I I'm 5 I've been stoked for five

1400

00:56:16,260 --> 00:56:14,650

since we filmed awesome

1401
00:56:19,050 --> 00:56:16,270
that's honey here's five then I just

1402
00:56:21,930 --> 00:56:19,060
knew what we picked up and I know that

1403
00:56:24,420 --> 00:56:21,940
judging from the the super tease that we

1404
00:56:26,310 --> 00:56:24,430
saw I I know for a fact that were it's

1405
00:56:27,960 --> 00:56:26,320
at least going to be addressed in five

1406
00:56:29,820 --> 00:56:27,970
and I'm super stoked

1407
00:56:33,630 --> 00:56:29,830
well you just super tease the super

1408
00:56:34,650 --> 00:56:33,640
tease I'm excited right now when I saw

1409
00:56:40,260 --> 00:56:34,660
that when I saw the ground-penetrating

1410
00:56:42,180 --> 00:56:40,270
radar I got really excited yeah Thomas

1411
00:56:44,400 --> 00:56:42,190
what was so test just real quick without

1412
00:56:46,800 --> 00:56:44,410
going into too much like with a spoilers

1413
00:56:48,450 --> 00:56:46,810

but how long were these it was another

1414

00:56:50,220 --> 00:56:48,460

thing I see you know a lot of times

1415

00:56:51,960 --> 00:56:50,230

these guys are just coming out there for

1416

00:56:53,280 --> 00:56:51,970

a few minutes and they get out there and

1417

00:56:56,640 --> 00:56:53,290

it looks like oh yeah they just did this

1418

00:56:58,680 --> 00:56:56,650

entire thing in two hours or the example

1419

00:56:59,880 --> 00:56:58,690

ISM with the the drone the guy with the

1420

00:57:01,890 --> 00:56:59,890

drone it looks like he was only there

1421

00:57:02,430 --> 00:57:01,900

for you know a couple hours did his

1422

00:57:04,140 --> 00:57:02,440

thing

1423

00:57:05,820 --> 00:57:04,150

batteries died and that was it I mean

1424

00:57:06,990 --> 00:57:05,830

but that's that's an entire day I mean

1425

00:57:09,420 --> 00:57:07,000

that's a that's a long day you're

1426
00:57:10,380 --> 00:57:09,430
talking 810 hours so look with the GPR

1427
00:57:12,150 --> 00:57:10,390
guys how long would you say they were

1428
00:57:15,210 --> 00:57:12,160
they were out there for I mean you're

1429
00:57:17,970 --> 00:57:15,220
talking one day multiple days multiple

1430
00:57:19,500 --> 00:57:17,980
days yeah and and again that to

1431
00:57:21,030 --> 00:57:19,510
illustrate like you're gonna see him for

1432
00:57:23,280 --> 00:57:21,040
a few minutes on the show but they were

1433
00:57:24,930 --> 00:57:23,290
there for days so when people say oh

1434
00:57:29,730 --> 00:57:24,940
they weren't there very long or whatever

1435
00:57:33,300 --> 00:57:29,740
you know they were the so we duties they

1436
00:57:37,500 --> 00:57:33,310
do pull open that you saw the concrete

1437
00:57:38,670 --> 00:57:37,510
the concrete being lifted so that I had

1438
00:57:43,140 --> 00:57:38,680

that experience with that I don't know

1439

00:57:48,120 --> 00:57:43,150

how she remembers like sister though

1440

00:57:49,710 --> 00:57:48,130

yeah at at homestead to the I had two

1441

00:57:51,510 --> 00:57:49,720

instances with it with that thing

1442

00:57:53,070 --> 00:57:51,520

hurting me and then the door falling on

1443

00:57:56,090 --> 00:57:53,080

me and cutting me in one of the

1444

00:57:58,260 --> 00:57:56,100

homesteads so I'm curious to see what

1445

00:57:59,520 --> 00:57:58,270

data were gonna show because I think

1446

00:58:01,200 --> 00:57:59,530

there's something to that because that's

1447

00:58:03,120 --> 00:58:01,210

when I had gotten sick right after that

1448

00:58:04,830 --> 00:58:03,130

for a very long period of time so I

1449

00:58:05,910 --> 00:58:04,840

think there's going to be some

1450

00:58:11,880 --> 00:58:05,920

interesting stuff that's gonna come on

1451

00:58:14,700 --> 00:58:11,890

to that so yeah just really quickly like

1452

00:58:16,440 --> 00:58:14,710

some of stuff that you see I'm hoping

1453

00:58:17,910 --> 00:58:16,450

that the members of the occupants will

1454

00:58:18,960 --> 00:58:17,920

remember some of the things that have

1455

00:58:20,880 --> 00:58:18,970

already taken place I mean

1456

00:58:23,849 --> 00:58:20,890

right there in episode 2 we have those

1457

00:58:27,480 --> 00:58:23,859

guys come out and do a sweep safety was

1458

00:58:29,910 --> 00:58:27,490

a huge concern I mean the liability

1459

00:58:32,910 --> 00:58:29,920

waivers we had to sign or unreal safety

1460

00:58:34,829 --> 00:58:32,920

was a huge concern and one and so

1461

00:58:38,579 --> 00:58:34,839

obviously we're gonna take every step we

1462

00:58:40,050 --> 00:58:38,589

can to ensure safety of the not only us

1463

00:58:41,730 --> 00:58:40,060

but the crews and everybody that's out

1464

00:58:43,410 --> 00:58:41,740

there so these guys that came out and

1465

00:58:43,859 --> 00:58:43,420

swept through radiation and into the

1466

00:58:48,329 --> 00:58:43,869

ahrefs

1467

00:58:53,040 --> 00:58:48,339

sweep they come out and they they sweep

1468

00:58:54,690 --> 00:58:53,050

these places that we really honed in 512

1469

00:58:57,120 --> 00:58:54,700

acres is a lot so what we did is we

1470

00:59:00,059 --> 00:58:57,130

identified the places that we were going

1471

00:59:03,089 --> 00:59:00,069

to be focused on and though we really

1472

00:59:04,620 --> 00:59:03,099

did those doe bin and and it does

1473

00:59:06,930 --> 00:59:04,630

thoroughly to make sure it's gonna be

1474

00:59:09,059 --> 00:59:06,940

safe to be there so when you see the

1475

00:59:11,040 --> 00:59:09,069

things that are coming up you know and

1476

00:59:12,780 --> 00:59:11,050

and some of the events that are taking

1477

00:59:15,359 --> 00:59:12,790

place it's important to remember that we

1478

00:59:17,190 --> 00:59:15,369

got a clean bill of health on this you

1479

00:59:20,280 --> 00:59:17,200

know there's been a lot of mention about

1480

00:59:22,890 --> 00:59:20,290

radiation in the soils and I've seen a

1481

00:59:24,270 --> 00:59:22,900

lot of comments and questions about that

1482

00:59:26,460 --> 00:59:24,280

kind of stuff it's important to remember

1483

00:59:27,990 --> 00:59:26,470

we actually came in and tested it and we

1484

00:59:31,050 --> 00:59:28,000

got a clean bill on it we didn't pick up

1485

00:59:33,630 --> 00:59:31,060

anything that was abnormal or dangerous

1486

00:59:35,609 --> 00:59:33,640

when it came to radiation so if you if

1487

00:59:38,579 --> 00:59:35,619

you see things in future like episode 5

1488

00:59:42,000 --> 00:59:38,589

they tease that just remember it wasn't

1489

00:59:45,300 --> 00:59:42,010

there when they tested right so it goes

1490

00:59:46,349 --> 00:59:45,310

back to the transient yeah point so I'm

1491

00:59:47,490 --> 00:59:46,359

glad you know they said you know the

1492

00:59:49,500 --> 00:59:47,500

questions that come up so let's just go

1493

00:59:51,359 --> 00:59:49,510

into the viewer questions I mean we have

1494

00:59:53,339 --> 00:59:51,369

a ton of them

1495

00:59:56,309 --> 00:59:53,349

I mean if we'll just kind of rapid-fire

1496

00:59:58,589 --> 00:59:56,319

just read them off Thomas and and you

1497

01:00:02,010 --> 00:59:58,599

know obviously Jake Jason Maureen chime

1498

01:00:04,410 --> 01:00:02,020

in at any point like you know elaborate

1499

01:00:06,059 --> 01:00:04,420

on them whatever but it seriously

1500

01:00:08,430 --> 01:00:06,069

I think through the course of our

1501
01:00:10,650 --> 01:00:08,440
discussion already I think he's never

1502
01:00:12,690 --> 01:00:10,660
sorry knocked a lot of them out yeah for

1503
01:00:14,579 --> 01:00:12,700
sure yeah exactly and and we knew it was

1504
01:00:16,500 --> 01:00:14,589
gonna happen I mean there's some we'll

1505
01:00:18,030 --> 01:00:16,510
be able to to kind of go gloss over

1506
01:00:20,940 --> 01:00:18,040
because you've already you've already

1507
01:00:23,010 --> 01:00:20,950
answered the so let me just go right

1508
01:00:26,430 --> 01:00:23,020
into it I mean we kind of compiled them

1509
01:00:29,400 --> 01:00:26,440
from the email people submitted via

1510
01:00:31,170 --> 01:00:29,410
email in the Facebook group as well

1511
01:00:32,790 --> 01:00:31,180
they'll put things in the comments we'll

1512
01:00:34,500 --> 01:00:32,800
get some from YouTube

1513
01:00:37,590 --> 01:00:34,510

in the comments section and on Twitter

1514

01:00:39,210 --> 01:00:37,600

so please keep them coming especially

1515

01:00:40,770 --> 01:00:39,220

these next couple of weeks so since

1516

01:00:42,600 --> 01:00:40,780

we're off for a week we're gonna try to

1517

01:00:44,430 --> 01:00:42,610

take a lot of questions

1518

01:00:47,520 --> 01:00:44,440

it's science related so that we can

1519

01:00:49,410 --> 01:00:47,530

maybe have Eric on for two episodes

1520

01:00:51,360 --> 01:00:49,420

which would be great because it would

1521

01:00:55,350 --> 01:00:51,370

give people some real in-depth answers

1522

01:00:58,680 --> 01:00:55,360

and if you know Eric Eric well he loves

1523

01:01:01,290 --> 01:00:58,690

to go into detail and stuff and he

1524

01:01:04,320 --> 01:01:01,300

always puts these great analogies to

1525

01:01:05,910 --> 01:01:04,330

things that kind of make concepts click

1526

01:01:08,130 --> 01:01:05,920

in your head I mean Thomas you know this

1527

01:01:10,710 --> 01:01:08,140

like he just has a great way of speaking

1528

01:01:12,000 --> 01:01:10,720

to you so I'm the science related stuff

1529

01:01:13,710 --> 01:01:12,010

we'll be able to you know please just

1530

01:01:16,560 --> 01:01:13,720

keep them coming and I will get to them

1531

01:01:20,450 --> 01:01:16,570

but so Thomas let's go to the first few

1532

01:01:23,340 --> 01:01:20,460

from emails here so we have we have

1533

01:01:25,890 --> 01:01:23,350

right off the bat has any attempt been

1534

01:01:27,240 --> 01:01:25,900

made this is from Jordan via email has

1535

01:01:29,670 --> 01:01:27,250

any attempt made to contact the

1536

01:01:32,940 --> 01:01:29,680

phenomenon rather than the passive

1537

01:01:38,640 --> 01:01:32,950

studying by science observation so there

1538

01:01:41,010 --> 01:01:38,650

any more attempts at contact so starting

1539

01:01:43,340 --> 01:01:41,020

in two dead I'm just gonna say that

1540

01:01:46,410 --> 01:01:43,350

Brandon has been very methodical in his

1541

01:01:48,000 --> 01:01:46,420

approach to this so I remember sitting

1542

01:01:51,210 --> 01:01:48,010

in his office for the first time his

1543

01:01:52,650 --> 01:01:51,220

instructions to us were all we all we

1544

01:01:55,470 --> 01:01:52,660

inherited was a narrative we didn't get

1545

01:01:57,810 --> 01:01:55,480

actual data and so his first instruction

1546

01:01:59,820 --> 01:01:57,820

was I I want to make as minimal of an

1547

01:02:01,800 --> 01:01:59,830

impact as possible on this place and I

1548

01:02:04,350 --> 01:02:01,810

just want to observe and we spent like

1549

01:02:07,050 --> 01:02:04,360

the first 12 or 14 months where we we

1550

01:02:10,680 --> 01:02:07,060

tried to just be very very light-footed

1551
01:02:12,300 --> 01:02:10,690
and just observed and then and the whole

1552
01:02:14,310 --> 01:02:12,310
purpose was is there really something

1553
01:02:16,740 --> 01:02:14,320
here is this is the you know a whole

1554
01:02:20,190 --> 01:02:16,750
bunch of tales once we established that

1555
01:02:23,160 --> 01:02:20,200
yes we are observing some unexplainable

1556
01:02:26,940 --> 01:02:23,170
events then then we started into the

1557
01:02:29,040 --> 01:02:26,950
methodical okay what is an end and so

1558
01:02:31,890 --> 01:02:29,050
and I want to speak to this actually for

1559
01:02:33,810 --> 01:02:31,900
a second this is important sure you know

1560
01:02:35,910 --> 01:02:33,820
Brandon's done very well for himself he

1561
01:02:38,010 --> 01:02:35,920
said he is a great businessman he's

1562
01:02:39,270 --> 01:02:38,020
wealthy and sometimes people get the

1563
01:02:41,340 --> 01:02:39,280

idea that well he's got all this money

1564

01:02:45,840 --> 01:02:41,350

like why are you guys out there using

1565

01:02:47,280 --> 01:02:45,850

ten tin cans well Brandon is

1566

01:02:49,920 --> 01:02:47,290

he's not just gonna open up the

1567

01:02:51,300 --> 01:02:49,930

pocketbook and go by \$100,000 spectrum

1568

01:02:55,740 --> 01:02:51,310

analyzer right off the bat because we

1569

01:02:57,990 --> 01:02:55,750

don't even know looking for so what I

1570

01:02:59,670 --> 01:02:58,000

remember when we first went to did the

1571

01:03:01,200 --> 01:02:59,680

album we actually I think the first

1572

01:03:03,420 --> 01:03:01,210

thing that we bought was like a cheap

1573

01:03:06,240 --> 01:03:03,430

five hundred dollar Costco surveillance

1574

01:03:08,940 --> 01:03:06,250

camera because we didn't want to invest

1575

01:03:10,110 --> 01:03:08,950

160 thousand dollars in the camera we

1576

01:03:12,390 --> 01:03:10,120

don't even know that there's something

1577

01:03:17,400 --> 01:03:12,400

to pick up besides butterflies and cows

1578

01:03:18,870 --> 01:03:17,410

so we went so and and Eric Eric could

1579

01:03:20,010 --> 01:03:18,880

speak to this more but some people are

1580

01:03:21,810 --> 01:03:20,020

like oh you've got this billionaire

1581

01:03:24,090 --> 01:03:21,820

backing you why don't you why don't you

1582

01:03:25,260 --> 01:03:24,100

have all this expensive equipment he's

1583

01:03:27,120 --> 01:03:25,270

wealthy because he's smart with his

1584

01:03:30,510 --> 01:03:27,130

money and he's been very methodical as

1585

01:03:32,970 --> 01:03:30,520

he lets the data guide the checkbook and

1586

01:03:34,920 --> 01:03:32,980

so as we pick things up then he's like

1587

01:03:36,330 --> 01:03:34,930

okay we can't be using this little piece

1588

01:03:38,610 --> 01:03:36,340

of junk anymore we're obviously picking

1589

01:03:40,740 --> 01:03:38,620

something up let's go big and let's buy

1590

01:03:44,070 --> 01:03:40,750

something that's good and so if people

1591

01:03:46,170 --> 01:03:44,080

see something and and season one I tell

1592

01:03:47,310 --> 01:03:46,180

people you go to the hospital and you go

1593

01:03:48,990 --> 01:03:47,320

into the emergency room they don't

1594

01:03:51,060 --> 01:03:49,000

automatically roll you down for a cat

1595

01:03:53,850 --> 01:03:51,070

scan nourish comes in takes your

1596

01:03:56,220 --> 01:03:53,860

temperature gets your blood pressure get

1597

01:03:58,050 --> 01:03:56,230

your vitals before they determine what

1598

01:03:59,580 --> 01:03:58,060

further tests are gonna require and it's

1599

01:04:01,950 --> 01:03:59,590

important member we're in season one of

1600

01:04:04,650 --> 01:04:01,960

this we're just getting the vitals and

1601
01:04:06,270 --> 01:04:04,660
so if it seems like man you guys aren't

1602
01:04:07,410 --> 01:04:06,280
following up you're not moving out while

1603
01:04:09,180 --> 01:04:07,420
we're taking the temperature we're

1604
01:04:10,980 --> 01:04:09,190
getting the blood pressure and after

1605
01:04:13,500 --> 01:04:10,990
we've done all of this then we take a

1606
01:04:16,440 --> 01:04:13,510
look and we say okay where do we want to

1607
01:04:20,040 --> 01:04:16,450
allocate our resources our time or money

1608
01:04:21,750 --> 01:04:20,050
our bandwidth to calm to further studies

1609
01:04:23,490 --> 01:04:21,760
so as people are watching the show and

1610
01:04:26,180 --> 01:04:23,500
it seems like man they're not following

1611
01:04:28,950 --> 01:04:26,190
up with that scene Koller or with the

1612
01:04:30,030 --> 01:04:28,960
the thing under the house and it's one

1613
01:04:31,650 --> 01:04:30,040

of the reasons why I won't be careful

1614

01:04:34,380 --> 01:04:31,660

about collaborating too much on stuff

1615

01:04:36,720 --> 01:04:34,390

because we will probably circle back on

1616

01:04:41,490 --> 01:04:36,730

some of this stuff thank you that was

1617

01:04:42,870 --> 01:04:41,500

that's really good a little sensitive

1618

01:04:45,750 --> 01:04:42,880

because Eric's like eric has been

1619

01:04:47,760 --> 01:04:45,760

criticized before are you work for a

1620

01:04:50,280 --> 01:04:47,770

billionaire and you're getting that that

1621

01:04:51,540 --> 01:04:50,290

equipment right there he's like just

1622

01:04:54,870 --> 01:04:51,550

because he's billionaire doesn't mean

1623

01:04:56,730 --> 01:04:54,880

like Eric I remember Eric when Brant is

1624

01:04:59,579 --> 01:04:56,740

like what camera system like Eric is the

1625

01:05:01,440 --> 01:04:59,589

most detailed guy he litter

1626

01:05:03,539 --> 01:05:01,450

we will spend an entire week going

1627

01:05:05,249 --> 01:05:03,549

through every thing - and then he

1628

01:05:07,799 --> 01:05:05,259

submits it and it's like well this

1629

01:05:09,660 --> 01:05:07,809

camera right here it's 250,000 it's like

1630

01:05:12,329 --> 01:05:09,670

yeah we're gonna start cheaper and work

1631

01:05:14,219 --> 01:05:12,339

our way up and when we know so to Eric's

1632

01:05:16,499 --> 01:05:14,229

credit he does know what he's talking

1633

01:05:18,479 --> 01:05:16,509

about and if you see us using like tin

1634

01:05:20,690 --> 01:05:18,489

cans to try to get a signal thing

1635

01:05:22,589 --> 01:05:20,700

there's a reason for it

1636

01:05:24,239 --> 01:05:22,599

excellent no I'm glad you cleared that

1637

01:05:26,999 --> 01:05:24,249

up I mean kind of laying it out to

1638

01:05:28,259 --> 01:05:27,009

people you know again I can't stress

1639

01:05:30,239 --> 01:05:28,269

enough these are real people like the

1640

01:05:31,680 --> 01:05:30,249

team these are got these are not actors

1641

01:05:34,019 --> 01:05:31,690

these are real people these are their

1642

01:05:35,870 --> 01:05:34,029

jobs this is what they do so it's not I

1643

01:05:40,170 --> 01:05:35,880

just don't know how to get that across

1644

01:05:41,809 --> 01:05:40,180

any more and you know you did touch on

1645

01:05:43,709 --> 01:05:41,819

something and I want to say the

1646

01:05:45,450 --> 01:05:43,719

liability waiver that you had to sign

1647

01:05:48,930 --> 01:05:45,460

like so in all my years of production I

1648

01:05:51,660 --> 01:05:48,940

have never had to sign anything so

1649

01:05:54,150 --> 01:05:51,670

comprehensive that also covered the

1650

01:05:55,829 --> 01:05:54,160

unknown and not force majeure not you

1651
01:05:58,259 --> 01:05:55,839
know act of God I mean you're talking

1652
01:06:00,269 --> 01:05:58,269
about like yeah so we're not liable if

1653
01:06:01,739 --> 01:06:00,279
you know you get abducted or something

1654
01:06:03,329 --> 01:06:01,749
comes down from the sky or you know get

1655
01:06:11,670 --> 01:06:03,339
possessed by some kind of spirit yeah

1656
01:06:13,410 --> 01:06:11,680
sorry you're on your own no I mean it's

1657
01:06:15,690 --> 01:06:13,420
a liability if there is some sort of

1658
01:06:17,789 --> 01:06:15,700
wolf attack that there's been reported

1659
01:06:20,219 --> 01:06:17,799
on the property and then it happens to

1660
01:06:22,410 --> 01:06:20,229
you that's you you're walking into it

1661
01:06:23,459 --> 01:06:22,420
knowing full aware that something weird

1662
01:06:25,229 --> 01:06:23,469
is going to happen to you so that's

1663
01:06:28,319 --> 01:06:25,239

that's your own damn fault and there's

1664

01:06:30,569 --> 01:06:28,329

history at that location of just that

1665

01:06:33,479 --> 01:06:30,579

happening right so I mean there's

1666

01:06:34,950 --> 01:06:33,489

already precedent set for I mean it

1667

01:06:37,079 --> 01:06:34,960

makes sense it's very smart on their

1668

01:06:38,339 --> 01:06:37,089

part no it is Brad made that gun brain

1669

01:06:39,420 --> 01:06:38,349

he's really smart with what he does like

1670

01:06:41,039 --> 01:06:39,430

he's smart with his money he knows how

1671

01:06:43,049 --> 01:06:41,049

to protect himself and but if anyone's

1672

01:06:44,459 --> 01:06:43,059

listening that gives an assurance that

1673

01:06:47,069 --> 01:06:44,469

does this I'd love to know more about

1674

01:06:49,410 --> 01:06:47,079

that please how do you insure someone

1675

01:06:52,140 --> 01:06:49,420

for for you know paranormal I'd love to

1676

01:06:55,380 --> 01:06:52,150

know that enter but to the point that

1677

01:06:58,170 --> 01:06:55,390

you know you're just making about having

1678

01:07:00,959 --> 01:06:58,180

this wealthy individual with the company

1679

01:07:03,299 --> 01:07:00,969

you know Maureen and I had to deal with

1680

01:07:05,519 --> 01:07:03,309

the frustration of public comment

1681

01:07:07,410 --> 01:07:05,529

comments and ridicule like that with the

1682

01:07:09,239 --> 01:07:07,420

company that we helped start called open

1683

01:07:11,190 --> 01:07:09,249

minds it was focused on UFOs and

1684

01:07:12,410 --> 01:07:11,200

extraterrestrials we had wealthy

1685

01:07:13,640 --> 01:07:12,420

individual who was

1686

01:07:15,860 --> 01:07:13,650

the owner of that company started that

1687

01:07:19,550 --> 01:07:15,870

company and we were the ones making the

1688

01:07:21,680 --> 01:07:19,560

decisions putting together items to buy

1689

01:07:24,500 --> 01:07:21,690

cameras and equipment and things like

1690

01:07:26,030 --> 01:07:24,510

that and we had to be very careful it

1691

01:07:28,940 --> 01:07:26,040

was always a you know sort of a delicate

1692

01:07:32,390 --> 01:07:28,950

balance of trying to get equipment that

1693

01:07:35,150 --> 01:07:32,400

would be good enough to start you know

1694

01:07:37,940 --> 01:07:35,160

any sort of tasks we were doing before

1695

01:07:40,160 --> 01:07:37,950

jumping to something grand yeah we would

1696

01:07:43,760 --> 01:07:40,170

lay out these detailed proposals and say

1697

01:07:46,910 --> 01:07:43,770

look here's the gear we need to be good

1698

01:07:48,440 --> 01:07:46,920

enough and you know just because he had

1699

01:07:50,450 --> 01:07:48,450

money didn't mean he was going to just

1700

01:07:52,100 --> 01:07:50,460

sign checks he wanted justification and

1701

01:07:54,320 --> 01:07:52,110

he wanted to know that it was going to

1702

01:07:56,240 --> 01:07:54,330

be you know worth his his money and

1703

01:07:58,160 --> 01:07:56,250

spending it on what seemed like stuff

1704

01:08:01,160 --> 01:07:58,170

that we were just having fun with yeah

1705

01:08:03,890 --> 01:08:01,170

there was definitely a lot of like we do

1706

01:08:06,170 --> 01:08:03,900

YouTube videos and always they send us

1707

01:08:07,700 --> 01:08:06,180

messages about why don't I don't

1708

01:08:09,950 --> 01:08:07,710

understand why you're not paying to send

1709

01:08:12,650 --> 01:08:09,960

me equipment so I can do this real I'm

1710

01:08:14,990 --> 01:08:12,660

seeing real UFOs and you'll see them all

1711

01:08:17,690 --> 01:08:15,000

the time so it's not gonna stop we dealt

1712

01:08:20,840 --> 01:08:17,700

with it for eight years straight of

1713

01:08:22,730 --> 01:08:20,850

these kind of comments and and and then

1714

01:08:26,450 --> 01:08:22,740

having the frustration to of sometimes

1715

01:08:28,310 --> 01:08:26,460

really fancy toys got bought without you

1716

01:08:29,660 --> 01:08:28,320

know that we didn't necessarily know

1717

01:08:30,950 --> 01:08:29,670

where need and then we never got to play

1718

01:08:34,630 --> 01:08:30,960

with them because they just sat sat

1719

01:08:37,190 --> 01:08:34,640

around it at least

1720

01:08:40,280 --> 01:08:37,200

brandon is fantastic like I've never

1721

01:08:43,280 --> 01:08:40,290

seen him say no if it's if if it's like

1722

01:08:45,380 --> 01:08:43,290

data like he is he's Brandon's willing

1723

01:08:45,800 --> 01:08:45,390

to spend whatever takes get the bottom

1724

01:08:48,290 --> 01:08:45,810

of this

1725

01:08:50,720 --> 01:08:48,300

as long as it's justified so I mean you

1726

01:08:52,310 --> 01:08:50,730

can break that way but very transparent

1727

01:08:55,130 --> 01:08:52,320

and you know taking us along for the

1728

01:08:57,650 --> 01:08:55,140

ride so let's go listen to you so one of

1729

01:08:59,240 --> 01:08:57,660

the questions for Twitter this and again

1730

01:09:02,000 --> 01:08:59,250

and I love these questions from younger

1731

01:09:04,250 --> 01:09:02,010

viewers so we have a science question

1732

01:09:07,910 --> 01:09:04,260

from someone writes in a science

1733

01:09:10,820 --> 01:09:07,920

question from my 15 year old it's now

1734

01:09:13,880 --> 01:09:10,830

this is from a 15 year old the question

1735

01:09:16,040 --> 01:09:13,890

is do you think that the unusual amount

1736

01:09:18,650 --> 01:09:16,050

of radiation on skinwalker ranch is

1737

01:09:21,920 --> 01:09:18,660

caused by the radioactive decay of large

1738

01:09:23,750 --> 01:09:21,930

amounts of radioisotopes if so what

1739

01:09:25,769 --> 01:09:23,760

element would you hypothesize the

1740

01:09:29,399 --> 01:09:25,779

isotopes are of

1741

01:09:31,919 --> 01:09:29,409

from a fifteen-year-old Tommy says yeah

1742

01:09:33,660 --> 01:09:31,929

that's awesome

1743

01:09:35,519 --> 01:09:33,670

so I'll just answer again and just say

1744

01:09:37,410 --> 01:09:35,529

you know we swept the ranch and we

1745

01:09:41,490 --> 01:09:37,420

didn't pick up any radiation in that

1746

01:09:42,720 --> 01:09:41,500

sweep so if if we're just gonna say if

1747

01:09:44,309 --> 01:09:42,730

in the future we happen to pick

1748

01:09:46,519 --> 01:09:44,319

something like that up in a future

1749

01:09:50,760 --> 01:09:48,479

obviously we need to investigate that

1750

01:09:53,459 --> 01:09:50,770

further but as far as picking up any

1751

01:09:54,959 --> 01:09:53,469

radiation on the ranch period we didn't

1752

01:09:57,089 --> 01:09:54,969

we didn't gather any of that which

1753

01:09:59,520 --> 01:09:57,099

surprised me because we did have a lot

1754

01:10:00,870 --> 01:09:59,530

of downwind fallout when they did the

1755

01:10:04,140 --> 01:10:00,880

test so I would have expected to at

1756

01:10:05,910 --> 01:10:04,150

least cease you know some but okay I

1757

01:10:06,689 --> 01:10:05,920

mean you know there's a lot there's a

1758

01:10:10,470 --> 01:10:06,699

lot of time left

1759

01:10:13,859 --> 01:10:10,480

yeah not a lot more study do yes stay

1760

01:10:16,290 --> 01:10:13,869

tuned so then there's this and this I

1761

01:10:18,149 --> 01:10:16,300

found really interesting this the next

1762

01:10:22,080 --> 01:10:18,159

question also comes from Twitter from

1763

01:10:24,109 --> 01:10:22,090

Tara or Tara as she asks I'm curious

1764

01:10:26,640 --> 01:10:24,119

about the behavior of birds on the ranch

1765

01:10:28,979 --> 01:10:26,650

anything notable or unusual in that

1766

01:10:29,660 --> 01:10:28,989

geographical area as compared to other

1767

01:10:31,620 --> 01:10:29,670

regions

1768

01:10:35,100 --> 01:10:31,630

how would you know of anything anything

1769

01:10:39,299 --> 01:10:35,110

about that yeah so we've actually had

1770

01:10:43,049 --> 01:10:39,309

numerous events or planning with birds

1771

01:10:44,729 --> 01:10:43,059

matter of fact there's a picture that's

1772

01:10:46,410 --> 01:10:44,739

big used several times in the episodes

1773

01:10:50,040 --> 01:10:46,420

it shows Brandon setting in the trees

1774

01:10:53,490 --> 01:10:50,050

holding up a Trifield meter I believe it

1775

01:10:57,149 --> 01:10:53,500

was actually that event that we're

1776

01:10:59,279 --> 01:10:57,159

standing in the where punky and the

1777

01:11:02,850 --> 01:10:59,289

birds are chirping and all of a sudden

1778

01:11:04,979 --> 01:11:02,860

they go crazy and then the the RF spike

1779

01:11:07,560 --> 01:11:04,989

hits on the meter and we have observed

1780

01:11:10,919 --> 01:11:07,570

that now numerous times I was over

1781

01:11:13,950 --> 01:11:10,929

homestead to tending water at one point

1782

01:11:15,390 --> 01:11:13,960

and the crow there was probably two or

1783

01:11:17,729 --> 01:11:15,400

three hundred crows out there in the

1784

01:11:21,629 --> 01:11:17,739

trees just squawking going crazy and

1785

01:11:23,850 --> 01:11:21,639

then there again they they increase in

1786

01:11:26,129 --> 01:11:23,860

volume and they go dead silent and it's

1787

01:11:28,500 --> 01:11:26,139

all corresponding with what what's going

1788

01:11:31,020 --> 01:11:28,510

on with the Trifield meter so something

1789

01:11:33,390 --> 01:11:31,030

there with the birds there again another

1790

01:11:35,640 --> 01:11:33,400

biosensor picking up what's going on

1791

01:11:39,070 --> 01:11:35,650

through the air but absolutely we have

1792

01:11:40,690 --> 01:11:39,080

we have multiple events where we can

1793

01:11:42,810 --> 01:11:40,700

directly coordinate like the birds

1794

01:11:44,710 --> 01:11:42,820

either stop chirping or started chirping

1795

01:11:46,180 --> 01:11:44,720

corresponding with the readings that

1796

01:11:48,010 --> 01:11:46,190

we're getting on the trifield the spikes

1797

01:11:49,030 --> 01:11:48,020

what's a Trifield can you tell us what

1798

01:11:51,460 --> 01:11:49,040

the Trifield meter is for those

1799

01:11:52,780 --> 01:11:51,470

listening until now yes so the Trifield

1800

01:11:54,430 --> 01:11:52,790

meters that we use they actually have

1801
01:11:56,950 --> 01:11:54,440
numerous settings but a lot of times we

1802
01:11:59,800 --> 01:11:56,960
just click it over to radio frequencies

1803
01:12:02,410 --> 01:11:59,810
and so it's it's just scanning across

1804
01:12:04,180 --> 01:12:02,420
all of the radio frequencies and it's

1805
01:12:07,720 --> 01:12:04,190
just giving us a reading as to whether

1806
01:12:09,700 --> 01:12:07,730
there's there's RF radio frequency in

1807
01:12:11,650 --> 01:12:09,710
the area and it measures the level of

1808
01:12:13,930 --> 01:12:11,660
that and you know your cell phone puts

1809
01:12:15,310 --> 01:12:13,940
it off it's kind of cool if you put it

1810
01:12:18,190 --> 01:12:15,320
up by you're close to your cell phone

1811
01:12:19,540 --> 01:12:18,200
and you send a text it'll spike so

1812
01:12:21,880 --> 01:12:19,550
anything that's putting off a radio

1813
01:12:25,390 --> 01:12:21,890

signal whether it's a cell phone or

1814

01:12:27,520 --> 01:12:25,400

Wi-Fi anything will will cause that RF

1815

01:12:31,510 --> 01:12:27,530

or Trifield meter which is measuring our

1816

01:12:33,310 --> 01:12:31,520

app pick that up awesome know anything

1817

01:12:34,930 --> 01:12:33,320

about the the reason that was curious

1818

01:12:37,510 --> 01:12:34,940

about the birds because of magnetism I

1819

01:12:39,630 --> 01:12:37,520

know aren't Birds attracted isn't that

1820

01:12:41,890 --> 01:12:39,640

how they do their their migrations I

1821

01:12:44,890 --> 01:12:41,900

mean don't they use magnetism to find

1822

01:12:50,200 --> 01:12:44,900

things and to navigate does anyone know

1823

01:12:52,690 --> 01:12:50,210

that no magnetic poles that they base

1824

01:12:55,180 --> 01:12:52,700

their migration patterns on okay you

1825

01:12:56,800 --> 01:12:55,190

know that's why i curious yeah the

1826

01:12:58,600 --> 01:12:56,810

magnetism if there's any because of the

1827

01:13:01,000 --> 01:12:58,610

magnetic anomalies that you know that

1828

01:13:02,380 --> 01:13:01,010

have supposedly occurred there that you

1829

01:13:06,460 --> 01:13:02,390

know will get to the bottom of at some

1830

01:13:08,470 --> 01:13:06,470

point I'm sure now we have the next it

1831

01:13:10,870 --> 01:13:08,480

says oh and this Thomas I think this is

1832

01:13:14,770 --> 01:13:10,880

gonna be something you know we're gonna

1833

01:13:15,760 --> 01:13:14,780

want to address because people have

1834

01:13:18,610 --> 01:13:15,770

asked you and you've shared it online

1835

01:13:20,620 --> 01:13:18,620

about being followed home with

1836

01:13:23,620 --> 01:13:20,630

hitchhikers so someone from Kent a Ken

1837

01:13:25,360 --> 01:13:23,630

from Twitter asks Tom my question is why

1838

01:13:27,400 --> 01:13:25,370

do you think something follows people

1839

01:13:28,990 --> 01:13:27,410

home after they visit what do you think

1840

01:13:30,580 --> 01:13:29,000

that is and that kind of goes into just

1841

01:13:33,000 --> 01:13:30,590

keep going that goes into somebody else

1842

01:13:34,780 --> 01:13:33,010

asking you know about your hitchhiking

1843

01:13:37,090 --> 01:13:34,790

experience stories because you don't

1844

01:13:38,470 --> 01:13:37,100

really they've got a few of them so the

1845

01:13:40,330 --> 01:13:38,480

question why do you think people

1846

01:13:41,920 --> 01:13:40,340

something follows people home after they

1847

01:13:43,210 --> 01:13:41,930

visit and what do you think it is and

1848

01:13:46,570 --> 01:13:43,220

then can you tell us a little bit about

1849

01:13:50,050 --> 01:13:46,580

your other hitchhiker stories Cheryl

1850

01:13:52,330 --> 01:13:50,060

yeah I think out of everything this is

1851

01:13:56,109 --> 01:13:52,340

the one that drives me the most crazy

1852

01:13:58,120 --> 01:13:56,119

and it's because psychology is one of my

1853

01:14:00,910 --> 01:13:58,130

favorite paths I mean it's it's one of

1854

01:14:04,390 --> 01:14:00,920

my passions and you start diving in and

1855

01:14:09,820 --> 01:14:04,400

you start thinking you know you've got

1856

01:14:11,919 --> 01:14:09,830

your your change blindness you know you

1857

01:14:13,780 --> 01:14:11,929

go buy a white Jeep Cherokee and the

1858

01:14:16,510 --> 01:14:13,790

next day suddenly everybody else bought

1859

01:14:20,229 --> 01:14:16,520

one too right you just you didn't notice

1860

01:14:22,120 --> 01:14:20,239

it before you bought one and and so I

1861

01:14:24,820 --> 01:14:22,130

look back and this is the part that

1862

01:14:26,890 --> 01:14:24,830

drives me crazy is this like is it that

1863

01:14:29,140 --> 01:14:26,900

I didn't have these experiences before I

1864

01:14:31,930 --> 01:14:29,150

started on the ranch or is it simply

1865

01:14:35,080 --> 01:14:31,940

that I had I I got on the ranch and I

1866

01:14:37,030 --> 01:14:35,090

started to become more observant to that

1867

01:14:40,870 --> 01:14:37,040

type of activity so therefore it pick it

1868

01:14:42,700 --> 01:14:40,880

up people that have an experience is it

1869

01:14:44,500 --> 01:14:42,710

just that now there reticular activating

1870

01:14:46,839 --> 01:14:44,510

system is now letting that through and

1871

01:14:48,850 --> 01:14:46,849

they're now observing it it was there

1872

01:14:51,339 --> 01:14:48,860

the whole time but they they didn't see

1873

01:14:54,700 --> 01:14:51,349

it before so that's the part that drives

1874

01:14:57,160 --> 01:14:54,710

me nuts is that I really go back and

1875

01:14:58,570 --> 01:14:57,170

forth and I'm like is it just I didn't

1876

01:15:00,280 --> 01:14:58,580

notice it before the ranch and then I

1877

01:15:03,189 --> 01:15:00,290

start working on the ranch and I start

1878

01:15:05,919 --> 01:15:03,199

noticing it or did it really uptick and

1879

01:15:09,780 --> 01:15:05,929

that being said there are a few

1880

01:15:15,070 --> 01:15:09,790

incidents that have happened at my home

1881

01:15:17,439 --> 01:15:15,080

that I can honestly say it never

1882

01:15:20,800 --> 01:15:17,449

happened before I became associated with

1883

01:15:22,510 --> 01:15:20,810

ranch now I shared that with my that

1884

01:15:25,810 --> 01:15:22,520

video of my car and the windows going

1885

01:15:28,919 --> 01:15:25,820

down not to convince anybody because I

1886

01:15:32,080 --> 01:15:28,929

can't prove that my key fob was on my

1887

01:15:34,390 --> 01:15:32,090

nightstand I can't prove that I didn't

1888

01:15:35,919 --> 01:15:34,400

go turn the camera off and run out roll

1889

01:15:38,200 --> 01:15:35,929

the windows down and run back in the

1890

01:15:40,709 --> 01:15:38,210

house actually I can prove that you know

1891

01:15:42,430 --> 01:15:40,719

I actually have I have cameras on every

1892

01:15:44,379 --> 01:15:42,440

because of some things that have

1893

01:15:46,240 --> 01:15:44,389

happened associated with the ranch and

1894

01:15:47,530 --> 01:15:46,250

and I'll just say that we've had some

1895

01:15:49,930 --> 01:15:47,540

scary things happen to our family I

1896

01:15:54,339 --> 01:15:49,940

refused to talk about in public just I

1897

01:15:56,859 --> 01:15:54,349

won't as far as the cameras going down

1898

01:16:00,280 --> 01:15:56,869

that is not the first time that one

1899

01:16:01,839 --> 01:16:00,290

camera I have quite a few cameras

1900

01:16:03,939 --> 01:16:01,849

positioned around the exterior of my own

1901

01:16:05,710 --> 01:16:03,949

than I have I have several cameras

1902

01:16:10,920 --> 01:16:05,720

inside my house that are pointed

1903

01:16:16,060 --> 01:16:13,990

for that purpose so well you know I

1904

01:16:17,530 --> 01:16:16,070

actually can prove that I never went out

1905

01:16:19,540 --> 01:16:17,540

and rolled the windows because I had

1906

01:16:22,060 --> 01:16:19,550

cameras on my all the entrances and

1907

01:16:23,470 --> 01:16:22,070

exits s of my home and I can prove that

1908

01:16:26,230 --> 01:16:23,480

nobody went in or out of the house

1909

01:16:29,530 --> 01:16:26,240

during that time period now it is

1910

01:16:31,060 --> 01:16:29,540

possible like and this way one things I

1911

01:16:33,310 --> 01:16:31,070

love about sharing it I didn't know

1912

01:16:35,470 --> 01:16:33,320

about that feature where I could just

1913

01:16:37,270 --> 01:16:35,480

hold like the car has a built-in feature

1914

01:16:39,250 --> 01:16:37,280

where if you hold the key fob the alone

1915

01:16:41,250 --> 01:16:39,260

unlock button for like three or four

1916

01:16:46,860 --> 01:16:41,260

seconds all the windows will roll down

1917

01:16:49,180 --> 01:16:46,870

so that's actually not like that

1918

01:16:51,130 --> 01:16:49,190

far-fetched for her to believe Marvin

1919

01:16:53,650 --> 01:16:51,140

yeah it could happen right the only

1920

01:16:55,270 --> 01:16:53,660

thing is I only have one key fob and I

1921

01:16:58,210 --> 01:16:55,280

won't say you know I'm not gonna go into

1922

01:17:00,010 --> 01:16:58,220

it but I can assure you you was not in

1923

01:17:02,590 --> 01:17:00,020

my pocket it was sitting on the

1924

01:17:05,830 --> 01:17:02,600

nightstand I I know exactly what I was

1925

01:17:07,690 --> 01:17:05,840

doing during that time frame I jumped in

1926

01:17:10,690 --> 01:17:07,700

the shower like I did not have the key

1927

01:17:12,640 --> 01:17:10,700

fob on me I can assure you so something

1928

01:17:14,230 --> 01:17:12,650

still has to account but what we're

1929

01:17:16,270 --> 01:17:14,240

seeing out on the ranch there's so much

1930

01:17:17,530 --> 01:17:16,280

has to do with RF that's all we're

1931

01:17:20,590 --> 01:17:17,540

seeing with the key fob is it's just

1932

01:17:22,450 --> 01:17:20,600

sending a frequency to the car to tell

1933

01:17:24,430 --> 01:17:22,460

it to roll down the windows so the car

1934

01:17:26,500 --> 01:17:24,440

has that feature but I did not activate

1935

01:17:29,740 --> 01:17:26,510

the feature so where did it come from

1936

01:17:32,080 --> 01:17:29,750

and then why did just that one camera on

1937

01:17:34,600 --> 01:17:32,090

the car none of the other cameras in my

1938

01:17:38,260 --> 01:17:34,610

home not a single one even so much as

1939

01:17:40,600 --> 01:17:38,270

glitch during that time frame and and so

1940

01:17:42,670 --> 01:17:40,610

only the camera facing the car goes down

1941

01:17:44,860 --> 01:17:42,680

for those few minutes and when it comes

1942

01:17:47,010 --> 01:17:44,870

back up the windows are down that's not

1943

01:17:49,870 --> 01:17:47,020

the only time that that has happened I

1944

01:17:52,210 --> 01:17:49,880

we had a serious incident happen in our

1945

01:17:56,320 --> 01:17:52,220

home that resulted in us actually having

1946

01:17:59,350 --> 01:17:56,330

to call authorities and coincidentally

1947

01:18:03,430 --> 01:17:59,360

enough the very place that that took

1948

01:18:07,210 --> 01:18:03,440

place in my yard that particular camera

1949

01:18:09,460 --> 01:18:07,220

was down for a few minutes prior to that

1950

01:18:12,220 --> 01:18:09,470

event taking place and and those kind of

1951

01:18:15,940 --> 01:18:12,230

things are ones that scare the hell out

1952

01:18:20,310 --> 01:18:15,950

of me frankly and and I won't talk about

1953

01:18:23,050 --> 01:18:20,320

them because there's a lot there

1954

01:18:24,640 --> 01:18:23,060

when you fail insurance companies and

1955

01:18:26,500 --> 01:18:24,650

all kinds of stuff I just don't want to

1956

01:18:28,090 --> 01:18:26,510

go there right like but I will say that

1957

01:18:30,400 --> 01:18:28,100

that's not the first time these cameras

1958

01:18:33,340 --> 01:18:30,410

have gone down and they correspond with

1959

01:18:37,060 --> 01:18:33,350

other events that I can prove wasn't any

1960

01:18:38,320 --> 01:18:37,070

of us and so that starts to you start to

1961

01:18:40,630 --> 01:18:38,330

look at that and say well what's going

1962

01:18:42,100 --> 01:18:40,640

on here and why did that happen I didn't

1963

01:18:45,250 --> 01:18:42,110

have these things happen before they

1964

01:18:49,060 --> 01:18:45,260

started working on the ranch my my life

1965

01:18:50,860 --> 01:18:49,070

was actually pretty I'm a businessman I

1966

01:18:53,170 --> 01:18:50,870

was president Rotary Club and president

1967

01:18:55,270 --> 01:18:53,180

of a non-profit humanitarian you know

1968

01:18:57,850 --> 01:18:55,280

international humanitarian I was just a

1969

01:19:00,280 --> 01:18:57,860

regular person and then I start working

1970

01:19:02,140 --> 01:19:00,290

on the ranch and I entered this Twilight

1971

01:19:05,860 --> 01:19:02,150

Zone where things start happening that I

1972

01:19:08,020 --> 01:19:05,870

can't explain and you know I will share

1973

01:19:11,110 --> 01:19:08,030

some of them as time goes on and my

1974

01:19:12,940 --> 01:19:11,120

point sharing them is simply a point of

1975

01:19:14,980 --> 01:19:12,950

hey this is what's happening I'm not

1976

01:19:17,560 --> 01:19:14,990

here to convince people because like I

1977

01:19:20,260 --> 01:19:17,570

said there's no way to provide proof for

1978

01:19:23,920 --> 01:19:20,270

some of this it's just it's it's enough

1979

01:19:28,000 --> 01:19:23,930

now that I don't know what it is I do

1980

01:19:29,920 --> 01:19:28,010

know that again we've had we've had I've

1981

01:19:33,010 --> 01:19:29,930

lost count the number of individuals

1982

01:19:35,170 --> 01:19:33,020

that come to the ranch I think I mean I

1983

01:19:36,850 --> 01:19:35,180

heard you mentioned before TJ that you

1984

01:19:39,760 --> 01:19:36,860

have things happen after you left

1985

01:19:41,890 --> 01:19:39,770

um you start to compile the data points

1986

01:19:43,600 --> 01:19:41,900

one by itself can be a coincidence maybe

1987

01:19:47,080 --> 01:19:43,610

tens a coincidence you start getting up

1988

01:19:49,180 --> 01:19:47,090

to 20 and 30 and 40 you start have to

1989

01:19:51,130 --> 01:19:49,190

start saying there there's got to be

1990

01:19:53,200 --> 01:19:51,140

something to this because the numbers

1991

01:19:55,360 --> 01:19:53,210

are just pointing well we're getting a

1992

01:19:59,380 --> 01:19:55,370

fingerprint of something here right I

1993

01:20:00,970 --> 01:19:59,390

mean I can test a you know being some

1994

01:20:03,040 --> 01:20:00,980

hitchhiker coming home with me I mean

1995

01:20:05,860 --> 01:20:03,050

back to the East Coast I have I actually

1996

01:20:07,660 --> 01:20:05,870

have video of a couple of instances that

1997

01:20:08,890 --> 01:20:07,670

I caught can i I would always get

1998

01:20:10,360 --> 01:20:08,900

frustrated my entire life you know it's

1999

01:20:12,370 --> 01:20:10,370

always like I've never seen a UFO I've

2000

01:20:14,830 --> 01:20:12,380

never seen anything out of the ordinary

2001

01:20:16,270 --> 01:20:14,840

or anything like that and I would get

2002

01:20:19,020 --> 01:20:16,280

frustrated because being someone who

2003

01:20:21,400 --> 01:20:19,030

works in television everybody has a

2004

01:20:24,670 --> 01:20:21,410

high-definition camera in their pocket I

2005

01:20:27,370 --> 01:20:24,680

am always frustrated as to why don't why

2006

01:20:29,350 --> 01:20:27,380

are there more high quality videos and I

2007

01:20:31,570 --> 01:20:29,360

you know I was always looking up and

2008

01:20:32,860 --> 01:20:31,580

then once I went to the ranch and came

2009

01:20:34,840 --> 01:20:32,870

back it was

2010

01:20:37,780 --> 01:20:34,850

it was like a light switch had been

2011

01:20:39,460 --> 01:20:37,790

flipped on and I was seeing things so

2012

01:20:41,830 --> 01:20:39,470

often that I would walk around with my

2013

01:20:42,940 --> 01:20:41,840

camera in my hand and it could be like

2014

01:20:44,110 --> 01:20:42,950

you were saying well maybe it was

2015

01:20:45,820 --> 01:20:44,120

happening before and I just wasn't

2016

01:20:48,430 --> 01:20:45,830

paying attention or didn't know what to

2017

01:20:50,470 --> 01:20:48,440

look for but I've seen thing I mean I'm

2018

01:20:51,700 --> 01:20:50,480

talking on 45th Street in the city in

2019

01:20:53,980 --> 01:20:51,710

New York City

2020

01:20:55,450 --> 01:20:53,990

things were multiple witnesses and video

2021

01:20:57,580 --> 01:20:55,460

and I'm like you've got to be kidding me

2022

01:21:00,520 --> 01:20:57,590

if this would have never this stuff

2023

01:21:01,870 --> 01:21:00,530

doesn't happen to me um so yeah and a

2024

01:21:03,730 --> 01:21:01,880

lot of other strange occurrences I'm

2025

01:21:06,460 --> 01:21:03,740

sure at some point I get you get to but

2026

01:21:08,500 --> 01:21:06,470

I there's something something I don't

2027

01:21:10,150 --> 01:21:08,510

know like tronic I'll just share you

2028

01:21:12,760 --> 01:21:10,160

know they asked for additional and I and

2029

01:21:15,580 --> 01:21:12,770

I said I have many I do I'll just say if

2030

01:21:17,170 --> 01:21:15,590

I was to group them into I didn't know

2031

01:21:19,560 --> 01:21:17,180

my car this capability because I find

2032

01:21:23,860 --> 01:21:19,570

out is it could just be a simple RF

2033

01:21:26,220 --> 01:21:23,870

anomaly right even the camera that that

2034

01:21:29,350 --> 01:21:26,230

could be the things that have happened

2035

01:21:31,750 --> 01:21:29,360

there could be a logical explanation for

2036

01:21:33,940 --> 01:21:31,760

every single one of them but we have had

2037

01:21:34,900 --> 01:21:33,950

our televisions turn themselves on in

2038

01:21:37,360 --> 01:21:34,910

the middle of the night and have

2039

01:21:39,310 --> 01:21:37,370

messages scroll across the screen we've

2040

01:21:41,560 --> 01:21:39,320

had our phones taken where we use

2041

01:21:44,220 --> 01:21:41,570

control of them and they just start they

2042

01:21:48,250 --> 01:21:44,230

start doing all kinds of weird stuff

2043

01:21:50,260 --> 01:21:48,260

we've had like our electronic devices I

2044

01:21:53,020 --> 01:21:50,270

sometimes I feel like we're transformers

2045

01:21:55,090 --> 01:21:53,030

right like where all the appliances and

2046

01:21:56,290 --> 01:21:55,100

stuff start acting and behaving like

2047

01:21:59,200 --> 01:21:56,300

robots

2048

01:22:01,150 --> 01:21:59,210

so electronics in my home my kids will

2049

01:22:02,980 --> 01:22:01,160

just tell you we've just learned like

2050

01:22:06,220 --> 01:22:02,990

the abnormal is normal at our house now

2051

01:22:08,530 --> 01:22:06,230

and it all started after I started

2052

01:22:10,570 --> 01:22:08,540

working at the wrench I'm with you I

2053

01:22:12,970 --> 01:22:10,580

mean I can again the same thing I've

2054

01:22:14,770 --> 01:22:12,980

always been a tech nerd and when I came

2055

01:22:16,000 --> 01:22:14,780

back from that from skinwalker

2056

01:22:17,110 --> 01:22:16,010

was the first time I mean I've been

2057

01:22:20,500 --> 01:22:17,120

there multiple times with the first time

2058

01:22:21,910 --> 01:22:20,510

since that first time my wife is always

2059

01:22:23,290 --> 01:22:21,920

like you know what are you doing to your

2060

01:22:24,730 --> 01:22:23,300

computer what are you doing the things

2061

01:22:26,380 --> 01:22:24,740

why is everything break when you touch

2062

01:22:28,750 --> 01:22:26,390

it I'm the guy they asked to fix things

2063

01:22:30,940 --> 01:22:28,760

or help you know programming VCR kind of

2064

01:22:32,650 --> 01:22:30,950

stuff and or fixed my computer and now

2065

01:22:34,390 --> 01:22:32,660

it's I don't want to touch anything

2066

01:22:37,630 --> 01:22:34,400

because everything I touch something

2067

01:22:39,070 --> 01:22:37,640

goes wrong so I don't know I mean Jason

2068

01:22:40,480 --> 01:22:39,080

whirring please chime in here what work

2069

01:22:41,260 --> 01:22:40,490

you know have you heard of these stories

2070

01:22:43,900 --> 01:22:41,270

I mean I'm sure you've heard these

2071

01:22:46,180 --> 01:22:43,910

stories before but is it just see you

2072

01:22:46,750 --> 01:22:46,190

Walker or their other well I think

2073

01:22:49,180 --> 01:22:46,760

that's

2074

01:22:50,919 --> 01:22:49,190

general paranormal thing is and a lot of

2075

01:22:53,410 --> 01:22:50,929

people say you know be careful what you

2076

01:22:56,049 --> 01:22:53,420

do and where you go to because it could

2077

01:22:57,700 --> 01:22:56,059

follow you home and I know that's true

2078

01:23:00,700 --> 01:22:57,710

for a lot of people and and that's

2079

01:23:07,169 --> 01:23:00,710

especially in I think more tending

2080

01:23:11,529 --> 01:23:07,179

towards the ghosts realm of paranormal

2081

01:23:13,240 --> 01:23:11,539

experience it is usually as happens a

2082

01:23:16,870 --> 01:23:13,250

lot and I know people it's happened to

2083

01:23:19,240 --> 01:23:16,880

so and again into with the UFOs it's

2084

01:23:21,370 --> 01:23:19,250

like once you see it it once it rains it

2085

01:23:23,470 --> 01:23:21,380

pours you know and I think that that

2086

01:23:26,049 --> 01:23:23,480

goes for Jason and myself as well too

2087

01:23:27,700 --> 01:23:26,059

once we started getting more involved in

2088

01:23:29,649 --> 01:23:27,710

this field strange occurrences start

2089

01:23:32,649 --> 01:23:29,659

happening you start noticing things you

2090

01:23:35,799 --> 01:23:32,659

start seeing things more often and and

2091

01:23:37,779 --> 01:23:35,809

it's surprising and and I know certain

2092

01:23:39,970 --> 01:23:37,789

people then you look at that just seem

2093

01:23:41,740 --> 01:23:39,980

to always have a million sightings and

2094

01:23:44,020 --> 01:23:41,750

it's like what are they doing they're

2095

01:23:46,140 --> 01:23:44,030

more aware and paying attention to it

2096

01:23:48,069 --> 01:23:46,150

and and something weirds happening

2097

01:23:50,589 --> 01:23:48,079

overall and it's a really weird

2098

01:23:51,729 --> 01:23:50,599

phenomena so let's let's continue with

2099

01:23:54,009 --> 01:23:51,739

these questions i Thomas thanks for

2100

01:23:55,839 --> 01:23:54,019

sharing all that with us really you know

2101

01:23:58,180 --> 01:23:55,849

that's it was hard there's a lot of

2102

01:23:59,919 --> 01:23:58,190

scary stuff but she you know having a

2103

01:24:02,259 --> 01:23:59,929

family and everything I know it's it's

2104

01:24:07,930 --> 01:24:02,269

hard that I don't know at least for me

2105

01:24:11,290 --> 01:24:07,940

as well anyway moving on so next one oh

2106

01:24:12,910 --> 01:24:11,300

this is great and I guess we did we did

2107

01:24:14,169 --> 01:24:12,920

kind of touch on it but I gotta read

2108

01:24:19,660 --> 01:24:14,179

this because it's from a guy named mr.

2109

01:24:21,069 --> 01:24:19,670

physics Twitter yes asks did the cattle

2110

01:24:23,169 --> 01:24:21,079

witness the first rocket launch

2111

01:24:24,339 --> 01:24:23,179

could that have spooked them how did

2112

01:24:25,810 --> 01:24:24,349

their time with strange activity

2113

01:24:27,149 --> 01:24:25,820

correlate to the human activities with

2114

01:24:31,600 --> 01:24:27,159

the Rockets I know we touched on it

2115

01:24:33,040 --> 01:24:31,610

there's a lot we can't get into but yeah

2116

01:24:36,370 --> 01:24:33,050

you know what never mind I think we we

2117

01:24:38,109 --> 01:24:36,380

beat that one to death it was definitely

2118

01:24:40,450 --> 01:24:38,119

they were definitely acting out of the

2119

01:24:46,750 --> 01:24:40,460

ordinary yep and it was not related to

2120

01:24:47,979 --> 01:24:46,760

Rockets okay now we have the I'm trying

2121

01:24:51,009 --> 01:24:47,989

to find another one that we haven't

2122

01:24:53,649 --> 01:24:51,019

covered here oh here's a great one

2123

01:24:56,229 --> 01:24:53,659

Thomas this is from unknown but the

2124

01:24:58,240 --> 01:24:56,239

question came in again this is I think

2125

01:25:00,100 --> 01:24:58,250

it's different Twitter they asked how

2126

01:25:01,959 --> 01:25:00,110

does your faith impasse

2127

01:25:08,109 --> 01:25:01,969

how you view and respond to the

2128

01:25:11,609 --> 01:25:08,119

strangeness Wow

2129

01:25:14,919 --> 01:25:11,619

I think everything that's taking place

2130

01:25:18,310 --> 01:25:14,929

my injury the things I've witnessed out

2131

01:25:24,370 --> 01:25:18,320

on the ranch I've been I've always been

2132

01:25:27,729 --> 01:25:24,380

very very religious my life and the

2133

01:25:34,840 --> 01:25:27,739

ranch has challenged just about every

2134

01:25:38,709 --> 01:25:34,850

aspect of my belief system and I'm just

2135

01:25:42,490 --> 01:25:38,719

gonna say that that's has probably been

2136

01:25:44,939 --> 01:25:42,500

the biggest challenge for me being

2137

01:25:48,280 --> 01:25:44,949

associated with the ranch is trying to

2138

01:25:50,770 --> 01:25:48,290

reconcile the the belief system that I

2139

01:25:54,370 --> 01:25:50,780

held before with the things that I see

2140

01:25:57,520 --> 01:25:54,380

now and and I will say that that I've

2141

01:25:58,479 --> 01:25:57,530

actually I I feel like I've gained a lot

2142

01:26:01,540 --> 01:25:58,489

of great answers

2143

01:26:03,070 --> 01:26:01,550

it's made me grow but out of everything

2144

01:26:04,780 --> 01:26:03,080

associated with the ranch that's

2145

01:26:06,970 --> 01:26:04,790

definitely been probably the biggest

2146

01:26:10,419 --> 01:26:06,980

challenge that I have had to face is

2147

01:26:12,879 --> 01:26:10,429

he's trying to reconcile my my religious

2148

01:26:16,149 --> 01:26:12,889

views and my spiritual views with some

2149

01:26:18,939 --> 01:26:16,159

other things that I've witnessed um I

2150

01:26:20,200 --> 01:26:18,949

don't know what other you know but

2151
01:26:22,229 --> 01:26:20,210
people have said about that in the past

2152
01:26:26,800 --> 01:26:22,239
if it changes people that way

2153
01:26:30,010 --> 01:26:26,810
religiously I mean I know that you you a

2154
01:26:33,550 --> 01:26:30,020
lot of you guys are are very religious

2155
01:26:35,050 --> 01:26:33,560
and it's it's a you know when I first

2156
01:26:37,090 --> 01:26:35,060
went out there it was that was kind of

2157
01:26:39,129 --> 01:26:37,100
one of the things that was just like

2158
01:26:40,770 --> 01:26:39,139
going off in my head like here are

2159
01:26:42,490 --> 01:26:40,780
people that are you know they're

2160
01:26:46,270 --> 01:26:42,500
god-fearing people like they're they

2161
01:26:47,859 --> 01:26:46,280
practice their religious and this is

2162
01:26:49,359 --> 01:26:47,869
happening they have nothing to gain by

2163
01:26:51,310 --> 01:26:49,369

saying this stuff and nothing like

2164

01:26:54,160 --> 01:26:51,320

there's no reason for people to make any

2165

01:26:55,330 --> 01:26:54,170

of this stuff up and it's kind of that's

2166

01:26:56,410 --> 01:26:55,340

the first step when you take

2167

01:26:58,899 --> 01:26:56,420

investigating something like this like

2168

01:27:02,140 --> 01:26:58,909

people you know as a television producer

2169

01:27:04,870 --> 01:27:02,150

like are is this nonsense or is it real

2170

01:27:06,550 --> 01:27:04,880

and you kind of identify the people and

2171

01:27:09,750 --> 01:27:06,560

talking to people and interviewing

2172

01:27:11,740 --> 01:27:09,760

people you determine what is and isn't

2173

01:27:13,390 --> 01:27:11,750

you know real like your [h__\h] you

2174

01:27:14,049 --> 01:27:13,400

have a [h__\h] detector and either it

2175

01:27:16,239 --> 01:27:14,059

goes off for a dozen

2176
01:27:17,709 --> 01:27:16,249
and if it doesn't then you can continue

2177
01:27:18,969 --> 01:27:17,719
taking steps and steps and steps and

2178
01:27:20,169 --> 01:27:18,979
then meeting you guys and finally

2179
01:27:22,419 --> 01:27:20,179
getting to know you and understanding

2180
01:27:24,279 --> 01:27:22,429
like yeah this is the most genuine these

2181
01:27:25,179 --> 01:27:24,289
were most genuine people I've ever you

2182
01:27:27,609 --> 01:27:25,189
know had the pleasure of dealing with

2183
01:27:29,259 --> 01:27:27,619
and you know here we are and it's like

2184
01:27:31,270 --> 01:27:29,269
everyone else is getting to see it now

2185
01:27:34,719 --> 01:27:31,280
too and and again I appreciate you

2186
01:27:36,399 --> 01:27:34,729
sharing all this with us and I mean I

2187
01:27:37,540 --> 01:27:36,409
don't know what Jason Morgan pleased I

2188
01:27:39,489 --> 01:27:37,550

mean like what are your experiences with

2189

01:27:40,479 --> 01:27:39,499

people like you know you guys interview

2190

01:27:42,159 --> 01:27:40,489

a lot of people you talk to a lot of

2191

01:27:45,579 --> 01:27:42,169

people like how how does their great the

2192

01:27:48,219 --> 01:27:45,589

impact I love their deletion in their

2193

01:27:50,049 --> 01:27:48,229

interactions of people yeah it's it's a

2194

01:27:53,109 --> 01:27:50,059

pretty normal response for anybody who

2195

01:27:55,029 --> 01:27:53,119

experiences something that they really

2196

01:27:56,919 --> 01:27:55,039

can't explain something that is out of

2197

01:27:58,569 --> 01:27:56,929

the norm out of their ordinary for them

2198

01:28:01,029 --> 01:27:58,579

and something that frankly you know

2199

01:28:02,559 --> 01:28:01,039

basically shatters what they held as

2200

01:28:04,659 --> 01:28:02,569

reality you have these these

2201
01:28:08,379 --> 01:28:04,669
life-changing experiences that you you

2202
01:28:10,479 --> 01:28:08,389
can't explain it really changes your

2203
01:28:12,099 --> 01:28:10,489
your worldview the reality you thought

2204
01:28:14,589 --> 01:28:12,109
you lived in you know you thought you

2205
01:28:18,759 --> 01:28:14,599
had these answers and and you know this

2206
01:28:21,099 --> 01:28:18,769
this defined reality explained by belief

2207
01:28:24,609 --> 01:28:21,109
systems in many cases and then things

2208
01:28:26,169 --> 01:28:24,619
happen that are outside of that it a lot

2209
01:28:28,270 --> 01:28:26,179
of people can't handle it and it's it's

2210
01:28:30,459 --> 01:28:28,280
sort of especially in the UFO world you

2211
01:28:32,290 --> 01:28:30,469
know there it's not uncommon for people

2212
01:28:35,649 --> 01:28:32,300
to just completely abandon their faith

2213
01:28:38,349 --> 01:28:35,659

based on the experiences they've had but

2214

01:28:40,659 --> 01:28:38,359

you know then on the other side religion

2215

01:28:42,639 --> 01:28:40,669

is a very big topic in the UFO world and

2216

01:28:45,099 --> 01:28:42,649

there are plenty of people who have done

2217

01:28:48,819 --> 01:28:45,109

extensive Studies on religions and

2218

01:28:52,329 --> 01:28:48,829

religions around the world and you know

2219

01:28:54,429 --> 01:28:52,339

how people would react you know if they

2220

01:28:55,449 --> 01:28:54,439

were face to face with extraterrestrials

2221

01:28:58,479 --> 01:28:55,459

we were confirmed that they're

2222

01:29:00,579 --> 01:28:58,489

intelligent extraterrestrials you know

2223

01:29:02,529 --> 01:29:00,589

it's this is a topic that is touched on

2224

01:29:04,329 --> 01:29:02,539

a lot there's some great books out there

2225

01:29:06,790 --> 01:29:04,339

some great great studies that have been

2226

01:29:08,739 --> 01:29:06,800

done but by and large it's a it's a

2227

01:29:11,529 --> 01:29:08,749

normal thing in this field and it's

2228

01:29:14,109 --> 01:29:11,539

understandable because again when the

2229

01:29:17,319 --> 01:29:14,119

world you thought or the universe the

2230

01:29:19,949 --> 01:29:17,329

reality you thought you knew existed

2231

01:29:22,689 --> 01:29:19,959

all of a sudden doesn't exist anymore

2232

01:29:23,979 --> 01:29:22,699

you have to re-evaluate things and it

2233

01:29:25,479 --> 01:29:23,989

affects people in different ways it's

2234

01:29:26,920 --> 01:29:25,489

it's it's individual it's very

2235

01:29:30,010 --> 01:29:26,930

individualized

2236

01:29:31,750 --> 01:29:30,020

yeah adding to Jason's point like you

2237

01:29:33,970 --> 01:29:31,760

mentioned this it's a huge question and

2238

01:29:36,190 --> 01:29:33,980

it's always it's one we commonly get is

2239

01:29:38,230 --> 01:29:36,200

what would happen to world's religions

2240

01:29:39,850 --> 01:29:38,240

if we discovered intelligent

2241

01:29:42,880 --> 01:29:39,860

extraterrestrial life was out there but

2242

01:29:44,860 --> 01:29:42,890

even the the Vatican has their own space

2243

01:29:48,220 --> 01:29:44,870

observatory where they actively search

2244

01:29:52,090 --> 01:29:48,230

for extraterrestrial life so you know on

2245

01:29:54,820 --> 01:29:52,100

the one hand I feel like a mindset in a

2246

01:29:59,470 --> 01:29:54,830

religion like he said it's per person so

2247

01:30:01,450 --> 01:29:59,480

it's individualized but I could see I'm

2248

01:30:04,510 --> 01:30:01,460

not specific I was raised Catholic but

2249

01:30:08,310 --> 01:30:04,520

I'm not really religious now but I could

2250

01:30:10,150 --> 01:30:08,320

see that that somehow other species and

2251

01:30:12,490 --> 01:30:10,160

extraterrestrial life could be

2252

01:30:15,190 --> 01:30:12,500

encapsulated into people's religious

2253

01:30:18,730 --> 01:30:15,200

beliefs it would just take time for them

2254

01:30:21,150 --> 01:30:18,740

to figure out you know the the the way

2255

01:30:23,260 --> 01:30:21,160

behind it a little bit so to speak hmm

2256

01:30:23,800 --> 01:30:23,270

yeah I feel like this is a topic we

2257

01:30:28,210 --> 01:30:23,810

could go on

2258

01:30:30,520 --> 01:30:28,220

well for hours so moving on you know I

2259

01:30:32,680 --> 01:30:30,530

kind of I feel like we've got a little

2260

01:30:35,140 --> 01:30:32,690

serious here and let's go to the last

2261

01:30:40,300 --> 01:30:35,150

question we have from Twitter which is

2262

01:30:43,120 --> 01:30:40,310

great is um I find this funny because I

2263

01:30:44,200 --> 01:30:43,130

didn't really know exactly a lot about

2264

01:30:46,210 --> 01:30:44,210

these things but the question we don't

2265

01:30:48,040 --> 01:30:46,220

know who it's from again it says do you

2266

01:30:50,140 --> 01:30:48,050

know of any experiments using

2267

01:30:58,620 --> 01:30:50,150

mind-expanding techniques like ayahuasca

2268

01:31:01,630 --> 01:30:58,630

or DMT on the ranch Thomas no and scene

2269

01:31:05,470 --> 01:31:01,640

that's great I know that they've been

2270

01:31:07,000 --> 01:31:05,480

talked about but no yes I know I'm sure

2271

01:31:08,800 --> 01:31:07,010

yeah I'm sure there's plenty of accounts

2272

01:31:10,180 --> 01:31:08,810

you can find out people online the

2273

01:31:12,820 --> 01:31:10,190

unknown person who sent that or your

2274

01:31:14,650 --> 01:31:12,830

question I'm sure if you googled those

2275

01:31:17,050 --> 01:31:14,660

phrases you know skinwalker ranch and

2276

01:31:19,000 --> 01:31:17,060

ayahuasca DMT you'll find some you know

2277

01:31:20,530 --> 01:31:19,010

some people have their accounts of it

2278

01:31:22,860 --> 01:31:20,540

you'd a lot of people coming out there I

2279

01:31:25,870 --> 01:31:22,870

know Thomas since you got a lot of the

2280

01:31:27,460 --> 01:31:25,880

new all of the equipment went up since a

2281

01:31:30,460 --> 01:31:27,470

lot of the equipment went up you get a

2282

01:31:34,060 --> 01:31:30,470

lot of visitors coming around you know

2283

01:31:36,220 --> 01:31:34,070

like looky-loos yeah how's how's that

2284

01:31:38,440 --> 01:31:36,230

been is it still going on right now is

2285

01:31:40,299 --> 01:31:38,450

it has it increased since the show now

2286

01:31:43,839 --> 01:31:40,309

what's your mattering not

2287

01:31:45,459 --> 01:31:43,849

yeah dragons got his hands full well I

2288

01:31:48,729 --> 01:31:45,469

know you get your hands dirty - I've

2289

01:31:52,750 --> 01:31:48,739

seen you kind of well jump in you know

2290

01:31:54,580 --> 01:31:52,760

what that's the thing about I've seen

2291

01:31:58,120 --> 01:31:54,590

people criticize some of us for the

2292

01:32:00,609 --> 01:31:58,130

emotion or the drama and what they don't

2293

01:32:02,350 --> 01:32:00,619

realize is that the the History Channel

2294

01:32:03,879 --> 01:32:02,360

Prometheus was invited guests to come in

2295

01:32:08,799 --> 01:32:03,889

on investigation that was already taking

2296

01:32:12,279 --> 01:32:08,809

place and Brandon assembled you a joke

2297

01:32:15,220 --> 01:32:12,289

you know this this hodgepodge of

2298

01:32:20,500 --> 01:32:15,230

individuals different backgrounds but

2299

01:32:23,350 --> 01:32:20,510

all of us all of us are very good at

2300

01:32:26,049 --> 01:32:23,360

whatever it is that we specialize in and

2301

01:32:29,080 --> 01:32:26,059

we complement each other well and we are

2302

01:32:31,149 --> 01:32:29,090

we're like a family and so yeah I I

2303

01:32:34,450 --> 01:32:31,159

pitch in and help on security on a

2304

01:32:37,359 --> 01:32:34,460

regular basis and and likewise I mean

2305

01:32:40,479 --> 01:32:37,369

just this past week dragon came out and

2306

01:32:42,010 --> 01:32:40,489

helped me we were moving a few cameras

2307

01:32:44,260 --> 01:32:42,020

and different things around and

2308

01:32:45,990 --> 01:32:44,270

installing some new polls and stuff and

2309

01:32:48,310 --> 01:32:46,000

he spent the whole day with me

2310

01:32:50,439 --> 01:32:48,320

installing cameras and running wire and

2311

01:32:52,299 --> 01:32:50,449

doing that kind of stuff so we all pitch

2312

01:32:55,450 --> 01:32:52,309

in and just help where it's needed and

2313

01:32:57,760 --> 01:32:55,460

and we just we got we just all helped

2314

01:32:59,319 --> 01:32:57,770

each other nice you know that's the

2315

01:33:01,299 --> 01:32:59,329

glamour of television that no one knows

2316

01:33:02,439 --> 01:33:01,309

like yeah they make it look so pretty on

2317

01:33:03,939 --> 01:33:02,449

TV but there's a lot of work that goes

2318

01:33:05,350 --> 01:33:03,949

into this and you guys are still busting

2319

01:33:07,450 --> 01:33:05,360

your ass out there I mean it is your job

2320

01:33:10,029 --> 01:33:07,460

I mean use it what you do so you know

2321

01:33:12,129 --> 01:33:10,039

the glamour of TV is when you're

2322

01:33:14,589 --> 01:33:12,139

standing in two feet of mud holding the

2323

01:33:16,330 --> 01:33:14,599

bounce card and a jungle somewhere like

2324

01:33:18,399 --> 01:33:16,340

wow I'm so happy I'm working in

2325

01:33:19,810 --> 01:33:18,409

television you know when you're when

2326

01:33:22,319 --> 01:33:19,820

you're knee-deep in cement pouring

2327

01:33:23,799 --> 01:33:22,329

cement putting up holes it's like yeah

2328

01:33:26,319 --> 01:33:23,809

awesome TV

2329

01:33:29,890 --> 01:33:26,329

well yeah I'm so happy that you're

2330

01:33:31,390 --> 01:33:29,900

having Aragon a next week because the

2331

01:33:34,359 --> 01:33:31,400

science has been ongoing since Brandon

2332

01:33:36,250 --> 01:33:34,369

bought it in one form or another and

2333

01:33:37,899 --> 01:33:36,260

just because the cameras pack up and go

2334

01:33:40,540 --> 01:33:37,909

home from the network doesn't mean the

2335

01:33:44,529 --> 01:33:40,550

science stops we continue and Eric will

2336

01:33:47,439 --> 01:33:44,539

probably tell you it's it it was very

2337

01:33:51,910 --> 01:33:47,449

challenging to try and cooperate having

2338

01:33:54,220 --> 01:33:51,920

people there it posed a whole new set of

2339

01:33:58,030 --> 01:33:54,230

challenges having a film crew on site

2340

01:34:00,640 --> 01:33:58,040

because you had to accommodate that as

2341

01:34:03,250 --> 01:34:00,650

well and so I'll say that we probably

2342

01:34:05,770 --> 01:34:03,260

get more done and are able to do better

2343

01:34:08,470 --> 01:34:05,780

science and more plants when the cameras

2344

01:34:10,420 --> 01:34:08,480

aren't there then they are but you know

2345

01:34:12,190 --> 01:34:10,430

I think it's very very important and

2346

01:34:14,260 --> 01:34:12,200

Brandon felt the same way we have I

2347

01:34:16,210 --> 01:34:14,270

remember having lots of discussions once

2348

01:34:19,210 --> 01:34:16,220

we just once we determined that there

2349

01:34:21,400 --> 01:34:19,220

was something going on at the ranch then

2350

01:34:24,430 --> 01:34:21,410

the discussion turned and it was like

2351

01:34:27,280 --> 01:34:24,440

you know Bigelow had his philosophy on

2352

01:34:29,530 --> 01:34:27,290

the data and that was to keep it there

2353

01:34:31,420 --> 01:34:29,540

very confidential we don't know what he

2354

01:34:33,330 --> 01:34:31,430

did or did not have but once we

2355

01:34:36,520 --> 01:34:33,340

established that we are seeing something

2356

01:34:38,620 --> 01:34:36,530

you cared the ranch then it then it

2357

01:34:40,870 --> 01:34:38,630

becomes what do we do with it do we hang

2358

01:34:42,700 --> 01:34:40,880

on to it to ourselves do we do we keep

2359

01:34:46,260 --> 01:34:42,710

it quiet do we release it to the public

2360

01:34:49,420 --> 01:34:46,270

and I love Brandon because he's so

2361

01:34:50,740 --> 01:34:49,430

collaborative and he just he feels like

2362

01:34:52,240 --> 01:34:50,750

the more set of eyes you put on a

2363

01:34:54,520 --> 01:34:52,250

problem the quicker you're gonna find an

2364

01:34:57,610 --> 01:34:54,530

answer and he's very transparent and

2365

01:35:00,100 --> 01:34:57,620

open and so then it you know it's like

2366

01:35:02,320 --> 01:35:00,110

well alright so we want to share this

2367

01:35:04,960 --> 01:35:02,330

and see what we're seeing and if you

2368

01:35:07,960 --> 01:35:04,970

told me the discussion of a TV show

2369

01:35:10,180 --> 01:35:07,970

never even came up when at the beginning

2370

01:35:14,740 --> 01:35:10,190

like if you told me two years years ago

2371

01:35:16,390 --> 01:35:14,750

I remember one you have first yeah and I

2372

01:35:18,400 --> 01:35:16,400

mean you were really the star at the TJ

2373

01:35:20,410 --> 01:35:18,410

cuz I remember you you reached out to me

2374

01:35:23,440 --> 01:35:20,420

on messenger and then and then it

2375

01:35:25,150 --> 01:35:23,450

evolved in the call and you did and I

2376

01:35:30,100 --> 01:35:25,160

remember kind of rolling my eyes so yeah

2377

01:35:32,590 --> 01:35:30,110

that's absolutely stupid yes no hey

2378

01:35:36,820 --> 01:35:32,600

we're gonna do a TV show on this and so

2379

01:35:39,460 --> 01:35:36,830

that was never our ambition or so

2380

01:35:41,260 --> 01:35:39,470

anyways it's been it's been a journey no

2381

01:35:43,840 --> 01:35:41,270

I mean that this is a great way to kind

2382

01:35:44,979 --> 01:35:43,850

of cap it off and you know teasing into

2383

01:35:45,880 --> 01:35:44,989

air I mean Eric Smith coming out next

2384

01:35:49,030 --> 01:35:45,890

week and we're gonna have a lot more

2385

01:35:51,820 --> 01:35:49,040

questions for him Thomas you know thanks

2386

01:35:54,640 --> 01:35:51,830

man for spending time with us you know

2387

01:35:55,930 --> 01:35:54,650

sharing your stories is awesome I mean I

2388

01:35:57,700 --> 01:35:55,940

know people gonna have some more

2389

01:36:00,940 --> 01:35:57,710

questions for you I'm sure so we got to

2390

01:36:03,850 --> 01:36:00,950

have you back later date again Thanks

2391

01:36:06,850 --> 01:36:03,860

no I enjoy it I the editors have quite a

2392

01:36:07,750 --> 01:36:06,860

job cut out for them trying to peace you

2393

01:36:09,399 --> 01:36:07,760

know keep

2394

01:36:11,470 --> 01:36:09,409

keep it scientifically sound without

2395

01:36:14,250 --> 01:36:11,480

making it so boring that we all fall

2396

01:36:16,450 --> 01:36:14,260

asleep at night watching it and so

2397

01:36:18,370 --> 01:36:16,460

there's some times when I see things

2398

01:36:20,229 --> 01:36:18,380

going and I'm like oh my gosh I'd love

2399

01:36:22,680 --> 01:36:20,239

to be able to expound on that because

2400

01:36:25,209 --> 01:36:22,690

there's so much more to the story

2401

01:36:28,259 --> 01:36:25,219

absolutely we'll get to it we'll get to

2402

01:36:31,899 --> 01:36:28,269

it this is this goes on for a while

2403

01:36:33,850 --> 01:36:31,909

thank you you guys saw it you know and

2404

01:36:35,620 --> 01:36:33,860

next week we just say next week even

2405

01:36:37,750 --> 01:36:35,630

though it shows that on we'll have Eric

2406

01:36:39,250 --> 01:36:37,760

bard on and we'll take as many questions

2407

01:36:41,049 --> 01:36:39,260

as we can get it in keep them as long as

2408

01:36:41,470 --> 01:36:41,059

we can you know we'll work them really

2409

01:36:43,779 --> 01:36:41,480

hard

2410

01:36:45,729 --> 01:36:43,789

and we'll make about two parts two

2411

01:36:47,379 --> 01:36:45,739

episodes out of it so that we'll be able

2412

01:36:49,410 --> 01:36:47,389

to bridge that gap of the week off and

2413

01:36:51,970 --> 01:36:49,420

then we'll come back with episode 5

2414

01:36:56,560 --> 01:36:51,980

which is Thomas's favorite episode which

2415

01:36:58,660 --> 01:36:56,570

I love it sounds right the data nice

2416

01:37:00,609 --> 01:36:58,670

yeah I don't know about the episode like

2417

01:37:02,859 --> 01:37:00,619

being the most entertaining although I

2418

01:37:05,770 --> 01:37:02,869

think is I don't know I'm just saying

2419

01:37:06,339 --> 01:37:05,780

like the data okay so there for the

2420

01:37:09,310 --> 01:37:06,349

record yes

2421

01:37:12,009 --> 01:37:09,320

so episode 5 season 1 episode 5

2422

01:37:14,580 --> 01:37:12,019

dangerous curves and it is on May 5

2423

01:37:19,020 --> 01:37:14,590

Cinco de Mayo so that's awesome

2424

01:37:22,689 --> 01:37:19,030

and it's a day after Maureen's birthday

2425

01:37:25,060 --> 01:37:22,699

May 4th right yep may the 4th be with

2426

01:37:27,189 --> 01:37:25,070

you is that what it is yes Star Wars day

2427

01:37:30,790 --> 01:37:27,199

nice Star Wars day that'll be awesome so

2428

01:37:32,770 --> 01:37:30,800

but again thanks Thomas and so please if

2429

01:37:35,350 --> 01:37:32,780
