The

SWINWALKER

Debrief

1
00:00:00,440 --> 00:00:38,500

[Music]

2
00:00:42,710 --> 00:00:40,760

welcome to the skinwalker debrief

3
00:00:44,750 --> 00:00:42,720

I'm your host TJ Allard and I'm one of

4
00:00:46,640 --> 00:00:44,760

the executive producers on the new TV

5
00:00:47,780 --> 00:00:46,650

series on history called the secret

6
00:00:50,570 --> 00:00:47,790

skinwalker ranch

7
00:00:53,240 --> 00:00:50,580

I'm joined each week by Jason McClellan

8
00:00:55,490 --> 00:00:53,250

and Maureen Elsberry and together we

9
00:00:58,340 --> 00:00:55,500

dissect each episode to give you more

10
00:01:00,710 --> 00:00:58,350

insight into the show jason has been

11
00:01:02,689 --> 00:01:00,720

exploring all the strange for more than

12
00:01:05,499 --> 00:01:02,699

a decade he's appeared on that geo

13
00:01:08,810 --> 00:01:05,509

sci-fi history and he's the author of

14

00:01:10,990 --> 00:01:08,820

only weirdos see UFOs an introduction to

15

00:01:12,980 --> 00:01:11,000

the public's misperception of

16

00:01:15,170 --> 00:01:12,990

unidentified aerial phenomenon and

17

00:01:17,060 --> 00:01:15,180

extraterrestrial life and Maureen is a

18

00:01:19,130 --> 00:01:17,070

journalist researcher and podcaster

19

00:01:21,350 --> 00:01:19,140

specializing in the anomalous she

20

00:01:23,450 --> 00:01:21,360

started a docu-series uncovering aliens

21

00:01:25,370 --> 00:01:23,460

on Animal Planet and served as the

22

00:01:28,550 --> 00:01:25,380

ambassador for science channels are we

23

00:01:31,270 --> 00:01:28,560

alone initiative and tonight our special

24

00:01:34,160 --> 00:01:31,280

guest is none other than Eric bard

25

00:01:37,730 --> 00:01:34,170

plasma physicist and principal

26

00:01:39,800 --> 00:01:37,740

investigator at skinwalker ranch Eric

27

00:01:41,510 --> 00:01:39,810

thank you for joining us tonight we're

28

00:01:44,779 --> 00:01:41,520

excited to talk to you thanks for the

29

00:01:46,490 --> 00:01:44,789

invite this is great so before we go too

30

00:01:49,160 --> 00:01:46,500

far into anything else can you tell us a

31

00:01:50,779 --> 00:01:49,170

bit about your role can you explain to

32

00:01:52,850 --> 00:01:50,789

everyone what you do on the ranch I

33

00:01:54,589 --> 00:01:52,860

regular basis well as principal

34

00:01:58,430 --> 00:01:54,599

investigator you know my role is

35

00:02:01,490 --> 00:01:58,440

basically observational point program

36

00:02:03,559 --> 00:02:01,500

that you know the first phases of what

37

00:02:05,449 --> 00:02:03,569

we've done since since the beginning of

38

00:02:09,740 --> 00:02:05,459

our work in 2016 let's basically just

39

00:02:11,690 --> 00:02:09,750

take the data see if we can find in our

40

00:02:13,729 --> 00:02:11,700

data streams including video and audio

41

00:02:15,110 --> 00:02:13,739

and seismic and infrasonic and

42

00:02:17,690 --> 00:02:15,120

electromagnetic measurements if we could

43

00:02:20,960 --> 00:02:17,700

find anything that correlates with the

44

00:02:22,040 --> 00:02:20,970

narrative that we've inherited simply

45

00:02:23,960 --> 00:02:22,050

can find anything that corresponds to

46

00:02:26,540 --> 00:02:23,970

some of the rich history that's been

47

00:02:28,580 --> 00:02:26,550

part of the skinwalkers story since

48

00:02:31,699 --> 00:02:28,590

going back to at least the 1990s and on

49

00:02:34,699 --> 00:02:31,709

the floor so typically the way we run

50

00:02:36,140 --> 00:02:34,709

through the show we would when there is

51
00:02:38,059 --> 00:02:36,150
an episode on we go through the blocks

52
00:02:40,640 --> 00:02:38,069
and for those who don't know in

53
00:02:43,069 --> 00:02:40,650
television there's there are blocks a

54
00:02:46,160 --> 00:02:43,079
block B block and C Block B Block in

55
00:02:47,270 --> 00:02:46,170
this case we go all the way to F and so

56
00:02:49,940 --> 00:02:47,280
the blocks are essentially

57
00:02:52,910 --> 00:02:49,950
the space between the commercials so as

58
00:02:55,220 --> 00:02:52,920
soon as you come back into a show we

59
00:02:57,230 --> 00:02:55,230
would initially start with the recap of

60
00:02:58,670 --> 00:02:57,240
the previous episode and the way we left

61
00:03:00,710 --> 00:02:58,680
off because now we've been off a week

62
00:03:03,350 --> 00:03:00,720
and we left off with the last episode

63
00:03:05,630 --> 00:03:03,360

high strangeness not to get too deep

64

00:03:07,910 --> 00:03:05,640

into it but Erik just give us the real

65

00:03:19,190 --> 00:03:07,920

quick we saw something in the sky what

66

00:03:23,060 --> 00:03:19,200

was it all right then yeah the fifth

67

00:03:25,220 --> 00:03:23,070

okay I believe the scientific bit yeah

68

00:03:26,540 --> 00:03:25,230

just what are people in saying to you

69

00:03:28,250 --> 00:03:26,550

about that like over that since it had

70

00:03:29,570 --> 00:03:28,260

happened what do people talk to you

71

00:03:31,520 --> 00:03:29,580

about like I mean I'm sure you're

72

00:03:33,740 --> 00:03:31,530

bombarded with questions so what are the

73

00:03:36,979 --> 00:03:33,750

most obvious you get and or different

74

00:03:40,280 --> 00:03:36,989

responses but you know I enjoy a certain

75

00:03:41,840 --> 00:03:40,290

degree of isolation insulation and so

76

00:03:43,910 --> 00:03:41,850

far as I don't have any social media

77

00:03:46,370 --> 00:03:43,920

presence at all and I think that works

78

00:03:48,410 --> 00:03:46,380

well for me I haven't seen a lot of

79

00:03:52,009 --> 00:03:48,420

questions about what's been shown on the

80

00:03:55,160 --> 00:03:52,019

television programs and I've just been

81

00:03:58,310 --> 00:03:55,170

focusing on the ongoing work since the

82

00:03:59,840 --> 00:03:58,320

program began I I can imagine that

83

00:04:01,430 --> 00:03:59,850

there's quite a bit of discussion taking

84

00:04:01,789 --> 00:04:01,440

place but I haven't really been a part

85

00:04:05,420 --> 00:04:01,799

of it

86

00:04:09,680 --> 00:04:05,430

so this since it isn't an episode this

87

00:04:13,250 --> 00:04:09,690

week Erik Jason knows Murray knows the

88

00:04:15,680 --> 00:04:13,260

internet kind of threw up a whole bunch

89

00:04:18,349 --> 00:04:15,690

of questions for you once we put it out

90

00:04:21,590 --> 00:04:18,359

there I saw Maureen posting stuff Jason

91

00:04:23,900 --> 00:04:21,600

posting stuff I was posting things so I

92

00:04:26,480 --> 00:04:23,910

think the best way would be to kind of

93

00:04:28,909 --> 00:04:26,490

just get into questions but I think

94

00:04:31,040 --> 00:04:28,919

maybe this week that's head you know so

95

00:04:32,600 --> 00:04:31,050

we have some email questions first let's

96

00:04:34,279 --> 00:04:32,610

go down like Jason why don't you go

97

00:04:36,020 --> 00:04:34,289

through the email questions with him and

98

00:04:38,000 --> 00:04:36,030

then morning you could hit the Twitter

99

00:04:40,000 --> 00:04:38,010

ones and then I'll take the Facebook

100

00:04:43,760 --> 00:04:40,010

questions that we got that cool that

101
00:04:46,430 --> 00:04:43,770
work you guys yeah that works but can I

102
00:04:48,469 --> 00:04:46,440
start we don't get a quick question an

103
00:04:50,779 --> 00:04:48,479
overuse question because I know a lot of

104
00:04:52,760 --> 00:04:50,789
people have asked this and you know

105
00:04:56,120 --> 00:04:52,770
Thomas tried to cover just like a really

106
00:04:58,250 --> 00:04:56,130
brief statement about this last episode

107
00:05:00,750 --> 00:04:58,260
but there's been a lot of people who

108
00:05:02,970 --> 00:05:00,760
have questions on how you've set up

109
00:05:04,860 --> 00:05:02,980
surveillance equipment like what is that

110
00:05:08,640 --> 00:05:04,870
like how many cameras are on the ranch

111
00:05:11,400 --> 00:05:08,650
how are they connected with the I know

112
00:05:13,740 --> 00:05:11,410
that they're hardwired but I think like

113
00:05:16,920 --> 00:05:13,750

a really brief overview of that would be

114

00:05:19,230 --> 00:05:16,930

super helpful to people yeah sure so in

115

00:05:21,780 --> 00:05:19,240

the beginning when we came onto the

116

00:05:24,990 --> 00:05:21,790

property there were no functioning

117

00:05:29,550 --> 00:05:25,000

surveillance assets at all and we took

118

00:05:32,160 --> 00:05:29,560

the approach of minimal invasiveness we

119

00:05:35,960 --> 00:05:32,170

didn't really want to deploy too much we

120

00:05:38,940 --> 00:05:35,970

did particularly I didn't want to

121

00:05:41,100 --> 00:05:38,950

broadcast a lot of RF meaning a lot of

122

00:05:42,930 --> 00:05:41,110

electromagnetic signals into the

123

00:05:47,580 --> 00:05:42,940

environment so we went with a wired

124

00:05:49,940 --> 00:05:47,590

system really a very simple minimalist

125

00:05:51,900 --> 00:05:49,950

system to just watch the property

126
00:05:57,330 --> 00:05:51,910
particularly on the east end of the

127
00:06:00,720 --> 00:05:57,340
property and we began recording video

128
00:06:03,390 --> 00:06:00,730
and shortly thereafter I began taking

129
00:06:04,260 --> 00:06:03,400
some other measurements including some

130
00:06:07,790 --> 00:06:04,270
that I've mentioned a few times

131
00:06:10,260 --> 00:06:07,800
including seismic and infrasonic and

132
00:06:11,550 --> 00:06:10,270
electromagnetic measurements looking for

133
00:06:14,610 --> 00:06:11,560
transients looking for correlations

134
00:06:18,210 --> 00:06:14,620
between things that might take place in

135
00:06:25,850 --> 00:06:18,220
all of those data streams pretty decent

136
00:06:28,650 --> 00:06:25,860
explanation yeah I mean or at least try

137
00:06:30,690 --> 00:06:28,660
no you know what something we haven't

138
00:06:34,230 --> 00:06:30,700

talked about yet Erik there's been a lot

139

00:06:36,390 --> 00:06:34,240

of them so the way these systems were

140

00:06:39,360 --> 00:06:36,400

set up when I went out there something

141

00:06:40,260 --> 00:06:39,370

you guys did was really unique and it

142

00:06:41,790 --> 00:06:40,270

was about the bunker

143

00:06:44,610 --> 00:06:41,800

like building these bunkers either

144

00:06:47,040 --> 00:06:44,620

underground bunkers oh so no one I don't

145

00:06:50,010 --> 00:06:47,050

think we've actually gotten any insight

146

00:06:53,610 --> 00:06:50,020

into that so what was it before and then

147

00:06:55,260 --> 00:06:53,620

what did you do to prevent all of the

148

00:06:57,210 --> 00:06:55,270

problems that were happening or to try

149

00:06:58,590 --> 00:06:57,220

to stop as many problems as you could so

150

00:07:02,010 --> 00:06:58,600

how did how did that come about like

151
00:07:04,290 --> 00:07:02,020
these bunkers sure so I think what you

152
00:07:06,360 --> 00:07:04,300
mean by problems our equipment

153
00:07:10,200 --> 00:07:06,370
malfunctions yes exactly what I mean

154
00:07:12,480 --> 00:07:10,210
yeah sure so one of the ideas early on

155
00:07:14,070 --> 00:07:12,490
which eventually became part of our

156
00:07:18,360 --> 00:07:14,080
program was an undergrad

157
00:07:21,629 --> 00:07:18,370
on location where we have you know

158
00:07:23,670 --> 00:07:21,639
electrical power and we have network

159
00:07:25,920 --> 00:07:23,680
connectivity so that we can put some

160
00:07:28,170 --> 00:07:25,930
equipment in that location

161
00:07:29,779 --> 00:07:28,180
beneath ground level and take the

162
00:07:32,939 --> 00:07:29,789
measurements that I've spoken of

163
00:07:34,589 --> 00:07:32,949

including the seismic infrasonic in the

164

00:07:37,709 --> 00:07:34,599

beginning and then heading to that

165

00:07:39,029 --> 00:07:37,719

electromagnetic measurements you know we

166

00:07:42,480 --> 00:07:39,039

have probes that stick up above the

167

00:07:44,159 --> 00:07:42,490

ground and so we basically got a

168

00:07:46,890 --> 00:07:44,169

continuous data stream that I can

169

00:07:48,839 --> 00:07:46,900

monitor from basically anywhere that

170

00:07:50,790 --> 00:07:48,849

allows it's there's a signal that comes

171

00:07:55,200 --> 00:07:50,800

to me from the from the platform that

172

00:07:59,459 --> 00:07:55,210

I've named Satan that alerts me to any

173

00:08:02,100 --> 00:07:59,469

kind of unusual Peaks any anything that

174

00:08:09,119 --> 00:08:02,110

really I can define what's interesting

175

00:08:10,050 --> 00:08:09,129

to me in this easier sorry you know

176

00:08:12,929 --> 00:08:10,060

saying and these things look like

177

00:08:15,420 --> 00:08:12,939

underground sewer talk like concrete

178

00:08:18,059 --> 00:08:15,430

sewer tunnels essentially yeah sure sure

179

00:08:20,040 --> 00:08:18,069

we've got you know we've referred to it

180

00:08:22,379 --> 00:08:20,050

I don't I don't to be irreverent but we

181

00:08:24,869 --> 00:08:22,389

referred to the locations the Satan pit

182

00:08:26,399 --> 00:08:24,879

right you know the idea is is this

183

00:08:29,249 --> 00:08:26,409

platform it's beneath the ground level

184

00:08:32,180 --> 00:08:29,259

and you know it sits there and just what

185

00:08:34,350 --> 00:08:32,190

it's monitoring things right now and so

186

00:08:35,519 --> 00:08:34,360

during the live stream which you may

187

00:08:37,949 --> 00:08:35,529

remember there was some there were some

188

00:08:39,420 --> 00:08:37,959

graphics but sometimes in the lower

189

00:08:43,079 --> 00:08:39,430

portion of the screen and you were

190

00:08:46,380 --> 00:08:43,089

looking at live output from a couple of

191

00:08:48,180 --> 00:08:46,390

those platforms Maureen I'm sorry I cut

192

00:08:50,130 --> 00:08:48,190

you off please oh no it's okay I was

193

00:08:52,769 --> 00:08:50,140

just wondering then if you're you're

194

00:08:57,060 --> 00:08:52,779

sitting at home and your phones blowing

195

00:08:58,290 --> 00:08:57,070

up all the time it alerts 24/7 instead

196

00:09:02,069 --> 00:08:58,300

of seeing if somebody's stealing your

197

00:09:11,819 --> 00:09:02,079

package it's somebody mutilating a cow

198

00:09:16,380 --> 00:09:11,829

that's a bad example but so what I'm

199

00:09:18,090 --> 00:09:16,390

what I'm looking for are unusual signals

200

00:09:20,910 --> 00:09:18,100

signals that go above the background

201
00:09:22,740 --> 00:09:20,920
level I'm particularly interested in

202
00:09:27,929 --> 00:09:22,750
certain frequency ranges as you might

203
00:09:29,219 --> 00:09:27,939
imagine and I'm really excited when I

204
00:09:31,109 --> 00:09:29,229
see something happening in the

205
00:09:32,819 --> 00:09:31,119
individual field of the cameras or

206
00:09:36,439 --> 00:09:32,829
something that I can hear in the audio

207
00:09:38,189 --> 00:09:36,449
stream that that correlates with the

208
00:09:43,169 --> 00:09:38,199
with the measurements that I've

209
00:09:45,149 --> 00:09:43,179
mentioned on the satan platform yes so

210
00:09:47,309 --> 00:09:45,159
do we one let's just jump into rest of

211
00:09:49,199 --> 00:09:47,319
these questions whether whichever one of

212
00:09:51,719 --> 00:09:49,209
you wants to you know first thing yes

213
00:09:54,569 --> 00:09:51,729

yeah we'll well we'll go through through

214

00:09:57,329 --> 00:09:54,579

the email questions first sure all right

215

00:10:01,949 --> 00:09:57,339

we have an email from Chris and Chris

216

00:10:04,349 --> 00:10:01,959

asks would like to clarify that during

217

00:10:06,629 --> 00:10:04,359

Lookout events involving batteries do

218

00:10:09,239 --> 00:10:06,639

the batteries die and all electrical

219

00:10:11,309 --> 00:10:09,249

potential is equalized or is it that due

220

00:10:13,949 --> 00:10:11,319

to some field the electrons in the

221

00:10:15,509 --> 00:10:13,959

batteries don't flow in other words do

222

00:10:17,879 --> 00:10:15,519

you ever see devices that don't work

223

00:10:21,179 --> 00:10:17,889

seemingly due to low voltage but then

224

00:10:23,189 --> 00:10:21,189

later work without charging you know

225

00:10:25,199 --> 00:10:23,199

there there are a few questions embedded

226

00:10:28,009 --> 00:10:25,209

in that question and they're all good

227

00:10:30,659 --> 00:10:28,019

ones I really like that one you know as

228

00:10:32,849 --> 00:10:30,669

coincidence would have it when I was a

229

00:10:36,029 --> 00:10:32,859

graduate student I worked in a company

230

00:10:38,849 --> 00:10:36,039

that manufactured battery chargers and

231

00:10:40,369 --> 00:10:38,859

maintenance circuits and so I'm pretty

232

00:10:42,919 --> 00:10:40,379

familiar with charge and discharge

233

00:10:46,109 --> 00:10:42,929

algorithms in other words how we manage

234

00:10:47,759 --> 00:10:46,119

battery power book you know charging the

235

00:10:51,559 --> 00:10:47,769

batteries up and making sure that

236

00:10:55,199 --> 00:10:51,569

they're not damaged during use I ran a

237

00:10:56,879 --> 00:10:55,209

test lab for batteries and so one of the

238

00:10:58,739 --> 00:10:56,889

things that we sometimes overlook when

239

00:11:00,409 --> 00:10:58,749

we talk about battery malfunction is the

240

00:11:04,139 --> 00:11:00,419

fact that there's actually a circuit

241

00:11:05,669 --> 00:11:04,149

that usually governs the flow of current

242

00:11:07,019 --> 00:11:05,679

in and out of the battery I don't want

243

00:11:09,329 --> 00:11:07,029

to bore you with the details both but

244

00:11:11,189 --> 00:11:09,339

one of the important points going to

245

00:11:14,329 --> 00:11:11,199

this question is that sometimes I'm

246

00:11:17,009 --> 00:11:14,339

convinced what we're seeing is not

247

00:11:18,719 --> 00:11:17,019

damaged or even a malfunction of the

248

00:11:20,819 --> 00:11:18,729

battery itself but of the circuitry

249

00:11:23,219 --> 00:11:20,829

whose job it is to maintain the health

250

00:11:27,089 --> 00:11:23,229

of the battery did that make sense

251
00:11:29,009 --> 00:11:27,099
hmm absolutely and yeah and there and

252
00:11:30,839 --> 00:11:29,019
there's some follow-up to that it's

253
00:11:32,460 --> 00:11:30,849
really interesting we see a lot of times

254
00:11:35,369 --> 00:11:32,470
with our mobile devices we see

255
00:11:37,259 --> 00:11:35,379
anomalously high rates of discharge we

256
00:11:40,229 --> 00:11:37,269
see better we see you know for example

257
00:11:41,830 --> 00:11:40,239
our cell phones may may 1 minute

258
00:11:44,770 --> 00:11:41,840
indicate that they're at 50%

259
00:11:46,360 --> 00:11:44,780
even 90% charge and moments later we'll

260
00:11:48,220 --> 00:11:46,370
see that they're shutting down you know

261
00:11:51,550 --> 00:11:48,230
their one percent you know what happened

262
00:11:53,350 --> 00:11:51,560
well that can be due to a depletion of

263
00:11:56,950 --> 00:11:53,360

the battery itself but it can also be

264

00:11:59,290 --> 00:11:56,960

due to really a malfunction something

265

00:12:02,980 --> 00:11:59,300

that is interfering with the circuitry

266

00:12:04,390 --> 00:12:02,990

whose job it is to monitor the state of

267

00:12:07,450 --> 00:12:04,400

health or state of charge of the battery

268

00:12:09,670 --> 00:12:07,460

and I have some evidence to support the

269

00:12:11,830 --> 00:12:09,680

idea that it's really the latter so

270

00:12:14,980 --> 00:12:11,840

before going on to the next question

271

00:12:17,620 --> 00:12:14,990

Erik you and I had a in experience with

272

00:12:20,530 --> 00:12:17,630

my phone while we were there and I saw

273

00:12:22,270 --> 00:12:20,540

it on the table during the first episode

274

00:12:25,960 --> 00:12:22,280

at least believe that was it

275

00:12:28,390 --> 00:12:25,970

out there yeah can you keep can you kind

276

00:12:30,370 --> 00:12:28,400

of explain so my phone bricked while we

277

00:12:32,980 --> 00:12:30,380

were there just like a lot of other

278

00:12:35,350 --> 00:12:32,990

people's have but we could I'm sorry

279

00:12:37,720 --> 00:12:35,360

have you shared this story before no I

280

00:12:40,360 --> 00:12:37,730

really haven't so please I want I would

281

00:12:46,270 --> 00:12:40,370

love your technical presentation of it

282

00:12:49,030 --> 00:12:46,280

like what happened to my phone Erica for

283

00:12:50,770 --> 00:12:49,040

you to describe what you saw as as the

284

00:12:52,660 --> 00:12:50,780

guy just you know holding the device and

285

00:12:55,810 --> 00:12:52,670

then I can jump in with the technical

286

00:12:58,630 --> 00:12:55,820

side is that okay yeah please so what

287

00:13:00,550 --> 00:12:58,640

had happened my I think was this after

288

00:13:04,120 --> 00:13:00,560

my you had to check my heart rate that

289

00:13:06,790 --> 00:13:04,130

was jumping up to like 170 or 200 as we

290

00:13:08,980 --> 00:13:06,800

were doing things on the ranch I think

291

00:13:12,910 --> 00:13:08,990

you reported that your heart rate was

292

00:13:14,950 --> 00:13:12,920

registering 176 and the meter right when

293

00:13:17,770 --> 00:13:14,960

I got out there I did manually check

294

00:13:19,540 --> 00:13:17,780

your pulse and I think it was 124 okay

295

00:13:21,070 --> 00:13:19,550

so we were still up there but for no

296

00:13:24,280 --> 00:13:21,080

reason there was no reason for it to be

297

00:13:27,310 --> 00:13:24,290

that way and then my phone so what I had

298

00:13:29,290 --> 00:13:27,320

done is I believed that the charging

299

00:13:30,880 --> 00:13:29,300

meter I plugged it into charge because

300

00:13:33,220 --> 00:13:30,890

it had just stopped it shut off our

301
00:13:36,220 --> 00:13:33,230
drone died one of the cameras died some

302
00:13:39,820 --> 00:13:36,230
audio died and then my my phone just

303
00:13:41,080 --> 00:13:39,830
bricked and so I tried to plug it in it

304
00:13:43,150 --> 00:13:41,090
just sat there plugged in nothing

305
00:13:46,060 --> 00:13:43,160
happened I brought it inside to Erik and

306
00:13:48,100 --> 00:13:46,070
I was like he's laughing at me like what

307
00:13:49,810 --> 00:13:48,110
are you doing man I'm put in the freezer

308
00:13:51,850 --> 00:13:49,820
I threw it almost nonsense and he's like

309
00:13:53,800 --> 00:13:51,860
I don't know if that's gonna help

310
00:13:55,660 --> 00:13:53,810
I don't think yours won't do stuff like

311
00:13:57,430 --> 00:13:55,670
that just you know we plugged it in

312
00:13:58,960 --> 00:13:57,440
and ultimately I was like look I can't

313
00:14:01,330 --> 00:13:58,970

get this to work I'm gonna have to get a

314

00:14:03,490 --> 00:14:01,340

new phone you know what here it's yours

315

00:14:06,850 --> 00:14:03,500

just do it do with it what you may

316

00:14:09,250 --> 00:14:06,860

and we never got it I never got it going

317

00:14:12,040 --> 00:14:09,260

again but you did you brought it back to

318

00:14:16,660 --> 00:14:12,050

life somehow very so this this was a

319

00:14:18,970 --> 00:14:16,670

samsung phone a Galaxy s8 correct and

320

00:14:22,510 --> 00:14:18,980

and so when you when you gave me that

321

00:14:24,490 --> 00:14:22,520

phone I look I'm not a phone expert so I

322

00:14:29,620 --> 00:14:24,500

decided to take it to one of the repair

323

00:14:31,570 --> 00:14:29,630

outlets and I I requested that we get a

324

00:14:33,880 --> 00:14:31,580

diagnostic as to what the heck was wrong

325

00:14:35,440 --> 00:14:33,890

with it but I didn't want it repaired so

326

00:14:37,420 --> 00:14:35,450

I instructed the gentleman who took the

327

00:14:39,180 --> 00:14:37,430

phone just just take it apart see if you

328

00:14:41,710 --> 00:14:39,190

can figure out what's wrong with it and

329

00:14:44,200 --> 00:14:41,720

let me know and he gave it back to me at

330

00:14:46,530 --> 00:14:44,210

pieces I cuz I've got some ideas of what

331

00:14:48,850 --> 00:14:46,540

I might do with it afterwards and so

332

00:14:50,290 --> 00:14:48,860

shortly after dropping it off I got a

333

00:14:51,430 --> 00:14:50,300

call from these guys who said the

334

00:14:55,360 --> 00:14:51,440

battery's dead

335

00:14:57,250 --> 00:14:55,370

it's basically inside out and so I asked

336

00:15:00,460 --> 00:14:57,260

them about the date code on the battery

337

00:15:02,620 --> 00:15:00,470

they told me that it was not so old that

338

00:15:06,340 --> 00:15:02,630

it should have reached end-of-life that

339

00:15:07,720 --> 00:15:06,350

was interesting so again this gets into

340

00:15:10,510 --> 00:15:07,730

the weeds I'm afraid that this might be

341

00:15:11,860 --> 00:15:10,520

a little tedious for some but I think

342

00:15:15,480 --> 00:15:11,870

people look people really want to hear

343

00:15:25,290 --> 00:15:20,800

so so I put the original battery and I

344

00:15:28,180 --> 00:15:25,300

took the phone in pieces and I

345

00:15:30,250 --> 00:15:28,190

discovered that that I was able to trick

346

00:15:33,130 --> 00:15:30,260

the phone into charging your your dead

347

00:15:34,720 --> 00:15:33,140

battery and so deeply discharged that it

348

00:15:36,310 --> 00:15:34,730

was latched out you know basically the

349

00:15:39,040 --> 00:15:36,320

circuitry was not allowing it to accept

350

00:15:40,000 --> 00:15:39,050

the charge I resuscitated it and took it

351

00:15:41,500 --> 00:15:40,010

through several charge and discharge

352

00:15:45,610 --> 00:15:41,510

cycles and Founder your phone works just

353

00:15:47,320 --> 00:15:45,620

fine and that was puzzling I thought

354

00:15:50,530 --> 00:15:47,330

okay well it was a maybe it was a

355

00:15:51,970 --> 00:15:50,540

one-off kind of of an exception you know

356

00:15:55,030 --> 00:15:51,980

this is something happened out there

357

00:15:56,350 --> 00:15:55,040

that latched your phone off and all it

358

00:15:58,030 --> 00:15:56,360

needed was you know effectively a

359

00:16:00,610 --> 00:15:58,040

jump-start by some non-conventional

360

00:16:03,120 --> 00:16:00,620

playing around with the insights which

361

00:16:06,880 --> 00:16:03,130

you can only do with phones open so I

362

00:16:09,369 --> 00:16:06,890

discovered later however that if the

363

00:16:10,599 --> 00:16:09,379

phone discharged

364

00:16:12,669 --> 00:16:10,609

you know - what would normally be the

365

00:16:14,499 --> 00:16:12,679

shut-off condition it latched out every

366

00:16:16,779 --> 00:16:14,509

time in other words there's some kind of

367

00:16:18,400 --> 00:16:16,789

permanent damage going to the point that

368

00:16:19,599 --> 00:16:18,410

I made earlier there appears to be some

369

00:16:22,210 --> 00:16:19,609

kind of permanent damage to the

370

00:16:26,799 --> 00:16:22,220

circuitry whose job it is to manage the

371

00:16:29,289 --> 00:16:26,809

battery and I found that this same

372

00:16:31,599 --> 00:16:29,299

condition applies to both the old

373

00:16:33,639 --> 00:16:31,609

battery and the brand new one that I

374

00:16:35,219 --> 00:16:33,649

purchased that means that that ownership

375

00:16:37,359 --> 00:16:35,229

of the problem is someone who decided to

376

00:16:42,999 --> 00:16:37,369

anybody the phone it's not just in the

377

00:16:45,189 --> 00:16:43,009

church manager on that and that's right

378

00:16:46,689 --> 00:16:45,199

in mine I mean look you talked about a

379

00:16:48,339 --> 00:16:46,699

drone malfunctioning you talked about

380

00:16:49,960 --> 00:16:48,349

some problems of camera equipment but

381

00:16:51,879 --> 00:16:49,970

this is not uncommon this is something

382

00:16:53,949 --> 00:16:51,889

that we deal with episodically on a

383

00:16:55,989 --> 00:16:53,959

range there's something interfering with

384

00:16:59,439 --> 00:16:55,999

our devices and as far as I'm concerned

385

00:17:00,819 --> 00:16:59,449

that's data mm-hmm absolutely absolutely

386

00:17:02,889 --> 00:17:00,829

you know I mean if I witnessed this

387

00:17:04,449 --> 00:17:02,899

firsthand I lost my phone anything had

388

00:17:08,169 --> 00:17:04,459

to get another phone and we bust our

389

00:17:09,759 --> 00:17:08,179

drone so but anyway no that's a great

390

00:17:11,559 --> 00:17:09,769

thank you for the explanation and then

391

00:17:13,960 --> 00:17:11,569

we found some kind of random what was

392

00:17:16,389 --> 00:17:13,970

that like robot Terminator looking thing

393

00:17:18,129 --> 00:17:16,399

did we ever determine what that was so

394

00:17:19,539 --> 00:17:18,139

like so he stripped everything down and

395

00:17:23,100 --> 00:17:19,549

he try to boot up the operating system

396

00:17:25,899 --> 00:17:23,110

and some freaky ass looking robot

397

00:17:28,230 --> 00:17:25,909

graphic was just showing up on it like

398

00:17:31,600 --> 00:17:28,240

my phone had been hacked it's like uh

399

00:17:36,129 --> 00:17:31,610

what is this man I have no explanation

400

00:17:37,419 --> 00:17:36,139

for that I know no picture I'm gonna

401
00:17:38,649 --> 00:17:37,429
find a picture for everybody and you

402
00:17:39,700 --> 00:17:38,659
guys could tell me somebody maybe

403
00:17:40,990 --> 00:17:39,710
someone will know what it is oh

404
00:17:42,669 --> 00:17:41,000
absolutely

405
00:17:48,159 --> 00:17:42,679
someone out there will know what it is

406
00:17:50,889 --> 00:17:48,169
well absolutely well looks like no

407
00:17:53,169 --> 00:17:50,899
screen background oh yeah I just I don't

408
00:17:54,879 --> 00:17:53,179
know why it would be on there it made no

409
00:17:57,129 --> 00:17:54,889
sense if you didn't put it on there I

410
00:17:58,930 --> 00:17:57,139
sure didn't it was like a it was like a

411
00:18:00,430 --> 00:17:58,940
graphic from a ROM or something that

412
00:18:02,409 --> 00:18:00,440
someone had side loaded onto the phone

413
00:18:04,210 --> 00:18:02,419

but I didn't do any of that and so it

414

00:18:05,740 --> 00:18:04,220

was like either someone had hacked my

415

00:18:07,779 --> 00:18:05,750

device and kind of ran something

416

00:18:08,980 --> 00:18:07,789

underneath which I don't think happened

417

00:18:12,940 --> 00:18:08,990

could I don't put it in positions like

418

00:18:14,680 --> 00:18:12,950

that but anyway uh Jason please go on

419

00:18:16,180 --> 00:18:14,690

the next one here so because we are

420

00:18:17,950 --> 00:18:16,190

going down to the phone room so all

421

00:18:21,039 --> 00:18:17,960

right let's jump to the next question

422

00:18:22,150 --> 00:18:21,049

and this is a question that covers two

423

00:18:25,210 --> 00:18:22,160

different things

424

00:18:28,029 --> 00:18:25,220

Betsie asks have you seen the shadow

425

00:18:32,230 --> 00:18:28,039

people if so please describe and also

426

00:18:35,020 --> 00:18:32,240

have you seen a portal open up so I

427

00:18:38,950 --> 00:18:35,030

don't know who the shadow people might

428

00:18:43,120 --> 00:18:38,960

be I have heard reports of sort of

429

00:18:45,580 --> 00:18:43,130

amorphous black I might even say

430

00:18:47,409 --> 00:18:45,590

humanoid forms other people have given

431

00:18:52,299 --> 00:18:47,419

reports like that I've never seen

432

00:18:54,430 --> 00:18:52,309

anything like that and I'm not sure that

433

00:18:56,289 --> 00:18:54,440

I would recognize a portal opening up

434

00:18:58,419 --> 00:18:56,299

I'm not sure what the support what the

435

00:19:02,470 --> 00:18:58,429

evidence is a portal opening up I don't

436

00:19:08,799 --> 00:19:02,480

know what that is yet yet yes oh no I

437

00:19:11,980 --> 00:19:08,809

agree but again on the property or

438

00:19:16,360 --> 00:19:11,990

people have been there before describe

439

00:19:20,560 --> 00:19:16,370

to me what we what we have termed a

440

00:19:23,680 --> 00:19:20,570

portal or a window opening up and if I

441

00:19:26,200 --> 00:19:23,690

ever do see it I'll let you know and to

442

00:19:27,549 --> 00:19:26,210

add to that you did say though you

443

00:19:30,460 --> 00:19:27,559

mentioned something and please correct

444

00:19:32,140 --> 00:19:30,470

me if I'm wrong while I was on the ridge

445

00:19:34,720 --> 00:19:32,150

one night one night we were there cuz we

446

00:19:37,419 --> 00:19:34,730

were there so many one night the sulfur

447

00:19:38,799 --> 00:19:37,429

smell that I picked up is that somebody

448

00:19:40,870 --> 00:19:38,809

said wasn't that an indicate now I

449

00:19:42,880 --> 00:19:40,880

didn't see anything but I definitely

450

00:19:45,640 --> 00:19:42,890

there was there was something made my

451
00:19:47,860 --> 00:19:45,650
hair stand up and I smelled something

452
00:19:51,600 --> 00:19:47,870
and so you were explaining that was it

453
00:19:54,310 --> 00:19:51,610
that people have told you I was right

454
00:19:56,380 --> 00:19:54,320
and I've seen I've made me aware that

455
00:19:58,510 --> 00:19:56,390
there are some questions about why why

456
00:20:00,549 --> 00:19:58,520
sometimes we see our personnel wearing

457
00:20:04,750 --> 00:20:00,559
these hydrogen sulphide detectors and it

458
00:20:08,350 --> 00:20:04,760
goes right to this question as it turns

459
00:20:11,590 --> 00:20:08,360
out the this the sensation of smelling

460
00:20:12,760 --> 00:20:11,600
sulfur can be exactly what it seems to

461
00:20:14,590 --> 00:20:12,770
be and that is that there are some

462
00:20:16,720 --> 00:20:14,600
sulfur compounds in the air and we're

463
00:20:20,740 --> 00:20:16,730

just we're just smelling right but

464

00:20:21,820 --> 00:20:20,750

there's another and I suspect that that

465

00:20:23,169 --> 00:20:21,830

might account for some of these

466

00:20:26,350 --> 00:20:23,179

instances where people think they're

467

00:20:33,120 --> 00:20:26,360

smelling burning tires or smoke or burnt

468

00:20:39,310 --> 00:20:36,850

we're wearing we can have what's known

469

00:20:41,740 --> 00:20:39,320

as an olfactory Colusa nation we can

470

00:20:43,630 --> 00:20:41,750

have the very real sense that we're

471

00:20:45,340 --> 00:20:43,640

smelling a sulfur compound when in fact

472

00:20:48,610 --> 00:20:45,350

it's just something to keep a stick in

473

00:20:51,630 --> 00:20:48,620

our brains and as it turns out this is

474

00:20:56,950 --> 00:20:51,640

something that can be induced by a

475

00:20:58,270 --> 00:20:56,960

transient into the magnetic field and

476

00:20:59,740 --> 00:20:58,280

that lines up with some of the other

477

00:21:02,050 --> 00:20:59,750

things that have been discussed on the

478

00:21:03,940 --> 00:21:02,060

show Jay do you want to hit the next

479

00:21:05,620 --> 00:21:03,950

next one let's jump to the next one the

480

00:21:07,750 --> 00:21:05,630

next question comes from Tom and Tom

481

00:21:10,030 --> 00:21:07,760

asks regarding the vertical light beam

482

00:21:12,160 --> 00:21:10,040

over the ridge Travis asked if there was

483

00:21:14,470 --> 00:21:12,170

a parking lot behind the ridge is it

484

00:21:16,810 --> 00:21:14,480

possible that this is a light pillar

485

00:21:18,910 --> 00:21:16,820

from a light source somewhere behind the

486

00:21:20,470 --> 00:21:18,920

ridge I love this question you know

487

00:21:21,970 --> 00:21:20,480

first of all Travis's response was

488

00:21:23,640 --> 00:21:21,980

exactly the same as mine first time I

489

00:21:28,270 --> 00:21:23,650

saw that there's got to be somebody

490

00:21:32,140 --> 00:21:28,280

beaming a light into the air I'd seen it

491

00:21:36,250 --> 00:21:32,150

not enough enough occasions that didn't

492

00:21:40,390 --> 00:21:36,260

seem plausible unless there's a really

493

00:21:41,830 --> 00:21:40,400

long running event going on but the

494

00:21:44,170 --> 00:21:41,840

question about light pillars that was

495

00:21:45,760 --> 00:21:44,180

exactly my conjecture about what might

496

00:21:48,610 --> 00:21:45,770

what might be going on there now there's

497

00:21:52,600 --> 00:21:48,620

an interesting wrinkle on this I've been

498

00:21:54,250 --> 00:21:52,610

on the property before when the the CCD

499

00:21:56,710 --> 00:21:54,260

cameras me that you know the sensor

500

00:22:01,480 --> 00:21:56,720

inside the camera is picking up at that

501
00:22:03,190 --> 00:22:01,490
vertical light feature and I've gone out

502
00:22:07,060 --> 00:22:03,200
on the helipad and I can't see it with

503
00:22:10,660 --> 00:22:07,070
my eyes so what I take from that is that

504
00:22:12,040 --> 00:22:10,670
it may contain we visible component but

505
00:22:15,550 --> 00:22:12,050
it could be something happening in the

506
00:22:17,050 --> 00:22:15,560
near-infrared now I don't I don't jump

507
00:22:19,660 --> 00:22:17,060
to the conclusion that we're looking at

508
00:22:23,890 --> 00:22:19,670
something exotic when we see this it's

509
00:22:25,690 --> 00:22:23,900
just unusual and so light pillars you

510
00:22:28,060 --> 00:22:25,700
know as a topic I think is a good place

511
00:22:29,980 --> 00:22:28,070
to start in looking for what we might

512
00:22:31,750 --> 00:22:29,990
consider a mundane explanation for it

513
00:22:33,640 --> 00:22:31,760

you know this is this is just one of

514

00:22:35,530 --> 00:22:33,650

those opportunistic observations it's

515

00:22:37,000 --> 00:22:35,540

something that stands out and and it has

516

00:22:39,960 --> 00:22:37,010

happened several times in our inter

517

00:22:42,370 --> 00:22:39,970

footage like

518

00:22:44,560 --> 00:22:42,380

all right the next the next question

519

00:22:46,480 --> 00:22:44,570

comes from Joe and Joe asks is it

520

00:22:48,669 --> 00:22:46,490

possible that the gilsu night combined

521

00:22:51,120 --> 00:22:48,679

with the minerals is creating a natural

522

00:22:55,029 --> 00:22:51,130

or designed battery capacitor

523

00:22:57,039 --> 00:22:55,039

semiconductor and/or circuit I love this

524

00:23:02,889 --> 00:22:57,049

question I love it I knew you're gonna

525

00:23:04,990 --> 00:23:02,899

love this this is the kind of discourse

526

00:23:07,690 --> 00:23:05,000

that I really think we should be

527

00:23:08,740 --> 00:23:07,700

engaging in you know it's not that I'm

528

00:23:10,360 --> 00:23:08,750

looking for

529

00:23:12,370 --> 00:23:10,370

you know prosaic treatment of every one

530

00:23:16,389 --> 00:23:12,380

of the things we see there's a really

531

00:23:19,659 --> 00:23:16,399

rich audio by scientific research going

532

00:23:21,810 --> 00:23:19,669

on that may in fact involve the gills

533

00:23:27,940 --> 00:23:21,820

tonight there's some really interesting

534

00:23:31,299 --> 00:23:27,950

geophysics or early on I did some

535

00:23:33,159 --> 00:23:31,309

research into what might be an

536

00:23:34,389 --> 00:23:33,169

explanation for the orb phenomenon

537

00:23:36,399 --> 00:23:34,399

you're probably familiar with the

538

00:23:37,779 --> 00:23:36,409

stories of Lights balls of light or how

539

00:23:39,940 --> 00:23:37,789

to roll it around well there's a

540

00:23:41,590 --> 00:23:39,950

phenomenon that has been given the name

541

00:23:44,710 --> 00:23:41,600

earthquake lights perhaps you've heard

542

00:23:47,190 --> 00:23:44,720

of it and there's some really good

543

00:23:50,680 --> 00:23:47,200

research actually fairly late-breaking

544

00:23:52,240 --> 00:23:50,690

going back to about 2014 and there are

545

00:23:55,720 --> 00:23:52,250

some individuals who have you know

546

00:23:59,259 --> 00:23:55,730

prolifically treated this topic talking

547

00:24:02,110 --> 00:23:59,269

about rift basins and in particular

548

00:24:07,269 --> 00:24:02,120

these were referred to as as vertical

549

00:24:08,830 --> 00:24:07,279

dikes of dissimilar materials like they

550

00:24:10,450 --> 00:24:08,840

didn't mean built tonight but I'm saying

551
00:24:11,740 --> 00:24:10,460
you know you have a material they're

552
00:24:15,009 --> 00:24:11,750
similar from the surrounding material

553
00:24:21,100 --> 00:24:15,019
that runs in these vertical veins again

554
00:24:23,590 --> 00:24:21,110
I am NOT a geologist and geophysicist so

555
00:24:25,980 --> 00:24:23,600
I don't want to speak out tongue but I

556
00:24:29,340 --> 00:24:25,990
find some interesting alignment between

557
00:24:34,269 --> 00:24:29,350
the discussion of both quick lights and

558
00:24:36,730 --> 00:24:34,279
what's unique about the geology there in

559
00:24:38,560 --> 00:24:36,740
the Uintah Basin and maybe the gilsu

560
00:24:40,060 --> 00:24:38,570
night plays a role it does have two

561
00:24:43,350 --> 00:24:40,070
similar physical properties from the

562
00:24:48,690 --> 00:24:46,530
I don't know this is this has happened

563
00:24:50,340 --> 00:24:48,700

and it's just because people keep asking

564

00:24:53,270 --> 00:24:50,350

me about this and it's making news

565

00:24:56,690 --> 00:24:53,280

articles not related to the ranch but

566

00:25:01,230 --> 00:24:56,700

have you ever had the hum phenomena

567

00:25:02,910 --> 00:25:01,240

happened on the ranch is this the same

568

00:25:05,160 --> 00:25:02,920

phenomenon that is associated with a

569

00:25:06,960 --> 00:25:05,170

place called Taos well it's it's

570

00:25:09,720 --> 00:25:06,970

happening all over the world actually

571

00:25:12,720 --> 00:25:09,730

which is a strange part but I believed

572

00:25:15,540 --> 00:25:12,730

house has a centralized area where that

573

00:25:17,970 --> 00:25:15,550

is going on as well right yeah I've read

574

00:25:20,100 --> 00:25:17,980

something about that and and there are

575

00:25:23,040 --> 00:25:20,110

on the internet what

576
00:25:24,990 --> 00:25:23,050
purport to be even recordings of strange

577
00:25:29,340 --> 00:25:25,000
sounds that might might be part of that

578
00:25:32,520 --> 00:25:29,350
um you know I don't think but I don't

579
00:25:36,150 --> 00:25:32,530
think what I'm hearing is the same thing

580
00:25:37,980 --> 00:25:36,160
but I am picking up some some some

581
00:25:40,890 --> 00:25:37,990
sounds for which I don't have an

582
00:25:45,170 --> 00:25:40,900
assignable cause and it is a humming in

583
00:25:50,700 --> 00:25:48,720
pulsating humming almost grinding sound

584
00:25:53,070 --> 00:25:50,710
and the first thing that comes to mind

585
00:25:54,540 --> 00:25:53,080
of course is well perhaps we're picking

586
00:25:57,150 --> 00:25:54,550
up on something from the surrounding

587
00:26:02,970 --> 00:25:57,160
aural and gas industry you know that we

588
00:26:10,020 --> 00:26:02,980

have there near the ranch I kind of I'm

589

00:26:11,850 --> 00:26:10,030

told doesn't line up with the way so yes

590

00:26:15,780 --> 00:26:11,860

there are sounds but I don't know if

591

00:26:17,760 --> 00:26:15,790

this is the same hum sure that's very

592

00:26:21,150 --> 00:26:17,770

interesting though yeah you're gonna

593

00:26:25,830 --> 00:26:21,160

start a whole new line it's actually

594

00:26:29,580 --> 00:26:25,840

it's quite haunting yes it is scary I've

595

00:26:31,650 --> 00:26:29,590

heard this it's violent enough to shake

596

00:26:34,230 --> 00:26:31,660

the inside of the cameras whose

597

00:26:38,100 --> 00:26:34,240

microphones are picking are picking it

598

00:26:40,440 --> 00:26:38,110

up and so I have you know you've got to

599

00:26:42,780 --> 00:26:40,450

understand you know my job is is not to

600

00:26:45,950 --> 00:26:42,790

sensationalize my job is to try to find

601
00:26:49,220 --> 00:26:45,960
assignable cause I won't call it mundane

602
00:26:51,720 --> 00:26:49,230
but but at least something that

603
00:26:53,070 --> 00:26:51,730
harmonizes with reason right you know we

604
00:26:55,320 --> 00:26:53,080
don't have to go straight to the

605
00:26:57,120 --> 00:26:55,330
interdimensional and the exotic in order

606
00:26:58,860 --> 00:26:57,130
to find an explanation for every

607
00:27:04,010 --> 00:26:58,870
that takes place and so you know when

608
00:27:08,910 --> 00:27:04,020
I've got a humming sound or a buzzing

609
00:27:11,940 --> 00:27:08,920
pulsating sound such as I often hear you

610
00:27:15,180 --> 00:27:11,950
know I'm looking for that this is some

611
00:27:16,230 --> 00:27:15,190
kind of its former noise or maybe it's

612
00:27:17,460 --> 00:27:16,240
something that's coming in on the

613
00:27:20,820 --> 00:27:17,470

electric lines you know onto the

614

00:27:24,840 --> 00:27:20,830

property so far I haven't been able to

615

00:27:26,460 --> 00:27:24,850

pin it in an explanation on the fact

616

00:27:29,610 --> 00:27:26,470

that you just mentioned potentially

617

00:27:31,470 --> 00:27:29,620

electric lines or other mundane

618

00:27:33,240 --> 00:27:31,480

explanations like people want to hear

619

00:27:34,860 --> 00:27:33,250

that because a lot of people think like

620

00:27:37,890 --> 00:27:34,870

oh I cracked the case did you think

621

00:27:39,600 --> 00:27:37,900

about the power lines well of course I

622

00:27:42,270 --> 00:27:39,610

thought about the power lines thank you

623

00:27:44,340 --> 00:27:42,280

sir but that's a bad thing I mean all

624

00:27:49,620 --> 00:27:44,350

these all this feedback is great but

625

00:27:52,050 --> 00:27:49,630

still I want to encourage it you know

626

00:27:53,700 --> 00:27:52,060

absolutely I the more people start

627

00:27:55,770 --> 00:27:53,710

thinking about this critically I think

628

00:27:57,510 --> 00:27:55,780

that the better at least one of the

629

00:27:59,070 --> 00:27:57,520

agendas here at the ranch is served and

630

00:28:00,650 --> 00:27:59,080

that is let's let's elevate the quality

631

00:28:03,930 --> 00:28:00,660

of a discourse and let's think about

632

00:28:05,190 --> 00:28:03,940

let's go through that that the due

633

00:28:07,920 --> 00:28:05,200

diligence you know the process of

634

00:28:09,120 --> 00:28:07,930

elimination and who knows you know

635

00:28:11,160 --> 00:28:09,130

somewhere in there we're going to find

636

00:28:15,540 --> 00:28:11,170

something that really defies prosaic

637

00:28:17,790 --> 00:28:15,550

treatment excellent so where did we

638

00:28:20,070 --> 00:28:17,800

leave off I mean are we on to this so

639

00:28:22,290 --> 00:28:20,080

email let's jump one more question from

640

00:28:24,930 --> 00:28:22,300

email this question comes from Ryan and

641

00:28:26,970 --> 00:28:24,940

Ryan asks have you or anyone at the

642

00:28:29,010 --> 00:28:26,980

ranch seen any craft like the ones the

643

00:28:31,440 --> 00:28:29,020

Pentagon posted the other day and if so

644

00:28:32,970 --> 00:28:31,450

how many different types of craft had

645

00:28:37,260 --> 00:28:32,980

the crew witness since being on the

646

00:28:39,120 --> 00:28:37,270

ranch I can only speak for myself I

647

00:28:41,100 --> 00:28:39,130

think that it would be inappropriate for

648

00:28:43,040 --> 00:28:41,110

me to preempt anything that might be

649

00:28:45,390 --> 00:28:43,050

shared by the other members of the team

650

00:28:48,090 --> 00:28:45,400

and not only that I think I would be

651
00:28:52,380 --> 00:28:48,100
poor job of paraphrasing what they have

652
00:28:54,870 --> 00:28:52,390
seen this this short answer to have

653
00:28:57,620 --> 00:28:54,880
members of the team seen what they

654
00:29:01,800 --> 00:28:57,630
interpret his craft over the ranch's yes

655
00:29:06,780 --> 00:29:01,810
my answer is you know I'm going to toe

656
00:29:10,529 --> 00:29:06,790
this line my answer is I have seen

657
00:29:13,079 --> 00:29:10,539
things in the video footage for

658
00:29:15,930 --> 00:29:13,089
I do not have an assignable cause it

659
00:29:18,060 --> 00:29:15,940
doesn't mean that I'm dealing with UFOs

660
00:29:21,419 --> 00:29:18,070
okay it doesn't necessarily mean that

661
00:29:24,239 --> 00:29:21,429
that this is something exotic it could

662
00:29:26,789 --> 00:29:24,249
be anything from aircraft that are not

663
00:29:29,129 --> 00:29:26,799

self identifying for example you know

664

00:29:30,689 --> 00:29:29,139

there's a system called a DSP or yuuichi

665

00:29:33,089 --> 00:29:30,699

you know they broadcast and identified

666

00:29:36,629 --> 00:29:33,099

normally in controlled airspace they're

667

00:29:38,339 --> 00:29:36,639

supposed to do that well perhaps in the

668

00:29:39,719 --> 00:29:38,349

area where the ranch is located we have

669

00:29:41,159 --> 00:29:39,729

some aircraft certainly I know there

670

00:29:42,569 --> 00:29:41,169

have been cases at least in the daytime

671

00:29:44,159 --> 00:29:42,579

when I've seen aircraft but I haven't

672

00:29:46,769 --> 00:29:44,169

seen them showing up on my transponder

673

00:29:50,819 --> 00:29:46,779

data receivers so perhaps we're seeing

674

00:29:54,839 --> 00:29:50,829

that but there has been or there have

675

00:30:01,169 --> 00:29:54,849

been two instances that I find really

676

00:30:02,759 --> 00:30:01,179

hard to to missing that matter and I

677

00:30:04,919 --> 00:30:02,769

don't know how much I should say about

678

00:30:06,719 --> 00:30:04,929

that at this point yeah listen uh it

679

00:30:11,699 --> 00:30:06,729

doesn't go too far into it I mean I

680

00:30:14,189 --> 00:30:11,709

think as we get there right yeah yes

681

00:30:17,609 --> 00:30:14,199

let's let it sit you know simmer a

682

00:30:19,529 --> 00:30:17,619

little bit I I was super surprised when

683

00:30:22,079 --> 00:30:19,539

I heard that you know you guys have

684

00:30:23,999 --> 00:30:22,089

encountered planes flying over the ranch

685

00:30:26,099 --> 00:30:24,009

that you know aren't putting out a

686

00:30:28,049 --> 00:30:26,109

transponder signal I mean that to me was

687

00:30:29,579 --> 00:30:28,059

crazy to hear that you've encountered

688

00:30:37,649 --> 00:30:29,589

that more than once I mean that's just

689

00:30:38,759 --> 00:30:37,659

bizarre and not being a pilot I don't

690

00:30:40,319 --> 00:30:38,769

know whether they can just flip a switch

691

00:30:41,729 --> 00:30:40,329

and turn that off

692

00:30:45,869 --> 00:30:41,739

you know I don't know what we're dealing

693

00:30:47,099 --> 00:30:45,879

with there are there I would assume at

694

00:30:50,159 --> 00:30:47,109

least a lot of them look like private

695

00:30:53,399 --> 00:30:50,169

aircraft and perhaps they routinely

696

00:30:55,739 --> 00:30:53,409

don't broadcast self-identification I

697

00:30:58,199 --> 00:30:55,749

don't know a lot of a lot of potential

698

00:31:00,719 --> 00:30:58,209

explanations there and I think as we go

699

00:31:04,019 --> 00:31:00,729

on hopefully we'll continue to you know

700

00:31:06,029 --> 00:31:04,029

peel back the layers on that but so

701
00:31:08,789 --> 00:31:06,039
these that was Ryan's question you said

702
00:31:11,129 --> 00:31:08,799
Jason that was last one oh no I'm sorry

703
00:31:13,169 --> 00:31:11,139
yes a lot yeah last one will do from

704
00:31:15,899 --> 00:31:13,179
email cool Maureen why don't you take

705
00:31:18,479 --> 00:31:15,909
the Twitter ones yeah um first off let

706
00:31:21,809 --> 00:31:18,489
me say that that don't feel bad by by

707
00:31:22,230 --> 00:31:21,819
saying they're UFOs Jason and I always

708
00:31:27,210 --> 00:31:22,240
use

709
00:31:29,010 --> 00:31:27,220
mean they're extraterrestrial in nature

710
00:31:31,680 --> 00:31:29,020
or something unusual

711
00:31:33,510 --> 00:31:31,690
it's just unidentified that's right but

712
00:31:35,970 --> 00:31:33,520
I thought why you specify for sure I

713
00:31:37,350 --> 00:31:35,980

have to say this to you guys I said that

714

00:31:39,120 --> 00:31:37,360

to Eric and that's what he really

715

00:31:41,549 --> 00:31:39,130

appreciated the fact that you two are

716

00:31:43,560 --> 00:31:41,559

both looking at it from that standpoint

717

00:31:53,850 --> 00:31:43,570

you're not making the velcro there for

718

00:31:55,470 --> 00:31:53,860

aliens I mean we fought forever with

719

00:31:56,730 --> 00:31:55,480

that because we always wanted people to

720

00:31:58,830 --> 00:31:56,740

know just because we're covering and

721

00:32:00,450 --> 00:31:58,840

saying something's a UFO we're not

722

00:32:02,340 --> 00:32:00,460

guaranteeing that it's flown by an

723

00:32:06,840 --> 00:32:02,350

intelligent extraterrestrial

724

00:32:10,830 --> 00:32:06,850

civilization not ours at that point yeah

725

00:32:12,540 --> 00:32:10,840

so I don't know if you've seen this or

726
00:32:15,210 --> 00:32:12,550
not because I know you're not on social

727
00:32:18,450 --> 00:32:15,220
media but I'm guessing someone has has

728
00:32:21,030 --> 00:32:18,460
shown this theory tear but Timothy asks

729
00:32:24,480 --> 00:32:21,040
what you think about noted debunker Mik

730
00:32:26,970 --> 00:32:24,490
West his theory he's taken a stance on

731
00:32:29,549 --> 00:32:26,980
the against the second UFO sighting on

732
00:32:31,860 --> 00:32:29,559
Episode four he explains the UFO is a

733
00:32:34,620 --> 00:32:31,870
plane in close proximity to the plane

734
00:32:37,169 --> 00:32:34,630
that is also in frame can you come Tom

735
00:32:39,120 --> 00:32:37,179
this so I think it's important for me to

736
00:32:46,760 --> 00:32:39,130
make a point that yes there was air

737
00:32:52,110 --> 00:32:46,770
traffic near the well in the air space

738
00:32:54,510 --> 00:32:52,120

air traffic I know that aircraft

739

00:32:58,110 --> 00:32:54,520

frequently fly through the basement

740

00:33:02,610 --> 00:32:58,120

right over the ranch I didn't put city

741

00:33:09,960 --> 00:33:02,620

and beyond and the point that I would

742

00:33:13,370 --> 00:33:09,970

make is that I can count for one

743

00:33:17,810 --> 00:33:13,380

particular event for which I

744

00:33:18,170 --> 00:33:17,820

that doesn't mean I don't have to date

745

00:33:22,040 --> 00:33:18,180

her

746

00:33:24,260 --> 00:33:22,050

I think that yeah as TJ mentioned it's

747

00:33:26,180 --> 00:33:24,270

still under the wraps because we asked a

748

00:33:28,610 --> 00:33:26,190

question about this kind of last week

749

00:33:30,560 --> 00:33:28,620

Jason and I when he asked what we do

750

00:33:32,780 --> 00:33:30,570

further an investigation about

751
00:33:35,000 --> 00:33:32,790
contacting the specific flame that was

752
00:33:37,660 --> 00:33:35,010
was passing by so we'll leave that as a

753
00:33:39,640 --> 00:33:37,670
tease for it for a future episode

754
00:33:42,740 --> 00:33:39,650
because I know we'll probably hit that

755
00:33:45,410 --> 00:33:42,750
so I'll tell you this just just just so

756
00:33:50,450 --> 00:33:45,420
bit it's understood that we do our due

757
00:33:51,980 --> 00:33:50,460
diligence after the fact you know I've

758
00:33:55,220 --> 00:33:51,990
downloaded what are known as the kml

759
00:33:58,430 --> 00:33:55,230
files which are conveniently mapable on

760
00:34:01,040 --> 00:33:58,440
to something like google earth so that I

761
00:34:03,560 --> 00:34:01,050
can so that I can view in in you know in

762
00:34:09,320 --> 00:34:03,570
three-dimensional space I can view the

763
00:34:12,950 --> 00:34:09,330

the flight path of aircraft from the

764

00:34:16,700 --> 00:34:12,960

perspective of the ranch and yes I can

765

00:34:18,460 --> 00:34:16,710

account for some of your traffic how do

766

00:34:22,070 --> 00:34:18,470

you account for a lot of it that way

767

00:34:26,360 --> 00:34:22,080

there's there's one particular event

768

00:34:27,710 --> 00:34:26,370

that I'm not so sure about we'll get to

769

00:34:31,430 --> 00:34:27,720

that and I think we had a good

770

00:34:32,690 --> 00:34:31,440

discussion about this last week you know

771

00:34:37,369 --> 00:34:32,700

because I think a lot of the confusion

772

00:34:40,270 --> 00:34:37,379

that these debunkers who you know wanted

773

00:34:42,980 --> 00:34:40,280

to analyze a TV show entirely too much

774

00:34:44,720 --> 00:34:42,990

where we're commenting on you know

775

00:34:46,220 --> 00:34:44,730

different different time discrepancies

776
00:34:48,770 --> 00:34:46,230
and things when this thing was happening

777
00:34:51,409 --> 00:34:48,780
and in trying to sleuth this thing

778
00:34:53,000 --> 00:34:51,419
together but you know we heard a pretty

779
00:34:57,080 --> 00:34:53,010
good explanation last week and again

780
00:34:58,880 --> 00:34:57,090
it's TV the the editing isn't it's not

781
00:35:00,650 --> 00:34:58,890
happening in real time and sometimes the

782
00:35:02,300 --> 00:35:00,660
b-roll that's used to show something on

783
00:35:07,580 --> 00:35:02,310
a screen isn't what's happening at that

784
00:35:10,970 --> 00:35:07,590
moment that's an i I don't know if the

785
00:35:12,560 --> 00:35:10,980
point was was made clearly that that the

786
00:35:14,180 --> 00:35:12,570
event that was just described involving

787
00:35:16,160 --> 00:35:14,190
a pair of objects one of them having a

788
00:35:19,970 --> 00:35:16,170

contrail and the other one not was not

789

00:35:23,660 --> 00:35:19,980

the first event and if that point wasn't

790

00:35:25,700 --> 00:35:23,670

made then I'm making it here so we we

791

00:35:27,140 --> 00:35:25,710

tried to clarify like these things were

792

00:35:28,940 --> 00:35:27,150

not necessarily in chronological

793

00:35:31,789 --> 00:35:28,950

and the images you're seeing on screen

794

00:35:33,620 --> 00:35:31,799

as the clinical b-roll which in the

795

00:35:36,529 --> 00:35:33,630

b-roll they usually refer to a b-roll as

796

00:35:39,380 --> 00:35:36,539

Beauty role so you're showing that to

797

00:35:41,180 --> 00:35:39,390

move a story along or to show backstory

798

00:35:42,829 --> 00:35:41,190

as someone's talking over it so just

799

00:35:44,120 --> 00:35:42,839

because it's a timestamp on the b-roll

800

00:35:45,589 --> 00:35:44,130

does not necessarily mean that is

801
00:35:49,130 --> 00:35:45,599
exactly what you were looking at right

802
00:35:51,620 --> 00:35:49,140
right yeah I I'm talking about the tease

803
00:35:53,299 --> 00:35:51,630
about whether or not you contacted the

804
00:35:56,870 --> 00:35:53,309
plane to see what they saw the well

805
00:36:01,970 --> 00:35:56,880
charted that I'm saying we we obviously

806
00:36:04,099 --> 00:36:01,980
can't talk about yet know where asks

807
00:36:07,279 --> 00:36:04,109
could skinwalker ranch be built over a

808
00:36:09,049 --> 00:36:07,289
natural fish on nuclear reactor and by

809
00:36:12,289 --> 00:36:09,059
those products we're talking xenon in

810
00:36:15,380 --> 00:36:12,299
neodymium so Eric would this explain the

811
00:36:18,859 --> 00:36:15,390
magnetic anomalies ionizing radiation

812
00:36:22,120 --> 00:36:18,869
the lights discharges deleterious health

813
00:36:24,380 --> 00:36:22,130

effects and the wind from the sinkhole

814

00:36:28,099 --> 00:36:24,390

you know I don't know about the last one

815

00:36:31,009 --> 00:36:28,109

but you know if we had something like a

816

00:36:33,650 --> 00:36:31,019

natural fission reactor

817

00:36:36,289 --> 00:36:33,660

you know beneath the ranch or perhaps in

818

00:36:38,660 --> 00:36:36,299

the Mesa or under the fields out there

819

00:36:40,039 --> 00:36:38,670

that I wouldn't be surprised to see some

820

00:36:42,829 --> 00:36:40,049

of the effects that have been mentioned

821

00:36:47,239 --> 00:36:42,839

I can't say anything about the

822

00:36:50,299 --> 00:36:47,249

prevalence of neodymium or or xenon gas

823

00:36:51,589 --> 00:36:50,309

I think was the other one but I would

824

00:36:55,210 --> 00:36:51,599

certainly expect to be able to eat

825

00:37:02,569 --> 00:37:00,170

yeah okay we do have a chief asks Wendy

826

00:37:04,579 --> 00:37:02,579

when do you attend to release a paper or

827

00:37:07,160 --> 00:37:04,589

data on your findings and you have a

828

00:37:09,349 --> 00:37:07,170

timeline for other releases developments

829

00:37:10,759 --> 00:37:09,359

for the public you know that's not up to

830

00:37:13,069 --> 00:37:10,769

me but it's definitely something that

831

00:37:17,569 --> 00:37:13,079

we've discussed and I guess that's all

832

00:37:18,769 --> 00:37:17,579

very TBD yes I think I think Brandon is

833

00:37:22,430 --> 00:37:18,779

going to get into that a little bit more

834

00:37:27,079 --> 00:37:22,440

in weeks to come right I have to defer

835

00:37:29,089 --> 00:37:27,089

to guidance on that cool I mean the fact

836

00:37:30,430 --> 00:37:29,099

that you're thinking about doing papers

837

00:37:33,769 --> 00:37:30,440

and releasing them to the public

838

00:37:37,239 --> 00:37:33,779

scientific papers is awesome on its own

839

00:37:39,470 --> 00:37:37,249

so I think that's good to touch on I'm

840

00:37:40,990 --> 00:37:39,480

sorry I think it would be very

841

00:37:44,300 --> 00:37:41,000

satisfying to share

842

00:37:46,070 --> 00:37:44,310

something in that that type with them

843

00:37:48,290 --> 00:37:46,080

public I hope we have the opportunity to

844

00:37:51,140 --> 00:37:48,300

do that Eric before she goes to the next

845

00:37:53,630 --> 00:37:51,150

one you told me something long long ago

846

00:37:56,510 --> 00:37:53,640

many moons ago you know why this is so

847

00:37:58,550 --> 00:37:56,520

important for it to be released to the

848

00:38:00,230 --> 00:37:58,560

people for people to kind of examine

849

00:38:01,460 --> 00:38:00,240

this and I think your quote was

850

00:38:05,060 --> 00:38:01,470

something about if this can help you

851
00:38:06,110 --> 00:38:05,070
take your right could you can you I was

852
00:38:10,760 --> 00:38:06,120
paraphrasing but please could you just

853
00:38:13,940 --> 00:38:10,770
kind of you know when I was in Dallas

854
00:38:17,120 --> 00:38:13,950
that may be in con

855
00:38:18,110 --> 00:38:17,130
I remember being greeted by a it's

856
00:38:19,430 --> 00:38:18,120
interesting that I can actually remember

857
00:38:22,250 --> 00:38:19,440
these guys names you know but there was

858
00:38:26,240 --> 00:38:22,260
there was a kid on the street his name

859
00:38:28,160 --> 00:38:26,250
was Nico and he stopped me and and Tom

860
00:38:29,390 --> 00:38:28,170
he said hey I recognize you guys you're

861
00:38:32,450 --> 00:38:29,400
you were talking in that session

862
00:38:36,950 --> 00:38:32,460
yesterday and in our conversation you

863
00:38:38,780 --> 00:38:36,960

know what came out as I heard myself say

864

00:38:42,680 --> 00:38:38,790

it I thought hey this really feels right

865

00:38:44,930 --> 00:38:42,690

and I what I said to film like what you

866

00:38:47,630 --> 00:38:44,940

know we're all involved in a search of

867

00:38:48,890 --> 00:38:47,640

one kind or another and I think that my

868

00:38:51,770 --> 00:38:48,900

search is a success

869

00:38:54,380 --> 00:38:51,780

did you finish that it enabled or in

870

00:38:57,710 --> 00:38:54,390

some way the doors and I think that's

871

00:39:00,440 --> 00:38:57,720

the outlook there that I'm approaching

872

00:39:02,630 --> 00:39:00,450

my role with did I know there are a lot

873

00:39:04,880 --> 00:39:02,640

of people you know on the next day I you

874

00:39:07,940 --> 00:39:04,890

know I kind of revisited that story with

875

00:39:08,900 --> 00:39:07,950

the Pope ability to conduct it and I

876

00:39:13,100 --> 00:39:08,910

don't know how many people are in that

877

00:39:15,110 --> 00:39:13,110

room that you and I said you know if if

878

00:39:16,420 --> 00:39:15,120

if I were to ask but show of hands how

879

00:39:18,400 --> 00:39:16,430

many people consider themselves

880

00:39:21,260 --> 00:39:18,410

you know how many people are looking

881

00:39:23,420 --> 00:39:21,270

looking for something I'm saying every

882

00:39:25,880 --> 00:39:23,430

hand in that ring would go up and you

883

00:39:33,070 --> 00:39:25,890

know I got a lot of nods and so I

884

00:39:36,320 --> 00:39:35,150

and so I hope I've made the point

885

00:39:40,280 --> 00:39:36,330

clearly enough without belaboring

886

00:39:42,140 --> 00:39:40,290

absolutely yep I think some telly so

887

00:39:44,150 --> 00:39:42,150

Eric we're gonna hit the there's a few

888

00:39:47,270 --> 00:39:44,160

more questions for Facebook and I'll

889

00:39:52,370 --> 00:39:47,280

just jump into them okay so we have a

890

00:39:54,430 --> 00:39:52,380

Claire has Claire asks has Eric ever had

891

00:39:57,000 --> 00:39:54,440

any personal experiences on the ranch

892

00:40:00,160 --> 00:39:57,010

that have made him feel scared or uneasy

893

00:40:02,230 --> 00:40:00,170

people have previously talked of being

894

00:40:05,170 --> 00:40:02,240

emotionally affected on the ranch with

895

00:40:08,589 --> 00:40:05,180

fear and I wondered if he had ever

896

00:40:14,770 --> 00:40:08,599

encountered anything like this yes I

897

00:40:16,210 --> 00:40:14,780

have and I'm in good company okay we

898

00:40:18,460 --> 00:40:16,220

will leave it at that these are things

899

00:40:19,990 --> 00:40:18,470

again these answers and stuff that we're

900

00:40:23,230 --> 00:40:20,000

getting just so the audience knows like

901
00:40:26,050 --> 00:40:23,240
a lot of this more information will come

902
00:40:28,030 --> 00:40:26,060
we're not being coy to be coy we're not

903
00:40:30,520 --> 00:40:28,040
trying to be mysterious there are you

904
00:40:32,829 --> 00:40:30,530
know things will come out as we go on

905
00:40:35,559 --> 00:40:32,839
and I think people appreciate them more

906
00:40:38,770 --> 00:40:35,569
because of be in a better context Larry

907
00:40:41,740 --> 00:40:38,780
from facebook asks can Eric say if any

908
00:40:44,109 --> 00:40:41,750
government agencies have tried to deter

909
00:40:47,050 --> 00:40:44,119
them from their investigations on the

910
00:40:49,990 --> 00:40:47,060
ranch so you know I've been asked a

911
00:40:52,690 --> 00:40:50,000
question like this before and I think I

912
00:40:56,770 --> 00:40:52,700
should answer the same way now as I have

913
00:40:58,020 --> 00:40:56,780

before so if I were to say no could you

914

00:41:01,660 --> 00:40:58,030

trust the answer could you trust me

915

00:41:03,640 --> 00:41:01,670

right if I if I were to say yes so then

916

00:41:05,800 --> 00:41:03,650

you know go into it after having

917

00:41:08,710 --> 00:41:05,810

presumably committed not to share

918

00:41:10,990 --> 00:41:08,720

something then could you trust me so I

919

00:41:13,390 --> 00:41:11,000

think I have to deal with the lesser of

920

00:41:14,920 --> 00:41:13,400

perhaps three evils the third one being

921

00:41:16,540 --> 00:41:14,930

to say nothing at all and what I'm gonna

922

00:41:19,020 --> 00:41:16,550

say is no I have not received any

923

00:41:23,890 --> 00:41:19,030

instructions for me government entities

924

00:41:26,589 --> 00:41:23,900

not reveal anything and I hope that my

925

00:41:28,599 --> 00:41:26,599

answer is sincere enough that you can

926

00:41:32,680 --> 00:41:28,609

you can weigh out whether you believe it

927

00:41:35,800 --> 00:41:32,690

or not actually thank you this is from

928

00:41:37,450 --> 00:41:35,810

Rick Leigh Whannell on Facebook he says

929

00:41:40,359 --> 00:41:37,460

I would like to know what types of

930

00:41:42,550 --> 00:41:40,369

vibratory and frequency testing that

931

00:41:50,500 --> 00:41:42,560

they have completed on the Mesa and the

932

00:41:54,240 --> 00:41:50,510

ranch so ongoing we are as I've

933

00:41:58,359 --> 00:41:54,250

mentioned before we are measuring

934

00:41:59,710 --> 00:41:58,369

seismic and infrasonic meaning sounds

935

00:42:03,390 --> 00:41:59,720

that are below the range of human

936

00:42:07,240 --> 00:42:03,400

hearing low-frequency sounds as well as

937

00:42:12,450 --> 00:42:07,250

sounds that are in the audible range

938

00:42:15,849 --> 00:42:12,460

of course electromagnetic frequencies

939

00:42:18,790 --> 00:42:15,859

all at the same time and so hopefully

940

00:42:23,620 --> 00:42:18,800

I've answered the question completed no

941

00:42:25,839 --> 00:42:23,630

they're ongoing excellent we have just a

942

00:42:29,140 --> 00:42:25,849

few more here now a couple more

943

00:42:31,540 --> 00:42:29,150

Annamarie says I remember I believe in

944

00:42:33,910 --> 00:42:31,550

the first episode that there was a

945

00:42:36,730 --> 00:42:33,920

discussion of pictures of the Mesa being

946

00:42:38,890 --> 00:42:36,740

taken with cell phone cameras that we're

947

00:42:41,589 --> 00:42:38,900

experiencing some odd static or some

948

00:42:44,500 --> 00:42:41,599

distortion like that why did this not

949

00:42:47,470 --> 00:42:44,510

happen to the History Channel cameras

950

00:42:49,089 --> 00:42:47,480

I love the kind of thinking that is on

951
00:42:54,040 --> 00:42:49,099
display here because that's a perfectly

952
00:42:56,560 --> 00:42:54,050
reasonable question and I can go into

953
00:42:58,690 --> 00:42:56,570
the details of what happened with with

954
00:43:00,730 --> 00:42:58,700
the cameras or the devices that have

955
00:43:03,460 --> 00:43:00,740
malfunctioned but to go straight to the

956
00:43:05,560 --> 00:43:03,470
question itself it has to be understood

957
00:43:07,660 --> 00:43:05,570
that that whatever is taking place on

958
00:43:10,810 --> 00:43:07,670
the ranch is transient and transient

959
00:43:15,370 --> 00:43:10,820
means it comes goes it's episodic it it

960
00:43:18,910 --> 00:43:15,380
isn't always happening and I hope that

961
00:43:21,849 --> 00:43:18,920
that's a satisfactory answer I can add

962
00:43:24,220 --> 00:43:21,859
to that as well that it it did in fact

963
00:43:28,359 --> 00:43:24,230

happen to some of the production cameras

964

00:43:30,070 --> 00:43:28,369

at times so that's right so it's it's

965

00:43:31,329 --> 00:43:30,080

not that you're not gonna see that we're

966

00:43:33,099 --> 00:43:31,339

not going to necessarily break that

967

00:43:34,750 --> 00:43:33,109

fourth wall on the show and just like

968

00:43:36,970 --> 00:43:34,760

say oh no the production cameras went

969

00:43:38,200 --> 00:43:36,980

down but just no and I mean Eric can

970

00:43:42,250 --> 00:43:38,210

attest to that that there were times

971

00:43:44,260 --> 00:43:42,260

where equipment malfunctioned that's

972

00:43:49,180 --> 00:43:44,270

right I've seen I've seen equipment of

973

00:43:51,490 --> 00:43:49,190

almost every kind malfunction and even

974

00:43:53,170 --> 00:43:51,500

be damaged by something that is

975

00:43:54,099 --> 00:43:53,180

prevalent on that property but again

976

00:43:57,849 --> 00:43:54,109

it's transient

977

00:44:00,760 --> 00:43:57,859

okay and so the the last one we have

978

00:44:03,700 --> 00:44:00,770

from Facebook here is from Darlene and

979

00:44:07,599 --> 00:44:03,710

she said can the UFOs and lights in the

980

00:44:14,130 --> 00:44:07,609

sky be seen from other locations not on

981

00:44:18,880 --> 00:44:14,140

the ranch I think there's a fairly rich

982

00:44:20,380 --> 00:44:18,890

tradition a history of sightings of this

983

00:44:23,319 --> 00:44:20,390

kind

984

00:44:26,049 --> 00:44:23,329

throughout the basin in fact yes I know

985

00:44:28,870 --> 00:44:26,059

that that individuals who have lived

986

00:44:32,559 --> 00:44:28,880

near the ranch's itself have reported

987

00:44:37,150 --> 00:44:32,569

seeing things why not on some of them

988

00:44:39,190 --> 00:44:37,160

luminous others appearing metallic but

989

00:44:41,349 --> 00:44:39,200

you know I can't I don't want to

990

00:44:44,370 --> 00:44:41,359

speculate on on that I don't want to

991

00:44:48,930 --> 00:44:44,380

interpret that the short answer is yes

992

00:44:50,380 --> 00:44:48,940

well have reported having seen things

993

00:44:53,349 --> 00:44:50,390

awesome

994

00:44:56,289 --> 00:44:53,359

well Eric that is the extent of our

995

00:44:57,759 --> 00:44:56,299

questions for right now you know over

996

00:44:59,650 --> 00:44:57,769

the week there were some really good

997

00:45:01,210 --> 00:44:59,660

questions in there I mean and I think

998

00:45:03,160 --> 00:45:01,220

the three of us did a pretty decent job

999

00:45:05,980 --> 00:45:03,170

of filtering them out and giving you the

1000

00:45:07,420 --> 00:45:05,990

the ones that actually I think you know

1001
00:45:08,890 --> 00:45:07,430
you did a great job addressing and we

1002
00:45:10,480 --> 00:45:08,900
appreciate that thank you so guys I

1003
00:45:13,509 --> 00:45:10,490
really appreciate questions like this

1004
00:45:16,450 --> 00:45:13,519
and you know I hope you know I I mean to

1005
00:45:18,069 --> 00:45:16,460
be receptive to them and I appreciate

1006
00:45:21,549 --> 00:45:18,079
the opportunity to field some of them

1007
00:45:24,789 --> 00:45:21,559
and hopefully to engage in a lively

1008
00:45:26,490 --> 00:45:24,799
discourse all of all of these are really

1009
00:45:28,240 --> 00:45:26,500
good ideas that are being put out there

1010
00:45:31,029 --> 00:45:28,250
so come on

1011
00:45:33,579 --> 00:45:31,039
so and now that you've said that how

1012
00:45:36,519 --> 00:45:33,589
about you join us again next week we

1013
00:45:38,620 --> 00:45:36,529

could be awesome because we'll have an

1014

00:45:40,210 --> 00:45:38,630

episode I mean great I'm happy you're

1015

00:45:42,519 --> 00:45:40,220

into it we have an episode next week

1016

00:45:43,809 --> 00:45:42,529

you know episode five and people can

1017

00:45:46,210 --> 00:45:43,819

just keep throwing questions our way

1018

00:45:47,589 --> 00:45:46,220

we'll filter them out and not only would

1019

00:45:50,259 --> 00:45:47,599

we have these questions but we'll have

1020

00:45:51,730 --> 00:45:50,269

an episode to kind of dissect and what

1021

00:45:52,960 --> 00:45:51,740

did Tom say you guys Tom said this was

1022

00:45:56,980 --> 00:45:52,970

one of the episodes is going to produce

1023

00:45:58,569 --> 00:45:56,990

the most data or he said yeah but most

1024

00:46:01,660 --> 00:45:58,579

data and this is the one he's most

1025

00:46:08,279 --> 00:46:01,670

excited for he thinks because he has not

1026
00:46:10,660 --> 00:46:08,289
seen it allegedly is us very excited yes

1027
00:46:11,799 --> 00:46:10,670
Eric so if you come back next week we'd

1028
00:46:14,950 --> 00:46:11,809
love to have you that would be awesome

1029
00:46:16,210 --> 00:46:14,960
and we'll go over the next episode we'll

1030
00:46:19,029 --> 00:46:16,220
dissect that and you can give us some

1031
00:46:21,549 --> 00:46:19,039
backstory into that as well so but for

1032
00:46:23,890 --> 00:46:21,559
this week that's it for us on the scene

1033
00:46:26,680 --> 00:46:23,900
Walker debrief so be sure to join us

1034
00:46:29,079 --> 00:46:26,690
next week and we'll be here to dissect

1035
00:46:31,450 --> 00:46:29,089
that next episode with our special guest

1036
00:46:33,970 --> 00:46:31,460
Eric again and don't forget to tune in

1037
00:46:35,980 --> 00:46:33,980
to the History Channel this choose

1038
00:46:38,470 --> 00:46:35,990

may 5th at 10:00 p.m. we're back a

1039

00:46:40,210 --> 00:46:38,480

regular night regular time for Episode

1040

00:46:42,640 --> 00:46:40,220

five of the secretive skinwalker ranch

1041

00:46:45,670 --> 00:46:42,650

and the title of the next episode is

1042

00:46:49,270 --> 00:46:45,680

called dangerous curves and just to give

1043

00:46:51,220 --> 00:46:49,280

you a little teaser it says advanced

1044

00:46:53,280 --> 00:46:51,230

testing shows evidence of strange

1045

00:46:56,820 --> 00:46:53,290

anomalies under the ranch and Brandon

1046

00:46:58,900 --> 00:46:56,830

finally gives the team permission to dig

1047

00:47:01,060 --> 00:46:58,910

so I think that'll be a big payoff for

1048

00:47:03,580 --> 00:47:01,070

everyone so again thank you everyone for
